77.32.014 Licenses, tags, and stamps—Revocation/privileges suspended for noncompliance with support order. Licenses, tags, and stamps issued pursuant to this chapter shall be revoked and the privileges suspended for any period in which a person is certified by the department of social and health services or a court of competent jurisdiction as a person in noncompliance with a support order. Fish and wildlife officers and ex officio fish and wildlife officers shall enforce this section through checks of the department of licensing’s computer database. A listing on the department of licensing’s database that an individual’s license is currently suspended pursuant to RCW 46.20.291(8) shall be prima facie evidence that the individual is in noncompliance with a support order. Presentation of a written release issued by the department of social and health services stating that the person is in compliance with an order shall serve as prima facie proof of compliance with a support order. 77.32.050 Recreational licenses, permits, tags, stamps, and raffle tickets issued by authorized officials—Rules—Fees—Transaction fee. (1) All recreational licenses, permits, tags, and stamps required by this title and raffle tickets authorized under chapter 77.12 RCW shall be issued under the authority of the commission. The commission shall adopt rules for the issuance of recreational licenses, permits, tags, stamps, and raffle tickets, and for the collection, payment, and handling of license fees, terms and conditions to govern dealers, and dealers’ fees. A transaction fee on recreational documents issued through an automated licensing system may be set by the commission and collected from licensees. The department may authorize all or part of such fee to be paid directly to a contractor providing automated licensing system services. Fees retained by dealers shall be uniform throughout the state. The department shall authorize dealers to collect and retain dealer fees of at least two dollars for purchase of a standard hunting or fishing recreational license document, except that the commission may set a lower dealer fee for issuance of tags or when a licensee buys a license that involves a stamp or display card format rather than a standard department licensing document form.

(2) For the 2009-2011 biennium, the department shall charge an additional transaction fee of ten percent on all recreational licenses, permits, tags, stamps, or raffle tickets. These transaction fees must be deposited into the state wildlife account, created in RCW 77.12.170, for funding fishing and hunting opportunities for recreational license holders. Finding—1999 c 243: "The legislature finds that recreational license dealers are private businesses that provide the service of license sales in every part of the state. The dealers who sell recreational fishing and hunting licenses for the department of fish and wildlife perform a valuable public service function for those members of the public who purchase licenses as well as a revenue generating function for the department. The modernized fishing and hunting license format will require additional investments by license dealers in employee training and public education." [1999 c 243 § 1.]

77.32.070 Information required from license applicants—Reports on taking/effort to harvest fish, shellfish, and wildlife—Administrative penalty. (1) Applicants for a license, permit, tag, or stamp shall furnish the information required by the director. However, the director may not require the purchaser of a razor clam license under RCW 77.32.520 to provide any personal information except for proof of residency. The commission may adopt rules requiring licensees or permitees to keep records and make reports concerning the taking of or effort to harvest fish, shellfish, and wildlife. The reporting requirement may be waived where, for any reason, the department is not able to receive the report. The department must provide reasonable options for a licensee to submit information to a live operator prior to the reporting deadline.
(2) The commission may, by rule, set an administrative penalty for failure to comply with rules requiring the reporting of taking or effort to harvest wildlife. The commission may also adopt rules requiring hunters who have not reported for the previous license year to complete a report and pay the assessed administrative penalty before a new hunting license is issued.

(a) The total administrative penalty per hunter set by the commission must not exceed ten dollars.

(b) By December 31st of each year, the department shall report the rate of hunter compliance with the harvest reporting requirement, the administrative penalty imposed for failing to report, and the amount of administrative penalties collected during that year to the appropriate fiscal and policy committees of the senate and house of representatives.

(3) The commission may, by rule, set an administrative penalty for failure to comply with rules requiring the reporting of data from catch record cards officially endorsed for Puget Sound Dungeness crab. The commission may also adopt rules requiring fishers who possessed a catch record card officially endorsed for Puget Sound Dungeness crab and who have not reported for the previous license year to complete a report and pay the assessed administrative penalty before a new catch record card officially endorsed for Puget Sound Dungeness crab is issued.

(a) The total administrative penalty per fisher set by the commission must not exceed ten dollars.

(b) By December 31st of each year, the department shall report the rate of fisher compliance with the Puget Sound Dungeness crab catch record card reporting requirement, the administrative penalty imposed for failing to report, and the amount of administrative penalties collected during that year to the appropriate fiscal and policy committees of the senate and house of representatives. (d) The director may accept certificates from other states that persons have successfully completed firearm safety, hunter education, or similar courses as evidence of compliance with this section.

(2)(a) The director may authorize a once in a lifetime, one license year deferral of hunter education training for individuals who are accompanied by a nondeferred Washington-licensed hunter who has held a Washington hunting license for the prior three years and is over eighteen years of age. The commission shall adopt rules for the administration of this subsection to avoid potential fraud and abuse.

(b) The director is authorized to collect an application fee, not to exceed twenty dollars, for obtaining the once in a lifetime, one license year deferral of hunter education training from the department. This fee must be deposited into the fish and wildlife enforcement reward account and must be used exclusively to administer the deferral program created in this subsection.

(c) For the purposes of this subsection, "accompanied" means to go along with another person while staying within a range of the other person that permits continual unaided visual and auditory communication.

(3) To encourage the participation of an adequate number of instructors for the training program, the commission shall develop nonmonetary incentives available to individuals who commit to serving as an instructor. The incentives may include additional hunting opportunities for instructors. (1) Persons who enter upon or use clearly identified department improved access facilities with a motor vehicle may be required to display a current annual fish and wildlife lands vehicle use permit on the motor vehicle while within or while using an improved access facility.  An "improved access facility" is a clearly identified area specifically created for motor vehicle parking, and includes any boat launch or boat ramp associated with the parking area, but does not include the department parking facilities at the Gorge Concert Center near George, Washington.  One vehicle use permit shall be issued at no charge with an initial purchase of either an annual saltwater, freshwater, combination, small game hunting, big game hunting, or trapping license, or a watchable wildlife decal, issued by the department.  The annual fee for a fish and wildlife lands vehicle use permit, if purchased separately, is ten dollars.  A person to whom the department has issued a vehicle use permit or who has purchased a vehicle use permit separately may purchase additional vehicle use permits from the department at a cost of five dollars per vehicle use permit. Youth groups may use department improved access facilities without possessing a vehicle use permit when accompanied by a vehicle use permit holder.

(2) The vehicle use permit must be displayed from the interior of the motor vehicle so that it is clearly visible from outside of the motor vehicle before entering upon or using the motor vehicle on a department improved access facility.  The vehicle use permit can be transferred between two vehicles and must contain space for the vehicle license numbers of each vehicle.

(3) Failure to display the fish and wildlife lands vehicle use permit if required by this section is an infraction under chapter 7.84 RCW, and department employees are authorized to issue a notice of infraction to the registered owner of any motor vehicle entering upon or using a department improved access facility without such a vehicle use permit.  The penalty for failure to clearly display the vehicle use permit is sixty-six dollars.  This penalty is reduced to thirty dollars if the registered owner provides proof to the court that he or she purchased a vehicle use permit within fifteen days after the issuance of the notice of violation. (2) It is lawful for a designated harvester to fish for, take, or possess the personal-use daily bag limit of fish or shellfish for a person with a disability if the harvester is licensed and has a designated harvester card, and if the person with a disability is present on site and in possession of the appropriate fishing license issued under this chapter.  Except as provided in subsection (4) of this section, the person with a disability must be present and participating in the fishing activity.

(3) A designated harvester card will be issued to such a person with a disability upon written application to the director.  The application must be submitted on a department official form and must be accompanied by a licensed medical doctor’s certification of disability.

(4) A person with a disability utilizing the services of a designated harvester is not required to be present at the location where the designated harvester is harvesting shellfish for the person with a disability.  The person with a disability is required to be in the direct line of sight of the designated harvester who is harvesting shellfish for him or her, unless it is not possible to be in a direct line of sight because of a physical obstruction or other barrier.  If such a barrier or obstruction exists, the person with a disability is required to be within one-quarter mile of the designated harvester who is harvesting shellfish for him or her. 77.32.430 Catch record card—Disposition of funds.

(1) Catch record card information is necessary for proper management of the state’s food fish and game fish species and shellfish resources. Catch record card administration shall be under rules adopted by the commission. There is no charge for an initial catch record card. Each subsequent or duplicate catch record card costs ten dollars.

(2) A license to take and possess Dungeness crab is only valid in Puget Sound waters east of the Bonilla-Tatoosh line if the fisher has in possession a valid catch record card officially endorsed for Dungeness crab. The endorsement shall cost no more than three dollars, including any or all fees authorized under RCW 77.32.050, when purchased for a personal use saltwater, combination, or shellfish and seaweed license. The endorsement shall cost no more than one dollar, including any or all fees authorized under RCW 77.32.050, when purchased for a temporary combination fishing license authorized under RCW 77.32.470(3)(a).

(3) Catch record cards issued with affixed temporary short-term charter stamp licenses are not subject to the ten-dollar charge nor to the Dungeness crab endorsement fee provided for in this section. Charter boat or guide operators issuing temporary short-term charter stamp licenses shall affix the stamp to each catch record card issued before fishing commences. Catch record cards issued with a temporary short-term charter stamp are valid for one day.

(4) The department shall include provisions for recording marked and unmarked salmon in catch record cards issued after March 31, 2004.

(5)(a) The funds received from the sale of catch record cards and the Dungeness crab endorsement must be deposited into the state wildlife account created in RCW 77.12.170. The funds received from the Dungeness crab endorsement may be used only for the sampling, monitoring, and management of catch associated with the Dungeness crab recreational fisheries. Until June 30, 2011, funds received from the Dungeness crab endorsement may be used for the removal and disposal of derelict shellfish gear either directly by the department or under contract with a third party.

(b) Moneys allocated under this section shall supplement and not supplant other federal, state, and local funds used for Dungeness crab recreational fisheries management. [2010 c 193 § 11; 2009 c 333 § 40; 2005 c 192 § 2; 2004 c 107 § 2; 2003 c 318 § 1; 1998 c 191 § 5; 1989 c 305 § 10. Formerly RCW 75.25.190.]

Intent—2004 c 107: “It is the intent of the legislature to optimize the management of the recreational allocation of Dungeness crab in Washington state. To accomplish this task, it is necessary to accurately and efficiently quantify the total catch by recreational fishers for Dungeness crab using data from catch record cards. Therefore, an endorsement fee on the catch record card paid at the time of purchasing a recreational fishing license will be required for Dungeness crab to specifically identify the recreational crab harvesting population. The endorsement fee will significantly improve the precision of the catch estimates by eliminating the current practice of sampling fishers who do not participate in the recreational crab fishery.” [2004 c 107 § 1.]

Report—2004 c 107: “After the completion of one season using the Dungeness crab endorsement fee for Puget Sound recreational Dungeness crab fisheries, the department of fish and wildlife shall evaluate the effectiveness of the endorsement fee as a method for improving the accuracy of catch estimates for the Puget Sound recreational Dungeness crab fishery. The department’s report shall include how the method has affected their ability to more accurately estimate the preseason allocation of the Puget Sound recreational Dungeness crab fishery and monitor in-season catch. The department shall report their findings to the appropriate committees of the legislature by May 15, 2006.” [2004 c 107 § 3.]

Effective date—2004 c 107: “This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect May 15, 2004.” [2004 c 107 § 4.]

Effective date—2003 c 318: “This act takes effect April 1, 2004.” [2003 c 318 § 3.]

77.32.440 Enhancement programs—Funding levels—Rules—Deposit to warm water game fish account.

(1) The commission shall adopt rules to continue funding current enhancement programs at levels equal to the participation of licensees in each of the individual enhancement programs. All enhancement funding will continue to be deposited directly into the individual accounts created for each enhancement.

(2) In implementing subsection (1) of this section with regard to warm water game fish, the department shall deposit in the warm water game fish account the sum of one million dollars, beginning in fiscal years 1999 and 2000, based on two hundred fifty thousand warm water anglers. The sum of one million dollars per fiscal year thereafter, the deposit to the warm water game fish account established in this subsection shall be adjusted annually to reflect the actual numbers of license holders fishing for warm water game fish based on an annual survey of license anglers from the previous year conducted by the department beginning with the April 1, 1999, to March 31, 2000, license year survey. Report—2007 c 336: "The department of fish and wildlife shall monitor the sale of personal use shellfish and seaweed licenses and razor clam licenses for four years from July 22, 2007. If in any of the four years the number of license sales drop more than ten percent from July 22, 2007, then the department of fish and wildlife shall report the sales and revenue data for the licenses along with any relevant information regarding the reasons for the decrease to the legislature." 77.32.525 Hunting and fishing contests—Field trials for dogs—Rules—Limitation. The director shall administer rules adopted by the commission governing the time, place, and manner of holding hunting and fishing contests and competitive field trials involving live wildlife for hunting dogs. The department shall prohibit contests and field trials that are not in the best interests of wildlife. [1987 c 506 § 48; 1980 c 78 § 67. Formerly RCW 77.12.530.]

Legislative findings and intent—1987 c 506: See note following RCW 77.04.020.

Contests and field trials: RCW 77.32.540.

77.32.530 Hunting big game—Auction or raffle—Procedure. (1) The commission in consultation with the director may authorize hunting of big game animals and wild turkeys through auction. The department may conduct the auction for the hunt or contract with a nonprofit wildlife conservation organization to conduct the auction for the hunt.
(2) The commission in consultation with the director may authorize hunting of up to a total of thirty big game animals and wild turkeys per year through raffle. The department may conduct raffles or contract with a nonprofit wildlife conservation organization to conduct raffles for hunting these animals. In consultation with the gambling commission, the director may adopt rules for the implementation of raffles involving hunting.

The commission may solicit input from groups or individuals with special interest in and expertise on a species in determining how to use these revenues.
(6) A nonprofit wildlife conservation organization may petition the commission to authorize an auction or raffle for a special hunt for big game animals and wild turkeys. [2009 c 333 § 41; 1996 c 101 § 5. Formerly RCW 77.12.770.]

Findings—1996 c 101: "The legislature finds that it is in the best interest of recreational hunters to provide them with the variety of hunting opportunities provided by auctions and raffles. Raffles provide an affordable opportunity for most hunters to participate in special hunts for big game animals and wild turkeys. The legislature also finds that wildlife management and recreation are not adequately funded and that such auctions and raffles can increase revenues to improve wildlife management and recreation." [1996 c 101 § 1.]

77.32.535 Private lands—Raffle authorization to hunt big game. If a private entity has a private lands wildlife management area agreement in effect with the department, the commission may authorize the private entity to conduct raffles for access to hunt for big game animals and wild turkeys to meet the conditions of the agreement. The private entity shall comply with all applicable rules adopted under RCW 77.32.530 for the implementation of raffles; however, raffle hunts conducted pursuant to this section shall not be counted toward the number of raffle hunts the commission may authorize under RCW 77.32.530. The director shall establish the procedures for the hunts, which shall require any participants to obtain any required license, permit, or tag. Representatives of the department may participate in the hunt upon the request of the commission to ensure that the animals to be killed are properly identified. [2001 c 253 § 52; 1996 c 101 § 6. Trappers shall attach to the chain of their traps or devices a legible metal tag with either the department identification number of the trap or the name and address of the trap in English letters not less than one-eighth inch in height.

When a property owner, lessee, or tenant presents a trap identification number to the department for a trap found upon the property of the owner, lessee, or tenant and requests identification of the trap, the department shall provide the requestor with the name and address of the trap. Prior to disclosure of the trap’s name and address, the department shall obtain the name and address of the requesting individual in writing and after disclosing the trap’s name and address to the requesting individual, the requesting individual’s name and address shall be disclosed in writing to the trapper whose name and address was disclosed. (1) In addition to the fees authorized in this chapter, the department shall include a surcharge to fund biotoxin testing and monitoring by the department of health of beaches used for recreational shellfishing, and to fund monitoring by the Olympic region harmful algal bloom program of the Olympic natural resources center at the University of Washington. A surcharge of three dollars applies to resident and nonresident shellfish and seaweed licenses as authorized by RCW 77.32.520(3) (a) and (b); a surcharge of two dollars applies to resident and nonresident adult combination licenses as authorized by RCW 77.32.470(2)(a); a surcharge of two dollars applies to annual resident and nonresident razor clam licenses as authorized by RCW 77.32.520(4); and a surcharge of one dollar applies to the three-day razor clam license authorized by RCW 77.32.520(5). Amounts collected from these surcharges must be deposited in the biotoxin account created in subsection (3) of this section.

(2) Any moneys from surcharges remaining in the general fund—local account after the 2007-2009 biennium must be transferred to the biotoxin account created in subsection (3) of this section and be credited to the appropriate institution. The department of health and the University of Washington shall, by December 1st of each year, provide a letter to the relevant legislative policy and fiscal committees on the status of expenditures. This letter shall include, but is not limited to, the annual appropriation amount, the amount not expended, account fund balance, and reasons for not spending the full annual appropriation.

(3) The biotoxin account is created in the state treasury to be administered by the department of health. All moneys received under subsection (1) of this section must be deposited in the account and used by the department of health and the University of Washington as required by subsection (1) of this section. Of the moneys deposited into the account, one hundred fifty thousand dollars per year must be made available to the University of Washington to implement subsection (1) of this section. Moneys in the account may be spent only after appropriation. [2009 c 577 § 1; 2005 c 416 § 1; 2004 c 248 § 2; 2003 c 263 § 2.]

Effective date—2005 c 416: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately.

Findings—2003 c 263: "The legislature finds that testing and monitoring of beaches used for recreational shellfishing is essential to ensure the health of recreational shellfishers. The legislature also finds that it is essential to have a stable and reliable source of funding for such biotoxin testing and monitoring. The legislature also finds that the cost of the resident and nonresident personal use shellfish and seaweed licenses is undervalued and not properly aligned with neighboring states and provinces." [2003 c 263 § 1.]

Effective date—2003 c 263: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect July 1, 2003."

77.32.560 Watchable wildlife decals.  (1) The department may sell watchable wildlife decals. Proceeds from the sale of the decal must be deposited into the state wildlife account created in RCW 77.12.170 and must be dedicated to the support of the department’s watchable wildlife activities.
The department may also use proceeds from the sale of the decal for marketing the decal and for marketing watchable wildlife activities in the state.

(2) The term "watchable wildlife activities" includes but is not limited to: Initiating partnerships with communities to jointly develop watchable wildlife projects, building infrastructure to serve wildlife viewers, assisting and training communities in conducting wildlife watching events, developing destination wildlife viewing corridors and trails, tours, maps, brochures, and travel aides, and offering grants to assist rural communities in identifying key wildlife attractions and ways to protect and promote them.

(3) The commission must adopt by rule the cost of the watchable wildlife decal. A person may, at their discretion, contribute more than the cost as set by the commission by rule for the watchable wildlife decal in order to support watchable wildlife activities. A person who purchases a watchable wildlife decal must be issued one vehicle use permit free of charge. [2009 c 333 § 42; 2003 c 317 § 2.]

Findings—2003 c 317: "The legislature finds that healthy wildlife populations significantly contribute to the economic vitality of Washington’s rural areas through increased opportunities for watchable wildlife and related tourism. Travel related to watchable wildlife is one of the fastest growing segments of the travel industry. Much of this travel occurs off-season, creating jobs and providing revenue to local businesses and governments during otherwise slow periods. The watchable wildlife industry is particularly important to Washington’s rural economies.

The legislature also finds that it is vital to support programs that enhance watchable wildlife activities and tourism, while also protecting the wildlife resources that attract the viewers. A revenue source must be created and directed to the watchable wildlife programs of the department of fish and wildlife to develop watchable wildlife opportunities in cooperation with other local, state, and federal agencies, and nongovernmental organizations." [2003 c 317 § 1.]

The director shall distribute these donations pursuant to rules adopted under subsection (4) of this section.

(3) The director may take other actions consistent with facilitating hunting and fishing opportunities for a terminally ill person. These actions may include, but are not limited to, entering into agreements with willing landowners pursuant to RCW 77.12.320.

(4) In addition to rules required under subsection (2) of this section, the commission may adopt rules as necessary to effectuate the purpose and policies of this section. [2008 c 10 § 1.]

Short title—2008 c 10: "This act may be known and cited as the Senator Bob Oke memorial act." [2008 c 10 § 4.]

77.32.570 Master hunter permit program—Fee. (1) In order to effectively manage wildlife in areas or at times when a higher proficiency and demonstrated skill level are needed for resource protection or public safety, the department establishes the master hunter permit program. The master hunter permit program emphasizes safe, ethical, responsible, and lawful hunting practices. Program goals include improving the public’s perception of hunting and perpetuating the highest hunting standards.

(2) A master hunter permit is required to participate in controlled hunts to eliminate problem animals that damage property or threaten public safety. The commission may establish by rule the requirements an applicant must comply with when applying for or renewing a master hunter permit, including but not limited to a criminal background check. The director may establish an advisory group to assist the department with administering the master hunter [permit] program.

(3) The fee for an initial master hunter permit may not exceed fifty dollars, and the cost of renewing a master hunter permit may not exceed twenty-five dollars. Funds generated under this section must be deposited into the fish and wildlife enforcement reward account established in RCW 77.15.425, and the funds must be used exclusively to administer the master hunter [permit] program. [2009 c 333 § 15.]

(1) In addition to a recreational license required under this chapter, a Columbia river salmon and steelhead stamp or endorsement is required in order for any person fifteen years of age or older to fish recreationally for salmon or steelhead in the Columbia river and its tributaries where these fisheries have been authorized by the department. The cost for each stamp or endorsement is seven dollars and fifty cents. The department shall deposit all receipts from stamp or endorsement purchases into the Columbia river recreational salmon and steelhead pilot stamp program account created in RCW 77.12.714.

77.36.030 Trapping or killing wildlife threatening human safety or causing property damage—Limitations and conditions—Rules. (1) Subject to limitations and conditions established by the commission, the owner, the owner's immediate family member, the owner's documented employee, or a tenant of real property may trap, consistent with RCW 77.15.194, or kill wildlife that is threatening human safety or causing property damage on that property, without the licenses required under RCW 77.32.010 or authorization from the director under RCW 77.12.240.

(2) The commission shall establish the limitations and conditions of this section by rule. The rules must include:
   (a) Appropriate protection for threatened or endangered species;
   (b) Instances when verbal or written permission is required to kill wildlife;
   (c) Species that may be killed under this section; and
   (d) Requirements for the disposal of wildlife trapped or killed under this section.

(3) In establishing the limitations and conditions of this section, the commission shall take into consideration the recommendations of the Washington state wolf conservation and management plan. [2009 c 333 § 61; 1996 c 54 § 4.]

Effective date—Application—2009 c 333 §§ 53-66: See notes following RCW 77.36.010.

77.36.070 Limit on total claims from wildlife account per fiscal year. The department may pay no more than one hundred twenty thousand dollars per fiscal year from the wildlife account created in RCW 77.12.170 for claims and assessment costs for damage to commercial crops caused by wild deer or elk submitted under RCW 77.36.100. (1) Unless the legislature declares an emergency under this section, the department may pay no more than thirty thousand dollars per fiscal year from the general fund for claims and assessment costs for damage to commercial crops caused by wild deer or elk submitted under RCW 77.36.100.

(2)(a) The legislature may declare an emergency if weather, fire, or other natural events result in deer or elk causing excessive damage to commercial crops.

(b) After an emergency declaration, the department may pay as much as may be subsequently appropriated, in addi-
Eligibility for compensation under this subsection—Offer of materials or services to offset or prevent wildlife interactions—Appeal of decisions. (1)(a) Except as limited by RCW 77.36.070 and 77.36.080, the department shall offer to distribute money appropriated to pay claims to the owner of commercial crops for damage caused by wild deer or elk or to the owners of commercial livestock that has been killed by bears, wolves, or cougars, or injured by bears, wolves, or cougars to such a degree that the market value of the commercial livestock has been diminished. Payments for claims for damage to commercial livestock are not subject to the limitations of RCW 77.36.070 and 77.36.080, but may not exceed the total amount specifically appropriated therefore.

(b) Owners of commercial crops or commercial livestock are only eligible for a claim under this subsection if:

(i) The owner satisfies the definition of "eligible farmer" in RCW 82.08.855;

(ii) The conditions of RCW 77.36.110 have been satisfied; and

(iii) The damage caused to the commercial crop or commercial livestock satisfies the criteria for damage established by the commission under this subsection.

(c) The commission shall adopt and maintain by rule criteria that clarifies the damage to commercial crops and commercial livestock qualifying for compensation under this subsection. An owner of a commercial crop or commercial livestock must satisfy the criteria prior to receiving compensation under this subsection. The criteria for damage adopted under this subsection must include, but not be limited to, a required minimum economic loss to the owner of the commercial crop or commercial livestock, which may not be set at a value of less than five hundred dollars.

(2)(a) The department may offer to provide noncash compensation only to offset wildlife interactions to a person who applies to the department for compensation for damage to property other than commercial crops or commercial livestock that is the result of a mammalian or avian species of wildlife on a case-specific basis if the conditions of RCW 77.36.110 have been satisfied and if the damage satisfies the criteria for damage established by the commission under this subsection.

(b) The commission shall adopt and maintain by rule criteria for damage to property other than a commercial crop or commercial livestock that is damaged by wildlife and may be eligible for compensation under this subsection, including criteria for mitigating actions designed to address wildlife interactions that may be eligible for materials and services under this section, including criteria for submitting an application under this section.

(3)(a) To prevent or offset wildlife interactions, the department may offer materials or services to a person who applies to the department for assistance in providing mitigating actions designed to reduce wildlife interactions if the actions are designed to address damage that satisfies the criteria for damage established by the commission under this subsection.

(b) The commission shall adopt and maintain by rule criteria for mitigating actions designed to address wildlife interactions that may be eligible for materials and services under this subsection, including criteria for filing a claim for compensation under this subsection.

(4) An owner who files a claim under this section may appeal the decision of the department pursuant to rules adopted by the commission if the claim:

(a) Is denied; or

(b) Is disputed by the owner and the owner disagrees with the amount of compensation determined by the department. [2009 c 333 § 55.]

Effective date—Application—2009 c 333 §§ 53-66: See notes following RCW 77.36.010.

Wildlife Damage 77.36.110

Payment of claims for damage to commercial crops or commercial livestock—Noncash compensation. (1) No owner may receive compensation for wildlife interactions under this chapter unless the owner has, as determined by the department, first:

(a) Utilized applicable legal and practicable self-help preventive measures available to prevent the damage, including the use of nonlethal methods and department-provided materials and services when available under RCW 77.36.100; and

(b) Exhausted all available compensation options available from nonprofit organizations that provide compensation to private property owners due to financial losses caused by wildlife interactions.

(2) In determining if the requirements of this section have been satisfied, the department may recognize and consider the following:

(a) Property losses may occur without future or anticipated knowledge of potential problems resulting in an owner being unable to take preemptive measures.

(b) Normal agricultural practices, animal husbandry practices, recognized standard management techniques, and other industry-recognized management practices may represent adequate preventative efforts.

(c) Under certain circumstances, as determined by the department, wildlife may notlogistically or practicably be managed by nonlethal efforts.

(d) Not all available legal preventative efforts are cost-effective for the owner to practicably employ.

(e) There are certain effective preventative control options not available due to federal or state restrictions.

(f) Under certain circumstances, as determined by the department, permitting public hunting may not be a practicable self-help method due to the size and nature of the property, the property’s setting, or the ability of the landowner to accommodate public access.

(3) An owner is not eligible to receive compensation if the damages are covered by insurance.

(2010 Ed.)
77.36.120 Department’s duties. The department shall establish:

1. The form of affidavits or proof required to accompany all claims under this chapter;
2. The process, time, and methods used to identify and assess damage, including the anticipated timeline for the initiation and conclusion of department action;
3. How claims will be prioritized when available funds for reimbursement are limited;
4. Timelines after the discovery of damage by which an owner must file a claim or notify the department;
5. Protocols for an owner to follow if the owner wishes to undertake activities that would complicate the determination of damages, such as harvesting damaged crops;
6. The process for determining damage assessments, including the role and selection of professional damage assessors and the responsibility for reimbursing third-party assessors for their services;
7. Timelines for a claimant to accept, reject, or appeal a determination made by the department;
8. The identification of instances when an owner would be ineligible for compensation;
9. An appeals process for an owner eligible for compensation under RCW 77.36.100 who is denied a claim or feels the compensation is insufficient; and
10. Other policies necessary for administering this chapter. [2009 c 333 § 57.]

Effective date—Application—2009 c 333 §§ 53-66: See notes following RCW 77.36.010.

77.36.130 Limit on cash compensation—Burden of proof. (1) Except as otherwise provided in this section and as limited by RCW 77.36.100, 77.36.070, and 77.36.080, the cash compensation portion of each claim by the department under this chapter is limited to the lesser of:

(a) The value of the damage to the property by wildlife reduced by the amount of compensation provided to the claimant by any nonprofit organizations that provide compensation to private property owners due to financial losses caused by wildlife interactions, except that, subject to appropriation to pay compensation for damage to commercial livestock, the value of killed or injured commercial livestock may be no more than two hundred dollars per sheep, one thousand five hundred dollars per head of cattle, and one thousand five hundred dollars per horse; or
(b) Ten thousand dollars.

(2) The department may offer to pay a claim for an amount in excess of ten thousand dollars to the owners of commercial crops or commercial livestock filing a claim under RCW 77.36.100 only if the outcome of an appeal filed by the claimant under RCW 77.36.100 determines a payment higher than ten thousand dollars.

(3) All payments of claims by the department under this chapter must be paid to the owner of the damaged property and may not be assigned to a third party.

(4) The burden of proving all property damage, including damage to commercial crops and commercial livestock, belongs to the claimant. [2009 c 333 § 58.]

Effective date—Application—2009 c 333 §§ 53-66: See notes following RCW 77.36.010.

77.36.140 Chapter represents exclusive remedy. This chapter represents the exclusive remedy against the state for damage caused by wildlife interactions. [2009 c 333 § 62.]

Effective date—Application—2009 c 333 §§ 53-66: See notes following RCW 77.36.010.

77.36.150 Review of rules and policies. (Expires July 30, 2014.) The fish and wildlife commission shall formally review the rules and policies adopted under sections *53 through 66, chapter 333, Laws of 2009. If, in the process of reviewing the rules, the fish and wildlife commission identifies recommended statutory changes related to the subject of sections *53 through 66, chapter 333, Laws of 2009 and to the ability of the fish and wildlife commission to fulfill the intent of sections *53 through 66, chapter 333, Laws of 2009, those recommendations must be forwarded to the appropriate policy committees of the legislature during the regularly scheduled 2014 legislative session. [2009 c 333 § 64.]

*Reviser’s note: Section 53, chapter 333, Laws of 2009 was vetoed by the governor.

Expiration date—2009 c 333 § 64: “Section 64 of this act expires July 30, 2014.” [2009 c 333 § 70.]

Chapter 77.44 RCW
WARM WATER GAME FISH ENHANCEMENT PROGRAM

Sections
77.44.005 Public interest declaration. The legislature declares that the public and private propagation, production, protection, and enhancement of fish is in the public interest. [1991 c 253 § 1. Formerly RCW 77.18.005.]

77.44.007 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Contract" means an agreement setting at a minimum, price, quantity of fish to be delivered, time of delivery, and fish health requirements.

(2) "Fish health requirements" means those site specific fish health and genetic requirements actually used by the department of fish and wildlife in fish stocking.
(3) "Aquatic farmer" means a private sector person who commercially farms and manages private sector cultured aquatic products on the person’s own land or on land in which the person has a present right of possession.

(4) “Warm water game fish” includes the following species: Bass, channel catfish, walleye, crappie, and other species as defined by the department. [2000 c 107 § 262; 1993 sp. s. c 2 § 76; 1991 c 253 § 2. Formerly RCW 77.18.010.]

Additional notes found at www.leg.wa.gov

77.44.010 Warm water game fish enhancement program—Created. A warm water game fish enhancement program is created in the department. The enhancement program shall be designed to increase the opportunities to fish for and catch warm water game fish including: Largemouth black bass, smallmouth black bass, channel catfish, black crappie, white crappie, walleye, and tiger musky. The program shall be designed to use a practical applied approach to increasing warm water fishing. The department shall use the funds available efficiently to assure the greatest increase in the fishing for warm water fish at the lowest cost. This approach shall involve the minimization of overhead and administrative costs and the maximization of productive in-the-field activities. [1998 c 191 § 39; 1996 c 222 § 1.]

Additional notes found at www.leg.wa.gov

77.44.030 Freshwater, combination fishing license—Disposition of fee. (1) As provided in RCW 77.32.440, a portion of each freshwater and combination fishing license fee shall be deposited into the warm water game fish account.

(2) The department shall use the most cost-effective format in designing and administering the warm water game fish surcharge [account].

(3) A warm water game fish account shall be used for enhancement of largemouth bass, smallmouth bass, walleye, black crappie, white crappie, channel catfish, and tiger musky. [1998 c 191 § 29; 1996 c 222 § 3.]

Additional notes found at www.leg.wa.gov

77.44.040 Program goals. The goals of the warm water game fish enhancement program are to improve the fishing for warm water game fish using cost-effective management. Development of new ponds and lakes shall be an important and integral part of the program. The department shall work with the department of natural resources to coordinate the reclamation of surface mines and the development of warm water game fish ponds. Improvement of warm water fishing shall be coordinated with the protection and conservation of cold water fish populations. This shall be accomplished by carefully designing the warm water projects to have minimal adverse effects upon the cold water fish populations. New pond and lake development should have beneficial effects upon wildlife due to the increase in lacustrine and wetland habitat that will accompany the improvement of warm water fish habitat. The department shall not develop projects that will increase the populations of undesirable or deleterious fish species such as carp, squawfish, walking catfish, and others.

Fish culture programs shall be used in conditions where they will prove to be cost-effective, and may include the purchase of warm water fish from aquatic farmers defined in RCW 15.85.020. Consideration should be made for development of urban area enhancement of fishing opportunity for put-and-take species, such as channel catfish, that are amenable to production by low-cost fish culture methods. Fish culture shall also be used for stocking of high value species, such as walleye, smallmouth bass, and tiger musky. Introduction of special genetic strains that show high potential for recreational fishing improvement, including Florida strain largemouth bass and striped bass, shall be considered.

Transplantation and introduction of exotic warm water fish shall be carefully reviewed to assure that adverse effects to native fish and wildlife populations do not occur. This review shall include an analysis of consequences from disease and parasite introduction.

Population management through the use of fish toxicants, including rotenone or derris root, shall be an integral part of the warm water game fish enhancement program. However, any use of fish toxicants shall be subject to a thorough review to prevent adverse effects to cold water fish, desirable warm water fish, and other biota. Eradication of deleterious fish species shall be a goal of the program.

Habitat improvement shall be a major aspect of the warm water game fish enhancement program. Habitat improvement opportunities shall be defined with scientific investigations, field surveys, and by using the extensive experience of other state management entities. Installation of cover, structure, water flow control structures, screens, spawning substrate, vegetation control, and other management techniques shall be fully used. The department shall work to gain access to privately owned waters that can be developed with habitat improvements to improve the warm water resource for public fishing.

The department shall use the resources of cooperative groups to assist in the planning and implementation of the warm water game fish enhancement program. In the development of the program the department shall actively involve the organized fishing clubs that primarily fish for warm water fish. The warm water fish enhancement program shall be cooperative between the department and private landowners; private landowners shall not be required to alter the uses of their private property to fulfill the purposes of the warm water fish enhancement program. The director shall not impose restrictions on the use of private property, or take private property, for the purpose of the warm water fish enhancement program. [1996 c 222 § 4.]

Additional notes found at www.leg.wa.gov

77.44.050 Warm water game fish account—Created—Use of moneys. The warm water game fish account is hereby created in the state wildlife account created in RCW 77.12.170. Moneys in the account are subject to legislative appropriation and shall be used for the purpose of funding the warm water game fish enhancement program, including the development of warm water pond and lake habitat, culture of warm water game fish, improvement of warm water fish habitat, management of warm water fish populations, and other practical activities that will improve the fishing for warm water fish. Funds for warm water game fish as provided in RCW 77.32.440 shall not serve as replacement funding for
77.44.060 Specifications—Purchases from aquatic farmers. If the department requires, pursuant to its authority relative to environmental permits or licenses, that resident hatchery game fish be stocked by the permittee or licensee for mitigation of environmental damage, the department shall specify the pounds or numbers, species, stock, and/or race of resident game fish that are to be provided. The department shall offer the permittee or licensee the option of purchasing under contract from aquatic farmers in Washington, those game fish, unless the fish specified by the department are not available from Washington growers. [1991 c 253 § 3. Formerly RCW 77.18.020.]

77.44.070 Purchases from aquatic farmers for stocking purposes. Any agency of state or federal government, political subdivision of the state, private or public utility company, corporation, or sports group, or any purchaser of political subdivision of the state, private or public utility for stocking purposes.

Any agency of state or federal government, any political subdivision of the state, private or public utility company, corporation, or sports group, or any purchaser of political subdivision of the state, private or public utility may purchase resident game fish from an aquatic farmer for stocking purposes if permit requirements of this title and the department have been met. [2001 c 253 § 53; 1991 c 253 § 4. Formerly RCW 77.18.020.]

77.50.900 Purpose—2000 c 107.

77.50.010 Limitations on commercial fishing for salmon in Puget Sound waters. (1) The commission may authorize commercial fishing for sockeye salmon within the waters described in subsection (2) of this section only during the period June 10th to July 25th and for other salmon only from the second Monday of September through November 30th, except during the hours between 4:00 p.m. of Friday and 4:00 p.m. of the following Sunday.

(2) All waters east and south of a line commencing at Angeles Point in Clallam county near the mouth of the Elwha River on which is inscribed "Angeles Point Monument" (latitude 48° 9' 3" north, longitude 123° 33' 01" west of Greenwich Meridian); thence running east on a line 81° 30’ true across the flashlight and bell buoy off Port Gardner Point and thence continued to longitude 122° 40’ west; thence north to the southerly shore of Sinclair Island; thence to the southerly shore of the island to the most easterly point of the island; thence 46° true to Carter Point, the most southerly point of Lummi Island; thence northwesterly along the westerly shore line of Lummi Island to where the shore line intersects line of longitude 122° 40’ west; thence north to the mainland, including: The southerly portion of Hale Passage, Bellingham Bay, Padilla Bay, Fidalgo Bay, Guemes Channel, Skagit Bay, Similk Bay, Saratoga Passage, Holmes Harbor, Possession Sound, Admiralty Inlet, Hood Canal, Puget Sound, and their inlets, passages, waters, waterways, and tributaries.

(4) Whenever the commission determines that a stock or run of salmon cannot be harvested in the usual manner, and that the stock or run of salmon may be in danger of being wasted and surplus to natural or artificial spawning requirements, the commission may authorize units of gill net and purse seine gear in any number or equivalents, by time and area, to fully utilize the harvestable portions of these salmon runs for the economic well being of the citizens of this state. Gill net and purse seine gear other than emergency and test gear authorized by the director shall not be used in Lake Washington.

(5) The commission may authorize commercial fishing for pink salmon in each odd-numbered year from August 1st through September 1st in the waters lying inside of a line commencing at the most easterly point of Dungeness Spit and thence projected to Point Partridge on Whidbey Island and a line commencing at Olele Point and thence projected easterly to Bush Point on Whidbey Island. [2002 c 311 § 2; 1998 c 190 § 75; 1995 1st sp.s. c 2 § 25 (Referendum Bill No. 45, approved November 7, 1995); 1983 1st ex.s. c 46 § 46; 1973 1st ex.s. c 220 § 2; 1971 ex.s. c 283 § 13; 1955 c 12 § 75.12.010. Prior: 1949 c 112 § 28; Rem. Supp. 1949 § 5780-301. Formerly RCW 75.12.010.]

Findings—2002 c 311: "The legislature finds that the economic well-being and stability of the fishing industry and the conservation of the food fish resources of the state of Washington are best served by providing managers with all available tools to stabilize and distribute the commercial harvest of targeted Puget Sound salmon stocks. In recent years, segments of the industry in cooperation with the department of fish and wildlife have funded studies examining modification of harvest practices and fishing gear, particularly purse seine gear, to minimize or avoid impacts on nontargeted Puget Sound salmon stocks. The legislature finds that the new Pacific salmon treaty agreement of 1999 will drastically reduce the commercial harvest of Fraser river sockeye salmon while likely providing increased harvest opportunities in areas of Puget Sound where only gill net gear is now authorized. This exclusive limitation is contrary to the long-term needs of the fishing industry and inconsistent with the legislature's intent to stabilize harvest levels while selectively targeting healthy salmon stocks." [2002 c 311 § 1.]

Effective date—2002 c 311 § 2: "Section 2 of this act takes effect July 1, 2002." [2002 c 311 § 3.]

### 77.50.020 Limitations on commercial fishing for chinook or coho salmon in Pacific Ocean and Straits of Juan de Fuca.

1. The commission may authorize commercial fishing for coho salmon in the Pacific Ocean and the Straits of Juan de Fuca only from June 16th through October 31st.
2. The commission may authorize commercial fishing for chinook salmon in the Pacific Ocean and the Straits of Juan de Fuca only from March 15th through October 31st.

### 77.50.030 Salmon fishing gear.

1. A person shall not use, operate, or maintain a gill net which exceeds one thousand five hundred feet in length or a drag seine in the waters of the Columbia river for catching salmon.
2. A person shall not construct, install, use, operate, or maintain within state waters a pound net, round haul net, lampara net, fish trap, fish wheel, scow fish wheel, set net, weir, or fixed appliance for catching salmon or steelhead except under the authority of a trial or experimental fishery permit, when an emerging commercial fishery has been designated allowing use of one or more of these gear types. The director must consult with the commercial fishing interests that would be affected by the trial or experimental fishery permit. The director may authorize the use of this gear for scientific investigations.
3. The department, in coordination with the Oregon department of fish and wildlife, shall adopt rules to regulate the use of monofilament in gill net webbing on the Columbia river.

### 77.50.120 Maintaining consistent salmon harvest levels.
It is the intent of the legislature to ensure that a sustainable level of salmon is made available for harvest for commercial fishers in the state. Maintaining consistent harvest levels has become increasingly difficult with the listing of salmonid species under the federal endangered species act. Without a stable level of harvest, fishers cannot develop niche markets that maximize the economic value of the harvest. New tools and approaches are needed by fish managers to bring increased stability to the fishing industry.

In the short term, it is the legislature’s intent to provide managers with tools to assure that commercial harvest of targeted stocks can continue and expand under the constraints of the federal endangered species act. There are experimental types of commercial fishing gear that could allow fishers to stabilize harvest levels by selectively targeting healthy salmon stocks.

For the longer term, the department of fish and wildlife shall proceed with changes to the operation of certain hatcheries in order to stabilize harvest levels by allowing naturally spawning and hatchery origin fish to be managed as a single run. Scientific information from such hatcheries would guide the department’s approach to reducing the need to mass mark hatchery origin salmon where appropriate. [2001 c 163 § 1.]

### 77.50.900 Purpose—2000 c 107.
The purpose of chapter 107, Laws of 2000 is to recodify Titles 75 and 77 RCW into Title 77 RCW ensuant to the merger of the departments of wildlife and fisheries. [2000 c 107 § 1.]

77.55.021 Permit. (1) Except as provided in RCW 77.55.031, 77.55.051, and 77.55.041, in the event that any person or government agency desires to undertake a hydraulic project, the person or government agency shall, before commencing work thereon, secure the approval of the department in the form of a permit as to the adequacy of the means proposed for the protection of fish life.

(2) A complete written application for a permit may be submitted in person or by registered mail and must contain the following:

(a) General plans for the overall project;
(b) Complete plans and specifications of the proposed construction or work within the mean higher high water line in saltwater or within the ordinary high water line in freshwater;

(c) Complete plans and specifications for the proper protection of fish life; and

(d) Notice of compliance with any applicable requirements of the state environmental policy act, unless otherwise provided for in this chapter.

(3)(a) Protection of fish life is the only ground upon which approval of a permit may be denied or conditioned. Approval of a permit may not be unreasonably withheld or unreasonably conditioned. Except as provided in this subsection and subsections (8), (10), and (12) of this section, the department has forty-five calendar days upon receipt of a complete application to grant or deny approval of a permit. The forty-five day requirement is suspended if:

(i) After ten working days of receipt of the application, the applicant remains unavailable or unable to arrange for a timely field evaluation of the proposed project;
(ii) The site is physically inaccessible for inspection;
(iii) The applicant requests a delay; or
(iv) The department is issuing a permit for a storm water discharge and is complying with the requirements of RCW 77.55.161(3)(b).

(b) Immediately upon determination that the forty-five day period is suspended, the department shall notify the applicant in writing of the reasons for the delay.

(c) The period of forty-five calendar days may be extended if the permit is part of a multiagency permit streamlining effort and all participating permitting agencies and the permit applicant agree to an extended timeline longer than forty-five calendar days.

(4) If the department denies approval of a permit, the department shall provide the applicant a written statement of the specific reasons why and how the proposed project would adversely affect fish life.

(a) Except as provided in (b) of this subsection, issuance, denial, conditioning, or modification of a permit shall be appealable to the board within thirty days from the date of receipt of the decision as provided in RCW 43.21B.230.

(b) Issuance, denial, conditioning, or modification of a permit may be informally appealed to the board within thirty days from the date of receipt of the decision. Requests for informal appeals must be filed in the form and manner prescribed by the department by rule. A permit decision that has been informally appealed to the department is appealable to the board within thirty days from the date of receipt of the department’s decision on the informal appeal.

(5)(a) The permittee must demonstrate substantial progress on construction of that portion of the project relating to the permit within two years of the date of issuance.

(b) Approval of a permit is valid for a period of up to five years from the date of issuance, except as provided in (c) of this subsection and in RCW 77.55.151.

(c) A permit remains in effect without need for periodic renewal for hydraulic projects that divert water for agricultural irrigation or stock watering purposes and that involve seasonal construction or other work. A permit for streambank stabilization projects to protect farm and agricultural land as defined in RCW 84.34.020 remains in effect without need for periodic renewal if the problem causing the need for the streambank stabilization occurs on an annual or more frequent basis. The permittee must notify the appropriate agency before commencing the construction or other work within the area covered by the permit.

(6) The department may, after consultation with the permittee, modify a permit due to changed conditions. The modification is appealable as provided in subsection (4) of this section. For hydraulic projects that divert water for agricultural irrigation or stock watering purposes, or when the hydraulic project or other work is associated with streambank stabilization to protect farm and agricultural land as defined in RCW 84.34.020, the burden is on the department to show that changed conditions warrant the modification in order to protect fish life.

(7) A permittee may request modification of a permit due to changed conditions. The request must be processed within forty-five calendar days of receipt of the written request. A decision by the department is appealable as provided in subsection (4) of this section. For hydraulic projects that divert water for agricultural irrigation or stock watering purposes, or when the hydraulic project or other work is associated with streambank stabilization to protect farm and agricultural land as defined in RCW 84.34.020, the burden is on the permittee to show that changed conditions warrant the requested modification and that such a modification will not impair fish life.

(8)(a) The department, the county legislative authority, or the governor may declare and continue an emergency. If the county legislative authority declares an emergency under this subsection, it shall immediately notify the department. A declared state of emergency by the governor under RCW 43.06.010 shall constitute a declaration under this subsection.

(b) The department, through its authorized representatives, shall issue immediately, upon request, oral approval for a stream crossing, or work to remove any obstructions, repair existing structures, restore streambanks, protect fish life, or protect property threatened by the stream or a change in the stream flow without the necessity of obtaining a written permit prior to commencing work. Conditions of the emergency oral permit must be established by the department and reduced to writing within thirty days and complied with as provided for in this chapter.

(c) The department may not require the provisions of the state environmental policy act, chapter 43.21C RCW, to be met as a condition of issuing a permit under this subsection.

(9) All state and local agencies with authority under this chapter to issue permits or other authorizations in connection with emergency water withdrawals and facilities authorized under RCW 43.83B.410 shall expedite the processing of such permits or authorizations in keeping with the emergency nature of such requests and shall provide a decision to the applicant within fifteen calendar days of the date of application.

(10) The department or the county legislative authority may determine an imminent danger exists. The county legislative authority shall notify the department, in writing, if it determines that an imminent danger exists. In cases of imminent danger, the department shall issue an expedited written permit, upon request, for work to remove any obstructions, repair existing structures, restore banks, protect fish resources, or protect property. Expedited permit requests
require a complete written application as provided in subsection (2) of this section and must be issued within fifteen calendar days of the receipt of a complete written application. Approval of an expedited permit is valid for up to sixty days from the date of issuance. The department may not require the provisions of the state environmental policy act, chapter 43.21C RCW, to be met as a condition of issuing a permit under this subsection.

(11)(a) For any property, except for property located on a marine shoreline, that has experienced at least two consecutive years of flooding or erosion that has damaged or has threatened to damage a major structure, water supply system, septic system, or access to any road or highway, the county legislative authority may determine that a chronic danger exists. The county legislative authority shall notify the department, in writing, when it determines that a chronic danger exists. In cases of chronic danger, the department shall issue a permit, upon request, for work necessary to abate the chronic danger by removing any obstructions, repairing existing structures, restoring banks, restoring road or highway access, protecting fish resources, or protecting property. Permit requests must be made and processed in accordance with subsections (2) and (3) of this section.

(b) Any projects proposed to address a chronic danger identified under (a) of this subsection that satisfies the project description identified in RCW 77.55.181(1)(a)(ii) are not subject to the provisions of the state environmental policy act, chapter 43.21C RCW. However, the project is subject to the review process established in RCW 77.55.181(3) as if it were a fish habitat improvement project.

(12) The department may issue an expedited written permit in those instances where normal permit processing would result in significant hardship for the applicant or unacceptable damage to the environment. Expedited permit requests require a complete written application as provided in subsection (2) of this section and must be issued within fifteen calendar days of the receipt of a complete written application. Approval of an expedited permit is valid for up to sixty days from the date of issuance. The department may not require the provisions of the state environmental policy act, chapter 43.21C RCW, to be met as a condition of issuing a permit under this subsection. 77.55.031 Driving across established ford. The act of driving across an established ford is exempt from a permit. Driving across streams or on wetted streambeds at areas other than established fords requires a permit. Work within the ordinary high water line of state waters to construct or repair a ford or crossing requires a permit. [2005 c 146 § 301.]

77.55.041 Derelict fishing, crab, and other shellfish gear—Removal. (1) The removal of derelict fishing gear does not require a permit under this chapter if the gear is removed according to the guidelines described in RCW 77.12.865.

(2) The removal of crab and other shellfish gear does not require a permit under this chapter if the gear is removed under a permit issued pursuant to RCW 77.70.500. [2010 c 193 § 10; 2005 c 146 § 302; 2002 c 20 § 4. Formerly RCW 77.55.330.]

77.55.051 Spartina/purple loosestrife—Removal or control. (1) An activity conducted solely for the removal or control of spartina does not require a permit.

(2) An activity conducted solely for the removal or control of purple loosestrife and which is performed with handheld tools, handheld equipment, or equipment carried by a person does not require a permit. [2005 c 146 § 303.]

77.55.061 Hazardous substance remedial actions—Procedural requirements not applicable. The procedural requirements of this chapter shall not apply to any person conducting a remedial action at a facility pursuant to a consent decree, order, or agreed order issued pursuant to chapter 70.105D RCW, or to the department of ecology when it conducts a remedial action under chapter 70.105D RCW. The department of ecology shall ensure compliance with the substantive requirements of this chapter through the consent decree, order, or agreed order issued pursuant to chapter 70.105D RCW, or during the department-conducted remedial action, through the procedures developed by the department pursuant to RCW 70.105D.090. 77.55.081 Removal or control of aquatic noxious weeds—Rules—Pamphlet. (1) By June 30, 1997, the department shall develop rules for projects conducted solely for the removal or control of various aquatic noxious weeds other than spartina and purple loosestrife and for activities or hydraulic projects for controlling purple loosestrife not covered by RCW 77.55.051(2). Following the adoption of the rules, the department shall produce and distribute a pamphlet describing the methods of removing or controlling the aquatic noxious weeds that are approved under the rules. The pamphlet serves as the permit for any project that is conducted solely for the removal or control of such aquatic noxious weeds and that is conducted as described in the pamphlet. No further permit is required for such a project.

(2) From time to time as information becomes available, the department shall adopt similar rules for additional aquatic noxious weeds or additional activities for removing or controlling aquatic noxious weeds not governed by RCW 77.55.051 (1) and (2) and shall produce and distribute one or more pamphlets describing these methods of removal or control. Such a pamphlet serves as the permit for any project that is conducted solely for the removal or control of such aquatic weeds.

(3) Nothing in this section shall prohibit the department from requiring a permit for those parts of hydraulic projects that are not specifically for the control or removal of Spartina, purple loosestrife, or other aquatic noxious weeds. 77.55.091 Small scale prospecting and mining—Rules. (1) Small scale prospecting and mining shall not require a permit under this chapter if the prospecting is conducted in accordance with rules established by the department.

(2) By December 31, 1998, the department shall adopt rules applicable to small scale prospecting and mining activities subject to this section. The department shall develop the rules in cooperation with the recreational mining community and other interested parties.

(3) Within two months of adoption of the rules, the department shall distribute an updated gold and fish pamphlet that describes methods of mineral prospecting that are consistent with the department’s rule. The pamphlet shall be written to clearly indicate the prospecting methods that require a permit under this chapter and the prospecting methods that require compliance with the pamphlet. To the extent possible, the department shall use the provisions of the gold and fish pamphlet to minimize the number of specific provisions of a written permit issued under this chapter. Findings—1997 c 415: "The legislature finds that small scale prospecting and mining: (1) Is an important part of the heritage of the state; (2) provides economic benefits to the state; and (3) can be conducted in a manner that is beneficial to fish habitat and fish propagation. Now, therefore, the legislature declares that small scale prospecting and mining shall be regulated in the least burdensome manner that is consistent with the state’s fish management objectives and the federal endangered species act." 77.55.101 Environmental excellence program agreements—Effect on chapter. Notwithstanding any other provision of law, any legal requirement under this chapter, including any standard, limitation, rule, or order is superseded and replaced in accordance with the terms and provisions of an environmental excellence program agreement, entered into under chapter 43.21K RCW. 77.55.111 Habitat incentives agreement. When a private landowner is applying for a permit under this chapter and that landowner has entered into a habitat incentives agreement with the department and the department of natural resources as provided in RCW 77.55.121, the department shall comply with the terms of that agreement when evaluating the request for a permit. [2005 c 146 § 403; 2001 c 253 § 54; 1997 c 425 § 4. Formerly RCW 77.55.280, 75.20.340.]

department. The agreement shall not be appurtenant with the land. However, if a new landowner chooses to maintain the habitat enhancement efforts on the property, the new landowner and the department and the department of natural resources may jointly choose to retain the agreement on the property.

(6) If the department and the department of natural resources receive multiple requests for agreements with private landowners under the habitat incentives program, the departments shall prioritize these requests and shall enter into as many agreements as possible within available budgetary resources. [2005 c 146 § 404; 2000 c 107 § 229; 1997 c 425 § 3. Formerly RCW 77.55.300, 77.12.830.]

Finding—Intent—1997 c 425: "In an effort to increase the amount of habitat available for fish and wildlife, the legislature finds that it is desirable for the department of fish and wildlife, the department of natural resources, and other interested parties to work closely with private landowners to achieve habitat enhancements. In some instances, private landowners avoid enhancing habitat because of a concern that the presence of fish or wildlife may make future land management more difficult. It is the intent of this act to provide a mechanism that facilitates habitat development while avoiding an adverse impact on the landowner at a later date. The habitat incentives program is not intended to superecede any federal laws." [1997 c 425 § 1.]

77.55.131 Dike vegetation management guidelines—Memorandum of agreement. The department and the department of ecology will work cooperatively with the United States army corps of engineers to develop a memorandum of agreement outlining dike vegetation management guidelines so that dike owners are eligible for coverage under P.L. 84-99, and state requirements established pursuant to RCW 77.55.021 are met. [2005 c 146 § 405; 2000 c 107 § 18; 1993 sp.s. c 2 § 34; 1991 c 322 § 19. Formerly RCW 77.55.130, 75.20.1041.]

77.55.141 Marine beach front protective bulkheads or rockwalls. (1) In order to protect the property of marine waterfront shoreline owners it is necessary to facilitate issuance of permits for bulkheads or rockwalls under certain conditions.

(2) The department shall issue a permit with or without conditions within forty-five days of receipt of a complete and accurate application which authorizes commencement of construction, replacement, or repair of a marine beach front protective bulkhead or rockwall for single-family type residences or property under the following conditions:

(a) The waterward face of a new bulkhead or rockwall shall be located only as far waterward as is necessary to excavate for footings or place base rock for the structure and under no conditions shall be located more than six feet waterward of the ordinary high water line;

(b) Any bulkhead or rockwall to replace or repair an existing bulkhead or rockwall shall be placed along the same alignment as the bulkhead or rockwall it is replacing. However, the replaced or repaired bulkhead or rockwall may be placed waterward of and directly abutting the existing structure only in cases where removal of the existing bulkhead or rockwall would result in environmental degradation or removal problems related to geological, engineering, or safety considerations; and

(c) Construction of a new bulkhead or rockwall, or replacement or repair of an existing bulkhead or rockwall waterward of the existing structure shall not result in the permanent loss of critical food fish or shellfish habitats; and

(d) Timing constraints shall be applied on a case-by-case basis for the protection of critical habitats, including but not limited to migration corridors, rearing and feeding areas, and spawning habitats, for the proper protection of fish life.

(3) Any bulkhead or rockwall construction, replacement, or repair not meeting the conditions in this section shall be processed under this chapter in the same manner as any other application.

(4) Any person aggrieved by the approval, denial, conditioning, or modification of a permit under this section may appeal the decision as provided in RCW 77.55.021(4). [2010 c 210 § 28; 2005 c 146 § 501; 1991 c 279 § 1. Formerly RCW 77.55.200, 75.20.160.]

Findings—Effective dates—Application—Pending cases and rules—2010 c 210: See notes following RCW 43.21B.001.

Finding—Intent—1996 c 192: "The legislature finds that initial construction, a renewable, five-year permit shall be issued, upon request, for regular maintenance activities of the marina or marine terminal.

(2) Upon construction of a new marina or marine terminal that has received a permit, a renewable, five-year permit shall be issued, upon request, for regular maintenance activities of the marina or marine terminal.

(3) For the purposes of this section, regular maintenance activities are only those activities necessary to restore the marina or marine terminal to the conditions approved in the initial permit. These activities may include, but are not limited to, dredging, piling replacement, and float replacement.

(4) The five-year permit must include a requirement that a fourteen-day notice be given to the department before regular maintenance activities begin. [2005 c 146 § 502; 2002 c 368 § 7; 1996 c 192 § 2. Formerly RCW 77.55.220, 75.20.180.]

Intent—Effective dates—Application—Pending cases and rules—2010 c 210: See notes following RCW 43.21B.001.

77.55.161 Storm water discharges. (1) Notwithstanding any other provision of this chapter, all permits related to
storm water discharges must follow the provisions established in this section.

(2) Permits issued in locations covered by a national pollution discharge elimination system municipal storm water general permit may not be conditioned or denied for water quality or quantity impacts arising from storm water discharges. A permit is required only for the actual construction of any storm water outfall or associated structures pursuant to this chapter.

(3)(a) In locations not covered by a national pollution discharge elimination system municipal storm water general permit, the department may issue permits that contain provisions that protect fish life from adverse effects, such as scouring or erosion of the bed of the water body, resulting from the direct hydraulic impacts of the discharge.

(b) Prior to the issuance of a permit issued under this subsection (3), the department must:

(i) Make a finding that the discharge from the outfall will cause harmful effects to fish life;

(ii) Transmit the findings to the applicant and to the city or county where the project is being proposed; and

(iii) Allow the applicant an opportunity to use local ordinances or other mechanisms to avoid the adverse effects resulting from the direct hydraulic discharge. The forty-five day requirement for permit issuance under RCW 77.55.021 is suspended during the time period the department is meeting the requirements of this subsection (3)(b).

(c) After following the procedures set forth in (b) of this subsection, the department may issue a permit that specifies the discharge rates from an outfall structure that will prevent adverse effects to the bed or flow of the waterway. The department may recommend, but not specify, the measures required to meet these discharge rates. The department may not require changes to the project design above the mean higher high water mark of marine waters, or the ordinary high water mark of freshwaters of the state. Nothing in this section alters any authority the department may have to regulate other types of projects under this chapter. [2005 c 146 § 503; 2002 c 368 § 4. Formerly RCW 77.55.340.]

Finding—Intent—2002 c 368: "The legislature finds that hydraulic project approvals should ensure that fish life is properly protected, but conditions attached to the approval of these permits must reasonably relate to the potential harm that the projects may produce. The legislature is particularly concerned over the current overlap of agency jurisdiction regarding storm water projects, and believes that there is an immediate need to address this issue to ensure that project applicants are not given conflicting directions over project design. Requiring a major redesign of a project results in major delays, produces exponentially rising costs for both public and private project applicants, and frequently produces only marginal benefits for fish.

The legislature recognizes that the department of ecology is primarily responsible for the approval of storm water projects. The legislature believes that once the department of ecology approves a proposed storm water project, it is inappropriate for the department of fish and wildlife to require a major redesign of that project in order for the applicant to obtain hydraulic project approval. The legislature further believes that it is more appropriate for the department of fish and wildlife to defer the design elements of a storm water project to the department of ecology and focus its own efforts on determining reasonable mitigation or conditions for the project based upon the project's potential harm to fish. It is the intent of the legislature to restore some balance over conditions attached to hydraulic permits, and to minimize overlapping state regulatory authority regarding storm water projects in order to reduce waste in both time and money while still providing ample protection for fish life." [2002 c 368 § 1.]

77.55.171 Watershed restoration projects—Permit processing. A permit required by the department for a watershed restoration project as defined in RCW 89.08.460 shall be processed in compliance with RCW 89.08.510. [2005 c 146 § 504; 1995 c 378 § 14. Formerly RCW 77.55.210, 75.20.170.]

Part headings not law—2005 c 146: See note following RCW 77.55.011.

77.55.181 Fish habitat enhancement project—Permit review and approval process. (1) In order to receive the permit review and approval process created in this section, a fish habitat enhancement project must meet the criteria under (a) and (b) of this subsection:

(a) A fish habitat enhancement project must be a project to accomplish one or more of the following tasks:

(i) Elimination of human-made fish passage barriers, including culvert repair and replacement;

(ii) Restoration of an eroded or unstable streambank employing the principle of bioengineering, including limited use of rock as a stabilization only at the toe of the bank, and with primary emphasis on using native vegetation to control the erosive forces of flowing water; or

(iii) Placement of woody debris or other instream structures that benefit naturally reproducing fish stocks.

The department shall develop size or scale threshold tests to determine if projects accomplishing any of these tasks should be evaluated under the process created in this section or under other project review and approval processes. A project proposal shall not be reviewed under the process created in this section if the department determines that the scale of the project raises concerns regarding public health and safety; and

(b) A fish habitat enhancement project must be approved in one of the following ways:

(i) By the department pursuant to chapter 77.95 or 77.100 RCW;

(ii) By the sponsor of a watershed restoration plan as provided in chapter 89.08 RCW;

(iii) By the department as a department-sponsored fish habitat enhancement or restoration project;

(iv) Through the review and approval process for the jobs for the environment program;

(v) Through the review and approval process for conservation district-sponsored projects, where the project complies with design standards established by the conservation commission through interagency agreement with the United States fish and wildlife service and the natural resource conservation service;

(vi) Through a formal grant program established by the legislature or the department for fish habitat enhancement or restoration; and

(vii) Through other formal review and approval processes established by the legislature.

(2) Fish habitat enhancement projects meeting the criteria of subsection (1) of this section are expected to result in beneficial impacts to the environment. Decisions pertaining to fish habitat enhancement projects meeting the criteria of subsection (1) of this section and being reviewed and approved according to the provisions of this section are not subject to the requirements of RCW 43.21C.030(2)(c).
(3)(a) A permit is required for projects that meet the criteria of subsection (1) of this section and are being reviewed and approved under this section. An applicant shall use a joint aquatic resource permit application form developed by the office of regulatory assistance to apply for approval under this chapter. On the same day, the applicant shall provide copies of the completed application form to the department and to each appropriate local government. Local governments shall accept the application as notice of the proposed project. The department shall provide a fifteen-day comment period during which it will receive comments regarding environmental impacts. Within forty-five days, the department shall either issue a permit, with or without conditions, deny approval, or make a determination that the review and approval process created by this section is not appropriate for the proposed project. The department shall base this determination on identification during the comment period of adverse impacts that cannot be mitigated by the conditioning of a permit. If the department determines that the review and approval process created by this section is not appropriate for the proposed project, the department shall notify the applicant and the appropriate local governments of its determination. The applicant may reapply for approval of the project under other review and approval processes.

(b) Any person aggrieved by the approval, denial, conditioning, or modification of a permit under this section may appeal the decision as provided in RCW 77.55.021(4).

(4) No local government may require permits or charge fees for fish habitat enhancement projects that meet the criteria of subsection (1) of this section and that are reviewed and approved according to the provisions of this section. [2010 c 210 § 29; 2005 c 146 § 505; 2001 c 253 § 55; 1998 c 249 § 3. Formerly RCW 77.55.290, 75.20.350.]

Intent—Effective dates—Application—Pending cases and rules—2010 c 210: See notes following RCW 43.21B.001.

Part headings not law—2005 c 146: See note following RCW 77.55.011.

Findings—Purpose—1998 c 249: "The legislature finds that fish habitat enhancement projects play a key role in the state’s salmon and steelhead recovery efforts. The legislature finds that there are over two thousand barriers to fish passage at road crossings throughout the state, blocking fish access to as much as three thousand miles of freshwater spawning and rearing habitat. The legislature further finds that removal of these barriers and completion of other fish habitat enhancement projects should be done in a cost-effective manner, which includes providing technical assistance and training to people who will undertake projects such as removal of barriers to salmon passage and minimizing the expense and delays of various permitting processes. The purpose of this act is to take immediate action to facilitate the review and approval of fish habitat enhancement projects, to encourage efforts that will continue to improve the process in the future, to address known fish passage barriers immediately, and to develop over time a comprehensive system to inventory and prioritize barriers on a statewide basis." [1998 c 249 § 1.]

Finding—Report—1998 c 249: "The legislature finds that, while the process created in this act can improve the speed with which fish habitat enhancement projects are put into place, additional efforts can improve the review and approval process for the future. The legislature directs the department of fish and wildlife, the conservation commission, local governments, fish habitat enhancement project applicants, and other interested parties to work together to continue to improve the permitting review and approval process. Specific efforts shall include the following:

(1) Development of common acceptable design standards, best management practices, and standardized hydraulic project approval conditions for each type of fish habitat enhancement project;

(2) An evaluation of the potential for using technical evaluation teams in evaluating specific project proposals or stream reaches;

(3) An evaluation of techniques appropriate for restoration and enhancement of pasture and crop land adjacent to riparian areas;

(4) A review of local government shoreline master plans to identify and correct instances where the local plan does not acknowledge potentially beneficial instream work;

(5) An evaluation of the potential for local governments to incorporate fish habitat enhancement projects into their comprehensive planning process; and

(6) Continued work with the federal government agencies on federal permitting for fish habitat enhancement projects.

The department of fish and wildlife shall coordinate this joint effort and shall report back to the legislature on the progress by December 1, 1998." [1998 c 249 § 15.]

77.55.191 Columbia river anadromous fish sanctuary—Restrictions. (1) Except for the north fork of the Lewis river and the White Salmon river, all streams and rivers tributary to the Columbia river downstream from McNary dam are established as an anadromous fish sanctuary. This sanctuary is created to preserve and develop the adult fish and game fish resources in these streams and rivers and to protect them against undue industrial encroachment.

(2) Within the sanctuary area:

(a) The department shall not issue a permit to construct a dam greater than twenty-five feet high within the migration range of anadromous fish as determined by the department.

(b) A person shall not divert water from rivers and streams in quantities that will reduce the respective stream flow below the annual average low flow, based upon data published in United States geological survey reports.

(3) The commission may acquire and abate a dam or other obstruction, or acquire any water right vested on a sanctuary stream or river, which is in conflict with the provisions of subsection (2) of this section.

(4) Subsection (2)(a) of this section does not apply to the sediment retention structure to be built on the North Fork Toutle river by the United States army corps of engineers. 77.55.221 Flood damage repair and reduction activities—Five-year maintenance permit agreements. The department shall, at the request of a county, develop five-year maintenance permit agreements, consistent with comprehensive flood control management plans adopted under the authority of RCW 86.12.200, or other watershed plan approved by a county legislative authority, to allow for work on public and private property for bank stabilization, bridge repair, removal of sandbars and debris, channel maintenance, and other flood damage repair and reduction activity under agreed-upon conditions and times without obtaining permits for specific projects. Part headings not law—2005 c 146: See note following RCW 77.55.011.

77.55.231 Conditions imposed upon a permit—Reasonably related to project. (1) Conditions imposed upon a permit must be reasonably related to the project. The permit conditions must ensure that the project provides proper protection for fish life, but the department may not impose conditions that attempt to optimize conditions for fish life that are out of proportion to the impact of the proposed project.

(2) The permit must contain provisions allowing for minor modifications to the plans and specifications without requiring reissuance of the permit. [2005 c 146 § 601; 2002 c 368 § 5. Formerly RCW 77.55.350.]

77.55.241 Off-site mitigation. (1) The legislature finds that the construction of hydraulic projects may require mitigation for the protection of fish life, and that the mitigation may be most cost-effective and provide the most benefit to the fish resource if the mitigation is allowed to be applied in locations that are off-site of the hydraulic project location. The department may approve off-site mitigation plans that are submitted by permit applicants.

(2) If a permit applicant proposes off-site mitigation and the department does not approve the permit or conditions the permit in such a manner as to render off-site mitigation unpracticable, the project proponent may appeal the decision as provided in RCW 77.55.021(4). This chapter shall not be construed to require habitat mitigation for navigation and maintenance dredging of existing channels and berthing areas. [1997 c 424 § 5. Formerly RCW 77.55.260, 75.20.325.]

77.55.281 Fishways on certain agricultural drainage facilities. The penalty provided shall be imposed by notice in writing, either by certified mail or personal service to the person incurring the penalty, from the director or the director’s designee describing the violation.

(2)(a) Except as provided in (b) of this subsection, any person incurring any penalty under this chapter may appeal the same under chapter 34.05 RCW to the board. Appeals shall be filed within thirty days from the date of receipt of the penalty in accordance with RCW 43.21B.230.

(b) Issuance of a civil penalty may be informally appealed to the department within thirty days from the date of receipt of the penalty. Requests for informal appeal must be filed in the form and manner prescribed by the department by rule. A civil penalty that has been informally appealed to the

(3) The penalty imposed shall become due and payable thirty days after receipt of a notice imposing the penalty unless an appeal is filed. Whenever an appeal of any penalty incurred under this chapter is filed, the penalty shall become due and payable only upon completion of all review proceedings and the issuance of a final order confirming the penalty in whole or in part.

(4) If the amount of any penalty is not paid within thirty days after it becomes due and payable, the attorney general, upon the request of the director, shall bring an action in the name of the state of Washington in the superior court of Thurston county or of any county in which such violator may do business, to recover such penalty. In all such actions the procedure and rules of evidence shall be the same as an ordinary civil action. All penalties recovered under this section shall be paid into the state’s general fund. 77.57.010 Fish guards required on diversion devices—Penalties, remedies for failure. (1) A diversion device used for conducting water from a lake, river, or stream for any purpose shall be equipped with a fish guard approved by the director to prevent the passage of fish into the diversion device. The fish guard shall be maintained at all times when water is taken into the diversion device. The fish guards shall be installed at places and times prescribed by the director upon thirty days’ notice to the owner of the diversion device.

(2) Each day the diversion device is not equipped with an approved fish guard is a separate offense. If within thirty days after notice to equip a diversion device the owner fails to do so, the director may take possession of the diversion device and close the device until it is properly equipped. Expenses incurred by the department constitute the value of a lien upon the diversion device and upon the real and personal property of the owner. 77.57.020 Review of permit applications to divert or store water—Water flow policy. It is the policy of this state that a flow of water sufficient to support game fish and food fish populations be maintained at all times in the streams of this state.

The director of ecology shall give the director notice of each application for a permit to divert or store water. The director has thirty days after receiving the notice to state his or her objections to the application. The permit shall not be issued until the thirty-day period has elapsed.

The director of ecology may refuse to issue a permit if, in the opinion of the director of ecology, issuing the permit might result in lowering the flow of water in a stream below the flow necessary to adequately support food fish and game fish populations in the stream.

The provisions of this section shall in no way affect existing water rights. [2005 c 146 § 902; 1993 sp.s. c 2 § 29; 1988 c 36 § 32; 1986 c 173 § 7; 1983 1st ex.s. c 46 § 71; 1955 c 12 § 75.20.050. Prior: 1949 c 112 § 46; Rem. Supp. 1949 § 5780-320. Formerly RCW 77.55.050, 75.20.050.]

77.57.030 Fishways required in dams, obstructions—Penalties, remedies for failure. (1) Subject to subsection (3) of this section, a dam or other obstruction across or in a stream shall be provided with a durable and efficient fishway approved by the director. Plans and specifications shall be provided to the department prior to the director’s approval. The fishway shall be maintained in an effective condition and continuously supplied with sufficient water to freely pass fish.

(2) (a) If a person fails to construct and maintain a fishway or to remove the dam or obstruction in a manner satisfactory to the director, then within thirty days after written notice to comply has been served upon the owner, his or her agent, or the person in charge, the director may construct a fishway or remove the dam or obstruction. Expenses incurred by the department constitute the value of a lien upon the dam and upon the personal property of the person owning the dam. Notice of the lien shall be filed and recorded in the office of the county auditor of the county in which the dam or obstruction is situated. The lien may be foreclosed in an action brought in the name of the state.

(b) If, within thirty days after notice to construct a fishway or remove a dam or obstruction, the owner, his or her agent, or the person in charge fails to do so, the dam or obstruction is a public nuisance and the director may take possession of the dam or obstruction and destroy it. No liability shall attach for the destruction.

If the director determines that a fishway or fish guard described in *RCW 77.55.040 and 77.55.060 and in existence on September 1, 1963, is inadequate, in addition to other authority granted in this chapter, the director may remove, relocate, reconstruct, or modify the device, without cost to the owner. The director shall not materially modify the amount of flow of water through the device. After the department has completed the improvements, the fishways and fish guards shall be operated and maintained at the expense of the owner in accordance with *RCW 77.55.040 and 77.55.060. 77.57.050 If fishway is impractical, fish hatchery or cultural facility may be provided in lieu. Before a person commences construction on a dam or other hydraulic project for which the director determines that a fishway is impractical, the person shall at the option of the director:

(1) Convey to the state a fish cultural facility on a site satisfactory to the director and constructed according to plans and specifications approved by the director, and enter into an agreement with the director secured by sufficient bond, to furnish water and electricity, without expense, and funds necessary to operate and maintain the facilities; or

(2) Enter into an agreement with the director secured by sufficient bond to make payments to the state as the director determines are necessary to expand, maintain, and operate additional facilities at existing hatcheries within a reasonable distance of the dam or other hydraulic work to compensate for the damages caused by the dam or other hydraulic work.

(3) A decision of the director under this section is subject to review in the superior court of the state for Thurston county. Each day that a person carries on construction work or operates a dam or hydraulic project without complying with this section is a separate offense. [1983 1st ex.s. c 46 § 74; 1955 c 12 § 75.20.090. 77.57.070 Diversion of water—Screen, bypass required. (1) A person shall not divert water from a lake, river, or stream containing game fish unless the water diversion device is equipped at or near its intake with a fish guard or screen to prevent the passage of game fish into the device and, if necessary, with a means of returning game fish from immediately in front of the fish guard or screen to the waters of origin. A person who was, on June 11, 1947, otherwise lawfully diverting water from a lake, river, or stream shall not be deemed guilty of a violation of this section.

(2) Plans for the fish guard, screen, and bypass shall be approved by the director prior to construction. The installation shall be approved by the director prior to the diversion of water.

77.60.030 State oyster reserves management policy—Personal use harvesting—Inventory—Management categories—Cultch permits. It is the policy of the state to improve state oyster reserves so that they are productive and yield a revenue sufficient for their maintenance. In fixing the price of oysters and other shellfish sold from the reserves, the director shall take into consideration this policy. It is also the policy of the state to maintain the oyster reserves to furnish shellfish to growers and processors and to stock public beaches.

Shellfish may be harvested from state oyster reserves for personal use as prescribed by rule of the director.

The director shall periodically inventory the state oyster reserves and assign the reserve lands into management categories:

(1) Native Olympia oyster broodstock reserves;
(2) Commercial shellfish harvesting zones;
(3) Commercial shellfish propagation zones designated for long-term leasing to private aquaculturists;
(4) Public recreational shellfish harvesting zones;
(5) Unproductive land.

The director shall manage each category of oyster reserve land to maximize the sustained yield production of shellfish consistent with the purpose for establishment of each management category.

The commission shall develop an oyster reserve management plan, to include recommendations for leasing reserve lands, in coordination with the shellfish industry, by January 1, 1986.

The director shall protect, reseed, improve the habitat of, and replant state oyster reserves. The director shall also issue cultch permits and oyster reserve fishery licenses. 77.60.040 Olympia oysters—Cultivation on reserves in Puget Sound. The legislature finds that current environmental and economic conditions warrant a renewal of the state’s historical practice of actively cultivating and managing its oyster reserves in Puget Sound to produce the state’s native oyster, the Olympia oyster. The director shall reestablish dike cultivated production of Olympia oysters on such reserves on a trial basis as a tool for planning more comprehensive cultivation by the state. **77.60.050 Sale of shellfish from state oyster reserves.**
The director shall determine the time, place, and method of sale of oysters and other shellfish from state oyster reserves. Any person who commercially takes shellfish from state oyster reserves must possess an oyster reserve fishery license issued by the director pursuant to RCW 77.65.260. Any person engaged in the commercial cultching of oysters on state oyster reserves must possess an oyster cultch permit issued by the director pursuant to RCW 77.65.270.

To maintain local communities and industries and to restrain the formation of monopolies in the industry, the director shall determine the number of bushels which shall be sold to a person. When the shellfish are sold at public auction, the director may reject any and all bids. [2000 c 107 § 24; 1983 1st ex.s. c 46 § 82; 1955 c 12 § 75.24.070. Prior: 1949 c 112 § 57; Rem. Supp. 1949 § 5780-404. Formerly RCW 75.24.070.]

**77.60.060 Restricted shellfish areas—Infestations—Permit.** The director may designate as "restricted shellfish areas" those areas in which infection or infestation of shellfish is present. A permit issued by the director is required to transplant or transport into or out of a restricted area shellfish or equipment used in culturing, taking, handling, or processing shellfish. [1998 c 190 § 90; 1983 1st ex.s. c 46 § 83; 1955 c 12 § 75.24.080. Prior: 1949 c 112 § 59; Rem. Supp. 1949 § 5780-406. Formerly RCW 75.24.080.]

**77.60.070 Geoduck clams, commercial harvesting—Unauthorized acts—Gear requirements.** (1) The director may not authorize a person to take geoduck clams for commercial purposes outside the harvest area designated in a current department of natural resources geoduck harvesting agreement issued under RCW 79.135.210. The director may not authorize commercial harvest of geoduck clams from bottoms that are shallower than eighteen feet below mean lower low water (0.0. ft.). Vessels conducting harvest operations must remain seaward of a line two hundred yards seaward from and parallel to the line of ordinary high tide. This section does not apply to the harvest of private sector cultured aquatic products as defined in RCW 15.85.020.

(2) Commercial geoduck harvesting shall be done with a hand-held, manually operated water jet or suction device guided and controlled from under water by a diver. Periodically, the director shall determine the effect of each type or unit of gear upon the geoduck population or the substrate they inhabit. The director may require modification of the gear or stop its use if it is being operated in a wasteful or destructive manner or if its operation may cause permanent damage to the bottom or adjacent shellfish populations. **77.60.080 Imported oyster seed—Permit and inspection required.** The department may not authorize a person to import oysters or oyster seed into this state for the purpose of planting them in state waters without a permit from the director. The director shall issue a permit only after an adequate inspection has been made and the oysters or oyster seed are found to be free of disease, pests, and other substances which might endanger oysters in state waters. **77.60.090 Imported oyster seed—Inspection—Costs.** The director may require imported oyster seed to be inspected for diseases and pests. The director may specify the place of inspection. Persons importing oyster seed shall pay for the inspection costs excluding the inspector’s salary. The cost shall be determined by the director and prorated among the importers according to the number of cases of oyster seeds each imports. The director shall specify the time and manner of payment. **77.60.100 Establishment of reserves on state shellfish lands.** The commission may examine the clam, mussel, and oyster beds located on aquatic lands belonging to the state and request the commissioner of public lands to withdraw these lands from sale and lease for the purpose of establishing reserves or public beaches. The director shall conserve, protect, and develop these reserves and the oyster, shrimp, clam, and mussel beds on state lands. **77.60.110 Zebra mussels and European green crabs—Draft rules—Prevention of introduction and dispersal.** To complement programs authorized by the federal aquatic nuisance species task force, the department of fish and wildlife is directed to develop draft rules for legislative consideration to prevent the introduction and dispersal of zebra mussels and European green crabs and to allow eradication of infestations that may occur. The department is authorized to display and distribute material and literature informing boaters and owners of airplanes that land on water of the problem and to publicize and maintain a telephone number available to the public to express concerns and report infestations. [1998 c 153 § 2. Formerly RCW 75.24.140.]

**Intent—1998 c 153:** "The unauthorized introduction of the zebra mussel and the European green crab into Washington state waters would pose a serious economic and environmental threat. The zebra mussel and European green crab have adverse impacts on fisheries, waterways, public and private facilities, and the functioning of natural ecosystems. The threat of zebra mussels and European green crabs requires a coordinated response. It is the intent of the legislature to prevent adverse economic and environmental impacts caused by zebra mussels and European green crabs in cooperation and coor-
dination with local governments, the public, other states, and federal agencies." [1998 c 153 § 1]}

77.60.120 Infested waters—List published. The department of fish and wildlife shall prepare, maintain, and publish a list of all lakes, ponds, or other waters of the state and other states infested with zebra mussels or European green crabs. The department may participate in regional or national groups addressing these species. [1998 c 153 § 3. Formerly RCW 75.24.150.]

77.60.130 Aquatic nuisance species committee. (1) The aquatic nuisance species committee is created for the purpose of fostering state, federal, tribal, and private cooperation on aquatic nuisance species issues. The mission of the committee is to minimize the unauthorized or accidental introduction of nonnative aquatic species and give special emphasis to preventing the introduction and spread of aquatic nuisance species. The term "aquatic nuisance species" means a nonnative aquatic plant or animal species that threatens the diversity or abundance of native species, the ecological stability of infested waters, or commercial, agricultural, or recreational activities dependent on such waters.

(2) The committee consists of representatives from each of the following state agencies: Department of fish and wildlife, department of ecology, department of agriculture, department of health, department of natural resources, Puget Sound partnership, state patrol, state noxious weed control board, and Washington sea grant program. The committee shall encourage and solicit participation by: Federally recognized tribes of Washington, federal agencies, Washington conservation organizations, environmental groups, and representatives from industries that may either be affected by the introduction of an aquatic nuisance species or that may serve as a pathway for their introduction.

(3) The committee has the following duties:
(a) Periodically revise the state of Washington aquatic nuisance species management plan, originally published in June 1998;
(b) Make recommendations to the legislature on statutory provisions for classifying and regulating aquatic nuisance species;
(c) Recommend to the state noxious weed control board that a plant be classified under the process designated by RCW 17.10.080 as an aquatic noxious weed;
(d) Coordinate education, research, regulatory authorities, monitoring and control programs, and participate in regional and national efforts regarding aquatic nuisance species;
(e) Consult with representatives from industries and other activities that may serve as a pathway for the introduction of aquatic nuisance species to develop practical strategies that will minimize the risk of new introductions; and
(f) Prepare a biennial report to the legislature with the first report due by December 1, 2001, making recommendations for better accomplishing the purposes of this chapter, and listing the accomplishments of this chapter to date.

(4) The committee shall accomplish its duties through the authority and cooperation of its member agencies. Implementation of all plans and programs developed by the committee shall be through the member agencies and other cooperating organizations. [2007 c 341 § 59; 2000 c 149 § 1.]

77.60.150 Oyster reserve land—Pilot project—Advisory committee—Lease administration. (1) The department shall initiate a pilot project to evaluate the feasibility and potential of intensively culturing shellfish on currently nonproductive oyster reserve land in Puget Sound. The pilot program shall include no fewer than three long-term lease agreements with commercial shellfish growers. Except as provided in subsection (3) of this section, revenues from the lease of such lands shall be deposited in the oyster reserve land account created in RCW 77.60.160.

(2) The department shall form one advisory committee for each of the Willapa Bay oyster reserve lands and the Puget Sound oyster reserve lands. The advisory committees shall make recommendations on management practices to conserve, protect, and develop oyster reserve lands. The advisory committees may also make recommendations regarding the management practices on oyster reserve lands, in particular to ensure that they are managed in a manner that will: (a) Increase revenue through production of high-value shellfish; (b) not be detrimental to the market for shellfish grown on nonreserve lands; and (c) avoid negative impacts to existing shellfish populations. The advisory committees may also make recommendation on the distribution of funds in RCW 77.60.160(2)(a). The department shall attempt to structure each advisory committee to include equal representation between shellfish growers that participate in reserve sales and shellfish growers that do not.

(3) The department of natural resources, in consultation with the department of fish and wildlife, shall administer the leases for oyster reserves entered into under this chapter. In administering the leases, the department of natural resources shall exercise its authority under RCW 79.135.300. Vacation of state oyster reserves by the department shall not be a requirement for the department of natural resources to lease any oyster reserves under this section. The department of natural resources may recover reasonable costs directly associated with the administration of the leases for oyster reserves entered into under this chapter. All administrative fees collected by the department of natural resources pursuant to this section shall be deposited into the resource management cost account established in RCW 79.64.020. The department may not assess charges to recover the costs of consulting with the department of natural resources under this subsection.

(4) The Puget Sound pilot program shall not include the culture of geoduck. [2009 c 333 § 23; 2001 c 273 § 1.]

77.60.160 Oyster reserve land account. (1) The oyster reserve land account is created in the state treasury. All receipts from revenues from the lease of land or sale of shellfish from oyster reserve lands must be deposited into the account. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only as provided in this section.
(2) Funds in the account shall be used for the purposes provided for in this subsection:
   (a) Up to forty percent for:
      (i) The management expenses incurred by the department that are directly attributable to the management of the oyster reserve lands; and
      (ii) The expenses associated with new bivalve shellfish research and development activities at the Pt. Whitney and Nahcotta shellfish laboratories managed by the department. As used in this subsection, "new research and development activities" includes an emphasis on the control of aquatic nuisance species and burrowing shrimp. New research and development activities must be identified by the department and the appropriate oyster reserve advisory committee;
   (b) Up to ten percent may be deposited into the state general fund; and
   (c) Except as provided in subsection (3) of this section, all remaining funds in the account shall be used for the shellfish—on-site sewage grant program established in RCW 77.60.170.

(3)(a) No later than January 1st of each year, the department shall transfer up to fifty percent of the annual revenues generated in the preceding year from the Willapa harbor oyster reserve to the on-site sewage grant program established under RCW 77.60.170 as necessary to achieve a fund balance of one hundred thousand dollars.
   (b) All remaining revenues received from the Willapa harbor oyster reserve shall be used to fund research activities as specified in subsection (2)(a) of this section. [2008 c 202 § 2; 2007 c 341 § 44; 2001 c 273 § 2.]

Severability—Effective date—2007 c 341: See RCW 90.71.906 and 90.71.907.

77.60.170 Shellfish—On-site sewage grant program—Priority areas—Memorandum of understanding. (1)(a) The department shall transfer the funds required by RCW 77.60.160 to the appropriate local governments. Pacific and Grays Harbor counties and Puget Sound shall manage their established shellfish—on-site sewage grant program. The local governments, in consultation with the department of health, shall use the provided funds as grants or loans to individuals for repairing or improving their on-site sewage systems. The grants or loans may be provided only in areas that have the potential to adversely affect water quality in commercial and recreational shellfish growing areas.
   (b) A recipient of a grant or loan shall enter into an agreement with the appropriate local government to maintain the improved on-site sewage system according to specifications required by the local government.
   (c) The department shall work closely with local governments and it shall be the goal of the department to attain geographic equity between Grays Harbor, Willapa Bay, and Puget Sound when making funds available under this program.
   (d) For the purposes of this subsection, "geographic equity" means issuing on-site sewage grants or loans at a level that matches the funds generated from the oyster reserve lands in that area.

(2) In Puget Sound, the local governments shall give first priority to areas that are:
### Title 77 RCW: Fish and Wildlife

**77.65.010 Commercial licenses and permits required—Exemption.** (1) Except as otherwise provided by this title, a person must have a license or permit issued by the director in order to engage in any of the following activities:

- (a) Commercially fish for or take food fish or shellfish;
- (b) Deliver from a commercial fishing vessel food fish or shellfish taken for commercial purposes in offshore waters.

As used in this subsection, “deliver” means arrival at a place or port, and includes arrivals from offshore waters to waters within the state and arrivals from state or offshore waters;

- (c) Operate a charter boat or commercial fishing vessel engaged in a fishery;
- (d) Engage in processing or wholesaling food fish or shellfish;
- (e) Act as a food fish guide for personal use in freshwater rivers and streams, except that a charter boat license is required to operate a vessel from which a person may for a fee fish for food fish in state waters listed in RCW 77.65.150(4)(b).

(2) No person may engage in the activities described in subsection (1) of this section unless the licenses or permits required by this title are in the person’s possession, and the person is the named license holder or an alternate operator designated on the license and the person’s license is not suspended.

(3) A valid Oregon license that is equivalent to a license under this title is valid in the concurrent waters of the Columbia river if the state of Oregon recognizes as valid the equivalent Washington license. The director may identify by rule what Oregon licenses are equivalent.

(4) No license or permit is required for the production or harvesting of private sector cultured aquatic products as defined in RCW 15.85.020 or for the delivery, processing, or wholesaling of such aquatic products. However, if a means of identifying such products is required by rules adopted under RCW 15.85.060, the exemption from licensing or permit requirements established by this subsection applies only if the aquatic products are identified in conformance with those rules.

**Finding—1993 c 340:** "The legislature finds that the laws governing commercial fishing licensing in this state are highly complex and increasingly difficult to administer and enforce. The current laws governing commercial fishing licenses have evolved slowly, one section at a time, over decades of contention and changing technology, without general consideration for how the totality fits together. The result has been confusion and litigation among commercial fishers. Much of the confusion has arisen because the license holder in most cases is a vessel, not a person. The legislature intends by this act to standardize licensing criteria, clarify licensing requirements, reduce complexity, and remove inequities in commercial fishing licensing. The legislature intends that the license fees stated in this act shall be equivalent to those in effect on January 1, 1993, as adjusted under section 19, chapter 316, Laws of 1989."

(3) A commercial license that is transferable under this title survives the death of the holder. Though such licenses are not personal property, they shall be treated as analogous to personal property for purposes of inheritance and intestacy. Such licenses are subject to state laws governing wills, trusts, estates, intestate succession, and community property, except that such licenses are exempt from claims of creditors of the estate and tax liens. The surviving spouse, estate, or beneficiary of the estate may apply for a renewal of the license. There is no fee for transfer of a license from a license holder to the license holder’s surviving spouse or estate, or to a beneficiary of the estate. The application deadline in this section does not apply to a license or permit that has not been renewed because of the death or incapacity of the license or permit holder. The license or permit holder’s surviving spouse, estate, estate beneficiary, attorney-in-fact, or guardian must be given an additional one hundred eighty days to renew the license or permit. (2) The department may, by rule, increase the number of charter boat licenses under this section. A salmon charter license designating a vessel is required to operate a charter boat from which persons may, for a fee, fish for salmon, other food fish, and shellfish. The director may issue a salmon charter license only to a person who meets the qualifications of RCW 77.70.050.

(3) A nonsalmon charter license designating a vessel is required to operate a charter boat from which persons may, for a fee, fish for food fish other than salmon, albacore tuna, and shellfish.

(a) "Charter boat" means a vessel from which persons may, for a fee, fish for food fish or shellfish for personal use in those state waters set forth in (b) of this subsection. "Charter boat" also means a vessel from which persons may, for a fee, fish for food fish or shellfish for personal use in offshore waters or in the waters of other states. The director may specify by rule when a vessel is a "charter boat" within this definition.

(b) A person may not operate a vessel from which persons may, for a fee, fish for food fish or shellfish in Puget Sound, Grays Harbor, Willapa Bay, Pacific Ocean waters, Lake Washington, or the Columbia river below the bridge at Longview unless the vessel is designated on a charter boat license.

(5) A person holding a salmon charter license under the same rules as Washington charter boat operators in ocean waters within the jurisdiction of Washington state may fish without a Washington charter license under the same rules as Washington charter boat operators in ocean waters within the jurisdiction of Washington state from the southern border of the state of Washington to Leadbetter Point, as long as the Oregon vessel does not take on or discharge passengers for any purpose from any Washington port, the Washington shore, or a dock, landing, or other point in Washington. The provisions of this subsection shall be in effect as long as the state of Oregon has reciprocal laws and regulations.

(6) A salmon charter license under subsection (1)(b) of this section may be renewed if the license holder notifies the department by May 1st of that year that he or she will not participate in the fishery during that calendar year. The license holder must pay the one hundred-dollar enhancement sur-
charge and a thirty-five dollar surcharge to be deposited in the rockfish research account created in RCW 77.12.702, plus a fifteen-dollar handling charge, in order to be considered a valid renewal and eligible to renew the license the following year. The direct retail endorsement applies only to the Washington license holder or alternate operator obtaining the endorsement.

(4) In addition to any fees charged for the endorsed licenses and harvest documentation as required by this chapter or the rules of the department, the department may set a
reasonable annual fee not to exceed the administrative costs to the department for a direct retail endorsement.

(5) The holder of a direct retail endorsement is responsible for documenting the commercial harvest of salmon and crab according to the provisions of this chapter, the rules of the department for a wholesale fish dealer, and the reporting requirements of the endorsed license. Any retail-eligible species caught by the holder of a direct retail endorsement must be documented on fish tickets.

(6) The direct retail endorsement must be displayed in a readily visible manner by the seller wherever and whenever a sale to someone other than a licensed wholesale dealer occurs. The commission may require that the holder of a direct retail endorsement notify the department up to eighteen hours before conducting an in-person sale of retail-eligible species, except for in-person sales that have a cumulative retail sales value of less than one hundred fifty dollars in a twenty-four hour period that are sold directly from the vessel. For sales occurring in a venue other than in person, such as over the internet, through a catalog, or on the phone, the direct retail endorsement number of the seller must be provided to the buyer both at the time of sale and the time of delivery. All internet sales must be conducted in accordance with federal laws and regulations.

(7) The direct retail endorsement is to be held by a natural person and is not transferrable or assignable. If the endorsed license is transferred, the direct retail endorsement immediately becomes void, and the transferor is not eligible for a full or prorated reimbursement of the annual fee paid for the direct retail endorsement. Upon becoming void, the holder of a direct retail endorsement must surrender the physical endorsement to the department.

(8) The holder of a direct retail endorsement must abide by the provisions of Title 69 RCW as they apply to the processing and retail sale of seafood. The department must distribute a pamphlet, provided by the department of agriculture, with the direct retail endorsement generally describing the labeling requirements set forth in chapter 69.04 RCW as they apply to seafood.

(9) The holder of a qualifying commercial fishing license issued under this chapter, or an alternate operator designated on such a license, must either possess a direct retail endorsement or a wholesale dealer license provided for in RCW 77.65.280 in order to lawfully sell their catch or harvest in the state to anyone other than a licensed wholesale dealer.

(10) The direct retail endorsement entitles the holder to sell a retail-eligible species only at a temporary food service establishment as that term is defined in RCW 69.06.045, or directly to a restaurant or other similar food service business. [2009 c 195 § 1; 2003 c 387 § 2; 2002 c 301 § 2.]

Finding—2002 c 301: “The legislature finds that commercial fishing is vitally important not just to the economy of Washington, but also to the cultural heritage of the maritime communities in the state. Fisher men and women have a long and proud history in the Pacific Northwest. State and local governments should seek out ways to enable and encourage these professionals to share the rewards of their craft with the nonfishing citizens of and visitors to the state of Washington by encouraging the exploration and development of new niche markets.” [2002 c 301 § 1.]

Effective date—2002 c 301: “This act takes effect July 1, 2002.” [2002 c 301 § 12.]

77.65.515 Direct retail endorsement—Requirements. (1) Prior to being issued a direct retail endorsement, an individual must:

(a) Obtain and submit to the department a signed letter on appropriate letterhead from the health department of the county in which the individual makes his or her official residence or where the hauling port for any documented vessel owned by the individual is located as to the fulfillment of all requirements related to county health rules, including the payment of all required fees. The local health department generating the letter may charge a reasonable fee for any necessary inspections. The letter must certify that the methods used by the individual to transport, store, and display any fresh retail-eligible species meets that county’s standards and the statewide standards adopted by the board of health for food service operations; and

(b) Submit proof to the department that the individual making the direct retail sales is in possession of a valid food and beverage service worker’s permit, as provided for in chapter 69.06 RCW.

(2) The requirements of subsection (1) of this section must be completed each license year before a renewal direct retail endorsement can be issued.

(3) Any individual possessing a direct retail endorsement must notify the local health department of the county in which retail sales are to occur, except for the county that conducted the initial inspection, forty-eight hours before any transaction and make his or her facilities available for inspection by a fish and wildlife officer, the local health department of any county in which he or she sells any legally harvested retail-eligible species, and any designee of the department of health or the department of agriculture.

(4) Neither the department or a local health department may be held liable in any judicial proceeding alleging that consumption of or exposure to seafood sold by the holder of a direct retail endorsement resulted in a negative health consequence, as long as the department can show that the individual holding the direct retail endorsement complied with the requirements of subsection (1) of this section prior to being issued his or her direct retail license, and neither the department nor a local health department acted in a reckless manner. For the purposes of this subsection, the department or a local health district shall not be deemed to be acting recklessly for not conducting a permissive inspection. [2003 c 387 § 3; 2002 c 301 § 3.]

Finding—Effective date—2002 c 301: See notes following RCW 77.65.510.

77.65.520 Direct retail endorsement—Compliance—Violations—Suspension. (1) The direct retail endorsement is conditioned upon compliance:

(a) With the requirements of this chapter as they apply to wholesale fish dealers and to the rules of the department relating to the payment of fines for violations of rules for the accounting of the commercial harvest of retail-eligible species; and

(b) With the state board of health and local rules for food service establishments.

(2) Violations of the requirements and rules referenced in subsection (1) of this section may result in the suspension of the direct retail endorsement. The suspended individual
must not be reimbursed for any portion of the suspended endorsement. Suspension of the direct retail endorsement may not occur unless and until:

(a) The director has notified by order the holder of the direct retail endorsement when a violation of subsection (1) of this section has occurred. The notification must specify the type of violation, the liability to be imposed for damages caused by the violation, a notice that the amount of liability is due and payable by the holder of the direct retail endorsement, and an explanation of the options available to satisfy the liability; and

(b) The holder of the direct retail endorsement has had at least ninety days after the notification provided in (a) of this subsection was received to either make full payment for all liabilities owed or enter into an agreement with the department to pay off all liabilities within a reasonable time.

(3)(a) If, within ninety days after receipt of the order provided in subsection (2)(a) of this section, the amount specified in the order is not paid or the holder of the direct retail endorsement has not entered into an agreement with the department to pay off all liabilities, the prosecuting attorney for any county in which the persons to whom the order is directed do business, or the attorney general upon request of the department, may bring an action on behalf of the state in the superior court for Thurston county, or any county in which the persons to whom the order is directed do business, to seek suspension of the individual’s direct retail endorsement for up to five years.

(b) The department may temporarily suspend the privileges provided by the direct retail endorsement for up to one hundred twenty days following the receipt of the order provided in subsection (2)(a) of this section, unless the holder of the direct retail endorsement has deposited with the department an acceptable performance bond on forms prescribed and provided by the department. This performance bond must be a corporate surety bond executed in favor of the department by a corporation authorized to do business in the state of Washington under chapter 48.28 RCW and approved by the department. The bond must be filed and maintained in an amount equal to one thousand dollars.

(4) For violations of state board of health and local rules under subsection (1)(b) of this section only, any person inspecting the facilities of a direct retail endorsement holder under RCW 77.65.515 may suspend the privileges granted by the endorsement for up to seven days. Within twenty-four hours of the discovery of the violation, the inspecting entity must notify the department of the violation. Upon notification, the department may proceed with the procedures outlined in this section for suspension of the endorsement. If the violation of a state board of health rule is discovered by a local health department, that local jurisdiction mayfine the holder of the direct retail endorsement according to the local jurisdiction’s rules as they apply to retail food operations.

(5) Subsections (2) and (3) of this section do not apply to a holder of a direct retail endorsement that executes a surety bond and abides by the conditions established in RCW 77.65.320 and 77.65.330 as they apply to wholesale dealers. [2003 c 387 § 4; 2002 c 301 § 4.]

[Title 77 RCW—page 97]
(2) For each license limitation program, where the person failed to hold the license and failed to make landing or poundage requirements because of a license waiver by the director during the previous year, the person shall qualify for a license by establishing that the person held the license during the last year in which the license was not waived. 77.70.040 Administrative review of department’s decision—Hearing—Procedures. A person aggrieved by a decision of the department under this chapter may request administrative review under the informal procedure established by this section.

In an informal hearing before a review board, the rules of evidence do not apply. A record of the proceeding shall be kept as provided by chapter 34.05 RCW. After hearing the case the review board shall notify in writing the director and the initiating party whether the review board agrees or disagrees with the department’s decision and the reasons for the review board’s findings. Upon receipt of the review board’s findings the director may order such relief as the director deems appropriate under the circumstances.

Nothing in this section: (1) Impairs an aggrieved person’s right to proceed under chapter 34.05 RCW; or (2) imposes a liability on members of a review board for their actions under this section. 77.70.050 Salmon charter boats—Limitation on issuance of licenses—Renewal—Transfer. (1) After May 28, 1977, the director shall issue no new salmon charter licenses. A person may renew an existing salmon charter license only if the person held the license sought to be renewed during the previous year or acquired the license by transfer from someone who held it during the previous year, and if the person has not subsequently transferred the license to another person.

(2) Salmon charter licenses may be renewed each year. A salmon charter license which is not renewed each year shall not be renewed further.

(3) Subject to the restrictions in RCW 77.65.020, salmon charter licenses are transferrable from one license holder to another. [2000 c 107 § 59; 1993 c 340 § 28; 1983 1st ex.s. c 46 § 141; 1981 c 202 § 1; 1979 c 101 § 7; 1977 ex.s. c 106 § 2. Formerly RCW 75.30.065, 75.30.020.]

Effective date—Intent—1979 c 101: See notes following RCW 77.70.060.

Legislative findings—1977 ex.s. c 106: "The legislature finds that the wise management and economic health of the state’s salmon fishery are of continued importance to the people of the state and to the economy of the state as a whole. The legislature finds that charter boats licensed by the state for use by the state’s charter boat fishing industry have increased in quantity. The legislature finds that limitations on the number of licensed charter boats will tend to improve the management of the charter boat fishery and the economic health of the charter boat industry. The state therefore must use its..."
authority to regulate the number of licensed boats in use by the state’s charter boat industry in a manner provided in this chapter so that management and economic health of the salmon fishery may be improved." [1977 ex.s. c 106 § 1. Formerly RCW 75.30.010.]

77.70.060 Salmon charter boats—Angler permit, when required. (1) Except as provided in subsection (3) of this section, a person shall not operate a vessel as a charter boat from which salmon are taken in salt water without an angler permit. The angler permit shall specify the maximum number of persons that may fish from the charter boat per trip. The angler permit expires if the salmon charter license is not renewed.

(2) Only a person who holds a salmon charter license issued under RCW 77.65.150 and 77.70.050 may hold an angler permit.

(3) An angler permit shall not be required for charter boats licensed in Oregon and fishing in ocean waters within the jurisdiction of Washington state from the southern border of the state of Washington to Leadbetter Point under the same regulations as Washington charter boat operators, as long as the Oregon vessel does not land at any Washington port with the purpose of taking on or discharging passengers. The provisions of this subsection shall be in effect as long as the state of Oregon has reciprocal laws and regulations. [2000 c 107 § 60; 1998 c 190 § 100; 1993 c 340 § 29; 1989 c 147 § 2; 1983 1st ex.s. c 46 § 142; 1979 c 101 § 2. Formerly RCW 75.30.070.]

Finding, intent—Captions not law—Effective date—Severability—1993 c 340: See notes following RCW 75.65.010.

Intent—1979 c 101: "The legislature finds that wise management of the state’s salmon fishery is essential to the well-being of the state. The legislature recognizes that further restrictions on salmon fishing in the charter salmon industry are necessary and that a limitation on the number of persons fishing is preferable to reductions in the fishing season or daily bag limits, or increases in size limits." [1979 c 101 § 1.]

77.70.070 Salmon charter boats—Angler permit—Number of anglers. A salmon charter boat may not carry more anglers than the number specified in the angler permit issued under RCW 77.70.060. Members of the crew may fish from the boat only to the extent that the number of anglers specified in the angler permit exceeds the number of noncrew passengers on the boat at that time. [2000 c 107 § 61; 1993 c 340 § 30; 1983 1st ex.s. c 46 § 143; 1979 c 101 § 4. Formerly RCW 75.30.090.]

Effective date—Intent—1979 c 101: See notes following RCW 77.70.060.

77.70.080 Salmon charter boats—Angler permit—Total number of anglers limited—Permit transfer. (1) The total number of anglers authorized by the director shall not exceed the total number authorized for 1980.

(2) Angler permits issued under RCW 77.70.060 are transferable. All or a portion of the permit may be transferred to another salmon charter license holder.

(3) The angler permit holder and proposed transferee shall notify the department when transferring an angler permit, and the director shall issue a new angler permit certificate. If the original permit holder retains a portion of the permit, the director shall issue a new angler permit certificate reflecting the decrease in angler capacity.

(4) The department shall collect a fee of ten dollars for each certificate issued under subsection (3) of this section. [2000 c 107 § 62; 1993 c 340 § 31; 1983 1st ex.s. c 46 § 144; 1979 c 101 § 5. Formerly RCW 75.30.100.]

Effective date—Intent—1979 c 101: See notes following RCW 77.70.060.

77.70.090 Commercial salmon fishing licenses and delivery licenses—Limitations—Transfer. (1) Except as provided in subsection (2) of this section, after May 6, 1974, the director shall issue no new commercial salmon fishery licenses or salmon delivery licenses. A person may renew an existing license only if the person held the license sought to be renewed during the previous year or acquired the license by transfer from someone who held it during the previous year, and if the person has not subsequently transferred the license to another person.

(2) Where the person failed to obtain the license during the previous year because of a license suspension, the person may qualify for a license by establishing that the person held such a license during the last year in which the license was not suspended.

(3) Subject to the restrictions in RCW 77.65.020, commercial salmon fishery licenses and salmon delivery licenses are transferable from one license holder to another. Legislative findings—Severability—1977 ex.s. c 106: See notes following RCW 77.70.050.

Legislative intent—1974 ex.s. c 184: "The legislature finds that the protection, welfare, and economic good of the commercial salmon fishing industry is of paramount importance to the people of this state. Scientific advancement has increased the efficiency of salmon fishing gear. There presently exists an overabundance of commercial salmon fishing gear in our state waters which causes great pressure on the salmon fishery resource. This situation results in great economic waste to the state and prohibits conservation programs from achieving their goals. The public welfare requires that the number of commercial salmon fishing licenses and salmon delivery permits issued by the state be limited to insure that sound conservation programs can be scientifically carried out. It is the intention of the legislature to preserve this valuable natural resource so that our food supplies from such resource can continue to meet the ever increasing demands placed on it by the people of this state." 77.70.100 Commercial salmon fishery license or salmon delivery license—Reversion to department following government confiscation of vessel. Any commercial salmon fishery license issued under RCW 77.65.160 or salmon delivery license issued under RCW 77.65.170 shall revert to the department when any government confiscates and sells the vessel designated on the license. Upon applica-
tion of the person named on the license as license holder and the approval of the director, the department shall transfer the license to the applicant. Application for transfer of the license must be made within the calendar year for which the license was issued. [2000 c 107 § 6; 1993 c 340 § 33; 1986 c 198 § 2. Formerly RCW 75.30.125.]

Finding, intent—Captions not law—Effective date—Severability—1993 c 340: See notes following RCW 77.65.010.

77.70.110 Dungeness crab—Puget Sound fishery license—Limitations—Qualifications. (1) A person shall not commercially take Dungeness crab (Cancer magister) in Puget Sound without first obtaining a Dungeness crab—Puget Sound fishery license. As used in this section, "Puget Sound" has the meaning given in RCW 77.65.160(5)(a). A Dungeness crab—Puget Sound fishery license is not required to take other species of crab, including red rock crab (Cancer productus).

(2) Except as provided in subsections (3) and (6) of this section, after January 1, 1982, the director shall issue no new Dungeness crab—Puget Sound fishery licenses. Only a person who meets the following qualification may renew an existing license: The person shall have held the Dungeness crab—Puget Sound fishery license sought to be renewed during the previous year or acquired the license by transfer from someone who held it during the previous year, and shall not have subsequently transferred the license to another person.

(3) Where the person failed to obtain the license during the previous year because of a license suspension, the person may qualify for a license by establishing that the person held such a license during the last year in which the license was not suspended.

(4) This section does not restrict the issuance of commercial crab licenses for areas other than Puget Sound or for species other than Dungeness crab.

(5) Dungeness crab—Puget Sound fishery licenses are transferable from one license holder to another.

(6) If fewer than one hundred twenty-five persons are eligible for Dungeness crab—Puget Sound fishery licenses, the director may accept applications for new licenses. The director shall determine by random selection the successful applicants for the additional licenses. The number of additional licenses issued shall be sufficient to maintain one hundred twenty-five licenses in the Puget Sound Dungeness crab fishery. The director shall adopt rules governing the application, selection, and issuance procedures for new Dungeness crab—Puget Sound fishery licenses. [2000 c 107 § 65; 1999 c 151 § 1602; 1998 c 190 § 101. Prior: 1997 c 233 § 1; 1997 c 115 § 1; 1993 c 340 § 34; 1983 1st ex.s. c 46 § 147; 1982 c 157 § 1; 1980 c 133 § 4. Finding, intent—Captions not law—Effective date—Severability—1993 c 340: See notes following RCW 77.65.010.

Legislative findings—Purpose—1973 1st ex.s. c 173: "The legislature finds that a significant commercial herring fishing industry is presently developing in the state of Washington under the careful guidance of the department of fisheries. The legislature further finds that the stocks of herring within the waters of this state are limited in extent and are in need of strict preservation.

In addition, the legislature finds that the number of commercial fishermen engaged in fishing for herring has steadily increased. This factor, combined with advances made in fishing and marketing techniques, has resulted in strong pressures on the supply of crab, unnecessary waste of an important natural resource, and economic loss to the citizens of the state.

The legislature finds that increased regulation of commercial crab fishing is necessary to preserve and efficiently manage the commercial crab fishery in the waters of Puget Sound." [1980 c 133 § 1.]

77.70.120 Herring fishery license—Limitations on issuance. (1) A person shall not fish commercially for herring in state waters without a herring fishery license. As used in this section, "herring fishery license" means any of the following commercial fishery licenses issued under RCW 77.65.200: Herring dip bag net; herring drag seine; herring gill net; herring lampara; herring purse seine.

(2) Except as provided in this section, a herring fishery license may be issued only to a person who held the license sought to be renewed during the previous year or acquired the license by transfer from someone who held it during the previous year, and if the person has not subsequently transferred the license to another person.

(3) Herring fishery licenses may be renewed each year. A herring fishery license that is not renewed each year shall not be renewed further.

(4) The director may issue additional herring fishery licenses if the stocks of herring will not be jeopardized by granting additional licenses.

(5) Subject to the restrictions of RCW 77.65.020, herring fishery licenses are transferable from one license holder to another. [2000 c 107 § 66; 1998 c 190 § 102; 1993 c 340 § 35; 1983 1st ex.s. c 46 § 148; 1974 ex.s. c 104 § 1; 1973 1st ex.s. c 173 § 4. Formerly RCW 75.30.140, 75.28.420.]

77.70.130 Whiting-Puget Sound fishery license—Limitation on issuance. (1) A person shall not commercially take whiting from areas that the department designates within the waters described in RCW 77.65.160(5)(a) without a whiting-Puget Sound fishery license.

(2) A whiting-Puget Sound fishery license may be issued only to an individual who:

(a) Delivered at least fifty thousand pounds of whiting during the period from January 1, 1981, through February 22, 1985, as verified by fish delivery tickets;

(b) Possessed, on January 1, 1986, all equipment necessary to fish for whiting; and
(c) Held a whiting-Puget Sound fishery license during the previous year or acquired such a license by transfer from someone who held it during the previous year.

(3) After January 1, 1995, the director shall issue no new whiting-Puget Sound fishery licenses. After January 1, 1995, only an individual who meets the following qualifications may renew an existing license: The individual shall have held the license sought to be renewed during the previous year or acquired the license by transfer from someone who held it during the previous year, and shall not have subsequently transferred the license to another person.

(4) Whiting-Puget Sound fishery licenses may be renewed each year. A whiting-Puget Sound fishery license that is not renewed each year shall not be renewed further. [2000 c 107 § 67; 1993 c 340 § 39; 1986 c 198 § 5. Formerly RCW 75.30.170.]

77.70.140 Whiting-Puget Sound fishery license—Transferable to family members. A whiting-Puget Sound fishery license may be transferred through gift, devise, bequest, or descent to members of the license holder’s immediate family which shall be limited to spouse, children, or stepchildren. The holder of a whiting-Puget Sound fishery license shall be present on any vessel taking whiting under the license. In no instance may temporary permits be issued.

The director may adopt rules necessary to implement RCW 77.70.130 and 77.70.140. [2000 c 107 § 68; 1993 c 340 § 40; 1986 c 198 § 4. Formerly RCW 75.30.180.]

Finding, intent—Captions not law—Effective date—Severability—1993 c 340: See notes following RCW 77.65.010.

77.70.150 Sea urchin dive fishery license—Limitation on issuance—Surcharge—Sea urchin dive fishery account—Transfer of license—Issuance of new licenses.

(1) A sea urchin dive fishery license is required to take sea urchins for commercial purposes. A sea urchin dive fishery license authorizes the use of only one diver in the water at any time during sea urchin harvest operations. If the same vessel has been designated on two sea urchin dive fishery licenses, two divers may be in the water. A natural person may not hold more than two sea urchin dive fishery licenses.

(2) Except as provided in subsection (6) of this section, the director shall issue no new sea urchin dive fishery licenses. For licenses issued for the year 2000 and thereafter, the director shall renew existing licenses only to a natural person who held the license at the end of the previous year. If a sea urchin dive fishery license is not held by a natural person as of December 31, 1999, it is not renewable. However, if the license is not held because of revocation or suspension of licensing privileges, the director shall renew the license in the name of a natural person at the end of the revocation or suspension if the license holder applies for renewal of the license before the end of the year in which the revocation or suspension ends.

(3) Where a licensee failed to obtain the license during the previous year because of a license suspension or revocation by the director or the court, the licensee may qualify for a license by establishing that the person held such a license during the last year in which the person was eligible.

(4) Surcharges as provided for in this section shall be collected and deposited into the sea urchin dive fishery account hereby created in the custody of the state treasurer. The collections and deposits must continue, as set forth in (a) and (b) of this subsection, through license year 2013, or until the number of licenses is reduced to twenty, whichever occurs first. Only the director or the director’s designee may authorize expenditures from the account. The sea urchin dive fishery account is subject to allotment procedures under chapter 43.88 RCW, but no appropriation is required for expenditures. Expenditures from the account shall only be used to retire sea urchin licenses until the number of licenses is reduced to twenty, and thereafter shall only be used for sea urchin management and enforcement. The director or the director’s designee shall notify the department of revenue within thirty days when the number of licenses is reduced to twenty.

(a) A surcharge of one hundred dollars shall be charged with each sea urchin dive fishery license renewal for licenses issued for license years 2000 through 2013, or until the number of licenses is reduced to twenty, whichever occurs first.

(b) For licenses issued for license years 2000 through 2013, or until the number of licenses is reduced to twenty, whichever occurs first, a surcharge shall be charged on the sea urchin dive fishery license for designating an alternate operator. The surcharge shall be as follows: Five hundred dollars for the first year or each of the first two consecutive years after 1999 that any alternate operator is designated and two thousand five hundred dollars each year thereafter that any alternate operator is designated.

(5) Sea urchin dive fishery licenses are transferable. For licenses issued for license years 2000 through 2013, or whenever the number of licenses is reduced to twenty, whichever occurs first, there is a surcharge to transfer a sea urchin dive fishery license. The surcharge is five hundred dollars for the first transfer of a license valid for license year 2000, and two thousand five hundred dollars for any subsequent transfer, occurring in the license years 2000 through 2013, or whenever the number of licenses is reduced to twenty, whichever occurs first. Notwithstanding this subsection, a one-time transfer exempt from surcharge applies for a transfer from the natural person licensed on January 1, 2000, to that person’s spouse or child.

(6) If fewer than twenty natural persons are eligible for sea urchin dive fishery licenses, the director may accept applications for new licenses. The additional licenses may not cause more than twenty natural persons to be eligible for a sea urchin dive fishery license.

License Limitation Programs 77.70.150

(1) A sea urchin dive fishery license is transferred through gift, devise, bequest, or descent to a natural person licensed on January 1, 2000, to that person’s spouse or child. [2000 c 107 § 72; 1993 c 340 § 41; 1993 c 340 § 41; 1990 c 62 § 2; 1989 c 37 § 2. Formerly RCW 75.30.210.]

Finding, intent—Captions not law—Effective date—Severability—1993 c 340: See notes following RCW 77.65.010.

Finding, intent—Captions not law—Effective date—Severability—1990 c 62; 1989 c 37: "The legislature finds that a significant commercial sea urchin fishery is developing within state waters. The potential for depletion of the sea urchin stocks in these waters is increasing, particularly as the sea urchin fishery becomes an attractive alternative to fishermen facing increasing restrictions on other types of commercial fishery activities. The legislature finds that the number of vessels engaged in commercial activities has increased significantly during the years 1990 through 1993. See notes following RCW 77.65.010."
sea urchin fishing has steadily increased. This factor, combined with advances in marketing techniques, has resulted in strong pressures on the supply of sea urchins. The legislature desires to maintain the livelihood of those vessel owners who have historically and continuously participated in the sea urchin fishery. The legislature desires that the director have the authority to consider extenuating circumstances concerning failure to meet landing requirements for both initial endorsement issuance and endorsement renewal.

The legislature finds that increased regulation of commercial sea urchin fishing is necessary to preserve and efficiently manage the commercial sea urchin fishery in the waters of the state. The legislature is aware that the continuing license provisions of the administrative procedure act, RCW 34.05.422(3) provide procedural safeguards, but finds that the pressure on the sea urchin resource endangers both the resource and the economic well-being of the sea urchin fishery, and desires, therefore, to exempt sea urchin endorsements from the continuing license provision." [1990 c 62 § 1; 1989 c 37 § 1.]

77.70.160 Emerging commercial fishery designation—Experimental fishery permits. (1) The director may issue experimental fishery permits for commercial harvest in an emerging commercial fishery for which the director has determined there is a need to limit the number of participants. The director shall determine by rule the number and qualifications of participants for such experimental fishery permits. Only a person who holds an emerging commercial fishery license issued under RCW 77.65.400 and who meets the qualifications established in those rules may hold an experimental fishery permit. The director shall limit the number of these permits to prevent habitat damage, ensure conservation of the resource, and prevent overharvesting. In developing rules for limiting participation in an emerging or expanding commercial fishery, the director shall appoint a five-person advisory board representative of the affected fishery industry. The advisory board shall review and make recommendations to the director on rules relating to the number and qualifications of the participants for such experimental fishery permits.

(2) RCW 34.05.422(3) does not apply to applications for new experimental fishery permits.

(3) Experimental fishery permits are not transferable from the permit holder to any other person. [2000 c 107 § 69; 1993 c 340 § 42; 1990 c 63 § 2. Formerly RCW 75.30.220.]

Legislative finding—1990 c 63: "The legislature finds that:
(1) A number of commercial fisheries have emerged or expanded in the past decade;
(2) Scientific information is critical to the proper management of an emerging or expanding commercial fishery; and
(3) The scientific information necessary to manage an emerging or expanding commercial fishery can best be obtained through the use of limited experimental fishery permits allowing harvest levels that will preserve and protect the state's food fish and shellfish resource." [1990 c 63 § 1.]

77.70.170 Emerging commercial fishery designation—Legislative review. Whenever the director promulgates a rule designating an emerging commercial fishery, the legislative standing committees of the house of representatives and senate dealing with fisheries issues shall be notified of the rule and its justification thirty days prior to the effective date of the rule. [1990 c 63 § 3. Formerly RCW 75.30.230.]

77.70.180 Emerging commercial fishery—License status—Recommendations to legislature—Information included in report. (1) Within five years after adopting rules to govern the number and qualifications of participants in an emerging commercial fishery, the director shall provide to the appropriate senate and house of representatives committees a report which outlines the status of the fishery and a recommendation as to whether a separate commercial fishery license, license fee, or limited harvest program should be established for that fishery.

(2) For any emerging commercial fishery designated under RCW 77.50.030, the report must also include:
(a) Information on the extent of the program, including to what degree mass marking and supplementation programs have been utilized in areas where emerging commercial fisheries using selective fishing gear have been authorized;
(b) Information on the benefit provided to commercial fishers including information on the effectiveness of emerging commercial fisheries using selective fishing gear in providing expanded fishing opportunity within mixed stocks of salmon;
(c) Information on the effectiveness of selective fishing gear in minimizing postrelease mortality for nontarget stocks, harvesting fish so that they are not damaged by the gear, and aiding the creation of niche markets; and
(d) Information on the department's efforts at operating hatcheries in an experimental fashion by managing wild and hatchery origin fish as a single run as an alternative to mass marking and the utilization of selective fishing gear. The department shall consult with commercial fishers, recreational fishers, federally recognized treaty tribes with a fishery interest, regional fisheries enhancement groups, and other affected parties to obtain their input in preparing the report under this subsection (2). [2001 c 163 § 3; 1993 c 340 § 43; 1990 c 63 § 4. Formerly RCW 75.30.240.]

77.70.190 Sea cucumber dive fishery license—Limitation on issuance—Surcharge—Sea cucumber dive fishery account—Transfer of license—Issuance of new licenses. (1) A sea cucumber dive fishery license is required to take sea cucumbers for commercial purposes. A sea cucumber dive fishery license authorizes the use of only one diver in the water at any time during sea cucumber harvest operations. If the same vessel has been designated on two sea cucumber dive fishery licenses, two divers may be in the water. A natural person may not hold more than two sea cucumber dive fishery licenses.

(2) Except as provided in subsection (6) of this section, the director shall issue no new sea cucumber dive fishery licenses. For licenses issued for the year 2000 and thereafter, the director shall renew existing licenses only to a natural person who held the license at the end of the previous year. If a sea cucumber dive fishery license is not held by a natural person as of December 31, 1999, it is not renewable. However, if the license is not held because of revocation or suspension of licensing privileges, the director shall renew the license in the name of a natural person at the end of the revocation or suspension if the license holder applies for renewal.
of the license before the end of the year in which the revocation or suspension ends.

(3) Where a licensee failed to obtain the license during either of the previous two years because of a license suspension by the director or the court, the licensee may qualify for a license by establishing that the person held such a license during the last year in which the person was eligible.

(4) Surcharges as provided for in this section shall be collected and deposited into the sea cucumber dive fishery account hereby created in the custody of the state treasurer. The collections and deposits must continue, as set forth in (a) and (b) of this subsection, through license year 2013, or until the number of licenses is reduced to twenty, whichever occurs first. Only the director or the director’s designee may authorize expenditures from the account. The sea cucumber dive fishery account is subject to allotment procedures under chapter 43.88 RCW, but no appropriation is required for expenditures. Expenditures from the account shall only be used to retire sea cucumber licenses until the number of licenses is reduced to twenty, and thereafter shall only be used for sea cucumber management and enforcement. The director or the director’s designee shall notify the department of revenue within thirty days when the number of licenses is reduced to twenty.

(a) A surcharge of one hundred dollars shall be charged with each sea cucumber dive fishery license renewal for licenses issued in 2000 through 2013, or until the number of licenses is reduced to twenty, whichever occurs first.

(b) For licenses issued for license years 2000 through 2013, or until the number of licenses is reduced to twenty, whichever occurs first, a surcharge shall be charged on the sea cucumber dive fishery license for designating an alternate operator. The surcharge shall be as follows: Five hundred dollars for the first year or each of the first two consecutive years after 1999 that any alternate operator is designated and two thousand five hundred dollars each year thereafter that any alternate operator is designated.

(5) Sea cucumber dive fishery licenses are transferable. For licenses issued for license years 2000 through 2013, or whenever the number of licenses is reduced to twenty, whichever occurs first, there is a surcharge to transfer a sea cucumber dive fishery license. The surcharge is five hundred dollars for the first transfer of a license valid for license year 2000 and two thousand five hundred dollars for any subsequent transfer, occurring in the license years 2000 through 2013, or whenever the number of licenses is reduced to twenty, whichever occurs first. Notwithstanding this subsection, a one-time transfer exempt from surcharge applies for a transfer from the natural person licensed on January 1, 2000, to that person’s spouse or child.

(6) If fewer than twenty persons are eligible for sea cucumber dive fishery licenses, the director may accept applications for new licenses. The additional licenses may not cause more than twenty natural persons to be eligible for a sea cucumber dive fishery license. New licenses issued under this section shall be distributed according to rules of the department that recover the value of such licensed privilege. [2010 c 193 § 15; 2005 c 110 § 2; 2001 c 253 § 59; 1999 c 126 § 2; 1998 c 190 § 105; 1993 c 340 § 44; 1990 c 61 § 2. Formerly RCW 75.30.250.]

Finding, intent—Captions not law—Effective date—Severability—1993 c 340: See notes following RCW 77.65.010.

Legislative findings—1990 c 61: "The legislature finds that a significant commercial sea cucumber fishery is developing within state waters. The potential for depletion of the sea cucumber stocks in these waters is increasing, particularly as the sea cucumber fishery becomes an attractive alternative to commercial fishers who face increasing restrictions on other types of commercial fishery activities.

The legislature finds that the number of commercial fishers engaged in commercially harvesting sea cucumbers has rapidly increased. This factor, combined with increases in market demand, has resulted in strong pressures on the supply of sea cucumbers.

The legislature finds that increased regulation of commercial sea cucumber fishing is necessary to preserve and efficiently manage the commercial sea cucumber fishery in the waters of the state.

The legislature finds that it is desirable in the long term to reduce the number of vessels participating in the commercial sea cucumber fishery to fifty vessels to preserve the sea cucumber resource, efficiently manage the commercial sea cucumber fishery in the waters of the state, and reduce conflict with upland owners.

The legislature finds that it is important to preserve the livelihood of those who have historically participated in the commercial sea cucumber fishery that began about 1970 and that the 1988 and 1989 seasons should be used to document historical participation." [1990 c 61 § 1.]

77.70.200 Herring spawn on kelp fishery licenses—Number limited. The legislature finds that the wise management of Washington state’s herring resource is of paramount importance to the people of the state. The legislature finds that herring are an important part of the food chain for a number of the state’s living marine resources. The legislature finds that both open and closed pond "spawn on kelp" harvesting techniques allow for an economic return to the state while at the same time providing for the proper management of the herring resource. The legislature finds that limitations on the number of herring harvesters tends to improve the management and economic health of the herring industry. The maximum number of herring spawn on kelp fishery licenses shall not exceed five annually. The state therefore must use its authority to regulate the number of herring spawn on kelp fishery licenses so that the management and economic health of the herring fishery may be improved. [1993 c 340 § 36; 1989 c 176 § 1. Formerly RCW 75.30.260, 75.28.235.]

Finding, intent—Captions not law—Effective date—Severability—1993 c 340: See notes following RCW 77.65.010.

77.70.210 Herring spawn on kelp fishery license—Auction. (1) A herring spawn on kelp fishery license is required to commercially take herring eggs which have been deposited on vegetation of any type.

(2) A herring spawn on kelp fishery license may be issued only to a person who:

(a) Holds a herring fishery license issued under RCW 77.65.200 and 77.70.120; and

(b) Is the highest bidder in an auction conducted under subsection (3) of this section.

(3) The department shall sell herring spawn on kelp commercial fishery licenses at auction to the highest bidder. Bidders shall identify their sources of kelp. Kelp harvested from state-owned aquatic lands as defined in *RCW 79.90.465 requires the written consent of the department of natural resources. The department shall give all holders of herring fishery licenses thirty days’ notice of the auction. [2000 c
Geoduck fishery license—Conditions and limitations—OSHA regulations—Violations. (1) A person shall not harvest geoduck clams commercially without a geoduck fishery license. This section does not apply to the harvest of private sector cultured aquatic products as defined in RCW 15.85.020.

(2) Only a person who has entered into a geoduck harvesting agreement with the department of natural resources under *RCW 79.96.080 may hold a geoduck fishery license.

(3) A geoduck fishery license authorizes no taking of geoducks outside the boundaries of the public lands designated in the underlying harvesting agreement, or beyond the harvest ceiling set in the underlying harvesting agreement.

(4) A geoduck fishery license expires when the underlying geoduck harvesting agreement terminates.

(5) The director shall determine the number of geoduck fishery licenses that may be issued for each geoduck harvesting agreement, the number of units of gear whose use the license authorizes, and the type of gear that may be used, subject to RCW 77.60.070. In making those determinations, the director shall seek to conserve the geoduck resource and prevent damage to its habitat.

(6) The holder of a geoduck fishery license and the holder’s agents and representatives shall comply with all applicable commercial diving safety regulations adopted by the federal occupational safety and health administration established under the federal occupational safety and health act of 1970 as such law exists on May 8, 1979, 84 Stat. 1590 et seq.; 29 U.S.C. Sec. 651 et seq. A violation of these regulations is a violation of this subsection. For the purposes of this section, persons who dive for geoducks are "employees" as defined by the federal occupational safety and health act. A violation of this subsection is grounds for suspension or revocation of a geoduck fishery license following a hearing under the procedures of chapter 34.05 RCW. The director shall not suspend or revoke a geoduck fishery license if the violation has been corrected within ten days of the date the license holder receives written notice of the violation. If there is a substantial probability that a violation of the commercial diving standards could result in death or serious physical harm to a person engaged in harvesting geoduck clams, the director shall suspend the license immediately until the violation has been corrected. If the license holder is not the operator of the harvest vessel and has contracted with another person for the harvesting of geoducks, the director shall not suspend or revoke the license if the license holder terminates its business relationship with that person until compliance with this subsection is secured. [2000 c 107 § 71; 1998 c 190 § 106; 1993 c 340 § 46. Formerly RCW 75.30.280.]

Ocean pink shrimp—Delivery license—Requirements and criteria—Continuous participation. A person shall not commercially deliver into any Washington state port ocean pink shrimp caught in offshore waters without an ocean pink shrimp delivery license issued under RCW 77.65.390, or an ocean pink shrimp single delivery license issued under RCW 77.70.260. An ocean pink shrimp delivery license shall be issued to a vessel that:

(1) Landed a total of at least five thousand pounds of ocean pink shrimp in Washington in any single calendar year between January 1, 1983, and December 31, 1992, as documented by a valid shellfish receiving ticket; and

(2) Can show continuous participation in the Washington, Oregon, or California ocean pink shrimp fishery by being eligible to land ocean pink shrimp in either Washington, Oregon, or California each year since the landing made under subsection (1) of this section. Evidence of such eligibility shall be a certified statement from the relevant state licensing agency that the applicant for a Washington ocean pink shrimp delivery license held at least one of the following permits:

(a) For Washington: Possession of a delivery permit or delivery license issued under RCW 77.65.210;

(b) For Oregon: Possession of a vessel permit issued under Oregon Revised Statute 508.880; or

(c) For California: A trawl permit issued under California Fish and Game Code sec. 8842. [2000 c 107 § 72; 1998 c 190 § 107; 1993 c 376 § 5. Formerly RCW 75.30.290.]

Findings—Effective date—1993 c 376: See notes following RCW 77.65.380.

Ocean pink shrimp—Delivery license—Requirements and criteria—Historical participation. An applicant who can show historical participation under RCW 77.70.230(1) but does not satisfy the continuous participation requirement of RCW 77.70.230(2) shall be issued an ocean pink shrimp delivery license if:

(1) The owner can prove that the owner was in the process on December 31, 1992, of constructing a vessel for the purpose of ocean pink shrimp harvest. For purposes of this section, "construction" means having the keel laid, and "for the purpose of ocean pink shrimp harvest" means the vessel is designed as a trawl vessel. An ocean pink shrimp delivery license issued to a vessel under construction is not renewable after December 31, 1994, unless the vessel lands a total of at least five thousand pounds of ocean pink shrimp into a Washington state port before December 31, 1994; or

(2) The applicant’s vessel is a replacement for a vessel that is otherwise eligible for an ocean pink shrimp delivery license. [2000 c 107 § 73; 1993 c 376 § 6. Formerly RCW 75.30.300.]

Findings—Effective date—1993 c 376: See notes following RCW 77.65.380.

Ocean pink shrimp—Delivery license—License transfer—License suspension. After December 31, 1994, an ocean pink shrimp delivery license may only be issued to a vessel that held an ocean pink shrimp delivery license in 1994, and each year thereafter. If the license is transferred to another vessel, the license history shall also be transferred to the transferee vessel.
Where the failure to hold the license in any given year was the result of a license suspension, the vessel may qualify if the vessel held an ocean pink shrimp delivery license in the year immediately preceding the year of the license suspension. [1993 c 376 § 7. Formerly RCW 75.30.310.]

Findings—Effective date—1993 c 376: See notes following RCW 77.65.380.

### 77.70.260 Ocean pink shrimp—Single delivery license

The owner of an ocean pink shrimp fishing vessel that does not qualify for an ocean pink shrimp delivery license issued under RCW 77.65.390 shall obtain an ocean pink shrimp single delivery license in order to make a landing into a state port of ocean pink shrimp taken in offshore waters. The director shall not issue an ocean pink shrimp single delivery license unless, as determined by the director, a bona fide emergency exists. A maximum of six ocean pink shrimp single delivery licenses may be issued annually to any vessel. The fee for an ocean pink shrimp single delivery license is one hundred dollars. [2000 c 107 § 74; 1993 c 376 § 8. Formerly RCW 75.30.320.]

Findings—Effective date—1993 c 376: See notes following RCW 77.65.380.

### 77.70.280 Crab fishery—License required—Dungeness crab—coastal fishery license—Dungeness crab—coastal class B fishery license—Coastal crab and replacement vessel defined—Federal fleet reduction program

(1) A person shall not commercially fish for coastal crab in Washington state waters without a Dungeness crab—coastal or a Dungeness crab—coastal class B fishery license. Gear used must consist of one buoy attached to each crab pot. Each crab pot must be fished individually.

(2) A Dungeness crab—coastal fishery license is transferable. Except as provided in subsections (3) and (8) of this section, such a license shall only be issued to a person who proved active historical participation in the coastal crab fishery by having designated, after December 31, 1993, a vessel or a replacement vessel on the qualifying license that singly or in combination meets the following criteria:

(a) Made a minimum of eight coastal crab landings totaling a minimum of five thousand pounds per season in at least two of the four qualifying seasons identified in subsection (5) of this section, as documented by valid Washington state shellfish receiving tickets; and showed historical and continuous participation in the coastal crab fishery by having held one of the qualifying licenses each calendar year beginning 1990 through 1993, and the vessel was designated on the qualifying license of the person who held that license in 1994.

(b) Made any number of coastal crab landings totaling a minimum of twenty thousand pounds per season in at least two of the four qualifying seasons identified in subsection (5) of this section, as documented by valid Washington state shellfish receiving tickets, showed historical and continuous participation in the coastal crab fishery by having held one of the qualifying licenses each calendar year beginning 1990 through 1993, and the vessel was designated on the qualifying license of the person who held that license in 1994.

(3) A Dungeness crab—coastal fishery license shall be issued to a person who had a new vessel under construction between December 1, 1988, and September 15, 1992, if the vessel made coastal crab landings totaling a minimum of five thousand pounds by September 15, 1993, and the new vessel was designated on the qualifying license of the person who held that license in 1994. All landings shall be documented by valid Washington state shellfish receiving tickets. License applications under this subsection may be subject to review by the advisory review board in accordance with *RCW 77.70.030. For purposes of this subsection, "under construction" means either:

(a)(i) A contract for any part of the work was signed before September 15, 1992; and

(iii) Construction had not been completed before December 1, 1988; or

(b)(i) The keel was laid before September 15, 1992; and

(ii) Vessel ownership was not transferred or otherwise alienated from the vessel owner between the time the keel was laid and the issuance of the Dungeness crab—coastal fishery license; and

(iii) Construction had not been completed before December 1, 1988.

(4) A Dungeness crab—coastal class B fishery license is not transferable. Such a license shall be issued to persons who do not meet the qualification criteria for a Dungeness crab—coastal fishery license, if the person has designated on a qualifying license after December 31, 1993, a vessel or replacement vessel that, singly or in combination, made a minimum of four landings totaling a minimum of two thousand pounds of coastal crab, documented by valid Washington state shellfish receiving tickets, during at least one of the four qualifying seasons, and if the person has participated continuously in the coastal crab fishery by having held or by having owned a vessel that held one or more of the licenses listed in subsection (2) of this section in each calendar year subsequent to the qualifying season in which qualifying landings were made through 1994. Dungeness crab—coastal
class B fishery licenses cease to exist after December 31, 1999, and the continuing license provisions of RCW 34.05.422(3) are not applicable.

(5) The four qualifying seasons for purposes of this section are:
(a) December 1, 1988, through September 15, 1989;
(b) December 1, 1989, through September 15, 1990;
(c) December 1, 1990, through September 15, 1991; and

(6) For purposes of this section and RCW 77.70.340, "coastal crab" means Dungeness crab (cancer magister) taken in all Washington territorial and offshore waters south of the United States-Canada boundary and west of the Bonilla-Tatoosh line (a line from the western end of Cape Flattery to Tatoosh Island lighthouse, then to the buoy adjacent to Duntz Rock, then in a straight line to Bonilla Point of Vancouver island), Grays Harbor, Willapa Bay, and the Columbia river.

(7) For purposes of this section, "replacement vessel" means a vessel used in the coastal crab fishery in 1994, and that replaces a vessel used in the coastal crab fishery during any period from 1988 through 1993, and which vessel's licensing and catch history, together with the licensing and catch history of the vessel it replaces, qualifies a single applicant for a Dungeness crab—coastal or Dungeness crab—coastal class B fishery license. A Dungeness crab—coastal or Dungeness crab—coastal class B fishery license may only be issued to a person who designated a vessel in the coastal crab fishery and who designated the same vessel in 1995.

(8) A Dungeness crab—coastal fishery license may not be issued to a person who participates in the federal fleet reduction program created in RCW 77.70.460 within ten years of that person's participation in the federal program, if reciprocal restrictions are imposed by the states of Oregon and California on persons participating in the federal fleet reduction program. [2003 c 174 § 5; 2000 c 107 § 76; 1998 c 190 § 108; 1995 c 252 § 1; 1994 c 260 § 2. Formerly RCW 75.30.350.]

*Reviser's note: RCW 77.70.030 was repealed by 2001 c 291 § 501, effective July 1, 2001.

Finding—1994 c 260: "The legislature finds that the commercial crab fishery in coastal and offshore waters is overcapitalized. The legislature further finds that this overcapitalization has led to the economic destabilization of the coastal crab industry, and can cause excessive harvesting pressures on the coastal crab resources of Washington state. In order to provide for the well-being of the Washington crab industry and to protect the livelihood of Washington crab fishers who have historically and continuously participated in the coastal crab fishery, the legislature finds that it is in the best interests of the economic well-being of the coastal crab industry to reduce the number of fishers taking crab in coastal waters, to reduce the number of vessels landing crab taken in offshore waters, to limit the number of future licenses, and to limit fleet capacity by limiting vessel size." 77.70.290 Crab taken in offshore waters—Criteria for landing in Washington state—Limitations. (1) The director shall allow the landing into Washington state of crab taken in offshore waters only if:
(a) The crab are legally caught and landed by fishers with a valid Washington state Dungeness crab-coastal fishery license or a valid Dungeness crab-coastal class B fishery license; or
(b)(i) The director determines that the landing of offshore Dungeness crab by fishers without a Washington state Dungeness crab-coastal fishery license or a valid Dungeness crab-coastal class B fishery license is in the best interest of the coastal crab processing industry; (ii) the director has been requested to allow such landings by at least three Dungeness crab processors; (iii) the landings are permitted only between the dates of December 1st to February 15th inclusively; (iv) only crab fishers commercially licensed to fish by Oregon or California are permitted to land, if the crab was taken with gear that consisted of one buoy attached to each crab pot, and each crab pot was fished individually; (v) the fisher landing the crab has obtained a valid delivery license; and (vi) the decision is made on a case-by-case basis for the sole reason of improving the economic stability of the commercial crab fishery.

(2) Nothing in this section allows the commercial fishing of Dungeness crab in waters within three miles of Washington state by fishers who do not possess a valid Dungeness crab-coastal fishery license or a valid Dungeness crab-coastal class B fishery license. Landings of offshore Dungeness crab by fishers without a valid Dungeness crab-coastal fishery license or a valid Dungeness crab-coastal class B fishery license do not qualify the fisher for such licenses. 77.70.300 Crab taken in offshore waters—Dungeness crab offshore delivery license—Fee. A person commercially fishing for Dungeness crab in offshore waters outside of Washington state jurisdiction shall obtain a Dungeness crab offshore delivery license from the director if the person does not possess a valid Dungeness crab-coastal fishery license or a valid Dungeness crab-coastal class B fishery license and the person wishes to land Dungeness crab into a place or a port in the state. The annual fee for a Dungeness crab offshore delivery license is two hundred fifty dollars. The director may specify restrictions on landings of offshore Dungeness crab in Washington state as authorized in RCW 77.70.290.

Fees from the offshore Dungeness crab delivery license shall be placed in the coastal crab account created in RCW 77.70.320. [2000 c 107 § 77; 1994 c 260 § 4. Formerly RCW 75.30.370.]

77.70.320 Coastal crab account—Created—Revenues—Expenditures. The coastal crab account is created in the custody of the state treasurer. The account shall consist of revenues from fees from the transfer of each Dungeness crab-coastal fishery license assessed under RCW 77.65.020, delivery fees assessed under RCW 77.70.300, and the license surcharge under RCW 77.65.240. Only the director or the director’s designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW but no appropriation is required for expenditures. Funds may be used for coastal crab management activities as provided in RCW 77.70.330. [2000 c 107 § 79; 1997 c 418 § 4; 1994 c 260 § 6. Formerly RCW 75.30.390.]

77.70.330 Coastal crab account expenditures—Management of coastal crab resource. Expenditures from the coastal crab account may be made by the department for management of the coastal crab resource. Management activities may include studies of resource viability, interstate negotiations concerning regulation of the offshore crab resource, resource enhancement projects, or other activities as determined by the department. 77.70.340 Criteria for nonresident Dungeness crab-coastal fishery license for Oregon residents—Section effective contingent upon reciprocal statutory authority in Oregon. (1) An Oregon resident who can show historical and continuous participation in the Washington state coastal crab fishery by having held a nonresident non-Puget Sound crab pot license issued under RCW 77.65.220 each year from 1990 through 1994, and who has delivered a minimum of eight landings totaling five thousand pounds of crab into Oregon during any two of the four qualifying seasons as provided in RCW 77.70.280(5) as evidenced by valid Oregon fish receiving tickets, shall be issued a nonresident Dungeness crab-coastal fishery license valid for fishing in Washington state waters north from the Oregon-Washington boundary to United States latitude forty-six degrees thirty minutes north. Such license shall be issued upon application and submission of proof of delivery.

(2) This section shall become effective contingent upon reciprocal statutory authority in the state of Oregon providing for equal access for Washington state coastal crab fishers to Oregon territorial coastal waters north of United States latitude forty-five degrees fifty-eight minutes north, and Oregon waters of the Columbia river. 77.70.350 Restrictions on vessel designations and substitutions on Dungeness crab-coastal fishery licenses. (1) The following restrictions apply to vessel designations and substitutions on Dungeness crab-coastal fishery licenses:

(a) The holder of the license may not:

(i) Designate on the license a vessel the hull length of which exceeds ninety-nine feet; or

(ii) Change vessel designation if the hull length of the vessel proposed to be designated exceeds the hull length designated on the license on June 7, 2006, by more than ten feet. However, if such vessel designation is the result of an emergency transfer, the applicable vessel length would be the most recent permanent vessel designation on the license prior to June 7, 2006;

(b) If the hull length of the vessel proposed to be designated is comparable to or exceeds by up to one foot the hull length of the currently designated vessel, the department may change the vessel designation no more than once in any one-year period, measured from September 15th to September 15th of the following year, unless the currently designated vessel is lost or in disrepair such that it does not safely operate, in which case the department may allow a change in vessel designation;

(c) If the hull length of the vessel proposed to be designated exceeds by between one and ten feet the hull length of the designated vessel on June 7, 2006, the department may change the vessel designation no more than once on or after June 7, 2006, unless a request is made by the license holder during a Washington state coastal crab season for an emergency change in vessel designation. If such an emergency request is made, the director may allow a temporary change in designation to another vessel, if the hull length of the other vessel does not exceed by more than ten feet the hull length of the currently designated vessel.

(2) For the purposes of this section, "hull length" means the length overall of a vessel’s hull as shown by marine survey or by manufacturer’s specifications.

(3) By December 31, 2010, the department must, in cooperation with the coastal crab fishing industry, evaluate the effectiveness of this section and, if necessary, recommend any statutory changes to the appropriate committees of the senate and house of representatives. 77.70.360 Dungeness crab-coastal fishery licenses—Limitation on new licenses—Requirements for renewal. Except as provided under *RCW 77.70.380, the director shall issue no new Dungeness crab-coastal fishery licenses after December 31, 1995. A person may renew an existing license only if the person held the license sought to be renewed during the previous year or acquired the license by transfer from someone who held it during the previous year, and if the person has not subsequently transferred the license to another person. Where the person failed to obtain the license during the previous year because of a license suspension, the person may qualify for a license by establishing that the person held such a license during the last year in which the license was not suspended. 77.70.370 Limitation on taking crab in the exclusive economic zone of Oregon or California—Section effective contingent upon reciprocal legislation by both Oregon and California. (1) A Dungeness crab—coastal fishery licensee shall not take Dungeness crab in the waters of the exclusive economic zone westward of the states of Oregon or California and land crab taken in those waters into Washington state unless the licensee also holds the licenses, permits, or endorsements, required by Oregon or California to land crab into Oregon or California, respectively.

(2) This section becomes effective only upon reciprocal legislation being enacted by both the states of Oregon and California. For purposes of this section, "exclusive economic zone" means that zone defined in the federal fishery conservation and management act (16 U.S.C. Sec. 1802) as of January 1, 1995, or as of a subsequent date adopted by rule of the director. [1998 c 190 § 109; 1994 c 260 § 16. Formerly RCW 75.30.450.]

77.70.390 Reduction of landing requirements under RCW 77.70.280—Procedure. The director may reduce the landing requirements established under RCW 77.70.280 upon the recommendation of an advisory review board established under *RCW 77.70.030, but the director may not entirely waive the landing requirement. The advisory review board may recommend a reduction of the landing requirement in individual cases if in the advisory review board’s judgment, extenuating circumstances prevented achievement of the landing requirement. The director shall adopt rules governing the operation of the advisory review board and defining "extenuating circumstances." Extenuating circumstances may include situations in which a person had a vessel under construction such that qualifying landings could not be made. In defining extenuating circumstances, special consideration shall be given to individuals who can provide evidence of lack of access to capital based on past discrimination due to race, creed, color, sex, national origin, or disability. 77.70.400 Coastal Dungeness crab resource plan. The department, with input from Dungeness crab—coastal fishery licensees and processors, shall prepare a resource plan to achieve even-flow harvesting and long-term stability of the coastal Dungeness crab resource. The plan may include pot limits, further reduction in the number of vessels, individual quotas, trip limits, area quotas, or other measures as determined by the department. The provisions of such a resource plan that are designed to effect a gear reduction or effort reduction based upon historical landing criteria are subject to the provisions of RCW 77.70.390 with respect to the consideration of extenuating circumstances. 77.70.410 Shrimp pot-Puget Sound fishery—Limited entry fishery—License analogous to personal property—Transferability—Alternate operator designation. (1) The shrimp pot-Puget Sound fishery is a limited entry fishery and a person shall not fish for shrimp taken from Puget Sound for commercial purposes with shrimp pot gear except under the provisions of a shrimp pot-Puget Sound fishery license issued under RCW 77.65.220.

(2) A shrimp pot-Puget Sound fishery license shall only be issued to a natural person who held a shrimp pot-Puget Sound fishery license during the previous year, except upon the death of the licensee the license shall be treated as analogous to personal property for purposes of inheritance and intestacy.

(3) No more than two shrimp pot-Puget Sound fishery licenses may be owned by a licensee. The licensee must transfer the second license into the licensee’s name, and designate on the second license the same vessel as is designated on the first license at the time of the transfer. Licensees who hold two shrimp pot-Puget Sound fishery licenses may not transfer one of the two licenses for a twelve-month period beginning on the date the second license is transferred to the licensee, but the licensee may transfer both licenses to another natural person. The nontransferability provisions of this subsection start anew for the receiver of the two licenses. Licensees who hold two shrimp pot-Puget Sound fishery licenses may fish one and one-half times the maximum number of pots allowed for Puget Sound shrimp, and may retain and land one and one-half times the maximum catch limits established for Puget Sound shrimp taken with shellfish pot gear.

(4) Through December 31, 2001, shrimp pot-Puget Sound fishery licenses are transferable only to a current shrimp pot-Puget Sound fishery licensee, or upon death of the licensee. Beginning January 1, 2002, shrimp pot-Puget Sound commercial fishery licenses are transferable, except holders of two shrimp pot-Puget Sound licenses are subject to nontransferability provisions as provided for in this section.

(5) Through December 31, 2001, a shrimp pot-Puget Sound licensee may designate any natural person as the alternate operator for the license. Beginning January 1, 2002, a shrimp pot-Puget Sound licensee may designate only an immediate family member, as defined in RCW 77.12.047, as the alternate operator. A licensee with a bona fide medical emergency may designate a person other than an immediate family member as the alternate operator for a period not to exceed two years, provided the licensee documents the medical emergency with letters from two medical doctors describing the illness or condition that prevents the licensee from participating in the fishery. The two-year period may be extended by the director upon recommendation of a department-appointed Puget Sound shrimp advisory board. If the licensee has no immediate family member who is capable of operating the license, the licensee may make a request to the Puget Sound shrimp advisory board to designate an alternate operator who is not an immediate family member, and upon...
recommendation of the Puget Sound shrimp advisory board, the director may allow designation of an alternate operator who is not an immediate family member. [2001 c 105 § 1; 2000 c 107 § 84; 1999 c 239 § 3. Formerly RCW 75.30.490.]

A licensee with a bona fide medical emergency may designate a person other than an immediate family member as the alternate operator for a period not to exceed two years, provided the licensee documents the medical emergency with letters from two medical doctors describing the illness or condition that prevents the immediate family member from participating in the fishery. The two-year period may be extended by the director upon recommendation of a department-appointed Puget Sound shrimp advisory board. If the licensee has no immediate family member who is capable of operating the license, the licensee may make a request to the Puget Sound shrimp advisory board to designate an alternate operator who is not an immediate family member, and upon recommendation of the Puget Sound shrimp advisory board, the director may allow designation of an alternate operator who is not an immediate family member. ### 77.70.450 Commercial fisheries buyback account.

The commercial fisheries buyback account is created in the custody of the state treasurer. All receipts from money collected by the commission under RCW 77.70.460, moneys appropriated for the purposes of this section, and other gifts, grants, or donations specifically made to the fund must be deposited into the account. Expenditures from the account may be used only for the purpose of repaying moneys advanced by the federal government under a groundfish fleet reduction program established by the federal government, or for other fleet reduction efforts, commercial fishing license buyback programs, or similar programs designed to reduce the harvest capacity in a commercial fishery. Only the director of the department or the director’s designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an
(1) The commission shall collect a fee upon all deliveries of fish or shellfish from persons holding: (a) A federal Pacific groundfish limited entry permit with a trawl endorsement; (b) an ocean pink shrimp delivery license issued under RCW 77.65.390; (c) a Dungeness crab—coastal fishery license issued under RCW 77.65.280; (d) a food fish delivery license issued under RCW 77.65.200; or (e) a shrimp trawl license under RCW 77.65.220, to repay the federal government for moneys advanced by the federal government under a groundfish fleet reduction program established by the federal government.

(2) The commission shall adopt a fee schedule by rule for the collection of the fee required by subsection (1) of this section. The fee schedule adopted shall limit the total amount of moneys collected through the fee to the minimum amount necessary to repay the moneys advanced by the federal government, but be sufficient to repay the debt obligation of each fishery. The fee charged to the holders of a Dungeness crab—coastal fishery license may not exceed two percent of the total ex-vessel value of annual landings, and the fee charged to all other eligible license holders may not exceed five percent of the total ex-vessel value of annual landings. The commission may adjust the fee schedule as necessary to ensure that the funds collected are adequate to repay the debt obligation of each fishery.

(3) The commission shall deposit moneys collected under this section in the commercial fisheries buyback account created in RCW 77.70.450.

Contingent expiration date—2003 c 174 § 2 and 3: "Sections 2 and 3 of this act expire January 1, 2033, or when the groundfish fleet reduction program referenced in section 2 of this act is completed, whichever is sooner." [2003 c 174 § 4.]

77.70.470 Ban on assessing fee under RCW 77.70.460. (Contingent expiration date.) The commission may not assess the fee specified under RCW 77.70.460 until after the federal government creates a groundfish fleet reduction program. [2003 c 174 § 3.]

Contingent expiration date—2003 c 174 §§ 2 and 3: See note following RCW 77.70.460.

77.70.480 Pacific sardines—Purse seine fishery license or temporary annual fishery permit required. (1) A Washington Pacific sardine purse seine fishery license or temporary annual fishery permit is required to fish for or possess Pacific sardines in offshore waters. This requirement does not affect persons authorized to fish for or possess sardines in offshore waters under a valid Oregon or California license or permit.

(2) A Washington Pacific sardine purse seine fishery license or temporary annual fishery permit is required to deliver Pacific sardines into the state.

(3) Washington sardine purse seine fishery licenses and temporary annual fishery permits require vessel designation under RCW 77.65.100.

[Title 77 RCW—page 110]

(4) Pacific sardines may not be taken or retained in state waters except for incidental harvest authorized by rule of the department. [2009 c 331 § 2.]

77.70.490 Pacific sardines—Purse seine fishery license—Adoption of rules regarding bycatch. (1) A Washington Pacific sardine purse seine fishery license:

(a) May only be issued to a person that held a coastal pilchard experimental fishery permit in 2008, except as otherwise provided in this section;

(b) Must be renewed annually to remain active; and

(c) Subject to the restrictions of subsections (6) and (7) of this section and RCW 77.65.040, is transferable.

(2) A Washington Pacific sardine purse seine fishery license may be issued to any person that held a coastal pilchard experimental fishery permit in 2005, 2006, or 2007 and is precluded from qualifying under subsection (1) of this section because the vessel designated on the permit sank prior to 2008.

(3) Beginning in 2010, after taking into consideration the status of the Pacific sardine population, the impact of removal of sardines and other forage fish to the marine ecosystem, including the effect on endangered marine species, and the market for Pacific sardines in the state, the director may issue:

(a) A Washington Pacific sardine purse seine fishery license to any person provided that the issuance would not raise the number of licenses beyond the number initially issued in 2009;

(b) A Washington Pacific sardine purse seine temporary annual fishery permit to any person if the combined number of active Washington Pacific sardine purse seine fishery licenses and annual temporary permits already issued during the year is less than twenty-five.

(4) The annual fee for a Washington Pacific sardine purse seine fishery license is one hundred eighty-five dollars for residents and two hundred ninety-five dollars for nonresidents.

(5) The fee for a Washington Pacific sardine purse seine temporary annual fishery permit is one hundred eighty-five dollars for residents and two hundred ninety-five dollars for nonresidents. A temporary annual fishery permit expires at the end of the calendar year in which the permit is issued.

(6) Only a person who owns or operates the vessel designated on the license or permit may hold a Washington Pacific sardine purse seine fishery license or temporary annual fishery permit.

(7) A person may not own or hold an ownership interest in more than two Washington Pacific sardine purse seine fishery licenses.

(8) The director shall adopt rules that require a person fishing under a Washington Pacific sardine purse seine fishery license or a temporary annual permit to minimize bycatch, and to the extent bycatch cannot be avoided, to minimize the mortality of such bycatch. [2009 c 331 § 3.]

77.70.500 Crab pot removal permit—Shellfish pot removal permit—Rules—Penalty. (1)(a) As part of a coastal commercial Dungeness crab pot removal program, the department shall issue a crab pot removal permit that
allows the participants in the Dungeness crab-coastal fishery created in RCW 77.70.280 to remove crab pots belonging to state commercial licensed crab fisheries from coastal marine waters after the close of the primary commercial Dungeness crab-coastal harvest season, regardless of whether the crab pot was originally set by the participant or not.

(b) Beginning fifteen days after the close of the primary commercial Dungeness crab-coastal harvest season, any individual with a current commercial Dungeness crab-coastal license and a valid crab pot removal permit issued by the department may remove a crab pot or crab pots used to harvest Dungeness crabs remaining in coastal marine waters after the close of the primary commercial Dungeness crab-coastal harvest season.

(c) In cooperation with individuals with a current commercial Dungeness crab-coastal license, the department may expand the coastal commercial Dungeness crab pot removal program to those areas closed to commercial Dungeness crab harvest prior to the end of the primary season.

(d) Nothing in this section prohibits the department from exempting certain crab pots from the coastal commercial Dungeness crab pot removal program or from restricting crab pot removal activities to specific geographic areas.

(2)(a) The department may expand the crab pot removal program to allow for the removal of shellfish pots belonging to state commercial or recreational licensed shellfish fisheries from Puget Sound waters during shellfish harvest closures, regardless of whether the shellfish pot was originally set by the permittee or not.

(b) If the department expands the program to Puget Sound waters, the department shall limit the program as necessary to streamline implementation, minimize the oversight burden on fish and wildlife enforcement officers, minimize interference with lawful fisheries and other user groups, minimize administrative overhead cost, and avoid the collection of shellfish pots that are not abandoned. The program may be limited as deemed appropriate by the department, including limitations on:

(i) The number of participants;

(ii) The eligible geographic areas in Puget Sound where shellfish pots may be recovered;

(iii) The types of shellfish pots that may be recovered;

(iv) The maximum or minimum depth where a shellfish pot must be located to be eligible for recovery; and

(v) The ports through which the vessels collecting the abandoned shellfish pots may operate.

(3) The department may adopt rules to implement subsections (1) and (2) of this section.

(4)(a) The following are exempt from complying with the lost and found property provisions in chapter 63.21 RCW:

Chapter 77.75 RCW
COMPA CT S AND OTHER AGREEMENT S
77.75.030 Pacific Marine Fisheries Compact—Provisions. There exists between the states of Alaska, California, Idaho, Oregon and Washington a definite compact and agreement as follows:

THE PACIFIC MARINE FISHERIES COMPACT

The contracting states do hereby agree as follows:

ARTICLE I.

The purposes of this compact are and shall be to promote the better utilization of fisheries, marine, shell and anadromous, which are of mutual concern, and to develop a joint program of protection and prevention of physical waste of such fisheries in all of those areas of the Pacific Ocean and adjacent waters over which the compacting states jointly or separately now have or may hereafter acquire jurisdiction.

Nothing herein contained shall be construed so as to authorize the compacting states or any of them to limit the production of fish or fish products for the purpose of establishing or fixing the prices thereof or creating and perpetuating a monopoly.

ARTICLE II.

This agreement shall become operative immediately as to those states executing it whenever the compacting states have executed it in the form that is in accordance with the laws of the executing states and the congress has given its consent.

ARTICLE III.

Each state joining herein shall appoint, as determined by state statutes, one or more representatives to a commission hereby constituted and designated as The Pacific Marine Fisheries Commission, of whom one shall be the administrative or other officer of the agency of such state charged with the conservation of the fisheries resources to which this compact pertains. This commission shall be a body with the powers and duties set forth herein.

The term of each commissioner of The Pacific Marine Fisheries Commission shall be four years. A commissioner shall hold office until his successor shall be appointed and qualified but such successor’s term shall expire four years from legal date of expiration of the term of his predecessor. Vacancies occurring in the office of such commissioner from any reason or cause shall be filled for the unexpired term, or a commissioner may be removed from office, as provided by the statutes of the state concerned. Each commissioner may delegate in writing from time to time to a deputy the power to be present and participate, including voting as his representa-

tive or substitute, at any meeting of or hearing by or other proceeding of the commission.

Voting powers under this compact shall be limited to one vote for each state regardless of the number of representatives.

ARTICLE IV.

The duty of the said commission shall be to make inquiry and ascertain from time to time such methods, practices, circumstances and conditions as may be disclosed for bringing about the conservation and the prevention of the depletion and physical waste of the fisheries, marine, shell, and anadromous in all of those areas of the Pacific Ocean over which the states signatory to this compact jointly or separately now have or may hereafter acquire jurisdiction. The commission shall have power to recommend the coordination of the exercise of the police powers of the several states within their respective jurisdictions and said conservation zones to promote the preservation of those fisheries and their protection against overfishing, waste, depletion or any abuse whatsoever and to assure a continuing yield from the fisheries resources of the signatory parties hereto.

To that end the commission shall draft and, after consultation with the advisory committee hereinafter authorized, recommend to the governors and legislative branches of the various signatory states hereto legislation dealing with the conservation of the marine, shell and anadromous fisheries in all of those areas of the Pacific Ocean and adjacent waters over which the signatory states jointly or separately now have or may hereafter acquire jurisdiction. The commission shall, more than one month prior to any regular meeting of the legislative branch in any state signatory hereto, present to the governor of such state its recommendations relating to enactments by the legislative branch of that state in furthering the intents and purposes of this compact.

The commission shall consult with and advise the pertinent administrative agencies in the signatory states with regard to problems connected with the fisheries and recommend the adoption of such regulations as it deems advisable and which lie within the jurisdiction of such agencies.

The commission shall have power to recommend to the states signatory hereto the stocking of the waters of such states with marine, shell, or anadromous fish and fish eggs or joint stocking by some or all of such states and when two or more of the said states shall jointly stock waters the commission shall act as the coordinating agency for such stocking.

ARTICLE V.

The commission shall elect from its number a chairman and a vice chairman and shall appoint and at its pleasure, remove or discharge such officers and employees as may be required to carry the provisions of this compact into effect and shall fix and determine their duties, qualifications and compensation. Said commission shall adopt rules and regulations for the conduct of its business. It may establish and maintain one or more offices for the transaction of its business and may meet at any time or place within the territorial limits of the signatory states but must meet at least once a year.

[Title 77 RCW—page 112]
ARTICLE VI.

No action shall be taken by the commission except by the affirmative vote of a majority of the whole number of compacting states represented at any meeting. No recommendation shall be made by the commission in regard to any species of fish except by the vote of a majority of the compacting states which have an interest in such species.

ARTICLE VII.

The fisheries research agencies of the signatory states shall act in collaboration as the official research agency of The Pacific Marine Fisheries Commission.

An advisory committee to be representative of the commercial fishermen, commercial fishing industry and such other interests of each state as the commission deems advisable shall be established by the commission as soon as practicable for the purpose of advising the commission upon such recommendations as it may desire to make.

ARTICLE VIII.

Nothing in this compact shall be construed to limit the powers of any state or to repeal or prevent the enactment of any legislation or the enforcement of any requirement by any state imposing additional conditions and restrictions to conserve its fisheries.

ARTICLE IX.

Continued absence of representation or of any representative on the commission from any state party hereto, shall be brought to the attention of the governor thereof.

ARTICLE X.

The states agree to make available annual funds for the support of the commission on the following basis:

Eighty percent of the annual budget shall be shared equally by those member states having as a boundary the Pacific Ocean; not less than five percent of the annual budget shall be contributed by any other member state; the balance of the annual budget shall be shared by those member states, having as a boundary the Pacific Ocean, in proportion to the primary market value of the products of their commercial fisheries on the basis of the latest five-year catch records.

The annual contribution of each member state shall be figured to the nearest one hundred dollars.

This amended article shall become effective upon its enactment by the states of Alaska, California, Idaho, Oregon, and Washington and upon ratification by Congress of the authority vested in it under Article I, section 10, of the Constitution of the United States. WILDLIFE VIOLATOR COMPACT

77.75.070 Wildlife violator compact—Established. The wildlife violator compact is hereby established in the form substantially as follows, and the Washington state department of fish and wildlife is authorized to enter into such compact on behalf of the state with all other jurisdictions legally joining therein:

ARTICLE I
FINDINGS, DECLARATION OF POLICY, AND PURPOSE

(a) The party states find that:

(1) Wildlife resources are managed in trust by the respective states for the benefit of all residents and visitors.

(2) The protection of their respective wildlife resources can be materially affected by the degree of compliance with state statute, law, regulation, ordinance, or administrative rule relating to the management of those resources.

(3) The preservation, protection, management, and restoration of wildlife contributes immeasurably to the aesthetic, recreational, and economic aspects of these natural resources.

(4) Wildlife resources are valuable without regard to political boundaries, therefore, all persons should be required to comply with wildlife preservation, protection, management, and restoration laws, ordinances, and administrative rules and regulations of all party states as a condition precedent to the continuance or issuance of any license to hunt, fish, trap, or possess wildlife.

(5) Violation of wildlife laws interferes with the management of wildlife resources and may endanger the safety of persons and property.

(6) The mobility of many wildlife law violators necessitates the maintenance of channels of communications among the various states.

(7) In most instances, a person who is cited for a wildlife violation in a state other than the person's home state:

(i) Must post collateral or bond to secure appearance for a trial at a later date; or

(ii) If unable to post collateral or bond, is taken into custody until the collateral or bond is posted; or

(iii) Is taken directly to court for an immediate appearance.

(8) The purpose of the enforcement practices described in paragraph (7) of this subdivision is to ensure compliance with the terms of a wildlife citation by the person who, if permitted to continue on the person's way after receiving the citation, could return to the person's home state and disregard the person's duty under the terms of the citation.

(9) In most instances, a person receiving a wildlife citation in the person's home state is permitted to accept the citation from the officer at the scene of the violation and to immediately continue on the person's way after agreeing or being instructed to comply with the terms of the citation.

(10) The practice described in paragraph (7) of this subdivision causes unnecessary inconvenience and, at times, a hardship for the person who is unable at the time to post collateral, furnish a bond, stand trial, or pay the fine, and thus is compelled to remain in custody until some alternative arrangement can be made.

(11) The enforcement practices described in paragraph (7) of this subdivision consume an undue amount of law enforcement time.

(b) It is the policy of the party states to:

(1) Promote compliance with the statutes, laws, ordinances, regulations, and administrative rules relating to management of wildlife resources in their respective states.

(2) Recognize the suspension of wildlife license privileges of any person whose license privileges have been suspended by a party state and treat this suspension as if it had occurred in their state.

(3) Allow violators to accept a wildlife citation, except as provided in subdivision (b) of Article III, and proceed on the violator's way without delay whether or not the person is a resident in the state in which the citation was issued, provided that the violator's home state is party to this compact.

(4) Report to the appropriate party state, as provided in the compact manual, any conviction recorded against any person whose home state was not the issuing state.

(5) Allow the home state to recognize and treat convictions recorded for their residents which occurred in another party state as if they had occurred in the home state.

(6) Extend cooperation to its fullest extent among the party states for obtaining compliance with the terms of a wildlife citation issued in one party state to a resident of another party state.

(7) Maximize effective use of law enforcement personnel and information.

(8) Assist court systems in the efficient disposition of wildlife violations.

(c) The purpose of this compact is to:

(1) Provide a means through which the party states may participate in a reciprocal program to effectuate policies enumerated in subdivision (b) of this article in a uniform and orderly manner.

(2) Provide for the fair and impartial treatment of wildlife violators operating within party states in recognition of the person's right of due process and the sovereign status of a party state.

ARTICLE II
DEFINITIONS

Unless the context requires otherwise, the definitions in this article apply through this compact and are intended only for the implementation of this compact:

(a) "Citation" means any summons, complaint, ticket, penalty assessment, or other official document issued by a wildlife officer or other peace officer for a wildlife violation containing an order which requires the person to respond.

(b) "Collateral" means any cash or other security deposited to secure an appearance for trial, in connection with the issuance by a wildlife officer or other peace officer of a citation for a wildlife violation.

(c) "Compliance" with respect to a citation means the act of answering the citation through appearance at a court, a tribunal, or payment of fines, costs, and surcharges, if any, or both such appearance and payment.

(d) "Conviction" means a conviction, including any court conviction, of any offense related to the preservation, protection, management, or restoration of wildlife which is prohibited by state statute, law, regulation, ordinance, or
ARTICLE III
PROCEDURES FOR ISSUING STATE

(a) When issuing a citation for a wildlife violation, a wildlife officer shall issue a citation to any person whose primary residence is in a party state in the manner required by that state for the purposes of the suspension of license privileges. Species included in the definition of "wildlife" vary from state to state and determination of whether a species is "wildlife" for the purposes of this compact shall be based on local law.

(b) "Wildlife law" means any state law, regulation, ordinance, or administrative rule developed and enacted to manage wildlife resources and the use thereof.

(c) "Wildlife officer" means any individual authorized by a party state to issue a citation for a wildlife violation.

(d) "Wildlife violation" means any cited violation of a statute, law, regulation, ordinance, or administrative rule.

ARTICLE IV
PROCEDURES FOR HOME STATE

(a) Upon receipt of a report of failure to comply with the terms of a citation from the licensing authority of the issuing state, the licensing authority of the home state shall notify the violator, shall initiate a suspension action in accordance with the home state’s suspension procedures and shall suspend the violator’s license privileges until satisfactory evidence of compliance with the terms of the wildlife citation has been furnished by the issuing state to the home state licensing authority.

(b) Upon receipt of a report of conviction from the licensing authority of the issuing state, the licensing authority of the home state shall enter such conviction in its records and shall treat such conviction as if it occurred in the home state for the purposes of the suspension of license privileges.

(c) The licensing authority of the home state shall maintain a record of actions taken and make reports to issuing states as provided in the compact manual.

ARTICLE V
RECIPROCAL RECOGNITION OF SUSPENSION

All party states shall recognize the suspension of license privileges of any person by any state as if the violation on which the suspension is based had in fact occurred in their state and could have been the basis for suspension of license privileges in their state.

ARTICLE VI
APPLICABILITY OF OTHER LAWS

Except as expressly required by provisions of this compact, nothing herein shall be construed to affect the right of any party state to apply any of its laws relating to license privileges to any person or circumstance, or to invalidate or prevent any agreement or other cooperative arrangements between a party state and a nonparty state concerning wildlife law enforcement.
ARTICLE VII
COMPACT ADMINISTRATOR PROCEDURES

(a) For the purpose of administering the provisions of this compact and to serve as a governing body for the resolution of all matters relating to the operation of this compact, a board of compact administrators is established. The board shall be composed of one representative from each of the party states to be known as the compact administrator. The compact administrator shall be appointed by the head of the licensing authority of each party state and will serve and be subject to removal in accordance with the laws of the state the administrator represents. A compact administrator may provide for the discharge of the administrator’s duties and the performance of the administrator’s functions as a board member by an alternate. An alternate may not be entitled to serve unless written notification of the alternate’s identity has been given to the board.

(b) Each member of the board of compact administrators shall be entitled to one vote. No action of the board shall be binding unless taken at a meeting at which a majority of the total number of votes on the board are cast in favor thereof. Action by the board shall be only at a meeting at which a majority of the party states are represented.

(c) The board shall elect annually, from its membership, a chairperson and vice-chairperson.

(d) The board shall adopt bylaws, not inconsistent with the provisions of this compact or the laws of a party state, for the conduct of its business and shall have the power to amend and rescind its bylaws.

(e) The board may accept for any of its purposes and functions under this compact all donations and grants of money, equipment, supplies, materials, and services, conditional or otherwise, from any state, the United States, or any governmental agency, and may receive, utilize, and dispose of the same.

(f) The board may contract with or accept services or personnel from any governmental or intergovernmental agency, individual, firm, corporation, or any private nonprofit organization or institution.

(g) The board shall formulate all necessary procedures and develop uniform forms and documents for administering the provisions of this compact. All procedures and forms adopted pursuant to board action shall be contained in the compact manual.

ARTICLE VIII
ENTRY INTO COMPACT AND WITHDRAWAL

(a) This compact shall become effective when it has been adopted by at least two states.

(b)(1) Entry into the compact shall be made by resolution of ratification executed by the authorized officials of the applying state and submitted to the chairperson of the board.  

(2) The resolution shall be in a form and content as provided in the compact manual and shall include statements that in substance are as follows:

(i) A citation of the authority by which the state is empowered to become a party to this compact;

(ii) Agreement to comply with the terms and provisions of the compact; and

(3) The effective date of entry shall be specified by the applying state, but shall not be less than sixty days after notice has been given by the chairperson of the board of compact administrators or by the secretariat of the board to each party state that the resolution from the applying state has been received.

(c) A party state may withdraw from this compact by official written notice to the other party states, but a withdrawal shall not take effect until ninety days after notice of withdrawal is given. The notice shall be directed to the compact administrator of each member state. No withdrawal shall affect the validity of this compact as to the remaining party states.

ARTICLE IX
AMENDMENTS TO THE COMPACT

(a) This compact may be amended from time to time. Amendments shall be presented in resolution form to the chairperson of the board of compact administrators and may be initiated by one or more party states.

(b) Adoption of an amendment shall require endorsement by all party states and shall become effective thirty days after the date of the last endorsement.

(c) Failure of a party state to respond to the compact chairperson within one hundred twenty days after receipt of the proposed amendment shall constitute endorsement.

ARTICLE X
CONSTRUCTION AND SEVERABILITY

This compact shall be liberally construed so as to effectuate the purposes stated herein. The provisions of this compact shall be severable and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the constitution of any party state or of the United States or the applicability thereof to any government, agency, individual, or circumstance is held invalid, the compact shall not be affected thereby. If this compact shall be held contrary to the constitution of any party state thereto, the compact shall remain in full force and effect as to the remaining states and in full force and effect as to the state affected as to all severable matters.

Program to Purchase Fishing Vessels and Licenses

Sections

77.80.020 Program authorized—Conditions.
77.80.030 Determination of purchase price—Maximum price.
77.80.040 Disposition of vessels and gear—Prohibition against using purchased vessels for fishing purposes.
77.80.020 Program authorized—Conditions. (1)(a) The department may purchase commercial fishing vessels and appurtenant gear, and the current state commercial fishing licenses, delivery permits, and charter boat licenses if the license or permit holder was substantially restricted in fishing as a result of compliance with United States of America et al. v. State of Washington et al., Civil No. 9213, United States District Court for Western District of Washington, February 12, 1974, and Sohappy v. Smith, 302 F. Supp. 899 (D. Oregon, 1969), as amended, affirmed, and remanded 529 F. 2d 570 (9th Cir., 1976).

(b) The department may also make such purchases if the license or permit holder was substantially restricted in fishing as a result of compliance with United States of America et al. v. State of Washington et al., 873 F. Supp. 1422 (W.D. Wash. 1994) as affirmed in part, reversed in part, and remanded 157 F.3d 630 (9th Cir., 1998), if the federal government provides funding to the state for the purpose of initiating these purchases.

(2) The department shall not purchase a vessel under this section without also purchasing all current Washington commercial fishing licenses and delivery permits and charter boat licenses issued to the vessel or its owner. The department may purchase current licenses and delivery permits without purchasing the vessel. [2008 c 252 § 2; 1984 c 67 § 1; 1983 1st ex.s.c 46 § 156; 1979 ex.s.c 43 § 1; 1977 ex.s.c 230 § 4; 1975 1st ex.s.c 183 § 4. Formerly RCW 75.44.110, 75.28.510.]

Legislative finding and intent—1975 1st ex.s.c 183: "The legislature finds that the protection, welfare, and economic well-being of the commercial fishing industry is important to the people of this state. There presently exists an overabundance of commercial fishing gear in our state waters which causes great pressure on the fishing resources. This results in great economic waste to the state and prohibits conservation and harvesting programs from achieving their goals. This adverse situation has been compounded by the federal court decisions, United States of America et al. v. State of Washington et al., Civil No. 9213, United States District Court for the Western District of Washington, February 12, 1974, and Sohappy v. Smith, 302 F. Supp. 899 (D. Oregon, 1969), as amended, affirmed, and remanded 529 F. 2d 570 (9th Cir., 1976). As a result, large numbers of commercial fishermen face personal economic hardship, and the state commercial fishing industry is confronted with economic difficulty. The public welfare requires that the state have the authority to purchase commercial fishing vessels, licenses, gear, and permits offered for sale, as appropriate, in a manner which will provide relief to the individual vessel owner, and which will effect a reduction in the amount of commercial fishing gear in use in the state so as to insure increased economic opportunity for those persons in the industry and to insure that sound scientific conservation and harvesting programs can be carried out. It is the intention of the legislature to provide relief to commercial fishermen adversely affected by the current economic situation in the state fishery and to preserve this valuable state industry and these natural resources." [1977 ex.s.c 230 § 2; 1975 1st ex.s.c 183 § 2. Formerly RCW 75.28.500.]

77.80.030 Determination of purchase price—Maximum price. The purchase price of a vessel and appurtenant gear shall be based on a survey conducted by a qualified marine surveyor. A license or delivery permit shall be valued separately.

The director may specify a maximum price to be paid for a vessel, gear, license, or delivery permit purchased under RCW 77.80.020. A license or delivery permit purchased under RCW 77.80.020 shall be permanently retired by the department. [2000 c 107 § 89; 1983 1st ex.s.c 46 § 157; 1975 1st ex.s.c 183 § 5. Legislative finding and intent—1975 1st ex.s.c 183: See note following RCW 77.80.020.

77.80.040 Disposition of vessels and gear—Prohibition against using purchased vessels for fishing purposes. The department may arrange for the insurance, storage, and resale or other disposition of vessels and gear purchased under RCW 77.80.020. Vessels shall not be resold by the department to the seller or the seller’s immediate family. The vessels shall not be used by any owner or operator: (1) As a commercial fishing or charter vessel in state waters; or (2) to deliver fish to a place or port in the state. The department shall require that the purchasers and other users of vessels sold by the department execute suitable instruments to insure compliance with the requirements of this section. The director may commence suit or be sued on such an instrument in a state court of record or United States district court having jurisdiction. [2000 c 107 § 90; 1983 1st ex.s.c. c 46 § 158; 1979 ex.s.c 43 § 2; 1975 1st ex.s.c 183 § 6. Formerly RCW 75.44.130, 75.28.520.]

Legislative finding and intent—1975 1st ex.s.c 183: See note following RCW 77.80.020.

77.80.050 Rules—Administration of chapter. The director shall adopt rules for the administration of this chapter. 77.85.020 Consolidated report on salmon recovery and watershed health.

[Title 77 RCW—page 118]
77.85.005 Findings—Intent. The legislature finds that repeated attempts to improve salmonid fish runs throughout the state of Washington have failed to avert listings of salmon and steelhead runs as threatened or endangered under the federal endangered species act (16 U.S.C. Sec. 1531 et seq.). These listings threaten the sport, commercial, and tribal fishing industries as well as the economic well-being and vitality of vast areas of the state. It is the intent of the legislature to begin activities required for the recovery of salmon stocks as soon as possible, although the legislature understands that successful recovery efforts may not be realized for many years because of the life cycle of salmon and the complex array of natural and human-caused problems they face.

The legislature finds that it is in the interest of the citizens of the state of Washington for the state to retain primary responsibility for managing the natural resources of the state, rather than abdicate those responsibilities to the federal government, and that the state may best accomplish this objective by integrating local and regional recovery activities into a statewide strategy that can make the most effective use of provisions of federal laws allowing for a state lead in salmon recovery, delivered through implementation activities consistent with regional and watershed recovery plans. The legislature also finds that a statewide salmon recovery strategy must be developed and implemented through an active public involvement process in order to ensure public participation in, and support for, salmon recovery. The legislature also finds that there is a substantial link between the provisions of the federal endangered species act and the federal clean water act (33 U.S.C. Sec. 1251 et seq.). The legislature further finds that habitat restoration is a vital component of salmon recovery efforts. Therefore, it is the intent of the legislature to specifically address salmon habitat restoration in a coordinated manner and to develop a structure that allows for the coordinated delivery of federal, state, and local assistance to communities for habitat projects that will assist in the recovery and enhancement of salmon stocks. A strong watershed-based locally implemented plan is essential for local, regional, and statewide salmon recovery.

The legislature also finds that credible scientific review and oversight is essential for any salmon recovery effort to be successful.

The legislature further finds that it is important to monitor the overall health of the salmon resource to determine if recovery efforts are providing expected returns. It is important to monitor salmon habitat projects and salmon recovery activities to determine their effectiveness in order to secure federal acceptance of the state’s approach to salmon recovery. Adaptive management cannot exist without monitoring. For these reasons, the legislature believes that a coordinated and integrated monitoring system should be developed and implemented.

The legislature therefore finds that a coordinated framework for responding to the salmon crisis is needed immediately. To that end, the governor's salmon recovery office should be created to provide overall coordination of the state's response; an independent science panel is needed to provide scientific review and oversight; a coordinated state funding process should be established through a salmon recovery funding board; the appropriate local or tribal government should provide local leadership in identifying and elevating habitat projects to be funded by state agencies; habitat projects should be implemented without delay; and a strong locally based effort to restore salmon habitat should be established by providing a framework to allow citizen volunteers to work effectively. 77.85.010 Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

1) "Adaptive management" means reliance on scientific methods to test the results of actions taken so that the management and related policy can be changed promptly and appropriately.

2) "Critical pathways methodology" means a project scheduling and management process for examining interactions between habitat projects and salmonid species, prioritizing habitat projects, and assuring positive benefits from habitat projects.

3) "Habitat project list" is the list of projects resulting from the critical pathways methodology under RCW 77.85.060(2). Each project on the list must have a written agreement from the landowner on whose land the project will be implemented. Projects include habitat restoration projects, habitat protection projects, habitat projects that improve water quality, habitat projects that protect water quality, habitat-related mitigation projects, and habitat project maintenance and monitoring activities.

4) "Habitat work schedule" means those projects from the habitat project list that will be implemented during the
current funding cycle. The schedule shall also include a list of the entities and individuals implementing projects, the start date, duration, estimated date of completion, estimated cost, and funding sources for the projects.

(5) "Limiting factors" means conditions that limit the ability of habitat to fully sustain populations of salmon. These factors are primarily fish passage barriers and degraded estuarine areas, riparian corridors, stream channels, and wetlands.

(6) "Project sponsor" is a county, city, special district, tribal government, state agency, a combination of such governments through interlocal or interagency agreements, a nonprofit organization, regional fisheries enhancement group, or one or more private citizens. A project sponsored by a state agency may be funded by the board only if it is included on the habitat project list submitted by the lead entity for that area and the state agency has a local partner that would otherwise qualify as a project sponsor.

(7) "Regional recovery organization" or "regional salmon recovery organization" means an entity formed under RCW 77.85.090 for the purpose of recovering salmon, which is recognized in statute or by the governor’s salmon recovery office created in RCW 77.85.030.

(8) "Salmon" includes all species of the family Salmonidae which are capable of self-sustaining, natural production.

(9) "Salmon recovery plan" means a state or regional plan developed in response to a proposed or actual listing under the federal endangered species act that addresses limiting factors including, but not limited to, harvest, hatchery, hydropower, habitat, and other factors of decline.

(10) "Salmon recovery region" means geographic areas of the state identified or formed under RCW 77.85.090 that encompass groups of watersheds in the state with common stocks of salmon identified for recovery activities, and that generally are consistent with the geographic areas within the state identified by the national oceanic and atmospheric administration or the United States fish and wildlife service for activities under the federal endangered species act.

(11) "Salmon recovery strategy" means the strategy adopted under RCW 77.85.150 and includes the compilation of all subbasin and regional salmon recovery plans developed in response to a proposed or actual listing under the federal endangered species act with state hatchery, harvest, and hydropower plans compiled in accordance with RCW 77.85.150.

(12) "Tribe" or "tribes" means federally recognized Indian tribes.

(13) "WRIA" means a water resource inventory area established in chapter 173-500 WAC as it existed on January 1, 1997.

(14) "Owner" means the person holding title to the land or the person under contract with the owner to lease or manage the legal owner’s property. [2007 c 444 § 1; 2005 c 309 § 2; 2002 c 210 § 1; 2000 c 107 § 92; 1998 c 246 § 2. Formerly RCW 75.46.010.]

### 77.85.020 Consolidated report on salmon recovery and watershed health.

(1) Beginning December 2010, the recreation and conservation office shall produce a biennial report on the statewide status of salmon recovery and watershed health, summarize projects and programs funded by the salmon recovery funding board, and summarize progress as measured by high-level indicators and state agency compliance with applicable protocols established by the forum for monitoring salmon recovery and watershed health. The report must be a consolidation of the current reporting activities, including the salmon recovery funding board and the forum on monitoring salmon recovery and watershed health, on the status of salmon recovery and watershed health in Washington state, in accordance with RCW 77.85.250(8). The report shall also include a high-level status report on watershed planning efforts under chapter 90.82 RCW as summarized by the department of ecology and on salmon recovery and watershed planning as summarized by the Puget Sound partnership. The report’s introduction must include a list of high-level questions related to the status of watershed health and salmon recovery to help decision makers and the public respond to salmon recovery and watershed health management needs.

(2) The department, the department of ecology, the department of natural resources, and the state conservation commission shall provide to the recreation and conservation office information requested by the office necessary to prepare the consolidated report on salmon recovery and watershed health. [2009 c 345 § 4; 2007 c 444 § 2; 2005 c 309 § 3; 1998 c 246 § 4. Formerly RCW 75.46.030.]

77.85.040 Independent science panel on salmon recovery—Purpose. (1) The governor may request the Washington academy of sciences, when organized pursuant to chapter 305, Laws of 2005, to impanel an independent science panel on salmon recovery to respond to requests for review pursuant to subsection (2) of this section. The panel shall reflect expertise in habitat requirements of salmon, protection and restoration of salmon populations, artificial propagation of salmon, hydrology, or geomorphology.

Based upon available funding, the governor’s salmon recovery office may contract for services of the independent science panel for compensation under chapter 39.29 RCW.

(2) The independent science panel shall be governed by guidelines and practices governing the activities of the Washington academy of sciences. The purpose of the independent science panel is to help ensure that sound science is used in salmon recovery efforts. The governor’s salmon recovery office may, during the time it is constituted, request that the panel review, investigate, and provide its findings on scientific questions relating to the state’s salmon recovery efforts. The science panel does not have the authority to review individual projects or habitat project lists developed under RCW 77.85.050 or 77.85.060 or to make policy decisions. The committee shall also identify potential federal, state, local, and private funding sources.

(2) The area covered by the habitat project list must be based, at a minimum, on a WRIA, combination of WRias, or any other area as agreed to by the counties, cities, and tribes in resolutions or in letters of support meeting the requirements of this subsection. Preference will be given to projects in an area that contain a salmon species that is listed or proposed for listing under the federal endangered species act.
(3) The lead entity shall submit the habitat project list to the salmon recovery funding board in accordance with procedures adopted by the board.

(4) The recreation and conservation office shall administer funding to support the functions of lead entities. [2009 c 345 § 3; 2009 c 333 § 25; 2005 c 309 § 6; 1999 sp.s. c 13 § 11; 1998 c 246 § 7. Formerly RCW 75.46.060.]

The governor shall appoint one of the general public members of the board as the chair. The voting members of the board shall be appointed for terms of four years, except that two members initially shall be appointed for terms of two years and three members shall initially be appointed for terms of three years. In making the appointments, the governor shall seek a board membership that collectively provide the expertise necessary to provide strong fiscal oversight of salmon recovery expenditures, and that provide extensive knowledge of local government processes and functions and an understanding of issues relevant to salmon recovery in
Washington state. The governor shall appoint at least three of the voting members of the board no later than ninety days after July 1, 1999. Vacant positions on the board shall be filled in the same manner as the original appointments. The governor may remove members of the board for good cause.

In addition to the five voting members of the board, the following five state officials shall serve as ex officio nonvoting members of the board: The director of the department of fish and wildlife, the executive director of the conservation commission, the secretary of transportation, the director of the department of ecology, and the commissioner of public lands. The state officials serving in an ex officio capacity may designate a representative of their respective agencies to serve on the board in their behalf. 77.85.120 Board responsibilities—Grants and loans administration assistance. (1) The salmon recovery funding board shall develop procedures and criteria for allocation of funds for salmon habitat projects and salmon recovery activities on a statewide basis to address the highest priorities for salmon habitat protection and restoration. To the extent practicable the board shall adopt an annual allocation of funding. The allocation should address both protection and restoration of habitat, and should recognize the varying needs in each area of the state on an equitable basis. The board has the discretion to partially fund, or to fund in phases, salmon habitat projects. The board may annually establish a maximum amount of funding available for any individual project, subject to available funding. No projects required solely as a mitigation or a condition of permitting are eligible for funding.

(2)(a) In evaluating, ranking, and awarding funds for projects and activities the board shall give preference to projects that:

(i) Are based upon the limiting factors analysis identified under RCW 77.85.060;

(ii) Provide a greater benefit to salmon recovery based upon the stock status information contained in the department of fish and wildlife salmonid stock inventory (SASSI), the salmon and steelhead habitat inventory and assessment project (SSHIAP), and any comparable science-based assessment when available;

(iii) Will benefit listed species and other fish species;

(iv) Will preserve high quality salmonid habitat;

(v) Are included in a regional or watersheds-based salmon recovery plan that accords the project, action, or area a high priority for funding;

(vi) Are, except as provided in RCW 77.85.240, sponsored by an entity that is a Puget Sound partner, as defined in RCW 90.71.010; and

(vii) Are projects referenced in the action agenda developed by the Puget Sound Partnership under RCW 90.71.310.

(b) In evaluating, ranking, and awarding funds for projects and activities the board shall give consideration to projects that:

(i) Are the most cost-effective;

(ii) Have the greatest matched or in-kind funding;

(iii) Will be implemented by a sponsor with a successful record of project implementation;

(iv) Involve members of the veterans conservation corps established in RCW 43.60A.150; and

(v) Are part of a regionwide list developed by lead entities.

(3) The board may reject, but not add, projects from a habitat project list submitted by a lead entity for funding.

(4) The board shall establish criteria for determining when block grants may be made to a lead entity. The board may provide block grants to the lead entity to implement habitat project lists developed under RCW 77.85.050, subject to available funding. The board shall determine an equitable minimum amount of project funds for each recovery region, and shall distribute the remainder of funds on a competitive basis. The board may also provide block grants to the lead entity or regional recovery organization to assist in carrying out functions described under this chapter. Block grants must be expended consistent with the priorities established for the board in subsection (2) of this section. Lead entities or regional recovery organizations receiving block grants under this subsection shall provide an annual report to the board summarizing how funds were expended for activities consis-
tent with this chapter, including the types of projects funded, project outcomes, monitoring results, and administrative costs.

(5) The board may waive or modify portions of the allocation procedures and standards adopted under this section in the award of grants or loans to conform to legislative appropriations directing an alternative award procedure or when the funds to be awarded are from federal or other sources requiring other allocation procedures or standards as a condition of the board’s receipt of the funds. The board shall develop an integrated process to manage the allocation of funding from federal and state sources to minimize delays in the award of funding while recognizing the differences in state and legislative appropriation timing.

(6) The board may award a grant or loan for a salmon recovery project on private or public land when the landowner has a legal obligation under local, state, or federal law to perform the project, when expedited action provides a clear benefit to salmon recovery, and there will be harm to salmon recovery if the project is delayed. For purposes of this subsection, a legal obligation does not include a project required solely as a mitigation or a condition of permitting.

(7) Property acquired or improved by a project sponsor may be conveyed to a federal agency if: (a) The agency agrees to comply with all terms of the grant or loan to which the project sponsor was obligated; or (b) the board approves: (i) Changes in the terms of the grant or loan, and the revision or removal of binding deed of right instruments; and (ii) a memorandum of understanding or similar document ensuring that the facility or property will retain, to the extent feasible, adequate habitat protections; and (c) the appropriate legislative authority of the county or city with jurisdiction over the project area approves the transfer and provides notification to the board.

(8) Any project sponsor receiving funding from the salmon recovery funding board that is not subject to disclosure under chapter 42.56 RCW must, as a mandatory contractual prerequisite to receiving the funding, agree to disclose any information in regards to the expenditure of that funding as if the project sponsor was subject to the requirements of chapter 42.56 RCW.

(9) After January 1, 2010, any project designed to address the restoration of Puget Sound may be funded under this chapter only if the project is not in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310. 77.85.135 Habitat project funding—Statement of environmental benefits—Development of outcome-focused performance measures. In providing funding for habitat projects, the salmon recovery funding board shall require recipients to incorporate the environmental benefits of the project into their grant applications, and the board shall utilize the statement of environmental benefits in its prioritization and selection process. The board shall also develop appropriate outcome-focused performance measures to be used both for management and performance assessment of the grant program. To the extent possible, the board should coordinate its performance measure system with other natural resource-related agencies as defined in RCW 43.41.270. The board shall consult with affected interest groups in implementing this section. [2001 c 227 § 9.]

Findings—Intent—2001 c 227: See note following RCW 43.41.270.

77.85.140 Habitat project lists—Tracking of funds. (1) Habitat project lists shall be submitted to the salmon recovery funding board for funding at least once a year on a schedule established by the board. The board shall provide the legislature with a list of the proposed projects and a list of the projects funded by October 1st of each year for informational purposes. Project sponsors who complete salmon habitat projects approved for funding from habitat project lists and have met grant application deadlines will be paid by the salmon recovery funding board within thirty days of project completion.

(2) The recreation and conservation office shall track all funds allocated for salmon habitat projects and salmon recovery activities on behalf of the board, including both funds allocated by the board and funds allocated by other state or federal agencies for salmon recovery or water quality improvement. 77.85.150 Statewide salmon recovery strategy—Prospective application. (1) The governor shall, with the assistance of the governor’s salmon recovery office, maintain and revise, as appropriate, a statewide salmon recovery strategy.

(2) The governor and the governor’s salmon recovery office shall be guided by the following considerations in maintaining and revising the strategy:

(a) The strategy should identify statewide initiatives and responsibilities with regional recovery plans and local watershed initiatives as the principal means for implementing the strategy;

(b) The strategy should emphasize collaborative, incentive-based approaches;

(c) The strategy should address all factors limiting the recovery of Washington’s listed salmon stocks, including habitat and water quality degradation, harvest and hatchery management, inadequate streamflows, and other barriers to fish passage. Where other limiting factors are beyond the
77.85.180  Findings. (1) The legislature finds that the forests and fish report as defined in RCW 76.09.020 was developed through extensive negotiations with the federal agencies responsible for administering the endangered species act and the clean water act. The legislature further finds that the forestry industry, small landowners, tribal governments, state and federal agencies, and counties have worked diligently for nearly two years to reach agreement on scientifically based changes to the forest practices rules, set forth in the forests and fish report as defined in RCW 76.09.020. The legislature further finds that if existing forest practices rules are amended as proposed in the forests and fish report as defined in RCW 76.09.020, the resulting changes in forest practices (a) will lead to: (i) Salmon habitat that meets riparian functions vital to the long-term recovery of salmon on more than sixty thousand miles of streams in this state; (ii) identification of forest roads contributing to habitat degradation and corrective action to remedy those problems to protect salmon habitat; (iii) increased protection of steep and unstable slopes; and (iv) the implementation of scientifically based adaptive management and monitoring processes for evaluating the impacts of forest practices on aquatic resources, as defined in RCW 76.09.020, and a process for amending the forest practices rules to incorporate new information as it becomes available; (b) will lead to the protection of aquatic resources to the maximum extent practicable consistent with maintaining commercial forest management as an economically viable use of lands suitable for that purpose; and (c) will provide a regulatory climate and structure more likely to keep landowners from converting forest lands to other uses that would be less desirable for salmon recovery.

(2) The legislature further finds that the changes in laws and rules contemplated by chapter 4, Laws of 1999 sp. sess., taken as a whole, constitute a comprehensive and coordinated program to provide substantial and sufficient contributions to salmon recovery and water quality enhancement in areas impacted by forest practices and are intended to fully satisfy the requirements of the endangered species act (16 U.S.C. Sec. 1531 et seq.) with respect to incidental take of salmon and other aquatic resources and the clean water act (33 U.S.C. Sec. 1251 et seq.) with respect to nonpoint source pollution attributable to forest practices.

(3) The legislature finds that coordination is needed between the laws relating to forestry in chapter 76.09 RCW and the state salmon recovery strategy being developed under this chapter. The coordination should ensure that nonfederal forest lands are managed in ways that make appropriate contributions to the recovery of salmonid fish, water quality, and related environmental amenities while encouraging continued investments in those lands for commercial forestry purposes. Specifically, the legislature finds that forest practices rules relating to water quality, salmon, certain other species of fish, certain species of stream-associated amphibians, and their respective habitats should be coordinated with the rules and policies relating to other land uses through the statewide salmon recovery planning process. The legislature further finds that this subchapter is but one part of a comprehensive salmon strategy as required in this chapter, and this investment in salmon habitat will be of little value if a comprehensive state plan is not completed and fully implemented.
Title 77 RCW: Fish and Wildlife

(4) The legislature recognizes that the adoption of forest practices rules consistent with the forests and fish report as defined in RCW 76.09.020 will impose substantial financial burdens on forest landowners which, if not partially offset through other changes in the laws and rules governing forestry, could lead to significantly reduced silvicultural investments on nonfederal lands, deterioration in the quality, condition, and amounts of forests on those lands, and long-term adverse effects on fish and wildlife habitat and other environmental amenities associated with well managed forests. Moreover, as the benefits of the proposed revisions to the forest practices rules will benefit the general public, chapter 4, Laws of 1999 sp. sess. suggests that some of these costs be shared with the general public.

(5) As an integral part of implementing the salmon recovery strategy, chapter 4, Laws of 1999 sp. sess. (a) provides direction to the forest practices board, the department of natural resources, and the department of ecology with respect to the adoption, implementation, and enforcement of rules relating to forest practices and the protection of aquatic resources; (b) provides additional enforcement tools to the department of natural resources to enforce the forest practices rules; (c) anticipates the need for adequate and consistent funding for the various programmatic elements necessary to fully implement the strategy over time and derive the long-term benefits; (d) provides for the acquisition by the state of forest lands within certain stream channel migration zones where timber harvest will not be allowed; (e) provides for small landowners to have costs shared for a portion of any extraordinary economic losses attributable to the revisions to the forest practices rules required by chapter 4, Laws of 1999 sp. sess.; and (f) amends other existing laws to aid in the implementation of the recommendations set forth in the forests and fish report as defined in RCW 76.09.020. 77.85.190 Federal assurances in forests and fish report—Events constituting failure of assurances—Governor's authority to negotiate. (1) Chapter 4, Laws of 1999 sp. sess. has been enacted on the assumption that the federal assurances described in the forests and fish report as defined in RCW 76.09.020 will be obtained and that forest practices conducted in accordance with chapter 4, Laws of 1999 sp. sess. and the rules adopted under chapter 4, Laws of 1999 sp. sess. will not be subject to additional regulations or restrictions for aquatic resources except as provided in the forests and fish report.

(2) The occurrence of any of the following events shall constitute a failure of assurances:

(a) Either (i) the national marine fisheries service or the United States fish and wildlife service fails to promulgate an effective rule under 16 U.S.C. Sec. 1532(d) covering any aquatic resource that would preclude the conduct of forest practices consistent with the prescriptions outlined in the forests and fish report. However, this subsection (2)(a) is not applicable to any aquatic resource covered by an incidental take permit described in (c) of this subsection;

(b) Either the national marine fisheries service or the United States fish and wildlife service shall promulgate an effective rule under 16 U.S.C. Sec. 1532(d) covering any aquatic resource that would preclude the conduct of forest practices consistent with the prescriptions outlined in the forests and fish report. However, this subsection (2)(b) is not applicable to any aquatic resource covered by an incidental take permit described in (c) of this subsection;

(c) Either the secretary of the interior or the secretary of commerce fails to issue an acceptable incidental take permit under 16 U.S.C. Sec. 1539(a) covering all fish and wildlife species included within aquatic resources on or before June 30, 2005. An acceptable incidental take permit will (i) permit the incidental take, if any, of all fish and wildlife species included within aquatic resources resulting from the conduct of forest practices in compliance with the prescriptions outlined in the forests and fish report; (ii) provide protection to the state of Washington and its subdivisions and to landowners and operators; (iii) not require the commitment of additional resources beyond those required to be committed under the forests and fish report; and (iv) provide "no-surprises" protection as described in 50 C.F.R. Parts 17 and 222 (1998);

(d) Either the national marine fisheries service or the United States fish and wildlife service fails to promulgate an effective rule under 16 U.S.C. Sec. 1532(d) within five years after the date on which a fish species is listed as threatened or endangered under the endangered species act which prohibits actions listed under 16 U.S.C. 1538;

(e) The environmental protection agency or department of ecology fails to provide the clean water act assurances described in appendix M to the forests and fish report; or

(f) The assurances described in (a) through (e) of this subsection are reversed or otherwise rendered ineffective by subsequent federal legislation or rule making or by final decision of any court of competent jurisdiction.

Upon the occurrence of a failure of assurances, any agency, tribe, or other interested person including, without limitation, any forest landowner, may provide written notice of the occurrence of such failure of assurances to the legislature and to the office of the governor. Promptly upon receipt of such a notice, the governor shall review relevant information and if he or she determines that a failure of assurances has occurred, the governor shall make such a finding in a written report with recommendations and deliver such report to the legislature. Upon notice of the occurrence of a failure of assurances, the legislature shall review chapter 4, Laws of 1999 sp. sess., all rules adopted by the forest practices board, the department of ecology, or the department of fish and wildlife at any time after January 1, 1999, that were adopted primarily for the protection of one or more aquatic resources and affect forest practices and the terms of the forests and fish report, and shall take such action, including the termination of funding or the modification of other statutes, as it deems appropriate.

(3) The governor may negotiate with federal officials, directly or through designated representatives, on behalf of
the state and its agencies and subdivisions, to obtain assurances from federal agencies to the effect that compliance with the forest practices rules as amended under chapter 4, Laws of 1999 sp. sess. and implementation of the recommendations in the forests and fish report will satisfy federal requirements under the endangered species act and the clean water act and related regulations, including the negotiation of a rule adopted under section 4(d) of the endangered species act, entering into implementation agreements and receiving incidental take permits under section 10 of the endangered species act or entering into other intergovernmental agreements.

(4)(a) It is expressly understood that the state will pursue a rule delineating federal assurances under 16 U.S.C. Sec. 1533(d) and may concurrently develop a Sec. 10(a) habitat conservation plan by June 2005. The department of natural resources must report regularly to the house of representatives and senate natural resources committees on the progress of the program, and on any technical or legal issues that may arise.

(b) The forest and fish agreement as embodied in chapter 4, Laws of 1999 sp. sess. and this chapter, the rules adopted by the forest practices board to implement this chapter, and all protections for small forest landowners, are reaffirmed as part of the extension of time granted in chapter 228, Laws of 1999 sp. sess. and this chapter, the rules adopted under section 4(d) of the endangered species act, entering into implementation agreements and receiving incidental take permits under section 10 of the endangered species act or entering into other intergovernmental agreements.

(77.85.200) Salmon and steelhead recovery program—Management board—Duties. (1) A program for salmon and steelhead recovery is established in Clark, Cowlitz, Lewis, Skamania, and Wahkiakum counties within the habitat areas classified as the lower Columbia evolutionarily significant units by the federal national marine fisheries service. The management board created under subsection (2) of this section is responsible for developing and overseeing the implementation of the habitat portion of the salmon and steelhead recovery plan and is empowered to receive and disburse funds for the salmon and steelhead recovery initiatives. The management board created pursuant to this section shall constitute the lead entity and the committee established under RCW 77.85.050 responsible for fulfilling the requirements and exercising powers under this chapter.

(2) A management board consisting of fifteen voting members is created within the lower Columbia evolutionarily significant units. The members shall consist of one county commissioner or designee from each of the five participating counties selected by each county legislative authority; one member representing the cities contained within the lower Columbia evolutionarily significant units as a voting member selected by the cities in the lower Columbia evolutionarily significant units; a representative of the Cowlitz Tribe appointed by the tribe; one state legislator elected from one of the legislative districts contained within the lower Columbia evolutionarily significant units selected by that group of state legislators representing the area; five representatives to include at least one member who represents private property interests appointed by the five county commissioners or designees; one hydro utility representative nominated by hydro utilities and appointed by the five county commissioners or designees; and one representative nominated from the environmental community who resides in the lower Columbia evolutionarily significant units appointed by the five county commissioners or designees. The board shall appoint and consult a technical advisory committee, which shall include four representatives of state agencies one each appointed by the directors of the departments of ecology, fish and wildlife, and transportation, and the commissioner of public lands. The board may also appoint additional persons to the technical advisory committee as needed. The chair of the board shall be selected from among the members of the management board by the five county commissioners or designees and the legislator on the board. In making appointments under this subsection, the county commissioners shall consider recommendations of interested parties. Vacancies shall be filled in the same manner as the original appointments were selected. No action may be brought or maintained against any management board member, the management board, or any of its agents, officers, or employees for any noncontractual acts or omissions in carrying out the purposes of this section.

(3)(a) The management board shall participate in the development of a habitat recovery plan to implement its responsibilities under (b) of this subsection. The management board shall consider local watershed efforts and activities as well as habitat conservation plans in the development and implementation of the recovery plan. Any of the participating counties may continue its own efforts for restoring steelhead habitat. Nothing in this section limits the authority of units of local government to enter into interlocal agreements under chapter 39.34 RCW or any other provision of law.

(b) The management board is responsible for the development of a lower Columbia salmon and steelhead habitat recovery plan and for coordinating and monitoring the implementation of the plan. The management board will submit all future plans and amendments to plans to the governor’s salmon recovery office for the incorporation of hatchery, harvest, and hydropower components of the statewide salmon recovery strategy for all submissions to the national marine fisheries service. In developing and implementing the habitat recovery plan, the management board will work with appropriate federal and state agencies, tribal governments, local governments, and the public to make sure hatchery, harvest, and hydropower components receive consideration in context with the habitat component. The management board may work in cooperation with the state and the national marine fisheries service to modify the plan, or to address habitat for other aquatic species that may be subsequently listed under the federal endangered species act. The management board may not exercise authority over land or water within the individual counties or otherwise preempt the authority of any units of local government.

(c) The management board shall prioritize as appropriate and approve projects and programs related to the recovery of lower Columbia river salmon and steelhead runs, including the funding of those projects and programs, and coordinate local government efforts as prescribed in the recovery plan. The management board shall establish criteria for funding projects and programs based upon their likely value in

(2010 Ed.)
salmon and steelhead recovery. The management board may consider local economic impact among the criteria, but jurisdictional boundaries and factors related to jurisdictional population may not be considered as part of the criteria.

(d) The management board shall assess the factors for decline along each tributary basin in the lower Columbia. The management board is encouraged to take a stream-by-stream approach in conducting the assessment which utilizes state and local expertise, including volunteer groups, interest groups, and affected units of local government.

(4) The management board has the authority to hire and fire staff, including an executive director, enter into contracts, accept grants and other moneys, disburse funds, make recommendations to cities and counties about potential code changes and the development of programs and incentives upon request, pay all necessary expenses, and may choose a fiduciary agent. The management board shall report on its progress on a biennial basis to the legislative bodies of the five participating counties and the state natural resource-related agencies. The management board shall prepare a final report at the conclusion of the program describing its efforts and successes in developing and implementing the lower Columbia salmon and steelhead recovery plan. The final report shall be transmitted to the appropriate committees of the legislature, the legislative bodies of the participating counties, and the state natural resource-related agencies.

(5) For purposes of this section, "evolutionarily significant unit" means the habitat area identified for an evolutionarily significant unit of an aquatic species listed or proposed for listing as a threatened or endangered species under the federal endangered species act (16 U.S.C. Sec. 1531 et seq.).

Effective date—2001 c 135: "This act takes effect August 1, 2001." [2001 c 135 § 3.]

Finding—Intent—1998 c 60: "The legislature recognizes the need to address listings that are made under the federal endangered species act (16 U.S.C. Sec. 1531 et seq.) in a way that will make the most efficient use of existing efforts. The legislature finds that the principle of adaptive management requires that different models should be tried so that the lessons learned from these models can be put to use throughout the state. It is the intent of the legislature to create a program for southwestern Washington to address the recent steelhead listings and which takes full advantage of all state and local efforts at habitat restoration in that area to date." ### 77.85.230 Intertidal salmon enhancement plan—Elements—Initial and final plan.

(1) In consultation with the
appropriate task force formed under RCW 77.85.220, the conservation commission may contract with universities, private consultants, nonprofit groups, or other entities to assist it in developing a plan incorporating the following elements:

(a) An inventory of existing tide gates located on streams in the county. The inventory shall include location, age, type, and maintenance history of the tide gates and other factors as determined by the appropriate task force in consultation with the county and diking and drainage districts;

(b) An assessment of the role of tide gates located on streams in the county; the role of intertidal fish habitat for various life stages of salmon; the quantity and characterization of intertidal fish habitat currently accessible to fish; the quantity and characterization of the present intertidal fish habitat created at the time the dikes and outlets were constructed; the quantity of potential intertidal fish habitat on public lands and alternatives to enhance this habitat; the effects of saltwater intrusion on agricultural land, including the effects of backfeeding of saltwater through the underground drainage system; the role of tide gates in drainage systems, including relieving excess water from saturated soil and providing reservoir functions between tides; the effect of saturated soils on production of crops; the characteristics of properly functioning intertidal fish habitat; a map of agricultural lands designated by the county as having long-term commercial significance and the effect of that designation; and the economic impacts to existing land uses for various alternatives for tide gate alteration; and

(c) A long-term plan for intertidal salmon habitat enhancement to meet the goals of salmon recovery and protection of agricultural lands. The proposal shall consider all other means to achieve salmon recovery without converting farmland. The proposal shall include methods to increase fish passage and otherwise enhance intertidal habitat on public lands pursuant to subsection (2) of this section, voluntary methods to increase fish passage on private lands, a priority list of intertidal salmon enhancement projects, and recommendations for funding of high priority projects. The task force also may propose pilot projects that will be designed to test and measure the success of various proposed strategies.

(2) In conjunction with other public landowners and the appropriate task force formed under RCW 77.85.220, the department shall develop an initial salmon intertidal habitat enhancement plan for public lands in the county. The initial plan shall include a list of public properties in the intertidal zone that could be enhanced for salmon, a description of how those properties could be altered to support salmon, a description of costs and sources of funds to enhance the property, and a strategy and schedule for prioritizing the enhancement of public lands for intertidal salmon habitat. This initial plan shall be submitted to the appropriate task force at least six months before the deadline established in subsection (3) of this section.

(3) The final intertidal salmon enhancement plan shall be completed within two years from the date the task force is formed under RCW 77.85.220 and funding has been secured. A final plan shall be submitted by the appropriate task force to the lead entity for the geographic area established under this chapter. [2009 c 333 § 24; 2003 c 391 § 5.]

Initiation of process—2003 c 391 §§ 4 and 5: See note following RCW 77.85.220.
(5) The forum on monitoring salmon recovery and watershed health shall periodically report to the governor and the appropriate standing committees of the senate and house of representatives on the forum’s activities and recommendations for improving monitoring programs by state agencies. This information must be included within the consolidated report on salmon recovery and watershed health required by RCW 77.85.020.

(6) The forum on monitoring salmon recovery and watershed health shall review pilot monitoring programs including those that integrate (a) data collection, management, and access; and (b) information regarding habitat projects and project management.

(7) The forum on monitoring salmon recovery and watershed health shall review and make recommendations to the office of financial management and the appropriate legislative committees on agency budget requests related to monitoring salmon recovery and watershed health. These recommendations must be made no later than September 15th of each year. The goal of this review is to prioritize and integrate budget requests across agencies.

(8)(a) The forum on monitoring salmon recovery and watershed health shall adopt general high-level indicators for salmon recovery and watershed health in Washington by December 1, 2009. By July 1, 2010, the forum shall also adopt the protocols for monitoring these high-level indicators that will enable state-conducted or state-funded monitoring efforts to be capable of reporting results that will ensure reporting consistency and agency compliance under the consolidated reporting requirement of RCW 77.85.020. The forum on monitoring salmon recovery and watershed health shall indicate how the general high-level indicators are consistent with, and complement, the more detailed regional and local metrics used to measure watershed health and salmon recovery.

(b) High-level indicators shall inform a nontechnical summary of key metrics that indicate the state of salmon recovery and provide an index of watershed health in Washington.

(9) This section expires June 30, 2011. [2009 c 345 § 5; 2007 c 444 § 8.]

**Legislative findings.** Currently, many of the salmon stocks of Washington state are critically reduced from their sustainable level. The best interests of all fishing groups and the citizens as a whole are served by a stable and productive salmon resource. Immediate action is needed to reverse the severe decline of the resource and to insure its very survival. The legislature finds a state of emergency exists and that immediate action is required to restore its fishery.

Disagreement and strife have dominated the salmon fisheries for many years. Conflicts among the various fishing interests have only served to erode the resource. It is time for the state of Washington to make a major commitment to increasing productivity of the resource and to move forward with an effective rehabilitation and enhancement program. The commission is directed to dedicate its efforts and the efforts of the department to seek resolution to the many conflicts that involve the resource.

Success of the enhancement program can only occur if projects efficiently produce salmon or restore habitat. The expectation of the program is to optimize the efficient use of funding on projects that will increase artificially and naturally produced salmon, restore and improve habitat, or identify ways to increase the survival of salmon. The full utilization of state resources and cooperative efforts with interested groups are essential to the success of the program. [1995 1st sp.s. c 2 § 33 (Referendum Bill No. 45, approved November 7, 1995); 1993 sp.s. c 2 § 45; 1985 c 458 § 1. Formerly RCW 75.50.010.]

[Title 77 RCW—page 131]
77.95.020 Long-term regional policy statements. (1) The commission shall develop long-term regional policy statements regarding the salmon fishery resources before December 1, 1985. The commission shall consider the following in formulating and updating regional policy statements:

(a) Existing resource needs;
(b) Potential for creation of new resources;
(c) Successful existing programs, both within and outside the state;
(d) Balanced utilization of natural and hatchery production;
(e) Desires of the fishing interest;
(f) Need for additional data or research;
(g) Federal court orders; and
(h) Salmon advisory council recommendations.

(2) The commission shall review and update each policy statement at least once each year. [1995 1st sp.s. c 2 § 34 (Referendum Bill No. 45, approved November 7, 1995); 1985 c 458 § 2. Formerly RCW 75.50.020.]

77.95.030 Salmon enhancement plan—Enhancement projects. (1) The commission shall develop a detailed salmon enhancement plan with proposed enhancement projects. The plan and the regional policy statements shall be submitted to the secretary of the senate and chief clerk of the house of representatives for legislative distribution by June 30, 1986. The enhancement plan and regional policy statements shall be provided by June 30, 1986, to the natural resources committees of the house of representatives and the senate. The commission shall provide a maximum opportunity for the public to participate in the development of the salmon enhancement plan. To insure full participation by all interested parties, the commission shall solicit and consider enhancement project proposals from Indian tribes, sports fishermen, commercial fishermen, private aquaculturists, and other interested groups or individuals for potential inclusion in the salmon enhancement plan. Joint or cooperative enhancement projects shall be considered for funding.

(2) The following criteria shall be used by the commission in formulating the project proposals:

(a) Compatibility with the long-term policy statement;
(b) Benefit/cost analysis;
(c) Needs of all fishing interests;
(d) Compatibility with regional plans, including harvest management plans;
(e) Likely increase in resource productivity;
(f) Direct applicability of any research;
(g) Salmon advisory council recommendations;
(h) Compatibility with federal court orders;
(i) Coordination with the salmon and steelhead advisory commission program;
(j) Economic impact to the state;
(k) Technical feasibility; and
(l) Preservation of native salmon runs.

(3) The commission shall not approve projects that serve as replacement funding for projects that exist prior to May 21, 1985, unless no other sources of funds are available.

(4) The commission shall prioritize various projects and establish a recommended implementation time schedule.

77.95.040 Commission to monitor enhancement projects and enhancement plan. Upon approval by the legislature of funds for its implementation, the commission shall monitor the progress of projects detailed in the salmon enhancement plan.

The commission shall be responsible for establishing criteria which shall be used to measure the success of each project in the salmon enhancement plan. [1995 1st sp.s. c 2 § 36 (Referendum Bill No. 45, approved November 7, 1995); 1985 c 458 § 4. Formerly RCW 75.50.040.]

77.95.050 "Enhancement project" defined. As used in this chapter, "enhancement project" means salmon propagation activities including, but not limited to, hatcheries, spawning channels, rearing ponds, egg boxes, fishways, fish screens, stream bed clearing, erosion control, habitat restoration, net pens, applied research projects, and any equipment, real property, or other interest necessary to the proper operation thereof. [1985 c 458 § 6. Formerly RCW 75.50.060.]

77.95.060 Regional fisheries enhancement group authorized. The legislature finds that it is in the best interest of the salmon resource of the state to encourage the development of regional fisheries enhancement groups. The accomplishments of one existing group, the Grays Harbor fisheries enhancement task force, have been widely recognized as being exemplary. The legislature recognizes the potential benefits to the state that would occur if each region of the state had a similar group of dedicated citizens working to enhance the salmon resource.

The legislature authorizes the formation of regional fisheries enhancement groups. These groups shall be eligible for state financial support and shall be actively supported by the commission and the department. The regional groups shall be operated on a strictly nonprofit basis, and shall seek to maximize the efforts of volunteer and private donations to improve the salmon resource for all citizens of the state. [1995 1st sp.s. c 2 § 38 (Referendum Bill No. 45, approved November 7, 1995); 1993 sp.s. c 2 § 46; 1989 c 426 § 1. Formerly RCW 75.50.070.]

77.95.070 Regional fisheries enhancement groups—Goals. Regional fisheries enhancement groups, consistent with the long-term regional policy statements developed under RCW 77.95.020, shall seek to:

(1) Enhance the salmon and steelhead resources of the state;
(2) Maximize volunteer efforts and private donations to improve the salmon and steelhead resources for all citizens;
(3) Assist the department in achieving the goal to double the statewide salmon and steelhead catch by the year 2000; and
77.95.080 Regional fisheries enhancement groups—Incorporation prerequisites. Each regional fisheries enhancement group shall be incorporated pursuant to Title 24 RCW. Any interested person or group shall be permitted to join. It is desirable for the group to have representation from all categories of fishers and other parties that have interest in salmon within the region, as well as the general public. [1990 c 58 § 2. Formerly RCW 75.50.090.]

Findings—1990 c 58: "The legislature finds that: (1) It is in the best interest of the state to encourage nonprofit regional fisheries enhancement groups authorized in RCW 75.50.070 to participate in enhancing the state’s salmon population, including, but not limited to, salmon research, increased natural and artificial production, and through habitat improvement; (2) such regional fisheries enhancement groups interested in improving salmon habitat and rearing salmon shall be eligible for financial assistance; (3) such regional fisheries enhancement groups should seek to maximize the efforts of volunteer personnel and private donations; (4) this program will assist the state in its goal to double the salmon catch by the year 2000; (5) this program will benefit both commercial and recreational fisheries and improve cooperative efforts to increase salmon production through a coordinated approach with similar programs in other states and Canada; and (6) the Grays Harbor fisheries enhancement task force’s exemplary performance in salmon enhancement provides a model for establishing regional fisheries enhancement groups by rule adopted under RCW 75.50.070, 75.50.080, and 75.50.090 through 75.50.110." [1990 c 58 § 1.]

77.95.090 Regional fisheries enhancement group account—Revenue sources, uses, and limitations. The dedicated regional fisheries enhancement group account is created in the custody of the state treasurer. Only the commission or the commission’s designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but no appropriation is required for expenditures.

A portion of each recreational fishing license fee shall be used as provided in RCW 77.32.440. A surcharge of one hundred dollars shall be collected on each commercial salmon fishery license, each salmon delivery license, and each salmon charter license sold in the state. All receipts shall be placed in the regional fisheries enhancement group account and shall be used exclusively for regional fisheries enhancement group projects for the purposes of *RCW 77.95.110. Except as provided in RCW 77.95.320, funds from the regional fisheries enhancement group account shall not serve as replacement funding for department operated salmon projects that exist on January 1, 1991.

All revenue from the department’s sale of salmon carcasses and eggs that return to group facilities shall be deposited in the regional fisheries enhancement group account for use by the regional fisheries enhancement group that produced the surplus. The commission shall adopt rules to implement this section pursuant to chapter 34.05 RCW. [2009 c 340 § 4; 2000 c 107 § 106. Prior: 1998 c 245 § 155; 1998 c 191 § 27; 1995 1st sps. c 2 § 39 (Referendum Bill No. 45, approved November 7, 1995); prior: 1993 sps. c 17 § 11; 1993 c 340 § 53; 1990 c 58 § 3. 77.95.100 Regional fisheries enhancement groups—Start-up funds. The department may provide start-up funds to regional fisheries enhancement groups for costs associated with any enhancement project. The commission shall develop guidelines for providing funds to the regional fisheries enhancement groups. [2010 1st sp.s. c 7 § 82; 2000 c 107 § 107; 1997 c 389 § 2. Formerly RCW 75.50.105.]

Effective date—2010 1st sp.s. c 26; 2010 1st sp.s. c 7: See note following RCW 43.03.027.

Findings—1997 c 389: "(1) The legislature finds that:

(a) Currently, many of the salmon stocks on the Washington coast and in Puget Sound are severely depressed and may soon be listed under the federal endangered species act.

(b) Immediate action is needed to reverse the severe decline of this resource and ensure its very survival.

(c) The cooperation and participation of private landowners is crucial in efforts to restore and enhance salmon populations.

(d) Regional fisheries enhancement groups have been exceptionally successful in their efforts to work with private landowners to restore and enhance salmon habitat on private lands.

(e) State funding for regional fisheries enhancement groups has been declining and is a significant limitation to current fisheries enhancement and habitat restoration efforts.

(f) Therefore, a stable funding source is essential to the success of the regional enhancement groups and their efforts to work cooperatively with private landowners to restore salmon resources.

(2) The legislature further finds that:

(a) The increasing population and continued development throughout the state, and the transportation system needed to serve this growth, have exacerbated problems associated with culverts, creating barriers to fish passage.

(b) These barriers obstruct habitat and have resulted in reduced production and survival of anadromous and resident fish at a time when salmonid stocks continue to decline.

(c) Current state laws do not appropriately direct resources for the correction of fish passage obstructions related to transportation facilities.

(d) Current fish passage management efforts related to transportation projects lack necessary coordination on a watershed, regional, and statewide basis, have inadequate funding, and fail to maximize use of available resources.

(e) Therefore, the legislature finds that the department of transportation and the department of fish and wildlife should work with state, tribal, local government, and volunteer entities to develop a coordinated, watershed-based fish passage barrier removal program." [1997 c 389 § 1.]

77.95.130 Regional fisheries enhancement salmonid recovery account—Created. The regional fisheries enhancement salmonid recovery account is created in the state treasury. All receipts from federal sources and moneys from state sources specified by law must be deposited into the account. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used for the sole purpose of fisheries enhancement and habitat restoration by regional fisheries enhancement groups. [1997 c 389 § 3. Formerly RCW 75.50.125.]

Findings—1997 c 389: See note following RCW 77.95.100.
77.95.140 Skagit river salmon recovery plan. The commission shall prepare a salmon recovery plan for the Skagit river. The plan shall include strategies for employing displaced timber workers to conduct salmon restoration and other tasks identified in the plan. The plan shall incorporate the best available technology in order to achieve maximum restoration of depressed salmon stocks. The plan must encourage the restoration of natural spawning areas and natural rearing of salmon but must not preclude the development of an active hatchery program. [1995 1st sp.s. c 2 § 41 (Referendum Bill No. 45, approved November 7, 1995); 1993 sp.s. c 2 § 48; 1992 c 88 § 1. Formerly RCW 75.50.130.]

77.95.150 Coordination with regional enhancement groups—Findings. The legislature finds that:

(1) Regional enhancement groups are a valuable resource for anadromous fish recovery. They improve critical fish habitat and directly contribute to anadromous fish populations through fish restoration technology.

(2) Due to a decrease in recreational and commercial salmon license sales, regional enhancement groups are receiving fewer financial resources at a time when recovery efforts are needed most.

(3) To maintain regional enhancement groups as an effective enhancement resource, technical assets of state agencies must be coordinated and utilized to maximize the financial resources of regional enhancement groups and overall fish recovery efforts. [1995 c 367 § 1. Formerly RCW 75.50.150.]

77.95.160 Fish passage barrier removal task force—Membership—Recommendations. The department and the department of transportation shall convene a fish passage barrier removal task force. The task force shall consist of one representative each from the department, the department of transportation, the department of ecology, tribes, cities, counties, a business organization, an environmental organization, regional fisheries enhancement groups, and other interested entities as deemed appropriate by the cochairs. The persons representing the department and the department of transportation shall serve as cochairs of the task force and shall appoint members to the task force. The task force shall make recommendations to expand the program in RCW 77.95.180 to identify and expedite the removal of human-made or caused impediments to anadromous fish passage in the most efficient manner practical. Program recommendations shall include a funding mechanism and other necessary mechanisms to coordinate and prioritize state, tribal, local, and volunteer efforts within each water resource inventory area. A priority shall be given to projects that immediately increase access to available and improved spawning and rearing habitat for depressed, threatened, and endangered stocks. The department or the department of transportation may contract with cities and counties to assist in the identification and removal of impediments to anadromous fish passage. [2000 c 107 § 110; 1997 c 389 § 6; 1995 c 367 § 2. Formerly RCW 75.50.160.]

Findings—1997 c 389: See note following RCW 77.95.100.

77.95.170 Salmonid fish passage—Removing impediments—Grant program—Administration—Database directory. (1) The department of transportation and the department of fish and wildlife may administer and coordinate all state grant programs specifically designed to assist state agencies, local governments, private landowners, tribes, organizations, and volunteer groups in identifying and removing impediments to salmonid fish passage. The transportation improvement board may administer all grant programs specifically designed to assist cities, counties, and local governments with fish passage barrier corrections associated with transportation projects. All grant programs must be administered and be consistent with the following:

(a) Salmonid-related corrective projects, inventory, assessment, and prioritization efforts;

(b) Salmonid projects subject to a competitive application process; and

(c) A minimum dollar match rate that is consistent with the funding authority’s criteria. If no funding match is specified, a match amount of at least twenty-five percent per project is required. For local, private, and volunteer projects, in-kind contributions may be counted toward the match requirement.

(2) Priority shall be given to projects that immediately increase access to available and improved spawning and rearing habitat for depressed, threatened, and endangered stocks. Priority shall also be given to project applications that are coordinated with other efforts within a watershed.

(3) Except for projects administered by the transportation improvement board, all projects shall be reviewed and approved by the fish passage barrier removal task force or an alternative oversight committee designated by the state legislature.

(4) Other agencies that administer natural resource based grant programs that may include fish passage barrier removal projects shall use fish passage selection criteria that are consistent with this section.

(5) The departments of transportation and fish and wildlife shall establish a centralized database directory of all fish passage barrier information. The database directory must include, but is not limited to, existing fish passage inventories, fish passage projects, grant program applications, and other databases. These data must be used to coordinate and assist in habitat recovery and project mitigation projects. [1999 c 242 § 4; 1998 c 249 § 16. Formerly RCW 75.50.165.]

77.95.180 Fish passage barrier removal program. To maximize available state resources, the department and the department of transportation shall work in partnership to identify cooperative projects to eliminate fish passage barriers caused by state roads and highways. The department of transportation shall provide engineering and other technical services to assist regional fisheries enhancement groups with fish passage barrier removal projects, provided that the barrier removal projects have been identified as a priority by the department of fish and wildlife and the department of transportation has received an appropriation to continue the fish
77.95.190 Field testing of remote site incubators. The department shall field test coho and chinook salmon remote site incubators. The purpose of field testing efforts shall be to gather conclusive scientific data on the effectiveness of coho and chinook remote site incubators. [2010 1st sp.s. c 7 § 84; 1995 c 367 § 10. Formerly RCW 75.50.180.]

77.95.200 Remote site incubator program—Reports to the fish and wildlife commission. (1) The department shall develop and implement a program utilizing remote site incubators in Washington state. The program shall identify sites in tributaries that are suitable for reestablishing self-sustaining, locally adapted populations of coho, chum, or chinook salmon. The initial selection of sites shall be updated annually.

(2) The department may only approve a remote site incubator project if the department deems it is consistent with the conservation of wild salmon and trout. The department shall only utilize appropriate salmonid eggs in remote site incubators, and may acquire eggs by gift or purchase.

(3) The department shall depend chiefly upon volunteer efforts to implement the remote site incubator program through volunteer cooperative projects and the regional fisheries enhancement groups. The department may prioritize remote site incubator projects within regional enhancement areas.

(4) The department may purchase remote site incubators and may use agency employees to construct remote site incubators.

(5) The department shall investigate the use of the remote site incubator technology for the production of warm water fish.

(6) Annual reports on the progress of the program shall be provided to the fish and wildlife commission. [2009 c 333 § 29; 1998 c 251 § 2. Formerly RCW 75.50.190.]

Finding—1998 c 251: “The legislature finds that trout and salmon populations are depleted in many state waters. Restoration of these populations to a healthy status requires improved protection of these species and their habitats. However, in some instances restoration of self-sustaining populations also requires the reintroduction of the fish into their native habitat.

Remote site incubators have been shown to be a cost-effective means of bypassing the early period of high mortality experienced by salmonid eggs that are naturally spawned in streams. In addition, remote site incubators provide an efficient method for reintroduction of fish into areas that are not seeded by natural spawning. The technology for remote site incubators is well developed, and their application is easily accomplished in a wide variety of habitat by persons with a moderate level of training.

It is a goal of the remote site incubator program to assist the reestablishment of wild salmon and trout populations that are self-sustaining through natural spawning. In other cases, where the habitat has been permanently damaged and natural populations cannot sustain themselves, the remote site incubator program may become a cost-effective long-term solution for supplementation of fish populations.” [1998 c 251 § 1.]

77.95.230 Director’s determination of salmon production costs. The director shall determine the cost of operating all state-funded salmon production facilities at full capacity and shall provide this information with the department’s biennial budget request. 77.95.240 State purchase of private salmon smolts. The director may contract with cooperatives or private aquaculturists for the purchase of quality salmon smolts for release into public waters if all department fish rearing facilities are operating at full capacity. The intent of cooperative and private sector contracting is to explore the opportunities of cooperatively producing more salmon for the public fisheries without incurring additional capital expense for the department. [1989 c 336 § 3. Formerly RCW 75.08.420.]

Additional notes found at www.leg.wa.gov

77.95.250 State purchase of private salmon smolts—Bids. If the director elects to contract with cooperatives or private aquaculturists for the purpose of purchasing quality salmon smolts, contracting shall be done by a competitive bid process. In awarding contracts to private contractors, the director shall give preference to nonprofit corporations. The director shall establish the criteria for the contract, which shall include but not be limited to species, size of smolt, stock composition, quantity, quality, rearing location, release location, and other pertinent factors. [1989 c 336 § 4. Formerly RCW 75.08.430.]

Additional notes found at www.leg.wa.gov

77.95.260 State purchase of private salmon smolts—Private ocean ranching not authorized. Nothing in chapter 336, Laws of 1989 shall authorize the practice of private ocean ranching. Privately contracted smolts become the property of the state at the time of release. [1989 c 336 § 5. Formerly RCW 75.08.440.]

Additional notes found at www.leg.wa.gov

77.95.270 State purchase of private salmon smolts—Availability of excess salmon eggs. Except as provided in RCW 77.95.210, the department may make available to private contractors salmon eggs in excess of department hatchery needs for the purpose of contract rearing to release the smolts into public waters. However, providing salmon eggs as specified in RCW 77.95.210(2) has the highest priority. The priority of providing eggs surplus after meeting the requirements of RCW 77.95.210(2) to contract rearing is a higher priority than providing eggs to aquaculture purposes that are not destined for release into Washington public waters. 77.95.280 Chinook and coho salmon—External marking of hatchery-produced fish—Findings. The legislature declares that the state has a vital interest in the continuation of recreational fisheries for chinook salmon and coho salmon in mixed stock areas, and that the harvest of hatchery origin salmon should be encouraged while wild salmon should be afforded additional protection when required. A program of selective harvest shall be developed utilizing hatchery salmon that are externally marked in a conspicuous manner, regulations that promote the unharmed release of unmarked fish, when and where appropriate, and a public information program that educates the public about the need to protect depressed stocks of wild salmon.

The legislature further declares that the establishment of other incentives for commercial fishing and fish processing in Washington will complement the program of selective harvest in mixed stock fisheries anticipated by this legislation. [1995 c 372 § 1. Formerly RCW 75.08.500.]

77.95.290 Chinook and coho salmon—External marking of hatchery-produced fish—Program. The department shall mark appropriate chinook salmon that are released from department operated hatcheries and rearing ponds in such a manner that the fish are externally recognizable as hatchery origin salmon by fishers for the purpose of maximized catch while sustaining wild and hatchery reproduction.

The department shall mark all appropriate chinook salmon targeted for contribution to the Washington catch that are released from department operated hatcheries and rearing ponds in such a manner that the fish are externally recognizable as hatchery origin salmon by fishers. The goal of the marking program is: (1) The annual marking by June 30, 1997, of all appropriate hatchery origin coho salmon produced by the department with marking to begin with the 1994 Puget Sound coho brood; and (2) the annual marking by June 30, 1999, of all appropriate hatchery origin chinook salmon produced by the department with marking to begin with the 1998 chinook brood. The department may experiment with different methods for marking hatchery salmon with the primary objective of maximum survival of hatchery marked fish, maximum contribution to fisheries, and minimum cost consistent with the other goals.

The department shall coordinate with other entities that are producing hatchery chinook and coho salmon for release into public waters to enable the broadest application of the marking program to all hatchery produced chinook and coho salmon. The department shall work with the treaty Indian tribes in order to reach mutual agreement on the implementation of the mass marking program. The ultimate goal of the program is the coast-wide marking of appropriate hatchery origin chinook and coho salmon, and the protection of all wild chinook and coho salmon, where appropriate. Findings—Intent—1998 c 250: "The legislature finds that mass marking of hatchery-raised salmon is an effective tool for implementing selective salmon fisheries in this state. Mass marking of coho salmon is currently underway and holds great promise for maintaining both recreational and commercial fishing opportunities while protecting wild stocks. In view of the anticipated listing of Puget Sound chinook salmon as endangered under the federal endangered species act, the legislature finds that it is essential to expeditiously proceed with implementing a mass marking program for chinook salmon in Puget Sound and elsewhere in the state. Through a cooperative effort by state and federal agencies and private enterprise, appropriate technologies have been developed for marking chinook salmon. It is the intent of the legislature to use these newly developed
tools to implement chinook salmon mass marking beginning in April 1999."
[1998 c 250 § 1.]

77.95.300 Chinook and coho salmon—External marking of hatchery-produced fish—Rules. The department shall adopt rules to control the mixed stock chinook and coho fisheries of the state so as to sustain healthy stocks of wild salmon, allow the maximum survival of wild salmon, allow for spatially separated fisheries that target on hatchery stocks, foster the best techniques for releasing wild chinook and coho salmon, and contribute to the economic viability of the fishing businesses of the state. [1995 c 372 § 3. Formerly RCW 75.08.520.]

77.95.310 Report identifying total salmon and steelhead harvest. (1) The department shall maintain a report identifying total salmon and steelhead harvest. This report shall include the final commercial harvests and recreational harvests. At a minimum, the report shall clearly identify:

(a) The total treaty tribal and nontribal harvests by species and by management unit;
(b) Where and why the nontribal harvest does not meet the full allocation allowed under United States v. Washington, 384 F. Supp. 312 (1974) (Boldt I) including a summary of the key policies within the management plan that result in a less than full nontribal allocation; and

(2) Upon request, the department shall present the report required to be maintained under this section to the appropriate committees of the legislature. [2009 c 333 § 30; 1997 c 414 § 1. Formerly RCW 75.08.530.]

77.95.320 Program utilizing department-partnership agreements to operate and manage certain hatcheries—Selection of partners—Partnership agreements. (1) The department shall establish a program that utilizes department-partner agreements for the resumption or continued operation and management of state-owned salmonid hatcheries now closed or scheduled for closure during the 2009-2011 biennium. To implement the program, the department shall accept and review applications to determine the appropriateness of the partner to manage and operate selected salmonid hatcheries. The department shall accelerate the application process relating to any hatchery currently in operation to avoid cessation of ongoing salmon production.

(2)(a) To select a partner, the department shall develop and apply criteria identifying the appropriateness of a potential partner. The criteria must seek to ensure that the partner has a long-range business plan, which may include the sale of hatchery surplus salmon, including eggs and carcasses, to ensure the long-range future solvency of the partnership.

(b) Partners under this section must be:
(i) Qualified under section 501(c)(3) of the internal revenue code;
(ii) A for-profit private entity; or
(iii) A federally recognized tribe.

(3) The department shall place a higher priority on applications from partners that provide for the maximum resumption or continuation of existing hatchery production in a manner consistent with the mandate contained in RCW 77.04.012 to maintain the economic well-being and stability of the fishing industry.

(4) Agreements entered into with partners under this section must be consistent with existing state laws, agency rules, collective bargaining agreements, hatchery management policy involving species listed under the federal endangered species act, or, in the case of a tribal partner, any applicable tribal hatchery management policy or recreational and commercial harvest policy. Agreements under this section must also require that partners conducting hatchery operations maintain staff with comparable qualifications to those identified in the class specifications for the department’s fish hatchery personnel.

(5) All partnership agreements entered into under this section must contain a provision that requires the partner to hold harmless the department and the state for any civil liability arising from the partner’s participation in the agreement or activities at the subject hatchery or hatcheries.

(6) All partnership agreements entered into under this section must identify any maintenance or improvements to be made to the hatchery facility, and the source of funding for such maintenance or improvements. If funding for the maintenance or improvements is to come from state funds or revenue sources previously received by the department, the work must be performed either by employees in the classified service or in compliance with the contracting procedures set forth in RCW 41.06.142. [2009 c 340 § 2.]

Findings—2009 c 340: "The legislature finds: (1) The full utilization of state salmonid hatcheries is vital to the recreational and commercial fisheries and related economic development and employment, and (2) effective measures are necessary to maintain all hatchery operations that are consistent with conservation of wild salmon populations and support sustainable fisheries." [2009 c 340 § 1.]

77.95.330 Powers and authorities conferred by chapter to be construed as in addition and supplemental. The powers and authority conferred by this chapter must be construed as in addition and supplemental to powers or authority conferred by any other law and nothing contained in this chapter may be construed as limiting any other powers or authority of the department. [2009 c 340 § 3.]

Findings—2009 c 340: See note following RCW 77.95.320.

77.95.900 Severability—1985 c 458. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1985 c 458 § 12. Formerly RCW 75.50.900.]

77.100.010 Legislative findings—Department to administer cooperative enhancement program. The fish and wildlife resources of the state benefit by the contribution of volunteer recreational and commercial fishing organizations, schools, and other volunteer groups in cooperative projects under agreement with the department. These projects provide educational opportunities, improve the communication between the natural resources agencies and the public, and increase the fish and game resources of the state. In an effort to increase these benefits and realize the full potential of cooperative projects, the department shall administer a cooperative fish and wildlife enhancement program and enter agreements with volunteer groups relating to the operation of cooperative projects. [1984 c 72 § 2. Formerly RCW 75.52.030.]

77.100.040 Cooperative projects—Sale of surplus salmon eggs and carcasses. The department may authorize the sale of surplus salmon eggs and carcasses by permitted cooperative projects for the purposes of defraying the expenses of the cooperative project. In no instance shall the department allow a profit to be realized through such sales. The department shall adopt rules to implement this section pursuant to chapter 34.05 RCW. [1993 sp.s. c 2 § 51; 1987 c 48 § 1. Formerly RCW 75.52.035.]

77.100.050 Duties of department. (1) The department shall:

(a) Encourage and support the establishment of cooperative agreements for the development and operation of cooperative food fish, shellfish, game fish, game bird, game animal, and nongame wildlife projects, and projects which provide an opportunity for volunteer groups to become involved in resource and habitat-oriented activities. All cooperative projects shall be fairly considered in the approval of cooperative agreements;

(b) Identify regions and species or activities that would be particularly suitable for cooperative projects providing benefits compatible with department goals;

(c) Determine the availability of rearing space at operating facilities or of net pens, egg boxes, portable rearing containers, incubators, and any other rearing facilities for use in cooperative projects, and allocate them to volunteer groups as fairly as possible;

(d) Make viable eggs available for replenishing fish runs, and salmon carcasses for nutrient enhancement of streams. If a regional fisheries enhancement group, lead entity, volunteer cooperative group, federally approved tribe in Washington, or a governmental hatchery in Washington, Oregon, or Idaho requests the department for viable eggs, the department must include the request within the brood stock document prepared for review by the regional offices. The eggs shall be distributed in accordance with the priority established in RCW 77.95.210 if they are available. A request for viable eggs may only be denied if the eggs would not be useful for propagation or salmon recovery purposes, as determined under RCW 77.95.210;

(e) Exempt volunteer groups from payment of fees to the department for activities related to the project;

[Title 77 RCW—page 138]
(f) Publicize the cooperative program;

(g) Not substitute a new cooperative project for any part of the department’s program unless mutually agreeable to the department and volunteer group;

(h) Not approve agreements that are incompatible with legally existing land, water, or property rights.

(2) The department may, when requested, provide to volunteer groups its available professional expertise and assist the volunteer group to evaluate its project. The department must conduct annual workshops in each administrative region of the department that has fish stocks listed as threatened or endangered under the federal endangered species act, 16 U.S.C. Sec. 1531 et seq., in order to assist volunteer groups with egg rearing, share information on successful salmon recovery projects accomplished by volunteers within the state, and provide basic training on monitoring efforts that can be accomplished by volunteers in order to help determine if their efforts are successful. [2001 c 337 § 3; 1987 c 505 § 73; 1984 c 72 § 4. Formerly RCW 75.52.040.]

77.100.060 Commission to establish rules—Subjects.
The commission shall establish by rule:

(1) The procedure for entering a cooperative agreement and the application forms for a permit to release fish or wildlife required by *RCW 77.12.457. The procedure shall indicate the information required from the volunteer group as well as the process of review by the department. The process of review shall include the means to coordinate with other agencies and Indian tribes when appropriate and to coordinate the review of any necessary hydraulic permit approval applications.

(2) The procedure for providing within forty-five days of receipt of a proposal a written response to the volunteer group indicating the date by which an acceptance or rejection of the proposal can be expected, the reason why the date was selected, and a written summary of the process of review. The response should also include any suggested modifications to the proposal which would increase its likelihood of approval and the date by which such modified proposal could be expected to be accepted. If the proposal is rejected, the department must provide in writing the reasons for rejection. The volunteer group may request the director or the director’s designee to review information provided in the response.

(3) The priority of the uses to which eggs, seed, juveniles, or brood stock are put. Use by cooperative projects shall be second in priority only to the needs of programs of the department or of other public agencies within the territorial boundaries of the state. Sales of eggs, seed, juveniles, or brood stock have a lower priority than use for cooperative projects. The rules must identify and implement appropriate protocols for brood stock handling, including the outplanting of adult fish, spawning, incubation, rearing, and release and establish a prioritized schedule for implementation of chapter 337, Laws of 2001, and shall include directives for allowing more hatchery salmon to spawn naturally in areas where progeny of hatchery fish have spawned, including the outplanting of adult fish, in order to increase the number of viable salmon eggs and restore healthy numbers of fish within the state.

(4) The procedure for the director to notify a volunteer group that the agreement for the project is being revoked for cause and the procedure for revocation. Revocation shall be documented in writing to the volunteer group. Cause for revocation may include: (a) The unavailability of adequate biological or financial resources; (b) the development of unacceptable biological or resource management conflicts; or (c) a violation of agreement provisions. Notice of cause to revoke for a violation of agreement provisions may specify a reasonable period of time within which the volunteer group must comply with any violated provisions of the agreement.

(5) An appropriate method of distributing among volunteer groups fish, bird, or animal food or other supplies available for the program. [2001 c 337 § 4; 2000 c 107 § 112; 1995 1st sp.s. c 2 § 42 (Referendum Bill No. 45, approved November 7, 1995); 1984 c 72 § 5. Formerly RCW 75.52.050.]

*Reviser’s note: RCW 77.12.457 was repealed by 2001 c 253 § 62.

77.100.070 Agreements for cooperative projects—Duration. Agreements under this chapter may be for up to five years, with the department attempting to maximize the duration of each cooperative agreement. The duration of the agreement should reflect the financial and volunteer commitment and the stability of the volunteer group as well as the department’s expectation of resource availability and project contributions to the resource. [1984 c 72 § 6. Formerly RCW 75.52.060.]

77.100.080 Duties of volunteer group. (1) The volunteer group shall:

(a) Provide care and diligence in conducting the cooperative project; and

(b) Maintain accurately the required records of the project on forms provided by the department.

(2) The volunteer group shall acknowledge that fish and game reared in cooperative projects are public property and must be handled and released for the benefit of all citizens of the state. The fish and game are to remain public property until reduced to private ownership under rules of the commission. [2000 c 107 § 113; 1984 c 72 § 7. Formerly RCW 75.52.070.]

77.100.090 Application of chapter. This chapter applies to cooperative projects which were in existence on June 7, 1984, or which require no further funding. Implementation of this chapter for new projects requiring funding shall be to the extent that funds are available from the aquatic land enhancement account. [1984 c 72 § 8. Formerly RCW 75.52.080.]

77.100.100 Cedar river spawning channel. A salmon spawning channel shall be constructed on the Cedar river with the assistance and cooperation of the department. The department shall use existing personnel and the volunteer fisheries enhancement program outlined under chapter 77.100 RCW to assist in the planning, construction, and operation of the spawning channel. [2000 c 107 § 114; 1993 sp.s. c 2 § 52; 1989 c 85 § 3. Formerly RCW 75.52.100.]

Legislative finding—1989 c 85: "The legislature recognizes that King county has a unique urban setting for a recreational fishery and that Lake

(2010 Ed.)
Washington and the rivers flowing into it should be developed for greater salmon production. A Lake Washington fishery is accessible to fifty percent of the state’s citizens by automobile in less than one hour. There has been extensive sockeye fishing success in Lake Washington, primarily from fish originating in the Cedar river. The legislature intends to enhance the Cedar river fishery by active state and local management and intends to maximize the Lake Washington sockeye salmon runs for recreational fishing for all of the citizens of the state. A sockeye enhancement program could produce two to three times the current numbers of returning adults. A sockeye enhancement project would increase the public’s appreciation of our state’s fisheries, would demonstrate the role of a clean environment, and would show that positive cooperation can exist between local and state government in planning and executing programs that directly serve the public. A spawning channel in the Cedar river has been identified as an excellent way to enhance the Lake Washington sockeye run. A public utility currently diverting water from the Cedar river for beneficial public use has expressed willingness to fund the planning, design, evaluation, construction, and operation of a spawning channel on the Cedar river.

77.100.110 Cedar river spawning channel—Technical committee—Policy committee. The department shall chair a technical committee, which shall review the preparation of enhancement plans and construction designs for a Cedar river sockeye spawning channel. The technical committee shall consist of not more than eight members: One representative each from the department, national marine fisheries service, United States fish and wildlife service, and Muckleshoot Indian tribe; and four representatives from the public utility described in RCW 77.100.130. The technical committee will be guided by a policy committee, also to be chaired by the department, which shall consist of not more than six members: One representative from the department, one from the Muckleshoot Indian tribe, and one from either the national marine fisheries service or the United States fish and wildlife service; and three representatives from the public utility described in RCW 77.100.130. The policy committee shall oversee the operation and evaluation of the spawning channel. The policy committee will continue its oversight until the policy committee concludes that the channel is meeting the production goals specified in RCW 77.100.120. 77.100.160 Cedar river spawning channel—Mitigation of water diversion projects. Should the requirements of RCW 77.100.100 through 77.100.160 not be met, the department shall seek immediate legal clarification of the steps which must be taken to fully mitigate water diversion projects on the Cedar river. 77.100.170 Fish hatcheries—Volunteer group projects. The manager of a state fish hatchery operated by the department of fish and wildlife may allow nonprofit volunteer groups affiliated with the hatchery to undertake projects to raise donations, gifts, and grants that enhance support for the hatchery or activities in the surrounding watershed that benefit the hatchery. The manager may provide agency personnel and services, if available, to assist in the projects and may allow the volunteer groups to conduct activities on the grounds of the hatchery.

The director of the department of fish and wildlife shall encourage and facilitate arrangements between hatchery managers and nonprofit volunteer groups and may establish guidelines for such arrangements. [1995 c 224 § 1. Formerly RCW 75.08.047.]

The program shall be administered by the department under rules established under this section. The purpose of the program is to protect the aquaculture industry and wildstock fisheries from a loss of productivity due to aquatic diseases or maladies. As used in this section "diseases" means, in addition to its ordinary meaning, infestations of parasites or pests. The disease program may include, but is not limited to, the following elements:

(a) Disease diagnosis;
(b) Import and transfer requirements;
(c) Provision for certification of stocks;
(d) Classification of diseases by severity;
(e) Provision for treatment of selected high-risk diseases;
(f) Provision for containment and eradication of high-risk diseases;
(g) Provision for destruction of diseased cultured aquatic products;
(h) Provision for quarantine of diseased cultured aquatic products;

(l) Provision for disease history records.

(2) The commission shall adopt rules implementing this section. However, such rules shall have the prior approval of the director of agriculture and shall provide therein that the director of agriculture has provided such approval. The director of agriculture or the director’s designee shall attend the rule-making hearings conducted under chapter 34.05 RCW and shall assist in conducting those hearings. The authorities granted the department by these rules and by RCW 77.12.047(1)(g); 77.60.060; 77.60.080; 77.65.210, *77.115.020, 77.115.030, and 77.115.040 constitute the only authorities of the department to regulate private sector cultured aquatic products and aquatic farmers as defined in RCW 15.85.020. Except as provided in subsection (3) of this section, no action may be taken against any person to enforce these rules unless the department has first provided the per-
son an opportunity for a hearing. In such a case, if the hearing is requested, no enforcement action may be taken before the conclusion of that hearing.

(3) The rules adopted under this section shall specify the emergency enforcement actions that may be taken by the department, and the circumstances under which they may be taken, without first providing the affected party with an opportunity for a hearing. Neither the provisions of this subsection nor the provisions of subsection (2) of this section shall preclude the department from requesting the initiation of criminal proceedings for violations of the disease inspection and control rules.

(4) A person shall not violate the rules adopted under subsection (2) or (3) of this section or violate RCW 77.115.040.

(5) In administering the program established under this section, the department shall use the services of a pathologist licensed to practice veterinary medicine.

(6) The director in administering the program shall not place constraints on or take enforcement actions in respect to the aquaculture industry that are more rigorous than those placed on the department or other fish-rearing entities. ### 77.120.005 Findings.

The legislature finds that some nonindigenous species have the potential to cause economic and environmental damage to the state and that current efforts to stop the introduction of nonindigenous species from shipping vessels do not adequately reduce the risk of new introductions into Washington waters.

The legislature recognizes the international ramifications and the rapidly changing dimensions of this issue, the lack of currently available treatment technologies, and the difficulty that any one state has in either legally or practically managing this issue. Recognizing the possible limits of state jurisdiction over international issues, the state declares its support for the international maritime organization and United States coast guard efforts, and the state intends to complement, to the extent its powers allow it, the United States coast guard’s ballast water management program. [2004 c 227 § 1; 2000 c 108 § 1.]

### 77.120.010 Definitions.

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Ballast tank" means any tank or hold on a vessel used for carrying ballast water, whether or not the tank or hold was designed for that purpose.

(2) "Ballast water" means any water and matter taken on board a vessel to control or maintain trim, draft, stability, or
stresses of the vessel, without regard to the manner in which it is carried.

(3) "Empty/refill exchange" means to pump out, until the tank is empty or as close to empty as the master or operator determines is safe, the ballast water taken on in ports, estuarine, or territorial waters, and then refilling the tank with open sea waters.

(4) "Exchange" means to replace the water in a ballast tank using either flow through exchange, empty/refill exchange, or other exchange methodology recommended or required by the United States coast guard.

(5) "Flow through exchange" means to flush out ballast water by pumping in midocean water at the bottom of the tank and continuously overflowing the tank from the top until three full volumes of water have been changed to minimize the number of original organisms remaining in the tank.

(6) "Nonindigenous species" means any species or other viable biological material that enters an ecosystem beyond its natural range.

(7) "Open sea exchange" means an exchange that occurs fifty or more nautical miles offshore. If the United States coast guard requires a vessel to conduct an exchange further offshore, then that distance is the required distance for purposes of compliance with this chapter.

(8) "Recognized marine trade association" means those trade associations in Washington state that promote improved ballast water management practices by educating their members on the provisions of this chapter, participating in regional ballast water coordination through the Pacific ballast water group, assisting the department in the collection of ballast water exchange forms, and the monitoring of ballast water. This includes members of the Puget Sound marine committee for Puget Sound and the Columbia river steamship operators association for the Columbia river.

(9) "Sediments" means any matter settled out of ballast water within a vessel.

(10) "Untreated ballast water" includes exchanged or unexchanged ballast water that has not undergone treatment.

(11) "Vessel" means a ship, boat, barge, or other floating craft of three hundred gross tons or more, United States and foreign, carrying, or capable of carrying, ballast water into the coastal waters of the state after operating outside of the coastal waters of the state, except those vessels described in RCW 77.120.020.

(12) "Voyage" means any transit by a vessel destined for any Washington port.

(13) "Waters of the state" means any surface waters, including internal waters contiguous to state shorelines within the boundaries of the state. [2007 c 350 § 8; 2000 c 108 § 2.]

77.120.020 Application of chapter. (1) This chapter applies to all vessels transiting into the waters of the state from a voyage, except:

(a) A vessel of the United States department of defense or United States coast guard subject to the requirements of section 1103 of the national invasive species act of 1996, or any vessel of the armed forces, as defined in 33 U.S.C. Sec. 1322(a)(14), that is subject to the uniform national discharge standards for vessels of the armed forces under 33 U.S.C. Sec. 1322(n);

(b) A vessel that discharges ballast water or sediments only at the location where the ballast water or sediments originated, if the ballast water or sediments do not mix with ballast water or sediments from areas other than open sea waters; and

(c) A vessel in innocent passage, merely traversing the territorial sea of the United States and not entering or departing a United States port, or not navigating the internal waters of the United States, and that does not discharge ballast water into the waters of the state.

(2) This chapter does not authorize the discharge of oil or noxious liquid substances in a manner prohibited by state, federal, or international laws or regulations. Ballast water containing oil, noxious liquid substances, or any other pollutant shall be discharged in accordance with the applicable requirements.

(3) The master or operator in charge of a vessel is responsible for the safety of the vessel, its crew, and its passengers. Nothing in this chapter relieves the master or operator in charge of a vessel of the responsibility for ensuring the safety and stability of the vessel or the safety of the crew and passengers. [2007 c 350 § 9; 2000 c 108 § 3.]

77.120.030 Authorized ballast water discharge—Adoption of standards by rule. (1) The owner or operator in charge of any vessel covered by this chapter is required to ensure that the vessel under their ownership or control does not discharge ballast water into the waters of the state except as authorized by this section.

(2) Discharge of ballast water into waters of the state is authorized only if there has been an open sea exchange, or if the vessel has treated its ballast water, to meet standards set by the department consistent with applicable state and federal laws.

(3) The department, in consultation with a collaborative forum, shall adopt by rule standards for the discharge of ballast water into the waters of the state and their implementation timelines. The standards are intended to ensure that the discharge of ballast water poses minimal risk of introducing nonindigenous species. In developing these standards, the department shall consider the extent to which the requirement is technologically and practically feasible. Where practical and appropriate, the standards must be compatible with standards set by the United States coast guard, the federal clean water act (33 U.S.C. Sec. 1251-1387), or the international maritime organization.

(4) The master, operator, or person in charge of a vessel is not required to conduct an open sea exchange or treatment of ballast water if the master, operator, or person in charge of a vessel determines that the operation would threaten the safety of the vessel, its crew, or its passengers, because of adverse weather, vessel design limitations, equipment failure, or any other extraordinary conditions. A master, operator, or person in charge of a vessel who relies on this exemption must file documentation defined by the department, subject to: (a) Payment of a fee not to exceed five thousand dollars; (b) discharging only the minimal amount of ballast water operationally necessary; (c) ensuring that ballast water records accurately reflect any reasons for not complying with the mandatory requirements; and (d) any other requirements
identified by the department by rule as provided in subsections (3) and (6) of this section.

(5) For treatment technologies requiring shipyard modification, the department may enter into a compliance plan with the vessel owner. The compliance plan must include a timeline consistent with drydock and shipyard schedules for completion of the modification. The department shall adopt rules for compliance plans under this subsection.

(6) For an exemption claimed in subsection (4) of this section, the department shall adopt rules for defining exemption conditions, requirements, compliance plans, or alternative ballast water management strategies to meet the intent of this section.

(7) The department shall make every effort to align ballast water standards with adopted international and federal standards while ensuring that the goals of this chapter are met.

(8) The requirements of this section do not apply to a vessel discharging ballast water or sediments that originated solely within the waters of Washington, the Columbia river system, or the internal waters of British Columbia south of latitude fifty degrees north, including the waters of the Straits of Georgia and Juan de Fuca.

(9) Open sea exchange is an exchange that occurs fifty or more nautical miles offshore. If the United States coast guard requires a vessel to conduct an exchange further offshore, then that distance is the required distance for purposes of compliance with this chapter. [2009 c 333 § 26; 2007 c 350 § 10; 2004 c 227 § 3; 2002 c 282 § 2; 2000 c 108 § 4.]

77.120.040 Reporting and sampling requirements.
The owner or operator in charge of any vessel covered by this chapter is required to ensure that the vessel under their ownership or control complies with the reporting and sampling requirements of this section.

(1) Vessels covered by this chapter must report ballast water management information to the department using ballast water management forms that are acceptable to the United States coast guard. The frequency, manner, and form of such reporting shall be established by the department by rule. Any vessel may rely on a recognized marine trade association to collect and forward this information to the department.

(2) In order to monitor the effectiveness of national and international efforts to prevent the introduction of nonindigenous species, all vessels covered by this chapter must submit nonindigenous species ballast water monitoring data. The monitoring, sampling, testing protocols, and methods of identifying nonindigenous species in ballast water shall be determined by the department by rule. A vessel covered by this chapter may contract with a recognized marine trade association to randomly sample vessels within that association’s membership, and provide data to the department.

(3) Vessels that do not belong to a recognized marine trade association must submit individual ballast tank sample data to the department for each voyage.

(4) All data submitted to the department under subsection (2) of this section shall be consistent with sampling and testing protocols as adopted by the department by rule.

(5) The department shall adopt rules to implement this section. The rules and recommendations shall be developed in consultation with advisors from regulated industries and the potentially affected parties, including but not limited to shipping interests, ports, shellfish growers, fisheries, environmental interests, interested citizens who have knowledge of the issues, and appropriate governmental representatives including the United States coast guard. In recognition of the need to have a coordinated response to ballast water management for the Columbia river system, the department must consider rules adopted by the state of Oregon when adopting rules under this section for ballast water management in the navigable waters of the Columbia river system.

(a) The department shall set standards for the discharge of treated ballast water into the waters of the state. The rules are intended to ensure that the discharge of treated ballast water poses minimal risk of introducing nonindigenous species. In developing this standard, the department shall consider the extent to which the requirement is technologically and practically feasible. Where practical and appropriate, the standards shall be compatible with standards set by the United States coast guard and shall be developed in consultation with federal and state agencies to ensure consistency with the federal clean water act, 33 U.S.C. Sec. 1251-1387.

(b) The department shall adopt ballast water sampling and testing protocols for monitoring the biological components of ballast water that may be discharged into the waters of the state under this chapter. Monitoring data is intended to assist the department in evaluating the risk of new, nonindigenous species introductions from the discharge of ballast water, and to evaluate the accuracy of ballast water exchange practices. The sampling and testing protocols must consist of cost-effective, scientifically verifiable methods that, to the extent practical and without compromising the purposes of this chapter, utilize easily measured indices, such as salinity, or check for species that indicate the potential presence of nonindigenous species or pathogenic species. The department shall specify appropriate quality assurance and quality control for the sampling and testing protocols. [2002 c 282 § 3; 2000 c 108 § 5.]

77.120.050 Pilot project—Private sector ballast water treatment operation. The shipping vessel industry, the public ports, and the department shall promote the creation of a pilot project to establish a private sector ballast water treatment operation that is capable of servicing vessels at all Washington ports. Federal and state agencies and private industries shall be invited to participate. The project will develop equipment or methods to treat ballast water and establish operational methods that do not increase the cost of ballast water treatment at smaller ports. The legislature intends that the cost of treatment required by this chapter is substantially equivalent among large and small ports in Washington. [2000 c 108 § 6.]

77.120.070 Violation of chapter—Penalties—Rules.

(1) The department may establish by rule schedules for any penalty allowed in this chapter. The schedules may provide for the incremental assessment of a penalty based on criteria established by rule.

(2) The director or the director’s designee may impose a civil penalty or warning for a violation of the requirements of
this chapter on the owner or operator in charge of a vessel who fails to comply with the requirements imposed under RCW 77.120.030 and 77.120.040. The penalty shall not exceed twenty-seven thousand five hundred dollars for each day of a continuing violation. In determining the amount of a civil penalty, the department shall set standards by rule that consider if the violation was intentional, negligent, or without any fault, and shall consider the quality and nature of risks created by the violation. The owner or operator subject to such a penalty may contest the determination by requesting an adjudicative proceeding within twenty days. Any determination not timely contested is final and may be reduced to a judgment enforceable in any court with jurisdiction. If the department prevails using any judicial process to collect a penalty under this section, the department shall also be awarded its costs and reasonable attorneys’ fees.

(3) The department, in cooperation with the United States coast guard, may enforce the requirements of this chapter. [2007 c 350 § 12; 2000 c 108 § 8.]

77.120.100 Department may assess fee for exemptions—Rules. The department may assess a fee for any exemptions allowed under this chapter. Such a fee may not exceed five thousand dollars. The department may establish by rule schedules for any fee allowed in this chapter. The schedules may provide for the incremental assessment of a penalty based on criteria established by rule. [2007 c 350 § 13.]

77.120.110 Ballast water management account. (1) The ballast water management account is created in the state treasury. All receipts from legislative appropriations, gifts, grants, donations, penalties, and fees received under this chapter must be deposited into the account.

(2) Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only to carry out the purposes of this chapter or support the goals of this chapter through research and monitoring except:

(a) Expenditures may not be used for the salaries of permanent department employees; and

(b) Penalties deposited into the account may be used only to support basic and applied research and carry out education and outreach related to the state’s ballast water management. [2009 c 333 § 27; 2007 c 350 § 14.]

77.120.120 Special operating authorization—Rules. The department may issue a special operating authorization for passenger vessels conducting or assisting in research and testing activities to determine the presence of invasive species in ballast water collected in the waters of southeast Alaska north of latitude fifty-four degrees thirty minutes north to sixty-one degrees ten minutes north, extending to longitude one hundred forty-nine degrees thirty minutes west. The department may adopt rules for defining special operating authorization conditions, requirements, limitations, and fees as necessary to implement this section, consistent with the intent of this chapter. [2009 c 333 § 28; 2007 c 350 § 15.]
enclosures, net pens, or other rearing vessels found spawning in state waters;

(5) Provisions for the determination of appropriate species, stocks, and races of marine fin fish aquaculture products allowed to be cultured at specific locations and sites;

(6) Provisions for the development of an Atlantic salmon watch program similar to the one in operation in British Columbia, Canada. The program must provide for the monitoring of escapes of Atlantic salmon from marine aquatic farming locations, monitor the occurrence of naturally produced Atlantic salmon, determine the impact of Atlantic salmon on naturally produced and cultured fin fish stocks, provide a focal point for consolidation of scientific information, and provide a forum for interaction and education of the public; and

(7) Provisions for the development of an education program to assist marine aquatic farmers so that they operate in an environmentally sound manner. [2001 c 86 § 3.]

77.125.040 Report to the legislature. Rules to implement this chapter shall be adopted no sooner than thirty days following the end of the 2002 regular legislative session. The director shall provide a written report to the appropriate legislative committees by January 1, 2003, on the progress of the program. [2001 c 86 § 4.]

77.130.010 Unclaimed personal property—Disposition—Firearms. Whenever any personal property comes into the possession of the officers of the department in connection with the official performance of their duties and the personal property remains unclaimed or not taken away for a period of sixty days from the date of written notice to the owner thereof, if known, which notice shall inform the owner of the disposition that may be made of the property under this section and the time that the owner has to claim the property and in all other cases for a period of sixty days from the time the property came into the possession of the department, unless the property has been held as evidence in any court, then, in that event, after sixty days from date when the case has been finally disposed of and the property released as evidence by order of the court, the department may:

(1) At any time thereafter sell the personal property at public auction to the highest and best bidder for cash in the manner hereinafter provided;

(2) Retain the property for the use of the department subject to giving notice in the manner prescribed in RCW 63.35.030 and the right of the owner, or the owner’s legal representative, to reclaim the property within one year after receipt of notice, without compensation for ordinary wear and tear if, in the opinion of the director, the property consists of firearms or other items specifically usable in law enforce-

ment work. At the end of each calendar year during which there has been such a retention, the department shall provide the office of financial management and retain for public inspection a list of such retained items and an estimation of each item’s replacement value;

(3) Destroy an item of personal property at the discretion of the director if the director determines that the following circumstances have occurred:

(a) The property has no substantial commercial value or the probable cost of sale exceeds the value of the property;

(b) The item has been unclaimed by any person after notice procedures have been met, as prescribed in this section; and

(c) The director has determined that the item is illegal to possess or sell or unsafe and unable to be made safe for use by any member of the general public;

(4) If the item is not unsafe or illegal to possess or sell, such item, after satisfying the notice requirements as prescribed in this section may be offered by the director to bona fide dealers, in trade for law enforcement equipment, which equipment must be treated as retained property for the purpose of annual listing requirements of subsection (2) of this section; or

(5) At the end of one year, any unclaimed firearm must be disposed of pursuant to RCW 9.41.098(2). Any other item that is not unsafe or illegal to possess or sell, but has been, or may be used, in the judgment of the director, in a manner that is illegal, may be destroyed. [2009 c 333 § 44.]

77.130.020 Notice of sale. Before the personal property shall be sold, a notice of such a sale fixing the time and place thereof which shall be at a suitable place, which will be noted in the advertisement for sale, and containing a description of the property to be sold must be published at least once in a newspaper of general circulation in the county in which the property is to be sold at least ten days prior to the date fixed for the auction. The notice must be signed by the director. If the owner fails to reclaim the property prior to the time fixed for the sale in such a notice, the director shall conduct the sale and sell the property described in the notice at public auction to the highest and best bidder for cash, and upon payment of the amount of the bid shall deliver the property to the bidder. [2009 c 333 § 45.]

77.130.030 Use of money from sales under this chapter. The moneys arising from sales under the provisions of this chapter must be first applied to the payment of the costs and expenses of the sale and then to the payment of lawful charges and expenses for the keep of the personal property and the balance, if any, must be forwarded to the state treasurer of the enforcement reward account under RCW 77.15.425. [2009 c 333 § 46.]

77.130.040 Property owner entitled to receive money. If the owner of the personal property so sold, or the owner’s legal representative, shall, at any time within three years after the money has been deposited in the fish and wildlife enforcement reward account, furnish satisfactory evidence to the state treasurer of the ownership of the personal property, the owner or the owner’s legal representative is entitled to
receive from the fish and wildlife enforcement reward account the amount so deposited, with interest. [2009 c 333 § 47.]

77.130.050 Application of chapters 63.24 and 63.29 RCW. (1) Chapter 63.24 RCW, unclaimed property in hands of bailee, does not apply to personal property in the possession of the department.

(2) The uniform unclaimed property act, chapter 63.29 RCW, does not apply to personal property in the possession of the department. [2009 c 333 § 48.]

77.130.060 Donation of unclaimed personal property. In addition to any other method of disposition of unclaimed property provided under this chapter, the department may donate unclaimed personal property to nonprofit charitable organizations. A nonprofit charitable organization receiving personal property donated under this section must use the property, or its proceeds, to benefit needy persons. The charitable organization must qualify for tax-exempt status under 26 U.S.C. Sec. 501(c)(3) of the federal internal revenue code. [2009 c 333 § 49.]

In incorporations already formed, or which may hereafter be formed under *this chapter, where the amount of the capital stock of such corporation consists of the aggregate valuation of the whole number of feet, shares, or interest in any mining claim in this state, for the working and development of which such corporation shall be or have been formed, no actual subscription to the capital stock of such corporation shall be necessary; but each owner in said mining claim shall be deemed to have subscribed such an amount to the capital stock of such corporation as under its bylaws will represent the value of so much of his interest in said mining claim, the legal title to which he may by deed, deed of trust or other instrument vest, or have vested in such corporation for mining purposes; such
subscription to be deemed to have been made on the execution and delivery to such corporation of such deed, deed of trust, or other instrument; nor shall the validity of any assessment levied by the board of trustees of such corporation be affected by the reason of the fact that the full amount of the capital stock of such corporation, as mentioned in its certificate of incorporation, shall have not been subscribed as provided in this section: PROVIDED, That the greater portion of said amount of capital stock shall have been so subscribed: AND, PROVIDED FURTHER, That this section shall not be so construed as to prohibit the stockholders of any corporation formed, or which may be formed, for mining purposes as provided in this section, from regulating the mode of making subscriptions to its capital stock and calling in the same by bylaws or express contract. And it is hereby made the duty of any and all officers, managers, agents, superintendents, or persons in charge, to allow any such stockholder to enter upon and examine any of the property of such corporation at any time during the hours of business or labor; and the presentation of certificates of stock in the corporation of the amount of one thousand shares, to the officer or person in charge, shall be prima facie evidence of ownership and right to enter upon or into, and make examinations of the property of the corporation. [1901 c 120 § 1; RRS § 8612.]

78.04.050 Penalty for violations under RCW 78.04.040. Prior claims, how governed. All mining claims upon veins or lodes of quartz or other rock in place, bearing gold, silver or other valuable mineral deposits heretofore located, shall be governed as to length along the vein or lode by the customs, regulations and laws in force at the date of such location. [1887 c 87 § 1; RRS § 8615.]

For earlier acts on this subject, see: 1867 pp 146-147, 1869 pp 386-388, 1873 pp 444-446, 1875 pp 126-127, 1877 pp 335-336. See also, act of congress, May 10, 1872.

Extent of lode claims. A mining claim located upon any vein or lode of quartz or other rock in place, bearing gold, silver or other valuable mineral deposits, after the approval of *this act by the governor, whether located by one or more persons, may equal, but shall not exceed, one thousand five hundred feet in length along the vein or lode; but no location of a mining claim shall be made until the discovery of the vein or lode within the limits of the claims located. No claims shall extend more than three hundred feet on each side of the middle of the vein at the surface, nor shall any claims be limited by any mining regulation to less than fifty feet of surface on each side of the middle of such vein or lode at the surface, excepting where adverse rights, existing at the date of the approval of this act, shall make such limitation necessary. The end lines of each claim shall be parallel to the perpendicular in their course downward as to extend outside the lines of such location. [1887 c 87 § 2; RRS § 8616.]

*Reviser's note: *"this act" [1887 c 87], is codified in RCW 78.08.005 through 78.08.040, "date of the approval of this act" was February 2, 1888.

Rights of locators. The locators of all mining locations heretofore made or hereafter made under the provisions of RCW 78.08.005 through 78.08.040, on any mineral vein, lode or ledge on the public domain, and their heirs and assigns so long as they comply with the laws of the United States and the state and local laws relating thereto, shall have the exclusive right to the possession and enjoyment of all surface included within the lines of their location, and of all veins, lodes and ledges throughout their entire depth, and the top or apex of which lies within the surface lines of such location, extending downward vertically, although such veins, lodes or ledges may so far depart from the perpendicular in their course downward as to extend outside of the vertical side line of said surface location. [1887 c 87 § 3; RRS § 8617.]

Recording instruments affecting claim. All location notices, bonds, assignments and transfers of mining claims shall be recorded in the office of the county auditor of the county where the same is situated within thirty days after the execution thereof. [1979 ex.s. c 30 § 15; 1887 c 87 § 7; RRS § 8621.]

Holding claim by geological, etc., survey—Report of survey. Any geological, geochemical, or geophysical survey which reasonably involves a direct expenditure on or for the benefit of each claim of not less than the one hundred dollars worth of annual assessment work required under federal statute or regulations shall hold such claim for not more than two consecutive years or more than a total of five years: PROVIDED, That a written report of such survey shall be filed with the county auditor at the time annual assessment work is recorded as required under federal statute, and said written report shall set forth fully:

(1) The location of the survey performed in relation to the point of discovery or location notice and boundaries of the claim.
The term "lode" as used in RCW 78.08.050 through 78.08.115 shall be construed to mean ledge, vein or deposit. [1983 c 3 § 197; 1899 c 45 § 4; RCW 78.08.050 through 78.08.115 shall be construed to mean ledge, vein or deposit. [1965 c 151 § 2; 1963 c 64 § 2; 1959 c 114 § 1.]

78.08.075 "Lode" defined. The term "lode" as used in RCW 78.08.050 through 78.08.115 shall be construed to mean ledge, vein or deposit. [1983 c 3 § 197; 1899 c 45 § 4; RRS § 8625. Formerly RCW 78.08.010.]

78.08.080 Amended certificate of location. If at any time the locator of any quartz or lode mining claim heretofore or hereafter located, or his assigns, shall learn that his original certificate was defective or that the requirements of the law had not been complied with before filing, or shall be desirous of changing his surface boundaries or of taking in any additional ground which is subject to location, or in any case the original certificate was made prior to the "passage of this law, and he shall be desirous of securing the benefits of RCW 78.08.050 through 78.08.115, such locator or his assigns may file an amended certificate of location, subject to the provisions of RCW 78.08.050 through 78.08.115, regarding the making of new locations. [1983 c 3 § 198; 1899 c 45 § 5; RRS § 8626.]

*Revisor's note: "passage of this law": 1899 c 45 (H.B. 272) passed the house; February 27, 1899; passed the senate; March 7, 1899, and was approved by the governor March 8, 1899.

78.08.081 Assessment work, affidavit of work performed or affidavit of fees paid. Such affidavit shall state the exact amount of fee or fees paid, or the kind of labor, including the number of feet of shaft, tunnel or open cut made on such claim, or any other kind of improvements allowed by law made thereon. When both fee and labor requirements have been waived by the federal government, such affidavit will contain a statement to that effect and the state shall not require labor to be performed. Such affidavit shall contain the section, township and range in which such lode is located if the location be in a surveyed area. [1995 c 114 § 2; 1979 ex.s. c 30 § 16; 1955 c 357 § 3; 1899 c 45 § 6; RRS § 8627.]

[1899 c 45 § 7; RRS § 8628.]

78.08.090 Relocating abandoned claim. The relocation of a forfeited or abandoned quartz or lode claim shall only be made by sinking a new discovery shaft, or in lieu thereof, performing at least an equal amount of development work within the borders of the claim, and fixing new boundaries in the same manner and to the same extent as is required in making a new location, or the relocator may sink the original discovery shaft ten feet deeper than it was at the date of commencement of such relocation, and shall erect new, or make the old monuments the same as originally required; in either case a new location monument shall be erected. [1949 c 12 § 2; 1899 c 45 § 8; RRS § 8629.]

First. He must immediately post in a conspicuous place at the point of discovery thereon, a notice or certificate of location thereof, containing (1) the name of the claim; (2) the name of the locator or locators; (3) the date of discovery and posting of the notice hereinafter provided for, which shall be considered as the date of the location; (4) a description of the claim by reference to legal subdivisions of sections, if the location is made in conformity with the public surveys, otherwise, a description with reference to some natural object or permanent monuments as will identify the claim; and where such claim is located by legal subdivisions of the public surveys, such location shall, notwithstanding that fact, be marked by the locator upon the ground the same as other locations.

Second. Within thirty days from the date of such discovery he must record such notice or certificate of location in the office of the auditor of the county in which such discovery is made, and so distinctly mark his location on the ground that its boundaries may be readily traced.

Third. Within sixty days from the date of discovery, the discoverer shall perform labor upon such location or claim in developing the same to an amount which shall be equivalent in the aggregate to at least ten dollars worth of such labor for each twenty acres, or fractional part thereof, contained in such location or claim: PROVIDED, HOWEVER, That nothing in this subdivision shall be held to apply to lands located under the laws of the United States as placer claims for the purpose of the development of petroleum and natural gas and other natural oil products.

Any such lease shall be upon terms and conditions as said county commissioners may deem for the best interests of said county and the taxing districts, and as in this chapter provided, and may be for such primary term as said board may determine and as long thereafter as minerals, including oil, and/or gas, may be produced therefrom. When said commissioners, in their discretion, decide to lease said claims or properties as provided in RCW 78.16.010, they shall enter an order to that effect upon their records and shall fix the duration and terms and conditions of said lease, and in case an option to purchase is given shall fix the purchase price, which shall not be less than the total amount of the taxes, interest and penalties due at the time the property was acquired by the county, and may provide that any royalties paid shall apply and be credited on the purchase price, and said lease or lease and option shall be signed and executed on behalf of said county by said commissioners, or a majority of them. [1907 c 38 § 2; RRS § 11313.]

78.16.030 Sale and conveyance. Upon payment of the full purchase price, in cases where an option to purchase is given, a conveyance shall be executed to the purchaser by the chairman of the board of county commissioners. Such conveyance shall refer to the order of the board authorizing such leasing with the option to purchase, and shall be deemed to convey all the estate, right, title and interest of the county and to the property sold; and such conveyance, when executed, shall be conclusive evidence of the regularity and validity of all proceedings hereunder. 78.16.040 Option to surrender lands. The lessee under any such petroleum lease shall have the option of surrendering any of the lands included in said lease at any time, and shall thereby be relieved of all liability with respect to such lands except the payment of accrued royalties as provided in said lease. Upon such surrender, the lessee shall have the right for a period of one hundred twenty days following the date of such surrender, to remove all improvements placed by him on the lands which have been surrendered. [1945 c 93 § 3; Rem. Supp. 1945 § 11314-2.]

78.16.060 Surface rights. Nothing in this chapter contained shall be construed as giving the county commissioners the right to lease the surface rights of tax acquired property, except that the lease of any property as in this chapter provided shall give the lessee the right to use such portions of the surface on said land as may be necessary or desirable to it in its business. [1945 c 93 § 4; Rem. Supp. 1945 § 11314-3.]

78.16.070 Damages to owner. In the event said lease shall be for reserved mineral rights on lands previously sold
by said county with mineral rights reserved, as provided in RCW 36.34.010, said lease shall contain a provision that no rights shall be exercised under said lease by the lessee, his or her heirs, executors, administrators, successors, or assigns, until provision has been made by the lessee, his or her heirs, executors, administrators, successors, or assigns to pay to the owner of the land upon which the rights reserved to the county are sought to be exercised, full payment for all damages to said owner by reason of entering upon said land; said rights to be determined as provided for in RCW 36.34.010: PROVIDED, HOWEVER, That in the event of litigation to determine such damage, the primary term of such lease shall be extended for a period equal to the time required for such litigation, but not to exceed three years. 78.22.090 Waiver prohibited.

78.22.010 Extinguishment of unused mineral rights authorized. Any mineral interest, if unused for a period of twenty years, may be extinguished by the surface owner as set forth in RCW 78.22.050 and 78.22.060. [1984 c 252 § 1.]

78.22.020 "Mineral interest" defined. A mineral interest means the interest which is created by an instrument transferring, either by grant, assignment, or reservation, or otherwise an interest, of any kind, in any subsurface mineral. [1984 c 252 § 2.]

78.22.030 Acts constituting use of mineral interest. A mineral interest is used if:
(1) Any minerals produced have been in connection with the mineral interest;
(2) Operations for injection, withdrawal, storage or disposal of water, gas, or other fluid substances have been conducted in connection with the mineral interest;
(3) Rents or royalties have been paid for the purpose of delaying or enjoying the use or exercise of the mineral interest;
(4) The use or the exercise of the mineral interest has been carried out on any tract with which the mineral interest may be unitized or pooled for production purposes;
(5) In the case of coal or other solid minerals, minerals have been produced from a common vein or seam;
(6) Taxes have been paid on such mineral interest;
(7) Any use pursuant to or authorized by the instrument creating such mineral interest has been taken;
(8) A sale, lease, mortgage, or other transfer of the mineral interest has been recorded in the county auditor’s office in the county in which the land affected by the mineral interest is located prior to the end of the twenty-year period set forth in RCW 78.22.010 or within two years after June 7, 1984, whichever is later; or
(9) A statement of claim has been filed by the owner of the mineral interest in the manner set forth in RCW 78.22.040 or 78.22.060. [1984 c 252 § 3.]

78.22.040 Statement of claim—Contents—Fees—Filing. The statement of claim referred to in RCW 78.22.030(9) shall be filed by the current owner of the mineral interest prior to the end of the twenty-year period set forth in RCW 78.22.010 or within two years after June 7, 1984, whichever is later. The statement of claim shall contain the name and address of the current owner of such interest, and the name of the original holder of the mineral interest substantially as that name is shown on the instrument that originally created the mineral interest and shall be accompanied by payment of the fees provided in RCW 36.18.010.

The statement of claim shall be filed in the county auditor’s office in the county in which such land affected by the mineral interest is located. [1984 c 252 § 4.]

78.22.050 Extinguishment of mineral interest—Procedure. (1) After the later of the expiration of the twenty-year period set forth in RCW 78.22.010 or two years after June 7, 1984, the surface owner may extinguish the mineral interest held by another person and acquire ownership of that interest by providing sixty days notice of intention to file a claim of abandonment and extinguishment of the mineral interest upon the current mineral interest owner. Notice shall be served by personal service or by mailing the notice by registered mail to the last known address of the current mineral interest owner. The county treasurer shall supply the name and address of the current mineral interest owner as they appear on the county property tax records to the surface owner without charge. If the current mineral interest owner is unknown to the county treasurer, and the current mineral interest owner cannot be determined after due diligence, the surface owner may serve the notice upon the current mineral interest owner by publishing the notice at least once each week for three consecutive weeks in a newspaper of general circulation published in the county in which the property interest is located, and if there is no newspaper of general circulation in the county, then in a newspaper of general circulation published in an adjoining county, and if there is no such newspaper in an adjoining county, then in a newspaper of general circulation published at the capital of the state.
(2) The notice of intention to file a claim of abandonment and extinguishment shall contain:
(a) The name and address, if known, of the holder of the mineral interest, as shown of record;
(b) A reference to the instrument originally creating the mineral interest, including where it is recorded;
(c) A description of the lands affected by the mineral interest;
(d) The name and address of the person giving notice;

(2010 Ed.)
(e) The date of the first publication of the notice if notice is by publication; and

(f) A statement that a claim of abandonment and extinguishment of the mineral interest will be filed upon the expiration of a period of sixty days after the date of the last publication or the date service was perfected by personal service or registered mail on the current mineral interest owner, unless the current mineral interest owner files a statement of claim of mineral interest in the form prescribed in RCW 78.22.040.

(3) A copy of the notice of intention to file a claim of abandonment and extinguishment and an affidavit of publication shall be submitted to the county auditor within fifteen days after the date of the last publication or the date service was perfected by personal service or registered mail on the current mineral interest owner.

(4) The affidavit of publication shall contain either:

(a) A statement that a copy of the notice has been personally served upon or mailed to the owner of the current mineral interest and the address to which it was mailed; or

(b) If a copy of the notice was not mailed, a detailed description, including dates, of the efforts made to determine with due diligence the address of the current owner of the mineral interest. [1984 c 252 § 5.]

### 78.22.060 Presumption of extinguishment—Conditions—Statement of claim—Filing, recording, indexing.

Upon payment of fees provided in RCW 36.18.010, and if the surface owner files the claim of abandonment and extinguishment, together with a copy of the notice and the affidavit of publication, as required in RCW 78.22.050, in the county auditor’s office for the county where such interest is located then the mineral interest shall be conclusively presumed to be extinguished.

If a statement of claim of mineral interest is filed by the current mineral interest owner within the sixty-day period provided in RCW 78.22.050, together with payment of fees provided in RCW 36.18.010, the county auditor shall record, index, and make special notation in the index of the filing. [1984 c 252 § 6.]

### 78.22.070 Statement of claim—Notice and affidavit of publication—Auditor’s duties.

Upon receipt, the county auditor shall record a statement of claim or a notice and affidavit of publication in the dormant mineral interest index. When possible, the auditor shall also indicate by marginal notation on the instrument originally creating the mineral interest the recording of the statement of claim or notice and affidavit of publication. The county auditor shall record a statement of claim by cross-referencing in the dormant mineral interest index the name of the current owner of the mineral interest and the name of the original holder of the mineral interest as set out in the statement of claim. [1984 c 252 § 7.]

### 78.22.080 Exemptions from claim of abandonment and extinguishment.

Mineral interests retained or owned by any public entity or mineral interests resulting from land exchanges between public and private owners shall not be subject to a claim of abandonment and extinguishment. [1984 c 252 § 8.]

### 78.22.090 Waiver prohibited.

The provisions of this chapter may not be waived at any time prior to the expiration of the twenty-year period under RCW 78.22.010. [1984 c 252 § 9.]
prevent or mitigate conditions that would be detrimental to the environment and to protect the general welfare, health, safety, and property rights of the citizens of the state. Surface mining takes place in diverse areas where the geologic, topographic, climatic, biologic, and social conditions are significantly different, and reclamation specifications must vary accordingly. Therefore, the legislature finds that a balance between appropriate environmental regulation and the production and conservation of minerals is in the best interests of the citizens of the state. [1993 c 518 § 2; 1970 ex.s. c 64 § 2.]

Additional notes found at www.leg.wa.gov

78.44.011 Intent. The legislature recognizes that the extraction of minerals through surface mining has historically included regulatory involvement by both state and local governments.

It is the intent of the legislature to clarify that surface mining is an appropriate land use, subject to reclamation authority exercised by the department of natural resources and land use and operation regulatory authority by counties, cities, and towns. [1993 c 518 § 1.]

Additional notes found at www.leg.wa.gov

78.44.020 Purposes. The purposes of this chapter are:

(1) Provide that the usefulness, productivity, and scenic values of all lands and waters involved in surface mining within the state will receive the greatest practical degree of protection and reclamation at the earliest opportunity following completion of surface mining;

(2) Provide for the greatest practical degree of statewide consistency in the regulation of surface mines;

(3) Apportion regulatory authority between state and local governments in order to minimize redundant regulation of mining; and

(4) Ensure that reclamation is consistent with local land use plans. [2000 c 11 § 21; 1993 c 518 § 3; 1970 ex.s. c 64 § 3.]

78.44.031 Definitions. Unless the context clearly indicates otherwise, the definitions in this section apply throughout this chapter.

(1) "Approved subsequent use" means the post-surface-mining land use contained in an approved reclamation plan and approved by the local land use authority.

(2) "Completion of surface mining" means the cessation of mining and directly related activities in any segment of a surface mine that occurs when essentially all minerals that can be taken under the terms of the reclamation permit have been depleted except minerals required to accomplish reclamation according to the approved reclamation plan.

(3) "Department" means the department of natural resources.

(4) "Determination" means any action by the department including permit issuance, reporting, reclamation plan approval or modification, permit transfers, orders, fines, or refusal to issue permits.

(5) "Disturbed area" means any place where activities clearly in preparation for, or during, surface mining have physically disrupted, covered, compacted, moved, or otherwise altered the characteristics of soil, bedrock, vegetation, or topography that existed prior to such activity. Disturbed areas may include but are not limited to: Working faces, water bodies created by mine-related excavation, pit floors, the land beneath processing plant and stock pile sites, spoil pile sites, and equipment staging areas. Disturbed areas shall also include aboveground waste rock sites and tailing facilities, and other surface manifestations of underground mines.

Disturbed areas do not include:

(a) Surface mine access roads unless these have characteristics of topography, drainage, slope stability, or ownership that, in the opinion of the department, make reclamation necessary;

(b) Lands that have been reclaimed to all standards outlined in this chapter, rules of the department, any applicable SEPA document, and the approved reclamation plan; and

(c) Subsurface aspects of underground mines, such as portals, tunnels, shafts, pillars, and stopes.

6) "Miner" means any person or persons, any partnership, limited partnership, or corporation, or any association of persons, including every public or governmental agency engaged in surface mining.

7) "Minerals" means clay, coal, gravel, industrial minerals, metallic substances, peat, sand, stone, topsoil, and any other similar solid material or substance to be excavated from natural deposits on or in the earth for commercial, industrial, or construction use.

8) "Operations" means all mine-related activities, exclusive of reclamation, that include, but are not limited to activities that affect noise generation, air quality, surface and ground water quality, quantity, and flow, glare, pollution, traffic safety, ground vibrations, and/or significant or substantial impacts commonly regulated under provisions of land use or other permits of local government and local ordinances, or other state laws.

Operations specifically include:

(a) The mining or extraction of rock, stone, gravel, sand, earth, and other minerals;

(b) Blasting, equipment maintenance, sorting, crushing, and loading;

(c) On-site mineral processing including asphalt or concrete batching, concrete recycling, and other aggregate recycling;

(d) Transporting minerals to and from the mine, on site road maintenance, road maintenance for roads used extensively for surface mining activities, traffic safety, and traffic control.

9) "Overburden" means the earth, rock, soil, and topsoil that lie above mineral deposits.

10) "Permit holder" means any person or persons, any partnership, limited partnership, or corporation, or any association of persons, either natural or artificial, including every public or governmental agency engaged in surface mining and/or the operation of surface mines, whether individually, jointly, or through subsidiaries, agents, employees, operators, or contractors who holds a state reclamation permit.

11) "Reclamation" means rehabilitation for the appropriate future use of disturbed areas resulting from surface mining including areas under associated mineral processing equipment, areas under stockpiled materials, and above-

(2010 Ed.)
ground waste rock and tailing facilities, and all other surface disturbances associated with underground mines. Although both the need for and the practicability of reclamation will control the type and degree of reclamation in any specific surface mine, the basic objective shall be to reestablish on a perpetual basis the vegetative cover, soil stability, and water conditions appropriate to the approved subsequent use of the surface mine and to prevent or mitigate future environmental degradation.

12) "Reclamation setbacks" include those lands along the margins of surface mines wherein minerals and overburden shall be preserved in sufficient volumes to accomplish reclamation according to the approved plan and the minimum reclamation standards. Maintenance of reclamation setbacks may not preclude other mine-related activities within the reclamation setback.

13) "Recycling" means the reuse of minerals or rock products.

14) "Screening" consists of vegetation, berms or other topography, fencings, and/or other screens that may be required to mitigate impacts of surface mining on adjacent properties and/or the environment.

15) "Segment" means any portion of the surface mine that, in the opinion of the department:
   (a) Has characteristics of topography, drainage, slope stability, ownership, mining development, or mineral distribution, that make reclamation necessary;
   (b) Is not in use as part of surface mining and/or related activities; and
   (c) Has characteristics of topography, drainage, slope stability, ownership, mining development, or mineral distribution, that make reclamation necessary;

16) "SEPA" means the state environmental policy act, chapter 43.21C RCW and rules adopted thereunder.

17) (a) "Surface mine" means any area or areas in close proximity to each other, as determined by the department, where extraction of minerals results in:
   (i) More than three acres of disturbed area;
   (ii) Surface mined slopes greater than thirty feet high and steeper than 1.0 foot horizontal to 1.0 foot vertical; or
   (iii) More than one acre of disturbed area within an eight acre area, when the disturbed area results from mineral prospecting or exploration activities.

   (b) Surface mines include areas where mineral extraction from the surface or subsurface occurs by the auger method or by reworking mine refuse or tailings, when the disturbed area exceeds the size or height thresholds listed in (a) of this subsection.

   (c) Surface mining occurs when operations have created or are intended to create a surface mine as defined by this subsection.

   (d) Surface mining shall exclude excavations or grading used:
      (i) Primarily for on-site construction, on-site road maintenance, or on-site landfill construction;
      (ii) For the purpose of public safety or restoring the land following a natural disaster;
      (iii) For the purpose of removing stockpiles;
      (iv) For forest or farm road construction or maintenance on site or on contiguous lands;

   (v) Primarily for public works projects if the mines are owned or primarily operated by counties with 1993 populations of less than twenty thousand persons, and if each mine has less than seven acres of disturbed area; and
   (vi) For sand authorized by RCW 79A.05.630.

   (18) "Topsoil" means the naturally occurring upper part of a soil profile, including the soil horizon that is rich in humus and capable of supporting vegetation together with other sediments within four vertical feet of the ground surface. [2000 c 11 § 22; 1999 c 252 § 1; 1997 c 142 § 1; 1993 c 518 § 4]

78.44.040 Administration of chapter—Rule-making authority. The department of natural resources is charged with the administration of reclamation under this chapter. In order to implement and enforce this chapter, the department, under the administrative procedure act (chapter 34.05 RCW), may from time to time adopt those rules necessary to carry out the purposes of this chapter. [1993 c 518 § 6; 1984 c 215 § 2; 1970 ex.s. c 64 § 5]

78.44.045 Surface mining reclamation account. (1) The surface mining reclamation account is created in the state treasury. Annual mining fees, funds received by the department from state, local, or federal agencies for research purposes, as well as other mine-related funds and fines received by the department shall be deposited into this account. Except as otherwise provided in this section, the surface mine [mining] reclamation account may be used by the department only to:
   (a) Administer its regulatory program pursuant to this chapter;
   (b) Undertake research relating to surface mine regulation, reclamation of surface mine lands, and related issues; and
   (c) Cover costs arising from appeals from determinations made under this chapter.

   (2) At the end of each fiscal biennium, any money collected from fees charged under RCW 78.44.085 that was not used for the administration and enforcement of surface mining regulation under this chapter must be used by the department for surveying and mapping sand and gravel sites in the state.

   (3) Fines, interest, and other penalties collected by the department under the provisions of this chapter shall be used to reclaim surface mines abandoned prior to 1971. [2006 c 341 § 2; 1993 c 518 § 10]

Additional notes found at www.leg.wa.gov

78.44.050 Exclusive authority to regulate reclamation—Department may delegate enforcement authority to counties, cities, towns—Other laws not affected. The department shall have the exclusive authority to regulate surface mine reclamation. No county, city, or town may require for its review or approval a separate reclamation plan or application. The department may, however, delegate some or all of its enforcement authority by contractual agreement to a county, city, or town that employs personnel who are, in the
opinion of the department, qualified to enforce plans approved by the department. All counties, cities, or towns shall have the authority to zone surface mines and adopt ordinances regulating operations as provided in this chapter, except that county, city, or town operations ordinances may be preempted by the department during the emergencies outlined in RCW 78.44.200 and related rules.

This chapter shall not alter or preempt any provisions of the state water allocation and use laws (chapters 90.03 and 90.44 RCW), the state water pollution control laws (chapter 90.48 RCW), the state fish and wildlife laws (Title 77 RCW), state noise laws or air quality laws (Title 70 RCW), shoreline management (chapter 90.58 RCW), the state environmental policy act (chapter 43.21C RCW), state growth management (chapter 36.70A RCW), state drinking water laws (chapters 43.20 and 70.119A RCW), or any other state statutes. [2003 c 39 § 39; 1997 c 185 § 1; 1993 c 518 § 7; 1970 ex.s. c 64 § 6.]

78.44.055 Surface mining of coal—Preemption of chapter by federal laws, programs. In the event state law is preempted under federal surface mining laws relating to surface mining of coal or the department of natural resources determines that a federal program and its rules and regulations relating to the surface mining of coal are as stringent and effective as the provisions of this chapter, the provisions of this chapter shall not apply to such surface mining for which federal permits are issued until such preemption ceases or the department determines such chapter should apply. [1984 c 215 § 8. Formerly RCW 78.44.175.]

78.44.060 Investigations, research, etc.—Dissemination of information. The department shall have the authority to conduct, authorize, and/or participate in investigations, research, experiments, and demonstrations, and to collect and disseminate information relating to surface mining and reclamation of surface mined lands. [1993 c 518 § 8; 1970 ex.s. c 64 § 7.]

Additional notes found at www.leg.wa.gov

78.44.070 Cooperation with other agencies—Receipt and expenditure of funds. The department may cooperate with other governmental and private agencies and agencies of the federal government, and may reasonably reimburse them for any services the department requests that they provide. The department may also receive any federal funds, state funds and any other funds and expend them for reclamation of land affected by surface mining and for purposes enumerated in RCW 78.44.060. [1993 c 518 § 9; 1970 ex.s. c 64 § 8.]

Additional notes found at www.leg.wa.gov

78.44.081 Reclamation permits required—Applications. After July 1, 1993, no miner or permit holder may engage in surface mining without having first obtained a reclamation permit from the department. Operating permits issued by the department between January 1, 1971, and June 30, 1993, shall be considered reclamation permits. A separate permit shall be required for each noncontiguous surface mine. The reclamation permit shall consist of the permit forms and any exhibits attached thereto. The permit holder shall comply with the provisions of the reclamation permit unless waived and explained in writing by the department.

Prior to receiving a reclamation permit, an applicant must submit an application on forms provided by the department that shall contain the following information and shall be considered part of the reclamation permit:

(1) Name and address of the legal landowner, or purchaser of the land under a real estate contract;
(2) The name of the applicant and, if the applicants are corporations or other business entities, the names and addresses of their principal officers and resident agent for service of process;
(3) A reasonably accurate description of the minerals to be surface mined;
(4) Type of surface mining to be performed;
(5) Estimated starting date, date of completion, and date of completed reclamation of surface mining;
(6) Size and legal description of the permit area and maximum lateral and vertical extent of the disturbed area;
(7) Expected area to be disturbed by surface mining during (a) the next twelve months, and (b) the following twenty-four months;
(8) Any applicable SEPA documents; and
(9) Other pertinent data as required by the department.

The reclamation permit shall be granted for the period required to deplete essentially all minerals identified in the reclamation permit on the land covered by the reclamation plan. The reclamation permit shall be valid until the reclamation is complete unless the permit is canceled by the department. [1997 c 192 § 1; 1993 c 518 § 11.]

Additional notes found at www.leg.wa.gov

78.44.083 Reclamation permit—Refusal to issue. The department shall refuse to issue a reclamation permit if it is determined during the SEPA process that the impacts of a proposed surface mine cannot be adequately mitigated.

The department or county, city, or town may refuse to issue any other permit at any other location to any miner or permit holder who fails to rectify deficiencies set forth in an order of the department within the requisite time schedule. However, the department or county, city, or town shall issue all appropriate permits when all deficiencies are corrected at each surface mining site. [1993 c 518 § 33.]

Additional notes found at www.leg.wa.gov

78.44.085 Application fee—Annual permit fee—Confidential records—Appeals—Collection of fees. (1) An applicant for an expansion of a permitted surface mine, a new reclamation permit under RCW 78.44.081, or for combining existing public or private reclamation permits, shall pay a nonrefundable application fee to the department before being granted the requested permit or permit expansion. The amount of the application fee shall be two thousand five hundred dollars.

(2) Permit holders submitting a revision to an application for an existing reclamation plan that is not an expansion shall pay a nonrefundable reclamation plan revision fee of one thousand dollars.

Additional notes found at www.leg.wa.gov
(3) After June 30, 2006, each public or private permit holder shall pay an annual permit fee in an amount pursuant to this section. The annual permit fee shall be payable to the department prior to the reclamation permit being issued and on the anniversary of the permit date each year thereafter.

(4)(a) Except as otherwise provided in this subsection, each public or private permit holder must pay an annual fee under this section based on the categories of aggregate or mineral mined or extracted during the previous twelve months, as follows:

(i) Zero to fifty thousand tons: A fee of one thousand two hundred fifty dollars;
(ii) More than fifty thousand tons to three hundred fifty thousand tons: A fee of two thousand five hundred dollars;
(iii) More than three hundred fifty thousand tons: A fee of three thousand five hundred dollars.

(b) Annual fees paid by a county for mines used exclusively for public works projects and having less than seven acres of disturbed area per mine shall not exceed one thousand dollars.

(c) Annual fees are waived for all mines used primarily for public works projects if the mines are owned and primarily operated by counties with 1993 populations of less than twenty thousand persons, and if each mine has less than seven acres of disturbed area.

(5) Any production records, mineral assessments, and trade secrets submitted by a permit holder, mine operator, or landowner to the department are to be held as confidential and not released as part of a public records request under chapter 19.16 RCW when permit fees or fines are past due. The collection agency may impose its own fees for collection delinquent permit fees or fines. The department may refer matters to a collection agency licensed under chapter 42.56 RCW.

(6) Appeals from any determination of the department shall not stay the requirement to pay any annual permit fee. Failure to pay the annual fees may constitute grounds for an order to suspend surface mining, pay fines, or cancel the reclamation permit as provided in this chapter.

(7) All fees collected by the department shall be deposited into the surface mining reclamation account created in RCW 78.44.045.

(8) If the department delegates enforcement responsibilities to a county, city, or town, the department may allocate funds collected under this section to the county, city, or town.

(9) Within sixty days after receipt of an application for a new or expanded permit, the department shall advise applicants of any information necessary to successfully complete the application.

(10) In addition to other enforcement authority, the department may refer matters to a collection agency licensed under chapter 19.16 RCW when permit fees or fines are past due. The collection agency may impose its own fees for collecting delinquent permit fees or fines. [2006 c 341 § 1; 2001 1st sp.s. c 5 § 1; 1997 c 413 § 1; 1996 c 70 § 1; 1993 c 518 § 14.]

Effective date—2001 1st sp.s. c 5: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect July 1, 2001." [2001 1st sp.s. c 5 § 3.]

78.44.091 Reclamation plans—Approval process.

An applicant shall provide a reclamation plan and copies

acceptable to the department prior to obtaining a reclamation

permit. The department shall have the sole authority to

approve reclamation plans. Reclamation plans or modified

reclamation plans submitted to the department after June 30,

1993, shall meet or exceed the minimum reclamation stan-

dards set forth in this chapter and by the department in rule.

Each applicant shall also supply copies of the proposed plans

and final reclamation plan approved by the department to the

county, city, or town in which the mine will be located. The

department shall solicit comment from local government

prior to approving a reclamation plan. The reclamation plan

shall include:

(1) A written narrative describing the proposed mining

and reclamation scheme with:

(a) A statement of a proposed subsequent use of the land

after reclamation that is consistent with the local land use
designation. Approval of the reclamation plan shall not vest

the proposed subsequent use of the land;

(b) If the permit holder is not the sole landowner, a copy

of the conveyance or a written statement that expressly grants

or reserves the right to extract minerals by surface mining

methods;

(c) A simple and accurate legal description of the permit

area and disturbed areas;

(d) The maximum depth of mining;

(e) A reasonably accurate description of the minerals to

be mined;

(f) A description of the method of mining;

(g) A description of the sequence of mining that will pro-

vide, within limits of normal procedures of the industry, for

completion of surface mining and associated disturbance on

each portion of the permit area so that reclamation can be in-

itiated at the earliest possible time on each segment of the

mine;

(h) A schedule for progressive reclamation of each seg-

ment of the mine;

recharge areas, special protection areas as defined by chapter

90.48 RCW and implementing rules, public water supply

watersheds, sole source aquifers, wellhead protection areas,

and designated aquifer protection areas as set forth in chapter

36.36 RCW, a thoroughly documented hydrogeologic ana-

lysis of the reclamation plan may be required; and

(k) Additional information as required by the department

including but not limited to: The positions of reclamation

setbacks and screening, conservation of topsoil, interim re-

clamation, revegetation, postmining erosion control, drainage

control, slope stability, disposal of mine wastes, control of fill

restoration appropriate to the proposed subsequent use of the

land and meeting the minimum reclamation standards;

surface water bodies and wetlands both prior to and after

mining.

(3) At least two cross sections of the mine including all

applicable data required in the narrative and map portions of

the reclamation plan.
78.44.101 Joint reclamation plans may be required. Where two or more surface mines join along a common boundary, the department may require submission of a joint reclamation plan in order to provide for optimum reclamation or to avoid waste of mineral resources. Such joint reclamation plans may be in the form of a single collaborative plan submitted by all affected permit holders or as individual reclamation plans in which the schedule of reclamation, finished contours, and revegetation match reclamation plans of adjacent permit holders. [1993 c 518 § 13.]

78.44.111 Segmental reclamation—Primary objective. The permit holder shall reclaim each segment of the mine within two years of completion of surface mining on that segment except as provided in a segmental reclamation agreement approved in writing by the department. The primary objective of a segmental reclamation agreement should be to enhance final reclamation. [1993 c 518 § 5.]

Additional notes found at www.leg.wa.gov

78.44.121 Reclamation setbacks—Exemption. Reclamation setbacks shall be as follows unless waived by the department:

1. The reclamation setback for unconsolidated deposits within mines permitted after June 30, 1993, shall be equal to the maximum anticipated height of the adjacent working face or as determined by the department. Setbacks and buffers may be destroyed as part of final reclamation of each segment if approved by the department.

2. The minimum reclamation setback for consolidated materials within mines permitted after June 30, 1993, shall be thirty feet or as determined by the department.

3. An exemption from this section may be granted by the department following a written request. The department may consider submission of a plan for backfilling acceptable to the department, a geotechnical slope-stability study, proof of a dedicated source of fill materials, written approval of contiguous landowners, and other information before granting an exemption. [1993 c 518 § 18.]

78.44.131 Reclamation specifics—Basic objective—Modifications for metals mining and milling operations—Timeline. The need for, and the practicability of, reclamation shall control the type and degree of reclamation in any specific instance. However, the basic objective of reclamation is to reestablish on a continuing basis the vegetative cover, slope stability, water conditions, and safety conditions suitable to the proposed subsequent use consistent with local land use plans for the surface mine site.

Each permit holder shall comply with the minimum reclamation standards in effect on the date the permit was issued and any additional reclamation standards set forth in the approved reclamation plan. The department may modify, on a site specific basis, the minimum reclamation standards for metals mining and milling operations regulated under chapter 232, Laws of 1994 in order to achieve the reclamation and closure objectives of that chapter. The basic objective of reclamation for these operations is the reestablishment on a continuing basis of vegetative cover, slope stability, water conditions, and safety conditions.

Reclamation activities, particularly those relating to control of erosion and mitigation of impacts of mining to adjacent areas, shall, to the extent feasible, be conducted simultaneously with surface mining, and in any case shall be initiated at the earliest possible time after completion of surface mining on any segment of the permit area.

All reclamation activities shall be completed not more than two years after completion or abandonment of surface mining on each segment of the area for which a reclamation permit is in force.

The department may by contract delegate enforcement of provisions of reclamation plans to counties, cities, and towns. A county, city, or town performing enforcement functions may not impose any additional fees on permit holders. [1994 c 232 § 24; 1993 c 518 § 20.]

78.44.141 Reclamation—Minimum standards—Waiver. Reclamation of surface mines permitted after June 30, 1993, and reclamation of surface mine segments addressed by reclamation plans modified after June 30, 1994, shall meet the following minimum standards except as waived in writing by the department:

1. Prior to surface mining, permit holders shall carefully stockpile all topsoil on the site for use in reclamation, or immediately move topsoil to reclaim adjacent segments, except when the approved subsequent use does not require replacing the topsoil. Topsoil needed for reclamation shall not be sold as a mineral nor mixed with sterile soils. Stockpiled materials used as screening shall not be used for reclamation until such time as the appropriate county or municipal government has given its approval.

2. The department may require that clearly visible, permanent monuments delineating the permit boundaries and maximum extent of the disturbed area be set at appropriate
places around the mine site. The permit holder shall maintain the monuments until termination of the reclamation permit.

(3) All minimum reclamation standards may be waived in writing by the department in order to accommodate unique and beneficial reclamation schemes such as parks, swimming facilities, buildings, and wildlife reserves. Such waivers shall be granted only after written approval by the department of a reclamation plan describing the variances to the minimum reclamation standards, receipt of documentation of SEPA compliance, and written approvals from the landowner and by the local land use authority.

(4) All surface-mined slopes shall be reclaimed to the following minimum standards:

(a) In surface mines in soil, sand, gravel, and other unconsolidated materials, all reclaimed slopes shall:
   (i) Have varied steepness;
   (ii) Have a sinuous appearance in both profile and plan view;
   (iii) Have no large rectilinear topographic elements;
   (iv) Generally have slopes of between 2.0 and 3.0 feet horizontal to 1.0 foot vertical or flatter except in limited areas where steeper slopes are necessary in order to create sinuous topography and to control drainage;
   (v) Not exceed 1.5 feet horizontal to 1.0 foot vertical except as necessary to blend with adjacent natural slopes;
   (vi) Be compacted if significant backfilling is required to produce the final reclaimed slopes and if the department determines that compaction is necessary.

(b) Slopes in consolidated materials shall have no prescribed slope angle or height, but where a severely hazardous condition is created by mining and that is not indigenous to the immediate area, the slopes shall not exceed 2.0 feet horizontal to 1.0 foot vertical. Steeper slopes shall be acceptable in areas where evidence is submitted that demonstrates that the geologic or topographic characteristics of the site preclude reclamation of slopes to such angle or height or that such slopes constitute an acceptable subsequent use under local land use regulations.

(c) Surface mines in which the seasonal or permanent water tables have been penetrated, thereby creating swamps, ponds, or lakes useful for recreational, wildlife habitat, water quality control, or other beneficial wetland purposes shall be reclaimed in the following manner:
   (i) For slopes that are below the permanent water table in soil, sand, gravel, and other unconsolidated materials, the slope angle shall be no steeper than 1.5 feet horizontal to 1.0 foot vertical;
   (ii) Generally, solid rock banks shall be shaped so that a person can escape from the water, however steeper slopes and lack of water egress shall be acceptable in rural, forest, or mountainous areas or where evidence is provided that such slopes would constitute an acceptable subsequent use under local land use regulations;
   (iii) Both standpipes and armored spillways or other measures to prevent undesirable overflow or seepage shall be provided to stabilize all such water bodies within the disturbed area; and
   (iv) Where lakes, ponds, or swamps are created, the permit holder shall provide measures to establish a beneficial wetland by developing natural wildlife habitat and incorporating such measures as irregular shoreline configurations, sinuous bathymetry and shorelines, varied water depths, peninsulas, islands, and subaqueous areas less than 1.5 foot deep during summer low-water levels. Clay-bearing material placed below water level may be required to avoid creating sterile wetlands.

(d) Final topography shall generally comprise sinuous contours, chutes and buttresses, spurs, and rolling mounds and hills, all of which shall blend with adjacent topography to a reasonable extent. Straight planar slopes and right angles should be avoided.

(e) The floors of mines shall generally grade gently into postmining drainages to preclude sheet-wash erosion during intense precipitation, except where backgrading is appropriate for drainage control, to establish wetlands, or to trap sediment.

(f) Topsoil shall be restored as necessary to promote effective revegetation and to stabilize slopes and mine floors. Where limited topsoil is available, topsoil shall be placed and revegetated in such a way as to ensure that little topsoil is lost to erosion.

(g) Where surface mining has exposed natural materials that may create polluting conditions, including but not limited to acid-forming coals and metalliferous rock or soil, such conditions shall be addressed according to a method approved by the department. The final ground surface shall be graded so that surface water drains away from these materials.

(h) All grading and backfilling shall be made with nonnoxious, noncombustible, and relatively incompactible solids unless the permit holder provides:
   (i) Written approval from all appropriate solid waste regulatory agencies; and
   (ii) Any and all revisions to such written approval during the entire time the reclamation permit is in force.

(i) Final reclaimed slopes should be left roughly graded, preserving equipment tracks, depressions, and small mounds to trap clay-bearing soil and promote natural revegetation. Where reasonable, final equipment tracks should be oriented in order to trap soil and seeds and to inhibit erosion.

(j) Pit floors should be bulldozed or ripped to foster revegetation.

(5) Drainages shall be graded and contain adequate energy dissipation devices so that essentially natural conditions of water velocity, volume, and turbidity are reestablished within six months of reclamation of each segment of the mine. Ditches and other artificial drainages shall be constructed on each reclaimed segment to control surface water, erosion, and siltation and to direct runoff to a safe outlet. Diversion ditches including but not limited to channels, flumes, tightlines and retention ponds shall be capable of carrying the peak flow at the mine site that has the probable recurrence frequency of once in twenty-five years as determined from data for the twenty-five year, twenty-four hour precipitation event published by the national oceanic and atmospheric administration. The grade of such ditches and channels shall be constructed to limit erosion and siltation. Natural and other drainage channels shall be kept free of equipment, wastes, stockpiles, and overburden.

(6) Impoundment of water shall be an acceptable reclamation technique provided that approvals of other agencies with jurisdiction are obtained and:
(a) Proper measures are taken to prevent undesirable seepage that could cause flooding outside the permitted area or adversely affect the stability of impoundments or adjacent slopes;

(b) Both standpipes and armored spillways or other measures necessary to control overflow are provided.

(7) Revegetation shall be required as appropriate to stabilize slopes, generate new topsoil, reduce erosion and turbidity, mask rectilinear contours, and restore the scenic value of the land to the extent feasible as appropriate to the approved subsequent use. Although the scope of and necessity for revegetation will vary according to the geography, precipitation, and approved subsequent use of the site, the objective of segmental revegetation is to reestablish self-sustaining vegetation and conditions of slope stability, surface water quality, and appearance before release of the reclamation permit. Revegetation shall normally meet the following standards:

(a) Revegetation shall commence during the first proper growing season following restoration of slopes on each segment unless the department has granted the permit holder a written time extension.

(b) In eastern Washington, the permit holder may not be able to achieve continuous ground cover owing to arid conditions or sparse topsoil. However, revegetation shall be as continuous as reasonably possible as determined by the department.

(c) Revegetation generally shall include but not be limited to diverse evergreen and deciduous trees, shrubs, grasses, and deep-rooted ground cover.

(i) For western Washington, nitrogen-fixing species including but not limited to alder, white clover, and lupine should be included in dry areas. In wet areas, tubers, sedges, wetland grasses, willow, cottonwood, cedar, and alder are appropriate.

(ii) In eastern Washington, lupine, white clover, Russian olive, black locust, junipers, and pines are among appropriate plants. In wet areas, cottonwood, tubers, and sedges are appropriate.

(d) The requirements for revegetation may be reduced or waived by the department where erosion will not be a problem in rural areas where precipitation exceeds thirty inches per annum, or where revegetation is inappropriate for the approved subsequent use of the surface mine.

(e) In areas where revegetation is critical and conditions are harsh, the department may require irrigation, fertilization, and importation of clay or humus-bearing soils to establish effective vegetation.

(f) The department may refuse to release a reclamation permit or performance security until it deems that effective revegetation has commenced. [1993 c 518 § 21.]

78.44.151 Reclamation plans—Modification, when required—SEPA. (1) The permit holder may modify the reclamation plan at any time during the term of the permit provided that the modified reclamation plan meets the protections, mitigations, and reclamation goals of RCW 78.44.091, 78.44.131, and 78.44.141.

(2) The department may require a permit holder to modify the reclamation plan if the department determines:

(a) That the previously approved reclamation plan has not been modified during the past ten years; or

(b) That the permit holder has violated or is not substantially following the previously approved reclamation plan.

(3) Modified reclamation plans shall be reviewed by the department as lead agency under SEPA. Such SEPA analyses shall consider only those impacts relating directly to the proposed modifications. Copies of proposed and approved modifications shall be sent to the appropriate county, city, or town. [1997 c 192 § 3; 1993 c 518 § 23.]

Additional notes found at www.leg.wa.gov

78.44.161 Reclamation compliance—Inspection of disturbed area—Special inspection requirements for metals mining and milling operations. The department may order at any time an inspection of the disturbed area to determine if the miner or permit holder has complied with the reclamation permit, rules, and this chapter.

The department shall have special inspection requirements for metals mining and milling operations regulated under chapter 232, Laws of 1994. The department shall inspect these mining operations at least quarterly, unless prevented by inclement weather conditions, in order to ensure that the permit holder is in compliance with the reclamation permit, rules, and this chapter. The department shall conduct additional inspections as needed during the construction phase of these mining operations in order to ensure compliance with the reclamation permit, rules, and this chapter. [1994 c 232 § 22; 1993 c 518 § 25.]

Additional notes found at www.leg.wa.gov

78.44.171 Reclamation—Transfer of permits. Reclamation permits shall be transferred to a subsequent permit holder and the department shall release the former permit holder from the duties imposed by this chapter if:

(1) Both permit holders comply with all rules of the department addressing requirements for transferring a permit; and

(2) Unless waived by the department, the mine and all others operated by both the former and subsequent permit holders and their principal officers or owners are in compliance with this chapter and rules. [1993 c 518 § 22.]

Additional notes found at www.leg.wa.gov

78.44.181 Reclamation—Report by permit holder on anniversary date. On the anniversary date of the reclamation permit each year thereafter until reclamation is completed and approved, the permit holder shall file a report of activities completed during the preceding year. The report shall be on a form prescribed by the department. [1993 c 518 § 24.]

Additional notes found at www.leg.wa.gov

78.44.190 Deficiencies—Order to rectify—Time extension. (1) The department may issue an order to rectify deficiencies to the following: (a) Any permit holder, miner, or other person who authorizes, directs, violates, or who directly benefits by contracting with or employing another to
violates this chapter, the rules adopted by the department, a reclamation permit, or a reclamation plan; or (b) a permit holder whose surface mine is out of compliance with the provision of this chapter, the rules adopted by the department, or the permit holder’s current and valid reclamation permit or reclamation plan.

(2) The order shall describe the deficiencies and shall initially require the order recipient to correct all deficiencies by a date that is no later than sixty days after the department’s issuance of the order. The department may extend the period to correct deficiencies for delays clearly beyond the order recipient’s control, but only when the person is, in the opinion of the department, making every reasonable effort to comply. This order becomes final and effective after being upheld upon completion of all administrative and judicial review proceedings or following notice and a failure to timely request a hearing. [2007 c 192 § 2; 1993 c 518 § 26.]

Additional notes found at www.leg.wa.gov

78.44.200 Immediate danger—Emergency notice and order to rectify deficiencies—Emergency order to suspend surface mining. When the department finds that a permit holder is conducting surface mining in any manner not authorized by:

(1) This chapter;
(2) The rules adopted by the department;
(3) The approved reclamation plan; or
(4) The reclamation permit;
and that activity has created a situation involving an immediate danger to the public health, safety, welfare, or environment requiring immediate action, the department may issue an emergency notice and order to rectify deficiencies, and/or an emergency order to suspend surface mining. These orders shall be effective when entered. The department may take such action as is necessary to prevent or avoid the danger to the public health, safety, welfare, or environment that justifies use of emergency adjudication. The department shall give such notice as is practicable to the permit holder or miner who is required to comply with the order. The order shall comply with the requirements of the administrative procedure act.

Regulations of surface mining operations administered by other state and local agencies shall be preempted by this section to the extent that the time schedule and procedures necessary to rectify the emergency situation, as determined by the department, conflict with such local regulation. [1993 c 518 § 27.]

Additional notes found at www.leg.wa.gov

78.44.210 Suspension of a reclamation permit. The department, through the state geologist or assistant state geologist, may suspend a reclamation permit whenever a permit holder or surface mine is out of compliance with a final department order. The suspension order must be served on the permit holder by certified mail with return receipt requested or by personal service. The order must specify the final order alleged to be violated, the facts upon which the conclusion of violation is based, and the conclusions of law. This order becomes final and effective after being upheld upon completion of all administrative review proceedings or following notice and a failure to timely request a hearing. No surface mining or reclamation may occur while a permit is suspended unless under the express written authority of the department. [2007 c 192 § 5; 1993 c 518 § 28.]

Additional notes found at www.leg.wa.gov

78.44.220 Declaration of abandonment—Reclamation—Subsequent miner. The department may issue a declaration of abandonment when it determines that all surface mining has ceased for a period of one hundred eighty consecutive days not set forth in the permit holder’s reclamation plan or when, by reason of inspection of the permit area, or by any other means, the department determines that the mine has in fact been abandoned by the permit holder except that abandonment shall not include normal interruptions of surface mining resulting from labor disputes, economic conditions associated with lack of smelting capacity or availability of appropriate transportation, war, social unrest, demand for minerals, maintenance and repairs, and acts of God.

Following a declaration of abandonment, the department shall require the permit holder to complete reclamation in accordance with this chapter. If the permit holder fails to do so, the department shall proceed to do the necessary reclamation work pursuant to RCW 78.44.240.

If another miner applies for a permit on a site that has been declared abandoned, the department may, in its discretion, cancel the reclamation permit of the permit holder and issue a new reclamation permit to the applicant. The department shall not issue a new permit unless it determines that such issuance will be an effective means of assuring that the site will ultimately be reclaimed. The applicant must agree to assume the reclamation responsibilities left unfinished by the first miner, in addition to meeting all requirements for issuance of a new permit. [1993 c 518 § 29.]

Additional notes found at www.leg.wa.gov

78.44.230 Abandonment—Cancellation of the reclamation permit. When the department determines that a surface mine has been abandoned, it may cancel the reclamation permit. The permit holder shall be informed of such actions by a department notification of illegal abandonment and cancellation of the reclamation permit. [1993 c 518 § 30.]

Additional notes found at www.leg.wa.gov

78.44.240 Reclamation by the department—Order to submit performance security—Cost recovery. The department may, with the staff, equipment, and material under its control, or by contract with others, reclaim the disturbed areas when it finds that reclamation has not occurred in any segment of a surface mine within two years of completion of mining or of declaration of abandonment and the permit holder is not actively pursuing reclamation.

If the department intends to undertake the reclamation, the department shall issue an order to submit performance security requiring the permit holder or surety to submit to the department the amount of moneys posted pursuant to RCW 78.44.087. If the amount specified in the order to submit performance security is not paid within twenty days after issuance of the notice, the attorney general upon request of the department shall bring an action on behalf of the state in
a superior court to recover the amount specified and associated legal fees.

The department may proceed at any time after issuing the order to submit performance security with reclamation of the site according to the approved reclamation plan or according to a plan developed by the department that meets the minimum reclamation standards.

The department shall keep a record of all expenses incurred in carrying out any reclamation project or activity authorized under this section, including:

(1) Reclamation;
(2) A reasonable charge for the services performed by the state’s personnel and the state’s equipment and materials utilized; and
(3) Administrative and legal expenses related to reclamation of the surface mine.

The department shall refund to the surety or permit holder all amounts received in excess of the amount of expenses incurred. If the amount received is less than the expenses incurred, the attorney general, upon request of the department, may bring an action against the permit holder on behalf of the state in the superior court to recover the remaining costs listed in this section. [1993 c 518 § 31.]

Additional notes found at www.leg.wa.gov

78.44.250 Fines—Civil penalties—Damage recovery. Each order of the department may impose a fine or fines in the event that a miner or permit holder fails to obey the order of the department. When a miner or permit holder fails to comply with an order of the department, the miner or permit holder shall be subject to a civil penalty in an amount not more than ten thousand dollars for each violation plus interest based upon a schedule of fines set forth by the department in rule. Procedures for imposing a penalty and setting the amount of the penalty shall be as provided in RCW 90.48.144. Each day on which a miner or permit holder continues to disobey any order of the department shall constitute a separate violation. If the penalty and interest is not paid to the department after it becomes due and payable, the attorney general, upon request of the department, may bring an action in the name of the state of Washington to recover the penalty, interest, mitigation for environmental damages, and associated legal fees. Decisions of the department are subject to review by the pollution control hearings board.

All fines, interest, penalties, and other damage recovery costs from mines regulated by the department shall be credited to the surface mining reclamation account. [1993 c 518 § 32.]

Additional notes found at www.leg.wa.gov

78.44.260 Operating without permit—Penalty. Any miner or permit holder conducting surface mining within the state of Washington without a valid reclamation permit shall be guilty of a gross misdemeanor. Surface mining outside of the permitted area shall constitute illegal mining without a valid reclamation permit. Each day of mining without a valid reclamation permit shall constitute a separate offense. [1993 c 518 § 34; 1970 ex.s. c 64 § 16. Formerly RCW 78.44.150.]

Additional notes found at www.leg.wa.gov

78.44.270 Appeals—Standing. Department determinations under this chapter may be appealed to the pollution control hearings board as provided in RCW 43.21B.230. Only a person aggrieved within the meaning of RCW 34.05.530 has standing and can file an appeal. [2010 c 210 § 32; 1993 c 518 § 35; 1989 c 175 § 166; 1970 ex.s. c 64 § 18. Formerly RCW 78.44.170.]

78.44.280 Underground operation—Surface disturbances subject to chapter. Surface disturbances caused by an underground metals mining and milling operation are subject to the requirements of this chapter if the operation is proposed after June 30, 1999. An operation is proposed when an agency is presented with an application for an operation or expansion of an existing operation having a probable significant adverse environmental impact under chapter 43.21C RCW. The department of ecology shall retain authority for reclamation of surface disturbances caused by an underground operation operating at any time prior to June 30, 1999, unless the operator requests that authority for reclamation of surface disturbances caused by such operation be transferred to the department under the requirements of this chapter. [1999 c 252 § 2.]

Additional notes found at www.leg.wa.gov

78.44.300 Reclamation awards—Recognition of excellence. The department shall create reclamation awards in recognition of excellence in reclamation or reclamation research. Such awards shall be presented to individuals, miners, operators, companies, or government agencies performing exemplary surface mining reclamation in the state of Washington. The department shall designate a percent of the state annual fees as funding of the awards. [1993 c 518 § 37.]

Additional notes found at www.leg.wa.gov

78.44.310 Reclamation consulting—No cost service. The department shall establish a no-cost consulting service within the department to assist miners, permit holders, local government, and the public in technical matters related to mine regulation, mine operations, and reclamation. The department shall prepare concise, printed information for the public explaining surface mining activities, timelines for permits and reviews, laws, and the role of governmental agencies involved in surface mining, including how to contact all regulators. The department shall not be held liable for any negligent advice. [1997 c 184 § 1; 1993 c 518 § 38.]

78.44.320 Definitions applicable to RCW 78.44.330. The definitions in this section apply throughout RCW 78.44.330 unless the context clearly requires otherwise.

(1) "Bedrock sluice" means a wood or metal flume or trough that is permanently attached to the bedrock of the creek and is equipped with transverse riffles across the bottom of the unit and used to recover heavy mineral sands.

(2) "Dredge" means a subsurface hose from one and one-half to ten inches in diameter that is powered by an engine
and is used to draw up auriferous material that is then separated in the sluice portion of the unit.

(3) "Flume" means a trough used to convey water.

(4) "Mining claim" means a portion of the public lands claimed for the valuable minerals occurring in those lands and for which the mineral rights are obtained under federal law or a right that is recognized by the United States bureau of land management and given an identification number.

(5) "Quartz mill" means a facility for processing ores or gravel.

(6) "Rocker box" means a unit constructed of a short trough attached to curved supports that allow the unit to be rocked from side to side.

(7) "Sluice box" means a portable unit constructed of a wood or metal flume or trough equipped with transverse ripples across the bottom of the unit and that is used to recover heavy mineral sands. [2003 c 335 § 1.]

**78.44.330 Mineral trespass—Penalty.** (1) A person commits the crime of mineral trespass if the person intentionally and without the permission of the claim holder or person conducting the mining operation:

(a) Interferes with a lawful mining operation or stops, or causes to be stopped, a lawful mining operation;

(b) Enters a mining claim posted as required in chapter 78.08 RCW and disturbs, removes, or attempts to remove any mineral from the claim site;

(c) Tamper with or disturbs a flume, rocker box, bed-rock sluice, sluice box, dredge, quartz mill, or other mining equipment at a posted mining claim;

(d) Defaces a location stake, side post, corner post, landmark, monument, or posted written notice within a posted mining claim.

(2) Mineral trespass is a class C felony. [2003 c 335 § 2.]

**78.44.340 Mineral trespass—Limitation on application.** (1) RCW 78.44.330 does not apply to conduct that would otherwise constitute an offense when it is required or authorized by law or judicial decree or is performed by a public servant in the reasonable exercise of official powers, duties, or functions.

(2) As used in subsection (1) of this section, "laws or judicial decrees" includes but is not limited to:

(a) Laws defining duties and functions of public servants;

(b) Laws defining duties of private citizens to assist public servants in the performance of certain of their functions; and

(c) Judgments and orders of courts. [2003 c 335 § 3.]

**78.44.350 Blanket performance security.** (1) A permit holder, in lieu of an individual performance security for each mining site, may file a blanket performance security with the department for their group of permits.

(2) The department may reduce the required performance security calculated from its standard method prescribed in RCW 78.44.087, to an amount not to exceed the sum of reclamation security calculated by the department for the two surface mines with the largest performance security obligations, for nonmetal and nonfuel surface mines that meet the following conditions:

(a) The permit holder has had a valid reclamation permit for more than ten years and can demonstrate exemplary mining and reclamation practices that have been accepted by the department;

(b) The landowner agrees to allow the permit holder to hold a blanket security. The department must include, on forms to be signed by the landowner, notice of the risk of a lien on the landowner’s lands; and

(c) The permit holder can demonstrate substantial financial ability to perform the reclamation in the approved reclamation plan and permit.

(3) Permit holders are not eligible for blanket securities if they are in violation of a final order of the department.

(4) The department must consider the compliance history and the state of the existing surface mines of the permit holder before approving any blanket performance security.

(5) Lands covered by a blanket performance security are subject to a lien placed by the department in the event of abandonment.

(6) In lieu of the performance security required of the permit holder, the department may accept a similar security from the landowner, equal to the estimated cost of reclamation as determined by the department. [2006 c 341 § 4.]

**78.44.360 Performance security insufficient to cover cost of reclamation—Lien established in favor of department.** (1) To the extent a performance security is insufficient to cover the cost of reclamation performed by the department, a lien shall be established in favor of the department upon all of the permit holder’s real and personal property.

(2) The lien attaches upon the filing of a notice of claim of lien with the county clerk of the county in which the property is located. The notice of lien claim must contain a true statement of the demand, the insufficiency of the performance security to compensate the department, and the failure of the permit holder to perform the reclamation required.

(3) The lien becomes effective when filed.

(4) The lien created by this section may be foreclosed by a suit in the superior court in the manner provided by law for the foreclosure of other liens on real or personal property. [2006 c 341 § 5.]

**78.44.370 Notice of correction.** (1) The department may issue a notice of correction to the following: (a) Any permit holder, miner, or other person who authorizes, directs, violates, or who directly benefits by contracting with or employing another to violate this chapter, the rules adopted by the department, a reclamation permit, or a reclamation plan; or (b) a permit holder whose surface mine is out of compliance with the provisions of this chapter, the rules adopted by the department, or the permit holder’s current or valid reclamation permit or reclamation plan. The department’s authority to issue or its issuance of a notice of correction does not limit the department’s authority to pursue enforcement actions, except as stated in other laws.

(2) The notice of correction must describe the items that need correction and must provide a reasonable time for the recipient to make corrections. The notice of correction must
identify when, where, and to whom a request to extend the time to achieve compliance may be filed. The department may grant an extension when there is good cause for the request. This notice of correction is not an enforcement action and is not subject to administrative or judicial appeal. [2007 c 192 § 1.]

**78.44.380 Stop work orders.** (1) The department may issue an order to stop all surface mining to any permit holder, miner, or other person who authorizes, directs, or conducts such activities without a valid surface mine reclamation permit. This order is effective upon issuance unless otherwise stated in the order. Administrative appeal of the order to stop work does not stay the stop work requirement. The department shall notify the local jurisdiction of record when a stop work order has been issued for operating without a valid reclamation permit.

(2) The department may issue an order to stop surface mining occurring outside of any permit area to a permit holder that does not have a legal right to occupy the affected area. This order is effective upon issuance unless otherwise stated in the order. An administrative appeal of the order to stop work does not stay the stop work requirement.

(3) Where a permit holder is conducting surface mining activities outside of its permit boundary, but within land that it has the right to occupy, the department may issue an order to stop surface mining or mining-related activities occurring outside of the authorized area after the permit holder fails to comply with a notice of correction. The notice of correction must specify the corrections necessary as per the violation and provide a reasonable time to do so. This order is effective upon issuance unless otherwise stated in the order. An administrative appeal of the order to stop work does not stay the stop work requirement.

(4) Stop work orders must be in writing, delivered by United States certified mail with return receipt requested, facsimile, or by hand to the permit holder of record. The order must state the facts supporting the violation, the law being violated, and the specific activities being stopped. Stop work orders must be signed by the state geologist or an assistant state geologist. The pollution control hearings board shall proceed as quickly as feasible to complete any requested adjudicative proceedings unless the parties stipulate to an appeal timeline or the department’s stop work order states that it is not effective until after the administrative review process. If the recipient appeals the order, the recipient may file a motion for stay with the presiding officer, which will be reviewed under RCW 43.21B.320. [2010 c 210 § 33; 2007 c 192 § 3.]

**Intent—Effective dates—Application—Pending cases and rules—** 2010 c 210: See notes following RCW 43.21B.001.

**78.44.390 Cancellation of a reclamation permit.** (1) In addition to the department’s other authority to cancel a reclamation permit, a permit holder may seek cancellation of its reclamation permit in favor of a local development or construction permit. A permit holder may request cancellation of its reclamation permit and release of its performance security when:

(a) The permit holder has received an approved development or construction permit covering all of the existing permit area from a local jurisdiction;

(b) The local jurisdiction and the landowner agree with the permit holder’s request to cancel the reclamation permit and to release the performance security; and

(c) The local jurisdiction provides assurance in writing that the construction or development permit is being actively implemented by the permit holder.

(2) The department is not responsible for overseeing a site’s development or reclamation when a reclamation permit is cancelled under this section. [2007 c 192 § 4.]

**78.44.910 Previously mined land.** Miners and permit holders shall not be required to reclaim any segment where all surface mining was completed prior to January 1, 1971. However, the department shall make an effort to reclaim previously abandoned or completed surface mining segments. [1993 c 518 § 36; 1970 ex.s. c 64 § 22.]

**78.44.920 Effective date—1970 ex.s. c 64.** This act shall become effective January 1, 1971. [1970 ex.s. c 64 § 23.]

**78.44.930 Severability—1970 ex.s. c 64.** If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances shall not be affected. [1970 ex.s. c 64 § 24.]

Oil and Gas Conservation

78.52.001 Declaration of purpose. It is hereby declared to be in the public interest to foster, encourage, and promote the exploration, development, production, and utilization of oil and gas in the state in such manner as will prevent waste; to authorize and to provide for the operation and development of oil and gas properties in such manner as to assure that the maximum economic recovery of oil and gas may be obtained and the rights of owners thereof fully protected; to conduct such oil and gas operations in a manner that will maintain a safe and healthful environment for the people of Washington and protect the state’s natural resources; and to encourage, authorize, and provide for cycling, recycling, pressure maintenance and secondary recovery operations in order that the maximum economic recovery of oil and gas may be obtained to the end that landowners, royalty owners, producers, and the general public may realize and enjoy the greatest possible benefits from these vital resources. [1983 c 253 § 1; 1951 c 146 § 1.]

78.52.010 Definitions. For the purposes of this chapter, unless the text otherwise requires, the following terms shall have the following meanings:

(1) "Certificate of clearance" means a permit prescribed by the department for the transportation or the delivery of oil, gas, or product.
(2) "Department" means the department of natural resources.
(3) "Development unit" means the maximum area of a pool which may be drained efficiently and economically by one well.
(4) "Division order" means an instrument showing percentage of royalty or rental divisions among royalty owners.
(5) "Fair and reasonable share of the production" means, as to each separately-owned tract or combination of tracts, that part of the authorized production from a pool that is substantially in the proportion that the amount of recoverable oil or gas under the development unit of that separately-owned tract or tracts bears to the recoverable oil or gas or both in the total of the development units in the pool.
(6) "Field" means the general area which is underlaid by at least one pool and includes the underground reservoir or reservoirs containing oil or gas, or both. The words "field" and "pool" mean the same thing when only one underground reservoir is involved; however, "field," unlike "pool," may relate to two or more pools.
(7) "Gas" means all natural gas, all gaseous substances, and all other fluid or gaseous hydrocarbons not defined as oil in subsection (12) of this section, including but not limited to wet gas, dry gas, residue gas, condensate, and distillate, as those terms are generally understood in the petroleum industry.
(8) "Illegal oil" or "illegal gas" means oil or gas that has been produced from any well within the state in violation of this chapter or any rule or order of the department.
(9) "Illegal product" means any product derived in whole or part from illegal oil or illegal gas.
(10) "Interested person" means a person with an ownership, basic royalty, or leasehold interest in oil or gas within an existing or proposed development unit or unitized pool.
(11) "Lessee" means the lessee under an oil and gas lease, or the owner of any land or mineral rights who has the right to conduct or carry on any oil and gas development, exploration and operation thereon, or any person so operating for himself, herself, or others.
(12) "Oil" means crude petroleum, oil, and all hydrocarbons, regardless of gravity, that are in the liquid phase in the original reservoir conditions and are produced and recovered at the wellhead in liquid form.
(13) "Operator" means the person who operates a well or unit or who has been designated or accepted by the owners to operate the well or unit, and who is responsible for compliance with the department’s rules and policies.
(14) "Owner" means the person who has the right to develop, operate, drill into, and produce from a pool and to appropriate the oil or gas that he or she produces therefrom, either for that person or for that person and others.
(15) "Person" means any natural person, corporation, association, partnership, receiver, trustee, executor, administrator, guardian, fiduciary, or representative of any kind and includes any governmental or political subdivision or any agency thereof.
(16) "Pool" means an underground reservoir containing a common accumulation of oil or gas, or both. Each zone of a
structure which is completely separated from any other zone in the same structure such that the accumulations of oil or gas are not common with each other is considered a separate pool and is covered by the term "pool" as used in this chapter.

(17) "Pooling" means the integration or combination of two or more tracts into an area sufficient to constitute a development unit of the size for one well as prescribed by the department.

(18) "Product" means any commodity made from oil or gas.

(19) "Produce correlative rights" means that the action or regulation by the department should afford a reasonable opportunity to each person entitled thereto to recover or receive without causing waste his or her fair and reasonable share of the oil and gas in this tract or tracts or its equivalent.

(20) "Royalty" means a right to or interest in oil or gas or the value from or attributable to production, other than the right or interest of a lessee, owner, or operator, as defined herein. Royalty includes, but is not limited to the basic royalty in a lease, overriding royalty, and production payments. Any such interest may be referred to in this chapter as "royalty" or "royalty interest." As used in this chapter "basic royalty" means the royalty reserved in a lease. "Royalty owner" means a person who owns a royalty interest.

(21) "Supervisor" means the state oil and gas supervisor.

(22) "Unitization" means the operation of all or part of a field or reservoir as a single entity for operating purposes.

(23) "Waste" in addition to its ordinary meaning, means and includes:

(a) "Physical waste" as that term is generally understood in the petroleum industry;

(b) The inefficient, excessive, or improper use of, or unnecessary dissipation of, reservoir energy, and the locating, spacing, drilling, equipping, operating, or producing of any oil or gas well in a manner which results or is probable to result in reducing the quantity of oil or gas to be recovered from any pool in this state under operations conducted in accordance with prudent and proper practices or that causes or tends to cause unnecessary wells to be drilled;

(c) The inefficient above-ground storage of oil, and the locating, spacing, drilling, equipping, operating, or producing of any oil or gas well in a manner causing or tending to cause unnecessary or excessive surface loss or destruction of oil or gas;

(d) The production of oil or gas in such manner as to cause unnecessary water channeling, or coning;

(e) The operation of an oil well with an inefficient gas-oil ratio;

(f) The drowning with water of any pool or part thereof capable of producing oil or gas, except insofar as and to the extent authorized by the department;

(g) Underground waste;

(h) The creation of unnecessary fire hazards;

(i) The escape into the open air, from a well producing oil or gas, of gas in excess of the amount which is reasonably necessary in the efficient development or production of the well;

(j) The use of gas for the manufacture of carbon black, except as provided in RCW 78.52.140;

(k) Production of oil and gas in excess of the reasonable market demand;

(l) The flaring of gas from gas wells except that which is necessary for the drilling, completing, or testing of the well; and

(m) The unreasonable damage to natural resources including but not limited to the destruction of the surface, soils, wildlife, fish, or aquatic life from or by oil and gas operations. [1994 sp.s. c 9 § 809; 1983 c 253 § 2; 1951 c 146 § 3.]

No person shall be excused from attending and testifying, or from producing books, papers, and records before the department or a court, or from obedience to the subpoena of the department or a court, on the ground or for the reason that the testimony or evidence, documentary or otherwise, required of the person may tend to incriminate the person or subject the person to a penalty or forfeiture: PROVIDED, That nothing herein contained shall be construed as requiring any person to produce any books, papers, or records, or to testify in response to any inquiry not pertinent to some question lawfully before the department or court for determination. No person shall be subjected to criminal prosecution or to any penalty or forfeiture for or on account of any transaction, matter, or thing concerning which, in spite of his or her objection, he or she may be required to testify or produce evidence, documentary or otherwise before the department or court, or from obedience to its subpoena: PROVIDED, HOWEVER, That no person testifying shall be exempt from prosecution for perjury committed in so testifying. ### 78.52.120 Drilling permit required—Notice

Any person desiring or proposing to drill any well in search of oil or gas, before commencing the drilling of any such well, shall apply to the department upon such form as the department may prescribe, and shall pay to the state treasurer a fee of the following amounts for each application:

(2010 Ed.)
(1) For each well the estimated depth of which is three thousand five hundred feet or less, two hundred fifty dollars;
(2) From three thousand five hundred one feet to seven thousand feet, five hundred dollars;
(3) From seven thousand one feet to twelve thousand feet, seven hundred fifty dollars; and
(4) From twelve thousand one feet and deeper, one thousand dollars.

In addition, as pertains to the tract upon which the well is proposed to be located, the applicant must notify the surface landowner, the landowner’s tenant, and other surface users in the manner provided by regulations of the department that a drilling permit has been applied for by furnishing each such surface landowner, tenant, and other users with a copy of the application concurrent with the filing of the application. Within fifteen days of receipt of the application, each such surface landowner, the landowner’s tenant, and other surface users have the right to inform the department of objections or comments as to the proposed use of the surface by the applicant, and the department shall consider the objections or comments.

The drilling of any well is prohibited until a permit is given and such fee has been paid as provided in this section. The department may prescribe that the said form indicate the exact location of such well, the name and address of the owner, operator, contractor, driller, and any other person responsible for the conduct of drilling operations, the proposed depth of the well, the elevation of the well above sea level, and such other relevant and reasonable information as the department may deem necessary or convenient to effectuate the purposes of this chapter.

The department shall issue a permit if it finds that the proposed drilling will be consistent with this chapter, the rules and orders adopted under it, and is not detrimental to the public interest. The department shall impose conditions and restrictions as necessary to protect the public interest and to ensure compliance with this chapter, and the rules and orders adopted by the department. A person shall not apply to drill a well in search of oil or gas unless that person holds an ownership or contractual right to locate and operate the drilling operations upon the proposed drilling site. A person shall not be issued a permit unless that person prima facie holds an ownership or contractual right to drill to the proposed depth, or proposed horizon. Proof of prima facie ownership shall be presented to the department. [1994 sp.s. c 9 § 822; 1971 ex.s. c 180 § 8.]

Reviser’s note: The definitions of RCW 90.56.010 apply to this section. Funds for the purposes of carrying out this section are provided from the coastal protection fund, RCW 90.48.390 and 90.48.400. The authority and enforcement of rules pertaining to this section are covered in RCW 90.56.050 and 90.56.900.

Additional notes found at www.leg.wa.gov

78.52.130 Waste prohibited. Waste of oil and gas, as defined in this chapter, is prohibited. [1951 c 146 § 15.]

78.52.140 Carbon black and carbon products—Permit required. The use of gas from a well producing gas only, or from a well which is primarily a gas well, for the manufacture of carbon black or similar products predominantly carbon, is declared to constitute waste prima facie, and such gas well shall not be used for any such purpose unless it is clearly shown, at a public hearing to be held by the department, on application of the person desiring to use such gas, that waste would not take place by the use of such gas for the purpose or purposes applied for, and that gas which would otherwise be lost is not available for such purpose or purposes, and that the gas to be used cannot be used for a more beneficial purpose, such as for light or fuel purposes, except at prohibitive cost, and that it would be in the public interest to grant such permit. If the department finds that the applicant has clearly shown a right to use such gas for the purpose or purposes applied for, it shall issue a permit upon such terms and conditions as may be found necessary in order to permit the use of the gas, and at the same time require compliance with the intent of this section. [1994 sp.s. c 9 § 823; 1951 c 146 § 16.]

Additional notes found at www.leg.wa.gov

78.52.150 Investigations authorized. The department shall make such investigations as it may deem proper to determine whether waste exists or is imminent or whether other facts exist which justify action by the department. [1994 sp.s. c 9 § 824; 1951 c 146 § 17.]

Additional notes found at www.leg.wa.gov

78.52.155 Investigations—Powers and duties. (1) The department shall make investigations as necessary to carry out this chapter.
(2) The department shall require:
(a) Identification of ownership of oil or gas wells, producing leases, tanks, plants, structures, and facilities for the transportation or refining of oil or gas;
(b) The making and filing of well logs, core samples, directional surveys, and reports on well locations, drilling, and production;
(c) The testing of oil and gas wells;
(d) The making of surface investigations of the proposed drilling sites, and of the areas likely to be affected by the drilling operations.

Additional notes found at www.leg.wa.gov
(d) The drilling, casing, operating, and plugging of wells in such a manner as to prevent the escape of oil or gas out of the casings, or out of one pool into another, the intrusion of water into an oil or gas pool, and the pollution of freshwater supplies by oil, gas, or saltwater and to prevent blowouts, cavings, see pages, and fires;

(e) The furnishing of adequate security acceptable to the department, conditioned on the performance of the duty to plug each dry or abandoned well, the duty to reclaim and clean-up well drilling sites, the duty to repair wells causing waste, the duty to comply with all applicable laws and rules adopted by the department, orders of the department, all permit conditions, and this chapter;

(f) The operation of wells with efficient gas-oil and water-oil ratios and may fix these ratios and limit production from wells with inefficient gas-oil or water-oil ratios;

(g) The production of oil and gas from wells be accurately measured by means and upon standards prescribed by the department, and that every person who produces, sells, purchases, acquires, stores, transports, treats, or processes oil or gas in this state keeps and maintains for a period of five years within this state complete and accurate records thereof, which records shall be available for examination by the department or its agents at all reasonable times, and that every person file with the department such reports as it may prescribe with respect to the oil or gas; and

(h) Compliance with all applicable laws and rules of this state.

(3) The department shall regulate:

(a) The drilling, producing, locating, spacing, and plugging of wells and all other operations for the production of oil or gas;

(b) The physical, mechanical, and chemical treatment of wells, and the perforation of wells;

(c) Operations to increase ultimate recovery such as cycling of gas, the maintenance of pressure, and the introduction of gas, water, or other substances into producing formations;

(d) Disposal of saltwater and oil field brines;

(e) The storage, processing, and treatment of natural gas and oil produced within this state; and

(f) Reclamation and clean-up of all well sites and any areas directly affected by the drilling, production, operation, and plugging of oil and gas wells.

(4) The department may limit and prorate oil and gas produced in this state and may restrict future production of oil and gas from any pool in such amounts as will offset and compensate for any production determined by the department to be in excess of or in violation of "oil allowable" or "gas allowable."

(5) The department shall classify wells as oil or gas wells for purposes material to the interpretation or enforcement of this chapter.

(6) The department shall regulate oil and gas exploration and drilling activities so as to prevent or remedy unreasonable or excessive waste or surface destruction. [1994 sp.s. c 9 § 825; 1983 c 253 § 9.]

Additional notes found at www.leg.wa.gov

78.52.200 Development units authorized for known pools. When necessary to prevent waste, to avoid the drilling of unnecessary wells, or to protect correlative rights including those of royalty owners, the department, upon its own motion or upon application of interested persons, shall establish development units covering any known pool. Development units shall be of uniform size and shape for the entire pool unless the department finds that it must make an exception due to geologic, geographic, or other factors. When necessary, the department may divide any pool into zones and establish development units for each zone, which units may differ in size and shape from those established in any other zone. [1994 sp.s. c 9 § 826; 1983 c 253 § 12; 1951 c 146 § 22.]

78.52.205 Development units to be prescribed for pool after discovery—Temporary development units. Within sixty days after the discovery of oil or gas in a pool not then covered by an order of the department, a hearing shall be held and the department shall issue an order prescribing development units for the pool. If sufficient geological or other scientific data from drilling operations or other evidence is not available to determine the maximum area that can be efficiently and economically drained by one well, the department may establish temporary development units to ensure the orderly development of the pool pending availability of the necessary data. A temporary order shall continue in force for a period of not more than twenty-four months at the expiration of which time, or upon the petition of an affected person, the department shall require the presentation of such geological, scientific, drilling, or other evidence as will enable it to determine the proper development units in the pool. During the interim period between the discovery and the issuance of the temporary order, permits shall not be issued for the drilling of direct offsets to a discovery well. [1994 sp.s. c 9 § 827; 1983 c 253 § 13.]

78.52.210 Development units—Size and shape. (1) The size and the shape of any development units shall be such as will result in the efficient and economical development of the pool as a whole, and the size shall not be smaller than the maximum area that can be efficiently and economically drained by one well as determined by competent geological, geophysical, engineering, drilling, or other scientific testimony, data, and evidence. The department shall fix a development unit of not more than one hundred sixty acres for any pool deemed by the department to be an oil reservoir, or of sixty hundred forty acres for any pool deemed by the department to be a gas reservoir, plus a ten percent tolerance in either case to allow for irregular sections. The department may, at its discretion, after notice and hearing, establish development units for oil and gas in variance of these limitations when competent geological, geophysical, engineering, drilling, or other scientific testimony, data, and evidence is presented and upon a finding that one well can efficiently and economically drain a larger or smaller area and is justified because of technical, economic, environmental, or safety considerations.

(2010 Ed.)
78.52.220 Development units—Location of well. An order establishing development units for a pool shall specify the size and shape of each area and the location of the permitted well thereon in accordance with a reasonable uniform spacing plan. Upon application and after notice and a hearing, if the department finds that a well drilled at the prescribed location would not produce in paying quantities, or that surface conditions would substantially add to the burden or hazard of drilling such well, the department may enter an order permitting the well to be drilled pursuant to permit at a location other than that prescribed by such development order; however, the department shall include in the order suitable provisions to prevent the production from the development unit of more than its just and equitable share of the oil and gas in the pool. [1994 sp.s. c 9 § 829; 1983 c 253 § 15; 1951 c 146 § 24.]

78.52.240 Development units—Pooling of interests. When two or more separately-owned tracts are embraced within a development unit, or when there are separately owned interests in all or a part of the development unit, then the owners and lessees thereof may pool their interests for the development and operation of the development unit. In the absence of this voluntary pooling, the department, upon the application of any interested person, shall enter an order pooling all interests, including royalty interests, in the development unit for the development and operation thereof. Each such pooling order shall be made after notice and hearing. The applicant or applicants shall have the burden of proving that all reasonable efforts have been made to obtain the consent of, or to reach agreement with, other owners. [1994 sp.s. c 9 § 831; 1983 c 253 § 17; 1951 c 146 § 26.]

78.52.245 Pooling order—Allocation of production. A pooling order shall be upon terms and conditions that are fair and reasonable and that afford to each owner and royalty owner his or her fair and reasonable share of production. Production shall be allocated as follows:

(1) For the purpose of determining the portions of production owned by the persons owning interests in the pooled unit, the production shall be allocated to the respective tracts within the unit in the proportion that the surface acres in each tract bear to the number of surface acres included in the entire unit.

(2) Notwithstanding subsection (1) of this section, if the department finds that allocation on a surface acreage basis does not allocate to each tract its fair share, the department shall allocate the production so that each tract will receive its fair share. [1994 sp.s. c 9 § 832; 1983 c 253 § 18.]

78.52.250 Pooled interests in well in development unit—Allocation of costs—Rights of owners. (1) Each such pooling order shall make provision for the drilling and operation of a well on the development unit, and for the payment of the reasonable actual cost thereof by the owners of interests required to pay such costs in the development unit, plus a reasonable charge for supervision and storage facilities. Costs associated with production from the pooled unit shall be allocated in the same manner as is production in RCW 78.52.245. In the event of any dispute as to such costs the department shall determine the proper costs.

(2) As to each owner who fails or refuses to agree to bear his or her proportionate share of the costs of the drilling and operation of the well, the order shall provide for reimbursement of those persons paying for the drilling and operation of the well of the nonconsenting owner’s share of the costs from, and only from, production from the unit representing that person’s interest, excluding royalty or other interests not obligated to pay any part of the cost thereof. The department may provide that the consenting owners shall own and be entitled to receive all production from the well after payment of the royalty as provided in the lease, if any, applicable to each tract or interest, and obligations payable from production, until the consenting owners have been paid the amount due under the terms of the pooling order or order settling any dispute.

The order shall determine the interest of each owner in the unit and shall provide that each consenting owner is entitled to receive, subject to royalty or similar obligations, the share of the production of the well applicable to the owner’s interest in the unit, and, unless the owner has agreed otherwise, his or her proportionate part of the nonconsenting owner’s share of the production until costs are recovered as provided in this subsection. Each nonconsenting owner is entitled to receive, subject to royalty or similar obligations, the share of production from the well applicable to the owner’s interest in the unit after the consenting owners have
recovered from the nonconsenting owner’s share of production the following:

(a) In respect to every such well, one hundred percent of the nonconsenting owner’s share of the cost of surface equipment beyond the wellhead connections, including but not limited to, stock tanks, separators, treaters, pumping equipment, and piping, plus one hundred percent of the nonconsenting owner’s share of the cost of operation of the well, commencing with first production and continuing until the consenting owners have recovered these costs, with the intent that the nonconsenting owner’s share of these costs and equipment will be that interest which would have been chargeable to the nonconsenting owner had he or she initially agreed to pay his or her share of the costs of the well from the beginning of the operation;

(b) One hundred fifty percent of that portion of the costs and expenses of staking the location, well site preparation, rights-of-way, rigging-up, drilling, reworking, deepening or plugging back, testing, and completing, after deducting any cash contributions received by the consenting owners, and also one hundred fifty percent of that portion of the cost of equipment in the well, up to and including the wellhead connections; and

(c) If there is a dispute regarding the costs, the department shall determine the proper costs and their allocation among working interest owners after due notice to interested parties and a hearing on the costs.

(3) The operator of a well under a pooling order in which there are nonconsenting owners shall furnish the nonconsenting owners with monthly statements of all costs incurred, together with the quantity of oil or gas produced, and the amount of proceeds realized from the sale of this production during the preceding month. If and when the consenting owners recover from a nonconsenting owner’s relinquished interest the amounts provided for in subsection (2) of this section, the relinquished interest of the nonconsenting owner shall automatically revert to him or her, and the nonconsenting owner shall own the same interest in the well and the production from it and be liable for the further costs of the operation as if he or she had participated in the initial drilling and operation.

(4) A nonconsenting owner of a tract in a development unit which is not subject to any lease or other contract for the development thereof for oil and gas shall elect within fifteen days of the issuance of the pooling order or such further time as the department shall, in the order, allow:

(a) To be treated as a nonconsenting owner as provided in subsections (2) and (3) of this section and is deemed to have a basic landowners’ royalty of one-eighth, or twelve and one-half percent, of the production allocated to the tract, unless a higher basic royalty has been established in the development unit. If a higher royalty has been established, then the nonconsenting owner of a nonleased tract shall receive the higher basic royalty. This presumed royalty shall exist only during the time that costs and expenses are being recovered under subsection (2) of this section, and is intended to assure that the owner of a nonleased tract receive a basic royalty free of all costs at all times. Notwithstanding anything herein to the contrary, the owner shall at all times retain his or her entire ownership of the property, including the right to execute an oil and gas lease on any terms negotiated, and be entitled to all production subject to subsection (2) of this section; or

(b) To grant a lease to the operator at the current fair market value for that interest for comparable leases or interests at the time of the commencement of drilling; or

(c) To pay his or her pro rata share of the costs of the well or wells in the development unit and receive his or her pro rata share of production, if any.

A nonconsenting owner who does not make an election as provided in this subsection is deemed to have elected to be treated under (a) of this subsection. [1994 sp.s. c 9 § 833; 1983 c 253 § 19; 1951 c 146 § 27.]

78.52.253 Pooling agreement, offer to pool, pooling order—Fairness to nonconsenting, unleased owners. A pooling agreement, offer to pool, or pooling order is not considered fair and reasonable as applied to nonconsenting, unleased owners only, if it provides for an operating agreement containing any of the following provisions:

(1) Preferential right of the operator to purchase mineral interests in the unit;

(2) A call on or option to purchase production from the unit;

(3) Operating charges that include any part of district or central office expense other than reasonable overhead charges; or

(4) Prohibition against nonoperators questioning the operation of the unit. [1983 c 253 § 20.]

78.52.255 Operations on development unit deemed operations on each tract—Production allocated to tract deemed produced from each tract—Shut-in well considered on each tract—Lease on part of tract excluded from unit. (1) Operations incident to the drilling of a well upon any portion of a development unit covered by a pooling order shall be deemed, for all purposes, the conduct of such operations upon each separately-owned tract in the development unit by the several owners thereof. That portion of the production allocated to each separately-owned tract included in a development unit covered by a pooling order shall, when produced, be deemed for all purposes, including the payment of royalty, to have been produced from each separately-owned tract by a well drilled thereon. If an oil or gas well on a pooled unit is shut-in, it shall be considered that the shut-in well is on each separately-owned tract in the pooled unit.

(2) If only part of the tract is included in the unit, operations on, production from, or a shut-in well on the unit shall maintain an oil and gas lease on the tract as to the part excluded from the unit only if the lease would be maintained had the unit been created voluntarily under the lease. [1983 c 253 § 21.]

78.52.257 Dissolution of pooling order—Interests covered by terminated lease—Modification or termination of pooling order—Extension of dissolution of pooling order. (1) An order pooling a development unit shall automatically dissolve:
(a) One year after its effective date if there has been no production of commercial quantities or drilling operations on lands within the unit;

(b) Six months after completion of a dry hole on the unit; or

(c) Six months after cessation of production of commercial quantities from the unit, unless, prior to the expiration of such six-month period, the operator shall, in good faith, commence drilling or reworking operations in an effort to restore production.

(2) Upon the termination of a lease pooled by order of the department under authority granted in this chapter, interests covered by the lease are considered pooled as unleased mineral interests.

(3) Any party to a pooling order is entitled, after due notice to all parties, to a hearing to modify or terminate a previously entered pooling order upon presenting new evidence showing that the previous determination of reservoir conclusions are substantially incorrect.

(4) The department, after notice and hearing, may grant additional time, for good cause shown, before a pooling order is automatically dissolved as provided in subsection (1) of this section. In no case may such an extension be longer than six months. [1994 sp.s. c 9 § 834; 1983 c 253 § 22.]

78.52.260 "Wildcat" or "exploratory" well data confidential. Whenever the department requires the making and filing of well logs, directional surveys, or reports on the drilling of, subsurface conditions found in, or reports with respect to the substance produced, or capable of being produced from, a "wildcat" or "exploratory" well, as those terms are used in the petroleum industry, such logs, surveys, reports, or information shall be kept confidential by the department for a period of one year, if at the time of filing such logs, surveys, reports, or other information, the owner, lessee, or operator of such well requests that such information be kept confidential: PROVIDED, HOWEVER, That such information shall be used in the petroleum industry, such logs, surveys, reports, or other information, the owner, lessee, or operator of such well requests that such information be kept confidential; PROVIDED, HOWEVER, That such information shall be kept confidential by the department for a period of one year, if at the time of filing such logs, surveys, reports, or other information, the owner, lessee, or operator of such well requests that such information be kept confidential: PROVIDED, HOWEVER, That the department may divulge or use such information in a public hearing or suit when it is necessary for the enforcement of the provisions of this chapter or any rule, regulation, or order made hereunder. 78.52.270 Limitation of production to "oil allowable"—Proration. Whenever the total amount of oil which all of the pools in this state can currently produce in accordance with good operating practice exceeds the amount reasonably required to meet the reasonable market demand, the department shall limit the gas which may be currently produced to an amount, designated as the "gas allowable," which will not exceed the reasonable market demand for gas. The department shall then prorate the "gas allowable" among the pools on a reasonable basis, avoiding undue discrimination among the pools, and so that waste will be prevented, giving due consideration to location of pipe lines, cost of interconnecting such pipe lines, and other pertinent factors, and insofar as applicable, the provisions of RCW 78.52.270 shall be followed in determining the "gas allowable" and in prorating such "gas allowable" among the pools therein: PROVIDED, HOWEVER, That in determining the reasonable market demand for gas as between pools, the department shall give due regard to the fact that gas produced from oil pools is to be regulated in a manner which will protect the reasonable use of gas energy for oil production and promote the most or maximum efficient recovery of oil from such pools. [1994 sp.s. c 9 § 838; 1951 c 146 § 31.]

Additional notes found at www.leg.wa.gov

78.52.280 Determining market demand—No undue discrimination in proration of "allowable." The department shall not be required to determine the reasonable market demand applicable to any single pool of oil except in relation to all pools producing oil of similar kind and quality and in relation to the reasonable market demand. The department shall prorate the "allowable" in such manner as will prevent undue discrimination against any pool or area in favor of another or others resulting from selective buying or nomination by purchasers. [1994 sp.s. c 9 § 837; 1951 c 146 § 30.]

78.52.290 Limitation of production to "gas allowable"—Proration. Whenever the total amount of gas which all of the pools in this state can currently produce in accordance with good operating practice exceeds the amount reasonably required to meet the reasonable market demand, the department shall limit the gas which may be currently produced to an amount, designated as the "gas allowable," which will not exceed the reasonable market demand for gas. The department shall then prorate the "gas allowable" among the pools on a reasonable basis, avoiding undue discrimination among the pools, and so that waste will be prevented, giving due consideration to location of pipe lines, cost of interconnecting such pipe lines, and other pertinent factors, and insofar as applicable, the provisions of RCW 78.52.270 shall be followed in determining the "gas allowable" and in prorating such "gas allowable" among the pools therein: PROVIDED, HOWEVER, That in determining the reasonable market demand for gas as between pools, the department shall give due regard to the fact that gas produced from oil pools is to be regulated in a manner which will protect the reasonable use of gas energy for oil production and promote the most or maximum efficient recovery of oil from such pools. 78.52.300 Limitation of gas production from one pool. Whenever the total amount of gas which may be currently produced from all of the pools in this state has not been limited as hereinabove provided, and the available production from any one pool containing gas only is in excess of the reasonable market demand or available transportation facilities for gas from such pool, the department shall limit the production of gas from such pool to that amount which does not

exceed the reasonable market demand or transportation facilities for gas from such pool. [1994 sp.s. c 9 § 839; 1951 c 146 § 32.]

78.52.310 Proration of allowable production in pool—Publication of orders—Emergency orders. Whenever the department limits the total amount of oil or gas which may be produced from any pool to an amount less than that which the pool could produce if no restrictions were imposed (whether incidental to, or without, a limitation of the total amount of oil which may be produced in the state) the department shall prorate the allowable production for the pool among the producers in the pool on a reasonable basis, so that each producer will have opportunity to produce or receive his or her just and equitable share, subject to the reasonable necessities for the prevention of waste, giving where reasonable, under the circumstances, to each pool with small wells of settled production, allowable production which prevents the premature abandonment of wells in the pool.

All orders establishing the "oil allowable" and "gas allowable" for this state, and all orders prorating such allowables as herein provided, and any changes thereof, for any month or period shall be issued by the department on or before the fifteenth day of the month preceding the month for which such orders are to be effective, and such orders shall be immediately published in some newspaper of general circulation printed in Olympia, Washington. No orders establishing such allowables, or prorating such allowables, or any changes thereof, shall be issued without first having a hearing, after notice, as provided in this chapter: PROVIDED, HOWEVER, When in the judgment of the department, an emergency requiring immediate action is found to exist, the department may issue an emergency order under this section which shall have the same effect and validity as if a hearing with respect to the same had been held after due notice. The emergency order permitted by this section shall remain in force no longer than thirty days, and in any event it shall expire when the order made after due notice and hearing with respect to the subject matter of the emergency order becomes effective. 78.52.320 Compliance with limitation or proration required. Whenever the production of oil or gas in this state or any pool therein is limited and the "oil allowable" or "gas allowable" is established and prorated by the department as provided in RCW 78.52.310, no person shall thereafter produce from any well, pool, lease, or property more than the production which is prorated thereto. [1994 sp.s. c 9 § 841; 1951 c 146 § 34.]

78.52.330 Unit operation of separately owned tracts. To assist in the development of oil and gas in this state and to further the purposes of this chapter, the persons owning interests in separate tracts of land, may validly agree to integrate their interests and manage, operate, and develop their land as a unit, subject to the approval of the department. [1994 sp.s. c 9 § 842; 1951 c 146 § 35.]

(2010 Ed.)
be in accord with the agreement, if any, of the interested parties. If there is no agreement, production shall be allocated in a manner calculated to ensure that each owner’s correlative rights are protected, and each separately-owned tract or combination of tracts receives its fair and reasonable share of production. Costs shall be allocated on a fair and reasonable basis;

(d) A provision, if necessary, prescribing fair, reasonable, and equitable terms and conditions as to time and rate of interest for carrying or otherwise financing any person who is unable to promptly meet his or her financial obligations in connection with the unit, such carrying and interest charges to be paid as provided by the department from the person’s prorated share of production;

(e) A provision for the supervision and conduct of the unit operations, in respect to which each owner shall have a vote with a value corresponding to the percentage of the costs of unit operations chargeable against the owner’s interest;

(f) The time when the unit operations shall commence, the timetable for development, and the manner and circumstances under which the unit operations shall terminate; and

(g) Additional provisions which are found to be appropriate for carrying out the unit operations and for the protection of correlative rights.

(6) No order of the department providing for unit operations may become effective until:

(a) The plan for unit operations approved by the department has been approved in writing by those persons who, under the department’s order, will be required to pay at least seventy-five percent of the costs of unit operations;

(b) The plan has been approved in writing by those persons such as royalty owners, overriding royalty owners, and production payment owners, who own at least seventy-five percent of the production or proceeds thereof that will be credited to interests that are free of costs; and

(c) The department has made a finding, either in the order providing for unit operations or in a supplemental order, that the plan for unit operations has been so approved.

If the plan for unit operations has not been so approved at the time the order providing for unit operations is made, the department shall upon application and notice hold such supplemental hearings as may be required to determine if and when the plan for unit operations has been so approved. If the persons owning required percentages of interest in the unitized area do not approve the plan for unit operations within a period of six months from the date on which the order providing for unit operations is made, or within such additional period or periods of time as the department prescribes, the order will become unenforceable and shall be vacated by the department.

(7) An order providing for unit operations may be amended by an order made by the department in the same manner and subject to the same conditions as an original order, except as provided in subsection (8) of this section, providing for unit operations, but (a) if such an amendment affects only the rights and interests of the owners, the approval of the amendment by those persons who own interests that are free of costs is not required, and (b) no such amending order may change the percentage for the allocation of oil and gas as established for any separately-owned tract or combination of tracts by the original order, except with the consent of all persons owning oil and gas rights in the tract, and no such order may change the percentage for the allocation of cost as established for any separately-owned tract or combination of tracts by the original order, except with the consent of all persons owning an interest in the tract or combination of tracts. An amendment that provides for the expansion of the unit area shall comply with subsection (8) of this section.

(8) The department, by order, may provide for the unit operation of a reservoir or reservoirs or parts thereof that include a unitized area established by a previous order of the department. The order, in providing for the allocation of unit production, shall first treat the unitized area previously established as a single tract and the portion of the new unit production allocated thereto shall then be allocated among the separately-owned tracts included in the previously established unit area in the same proportions as those specified in the previous order.

(9) After the date designated by the department the unit plan shall be effective, oil and gas leases within the unit area, or other contracts pertaining to the development thereof, shall be changed only to the extent necessary to meet the requirements of the unit plan, and otherwise shall remain in full force. Operations carried on under and in accordance with the unit plan shall be regarded and considered as fulfillment of and compliance with all of the provisions, covenants, and conditions, expressed or implied, of the several oil and gas leases upon lands within the unit area, or other contracts pertaining to the development thereof, insofar as the leases or other contracts may relate to the pool or field subject to the unit plan. The amount of production apportioned and allocated under the unit plan to each separately-owned tract within the unit area, and only that amount, regardless of the location of the well within the unit area from which it may be produced, and regardless of whether it is more or less than the amount of production from the well, if any, on each separately-owned tract, shall for all purposes be regarded as production from the separately-owned tract. Lessees shall not be obligated to pay royalties or make other payments, required by the oil and gas leases or other contracts affecting each such separately-owned tract, on production in excess of that amount apportioned and allocated to the separately-owned tract under the unit plan.

(10) The portion of the unit production allocated to any tract and the proceeds from its sale are the property and income of the several persons to whom, or to whose credit, the portion and proceeds are allocated or payable under the order providing for unit operations.

(11) No division order or other contract relating to the sale, purchase, or production from a separately-owned tract or combination of tracts may be terminated by the order providing for unit operations but shall remain in force and shall apply to oil and gas allocated to the tract until terminated by an amended division order or contract in accordance with the order.

(12) Except to the extent that parties affected so agree, an order providing for unit operations shall not be construed to result in a transfer of all or any part of the title of any person to the oil and gas rights in any tract in the unit area. All property, whether real or personal, that may be acquired in the conduct of unit operations hereunder shall be acquired for the
account of the owners within the unit area, and shall be the property of those owners in the proportion that the expenses of unit operations are charged.

(13) After the date designated by the order of the department that a unit plan shall become effective, the designation of one or more unit operators shall be by vote of the lessees of land in the unit area, in a manner to be provided in the unit plan, and any operations in conflict with such unit plan shall be unlawful and are prohibited.

(14) A certified copy of any order of the department entered under this section is entitled to be recorded in the auditor’s office in the county or counties wherein all or any portion of the unit area is located and, if recorded, constitute notice thereof to all persons. A copy of this order shall be mailed by certified mail to all interested persons.

(15) No order for unitization may be construed to allow the drilling of a well on a tract within the unit which is not leased or under contract for oil and gas exploration or production. [1994 sp.s. c 9 § 843; 1983 c 253 § 23.]

**78.52.345** Ratable purchase of oil from owners or operators of pool required. Each person now or hereafter purchasing or taking for transportation oil from any owner or producer shall purchase or take ratably without discrimination in favor of any owner or operator over any other owner or producer in the same pool offering to sell his or her oil produced therefrom to that person. If the person purchasing or taking for transportation oil does not have need for all such oil lawfully produced within a pool, or if for any reason is unable to purchase all of the oil, then it shall purchase from each operator in a pool ratably, taking and purchasing the same quantity of oil from each well to the extent that each well is capable of producing its ratable portion without waste. Nothing in this section may be construed to require any owner or operator to sell his or her product to only one purchaser or to require more than one pipeline connection for each producing well. If any such purchaser or person taking oil for transportation is likewise an operator or owner, the purchaser or person is prohibited from discriminating in favor of his or her own production, or production in which he or she may be interested, and his or her own production shall be treated as that of any other operator or owner. [1983 c 253 § 24.]

**78.52.355** Ratable purchase of gas from owners or operators of pool required. Each person now or hereafter purchasing or taking for transportation gas produced from gas wells or from oil wells from any owner or operator shall purchase or take ratably without discrimination in favor of any owner or operator, over any other owner or operator in a pool. The person shall not discriminate in the quantities purchased, the basis of measurement, or the gas transportation facilities afforded for gas of like quantity, quality, and pressure available from such wells. For the purpose of this section and RCW 78.52.345, reasonable differences in quantity taken or facilities afforded do not constitute unreasonable discrimination if the differences bear a fair relationship to differences in quality, quantity, or pressure of the gas available or the acreage attributable to the well, market requirements, or to the relative lengths of time during which the gas will be available to the purchaser. If the purchaser or person taking gas for transportation is likewise an operator or owner, the purchaser or person is prohibited from discriminating in favor of quantities taken or facilities in which he or she may be interested, and his or her own production shall be treated as that of any other operator or owner producing from gas wells in the same pool. [1983 c 253 § 25.]

**78.52.365** Enforcement of RCW 78.52.345 and 78.52.355. The department may administer and enforce RCW 78.52.345 and 78.52.355 in accordance with the procedures in this chapter for its enforcement and with the rules and orders of the department. [1994 sp.s. c 9 § 844; 1983 c 253 § 26.]

**78.52.450** Participation of public lands in unit plan. The commissioner of public lands, or other officer or board having the control and management of state land, and the proper board or officer of any political, municipal, or other subdivision or agency of the state having control and management of public lands, may, on behalf of the state or of such political, municipal, or other subdivision or agency thereof, with respect to land and oil and gas rights subject to the control and management of such respective body, board or officer, consent to and participate in any unit plan. [1951 c 146 § 48.]

**78.52.460** Unit plan not deemed monopolistic. No plan for the operation of a field or pool of oil or gas as a unit, either whole or in part, created or approved by the department under this chapter may be held to violate any of the statutes of this state prohibiting monopolies or acts, arrangements, agreements, contracts, combinations, or conspiracies in restraint of trade or commerce. **78.52.463** Suspension of operations for violation—Notice—Order—Hearing—Stay of order. (1) Any operation or activity that is in violation of applicable laws, rules, orders, or permit conditions is subject to suspension by order of the department. The order may suspend the operations authorized in the permit in whole or in part. The order may be issued only after the department has first notified the operator or owner of the violations and the operator or owner has failed to comply with the directions contained in the notification within ten days of service of the notice: PROVIDED, That the department may issue the suspension order immediately without notice if the violations are or may cause substantial harm to adjacent property, persons, or public resources, or has or may result in the pollution of waters in violation of any state or federal law or rule. A suspension shall remain in effect until the violations are corrected or other directives are complied with unless declared invalid by the department after hearing or an appeal. The suspension order and notification, where applicable, shall specify the violations and the actions required to be undertaken to be in compliance with such laws, rules, orders, or permit condi-
tions. The order and notification may also require remedial actions to be undertaken to restore, prevent, or correct activities or conditions which have resulted from the violations. The order and notification may be directed to the operator or owner or both.

(2) The suspension order constitutes a final and binding order unless the owner or operator to whom the order is directed requests a hearing before the department within fifteen days after service of the order. Such a request shall not in itself stay or suspend the order and the operator or owner shall comply with the order immediately upon service. The department may stay or suspend in whole or in part the suspension order pending a hearing if so requested. The hearing shall constitute an adjudicative proceeding under chapter 34.05 RCW, the Administrative Procedure Act. [1994 sp.s. c 9 § 846; 1989 c 175 § 167; 1983 c 253 § 29.]

78.52.467 Illegal oil, gas, or product—Sale, purchase, etc., prohibited—Seizure and sale—Deposit of proceeds.

(1) The sale, purchase, acquisition, transportation, refining, processing, or handling of illegal oil, gas, or product is prohibited. However, no penalty by way of fine may be imposed upon a person who sells, purchases, acquires, transports, refines, processes, or handles illegal oil, gas, or product unless (a) the person knows, or is put on notice of, facts indicating that illegal oil, illegal gas, or illegal product is involved, or (b) the person fails to obtain a certificate of clearance with respect to the oil, gas, or product if prescribed by rule or order of the department, or fails to follow any other method prescribed by an order of the department for the identification of the oil, gas, or product.

(2) Illegal oil, illegal gas, and illegal product are declared to be contraband and are subject to seizure and sale as provided in this section. Seizure and sale shall be in addition to all other remedies and penalties provided in this chapter for violations relating to illegal oil, illegal gas, or illegal product. If the department believes that any oil, gas, or product is illegal, the department acting through the attorney general, shall bring a civil action in rem in the superior court of the county in which the oil, gas, or product is found, to seize and sell the same, or the department may include such an action in rem in any suit brought for an injunction or penalty involving illegal oil, illegal gas, or illegal product. A person claiming an interest in oil, gas, or product affected by an action in rem has the right to intervene as an interested party.

(3) Actions for the seizure and sale of illegal oil, illegal gas, or illegal product shall be strictly in rem and shall proceed in the name of the state as plaintiff against the oil, gas, or product as defendant. No bond or similar undertaking may be required of the plaintiff. Upon the filing of the petition for seizure and sale, the clerk of the court shall issue a summons, with a copy of the petition attached thereto, directed to the sheriff of the county or to another officer or person whom the court may designate, for service upon all persons having or claiming any interest in the oil, gas, or product described in the petition. The summons shall command these persons to appear and answer within twenty days after the issuance and service of the summons. These persons need not be named or otherwise identified in the summons, and the summons shall be served by posting a copy of the summons, with a copy of the petition attached, on any public bulletin board or at the courthouse of a county where the oil, gas, or product involved is located, and by posting another copy at or near the place where the oil, gas, or product is located. The posting constitutes notice of the action to all persons having or claiming any interest in the oil, gas, or product described in the petition. In addition, if the court, on a properly verified petition, or affidavit or affidavits, or oral testimony, finds that grounds for seizure and for sale exist, the court shall issue an immediate order of seizure, describing the oil, gas, or product to be seized, and directing the sheriff of the county to take the oil, gas, or product into the sheriff’s actual or constructive custody and to hold the same subject to further orders of the court. The court, in the order of seizure, may direct the sheriff to deliver the oil, gas, or product seized by him or her under the order to a court-appointed agent. The agent shall give bond in an amount and with such surety as the court may direct, conditioned upon compliance with the orders of the court concerning the custody and disposition of the oil, gas, or product.

(4) Any person having an interest in oil, gas, or product described in order of seizure and contesting the right of the state to seize and sell the oil, gas, or product may obtain its release prior to sale upon furnishing to the sheriff a bond approved by the court. The bond shall be in an amount equal to one hundred fifty percent of the market value of the oil, gas, or product to be released and shall be conditioned upon either redelivery to the sheriff of the released commodity or payment to the sheriff of its market value, if and when ordered by the court, and upon full compliance with further orders of the court.

(5) If the court, after a hearing upon a petition for the seizure and sale of oil, gas, or product, finds that the oil, gas, or product is contraband, the court shall order its sale by the sheriff in the same manner and upon the same notice of sale as provided by law for the sale of personal property on execution of judgment entered in a civil action, except that the court may order that the oil, gas, or product be sold in specified lots or portions and at specified intervals. Upon sale, title to the oil, gas, or product sold shall vest in the purchaser free of all claims, and it shall be legal oil, legal gas, or legal product in the hands of the purchaser.

(6) All proceeds, less costs of suit and expenses of sale, which are derived from the sale of illegal oil, illegal gas, or illegal product, and all amounts paid as penalties provided for by this chapter, shall be paid into the state treasury for the use of the department in defraying its expenses in the same manner as other funds provided by law for the use of the department. [1994 sp.s. c 9 § 847; 1983 c 253 § 30.]

78.52.470 Objections to order—Hearing required—Modification of order. Any person adversely affected by any order of the department may, within thirty days from the effective date of such order, apply for a hearing with respect to any matter determined therein. No cause for action arising out of any order of the department accrues in any court to any person unless the person makes application for a hearing as provided in this section. Such application shall set forth spe-
cifically the ground on which the applicant considers the order to be unlawful or unreasonable. No party shall, in any court, urge or rely upon any ground not set forth in said application. An order made in conformity to a decision resulting from a hearing which abrogates, changes, or modifies the original order shall have the same force and effect as an original. Such hearing shall constitute an adjudicative proceeding under chapter 34.05 RCW, the Administrative Procedure Act, and shall be conducted in accordance with its provisions. [1994 sp.s. c 9 § 848; 1989 c 175 § 168; 1983 c 253 § 27; 1951 c 146 § 50.]

78.52.480 Appeal from order or decision—Rights of department. In proceedings for review of an order or decision of the department, the department shall be a party to the proceedings and shall have all rights and privileges granted by this chapter to any other party to such proceedings. [1994 sp.s. c 9 § 849; 1983 c 253 § 28; 1951 c 146 § 51.]

78.52.490 Appeal—How taken. Within thirty days after the application for a hearing is denied, or if the application is granted, then within thirty days after the rendition of the decision on the hearing, the applicant may apply to the superior court, at the petitioner’s option, for (a) Thurston county, (b) the county of petitioner’s residence or place of business, or (c) in any county where the property or property rights owned by the petitioner is located for a review of such rule, regulation, order, or decision. The application for review shall be filed in the office of the clerk of the superior court of Thurston county and shall specifically state the grounds for review upon which the applicant relies and shall designate the rule, regulation, order, or decision sought to be reviewed. The applicant shall immediately serve a certified copy of said application upon the commissioner of public lands who shall immediately notify all parties who appeared in the proceedings before the department that such application for review has been filed. In the event the court determines the review is solely for the purpose of determining the validity of a rule or regulation of general applicability the court shall transfer venue to Thurston county for a review of such rule or regulation in the manner provided for in RCW 34.05.570. [1994 sp.s. c 9 § 850; 1983 c 253 § 32; 1951 c 146 § 52.]

78.52.530 Violations—Injunctions. Whenever it shall appear that any person is violating any provisions of this chapter, or any rule, regulation, or order made by the department under this chapter, and if the department cannot, without litigation, effectively prevent further violation, the department may bring suit in the name of the state against such person in the superior court in the county of the residence of the defendant, or in the county of the residence of any defendant if there be more than one defendant, or in the county where the violation is alleged to have occurred, to restrain such person from continuing such violation. In such suit the department may without bond obtain injunctions prohibitory and mandatory, including temporary restraining orders and preliminary injunctions, as the facts may warrant. [1994 sp.s. c 9 § 851; 1951 c 146 § 56.]

Additional notes found at www.leg.wa.gov

78.52.540 Violations—Injunctions by private party. If the department fails to bring suit within thirty days to enjoin any apparent violation of this chapter, or of any rule, regulation, or order made by the department under this chapter, then any person or party in interest adversely affected by such violation, who has requested the department in writing to sue, may, to prevent any or further violation, bring suit for that purpose in the superior court of any county where the department could have instituted such suit. If, in such suit, the court should hold that injunctive relief should be granted, then the state shall be made a party and shall be substituted for the person who brought the suit, and the injunction shall be issued as if the state had at all times been the complainant. [1994 sp.s. c 9 § 852; 1951 c 146 § 57.]

78.52.550 Violations—Penalty. Every person who shall violate or knowingly aid and abet the violation of this chapter or any valid orders, rules and regulations issued thereunder, or who fails to perform any act which is herein made his duty to perform, shall be guilty of a gross misdemeanor. [1951 c 146 § 58.]

78.52.900 Short title. This chapter shall be known as the "Oil and Gas Conservation Act." [1951 c 146 § 2.]

78.52.910 Construction—1951 c 146. It is intended that the provisions of this chapter shall be liberally construed to accomplish the purposes authorized and provided for, or intended to be provided for by this chapter. [1951 c 146 § 59.]

78.52.920 Severability—1951 c 146. If any part or parts of this chapter, or the application thereof to any person or circumstances be held to be unconstitutional, such invalidity shall not affect the validity of the remaining portions of this chapter, or the application thereof to other persons or circumstances. The legislature hereby declares that it would have passed the remaining parts of this chapter if it had known that said invalid part or parts thereof would be declared unconstitutional. [1951 c 146 § 60.]

78.52.921 Severability—1983 c 253. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1983 c 253 § 34.]
78.56.010 Intent. It is in the best interests of the citizens of the state of Washington to insure the highest degree of environmental protection while allowing the proper development and use of its natural resources, including its mineral resources. Metals mining can have significant positive and adverse impacts on the state and on local communities. The purpose of this chapter is to assure that metals mineral mining or milling operations are designed, constructed, and operated in a manner that promotes both economic opportunities and environmental and public health safeguards for the citizens of the state. It is the intent of the legislature to create a regulatory framework which yields, to the greatest extent possible, a metals mining industry that is compatible with these policies. [1994 c 232 § 1.]

78.56.020 Definitions. The definitions set forth in this section apply throughout this chapter.

(1) "Metals mining and milling operation" means a mining operation extracting from the earth precious or base metal ore and processing the ore by treatment or concentration in a milling facility. It also refers to an expansion of an existing operation or any new metals mining operation if the expansion or new mining operation is likely to result in a significant, adverse environmental impact pursuant to the provisions of chapter 43.21C RCW. The extraction of dolomite, sand, gravel, aggregate, limestone, magnesite, silica rock, and zeolite or other nonmetallic minerals; and placer mining; and the smelting of aluminum are not metals mining and milling operations regulated under this chapter.

(2) "Milling" means the process of grinding or crushing ore and extracting the base or precious metal by chemical solution, electro winning, or flotation processes.

(3) "Heap leach extraction process" means the process of extracting base or precious metal ore by percolating solutions through ore in an open system and includes reprocessing of previously milled ore. The heap leach extraction process does not include leaching in a vat or tank.

(4) "In situ extraction" means the process of dissolving base or precious metals from their natural place in the geological setting and retrieving the solutions from which metals can be recovered.

(5) "Regulated substances" means any materials regulated under a waste discharge permit pursuant to the requirements of chapter 90.48 RCW and/or a permit issued pursuant to chapter 70.94 RCW.

(6) "To mitigate" means: (a) To avoid the adverse impact altogether by not taking a certain action or parts of an action; (b) to minimize adverse impacts by limiting the degree or magnitude of the action and its implementation, by using appropriate technology or by taking affirmative steps to avoid or reduce impacts; (c) to rectify adverse impacts by repairing, rehabilitating, or restoring the affected environment; (d) to reduce or eliminate adverse impacts over time by preservation and maintenance operations during the life of the action; (e) to compensate for the impact by replacing, enhancing, or providing substitute resources or environments; or (f) to monitor the adverse impact and take appropriate corrective measures. [1994 c 232 § 2.]

78.56.030 Operations subject to this chapter and other requirements. Metals mining and milling operations are subject to the requirements of this chapter in addition to the requirements established in other statutes and rules. [1994 c 232 § 3.]

78.56.040 Disclosures required with state environmental policy act checklist—Public inspection of information. The department of ecology shall require each applicant submitting a checklist pursuant to chapter 43.21C RCW for a metals mining and milling operation to disclose the ownership and each controlling interest in the proposed operation. The applicant shall also disclose all other mining operations within the United States which the applicant operates or in which the applicant has an ownership or controlling interest. In addition, the applicant shall disclose and may enumerate and describe the circumstances of: (1) Any past or present bankruptcies involving the owners and their subsidiaries, (2) any abandonment of sites regulated by the model toxics control act, chapter 70.105D RCW, or other similar state remedial cleanup programs, or the federal comprehensive environmental response, compensation, and liability act, 42 U.S.C. Sec. 9601 et seq., as amended, (3) any penalties in excess of ten thousand dollars assessed for violations of the provisions of 33 U.S.C. Sec. 1251 et seq. or 42 U.S.C. Sec. 7401 et seq., and (4) any previous forfeitures of financial assurance due to noncompliance with reclamation or remediation requirements. This information shall be available for public inspection and copying at the department of ecology. Ownership or control of less than ten percent of the stock of a corporation shall not by itself constitute ownership or a controlling interest under this section. [1994 c 232 § 4.]

78.56.050 Environmental impact statement required—Mitigation measures to be part of permit

[Title 78 RCW—page 34]
requirements—Department of ecology to cooperate with affected local governments. (1) An environmental impact statement must be prepared for any proposed metals mining and milling operation. The department of ecology shall be the lead agency in coordinating the environmental review process under chapter 43.21C RCW and in preparing the environmental impact statement, except for uranium and thorium operations regulated under Title 70 RCW.

(2) As part of the environmental review of metals mining and milling operations regulated under this chapter, the applicant shall provide baseline data adequate to document the premining conditions at the proposed site of the metals mining and milling operation. The baseline data shall contain information on the elements of the natural environment identified in rules adopted pursuant to chapter 43.21C RCW.

(3) The department of ecology, after consultation with the department of fish and wildlife, shall incorporate measures to mitigate significant probable adverse impacts to fish and wildlife as part of the department of ecology’s permit requirements for the proposed operation.

(4) In conducting the environmental review and preparing the environmental impact statement, the department of ecology shall cooperate with all affected local governments to the fullest extent practicable. [1994 c 232 § 5.]

78.56.060 Metals mining coordinator to be appointed—Duties. The department of ecology will appoint a metals mining coordinator. The coordinator will maintain current information on the status of any metals mining and milling operation regulated under this chapter from the preparation of the environmental impact statement through the permitting, construction, operation, and reclamation phases of the project or until the proposal is no longer active. The coordinator shall also maintain current information on post-closure activities. The coordinator will act as a contact person for the applicant, the operator, and interested members of the public. The coordinator may also assist agencies with coordination of their inspection and monitoring responsibilities. [1994 c 232 § 6.]

78.56.070 Quarterly inspections by responsible state agencies required—Cross-training and coordination of inspections encouraged. (1) State agencies with the responsibility for inspecting metals mining and milling operations regulated under this chapter shall conduct such inspections at least quarterly: PROVIDED, That the inspections are not prevented by inclement weather conditions.

(2) The legislature encourages state agencies with inspection responsibilities for metals mining and milling operations regulated under this chapter to explore opportunities for cross-training of inspectors among state agencies and programs. This cross-training would be for the purpose of meeting the inspection responsibilities of these agencies in a more efficient and cost-effective manner. If doing so would be more efficient and cost-effective, state agency inspectors are also encouraged to coordinate inspections with federal and local government inspectors as well as with one another. [1994 c 232 § 7.]

78.56.080 Metals mining account—Estimate of costs by department of ecology and department of natural resources—Fee on operations to be established by department of ecology. (1) The metals mining account is created in the state treasury. Expenditures from this account are subject to appropriation. Expenditures from this account may only be used for: (a) The additional inspections of metals mining and milling operations required by RCW 78.56.070 and (b) the metals mining coordinator established in RCW 78.56.060.

(2)(a) As part of its normal budget development process and in consultation with the metals mining industry, the department of ecology shall estimate the costs required for the department to meet its obligations for the additional inspections of metals mining and milling operations required by chapter 232, Laws of 1994. The department shall also estimate the cost of employing the metals mining coordinator established in RCW 78.56.060.

(b) As part of its normal budget development process and in consultation with the metals mining industry, the department of natural resources shall estimate the costs required for the department to meet its obligations for the additional inspections of metals mining and milling operations required by chapter 232, Laws of 1994.

(3) Based on the cost estimates generated by the department of ecology and the department of natural resources, the department of ecology shall establish the amount of a fee to be paid by each active metals mining and milling operation regulated under this chapter. The fee shall be established at a level to fully recover the direct and indirect costs of the agency responsibilities identified in subsection (2) of this section. The amount of the fee for each operation shall be proportional to the number of visits required per site. Each applicant for a metals mining and milling operation shall also be assessed the fee based on the same criterion. The department of ecology may adjust the fees established in this subsection if unanticipated activity in the industry increases or decreases the amount of funding necessary to meet agencies’ inspection responsibilities.

(4) The department of ecology shall collect the fees established in subsection (3) of this section. All moneys from these fees shall be deposited into the metals mining account. [1997 c 170 § 1; 1994 c 232 § 8.]

78.56.090 Initial waste discharge permits for tailings facilities—Siting criteria—Primary screening process—Technical site investigation—Site selection report. (1) In the processing of an application for an initial waste discharge permit for a tailings facility pursuant to the requirements of chapter 90.48 RCW, the department of ecology shall consider site-specific criteria in determining a preferred location of tailings facilities of metals mining and milling operations and incorporate the requirements of all known available and reasonable methods in order to maintain the highest possible standards to insure the purity of all waters of the state in accordance with the public policy identified by RCW 90.48.010.

In implementing the siting criteria, the department shall take into account the objectives of the proponent’s application relating to mining and milling operations. These objectives shall consist of, but not be limited to (a) operational fea-
sibility, (b) compatibility with optimum tailings placement methods, (c) adequate volume capacity, (d) availability of construction materials, and (e) an optimized embankment volume.

(2) To meet the mandate of subsection (1) of this section, siting of tailings facilities shall be accomplished through a two-stage process that consists of a primary alternatives screening phase, and a secondary technical site investigation phase.

(3) The primary screening phase will consist of, but not be limited to, siting criteria based on considerations as to location as follows:

(a) Proximity to the one hundred year floodplain, as indicated in the most recent federal emergency management agency maps;
(b) Proximity to surface and ground water;
(c) Topographic setting;
(d) Identifiable adverse geologic conditions, such as landslides and active faults; and
(e) Visibility impacts of the public generally and residents more particularly.

(4) The department of ecology, through the primary screening process, shall reduce the available tailings facility sites to one or more feasible locations whereupon a technical site investigation phase shall be conducted by the department for the purpose of verifying the adequacy of the remaining potential sites. The technical site investigations phase shall consist of, but not be limited to, the following:

(a) Soil characteristics;
(b) Hydrologic characteristics;
(c) A local and structural geology evaluation, including seismic conditions and related geotechnical investigations;
(d) A surface water control analysis; and
(e) A slope stability analysis.

(5) Upon completion of the two phase evaluation process set forth in this section, the department of ecology shall issue a site selection report on the preferred location. This report shall address the above criteria as well as analyze the feasibility of reclamation and stabilization of the tailings facility. The siting report may recommend mitigation or engineering factors to address siting concerns. The report shall be developed in conjunction with the preparation of and contained in an environmental impact statement prepared pursuant to chapter 43.21C RCW. The report may be utilized by the department of ecology for the purpose of providing information related to the suitability of the site and for ruling on an application for a waste discharge permit.

(6) The department of ecology may, at its discretion, require the applicant to provide the information required in either phase one or phase two as described in subsections (3) and (4) of this section. [1994 c 232 § 9.]

78.56.100 Waste discharge permits for metals mining and milling operations tailing facilities—Pollution control standards—Waste rock management plan—Citizen observation and verification of water samples—Voluntary reduction plan—Application of this section. (1) In order to receive a waste discharge permit from the department of ecology pursuant to the requirements of chapter 90.48 RCW or in order to operate a metals mining and milling tailing facility, an applicant proposing a metals mining and milling operation regulated under this chapter must meet the following additional requirements:

(a) Any tailings facility shall be designed and operated to prevent the release of pollution and must meet the following standards:

(i) Operators shall apply all known available and reasonable technology to limit the concentration of potentially toxic materials in the tailings facility to assure the protection of wildlife and human health;
(ii) The tailings facility shall have a containment system that includes an engineered liner system, leak detection and leak collection elements, and a seepage collection impoundment to assure that a leak of any regulated substance under chapter 90.48 RCW will be detected before escaping from the containment system. The design and management of the facility must ensure that any leaks from the tailings facility are detected in a manner which allows for remediation pursuant to chapter 90.48 RCW. The applicant shall prepare a detailed engineering report setting forth the facility design and construction. The applicant shall submit the report to the department of ecology for its review and approval of a design as determined by the department. Natural conditions, such as depth to groundwater or net rainfall, shall be taken into account in the facility design, but not in lieu of the protection required by the engineered liner system;
(iii) The toxicity of mine or mill tailings and the potential for long-term release of regulated substances from mine or mill tailings shall be reduced to the greatest extent practicable through stabilization, removal, or reuse of the substances; and
(iv) The closure of the tailings facility shall provide for isolation or containment of potentially toxic materials and shall be designed to prevent future release of regulated substances contained in the impoundment;

(b) The applicant must develop a waste rock management plan approved by the department of ecology and the department of natural resources which emphasizes pollution prevention. At a minimum, the plan must contain the following elements:

(i) An accurate identification of the acid generating properties of the waste rock;
(ii) A strategy for encapsulating potentially toxic material from the environment, when appropriate, in order to prevent the release of heavy metals and acidic drainage; and
(iii) A plan for reclaiming and closing waste rock sites which minimizes infiltration of precipitation and runoff into the waste rock and which is designed to prevent future releases of regulated substances contained within the waste rock;

(c) If an interested citizen or citizen group so requests of the department of ecology, the metals mining and milling operator or applicant shall work with the department of ecology and the interested party to make arrangements for citizen observation and verification in the taking of required water samples. While it is the intent of this subsection to provide for citizen observation and verification of water sampling activities, it is not the intent of this subsection to require additional water sampling and analysis on the part of the mining and milling operation or the department. The citizen observation and verification program shall be incorporated into the applicant’s, operator’s, or department’s normal sampling regimen.
and shall occur at least once every six months. There is no duty of care on the part of the state or its employees to any person who participates in the citizen observation and verification of water sampling under chapter 232, Laws of 1994 and the state and its employees shall be immune from any civil lawsuit based on any injuries to or claims made by any person as a result of that person’s participation in such observation and verification of water sampling activities. The metals mining and milling operator or applicant shall not be liable for any injuries to or claims made by any person which result from that person coming onto the property of the metals mining and milling operator or applicant as an observer pursuant to chapter 232, Laws of 1994. The results from these and all other relevant water sampling activities shall be kept on file with the relevant county and shall be available for public inspection during normal working hours; and

(d) An operator or applicant for a metals mining and milling operation must complete a voluntary reduction plan in accordance with RCW 70.95C.200.

(2) Only those tailings facilities constructed after April 1, 1994, must meet the requirement established in subsection (1)(a) of this section. Only those waste rock holdings constructed after April 1, 1994, must meet the requirement established in subsection (1)(b) of this section. [1994 c 232 § 10.]

78.56.110 Performance security required—Conditions—Department of ecology authority to adopt requirements—Liability under performance security. (1) The department of ecology shall not issue necessary permits to an applicant for a metals mining and milling operation until the applicant has deposited with the department of ecology a performance security which is acceptable to the department of ecology based on the requirements of subsection (2) of this section. This performance security may be:

(a) Bank letters of credit;
(b) A cash deposit;
(c) Negotiable securities;
(d) An assignment of a savings account;
(e) A savings certificate in a Washington bank; or
(f) A corporate surety bond executed in favor of the department of ecology by a corporation authorized to do business in the state of Washington under Title 48 RCW.

The department of ecology may, for any reason, refuse any performance security not deemed adequate.

(2) The performance security shall be conditioned on the faithful performance of the applicant or operator in meeting the following obligations:

(a) Compliance with the environmental protection laws of the state of Washington administered by the department of ecology, or permit conditions administered by the department of ecology, associated with the construction, operation, and closure pertaining to metals mining and milling operations, and with the related environmental protection ordinances and permit conditions established by local government when requested by local government;
(b) Reclamation of metals mining and milling operations that do not meet the threshold of surface mining as defined by RCW 78.44.031(17);
(c) Postclosure environmental monitoring as determined by the department of ecology; and

(d) Provision of sufficient funding as determined by the department of ecology for cleanup of potential problems revealed during or after closure.

(3) The department of ecology may, if it deems appropriate, adopt rules for determining the amount of the performance security, requirements for the performance security, requirements for the issuer of the performance security, and any other requirements necessary for the implementation of this section.

(4) The department of ecology may increase or decrease the amount of the performance security at any time to compensate for any alteration in the operation that affects meeting the obligations in subsection (2) of this section. At a minimum, the department shall review the adequacy of the performance security every two years.

(5) Liability under the performance security shall be maintained until the obligations in subsection (2) of this section are met to the satisfaction of the department of ecology. Liability under the performance security may be released only upon written notification by the department of ecology.

(6) Any interest or appreciation on the performance security shall be held by the department of ecology until the obligations in subsection (2) of this section have been met to the satisfaction of the department of ecology. At such time, the interest shall be remitted to the applicant or operator. However, if the applicant or operator fails to comply with the obligations of subsection (2) of this section, the interest or appreciation may be used by the department of ecology to comply with the obligations.

(7) Only one agency may require a performance security to satisfy the deposit requirements of RCW 78.44.087, and only one agency may require a performance security to satisfy the deposit requirements of this section. However, a single performance security, when acceptable to both the department of ecology and the department of natural resources, may be utilized by both agencies to satisfy the requirements of this section and RCW 78.44.087. [1995 c 223 § 1; 1994 c 232 § 11.]

78.56.120 Remediation or mitigation by department of ecology—Order to submit performance security. The department of ecology may, with staff, equipment, and material under its control, or by contract with others, remediate or mitigate any impact of a metals mining and milling operation when it finds that the operator or permit holder has failed to comply with relevant statutes, rules, or permits, and the operator or permit holder has failed to take adequate or timely action to rectify these impacts.

If the department intends to remediate or mitigate such impacts, the department shall issue an order to submit performance security requiring the permit holder or surety to submit to the department the amount of moneys posted pursuant to RCW 78.56.110. If the amount specified in the order to submit performance security is not paid within twenty days after issuance of the notice, the attorney general upon request of the department shall bring an action on behalf of the state in a superior court to recover the amount specified and associated legal fees.

The department may proceed at any time after issuing the order to submit performance security to remediate or mitigate adverse impacts.
The department shall keep a record of all expenses incurred in carrying out any remediation or mitigation activities authorized under this section, including:

(1) Remediation or mitigation;
(2) A reasonable charge for the services performed by the state’s personnel and the state’s equipment and materials utilized; and
(3) Administrative and legal expenses related to remediation or mitigation.

The department shall refund to the surety or permit holder all amounts received in excess of the amount of expenses incurred. If the amount received is less than the expenses incurred, the attorney general, upon request of the department of ecology, may bring an action against the permit holder on behalf of the state in the superior court to recover the remaining costs listed in this section. [1995 c 223 § 2; 1994 c 232 § 12.]

78.56.130 Legislative finding—Impact analysis required for large-scale operations—Impact fees by county legislative authority—Application of this section—Application of chapter 82.02 RCW. (1) The legislature finds that the construction and operation of large-scale metals mining and milling facilities may create new job opportunities and enhance local tax revenues. However, the legislature also finds that such operations may also result in new demands on public facilities owned and operated by local government entities, such as public streets and roads; publicly owned parks, open space, and recreation facilities; school facilities; and fire protection facilities in jurisdictions that are not part of a fire district. It is important for these economic impacts to be identified as part of any proposal for a large-scale metals mining and milling operation. It is then appropriate for the county legislative authority to balance expected revenues, including revenues derived from taxes paid by the owner of such an operation, and costs associated with the operation to determine to what degree any new costs require mitigation by the metals mining applicant.

(2) An applicant for a large-scale metals mining and milling operation regulated under this chapter must submit to the relevant county legislative authority an impact analysis describing the economic impact of the proposed mining operation on local governmental units. For the purposes of this section, a metals mining operation is large-scale if, in the construction or operation of the mine and the associated milling facility, the applicant and contractors at the site employ more than thirty-five persons during any consecutive six-month period. The relevant county is the county in which the mine and mill are to be sited, unless the economic impacts to local governmental units are projected to substantially affect more than one county. In that case, the impact plan must be submitted to the legislative authority of all affected counties. Local governmental units include counties, cities, towns, school districts, and special purpose districts.

(3) The economic impact analysis shall include at least the following information:

(a) A timetable for development of the mining operation, including the opening date of the operation and the estimated closing date;
(b) The estimated number of persons coming into the impacted area as a result of the development of the mining operation;
(c) An estimate of the increased capital and operating costs to local governmental units for providing services necessary as a result of the development of the mining operation; and
(d) An estimate of the increased tax or other revenues accruing to local governmental units as a result of development of the mining and milling operation.

(4) The county legislative authority of a county planning under chapter 36.70A RCW may assess impact fees under chapter 82.02 RCW to address economic impacts associated with development of the mining operation. The county legislative authority shall hold at least one public hearing on the economic impact analysis and any proposed mitigation measures.

(5) The county legislative authority of a county which is not planning under chapter 36.70A RCW may negotiate with the applicant on a strategy to address economic impacts associated with development of the mining operation. The county legislative authority shall hold at least one public hearing on the economic impact analysis and any proposed mitigation measures.

(6) The county legislative authority must approve or disapprove the impact analysis and any associated proposals from the applicant to address economic impacts to local governmental units resulting from development of the mining operation. If the applicant does not submit an adequate impact analysis to the relevant county legislative authority or if the county legislative authority does not find the applicant’s proposals to be acceptable because of their failure to adequately mitigate adverse economic impacts, the county legislative authority shall refuse to issue any permits under its jurisdiction necessary for the construction or operation of the mine and associated mill.

(7) The requirements established in this section apply to metals mining operations under construction or constructed after April 1, 1994.

(8) The provisions of chapter 82.02 RCW shall apply to new mining and milling operations. [1994 c 232 § 13.]

78.56.140 Citizen action suits. (1) Except as provided in subsections (2) and (5) of this section, any aggrieved person may commence a civil action on his or her own behalf:

(a) Against any person, including any state agency or local government agency, who is alleged to be in violation of a law, rule, order, or permit pertaining to metals mining and milling operations regulated under chapter 82.02, Laws of 1994;
(b) Against a state agency if there is alleged a failure of the agency to perform any nondiscretionary act or duty under state laws pertaining to metals mining and milling operations; or
(c) Against any person who constructs a metals mining and milling operation without the permits and authorizations required by state law.

The superior courts shall have jurisdiction to enforce metals mining laws, rules, orders, and permit conditions, or to order the state to perform such act or duty, as the case may be. In addition to injunctive relief, a superior court may
award a civil penalty when deemed appropriate in an amount not to exceed ten thousand dollars per violation per day, payable to the state of Washington.

(2) No action may be commenced:
   (a) Under subsection (1)(a) of this section:
      (i) Prior to sixty days after the plaintiff has given notice of the alleged violation to the state, and to any alleged violator of a metals mining and milling law, rule, order, or permit condition; or
      (ii) If the state has commenced and is diligently prosecuting a civil action in a court of the state or of the United States or is diligently pursuing authorized administrative enforcement action to require compliance with the law, rule, order, or permit. To preclude a civil action, the enforcement action must contain specific, aggressive, and enforceable timelines for compliance and must provide for public notice of and reasonable opportunity for public comment on the enforcement action. In any such court action, any aggrieved person may intervene as a matter of right; or
   (b) Under subsection (1)(b) of this section prior to sixty days after the plaintiff has given notice of such action to the state.

(3)(a) Any action respecting a violation of a law, rule, order, or permit condition pertaining to metals mining and milling operations may be brought in the judicial district in which such operation is located or proposed.

(b) In such action under this section, the state, if not a party, may intervene as a matter of right.

(4) The court, in issuing any final order in any action brought pursuant to subsection (1) of this section, may award costs of litigation, including reasonable attorney and expert witness fees, to any prevailing party, wherever the court determines such award is appropriate. The court may, if a temporary restraining order or preliminary injunction is sought, require the filing of a bond or equivalent security in accordance with the rules of civil procedure.

(5) A civil action to enforce compliance with a law, rule, order, or permit may not be brought under this section if any other statute, or the common law, provides authority for the plaintiff to bring a civil action and, in such action, obtain the same relief, as authorized under this section, for enforcement of such law, rule, order, or permit. Nothing in this section restricts any right which any person, or class of persons, may have under any statute or common law to seek any relief, including relief against the state or a state agency. [1994 c 232 § 14.]

78.56.150 Application of requirements to milling facilities not adjacent to mining operation. A milling facility which is not adjacent to or in the vicinity of the metals mining operation producing the ore to be milled and which processes precious or base metal ore by treatment or concentration is subject to the provisions of RCW 78.56.010 through 78.56.090, 78.56.100(1) (a), (c), and (d), 78.56.110 through 78.56.140, 70.94.620, and 70.105.300 and chapters 70.94, 70.105, 90.03, and 90.48 RCW and all other applicable laws. The smelting of aluminum does not constitute a metals milling operation under this section. [1994 c 232 § 15.]

78.56.160 Moratorium on use of heap leach extraction process—Joint review by department of ecology and department of natural resources—Permanent prohibition of in situ extraction. (1) Until June 30, 1996, there shall be a moratorium on metals mining and milling operations using the heap leach extraction process. The department of natural resources and the department of ecology shall jointly review the existing laws and regulations pertaining to the heap leach extraction process for their adequacy in safeguarding the environment.

(2) Metals mining using the process of in situ extraction is permanently prohibited in the state of Washington. [1998 c 245 § 161; 1994 c 232 § 16.]

78.56.900 Severability—1994 c 232. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1994 c 232 § 29.]

78.56.901 Effective date—1994 c 232 §§ 1-5, 9-17, and 23-29. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and, with the exception of sections 6 through 8 and 18 through 22 of this act, shall take effect immediately [April 1, 1994]. [1994 c 232 § 30.]

78.56.902 Effective date—1994 c 232 §§ 6-8 and 18-22. Sections 6 through 8 and 18 through 22 of this act shall take effect July 1, 1995. [1994 c 232 § 31.]
78.60.010 Legislative declaration. The public has a direct interest in the safe, orderly and nearly pollution-free development of the geothermal resources of the state, as hereinafter in *RCW 79.76.030(1) defined. The legislature hereby declares that it is in the best interests of the state to further the development of geothermal resources for the benefit of all of the citizens of the state while at the same time fully providing for the protection of the environment. The development of geothermal resources shall be so conducted as to protect the rights of landowners, other owners of interests therein, and the general public. In providing for such development, it is the purpose of this chapter to provide for the orderly exploration, safe drilling, production and proper abandonment of geothermal resources in the state of Washington. [1974 ex.s. c 43 § 1. Formerly RCW 79.76.010.]

78.60.020 Short title. This chapter shall be known as the Geothermal Resources Act. [1974 ex.s. c 43 § 2. Formerly RCW 79.76.020.]

78.60.030 Definitions. For the purposes of this chapter, unless the text otherwise requires, the following terms shall have the following meanings:

(1) "Geothermal resources" means only that natural heat energy of the earth from which it is technologically practical to produce electricity commercially and the medium by which such heat energy is extracted from the earth, including liquids or gases, as well as any minerals contained in any natural or injected fluids, brines and associated gas, but excluding oil, hydrocarbon gas and other hydrocarbon substances.

(2) "Waste", in addition to its ordinary meaning, shall mean "physical waste" as that term is generally understood and shall include:

(a) The inefficient, excessive, or improper use of, or unnecessary dissipation of, reservoir energy; or the locating, spacing, drilling, equipping, operating or producing of any geothermal energy well in a manner which results, or tends to result, in reducing the quantity of geothermal energy to be recovered from any geothermal area in this state;

(b) The inefficient above-ground transporting or storage of geothermal energy; or the locating, spacing, drilling, equipping, operating, or producing of any geothermal well in a manner causing, or tending to cause, unnecessary excessive surface loss or destruction of geothermal energy;

(c) The escape into the open air, from a well of steam or hot water, in excess of what is reasonably necessary in the efficient development or production of a geothermal well.

(3) "Geothermal area" means any land that is, or reasonably appears to be, underlain by geothermal resources.

(4) "Energy transfer system" means the structures and enclosed fluids which facilitate the utilization of geothermal energy. The system includes the geothermal wells, cooling towers, reinjection wells, equipment directly involved in converting the heat energy associated with geothermal resources to mechanical or electrical energy or in transferring it to another fluid, the closed piping between such equipment, wells and towers and that portion of the earth which facilitates the transfer of a fluid from reinjection wells to geothermal wells: PROVIDED, That the system shall not include any geothermal resources which have escaped into or have been released into the nongeothermal ground or surface waters from either man-made containers or through leaks in the structure of the earth caused by or to which access was made possible by any drilling, redrilling, reworking or operating of a geothermal or reinjection well.

(5) "Operator" means the person supervising or in control of the operation of a geothermal resource well, whether or not such person is the owner of the well.

(6) "Owner" means the person who possesses the legal right to drill, convert or operate any well or other facility subject to the provisions of this chapter.

(7) "Person" means any individual, corporation, company, association of individuals, joint venture, partnership, receiver, trustee, guardian, executor, administrator, personal representative, or public agency that is the subject of legal rights and duties.

(8) "Pollution" means any damage or injury to ground or surface waters, soil or air resulting from the unauthorized loss, escape, or disposal of any substances at any well subject to the provisions of this chapter.

(9) "Department" means the department of natural resources.

(10) "Well" means any excavation made for the discovery or production of geothermal resources, or any special facility, converted producing facility, or reactivated or converted abandoned facility used for the reinjection of geothermal resources, or the residue thereof underground.

(11) "Core holes" are holes drilled or excavations made expressly for the acquisition of geological or geophysical data for the purpose of finding and delineating a favorable geothermal area prior to the drilling of a well.

(12) A "completed well" is a well that has been drilled to its total depth, has been adequately cased, and is ready to be either plugged and abandoned, shut-in, or put into production.

(13) "Plug and abandon" means to place permanent plugs in the well in such a way and at such intervals as are necessary to prevent future leakage of fluid from the well to the surface or from one zone in the well to the other, and to remove all drilling and production equipment from the site, and to restore the surface of the site to its natural condition or contour or to such condition as may be prescribed by the department.

(14) "Shut-in" means to adequately cap or seal a well to control the contained geothermal resources for an interim period. [1974 ex.s. c 43 § 3. Formerly RCW 79.76.030.]

78.60.040 Geothermal resources deemed sui generis. Notwithstanding any other provision of law, geothermal resources are found and hereby determined to be sui generis, being neither a mineral resource nor a water resource and as such are hereby declared to be the private property of the holder of the title to the surface land above the resource.
78.60.050 Administration of chapter. (1) The department shall administer and enforce the provisions of this chapter and the rules, regulations, and orders relating to the drilling, operation, maintenance, abandonment and restoration of geothermal areas, to prevent damage to and waste from underground geothermal deposits, and to prevent damage to underground and surface waters, land or air that may result from improper drilling, operation, maintenance or abandonment of geothermal resource wells.

(2) In order to implement the terms and provisions of this chapter, the department under the provisions of chapter 34.05 RCW, as now or hereafter amended, may from time to time promulgate rules and regulations necessary to carry out the purposes of this chapter, including but not restricted to defining geothermal areas; establishing security requirements, which may include bonding; providing for liens against production; providing for casing and safety device requirements; providing for site restoration plans to be completed prior to abandonment; and providing for abandonment requirements. [1974 ex.s. c 43 § 5. Formerly RCW 79.76.050.]

78.60.060 Scope of chapter. This chapter is intended to preempt local regulation of the drilling and operation of wells for geothermal resources but shall not be construed to permit the locating of any well or drilling when such well or drilling is prohibited under state or local land use law or regulations promulgated thereunder. Geothermal resources, by-products and/or waste products which have escaped or been released from the energy transfer system and/or a mineral recovery process shall be subject to provisions of state law relating to the pollution of ground or surface waters (Title 90 RCW), and any other state environmental pollution control laws. Authorization for use of by-product water resources for all beneficial uses, including but not restricted to heat flow, temperature gradients, and rock conductivity, shall be required to obtain a single permit for each core hole according to subsection (1) of this section, including a permit fee for each core hole, but no notice need be published, and no hearing need be held. Such core holes that penetrate more than seven hundred and fifty feet into bedrock shall be deemed geothermal test wells and subject to the payment of a permit fee and to the requirement in subsection (2) of this section for public notices and hearing. In the event geothermal energy is discovered in a core hole, the hole shall be deemed a geothermal well and subject to the permit fee, notices, and hearing. Such core holes as described by this subsection are subject to all other provisions of this chapter, including a bond or other security as specified in RCW 78.60.130.

(4) All moneys paid to the department under this section shall be deposited with the state treasurer for credit to the general fund. [2007 c 338 § 1; 1974 ex.s. c 43 § 7. Formerly RCW 79.76.070.]

78.60.080 Drilling permits—Criteria for granting. A permit shall be granted only if the department is satisfied that the area is suitable for the activities applied for; that the applicant will be able to comply with the provisions of this chapter and the rules and regulations enacted hereunder; and that a permit would be in the best interests of the state.

The department shall not allow operation of a well under permit if it finds that the operation of any well will unreasonably decrease groundwater available for prior water rights in any aquifer or other groundwater source for water for beneficial uses, unless such affected water rights are acquired by condemnation, purchase or other means.

The department shall have the authority to condition the permit as it deems necessary to carry out the provisions of this chapter, including but not limited to conditions to reduce any environmental impact.

The department shall forward a copy of the permit to the department of ecology within five days of issuance. [1974 ex.s. c 43 § 8. Formerly RCW 79.76.080.]

78.60.070 Drilling permits—Applications—Hearing—Fees. (1) Any person proposing to drill a well or redrill an abandoned well for geothermal resources shall file with the department a written application for a permit to commence such drilling or redrilling on a form prescribed by the department accompanied by a permit fee of two hundred dollars. The department shall forward a duplicate copy to the department of ecology within ten days of filing.

(2) Upon receipt of a proper application relating to drilling or redrilling the department shall set a date, time, and place for a public hearing on the application, which hearing shall be in the county in which the drilling or redrilling is proposed to be made, and shall instruct the applicant to publish notices of such application and hearing by such means and within such time as the department shall prescribe. The department shall require that the notice so prescribed shall be published twice in a newspaper of general circulation within the county in which the drilling or redrilling is proposed to be made and in such other appropriate information media as the department may direct.

(3) Any person proposing to drill a core hole for the purpose of gathering geothermal data, including but not restricted to heat flow, temperature gradients, and rock conductivity, shall be required to obtain a single permit for each core hole according to subsection (1) of this section, including a permit fee for each core hole, but no notice need be published, and no hearing need be held. Such core holes that penetrate more than seven hundred and fifty feet into bedrock shall be deemed geothermal test wells and subject to the payment of a permit fee and to the requirement in subsection (2) of this section for public notices and hearing. In the event geothermal energy is discovered in a core hole, the hole shall be deemed a geothermal well and subject to the permit fee, notices, and hearing. Such core holes as described by this subsection are subject to all other provisions of this chapter, including a bond or other security as specified in RCW 78.60.130.

(4) All moneys paid to the department under this section shall be deposited with the state treasurer for credit to the general fund. [2007 c 338 § 1; 1974 ex.s. c 43 § 7. Formerly RCW 79.76.070.]

78.60.090 Casing requirements. Any operator engaged in drilling or operating a well for geothermal resources shall equip such well with casing of sufficient strength and with such safety devices as may be necessary, in accordance with methods approved by the department.

No person shall remove a casing, or any portion thereof, from any well without prior approval of the department. [1974 ex.s. c 43 § 9. Formerly RCW 79.76.090.]

78.60.100 Plugging and abandonment of wells or core holes—Transfer of jurisdiction to department of
ecology. Any well or core hole drilled under authority of this chapter from which:

1. It is not technologically practical to derive the energy to produce electricity commercially, or the owner or operator has no intention of deriving energy to produce electricity commercially, and

2. Usable minerals cannot be derived, or the owner or operator has no intention of deriving usable minerals, shall be plugged and abandoned as provided in this chapter or, upon the owner's or operator's written application to the department of natural resources and with the concurrence and approval of the department of ecology, jurisdiction over the well may be transferred to the department of ecology and, in such case, the well shall no longer be subject to the provisions of this chapter but shall be subject to any applicable laws and rules relating to wells drilled for appropriation and use of groundwaters. If an application is made to transfer jurisdiction, a copy of all logs, records, histories, and descriptions shall be provided to the department of ecology by the applicant. [2007 c 338 § 2; 1974 ex.s. c 43 § 10. Formerly RCW 79.76.100.]

78.60.110 Suspension of drilling, shut-in or removal of equipment for authorized period—Unlawful abandonment. (1) The department may authorize the operator to suspend drilling operations, shut-in a completed well, or remove equipment from a well for the period stated in the department's written authorization. The period of suspension may be extended by the department upon the operator showing good cause for the granting of such extension.

(2) If drilling operations are not resumed by the operator, or the well is not put into production, upon expiration of the suspension or shut-in permit, an intention to unlawfully abandon shall be presumed.

(3) A well shall also be deemed unlawfully abandoned if, without written approval from the department, drilling equipment is removed.

(4) An unlawful abandonment under this chapter shall be entered in the department records and written notice thereof shall be mailed by registered mail both to such operator at his last known address as disclosed by records of the department and to the operator's surety. The department may thereafter proceed against the operator and his surety. [1974 ex.s. c 43 § 11. Formerly RCW 79.76.110.]

78.60.120 Notification of abandonment or suspension of operations—Required—Procedure. (1) Before any operation to plug and abandon or suspend the operation of any well is commenced, the owner or operator shall submit in writing a notification of abandonment or suspension of operations to the department for approval. No operation to abandon or suspend the operation of a well shall commence without approval by the department. The department shall respond to such notification in writing within ten working days following receipt of the notification.

(2) Failure to abandon or suspend operations in accordance with the method approved by the department shall constitute a violation of this chapter, and the department shall take appropriate action under the provisions of *RCW 79.76.270. [1974 ex.s. c 43 § 12. Formerly RCW 79.76.120.]

Reviser's note: RCW 79.76.270 was recodified as RCW 78.60.270 pursuant to 2003 c 334 § 567.

78.60.130 Performance bond or other security—Required. Every operator who engages in the drilling, redrilling, or deepening of any well or core hole shall file with the department a reasonable bond or bonds with good and sufficient surety, or the equivalent thereof, acceptable to the department, conditioned on compliance with the provisions of this chapter and all rules and permit conditions adopted pursuant to this chapter. This performance bond shall be executed in favor of and approved by the department.

In lieu of a bond the operator may file with the department a cash deposit, negotiable securities acceptable to the department, or an assignment of a savings account in a Washington bank on an assignment form prescribed by the department. The department, in its discretion, may accept a single surety or security arrangement covering more than one well or core hole. [2007 c 338 § 3; 1974 ex.s. c 43 § 13. Formerly RCW 79.76.130.]

78.60.140 Termination or cancellation of bond or change in other security, when. The department shall not consent to the termination and cancellation of any bond by the operator, or change as to other security given, until the well or wells for which it has been issued have been properly abandoned or another valid bond for such well has been submitted and approved by the department. A well is properly abandoned when abandonment has been approved by the department. [1974 ex.s. c 43 § 14. Formerly RCW 79.76.140.]

78.60.150 Notification of sale, exchange, etc. The owner or operator of a well shall notify the department in writing within ten days of any sale, assignment, conveyance, exchange, or transfer of any nature which results in any change or addition in the owner or operator of the well on such forms with such information as may be prescribed by the department. [1974 ex.s. c 43 § 15. Formerly RCW 79.76.150.]

78.60.160 Combining orders, unitization programs and well spacing—Authority of department. The department has the authority, through rules and regulations, to promulgate combining orders, unitization programs, and well spacing, and establish proportionate costs among owners or operators for the operation of such units as the result of said combining orders, if good and sufficient reason is demonstrated that such measures are necessary to prevent the waste of geothermal resources. [1974 ex.s. c 43 § 16. Formerly RCW 79.76.160.]

78.60.170 Designation of resident agent for service of process. Each owner or operator of a well shall designate a person who resides in this state as his agent upon whom may be served all legal processes, orders, notices, and directives of the department or any court. [1974 ex.s. c 43 § 17. Formerly RCW 79.76.170.]

[Title 78 RCW—page 42]
78.60.180  General authority of department. The department shall have the authority to conduct or authorize investigations, research, experiments, and demonstrations, cooperate with other governmental and private agencies in making investigations, receive any federal funds, state funds, and other funds and expend them on research programs concerning geothermal resources and their potential development within the state, and to collect and disseminate information relating to geothermal resources in the state: PROVIDED, That the department shall not construct or operate commercial geothermal facilities. [1974 ex.s. c 43 § 18. Formerly RCW 79.76.180.]

78.60.190  Employment of personnel. The department shall have the authority, and it shall be its duty, to employ all personnel necessary to carry out the provisions of this chapter pursuant to chapter 41.06 RCW. [1974 ex.s. c 43 § 19. Formerly RCW 79.76.190.]

78.60.200  Drilling records, etc., to be maintained—Inspection—Filing. (1) The owner or operator of any well or core hole shall keep or cause to be kept careful and accurate logs, including but not restricted to heat flow, temperature gradients, and rock conductivity logs, records, descriptions, and histories of the drilling, redrilling, or deepening of the well. (2) All logs, including but not restricted to heat flow, temperature gradients, and rock conductivity logs, records, histories, and descriptions referred to in subsection (1) of this section shall be kept in the local office of the owner or operator, and together with other reports of the owner or operator shall be subject during business hours to inspection by the department. Each owner or operator, upon written request from the department, shall file with the department one paper and one electronic copy of the logs, including but not restricted to heat flow, temperature gradients, and rock conductivity logs, records, histories, descriptions, or other records or portions thereof pertaining to the geothermal drilling or operation underway or suspended. [2007 c 338 § 4; 1974 ex.s. c 43 § 20. Formerly RCW 79.76.200.]

78.60.210  Filing of logs and surveys with department upon completion, plugging, abandonment, or suspension of operations. Upon completion or plugging and abandonment of any well or core hole or upon the suspension of operations conducted with respect to any well or core hole for a period of at least six months, one paper and one electronic copy of the logs, including but not restricted to heat flow, temperature gradients, and rock conductivity logs, core, electric log, history, and all other logs and surveys that may have been run on the well, shall be filed with the department within thirty days after such completion, plugging and abandonment, or six months’ suspension. [2007 c 338 § 5; 1974 ex.s. c 43 § 21. Formerly RCW 79.76.210.]

78.60.220  Statement of geothermal resources produced—Filing. The owner or operator of any well producing geothermal resources shall file with the department a statement of the geothermal resources produced. Such report shall be submitted on such forms and in such manner as may be prescribed by the department. [1974 ex.s. c 43 § 22. Formerly RCW 79.76.220.]

78.60.230  Confidentiality of records—Preservation in an electronic data system. (1) The records of any owner or operator, when filed with the department as provided in this chapter, shall be confidential and shall be open to inspection only to personnel of the department for the purpose of carrying out the provisions of this chapter and to those authorized in writing by such owner or operator, until the expiration of a twenty-four month confidential period to begin at the date of commencement of production or of abandonment of the well or core hole. (2) Such records shall in no case, except as provided in this chapter, be available as evidence in court proceedings. No officer, employee, or member of the department shall be allowed to give testimony as to the contents of such records, except as provided in this chapter for the review of a decision of the department or in any proceeding initiated for the enforcement of an order of the department, for the enforcement of a lien created by the enforcement of this chapter, or for use as evidence in criminal proceedings arising out of such records or the statements upon which they are based. In such suit the department may, without bond, obtain injunctions prohibitory and mandatory, including temporary restraining orders and preliminary injunctions, as the facts may warrant. 78.60.900  Severability—1974 ex.s. c 43. PART 5 OTHER TRUST/GRANT/FOREST RESERVE LANDS

79.02.400 Charitable, educational, penal, and reformatory real property—Inventory. (1) Every five years the department of social and health services and other state agencies that operate institutions shall conduct an inventory of all real property subject to the charitable, educational, penal, and reformatory institution account and other real property acquired for institutional purposes or for the benefit of the blind, deaf, or otherwise disabled. The inventory shall identify which of those real properties are not needed for state-provided residential care, custody, or treatment. By December 1, 1992, and every five years thereafter the department shall report the results of the inventory to the house of representatives committee on capital facilities and financing, the senate committee on ways and means, and the joint legislative audit and review committee.

(2) Real property identified as not needed for state-provided residential care, custody, or treatment shall be transferred to the corpus of the charitable, educational, penal, and reformatory institution account. This subsection shall not apply to leases of real property to a consortium of three or more counties in order for the counties to construct or otherwise acquire correctional facilities for juveniles or adults or to real property subject to binding conditions that conflict with the other provisions of this subsection.

(3) The department of natural resources shall manage all property subject to the charitable, educational, penal, and reformatory institution account and, in consultation with the department of social and health services and other affected agencies, shall adopt a plan for the management of real property subject to the account and other real property acquired for institutional purposes or for the benefit of the blind, deaf, mentally ill, developmentally disabled, or otherwise disabled.

(a) The plan shall be consistent with state trust land policies and shall be compatible with the needs of institutions adjacent to real property subject to the plan.

(b) The plan may be modified as necessary to ensure the quality of future management and to address the acquisition of additional real property. [1996 c 288 § 51; 1996 c 261 § 1; 1991 c 204 § 1. Formerly RCW 79.01.006.]

Department of social and health services duty. RCW 43.20A.035.

79.02.410 Charitable, educational, penal, and reformatory real property—High economic return potential—Income. Where charitable, educational, penal, and reformatory institutions land has the potential for lease for commercial, industrial, or residential uses or other uses with the potential for high economic return and is within urban or suburban areas, the department shall make every effort consistent with trust land management principles and all other provisions of law to lease the lands for such purposes, unless the land is subject to a lease to a state agency operating an existing state institution. The department is authorized, subject to approval by the board and only if a higher return can be realized, to exchange such lands for lands of at least equal value and to sell such lands and use the proceeds to acquire replacement lands. The department shall report to the appropriate legislative committees all charitable, educational, penal, and reformatory institutions land purchased, sold, or exchanged. Income from the leases shall be deposited in the charitable, educational, penal, and reformatory institutions account. The legislature shall give priority consideration to appropriating one-half of the money derived from lease income to providing community housing for persons who are mentally ill, developmentally disabled, or youth who are blind, deaf, or otherwise disabled. [2003 c 334 § 303; 1991 c 204 § 5. Formerly RCW 79.01.007.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.02.420 Finding—Intent. Community and technical college forest reserve land base—Management—Disposition of revenue. (1) The legislature finds that the state's community and technical colleges need a dedicated source of revenue to augment other sources of capital improvement funding. The intent of this section is to ensure that the forest land purchased under section 310, chapter 16, Laws of 1990 1st ex. sess. and known as the community and technical col-

[Title 79 RCW—page 10]
lege forest reserve land base, is managed in perpetuity and in the same manner as state forest lands for sustainable commercial forestry and multiple use of lands consistent with RCW 79.10.120. These lands will also be managed to provide an outdoor education and experience area for organized groups. The lands will provide a source of revenue for the long-term capital improvement needs of the state community and technical college system.

(2) There has been increasing pressure to convert forest lands within areas of the state subject to population growth. Loss of forest land in urbanizing areas reduces the production of forest products and the available supply of open space, watershed protection, habitat, and recreational opportunities. The land known as the community and technical college forest reserve land base is forever reserved from sale. However, the timber and other products on the land may be sold, or the land may be leased in the same manner and for the same purposes as authorized for state granted lands if the department finds the sale or lease to be in the best interest of this forest reserve land base and approves the terms and conditions of the sale or lease.

(3) The land exchange and acquisition powers provided in RCW 79.17.020 may be used by the department to reposition land within the community and technical college forest reserve land base consistent with subsection (1) of this section.

(4) Up to twenty-five percent of the revenue from these lands, as determined by the board, will be deposited in the forest development account to reimburse the forest development account for expenditures from the account for management of these lands.

(5) The community college forest reserve account, created under section 310, chapter 16, Laws of 1990 1st ex. sess., is renamed the community and technical college forest reserve account. The remainder of the revenue from these lands must be deposited in the community and technical college forest reserve account. Money in the account may be appropriated by the legislature for the capital improvement needs of the state community and technical college system or to acquire additional forest reserve lands. (1) In the management of public lands lying within the limits of any watershed over and through which is derived the water supply of any city or town, the department may alter its land management practices to provide water with qualities exceeding standards established for intrastate and interstate waters by the department of ecology. However, if such alterations of management by the department reduce revenues from, increase costs of management of, or reduce the market value of public lands the city or town requesting such alterations shall fully compensate the department.

(2) The department shall initiate a pilot project for the municipal watershed delineated by the Lake Whatcom hydrographic boundaries to determine what factors need to be considered to achieve water quality standards beyond those required under chapter 90.48 RCW and what additional management actions can be taken on state trust lands that can contribute to such higher water quality standards. The department shall establish an advisory committee consisting of a representative each of the city of Bellingham, Whatcom county, the Whatcom county water district 10, the department of ecology, the department of fish and wildlife, and the department of health, and three general citizen members to assist in this pilot project. 79.10.120 Concept to be utilized, when. The legislature hereby directs that a multiple use concept be utilized by the department in the administration of public lands where such a concept is in the best interests of the state and the general welfare of the citizens thereof, and is consistent with the applicable provisions of the various lands involved.
If such additional uses are not compatible with the financial obligations in the management of trust land they may be permitted only if there is compensation from such uses satisfying the financial obligations. [2003 c 182 § 2; 1971 ex.s. c 234 § 5. Formerly RCW 79.68.050.]

All state lands hereafter leased for grazing or agricultural purposes shall be open and available to the public for purposes of hunting and fishing, and for nonconsumptive wildlife activities, as defined by the board of natural resources, unless closed to public entry because of fire hazard or unless the department gives prior written approval and the area is lawfully posted by lessee to prohibit hunting and fishing, and nonconsumptive wildlife activities, thereon in order to prevent damage to crops or other land cover, to improvements on the land, to livestock, to the lessee, or to the general public, or closure is necessary to avoid undue interference with carrying forward a departmental or agency program. In the event any such lands are so posted it shall be unlawful for any person to hunt or fish, or pursue nonconsumptive wildlife activities, on any such posted lands. Such lands shall not be open and available for wildlife activities when access could endanger crops on the land or when access could endanger the person accessing the land.

The department shall insert the provisions of this section in all new grazing and agricultural leases. 79.10.280 Land use data bank—Contents, source. (1) The department shall design expansion of its land use data bank to include additional information that will assist in the formulation, evaluation, and updating of intermediate and long-range goals and policies for land use, population growth and distribution, urban expansion, open space, resource preservation and utilization, and other factors which shape statewide development patterns and significantly influence the quality of the state’s environment. The system shall be designed to permit inclusion of other lands in the state and will do so as financing and time permit.

(2) Such data bank shall contain any information relevant to the future growth of agriculture, forestry, industry, business, residential communities, and recreation; the wise use of land and other natural resources which are in accordance with their character and adaptability; the conservation and protection of the soil, air, water, and forest resources; the protection of the beauty of the landscape; and the promotion of the efficient and economical uses of public resources.

The information shall be assembled from all possible sources, including but not limited to, the federal government and its agencies, all state agencies, all political subdivisions of the state, all state operated universities and colleges, and any source in the private sector. All state agencies, all political subdivisions of the state, and all state universities and colleges are directed to cooperate to the fullest extent in the collection of data in their possession. Information shall be collected on all areas of the state but collection may emphasize one region at a time.

(3) The data bank shall make maximum use of computerized or other advanced data storage and retrieval methods. The department is authorized to engage consultants in data processing to ensure that the data bank will be as complete and efficient as possible.

(4) The data shall be made available for use by any governmental agency, research organization, university or college, private organization, or private person as a tool to evaluate the range of alternatives in land and resource planning in the state. PART 3
Sustainable Harvest

79.10.300 Definitions. Unless the context clearly requires otherwise the definitions in this section apply throughout RCW 79.10.310, 79.10.320, and 79.10.330.

(1) "Arrearage" means the summation of the annual sustainable harvest timber volume since July 1, 1979, less the sum of state timber sales contract default volume and the state timber sales volume deficit since July 1, 1979.
(2) "Default" means the volume of timber remaining when a contractor fails to meet the terms of the sales contract on the completion date of the contract or any extension thereof and timber returned to the state under *RCW 79.01.1335.

(3) "Deficit" means the summation of the difference between the department's annual planned sales program volume and the actual timber volume sold.

(4) "Planning decade" means the ten-year period covered in the forest land management plan adopted by the board.

(5) "Sustainable harvest level" means the volume of timber scheduled for sale from state-owned lands during a planning decade as calculated by the department and approved by the board. [2003 c 334 § 537; 1987 c 159 § 2. Formerly RCW 79.68.035.]

*Reviser's note: RCW 79.01.1335 expired December 31, 1984.

Intent—2003 c 334: See note following RCW 79.02.010.

Legislative findings—1987 c 159: "Adequately funding construction of the state's educational facilities represents one of the highest priority uses of state-owned lands. Many existing facilities need replacement and many additional facilities will be needed by the year 2000 to house students entering the educational system. The sale of timber from state-owned lands plays a key role in supporting the construction of school facilities. Currently and in the future, demands for school construction funds are expected to exceed available revenues.

The department of natural resources sells timber on a sustained yield basis. Since 1980, purchasers defaulted on sales contracts affecting over one billion one hundred million board feet of timber. Between 1981 and 1983, the department sold six hundred million board feet of timber less than the sustainable harvest level. As a consequence of the two actions, the department entered their 1984-1993 planning decade with a timber sale arrearage which could be sold without adversely affecting the continued productivity of the state-owned forests." [1987 c 159 § 1.]

79.10.310 "Sustained yield plans" defined. "Sustained yield plans" as used in RCW 79.10.070, 79.44.003, and this chapter shall mean management of the forest to provide harvesting on a continuing basis without major prolonged curtailment or cessation of harvest. [2003 c 334 § 536; 1971 ex.s.c. 234 § 3. Formerly RCW 79.68.030.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.10.320 Sustainable harvest program. The department shall manage the state-owned lands under its jurisdiction which are primarily valuable for the purpose of growing forest crops on a sustained yield basis insofar as compatible with other statutory directives. To this end, the department shall periodically adjust the acreages designated for inclusion in the sustained yield management program and calculate a sustainable harvest level. [2003 c 334 § 538; 1987 c 159 § 3; 1971 ex.s.c. 234 § 4. Formerly RCW 79.68.040.]

Intent—2003 c 334: See note following RCW 79.02.010.

Legislative findings—1987 c 159: See note following RCW 79.10.300.

79.10.330 Arrearages—End of decade. If an arrearage exists at the end of any planning decade, the department shall conduct an analysis of alternatives to determine the course of action regarding the arrearage which provides the greatest return to the trusts based upon economic conditions then existing and forecast, as well as impacts on the environment of harvesting the additional timber. The department shall offer for sale the arrearage in addition to the sustainable harvest level adopted by the board of natural resources for the next planning decade if the analysis determined doing so will provide the greatest return to the trusts. [1987 c 159 § 4. Formerly RCW 79.68.045.]

Legislative findings—1987 c 159: See note following RCW 79.10.300.

79.10.340 Sustainable harvest sale. The board of natural resources shall offer for sale the sustainable harvest as identified in the 1984-1993 forest land management program, or as subsequently revised. In the event that decisions made by entities other than the department cause a decrease in the sustainable harvest the department shall offer additional timber sales from state-managed lands. [1989 c 424 § 9. Formerly RCW 43.30.390.]

79.10.420 Limitations on agreements. The department shall agree that the cutting from combined national forest lands, state forest lands, and state lands will be limited to the sustained yield capacity of these lands in the management unit as determined by the contracting parties and approved by the board for state forest lands and by the department for state lands. Cooperation with the private contracting party or parties shall be contingent on limitation of production to a specified amount as determined by the contracting parties and approved by the board for state forest lands and by the department for state lands and shall comply with the other conditions and requirements of such cooperative agreement. These sale agreements shall contain such provisions as are necessary to effectually permit the department to carry out the purpose of this section and in other ways afford adequate protection to the public interests involved. **79.10.450 Minimum price.** The sale of timber upon state forest land and state land within such sustained yield unit or units shall be made for not less than the appraised value thereof as heretofore provided for the sale of timber on state lands. However, if in the judgment of the department, it is to the best interests of the state to do so, the timber or any such sustained yield unit or units may be sold on a stumpage or scale basis for a price per thousand not less than the appraised value thereof. The department shall reserve the right to reject any and all bids if the intent of this chapter will not be carried out. Permanency of local communities and industries, prospects of fulfillment of contract requirements, and financial position of the bidder shall all be factors included in this decision. (3) In case of sale by contract under RCW 79.11.220 the purchaser may pay the assessments in equal annual installments at the same time, and with the same rate of interest upon deferred payments, as the installments of the purchase price for the land are paid.

(4) Necessary marketing costs may be paid from the sale proceeds. For the purpose of this subsection, necessary marketing costs include reasonable costs associated with advertising the property and paying commissions.

(5) Proceeds of the sale shall be deposited into the appropriate fund in the state treasury unless the grantor in any deed or the testator in case of a devise specifies that the proceeds of the sale be devoted to a particular purpose. [2003 c 334 § 399.]

lease are harvested, the lessee shall give written notice to the department that the crop is being harvested, and shall also give to the department the name and address of the warehouse or elevator to which such crops are sold or in which such crops will be stored. The lessee shall also serve on the owner of such warehouse or elevator a written copy of so much of the lease as shall show the percentage of division of the proceeds of such crop as between lessee and lessor. The owner of such warehouse or elevator shall make out a warehouse receipt, which receipt may be negotiable or nonnegotiable as directed by the state, showing the percentage of crops belonging to the state, and the respective gross and net amounts, grade, and location thereof, and shall deliver to the department the receipt for the state’s percentage of such crops within ten days after the owner has received such instructions. [2003 c 334 § 467; 2000 c 18 § 1; 1949 c 203 § 4; Rem. Supp. 1949 § 7895-4. Formerly RCW 79.12.600.]

79.13.340 Sale, storage, or other disposition of crops. The department shall sell the crops covered by the warehouse receipt required in RCW 79.13.330 and may comply with the provisions of any federal act or the regulation of any federal agency with relation to the storage or disposition of the crop. [2003 c 334 § 468; 1977 c 20 § 1; 1949 c 203 § 5; Rem. Supp. 1949 § 7895-5. Formerly RCW 79.12.610.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.13.350 Insurance of crop—Division of cost. The lessee under any share crop lease issued by the department shall notify the department as soon as an estimated yield of the crop can be obtained. The estimate must be immediately submitted to the department, which is hereby authorized to insure the crop from loss by fire or hail. The cost of such insurance shall be paid by the state and lessee on the same basis as the crop returns to which each is entitled. [2003 c 334 § 469; 1949 c 203 § 6; Rem. Supp. 1949 § 7895-6. Formerly RCW 79.12.620.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.13.360 Application of other provisions to share crop leases. RCW 79.13.320 through 79.13.360 shall not repeal the provisions of the general leasing statutes of the state of Washington and all of the general provisions of such statutes with reference to filing of applications, deposits required therewith, forfeiture of deposits, cancellation of leases for noncompliance and general procedures shall apply to all leases issued under the provisions of RCW 79.13.320 through 79.13.360. Intent—2003 c 334: See note following RCW 79.02.010.

79.13.370 Grazing leases—Restrictions. The lessee, or assignee of any lease leased for grazing purposes, shall not use the land for any other purpose than that expressed in the lease. However, the lessee, or assignee, may surrender the lease to the department and request the department to issue an agricultural lease in lieu of the original lease. The department is authorized to issue a new lieu lease for the unexpired portion of the term of the lease surrendered upon payment of the fixed rental based on an appraisal of the land for agricultural purposes. Under the lieu lease the lessee shall be permitted to clear, plow, and cultivate the lands as in the case of an original lease for agricultural purposes. 79.13.390 Grazing permits—United States government. The department may issue permits for the grazing of livestock on the lands described in RCW 79.13.380 in such manner and upon such terms, as near as may be, as permits are, or shall be, issued by the United States for the grazing of livestock on national forest lands. The department may charge such fees as it deems adequate and advisable. The department may cooperate with the United States for the protection and preservation of the grazing areas on the state lands contiguous to national forests and for the administration of the provisions of RCW 79.13.380 and 79.13.390. 79.13.410 Improvement of grazing ranges—Extension of permit. In order to encourage the improvement of grazing ranges by holders of grazing permits, the department shall consider (1) extension of grazing permit periods to a maximum of ten years; and (2) reduction of grazing fees, in manner and upon such terms, as near as may be, as permits are, or shall be, issued by the United States for the grazing of livestock on national forest lands. The department may charge such fees as it deems adequate and advisable. The department may cooperate with the United States for the protection and preservation of the grazing ranges on the state lands contiguous to national forests and for the administration of the provisions of RCW 79.13.380 and 79.13.390. PART 4
OTHER LEASES

79.13.500 Amateur radio repeater stations—Legislative intent. The department leases state lands and space on towers located on state lands to amateur radio operators for their repeater stations. These sites are necessary to maintain emergency communications for public safety and for use in disaster relief and search and rescue support.

The licensed amateur radio operators of the state provide thousands of hours of public communications service to the state every year. Their communication network spans the entire state, based in individual residences and linked across the state through a series of mountain-top repeater stations. The amateur radio operators install and maintain their radios and the electronic repeater stations at their own expense. The amateur radio operators who use their equipment to perform public services should not bear the sole responsibility for supporting the electronic repeater stations.

In recognition of the essential role performed by the amateur radio operators in emergency communications, the legislature intends to reduce the rental fee paid by the amateur radio operators while assuring the department full market rental for the use of state-owned property. [2003 c 334 § 461; 1988 c 209 § 1. Formerly RCW 79.12.015.]

PART 5
ECOSYSTEM STANDARDS

79.13.600 Findings—Salmon stocks—Grazing lands—Coordinated resource management plans. The legislature finds that many wild stocks of salmonids in the state of Washington are in a state of decline. Stocks of salmon on the Columbia and Snake rivers have been listed under the federal endangered species act, and the bull trout has been petitioned for listing. Some scientists believe that numerous other stocks of salmonids in the Pacific Northwest are in decline or possibly extinct. The legislature declares that to lose wild stocks is detrimental to the genetic diversity of the fisheries resource and the economy, and will represent the loss of a vital component of Washington’s aquatic ecosystems. The legislature further finds that there is a continuing loss of habitat for fish and wildlife. The legislature declares that steps must be taken in the areas of wildlife and fish habitat management, water conservation, wild salmonid stock protection, and education to prevent further losses of Washington’s fish and wildlife heritage from a number of causes including urban and rural subdivisions, shopping centers, industrial park, and other land use activities.

The legislature finds that the maintenance and restoration of Washington’s rangelands and shrub-steppe vegetation is vital to the long-term benefit of the people of the state. The legislature finds that approximately one-fourth of the state is open range or open-canopied grazable woodland. The legislature finds that these lands provide forage for livestock, habitat for wildlife, and innumerable recreational opportunities including hunting, hiking, and fishing.

The legislature finds that the development of coordinated resource management plans, that take into consideration the needs of wildlife, fish, livestock, timber production, water quality protection, and rangeland conservation on all state-owned grazing lands will improve the stewardship of these lands and allow for the increased development and maintenance of fish and wildlife habitat and other multipurpose benefits the public derives from these lands.

The legislature finds that the state currently provides insufficient technical support for coordinated resource man-

(2010 Ed.)
management plans to be developed for all state-owned lands and for many of the private lands desiring to develop such plans. As a consequence of this lack of technical assistance, our state grazing lands, including fish and wildlife habitat and other resources provided by these lands, are not achieving their potential. The legislature also finds that with many state lands being intermixed with private grazing lands, development of coordinated resource management plans on state-owned and managed lands provides an opportunity to improve the management and enhance the conditions of adjacent private lands.

A purpose of chapter 4, Laws of 1993 sp. sess. is to establish state grazing lands as the model in the state for the development and implementation of standards that can be used in coordinated resource management plans and to thereby assist the timely development of coordinated resource management plans for all state-owned grazing lands. Every lessee of state lands who wishes to participate in the development and implementation of a coordinated resource management plan shall have the opportunity to do so. [1996 c 163 § 2. Prior: 1993 sp.s. c 4 § 1. Formerly RCW 79.01.2951.]

79.13.610 Grazing lands—Fish and wildlife goals—Technical advisory committee—Implementation. (1) By December 31, 1993, the department of fish and wildlife shall develop goals for the wildlife and fish that this agency manages, to preserve, protect, and perpetuate wildlife and fish on shrub steppe habitat or on lands that are presently agricultural lands, rangelands, or grazable woodlands. These goals shall be consistent with the maintenance of a healthy ecosystem.

(2) By July 31, 1993, the conservation commission shall appoint a technical advisory committee to develop standards that achieve the goals developed in subsection (1) of this section. The committee members shall include but not be limited to technical experts representing the following interests: Agriculture, academia, range management, utilities, environmental groups, commercial and recreational fishing interests, the Washington rangelands committee, Indian tribes, the department of fish and wildlife, the department of natural resources, the department of ecology, conservation districts, and the department of agriculture. A member of the conservation commission shall chair the committee.

(3) By December 31, 1994, the committee shall develop standards to meet the goals developed under subsection (1) of this section. These standards shall not conflict with the recovery of wildlife or fish species that are listed or proposed for listing under the federal endangered species act. These standards shall be utilized to the extent possible in development of coordinated resource management plans to provide a level of management that sustains and perpetuates renewable resources, including fish and wildlife, riparian areas, soil, water, timber, and forage for livestock and wildlife. Furthermore, the standards are recommended for application to model watersheds designated by the Northwest power planning council in conjunction with the conservation commission. The maintenance and restoration of sufficient habitat to preserve, protect, and perpetuate wildlife and fish shall be a major component included in the standards and coordinated resource management plans. Application of standards to privately owned lands is voluntary and may be dependent on funds to provide technical assistance through conservation districts.

(4) The conservation commission shall approve the standards and shall provide them to the departments of natural resources and fish and wildlife, each of the conservation districts, and Washington State University cooperative extension service. The conservation districts shall make these standards available to the public and for coordinated resource management planning. Application to private lands is voluntary.

(5) The department of natural resources shall implement practices necessary to meet the standards developed pursuant to this section on department managed agricultural and grazing lands, consistent with the trust mandate of the Washington state Constitution and Title 79 RCW. The standards may be modified on a site-specific basis as needed to achieve the fish and wildlife goals, and as determined by the department of fish and wildlife, and the department of natural resources. Existing leases shall be provided an opportunity to participate in any site-specific field review. Department agricultural and grazing leases issued after December 31, 1994, shall be subject to practices to achieve the standards that meet those developed pursuant to this section. [1998 c 245 § 162; 1993 sp.s. c 4 § 5. Formerly RCW 79.01.295.]

Findings—Grazing lands—1993 sp.s. c 4: See RCW 79.13.600.

79.13.620 Purpose—Ecosystem standards. (1) It is the purpose of chapter 163, Laws of 1996 that all state agricultural lands, grazing lands, and grazable woodlands shall be managed in keeping with the statutory and constitutional mandates under which each agency operates. Chapter 163, Laws of 1996 is consistent with section 1, chapter 4, Laws of 1993 sp. sess.

(2) The ecosystem standards developed under chapter 4, Laws of 1993 sp. sess. for state-owned agricultural and grazing lands are defined as desired ecological conditions. The standards are not intended to prescribe practices. For this reason, land managers are encouraged to use an adaptive management approach in selecting and implementing practices that work towards meeting the standards based on the best available science and evaluation tools.

(3) For as long as the chapter 4, Laws of 1993 sp. sess. ecosystem standards remain in effect, they shall be applied through a collaborative process that incorporates the following principles:

(a) The land manager and lessee or permittee shall look at the land together and make every effort to reach agreement on management and resource objectives for the land under consideration;

(b) They will then discuss management options and make every effort to reach agreement on which of the available options will be used to achieve the agreed-upon objectives;

(c) No land manager or owner ever gives up his or her management prerogative;

(d) Efforts will be made to make land management plans economically feasible for landowners, managers, and lessees and to make the land management plan compatible with the lessee’s entire operation;
(e) Coordinated resource management planning is encouraged where either multiple ownerships, or management practices, or both, are involved;

(f) The department of fish and wildlife shall consider multiple use, including grazing, on lands owned or managed by the department of fish and wildlife where it is compatible with the management objectives of the land; and

(g) The department shall allow multiple use on lands owned or managed by the department where multiple use can be demonstrated to be compatible with RCW 79.10.100, 79.10.110, and 79.10.120.

(4) The ecosystem standards are to be achieved by applying appropriate land management practices on riparian lands and on the uplands in order to reach the desired ecological conditions.

(5) The legislature urges that state agencies that manage grazing lands make planning and implementation of chapter 163, Laws of 1996, using the coordinated resource management and planning process, a high priority, especially where either multiple ownerships, or multiple use resources objectives, or both, are involved. In all cases, the choice of using the coordinated resource management planning process will be a voluntary decision by all concerned parties including agencies, private landowners, lessees, permittees, and other interests. [2003 c 334 § 378; 1996 c 163 § 1. Formerly RCW 79.01.2955.]

OIL AND GAS

79.14.010 Definitions. As used in this chapter, "public lands" means lands and areas belonging to or held in trust by the state, including tide and submerged lands of the Pacific Ocean or any arm thereof and lands of every kind and nature including mineral rights reserved to the state. [2003 c 334 § 471; 1967 c 163 § 6; 1955 c 131 § 1. Prior: 1937 c 161 § 1. Formerly RCW 78.28.280.]

Intent—2003 c 334: See note following RCW 79.02.010.

Additional notes found at www.leg.wa.gov.

79.14.020 Leases authorized—Terms—Duration. The department is authorized to lease public lands for the purpose of prospecting for, developing, and producing oil, gas, or other hydrocarbon substances. Each such lease is to be composed of not more than six hundred forty acres or an entire government surveyed section, except a lease on river bed, lake bed, tide and submerged lands which is to be composed of not more than one thousand nine hundred twenty acres. All leases shall contain such terms and conditions as may be prescribed by the rules adopted by the commissioner in accordance with the provisions of this chapter. Leases may be for an initial term of from five up to ten years and shall be extended for so long thereafter as lessee shall comply with one of the following conditions: (1) Prosecute development on the leased land with the due diligence of a prudent operator upon encountering oil, gas, or other hydrocarbon substances; (2) produce any of said substances from the leased lands; (3) engage in drilling, deepening, repairing, or redrilling any well thereon; or (4) participate in a unit plan to which the commissioner has consented under RCW 78.52.450. [2003 c 334 § 472; 1986 c 34 § 1; 1985 c 459 § 2;
79.14.030 Rental fees—Minimum royalties. The department shall require as a prerequisite to the issuing of any lease a rental as set by the board but not less than one dollar and twenty-five cents per acre or such prorated share of the rental per acre as the state’s mineral rights ownership for the first year of such lease, payable in advance to the department at the time the lease is awarded and a like rental annually in advance thereafter so long as such lease remains in force. However, the rental shall cease at such time as royalty accrues to the state from production from such lease. Commencing with the lease year beginning on or after oil, gas, or other hydrocarbon substances are first produced in quantities deemed paying quantities by lessee on the land subject to such lease, lessee shall pay a minimum royalty as set by the board but not less than five dollars per acre or fraction thereof or such prorated share of the rental per acre as the state’s mineral rights ownership at the expiration of each year. Royalties payable by the lessee shall be the royalties from production as provided for in RCW 79.14.070 or the minimum royalty provided herein, whichever is greater. However, if such a lease is unitized, the minimum royalty shall be payable only on the leased acreage after production is obtained in such paying quantities from such lease. [2003 c 334 § 473; 1985 c 459 § 3; 1980 c 151 § 1; 1955 c 131 § 3. Prior: 1937 c 161 § 4; 1927 c 255 § 176. Formerly RCW 78.28.300.] Intent—2003 c 334: See note following RCW 79.02.010.

79.14.040 Compensation to owners of private rights and to state for surface damage. No lessee shall commence any operation upon lands covered by the lease until such lessee has provided for compensation to owners of private rights therein according to law, or in lieu thereof, filed a surety bond with the department in an amount sufficient in the opinion of the commissioner to cover such compensation until the amount of compensation is determined by agreement, arbitration, or judicial decision and has provided for compensation to the state of Washington for damage to the surface rights of the state in accordance with the rules adopted by the department. [2003 c 334 § 474; 1955 c 131 § 4. Prior: 1937 c 161 § 6; 1927 c 255 § 175. Formerly RCW 78.28.310.] Intent—2003 c 334: See note following RCW 79.02.010.

79.14.050 Drilling operations beyond lease term—Lease provisions. All leases shall provide that if oil, gas or other hydrocarbon substances in paying quantities shall have been discovered on the leased lands prior to the expiration of the initial term, then in the event at any time after the expiration of the initial term production on the leased land shall cease from any cause, the lease shall not terminate provided lessee resumes operations for the drilling of a well or the restoration of production within ninety days from such cessation. The lease shall remain in force during the prosecution of such operations, and if production results therefrom, then so long as production continues. [1985 c 459 § 4; 1955 c 131 § 5. Prior: 1937 c 161 § 7; 1927 c 255 § 180. Formerly RCW 78.28.320.] Additional notes found at www.leg.wa.gov

79.14.060 Surrender of lease—Liability. Every lessee shall have the option of surrendering his lease as to all or any portion or portions of the land covered thereby at any time and shall be relieved of all liability thereunder with respect to the land so surrendered except for monetary payments theretofore accrued and except for physical damage to the premises embraced by his lease which have been occasioned by his operations. [1955 c 131 § 6. Prior: 1937 c 161 §§ 8, 10. Formerly RCW 78.28.330.]

79.14.070 Royalties. All oil and gas leases issued pursuant to this chapter shall be upon a royalty of not less than twelve and one-half percent of the gross production of all oil, gas or other hydrocarbons produced and saved from the lands covered by such lease. [1955 c 131 § 7. Prior: 1937 c 161 § 9; 1927 c 255 § 176. Formerly RCW 78.28.340.]

79.14.080 Leases of land within a geologic structure. Oil and gas leases shall not be issued on unleased lands which have been classified by the department as being within a known geologic structure of a producing oil or gas field, except as follows: Upon application of any person, the department shall lease in areas not exceeding six hundred forty acres, at public auction, any or all unleased lands within such geologic structure to the person offering the greatest cash bonus therefor at such auction. Notice of the offer of such lands for lease will be given by publication in a newspaper of general circulation in Olympia, Washington, and in such other publications as the department may authorize. The first publication shall be at least thirty days prior to the date of sale. [2003 c 334 § 475; 1955 c 131 § 8. Prior: 1937 c 161 §§ 11. Formerly RCW 78.28.350.] Intent—2003 c 334: See note following RCW 79.02.010.

79.14.090 Cancellation or forfeiture of leases—New leases. The department is authorized to cancel any lease issued as provided in this section for nonpayment of rentals or royalties or nonperformance by the lessee of any provision or requirement of the lease. However, before any such cancellation is made, the department shall mail to the lessee by registered mail, addressed to the post office address of such lessee shown by the records of the department, a notice of intention to cancel such lease specifying the default for which the lease is subject to cancellation. If lessee shall, within thirty days after the mailing of said notice to the lessee, commence and thereafter diligently and in good faith prosecute the remedying of the default specified in such notice, then no...
cancellation of the lease shall be entered by the department. Otherwise, the cancellation shall be made and all rights of the lessee under the lease shall automatically terminate, except that lessee shall retain the right to continue its possession and operation of any well or wells in regard to which lessee is not in default. Further, failure to pay rental and royalty required under leases within the time prescribed therein shall automatically and without notice work a forfeiture of such leases and of all rights thereunder. Upon the expiration, forfeiture, or surrender of any lease, no new lease covering the lands or any of them embraced by such expired, forfeited, or surrendered lease, shall be issued for a period of ten days following the date of such expiration, forfeiture, or surrender. If more than one application for a lease covering such lands or any of them shall be made during such ten-day period the department shall issue a lease to such lands or any of them to the person offering the greatest cash bonus for such lease at a public auction to be held at the time and place and in the manner as the department shall adopt by rule. [2003 c 334 § 476; 1955 c 131 § 9. Prior: 1937 c 161 § 10; 1927 c 255 § 179. Formerly RCW 78.28.380.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.14.100 Cooperative or unit plans—Communization or drilling agreements. For the purpose of more properly conserving the natural resources of any oil or gas pool, field, or like area, lessees thereon and their representatives may unite with each other, or jointly or separately with others, in collectively adopting and operating under a cooperative or unit plan of development or operation of such pool, field, or like area, or any part thereof, whenever determined and certified by the department to be necessary or advisable in the public interest. The department is authorized, in its discretion, with the consent of the holders of leases involved, in order to conform with the terms and conditions of any such cooperative or unit plan to establish, alter, change, or revoke exploration, drilling, producing, rental, and royalty requirements of such leases with like consent on the part of the lessees, in connection with the institution and operation of any such cooperative or unit plan as the department may deem necessary or proper to secure the proper protection of the public interest.

When separate tracts cannot be independently developed and operated in conformity with an established well spacing or development program, any lease or any portion thereof may be pooled with other lands, whether or not owned by the state of Washington under a communization or drilling agreement providing for an apportionment of production or royalties among the separate tracts of land comprising the drilling or spacing unit when determined by the department to be in the public interest, and operations or production pursuant to such an agreement shall be deemed to be operations or production as to each such lease committed thereto.

The term of any lease that has become the subject of any cooperative or unit plan of development or operation of a pool, field, or like area, which plan has the approval of the department, shall continue in force until the termination of such plan, and in the event such plan is terminated prior to the expiration of any such lease, the original term of such lease shall continue. Any lease under this chapter hereinafter committed to any such plan embracing lands that are in part within and in part outside of the area covered by any such plan, shall be segregated in separate leases as to the lands committed and the land not committed as of the effective date of unitization. The department may amend or rescind any rule adopted under the authority contained in this section. However, no rule or amendment of the same or any order rescinding any rule shall become effective until after thirty days from the adoption of the same by publication in a newspaper of general circulation published at the state capitol and shall take effect and be in force at times specified therein. All rules of the department and all amendments or revocations of existing rules shall be recorded in an appropriate book or books, shall be adequately indexed, and shall be kept in the office of the department and shall constitute a public record. Such rules of the department shall be printed in pamphlet form and furnished to the public free of cost. [2003 c 334 § 479; 1955 c 131 § 12. Prior: 1937 c 161 § 16; 1927 c 255 § 178. 79.14.130 Wells to be located minimum distance from boundaries—Exception. Each lease issued under this chapter shall provide that without the approval of the department, no well shall be drilled on the lands demised thereby in such manner or at such location that the producing interval thereof shall be less than three hundred thirty feet from any of the outer boundaries of the demised lands, except that if the right to oil, gas, or other hydrocarbons underlying adjoining lands be vested in private ownership, such approval shall not be required. [2003 c 334 § 480; 1955 c 131 § 13. Prior: 1937 c 161 § 17. Formerly RCW 78.28.400.]

Before any such right-of-way grant shall become effective, a written application for, and a plat showing the location of such a right-of-way and the land necessary for the well site and drilling operations, with reference to adjoining
lands, shall be filed with the department. All timber on the right-of-way and the land necessary for the drilling operation, shall be appraised by the commissioner and paid for in money by the person to whom the lease is granted. The rules shall be binding upon the lessee, his or her successors in interest, and shall be enforced by the department. [2003 c 334 § 482; 1955 c 131 § 15. Prior: 1937 c 161 § 19. Formerly RCW 78.28.420.]

Intent—2003 c 334: See note following RCW 79.02.010.

§ 14.160 Development after discovery. After the discovery of oil, gas or other hydrocarbons in paying quantities, lessee shall proceed to develop the oil, gas or other hydrocarbons in the lands covered thereby through the drilling of such wells as will efficiently extract the oil, gas or other hydrocarbons therefrom and such development shall take into account the productiveness of the producing horizon, the depth at which it occurs, the average cost of wells, the market requirements obtaining at any given time, and the maintenance of proper oil and gas ratios. [1955 c 131 § 16. Prior: 1937 c 161 § 20. Formerly RCW 78.28.430.]

§ 14.180 Lands may be withheld from leasing. Nothing contained in this chapter shall be construed as requiring the department to offer any tract or tracts of land for lease; but the department shall have power to withhold any tract or tracts from leasing for oil, gas, or other hydrocarbons, if, in its judgment, the best interest of the state will be served by so doing. [2003 c 334 § 483; 1955 c 131 § 18. Prior: 1937 c 161 § 24. Formerly RCW 78.28.450.]

§ 14.190 Payment of royalty share—Royalty in kind. The lessee shall pay to the department the market value at the well of the state’s royalty share of oil and other hydrocarbons except gas produced and saved and delivered by lessee from the lease. In lieu of receiving payment for the market value of the state’s royalty share of oil, the department may elect that such royalty share of oil be delivered in kind at the mouth of the wells into tanks provided by the department. Lessee shall pay to the department the state’s royalty share of the sale price received by the lessee for gas produced and saved and sold from the lease. If such gas is not sold but is used by lessee for the manufacture of gasoline or other products, lessee shall pay to the department the market value of the state’s royalty share of the residue gas and other products, less a proper allowance for extraction costs. [2003 c 334 § 484; 1955 c 131 § 19. Prior: 1937 c 161 § 25. Formerly RCW 78.28.460.]

All exploration permits issued by the department prior to June 9, 1955, which have not expired or been legally canceled for nonperformance by the permittees, are hereby declared to be valid and existing contracts with the state of Washington, according to their terms and provisions. The obligation of the state to conform to the terms and provisions of such permits is hereby recognized, and the department is directed to accept and recognize all such permits according to their express terms and provisions. No repeal or amendment made by this chapter shall affect any right acquired under the law as it existed prior to such repeal or amendment, and such right shall be governed by the law in effect at the time of acquisition. Any permit recognized and confirmed by this section may be relinquished to the state by the permittee, and a new lease or, if such permit contains more than six hundred forty acres, new leases in the form provided for in this chapter, shall be issued in lieu of same and without bonus therefor; but the new lease or leases so issued shall be as provided for in this chapter and governed by the applicable provisions of this chapter instead of by the law in effect prior thereto. § 14.210 Assignments and subleases of leases. Any oil or gas lease issued under the authority of this chapter may be assigned or subleased as to all or part of the acreage included therein, subject to final approval by the department, and as to either a divided or undivided interest therein to any person. Any assignment or sublease shall take effect as of the first day of the lease month following the date of filing with the department. However, at the department’s discretion, it may disapprove an assignment of a separate zone or deposit under any lease or of a part of a legal subdivision. Upon approval of any assignment or sublease, the assignee or sublessee shall be bound by the terms of the lease to the same extent as if such assignee or sublessee were the original lessee, any conditions in the assignment or sublease to the contrary notwithstanding. Any partial assignment of any lease shall segregate the assigned and retained portions thereof, and upon approval of such assignment by the department, the assignor shall be released and discharged from all obligations thereafter accruing with respect to the assigned lands. The department may reject an application for a mineral prospecting lease when the department determines rejection to be in the best interests of the state, and in such case shall inform the applicant of the reason for rejection and refund the application fee. The department may also reject the application and declare the application fee forfeited should the applicant fail to execute the lease. [2003 c 334 § 404; 1987 c 20 § 4; 1965 c 56 § 4; 1927 c 255 § 156; RRS § 7797-156. Prior: 1917 c 148 § 2; 1901 c 151 §§ 1, 2; 1897 c 102 §§ 2, 5. The lessee shall not have the right to extract and remove for commercial sale or use from the leased premises any minerals or specified materials found on the premises except upon obtaining a mining contract. The lessee shall perform annual prospecting work in cost amounts as set by the board of natural resources. The lessee may make payment to the department in lieu of the performance of annual prospecting work for up to three years during the term of the lease. Prospecting work performed must contribute to the mineral evaluation of the leased premises.

The lessee may at any time give notice of intent to terminate the lease if all of the covenants of the lease including reclamation are met. The notice of termination of lease shall be made by giving written notice together with copies of all information obtained from the premises. The first year of the contract and each year thereafter, the lessee shall perform development work in cost amounts as set by the board. The lessee may make payment to the department in lieu of development work.

The lessee may at any time give notice of intent to terminate the contract if all of the covenants of the contract including reclamation are met. However, the lessee shall upon written request to the department be granted an extension where forces beyond the control of the lessee prevent removal of the improvements within sixty days.

Any lessee not converting a prospecting lease to a mining contract shall not be entitled to a new prospecting lease on the lease premises for one year from the expiration date of the prior lease. Such lands included in the prospecting lease shall be open to application by any person other than the prior lessee, and the lessee’s agents or associates during the year period described above. [2003 c 334 § 414; 1927 c 255 § 163; RRS § 7797-163. Prior: 1925 ex.s. c 155 § 1. Formerly RCW 79.01.652, 78.24.010.]

The applicant shall pay to the department, at the time of filing the application, the sum of one dollar an acre for the lands applied for, but in no case less than fifty dollars. In case of the refusal of the department to execute an option contract for the lands, any remainder of the sum so paid, after deducting the expense incurred by the department in investigating the character of the land, shall be returned to the applicant. [2003 c 334 § 415; 1927 c 255 § 164; RRS § 7797-164. Prior: 1925 ex.s. c 155 § 2. Formerly RCW 79.01.656, 78.24.020.]

(2) The holder of any option contract shall be entitled, during the period of one year from the date thereof, to:  

(a) Enter upon the lands and carry on such work of exploration, examination, and prospecting for coal as may be necessary to determine the presence of coal upon the lands and the feasibility of mining the same; and  

(b) Use such timber found upon the lands and owned by the state as may be necessary for steam purposes and timbering in the examination and prospecting of such lands. However, this provision shall not be construed to require the state to withhold any such timber from sale.  

(3) No coal shall be removed from such lands during the period of such option contract except for samples and testing.  

(4) At the expiration of the option contract, the applicant shall fill or cover in a substantial manner all prospect holes and shafts, or surround the same with substantial fences, and shall file with the department a report showing in detail the result of the applicant’s investigation and prospecting. Intent—2003 c 334: See note following RCW 79.02.010.

79.14.500 Damage to surface owner or lessee. In the case of lands which the state may have sold or leased and reserved the mineral rights therein, if the holder of any option contract or lease is unable to agree with the owner or prior lessee of the lands, the holder shall have a right of action in the superior court of the county in which the land is situated to ascertain and determine the amount of damages which will accrue to such owner or lessee of the land by reason of the entry thereon and prospecting for or mining coal, as the case may be. In the event of any such action, the term of the option contract or lease shall begin thirty days after the entry of the final judgment in such action. [2003 c 334 § 417; 1927 c 255 § 166; RRS § 7797-166. Prior: 1925 ex.s. c 155 § 4. Formerly RCW 79.01.664, 78.24.070.]
79.14.510 Lease—Application, terms, royalties. At any time during the life of the option contract, the holder thereof may apply to the department for a coal mining lease of the lands included therein, or such portion thereof as the holder may specify, for the purpose of mining and extraction of coal therefrom. Such coal mining lease shall be for such term, not more than twenty years, and in such form as may be prescribed by the department, shall entitle the lessee to mine and sell and dispose of all coal underlying said lands and to occupy and use so much of the surface thereof as may be necessary for bunkers and other outside works, and for railroads, buildings, appliances, and appurtenances in connection with the mining operations. Such lease shall provide for the payment to the state of a royalty, according to the grade of coal, for each ton of two thousand pounds of merchantable coal taken from the lands, as follows: For lignite coal of the class commonly found in Lewis and Thurston counties, not less than ten cents per ton; for subbituminous coal, not less than fifteen cents per ton; for high grade bituminous and coking coals, not less than twenty cents per ton; but such lease shall provide for the payment each year of a minimum royalty of not less than one nor more than ten dollars an acre for the lands covered thereby. However, the department may agree with the lessee that said minimum royalty shall be graduated for the different years of said lease so that a lower minimum royalty shall be paid during the earlier years of the term. The minimum royalty fixed in the lease shall be paid in advance each year, and the lessee, at stated periods during the term of the lease, fixed by the department, shall furnish to the department a written report under oath showing the amount of merchantable coal taken from the land during the period covered by such report and shall remit therewith such sum in excess of the minimum royalty theretofore paid for the current year as may be payable as royalty for the period covered by such report.

The department shall incorporate in every lease such provisions and conditions not inconsistent with the provisions of this chapter and not inconsistent with good coal mining practice as it deems necessary and proper for the protection of the state, and, in addition thereto, the department is empowered to adopt such rules, not inconsistent with this chapter and not inconsistent with good mining practice, governing the manner and methods of mining as in its judgment are necessary and proper. [2003 c 334 § 418; 1985 c 459 § 1; 1927 c 255 § 167; RRS § 7797-167. Prior: 1925 ex.s. c 155 § 5. Formerly RCW 79.01.668, 78.24.040.]

79.14.520 Lease without option contract. In the case of lands known to contain workable coal, the department may, in its discretion, issue coal mining leases under the provisions of RCW 79.14.510 although no option contract has been theretofore issued for such lands. [2003 c 334 § 419; 1927 c 255 § 168; RRS § 7797-168. Prior: 1925 ex.s. c 155 § 6. Formerly RCW 79.01.672, 78.24.050.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.14.530 Confidential information. The commissioner or any person designated by the commissioner has the right at any time to enter upon the lands and inspect and examine the structures, works, and mines situated thereon, and also has the right to examine such books, records, and accounts of the lessee as are directly connected with the operation of the mine on the property under lease from the state; but it shall be unlawful for the commissioner or any person so appointed to disclose any information thus obtained to any person other than the commissioner or an employee of the department, except the attorney general and prosecuting attorneys of the state. [2003 c 334 § 420; 1927 c 255 § 169; RRS § 7797-169. Prior: 1925 ex.s. c 155 § 7. Formerly RCW 79.01.676, 78.24.060.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.14.540 Use and sale of materials from land. The state shall have the right to sell or otherwise dispose of any timber, stone, or other valuable materials, except coal, found upon the land during the period covered by any option contract, or lease issued under the foregoing provisions, with the right to enter upon such lands and cut and remove the same, and shall not be obliged to withhold from sale any timber for coal mining or prospecting purposes. However, the lessee shall be permitted to use in mining operations any timber found upon the land, first paying therefor to the department the value thereof as fixed by the department. Further, any bill of sale for the removal of timber, stone, or other material given subsequent to the coal lease shall contain provisions preventing any interference with the operations of the coal lease. [2003 c 334 § 421; 1927 c 255 § 170; RRS § 7797-170. Prior: 1925 ex.s. c 155 § 8. Formerly RCW 79.01.680, 78.24.080.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.14.550 Suspension of mining—Termination of lease. Should the lessee for any reason, except strikes or inability to mine or dispose of output without loss, suspend mining operations upon the lands included in a lease, or upon any contiguous lands operated by the lessee in connection therewith, for a period of six months, or should the lessee for any reason suspend mining operations upon the lands included in a lease or in such contiguous lands for a period of twelve months, the department may, at its option, cancel the lease, first giving thirty days’ notice in writing to the lessee.

The lessee shall have the right to terminate the lease after thirty days’ written notice to the department and the payment of all royalties and rentals then due. [2003 c 334 § 422; 1927 c 255 § 171; RRS § 7797-171. Prior: 1925 ex.s. c 155 § 9. Formerly RCW 79.01.684, 78.24.090.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.14.560 Condition of premises on termination. Upon the termination of any lease issued under the foregoing provisions, the lessee shall surrender the lands and premises and leave in good order and repair all shafts, slopes, airways, tunnels, and watercourses then in use. Unless the coal therein is exhausted, the lessee shall also, as far as it is reasonably practicable so to do, leave open to the face all main entries then in use so that the work of further development and oper-
ation may not be unnecessarily hampered. The lessee shall also leave on the premises all buildings and other structures, but shall have the right to, without damage to such buildings and structures, remove all tracks, machinery, and other personal property. [2003 c 334 § 423; 1927 c 255 § 172; RRS § 7797-172. Prior: 1925 ex.s. c 155 § 10. Formerly RCW 79.01.688, 78.24.100.]

Such application shall be in writing and under oath, setting forth the extent, character, and value of all improvements, development work, and structures existing upon the land. The department may on the filing of such application cause the lands to be inspected, and if the department deems it for the best interests of the state to re-lease said lands, it shall fix the royalties for the ensuing term in accordance with the foregoing provisions relating to original leases, and issue to the applicant a renewal lease for a further term; such application for a release when received from the lessee, or successor of any lessee, who has in good faith developed and improved the property in a substantial manner during the original lease to be given preference on equal terms against the application of any new applicant. 79.15.020 Duties of department. (1) The department shall exercise general supervision and control over the sale of valuable materials.

(2) The department shall maintain all reports, data, and information in its records pertaining to a proposed sale.

(3) The department may hold a sale in abeyance pending further inspection and report and may cause such further inspection and report.

(4) The department shall determine, based on subsection (2) of this section, and if necessary the information provided under subsection (3) of this section, the terms upon which the proposed sales are consummated. [2003 c 334 § 319.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.15.030 Rules or procedures for removal of valuable materials sold. All sales of valuable materials shall be made subject to the right, power, and authority of the department to prescribe rules or procedures governing the manner of the sale and removal of the valuable materials. Such procedures shall be binding when contained within a purchaser’s contract for valuable materials and apply to the purchaser’s successors in interest and shall be enforced by the department. Forest protection: Chapter 76.04 RCW.

79.15.040 Sale of valuable materials without application or deposit. The department may cause valuable materials on state lands and state forest lands to be inspected and appraised and offered for sale when authorized by the board without an application having been filed, or deposit made, for the purchase of the same. [2003 c 334 § 341; 1961 c 73 § 2; 1959 c 257 § 17; 1927 c 255 § 42; RRS § 7797-42. Prior: 1915 c 147 § 2. Formerly RCW 79.01.168, 79.12.210.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.15.045 Who may purchase—Fee. A person desiring to purchase valuable materials may make application to the department on forms provided by the department and accompanied by the fee provided in RCW 79.02.250. [2003 c 334 § 312.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.15.050 Type of sale—Direct sales. (1) All sales of valuable materials exceeding twenty-five thousand dollars in appraised value must be at public auction or by sealed bid to the highest bidder, provided that on public lands granted to the state for educational purposes sealed bids may be accepted for sales of timber or stone only.

(2) A direct sale of valuable materials may be sold to the applicant for cash at full appraised value without notice or advertising. The board must, by resolution, establish the value amount of a direct sale not to exceed twenty-five thousand dollars in appraised sale value, and establish procedures to ensure that competitive market prices and accountability are guaranteed. [2006 c 42 § 1; 2003 c 334 § 353.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.15.055 Appraisal—Defined. For the purposes of this chapter, "appraisal" means an estimate of the market value of valuable materials. The estimate must reflect the value based on market conditions at the time of the sale or transfer offering. The appraisal must reflect the department’s best effort to establish a reasonable market value for the purpose of setting a minimum bid at auction or transfer. A purchaser of valuable materials may not rely upon the appraisal prepared by the department for purposes of deciding whether to make a purchase from the department. All purchasers are required to make their own independent appraisals. [2004 c 199 § 214; 2003 c 334 § 309; 2001 c 250 § 10. Formerly RCW 79.01.082.]

Part headings not law—2004 c 199: See note following RCW 79.02.010.

Intent—2003 c 334: See note following RCW 79.02.010.

79.15.060 Date of sale limited by time of appraisal—Transfer of authority. (Expires January 1, 2014.) (1) For the sale of valuable materials under this chapter, if the board is required by law to appraise the sale, the board must establish a minimum appraisal value that is valid for a period of one hundred eighty days, or a longer period as may be established by resolution. The board may reestablish the minimum appraisal value at any time. For any valuable materials sales that the board is required by law to appraise, the board may by resolution transfer this authority to the department.

(2) Where the board has set a minimum appraisal value for a valuable materials sale, the department may set the final appraisal value of valuable materials for auction, which must be based on current market prices. The department may also appraise any valuable materials sale not required by law to be approved by the board. [2009 c 418 § 4; 2003 c 334 § 329.]

Findings—Intent—Expiration date—2009 c 418: See notes following RCW 79.15.510.

Intent—2003 c 334: See note following RCW 79.02.010.

79.15.060 Date of sale limited by time of appraisal—Transfer of authority. (Effective January 1, 2014.) (1) For the sale of valuable materials under this chapter, if the board is required by law to appraise the sale, the board must establish a minimum appraisal value that is valid for a period of one hundred eighty days, or a longer period as may be established by resolution. The board may reestablish the minimum appraisal value at any time. For any valuable materials sales that the board is required by law to appraise, the board may by resolution transfer this authority to the department.

(2) Where the board has set a minimum appraisal value for a valuable materials sale, the department may set the final appraisal value of valuable materials for auction, which must be equal to or greater than the board’s minimum appraisal value. The department may also appraise any valuable mate-
79.15.070 Time and date of sale. It is the duty of the department to fix the date, time, and place of sale.

(1) All valuable materials shall have been appraised prior to the date fixed for sale as prescribed in RCW 79.15.060.

(2) No sale may be conducted on any day that is a legal holiday.

(3) Sales must be held between the hours of 10:00 a.m. and 4:00 p.m. If all sales cannot be offered within this time period, the sale must continue on the following day between the hours of 10:00 a.m. and 4:00 p.m.

(4) Sales must take place:
   (a) At the department’s regional office having jurisdiction over the respective sale; or
   (b) On county property designated by the board of county commissioners or county legislative authority of the county in which the whole or majority of valuable materials are situated. [2003 c 334 § 350.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.15.080 Advertising sales of valuable materials. (1) Sales, other than direct sales, appraised at an amount not exceeding two hundred fifty thousand dollars, when authorized by the board for sale, shall be advertised by publishing not less than ten days prior to sale a notice of such sale in a newspaper of general circulation located nearest to the property from which the valuable material is to be sold.

(2) Except as provided in RCW 79.15.050, all other proposed sales of valuable materials must be advertised through individual notice of sale and publication of a statewide list of sales.

(a) The notice of sale:
   (i) Must specify the place, date, and time of sale, the appraised value thereof, and describe with particularity each parcel of land from which valuable materials are to be sold. The estimated volume will be identified and the terms of sale will be available in the region headquarters and the department’s Olympia office;
   (ii) May prescribe that the bid deposit required in RCW 79.15.110 be considered an opening bid;
   (iii) May be advertised by newspaper or by other means of publishing the information such as on the internet; and
   (iv) Must be posted in a conspicuous place in the department’s Olympia office and in the region headquarters administering the sale, and in the office of the county auditor of the county where the material is located.

(b) The department shall print a list of all valuable material on public lands that are to be sold. The list should be organized by county and by alphabetical order.

(i) The list should be published in a pamphlet form, issued at least four weeks prior to the date of any sale and provide sale information to prospective buyers.

(ii) The department must retain for free distribution in the Olympia office and the region offices sufficient copies of the pamphlet, to be kept in a conspicuous place, and, when requested to do so, must mail copies of the pamphlet as issued to any requesting applicant.

(3) The department may seek additional means of publishing the information in the pamphlet, such as on the internet, to increase the number of prospective buyers.

(4) The department is authorized to expend any sum in additional advertising of the sales as it deems necessary. [2006 c 42 § 2; 2003 c 334 § 347.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.15.090 Advertisement for informational purposes only. The advertisement of sales is for informational purposes only, and under no circumstances does the information in the notice of sale constitute a warranty that the purchaser will receive the stated values, volumes, or acreage. All purchasers are expected to make their own measurements, evaluations, and appraisals. [2003 c 334 § 345.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.15.100 Terms and conditions of sale—Exemption for forest biomass. (1) Valuable materials may be sold separately from the land as a "lump sum sale" or as a "scale sale."

(a) "Lump sum sale" means any sale offered with a single total price applying to all the material conveyed.

(b) "Scale sale" means any sale offered with per unit prices to be applied to the material conveyed.

(2) Payment for lump sum sales must be made as follows:

(a) Lump sum sales under five thousand dollars appraised value require full payment on the day of sale.

(b) Lump sum sales appraised at over five thousand dollars but under one hundred thousand dollars may require full payment on the day of sale.

(c) Lump sum sales requiring full payment on the day of sale may be paid in cash or by certified check, cashier’s check, bank draft, or money order, all payable to the department.

(3) Except for sales paid in full on the day of sale or sales with adequate bid bonds, an initial deposit not to exceed twenty-five percent of the actual or projected purchase price shall be made on the day of sale.

(a) Sales with bid bonds are subject to the day of sale payment and replacement requirements prescribed by RCW 79.15.110.

(b) The initial deposit must be maintained until all contract obligations of the purchaser are satisfied. However, all or a portion of the initial deposit may be applied as the final payment for the valuable materials in the event the department determines that adequate security exists for the performance or fulfillment of any remaining obligations of the purchaser under the sale contract.

(4) Advance payments or other adequate security acceptable to the department is required for valuable materials sold on a scale sale basis or a lump sum sale not requiring full payment on the day of sale.

(a) The purchaser must notify the department before any operation takes place on the sale site.

(b) Upon notification as provided in (a) of this subsection, the department must require advanced payment or may allow purchasers to submit adequate security.

(c) The amount of advanced payments or security must be determined by the department and must at all times equal
or exceed the value of timber cut and other valuable materials processed or removed until paid for.

(d) Security may be bank letters of credit, payment bonds, assignments of savings accounts, assignments of certificates of deposit, or other methods acceptable to the department as adequate security.

(5) All valuable material must be removed from the sale area within the period specified in the contract.

(a) The specified period may not exceed five years from date of purchase except for stone, sand, gravel, fill material, or building stone.

(b) The specified period for stone, sand, gravel, fill material, or building stone may not exceed thirty years.

(c) In all cases, any valuable material not removed from the land within the period specified in the contract reverts to the state. The department may utilize any remaining forest biomass in accordance with chapter 79.150 RCW.

(6) The department may extend a contract beyond the normal termination date specified in the sale contract as the time for removal of valuable materials when, in the department’s judgment, the purchaser is acting in good faith and endeavoring to remove the materials. The extension is contingent upon payment of the fees specified below.

(a) The extended time for removal shall not exceed:
   (i) Forty years from date of purchase for stone, sand, gravel, fill material, or building stone;
   (ii) A total of ten years beyond the original termination date for all other valuable materials.

(b) An extension fee fixed by the department will be charged based on the estimated loss of income per acre to the state resulting from the granting of the extension plus interest on the unpaid portion of the contract. The board must periodically fix and adopt by rule the interest rate, which shall not be less than six percent per annum.

(c) The sale contract shall specify:
   (i) The applicable rate of interest as fixed at the day of sale and the maximum extension payment; and
   (ii) The method for calculating the unpaid portion of the contract upon which interest is paid.

(d) The minimum extension fee is fifty dollars per extension plus interest on the unpaid portion of the contract.

(e) Moneys received for any extension must be credited to the same fund in the state treasury as was credited the original purchase price of the valuable material sold.

(7) The department may, in addition to any other securities, require a performance security to guarantee compliance with all contract requirements. The security is limited to those types listed in subsection (4) of this section. The value of the performance security will, at all times, equal or exceed the value of work performed or to be performed by the purchaser.

(8) The department does not need to comply with the provisions of this chapter for forest biomass except as described in the provisions of chapter 79.150 RCW. Forest biomass may not be included in any sales contract authorized under this chapter unless the department has complied with the provisions of chapter 79.150 RCW.

(9) The provisions of this section apply unless otherwise provided by statute. [2010 c 126 § 9; 2004 c 177 § 5; 2003 c 334 § 334.]

Effective date—2004 c 177: See note following RCW 84.33.035.

Intent—2003 c 334: See note following RCW 79.02.010.

79.15.110 Conduct of sales. (1) Sales of valuable materials must be conducted under the direction of the department or its authorized representative.

(a) Sales of valuable materials, unless otherwise provided in this chapter, shall be at public auction or by sealed bid to the highest bidder, except that, on public lands granted to the state for educational purposes, sealed bids may be accepted for sales of timber or stone only.

(b) The person conducting the sale is called the auctioneer.

(2) On or before the time specified in the notice of sale each bidder shall deposit with the auctioneer a bid deposit equal to the amount specified in the notice of sale plus any fees required by law for the issuance of contracts or bill of sale.

(a) The bid deposit must meet the requirements of RCW 79.15.100(3).

(b) The deposit may be in cash, or by certified check, cashier’s check, or money order, all payable to the department or by bid guarantee in the form of a bid bond acceptable to the department.

(3) The bid deposit, if prescribed in the notice of sale as authorized in RCW 79.15.100, may be considered an opening bid of an amount not less than the minimum appraised price established in the notice of sale.

(4) The successful bidder’s deposit will be retained by the auctioneer.

(a) Any difference between the bid deposit and the total amount due including any fees required by law shall be paid on the day of sale. Payments may be by cash, certified check, cashier’s check, bank draft, or money order payable to the department.

(b) Any amount of the deposit guaranteed by a bid bond must be paid to the department within ten days of the sale day in cash, certified check, cashier’s check, money order, or other acceptable payment method.

(c) Other deposits must be returned to the respective bidders at the conclusion of each sale.

(5) The auctioneer must deliver to the purchaser a memorandum of his or her purchase containing a description of the materials purchased, the price bid, and the terms of the sale.

(6) The auctioneer must at once send to the department all payments or bid guarantees received from the purchaser and a copy of the memorandum delivered to the purchaser, together with additional reports of the proceedings as required by the department. [2003 c 334 § 355.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.15.120 Confirmation of sale. The department shall enter upon its records a confirmation of sale and issue to the purchaser a bill of sale for valuable materials if the following conditions have been met:

(1) No fewer than ten days have passed since the auctioneer’s report has been filed;

(2) No affidavit is filed with the department showing that the interests of the state in the sale were injuriously affected by fraud or collusion;

(3) It appears from the auctioneer’s report that:
(a) The sale was fairly conducted; and
(b) The purchaser was the highest bidder and the bid was not less than the appraised value of the material sold;
(4) The department is satisfied that the valuable material sold would not, upon being readvertised and offered for sale, sell for at least ten percent more than the price submitted by the apparent high bidder;
(5) The payment required by law to be made at the time of making the sale has been made; and
(6) The department determines the best interests of the state will be served by confirming the sale. [2003 c 334 § 358.]

Intent—2003 c 334: See note following RCW 79.02.010.

(1) State the time period for removing the material;
(2) Be signed by the commissioner and attested by the seal of the commissioner’s office upon full payment of the purchase price and fees;
(3) Be issued to the purchaser upon payment of the fee for the bill of sale; and
(4) Be recorded in the department. [2003 c 334 § 362; 2001 c 250 § 9; 1927 c 255 § 58; RRS § 7797-58. Formerly RCW 79.01.232, 79.12.420.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.15.140 Valuable materials contract—Impracticable to perform/cancellation—Substitute valuable materials. (1) In the event that the department determines that regulatory requirements or some other circumstance beyond the control of both the department and the purchaser has made a valuable materials contract wholly or partially impracticable to perform, the department may cancel any portion of the contract which could not be performed. In the event of such a cancellation, the purchaser shall not be liable for the purchase price of any portions of the contract so canceled. Market price fluctuations shall not constitute an impracticable situation for valuable materials contracts.

(2) Alternatively, and notwithstanding any other provision in this title, the department may substitute valuable materials from another site in exchange for any valuable materials which the department determines have become impracticable to remove under the original contract. Any substituted valuable materials must belong to the identical trust involved in the original contract, and the substitute materials shall be determined by the department to have an appraised value that is not greater than the valuable materials remaining under the original contract. The substitute valuable materials and site shall remain subject to all applicable permitting requirements and the state environmental policy act, chapter 43.21C RCW, for the activities proposed at that site. In any such substitution, the value of the materials substituted shall be fixed at the purchase price of the original contract regardless of subsequent market changes. Consent of the purchaser shall be required for any substitution under this section. [2003 c 334 § 364; 2001 c 250 § 18. Formerly RCW 79.01.238.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.15.150 Reoffer. A sale of valuable materials that has been offered, and for which there are no bids received, shall not be reoffered until it has been readvertised as prescribed in RCW 79.11.130. [2003 c 334 § 351.]

Intent—2003 c 334: See note following RCW 79.02.010.

PART 2
DAMAGED TIMBER

79.15.210 Findings—Damage to timber. From time to time timber on state land is damaged by events such as fire, wind storms, and flooding. After such events the timber becomes very susceptible to loss of value and quality due to rot and disease. To obtain maximum value for the state, it is important to sell any damaged timber as fast as possible while providing ample protection for the physical environment and recognizing the sensitivity of removing timber from certain locations. [1987 c 126 § 1. Formerly RCW 79.01.790.]

79.15.220 Sale of damaged valuable materials. When the department finds valuable materials on state land that are damaged by fire, wind, flood, or from any other cause, it shall determine if the salvage of the damaged valuable materials is in the best interest of the trust for which the land is held, which may include the salvage of forest biomass under chapter 79.150 RCW. If salvaging the valuable materials is in the best interest of the trust, the department shall proceed to offer the valuable materials for sale. The valuable materials, when offered for sale, must be sold in the most expeditious and efficient manner as determined by the department. In determining if the sale is in the best interest of the trust the department shall consider the net value of the valuable materials and relevant elements of the physical and social environment. [2010 c 126 § 10; 2001 c 250 § 14; 1987 c 126 § 2. Formerly RCW 79.01.795.]

PART 3
ROCK, GRAVEL, ETC., SALES

79.15.300 Contracts—Forfeiture—Royalties—Monthly reports. (1) The department, upon application by any person, may enter into a contract providing for the sale and removal of rock, gravel, sand, and silt located upon state lands or state forest lands, and providing for payment to be made on a royalty basis.

(2) The issuance of a contract shall be made after public auction and shall not be issued for less than the appraised value of the material.

(3) Each application made pursuant to this section shall:
(a) Set forth the estimated quantity and kind of materials desired to be removed; and
(b) Be accompanied by a map or plat showing the area from which the applicant wishes to remove such materials.

(4) The department may in its discretion include in any contract such terms and conditions required to protect the interests of the state.

(5) Every contract shall provide for a right of forfeiture by the state, upon a failure to operate under the contract or pay royalties for periods therein stipulated. The right of for-
feiture is exercised by entry of a declaration of forfeiture in the records of the department.

(6) The department may require a bond with a surety company authorized to transact a surety business in this state, as surety, to secure the performance of the terms and conditions of such contract including the payment of royalties.

(7) The amount of rock, gravel, sand, or silt taken under the contract shall be reported monthly by the purchaser to the department and payment therefor made on the basis of the royalty provided in the contract.

(8) The department may inspect and audit books, contracts, and accounts of each person removing rock, gravel, sand, or silt pursuant to any such contract and make such other investigation and secure or receive any other evidence necessary to determine whether or not the state is being paid the full amount payable to it for the removal of such materials. [2003 c 334 § 335; 1985 c 197 § 1; 1961 c 73 § 11. Formerly RCW 79.01.134.]

Intent—2003 c 334: See note following RCW 79.02.010.

**79.15.320 Road material—Sale to public authorities—Disposition of proceeds.** (1) Any county, city, or town may file with the department an application to purchase any stone, rock, gravel, or sand upon any state lands or state forest lands to be used in the construction, maintenance, or repair of any public street, road, or highway within such county, city, or town.

(2) Applications shall set forth the quantity and kind of material desired to be purchased, the location thereof, and the name, or other designation, and location of the street, road, or highway upon which the material is to be used.

(3) The department is authorized to appraise and sell the material in such a manner and upon such terms as the department deems advisable for not less than the fair market value thereof.

(4) The proceeds of any such sale shall be paid into the state treasury and credited to the fund to which the proceeds of the sale of the land upon which the material is situated would belong. [2003 c 334 § 343; 1982 1st ex.s. c 21 § 155; 1927 c 255 § 44; RRS § 7797-44. Prior: 1923 c 71 § 1; 1917 c 148 § 13. Formerly RCW 79.01.176, 79.12.250.]

**79.15.410 Removal only for personal use.** In addition to other matters which may be required to be contained in the application for a license under this chapter the applicant must certify that the wood so removed is to be only for the applicant's own personal use and in his or her own home and that the applicant will not dispose of it to any other person. **79.15.420 Issuance of license—Fee.** The application may be made to the department, and if deemed proper, the license may be issued upon the payment of two dollars and fifty cents which shall be paid into the treasury of the state by the officer collecting the same and placed in the resource management cost account or forest development account, as applicable; the license shall be dated as of the date of issuance and authorize the holder thereof to remove between the dates so specified not more than six cords of wood not fit for any use but as firewood for the use of the applicant and his or her family from the premises described in the license under such rules as the department may adopt. [2003 c 334 § 232; 1975 c 10 § 2; 1945 c 97 § 3; Rem. Supp. 1945 § 7797-40c. Formerly RCW 76.20.030.]

**PART 5**

**CONTRACT HARVESTING**

**79.15.500 Contract harvesting—Definitions.** The definitions in this section apply throughout RCW 79.15.500 through 79.15.530 and 79.15.540 unless the context clearly requires otherwise.

(1) "Commissioner" means the commissioner of public lands.

(2) "Contract harvesting" means a timber operation occurring on state forest lands, in which the department contracts with a firm or individual to perform all the necessary harvesting work to process trees into logs sorted by department specifications. The department then sells the individual log sorts. (2010 Ed.)
(3) "Department" means the department of natural resources.

(4) "Harvesting costs" are those expenses related to the production of log sorts from a stand of timber. These expenses typically involve road building, labor for felling, bucking, and yarding, as well as the transporting of sorted logs to the forest product purchasers.

(5) "Net proceeds" means gross proceeds from a contract harvesting sale less harvesting costs.

(6) "Silvicultural treatment" means any vegetative or other treatment applied to a managed forest to improve the conditions of the stand, and may include harvesting, thinning, prescribed burning, and pruning. [2004 c 218 § 8; 2003 c 313 § 2.]

Effective date—2004 c 218: See note following RCW 76.06.140.

Findings—2003 c 313: "The legislature finds that it is in the best interest of the trust beneficiaries to capture additional revenues while providing for additional environmental protection on timber sales. Further, the legislature finds that contract harvesting is one method to achieve these desired outcomes. Therefore, the legislature directs the department of natural resources to establish and implement contract harvesting where there exists the ability to increase revenues for the beneficiaries of the trust while obtaining increases in environmental protection." [2003 c 313 § 1.]

Severability—2003 c 313: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [2003 c 313 § 15.]

79.15.510 Contract harvesting—Program established. (Effective until January 1, 2014.) (1) The department may establish a contract harvesting program for directly contracting for the removal of timber and other valuable materials from state lands and for conducting silvicultural treatments consistent with RCW 79.15.540.

(2) The contract requirements must be compatible with the office of financial management’s guide to public service contracts.

(3) The department may not use contract harvesting for more than ten percent of the total annual volume of timber offered for sale. However, volume removed primarily to address an identified forest health issue under RCW 79.15.540 may not be included in calculating the annual limit of contract harvesting sales. Forest biomass resulting from harvesting to address an identified forest health issue under RCW 79.15.540 may be utilized in accordance with chapter 79.150 RCW. [2010 c 126 § 12; 2004 c 218 § 6; 2003 c 313 § 3.]

Effective date—2010 c 126 § 12: "Section 12 of this act takes effect January 1, 2014." [2010 c 126 § 16.]

Effective date—2004 c 218: See note following RCW 76.06.140.

Findings—Severability—2003 c 313: See notes following RCW 79.15.500.

79.15.520 Contract harvesting revolving account. (Effective until January 1, 2014.) (1) The contract harvesting revolving account is created in the custody of the state treasurer. All receipts from the gross proceeds of the sale of logs from a contract harvesting sale must be deposited into the account. Expenditures from the account may be used only for the payment of harvesting costs incurred on contract harvesting sales and for payment of costs incurred from silvicultural treatments necessary to improve forest health conducted under RCW 79.15.540. Only the commissioner or the commissioner’s designee may authorize expenditures from the account. The board of natural resources has oversight of the account, and the commissioner must periodically report to the board of natural resources as to the status of the account, its disbursement, and receipts. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

(2) When the logs from a contract harvesting sale are sold, the gross proceeds must be deposited into the contract harvesting revolving account. Moneys equal to the harvesting costs must be retained in the account and be deducted from the gross proceeds to determine the net proceeds. The net proceeds from the sale of the logs must be distributed in accordance with RCW 43.30.325(1)(b). The final receipt of gross proceeds on a contract harvesting sale must be retained in the contract harvesting revolving account until all required costs for that sale have been paid. The contract harvesting revolving account is an interest-bearing account and the interest must be credited to the account. The account balance may not exceed five million dollars at the end of each calendar year. Moneys in excess of five million dollars must be disbursed according to RCW 79.22.040, 79.22.050, and 79.64.040. If the department permanently discontinues the
use of contract harvesting sales, any sums remaining in the contract harvesting revolving account must be returned to the resource management cost account and the forest development account in proportion to each account’s contribution to the initial balance of the contract harvesting revolving account. [2009 c 418 § 3; 2004 c 218 § 7; 2003 c 313 § 4.]

Findings—Intent—Expiration date—2009 c 418: See notes following RCW 79.15.510.

Effective date—2004 c 218: See note following RCW 76.06.140.

Findings—Severability—2003 c 313: See notes following RCW 79.15.500.

79.15.520 Contract harvesting revolving account. (Effective January 1, 2014.) (1) The contract harvesting revolving account is created in the custody of the state treasurer. All receipts from the gross proceeds of the sale of logs from a contract harvesting sale must be deposited into the account. Expenditures from the account may be used only for the payment of harvesting costs incurred on contract harvesting sales and for payment of costs incurred from silvicultural treatments necessary to improve forest health conducted under RCW 79.15.540. Only the commissioner or the commissioner’s designee may authorize expenditures from the account. The board of natural resources has oversight of the account, and the commissioner must periodically report to the board of natural resources as to the status of the account, its disbursement, and receipts. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

(2) When the logs from a contract harvesting sale are sold, the gross proceeds must be deposited into the contract harvesting revolving account. Moneys equal to the harvesting costs must be retained in the account and be deducted from the gross proceeds to determine the net proceeds. The net proceeds from the sale of the logs must be distributed in accordance with RCW 43.30.325(1)(b). The final receipt of gross proceeds on a contract harvesting sale must be retained in the contract harvesting revolving account until all required costs for that sale have been paid. The contract harvesting revolving account is an interest-bearing account and the interest must be credited to the account. If the department permanently discontinues the use of contract harvesting sales, any sums remaining in the contract harvesting revolving account must be returned to the resource management cost account and the forest development account in proportion to each account’s contribution to the initial balance of the contract harvesting revolving account. [2004 c 218 § 7; 2003 c 313 § 4.]

Effective date—2004 c 218: See note following RCW 76.06.140.

Findings—Severability—2003 c 313: See notes following RCW 79.15.500.

79.15.530 Contract harvesting—Special appraisal practices. The board of natural resources must determine whether any special appraisal practices are necessary for logs sold by the contract harvesting processes, and if so, must adopt the special appraisal practices or procedures. In its consideration of special appraisal practices, the board of natural resources must consider and adopt procedures to rapidly market and sell any log sorts that failed to receive the required minimum bid at the original auction, which may include allowing the department to set a new appraised value for the unsold sort.

The board of natural resources must establish and adopt policy and procedures by which the department evaluates and selects certified contract harvesters. The procedures must include a method whereby a certified contract harvester may appeal a decision by the department or board of natural resources to not include the certified contract harvester on the list of approved contract harvesters. [2003 c 313 § 5.]

Findings—Severability—2003 c 313: See notes following RCW 79.15.500.

79.15.540 Intent—Contract harvesting—State trust forest land with identified forest health deficiencies. (1) The legislature intends to ensure, to the extent feasible given all applicable trust responsibilities, that trust beneficiaries receive long-term income from timber lands through improved forest conditions and by reducing the threat of forest fire to state trust forest lands.

(2) In order to implement the intent of RCW 76.06.140, the department may initiate contract harvesting timber sales, or other silvicultural treatments when appropriate, in specific areas of state trust forest land where the department has identified forest health deficiencies as enumerated in RCW 76.06.140. All harvesting or silvicultural treatments applied under this section must be tailored to improve the health of the specific stand, must be consistent with any applicable state forest plans and other management agreements, and must comply with all applicable state and federal laws and regulations regarding the harvest of timber by the department of natural resources.

(3) In utilizing contract harvesting to address forest health issues as outlined in this section, the department shall give priority to silvicultural treatments that assist the department in meeting forest health strategies included in any management or landscape plans that exist for state forests. If such plans are not in place, the department shall prioritize silvicultural treatments for forest health with higher priority given to the protection of public health and safety, public resources as defined in RCW 76.09.020, and the long-term asset value of the trust. [2007 c 109 § 2; 2004 c 218 § 5.]

Findings—2007 c 109: "The legislature finds that chapter 218, Laws of 2004 authorized the department of natural resources to utilize contract harvesting for silvicultural treatments to improve forest health on state trust lands, in accordance with RCW 76.06.140 and 79.15.540. The legislature further finds that the use of contract harvesting for silvicultural treatments has proven effective and that continued utilization is important to improve and maintain forest health. Therefore, the legislature finds that it is necessary to remove the expiration date for this authority, set for December 31, 2007, and to continue the use of contract harvesting for silvicultural treatments to improve forest health on state trust lands." [2007 c 109 § 1.]

Effective date—2004 c 218: See note following RCW 76.06.140.

79.15.550 Mitigation against the potential for contract default—Report to the legislature. (Expires January 1, 2014.) (1) The department is directed, to the extent possible under current law consistent with its responsibility to the trust beneficiaries, to consider requests from purchasers for timber sale extensions and to provide flexibility in timber...
sale contract administration to help mitigate against the potential for contract default.  

(2) By December 1, 2009, the department shall report to the appropriate committees of the legislature on the status of existing contracts, contract extensions, contract defaults, and shall provide a timber market forecast for 2010 and 2011. [2009 c 418 § 5.]

Findings—Intent—Expiration date—2009 c 418: See notes following RCW 79.15.510.

(1) The department, with the approval of the board, may exchange any state land and any timber thereon for any land of equal value in order to:

(a) Facilitate the marketing of forest products of state lands;
(b) Consolidate and block-up state lands;
(c) Acquire lands having commercial recreational leasing potential;
(d) Acquire county-owned lands;
(e) Acquire urban property which has greater income potential or which could be more efficiently managed by the department in exchange for state urban lands as defined in RCW 79.19.100; or
(f) Acquire any other lands when such exchange is determined by the board to be in the best interest of the trust for which the state land is held.

(2) Land exchanged under this section shall not be used to reduce the publicly owned forest land base.

(3) The board shall determine that each land exchange is in the best interest of the trust for which the land is held prior to authorizing the land exchange.

(4) During the biennium ending June 30, 2011, for the purposes of maintaining working farm and forest landscapes or acquiring natural resource lands at risk of development, the department, with approval of the board of natural resources, may exchange any state land and any timber thereon for any land and proceeds of equal value, when it can be demonstrated that the trust fiduciary obligations can be better fulfilled after an exchange is completed. Proceeds may be in the form of cash or services in order to achieve the purposes established in this section. Any cash received as part of an exchange transaction shall be deposited in the resource management cost account to pay for administrative expenses incurred in carrying out an exchange transaction. These administrative expenses include road maintenance and abandonment expenses. The amount of proceeds received from the exchange partner may not exceed five percent of the total value of the exchange. The receipt of proceeds shall not change the character of the transaction from an exchange to a sale.

(5) Prior to executing an exchange under this section, and in addition to the public notice requirements set forth in RCW 79.17.050, the department shall consult with legislative members, other state and federal agencies, local governments, tribes, local stakeholders, conservation groups, and any other interested parties to identify and address cultural resource issues and the potential of the state lands proposed for exchange to be used for open space, park, school, or critical habitat purposes. 79.17.030 University demonstration forest and experiment station. For the purpose of securing an area suitable for a demonstration forest and forest experiment station for the University of Washington authority is hereby granted the board of regents of the University of Washington and the department with the approval of the board, acting with the advice and approval of the attorney general, to exchange all or any portion of the granted lands of the University of Washington assigned for the support of said university by section 9 of chapter 122 of the act of March 14, 1893, enacted by the legislature of Washington, being entitled, "An act providing for the location, construction and maintenance of the University of Washington, and making an appropriation therefor, and declaring an emergency," for all or any portion of such lands as may be acquired by the state under and by virtue of chapter 102. Laws of 1913, being: "An act relating to lands granted to the state for common schools and for educational, penal, reformatory, charitable, capitol buildings and other purposes providing for the completion of such grants and the relinquishment of certain granted lands; and making an appropriation," approved March 18, 1913, by exchange with the United States in the Pilchuck-Sultan-Wallace watersheds included within the present boundaries of the Snoqualmie national forest. The board of regents and department with the advice and approval required by this section are hereby authorized to execute such agreements, writings, or relinquishments as are necessary or proper for the purpose of carrying said exchange into effect and such agreements or other writings to be executed in duplicate, one to be filed with the department and one to be delivered to the board of regents. **Legislative finding.** The legislature finds that from time to time it may be desirable for the department to sell state lands which have low potential for natural resource management or low income-generating potential or which, because of geographic location or other factors, are inefficient for the department to manage. However, it is also important to acquire lands for long-term management to replace those sold so that the publicly owned land base will not be depleted and the publicly owned forest land base will not be reduced. The purpose of this chapter is to provide a means to facilitate such sales and purchases so that the diversity of public uses on the trust lands will be maintained. In making the determinations, the department shall comply with local land use plans and applicable growth management principles. [2003 c 334 § 525; 1984 c 222 § 1; 1977 ex.s. c 109 § 1. Formerly RCW 79.66.010.]

**Intent—2003 c 334:** See note following RCW 79.02.010.

79.19.020 Land bank—Created—Purchase of property authorized. The department, with the approval of the board, may purchase property at fair market value to be held in a land bank, which is hereby created within the department. Property so purchased shall be property which would be desirable for addition to the public lands of the state because of the potential for natural resource or income production of the property. The total acreage held in the land bank shall not exceed one thousand five hundred acres. [2003 c 334 § 526; 1984 c 222 § 2; 1977 ex.s. c 109 § 2. Formerly RCW 79.66.020.]

**Intent—2003 c 334:** See note following RCW 79.02.010.

79.19.030 Exchange or sale of property held in land bank. The department, with the approval of the board, may:

(1) Exchange property held in the land bank for any other lands of equal value administered by the department, including any lands held in trust.

(2) Exchange property held in the land bank for property of equal or greater value which is owned publicly or privately, and which has greater potential for natural resource or income production or which could be more efficiently managed by the department, however, no power of eminent domain is hereby granted to the department; and

(3) Sell property held in the land bank in the manner provided by law for the sale of state lands without any requirement of platting and to use the proceeds to acquire property for the land bank which has greater potential for natural resource or income production or which would be more efficiently managed by the department. [2004 c 199 § 215; 2003 c 334 § 527; 1984 c 222 § 3; 1977 ex.s. c 109 § 3. Formerly RCW 79.66.030.]

79.19.040 Management of property held in land bank. The department may manage the property held in the land bank as provided in RCW 79.10.030. However, the properties or interest in such properties shall not be withdrawn, exchanged, transferred, or sold without first obtaining payment of the fair market value of the property or interest therein or obtaining property of equal value in exchange. **Intent—2003 c 334:** See note following RCW 79.02.010.

79.19.050 Appropriation of funds from forest development account or resource management cost account—Use of income. The legislature may authorize appropriation of funds from the forest development account or the resource management cost account for the purposes of this chapter. Income from the sale or management of property in the land bank shall be returned as a recovered expense to the forest
development account or the resource management cost account and may be used to acquire property under RCW 79.19.020. [2003 c 334 § 529; 1984 c 222 § 5; 1977 ex.s. c 109 § 5. Formerly RCW 79.66.050.]

### 79.19.060 Reimbursement for costs and expenses.

The department shall be reimbursed for actual costs and expenses incurred in managing and administering the land bank program under this chapter from the forest development account or the resource management cost account in an amount not to exceed the limits provided in RCW 79.64.040. Reimbursement from proceeds of sales shall be limited to marketing costs provided in RCW 79.10.030. [2003 c 334 § 530; 1984 c 222 § 6. Formerly RCW 79.66.060.]

Intent—2003 c 334: See note following RCW 79.02.010.

### 79.19.080 Identification of trust lands expected to convert to commercial, residential, or industrial uses—Hearing—Notice—Designation as urban lands.

Periodically, at intervals to be determined by the board, the department shall identify trust lands which are expected to convert to commercial, residential, or industrial uses within ten years. The department shall adhere to existing local comprehensive plans, zoning classifications, and duly adopted local policies when making this identification and determining the fair market value of the property.

The department shall hold a public hearing on the proposal in the county where the state land is located. At least fifteen days but not more than thirty days before the hearing, the department shall publish a public notice of reasonable size in display advertising form, setting forth the date, time, and place of the hearing, at least once in one or more daily newspapers of general circulation in the county and at least once in one or more weekly newspapers circulated in the area where the trust land is located. At the same time that the published notice is given, the department shall give written notice of the hearings to the departments of fish and wildlife and general administration, to the parks and recreation commission, and to the county, city, or town in which the property is situated. The department shall disseminate a news release pertaining to the hearing among printed and electronic media in the area where the trust land is located. The public notice and news release also shall identify trust lands in the area which are expected to convert to commercial, residential, or industrial uses within ten years.

A summary of the testimony presented at the hearings shall be prepared for the board’s consideration. The board shall designate trust lands which are expected to convert to commercial, residential, or industrial uses as urban land. Descriptions of lands designated by the board shall be made available to the county and city or town in which the land is situated and for public inspection and copying at the department’s administrative office in Olympia, Washington and at each area office.

The hearing and notice requirements of this section apply to those trust lands which have been identified by the department prior to July 1, 1984, as being expected to convert to commercial, residential, or industrial uses within the next ten years, and which have not been sold or exchanged prior to July 1, 1984. [2003 c 334 § 531; 1994 c 264 § 60; 1988 c 36 § 53; 1984 c 222 § 8. Formerly RCW 79.66.080.]

Intent—2003 c 334: See note following RCW 79.02.010.

### 79.19.090 Exchange of urban land for land bank land—Notification of affected public agencies.

If the department determines to exchange urban land for land bank land, public agencies defined in RCW 79.17.200 that may benefit from owning the property shall be notified in writing of the determination. The public agencies have sixty days from the date of notice by the department to submit an application to purchase the land and shall be afforded an opportunity of up to one year, as determined by the board, to purchase the land from the land bank at fair market value directly without public auction as authorized under RCW 79.17.200. The board, if it deems it in the best interest of the state, may extend the period under terms and conditions as the board determines. If competing applications are received from governmental entities, the board shall select the application which results in the highest monetary value. [2003 c 334 § 532; 1993 c 265 § 1; 1984 c 222 § 9. Formerly RCW 79.66.090.]

Intent—2003 c 334: See note following RCW 79.02.010.

### 79.19.100 Urban lands—Cooperative planning, development.

The purpose of this section is to foster cooperative planning among the state, the department, and local governments as to state-owned lands under the department’s jurisdiction situated in urban areas.

At least once a year, prior to finalizing the department’s urban land leasing action plan, the department and applicable local governments shall meet to review state and local plans and to coordinate planning in areas where urban lands are located. The department and local governments may enter into formal agreements for the purpose of planning the appropriate development of these state-owned urban lands.

The department shall contact those local governments which have planning, zoning, and land-use regulation authority over areas where urban lands under its jurisdiction are located so as to facilitate these annual or other meetings.

"Urban lands" as used in this section means those areas which within ten years are expected to be intensively used for locations of buildings or structures, and usually have urban governmental services.

"Local government" as used in this section means counties, cities, and towns having planning and land-use regulation authority over areas where urban lands under its jurisdiction are located so as to facilitate these annual or other meetings.

### 79.19.110 Lands for commercial, industrial, or residential use—Payment of in-lieu of property tax—Distribution.

Lands purchased by the department for commercial, industrial, or residential use shall be subject to payment of in-lieu of real property tax for the period in which they are held in the land bank. The in-lieu payment shall be equal to the property taxes which would otherwise be paid if the land remained subject to the tax. Payment shall be made at the end
of the calendar year to the county in which the land is located. If a parcel is not held in the land bank for the entire year, the in-lieu payment shall be reduced proportionately to reflect only that period of time in which the land was held in the land bank. The county treasurer shall distribute the in-lieu payments proportionately in accordance with RCW 84.56.230 as though such moneys were receipts from ad valorem property taxes. [2003 c 334 § 533; 1984 c 222 § 10. Formerly RCW 79.66.100.]

**79.19.900** Severability—1984 c 222. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1984 c 222 § 15. Formerly RCW 79.66.900.]

**79.19.901** Effective date—1984 c 222. This act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect July 1, 1984. [1984 c 222 § 16. Formerly RCW 79.66.901.]

Both principal and interest shall be payable only from revenues hereafter received from leases and contracts of sale heretofore or hereafter made of lands, timber, and other products from the surface or beneath the surface of the lands granted to the state by the United States pursuant to the act of congress approved February 22, 1889, for capital building purposes and from any parking revenues derived from state capital parking facilities. As long as any of such bonds shall be outstanding, neither the state, nor any of its officers, departments, agencies or instrumentalities, shall divert any of the proceeds and revenues actually pledged to secure the payment of the bonds and interest thereon, and the provisions of this section shall restrict and limit the powers of the legislature of the state of Washington in respect to the matters herein mentioned as long as the bonds are outstanding and unpaid and shall constitute a contract to that effect for the benefit of the holders of all such bonds. The principal and interest of said bonds shall be payable at the office of the state treasurer, or at the office of the fiscal agent of the state in
New York City at the option of the holder of any such bond or bonds. [1969 ex.s. c 272 § 3.]

While any of the bonds remain outstanding and unpaid, it shall be the duty of the capitol committee on or before June 30th of each year to determine the amount that will be required for the redemption of bonds and the payment of interest during the next fiscal year, and certify the amount to the state treasurer in writing. The state treasurer shall forthwith and thereafter during that fiscal year and at least fifteen days prior to each interest and principal payment date deposit into the state building and parking bond redemption fund all receipts from any parking facilities and to the extent necessary from receipts from leases and contracts of sale herefore or hereafter made of lands, timber, and other products from the surface or beneath the surface of the lands granted to the state by the United States pursuant to the act of congress until the amount certified to the treasurer by the capitol committee has accrued to the state building and parking bond redemption fund. Nothing in RCW 79.24.650 through 79.24.668 shall prohibit the use of such receipts from leases and contracts of sale for any other lawfully authorized purposes when not required for the redemption and payment of interest and meeting the covenant requirements of the bonds authorized herein.

In addition to certifying and providing for the annual amounts required to pay the principal and interest of the bonds, the capitol committee may, under such terms and conditions and at such times and in such amounts as may be found necessary to insure the sale of the bonds, provide for additional payments into the state building and parking bond redemption fund to be held as a reserve to secure the payment of the principal and interest of such bonds.

The owner and holder of any of the bonds or the trustee for any of the bonds may by mandamus or other appropriate proceeding require and compel the deposit and payment of funds as directed herein.

The proceeds from the sale of the bonds hereby authorized shall be paid into the general fund—state building construction account.

If a nondebt-limit revenue bond retirement account is created in the state treasury by chapter 456, Laws of 1997 and becomes effective prior to the issuance of any of the bonds authorized by this chapter, the nondebt-limit revenue bond retirement account shall be used for the purposes of this chapter in lieu of the state building and parking bond redemption fund. [2003 c 334 § 226; 1963 c 140 § 1; 1945 c 239 § 1; Rem. Supp. 1945 § 5823-30. Formerly RCW 76.16.010.]

Intent—2003 c 334: See note following RCW 79.02.010.

Eminent domain: State Constitution Art. 1 § 16; chapter 8.04 RCW.

Intent—2003 c 334: See note following RCW 79.02.010.

79.36.330 Disposal of property interests acquired. In the event the department should determine that the property interests acquired under the authority of this chapter are no longer necessary for the purposes for which they were acquired, the department shall dispose of the same in the following manner, when in the discretion of the department it is to the best interests of the state of Washington to do so, except that property purchased with educational funds or held in trust for educational purposes shall be sold only in the same manner as are state lands:

(1) Where the state property necessitating the acquisition of private property interests for access purposes under authority of this chapter is sold or exchanged, the acquired property interests may be sold or exchanged as an appurtenance of the state property when it is determined by the department that sale or exchange of the state property and acquired property interests as one parcel is in the best interests of the state.

(2) If the acquired property interests are not sold or exchanged as provided in subsection (1) of this section, the department shall notify the person or persons from whom the property interest was acquired, stating that the property interests are to be sold, and that the person or persons shall have the right to purchase the same at the appraised price. The notice shall be given by registered letter or certified mail, return receipt requested, mailed to the last known address of the person or persons. If the address of the person or persons is unknown, the notice shall be published twice in an official newspaper of general circulation in the county where the lands or a portion thereof is located. The second notice shall be published not less than ten nor more than thirty days after the notice is first published. The person or persons shall have thirty days after receipt of the registered letter or five days after the last date of publication, as the case may be, to notify the department, in writing, of their intent to purchase the offered property interest. The purchaser shall include with his or her notice of intention to purchase, cash payment, certified check, or money order in an amount not less than one-third of the appraised price. No instrument conveying property interests shall issue from the department until the full price of the property is received by the department. All costs of publication required under this section shall be added to the appraised price and collected by the department upon sale of the property interests.

(3) If the property interests are not sold or exchanged as provided in subsections (1) and (2) of this section, the department shall notify the owners of land abutting the property interests in the same manner as provided in subsection (2) of this section and their notice of intent to purchase shall be given in the manner and in accordance with the same time limits as are set forth in subsection (2) of this section. However, if more than one abutting owner gives notice of intent to purchase the property interests, the department shall apportion them in relation to the lineal footage bordering each side of the property interests to be sold, and apportion the costs to the interested purchasers in relation thereto. Further, no sale is authorized by this section unless the department is satisfied that the amounts to be received from the several purchasers will equal or exceed the appraised price of the entire parcel plus any costs of publishing notices.

(4) If no sale or exchange is consummated as provided in subsections (1) through (3) of this section, the department
shall sell the properties in the same manner as state lands are
sold.

(5) Any disposal of property interests authorized by this
chapter shall be subject to any existing rights previously

79.38.030 Use of roads by purchasers of valuable materials. Purchasers of valuable materials from public lands may use access roads or public roads for the removal of such materials where the rights acquired by the state will permit, but use shall be subject to the right of the department:

(1) To impose reasonable terms for the use, construction, reconstruction, maintenance, and repair of such access roads; and

(2) To impose reasonable charges for the use of such access roads or public roads which have been constructed or reconstructed through funding by the department. [2004 c 199 § 223; 2003 c 334 § 500; 1981 c 204 § 2; 1961 c 44 § 3.]

The department may use moneys in the fund for the purposes for which they were obtained without appropriation by the legislature. [2004 c 199 § 224; 2003 c 334 § 502; 1981 c 204 § 3; 1961 c 44 § 5.]

petition initiating the assessment. Such assessing district, shall not have jurisdiction to order such improvement as to the interest of the state in harbor areas and state tidelands until the written consent of the commissioner of public lands to the making of such improvement shall have been obtained, unless other means be provided for paying that portion of the cost which would otherwise be levied on the interest of the state of Washington in and to those tidelands, and nothing herein shall prevent the city from assessing the proportionate cost of the improvement against any leasehold, contractual, or possessority interest in and to any tideland or harbor area owned by the state: PROVIDED, HOWEVER, That in the case of tidelands and harbor areas within the boundaries of any port district, notice of intention to make such improvement shall also be forwarded to the commissioners of the port district. The chief administrative officer upon receipt of such statement shall cause a proper record to be made in his office of the cost of such assessment upon the lands occupied, used, or under the jurisdiction of his agency.

When any assessing district has made or caused to be made an assessment against such leasehold, contractual, or possessority interest for any such local improvement, the treasurer of that assessing district shall immediately give notice to the chief administrative officer of the agency having jurisdiction over the lands. The assessment shall become a lien against the leasehold, contractual, or possessority interest in the same manner as the assessments on other property, and its collection may be enforced against such interests as provided by law for the enforcement of other local improvement assessments: PROVIDED, That the assessment shall not be made payable in installments unless the owner of such leasehold, contractual, or possessority interest shall first file with such treasurer a satisfactory bond guaranteeing the payment of such installments as they become due. [2002 c 260 § 5; 1979 c 151 § 181; 1963 c 20 § 8; 1919 c 164 § 7; RRS § 8131.]

shall be deemed to represent the value added to such lands by
such improvement for the purpose of sale, which amount so
adds shall be paid by the purchaser in cash at the time of the
sale of said land, in addition to the amounts otherwise due to
the state for said land, and no deed shall ever be executed
until such local improvement assessments have been paid,
and nothing herein shall be construed as canceling any
unpaid assessments on the land so sold by the state, but such
land shall be sold subject to all assessments unpaid at the time
of sale. [1919 c 164 § 9; RRS § 8133. Cf. 1909 c 154 § 7.]

PART 1
STATE LANDS

79.64.010 Definitions. As used in this chapter, "rule" means rule as that term is defined by RCW 34.05.010. [2003 c 334 § 519; 1967 ex.s. c 63 § 1; 1961 c 178 § 1.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.64.020 Resource management cost account—Use. A resource management cost account in the state treasury is created to be used solely for the purpose of defraying the costs and expenses necessarily incurred in the department of managing and administering state lands and aquatic lands and the making and administering of leases, sales, contracts, licenses, permits, easements, and rights-of-way as authorized under the provisions of this title. Appropriations from the resource management cost account to the department shall be expended for no other purposes. Funds in the resource management cost account may be appropriated or transferred by the legislature for the benefit of all of the trusts from which the funds were derived. For the 2007-2009 biennium, moneys in the account may be used for the purposes identified in section 3044, chapter 328, Laws of 2008. [2008 c 328 § 6004; 2004 c 199 § 226; 2003 c 334 § 520; 1993 c 460 § 1; 1985 c 57 § 80; 1981 c 4 § 2; 1961 c 178 § 2.]

Part headings not law—Severability—Effective date—2008 c 328: See notes following RCW 43.155.050.

79.64.030 Expenditures of certain funds in the resource management cost account to be for trust lands—Use for other lands—Repayment—Ordinary cost not deductible from sale proceeds—Accounting. Funds in the resource management cost account from the moneys received from leases, sales, contracts, licenses, permits, easements, and rights-of-way issued by the department and affecting school lands, university lands, scientific school lands, normal school lands, capitol building lands, or institutional lands shall be pooled and expended by the department solely for the purpose of defraying the costs and expenses necessarily incurred in managing and administering all of the trust lands enumerated in this section. Such funds may be used for similar costs and expenses in managing and administering other lands managed by the department provided that such expenditures that have been or may be made on such other lands shall be repaid to the resource management cost account together with interest at a rate determined by the board.

Costs and expenses necessarily incurred in managing and administering agricultural college lands shall not be deducted from proceeds received from the sale of such lands or from the sale of resources that are part of the lands. Costs and expenses incurred in managing and administering agricultural college trust lands shall be funded by appropriation under RCW 79.64.090.

An accounting shall be made annually of the accrued expenditures from the pooled trust funds in the account. In the event the accounting determines that expenditures have been made from moneys received from trust lands for the benefit of other lands, such expenditure shall be considered a debt and an encumbrance against the property benefitted, including state forest lands. The results of the accounting shall be reported to the legislature at the next regular session. The state treasurer is authorized, upon request of the department, to transfer funds between the forest development account and the resource management cost account solely for purpose of repaying loans pursuant to this section. [2003 c 334 § 521; 2001 c 250 § 15; 1999 c 279 § 1; 1993 c 460 § 2; 1988 c 70 § 4; 1977 ex.s. c 159 § 2; 1961 c 178 § 3.]

(a) As determined by the board, an amount no greater than thirty-three and three-tenths percent to be distributed to the federal land grant trust accounts and resource management cost account as directed by RCW 79.64.040 and 79.64.050;

The resource management cost account is an asset of the federal land grant trusts. Section 3 of this act is intended to authorize a process by which the interfund loans may be repaid such that the federal land grant trusts will receive full fair market value without disruption in income to counties and the state general fund from management activities on state forest lands managed pursuant to chapter 79.12 RCW." 79.70.010 Purpose. The purpose of this chapter is to establish a state system of natural area preserves and a means whereby the preservation of these aquatic and land areas can be accomplished.

All areas within the state, except those which are expressly dedicated by law for preservation and protection in their natural condition, are subject to alteration by human activity. Natural areas, together with the plants and animals living thereon in natural ecological systems, are valuable for the purposes of scientific research, teaching, as habitats of rare and vanishing species, as places of natural historic and natural interest and scenic beauty, and as living museums of the original heritage of the state.

It is, therefore, the public policy of the state of Washington to secure for the people of present and future generations the benefit of an enduring resource of natural areas by establishing a system of natural area preserves, and to provide for the protection of these natural areas. [1972 ex.s. c 119 § 1.]

Intent—2004 c 180: See note following RCW 79.70.110.

Intent—2003 c 334: See note following RCW 79.02.010.

79.70.030 Powers of department. In order to set aside, preserve, and protect natural areas within the state, the department is authorized, in addition to any other powers, to:

(1) Establish the criteria for selection, acquisition, management, protection, and use of such natural areas, including:

(a) Limiting public access to natural area preserves consistent with the purposes of this chapter. Where appropriate, and on a case-by-case basis, a buffer zone with an increased low level of public access may be created around the environmentally sensitive areas;

(b) Developing a management plan for each designated natural area preserve. The plan must identify the significant resources to be conserved consistent with the purposes of this chapter and identify the areas with potential for low-impact public and environmental educational uses. The plan must specify the types of management activities and public uses that are permitted, consistent with the purposes of this chapter. The department must make the plans available for review and comment by the public, and state, tribal, and local agencies, prior to final approval;

(2) Cooperate or contract with any federal, state, or local governmental agency, private organizations, or individuals in carrying out the purpose of this chapter;

(3) Consistent with the plan, acquire by gift, devise, purchase, grant, dedication, or means other than eminent domain, the fee or any lesser right or interest in real property which shall be held and managed as a natural area;

(4) Acquire by gift, devise, grant, or donation any personal property to be used in the acquisition and/or management of natural areas;

(5) Inventory existing public, state, and private lands in cooperation with the council to assess possible natural areas to be preserved within the state;

(6) Maintain a natural heritage program to provide assistance in the selection and nomination of areas containing natural heritage resources for registration or dedication. The program shall maintain a classification of natural heritage resources, an inventory of their locations, and a data bank for such information. The department shall cooperate with the department of fish and wildlife in the selection and nomination of areas from the data bank that relate to critical wildlife habitats. Information from the data bank shall be made available to public and private agencies and individuals for environmental assessment and proprietary land management purposes. Usage of the classification, inventory, or data bank of natural heritage resources for any purpose inconsistent with the natural heritage program is not authorized;

(7) Prepare a natural heritage plan which shall govern the natural heritage program in the conduct of activities to create and manage a system of natural areas that includes natural resources conservation areas, and may include areas designated under the research natural area program on federal lands in the state;

(a) The plan shall list the natural heritage resources to be considered for registration and shall provide criteria for the selection and approval of natural areas under this chapter;

(b) The department shall provide opportunities for input, comment, and review to the public, other public agencies, and private groups with special interests in natural heritage resources during preparation of the plan;

(c) Upon approval by the council and adoption by the department, the plan shall be updated and submitted biennially to the appropriate committees of the legislature for their information and review. The plan shall take effect ninety days after the adjournment of the legislative session in which it is submitted unless the reviewing committees suggest changes or reject the plan; and

(8) Maintain a state register of natural areas containing significant natural heritage resources to be called the Washington register of natural area preserves. Selection of natural areas for registration shall be in accordance with criteria listed in the natural heritage plan and accomplished through voluntary agreement between the owner of the natural area and the department. No privately owned lands may be pro-
posed to the council for registration without prior notice to the owner or registered without voluntary consent of the owner. No state or local governmental agency may require such consent as a condition of any permit or approval of or settlement of any civil or criminal proceeding or to penalize any landowner in any way for failure to give, or for withdrawal of, such consent.

(a) The department shall adopt rules as authorized by RCW 43.12.065 and 79.70.030(1) and chapter 34.05 RCW relating to voluntary natural area registration.

(b) After approval by the council, the department may place sites onto the register or remove sites from the register.

(c) The responsibility for management of registered natural area preserves shall be with the preserve owner. A voluntary management agreement may be developed between the department and the owners of the sites on the register.

(d) Any public agency may register lands under provisions of this chapter. [2003 c 334 § 549; 2002 c 284 § 1; 1994 c 264 § 61; 1988 c 36 § 54; 1981 c 189 § 3; 1972 ex.s. c 119 § 3.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.70.040 Powers as to transactions involving public lands deemed natural areas—Alienation of lands designated natural area preserves. The department is further authorized to purchase, lease, set aside, or exchange any public lands which are deemed to be natural areas: PROVIDED, That the appropriate state land trust receives the fair market value for any interests that are disposed of: PROVIDED, FURTHER, That such transactions are approved by the board of natural resources.

An area consisting of public land designated as a natural area preserve shall be held in trust and shall not be alienated except to another public use upon a finding by the department of natural resources of imperative and unavoidable public necessity. [2004 c 199 § 228; 1972 ex.s. c 119 § 4.]

Part headings not law—2004 c 199: See note following RCW 79.02.010.

79.70.060 Legislative findings—Natural heritage resources. The legislature finds:

(1) That it is necessary to establish a process and means for public and private sector cooperation in the development of a system of natural areas. Private and public landowners should be encouraged to participate in a program of natural area establishment which will benefit all citizens of the state;

(2) That there is a need for a systematic and accessible means for providing information concerning the locations of the state’s natural heritage resources; and

(3) That the natural heritage advisory council should utilize a specific framework for natural heritage resource conservation decision making through a classification, inventory, priority establishment, acquisition, and management process known as the natural heritage program. Future natural areas should avoid unnecessary duplication of already protected natural heritage resources including those which may already be protected in existing publicly owned or privately dedicated lands such as nature preserves, natural areas, natural resources conservation areas, parks, or wilderness. [2002 c 284 § 2; 1981 c 189 § 2.]

79.70.070 Natural heritage advisory council. (1) The natural heritage advisory council is hereby established. The council shall consist of fifteen members, ten of whom shall be chosen as follows and who shall elect from the council’s membership a chairperson:

(a) Five individuals, appointed by the commissioner, who shall be recognized experts in the ecology of natural areas and represent the public, academic, and private sectors. Desirable fields of expertise are biological and geological sciences; and

(b) Five individuals, appointed by the commissioner, who shall be selected from the various regions of the state. At least one member shall be or represent a private forest landowner and at least one member shall be or represent a private agricultural landowner.

(2) Members appointed under subsection (1) of this section shall serve for terms of four years.

(3) In addition to the members appointed by the commissioner, the director of the department of fish and wildlife, the director of the department of ecology, the supervisor of the department of natural resources, the director of the state parks and recreation commission, and the director of the recreation and conservation office, or an authorized representative of each agency officer, shall serve as ex officio, nonvoting members of the council.

(4) Any vacancy on the council shall be filled by appointment for the unexpired term by the commissioner.

(5) In order to provide for staggered terms, of the initial members of the council:

(a) Three shall serve for a term of two years;
(b) Three shall serve for a term of three years; and
(c) Three shall serve for a term of four years.

(6) Members of the natural preserves advisory committee serving on July 26, 1981, shall serve as members of the council until the commissioner appoints a successor to each. The successor appointment shall be specifically designated to replace a member of the natural preserves advisory committee until all members of that committee have been replaced. A member of the natural preserves advisory committee is eligible for appointment to the council if otherwise qualified.

(7) Members of the council shall serve without compensation. Members shall be reimbursed for travel expenses as provided in RCW 43.03.050 and 43.03.060 as now or hereafter amended. [2007 c 241 § 24; 1998 c 50 § 1; 1994 c 264 § 62; 1988 c 36 § 55; 1981 c 189 § 4.]

Intent—Effective date—2007 c 241: See notes following RCW 79A.25.005.

(a) Meet at least annually and more frequently at the request of the chairperson;

(b) Recommend policy for the natural heritage program through the review and approval of the natural heritage plan;

(c) Advise the department, the department of fish and wildlife, the state parks and recreation commission, and other state agencies managing state-owned land or natural resources regarding areas under their respective jurisdictions which are appropriate for natural area registration or dedication;

(d) Advise the department of rules and regulations that the council considers necessary in carrying out this chapter;
(e) Review and approve area nominations by the department or other agencies for registration and review and comment on legal documents for the voluntary dedication of such areas;

(f) Recommend whether new areas proposed for protection be established as natural area preserves, natural resources conservation areas, a combination of both, or by some other protected status; and

(g) Review and comment on management plans proposed for individual natural area preserves.

(2) From time to time, the council shall identify areas from the natural heritage data bank which qualify for registration. Priority shall be based on the natural heritage plan and shall generally be given to those resources which are rarest, most threatened, or under-represented in the heritage conservation system on a statewide basis. After qualifying areas have been identified, the department shall advise the owners of such areas of the opportunities for acquisition or voluntary registration or dedication. [2002 c 284 § 3; 1994 c 264 § 63; 1988 c 36 § 56; 1981 c 189 § 5.]

### 79.70.090 Dedication of property as natural area.

(1) The owner of a registered natural area, whether a private individual or an organization, may voluntarily agree to dedicate the area as a natural area by executing with the state an instrument of dedication in a form approved by the council. The instrument of dedication shall be effective upon its recording in the real property records of the appropriate county or counties in which the natural area is located. The county assessor in computing assessed valuation shall take into consideration any reductions in property values and/or highest and best use which result from natural area dedication.

(2) A public agency owning or managing a registered natural area preserve may dedicate lands under the provisions of this chapter.

(3) The department shall adopt rules as authorized by RCW 43.12.065 and 79.70.030(1) relating to voluntary natural area dedication and defining:

(a) The types of real property interests that may be transferred;

(b) Real property transfer methods and the types of consideration of payment possible;

(c) Additional dedication provisions, such as natural area management, custody, use, and rights and privileges retained by the owner; and

(d) Procedures for terminating dedication arrangements. [2003 c 334 § 550; 1981 c 189 § 6.]

Intent—2003 c 334: See note following RCW 79.02.010.

### 79.70.100 Public hearing—Establishment of boundary.

The department shall hold a public hearing in the county where the majority of the land in a proposed natural area preserve is located prior to establishing the boundary. [1998 c 50 § 2.]

### 79.70.110 Important bird areas.

(1) The program may use information collected by a qualifying nonprofit organization to recognize important bird areas. The program should, to the greatest extent possible, coordinate with and use internationally agreed-upon, scientific criteria and protocols developed by a qualifying nonprofit organization to officially recognize these sites throughout Washington. Prior to using information collected by a qualifying nonprofit organization, the program must verify that the information was collected by individuals trained in scientific data collection, wildlife biology, or ornithology.

(2) When the program recognizes an important bird area, that information will be included in the program’s data bank. An important bird area shall not be designated as a natural area or a natural area preserve unless that area satisfies the substantive and procedural requirements for becoming a natural area or natural area preserve under this chapter.

(3) The qualifying nonprofit organization that collected the information used to recognize important bird areas should be available to work with interested landowners, businesses, and state and local governments to identify ways to maintain or enhance the important bird areas.

(4) The recognition of private property as an important bird area under this chapter, or the inclusion of private property in the program’s data bank, does not confer nor imply any rights of access or trespass onto the important bird area without full knowledge and consent of the owner pursuant to any state statutory and common laws dealing with trespass and access to private property.

(5) Recognition of an important bird area does not require or create critical area designation under chapter 36.70A RCW. [2004 c 180 § 2.]

Intent—2004 c 180: “Washington has a rich variety of birds, wildlife, and fish that its citizens and visitors enjoy. With over three hundred sixty-five bird species, Washington can use this natural asset to attract nature tourists and sportmen from all over the country and the world. According to a United States fish and wildlife service report, thirty-six percent of Washington’s residents currently participate in bird watching, and the watchable wildlife industry brings nearly one billion dollars per year into the state’s economy. The economic benefits delivered to rural economies in Washington by those choosing to recreate by hunting waterfowl or upland game birds is equally as impressive. The legislature has long recognized the important role of waterfowl and upland game bird hunting and other sporting pursuits in both the state’s economy and the quality of life for Washington residents. Additionally, the 2003 legislature recognized the economic value of promoting watchable wildlife and nature tourism when it required the departments of fish and wildlife and *community, trade, and economic development to host a watchable wildlife and nature tourism conference and write a statewide strategic plan. The 2002 legislature recognized the value of identifying and conserving our state’s biodiversity for future generations when it created the biodiversity task force and required a plan be developed to recommend ways to conserve biodiversity. Furthermore, over the past fifteen years, the legislature has recognized the important contributions volunteers and nonprofit organizations have made in restoring and monitoring salmon and wildlife habitat. Therefore, it is the goal of the legislature to promote: Partnerships with volunteers; rural economic development; nature tourism; and conservation of biodiversity by encouraging partnerships between state government agencies, volunteers, and nonprofit organizations to designate and conserve natural assets that attract nature tourists and bird watchers to Washington’s rural areas.

To accomplish this goal, the legislature recognizes the scientific work by volunteer organizations to use internationally recognized scientific criteria and protocols to identify, conserve, and monitor areas of the state that are important for migrating and resident birds. Scientists, ornithologists, and qualified volunteers have identified important bird areas. Wildlife conservation organizations and their volunteers are working to develop mutually agreed-upon bird conservation plans and monitoring plans in cooperation with public land managers and private landowners. Volunteers and scientists in more than one hundred countries around the world have already completed identification of fourteen thousand two hundred sixty sites that qualify as important bird areas.

Qualified volunteers and scientists have already successfully used the international criteria to identify fifty-three sites important for birds in Wash-

79.70.120 Important bird area—Recognition requirements. Prior to recognizing an important bird area under this chapter, the department must:

1. Publish notice of the proposed important bird area in the Washington state register;
2. Publish notice of the proposed important bird area in a newspaper of general circulation in the county where the proposed important bird area is located; and
3. Conduct at least one public hearing in the county where the proposed important bird area is located. [2004 c 180 § 3.]

Intent—2004 c 180: See note following RCW 79.70.110.

79.70.130 Distribution of amount in lieu of real property taxes, weed control assessment. The state treasurer, on behalf of the department, must distribute to counties for all lands acquired for the purposes of this chapter an amount in lieu of real property taxes equal to the amount of tax that would be due if the land were taxable as open space land under chapter 84.34 RCW except taxes levied for any state purpose, plus an additional amount equal to the amount of weed control assessment that would be due if such lands were privately owned. The county assessor and county legislative authority shall assist in determining the appropriate calculation of the amount of tax that would be due. The county shall distribute the amount received under this section in lieu of real property taxes to all property taxing districts except the state in appropriate tax code areas the same way it would distribute local property taxes from private property. The county shall distribute the amount received under this section for weed control to the appropriate weed district. [2005 c 303 § 11.]

79.71.010 Legislative findings. The legislature finds that: (1) There is an increasing and continuing need by the people of Washington for certain areas of the state to be conserved, in rural as well as urban settings, for the benefit of present and future generations; (2) such areas are worthy of conservation for their outstanding scenic and ecological values and provide opportunities for low-impact public use; (3) in certain cases acquisition of property or rights in property is necessary to protect these areas for public purposes; and (4) there is a need for a state agency to act in an effective and timely manner to acquire interests in such areas and to develop appropriate management strategies for conservation purposes. [1991 c 352 § 1; 1987 c 472 § 1.]

79.71.020 Characteristics of lands considered for conservation purposes. Lands possessing the following characteristics are considered by the legislature to be worthy of consideration for conservation purposes:

1. Lands identified as having high priority for conservation, natural systems, wildlife, and low-impact public use values;
2. An area of land or water, or land and water, that has flora, fauna, geological, archaeological, scenic, or similar features of critical importance to the people of Washington and that has retained to some degree or has reestablished its natural character;
3. Examples of native ecological communities; and
4. Environmentally significant sites threatened with conversion to incompatible or ecologically irreversible uses. [1991 c 352 § 2; 1987 c 472 § 2.]

79.71.030 Definitions. As used in this chapter:
"Commissioner" means the commissioner of public lands.
"Department" means the department of natural resources.
"Conservation purposes" include but are not limited to: (1) Maintaining, enhancing, or restoring ecological systems, including but not limited to aquatic, coastal, riparian, montane, and geological systems, whether such systems be unique or typical to the state of Washington; (2) maintaining exceptional scenic landscapes; (3) maintaining habitat for threatened, endangered, and sensitive species; (4) enhancing sites for primitive recreational purposes; and (5) outdoor environmental education.
"Low-impact public use" includes public recreation uses and improvements that do not adversely affect the resource values, are appropriate to the maintenance of the site in a relatively unmodified natural setting, and do not detract from long-term ecological processes.
"Management activities" may include limited production of income from forestry, agriculture, or other resource man-
agement activities, if such actions are consistent with the other purposes and requirements of this chapter.

"Natural resources conservation area" or "conservation area" means an area having the characteristics identified in RCW 79.71.020. [1991 c 352 § 3; 1987 c 472 § 3.]

79.71.040 Acquisition of property for natural resources conservation areas—Designation. The department is authorized to acquire property or less than fee interests in property, as defined by RCW 64.04.130, by all means, except eminent domain, for creating natural resources conservation areas, where acquisition is the best way to achieve the purposes of this chapter. Areas acquired or assembled by the department for conservation purposes will be designated as "Washington natural resources conservation areas." [1987 c 472 § 4.]

79.71.050 Transfer of trust land for natural resources conservation areas—Use of proceeds. The department is authorized to transfer fee simple interest or less than fee interests in trust land, as defined by RCW 64.04.130, by all means, except eminent domain, for creating natural resources conservation areas, where acquisition is the best way to achieve the purposes of this chapter. Areas acquired or assembled by the department for conservation purposes will be designated as "Washington natural resources conservation areas." [1987 c 472 § 4.]

79.71.060 Public hearing on proposed conservation area. The department shall hold a public hearing in the county where the majority of the land in the proposed natural resources conservation area is located prior to establishing the boundary. An area proposed for designation must contain resources consistent with characteristics identified in RCW 79.71.020. [1991 c 352 § 5; 1987 c 472 § 6.]

79.71.070 Management plans for designated areas. The department shall develop a management plan for each designated area. The plan shall identify the significant resources to be conserved consistent with the purposes of this chapter and identify the areas with potential for low-impact public and environmental educational uses. The plan shall specify what types of management activities and public uses that are permitted, consistent with the conservation purposes of this chapter. The department shall make such plans available for review and comment by the public and other state, tribal, and local agencies, prior to final approval by the commissioner. [1991 c 352 § 6; 1987 c 472 § 7.]

79.71.080 Administration of natural resources conservation areas—Management agreements and activities. The department is authorized to administer natural resources conservation areas and may enter into management agreements for these areas with federal agencies, state agencies, local governments, and private nonprofit conservancy corporations, as defined in RCW 64.04.130, when such agreements are consistent with the purposes of acquisition as defined in the adopted management plan. All management activities within a Washington natural resources conservation area will conform with the plan. Any moneys derived from the management of these areas in conformance with the adopted plan shall be deposited in the natural resources conservation areas stewardship account. [1991 c 352 § 7; 1987 c 472 § 8.]

79.71.090 Natural resources conservation areas stewardship account. There is hereby created the natural resources conservation areas stewardship account in the state treasury to ensure proper and continuing management of land acquired or designated pursuant to this chapter. Funds for the stewardship account shall be derived from appropriations of state general funds, federal funds, grants, donations, gifts, bond issue receipts, securities, and other monetary instruments of value. Income derived from the management of natural resources conservation areas shall also be deposited in this stewardship account.

Appropriations from this account to the department shall be expended for no other purpose than the following: (1) To manage the areas approved by the legislature in fulfilling the purposes of this chapter; (2) to manage property acquired as natural area preserves under chapter 79.70 RCW; (3) to manage property transferred under the authority and appropriation provided by the legislature to be managed under chapter 79.70 RCW or this chapter or acquired under chapter 79A.15 RCW; and (4) to pay for operating expenses for the natural heritage program under chapter 79.70 RCW. [2000 c 11 § 25; 1991 sp.s. c 13 § 118; 1991 c 352 § 8; 1987 c 472 § 9.]

79.71.100 Designation of certain areas as natural resources conservation areas. The legislature hereby designates certain areas as natural resources conservation areas:

(1) The Mt. Si conservation area (King County), RCW 79A.05.725, is hereby designated the Mt. Si natural resources conservation area. The department is directed to continue its management of this area and to develop a plan for its continued conservation and use by the public. In accordance with Article XVI of the Washington state Constitution, any available private lands and trust lands located within the designated boundaries of the Mt. Si conservation area shall be leased or acquired in fee from the appropriate trust at fair market value using funds appropriated for that purpose.

(2010 Ed.)
(7) "Vessel" means every species of watercraft or other mobile artificial contrivance, powered or unpowered, intended to be used for transporting people or goods on water or for floating marine construction or repair and which does not exceed two hundred feet in length. "Vessel" includes any trailer used for the transportation of watercraft, or any attached floats or debris. [2007 c 342 § 1; 2006 c 153 § 2; 2002 c 286 § 2.]

79.100.020 Chapter not exclusive remedy. This chapter is not intended to limit or constrain the ability and authority of the authorized public entities to enact and enforce ordinances or other regulations relating to derelict and abandoned vessels, or to take any actions authorized by federal or state law in responding to derelict or abandoned vessels. This chapter is also not intended to be the sole remedy available to authorized public entities against the owners of derelict and abandoned vessels. [2002 c 286 § 3.]

79.100.030 Authority of authorized public entity—Owner retains primary responsibility. (1) An authorized public entity has the authority, subject to the processes and limitations of this chapter, to store, strip, use, auction, sell, salvage, scrap, or dispose of an abandoned or derelict vessel found on or above aquatic lands within the jurisdiction of the authorized public entity. A vessel disposal must be done in an environmentally sound manner and in accordance with all federal, state, and local laws, including the state solid waste disposal provisions provided for in chapter 70.95 RCW. Scuttling or sinking of a vessel is only permissible after obtaining the express permission of the owner or owners of the aquatic lands below where the scuttling or sinking would occur, and obtaining all necessary state and federal permits or licenses.

(2) The primary responsibility to remove a derelict or abandoned vessel belongs to the owner, operator, or lessee of the moorage facility or the aquatic lands where the vessel is located. If the authorized public entity with the primary responsibility is unwilling or unable to exercise the authority granted by this section, it may request the department to assume the authorized public entity’s authority for a particular vessel. The department may at its discretion assume the authorized public entity’s authority for a particular vessel after being requested to do so. For vessels not at a moorage facility, an authorized public entity with jurisdiction over the aquatic lands where the vessel is located may, at its discretion, request to assume primary responsibility for that particular vessel from the owner of the aquatic lands where the vessel is located.

(3) The authority granted by this chapter is permissive, and no authorized public entity has a duty to exercise the authority. No liability attaches to an authorized public entity that chooses not to exercise this authority. [2002 c 286 § 4.]

79.100.040 Obtaining custody of vessel. (1) Prior to exercising the authority granted in RCW 79.100.030, the authorized public entity must first obtain custody of the vessel. To do so, the authorized public entity must:

(a) Mail notice of its intent to obtain custody, at least twenty days prior to taking custody, to the last known address of the previous owner to register the vessel in any state or with the federal government and to any lien holders or secured interests on record. A notice need not be sent to the purported owner or any other person whose interest in the vessel is not recorded with a state or federal agency; and

(b) Post notice of its intent clearly on the vessel for thirty days and publish its intent at least once, more than ten days but less than twenty days prior to taking custody, in a newspaper of general circulation for the county in which the vessel is located; and

(c) Post notice of its intent on the department’s internet web site on a page specifically designated for such notices. If the authorized public entity is not the department, the department must facilitate the internet posting.

(2) All notices sent, posted, or published in accordance with this section must, at a minimum, explain the intent of the authorized public entity to take custody of the vessel, the rights of the authorized public entity after taking custody of the vessel as provided in RCW 79.100.030, the procedures the owner must follow in order to avoid custody being taken by the authorized public entity, the procedures the owner must follow in order to reclaim possession after custody is taken by the authorized public entity, and the financial liabilities that the owner may incur as provided for in RCW 79.100.060.

(3)(a) If a vessel is: (i) In immediate danger of sinking, breaking up, or blocking navigational channels; or (ii) poses a reasonably imminent threat to human health or safety, including a threat of environmental contamination; and (iii) the owner of the vessel cannot be located or is unwilling or unable to assume immediate responsibility for the vessel, any authorized public entity may tow, beach, or otherwise take temporary possession of the vessel.

(b) Before taking temporary possession of the vessel, the authorized public entity must make reasonable attempts to consult with the department or the United States coast guard to ensure that other remedies are not available. The basis for taking temporary possession of the vessel must be set out in writing by the authorized public entity within seven days of taking action and be submitted to the owner, if known, as soon thereafter as is reasonable. If the authorized public entity has not already provided the required notice, immediately after taking possession of the vessel, the authorized public entity must initiate the notice provisions in subsection (1) of this section. The authorized public entity must complete the notice requirements of subsection (1) of this section before using or disposing of the vessel as authorized in RCW 79.100.050. [2007 c 342 § 2; 2006 c 153 § 3; 2002 c 286 § 5.]

79.100.050 Use or disposal of vessel. (1) After taking custody of a vessel, the authorized public entity may use or dispose of the vessel in any appropriate and environmentally sound manner without further notice to any owners, but must give preference to uses that derive some monetary benefit from the vessel, either in whole or in scrap. If no value can be derived from the vessel, the authorized public entity must give preference to the least costly, environmentally sound, reasonable disposal option. Any disposal operations must be consistent with the state solid waste disposal provisions provided for in chapter 70.95 RCW.
(2) If the authorized public entity chooses to offer the vessel at a public auction, either a minimum bid may be set or a letter of credit may be required, or both, to discourage future reabandonment of the vessel.

(3) Proceeds derived from the sale of the vessel must first be applied to any administrative costs that are incurred by the authorized public entity during the notification procedures set forth in RCW 79.100.040, removal and disposal costs, and costs associated with environmental damages directly or indirectly caused by the vessel. If the proceeds derived from the vessel exceed all administrative costs, removal and disposal costs, and costs associated with environmental damages directly or indirectly caused by the vessel, the remaining moneys must be applied to satisfying any liens registered against the vessel.

(4) Any value derived from a vessel greater than all liens and costs incurred reverts to the derelict vessel removal account established in RCW 79.100.100. [2002 c 286 § 6.]

**79.100.060 Reimbursement for costs.** (1) The owner of an abandoned or derelict vessel is responsible for reimbursing an authorized public entity for all reasonable and auditable costs associated with the removal or disposal of the owner’s vessel under this chapter. These costs include, but are not limited to, costs incurred exercising the authority granted in RCW 79.100.030, all administrative costs incurred by the authorized public entity during the procedure set forth in RCW 79.100.040, removal and disposal costs, and costs associated with environmental damages directly or indirectly caused by the vessel. An authorized public entity that has taken temporary possession of a vessel may require that all reasonable and auditable costs associated with the removal of the vessel be paid before the vessel is released to the owner.

(2) Reimbursement for costs may be sought from an owner who is identified subsequent to the vessel’s removal and disposal.

(3) If the full amount of all costs due to the authorized public entity under this chapter is not paid to the authorized public entity within thirty days after first notifying the responsible parties of the amounts owed, the authorized public entity or the department may bring an action in any court of competent jurisdiction to recover the costs, plus reasonable attorneys’ fees and costs incurred by the authorized public entity. [2006 c 153 § 4; 2002 c 286 § 7.]

**79.100.070 Contract with private company/individual.** An authorized public entity may enter into a contract with a private company or individual to carry out the authority granted in this chapter. [2002 c 286 § 8.]

**79.100.080 Chapter not exclusive.** The rights granted by this chapter are in addition to any other legal rights an authorized public entity may have to obtain title to, remove, recover, sell, or dispose of an abandoned or derelict vessel, and in no way does this chapter alter those rights, or affect the priority of other liens on a vessel. [2002 c 286 § 9.]

**79.100.100 Derelict vessel removal account. (Effective until July 1, 2011.)** (1) The derelict vessel removal account is created in the state treasury. All receipts from RCW 79.100.050 and 79.100.060 and those moneys specified in RCW 88.02.030 and 88.02.050 must be deposited into the account. The account is authorized to receive fund transfers and appropriations from the general fund, deposits from the derelict vessel removal surcharge under RCW 88.02.270, as well as gifts, grants, and endowments from public or private sources as may be made from time to time, in trust or otherwise, for the use of benefit of the purposes of this chapter and expend the same or any income according to the terms of the gifts, grants, or endowments provided those terms do not conflict with any provisions of this section or any guidelines developed to prioritize reimbursement of removal projects associated with this chapter. Moneys in the account may only be spent after appropriation. Expenditures from the account shall be used by the department to reimburse authorized public entities for up to ninety percent of the total reasonable and auditable administrative, removal, disposal, and environmental damage costs of abandoned or derelict vessels when the previous owner is either unknown after a reasonable search effort or insolvent. Reimbursement shall not be made unless the department determines that the public entity has made reasonable efforts to identify and locate the party responsible for the vessel, regardless of the title of owner of the vessel. Funds in the account resulting from transfers from the general fund or from the deposit of funds from the watercraft excise tax as provided for under RCW 82.49.030 shall be used to reimburse one hundred percent of these costs and should be prioritized for the removal of large vessels. Costs associated with removal and disposal of an abandoned or derelict vessel under the authority granted in RCW 53.08.320 also qualify for reimbursement from the derelict vessel removal account. In each biennium, up to twenty percent of the expenditures from the account may be used for administrative expenses of the department of licensing and department of natural resources in implementing this chapter.

(2) If the balance of the account reaches one million dollars as of March 1st of any year, exclusive of any transfer or appropriation of funds into the account or funds deposited into the account collected under RCW 88.02.270, the department must notify the department of licensing and the collection of any fees associated with this account must be suspended for the following fiscal year.

(3) Priority for use of this account is for the removal of derelict and abandoned vessels that are in danger of sinking, breaking up, or blocking navigation channels, or that present environmental risks such as leaking fuel or other hazardous substances. The department must develop criteria, in the form of informal guidelines, to prioritize removal projects associated with this chapter, but may not consider whether the applicant is a state or local entity when prioritizing. The guidelines must also include guidance to the authorized public entities as to what removal activities and associated costs are reasonable and eligible for reimbursement.

(4) The department must keep all authorized public entities apprized of the balance of the derelict vessel removal account and the funds available for reimbursement. The guidelines developed by the department must also be made available to the other authorized public entities. This subsection (4) must be satisfied by utilizing the least costly method, including maintaining the information on the department’s internet web site, or any other cost-effective method.
(5) An authorized public entity may contribute its ten percent of costs that are not eligible for reimbursement by using in-kind services, including the use of existing staff, equipment, and volunteers.

(6) This chapter does not guarantee reimbursement for an authorized public entity. Authorized public entities seeking certainty in reimbursement prior to taking action under this chapter may first notify the department of their proposed action and the estimated total costs. Upon notification by an authorized public entity, the department must make the authorized public entity aware of the status of the fund and the likelihood of reimbursement being available. The department may offer technical assistance and assure reimbursement for up to two years following the removal action if an assurance is appropriate given the balance of the fund and the details of the proposed action. [2007 c 342 § 4; 2006 c 153 § 6; 2002 c 286 § 11.]

79.100.100 Derelict vessel removal account. (Effective July 1, 2011.) (1) The derelict vessel removal account is created in the state treasury. All receipts from RCW 79.100.050 and 79.100.060 and those moneys specified in RCW 88.02.640 must be deposited into the account. (2) If the balance of the account reaches one million dollars as of March 1st of any year, exclusive of any transfer or appropriation of funds into the account or funds deposited into the account collected under RCW 88.02.640(5), the department must notify the department of licensing and the collection of any fees associated with this account must be suspended for the following fiscal year.

(3) Priority for use of this account is for the removal of derelict and abandoned vessels that are in danger of sinking, breaking up, or blocking navigation channels, or that present environmental risks such as leaking fuel or other hazardous substances. The guidelines developed by the department must also be made available to the other authorized public entities. This subsection (4) must be satisfied by utilizing the least costly method, including maintaining the information on the department’s internet web site, or any other cost-effective method.

Aquatic Lands—General

Chapter 79.105

[Title 79 RCW—page 87]
79.105.001 Intent—2005 c 155. This act is intended to make technical amendments to certain codified statutes that deal with the department of natural resources. Any statutory changes made by this act should be interpreted as technical in nature and not be interpreted to have any substantive policy implications. [2005 c 155 § 1001.]

GENERAL PROVISIONS

79.105.010 Aquatic lands—Findings. The legislature finds that state-owned aquatic lands are a finite natural resource of great value and an irreplaceable public heritage. The legislature recognizes that the state owns these aquatic lands in fee and has delegated to the department the responsibility to manage these lands for the benefit of the public. The legislature finds that water-dependent industries and activities have played a major role in the history of the state and will continue to be important in the future. The legislature finds that revenues derived from leases of state-owned aquatic lands should be used to enhance opportunities for public recreation, shoreline access, environmental protection, and other public benefits associated with the aquatic lands of the state. The legislature further finds that aquatic lands are faced with conflicting use demands. [2005 c 155 § 139; 1984 c 221 § 1. Formerly RCW 79.90.450.]

79.105.020 Purpose—Articulation of management philosophy. The purpose of RCW 79.105.060, 79.105.230, 79.105.280, and 79.105.010 through 79.105.040 is to articulate a management philosophy to guide the exercise of the state’s ownership interest and the exercise of the department’s management authority, and to establish standards for determining equitable and predictable lease rates for users of state-owned aquatic lands. [2005 c 155 § 101. FORMERLY PART OF RCW 79.90.450.]

79.105.030 Aquatic lands—Management guidelines. The management of state-owned aquatic lands shall be in conformance with constitutional and statutory requirements. The manager of state-owned aquatic lands shall strive to provide a balance of public benefits for all citizens of the state. The public benefits provided by state-owned aquatic lands are varied and include:

1. Encouraging direct public use and access;
2. Fostering water-dependent uses;
3. Ensuring environmental protection;
4. Utilizing renewable resources.

Generating revenue in a manner consistent with subsections (1) through (4) of this section is a public benefit. [2005 c 155 § 140; 1984 c 221 § 2. Formerly RCW 79.90.455.]

79.105.040 Application to existing property rights—Application of shoreline management act. Nothing in this chapter or RCW 79.120.040 or 79.120.060 shall modify or affect any existing legal rights involving the boundaries of, title to, or vested property rights in aquatic lands or waterways. Nothing in this chapter shall modify, alter, or otherwise affect the applicability of chapter 90.58 RCW. [2005 c 155 § 157; 1984 c 221 § 20. Formerly RCW 79.90.545.]

*Reviser’s note: The reference to “this chapter” referred to chapter 79.90 RCW, which was recodified and/or repealed in its entirety by 2005 c 155.

79.105.050 Fostering use of aquatic environment—Limitation. The department shall foster the commercial and recreational use of the aquatic environment for production of food, fibre, income, and public enjoyment from state-owned aquatic lands and from associated waters, and to this end the department may develop and improve production and harvesting of seaweeds and sealife attached to or growing on aquatic land or contained in aquaculture containers, but nothing in this section alters the responsibility of other state agencies for their normal management of fish, shellfish, game, and water. [2005 c 155 § 141; 2003 c 334 § 541; 1971 ex.s. c 234 § 8. Formerly RCW 79.90.456, 79.68.080.]

Intent—2003 c 334: See note following RCW 79.02.010.

(7) "Inflation rate" means for a given year the percentage rate of change in the previous calendar year's all commodity producer price index of the bureau of labor statistics of the United States department of commerce. If the index ceases to be published, the department shall designate by rule a comparable substitute index.

(8) "Inner harbor line" means a line located and established in navigable waters between the line of ordinary high tide or ordinary high water and the outer harbor line, constituting the inner boundary of the harbor area.

"Log booming" does not include the temporary holding of logs to be taken directly into a vessel.

(10) "Log storage" means the water storage of logs in rafts or otherwise prepared for shipment in water-borne commerce, but does not include the temporary holding of logs to be taken directly into a vessel or processing facility.

(11) "Nonwater-dependent use" means a use that can operate in a location other than on the waterfront. Examples include, but are not limited to, hotels, condominiums, apartments, restaurants, retail stores, and warehouses not part of a marine terminal or transfer facility.

(12) "Outer harbor line" means a line located and established in navigable waters as provided in Article XV, section 1 of the state Constitution, beyond which the state shall never sell or lease any rights whatever to private persons.

(13) "Person" means any private individual, partnership, association, organization, cooperative, firm, corporation, the state or any agency or political subdivision thereof, any public or municipal corporation, or any unit of government, however designated.

(20) "State-owned aquatic lands" means all tidelands, shorelands, harbor areas, the beds of navigable waters, and waterways owned by the state and administered by the department or managed under RCW 79.105.420 by a port district. (25) "Water-oriented use" means a use that historically has been dependent on a waterfront location, but with existing technology could be located away from the waterfront. Examples include, but are not limited to, wood products manufacturing, watercraft sales, fish processing, petroleum refining, sand and gravel processing, log storage, and house boats. For the purposes of determining rent under this chapter, water-oriented uses shall be classified as water-dependent uses if the activity either is conducted on state-owned aquatic lands leased on October 1, 1984, or was actually conducted on the state-owned aquatic lands for at least three years before October 1, 1984. If, after October 1, 1984, the activity is changed to a use other than a water-dependent use, the activity shall be classified as a nonwater-dependent use. If continuation of the existing use requires leasing additional state-owned aquatic lands and is permitted under the shoreline management act of 1971, chapter 90.58 RCW, the department may allow reasonable expansion of the water-oriented use. [2005 c 155 § 102.]

GENERAL USE, SALE, AND LEASE PROVISIONS

79.105.100 Sale and lease of state-owned aquatic lands—Blank forms of applications. The department shall prepare, and furnish to applicants, blank forms of applications for the purchase of state-owned tidelands or shorelands, otherwise permitted by RCW 79.125.200 to be sold, and the purchase of valuable material situated thereon, and the lease
of state-owned tidelands, shorelands, and harbor areas, which forms shall contain such instructions as will inform and aid the applicants. [2005 c 155 § 104; 1982 1st ex.s. c 21 § 15. Formerly RCW 79.90.090.]

79.105.110 Who may purchase or lease—Application—Fees. Any person desiring to purchase any state-owned tidelands or shorelands, otherwise permitted under RCW 79.125.200 to be sold, or to purchase any valuable material situated thereon, or to lease any state-owned aquatic lands, shall file with the department an application, on the proper form which shall be accompanied by reasonable fees to be prescribed by the board in its rules, in an amount sufficient to defray the cost of performing or otherwise providing for the processing, review, or inspection of the applications or activities permitted pursuant to the applications for each category of services performed. These fees shall be credited to the resource management cost account fund in the general fund. [2005 c 155 § 105; 1982 1st ex.s. c 21 § 16. Formerly RCW 79.90.100.]

[2005 c 155 § 138; 1982 1st ex.s. c 21 § 47. Formerly RCW 79.90.410.]

The assignee shall be subject to the provisions of law applicable to the purchaser or lessee of whom they are the assignee, and shall have the same rights in all respects as the original purchaser or lessee of the lands, but only if the assignment is first approved by the department and entered upon the records in the department. [2005 c 155 § 135; 1982 1st ex.s. c 21 § 43. Formerly RCW 79.90.370.]

During the 2009-2011 fiscal biennium, the aquatic lands enhancement account may also be used for scientific research as part of the adaptive management process. During the 2009-11 fiscal biennium, the legislature may transfer from the aquatic lands enhancement account to the state general fund such amounts as reflect excess fund balance of the account.

(2) In providing grants for aquatic lands enhancement projects, the recreation and conservation funding board shall:
(a) Require grant recipients to incorporate the environmental benefits of the project into their grant applications;
(b) Utilize the statement of environmental benefits, consideration, except as provided in RCW 79.105.610, of whether the applicant is a Puget Sound partner, as defined in RCW 90.71.010, whether a project is referenced in the action agenda developed by the Puget Sound partnership under RCW 90.71.310, and except as otherwise provided in RCW 79.105.630, and effective one calendar year following the development and statewide availability of model evergreen community management plans and ordinances under RCW 35.105.050, whether the applicant is an entity that has been recognized, and what gradation of recognition was received, in the evergreen community recognition program created in RCW 35.105.030 in its prioritization and selection process; and
(c) Develop appropriate outcome-focused performance measures to be used both for management and performance assessment of the grants.

(3) To the extent possible, the department should coordinate its performance measure system with other natural resource-related agencies as defined in RCW 43.41.270.

(4) The department shall consult with affected interest groups in implementing this section.

(5) After January 1, 2010, any project designed to address the restoration of Puget Sound may be funded under this chapter only if the project is not in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310. LEASING AND RENTAL RATES  

79.105.200 Use and occupancy fee in lieu of lease—Construction of section. (1) The department may require the payment of a use and occupancy fee in lieu of a lease where improvements have been placed without authorization on state-owned aquatic lands.  

(2) Nothing in this section shall be construed to prevent the assertion of public ownership rights in any publicly owned aquatic lands, or the leasing of the aquatic lands when the leasing is not contrary to the statewide public interest.  

[2005 c 155 § 516; 1982 1st ex.s. c 21 § 102. Formerly RCW 79.94.010; 2002 c 152 § 2; 1984 c 221 § 5. Formerly RCW 79.90.460.]  

79.105.210 Aquatic lands—Preservation and enhancement of water-dependent uses—Leasing authority. (1) The management of state-owned aquatic lands shall preserve and enhance water-dependent uses. Water-dependent uses shall be favored over other uses in state-owned aquatic land planning and in resolving conflicts between competing lease applications. In cases of conflict between water-dependent uses, priority shall be given to uses which enhance renewable resources, water-borne commerce, and the navigational and biological capacity of the waters, and to statewide interests as distinguished from local interests.  

(2) Nonwater-dependent use of state-owned aquatic lands is a low-priority use providing minimal public benefits and shall not be permitted to expand or be established in new areas except in exceptional circumstances where it is compatible with water-dependent uses occurring in or planned for the area.  

(3) The department shall consider the natural values of state-owned aquatic lands as wildlife habitat, natural area preserve, representative ecosystem, or spawning area prior to issuing any initial lease or authorizing any change in use. The department may withhold from leasing lands which it finds to have significant natural values, or may provide within any lease for the protection of such values.  

(4) The power to lease state-owned aquatic lands is vested in the department, which has the authority to make leases upon terms, conditions, and length of time in conformance with the state Constitution and chapters 79.105 through 79.140 RCW.  

(5) State-owned aquatic lands shall not be leased to persons or organizations which discriminate on the basis of race, color, creed, religion, sex, age, or physical or mental handicap. [2005 c 155 § 143; 1984 c 221 § 3. Formerly RCW 79.90.460.]  

79.105.220 Lease of tidelands in front of public parks. The department may lease state-owned tidelands that are in front of state parks only with the approval of the state parks and recreation commission. The department may lease bedlands in front of state parks only after the department has consulted with the state parks and recreation commission. [2005 c 155 § 145. FORMERLY PART OF RCW 79.94.010; 2002 c 152 § 2; 1984 c 221 § 5. Formerly RCW 79.90.470.]  

Findings—Severability—2002 c 152: See notes following RCW 79.110.240.  

79.105.230 Use for public parks or public recreation purposes. Use for public parks or public recreation purposes shall be granted without charge if the state-owned aquatic lands and improvements are available to the general public on a first-come, first-served basis and are not managed to produce a profit for the operator or a concessionaire. [2005 c 155 § 144.]  

79.105.240 Determination of annual rent rates for lease of aquatic lands for water-dependent uses. Except as otherwise provided by this chapter, annual rent rates for the lease of state-owned aquatic lands for water-dependent uses shall be determined as follows:  

(1)(a) The assessed land value, exclusive of improvements, as determined by the county assessor, of the upland tax parcel used in conjunction with the leased area or, if there are no such uplands, of the nearest upland tax parcel used for water-dependent purposes divided by the parcel area equals the upland value.  

(b) The upland value times the area of leased aquatic lands times thirty percent equals the aquatic land value.  

(2) As of July 1, 1989, and each July 1st thereafter, the department shall determine the real capitalization rate to be applied to water-dependent aquatic land leases commencing or being adjusted under subsection (3)(a) of this section in that fiscal year. The real capitalization rate shall be the real rate of return, except that until June 30, 1989, the real capitalization rate shall be five percent and thereafter it shall not change by more than one percentage point in any one year or be more than seven percent or less than three percent.  

(3) The annual rent shall be:  

(a) Determined initially, and redetermined every four years or as otherwise provided in the lease, by multiplying the aquatic land value times the real capitalization rate; and  

(b) Adjusted by the inflation rate each year in which the rent is not determined under (a) of this subsection.  

(4) If the upland parcel used in conjunction with the leased area is not assessed or has an assessed value inconsistent with the purposes of the lease, the nearest comparable upland parcel used for similar purposes shall be substituted and the lease payment determined in the same manner as provided in this section.
Title 79 RCW: Public Lands

79.105.250 Log storage rents. (1) Until June 30, 1989, the log storage rents per acre shall be the average rents the log storage leases in effect on July 1, 1984, would have had under the formula for water-dependent leases as set out in RCW 79.105.240, except that the aquatic land values shall be thirty percent of the assessed value of the abutting upland parcels exclusive of improvements, if they are assessed. If the abutting upland parcel is not assessed, the nearest assessed upland parcel shall be used.

(2) On July 1, 1989, and every four years thereafter, the base log storage rents established under subsection (1) of this section shall be adjusted in proportion to the change in average water-dependent lease rates per acre since the date the log storage rates were last established under this section.

(3) The annual rent shall be adjusted by the inflation rate each year in which the rent is not determined under subsection (1) or (2) of this section.

(4) If the lease provides for seasonal use so that portions of the leased area are available for public use without charge part of the year, the annual rent may be discounted to reflect such public use in accordance with rules adopted by the board.  [2005 c 155 § 148; 1984 c 221 § 8.  Formerly RCW 79.90.485.]

79.105.260 Rent for leases in effect October 1, 1984.  (1) For leases in effect on October 1, 1984, the rent shall remain at the annual rate in effect on September 30, 1984, until the next lease anniversary date, at which time rent established under RCW 79.105.240 or 79.105.250 shall become effective.  If the first rent amount established is an increase of more than one hundred dollars and is more than thirty-three percent above the rent in effect on September 30, 1984, the annual rent shall not increase in any year by more than thirty-three percent of the difference between the previous rent and the rent established under RCW 79.105.240 or 79.105.250.  If the first rent amount established under RCW 79.105.240 or 79.105.250 is more than thirty-three percent below the rent in effect on September 30, 1984, the annual rent shall not decrease in any year by more than thirty-three percent of the difference between the previous rent and the rent established under RCW 79.105.240 or 79.105.250.  Thereafter, notwithstanding any other provision of this title, the annual rental established under RCW 79.105.240 or 79.105.250 shall not increase more than fifty percent in any year.

(2) This section applies only to leases of state-owned aquatic lands subject to RCW 79.105.240 or 79.105.250.  [2005 c 155 § 149; 1984 c 221 § 9.  Formerly RCW 79.90.490.]

79.105.270 Aquatic lands—Leases/rents for nonwater-dependent uses. Leases for nonwater-dependent uses of state-owned aquatic lands shall be charged the fair market rental value of the leased lands, determined in accordance with appraisal techniques specified by rule. However, rents for nonwater-dependent uses shall always be more than the amount that would be charged as rent for a water-dependent use of the same parcel.  [2005 c 155 § 150; 1984 c 221 § 11.  Formerly RCW 79.90.500.]

79.105.280 Rents and fees for recovery of mineral or geothermal resources. Rents and fees for the mining or other recovery of mineral or geothermal resources shall be established through competitive bidding, negotiations, or as otherwise provided by statute.  [2005 c 155 § 151.  Fomerly part of RCW 79.90.500.]

79.105.290 Aquatic lands—Rents for multiple uses. If water-dependent and nonwater-dependent uses occupy separate portions of the same leased parcel of state-owned aquatic land, the rental rate for each use shall be that established for the use by this chapter, prorated in accordance with the proportion of the whole parcel that each use occupies. If water-dependent and nonwater-dependent uses occupy the same portion of a leased parcel of state-owned aquatic land, the rental rate for the parcel shall be subject to negotiation with the department taking into account the proportion of the improvements each use occupies.  [2005 c 155 § 152; 1984 c 221 § 12.  Formerly RCW 79.90.505.]

[Title 79 RCW—page 92]
79.105.310 Aquatic lands—Rent for improvements.  
(1) Except as agreed between the department and the lessee prior to construction of the improvements, rent shall not be charged under any lease of state-owned aquatic lands for improvements, including fills, authorized by the department or installed by the lessee or its predecessor before June 1, 1971, so long as the lands remain under a lease or succession of leases without a period of three years in which no lease is in effect or a bona fide application for a lease is pending.

(2) If improvements were installed under a good faith belief that a state-owned aquatic lands lease was not necessary, rent shall not be charged for the improvements if, within ninety days after specific written notification by the department that a lease is required, the owner either applies for a lease or files suit to determine if a lease is required. [2005 c 155 § 153; 1984 c 221 § 14. Formerly RCW 79.90.515.]

79.105.320 Aquatic lands—Administrative review of proposed rent.  The manager shall, by rule, provide for an administrative review of any state-owned aquatic land rent proposed to be charged. The rules shall require that the lessee or applicant for release file a request for review within thirty days after the manager has notified the lessee or applicant of the rent due. For leases issued by the department, the final authority for the review rests with the board. For leases managed under RCW 79.105.420, the final authority for the review rests with the appropriate port commission. If the request for review is made within thirty days after the manager’s final determination as to the rental, the lessee may pay rent at the preceding year’s rate pending completion of the review, and shall pay any additional rent or be entitled to a refund, with interest thirty days after announcement of the decision. The interest rate shall be fixed by rule adopted by the board and shall not be less than six percent per annum. Nothing in this section abrogates the right of an aggrieved party to pursue legal remedies. For purposes of this section, "manager" is the department except where state-owned aquatic lands are managed by a port district, in which case "manager" is the port district. [2005 c 155 § 154; 1991 c 64 § 1; 1984 c 221 § 15. Formerly RCW 79.90.520.]

79.105.330 Aquatic lands—Security for leases for more than one year.  For any lease for a term of more than one year, the department may require that the rent be secured by insurance, bond, or other security satisfactory to the department in an amount not exceeding two years’ rent. The department may require additional security for other lease provisions. The department shall not require cash deposits exceeding one-twelfth of the annual rental. [1984 c 221 § 16. Formerly RCW 79.90.525.]

79.105.340 Aquatic lands—Payment of rent.  If the annual rent charged for the use of a parcel of state-owned aquatic lands exceeds four thousand dollars, the lessee may pay on a prorated quarterly basis. If the annual rent exceeds twelve thousand dollars, the lessee may pay on a prorated monthly basis. [1984 c 221 § 17. Formerly RCW 79.90.530.]

79.105.350 Aquatic lands—Interest rate.  The interest rate and all interest rate guidelines shall be fixed by rule adopted by the board and shall not be less than six percent per annum. [2005 c 155 § 155; 1991 c 64 § 2; 1984 c 221 § 18. Formerly RCW 79.90.535.]

79.105.360 Adoption of rules.  The department shall adopt such rules as are necessary to carry out the purposes of RCW 79.105.010, 79.105.030, 79.105.050, 79.105.210, 79.105.220, 79.105.240 through 79.105.260, 79.105.270, 79.105.290 through 79.105.350, 79.105.400, 79.105.420, 79.130.070, and 79.135.100, specifically including criteria for determining under RCW 79.105.240(4) when an abutting upland parcel has been inappropriately assessed and for determining the nearest comparable upland parcel used for water-dependent uses. [2005 c 155 § 156; 1984 c 221 § 19. Formerly RCW 79.90.540.]

OTHER CONVEYANCES

79.105.400 Authority to exchange state-owned tidelands and shorelands—Rules—Limitation.  The department may exchange state-owned tidelands and shorelands with private and other public landowners if the exchange is in the public interest and will actively contribute to the public benefits established in RCW 79.105.030. The board shall adopt rules which establish criteria for determining when a proposed exchange is in the public interest and actively contributes to the public benefits established in RCW 79.105.030. The department may not exchange state-owned harbor areas or waterways. [2005 c 155 § 142; 1995 c 357 § 1. Formerly RCW 79.90.457.]

79.105.410 Gifts of aquatic land—Procedures and criteria.  (1) The department is authorized to accept gifts of aquatic land within the state, including tidelands, shorelands, harbor areas, and the beds of navigable waters, which shall become part of the state-owned aquatic land base. Consistent with RCW 79.105.030, the department must develop procedures and criteria that state the manner in which gifts of aquatic land, received after July 27, 2003, may occur. No gift of aquatic land may be accepted until: (a) An appraisal of the value of the land has been prepared; (b) an environmental site assessment has been conducted; and (c) the title property report has been examined and approved by the attorney general of the state. The results of the appraisal, the site assessment, and the examination of the title property report must be submitted to the board before the department may accept a gift of aquatic land.

(2) The authorization to accept gifts of aquatic land within the state extends to aquatic land accepted as gifts prior to July 27, 2003. [2005 c 155 § 163; 2003 c 176 § 1. Formerly RCW 79.90.580.]

(2010 Ed.)
79.105.420 Management of certain aquatic lands by port district—Agreement—Rent—Model management agreement. (1) Upon request of a port district, the department and port district may enter into an agreement authorizing the port district to manage state-owned aquatic lands abutting or used in conjunction with and contiguous to uplands owned, leased, or otherwise managed by a port district, for port purposes as provided in Title 53 RCW. The agreement shall include, but not be limited to, provisions defining the specific area to be managed, the term, conditions of occupancy, reservations, periodic review, and other conditions to ensure consistency with the state Constitution and the policies of this chapter. If a port district acquires operating management, lease, or ownership of real property which abuts state-owned aquatic lands currently under lease from the state to a person other than the port district, the port district shall manage state-owned aquatic lands if: (a) The port district acquires the leasehold interest in accordance with state law, or (b) the current lessee and the department agree to termination of the current lease to accommodate management by the port. The administration of state-owned aquatic lands covered by a management agreement shall be consistent with the aquatic land policies of chapters 79.105 through 79.140 RCW and the implementing rules adopted by the department. The administrative procedures for management of the lands shall be those of Title 53 RCW.

(2) No rent is due the state for the use of state-owned aquatic lands managed under this section for water-dependent or water-oriented uses. If a port district manages state-owned aquatic lands under this section and either leases or otherwise permits any person to use the lands, the rental fee attributable to the state-owned aquatic land only shall be comparable to the rent charged lessees for the same or similar uses by the department. However, a port district need not itemize for the lessee any charges for state-owned aquatic lands improved by the port district for use by carriers by water. If a port leases state-owned aquatic lands to any person for nonwater-dependent use, eighty-five percent of the revenue attributable to the rent of the state-owned aquatic land only shall be paid to the state.

(3) Upon application for a management agreement, and so long as the application is pending and being diligently pursued, no rent is due the department for the lease by the port district of state-owned aquatic lands included within the application for water-dependent or water-oriented uses.

(4) The department and representatives of the port industry shall develop a proposed model management agreement which shall be used as the basis for negotiating the management agreements required by this section. The model management agreement shall be reviewed and approved by the board. [2005 c 155 § 146; 1984 c 221 § 6. Formerly RCW 79.90.475.]

79.105.430 Private recreational docks—Mooring buoys. (1) The abutting residential owner to state-owned shorelands, tidelands, or related beds of navigable waters, other than harbor areas, may install and maintain without charge a dock on the areas if used exclusively for private recreational purposes and the area is not subject to prior rights, including any rights of upland, tideland, or shoreland owners as provided in RCW 79.125.400, 79.125.460, 79.125.410, and 79.130.010. The dock cannot be sold or leased separately from the upland residence. The dock cannot be used to moor boats for commercial or residential use. This permission is subject to applicable local, state, and federal rules and regulations governing location, design, construction, size, and length of the dock. Nothing in this subsection (1) prevents the abutting owner from obtaining a lease if otherwise provided by law.

(2) The abutting residential owner to state-owned shorelands, tidelands, or related beds of navigable waters, other than harbor areas, may install and maintain a mooring buoy without charge if the boat that is moored to the buoy is used for private recreational purposes, the area is not subject to prior rights, including any rights of upland, tideland, or shoreland owners as provided in RCW 79.125.400, 79.125.460, 79.125.410, and 79.130.010, and the buoy will not obstruct the use of mooring buoys previously authorized by the department.

(a) The buoy must be located as near to the upland residence as practical, consistent with applicable rules and regulations and the provisions of this section. The buoy must be located, or relocated if necessary, to accommodate the use of lawfully installed and maintained buoys.

(b) If two or more residential owners, who otherwise qualify for free use under the provisions of this section, are in dispute over assertion of rights to install and maintain a mooring buoy in the same location, they may seek formal settlement through adjudication in superior court for the county in which the buoy site is located. In the adjudication, preference must be given to the residential owner that first installed and continually maintained and used a buoy on that site, if it meets all applicable rules, regulations, and provisions of this section, and then to the owner of the residential property nearest the site. Nothing in this section requires the department to mediate or otherwise resolve disputes between residential owners over the use of the same site for a mooring buoy.

(c) The buoy cannot be sold or leased separately from the abutting residential property. The buoy cannot be used to moor boats for commercial or residential use, nor to moor boats over sixty feet in length.

(d) If the department determines that it is necessary for secure moorage, the abutting residential owner may install and maintain a second mooring buoy, under the same provisions as the first, the use of which is limited to a second mooring line to the boat moored at the first buoy.

(e) The permission granted in this subsection (2) is subject to applicable local, state, and federal rules and regulations governing location, design, installation, maintenance, and operation of the mooring buoy, anchoring system, and moored boat. Nothing in this subsection (2) prevents a boat owner from obtaining a lease if otherwise provided by law. This subsection (2) also applies to areas that have been designated by the commissioner or the fish and wildlife commission as aquatic reserves.

(3) This permission to install and maintain a recreational dock or mooring buoy may be revoked by the department, or the department may direct the owner of a recreational dock or mooring buoy to relocate their dock or buoy, if the department makes a finding of public necessity to protect waterward access, ingress rights of other landowners, public health
or safety, or public resources. Circumstances prompting a finding of public necessity may include, but are not limited to, the dock, buoy, anchoring system, or boat posing a hazard or obstruction to navigation or fishing, contributing to degradation of aquatic habitat, or contributing to decertification of shellfish beds otherwise suitable for commercial or recreational harvest. The revocation may be appealed as provided for under RCW 79.105.160.

(4) Nothing in this section authorizes a boat owner to abandon a vessel at a recreational dock, mooring buoy, or elsewhere. [2005 c 155 § 160; 2002 c 304 § 1; 2001 c 277 § 1; 1989 c 175 § 170; 1983 2nd ex.s. c 2 § 2. Formerly RCW 79.90.105.]

DREDGED MATERIAL DISPOSAL

79.105.500 Aquatic land dredged material disposal sites—Findings. The legislature finds that the department provides, manages, and monitors aquatic land dredged material disposal sites on state-owned aquatic lands for materials dredged from rivers, harbors, and shipping lanes. These disposal sites are approved through a cooperative planning process by the departments of natural resources and ecology, the United States army corps of engineers, and the United States environmental protection agency in cooperation with the Puget Sound partnership. These disposal sites are essential to the commerce and well-being of the citizens of the state of Washington. Management and environmental monitoring of these sites are necessary to protect environmental quality and to assure appropriate use of state-owned aquatic lands. The creation of an aquatic land dredged material disposal site account is a reasonable means to enable and facilitate proper management and environmental monitoring of these disposal sites. [2007 c 341 § 58; 2005 c 155 § 158; 1987 c 259 § 1. Formerly RCW 79.90.550.]

79.105.510 Aquatic land dredged material disposal site account. The aquatic land dredged material disposal site account is established in the state treasury. The account shall consist of funds appropriated to the account; funds transferred or paid to the account pursuant to settlements; court or administrative agency orders or judgments; gifts and grants to the account; and all funds received by the department from users of aquatic land dredged material disposal sites. After appropriation, moneys in the fund may be spent only for the management and environmental monitoring of aquatic land dredged material disposal sites. The account is subject to the allotment procedure provided under chapter 43.88 RCW. [2005 c 155 § 159; 1991 sp.s. c 13 § 63; 1987 c 259 § 2. Formerly RCW 79.90.555.]

79.105.520 Fees for use of aquatic land dredged material disposal sites authorized. The department shall estimate the costs of site management and environmental monitoring at aquatic land dredged material disposal sites and may, by rule, establish fees for use of the sites in amounts no greater than necessary to cover the estimated costs. All such revenues shall be placed in the aquatic land dredged material disposal site account under RCW 79.105.510. [2005 c 155 § 160; 1987 c 259 § 3. Formerly RCW 79.90.560.]

OTHER MANAGEMENT PROVISIONS

79.105.600 Archaeological activities on state-owned aquatic lands—Agreements, leases, or other conveyances. After consultation with the *director of community, trade, and economic development, the department may enter into agreements, leases, or other conveyances for archaeological activities on state-owned aquatic lands. The agreements, leases, or other conveyances may contain those conditions as are required for the department to comply with its legal rights and duties. Any structure authorized and approved as indicated in this section shall remain within the jurisdiction of the respective officer or officers approving the structure, and shall be altered or changed from time to time at the expense of the municipality owning the highway, or at the expense of the common carriers, at the time owning the railway or road using the structure, to meet the necessities of navigation and commerce in such a manner as may be from time to time ordered by the respective officer or officers at the time having jurisdiction of the structure, and the orders may be enforced by appropriate action at law or in equity at the suit of the state. The land within the right-of-way shall be limited to an amount necessary for the construction of the telephone line, ditch, flume, pipeline, or transmission line sufficient for the purposes required, together with sufficient land on either side thereof for ingress and egress to maintain and repair the telephone line, ditch, flume, pipeline, or transmission line. The grant shall also include the right to cut all standing timber outside the right-of-way marked as danger trees located on public lands upon full payment of the appraised value. [2005 c 155 § 214; 1982 1st ex.s. c 21 § 61. Formerly RCW 79.91.140.]

79.110.220 Right-of-way for utility pipelines, transmission lines, etc.—Appraisal—Certificate—Reversion for nonuser. On the filing of the plat and field notes, as provided in RCW 79.110.210, the land applied for and any improvements included in the right-of-way applied for, if any, shall be appraised as in the case of an application to purchase state lands. Upon full payment of the appraised value of the state-owned aquatic land applied for, or upon payment of an annual rental when the department deems a rental to be in the best interests of the state, and upon full payment of the appraised value of any danger trees and improvements, if any, the department shall issue to the applicant a certificate of the grant of right-of-way stating the terms and conditions and shall enter the certificate in the abstracts and records in the department’s Olympia office, and therefor any sale or lease of the lands affected by the right-of-way shall be subject to the easement of the right-of-way. However, should the person or the United States of America securing the right-of-way ever abandon the use of the right-of-way for the purposes for which it was granted, the right-of-way shall revert to the state, or the state’s grantee. [2005 c 155 § 215; 1982 1st ex.s. c 21 § 62. Formerly RCW 79.91.150.]

79.110.230 Use of state-owned aquatic lands for public utility lines. (1) The use of state-owned aquatic lands for public utility lines owned by a governmental entity shall be granted by an agreement, permit, or other instrument if the use is consistent with the purposes of RCW 79.105.010, 79.105.030, 79.105.050, 79.105.210, 79.105.400, and 79.130.070 and does not obstruct navigation or other public uses. The department may recover only its administrative costs incurred in processing and approving the request or application, and reviewing plans for construction of public utility lines as determined under RCW 79.110.240. Administrative costs recovered by the department must be deposited into the resource management cost account.

(2) The use of state-owned aquatic lands for local public utility lines owned by a nongovernmental entity will be granted by easement if the use is consistent with the purpose of RCW 79.105.010, 79.105.030, 79.105.050, 79.105.210, 79.105.400, and 79.130.070 and does not obstruct navigation or other public uses. The total charge for the easement will be determined under RCW 79.110.240.

(3) Nothing in this section limits the ability of the department to obtain payment for commodity costs, such as lost revenue from renewable resources, resulting from the granted use of state-owned aquatic lands for public utility lines. [2008 c 55 § 1; 2005 c 155 § 216. FORMERLY PART OF RCW 79.90.470.]

79.110.240 Charge for term of easement—Recovery of costs. (1) Until July 1, 2017, the charge for the term of an easement granted under RCW 79.110.230(2) will be determined as follows and will be paid in advance upon grant of the easement:

(a) Five thousand dollars for individual easement crossings that are no longer than one mile in length;

(b) Twelve thousand five hundred dollars for individual easement crossings that are more than one mile but less than five miles in length; or

(c) Twenty thousand dollars for individual easement crossings that are five miles or more in length.

(2) The charge for easements under subsection (1) of this section must be adjusted annually by the rate of yearly increase in the most recently published consumer price index, all urban consumers, for the Seattle-Everett SMSA, over the consumer price index for the preceding year, as compiled by the bureau of labor statistics, United States department of labor for the state of Washington rounded up to the nearest fifty dollars.

(3) The term of the easement is thirty years or a period of less than thirty years if requested by the person or entity seeking the easement.

(4) In addition to the charge for the easement under subsection (1) of this section, the department may recover its administrative costs incurred in receiving an application for the easement, approving the easement, and reviewing plans for and construction of the public utility lines. For the purposes of this subsection, "administrative costs" is equivalent to twenty percent of the fee for the easement as determined under subsection (1) of this section and adjusted under subsection (2) of this section. For public utility lines owned by a governmental entity, the administrative costs will be calculated based on the length of the easement and the fee that it would be charged if it were subject to the easement charges in this section. When multiple public utility lines are owned by the same entity and are authorized under the same easement, the administrative fee for the easement shall be equal to twenty percent of the easement fee for the single longest public utility line. Administrative costs recovered by the department must be deposited into the resource management cost account.
(5) Applicants under RCW 79.110.230(2) providing a residence with an individual service connection for electrical, natural gas, cable television, or telecommunications service are not required to pay the charge for the easement under subsection (1) of this section but shall pay administrative costs under subsection (4) of this section.

(6) A final decision on applications for an easement must be made within one hundred twenty days after the department receives the completed application and after all applicable regulatory permits for the aquatic easement have been acquired. This subsection applies to applications submitted before June 13, 2002, as well as to applications submitted on or after June 13, 2002. Upon request of the applicant, the department may reach a decision on an application within sixty days and charge an additional fee for an expedited processing. The fee for an expedited processing is ten percent of the combined total of the easement charge and administrative costs.

(7) By December 31, 2016, the legislature shall review the granting of easements on state-owned aquatic lands under this chapter and determine whether all applications for easements are processed within one hundred twenty days for normal processing of applications and sixty days for expedited processing of applications, and whether the granting of easements on state-owned aquatic lands generates reasonable income for the aquatic lands enhancement account. [2008 c 55 § 2; 2005 c 155 § 162; 2002 c 152 § 3. Formerly RCW 79.90.575.]

Findings—2002 c 152: "The legislature finds that local public utilities provide essential services to all of the residents of the state and that the construction and improvement of local utility infrastructure is critical to the public health, safety, and welfare, community and economic development, and installation of modern and reliable communication and energy technology. The legislature further finds that local utility lines must cross state-owned aquatic lands in order to reach all state residents and that, for the benefit of such residents, the state should permit the crossings, consistent with all applicable state environmental laws, in a nondiscriminatory, economic, and timely manner. The legislature further finds that this act and the valuation methodology in section 3 of this act applies only to the uses listed in section 2 of this act, and does not establish a precedent for valuation for any other uses on state-owned aquatic lands." [2002 c 152 § 1.]

Severability—2002 c 152: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [2002 c 152 § 4.]

79.115.020 Relocation of harbor lines by the harbor line commission. Whenever it appears that the inner harbor line of any harbor area has been so established as to overlap or fall inside the government meander line, or for any other good cause, the board acting as the harbor line commission is empowered to relocate and reestablish said inner harbor line so erroneously established, outside of the meander line. All tidelands or shorelands within the inner harbor line so reestablished and relocated, shall belong to the state and may be sold or leased as other first-class tidelands or shorelands in accordance with the provisions of RCW 79.125.200. HARBOR AREA LEASES

79.115.010 Terms of harbor area leases. Applications, leases, and bonds of lessees shall be in such a form as the department shall prescribe. Every lease shall provide that the rental shall be payable to the department, and for cancellation by the department upon sixty days’ written notice for any breach of the conditions. Every lessee shall furnish a bond, with surety satisfactory to the department, with such penalty as the department may prescribe, but not less than five hundred dollars, conditioned upon the faithful performance of the terms of the lease and the payment of the rent when due. If the department at any time deems any bond insufficient, it may require the lessee to file a new and sufficient bond within thirty days after receiving notice to do so.

Applications for leases of harbor areas upon tidal waters shall be accompanied by plans and drawings and other data
79.115.110 Construction or extension of docks, wharves, etc., in harbor areas—New lease. If the owner of any harbor area lease upon tidal waters desires to construct any wharf, dock, or other convenience of navigation or commerce, or to extend, enlarge, or substantially improve any existing structure used in connection with the harbor area, and deems the required expenditure not warranted by the lessee’s right to occupy the harbor area during the remainder of the term of their lease, the lease owner may make application to the department for a new lease of the harbor area for a period not exceeding thirty years. Upon the filing of an application accompanied by proper plans, drawings, or other data, the department shall investigate the application and if the department determines that the proposed work or improvement is in the public interest and reasonably adequate for the public needs, it shall by order fix the terms and conditions and the rate of rental for a new lease, the rate of rental shall be a fixed percentage, during the term of the lease, on the true and fair value in money of the harbor area determined by the department. The department may propose modifications of the proposed wharf, dock, or other convenience or extensions, enlargements, or improvements. The department shall, within ninety days from the filing of an application notify the applicant in writing of the terms and conditions upon which a new lease will be granted, and of the rental to be paid, which rate shall be a fixed percentage during the term of the lease on the true and fair value in money of the harbor area as determined by the department. [2005 c 155 § 307; 2000 c 11 § 28; 1982 1st ex.s. c 21 § 76. Formerly RCW 79.92.080.]

79.115.120 Re-leases of harbor areas. Upon completion of the valuation of any tract of harbor area applied for under RCW 79.115.120, the department shall notify the applicant of the terms and conditions upon which the re-lease will be granted and of the rental fixed. The applicant or the applicant’s successor in interest shall have the option for the period of sixty days from the date of the service of notice in which to accept a lease on the terms and conditions and at the rental so fixed and determined by the department. If the terms and conditions and rental are accepted a new lease shall be granted for the term applied for. If the terms and conditions are not accepted by the applicant within the period of time, or within such further time, not exceeding three months, as the department shall grant, the lease shall be deemed rejected by the applicant, and the department shall give eight weeks’ notice by publication once a week in one or more newspapers of general circulation in the county in which the harbor area is located, that a lease of the harbor area will be sold on the terms and conditions and at the rental, at a time and place specified in the notice (which shall not be more than three months from the date of the first publication of the notice) to the person offering at the public sale to pay the highest sum as a cash bonus at the time of sale of the lease. Notice of the sale shall be served upon the applicant at least six weeks prior to the date of sale. The person paying the highest sum as a cash bonus shall be entitled to lease the harbor area. However, if the lease is not sold at the public sale the department may at any time or times again fix the terms, conditions, and rental, and again advertise the lease for sale as provided in this section and upon similar notice. Further, upon failure to secure any sale of the lease as prescribed in this section, the department may issue revocable leases without requirement of improvements for one year periods at a minimum rate of two percent. [2005 c 155 § 308; 1985 c 469 § 61; 1982 1st ex.s. c 21 § 77. Formerly RCW 79.92.090.]

79.115.130 Procedure to re-lease harbor areas. Upon the expiration of any harbor area lease upon tidal waters, the lessee may apply for a re-lease of the harbor area for a period not exceeding thirty years. The application shall be accompanied with maps showing the existing improvements upon the harbor area and the adjacent tidelands and with proper plans, drawings, and other data showing any proposed extensions or improvements of existing structures. Upon the filing of an application the department shall investigate the application and if it determines that the character of the wharves, docks, or other conveniences of commerce and navigation are reasonably adequate for the public needs and in the public interest, it shall by order fix and determine the terms and conditions upon which the re-lease shall be granted and the rate of rental to be paid, which rate shall be a fixed percentage during the term of the lease on the true and fair value in money of the harbor area as determined by the department. [2005 c 155 § 307; 1982 1st ex.s. c 21 § 76. Formerly RCW 79.92.080.]

79.115.140 Regulation of wharfage, dockage, and other tolls. The state of Washington retains and reserves the right to regulate the rates of wharfage, dockage, and other tolls to be imposed by the lessee or the lessee’s assigns upon commerce for any of the purposes for which the leased area may be used and the right to prevent extortion and discrimination in such use. 79.120.010 First-class tidelands and shorelands to be platted—Public waterways and streets. It is the duty of the department simultaneously with the establishment of harbor lines and the determination of harbor areas in front of any city or town, or as soon as practicable, to survey and plat all first-class tidelands and shorelands not previously platted, and in platting the tidelands and shorelands to lay out streets which shall be dedicated to public use, subject to the control of the cities or towns in which they are situated.

The department shall also establish one or more public waterways not less than fifty nor more than one thousand feet wide, beginning at the outer harbor line and extending inland across the tidelands belonging to the state. These waterways shall include within their boundaries, as nearly as practicable, all navigable streams running through the tidelands, and shall be located at other places as in the judgment of the department may be necessary for the present and future convenience of commerce and navigation. and subject to the jurisdiction of the proper authorities, as otherwise provided by law. However, where tide gates or locks are considered by the contracting parties excavating any waterways to be necessary to the efficiency of the waterway, the department may, in its discretion, authorize tide gates or locks to be constructed and may authorize the parties constructing the waterway to operate them and collect a reasonable toll from vessels passing through the tide gates or locks. Further, the state of Washington or the United States of America can, at any time, appropriate the tide gates or locks. **79.120.060 Vacation of waterways—Extension of streets.** If a waterway established under the laws of this state, or any portion of the waterway, has not been excavated, or is not used for navigation, or is not required in the public interest to exist as a waterway, the waterway or a portion of the waterway may be vacated by written order of the commissioner upon request by ordinance or resolution of the city council of the city in which such waterway is located or by resolution of the port commission of the port district in which the waterway is located. If the waterway or a portion of the waterway which is vacated is navigable water of the United States, or otherwise within the jurisdiction of the United States, a copy of the resolution or ordinance, together with a copy of the vacation order of the commissioner shall be submitted to the United States army corps of engineers for their approval, and if they approve, the waterway or a portion of the waterway is vacated. However, if a port district owns property abutting the waterway and the provisions of this section are otherwise satisfied, the waterway, or the portion of the waterway that abuts the port district property, shall be vacated.

Upon vacation of a waterway, the commissioner shall notify the city in which the waterway is located, and the city has the right, if otherwise permitted by RCW 79.125.200, to extend across the portions so vacated any existing streets, or to select portions of the waterway as the city may desire for street purposes, in no case to exceed one hundred fifty feet in width for any one street. The selection shall be made within sixty days subsequent to the receipt of notice of the vacation of the portion of the waterway.

If the city fails to make a selection within the time, or selects only a portion of the waterway, the title of the remaining portions of the vacated waterway shall vest in the state, unless the waterway is located within the territorial limits of a port district, in which event, if otherwise permitted by RCW 79.125.200, the title shall vest in the port district. However, no new contract or lease shall issue while there is due and unpaid any rental, taxes, or assessments on the land held under the contract or lease, nor in any case where the department is of the opinion that the state's security would be impaired or endangered by the proposed division. For all new contracts or leases a fee as determined by the board for each new contract or lease issued, shall be paid by the applicant and the fee shall be paid into the state treasury to the resource management cost account in the general fund, pursuant to RCW 79.64.020. 79.125.290 First-class tidelands and shorelands—Sale of remaining lands. Any first-class tidelands or shorelands remaining unsold, and where there is no pending application for purchase under claim of any preference right, when otherwise permitted under RCW 79.125.200 to be sold, shall be sold on the same terms and in the same manner as provided for the sale of state lands for not less than the appraised value fixed at the time of the application to purchase, and the department whenever it deems it advisable and for the best interest of the state may reappraise the lands in the same manner as provided for the appraisal of state lands. 79.125.300 Tidelands or shorelands—Failure to re-lease tidelands or shorelands—Appraisal of improvements. (1) In case any lessee of tidelands or shorelands, for any purpose except mining of valuable minerals or coal, or extraction of petroleum or gas, or the lessee’s successor in interest, after the expiration of any lease, fail to purchase, when otherwise permitted under RCW 79.125.200 to be purchased, or re-lease from the state the tidelands or shorelands formerly covered by the lease, when the lands are offered for sale or re-lease, then and in that event the department shall appraise and determine the value of all improvements existing upon the tidelands or shorelands at the expiration of the lease which are not capable of removal without damage to the land, including the cost of filling and raising the property above high tide, or high water, whether filled or raised by the lessee or the lessee’s successors in interest, or by virtue of any contract made with the state, and also including the then value to the land of all existing local improvements paid for by the lessee or the lessee’s successors in interest. In case the lessee or the lessee’s successor in interest is dissatisfied with the appraised value of the improvements as determined by the department, the lessee shall have the right of appeal to the superior court of the county where the tidelands or shorelands are situated, within the time and according to the method prescribed in RCW 79.105.160 for taking appeals from decisions of the department.

(2) In case the tidelands or shorelands are leased, or sold, to any person other than such lessee or the lessee’s successor in interest, within three years from the expiration of the former lease, the bid of the subsequent lessee or purchaser shall not be accepted until payment is made by the subsequent lessee or purchaser of the appraised value of the improvements as determined by the department, or as may be determined on appeal, to the former lessee or the former lessee’s successor in interest.

(3) In case the tidelands or shorelands are not leased, or sold, within three years after the expiration of the former lease, then in that event, the improvements existing on the lands at the time of any subsequent lease, shall belong to the state and be considered a part of the land, and shall be taken into consideration in appraising the value, or rental value, of the land and sold or leased with the land. Any sale or lease of state-owned tidelands or shorelands, otherwise permitted under RCW 79.125.200 to be sold, made by mistake, or not in accordance with law, or obtained by fraud or misrepresentation, shall be void, and the contract of purchase or lease, issued shall be of no effect, and the holder of the contract or lease, shall be required to surrender the contract or lease to the department, which, except in the case of fraud on the part of the purchaser, or lessee, shall cause the money paid on account of the surrendered contract or lease to be refunded to the holder, provided the money has not been paid into the state treasury. SALE OR LEASING PREFERENCE

79.125.400 First-class tidelands and shorelands—Lease—Preference right of upland owner—How exercised. (1) Upon platting and appraisal of first-class tidelands or shorelands as provided in this chapter, if the department deems it for the best public interest to offer the first-class tidelands or shorelands for lease, the department shall notify the owner of record of uplands fronting upon the tidelands or shorelands to be offered for lease if the upland owner is a resident of the state, or the upland owner is a nonresident of the state, shall mail to the upland owner’s last known post office address, as reflected in the county records, a copy of the notice notifying the owner that the state is offering the tidelands or shorelands for lease, giving a description of those lands and the department’s appraised fair market value of the tidelands or shorelands for lease, and notifying the owner that the upland owner has a preference right to apply to lease the tidelands or shorelands at the appraised value for the lease for a period of sixty days from the date of service of mailing of the notice.

(2) If at the expiration of sixty days from the service or mailing of the notice, as provided in subsection (1) of this section, there being no conflicting applications filed, and the owner of the uplands fronting upon the tidelands or shorelands offered for lease, has failed to avail themselves of their preference right to apply to lease or to pay to the department the appraised value for lease of the tidelands or shorelands described in the notice, the tidelands or shorelands may be
offered for lease to any person and may be leased in the manner provided for in the case of lease of state lands.

(3) If at the expiration of sixty days two or more claimants asserting a preference right to lease have filed applications to lease any tract, conflicting with each other, the conflict between the claimants shall be equitably resolved by the department as the best interests of the state require in accord with the procedures prescribed by chapter 34.05 RCW. However, any contract purchaser of lands or rights therein, which upland qualifies the owner for a preference right under this section, shall have first priority for the preference right.

[2005 c 155 § 506; 2000 c 11 § 29; 1982 1st ex.s. c 21 § 92. Formerly RCW 79.94.070.]

**79.125.410 First-class unplatted tidelands and shorelands—Lease preference right to upland owners—Lease for booming purposes.** (1) The department is authorized to lease to the abutting upland owner any unplatted first-class tidelands or shorelands.

(2) The department shall, prior to the issuance of any lease under the provisions of this section, fix the annual rental for the tidelands or shorelands and prescribe the terms and conditions of the lease. No lease issued under the provisions of this section shall be for a longer term than ten years, and every lease shall be subject to termination upon ninety days’ notice to the lessee in the event that the department shall decide that it is in the best interest of the state that the tidelands or shorelands be surveyed and platted. At the expiration of any lease issued under the provisions of this section, the lessee or the lessee’s successors or assigns shall have a preference right to re-lease the lands covered by the original lease or any portion of the lease, if the department deems it to be in the best interests of the state to re-lease the lands, for succeeding periods not exceeding five years each at the rental and upon the terms and conditions as may be prescribed by the department.

(3) In case the abutting uplands are not improved and occupied for residential purposes and the abutting upland owner has not filed an application for the lease of the lands, the department may lease the lands to any person for booming purposes under the terms and conditions of this section. However, failure to use for booming purposes any lands leased under this section for such purposes for a period of one year shall work a forfeiture of the lease and the land shall revert to the state without any notice to the lessee upon the entry of a declaration of forfeiture in the records of the department. [2005 c 155 § 527; 1982 1st ex.s. c 21 § 113. Formerly RCW 79.94.280.]

**79.125.420 Tidelands and shorelands—Vacation by replat—Preference right of tideland or shoreland owner.** If any platted street, alley, waterway, or other public place is vacated by a replat as provided for in RCW 79.125.080 and 79.125.090, or any new street, alley, waterway, or other public place is so laid out as to leave unsold tidelands or shorelands between a new street, alley, waterway, or other public place, and tidelands or shorelands previously sold, the owner of the adjacent tidelands or shorelands shall have the preference right for sixty days after the final approval of the plat to purchase the unsold tidelands or shorelands so intervening at the appraised value, if otherwise permitted under RCW 79.125.200 to be sold. [2005 c 155 § 511; 1982 1st ex.s. c 21 § 97. Formerly RCW 79.94.120.]

**79.125.430 Tidelands or shorelands—Preference rights, time limit on exercise.** All preference rights to purchase tidelands or shorelands, when otherwise permitted by RCW 79.125.200 to be purchased, awarded by the department, or by the superior court in case of appeal from the award of the department, shall be exercised by the parties to whom the award is made within thirty days from the date of the service of notice of the award by registered mail, by the payment to the department of the sums required by law to be paid for a contract, or deed, as in the case of the sale of state lands, other than capitol building lands, and upon failure to make the payment the preference rights shall expire. [2005 c 155 § 529; 1982 1st ex.s. c 21 § 115. Formerly RCW 79.94.300.]

**79.125.440 Tidelands or shorelands—Accretions—Lease.** Any accretions that may be added to any tract or tracts of tidelands or shorelands previously sold, or that may be sold, by the state, shall belong to the state and shall not be sold, or offered for sale, unless otherwise permitted by this chapter to be sold, and unless the accretions are surveyed under the direction of the department. However, the owner of the adjacent tidelands or shorelands shall have the preference right to purchase the lands produced by accretion, when otherwise permitted by RCW 79.125.200 to be sold, for thirty days after the owner of the adjacent tidelands or shorelands shall have been notified by registered mail of the owner’s preference right to purchase the accreted lands. [2005 c 155 § 530; 1982 1st ex.s. c 21 § 116. Formerly RCW 79.94.310.]

**79.125.450 Second-class shorelands on navigable lakes—Sale.** (1) The legislature finds that maintaining public lands in public ownership is often in the public interest. However, when second-class shorelands on navigable lakes have minimal public value, the sale of those shorelands to the abutting upland owner may not be contrary to the public interest. However, the purpose of this section is to remove the prohibition contained in RCW 79.125.200 regarding the sale of second-class shorelands to abutting owners, whose uplands front on the shorelands. Nothing contained in this section shall be construed to otherwise affect the rights of interested parties relating to public or private ownership of shorelands within the state.

(2) Notwithstanding the provisions of RCW 79.125.200, the department may sell second-class shorelands on navigable lakes to abutting owners whose uplands front upon the shorelands in cases where the board has determined that these sales would not be contrary to the public interest. These shorelands shall be sold at fair market value, but not less than five percent of the fair market value of the abutting upland, less improvements, to a maximum distance of one hundred and fifty feet landward from the line of ordinary high water.

(3) Review of the decision of the department regarding the sale price established for a shoreland to be sold pursuant to this section may be obtained by the upland owner by filing a petition with the board of tax appeals created in accordance
with chapter 82.03 RCW within thirty days after the mailing of notification by the department to the owner regarding the price. The board of tax appeals shall review the cases in an adjudicative proceeding as described in chapter 34.05 RCW, the administrative procedure act, and the board’s review shall be de novo. Decisions of the board of tax appeals regarding fair market values determined pursuant to this section shall be final unless appealed to the superior court pursuant to RCW 34.05.510 through 34.05.598. [2005 c 155 § 520. Prior: 1989 c 378 § 3; 1989 c 175 § 171; 1982 1st ex.s. c 21 § 106. Formerly RCW 79.94.210.]

### 79.125.460 Second-class shorelands—Sale or lease when in best public interest—Preference right of upland owner—Procedure upon determining sale or lease not in best public interest or where transfer made for public use—Platting. (1) If application is made to purchase or lease any second-class shorelands and the department deems it to be in the best public interest to offer second-class shorelands for sale or lease, the department shall cause a notice to be served upon the abutting upland owner if the owner is a resident of the state, or if the upland owner is a nonresident of the state, shall mail to the owner’s last known post office address, as reflected in the county records a copy of a notice notifying the owner that the state is offering the shorelands for sale or lease, giving a description of the department’s appraised fair market value of the shorelands for sale or lease, and notifying the upland owner that he or she has a preference right to purchase, if the purchase is otherwise permitted under RCW 79.125.200, or lease the shorelands at the appraised value for a period of thirty days from the date of the service or mailing of the notice. If at the expiration of the thirty days from the service or mailing of the notice, as provided in this section, the abutting upland owner has failed to exercise the preference right to purchase, as otherwise permitted under RCW 79.125.200, or lease, or to pay to the department the appraised value for sale or lease of the shorelands described in the notice, then in that event, except as otherwise provided in this section, the shorelands may be offered for sale, when otherwise permitted under RCW 79.125.200, or offered for lease, and sold or leased in the manner provided for the sale or lease of state lands, as otherwise permitted under this chapter.

(2) The department shall authorize the sale or lease, whether to abutting upland owners or others, only if the sale or lease would be in the best public interest and is otherwise permitted under RCW 79.125.200. It is the intent of the legislature that whenever it is in the best public interest, the second-class shorelands managed by the department shall not be sold but shall be maintained in public ownership for the use and benefit of the people of the state.

(3) In all cases where application is made for the lease of any second-class shorelands adjacent to upland, under the provisions of this section, the shorelands shall be leased per lineal chain frontage.

(4) If, following an application by the abutting upland owner to either purchase as otherwise permitted under RCW 79.125.200 or to obtain an exclusive lease at appraised full market value or rental, the department deems that the sale or lease is not in the best public interest, or if property rights in state-owned second-class shorelands are at any time withdrawn, sold, or assigned in any manner authorized by law to a public agency for a use by the general public, the department shall within one hundred and eighty days from receipt of the application to purchase or lease, or on reaching a decision to withdraw, sell, or assign such shorelands to a public agency, and: (a) Make a formal finding that the body of water adjacent to the shorelands is navigable; (b) find that the state or the public has an overriding interest inconsistent with a sale or exclusive lease to a private person, and specifically identify the interest and the factor or factors amounting to the inconsistency; and (c) provide for the review of the decision in accordance with the procedures prescribed by chapter 34.05 RCW.

(5) Notwithstanding subsections (1) through (4) of this section, the department may cause any of the shorelands to be platted as is provided for the plating of first-class shorelands, and when so platted the lands shall be sold, when otherwise permitted under RCW 79.125.200 to be sold, or leased in the manner provided for the sale or lease of first-class shorelands. [2005 c 155 § 525; 1982 1st ex.s. c 21 § 111. Formerly RCW 79.94.260.]

79.125.780 Tidelands and shorelands—Use of lands granted to United States—Easements over tidelands or shorelands to United States. Whenever application is made to the department, by any department of the United States government, for the use of any state-owned tidelands or shorelands, for any public purpose, and the department shall be satisfied that the United States requires or may require the use of the tidelands or shorelands for the public purposes, the department may reserve the tidelands or shorelands from public sale and grant the use of them to the United States, upon payment for the land, so long as it may require the use of them for the public purposes. In such a case, the department shall execute an easement to the United States, which grants the use of the tidelands or shorelands to the United States, so long as it shall require the use of them for the public purpose. [2005 c 155 § 537; 1982 1st ex.s. c 21 § 128. Formerly RCW 79.94.430.]

79.125.790 Tidelands and shorelands—Use of lands granted to United States—Reversion on cessation of use. Whenever the United States shall cease to hold and use any uplands for the use and purposes mentioned in RCW 79.125.760, or shall cease to use any tidelands or shorelands for the purpose mentioned in RCW 79.125.780, the grant or easement of the tidelands or shorelands shall be terminated, and the tidelands or shorelands shall revert to the state without resort to any court or tribunal. [2005 c 155 § 538; 1982 1st ex.s. c 21 § 129. Formerly RCW 79.94.440.]

79.125.800 United States Navy base—Exchange of property—Procedure. The department is authorized to deed, by exchanges of property, to the United States Navy those tidelands necessary to facilitate the location of the United States Navy base in Everett. In carrying out this authority, the department shall request that the governor execute the deed in the name of the state attested to by the secretary of state. The department will follow the requirements outlined in RCW 79.17.050 in making the exchange. The department must exchange the state’s tidelands for lands of equal value, and the land received in the exchange must be suitable for natural preserves, recreational purposes, or have commercial value. The lands must not have been previously used as a waste disposal site. Choice of the site must be made with the advice and approval of the board. [2003 c 334 § 615; 1987 c 271 § 4. 79.130.020 Lease of beds of navigable waters—Terms and conditions of lease—Forfeiture for nonuser. (1) The department shall, prior to the issuance of any lease under the provisions of this chapter, fix the annual rental and prescribe the terms and conditions of the lease. However, in fixing the rental, the department shall not take into account the value of any improvements placed upon the lands by the lessee.

(2) No lease issued under the provisions of this chapter shall be for a term longer than thirty years from the date thereof if in front of second-class tidelands or shorelands; or a term longer than ten years if in front of unplatted first-class tidelands or shorelands leased under the provisions of RCW 79.125.410, in which case the lease shall be subject to the same terms and conditions as provided for in the lease of the unplatted first-class tidelands or shorelands. However, if the preference right is not exercised, the rights and obligations of the lessee, the department, and any subsequent lessee shall be the same as provided in RCW 79.125.300 relating to failure to re-lease tidelands or shorelands. Any person who prior to June 11, 1953, had occupied and improved an area subject to lease under this chapter and has secured a permit for the improvements from the United States army corps of engineers, or other federal regulatory agency, shall have the rights and obligations of a lessee under this section upon the filing of a copy of the permit together with plans and specifications of the improvements with the department. 79.130.050 United States Navy base—Legislative findings and declaration. The legislature recognizes the importance of economic development in the state of Washington, and finds that the location of a United States Navy base in Everett, Washington will enhance economic development. The legislature finds that the state should not assume liability or risks resulting from any action taken by the United States Navy, now or in the future associated with the dredge disposal program for that project known as confined aquatic disposal (CAD). The legislature also recognizes the importance of improving water quality and cleaning up pollution in Puget Sound. The legislature declares these actions to be a public purpose necessary to protect the health, safety, and welfare of its citizens, and to promote economic growth and improve environmental quality in the state of Washington. The United States Navy proposes to commence the Everett home port project immediately. [2005 c 155 § 605; 1987 c 271 § 1. Formerly RCW 79.95.050.]

79.130.060 Lease of bedlands in Port Gardner Bay for dredge spoil site—Conditions. (1) Upon application by the United States Navy, and upon verification of the legal description and compliance with the intent of this chapter, the commissioner is authorized to lease bedlands in Port Gardner Bay for a term of thirty years so the United States Navy can utilize a dredge spoil site solely for purposes related to construction of the United States Navy base at Everett.
(2) The lease shall reserve for the state uses of the property and associated waters which are not inconsistent with the use of the bed by the Navy as a disposal site. The lease shall include conditions under which the Navy:

(a) Will agree to hold the state of Washington harmless for any damage and liability relating to, or resulting from, the use of the property by the Navy; and
(b) Will agree to comply with all terms and conditions included in the applicable state of Washington section 401 water quality certification issued under the authority of the federal clean water act (33 U.S.C. Sec. 1251, et seq.), all terms and conditions of the army corps of engineers section 404 permit (33 U.S.C. Sec. 1344), and all requirements of statutes, regulations, and permits relating to water quality and aquatic life in Puget Sound and Port Gardner Bay, including all reasonable and appropriate terms and conditions of any permits issued under the authority of the Washington state shoreline management act (chapter 90.58 RCW) and any applicable shoreline master program.

(3) The ability of the state of Washington to enforce the terms and conditions specified in subsection (2)(b) of this section shall include, but not be limited to: (a) The terms and conditions of the lease; (b) the section 401 water quality certification under the clean water act, 33 U.S.C. Sec. 1251, et seq.; (c) the comprehensive environmental response, compensation, and liability act, 42 U.S.C. Sec. 9601, et seq.; (d) the resource conservation and recovery act, 42 U.S.C. Sec. 6901, et seq.; or (e) any other applicable federal or state law.

(4) Nothing in chapter 150, Laws of 2001 shall be deemed to convey to the department the power of eminent domain. [2005 c 155 § 606; 1987 c 271 § 3. Formerly RCW 79.95.060.]
79.135.001 Intent—2005 c 155. See RCW 79.105.001.

GENERAL PROVISIONS

79.135.010 Bush act/Callow act lands. (1) A person in possession of real property conveyed by the state of Washington pursuant to the authority of chapter 24, Laws of 1895 (Bush act) or chapter 25, Laws of 1895 (Callow act), wherein such lands are subject to a possibility of reversion, shall herefore have and are granted the further right to use all of the property for the purpose of cultivating and propagating clams and any shellfish.

(2) The rights granted under subsection (1) of this section do not include the right to use subtidal portions of Bush act and Callow act lands for the harvest and cultivation of any species of shellfish that had not commenced prior to December 31, 2001.

(3) For the purposes of this section, harvest and cultivation of any species of shellfish shall not be deemed to have commenced unless the subtidal portions of the land had been planted with that species of shellfish prior to December 31, 2001.

(4) No vested rights in shellfish cultivation may be impaired by any of the provisions of chapter 123, Laws of 2002, nor is anything other than what is stated in subsection (2) of this section intended to grant any further rights in the subtidal lands than what was originally included under the intent of the Bush and Callow acts. [2002 c 123 § 2. Formerly RCW 79.90.570.]

Findings—2002 c 123: "The legislature declares that shellfish farming provides a consistent source of quality food, offers opportunities of new jobs, increases farm income stability, and improves balance of trade. The legislature also finds that many areas of the state of Washington are scientifically and biologically suitable for shellfish farming, and therefore the legislature has encouraged and promoted shellfish farming activities, programs, and development with the same status as other agricultural activities, programs, and development within the state. It being the policy of this state to encourage the development and expansion of shellfish farming within the state and to promote the development of a diverse shellfish farming industry, the legislature finds that the uncertainty surrounding reversionary clauses contained in Bush act and Callow act deeds is interfering with this policy. The legislature finds that uncertainty of the grant of rights for the claim and other shellfish culture as contained in chapter 166, Laws of 1919 must be fully and finally resolved. It is not the intent of this act to impair any vested rights in shellfish cultivation or current shellfish aquaculture activities to which holders of Bush act and Callow act lands are entitled." [2002 c 123 § 1.]

79.135.020 Sale of reserved or reversionary rights in tidelands. Upon an application to purchase the reserved and reversionary rights of the state in any tidelands sold under the provisions of chapter 24, Laws of 1895, or chapter 25, Laws of 1895, or chapter 165, Laws of 1919, or either the reserved or reversionary right if only one exists, being filed in the department’s Olympia office by the owner of the tidelands, accompanied by an abstractor’s certificate, or other evidence of the applicant’s title to the lands, the department, if it finds the applicant is the owner of the tidelands, is authorized to inspect, appraise, and sell, if otherwise permitted under RCW 79.125.200, for not less than the appraised value, such reserved or reversionary rights of the state to the applicant, and upon payment of the purchase price to cause a deed to be issued as in the case of the sale of state lands, or upon the payment of one-fifth of the purchase price, to issue a contract of sale, providing that the remainder of the purchase price may be paid in four equal annual installments, with interest on deferred payments at the rate of six percent per annum, or sooner at the election of the contract holder, which contract shall be subject to cancellation by the department for failure to comply with its provisions, and upon the completion of the payments as provided in the contract to cause a deed to the lands described in the contract to be issued to the holder as in the case of the sale of state lands. [2005 c 155 § 713; 1982 1st ex.s. c 21 § 145. Formerly RCW 79.96.120.]

79.135.030 Wrongful taking of shellfish from public lands—Civil remedies. (1) If a person wrongfully takes shellfish or causes shellfish to be wrongfully taken from the public lands and the wrongful taking is intentional and knowing, the person is liable for damages of treble the fair market retail value of the amount of shellfish wrongfully taken. If a person wrongfully takes shellfish from the public lands under other circumstances, the person is liable for damages of double the fair market value of the amount of shellfish wrongfully taken.

(2) For purposes of this section, a person "wrongfully takes" shellfish from public lands if the person takes shellfish: (a) Above the limits of any applicable laws that govern the harvest of shellfish from public lands; (b) without reporting the harvest to the department of fish and wildlife or the department where the reporting is required by law or contract; (c) outside the area or above the limits that an agreement or contract from the department allows the harvest of shellfish from public lands; or (d) without a lease or purchase of the shellfish where the lease or purchase is required by law prior to harvest of the shellfish.

(3) The remedies in this section are for civil damages and shall be proved by a preponderance of the evidence. The department may file a civil action in Thurston county superior court or the county where the shellfish were taken against any person liable under this section. Damages recovered under this section shall be applied in the same way as received under geoduck harvesting agreements authorized by RCW 79.135.210.

(4) For purposes of the remedies created by this section, the amount of shellfish wrongfully taken by a person may be established either:
(a) By surveying the aquatic lands to reasonably establish the amount of shellfish taken from the immediate area where a person is shown to have been wrongfully taking shellfish;
(b) By weighing the shellfish on board any vessel or in possession of a person shown to be wrongfully taking shellfish; or
(c) By any other evidence that reasonably establishes the amount of shellfish wrongfully taken.
The amount of shellfish established by (a) or (b) of this subsection shall be presumed to be the amount wrongfully taken unless the defendant shows by a preponderance of evidence that the shellfish were lawfully taken or that the defendant did not take the shellfish presumed to have been wrongfully taken. Whenever there is reason to believe that shellfish in the possession of any person were wrongfully taken, the department or the department of fish and wildlife may require the person to proceed to a designated off-load point and to weigh all shellfish in possession of the person or on board the person’s vessel.

(5) This civil remedy is supplemental to the state’s power to prosecute any person for theft of shellfish, for other crimes where shellfish are involved, or for violation of rules of the department of fish and wildlife. [2005 c 155 § 714; 1994 c 264 § 73; 1990 c 163 § 9. Formerly RCW 79.96.130.]

79.135.040 Aquaculture products—Sale by lessee

Aquaculture products produced on leased state-owned aquatic land may be sold by the lessee as prescribed by the department without competitive bid or public auction and consistent with statutes governing aquaculture leases on state-owned aquatic land. [2005 c 113 § 1.]

Revisor’s note: This section was directed to be codified in chapter 79.96 RCW. However, chapter 79.96 RCW was recodified in its entirety by 2005 c 155.

LEASING FOR SHELLFISH
CULTIVATION/AQUACULTURE USE

79.135.100 Aquatic lands used for aquaculture production and harvesting—Rents and fees—Limitations on leases. (1) If state-owned aquatic lands are used for aquaculture production or harvesting, rents and fees shall be established through competitive bidding or negotiation.

(2) After an initial twenty-three acres are leased, the department is prohibited from offering leases that would permit the intertidal commercial aquaculture of geoducks on more than fifteen acres of state-owned aquatic lands a per year until December 1, 2014.

(3) Any intertidal leases entered into by the department for geoduck aquaculture must be conditioned in such a way that the department can engage in monitoring of the environmental impacts of the lease’s execution, without unreasonably diminishing the economic viability of the lease, and that the lease tracts are eligible to be made part of the studies conducted under RCW 28B.20.475.

(4) The department must notify all abutting landowners and any landowner within three hundred feet of the lands to be leased of the intent of the department to lease any intertidal lands for the purposes of geoduck aquaculture. [2007 c 216 § 3; 1984 c 221 § 10. Formerly RCW 79.90.495.]

79.135.110 Leasing beds of tidal waters for shellfish cultivation or other aquacultural use. (1) The beds of all navigable tidal waters in the state lying below extreme low tide, except as prohibited by Article XV, section 1 of the state Constitution shall be subject to lease for the purposes of planting and cultivating oyster beds, or for the purpose of cultivating clams and other edible shellfish, or for other aquaculture use, for periods not to exceed thirty years.

(2) Nothing in this section shall prevent any person from leasing more than one parcel, as offered by the department. [2005 c 155 § 701; 1993 c 295 § 1; 1982 1st ex.s. c 21 § 134. Formerly RCW 79.96.010.]

79.135.120 Leasing lands for shellfish cultivation or other aquacultural use—Who may lease—Application—Deposit. Any person desiring to lease tidelands or beds of navigable waters for the purpose of planting and cultivating oyster beds, or for the purpose of cultivating clams and other edible shellfish, shall file with the department, on a proper form, an application in writing signed by the applicant and accompanied by a map of the lands desired to be leased, describing the lands by metes and bounds tied to at least two United States government corners, and by the reference to local geography as shall suffice to convey a knowledge of the location of the lands with reasonable accuracy to persons acquainted with the vicinity, and accompanied by a deposit of ten dollars. The deposit shall be returned to the applicant in case a lease is not granted. [2005 c 155 § 702; 1982 1st ex.s. c 21 § 135. Formerly RCW 79.96.020.]

79.135.130 Leasing lands for shellfish cultivation or other aquacultural use—Inspection and report by director of fish and wildlife—Rental and term—Commercial harvest of subtidal hardshell clams by hydraulic escalating. (1) The department, upon the receipt of an application for a lease for the purpose of planting and cultivating oyster beds or for the purpose of cultivating clams or other edible shellfish, shall notify the director of fish and wildlife of the filing of the application describing the tidelands or beds of navigable waters applied for. The director of fish and wildlife shall cause an inspection of the lands applied for to be made and shall make a full report to the department of the director’s findings as to whether it is necessary, in order to protect existing natural oyster beds, and to secure adequate seeding of the lands, to retain the lands described in the application for lease or any part of the lands, and in the event the director deems it advisable to retain the lands or any part of the lands for the protection of existing natural oyster beds or to guarantee the continuance of an adequate seed stock for existing natural oyster beds, the lands shall not be subject to lease. However, if the director determines that the lands applied for or any part of the lands may be leased, the director shall so notify the department and the director shall cause an examination of the lands to be made to determine the presence, if any, of natural oysters, clams, or other edible shellfish on the lands, and to fix the rental value of the lands for use for oyster, clam, or other edible shellfish cultivation. In the report to the department, the director shall recommend a minimum rental for the lands and an estimation of the value of the oysters, clams, or other edible shellfish, if any, then present on the lands applied for. The lands approved by the director for lease may then be leased to the applicant for a period of not less than five years nor more than ten years at a rental not less than the minimum rental recommended by the director of fish and wildlife. In addition, before entering upon possession of the land, the applicant shall pay the value of the oysters, clams, or other edible shellfish, if any, then present on the land as determined by the director, plus the expense incurred by the director in

(2010 Ed.)
investigating the quantity of oysters, clams, or other edible shellfish, present on the land applied for.

(2) When issuing new leases or reissuing existing leases the department shall not permit the commercial harvest of subtidal hardshell clams by means of hydraulic escalating when the upland within five hundred feet of any lease tract is zoned for residential development. [2005 c 155 § 703; 1994 c 264 § 68; 1987 c 374 § 1; 1982 1st ex.s. c 21 § 136. Formerly RCW 79.96.030.]

79.135.140 Leasing lands for shellfish cultivation or other aquaculture use—Survey and boundary markers. Before entering into possession of any leased tidelands or beds of navigable waters, the applicant shall have the lands surveyed by a registered land surveyor, and the applicant shall furnish to the department and to the director of fish and wildlife, a map of the leased premises signed and certified by the registered land surveyor. The lessee shall also mark the boundaries of the leased premises by piling monuments or other markers of a permanent nature as the director of fish and wildlife may direct. [2005 c 155 § 704; 1994 c 264 § 69; 1982 1st ex.s. c 21 § 137. Formerly RCW 79.96.040.]

79.135.150 Renewal lease—Application. The department may, upon the filing of an application for a renewal lease, inspect the tidelands or beds of navigable waters, and if the department deems it in the best interests of the state to reissue the lands, the department shall issue to the applicant a renewal lease for a further period not exceeding thirty years and under the terms and conditions as may be determined by the department. However, in the case of an application for a renewal lease it shall not be necessary for the lands to be inspected and reported upon by the director of fish and wildlife. [2005 c 155 § 705; 1994 c 264 § 70; 1993 c 295 § 2; 1982 1st ex.s. c 21 § 138. Formerly RCW 79.96.050.]

79.135.160 Leasing lands for shellfish cultivation or other aquaculture use—Reversion for use other than cultivation of shellfish. All leases of tidelands and beds of navigable waters for the purpose of planting and cultivating oysters, clams, or other edible shellfish shall expressly provide that if at any time after the granting of the lease, the described lands shall cease to be used for the purpose of oyster beds, clam beds, or other edible shellfish beds, they shall revert to and become the property of the state and that the lands are leased only for the purpose of cultivating oysters, clams, or other edible shellfish thereon, and that the state reserves the right to enter upon and take possession of the lands if at any time the lands are used for any other purpose than the cultivation of oysters, clams, or other edible shellfish. [2005 c 155 § 706; 1982 1st ex.s. c 21 § 139. Formerly RCW 79.96.060.]

79.135.170 Leasing lands for shellfish cultivation or other aquaculture use—Abandonment—Application for other lands. If from any cause any lands leased for the purpose of planting and cultivating oysters, clams, or other edible shellfish become unfit and valueless for any such purposes, the lessee or the lessee’s assigns, upon certifying the fact under oath to the department, together with the fact that the lessee has abandoned the land, shall be entitled to make application for other lands for such purposes. [2005 c 155 § 707; 1982 1st ex.s. c 21 § 140. Formerly RCW 79.96.070.]

GEODUCK HARVEST/CULTIVATION

79.135.200 Geoduck harvest/cultivation—Survey of navigable waters by private party—Record of survey. Beds of navigable waters held under contract or deed from the state of Washington upon which a private party is harvesting or cultivating geoduck shall be surveyed by the private party and a record of survey filed in compliance with chapter 58.09 RCW prior to harvest. Property corners will be placed in sufficient quantity and location to aid in relocation of the oyster tract lines occurring or extending below extreme low tide. Buoys on anchors must be placed intervisibly along and at angle points on any ownership boundaries that extend below extreme low tide, for the harvest term. The survey of privately owned beds of navigable waters will be established on the Washington coordinate system in compliance with chapter 58.20 RCW and property corners labeled with their coordinates on the record of survey. [2002 c 123 § 3. Formerly RCW 79.96.140.]

Findings—2002 c 123: See note following RCW 79.135.010.

79.135.210 Geoduck harvesting—Agreements, regulations. (1) Except as provided in RCW 79.135.040, geoducks shall be sold as valuable materials under the provisions of *chapter 79.90 RCW. After confirmation of the sale, the department may enter into an agreement with the purchaser for the harvesting of geoducks. The department may place terms and conditions in the harvesting agreements as the department deems necessary. The department may enforce the provisions of any harvesting agreement by suspending or canceling the harvesting agreement or through any other means contained in the harvesting agreement. Any geoduck harvester may terminate a harvesting agreement entered into pursuant to this subsection if actions of a governmental agency, beyond the control of the harvester, its agents, or its employees, prohibit harvesting, for a period exceeding thirty days during the term of the harvesting agreement, except as provided within the agreement. Upon termination of the agreement by the harvester, the harvester shall be reimbursed by the department for the cost paid to the department on the agreement, less the value of the harvest already accomplished by the harvester under the agreement.

(2) Harvesting agreements under this title for the purpose of harvesting geoducks shall require the harvester and the harvester’s agent or representatives to comply with all applicable commercial diving safety standards and regulations promulgated and implemented by the federal occupational safety and health administration established under the federal occupational safety and health act of 1970 as the law exists or as amended (84 Stat. 1590 et seq.; 29 U.S.C. Sec. 651 et seq.). However, for the purposes of this section and RCW 77.60.070, all persons who dive for geoducks are deemed to be employees as defined by the federal occupational safety and health act. All harvesting agreements shall provide that failure to comply with these standards is cause for suspension or cancellation of the harvesting agreement. Further, for the purposes of this subsection if the harvester contracts with
another person or entity for the harvesting of geoducks, the harvesting agreement shall not be suspended or canceled if the harvester terminates its business relationship with such an entity until compliance with this subsection is secured. OYSTER RESERVES

79.135.300 Lease of tidelands set aside as oyster reserves. The department is authorized to lease first or second-class tidelands which have been or that are set aside as state oyster reserves in the same manner as provided elsewhere in this chapter for the lease of those lands. 79.135.310 Inspection by director of fish and wildlife. The department, upon the receipt of an application for the lease of any first or second-class state-owned tidelands that are set aside as state oyster reserves, shall notify the director of fish and wildlife of the filing of the application describing the lands applied for. It is the duty of the director of fish and wildlife to inspect the reserve for the purpose of determining whether the reserve or any part of the reserve should be retained as a state oyster reserve or vacated. [2005 c 155 § 711; 1994 c 264 § 71; 1982 1st ex.s. c 21 § 143. Formerly RCW 79.96.100.]

MARINE AQUATIC PLANTS

79.135.400 Seaweed—Marine aquatic plants defined. Unless the context clearly requires otherwise, the definition in this section applies throughout this chapter.

"Marine aquatic plants" means saltwater marine plant species that are dependent upon the marine aquatic or tidal environment, and exist in either an attached or free-floating state. Marine aquatic plants include but are not limited to seaweed of the classes Chlorophyta, Phaeophyta, and Rhodophyta. [1993 c 283 § 2. Formerly RCW 79.96.200, 79.01.800.]

Findings—1993 c 283: "The legislature finds that the plant resources of marine aquatic ecosystems have inherent value and provide essential habitat. These resources are also becoming increasingly valuable as economic commodities and may be declining. The legislature further finds that the regulation of harvest of these resources is currently inadequate to afford necessary protection." [1993 c 283 § 1.]

79.135.410 Seaweed—Personal use limit—Commercial harvesting prohibited—Exception—Import restriction. (1) The maximum daily wet weight harvest or possession of seaweed for personal use from all state-owned aquatic lands and all privately owned tidelands is ten pounds per person. The department in cooperation with the department of fish and wildlife may establish seaweed harvest limits of less than ten pounds for conservation purposes. This section shall in no way affect the ability of any state agency to prevent harvest of any species of marine aquatic plant from lands under its control, ownership, or management.

(2) Except as provided under subsection (3) of this section, commercial harvesting of seaweed from state-owned aquatic lands, and all privately owned tidelands is prohibited. This subsection shall in no way affect commercial seaweed aquaculture.

(3) Upon mutual approval by the department and the department of fish and wildlife, seaweed species of the genus Macrocystis may be commercially harvested for use in the herring spawn-on-kelp fishery.

(4) Importation of seaweed species of the genus Macrocystis into Washington state for the herring spawn-on-kelp fishery is subject to the fish and shellfish disease control policies of the department of fish and wildlife. Macrocystis shall not be imported from areas with fish or shellfish diseases associated with organisms that are likely to be transported with Macrocystis. The department shall incorporate this policy on Macrocystis importation into its overall fish and shellfish disease control policies. SALE PROCEDURE

79.140.010 Manner of sale—Notice. (1) When the

the department to fix the date, place, and time of sale, and no
sale shall be had on any day that is a legal holiday.
(2) The department shall give notice of the sale by adver-

immediately preceding the date fixed for sale in the notice, in

[Title 79 RCW—page 122]
at least one newspaper published and of general circulation in the county in which the whole or any part of any lot, block, or tract of land containing the valuable material to be sold is situated, and by causing a copy of the notice to be posted in a conspicuous place in the department’s Olympia office and the region headquarters administering the sale.

(3) The notice shall: (a) Specify the place and time of sale; (b) estimate the volume of valuable materials; (c) state the appraised value; (d) describe with particularity each parcel of land from which valuable materials are to be sold; and (e) specify that the terms of sale will be posted in the area headquarters and the department’s Olympia office. [2005 c 155 § 801. FORMERLY PART OF RCW 79.90.170.]

79.140.020 List of valuable materials. The department shall print a list of valuable materials contained within or upon state-owned aquatic lands, giving appraised value, character of the land, and such other information as may be of interest to prospective buyers. The lists must be issued at least four weeks prior to the date of any sale. The department shall retain for free distribution in its office in Olympia and the regional offices sufficient copies of the lists, to be kept in a conspicuous place or receptacle on the counter of the general and regional office of the department, and, when requested, shall mail copies of the list as issued to any applicant. [2005 c 155 § 802. FORMERLY PART OF RCW 79.90.180.]

79.140.030 Expenditures for advertising. The department is authorized to expend any sum in additional advertising of the sale as is determined to be in the best interests of the state. [2005 c 155 § 803. FORMERLY PART OF RCW 79.90.190.]

79.140.040 Reoffer of sale—Readvertised. Any sale that has been offered, and for which there are no bids received, shall not be reoffered until it has been readvertised as specified in RCW 79.140.010 through 79.140.030. If all sales cannot be offered within the specified time on the advertised date, the sale shall continue on the following day between the hours of ten o’clock a.m. and four o’clock p.m. [2005 c 155 § 804. FORMERLY PART OF RCW 79.90.200.]

79.140.050 Sale by public auction/sealed bid—Exception. All sales of valuable materials shall be at public auction or by sealed bid to the highest responsible bidder, on the terms prescribed by law and as specified in the notice provided, and no land or materials shall be sold for less than their appraised value. However:

(1) When valuable material has been appraised at an amount not exceeding one hundred thousand dollars, the department, when authorized by the board, may arrange for the sale at public auction of said valuable material and for its removal under such terms and conditions as the department may prescribe, after the department shall have caused to be published not less than ten days prior to sale a notice of such sale in a newspaper of general circulation located nearest to the property to be sold;

(2) Any sale of valuable material on state-owned aquatic lands of an appraised value of ten thousand dollars or less may be sold directly to the applicant for cash without notice or advertising. [2005 c 155 § 805. FORMERLY PART OF RCW 79.90.210.]

Sales of aquaculture products by a leaseholder: RCW 79.135.040.

79.140.060 Determination of highest responsible bidder. (1) To determine the "highest responsible bidder" under RCW 79.140.050, the department shall be entitled to consider, in addition to price, the following:

(a) The financial and technical ability of the bidder to perform the contract;

(b) Whether the bid contains material defects;

(c) Whether the bidder has previously or is currently complying with terms and conditions of any other contracts with the state or relevant contracts with entities other than the state;

(d) Whether the bidder was the "highest responsible bidder" for a sale within the previous five years but failed to complete the sale, such as by not entering into a resulting contract or by not paying the difference between the deposit and the total amount due. However, sales that were bid prior to January 1, 2003, may not be considered for the purposes of this subsection (1)(d);

(e) Whether the bidder has been convicted of a crime relating to the public lands or natural resources of the state of Washington, the United States, or any other state, tribe, or country, where "conviction" includes a guilty plea, or unvacated forfeiture of bail;

(f) Whether the bidder is owned, controlled, or managed by any person, partnership, or corporation that is not responsible under this statute; and

(g) Whether the subcontractors of the bidder, if any, are responsible under this statute.

(2) Whenever the department has reason to believe that the apparent high bidder is not a responsible bidder, the department may award the sale to the next responsible bidder or the department may reject all bids pursuant to RCW 79.140.080. [2005 c 155 § 806. FORMERLY PART OF RCW 79.90.215.]

79.140.070 Sales by public auction—Procedure. (1) Sales by public auction under this chapter shall be conducted under the direction of the department, by its authorized representative. The department’s representatives are referred to as auctioneers.

(2) On or before the time specified in the notice of sale each bidder shall deposit with the auctioneer, in cash or by certified check, cashier’s check, or postal money order payable to the order of the department, or by bid guarantee in the form of bid bond acceptable to the department, an amount equal to the deposit specified in the notice of sale. The deposit shall include a specified amount of the appraised price for the valuable materials offered for sale, together with any fee required by law for the issuance of contracts or bills of sale. The deposit may, when prescribed in the notice of sale, be considered an opening bid of an amount not less than the minimum appraised price established in the notice of sale. The successful bidder’s deposit will be retained by the auc-
tioneer and the difference, if any, between the deposit and the total amount due shall on the day of the sale be paid in cash, certified check, cashier’s check, draft, postal money order, or by personal check made payable to the department. If a bid bond is used, the share of the total deposit due guaranteed by the bid bond shall, within ten days of the day of sale, be paid in cash, certified check, cashier’s check, draft, or postal money order payable to the department. Other deposits, if any, shall be returned to the respective bidders at the conclusion of each sale.

(3) The auctioneer shall deliver to the purchaser a memorandum of purchase containing a description of the materials purchased, the price bid, and the terms of the sale.

(4) The auctioneer shall at once send to the department the cash, certified check, cashier’s check, draft, postal money order, or bid guarantee received from the purchaser, and a copy of the memorandum delivered to the purchaser, together with such additional report of the auctioneer’s proceedings with reference to the sales as may be required by the department. [2005 c 155 § 807. FORMERLY PART OF RCW 79.90.220.]

79.140.080 Confirmation of sale. (1) A sale of valuable materials shall be confirmed if:

(a) No affidavit showing that the interest of the state in such a sale was injuriously affected by fraud or collusion, is filed with the department’s Olympia office within ten days from the receipt of the report of the auctioneer conducting the sale;

(b) It appears from the report that the sale was fairly conducted, that the purchaser was the highest responsible bidder at the sale, and that the sale price is not less than the appraised value of the property sold;

(c) The department is satisfied that the material sold would not, upon being readvertised and offered for sale, sell for a substantially higher price; and

(d) The payment required by law to be made at the time of making the sale has been made, and that the best interests of the state are being served.

(2) Upon confirming a sale, the department shall enter upon its records the confirmation of sale and issue to the purchaser a contract of sale or bill of sale as the case may be, as is provided for in this chapter. [2005 c 155 § 808. FORMERLY PART OF RCW 79.90.240.]

SPECIAL PROVISIONS AND LEASES

79.140.100 Valuable materials from Columbia river—Agreements with Oregon. The department is authorized and empowered to confer with and enter into any agreements with the public authorities of the state of Oregon, which in the judgment of the department will assist the state of Washington and the state of Oregon in securing the maximum revenues for sand, gravel, or other valuable materials taken from the bed of the Columbia River where the river forms the boundary line between the states. [2005 c 155 § 109; 1991 c 322 § 24; 1982 1st ex.s. c 21 § 19. Formerly RCW 79.90.130.]

79.140.110 Material removed for channel or harbor improvement or flood control—Use for public purpose. When gravel, rock, sand, silt, or other material from any state-owned aquatic lands is removed by any public agency or under public contract for channel or harbor improvement, or flood control, use of the material may be authorized by the department for a public purpose on land owned or leased by the state or any municipality, county, or public corporation. However, when no public land site is available for deposit of the material, its deposit on private land with the landowner’s permission is authorized and may be designated by the department to be for a public purpose. Prior to removal and use, the state agency, municipality, county, or public corporation contemplating or arranging the use shall first obtain written permission from the department. No payment of royalty shall be required for the gravel, rock, sand, silt, or other material used for the public purpose, but a charge will be made if the material is subsequently sold or used for some other purpose. Further, the department may authorize the public agency or private landowner to dispose of the material without charge when necessary to implement disposal of material. No charge shall be required for any use of the material obtained under the provisions of this chapter when used solely on an authorized site. No charge shall be required for any use of the material obtained under the provisions of this chapter if the material is used for public purposes by local governments. Public purposes include, but are not limited to, construction and maintenance of roads, dikes, and levees. Nothing in this section shall repeal or modify the provisions of RCW 77.55.100 or eliminate the necessity of obtaining a permit for the removal from other state or federal agencies as otherwise required by law. [2005 c 155 § 110; 2003 c 39 § 41; 1991 c 337 § 1; 1982 1st ex.s. c 21 § 21. Formerly RCW 79.90.150.]

*Reviser’s note: RCW 77.55.100 was repealed by 2005 c 146 § 1006. For later enactment, see RCW 77.55.021.

79.140.130 Prior appraisal required. In no case shall any valuable materials situated within or upon any tidelands, shorelands, or beds of navigable waters belonging to the state, be offered for sale unless the same shall have been appraised by the department of natural resources within ninety days prior to the date fixed for the sale. [2005 c 155 § 809. FORMERLY PART OF RCW 79.90.110.]

79.140.140 Bill of sale for valuable material sold separately. When valuable materials are sold separate from state-owned aquatic lands and the purchase price is paid in full, the department shall cause a bill of sale, signed by the commissioner and attested by the seal of the commissioner’s office, setting forth the time within which the material shall be removed. The bill of sale shall be issued to the purchaser and shall be recorded in the department’s Olympia office, upon the payment of the fee provided for in this chapter. [2005 c 155 § 126; 1982 1st ex.s. c 21 § 35. Formerly RCW 79.90.290.]

79.140.150 Sale of rock, gravel, sand, silt, and other valuable materials. The department, upon application by any person or when determined by the department to be in the best interest of the state, may enter into a contract or lease.
providing for the removal and sale of rock, gravel, sand, and silt, or other valuable materials located within or upon beds of navigable waters, or upon any state-owned tidelands or shorelands and providing for payment to be made by such royalty as the department may fix, by negotiation, by sealed bid, or at public auction. If application is made for the purchase of any valuable material situated within or upon state-owned aquatic lands the department shall inspect and appraise the value of the material in the application. [2005 c 155 § 127; 1991 c 322 § 26; 1981 1st ex.s. c 21 § 36. Formerly RCW 79.90.300.]

79.140.160 Sale of rock, gravel, sand, and silt—Application—Terms of lease or contract—Bond—Payment—Reports. Each application made pursuant to RCW 79.140.150 shall set forth the estimated quantity and kind of materials desired to be removed and shall be accompanied by a map or plat showing the area from which the applicant wishes to remove the materials. The department may in its discretion include in any lease or contract entered into pursuant to RCW 79.140.150 through 79.140.170, terms and conditions deemed necessary by the department to protect the interests of the state. In each lease or contract the department shall provide for a right of forfeiture by the state, upon a failure to operate under the lease or contract or pay royalties or rent for periods therein stipulated, and the department shall require a bond with a surety company authorized to transact a surety business in this state, as surety to secure the performance of the terms and conditions of the contract or lease including the payment of royalties. The right of forfeiture shall be exercised by entry of a declaration of forfeiture in the records of the department. The amount of rock, gravel, sand, or silt taken under the contract or lease shall be reported monthly by the purchaser to the department and payment made on the basis of the royalty provided in the lease or contract. [2005 c 155 § 128; 1981 1st ex.s. c 21 § 37. Formerly RCW 79.90.310.]

79.140.170 Sale of rock, gravel, sand, and silt—Investigation, audit of books of person removing. The department may inspect and audit books, contracts, and accounts of each person removing rock, gravel, sand, or silt pursuant to any lease or contract under RCW 79.140.150 and 79.140.160 and make such other investigation and secure or receive any other evidence necessary to determine whether or not the state is being paid the full amount payable to it for the removal of the materials. [2005 c 155 § 129; 1981 1st ex.s. c 21 § 38. Formerly RCW 79.90.320.]

79.140.180 Contract for sale of rock, gravel, etc.—Royalties—Consideration of flood protection value. Whenever, pursuant to RCW 79.15.300, the department enters into a contract for the sale and removal of rock, gravel, sand, or silt out of a riverbed, the department shall, when establishing a royalty, take into consideration flood protection value to the public that will arise as a result of the removal. [2005 c 155 § 130; 2003 c 334 § 602; 1984 c 212 § 10. Formerly RCW 79.90.325, 79.01.135.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.140.190 Leases and permits for prospecting and contracts for mining valuable minerals and specific materials from aquatic lands. The department may issue permits and leases for prospecting, placer mining contracts, and contracts for the mining of valuable minerals and specific materials, except rock, gravel, sand, silt, coal, or hydrocarbons, upon and from any state-owned aquatic lands, or which have been sold and the minerals reserved by the state in tracts not to exceed six hundred forty acres or an entire government-surveyed section. The procedures contained at RCW 79.14.300 through 79.14.450, inclusive, shall apply. [2005 c 155 § 131; 2003 c 334 § 603; 1987 c 20 § 16; 1982 1st ex.s. c 21 § 39. Formerly RCW 79.90.330.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.140.200 Option contracts for prospecting and leases for mining and extraction of coal from aquatic lands. The department is authorized to execute option contracts for prospecting purposes and leases for the mining and extraction of coal from any state-owned aquatic lands or from which it may acquire title, or from any aquatic lands sold or leased by the state the minerals of which have been reserved by the state. The procedures contained at RCW 79.14.470 through 79.14.580, inclusive, shall apply. [2005 c 155 § 132; 2003 c 334 § 604; 1982 1st ex.s. c 21 § 40. Formerly RCW 79.90.340.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.140.210 Mount St. Helens dredge spoils or materials. (1)(a) The legislature finds and declares that an extraordinary volume of material washed down onto beds of navigable waters and shorelands in the Toutle river, Coweeman river, and portions of the Cowlitz river following the eruption of Mount St. Helens in 1980.

(b) The legislature further finds that the owners of private lands located near the impacted rivers were authorized to sell, transfer, or otherwise dispose of any dredge spoils removed from the river between the years of 1980 and 1995 without the necessity of any charge by the department.

(c) The legislature further finds that the dredging activities following the eruption of Mount St. Helens are no longer adequate to protect engineered structures on the affected rivers or the public health and safety of the communities located in proximity to the affected rivers. Future river dredging will be necessary as part of managing the post-eruption state of the rivers, and with the commencement of new dredging activities, the underlying conditions leading to the previous authority for private landowners to dispose of the dredged materials without the necessity of any charge by the department are replicated.

(d) The legislature further finds that just as between the years of 1980 and 1995, the dredge spoils placed upon adjacent publicly and privately owned property in the affected areas, if further disposed, will be of nominal value to the state and that it is in the best interests of the state to allow further disposal without charge.

(2) All dredge spoil or materials removed from the state-owned beds and shores of the Toutle river, Coweeman river, and that portion of the Cowlitz river from two miles above the confluence of the Toutle river to its mouth deposited on
adjacent public and private lands before December 31, 2035, as a result of dredging the affected rivers for navigation and flood control purposes that as of June 10, 2010, have not been sold, transferred, or otherwise disposed of by owners of the lands, may be sold, transferred, or otherwise disposed of by owners of the lands without the necessity of any charge by the department and free and clear of any interest of the department. [2010 c 57 § 1; 2009 c 426 § 1.]

**Retroactive application—2010 c 57:** "This act applies to all dredge spoil or materials removed from the state-owned beds and shores of the Toutle river, Coweeman river, and that portion of the Cowlitz river from two miles above the confluence of the Toutle river to its mouth deposited on adjacent public and private lands as a result of dredging the affected rivers for navigation and flood control purposes following the eruption of Mount St. Helens in 1980 that, as of June 10, 2010, have not been sold, transferred, or otherwise disposed of by owners of the lands. To this extent, this act applies retroactively, but in all other respects it applies prospectively." [2010 c 57 § 2.]

**79.145.001 Intent—2005 c 155.** See RCW 79.105.001.

**79.145.010 Intent.** The legislature finds that the public health and safety is threatened by an increase in the amount of plastic garbage being deposited in the waters and on the shores of the state. To address this growing problem, the commissioner appointed the marine plastic debris task force which presented a state action plan in October 1988. It is necessary for the state of Washington to implement the action plan in order to:

1. Cleanup and prevent further pollution of the state’s waters and aquatic lands;
2. Increase public awareness;
3. Coordinate federal, state, local, and private efforts;
4. Foster the stewardship of the aquatic lands of the state. [2005 c 155 § 901; 1989 c 23 § 1. Formerly RCW 79.97.010, 79.81.010.]

**79.145.020 Definitions.** As used in this chapter:

1. "Department" means the department of natural resources.

**79.145.030 Coordinating implementation—Rules.** The department shall have the authority to coordinate implementation of the action plan with appropriate state agencies including the parks and recreation commission and the departments of ecology and fish and wildlife. The department is authorized to adopt, in consultation with affected agencies, the necessary rules to provide for the cleanup and to prevent pollution of the waters of the state and aquatic lands by plastic and other marine debris. [2005 c 155 § 903; 1994 c 264 § 65; 1989 c 23 § 3. Formerly RCW 79.97.030, 79.81.030.]

[1989 c 23 § 4. Formerly RCW 79.97.040, 79.81.040.]

**79.145.050 Employees—Information clearinghouse contracts.** The department is the designated agency to coordinate implementation of the action plan and is authorized to hire such employees as are necessary to coordinate the action plan among state and federal agencies, the private sector, and interested public groups and organizations. The department is authorized to contract, through an open bidding process, with interested parties to act as the information clearinghouse for marine plastic debris related issues. [2005 c 155 § 904; 1989 c 23 § 5. Formerly RCW 79.97.050, 79.81.050.]

**79.145.060 Grants, funds, or gifts.** The department is authorized to accept, receive, disburse, and administer grants or funds or gifts from any source including private individuals, public entities, and the federal government to supplement the funds appropriated to carry out the purposes of this chapter. [2005 c 155 § 905; 1989 c 23 § 6. Formerly RCW 79.97.060, 79.81.060.]

[Title 79 RCW—page 126]

(2010 Ed.)
79.150.010 Findings. The legislature finds that the utilization of forest biomass materials located on state lands will assist in achieving the purposes of the forest biomass energy demonstration project under RCW 43.30.835, facilitate and support the emerging forest biomass market and clean energy economy, and enable the department to encourage biomass energy development on state trust lands for the trust land's potential long-term benefits to trust beneficiaries. The legislature finds that biomass utilization on state forest lands must be accomplished in a manner that retains organic components of the forest necessary to restore or sustain forest ecological functions. [2010 c 126 § 1.]

79.150.020 List of potential sources of forest biomass on state lands. (1) The department may maintain a list of all potential sources of forest biomass on state lands for the purposes of identifying and making forest biomass, as defined in RCW 79.02.010, available for sale, exploration, collection, processing, storage, stockpiling, and conversion into energy, biofuels, for use in a biorefinery, or any other similar use. Prior to entering an agreement authorized by RCW 79.150.030(1) or 79.150.040, the department shall complete an inventory of the available biomass in the area that will be subject to the agreement, except that no inventory will be required as a prerequisite for demonstration projects authorized pursuant to RCW 43.30.835. The inventory must contain, at a minimum, an estimated amount of the forest biomass available in the area that will be subject to the agreement and a determination of the ecological and operational sustainability of the volumetric limit established by the agreement under RCW 79.150.030(5).

(2) The data developed for each inventoried area will be compiled for the list authorized by this section. In order to utilize the list to limit or terminate any agreement authorized under chapter 126, Laws of 2010, the department must determine that the overall supply of forest biomass in a region or watershed has been reduced to a point such that further exploration and collection of forest biomass may not be ecologically or operationally sustainable or might otherwise threaten long-term forest health. [2010 c 126 § 2.]

79.150.030 Forest biomass supply contracts. (1) The department is authorized to enter forest biomass supply contracts on terms and conditions acceptable to the department for terms of up to five years, except as provided in subsection (4) of this section, for the purpose of providing a supply of forest biomass during the term of the contract except as the term of the contract may be limited under subsection (2) of this section, provided that such a contract must terminate automatically upon the removal of the agreed volume of biomass and the completion of other conditions of the contract.

(2) The department may authorize the sale of forest biomass in a contract for the sale of valuable materials under chapter 79.15 RCW provided that the department complies with the provisions of this chapter and: (a) Requires a separate bid and selects an apparent highest bidder for the forest biomass separately from the sale of valuable materials; (b) expressly includes forest biomass as an element of the sale of the valuable materials to be sold in the sales contract; or (c) a combination of (a) and (b) of this subsection. The term of the contract for the removal of biomass, if the sale is made in conformance with this subsection, must not exceed the term of the contract for valuable materials sold under chapter 79.15 RCW.

(3) The department may: (a) Enter into direct sales contracts for forest biomass, without public auction, based upon procedures adopted by the board to ensure competitive market prices and accountability; or (b) enter into contracts for forest biomass at public auction or by sealed bid to the highest bidder in a manner consistent with the sale procedures established for the sale of valuable materials in chapter 79.15 RCW or as may be adopted by the board.

(4) In the event a contracting entity makes a qualifying capital investment of fifty million dollars or more, the department may enter into an agreement for up to fifteen years. Such an agreement must include provisions that are periodically adjusted for market conditions. In addition, the conditions of the contract must include provisions that allow the department, when in the best interest of trust beneficiaries, to maintain the availability of biomass resources on state lands to existing pulp and paper operations or other existing biomass processing operations that are using such resources, in quantities typical for the period of five years preceding June 10, 2010. For the purposes of this section, "qualifying capital investment" means a planned and committed investment at the time the contract is set with the requirement that at least fifty million dollars be invested before the removal of any biomass under the contract.

(5) The department must specify in each contract an annual volumetric limit of the total cubic volume or tons of forest biomass to be supplied from a specific unit, geographically delineated area, or region within a watershed or watersheds on an ecologically and operationally sustainable basis. The department shall adopt general procedures for making the biomass supply availability determinations under this subsection. The procedures must be written to ensure that biomass utilization on forest lands managed by the department is accomplished in a manner that retains organic components of the forest necessary to restore or sustain forest ecological functions. The department shall adopt utilization standards and operational methods in recognition of the variability of on-site conditions. The department may unilaterally amend the volume to be supplied by providing the contracting party with a minimum of six months notice prior to reducing the contract volume to be supplied if the department determines, under RCW 79.150.020, that the available supply has been reduced to a point such that further removal of forest biomass may not be ecologically or operationally sustainable or may adversely affect long-term forest health.

(6) At the expiration of the contract term, the department may renew the contract for up to three additional five year periods on terms and conditions acceptable to the department, if the department finds: (a) An ecologically and operationally sustainable supply of forest biomass is available for the term of the contract; (b) the payment under the contract represents the fair market value at the time of the renewal; and (c) the purchaser agrees to the estimated amount of biomass material available.

(7) Where the department sells forest biomass in a contract for sale of valuable materials under subsection (2) of this section, any valuable material conveyed as timber in such a contract must count toward the achievement of annual or dec-
adal targets developed in the sustainable timber harvest calculation required by RCW 79.10.320, or similar targets for timber harvest volume, even where the purchaser uses that material as a biomass energy feedstock. All other biomass volume conveyed as authorized in this chapter must not be counted toward such sustainable timber harvest targets.  

(8) All contractors and their operations authorized under this section shall comply with all applicable state and federal laws and regulations. [2010 c 126 § 3.]

**79.150.040 Lease of state land for resource use derived from biomass.** The department is authorized to lease state lands for the purpose of the sale, exploration, collection, processing, storage, stockpiling, and conversion of biomass into energy or biofuels, the development of a biorefinery, or for any other resource use derived from biomass if the department is able to obtain a fair market rental return to the state or the appropriate constitutional or statutory trust and if the lease is in the best interest of the state and the affected trust, as follows:

(1) Leases authorized under this chapter may be entered into by public auction, in accordance with the provisions of RCW 79.13.140, or by negotiation.

(2) All leases must contain such terms and conditions as may be prescribed by the department in accordance with the provision of chapter 126, Laws of 2010 and to ensure that removal of forest biomass is ecologically and operationally sustainable. Leases authorized under chapter 126, Laws of 2010 may be for a term of no more than fifty years.

(3) For leases that involve the development of biomass processing, biofuel manufacturing, or biomass energy production facilities, the department may include provisions for reduced rent until an approved plan of development is completed and the facility is operational, provided that provisions are included to require: (a) Adequate assurances to protect the department’s interest in a future rental income stream; (b) the demonstration of reasonable progress consistent with an approved plan of development; and (c) a lump sum payment to the department in the amount of the difference between the fair market rent and the reduced rent, if the approved plan of development is not completed in the time required in the plan.

(4) The department may require the payment of production rent or other compensation for the use of the land and biomass materials on the land. If the department is not entering a supply contract under RCW 79.150.030 for any forest biomass to be supplied for the lease purposes from the leased land, then the department must require a royalty payment for the contribution to value of any product created by the lessee that is associated with forest biomass removed from the leased land in an amount fixed by the board.

(5) All lessees and their operations authorized under this section shall comply with all applicable state and federal laws and regulations. [2010 c 126 § 5.]

**79.150.050 Evaluation of supply agreements under RCW 79.150.030 and 79.150.040—Report to the legislature—Demonstration project authorized.** (1) For the purpose of improving forest health on state trust lands, and to better clarify the relationship of forest biomass with the by-products of forest health and fuel reduction treatments that have been traditionally utilized for other products, the department of natural resources shall evaluate how the supply agreements in RCW 79.150.030 and 79.150.040 could be utilized to sustain or create rural jobs and timber manufacturing infrastructure, and to sell state timber to traditional types of timber purchasers. The department shall report its findings to the appropriate committees of the legislature by December 15, 2010, and the evaluation must at a minimum identify how such supply agreements could:

(a) Ensure the department of natural resources meets its fiduciary responsibility to the state’s trust beneficiaries;

(b) Restore or sustain a competitive market for state timber sales;

(c) Generate returns for the trust that are commensurate with fluctuating market prices; and

(d) Ensure environmental compliance with all pertinent state and federal laws, and provide for ecologically and operationally sustainable biomass removal.

(2) For the purposes of proving the concepts evaluated in this section, the department may, in addition to the authorities granted in RCW 79.150.030, establish a five-year forest health and fuel reduction supply agreement demonstration project. Solicitation of private industry partners for such a project must be competitive, must focus on areas where traditional forest products manufacturing infrastructure and rural jobs have been lost, and should consider prioritizing partners utilizing materials for both traditional forest products and biomass energy conversion. (9) Without being limited to the powers hereinbefore enumerated, the commission shall have such other powers as in the judgment of a majority of its members are deemed necessary to effectuate the purposes of this chapter: PROVIDED, That the commission shall not have power to supervise directly any local park or recreation district, and no funds shall be made available for such purpose. Effective date—2006 c 141: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect April 9, 2006." [2006 c 141 § 2.]

Findings—Intent—1995 c 211: "The legislature finds that during the past fourteen years, the Washington state parks and recreation commission has endured a steady erosion of general fund operating support, which has caused park closures, staff reductions, and growing backlog of deferred maintenance projects. The legislature also finds that the growth of park revenues has been constrained by staff limitations and by transfers of that revenue into the general fund.

The legislature intends to reverse the decline in operating support to its state parks, stabilize the system’s level of general fund support, and inspire system employees and park visitors to enhance these irreplaceable resources and ensure their continuing availability to current and future state citizens and visitors. To achieve these goals, the legislature intends to dedicate park revenues to park operations, developing and renovating park facilities, undertaking deferred maintenance, and improving park stewardship. The legislature clearly intends that such revenues shall complement, not supplant, future general fund support." [1995 c 211 § 1.]

79A.05.170 Transfer of surplus land—Reversionary clause required—Release—Parkland acquisition account. (1) Any lands owned by the state parks and recreation commission, which are determined to be surplus to the needs of the state for development for state park purposes and which the commission proposes to deed to a local government or other entity, shall be accompanied by a clause requiring that if the land is not used for outdoor recreation purposes, ownership of the land shall revert to the state parks and recreation commission.

(2) The state parks and recreation commission, in cases where land subject to such a reversionary clause is proposed for use or disposal for purposes other than recreation, shall require that, if the land is surplus to the needs of the commission for park purposes at the time the commission becomes aware of its proposed use for nonrecreation purposes, the holder of the land or property shall reimburse the commission for the release of the reversionary interest in the land. The reimbursement shall be in the amount of the fair market value of the reversionary interest as determined by a qualified appraiser agreeable to the commission. Appraisal costs shall be borne by the local entity which holds title to the land.

(3) Any funds generated under a reimbursement under this section shall be deposited in the parkland acquisition account which is hereby created in the state treasury. 79A.05.175 Disposal of land not needed for park purposes. Whenever the commission finds that any land under its control cannot advantageously be used for park purposes, it is authorized to dispose of such land by the method provided in this section or by the method provided in RCW 79A.05.170. If such lands are school or other grant lands, control thereof shall be relinquished by resolution of the commission to the proper state officials. If such lands were acquired under restrictive conveyances by which the state may hold them only so long as they are used for park purposes, they may be returned to the donor or grantors by the commission. All other such lands may be either sold by the commission to the highest bidder or exchanged for other lands of equal value by the commission, and all conveyance documents shall be executed by the governor. All such exchanges shall be accompanied by a transfer fee, to be set by the commission and paid by the other party to the transfer; such fee shall be paid into the parkland acquisition account established under RCW 79A.05.170. The commission may accept sealed bids, electronic bids, or oral bids at auction. Bids on all sales shall be solicited at least twenty days in advance of the sale date by an advertisement appearing at least once a week for two consecutive weeks in a newspaper of general circulation in the county in which the land to be sold is located. If the commission feels that no bid received adequately reflects the fair value of the land to be sold, it may reject all bids, and may call for new bids. All proceeds derived from the sale of such park property shall be paid into the park land acquisition account. All land considered for exchange shall be evaluated by the commission to determine its adaptability to park usage. The equal value of all lands exchanged shall first be determined by the appraisals to the satisfaction of the commission. No sale or exchange of state park lands shall be made without the unanimous consent of the commission. The legislature finds that the lands owned and managed by the state parks and recreation commission are a significant collection of valuable natural, historical, and cultural resources for the citizens of Washington state. The legislature further finds that if citizens understand and appreciate the state park ecological resources, they will come to appreciate and understand the ecosystems and natural resources throughout the state. Therefore, the state parks and recreation commission may increase the use of its facilities and resources to provide environmental interpretation throughout the state parks system. [1991 c 107 § 1. Formerly RCW 43.51.415.]

(2) The program shall be phased in beginning with the schools and students with the greatest needs in suburban, rural, and urban areas of the state. (3) The director shall set priorities and develop criteria for the awarding of grants to outdoor environmental, ecological, agricultural, or other natural resource-based education and recreation programs considering at least the following:
(a) Programs that contribute to the reduction of academic failure and dropout rates;

The director should solicit representation on the committee from the office of the superintendent of public instruction, the department of fish and wildlife, the business community, outdoor organizations with an interest in education, and any others the commission deems sufficient to ensure a cross section of stakeholders. When the director creates such an advisory committee, its members shall be reimbursed from the outdoor education and recreation program account for travel expenses as provided in RCW 43.03.050 and 43.03.060.

(5) The outdoor education and recreation program account is created in the custody of the state treasurer. Funds deposited in the outdoor education and recreation program account shall be transferred only to the commission to be used solely for the commission’s outdoor education and recreation program purposes identified in this section including the administration of the program. The director may accept gifts, grants, donations, or moneys from any source for deposit in the outdoor education and recreation program.

The legislature recognizes the increase in water-oriented recreation by users of human and wind-powered, beachable vessels such as kayaks, canoes, or day sailors on Washington's waters. These recreationists frequently require overnight camping facilities along the shores of public or private beaches. The legislature now creates a water trail recreation program, to be administered by the Washington state parks and recreation commission. SEASHORE CONSERVATION AREA

79A.05.600 Declaration of principles. The beaches bounding the Pacific Ocean from the Straits of Juan de Fuca to Cape Disappointment at the mouth of the Columbia River constitute some of the last unspoiled seashore remaining in the United States. They provide the public with almost unlimited opportunities for recreational activities, like swimming, surfing and hiking; for outdoor sports, like hunting, fishing, clamming, and boating; for the observation of nature as it existed for hundreds of years before the arrival of Europeans; and for relaxation away from the pressures and tensions of modern life. In past years, these recreational activities have been enjoyed by countless Washington citizens, as well as by tourists from other states and countries. The number of people wishing to participate in such recreational activities grows annually. This increasing public pressure makes it necessary that the state dedicate the use of the ocean beaches to public recreation and to provide certain recreational and sanitary facilities. Nonrecreational use of the beach must be strictly limited. Even recreational uses must be regulated in order that Washington’s unrivaled seashore may be saved for our children in much the same form as we know it today. [2009 c 549 § 1029; 1967 c 120 § 1. Formerly RCW 43.51.650.]

[1969 ex.s. c 55 § 1; 1967 c 120 § 2. Formerly RCW 43.51.655.]

GREEN RIVER GORGE CONSERVATION AREA

79A.05.700 Declaration. The Green River Gorge, between the town of Kanasket and the Kummer bridge in King county, is a twelve mile spectacularly winding gorge with steep to overhanging rock walls reaching heights of from one hundred fifty to three hundred feet. The beauty and natural features of the gorge are generally confined within the canyon rim. This twelve mile gorge area contains many examples of unique biological and geological features for educational and recreational interpretation, almost two miles of Eocene sediment rocks and fossils are exposed revealing one of the most complete stratigraphic sections to be found in the region. The area, a unique recreational attraction with more than one million seven hundred thousand people living within an hour’s driving time, is presently used by hikers, geologists, fishermen, kayakers and canoeists, picnickers and swimmers, and those seeking the solitude offered by this unique area. Abutting and adjacent landowners generally have kept the gorge lands in their natural state; however, economic and urbanization pressures for development are rapidly increasing. Local and state outdoor recreation plans show a regional need for resources and facilities which could be developed in this area. A twelve mile strip incorporating the visual basins of the Green River from the Kummer bridge to Palmer needs to be acquired and developed as a conservation area to preserve this unique area for the recreational needs of the region. [1969 ex.s. c 162 § 1. Formerly RCW 43.51.900.]

79A.05.705 Green River Gorge conservation area created. There is hereby created a Washington state parks and recreation commission conservation area to be known as “Green River Gorge conservation area”. [1969 ex.s. c 162 § 2. Formerly RCW 43.51.910.]

79A.05.710 Acquisition of real property, easements, or rights authorized. In addition to all other powers and duties prescribed by law, the state parks and recreation commission is authorized and directed to acquire such real property, easements, or rights in the Green River Gorge in King county, together with such real property, easements, and rights as is necessary for such park and conservation purposes in any manner authorized by law for the acquisition of lands for parks and parkway purposes. Except for such real property as is necessary and convenient for development of picnicking or camping areas and their related facilities, it is the intent of this section that such property shall be acquired to preserve, as much as possible, the gorge within the canyon rim in its natural pristine state. [1969 ex.s. c 162 § 3. Formerly RCW 43.51.920.]

79A.05.715 Acquisition of real property, easements, or rights authorized—Rights of other state agencies not to be infringed upon. Nothing herein shall be construed as authorizing or directing the state parks and recreation commission to acquire any real property, easements, or rights in the Green River Gorge in King county which are now held by any state agency for the purposes of outdoor recreation, conservation, fish, or wildlife management or public hunting or fishing without the approval of such agency. [1969 ex.s. c 162 § 4. Formerly RCW 43.51.930.]

MOUNT SI CONSERVATION AREA

features which can be viewed from the I-90 highway. They also afford outstanding recreational opportunities enjoyed by the citizens of this state and tourists alike. The legislature recognizes the importance of guarding portions of this area from those types of development which would permanently alter the area’s natural form and beauty. It further recognizes the necessity of setting forth procedures to manage the area, to enhance the opportunities afforded the state’s citizens, one-half of whom live within one-half hour driving time of Mt. Si, and to safeguard to the extent possible the scenic, natural, geological, game habitat, and recreational values therein, and to safeguard and promote the upper Snoqualmie River valley’s economy in which the recreational use of Mt. 79A.15.005 Findings. The legislature finds:

(1) That Washington possesses an abundance of natural wealth in the form of forests, mountains, wildlife, waters, and other natural resources, all of which help to provide an unparalleled diversity of outdoor recreation opportunities and a quality of life unmatched in this nation;

(2) That as the state’s population grows, the demand on these resources is growing too, placing greater stress on today’s already overcrowded public recreational lands and facilities, and resulting in a significant loss of wildlife habitat and lands of unique natural value;

(3) That public acquisition and development programs have not kept pace with the state’s expanding population;

(4) That private investment and employment opportunities in general and the tourist industry in particular are dependent upon the continued availability of recreational opportunities and our state’s unique natural environment;

(5) That if current trends continue, some wildlife species and rare ecosystems will be lost in the state forever and public recreational lands will not be adequate to meet public demands;

(6) That there is accordingly a need for the people of the state to reserve certain areas of the state, in rural as well as urban settings, for the benefit of present and future generations.

It is therefore the policy of the state to acquire as soon as possible the most significant lands for wildlife conservation and outdoor recreation purposes before they are converted to other uses, and to develop existing public recreational land and facilities to meet the needs of present and future generations. The board must administer the account in accordance with chapter 79A.25 RCW and this chapter, and hold it separate and apart from all other money, funds, and accounts of the board.

(2) Moneys appropriated for this chapter to the riparian protection account must be distributed for the acquisition or enhancement of riparian habitat. All enhancement or restoration projects, except those qualifying under subsection (9)(a) of this section, must include the acquisition of a real property interest in order to be eligible.

(3) State and local agencies and lead entities under chapter 77.85 RCW, nonprofit nature conservancy organizations or associations, and the conservation commission may apply for acquisition and enhancement or restoration funds for riparian habitat projects under subsection (1) of this section. (8) State agencies receiving grants for acquisition of land under this section must pay an amount in lieu of real property taxes equal to the amount of tax that would be due if the land were taxable as open space land under chapter 84.34 RCW except taxes levied for any state purpose, plus an additional amount for control of noxious weeds equal to that which would be paid if such lands were privately owned. The county assessor and county legislative authority shall assist in determining the appropriate calculation of the amount of tax that would be due.

(9) In determining acquisition priorities with respect to the riparian protection account, the board must consider, at a minimum, the following criteria:

(a) Whether the project continues the conservation reserve enhancement program. Applications that extend the duration of leases of riparian areas that are currently enrolled in the conservation reserve enhancement program shall be eligible. Such applications are eligible for a conservation lease extension of at least twenty-five years of duration;

(b) Whether the projects are identified or recommended in a watershed planning process under chapter 247, Laws of 1998, salmon recovery planning under chapter 77.85 RCW, or other local plans, such as habitat conservation plans, and these must be highly considered in the process;

(c) Whether there is community support for the project;

(d) Whether the proposal includes an ongoing stewardship program that includes control of noxious weeds, detrimental invasive species, and that identifies the source of the funds from which the stewardship program will be funded;

(e) Whether there is an immediate threat to the site;

(h) Whether the site has educational or scientific value; and

(i) Whether the site has passive recreational values for walking trails, wildlife viewing, or the observation of natural settings.

(10) Before November 1st of each even-numbered year, the board will recommend to the governor a prioritized list of projects to be funded under this section. The governor may remove projects from the list recommended by the board and will submit this amended list in the capital budget request to the legislature. The list must include, but not be limited to, a description of each project and any particular match requirement. [2009 c 341 § 4; 2009 c 16 § 2; 2007 c 241 § 37; 2005 c 303 § 6.]

79A.15.130 Farmlands preservation account—Use of funds. (1) The farmlands preservation account is established
in the state treasury. The board will administer the account in accordance with chapter 79A.25 RCW and this chapter, and hold it separate and apart from all other money, funds, and accounts of the board. Moneys appropriated for this chapter to the farmlands preservation account must be distributed for the acquisition and preservation of farmlands in order to maintain the opportunity for agricultural activity upon these lands.

(2)(a) Moneys appropriated for this chapter to the farmlands preservation account may be distributed for (i) the fee simple or less than fee simple acquisition of farmlands; (ii) the enhancement or restoration of ecological functions on those properties; or (iii) both. In order for a farmland preservation grant to provide for an environmental enhancement or restoration project, the project must include the acquisition of a real property interest.

(b) If a city, county, nonprofit nature conservancy organization or association, or the conservation commission acquires a property through this program in fee simple, the city, county, nonprofit nature conservancy organization or association, or the conservation commission shall endeavor to secure preservation of the property through placing a conservation easement, or other form of deed restriction, on the property which dedicates the land to agricultural use and retains one or more property rights in perpetuity. Once an easement or other form of deed restriction is placed on the property, the city, county, nonprofit nature conservancy organization or association, or the conservation commission shall seek to sell the property, at fair market value, to a person or persons who will maintain the property in agricultural production. Any moneys from the sale of the property shall either be used to purchase interests in additional properties which meet the criteria in subsection (9) of this section, or to repay the grant from the state which was originally used to purchase the property.

(3) Cities, counties, nonprofit nature conservancy organizations or associations, and the conservation commission may apply for acquisition and enhancement or restoration funds for farmland preservation projects within their jurisdictions under subsection (1) of this section.

(4) The board may adopt rules establishing acquisition and enhancement or restoration policies and priorities for distributions from the farmlands preservation account.

(5) The acquisition of a property right in a project under this section by a county, city, nonprofit nature conservancy organization or association, or the conservation commission does not provide a right of access to the property by the public unless explicitly provided for in a conservation easement or other form of deed restriction.

(6) Except as provided in RCW 79A.15.030(7), moneys appropriated for this section may not be used by the board to fund staff positions or other overhead expenses, or by a city, county, nonprofit nature conservancy organization or association, or the conservation commission to fund operation or maintenance of areas acquired under this chapter.

(7) Moneys appropriated for this section may be used by grant recipients for costs incidental to restoration and acquisition, including, but not limited to, surveying expenses, fencing, and signing.

(8) The board may not approve a local project where the local agency’s or nonprofit nature conservancy organization’s or association’s share is less than the amount to be awarded from the farmlands preservation account. In-kind contributions, including contributions of a real property interest in land, may be used to satisfy the local agency’s or nonprofit nature conservancy organization’s or association’s share.

(9) In determining the acquisition priorities, the board must consider, at a minimum, the following criteria:

(a) Community support for the project;
(b) A recommendation as part of a limiting factors or critical pathways analysis, a watershed plan or habitat conservation plan, or a coordinated regionwide prioritization effort;
(c) The likelihood of the conversion of the site to nonagricultural or more highly developed usage;

WILDLIFE AND RECREATION LANDS—FUNDING OF MAINTENANCE AND OPERATIONS

79A.20.005 Findings.
79A.20.010 Definitions.
79A.20.030 Allocation and distribution of moneys.
79A.20.900 Short title.

79A.20.005 Findings. (1) The legislature finds that:
(a) The state of Washington owns and maintains a wide variety of fish and wildlife habitat, natural areas, parks, and other recreation lands;
(b) The state of Washington is responsible for managing these lands for the benefit of the citizens, wildlife, and other natural resources of the state;
(c) The state of Washington has recently significantly enhanced its efforts to acquire critical habitat, natural areas, parks, and other recreation lands and to transfer suitable lands from school trust to conservation and park purposes;
(d) Recent unprecedented population growth has greatly increased the threat to the state’s fish and wildlife habitat and the demands placed on the lands under (a) of this subsection;
(e) The importance of this habitat and these lands to the state is continuing to increase as more people depend on them to satisfy their needs and more plant and animal species require state-owned lands for their survival;
(f) By itself, public ownership cannot guarantee that resources will be protected, or that appropriate recreational opportunities will be provided;
(g) Only through ongoing, responsible management can fish and wildlife habitat, sensitive ecosystems, and recreational values be protected;
(h) The operation and maintenance funding for state-owned fish and wildlife habitat, natural areas, parks, and other recreation lands has not kept pace with increasing demands placed upon such lands;
(i) Many needed operation and maintenance projects have been deferred due to insufficient funding, resulting in increased costs when the projects are finally undertaken; and
(j) An increase in operation and maintenance funding is necessary to bring state-owned lands and facilities up to acceptable standards and to protect the state’s investment in its fish and wildlife habitat, natural areas, parks, and other recreation lands.

(2) Therefore, it is the policy of the state to provide adequate and continuing funding for operation and maintenance needs of state-owned fish and wildlife habitat, natural areas, parks, and other recreation lands to protect the state’s investment in such lands, and it is the purpose of this chapter to create a mechanism for doing so. [1992 c 153 § 2. Formerly RCW 43.98B.005.]

It includes, but is not limited to, costs associated with statutorily required in-lieu property taxes, weed and pest control, fire protection, fence maintenance, cultural and archaeological site protection, basic research related to maintenance of natural area preserves and natural resource conservation areas, basic resource and environmental protection, and meeting applicable legal requirements.

(2) "Improved or developed resources" means the costs associated with the built or manipulated environment. It includes, but is not limited to, costs associated with maintaining buildings, grounds, roads, trails, water access sites, and utility systems.    (d) Not more than fifteen percent for administration.
   (e) The remaining twenty to thirty-five percent shall be considered unallocated.

(2) In the event that moneys appropriated for this chapter to the *state wildlife and recreation lands management account under the initial allocation prove insufficient to meet basic stewardship needs, the unallocated amount shall be used to fund basic stewardship needs.

(3) Each eligible agency is not required to meet this specific percentage distribution. However, funding across agencies should meet these percentages during each biennium.

[Title 79A RCW—page 35]
79A.25.005 Policy—Mission of board. (1) As Washington begins its second century of statehood, the legislature recognizes that renewed efforts are needed to preserve, conserve, and enhance the state’s recreational resources. Rapid population growth and increased urbanization have caused a decline in suitable land for recreation and resulted in overcrowding and deterioration of existing facilities. Lack of adequate recreational resources directly affects the health and well-being of all citizens of the state, reduces the state’s economic viability, and prevents Washington from maintaining and achieving the quality of life that it deserves.

It is therefore the policy of the state and its agencies to preserve, conserve, and enhance recreational resources and open space. In carrying out this policy, the mission of the recreation and conservation funding board and its office is to (a) create and work actively for the implementation of a unified statewide strategy for meeting the recreational needs of Washington’s citizens, (b) represent and promote the interests of the state on recreational issues in concert with other state and local agencies and the governor, (c) encourage and provide interagency and regional coordination, and interaction between public and private organizations, (d) administer recreational grant-in-aid programs and provide technical assistance, and (e) serve as a repository for information, studies, research, and other data relating to recreation.

(2) Washington is uniquely endowed with fresh and salt waters rich in scenic and recreational value. This outdoor heritage enriches the lives of citizens, attracts new residents and businesses to the state, and is a major support of its expanding tourist industry. Rising population, increased income and leisure time, and the rapid growth of boating and other water sports have greatly increased the demand for water related recreation, while waterfront land is rapidly rising in value and disappearing from public use. There is consequently an urgent need for the acquisition or improvement of waterfront land on fresh and salt water suitable for marine recreational use by Washington residents and visitors. To meet this need, it is necessary and proper that the portion of motor vehicle fuel taxes paid by boat owners and operators on fuel consumed in their watercraft and not reclaimed as presently provided by law should be expended for the acquisition or improvement of marine recreation land on the Pacific Ocean, Puget Sound, bays, lakes, rivers, reservoirs and other fresh and salt waters of the state. [2007 c 241 § 39; 1989 c 237 § 1; 1965 c 5 § 1 (Initiative Measure No. 215, approved November 3, 1964). Formerly RCW 43.99.010.]

Intent—2007 c 241: “The legislature intends to change the name of the interagency committee for outdoor recreation to the recreation and conservation funding board. Similarly, the office of the interagency committee is renamed the recreation and conservation office.

The legislature does not intend this act to make any substantive policy changes other than to change or clarify the names of the relevant entities. The name changes in this act have no impact on the powers, duties, or responsibilities previously delegated to the interagency committee for outdoor recreation or the office of the interagency committee by statute, budget proviso, or executive order.

The name changes in this act have no impact on the validity of the documents, contracts, agreements, policies, and written decisions made, entered into, recorded, issued, or established before this name change by the interagency committee for outdoor recreation, its office, or director. Documents, contracts, agreements, policies, publications, and written decisions are not required to be changed to conform to the name changes, and the continued use of former names on documents made, recorded, issued, or established prior to the changes in this act does not affect the document’s validity after the change.” [2007 c 241 § 1.]

Effective date—2007 c 241: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect July 1, 2007." [2007 c 241 § 76.]

79A.25.250 Acquisition, development, etc., of urban area parks by recreation and conservation funding board. Recognizing the fact that the demand for park services is greatest in our urban areas, that parks should be accessible to all Washington citizens, that the urban poor cannot afford to travel to remotely located parks, that few state parks are located in or near urban areas, that a need exists to conserve energy, and that local governments having jurisdiction in urban areas cannot afford the costs of maintaining and operating the extensive park systems needed to service their large populations, the legislature hereby directs the recreation and conservation funding board to place a high priority on the acquisition, development, redevelopment, and renovation of parks to be located in or near urban areas and to be particularly accessible to and used by the populations of those areas. For purposes of RCW 79A.25.250 and 79A.05.300, "urban areas" means any incorporated city with a population of five thousand persons or greater or any county with a population density of two hundred fifty persons per square mile or greater. This section shall be implemented by January 1, 1981. [2007 c 241 § 58; 2000 c 11 § 79; 1980 c 89 § 3. Formerly RCW 43.51.380.]

The habitat and recreation lands coordinating group must include representatives from the committee, the state parks and recreation commission, the department of natural resources, and the Washington state department of fish and wildlife. The members of the habitat and recreation lands coordinating group must have subject matter expertise with the issues presented in this section. Representatives from appropriate stakeholder organizations and local government must also be considered for participation on the habitat and recreation lands coordinating group, but may only be appointed or invited by the director.

(2) To ensure timely completion of the duties assigned to the habitat and recreation lands coordinating group, the direc-
tor shall submit yearly progress reports to the office of financial management.

3. The habitat and recreation lands coordinating group must:
   a. Review agency land acquisition and disposal plans and policies to help ensure statewide coordination of habitat and recreation land acquisitions and disposals;
   b. Produce an interagency, statewide biennial forecast of habitat and recreation land acquisitions [acquisition] and disposal plans;
   c. Establish procedures for publishing the biennial forecast of acquisition and disposal plans on web sites or other centralized, easily accessible formats;
   d. Develop and convene an annual forum for agencies to coordinate their near-term acquisition and disposal plans;
   e. Develop a recommended method for interagency geographic information system-based documentation of habitat and recreation lands in cooperation with other state agencies using geographic information systems;

   h. Identify and commence a dialogue with key state and federal partners to develop an inventory of potential public lands for transfer into habitat and recreation land management status;
   i. Review existing and proposed habitat conservation plans on a regular basis to foster statewide coordination and save costs.

4. The group shall revisit the *committee’s and Washington wildlife and recreation program’s planning requirements to determine whether coordination of state agency habitat and recreation land acquisition and disposal could be improved by modifying those requirements.

5. The group must develop options for centralizing coordination of habitat and recreation land acquisition made with funds from federal grants. The advantages and drawbacks of the following options, at a minimum, must be developed:
   a. Requiring that agencies provide early communication on the status of federal grant applications to the *committee, the office of financial management, or directly to the legislature;
   b. Establishing a centralized pass-through agency for federal funds, where individual agencies would be the primary applicants.

6. This section expires July 31, 2012. Prior to January 1, 2012, the *committee shall make a formal recommendation to the appropriate committees of the legislature as to whether the existence of the habitat and recreation lands coordinating group should be continued beyond July 31, 2012, and if so, whether any modifications to its enabling statute should be pursued. The *committee shall involve all participants in the habitat and recreation lands coordinating group when developing the recommendations. [2007 c 247 § 1.]

*Reviser’s note: Chapter 241, Laws of 2007 amended RCW 79A.25.010, changing the definition of "committee" to "board."

79A.25.300 Findings. The legislature finds that:
1. The land, water, and other resources of Washington are being severely impacted by the invasion of an increasing number of harmful invasive plant and animal species.
2. These impacts are resulting in damage to Washington’s environment and causing economic hardships.
3. The multitude of public and private organizations with an interest in controlling and preventing the spread of harmful invasive species in Washington need a mechanism for cooperation, communication, collaboration, and developing a statewide plan of action to meet these threats. [2006 c 152 § 1.]

79A.25.310 Washington invasive species council—Created. (1) There is created the Washington invasive species council to exist until December 31, 2011. Staff support to the council shall be provided by the recreation and conservation office and from the agencies represented on the council. For administrative purposes, the council shall be located within the office.

2. The purpose of the council is to provide policy level direction, planning, and coordination for combating harmful invasive species throughout the state and preventing the introduction of others that may be potentially harmful.

3. The council is a joint effort between local, tribal, state, and federal governments, as well as the private sector and nongovernmental interests. The purpose of the council is to foster cooperation, communication, and coordinated approaches that support local, state, and regional initiatives for the prevention and control of invasive species.

4. For the purposes of this chapter, "invasive species" include nonnative organisms that cause economic or environmental harm and are capable of spreading to new areas of the state. "Invasive species" does not include domestic livestock, intentionally planted agronomic crops, or nonharmful exotic organisms. [2007 c 241 § 61; 2006 c 152 § 2.]

Intent—Effective date—2007 c 241: See notes following RCW 79A.25.005.

**YOUTH OR COMMUNITY ATHLETIC FACILITIES**

**79A.25.800 Intent. (Contingent expiration date.)** (1) The legislature recognizes that coordinated funding efforts are needed to maintain, develop, and improve the state’s community outdoor athletic fields. Rapid population growth and increased urbanization have caused a decline in suitable outdoor fields for community athletic activities and has resulted in overcrowding and deterioration of existing surfaces. Lack of adequate community outdoor athletic fields directly affects the health and well-being of all citizens of the state, reduces the state’s economic viability, and prevents Washington from maintaining and achieving the quality of life that it deserves. Therefore, it is the policy of the state and its agencies to maintain, develop, fund, and improve youth or community athletic facilities, including but not limited to community outdoor athletic fields.

(2) In carrying out this policy, the legislature intends to promote the building of new community outdoor athletic fields, the upgrading of existing community outdoor athletic fields, and the maintenance of existing community outdoor athletic fields across the state of Washington. WASHINGTON STATE HORSE PARK

79A.30.020 Park established—Site approval—Ownership of land—Development, promotion, operation, management, and maintenance.
79A.30.050 Collaboration by authority and state on projects of shared interest—Cooperation with groups for youth recreational activities.

79A.30.005 Findings—Purpose. The legislature finds that:

1. Horses are part of a large, highly diverse, and vital industry which provides significant economic, employment, recreational, and educational contributions to residents of and visitors to the state of Washington;

2. Currently there is no adequate facility in the Pacific Northwest with the acreage, services, and capacity to host large regional horse shows, national championships, or Olympics-quality events to showcase and promote this important Washington industry;

3. Establishing a first-class horse park facility in Washington would meet important needs of the state’s horse industry, attract investment, enhance recreational opportunities, and bring new exhibitors and tourists to the state from throughout the region and beyond; and

4. A unique opportunity exists to form a partnership between state, county, and private interests to create a major horse park facility that will provide public recreational opportunities and statewide economic and employment benefits.

It is the purpose of this legislation to create the framework for such a partnership to facilitate development of the Washington state horse park. It is further the intent of the legislature that the state horse park shall be developed in stages, based on factors such as the availability of funds, equipment, and other materials donated by private sources; the availability and willingness of volunteers to work on park development; and the availability of revenues generated by the state horse park as it is developed and utilized. [1995 c 200 § 1. Formerly RCW 67.18.005.]

79A.30.010 Definitions. Unless the context clearly indicates otherwise, the definitions in this section apply throughout this chapter.

(iii) Five board members shall represent the geographic and sports discipline diversity of equestrian interests in the state, and at least one of these members shall have business experience relevant to the organization of horse shows or operation of a horse show facility. In making these appointments, the governor shall solicit recommendations from a variety of active horse-related organizations in the state.

(3) The articles of incorporation shall include a policy that provides for the preferential use of a specific area of the horse park facilities at nominal cost for horse groups associated with youth groups and the disabled.

(4) The governor shall make appointments to fill board vacancies for positions authorized under subsection (2) of this section, upon additional solicitation of recommendations from the board of directors.

(5) The board of directors shall perform their duties in the best interests of the authority, consistent with the standards applicable to directors of nonprofit corporations under RCW 24.03.127. [2000 c 11 § 85; 1995 c 200 § 4. Formerly RCW 67.18.030.]

All debts of the authority shall be in the name of the authority and shall not be debts of the state of Washington for which the state or any state agency shall have any obligation to pay; and the authority may not issue bonds. Neither the full faith and credit of the state nor the state’s taxing power is pledged for any indebtedness of the authority;

(2) Employ and discharge at its discretion employees, agents, advisors, and other personnel;

Agencies authorized to collaborate with the authority include but are not limited to: The commission for activities and projects related to public recreation; the department of agriculture for projects related to the equine agricultural industry; the *department of community, trade, and economic development with respect to community and economic development and tourism issues associated with development of the state horse park; Washington State University with respect to opportunities for animal research, education, and extension; the department of ecology with respect to opportunities for making the state horse park’s waste treatment facilities a demonstration model for the handling of waste to protect water quality; and with local community colleges with respect to programs related to horses, economic development, business, and tourism.

(1) In order to provide for the ever increasing outdoor recreation needs of an expanding resident and tourist population and to promote public access to, travel within, and the enjoyment and appreciation of outdoor areas of Washington, it is declared to be in the public interest to plan a system of trails throughout the state to enable and encourage the public to engage in outdoor recreation activities.

(2) The purpose of this chapter is to provide the means for attaining these objectives by instituting a method for establishing a system of state recreation trails, and by prescribing the manner by which a proposed trail may be included in the system. [1970 ex.s.c 76 § 3. Formerly RCW 67.32.030.]

(1) For existing trails:

(a) The route of such trail, including maps and illustrations, and the recommended mode or modes of travel to be permitted thereon;

(b) The characteristics that, in the judgment of the agency or organization proposing the trail, make it worthy of designation as a component of a state recreation trail or trail system;

79A.35.070 Categories of trails or areas—Policy statement as to certain state lands. The following seven categories of trails or areas are hereby established for purposes of this chapter:

1. Cross-state trails which connect scenic, historical, geological, geographical, or other significant features which are characteristic of the state;
2. Water-oriented trails which provide a designated path to, on, or along fresh and/or salt water in which the water is the primary point of interest;
3. Scenic-access trails which give access to quality recreation, scenic, historic or cultural areas of statewide or national significance;
4. Urban trails which provide opportunities within an urban setting for walking, bicycling, horseback riding, or other compatible activities. Where appropriate, they will connect parks, scenic areas, historical points, and neighboring communities;
5. Historical trails which identify and interpret routes which were significant in the historical settlement and development of the state;
6. ORV vehicle trails which are suitable for use by both four-wheel drive vehicles and two-wheel vehicles. Such trails may be included as a part of the trail systems enumerated in subsections (1), (2), (3) and (5) of this section or may be separately designated;
7. Off-road and off-trail areas which are suitable for use by both four-wheel drive vehicles and two-wheel vehicles. The board shall coordinate an inventory and classification of such areas giving consideration to the type of use such areas will receive from persons operating four-wheel drive vehicles and two-wheel vehicles.

The planning and designation of trails shall take into account and give due regard to the interests of federal agencies, state agencies and bodies, counties, municipalities, private landowners and individuals, and interested recreation organizations. It is not required that the above categories be used to designate specific trails, but the board will assure that full consideration is given to including trails from all categories within the system. As it relates to all classes of trails and to all types of trail users, it is herein declared as state policy to increase recreational trail access to and within state and federally owned lands and private lands where access may be obtained. It is the intent of the legislature that public recreation facilities be developed as fully as possible to provide greater recreation opportunities for the citizens of the state. The purpose of chapter 153, Laws of 1972 ex. sess. is to increase the availability of trails and areas for off-road vehicles by granting authority to state and local governments to maintain a system of ORV trails and areas, and to fund the program to provide for such development. State lands should be used as fully as possible for all public recreation which is compatible with the income-producing requirements of the various trusts.

79A.35.080 General types of use. All trails designated as state recreational trails will be constructed, maintained, and operated to provide for one or more of the following general types of use: Foot, foot powered bicycle, horse, motor vehicular or watercraft travel as appropriate to the terrain and location, or to legal, administrative, or other necessary restraints. It is further provided that the same trail shall not be designated for use by foot and vehicular travel at the same time.

79A.35.090 Guidelines. With the concurrence of any federal or state agency administering lands through which a state recreation trail may pass, and after consultation with local governments, private organizations and landowners which the board knows or believes to be concerned, the board may issue guidelines including, but not limited to: Encouraging the permissive use of volunteer organizations for planning, maintenance, or trail construction assistance; trail construction and maintenance standards, a trail use reporting procedure, and a uniform trail mapping system.

79A.35.100 Consultation and cooperation with state, federal, and local agencies. The board is authorized and encouraged to consult and to cooperate with any state, federal, or local governmental agency or body including special districts subject to the provisions of chapter 85.38 RCW, with private landowners, and with any privately owned utility having jurisdiction or control over or information concerning the use, abandonment, or disposal of roadways, utility rights-of-way, dikes or levees, or other properties suitable for the purpose of improving or expanding the system in order to assure, to the extent practicable, that any such properties having value for state recreation trail purposes may be made available for such use.

79A.35.110 Participation by volunteer organizations—Liability of public agencies therefor limited. Volunteer organizations may assist public agencies, with the agency’s approval, in the construction and maintenance of...
recreational trails in accordance with the guidelines issued by the board. In carrying out such volunteer activities the members of the organizations shall not be considered employees or agents of the public agency administering the trails, and such public agencies shall not be subject to any liability whatsoever arising out of volunteer activities. The liability of public agencies to members of such volunteer organizations shall be limited in the same manner as provided for in RCW 4.24.210. [2007 c 241 § 70; 1971 ex.s. c 47 § 4. Formerly RCW 67.32.130.]

All such policies shall be adopted by the commission in accordance with the provisions of chapter 34.05 RCW, as now or hereafter amended. Intent—1993 c 244: See note following RCW 79A.60.630.

Intent—1993 c 244: It is the intent of the legislature that the boating safety laws administered by the state parks and recreation commission provide Washington’s citizens with clear and reasonable boating safety regulations and penalties. Therefore, the legislature intends to recodify, clarify, and partially decriminalize the statewide boating safety laws in order to help the boating community understand and comply with these laws.

It is also the intent of the legislature to increase boat registration fees in order to provide additional funds to local governments for boating safety enforcement and education programs. The funds are to be used for enforcement, education, training, and equipment, including vessel noise measurement equipment. The legislature encourages programs that provide boating safety education in the primary and secondary school system for boat owners and potential future boat users. The legislature also encourages boating safety programs that use volunteer and private sector efforts to enhance boating safety and education." [1993 c 244 § 1.]

79A.60.130 Muffler or underwater exhaust system required—Exemptions—Enforcement—Penalty. (1) All motor-propelled vessels shall be equipped and maintained with an effective muffler that is in good working order and in constant use. For the purpose of this section, an effective muffler or underwater exhaust system does not produce sound levels in excess of ninety decibels when subjected to a stationary sound level test that shall be prescribed by rules adopted by the commission, as of July 25, 1993, and for engines manufactured on or after January 1, 1994, a noise level of eighty-eight decibels when subjected to a stationary sound level test that shall be prescribed by rules adopted by the commission.

(2) A vessel that does not meet the requirements of subsection (1) of this section shall not be operated on the waters of this state.

(3) No person may operate a vessel on waters of the state in such a manner as to exceed a noise level of seventy-five decibels measured from any point on the shoreline of the body of water on which the vessel is being operated that shall be specified by rules adopted by the commission, as of July 25, 1993. Such measurement shall not preclude a stationary sound level test that shall be prescribed by rules adopted by the commission.

(4) This section does not apply to: (a) A vessel tuning up, testing for, or participating in official trials for speed records or a sanctioned race conducted pursuant to a permit issued by an appropriate governmental agency; or (b) a vessel being operated by a vessel or marine engine manufacturer for the purpose of testing or development. (5) Any officer authorized to enforce this section who has reason to believe that a vessel is not in compliance with the noise levels established in this section may direct the operator of the vessel to submit the vessel to an on-site test to measure noise level, with the officer on board if the officer chooses, and the operator shall comply with such request. If the vessel exceeds the decibel levels established in this sec-
tion, the officer may direct the operator to take immediate and reasonable measures to correct the violation.

(8) A person shall not manufacture, sell, or offer for sale any vessel that is not equipped with a muffler or muffler system that does not comply with this chapter. This subsection shall not apply to power vessels designed, manufactured, and sold for the sole purpose of competing in racing events and for no other purpose. Any such exemption or exception shall be documented in any and every sale agreement and shall be formally acknowledged by signature on the part of both the buyer and the seller. Copies of the agreement shall be maintained by both parties. A copy shall be kept on board whenever the vessel is operated.

(9) Except as provided in RCW 79A.60.020, a violation of this section is an infraction under chapter 7.84 RCW.

(10) Vessels that are equipped with an engine modified to increase performance beyond the engine manufacturer’s stock configuration shall have an exhaust system that complies with the standards in this section after January 1, 1994. Until that date, operators or owners, or both, of such vessels with engines that are out of compliance shall be issued a warning and be given educational materials about types of muffling systems available to muffle noise from such high performance engines.

(11) Nothing in this section preempts a local government from exercising any power that it possesses under the laws or Constitution of the state of Washington to adopt more stringent regulations. [2000 c 11 § 97; 1993 c 244 § 39. Formerly RCW 88.12.085.]

The commission shall prescribe the different types of devices that are appropriate for the different uses, such as water skiing or operation of a personal watercraft. In adopting its rules the commission shall consider the United States coast guard rules or regulations. The commission may approve devices inspected and approved by the coast guard without conducting any inspection of the devices itself.

(2) In situations where personal flotation devices are required under provisions of this chapter, the devices shall be in good and serviceable condition and of appropriate size. If they are not, then they shall not be considered as personal flotation devices under such provisions. [1993 c 244 § 12. Formerly RCW 88.12.095.]

79A.60.150 Failure of vessel to contain required equipment—Liability of operator or owner—Penalty. If an infraction is issued under this chapter because a vessel does not contain the required equipment and if the operator is not the owner of the vessel, but is operating the vessel with the express or implied permission of the owner, then either or both operator or owner may be cited for the infraction. [1993 c 244 § 13. Formerly RCW 88.12.105.]

(4) No person shall operate a vessel under nineteen feet in length on the waters of this state with a child twelve years old and under, unless the child is wearing a personal flotation device that meets or exceeds the United States coast guard approval standards of the appropriate size, while the vessel is underway. For the purposes of this section, a personal flotation device is not considered readily accessible for children twelve years old and under unless the device is worn by the child while the vessel is underway. The personal flotation device must be worn at all times by a child twelve years old and under whenever the vessel is underway and the child is on an open deck or open cockpit of the vessel. The following circumstances are excepted:

(a) While a child is below deck or in the cabin of a boat with an enclosed cabin;

(b) While a child is on a United States coast guard inspected passenger-carrying vessel operating on the navigable waters of the United States; or

(c) While on board a vessel at a time and place where no person would reasonably expect a danger of drowning to occur.

(5) Except as provided in RCW 79A.60.020, a violation of subsection (4) of this section is an infraction under chapter 7.84 RCW. Enforcement of subsection (4) of this section by law enforcement officers may be accomplished as a primary action, and need not be accompanied by the suspected violation of some other offense. [2000 c 11 § 98; 1999 c 310 § 1; 1993 c 244 § 14; 1933 c 72 § 5; RRS § 9851-5. Formerly RCW 88.12.115 and 88.12.050.]

(2) No vessel operator may tow or attempt to tow a water skier on any waters of Washington state unless such craft
shall be occupied by at least an operator and an observer. The observer shall continuously observe the person or persons being towed and shall display a flag immediately after the towed person or persons fall into the water, and during the time preparatory to skiing while the person or persons are still in the water. Such flag shall be a bright red or brilliant orange color, measuring at least twelve inches square, mounted on a pole not less than twenty-four inches long and displayed as to be visible from every direction. This subsection does not apply to a personal watercraft, the design of which makes no provision for carrying an operator or any other person on board, and that is actually operated by the person or persons being towed. Every remote-operated personal watercraft shall have a flag attached which meets the requirements of this subsection. Except as provided under RCW 79A.60.020, a violation of this subsection is an infraction under chapter 7.84 RCW.

(3) The observer and the operator shall not be the same person. The observer shall be an individual who meets the minimum qualifications for an observer established by rules of the commission. 79A.60.510 Findings—Sewage disposal initiative established—Boater environmental education—Waterway access facilities. The legislature finds that the waters of Washington state provide a unique and valuable recreational resource to large and growing numbers of boaters. Proper stewardship of, and respect for, these waters requires that, while enjoying them for their scenic and recreational benefits, boaters must exercise care to assure that such activities do not contribute to the despoliation of these waters, and that watercraft be operated in a safe and responsible manner. The legislature has specifically addressed the topic of access to clean and safe waterways by requiring the 1987 boating safety study and by establishing the Puget Sound partnership.

The legislature finds that there is a need to educate Washington’s boating community about safe and responsible actions on our waters and to increase the level and visibility of the enforcement of boating laws. To address the incidence of fatalities and injuries due to recreational boating on our state’s waters, local and state efforts directed towards safe boating must be stimulated. To provide for safe waterways and public enjoyment, portions of the watercraft excise tax and boat registration fees should be made available for boating safety and other boating recreation purposes.

In recognition of the need for clean waterways, and in keeping with the Puget Sound partnership’s water quality work plan, the legislature finds that adequate opportunities for responsible disposal of boat sewage must be made available. There is hereby established a five-year initiative to install sewage pumpout or sewage dump stations at appropriate marinas.

To assure the use of these sewage facilities, a boater environmental education program must accompany the five-year initiative and continue to educate boaters about boat wastes and aquatic resources.

The legislature also finds that, in light of the increasing numbers of boaters utilizing state waterways, a program to acquire and develop sufficient waterway access facilities for boaters must be undertaken.

To support boating safety, environmental protection and education, and public access to our waterways, the legislature declares that a portion of the income from boating-related activities, as specified in RCW 82.49.030 and *88.02.040, should support these efforts. 79A.60.600 Liquid petroleum gas leak warning devices—Findings. (1) The legislature finds that:

(a) Washington state has the greatest length of marine shoreline miles of the lower forty-eight states;

(b) Such marine waters and the extensive freshwater lakes and rivers of the state provide innumerable recreational opportunities, and support a state recreational vessel population that is one of the largest in the country;

(c) Many of Washington’s popular recreational waters are remote from population centers and thus remote from emergency health care facilities;

(d) Washington’s climate in the western portion of the state, in which its marine recreational waters lie, is cool and wet for much of the year. Much of the state’s recreational vessel activity is conducted in the late fall and winter months in connection with fishing activities. For these reasons the great majority of Washington vessels are equipped with heating devices. These appliances are in use for a much greater portion of the boating season than in other states, and are predominantly fueled by liquid petroleum gas;

(e) Current state and federal standards governing heating and cooking appliances on vessels that are fueled by liquid petroleum gas do not adequately protect against undetected gas leaks. Such gas leaks have led to explosions on Washington waters, causing loss of life and property damage;

(f) The commission coordinates a statewide program of boating safety education to communicate accident prevention information to boaters at risk of fires, explosions, and other hazards, and administers a boating accident reporting pro-
program to assess the effectiveness of accident prevention measures.

(2) It is the intent of the legislature to address the state’s unique local circumstances regarding inadequate protection of Washington’s boaters from undetected leaks of liquid petroleum gas-fueled appliances by incorporating into the boating safety program an intensified boating fire prevention program with special emphasis on preventing fires and carbon monoxide poisoning caused by auxiliary fuels and appliances. The boating fire prevention education program shall provide for the distribution of fire safety materials and decals warning of fire hazards and for educational opportunities to educate boaters on the safety practices needed to operate heaters, stoves, and other appliances in Washington’s unique aquatic environment. The commission shall evaluate the boating public’s voluntary participation in the program and the program’s impact on safe boating. [2006 c 140 § 4; 1994 c 151 § 2. Formerly RCW 88.12.505.]

Washington sea grant shall coordinate the spill prevention education program with recreational boater education performed by the state parks and recreation commission.

(2) The spill prevention education program shall illustrate ways to reduce oil contamination of bilge water, accidental spills of hydraulic fluid and other hazardous substances during routine maintenance, and reduce spillage during refueling. The program shall illustrate proper disposal of oil and hazardous substances and promote strategies to meet shoreside oil and hazardous substance handling, and disposal needs of the targeted groups. The program shall include a series of training workshops and the development of educational materials. [2000 c 11 § 114; 1991 c 200 § 110. Formerly RCW 90.56.090.]

79A.60.630 Boating safety education—Commission’s duties—Fee—Report to the legislature. (1) The commission shall establish and implement by rule a program to provide required boating safety education. The boating safety education program shall include training on preventing the spread of aquatic invasive species. The program shall be phased in so that all boaters not exempted under RCW 79A.60.640(3) are required to obtain a boater education card by January 1, 2016. To obtain a boater education card, a boater shall provide a certificate of accomplishment issued by a boating educator for taking and passing an accredited boating safety education course, or pass an equivalency exam, or provide proof of completion of a course that meets the standard adopted by the commission.

(2) As part of the boating safety education program, the commission shall:

(a) Establish a program to be phased over eleven years starting July 1, 2005, with full implementation by January 1, 2016. The period July 1, 2005, through December 31, 2007, will be program development, boater notification of the new requirements for mandatory education, and processing cards to be issued to individuals having taken an accredited course prior to January 1, 2008. The schedule for phase-in of the mandatory education requirement by age group is as follows: January 1, 2008 - All boat operators twenty years old and younger; January 1, 2009 - All boat operators twenty-five years old and younger; January 1, 2010 - All boat operators thirty years old and younger; January 1, 2011 - All boat operators thirty-five years old and younger; January 1, 2012 - All boat operators forty years old and younger; January 1, 2013 - All boat operators fifty years old and younger; January 1, 2014 - All boat operators sixty years old and younger; January 1, 2015 - All boat operators seventy years old and younger; January 1, 2016 - All boat operators;

(b) Establish a minimum standard of boating safety education accomplishment. The standard must be consistent with the applicable standard established by the national association of state boating law administrators;

(c) Adopt minimum standards for boating safety education course of instruction and examination that ensures compliance with the national association of state boating law administrators minimum standards;

(d) Approve and provide accreditation to boating safety education courses operated by volunteers, or commercial or nonprofit organizations, including, but not limited to, courses given by the United States coast guard auxiliary and the United States power squadrons;

(e) Develop an equivalency examination that may be taken as an alternative to the boating safety education course;

(f) Establish a fee of ten dollars for the boater education card to fund all commission activities related to the boating safety education program created by chapter 392, Laws of 2005, including the initial costs of developing the program. Any surplus funds resulting from the fees received shall be distributed by the commission as grants to local marine law enforcement programs approved by the commission as provided in *RCW 88.02.040;

(g) Establish a fee for the replacement of the boater education card that covers the cost of replacement;

(h) Consider and evaluate public agency and commercial opportunities to assist in program administration with the intent to keep administrative costs to a minimum;

(i) Approve and provide accreditation to boating safety education courses offered online; and

(2010 Ed.)
(j) Provide a report to the legislature by January 1, 2008, on its progress of implementation of the mandatory education program. [2005 c 392 § 3.]

*Reviser's note: RCW 88.02.040 was recodified as RCW 88.02.650 pursuant to 2010 c 161 § 1234, effective July 1, 2011.

**Intent—2005 c 392:** "It is the intent of the legislature to establish a boating safety education program that contributes to the reduction of accidents and increases the enjoyment of boating by all operators of all recreational vessels on the waters of this state. Based on the 2003 report to the legislature titled "Recreational Boating Safety in Washington, A Report on Methods to Achieve Safer Boating Practices," the legislature recognizes that boating accidents also occur in nonmotorized vessels in this state, but, at this time there is no national educational standard for nonmotorized vessels. Therefore, the commission is hereby authorized and directed to work with agencies and organizations representing nonmotorized vessel activities and individuals operating nonmotorized vessels to decrease accidents of operators in these vessels. It is also the intent of the legislature to encourage boating safety education programs that use volunteer and private sector efforts to enhance boating safety and education for operators of nonmotorized vessels to work closely with the state parks and recreation commission in its efforts to reduce all boating accidents in this state." (g) Any person who has purchased the boat or vessel within the last sixty days, and has a bill of sale in his or her possession to document the date of purchase;

(h) Any person, including those less than twelve years of age, who is involved in practicing for, or engaging in, a permitted racing event where a valid document has been issued by the appropriate local, state, or federal government agency for the event, and is available for inspection on-site during the racing event;

Chapter 79A.65 RCW

Securing unauthorized vessels—Notice—Claiming vessels—Abandoned vessels—Derelict vessel removal account. (1) The commission may take reasonable measures, including but not limited to the use of anchors, chains, ropes, and locks, or removal from the water, to secure unauthorized vessels located at or on a commission facility so that the unauthorized vessels are in the possession and control of the commission. At least ten days before securing any unauthorized registered vessel, the commission shall send notification by registered mail to the last registered owner or registered owners of the vessel at their last known address or addresses.

(2) The commission may take reasonable measures, including but not limited to the use of anchors, chains, ropes, locks, or removal from the water, to secure any vessel if the vessel, in the opinion of the commission, is a nuisance, is in danger of sinking or creating other damage to a commission facility, or is otherwise a threat to the health, safety, or welfare of the public or environment at a commission facility. The costs of any such procedure shall be paid by the vessel’s owner.
(3) At the time of securing any vessel under subsection (1) or (2) of this section, the commission shall attach to the vessel a readily visible notice or, when practicable, shall post such notice in a conspicuous location at the commission facility in the event the vessel is removed from the premises. The notice shall be of a reasonable size and shall contain the following information:

(a) The date and time the notice was attached or posted;
(b) A statement that the vessel has been secured by the commission and that if the commission's charges, if any, are not paid and the vessel is not removed by . . . . . (the thirty-fifth consecutive day following the date of attachment or posting of the notice), the vessel will be considered abandoned and will be sold at public auction to satisfy the charges;
(c) The address and telephone number where additional information may be obtained concerning the securing of the vessel and conditions for its release; and
(d) A description of the owner's or secured party's rights under this chapter.

(4) With respect to registered vessels: Within five days of the date that notice is attached or posted under subsection (3) of this section, the commission shall send such notice, by registered mail, to each registered owner.

(5) If a vessel is secured under subsection (1) or (2) of this section, the owner, or any person with a legal right to possess the vessel, may claim the vessel by:

(a) Making arrangements satisfactory to the commission for the immediate removal of the vessel from the commission's control or for authorized storage or moorage; and
(b) Making payment to the commission of all reasonable charges incurred by the commission in securing the vessel under subsections (1) and (2) of this section and of all moorage fees owed to the commission.

(6) A vessel is considered abandoned if, within the thirty-five-day period following the date of attachment or posting of notice in subsection (3) of this section, the vessel has not been claimed under subsection (5) of this section.

(7) If the owner or owners of a vessel are unable to reimburse the commission for all reasonable charges under subsections (1) and (2) of this section within a reasonable time, the commission may seek reimbursement of seventy-five percent of all reasonable and auditable costs from the derelict vessel removal account established in RCW 79.100.100.

Severability—Effective date—2002 c 286: See RCW 79.100.900 and 79.100.901.

79A.65.030 Sale of abandoned vessels—Notice—Redemption of vessels—Use of proceeds—Disposal of vessels. (1) The commission may provide for the public sale of vessels considered abandoned under RCW 79A.65.020. At such sales, the vessels shall be sold for cash to the highest and best bidder. The commission may establish either a minimum bid or require a letter of credit, or both, to discourage the future reabandonment of the vessel.

(2) Before a vessel is sold, the commission shall make a reasonable effort to provide notice of sale, at least twenty days before the day of the sale, to each registered owner of a registered vessel and each owner of an unregistered vessel. The notice shall contain the time and place of the sale, a reasonable description of the vessel to be sold, and the amount of charges then owing with respect to the vessel, and a summary of the rights and procedures under this chapter. A notice of sale shall be published at least once, more than ten but not more than twenty days before the sale, in a newspaper of general circulation in the county in which the commission facility is located. This notice shall include: (a) If known, the name of the vessel and the last owner and the owner's address; and (b) a reasonable description of the vessel. The commission may bid all or part of its charges at the sale and may become a purchaser at the sale.

(3) Before a vessel is sold, any person seeking to redeem a secured vessel may commence a lawsuit in the superior court for the county in which the vessel was secured to contest the commission's decision to secure the vessel or the amount of charges owing. This lawsuit shall be commenced within fifteen days of the date the notification was posted under RCW 79A.65.020(3), or the right to a hearing is deemed waived and the owner is liable for any charges owing the commission. In the event of litigation, the prevailing party is entitled to reasonable attorneys' fees and costs.

(4) The proceeds of a sale under this section shall be applied first to the payment of the amount of the reasonable charges incurred by the commission and moorage fees owed to the commission, then to the owner or to satisfy any liens of record or security interests of record on the vessel in the order of their priority. If an owner cannot in the exercise of due diligence be located by the commission within one year of the date of the sale, any excess funds from the sale, following the satisfaction of any bona fide security interest, shall revert to the derelict vessel removal account established in RCW 79.100.100. If the sale is for a sum less than the applicable charges, the commission is entitled to assert a claim for the deficiency against the vessel owner. Nothing in this section prevents any lien holder or secured party from asserting a claim for any deficiency owed the lien holder or secured party.

(5) If no one purchases the vessel at a sale, the commission may proceed to properly dispose of the vessel in any way the commission considers appropriate, including, but not limited to, destruction of the vessel or by negotiated sale. The commission may assert a claim against the owner for any charges incurred thereby. If the vessel, or any part of the vessel, or any rights to the vessel, are sold under this subsection, any proceeds from the sale shall be distributed in the manner provided in subsection (4) of this section.

Severability—Effective date—2002 c 286: See RCW 79.100.900 and 79.100.901.

79A.65.040 Action to recover charges—Attorneys' fees—Costs. If the full amount of all charges due the commission on an unauthorized vessel is not paid to the commission within thirty days after the date on which notice is affixed or posted under RCW 79A.65.020(3), the commission may bring an action in any court of competent jurisdiction to recover the charges, plus reasonable attorneys' fees and costs incurred by the commission.
