70.38.920 Short title.

70.38.015 Declaration of public policy. It is declared to be the public policy of this state:

(1) That strategic health planning efforts must be supported by appropriately tailored regulatory activities that can effectuate the goals and principles of the statewide health resources strategy developed pursuant to chapter 43.370 RCW. The implementation of the strategy can promote, maintain, and assure the health of all citizens in the state, provide accessible health services, health manpower, health facilities, and other resources while controlling increases in costs, and recognize prevention as a high priority in health programs. Involvement in health planning from both consumers and providers throughout the state should be encouraged;

(2) That the certificate of need program is a component of a health planning regulatory process that is consistent with the statewide health resources strategy and public policy goals that are clearly articulated and regularly updated;

(3) That the development and maintenance of adequate health care information, statistics and projections of need for health facilities and services is essential to effective health planning and resources development;

(4) That the development of nonregulatory approaches to health care cost containment should be considered, including the strengthening of price competition; and

(5) That health planning should be concerned with public health and health care financing, access, and quality, recognizing their close interrelationship and emphasizing cost control of health services, including cost-effectiveness and cost-
benefit analysis. [2007 c 259 § 55; 1989 1st ex.s. c 9 § 601; 1983 c 235 § 1; 1980 c 139 § 1; 1979 ex.s. c 161 § 1.]

Severability—Subheadings not law—2007 c 259: See notes following RCW 41.05.033.

70.38.018 Statewide health resources strategy—Consistency—Waivers. (1) For the purposes of this section and RCW 70.38.015 and 70.38.135, "statewide health resource strategy" or "strategy" means the statewide health resource strategy developed by the office of financial management pursuant to chapter 43.370 RCW.

(2) Effective January 1, 2010, for those facilities and services covered by the certificate of need programs, certificate of need determinations must be consistent with the statewide health resources strategy developed pursuant to RCW 43.370.030, including any health planning policies and goals identified in the statewide health resources strategy in effect at the time of application. The department may waive specific terms of the strategy if the applicant demonstrates that consistency with those terms will create an undue burden on the population that a particular project would serve, or in emergency circumstances which pose a threat to public health. [2007 c 259 § 56.]

Severability—Subheadings not law—2007 c 259: See notes following RCW 41.05.033.

Where a person makes an acquisition under lease or comparable arrangement, or through donation, which would have required review if the acquisition had been made by purchase, such expenditure shall be deemed a capital expenditure. Capital expenditures include donations of equipment or facilities to a nursing home facility which if acquired directly by such facility would be subject to certificate of need review under the provisions of this chapter and transfer of equipment or facilities for less than fair market value if a transfer of the equipment or facilities at fair market value would be subject to such review. The cost of any studies, surveys, designs, plans, working drawings, specifications, and other activities essential to the acquisition, improvement, expansion, or replacement of any plant or equipment with respect to which such expenditure is made shall be included in determining the amount of the expenditure.

(4) "Department" means the department of health.

(5) "Expenditure minimum" means, for the purposes of the certificate of need program, one million dollars adjusted by the department by rule to reflect changes in the United States department of commerce composite construction cost index; or a lesser amount required by federal law and established by the department by rule.

(6) "Health care facility" means hospices, hospice care centers, hospitals, psychiatric hospitals, nursing homes, kidney disease treatment centers, ambulatory surgical facilities, and home health agencies, and includes such facilities when owned and operated by a political subdivision or instrumentality of the state and such other facilities as required by federal law and implementing regulations, but does not include any health facility or institution conducted by and for those who rely exclusively upon treatment by prayer or spiritual means in accordance with the creed or tenets of any well-recognized church or religious denomination, or any health facility or institution operated for the exclusive care of members of a convent as defined in RCW 84.36.800 or rectory, monastery, or other institution operated for the care of members of the clergy. In addition, the term does not include any nonprofit hospital: (a) Which is operated exclusively to provide health care services for children; (b) which does not charge fees for such services; and (c) if not contrary to federal law as necessary to the receipt of federal funds by the state.

(7) "Health maintenance organization" means a public or private organization, organized under the laws of the state, which:

(a) Is a qualified health maintenance organization under Title XIII, section 1310(d) of the Public Health Services [Service] Act; or

(b)(i) Provides or otherwise makes available to enrolled participants health care services, including at least the following basic health care services: Usual physician services, hospitalization, laboratory, X-ray, emergency, and preventive services, and out-of-area coverage; (ii) is compensated (except for copayments) for the provision of the basic health care services listed in (b)(i) to enrolled participants by a payment which is paid on a periodic basis without regard to the date the health care services are provided and which is fixed without regard to the frequency, extent, or kind of health service actually provided; and (iii) provides physicians’ services primarily (A) directly through physicians who are either employees or partners of such organization, or (B) through arrangements with individual physicians or one or more groups of physicians (organized on a group practice or individual practice basis).

(8) "Health services" means clinically related (i.e., preventive, diagnostic, curative, rehabilitative, or palliative) services and includes alcoholism, drug abuse, and mental health services and as defined in federal law.

(9) "Health service area" means a geographic region appropriate for effective health planning which includes a broad range of health services.
(10) "Person" means an individual, a trust or estate, a partnership, a corporation (including associations, joint stock companies, and insurance companies), the state, or a political subdivision or instrumentality of the state, including a municipal corporation or a hospital district.

(11) "Provider" generally means a health care professional or an organization, institution, or other entity providing health care but the precise definition for this term shall be established by rule of the department, consistent with federal law.

(12) "Public health" means the level of well-being of the general population; those actions in a community necessary to preserve, protect, and promote the health of the people for which government is responsible; and the governmental system developed to guarantee the preservation of the health of the people.

(13) "Secretary" means the secretary of health or the secretary's designee.

(14) "Tertiary health service" means a specialized service that meets complicated medical needs of people and requires sufficient patient volume to optimize provider effectiveness, quality of service, and improved outcomes of care.

(15) "Hospital" means any health care institution which is required to qualify for a license under *RCW 70.41.020(2); or as a psychiatric hospital under chapter 71.12 RCW. [2000 c 175 § 22; 1997 c 210 § 2; 1991 c 158 § 1; 1989 1st ex.s. c 9 § 602; 1988 c 20 § 1; 1983 1st ex.s. c 41 § 43; 1983 c 235 § 2; 1982 c 119 § 1; 1980 c 139 § 2; 1979 ex.s. c 161 § 2.]

(2) There shall be a state certificate of need program which is administered consistent with the requirements of federal law as necessary to the receipt of federal funds by the state.

(3) No person shall engage in any undertaking which is subject to certificate of need review under subsection (4) of this section without first having received from the department either a certificate of need or an exception granted in accordance with this chapter.

(4) The following shall be subject to certificate of need review under this chapter:

(a) The construction, development, or other establishment of a new health care facility including, but not limited to, a hospital constructed, developed, or established by a health maintenance organization or by a combination of health maintenance organizations except as provided in subsection (7)(a) of this section;

(b) The sale, purchase, or lease of part or all of any existing hospital as defined in RCW 70.38.025 including, but not limited to, a hospital sold, purchased, or leased by a health maintenance organization or by a combination of health maintenance organizations except as provided in subsection (7)(b) of this section;

(c) Any capital expenditure for the construction, renovation, or alteration of a nursing home which substantially changes the services of the facility after January 1, 1981, provided that the substantial changes in services are specified by the department in rule;

However, a capital expenditure which is not subject to certificate of need review under (a), (b), (c), or (e) of this subsection and which is solely for any one or more of the following is not subject to certificate of need review:

(i) Communications and parking facilities;

(ii) Mechanical, electrical, ventilation, heating, and air conditioning systems;

(iii) Energy conservation systems;

(iv) Repairs to, or the correction of, deficiencies in existing physical plant facilities which are necessary to maintain state licensure, however, other additional repairs, remodeling, or replacement projects that are not related to one or more deficiency citations and are not necessary to maintain state licensure are not exempt from certificate of need review except as otherwise permitted by (d)(vi) of this subsection or RCW 70.38.115(13);

(e) A change in bed capacity of a health care facility which increases the total number of licensed beds or redistributes beds among acute care, nursing home care, and assisted living facility care if the bed redistribution is to be effective for a period in excess of six months, or a change in bed capacity of a rural health care facility licensed under RCW 70.175.100 that increases the total number of nursing home beds of redistributes beds from acute care or assisted living facility care to nursing home care if the bed redistribution is to be effective for a period in excess of six months. If there is a nursing home licensed under chapter 18.51 RCW within twenty-seven miles of the critical access hospital, the
Critical access hospital is subject to certificate of need review except for:

(i) Critical access hospitals which had designated beds to provide nursing home care, in excess of five swing beds, prior to December 31, 2003;

(ii) Up to five swing beds; or

(f) Any new tertiary health services which are offered in or through a health care facility or rural health care facility licensed under RCW 70.175.100, and which were not offered on a regular basis by, in, or through such health care facility or rural health care facility within the twelve-month period prior to the time such services would be offered;

(g) Any expenditure for the construction, renovation, or alteration of a nursing home or change in nursing home services in excess of the expenditure minimum made in preparation for any undertaking under this subsection (4) of this section and any arrangement or commitment made for financing such undertaking. Expenditures of preparation shall include expenditures for architectural designs, plans, working drawings, and specifications. The department may issue certificates of need permitting predevelopment expenditures, only, without authorizing any subsequent undertaking with respect to which such predevelopment expenditures are made; and

(h) Any increase in the number of dialysis stations in a kidney disease center.

(5) The department is authorized to charge fees for the review of certificate of need applications and requests for exemptions from certificate of need review. The fees shall be sufficient to cover the full cost of review and exemption, which may include the development of standards, criteria, and policies.

(6) No person may divide a project in order to avoid review requirements under any of the thresholds specified in this section.

(7)(a) The requirement that a health maintenance organization obtain a certificate of need under subsection (4)(a) of this section for the construction, development, or other establishment of a hospital does not apply to a health maintenance organization operating a group practice that has been continuously licensed as a health maintenance organization since January 1, 2009.

(c) A health care facility (or portion thereof) if (i) the facility is or will be leased by a health maintenance organization or a combination of health maintenance organizations which has, in the service area of the organization or the service areas of the organizations in the combination, an enrollment of at least fifty thousand individuals and, on the date the application is submitted under subsection (2) of this section, at least fifteen years remain in the term of the lease, (ii) the facility is or will be geographically located so that the service will be reasonably accessible to such enrolled individuals, and (iii) at least seventy-five percent of the patients who can reasonably be expected to receive the tertiary health service will be individuals enrolled with such organization or organizations in the combination; or

(2) A health maintenance organization, combination of health maintenance organizations, or health care facility shall not be exempt under subsection (1) of this section from obtaining a certificate of need before offering a tertiary health service unless:
(a) It has submitted at least thirty days prior to the offering of services reviewable under RCW 70.38.105(4)(d) an application for such exemption; and

(b) The application contains such information respecting the organization, combination, or facility and the proposed offering or obligation by a nursing home as the department may require to determine if the organization or combination meets the requirements of subsection (1) of this section or the facility meets or will meet such requirements; and

(c) The department approves such application. The department shall approve or disapprove an application for exemption within thirty days of receipt of a completed application. In the case of a proposed health care facility (or portion thereof) which has not begun to provide tertiary health services on the date an application is submitted under this subsection with respect to such facility (or portion), the facility (or portion) shall meet the applicable requirements of subsection (1) of this section when the facility first provides such services. The department shall approve an application submitted under this subsection if it determines that the applicable requirements of subsection (1) of this section are met.

(3) A health care facility (or any part thereof) with respect to which an exemption was granted under subsection (1) of this section may not be sold or leased and a controlling interest in such facility or in a lease of such facility may not be acquired and a health care facility described in (1)(c) which was granted an exemption under subsection (1) of this section may not be used by any person other than the lessee described in (1)(c) unless:

(a) The department issues a certificate of need approving the sale, lease, acquisition, or use; or

(b) The department determines, upon application, that (i) the entity to which the facility is proposed to be sold or leased, which intends to acquire the controlling interest, or which intends to use the facility is a health maintenance organization or a combination of health maintenance organizations which meets the requirements of (1)(a)(i), and (ii) with respect to such facility, meets the requirements of (1)(a)(ii) or (iii) or the requirements of (1)(b)(i) and (ii).

(4) In the case of a health maintenance organization, an ambulatory care facility, or a health care facility which ambulatory or health care facility is controlled, directly or indirectly, by a health maintenance organization or a combination of health maintenance organizations, the department may under the program apply its certificate of need requirements to the offering of inpatient tertiary health services to the extent that such offering is not exempt under the provisions of this section or RCW 70.38.105(7).

(5)(a) The department shall not require a certificate of need for the construction, development, or other establishment of a nursing home, or the addition of beds to an existing nursing home, that is owned and operated by a continuing care retirement community that:

(i) Offers services only to contractual members;

(ii) Provides its members a contractually guaranteed range of services from independent living through skilled nursing, including some assistance with daily living activities;

(iii) Contractually assumes responsibility for the cost of services exceeding the member’s financial responsibility under the contract, so that no third party, with the exception of insurance purchased by the retirement community or its members, but including the medicaid program, is liable for costs for care even if the member depletes his or her personal resources;

(iv) Has offered continuing care contracts and operated a nursing home continuously since January 1, 1988, or has obtained a certificate of need to establish a nursing home;

(v) Maintains a binding agreement with the state assuring that financial liability for services to members, including nursing home services, will not fall upon the state;

(vii) Has obtained a professional review of pricing and long-term solvency within the prior five years which was fully disclosed to members.

(b) A continuing care retirement community shall not be exempt under this subsection from obtaining a certificate of need unless:

(i) It has submitted an application for exemption at least thirty days prior to commencing construction of, is submitting an application for the licensure of, or is commencing operation of a nursing home, whichever comes first; and

(ii) The application documents to the department that the continuing care retirement community qualifies for exemption.

(c) The sale, lease, acquisition, or use of part or all of a continuing care retirement community nursing home that qualifies for exemption under this subsection shall require prior certificate of need approval to qualify for licensure as a nursing home unless the department determines such sale, lease, acquisition, or use is by a continuing care retirement community that meets the conditions of (a) of this subsection.

(6) A rural hospital, as defined by the department, reducing the number of licensed beds to become a rural primary care hospital under the provisions of Part A Title XVIII of the Social Security Act Section 1820, 42 U.S.C., 1395c et seq. may, within three years of the reduction of beds licensed under chapter 70.41 RCW, increase the number of licensed beds to no more than the previously licensed number without being subject to the provisions of this chapter.

(7) A rural health care facility licensed under RCW 70.175.100 formerly licensed as a hospital under chapter 70.41 RCW may, within three years of the effective date of the rural health care facility license, apply to the department for a hospital license and not be subject to the requirements of RCW 70.38.105(4)(a) as the construction, development, or other establishment of a new hospital, provided there is no increase in the number of beds previously licensed under chapter 70.41 RCW and there is no redistribution in the number of beds used for acute care or long-term care, the rural health care facility has been in continuous operation, and the rural health care facility has not been purchased or leased.

(8)(a) A nursing home that voluntarily reduces the number of its licensed beds to provide assisted living, licensed assisted living facility care, adult day care, adult day health, respite care, hospice, outpatient therapy services, congregate meals, home health, or senior wellness clinic, or to reduce to one or two the number of beds per room or to otherwise
enhance the quality of life for residents in the nursing home, may convert the original facility or portion of the facility back, and thereby increase the number of nursing home beds to no more than the previously licensed number of nursing home beds without obtaining a certificate of need under this chapter, provided the facility has been in continuous operation and has not been purchased or leased. Any conversion to the original licensed bed capacity, or to any portion thereof, shall comply with the same life and safety code requirements as existed at the time the nursing home voluntarily reduced its licensed beds; unless waivers from such requirements were issued, in which case the converted beds shall reflect the conditions or standards that then existed pursuant to the approved waivers.

(b) To convert beds back to nursing home beds under this subsection, the nursing home must:

(i) Give notice of its intent to preserve conversion options to the department of health no later than thirty days after the effective date of the license reduction; and

(ii) Give notice to the department of health and to the department of social and health services of the intent to convert beds back. If construction is required for the conversion of beds back, the notice of intent to convert beds back must be given, at a minimum, one year prior to the effective date of license modification reflecting the restored beds; otherwise, the notice must be given a minimum of ninety days prior to the effective date of license modification reflecting the restored beds. Prior to any license modification to convert beds back to nursing home beds under this section, the licensee must demonstrate that the nursing home meets the certificate of need exemption requirements of this section.

The term "construction," as used in (b)(ii) of this subsection, is limited to those projects that are expected to equal or exceed the expenditure minimum amount, as determined under this chapter.

(c) Conversion of beds back under this subsection must be completed no later than four years after the effective date of the license reduction. However, for good cause shown, the four-year period for conversion may be extended by the department of health for one additional four-year period.

(d) Nursing home beds that have been voluntarily reduced under this section shall be counted as available nursing home beds for the purpose of evaluating need under RCW 70.38.115(2) (a) and (k) so long as the facility retains the ability to convert them back to nursing home use under the terms of this section.

(e) When a building owner has secured an interest in the nursing home beds, which are intended to be voluntarily reduced by the licensee under (a) of this subsection, the applicant shall provide the department with a written statement indicating the building owner’s approval of the bed reduction.

(9)(a) The department shall not require a certificate of need for a hospice agency if:

(i) The hospice agency is designed to serve the unique religious or cultural needs of a religious group or an ethnic minority and commits to furnishing hospice services in a manner specifically aimed at meeting the unique religious or cultural needs of the religious group or ethnic minority;

(ii) The hospice agency is operated by an organization that:

(A) Operates a facility, or group of facilities, that offers a comprehensive continuum of long-term care services, including, at a minimum, a licensed, medicare-certified nursing home, assisted living, independent living, day health, and various community-based support services, designed to meet the unique social, cultural, and religious needs of a specific cultural and ethnic minority group;

(B) Has operated the facility or group of facilities for at least ten continuous years prior to the establishment of the hospice agency;

(iii) The hospice agency commits to coordinating with existing hospice programs in its community when appropriate;

(iv) The hospice agency has a census of no more than forty patients;

(v) The hospice agency commits to obtaining and maintaining medicare certification;

(vi) The hospice agency only serves patients located in the same county as the majority of the long-term care services offered by the organization that operates the agency; and

(vii) The hospice agency is not sold or transferred to another agency.

(b) The department shall include the patient census for an agency exempted under this subsection (9) in its calculations for future certificate of need applications. [2012 c 10 § 48. (k) In the case of nursing home applications:

(i) The availability of other nursing home beds in the planning area to be served; and

(ii) The availability of other services in the community to be served. Data used to determine the availability of other services will include but not be limited to data provided by the department of social and health services.

(3) A certificate of need application of a health maintenance organization or a health care facility which is controlled, directly or indirectly, by a health maintenance organization, shall be approved by the department if the department finds:

(a) Approval of such application is required to meet the needs of the members of the health maintenance organization and of the new members which such organization can reasonably be expected to enroll; and

(b) The health maintenance organization is unable to provide, through services or facilities which can reasonably be expected to be available to the organization, its health services in a reasonable and cost-effective manner which is consistent with the basic method of operation of the organization and which makes such services available on a long-term basis through physicians and other health professionals associated with it.

The department in making its final decision may issue a conditional certificate of need if it finds that the project is justified only under specific circumstances. The conditions shall directly relate to the project being reviewed. The conditions may be released if it can be substantiated that the conditions are no longer valid and the release of such conditions would be consistent with the purposes of this chapter.

(5) Criteria adopted for review in accordance with subsection (2) of this section may vary according to the purpose for which the particular review is being conducted or the type of health service reviewed.

(6) The department shall specify information to be required for certificate of need applications. Within fifteen days of receipt of the application, the department shall request additional information considered necessary to the application or start the review process. Applicants may decline to submit requested information through written notice to the department, in which case review starts on the date of receipt of the notice. Applications may be denied or limited because of failure to submit required and necessary information.

(7) Concurrent review is for the purpose of comparative analysis and evaluation of competing or similar projects in order to determine which of the projects may best meet identified needs. Categories of projects subject to concurrent review include at least new health care facilities, new services, and expansion of existing health care facilities. The department shall specify time periods for the submission of applications for certificates of need subject to concurrent review, which shall not exceed ninety days. Review of concurrent applications shall start fifteen days after the conclusion of the time period for submission of applications subject to concurrent review. Concurrent review periods shall be limited to one hundred fifty days, except as provided for in rules adopted by the department authorizing and limiting amendment during the course of the review, or for an unresolved pivotal issue declared by the department.

(8) Review periods for certificate of need applications other than those subject to concurrent review shall be limited to ninety days. Review periods may be extended up to thirty days if needed by a review agency, and for unresolved pivotal issues the department may extend up to an additional thirty days. A review may be extended in any case if the applicant agrees to the extension.

(9) The department or its designee, shall conduct a public hearing on a certificate of need application if requested unless the review is expedited or subject to emergency review. The department by rule shall specify the period of time within which a public hearing must be requested and requirements related to public notice of the hearing, procedures, record-keeping and related matters.

(10)(a) Any applicant denied a certificate of need or whose certificate of need has been suspended or revoked has the right to an adjudicative proceeding. The proceeding is governed by chapter 34.05 RCW, the Administrative Procedure Act.

(b) Any health care facility or health maintenance organization that: (i) Provides services similar to the services provided by the applicant and under review pursuant to this subsection; (ii) is located within the applicant’s health service area; and (iii) testified or submitted evidence at a public hearing held pursuant to subsection (9) of this section, shall be provided an opportunity to present oral or written testimony and argument in a proceeding under this subsection: PRO-
VIDED, That the health care facility or health maintenance organization had, in writing, requested to be informed of the department’s decisions.

(c) If the department desires to settle with the applicant prior to the conclusion of the adjudicative proceeding, the department shall so inform the health care facility or health maintenance organization and afford them an opportunity to comment, in advance, on the proposed settlement.

(11) An amended certificate of need shall be required for the following modifications of an approved project:

(a) A new service requiring review under this chapter;
(b) An expansion of a service subject to review beyond that originally approved;
(c) An increase in bed capacity;
(d) A significant reduction in the scope of a nursing home project without a commensurate reduction in the cost of the nursing home project, or a cost increase (as represented in bids on a nursing home construction project or final cost estimates acceptable to the person to whom the certificate of need was issued) if the total of such increases exceeds twelve percent or fifty thousand dollars, whichever is greater, over the maximum capital expenditure approved. The review of reductions or cost increases shall be restricted to the continued conformance of the nursing home project with the review criteria pertaining to financial feasibility and cost containment.

(12) An application for a certificate of need for a nursing home capital expenditure which is determined by the department to be required to eliminate or prevent imminent safety hazards or correct violations of applicable licensure and accreditation standards shall be approved.

(13)(a) Replacement of existing nursing home beds in the same planning area by an existing licensee who has operated the beds for at least one year shall not require a certificate of need under this chapter. The licensee shall give written notice of its intent to replace the existing nursing home beds to the department and shall provide the department with information as may be required pursuant to rule. Replacement of the beds by a party other than the licensee is subject to certificate of need review under this chapter, except as otherwise permitted by subsection (14) of this section.

(b) When an entire nursing home ceases operation, the licensee or any other party who has secured an interest in the beds may reserve his or her interest in the beds for eight years or until a certificate of need to replace them is issued, whichever occurs first. However, the nursing home, licensee, or any other party who has secured an interest in the beds must give notice of its intent to retain the beds to the department of health no later than thirty days after the effective date of the facility’s closure. Certificate of need review shall be required for any party who has reserved the nursing home beds except that the need criteria shall be deemed met when the applicant is the licensee who had operated the beds for at least one year, who has operated the beds for at least one year immediately preceding the reservation of the beds, and who is replacing the beds in the same planning area.

(14) In the event that a licensee, who has provided the department with notice of his or her intent to replace nursing home beds under subsection (13)(a) of this section, engages in unprofessional conduct or becomes unable to practice with reasonable skill and safety by reason of mental or physical condition, pursuant to chapter 18.130 RCW, or dies, the building owner shall be permitted to complete the nursing home bed replacement project, provided the building owner has secured an interest in the beds. 70.38.220 Ethnic minorities—Nursing home beds that reflect cultural differences. (1) The legislature recognizes that in this state ethnic minorities currently use nursing home care at a lower rate than the general population. The legislature also recognizes and supports the federal mandate that nursing homes receiving federal funds provide residents with a homelike environment. The legislature finds that certain ethnic minorities have special cultural, language, dietary, and other needs not generally met by existing nursing homes which are intended to serve the general population. Accord-
ingly, the legislature further finds that there is a need to foster the development of nursing homes designed to serve the special cultural, language, dietary, and other needs of ethnic minorities.

(2) The department shall establish a separate pool of no more than two hundred fifty beds for nursing homes designed to serve the special needs of ethnic minorities. The pool shall be made up of nursing home beds that become available on or after March 15, 1991, due to:

(b) The percentage of low-income persons who would be served by the proposed nursing home;
(c) The financial feasibility of the proposed nursing home; and
(d) The impact of the proposal on the area’s total need for nursing home beds.

(4) To be eligible to apply for or receive an award of beds from the special pool, an application must be to build a new nursing home, or add beds to a nursing home, that:

(a) Will be owned and operated by a nonprofit corporation, and at least fifty percent of the board of directors of the corporation are members of the ethnic minority the nursing home is intended to serve;
(b) Will be designed, managed, and administered to serve the special cultural, language, dietary, and other needs of an ethnic minority; and
(c) Will not discriminate in admissions against persons who are not members of the ethnic minority whose special needs the nursing home is designed to serve.

(5) If a nursing home or portion of a nursing home that is built as a result of an award from the special pool is sold or leased within ten years to a party not eligible under subsection (4) of this section:

(a) The purchaser or lessee may not operate those beds as nursing home beds without first obtaining a certificate of need for new beds under this chapter; and
(b) The beds that had been awarded from the special pool shall be returned to the special pool.

(6) The department shall initially award up to one hundred beds before that number of beds are actually in the special pool, provided that the number of beds so awarded are subtracted from the total of two hundred fifty beds that can be awarded from the special pool. [1991 c 271 § 1.]

### 70.38.250 Redistribution and addition of beds—Determination.

(1) The need for projects identified in *RCW 70.38.240 shall be determined using the individual planning area’s estimated nursing home bed need ratio and includes but is not limited to the following criteria:

(a) The current capacity of nursing homes and other long-term care services;
(b) The occupancy rates of nursing homes and other long-term care services over the previous two-year period; and
(c) The ability of the other long-term care services to serve all people regardless of payor source.

(3) By July 1, 2004, the department of health, in cooperation with other state agencies which conduct hospital surveys or audits, shall develop an instrument, to be provided to every hospital upon completion of a state survey or audit, which allows the hospital to anonymously evaluate the survey or audit process in terms of quality, efficacy, and the extent to which it supported improved patient care and compliance with state law without placing an unnecessary administrative burden on the hospital. The evaluation may be returned to the department of health for distribution to the appropriate agency. The department of health shall annually compile the evaluations in a report to the legislature.

(4) Except when responding to complaints or immediate public health and safety concerns or when such prior notice would conflict with other state or federal law, any state agency that provides notice of a hospital survey or audit must provide such notice to the hospital no less than four weeks prior to the date of the survey or audit. 70.41.080 Fire protection. Standards for fire protection and the enforcement thereof, with respect to all hospitals to be licensed hereunder shall be the responsibility of the chief of the Washington state patrol, through the director of fire protection, who shall adopt, after approval by the department, the recognized standards applicable to hospitals for the protection of life against the cause and spread of fire and fire hazards adopted by the federal centers for medicare and medicaid services for hospitals that care for medicare or medicaid beneficiaries. The standards used for an inspection of an existing hospital, or existing portion thereof, shall be standards for existing buildings and not standards for new construction. The department upon receipt of an application for a license, shall submit to the director of fire protection in writing, a request for an inspection, giving the applicant’s name and the location of the premises to be licensed. Upon receipt of such a request, the chief of the Washington state patrol, through the director of fire protection, or his or her deputy, shall make an inspection of the hospital to be licensed during the department’s inspection. The director of fire protection, or his or her deputy, shall utilize the scope and severity matrix developed by the centers for medicare and medicaid services when determining what corrections will require a reinspection. Whenever the hospital to be licensed meets with the approval of the chief of the Washington state patrol, through the director of fire protection, he or she shall submit to the department, in a timely manner so the license will not be delayed, a written report approving the hospital with respect to fire protection, and such report is required before a full license can be issued. The chief of the Washington state patrol, through the director of fire protection, shall make or cause to be made inspections of such hospitals on average at least once every eighteen months. Inspections conducted by the joint commission on hospitals accredited by it shall be deemed equivalent to an inspection by the chief of the Washington state patrol, through the director of fire protection, for purposes of meeting the requirements for the inspections specified in this section.

(3) A rural health care facility licensed under RCW 70.175.100 formerly licensed as a hospital under this chapter may, within three years of the effective date of the rural health care facility license, apply to the department for a hospital license and not be required to meet certificate of need requirements under chapter 70.38 RCW as a new health care facility and not be required to meet new construction requirements as a new hospital under this chapter. These exceptions are subject to the following: The facility at the time of initial conversion was considered by the department to be in compliance with the hospital licensing rules and the condition of the physical plant and equipment is equal to or exceeds the level of compliance that existed at the time of conversion to a rural health care facility. The department shall inspect and determine compliance with the hospital rules prior to reissuing a hospital license.

A rural hospital, as defined by the department, reducing the number of licensed beds to become a rural primary care hospital under the provisions of Part A Title XVIII of the Social Security Act Section 1820, 42 U.S.C., 1395 et seq., may, within three years of the reduction of licensed beds, increase the number of beds licensed under this chapter to no more than the previously licensed number of beds without being subject to the provisions of chapter 70.38 RCW and without being required to meet new construction requirements under this chapter. These exceptions are subject to the following: The facility at the time of the reduction in licensed beds was considered by the department to be in compliance with the hospital licensing rules and the condition of the physical plant and equipment is equal to or exceeds the level of compliance that existed at the time of the reduction in licensed beds. The department may inspect and determine compliance with the hospital rules prior to increasing the hospital license. [1992 c 27 § 3; 1989 1st ex.s. c 9 § 611; 1955 c 267 § 9.]

An application for renewal of license shall be made to the department upon forms provided by it and submitted thirty days prior to the date of expiration of the license. Each application for a license or renewal thereof by a hospital as defined by this chapter shall be accompanied by a fee as established by the department under RCW 43.20B.110. [1987 c 75 § 8; 1982 c 201 § 9; 1955 c 267 § 10.]

[1985 c 213 § 20; 1982 c 201 § 12; 1971 ex.s. c 247 § 3; 1955 c 267 § 11.]

70.41.115 Specialty hospitals—Licenses—Exemptions. (1) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Emergency services" means health care services medically necessary to evaluate and treat a medical condition that manifests itself by the acute onset of a symptom or symptoms, including severe pain, that would lead a prudent layperson acting reasonably to believe that a health condition exists that requires immediate medical attention, and that the absence of immediate medical attention could reasonably be expected to result in serious impairment to bodily functions or serious dysfunction of an organ or part of the body, or would place the person’s health, or in the case of a pregnant woman, the health of the woman or her unborn child, in serious jeopardy.

(b) "General hospital" means a hospital that provides general acute care services, including emergency services.

(c) "Specialty hospital" means a subclass of hospital that is primarily or exclusively engaged in the care and treatment of one of the following categories: (i) Patients with a cardiac condition; (ii) patients with an orthopedic condition; (iii) patients receiving a surgical procedure; and (iv) any other specialized category of services that the secretary of health and human services designates as a specialty hospital.

(d) "Transfer agreement" means a written agreement providing an effective process for the transfer of a patient requiring emergency services to a general hospital providing emergency services and for continuity of care for that patient.

(e) "Health service area" has the same meaning as in RCW 70.38.025.
(2) To be licensed under this chapter, a specialty hospital shall:

(a) Be significantly engaged in providing inpatient care;
(b) Comply with all standards and rules adopted by the department for hospitals;
(c) Provide appropriate discharge planning;
(d) Provide staff proficient in resuscitation and respiratory maintenance twenty-four hours per day, seven days per week;
(e) Participate in the medicare and medicaid programs and provide at least the same percentage of services to medicare and medicaid beneficiaries, as a percent of gross revenues, as the lowest percentage of services provided to medicare and medicaid beneficiaries by a general hospital in the same health service area. The lowest percentage of services provided to medicare and medicaid beneficiaries shall be determined by the department in consultation with the general hospitals in the health service area but shall not be the percentage of medicare and medicaid services of a hospital that serves primarily members of a particular health plan or government sponsor;
(f) Provide at least the same percentage of charity care, as a percent of gross revenues, as the lowest percentage of charity care provided by a general hospital in the same health service area. The lowest percentage of charity care shall be determined by the department in consultation with the general hospitals in the health service area but shall not be the percentage of charity care of a hospital that serves primarily members of a particular health plan or government sponsor;
(g) Require any physician owner to: (i) In accordance with chapter 19.68 RCW, disclose a financial interest in the specialty hospital and provide a list of alternative hospitals before referring a patient to the specialty hospital; and (ii) if the specialty hospital does not have an intensive care unit, notify the patient that if intensive care services are required, the patient will be transferred to another hospital;
(h) Provide emergency services twenty-four hours per day, seven days per week in a designated area of the hospital, and comply with requirements for emergency facilities that are established by the department;
(i) Establish procedures to stabilize a patient with an emergency medical condition until the patient is transported or transferred to another hospital if emergency services cannot be provided at the specialty hospital to meet the needs of the patient in an emergency, and maintain a transfer agreement with a general hospital in the same health service area that establishes a process for patient transfers in a situation in which the specialty hospital cannot provide continuing care for a patient because of the specialty hospital’s scope of services and for the transfer of patients; and
(j) Accept the transfer of patients from general hospitals when the patients require the category of care or treatment provided by the specialty hospital.

(3) This section does not apply to:

(a) A specialty hospital that provides only psychiatric, pediatric, long-term acute care, cancer, or rehabilitative services; or
(b) A hospital that was licensed under this chapter before January 1, 2007. [2007 c 102 § 2.]

Finding—2007 c 102: "The legislature finds that specialty hospitals jeopardize the financial balance of community hospitals by selectively providing care to less ill patients, treating fewer medicare, medicaid, and uninsured patients, providing primarily care that is profitable to investors, and reducing community hospital staffing. To assure that private and public hospitals in Washington remain financially viable institutions able to provide general acute care in their communities and maintain the capacity to respond to local, state, and national emergencies, the legislature has concluded that specialty hospitals must meet certain conditions in order to be licensed. These conditions will ensure that specialty hospitals and community hospitals compete on a level playing field and, therefore, will minimize the adverse impacts of specialty hospitals on community general hospitals while assuring quality patient care." [2007 c 102 § 1.]

70.41.120 Inspection of hospitals—Final report—Alterations or additions, new facilities—Coordination with state and local agencies—Notice of inspection.
(1) The department shall make or cause to be made an unannounced inspection of all hospitals on average at least every eighteen months. Every inspection of a hospital may include an inspection of every part of the premises. The department may make an examination of all phases of the hospital operation necessary to determine compliance with the law and the standards, rules and regulations adopted thereunder.

(2) The department shall not issue its final report regarding an unannounced inspection by the department until: (a) The hospital is given at least two weeks following the inspection to provide any information or documentation requested by the department during the unannounced inspection that was not available at the time of the request; and (b) at least one person from the department conducting the inspection meets personally with the chief administrator or executive officer of the hospital following the inspection or the chief administrator or executive officer declines such a meeting.

(3) Any licensee or applicant desiring to make alterations or additions to its facilities or to construct new facilities shall, before commencing such alteration, addition or new construction, comply with the regulations prescribed by the department.

(4) No hospital licensed pursuant to the provisions of this chapter shall be required to be inspected or licensed under other state laws or rules and regulations promulgated thereunder, or local ordinances, relative to hotels, restaurants, lodging houses, boarding houses, places of refreshment, nursing homes, maternity homes, or psychiatric hospitals.

(5) To avoid unnecessary duplication in inspections, the department shall coordinate with the department of social and health services, the office of the state fire marshal, and local agencies when inspecting facilities over which each agency has jurisdiction, the facilities including but not necessarily being limited to hospitals with both acute care and skilled nursing or psychiatric nursing functions. The department shall notify the office of the state fire marshal and the relevant local agency at least four weeks prior to any inspection conducted under this section and invite their attendance at the inspection, and shall provide a copy of its inspection report to each agency upon completion. [2009 c 242 § 1; 2005 c 447 § 1; 2004 c 261 § 4; 1995 c 282 § 4; 1985 c 213 § 21; 1955 c 267 § 12.]

The department shall provide local agencies with relevant information derived from its construction review process.

(1) Licensing inspections, or complaint investigations regardless of findings, shall, as requested, be disclosed no sooner than three business days after the hospital has received the resulting assessment report;

(2) Information regarding administrative action against the license shall, as requested, be disclosed after the hospital has received the documents initiating the administrative action;

(3) Information about complaints that did not warrant an investigation shall not be disclosed except to notify the hospital and the complainant that the complaint did not warrant an investigation. If requested, the individual complainant shall receive information on other like complaints that have been reported against the hospital; and

(4) Information disclosed pursuant to this section shall not disclose individual names. [2005 c 274 § 333; 2000 c 6 § 1; 1985 c 213 § 24; 1955 c 267 § 15.]

If a hospital ceases operations, it shall make immediate arrangements, as approved by the department, for preservation of its records.

The department shall by regulation define the type of records and the information required to be included in the medical records to be retained and preserved under this section; which records may be retained in photographic form pursuant to chapter 5.46 RCW. [1985 c 213 § 27; 1975 1st ex.s. c 175 § 1.]
70.41.200 Quality improvement and medical malpractice prevention program—Quality improvement committee—Sanction and grievance procedures—Information collection, reporting, and sharing. (1) Every hospital shall maintain a coordinated quality improvement program for the improvement of the quality of health care services rendered to patients and the identification and prevention of medical malpractice. The program shall include at least the following:

(a) The establishment of a quality improvement committee with the responsibility to review the services rendered in the hospital, both retrospectively and prospectively, in order to improve the quality of medical care of patients and to prevent medical malpractice. The committee shall oversee and coordinate the quality improvement and medical malpractice prevention program and shall ensure that information gathered pursuant to the program is used to review and to revise hospital policies and procedures;

(b) A medical staff privileges sanction procedure through which credentials, physical and mental capacity, and competence in delivering health care services are periodically reviewed as part of an evaluation of staff privileges;

(c) The periodic review of the credentials, physical and mental capacity, and competence in delivering health care services of all persons who are employed or associated with the hospital;

(d) A procedure for the prompt resolution of grievances by patients or their representatives related to accidents, injuries, treatment, and other events that may result in claims of medical malpractice;

(e) The maintenance and continuous collection of information concerning the hospital’s experience with negative health care outcomes and incidents injurious to patients including health care-associated infections as defined in RCW 43.70.056, patient grievances, professional liability premiums, settlements, awards, costs incurred by the hospital for patient injury prevention, and safety improvement activities;

(f) The maintenance of relevant and appropriate information gathered pursuant to (a) through (e) of this subsection concerning individual physicians within the physician’s personnel or credential file maintained by the hospital;

(g) Education programs dealing with quality improvement, patient safety, medication errors, injury prevention, infection control, staff responsibility to report professional misconduct, the legal aspects of patient care, improved communication with patients, and causes of malpractice claims for staff personnel engaged in patient care activities; and

(h) Policies to ensure compliance with the reporting requirements of this section.

(2) Any person who, in substantial good faith, provides information to further the purposes of the quality improvement and medical malpractice prevention program or who, in substantial good faith, participates on the quality improvement committee shall not be subject to an action for civil damages or other relief as a result of such activity. Any person or entity participating in a coordinated quality improvement program that, in substantial good faith, shares information or documents with one or more other programs, committees, or boards under subsection (8) of this section is not subject to an action for civil damages or other relief as a result of the activity. For the purposes of this section, sharing information is presumed to be in substantial good faith. However, the presumption may be rebutted upon a showing of clear, cogent, and convincing evidence that the information shared was knowingly false or deliberately misleading.

(3) Information and documents, including complaints and incident reports, created specifically for, and collected and maintained by, a quality improvement committee are not subject to review or disclosure, except as provided in this section, or discovery or introduction into evidence in any civil action, and no person who was in attendance at a meeting of such committee or who participated in the creation, collection, or maintenance of information or documents specifically for the committee shall be permitted or required to testify in any civil action as to the content of such proceedings or the documents and information prepared specifically for the committee. This subsection does not preclude: (a) In any civil action, the discovery of the identity of persons involved in the medical care that is the basis of the civil action whose involvement was independent of any quality improvement activity; (b) In any civil action, the testimony of any person concerning the facts which form the basis for the institution of such proceedings of which the person had personal knowledge acquired independently of such proceedings; (c) In any civil action by a health care provider regarding the restriction or revocation of that individual’s clinical or staff privileges, introduction into evidence information collected and maintained by quality improvement committees regarding such health care provider; (d) In any civil action, disclosure of the fact that staff privileges were terminated or restricted, including the specific restrictions imposed, if any and the reasons for the restrictions; or (e) In any civil action, discovery and introduction into evidence of the patient’s medical records required by regulation of the department of health to be made regarding the care and treatment received.

(4) Each quality improvement committee shall, on at least a semiannual basis, report to the governing board of the hospital in which the committee is located. The report shall review the quality improvement activities conducted by the committee, and any actions taken as a result of those activities.

(5) The department of health shall adopt such rules as are deemed appropriate to effectuate the purposes of this section.

(6) The medical quality assurance commission or the board of osteopathic medicine and surgery, as appropriate, may review and audit the records of committee decisions in which a physician’s privileges are terminated or restricted. Each hospital shall produce and make accessible to the commission or board the appropriate records and otherwise facilitate the review and audit. Information so gained shall not be subject to the discovery process and confidentiality shall be respected as required by subsection (3) of this section. Failure of a hospital to comply with this subsection is punishable by a civil penalty not to exceed two hundred fifty dollars.

(7) The department, the joint commission on accreditation of health care organizations, and any other accrediting organization may review and audit the records of a quality improvement committee or peer review committee in con-
Duty to report restrictions on health care practitioners’ privileges based on unprofessional conduct—Penalty. (1) The chief administrator or executive officer of a hospital shall report to the department when the practice of a health care practitioner as defined in subsection (2) of this section is restricted, suspended, limited, or terminated based upon a conviction, determination, or finding by the hospital that the health care practitioner has committed an action defined as unprofessional conduct under RCW 18.130.180. The chief administrator or executive officer shall also report any voluntary restriction or termination of the practice of a health care practitioner as defined in subsection (2) of this section while the practitioner is under investigation or the subject of a proceeding by the hospital regarding unprofessional conduct, or in return for the hospital not conducting such an investigation or proceeding or not taking action. The department will forward the report to the appropriate disciplining authority.

(2) The reporting requirements apply to the following health care practitioners: Pharmacists as defined in chapter 18.64 RCW; advanced registered nurse practitioners as defined in chapter 18.79 RCW; dentists as defined in chapter 18.32 RCW; naturopaths as defined in chapter 18.36A RCW; optometrists as defined in chapter 18.53 RCW; osteopathic physicians and surgeons as defined in chapter 18.57 RCW; osteopathic physicians’ assistants as defined in chapter 18.57A RCW; physicians as defined in chapter 18.71 RCW; physician assistants as defined in chapter 18.71A RCW; podiatric physicians and surgeons as defined in chapter 18.22 RCW; and psychologists as defined in chapter 18.83 RCW.

(3) Reports made under subsection (1) of this section shall be made within fifteen days of the date: (a) A conviction, determination, or finding is made by the hospital that the health care practitioner has committed an action defined as unprofessional conduct under RCW 18.130.180; or (b) the voluntary restriction or termination of the practice of a health care practitioner, including his or her voluntary resignation, while under investigation or the subject of proceedings regarding unprofessional conduct under RCW 18.130.180 is accepted by the hospital.

(4) Failure of a hospital to comply with this section is punishable by a civil penalty not to exceed five hundred dollars.

(5) A hospital, its chief administrator, or its executive officer who files a report under this section is immune from suit, whether direct or derivative, in any civil action related to the filing or contents of the report, unless the conviction, determination, or finding on which the report and its content are based is proven to not have been made in good faith. The prevailing party in any action brought alleging the conviction, determination, finding, or report was not made in good faith, shall be entitled to recover the costs of litigation, including reasonable attorneys’ fees.

(6) The department shall forward reports made under subsection (1) of this section to the appropriate disciplining authority designated under Title 18 RCW within fifteen days of the date the report is received by the department. The department shall notify a hospital that has made a report under subsection (1) of this section of the results of the disciplining authority’s case disposition decision within fifteen days after the case disposition. Case disposition is the deci-
sion whether to issue a statement of charges, take informal action, or close the complaint without action against a practitioner. In its biennial report to the legislature under RCW 18.130.310, the department shall specifically identify the case dispositions of reports made by hospitals under subsection (1) of this section.

(7) The department shall not increase hospital license fees to carry out this section before July 1, 2008. [2008 c 134 § 14; 2005 c 470 § 1; 1994 sp.s. c 9 § 743; 1986 c 300 § 7.]

70.41.220 Duty to keep records of restrictions on practitioners’ privileges—Penalty. Each hospital shall keep written records of decisions to restrict or terminate privileges of practitioners. Copies of such records shall be made available to the board within thirty days of a request and all information so gained shall remain confidential in accordance with RCW 70.41.200 and 70.41.230 and shall be protected from the discovery process. Failure of a hospital to comply with this section is punishable by [a] civil penalty not to exceed two hundred fifty dollars. [1986 c 300 § 8.]

Legislative findings—Severability—1986 c 300: See notes following RCW 18.57.245.

70.41.230 Duty of hospital to request information on physicians granted privileges. (1) Prior to granting or renewing clinical privileges or association of any physician or hiring a physician, a hospital or facility approved pursuant to this chapter shall request from the physician and the physician shall provide the following information:

(a) The name of any hospital or facility with or at which the physician had or has any association, employment, privileges, or practice;

(b) If such association, employment, privilege, or practice was discontinued, the reasons for its discontinuance;

(c) Any pending professional medical misconduct proceedings or any pending medical malpractice actions in this state or another state, the substance of the allegations in the proceedings or actions, and any additional information concerning the proceedings or actions as the physician deems appropriate;

(d) The substance of the findings in the actions or proceedings and any additional information concerning the actions or proceedings as the physician deems appropriate;

(e) A waiver by the physician of any confidentiality provisions concerning the information required to be provided to hospitals pursuant to this subsection; and

(f) A verification by the physician that the information provided by the physician is accurate and complete.

(2) Prior to granting privileges or association to any physician or hiring a physician, a hospital or facility approved pursuant to this chapter shall request from any hospital with or at which the physician had or has privileges, was associated, or was employed, the following information concerning the physician:

(a) Any pending professional medical misconduct proceedings or any pending medical malpractice actions, in this state or another state;

(b) Any judgment or settlement of a medical malpractice action and any finding of professional misconduct in this state or another state by a licensing or disciplinary board; and

(c) Any information required to be reported by hospitals pursuant to RCW 18.71.0195.

(3) The medical quality assurance commission shall be advised within thirty days of the name of any physician denied staff privileges, association, or employment on the basis of adverse findings under subsection (1) of this section.

(4) A hospital or facility that receives a request for information from another hospital or facility pursuant to subsections (1) and (2) of this section shall provide such information concerning the physician in question to the extent such information is known to the hospital or facility receiving such a request, including the reasons for suspension, termination, or curtailment of employment or privileges at the hospital or facility. A hospital, facility, or other person providing such information in good faith is not liable in any civil action for the release of such information.

(5) Information and documents, including complaints and incident reports, created specifically for, and collected, and maintained by a quality improvement committee are not subject to discovery or introduction into evidence in any civil action, and no person who was in attendance at a meeting of such committee or who participated in the creation, collection, or maintenance of information or documents specifically for the committee shall be permitted or required to testify in any civil action as to the content of such proceedings or the documents and information prepared specifically for the committee. This subsection does not preclude: (a) In any civil action, the discovery of the identity of persons involved in the medical care that is the basis of the civil action whose involvement was independent of any quality improvement activity; (b) In any civil action, the testimony of any person concerning the facts which form the basis for the institution of such proceedings of which the person had personal knowledge acquired independently of such proceedings; (c) In any civil action by a health care provider regarding the restriction or revocation of that individual’s clinical or staff privileges, introduction into evidence information collected and maintained by quality improvement committees regarding such health care provider; (d) In any civil action, disclosure of the fact that staff privileges were terminated or restricted, including the specific restrictions imposed, if any and the reasons for the restrictions; or (e) In any civil action, discovery and introduction into evidence of the patient’s medical records required by regulation of the department of health to be made regarding the care and treatment received.

(6) Hospitals shall be granted access to information held by the medical quality assurance commission and the board of osteopathic medicine and surgery pertinent to decisions of the hospital regarding credentialing and recredentialing of practitioners.

(7) Violation of this section shall not be considered negligence per se. [1994 sp.s. c 9 § 744; 1993 c 492 § 416; 1991 c 3 § 337; 1987 c 269 § 6; 1986 c 300 § 11.]

Finding—Intent—1993 c 492: See notes following RCW 43.20.050.
70.41.235 Doctor of osteopathic medicine and surgery—Discrimination based on board certification is prohibited. A hospital that provides health care services to the general public may not discriminate against a qualified doctor of osteopathic medicine and surgery licensed under chapter 18.57 RCW, who has applied to practice with the hospital, solely because that practitioner was board certified or eligible under an approved osteopathic certifying board instead of board certified or eligible respectively under an approved medical certifying board. [1995 c 64 § 3.]

70.41.240 Information regarding conversion of hospitals to nonhospital health care facilities. The department of health shall compile and make available to the public information regarding medicare health care facility certification options available to hospitals licensed under this title that desire to convert to nonhospital health care facilities. The information provided shall include standards and requirements for certification and procedures for acquiring certification. [1991 c 3 § 338; 1988 c 207 § 3.]

70.41.250 Cost disclosure to health care providers. (1) The legislature finds that the spiraling costs of health care continue to surmount efforts to contain them, increasing at approximately twice the inflationary rate. The causes of this phenomenon are complex. By making physicians and other health care providers with hospital admitting privileges more aware of the cost consequences of health care services for consumers, these providers may be inclined to exercise more restraint in providing only the most relevant and cost-beneficial hospital services, with a potential for reducing the utilization of those services. The requirement of the hospital to inform physicians and other health care providers of the charges of the health care services that they order may have a positive effect on containing health costs. Further, the option of the physician or other health care provider to inform the patient of these charges may strengthen the necessary dialogue in the provider-patient relationship that tends to be diminished by intervening third-party payers.

(2) The chief executive officer of a hospital licensed under this chapter and the superintendent of a state hospital shall establish and maintain a procedure for disclosing to physicians and other health care providers with admitting privileges the charges of all health care services ordered for their patients. Copies of hospital charges shall be made available to any physician and/or other health care provider ordering care in hospital inpatient/outpatient services. The physician and/or other health care provider may inform the patient of these charges and may specifically review them. Hospitals are also directed to study methods for making daily charges available to prescribing physicians through the use of interactive software and/or computerized information thereby allowing physicians and other health care providers to review not only the costs of present and past services but also future contemplated costs for additional diagnostic studies and therapeutic medications. [1993 c 492 § 265.]

70.41.300 Long-term care—Definitions. "Cost-effective care" and "long-term care services," where used in RCW 70.41.310 and 70.41.320, shall have the same meaning as that given in RCW 74.39A.008. [1995 1st sp.s. c 18 § 4.]

*Reviser’s note: RCW 74.39A.008 was repealed by 1997 c 392 § 530. Additional notes found at www.leg.wa.gov

70.41.310 Long-term care—Program information to be provided to hospitals—Information on options to be provided to patients. (1)(a) The department of social and health services, in consultation with hospitals and acute care facilities, shall promote the most appropriate and cost-effective use of long-term care services by developing and distributing to hospitals and other appropriate health care settings information on the various chronic long-term care programs that it administers directly or through contract. The information developed by the department of social and health services shall, at a minimum, include the following:

(i) An identification and detailed description of each long-term care service available in the state;

(ii) Functional, cognitive, and medicaid eligibility criteria that may be required for placement or admission to each long-term care service; and

(iii) A long-term care services resource manual for each hospital, that identifies the long-term care services operating within each hospital’s patient service area. The long-term care services resource manual shall, at a minimum, identify the name, address, and telephone number of each entity known to be providing long-term care services; a brief description of the programs or services provided by each of the identified entities; and the name or names of a person or persons who may be contacted for further information or assistance in accessing the programs or services at each of the identified entities.

(b) The information required in (a) of this subsection shall be periodically updated and distributed to hospitals by the department of social and health services so that the information reflects current long-term care service options available within each hospital’s patient service area.

2) To the extent that a patient will have continuing care needs, once discharged from the hospital setting, hospitals shall, during the course of the patient’s hospital stay, promote each patient’s family member’s and/or legal representative’s understanding of available long-term care service discharge options by, at a minimum:

(a) Discussing the various and relevant long-term care services available, including eligibility criteria;

(b) Making available, to patients, their family members, and/or legal representative, a copy of the most current long-term care services resource manual;

(c) Responding to long-term care questions posed by patients, their family members, and/or legal representative;

(d) Assisting the patient, their family members, and/or legal representative in contacting appropriate persons or entities to respond to the question or questions posed; and
(e) Linking the patient and family to the local, state-designated aging and long-term care network to ensure effective transitions to appropriate levels of care and ongoing support. [1995 1st sp.s. c 18 § 3.]

70.41.320 Long-term care—Patient discharge requirements for hospitals and acute care facilities—Pilot projects. (1) Hospitals and acute care facilities shall:
   (a) Work cooperatively with the department of social and health services, area agencies on aging, and local long-term care information and assistance organizations in the planning and implementation of patient discharges to long-term care services.
   (b) Establish and maintain a system for discharge planning and designate a person responsible for system management and implementation.
   (c) Establish written policies and procedures to:
      (i) Identify patients needing further nursing, therapy, or supportive care following discharge from the hospital;
      (ii) Develop a documented discharge plan for each identified patient, including relevant patient history, specific care requirements, and date such follow-up care is to be initiated;
      (iii) Coordinate with patient, family, caregiver, and appropriate members of the health care team;
      (iv) Provide any patient, regardless of income status, written information and verbal consultation regarding the array of long-term care options available in the community, including the relative cost, eligibility criteria, location, and contact persons;
      (v) Promote an informed choice of long-term care services on the part of patients, family members, and legal representatives; and
      (vi) Coordinate with the department and specialized case management agencies, including area agencies on aging and other appropriate long-term care providers, as necessary, to ensure timely transition to appropriate home, community residential, or nursing facility care.
   (d) Work in cooperation with the department which is responsible for ensuring that patients eligible for medicaid long-term care receive prompt assessment and appropriate service authorization.
   (2) In partnership with selected hospitals, the department of social and health services shall develop and implement pilot projects in up to three areas of the state with the goal of providing information about appropriate in-home and community services to individuals and their families early during the individual’s hospital stay.

The department shall not delay hospital discharges but shall assist and support the activities of hospital discharge planners. The department also shall coordinate with home health and hospice agencies whenever appropriate. The role of the department is to assist the hospital and to assist patients and their families in making informed choices by providing information regarding home and community options.

In conducting the pilot projects, the department shall:
   (a) Assess and offer information regarding appropriate in-home and community services to individuals who are medicaid clients or applicants; and
   (b) Offer assessment and information regarding appropriate in-home and community services to individuals who are reasonably expected to become medicaid recipients within one hundred eighty days of admission to a nursing facility. [1998 c 245 § 127; 1995 1st sp.s. c 18 § 5.]

70.41.330 Hospital complaint toll-free telephone number. Every hospital shall post in conspicuous locations a notice of the department’s hospital complaint toll-free telephone number. The form of the notice shall be approved by the department. [2000 c 6 § 4.]

70.41.340 Investigation of hospital complaints—Rules. The department is authorized to adopt rules necessary to implement RCW 70.41.150, 70.41.155, and 70.41.330. [2000 c 6 § 6.]

70.41.350 Emergency care provided to victims of sexual assault—Development of informational materials on emergency contraception—Rules. (1) Every hospital providing emergency care to a victim of sexual assault shall:
   (a) Provide the victim with medically and factually accurate and unbiased written and oral information about emergency contraception;
   (b) Orally inform each victim of sexual assault of her option to be provided emergency contraception at the hospital; and
   (c) If not medically contraindicated, provide emergency contraception immediately at the hospital to each victim of sexual assault who requests it.
   (2) The secretary, in collaboration with community sexual assault programs and other relevant stakeholders, shall develop, prepare, and produce informational materials relating to emergency contraception for the prevention of pregnancy in rape victims for distribution to and use in all emergency rooms in the state, in quantities sufficient to comply with the requirements of this section. The secretary, in collaboration with community sexual assault programs and other relevant stakeholders, may also approve informational materials from other sources for the purposes of this section. The informational materials must be clearly written and readily comprehensible in a culturally competent manner, as the secretary, in collaboration with community sexual assault programs and other relevant stakeholders, deems necessary to inform victims of sexual assault. The materials must explain the nature of emergency contraception, including that it is effective in preventing pregnancy, treatment options, and where they can be obtained.
   (3) The secretary shall adopt rules necessary to implement this section. [2002 c 116 § 3.]

Findings—2002 c 116: "(1) The legislature finds that:
   (a) Each year, over three hundred thousand women are sexually assaulted in the United States;
   (b) Nationally, over thirty-two thousand women become pregnant each year as a result of sexual assault. Approximately fifteen percent of these pregnancies end in abortion;
   (c) Approximately thirty-eight percent of women in Washington are sexually assaulted over the course of their lifetime. This is twenty percent more than the national average;
   (d) Only fifteen percent of sexual assaults in Washington are reported; however, even the numbers of reported attacks are staggering. For example, last year, two thousand six hundred fifty-nine rapes were reported in Washington, this is more than seven rapes per day.
   (2) The legislature deems it essential that all hospital emergency rooms..."
provide emergency contraception as a treatment option to any woman who seeks treatment as a result of a sexual assault.” [2002 c 116 § 1.]

### 70.41.360 Emergency care provided to victims of sexual assault—Department to respond to violations—Task force.
The department must respond to complaints of violations of RCW 70.41.350. The department shall convene a task force, composed of representatives from community sexual assault programs and other relevant stakeholders including advocacy agencies, medical agencies, and hospital associations, to provide input into the development and evaluation of the education materials and rule development. The task force shall expire on January 1, 2004. [2002 c 116 § 4.]

**Findings—2002 c 116:** See note following RCW 70.41.350.

### 70.41.370 Investigation of complaints of violations concerning nursing technicians.
The department shall investigate complaints of violations of RCW 18.79.350 and 18.79.360 by an employer. The department shall maintain records of all employers that have violated RCW 18.79.350 and 18.79.360. [2003 c 258 § 8.]

**Severability—Effective date—2003 c 258:** See notes following RCW 18.79.330.

### 70.41.380 Notice of unanticipated outcomes.
Hospitals shall have in place policies to assure that, when appropriate, information about unanticipated outcomes is provided to patients or their families or any surrogate decision makers identified pursuant to RCW 7.70.065. Notifications of unanticipated outcomes under this section do not constitute an acknowledgment or admission of liability, nor can the fact of notification, the content disclosed, or any and all statements, affirmations, gestures, or conduct expressing apology be introduced as evidence in a civil action. [2005 c 118 § 2.]

**Policy to be in place beginning January 1, 2006—2005 c 118:** "Beginning January 1, 2006, the department shall, during the survey of a hospital, ensure that the policy required in RCW 70.41.380 is in place." [2005 c 118 § 2.]

### 70.41.390 Safe patient handling.
(1) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.
(a) "Lift team" means hospital employees specially trained to conduct patient lifts, transfers, and repositioning using lifting equipment when appropriate.
(b) "Safe patient handling" means the use of engineering controls, lifting and transfer aids, or assistive devices, by lift teams or other staff, instead of manual lifting to perform the acts of lifting, transferring, and repositioning health care patients and residents.
(c) "Musculoskeletal disorders" means conditions that involve the nerves, tendons, muscles, and supporting structures of the body.
(2) By February 1, 2007, each hospital must establish a safe patient handling committee either by creating a new committee or assigning the functions of a safe patient handling committee to an existing committee. The purpose of the committee is to design and recommend the process for implementing a safe patient handling program. At least half of the members of the safe patient handling committee shall be frontline nonmanagerial employees who provide direct care to patients unless doing so will adversely affect patient care.
(3) By December 1, 2007, each hospital must establish a safe patient handling program. As part of this program, a hospital must:
(a) Implement a safe patient handling policy for all shifts and units of the hospital. Implementation of the safe patient handling policy may be phased-in with the acquisition of equipment under subsection (4) of this section;
(b) Conduct a patient handling hazard assessment. This assessment should consider such variables as patient-handling tasks, types of nursing units, patient populations, and the physical environment of patient care areas;
(c) Develop a process to identify the appropriate use of the safe patient handling policy based on the patient’s physical and medical condition and the availability of lifting equipment or lift teams. The policy shall include a means to address circumstances under which it would be medically contraindicated to use lifting or transfer aids or assistive devices for particular patients;
(d) Conduct an annual performance evaluation of the program to determine its effectiveness, with the results of the evaluation reported to the safe patient handling committee. The evaluation shall determine the extent to which implementation of the program has resulted in a reduction in musculoskeletal disorder claims and days of lost work attributable to musculoskeletal disorder caused by patient handling, and include recommendations to increase the program’s effectiveness; and
(e) When developing architectural plans for constructing or remodeling a hospital or a unit of a hospital in which patient handling and movement occurs, consider the feasibility of incorporating patient handling equipment or the physical space and construction design needed to incorporate that equipment at a later date.
(4) By January 30, 2010, each hospital must complete, at a minimum, acquisition of their choice of: (a) One readily available lift per acute care unit on the same floor unless the safe patient handling committee determines a lift is unnecessary in the unit; (b) one lift for every ten acute care available inpatient beds; or (c) equipment for use by lift teams. Hospitals must train staff on policies, equipment, and devices at least annually.
(5) Nothing in this section precludes lift team members from performing other duties as assigned during their shift.
(6) A hospital shall develop procedures for hospital employees to refuse to perform or be involved in patient handling or movement that the hospital employee believes in good faith will expose a patient or a hospital employee to an unacceptable risk of injury. A hospital employee who in good faith follows the procedure developed by the hospital in accordance with this subsection shall not be the subject of disciplinary action by the hospital for the refusal to perform or be involved in the patient handling or movement. [2006 c 165 § 2.]

**Findings—2006 c 165:** "The legislature finds that:
(1) Patients are not at optimum levels of safety while being lifted, transferred, or repositioned manually. Mechanical lift programs can reduce skin tears suffered by patients by threefold. Nurses, thirty-eight percent of whom have previous back injuries, can drop patients if their pain thresholds are triggered.
(2) According to the bureau of labor statistics, hospitals in Washington
of safe patient handling programs that are effective in decreasing employee injury do not return to nursing. Considering the present nursing shortage in nursing back injury is over forty percent and many nurses who suffer a back injury do not return to nursing. Considering the present nursing shortage in Washington, measures must be taken to protect nurses from disabling injury. (4) Washington hospitals have made progress toward implementation of safe patient handling programs that are effective in decreasing employee injuries. It is not the intent of this act to place an undue financial burden on hospitals.” [2006 c 165 § 1.]

**70.41.400 Patient billing—Written statement describing who may be billing the patient required—Contact phone numbers—Exceptions.** (1) Prior to or upon discharge, a hospital must furnish each patient receiving inpatient services a written statement providing a list of physician groups and other professional partners that commonly provide care for patients at the hospital and from whom the patient may receive a bill, along with contact phone numbers for those groups. The statement must prominently display a phone number that a patient can call for assistance if the patient has any questions about any of the bills they receive after discharge that relate to their hospital stay.

(2) This section does not apply to any hospital owned or operated by a health maintenance organization under chapter 48.46 RCW when providing prepaid health care services to enrollees of the health maintenance organization or any of its wholly owned subsidiary carriers. [2006 c 60 § 2.]

**Findings—Intent—2006 c 60:** “The legislature finds that the implementation of health information technologies in hospitals, including electronic medical records, has the potential to significantly reduce cost, improve patient outcomes, and simplify the administration of health care. Further, the legislature finds that the number and complexity of the bills that result from a hospital stay can be confusing to patients. Therefore, it is the intent of the legislature to encourage hospitals to design the implementation of health information technologies so as to allow the hospital to provide the patient, prior to or upon discharge, clearly understandable information about the services provided during the hospital stay, and the bills the patient is likely to receive related to each of those services. Recognizing that complete implementation of the technologies required to achieve this goal will take a number of years, the legislature intends to require that hospitals immediately begin working toward the goal by compiling and communicating information to assist patients in understanding their bills.” [2006 c 60 § 1.]

**70.41.410 Nurse staffing committee—Definitions.** The definitions in this section apply throughout this section and RCW 70.41.420 unless the context clearly requires otherwise.

(1) "Hospital" has the same meaning as defined in RCW 70.41.020, and also includes state hospitals as defined in RCW 72.23.010.

(2) "Intensity" means the level of patient need for nursing care, as determined by the nursing assessment.

(3) "Nursing personnel" means registered nurses, licensed practical nurses, and unlicensed assistive nursing personnel providing direct patient care.

(4) "Nurse staffing committee" means the committee established by a hospital under RCW 70.41.420.

(5) "Patient care unit" means any unit or area of the hospital that provides patient care by registered nurses.

(6) "Skill mix" means the number and relative percentages of registered nurses, licensed practical nurses, and unlicensed assistive personnel among the total number of nursing personnel. [2008 c 47 § 2.]

**Findings—Intent—2008 c 47:** "(1) The legislature finds that:
   (a) Research evidence demonstrates that registered nurses play a critical role in patient safety and quality of care. The ever-worsening shortage of nurses available to provide care in acute care hospitals has necessitated multiple strategies to generate more nurses and improve the recruitment and retention of nurses in hospitals; and
   (b) Evidence-based nurse staffing that can help ensure quality and safe patient care while increasing nurse satisfaction in the work environment is key to solving an urgent public health issue in Washington state. Hospitals and nursing organizations recognize a mutual interest in patient safety initiatives that create a healthy environment for nurses and safe care for patients.

(2) In order to protect patients and to support greater retention of registered nurses, and to promote evidence-based nurse staffing, the legislature intends to establish a mechanism whereby direct care nurses and hospital management shall participate in a joint process regarding decisions about nurse staffing.” [2008 c 47 § 1.]

**70.41.420 Nurse staffing committee.** (1) By September 1, 2008, each hospital shall establish a nurse staffing committee, either by creating a new committee or assigning the functions of a nurse staffing committee to an existing committee. At least one-half of the members of the nurse staffing committee shall be registered nurses currently providing direct patient care and up to one-half of the members shall be determined by the hospital administration. The selection of the registered nurses providing direct patient care shall be according to the collective bargaining agreement if there is one in effect at the hospital. If there is no applicable collective bargaining agreement, the members of the nurse staffing committee who are registered nurses providing direct patient care shall be selected by their peers.

(2) Participation in the nurse staffing committee by a hospital employee shall be on scheduled work time and compensated at the appropriate rate of pay. Nurse staffing committee members shall be relieved of all other work duties during meetings of the committee.

(3) Primary responsibilities of the nurse staffing committee shall include:
   (a) Development and oversight of an annual patient care unit and shift-based nurse staffing plan, based on the needs of patients, to be used as the primary component of the staffing budget. Factors to be considered in the development of the plan should include, but are not limited to:
      (i) Census, including total numbers of patients on the unit on each shift and activity such as patient discharges, admissions, and transfers;
      (ii) Level of intensity of all patients and nature of the care to be delivered on each shift;
      (iii) Skill mix;
      (iv) Level of experience and specialty certification or training of nursing personnel providing care;
      (v) The need for specialized or intensive equipment;
      (vi) The architecture and geography of the patient care unit, including but not limited to placement of patient rooms, treatment areas, nursing stations, medication preparation areas, and equipment; and
      (vii) Staffing guidelines adopted or published by national nursing professional associations, specialty nursing organizations, and other health professional organizations;
   (b) Semiannual review of the staffing plan against patient need and known evidence-based staffing information, including the nursing sensitive quality indicators collected by the hospital;
(c) Review, assessment, and response to staffing concerns presented to the committee.

(4) In addition to the factors listed in subsection (3)(a) of this section, hospital finances and resources may be taken into account in the development of the nurse staffing plan.

(5) The staffing plan must not diminish other standards contained in state or federal law and rules, or the terms of an applicable collective bargaining agreement, if any, between the hospital and a representative of the nursing staff.

(6) The committee will produce the hospital’s annual nurse staffing plan. If this staffing plan is not adopted by the hospital, the chief executive officer shall provide a written explanation of the reasons why to the committee.

(7) Each hospital shall post, in a public area on each patient care unit, the nurse staffing plan and the nurse staffing schedule for that shift on that unit, as well as the relevant clinical staffing for that shift. The staffing plan and current staffing levels must also be made available to patients and visitors upon request.

(8) A hospital may not retaliate against or engage in any form of intimidation of:

(a) An employee for performing any duties or responsibilities in connection with the nurse staffing committee; or

(b) An employee, patient, or other individual who notifies the nurse staffing committee or the hospital administration of his or her concerns on nurse staffing.

(9) This section is not intended to create unreasonable burdens on critical access hospitals under 42 U.S.C. Sec. 1395i-4. Critical access hospitals may develop flexible approaches to accomplish the requirements of this section that may include but are not limited to having nurse staffing committees work by telephone or electronic mail. [2008 c 47 § 3.]

Findings—Intent—2008 c 47: See note following RCW 70.41.410.

70.41.430 Licensed hospitals must adopt a policy regarding methicillin-resistant staphylococcus aureus (MRSA)—Elements. (1) Each hospital licensed under this chapter shall, by January 1, 2010, adopt a policy regarding methicillin-resistant staphylococcus aureus. The policy shall, at a minimum, contain the following elements:

(a) A requirement to test any patient for methicillin-resistant staphylococcus aureus who is a member of a patient population identified as appropriate to test based on the hospital’s risk assessment for methicillin-resistant staphylococcus aureus;

(b) A requirement that a patient in the hospital’s adult or pediatric, but not neonatal, intensive care unit be tested for methicillin-resistant staphylococcus aureus within twenty-four hours of admission unless the patient has been previously tested during that hospital stay or has a known history of methicillin-resistant staphylococcus aureus;

(c) Appropriate procedures to help prevent patients who test positive for methicillin-resistant staphylococcus aureus from transmitting to other patients. For purposes of this subsection, “appropriate procedures” include, but are not limited to, isolation or cohorting of patients colonized or infected with methicillin-resistant staphylococcus aureus. In a hospital with patients, whose methicillin-resistant staphylococcus aureus status is either unknown or uncolonized, may be roomed with colonized or infected patients, patients must be notified they may be roomed with patients who have tested positive for methicillin-resistant staphylococcus aureus; and

(d) A requirement that every patient who has a methicillin-resistant staphylococcus aureus infection receive oral and written instructions regarding aftercare and precautions to prevent the spread of the infection to others.

(2) A hospital that has identified a hospitalized patient who has a diagnosis of methicillin-resistant staphylococcus aureus shall report the infection to the department using the department’s comprehensive hospital abstract reporting system. When making its report, the hospital shall use codes used by the United States centers for medicare and medicaid services, when available. [2009 c 244 § 1.]

70.41.440 Duty to report violent injuries—Preservation of evidence—Immunity—Privilege. (1) A hospital shall report to a local law enforcement authority as soon as reasonably possible, taking into consideration a patient’s emergency care needs, when the hospital provides treatment for a bullet wound, gunshot wound, or stab wound to a patient who is unconscious. A hospital shall establish a written policy to identify the person or persons responsible for making the report.

(2) The report required under subsection (1) of this section must include the following information, if known:

(a) The name, residence, sex, and age of the patient;

(b) Whether the patient has received a bullet wound, gunshot wound, or stab wound; and

(c) The name of the health care provider providing treatment for the bullet wound, gunshot wound, or stab wound.

(3) Nothing in this section shall limit a person’s duty to report under RCW 26.44.030 or 74.34.035.

(4) Any bullets, clothing, or other foreign objects that are removed from a patient for whom a hospital is required to make a report pursuant to subsection (1) of this section shall be preserved and kept in custody in such a way that the identity and integrity thereof are reasonably maintained until the bullets, clothing, or other foreign objects are taken into possession by a law enforcement authority or the hospital’s normal period for retention of such items expires, whichever occurs first.

(5) Any hospital or person who in good faith, and without gross negligence or willful or wanton misconduct, makes a report required by this section, cooperates in an investigation or criminal or judicial proceeding related to such report, or maintains bullets, clothing, or other foreign objects, or provides such items to a law enforcement authority as described in subsection (4) of this section, is immune from civil or criminal liability or professional licensure action arising out of or related to the report and its contents or the absence of information in the report, cooperation in an investigation or criminal or judicial proceeding, and the maintenance or provision to a law enforcement authority of bullets, clothing, or other foreign objects under subsection (4) of this section.

(6) The physician-patient privilege described in RCW 5.60.060(4), the registered nurse-patient privilege described in RCW 5.62.020, and any other health care provider-patient privilege created or recognized by law are not a basis for excluding as evidence in any criminal proceeding any report, or information contained in a report made under this section.

[Title 70 RCW—page 68]
(7) All reporting, preservation, or other requirements of this section are secondary to patient care needs and may be delayed or compromised without penalty to the hospital or person required to fulfill the requirements of this section. [2009 c 529 § 2.]

**70.41.450 Estimated charges of hospital services—Notice.** Hospitals licensed under this chapter shall post a sign in patient registration areas containing at least the following language: "Information about the estimated charges of your hospital services is available upon request. Please do not hesitate to ask for information." [2009 c 529 § 2.]

**70.41.460 Contract with department of corrections.** As a condition of licensure, a hospital must contract with the department of corrections pursuant to RCW 72.10.030. [2012 c 237 § 3.]

**70.41.470 Information to be made widely available by certain hospitals—Community health needs assessment—Description of community served—Community benefit implementation strategy.** (1) As of January 1, 2013, each hospital that is recognized by the internal revenue service as a 501(c)(3) nonprofit entity must make its federally required community health needs assessment widely available to the public within fifteen days of submission to the internal revenue service. Following completion of the initial community health needs assessment, each hospital in accordance with the internal revenue service, shall complete and make widely available to the public an assessment once every three years.

(2) Unless contained in the community health needs assessment under subsection (1) of this section, a hospital subject to the requirements of subsection (1) of this section shall make public a description of the community served by the hospital, including both a geographic description and a description of the general population served by the hospital; and demographic information such as leading causes of death, levels of chronic illness, and descriptions of the medically underserved, low-income, and minority, or chronically ill populations in the community.

(3)(a) Each hospital subject to the requirements of subsection (1) of this section shall make widely available to the public a community benefit implementation strategy within one year of completing its community health needs assessment. In developing the implementation strategy, hospitals shall consult with community-based organizations and stakeholders, and local public health jurisdictions, as well as any additional consultations the hospital decides to undertake. Unless contained in the implementation strategy under this subsection (3)(a), the hospital must provide a brief explanation for not accepting recommendations for community benefit proposals identified in the assessment through the stakeholder consultation process, such as excessive expense to implement or infeasibility of implementation of the proposal.

(b) Implementation strategies must be evidence-based, when available; or development and implementation of innovative programs and practices should be supported by evaluation measures.

(4) For the purposes of this section, the term "widely available to the public" has the same meaning as in the internal revenue service guidelines. [2012 c 103 § 1.]

**70.41.900 Severability—1955 c 267.** If any part, or parts, of this chapter shall be held unconstitutional, the remaining provisions shall be given full force and effect, as completely as if the part held unconstitutional had not been included herein, if any such remaining part can then be administered for the purpose of establishing and maintaining standards for hospitals. [1955 c 267 § 21.]

**70.42.005 Intent—Construction.** The legislature intends that medical test sites meet criteria known to promote accurate and reliable analysis, thus improving health care through uniform test site licensure and regulation including quality control, quality assurance, and proficiency testing. The legislature also intends to meet the requirements of federal laws licensing and regulating medical testing.

The legislature intends that nothing in this chapter shall be interpreted to place any liability whatsoever on the state for the action or inaction of test sites or test site personnel. The legislature further intends that nothing in this chapter shall be interpreted to expand the state’s role regarding medical testing beyond the provisions of this chapter. [1989 c 386 § 1.]

**70.42.010 Definitions.** Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Department" means the department of health if enacted, otherwise the department of social and health services.

(2) "Designated test site supervisor" means the available individual who is responsible for the technical functions of
the test site and who meets the department’s qualifications set out in rule by the department.

(3) “Person” means any individual, or any public or private organization, agent, agency, corporation, firm, association, partnership, or business.

(4) “Proficiency testing program” means an external service approved by the department which provides samples to evaluate the accuracy, reliability and performance of the tests at each test site.

(5) “Quality assurance” means a comprehensive set of policies, procedures, and practices to assure that a test site’s results are accurate and reliable. Quality assurance means a total program of internal and external quality control, equipment preventative maintenance, calibration, recordkeeping, and proficiency testing evaluation, including a written quality assurance plan.

(6) “Quality control” means internal written procedures and day-to-day analysis of laboratory reference materials at each test site to insure precision and accuracy of test methodology, equipment, and results.

(7) “Test” means any examination or procedure conducted on a sample taken from the human body, including screening.

(8) “Test site” means any facility or site, public or private, which analyzes materials derived from the human body for the purposes of health care, treatment, or screening. A test site does not mean a facility or site, including a residence, where a test approved for home use by the federal food and drug administration is used by an individual to test himself or herself without direct supervision or guidance by another and where this test is not part of a commercial transaction. [1989 c 386 § 2.]

*Reviser’s note: 1989 1st ex.s. c 14 created the department of health.

70.42.020 License required. After July 1, 1990, no person may advertise, operate, manage, own, conduct, open, or maintain a test site without first obtaining a license for the tests to be performed, except as provided in RCW 70.42.030. [1989 c 386 § 3.]

70.42.030 Waiver of license—Conditions. (1) As a part of the application for licensure, a test site may request a waiver from licensure under this chapter if the test site performs only examinations which are determined to have insignificant risk of an erroneous result, including those which (a) are approved by the federal food and drug administration for home use; (b) are so simple and accurate as to render the likelihood of erroneous results negligible; or (c) pose no reasonable risk of harm to the patient if performed incorrectly.

(2) The department shall determine by rule which tests meet the criteria in subsection (1) of this section and shall be exempt from coverage of this chapter. The standards applied in developing the list shall be consistent with federal law and regulations.

(3) The department shall grant a waiver from licensure for two years for a valid request based on subsections (1) and (2) of this section.

(4) Any test site which has received a waiver under subsection (3) of this section shall report to the department any changes in the type of tests it intends to perform thirty days in advance of the changes. In no case shall a test site with a waiver perform tests which require a license under this chapter. [1989 c 386 § 4.]

70.42.040 Sites approved under federal law—Automatic licensure. Test sites accredited, certified, or licensed by an organization or agency approved by the department consistent with federal law and regulations shall receive a license under RCW 70.42.110. [1989 c 386 § 5.]

70.42.050 Permission to perform tests not covered by license—License amendment. A licensee that desires to perform tests for which it is not currently licensed shall notify the department. To the extent allowed by federal law and regulations, upon notification and pending the department’s determination, the department shall grant the licensee temporary permission to perform the additional tests. The department shall amend the license if it determines that the licensee meets all applicable requirements. [1989 c 386 § 6.]

70.42.060 Quality control, quality assurance, recordkeeping, and personnel standards. The department shall adopt standards established in rule governing test sites for quality control, quality assurance, recordkeeping, and personnel consistent with federal laws and regulations. “Recordkeeping” for purposes of this chapter means books, files, or records necessary to show compliance with the quality control and quality assurance requirements adopted by the department. [1989 c 386 § 7.]

70.42.070 Proficiency testing program. (1) Except where there is no reasonable proficiency test, each licensed test site must participate in a department-approved proficiency testing program appropriate to the test or tests it performs. The department may approve proficiency testing programs offered by private or public organizations when the program meets the standards set by the department. Testing shall be conducted quarterly except as otherwise provided for in rule.

(2) The department shall establish proficiency testing standards by rule which include a measure of acceptable performance for tests, and a system for grading proficiency testing performance for tests. The standards may include an evaluation of the personnel performing tests. [1989 c 386 § 8.]

70.42.080 Test site supervisor. A test site shall have a designated test site supervisor who shall meet the qualifications determined by the department in rule. The designated test site supervisor shall be responsible for the testing functions of the test site. [1989 c 386 § 9.]

70.42.090 Fees—Account. (1) The department shall establish a schedule of fees for license applications, renewals, amendments, and waivers. In fixing said fees, the department shall set the fees at a sufficient level to defray the cost of administering the licensure program. All such fees shall be fixed by rule adopted in accordance with the provisions of the administrative procedure act, chapter 34.05 RCW. In determining the fee schedule, the department shall consider the following: (a) Complexity of the license required; (b) number and type of tests performed at the test site; (c) degree of supervision required from the department staff; (d) whether
70.42.110 Issuance of license—Renewal. Upon receipt of an application for a license and the license fee, the department shall issue a license if the applicant meets the requirements established under this chapter. All persons operating test sites before July 1, 1990, shall submit applications by July 1, 1990. A license issued under this chapter shall not be transferred or assigned without thirty days’ prior notice to the department and the department’s timely approval. A license, unless suspended or revoked, shall be effective for a period of two years. The department may establish penalty fees or take other appropriate action pursuant to this chapter for failure to apply for licensure or renewal as required by this chapter. [1989 c 386 § 11.]

70.42.120 Denial of license. Under this chapter, and chapter 34.05 RCW, the department may deny a license to any applicant who:

(1) Refuses to comply with the requirements of this chapter or the standards or rules adopted under this chapter;

(2) Was the holder of a license under this chapter which was revoked for cause and never reissued by the department;

(3) Has knowingly or with reason to know made a false statement of a material fact in the application for a license or in any data attached thereto or in any record required by the department;

(4) Refuses to allow representatives of the department to examine any book, record, or file required by this chapter to be maintained;

(5) Willfully prevented, interfered with, or attempted to impede in any way the work of a representative of the department; or

(6) Misrepresented, or was fraudulent in, any aspect of the licensee’s business. [1989 c 386 § 12.]

70.42.130 Conditions upon license. Under this chapter, and chapter 34.05 RCW, the department may place conditions on a license which limit or cancel a test site’s authority to conduct any of the tests or groups of tests of any licensee who:

(1) Fails or refuses to comply with the requirements of this chapter or the rules adopted under this chapter;

(2) Has knowingly or with reason to know made a false statement of a material fact in the application for a license or in any data attached thereto or in any record required by the department;

(3) Refuses to allow representatives of the department to examine any book, record, or file required by this chapter to be maintained;

(4) Willfully prevented, interfered with, or attempted to impede in any way the work of a representative of the department;

(5) Willfully prevented or interfered with preservation of evidence of a known violation of this chapter or the rules adopted under this chapter; or

(6) Misrepresented, or was fraudulent in, any aspect of the licensee’s business. [1989 c 386 § 13.]

70.42.140 Suspension of license. Under this chapter, and chapter 34.05 RCW, the department may suspend the license of any licensee who:

(1) Fails or refuses to comply with the requirements of this chapter or the rules adopted under this chapter;

(2) Has knowingly or with reason to know made a false statement of a material fact in the application for a license or in any data attached thereto or in any record required by the department;

(3) Refuses to allow representatives of the department to examine any book, record, or file required by this chapter to be maintained;

(4) Willfully prevented, interfered with, or attempted to impede in any way the work of a representative of the department;

(5) Willfully prevented or interfered with preservation of evidence of a known violation of this chapter or the rules adopted under this chapter;

(6) Misrepresented, or was fraudulent in, any aspect of the licensee’s business;

(7) Used false or fraudulent advertising; or

(8) Failed to pay any civil monetary penalty assessed by the department under this chapter within twenty-eight days after the assessment becomes final. [1989 c 386 § 14.]

70.42.150 Revocation of license. Under this chapter, and chapter 34.05 RCW, the department may revoke the license of any licensee who:

(1) Fails or refuses to comply with the requirements of this chapter or the rules adopted under this chapter;

(2) Has knowingly or with reason to know made a false statement of a material fact in the application for a license or in any data attached thereto or in any record required by the department;

(3) Refuses to allow representatives of the department to examine any book, record, or file required by this chapter to be maintained;

(4) Willfully prevented, interfered with, or attempted to impede in any way the work of a representative of the department;
(5) Willfully prevented or interfered with preservation of evidence of a known violation of this chapter or the rules adopted under this chapter;
(6) Misrepresented, or was fraudulent in, any aspect of the licensee’s business;
(7) Used false or fraudulent advertising; or
(8) Failed to pay any civil monetary penalty assessed by the department pursuant to this chapter within twenty-eight days after the assessment becomes final.

The department may summarily revoke a license when it finds continued licensure of a test site immediately jeopardizes the public health, safety, or welfare. [1989 c 386 § 16.]

70.42.160 Penalties—Acts constituting violations.
Under this chapter, and chapter 34.05 RCW, the department may assess monetary penalties of up to ten thousand dollars per violation in addition to or in lieu of suspending, or revoking a license. A violation occurs when a licensee:

(1) Fails or refuses to comply with the requirements of this chapter or the standards or rules adopted under this chapter;
(2) Has knowingly or with reason to know made a false statement of a material fact in the application for a license or in any data attached thereto or in any record required by the department;
(3) Refuses to allow representatives of the department to examine any book, record, or file required by this chapter to be maintained;
(4) Willfully prevents, interferes with, or attempts to impede in any way the work of any representative of the department;
(5) Willfully prevents or interferes with preservation of evidence of any known violation of this chapter or the rules adopted under this chapter;
(6) Misrepresents or was fraudulent in any aspect of the applicant’s business; or
(7) Uses advertising which is false or fraudulent.

Each day of a continuing violation is a separate violation. [1989 c 386 § 17.]

70.42.170 On-site reviews. The department may at any time conduct an on-site review of a licensee or applicant in order to determine compliance with this chapter. When the department has reason to believe a waivered site is conducting tests requiring a license, the department may conduct an on-site review of the waivered site in order to determine compliance. The department may also examine and audit records necessary to determine compliance with this chapter. The right to conduct an on-site review and audit of records shall extend to any premises and records of persons whom the department has reason to believe are opening, owning, conducting, maintaining, managing, or otherwise operating a test site without a license.

Following an on-site review, the department shall give written notice of any violation of this chapter or the rules adopted under this chapter. The notice shall describe the reasons for noncompliance and inform the licensee or applicant or test site operator that it shall comply within a specified reasonable time. If the licensee or applicant or test site operator fails to comply, the department may take disciplinary action under RCW 70.42.120 through 70.42.150, or further action as authorized by this chapter. [1989 c 386 § 18.]

70.42.180 Operating without a license—Injunctions or other remedies—Penalty. Notwithstanding the existence or use of any other remedy, the department may, in the manner provided by law and upon the advice of the attorney general, who shall represent the department in the proceedings, maintain an action in the name of the state for an injunction or other process against any person to restrain or prevent the advertising, operating, maintaining, managing, or opening of a test site without a license under this chapter. It is a misdemeanor to own, operate, or maintain a test site without a license. [1989 c 386 § 19.]

70.42.190 Petition of superior court for review of disciplinary action. Any test site which has had a denial, condition, suspension, or revocation of its license, or a civil monetary penalty upheld after administrative review under chapter 34.05 RCW, may, within sixty days of the administrative determination, petition the superior court for review of the decision. [1989 c 386 § 20.]

[1955 c 135 § 2.]

70.44.016 Validation of districts. Each and all of the respective areas of land attempted to be organized into public hospital districts prior to June 10, 1982, under the provisions of chapter 70.44 RCW where the canvass of the election on the proposition of creating a public hospital district shows the passage of the proposition are validated and declared to be duly existing public hospital districts having the respective boundaries set forth in their organization proceedings as shown by the files in the office of the legislative authority of the county in question, and by the files of such districts. If the petition is found to be insufficient, it shall be returned to the persons filing it, who may amend or add names thereto for ten days, when it shall be returned to the auditor, who shall have an additional fifteen days to examine it and attach the certificate thereto. No person signing the petition may withdraw his or her name therefrom after filing. 70.44.028 Limitation on legal challenges. Unless commenced within thirty days after the date of the filing of the certificate of the canvass of an election on the proposition of creating a new public hospital district pursuant to chapter 70.44 RCW, no lawsuit whatever may be maintained challenging in any way the legal existence of such district or the validity of the proceedings had for the organization and creation thereof. If the creation of a district is not challenged within the period specified in this section, the district conclusively shall be deemed duly and regularly organized under the laws of this state. [1982 c 84 § 9.]

Such publications required by this chapter shall be in a newspaper published in the proposed or established public hospital district, or, if there be no such newspaper, then in a newspaper published in the county in which such district is situated, and of general circulation in such county. [1953 c 267 § 1.]

No primary shall be held. A special filing period shall be opened as provided in RCW 29A.24.171 and 29A.24.181. The person receiving the greatest number of votes for the commissioner of each commissioner district or at-large position shall be elected as the commissioner of that district. The terms of office of the initial public hospital district commissioners shall be staggered, with the length of the terms assigned so that the person or persons who are elected receiving the greater number of votes being assigned a longer term or terms of office and each term of an initial commissioner running until a successor assumes office who is elected at one of the next three following district general elections the first of which occurs at least one hundred twenty days after the date of the election where voters approved the ballot proposition creating the district, as follows:

The initial commissioners shall take office immediately when they are elected and qualified. The term of office of each successor shall be six years. Each commissioner shall serve until a successor is elected and qualified and assumes office in accordance with RCW 29A.20.040.

(2) Only a registered voter who resides in a commissioner district may be a candidate for, or hold office as, a commissioner of the commissioner district. Voters of the entire public hospital district may vote at a primary or general election to elect a person as a commissioner of the commissioner district.

If the proposed public hospital district initially will have three commissioner districts and the public hospital district is countywide, and if the county has three county legislative authority districts, the county legislative authority districts shall be used as public hospital district commissioner districts. In all other instances the county auditor of the county in which all or the largest portion of the proposed public hospital district is located shall draw the initial public hospital district commissioner districts and designate at-large positions, if appropriate, as provided in RCW 70.44.054. Each of the commissioner positions shall be numbered consecutively and associated with the commissioner district or at-large position of the same number.

Taxes levied by the commission shall be certified to and collected by the proper county officer of the county in which such public hospital district is located in the same manner as is or may be provided by law for the certification and collection of port district taxes. The commission is authorized, prior to the receipt of taxes raised by levy, to borrow money or issue warrants of the district in anticipation of the revenue to be derived by such district from the levy of taxes for the purpose of such district, and such warrants shall be redeemed from the first money available from such taxes when collected, and such warrants shall not exceed the anticipated revenues of one year, and shall bear interest at a rate or rates as authorized by the commission.

(10) To employ superintendents, attorneys, and other technical or professional assistants and all other employees; to make all contracts useful or necessary to carry out the provisions of this chapter, including, but not limited to, (a) contracts with private or public institutions for employee retirement programs, and (b) contracts with current or prospective employees, physicians, or other health care practitioners providing for the payment or reimbursement by the public hospital district of health care training or education expenses, including but not limited to debt obligations, incurred by current or prospective employees, physicians, or other health care practitioners in return for their agreement to provide services beneficial to the public hospital district; to print and publish information or literature; and to do all other things necessary to carry out the provisions of this chapter.

If the treasurer is not the county treasurer, the commission shall require a bond, with a surety company authorized to do business in the state of Washington, in an amount and under the terms and conditions which the commission by resolution from time to time finds will protect the district against loss. The premium on any such bond shall be paid by the district.

All district funds shall be paid to the treasurer and shall be disbursed by him or her only on warrants issued by an auditor appointed by the commission, upon orders or vouchers approved by it. The treasurer shall establish a public hospital district fund, into which shall be paid all district funds, and he or she shall maintain such special funds as may be created by the commission, into which he or she shall place all money as the commission may, by resolution, direct.

All interest collected on district funds shall belong to the district and be deposited to its credit in the proper district funds.

A district may provide and require a reasonable bond of any other person handling moneys or securities of the district. The district may pay the premium on such bond. [2012 c 117 § 379; 1967 c 227 § 1.]

*Reviser’s note: RCW 36.48.020 was repealed by 1984 c 177 § 21.

Notwithstanding any other provision of law, including RCW 70.44.040, whenever the boundary line between contiguous hospital districts bisects an irrigation block unit placing part of the unit in one hospital district and the balance thereof in another such district, the county auditor, upon his or her approval of a request therefor after public hearing thereon, shall change the hospital district boundary lines so that the entire farm unit of the person so requesting shall be wholly in one of such hospital districts and give notice thereof to those hospital district and county officials as he or she shall deem appropriate therefor. [2012 c 117 § 380; 1971 ex.s. c 218 § 4.]

The petition must be signed by the owners, as prescribed by *RCW 35A.01.040(9) (a) through (e), of not less than sixty percent of the area of land within the territory proposed to be annexed. Such petition shall describe the boundaries of the territory proposed to be annexed and shall be accompanied by a map which outlines the boundaries of such territory.

(3) Whenever such a petition for annexation is filed with the commission of a public hospital district, the commission may entertain the same, fix a date for public hearing thereon, and cause notice of the hearing to be published once a week for at least two consecutive weeks in a newspaper of general circulation within the territory proposed to be annexed. The notice shall also be posted in three public places within the territory proposed to be annexed, shall contain a description of the boundaries of such territory, and shall specify the time and place of hearing and invite interested persons to appear and voice approval or disapproval of the annexation.

(4) Following the hearing, if the commission of the district determines to accomplish the annexation, it shall do so by resolution. The resolution may annex all or any portion of the proposed territory but may not include in the annexation any property not described in the petition. Upon passage of the annexation resolution, the territory annexed shall become part of the district and a certified copy of such resolution shall be filed with the legislative authority of the county or counties in which the annexed property is located.
(5) If the petition for annexation and the annexation resolution so provide, as the commission may require, and such petition has been signed by the owners of all the land within the boundaries of the territory being annexed, the annexed property shall assume and be assessed and taxed to pay for all or any portion of the outstanding indebtedness of the district to which it is annexed at the same rates as other property within such district. Unless so provided in the petition and resolution, property within the boundaries of the territory annexed shall not be assessed or taxed to pay for all or any portion of the indebtedness of the district to which it is annexed that was contracted prior to or which existed at the date of annexation. In no event shall any such annexed property be released from any assessments or taxes previously levied against it or from its existing liability for the payment of outstanding bonds or warrants issued prior to such annexation.

(6) The annexation procedure provided for in this section shall be an alternative method of annexation applicable only if at the time the annexation petition is filed either there are no registered voters residing in the territory proposed to be annexed or the petition is also signed by all of the registered voters residing in the territory proposed to be annexed. [1993 c 489 § 1; 1979 ex.s. c 143 § 1; 1953 c 267 § 4.]

*Reviser's note: RCW 35A.01.040 was amended by 2008 c 196 § 2, changing subsection (9)(e) to subsection (9)(f). Additional notes found at www.leg.wa.gov

70.44.210 Alternate method of annexation—Contents of resolution calling for election. As an alternate method of annexation to public hospital districts, any territory adjacent to a public hospital district may be annexed thereto by vote of the qualified electors residing in the territory to be annexed, in the manner provided in RCW 70.44.210 through 70.44.230. An election to annex such territory may be called pursuant to a resolution calling for such an election adopted by the district commissioners. Any resolution calling for such an election shall describe the boundaries of the territory to be annexed, state that the annexation of such territory to the public hospital district will be conducive to the welfare and benefit of the persons or property within the district and within the territory proposed to be annexed, and fix the date, time and place for a public hearing thereon which date shall be not more than sixty nor less than forty days following the adoption of such resolution. [1967 c 227 § 6.]

70.44.220 Alternate method of annexation—Publication and contents of notice of hearing—Hearing—Resolution—Special election. Notice of such hearing shall be published once a week for at least two consecutive weeks in one or more newspapers of general circulation within the territory proposed to be annexed. The notice shall contain a description of the boundaries of the territory proposed to be annexed and shall state the time and place of the hearing thereon and the fact that any changes in the boundaries of such territory will be considered at such time and place. At such hearing or any continuation thereof, any interested person may appear and be heard on all matters relating to the proposed annexation. The district commissioners may make such changes in the boundaries of the territory proposed to be annexed as it shall deem reasonable and proper, but may not delete any portion of the proposed area which will create an island of included or excluded lands. If the district commissioners shall determine that any additional territory should be included in the territory to be annexed, a second hearing shall be held and notice given in the same manner as for the original hearing. The district commissioners may adjourn the hearing on the proposed annexation from time to time not exceeding thirty days in all. At the next regular meeting following the conclusion of such hearing, the district commissioners shall, if it finds that the annexation of such territory will be conducive to the welfare and benefit of the persons and property therein and the welfare and benefit of the persons and property within the public hospital district, adopt a resolution fixing the boundaries of the territory to be annexed and causing to be called a special election on such annexation to be held not more than one hundred twenty days nor less than sixty days following the adoption of such resolution. [1967 c 227 § 7.]

70.44.230 Alternate method of annexation—Conduct and canvass of election—Notice—Ballot. An election on the annexation of territory to a public hospital district shall be conducted and canvassed in the same manner as provided for the conduct of an election on the formation of a public hospital district except that notice of such election shall be published in one or more newspapers of general circulation in the territory proposed to be annexed and the ballot proposition shall be in substantially the following form:

ANNEXATION TO (herein insert name of public hospital district)

"Shall the territory described in a resolution of the public hospital district commissioners of (here insert name of public hospital district) adopted on . . . . , 19 . . . be annexed to such district?

YES ........................................ X
NO ........................................ X"

If a majority of those voting on such proposition vote in favor thereof, the territory shall thereupon be annexed to the public hospital district. [1967 c 227 § 8.]

70.44.235 Withdrawal or reannexation of areas. (1) As provided in this section, a public hospital district may withdraw areas from its boundaries, or reannex areas into the public hospital district that previously had been withdrawn from the public hospital district under this section.

(2) The withdrawal of an area shall be authorized upon:
(a) Adoption of a resolution by the hospital district commissioners requesting the withdrawal and finding that, in the opinion of the commissioners, inclusion of this area within the public hospital district will result in a reduction of the district’s tax levy rate under the provisions of RCW 84.52.010; and
(b) adoption of a resolution by the city or town council approving the withdrawal, if the area is located within the city or town, or adoption of a resolution by the county legislative authority of the county within which the area is located approving the withdrawal, if the area is located outside of a city or town. A withdrawal shall be effective at the end of the day on the thirty-first day of December in the year in which
the resolutions are adopted, but for purposes of establishing boundaries for property tax purposes, the boundaries shall be established immediately upon the adoption of the second resolution.

The withdrawal of an area from the boundaries of a public hospital district shall not exempt any property therein from taxation for the purpose of paying the costs of redeeming any indebtedness of the public hospital district existing at the time of the withdrawal.

(3) An area that has been withdrawn from the boundaries of a public hospital district under this section may be reannexed into the public hospital district upon: (a) Adoption of a resolution by the hospital district commissioners proposing the reannexation; and (b) adoption of a resolution by the city or town council approving the reannexation, if the area is located within the city or town, or adoption of a resolution by the county legislative authority of the county within which the area is located approving the reannexation, if the area is located outside of a city or town. The reannexation shall be effective at the end of the day on the thirty-first day of December in the year in which the adoption of the second resolution occurs, but for purposes of establishing boundaries for property tax purposes, the boundaries shall be established immediately upon the adoption of the second resolution.

Referendum action on the proposed reannexation may be taken by the voters of the area proposed to be reannexed if a petition calling for a referendum is filed with the city or town council, or county legislative authority, within a thirty-day period after the adoption of the second resolution, which petition has been signed by registered voters of the area proposed to be reannexed equal in number to ten percent of the total number of the registered voters residing in that area.

If a valid petition signed by the requisite number of registered voters has been so filed, the effect of the resolutions shall be held in abeyance and a ballot proposition to authorize the reannexation shall be submitted to the voters of the area at the next special election date according to RCW 29A.04.330. Approval of the ballot proposition authorizing the reannexation by a simple majority vote shall authorize the reannexation. [2006 c 344 § 39; 1987 c 138 § 4.]

Effective date—2006 c 344 §§ 1-16 and 18-40: See note following RCW 29A.04.311.

If a public hospital district chooses to contract or join with another party or parties pursuant to the provisions of this chapter, it may do so through establishing a nonprofit corporation, partnership, limited liability company, or other legal entity of its choosing in which the public hospital district and the other party or parties participate. The governing body of such legal entity shall include representatives of the public hospital district, which representatives may include members of the public hospital district’s board of commissioners. A public hospital district contracting or joining with another party pursuant to the provisions of this chapter may appropriate funds and may sell, lease, or otherwise provide property, personnel, and services to the legal entity established to carry out the contract or joint activity. [2004 c 261 § 7; 1997 c 332 § 16; 1982 c 84 § 19; 1974 ex.s. c 165 § 4; 1967 c 227 § 3.]

Any public hospital district may execute an executory conditional sales contract with any other municipal corporation, the state, or any of its political subdivisions, the government of the United States, or any private party for the purchase of any real or personal property, or property rights, in connection with the exercise of any powers or duties which such districts now or hereafter are authorized to exercise, if the entire amount of the purchase price specified in such contract does not result in a total indebtedness in excess of the limitation imposed by RCW 39.36.020, as now or hereafter amended, to be incurred without the assent of the voters of the district: PROVIDED, That if such a proposed contract would result in a total indebtedness in excess of three-fourths of one percent of the value of taxable property in such public hospital district, a proposition in regard to whether or not such a contract may be executed shall be submitted to the voters for approval or rejection in the same manner that bond issues for capital purposes are submitted to the voters. The term "value of taxable property" shall have the meaning set forth in RCW 39.36.015. [1975-'76 2nd ex.s. c 78 § 1.]

70.44.300 Sale of surplus real property. (1) The board of commissioners of any public hospital district may sell and convey at public or private sale real property of the district if the board determines by resolution that the property is no longer required for public hospital district purposes or determines by resolution that the sale of the property will further the purposes of the public hospital district.

(2) Any sale of district real property authorized pursuant to this section shall be preceded, not more than one year prior to the date of sale, by market value appraisals by three licensed real estate brokers or professionally designated real estate appraisers as defined in *RCW 74.46.020 or three independent experts in valuing health care property, selected by the board of commissioners, and no sale shall take place if the sale price would be less than ninety percent of the average of such appraisals.

(3) When the board of commissioners of any public hospital district proposes a sale of district real property pursuant to this section and the value of the property exceeds one hundred thousand dollars, the board shall publish a notice of its intention to sell the property. The notice shall be published at least once each week during two consecutive weeks in a legal newspaper of general circulation within the public hospital district. The notice shall describe the property to be sold and designate the place where and the day and hour when a hearing will be held. The board shall hold a public hearing upon the proposal to dispose of the public hospital district property at the place and the day and hour fixed in the notice and consider evidence offered for and against the propriety and advisability of the proposed sale.

(2012 Ed.)
(4) If in the judgment of the board of commissioners of any district the sale of any district real property not needed for public hospital district purposes would be facilitated and greater value realized through use of the services of licensed real estate brokers, a contract for such services may be negotiated and concluded. The fee or commissions charged for any broker service shall not exceed seven percent of the resulting sale price for a single parcel. No licensed real estate broker or professionally designated real estate appraisers as defined in *RCW 74.46.020 or independent expert in valuing health care property selected by the board to appraise the market value of a parcel of property to be sold may be a party to any contract with the public hospital district to sell such property for a period of three years after the appraisal. [1997 c 332 § 17; 1984 c 103 § 4; 1982 c 84 § 2.]

*Reviser’s note: RCW 74.46.020 was amended by 2010 1st sp.s. c 34 § 2, deleting the definition of "professionally designated real estate appraiser.”

70.44.310 Lease of surplus real property. The board of commissioners of any public hospital district may lease or rent out real property of the district which the board has determined by resolution presently is not required for public hospital district purposes in such manner and upon such terms and conditions as the board in its discretion finds to be in the best interest of the district. [1982 c 84 § 3.]

70.44.315 Evaluation criteria and requirements for acquisition of district hospitals. (1) When evaluating a potential acquisition, the commissioners shall determine their compliance with the following requirements:

(a) That the acquisition is authorized under chapter 70.44 RCW and other laws governing public hospital districts;

(b) That the procedures used in the decision-making process allowed district officials to thoroughly fulfill their due diligence responsibilities as municipal officers, including those covered under chapter 42.23 RCW governing conflicts of interest and chapter 42.20 RCW prohibiting malfeasance of public officials;

(c) That the acquisition will not result in the revocation of hospital privileges;

(d) That sufficient safeguards are included to maintain appropriate capacity for health science research and health care provider education;

(e) That the acquisition is allowed under Article VIII, section 7 of the state Constitution, which prohibits gifts of public funds or lending of credit and Article XI, section 14, prohibiting private use of public funds;

(f) That the public hospital district will retain control over district functions as required under chapter 70.44 RCW and other laws governing hospital districts;

(g) That the activities related to the acquisition process complied with chapters 42.56 and 42.32 RCW, governing disclosure of public records, and chapter 42.30 RCW, governing public meetings;

(h) That the acquisition complies with the requirements of RCW 70.44.300 relating to fair market value; and

(i) Other state laws affecting the proposed acquisition.

(2) The commissioners shall also determine whether the public hospital district will retain control of twenty percent or more of the assets of a hospital or the Washington state department of health as to whether or not the acquisition meets the standards set forth in RCW 70.45.080.

(3)(a) Prior to approving the acquisition of a district hospital, the board of commissioners of the hospital district shall obtain a written opinion from a qualified independent expert or the Washington state department of health as to whether or not the acquisition meets the standards set forth in RCW 70.45.080.

(b) Upon request, the hospital district and the person seeking to acquire its hospital shall provide the department or independent expert with any needed information and documents. The department shall charge the hospital district for any costs the department incurs in preparing an opinion under this section. The hospital district may recover from the acquiring person any costs it incurs in obtaining the opinion from either the department or the independent expert. The opinion shall be delivered to the board of commissioners no later than ninety days after it is requested.

(c) Within ten working days after it receives the opinion, the board of commissioners shall publish notice of the opinion in at least one newspaper of general circulation within the hospital district, stating how a person may obtain a copy, and giving the time and location of the hearing required under (d) of this subsection. It shall make a copy of the report and the opinion available to anyone upon request.

(d) Within thirty days after it received the opinion, the board of commissioners shall hold a public hearing regarding the proposed acquisition. The board of commissioners may vote to approve the acquisition no sooner than thirty days following the public hearing.

(4)(a) For purposes of this section, "acquisition" means an acquisition by a person of any interest in a hospital owned by a public hospital district, whether by purchase, merger, lease, or otherwise, that results in a change of ownership or control of twenty percent or more of the assets of a hospital currently licensed and operating under RCW 70.41.090. Acquisition does not include an acquisition where the other party or parties to the acquisition are nonprofit corporations having a substantially similar charitable health care purpose, organizations exempt from federal income tax under section 501(c)(3) of the internal revenue code, or governmental entities. Acquisition does not include an acquisition where the other party is an organization that is a limited liability corporation, a partnership, or any other legal entity and the members, partners, or other designated controlling parties of the organization are all nonprofit corporations having a charitable health care purpose, organizations exempt from federal income tax under section 501(c)(3) of the internal revenue code, or governmental entities. Acquisition does not include activities between two or more governmental organizations, including organizations acting pursuant to chapter 39.34 RCW, regardless of the type of organizational structure used by the governmental entities.

(b) For purposes of this subsection (4), "person" means an individual, a trust or estate, a partnership, a corporation including associations, a limited liability company, a joint stock company, or an insurance company. [2005 c 274 § 334; 1997 c 332 § 18.]
70.44.360 Dividing a district—Plan. The plan of division authorized by RCW 70.44.350 shall include: Proposed names for the new districts; a description of the boundaries of the new districts, which boundaries shall follow insofar as reasonably possible the then-existing precinct boundaries and include all of the territory encompassed by the existing district; a division of all the assets of the existing district between the resulting new districts, including funds, rights, and property, both real and personal; the assumption of all the outstanding obligations of the existing district by the resulting new districts, including general obligation and revenue bonds, contracts, and any other liabilities or indebtedness; the establishing and constituting of new boards of three commissioners for each of the new districts, including fixing the boundaries of commissioner districts within such new districts following insofar as reasonably possible the then-existing precinct boundaries; and such other matters as the board of commissioners of the existing district may deem appropriate. Unless the plan of division provides otherwise, all the area and property of the existing district shall remain subject to the outstanding obligations of that district, and the boards of commissioners of the new districts shall make such levies or charges for services as may be necessary to pay such outstanding obligations in accordance with their terms from the sources originally pledged or otherwise liable for that purpose. [1982 c 84 § 6.]

At such election three commissioners for each of the proposed new districts nominated by petition pursuant to RCW 54.12.010 shall be elected to hold office pursuant to RCW 70.44.040. If at such election a majority of the voters voting on the proposition in each of the proposed new districts shall vote in favor of the plan of division, the county canvassing board shall so declare in its canvass of the returns of such election and upon the filing of the certificate of such canvass: The division of the existing district shall be effective; such original district shall cease to exist; the creation of the two new public hospital districts shall be complete; all assets of the original district shall vest in and become the property of the new districts, respectively, pursuant to the plan of division; all the outstanding obligations of the original district shall be assumed by the new districts, respectively, pursuant to such plan; the commissioners of the original district shall cease to hold office; and the affairs of the new districts shall be governed by the newly elected commissioners of such respective new districts. Unless commenced within thirty days after the date of the filing of the certificate of the canvass of such election, no lawsuit whatever may be maintained challenging in any way the legal existence of the resulting new districts, the validity of the proceedings had for the organization and creation thereof, or the lawfulness of the plan of division. Upon the petition of either or both new districts, the superior court in the county where they are located may take

After adoption of a resolution approving the plan of division by the board of commissioners of an existing district pursuant to RCW 70.44.350 through 70.44.380, the district shall petition the superior court in the county where such district is located requesting court approval of the plan. The court shall conduct a hearing on the plan of division, after reasonable and proper notice of such hearing (including notice to bondholders) is given in the manner fixed and directed by such court. At the conclusion of the hearing, the court may enter its order approving the division of the existing district and of its assets and outstanding obligations in the manner provided by the plan after finding such division to be fair and equitable and in the public interest. 70.44.450 Rural public hospital districts—Cooperative agreements and contracts. In addition to other powers granted to public hospital districts by chapter 39.34 RCW, rural public hospital districts may enter into cooperative agreements and contracts with other rural public hospital districts in order to provide for the health care needs of the people served by the hospital districts. These agreements and contracts are specifically authorized to include:

1. Allocation of health care services among the different facilities owned and operated by the districts;
2. Combined purchases and allocations of medical equipment and technologies;
3. Joint agreements and contracts for health care service delivery and payment with public and private entities; and
4. Other cooperative arrangements consistent with the intent of chapter 161, Laws of 1992. The provisions of chapter 39.34 RCW shall apply to the development and implementation of the cooperative contracts and agreements. [1992 c 161 § 3.]

Intent—1992 c 161: "The legislature finds that maintaining the viability of health care service delivery in rural areas of Washington is a primary goal of state health policy. The legislature also finds that most hospitals located in rural Washington are operated by public hospital districts authorized under chapter 70.44 RCW and declares that it is not cost-effective, practical, or desirable to provide quality health and hospital care services in rural areas on a competitive basis because of limited patient volume and geographic isolation. It is the intent of this act to foster the development of cooperative and collaborative arrangements among rural public hospital districts by specifically authorizing cooperative agreements and contracts for these entities under the interlocal cooperation act." [1992 c 161 § 1.]

70.44.460 Rural public hospital district defined. Unless the context clearly requires otherwise, the definition in this section applies throughout RCW 70.44.450.

"Rural public hospital district" means a public hospital district authorized under chapter 70.44 RCW whose geographic boundaries do not include a city with a population greater than fifty thousand. [2011 c 95 § 1; 1992 c 161 § 2.]

Intent—1992 c 161: See note following RCW 70.44.450.

70.44.470 Chapter not applicable to certain transfers of property. This chapter does not apply to transfers of property under "sections 1 and 2 of this act. [2006 c 35 § 9.]

"Reviser's note: The reference to "sections 1 and 2 of this act" appears to be erroneous. Reference to "sections 2 and 3 of this act" codified as RCW 43.99C.070 and 43.83D.120 was apparently intended.

Findings—2006 c 35: See note following RCW 43.99C.070.

[Title 70 RCW—page 86]
70.45.010 Legislative findings. The health of the people of our state is a most important public concern. The state has an interest in assuring the continued existence of accessible, affordable health care facilities that are responsive to the needs of the communities in which they exist. The state also has a responsibility to protect the public interest in nonprofit hospitals and to clarify the responsibilities of local public hospital district boards with respect to public hospital district assets by making certain that the charitable and public assets of those hospitals are managed prudently and safeguarded consistent with their mission under the laws governing nonprofit and municipal corporations. [1997 c 332 § 1.]

70.45.020 Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Department" means the Washington state department of health.

(2) "Hospital" means any entity that is: (a) Defined as a hospital in RCW 70.41.020 and is required to obtain a license under RCW 70.41.090; or (b) a psychiatric hospital required to obtain a license under chapter 71.12 RCW.

(3) "Acquisition" means an acquisition by a person of an interest in a nonprofit hospital, whether by purchase, merger, lease, gift, joint venture, or otherwise, that results in a change of ownership or control of twenty percent or more of the assets of the hospital, or that results in the acquiring person holding or controlling fifty percent or more of the assets of the hospital, but acquisition does not include an acquisition if the acquiring person: (a) Is a nonprofit corporation having a substantially similar charitable health care purpose as the nonprofit corporation from whom the hospital is being acquired, or is a government entity; (b) is exempt from federal income tax under section 501(c)(3) of the internal revenue code or as a government entity; and (c) will maintain representation from the affected community on the local board of the hospital.

70.45.030 Department approval required—Application—Fees. (1) A person may not engage in the acquisition of a nonprofit hospital without first having applied for and received the approval of the department under this chapter.

(2) An application must be submitted to the department on forms provided by the department, and at a minimum must include: The name of the hospital being acquired, the name of the acquiring person or other parties to the acquisition, the acquisition price, a copy of the acquisition agreement, a financial and economic analysis and report from an independent expert or consultant of the effect of the acquisition under the criteria in RCW 70.45.070, and all other related documents. The applications and all related documents are considered public records for purposes of chapter 42.56 RCW.

(3) The department shall charge an applicant fees sufficient to cover the costs of implementing this chapter. The fees must include the cost of the attorney general’s opinion under RCW 70.45.060. The department shall transfer this portion of the fee, upon receipt, to the attorney general. [2005 c 274 § 335; 1997 c 332 § 3.]

Part headings not law—Effective date—2005 c 274: See RCW 42.56.901 and 42.56.902.

70.45.040 Applications—Deficiencies—Public notice. (1) The department, in consultation with the attorney general, shall determine if the application is complete for the purposes of review. The department may find that an application is incomplete if a question on the application form has not been answered in whole or in part, or has been answered in a manner that does not fairly meet the question addressed, or if the application does not include attachments of supporting documents as required by RCW 70.45.030. If the department determines that an application is incomplete, it shall notify the applicant within fifteen working days after the date the application was received stating the reasons for its determination of incompleteness, with reference to the particular questions for which a deficiency is noted.

(2) Within five working days after receipt of a completed application, the department shall publish notice of the application in a newspaper of general circulation in the county or counties where the hospital is located and shall notify by first-class United States mail, electronic mail, or facsimile transmission, any person who has requested notice of the filing of such applications. The notice must state that an application has been received, state the names of the parties to the agreement, describe the contents of the application, and state the date by which a person may submit written comments about the application to the department. [1997 c 332 § 4.]

70.45.050 Public hearings. During the course of review under this chapter, the department shall conduct one or more public hearings, at least one of which must be in the county where the hospital to be acquired is located. At the hearings, anyone may file written comments and exhibits or appear and make a statement. The department may subpoena additional information or witnesses, require and administer oaths, require sworn statements, take depositions, and use related discovery procedures for purposes of the hearing and at any time prior to making a decision on the application.

A hearing must be held not later than forty-five days after receipt of a completed application. At least ten days’ public notice must be given before the holding of a hearing. [1997 c 332 § 5.]

70.45.060 Attorney general review and opinion—Department review and decision—Adjudicative proceedings. (1) The department shall provide the attorney general with a copy of a completed application upon receiving it. The attorney general shall review the completed application, and within forty-five days of the first public hearing held under
RCW 70.45.050 shall provide a written opinion to the department as to whether or not the acquisition meets the requirements for approval in RCW 70.45.070.

(2) The department shall review the completed application to determine whether or not the acquisition meets the requirements for approval in RCW 70.45.070 and 70.45.080. Within thirty days after receiving the written opinion of the attorney general under subsection (1) of this section, the department shall:

(a) Approve the acquisition, with or without any specific modifications or conditions; or

(b) Disapprove the acquisition.

(3) The department may not make its decision subject to any condition not directly related to requirements in RCW 70.45.070 or 70.45.080, and any condition or modification must bear a direct and rational relationship to the application under review.

(4) A person engaged in an acquisition and affected by a final decision of the department has the right to an adjudicative proceeding under chapter 34.05 RCW. The opinion of the attorney general provided under subsection (1) of this section may not constitute a final decision for purposes of review.

(5) The department or the attorney general may extend, by not more than thirty days, any deadline established under this chapter one time during consideration of any application, for good cause. [1997 c 332 § 6.]

70.45.070 Department review—Criteria to safeguard charitable assets. The department shall only approve an application if the parties to the acquisition have taken the proper steps to safeguard the value of charitable assets and ensure that any proceeds from the acquisition are used for appropriate charitable health purposes. To this end, the department may not approve an application unless, at a minimum, it determines that:

(1) The acquisition is permitted under chapter 24.03 RCW, the Washington nonprofit corporation act, and other laws governing nonprofit entities, trusts, or charities;

(2) The nonprofit corporation that owns the hospital being acquired has exercised due diligence in authorizing the acquisition, selecting the acquiring person, and negotiating the terms and conditions of the acquisition;

(3) The procedures used by the nonprofit corporation’s board of trustees and officers in making its decision fulfilled their fiduciary duties, that the board and officers were sufficiently informed about the proposed acquisition and possible alternatives, and that they used appropriate expert assistance;

(4) No conflict of interest exists related to the acquisition, including, but not limited to, conflicts of interest related to board members of, executives of, and experts retained by the nonprofit corporation, acquiring person, or other parties to the acquisition;

(5) The nonprofit corporation will receive fair market value for its assets. The attorney general or the department may employ, at the expense of the acquiring person, reasonably necessary expert assistance in making this determination. This expense must be in addition to the fees charged under RCW 70.45.030;

(6) Charitable funds will not be placed at unreasonable risk, if the acquisition is financed in part by the nonprofit corporation;

(7) Any management contract under the acquisition will be for fair market value;

(8) The proceeds from the acquisition will be controlled as charitable funds independently of the acquiring person or parties to the acquisition, and will be used for charitable health purposes consistent with the nonprofit corporation’s original purpose, including providing health care to the disadvantaged, the uninsured, and the underinsured and providing benefits to promote improved health in the affected community;

(9) Any charitable entity established to hold the proceeds of the acquisition will be broadly based in and representative of the community where the hospital to be acquired is located, taking into consideration the structure and governance of such entity; and

(10) A right of first refusal to repurchase the assets by a successor nonprofit corporation or foundation has been retained if the hospital is subsequently sold to, acquired by, or merged with another entity. [1997 c 332 § 7.]

70.45.080 Department review—Criteria for continued existence of accessible, affordable health care. The department shall only approve an application if the acquisition in question will not detrimentally affect the continued existence of accessible, affordable health care that is responsive to the needs of the community in which the hospital to be acquired is located. To this end, the department shall not approve an application unless, at a minimum, it determines that:

(1) Sufficient safeguards are included to assure the affected community continued access to affordable care, and that alternative sources of care are available in the community should the acquisition result in a reduction or elimination of particular health services;

(2) The acquisition will not result in the revocation of hospital privileges;

(3) Sufficient safeguards are included to maintain appropriate capacity for health science research and health care provider education;

(4) The acquiring person and parties to the acquisition are committed to providing health care to the disadvantaged, the uninsured, and the underinsured and to providing benefits to promote improved health in the affected community. Activities and funding provided under RCW 70.45.070(8) may be considered in evaluating compliance with this commitment; and

(5) Sufficient safeguards are included to avoid conflict of interest in patient referral. [1997 c 332 § 8.]

70.45.090 Approval of acquisition required—Injunctions. (1) The secretary of state may not accept any forms or documents in connection with any acquisition of a nonprofit hospital until the acquisition has been approved by the department under this chapter.

(2) The attorney general may seek an injunction to prevent any acquisition not approved by the department under this chapter. [1997 c 332 § 9.]

[Title 70 RCW—page 88]
70.45.100 Compliance—Department authority—Hearings—Revocation or suspension of hospital license—Referral to attorney general for action. The department shall require periodic reports from the nonprofit corporation or its successor nonprofit corporation or foundation and from the acquiring person or other parties to the acquisition to ensure compliance with commitments made. The department may subpoena information and documents and may conduct on-site compliance audits at the acquiring person’s expense.

If the department receives information indicating that the acquiring person is not fulfilling commitments to the affected community under RCW 70.45.080, the department shall hold a hearing upon ten days’ notice to the affected parties. If after the hearing the department determines that the information is true, it may revoke or suspend the hospital license issued to the acquiring person pursuant to the procedure established under RCW 70.41.130, refer the matter to the attorney general for appropriate action, or both. The attorney general may seek a court order compelling the acquiring person to fulfill its commitments under RCW 70.45.080. [1997 c 332 § 10.]

70.45.110 Authority of attorney general to ensure compliance. The attorney general has the authority to ensure compliance with commitments that inure to the public interest. [1997 c 332 § 11.]

70.45.120 Acquisitions completed before July 27, 1997, not subject to this chapter. An acquisition of a hospital completed before July 27, 1997, and an acquisition in which an application for a certificate of need under chapter 70.38 RCW has been granted by the department before July 27, 1997, is not subject to this chapter. [1997 c 332 § 12.]

[1997 c 332 § 14.]

70.45.900 Severability—1997 c 332. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1997 c 332 § 19.]

70.47.010 Legislative findings—Purpose—Director to coordinate eligibility. (1)(a) The legislature finds that limitations on access to health care services for enrollees in the state, such as in rural and underserved areas, are particularly challenging for the basic health plan. Statutory restrictions have reduced the options available to the director to address the access needs of basic health plan enrollees. It is the intent of the legislature to authorize the director to develop alternative purchasing strategies to ensure access to basic health plan enrollees in all areas of the state, including: (i) The use of differential rating for managed health care systems based on geographic differences in costs; and (ii) limited use of self-insurance in areas where adequate access cannot be assured through other options.

(b) In developing alternative purchasing strategies to address health care access needs, the director shall consult with interested persons including health carriers, health care providers, and health facilities, and with other appropriate state agencies including the office of the insurance commissioner and the office of community and rural health. In pursuing such alternatives, the director shall continue to give priority to prepaid managed care as the preferred method of assuring access to basic health plan enrollees followed, in priority order, by preferred providers, fee-for-service, and self-funding.

(2) The legislature further finds that:

(a) A significant percentage of the population of this state does not have reasonably available insurance or other coverage of the costs of necessary basic health care services; (b) This lack of basic health care coverage is detrimental to the health of the individuals lacking coverage and to the public welfare, and results in substantial expenditures for emergency and remedial health care, often at the expense of health care providers, health care facilities, and all purchasers of health care, including the state; and

(c) The use of managed health care systems has significant potential to reduce the growth of health care costs incurred by the people of this state generally, and by low-income pregnant women, and at-risk children and adolescents who need greater access to managed health care.

(3) The purpose of this chapter is to provide or make more readily available necessary basic health care services in an appropriate setting to working persons and others who lack coverage, at a cost to these persons that does not create barriers to the utilization of necessary health care services. To that end, this chapter establishes a program to be made available to those residents not eligible for Medicare who share in a portion of the cost or who pay the full cost of receiving basic health care services from a managed health care system.

(4) It is not the intent of this chapter to provide health care services for those persons who are presently covered through private employer-based health plans, nor to replace employer-based health plans. However, the legislature recognizes that cost-effective and affordable health plans may not always be available to small business employers. Further, it is the intent of the legislature to expand, wherever possible, the availability of private health care coverage and to discourage the decline of employer-based coverage.

(5)(a) It is the purpose of this chapter to acknowledge the initial success of this program that has (i) assisted thousands of families in their search for affordable health care; (ii) demonstrated that low-income, uninsured families are willing to pay for their own health care coverage to the extent of their ability to pay; and (iii) proved that local health care providers are willing to enter into a public-private partnership as a managed care system.

(b) As a consequence, the legislature intends to extend an option to enroll to certain citizens above two hundred percent of the federal poverty guidelines within the state who reside in communities where the plan is operational and who collectively or individually wish to exercise the opportunity to purchase health care coverage through the basic health plan if the purchase is done at no cost to the state. It is also the intent of the legislature to allow employers and other financial sponsors to financially assist such individuals to purchase health care through the program so long as such purchase does not result in a lower standard of coverage for employees.

(c) The legislature intends that, to the extent of available funds, the program be available throughout Washington state to subsidized and nonsubsidized enrollees. It is also the intent of the legislature to enroll subsidized enrollees first, to the maximum extent feasible.

(d) The legislature directs that the basic health plan director identify enrollees who are likely to be eligible for medical assistance and assist these individuals in applying for and receiving medical assistance. Enrollees receiving medical assistance are not eligible for the Washington basic health plan. [2011 1st sp.s. c 15 § 82; 2009 c 568 § 1; 2000 c 79 § 42; 1993 c 492 § 208; 1987 1st ex.s. c 5 § 3.]

(2012 Ed.)
process—Commission for insurance producers. (1) The legislature finds that the basic health plan has been an effective program in providing health coverage for uninsured residents. Further, since 1993, substantial amounts of public funds have been allocated for subsidized basic health plan enrollment.

(2) Effective January 1, 1996, basic health plan enrollees whose income is less than one hundred twenty-five percent of the federal poverty level shall pay at least a ten-dollar premium share.

(3) No later than July 1, 1996, the administrator shall implement procedures whereby hospitals licensed under chapters 70.41 and 71.12 RCW, health carrier, rural health care facilities regulated under chapter 70.175 RCW, and community and migrant health centers funded under RCW 41.05.220, may expeditiously assist patients and their families in applying for basic health plan or medical assistance coverage, and in submitting such applications directly to the health care authority or the department of social and health services. The health care authority and the department of social and health services shall make every effort to simplify and expedite the application and enrollment process.

(4) No later than July 1, 1996, the administrator shall implement procedures whereby disability insurance producers, licensed under chapter 48.17 RCW, may expeditiously assist patients and their families in applying for basic health plan or medical assistance coverage, and in submitting such applications directly to the health care authority or the department of social and health services. Insurance producers may receive a commission for each individual sale of the basic health plan to anyone not signed up within the previous five years and a commission for each group sale of the basic health plan, if funding for this purpose is provided in a specific appropriation to the health care authority. No commission shall be provided upon a renewal. Commissions shall be determined based on the estimated annual cost of the basic health plan, however, commissions shall not result in a reduction in the premium amount paid to health carriers. For purposes of this section "health carrier" is as defined in RCW 48.43.005. The administrator may establish: (a) Minimum educational requirements that must be completed by the insurance producers; (b) an appointment process for insurance producers marketing the basic health plan; or (c) standards for revocation of the appointment of an insurance producer to submit applications for cause, including untrustworthy or incompetent conduct or harm to the public. The health care authority and the department of social and health services shall make every effort to simplify and expedite the application and enrollment process. (4) "Nonsubsidized enrollee" means the difference between the amount of periodic payment the administrator makes to a managed health care system on behalf of a subsidized enrollee plus the administrative cost to the plan of providing the plan to that subsidized enrollee, and the amount determined to be the subsidized enrollee’s responsibility under RCW 70.47.060(2).

(5) "Nonparticipating provider" means a person, health care provider, practitioner, facility, or entity, acting within their authorized scope of practice or coverage, that does not have a written contract to participate in a managed health care system’s provider network, but provides services to plan enrollees who receive coverage through the managed health care system.

6) "Nonsubsidized enrollee" means an individual, or an individual plus the individual’s spouse or dependent children: (a) Who is not eligible for medicare; (b) Who is not confined or residing in a government-operated institution, unless he or she meets eligibility criteria adopted by the administrator; (c) Who is accepted for enrollment by the administrator as provided in RCW 48.43.018, either because the potential enrollee cannot be required to complete the standard health questionnaire under RCW 48.43.018, or, based upon the results of the standard health questionnaire, the potential enrollee would not qualify for coverage under the Washington state health insurance pool; (d) Who resides in an area of the state served by a managed health care system participating in the plan; (e) Who chooses to obtain basic health care coverage from a particular managed health care system; (f) Who pays or whose behalf is paid the full costs for participation in the plan, without any subsidy from the plan.

(1) "Washington basic health plan" or "plan" means the system of enrollment and payment for basic health care services, administered by the plan administrator through participating managed health care systems, created by this chapter. [2011 1st sp.s. c 9 § 3. Prior: 2011 c 205 § 1; prior: 2009 c 568 § 2; 2007 c 259 § 35; 2005 c 188 § 2; 2004 c 192 § 1; 2000 c 79 § 43; 1997 c 335 § 1; 1997 c 245 § 5; prior: 1995 c 266 § 2; 1995 c 2 § 3; 1994 c 309 § 4; 1993 c 492 § 209; 1987 1st exs. c 5 § 4.

Findings—Intent—2011 1st sp.s. c 9: "(1) The legislature finds that:
(a) There is an increasing level of dispute and uncertainty regarding the amount of payment nonparticipating providers may receive for health care services provided to enrollees of state purchased health care programs designed to serve low-income individuals and families, such as basic health and the medicare managed care programs;
(b) The dispute has resulted in litigation, including a recent Washington court ruling that determined that nonparticipating providers were entitled to receive billed charges from a managed health care system for services provided to medicare and basic health plan enrollees. The decision would allow a nonparticipating provider to demand and receive payment in an amount exceeding the payment managed health care system network providers receive for the same services. Similar provider lawsuits have now been filed in other jurisdictions in the state;
(c) In the biennial operating budget, the legislature has previously indicated its intent that payment to nonparticipating providers for services provided to medicare managed care enrollees should be limited to amounts paid to medicare fee-for-service providers. The duration of these provisions is limited to the period during which the operating budget is in effect. A more permanent resolution of these issues is needed; and
(d) Continued failure to resolve this dispute will have adverse impacts on state purchased health care programs serving low-income enrollees, including: (i) Diminished ability for the state to negotiate cost-effective contracts with managed health care systems; (ii) A potential for significant reduction in the willingness of providers to participate in managed health care systems; (iii) A potential for significant reduction in provider networks; (iv) Diminished ability for providers participating in the managed health care systems; and (v) Increased exposure for program enrollees to balance billing practices by nonparticipating providers. Ultimately, fewer eligible people will get the care they need as state purchased health care programs will operate with less efficiency and reduced access to cost-effective and quality health care coverage for program enrollees."

(2) It is the intent of the legislature to create a legislative solution that reduces the cost borne by the state to provide public health care coverage to low-income enrollees in managed health care systems, protects enrollees and state purchased health care programs from balance billing by nonparticipating-
ing providers, provides appropriate payment to health care providers for services provided to enrollees of state purchased health care programs, and limits the risk for managed health care systems that contract with the state programs. [2011 1st sp.s. c 9 § 1.]

For rule of construction concerning sections amended more than once during the same legislative session, see RCW 1.12.025.*

Intent—2011 c 205: "The legislature intends to define eligibility for the basic health plan for periods subsequent to expiration of the 1115 medicare demonstration program based upon recommendations from its joint select committee on health reform regarding whether the basic health plan should be offered as an enrollment option for persons who qualify for federal premium subsidies under the federal patient protection and affordable care act of 2010." Severability—Subheadings not law—2007 c 259: See notes following RCW 41.05.033.

Findings—2005 c 188: "The legislature finds that the basic health plan is a valuable means of providing access to affordable health insurance coverage for low-income families and individuals in Washington state. The legislature further finds that persons studying in the United States as full-time students under temporary visas must show, as a condition of receiving their temporary visa, that they have sufficient funds available for self-support during their entire proposed course of study. For this reason, the legislature finds that it is not appropriate to provide subsidized basic health plan coverage to this group of students." [2005 c 188 § 1.]

During the 1995-97 fiscal biennium, the legislature may transfer funds from the basic health plan trust account to the state general fund.

(2) The basic health plan subscription account is created in the custody of the state treasurer. All receipts from amounts due from or on behalf of nonsubsidized enrollees and health coverage tax credit eligible enrollees shall be deposited into the account. Funds in the account shall be used exclusively for the purposes of this chapter, including payments to participating managed health care systems on behalf of nonsubsidized enrollees and health coverage tax credit eligible enrollees in the plan and payment of costs of administering the plan. The account is subject to allotment procedures under chapter 43.88 RCW, but no appropriation is required for expenditures.

(3) The *administrator shall take every precaution to see that none of the funds in the separate accounts created in this section or that any premiums paid either by subsidized or nonsubsidized enrollees are commingled in any way, except that the *administrator may combine funds designated for administration of the plan into a single administrative account. 70.47.040 Basic health plan—Health care authority head to be administrator—Joint operations. (1) The Washington basic health plan is created as a program within the Washington state health care authority. The administrative head and appointing authority of the plan shall be the *administrator of the Washington state health care authority. The *administrator shall appoint a medical director. The medical director and up to five other employees of the plan shall be exempt from the civil service law, chapter 41.06 RCW.

(2) The *administrator shall employ such other staff as are necessary to fulfill the responsibilities and duties of the *administrator, such staff to be subject to the civil service law, chapter 41.06 RCW. In addition, the *administrator may contract with third parties for services necessary to carry out its activities where this will promote economy, avoid duplication of effort, and make best use of available expertise. Any such contractor or consultant shall be prohibited from releasing, publishing, or otherwise using any information made available to it under its contractual responsibility without specific permission of the plan. The *administrator may call upon other agencies of the state to provide available information as necessary to assist the *administrator in meeting its responsibilities under this chapter, which information shall be supplied as promptly as circumstances permit.

(3) The *administrator may appoint such technical or advisory committees as he or she deems necessary.

(4) The *administrator may apply for, receive, and accept grants, gifts, and other payments, including property and service, from any governmental or other public or private entity or person, and may make arrangements as to the use of these receipts, including the undertaking of special studies and other projects relating to health care costs and access to health care.

(5) Whenever feasible, the *administrator shall reduce the administrative cost of operating the program by adopting joint policies or procedures applicable to both the basic health plan and employee health plans. [2010 1st sp.s. c 7 § 7; 1993 c 492 § 211; 1987 1st ex.s. c 5 § 6.]

70.47.050 Rules. The *administrator may promulgate and adopt rules consistent with this chapter to carry out the purposes of this chapter. All rules shall be adopted in accordance with chapter 34.05 RCW. [1987 1st ex.s. c 5 § 7.]

*Reviser’s note: The definition of "administrator" was changed to "director" in RCW 70.47.020 by 2011 1st sp.s. c 15 § 83.

70.47.060 Powers and duties of administrator—Schedule of services—Premiums, copayments, subsidies—Enrollment. The *administrator has the following powers and duties:

(1) To design and from time to time revise a schedule of covered basic health care services, including physician services, inpatient and outpatient hospital services, prescription drugs and medications, and other services that may be necessary for basic health care. In addition, the *administrator may, to the extent that funds are available, offer as basic health plan services chemical dependency services, mental health services, and organ transplant services. All subsidized and nonsubsidized enrollees in any participating managed health care system under the Washington basic health plan shall be entitled to receive covered basic health care services in return for premium payments to the plan. The schedule of services shall emphasize proven preventive and primary health care and shall include all services necessary for prenatal, postnatal, and well-child care. However, with respect to coverage for subsidized enrollees who are eligible to receive prenatal and postnatal services through the medical assistance program under chapter 74.09 RCW, the *administrator shall not contract for such services except to the extent that such services are necessary over not more than a one-month period in order to maintain continuity of care after diagnosis of pregnancy by the managed care provider. The schedule of services shall also include a separate schedule of basic health care services for children, eighteen years of age and younger, for those subsidized or nonsubsidized enrollees who choose to secure basic coverage through the plan only for their dependent children. In designing and revising the schedule of services, the *administrator shall consider the guidelines for assessing health services under the mandated benefits act of 1984, RCW 48.47.030, and such other factors as the *administrator deems appropriate. The *administrator shall encourage enrollees who have been continually enrolled on basic health for a period of one year or more to complete a health risk assessment and participate in programs approved by the *administrator that may include wellness, smoking
cessation, and chronic disease management programs. In approving programs, the *administrator shall consider evidence that any such programs are proven to improve enrollee health status.

(2)(a) To design and implement a structure of periodic premiums due the *administrator from subsidized enrollees that is based upon gross family income, giving appropriate consideration to family size and the ages of all family members. The enrollment of children shall not require the enrollment of their parent or parents who are eligible for the plan. The structure of periodic premiums shall be applied to subsidized enrollees entering the plan as individuals pursuant to subsection (11) of this section and to the share of the cost of the plan due from subsidized enrollees entering the plan as employees pursuant to subsection (12) of this section.

(b) To determine the periodic premiums due the *administrator from subsidized enrollees under **RCW 70.47.020(9)(b). Premiums due for foster parents with gross family income up to two hundred percent of the federal poverty level shall be set at the minimum premium amount charged to enrollees with income below sixty-five percent of the federal poverty level. Premiums due for foster parents with gross family income between two hundred percent and three hundred percent of the federal poverty level shall not exceed one hundred dollars per month.

(c) To determine the periodic premiums due the *administrator from nonsubsidized enrollees. Premiums due from nonsubsidized enrollees shall be in an amount equal to the cost charged by the managed health care system provider to the state for the plan plus the administrative cost of providing the plan to those enrollees and the premium tax under RCW 48.14.0201.

(d) To determine the periodic premiums due the *administrator from health coverage tax credit eligible enrollees. Premiums due from health coverage tax credit eligible enrollees must be in an amount equal to the cost charged by the managed health care system provider to the state for the plan, plus the administrative cost of providing the plan to those enrollees and the premium tax under RCW 48.14.0201. The *administrator will consider the impact of eligibility determination by the appropriate federal agency designated by the Trade Act of 2002 (P.L. 107-210) as well as the premium collection and remittance activities by the United States internal revenue service when determining the administrative cost charged for health coverage tax credit eligible enrollees.

(e) An employer or other financial sponsor may, with the prior approval of the *administrator, pay the premium, rate, or any other amount on behalf of a subsidized or nonsubsidized enrollee, by arrangement with the enrollee and through a mechanism acceptable to the *administrator. The *administrator shall establish a mechanism for receiving premium payments from the United States internal revenue service for health coverage tax credit eligible enrollees.

(f) To develop, as an offering by every health carrier providing coverage identical to the basic health plan, as configured on January 1, 2001, a basic health plan model plan with uniformity in enrollee cost-sharing requirements.

(g) To collect from all public employees a voluntary opt-in donation of varying amounts through a monthly or one-time payroll deduction as provided for in RCW 41.04.230. The donation must be deposited in the health services account established in ***RCW 43.72.900 to be used for the sole purpose of maintaining enrollment capacity in the basic health plan.

The *administrator shall send an annual notice to state employees extending the opportunity to participate in the opt-in donation program for the purpose of saving enrollment slots for the basic health plan. The first such notice shall be sent to public employees no later than June 1, 2009.

The notice shall include monthly sponsorship levels of fifteen dollars per month, thirty dollars per month, fifty dollars per month, and any other amounts deemed reasonable by the *administrator. The sponsorship levels shall be named "safety net contributor," "safety net hero," and "safety net champion" respectively. The donation amounts provided shall be tied to the level of coverage the employee will be purchasing for a working poor individual without access to health care coverage.

The *administrator shall ensure that employees are given an opportunity to establish a monthly standard deduction or a one-time deduction towards the basic health plan donation program. The basic health plan donation program shall be known as the "save the safety net program."

The donation permitted under this subsection may not be collected from any public employee who does not actively opt in to the donation program. Written notification of intent to discontinue participation in the donation program must be provided by the public employee at least fourteen days prior to the next standard deduction.

(3) To evaluate, with the cooperation of participating managed health care system providers, the impact on the basic health plan of enrolling health coverage tax credit eligible enrollees. The *administrator shall issue to the appropriate committees of the legislature preliminary evaluations on June 1, 2005, and January 1, 2006, and a final evaluation by June 1, 2006. The evaluation shall address the number of persons enrolled, the duration of their enrollment, their utilization of covered services relative to other basic health plan enrollees, and the extent to which their enrollment contributed to any change in the cost of the basic health plan.

(4) To end the participation of health coverage tax credit eligible enrollees in the basic health plan if the federal government reduces or terminates premium payments on their behalf through the United States internal revenue service.

(5) To design and implement a structure of enrollee cost-sharing due a managed health care system from subsidized, nonsubsidized, and health coverage tax credit eligible enrollees. The structure shall discourage inappropriate enrollee utilization of health care services, and may utilize copayments, deductibles, and other cost-sharing mechanisms, but shall not be so costly to enrollees as to constitute a barrier to appropriate utilization of necessary health care services.

(6) To limit enrollment of persons who qualify for subsidies so as to prevent an overexpenditure of appropriations for such purposes. Whenever the *administrator finds that there is danger of such an overexpenditure, the *administrator shall close enrollment until the *administrator finds the danger no longer exists. Such a closure does not apply to health coverage tax credit eligible enrollees who receive a premium subsidy from the United States internal revenue service as long as the enrollees qualify for the health coverage tax credit program. To prevent the risk of overexpenditure, the *adminis-
trator may disenroll persons receiving subsidies from the program based on criteria adopted by the *administrator. The criteria may include: Length of continual enrollment on the program, income level, or eligibility for other coverage. The *administrator shall identify enrollees who are eligible for other coverage, and, working with the department of social and health service as provided in RCW 70.47.010(5)(d), transition enrollees currently eligible for federally financed categorically needy or medically needy programs administered under chapter 74.09 RCW to that coverage. The *administrator shall develop criteria for persons disenrolled under this subsection to reapply for the program.

(7) To limit the payment of subsidies to subsidized enrollees, as defined in RCW 70.47.020. The level of subsidy provided to persons who qualify may be based on the lowest cost plans, as defined by the *administrator.

(8) To adopt a schedule for the orderly development of the delivery of services and availability of the plan to residents of the state, subject to the limitations contained in RCW 70.47.080 or any act appropriating funds for the plan.

(9) To solicit and accept applications from managed health care systems, as defined in this chapter, for inclusion as eligible basic health care providers under the plan for subsidized enrollees, nonsubsidized enrollees, or health coverage tax credit eligible enrollees. The *administrator shall endeavor to assure that covered basic health care services are available to any enrollee of the plan from among a selection of two or more participating managed health care systems. In adopting any rules or procedures applicable to managed health care systems and in its dealings with such systems, the *administrator shall consider and make suitable allowance for the need for health care services and the differences in local availability of health care resources, along with other resources, within and among the several areas of the state. Contracts with participating managed health care systems shall ensure that basic health plan enrollees who become eligible for medical assistance may, at their option, continue to receive services from their existing providers within the managed health care system if such providers have entered into provider agreements with the department of social and health services.

(10) To receive periodic premiums from or on behalf of subsidized, nonsubsidized, and health coverage tax credit eligible enrollees, deposit them in the basic health plan operating account, keep records of enrollee status, and authorize periodic payments to managed health care systems on the basis of the number of enrollees participating in the respective managed health care systems.

(11) To accept applications from individuals residing in areas served by the plan, on behalf of themselves and their spouses and dependent children, for enrollment in the Washington basic health plan as subsidized, nonsubsidized, or health coverage tax credit eligible enrollees, to give priority to members of the Washington national guard and reserves who served in Operation Enduring Freedom, Operation Iraqi Freedom, or Operation Noble Eagle, and their spouses and dependents, for enrollment in the Washington basic health plan, to establish appropriate minimum-enrollment periods for enrollees as may be necessary, and to determine, upon application and on a reasonable schedule defined by the authority, or at the request of any enrollee, eligibility due to current gross family income for sliding scale premiums. The application is also considered an application for medical assistance under chapter 74.09 RCW and must include a social security number, if available, for each family member requesting coverage. Funds received by a family as part of participation in the adoption support program authorized under RCW 26.33.320 and 74.13A.005 through 74.13A.080 shall not be counted toward a family’s current gross family income for the purposes of this chapter. When an enrollee fails to report income or income changes accurately, the *administrator shall have the authority either to bill the enrollee for the amounts overpaid by the state or to impose civil penalties of up to two hundred percent of the amount of subsidy overpaid due to the enrollee incorrectly reporting income. The *administrator shall adopt rules to define the appropriate application of these sanctions and the processes to implement the sanctions provided in this subsection, within available resources. No subsidy may be paid with respect to any enrollee whose current gross family income exceeds twice the federal poverty level or, subject to RCW 70.47.110, who is a recipient of medical assistance or medical care services under chapter 74.09 RCW. If a number of enrollees drop their enrollment for no apparent good cause, the *administrator may establish appropriate rules or requirements that are applicable to such individuals before they will be allowed to reenroll in the plan.

(12) To accept applications from business owners on behalf of themselves and their employees, spouses, and dependent children, as subsidized or nonsubsidized enrollees, who reside in an area served by the plan. The *administrator may require the substantial majority of the eligible employees of such businesses to enroll in the plan and establish those procedures necessary to facilitate the orderly enrollment of groups in the plan and into a managed health care system. The *administrator may require that a business owner pay at least an amount equal to what the employee pays after the state pays its portion of the subsidized premium cost of the plan on behalf of each employee enrolled in the plan. Enrollment is limited to those not eligible for Medicare who wish to enroll in the plan and choose to obtain the basic health care coverage and services from a managed care system participating in the plan. The *administrator shall adjust the amount determined to be due on behalf of or from all such enrollees whenever the amount negotiated by the *administrator with the participating managed health care system or systems is modified or the administrative cost of providing the plan to such enrollees changes.

(13) To determine the rate to be paid to each participating managed health care system in return for the provision of covered basic health care services to enrollees in the system. Although the schedule of covered basic health care services will be the same or actuarially equivalent for similar enrollees, the rates negotiated with participating managed health care systems may vary among the systems. In negotiating rates with participating systems, the *administrator shall consider the characteristics of the populations served by the respective systems, economic circumstances of the local area, the need to conserve the resources of the basic health plan trust account, and other factors the *administrator finds relevant.
(14) To monitor the provision of covered services to enrollees by participating managed health care systems in order to assure enrollee access to good quality basic health care, to require periodic data reports concerning the utilization of health care services rendered to enrollees in order to provide adequate information for evaluation, and to inspect the books and records of participating managed health care systems to assure compliance with the purposes of this chapter. In requiring reports from participating managed health care systems, including data on services rendered enrollees, the *administrator shall endeavor to minimize costs, both to the managed health care systems and to the plan. The *administrator shall coordinate any such reporting requirements with other state agencies, such as the insurance commissioner and the department of health, to minimize duplication of effort.

(15) To evaluate the effects this chapter has on private employer-based health care coverage and to take appropriate measures consistent with state and federal statutes that will discourage the reduction of such coverage in the state.

(16) To develop a program of proven preventive health measures and to integrate it into the plan wherever possible and consistent with this chapter.

(17) To provide, consistent with available funding, assistance for rural residents, underserved populations, and persons of color.

(18) In consultation with appropriate state and local government agencies, to establish criteria defining eligibility for persons confined or residing in government-operated institutions.

(19) To administer the premium discounts provided under RCW 48.41.200(3)(a) (i) and (ii) pursuant to a contract with the Washington state health insurance pool.

(20) To give priority in enrollment to persons who enrolled from the program in order to enroll in medicaid, and subsequently became ineligible for medicaid coverage.

70.47.0601 Income determination—Unemployment compensation. The *administrator shall not count the twenty-five dollar increase paid as part of an individual’s weekly benefit amount as provided in RCW 50.20.1202 when determining an individual’s gross family income, eligibility, and premium share. [2011 c 4 § 18.]

70.47.070 Benefits from other coverages not reduced. The benefits available under the basic health plan shall be excess to the benefits payable under the terms of any insurance policy issued to or on the behalf of an enrollee that provides payments toward medical expenses without a determination of liability for the injury. Except where in conflict with federal or state law, the benefits of any other health plan or insurance which covers an enrollee shall be determined before the benefits of the basic health plan. The *administrator shall require that managed health care systems conduct and report on coordination of benefits activities as provided under this section. [2009 c 568 § 4; 1987 1st ex.s.s. c 5 § 9.]

*Reviser’s note: The definition of "administrator" was changed to "director" in RCW 70.47.020 by 2011 1st sp.s. c 15 § 83.

70.47.080 Enrollment of applicants—Participation limitations. On and after July 1, 1988, the *administrator shall accept for enrollment applicants eligible to receive covered basic health care services from the respective managed health care systems which are then participating in the plan. Thereafter, total subsidized enrollment shall not result in expenditures that exceed the total amount that has been made available by the legislature in any act appropriating funds to the plan. To the extent that new funding is appropriated for expansion, the *administrator shall endeavor to secure participation contracts from managed health care systems in geographic areas of the state that are unserved by the plan at the time at which the new funding is appropriated. In the selection of any such areas the *administrator shall take into account the levels and rates of unemployment in different areas of the state, the need to provide basic health care coverage to a population reasonably representative of the portion of the state’s population that lacks such coverage, and the need for geographic, demographic, and economic diversity.

The *administrator shall at all times closely monitor growth patterns of enrollment so as not to exceed that consistent with the orderly development of the plan as a whole, in any area of the state or in any participating managed health care system. The annual or biennial enrollment limitations derived from operation of the plan under this section do not apply to nonsubsidized enrollees as defined in *RCW 70.47.020(5). 70.47.090 Removal of enrollees. Any enrollee whose premium payments to the plan are delinquent or who moves his or her residence out of an area served by the plan may be removed from the plan.
dropped from enrollment status. An enrollee whose premium is the responsibility of the department of social and health services under RCW 70.47.110 may not be dropped solely because of nonpayment by the department. The *administrator shall provide delinquent enrollees with advance written notice of their removal from the plan and shall provide for a hearing under chapters 34.05 and 34.12 RCW for any enrollee who contests the decision to drop the enrollee from the plan. Upon removal of an enrollee from the plan, the *administrator shall promptly notify the managed health care system in which the enrollee has been enrolled, and shall not be responsible for payment for health care services provided to the enrollee (including, if applicable, members of the enrollee’s family) after the date of notification. A managed health care system may contest the denial of payment for coverage of an enrollee through a hearing under chapters 34.05 and 34.12 RCW. [1987 1st ex.s. c 5 § 11.]

*Reviser’s note: The definition of “administrator” was changed to "director" in RCW 70.47.020 by 2011 1st sp.s. c 15 § 83.

70.47.100 Participation by a managed health care system—Expiration of subsections. (1) A managed health care system participating in the plan shall do so by contract with the *administrator and shall provide, directly or by contract with other health care providers, covered basic health care services to each enrollee covered by its contract with the *administrator as long as payments from the *administrator on behalf of the enrollee are current. A participating managed health care system may offer, without additional cost, health care benefits or services not included in the schedule of covered services under the plan. A participating managed health care system shall not give preference in enrollment to enrollees who accept such additional health care benefits or services. Managed health care systems participating in the plan shall not discriminate against any potential or current enrollee based upon health status, sex, race, ethnicity, or religion. The *administrator may receive and act upon complaints from enrollees regarding failure to provide covered services or efforts to obtain payment, other than authorized copayments, for covered services directly from enrollees, but nothing in this chapter empowers the *administrator to impose any sanctions under Title 18 RCW or any other professional or facility licensing statute.

(2) A managed health care system shall pay a nonparticipating provider that provides a service covered under this chapter to the system’s enrollee no more than the lowest amount paid for that service under the managed health care system’s contracts with similar providers in the state.

(3) Pursuant to federal managed care access standards, 42 C.F.R. Sec. 438, managed health care systems must maintain a network of appropriate providers that is supported by written agreements sufficient to provide adequate access to all services covered under the contract with the authority, including hospital-based physician services. The authority will monitor and periodically report on the proportion of services provided by contracted providers and nonparticipating providers, by county, for each managed health care system to ensure that managed health care systems are meeting network adequacy requirements. No later than January 1st of each year, the authority will review and report its findings to the appropriate policy and fiscal committees of the legislature for the preceding state fiscal year.

(4) The plan shall allow, at least annually, an opportunity for enrollees to transfer their enrollments among participating managed health care systems serving their respective areas. The *administrator shall establish a period of at least twenty days in a given year when this opportunity is afforded enrollees, and in those areas served by more than one participating managed health care system the *administrator shall endeavor to establish a uniform period for such opportunity. The plan shall allow enrollees to transfer their enrollment to another participating managed health care system at any time upon a showing of good cause for the transfer.

(5) Prior to negotiating with any managed health care system, the *administrator shall determine, on an actuarially sound basis, the reasonable cost of providing the schedule of basic health care services, expressed in terms of upper and lower limits, and recognizing variations in the cost of providing the services through the various systems and in different areas of the state.

(6) In negotiating with managed health care systems for participation in the plan, the *administrator shall adopt a uniform procedure that includes at least the following:

(a) The *administrator shall issue a request for proposals, including standards regarding the quality of services to be provided; financial integrity of the responding systems; and responsiveness to the unmet health care needs of the local communities or populations that may be served;

(b) The *administrator shall then review responsive proposals and may negotiate with respondents to the extent necessary to refine any proposals;

(c) The *administrator may then select one or more systems to provide the covered services within a local area; and

(d) The *administrator may adopt a policy that gives preference to respondents, such as nonprofit community health clinics, that have a history of providing quality health care services to low-income persons.

(7)(a) The *administrator may contract with a managed health care system to provide covered basic health care services to subsidized enrollees, nonsubsidized enrollees, health coverage tax credit eligible enrollees, or any combination thereof. At a minimum, such contracts issued on or after January 1, 2012, must include:

(i) Provider reimbursement methods that incentivize chronic care management within health homes;

(ii) Provider reimbursement methods that reward health homes that, by using chronic care management, reduce emergency department and inpatient use; and

(iii) Promoting provider participation in the program of training and technical assistance regarding care of people with chronic conditions described in RCW 43.70.533, including allocation of funds to support provider participation in the training unless the managed care system is an integrated health delivery system that has programs in place for chronic care management.

(b) Health home services contracted for under this subsection may be prioritized to enrollees with complex, high cost, or multiple chronic conditions.

(c) For the purposes of this subsection, "chronic care management," "chronic condition," and "health home" have the same meaning as in RCW 74.09.010.
70.47.110 Enrollment of medical assistance recipients. The health care authority may make payments to participating managed health care systems on behalf of any enrollee who is a recipient of medical care under chapter 74.09 RCW, at the maximum rate allowable for federal matching purposes under Title XIX of the social security act. Any enrollee on whose behalf the health care authority makes such payments may continue as an enrollee, making premium payments based on the enrollee’s own income as determined under the sliding scale, after eligibility for coverage under chapter 74.09 RCW has ended, as long as the enrollee remains eligible under this chapter. Nothing in this section affects the right of any person eligible for coverage under chapter 74.09 RCW to receive the services offered to other persons under that chapter but not included in the schedule of basic health care services covered by the plan. The director shall seek to determine which enrollees or prospective enrollees may be eligible for medical care under chapter 74.09 RCW and may require these individuals to complete the eligibility determination process under chapter 74.09 RCW prior to enrollment or continued participation in the plan. The director shall adopt procedures to facilitate the transition of plan enrollees and payments on their behalf between the plan and the programs established under chapter 74.09 RCW.

(d) Contracts that include the items in (a)(i) through (iii) of this subsection must not exceed the rates that would be paid in the absence of these provisions.

(8) The *administrator may establish procedures and policies to further negotiate and contract with managed health care systems following completion of the request for proposal process in subsection (6) of this section, upon a determination by the *administrator that it is necessary to provide access, as defined in the request for proposal documents, to covered basic health care services for enrollees.

(9) The *administrator may implement a self-funded or self-insured method of providing insurance coverage to subsidized enrollees, as provided under RCW 41.05.140. Prior to implementing a self-funded or self-insured method, the *administrator shall ensure that funding available in the basic health plan self-insurance reserve account is sufficient for the self-funded or self-insured risk assumed, or expected to be assumed, by the *administrator. If implementing a self-funded or self-insured method, the *administrator may request funds to be moved from the basic health plan trust account or the basic health plan subscription account to the basic health plan self-insurance reserve account established in RCW 41.05.140.

uate the performance of participating managed health care systems.

(2) With public or private agencies, to provide technical or professional assistance to health care providers, particularly public or private nonprofit organizations and providers serving rural areas, who show serious intent and apparent capability to participate in the plan as managed health care systems.

(3) With public or private agencies, including health care service contractors registered under RCW 48.44.015, and doing business in the state, for marketing and administrative services in connection with participation of managed health care systems, enrollment of enrollees, billing and collection services to the administrator, and other administrative functions ordinarily performed by health care service contractors, other than insurance. Any activities of a health care service contractor pursuant to a contract with the administrator under this section shall be exempt from the provisions and requirements of Title 48 RCW except that persons appointed or authorized to solicit applications for enrollment in the basic health plan shall comply with chapter 48.17 RCW. [1997 c 337 § 7; 1987 1st ex.s. c 5 § 14.]

### 70.47.130 Exemption from insurance code.

1. The activities and operations of the Washington basic health plan under this chapter, including those of managed health care systems to the extent of their participation in the plan, are exempt from the provisions and requirements of Title 48 RCW except:

   (a) Benefits as provided in RCW 70.47.070;

   (b) Managed health care systems are subject to the provisions of RCW 48.43.022, 48.43.500, 70.02.045, 48.43.505 through 48.43.535, 43.70.235, 48.43.545, 48.43.550, 70.02.110, and 70.02.900;

   (c) Persons appointed or authorized to solicit applications for enrollment in the basic health plan, including employees of the health care authority, must comply with chapter 48.17 RCW. For purposes of this subsection (1)(c), "solicit" does not include distributing information and applications for the basic health plan and responding to questions;

   (d) Amounts paid to a managed health care system by the basic health plan for participating in the basic health plan and providing health care services for nonsubsidized enrollees in the basic health plan must comply with RCW 48.14.0201; and

   (e) Administrative simplification requirements as provided in chapter 298, Laws of 2009.

2. The purpose of the 1994 amendatory language to this section in chapter 309, Laws of 1994 is to clarify the intent of the legislature that premiums paid on behalf of nonsubsidized enrollees in the basic health plan are subject to the premium and prepayment tax. The legislature does not consider this clarifying language to either raise existing taxes nor to impose a tax that did not exist previously. [2009 c 298 § 4; 2004 c 115 § 2; 2000 c 5 § 21; 1997 c 337 § 8; 1994 c 309 § 6; 1987 1st ex.s. c 5 § 15.]

The legislature reserves the right to amend or repeal all or any part of this chapter at any time and there shall be no vested private right of any kind against such amendment or repeal. All the rights, privileges, or immunities conferred by this chapter or any acts done pursuant thereto shall exist subject to the power of the legislature to amend or repeal this chapter at any time. [1987 1st ex.s. c 5 § 2.]

### 70.47.150 Confidentiality.

Notwithstanding the provisions of chapter 42.56 RCW, (1) records obtained, reviewed by, or on file with the plan containing information concerning medical treatment of individuals shall be exempt from public inspection and copying; and (2) actuarial formulas, statistics, and assumptions submitted in support of a rate filing by a managed health care system or submitted to the administrator upon his or her request shall be exempt from public inspection and copying in order to preserve trade secrets or prevent unfair competition. ### 70.47.160 Right of individuals to receive services—Right of providers, carriers, and facilities to refuse to participate in or pay for services for reason of conscience or religion—Requirements.

1. The legislature recognizes that every individual possesses a fundamental right to exercise their religious beliefs and conscience. The legislature further recognizes that in developing public policy, conflicting religious and moral beliefs must be respected. Therefore, while recognizing the right of conscientious objection to participating in specific health services, the state shall also recognize the right of individuals enrolled with the basic health plan to receive the full range of services covered under the basic health plan.

2. (a) No individual health care provider, religiously sponsored health carrier, or health care facility may be required by law or contract in any circumstances to participate in the provision of or payment for a specific service if they object to so doing for reason of conscience or religion. No person may be discriminated against in employment or professional privileges because of such objection.

   (b) The provisions of this section are not intended to result in an enrollee being denied timely access to any service included in the basic health plan. Each health carrier shall:

   (i) Provide written notice to enrollees, upon enrollment with the plan, listing services that the carrier refuses to cover for reason of conscience or religion;

   (ii) Provide written information describing how an enrollee may directly access services in an expeditious manner; and

   (iii) Ensure that enrollees refused services under this section have prompt access to the information developed pursuant to (b)(ii) of this subsection.

   (c) The administrator shall establish a mechanism or mechanisms to recognize the right to exercise conscience while ensuring enrollees timely access to services and to assure prompt payment to service providers.
(3)(a) No individual or organization with a religious or moral tenet opposed to a specific service may be required to purchase coverage for that service or services if they object to doing so for reason of conscience or religion.

(b) The provisions of this section shall not result in an enrollee being denied coverage of, and timely access to, any service or services excluded from their benefits package as a result of their employer’s or another individual’s exercise of the conscience clause in (a) of this subsection.

(c) The *administrator* shall define the process through which health carriers may offer the basic health plan to individuals and organizations identified in (a) and (b) of this subsection in accordance with the provisions of subsection (2)(c) of this section.

(4) Nothing in this section requires the health care authority, health carriers, health care facilities, or health care providers to provide any basic health plan service without payment of appropriate premium share or enrollee cost sharing. [1995 c 266 § 3.]

(a) The number of basic health plan enrollees who: (i) Upon enrollment or recertification had reported being employed, and beginning with the 2008 report, the month and year they reported being hired; or (ii) upon enrollment or recertification had reported being the dependent of someone who was employed, and beginning with the 2008 report, the month and year they reported the employed person was hired; and (iii) the total cost to the state for these enrollees. This information shall be provided by employer size for employers having more than fifty employees as enrollees or with dependents as enrollees. This information shall be provided for the preceding January and June of that year.

(b) The following aggregated information: (i) The number of employees who are enrollees or with dependents as enrollees by private and governmental employers; (ii) the number of employees who are enrollees or with dependents as enrollees by employer size for employers with fifty or fewer employees, fifty-one to one hundred employees, one thousand one to five thousand employees, and five thousand one to ten thousand employees; and (iii) the number of employees who are enrollees or with dependents as enrollees by industry type.

(2) For each aggregated classification, the report will include the number of hours worked and total cost to the state for these enrollees. This information shall be for each quarter of the preceding year. [2009 c 568 § 7; 2006 c 264 § 1.]

70.47.200 Mental health services—Definition—Coverage required, when. (1) For the purposes of this section, "mental health services" means medically necessary outpatient and inpatient services provided to treat mental disorders covered by the diagnostic categories listed in the most current version of the diagnostic and statistical manual of mental disorders, published by the American psychiatric association, on July 24, 2005, or such subsequent date as may be determined by the *administrator*, by rule, consistent with the purposes of chapter 6, Laws of 2005, with the exception of the following categories, codes, and services: (a) Substance related disorders; (b) life transition problems, currently referred to as "V" codes, and diagnostic codes 302 through 302.9 as found in the diagnostic and statistical manual of mental disorders, 4th edition, published by the American psychiatric association; (c) skilled nursing facility services, home health care, residential treatment, and custodial care; and (d) court ordered treatment, unless the Washington basic health plan’s or contracted managed health care system’s medical director or designee determines the treatment to be medically necessary.

(2)(a) Any schedule of benefits established or renewed by the Washington basic health plan on or after January 1, 2006, shall provide coverage for:

(i) Mental health services. The copayment or coinsurance for mental health services may be no more than the copayment or coinsurance for medical and surgical services otherwise provided under the schedule of benefits. Wellness and preventive services that are provided or reimbursed at a lesser copayment, coinsurance, or other cost sharing than other medical and surgical services are excluded from this comparison; and

(ii) Prescription drugs intended to treat any of the disorders covered in subsection (1) of this section to the same extent, and under the same terms and conditions, as other prescription drugs covered under the schedule of benefits.

(b) Any schedule of benefits established or renewed by the Washington basic health plan on or after January 1, 2008, shall provide coverage for:

(i) Mental health services. The copayment or coinsurance for mental health services may be no more than the copayment or coinsurance for medical and surgical services otherwise provided under the schedule of benefits. Wellness and preventive services that are provided or reimbursed at a lesser copayment, coinsurance, or other cost sharing than other medical and surgical services are excluded from this comparison. If the schedule of benefits imposes a maximum out-of-pocket limit or stop loss, it shall be a single limit or stop loss for medical, surgical, and mental health services; and

(ii) Prescription drugs intended to treat any of the disorders covered in subsection (1) of this section to the same extent, and under the same terms and conditions, as other prescription drugs covered under the schedule of benefits.

(c) Any schedule of benefits established or renewed by the Washington basic health plan on or after July 1, 2010, shall include coverage for:

(i) Mental health services. The copayment or coinsurance for mental health services may be no more than the copayment or coinsurance for medical and surgical services otherwise provided under the schedule of benefits. Wellness and preventive services that are provided or reimbursed at a lesser copayment, coinsurance, or other cost sharing than other medical and surgical services are excluded from this comparison. If the schedule of benefits imposes a maximum out-of-pocket limit or stop loss, it shall be a single limit or stop loss for medical, surgical, and mental health services. If the schedule of benefits imposes any deductible, mental health services shall be included with medical and surgical

services for the purpose of meeting the deductible require-
ment. Treatment limitations or any other financial require-
ments on coverage for mental health services are only allowed if the same limitations or requirements are imposed on coverage for medical and surgical services; and

(ii) Prescription drugs intended to treat any of the disor-
ders covered in subsection (1) of this section to the same extent, and under the same terms and conditions, as other pre-
scription drugs covered under the schedule of benefits.

(3) In meeting the requirements of subsection (2)(a) and
(b) of this section, the Washington basic health plan may not reduce the number of mental health outpatient visits or mental
health inpatient days below the level in effect on July 1, 2002.

(4) This section does not prohibit a requirement that mental health services be medically necessary as determined by the medical director or designee, if a comparable require-
ment is applicable to medical and surgical services.

(5) Nothing in this section shall be construed to prevent the management of mental health services. [2005 c 6 § 6.]

erage for prostate cancer screening, provided that the screening is delivered upon the recommendation of the patient’s physician, advanced registered nurse practitioner, or physi-
cian assistant.

(2) This section shall not be construed to prevent the application of standard policy provisions applicable to other benefits, such as deductible or copayment provisions. This section does not limit the authority of the health care authority to negotiate rates and contract with specific providers for the delivery of prostate cancer screening services. [2006 c 367 § 7.]

70.47.220 Increase in reimbursement rates not appli-
cable. The increases in inpatient and outpatient reimburse-
ment rates included in chapter 74.60 RCW shall not be reflected in hospital payment rates for services provided to basic health enrollees under this chapter. [2010 1st sp.s. c 30 § 15.]

viders must accept as payment in full the amount paid by the managed health care system under RCW 70.47.100(2) in addition to any deductible, coinsurance, or copayment that is due from the enrollee under the terms and conditions set forth in the managed health care system contract with the *administrator.* A plan enrollee is not liable to any nonparticipating provider for covered services, except for amounts due for any deductible, coinsurance, or copayment under the terms and conditions set forth in the managed health care system con-
tract with the *administrator.*

(2) This section expires July 1, 2016. [2011 1st sp.s. c 9 § 5.]

70.47.240 Discontinuation of health coverage—Pre-
extisting condition. If a person was previously enrolled in a group health benefit plan, an individual health benefit plan, or a catastrophic health plan that is discontinued by the car-
rier by July 1, 2012, at any time during the sixty-three day period immediately preceding their application date for non-
subsidized coverage in the basic health plan as a nonsubsidized enrollee, the basic health plan must credit the appli-
cant’s period of prior coverage toward any preexisting condi-
tion waiting period applicable under the basic health plan if the benefits under the previous plan provide equivalent or greater overall benefit coverage than that provided in the basic health plan for nonsubsidized enrollees. [2012 c 64 § 3.]

Effective date—2012 c 64: See note following RCW 48.43.018.

70.47.250 Federal basic health option—Report to legislature—Certification—Director’s findings—Pro-
gram’s guiding principles. (1) On or before December 1, 2012, the director of the health care authority shall submit a report to the legislature on whether to proceed with imple-
mentation of a federal basic health option, under section 1331 of P.L. 111-148 of 2010, as amended. The report shall address whether:

(a) Sufficient funding is available to support the design and development work necessary for the program to provide health coverage to enrollees beginning January 1, 2014;
(b) Anticipated federal funding under section 1331 will be sufficient, absent any additional state funding, to cover the provision of essential health benefits and costs for adminis-
tering the basic health plan. Enrollee premium levels will be below the levels that would apply to persons with income between one hundred thirty-four and two hundred percent of the federal poverty level through the exchange; and
(c) Health plan payment rates will be sufficient to ensure enrollee access to a robust provider network and health homes, as described under RCW 70.47.100.

(2) If the legislature determines to proceed with imple-
mentation of a federal basic health option, the director shall provide the necessary certifications to the secretary of the federal department of health and human services under sec-
section 1331 of P.L. 111-148 of 2010, as amended, to proceed with adoption of the federal basic health program option.

(3) Prior to making this finding, the director shall:
(a) Actively consult with the board of the Washington health benefit exchange, the office of the insurance commis-

(2012 Ed.)
sioner, consumer advocates, provider organizations, carriers, and other interested organizations;

(b) Consider any available objective analysis specific to Washington state, by an independent nationally recognized consultant that has been actively engaged in analysis and economic modeling of the federal basic health program option for multiple states.

(4) The director shall report any findings and supporting analysis made under this section to the governor and relevant policy and fiscal committees of the legislature.

(5) To the extent funding is available specifically for this purpose in the operating budget, the health care authority shall assume the federal basic health plan option will be implemented in Washington state, and initiate the necessary design and development work. If the legislature determines under subsection (1) of this section not to proceed with implementation, the authority may cease activities related to basic health program implementation.

(6) If implemented, the federal basic health program must be guided by the following principles:

(a) Meeting the minimum state certification standards in section 1331 of the federal patient protection and affordable care act;

(b) To the extent allowed by the federal department of health and human services, twelve-month continuous eligibility for the basic health program, and corresponding twelve-month continuous enrollment in standard health plans by enrollees; or, in lieu of twelve-month continuous eligibility, financing mechanisms that enable enrollees to remain with a plan for the entire plan year;

(c) Achieving an appropriate balance between:

(i) Premiums and cost-sharing minimized to increase the affordability of insurance coverage;

(ii) Standard health plan contracting requirements that minimize plan and provider administrative costs, while incentivizing improvements in quality and enrollee health outcomes; and

(iii) Health plan payment rates and provider payment rates that are sufficient to ensure enrollee access to a robust provider network and health homes, as described under RCW 70.47.100; and

(d) Transparency in program administration, including active and ongoing consultation with basic health program enrollees and interested organizations, and ensuring adequate enrollee notice and appeal rights. [2012 c 87 § 15.]

70.47.900 Short title. This chapter shall be known and may be cited as the health care access act of 1987. [1987 1st ex.s. c 5 § 1.]

70.47A.010 Finding—Intent. (1) The legislature finds that many small employers struggle with the cost of providing employer-sponsored health insurance coverage to their employees, while others are unable to offer employer-sponsored health insurance due to its high cost. Low-wage workers also struggle with the burden of paying their share of the costs of employer-sponsored health insurance, while others turn down their employer's offer of coverage due to its costs.

(2) The legislature intends, through establishment of a health insurance partnership program, to remove economic barriers to health insurance coverage for low-wage employees of small employers by building on the private sector health benefit plan system and encouraging employer and employee participation in employer-sponsored health benefit plan coverage. [2007 c 260 § 1; 2006 c 255 § 1.]

expenses of the partnership. The surcharge must be applied

uniformly to all health benefit plans purchased through the

partnership. Any surcharge amount may be added to the pre-

mium, but shall not be considered part of the small group

community rate, and shall be applied only to the coverage

purchased through the partnership. Surcharges may not be

used to pay any premium assistance payments under this

chapter. The surcharge shall reflect administrative and oper-

ational expenses remaining after any appropriation provided

by the legislature or resources received from the federal gov-

government to support administrative or operational expenses of the partnership during the year the surcharge is assessed;

(f) Design a schedule of premium subsidies that is based

upon gross family income, giving appropriate consideration

to family size and the ages of all family members based on a

benchmark health benefit plan designated by the board. The

amount of an eligible partnership participant’s premium sub-

sidy shall be determined by applying a sliding scale subsidy

schedule with the percentage of premium similar to that

developed for subsidized basic health plan enrollees under

RCW 70.47.060. The subsidy shall be applied to the

employee’s premium obligation for his or her health benefit

plan, so that employees benefit financially from any

employer contribution to the cost of their coverage through

the partnership.

(3) The administrator may enter into interdepartmental

agreements with the office of the insurance commissioner,

the department of social and health services, and any other

state agencies necessary to implement this chapter. [2011 c 287 § 2; 2009 c 257 § 1; 2008 c 143 § 2; 2007 c 259 § 58; 2006 c 255 § 3.]

ing RCW 41.05.033.

70.47A.040 Applications for premium subsidies. Beginning January 1, 2011, subject to sufficient state or fed-

eral funding being provided specifically for this purpose, the

administrator shall accept applications from eligible partner-

ship participants, on behalf of themselves, their spouses, and

their dependent children, to receive premium subsidies

through the health insurance partnership. Every effort shall

be made to coordinate premium subsidies for dependent chil-

dren with federal funding available under Title XIX and Title

XXI of the federal social security act, consistent with the

requirements established in RCW 74.09.470(4) for the

employer-sponsored insurance program at the department of
70.47A.050 Enrollment to remain within appropriation. Enrollment in the health insurance partnership is not an entitlement and shall not result in expenditures that exceed the amount that has been appropriated for the program in the operating budget or resources received from the federal government. If it appears that continued enrollment will result in expenditures exceeding the appropriated level for a particular fiscal year, the administrator may freeze new enrollment in the program and establish a waiting list of eligible employees who shall receive subsidies only when sufficient funds are available. [2011 c 287 § 3; 2007 c 260 § 12; 2006 c 255 § 5.]

70.47A.060 Rules. The administrator shall adopt all rules necessary for the implementation and operation of the health insurance partnership. As part of the rule development process, the administrator shall consult with small employers, carriers, employee organizations, and the office of the insurance commissioner under Title 48 RCW to determine an effective and efficient method for the payment of subsidies under this chapter. All rules shall be adopted in accordance with chapter 34.05 RCW. [2007 c 260 § 13; 2006 c 255 § 6.]

70.47A.070 Reports. Upon implementation of the health insurance partnership program, the administrator shall report biennially to the relevant policy and fiscal committees of the legislature on the effectiveness and efficiency of the health insurance partnership program, including enrollment trends, the services and benefits covered under the purchased health benefit plans, consumer satisfaction, and other program operational issues. [2009 c 257 § 3; 2008 c 143 § 4; 2006 c 255 § 7.]

70.47A.080 Health insurance partnership account. The health insurance partnership account is hereby established in the custody of the state treasurer. Any nongeneral fund—state funds collected for the health insurance partnership shall be deposited in the health insurance partnership account. Moneys in the account shall be used exclusively for the purposes of administering the health insurance partnership, including payments to insurance carriers on behalf of health insurance partnership enrollees. Only the administrator of the health care authority or his or her designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures. [2007 c 260 § 14; 2006 c 255 § 8.]

70.47A.090 State children’s health insurance program—Federal waiver request. The department of social and health services shall submit a request to the federal department of health and human services by October 1, 2006, for a state children’s health insurance program section 1115 demonstration waiver. The waiver request shall seek authorization from the federal government to draw down Washington state’s unspent state children’s health insurance program allotment to finance basic health plan coverage, as provided in chapter 70.47 RCW, for parents of children enrolled in medical assistance or the state children’s health insurance program. The waiver also shall seek authorization from the federal government to utilize the resulting state savings to finance expanded basic health plan enrollment, or subsidies provided to low-wage workers through the small employer health insurance partnership program established in this chapter. [2006 c 255 § 9.]

70.47A.100 Health insurance partnership board. (1) The health insurance partnership board is hereby established. The governor shall appoint a seven-member health insurance partnership board by June 30, 2007. The board shall be composed of persons with expertise in the health insurance market and benefit design, and be chaired by the administrator.

(2) The governor shall appoint the initial members of the board to staggered terms not to exceed four years. Initial appointments shall be made on or before June 1, 2007. Members appointed thereafter shall serve two-year terms. Members of the board shall be compensated in accordance with RCW 43.03.250 and shall be reimbursed for their travel expenses while on official business in accordance with RCW 43.03.050 and 43.03.060. The board shall prescribe rules for the conduct of its business. Meetings of the board shall be at the call of the chair.

(3) The board may establish technical advisory committees or seek the advice of technical experts when necessary to execute the powers and duties included in this section.

(4) The board and employees of the board shall not be civilly or criminally liable and shall not have any penalty or cause of action of any nature arise against them for any action taken or not taken, including any discretionary decision or failure to make a discretionary decision, when the action or inaction is done in good faith and in the performance of the powers and duties under this chapter. Nothing in this section prohibits legal actions against the board to enforce the board’s statutory or contractual duties or obligations. [2007 c 260 § 4.]

70.47A.110 Health insurance partnership board—Duties. (1) The health insurance partnership board shall:

(a) Develop policies for enrollment of small employers in the partnership, including minimum participation rules for small employer groups. The small employer shall determine the criteria for eligibility and enrollment in his or her plan and the terms and amounts of the employer’s contributions to that plan, consistent with any minimum employer premium contribution level established by the board under (d) of this subsection;

(b) Designate health benefit plans that are currently offered in the small group market that will be offered to participating small employers through the health insurance partnership and those plans that will qualify for premium subsidy payments. Up to five health benefit plans shall be chosen, with multiple deductible and point-of-service cost-sharing options. The health benefit plans shall range from catastrophic to comprehensive coverage, and one health benefit plan shall be a high deductible health plan accompanied by a health savings account. Every effort shall be made to include health benefit plans that include components to maximize the quality of care provided and result in improved health outcomes, such as preventive care, wellness incentives, chronic
care management services, and provider network development and payment policies related to quality of care;
(c) Approve a mid-range benefit plan from those selected to be used as a benchmark plan for calculating premium subsidies;
(d) Determine whether there should be a minimum employer premium contribution on behalf of employees, and if so, how much;
(e) Develop policies related to partnership participant enrollment in health benefit plans. The board may focus its initial efforts on access to coverage and affordability of coverage for participating small employers and their employees. To the extent necessary for successful implementation of the partnership, the board may:
(i) Limit partnership participant health benefit plan choice; and
(ii) Offer former employees of participating small employers the opportunity to continue coverage after separation from employment to the extent that a former employee is eligible for continuation coverage under 29 U.S.C. Sec. 1161 et seq.;
(f) Determine appropriate health benefit plan rating methodologies. The methodologies shall be based on the small group adjusted community rate as defined in Title 48 RCW. The board shall evaluate the impact of applying the small group adjusted community rating methodology to health benefit plans purchased through the partnership on the principle of allowing each partnership participant to choose his or her health benefit plan, and may implement one or more risk adjustment or reinsurance mechanisms to reduce uncertainty for carriers and provide for efficient risk management of high-cost enrollees;
(g) Determine whether the partnership should be designated as the administrator of a participating small employer health benefit plan and undertake the obligations required of a plan administrator under federal law in order to minimize administrative burdens on participating small employers;
(h) Conduct analyses and provide recommendations as requested by the legislature and the governor, with the assistance of staff from the health care authority and the office of the insurance commissioner.
(2) The board may authorize one or more limited health care service plans for dental care services to be offered by limited health care service contractors under RCW 48.44.035. However, such plan shall not qualify for subsidy payments.
(3) In fulfilling the requirements of this section, the board shall consult with small employers, the office of the insurance commissioner, members in good standing of the American academy of actuaries, health carriers, agents and brokers, and employees of small business. [2011 c 287 § 4; 2008 c 143 § 5; 2007 c 260 § 5.]

For the purposes of this chapter, the terms spouse, marriage, marital, husband, wife, widow, widower, next of kin, and family shall be interpreted as applying equally to state registered domestic partnerships or individuals in state registered domestic partnerships as well as to marital relationships and married persons, and references to dissolution of marriage shall apply equally to state registered domestic partnerships that have been terminated, dissolved, or invalidated, to the extent that such interpretation does not conflict with federal law. Where necessary to implement chapter 521, Laws of 2009, gender-specific terms such as husband and wife used in any statute, rule, or other law shall be construed to be gender neutral, and applicable to individuals in state registered domestic partnerships. **70.48.130 Emergency or necessary medical and health care for confined persons—Reimbursement procedures—Conditions—Limitations.** (1) It is the intent of the legislature that all jail inmates receive appropriate and cost-effective emergency and necessary medical care. Governing units, the health care authority, and medical care providers shall cooperate to achieve the best rates consistent with adequate care.

(2) Payment for emergency or necessary health care shall be by the governing unit, except that the health care authority shall directly reimburse the provider pursuant to chapter 74.09 RCW, in accordance with the rates and benefits established by the authority, if the confined person is eligible under the authority’s medical care programs as authorized under chapter 74.09 RCW. After payment by the authority, the financial responsibility for any remaining balance, including unpaid client liabilities that are a condition of eligibility or participation under chapter 74.09 RCW, shall be borne by the medical care provider and the governing unit as may be mutually agreed upon between the medical care provider and the governing unit. In the absence of mutual agreement between the medical care provider and the governing unit, the financial responsibility for any remaining balance shall be borne equally between the medical care provider and the governing unit. Total payments from all sources to providers for care rendered to confined persons eligible under chapter 74.09 RCW shall not exceed the amounts that would be paid by the authority for similar services provided under Title XIX medicaid, unless additional resources are obtained from the confined person.

(3) As part of the screening process upon booking or preparation of an inmate into jail, general information concerning the inmate’s ability to pay for medical care shall be identified, including insurance or other medical benefits or resources to which an inmate is entitled. This information shall be made available to the authority, the governing unit, and any provider of health care services.

(4) The governing unit or provider may obtain reimbursement from the confined person for the cost of health care services not provided under chapter 74.09 RCW, including reimbursement from any insurance program or from other medical benefit programs available to the confined person. Nothing in this chapter precludes civil or criminal remedies to recover the costs of medical care provided jail inmates or paid for on behalf of inmates by the governing unit. As part of a judgment and sentence, the courts are authorized to order defendants to repay all or part of the medical costs incurred by the governing unit or provider during confinement.

(5) To the extent that a confined person is unable to be financially responsible for medical care and is ineligible for the authority’s medical care programs under chapter 74.09 RCW, or for coverage from private sources, and in the absence of an interlocal agreement or other contracts to the contrary, the governing unit may obtain reimbursement for the cost of such medical services from the unit of government whose law enforcement officers initiated the charges on which the person is being held in the jail: PROVIDED, That reimbursement for the cost of such services shall be by the state for state prisoners being held in a jail who are accused of either escaping from a state facility or of committing an offense in a state facility.

(6) There shall be no right of reimbursement to the governing unit from units of government whose law enforcement officers initiated the charges for which a person is being held in the jail for care provided after the charges are disposed of by sentencing or otherwise, unless by intergovernmental agreement pursuant to chapter 39.34 RCW.

(7) Under no circumstance shall necessary medical services be denied or delayed because of disputes over the cost of medical care or a determination of financial responsibility for payment of the costs of medical care provided to confined persons.

(8) Nothing in this section shall limit any existing right of any party, governing unit, or unit of government against the person receiving the care for the cost of the care provided. 70.48.210 Farms, camps, work release programs, and special detention facilities. (1) All cities and counties are authorized to establish and maintain farms, camps, and work release programs and facilities, as well as special detention facilities. The facilities shall meet the requirements of chapter 70.48 RCW and any rules adopted thereunder.

(2) Farms and camps may be established either inside or outside the territorial limits of a city or county. A sentence of confinement in a city or county jail may include placement in a farm or camp. Unless directed otherwise by court order, the chief law enforcement officer or department of corrections, may transfer the prisoner to a farm or camp. The sentencing court, chief law enforcement officer, or department of corrections may not transfer to a farm or camp a greater number of prisoners than can be furnished with constructive employment and can be reasonably accommodated.

(3) The city or county may establish a city or county work release program and housing facilities for the prisoners in the program. In such regard, factors such as employment conditions and the condition of jail facilities should be considered. When a work release program is established the following provisions apply:

(a) A person convicted of a felony and placed in a city or county jail is eligible for the work release program. A person sentenced to a city or county jail is eligible for the work release program. The program may be used as a condition of probation for a criminal offense. Good conduct is a condition of participation in the program.

(b) The court may permit a person who is currently, regularly employed to continue his or her employment. The chief law enforcement officer or department of corrections shall make all necessary arrangements if possible. The court may authorize the person to seek suitable employment and may authorize the chief law enforcement officer or department of corrections to make reasonable efforts to find suitable employment for the person. A person participating in the work release program may not work in an establishment where there is a labor dispute.

(c) The work release prisoner shall be confined in a work release facility or jail unless authorized to be absent from the facility for program-related purposes, unless the court directs otherwise.

(d) Each work release prisoner’s earnings may be collected by the chief law enforcement officer or a designee. The chief law enforcement officer or a designee may deduct from the earnings moneys for the payments for the prisoner’s board, personal expenses inside and outside the jail, a share of the administrative expenses of this section, court-ordered victim compensation, and court-ordered restitution. Support payments for the prisoner’s dependents, if any, shall be made as directed by the court. With the prisoner’s consent, the remaining funds may be used to pay the prisoner’s preexisting debts. Any remaining balance shall be returned to the prisoner.

(e) The prisoner’s sentence may be reduced by earned early release in accordance with procedures that shall be developed and promulgated by the work release facility. The earned early release time shall be for good behavior and good performance as determined by the facility. The facility shall not credit the offender with earned early release credits in advance of the offender actually earning the credits. In the case of an offender convicted of a serious violent offense or a sex offense that is a class A felony committed on or after July 1, 1990, the aggregate earned early release time may not exceed fifteen percent of the sentence. In no other case may the aggregate earned early release time exceed one-third of the total sentence.

(f) If the work release prisoner violates the conditions of custody or employment, the prisoner shall be returned to the sentencing court. The sentencing court may require the prisoner to spend the remainder of the sentence in actual confinement and may cancel any earned reduction of the sentence.

(4) A special detention facility may be operated by a noncorrectional agency or by noncorrectional personnel by contract with the governing unit. The employees shall meet
the standards of training and education established by the criminal justice training commission as authorized by RCW 43.101.080. The special detention facility may use combinations of features including, but not limited to, low-security or honor prisoner status, work farm, work release, community review, prisoner facility maintenance and food preparation, training programs, or alcohol or drug rehabilitation programs. Special detention facilities may establish a reasonable fee schedule to cover the cost of facility housing and programs. The schedule shall be on a sliding basis that reflects the person's ability to pay. [1990 c 3 § 203; 1989 c 248 § 3; 1985 c 298 § 1; 1983 c 165 § 39; 1979 ex.s. c 232 § 17.]

70.54.222 Cord blood banks—Regulation—Application of consumer protection act—Definitions. (1) A cord blood bank advertising, offering to provide, or providing private cord blood banking services to residents in this state must:

(a) Have all applicable licenses, accreditations, and other authorizations required under federal and Washington state law to engage in cord blood banking;

(b) Include, in any advertising or educational materials made available to the general public or provided to health services providers or potential cord blood donors:
   (i) A statement identifying the cord blood bank’s licenses, accreditations, and other authorizations required in (a) of this subsection; and
   (ii) Information about the cord blood bank’s rate of success in collecting, processing, and storing sterile cord blood units that have adequate, viable yields of targeted cells; and

   (c)(i) Provide to the cord blood donor the results of appropriate quality control tests performed on the donor’s collected cord blood; and

   (ii) If the test results provided under (c)(i) of this subsection demonstrate that the collected cord blood may not be recommended for long-term storage and potential future medical uses because of low cell yield, foreign contamination, or other reasons determined by the cord blood bank’s medical director, provide the cord blood donor with the option not to be charged fees for processing or storage services, including a refund of any fees paid. The cord blood bank must provide the cord blood donor with sufficient information to make an informed decision regarding this option.

(2) The legislature finds that the practices covered by this section are matters vitally affecting the public interest for the purpose of applying the consumer protection act, chapter 19.86 RCW. A violation of this section is not reasonable in relation to the development and preservation of business and is an unfair or deceptive act in trade or commerce and an unfair method of competition for the purpose of applying the consumer protection act, chapter 19.86 RCW.

(3) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Autologous use" means the transplantation, including implanting, transplanting, infusion, or transfer, of cord blood into the individual from whom the cord blood was collected.

(b) "Cord blood bank" means an operation engaged in collecting, processing, storing, distributing, or transplanting hematopoietic progenitor cells present in placental or umbilical cord blood.

(c) "Hematopoietic progenitor cells" means pluripotential cells that may be capable of self-renewal and differentiation into any mature blood cell.

(d) "Private cord blood banking" means a cord blood bank that provides, for a fee, cord blood banking services for the autologous use of the cord blood. [2008 c 56 § 3.]

Purpose—2008 c 56: "The purpose of this act is to promote public awareness and education of the general public and potential cord blood donors on the benefits of public or private cord blood banking, and to establish safeguards related to effective private banking of cord blood." [2008 c 56 § 1.]

Effective date—2008 c 56: "This act takes effect July 1, 2010." [2008 c 56 § 4.]

70.54.230 Cancer registry program. The secretary of health may contract with either a recognized regional cancer research institution or regional tumor registry, or both, which shall hereinafter be called the contractor, to establish a state-wide cancer registry program and to obtain cancer reports from all or a portion of the state as required in RCW 70.54.240 and to make available data for use in cancer research and for purposes of improving the public health. [1990 c 280 § 2.]

Intent—1990 c 280: "It is the intent of the legislature to establish a system to accurately monitor the incidence of cancer in the state of Washington for the purposes of understanding, controlling, and reducing the occurrence of cancer in this state. In order to accomplish this, the legislature has determined that cancer cases shall be reported to the department of health, and that there shall be established a statewide population-based cancer registry." [1990 c 280 § 1.]

70.54.240 Cancer registry program—Reporting requirements. (1) The department of health shall adopt rules as to which types of cancer shall be reported, who shall report, and the form and timing of the reports. A patient’s usual occupation or, if the patient is retired, the primary occupation of the patient before retirement must be reported.

(2) Every health care facility and independent clinical laboratory, and those physicians or others providing health care who diagnose or treat any patient with cancer who is not hospitalized within one month of diagnosis, will provide the contractor with the information required under subsection (1) of this section. The required information may be collected on a regional basis where such a system exists and forwarded to the contractor in a form suitable for the purposes of RCW 70.54.230 through RCW 70.54.270. Such reporting arrangements shall be reduced to a written agreement between the contractor and any regional reporting agency which shall detail the manner, form, and timeliness of the reporting. [2011 c 38 § 1; 1990 c 280 § 3.]

Intent—1990 c 280: See note following RCW 70.54.230.

70.54.250 Cancer registry program—Confidentiality. (1) Data obtained under RCW 70.54.240 shall be used for statistical, scientific, medical research, and public health purposes only.

(2012 Ed.)
(2) The department and its contractor shall ensure that access to data contained in the registry is consistent with federal law for the protection of human subjects and consistent with chapter 42.48 RCW. [1990 c 280 § 4.]

Intent—1990 c 280: See note following RCW 70.54.230.

70.54.260 Liability. Providing information required under RCW 70.54.240 or 70.54.250 shall not create any liability on the part of the provider nor shall it constitute a breach of confidentiality. The contractor shall, at the request of the provider, but not more frequently than once a year, sign an oath of confidentiality, which reads substantially as follows:

"As a condition of conducting research concerning persons who have received services from (name of the health care provider or facility), I . . . . . . . . . ., agree not to divulge, publish, or otherwise make known to unauthorized persons or the public any information obtained in the course of such research that could lead to identification of such persons receiving services, or to the identification of their health care providers. I recognize that unauthorized release of confidential information may subject me to civil liability under the provisions of state law."

[1990 c 280 § 5.]

Intent—1990 c 280: See note following RCW 70.54.230.

70.54.270 Rule making. The department shall adopt rules to implement RCW 70.54.230 through 70.54.260, including but not limited to a definition of cancer. [1990 c 280 § 6.]

Intent—1990 c 280: See note following RCW 70.54.230.

70.54.280 Bone marrow donor recruitment and education program—Generally—Target minority populations. The department of health shall establish a bone marrow donor recruitment and education program to educate residents of the state about:

1. The need for bone marrow donors;
2. The procedures required to become registered as a potential bone marrow donor, including procedures for determining a person’s tissue type; and
3. The procedures a donor must undergo to donate bone marrow or other sources of blood stem cells.

The department of health shall make special efforts to educate and recruit citizens from minority populations to volunteer as potential bone marrow donors. Means of communication may include use of press, radio, and television, and placement of educational materials in appropriate health care facilities, blood banks, and state and local agencies. The department of health in conjunction with the department of licensing shall make educational materials available at all places where driver licenses are issued or renewed. [1992 c 109 § 2.]

Findings—1992 c 109: "The legislature finds that an estimated sixteen thousand American children and adults are stricken each year with leukemia, aplastic anemia, or other fatal blood diseases. For many of these individuals, bone marrow transplantation is the only chance for survival. Nearly seventy percent cannot find a suitable bone marrow match within their own families. The chance that a patient will find a matching, unrelated donor in the general population is between one in a hundred and one in a million. The legislature further finds that because tissue types are inherited, and different tissue types are found in different ethnic groups, the chances of finding an unrelated donor vary according to the patient’s ethnic and racial background. Patients from minority groups are therefore less likely to find matching, unrelated donors. It is the intent of the legislature to establish a statewide bone marrow donor education and recruitment program in order to increase the number of Washington residents who become bone marrow donors, and to increase the chance that patients in need of bone marrow transplants will find a suitable bone marrow match." [1992 c 109 § 1.]

70.54.290 Bone marrow donor recruitment and education program—State employees to be recruited. The department of health shall make special efforts to educate and recruit state employees to volunteer as potential bone marrow donors. Such efforts shall include, but not be limited to, conducting a bone marrow donor drive to encourage state employees to volunteer as potential bone marrow donors. The drive shall include educational materials furnished by the national bone marrow donor program and presentations that explain the need for bone marrow donors, and the procedures for becoming registered as potential bone marrow donors. The cost of educational materials and presentations to state employees shall be borne by the national marrow donor program. [1992 c 109 § 3.]

Findings—1992 c 109: See note following RCW 70.54.280.

70.54.300 Bone marrow donor recruitment and education program—Private sector and community involvement. In addition to educating and recruiting state employees, the department of health shall make special efforts to encourage community and private sector businesses and associations to initiate independent efforts to achieve the goals of chapter 109, Laws of 1992. [1992 c 109 § 4.]

Findings—1992 c 109: See note following RCW 70.54.280.

70.54.305 Bone marrow donation—Status as minor not a disqualifying factor. A person’s status as a minor may not disqualify him or her from bone marrow donation. [2000 c 116 § 1.]

70.54.310 Semiautomatic external defibrillator—Duty of acquirer—Immunity from civil liability. (1) As used in this section, "defibrillator" means a semiautomatic external defibrillator as prescribed by a physician licensed under chapter 18.71 RCW or an osteopath licensed under chapter 18.57 RCW.

(2) A person or entity who acquires a defibrillator shall ensure that:

(a) Expected defibrillator users receive reasonable instruction in defibrillator use and cardiopulmonary resuscitation by a course approved by the department of health;
(b) The defibrillator is maintained and tested by the acquirer according to the manufacturer’s operational guidelines;
(c) Upon acquiring a defibrillator, medical direction is enlisted by the acquirer from a licensed physician in the use of the defibrillator and cardiopulmonary resuscitation;
(d) The person or entity who acquires a defibrillator shall notify the local emergency medical services organization about the existence and the location of the defibrillator; and
(e) The defibrillator user shall call 911 or its local equivalent as soon as possible after the emergency use of the defibrillator and shall assure that appropriate follow-up data...
is made available as requested by emergency medical service or other health care providers.

(3) A person who uses a defibrillator at the scene of an emergency and all other persons and entities providing services under this section are immune from civil liability for any personal injury that results from any act or omission in the use of the defibrillator in an emergency setting.

(4) The immunity from civil liability does not apply if the acts or omissions amount to gross negligence or willful or wanton misconduct.

(5) The requirements of subsection (2) of this section shall not apply to any individual using a defibrillator in an emergency setting if that individual is acting as a good samaritan under RCW 4.24.300. [1998 c 150 § 1.]

70.54.320 Electrology and tattooing—Findings. The legislature finds and declares that the practices of electrology and tattooing involve an invasive procedure with the use of needles and instruments which may be dangerous when improperly sterilized presenting a risk of infecting the client with bloodborne pathogens such as HIV and Hepatitis B. It is in the interests of the public health, safety, and welfare to establish requirements for the sterilization procedures in the commercial practices of electrology and tattooing in this state. [2001 c 194 § 1.]

70.54.330 Electrology and tattooing—Definitions. The definitions in this section apply throughout RCW 70.54.320, 70.54.340, and 70.54.350 unless the context clearly requires otherwise.

(1) "Electrologist" means a person who practices the business of electrology for a fee.

(2) "Electrology" means the process by which hair is permanently removed through the utilization of solid needle/probe electrode epilation, including thermolysis, being of shortwave, high frequency type, and including electrolysis, being of galvanic type, or a combination of both which is accomplished by a superimposed or sequential blend.

(3) "Tattoo artist" means a person who practices the business of tattooing for a fee.

(4) "Tattooing" means the indelible mark, figure, or decorative design introduced by insertion of nontoxic dyes or pigments into or under the subcutaneous portion of the skin upon the body of a live human being for cosmetic orfigurative purposes. [2001 c 194 § 2.]

70.54.340 Electrology and body piercing, tattooing—Rules, sterilization requirements. The secretary of health shall adopt by rule requirements, in accordance with nationally recognized professional standards, for precautions against the spread of disease, including the sterilization of needles and other instruments, including sharps and jewelry, employed by electrologists, persons engaged in the practice of body art, body piercing, and tattoo artists. The secretary shall consider the standard precautions for infection control, as recommended by the United States centers for disease control, and guidelines for infection control, as recommended by national industry standards in the adoption of these sterilization requirements. [2009 c 412 § 19; 2001 c 194 § 3.]

Effective date—2009 c 412 §§ 1-21: See RCW 18.300.901.

70.54.350 Electrology and tattooing—Practitioners to comply with rules—Penalty. (1) Any person who practices electrology or tattooing shall comply with the rules adopted by the department of health under *RCW 70.54.340.

(2) A violation of this section is a misdemeanor. [2001 c 194 § 4.]

*Reviser's note: RCW 70.54.340 was amended by 2009 c 412 § 19, adding body art and body piercing to its application.

70.54.370 Meningococcal disease—Students to receive informational materials. (1) Except for community and technical colleges, each degree-granting public or private postsecondary residential campus that provides on-campus or group housing shall provide information on meningococcal disease to each enrolled matriculated first-time student. Community and technical colleges must provide the information only to those students who are offered on-campus or group housing. The information about meningococcal disease shall include:

(a) Symptoms, risks, especially as the risks relate to circumstances of group living arrangements, and treatment; and

(b) Current recommendations from the United States centers for disease control and prevention regarding the receipt of vaccines for meningococcal disease and where the vaccination can be received.

(2) This section shall not be construed to require the department of health or the postsecondary educational institution to provide the vaccination to students.

(3) The department of health shall be consulted regarding the preparation of the information materials provided to the first-time students.

(4) If institutions provide electronic enrollment or registration to first-time students, the information required by this section shall be provided electronically and acknowledged by the student before completion of electronic enrollment or registration.

(5) This section does not create a private right of action. [2003 c 398 § 1.]

*Reviser's note: Substitute House Bill No. 1059, Substitute House Bill No. 1173, and Engrossed Substitute House Bill No. 1827 were enacted during the 2003 regular session of the legislature, but were vetoed in part by the governor. A stipulated judgment, No. 03-2-01988-4 filed in the Superior Court of Thurston County, between the governor and the legislature, settled litigation over the governor’s use of veto powers and declared the vetoes of SHB 1059, SHB 1173, and ESHB 1827 null and void. Consequently, the text of this section has been returned to the version passed by the legislature prior to the vetoes. For vetoed text and message, see chapter 398, Laws of 2003.

providers. Based on input from participants, the agencies shall:

1. Determine the number and location of primary care medical home reimbursement pilots;
2. Determine criteria to select primary care clinics to serve as pilot sites to facilitate testing of medical home reimbursement methods in a variety of primary care settings;
3. Select pilot sites from those primary care provider clinics that currently employ a number of activities and functions typically associated with medical homes, or from sites that have been selected by the department of health to participate in a medical home collaborative under section 2, chapter 295, Laws of 2008;
4. Determine one or more reimbursement methods to be tested by the pilots;
5. Identify pilot performance measures for clinical quality, chronic care management, cost, and patient experience through patient self-reporting; and
6. Appropriately coordinate during planning and operation of the pilots with the department of health medical home collaboratives and with other private and public efforts to promote adoption of medical homes within the state. [2009 c 305 § 2.]

Intent—Expiration date—2009 c 305: "The legislature declares that collaboration among public payors, private health carriers, third-party purchasers, and providers to identify appropriate reimbursement methods to align incentives in support of primary care medical homes is in the best interest of the public. The legislature therefore intends to exempt from state antitrust laws, and to provide immunity from federal antitrust laws through the state action doctrine, for activities undertaken pursuant to pilots designed and implemented under section 2 of this act that might otherwise be constrained by such laws. The legislature does not intend and does not authorize any person or entity to engage in activities or to conspire to engage in activities that would constitute per se violations of state and federal antitrust laws including, but not limited to, agreements among competing health care providers or health carriers as to the price or specific level of reimbursement for health care services." [2009 c 305 § 1.]

Expiration date—2009 c 305: "This act expires July 1, 2013." [2009 c 305 § 4.]

70.54.390 Selection of a pilot site—Reimbursement method. (Expires July 1, 2013.) The health care authority and the department of social and health services may select a pilot site that currently employs the following activities and functions associated with medical homes: Provision of preventive care, wellness counseling, primary care, coordination of primary care with specialty and hospital care, and urgent care services; availability of office appointments seven days per week and e-mail and telephone consultation; availability of telephone access for urgent care consultation on a seven-day per week, twenty-four hours per day basis; and use of a primary care provider panel size that promotes the ability of participating providers to appropriately provide the scope of services described in this section. The reimbursement method chosen for this pilot site must include a fixed monthly payment per person participating in the pilot site for the services described in this section. These services would be provided without the submission of claims for payment from any health carrier by the medical home provider. Agreements for payment made directly by a consumer or other entity paying on the consumer’s behalf must comply with the provisions applicable to direct patient-provider primary care practices under chapter 48.150 RCW. In addition, the agencies may determine that the pilot should include a high deductible health plan or other health benefit plan designed to wrap around the primary care services offered under this section. [2009 c 305 § 3.]

Intent—Expiration date—2009 c 305: See notes following RCW 70.54.380.

70.54.400 Retail restroom access—Customers with medical conditions—Penalty. (1) For purposes of this section:

(a) "Customer" means an individual who is lawfully on the premises of a retail establishment.
(b) "Eligible medical condition" means:
   (i) Crohn’s disease, ulcerative colitis, or any other inflammatory bowel disease;
   (ii) Irritable bowel syndrome;
   (iii) Any condition requiring use of an ostomy device; or
   (iv) Any permanent or temporary medical condition that requires immediate access to a restroom.
(c) "Employee restroom" means a restroom intended for employees only in a retail facility and not intended for customers.
(d) "Health care provider" means an advanced registered nurse practitioner licensed under chapter 18.79 RCW, an osteopathic physician or surgeon licensed under chapter 18.57 RCW, an osteopathic physicians assistant licensed under chapter 18.57A RCW, a physician or surgeon licensed under chapter 18.71 RCW, or a physician assistant licensed under chapter 18.71A RCW.
(e) "Retail establishment" means a place of business open to the general public for the sale of goods or services. Retail establishment does not include any structure such as a filling station, service station, or restaurant of eight hundred square feet or less that has an employee restroom located within that structure.

(2) A retail establishment that has an employee restroom must allow a customer with an eligible medical condition to use that employee restroom during normal business hours if:
   (a) The customer requesting the use of the employee restroom provides in writing either:
      (i) A signed statement by the customer’s health care provider on a form that has been prepared by the department of health under subsection (4) of this section; or
      (ii) An identification card that is issued by a nonprofit organization whose purpose includes serving individuals who suffer from an eligible medical condition; and
   (b) One of the following conditions are met:
      (i) The employee restroom is reasonably safe and is not located in an area where providing access would create an obvious health or safety risk to the customer; or
      (ii) Allowing the customer to access the restroom facility does not pose a security risk to the retail establishment or its employees.

(3) A retail establishment that has an employee restroom must allow a customer to use that employee restroom during normal business hours if:

   (ii) The retail establishment does not normally make a restroom available to the public; and
(b)(i) The employee restroom is reasonably safe and is not located in an area where providing access would create an obvious health or safety risk to the customer; or

(ii) Allowing the customer to access the employee restroom does not pose a security risk to the retail establishment or its employees.

(4) The department of health shall develop a standard electronic form that may be signed by a health care provider as evidence of the existence of an eligible medical condition as required by subsection (2) of this section. The form shall include a brief description of a customer’s rights under this section and shall be made available for a customer or his or her health care provider to access by computer. Nothing in this section requires the department to distribute printed versions of the form.

(5) Fraudulent use of a form as evidence of the existence of an eligible medical condition is a misdemeanor punishable under RCW 9A.20.010.

(6) For a first violation of this section, the city or county attorney shall issue a warning letter to the owner or operator of the retail establishment, and to any employee of a retail establishment who denies access to an employee restroom in violation of this section, informing the owner or operator of the establishment and employee of the requirements of this section. A retail establishment or an employee of a retail establishment that violates this section after receiving a warning letter is guilty of a class 2 civil infraction under chapter 7.80 RCW.

(7) A retail establishment is not required to make any physical changes to an employee restroom under this section and may require that an employee accompany a customer or a customer with an eligible medical condition to the employee restroom.

(8) A retail establishment or an employee of a retail establishment is not civilly liable for any act or omission in allowing a customer or a customer with an eligible medical condition to use an employee restroom if the act or omission meets all of the following:

(a) It is not willful or grossly negligent;
(b) It occurs in an area of the retail establishment that is not accessible to the public; and
(c) It results in an injury to or death of the customer or the customer with an eligible medical condition or any individual other than an employee accompanying the customer or the customer with an eligible medical condition. [2009 c 438 § 1.]

70.54.420 Accountable care organization pilot projects—Report to the legislature. (1) The administrator shall within available resources appoint a lead organization by January 1, 2011, to support at least one integrated health care delivery system and one network of nonintegrated community health care providers in establishing two distinct accountable care organization pilot projects. The intent is that at least two accountable care organization pilot projects be in the process of implementation no later than January 1, 2012. In order to obtain expert guidance and consultation in design and implementation of the pilots, the lead organization shall contract with a recognized national learning collaborative with a reputed research organization having expertise in the development and implementation of accountable care organizations and payment systems.

(2) The lead organization designated by the administrator under this section shall:

(a) Be representative of health care providers and payors across the state;
(b) Have expertise and knowledge in medical payment and practice reform;
(c) Be able to support the costs of its work without recourse to state funding. The administrator and the lead organization are authorized and encouraged to seek federal funds, as well as solicit, receive, contract for, collect, and hold grants, donations, and gifts to support the implementation of this section and may scale back implementation to fall within resulting resource parameters;
(d) In collaboration with the health care authority, identify and convene work groups, as needed, to accomplish the goals of chapter 220, Laws of 2010; and
(e) Submit regular reports to the administrator on the progress of implementing the requirements of chapter 220, Laws of 2010.

(3) As used in this section, an "accountable care organization" is an entity that enables networks consisting of health care providers or a health care delivery system to become accountable for the overall costs and quality of care for the population they jointly serve and to share in the savings created by improving quality and slowing spending growth while relying on the following principles:

(a) Local accountability:
(i) Accountable care organizations must be composed of local delivery systems; and
(ii) Accountable care organizations spending benchmarks must make the local system accountable for cost, quality, and capacity;
(b) Appropriate payment and delivery models:
(i) Accountable care organizations with expenditures below benchmarks are recognized and rewarded with appropriate financial incentives;
(ii) Payment models have financial incentives that allow stakeholders to make investments that improve care and slow cost growth such as health information technology; and

(iii) Patient-centered medical homes are an integral component to an accountable care organization with a focus on improving patient outcomes, optimizing the use of health care information technology, patient registries, and chronic disease management, thereby improving the primary care team, and achieving cost savings through lowering health care utilization;

(c) Performance measurement:

(i) Measurement is essential to ensure that appropriate care is being delivered and that cost savings are not the result of limiting necessary care; and

(ii) Accountable care organizations must report patient experience data in addition to clinical process and outcome measures.

(4) The lead organization, subject to available resources, shall research other opportunities to establish accountable care organization pilot projects, which may become available through participation in a demonstration project in medicare, payment reform in medicare, national health care reform, or other federal changes that support the development of accountable care organizations.

(5) The lead organization, subject to available resources, shall coordinate the accountable care organization selection process with the primary care medical home reimbursement pilot projects established in RCW 70.54.380 and the ongoing joint project of the department of health and the Washington academy of family physicians patient-centered medical home collaborative being put into practice under section 2, chapter 295, Laws of 2008, as well as other private and public efforts to promote adoption of medical homes within the state.

(6) The lead organization shall make a report to the health care committees of the legislature, by January 1, 2013, on the progress of the accountable care organization pilot projects, recommendations about further expansion, and needed changes to the statute to more broadly implement and oversee accountable care organizations in the state.

(7) As used in this section, "administrator," "health care provider," "lead organization," and "payor" have the same meaning as provided in RCW 41.05.036. [2010 c 220 § 2.]

Findings—Intent—2010 c 220: "(1)(a) The legislature finds that a necessary component of bending the health care cost curve is innovative payment and practice reforms that capitalize on current incentives and create new incentives in the delivery system to further the goals of increased quality, accessibility, and affordability.

(b) The legislature further finds that accountable care organizations have received significant attention in the recent health care reform debate and have been found by the congressional budget office to be one of the few comprehensive reform models that can be relied on to reduce costs.

(c) The legislature further finds that accountable care organizations present an intriguing path forward on reform that builds on current provider referral patterns and shares shared savings payments to providers willing to be held accountable for quality and costs.

(d) The legislature further finds that the accountable care organization framework offers a basic method of decoupling volume and intensity from revenue and profit and is thus a crucial step toward achieving a truly sustainable health care delivery system.

(2) The legislature declares that collaboration among public payors, private health carriers, third-party purchasers, health care delivery systems, and providers to identify appropriate reimbursement methods to align incentives in support of accountable care organizations is in the best interest of the public. The legislature therefore intends to exempt from state antitrust laws, and to provide immunity from federal antitrust laws through the state action doctrine, for activities undertaken pursuant to pilots designed and implemented under RCW 70.54.420 that might otherwise be constrained by such laws. The legislature does not intend and does not authorize any person or entity to engage in activities or to conspire to engage in activities that would constitute per se violations of state and federal antitrust laws including, but not limited to, agreements among competing health care providers or health carriers as to the price or specific level of reimbursement for health care services.

(3) The legislature further finds that public-private partnerships and joint projects, such as the Washington patient-centered medical home collaborative administered and funded jointly between the department of health and the Washington academy of family physicians, are research-supported, evidence-based primary care delivery projects that should be encouraged to the fullest extent possible because they improve health outcomes for patients and increase primary care clinical effectiveness, thereby reducing the overall costs in our health care system." *Reviser's note: RCW 43.121.020 was repealed by 2011 1st sp.s. c 32 § 12, effective June 30, 2012.*

**Legislative findings—1987 c 351:** "The legislature finds that children are society's most valuable resource and that child abuse and neglect is a threat to the physical, mental, and emotional health of children. The legislature also finds that the support of community-based primary prevention programs is critical in preventing child abuse and neglect; that, in order to be most effective, these programs must be delivered through a collaborative effort of community organizations; that the legislature finds that the Washington council for prevention of child abuse needs primary prevention programs to be cost-effective to the community, and that the council's efforts are necessary to reduce the financial burden of child abuse and neglect to the state of Oregon. The legislature believes that this is an innovative way of using private dollars to supplement our public dollars to reduce child abuse and neglect." [1987 c 351 § 1.]

Thereafter, the original certificate and the evidence of paternity, or acknowledgment shall not be subject to inspection other than upon order of a court of competent jurisdiction, or upon written request of the department of social and health services, the attorney general, or a prosecuting attorney, stating that the documents are being sought in furtherance of an action to enforce a duty of support. If no certificate of birth is on file for the person for whom a new certificate is to be established under this section, a delayed registration of birth shall be filed with the state registrar of vital statistics as provided in RCW 70.58.120. There shall be kept in the main office on the premises of each explosives manufacturing plant a plan of said plant showing the location of all explosives manufacturing buildings and the distance they are located from other factory buildings where persons are employed and from magazines, and these plans shall at all times be open to inspection by duly authorized inspectors of the department of labor and industries. The superintendent of each plant shall upon demand of said inspector furnish the following information:

(a) The maximum amount and kind of explosive material which is or will be present in each building at one time.
(b) The nature and kind of work carried on in each building and whether or not said buildings are surrounded by natural or artificial barricades.

Except as provided in RCW 70.74.370, the department of labor and industries shall as soon as possible after receiving such application cause an inspection to be made of the explosives manufacturing plant, and if found to be in accordance with RCW 70.74.030 and 70.74.050 and 70.74.061, such department shall issue a license to the person applying therefor showing compliance with the provisions of this chapter if the applicant demonstrates that either the applicant or the officers, agents, or employees of the applicant are sufficiently experienced in the manufacture of explosives and the applicant meets the qualifications for a license under RCW 70.74.360. Such license shall continue in full force and effect until expired, suspended, or revoked by the department pursuant to this chapter. [2012 c 117 § 392; 1997 c 58 § 870; 1988 c 198 § 5; 1969 ex.s. c 137 § 11; Rem. Supp. 1941 § 5440-1.]

(1) The location of the magazine, if any, if then existing, or in case of a new magazine, the proposed location of such magazine;

(2) The kind of explosives that are kept or stored or possessed or intended to be kept or stored or possessed and the maximum quantity that is intended to be kept or stored or possessed thereat;

(3) The distance that such magazine is located or intended to be located from other magazines, inhabited buildings, explosives manufacturing buildings, railroads, highways, and public utility transmission systems;

Unless specifically provided otherwise by statute, this chapter and the rules adopted thereunder shall be implemented and enforced, including penalties, violations, citations, appeals, and other administrative procedures, pursuant to the Washington industrial safety and health act, chapter 49.17 RCW. [1988 c 198 § 11.]

(1) Explosives, improvised devices, and components of explosives and improvised devices that are possessed, manufactured, delivered, imported, exported, stored, sold, purchased, transported, abandoned, detonated, or used, or intended to be used, in violation of a provision of this chapter are subject to seizure and forfeiture by a law enforcement agency and no property right exists in them.

(2) The law enforcement agency making the seizure shall notify the Washington state department of labor and industries of the seizure.

(3) Seizure of explosives, improvised devices, and components of explosives and improvised devices under subsection (1) of this section may be made if:

(a) The seizure is incident to arrest or a search under a search warrant;

(b) The explosives, improvised devices, or components have been the subject of a prior judgment in favor of the state in an injunction or forfeiture proceeding based upon this chapter;

(c) A law enforcement officer has probable cause to believe that the explosives, improvised devices, or components are directly or indirectly dangerous to health or safety; or

(d) The law enforcement officer has probable cause to believe that the explosives, improvised devices, or components were used or were intended to be used in violation of this chapter.

(4) A law enforcement agency shall destroy explosives seized under this chapter when it is necessary to protect the public safety and welfare. When destruction is not necessary to protect the public safety and welfare, and the explosives are not being held for evidence, a seizure pursuant to this section commences proceedings for forfeiture.

(5) The law enforcement agency under whose authority the seizure was made shall issue a written notice of the seizure and commencement of the forfeiture proceedings to the person from whom the explosives were seized, to any known owner of the explosives, and to any person who has a known interest in the explosives. The notice shall be issued within fifteen days of the seizure. The notice of seizure and commencement of the forfeiture proceedings shall be served in the same manner as provided in RCW 4.28.080 for service of a summons. The law enforcement agency shall provide a form by which the person or persons may request a hearing before the law enforcement agency to contest the seizure.

(6) If no person notifies the seizing law enforcement agency in writing of the person’s claim of ownership or right to possession of the explosives, improvised devices, or components within thirty days of the date the notice was issued, the seized explosives, devices, or components shall be deemed forfeited.

(7) If, within thirty days of the issuance of the notice, any person notifies the seizing law enforcement agency in writing of the person’s claim of ownership or right to possession of items seized, the person or persons shall be afforded a reasonable opportunity to be heard as to the claim or right. The hearing shall be before the chief law enforcement or the officer’s designee of the seizing agency, except that the person asserting the claim or right may remove the matter to a court of competent jurisdiction if the aggregate value of the items seized is more than five hundred dollars. The hearing and any appeal shall be conducted according to chapter 34.05 RCW. The seizing law enforcement agency shall bear the burden of proving that the person (a) has no lawful right of ownership or possession and (b) that the items seized were possessed, manufactured, stored, sold, purchased, transported, abandoned, detonated, or used in violation of a provision of this chapter with the person’s knowledge or consent.

(8) The seizing law enforcement agency shall promptly return the items seized to the claimant upon a determination that the claimant is entitled to possession of the items seized.

(9) If the items seized are forfeited under this statute, the seizing agency shall dispose of the explosives by summary destruction. However, when explosives are destroyed either to protect public safety or because the explosives were forfeited, the person from whom the explosives were seized loses all rights of action against the law enforcement agency or its employees acting within the scope of their employment, or other governmental entity or employee involved with the seizure and destruction of explosives.

(10) This section is not intended to change the seizure and forfeiture powers, enforcement, and penalties available to the department of labor and industries pursuant to chapter

70.76.005 Findings. Polybrominated diphenyl ethers (PBDEs) have been used extensively as flame retardants in a large number of common household products for the past thirty years. Studies on animals show that PBDEs can impact the developing brain, affecting behavior and learning after birth and into adulthood, making exposure to fetuses and children a particular concern. Levels of PBDEs are increasing in people, and in the environment, particularly in North America. Because people can be exposed to these chemicals through house dust and indoor air as well as through food, it is important to phase out their use in common household products, provided that effective flame retardants that are
safer and technically feasible are available at a reasonable cost. [2007 c 65 § 1.]

70.76.010 Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

1) "Comestible" means edible.

2) "Commercial decabromo diphenyl ether" or "commercial deca-bde" means the chemical mixture of decabromo diphenyl ether, including associated polybrominated diphenyl ether impurities not intentionally added.

3) "Department" means the department of ecology.

4) "Electronic enclosure" means the plastic housing that encloses the components of electronic products, including but not limited to televisions and computers.

5) "Manufacturer" means any person, firm, association, partnership, corporation, governmental entity, organization, or joint venture that produces a product containing polybrominated diphenyl ethers or an importer or domestic distributor of a noncomestible product containing polybrominated diphenyl ethers. A manufacturer does not include a retailer who:

   a) Adds a private label brand or cobrands a product for sale; or
   b) Assembles components to create a single noncomestible product based on an individual consumer preference.

6) "Mattress" has the same meaning as defined by the United States consumer product safety commission in 16 C.F.R. Part 1633 (2007) as it existed on July 22, 2007, and includes mattress sets, box springs, futons, crib mattresses, and youth mattresses. "Mattress" includes mattress pads.

7) "Medical device" means an instrument, machine, implant, or diagnostic test used to help diagnose a disease or other condition or to cure, treat, or prevent disease.

8) "Polybrominated diphenyl ethers" or "PBDEs" means chemical forms that consist of diphenyl ethers bound with bromine atoms. Polybrominated diphenyl ethers include, but are not limited to, the three primary forms of the commercial mixtures known as pentabromo diphenyl ether (penta-bde), octabromo diphenyl ether (octa-bde), and decabromo diphenyl ether (deca-bde).

9) "Residential upholstered furniture" means residential seating products intended for indoor use in a home or other dwelling intended for residential occupancy that consists in whole or in part of resilient cushioning materials enclosed within a covering consisting of fabric or related materials, if the resilient cushioning materials are sold with the item of upholstered furniture and the upholstered furniture is constructed with a contiguous upholstered seat and back that may include arms.

10) "Retailer" means a person who offers a product for sale at retail through any means including, but not limited to, remote offerings such as sales outlets, catalogs, or the internet, but does not include a sale that is a wholesale transaction with a distributor or a retailer. A retailer does not include a person, firm, association, partnership, corporation, governmental entity, organization, or joint venture that both manufactures and sells a product at retail.

11) "Technically feasible" means an alternative that is available at a cost and in sufficient quantity to permit the manufacturer to produce an economically viable product.

12) "Transportation vehicle" means a mechanized vehicle that is used to transport goods or people including, but not limited to, airplanes, automobiles, motorcycles, trucks, buses, trains, boats, ships, streetcars, or monorail cars. [2007 c 65 § 2.]

70.76.020 Manufacture, sale, or distribution of noncomestible products containing PBDEs—Exemptions. After January 1, 2008, no person may manufacture, knowingly sell, offer for sale, distribute for sale, or distribute for use in this state noncomestible products containing PBDEs. Exemptions from the prohibition in this section are limited to the following:

1) Products containing deca-bde, except as provided in RCW 70.76.030;

2) The sale or distribution of any used transportation vehicle manufactured before January 1, 2008, with component parts containing PBDEs;

3) The sale or distribution of any used transportation vehicle parts or new transportation vehicle parts manufactured before January 1, 2008, that contain PBDEs;

4) The manufacture, sale, repair, distribution, maintenance, refurbishment, or modification of equipment containing PBDEs and used primarily for military or federally funded space program applications. The exemption in this subsection (4) does not cover consumer-based goods with broad applicability;

5) Federal aviation administration fire worthiness requirements and recommendations;

6) The manufacture, sale, repair, distribution, maintenance, refurbishment, or modification of any new raw material or component part used in a transportation vehicle with component parts, including original spare parts, containing deca-bde;

7) The use of commercial deca-bde in the maintenance, refurbishment, or modification of transportation equipment;

8) The sale or distribution of any product containing PBDEs that has been previously owned, purchased, or sold in commerce, provided it was manufactured before the effective date of the prohibition;

9) The manufacture, sale, or distribution of any new product or product component consisting of recycled or used materials containing deca-bde;

10) The sale or purchase of any previously owned product containing PBDEs made in casual or isolated sales as defined in RCW 82.04.040 and to sales by nonprofit organizations;

11) The manufacture, sale, or distribution of new carpet cushion made from recycled foam containing less than one-tenth of one percent penta-bde; and

12) Medical devices. [2007 c 65 § 3.]
(2) Except as provided in RCW 70.76.090, no person may manufacture, knowingly sell, offer for sale, distribute for sale, or distribute for use in this state residential upholstered furniture that contains commercial deca-bde, or any television or computer that has an electronic enclosure that contains commercial deca-bde after the effective date established in subsection (3) of this section. This prohibition may not take effect until the department and the department of health identify that a safer and technically feasible alternative is available, and the fire safety committee, created in RCW 70.76.040, determines that the identified alternative meets applicable fire safety standards. The effective date of the prohibition must be established according to the following process:

(a) The department and the department of health shall review risk assessments, scientific studies, and other relevant findings regarding alternatives to the use of commercial deca-bde in residential upholstered furniture, televisions, and computers.

(b) If the department and the department of health jointly find that safer and technically feasible alternatives are available for any of these uses, the department shall convene the fire safety committee created in RCW 70.76.040 to determine whether the identified alternatives meet applicable fire safety standards.

(c) By majority vote, the fire safety committee created in RCW 70.76.040 shall make a finding whether an alternative identified under (b) of this subsection meets applicable fire safety standards. 70.83C.005 Intent.
70.83C.010 Definitions.
70.83C.020 Prevention strategies.

70.83C.005 Intent. The legislature recognizes that the
agencies are focusing on primary prevention activities to reduce the use of alcohol or drugs during pregnancy but few efforts have focused on secondary prevention efforts aimed at intervening in the lives of women already involved in the use of alcohol or other drugs during pregnancy. The legislature recognizes that the best way to prevent problems for chemically dependent pregnant women and their resulting children is to engage the women in alcohol or drug treatment. The legislature acknowledges that treatment professionals find pretreatment services to clients to be important in engaging women in alcohol or drug treatment. The legislature further recognizes that pretreatment services should be provided at locations where chemically dependent women are likely to be found, including public health clinics and domestic violence or homeless shelters. Therefore the legislature intends to prevent the detrimental effects of alcohol or other drug use to women and their resulting infants by promoting the establishment of local programs to help facilitate a woman’s entry into alcohol or other drug treatment. These programs shall provide secondary prevention services and provision of opportunities for immediate treatment so that women who seek help are welcomed rather than ostracized. [1993 c 422 § 3.]

Finding—1993 c 422: See note following RCW 70.83C.010.

Finding—1993 c 422: "The United States surgeon general warns that women should not drink alcoholic beverages during pregnancy because of the risk of birth defects. The legislature finds that these defects include fetal alcohol syndrome, a birth defect that causes permanent antisocial behavior in the sufferer, disrupts the functions of his or her family, and, at an alarmingly increasing rate, extracts a safety and fiscal toll on society." [1993 c 422 § 1.]

70.83C.020 Prevention strategies. The secretary shall develop and promote statewide secondary prevention strategies designed to increase the use of alcohol and drug treatment services by women of childbearing age, before, during, and immediately after pregnancy. These efforts are conducted through the division of alcohol and substance abuse. The secretary shall:

(1) Promote development of three pilot demonstration projects in the state to be called pretreatment projects for women of childbearing age.

(2) Ensure that two of the projects are located in public health department clinics that provide maternity services and one is located with a domestic violence program.

The counselors may rotate between more than one clinic or domestic violence program. The chemical dependency counselor for the domestic violence program shall also be trained in domestic violence issues.

(4) Ensure that the duties and activities of the certified chemical dependency counselors include, at a minimum, the following:

(5) Ensure that administrative costs of the department are limited to ten percent of the funds appropriated for the project. [1993 c 422 § 5.]

70.87.020 Conveyances to be safe and in conformity with law. (1) The purpose of this chapter is to provide for safety of life and limb, to promote safety awareness, and to ensure the safe design, mechanical and electrical operation, and inspection of conveyances, and performance of conveyance work, and all such operation, inspection, and conveyance work subject to the provisions of this chapter shall be reasonably safe to persons and property and in conformity with the provisions of this chapter and the applicable statutes of the state of Washington, and all orders, and rules of the department. The use of unsafe and defective conveyances imposes a substantial probability of serious and preventable injury to employees and the public exposed to unsafe conditions. The prevention of these injuries and protection of employees and the public from unsafe conditions is in the best interest of the people of this state. It is the policy of the legislature that employees should be protected from workplace reprisal or retaliatory action for the opposition to or reporting in good faith of practices that may violate the provisions of this chapter and the rules promulgated hereunder, or of the safety, installation, repair, or maintenance policies of their employers. Personnel performing work covered by this chapter must, by documented training or experience or both, be familiar with the operation and safety functions of the components and equipment. Training and experience must include, but not be limited to, recognizing the safety hazards and performing the procedures to which the personnel performing conveyance work covered by this chapter are assigned in conformance with the requirements of this chapter. This chapter establishes the minimum standards for personnel performing conveyance work.

(2) This chapter is not intended to prevent the use of systems, methods, or devices of equivalent or superior quality, strength, fire resistance, code effectiveness, durability, and safety to those required by this chapter, provided that there is technical documentation to demonstrate the equivalency of the system, method, or device, as prescribed in this chapter and the rules adopted under this chapter.

(3) In any suit for damages allegedly caused by a failure or malfunction of the conveyance, conformity with the rules of the department is prima facie evidence that the conveyance work, operation, and inspection is reasonably safe to persons and property. In the execution of this rule-making power and before the adoption of rules, the department shall consider the rules for safe conveyance work, operation, and inspection, including the American National Standards Institute Safety Code for Personnel and Material Hoists, the American Society of Mechanical Engineers Safety Code for Elevators, Dumbwaiters, and Escalators, and any amendatory or supplemental provisions thereto. The department by rule shall establish a schedule of fees to pay the costs incurred by the department for the work related to administration and enforcement of this chapter. Nothing in this chapter limits the authority of the department to prescribe or enforce general or special safety orders as provided by law.

The department may consult with: Engineering authorities and organizations concerned with standard safety codes; rules and regulations governing conveyance work, operation, and inspection; and the qualifications that are adequate, reasonable, and necessary for the elevator mechanic, contractor, and inspector.

During a state of emergency declared under RCW 43.06.010(12), the governor may waive or suspend the collection of fees under this section or any portion of this section or under any administrative rule, and issue any orders to facilitate the operation of state or local government or to promote and secure the safety and protection of the civilian population. Application—2012 c 10: See note following RCW 18.20.010.

Findings—2004 c 66: "The legislature finds that individuals performing conveyance work on private residence conveyances must be licensed by the department of labor and industries. However, the licensing requirements for this type of work need not be to the same level as those established for conveyance work in circumstances where the general public has access to the conveyances. The legislature further finds that the department of labor and industries should be given the authority to develop the licensing requirements for this type of work using the normal rule-making process established under chapter 34.65 RCW. Lastly, the legislature finds that private residence conveyance maintenance work that is performed by an owner or at the direction of the owner is exempt from licensing if the owner resides in the residence at which the conveyance is located and the conveyance is not accessible to the general public." 70.90.101 Legislative findings. The legislature finds that water recreation facilities are an important source of recreation for the citizens of this state. To promote the public health, safety, and welfare, the legislature finds it necessary to continue to regulate these facilities. [1987 c 222 § 1.]

70.90.110 Definitions. Unless the context clearly requires otherwise the definitions in this section apply throughout this chapter.

70.93.060 Littering prohibited—Penalties—Litter cleanup restitution payment. (1) It is a violation of this section to abandon a junk vehicle upon any property. In addition, no person shall throw, drop, deposit, discard, or otherwise dispose of litter upon any public property in the state or upon private property in this state not owned by him or her or in the waters of this state whether from a vehicle or otherwise including but not limited to any public highway, public park, beach, campground, forest land, recreational area, trailer park, highway, road, street, or alley except:

(a) When the property is designated by the state or its agencies or political subdivisions for the disposal of garbage and refuse, and the person is authorized to use such property for that purpose;

(b) Into a litter receptacle in a manner that will prevent litter from being carried away or deposited by the elements upon any part of the private or public property or waters.

(2)(a) Except as provided in subsection (4) of this section, it is a class 3 civil infractions as provided in RCW 7.80.120 for a person to litter in an amount less than or equal to one cubic foot.

(b) It is a misdemeanor for a person to litter in an amount greater than one cubic foot but less than one cubic yard. The person shall also pay a litter cleanup restitution payment equal to twice the actual cost of cleanup, or fifty dollars per cubic foot of litter, whichever is greater. The court shall distribute one-half of the restitution payment to the landowner and one-half of the restitution payment to the law enforcement agency investigating the incident. The court may, in addition to or in lieu of part or all of the cleanup restitution payment, order the person to pick up and remove litter from the property, with prior permission of the legal owner or, in the case of public property, of the agency managing the property. The court may suspend or modify the litter cleanup restitution payment for a first-time offender under this section, if the person cleans up and properly disposes of the litter.

(c) It is a gross misdemeanor for a person to litter in an amount of one cubic yard or more. The person shall also pay a litter cleanup restitution payment equal to twice the actual cost of cleanup, or one hundred dollars per cubic foot of litter, whichever is greater. The court shall distribute one-half of the restitution payment to the landowner and one-half of the restitution payment to the law enforcement agency investigating the incident. The court may, in addition to or in lieu of part or all of the cleanup restitution payment, order the person to pick up and remove litter from the property, with prior permission of the legal owner or, in the case of public property, of the agency managing the property. The court may suspend or modify the litter cleanup restitution payment for a first-time offender under this section, if the person cleans up and properly disposes of the litter.

(3) If the violation occurs in a state park, the court shall, in addition to any other penalties assessed, order the person to perform twenty-four hours of community restitution in the state park where the violation occurred if the state park has stated an intent to participate as provided in RCW 79A.05.050.

(4) It is a class 1 civil infraction as provided in RCW 7.80.120 for a person to discard, in violation of this section, potentially dangerous litter in any amount.

[2003 c 337 § 3; 2002 c 175 § 45; 2001 c 139 § 1; 2000 c 154 § 2; 1997 c 159 § 1; 1996 c 263 § 1; 1993 c 292 § 1; 1983 c 277 § 1; 1979 ex.s. c 39 § 1; 1971 ex.s. c 307 § 6.]

Findings—2003 c 337: "(1) The legislature finds that the littering of potentially dangerous products poses a greater danger to the public safety than other classes of litter. Broken glass, human waste, and other dangerous materials along roadways, within parking lots, and on pedestrian, bicycle, and recreation trails elevates the risk to public safety, such as vehicle tire punctures, and the risk to the community volunteers who spend their time gathering and properly disposing of the litter left behind by others. As such, the legislature finds that a higher penalty should be imposed on those who improperly dispose of potentially dangerous products, such as is imposed on those who improperly dispose of tobacco products.

(2) The legislature further finds that litter is a nuisance, and, in order to alleviate such a nuisance, counties must be provided statutory authority to declare what shall be a nuisance, to abate a nuisance, and to impose and collect fines upon parties who may create, cause, or commit a nuisance." 70.93.093 Official gatherings and sports facilities—Recycling. In communities where there is an established curbside service and where recycling service is available to businesses, a recycling program must be provided at every official gathering and at every sports facility by the vendors who sell beverages in single-use aluminum, glass, or plastic bottles or cans. A recycling program includes provision of receptacles or reverse vending machines, and provisions to transport and recycle the collected materials. Facility managers or event coordinators may choose to work with vendors to coordinate the recycling program. The recycling receptacles or reverse vending machines must be clearly marked, and must be provided for the aluminum, glass, or plastic bottles or cans that contain the beverages sold by the vendor. [2007 c 244 § 2.]

70.93.095 Marinas and airports—Recycling. (1) Each marina with thirty or more slips and each airport providing regularly scheduled commercial passenger service shall provide adequate recycling receptacles on, or adjacent to, its facility. The receptacles shall be clearly marked for the disposal of at least two of the following recyclable materials: aluminum, glass, newspaper, plastic, and tin.

(2) Marinas and airports subject to this section shall not be required to provide recycling receptacles until the city or county in which it is located adopts a waste reduction and recycling element of a solid waste management plan pursuant to RCW 70.95.090. [1991 c 11 § 2.]

70.93.097 Transported waste must be covered or secured. (1) By January 1, 1994, each county or city with a staffed transfer station or landfill in its jurisdiction shall adopt an ordinance to reduce litter from vehicles. The ordinance shall require the operator of a vehicle transporting solid waste to a staffed transfer station or landfill to secure or cover the vehicle’s waste in a manner that will prevent spillage. The ordinance may provide exemptions for vehicle operators transporting waste that is unlikely to spill from a vehicle.

The ordinance shall, in the absence of an exemption, require a fee, in addition to other landfill charges, for a person arriving at a staffed landfill or transfer station without a cover on the vehicle’s waste or without the waste secured.

(2) The fee collected under subsection (1) of this section shall be deposited, no less often than quarterly, with the city or county in which the landfill or transfer station is located.

(3) A vehicle transporting sand, dirt, or gravel in compliance with the provisions of RCW 46.61.655 shall not be required to secure or cover a load pursuant to ordinances adopted under this section. [1993 c 399 § 1.]

70.93.110 Removal of litter—Responsibility. Responsibility for the removal of litter from receptacles placed at parks, beaches, campgrounds, trailer parks, and other public places shall remain upon those state and local agencies performing litter removal. Removal of litter from litter receptacles placed on private property which is used by the public shall remain the responsibility of the owner of such private property. [1971 ex.s. c 307 § 11.]

70.93.180 Waste reduction, recycling, and litter control account—Distribution. (1) There is hereby created an account within the state treasury to be known as the "waste reduction, recycling, and litter control account". Moneys in the account may be spent only after appropriation. Expenditures from the waste reduction, recycling, and litter control account shall be used as follows:

(a) Fifty percent to the department of ecology, for use by the departments of ecology, natural resources, revenue, transportation, and corrections, and the parks and recreation commission, for use in litter collection programs, to be distributed under RCW 70.93.220. The amount to the department of ecology shall also be used for a central coordination function for litter control efforts statewide, for the biennial litter survey under RCW 70.93.200(8), and for statewide public awareness programs under RCW 70.93.200(7). The amount to the department shall also be used to defray the costs of administering the funding, coordination, and oversight of local government programs for waste reduction, litter control, and recycling, so that local governments can apply one hundred percent of their funding to achieving program goals. The amount to the department of revenue shall be used to
enforce compliance with the litter tax imposed in chapter 82.19 RCW;

(b) Twenty percent to the department for local government funding programs for waste reduction, litter control, and recycling activities by cities and counties under RCW 70.93.250, to be administered by the department of ecology; and

(c) Thirty percent to the department of ecology for waste reduction and recycling efforts.

(2) All taxes imposed in RCW 82.19.010 and fines and bail forfeitures collected or received pursuant to this chapter shall be deposited in the waste reduction, recycling, and litter control account and used for the programs under subsection (1) of this section.

(3) Not less than five percent and no more than ten percent of the amount appropriated into the waste reduction, recycling, and litter control account every biennium shall be reserved for capital needs, including the purchase of vehicles for transporting crews and for collecting litter and solid waste. Capital funds shall be distributed among state agencies and local governments according to the same criteria provided in RCW 70.93.220 for the remainder of the funds, so that the most effective waste reduction, litter control, and recycling programs receive the most funding. The intent of this subsection is to provide funds for the purchase of equipment that will enable the department to account for the greatest return on investment in terms of reaching a zero litter goal.

(4) During the 2009-2011 fiscal biennium, the legislature may transfer from the waste reduction, recycling, and litter control account to the state general fund such amounts as reflect the excess fund balance of the account. Additionally, during the 2009-2011 fiscal biennium, subsection (1)(a), (b), and (c) of this section is suspended.

(5) During the 2011-2013 fiscal biennium, the legislature may transfer from the waste reduction, recycling, and litter control account to the state general fund such amounts as reflect the excess fund balance of the account. Additionally, during the 2011-2013 fiscal biennium, subsection (1)(a), (b), and (c) of this section is suspended. **70.94.011 Declaration of public policies and purpose.**

It is declared to be the public policy to preserve, protect, and enhance the air quality for current and future generations. Air is an essential resource that must be protected from harmful levels of pollution. Improving air quality is a matter of statewide concern and is in the public interest. It is the intent of this chapter to secure and maintain levels of air quality that protect human health and safety, including the most sensitive members of the population, to comply with the requirements of the federal clean air act, to prevent injury to plant, animal life, and property, to foster the comfort and convenience of Washington’s inhabitants, to promote the economic and social development of the state, and to facilitate the enjoyment of the natural attractions of the state.

It is further the intent of this chapter to protect the public welfare, to preserve visibility, to protect scenic, aesthetic, historic, and cultural values, and to prevent air pollution problems that interfere with the enjoyment of life, property, or natural attractions.

Because of the extent of the air pollution problem the legislature finds it necessary to return areas with poor air quality to levels adequate to protect health and the environment as expeditiously as possible but no later than December 31, 1995. Further, it is the intent of this chapter to prevent any areas of the state with acceptable air quality from reaching air contaminant levels that are not protective of human health and the environment.

The legislature recognizes that air pollution control projects may affect other environmental media. In selecting air pollution control strategies state and local agencies shall support those strategies that lessen the negative environmental impact of the project on all environmental media, including air, water, and land.

The legislature further recognizes that energy efficiency and energy conservation can help to reduce air pollution and shall therefore be considered when making decisions on air pollution control strategies and projects.

It is the policy of the state that the costs of protecting the air resource and operating state and local air pollution control programs shall be shared as equitably as possible among all sources whose emissions cause air pollution.

It is also declared as public policy that regional air pollution control programs are to be encouraged and supported to the extent practicable as essential instruments for the securing and maintenance of appropriate levels of air quality.

To these ends it is the purpose of this chapter to safeguard the public interest through an intensive, progressive, and coordinated statewide program of air pollution prevention and control, to provide for an appropriate distribution of responsibilities, and to encourage coordination and cooperation between the state, regional, and local units of government, to improve cooperation between state and federal government, public and private organizations, and the concerned individual, as well as to provide for the use of all known, available, and reasonable methods to reduce, prevent, and control air pollution.

The legislature recognizes that the problems and effects of air pollution cross political boundaries, are frequently regional or interjurisdictional in nature, and are dependent upon the existence of human activity in areas having common topography and weather conditions conducive to the buildup of air contaminants. In addition, the legislature recognizes that air pollution levels are aggravated and compounded by increased population, and its consequences. These changes often result in increasingly serious problems for the public and the environment.

The legislature further recognizes that air emissions from thousands of small individual sources are major contributors to air pollution in many regions of the state. As the population of a region grows, small sources may contribute an increasing proportion of that region’s total air emissions. It is declared to be the policy of the state to achieve significant reductions in emissions from those small sources whose aggregate emissions constitute a significant contribution to air pollution in a particular region.

It is the intent of the legislature that air pollution goals be incorporated in the missions and actions of state agencies. [1991 c 199 § 102; 1973 1st ex.s. c 193 § 1; 1969 ex.s. c 168 § 1; 1967 c 238 § 1.]

**Finding—1991 c 199:** "The legislature finds that ambient air pollution is the most serious environmental threat in Washington state. Air pollution causes significant harm to human health; damages the environment, includ-
ing trees, crops, and animals; causes deterioration of equipment and materials; contributes to water pollution; and degrades the quality of life.

Over three million residents of Washington state live where air pollution levels are considered unhealthy. Of all toxic chemicals released into the environment more than half enter our breathing air. Citizens of Washington state spend hundreds of millions of dollars annually to offset health, environmental, and material damage caused by air pollution. The legislature considers such air pollution levels, costs, and damages to be unacceptable.

It is the intent of this act that the implementation of programs and regulations to control air pollution shall be the primary responsibility of the department of ecology and local air pollution control authorities. *(1991 c 199 § 101.)*

(a) Eighty-five percent shall be distributed to air pollution control authorities created under this chapter. The money must be distributed in direct proportion with the amount of fees imposed under RCW **46.12.080, 46.12.170, and 46.12.181** that are collected within the boundaries of each authority. (a) Eighty-five percent of the money received by an air pollution control authority or the department is available on a priority basis to retrofit school buses with exhaust emission control devices or to provide funding for fueling infrastructure necessary to allow school bus fleets to use alternative, cleaner fuels. In addition, the director of ecology or the air pollution control officer may direct funding under this section for other publicly or privately owned diesel equipment if the director of ecology or the air pollution control officer finds that funding for other publicly or privately owned diesel equipment will provide public health benefits and further the purposes of this chapter.

(b) The remaining fifteen percent may be used by the air pollution control authority or department to reduce transportation-related air contaminant emissions and clean up air pollution, or reduce and monitor toxic air contaminants.

(3) Money in the air pollution control account may be spent by the department only after appropriation.

### 70.94.030 Definitions

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) *"Air contaminant" means dust, fumes, mist, smoke, other particulate matter, vapor, gas, odorous substance, or any combination thereof.*

(2) *"Air pollution" is presence in the outdoor atmosphere of one or more air contaminants in sufficient quantities and of such characteristics and duration as is, or is likely to be, injurious to human health, plant or animal life, or property, or which unreasonably interfere with enjoyment of life and...* (2012 Ed.)
property. For the purpose of this chapter, air pollution shall not include air contaminants emitted in compliance with chapter 17.21 RCW.

(3) "Air quality standard" means an established concentration, exposure time, and frequency of occurrence of an air contaminant or multiple contaminants in the ambient air which shall not be exceeded.

(4) "Ambient air" means the surrounding outside air.

(5) "Authority" means any air pollution control agency whose jurisdictional boundaries are coextensive with the boundaries of one or more counties.

(6) "Best available control technology" (BACT) means an emission limitation based on the maximum degree of reduction for each air pollutant subject to regulation under this chapter emitted from or that results from any new or modified stationary source, that the permitting authority, on a case-by-case basis, taking into account energy, environmental, and economic impacts and other costs, determines is achievable for such a source or modification through application of production processes and available methods, systems, and techniques, including fuel cleaning, clean fuels, or treatment or innovative fuel combustion techniques for control of each such a pollutant. In no event shall application of "best available control technology" result in emissions of any pollutants that will exceed the emissions allowed by any applicable standard under 40 C.F.R. Part 60 and Part 61, as they exist on July 25, 1993, or their later enactments as adopted by ref-

(7) "Best available retrofit technology" (BART) means an emission limitation based on the degree of reduction achievable through the application of the best system of continuous emission reduction for each pollutant that is emitted by an existing stationary facility. The emission limitation must be established, on a case-by-case basis, taking into consideration the technology available, the costs of compliance, the energy and nonair quality environmental impacts of compliance, any pollution control equipment in use or in existence at the source, the remaining useful life of the source, and the degree of improvement in visibility that might reasonably be anticipated to result from the use of the technology.

(8) "Board" means the board of directors of an authority.

(9) "Control officer" means the air pollution control officer of any authority.

(10) "Department" or "ecology" means the department of ecology.

(11) "Emission" means a release of air contaminants into the ambient air.

(12) "Emission standard" and "emission limitation" mean a requirement established under the federal clean air act or this chapter that limits the quantity, rate, or concentration of emissions of air contaminants on a continuous basis, including any requirement relating to the operation or maintenance of a source to assure continuous emission reduction, and any design, equipment, work practice, or operational standard adopted under the federal clean air act or this chapter.

(13) "Fine particulate" means particulates with a diameter of two and one-half microns and smaller.

(14) "Lowest achievable emission rate" (LAER) means for any source that rate of emissions that reflects:

(a) The most stringent emission limitation that is contained in the implementation plan of any state for such class or category of source, unless the owner or operator of the proposed source demonstrates that such limitations are not achievable; or

(b) The most stringent emission limitation that is achieved in practice by such class or category of source, whichever is more stringent.

In no event shall the application of this term permit a proposed new or modified source to emit any pollutant in excess of the amount allowable under applicable new source performance standards.

(15) "Modification" means any physical change in, or change in the method of operation of, a stationary source that increases the amount of any air contaminant emitted by such source or that results in the emission of any air contaminant not previously emitted. The term modification shall be construed consistent with the definition of modification in Section 7411, Title 42, United States Code, and with rules implementing that section.

(16) "Multicounty authority" means an authority which consists of two or more counties.

(17) "New source" means (a) the construction or modification of a stationary source that increases the amount of any air contaminant emitted by such source or that results in the emission of any air contaminant not previously emitted, and (b) any other project that constitutes a new source under the federal clean air act.

(18) "Permit program source" means a source required to apply for or to maintain an operating permit under RCW 70.94.161.

(19) "Person" means an individual, firm, public or private corporation, association, partnership, political subdivision of the state, municipality, or governmental agency.

(20) "Reasonably available control technology" (RACT) means the lowest emission limit that a particular source or source category is capable of meeting by the application of control technology that is reasonably available considering technological and economic feasibility. RACT is determined on a case-by-case basis for an individual source or source category taking into account the impact of the source upon air quality, the availability of additional controls, the emission reduction to be achieved by additional controls, the impact of additional controls on air quality, and the capital and operating costs of the additional controls. RACT requirements for a source or source category shall be adopted only after notice and opportunity for comment are afforded.

(21) "Silvicultural burning" means burning of wood fiber on forest land consistent with the provisions of RCW 70.94.660.

(22) "Source" means all of the emissions units including quantifiable fugitive emissions, that are located on one or more contiguous or adjacent properties, and are under the control of the same person, or persons under common control, whose activities are ancillary to the production of a single product or functionally related group of products.
(23) "Stationary source" means any building, structure, facility, or installation that emits or may emit any air contaminant.

(24) "Trigger level" means the ambient level of fine particulates, measured in micrograms per cubic meter, that must be detected prior to initiating a first or second stage of impaired air quality under RCW 70.94.473. [2005 c 197 § 2; 1993 c 252 § 2; 1991 c 199 § 103; 1987 c 109 § 33; 1979 c 141 § 119; 1969 ex.s. c 168 § 2; 1967 ex.s. c 61 § 1; 1967 c 238 § 2; 1957 c 232 § 3.]

*Reviser's note: RCW 70.94.660 was reclassified as RCW 70.94.6534 pursuant to 2009 c 118 § 802.

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.033 Environmental excellence program agreements—Effect on chapter. Notwithstanding any other provision of law, any legal requirement under this chapter, including any standard, limitation, rule, or order is superseded and replaced in accordance with the terms and provisions of an environmental excellence program agreement, entered into under chapter 43.21K RCW. [1997 c 381 § 21.]

Finding—1997 c 381: See RCW 43.21K.005.

70.94.035 Technical assistance program for regulated community. The department shall establish a technical assistance unit within its air quality program, consistent with the federal clean air act, to provide the regulated community, especially small businesses with:

(1) Information on air pollution laws, rules, compliance methods, and technologies;

(2) Information on air pollution prevention methods and technologies, and prevention of accidental releases;

(3) Assistance in obtaining permits and developing emission reduction plans;

(4) Information on the health and environmental effects of air pollution.

No representatives of the department designated as part of the technical assistance unit created in this section may have any enforcement authority. Staff of the technical assistance unit who provide on-site consultation at an industrial or commercial facility and who observe violations of air quality rules shall immediately inform the owner or operator of the facility of such violations. On-site consultation visits shall not be regarded as an inspection or investigation and no notices or citations may be issued or civil penalties assessed during such a visit. However, violations shall be reported to the appropriate enforcement agency and the facility owner or operator shall be notified that the violations will be reported. No enforcement action shall be taken by the enforcement agency for violations reported by technical assistance unit staff unless and until the facility owner or operator has been provided reasonable time to correct the violation. Violations that place any person in imminent danger of death or substantial bodily harm or cause physical damage to the property of another in an amount exceeding one thousand dollars may result in immediate enforcement action by the appropriate enforcement agency. [1991 c 199 § 308.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.037 Transportation activities—"Conformity" determination requirements. In areas subject to a state implementation plan, no state agency, metropolitan planning organization, or local government shall approve or fund a transportation plan, program, or project within or that affects a nonattainment area unless a determination has been made that the plan, program, or project conforms with the state implementation plan for air quality as required by the federal clean air act.

Conformity determination shall be made by the state or local government or metropolitan planning organization administering or developing the plan, program, or project.

No later than eighteen months after May 15, 1991, the director of the department of ecology and the secretary of transportation, in consultation with other state, regional, and local agencies as appropriate, shall adopt by rule criteria and guidance for demonstrating and assuring conformity of plans, programs, and projects that are wholly or partially federally funded.

A project with a scope that is limited to preservation or maintenance, or both, shall be exempted from a conformity determination requirement. [1991 c 199 § 219.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.040 Causing or permitting air pollution unlawful—Exception. Except where specified in a variance permit, as provided in RCW 70.94.181, it shall be unlawful for any person to cause air pollution or permit it to be caused in violation of this chapter, or of any ordinance, resolution, rule or regulation validly promulgated hereunder. [1980 c 175 § 2; 1967 c 238 § 3; 1957 c 232 § 4.]

70.94.041 Exception—Burning wood at historic structure. Except as otherwise provided in this section, any building or structure listed on the national register of historic sites, structures, or buildings established pursuant to 80 Stat. 915, 16 U.S.C. Sec. 470a, or on the state register established pursuant to RCW 27.34.220, shall be permitted to burn wood as it would have when it was a functioning facility as an authorized exception to the provisions of this chapter. Such burning of wood shall not be exempt from the provisions of RCW 70.94.710 through 70.94.730. [1991 c 199 § 506; 1983 c 3 § 175; 1977 ex.s. c 38 § 1.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.053 Air pollution control authorities created—Activated authorities, composition, meetings—Delineation of air pollution regions, considerations. (1) In each county of the state there is hereby created an air pollution control authority, which shall bear the name of the county within which it is located. The boundaries of each authority shall be coextensive with the boundaries of the county within which it is located. An authority shall include all incorporated and unincorporated areas of the county within which it is located.

(2) Except as provided in RCW 70.94.262, all authorities which are presently activated authorities shall carry out the duties and exercise the powers provided in this chapter. Those activated authorities which encompass contiguous counties are declared to be and directed to function as a multicounty authority.

[Title 70 RCW—page 198]
(3) All other air pollution control authorities are hereby designated as inactive authorities.

(4) The boards of those authorities designated as activated authorities by this chapter shall be comprised of such individuals as is provided in RCW 70.94.100. [1995 c 135 § 5. Prior: 1991 c 363 § 143; 1991 c 199 § 701; 1991 c 125 § 1; prior: 1987 c 505 § 60; 1987 c 109 § 34; 1979 c 141 § 120; 1967 c 238 § 4.]

Intent—1995 c 135: See note following RCW 29A.08.760.
Purpose—Captions not law—1991 c 363: See notes following RCW 2.32.180.
Finding—1991 c 199: See note following RCW 70.94.011.

70.94.055 Air pollution control authority may be activated by counties, when. The legislative authority of any county may activate an air pollution control authority following a public hearing on its own motion, or upon a filing of a petition signed by one hundred property owners within the county. If the county legislative authority determines as a result of the public hearing that:

(1) Air pollution exists or is likely to occur; and
(2) The city or town ordinances, or county resolutions, or their enforcement, are inadequate to prevent or control air pollution,

it may by resolution activate an air pollution control authority or combine with a contiguous county or counties to form a multicounty air pollution control authority. [1995 c 135 § 6. Prior: 1991 c 363 § 144; 1991 c 199 § 702; 1967 c 238 § 5.]

Intent—1995 c 135: See note following RCW 29A.08.760.
Purpose—Captions not law—1991 c 363: See notes following RCW 2.32.180.
Finding—1991 c 199: See note following RCW 70.94.011.

70.94.057 Multicounty authority may be formed by contiguous counties—Name. The boards of county commissioners of two or more contiguous counties may, by joint resolution, combine to form a multicounty air pollution control authority. Boundaries of such authority shall be coextensive with the boundaries of the counties forming the authority.

The name of the multicounty authority shall bear the names of the counties making up such multicounty authority or a name adopted by the board of such multicounty authority. [1967 c 238 § 6.]

70.94.068 Merger of active and inactive authorities to form multicounty or regional authority—Procedure. The respective boards of county commissioners of two or more contiguous counties may merge any combination of their several inactive or activated authorities to form one activated multicounty authority. Upon a determination that the purposes of this chapter will be served by such merger, each board of county commissioners may adopt the resolution providing for such merger. Such resolution shall become effective only when a similar resolution is adopted by the other contiguous county or counties comprising the proposed authority. The boundaries of such authority shall be coextensive with the boundaries of the counties within which it is located. [1969 ex.s. c 168 § 3; 1967 c 238 § 11.]

70.94.069 Merger of active and inactive authorities to form multicounty or regional authority—Reorganization of board of directors—Rules and regulations. Whenever there occurs a merger of an inactive authority with an activated authority or authorities, or of two activated authorities to form a multicounty authority, the board of directors shall be reorganized as provided in RCW 70.94.100, 70.94.110, and 70.94.120.

In the case of the merger of two or more activated authorities the rules and regulations of each authority shall continue in effect and shall be enforced within the jurisdiction of each until such time as the board of directors adopts rules and regulations applicable to the newly formed multicounty authority.

In the case of the merger of an inactive authority with an activated authority or authorities, upon approval of such merger by the board or boards of county commissioners of the county or counties comprising the existing activated authority or authorities, the rules and regulations of the activated authority or authorities shall remain in effect until superseded by the rules and regulations of the multicounty authority as provided in RCW 70.94.230. [1969 ex.s. c 168 § 4; 1967 c 238 § 12.]

70.94.070 Resolutions activating authorities—Contents—Filings—Effective date of operation. The resolution or resolutions activating an air pollution authority shall specify the name of the authority and participating political bodies; the authority’s principal place of business; the territory included within it; and the effective date upon which such authority shall begin to transact business and exercise its powers. In addition, such resolution or resolutions may specify the amount of money to be contributed annually by each political subdivision, or a method of dividing expenses of the air pollution control program. Upon the adoption of a resolution or resolutions calling for the activation of an authority or the merger of an inactive or activated authority or several activated authorities to form a multicounty authority, the governing body of each shall cause a certified copy of each such ordinance or resolution to be filed in the office of the secretary of state of the state of Washington. From and after the date of filing with the secretary of state a certified copy of each such resolution, or resolutions, or the date specified in such resolution or resolutions, whichever is later, the authority may begin to function and may exercise its powers.

Any authority activated by the provisions of this chapter shall cause a certified copy of all information required by this section to be filed in the office of the secretary of state of the state of Washington. [1969 ex.s. c 168 § 5; 1967 c 238 § 13; 1957 c 232 § 7.]

70.94.081 Powers and duties of authorities. An activated authority shall be deemed a municipal corporation; have right to perpetual succession; adopt and use a seal; may sue and be sued in the name of the authority in all courts and in all proceedings; and, may receive, account for, and disburse funds, employ personnel, and acquire or dispose of any interest in real or personal property within or without the authority in the furtherance of its purposes. [1969 ex.s. c 168 § 6; 1967 c 238 § 14.]
70.94.085 Cost-reimbursement agreements. (1) An authority may enter into a written cost-reimbursement agreement with a permit applicant or project proponent to recover from the applicant or proponent the reasonable costs incurred by the authority in carrying out the requirements of this chapter, as well as the requirements of other relevant laws, as they relate to permit coordination, environmental review, application review, technical studies, and permit processing.

(2) The cost-reimbursement agreement shall identify the tasks and costs for work to be conducted under the agreement. The agreement must include a schedule that states:

(a) The estimated number of weeks for initial review of the permit application;
(b) The estimated number of revision cycles;
(c) The estimated number of weeks for review of subsequent revision submittals;
(d) The estimated number of billable hours of employee time;
(e) The rate per hour; and
(f) A date for revision of the agreement if necessary.

(3) The written cost-reimbursement agreement shall be negotiated with the permit applicant or project proponent. Under the provisions of a cost-reimbursement agreement, funds from the applicant or proponent shall be used by the air pollution control authority to contract with an independent consultant to carry out the work covered by the cost-reimbursement agreement. The air pollution control authority may also use funds provided under a cost-reimbursement agreement to hire temporary employees, to assign current staff to review the work of the consultant, to provide necessary technical assistance when an independent consultant with comparable technical skills is unavailable, and to recover reasonable and necessary direct and indirect costs that arise from processing the permit. The air pollution control authority shall, in developing the agreement, ensure that final decisions that involve policy matters are made by the agency and not by the consultant. The air pollution control authority shall make an estimate of the number of permanent staff hours to process the permits, and shall contract with consultants or hire temporary employees to replace the time and functions committed by these permanent staff to the project. The billing process shall provide for accurate time and cost accounting and may include a billing cycle that provides for progress payments.

(4) The cost-reimbursement agreement must not negatively impact the processing of other permit applications. In order to maintain permit processing capacity, the agency may hire outside consultants, temporary employees, or make internal administrative changes. Consultants or temporary employees hired as part of a cost-reimbursement agreement or to maintain agency capacity are hired as agents of the state not of the permit applicant. The provisions of chapter 42.52 RCW apply to any cost-reimbursement agreement, and to any person hired as a result of a cost-reimbursement agreement. Members of the air pollution control authority’s board of directors shall be considered as state officers, and employees of the air pollution control authority shall be considered as state employees, for the sole purpose of applying the restrictions of chapter 42.52 RCW to this section. [2009 c 97 § 12; 2007 c 94 § 14; 2003 c 70 § 5; 2000 c 251 § 6.]

70.94.091 Excess tax levy authorized—Election, procedure, expense. An activated authority shall have the power to levy additional taxes in excess of the constitutional and/or statutory tax limitations for any of the authorized purposes of such activated authority, not in excess of twenty-five cents per thousand dollars of assessed value a year when authorized so to do by the electors of such authority by a three-fifths majority of those voting on the proposition at a special election, to be held in the year in which the levy is made, in the manner set forth in Article VII, section 2 (a) of the Constitution of this state, as amended by Amendment 59 and as thereafter amended. Nothing herein shall be construed to prevent holding the foregoing special election at the same time as that fixed for a general election. The expense of all special elections held pursuant to this section shall be paid by the authority. [1973 1st ex.s. c 195 § 84; 1969 ex.s. c 168 § 7; 1967 c 238 § 15.]

70.94.092 Air pollution control authority—Fiscal year—Adoption of budget—Contents. Notwithstanding the provisions of RCW 1.16.030, the budget year of each activated authority shall be the fiscal year beginning July 1st and ending on the following June 30th. On or before the fourth Monday in June of each year, each activated authority shall adopt a budget for the following fiscal year. The activated authority budget shall contain adequate funding and provide for staff sufficient to carry out the provisions of all applicable ordinances, resolutions, and local regulations related to the reduction, prevention, and control of air pollution. The legislature acknowledges the need for the state to provide reasonable funding to local authorities to carry out the requirements of this chapter. The budget shall contain an estimate of all revenues to be collected during the following budget year, including any surplus funds remaining unexpended from the preceding year. The remaining funds required to meet budget expenditures, if any, shall be designated as "supplemental income" and shall be obtained from the component cities, towns, and counties in the manner provided in this chapter. The affirmative vote of three-fourths of all members of the board shall be required to authorize emergency expenditures. [1991 c 199 § 703; 1975 1st ex.s. c 106 § 1; 1969 ex.s. c 168 § 8; 1967 c 238 § 16.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.093 Methods for determining proportion of supplemental income to be paid by component cities, towns and counties—Payment. (1) Each component city or town shall pay such proportion of the supplemental income to the authority as determined by either one of the following prescribed methods or by a combination of fifty percent of one and fifty percent of the other as provided in subsection (1)(c) of this section:

(a) Each component city or town shall pay such proportion of the supplemental income as the assessed valuation of property within its limits bears to the total assessed valuation of taxable property within the activated authority.
(b) Each component city or town shall pay such proportion of the supplemental income as the total population of such city or town bears to the total population of the activated authority. The population of the city or town shall be determined by the most recent census, estimate or survey by the federal bureau of census or any state board or commission authorized to make such a census, estimate or survey.

(c) A combination of the methods prescribed in (a) and (b) of this subsection: PROVIDED, That such combination shall be of fifty percent of the method prescribed in (a) of this subsection and fifty percent of the method prescribed in (b) of this subsection.

(2) Each component county shall pay such proportion of such supplemental income to the authority as determined by either one of the following prescribed methods or by a combination of fifty percent of one and fifty percent of the other as prescribed in subsection (2)(c) of this section:

(a) Each component county shall pay such proportion of such supplemental income as the assessed valuation of the property within the unincorporated area of such county lying within the activated authority bears to the total assessed valuation of taxable property within the activated authority.

(b) Each component county shall pay such proportion of the supplemental income as the total population of the unincorporated area of such county bears to the total population of the activated authority. The population of the county shall be determined by the most recent census, estimate or survey by the federal bureau of census or any state board or commission authorized to make such a census, estimate or survey.

(c) A combination of the methods prescribed in (a) and (b) of this subsection: PROVIDED, That such combination shall be of fifty percent of the method prescribed in (a) of this subsection and fifty percent of the method prescribed in (b) of this subsection.

(3) In making such determination of the assessed valuation of property in the component cities, towns and counties, the board shall use the last available assessed valuations. The board shall certify to each component city, town and county, prior to the fourth Monday in June of each year, the share of the supplemental income to be paid by such component city, town or county to provide funds to carry out the purposes of the activated authority.

70.94.095 Assessed valuation of taxable property, certification by county assessors. It shall be the duty of the assessor of each component county to certify annually to the board the aggregate assessed valuation of all taxable property in all incorporated and unincorporated areas situated in any activated authority as the same appears from the last assessment roll of his or her county.

70.94.096 Authorization to borrow money. An activated authority shall have the power when authorized by a majority of all members of the board to borrow money from any component city, town or county and such cities, towns and counties are hereby authorized to make such loans or advances on such terms as may be mutually agreed upon by the board and the legislative bodies of any such component city, town or county to provide funds to carry out the purposes of the activated authority.

70.94.097 Special air pollution studies—Contracts for conduct of. In addition to paying its share of the supplemental income of the activated authority, each component city, town, or county shall have the power to contract with such authority and expend funds for the conduct of special studies, investigations, plans, research, advice, or consultation relating to air pollution and its causes, effects, prevention, abatement, and control as such may affect any area within the boundaries of the component city, town, or county, and which could not be performed by the authority with funds otherwise available to it. Any component city, town or county which contracts for the conduct of such special air pollution studies, investigations, plans, research, advice or consultation with any entity other than the activated authority shall require that such an entity consult with the activated authority.

70.94.100 Air pollution control authority—Board of directors—Composition—Term. (1) The governing body of each authority shall be known as the board of directors.

(a) In the case of an authority comprised of one county, with a population of less than four hundred thousand people, the board shall be comprised of two appointees to be designated by the city selection committee, at least one of whom shall represent the city having the most population in the county, and two representatives to be designated by the board of county commissioners.

(b) In the case of an authority comprised of one county, with a population of equal to or greater than four hundred thousand people, the board shall be comprised of three appointees of cities, one each from the two cities with the most population in the county and one appointee of the city...
selection committee representing the other cities, and one representative to be designated by the board of county commissioners.

(c) In the case of an authority comprised of two, three, four, or five counties, the board shall be comprised of one appointee from each county, who shall represent the city having the most population in such county, to be designated by the mayor and city council of such city, and one representative from each county to be designated by the board of county commissioners of each county making up the authority.

(d) In the case of an authority comprised of six or more counties, the board shall be comprised of one representative from each county to be designated by the board of county commissioners of each county making up the authority, and three appointees, one each from the three largest cities within the local authority’s jurisdiction to be appointed by the mayor and city council of such city.

(3) If the board of an authority otherwise would consist of an even number, the members selected as above provided shall agree upon and elect an additional member who shall be:

(a) In the case of an authority comprised of one county with a population of equal to or greater than four hundred thousand people, a citizen residing in the county who demonstrates significant professional experience in the field of public health, air quality protection, or meteorology; or

(b) In the case of an authority comprised of one county, with a population less than four hundred thousand people, or of more than one county, either a member of the governing body of one of the towns, cities or counties comprising the authority, or a private citizen residing in the authority.

(4) The terms of office of board members shall be four years.

(5) If an appointee is unable to complete his or her term as a board member, the vacancy for that office must be filled by the same method as the original appointment, except for the appointment by the city selection committee, which must use the method in RCW 70.94.120(1) for replacements. The person appointed as a replacement will serve the remainder of the term for that office.

(6) Wherever a member of a board has a potential conflict of interest in an action before the board, the member shall declare to the board the nature of the potential conflict prior to participating in the action review. The board shall, if the potential conflict of interest, in the judgment of a majority of the board, may prevent the member from a fair and objective review of the case, remove the member from participation in the action. [2009 c 254 § 1; 2006 c 227 § 1; 1991 c 199 § 704; 1989 c 150 § 1; 1969 ex.s. c 168 § 13; 1967 c 238 § 21; 1957 c 232 § 10.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.110 City selection committees. There shall be a separate and distinct city selection committee for each county making up an authority. The membership of such committee shall consist of the mayor of each incorporated city and town within such county, except that the mayors of the cities, with the most population in a county, having already designated appointees to the board of an air pollution control authority comprised of a single county shall not be members of the committee. A majority of the members of each city selection committee shall constitute a quorum. [2006 c 227 § 2; 1967 c 238 § 22; 1963 c 27 § 1; 1957 c 232 § 11.]

70.94.120 City selection committees—Meetings, notice, recording officer—Alternative mail balloting—Notice. (1) The city selection committee of each county which is included within an authority shall meet within one month after the activation of such authority for the purpose of making its initial appointments to the board of such authority and thereafter whenever necessary for the purpose of making succeeding appointments. All meetings shall be held upon at least two weeks written notice given by the county auditor to each member of the city selection committee of each county and he or she shall give such notice upon request of any member of such committee. A similar notice shall be given to the general public by a publication of such notice in a newspaper of general circulation in such authority. The county auditor shall act as recording officer, maintain its records, and give appropriate notice of its proceedings and actions.

(2) As an alternative to meeting in accordance with subsection (1) of this section, the county auditor may administer the appointment process through the mail.

(a) At least four months prior to the expiration of the term of office, the county auditor must mail a request to each member of the city selection committee seeking nominations to the office. The members of the selection committee have until the last day of the fourth month to return the nomination to the auditor or the auditor’s designee.

(b) Within five business days of the close of the nomination period, the county auditor will mail ballots by certified mail to the members of the city selection committee, specifying the date by which to return the completed ballot which is the last day of the third month prior to the expiration of the term of office. Each mayor who chooses to participate in the balloting shall mark the choice for appointment, sign the ballot, and return the ballot to the county auditor. Each completed ballot shall be date-stamped upon receipt by the mayor or staff of the mayor of the city or town. The timely return of completed ballots by a majority of the members of each city selection committee constitutes a quorum and the common choice by a majority of the quorum constitutes a valid appointment.

(3) At least two weeks’ written notice must be given by the county auditor to each member of the city selection committee prior to the nomination process. A similar notice shall be given to the general public by publication in a newspaper of general circulation in the authority. A single notice is sufficient for both the nomination process and the balloting process. [2012 c 117 § 406; 2009 c 254 § 2; 1995 c 261 § 2; 1969 ex.s. c 168 § 14; 1967 c 238 § 23; 1957 c 232 § 12.]

70.94.130 Air pollution control authority—Board of directors—Powers, quorum, officers, compensation. The board shall exercise all powers of the authority except as otherwise provided. The board shall conduct its first meeting within thirty days after all of its members have been appointed or designated as provided in RCW 70.94.100. The board shall meet at least ten times per year. All meetings shall be publicly announced prior to their occurrence. All meetings shall be open to the public. A majority of the board shall constitute a quorum for the transaction of business and shall be
necessary for any action taken by the board. The board shall elect from its members a chair and such other officers as may be necessary. Any member of the board may designate a regular alternate to serve on the board in his or her place with the same authority as the member when he or she is unable to attend. In no event may a regular alternate serve as the permanent chair. Each member of the board, or his or her representative, shall receive from the authority compensation consistent with such authority's rates (but not to exceed one thousand dollars per year) for time spent in the performance of duties under this chapter, plus the actual and necessary expenses incurred by the member in such performance. The board may appoint a control officer, and any other personnel, and shall determine their salaries, and pay same, together with any other proper indebtedness, from authority funds. [1998 c 342 § 1; 1991 c 199 § 705; 1969 ex.s. c 168 § 15; 1967 c 238 § 24; 1957 c 232 § 13.]

Finding—1991 c 199: See note following RCW 70.94.011.

(10) Advise, consult, cooperate and contract with agencies and departments and the educational institutions of the state, other political subdivisions, industries, other states, interstate or interlocal agencies, and the United States government, and with interested persons or groups.

(11) Consult, upon request, with any person proposing to construct, install, or otherwise acquire an air contaminant source or device or system for the control thereof, concerning the efficacy of such device or system, or the air pollution problems which may be related to the source, device or system. Nothing in any such consultation shall be construed to relieve any person from compliance with this chapter, ordinances, resolutions, rules and regulations in force pursuant thereto, or any other provision of law.

(12) Accept, receive, disburse and administer grants or other funds or gifts from any source, including public and private agencies and the United States government for the purpose of carrying out any of the functions of this chapter. [1991 c 199 § 706; 1970 ex.s. c 62 § 56; 1969 ex.s. c 168 § 16; 1967 c 238 § 25.]

70.94.142 Subpoena powers—Witnesses, expenses and mileage—Rules and regulations. In connection with the subpoena powers given in RCW 70.94.141(2):

(1) In any hearing held under RCW 70.94.181 and 70.94.221, the board or the department, and their authorized agents:

(a) Shall issue a subpoena upon the request of any party and, to the extent required by rule or regulation, upon a statement or showing of general relevance and reasonable scope of the evidence sought;

(b) May issue a subpoena upon their own motion.

(2) The subpoena powers given in RCW 70.94.141(2) shall be statewide in effect.

(3) Witnesses appearing under the compulsion of a subpoena in a hearing before the board or the department shall be paid the same fees and mileage that are provided for witnesses in the courts of this state. Such fees and mileage, and the cost of duplicating records required to be produced by subpoena issued upon the motion of the board or department, shall be paid by the board or department. Such fees and mileage, and the cost of producing records required to be produced by subpoena issued upon the request of a party, shall be paid by that party.

(4) If an individual fails to obey the subpoena, or obeys the subpoena but refuses to testify when required concerning any matter under examination or investigation or the subject of the hearing, the board or department shall file its written report thereof and proof of service of its subpoena, in any court of competent jurisdiction in the county where the examination, hearing, or investigation is being conducted. Thereupon, the court shall forthwith cause the individual to be brought before it and, upon being satisfied that the subpoena
is within the jurisdiction of the board or department and otherwise in accordance with law, shall punish him or her as if the failure or refusal related to a subpoena from or testimony in that court.

(5) The department may make such rules and regulations as to the issuance of its own subpoenas as are not inconsistent with the provisions of this chapter. [2012 c 117 § 407; 1987 c 109 § 35; 1969 ex.s. c 168 § 17; 1967 c 238 § 26.]

70.94.143 Federal aid. Any authority exercising the powers and duties prescribed in this chapter may make application for, receive, administer, and expend any federal aid, under federal legislation from any agency of the federal government, for the prevention and control of air pollution or the development and administration of programs related to air pollution control and prevention, as permitted by RCW 70.94.141(12): PROVIDED. That any such application shall be submitted to and approved by the department. The department shall adopt rules and regulations establishing standards for such approval and shall approve any such application, if it is consistent with this chapter, and any other applicable requirements of law. [1987 c 109 § 36; 1969 ex.s. c 168 § 18; 1967 c 238 § 27.]

70.94.151 Classification of air contaminant sources—Registration—Fee—Registration program defined—Adoption of rules requiring persons to report emissions of greenhouse gases. (1) The board of any activated authority or the department, may classify air contaminant sources, by ordinance, resolution, rule or regulation, which in its judgment may cause or contribute to air pollution, according to levels and types of emissions and other characteristics which cause or contribute to air pollution, and may require registration or reporting or both for any such class or classes. Classifications made pursuant to this section may be for application to the area of jurisdiction of such authority, or the state as a whole or to any designated area within the jurisdiction, and shall be made with special reference to effects on health, economic and social factors, and physical effects on property.

(2) Except as provided in subsection (3) of this section, any person operating or responsible for the operation of air contaminant sources of any class for which the ordinances, resolutions, rules or regulations of the department or board of the authority, require registration or reporting shall register therewith and make reports containing information as may be required by such department or board concerning location, size and height of contaminant outlets, processes employed, nature of the contaminant emission and such other information as is relevant to air pollution and available or reasonably capable of being assembled. In the case of emissions of greenhouse gases as defined in RCW 70.235.010 the department shall adopt rules requiring reporting of those emissions. The department or board may require that such registration or reporting be accompanied by a fee, and may determine the amount of such fee for such class or classes: PROVIDED, That the amount of the fee shall only be to compensate for the costs of administering such registration or reporting program which shall be defined as initial registration and annual or other periodic reports from the source owner providing information directly related to air pollution registration, on-site inspections necessary to verify compliance with registration requirements, data storage and retrieval systems necessary for support of the registration program, emission inventory reports and emission reduction credits computed from information provided by sources pursuant to registration program requirements, staff review, including engineering or other reliable analysis for accuracy and currentness, of information provided by sources pursuant to registration program requirements, clerical and other office support provided in direct furtherance of the registration program, and administrative support provided in directly carrying out the registration program: PROVIDED FURTHER, That any such registration made with either the board or the department shall preclude a further registration and reporting with any other board or the department, except that emissions of greenhouse gases as defined in RCW 70.235.010 must be reported as required under subsection (5) of this section.

All registration program and reporting fees collected by the department shall be deposited in the air pollution control account. All registration program fees collected by the local air authorities shall be deposited in their respective treasuries.

(3) If a registration or report has been filed for a grain warehouse or grain elevator as required under this section, registration, reporting, or a registration program fee shall not, after January 1, 1997, again be required under this section for the warehouse or elevator unless the capacity of the warehouse or elevator as listed as part of the license issued for the facility has been increased since the date the registration or reporting was last made. If the capacity of the warehouse or elevator listed as part of the license is increased, any registration or reporting required for the warehouse or elevator under this section must be made by the date the warehouse or elevator receives grain from the first harvest season that occurs after the increase in its capacity is listed in the license.

This subsection does not apply to a grain warehouse or grain elevator if the warehouse or elevator handles more than ten million bushels of grain annually.

(4) For the purposes of subsection (3) of this section:

(a) A "grain warehouse" or "grain elevator" is an establishment classified in standard industrial classification (SIC) code 5153 for wholesale trade for which a license is required and includes, but is not limited to, such a licensed facility that also conducts cleaning operations for grain;

(b) A "license" is a license issued by the department of agriculture licensing a facility as a grain warehouse or grain elevator under chapter 22.09 RCW or a license issued by the federal government licensing a facility as a grain warehouse or grain elevator for purposes similar to those of licensure for the facility under chapter 22.09 RCW; and

(c) "Grain" means a grain or a pulse.

(5)(a) The department shall adopt rules requiring persons to report emissions of greenhouse gases as defined in RCW 70.235.010 where those emissions from a single facility, source, or site, or from fossil fuels sold in Washington by a single supplier meet or exceed ten thousand metric tons of carbon dioxide equivalent annually. The department may phase in the requirement to report greenhouse gas emissions
until the reporting threshold in this subsection is met, which must occur by January 1, 2012. In addition, the rules must require that:

(i) Emissions of greenhouse gases resulting from the combustion of fossil fuels be reported separately from emissions of greenhouse gases resulting from the combustion of biomass;

(ii) Reporting will start in 2010 for 2009 emissions. Each annual report must include emissions data for the preceding calendar year and must be submitted to the department by October 31st of the year in which the report is due. However, starting in 2011, a person who is required to report greenhouse gas emissions to the United States environmental protection agency under 40 C.F.R. Part 98, as adopted on September 22, 2009, must submit the report required under this section to the department concurrent with the submission to the United States environmental protection agency. Except as otherwise provided in this section, the data for emissions in Washington and any corrections thereto that are reported to the United States environmental protection agency must be the emissions data reported to the department; and

(iii) Emissions of carbon dioxide associated with the complete combustion or oxidation of liquid motor vehicle fuel, special fuel, or aircraft fuel that is sold in Washington where the annual emissions associated with that combustion or oxidation equal or exceed ten thousand metric tons be reported to the department. Each person who is required to file periodic tax reports of motor vehicle fuel sales under RCW 82.36.031 or special fuel sales under RCW 82.38.150, or each distributor of aircraft fuel required to file periodic tax reports under RCW 82.42.040 must report to the department the annual emissions of carbon dioxide from the complete combustion or oxidation of the fuels listed in those reports as sold in the state of Washington. The department shall not require suppliers to use additional data to calculate greenhouse gas emissions other than the data the suppliers report to the department of licensing. The rules may allow this information to be aggregated when reported to the department. The department and the department of licensing shall enter into an interagency agreement to ensure proprietary and confidential information is protected if the departments share reported information. Any proprietary or confidential information exempt from disclosure when reported to the department of licensing is exempt from disclosure when shared by the department of licensing with the department under this provision.

(b)(i) Except as otherwise provided in this subsection, the rules adopted by the department under (a) of this subsection must be consistent with the regulations adopted by the United States environmental protection agency in 40 C.F.R. Part 98 on September 22, 2009.

(ii) The department may by rule include additional gases to the definition of "greenhouse gas" in RCW 70.235.010 only if the gas has been designated as a greenhouse gas by the United States congress or by the United States environmental protection agency. Prior to including additional gases to the definition of "greenhouse gas" in RCW 70.235.010, the department shall notify the appropriate committees of the legislature. Decisions to amend the rule to include additional gases must be made prior to December 1st of any year and the amended rule may not take effect before the end of the regular legislative session in the next year.

(iii) The department may by rule exempt persons who are required to report greenhouse gas emissions to the United States environmental protection agency and who emit less than ten thousand metric tons carbon dioxide equivalent annually.

(iv) The department must establish a methodology for persons who are not required to report under this section to voluntarily report their greenhouse gas emissions.

(c) The department shall review and if necessary update its rules whenever the United States environmental protection agency adopts final amendments to 40 C.F.R. Part 98 to ensure consistency with federal reporting requirements for emissions of greenhouse gases. However, the department shall not amend its rules in a manner that conflicts with (a) of this subsection.

(d) The department shall share any reporting information reported to it with the local air authority in which the person reporting under the rules adopted by the department operates.

(e) The fee provisions in subsection (2) of this section apply to reporting of emissions of greenhouse gases. Persons required to report under (a) of this subsection who fail to report or pay the fee required in subsection (2) of this section are subject to enforcement penalties under this chapter. The department shall enforce the reporting rule requirements unless it approves a local air authority’s request to enforce the requirements for persons operating within the authority’s jurisdiction. However, neither the department nor a local air authority approved under this section are authorized to assess enforcement penalties on persons required to report under (a) of this subsection until six months after the department adopts its reporting rule in 2010.

(f) The energy facility site evaluation council shall, simultaneously with the department, adopt rules that impose greenhouse gas reporting requirements in site certifications on owners or operators of a facility permitted by the energy facility site evaluation council. The greenhouse gas reporting requirements imposed by the energy facility site evaluation council must be the same as the greenhouse gas reporting requirements imposed by the department. The department shall share any information reported to it from facilities permitted by the energy facility site evaluation council with the council, including notice of a facility that has failed to report as required. The energy facility site evaluation council shall contract with the department to monitor the reporting requirements adopted under this section.

(g) The inclusion or failure to include any person, source, classes of persons or sources, or types of emissions of greenhouse gases into the department’s rules for reporting under this section does not indicate whether such a person, source, or category is appropriate for inclusion in state, regional, or national greenhouse gas reduction programs or strategies. Furthermore, aircraft fuel purchased in the state may not be considered equivalent to aircraft fuel combusted in the state.

(h)(i) The definitions in RCW 70.235.010 apply throughout this subsection (5) unless the context clearly requires otherwise.

(ii) For the purpose of this subsection (5), the term "supplier" includes: (A) A motor vehicle fuel supplier or a motor
vehicle fuel importer, as those terms are defined in RCW 82.36.010; (B) a special fuel supplier or a special fuel importer, as those terms are defined in RCW 82.38.020; and (C) a distributor of aircraft fuel, as those terms are defined in RCW 82.42.010.

(iii) For the purpose of this subsection (5), the term "person" includes: (A) An owner or operator, as those terms are defined by the United States environmental protection agency in its mandatory greenhouse gas reporting regulation in 40 C.F.R. Part 98, as adopted on September 22, 2009; and (B) a supplier. 70.94.152 Notice may be required of construction of proposed new contaminant source—Submission of plans—Approval, disapproval—Emission control—"De minimis new sources" defined. (1) The department of ecology or board of any authority may require notice of the establishment of any proposed new sources except single-family and duplex dwellings or de minimis new sources as defined in rules adopted under subsection (11) of this section. The department of ecology or board may require such notice to be accompanied by a fee and determine the amount of such fee: PROVIDED, That the amount of the fee may not exceed the cost of reviewing the plans, specifications, and other information and administering such notice: PROVIDED FURTHER, That any such notice given or notice of construction application submitted to either the board or to the department of ecology shall preclude a further submittal of a duplicate application to any board or to the department of ecology.

(2) The department shall, after opportunity for public review and comment, adopt rules that establish a workload-driven process for determination and review of the fee covering the direct and indirect costs of processing a notice of construction application and a methodology for tracking revenues and expenditures. All new source fees collected by the delegated local air authorities from sources shall be deposited in the dedicated accounts of their respective treasuries. All new source fees collected by the department from sources shall be deposited in the air pollution control account.

(3) Within thirty days of receipt of a notice of construction application, the department of ecology or board may require, as a condition precedent to the establishment of the new source or sources covered thereby, the submission of plans, specifications, and such other information as it deems necessary to determine whether the proposed new source will be in accord with applicable rules and regulations in force under this chapter. If on the basis of plans, specifications, or other information required under this section the department of ecology or board determines that the proposed new source will not be in accord with this chapter or the applicable ordinances, resolutions, rules, and regulations adopted under this chapter, it shall issue an order denying permission to establish the new source. If on the basis of plans, specifications, or other information required under this section, the department of ecology or board determines that the proposed new source will be in accord with this chapter, and the applicable rules and regulations adopted under this chapter, it shall issue an order of approval for the establishment of the new source or sources, which order may provide such conditions as are reasonably necessary to assure the maintenance of compliance with this chapter and the applicable rules and regulations adopted under this chapter. Every order of approval under this chapter must be reviewed prior to issuance by a professional engineer or staff under the supervision of a professional engineer in the employ of the department of ecology or board.

(4) The determination required under subsection (3) of this section shall include a determination of whether the operation of the new air contaminant source at the location proposed will cause any ambient air quality standard to be exceeded.

(5) New source review of a modification shall be limited to the emission unit or units proposed to be modified and the air contaminants whose emissions would increase as a result of the modification.

(6) Nothing in this section shall be construed to authorize the department of ecology or board to require the use of emission control equipment or other equipment, machinery, or devices of any particular type, from any particular supplier, or produced by any particular manufacturer.

(7) Any features, machines, and devices constituting parts of or called for by plans, specifications, or other information submitted pursuant to subsection (1) or (3) of this section shall be maintained and operate in good working order.

(8) The absence of an ordinance, resolution, rule, or regulation, or the failure to issue an order pursuant to this section shall not relieve any person from his or her obligation to comply with applicable emission control requirements or with any other provision of law.

(9) Within thirty days of receipt of a notice of construction application the department of ecology or board shall either notify the applicant in writing that the application is complete or notify the applicant in writing of all additional information necessary to complete the application. Within sixty days of receipt of a complete application the department or board shall either (a) issue a final decision on the application, or (b) for those projects subject to public notice, initiate notice and comment on a proposed decision, followed as promptly as possible by a final decision. A person seeking approval to construct or modify a source that requires an operating permit may elect to integrate review of the operating permit application or amendment required by RCW 70.94.161 and the notice of construction application required by this section. A notice of construction application designated for integrated review shall be processed in accordance with operating permit program procedures and deadlines.

(10) A notice of construction approval required under subsection (3) of this section shall include a determination that the new source will achieve best available control technology. If more stringent controls are required under federal law, the notice of construction shall include a determination that the new source will achieve the more stringent federal requirements. Nothing in this subsection is intended to diminish other state authorities under this chapter.

(11) No person is required to submit a notice of construction or receive approval for a new source that is deemed by
the department of ecology or board to have de minimis impact on air quality. The department of ecology shall adopt and periodically update rules identifying categories of de minimis new sources. The department of ecology may identify de minimis new sources by category, size, or emission thresholds.

(12) For purposes of this section, "de minimis new sources" means new sources with trivial levels of emissions that do not pose a threat to human health or the environment.

Reviser's note: This section was amended by 1996 c 29 § 1 and by 1996 c 67 § 1, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

Finding—1991 c 199: See note following RCW 70.94.011.

Use of emission credits to be consistent with new source review program: RCW 70.94.850.

70.94.153 Existing stationary source—Replacement or substantial alteration of emission control technology.

Any person proposing to replace or substantially alter the emission control technology installed on an existing stationary source emission unit shall file a notice of construction application with the jurisdictional permitting authority. For projects not otherwise reviewable under RCW 70.94.152, the permitting authority may (1) require that the owner or operator employ reasonably available control technology for the affected emission unit and (2) prescribe reasonable operation and maintenance conditions for the control equipment. Within thirty days of receipt of an application for notice of construction under this section the permitting authority shall either notify the applicant in writing that the application is complete or notify the applicant in writing of all additional information necessary to complete the application. Within thirty days of receipt of a complete application the permitting authority shall either issue an order of approval or a proposed RACT determination for the proposed project. Construction shall not commence on a project subject to review under this section until the permitting authority issues a final order of approval. However, any notice of construction application filed under this section shall be deemed to be approved without conditions if the permitting authority takes no action within thirty days of receipt of a complete application for a notice of construction. [1991 c 199 § 303.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.154 RACT requirements. (1) RACT as defined in RCW 70.94.030 is required for existing sources except as otherwise provided in RCW 70.94.331(9).

(2) RACT for each source category containing three or more sources shall be determined by rule except as provided in subsection (3) of this section.

(3) Source-specific RACT determinations may be performed under any of the following circumstances:

(a) As authorized by RCW 70.94.153;

(b) When required by the federal clean air act;

(c) For sources in source categories containing fewer than three sources;

(d) When an air quality problem, for which the source is a contributor, justifies a source-specific RACT determination prior to development of a categorical RACT rule; or

(e) When a source-specific RACT determination is needed to address either specific air quality problems for which the source is a significant contributor or source-specific economic concerns.

(4) By January 1, 1994, ecology shall develop a list of sources and source categories requiring RACT review and a schedule for conducting that review. Ecology shall review the list and schedule within six months of receiving the initial operating permit applications and at least once every five years thereafter. In developing the list to determine the schedule of RACT review, ecology shall consider emission reductions achievable through the use of new available technologies and the impacts of those incremental reductions on air quality, the remaining useful life of previously installed control equipment, the impact of the source or source category on air quality, the number of years since the last BACT, RACT, or LAER determination for that source and other relevant factors. Prior to finalizing the list and schedule, ecology shall consult with local air authorities, the regulated community, environmental groups, and other interested individuals and organizations. The department and local authorities shall revise RACT requirements, as needed, based on the review conducted under this subsection.

(5) In determining RACT, ecology and local authorities shall utilize the factors set forth in RCW 70.94.030 and shall consider RACT determinations and guidance made by the federal environmental protection agency, other states and local authorities for similar sources, and other relevant factors. In establishing or revising RACT requirements, ecology and local authorities shall address, where practicable, all air contaminants deemed to be of concern for that source or source category.

(6) Emission standards and other requirements contained in rules or regulatory orders in effect at the time of operating permit issuance or renewal shall be considered RACT for purposes of permit issuance or renewal. RACT determinations under subsections (2) and (3) of this section shall be incorporated into operating permits as provided in RCW 70.94.161 and rules implementing that section.

(7) The department and local air authorities are authorized to assess and collect a fee to cover the costs of developing, establishing, or reviewing categorical or case-by-case RACT requirements. The fee shall apply to determinations of RACT requirements as defined under this section and RCW 70.94.331(9). The amount of the fee may not exceed the direct and indirect costs of establishing the requirement for the particular source or the pro rata portion of the direct and indirect costs of establishing the requirement for the relevant source category. The department shall, after opportunity for public review and comment, adopt rules that establish a workload-driven process for determination and review of the fee covering the direct and indirect costs of its RACT determinations and a methodology for tracking revenues and expenditures. All such RACT determination fees collected by the delegated local air authorities from sources shall be deposited in the dedicated accounts of their respective treasuries. All such RACT fees collected by the department from
sources shall be deposited in the air pollution control account. [1996 c 29 § 2; 1993 c 252 § 8.]

70.94.155 Control of emissions—Bubble concept—Schedules of compliance. (1) As used in subsection (3) of this section, the term "bubble" means an air pollution control system which permits aggregate measurements of allowable emissions, for a single category of pollutant, for emissions points from a specified emissions-generating facility or facilities. Individual point source emissions levels from such specified facility or facilities may be modified provided that the aggregate limit for the specified sources is not exceeded.

(2) Whenever any regulation relating to emission standards or other requirements for the control of emissions is adopted which provides for compliance with such standards or requirements no later than a specified time after the date of adoption of the regulation, the appropriate activated air pollution control authority or, if there be none, the department of ecology shall, by permit or regulatory order, issue to air contaminant sources subject to the standards or requirements, schedules of compliance setting forth timetables for the achievement of compliance as expeditiously as practicable, but in no case later than the time specified in the regulation. Interim dates in such schedules for the completion of steps of progress toward compliance shall be as enforceable as the final date for full compliance therein.

(3) Wherever requirements necessary for the attainment of air quality standards or, where such standards are not exceeded, for the maintenance of air quality can be achieved through the use of a control program involving the bubble concept, such program may be authorized by a regulatory order or orders or permit issued to the air contaminant source or sources involved. Such order or permit shall only be authorized after the control program involving the bubble concept is accepted by [the] United States environmental protection agency as part of an approved state implementation plan. Any such order or permit provision shall restrict total emissions within the bubble to no more than would otherwise be allowed in the aggregate for all emitting processes covered. The orders or permits provided for by this subsection shall be issued by the department or the authority with jurisdiction. If the bubble involves interjurisdictional approval, concurrence in the total program must be secured from each regulatory entity concerned. [1991 c 199 § 305; 1981 c 224 § 1; 1973 1st ex.s. c 193 § 3.] Finding—1991 c 199: See note following RCW 70.94.011.

Use of emission credits to be consistent with bubble program: RCW 70.94.850.

70.94.157 Preemption of uniform building and fire codes. The department and local air pollution control authorities shall preempt the application of chapter 9 of the uniform building code and article 80 of the uniform fire code by other state agencies and local governments for the purposes of controlling outdoor air pollution from industrial and commercial sources, except where authorized by chapter 199, Laws of 1991. Actions by other state agencies and local governments under article 80 of the uniform fire code to take immediate action in response to an emission that presents a physical hazard or imminent health hazard are not preempted. [1991 c 199 § 315.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.161 Operating permits for air contaminant sources—Generally—Fees, report to legislature. The department of ecology, or board of an authority, shall require renewable permits for the operation of air contaminant sources subject to the following conditions and limitations:

(1) Permits shall be issued for a term of five years. A permit may be modified or amended during its term at the request of the permittee, or for any reason allowed by the federal clean air act. The rules adopted pursuant to subsection (2) of this section shall include rules for permit amendments and modifications. The terms and conditions of a permit shall remain in effect after the permit itself expires if the permittee submits a timely and complete application for permit renewal.

(2)(a) Rules establishing the elements for a statewide operating permit program and the process for permit application and renewal consistent with federal requirements shall be established by the department by January 1, 1993. The rules shall provide that every proposed permit must be reviewed prior to issuance by a professional engineer or staff under the direct supervision of a professional engineer in the employ of the permitting authority. The permit program established by these rules shall be administered by the department and delegated local air authorities. Rules developed under this subsection shall not preclude a delegated local air authority from including in a permit its own more stringent emission standards and operating restrictions.

(b) The board of any local air pollution control authority may apply to the department of ecology for a delegation order authorizing the local authority to administer the operating permit program for sources under that authority’s jurisdiction. The department shall, by order, approve such delegation, if the department finds that the local authority has the technical and financial resources, to discharge the responsibilities of a permitting authority under the federal clean air act. A delegation request shall include adequate information about the local authority’s resources to enable the department to make the findings required by this subsection. However, any delegation order issued under this subsection shall take effect ninety days after the environmental protection agency authorizes the local authority to issue operating permits under the federal clean air act.

(c) Except for the authority granted the energy facility site evaluation council to issue permits for the new construction, reconstruction, or enlargement or operation of new energy facilities under chapter 80.50 RCW, the department may exercise the authority, as delegated by the environmental protection agency, to administer Title IV of the federal clean air act as amended and to delegate such administration to local authorities as applicable pursuant to (b) of this subsection.

(3) In establishing technical standards, defined in RCW 70.94.030, the permitting authority shall consider and, if found to be appropriate, give credit for waste reduction within the process.

(4) Operating permits shall apply to all sources (a) where required by the federal clean air act, and (b) for any source that may cause or contribute to air pollution in such quantity as to create a threat to the public health or welfare. Subsec-
tion (b) of this subsection is not intended to apply to small businesses except when both of the following limitations are satisfied: (i) The source is in an area exceeding or threatening to exceed federal or state air quality standards; and (ii) the department provides a reasonable justification that requiring a source to have a permit is necessary to meet a federal or state air quality standard, or to prevent exceeding a standard in an area threatening to exceed the standard. For purposes of this subsection "areas threatening to exceed air quality standards" shall mean areas projected by the department to exceed such standards within five years. Prior to identifying threatened areas the department shall hold a public hearing or hearings within the proposed areas.

(5) Sources operated by government agencies are not exempt under this section.

(6) Within one hundred eighty days after the United States environmental protection agency approves the state operating permit program, a person required to have a permit shall submit to the permitting authority a compliance plan and permit application, signed by a responsible official, certifying the accuracy of the information submitted. Until permits are issued, existing sources shall be allowed to operate under presently applicable standards and conditions provided that such sources submit complete and timely permit applications.

(7) All draft permits shall be subject to public notice and comment. The rules adopted pursuant to subsection (2) of this section shall specify procedures for public notice and comment. Such procedures shall provide the permitting agency with an opportunity to respond to comments received from interested parties prior to the time that the proposed permit is submitted to the environmental protection agency for review pursuant to section 505(a) of the federal clean air act. In the event that the environmental protection agency objects to a proposed permit pursuant to section 505(b) of the federal clean air act, the permitting authority shall not issue the permit, unless the permittee consents to the changes required by the environmental protection agency.

(8) The procedures contained in chapter 43.21B RCW shall apply to permit appeals. The pollution control hearings board may stay the effectiveness of any permit issued under this section during the pendency of an appeal filed by the permittee, if the permittee demonstrates that compliance with the permit during the pendency of the appeal would require significant expenditures that would not be necessary in the event that the permittee prevailed on the merits of the appeal.

(9) After the effective date of any permit program promulgated under this section, it shall be unlawful for any person to: (a) Operate a permitted source in violation of any requirement of a permit issued under this section; or (b) fail to submit a permit application at the time required by rules adopted under subsection (2) of this section.

(10) Each air operating permit shall state the origin of and specific legal authority for each requirement included therein. Every requirement in an operating permit shall be based upon the most stringent of the following requirements:

(a) The federal clean air act and rules implementing that act, including provision of the approved state implementation plan;

(b) This chapter and rules adopted thereunder;

(c) In permits issued by a local air pollution control authority, the requirements of any order or regulation adopted by that authority;

(d) Chapter 70.98 RCW and rules adopted thereunder; and

(e) Chapter 80.50 RCW and rules adopted thereunder.

(11) Consistent with the provisions of the federal clean air act, the permitting authority may issue general permits covering categories of permitted sources, and temporary permits authorizing emissions from similar operations at multiple temporary locations.

(12) Permit program sources within the territorial jurisdiction of an authority delegated the operating permit program shall file their permit applications with that authority, except that permit applications for sources regulated on a statewide basis pursuant to RCW 70.94.395 shall be filed with the department. Permit program sources outside the territorial jurisdiction of a delegated authority shall file their applications with the department. Permit program sources subject to chapter 80.50 RCW shall, irrespective of their location, file their applications with the energy facility site evaluation council.

(13) When issuing operating permits to coal-fired electric generating plants, the permitting authority shall establish requirements consistent with Title IV of the federal clean air act.

(14)(a) The department and the local air authorities are authorized to assess and to collect, and each source emitting one hundred tons or more per year of a regulated pollutant shall pay an interim assessment to fund the development of the operating permit program during fiscal year 1994.

(b) The department shall conduct a workload analysis and prepare an operating permit program development budget for fiscal year 1994. The department shall allocate among all sources emitting one hundred tons or more per year of a regulated pollutant during calendar year 1992 the costs identified in its program development budget according to a three-tiered model, with each of the three tiers being equally weighted, based upon:

(i) The number of sources;

(ii) The complexity of sources; and

(iii) The size of sources, as measured by the quantity of each regulated pollutant emitted by the source.

(c) Each local authority and the department shall collect from sources under their respective jurisdictions the interim fee determined by the department and shall remit the fee to the department.

(d) Each local authority may, in addition, allocate its fiscal year 1994 operating permit program development costs among the sources under its jurisdiction emitting one hundred tons or more per year of a regulated pollutant during calendar year 1992 and may collect an interim fee from these sources. A fee assessed pursuant to this subsection (14)(d) shall be collected at the same time as the fee assessed pursuant to (c) of this subsection.

(e) The fees assessed to a source under this subsection shall be limited to the first seven thousand five hundred tons for each regulated pollutant per year.

(15)(a) The department shall determine the persons liable for the fee imposed by subsection (14) of this section, compute the fee, and provide by November 1, 1993, the iden-

70.94.162 Annual fees from operating permit program source to cover cost of program. (1) The department and delegated local air authorities are authorized to determine, assess, and collect, and each permit program source shall pay, annual fees sufficient to cover the direct and indirect costs of implementing a state operating permit program approved by the United States environmental protection agency under the federal clean air act. However, a source that receives its operating permit from the United States environmental protection agency shall not be considered a permit program source so long as the environmental protection agency continues to act as the permitting authority for that source. Each permitting authority shall develop by rule a fee schedule allocating among its permit program sources the costs of the operating permit program, and may, by rule, establish a payment schedule whereby periodic installments of the annual fee are due and payable more frequently. All operating permit program fees collected by the department shall be deposited in the air operating permit account. All operating permit program fees collected by the delegated local air authorities shall be deposited in their respective air operating permit accounts or other accounts dedicated exclusively to support of the operating permit program. The fees assessed under this subsection shall first be due not less than forty-five days after the United States environmental protection agency delegates to the department the authority to administer the operating permit program and then annually thereafter.

The department shall establish, by rule, procedures for administrative appeals to the department regarding the fee assessed pursuant to this subsection.

(2) The fee schedule developed by each permitting authority shall fully cover and not exceed both its permit administration costs and the permitting authority’s share of statewide program development and oversight costs.

(a) Permit administration costs are those incurred by each permitting authority, including the department, in administering and enforcing the operating permit program with respect to sources under its jurisdiction. Costs associated with the following activities are fee eligible as these activities relate to the operating permit program and to the sources permitted by a permitting authority, including, where applicable, sources subject to a general permit:

(i) Preapplication assistance and review of an application and proposed compliance plan for a permit, permit revision, or renewal;

(ii) Source inspections, testing, and other data-gathering activities necessary for the development of a permit, permit revision, or renewal;

(iii) Acting on an application for a permit, permit revision, or renewal, including the costs of developing an applicable requirement as part of the processing of a permit, permit revision, or renewal, preparing a draft permit and fact sheet, and preparing a final permit, but excluding the costs of developing BACT, LAER, BART, or RACT requirements for criteria and toxic air pollutants;

(iv) Notifying and soliciting, reviewing and responding to comment from the public and contiguous states and tribes, conducting public hearings regarding the issuance of a draft permit and other costs of providing information to the public regarding operating permits and the permit issuance process;

(v) Modeling necessary to establish permit limits or to determine compliance with permit limits;

(vi) Reviewing compliance certifications and emissions reports and conducting related compilation and reporting activities;

(vii) Conducting compliance inspections, complaint investigations, and other activities necessary to ensure that a source is complying with permit conditions;

(viii) Administrative enforcement activities and penalty assessment, excluding the costs of proceedings before the pollution control hearings board and all costs of judicial enforcement.
(ix) The share attributable to permitted sources of the development and maintenance of emissions inventories;

(x) The share attributable to permitted sources of ambient air quality monitoring and associated recording and reporting activities;

(xi) Training for permit administration and enforcement;

(xii) Fee determination, assessment, and collection, including the costs of necessary administrative dispute resolution and penalty collection;

(xiii) Required fiscal audits, periodic performance audits, and reporting activities;

(xiv) Tracking of time, revenues and expenditures, and accounting activities;

(xv) Administering the permit program including the costs of clerical support, supervision, and management;

(xvi) Provision of assistance to small businesses under the jurisdiction of the permitting authority as required under section 507 of the federal clean air act; and

(xvii) Other activities required by operating permit regulations issued by the United States environmental protection agency under the federal clean air act.

(b) Development and oversight costs are those incurred by the department in developing and administering the state operating permit program, and in overseeing the administration of the program by the delegated local permitting authorities. Costs associated with the following activities are fee eligible as these activities relate to the operating permit program:

(i) Review and determinations necessary for delegation of authority to administer and enforce a permit program to a local air authority under RCW 70.94.161(2) and 70.94.860;

(ii) Conducting fiscal audits and periodic performance audits of delegated local authorities, and other oversight functions required by the operating permit program;

(iii) Administrative enforcement actions taken by the department on behalf of a permitting authority, including those actions taken by the department under RCW 70.94.785, but excluding the costs of proceedings before the pollution control hearings board and all costs of judicial enforcement;

(iv) Determination and assessment with respect to each permitting authority of the fees covering its share of the costs of development and oversight;

(v) Training and assistance for permit program administration and oversight, including training and assistance regarding technical, administrative, and data management issues;

(vi) Development of generally applicable regulations or guidance regarding the permit program or its implementation or enforcement;

(vii) State codification of federal rules or standards for inclusion in operating permits;

(viii) Preparation of delegation package and other activities associated with submittal of the state permit program to the United States environmental protection agency for approval, including ongoing coordination activities;

(ix) General administration and coordination of the state permit program, related support activities, and other agency indirect costs, including necessary data management and quality assurance;

(x) Required fiscal audits and periodic performance audits of the department, and reporting activities;

(xi) Tracking of time, revenues and expenditures, and accounting activities;

(xii) Public education and outreach related to the operating permit program, including the maintenance of a permit register;

(xiii) The share attributable to permitted sources of compiling and maintaining emissions inventories;

(xiv) The share attributable to permitted sources of ambient air quality monitoring, related technical support, and associated recording activities;

(xv) The share attributable to permitted sources of modeling activities;

(xvi) Provision of assistance to small business as required under section 507 of the federal clean air act as it exists on July 25, 1993, or its later enactment as adopted by reference by the director by rule;

(xvii) Provision of services by the department of revenue and the office of the state attorney general and other state agencies in support of permit program administration;

(xviii) A one-time revision to the state implementation plan to make those administrative changes necessary to ensure coordination of the state implementation plan and the operating permit program; and

(xix) Other activities required by operating permit regulations issued by the United States environmental protection agency under the federal clean air act.

(3) The responsibility for operating permit fee determination, assessment, and collection is to be shared by the department and delegated local air authorities as follows:

(a) Each permitting authority, including the department, acting in its capacity as a permitting authority, shall develop a fee schedule and mechanism for collecting fees from the permit program sources under its jurisdiction; the fees collected by each authority shall be sufficient to cover its costs of permit administration and its share of the department’s costs of development and oversight. Each delegated local authority shall remit to the department its share of the department’s development and oversight costs.

(b) Only those local air authorities to whom the department has delegated the authority to administer the program pursuant to RCW 70.94.161(2) (b) and (c) and 70.94.860 shall have the authority to administer and collect operating permit fees. The department shall retain the authority to administer and collect such fees with respect to the sources within the jurisdiction of a local air authority until the effective date of program delegation to that air authority.

(c) The department shall allocate its development and oversight costs among all permitting authorities, including the department, in proportion to the number of permit program sources under the jurisdiction of each authority, except that extraordinary costs or other costs readily attributable to a specific permitting authority may be assessed that authority. For purposes of this subsection, all sources covered by a single general permit shall be treated as one source.

(4) The department and each delegated local air authority shall adopt by rule a general permit fee schedule for sources under their respective jurisdictions after such time as the department adopts provisions for general permit issuance. Within ninety days of the time that the department adopts a general permit fee schedule, the department shall report to the relevant standing committees of the legislature regarding the
expenditures and, for both the department and the delegated
schedule, a methodology for tracking program revenues and
development and review of its operating permit program fee
review and comment, adopt rules that establish a process for
able.
source shall be determined based on the annual emissions
source under RCW 70.94.152(1) and 70.94.154(7).
based costs readily attributable to a specific source to that
general permit fee schedule or schedules as follows:
(a) The department shall allocate its permit administra-
costs and its share of the development and oversight costs which the department does not plan to recover
under its general permit fee schedule or schedules as follows:
(i) The number of permit program sources under its jurisdic-
tion;
(ii) The complexity of permit program sources under its jurisdic-
tion, as measured by the quantity of each regulated pollut-
ated by the source.
(b) Each of the three tiers shall be equally weighted.
(c) The department may, in addition, allocate activities-
based costs readily attributable to a specific source to that
source under RCW 70.94.152(1) and 70.94.154(7).
The quantity of each regulated pollutant emitted by a
source shall be determined based on the annual emissions
during the most recent calendar year for which data is avail-
able.
(6) The department shall, after opportunity for public
review and comment, adopt rules that establish a process for
development and review of its operating permit program fee
schedule, a methodology for tracking program revenues and
expenditures and, for both the department and the delegated
local air authorities, a system of fiscal audits, reports, and
periodic performance audits.
(a) The fee schedule development and review process
shall include the following:
(i) The department shall conduct a biennial workload
analysis. The department shall provide the opportunity for
public review of and comment on the workload analysis. The
department shall review and update its workload analysis
during each biennial budget cycle, taking into account informa-
tion gathered by tracking previous revenues, time, and
expenditures and other information obtained through fiscal
audits and performance audits.
(ii) The department shall prepare a biennial budget based
upon the resource requirements identified in the workload
analysis for that biennium. In preparing the budget, the
department shall take into account the projected operating
permit account balance at the start of the biennium. The
department shall provide the opportunity for public review of
and comment on the proposed budget. The department shall
review and update its budget each biennium.
(iii) The department shall develop a fee schedule allocat-
ing the department’s permit administration costs and its share
of the development and oversight costs among the depart-
ment’s permit program sources using the methodology
described in subsection (5) of this section. The department
shall provide the opportunity for public review of and com-
ment on the allocation methodology and fee schedule. The
department shall provide procedures for administrative reso-
lution of disputes regarding the source data on which allocation
determinations are based; these procedures shall be
designed such that resolution occurs prior to the completion
of the allocation process. The department shall review and
update its fee schedule annually.
(b) The methodology for tracking revenues and expendi-
tures shall include the following:
(i) The department shall develop a system for tracking
revenues and expenditures that provides the maximum prac-
ticable information. At a minimum, revenues from fees col-
clected under the operating permit program shall be tracked on
a source-specific basis and time and expenditures required to
administer the program shall be tracked on the basis of source
categories and functional categories. Each general permit
will be treated as a separate source category for tracking and
accounting purposes.
(ii) The department shall use the information obtained
from tracking revenues, time, and expenditures to modify the
workload analysis required in subsection (6)(a) of this sec-
tion.
(iii) The information obtained from tracking revenues,
time, and expenditures shall not provide a basis for challenge
to the amount of an individual source’s fee.
(c) The system of fiscal audits, reports, and periodic per-
formance audits shall include the following:
(i) The department and the delegated local air authorities
shall prepare annual reports and shall submit the reports to,
respectively, the appropriate standing committees of the leg-
islature and the board of directors of the local air authority.
(ii) The department shall arrange for fiscal audits and
routine performance audits and for periodic intensive perfor-
ance audits of each permitting authority and of the depart-
ment.
(7) Each local air authority requesting delegation shall,
after opportunity for public review and comment, publish
regulations which establish a process for development and
review of its operating permit program fee schedule, and a
methodology for tracking its revenues and expenditures.
These regulations shall be submitted to the department for
review and approval as part of the local authority’s delega-
tion request.
(8) As used in this section and in RCW 70.94.161(14),
"regulated pollutant" shall have the same meaning as defined
in section 502(b) of the federal clean air act as it exists on
July 25, 1993, or its later enactment as adopted by reference
by the director by rule.
(9) Fee structures as authorized under this section shall
remain in effect until such time as the legislature authorizes
an alternative structure following receipt of the report
required by this subsection. [1998 c 245 § 129; 1993 c 252 §
6.]

70.94.163 Source categories not required to have a
permit—Recommendations. The department shall prepare
recommendations to reduce air emissions for source catego-
ries not generally required to have a permit under RCW
70.94.165 Gasoline recovery devices—Limitation on requiring. (1) A gasoline vapor recovery device that captures vapors during vehicle fueling may only be required at a service station, or any other gasoline dispensing facility supplying fuel to the general public, in any of the following circumstances:

(a) The facility sells in excess of six hundred thousand gallons of gasoline per year and is located in a county, any part of which is designated as nonattainment for ozone under the federal clean air act, 42 U.S.C. Sec. 7407; or

(b) The facility sells in excess of six hundred thousand gallons of gasoline per year and is located in a county where a maintenance plan has been adopted by a local air pollution control authority or the department of ecology that includes gasoline vapor recovery devices as a control strategy; or

(c) From March 30, 1996, until December 31, 1998, in any facility that sells in excess of one million two hundred thousand gallons of gasoline per year and is located in an ozone-contributing county. For purposes of this section, an ozone-contributing county means a county in which the emissions have contributed to the formation of ozone in any county where violations of federal ozone standards have been measured, and includes: Cowlitz, Island, Kitsap, Lewis, Skagit, Thurston, Wahkiakum, and Whatcom counties; or

(d) After December 31, 1998, in any facility that sells in excess of eight hundred forty thousand gallons of gasoline per year and is located in any county, no part of which is designated as nonattainment for ozone under the federal clean air act, 42 U.S.C. Sec. 7407, provided that the department of ecology determines by December 31, 1997, that the use of gasoline vapor control devices in the county is important to achieving or maintaining attainment status in any other county.

(2) This section does not preclude the department of ecology or any local air pollution authority from requiring a gasoline vapor recovery device that captures vapors during vehicle refueling as part of the regulation of sources as provided in RCW 70.94.152, 70.94.331, or 70.94.141 or where required under 42 U.S.C. Sec. 7412. [1996 c 294 § 1.]

(5) A variance or renewal shall not be a right of the applicant or holder thereof but shall be granted at the discretion of the department of ecology or board. However, any applicant adversely affected by the denial or the terms and conditions of the granting of an application for a variance or renewal of a variance by the department of ecology or board may obtain judicial review thereof under the provisions of chapter 34.05 RCW as now or hereafter amended.

(6) Nothing in this section and no variance or renewal granted pursuant hereto shall be construed to prevent or limit the application of the emergency provisions and procedures of RCW 70.94.710 through 70.94.730 to any person or his or her property.

(7) An application for a variance, or for the renewal thereof, submitted to the department of ecology or board pursuant to this section shall be approved or disapproved by the department or board within sixty-five days of receipt unless the applicant and the department of ecology or board agree to a continuance.

(8) Variances approved under this section shall not be included in orders or permits provided for in RCW 70.94.161 or 70.94.152 until such time as the variance has been accepted by the United States environmental protection agency as part of an approved state implementation plan. For the purpose of investigating conditions specific to the control, recovery or release of air contaminants into the atmosphere, a control officer, the department, or their duly authorized representatives, shall have the power to enter at reasonable times upon any private or public property, excepting nonmultiple unit private dwellings housing two families or less. No person shall refuse entry or access to any control officer, the department, or their duly authorized representatives, who requests entry for the purpose of inspection, and who presents appropriate credentials; nor shall any person obstruct, hamper or interfere with any such inspection. 70.94.205 Confidentiality of records and information. Whenever any records or other information, other than ambient air quality data or emission data, furnished to or obtained by the department of ecology or the board of any authority under this chapter, relate to processes or production unique to the owner or operator, or is likely to affect adversely the competitive position of such owner or operator if released to the public or to a competitor, and the owner or operator of such processes or production so certifies, such records or information shall be only for the confidential use of the department of ecology or board. Nothing herein shall be construed to prevent the use of records or information by the department of ecology or board in compiling or publishing analyses or summaries relating to the general condition of the outdoor atmosphere: PROVIDED, That such analyses or summaries do not reveal any information otherwise confidential under the provisions of this section: PROVIDED FURTHER, That emission data furnished to or obtained by the department of ecology or board shall be correlated with applicable emission limitations and other control measures and shall be available for public inspection during normal business hours at offices of the department of ecology or board. 70.94.211 Enforcement actions by air authority—Notice to violators. At least thirty days prior to the commencement of any formal enforcement action under RCW 70.94.430 or 70.94.431 a local air authority shall cause written notice to be served upon the alleged violator or violators. The notice shall specify the provision of this chapter or the rule or regulation alleged to be violated, and the facts alleged to constitute a violation thereof, and may include an order directing that necessary corrective action be taken within a reasonable time. In lieu of an order, the board or the control officer may require that the alleged violator or violators appear before the board for a hearing. Every notice of violation shall offer to the alleged violator an opportunity to meet with the local air authority prior to the commencement of enforcement action. 70.94.230 Rules of authority supersede local rules, regulations, etc.—Exceptions. The rules and regulations hereafter adopted by an authority under the provisions of this chapter shall supersede the existing rules, regulations, resolutions and ordinances of any of the component bodies included within said authority in all matters relating to the control and enforcement of air pollution as contemplated by this chapter: PROVIDED, HOWEVER, That existing rules, regulations, resolutions and ordinances shall remain in effect until such rules, regulations, resolutions and ordinances are superseded as provided in this section: PROVIDED FURTHER, That nothing herein shall be construed to supersede any local county, or city ordinance or resolution, or any provision of the statutory or common law pertaining to nuisance; nor to affect any aspect of employer-employee relationship relating to conditions in a place of work, including without limitation, statutes, rules or regulations governing industrial health and safety standards or performance standards incorporated in zoning ordinances or resolutions of the component
bodies where such standards relating to air pollution control or air quality containing requirements not less stringent than those of the authority. [1969 ex.s. c 168 § 28; 1967 c 238 § 38; 1957 c 232 § 23.]

70.94.231 Air pollution control authority—Dissolution of prior districts—Continuation of rules and regulations until superseded. Upon the date that an authority begins to exercise its powers and functions, all rules and regulations in force on such date shall remain in effect until superseded by the rules and regulations of the authority as provided in RCW 70.94.230. 70.94.240 Air pollution control advisory council. The board of any authority may appoint an air pollution control advisory council to advise and consult with such board, and the control officer in effectuating the purposes of this chapter. The council shall consist of at least five appointed members who are residents of the authority and who are preferably skilled and experienced in the field of air pollution control, chemistry, meteorology, public health, or a related field, at least one of whom shall serve as a representative of industry and one of whom shall serve as a representative of the environmental community. The chair of the board of any such authority shall serve as ex officio member of the council and be its chair. Each member of the council shall receive from the authority per diem and travel expenses in an amount not to exceed that provided for the state board in this chapter (but not to exceed one thousand dollars per year) for each full day spent in the performance of his or her duties under this chapter. [1991 c 199 § 709; 1969 ex.s. c 168 § 30; 1967 c 238 § 41; 1957 c 232 § 24.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.260 Dissolution of authority—Deactivation of authority. An air pollution control authority may be deactivated prior to the term provided in the original or subsequent agreement by the county or counties comprising such authority upon the adoption by the board, following a hearing held upon ten days notice, to said counties, of a resolution for dissolution or deactivation and upon the approval by the legislative authority of each county comprising the authority. In such event, the board shall proceed to wind up the affairs of the authority and pay all indebtedness thereof. Any surplus of funds shall be paid over to the counties comprising the authority in proportion to their last contribution. Upon the completion of the process of closing the affairs of the authority, the board shall by resolution entered in its minutes declare the authority deactivated and a certified copy of such resolution shall be filed with the secretary of state and the authority shall be deemed inactive. [1979 ex.s. c 30 § 12; 1969 ex.s. c 168 § 31; 1967 c 238 § 43; 1957 c 232 § 26.]

70.94.262 Withdrawal from multicounty authority. (1) Any county that is part of a multicounty authority, pursuant to RCW 70.94.053, may withdraw from the multicounty authority after January 1, 1992, if the county wishes to provide for air quality protection and regulation by an alternate air quality authority. A withdrawing county shall:

(a) Create its own single county authority;
(b) Join another existing multicounty authority with which its boundaries are contiguous;
(c) Join with one or more contiguous inactive authorities to operate as a new multicounty authority; or
(d) Become an inactive authority and subject to regulation by the department of ecology.

(2) In order to withdraw from an existing multicounty authority, a county shall make arrangements, by interlocal agreement, for division of assets and liabilities and the appropriate release of any and all interest in assets of the multicounty authority.

(3) In order to effectuate any of the alternate arrangements in subsection (1) of this section, the procedures of this chapter to create an air pollution control authority shall be met and the actions must be taken at least six months prior to the effective date of withdrawal. The rules of the original multicounty authority shall continue in force for the withdrawing county until such time as all conditions to create an air pollution control authority have been met.

(4) At the effective date of a county’s withdrawal, the remaining counties shall reorganize and reconstitute the legislative authority pursuant to this chapter. The air pollution control regulations of the existing multicounty authority shall remain in force and effect after the reorganization.

(5) If a county elects to withdraw from an existing multicounty authority, the air pollution control regulations shall remain in effect for the withdrawing county until suspended by the adoption of rules, regulations, or ordinances adopted under one of the alternatives of subsection (1) of this section. A county shall initiate proceedings to adopt such rules, regulations, or ordinances on or before the effective date of the county’s withdrawal. [1991 c 125 § 2.]

70.94.302 Certain generators fueled by biogas produced by an anaerobic digester—Extended compliance period for permit provisions related to the emissions limit for sulfur—Technical assistance. (1) A generator operating at an electric generating project with an installed generator capacity of at least seven hundred fifty kilowatts but not exceeding one thousand kilowatts, that is in operation on June 7, 2012, and began operating after 2008, and that is located on agricultural lands of long-term commercial significance pursuant to chapter 36.70A RCW, is granted an extended compliance period for permit provisions related to the emissions limit for sulfur established by the department or a local air authority until December 31, 2016, if it is fueled by biogas that is produced by an anaerobic digester that qualifies for the solid waste permitting exemption specified in RCW 70.95.330.

(2) A generator that meets the requirements in subsection (1) of this section may not be located in a federally designated nonattainment or maintenance area.

(3) Upon request, the department or a local air authority must provide technical assistance to a generator meeting the requirements in subsection (1) of this section to assist the generator in reducing its emissions in order to meet the requirements in this chapter.

(4) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.
(a) "Anaerobic digester" means a vessel that processes organic material into biogas and digestate using microorganisms in a decomposition process within a closed, oxygen-free container.

(b) "Generator" means an internal combustion engine that converts biogas into electricity, and includes any back-up combustion device to burn biogas when an engine is idled for maintenance. [2012 c 238 § 1.]

70.94.331 Powers and duties of department. (1) The department shall have all the powers as provided in RCW 70.94.141.

(2) The department, in addition to any other powers vested in it by law after consideration at a public hearing held in accordance with chapters 42.30 and 34.05 RCW shall:

(a) Adopt rules establishing air quality objectives and air quality standards;

(b) Adopt emission standards which shall constitute minimum emission standards throughout the state. An authority may enact more stringent emission standards, except for emission performance standards for new woodstoves and opacity levels for residential solid fuel burning devices which shall be statewide, but in no event may less stringent standards be enacted by an authority without the prior approval of the department after public hearing and due notice to interested parties;

(c) Adopt by rule air quality standards and emission standards for the control or prohibition of emissions to the outdoor atmosphere of radionuclides, dust, fumes, mist, smoke, other particulate matter, vapor, gas, odorous substances, or any combination thereof. Such requirements may be based upon a system of classification by types of emissions or types of sources of emissions, or combinations thereof, which it determines most feasible for the purposes of this chapter. However, an industry, or the air pollution control authority having jurisdiction, can choose, subject to the submittal of appropriate data that the industry has quantified, to have any limit on the opacity of emissions from a source whose emission standard is stated in terms of a weight of particulate per unit volume of air (e.g., grains per dry standard cubic foot) be based on the applicable particulate emission standard for that source, such that any violation of the opacity limit accurately indicates a violation of the applicable particulate emission standard. Any alternative opacity limit provided by this section that would result in increasing air contaminants emissions in any nonattainment area shall only be granted if equal or greater emission reductions are provided for by the same source obtaining the revised opacity limit. A reasonable fee may be assessed to the industry to which the alternate opacity standard would apply. The fee shall cover only those costs to the air pollution control authority which are directly related to the determination on the acceptability of the alternate opacity standard, including testing, oversight and review of data.

(3) The air quality standards and emission standards may be for the state as a whole or may vary from area to area or source to source, except that emission performance standards for new woodstoves and opacity levels for residential solid fuel burning devices shall be statewide, as may be appropriate to facilitate the accomplishment of the objectives of this chapter and to take necessary or desirable account of varying local conditions of population concentration, the existence of actual or reasonably foreseeable air pollution, topographic and meteorologic conditions and other pertinent variables.

(4) The department is directed to cooperate with the appropriate agencies of the United States or other states or any interstate agencies or international agencies with respect to the control of air pollution and air contamination, or for the formulation for the submission to the legislature of interstate air pollution control compacts or agreements.

(5) The department is directed to conduct or cause to be conducted a continuous surveillance program to monitor the quality of the ambient atmosphere as to concentrations and movements of air contaminants and conduct or cause to be conducted a program to determine the quantity of emissions to the atmosphere.

(6) The department shall enforce the air quality standards and emission standards throughout the state except where a local authority is enforcing the state regulations or its own regulations which are more stringent than those of the state.

(7) The department shall encourage local units of government to handle air pollution problems within their respective jurisdictions; and, on a cooperative basis provide technical and consultative assistance therefor.

(8) The department shall have the power to require the addition to or deletion of a county or counties from an existing authority in order to carry out the purposes of this chapter. No such addition or deletion shall be made without the concurrence of any existing authority involved. Such action shall only be taken after a public hearing held pursuant to the provisions of chapter 34.05 RCW.

(9) The department shall establish rules requiring sources or source categories to apply reasonable and available control methods. Such rules shall apply to those sources or source categories that individually or collectively contribute the majority of statewide air emissions of each regulated pollutant. The department shall review, and if necessary, update its rules every five years to ensure consistency with current reasonable and available control methods. The department shall have adopted rules required under this subsection for all sources by July 1, 1996.

For the purposes of this section, "reasonable and available control methods" shall include but not be limited to, changes in technology, processes, or other control strategies. [1991 c 199 § 710; 1988 c 106 § 1. Prior: 1987 c 405 § 13; 1987 c 109 § 39; 1985 c 372 § 4; 1969 ex.s. c 168 § 34; 1967 c 238 § 46.]

70.94.332 Enforcement actions by department—Notice to violators. At least thirty days prior to the commencement of any formal enforcement action under RCW 70.94.430 and 70.94.431, the department of ecology shall cause written notice to be served upon the alleged violator or violators. The notice shall specify the provision of this chapter or the rule or regulation alleged to be violated, and the facts alleged to constitute a violation thereof, and may include an order that necessary corrective action be taken within a reasonable time. In lieu of an order, the department
may require that the alleged violator or violators appear before it for the purpose of providing the department information pertaining to the violation or the charges complained of. Every notice of violation shall offer to the alleged violator an opportunity to meet with the department prior to the commencement of enforcement action. [1991 c 199 § 711; 1987 c 109 § 18; 1967 c 238 § 47.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.335 Hazardous substance remedial actions—Procedural requirements not applicable. The procedural requirements of this chapter shall not apply to any person conducting a remedial action at a facility pursuant to a consent decree, order, or agreed order issued pursuant to chapter 70.105D RCW, or to the department of ecology when it conducts a remedial action under chapter 70.105D RCW. The department of ecology shall ensure compliance with the substantive requirements of this chapter through the consent decree, order, or agreed order issued pursuant to chapter 70.105D RCW, or during the department-conducted remedial action, through the procedures developed by the department pursuant to RCW 70.105D.090. [1994 c 257 § 15.]

70.94.350 Contracts, agreements for use of personnel by department—Reimbursement—Merit system regulations waived. The department is authorized to contract for or otherwise agree to the use of personnel of municipal corporations or other agencies or private persons; and the department is further authorized to reimburse such municipal corporations or agencies for the employment of such personnel. Merit system regulations or standards for the employment of personnel may be waived for personnel hired under contract as provided for in this section. The department shall provide, within available appropriations, for the scientific, technical, legal, administrative, and other necessary services and facilities for performing the functions under this chapter. [1987 c 109 § 40; 1979 c 141 § 122; 1967 c 238 § 45; 1961 c 188 § 6.]

70.94.370 Powers and rights of governmental units and persons are not limited by act or recommendations. No provision of this chapter or any recommendation of the state board or of any local or regional air pollution program is a limitation:

(1) On the power of any city, town or county to declare, prohibit and abate nuisances.

(2) On the power of the secretary of social and health services to provide for the protection of the public health under any authority presently vested in that office or which may be hereafter prescribed by law.

(3) On the power of a state agency in the enforcement, or administration of any provision of law which it is specifically permitted or required to enforce or administer.

(4) On the right of any person to maintain at any time any appropriate action for relief against any air pollution. [1979 c 141 § 123; 1967 c 238 § 59; 1961 c 188 § 8.]

70.94.380 Emission control requirements. (1) Every activated authority operating an air pollution control program shall have requirements for the control of emissions which are no less stringent than those adopted by the department of ecology for the geographic area in which such air pollution control program is located. Less stringent requirements than compelled by this section may be included in a local or regional air pollution control program only after approval by the department of ecology following demonstration to the satisfaction of the department of ecology that the proposed requirements are consistent with the purposes of this chapter: PROVIDED, That such approval shall be preceded by public hearing, of which notice has been given in accordance with chapter 42.30 RCW. The department of ecology, upon receiving evidence that conditions have changed or that additional information is relevant to a decision with respect to the requirements for emission control, may, after public hearing on due notice, withdraw any approval previously given to a less stringent local or regional requirement.

[(2)] Nothing in this chapter shall be construed to prevent a local or regional air pollution control authority from adopting and enforcing more stringent emission control requirements than those adopted by the department of ecology and applicable within the jurisdiction of the local or regional air pollution control authority, except that the emission performance standards for new woodstoves and the opacity levels for residential solid fuel burning devices shall be statewide. [1987 c 405 § 14; 1979 ex.s. c 30 § 13; 1969 ex.s. c 168 § 36; 1967 c 238 § 50.]

70.94.385 State financial aid—Application for—Requirements. (1) Any authority may apply to the department for state financial aid. The department shall annually establish the amount of state funds available for the local authorities taking into consideration available federal and state funds. The establishment of funding amounts shall be consistent with federal requirements and local maintenance of effort necessary to carry out the provisions of this chapter. Any such aid shall be expended from the general fund or from other appropriations as the legislature may provide for this purpose: PROVIDED, That federal funds shall be utilized to the maximum unless otherwise approved by the department: PROVIDED FURTHER, That the amount of state funds provided to local authorities during the previous year shall not be reduced without a public notice or public hearing held by the department if requested by the affected local authority, unless such changes are the direct result of a reduction in the available federal funds for air pollution control programs.

(2) Before any such application is approved and financial aid is given or approved by the department, the authority shall demonstrate to the satisfaction of the department that it is fulfilling the requirements of this chapter. If the department has not adopted ambient air quality standards and objectives as permitted by RCW 70.94.331, the authority shall demonstrate to the satisfaction of the department that it is acting in good faith and doing all that is possible and reasonable to control and prevent air pollution within its jurisdictional boundaries and to carry out the purposes of this chapter.

(2012 Ed.)
(3) The department shall adopt rules requiring the submission of such information by each authority including the submission of its proposed budget and a description of its program in support of the application for state financial aid as necessary to enable the department to determine the need for state aid. [1991 c 199 § 712; 1987 c 109 § 41; 1969 ex.s. c 168 § 37; 1967 c 238 § 51.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.390 Hearing upon activation of authority—Finding—Assumption of jurisdiction by department—Expenses. The department may, at any time and on its own motion, hold a hearing to determine if the activation of an authority is necessary for the prevention, abatement, and control of air pollution which exists or is likely to exist in any area of the state. Notice of such hearing shall be conducted in accordance with chapter 42.30 RCW and chapter 34.05 RCW. If at such hearing the department finds that air pollution exists or is likely to occur in a particular area, and that the purposes of this chapter and the public interest will be best served by the activation of an authority it shall designate the boundaries of such area and set forth in a report to the appropriate county or counties recommendations for the activation of an authority: PROVIDED, That if at such hearing the department determines that the activation of an authority is not practical or feasible for the reason that a local or regional air pollution control program cannot be successfully established or operated due to unusual circumstances and conditions, but that the control and/or prevention of air pollution is necessary for the purposes of this chapter and the public interest, it may assume jurisdiction and so declare by order. Such order shall designate the geographic area in which, and the effective date upon which, the department will exercise jurisdiction for the control and/or prevention of air pollution. The department shall exercise its powers and duties in the same manner as if it had assumed authority under RCW 70.94.410.

All expenses incurred by the department in the control and prevention of air pollution in any county pursuant to the provisions of RCW 70.94.390 and 70.94.410 shall constitute a claim against such county. The department shall certify the expenses to the auditor of the county, who promptly shall issue his or her warrant on the county treasurer payable out of the current expense fund of the county. In the event that the amount in the current expense fund of the county is not adequate to meet the expenses incurred by the department, the department shall certify to the state treasurer that it has a prior claim on any money in the "liquor excise tax fund" that is to be apportioned to that county by the state treasurer as provided in RCW 82.08.170. In the event that the amount in the "liquor excise tax fund" that is to be apportioned to that county by the state treasurer is not adequate to meet the expenses incurred by the department, the department shall certify to the state treasurer that they have a prior claim on any excess funds from the liquor revolving fund that are to be distributed to that county as provided in RCW 86.08.220. All moneys that are collected as provided in this section shall be placed in the general fund in the account of the office of air programs of the department.

[Title 70 RCW—page 218]
order and to ascertain if such order is being carried out in good faith. At such time the department may amend any such order issued if it is determined by the department that such order is being carried out in bad faith or the department may take the appropriate action as is provided in RCW 70.94.410. [1987 c 109 § 44; 1969 ex.s. c 168 § 40; 1967 c 238 § 54.]

70.94.405 Air pollution control authority—Review by department of program. At any time after an authority has been activated for no less than one year, the department may, on its own motion, conduct a hearing held in accordance with chapters 42.30 and 34.05 RCW, to determine whether or not the air pollution prevention and control program of such authority is being carried out in good faith and is as effective as possible. If at such hearing the department finds that such authority is not carrying out its air pollution control or prevention program in good faith, is not doing all that is possible and reasonable to control and/or prevent air pollution within the geographical area over which it has jurisdiction, or is not carrying out the provisions of this chapter, it shall set forth in a report or order to the appropriate authority: (1) Its recommendations as to how air pollution prevention and/or control might be more effectively accomplished; and (2) guidelines which will assist the authority in carrying out the recommendations of the department. [1991 c 199 § 714; 1987 c 109 § 45; 1969 ex.s. c 168 § 41; 1967 c 238 § 55.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.410 Air pollution control authority—Assumption of control by department. (1) If, after thirty days from the time that the department issues a report or order to an authority under RCW 70.94.400 and 70.94.405, such authority has not taken action which indicates that it is attempting in good faith to implement the recommendations or actions of the department as set forth in the report or order, the department may, by order, declare as null and void any or all ordinances, resolutions, rules or regulations of such authority relating to the control and/or prevention of air pollution, and at such time the department shall become the sole body with authority to make and enforce rules and regulations for the control and/or prevention of air pollution within the geographical area of such authority. If this occurs, the department may assume all those powers which are given to it by law to effectuate the purposes of this chapter. The department may, by order, continue in effect and enforce provisions of the ordinances, resolutions, or rules of such authority which are not less stringent than those requirements which the department may have found applicable to the area under RCW 70.94.331, until such time as the department adopts its own rules. Any rules promulgated by the department shall be subject to the provisions of chapter 34.05 RCW. Any enforcement actions shall be subject to RCW 43.21B.300 or 43.21B.310.

(2) No provision of this chapter is intended to prohibit any authority from reestablishing its air pollution control program which meets with the approval of the department and which complies with the purposes of this chapter and with applicable rules and orders of the department.

(3) Nothing in this chapter shall prevent the department from withdrawing the exercise of its jurisdiction over an authority upon its own motion if the department has found at a hearing held in accordance with chapters 42.30 and 34.05 RCW, that the air pollution prevention and control program of such authority will be carried out in good faith, that such program will do all that is possible and reasonable to control and/or prevent air pollution within the geographical area over which it has jurisdiction, and that the program complies with the provisions of this chapter. Upon the withdrawal of the department, the department shall prescribe certain recommendations as to how air pollution prevention and/or control is to be effectively accomplished and guidelines which will assist the authority in carrying out the recommendations of the department. [1991 c 199 § 715; 1987 c 109 § 46; 1969 ex.s. c 168 § 42; 1967 c 238 § 56.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.420 State departments and agencies to cooperate with department and authorities. It is declared to be the intent of the legislature of the state of Washington that any state department or agency having jurisdiction over any building, installation, other property, or other activity creating or likely to create significant air pollution shall cooperate with the department and with air pollution control agencies in preventing and/or controlling the pollution of the air in any area insofar as the discharge of air contaminants from or by such building, installation, other property, or activity may cause or contribute to pollution of the air in such area. Such state department or agency shall comply with the provisions of this chapter and with any ordinance, resolution, rule or regulation issued hereunder in the same manner as any other person subject to such laws or rules. [1991 c 199 § 716; 1987 c 109 § 47; 1969 ex.s. c 168 § 44; 1967 c 238 § 58.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.422 Department of health powers regarding radionuclides—Energy facility site evaluation council authority over permit program sources. (1) The department of health shall have all the enforcement powers as provided in RCW 70.94.332, 70.94.425, 70.94.430, 70.94.431 (1) through (7), and 70.94.435 with respect to emissions of radionuclides. This section does not preclude the department of ecology from exercising its authority under this chapter.

(2) Permits for energy facilities subject to chapter 80.50 RCW shall be issued by the energy facility site evaluation council. However, the permits become effective only if the governor approves an application for certification and executes a certification agreement under chapter 80.50 RCW. The council shall have all powers necessary to administer an operating permits program pertaining to such facilities, consistent with applicable air quality standards established by the department or local air pollution control authorities, or both, and to obtain the approval of the United States environmental protection agency. The council’s powers include, but are not
limited to, all of the enforcement powers provided in RCW 70.94.332, 70.94.425, 70.94.430, 70.94.431 (1) through (7), and 70.94.435 with respect to permit program sources required to obtain certification from the council under chapter 80.50 RCW. To the extent not covered under RCW 80.50.071, the council may collect fees as granted to delegated local air authorities under RCW 70.94.152, 70.94.161 (14) and (15), 70.94.162, and 70.94.154(7) with respect to permit program sources required to obtain certification from the council under chapter 80.50 RCW. The council and the department shall each establish procedures that provide maximum coordination and avoid duplication between the two agencies in carrying out the requirements of this chapter. [1993 c 252 § 7.]

70.94.425 Restraining orders—Injunctions. Notwithstanding the existence or use of any other remedy, whenever any person has engaged in, or is about to engage in, any acts or practices which constitute or will constitute a violation of any provision of this chapter, or any rule, regulation or order issued thereunder, the governing body or board or the department, after notice to such person and an opportunity to comply, may petition the superior court of the county wherein the violation is alleged to be occurring or to have occurred for a restraining order or a temporary or permanent injunction or another appropriate order. [1987 c 109 § 48; 1967 c 238 § 60.]

70.94.430 Penalties. (1) Any person who knowingly violates any of the provisions of chapter 70.94 or 70.120 RCW, or any ordinance, resolution, or regulation in force pursuant thereto is guilty of a gross misdemeanor and upon conviction thereof shall be punished by a fine of not more than ten thousand dollars, or by imprisonment in the county jail for up to three hundred sixty-four days, or by both for each separate violation.

(2) Any person who negligently releases into the ambient air any substance listed by the department of ecology as a hazardous air pollutant, other than in compliance with the terms of an applicable permit or emission limit, and who at the time negligently places another person in imminent danger of death or substantial bodily harm is guilty of a gross misdemeanor and shall, upon conviction, be punished by a fine of not more than ten thousand dollars, or by imprisonment for up to three hundred sixty-four days, or both.

(3) Any person who knowingly releases into the ambient air any substance listed by the department of ecology as a hazardous air pollutant, other than in compliance with the terms of an applicable permit or emission limit, and who knows at the time that he or she thereby places another person in imminent danger of death or substantial bodily harm, is guilty of a class C felony and shall, upon conviction, be punished by a fine of not less than fifty thousand dollars, or by imprisonment for not more than five years, or both.

(4) Any person who knowingly fails to disclose a potential conflict of interest under RCW 70.94.100 is guilty of a gross misdemeanor, and upon conviction thereof shall be punished by a fine of not more than five thousand dollars. [2011 c 96 § 49; 2003 c 53 § 355; 1991 c 199 § 310; 1984 c 255 § 1; 1973 1st ex.s. c 176 § 1; 1967 c 238 § 61.]

Intention—Effective date—2003 c 53: See notes following RCW 2.48.180.

Findings—Intent—1991 c 199: See note following RCW 70.94.011.

70.94.431 Civil penalties—Excusable excess emissions. (1) Except as provided in RCW 43.05.060 through 43.05.080 and 43.05.150, and in addition to or as an alternate to any other penalty provided by law, any person who violates any of the provisions of chapter 70.94 RCW, chapter 70.120 RCW, or any of the rules in force under such chapters may incur a civil penalty in an amount not to exceed ten thousand dollars per day for each violation. Each such violation shall be a separate and distinct offense, and in case of a continuing violation, each day’s continuance shall be a separate and distinct violation.

Any person who fails to take action as specified by an order issued pursuant to this chapter shall be liable for a civil penalty of not more than ten thousand dollars for each day of continued noncompliance.

(2) Penalties incurred but not paid shall accrue interest, beginning on the ninety-first day following the date that the penalty becomes due and payable, at the highest rate allowed by RCW 19.52.020 on the date that the penalty becomes due and payable. If violations or penalties are appealed, interest shall not begin to accrue until the thirty-first day following final resolution of the appeal.

The maximum penalty amounts established in this section may be increased annually to account for inflation as determined by the state office of the economic and revenue forecast council.

(3) Each act of commission or omission which procures, aids or abets in the violation shall be considered a violation under the provisions of this section and subject to the same penalty. The penalties provided in this section shall be imposed pursuant to RCW 43.21B.300.

(4) All penalties recovered under this section by the department shall be paid into the state treasury and credited to the air pollution control account established in RCW 70.94.015 or, if recovered by the authority, shall be paid into the treasury of the authority and credited to its funds. If a prior penalty for the same violation has been paid to a local authority, the penalty imposed by the department under subsection (1) of this section shall be reduced by the amount of the payment.

(5) To secure the penalty incurred under this section, the state or the authority shall have a lien on any vessel used or operated in violation of this chapter which shall be enforced as provided in RCW 60.36.050.

(6) Public or private entities that are recipients or potential recipients of department grants, whether for air quality related activities or not, may have such grants rescinded or withheld by the department for failure to comply with provisions of this chapter.

(7) In addition to other penalties provided by this chapter, persons knowingly under-reporting emissions or other information used to set fees, or persons required to pay emission or permit fees who are more than ninety days late with
such payments may be subject to a penalty equal to three times the amount of the original fee owed.

(8) By January 1, 1992, the department shall develop rules for excusing excess emissions from enforcement action if such excess emissions are unavoidable. The rules shall specify the criteria and procedures for the department and local air authorities to determine whether a period of excess emissions is excusable in accordance with the state implementation plan. [1995 c 403 § 630; 1991 c 199 § 311; 1990 c 157 § 1; 1987 c 109 § 19; 1984 c 255 § 2; 1973 1st ex.s. c 176 § 2; 1969 ex.s. c 168 § 53.]

70.94.435 Additional means for enforcement of chapter. As an additional means of enforcing this chapter, the governing body or board may accept an assurance of discontinuance of any act or practice deemed in violation of this chapter or of any ordinance, resolution, rule or regulation adopted pursuant hereto, from any person engaging in, or who has engaged in, such act or practice. Any such assurance shall specify a time limit during which such discontinuance is to be accomplished. Failure to perform the terms of any such assurance shall constitute prima facie proof of a violation of this chapter or the ordinances, resolutions, rules or regulations, or order issued pursuant thereto, which make the alleged act or practice unlawful for the purpose of securing any injunction or other relief from the superior court as provided in RCW 70.94.425. [1967 c 238 § 62.]

70.94.440 Short title. This chapter may be known and cited as the "Washington Clean Air Act". [1967 c 238 § 63.]

70.94.450 Woodstoves—Policy. In the interest of the public health and welfare and in keeping with the objectives of RCW 70.94.011, the legislature declares it to be the public policy of the state to control, reduce, and prevent air pollution caused by woodstove emissions. It is the state’s policy to reduce woodstove emissions by encouraging the department of ecology to continue efforts to educate the public about the effects of woodstove emissions, other heating alternatives, and the desirability of achieving better emission performance and heating efficiency from woodstoves. The legislature further declares that: (1) The purchase of certified woodstoves will not solve the problem of pollution caused by woodstove emissions; and (2) the reduction of air pollution caused by woodstove emissions will only occur when woodstove users adopt proper methods of wood burning. [1987 c 405 § 1.]

70.94.453 Woodstoves—Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout RCW 70.94.453 through *70.94.487: (1) "Department" means the department of ecology.

(2) "Woodstove" means a solid fuel burning device other than a fireplace not meeting the requirements of RCW 70.94.457, including any fireplace insert, woodstove, wood burning heater, wood stick boiler, coal-fired furnace, coal stove, or similar device burning any solid fuel used for aesthetic or space-heating purposes in a private residence or commercial establishment, which has a heat input less than one million British thermal units per hour. The term "woodstove" does not include wood cook stoves.

(3) "Fireplace" means: (a) Any permanently installed masonry fireplace; or (b) any factory-built metal solid fuel burning device designed to be used with an open combustion chamber and without features to control the air to fuel ratio.

(4) "New woodstove" means: (A) A woodstove that is sold at retail, bargained, exchanged, or given away for the first time by the manufacturer, the manufacturer’s dealer or agency, or a retailer; and (b) has not been so used to have become what is commonly known as "secondhand" within the ordinary meaning of that term.

(5) "Solid fuel burning device" means any device for burning wood, coal, or any other nongaseous and nonliquid fuel, including a woodstove and fireplace.

(6) "Authority" means any air pollution control agency whose jurisdictional boundaries are coextensive with the boundaries of one or more counties.

(7) "Opacity" means the degree to which an object seen through a plume is obscured, stated as a percentage. The methods approved by the department in accordance with RCW 70.94.331 shall be used to establish opacity for the purposes of this chapter. [1987 c 405 § 2.]

Reviser's note: RCW 70.94.487 was repealed by 1988 c 186 § 16, effective June 30, 1988.

70.94.455 Residential and commercial construction—Burning and heating device standards. After January 1, 1992, no used solid fuel burning device shall be installed in new or existing buildings unless such device is either Oregon department of environmental quality phase II or United States environmental protection agency certified or a pellet stove either certified or exempt from certification by the United States environmental protection agency.

(1) By July 1, 1992, the state building code council shall adopt rules requiring an adequate source of heat other than woodstoves in all new and substantially remodeled residential and commercial construction. This rule shall apply (a) to areas designated by a county to be an urban growth area under chapter 36.70A RCW; and (b) to areas designated by the environmental protection agency as being in nonattainment for particulate matter.

(2) For purposes of this section, "substantially remodeled" means any alteration or restoration of a building exceeding sixty percent of the appraised value of such building within a twelve-month period. [1991 c 199 § 503.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.457 Solid fuel burning devices—Emission performance standards. The department of ecology shall establish by rule under chapter 34.05 RCW:

(1) Statewide emission performance standards for new solid fuel burning devices. Notwithstanding any other provision of this chapter which allows an authority to adopt more stringent emission standards, no authority shall adopt any...
emission standard for new solid fuel burning devices other than the statewide standard adopted by the department under this section.

(a) After January 1, 1995, no solid fuel burning device shall be offered for sale in this state to residents of this state that does not meet the following particulate air contaminant emission standards under the test methodology of the United States environmental protection agency in effect on January 1, 1991, or an equivalent standard under any test methodology adopted by the United States environmental protection agency subsequent to such date: (i) Two and one-half grams per hour for catalytic woodstoves; and (ii) four and one-half grams per hour for all other solid fuel burning devices. For purposes of this subsection, "equivalent" shall mean the emissions limits specified in this subsection multiplied by a statistically reliable conversion factor determined by the department that compares the difference between the emission test methodology established by the United States environmental protection agency prior to May 15, 1991, with the test methodology adopted subsequently by the agency. Subsection (a) of this subsection does not apply to fireplaces.

(b) After January 1, 1997, no fireplace, except masonry fireplaces, shall be offered for sale unless such fireplace meets the 1990 United States environmental protection agency standards for woodstoves or equivalent standard that may be established by the state building code council by rule. Prior to January 1, 1997, the state building code council shall establish by rule a methodology for the testing of factory-built fireplaces. The methodology shall be designed to achieve a particulate emission standard equivalent to the 1990 United States environmental protection agency standard for woodstoves. In developing the rules, the council shall include on the technical advisory committee at least one representative from the masonry fireplace builders and at least one representative of the factory-built fireplace manufacturers.

(c) Prior to January 1, 1997, the state building code council shall establish by rule design standards for the construction of new masonry fireplaces in Washington state. In developing the rules, the council shall include on the technical advisory committee at least one representative from the masonry fireplace builders and at least one representative of the factory-built fireplace manufacturers. It shall be the goal of the council to develop design standards that generally achieve reductions in particulate air contaminant emissions commensurate with the reductions being achieved by factory-built fireplaces at the time the standard is established.

(d) Actions of the department and local air pollution control authorities under this section shall preempt actions of other state agencies and local governments for the purposes of controlling air pollution from solid fuel burning devices, except where authorized by chapter 199, Laws of 1991.

(e) Subsection (1)(a) of this section shall not apply to fireplaces.

(f) Notwithstanding (a) of this subsection, the department is authorized to adopt, by rule, emission standards adopted by the United States environmental protection agency for new woodstoves sold at retail. For solid fuel burning devices for which the United States environmental protection agency has not established emission standards, the department may exempt or establish, by rule, statewide standards including emission levels and test procedures for such devices and such emission levels and test procedures shall be equivalent to emission levels per pound per hour burned for other new woodstoves and fireplaces regulated under this subsection.

(2) A program to:
   (a) Determine whether a new solid fuel burning device complies with the statewide emission performance standards established in subsection (1) of this section; and
   (b) Approve the sale of devices that comply with the statewide emission performance standards. [1995 c 205 § 3; 1991 c 199 § 501; 1987 c 405 § 4.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.460 Sale of unapproved woodstoves—Prohibited. After July 1, 1988, no person shall sell, offer to sell, or knowingly advertise to sell a new woodstove in this state to a resident of this state unless the woodstove has been approved by the department under the program established under RCW 70.94.457. [1995 c 205 § 4; 1987 c 405 § 7.]

Additional notes found at www.leg.wa.gov

70.94.463 Sale of unapproved woodstoves—Penalty. After July 1, 1988, any person who sells, offers to sell, or knowingly advertises to sell a new woodstove in this state in violation of RCW 70.94.460 shall be subject to the penalties and enforcement actions under this chapter. [1987 c 405 § 8.]

70.94.467 Sale of unapproved woodstoves—Application of law to advertising media. Nothing in RCW 70.94.460 or 70.94.463 shall apply to a radio station, television station, publisher, printer, or distributor of a newspaper, magazine, billboard, or other advertising medium that accepts advertising in good faith and without knowledge of its violation of RCW 70.94.453 through *70.94.487. [1987 c 405 § 12.]

*Reviser's note: RCW 70.94.487 was repealed by 1988 c 186 § 16, effective June 30, 1988.

70.94.470 Residential solid fuel burning devices—Opacity levels—Enforcement and public education. (1) The department shall establish, by rule under chapter 34.05 RCW, (a) a statewide opacity level of twenty percent for residential solid fuel burning devices for the purpose of enforcement on a complaint basis and (b) a statewide opacity of ten percent for purposes of public education.

(2) Notwithstanding any other provision of this chapter which may allow an authority to adopt a more stringent opacity level, no authority shall adopt or enforce an opacity level for solid fuel burning devices other than established in this section.

(3) Actions of the department and local air pollution control authorities under this section shall preempt actions of other state agencies and local governments for the purposes of controlling air pollution from solid fuel burning devices, except where authorized by chapter 199, Laws of 1991. [1991 c 199 § 502; 1987 c 405 § 5.]

Finding—1991 c 199: See note following RCW 70.94.011.
70.94.473 Limitations on burning wood for heat—First and second stage burn bans—Report on second stage burn ban. (1) Any person in a residence or commercial establishment which has an adequate source of heat without burning wood shall:

(a) Not burn wood in any solid fuel burning device whenever the department has determined under RCW 70.94.715 that any air pollution episode exists in that area;

(b) Not burn wood in any solid fuel burning device except those which are either Oregon department of environmental quality phase II or United States environmental protection agency certified or certified by the department under RCW 70.94.457(1) or a pellet stove either certified or issued an exemption by the United States environmental protection agency in accordance with Title 40, Part 60 of the code of federal regulations, in the geographical area and for the period of time that a first stage of impaired air quality has been determined, by the department or any authority, for that area.

(i) A first stage of impaired air quality is reached when forecasted meteorological conditions are predicted to cause fine particulate levels to exceed thirty-five micrograms per cubic meter, per twenty-four hour average, within forty-eight hours, except for areas of fine particulate nonattainment or areas at risk for fine particulate nonattainment;

(ii) A first stage burn ban for impaired air quality may be called for a county containing fine particulate nonattainment areas or areas at risk for fine particulate nonattainment, and when feasible only for the necessary portions of the county, when forecasted meteorological conditions are predicted to cause fine particulate levels to reach or exceed thirty micrograms per cubic meter, measured on a twenty-four hour average, within seventy-two hours; and

(c)(i) Not burn wood in any solid fuel burning device in a geographical area and for the period of time that a second stage of impaired air quality has been determined by the department or any authority, for that area. A second stage of impaired air quality is reached when a first stage of impaired air quality has been in force and has not been sufficient to reduce the increasing fine particulate pollution trend, fine particulates are at an ambient level of twenty-five micrograms per cubic meter measured on a twenty-four hour average, and forecasted meteorological conditions are not expected to allow levels of fine particulates to decline below twenty-five micrograms per cubic meter for a period of twenty-four hours or more from the time that the fine particulates are measured at the trigger level.

(ii) A second stage burn ban may be called without calling a first stage burn ban only when all of the following occur and shall require the department or the local air pollution control authority calling a second stage burn ban under this subsection to comply with the requirements of subsection (3) of this section:

(A) Fine particulate levels have reached or exceeded twenty-five micrograms per cubic meter, measured on a twenty-four hour average;

(B) Meteorological conditions have caused fine particulate levels to rise rapidly;

(C) Meteorological conditions are predicted to cause fine particulate levels to exceed the thirty-five micrograms per cubic meter, measured on a twenty-four hour average, within twenty-four hours; and

(D) Meteorological conditions are highly likely to prevent sufficient dispersion of fine particulate.

(iii) In fine particulate nonattainment areas or areas at risk for fine particulate nonattainment, a second stage burn ban may be called for the county containing the nonattainment area or areas at risk for nonattainment, and when feasible only for the necessary portions of the county, without calling a first stage burn ban only when (c)(ii)(A), (B), and (D) of this subsection have been met and meteorological conditions are predicted to cause fine particulate levels to reach or exceed thirty micrograms per cubic meter, measured on a twenty-four hour average, within twenty-four hours.

(2) Actions of the department and local air pollution control authorities under this section shall preempt actions of other state agencies and local governments for the purposes of controlling air pollution from solid fuel burning devices, except where authorized by chapter 199, Laws of 1991.

(3) The department or any local air pollution control authority that has called a second stage burn ban under the authority of subsection (1)(c)(ii) of this section shall, within ninety days, prepare a written report describing:

(a) The meteorological conditions that resulted in their calling the second stage burn ban;

(b) Whether the agency could have taken actions to avoid calling a second stage burn ban without calling a first stage burn ban; and

(c) Any changes the department or authority is making to its procedures of calling first stage and second stage burn bans to avoid calling a second stage burn ban without first calling a first stage burn ban.

After consulting with affected parties, the department shall prescribe the format of such a report and may also require additional information be included in the report. All reports shall be sent to the department and the department shall keep the reports on file for not less than five years and available for public inspection and copying in accordance with RCW 42.56.090.

(4) For the purposes of chapter 219, Laws of 2012, an area at risk for nonattainment means an area where the three-year average of the annual ninety-eighth percentile of twenty-four hour fine particulate values is greater than twenty-nine micrograms per cubic meter, based on the years 2008 through 2010 monitoring data. [2012 c 219 § 1; 2008 c 40 § 1; 2007 c 339 § 1; 2005 c 197 § 1; 1998 c 342 § 8; 1995 c 205 § 1; 1991 c 199 § 504; 1990 c 128 § 2; 1987 c 405 § 6.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.477 Limitations on use of solid fuel burning devices. (1) Unless allowed by rule under chapter 34.05 RCW, a person shall not cause or allow any of the following materials to be burned in any residential solid fuel burning device:

(a) Garbage;
(b) Treated wood;
(c) Plastics;
(d) Rubber products;
(e) Animals;
(f) Asphalitic products;
(g) Waste petroleum products;
(h) Paints; or
(i) Any substance, other than properly seasoned fuel wood, which normally emits dense smoke or obnoxious odors.

(2) To achieve and maintain attainment in areas of non-attainment for fine particulates in accordance with section 172 of the federal clean air act, a local air pollution control authority or the department may, after meeting requirements in subsection (3) of this section, prohibit the use of solid fuel burning devices, except:

(a) Fireplaces as defined in RCW 70.94.453(3), except if needed to meet federal requirements as a contingency measure in a state implementation plan for a fine particulate non-attainment area;
(b) Woodstoves meeting the standards set forth in RCW 70.94.473(1)(b); or
(c) Pellet stoves.

(3) Prior to prohibiting the use of solid fuel burning devices under subsection (2) of this section, the department or the local air pollution control authority must:

(a) Seek input from any city, county, or jurisdictional health department affected by the proposal to prohibit the use of solid fuel burning devices; and
(b) Make written findings that:
   (i) The area is designated as an area of nonattainment for fine particulate matter by the United States environmental protection agency, or is in maintenance status under that designation;
   (ii) Emissions from solid fuel burning devices in the area are a major contributing factor for violating the national ambient air quality standard for fine particulates; and
   (iii) The area has an adequately funded program to assist low-income households to secure an adequate source of heat, which may include woodstoves meeting the requirements of RCW 70.94.453(2).

(4) If and only if the nonattainment area is within the jurisdiction of the department and the legislative authority of a city or county within the area of nonattainment formally expresses concerns with the department’s written findings, then the department must publish on the department’s website the reasons for prohibiting the use of solid fuel burning devices under subsection (2) of this section that includes a response to the concerns expressed by the city or county legislative authority.

(5) When a local air pollution control authority or the department prohibits the use of solid fuel burning devices as authorized by this section, the cities, counties, and jurisdictional health departments serving the area shall cooperate with the department or local air pollution control authority as the department or the local air pollution control authority implements the prohibition. The responsibility for actual enforcement of the prohibition shall reside solely with the department or the local air pollution control authority. A city, county, or jurisdictional health department serving a fine particulate nonattainment area may agree to assist with enforcement activities.

(6) A prohibition issued by a local air pollution control authority or the department under this section shall not apply to:

(a) A person in a residence or commercial establishment that does not have an adequate source of heat without burning wood; or
(b) A person with a shop or garage that is detached from the main residence or commercial establishment that does not have an adequate source of heat in the detached shop or garage without burning wood.

(7) On June 7, 2012, and prior to January 1, 2015, the local air pollution control authority or the department shall, within available resources, provide assistance to households using solid fuel burning devices to reduce the emissions from those devices or change out to a lower emission device. Prior to the effective date of a prohibition, as defined in this section, on the use of uncertified stoves, the department or local air pollution control authority shall provide public education in the nonattainment area regarding how households can reduce their emissions through cleaner burning practices, the importance of respecting burn bans, and the opportunities for assistance in obtaining a cleaner device. If the area is designated as a nonattainment area as of January 1, 2015, or if required by the United States environmental protection agency, the local air pollution control authority or the department may prohibit the use of uncertified devices.

(8) As used in this section:

(a) "Jurisdictional health department" means a city, county, city-county, or district public health department.
(b) "Prohibit the use" or "prohibition" may include requiring disclosure of an uncertified device, removal, or rendering inoperable, as may be approved by rule by a local air pollution control authority or the department. The effective date of such a rule may not be prior to January 1, 2015. However, except as provided in RCW 64.06.020 relating to the seller disclosure of wood burning appliances, any such prohibition may not include imposing separate time of sale obligations on the seller or buyer of real estate as part of a real estate transaction. 70.94.480 Woodstove education program. (1) The department of ecology shall establish a program to educate woodstove dealers and the public about:

(a) The effects of woodstove emissions on health and air quality;
(b) Methods of achieving better efficiency and emission performance from woodstoves;
(c) Woodstoves that have been approved by the department;
(d) The benefits of replacing inefficient woodstoves with stoves approved under RCW 70.94.457.

70.94.483 Woodstove education and enforcement account created—Fee imposed on solid fuel burning device sales. (1) The woodstove education and enforcement account is hereby created in the state treasury. Money placed in the account shall include all money received under subsection (2) of this section and any other money appropriated by the legislature. Money in the account shall be spent for the purposes of the woodstove education program established under RCW 70.94.480 and for enforcement of the woodstove program, and shall be subject to legislative appropriation. However, during the 2003-05 fiscal biennium, the legislature may transfer from the woodstove education and enforcement account to the air pollution control account such amounts as specified in the omnibus operating budget bill.

(2) The department of ecology, with the advice of the advisory committee, shall set a flat fee of thirty dollars, on the retail sale, as defined in RCW 82.04.050, of each solid fuel burning device after January 1, 1992. The fee shall be imposed upon the consumer and shall not be subject to the retail sales tax provisions of chapters 82.08 and 82.12 RCW. The fee may be adjusted annually above thirty dollars to account for inflation as determined by the state office of the economic and revenue forecast council. The fee shall be collected by the department of revenue in conjunction with the retail sales tax under chapter 82.08 RCW. If the seller fails to collect the fee herein imposed or fails to remit the fee to the department of revenue in the manner prescribed in chapter 82.08 RCW, the seller shall be personally liable to the state for the amount of the fee. The collection provisions of chapter 82.32 RCW shall apply. The department of revenue shall deposit fees collected under this section in the woodstove education and enforcement account. 70.94.488 Woodsmoke emissions—Findings. The legislature finds that there are some communities in the state in which the national ambient air quality standards for PM 2.5 are exceeded, primarily due to woodsmoke emissions, and that current strategies are not sufficient to reduce woodsmoke emissions to levels that comply with the federal standards or adequately protect public health. The legislature finds that it is in the state’s interest and to the benefit of the people of the state to evaluate additional measures to reduce woodsmoke emissions and update the state woodsmoke control program. [2007 c 339 § 2.]

70.94.505 Woodsmoke emissions—Work group. (1) The department shall convene and chair a work group to study the impacts of woodsmoke from solid fuel burning devices on communities in Washington and make recommend-
areas. The capital and environmental costs of fully accommodating the existing and projected automobile traffic on roads and highways are prohibitive. Decreasing the demand for vehicle trips is significantly less costly and at least as effective in reducing traffic congestion and its impacts as constructing new transportation facilities such as roads and bridges, to accommodate increased traffic volumes.

The legislature also finds that increasing automotive transportation is a major factor in increasing consumption of gasoline and, thereby, increasing reliance on imported sources of petroleum. Modulating the growth in automotive travel is essential to stabilizing and reducing dependence on imported petroleum and improving the nation’s energy security.

The legislature further finds that reducing the number of commute trips to work made via single-occupant cars and light trucks is an effective way of reducing automobile-related air pollution, traffic congestion, and energy use. Major employers have significant opportunities to encourage and facilitate reducing single-occupant vehicle commuting by employees. In addition, the legislature also recognizes the importance of increasing individual citizens’ awareness of air quality, energy consumption, and traffic congestion, and the contribution individual actions can make towards addressing these issues.

The intent of this chapter is to require local governments in those counties experiencing the greatest automobile-related air pollution and traffic congestion to develop and implement plans to reduce single-occupant vehicle commute trips. Such plans shall require major employers and employers at major worksites to implement programs to reduce single-occupant vehicle commuting by employees at major worksites. Local governments in counties experiencing significant but less severe automobile-related air pollution and traffic congestion may implement such plans. State agencies shall implement programs to reduce single-occupant vehicle commuting at all major worksites throughout the state.

### Requirements for counties and cities

1. Each county containing an urban growth area, designated pursuant to RCW 36.70A.110, whose boundaries contain a state highway segment exceeding the one hundred person hours of delay threshold calculated by the department of transportation, and any contiguous urban growth areas; and

affected urban growth area by a date specified by the commute trip reduction board. Jurisdictions located within an urban growth area with a population greater than seventy thousand that adopted a commute trip reduction ordinance before the year 2000, as well as any jurisdiction within contiguous urban growth areas, shall also adopt a commute trip reduction plan and ordinance for major employers in the affected urban growth area by a date specified by the commute trip reduction board. Jurisdictions containing a major employment installation in a county with an affected growth area, designated pursuant to RCW 36.70A.110, shall adopt a commute trip reduction plan and ordinance for major employers in the major employment installation by a date specified by the commute trip reduction board. The ordinance shall establish the requirements for major employers and provide an appeals process by which major employers, who as a result of special characteristics of their business or its locations would be unable to meet the requirements of the ordinance, may obtain waiver or modification of those requirements. The plan shall be designed to achieve reductions in the proportion of single-occupant vehicle commute trips and be consistent with the rules established by the department of transportation. The county, city, or town shall submit its adopted plan to the regional transportation planning organization. The county, city, or town plan shall be included in the regional commute trip reduction plan for regional transportation planning purposes, consistent with the rules established by the department of transportation in RCW 70.94.537.

(2) All other counties, cities, and towns may adopt and implement a commute trip reduction plan consistent with department of transportation rules established under RCW 70.94.537. Tribal governments are encouraged to adopt a commute trip reduction plan for their lands. State investment in voluntary commute trip reduction plans shall be limited to those areas that meet criteria developed by the commute trip reduction board.

(3) The department of ecology may, after consultation with the department of transportation, as part of the state implementation plan for areas that do not attain the national ambient air quality standards for carbon monoxide or ozone, require municipalities other than those identified in subsection (1) of this section to adopt and implement commute trip reduction plans if the department determines that such plans are necessary for attainment of said standards.

(4) A commute trip reduction plan shall be consistent with the rules established under RCW 70.94.537 and shall include but is not limited to (a) goals for reductions in the proportion of single-occupant vehicle commute trips consistent with the state goals established by the commute trip reduction board under RCW 70.94.537 and the regional commute trip reduction plan goals established in the regional commute trip reduction plan; (b) a description of the requirements for major public and private sector employers to implement commute trip reduction programs; (c) a commute trip reduction program for employees of the county, city, or town; and (d) means, consistent with rules established by the department of transportation, for determining base year values and progress toward meeting commute trip reduction plan goals. The plan shall be developed in consultation with local transit agencies, the applicable regional transportation planning organization, major employers, and other interested parties.

(5) The commute trip reduction plans adopted by counties, cities, and towns under this chapter shall be consistent with and may be incorporated in applicable state or regional transportation plans and local comprehensive plans and shall be coordinated, and consistent with, the commute trip reduction plans of counties, cities, or towns with which the county, city, or town has, in part, common borders or related regional issues. Such regional issues shall include assuring consistency in the treatment of employers who have worksites subject to the requirements of this chapter in more than one jurisdiction. Counties, cities, and towns adopting commute trip reduction plans may enter into agreements through the interlocal cooperation act or by resolution or ordinance as appropriate with other jurisdictions, local transit agencies, transportation management associations or other private or nonprofit providers of transportation services, or regional transportation planning organizations to coordinate the development and implementation of such plans. Transit agencies shall work with counties, cities, and towns as a part of their six-year transit development plan established in RCW 35.58.2575 to take into account the location of major employer worksites when planning and prioritizing transit service changes or the expansion of public transportation services, including rideshare services. Counties, cities, or towns adopting a commute trip reduction plan shall review it annually and revise it as necessary to be consistent with applicable plans developed under RCW 36.70A.070. Regional transportation planning organizations shall review the local commute trip reduction plans during the development and update of the regional commute trip reduction plan.

(6) Each affected regional transportation planning organization shall adopt a commute trip reduction plan for its region consistent with the rules and deadline established by the department of transportation under RCW 70.94.537. The plan shall include, but is not limited to: (a) Regional program goals for commute trip reduction in urban growth areas and all designated growth and transportation efficiency centers; (b) a description of strategies for achieving the goals; (c) a sustainable financial plan describing projected revenues and expenditures to meet the goals; (d) a description of the way in which progress toward meeting the goals will be measured; and (e) minimum criteria for growth and transportation efficiency centers. (i) Regional transportation planning organizations shall review proposals from local jurisdictions to designate growth and transportation efficiency centers and shall determine whether the proposed growth and transportation efficiency center is consistent with the criteria defined in the regional commute trip reduction plan. (ii) Growth and transportation efficiency centers certified as consistent with the minimum requirements by the regional transportation planning organization shall be identified in subsequent updates of the regional commute trip reduction plan. These plans shall be developed in collaboration with all affected local jurisdictions, transit agencies, and other interested parties within the region. The plan will be reviewed and approved by [the] commute trip reduction board as established under RCW 70.94.537. Regions without an approved regional commute trip reduction plan shall not be eligible for state commute trip reduction program funds.
The regional commute trip reduction plan shall be consistent with and incorporated into transportation demand management components in the regional transportation plan as required by RCW 47.80.030.

(7) Each regional transportation planning organization implementing a regional commute trip reduction program shall, consistent with the rules and deadline established by the department of transportation, submit its plan as well as any related local commute trip reduction plans and certified growth and transportation efficiency center programs, to the commute trip reduction board established under RCW 70.94.537. The commute trip reduction board shall review the regional commute trip reduction plan and the local commute trip reduction plans. The regional transportation planning organization shall collaborate with the commute trip reduction board to evaluate the consistency of local commute trip reduction plans with the regional commute trip reduction plan. Local and regional plans must be approved by the commute trip reduction board in order to be eligible for state funding provided for the purposes of this chapter.

(8) Each regional transportation planning organization implementing a regional commute trip reduction program shall submit an annual progress report to the commute trip reduction board established under RCW 70.94.537. The report shall be due at the end of each state fiscal year for which the program has been implemented. The report shall describe progress in attaining the applicable commute trip reduction goals and shall highlight any problems being encountered in achieving the goals. The information shall be reported in a form established by the commute trip reduction board.

(9) Any waivers or modifications of the requirements of a commute trip reduction plan granted by a jurisdiction shall be submitted for review to the commute trip reduction board established under RCW 70.94.537. The commute trip reduction board may deny the granting of a waiver or modification of the requirements of a commute trip reduction plan by a jurisdiction but they may notify the jurisdiction of any comments or objections.

(10) Plans implemented under this section shall not apply to commute trips for seasonal agricultural employees.

(11) Plans implemented under this section shall not apply to construction worksites when the expected duration of the construction project is less than two years.

(12) If an affected urban growth area has not previously implemented a commute trip reduction program and the state has funded solutions to state highway deficiencies to address the area’s exceeding the person hours of delay threshold, the affected urban growth area shall be exempt from the duties of this section for a period not exceeding two years. 70.94.528 Transportation demand management—Growth and transportation efficiency centers. (1) A county, city, or town may, as part of its commute trip reduction plan, designate existing activity centers listed in its comprehensive plan or new activity centers as growth and transportation efficiency centers and establish a transportation demand management program in the designated area.

(a) The transportation demand management program for the growth and transportation efficiency center shall be developed in consultation with local transit agencies, the applicable regional transportation planning organization, major employers, and other interested parties.

(b) In order to be eligible for state funding provided for the purposes of this section, designated growth and transportation efficiency centers shall be certified by the applicable regional transportation organization to: (i) Meet the minimum land use and transportation criteria established in collaboration among local jurisdictions, transit agencies, the regional transportation planning organization, and other interested parties as part of the regional commute trip reduction plan; and (ii) have established a transportation demand management program that includes the elements identified in (c) of this subsection and is consistent with the rules established by the department of transportation in RCW 70.94.537(2). If a designated growth and transportation efficiency center is denied certification, the local jurisdiction may appeal the decision to the commute trip reduction board.

(c) Transportation demand management programs for growth and transportation efficiency centers shall include, but are not limited to: (i) Goals for reductions in the proportion of single-occupant vehicle trips that are more aggressive than the state program goal established by the commute trip reduction board; (ii) a sustainable financial plan demonstrating how the program can be implemented to meet state and regional trip reduction goals, indicating resources from public and private sources that are reasonably expected to be made available to carry out the plan, and recommending any innovative financing techniques consistent with chapter 47.29 RCW, including public/private partnerships, to finance needed facilities, services, and programs; (iii) a proposed organizational structure for implementing the program; (iv) a proposal to measure performance toward the goal and implementation progress; and (v) an evaluation to which local land use and transportation policies apply, including parking policies and ordinances, to determine the extent that they complement and support the trip reduction investments of major employers. Each of these program elements shall be consistent with the rules established under RCW 70.94.537.

(d) A designated growth and transportation efficiency center shall be consistent with the land use and transportation elements of the local comprehensive plan.

(e) Transit agencies, local governments, and regional transportation planning organizations shall identify certified growth and transportation efficiency centers as priority areas for new service and facility investments in their respective investment plans.

(2) A county, city, or town that has established a growth and transportation efficiency center program shall support vehicle trip reduction activities in the designated area. The implementing jurisdiction shall adopt policies, ordinances, and funding strategies that will lead to attainment of program goals in those areas. [2006 c 329 § 4.]

70.94.534 Transportation demand management—Jurisdictions’ review and penalties. (1) Each jurisdiction implementing a commute trip reduction plan under this chapter or as part of a plan or ordinance developed under RCW 36.70A.070 shall review each employer’s initial commute trip reduction program to determine if the program is likely to meet the applicable commute trip reduction goals. The employer shall be notified by the jurisdiction of its findings. If the jurisdiction finds that the program is not likely to meet the applicable commute trip reduction goals, the jurisdiction will work with the employer to modify the program as necessary. The jurisdiction shall complete review of each employer’s initial commute trip reduction program within ninety days of receipt.

(2) Employers implementing commute trip reduction programs are expected to undertake good faith efforts to achieve the goals outlined in RCW 70.94.527(4). Employers are considered to be making a good faith effort if the following conditions have been met:

(a) The employer has met the minimum requirements identified in RCW 70.94.531;
(b) The employer has notified the jurisdiction of its intent to substantially change or modify its program and has either received the approval of the jurisdiction to do so or has acknowledged that its program may not be approved without additional modifications;
(c) The employer has provided adequate information and documentation of implementation when requested by the jurisdiction; and
(d) The employer is working collaboratively with its jurisdiction to continue its existing program or is developing and implementing program modifications likely to result in improvements to the program over an agreed upon length of time.

(3) Each jurisdiction shall review at least once every two years each employer’s progress and good faith efforts toward meeting the applicable commute trip reduction goals. If an employer makes a good faith effort, as defined in this section, but is not likely to meet the applicable commute trip reduction goals, the jurisdiction shall work collaboratively with the employer to make modifications to the commute trip reduction program. Failure of an employer to reach the applicable commute trip reduction goals is not a violation of this chapter.

(4) If an employer fails to make a good faith effort and fails to meet the applicable commute trip reduction goals, the jurisdiction shall work collaboratively with the employer to propose modifications to the program and shall direct the employer to revise its program within thirty days to incorpo-
rate those modifications or modifications which the jurisdiction determines to be equivalent.

(5) Each jurisdiction implementing a commute trip reduction plan pursuant to this chapter may impose civil penalties, in the manner provided in chapter 7.80 RCW, for failure by an employer to implement a commute trip reduction program or to modify its commute trip reduction program as required in subsection (4) of this section. No major employer may be held liable for civil penalties for failure to reach the applicable commute trip reduction goals. No major employer shall be liable for civil penalties under this chapter if failure to achieve a commute trip reduction program goal was the result of an inability to reach agreement with a certified collective bargaining agent under applicable laws where the issue was raised by the employer and pursued in good faith.

(6) Jurisdictions shall notify major employers of the procedures for applying for goal modification or exemption from the commute trip reduction requirements based on the guidelines established by the commute trip reduction board authorized under RCW 70.94.537. [2006 c 329 § 6; 1997 c 250 § 4; 1991 c 202 § 14.]

The state commute trip reduction plan shall include, but is not limited to: (a) Statewide commute trip reduction program goals that are designed to substantially improve the mobility of people and goods; (b) identification of strategies at the state and regional levels to achieve the goals and recommendations for how transportation demand management strategies can be targeted most effectively to support commute trip reduction program goals; (c) performance measures for assessing the cost-effectiveness of commute trip reduction strategies and the benefits for the state transportation system; and (d) a sustainable financial plan. The board shall review and approve regional commute trip reduction plans, and work collaboratively with regional transportation planning organizations in the establishment of the state commute trip reduction plan.

(4) The board shall work with affected jurisdictions, major employers, and other parties to develop and implement a public awareness campaign designed to increase the effectiveness of local commute trip reduction programs and support achievement of the objectives identified in this chapter.

(5) The board shall evaluate and update the commute trip reduction program plan and recommend changes to the rules every four years, with the first assessment report due July 1, 2011, to ensure that the latest data methodology used by the department of transportation is incorporated into the program and to determine which areas of the state should be affected by the program. The board shall review the definition of a major employer no later than December 1, 2009. The board shall regularly identify urban growth areas that are projected to be affected by chapter 329, Laws of 2006 in the next four-year period and may provide advance planning support to the potentially affected jurisdictions.

(6) The board shall review progress toward implementing commute trip reduction plans and programs and the costs and benefits of commute trip reduction plans and programs and shall make recommendations to the legislature and the governor by December 1, 2009, and every two years thereafter. In assessing the costs and benefits, the board shall consider the costs of not having implemented commute trip reduction plans and programs with the assistance of the transportation performance audit board authorized under chapter 44.75 RCW. The board shall examine other transportation demand management programs nationally and incorporate its findings into its recommendations to the legislature. The recommendations shall address the need for continuation, modification, or termination or any or all requirements of this chapter.

70.94.547 Transportation demand management—Intent—State leadership. The legislature hereby recognizes the state’s crucial leadership role in establishing and implementing effective commute trip reduction programs. Therefore, it is the policy of the state that the department of transportation and other state agencies, including institutions of higher education, shall aggressively develop substantive programs to reduce commute trips by state employees. Implementation of these programs will reduce energy consumption, congestion in urban areas, and air and water pollution associated with automobile travel. 70.94.551 Transportation demand management—State agencies—Joint comprehensive commute trip reduction plan—Reports. (1) The secretary of the department of transportation may coordinate an interagency board or other interested parties for the purpose of developing policies or guidelines that promote consistency among state agency commute trip reduction programs required by RCW 70.94.527 and 70.94.531 or developed under the joint comprehensive commute trip reduction plan described in this section. The board shall include representatives of the departments of transportation, *general administration, ecology, and community, trade, and economic development and such other departments and interested groups as the secretary of the department of transportation determines to be necessary. Policies and guidelines shall be applicable to all state agencies including but not limited to policies and guidelines regarding parking and parking charges, employee incentives for commuting by other than single-occupant automobiles, flexible and alternative work schedules, alternative worksites, and the use of state-owned vehicles for car and van pools and guaranteed rides home. The policies and guidelines shall also consider the costs and benefits to state agencies of achieving commute trip reductions and consider mechanisms for funding state agency commute trip reduction programs.

(2) State agencies sharing a common location in affected urban growth areas where the total number of state employees is one hundred or more shall, with assistance from the department of transportation, develop and implement a joint commute trip reduction program. The worksite must be treated as specified in RCW 70.94.531 and 70.94.534.

(3) The department of transportation shall develop a joint comprehensive commute trip reduction plan for all state agencies, including institutions of higher education, located in the Olympia, Lacey, and Tumwater urban growth areas.

(a) In developing the joint comprehensive commute trip reduction plan, the department of transportation shall work with applicable state agencies, including institutions of higher education, and shall collaborate with the following entities: Local jurisdictions; regional transportation planning organizations as described in chapter 47.80 RCW; transit agencies, including regional transit authorities as described in chapter 81.112 RCW and transit agencies that serve areas within twenty-five miles of the Olympia, Lacey, or Tumwater urban growth areas; and the capitol campus design advisory committee established in RCW 43.34.080.

(b) The joint comprehensive commute trip reduction plan must build on existing commute trip reduction programs and policies. At a minimum, the joint comprehensive commute trip reduction plan must include strategies for telework and flexible work schedules, parking management, and consideration of the impacts of worksite location and design on multimodal transportation options.

(c) The joint comprehensive commute trip reduction plan must include performance measures and reporting methods and requirements.

(d) The joint comprehensive commute trip reduction plan may include strategies to accommodate differences in worksite size and location.

(e) The joint comprehensive commute trip reduction plan must be consistent with jurisdictional and regional transportation, land use, and commute trip reduction plans, the state six-year facilities plan, and the master plan for the capitol of the state of Washington.

(f) Not more than ninety days after the adoption of the joint comprehensive commute trip reduction plan, state agencies within the three urban growth areas must implement a commute trip reduction program consistent with the objectives and strategies of the joint comprehensive commute trip reduction plan.

(4) The department of transportation shall review the initial commute trip reduction program of each state agency subject to the commute trip reduction plan for state agencies to determine if the program is likely to meet the applicable commute trip reduction goals and notify the agency of any deficiencies. If it is found that the program is not likely to meet the applicable commute trip reduction goals, the department of transportation will work with the agency to modify the program as necessary.

(5) Each state agency implementing a commute trip reduction plan shall report at least once per year to its agency director on the performance of the agency’s commute trip reduction program as part of the agency’s quality management, accountability, and performance system as defined by RCW 43.17.385. The reports shall assess the performance of the program, progress toward state goals established under RCW 70.94.537, and recommendations for improving the program.

(6) The department of transportation shall review the agency performance reports defined in subsection (5) of this section and submit a biennial report for state agencies subject to this chapter to the governor and incorporate the report in the commute trip reduction board report to the legislature as directed in RCW 70.94.537(6). The report shall include, but is not limited to, an evaluation of the most recent measurement results, progress toward state goals established under RCW 70.94.537, and recommendations for improving the performance of state agency commute trip reduction programs. The information shall be reported in a form established by the commute trip reduction board. [2009 c 427 § 3; 2006 c 329 § 11; 1997 c 250 § 6; 1996 c 186 § 516; 1991 c 202 § 19.]

70.94.555 Transportation demand management—Collective bargaining powers unaffected. Nothing in chapter 329, Laws of 2006 preempts the ability of state employees to collectively bargain over commute trip reduction issues, including parking fees under chapter 41.80 RCW, or the ability of private sector employees to collectively bargain over commute trip reduction issues if previously such issues were mandatory subjects of collective bargaining. [2006 c 329 § 3.]

70.94.600 Reports of authorities to department of ecology—Contents. All authorities in the state shall submit quarterly reports to the department of ecology detailing the current status of air pollution control regulations in the authority and, by county, the progress made toward bringing all sources in the authority into compliance with authority standards. [1979 ex.s.s. c 30 § 14; 1969 ex.s.s. c 168 § 52.]

(1) The department of ecology and local air pollution control authorities shall report back to the appropriate standing committees of the legislature by December 31, 2014, and every two years thereafter, on progress toward achieving attainment for areas of nonattainment that the revised burn ban and prohibition requirements contained in RCW 70.94.473 and 70.94.477 were enacted to address, as well as whether other implementation tools are necessary to achieve attainment.

(2) This section expires January 1, 2019. [2012 c 219 § 3.]

70.94.610 Burning used oil fuel in land-based facilities. (1) Except as provided in subsection (2) of this section, a person may not burn used oil fuel in a land-based facility or in state waters unless the used oil meets the following standards:

70.94.640 Odors or fugitive dust caused by agricultural activities consistent with good agricultural practices exempt from chapter. (1) Odors or fugitive dust caused by agricultural activity consistent with good agricultural practices on agricultural land are exempt from the requirements of this chapter unless they have a substantial adverse effect on public health. In determining whether agricultural activity is consistent with good agricultural practices, the department of ecology or board of any authority shall consult with a recognized third-party expert in the activity prior to issuing any notice of violation.

(2) Any notice of violation issued under this chapter pertaining to odors or fugitive dust caused by agricultural activity shall include a statement as to why the activity is inconsistent with good agricultural practices, or a statement that the odors or fugitive dust have substantial adverse effect on public health.

(3) In any appeal to the pollution control hearings board or any judicial appeal, the agency issuing a final order pertaining to odors or fugitive dust caused by agricultural activity shall prove the activity is inconsistent with good agricultural practices or that the odors or fugitive dust have a substantial adverse impact on public health.

(4) If a person engaged in agricultural activity on a contiguous piece of agricultural land sells or has sold a portion of that land for residential purposes, the exemption of this section shall not apply.

(5) As used in this section:

(a) "Agricultural activity" means the growing, raising, or production of horticultural or viticultural crops, berries, poultry, livestock, shellfish, grain, mint, hay, and dairy products.
(b) "Good agricultural practices" means economically feasible practices which are customary among or appropriate to farms and ranches of a similar nature in the local area.
(c) "Agricultural land" means at least five acres of land devoted primarily to the commercial production of livestock, agricultural commodities, or cultured aquatic products.
(d) "Fugitive dust" means a particulate emission made airborne by human activity, forces of wind, or both, and which do not pass through a stack, chimney, vent, or other functionally equivalent opening.

(6) The exemption for fugitive dust provided in subsection (1) of this section does not apply to facilities subject to RCW 70.94.151 as specified in WAC 173-400-100 as of July 24, 2005, 70.94.152, or 70.94.161. [2005 c 511 § 4; 1981 c 297 § 30.]

Legislative finding, intent—1981 c 297: "The legislature finds that agricultural land is essential to providing citizens with food and fiber and to...
insuring aesthetic values through the preservation of open spaces in our state. The legislature further finds that government regulations can cause agricultural land to be converted to nonagricultural uses. The legislature intends that agricultural activity consistent with good practices be protected from government over-regulation."

Reviser's note: The above legislative finding and intent section apparently applies to sections 30 and 31 of chapter 297, Laws of 1981, which sections have been codified pursuant to legislative direction as RCW 70.94.640 and 90.48.450, respectively.

70.94.6514 Outdoor burning—Areas where prohibited—Exceptions—Use for management of storm or flood-related debris—Silvicultural burning.

(1) Consistent with the policy of the state to reduce outdoor burning to the greatest extent practical, outdoor burning shall not be allowed in:

(a) Any area of the state where federal or state ambient air quality standards are exceeded for pollutants emitted by outdoor burning; or

(b) Any urban growth area as defined by RCW 36.70A.030, or any city of the state having a population greater than ten thousand people if such cities are threatened to exceed state or federal air quality standards, and alternative disposal practices consistent with good solid waste management are reasonably available or practices eliminating production of organic refuse are reasonably available.

(2) Notwithstanding any other provision of this section, outdoor burning may be allowed for the exclusive purpose of managing storm or flood-related debris. The decision to allow burning shall be made by the entity with permitting jurisdiction as determined under RCW 70.94.6534 or 70.94.6518. If outdoor burning is allowed in areas subject to subsection (1)(a) or (b) of this section, a permit shall be required, and a fee may be collected to cover the expenses of administering and enforcing the permit. All conditions and restrictions pursuant to RCW 70.94.6526(1) and 70.94.6512 apply to outdoor burning allowed under this section.

(3)(a) Outdoor burning that is normal, necessary, and customary to ongoing agricultural activities, that is consistent with agricultural burning authorized under RCW 70.94.6528 and 70.94.6532, is allowed within the urban growth area in accordance with RCW 70.94.6528(8)(a).

(b) Outdoor burning of cultivated orchard trees shall be allowed as an ongoing agricultural activity under this section in accordance with RCW 70.94.6528(8)(b).

70.94.6516 Outdoor burning—Permits issued by political subdivisions. In addition to any other powers granted to them by law, the fire protection agency, county, or conservation district issuing burning permits shall regulate or prohibit outdoor burning as necessary to prevent or abate the nuisances caused by such burning. No fire protection agency, county, or conservation district issuing burning permits may issue a burning permit in an area where the department or local board has declared any stage of impaired air quality per RCW 70.94.473 or any stage of an air pollution episode. All burning permits issued shall be subject to all applicable fee, permitting, penalty, and enforcement provisions of this chapter. The permitted burning shall not cause damage to public health or the environment.

Any entity issuing a permit under this section may charge a fee at the level necessary to recover the costs of administering and enforcing the permit program. [1991 c 199 § 411; 1973 1st ex.s. c 193 § 10. Formerly RCW 70.94.780.]

(1) It shall be the responsibility and duty of the department of natural resources, department of ecology, department of agriculture, fire districts, and local air pollution control authorities to establish, through regulations, ordinances, or policy, a limited burning permit program.

(2) The permit program shall apply to residential and land clearing burning in the following areas:
(a) In the nonurban areas of any county with an unincorporated population of greater than fifty thousand; and
(b) In any city and urban growth area that is not otherwise prohibited from burning pursuant to RCW 70.94.6514.

(3) The permit program shall apply only to land clearing burning in the nonurban areas of any county with an unincorporated population of less than fifty thousand.

(4) The permit program may be limited to a general permit by rule, or by verbal, written, or electronic approval by the permitting entity.

(8) As used in this section, "nonurban areas" are unincorporated areas within a county that are not designated as urban growth areas under chapter 36.70A RCW.

(9) Nothing in this section shall require fire districts to enforce air quality requirements related to outdoor burning, unless the fire district enters into an agreement with the department of ecology, department of natural resources, a local air pollution control authority, or other appropriate entity to provide such enforcement. [2009 c 118 § 301; 1991 c 206 § 1; 1991 c 199 § 401; 1972 ex.s. c 136 § 2. Formerly RCW 70.94.745.]

70.94.6528 Permits—Issuance—Conditioning of permits—Fees—Agricultural burning practices and research task force—Development of public education materials—Agricultural activities. (1) Any person who proposes to set fires in the course of agricultural activities shall obtain a permit from an air pollution control authority, the department of ecology, or a local entity delegated permitting authority under RCW 70.94.6530. General permit criteria of statewide applicability shall be established by the department, by rule, after consultation with the various air pollution control authorities.

(2012 Ed.)
(a) Permits shall be issued under this section based on seasonal operations or by individual operations, or both.

(b) Incidental agricultural burning consistent with provisions established in RCW 70.94.6524 is allowed without applying for any permit and without the payment of any fee.

(2) The department of ecology, local air authorities, or a local entity with delegated permit authority shall:

(a) Condition all permits to ensure that the public interest in air, water, and land pollution and safety to life and property is fully considered;

(b) Condition all burning permits to minimize air pollution insofar as practical;

(c) Act upon, within seven days from the date an application is filed under this section, an application for a permit to set fires in the course of agricultural burning for controlling diseases, insects, weed abatement, or development of physiological conditions conducive to increased crop yield;

(d) Provide convenient methods for issuance and oversight of agricultural burning permits; and

(e) Work, through agreement, with counties and cities to provide convenient methods for granting permission for agricultural burning, including telephone, facsimile transmission, issuance from local city or county offices, or other methods.

(3) A local air authority administering the permit program under subsection (2) of this section shall not limit the number of days of allowable agricultural burning, but may consider the time of year, meteorological conditions, and other criteria specified in rules adopted by the department to implement subsection (2) of this section.

(4) In addition to following any other requirements established by the department to protect air quality pursuant to other laws, applicants for permits must show that the setting of fires as requested is the most reasonable procedure to follow in safeguarding life or property under all circumstances or is otherwise reasonably necessary to successfully carry out the enterprise in which the applicant is engaged, or both. Nothing in this section relieves the applicant from obtaining permits, licenses, or other approvals required by any other law.

(5) The department of ecology, the appropriate local air authority, or a local entity with delegated permitting authority pursuant to RCW 70.94.6530 at the time the permit is issued shall assess and collect permit fees for burning under this section. All fees collected shall be deposited in the air pollution control account created in RCW 70.94.015, except for that portion of the fee necessary to cover local costs of administering a permit issued under this section. Fees shall be set by rule by the permitting agency at the level determined by the task force created by subsection (6) of this section, but fees for field burning shall not exceed three dollars and seventy-five cents per acre to be burned, or in the case of pile burning shall not exceed one dollar per ton of material burned.

(6) An agricultural burning practices and research task force shall be established under the direction of the department. The task force shall be composed of a representative from the department who shall serve as chair; one representative of eastern Washington local air authorities; three representatives of the agricultural community from different agricultural pursuits; one representative of the department of agriculture; two representatives from universities or colleges knowledgeable in agricultural issues; one representative of the public health or medical community; and one representative of the conservation districts. The task force shall:

(a) Identify best management practices for reducing air contaminant emissions from agricultural activities and provide such information to the department and local air authorities;

(b) Determine the level of fees to be assessed by the permitting agency pursuant to subsection (5) of this section, based upon the level necessary to cover the costs of administering and enforcing the permit programs, to provide funds for research into alternative methods to reduce emissions from such burning, and to the extent possible be consistent with fees charged for such burning permits in neighboring states. The fee level shall provide, to the extent possible, for lesser fees for permittees who use best management practices to minimize air contaminant emissions;

(c) Identify research needs related to minimizing emissions from agricultural burning and alternatives to such burning; and

(d) Make recommendations to the department on priorities for spending funds provided through this chapter for research into alternative methods to reduce emissions from agricultural burning.

(7) Conservation districts and the Washington State University agricultural extension program in conjunction with the department shall develop public education material for the agricultural community identifying the health and environmental effects of agricultural outdoor burning and providing technical assistance in alternatives to agricultural outdoor burning.

(8) Outdoor burning that is normal, necessary, and customary to ongoing agricultural activities, that is consistent with agricultural burning authorized under this section and RCW 70.94.6532, is allowed within the urban growth area as described in RCW 70.94.6514 if the burning is not conducted during air quality episodes, or where a determination of impaired air quality has been made as provided in RCW 70.94.473, and the agricultural activities preceded the designation as an urban growth area.

(b) Outdoors burning of cultivated orchard trees, whether or not agricultural crops will be replanted on the land, shall be allowed as an ongoing agricultural activity under this section if a local horticultural pest and disease board formed under chapter 15.09 RCW, an extension office agent with Washington State University that has horticultural experience, or an entomologist employed by the department of agriculture, has determined in writing that burning is an appropriate method to prevent or control the spread of horticultural pests or diseases. seeds. The university may not charge more than the amount that is collected from an approved alternative for the same purposes.

(1) The department shall approve of a study or studies for the exploration and identification of economical and practical alternate agricultural practices to such burning, and to provide for interim regulation of such burning until practical alternates are found.

(2) The department shall allocate moneys annually for the support of any approved study or studies as provided for in subsection (1) of this section. The fee collected under subsection (1) of this section shall constitute the research portion of fees required under RCW 70.94.6528 for open burning of grass grown for seed.

(3) Whenever on the basis of information available to it, the department after public hearings have been conducted wherein testimony will be received and considered from interested parties wishing to testify shall conclude that any procedure, program, technique, or device constitutes a practical alternate agricultural practice to the open burning of field or turf grasses grown for seed, the department shall, by order, certify approval of such alternate. Thereafter, in any case in which any such approved alternate is reasonably available, the open burning of field and turf grasses grown for seed shall be disallowed and no permit shall issue therefor.

(4) Until approved alternates become available, the department or the authority may limit the number of acres on a pro rata basis among those affected for which permits to burn will be issued in order to effectively control emissions from this source.

(5) Permits issued for burning of field and turf grasses may be conditioned to minimize emissions as practical, including denial of permission to burn during periods of adverse meteorological conditions.

(6) Every two years until grass seed burning is prohibited, Washington State University may prepare a brief report assessing the potential of the university’s research to result in economical and practical alternatives to grass seed burning. The report may be conditioned to minimize emissions insofar as practical, including denial of permission to burn during periods of adverse meteorological conditions.

70.94.6534 Burning permits for abating or prevention of forest fire hazards, management of ecosystems, instruction or silvicultural operations—Issuance. (1) The department of natural resources shall have the responsibility for issuing and regulating burning permits required by it relating to the following activities for the protection of life or property and/or for the public health, safety, and welfare:

(a) Abating a forest fire hazard;
(b) Prevention of a fire hazard;
(c) Instruction of public officials in methods of forest firefighting;
(d) Any silvicultural operation to improve the forest lands of the state; and
(e) Silvicultural burning used to improve or maintain fire dependent ecosystems for rare plants or animals within state, federal, and private natural area preserves, natural resource conservation areas, parks, and other wildlife areas.

(2) The department of natural resources shall not retain such authority, but it shall be the responsibility of the appropriate fire protection agency for permitting and regulating outdoor burning on lands where the department of natural resources does not have fire protection responsibility.

(3) Permit fees shall be assessed for silvicultural burning under the jurisdiction of the department of natural resources and assessed by the department of natural resources as provided for in this section. All fees shall be deposited in the air pollution control account, created in RCW 70.94.015. The legislature shall appropriate to the department of natural resources funds from the air pollution control account to enforce and administer the program under this section and RCW 70.94.6536, 70.94.6538, and 70.94.6540. Fees shall be set by rule by the department of natural resources at the level necessary to cover the costs of the program after receiving recommendations on such fees from the public.

(2012 Ed.)
70.94.6536  Silvicultural forest burning—Reduce statewide emissions—Exemption—Monitoring program. (1) The department of natural resources shall administer a program to reduce statewide emissions from silvicultural forest burning so as to achieve the following minimum objectives:

(a) Twenty percent reduction by December 31, 1994 providing a ceiling for emissions until December 31, 2000; and

(b) Fifty percent reduction by December 31, 2000 providing a ceiling for emissions thereafter.

Reductions shall be calculated from the average annual emissions level from calendar years 1985 to 1989, using the same methodology for both reduction and base year calculations.

(2) The department of natural resources, within twelve months after May 15, 1991, shall develop a plan, based upon the existing smoke management agreement to carry out the programs as described in this section in the most efficient, cost-effective manner possible. The plan shall be developed in consultation with the department of ecology, public and private landowners engaged in silvicultural forest burning, and representatives of the public.

The plan shall recognize the variations in silvicultural forest burning including, but not limited to, a landowner’s responsibility to abate an extreme fire hazard under chapter 76.04 RCW and other objectives of burning, including abating and preventing a fire hazard, geographic region, climate, elevation and slope, proximity to populated areas, and diversity of land ownership. The plan shall establish priorities that the department of natural resources shall use to allocate allowable emissions, including but not limited to, silvicultural burning used to improve or maintain fire dependent ecosystems for rare plants or animals within state, federal, and private natural area preserves, natural resource conservation areas, parks, and other wildlife areas. The plan shall also recognize the real costs of the emissions program and recommend equitable fees to cover the costs of the program.

The emission reductions in this section are to apply to all forest lands including those owned and managed by the United States. If the United States does not participate in implementing the plan, the departments of natural resources and ecology shall use all appropriate and available methods or enforcement powers to ensure participation.

The plan shall include a tracking system designed to measure the degree of progress toward the emission reductions goals set in this section. The department of natural resources shall report annually to the department of ecology and the legislature on the status of the plan, emission reductions and progress toward meeting the objectives specified in this section, and the goals of this chapter and chapter 76.04 RCW.

(3) If the December 31, 1994, emission reductions targets in this section are not met, the department of natural resources, in consultation with the department of ecology, shall use its authority granted in this chapter and chapter 76.04 RCW to immediately limit emissions from such burning to the 1994 target levels and limit silvicultural forest burning in subsequent years to achieve equal annual incremental reductions so as to achieve the December 31, 2000, target level. If, as a result of the program established in this section, the emission reductions are met in 1994, but are not met by December 31, 2000, the department of natural resources in consultation with the department of ecology shall immediately limit silvicultural forest burning to reduce emissions from such burning to the December 31, 2000, target level in all subsequent years.

(4) Emissions from silvicultural burning in eastern Washington that is conducted for the purpose of restoring forest health or preventing the additional deterioration of forest health are exempt from the reduction targets and calculations in this section if the following conditions are met:

(a) The landowner submits a written request to the department identifying the location of the proposed burning and the nature of the forest health problem to be corrected. The request shall include a brief description of alternatives to silvicultural burning and reasons why the landowner believes the alternatives not to be appropriate.

(b) The department determines that the proposed silvicultural burning operation is being conducted to restore forest health or prevent additional deterioration to forest health; meets the requirements of the state smoke management plan to protect public health, visibility, and the environment; and will not be conducted during an air pollution episode or during periods of impaired air quality in the vicinity of the proposed burn.

(c) Upon approval of the request by the department and before burning, the landowner is encouraged to notify the public in the vicinity of the burn of the general location and approximate time of ignition.

(5) The department of ecology may conduct a limited, seasonal ambient air quality monitoring program to measure the effects of forest health burning conducted under subsection (4) of this section. The monitoring program may be developed in consultation with the department of natural resources, private and public forest landowners, academic experts in forest health issues, and the general public. Finding—1991 c 199: See note following RCW 70.94.011.

70.94.6538  Burning permits for abating or prevention of forest fire hazards, management of ecosystems, instruction or silvicultural operations—Conditions for issuance and use of permits—Air quality standards to be met—Alternate methods to lessen forest debris. The department of natural resources in granting burning permits for fires for the purposes set forth in RCW 70.94.6534 shall condition the issuance and use of such permits to comply with air quality standards established by the department of ecology after full consultation with the department of natural resources. Such burning shall not cause the state air quality standards to be exceeded in the ambient air up to two thousand feet above ground level over critical areas designated by the department of ecology, otherwise subject to air pollution from other sources. Air quality standards shall be established and published by the department of ecology which shall also establish a procedure for advising the department of natural resources when and where air contaminant levels exceed or threaten to exceed the ambient air standards over such critical areas. The air quality shall be quantitatively measured by the [Title 70 RCW—page 238]
department of ecology or the appropriate local air pollution control authority at established monitoring stations over such designated areas. Further, such permitted burning shall not cause damage to public health or the environment. All permits issued under this section shall be subject to all applicable fees, permitting, penalty, and enforcement provisions of this chapter. The department of natural resources shall set forth smoke dispersal objectives designed consistent with this section to minimize any air pollution from such burning and the procedures necessary to meet those objectives.

The department of natural resources shall encourage more intense utilization in logging and alternative silviculture practices to reduce the need for burning. The department of natural resources shall, whenever practical, encourage landowners to develop and use alternative acceptable disposal methods subject to the following priorities: (1) Slash production minimization, (2) slash utilization, (3) nonburning disposal, (4) silvicultural burning. Such alternative methods shall be evaluated as to the relative impact on air, water, and land pollution, public health, and their financial feasibility.

The department of natural resources shall not issue burning permits and shall revoke previously issued permits at any time in any area where the department of ecology or local board has declared a stage of impaired air quality as defined in RCW 70.94.473. [2009 c 118 § 502; 1991 c 199 § 405; 1971 ex.s. c 232 § 3. Formerly RCW 70.94.670.]

In the regulation of outdoor burning not included in RCW 70.94.6534 requiring permits from the department of natural resources, said department and the state, local, or regional air pollution control authorities will cooperate in regulating such burning so as to minimize insofar as possible duplicate inspections and separate permits while still accomplishing the objectives and responsibilities of the respective agencies. The department of natural resources shall include any local authority’s burning regulations with permits issued where applicable pursuant to RCW 70.94.6512, 70.94.6514, 70.94.6518, 70.94.6520, 70.94.6522, 70.94.6524, and 70.94.6526. The department shall develop agreements with all local authorities to coordinate regulations.

Permits shall be withheld by the department of natural resources when so requested by the department of ecology if a forecast, alert, warning, or emergency condition exists as defined in the episode criteria of the department of ecology. 70.94.6546 Aircraft crash rescue fire training—Training to fight structural fires—Training to fight forest fires—Other firefighter instruction. (1) Aircraft crash rescue fire training activities meeting the following conditions do not require a permit under this section, or under RCW 70.94.6512, 70.94.6514, 70.94.6516, 70.94.6518, 70.94.6520, 70.94.6522, 70.94.6524, and 70.94.6526, from an air pollution control authority, the department, or any local entity with delegated permit authority:
(a) Firefighters participating in the training fires must be limited to those who provide firefighting support to an airport that is either certified by the federal aviation administration or operated in support of military or governmental activities;
(b) The fire training may not be conducted during an air pollution episode or any stage of impaired air quality declared under RCW 70.94.715 for the area where training is to be conducted;
(c) The number of training fires allowed per year without a permit shall be the minimum number necessary to meet federal aviation administration or other federal safety requirements;
(d) The facility shall use current technology and be operated in a manner that will minimize, to the extent possible, the air contaminants generated during operation; and
(e) The organization conducting training shall notify both the: (i) Local fire district or fire department; and (ii) air pollution control authority, department of ecology, or local entity delegated permitting authority under RCW 70.94.6530, having jurisdiction within the area where training is to be conducted before the commencement of aircraft fire training. Written approval from the department or a local air pollution control authority shall be obtained prior to the initial operation of aircraft crash rescue fire training. Such approval will be granted to fire training activities meeting the conditions in this subsection.
(2) Aircraft crash rescue fire training activities conducted in compliance with subsection (1) of this section are not subject to the prohibition, in RCW 70.94.6512(1), of outdoor fires containing petroleum products and are not considered outdoor burning under RCW 70.94.6512, 70.94.6514, 70.94.6516, 70.94.6518, 70.94.6520, 70.94.6522, 70.94.6524, and 70.94.6526.
(3) Training to fight structural fires located outside urban growth areas in counties that plan under the requirements of RCW 36.70A.040 and outside of any city with a population of ten thousand or more in all other counties does not need a permit under this section from an air pollution control authori-
ity or the department of ecology, but must be conducted in accordance with RCW 52.12.150.

(4) Training to fight forest fires does not require a permit from an air pollution control authority or the department of ecology.

(5) To provide for firefighting instruction in instances not governed by subsections (1) through (3) of this section, or other actions to protect public health and safety, the department or a local air pollution control authority may issue permits that allow limited burning of prohibited materials listed in RCW 70.94.6512(1). Purpose—2009 c 118: See note following RCW 70.94.6511.

70.94.6548 Outdoor burning allowed for managing storm or flood-related debris. Consistent with RCW 70.94.6514, outdoor burning may be allowed anywhere in the state for the exclusive purpose of managing storm or flood-related debris. [2009 c 118 § 701.]

Purpose—2009 c 118: See note following RCW 70.94.6511.

70.94.6550 Fires necessary for Indian ceremonies or smoke signals. Nothing in this chapter prohibits fires necessary for Indian ceremonies or for the sending of smoke signals if part of a religious ritual. Permits issued for burning under this section shall be drafted to minimize emissions including denial of permission to burn during periods of adverse meteorological conditions. [2009 c 118 § 702.]

Purpose—2009 c 118: See note following RCW 70.94.6511.

70.94.6552 Permit to set fires for weed abatement. Any person who proposes to set fires in the course of weed abatement shall obtain a permit from an air pollution control authority, the department of ecology, or a local entity delegated permitting authority under RCW 70.94.6530. General permit criteria of statewide applicability shall be established by the department, by rule, after consultation with the various air pollution control authorities. Permits shall be issued under this section based on seasonal operations or by individual operations, or both. All permits shall be conditioned to insure that the public interest in air, water, and land pollution and safety to life and property is fully considered. In addition to any other requirements established by the department to protect air quality pursuant to other laws, applicants for permits must show that the setting of fires as requested is the most reasonable procedure to follow in safeguarding life or property under all circumstances or is otherwise reasonably necessary to successfully carry out the enterprise in which the applicant is engaged, or both. All burning permits will be designed to minimize air pollution insofar as practical. Nothing in this section relieves the applicant from obtaining permits, licenses, or other approvals required by any other law. An application for a permit to set fires in the course of weed abatement shall be acted upon within seven days from the date such application is filed. [2009 c 118 § 704.]

Purpose—2009 c 118: See note following RCW 70.94.6511.

70.94.6554 Disposal of tumbleweeds. Consistent with RCW 70.94.6524, neither a permit nor the payment of a fee shall be required for outdoor burning for the purpose of disposal of tumbleweeds blown by wind. Such burning shall not be conducted during an air pollution episode or any stage of impaired air quality declared under RCW 70.94.715. This section shall only apply within counties with a population less than two hundred fifty thousand. [2009 c 118 § 705.]

Purpose—2009 c 118: See note following RCW 70.94.6511.

70.94.710 Air pollution episodes—Legislative finding—Declaration of policy. The legislature finds that whenever meteorological conditions occur which reduce the effective volume of air into which air contaminants are introduced, there is a high danger that normal operations at air contaminant sources in the area affected will be detrimental to public health or safety. Whenever such conditions, herein designated as air pollution episodes, are forecast, there is a need for rapid short-term emission reduction in order to avoid adverse health or safety consequences.

Therefore, it is declared to be the policy of this state that an episode avoidance plan should be developed and implemented for the temporary reduction of emissions during air pollution episodes.

It is further declared that power should be vested in the governor to issue emergency orders for the reduction or discontinuance of emissions when such emissions and weather combine to create conditions imminently dangerous to public health and safety. [1971 ex.s. c 194 § 1.]

70.94.715 Air pollution episodes—Episode avoidance plan—Contents—Source emission reduction plans—Authority—Considered orders. The department of ecology is hereby authorized to develop an episode avoidance plan providing for the phased reduction of emissions wherever and whenever an air pollution episode is forecast. Such an episode avoidance plan shall conform with any applicable federal standards and shall be effective statewide. The episode avoidance plan may be implemented on an area basis in accordance with the occurrence of air pollution episodes in any given area.

The department of ecology may delegate authority to adopt source emission reduction plans and authority to implement all stages of occurrence up to and including the warning stage, and all intermediate stages up to the warning stage, in any area of the state, to the air pollution control authority with jurisdiction therein.

The episode avoidance plan, which shall be established by regulation in accordance with chapter 34.05 RCW, shall include, but not be limited to, the following:

(1) The designation of episode criteria and stages, the occurrence of which will require the carrying out of preplanned episode avoidance procedures. The stages of occurrence shall be (a) forecast, (b) alert, (c) warning, (d) emergency, and such intermediate stages as the department shall designate. "Forecast" means the presence of meteorological conditions that are conducive to accumulation of air contaminants and is the first stage of an episode. The department shall not call a forecast episode prior to the department or an authority calling a first stage impaired air quality condition as provided by RCW 70.94.473(1)(b) or calling a single-stage impaired air quality condition as provided by *RCW 70.94.473(2). "Alert" means concentration of air contaminants at levels at which short-term health effects may occur, and is the second stage of an episode. "Warning" means concentrations are continuing to degrade, contaminant concen-
trations have reached a level which, if maintained, can result in damage to health, and additional control actions are needed and is the third level of an episode. “Emergency” means the air quality is posing an imminent and substantial endangerment to public health and is the fourth level of an episode;

(2) The requirement that persons responsible for the operation of air contaminant sources prepare and obtain approval from the director of source emission reduction plans, consistent with good operating practice and safe operating procedures, for reducing emissions during designated episode stages;

(3) Provision for the director of the department of ecology or his or her authorized representative, or the air pollution control officer if implementation has been delegated, on the satisfaction of applicable criteria, to declare and terminate the forecast, alert, warning and all intermediate stages, up to the warning episode stage, such declarations constituting orders for action in accordance with applicable source emission reduction plans;

(4) Provision for the governor to declare and terminate the emergency stage and all intermediate stages above the warning episode stage, such declarations constituting orders in accordance with applicable source emission reduction plans;

(5) Provisions for enforcement by state and local police, personnel of the departments of ecology and social and health services, and personnel of local air pollution control agencies; and

(6) Provisions for reduction or discontinuance of emissions immediately, consistent with good operating practice and safe operating procedures, under an air pollution emergency as provided in RCW 70.94.720.

Source emission reduction plans shall be considered in the determination of the order of the department and shall be subject to appeal to the pollution control hearings board according to the procedure in chapter 43.21B RCW. [1971 ex.s. c 194 § 2]

*Reviser’s note: RCW 70.94.473 was amended by 1995 c 205 § 1, which deleted subsection (2).*

70.94.720 Air pollution episodes—Declaration of air pollution emergency by governor. Whenever the governor finds that emissions from the operation of one or more air contaminant sources is causing imminent danger to public health or safety, he or she may declare an air pollution emergency and may order the person or persons responsible for the operation of such air contaminant source or sources to reduce or discontinue emissions consistent with good operating practice and safe operating procedures, under an air pollution emergency as provided in RCW 70.94.720.

Source emission reduction plans shall be considered in the determination of the order of the department and shall be subject to appeal to the pollution control hearings board according to the procedure in chapter 43.21B RCW. [1971 ex.s. c 194 § 2]

*Reviser’s note: RCW 70.94.473 was amended by 1995 c 205 § 1, which deleted subsection (2).*

70.94.725 Air pollution episodes—Restraining orders, temporary injunctions to enforce orders—Procedure. Whenever any order has been issued pursuant to RCW 70.94.710 through 70.94.730, the attorney general, upon request from the governor, the director of the department of ecology, or an authorized representative of either, or the attorney for a local air pollution control authority upon request of the control officer, shall petition the superior court of the county in which is located the air contaminant source for which such order was issued for a temporary restraining order requiring the immediate reduction or discontinuance of emissions from such source.

Upon request of the party to whom a temporary restraining order is directed, the court shall schedule a hearing thereon at its earliest convenience, at which time the court may withdraw the restraining order or grant such temporary injunction as is reasonably necessary to prevent injury to the public health or safety. [1971 ex.s. c 194 § 4]

70.94.730 Air pollution episodes—Orders to be effective immediately. Orders issued to declare any stage of an air pollution episode avoidance plan under RCW 70.94.715, and to declare an air pollution emergency, under RCW 70.94.720, and orders to persons responsible for the operation of an air contaminant source to reduce or discontinue emissions, according to RCW 70.94.715 and 70.94.720 shall be effective immediately and shall not be stayed pending completion of review. [1971 ex.s. c 194 § 5]

70.94.785 Plans approved pursuant to federal clean air act—Enforcement authority. Notwithstanding any provision of the law to the contrary, except *RCW 70.94.660 through 70.94.690, the department of ecology, upon its approval of any plan (or part thereof) required or permitted under the federal clean air act, shall have the authority to enforce all regulatory provisions within such plan (or part thereof): PROVIDED, That departmental enforcement of any such provision which is within the power of an activated authority to enforce shall be initiated only, when with respect to any source, the authority is not enforcing the provisions and then only after written notice is given the authority. [1973 1st ex.s. c 193 § 11.]

*Reviser’s note: RCW 70.94.660 through 70.94.690 were recodified as RCW 70.94.6534 through 70.94.6540 respectively pursuant to 2009 c 118 § 802.*

70.94.800 Legislative declaration—Intent. The legislature recognizes that:

(1) Acid deposition resulting from commercial, industrial or other emissions of sulphur dioxide and nitrogen oxides pose a threat to the delicate balance of the state’s ecological systems, particularly in alpine lakes that are known to be highly sensitive to acidification;

(2) Failure to act promptly and decisively to mitigate or eliminate this danger may soon result in untold and irreparable damage to the fish, forest, wildlife, agricultural, water, and recreational resources of this state;

(3) There is a direct correlation between emissions of sulphur dioxides and nitrogen oxides and increases in acid deposition;

(4) Acidification is cumulative; and

(5) Once an environment is acidified, it is difficult, if not impossible, to restore the natural balance.
It is therefore the intent of the legislature to provide for early detection of acidification and the resulting environmental degradation through continued monitoring of acid deposition levels and trends, and major source changes, so that the legislature can take any necessary action to prevent environmental degradation resulting from acid deposition. [1985 c 456 § 1; 1984 c 277 § 1.]

70.94.805 Definitions. As used in RCW 70.94.800 through *70.94.825, the following terms have the following meanings.

(1) "Acid deposition" means wet or dry deposition from the atmosphere of chemical compounds with a pH of less than 5.6.

(2) "Critical level of acid deposition and lake, stream, and soil acidification" means the level at which irreparable damage may occur unless corrective action is taken. [1985 c 456 § 2; 1984 c 277 § 2.]

*Reviser's note: RCW 70.94.810, 70.94.815, and 70.94.825 were repealed by 1991 c 199 § 718.

70.94.820 Monitoring by department of ecology. The department of ecology shall maintain a program of periodic monitoring of acid rain deposition and lake, stream, and soil acidification to ensure early detection of acidification and environmental degradation. [1987 c 505 § 61; 1985 c 456 § 5; 1984 c 277 § 6.]

70.94.850 Emission credits banking program—Amount of credit. The department of ecology and the local boards may implement an emission credits banking program. For the purposes of this section, an emission credits banking program means a program whereby an air contaminant source which reduces emissions of a given air contaminant by an amount greater than that required by applicable law, regulation, or order is granted credit for a given amount, which credit shall be administered by a credit bank operated by the appropriate agency. The amount of the credit shall be determined by the department or local board with jurisdiction, but it shall be less than the amount of the emissions reduction. The credit may be used, traded, sold, or otherwise expended for purposes established by regulation of state or local agencies consistent with the provisions of the prevention of significant deterioration program under RCW 70.94.860, the bubble program under RCW 70.94.155, and the new source review program under RCW 70.94.152, if there will be no net adverse impact on air quality. [1984 c 164 § 1.]

70.94.860 Department of ecology may accept delegation of programs. The department of ecology may accept delegation of programs as provided for in the federal clean air act. Subject to federal approval, the department may, in turn, delegate such programs to the local authority with jurisdiction in a given area. [1991 c 199 § 312; 1984 c 164 § 2.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.875 Evaluation of information on acid deposition in Pacific Northwest—Establishment of critical levels—Notification of legislature. The department of ecology, in consultation with the appropriate committees of the house of representatives and of the senate, shall:

(1) Continue evaluation of information and research on acid deposition in the Pacific Northwest region;

(2) Establish critical levels of acid deposition and lake, stream, and soil acidification; and

(3) Notify the legislature if acid deposition or lake, stream, and soil acidification reaches the levels established under subsection (2) of this section. [1991 c 199 § 313; 1985 c 456 § 3.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.880 Establishment of critical deposition and acidification levels—Considerations. In establishing critical levels of acid deposition and lake, stream, and soil acidification, the department of ecology shall consider:

(1) Current acid deposition and lake, stream, and soil acidification levels;

(2) Changes in acid deposition and lake, stream, and soil acidification levels;

(3) Effects of acid deposition and lake, stream, and soil acidification on the environment; and

(4) The need to prevent environmental degradation. [1985 c 456 § 4.]

70.94.892 Carbon dioxide mitigation—Fees. (1) For fossil-fueled electric generation facilities having more than twenty-five thousand kilowatts station generating capability but less than three hundred fifty thousand kilowatts station generation capability, except for fossil-fueled floating thermal electric generation facilities under the jurisdiction of the energy facility site evaluation council pursuant to RCW 80.50.010, the department or authority shall implement a carbon dioxide mitigation program consistent with the requirements of chapter 80.70 RCW.

(2) For mitigation projects conducted directly by or under the control of the applicant, the department or local air authority shall approve or deny the mitigation plans, as part of its action to approve or deny an application submitted under RCW 70.94.152 based upon whether or not the mitigation plan is consistent with the requirements of chapter 80.70 RCW.

(3) The department or authority may determine, assess, and collect fees sufficient to cover the costs to review and approve or deny the carbon dioxide mitigation plan components of an order of approval issued under RCW 70.94.152. The department or authority may also collect fees sufficient to cover its additional costs to monitor conformance with the carbon dioxide mitigation plan components of the registration and air operating permit programs authorized in RCW 70.94.151 and 70.94.161. The department or authority shall track its costs related to review, approval, and monitoring conformance with carbon dioxide mitigation plans. [2004 c 224 § 8.]

If any phrase, clause, subsection or section of this 1967 amendatory act shall be declared unconstitutional or invalid by any court of competent jurisdiction, it shall be conclusively presumed that the legislature would have enacted this act without the phrase, clause, subsection or section so held unconstitutional or invalid and the remainder of the act shall not be affected as a result of said part being held unconstitutional or invalid. [1967 c 238 § 64.]

70.94.960 Clean fuel matching grants for public transit, vehicle mechanics, and refueling infrastructure. The department may disburse matching grants from funds provided by the legislature from the air pollution control account, created in RCW 70.94.015, to units of local government to partially offset the additional cost of purchasing "clean fuel" and/or operating "clean-fuel vehicles" provided that such vehicles are used for public transit. Publicly owned school buses are considered public transit for the purposes of this section. The department may also disburse grants to Washington State University for the purpose of furthering the establishment of clean fuel refueling infrastructure. [1996 c 186 § 517; 1991 c 199 § 218.]

70.94.996 Grant program for ride sharing. (Expires January 1, 2014.) (1) To the extent that funds are appropriated, the department of transportation shall administer a performance-based grant program for private employers, public agencies, nonprofit organizations, developers, and property managers who provide financial incentives for ride sharing in vehicles carrying two or more persons, for using public transportation, for using car sharing, or for using nonmotorized commuting, including telework, before July 1, 2013, to their own or other employees.

(2) The amount of the grant will be determined based on the value to the transportation system of the vehicle trips reduced. The *commute trip reduction task force shall* determine the greatest reduction in trips and commute miles per public dollar requested and considering the following criteria: The local cost of providing new highway capacity, congestion levels, and geographic distribution.

(3) No private employer, public agency, nonprofit organization, developer, or property manager is eligible for grants under this section in excess of one hundred thousand dollars in any fiscal year.

70.95.010 Legislative finding—Priorities—Goals.

The legislature finds:

(1) Continuing technological changes in methods of manufacture, packaging, and marketing of consumer products, together with the economic and population growth of this state, the rising affluence of its citizens, and its expanding industrial activity have created new and ever-mounting problems involving disposal of garbage, refuse, and solid waste materials resulting from domestic, agricultural, and industrial activities.

(2) Traditional methods of disposing of solid wastes in this state are no longer adequate to meet the ever-increasing problem. Improper methods and practices of handling and disposal of solid wastes pollute our land, air and water resources, blight our countryside, adversely affect land values, and damage the overall quality of our environment.

(3) Considerations of natural resource limitations, energy shortages, economics and the environment make necessary the development and implementation of solid waste recovery and/or recycling plans and programs.

(4) Waste reduction must become a fundamental strategy of solid waste management. It is therefore necessary to change manufacturing and purchasing practices and waste generation behaviors to reduce the amount of waste that becomes a governmental responsibility.

(5) Source separation of waste must become a fundamental strategy of solid waste management. Collection and handling strategies should have, as an ultimate goal, the source separation of all materials with resource value or environmental hazard.

(6)(a) It should be the goal of every person and business to minimize their production of wastes and to separate recyclable or hazardous materials from mixed waste.

(b) It is the responsibility of state, county, and city governments to provide for a waste management infrastructure to fully implement waste reduction and source separation strategies and to process and dispose of remaining wastes in a manner that is environmentally safe and economically sound.

(c) It is the responsibility of county and city governments to assume primary responsibility for solid waste management and to develop and implement aggressive and effective waste reduction and source separation strategies.

(d) It is the responsibility of state government to ensure that local governments are providing adequate source reduction and separation opportunities and incentives to all, including persons in both rural and urban areas, and nonresidential waste generators such as commercial, industrial, and institutional.
tional entities, recognizing the need to provide flexibility to accommodate differing population densities, distances to and availability of recycling markets, and collection and disposal costs in each community; and to provide county and city governments with adequate technical resources to accomplish this responsibility.

(7) Environmental and economic considerations in solving the state’s solid waste management problems requires strong consideration by local governments of regional solutions and intergovernmental cooperation.

(8) The following priorities for the collection, handling, and management of solid waste are necessary and should be followed in descending order as applicable:

(a) Waste reduction;
(b) Recycling, with source separation of recyclable materials as the preferred method;
(c) Energy recovery, incineration, or landfill of separated waste;
(d) Energy recovery, incineration, or landfill of mixed municipal solid wastes.

(9) It is the state’s goal to achieve a fifty percent recycling rate by 2007.

(10) It is the state’s goal that programs be established to eliminate residential or commercial yard debris in landfills by 2012 in those areas where alternatives to disposal are readily available and effective.

(11) Steps should be taken to make recycling at least as affordable and convenient to the ratepayer as mixed waste disposal.

(12) It is necessary to compile and maintain adequate data on the types and quantities of solid waste that are being generated and to monitor how the various types of solid waste are being managed.

(13) Vehicle batteries should be recycled and the disposal of vehicle batteries into landfills or incinerators should be discontinued.

(14) Excessive and nonrecyclable packaging of products should be avoided.

(15) Comprehensive education should be conducted throughout the state so that people are informed of the need to reduce, source separate, and recycle solid waste.

(16) All governmental entities in the state should set an example by implementing aggressive waste reduction and recycling programs at their workplaces and by purchasing products that are made from recycled materials and are recyclable.

(17) To ensure the safe and efficient operations of solid waste disposal facilities, it is necessary for operators and regulators of landfills and incinerators to receive training and certification.

(18) It is necessary to provide adequate funding to all levels of government so that successful waste reduction and recycling programs can be implemented.

(19) The development of stable and expanding markets for recyclable materials is critical to the long-term success of the state’s recycling goals. Market development must be encouraged on a state, regional, and national basis to maximize its effectiveness. The state shall assume primary responsibility for the development of a multifaceted market development program to carry out the purposes of this act.

(20) There is an imperative need to anticipate, plan for, and accomplish effective storage, control, recovery, and recycling of discarded tires and other problem wastes with the subsequent conservation of resources and energy. [2002 c 299 § 3; 1989 c 431 § 1; 1985 c 345 § 1; 1984 c 123 § 1; 1975-76 2nd ex.s. c 41 § 1; 1969 ex.s. c 134 § 1.]

70.95.020 Purpose. The purpose of this chapter is to establish a comprehensive statewide program for solid waste handling, and solid waste recovery and/or recycling which will prevent land, air, and water pollution and conserve the natural, economic, and energy resources of this state. To this end it is the purpose of this chapter:

(1) To assign primary responsibility for adequate solid waste handling to local government, reserving to the state, however, those functions necessary to assure effective programs throughout the state;

(2) To provide for adequate planning for solid waste handling by local government;

(3) To provide for the adoption and enforcement of basic minimum performance standards for solid waste handling, including that all sites where recyclable materials are generated and transported from shall provide a separate container for solid waste;

(4) To encourage the development and operation of waste recycling facilities needed to accomplish the management priority of waste recycling, to promote consistency in the requirements for such facilities throughout the state, and to ensure that recyclable materials diverted from the waste stream for recycling are routed to facilities in which recycling occurs;

(5) To provide technical and financial assistance to local governments in the planning, development, and conduct of solid waste handling programs;

(6) To encourage storage, proper disposal, and recycling of discarded vehicle tires and to stimulate private recycling programs throughout the state; and

(7) To encourage the development and operation of waste recycling facilities and activities needed to accomplish the management priority of waste recycling and to promote consistency in the permitting requirements for such facilities and activities throughout the state.

It is the intent of the legislature that local governments be encouraged to use the expertise of private industry and to contract with private industry to the fullest extent possible to carry out solid waste recovery and/or recycling programs. [2005 c 394 § 2. Prior: 1998 c 156 § 1; 1998 c 90 § 1; 1985 c 345 § 2; 1975-76 2nd ex.s. c 41 § 2; 1969 ex.s. c 134 § 2.]

70.95.060 Standards for solid waste handling—Areas—Landfill location. (1) The department shall adopt rules establishing minimum functional standards for solid waste handling, consistent with the standards specified in this section. The department may classify areas of the state with respect to population density, climate, geology, and other relevant factors bearing on solid waste disposal standards.

(2) In addition to the minimum functional standards adopted by the department under subsection (1) of this section, each landfill facility whose area at its design capacity will exceed one hundred acres and whose horizontal height at design capacity will average one hundred feet or more above existing site elevations shall comply with the standards of this subsection. This subsection applies only to wholly new solid waste landfill facilities, no part or unit of which has had construction commence before April 27, 1999.

(a) No landfill specified in this subsection may be located:

(i) So that the active area is closer than five miles to any national park or a public or private nonprofit zoological park displaying native animals in their native habitats; or

(ii) Over a sole source aquifer designated under the federal safe drinking water act, if such designation was effective before January 1, 1999.

(b) Each landfill specified in this subsection (2) shall be constructed with an impermeable berm around the entire perimeter of the active area of the landfill of such height, thickness, and design as will be sufficient to contain all material disposed in the event of a complete failure of the structural integrity of the landfill. [1999 c 116 § 1; 1969 ex.s. c 134 § 6.]

70.95.065 Inert waste landfills. (1) The department shall, as part of the minimum functional standards for solid waste handling required under RCW 70.95.060, develop specific criteria for the types of solid wastes that are allowed to be received by inert waste landfills that seek to continue operation after February 10, 2003.

(2) The criteria for inert waste developed under this section must, at a minimum, contain a list of substances that an inert waste landfill located in a county with fewer than forty-five thousand residents is permitted to receive if it was operational before February 10, 2003, and is located at a site with a five-year annual rainfall of twenty-five inches or less. The substances permitted for the inert waste landfills satisfying the criteria listed in this subsection must include the following types of solid waste if the waste has not been tainted, through exposure from chemical, physical, biological, or radiological substances, such that it presents a threat to human health or the environment greater than that inherent to the material:

(a) Cured concrete, including any embedded steel reinforcing and wood;

(b) Asphalvic materials, including road construction asphalt;

(c) Brick and masonry;

(d) Ceramic materials produced from fired clay or porcelain;

(e) Glass;

(f) Stainless steel and aluminum; and

(g) Other materials as defined in chapter 173-350 WAC.

(3) The department shall work with the owner or operators of landfills that do not meet the minimum functional standards for inert waste landfills to explore and implement appropriate means of transition into a limited purpose landfill that is able to accept additional materials as specified in WAC 173-350-400. [2004 c 101 § 2.]

70.95.075 Implementation of standards—Assessment—Analyses—Proposals. In order to implement the minimum functional standards for solid waste handling, evaluate the effectiveness of the minimum functional standards, evaluate the cost of implementation, and develop a mechanism to finance the implementation, the department shall prepare:

(1) An assessment of local health agencies’ information on all existing permitted landfill sites, including (a) measures and facilities installed at each landfill to mitigate surface water and groundwater contamination, (b) proposed measures taken and facilities to be constructed at each landfill to mitigate surface water and groundwater contamination, and (c) the costs of such measures and facilities;

(2) An analysis of the effectiveness of the minimum functional standards for new landfills in lessening surface water and groundwater contamination, and a comparison with the effectiveness of the prior standards;

(3) An analysis of the costs of conforming with the new functional standards for new landfills compared with the costs of conforming to the prior standards; and

(4) Proposals for methods of financing the costs of conforming with the new functional standards. [1986 c 81 § 1.]

70.95.080 County comprehensive solid waste management plan—Joint plans—Requirements when updating—Duties of cities. (1) Each county within the state, in cooperation with the various cities located within such county, shall prepare a coordinated, comprehensive solid waste management plan. Such plan may cover two or more counties. The purpose is to plan for solid waste and materials reduction, collection, and handling and management services and programs throughout the state, as designed to meet the unique needs of each county and city in the state. When updating a solid waste management plan developed under this chapter, after June 10, 2010, local comprehensive plans must consider and plan for the following handling methods or services:

(a) Source separation of recyclable materials and products, organic materials, and wastes by generators;

(b) Collection of source separated materials;

(c) Handling and proper preparation of materials for reuse or recycling;

(d) Handling and proper preparation of organic materials for composting or anaerobic digestion; and

(e) Handling and proper disposal of nonrecyclable wastes.

(2) When updating a solid waste management plan developed under this chapter, after June 10, 2010, each local
comprehensive plan must, at a minimum, consider methods that will be used to address the following:

(a) Construction and demolition waste for recycling or reuse;
(b) Organic material including yard debris, food waste, and food contaminated paper products for composting or anaerobic digestion;
(c) Recoverable paper products for recycling;
(d) Metals, glass, and plastics for recycling; and
(e) Waste reduction strategies.

(3) Each city shall:
(a) Prepare and deliver to the county auditor of the county in which it is located its plan for its own solid waste management for integration into the comprehensive county plan;
(b) Enter into an agreement with the county pursuant to which the city shall participate in preparing a joint city-county plan for solid waste management; or
(c) Authorize the county to prepare a plan for the city’s solid waste management for inclusion in the comprehensive county plan.

(4) Two or more cities may prepare a plan for inclusion in the county plan. With prior notification of its home county of its intent, a city in one county may enter into an agreement with a city in an adjoining county, or with an adjoining county, or both, to prepare a joint plan for solid waste management to become part of the comprehensive plan of both counties.

(5) After consultation with representatives of the cities and counties, the department shall establish a schedule for the development of the comprehensive plans for solid waste management. In preparing such a schedule, the department shall take into account the probable cost of such plans to the cities and counties.

(6) Local governments shall not be required to include a hazardous waste element in their solid waste management plans. [2010 c 154 § 2; 1985 c 448 § 17; 1969 ex.s. c 134 § 8.]

**Intent—2010 c 154:** “Increasing available residential curbside service for solid waste, recyclable, and compostable materials provides enumerable public benefits for all of Washington. Not only will increased service provide better system-wide efficiency, but it will also result in job creation, pollution reduction, and energy conservation, all of which serve to improve the quality of life in Washington communities.

It is therefore the intent of the legislature that Washington strive[s] to significantly increase current residential recycling rates by 2020.” [2010 c 154 § 1.]

**Scope of authority—2010 c 154:** “Nothing in this act changes or limits the authority of the Washington utilities and transportation commission to regulate collection of solid waste, including curbside collection of residential recyclable materials, nor does this act change or limit the authority of a city or town to provide such service itself or by contract under RCW 81.77.020.” [2010 c 154 § 5.]

Finding—1991 c 298: See note following RCW 70.95.030.

Certain provisions not to detract from utilities and transportation commission powers, duties, and functions: RCW 80.01.300.

70.95.092 County and city comprehensive solid waste management plans—Levels of service, reduction and recycling. Levels of service shall be defined in the waste reduction and recycling element of each local comprehensive solid waste management plan and shall include the services set forth in RCW 70.95.090. In determining which service level is provided to residential and nonresidential waste generators in each community, counties and cities shall develop clear criteria for designating areas as urban or rural. In designating urban areas, local governments shall consider the planning guidelines adopted by the department, total population, population density, and any applicable land use or utility service plans. [1989 c 431 § 4.]

70.95.094 County and city comprehensive solid waste management plans—Review and approval process. (1) The department and local governments preparing plans are encouraged to work cooperatively during plan development. Each county and city preparing a comprehensive solid waste management plan shall submit a preliminary draft plan to the department for technical review. The department shall review and comment on the draft plan within one hundred twenty days of receipt. The department’s comments shall state specific actions or revisions that must be completed for plan approval.

(2) Each final draft solid waste management plan shall be submitted to the department for approval. The department will limit its comments on the final draft plans to those issues identified during its review of the draft plan and any other changes made between submittal of the preliminary draft and final draft plans. Disapproval of the local comprehensive solid waste management plan shall be supported by specific findings. A final draft plan shall be deemed approved if the department does not disapprove it within forty-five days of receipt.

(3) If the department disapproves a plan or any plan amendments, the submitting entity may appeal the decision to the pollution control hearings board as provided in RCW 43.21B.230. The appeal shall be limited to review of the specific findings which supported the disapproval under subsection (2) of this section. [2010 c 210 § 17; 1989 c 431 § 8.]

Intent—Effective dates—Application—Pending cases and rules—2010 c 210: See notes following RCW 43.21B.001.

70.95.096 Utilities and transportation commission to review local plan’s assessment of cost impacts on rates. Upon receipt, the department shall immediately provide the utilities and transportation commission with a copy of each preliminary draft local comprehensive solid waste management plan. Within forty-five days after receiving a plan, the commission shall have reviewed the plan’s assessment of solid waste collection cost impacts on rates charged by solid waste collection companies regulated under chapter 81.77 RCW and shall advise the county or city submitting the plan and the department of the probable effect of the plan’s recommendations on those rates. [1989 c 431 § 12.]

70.95.100 Technical assistance for plan preparation—Guidelines—Informational materials and programs. (1) The department or the commission, as appropriate, shall provide to counties and cities technical assistance including, but not limited to, planning guidelines, in the preparation, review, and revision of solid waste management plans required by this chapter. Guidelines prepared under this section shall be consistent with the provisions of this chapter. Guidelines for the preparation of the waste reduction and recycling element of the comprehensive solid waste management plan shall be completed by the department by March 15, 1990. These guidelines shall provide recommendations to local government on materials to be considered for designation as recyclable materials. The state solid waste management plan prepared pursuant to RCW 70.95.260 shall be consistent with these guidelines.

(2) The department shall be responsible for development and implementation of a comprehensive statewide public information program designed to encourage waste reduction, source separation, and recycling by the public. The department shall operate a toll free hot line to provide the public information on waste reduction and recycling.

(3) The department shall provide technical assistance to local governments in the development and dissemination of informational materials and related activities to assure recognition of unique local waste reduction and recycling programs.

(4) Local governments shall make all materials and information developed with the assistance grants provided under RCW 70.95.130 available to the department for potential use in other areas of the state. [1989 c 431 § 6; 1984 c 123 § 6; 1969 ex.s. c 134 § 10.]
70.95.110 Maintenance of plans—Review, revisions—Implementation of source separation programs.

(1) The comprehensive county solid waste management plans and any comprehensive city solid waste management plans prepared in accordance with RCW 70.95.080 shall be maintained in a current condition and reviewed and revised periodically by counties and cities as may be required by the department. Upon each review such plans shall be extended to show long-range needs for solid waste handling facilities for twenty years in the future, and a revised construction and capital acquisition program for six years in the future. Each revised solid waste management plan shall be submitted to the department.

Each plan shall be reviewed and revised within five years of July 1, 1984, and thereafter shall be reviewed, and revised if necessary according to the schedule provided in subsection (2) of this section.

(2) Cities and counties preparing solid waste management plans shall submit the waste reduction and recycling element required in RCW 70.95.090 and any revisions to other elements of its comprehensive solid waste management plan to the department no later than:

(b) July 1, 1992, for class two areas; and
(c) July 1, 1994, for class three areas.

Thereafter, each plan shall be reviewed and revised, if necessary, at least every five years. Nothing in chapter 431, Laws of 1989 shall prohibit local governments from submitting a plan prior to the dates listed in this subsection.

(3) The classes of areas are defined as follows:

(a) Class one areas are the counties of Spokane, Snohomish, King, Pierce, and Kitsap and all the cities therein.
(b) Class two areas are all other counties located west of the crest of the Cascade mountains and all the cities therein.
(c) Class three areas are the counties east of the crest of the Cascade mountains and all the cities therein, except for Spokane county.

(4) Cities and counties shall begin implementing the programs to collect source separated materials no later than one year following the adoption and approval of the waste reduction and recycling element and these programs shall be fully implemented within two years of approval. [1991 c 298 § 4; 1989 c 431 § 5; 1984 c 123 § 7; 1969 ex.s. c 134 § 11.]

70.95.130 Financial aid to counties and cities. Any county may apply to the department on a form prescribed thereby for financial aid for the preparation of the comprehensive county plan for solid waste management required by RCW 70.95.080. Any city electing to prepare an independent city plan, a joint city plan, or a joint county-city plan for solid waste management for inclusion in the county comprehensive plan may apply for financial aid for such purpose through the county. Every city application for financial aid for planning shall be filed with the county auditor and shall be included as a part of the county’s application for financial aid. Any city preparing an independent plan shall provide for disposal sites wholly within its jurisdiction.

The department shall allocate to the counties and cities applying for financial aid for planning, such funds as may be available pursuant to legislative appropriations or from any federal grants for such purpose.

The department shall determine priorities and allocate available funds among the counties and cities applying for aid according to criteria established by regulations of the department considering population, urban development, environmental effects of waste disposal, existing waste handling practices, and the local justification of their proposed expenditures. [1969 ex.s. c 134 § 13.]

70.95.140 Matching requirements. Counties and cities shall match their planning aid allocated by the director by an amount not less than twenty-five percent of the estimated cost of such planning. Any federal planning aid made directly to a county or city shall not be considered either a state or local contribution in determining local matching requirements. Counties and cities may meet their share of planning costs by cash and contributed services. [1969 ex.s. c 134 § 14.]

70.95.150 Contracts with counties to assure proper expenditures. Upon the allocation of planning funds as provided in RCW 70.95.130, the department shall enter into a contract with each county receiving a planning grant. The contract shall include such provisions as the director may deem necessary to assure the proper expenditure of such funds including allocations made to cities. The sum allocated to a county shall be paid to the treasurer of such county. [1969 ex.s. c 134 § 15.]

70.95.160 Local board of health regulations to implement the comprehensive plan—Section not to be construed to authorize counties to operate system. Each county, or any city, or jurisdictional board of health shall adopt regulations or ordinances governing solid waste handling implementing the comprehensive solid waste management plan covering storage, collection, transportation, treatment, utilization, processing and final disposal including but not limited to the issuance of permits and the establishment of minimum levels and types of service for any aspect of solid waste handling. County regulations or ordinances adopted regarding levels and types of service shall not apply within the limits of any city where the city has by local ordinance determined that the county shall not exercise such powers within the corporate limits of the city. Such regulations or ordinances shall assure that solid waste storage and disposal facilities are located, maintained, and operated in a manner so as properly to protect the public health, prevent air and water pollution, are consistent with the priorities established in RCW 70.95.010, and avoid the creation of nuisances. Such regulations or ordinances may be more stringent than the minimum functional standards adopted by the department. Regulations or ordinances adopted by counties, cities, or jurisdictional boards of health shall be filed with the department.

Nothing in this section shall be construed to authorize the operation of a solid waste collection system by counties. [1989 c 431 § 10; 1988 c 127 § 29; 1969 ex.s. c 134 § 16.]
70.95.163 Local health departments may contract with the department of ecology. Any jurisdictional health department and the department of ecology may enter into an agreement providing for the exercise by the department of ecology of any power that is specified in the contract and that is granted to the jurisdictional health department under this chapter. However, the jurisdictional health department shall have the approval of the legislative authority or authorities it serves before entering into any such agreement with the department of ecology. [1989 c 431 § 16.]

70.95.165 Solid waste disposal facility siting—Site review—Local solid waste advisory committees—Membership. (1) Each county or city siting a solid waste disposal facility shall review each potential site for conformance with the standards as set by the department for:

(2) The standards in subsection (1) of this section shall be designed to use the best available technology to protect the environment and human health, and shall be revised periodically to reflect new technology and information.

(3) Each county shall establish a local solid waste advisory committee to assist in the development of programs and policies concerning solid waste handling and disposal and to review and comment upon proposed rules, policies, or ordinances prior to their adoption. Such committees shall consist of a minimum of nine members and shall represent a balance of interests including, but not limited to, citizens, public interest groups, business, the waste management industry, and local elected public officials. The members shall be appointed by the county legislative authority. A county or city shall not apply for funds from the state and local improvements revolving account, Waste Disposal Facilities, 1980, under chapter 43.99F RCW, for the preparation, update, or major amendment of a comprehensive solid waste management plan unless the plan or revision has been prepared with the active assistance and participation of a local solid waste advisory committee. [1989 c 431 § 11; 1984 c 123 § 4.]

70.95.167 Private businesses involvement in source separated materials—Local solid waste advisory committee to examine. (1) Each local solid waste advisory committee shall conduct one or more meetings for the purpose of determining how local private recycling and solid waste collection businesses may participate in the development and implementation of programs to collect source separated materials from residences, and to process and market materials collected for recycling. The meetings shall include local private recycling businesses, private solid waste collection companies operating within the jurisdiction, and the local solid waste planning agencies. The meetings shall be held during the development of the waste reduction and recycling element or no later than one year prior to the date that a jurisdiction is required [to] submit the element under RCW 70.95.110(2).

(2) The meeting requirement under subsection (1) of this section shall apply whenever a city or county develops or amends the waste reduction and recycling element required under this chapter. Jurisdictions having approved waste reduction and recycling elements or having initiated a process for the selection of a service provider as of May 21, 1991, do not have to comply with the requirements of subsection (1) of this section until the next revisions to the waste reduction and recycling element are made or required.

(3) After the waste reduction and recycling element is approved by the local legislative authority but before it is submitted to the department for approval, the local solid waste advisory committee shall hold at least one additional meeting to review the element.

(4) For the purpose of this section, "private recycling business" means any private for-profit or private not-for-profit business that engages in the processing and marketing of recyclable materials. [1991 c 319 § 402.]

(1) Applications for permits to operate a new or modified solid waste handling facility shall be on forms prescribed by the department and shall contain a description of the proposed facilities and operations at the site, plans and specifications for any new or additional facilities to be constructed, and such other information as the jurisdictional health department may deem necessary in order to determine whether the site and solid waste disposal facilities located thereon will comply with local and state regulations.

(2) Upon receipt of an application for a permit to establish or modify a solid waste handling facility, the jurisdictional health department shall refer one copy of the application to the department which shall report its findings to the jurisdictional health department.

(3) The jurisdictional health department shall investigate every application as may be necessary to determine whether a proposed or modified site and facilities meet all solid waste, air, and other applicable laws and regulations, and conforms with the approved comprehensive solid waste handling plan, and complies with all zoning requirements.

(4) When the jurisdictional health department finds that the permit should be issued, it shall issue such permit. Every application shall be approved or disapproved within ninety days after its receipt by the jurisdictional health department.
(5) The jurisdictional board of health may establish reasonable fees for permits and renewal of permits. All permit fees collected by the health department shall be deposited in the treasury and to the account from which the health department’s operating expenses are paid. [1997 c 213 § 3; 1988 c 127 § 30; 1969 ex.s. c 134 § 18.]

70.95.190 Permit for solid waste handling facility—Renewal—Appeal—Validity of renewal—Review fees. (1) Every permit for an existing solid waste handling facility issued pursuant to RCW 70.95.180 shall be renewed at least every five years on a date established by the jurisdictional health department having jurisdiction of the site and as specified in the permit. If a permit is to be renewed for longer than one year, the local jurisdictional health department may hold a public hearing before making such a decision. Prior to renewing a permit, the health department shall conduct a review as it deems necessary to assure that the solid waste handling facility or facilities located on the site continues to meet minimum functional standards of the department, applicable local regulations, and are not in conflict with the approved solid waste management plan. A jurisdictional health department shall approve or disapprove a permit renewal within forty-five days of conducting its review. The department shall review and may appeal the renewal as set forth for the approval of permits in RCW 70.95.185.

(2) The jurisdictional board of health may establish reasonable fees for permits reviewed under this section. All permit fees collected by the health department shall be deposited in the treasury and to the account from which the health department’s operating expenses are paid. [1998 c 36 § 18.]

70.95.200 Permit for solid waste disposal site or facilities—Suspension. Any permit for a solid waste disposal site issued as provided herein shall be subject to suspension at any time the jurisdictional health department determines that the site or the solid waste disposal facilities located on the site are being operated in violation of this chapter, or the regulations of the department or local laws and regulations. [1969 ex.s. c 134 § 20.]

70.95.205 Exemption from solid waste permit requirements—Waste-derived soil amendments—Application—Revocation of exemption—Appeal. (1) Waste-derived soil amendments that meet the standards and criteria in this section may apply for exemption from solid waste permitting as required under RCW 70.95.170. The application shall be submitted to the department in a format determined by the department or an equivalent format. The application shall include:

(a) Analytical data showing that the waste-derived soil amendments meet standards established under RCW 15.54.800; and

(b) Other information deemed appropriate by the department to protect human health and the environment.

(2) After receipt of an application, the department shall review it to determine whether the application is complete, and forward a copy of the complete application to all interested jurisdictional health departments for review and comment. Within forty-five days, the jurisdictional health departments shall forward their comments and any other information they deem relevant to the department, which shall then give final approval or disapproval of the application. Every complete application shall be approved or disapproved by the department within ninety days after receipt.

(3) The department, after providing opportunity for comments from the jurisdictional health departments, may at any time revoke an exemption granted under this section if the quality or use of the waste-derived soil amendment changes or the management, storage, or end use of the waste-derived soil amendment constitutes a threat to human health or the environment.

(4) Any aggrieved party may appeal the determination by the department in subsection (2) or (3) of this section to the pollution control hearings board. [1998 c 36 § 18.]

Intent—1998 c 36: See RCW 15.54.265.

70.95.210 Hearing—Appeal—Denial, suspension—When effective. Whenever the jurisdictional health department denies a permit or suspends a permit for a solid waste disposal site, it shall, upon request of the applicant or holder of the permit, grant a hearing on such denial or suspension within thirty days after the request therefor is made. Notice of the hearing shall be given to all interested parties, including the county or city having jurisdiction over the site and the department. Within thirty days after the hearing, the health officer shall notify the applicant or the holder of the permit in writing of his or her determination and the reasons therefor. Any party aggrieved by such determination may appeal to the pollution control hearings board by filing with the hearings board a notice of appeal within thirty days after receipt of notice of the determination of the health officer. The hearings board shall hold a hearing in accordance with the provisions of the administrative procedure act, chapter 34.05 RCW. If the jurisdictional health department denies a permit renewal or suspends a permit for an operating waste recycling facility that receives waste from more than one city or county, and the applicant or holder of the permit requests a
hearing or files an appeal under this section, the permit denial or suspension shall not be effective until the completion of the appeal process under this section, unless the jurisdictional health department declares that continued operation of the waste recycling facility poses a very probable threat to human health and the environment. [2012 c 117 § 411; 1998 c 90 § 3; 1987 c 109 § 21; 1969 ex.s. c 134 § 21.]

70.95.212 Solid waste collection companies—Notice of changes in tipping fees and disposal rate schedules. To provide solid waste collection companies with sufficient time to prepare and submit tariffs and rate filings for public comment and commission approval, the owner or operator of a transfer station, landfill, or facility used to burn solid waste shall provide seventy-five days’ notice to solid waste collection companies of any change in tipping fees and disposal rate schedules. The notice period shall begin on the date individual notice to a collection company is delivered to the company or is postmarked.

A collection company may agree to a shorter notice period: PROVIDED, That such agreement by a company shall not affect the notice requirements for rate filings under RCW 81.28.050.

The owner of a transfer station, landfill or facility used to burn solid waste may agree to provide companies with a longer notice period.

"Solid waste collection companies" as used in this section means the companies regulated by the commission pursuant to chapter 81.77 RCW. [1993 c 300 § 3.]

70.95.215 Landfill disposal facilities—Reserve accounts required by July 1, 1987—Exception—Rules. (1) By July 1, 1987, each holder or applicant of a permit for a landfill disposal facility issued under this chapter shall establish a reserve account to cover the costs of closing the facility in accordance with state and federal regulations. The account shall be designed to ensure that there will be adequate revenue available by the projected date of closure. A landfill disposal facility maintained on private property for the sole use of the entity owning the site and a landfill disposal facility operated and maintained by a government shall not be required to establish a reserve account if, to the satisfaction of the department, the entity or government provides another form of financial assurance adequate to comply with the requirements of this section.

(2) By July 1, 1986, the department shall adopt rules under chapter 34.05 RCW to implement subsection (1) of this section. The department is not required to adopt rules pertaining to other approved forms of financial assurance to cover the costs of closing a landfill disposal facility. The rules shall include but not be limited to:

(a) Methods to estimate closure costs, including postclosure monitoring, pollution prevention measures, and any other procedures required under state and federal regulations;

(b) Methods to ensure that reserve accounts receive adequate funds, including:

(i) Requirements that the reserve account be generated by user fees. However, the department may waive this requirement for existing landfills if user fees would be prohibitively high;

(ii) Requirements that moneys be placed in the reserve account on a regular basis and that the reserve account be kept separate from all other accounts; and

(iii) Procedures for the department to verify that adequate sums are deposited in the reserve account; and

(c) Methods to ensure that other types of financial assurance provided in accordance with subsection (1) of this section are adequate to cover the costs of closing the facility. [2000 c 114 § 1; 1985 c 436 § 1.]

70.95.217 Waste generated outside the state—Findings. The legislature finds that:

(1) The state of Washington has responded to the increasing challenges of safe, affordable disposal of solid waste by an ambitious program of waste reduction, recycling and reuse, as well as strict standards to ensure the safe handling, transportation, and disposal of solid waste;

(2) All communities in Washington participate in these programs through locally available recycling services, increased source separation and material recovery requirements, programs for waste reduction and product reuse, and performance standards that apply to all solid waste disposal facilities in the state;

(3) New requirements for the siting and performance of disposal facilities have greatly decreased the number of such facilities in Washington, and the state has a significant interest in ensuring adequate disposal capacity within the state;

(4) The landfilling, incineration, and other disposal of solid waste may adversely impact public health and environmental quality, and the state has a significant interest in decreasing volumes of the waste stream destined for disposal;

(5) Because of the decreasing number of disposal facilities and other reasons, solid waste is being transported greater distances, often beyond the community where generated and is increasingly being transported between states;

(6) Washington’s waste management priorities and programs are a balanced approach of increased reuse, recycling and waste reduction, the strengthening of markets for recycled content products, and the safe disposal of the remaining waste stream, with the costs of these programs shared equitably by all persons generating waste in the state;

(7) Those residing in other states who generate waste destined for disposal within Washington should also share the costs of waste diversion and management of Washington’s disposal facilities, so that the risks of waste disposal and the costs of mitigating those risks are shared equitably by all waste generators, regardless of their location;

(8) Because Washington state may not directly regulate waste handling, reduction, and recycling activities beyond its state boundaries, the only reasonable alternative to ensure this equitable treatment of waste being disposed within Washington is to implement a program of reviewing such activities as to waste originating outside of Washington, and to assign the additional costs, when necessary, to ensure that the waste meets standards substantially equivalent to those applicable to waste generated within the state, and, in some cases, to prohibit disposal of waste where its generation and management is not subject to standards substantially equiva-
lent to those applicable to waste generated within the state. [1993 c 286 § 1.]

70.95.218 Waste generated outside the state—Solid waste disposal site facility reporting requirements—Fees. (1) At least sixty days prior to receiving solid waste generated from outside of the state, the operator of a solid waste disposal site facility shall report to the department the types and quantities of waste to be received from an out-of-state source. The department shall develop guidelines for reporting this information. The guidelines shall provide for less than sixty days notice for shipments of waste made on a short-term or emergency basis. The requirements of this subsection shall take effect upon completion of the guidelines.

(2) Upon notice under subsection (1) of this section, the department shall identify all activities and costs necessary to ensure that solid waste generated out-of-state meets standards relating to solid waste reduction, recycling, and management substantially equivalent to those required of solid waste generated within the state. The department may assess a fee on the out-of-state waste sufficient to recover the actual costs incurred in ensuring that the out-of-state waste meets equivalent state standards. The department may delegate, to a local health department, authority to implement the activities identified by the department under this subsection. All money received from fees imposed under this subsection shall be deposited into the solid waste management account created by *RCW 70.95.800, and shall be used solely for the activities required by this section.

(3) The department may prohibit in-state disposal of solid waste generated from outside of the state, unless the generators of the waste meet: (a) Waste reduction and recycling requirements substantially equivalent to those applicable in Washington state; and (b) solid waste handling standards substantially equivalent to those applicable in Washington state.

(4) The department may adopt rules to implement this section. [1993 c 286 § 2.]

*Reviser's note: RCW 70.95.800 was repealed by 2000 c 150 § 2, effective July 1, 2001.

70.95.220 Financial aid to jurisdictional health departments—Applications—Allocations. Any jurisdictional health department may apply to the department for financial aid for the enforcement of rules and regulations promulgated under this chapter. Such application shall contain such information, including budget and program description, as may be prescribed by regulations of the department.

After receipt of such applications the department may allocate available funds according to criteria established by regulations of the department considering population, urban development, the number of the disposal sites, and geographical area. The sum allocated to a jurisdictional health department shall be paid to the treasury from which the operating expenses of the health department are paid, and shall be used exclusively for inspections and administrative expenses necessary to enforce applicable regulations. [1969 ex.s. c 134 § 22.]

70.95.230 Financial aid to jurisdictional health departments—Matching funds requirements. The jurisdictional health department applying for state assistance for the enforcement of this chapter shall match such aid allocated by the department in an amount not less than twenty-five percent of the total amount spent for such enforcement activity during the year. The local share of enforcement costs may be met by cash and contributed services. [1969 ex.s. c 134 § 23.]

70.95.235 Diversion of recyclable material—Penalty. (1) No person may divert to personal use any recyclable material placed in a container as part of a recycling program, without the consent of the generator of such recyclable material, and the solid waste collection company operating under the authority of a town, city, county, or the utilities and transportation commission, and no person may divert to commercial use any recyclable material placed in a container as part of a recycling program, without the consent of the person owning or operating such container.

(2) A violation of subsection (1) of this section is a class 1 civil infraction under chapter 7.80 RCW. Each violation of this section shall be a separate infraction. [1991 c 319 § 407.]

70.95.240 Unlawful to dump or deposit solid waste without permit—Penalties—Litter cleanup restitution payment. (1) Except as otherwise provided in this section or at a solid waste disposal site for which there is a valid permit, after the adoption of regulations or ordinances by any county, city, or jurisdictional board of health providing for the issuance of permits as provided in RCW 70.95.160, it is unlawful for any person to dump or deposit or permit the dumping or depositing of any solid waste onto or under the surface of the ground or into the waters of this state.

(2) This section does not:

(a) Prohibit a person from dumping or depositing solid waste resulting from his or her own activities onto or under the surface of ground owned or leased by him or her when such action does not violate statutes or ordinances, or create a nuisance;

(b) Apply to a person using a waste-derived soil amendment that has been approved by the department under RCW 70.95.205; or

(c) Apply to the application of commercial fertilizer that has been registered with the department of agriculture as provided in RCW 15.54.325, and that is applied in accordance with the standards established in RCW 15.54.800(3).

(3)(a) It is a class 3 civil infraction as defined in RCW 7.80.120 for a person to litter in an amount less than or equal to one cubic foot.

(b)(i) It is a misdemeanor for a person to litter in an amount greater than one cubic foot but less than one cubic yard.

(ii) A person found to have littered in an amount greater than one cubic foot, but less than one cubic yard, shall also pay a litter cleanup restitution payment. This payment must be the greater of twice the actual cost of removing and properly disposing of the litter, or fifty dollars per cubic foot of litter.

(iii) The court shall distribute one-half of the restitution payment to the landowner where the littering occurred and
one-half of the restitution payment to the jurisdictional health department investigating the incident. If the landowner provided written permission authorizing the littering on his or her property or assisted a person with littering on the landowner’s property, the landowner is not entitled to any restitution ordered by the court and the full litter cleanup restitution payment must be provided to the jurisdictional health department investigating the incident.

(iv) A jurisdictional health department receiving all or a portion of a litter cleanup restitution payment must use the payment as follows:

(A) One-half of the payment may be used by the jurisdictional health department in the fulfillment of its responsibilities under this chapter; and

(B) One-half of the payment must be used to assist property owners located within the jurisdiction of the health department with the removal and proper disposal of litter in instances when the person responsible for the illegal dumping of the solid waste cannot be determined.

(v) The court may, in addition to the litter cleanup restitution payment, order the person to remove and properly dispose of the litter from the property, with prior permission of the legal owner or, in the case of public property, of the agency managing the property. The court may suspend or modify the litter cleanup restitution payment for a first-time offender under this section if the person removes and properly disposes of the litter.

(4) If a junk vehicle is abandoned in violation of this chapter, RCW 46.55.230 governs the vehicle’s removal, disposal, and sale, and the penalties that may be imposed against the person who abandoned the vehicle.

(5) When enforcing this section, the enforcing authority must take reasonable action to determine and identify the person responsible for illegally dumping solid waste before requiring the owner or lessee of the property where illegal dumping of solid waste has occurred to remove and properly dispose of the litter on the site. [2011 c 279 § 1; 2001 c 139 § 2; 2000 c 154 § 3; 1998 c 36 § 19; 1997 c 427 § 4; 1993 c 292 § 3; 1969 ex.s. c 134 § 24.]

### 70.95.250 Name appearing on waste material—Presumption

Whenever solid wastes dumped in violation of RCW 70.95.240 contain three or more items bearing the name of one individual, there shall be a rebuttable presumption that the individual whose name appears on such items committed the unlawful act of dumping. [1969 ex.s. c 134 § 25.]

### 70.95.255 Disposal of sewage sludge or septic tank sludge prohibited—Exemptions—Uses of sludge material permitted

After January 1, 1988, the department of ecology may prohibit disposal of sewage sludge or septic tank sludge (septage) in landfills for final disposal, except on a temporary, emergency basis, if the jurisdictional health department determines that a potentially unhealthful circumstance exists. Beneficial uses of sludge in landfill reclamation is acceptable utilization and not considered disposal.

The department of ecology shall adopt rules that provide exemptions from this section on a case-by-case basis. Exemptions shall be based on the economic infeasibility of using or disposing of the sludge material other than in a landfill.

The department of ecology, in conjunction with the department of health and the department of agriculture, shall adopt rules establishing labeling and notification requirements for sludge material sold commercially or given away to the public. The department shall specify mandatory wording for labels and notification to warn the public against improper use of the material. [1992 c 174 § 15; 1986 c 297 § 1.]

### 70.95.260 Duties of department—State solid waste management plan—Assistance—Coordination—Tire recycling

70.95.270 Hazardous substance remedial actions—Procedural requirements not applicable. The procedural requirements of this chapter shall not apply to any person conducting a remedial action at a facility pursuant to a consent decree, order, or agreed order issued pursuant to chapter 70.105D RCW, or to the department of ecology when it conducts a remedial action under chapter 70.105D RCW. 70.95.280 Determination of best solid waste management practices—Department to develop method to monitor waste stream—Collectors to report quantity and qual-
ity of waste—Confidentiality of proprietary information. The department of ecology shall determine the best management practices for categories of solid waste in accordance with the priority solid waste management methods established in RCW 70.95.010. In order to make this determination, the department shall conduct a comprehensive solid waste stream analysis and evaluation. Following establishment of baseline data resulting from an initial in-depth analysis of the waste stream, the department shall develop a less intensive method of monitoring the disposed waste stream including, but not limited to, changes in the amount of waste generated and waste type. The department shall monitor curbside collection programs and other waste segregation and disposal technologies to determine, to the extent possible, the effectiveness of these programs in terms of cost and participation, their applicability to other locations, and their implications regarding rules adopted under this chapter. Persons who collect solid waste shall annually report to the department the types and quantities of solid waste that are collected and where it is delivered. The department shall adopt guidelines for reporting and for keeping proprietary information confidential. [1989 c 431 § 13; 1988 c 184 § 1.]

70.95.285 Solid waste stream analysis. The comprehensive, statewide solid waste stream analysis under RCW 70.95.280 shall be based on representative solid waste generation areas and solid waste generation sources within the state. The following information and evaluations shall be included:

(1) Solid waste generation rates for each category;
(2) The rate of recycling being achieved within the state for each category of solid waste;
(3) The current and potential rates of solid waste reduction within the state;
(4) A technological assessment of current solid waste reduction and recycling methods and systems, including cost/benefit analyses;
(5) An assessment of the feasibility of segregating solid waste at: (a) The original source, (b) transfer stations, and (c) the point of final disposal;
(6) A review of methods that will increase the rate of solid waste reduction; and
(7) An assessment of new and existing technologies that are available for solid waste management including an analysis of the associated environmental risks and costs.

The data required by the analysis under this section shall be kept current and shall be available to local governments and the waste management industry. [1988 c 184 § 2.]

70.95.290 Solid waste stream evaluation. (1) The evaluation of the solid waste stream required in RCW 70.95.280 shall include the following elements:
(a) The department shall determine which management method for each category of solid waste will have the least environmental impact; and
(b) The department shall evaluate the costs of various management options for each category of solid waste, including a review of market availability, and shall take into consideration the economic impact on affected parties;
(c) Based on the results of (a) and (b) of this subsection, the department shall determine the best management for each category of solid waste. Different management methods for the same categories of waste may be developed for different parts of the state.
(2) The department shall give priority to evaluating categories of solid waste that, in relation to other categories of solid waste, comprise a large volume of the solid waste stream or present a high potential of harm to human health. At a minimum the following categories of waste shall be evaluated:
(a) By January 1, 1989, yard waste and other biodegradable materials, paper products, disposable diapers, and batteries; and
(b) By January 1, 1990, metals, glass, plastics, styrofoam or rigid lightweight cellular polystyrene, and tires. [1988 c 184 § 3.]

70.95.295 Analysis and evaluation to be incorporated in state solid waste management plan. The department shall incorporate the information from the analysis and evaluation conducted under RCW 70.95.280 through 70.95.290 to the state solid waste management plan under RCW 70.95.260. The plan shall be revised periodically as the evaluation and analysis is updated. [1988 c 184 § 4.]

70.95.300 Solid waste—Beneficial uses—Permitting requirement exemptions. (1) The department may by rule exempt a solid waste from the permitting requirements of this chapter for one or more beneficial uses. In adopting such rules, the department shall specify both the solid waste that is exempted from the permitting requirements and the beneficial use or uses for which the solid waste is so exempted. The department shall consider: (a) Whether the material will be beneficially used or reused; and (b) whether the beneficial use or reuse of the material will present threats to human health or the environment.
(2) The department may also exempt a solid waste from the permitting requirements of this chapter for one or more beneficial uses by approving an application for such an exemption. The department shall establish by rule procedures under which a person may apply to the department for such an exemption. The rules shall establish criteria for providing such an exemption, which shall include, but not be limited to: (a) The material will be beneficially used or reused; and (b) the beneficial use or reuse of the material will not present threats to human health or the environment. Rules adopted under this subsection shall identify the information that an application shall contain. Persons seeking such an exemption shall apply to the department under the procedures established by the rules adopted under this subsection.
(3) After receipt of an application filed under rules adopted under subsection (2) of this section, the department shall review the application to determine whether it is complete, and forward a copy of the completed application to all jurisdictional health departments for review and comment. Within forty-five days, the jurisdictional health departments shall forward to the department their comments and any other information they deem relevant to the department’s decision to approve or disapprove the application. Every complete application shall be approved or disapproved by the department within ninety days of receipt. If the application is approved by the department, the solid waste is exempt from
the permitting requirements of this chapter when used anywhere in the state in the manner approved by the department. If the composition, use, or reuse of the solid waste is not consistent with the terms and conditions of the department’s approval of the application, the use of the solid waste remains subject to the permitting requirements of this chapter.

(4) The department shall establish procedures by rule for providing to the public and the solid waste industry notice of and an opportunity to comment on each application for an exemption under subsection (2) of this section.

(5) Any jurisdictional health department or applicant may appeal the decision of the department to approve or disapprove an application under subsection (3) of this section. The appeal shall be made to the pollution control hearings board by filing with the hearings board a notice of appeal within thirty days of the decision of the department. The hearings board’s review of the decision shall be made in accordance with chapter 43.21B RCW and any subsequent appeal of a decision of the board shall be made in accordance with RCW 43.21B.180.

(6) This section shall not be deemed to invalidate the exemptions or determinations of nonapplicability in the department’s solid waste rules as they exist on June 11, 1998, which exemptions and determinations are recognized and confirmed subject to the department’s continuing authority to modify or revoke those exemptions or determinations by rule.

[1998 c 156 § 2.]

70.95.305 Solid waste handling permit—Exemption from requirements—Application of section—Rules. (1) Notwithstanding any other provision of this chapter, the department may by rule exempt from the requirements to obtain a solid waste handling permit any category of solid waste handling facility that it determines to:

(a) Present little or no environmental risk; and

(b) Meet the environmental protection and performance requirements required for other similar solid waste facilities.

(2) This section does not apply to any facility or category of facilities that:

(a) Receives municipal solid waste destined for final disposal, including but not limited to transfer stations, landfills, and incinerators;

(b) Applies putrescible solid waste on land for final disposal purposes;

(c) Handles mixed solid wastes that have not been processed to segregate solid waste materials destined for disposal from other solid waste materials destined for a beneficial use or recycling;

(e) Receives solid waste destined for recycling or reuse, the operation of which is determined by the department to present risks to human health and the environment.

(3) Rules adopted under this section shall contain such terms and conditions as the department deems necessary to ensure compliance with applicable statutes and rules. If a facility does not operate in compliance with the terms and conditions established for an exemption under subsection (1) of this section, the facility is subject to the permitting requirements for solid waste handling under this chapter.

(4) This section shall not be deemed to invalidate the exemptions or determinations of nonapplicability in the department’s solid waste rules as they exist on June 11, 1998, which exemptions and determinations are recognized and confirmed subject to the department’s continuing authority to modify or revoke those exemptions or determinations by rule.

[2005 c 394 § 3; 1998 c 156 § 5.]

70.95.306 Composting of bovine and equine carcasses—Guidelines—Exemption from solid waste handling rules. (1) By July 1, 2005, the department of ecology and the department of agriculture, in consultation with the department of health, shall make available to livestock producers clearly written guidelines for the composting of bovine and equine carcasses for routine animal disposal.

(2) Composters of bovine and equine carcasses are exempt from the metals testing and permit requirements under the solid waste handling rules for compost that is distributed off-site if the following conditions are met:

(a) The carcasses to be composted are not known or suspected to be affected with a prion-protein disease such as bovine spongiform encephalopathy, a spore-forming disease such as anthrax or other diseases designated by the state veterinarian;

(b) The composter follows the written guidelines provided for in subsection (1) of this section;

(c) The composter does not accept for composting animal mortalities from other sources not directly affiliated with the composter’s operation;

(d) The composter provides information to the end-user that includes the source of the material; the quality of the compost as to its nutrient content, pathogens, and stability; and the restrictions on use of the compost as stated in (f) of this subsection;

(e) The composter reports annually to the department the number of bovines and equines and the amounts of other material composted, including the composter’s best estimate of the tonnage or yardage involved; and

(f) The end-user applies the compost only to agricultural lands that are not used for the production of root crops except as prescribed in the guidelines and ensures no compost comes into contact with the crops harvested from the lands where the compost is applied.

(3) If a compost production facility does not operate in compliance with the terms and conditions established for an exemption in this section, the facility shall be subject to the permitting requirements for solid waste handling under this chapter.

[2005 c 510 § 6.]
used in this section, a jurisdictional health department’s
waiving the requirement that a permit be issued for a facility
under this chapter based on the issuance of such other permits
for the facility is the health department’s "deferring" to the
other permits; and

(b) Allowing deferral only if the applicant and the jurisdic-
tional health department demonstrate that other permits
for the facility will provide a comparable level of protection
for human health and the environment that would be pro-
vided by a solid waste handling permit.

(2) This section does not apply to any transfer station,
landfill, or incinerator that receives municipal solid waste
destined for final disposal.

(3) If, before June 11, 1998, either the department or a
jurisdictional health department has deferred solid waste per-
mitting or regulation of a solid waste facility to permitting or
regulation under other environmental permits for the same
facility, such deferral is valid and shall not be affected by the
rules developed under subsection (1) of this section.

(4) Rules adopted under this section shall contain such
terms and conditions as the department deems necessary to
ensure compliance with applicable statutes and rules. [1998
c 156 § 6.]

civil penalty in an amount not to exceed one thousand dollars
per day per violation to any person exempt from solid waste
permitting in accordance with RCW 70.95.300, 70.95.305,
70.95.306, or 70.95.330 who fails to comply with the terms
and conditions of the exemption. Each such violation shall
be a separate and distinct offense, and in the case of a con-

tinuing violation, each day's continuance shall be a separate
and distinct violation. The penalty provided in this section
shall be imposed pursuant to RCW 43.21B.300.

(2) If a person violates a provision of any of the sections
referenced in subsection (1) of this section, the department
may issue an appropriate order to ensure compliance with the
conditions of the exemption. The order may be appealed pur-
suant to RCW 43.21B.310. [2009 c 178 § 5; 2005 c 510 § 7;
1998 c 156 § 7.]

of health, shall make available to anaerobic digester owners and
operators clearly written guidelines for the anaerobic codi-
gestion of livestock manure and organic waste-derived ma-
terial. The guidelines must explain the steps necessary for an
owner or operator to meet the conditions specified in this sec-
tion for an exemption from the permitting requirements of
this chapter.

(3) Any imported organic waste-derived material must:

(a) Be preconsumer in nature;

(b) Be fed into the anaerobic digester within thirty-six
hours of receipt at the anaerobic digester;

(c) If it is likely to contain animal by-products, be previ-
sously source-separated at a facility licensed to process food
by the United States department of agriculture, the United
States food and drug administration, the Washington state
department of agriculture, or other applicable regulatory
agency;

(d) If it contains bovine processing waste, be derived

(4) Digestate that is managed in accordance with a dairy nutrient management plan under chapter 90.64 RCW that includes elements addressing management and use of digestate shall no longer be considered a solid waste. Use of digestate from an anaerobic digester that complies with the conditions specified in this section is exempt from the permitting requirements of this chapter.

(5) An anaerobic digester that does not comply with the conditions specified in this section may be subject to the permitting requirements of this chapter. In addition, violations of the conditions specified in this section are subject to provisions in RCW 70.95.315.

(6) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise:

(a) "Anaerobic digester" means a vessel that processes organic material into biogas and digestate using microorganisms in a decomposition process within a closed, oxygen-free container.

(b) "Best management practices" means managerial practices that prevent or reduce water pollution.

(c) "Digestate" means both solid and liquid substances that remain following anaerobic digestion of organic material in an anaerobic digester.

(d) "Imported" means originating off of the farm or other site where the anaerobic digester is being operated.

(e) "Organic waste-derived material" has the same meaning as defined in RCW 15.54.270 and any other organic wastes approved by the department, except for organic waste-derived material collected through municipal commercial and residential solid waste collection programs. [2009 c 178 § 1.]

70.95.410 Transporters—Delivery of recyclable materials to transfer station or landfill prohibited—Records—Penalty. (1) A transporter may not deliver any recyclable materials for disposal to a transfer station or landfill.

(2) A transporter shall keep records of locations and quantities specifically identified in relation to a generator’s name, service date, address, and invoice, documenting where recyclables have been sold, delivered for processing, or otherwise marketed. These records must be retained for two years from the date of collection, and must be made accessible for inspection by the department and the local health department.

(3) A transporter who violates the provisions of this section is subject to a civil penalty in an amount up to one thousand dollars per violation. [2005 c 394 § 4.]

Notification must be in writing, and include:
70.95.440 Financial assurance requirements. (1) The department may adopt rules that establish financial assurance requirements for recycling facilities that do not already have financial assurance requirements under this chapter, or are not already specifically exempted from financial assurance requirements under this chapter. The financial assurance requirements must take into consideration the amounts and types of recyclable materials recycled at the facility, and the potential closure and postclosure costs associated with the recycling facility; which assurance may consist of posting of a surety bond in an amount sufficient to meet these requirements or other financial instrument, but in no case less than ten thousand dollars.

(2) A recycling facility is required to meet financial assurance requirements adopted by the department by rule, unless the facility is already required to provide financial assurance under other provisions of this chapter.

(3) Facilities that collect, recover, process, or otherwise recycle scrap metal, processed scrap metal, unprocessed home scrap metal, and unprocessed prompt scrap metal are exempt from the requirements of this section. [2005 c 394 § 8.]

(a) The property is designated by the state, or by any of its agencies or political subdivisions, for the disposal of discarded vehicle tires; and

(b) The person is authorized to use the property for such purpose.

(2) A violation of this section is punishable by a civil penalty, which shall not be less than two hundred dollars nor more than two thousand dollars for each offense.

(3) This section does not apply to the storage or deposit of vehicle tires in quantities deemed exempt under rules adopted by the department of ecology under its functional standards for solid waste. [1985 c 345 § 4.]

70.95.510 Fee on the retail sale of new replacement vehicle tires. (1) There is levied a one dollar per tire fee on the retail sale of new replacement vehicle tires. The fee imposed in this section must be paid by the buyer to the seller, and each seller shall collect from the buyer the full amount of the fee. The fee collected from the buyer by the seller less the ten percent amount retained by the seller as provided in RCW 70.95.535(1) must be paid to the department of revenue in accordance with RCW 82.32.045.

(2) The department of revenue shall incorporate into the agency’s regular audit cycle a reconciliation of the number of tires sold and the amount of revenue collected by the businesses selling new replacement vehicle tires at retail. The department of revenue shall collect on the business excise tax return from the businesses selling new replacement vehicle tires at retail:

Intent—2009 c 261: "The legislature restates its goal to fully clean up unauthorized waste tire piles in Washington state in an expeditious fashion. In partnership with local governments and the private sector, the legislature encourages ongoing efforts to prevent the creation of future unauthorized waste tire piles. The legislature notes a positive trend in tire recycling in recent years and encourages all parties to continue these strong recycling efforts." [2009 c 261 § 1.]

Finding—Intent—2005 c 354: "The legislature finds that discarded tires in unauthorized dump sites pose a health and safety risk to the public. Many of these tire piles have been in existence for a significant amount of time and are a continuing challenge to state and local officials responsible for cleaning up unauthorized dump sites and preventing further accumulation of waste tires. Therefore it is the intent of the legislature to document the extent of the problem, create and fund an effective program to eliminate unauthorized tire piles, and minimize potential future problems and costs." [2005 c 354 § 1.]

[Title 70 RCW—page 262] (2012 Ed.)
70.95.515 Fee on the retail sale of new replacement vehicle tires—Failure to collect, pay to department—Penalties. (1) The fee required by this chapter, to be collected by the seller, shall be deemed to be held in trust by the seller until paid to the department of revenue, and any seller who appropriates or converts the fee collected to his or her own use or to any use other than the payment of the fee to the extent that the money required to be collected is not available for payment on the due date as prescribed in this chapter is guilty of a gross misdemeanor.

(2) In case any seller fails to collect the fee imposed in this chapter or, having collected the fee, fails to pay it to the department of revenue in the manner prescribed by this chapter, whether such failure is the result of his or her own acts or the result of acts or conditions beyond his or her control, he or she shall, nevertheless, be personally liable to the state for the amount of the fee.

(3) The amount of the fee, until paid by the buyer to the seller or to the department of revenue, shall constitute a debt from the buyer to the seller and any seller who fails or refuses to collect the fee as required with intent to violate the provisions of this chapter or to gain some advantage or benefit, either direct or indirect, and any buyer who refuses to pay any fee due under this chapter is guilty of a misdemeanor. [2005 c 354 § 4.]

(b) To accomplish the other purposes of RCW 70.95.020 as they relate to waste tire cleanup under this chapter.

(2) In spending funds in the account under this section, the department of ecology shall identify communities with the most severe problems with waste tires and provide funds first to those communities to remove accumulations of waste tires.

(3) On September 1st of even-numbered years, the department of ecology shall provide a report to the house of representatives and senate transportation committees on the progress being made on the cleanup of unauthorized waste tire piles in the state and efforts underway to prevent the formation of future unauthorized waste tire piles. The report must detail any additional unauthorized waste tire piles discovered since the last report and present a plan to clean up these new unauthorized waste tire piles if they have not already done so, as well as include a listing of authorized waste tire piles and transporters. The report must also include the status of funds available to the program and a needs assessment of the program. On September 1, 2010, the department shall also make recommendations to the committees for an ongoing program to prevent the formation of future unauthorized waste tire piles. Such a program, if required, must include joint efforts with local governments and the tire industry. [2009 c 261 § 5; 2005 c 354 § 5; 1988 c 250 § 1; 1985 c 345 § 7.]

(1) "Storage" or "storing" means the placing of more than eight hundred waste tires in a manner that does not constitute final disposal of the waste tires. (2) "Transportation" or "transporting" means picking up or transporting waste tires for the purpose of storage or final disposal.

(3) "Waste tires" means tires that are no longer suitable for their original intended purpose because of wear, damage, or defect. [1988 c 250 § 3.] (4) Be registered in the state of Washington as a business and be in compliance with all state laws, rules, and local ordinances;

The educational material shall be distributed to households receiving refuse collection service by local governments or the refuse hauler providing service.
refuse hauler may distribute the educational material by any means that assures timely delivery.

Reasonable expenses incurred in the distribution of this material shall be considered, for rate-making purposes, as legitimate operating expenses of garbage and refuse haulers regulated under chapter 81.77 RCW. [1988 c 175 § 3.]

70.95.610 Battery disposal—Restrictions—Violators subject to fine—"Vehicle battery" defined. (1) No person may knowingly dispose of a vehicle battery except by delivery to: A person or entity selling lead acid batteries, a person or entity authorized by the department to accept the battery, or to a secondary lead smelter.

(2) No owner or operator of a solid waste disposal site shall knowingly accept for disposal used vehicle batteries except when authorized to do so by the department or by the federal government.

(b) The order of suspension shall apply to batteries that are sold at retail during the period in which the suspension order is effective.

70.95A.010 Legislative declaration—Liberal construction. The legislature finds:

(1) That environmental damage seriously endangers the public health and welfare;

(2) That such environmental damage results from air, water, and other resources pollution and from solid waste disposal, noise and other environmental problems;

(3) That to abate or control such environmental damage antipollution devices, equipment, and facilities must be acquired, constructed and installed;

(4) That the tax exempt financing permitted by Section 103 of the Internal Revenue Code of 1954, as amended, and authorized by this chapter results in lower costs of installation of pollution control facilities;

(5) That such lower costs benefit the public with no measurable cost impact;

(6) That the method of financing provided in this chapter is in the public interest and its use serves a public purpose in (a) protecting and promoting the health and welfare of the citizens of the cities, towns, counties, and port districts of this state by encouraging and accelerating the installation of facilities for abating or controlling and preventing environmental damage and (b) in attracting and retaining environmentally sound industry in this state which reduces unemployment and provides a more diversified tax base.

(7) For the reasons set forth in subsection (6) of this section, the provisions of this chapter relating to port districts and all proceedings heretofore or hereafter taken by port districts pursuant thereto are, and shall be deemed to be, for industrial development as authorized by Article 8, section 8 of the Washington state Constitution.

This chapter shall be liberally construed to accomplish the intentions expressed in this section. [1975 c 6 § 1; 1973 c 132 § 2.]

(2012 Ed.)
The legislature finds that hazardous wastes are generated by numerous different sources including, but not limited to, large and small business, households, and state and local government. The legislature further finds that a goal against which efforts at waste reduction may be measured is essential for an effective hazardous waste reduction program. Therefore, the goal of reducing hazardous waste generation by fifty percent cannot be achieved.

In the interest of protecting the public health, safety, and the environment, the legislature declares that it is the policy of the state of Washington to encourage reduction in the use of hazardous substances and reduction in the generation of hazardous waste whenever economically and technically practicable.

The legislature finds that hazardous wastes are generated by numerous different sources including, but not limited to, large and small business, households, and state and local government. The legislature further finds that a goal against which efforts at waste reduction may be measured is essential for an effective hazardous waste reduction program. Therefore, the goal of reducing hazardous waste generation by fifty percent cannot be achieved.
(17) "Recycled for beneficial use" means the use of hazardous waste, either before or after reclamation, as a substitute for a commercial product or raw material, but does not include: (a) Use constituting disposal; (b) incineration; or (c) use as a fuel.

(18) "Recycling" means reusing waste materials and extracting valuable materials from a waste stream. Recycling does not include burning for energy recovery.

(19) "Treatment" means the physical, chemical, or biological processing of waste to render it completely innocuous, produce a recyclable by-product, reduce toxicity, or substantially reduce the volume of material requiring disposal as described in the priorities established in RCW 70.105.150. Treatment does not include incineration.

(20) "Used oil" means (a) lubricating fluids that have been removed from an engine crankcase, transmission, gearbox, hydraulic device, or differential of an automobile, bus, truck, vessel, plane, heavy equipment, or machinery powered by an internal combustion engine; (b) any oil that has been refined from crude oil, used, and as a result of use, has been contaminated with physical or chemical impurities; and (c) any oil that has been refined from crude oil and, as a consequence of extended storage, spillage, or contamination, is no longer useful to the original purchaser. "Used oil" does not include used oil to which hazardous wastes have been added.

(21) "Waste" means any solid waste as defined under RCW 70.95.030, any hazardous waste, any air contaminant as defined under RCW 70.94.030, and any organic or inorganic matter that shall cause or tend to cause water pollution as defined under RCW 90.48.020.

(22) "Waste generator" means any individual, business, government agency, or any other organization that generates waste.

(23) "Waste reduction" means all in-plant practices that reduce, avoid, or eliminate the generation of wastes or the toxicity of wastes, prior to generation, without creating substantial new risks to human health or the environment. As used in RCW 70.95C.200 through 70.95C.240, "waste reduction" refers to hazardous waste only. [1991 c 319 § 313; 1990 c 114 § 2; 1988 c 177 § 2.]

*Reviser's note: Due to the alphabetization of RCW 70.105.010 pursuant to RCW 1.08.015(2)(k), subsections (5) and (6) were changed to subsections (1) and (7) respectively.

70.95C.040 Waste reduction and hazardous substance use reduction consultation program. (1) The office shall establish a waste reduction and hazardous substance use reduction consultation program to be coordinated with other state waste reduction and hazardous substance use reduction consultation programs.

(2) The director may grant a request by any waste generator or hazardous substance user for advice and consultation on waste reduction and hazardous substance use reduction techniques and assistance in preparation or modification of a plan, executive summary, or annual progress report, or assistance in the implementation of a plan required by RCW 70.95C.200. Pursuant to a request from a facility such as a business, governmental entity, or other process site in the state, the director may visit the facility making the request for the purposes of observing hazardous substance use and the waste-generating process, obtaining information relevant to waste reduction and hazardous substance use reduction, rendering advice, and making recommendations. No such visit may be regarded as an inspection or investigation, and no notices or citations may be issued, or civil penalty be assessed, upon such a visit. A representative of the director providing advisory or consultative services under this section may not have any enforcement authority.

(3) Consultation and advice given under this section shall be limited to the matters specified in the request and shall include specific techniques of waste reduction and hazardous substance use reduction tailored to the relevant process. In granting any request for advisory or consultative services, the director may provide for an alternative means of affording consultation and advice other than on-site consultation.
(4) Any proprietary information obtained by the director while carrying out the duties required under this section shall remain confidential and shall not be publicized or become part of the database established under RCW 70.95C.060 without written permission of the requesting party. [1990 c 114 § 5; 1988 c 177 § 4.]

70.95C.050 Waste reduction techniques—Workshops and seminars. The office, in coordination with all other state waste reduction technical assistance programs, shall sponsor technical workshops and seminars on waste reduction techniques that have been successfully used to eliminate or reduce substantially the amount of waste or toxicity of hazardous waste generated, or that use in-process reclamation or reuse of spent material. [1988 c 177 § 5.]

70.95C.060 Waste reduction hot line—Database system. (1) The office shall establish a statewide waste reduction hot line with the capacity to refer waste generators and the public to sources of information on specific waste reduction techniques and procedures. The hot line shall coordinate with all other state waste hot lines.

(2) The director shall work with the state library to establish a database system that shall include proven waste reduction techniques and case studies of effective waste reduction. The database system shall be: (a) Coordinated with all other state agency databases on waste reduction; (b) administered in conjunction with the statewide waste reduction hot line; and (c) readily accessible to the public. [1988 c 177 § 6.]

70.95C.070 Waste reduction research and development program—Contracts. (1) The office may administer a waste reduction research and development program. The director may contract with any public or private organization for the purpose of developing methods and technologies that achieve waste reduction. All research performed and all methods or technologies developed as a result of a contract entered into under this section shall become the property of the state and shall be incorporated into the database system established under RCW 70.95C.060.

(2) Any contract entered into under this section shall be awarded only after requests for proposals have been circulated to persons, firms, or organizations who have requested that their names be placed on a proposal list. The director shall establish a proposal list and shall review and evaluate all proposals received. [1988 c 177 § 7.]

70.95C.080 Director’s authority. (1) The director may solicit and accept gifts, grants, conveyances, bequests, and devises, in trust or otherwise, to be directed to the office of waste reduction.

70.95C.110 Waste reduction and recycling program to promote activities by state agencies—Recycled paper goal. The legislature finds and declares that the buildings and facilities owned and leased by state government produce significant amounts of solid and hazardous wastes, and actions must be taken to reduce and recycle these wastes and thus reduce the costs associated with their disposal. In order for the operations of state government to provide the citizens of the state an example of positive waste management, the legislature further finds and declares that state government should undertake an aggressive program designed to reduce and recycle solid and hazardous wastes produced in the operations of state buildings and facilities to the maximum extent possible.

The office of waste reduction, in cooperation with the department of general administration, shall establish an intensive waste reduction and recycling program to promote the reduction of waste produced by state agencies and to promote the source separation and recovery of recyclable and reusable materials.

All state agencies, including but not limited to, colleges, community colleges, universities, offices of elected and appointed officers, the supreme court, court of appeals, and administrative departments of state government shall fully cooperate with the office of waste reduction and recycling in all phases of implementing the provisions of this section. The office shall establish a coordinated state plan identifying each agency’s participation in waste reduction and recycling. The office shall develop the plan in cooperation with a multi-agency committee on waste reduction and recycling. Appointments to the committee shall be made by the director of the department of general administration. The director shall notify each agency of the committee, which shall implement the applicable waste reduction and recycling plan elements. All state agencies are to use maximum efforts to achieve a goal of increasing the use of recycled paper by fifty percent by July 1, 1993. [1989 c 431 § 53.]

Waste Reduction Awards Program in K-12 Public Schools—Encouraging Waste Reduction and Recycling in Private Schools. The office of waste reduction shall develop, in consultation with the superintendent of public instruction, an awards program to achieve waste reduction and recycling in public schools, and to encourage waste reduction and recycling in private schools, grades kindergarten through high school. The office shall develop guidelines for program development and implementation. Each public school shall, and each private school may, implement a waste reduction and recycling program conforming to guidelines developed by the office.

For the purpose of granting awards, the office may group all participating schools into not more than three classes, based upon student population, distance to markets for recyclable materials, and other criteria, as deemed appropriate by the office. Except as otherwise provided, five or more awards may be granted to each of the three classes. Each award shall be no more than five thousand dollars. Awards shall be granted each year to the schools that achieve the greatest levels of waste reduction and recycling. A single award of not less than five thousand dollars may be presented to the school having the best recycling program as measured by the total amount of materials recycled, including materials generated outside of the school. A single award of not less
than five thousand dollars may be presented to the school having the best waste reduction program as determined by the office.

The superintendent of public instruction shall distribute guidelines and other materials developed by the office to implement programs to reduce and recycle waste generated in administrative offices, classrooms, laboratories, cafeterias, and maintenance operations. [2008 c 178 § 1; 1991 c 319 § 114; 1989 c 431 § 54.]

70.95C.200 Hazardous waste generators and users—Voluntary reduction plan. (1) Each hazardous waste generator who generates more than two thousand six hundred forty pounds of hazardous waste per year and each hazardous substance user, except for those facilities that are primarily permitted treatment, storage, and disposal facilities or recycling facilities, shall prepare a plan for the voluntary reduction of the use of hazardous substances and the generation of hazardous wastes. Hazardous waste generated and recycled for beneficial use, including initial amount of hazardous substances introduced into a process and subsequently recycled for beneficial use, shall not be used in the calculation of hazardous waste generated for purposes of this section. The department may develop reporting requirements, consistent with existing reporting, to establish recycling for beneficial use under this section. Used oil to be rerefined or burned for energy or heat recovery shall not be used in the calculation of hazardous wastes generated for purposes of this section, and is not required to be addressed by plans prepared under this section. A person with multiple interrelated facilities where the processes in the facilities are substantially similar, may prepare a single plan covering one or more of those facilities.

(2) Each user or generator required to write a plan is encouraged to advise its employees of the planning process and solicit comments or suggestions from its employees on hazardous substance use and waste reduction options.

(3) The department shall adopt by April 1, 1991, rules for preparation of plans. The rules shall require the plan to address the following options, according to the following order of priorities: Hazardous substance use reduction, waste reduction, recycling, and treatment. In the planning process, first consideration shall be given to hazardous substance use reduction and waste reduction options. Consideration shall be given next to recycling options. Recycling options may be considered only after hazardous substance use reduction options and waste reduction options have been thoroughly researched and shown to be inappropriate. Treatment options may be considered only after hazardous substance use reduction, waste reduction, and recycling options have been thoroughly researched and shown to be inappropriate. Documentation of the research shall be available to the department upon request. The rules shall also require the plans to discuss the hazardous substance use reduction, waste reduction, and closed loop recycling options separately from other recycling and treatment options. All plans shall be written in conformance with the format prescribed in the rules adopted under this section. The rules shall require the plans to include, but not be limited to:

(a) A written policy articulating management and corporate support for the plan and a commitment to implementing planned activities and achieving established goals;
(b) The plan scope and objectives;
(c) Analysis of current hazardous substance use and hazardous waste generation, and a description of current hazardous substance use reduction, waste reduction, recycling, and treatment activities;
(d) An identification of further hazardous substance use reduction, waste reduction, recycling, and treatment opportunities, and an analysis of the amount of hazardous substance use reduction and waste reduction that would be achieved, and the costs. The analysis of options shall demonstrate that the priorities provided for in this section have been followed;
(e) A selection of options to be implemented in accordance with the priorities established in this section;
(f) An analysis of impediments to implementing the options. Impediments that shall be considered acceptable include, but are not limited to: Adverse impacts on product quality, legal or contractual obligations, economic practicality, and technical feasibility;
(g) A written policy stating that in implementing the selected options, whenever technically and economically practicable, risks will not be shifted from one part of a process, environmental media, or product to another;
(h) Specific performance goals in each of the following categories, expressed in numeric terms:
   (i) Hazardous substances to be reduced or eliminated from use;
   (ii) Wastes to be reduced or eliminated through waste reduction techniques;
   (iii) Materials or wastes to be recycled; and
   (iv) Wastes to be treated;
If the establishment of numeric performance goals is not practicable, the performance goals shall include a clearly stated list of objectives designed to lead to the establishment of numeric goals as soon as is practicable. Goals shall be set for a five-year period from the first reporting date;
(i) A description of how the wastes that are not recycled or treated and the residues from recycling and treatment processes are managed may be included in the plan;
(j) Hazardous substance use and hazardous waste accounting systems that identify hazardous substance use and waste management costs and factor in liability, compliance, and oversight costs;
(k) A financial description of the plan;
(l) Personnel training and employee involvement programs;
(m) A five-year plan implementation schedule;
(n) Documentation of hazardous substance use reduction and waste reduction efforts completed before or in progress at the time of the first reporting date; and
(o) An executive summary of the plan, which shall include, but not be limited to:
   (i) The information required by (c), (e), (h), and (n) of this subsection; and
   (ii) A summary of the information required by (d) and (f) of this subsection.
(4) Upon completion of a plan, the owner, chief executive officer, or other person with the authority to commit
management to the plan shall sign and submit an executive summary of the plan to the department.

(5) Plans shall be completed and executive summaries submitted in accordance with the following schedule:
   (a) Hazardous waste generators who generated more than fifty thousand pounds of hazardous waste in calendar year 1991 and hazardous substance users who were required to report in 1991, by September 1, 1992;
   (b) Hazardous waste generators who generated between seven thousand and fifty thousand pounds of hazardous waste in calendar year 1992 and hazardous substance users who were required to report for the first time in 1992, by September 1, 1993;
   (c) Hazardous waste generators who generated between two thousand six hundred forty and seven thousand pounds of hazardous waste in 1993 and hazardous substance users who were required to report for the first time in 1993, by September 1, 1994;
   (d) Hazardous waste generators who have not been required to complete a plan on or prior to September 1, 1994, must complete a plan by September 1 of the year following the first year that they generate more than two thousand six hundred forty pounds of hazardous waste; and

(6) Annual progress reports, including a description of the progress made toward achieving the specific performance goals established in the plan, shall be prepared and submitted to the department in accordance with rules developed under this section. Upon the request of two or more users or generators belonging to similar industrial classifications, the department may aggregate data contained in their annual progress reports for the purpose of developing a public record.

(7) Every five years, each plan shall be updated, and a new executive summary shall be submitted to the department. [1991 c 319 § 314; 1990 c 114 § 6.]

70.95C.210 Voluntary reduction plan—Exemption. A person required to prepare a plan under RCW 70.95C.200 because of the quantity of hazardous waste generated may petition the director to be excused from this requirement. The person must demonstrate to the satisfaction of the director that the quantity of hazardous waste generated was due to unique circumstances not likely to be repeated and that the person is unlikely to generate sufficient hazardous waste to require a plan in the next five years. [1990 c 114 § 7.]

70.95C.220 Voluntary reduction plan, executive summary, or progress report—Department review. (1) The department may review a plan, executive summary, or an annual progress report to determine whether the plan, executive summary, or annual progress report is adequate pursuant to the rules developed under this section and with the provisions of RCW 70.95C.200. In determining the adequacy of any plan, executive summary, or annual progress report, the department shall base its determination solely on whether the plan, executive summary, or annual progress report is complete and prepared in accordance with the provisions of RCW 70.95C.200.

(2) Plans developed under RCW 70.95C.200 shall be retained at the facility of the hazardous substance user or hazardous waste generator preparing a plan. The plan is not a public record under the public records act, chapter 42.56 RCW. A user or generator required to prepare a plan shall permit the director or a representative of the director to review the plan to determine its adequacy. No visit made by the director or a representative of the director to a facility for the purposes of this subsection may be regarded as an inspection or investigation, and no notices or citations may be issued, nor any civil penalty assessed, upon such a visit.

(3) If a hazardous substance user or hazardous waste generator fails to complete an adequate plan, executive summary, or annual progress report, the department shall notify the user or generator of the inadequacy, identifying specific deficiencies. For the purposes of this section, a deficiency may include failure to develop a plan, failure to submit an executive summary pursuant to the schedule provided in RCW 70.95C.200(5), and failure to submit an annual progress report pursuant to the rules developed under RCW 70.95C.200(6). The department shall specify a reasonable time frame, of not less than ninety days, within which the user or generator shall complete a modified plan, executive summary, or annual progress report addressing the specified deficiencies.

(4) If the department determines that a modified plan, executive summary, or annual progress report is inadequate, the department may, within its discretion, either require further modification or enter an order pursuant to subsection (5)(a) of this section.

(5)(a) If, after having received a list of specified deficiencies from the department, a hazardous substance user or hazardous waste generator required to prepare a plan fails to complete modification of a plan, executive summary, or annual progress report within the time period specified by the department, the department may enter an order pursuant to chapter 34.05 RCW finding the user or generator not in compliance with the requirements of RCW 70.95C.200. When the order is final, the department shall notify the department of revenue to charge a penalty fee. The penalty fee shall be the greater of one thousand dollars or three times the amount of the user’s or generator’s previous year’s fee, in addition to the current year’s fee. If no fee was assessed the previous year, the penalty shall be the greater of one thousand dollars or three times the amount of the current year’s fee. The penalty assessed under this subsection shall be collected each year after the year for which the penalty was assessed until an adequate plan or executive summary is completed.

(b) If a hazardous substance user or hazardous waste generator required to prepare a plan fails to complete an adequate plan, executive summary, or annual progress report after the department has levied against the user or generator the penalty provided in (a) of this subsection, the user or generator shall be required to pay a surcharge to the department whenever the user or generator disposes of a hazardous waste at any hazardous waste incinerator or hazardous waste land-
fill facility located in Washington state, until a plan, executive summary, or annual progress report is completed and determined to be adequate by the department. The surcharge shall be equal to three times the fee charged for disposal. The department shall furnish the incinerator and landfill facilities in this state with a list of environmental protection agency/state identification numbers of the hazardous waste generators that are not in compliance with the requirements of RCW 70.95C.200. [2005 c 274 § 338; 1990 c 114 § 8.]

Part headings not law—Effective date—2005 c 274: See RCW 42.56.901 and 42.56.902.

70.95C.240 Public inspection of plans, summaries, progress reports. (1) The department shall make available for public inspection any executive summary or annual progress report submitted to the department. Any hazardous substance user or hazardous waste generator required to prepare an executive summary or annual progress report who believes that disclosure of any information contained in the executive summary or annual progress report may adversely affect the competitive position of the user or generator may request the department pursuant to RCW 43.21A.160 to delete from the public record those portions of the executive summary or annual progress report that may affect the user’s or generator’s competitive position. The department shall not disclose any information contained in an executive summary or annual progress report pending a determination of whether the department will delete any information contained in the report from the public record.

(2) Any ten persons residing within ten miles of a hazardous substance user or hazardous waste generator required to prepare a plan may file with the department a petition requesting the department to examine a plan to determine its adequacy. The department shall report its determination of adequacy to the petitioners and to the user or generator within a reasonable time. The department may deny a petition if the department has within the previous year determined the plan of the user or generator named in the petition to be adequate.

(3) The department shall maintain a record of each plan, executive summary, or annual progress report it reviews, and a list of all plans, executive summaries, or annual progress reports the department has determined to be inadequate, including descriptions of corrective actions taken. This information shall be made available to the public. [1990 c 114 § 10.]

70.95C.250 Multimedia permit pilot program—Air, water, hazardous waste management. (1) Not later than January 1, 1995, the department shall designate an industry type and up to ten individual facilities within that industry type to be the focus of a pilot multimedia program. The program shall be designed to coordinate department actions related to environmental permits, plans, approvals, certificates, registrations, technical assistance, and inspections. The program shall also investigate the feasibility of issuing facility-wide permits. The director shall determine the industry type and facilities based on:

(a) A review of at least three industry types; and

(b) Criteria which shall include at least the following factors:

(i) The potential for the industry to serve as a statewide model for multimedia environmental programs including pollution prevention;

(ii) Whether the industry type is subject to regulatory requirements relating to at least two of the following subject areas: Air quality, water quality, or hazardous waste management;

(iii) The existence within the industry type of a range of business sizes; and

(iv) Voluntary participation in the program.

(2) In developing the program, the department shall consult with and seek the cooperation of the environmental protection agency.

(3) For purposes of this section, "facility-wide permit" means a single multimedia permit issued by the department to the owner or operator of a facility incorporating the permits and any other relevant department approvals previously issued to the owner or operator or currently required by the department. [1998 c 245 § 134; 1994 c 248 § 1.]

70.95D.020 Incineration facilities—Owner and operator certification requirements. (1) By January 1, 1992, the owner or operator of a solid waste incineration facility shall employ a certified operator. At a minimum, the individual on-site at a solid waste incineration facility who is designated by the owner as the operator in responsible charge of the operation and maintenance of the facility on a routine basis shall be certified by the department.

(2) If a solid waste incinerator is operated on more than one daily shift, the operator in charge of each shift shall be certified.

(3) Operators not required to be certified are encouraged to become certified on a voluntary basis.

(4) The department shall adopt and enforce such rules as may be necessary for the administration of this section. [1989 c 431 § 66.]

70.95D.030 Landfills—Owner and operator certification requirements. (1) By January 1, 1992, the owner or operator of a landfill shall employ a certified landfill operator.

(2) For each of the following types of landfills defined in existing regulations: Inert, demolition waste, problem waste, and municipal solid waste, the department shall adopt rules classifying all landfills in each class. The factors to be considered in the classification shall include, but not be limited to, the type and amount of waste in place and projected to be disposed of at the site, whether the landfill currently meets state and federal operating criteria, the location of the landfill, and such other factors as may be determined to affect the skill, knowledge, and experience required of an operator to operate the landfill in a manner protective of human health and the environment.

(3) The rules shall identify the landfills in each class in which the owner or operator will be required to employ a certified landfill operator who is on-site at all times the landfill is operating. At a minimum, the rule shall require that owners and operators of landfills are required to employ a certified landfill operator who is on call at all times the landfill is operating. [1989 c 431 § 67.]

70.95D.040 Certification process—Suspension of license or certificate for noncompliance with support order. (1) The department shall establish a process to certify incinerator and landfill operators. To the greatest extent possible, the department shall rely on the certification standards and procedures developed by national organizations and the federal government.

(2) Operators shall be certified if they:
(a) Attend the required training sessions;
(b) Successfully complete required examinations; and
(c) Pay the prescribed fee.

(3) By January 1, 1991, the department shall adopt rules to require incinerator and appropriate landfill operators to:
(a) Attend a training session concerning the operation of the relevant type of landfill or incinerator;
(b) Demonstrate sufficient skill and competency for proper operation of the incinerator or landfill by successfully completing an examination prepared by the department; and
(c) Renew the certificate of competency at reasonable intervals established by the department.

(4) The department shall provide for the collection of fees for the issuance and renewal of certificates. These fees shall be sufficient to recover the costs of the certification program.

(5) The department shall establish an appeals process for the denial or revocation of a certificate.

(6) The department shall establish a process to automatically certify operators who have received comparable certification from another state, the federal government, a local government, or a professional association.

(7) Upon July 23, 1989, and prior to January 1, 1992, the owner or operator of an incinerator or landfill may apply to the department for interim certification. Operators shall receive interim certification if they:
(a) Have received training provided by a recognized national organization, educational institution, or the federal government that is acceptable to the department; or
(b) Have received individualized training in a manner approved by the department; and
(c) Have successfully completed any required examinations.

(8) No interim certification shall be valid after January 1, 1992, and interim certification shall not automatically qualify operators for certification pursuant to subsections (2) through (4) of this section.

(9) The department shall immediately suspend the license or certificate of a person who has been certified pursuant to RCW 74.20A.320 by the department of social and health services as a person who is not in compliance with a support order or a *residential or visitation order. If the person has continued to meet all other requirements for reinstatement during the suspension, reissuance of the license or certificate shall be automatic upon the department’s receipt of a release issued by the department of social and health services stating that the licensee is in compliance with the order. [1997 c 58 § 875; 1989 c 431 § 68.]

*Reviser’s note: 1997 c 58 § 886 requiring a court to order certification of noncompliance with residential provisions of a court-ordered parenting plan was vetoed. Provisions ordering the department of social and health services to certify a responsible parent based on a court order to certify for noncompliance with residential provisions of a parenting plan were vetoed. 70.95E.020 Hazardous waste generation—Fee. A fee is imposed for the privilege of generating hazardous waste in the state. The annual amount of the fee shall be thirty-five dollars upon every hazardous waste generator doing business in Washington in the current calendar year or any part thereof. This fee shall be collected by the department or its designee. A hazardous waste generator shall be exempt from the fee imposed under this section if the value of products, gross proceeds of sales, or gross income of the business, from all business activities of the hazardous waste generator, is less than twelve thousand dollars in the current calendar year. The department shall, subject to appropriation, use the funds collected from the fees assessed in this subsection to support the activities of the office of waste reduction as specified in RCW 70.95C.030. 70.95E.030 Voluntary reduction plan—Fees. Hazardous waste generators and hazardous substance users required to prepare plans under RCW 70.95C.200 shall pay an annual fee to support implementation of RCW 70.95C.200 and 70.95C.040. These fees are to be used by the department, subject to appropriation, for plan review, technical assistance to facilities that are required to prepare plans, other activities related to plan development and implementation, and associated indirect costs. The total fees collected under this subsection shall not exceed the department’s costs of implementing RCW 70.95C.200 and 70.95C.040 and shall not exceed one million dollars per year. The annual fee for a facility shall not exceed ten thousand dollars per year. Any facility that generates less than two thousand six hundred forty pounds of hazardous waste per generation site in the previous calendar year shall be exempt from the fee imposed by this section. The annual fee for a facility generating at least two thousand six hundred forty pounds but not more than four thousand pounds of hazardous waste per generation site in the previous calendar year shall not exceed fifty dollars. A person that develops a plan covering more than one interrelated facility as provided for in RCW 70.95C.200 shall be assessed fees only for the number of plans prepared. The department shall adopt a fee schedule by rule after consultation with typical affected businesses and other interested parties. Hazardous waste generated and recycled for beneficial use, including initial amount of hazardous substances introduced into a process and subsequently recycled for beneficial use, shall not be used in the calculations of hazardous waste generated for purposes of this section.

The annual fee imposed by this section shall be first due on July 1 of the year prior to the year that the facility is required to prepare a plan, and by July 1 of each year thereafter. [1994 c 136 § 3; 1990 c 114 § 13.]

70.95E.040 Fees—Generally. On an annual basis, the department shall adjust the fees provided for in RCW 70.95E.020 and 70.95E.030, including the maximum annual fee, and maximum total fees, by conducting the calculation in subsection (1) of this section and taking the actions set forth in subsection (2) of this section:

(1) In November of each year, the fees, annual fee, and maximum total fees imposed in RCW 70.95E.020 and 70.95E.030, or as subsequently adjusted by this section, shall be multiplied by a factor equal to the most current quarterly "price deflator" available, divided by the "price deflator" used in the numerator the previous year. However, the "price deflator" used in the denominator for the first adjustment shall be defined by the second quarter "price deflator" for 1990.

(2) Each year by March 1 the fee schedule, as adjusted in subsection (1) of this section will be published. The department will round the published fees to the nearest dollar. [1990 c 114 § 14.]

70.95E.050 Administration of fees. In administration of this chapter for the enforcement and collection of the fees due and owing under RCW 70.95E.020 and 70.95E.030, the department may apply RCW 43.17.240. [1995 c 207 § 3; 1994 c 136 § 4; 1990 c 114 § 15.]

70.95E.090 Technical assistance and compliance education—Grants. The department may use funds in the hazardous waste assistance account to provide technical assistance and compliance education assistance to hazardous substance users and waste generators, to provide grants to local governments, and for administration of this chapter.

Technical assistance may include the activities authorized under chapter 70.95C RCW and RCW 70.105.170 to encourage hazardous waste reduction and hazardous use reduction and the assistance provided for by RCW 70.105.100(2).

To the extent practicable, the department shall contract with private businesses to provide compliance education.

Grants to local governments shall be used for small quantity generator technical assistance and compliance education components of their moderate risk waste plans as required by RCW 70.105.220. [1995 c 207 § 4; 1990 c 114 § 19.]

70.95E.100 Exclusion from chapter. Nothing in this chapter relates to radioactive wastes or substances composed of both radioactive and hazardous components, and the department is precluded from using the funds of the hazardous waste assistance account for the regulation and control of such wastes. [1990 c 114 § 20.]

70.95E.900 Severability—1990 c 114. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1990 c 114 § 23.]

70.95G.050 Certificate of compliance—Public access.
70.95G.060 Prohibition of sale of package.

70.95G.005 Finding. The legislature finds and declares that:

(1) The management of solid waste can pose a wide range of hazards to public health and safety and to the environment;

(2) Packaging comprises a significant percentage of the overall solid waste stream;

(3) The presence of heavy metals in packaging is a part of the total concern in light of their likely presence in emissions or ash when packaging is incinerated, or in leachate when packaging is landfilled;

(4) Lead, mercury, cadmium, and hexavalent chromium, on the basis of available scientific and medical evidence, are of particular concern;

(5) The intent of this chapter is to achieve a reduction in toxicity without impeding or discouraging the expanded use of postconsumer materials in the production of packaging and its components. [1991 c 319 § 106.]

70.95G.010 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Package" means a container providing a means of marketing, protecting, or handling a product and shall include a unit package, an intermediate package, and a shipping container. "Package" also means and includes unsealed receptacles such as carrying cases, crates, cups, pails, rigid foil and other trays, wrappers and wrapping films, bags, and tubs.

(2) "Manufacturer" means a person, firm, or corporation that applies a package to a product for distribution or sale.

(3) "Packaging component" means an individual assembled part of a package such as, but not limited to, any interior or exterior blocking, bracing, cushioning, weatherproofing, exterior strapping, coatings, closures, inks, and labels. [1991 c 319 § 107.]

70.95G.020 Concentration levels. The sum of the concentration levels of lead, cadmium, mercury, and hexavalent chromium present in any package or packaging component shall not exceed the following:

(1) Six hundred parts per million by weight effective July 1, 1993;

(2) Two hundred fifty parts per million by weight effective July 1, 1994; and

(3) One hundred parts per million by weight effective July 1, 1995.

This section shall apply only to lead, cadmium, mercury, and hexavalent chromium that has been intentionally introduced as an element during manufacturing or distribution. [1992 c 131 § 1; 1991 c 319 § 108.]

70.95G.030 Exemptions. All packages and packaging components shall be subject to this chapter except the following:

(1) Those packages or package components with a code indicating date of manufacture that were manufactured prior to May 21, 1991;

(2) Those packages or packaging components that have been purchased by, delivered to, or are possessed by a retailer on or before twenty-four months following May 21, 1991, to permit opportunity to clear existing inventory of the prescribed packaging material;

(3) Those packages or packaging components to which lead, cadmium, mercury, or hexavalent chromium have been added in the manufacturing, forming, printing, or distribution process in order to comply with health or safety requirements of federal law or for which there is no feasible alternative; or

(4) Those packages and packaging components that would not exceed the maximum contaminant levels set forth in RCW 70.95G.020(1) but for the addition of postconsumer materials; and provided that the exemption for this subsection shall expire six years after May 21, 1991. [1991 c 319 § 109.]

70.95G.040 Certificate of compliance. By July 1, 1993, a certificate of compliance stating that a package or packaging component is in compliance with the requirements of this chapter shall be developed by its manufacturer. If compliance is achieved under the exemption or exemptions provided in RCW 70.95G.030 (3) or (4), the certificate shall state the specific basis upon which the exemption is claimed. The certificate of compliance shall be signed by an authorized official of the manufacturing company. The certificate of compliance shall be kept on file by the manufacturer for as long as the package or packaging component is in use, and for three years from the date of the last sale or distribution by the manufacturer. Certificates of compliance, or copies thereof, shall be furnished to the department of ecology upon request within sixty days. If manufacturers are required under any other state statute to provide a certificate of compliance, one certificate may be developed containing all required information.

If the manufacturer or supplier of the package or packaging component reformulates or creates a new package or packaging component, the manufacturer shall develop an
amended or new certificate of compliance for the reformulated or new package or packaging component. [1991 c 319 § 110.]

70.95G.050 Certificate of compliance—Public access. Requests from a member of the public for any certificate of compliance shall be:
(1) Made in writing to the department of ecology;
(2) Made specific as to package or packaging component information requested; and
(3) Responded to by the department of ecology within ninety days. [1991 c 319 § 111.]

70.95G.060 Prohibition of sale of package. The department of ecology may prohibit the sale of any package for which a manufacturer has failed to respond to a request by the department for a certificate of compliance within the allotted period of time pursuant to RCW 70.95G.040. [1991 c 319 § 112.]

70.95H.091 Captions not law.

70.95H.005 Finding. (1) The legislature finds that:
(a) Recycling conserves energy and landfill space, provides jobs and valuable feedstock materials to industry, and promotes health and environmental protection;
(b) Seventy-eight percent of the citizens of the state actively participate in recycling programs and Washington currently has the highest recycling rate in the nation;
(c) The current supply of many recycled commodities far exceeds the demand for such commodities;
(d) Many local governments and private entities cumulatively affect, and are affected by, the market for recycled commodities but have limited jurisdiction and cannot adequately address the problems of market development that are complex, wide-ranging, and regional in nature; and
(e) The private sector has the greatest capacity for creating and expanding markets for recycled commodities, and the development of private markets for recycled commodities is in the public interest.
(2) It is therefore the policy of the state to create a single entity to be known as the clean Washington center to develop new, and expand existing, markets for recycled commodities. [1991 c 319 § 201.]

70.95H.007 Center created. There is created the clean Washington center within the *department of community, trade, and economic development. As used in this chapter, "center" means the clean Washington center. [1995 c 399 § 192; 1991 c 319 § 202.]

*Reviser's note: The "department of community, trade, and economic development" was renamed the "department of commerce" by 2009 c 565.

70.95H.010 Purpose—Market development defined. The purpose of the center is to provide or facilitate business assistance, basic and applied research and development, marketing, public education, and policy analysis in furthering the development of markets for recycled products. As used in this chapter, market development consists of public and private activities that are used to overcome impediments preventing full use of secondary materials diverted from the waste stream, and that encourage and expand use of those materials and subsequent products. In fulfilling this mission the center shall primarily direct its services to businesses that transform or remanufacture waste materials into usable or marketable materials or products for use other than landfill disposal or incineration. [1991 c 319 § 203.]

70.95H.030 Duties and responsibilities. The center shall:
(1) Provide targeted business assistance to recycling businesses, including:
(a) Development of business plans;
(b) Market research and planning information;
(c) Access to financing programs;
(d) Referral and information on market conditions; and
(e) Information on new technology and product development;
(2) Negotiate voluntary agreements with manufacturers to increase the use of recycled materials in product development;
(3) Support and provide research and development to stimulate and commercialize new and existing technologies and products using recycled materials;
(4) Undertake an integrated, comprehensive education effort directed to recycling businesses to promote processing, manufacturing, and purchase of recycled products, including:
(a) Provide information to recycling businesses on the availability and benefits of using recycled materials;
(b) Provide information and referral services on recycled material markets;
(c) Provide information on new research and technologies that may be used by local businesses and governments; and
(d) Participate in projects to demonstrate new market uses or applications for recycled products;
(5) Assist the departments of ecology and *general administration in the development of consistent definitions and standards on recycled content, product performance, and availability;
(6) Undertake studies on the unmet capital needs of reprocessing and manufacturing firms using recycled materials;
(7) Undertake and participate in marketing promotions for the purposes of achieving expanded market penetration for recycled content products;
(8) Coordinate with the department of ecology to ensure that the education programs of both are mutually reinforcing, with the center acting as the lead entity with respect to recycling businesses, and the department as the lead entity with respect to the general public and retailers;
(9) Develop an annual work plan. The plan shall describe actions and recommendations for developing markets for commodities comprising a significant percentage of the
used oil recycling to which hazardous wastes have been added. “Used oil” does not include
extended storage, spillage, or contamination, is no longer
useful to the original purchaser. “Used oil” does not include
rerefining used oil does not mean combustion or
landfilling.

(6) “Department” means the department of ecology.

(5) “Vehicle” includes every device physically capable
of being moved upon a public or private highway, road,
street, watercourse, or trail, and in, upon, or by which any
person or property is or may be transported or drawn upon a
public or private highway, road, street, watercourse, or trail,
except devices moved by human or animal power.

(4) “Lubricating oil” means the reclaiming of base
lube stock from used oil for use again in the production of
lube stock. Rerefining used oil does not mean combustion or
landfilling.

(2) "Used oil" means (a) lubricating fluids that have been
removed from an engine crankcase, transmission, gearbox,
hydraulic device, or differential of an automobile, bus, truck,
vessel, plane, heavy equipment, or machinery powered by an
internal combustion engine; (b) any oil that has been refined
from crude oil, used, and as a result of use, has been contam-
inated with physical or chemical impurities; and (c) any oil
that has been refined from crude oil and, as a consequence of
extended storage, spillage, or contamination, is no longer
useful to the original purchaser. "Used oil" does not include
used oil to which hazardous wastes have been added.

(3) "Public used oil collection site" means a site where a
used oil collection tank has been placed for the purpose of
collecting household generated used oil. "Public used oil
collection site" also means a vehicle designed or operated to
collect used oil from the public.

(4) "Lubricating oil" means any oil designed for use in,
or maintenance of, a vehicle, including, but not limited to,
motor oil, gear oil, and hydraulic oil. "Lubricating oil" does
not mean petroleum hydrocarbons with a flash point below
one hundred degrees Centigrade.

(5) "Vehicle" includes every device physically capable
of being moved upon a public or private highway, road,
street, watercourse, or trail, and in, upon, or by which any
person or property is or may be transported or drawn upon a
public or private highway, road, street, watercourse, or trail,
except devices moved by human or animal power.

(6) "Department" means the department of ecology.
“Local government” means a city or county developing a local hazardous waste plan under RCW 70.105.220. [1991 c 319 § 302.]

70.95I.020 Used oil recycling element. (1) Each local government and its local hazardous waste plan under RCW 70.105.220 is required to include a used oil recycling element. This element shall include:

(a) A plan to reach the local goals for household used oil recycling established by the local government and the department under RCW 70.95I.030. The plan shall, to the maximum extent possible, incorporate voluntary agreements with the private sector and state agencies to provide sites for the collection of used oil. Where provided, the plan shall also incorporate residential collection of used oil;

(b) A plan for enforcing the sign and container ordinances required by RCW 70.95I.040;

(c) A plan for public education on used oil recycling; and

(d) An estimate of funding needed to implement the requirements of this chapter. This estimate shall include a budget reserve for disposal of contaminated oil detected at any public used oil collection site administered by the local government.

(2) By July 1, 1993, each local government or combination of contiguous local governments shall submit its used oil recycling element to the department. The department shall approve or disapprove the used oil recycling element by January 1, 1994, or within ninety days of submission, whichever is later. The department shall approve or disapprove the used oil recycling element if it determines that the element is consistent with this chapter and the guidelines developed by the department under RCW 70.95I.030.

(3) Each local government, or combination of contiguous local governments, shall submit an annual statement to the department describing the number of used oil collection sites and the quantity of household used oil recycled for the jurisdiction during the previous calendar year. The first statement shall be due April 1, 1994. Subsequent statements shall be due April 1st of each year.

Nothing in this section shall be construed to require a city or county to construct or operate a public used oil collection site. [1991 c 319 § 303.]

70.95I.030 Used oil recycling element guidelines—Waiver—Statewide goals. (1) By July 1, 1992, the department shall, in consultation with local governments, prepare guidelines for the used oil recycling elements required by RCW 70.95I.020. The guidelines shall:

(a) Require development of local collection and rerefining goals for household used oil for each entity preparing a used oil recycling element under RCW 70.95I.020;

(b) Require local governments to recommend the number of used oil collection sites needed to meet the local goals. The department shall establish criteria regarding minimum levels of used oil collection sites;

(c) Require local government to identify locations suitable as public used oil collection sites as described under RCW 70.95I.020(1)(a).

(2) The department may waive all or part of the specific requirements of RCW 70.95I.020 if a local government demonstrates to the satisfaction of the department that the objectives of this chapter have been met.

(3) The department may prepare and implement a used oil recycling plan for any local government failing to complete the used oil recycling element of the plan.

(4) The department shall develop statewide collection and rerefining goals for household used oil for each calendar year beginning with calendar year 1994. Goals shall be based on the estimated statewide collection and rerefining rate for calendar year 1993, and shall increase each year until calendar year 1996, when the rate shall be eighty percent.

(5) By July 1, 1993, the department shall prepare guidelines establishing statewide equipment and operating standards for public used oil collection sites. Standards shall:

(b) Prohibit the disposal of nonhousehold-generated used oil;

(c) Limit the amount of used oil deposited to five gallons per household per day;

(d) Ensure adequate protection against leaks and spills; and

(e) Include other requirements deemed appropriate by the department. [1991 c 319 § 304.]

70.95I.040 Oil sellers—Education responsibility—Penalty. (1) A person annually selling one thousand or more gallons of lubricating oil to ultimate consumers for use or installation off the premises, or five hundred or more vehicle oil filters to ultimate consumers for use or installation off the premises within a city or county having an approved used oil recycling element, shall:

(a) Post and maintain at or near the point of sale, durable and legible signs informing the public of the importance of used oil recycling and how and where used oil may be properly recycled; and

(b) Provide for sale at or near the display location of the lubricating oil or vehicle oil filters, household used oil recycling containers. The department shall design and print the signs required by this section, and shall make them available to local governments and retail outlets.

(2) A person, who, after notice, violates this section is guilty of a misdemeanor and on conviction is subject to a fine not to exceed one thousand dollars.

(3) The department is responsible for notifying retailers subject to this section.

(4) A city or county may adopt household used oil recycling container standards in order to ensure compatibility with local recycling programs.

(5) Each local government preparing a used oil recycling element of a local hazardous waste plan pursuant to RCW 70.95I.020 shall adopt ordinances within its jurisdiction to enforce subsections (1) and (4) of this section. [1991 c 319 § 305.]

70.95I.050 Statewide education. The department shall conduct a public education program to inform the public of the needs for and benefits of collecting and recycling used oil in order to conserve resources and protect the environment. As part of this program, the department shall:

[Title 70 RCW—page 286] (2012 Ed.)
(1) Establish and maintain a statewide list of public used oil collection sites, and a list of all persons coordinating local government used oil programs;
(2) Establish a statewide media campaign describing used oil recycling;
(3) Assist local governments in providing public education and awareness programs concerning used oil by providing technical assistance and education materials; and
(4) Encourage the establishment of voluntary used oil collection and recycling programs, including public-private partnerships, and provide technical assistance to persons organizing such programs. [1991 c 319 § 306.]

70.95I.060 Disposal of used oil—Penalty. (1) Effective January 1, 1992, the use of used oil for dust suppression or weed abatement is prohibited.
(2) Effective July 1, 1992, no person may sell or distribute absorbent-based kits, intended for home use, as a means for collecting, recycling, or disposing of used oil.
(3) Effective January 1, 1994, no person may knowingly dispose of used oil except by delivery to a person collecting used oil for recycling, treatment, or disposal, subject to the provisions of this chapter and chapter 70.105 RCW.
(4) Effective January 1, 1994, no owner or operator of a solid waste landfill may knowingly accept used oil for disposal in the landfill.
(5) A person who violates this section is guilty of a misdemeanor. [1991 c 319 § 307.]

70.95I.070 Used oil transporter and processor requirements—Civil penalties. (1) By January 1, 1993, the department shall adopt rules requiring any transporter of used oil to comply with minimum notification, invoicing, recordkeeping, and reporting requirements. For the purpose of this section, a transporter means a person engaged in the off-site transportation of used oil in quantities greater than twenty-five gallons per day.
(2) By January 1, 1993, the department shall adopt minimum standards for used oil that is blended into fuels. Standards shall, at a minimum, establish testing and recordkeeping requirements. Unless otherwise exempted, a processor is any person involved in the marketing, blending, mixing, or processing of used oil to produce fuel to be burned for energy recovery.
(3) Any person who knowingly transports used oil without meeting the requirements of this section shall be subject to civil penalties under chapter 70.105 RCW.
(4) Rules developed under this section shall not require a manifest from individual residences served by a waste oil curbside collection program. [1991 c 319 § 308.]

70.95I.080 Above-ground used oil collection tanks. By January 1, 1987, the state fire protection board, in cooperation with the department of ecology, shall develop a statewide standard for the placement of above-ground tanks to collect used oil from private individuals for recycling purposes. [1986 c 37 § 1. Formerly RCW 19.114.040.]

70.95I.900 Captions not law. Section headings as used in this chapter do not constitute any part of the law. [1991 c 319 § 309.]

70.95I.901 Short title. This chapter shall be known and may be cited as the used oil recycling act. [1991 c 319 § 310.]

70.95J.090 Delegation to local health department—Exception.
70.95J.095 Violations—Punishment.

70.95J.005 Findings—Municipal sewage sludge as a beneficial commodity. (1) The legislature finds that:
(a) Municipal sewage sludge is an unavoidable by-product of the wastewater treatment process;
(b) Population increases and technological improvements in wastewater treatment processes will double the amount of sludge generated within the next ten years;
(c) Sludge management is often a financial burden to municipalities and to ratepayers;
(d) Properly managed municipal sewage sludge is a valuable commodity and can be beneficially used in agriculture, silviculture, and in landscapes as a soil conditioner; and
(e) Municipal sewage sludge can contain metals and microorganisms that, under certain circumstances, may pose a risk to public health.
(2) The legislature declares that a program shall be established to manage municipal sewage sludge and that the program shall, to the maximum extent possible, ensure that municipal sewage sludge is reused as a beneficial commodity and is managed in a manner that minimizes risk to public health and the environment. [1992 c 174 § 1.]

70.95J.007 Purpose—Federal requirements. The purpose of this chapter is to provide the department of ecology and local governments with the authority and direction to meet federal regulatory requirements for municipal sewage sludge. The department of ecology may seek delegation and administer the sludge permit program required by the federal clean water act as it existed February 4, 1987. [1992 c 174 § 2.]

70.95J.010 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.
(1) "Biosolids" means municipal sewage sludge that is a primarily organic, semisolid product resulting from the wastewater treatment process, that can be beneficially recycled and meets all requirements under this chapter. For the purposes of this chapter, "biosolids" includes septic tank sludge, also known as septage, that can be beneficially recycled and meets all requirements under this chapter.
(2) "Department" means the department of ecology.
(3) "Local health department" has the same meaning as "jurisdictional health department" in RCW 70.95.030.

(4) "Municipal sewage sludge" means a semisolid substance consisting of settled sewage solids combined with varying amounts of water and dissolved materials generated from a publicly owned wastewater treatment plant. [1992 c 174 § 3.]

70.95J.020 Biosolid management program—Transportation of biosolids and sludge. (1) The department shall adopt rules to implement a biosolid management program within twelve months of the adoption of federal rules, 40 C.F.R. Sec. 503, relating to technical standards for the use and disposal of sewage sludge. The biosolid management program shall, at a minimum, conform with all applicable federal rules adopted pursuant to the federal clean water act as it existed on February 4, 1987.

(2) In addition to any federal requirements, the state biosolid management program may include, but not be limited to, an education program to provide relevant legal and scientific information to local governments and citizen groups.

(3) Rules adopted by the department under this section shall provide for public input and involvement for all state and local permits.

(4) Materials that have received a permit as a biosolid shall be regulated pursuant to this chapter.

(5) The transportation of biosolids and municipal sewage sludge shall be governed by Title 81 RCW. Certificates issued by the utilities and transportation commission before June 11, 1992, that include or authorize transportation of municipal sewage sludge shall continue in force and effect and be interpreted to include biosolids. [1992 c 174 § 4.]

70.95J.025 Biosolids permits—Fees—Biosolids permit account—Report. (1) The department shall establish annual fees to collect expenses for issuing and administering biosolids permits under this chapter. An initial fee schedule shall be established by rule and shall be adjusted no more than once every two years. This fee schedule applies to all permits, regardless of date of issuance, and fees shall be assessed prospectively. Fees shall be established in amounts to recover expenses incurred by the department in processing permit applications and modifications, reviewing related plans and documents, monitoring, evaluating, conducting inspections, overseeing performance of delegated program elements, providing technical assistance and supporting overhead expenses that are directly related to these activities.

(2) The annual fee paid by a permittee for any permit issued by the utilities and transportation commission before June 11, 1992, that include or authorize transportation of municipal sewage sludge shall continue in force and effect and be interpreted to include biosolids. [1992 c 174 § 4.]

70.95J.030 Beneficial uses for biosolids and glassified sewage sludge. The department may work with all appropriate state agencies, local governments, and private entities to establish beneficial uses for biosolids and glassified sewage sludge. [1992 c 174 § 5.]

70.95J.040 Violations—Orders. If a person violates any provision of this chapter, or a permit issued or rule adopted pursuant to this chapter, the department may issue an appropriate order to assure compliance with the chapter, permit, or rule. [1992 c 174 § 6.]

70.95J.050 Enforcement of chapter. The department, with the assistance of the attorney general, may bring an action at law or in equity, including an action for injunctive relief, to enforce this chapter or a permit issued or rule adopted by the department pursuant to this chapter. [1992 c 174 § 7.]

70.95J.060 Violations—Punishment. A person who willfully violates, without sufficient cause, any of the provisions of this chapter, or a permit or order issued pursuant to this chapter, is guilty of a gross misdemeanor. Willful violation of this chapter, or a permit or order issued pursuant to this chapter is a gross misdemeanor punishable by a fine of up to ten thousand dollars and costs of prosecution, or by imprisonment for up to three hundred sixty-four days, or by both. Each day of violation may be deemed a separate violation. [2011 c 96 § 50; 1992 c 174 § 8.]

70.95J.070 Violations—Monetary penalty. In addition to any other penalty provided by law, a person who violates this chapter or rules or orders adopted or issued pursuant to it shall be subject to a penalty in an amount of up to five thousand dollars a day for each violation. Each violation shall be a separate violation. In the case of a continuing violation, each day of violation is a separate violation. An act of commission or omission that procures, aids, or abets in the violation shall be considered a violation under this section. [1992 c 174 § 9.]

70.95J.080 Delegation to local health department—Generally. The department may delegate to a local health department the powers necessary to issue and enforce permits to use or dispose of biosolids. A delegation may be withdrawn if the department finds that a local health department is not effectively administering the permit program. [1992 c 174 § 10.]
70.95J.090 Delegation to local health department—Review. (1) Any permit issued by a local health department under RCW 70.95J.080 may be reviewed by the department to ensure that the proposed site or facility conforms with all applicable laws, rules, and standards under this chapter.
(2) If the department does not approve or disapprove a permit within sixty days, the permit shall be considered approved.
(3) A local health department may appeal the department’s decision to disapprove a permit to the pollution control hearings board, as provided in chapter 43.21B RCW. [1992 c 174 § 11.]

70.95K.050 Section headings.
70.95K.090 Effective dates—1992 c 14.

70.95K.005 Findings. The legislature finds and declares that:
(1) It is a matter of statewide concern that biomedical waste be handled in a manner that protects the health, safety, and welfare of the public, the environment, and the workers who handle the waste.
(2) Infectious disease transmission has not been identified from improperly disposed biomedical waste, but the potential for such transmission may be present.
(3) A uniform, statewide definition of biomedical waste will simplify compliance with local regulations while preserving local control of biomedical waste management. [1992 c 14 § 1.]

70.95K.010 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.
(1) "Biomedical waste" means, and is limited to, the following types of waste:
(a) "Animal waste" is waste animal carcasses, body parts, and bedding of animals that are known to be infected with, or that have been inoculated with, human pathogenic microorganisms infectious to humans.
(b) "Biosafety level 4 disease waste" is waste contaminated with blood, excretions, exudates, or secretions from humans or animals who are isolated to protect others from highly communicable infectious diseases that are identified as pathogenic organisms assigned to biosafety level 4 by the centers for disease control, national institute of health, biosafety in microbiological and biomedical laboratories, current edition.
(c) "Cultures and stocks" are wastes infectious to humans and includes specimen cultures, cultures and stocks of etiologic agents or blood specimens. Such waste includes but is not limited to culture dishes, blood specimen tubes, and devices used to transfer, inoculate, and mix cultures.
(d) "Human blood and blood products" is discarded waste human blood and blood components, and materials containing free-flowing blood and blood products.
(e) "Pathological waste" is waste human source biopsy materials, tissues, and anatomical parts that emanate from surgery, obstetrical procedures, and autopsy. "Pathological waste" does not include teeth, human corpses, remains, and anatomical parts that are intended for interment or cremation.
(f) "Sharps waste" is all hypodermic needles, syringes with needles attached, IV tubing with needles attached, scalpel blades, and lancets that have been removed from the original sterile package.
(2) "Local government" means city, town, or county.
(3) "Local health department" means the city, county, city-county, or district public health department.
(4) "Person" means an individual, firm, corporation, association, partnership, consortium, joint venture, commercial entity, state government agency, or local government.
(5) "Treatment" means incineration, sterilization, or other method, technique, or process that changes the character or composition of a biomedical waste so as to minimize the risk of transmitting an infectious disease.
(6) "Residential sharps waste" has the same meaning as "sharps waste" in subsection (1) of this section except that the sharps waste is generated and prepared for disposal at a residence, apartment, dwelling, or other noncommercial habitat.
(7) "Sharps waste container" means a leak-proof, rigid, puncture-resistant red container that is taped closed or tightly lidded to prevent the loss of the residential sharps waste.
(8) "Mail programs" means those programs that provide sharps users with a multiple barrier protection kit for the placement of a sharps container and subsequent mailing of the wastes to an approved disposal facility.
(9) "Pharmacy return programs" means those programs where sharps containers are returned by the user to designated return sites located at a pharmacy to be transported by a biomedical or solid waste collection company approved by the utilities and transportation commission.
(10) "Drop-off programs" means those program sites designated by the solid waste planning jurisdiction where sharps users may dispose of their sharps containers.
(11) "Source separation" has the same meaning as in RCW 70.95.030.
(12) "Unprotected sharps" means residential sharps waste that are not disposed of in a sharps waste container. [1994 c 165 § 2; 1992 c 14 § 2.]

Findings—Purpose—Intent—1994 c 165: "The legislature finds that the improper disposal and labeling of sharps waste from residences poses a potential health risk and perceived threat to the waste generators, public, and workers in the waste and recycling industry. The legislature further finds that a uniform method for handling sharps waste generated at residences will reduce confusion and injuries, and enhance public and waste worker confidence. It is the purpose and intent of this act that residential generated sharps waste be contained in easily identified containers and separated from the regular solid waste stream to ensure worker safety and promote proper disposal of these wastes in a manner that is environmentally safe and economically sound." [1994 c 165 § 1.]
70.95K.011 State definition preempts local definitions. The definition of biomedical waste set forth in RCW 70.95K.010 shall be the sole state definition for biomedical waste within the state, and shall preempt biomedical waste definitions established by a local health department or local government. [1992 c 14 § 3.]

70.95K.020 Waste treatment technologies. (1) At the request of an applicant, the department of health, in consultation with the department of ecology and local health departments, may evaluate the environmental and public health impacts of biomedical waste treatment technologies. The department shall make available the results of any evaluation to local health departments.

(2) All direct costs associated with the evaluation shall be paid by the applicant to the department of health or to a state or local entity designated by the department of health.

(3) For the purposes of this section, "applicant" means any person representing a biomedical waste treatment technology that seeks an evaluation under subsection (1) of this section.

(4) The department of health may adopt rules to implement this section. [1992 c 14 § 4.]

70.95K.030 Residential sharps—Disposal—Violation. (1) A person shall not intentionally place unprotected sharps or a sharps waste container into: (a) Recycling containers provided by a city, county, or solid waste collection company, or any other recycling collection site unless that site is specifically designated by a local health department as a drop-off site for sharps waste containers; or (b) cans, carts, drop boxes, or other containers in which refuse, trash, or solid waste has been placed for collection if a source separated collection service is provided for residential sharps waste.

(2) Local health departments shall enforce this section, primarily through an educational approach regarding proper disposal of residential sharps. On the first and second violation, the health department shall provide a warning to the person that includes information on proper disposal of residential sharps. A subsequent violation shall be a class 3 infraction under chapter 7.80 RCW.

(3) It is not a violation of this section to place a sharps waste container into a household refuse receptacle if the utilities and transportation commission determines that such placement is necessary to reduce the potential for theft of the sharps waste container. [1994 c 165 § 3.]

DETERGENT PHOSPHORUS CONTENT

70.95L.005 Finding.

70.95L.020 Phosphorus content regulated.
70.95L.030 Notice to distributors and wholesalers.
70.95L.040 Injunction.

70.95L.005 Finding. The legislature hereby finds and declares that:

(1) Phosphorus loading of surface waters can stimulate the growth of weeds and algae, and that such growth can have adverse environmental, health, and aesthetic effects;

(2) Household detergents contribute to phosphorus loading, and that a limit on detergents containing phosphorus can significantly reduce the discharge of phosphorus into the state’s surface and ground waters;

(3) Household detergents containing no or very low phosphorus are readily available and that over thirty percent of the United States population lives in areas with a ban on detergents containing phosphorus;

(4) Phosphorus limits on household detergents can significantly reduce treatment costs at those sewage treatment facilities that remove phosphorus from the waste stream; and

(5) While significant reductions of phosphorus from laundry detergent have been accomplished, similar progress in reducing phosphorus contributions from dishwashing detergents has not been achieved.

[Title 70 RCW—page 290] (2012 Ed.)
It is therefore the intent of the legislature to impose a state-wide limit on the phosphorus content of household detergents. [2006 c 223 § 1; 1993 c 118 § 1.]

70.95M.020 Fluorescent lamps—Labeling requirements. (1) Effective January 1, 2004, a manufacturer, wholesaler, or retailer may not knowingly sell at retail a fluorescent lamp if the fluorescent lamp contains mercury and was manufactured after November 30, 2003, unless the fluorescent lamp is labeled in accordance with the guidelines listed under subsection (2) of this section. Primary responsibility for affixing labels required under this section is on the manufacturer, and not on the wholesaler or retailer.

(2) Except as provided in subsection (3) of this section, a lamp is considered labeled pursuant to subsection (1) of this section if the lamp has all of the following:
   (a) A label affixed to the lamp that displays the internationally recognized symbol for the element mercury; and
   (b) A label on the lamp’s packaging that: (i) Clearly informs the purchaser that mercury is present in the item; (ii) explains that the fluorescent lamp should be disposed of according to applicable federal, state, and local laws; and (iii) provides a toll-free telephone number, and a uniform resource locator internet address to a web site, that contains information on applicable disposal laws.

(3) The manufacturer of a mercury-added lamp is in compliance with the requirements of this section if the manufacturer is in compliance with the labeling requirements of another state.

(4) The provisions of this section do not apply to products containing mercury-added lamps. [2003 c 260 § 3.]

70.95M.030 Mercury disposal education plan. The department of health must develop an educational plan for schools, local governments, businesses, and the public on the proper disposal methods for mercury and mercury-added products. [2003 c 260 § 4.]

70.95M.040 Schools—Purchase of mercury prohibited. A school may not purchase for use in a primary or secondary classroom bulk elemental mercury or chemical mercury compounds. By January 1, 2006, all primary and secondary schools in the state must remove and properly dispose of all bulk elemental mercury, chemical mercury, and bulk mercury compounds used as teaching aids in science classrooms, not including barometers. [2003 c 260 § 5.]

70.95M.050 Prohibited sales—Novelties, manometers, thermometers, thermostats, motor vehicles, bulk mercury. (1) Effective January 1, 2006, no person may sell, offer for sale, or distribute for sale or use in this state a mercury-added novelty. A manufacturer of mercury-added novelties must notify all retailers that sell the product about the provisions of this section and how to properly dispose of any remaining mercury-added novelty inventory.

(2)(a) Effective January 1, 2006, no person may sell, offer for sale, or distribute for sale or use in this state a manometer used to measure blood pressure or a thermometer that contains mercury. This subsection (2)(a) does not apply to:
   (i) An electronic thermometer with a button-cell battery containing mercury;
   (ii) A thermometer that contains mercury and is used for food research and development or food processing, including meat, dairy products, and pet food processing;
   (iii) A thermometer that contains mercury and is a component of an animal agriculture climate control system or industrial measurement system or for veterinary medicine until such a time as the system is replaced or a nonmercury component for the system or application is available;
   (iv) A thermometer or manometer that contains mercury that is used for calibration of other thermometers, manometers, apparatus, or equipment, unless a nonmercury calibration standard is approved for the application by the national institute of standards and technology;
   (v) A thermometer that is provided by prescription. A manufacturer of a mercury thermometer shall supply clear instructions on the careful handling of the thermometer to avoid breakage and proper cleanup should a breakage occur; or
   (vi) A manometer or thermometer sold or distributed to a hospital, or a health care facility controlled by a hospital, if the hospital has adopted a plan for mercury reduction consistent with the goals of the mercury chemical action plan developed by the department under section 302, chapter 371, Laws of 2002.

(b) A manufacturer of thermometers that contain mercury must notify all retailers that sell the product about the provisions of this section and how to properly dispose of any remaining thermometer inventory.

[Title 70 RCW—page 292]
Effective January 1, 2006, no person may sell, install, or reinstall a commercial or residential thermostat that contains mercury unless the manufacturer of the thermostat conducts or participates in a thermostat recovery or recycling program designed to assist contractors in the proper disposal of thermostats that contain mercury in accordance with 42 U.S.C. Sec. 6901, et seq., the federal resource conservation and recovery act.

(4) No person may sell, offer for sale, or distribute for sale or use in this state a motor vehicle manufactured after January 1, 2006, if the motor vehicle contains an automotive mercury switch.

(6) Effective June 30, 2012, the sale or purchase and delivery of bulk mercury is prohibited, including sales through the internet or sales by private parties. However, the prohibition in this subsection does not apply to immediate dangerous waste recycling facilities or treatment, storage, and disposal facilities as approved by the department and sales to research facilities, or industrial facilities that provide products or services to entities exempted from this chapter.

§ 8.

The department is authorized to participate in a regional or multistate clearinghouse to assist in carrying out the purpose of this chapter.

Effective June 30, 2012, the sale or purchase and delivery of bulk mercury is prohibited, including sales through the internet or sales by private parties. However, the prohibition in this subsection does not apply to immediate dangerous waste recycling facilities or treatment, storage, and disposal facilities as approved by the department and sales to research facilities, or industrial facilities that provide products or services to entities exempted from this chapter.

(2) The *department of general administration must give priority and preference to the purchase of equipment, supplies, and other products that contain no mercury-added compounds or components, unless: (a) There is no economically feasible nonmercury-added alternative that performs a similar function; or (b) the product containing mercury is designed to reduce electricity consumption by at least forty percent and there is no nonmercury or lower mercury alternative available that saves the same or a greater amount of electricity as the exempted product. In circumstances where a nonmercury-added product is not available, preference must be given to the purchase of products that contain the least amount of mercury added to the product necessary for the required performance.

*Reviser’s note: The “department of general administration” was renamed the “department of enterprise services” by 2011 1st sp.s. c 43 § 107.

70.95M.070 Clearinghouse—Department participation.

70.95M.080 Penalties.

A violation of this chapter is punishable by a civil penalty not to exceed one thousand dollars for each violation in the case of a first violation. Repeat violators are liable for a civil penalty not to exceed five thousand dollars for each repeat violation. Penalties collected under this section must be deposited in the state toxics control account created in RCW 70.105D.070.
tion schedule through its universal childhood vaccine program are screened for thimerosal and preference is given toward the purchase of thimerosal-free products. The department of health currently provides thimerosal-free products for all routinely recommended childhood vaccines. Regardless of the absence of thimerosal in childhood vaccines in Washington, scientifically reputable organizations such as the centers for disease control and prevention, the national institute of medicine, the american academy of pediatrics, the food and drug administration, and the world health organization have all determined that there is no credible evidence that the use of thimerosal in vaccines poses a threat to the health and safety of children.

Notwithstanding these assurances of the safety of the vaccine supply, the legislature finds that where there is public concern over the safety of vaccines, vaccination rates may be reduced to the point that deadly, vaccine-preventable, childhood diseases return. This measure is being enacted to maintain public confidence in vaccine programs, so that the public will continue to seek vaccinations and their health benefits may continue to protect the people of Washington.” [2006 c 231 § 1.]

70.95M.120 Fiscal impact—Toxics control account. Any fiscal impact on the department or the department of health that results from the implementation of this chapter must be paid for out of funds that are appropriated by the legislature from the state toxics control account for the implementation of the department’s persistent bioaccumulative toxic chemical strategy. [2003 c 260 § 11.]

70.95M.130 National mercury repository site. The department of ecology shall petition the United States environmental protection agency requesting development of a national mercury repository site. [2003 c 260 § 14.]

The legislature finds that a convenient, safe, and environmentally sound system for the collection, transportation, and recycling of covered electronic products must be established. The legislature further finds that the system must encourage the design of electronic products that are less toxic and more recyclable. The legislature further finds that the responsibility for this system must be shared among all stakeholders, with manufacturers financing the collection, transportation, and recycling system. [2006 c 183 § 1.]

70.95N.030 Manufacturer participation. (1) A manufacturer must participate in an independent plan or the standard plan to implement and finance the collection, transportation, and recycling of covered electronic products.

(2) An independent plan or the standard plan must be implemented and fully operational no later than January 1, 2009.

(3) The manufacturers participating in an approved plan are responsible for covering all administrative and operational costs associated with the collection, transportation, and recycling of their plan’s equivalent share of covered electronic products. If costs are passed on to consumers, it must be done without any fees at the time the unwanted electronic product is delivered or collected for recycling. However, this does not prohibit collectors providing premium or curbside services from charging customers a fee for the additional collection cost of providing this service, when funding for collection provided by an independent plan or the standard plan does not fully cover the cost of that service.

(4) Nothing in this chapter changes or limits the authority of the Washington utilities and transportation commission to regulate collection of solid waste in the state of Washington, including curbside collection of residential recyclable materials, nor does this chapter change or limit the authority of a city or town to provide such service itself or by contract pursuant to RCW 81.77.020.

(5) Manufacturers are encouraged to collaborate with electronic product retailers, certificated waste haulers, processors, recyclers, charities, and local governments within the state in the development and implementation of their plans. [2006 c 183 § 3.]

(3) The department shall review the registration or renewal application and notify the manufacturer if their registration does not meet the requirements of this section. Within thirty days of receipt of such a notification from the department, the manufacturer must file with the department a revised registration addressing the requirements noted by the department.

(4) The registration must include the following information:

(a) The name and contact information of the manufacturer submitting the registration;

(5) The registrant shall submit any changes to the information provided in the registration to the department within fourteen days of such change.

(6) The department shall identify, using all reasonable means, manufacturers that are in business or that are no longer in business but that have a successor in interest by examining best available return share data and other pertinent data. The department shall notify manufacturers that have been identified and for whom an address has been found of the requirements of this chapter, including registration and plan requirements under this section and RCW 70.95N.050. [2006 c 183 § 4.]

70.95N.050 Independent plan requirements. (1) A manufacturer must participate in the standard plan administered by the authority, unless the manufacturer obtains department approval for an independent plan for the collection, transportation, and recycling of unwanted electronic products.

(2) An independent plan may be submitted by an individual manufacturer or by a group of manufacturers, provided that:

(a) Each independent plan represents at least a five percent return share of covered electronic products; and

(b) No manufacturer may participate in an independent plan if it is a new entrant or a white box manufacturer.

(3) An individual manufacturer submitting an independent plan to the department is responsible for collecting,
transporting, and recycling its equivalent share of covered electronic products.

(4)(a) Manufacturers collectively submitting an independent plan are responsible for collecting, transporting, and recycling the sum of the equivalent shares of each participating manufacturer.

(b) Each group of manufacturers submitting an independent plan must designate a party authorized to file the plan with the department on their behalf. A letter of certification from each of the manufacturers designating the authorized party must be submitted to the department together with the plan.

(5) Each manufacturer in the standard plan or in an independent plan retains responsibility and liability under this chapter in the event that the plan fails to meet the manufacturer’s obligations under this chapter. [2006 c 183 § 5.]

70.95N.060 Standard, independent plan requirements—Fees to be set by the department—Acceptance or rejection by department. (1) All initial independent plans and the initial standard plan required under RCW 70.95N.050 must be submitted to the department by February 1, 2008. The department shall review each independent plan and the standard plan.

(2) The authority submitting the standard plan and each authorized party submitting an independent plan to the department must pay a fee to the department to cover the costs of administering and implementing this chapter. The department shall set the fees as described under RCW 70.95N.230.

(3) The fees in subsection (2) of this section apply to the initial plan submission and plan updates and revisions required in RCW 70.95N.070.

(4) Within ninety days after receipt of a plan, the department shall determine whether the plan complies with this chapter. If the plan is approved, the department shall send a letter of approval. If a plan is rejected, the department shall provide the reasons for rejecting the plan to the authority or authorized party. The authority or authorized party must submit a new plan within sixty days after receipt of the letter of disapproval.

(5) An independent plan and the standard plan must contain the following elements:

(a) Contact information for the authority or authorized party and a comprehensive list of all manufacturers participating in the plan and their contact information;

(b) A description of the collection, transportation, and recycling systems and service providers used, including a description of how the authority or authorized party will:

(i) Seek to use businesses within the state, including retailers, charities, processors, and collection and transportation services;

(ii) Fairly compensate collectors for providing collection services; and

(iii) Fairly compensate processors for providing processing services;

(c) The method or methods for the reasonably convenient collection of all product types of covered electronic products in rural and urban areas throughout the state, including how the plan will provide for collection services in each county of the state and for a minimum of one collection site or alternate collection service for each city or town with a population greater than ten thousand. A collection site for a county may be the same as a collection site for a city or town in the county;

(d) A description of how the plan will provide service to small businesses, small governments, charities, and school districts in Washington;

(e) The processes and methods used to recycle covered electronic products including a description of the processing that will be used and the facility location;

(f) Documentation of audits of each processor used in the plan and compliance with processing standards established under RCW 70.95N.250 and *section 26 of this act; 

(g) A description of the accounting and reporting systems that will be employed to track progress toward the plan’s equivalent share;

(h) A timeline describing start-up, implementation, and progress towards milestones with anticipated results;

(i) A public information campaign to inform consumers about how to recycle their covered electronic products at the end of the product’s life; and

(j) A description of how manufacturers participating in the plan will communicate and work with processors utilized by that plan to promote and encourage design of electronic products and their components for recycling.

(6) The standard plan shall address how it will incorporate and fairly compensate registered collectors providing curbside or premium services such that they are not compensated at a lower rate for collection costs than the compensation offered other collectors providing drop-off collection sites in that geographic area.

(7) All transporters, collectors, and processors used to fulfill the requirements of this section must be registered as described in RCW 70.95N.240. [2006 c 183 § 6.]

(a) If the program fails to provide service in each county in the state or meet other plan requirements, the authority or authorized party shall submit to the department within sixty days of failing to provide service an updated plan addressing how the program will be adjusted to meet the program geographic coverage and collection service requirements established in RCW 70.95N.090.

(b) The authority or authorized party shall notify the department of any modification to the plan. If the department determines that the authority or authorized party has significantly modified the program described in the plan, the authority or authorized party shall submit a revised plan describing the changes to the department within sixty days of notification by the department.

(2) Within sixty days after receipt of a revised plan, the department shall determine whether the revised plan complies with this chapter. If the revised plan is approved, the department shall send a letter of approval. If the revised plan is rejected, the department shall provide the reasons for rejecting the plan to the authority or authorized party. The
authority or authorized party must submit a new plan revision within sixty days after receipt of the letter of disapproval.

(3) The authority or authorized parties may buy and sell collected covered electronic products with other programs without submitting a plan revision for review. [2006 c 183 § 7.]

(2) Manufacturers may not change from one plan to another plan during a program year.

(3) A manufacturer participating in the standard plan wishing to implement or participate in an independent plan may do so by complying with rules adopted by the department under RCW 70.95N.230. [2006 c 183 § 8.]

70.95N.090 Collection services. (1) A program must provide collection services for covered electronic products of all product types that are reasonably convenient and available to all citizens of the state residing within its geographic boundaries, including both rural and urban areas. Each program must provide collection service in every county of the state. A program may provide collection services jointly with another plan or plans.

(a) For any city or town with a population of greater than ten thousand, each program shall provide a minimum of one collection site or alternate collection service described in subsection (3) or a combination of sites and alternate service that together provide at least one collection opportunity for all product types. A collection site for a county may be the same as a collection site for a city or town in the county.

(b) Collection sites may include electronics recyclers and repair shops, recyclers of other commodities, reuse organizations, charities, retailers, government recycling sites, or other suitable locations.

(c) Collection sites must be staffed, open to the public at a frequency adequate to meet the needs of the area being served, and on an on-going basis.

(2) A program may limit the number of covered electronic products or covered electronic products by product type accepted per customer per day or per delivery at a collection site or service. All covered entities may use a collection site as long as the covered entities adhere to any restrictions established in the plans.

(3) A program may provide collection services in forms different than collection sites, such as curbside services, if those alternate services provide equal or better convenience to citizens and equal or increased recovery of unwanted covered electronic products.

(4) For rural areas without commercial centers or areas with widely dispersed population, a program may provide collection at the nearest commercial centers or solid waste sites, collection events, mail-back systems, or a combination of these options.

(5) For small businesses, small governments, charities, and school districts that may have large quantities of covered electronic products that cannot be handled at collection sites or curbside services, a program may provide alternate services. At a minimum, a program must provide for processing of these large quantities of covered electronic products at no charge to the small businesses, small governments, charities, and school districts. [2006 c 183 § 9.]

70.95N.100 Successor duties. Any person acquiring a manufacturer, or who has acquired a manufacturer, shall have all responsibility for the acquired company’s covered electronic products, including covered electronic products manufactured prior to July 1, 2006, unless that responsibility remains with another entity per the purchase agreement and the acquiring manufacturer provides the department with a letter from the other entity accepting responsibility for the covered electronic products. Cobranding manufacturers may negotiate with retailers for responsibility for those products and must notify the department of the results of their negotiations. [2006 c 183 § 10.]

70.95N.110 Covered electronic sampling. (1) An independent plan and the standard plan must implement and finance an auditable, statistically significant sampling of covered electronic products entering its program every program year. The information collected must include a list of the brand names of covered electronic products by product type, the number of covered electronic products by product type, the weight of covered electronic products that are identified for each brand name or that lack a manufacturer’s brand, the total weight of the sample by product type, and any additional information needed to assign return share.

(2) The sampling must be conducted in the presence of the department or a third-party organization approved by the department. The department may, at its discretion, audit the methodology and the results.

(3) After the fifth program year, the department may reassess the sampling required in this section. The department may adjust the frequency at which manufacturers must implement the sampling or may adjust the frequency at which manufacturers must provide certain information from the sampling. Prior to making any changes, the department shall notify the public, including all registered manufacturers, and provide a comment period. The department shall notify all registered manufacturers of any such changes. [2006 c 183 § 11.]

70.95N.120 Promotion of covered product recycling. (1) An independent plan and the standard plan must inform covered entities about where and how to reuse and recycle their covered electronic products at the end of the product’s life, including providing a web site or a toll-free telephone number that gives information about the recycling program in sufficient detail to educate covered entities regarding how to return their covered electronic products for recycling.

(2) The department shall promote covered electronic product recycling by:

(a) Posting information describing where to recycle unwanted covered electronic products on its web site;

(b) Providing information about recycling covered electronic products through a toll-free telephone service; and

(c) Developing and providing artwork for use in flyers and signage to retailers upon request.
Electronic Product Recycling  
70.95N.160

3) Local governments shall promote covered electronic product recycling, including listings of local collection sites and services, through existing educational methods typically used by each local government.

4) A retailer who sells new covered electronic products shall provide information to consumers describing where and how to recycle covered electronic products and opportunities and locations for the convenient collection or return of the products. This requirement can be fulfilled by providing the department’s toll-free telephone number and web site. Remote sellers may include the information in a visible location on their web site as fulfillment of this requirement.

5) Manufacturers, state government, local governments, retailers, and collection sites and services shall collaborate in the development and implementation of the public information campaign. [2006 c 183 § 12.]

70.95N.130 Electronic products recycling account.
(1) The electronic products recycling account is created in the custody of the state treasurer. All payments resulting from plans not reaching their equivalent share, as described in RCW 70.95N.220, shall be deposited into the account. Any moneys collected for manufacturer registration fees, fees associated with reviewing and approving plans and plan revisions, and penalties levied under this chapter shall be deposited into the account.

(2) Only the director of the department or the director’s designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

(3) Moneys in the account may be used solely by the department for the purposes of fulfilling department responsibilities specified in this chapter and for expenditures to the authority and authorized parties resulting from plans exceeding their equivalent share, as described in RCW 70.95N.220. Funds in the account may not be diverted for any purpose or activity other than those specified in this section. [2006 c 183 § 13.]

(1) By March 1st of the second program year and each program year thereafter, the authority and each authorized party shall file with the department an annual report for the preceding program year.

(2) The annual report must include the following information:

(a) The total weight in pounds of covered electronic products collected and recycled, by county, during the preceding program year including documentation verifying collection and processing of that material. The total weight in pounds includes orphan products. The report must also indicate and document the weight in pounds received from each nonprofit charitable organization primarily engaged in the business of reuse and resale used by the plan. The report must document the weight in pounds that were received in large quantities from small businesses, small governments, charities and school districts as described in RCW 70.95N.090(5);

(g) The list of manufacturers that are participating in the standard plan; and

(h) Any other information deemed necessary by the department.

(3) The department shall review each report within ninety days of its submission and shall notify the authority or authorized party of any need for additional information or documentation, or any deficiency in its program.

(4) All reports submitted to the department must be available to the general public through the Internet. Proprietary information submitted to the department under this chapter is exempt from public disclosure under RCW 42.56.270. [2006 c 183 § 14.]

The report must indicate and document the weight of covered electronic products sent for recycling during the previous program year attributed to each plan that the charitable organization is participating in. [2006 c 183 § 15.]

70.95N.160 Electronic products for sale must include manufacturer’s brand. 70.95N.190 Return share calculation. (1) The department shall determine the return share for each manufacturer in the standard plan or an independent plan by dividing the weight of covered electronic products identified for each manufacturer by the total weight of covered electronic products identified for all manufacturers in the standard plan or an independent plan, then multiplying the quotient by one hundred.
   (2) For the first program year, the department shall determine the return share for such manufacturers using all reasonable means and based on best available information regarding return share data from other states and other pertinent data.
   (3) For the second and each subsequent program year, the department shall determine the return share for such manufacturers using all reasonable means and based on the most recent sampling of covered electronic products conducted in the state under RCW 70.95N.110. [2006 c 183 § 19.]

70.95N.200 Equivalent share calculation—Notice to manufacturers—Billing parties that do not meet their plan’s equivalent share—Payments to parties that exceed their plan’s equivalent share—Nonprofit charitable organizations. (1) The department shall determine the total equivalent share for each manufacturer in the standard plan or an independent plan by dividing the return share percentage for each manufacturer by one hundred, then multiplying the quotient by the total weight in pounds of covered electronic products collected for that program year, allowing as needed for the additional credit authorized in subsection (3) of this section.
   (2)(a) By June 1st of each program year, the department shall notify each manufacturer of the manufacturer’s equivalent share of covered electronic products to be applied to the previous program year. The department shall also notify each manufacturer of how its equivalent share was determined.
   (b) By June 1st of each program year, the department shall bill any authorized party or authority that has not attained its plan’s equivalent share as determined under RCW 70.95N.220. The authorized party or authority shall remit payment to the department within sixty days from the billing date.

Sec. 501(c)(3)) that are primarily engaged in the business of reuse and resale must be given an additional five percent credit to be applied toward a plan’s equivalent share for pounds that are received for recycling from those organizations. The department may adjust the percentage of credit annually. [2006 c 183 § 20.]

70.95N.210 Preliminary return share—Notice—Challenges—Final return share. (1) By June 1, 2007, the department shall notify each manufacturer of its preliminary return share of covered electronic products for the first program year.

70.95N.220 Covered electronic products collected during a program year—Payment per pound under, over
equivalent share. (1) For an independent plan and the standard plan, if the total weight in pounds of covered electronic products collected during a program year is less than the plan’s equivalent share of covered electronic products for that year, then the authority or authorized party shall submit to the department a payment equal to the weight in pounds of the deficit multiplied by the reasonable collection, transportation, and recycling cost for covered electronic products and an administrative fee. Moneys collected by the department must be deposited in the electronic products recycling account.

(2) For an independent plan and the standard plan, if the total weight in pounds of covered electronic products collected during a program year is more than the plan’s equivalent share of covered electronic products for that year, then the department shall submit to the authority or authorized party, a payment equal to the weight in pounds of the surplus multiplied by the reasonable collection, transportation, and recycling cost for covered electronic products.

(3) For purposes of this section, the initial reasonable collection, transportation, and recycling cost for covered electronic products is forty-five cents per pound and the administrative fee is five cents per pound.

(4) The department may annually adjust the reasonable collection, transportation, and recycling cost for covered electronic products and the administrative fee described in this section. Prior to making any changes in the fees described in this section, the department shall notify the public, including all registered manufacturers, and provide a comment period. The department shall notify all registered manufacturers of any changes to the reasonable collection, transportation, and recycling cost or the administrative fee by January 1st of the program year in which the change is to take place. [2006 c 183 § 22.]

70.95N.230 Rules—Fees—Reports. (1) The department shall adopt rules to determine the process for manufacturers to change plans under RCW 70.95N.080.

(2) The department shall establish annual registration and plan review fees for administering this chapter. An initial fee schedule must be established by rule and be adjusted no more often than once every two years. All fees charged must be based on factors relating to administering this chapter and be based on a sliding scale that is representative of annual sales of covered electronic products in the state. Fees must be established in amounts to fully recover and not to exceed expenses incurred by the department to implement this chapter.

(3) The department shall establish an annual process for local governments and local communities to report their satisfaction with the services provided by plans under this chapter. This information must be used by the department in reviewing plan updates and revisions.

(4) The department may adopt rules as necessary for the purpose of implementing, administering, and enforcing this chapter. [2006 c 183 § 23.]

70.95N.240 Collector, transporter, processor registration. (1) Each collector and transporter of covered electronic products in the state must register annually with the department. The registration must include all identification requirements for licensure in the state and the geographic area of the state that they serve. The department shall develop a single form for registration of both collectors and transporters.

(2) Each processor of covered electronic products utilized by an independent or standard plan must register annually with the department. The registration must include identification information and documentation of any necessary operating permits issued by state or local authorities. [2006 c 183 § 24.]

70.95N.250 Processors to comply with performance standards for environmentally sound management—Rules. (1) The authority and each authorized party shall ensure that each processor used directly by the authority or the authorized party to fulfill the requirements of their respective standard plan or independent plan has provided the authority or the authorized party a written statement that the processor will comply with the requirements of this section and *section 26 of this act.

(2) The department shall establish by rule performance standards for environmentally sound management for processors directly used to fulfill the requirements of an independent plan or the standard plan. Performance standards may include financial assurance to ensure proper closure of facilities consistent with environmental standards.

(3) The department shall establish by rule guidelines regarding nonrecycled residual that may be properly disposed after covered electronic products have been processed.

(4) The department may audit processors that are utilized to fulfill the requirements of an independent plan or the standard plan.

(5) No plan or program required under this chapter may include the use of federal or state prison labor for processing. [2006 c 183 § 25.]

*Reviser’s note: Section 26 of this act was vetoed by the governor.

70.95N.260 Selling covered electronic products without participating in an approved plan prohibited—Written warning—Penalty—Failure to comply with manufacturer registration requirements. (1) No manufacturer may sell or offer for sale a covered electronic product in or into the state unless the manufacturer of the covered electronic product is participating in an approved plan. The department shall send a written warning to a manufacturer that does not have an approved plan or is not participating in an approved plan as required under RCW 70.95N.050. The written warning must inform the manufacturer that it must participate in an approved plan within thirty days of the notice. Any violation after the initial written warning shall be assessed a penalty of up to ten thousand dollars for each violation.

(2) If the authority or any authorized party fails to implement their approved plan, the department must assess a penalty of up to five thousand dollars for the first violation along with notification that the authority or authorized party must implement its plan within thirty days of the violation. After thirty days, the authority or any authorized party failing to implement their approved plan must be assessed a penalty of up to ten thousand dollars for the second and each subsequent violation.

After thirty days, a person must be assessed a penalty of up to one thousand dollars for the first violation and up to two thousand dollars for the second and each subsequent violation.

(4) All penalties levied under this section must be deposited into the electronic products recycling account created under RCW 70.95N.130.

(5) The department shall enforce this section. [2006 c 183 § 27.]

*Reviser’s note: Section 26 of this act was vetoed by the governor.

(a) For each of the preceding program years, the weight of covered electronic products recycled in the state by plan, by county, and in total;

(b) The performance of each plan in meeting its equivalent share, and payments received from and disbursed to each plan from the electronic products recycling account;

(c) A description of the various collection programs used to collect covered electronic products in the state;

(d) An evaluation of how the pounds per capita recycled of covered electronic products in the state compares to programs in other states;

(e) Comments received from local governments and local communities regarding satisfaction with the program, including accessibility and convenience of services provided by the plans;

(f) Recommendations on how to improve the statewide collection, transportation, and recycling system for convenient, safe, and environmentally sound recycling of electronic products; and

(g) An analysis of whether and in what amounts unwanted electronic products and electronic components and electronic scrap exported from Washington have been exported to countries that are not members of the organization for economic cooperation and development or the European union, and recommendations for addressing such exports.

(2) By April 1, 2010, the department shall provide a report to the appropriate committees of the legislature regarding the amount of orphan products collected as a percent of the total amount of covered electronic products collected. If the orphan products collected exceed ten percent of the total amount of covered electronic products collected, the department shall report to the appropriate committees of the legislature within ninety days describing the orphan products collected and include recommendations for decreasing the amount of orphan products or alternative methods for financing the collection, transportation, and recycling of orphan products. [2006 c 183 § 28.]

70.95N.280 Materials management and financing authority. (1) The Washington materials management and financing authority is established as a public body corporate and politic, constituting an instrumentality of the state of Washington exercising essential governmental functions.

(2) The authority shall plan and implement a collection, transportation, and recycling program for manufacturers that have registered with the department their intent to participate in the standard program as required under RCW 70.95N.040.

(3) Membership in the authority is comprised of registered participating manufacturers. Any registered manufacturer who does not qualify or is not approved to submit an independent plan, or whose independent plan has not been approved by the department, is a member of the authority. All new entrants and white box manufacturers are also members of the authority.

(4) The authority shall act as a business management organization on behalf of the citizens of the state to manage financial resources and contract for services for collection, transportation, and recycling of covered electronic products.

(5) The authority’s standard plan is responsible for collecting, transporting, and recycling the sum of the equivalent shares of each participating manufacturer.

(6) The authority shall accept into the standard program covered electronic products from any registered collector who meets the requirements of this chapter. The authority shall compensate registered collectors for the reasonable costs associated with collection, but is not required to compensate nor restricted from compensating the additional collection costs resulting from the additional convenience offered to customers through premium and curbside services.

(7) The authority shall accept and utilize in the standard program any registered processor meeting the requirements of this chapter and any requirements described in the authority’s operating plan or through contractual arrangements. Processors utilized by the standard plan shall provide documentation to the authority at least annually regarding how they are meeting the requirements in RCW 70.95N.250 and *section 26 of this act, including enough detail to allow the standard plan to meet its reporting requirements in RCW 70.95N.140(2) (c) and (d), and must submit to audits conducted by or for the authority. The authority shall compensate such processors for the reasonable costs, as determined by the authority, associated with processing unwanted electronic products. Such processors must demonstrate that the unwanted electronic products have been received from registered collectors or transporters, and provide other documentation as may be required by the authority.

(8) Except as specifically allowed in this chapter, the authority shall operate without using state funds or lending the credit of the state or local governments.

(9) The authority shall develop innovative approaches to improve materials management efficiency in order to ensure and increase the use of secondary material resources within the economy. [2006 c 183 § 29.]

*Reviser’s note: Section 26 of this act was vetoed by the governor.
70.95N.290 Board of directors of the authority. (1)(a) The authority is governed by a board of directors. The board of directors is comprised of eleven participating manufacturers, appointed by the director of the department. Five board positions are reserved for representatives of the top ten brand owners, appointed by the director of the department. Five board positions are reserved for representatives of other brands, including at least one board position reserved for a manufacturer who is also a retailer selling their own private label. The return share of covered electronic products used to determine the top ten brand owners for purposes of electing the board must be determined by the department by January 1, 2007.

(b) The board must have representation from both television and computer manufacturers.

(2) The board shall select from its membership the chair of the board and such other officers as it deems appropriate.

(3) A majority of the board constitutes a quorum.

(4) The directors of the department of community, trade, and economic development and the department of ecology serve as ex officio members. The state agency directors serving in ex officio capacity may each designate an employee of their respective departments to act on their behalf in all respects with regard to any matter to come before the authority. Ex officio designations must be made in writing and communicated to the authority director.

(5) The board shall create its own bylaws in accordance with the laws of the state of Washington.

(6) Any member of the board may be removed for misfeasance, malfeasance, or willful neglect of duty after notice and a public hearing, unless the notice and hearing are expressly waived in writing by the affected member.

(7) The members of the board serve without compensation but are entitled to reimbursement, solely from the funds of the authority, for expenses incurred in the discharge of their duties under this chapter. [2008 c 79 § 1; 2006 c 183 § 30.]

*Reviser’s note: The "department of community, trade, and economic development" was renamed the "department of commerce" by 2009 c 565.

70.95N.300 Manufacturers to pay their apportioned share of administrative and operational costs—Performance bonds—Dispute arbitration. (1) Manufacturers participating in the standard plan shall pay the authority to cover all administrative and operational costs associated with the collection, transportation, and recycling of covered electronic products within the state of Washington incurred by the standard program operated by the authority to meet the standard plan’s equivalent share obligation as described in RCW 70.95N.280(5).

(2) The authority shall assess charges on each manufacturer participating in the standard plan and collect funds from each participating manufacturer for the manufacturer’s portion of the costs in subsection (1) of this section. Such apportionment shall be based on return share, market share, any combination of return share and market share, or any other equitable method. The authority’s apportionment of costs to manufacturers participating in the standard plan may not include nor be based on electronic products imported through the state and subsequently exported outside the state. Charges assessed under this section must not be formulated in such a way as to create incentives to divert imported electronic products to ports or distribution centers in other states. The authority shall adjust the charges to manufacturers participating in the standard plan as necessary in order to ensure that all costs associated with the identified activities are covered.

(3) The authority may require financial assurances or performance bonds for manufacturers participating in the standard plan, including but not limited to new entrants and white box manufacturers, when determining equitable methods for apportioning costs to ensure that the long-term costs for collecting, transporting, and recycling of a covered electronic product are borne by the appropriate manufacturer in the event that the manufacturer ceases to participate in the program.

(4) Nothing in this section authorizes the authority to assess fees or levy taxes directly on the sale or possession of electronic products.

(5) If a manufacturer has not met its financial obligations as determined by the authority under this section, the authority shall notify the department that the manufacturer is no longer participating in the standard plan.

(6) The authority shall submit its plan for assessing charges and apportioning cost on manufacturers participating in the standard plan to the department for review and approval along with the standard plan as provided in RCW 70.95N.060.

(7)(a) Any manufacturer participating in the standard plan may appeal an assessment of charges or apportionment of costs levied by the authority under this section by written petition to the director of the department. The director of the department or the director’s designee shall review all appeals within timelines established by the department and shall reverse any assessments of charges or apportionment of costs if the director finds that the authority’s assessments or apportionment of costs was an arbitrary administrative decision, an abuse of administrative discretion, or is not an equitable assessment or apportionment of costs. The director shall make a fair and impartial decision based on sound data. If the director of the department reverses an assessment of charges, the authority must redetermine the assessment or apportionment of costs.

(b) Disputes regarding a final decision made by the director or director’s designee may be challenged through arbitration. The director shall appoint one member to serve on the arbitration panel and the challenging party shall appoint one other. These two persons shall choose a third person to serve. If the two persons cannot agree on a third person, the presiding judge of the Thurston county superior court shall choose a third person. The decision of the arbitration panel shall be final and binding, subject to review by the superior court solely upon the question of whether the decision of the panel was arbitrary or capricious. [2006 c 183 § 31.]

70.95N.310 Authority use of funds. (1) The authority shall use any funds legally available to it for any purpose specifically authorized by this chapter to:

(a) Contract and pay for collecting, transporting, and recycling of covered electronic products and education and other services as identified in the standard plan;
(b) Pay for the expenses of the authority including, but not limited to, salaries, benefits, operating costs and consumable supplies, equipment, office space, and other expenses related to the costs associated with operating the authority;

(c) Pay into the electronic products recycling account amounts billed by the department to the authority for any deficit in reaching the standard plan’s equivalent share as required under RCW 70.95N.220; and

(d) Pay the department for the fees for submitting the standard plan and any plan revisions.

(2) If practicable, the authority shall avoid creating new infrastructure already available through private industry in the state.

(3) The authority may not receive an appropriation of state funds, other than:

(a) Funds that may be provided as a one-time loan to cover administrative costs associated with start-up of the authority, such as electing the board of directors and conducting the public hearing for the operating plan, provided that no appropriated funds may be used to pay for collection, transportation, or recycling services; and

(b) Funds received from the department from the electronic products recycling account for exceeding the standard plan’s equivalent share.

(4) The authority may receive additional sources of funding that do not obligate the state to secure debt.

(5) All funds collected by the authority under this chapter, including interest, dividends, and other profits, are and must remain under the complete control of the authority and its board of directors, be fully available to achieve the intent of this chapter, and be used for the sole purpose of achieving the intent of this chapter. [2006 c 183 § 32.]

Within available funds, treatment should also be provided for drug addicts. [1989 c 271 § 1; 1972 ex.s. c 122 § 1]

Findings—1991 c 364: "The legislature finds that the use of alcohol and illicit drugs continues to be a primary crippling of our youth. This translates into incredible costs to individuals, families, and society in terms of traffic fatalities, suicides, criminal activity including homicides, sexual promiscuity, familial incorrigibility, and conduct disorders, and educational fallout. Among children of all socioeconomic groups lower expectations for the future, low motivation and self-esteem, alienation, and depression are associated with alcohol and drug abuse.

Studies reveal that deaths from alcohol and other drug-related injuries rise sharply through adolescence, peaking in the early twenties. But second peak occurs in later life, where it accounts for three times as many deaths from chronic diseases. A young victim's life expectancy is likely to be reduced by an average of twenty-six years.

Yet the cost of treating alcohol and drug addicts can be recouped in the first three years of abstinence in health care savings alone. Public money spent on treatment saves not only the life of the chemical abuser, it makes us safer as individuals, and in the long-run costs less.

The legislature further finds that many children who abuse alcohol and other drugs may not require involuntary treatment, but still are not adequately served. These children remain at risk for future chemical dependency, and may become mentally ill or a juvenile offender or need out-of-home placement. Children placed at risk because of chemical abuse may be better served by the creation of a comprehensive integrated system for children in crisis.

The legislature declares that an emphasis on the treatment of youth will pay the largest dividend in terms of preventable costs to individuals themselves, their families, and to society. The provision of augmented involuntary alcohol treatment services to youths, as well as involuntary treatment for youths addicted by other drugs, is in the interest of the public health and safety." The department shall meet the requirements under this subsection within the appropriations provided for opiate treatment programs. The department, working with treatment providers and medical experts, shall develop and disseminate the educational materials to all certified opiate treatment programs. [2005 c 70 § 2; 1995 c 312 § 46; 1990 c 151 § 5. Prior: 1989 c 270 § 19; 1989 c 175 § 131; 1972 ex.s.c. § 122.

Findings—Intent—2005 c 70: "The legislature finds that drug use among pregnant women is a significant and growing concern statewide. The legislature further finds that methadone, although an effective alternative to other substance use treatments, can result in babies who are exposed to methadone during pregnancy through birth and the painful effects of withdrawal. It is the intent of the legislature to notify all pregnant women that their use of methadone treatment of the risks and benefits methadone could have on their baby during pregnancy through birth and to inform them of the potential need for the newborn baby to be taken care of in a hospital setting or in a specialized supportive environment designed specifically to address newborn addiction problems." 70.96A.095 Age of consent—Outpatient treatment of minors for chemical dependency. Any person thirteen years of age or older may give consent for himself or herself to the furnishing of outpatient treatment by a chemical dependency treatment program certified by the department. Parental authorization is required for any treatment of a minor under the age of thirteen. [1998 c 296 § 23; 1996 c 133 § 34; 1995 c 312 § 47; 1991 c 364 § 9; 1989 c 270 § 24.]

70.96A.096 Notice to parents, school contacts for referring students to inpatient treatment. School district personnel who contact a chemical dependency inpatient treatment program or provider for the purpose of referring a student to inpatient treatment shall provide the parents with notice of the contact within forty-eight hours. [1996 c 133 § 5.]

70.96A.097 Review of admission and inpatient treatment of minors—Determination of medical necessity—Department review—Minor declines necessary treatment—At-risk youth petition—Costs—Public funds. (1) The department shall ensure that, for any minor admitted to inpatient treatment under RCW 70.96A.245, a review is conducted by a physician or chemical dependency counselor, as defined in rule by the department, who is employed by the department or an agency under contract with the department and who neither has a financial interest in continued inpatient treatment of the minor nor is affiliated with the program providing the treatment. The physician or chemical dependency counselor shall conduct the review not less than seven nor more than fourteen days following the date the minor was brought to the facility under RCW 70.96A.245(1) to determine whether it is a medical necessity to continue the minor's treatment on an inpatient basis.

(2) In making a determination under subsection (1) of this section whether it is a medical necessity to release the minor from inpatient treatment, the department shall consider the opinion of the treatment provider, the safety of the minor, the likelihood the minor's chemical dependency recovery will deteriorate if released from inpatient treatment, and the wishes of the parent.

(3) If, after any review conducted by the department under this section, the department determines it is no longer a medical necessity for a minor to receive inpatient treatment, the department shall immediately notify the parents and the professional person in charge. The professional person in charge shall release the minor to the parents within twenty-four hours of receiving notice. If the professional person in charge and the parent believe that it is a medical necessity for the minor to remain in inpatient treatment, the minor shall be released to the parent on the second judicial day following the department's determination in order to allow the parent time to file an at-risk youth petition under chapter 13.32A RCW. If the department determines it is a medical necessity for the minor to receive outpatient treatment and the minor declines to obtain such treatment, such refusal shall be grounds for the parent to file an at-risk youth petition.

(4) The department may, subject to available funds, contract with other governmental agencies for the conduct of the reviews conducted under this section and may seek reimbursement from the parents, their insurance, or medicaid for
70.96A.100 Acceptance for approved treatment—Rules. The secretary shall adopt and may amend and repeal rules for acceptance of persons into the approved treatment program, considering available treatment resources and facilities, for the purpose of early and effective treatment of alcoholics and other drug addicts, persons incapacitated by alcohol or other psychoactive chemicals, and intoxicated persons. In establishing the rules, the secretary shall be guided by the following standards:

1. If possible a patient shall be treated on a voluntary rather than an involuntary basis.
2. A patient shall be initially assigned or transferred to outpatient treatment, unless he or she is found to require residential treatment.
3. A person shall not be denied treatment solely because he or she has withdrawn from treatment against medical advice on a prior occasion or because he or she has relapsed after earlier treatment.
4. An individualized treatment plan shall be prepared and maintained on a current basis for each patient.
5. Provision shall be made for a continuum of coordinated treatment services, so that a person who leaves a facility or a form of treatment will have available and use other appropriate treatment.

70.96A.110 Voluntary treatment of alcoholics or other drug addicts. (1) An alcoholic or other drug addict may apply for voluntary treatment directly to an approved treatment program. If the proposed patient is a minor or an incompetent person, he or she, a parent, a legal guardian, or other legal representative may make the application.

2. Subject to rules adopted by the secretary, the administrator in charge of an approved treatment program may determine who shall be admitted for treatment. If a person is refused admission to an approved treatment program, the administrator, subject to rules adopted by the secretary, shall refer the person to another approved treatment program for treatment if possible and appropriate.

3. If a patient receiving inpatient care leaves an approved treatment program, he or she shall be encouraged to consent to appropriate outpatient treatment. If it appears to the administrator in charge of the treatment program that the patient is an alcoholic or other drug addict who requires help, the department may arrange for assistance in obtaining supportive services and residential programs.

4. If a patient leaves an approved public treatment program, with or against the advice of the administrator in charge of the program, the department may make reasonable provisions for his or her transportation to another program or to his or her home. If the patient has no home he or she should be assisted in obtaining shelter. If the patient is less than fourteen years of age or an incompetent person the request for discharge from an inpatient program shall be made by a parent, legal guardian, or other legal representative or by the minor or incompetent if he or she was the original applicant.

70.96A.120 Treatment programs and facilities—Admissions—Peace officer duties—Protective custody. (1) An intoxicated person may come voluntarily to an approved treatment program for treatment. A person who appears to be intoxicated in a public place and to be in need of help, if he or she consents to the proffered help, may be assisted to his or her home, an approved treatment program or other health facility.

2. Except for a person who may be apprehended for possible violation of laws not relating to alcoholism, drug addiction, or intoxication and except for a person who may be apprehended for possible violation of laws relating to driving or being in physical control of a vehicle while under the influence of intoxicating liquor or any drug and except for a person who may wish to avail himself or herself of the provisions of RCW 46.20.308, a person who appears to be incapacitated or gravely disabled by alcohol or other drugs and who is in a public place or who has threatened, attempted, or inflicted physical harm on himself, herself, or another, shall be taken into protective custody by a peace officer or staff designated by the county and as soon as practicable, but in no event beyond eight hours brought to an approved treatment program for treatment. If no approved treatment program is readily available he or she shall be taken to an emergency medical service customarily used for incapacitated persons. The peace officer or staff designated by the county, in detaining the person and in taking him or her to an approved treatment program, is taking him or her into protective custody and shall make every reasonable effort to protect his or her health and safety. In taking the person into protective custody, the detaining peace officer or staff designated by the county may take reasonable steps including reasonable force if necessary to protect himself or herself or effect the custody. A taking into protective custody under this section is not an arrest. No entry or other record shall be made to indicate that the person has been arrested or charged with a crime.

3. A person who comes voluntarily or is brought to an approved treatment program shall be examined by a qualified person. He or she may then be admitted as a patient or referred to another health facility, which provides emergency medical treatment, where it appears that such treatment may be necessary. The referring approved treatment program shall arrange for his or her transportation.

4. A person who is found to be incapacitated or gravely disabled by alcohol or other drugs at the time of his or her admission or to have become incapacitated or gravely disabled at any time after his or her admission, may not be detained at the program for more than seventy-two hours after admission as a patient, unless a petition is filed under RCW 70.96A.140, as now or hereafter amended: PROVIDED, That the treatment personnel at an approved treatment program are authorized to use such reasonable physical restraint as may be necessary to retain an incapacitated or gravely disabled person for up to seventy-two hours from the
time of admission. The seventy-two hour periods specified in this section shall be computed by excluding Saturdays, Sundays, and holidays. A person may consent to remain in the program as long as the physician in charge believes appropriate.

(5) A person who is not admitted to an approved treatment program, is not referred to another health facility, and has no funds, may be taken to his or her home, if any. If he or she has no home, the approved treatment program shall provide him or her with information and assistance to access available community shelter resources.

(6) If a patient is admitted to an approved treatment program, his or her family or next of kin shall be notified as promptly as possible by the treatment program. If an adult patient who is not incapacitated requests that there be no notification, his or her request shall be respected.

(7) The peace officer, staff designated by the county, or treatment facility personnel, who act in compliance with this chapter and are performing in the course of their official duty are not criminally or civilly liable therefor.

(8) If the person in charge of the approved treatment program determines that appropriate treatment is available, the patient shall be encouraged to agree to further diagnosis and appropriate voluntary treatment. [1991 c 290 § 6; 1990 c 151 § 8; 1989 c 271 § 306; 1987 c 439 § 13; 1977 ex.s. c 62 § 1; 1974 ex.s. c 175 § 1; 1972 ex.s. c 122 § 12.]

70.96A.140 Involuntary commitment. (1) When a designated chemical dependency specialist receives information alleging that a person presents a likelihood of serious harm or is gravely disabled as a result of chemical dependency, the designated chemical dependency specialist, after investigation and evaluation of the specific facts alleged and of the reliability and credibility of the information, may file a petition for commitment of such person with the superior court, district court, or in another court permitted by court rule.

If a petition for commitment is not filed in the case of a minor, the parent, guardian, or custodian who has custody of the minor may seek review of that decision made by the designated chemical dependency specialist in superior or district court. The parent, guardian, or custodian shall file notice with the court and provide a copy of the designated chemical dependency specialist’s report.

If the designated chemical dependency specialist finds that the initial needs of such person would be better served by placement within the mental health system, the person shall be referred to either a *county designated mental health professional or an evaluation and treatment facility as defined in RCW 71.05.020 or 71.34.020. If placement in a chemical dependency program is available and deemed appropriate, the petition shall allege that: The person is chemically dependent and presents a likelihood of serious harm or is gravely disabled by alcohol or drug addiction, or that the person has twice before in the preceding twelve months been admitted for detoxification, sobering services, or chemical dependency treatment pursuant to RCW 70.96A.110 or 70.96A.120, and is in need of a more sustained treatment program, or that the person is chemically dependent and has threatened, attempted, or inflicted physical harm on another and is likely to inflict physical harm on another unless committed. A refusal to undergo treatment, by itself, does not constitute evidence of lack of judgment as to the need for treatment. The petition shall be accompanied by a certificate of a licensed physician who has examined the person within five days before submission of the petition, unless the person whose commitment is sought has refused to submit to a medical examination, in which case the fact of refusal shall be alleged in the petition. The certificate shall set forth the licensed physician’s findings in support of the allegations of the petition. A physician employed by the petitioning program or the department is eligible to be the certifying physician.

(2) Upon filing the petition, the court shall fix a date for a hearing no less than two and no more than seven days after the date the petition was filed unless the person petitioned against is presently being detained in a program, pursuant to RCW 70.96A.120, 71.05.210, or **71.34.050, in which case the hearing shall be held within seventy-two hours of the filing of the petition: PROVIDED, HOWEVER, That the above specified seventy-two hours shall be computed by excluding Saturdays, Sundays, and holidays: PROVIDED FURTHER, That, the court may, upon motion of the person whose commitment is sought, or upon motion of petitioner with written permission of the person whose commitment is sought, or his or her counsel and, upon good cause shown, extend the date for the hearing. A copy of the petition and of the notice of the hearing, including the date fixed by the court, shall be served by the designated chemical dependency specialist on the person whose commitment is sought, his or her next of kin, a parent or his or her legal guardian if he or she is a minor, and any other person the court believes advisable. A copy of the petition and certificate shall be delivered to each person notified.

(3) At the hearing the court shall hear all relevant testimony, including, if possible, the testimony, which may be telephonic, of at least one licensed physician who has examined the person whose commitment is sought. Communications otherwise deemed privileged under the laws of this state are deemed to be waived in proceedings under this chapter when a court of competent jurisdiction in its discretion determines that the waiver is necessary to protect either the detained person or the public. The waiver of a privilege under this section is limited to records or testimony relevant to evaluation of the detained person for purposes of a proceeding under this chapter. Upon motion by the detained person, or on its own motion, the court shall examine a record or testimony sought by a petitioner to determine whether it is within the scope of the waiver.

The record maker shall not be required to testify in order to introduce medical, nursing, or psychological records of detained persons so long as the requirements of RCW 5.45.020 are met, except that portions of the record that contain opinions as to whether the detained person is chemically dependent shall be deleted from the records unless the person offering the opinions is available for cross-examination. The person shall be present unless the court believes that his or her presence is likely to be injurious to him or her; in this event the court may deem it appropriate to appoint a guardian ad litem to represent him or her throughout the proceeding. If deemed advisable, the court may examine the person out of courtroom. If the person has refused to be examined by a
licensed physician, he or she shall be given an opportunity to be examined by a court appointed licensed physician. If he or she refuses and there is sufficient evidence to believe that the allegations of the petition are true, or if the court believes that more medical evidence is necessary, the court may make a temporary order committing him or her to the department for a period of not more than five days for purposes of a diagnostic examination.

(4) If after hearing all relevant evidence, including the results of any diagnostic examination, the court finds that grounds for involuntary commitment have been established by clear, cogent, and convincing proof, it shall make an order of commitment to an approved treatment program. It shall not order commitment of a person unless it determines that an approved treatment program is available and able to provide adequate and appropriate treatment for him or her.

(5) A person committed under this section shall remain in the program for treatment for a period of sixty days unless sooner discharged. At the end of the sixty-day period, he or she shall be discharged automatically unless the program, before expiration of the period, files a petition for his or her recommitment upon the grounds set forth in subsection (1) of this section for a further period of ninety days unless sooner discharged.

If a petition for recommitment is not filed in the case of a minor, the parent, guardian, or custodian who has custody of the minor may seek review of that decision made by the designated chemical dependency specialist in superior or district court. The parent, guardian, or custodian shall file notice with the court and provide a copy of the treatment progress report.

If a person has been committed because he or she is chemically dependent and likely to inflict physical harm on another, the program shall apply for recommitment if after examination it is determined that the likelihood still exists.

(6) Upon the filing of a petition for recommitment under subsection (5) of this section, the court shall fix a date for hearing no less than two and no more than seven days after the date the petition was filed: PROVIDED, That, the court may, upon motion of the person whose commitment is sought and upon good cause shown, extend the date for the hearing. A copy of the petition and of the notice of hearing, including the date fixed by the court, shall be served by the treatment program on the person whose commitment is sought, his or her next of kin, the original petitioner under subsection (1) of this section if different from the petitioner for recommitment, one of his or her parents or his or her legal guardian if he or she is a minor, and his or her attorney and any other person the court believes advisable. At the hearing the court shall proceed as provided in subsection (3) of this section.

(7) The approved treatment program shall provide for adequate and appropriate treatment of a person committed to its custody. A person committed under this section may be transferred from one approved public treatment program to another if transfer is medically advisable.

(8) A person committed to the custody of a program for treatment shall be discharged at any time before the end of the period for which he or she has been committed and he or she shall be discharged by order of the court if either of the following conditions are met:

(a) In case of a chemically dependent person committed on the grounds of likelihood of infliction of physical harm upon himself, herself, or another, the likelihood no longer exists; or further treatment will not be likely to bring about significant improvement in the person’s condition, or treatment is no longer adequate or appropriate.

(b) In case of a chemically dependent person committed on the grounds of the need of treatment and incapacity, that the incapacity no longer exists.

(9) The court shall inform the person whose commitment or recommitment is sought of his or her right to contest the application, be represented by counsel at every stage of any proceedings relating to his or her commitment and recommitment, and have counsel appointed by the court or provided by the court, if he or she wants the assistance of counsel and is unable to obtain counsel. If the court believes that the person needs the assistance of counsel, the court shall require, by appointment if necessary, counsel for him or her regardless of his or her wishes. The person shall, if he or she is financially able, bear the costs of such legal service; otherwise such legal service shall be at public expense. The person whose commitment or recommitment is sought shall be informed of his or her right to be examined by a licensed physician of his or her choice. If the person is unable to obtain a licensed physician and requests examination by a physician, the court shall employ a licensed physician.

(10) A person committed under this chapter may at any time seek to be discharged from commitment by writ of habeas corpus in a court of competent jurisdiction.

(11) The venue for proceedings under this section is the county in which person to be committed resides or is present.

(12) When in the opinion of the professional person in charge of the program providing involuntary treatment under this chapter, the committed patient can be appropriately served by less restrictive treatment before expiration of the period of commitment, then the less restrictive care may be required as a condition for early release for a period which, when added to the initial treatment period, does not exceed the period of commitment. If the program designated to provide the less restrictive treatment is other than the program providing the initial involuntary treatment, the program so designated must agree in writing to assume such responsibility. A copy of the conditions for early release shall be given to the patient, the designated chemical dependency specialist of original commitment, and the court of original commitment. The program designated to provide less restrictive care may modify the conditions for continued release when the modifications are in the best interests of the patient. If the program providing less restrictive care and the designated chemical dependency specialist determine that a conditionally released patient is failing to adhere to the terms and conditions of his or her release, or that substantial deterioration in the patient’s functioning has occurred, then the designated chemical dependency specialist shall notify the court of original commitment and request a hearing to be held no less than two and no more than seven days after the date of the request to determine whether or not the person should be returned to more restrictive care. The designated chemical dependency specialist shall file a petition with the court stating the facts substantiating the need for the hearing along with the treatment recommendations. The patient shall have the same
Treatment for Alcoholism, Intoxication, and Drug Addiction

70.96A.145 Involuntary commitment proceedings—Prosecuting attorney may represent specialist or program. The prosecuting attorney of the county in which such action is taken may, at the discretion of the prosecuting attorney, represent the designated chemical dependency specialist or treatment program in judicial proceedings under RCW 70.96A.140 for the involuntary commitment or recommitment of an individual, including any judicial proceeding where the individual sought to be committed or recommitted challenges the action. [1993 c 137 § 1.]

70.96A.148 Detention, commitment duties—Designation of county designated mental health professional. The county alcoholism and other drug addiction program coordinator may designate the county designated mental health professional to perform the detention and commitment duties described in RCW 70.96A.120 and 70.96A.140. [2001 c 13 § 4.]

70.96A.150 Records of alcoholics and intoxicated persons. (1) The registration and other records of treatment programs shall remain confidential. Records may be disclosed (a) in accordance with the prior written consent of the patient with respect to whom such record is maintained, (b) if authorized by an appropriate order of a court of competent jurisdiction granted after application showing good cause, (c) to comply with state laws mandating the reporting of suspected child abuse or neglect, or (d) when a patient commits a crime on program premises or against program personnel, or threatens to do so.

(2) Notwithstanding subsection (1) of this section, the secretary may receive information from patients’ records for purposes of research into the causes and treatment of alcoholism and other drug addiction, verification of eligibility and appropriateness of reimbursement, and the evaluation of alcoholism and other drug treatment programs. Information under this subsection shall not be published in a way that discloses patients’ names or otherwise discloses their identities.
70.96A.155 Court-ordered treatment—Required notifications. When any court orders a person to receive treatment under this chapter, the order shall include a statement that if the person is, or becomes, subject to supervision by the department of corrections, the person must notify the treatment provider and the person's chemical dependency treatment information must be shared with the department of corrections for the duration of the offender's incarceration and supervision. Upon a petition by a person who does not have a history of one or more violent acts, as defined in RCW 71.05.020, the court may, for good cause, find that public safety would not be enhanced by the sharing of this person's information. [2004 c 166 § 13.]

Severability—Effective dates—2004 c 166: See notes following RCW 71.05.040.

70.96A.157 Persons subject to court-ordered treatment or supervision—Documentation. (1) Treatment providers shall inquire of each person seeking treatment, at intake, whether the person is subject to court-ordered mental health or chemical dependency treatment, whether civil or criminal, and document the person's response in his or her record. If the person is in treatment on July 1, 2005, and the treatment provider has not inquired whether the person is subject to court-ordered mental health or chemical dependency treatment, the treatment provider shall inquire on the person's next treatment session and document the person's response in his or her record.

(2) Treatment providers shall inquire of each person seeking treatment, at intake, whether the person is subject to supervision of any kind by the department of corrections and document the person's response in his or her record. If the person is in treatment on July 1, 2005, and the treatment provider has not inquired whether the person is subject to supervision of any kind by the department of corrections, the treatment provider shall inquire on the person's next treatment session and document the person's response in his or her record.

(3) For all persons who are subject to both court-ordered mental health or chemical dependency treatment and supervision by the department of corrections, the treatment provider shall request an authorization to release records and notify the person that, unless expressly excluded by the court order the law requires treatment providers to share information with the department of corrections and the person's mental health treatment provider.

(4) If the treatment provider has reason to believe that a person is subject to supervision by the department of corrections but the person's record does not indicate that he or she is, the treatment provider may call any department of corrections office and provide the person's name and birth date. If the person is subject to supervision, the treatment provider shall request, and the department of corrections shall provide, the name and contact information for the person's community corrections officer. 70.96A.160 Visitation and communication with patients. (1) Subject to reasonable rules regarding hours of visitation which the secretary may adopt, patients in any approved treatment program shall be granted opportunities for adequate consultation with counsel, and for continuing contact with family and friends consistent with an effective treatment program.

(2) Neither mail nor other communication to or from a patient in any approved treatment program may be intercepted, read, or censored. The secretary may adopt reasonable rules regarding the use of telephone by patients in approved treatment programs. [1989 c 270 § 29; 1972 ex.s. c 122 § 16.]

70.96A.170 Emergency service patrol—Establishment—Rules. (1) The state and counties, cities, and other municipalities may establish or contract for emergency service patrols which are to be under the administration of the appropriate jurisdiction. A patrol consists of persons trained to give assistance in the streets and in other public places to persons who are intoxicated. Members of an emergency service patrol shall be capable of providing first aid in emergency situations and may transport intoxicated persons to their homes and to and from treatment programs.

(2) The secretary shall adopt rules pursuant to chapter 34.05 RCW for the establishment, training, and conduct of emergency service patrols. [1989 c 270 § 30; 1972 ex.s. c 122 § 17.]

70.96A.180 Payment for treatment—Financial ability of patients. (2) A patient in a program, or the estate of the patient, or a person obligated to provide for the cost of treatment and having sufficient financial ability, is liable to the program for cost of maintenance and treatment of the patient therein in accordance with rates established.

(3) The secretary shall adopt rules governing financial ability that take into consideration the income, savings, and other personal and real property of the person required to pay, and any support being furnished by him or her to any person he or she is required by law to support. [2012 c 117 § 413; 1990 c 151 § 6; 1989 c 270 § 31; 1972 ex.s. c 122 § 18.]

70.96A.190 Criminal laws limitations. (1) No county, municipality, or other political subdivision may adopt or enforce a local law, ordinance, resolution, or rule having the
force of law that includes drinking, being an alcoholic or drug addict, or being found in an intoxicated condition as one of the elements of the offense giving rise to a criminal or civil penalty or sanction.

(2) No county, municipality, or other political subdivision may interpret or apply any law of general application to circumvent the provision of subsection (1) of this section.

(3) Nothing in this chapter affects any law, ordinance, resolution, or rule against drunken driving, driving under the influence of alcohol or other psychoactive chemicals, or other similar offense involving the operation of a vehicle, aircraft, boat, machinery, or other equipment, or regarding the sale, purchase, dispensing, possessing, or use of alcoholic beverages or other psychoactive chemicals at stated times and places or by a particular class of persons; nor shall evidence of intoxication affect, other than as a defense, the application of any law, ordinance, resolution, or rule to conduct otherwise establishing the elements of an offense. Any provider of outpatient treatment who provides outpatient treatment to a minor thirteen years of age or older shall provide notice of the minor’s request for treatment to the minor’s parents if: (1) The minor signs a written consent authorizing the disclosure; or (2) the treatment program director determines that the minor lacks capacity to make a rational choice regarding consenting to disclosure. The notice shall be made within seven days of the request for treatment, excluding Saturdays, Sundays, and holidays, and shall contain the name, location, and telephone number of the facility providing treatment, and the name of a professional person on the staff of the facility providing treatment who is designated to discuss the minor’s need for treatment with the parent. [1998 c 296 § 24.]

70.96A.235 Minor—Parental consent for inpatient treatment—Exception. Parental consent is required for inpatient chemical dependency treatment of a minor, unless the child meets the definition of a child in need of services in *RCW 13.32A.030(4)(c) as determined by the department: PROVIDED, That parental consent is required for any treatment of a minor under the age of thirteen.

This section does not apply to petitions filed under this chapter. [1998 c 296 § 25.]

*Reviser’s note: RCW 13.32A.030 was amended by 2000 c 123 § 2, changing subsection (4)(c) to subsection (5)(c).

70.96A.240 Minor—Parent not liable for payment unless consented to treatment—No right to public funds. (1) The parent of a minor is not liable for payment of inpatient or outpatient chemical dependency treatment unless the parent has joined in the consent to the treatment.

(2) The ability of a parent to apply to a certified treatment program for the admission of his or her minor child to determine whether the minor is chemically dependent and in need of outpatient treatment.

(2) The consent of the minor is not required for admission, evaluation, and treatment if the parent brings the minor to the program.

(3) An appropriately trained professional person may evaluate whether the minor is chemically dependent. The evaluation shall be completed within twenty-four hours of the time the minor was brought to the program, unless the professional person determines that the condition of the minor necessitates additional time for evaluation. In no event shall a minor be held longer than seventy-two hours for evaluation. If, in the judgment of the professional person, it is determined it is a medical necessity for the minor to receive inpatient treatment, the minor may be held for treatment. The facility shall limit treatment to that which the professional person determines is medically necessary to stabilize the minor’s condition until the evaluation has been completed. Within twenty-four hours of completion of the evaluation, the professional person shall notify the department if the child is held for treatment and of the date of admission.

(4) No provider is obligated to provide treatment to a minor under the provisions of this section. No provider may admit a minor to treatment under this section unless it is medically necessary.

(5) No minor receiving inpatient treatment under this section may be discharged from the program based solely on his or her request. [1998 c 296 § 27.]

The department shall serve as the fiscal agent for purposes of distribution. Until July 1, 2004, the department may not use moneys appropriated from the criminal justice treatment account for administrative expenses and shall distribute all amounts appropriated under subsection (4)(b) of this section in accordance with this subsection. (6) The county alcohol and drug coordinator, county prosecutor, county sheriff, county superior court, a substance abuse treatment provider appointed by the county legislative authority, a member of the criminal defense bar appointed by the county legislative authority, and, in counties with a drug court, a representative of the drug court shall jointly submit a plan, approved by the county legislative authority or authorities, to the panel established in subsection (5)(b) of this section, for disposition of all the funds provided from the criminal justice treatment account within that county. The funds shall be used solely to provide approved alcohol and substance abuse treatment pursuant to RCW 70.96A.090, treatment support services, and for the administrative and overhead costs associated with the operation of a drug court.

(a) No more than ten percent of the total moneys received under subsections (4) and (5) of this section by a county or group of counties participating in a regional agreement shall be spent on the administrative and overhead costs associated with the operation of a drug court.

70.96A.400 Opiate substitution treatment—Declaration of regulation by state. The state of Washington declares that there is no fundamental right to opiate substitution treatment. The state of Washington further declares that while opiate substitution drugs used in the treatment of opiate dependency are addictive substances, that they nevertheless have several legal, important, and justified uses and that one of their appropriate and legal uses is, in conjunction with other required therapeutic procedures, in the treatment of persons addicted to or habituated to opioids. Opiate substitution treatment should only be used for participants who are deemed appropriate to need this level of intervention and should not be the first treatment intervention for all opiate addicts.

Because opiate substitution drugs, used in the treatment of opiate dependency are addictive and are listed as a schedule II controlled substance in chapter 69.50 RCW, the state of Washington has the legal obligation and right to regulate the use of opiate substitution treatment. The state of Washington declares its authority to control and regulate carefully, in consultation with counties and cities, all clinical uses of opiate substitution drugs used in the treatment of opiate addiction.
Further, the state declares that the primary goal of opiate substitution treatment is total abstinence from chemical dependency for the individuals who participate in the treatment program. The state recognizes that a small percentage of persons who participate in opiate substitution treatment programs require treatment for an extended period of time. Opiate substitution treatment programs shall provide a comprehensive transition program to eliminate chemical dependency, including opiate and opiate substitute addiction of program participants. [2001 c 242 § 1; 1995 c 321 § 1; 1989 c 270 § 20.]

70.96A.410 Opiate substitution treatment—Program certification by department, department duties—Definition of opiate substitution treatment. (1) For purposes of this section, "area" means the county in which an applicant proposes to locate a certified program and counties adjacent, or near to, the county in which the program is proposed to be located.

When making a decision on an application for certification of a program, the department shall:

(a) Consult with the county legislative authorities in the area in which an applicant proposes to locate a program and the city legislative authority in any city in which an applicant proposes to locate a program;

(b) Certify only programs that will be sited in accordance with the appropriate county or city land use ordinances. Counties and cities may require conditional or special use permits with reasonable conditions for the siting of programs. Pursuant to RCW 36.70A.200, no local comprehensive plan or development regulation may preclude the siting of essential public facilities;

(c) Not discriminate in its certification decision on the basis of the corporate structure of the applicant;

(d) Consider the size of the population in need of treatment in the area in which the program would be located and certify only applicants whose programs meet the necessary treatment needs of that population;

(e) Demonstrate a need in the community for opiate substitution treatment and not certify more program slots than justified by the need in that community. No program shall exceed three hundred fifty participants unless specifically authorized by the county in which the program is certified;

(f) Consider the availability of other certified programs near the area in which the applicant proposes to locate the program;

(g) Consider the transportation systems that would provide service to the program and whether the systems will provide reasonable opportunities to access the program for persons in need of treatment;

(h) Consider whether the applicant has, or has demonstrated in the past, the capability to provide the appropriate services to assist the persons who utilize the program in meeting goals established by the legislature, including abstinence from opiates and opiate substitutes, obtaining mental health treatment, improving economic independence, and reducing adverse consequences associated with illegal use of controlled substances. The department shall prioritize certification to applicants who have demonstrated such capability;

(i) Hold at least one public hearing in the county in which the facility is proposed to be located and one hearing in the area in which the facility is proposed to be located. The hearing shall be held at a time and location that are most likely to permit the largest number of interested persons to attend and present testimony. The department shall notify all appropriate media outlets of the time, date, and location of the hearing at least three weeks in advance of the hearing.

(2) A program applying for certification from the department and a program applying for a contract from a state agency that has been denied the certification or contract shall be provided with a written notice specifying the rationale and reasons for the denial.

(3) For the purpose of this chapter, opiate substitution treatment means:

(a) Dispensing an opiate substitution drug approved by the federal drug administration for the treatment of opiate addiction; and

(b) Providing a comprehensive range of medical and rehabilitative services. [2001 c 242 § 2; 1995 c 321 § 2; 1989 c 270 § 21.]

70.96A.420 Statewide treatment and operating standards for opiate substitution programs—Evaluation and report. (1) The department, in consultation with opiate substitution treatment service providers and counties and cities, shall establish statewide treatment standards for certified opiate substitution treatment programs. The department shall enforce these treatment standards. The treatment standards shall include, but not be limited to, reasonable provisions for all appropriate and necessary medical procedures, counseling requirements, urinalysis, and other suitable tests as needed to ensure compliance with this chapter.

(2) The department, in consultation with opiate substitution treatment programs and counties, shall establish statewide operating standards for certified opiate substitution treatment programs. The department shall enforce these operating standards. The operating standards shall include, but not be limited to, reasonable provisions necessary to enable the department and counties to monitor certified and licensed opiate substitution treatment programs for compliance with this chapter and the treatment standards authorized by this chapter and to minimize the impact of the opiate substitution treatment programs upon the business and residential neighborhoods in which the program is located.

(3) The department shall establish criteria for evaluating the compliance of opiate substitution treatment programs with the goals and standards established under this chapter. As a condition of certification, opiate substitution programs shall submit an annual report to the department and county legislative authority, including data as specified by the department necessary for outcome analysis. The department shall analyze and evaluate the data submitted by each treatment program and take corrective action where necessary to ensure compliance with the goals and standards enumerated under this chapter. [2003 c 207 § 6; 2001 c 242 § 3; 1998 c 245 § 135; 1995 c 321 § 3; 1989 c 270 § 22.]

70.96A.430 Inability to contribute to cost no bar to admission—Department may limit admissions. The department shall not refuse admission for diagnosis, evaluation, guidance or treatment to any applicant because it is determined that the applicant is financially unable to contrib-
ute fully or in part to the cost of any services or facilities available under the program on alcoholism.

The department may limit admissions of such applicants or modify its programs in order to ensure that expenditures for services or programs do not exceed amounts appropriated by the legislature and are allocated by the department for such services or programs. The department may establish admission priorities in the event that the number of eligible applicants exceeds the limits set by the department. [1989 c 271 § 308; 1959 c 85 § 15. Formerly RCW 70.96.150.]

Reviser’s note: This section was also repealed by 1989 c 270 § 35, without cognizance of its amendment by 1989 c 271 § 308; and subsequently recodified pursuant to 1993 c 131 § 1. For rule of construction concerning without cognizance of its amendment by 1989 c 271 § 308; 1959 c 85 § 15. Formerly RCW 70.96.150.

The contract shall require the University of Washington fetal alcohol syndrome clinic to provide the following services:

(1) Training for health care staff in community-based fetal alcohol exposure clinics to ensure the accurate diagnosis of individuals with fetal alcohol exposure and the development and implementation of appropriate service referral plans;

(2) Development of written or visual educational materials for the individuals diagnosed with fetal alcohol exposure and their families or caregivers;

(3) Systematic information retrieval from each community clinic to (a) maintain diagnostic accuracy and reliability across all community clinics, (b) facilitate the development of effective and efficient screening tools for population-based identification of individuals with fetal alcohol exposure, (c) facilitate identification of the most clinically efficacious and cost-effective educational, social, vocational, and health service interventions for individuals with fetal alcohol exposure;

(4) Based on available funds, establishment of a network of community-based fetal alcohol exposure clinics across the state to meet the demand for fetal alcohol exposure diagnostic and referral services; and

(5) Preparation of an annual report for submission to the department of health, the department of social and health services, the department of corrections, and the office of the superintendent of public instruction which includes the information retrieved under subsection (3) of this section. [1998 c 245 § 136; 1995 c 54 § 2.]

Findings—Purpose—1995 c 54: "The legislature finds that fetal alcohol exposure is among the leading known causes of mental retardation in the children of our state. The legislature further finds that individuals with undiagnosed fetal alcohol exposure suffer substantially from secondary disabilities such as child abuse and neglect, separation from families, multiple foster placements, depression, aggression, school failure, juvenile detention, and job instability. These secondary disabilities come at a high cost to the individuals, their family, and society. The legislature finds that these problems can be reduced substantially by early diagnosis and receipt of appropriate, effective intervention.

The purpose of this act is to support current public and private efforts directed at the early identification of and intervention into the problems associated with fetal alcohol exposure through the creation of a fetal alcohol exposure clinical network." [1995 c 54 § 1.]

70.96A.510 Interagency agreement on fetal alcohol exposure programs. The department of social and health services, the department of health, the department of corrections, and the office of the superintendent of public instruction shall execute an interagency agreement to ensure the coordination of identification, prevention, and intervention programs for children who have fetal alcohol exposure, and for women who are at high risk of having children with fetal alcohol exposure.

The interagency agreement shall provide a process for community advocacy groups to participate in the review and development of identification, prevention, and intervention programs administered or contracted for by the agencies executing this agreement. [1995 c 54 § 3.]

Findings—Purpose—1995 c 54: See note following RCW 70.96A.500.

70.96A.520 Chemical dependency treatment expenditures—Prioritization. The department shall prioritize expenditures for treatment provided under RCW 13.40.165. The department shall provide funds for inpatient and outpatient treatment providers that are the most successful, using the standards developed by the University of Washington under section 27, chapter 338, Laws of 1997. The department may consider variations between the nature of the programs provided and clients served but must provide funds first for those programs that demonstrate the greatest success in treatment within categories of treatment and the nature of the persons receiving treatment. [2003 c 207 § 7; 1997 c 338 § 28.]

(1) The secretary, after consulting with the Washington state association of counties, shall select and contract with regional support networks or counties to provide two integrated crisis response and involuntary treatment pilot programs for adults and shall allocate resources for both integrated services and secure detoxification services in the pilot areas. In selecting the two regional support networks or counties, the secretary shall endeavor to site one in an urban and one in a rural regional support network or county; and to site them in counties other than those selected pursuant to RCW 70.96A.800, to the extent necessary to facilitate evaluation of pilot project results.

(2) The regional support networks or counties shall implement the pilot programs by providing integrated crisis
response and involuntary treatment to persons with a chemical dependency, a mental disorder, or both, consistent with this chapter. The pilot programs shall:

(a) Combine the crisis responder functions of a designated mental health professional under chapter 71.05 RCW and a designated chemical dependency specialist under chapter 70.96A RCW by establishing a new designated crisis responder who is authorized to conduct investigations and detain persons up to seventy-two hours to the proper facility;

(c) Provide sufficient staff and resources to ensure availability of an adequate number of crisis responders twenty-four hours a day, seven days a week;
(d) Provide the administrative and court-related staff, resources, and processes necessary to facilitate the legal requirements of the initial detention and the commitment hearings for persons with a chemical dependency;
(e) Participate in the evaluation and report to assess the outcomes of the pilot programs including providing data and information as requested;
(f) Provide the other services necessary to the implementation of the pilot programs, consistent with this chapter as determined by the secretary in contract; and

(2) Person with a master’s degree or further advanced degree in counseling or one of the social sciences from an accredited college or university and who have, in addition, at least two years of experience in direct treatment of persons with mental illness or emotional disturbance, such experience gained under the direction of a mental health professional;
(3) Person who meets the waiver criteria of RCW 71.24.260, which waiver was granted before 1986;

70.96B.050 Petition for initial detention—Order to detain for evaluation and treatment period—Procedure.

(1) When a designated crisis responder receives information alleging that a person, as a result of a mental disorder, chemical dependency disorder, or both, presents a likelihood of serious harm or is gravely disabled, the designated crisis responder may, after investigation and evaluation of the specific facts alleged and of the reliability and credibility of any person providing information to initiate detention, if satisfied that the allegations are true and that the person will not voluntarily seek appropriate treatment, file a petition for initial detention. Before filing the petition, the designated crisis responder must personally interview the person, unless the person refuses an interview, and determine whether the person will voluntarily receive appropriate evaluation and treatment at either an evaluation and treatment facility, a detoxification facility, or other certified chemical dependency provider.

(2)(a) An order to detain to an evaluation and treatment facility, a detoxification facility, or other certified chemical dependency provider for not more than a seventy-two hour evaluation and treatment period may be issued by a judge upon request of a designated crisis responder: (i) Whenever it appears to the satisfaction of a judge of the superior court, district court, or other court permitted by court rule, that there is probable cause to support the petition, and (ii) that the person has refused or failed to accept appropriate evaluation and treatment voluntarily.

(b) The petition for initial detention, signed under penalty of perjury or sworn telephonic testimony, may be considered by the court in determining whether there are sufficient grounds for issuing the order.

(c) The order shall designate retained counsel or, if counsel is appointed from a list provided by the court, the name, business address, and telephone number of the attorney appointed to represent the person.

(3) The designated crisis responder shall then serve or cause to be served on such person, his or her guardian, and conservator, if any, a copy of the order to appear, together with a notice of rights and a petition for initial detention. After service on the person, the designated crisis responder shall file the return of service in court and provide copies of all papers in the court file to the evaluation and treatment facility or secure detoxification facility and the designated attorney. The designated crisis responder shall notify the court and the prosecuting attorney that a probable cause hearing will be held within seventy-two hours of the date and time of outpatient evaluation or admission to the evaluation and treatment facility, secure detoxification facility, or other certified chemical dependency provider. If requested by the detained person or his or her attorney, the hearing may be postponed for a period not to exceed forty-eight hours. The hearing may be continued subject to the petitioner’s showing of good cause for a period not to exceed twenty-four hours. The person may be accompanied by one or more of his or her relatives, friends, an attorney, a personal physician, or other professional or religious advisor to the place of evaluation. An attorney accompanying the person to the place of evaluation shall be permitted to be present during the admission evaluation. Any other person accompanying the person may be present during the admission evaluation. The facility may exclude the person if his or her presence would present a safety risk, delay the proceedings, or otherwise interfere with the evaluation.

(4) The designated crisis responder may notify a peace officer to take the person into custody and immediately deliver the person to the emergency department of a local hospital or to a detoxification facility. [2007 c 120 § 2.]

Effective date—2007 c 120: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [April 18, 2007]." [2007 c 120 § 3.]

70.96B.060 Exemption from liability.

(1) A person or public or private entity employing a person is not civilly or criminally liable for performing duties under this chapter if the duties were performed in good faith and without gross negligence.

(2) This section does not relieve a person from giving the required notices under RCW 71.05.330(2) or 71.05.340(1)(b), or the duty to warn or to take reasonable precautions to provide protection from violent behavior where the patient has communicated an actual threat of physical violence against a reasonably identifiable victim or victims. The duty to warn or to take reasonable precautions to provide protection from violent behavior is discharged if reasonable efforts are made to communicate the threat to the victim or victims and to law enforcement personnel. [2005 c 504 § 207.]

70.96B.070 Detention period for evaluation and treatment.

If the evaluation and treatment facility, secure detoxification facility, or other certified chemical dependency provider admits the person, it may detain the person for evaluation and treatment for a period not to exceed seventy-two hours from the time of acceptance. The computation of the seventy-two hour period excludes Saturdays, Sundays, and holidays. [2005 c 504 § 208.]
70.96B.080 Detention for evaluation and treatment of mental disorder—Chapter 71.05 RCW applies. Whenever any person is detained for evaluation and treatment for a mental disorder under RCW 70.96B.050, chapter 71.05 RCW applies. [2005 c 504 § 209.]

Findings—Intent—Severability—Application—Construction—Captions, part headings, subheadings not law—Adoption of rules—Effective dates—2005 c 504: See notes following RCW 71.05.027.

Alphabetization—Correction of references—2005 c 504: See note following RCW 71.05.020.

70.96B.090 Procedures for additional chemical dependency treatment. (1) A person detained for seventy-two hour evaluation and treatment under RCW 70.96B.050 or 70.96A.120 may be detained for not more than fourteen additional days of involuntary chemical dependency treatment if there are beds available at the secure detoxification facility and the following conditions are met:

(a) The professional person in charge of the agency or facility or the person’s designee providing evaluation and treatment services in a secure detoxification facility has assessed the person’s condition and finds that the condition is caused by chemical dependency and either results in a likelihood of serious harm or in the detained person being gravely disabled, and the professional person or his or her designee is prepared to testify those conditions are met;

(b) The person has been advised of the need for voluntary treatment and the professional person in charge of the agency or facility or his or her designee has evidence that he or she has not in good faith volunteered for treatment; and

(c) The professional person in charge of the agency or facility or the person’s designee has filed a petition for fourteen-day involuntary detention with the superior court, district court, or other court permitted by court rule. The petition must be signed by the chemical dependency professional who has examined the person.

(2) The petition under subsection (1)(c) of this section shall be accompanied by a certificate of a licensed physician who has examined the person, unless the person whose commitment is sought has refused to submit to a medical examination, in which case the fact of refusal shall be alleged in the petition. The certificate shall set forth the licensed physician’s findings in support of the allegations of the petition. A physician employed by the petitioning program or the department is eligible to be the certifying physician.

(3) The petition shall state facts that support the finding that the person, as a result of chemical dependency, presents a likelihood of serious harm or is gravely disabled, and that there are no less restrictive alternatives to detention in the best interest of the person or others. The petition shall state specifically that less restrictive alternative treatment was considered and specify why treatment less restrictive than detention is not appropriate.

(4) A copy of the petition shall be served on the detained person, his or her attorney, and his or her guardian or conservator, if any, before the probable cause hearing.

(5)(a) The court shall inform the person whose commitment is sought of his or her right to contest the petition, be represented by counsel at every stage of any proceedings relating to his or her commitment, and have counsel appointed by the court or provided by the court, if he or she wants the assistance of counsel and is unable to obtain counsel. If the court believes that the person needs the assistance of counsel, the court shall require, by appointment if necessary, counsel for him or her regardless of his or her wishes. The person shall, if he or she is financially able, bear the costs of such legal service; otherwise such legal service shall be at public expense. The person whose commitment is sought shall be informed of his or her right to be examined by a licensed physician of his or her choice. If the person is unable to obtain a licensed physician and requests examination by a physician, the court shall appoint a reasonably available licensed physician designated by the person.

(b) At the conclusion of the probable cause hearing, if the court finds by a preponderance of the evidence that the person, as the result of chemical dependency, presents a likelihood of serious harm or is gravely disabled and, after considering less restrictive alternatives to involuntary detention and treatment, finds that no such alternatives are in the best interest of such person or others, the court shall order that the person be detained for involuntary chemical dependency treatment not to exceed fourteen days in a secure detoxification facility. [2005 c 504 § 210.]

Findings—Intent—Severability—Application—Construction—Captions, part headings, subheadings not law—Adoption of rules—Effective dates—2005 c 504: See notes following RCW 71.05.027.

Alphabetization—Correction of references—2005 c 504: See note following RCW 71.05.020.

70.96B.100 Detention for involuntary chemical dependency treatment—Petition for less restrictive treatment—Appearance before court—Representation—Hearing—Less restrictive order—Failure to adhere to terms of less restrictive order. (1) A person detained for fourteen days of involuntary chemical dependency treatment under RCW 70.96B.090 or subsection (6) of this section shall be released from involuntary treatment at the expiration of the period of commitment unless the professional staff of the agency or facility files a petition for an additional period of involuntary treatment under RCW 70.96A.140, or files a petition for sixty days less restrictive treatment under this section naming the detained person as a respondent. Costs associated with the obtaining or revocation of an order for less restrictive treatment and subsequent involuntary commitment shall be provided for within current funding.

(2) A petition for less restrictive treatment must be filed at least three days before expiration of the fourteen-day period of intensive treatment, and comport with the rules contained in RCW 70.96B.090(2). The petition shall state facts that support the finding that the respondent, as a result of a chemical dependency, presents a likelihood of serious harm or is gravely disabled, and that continued treatment pursuant to a less restrictive order is in the best interest of the respondent or others. At the time of filing such a petition, the clerk shall set a time for the respondent to come before the court on the next judicial day after the day of filing unless such appearance is waived by the respondent’s attorney.
(3) At the time set for appearance the respondent must be brought before the court, unless such appearance has been waived and the court shall advise the respondent of his or her right to be represented by an attorney. If the respondent is not represented by an attorney, or is indigent or is unwilling to retain an attorney, the court shall immediately appoint an attorney to represent the respondent. The court shall, if requested, appoint a reasonably available licensed physician, psychologist, or psychiatrist, designated by the respondent to examine and testify on behalf of the respondent.

(4) The court shall conduct a hearing on the petition for sixty days less restrictive treatment on or before the last day of the confinement period. The burden of proof shall be by clear, cogent, and convincing evidence and shall be upon the petitioner. The respondent shall be present at such proceeding. The rules of evidence shall apply, and the respondent shall have the right to present evidence on his or her behalf, to cross-examine witnesses who testify against him or her, to remain silent, and to view and copy all petitions and reports in the court file. The physician-patient privilege or the psychologist-client privilege shall be deemed waived in accordance with the provisions under RCW 71.05.360(9). Involuntary treatment shall continue while a petition for less restrictive treatment is pending under this section.

(5) The court may impose a sixty-day less restrictive order if the evidence shows that the respondent, as a result of a chemical dependency, presents a likelihood of serious harm or is gravely disabled, and that continued treatment pursuant to a less restrictive order is in the best interest of the respondent or others. The less restrictive order may impose treatment conditions and other conditions which are in the best interest of the respondent and others. A copy of the less restrictive order shall be given to the respondent, the designated crisis responder, and any program designated to provide less restrictive treatment. A program designated to provide less restrictive treatment and willing to supervise the conditions of the less restrictive order may modify the conditions for continued release when the modification is in the best interests of the respondent, but must notify the designated crisis responder and the court of such modification.

(6) If a program approved by the court and willing to supervise the conditions of the less restrictive order or the designated crisis responder determines that the respondent is failing to adhere to the terms of the less restrictive order or that substantial deterioration in the respondent’s functioning has occurred, then the designated crisis responder shall notify the court of original commitment and request a hearing to determine whether or not the respondent should be returned to more restrictive care or that substantial deterioration of the respondent’s functioning has occurred and whether the conditions of release should be modified or the respondent should be returned to a more restrictive setting. The hearing may be waived by the respondent and his or her counsel and his or her guardian or conservator, if any, but may not be waived unless all such persons agree to the waiver. If the court finds in favor of the petitioner, or the respondent waives a hearing, the court may order the respondent to be committed to a secure detoxification facility for fourteen days of involuntary chemical dependency treatment, or may order the respondent to be returned to less restrictive treatment on the same or modified conditions. [2008 c 320 § 6; 2005 c 504 § 211.]

(2) The department may suspend, revoke, or refuse to renew a license, assess civil monetary penalties, or both, in any case in which it finds that the licensee of a facility, or any partner, officer, director, owner of five percent or more of the assets of the facility, or managing employee:

(a) Operated a facility without a license or under a revoked or suspended license;

(b) Knowingly or with reason to know made a false statement of a material fact in the license application or any data attached thereto, or in any matter under investigation by the department;
(b) Ensure the health and safety of the facility’s residents while:
   (i) Orderly closure of the facility occurs; or
   (ii) The deficiencies necessitating temporary management are corrected. [2005 c 504 § 413.]

Unlicensed operation—Application of consumer protection act. Operation of a facility without a license in violation of this chapter and discrimination against medicaid recipients is a matter vitally affecting the public interest for the purpose of applying the consumer protection act, chapter 19.86 RCW. Operation of an enhanced services facility without a license in violation of this chapter is not reasonable in relation to the development and preservation of business. Such a violation is an unfair or deceptive act in trade or commerce and an unfair method of competition for the purpose of applying the consumer protection act, chapter 19.86 RCW. [2005 c 504 § 415.]

Unlicensed operation—Criminal penalty. A person operating or maintaining a facility without a license under this chapter is guilty of a misdemeanor and each day of the continuing violation after conviction shall be considered a separate offense. [2005 c 504 § 416.]

Persons eligible for admittance. The facility shall only admit individuals:
   (1) Who are over the age of eighteen;
   (2) Who meet the resident eligibility requirements described in RCW 70.97.030; and
   (3) Whose needs the facility can safely and appropriately meet through qualified and trained staff, services, equipment, security, and building design. [2005 c 504 § 419.]

Injunction or other remedies. Notwithstanding the existence or use of any other remedy, the department may, in the manner provided by law, maintain an action in the name of the state for an injunction, civil penalty, or other process against a person to restrain or prevent the operation or maintenance of a facility without a license issued under this chapter. Complaint inspections shall be unannounced and conducted in such a manner as to ensure maximum effectiveness. No advance notice shall be given of any inspection unless authorized or required by federal law.

(3) During inspections, the facility must give the department access to areas, materials, and equipment used to provide care or support to residents, including resident and staff records, accounts, and the physical premises, including the buildings, grounds, and equipment. The department has the authority to privately interview the provider, staff, residents, and other individuals familiar with resident care and treatment.

(4) Any public employee giving advance notice of an inspection in violation of this section shall be suspended from all duties without pay for a period of not less than five nor more than fifteen days.

(5) The department shall prepare a written report describing the violations found during an inspection, and shall provide a copy of the inspection report to the facility.

Such rule or regulation shall provide for amendment, suspension, or revocation of licenses. Such rule or regulation shall provide that:

(a) Each application for a specific license shall be in writing and shall state such information as the agency, by rule or regulation, may determine to be necessary to decide the technical, insurance, and financial qualifications, or any other qualification of the applicant as the agency may deem reasonable and necessary to protect the occupational and public health and safety. The agency may at any time after the filing of the application, and before the expiration of the license, require further written statements and shall make such inspections as the agency deems necessary in order to determine whether the license should be granted or denied or whether the license should be modified, suspended, or revoked. In no event shall the agency grant a specific license to any applicant who has never possessed a specific license issued by a recognized state or federal authority until the agency has conducted an inspection which assures that the applicant can meet the rules, regulations and standards adopted pursuant to this chapter. All applications and statements shall be signed by the applicant or licensee. The agency may require any applications or statements to be made under oath or affirmation;
(b) Each license shall be in such form and contain such terms and conditions as the agency may by rule or regulation prescribe;

(c) No license issued under the authority of this chapter and no right to possess or utilize sources of ionizing radiation granted by any license shall be assigned or in any manner disposed of; and

(d) The terms and conditions of all licenses shall be subject to amendment, revision, or modification by rules, regulations or orders issued in accordance with the provisions of this chapter.

(2) Before the agency issues a license to an applicant under this section, it shall give notice of such application to the chief executive officer of the incorporated city or town, if the application is for a license within an incorporated city or town, or to the county legislative authority, if the application is for a license outside the boundaries of incorporated cities or towns. The incorporated city or town, through the official or employee selected by it, or the county legislative authority or the official or employee selected by it, shall have the right to file with the agency within twenty days after date of transmittal of such notice, written objections against the applicant or against the activity for which the license is sought, and shall include with such objections a statement of all facts upon which such objections are based, and in case written objections are filed, may request and the agency may in its discretion hold a formal hearing under chapter 34.05 RCW. Upon the granting of a license under this section the agency shall send a duplicate of the license or written notification to the chief executive officer of the incorporated city or town in which the license is granted, or to the county legislative authority if the license is granted outside the boundaries of incorporated cities or towns. This subsection shall not apply to activities conducted within the boundaries of the Hanford Reservation.

(3) The agency may require registration of all sources of ionizing radiation.

(4) The agency may exempt certain sources of ionizing radiation or kinds of uses or users from the registration or licensing requirements set forth in this section when the agency makes a finding after approval of the technical advisory board that the exemption of such sources of ionizing radiation or kinds of uses or users will not constitute a significant risk to the health and safety of the public.

(5) In promulgating rules and regulations pursuant to this chapter the agency shall, insofar as practical, strive to avoid requiring dual licensing, and shall provide for such recognition of other state or federal licenses as the agency shall deem desirable, subject to such registration requirements as the agency may prescribe. The activities for which federal funding is sought shall include, but are not limited to, the development of a radiological baseline for the Hanford reservation; the implementation of a program to monitor ionizing radiation emissions on the Hanford reservation; the collection of statistical data and epidemiological research, where available, on diseases that result from exposure to sources of ionizing radiation on the Hanford reservation.

(2) In the event the federal government refuses to grant financial assistance for the activities under subsection (1) of this section, the agency is directed to investigate potential legal action. [1985 c 383 § 2.]

70.98.130 Administrative procedure. (1) In any proceeding under this chapter for the issuance or modification or repeal of rules relating to control of sources of ionizing radiation, the agency shall comply with the requirements of chapter 34.05 RCW, the administrative procedure act.

(2) Notwithstanding any other provision of this chapter, whenever the agency finds that an emergency exists requiring immediate action to protect the public health, safety, or general welfare, the agency may, in accordance with RCW 34.05.350 without notice or hearing, adopt a rule reciting the existence of such emergency and require that such action be taken as is necessary to meet the emergency. As specified in RCW 34.05.350, such rules are effective immediately.

(3) In any case in which the department denies, modifies, suspends, or revokes a license or permit, RCW 43.70.115 governs notice of the action and provides the right to an adjudicative proceeding to the applicant or licensee or permittee. Such an adjudicative proceeding is governed by chapter 34.05 RCW. [2012 c 19 § 12; 1989 c 175 § 13; 1961 c 207 § 13.]

70.99.010 Finding. The people of the state of Washington find that:

(1) Radioactive wastes are highly dangerous, in that releases of radioactive materials and emissions to the environment are inimical to the health and welfare of the people of the state of Washington, and contribute to the occurrences of harmful diseases, including excessive cancer and leukemia. The dangers posed by the transportation and presence of radioactive wastes are increased further by the long time periods that the wastes remain radioactive and highly dangerous;

(2) Transporting, handling, storing, or otherwise caring for radioactive waste presents a hazard to the health, safety, and welfare of the individual citizens of the state of Washington because of the ever-present risk that an accident or incident will occur while the wastes are being cared for;

(3) The likelihood that an accident will occur in this state involving the release of radioactive wastes to the environment becomes greater as the volume of wastes transported, handled, stored, or otherwise cared for in this state increases;

(4) The effects of unplanned releases of radioactive wastes into the environment, especially into the air and water of the state, are potentially both widespread and harmful to the health, safety, and welfare of the citizens of this state.

The burdens and hazards posed by increasing the volume of radioactive wastes transported, handled, stored, or otherwise cared for in this state by the importation of such wastes from outside this state is not a hazard the state government may reasonably ask its citizens to bear. The people of the state of Washington believe that the principles of federalism do not require the sacrifice of the health, safety, and welfare of the people of one state for the convenience of other states or nations. [1981 c 1 § 1 (Initiative Measure No. 383, approved November 4, 1980).]

70.99.020 Definitions. The definitions set forth in this section apply throughout this chapter.

(1) "Radioactive waste" means unwanted radioactive material, including radioactive residues produced as a result of electric power generation or other reactor operation.

(2) "Medical waste" means radioactive waste from all therapy, diagnosis, or research in medical fields and radioactive waste which results from the production and manufacture of radioactive material used for therapy, diagnosis, or research in medical fields, except that "medical waste" does not include spent fuel or waste from the fuel of an isotope production reactor.

(3) "Radioactive waste generated or otherwise produced outside the geographic boundaries of the state of Washington" means radioactive waste which was located outside the state of Washington at the time of removal from a reactor vessel. [1981 c 1 § 2 (Initiative Measure No. 383, approved November 4, 1980).]

70.99.030 Storage of radioactive waste from outside the state prohibited—Exceptions. Notwithstanding any law, order, or regulation to the contrary, after July 1, 1981, no area within the geographic boundaries of the state of Washington may be used by any person or entity as a temporary, interim, or permanent storage site for radioactive waste, except medical waste, generated or otherwise produced outside the geographic boundaries of the state of Washington. This section does not apply to radioactive waste stored within the state of Washington prior to July 1, 1981. [1981 c 1 § 3 (Initiative Measure No. 383, approved November 4, 1980).]

70.99.040 Transportation of radioactive waste from outside the state for storage within the state prohibited—Exception. Notwithstanding any law, order, or regulation to the contrary, after July 1, 1981, no person or entity may transport radioactive waste, except medical waste, generated or otherwise produced outside the geographic boundaries of the state of Washington to any site within the geographic boundaries of the state of Washington for temporary, interim, or permanent storage. [1981 c 1 § 4 (Initiative Measure No. 383, approved November 4, 1980).]

70.99.050 Violations—Penalties—Injunctions—Jurisdiction and venue—Fees and costs. (1) A violation of or failure to comply with the provisions of RCW 70.99.030 or 70.99.040 is a gross misdemeanor.

[Title 70 RCW—page 343]
(2) Any person or entity that violates or fails to comply with the provisions of RCW 70.99.030 or 70.99.040 is subject to a civil penalty of one thousand dollars for each violation or failure to comply.

(3) Each day upon which a violation occurs constitutes a separate violation for the purposes of subsections (1) and (2) of this section.

(4) Any person or entity violating this chapter may be enjoined from continuing the violation. The attorney general or any person residing in the state of Washington may bring an action to enjoin violations of this chapter, on his or her own behalf and on the behalf of all persons similarly situated. Such action may be maintained in the person’s own name or in the name of the state of Washington. No bond may be required as a condition to obtaining any injunctive relief. The superior courts have jurisdiction over actions brought under this section, and venue shall lie in the county of the plaintiff’s residence, in the county in which the violation is alleged to occur, or in Thurston county. In addition to other relief, the court in its discretion may award attorney’s and expert witness fees and costs of the suit to a party who demonstrates that a violation of this chapter has occurred. [1981 c 1 § 5 (Initiative Measure No. 383, approved November 4, 1980).]

70.99.060 Interstate compact for regional storage. Notwithstanding the other provisions of this chapter, the state of Washington may enter into an interstate compact, which will become effective upon ratification by a majority of both houses of the United States Congress, to provide for the regional storage of radioactive wastes. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1981 c 1 § 8 (Initiative Measure No. 383, approved November 4, 1980).]

70.99.910 Short title. This act may be known as the Radioactive Waste Storage and Transportation Act of 1980. [1981 c 1 § 9 (Initiative Measure No. 383, approved November 4, 1980).]

LEAD-BASED PAINT

70.103.090 Chapter contingent on federal action.

70.103.010 Finding. (1) The legislature finds that lead hazards associated with lead-based paint represent a significant and preventable environmental health problem. Lead-based paint is the most widespread of the various sources of lead exposure to the public. Census data show that one million five hundred sixty thousand homes in Washington state were built prior to 1978 when the sale of residential lead-based paint was banned. These homes that are believed to contain some lead-based paint.

Lead negatively affects every system of the body. It is harmful to individuals of all ages and is especially harmful to
children, fetuses, and adults of childbearing age. The effects of lead on a child’s cognitive, behavioral, and developmental abilities may necessitate large expenditures of public funds for health care and special education. The irreversible damage to children and subsequent expenditures could be avoided if exposure to lead is reduced.

(2) The federal government regulates lead poisoning and lead hazard reduction through:
   (a)(i) The lead-based paint poisoning prevention act;
   (ii) The lead contamination control act;
   (iii) The safe drinking water act;
   (iv) The resource conservation and recovery act of 1976; and
   (v) The residential lead-based paint hazard reduction act of 1992; and
   (b) Implementing regulations of:
      (i) The environmental protection agency;
      (ii) The department of housing and urban development;
      (iii) The occupational safety and health administration; and
      (iv) The centers for disease control and prevention.

(3) In 1992, congress passed the federal residential lead-based paint hazard reduction act, which allows states to provide for the accreditation of lead-based paint activities programs, the certification of persons completing such training programs, and the licensing of lead-based paint activities contractors under standards developed by the United States environmental protection agency.

(4) The legislature recognizes the state’s need to protect the public from exposure to lead hazards. A qualified and properly trained workforce is needed to assist in the prevention, detection, reduction, and elimination of hazards associated with lead-based paint. The purpose of training workers, supervisors, inspectors, risk assessors, project designers, renovators, and dust sampling technicians engaged in lead-based paint activities is to protect building occupants, particularly children ages six years and younger from potential lead-based paint hazards and exposures both during and after lead-based paint activities. Qualified and properly trained individuals and firms will help to ensure lead-based paint activities are conducted in a way that protects the health of the citizens of Washington state and safeguards the environment. The state lead-based paint activities program requires that all lead-based paint activities be performed by certified personnel trained by an accredited program, and that all lead-based paint activities meet minimum work practice standards established by the department of commerce. Therefore, the lead-based paint activities accreditation, training, and certification program shall be established in accordance with this chapter. The lead-based paint activities accreditation, training, and certification program shall be administered by the department of commerce and shall be used as a means to assure the protection of the general public from exposure to lead hazards.

(5) For the welfare of the people of the state of Washington, this chapter establishes a lead-based paint activities program within the department of commerce to protect the general public from exposure to lead hazards and to ensure the availability of a trained and qualified workforce to identify and address lead-based paint hazards. The legislature recognizes the department of commerce is not a regulatory agency and may delegate enforcement responsibilities under chapter 322, Laws of 2003 to local governments or private entities. [2010 c 158 § 1; 2003 c 322 § 1.]

70.103.020 Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

         (A) Shall result in the permanent elimination of lead-based paint hazards; or
         (B) Are designed to permanently eliminate lead-based paint hazards and are described in (a)(i) and (ii) of this subsection;
      (ii) Projects resulting in the permanent elimination of lead-based paint hazards, conducted by certified firms or individuals, unless such projects are covered by (c) of this subsection;
      (iii) Projects resulting in the permanent elimination of lead-based paint hazards, conducted by firms or individuals who, through their company name or promotional literature, represent, advertise, or hold themselves out to be in the business of performing lead-based paint activities as identified and defined by this section, unless such projects are covered by (c) of this subsection; or
      (iv) Projects resulting in the permanent elimination of lead-based paint hazards, that are conducted in response to state or local abatement orders.
   (c) Abatement does not include renovation, remodeling, landscaping, or other activities, when such activities are not designed to permanently eliminate lead-based paint hazards, but, instead, are designed to repair, restore, or remodel a given structure or dwelling, even though these activities may incidentally result in a reduction or elimination of lead-based paint hazards. Furthermore, abatement does not include interim controls, operations and maintenance activities, or other measures and activities designed to temporarily, but not permanently, reduce lead-based paint hazards.

As a consequence, it must be concerned with both natural and artificial environmental factors which may adversely affect the public health and welfare. Dangers to the public health and welfare related to the use of pesticides require specific legislative recognition of departmental authority and responsibility in this area. [1991 c 3 § 356; 1971 ex.s. c 41 § 1.]

70.104.020 "Pesticide" defined. For the purposes of this chapter pesticide means, but is not limited to:

(1) Any substance or mixture of substances intended to prevent, destroy, control, repel, or mitigate any insect, rodent, nematode, snail, slug, fungus, weed and any other form of plant or animal life or virus, except virus on or in a living human being or other animal, which is normally considered to be a pest or which the director of agriculture may declare to be a pest; or

(2) Any substance or mixture of substances intended to be used as a plant regulator, defoliant or desiccant; or

(3) Any spray adjuvant, such as a wetting agent, spreading agent, deposit builder, adhesive, emulsifying agent, deflocculating agent, water modifier, or similar agent with or without toxic properties of its own intended to be used with any other pesticide as an aid to the application or effect thereof, and sold in a package or container separate from that of the pesticide with which it is to be used; or

(4) Any fungicide, rodenticide, herbicide, insecticide, and nematocide. [2009 c 549 § 1026; 1971 ex.s. c 41 § 2.]

70.104.030 Powers and duties of department of health. (1) The department of health may investigate all suspected human cases of pesticide poisoning and such cases of suspected pesticide poisoning of animals that may relate to human illness. The department shall establish time periods by rule to determine investigation response time. Time periods shall range from immediate to forty-eight hours to initiate an investigation, depending on the severity of the case or suspected case of pesticide poisoning.

In order to adequately investigate such cases, the department shall have the power to:

(a) Take all necessary samples and human or animal tissue specimens for diagnostic purposes: PROVIDED, That tissue, if taken from a living human, shall be taken from a living human only with the consent of a person legally qualified to give such consent;

(b) Secure any and all such information as may be necessary to adequately determine the nature and causes of any case of pesticide poisoning.

(2) The department shall immediately notify the department of agriculture, the department of labor and industries, and other appropriate agencies of the results of its investigation for such action as the other departments or agencies deem appropriate. The notification of such investigations and their results may include recommendations for further action by the appropriate department or agency. [2009 c 495 § 10; 1991 c 3 § 357; 1989 c 380 § 71; 1971 ex.s. c 41 § 3.]

Effective date—2009 c 495: See note following RCW 43.20.050.

70.104.040 Pesticide emergencies—Authority of department of agriculture not infringed upon. (1) In any case where an emergency relating to pesticides occurs that represents a hazard to the public due to toxicity of the material, the quantities involved or the environment in which the incident takes place, such emergencies including but not limited to fires, spillage, and accidental contamination, the person or agent of such person having actual or constructive control of the pesticides involved shall immediately notify the department of health by telephone or the fastest available method.

(2) Upon notification or discovery of any pesticide emergency the department of health shall:

(a) Make such orders and take such actions as are appropriate to assume control of the property and to dispose of hazardous substances, prevent further contamination, and restore any property involved to a nonhazardous condition. In the event of failure of any individual to obey and carry out orders pursuant to this section, the department shall have all power and authority to accomplish those things necessary to carry out such order. Any expenses incurred by the department as a result of intentional failure of any individual to obey its lawful orders shall be charged as a debt against such individual.

(3) In any case where the department of health has assumed control of property pursuant to this chapter, such property shall not be reoccupied or used until such time as written notification of its release for use is received from the secretary of the department or his or her designee. Such
action shall take into consideration the economic hardship, if any, caused by having the department assume control of property, and release shall be accomplished as expeditiously as possible. Nothing in this chapter shall prevent a farmer from continuing to process his or her crops and/or animals provided that the processing does not endanger the public health.

(4) The department shall recognize the pesticide industry’s responsibility and active role in minimizing the effect of pesticide emergencies and shall provide for maximum utilization of these services.

(5) Nothing in this chapter shall be construed in any way to infringe upon or negate the authority and responsibility of the department of agriculture in its application and enforcement of the Washington Pesticide Control Act, chapter 15.58 RCW and the Washington Pesticide Application Act, chapter 17.21 RCW. The department of health shall work closely with the department of agriculture in the enforcement of this chapter and shall keep it appropriately advised. 70.104.050 Investigation of human exposure to pesticides. The department of health shall investigate human exposure to pesticides according to the degree of risk that the exposure presents to the individual and the greater population as well as the level of funding appropriated in the operating budget, and in order to carry out such investigations shall have authority to secure and analyze appropriate specimens of human tissue and samples representing sources of possible exposure. [2009 c 495 § 11; 1991 c 3 § 359; 1971 ex.s. c 41 § 5.]

Effective date—2009 c 495: See note following RCW 43.20.050.

70.104.055 Pesticide poisonings—Reports. (1) Any attending physician or other health care provider recognized as primarily responsible for the diagnosis and treatment of a patient or, in the absence of a primary health care provider, the health care provider initiating diagnostic testing or therapy for a patient shall report a case or suspected case of pesticide poisoning to the department of health in the manner prescribed by, and within the reasonable time periods established by, rules of the state board of health. Time periods established by the board shall range from immediate reporting to reporting within seven days depending on the severity of the case or suspected case of pesticide poisoning. The reporting requirements shall be patterned after other board rules establishing requirements for reporting of diseases or conditions. Confidentiality requirements shall be the same as the confidentiality requirements established for other reportable diseases or conditions. The information to be reported may include information from relevant pesticide application records and shall include information required under board rules. Reports shall be made on forms provided to health care providers by the department of health. For purposes of any oral reporting, the department of health shall make available a toll-free telephone number.

(2) Within a reasonable time period as established by board rules, the department of health shall investigate the report of a case or suspected case of pesticide poisoning to document the incident. The department shall report the results of the investigation to the health care provider submitting the original report.

(3) Cases or suspected cases of pesticide poisoning shall be reported by the department of health to the pesticide reporting and tracking review panel within the time periods established by state board of health rules.

(4) Upon request of the primary health care provider, pesticide applicators or employers shall provide a copy of records of pesticide applications which may have affected the health of the provider’s patient. This information is to be used only for the purposes of providing health care services to the patient.

(5) Any failure of the primary health care provider to make the reports required under this section may be cause for the department of health to submit information about such nonreporting to the applicable disciplining authority for the provider under RCW 18.130.040.

(6) No cause of action shall arise as the result of: (a) The failure to report under this section; or (b) any report submitted to the department of health under this section.

(7) For the purposes of this section, a suspected case of pesticide poisoning is a case in which the diagnosis is thought more likely than not to be pesticide poisoning. [1992 c 173 § 4; 1991 c 3 § 360; 1989 c 380 § 72.]

*Reviser’s note:* The "pesticide incident reporting and tracking review panel" was eliminated pursuant to 2010 1st sp.s. c 7 § 132.

The department of health, after seeking advice from the state board of health, local health officers, and state and local medical associations, shall develop a program of medical education to alert physicians and other health care providers to the symptoms, diagnosis, treatment, and reporting of pesticide poisonings. [1991 c 3 § 361; 1989 c 380 § 73.]

Additional notes found at www.leg.wa.gov

[1991 c 3 § 362; 1971 ex.s. c 41 § 6.]

70.104.070 *Pesticide incident reporting and tracking review panel—Intent.* The legislature finds that heightened concern regarding health and environmental impacts from pesticide use and misuse has resulted in an increased demand for full-scale health investigations, assessment of resource damages, and health effects information. Increased reporting, comprehensive unbiased investigation capability, and enhanced community education efforts are required to maintain this state’s responsibilities to provide for public health and safety.
It is the intent of the legislature that the various state agencies responsible for pesticide regulation coordinate their activities in a timely manner to ensure adequate monitoring of pesticide use and protection of workers and the public from the effects of pesticide misuse. [1989 c 380 § 67.]

*Reviser’s note:* The "pesticide incident reporting and tracking review panel" was eliminated pursuant to 2010 1st sp.s. c 7 § 132.

The *panel shall establish a priority list for reviewing reentry intervals, which considers the following criteria:

(a) Whether the pesticide is being widely used in labor-intensive agriculture in Washington;

(b) Whether another state has established a reentry interval for the pesticide that is longer than the existing federal reentry interval;

(c) The toxicity category of the pesticide under federal law;

(d) Whether the pesticide has been identified by a federal or state agency or through a scientific review as presenting a risk of cancer, birth defects, genetic damage, neurological effects, blood disorders, sterility, menstrual dysfunction, organ damage, or other chronic or subchronic effects; and

(e) Whether reports or complaints of ill effects from the pesticide have been filed following worker entry into fields to which the pesticide has been applied; and

(6) Reviewing and approving an annual report prepared by the department of health to the governor, agency heads, and members of the legislature, with the same available to the public. The report shall include, at a minimum:

(a) A summary of the year’s activities;

(b) A synopsis of the cases reviewed;

**70.105.005 Legislative declaration.** The legislature hereby finds and declares:

1. The health and welfare of the people of the state depend on clean and pure environmental resources unaffected by hazardous waste contamination. At the same time, the quality of life of the people of the state is in part based upon a large variety of goods produced by the economy of the state. The complex industrial processes that produce these goods also generate waste by-products, some of which are hazardous to the public health and the environment if improperly managed.

2. Safe and responsible management of hazardous waste is necessary to prevent adverse effects on the environment and to protect public health and safety.

3. The availability of safe, effective, economical, and environmentally sound facilities for the management of hazardous waste is essential to protect public health and the environment and to preserve the economic strength of the state.

4. Strong and effective enforcement of federal and state hazardous waste laws and regulations is essential to protect the public health and the environment and to meet the public’s concerns regarding the acceptance of needed new hazardous waste management facilities.

5. Negotiation, mediation, and similar conflict resolution techniques are useful in resolving concerns over the local impacts of siting hazardous waste management facilities.

6. Safe and responsible management of hazardous waste requires an effective planning process that involves local and state governments, the public, and industry.

7. Public acceptance and successful siting of needed new hazardous waste management facilities depends on several factors, including:

    a. Public confidence in the safety of the facilities;
    b. Assurance that the hazardous waste management priorities established in this chapter are being carried out to the maximum degree practical;
    c. Recognition that all state citizens benefit from certain products whose manufacture results in the generation of hazardous by-products, and that all state citizens must, therefore, share in the responsibility for finding safe and effective means to manage this hazardous waste; and
    d. Provision of adequate opportunities for citizens to meet with facility operators and resolve concerns about local hazardous waste management facilities.

8. Due to the controversial and regional nature of facilities for the disposal and incineration of hazardous waste, the facilities have had difficulty in obtaining necessary local approvals. The legislature finds that there is a statewide interest in assuring that such facilities can be sited.

   It is therefore the intent of the legislature to preempt local government’s authority to approve, deny, or otherwise regulate disposal and incineration facilities, and to vest in the department of ecology the sole authority among state, regional, and local agencies to approve, deny, and regulate preempted facilities, as defined in this chapter.

   In addition, it is the intent of the legislature that such complete preemptive authority also be vested in the department for treatment and storage facilities, in addition to disposal and incineration facilities, if a local government fails to carry out its responsibilities established in RCW 70.105.225.

   It is further the intent of the legislature that no local ordinance, permit requirement, other requirement, or decision shall prohibit on the basis of land use considerations the construction of a hazardous waste management facility within any zone designated and approved in accordance with this chapter, provided that the proposed site for the facility is consistent with applicable state siting criteria.

9. With the exception of the disposal site authorized for acquisition under this chapter, the private sector has had the primary role in providing hazardous waste management facilities and services in the state. It is the intent of the legislature that this role be encouraged and continue into the future to the extent feasible. Whether privately or publicly owned and operated, hazardous waste management facilities and services should be subject to strict governmental regulation as provided under this chapter.

10. Wastes that are exempt or excluded from full regulation under this chapter due to their small quantity or household origin have the potential to pose significant risk to public health and the environment if not properly managed. It is the intent of the legislature that the specific risks posed by such waste be investigated and assessed and that programs be carried out as necessary to manage the waste appropriately. In addition, the legislature finds that, because local conditions vary substantially in regard to the quantities, risks, and management opportunities available for such wastes, local government is the appropriate level of government to plan for and carry out programs to manage moderate-risk waste, with assistance and coordination provided by the department. [1985 c 448 § 2.]

70.105.007 Purpose. The purpose of this chapter is to establish a comprehensive statewide framework for the planning, regulation, control, and management of hazardous waste which will prevent land, air, and water pollution and conserve the natural, economic, and energy resources of the state. To this end it is the purpose of this chapter:

1. To provide broad powers of regulation to the department of ecology relating to management of hazardous wastes and releases of hazardous substances;
2. To promote waste reduction and to encourage other improvements in waste management practices;
3. To promote cooperation between state and local governments by assigning responsibilities for planning for hazardous wastes to the state and planning for moderate-risk waste to local government;
4. To provide for prevention of problems related to improper management of hazardous substances before such problems occur; and
5. To assure that needed hazardous waste management facilities may be sited in the state, and to ensure the safe operation of the facilities. [1985 c 448 § 3.]

(1) After the effective date of the regulations adopted by the department designating extremely hazardous wastes, any person planning to dispose of extremely hazardous waste as designated by the department shall provide the operator of the disposal site with a list setting forth the extremely hazardous wastes for disposal, the amount of such wastes, the general chemical and mineral composition of such waste listed by approximate maximum and minimum percentages, and the origin of any such waste. Such list, when appropriate, shall include information on antidotes, first aid, or safety measures to be taken in case of accidental contact with the particular extremely hazardous waste being disposed.

70.105.035 Solid wastes—Conditionally exempt from chapter. Solid wastes that designate as dangerous waste or extremely hazardous waste but do not designate as hazardous waste under federal law are conditionally exempt from the requirements of this chapter, if:

(1) The waste is generated pursuant to a consent decree issued under chapter 70.105D RCW;

(2) The consent decree characterizes the solid waste and specifies management practices and a department-approved treatment or disposal location;

(3) The management practices are consistent with RCW 70.105.150 and are protective of human health and the environment as determined by the department of ecology; and

(4) Waste treated or disposed of on-site will be managed in a manner determined by the department to be as protective of human health and the environment as clean-up standards pursuant to chapter 70.105D RCW.

This section shall not be interpreted to limit the ability of the department to apply any requirement of this chapter through a consent decree issued under chapter 70.105D RCW, if the department determines these requirements to be appropriate. Neither shall this section be interpreted to limit the application of this chapter to a cleanup conducted under the federal comprehensive environmental response, compensation, and liability act (42 U.S.C. Sec. 9601 et seq., as amended). [1994 c 254 § 5.]

70.105.040 Disposal site or facility—Acquisition—Disposal fee schedule. (b) When such wastes are managed on-site as part of a remedial action conducted by the department or by potentially liable persons under a consent decree issued by the department pursuant to chapter 70.105D RCW.

(2) Extremely hazardous wastes that contain radioactive components may be disposed at a radioactive waste disposal site that is (a) owned by the United States department of energy or a licensee of the nuclear regulatory commission and (b) permitted by the department and operated in compliance with the provisions of this chapter. However, prior to
disposal, or as a part of disposal, all reasonable methods of treatment, detoxification, neutralization, or other waste management methodologies designed to mitigate hazards associated with these wastes shall be employed, as required by applicable federal and state laws and regulations. (1) it is upon request of the owner, producer, or person having custody of the waste, and
(2) upon the payment of a fee to cover disposal
(3) it can be reasonably demonstrated that there is no other disposal sites in the state that will handle such dangerous waste, and
(4) the site is designed to handle such a request or can be modified to the extent necessary to adequately dispose of the waste, or
(5) if a demonstrable emergency and potential threat to the public health and safety exists. [1975-'76 2nd ex.s. c 101 § 7.]

Each and every such violation shall be a separate and distinct offense. In case of continuing violation, every day’s continuance shall be a separate and distinct violation. Every person who, through an act of commission or omission, procures, aids, or abets in the violation shall be considered to have violated the provisions of this section and shall be subject to the penalty herein provided.

70.105.150 Declaration—Management of hazardous waste—Priorities—Definitions. The legislature hereby declares that:

(1) The health and welfare of the people of the state depend on clean and pure environmental resources unaffected by hazardous waste contamination. Management and regulation of hazardous waste disposal should encourage practices which result in the least amount of waste being produced. Towards that end, the legislature finds that the following priorities in the management of hazardous waste are necessary and should be followed in order of descending priority as applicable:

(a) Waste reduction;
(b) Waste recycling;
(c) Physical, chemical, and biological treatment;
(d) Incineration;
(e) Solidification/stabilization treatment;
(f) Landfill.

(2) As used in this section:

(a) "Waste reduction" means reducing waste so that hazardous by-products are not produced;
(b) "Waste recycling" means reusing waste materials and extracting valuable materials from a waste stream;
(c) "Physical, chemical, and biological treatment" means processing the waste to render it completely innocuous, produce a recyclable by-product, reduce toxicity, or substantially reduce the volume of material requiring disposal;
(d) "Incineration" means reducing the volume or toxicity of wastes by use of an enclosed device using controlled flame combustion;
(e) "Solidification/stabilization treatment" means the use of encapsulation techniques to solidify wastes and make them less permeable or leachable; and
(f) "Landfill" means a disposal facility, or part of a facility, at which waste is placed in or on land and which is not a land treatment facility, surface impoundment, or injection well. [1983 1st ex.s. c 70 § 1.]

70.105.160 Waste management study—Public hearings—Adoption or modification of rules. The department shall conduct a study to determine the best management practices for categories of waste for the priority waste management methods established in RCW 70.105.150, with due consideration in the course of the study to sound environmental management and available technology. As an element of the study, the department shall review methods that will help achieve the priority of RCW 70.105.150(1)(a), waste reduction. Before issuing any proposed rules, the department shall conduct public hearings regarding the best management practices for the various waste categories studied by the department. After conducting the study, the department shall prepare new rules or modify existing rules as appropriate to promote implementation of the priorities established in RCW 70.105.150 for management practices which assure use of sound environmental management techniques and available technology. The preliminary study shall be completed by July 1, 1986, and the rules shall be adopted by July 1, 1987.

The studies shall be updated at least once every five years. The funding for these studies shall be from the hazardous waste control and elimination account, subject to legislative appropriation. [2010 1st sp.s. c 7 § 89; 1998 c 245 § 110; 1984 c 254 § 2; 1983 1st ex.s. c 70 § 2.]

70.105.165 Disposal of dangerous wastes at commercial off-site land disposal facilities—Limitations. (1) Independent of the processing or issuance of any or all federal, state, and local permits for disposal of dangerous wastes, no disposal of dangerous wastes at a commercial off-site land disposal facility may be undertaken prior to July 1, 1986, unless:

(a) The disposal results from actions taken under *RCW 70.105A.060 (2) and (3), or results from other emergency situations; or
(b) Studies undertaken by the department under RCW 70.105.160 to determine the best management practices for various waste categories under the priority waste management methods established in RCW 70.105.150 are completed for the particular wastes or waste categories to be disposed of and any regulatory revisions deemed necessary by the department are proposed and do not prohibit land disposal of such wastes; or
(c) Final regulations have been adopted by the department that allow for such disposal.

(2) Construction of facilities used solely for the purpose of disposal of wastes that have not met the requirements of subsection (1) of this section shall not be undertaken by any developer of a dangerous waste disposal facility.

[Title 70 RCW—page 358]
(3) The department shall prioritize the studies of waste categories undertaken under RCW 70.105.160 to provide initial consideration of those categories most likely to be suitable for land disposal. Any regulatory changes deemed necessary by the department shall be proposed and subjected to the rule-making process by category as the study of each waste category is completed. All of the study shall be completed, and implementing regulations proposed, by July 1, 1986.

(4) Any final permit issued by the department before the adoption of rules promulgated as a result of the study conducted under RCW 70.105.160 shall be modified as necessary to be consistent with such rules. [1984 c 254 § 1]

70.105.170 Waste management—Consultative services—Technical assistance—Confidentiality. Consistent with the purposes of RCW 70.105.150 and 70.105.160, the department is authorized to promote the priority waste management methods listed in RCW 70.105.150 by establishing or assisting in the establishment of: (1) Consultative services which, in conjunction with any business or industry requesting such service, study and recommend alternative waste management practices; and (2) technical assistance, such as a toll-free telephone service, to persons interested in waste management alternatives. Any person receiving such service or assistance may, in accordance with state law, request confidential treatment of information about their manufacturing or business practices. [1983 1st ex. c 70 § 3.]

70.105.180 Disposition of fines and penalties—Earnings. All fines and penalties collected under this chapter shall be deposited in the hazardous waste control and elimination account, which is hereby created in the state treasury. Moneys in the account collected from fines and penalties shall be expended exclusively by the department of ecology for the purposes of chapter 70, Laws of 1983 1st ex. sess., subject to legislative appropriation. 70.105.200 Hazardous waste management plan. (1) The department shall develop, and shall update at least once every five years, a state hazardous waste management plan. The plan shall include, but shall not be limited to, the following elements:

(a) A state inventory and assessment of the capacity of existing facilities to treat, store, dispose, or otherwise manage hazardous waste;

(b) A forecast of future hazardous waste generation;

(c) A description of the plan or program required by RCW 70.105.160 to promote the waste management priorities established in RCW 70.105.150;

(d) Siting criteria as appropriate for hazardous waste management facilities, including such criteria as may be appropriate for the designation of eligible zones for designated zone facilities. However, these criteria shall not prevent the continued operation, at or below the present level of waste management activity, of existing facilities on the basis of their location in areas other than those designated as eligible zones pursuant to RCW 70.105.225;

(e) Siting policies as deemed appropriate by the department; and

70.105.210 Hazardous waste management facilities—Department to develop criteria for siting. By May 31, 1990, the department shall develop and adopt criteria for the siting of hazardous waste management facilities. These criteria will be part of the state hazardous waste management plan as described in RCW 70.105.200. To the extent practical, these criteria shall be designed to minimize the short-term and long-term risks and costs that may result from hazardous waste management facilities. These criteria may vary by type of facilities and may consider natural site characteristics and engineered protection. Criteria may be established for:

(1) Geology;

(2) Surface and groundwater hydrology;

(3) Soils;

(4) Flooding;

(5) Climatic factors;

(6) Unique or endangered flora and fauna;

(7) Transportation routes;

(8) Site access;

(9) Buffer zones;

(10) Availability of utilities and public services;

(11) Compatibility with existing uses of land;

(12) Shorelines and wetlands;

(13) Sole-source aquifers;

(14) Natural hazards; and

(15) Other factors as determined by the department. [1989 1st ex.s. c 13 § 2; 1985 c 448 § 5.

(2012 Ed.)
70.105.217 Local government regulatory authority to prohibit or condition. Nothing in this chapter shall alter or affect the regulatory authority of a county, city, or jurisdictional health district to condition or prohibit the acceptance of hazardous waste in a county or city landfill. [1994 c 254 § 7.]  

70.105.220 Local governments to prepare local hazardous waste plans—Basis—Elements required. (1) Each local government, or combination of contiguous local governments, is directed to prepare a local hazardous waste plan which shall be based on state guidelines and include the following elements:  

(a) A plan or program to manage moderate-risk wastes that are generated or otherwise present within the jurisdiction. This element shall include an assessment of the quantities, types, generators, and fate of moderate-risk wastes in the jurisdiction. The purpose of this element is to develop a system of managing moderate-risk waste, appropriate to each local area, to ensure protection of the environment and public health;  

(b) A plan or program to provide for ongoing public involvement and public education in regard to the management of moderate-risk waste. This element shall provide information regarding:  

(i) The potential hazards to human health and the environment resulting from improper use and disposal of the waste; and  

(ii) Proper methods of handling, reducing, recycling, and disposing of the waste;  

(c) An inventory of all existing generators of hazardous waste and facilities managing hazardous waste within the jurisdiction. This inventory shall be based on data provided by the department;  

(d) A description of the public involvement process used in developing the plan;  

(e) A description of the eligible zones designated in accordance with RCW 70.105.225. However, the requirement to designate eligible zones shall not be considered part of the local hazardous waste planning requirements; and  

(f) Other elements as deemed appropriate by local government.  

(2) To the maximum extent practicable, the local hazardous waste plan shall be coordinated with other hazardous materials-related plans and policies in the jurisdiction.  

(3) Local governments shall coordinate with those persons involved in providing privately owned hazardous and moderate-risk waste facilities and services as follows: If a local government determines that a moderate-risk waste will be or is adequately managed by one or more privately owned facilities or services at a reasonable price, the local government shall take actions to encourage the use of that private facility or service. Actions taken by a local government under this subsection may include, but are not limited to, restricting or prohibiting the land disposal of a moderate-risk waste at any transfer station or land disposal facility within its jurisdiction.  

4(a) The department shall prepare guidelines for the development of local hazardous waste plans. The guidelines shall be prepared in consultation with local governments and shall be completed by December 31, 1986. The guidelines shall include a list of substances identified as hazardous household substances.  

(b) In preparing the guidelines under (a) of this subsection, the department shall review and assess information on pilot projects that have been conducted for moderate-risk waste management. The department shall encourage additional pilot projects as needed to provide information to improve and update the guidelines.  

(5) The department shall consult with retailers, trade associations, public interest groups, and appropriate units of local government to encourage the development of voluntary public education programs on the proper handling of hazardous household substances.  

(6) Local hazardous waste plans shall be completed and submitted to the department no later than June 30, 1990. Local governments may from time to time amend the local plan.  

(7) Each local government, or combination of contiguous local governments, shall submit its local hazardous waste plan or amendments thereto to the department. The department shall approve or disapprove local hazardous waste plans or amendments by December 31, 1990, or within ninety days of submission, whichever is later. The department shall approve a local hazardous waste plan if it determines that the plan is consistent with this chapter and the guidelines under subsection (4) of this section. If approval is denied, the department shall submit its objections to the local government within ninety days of submission. However, for plans submitted between January 1, 1990, and June 30, 1990, the department shall have one hundred eighty days to submit its objections. No local government is eligible for grants under RCW 70.105.235 for implementing a local hazardous waste plan unless the plan for that jurisdiction has been approved by the department.  

(8) Each local government, or combination of contiguous local governments, shall implement the local hazardous waste plan for its jurisdiction by December 31, 1991.  

(9) The department may waive the specific requirements of this section for any local government if such local government demonstrates to the satisfaction of the department that the objectives of the planning requirements have been met. [1992 c 17 § 1; 1986 c 210 § 1; 1985 c 448 § 6.]

70.105.225 Local governments to designate zones—Departmental guidelines—Approval of local government zone designations or amendments—Exemption. (1) Each local government, or combination of contiguous local governments, is directed to: (a) Demonstrate to the satisfaction of the department that existing zoning allows designated zone facilities as permitted uses; or (b) designate land use zones within its jurisdiction in which designated zone facilities are permitted uses. The zone designations shall be consistent with the state siting criteria adopted in accordance with RCW 70.105.210, except as may be approved by the department in accordance with subsection (6) of this section.

(2) Local governments shall not prohibit the processing or handling of hazardous waste in zones in which the processing or handling of hazardous substances is not prohibited. This subsection does not apply in residential zones.

(3) The department shall prepare guidelines, as appropriate, for the designation of zones under this section. The guidelines shall be prepared in consultation with local governments and shall be completed by December 31, 1986.

(4) The initial designation of zones shall be completed or revised, and submitted to the department within eighteen months after the enactment of siting criteria in accordance with RCW 70.105.210. Local governments that do not comply with this submittal deadline shall be subject to the preemptive provisions of RCW 70.105.240(4) until such time as zone designations are completed and approved by the department. Local governments may from time to time amend their designated zones.

(5) Local governments without land use zoning provisions shall designate eligible geographic areas within their jurisdiction, based on siting criteria adopted in accordance with RCW 70.105.210. The area designation shall be subject to the same requirements as if they were zone designations.

(6) Each local government, or combination of contiguous local governments, shall submit its designation of zones or amendments thereto to the department. The department shall approve or disapprove zone designations or amendments within ninety days of submission. The department shall approve eligible zone designations if it determines that the proposed zone designations are consistent with this chapter, the applicable siting criteria, and guidelines for developing designated zones: PROVIDED, That the department shall consider local zoning in place as of January 1, 1985, or other special situations or conditions which may exist in the jurisdiction. If approval is denied, the department shall state within ninety days from the date of submission the facts upon which that decision is based and shall submit the statement to the local government together with any other comments or recommendations it deems appropriate. The local government shall have ninety days after it receives the statement from the department to make modifications designed to eliminate the inconsistencies and resubmit the designation to the department for approval. Any designations shall take effect when approved by the department.

(7) The department may exempt a local government from the requirements of this section if:

(a) Regulated quantities of hazardous waste have not been generated within the jurisdiction during the two calendar years immediately preceding the calendar year during which the exemption is requested; and

(b) The local government can demonstrate to the satisfaction of the department that no significant portion of land within the jurisdiction can meet the siting criteria adopted in accordance with RCW 70.105.210. [1989 1st ex.s. c 13 § 1; 1985 c 448 § 7.]

70.105.230 Local governments to submit letter of intent to identify or designate zones and submit management plans—Department to prepare plan in event of failure to act. (1) Each local government is directed to submit to the director of the department by October 31, 1987, a letter of intent stating that it intends to (a) identify, or designate if necessary, eligible zones for designated zone facilities no later than June 30, 1988, and (b) submit a complete local hazardous waste management plan to the department no later than June 30, 1990. The letters shall also indicate whether these requirements will be completed in conjunction with other local governments.

(2) If any local government fails to submit a letter as provided in subsection (1)(b) of this section, or fails to adopt a local hazardous waste plan for its jurisdiction in accordance with the time schedule provided in this chapter, the department shall prepare a hazardous waste plan for the local jurisdiction. [1985 c 448 § 8.]

70.105.235 Grants to local governments for plan preparation, implementation, and designation of zones—Matching funds—Qualifications. (1) Subject to legislative appropriations, the department may make and administer grants to local governments for (a) preparing and updating local hazardous waste plans, (b) implementing approved local hazardous waste plans, and (c) designating eligible zones for designated zone facilities as required under this chapter.

(2) Local governments shall match the funds provided by the department for planning or designating zones with an amount not less than twenty-five percent of the estimated cost of the work to be performed. Local governments may meet their share of costs with cash or contributed services. Local governments, or combination of contiguous local governments, conducting pilot projects pursuant to RCW 70.105.220(4) may subtract the cost of those pilot projects conducted for hazardous household substances from their share of the cost. If a pilot project has been conducted for all moderate-risk wastes, only the portion of the cost that applies to hazardous household substances shall be subtracted. The matching funds requirement under this subsection shall be waived for local governments, or combination of contiguous local governments, that complete and submit their local hazardous waste plans under RCW 70.105.220(6) prior to June 30, 1988.
(3) Recipients of grants shall meet such qualifications and follow such procedures in applying for and using grants as may be established by the department. [1986 c 210 § 2; 1985 c 448 § 9.]

70.105.240 State preemption—Department sole authority—Local requirements superseded—State authority over designated zone facilities. (1) As of July 28, 1985, the state preempts the field of state, regional, or local permitting and regulating of all premitted facilities as defined in this chapter. The department of ecology is designated the sole decision-making authority with respect to permitting and regulating such facilities and no other state agency, department, division, bureau, commission, or board, or any local or regional political subdivision of the state, shall have any permitting or regulatory authority with respect to such facilities including, but not limited to, the location, construction, and operation of such facilities. Permits issued by the department shall be in lieu of any and all permits, approvals, certifications, or conditions of any other state, regional, or local governmental authority which would otherwise apply.

(2) The department shall ensure that any permits issued under this chapter invoking the preemption authority of this section meet the substantive requirements of existing state laws and regulations to the extent such laws and regulations are not inconsistent or in conflict with any of the provisions of this chapter. In the event that any of the provisions of this chapter, or any of the regulations promulgated hereunder, are in conflict with any other state law or regulations, such other law or regulations shall be deemed superseded for purposes of this chapter.

(3) As of July 28, 1985, any ordinances, regulations, requirements, or restrictions of regional or local governmental authorities regarding the location, construction, or operation of premitted facilities shall be deemed superseded. However, in issuing permits under this section, the department shall consider local fire and building codes and conditions such permits as appropriate in compliance therewith.

(4) Effective July 1, 1988, the department shall have the same preemptive authority as defined in subsections (1) through (3) of this section in regard to any designated zone facility that may be proposed in any jurisdiction where the designation of eligible zones pursuant to RCW 70.105.225 has not been completed and approved by the department. Unless otherwise preempted by this subsection, designated zone facilities shall be subject to all applicable state and local laws, regulations, plans, and other requirements. [1985 c 448 § 10.]

70.105.280 Service charges. (1) The department may assess reasonable service charges against those facilities that store, treat, incinerate, or dispose of dangerous or extremely hazardous waste that contains both a nonradioactive hazardous component and a radioactive component or which are undergoing closure under this chapter in those instances where closure entails the physical characterization of remaining wastes which contain both a nonradioactive hazardous component and a radioactive component or the management
of such wastes through treatment or removal, except any commercial low-level radioactive waste facility. Service charges may not exceed the costs to the department in carrying out the duties of this section.

(2) Program elements or activities for which service charges may be assessed include:
   (a) Office, staff, and staff support for the purposes of facility or unit permit development, review, and issuance; and
   (b) Actions taken to determine and ensure compliance with the state’s hazardous waste management act.

(3) Moneys collected through the imposition of such service charges shall be deposited in the state toxics control account.

(4) The department shall adopt rules necessary to implement this section. Facilities that store, treat, incinerate, or dispose of dangerous or extremely hazardous waste that contains both a nonradioactive hazardous component and a radioactive component shall not be subject to service charges prior to such rule making. Facilities undergoing closure under this chapter in those instances where closure entails the physical characterization of remaining wastes which contain both a nonradioactive hazardous component and a radioactive component or the management of such wastes through treatment or removal shall not be subject to service charges prior to such rule making. The legislature is encouraged to revise the hazardous waste fees prescribed in *RCW 70.105A.030 in a manner which provides an incentive for waste reduction and recycling. If prior to March 1, 1989, *RCW 70.105A.030 as it existed on August 1, 1987, has not been amended in a manner which specifically provides an incentive for hazardous waste reduction and recycling, then (1) the requirement to pay the fees prescribed in that section is eliminated solely for fees due and payable on June 30, 1989; and (2) the department of ecology shall prepare, and submit to the legislature by January 1, 1990, a proposed revision designed to provide an incentive for hazardous waste reduction and recycling. 70.105D.010 Declaration of policy. (1) Each person has a fundamental and inalienable right to a healthful environment, and each person has a responsibility to preserve and enhance that right. The beneficial stewardship of the land, air, and waters of the state is a solemn obligation of the present generation for the benefit of future generations.

(2) A healthful environment is now threatened by the irresponsible use and disposal of hazardous substances. There are hundreds of hazardous waste sites in this state, and more will be created if current waste practices continue. Hazardous waste sites threaten the state’s water resources, including those used for public drinking water. Many of our municipal landfills are current or potential hazardous waste sites and present serious threats to human health and environment. The costs of eliminating these threats in many cases are beyond the financial means of our local governments and ratepayers. The main purpose of chapter 2, Laws of 1989 is to raise sufficient funds to clean up all hazardous waste sites and to prevent the creation of future hazards due to improper disposal of toxic wastes into the state’s land and waters.

(3) Many farmers and small business owners who have followed the law with respect to their uses of pesticides and other chemicals nonetheless may face devastating economic consequences because their uses have contaminated the environment or the water supplies of their neighbors. With a
source of funds, the state may assist these farmers and business owners, as well as those persons who sustain damages, such as the loss of their drinking water supplies, as a result of the contamination.

(4) It is in the public’s interest to efficiently use our finite land base, to integrate our land use planning policies with our clean-up policies, and to clean up and reuse contaminated industrial properties in order to minimize industrial development pressures on undeveloped land and to make clean land available for future social use.

(5) Because it is often difficult or impossible to allocate responsibility among persons liable for hazardous waste sites and because it is essential that sites be cleaned up well and expeditiously, each responsible person should be liable jointly and severally.

(6) Because releases of hazardous substances can adversely affect the health and welfare of the public, the environment, and property values, it is in the public interest that affected communities be notified of where releases of hazardous substances have occurred and what is being done to clean them up. [2002 c 288 § 1; 1994 c 254 § 1; 1989 c 2 § 1 (Initiative Measure No. 97, approved November 8, 1988).]

Severability—2002 c 288: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [2002 c 288 § 5.]

70.105D.020 Definitions.

(1) "Agreed order" means an order issued by the department under this chapter with which the potentially liable person receiving the order agrees to comply. An agreed order may be used to require or approve any cleanup or other remedial actions but it is not a settlement under RCW 70.105D.040(4) and shall not contain a covenant not to sue, or provide protection from claims for contribution, or provide eligibility for public funding of remedial actions under RCW 70.105D.070(2)(d)(x).

(2) "Department" means the department of ecology.

(3) "Director" means the director of ecology or the director’s designee.

(i) A person acting as a fiduciary with respect to a trust or other fiduciary estate that was organized for the primary purpose of, or is engaged in, actively carrying on a trade or business for profit, unless the trust or other fiduciary estate was created as part of, or to facilitate, one or more estate plans or because of the incapacity of a natural person;

(ii) A person who acquires ownership or control of a facility with the objective purpose of avoiding liability of the person or any other person. (iii) A person who acts in a capacity other than that of a fiduciary or in a beneficiary capacity and in that capacity directly or indirectly benefits from a trust or fiduciary relationship;

(10) "Hazardous substance" means:

(a) Any dangerous or extremely hazardous waste as defined in *RCW 70.105.010 (5) and (6), or any dangerous or extremely hazardous waste designated by rule pursuant to chapter 70.105 RCW;

Operating a facility for longer than one year prior to foreclosure or its equivalents shall be presumed to be operating the facility for other than to protect a security interest.

(17) "Owner or operator" means:

(a) Any person with any ownership interest in the facility or who exercises any control over the facility; or
(b) In the case of an abandoned facility, any person who had owned, or operated, or exercised control over the facility any time before its abandonment;

The term does not include:

(i) An agency of the state or unit of local government which acquired ownership or control through a drug forfeiture action under RCW 69.50.505, or involuntarily through bankruptcy, tax delinquency, abandonment, or other circumstances in which the government involuntarily acquires title. This exclusion does not apply to an agency of the state or unit of local government which has caused or contributed to the release or threatened release of a hazardous substance from the facility;

(ii) A person who, without participating in the management of a facility, holds indicia of ownership primarily to protect the person’s security interest in the facility. Holders after foreclosure and its equivalent and holders who engage in any of the activities identified in subsection (18)(e) through (g) of this section shall not lose this exemption provided the holder complies with all of the following:

(A) The holder properly maintains the environmental compliance measures already in place at the facility;

(E) Any remedial actions conducted by the holder are in compliance with any preexisting requirements identified by the department, or, if the department has not identified such requirements for the facility, the remedial actions are conducted consistent with the rules adopted under this chapter; and

(F) The holder does not exacerbate an existing release. The exemption in this subsection (17)(b)(ii) does not apply to holders who cause or contribute to a new release or threatened release or who are otherwise liable under RCW 70.105D.040(1) (b), (c), (d), and (e); provided, however, that a holder shall not lose this exemption if it establishes that any such new release has been remediated according to the requirements of this chapter and that any hazardous substances remaining at the facility after remediation of the new release are divisible from such new release;

(iii) A fiduciary in his, her, or its personal or individual capacity. This exemption does not preclude a claim against the assets of the estate or trust administered by the fiduciary or against a nonemployee agent or independent contractor.
fiduciary by the department to abate an imminent or substantial endangerment; the fiduciary complies with all of the following:

(A) The fiduciary properly maintains the environmental compliance measures already in place at the facility;

(B) The fiduciary complies with the reporting requirements in the rules adopted under this chapter;

(C) The fiduciary complies with any order issued to the fiduciary by the department to abate an imminent or substantial endangerment;

(D) The fiduciary allows the department or potentially liable persons under an order, agreed order, or settlement agreement under this chapter access to the facility to conduct remedial actions and does not impede the conduct of such remedial actions;

(E) Any remedial actions conducted by the fiduciary are in compliance with any preexisting requirements identified by the department, or, if the department has not identified such requirements for the facility, the remedial actions are conducted consistent with the rules adopted under this chapter; and

(F) The fiduciary does not exacerbate an existing release.

The exemption in this subsection (17)(b)(iii) does not apply to fiduciaries who cause or contribute to a new release or threatened release or who are otherwise liable under RCW 70.105D.040(l) (b), (c), (d), and (e); provided however, that a fiduciary shall not lose this exemption if it establishes that any such new release has been remediated according to the requirements of this chapter and that any hazardous substances remaining at the facility after remediation of the new release are divisible from such new release. The exemption in this subsection (17)(b)(iii) also does not apply where the fiduciary’s powers to comply with this subsection (17)(b)(iii) are limited by a governing instrument created with the objective purpose of avoiding liability under this chapter or of avoiding compliance with this chapter; or

(iv) Any person who has any ownership interest in, operates, or exercises control over real property where a hazardous substance has come to be located solely as a result of migration of the hazardous substance to the real property through the groundwater from a source off the property, if:

(A) The person can demonstrate that the hazardous substance has not been used, placed, managed, or otherwise handled on the property in a manner likely to cause or contribute to a release of the hazardous substance that has migrated onto the property;

(B) The person has not caused or contributed to the release of the hazardous substance;

(C) The person does not engage in activities that damage or interfere with the operation of remedial actions installed on the person’s property or engage in activities that result in exposure of humans or the environment to the contaminated groundwater that has migrated onto the property;

(D) If requested, the person allows the department, potentially liable persons who are subject to an order, agreed order, or consent decree, and the authorized employees, agents, or contractors of each, access to the property to conduct remedial actions required by the department. The person may attempt to negotiate an access agreement before allowing access; and

(E) Legal withdrawal of groundwater does not disqualify a person from the exemption in this subsection (17)(b)(iv).

(18) "Participation in management" means exercising decision-making control over the borrower’s operation of the facility, environmental compliance, or assuming or manifesting responsibility for the overall management of the enterprise encompassing the day-to-day decision making of the enterprise.

The term does not include any of the following: (A) A holder with the mere capacity or ability to influence, or the unexercised right to control facility operations; (b) a holder who conducts or requires a borrower to conduct an environmental audit or an environmental site assessment at the facility for which indicia of ownership is held; (c) a holder who requires a borrower to come into compliance with any applicable laws or regulations at the facility for which indicia of ownership is held; (d) a holder who requires a borrower to conduct remedial actions including setting minimum requirements, but does not otherwise control or manage the borrower’s remedial actions or the scope of the borrower’s remedial actions except to prepare a facility for sale, transfer, or assignment; (e) a holder who engages in workout or policing activities primarily to protect the holder’s security interest in the facility; (f) a holder who prepares a facility for sale, transfer, or assignment or requires a borrower to prepare a facility for sale, transfer, or assignment; (g) a holder who operates a facility primarily to protect a security interest, or requires a borrower to continue to operate, a facility primarily to protect a security interest; and (h) a prospective holder who, as a condition of becoming a holder, requires an owner or operator to conduct an environmental audit, conduct an environmental site assessment, come into compliance with any applicable laws or regulations, or conduct remedial actions prior to holding a security interest is not participating in the management of the facility.

(19) "Person" means an individual, firm, corporation, association, partnership, consortium, joint venture, commercial entity, state government agency, unit of local government, federal government agency, or Indian tribe.

Policing activities include: requiring the borrower to conduct remedial actions at the facility during the term of the security interest; requiring the borrower to comply or come into compliance with applicable federal, state, and local environmental and other laws, regulations, and permits during the term of the security interest; securing or exercising authority to monitor or inspect the facility including on-site inspections, or to monitor or inspect the borrower’s business or financial condition during the term of the security interest; or taking other actions necessary to adequately police the loan or security interest such as requiring a borrower to comply with any warranties, covenants, conditions, representations, or promises from the borrower.
(21) "Potentially liable person" means any person whom the department finds, based on credible evidence, to be liable under RCW 70.105D.040. The department shall give notice to any such person and allow an opportunity for comment before making the finding, unless an emergency requires otherwise.

(22) "Prepare a facility for sale, transfer, or assignment" means to secure access to the facility; perform routine maintenance on the facility; remove inventory, equipment, or structures; properly maintain environmental compliance measures already in place at the facility; conduct remedial actions to clean up releases at the facility; or to perform other similar activities intended to preserve the value of the facility where the borrower has defaulted on the loan or otherwise breached the security agreement or after foreclosure and its equivalents and in anticipation of a pending sale, transfer, or assignment, primarily to protect the holder's security interest in the facility. A holder can prepare a facility for sale, transfer, or assignment for up to one year prior to foreclosure and its equivalents and still stay within the security interest exemption in subsection (17)(b)(ii) of this section.

(23) "Primarily to protect a security interest" means the indicia of ownership is held primarily for the purpose of securing payment or performance of an obligation. The term does not include indicia of ownership held primarily for investment purposes nor indicia of ownership held primarily for purposes other than as protection for a security interest. A holder may have other, secondary reasons, for maintaining indicia of ownership, but the primary reason must be for protection of a security interest. Holding indicia of ownership after foreclosure or its equivalents for longer than five years shall be considered to be holding the indicia of ownership for purposes other than primarily to protect a security interest. For facilities that have been acquired through foreclosure or its equivalents prior to July 23, 1995, this five-year period shall begin as of July 23, 1995.

(24) "Public notice" means, at a minimum, adequate notice mailed to all persons who have made timely request of the department and to persons residing in the potentially affected vicinity of the proposed action; mailed to appropriate news media; published in the newspaper of largest circulation in the city or county of the proposed action; and opportunity for interested persons to comment.

(25) "Release" means any intentional or unintentional entry of any hazardous substance into the environment, including but not limited to the abandonment or disposal of containers of hazardous substances.

(26) "Remedy" or "remedial action" means any action or expenditure consistent with the purposes of this chapter to identify, eliminate, or minimize any threat or potential threat posed by hazardous substances to human health or the environment including any investigative and monitoring activities with respect to any release or threatened release of a hazardous substance and any health assessments or health effects studies conducted in order to determine the risk or potential risk to human health.

(27) "Security interest" means an interest in a facility created or established for the purpose of securing a loan or other obligation. Security interests include deeds of trusts, sellers interest in a real estate contract, liens, legal, or equitable title to a facility acquired incident to foreclosure and its equivalents, and title pursuant to lease financing transactions. Security interests may also arise from transactions such as sale and leasebacks, conditional sales, installment sales, trust receipt transactions, certain assignments, factoring agreements, accounts receivable financing arrangements, easements, and consignments, if the transaction creates or establishes an interest in a facility for the purpose of securing a loan or other obligation.

(28) "Workout activities" means those actions by which a holder, at any time prior to foreclosure and its equivalents, seeks to prevent, cure, or mitigate a default by the borrower or obligor; or to preserve, or prevent the diminution of, the value of the security. Workout activities include: Restructuring or renegotiating the terms of the security interest; requiring payment of additional rent or interest; exercising forbearance; requiring or exercising rights pursuant to an assignment of accounts or other amounts owed to an obligor; requiring or exercising rights pursuant to an escrow agreement pertaining to amounts owed to an obligor; providing specific or general financial or other advice, suggestions, counseling, or guidance; and exercising any right or remedy the holder is entitled to by law or under any warranties, covenants, conditions, representations, or promises from the borrower. 70.105D.030 Department's powers and duties. (1)

The department may exercise the following powers in addition to any other powers granted by law:

(a) Investigate, provide for investigating, or require potentially liable persons to investigate any releases or threatened releases of hazardous substances, including but not limited to inspecting, sampling, or testing to determine the nature or extent of any release or threatened release. If there is a reasonable basis to believe that a release or threatened release of a hazardous substance may exist, the department's authorized employees, agents, or contractors may enter upon any property and conduct investigations. The department shall give reasonable notice before entering property unless an emergency prevents such notice. The department may by subpoena require the attendance or testimony of witnesses and the production of documents or other information that the department deems necessary;

(b) Conduct, provide for conducting, or require potentially liable persons to conduct remedial actions (including investigations under (a) of this subsection) to remedy releases or threatened releases of hazardous substances. In carrying out such powers, the department's authorized employees, agents, or contractors may enter upon property. The department shall give reasonable notice before entering property unless an emergency prevents such notice. In conducting, providing for, or requiring remedial action, the department shall give preference to permanent solutions to the maximum extent practicable and shall provide for or require adequate monitoring to ensure the effectiveness of the remedial action;
(c) Indemnify contractors retained by the department for carrying out investigations and remedial actions, but not for any contractor’s reckless or willful misconduct;

(d) Carry out all state programs authorized under the federal cleanup law and the federal resource, conservation, and recovery act, 42 U.S.C. Sec. 6901 et seq., as amended;

(e) Classify substances as hazardous substances for purposes of RCW 70.105D.020 and classify substances and products as hazardous substances for purposes of RCW 82.21.020(1);

(f) Issue orders or enter into consent decrees or agreed orders that include, or write opinions under (i) of this subsection that may be conditioned upon, environmental covenants where necessary to protect human health and the environment from a release or threatened release of a hazardous substance from a facility. Prior to establishing an environmental covenant under this subsection, the department shall consult with and seek comment from a city or county department with land use planning authority for real property subject to the environmental covenant;

(g) Enforce the application of protective controls that are necessary for a remedial action to be protective of human health and the environment and the notification requirements established in RCW 70.105D.110, and impose penalties for violations of that section consistent with RCW 70.105D.050;

(h) Require holders of a facility property to conduct remedial actions necessary to abate an imminent or substantial endangerment pursuant to RCW 70.105D.020(17)(b)(ii)(C);

(i) Provide informal advice and assistance to persons regarding the administrative and technical requirements of this chapter. This may include site-specific advice to persons who are conducting or otherwise interested in independent remedial actions. Any such advice or assistance shall be advisory only, and shall not be binding on the department. As a part of providing this advice and assistance for independent remedial actions, the department may prepare written opinions regarding whether the independent remedial actions or proposals for those actions meet the substantive requirements of this chapter or whether the department believes further remedial action is necessary at the facility. Nothing in this chapter may be construed to preclude the department from issuing a written opinion on whether further remedial action is necessary at any portion of the real property located within a facility, even if further remedial action is still necessary elsewhere at the same facility. Such a written opinion on a portion of a facility must also provide an opinion on the status of the facility as a whole. The department may collect, from persons requesting advice and assistance, the costs incurred by the department in providing such advice and assistance; however, the department shall, where appropriate, waive collection of costs in order to provide an appropriate level of technical assistance in support of public participation. The state, the department, and officers and employees of the state are immune from all liability, and no cause of action of any nature may arise from any act or omission in providing, or failing to provide, informal advice and assistance; and

(j) Take any other actions necessary to carry out the provisions of this chapter, including the power to adopt rules under chapter 34.05 RCW.

(2) The department shall immediately implement all provisions of this chapter to the maximum extent practicable, including investigative and remedial actions where appropriate. The department shall adopt, and thereafter enforce, rules under chapter 34.05 RCW to:

(a) Provide for public participation, including at least (i) public notice of the development of investigative plans or remedial plans for releases or threatened releases and (ii) concurrent public notice of all compliance orders, agreed orders, enforcement orders, or notices of violation;

(b) Establish a hazard ranking system for hazardous waste sites;

(c) Provide for requiring the reporting by an owner or operator of releases of hazardous substances to the environment that may be a threat to human health or the environment within ninety days of discovery, including such exemptions from reporting as the department deems appropriate, however this requirement shall not modify any existing requirements provided for under other laws;

(d) Establish reasonable deadlines not to exceed ninety days for initiating an investigation of a hazardous waste site after the department receives notice or otherwise receives information that the site may pose a threat to human health or the environment and other reasonable deadlines for remedying releases or threatened releases at the site;

(e) Publish and periodically update minimum cleanup standards for remedial actions at least as stringent as the cleanup standards under section 121 of the federal cleanup law, 42 U.S.C. Sec. 9621, and at least as stringent as all applicable state and federal laws, including health-based standards under state and federal law; and

(f) Apply industrial clean-up standards at industrial properties. Rules adopted under this subsection shall ensure that industrial properties cleaned up to industrial standards cannot be converted to nonindustrial uses without approval from the department. The department may require that a property cleaned up to industrial standards is cleaned up to a more stringent applicable standard as a condition of conversion to a nonindustrial use. Industrial clean-up standards may not be applied to industrial properties where hazardous substances remaining at the property after remedial action pose a threat to human health or the environment in adjacent nonindustrial areas.

(3) To achieve and protect the state’s long-term ecological health, the department shall prioritize sufficient funding to clean up hazardous waste sites and prevent the creation of future hazards due to improper disposal of toxic wastes, and create financing tools to clean up large-scale hazardous waste sites requiring multiyear commitments. To effectively monitor toxic accounts expenditures, the department shall develop a comprehensive ten-year financing report that identifies long-term remedial action project costs, tracks expenses, and projects future needs.

(4) Before December 20th of each even-numbered year, the department shall:

(a) Develop a comprehensive ten-year financing report in coordination with all local governments with clean-up responsibilities that identifies the projected biennial hazardous waste site remedial action needs that are eligible for funding from the local toxics control account;
(b) Work with local governments to develop working capital reserves to be incorporated in the ten-year financing report;

(c) Identify the projected remedial action needs for orphaned, abandoned, and other clean-up sites that are eligible for funding from the state toxics control account;

(d) Project the remedial action need, cost, revenue, and any recommended working capital reserve estimate to the next biennium's long-term remedial action needs from both the local toxics control account and the state toxics control account, and submit this information to the appropriate standing fiscal and environmental committees of the senate and house of representatives. This submittal must also include a ranked list of such remedial action projects for both accounts; and

(e) Provide the legislature and the public each year with an accounting of the department's activities supported by appropriations from the state and local toxics control accounts, including a list of known hazardous waste sites and their hazard rankings, actions taken and planned at each site, how the department is meeting its waste management priorities under RCW 70.105.150, and all funds expended under this chapter.

(5) The department shall establish a program to identify potential hazardous waste sites and to encourage persons to provide information about hazardous waste sites.

(6) For all facilities where an environmental covenant has been required under subsection (1)(f) of this section, including all facilities where the department has required an environmental covenant under an order, agreed order, or consent decree, or as a condition of a written opinion issued under the authority of subsection (1)(i) of this section, the department shall periodically review the environmental covenant for effectiveness. Except as otherwise provided in (c) of this subsection, the department shall conduct a review at least once every five years after an environmental covenant is recorded.

(a) The review shall consist of, at a minimum:

(i) A review of the title of the real property subject to the environmental covenant to determine whether the environmental covenant was properly recorded and, if applicable, amended or terminated;

(ii) A physical inspection of the real property subject to the environmental covenant to determine compliance with the environmental covenant, including whether any development or redevelopment of the real property has violated the terms of the environmental covenant; and

(iii) A review of the effectiveness of the environmental covenant in limiting or prohibiting activities that may interfere with the integrity of the remedial action or that may result in exposure to or migration of hazardous substances. This shall include a review of available monitoring data.

(b) If an environmental covenant has been amended or terminated without proper authority, or if the terms of an environmental covenant have been violated, or if the environmental covenant is no longer effective in limiting or prohibiting activities that may interfere with the integrity of the remedial action or that may result in exposure to or migration of hazardous substances, then the department shall take any and all appropriate actions necessary to ensure compliance with the environmental covenant and the policies and requirements of this chapter.

(c) For facilities where an environmental covenant required by the department under subsection (1)(f) of this section was required before July 1, 2007, the department shall:

(i) Enter all required information about the environmental covenant into the registry established under RCW 64.70.120 by June 30, 2008;

(ii) For those facilities where more than five years has elapsed since the environmental covenant was required and the department has yet to conduct a review, conduct an initial review according to the following schedule:

(A) By December 30, 2008, fifty facilities;

(B) By June 30, 2009, fifty additional facilities; and

(C) By June 30, 2010, the remainder of the facilities;

(iii) Once this initial review has been completed, conduct subsequent reviews at least once every five years. [2009 c 560 § 10. Prior: 2007 c 446 § 1; 2007 c 225 § 1; 2007 c 104 § 19; 2002 c 288 § 3; 2001 c 291 § 401; 1997 c 406 § 3; 1995 c 70 § 2; prior: 1994 c 257 § 11; 1994 c 254 § 3; 1989 c 2 § 3 (Initiative Measure No. 97, approved November 8, 1988).]

70.105D.040 Standard of liability—Settlement. (1) Except as provided in subsection (3) of this section, the following persons are liable with respect to a facility:

(a) The owner or operator of the facility;

(b) Any person who owned or operated the facility at the time of disposal or release of the hazardous substances;

(c) Any person who owned or possessed a hazardous substance and who by contract, agreement, or otherwise arranged for disposal or treatment of the hazardous substance at the facility, or arranged with a transporter for transport for disposal or treatment of the hazardous substances at the facility, or otherwise generated hazardous wastes disposed of or treated at the facility;

(d) Any person (i) who accepts or accepted any hazardous substance for transport to a disposal, treatment, or other facility selected by such person from which there is a release or a threatened release for which remedial action is required, unless such facility, at the time of disposal or treatment, could legally receive such substance; or (ii) who accepts a hazardous substance for transport to such a facility and has reasonable grounds to believe that such facility is not operated in accordance with chapter 70.105 RCW; and

(e) Any person who both sells a hazardous substance and is responsible for written instructions for its use if (i) the substance is used according to the instructions and (ii) the use constitutes a release for which remedial action is required at the facility.

(2) Each person who is liable under this section is strictly liable, jointly and severally, for all remedial action costs and

[Title 70 RCW—page 369]
for all natural resource damages resulting from the releases or threatened releases of hazardous substances. The attorney general, at the request of the department, is empowered to recover all costs and damages from persons liable therefor.

(3) The following persons are not liable under this section:

(a) Any person who can establish that the release or threatened release of a hazardous substance for which the person would be otherwise responsible was caused solely by:

(i) An act of God;
(ii) An act of war; or

(iii) An act or omission of a third party (including but not limited to a trespasser) other than (A) an employee or agent of the person asserting the defense, or (B) any person whose act or omission occurs in connection with a contractual relationship existing, directly or indirectly, with the person asserting this defense to liability. This defense only applies where the person asserting the defense has exercised the utmost care with respect to the hazardous substance, the foreseeable acts or omissions of the third party, and the foreseeable consequences of those acts or omissions;

(b) Any person who is an owner, past owner, or purchaser of a facility and who can establish by a preponderance of the evidence that at the time the facility was acquired by the person, the person had no knowledge or reason to know that any hazardous substance, the release or threatened release of which has resulted in or contributed to the need for the remedial action, was released or disposed of on, in, or at the facility. This subsection (b) is limited as follows:

(i) To establish that a person had no reason to know, the person must have undertaken, at the time of acquisition, all appropriate inquiry into the previous ownership and uses of the property, consistent with good commercial or customary practice in an effort to minimize liability. Any court interpreting this subsection (b) shall take into account any specialized knowledge or experience on the part of the person, the relationship of the purchase price to the value of the property if uncontaminated, commonly known or reasonably ascertainable information about the property, the obviousness of the presence or likely presence of contamination at the property, and the ability to detect such contamination by appropriate inspection;

(ii) The defense contained in this subsection (b) is not available to any person who had actual knowledge of the release or threatened release of a hazardous substance when the person owned the real property and who subsequently transferred ownership of the property without first disclosing such knowledge to the transferee;

(iii) The defense contained in this subsection (b) is not available to any person who, by any act or omission, caused or contributed to the release or threatened release of a hazardous substance at the facility;

(c) Any natural person who uses a hazardous substance lawfully and without negligence for any personal or domestic purpose in or near a dwelling or accessory structure when that person is: (i) A resident of the dwelling; (ii) a person who, without compensation, assists the resident in the use of the substance; or (iii) a person who is employed by the resident, but who is not an independent contractor;

(d) Any person who, for the purpose of growing food crops, applies pesticides or fertilizers without negligence and in accordance with all applicable laws and regulations.

(4) There may be no settlement by the state with any person potentially liable under this chapter except in accordance with this section.

(a) The attorney general may agree to a settlement with any potentially liable person only if the department finds, after public notice and any required hearing, that the proposed settlement would lead to a more expeditious cleanup of hazardous substances in compliance with cleanup standards under RCW 70.105D.030(2)(e) and with any remedial orders issued by the department. Whenever practicable and in the public interest, the attorney general may expedite such a settlement with persons whose contribution is insignificant in amount and toxicity. A hearing shall be required only if at least ten persons request one or if the department determines a hearing is necessary.

(b) A settlement agreement under this section shall be entered as a consent decree issued by a court of competent jurisdiction.

(c) A settlement agreement may contain a covenant not to sue only of a scope commensurate with the settlement agreement in favor of any person with whom the attorney general has settled under this section. Any covenant not to sue shall contain a reopener clause which requires the court to amend the covenant not to sue if factors not known at the time of entry of the settlement agreement are discovered and present a previously unknown threat to human health or the environment.

(d) A party who has resolved its liability to the state under this section shall not be liable for claims for contribution regarding matters addressed in the settlement. The settlement does not discharge any of the other liable parties but it reduces the total potential liability of the others to the state by the amount of the settlement.

(e) If the state has entered into a consent decree with an owner or operator under this section, the state shall not enforce this chapter against any owner or operator who is a successor in interest to the settling party unless under the terms of the consent decree the state could enforce against the settling party, if:

(i) The successor owner or operator is liable with respect to the facility solely due to that person’s ownership interest or operator status acquired as a successor in interest to the owner or operator with whom the state has entered into a consent decree; and

(ii) The stay of enforcement under this subsection does not apply if the consent decree was based on circumstances unique to the settling party that do not exist with regard to the successor in interest, such as financial hardship. For consent decrees entered into before July 27, 1997, at the request of a settling party or a potential successor owner or operator, the attorney general shall issue a written opinion on whether a consent decree contains such unique circumstances. For all other consent decrees, such unique circumstances shall be specified in the consent decree.

(f) Any person who is not subject to enforcement by the state under (e) of this subsection is not liable for claims for contribution regarding matters addressed in the settlement.
(5)(a) In addition to the settlement authority provided under subsection (4) of this section, the attorney general may agree to a settlement with a person not currently liable for remedial action at a facility who proposes to purchase, redevelop, or reuse the facility, provided that:

(i) The settlement will yield substantial new resources to facilitate cleanup;

(ii) The settlement will expedite remedial action consistent with the rules adopted under this chapter; and

(iii) Based on available information, the department determines that the redevelopment or reuse of the facility is not likely to contribute to the existing release or threatened release, interfere with remedial actions that may be needed at the site, or increase health risks to persons at or in the vicinity of the site.

(b) The legislature recognizes that the state does not have adequate resources to participate in all property transactions involving contaminated property. The primary purpose of this subsection (5) is to promote the cleanup and reuse of vacant or abandoned commercial or industrial contaminated property. The attorney general and the department may give priority to settlements that will provide a substantial public benefit, including, but not limited to the reuse of a vacant or abandoned manufacturing or industrial facility, or the development of a facility by a governmental entity to address an important public purpose.

(6) Nothing in this chapter affects or modifies in any way any person’s right to seek or obtain relief under other statutes or under common law, including but not limited to damages for injury or loss resulting from a release or threatened release of a hazardous substance. No settlement by the department or remedial action ordered by a court or the department affects any person’s right to obtain a remedy under common law or other statutes. [1997 c 406 § 4; 1994 c 254 § 4; 1989 c 2 § 4 (Initiative Measure No. 97, approved November 8, 1988).]

70.105D.050 Enforcement. (1) With respect to any release, or threatened release, for which the department does not conduct or contract for conducting remedial action and for which the department believes remedial action is in the public interest, the director shall issue orders or agreed orders requiring potentially liable persons to provide the remedial action. Any liable person who refuses, without sufficient cause, to comply with an order or agreed order of the director is liable in an action brought by the attorney general for:

(a) Up to three times the amount of any costs incurred by the state as a result of the party’s refusal to comply; and

(b) A civil penalty of up to twenty-five thousand dollars for each day the party refuses to comply.

The treble damages and civil penalty under this subsection apply to all recovery actions filed on or after March 1, 1989.

(2) Any person who incurs costs complying with an order issued under subsection (1) of this section may petition the department for reimbursement of those costs. If the department refuses to grant reimbursement, the person may, within thirty days thereafter file suit and recover costs by proving that he or she was not a liable person under RCW 70.105D.040 and that the costs incurred were reasonable.

(3) The attorney general shall seek, by filing an action if necessary, to recover the amounts spent by the department for investigative and remedial actions and orders, and agreed orders, including amounts spent prior to March 1, 1989.

(4) The attorney general may bring an action to secure such relief as is necessary to protect human health and the environment under this chapter.

(5)(a) Any person may commence a civil action to compel the department to perform any nondiscretionary duty under this chapter. At least thirty days before commencing the action, the person must give notice of intent to sue, unless a substantial endangerment exists. The court may award attorneys’ fees and other costs to the prevailing party in the action.

(b) Civil actions under this section and RCW 70.105D.060 may be brought in the superior court of Thurston county or of the county in which the release or threatened release exists.

(6) Any person who fails to provide notification of releases consistent with RCW 70.105D.110 or who submits false information is liable in an action brought by the attorney general for a civil penalty of up to five thousand dollars per day for each day the party refuses to comply.

(7) Any person who owns real property or lender holding a mortgage on real property that is subject to a lien filed under RCW 70.105D.055 may petition the department to have the lien removed or the amount of the lien reduced. If, after consideration of the petition and the information supporting the petition, the department decides to deny the request, the person may, within ninety days after receipt of the department’s denial, file suit for removal or reduction of the lien. The person is entitled to removal of a lien under RCW 70.105D.055(2)(a) if they can prove by a preponderance of the evidence that the person is not a liable party under RCW 70.105D.040. The person is entitled to a reduction of the amount of the lien if they can prove by a preponderance of the evidence:

(a) For liens filed under RCW 70.105D.055(2)(a), the amount of the lien exceeds the remedial action costs the department incurred related to cleanup of the real property; and

(b) For liens filed under RCW 70.105D.055(2)(c), the amount of the lien exceeds the remedial action costs the department incurred related to cleanup of the real property or exceeds the increase of the fair market value of the real property solely attributable to the remedial action conducted by the department. [2005 c 211 § 2; 2002 c 288 § 4; 1994 c 257 § 12; 1989 c 2 § 5 (Initiative Measure No. 97, approved November 8, 1988).]

70.105D.055 Lien authority. (1) It is in the public interest for the department to recover remedial action costs incurred in discharging its responsibility under this chapter, as these recovered funds can then be applied to the cleanup of other facilities. Thus, in addition to other cost-recovery mechanisms provided under this chapter, this section is intended to facilitate the recovery of state funds spent on remedial actions by providing the department with lien authority. This will also prevent a facility owner or mort-
gagee from gaining a financial windfall from increased land value resulting from department-conducted remedial actions at the expense of the state taxpayers.

(2) If the state of Washington incurs remedial action costs relating to a remedial action of real property, and those remedial action costs are unrecovered by the state of Washington, the department may file a lien against that real property.

(a) Except as provided in (c) of this subsection, liens filed under this section shall have priority in rank over all other privileges, liens, monetary encumbrances, or other security interests affecting the real property, whenever incurred, filed, or recorded, except for the following liens:

(i) Local and special district property tax assessments; and

(ii) Mortgage liens recorded before liens or notices of intent to conduct remedial actions are recorded under this section.

(b) Liens filed pursuant to (a) and (c) of this subsection shall not exceed the remedial action costs incurred by the state.

(c) (i) If the real property for which the department has incurred remedial action costs is abandoned, the department may choose to limit the amount of the lien to the increase in the fair market value of the real property that is attributable to a remedial action conducted by the department. The increase in fair market value shall be determined by subtracting the county assessor’s value of the real property for the most recent year prior to remedial action being initiated from the value of the real property after remedial action. The value of the real property after remedial action shall be determined by the bona fide purchase price of the real property or by a real estate appraiser retained by the department. Liens limited in this way have priority in rank over all other privileges, liens, monetary encumbrances, or other security interests affecting the real property, whenever incurred, filed, or recorded.

(ii) For the purposes of this subsection, "abandoned" means there has not been significant business activity on the real property for three years or property taxes owed on the real property are three years in arrears prior to the department incurring costs attributable to this lien.

(d) The department shall, when notifying potentially liable persons of their potential liability under RCW 70.105D.040, include a notice stating that if the department incurs remedial action costs relating to the remediation of real property and the costs are not recovered by the department, the department may file a lien against that real property under this section.

(e) Except for emergency remedial actions, the department must provide notice to the following persons before initiating remedial actions conducted by persons under contract to the department on real property on which a lien may be filed under this section:

(i) The real property owner;

(ii) Mortgagees;

(iii) Lienholders of record;

(iv) Persons known to the department to be conducting remedial actions at the facility at the time of such notice; and

(v) Persons known to the department to be under contract to conduct remedial actions at the facility at the time of such notice.

For emergency remedial actions, this notice shall be provided within thirty days after initiation of the emergency remedial actions.

(f) The department may record a copy of the notice in (e) of this subsection, along with a legal description of the property on which the remedial action will take place, with the county auditor in the county where the real property is located. If the department subsequently files a lien, the effective date of the lien will be the date this notice was recorded.

(3) Before filing a lien under this section, the department shall give the owner of real property on which the lien is to be filed and mortgagees and lienholders of record a notice of its intent to file a lien:

(a) The notice required under this subsection (3) must be sent by certified mail to the real property owner and mortgagees of record at the addresses listed in the recorded documents. If the real property owner is unknown or if a mailed notice is returned as undeliverable, the department shall provide notice by posting a legal notice in the newspaper of largest circulation in the county [in which] the site is located. The notice shall provide:

(i) A statement of the purpose of the lien;

(ii) A brief description of the real property to be affected by the lien;

(iii) A statement of the remedial action costs incurred by the state related to the real property affected by the lien;

(iv) A brief statement of facts showing probable cause that the real property is the subject of the remedial action costs incurred by the department; and

(v) The time period following service or other notice during which any recipient of the notice whose legal rights may be affected by the lien may comment on the notice.

(b) Any comments on the notice must be received by the department on or before thirty days following service or other provision of the notice of intent to file a lien.

(c) If no comments are received by the department, the lien may be filed on the real property immediately.

(d) If the department receives any comments on the lien, the department shall determine if there is probable cause for filing the certificate of lien. If the department determines there is probable cause, the department may file the lien. Any further challenge to the lien may only occur at the times specified under RCW 70.105D.060.

(e) If the department has reason to believe that exigent circumstances require the filing of a lien prior to giving notice under this subsection (3), or prior to the expiration of the time period for comments, the department may file the lien immediately. For the purposes of this subsection (3), exigent circumstances include, but are not limited to, an imminent bankruptcy filing by the real property owner, or the imminent transfer or sale of the real property subject to lien by the real property owner, or both.

(4) A lien filed under this section is effective when a statement of lien is filed with the county auditor in the county where the real property is located. The statement of lien must include a description of the real property subject to lien and the amount of the lien.

(5) Unless the department determines it is in the public interest to remove the lien, the lien continues until the liability for the remedial action costs have been satisfied through sale of the real property, foreclosure, or other means agreed
70.105D.060 Timing of review. The department’s investigative and remedial decisions under RCW 70.105D.030 and 70.105D.050, its decisions regarding filing a lien under RCW 70.105D.055, and its decisions regarding liable persons under RCW 70.105D.020, 70.105D.040, 70.105D.050, and 70.105D.055 shall be reviewable exclusively in superior court and only at the following times: (1) In a cost recovery suit under RCW 70.105D.050(3); (2) in a suit by the department to enforce an order or an agreed order, or seek a civil penalty under this chapter; (3) in a suit for reimbursement under RCW 70.105D.050(2); (4) in a suit by the department to compel investigative or remedial action; (5) in a citizen’s suit under RCW 70.105D.050(5); and (6) in a suit for removal or reduction of a lien under RCW 70.105D.050(7). Except in suits for reduction or removal of a lien under RCW 70.105D.050(7), the court shall uphold the department’s actions unless they were arbitrary and capricious. In suits for reduction or removal of a lien under RCW 70.105D.050(7), the court shall review such suits pursuant to the standards set forth in RCW 70.105D.050(7). (xii) Development and demonstration of alternative management technologies designed to carry out the hazardous waste management priorities of RCW 70.105.150;

(xiii) During the 2009-2011 and 2011-2013 fiscal biennia, shoreline update technical assistance;

(xiv) During the 2009-2011 fiscal biennium, multijurisdictional permitting teams;

(xv) During the 2011-2013 fiscal biennium, actions for reducing public exposure to toxic air pollution, and actions taken through the family forest fish passage program to correct barriers to fish passage on privately owned small forest lands; and

(xvi) During the 2011-2013 fiscal biennium, the department of ecology’s water quality, shorelands and environmental assessment, hazardous waste, waste to resources, nuclear waste, and air quality programs.

(3) The following moneys shall be deposited into the local toxics control account: Those revenues which are raised by the tax imposed under RCW 82.21.030 and which are attributable to that portion of the rate equal to thirty-seven one-hundredths of one percent.

(a) Moneys deposited in the local toxics control account shall be used by the department for grants or loans to local governments for the following purposes in descending order of priority:

(i) Remedial actions;

(ii) Hazardous waste plans and programs under chapter 70.105 RCW;

(iii) Solid waste plans and programs under chapters 70.95, 70.95C, 70.95I, and 70.105 RCW;

(iv) Funds for a program to assist in the assessment and cleanup of sites of methamphetamine production, but not to be used for the initial containment of such sites, consistent with the responsibilities and intent of RCW 69.50.511; and
(v) Cleanup and disposal of hazardous substances from abandoned or derelict vessels, defined for the purposes of this section as vessels that have little or no value and either have no identified owner or have an identified owner lacking financial resources to clean up and dispose of the vessel, that pose a threat to human health or the environment.

(b) Funds for plans and programs shall be allocated consistent with the priorities and matching requirements established in chapters 70.105, 70.95C, 70.95I, and 70.95 RCW, except that any applicant that is a Puget Sound partner, as defined in RCW 90.71.010, along with any project that is referenced in the action agenda developed by the Puget Sound partnership under RCW 90.71.310, shall, except as conditioned by RCW 70.105D.120, receive priority for any available funding for any grant or funding programs or sources that use a competitive bidding process. During the 2007-2009 fiscal biennium, moneys in the account may also be used for grants to local governments to retrofit public sector diesel equipment and for storm water planning and implementation activities.

(c) To expedite cleanups throughout the state, the department shall partner with local communities and liable parties for cleanups. The department is authorized to use the following additional strategies in order to ensure a healthful environment for future generations:

(i) The director may alter grant-matching requirements to create incentives for local governments to expedite cleanups when one of the following conditions exists:

(A) Funding would prevent or mitigate unfair economic hardship imposed by the clean-up liability;

(B) Funding would create new substantial economic development, public recreational, or habitat restoration opportunities that would not otherwise occur; or

(C) Funding would create an opportunity for acquisition and redevelopment of vacant, orphaned, or abandoned property under RCW 70.105D.040(5) that would not otherwise occur;

(ii) The use of outside contracts to conduct necessary studies;

(iii) The purchase of remedial action cost-cap insurance, when necessary to expedite multiparty clean-up efforts.

(d) To facilitate and expedite cleanups using funds from the local toxics control account, during the 2009-2011 fiscal biennium the director may establish grant-funded accounts to hold and disperse local toxics control account funds and funds from local governments to be used for remedial actions.

(4) Except for unanticipated receipts under RCW 43.79.260 through 43.79.282, moneys in the state and local toxics control accounts may be spent only after appropriation by statute.

(5) Except during the 2011-2013 fiscal biennium, one percent of the moneys deposited into the state and local toxics control accounts shall be allocated only for public participation grants to persons who may be adversely affected by a release or threatened release of a hazardous substance and to not-for-profit public interest organizations. The primary purpose of these grants is to facilitate the participation by persons and organizations in the investigation and remedying of releases or threatened releases of hazardous substances and to implement the state’s solid and hazardous waste management priorities. No grant may exceed sixty thousand dollars. Grants may be renewed annually. Moneys appropriated for public participation from either account which are not expended at the close of any biennium shall revert to the state toxics control account.

(6) No moneys deposited into either the state or local toxics control account may be used for solid waste incinerator feasibility studies, construction, maintenance, or operation, or, after January 1, 2010, for projects designed to address the restoration of Puget Sound, funded in a competitive grant process, that are in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310.

(7) The department shall adopt rules for grant or loan issuance and performance.

(8) During the 2011-2013 fiscal biennium, the legislature may transfer from the local toxics control account to the state toxics control account such amounts as reflect excess fund balance in the account.

(9) During the 2011-2013 fiscal biennium, the local toxics control account may also be used for local government shoreline update grants and actions for reducing public exposure to toxic air pollution; funding to local governments for flood levee improvements; and grants to local governments for brownfield redevelopment. Finding—2001 c 27: “The legislature finds that there is an increasing number of derelict vessels that have been abandoned in the waters along the shorelines of the state. These vessels pose hazards to navigation and threaten the environment with the potential release of hazardous materials. There is no current federal program that comprehensively addresses this problem, and the legislature recognizes that the state must assist in providing a solution to this increasing hazard.” [2001 c 27 § 1.]

70.105D.080 Private right of action—Remedial action costs. Except as provided in RCW 70.105D.040(4) (d) and (f), a person may bring a private right of action, including a claim for contribution or for declaratory relief, against any other person liable under RCW 70.105D.040 for the recovery of remedial action costs. In the action, natural resource damages paid to the state under this chapter may also be recovered. Recovery shall be based on such equitable factors as the court determines are appropriate. Remedial action costs shall include reasonable attorneys’ fees and expenses. Recovery of remedial action costs shall be limited to those remedial actions that, when evaluated as a whole, are the substantial equivalent of a department-conducted or department-supervised remedial action. Substantial equivalence shall be determined by the court with reference to the rules adopted by the department under this chapter. An action under this section may be brought after remedial action costs are incurred but must be brought within three years from the date remedial action confirms cleanup standards are met or within one year of May 12, 1993, whichever is later. The prevailing party in such an action shall recover its reasonable attorneys’ fees and costs. This section applies to all causes of action regardless of when the cause of action may have arisen. To the extent a cause of action has arisen prior to May 12, 1993, this section applies retroactively, but in all other respects it applies prospectively. [1997 c 406 § 6; 1993 c 326 § 1.]

70.105D.090 Remedial actions—Exemption from procedural requirements. (1) A person conducting a remedial action at a facility under a consent decree, order, or agreed order, and the department when it conducts a remedial action, are exempt from the procedural requirements of chapters 70.94, 70.95, 70.105, 77.55, 90.48, and 90.58 RCW, and the procedural requirements of any laws requiring or authorizing local government permits or approvals for the remedial action. The department shall ensure compliance with the substantive provisions of chapters 70.94, 70.95, 70.105, 77.55, 90.48, and 90.58 RCW, and the substantive provisions of any laws requiring or authorizing local government permits of approvals. The department shall establish procedures for ensuring that such remedial actions comply with the substantive requirements adopted pursuant to such laws, and shall consult with the state agencies and local governments charged with implementing these laws. The procedures shall provide an opportunity for comment by the public and by the state agencies and local governments that would otherwise implement the laws referenced in this section. Nothing in this section is intended to prohibit implementing agencies from charging a fee to the person conducting the remedial action to defray the costs of services rendered relating to the substantive requirements for the remedial action.

(2) An exemption in this section or in RCW 70.94.335, 70.95.270, 70.105.116, *77.55.030, 90.48.039, and 90.58.355 shall not apply if the department determines that the exemption would result in loss of approval from a federal agency necessary for the state to administer any federal law, including the federal resource conservation and recovery act, the federal clean water act, the federal clean air act, and the federal coastal zone management act. Such a determination by the department shall not affect the applicability of the exemptions to other statutes specified in this section. [2003 c 39 § 30; 1994 c 257 § 14.]

*Reviser’s note: RCW 77.55.030 was recodified as RCW 77.55.061 pursuant to 2005 c 146 § 1001.

70.105D.100 Grants to local governments—Statement of environmental benefits—Development of outcome-focused performance measures. In providing grants to local governments, the department shall require grant recipients to incorporate the environmental benefits of the project into their grant applications, and the department shall utilize the statement of environmental benefit[s] in its prioritization and selection process. The department shall also develop appropriate outcome-focused performance measures to be used both for management and performance assessment of the grant program. To the extent possible, the department should coordinate its performance measure system with other natural resource-related agencies as defined in RCW 43.41.270. The department shall consult with affected interest groups in implementing this section. [2001 c 227 § 5.]

Findings—Intent—2001 c 227: See note following RCW 43.41.270.

70.105D.110 Releases of hazardous substances—Notice—Exemptions. (1) Except as provided in subsection (5) of this section, any owner or operator of a facility that is actively transitioning from operating under a federal permit for treatment, storage, or disposal of hazardous waste issued under 42 U.S.C. Sec. 6925 to operating under the provisions of this chapter, who has information that a hazardous substance has been released to the environment at the owner or operator’s facility that may be a threat to human health or the environment, shall issue a notice to the department within ninety days. The notice shall include a description of any remedial actions planned, completed, or underway.

(2) The notice must be posted in a visible, publicly accessible location on the facility, to remain in place until all remedial actions except confirmational monitoring are complete.

(3) After receiving the notice from the facility, the department must review the notice and mail a summary of its contents, along with any additional information deemed appropriate by the department, to:

(a) Each residence and landowner of a residence whose property boundary is within three hundred feet of the boundary of the property where the release occurred or if the release occurred from a pipeline or other facility that does not have a property boundary, within three hundred feet of the actual release;

(2012 Ed.)
(b) Each business and landowner of a business whose property boundary is within three hundred feet of the boundary of the property where the release occurred;

(c) Each residence, landowner of a residence, and business with a property boundary within the area where hazardous substances have come to be located as a result of the release;

(d) Neighborhood associations and community organizations representing an area within one mile of the facility and recognized by the city or county with jurisdiction within this area;

(e) The city, county, and local health district with jurisdiction within the areas described in (a), (b), and (c) of this subsection; and

(f) The department of health.

(4) A notice produced by a facility shall provide the following information:

(a) The common name of any hazardous substances released and, if available, the chemical abstract service registry number of these substances;

(b) The address of the facility where the release occurred;

(c) The date the release was discovered;

(d) The cause and date of the release, if known;

(e) The remedial actions being taken or planned to address the release;

(f) The potential health and environmental effects of the hazardous substances released; and

(g) The name, address, and telephone number of a contact person at the facility where the release occurred.

(5) The following releases are exempt from the notification requirements in this section:

(a) Application of pesticides and fertilizers for their intended purposes and according to label instructions;

(b) The lawful and nonnegligent use of hazardous household substances by a natural person for personal or domestic purposes;

(c) The discharge of hazardous substances in compliance with permits issued under chapter 70.94, 90.48, or 90.56 RCW;

(d) De minimis amounts of any hazardous substance leaked or discharged onto the ground;

(e) The discharge of hazardous substances to a permitted waste water treatment facility or from a permitted waste water collection system or treatment facility as allowed by a facility’s discharge permit;

(f) Any releases originating from a single-family or multifamily residence, including but not limited to the discharge of oil from a residential home heating oil tank with the capacity of five hundred gallons or less;

(g) Any spill on a public road, street, or highway or to surface waters of the state that has previously been reported to the United States coast guard and the state division of emergency management under chapter 90.56 RCW;

(h) Any release to the air;

(i) Any release that occurs on agricultural land, including land used to grow trees for the commercial production of wood or wood fiber, that is at least five acres in size, when the effects of the release do not come within three hundred feet of any property boundary. For the purposes of this subsection, agricultural land includes incidental uses that are compatible with agricultural or silvicultural purposes, including, but not limited to, land used for the housing of the owner, operator, or employees, structures used for the storage or repair of equipment, machinery, and chemicals, and any paths or roads on the land; and

(j) Releases that, before January 1, 2003, have been previously reported to the department, or remediated in compliance with a settlement agreement under RCW 70.105D.040(4) or enforcement order or agreed order issued under this chapter or have been the subject of an opinion from the department under RCW 70.105D.030(1)(i) that no further remedial action is required.

An exemption from the notification requirements of this section does not exempt the owner or operator of a facility from any other notification or reporting requirements, or imply a release from liability under this chapter.

(6) If a significant segment of the community to be notified speaks a language other than English, an appropriate translation of the notice must also be posted and mailed to the department in accordance with the requirements of this section.

(7) The facility where the release occurred is responsible for reimbursing the department within thirty days for the actual costs associated with the production and mailing of the notices under this section. [2002 c 288 § 2.]

Effective date—2002 c 288 §§ 2-4: "Sections 2 through 4 of this act take effect January 1, 2003." [2002 c 288 § 6.]

Severability—2002 c 288: See note following RCW 70.105D.010.

### 70.105D.120 Puget Sound partners

When administering funds under this chapter, the department shall give preference only to Puget Sound partners, as defined in RCW 90.71.010, in comparison to other entities that are eligible to be included in the definition of Puget Sound partner. Entities that are not eligible to be a Puget Sound partner due to geographic location, composition, exclusion from the scope of the Puget Sound action agenda developed by the Puget Sound partnership under RCW 90.71.310, or for any other reason, shall not be given less preferential treatment than Puget Sound partners. [2007 c 341 § 31.]

Severability—Effective date—2007 c 341: See RCW 90.71.006 and 90.71.907.

### 70.105D.130 Cleanup settlement account—Reporting requirements

(1) The cleanup settlement account is created in the state treasury. The account is not intended to replace the state toxics control account established under RCW 70.105D.070. All receipts from the sources identified in subsection (2) of this section must be deposited into the account. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only as identified in subsection (4) of this section.

(2) The following receipts must be deposited into the cleanup settlement account:

(a) Receipts from settlements or court orders that direct payment to the account and resolve a person’s liability or potential liability under this chapter for either or both of the following:

(i) Conducting future remedial action at a specific facility, if it is not feasible to require the person to conduct the remedial action based on the person’s financial insolvency,
limited ability to pay, or insignificant contribution under RCW 70.105D.040(4)(a);
   (ii) Assessing or addressing the injury to natural resources caused by the release of a hazardous substance from a specific facility; and
   (b) Receipts from investment of the moneys in the account.

(3) If a settlement or court order does not direct payment of receipts described in subsection (2)(a) of this section into the cleanup settlement account, then the receipts from any payment to the state must be deposited into the state toxics control account.

(4) Expenditures from the cleanup settlement account may only be used to conduct remedial actions at the specific facility or to assess or address the injury to natural resources caused by the release of hazardous substances from that facility for which the moneys were deposited in the account. Conducting remedial actions or assessing or addressing injury to natural resources includes direct expenditures and indirect expenditures such as department oversight costs. During the 2009-2011 fiscal biennium, the legislature may transfer excess fund balances in the account into the state efficiency and restructuring account. Transfers of excess fund balances made under this section shall be made only to the extent amounts transferred with required repayments do not impair the ten-year spending plan administered by the department of ecology for environmental remedial actions dedicated for any designated clean-up site associated with the Everett smelter and Tacoma smelter, including plumes, or former Asarco mine sites. The cleanup settlement account must be repaid with interest under provisions of the state efficiency and restructuring account.

(5) The department shall track moneys received, interest earned, and moneys expended separately for each facility.

(6) After the department determines that all remedial actions at a specific facility, and all actions assessing or addressing injury to natural resources caused by the release of hazardous substances from that facility, are completed, including payment of all related costs, any moneys remaining for the specific facility must be transferred to the state toxics control account established under RCW 70.105D.070.

(7) The department shall provide the office of financial management and the fiscal committees of the legislature with a report by October 31st of each year regarding the activity within the cleanup settlement account during the previous fiscal year. [2010 1st sp.s. c 37 § 947; 2008 c 106 § 1.]

Effective date—2010 1st sp.s. c 37: See note following RCW 13.06.050.

70.105D.910 Construction—1989 c 2. The provisions of this act are to be liberally construed to effectuate the policies and purposes of this act. In the event of conflict between the provisions of this act and any other act, the provisions of this act shall govern. [1989 c 2 § 19 (Initiative Measure No. 97, approved November 8, 1988).]

70.105D.915 Existing agreements—1989 c 2. The consent orders and decrees in effect on March 1, 1989, shall remain valid and binding. [1989 c 2 § 20 (Initiative Measure No. 97, approved November 8, 1988).]

70.105D.920 Effective date—1989 c 2. (1) Sections 1 through 24 of this act shall take effect March 1, 1989, except that the director of ecology and the director of revenue may take whatever actions may be necessary to ensure that sections 1 through 24 of this act are implemented on their effective date.
   *(2) This section does not apply and shall have no force or effect if (a) this act is passed by the legislature in the 1988 regular session or (b) no bill is enacted by the legislature involving hazardous substance cleanup (along with any other subject matter) between August 15, 1987, and January 1, 1988. [1989 c 2 § 26 (Initiative Measure No. 97, approved November 8, 1988).]

*Reviser's note: Neither condition contained in subsection (2) was met.

70.105D.921 Severability—1989 c 2. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. 70.105E.902 Captions not law—2005 c 1 (Initiative Measure No. 297).

70.105E.010 Purpose. The purpose of chapter 1, Laws of 2005 is to prohibit sites at which mixed radioactive and hazardous wastes have contaminated or threaten to contaminate the environment, such as at the Hanford nuclear reservation, from adding more waste that is not generated from the cleanup of the site until such waste on-site has been cleaned up and is stored, treated, or disposed of in compliance with all state and federal environment laws. [2005 c 1 § 1 (Initiative Measure No. 297, approved November 2, 2004).]

70.105E.020 Policy. (1) The Hanford nuclear reservation, through which the Columbia river flows for fifty miles, is the most contaminated area in North America. Use of Hanford as a national waste dump for radioactive and/or hazardous or toxic wastes will increase contamination and risks.

(2) Cleanup is the state of Washington’s top priority at sites with hazardous waste contamination that threatens our rivers, groundwater, environment, and health. Adding more waste to contaminated sites undermines the cleanup of those sites. Cleanup is delayed and funds and resources diverted if facilities needed to treat or clean up existing waste are used for imported waste, and if larger facilities must be built to accommodate off-site wastes.

(3) The fundamental and inalienable right of each person residing in Washington state to a healthy environment has been jeopardized by pollution of air and water spreading from Hanford.

(4) The economy of Washington state, from agriculture to tourism, to fisheries, could be irreparably harmed from any accident releasing radiation or mixed radioactive and hazardous wastes.

(5) It is Washington state policy to prohibit adding more waste to a site where mixed radioactive and hazardous wastes (a) are not stored or monitored in compliance with state and federal hazardous waste laws and (b) have been dumped in unlined soil trenches which threaten to contaminate our state’s resources.

(6) It is state policy to protect Washington’s current and future residents, particularly children and other sensitive individuals, from the cumulative risks of cancer caused by all cancer-causing hazardous substances, including radionuclides, by ensuring that hazardous substance release and disposal sites meet the standards established pursuant to chapter 70.105D RCW.

(7) Effective public and tribal involvement is necessary for government agencies to make sound decisions that will protect human health and the environment for thousands of years. It is Washington state policy to encourage and enhance effective public and tribal involvement in the complex decisions relating to cleanup, closure, permitting, and transportation of mixed waste; and to provide effective assistance to the public and local governments in reviewing and commenting upon complex decision documents. It is appropriate that the polluter pay for necessary public participation for decisions relating to waste releases and risks from mixed waste sites.

(8) The transport of mixed radioactive and hazardous wastes is inherently dangerous, and should be minimized. Decisions involving transportation of these wastes must be made with full involvement of the potentially affected public through whose communities these wastes will pass. [2005 c 1 § 2 (Initiative Measure No. 297, approved November 2, 2004).]

70.105E.030 Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Dangerous waste" has the same meaning as the term is defined in RCW 70.105.010.

(8) "Local government" means a city, town, or county.

(9) "Mixed waste" or "mixed radioactive and hazardous waste" means any hazardous substance or dangerous or extremely hazardous waste that contains both a nonradioactive hazardous component and a radioactive component, including any such substances that have been released to the environment, or pose a threat of future release, in a manner that may expose persons or the environment to either the nonradioactive or radioactive hazardous substances.

(10) "Mixed waste surcharge" means an additional charge for the purposes of local government and public participation in decisions relating to mixed waste facilities: Added to the service charge assessed under RCW 70.105.280 against those facilities that store, treat, incinerate, or dispose of mixed wastes; or against facilities at which mixed wastes have been released, or which are undergoing closure pursuant to chapter 70.105 RCW or remedial action pursuant to chapter 70.105D RCW.

In the event of a release of hazardous substances, "site" includes any area, or body of surface or ground water, where a hazardous substance has been deposited, stored, disposed of, placed, migrated to, or otherwise come to be located.

(15) Unless otherwise defined, or the context indicates otherwise, terms not defined in this section have the same meaning as defined in chapter 70.105 RCW, when used in this chapter. [2005 c 1 § 3 (Initiative Measure No. 297, approved November 2, 2004).]

70.105E.040 Duties of the department of ecology to regulate mixed wastes. (1) The department of ecology shall regulate mixed wastes to the fullest extent it is not preempted
(2) Any facility owner or operator of a site storing, managing, processing, transferring, treating, or disposing of mixed wastes shall apply for and obtain a final facility permit under chapter 70.105 RCW, this chapter, and the federal resource, conservation, and recovery act (RCRA), 42 U.S.C. Sec. 6901 et seq., as amended, before transporting to, storing or disposing at, the facility any additional mixed wastes not generated at the facility. At any facility granted a sitewide permit, under which permits for individual units are appended or become individual chapters, final facility permits must be applied for and obtained, for each unit or facility within the site where mixed wastes are, or will be, stored or disposed, prior to transporting to, storing or disposing at, the facility any additional mixed wastes not generated at the facility.

(3) The department shall not issue any permit requested under subsection (2) of this section unless the facility owner or operator is in compliance with the requirements of chapter 70.105 RCW, this chapter, and RCRA, 42 U.S.C. Sec. 6901 et seq., as amended, for obtaining and maintaining a final facility permit for existing mixed wastes stored, treated, or disposed of at the facility.

(4) If any sites, units, or facilities have interim status or an interim status permit, but fail to meet requirements for maintaining interim status under chapter 70.105 RCW, this chapter, or RCRA, 42 U.S.C. Sec. 6901 et seq., as amended, for obtaining and maintaining a final facility permit for mixed wastes under this section has failed to demonstrate compliance for purposes of obtaining such a permit pursuant to subsection (2) or (3) of this section.

(5) The addition of new trenches or cells, or widening or deepening of trenches, at a site with existing trenches containing mixed wastes shall be considered an expansion of the existing facilities for purposes of compliance with chapter 70.105 RCW or this chapter, and any permit or permit modification for such expansion shall be subject to the requirements of this section.

(6) (a) The department shall not issue a permit, or modify any existing permit, allowing for the treatment, storage, or disposal of any additional mixed wastes not generated at the site or facility as part of a remedial or corrective action, until:

(i) The site or facility is in full compliance with the requirements of chapter 70.105 RCW, this chapter, and RCRA, 42 U.S.C. Sec. 6901 et seq., as amended, for obtaining and maintaining a closure permit for any facility or unit from which a release of hazardous substances has occurred or is threatened to occur, after characterization and corrective action; or

(ii) The department has issued a formal determination that no further remedial action is necessary to remedy such a release pursuant to chapter 70.105D RCW.

(b) The prohibitions of this subsection (6) against granting or modifying a permit apply whenever a release of a hazardous substance, including but not limited to releases of radionuclides and any other carcinogenic substances, has occurred at a site or facility, and such release, or the cumulative impact of all releases at the site, are projected by the department to have the potential to exceed the following standards:

(i) Surface or ground water standards established pursuant to federal or state laws, including but not limited to maximum concentration limits, drinking water, or other standards; or

(ii) Cleanup or other standards adopted to protect human health or the environment pursuant to RCW 70.105D.030.

(7) Until all the requirements of subsection (6) [of this section] have been met, the department shall, by permit condition, limit any new construction of, expansion of, or final facility permit for, a facility for treating, storing or disposing of mixed waste to the capacity or size necessary for investigation, characterization, remediation, or corrective action of facilities or units undergoing closure, or remedial or corrective action at the site.

(8) The department may grant or modify permits pursuant to chapter 70.105 RCW solely for the purpose of remediating or closing existing facilities or units where there has been a release or threatened release of mixed wastes, if the permit expressly bars the storage or disposal of wastes that are not generated on-site pursuant to a remedial action, closure or corrective action approved by the department pursuant to this chapter or chapter 70.105D RCW.

(9) The department may permit specific treatment capacity at sites subject to the limitations of this section to be utilized for remediation or clean-up wastes from other sites, consistent with a site treatment plan approved by the department pursuant to RCRA, 42 U.S.C. [Sec.] 6901 et seq., as amended; provided that the department determines, after public notice and comment and consideration of impacts and alternatives in an environmental impact statement prepared pursuant to chapter 43.21C RCW, that use of such capacity will not: (i) Significantly increase any emissions, discharges, risks or consequences of potential accidents; (ii) result in permanent disposal of imported off-site wastes in the soil at the site; (iii) be stored in excess of any applicable time limits, or any applicable requirement; or, (iv) impact funding for cleanup and corrective actions at the site or, result in delay of treatment or remediation of wastes at the site. [2005 c 1 § 4 (Initiative Measure No. 297, approved November 2, 2004).]

70.105E.050 Releases of radioactive substances—Clean-up standards. (1) The department shall consider releases, or potential releases, of radioactive substances or radionuclides as hazardous substances if the radioactive substance poses a risk of a carcinogenic, toxic, or any other adverse health or environmental effect. The department shall require corrective action for, or remediation of, such releases to meet the same health risk based minimum clean-up standards as adopted for other carcinogenic, toxic, or other hazardous substances posing similar health risks pursuant to RCW 70.105D.030.

(2) The department shall include all known or suspected human carcinogens, including radionuclides and radioactive substances, in calculating the applicable clean-up standard, corrective action level, or maximum allowable projected release from a landfill or other facility or unit at which mixed
wastes are stored, disposed, or are reasonably believed by the department to be present, for purposes of chapter 70.105 RCW, this chapter, or chapter 70.105D RCW. In making any permit decision pursuant to chapter 70.105 RCW or this chapter, or in reviewing the adequacy of any environmental document prepared by another state, local, or federal agency, relating to mixed waste sites or facilities, the department shall ensure that the cumulative risk from all such carcinogens does not exceed the maximum acceptable carcinogen risk established by the department for purposes of determining clean-up standards pursuant to RCW 70.105D.030, or one additional cancer caused from exposure to all potential releases of hazardous substances at the site per one hundred thousand exposed individuals, whichever is more protective. [2005 c 1 § 5 (Initiative Measure No. 297, approved November 2, 2004).]

70.105E.060 Disposal of waste in unlined trenches—Investigation and cleanup of unlined trenches—Closure of mixed waste tank systems. (1)(a) The department, within sixty days after December 2, 2004, shall order any site owner or operator utilizing landfills or burial grounds containing unlined soil trenches in which mixed wastes are reasonably believed by the department to have been disposed to:

(i) Cease disposal of all further wastes in unlined soil trenches or facilities within thirty days of the order;

(ii) Initiate an investigation to provide the department with an inventory based on actual characterization of all hazardous substances potentially disposed in unlined trenches;

(iii) Initiate an investigation of releases or potential releases of any hazardous substances that were potentially disposed in unlined trenches;

(iv) Prepare, or pay the costs of the department to prepare, pursuant to the provisions of chapters 70.105 and 70.105D RCW, a plan for waste retrieval, treatment, closure, and monitoring for the unlined soil trenches, which may include temporary caps pending full characterization and remediation, the schedule for which shall be based upon determination of requirements to prevent migration of wastes; and

(v) Install and maintain a groundwater and soil column monitoring system, within two years, which is in compliance with all requirements of chapter 70.105 RCW, this chapter, and RCRA, 42 U.S.C. Sec. 6901 et seq., as amended.

(b) The department shall provide, by rule, for public notice, hearings, and comment on the scope of investigations and all actions necessary to fulfill the purposes of this section. Notice to the public for purposes of this section shall include a description of potential impacts to health or the environment from the facilities, and the potential for any state resources, or land areas, to be restricted from future use due to potential releases of hazardous substances from the site or facility.

(2) At any site with one or more land disposal facilities or units containing unlined trenches or pits, at which mixed wastes are stored or were disposed, any proposed expansion of such land disposal facility or unit, or application to permit new land disposal facilities at the same site, shall be consid-
(3) Obligations of the state pursuant to the Northwest interstate compact on low-level radioactive waste management and agreements made by the compact shall not be interfered with or affected by any provision of chapter 1, Laws of 2005. If hazardous or mixed wastes have been disposed or released at any facility operated pursuant to the compact, the relevant provisions of this chapter apply. [2005 c 1 § 8 (Initiative Measure No. 297, approved November 2, 2004).]

70.105E.100 Enforcement and appeals. (1) Any person may bring a civil action to compel the owner or operator of a mixed waste facility to comply with the requirements of this chapter or any permit or order issued by the department pursuant to this chapter; or to compel the department to perform any nondiscretionary duty under this chapter. At least thirty days before commencing the action, the person must give written notice to the department of intent to sue, unless a substantial endangerment exists. The court may award attorney fees and other costs to a prevailing plaintiff in the action.

(2) Orders of the department relating to mixed waste facilities under this chapter may be appealed to the pollution control hearings board, by any person whose interests in natural resources or health may be adversely affected by the action or inaction of the department.

(3) Civil actions under this section may be brought in superior court of Thurston county or of the county in which the release or threatened release of a hazardous substance occurs, or where mixed wastes that are the subject of the action may be transported, stored, treated, or disposed.

(4) Any violation of this chapter shall be considered a violation of chapter 70.105 RCW, and subject to all enforcement actions by the department or attorney general for violations of that chapter, including imposition of civil or criminal penalties. [2005 c 1 § 10 (Initiative Measure No. 297, approved November 2, 2004).]

70.105E.900 Construction—2005 c 1 (Initiative Measure No. 297). The provisions of this act are to be liberally construed to effectuate the policies and purposes of this act. (2) A pesticide as defined in the Washington Pesticide Control Act, chapter 15.58 RCW as now or hereafter amended;

(3) A food, drug, or cosmetic as those terms are defined in the Uniform Washington Food, Drug and Cosmetic Act, chapter 69.04 RCW as now or hereafter amended; or

(4) A substance intended for use as fuel when stored in portable containers and used in the heating, cooking, or refrigeration system of a house; or

(5) Any other substance which the director may declare to be a household substance subsequent to a hearing as provided for under the provisions of chapter 34.05 RCW, Administrative Procedure Act, for the adoption of rules. [1974 ex.s. c 49 § 6.]

70.106.070 "Package" defined. "Package" means the immediate container or wrapping in which any household substance is contained for consumption, use, or storage by individuals in or about the household, and, for purposes of RCW 70.106.110(1)(b), also means any outer container or wrapping used in the retail display of any such substance to consumers. Such term does not include:

(1) Any shipping container or wrapping used solely for the transportation of any household substance in bulk or in quantity to manufacturers, packers, or processors, or to wholesale or retail distributors thereof; or

(2) Any shipping container or outer wrapping used by retailers to ship or deliver any household substance to consumers unless it is the only such container or wrapping. [1974 ex.s. c 49 § 7.]

70.106.080 "Special packaging" defined. "Special packaging" means packaging that is designed or constructed to be significantly difficult for children under five years of age to open or obtain a toxic or harmful amount of the substance contained therein within a reasonable time and not difficult for normal adults to use properly, but does not mean packaging which all such children cannot open or obtain a toxic or harmful amount within a reasonable time. [1974 ex.s. c 49 § 8.]

70.106.090 "Labeling" defined. "Labeling" means all labels and other written, printed, or graphic matter upon any household substance or its package, or accompanying such substance. [1974 ex.s. c 49 § 9.]

70.106.100 Standards for packaging. (1) The director may establish in accordance with the provisions of this chapter, by regulation, standards for the special packaging of any household substance if he or she finds that:

(a) The degree or nature of the hazard to children in the availability of such substance, by reason of its packaging is such that special packaging is required to protect children from serious personal injury or serious illness resulting from handling, using, or ingesting such substance; and

(b) The special packaging to be required by such standard is technically feasible, practicable, and appropriate for such substance.

(2) In establishing a standard under this section, the director shall consider:

(a) The reasonableness of such standard;

(b) Available scientific, medical, and engineering data concerning special packaging and concerning childhood accidental ingestions, illness, and injury caused by household substances;

(c) The manufacturing practices of industries affected by this chapter; and

(d) The nature and use of the household substance.

(3) In carrying out the provisions of this chapter, the director shall publish his or her findings, his or her reasons therefor, and citation of the sections of statutes which authorize his or her action.

(4) Nothing in this chapter authorizes the director to prescribe specific packaging designs, product content, package quantity, or, with the exception of authority granted in RCW 70.106.110(1)(b), labeling. In the case of a household substance for which special packaging is required pursuant to a regulation under this section, the director may in such regulation prohibit the packaging of such substance in packages which he or she determines are unnecessarily attractive to children.

(5) The director shall cause the regulations promulgated under this chapter to conform with the requirements or exemptions of the federal hazardous substances act and with the regulations or interpretations promulgated pursuant thereto. [2012 c 117 § 419; 1974 ex.s. c 49 § 10.]

70.106.110 Exceptions from packaging standards. (1) For the purpose of making any household substance which is subject to a standard established under RCW 70.106.100 readily available to elderly persons or persons with disabilities unable to use such substance when packaged in compliance with such standard, the manufacturer or packer, as the case may be, may package any household substance, subject to such a standard, in packaging of a single size which does not comply with such standard if:

(a) The manufacturer or packer also supplies such substance in packages which comply with such standard; and

(b) The packages of such substance which do not meet such standard bear conspicuous labeling stating: "This package for households without young children"; except that the director may by regulation prescribe a substitute statement to the same effect for packaging too small to accommodate such labeling.
(2) In the case of a household substance which is subject to such a standard and which is dispensed pursuant to an order of a physician, dentist, or other licensed medical practitioner authorized to prescribe, such substance may be dispensed in noncomplying packages only when directed in such order or when requested by the purchaser.

(3) In the case of a household substance subject to such a standard which is packaged under subsection (1) of this section in a noncomplying package, if the director determines that such substance is not also being supplied by a manufacturer or packer in popular size packages which comply with such standard, he or she may, after giving the manufacturer or packer an opportunity to comply with the purposes of this chapter, by order require such substance to be packaged by such manufacturer or packer exclusively in special packaging complying with such standard if he or she finds, after opportunity for hearing, that such exclusive use of special packaging is necessary to accomplish the purposes of this chapter. [2012 c 117 § 420; 1974 ex.s. c 49 § 11.]

70.106.120 Adoption of rules and regulations under federal poison prevention packaging act. One of the purposes of this chapter is to promote uniformity with the Poison Prevention Packaging Act of 1970 and rules and regulations adopted thereunder. In addition, any rule or regulation adopted hereafter under said Federal Poison Prevention Act of 1970 concerning special packaging and published in the federal register shall be deemed to have been adopted under the provisions of this chapter. The director may, however, within thirty days of the publication of the adoption of any such rule or regulation under the Federal Poison Prevention Packaging Act of 1970, give public notice that a hearing will be held to determine if such regulations shall be applicable under the provisions of this chapter. Such hearing shall be conducted in accord with the provisions of chapter 34.05 RCW, Administrative Procedure Act, as now enacted or hereafter amended. [1974 ex.s. c 49 § 12.]

70.106.140 Penalties. (1) Except as provided in subsection (2) of this section, any person violating the provisions of this chapter or rules adopted under this chapter is guilty of a misdemeanor.

(2) A second or subsequent violation of the provisions of this chapter or rules adopted under this chapter is a gross misdemeanor. Any offense committed more than five years after a previous conviction shall be considered a first offense. [2003 c 53 § 358; 1974 ex.s. c 49 § 16.]

[1987 c 236 § 1.]

70.106.900 Severability—1974 ex.s. c 49. If any provision of this 1974 act is declared unconstitutional, or the applicability thereof to any person or circumstance is held invalid, the constitutionality of the remainder of the act and the applicability thereof to other persons and circumstances shall not be affected thereby. [1974 ex.s. c 49 § 14.]

70.106.905 Saving—1974 ex.s. c 49. The enactment of this 1974 act shall not have the effect of terminating, or in any way modifying any liability, civil or criminal, which shall already be in existence on July 24, 1974. [1974 ex.s. c 49 § 15.]

70.106.910 Chapter cumulative and nonexclusive. The provisions of this chapter shall be cumulative and nonexclusive and shall not affect any other remedy. [1974 ex.s. c 49 § 17.]

70.107.100 Short title.

70.107.010 Purpose. The legislature finds that inadequately controlled noise adversely affects the health, safety and welfare of the people, the value of property, and the quality of the environment. Antinoise measures of the past have not adequately protected against the invasion of these interests by noise. There is a need, therefore, for an expansion of efforts statewide directed toward the abatement and control of noise, considering the social and economic impact upon the community and the state. The purpose of this chapter is to provide authority for such an expansion of efforts, supplementing existing programs in the field. [1974 ex.s. c 183 § 1.]

70.107.020 Definitions. As used in this chapter, unless the context clearly indicates otherwise:

(1) "Department" means the department of ecology.

(2) "Director" means director of the department of ecology.

(3) "Local government" means county or city government or any combination of the two.

(4) "Noise" means the intensity, duration and character of sounds from any and all sources.

(5) "Person" means any individual, corporation, partnership, association, governmental body, state, or other entity whatsoever. [1974 ex.s. c 183 § 2.]
70.107.030 Powers and duties of department. The department is empowered as follows:

(1) The department, after consultation with state agencies expressing an interest therein, shall adopt, by rule, maximum noise levels permissible in identified environments in order to protect against adverse affects of noise on the health, safety and welfare of the people, the value of property, and the quality of environment. PROVIDED, That in so doing the department shall take also into account the economic and practical benefits to be derived from the use of various products in each such environment, whether the source of the noise or the use of such products in each environment is permanent or temporary in nature, and the state of technology relative to the control of noise generated by all such sources of the noise or the products.

(2) At any time after the adoption of maximum noise levels under subsection (1) of this section the department shall, in consultation with state agencies and local governments expressing an interest therein, adopt rules, consistent with the Federal Noise Control Act of 1972 (86 Stat. 1234; 42 U.S.C. Sec. 4901-4918 and 49 U.S.C. Sec. 1431), for noise abatement and control in the state designed to achieve compliance with the noise level adopted in subsection (1) of this section, including reasonable implementation schedules where appropriate, to insure that the maximum noise levels are not exceeded and that application of the best practicable noise control technology and practice is provided. These rules may include, but shall not be limited to:

(a) Performance standards setting allowable noise limits for the operation of products which produce noise;

(b) Use standards regulating, as to time and place, the operation of individual products which produce noise above specified levels considering frequency spectrum and duration: PROVIDED, The rules shall provide for temporarily exceeding those standards for stated purposes; and

(c) Public information requirements dealing with disclosure of levels and characteristics of noise produced by products.

(3) The department may, as desirable in the performance of its duties under this chapter, conduct surveys, studies and public education programs, and enter into contracts.

(4) The department is authorized to apply for and accept moneys from the federal government and other sources to assist in the implementation of this chapter.

(5) The legislature recognizes that the operation of motor vehicles on public highways as defined in RCW 46.09.310 contributes significantly to environmental noise levels and directs the department, in exercising the rule-making authority under the provisions of this section, to give first priority to the adoption of motor vehicle noise performance standards.

(6) Noise levels and rules adopted by the department pursuant to this chapter shall not be effective prior to March 31, 1975. [2011 c 171 § 107; 1974 ex.s. c 183 § 3.]

70.107.040 Technical advisory committee. The director shall name a technical advisory committee to assist the department in the implementation of this chapter. Committee members shall be entitled to reimbursement for travel expenses as provided in RCW 43.03.050 and 43.03.060, as now existing or hereafter amended. [1975-’76 2nd ex.s. c 34 § 164; 1974 ex.s. c 183 § 4.]
ance. Particular attention shall be given to stationary sources located near jurisdictional boundaries, and temporary noise producing operations which may operate across one or more jurisdictional boundaries.

(4) In carrying out the rule-making authority provided in this chapter, the department shall follow the procedures of the administrative procedure act, chapter 34.05 RCW, and shall take care that no rules adopted purport to exercise any powers preempted by the United States under federal law. [1987 c 103 § 1; 1974 ex.s. c 183 § 6.]

70.107.070 Rules relating to motor vehicles—Violations—Penalty. Any rule adopted under this chapter relating to the operation of motor vehicles on public highways shall be administered according to testing and inspection procedures adopted by rule by the state patrol. Violation of any motor vehicle performance standard adopted pursuant to this chapter shall be a misdemeanor, enforced by such authorities and in such manner as violations of chapter 46.37 RCW. Violations subject to the provisions of this section shall be exempt from the provisions of RCW 70.107.050. [1987 c 330 § 749; 1974 ex.s. c 183 § 7.]

70.107.080 Exemptions. The department shall, in the exercise of rule-making power under this chapter, provide exemptions or specially limited regulations relating to recreational shooting and emergency or law enforcement equipment where appropriate in the interests of public safety.

The department in the development of rules under this chapter, shall consult and take into consideration the land use policies and programs of local government. [1974 ex.s. c 183 § 8.]

70.107.900 Construction—Severability—1974 ex.s. c 183. (1) This chapter shall be liberally construed to carry out its broad purposes.

(2) If any provision of this chapter, or its application to any person or circumstance is held invalid, the remainder of the chapter, or the application of the provision to other persons or circumstances is not affected. [1974 ex.s. c 183 § 11.]

70.107.910 Short title. This chapter shall be known and may be cited as the "Noise Control Act of 1974". [1974 ex.s. c 183 § 12.]

"This act" [1971 ex.s. c 302] consists of this chapter, the 1971 amendments to RCW 9.40.110-9.40.130, 9.41.010, 9.41.070, 26.44.050, 70.74.135, 70.74.270, 70.74.280, and the enactment of RCW 9.27.015 and 9.91.110.

70.108.010 Legislative declaration. The legislature hereby declares it to be the public interest, and for the protection of the health, welfare and property of the residents of the state of Washington to provide for the orderly and lawful conduct of outdoor music festivals by assuring that proper sanitary, health, fire, safety, and police measures are provided and maintained. This invocation of the police power is prompted by and based upon prior experience with outdoor music festivals where the enforcement of the existing laws and regulations on dangerous and narcotic drugs, indecent exposure, intoxicating liquor, and sanitation has been rendered most difficult by the flagrant violations thereof by a large number of festival patrons. [1971 ex.s. c 302 § 19.]

After the applicant has filed corrections and the issuing authority has thereafter again denied the permit, the applicant may within five days after receipt of such second denial seek judicial review of such denial by filing a petition in the superior court for the county of the issuing authority. The review shall take precedence over all other civil actions and shall be conducted by the court without a jury.
