43.43.964 State fire service mobilization—Development of reimbursement procedures. The Washington state patrol in consultation with the office of financial management and the Washington military department shall develop procedures to facilitate reimbursement to state agencies and jurisdictions from appropriate federal and state funds when state agencies and jurisdictions are mobilized by the chief under the Washington state fire service mobilization plan. The Washington state patrol shall ensure that these procedures provide reimbursement to the host jurisdiction in as timely a manner as possible. [2003 1st sp.s. c 7 § 48; 1997 c 49 § 11; 1992 c 117 § 12. Formerly RCW 38.54.040.]

Reviser's note: This section was amended by 2010 1st sp.s. c 7 § 48, 2010 1st sp.s. c 38 § 2; 1997 c 49 § 11; 1992 c 117 § 12. Formerly RCW 38.54.040.

Effective date—2010 1st sp.s. c 26; 2010 1st sp.s. c 7: See note following RCW 43.03.027.

43.43.965 State fire service mobilization—Plan use for purposes other than fire suppression—Annual report. The chief of the Washington state patrol must report on an annual basis the following information for each emergency or disaster in which the Washington state fire service mobilization plan was used for purposes other than fire suppression, and reimbursement was made under RCW 43.43.961:

(1) The type and nature of the disaster or emergency;

(2) The reasons why the host jurisdiction and mutual aid resources were exhausted;

(3) The additional risk resources provided under the mobilization plan;

(4) The cost incurred by the state patrol;

(5) The amount of reimbursement made under RCW 43.43.961 to the host jurisdiction and to each nonhost jurisdiction providing all risk resources; and

(6) An assessment and any recommendations of actions that can be taken by the host jurisdiction and its mutual aid network to prevent future use of the fire mobilization plan for similar disasters or emergencies. [2015 c 181 § 4.]

Intent—2015 c 181: "The legislature recognizes the vital role that our state's fire service personnel play in responding not just to fires but to disasters of varying types and kinds. The legislature further recognizes that the fire service mobilization plan may be a more effective tool for use in all emergencies and disasters to which fire departments, fire districts, and regional fire protection service authorities typically respond. It is the intent of the legislature that state fire service mobilization be allowed in all incidents to which fire departments, fire districts, and regional fire protection service authorities typically respond, so long as the mobilization meets the requirements identified in the Washington state fire service mobilization plan. It is the intent of the legislature to review the use of the fire mobilization plan for emergencies and disasters other than fire suppression to determine if this policy should continue or be modified." [2015 c 181 § 1.]

Legislative declaration and intent—2003 c 405: "(1) Because of the possibility of a disaster of unprecedented size and destruction, including acts of domestic terrorism and civil unrest, that requires law enforcement response for the protection of persons or property and preservation of the peace, the need exists to ensure that the state is adequately prepared to respond to such an incident. There is a need to (a) establish a mechanism and a procedure to provide for reimbursement to law enforcement agencies that
respond to help others in time of need, and to host law enforcement agencies that experience expenses beyond the resources of the agencies; and (b) generally to protect the public safety, peace, health, lives, and property of the people of Washington.

(2) It is hereby declared necessary to:

(a) Provide the policy and organizational structure for large-scale mobilization of law enforcement resources in the state, using the incident command system, through creation of the Washington state law enforcement mobilization plan;

(b) Confer upon the chief of the Washington state patrol the powers provided in this chapter;

(1) The state law enforcement mobilization policy board shall be established by the chief and shall have representatives from each of the regions established in RCW 43.43.974. In carrying out its duty, the board shall consult with and solicit recommendations from representatives of the state and local law enforcement and emergency management organizations, and regional law enforcement mobilization committees.

(3) The chief shall review the Washington state law enforcement mobilization plan, as submitted by the board, recommend changes as necessary, and may approve the plan. The plan shall be consistent with the Washington state comprehensive emergency management plan. The chief may recommend the plan for inclusion within the state comprehensive emergency management plan established under chapter 38.52 RCW. [2003 c 405 § 7.]

43.43.972 Law enforcement mobilization—Local law enforcement request for mobilization—State law enforcement resource coordinator—Mobilization response—Declaration of end of mobilization. (1) Local law enforcement may request mobilization only in response to an emergency or disaster exceeding the capabilities of available local resources and those available through existing mutual aid agreements. Upon finding that the local jurisdiction has exhausted all available resources, it is the responsibility of the chief to determine whether mobilization is the appropriate response to the emergency or disaster and, if so, to mobilize jurisdictions under the Washington state law enforcement mobilization plan.

(2) Upon mobilization, the chief shall appoint a state law enforcement resource coordinator, and an alternate, who shall serve jointly with the chief law enforcement officer from the host agency to command the mobilization effort consistent with incident command system procedures.

(3) Upon mobilization, all law enforcement resources including those of the host agency and those that responded earlier under an existing mutual aid or other agreement shall be mobilized. (4) For the duration of the mobilization:

(a) Host agency resources shall become state law enforcement mobilization resources, under the command of the state law enforcement resource coordinator and the chief law enforcement officer from the host agency, consistent with the state law enforcement mobilization plan and incident command system procedures; and

(b) All law enforcement authorities providing resources in response to a mobilization declaration shall be eligible for expense reimbursement as provided by this chapter.

(5) The chief, in consultation with the regional law enforcement resource coordinator, shall determine when mobilization is no longer required and shall then declare the end to the mobilization. [2003 c 405 § 8.]

43.43.973 State law enforcement coordination—State law enforcement coordinator—Duties. (1) The state law enforcement resource coordinator, or alternate, shall serve in that capacity for the duration of the mobilization.

(2) The duties of the coordinator are to:

(a) Coordinate the mobilization of law enforcement and other support resources within a region;

(b) Be primarily responsible for the coordination of resources in conjunction with the regional law enforcement mobilization committees, in the case of incidents involving more than one region or when resources from more than one region must be mobilized; and

(c) Advise and consult with the chief regarding what resources are required in response to the emergency or disaster and in regard to when the mobilization should end. [2003 c 405 § 9.]

43.43.974 State law enforcement mobilization—Regions established—Regional law enforcement mobilization committees—Regional law enforcement mobilization plans. (2019 Ed.)
(2) Within each of the regions there is created a regional law enforcement mobilization committee. The committees shall consist of the sheriff of each county in the region, the district commander of the Washington state patrol from the region, a number of police chiefs within the region equivalent to the number of counties within the region plus one, and the director of the counties’ emergency management office. The police chief members of each regional committee must include the chiefs of police of each city of ninety-five thousand or more population, and the number of members of the committee shall be increased if necessary to accommodate such chiefs. Members of each regional mobilization committee shall select a chair, who shall have authority to implement the regional plan, and a secretary as officers. Members serving on the regional mobilization committees shall not be eligible for reimbursement for meeting-related expenses from the state.

(3) The regional mobilization committees shall work with the relevant local government entities to facilitate development of intergovernmental agreements if any such agreements are required to implement a regional law enforcement mobilization plan.

(4) Regional mobilization committees shall develop regional law enforcement mobilization plans that include provisions for organized law enforcement agencies to respond across municipal, county, or regional boundaries. Each regional mobilization plan shall be consistent with the incident command system, the Washington state law enforcement mobilization plan, and regional response plans adopted prior to July 27, 2003.

(5) Each regional plan adopted under subsection (4) of this section shall be approved by the state law enforcement mobilization policy board before implementation. [2003 c 405 § 10.]

43.46.100 Creative districts—Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Commission" means the Washington state arts commission.

(2) "Coordinator" means the employee of the Washington state arts commission who is responsible for performing the specific tasks under RCW 43.46.115.

(3) "Creative district" means a land area designated by a local government in accordance with RCW 43.46.105 that contains either a hub of cultural facilities, creative industries, or arts-related businesses, or multiple vacant properties in close proximity that would be suitable for redevelopment as a creative district.

(4) "Local government" means a city, county, or town.

(5) "State-certified creative district" means a creative district whose application for certification has been approved by the commission. [2017 c 240 § 2.]

Findings—Intent—2017 c 240: "(1) The legislature finds that:

(a) A creative district is a designated, geographical, mixed-use area of a community in which a high concentration of cultural facilities, creative businesses, or arts-related businesses serve as a collective anchor of public attraction;

(b) In certain cases, multiple vacant properties in close proximity may exist within a community that would be suitable for redevelopment as a creative district;

(c) Creative districts are a highly adaptable economic development tool that is able to take a community's unique conditions, assets, needs, and opportunities into account and thereby address the needs of large, small, rural, and urban areas;

(d) Creative districts may be home to both nonprofit and for-profit creative industries and organizations;

(e) The arts and culture transcend boundaries of race, age, gender, language, and social status; and

(f) Creative districts promote and improve communities in particular and the state more generally in many ways. Specifically, such districts:

(i) Attract artists and creative entrepreneurs to a community and thereby infuse the community with energy and innovation and enhance the economic and civic capital of the community;

(ii) Create a hub of economic activity that helps an area become an appealing place to live, visit, and conduct business, complements adjacent businesses, creates new economic opportunities and jobs in both the cultural sector and other local industries, and attracts new businesses and assists in the recruitment of employees;

(iii) Establish marketable tourism assets that highlight the distinct identity of communities, attract in-state, out-of-state, and international visitors, and become especially attractive destinations for cultural, recreational, and business travelers;

(iv) Revitalize and beautify neighborhoods, cities, and larger regions, reverse urban decay, promote the preservation of historic buildings, and facilitate a healthy mixture of business and residential activity that contributes to reduced vacancy rates and enhanced property values;

(v) Provide a focal point for celebrating and strengthening a community's unique cultural identity, providing communities with opportunities to highlight existing cultural amenities as well as mechanisms to recruit and establish new artists, creative industries, and organizations;

(vi) Provide artists with a creative area in which they can live and work, with living spaces that enable them to work in artistic fields and find affordable housing close to their place of employment; and

(vii) Enhance property values. Successful creative districts combine improvements to public spaces such as parks, waterfronts, and pedestrian corridors, alongside property development. The redevelopment of abandoned properties and historic sites and recruiting businesses to occupy vacant spaces can also contribute to reduced vacancy rates and enhanced property values."

(2) It is the intent of the legislature that the state provide leadership, technical support, and the infrastructure to local communities desirous of creating their own creative districts by, among other things, certifying districts, offering available incentives to encourage business development, exploring new incentives that are directly related to creative enterprises, facilitating local access to state assistance, enhancing the visibility of creative districts, providing technical assistance and planning help, ensuring broad and equitable program benefits, and fostering a supportive climate for the arts and culture, thereby contributing to the development of healthy communities across the state and improving the quality of life of the state's residents." [2017 c 240 § 1.]

Each such agency shall be a municipal corporation of the state of Washington with the right to sue and be sued in its own name.

Application for the formation of an operating agency shall be made to the director of the department of ecology (herein sometimes referred to as the director) after the adoption of a resolution by the legislative body of each city or public utility district to be initial members thereof authorizing said city or district to participate. Such application shall set forth (1) the name and address of each participant, together with a certified copy of the resolution authorizing its participation; (2) a general description of the project and the principal project works, including dams, reservoirs, power houses and transmission lines; (3) the general location of the project and, if a hydroelectric project, the name of the stream on which such proposed project is to be located; (4) if the project is for the generation of electricity, the proposed use or market for the power to be developed; (5) a general statement of the electric loads and resources of each of the participants; (6) a statement of the proposed method of financing the preliminary engineering and other studies and the participation therein by each of the participants.

Within ten days after such application is filed with the director of the department of ecology notice thereof shall be published by the director once a week for four consecutive weeks in a newspaper of general circulation in the county or counties in which such project is to be located, setting forth the names of the participants and the general nature, extent and location of the project. Any public utility wishing to do so may object to such application by filing an objection, setting forth the reasons therefor, with the director of the department of ecology not later than ten days after the date of last publication of such notice.

Within ninety days after the date of last publication the director shall either make findings thereon or have instituted a hearing thereon. In the event the director has neither made findings nor instituted a hearing within ninety days of the date of last publication, or if such hearing is instituted within such time but no findings are made within one hundred and twenty days of the date of such last publication, the application shall be deemed to have been approved and the operating agency established. If it shall appear (a) that the statements set forth in said application are substantially correct; (b) that the contemplated project is such as is adaptable to the needs, both actual and prospective, of the participants and such other public utilities as indicate a good faith intention by contract or by letter of intent to participate in the use of such project; (c) that no objection to the formation of such operating
agency has been filed by any other public utility which prior
to and at the time of the filing of the application for such
operating agency had on file a permit or license from an
agency of the state or an agency of the United States, whi-
ever has primary jurisdiction, for the construction of such
project; (d) that adequate provision will be made for financ-
ing the preliminary engineering, legal and other costs neces-
sary thereto; the director shall make findings to that effect
and enter an order creating such operating agency, establish-
ing the name thereof and the specific project for the construc-
tion and operation for which such operating agency is
formed. Such order shall not be construed to constitute a bar
to any other public utility proceeding according to law to pro-
cure any required governmental permits, licenses or author-
ity, but such order shall establish the competency of the oper-
ating agency to proceed according to law to procure such per-
mits, licenses or authority.

No operating agency shall undertake projects or conser-
vation activities in addition to those for which it was formed
without the approval of the legislative bodies of a majority of
the members thereof. Prior to undertaking any new project
for acquisition of an energy resource, a joint operating
agency shall prepare a plan which details a least-cost
approach for investment in energy resources. The plan shall
include an analysis of the costs of developing conservation
comparing with costs of developing other energy resources
and a strategy for implementation of the plan. The plan shall
be presented to the energy and utilities committees of the sen-
ate and house of representatives for their review and com-
ment. In the event that an operating agency desires to under-
take such a hydroelectric project at a site or sites upon which
any publicly or privately owned public utility has a license or
permit or has a prior application for a license or permit pend-
ing with any commission or agency, state or federal, having
jurisdiction thereof, application to construct such additional
project shall be made to the director of the department of
ecology in the same manner, subject to the same require-
ments and with the same notice as required for an initial
agency and project and shall not be constructed until an order
authorizing the same shall have been made by the director in
the manner provided for such original application.

Any party who has joined in filing the application for, or
objections against, the creation of such operating agency
and/or the construction of an additional project, and who
feels aggrieved by any order or finding of the director shall
have the right to appeal to the superior court in the manner set
forth in RCW 43.52.430.

After the formation of an operating agency, any other
city or district may become a member thereof upon applica-
tion to such agency after the adoption of a resolution of its
legislative body authorizing said city or district to participate,
and with the consent of the operating agency by the affirm-
ative vote of the majority of its members. Any member may
withdraw from an operating agency, and thereupon such
member shall forfeit any and all rights or interest which it
may have in such operating agency or in any of the assets
thereof: PROVIDED, That all contractual obligations
incurred while a member shall remain in full force and effect.
An operating agency may be dissolved by the unanimous
agreement of the members, and the members, after making
provisions for the payment of all debts and obligations, shall
thereupon hold the assets thereof as tenants in common.

43.52.370 Operating agency board of directors—
Members, appointment, vote, term, etc.—Rules—Pro-
cedings—Limitation on powers and duties. (1) Except as
provided in subsection (2) of this section, the management
and control of an operating agency shall be vested in a board
of directors, herein sometimes referred to as the board. The
legislative body of each member of an operating agency shall
appoint a representative who may, at the discretion of the
member and regardless of any charter or other provision to
the contrary, be an officer or employee of the member, to
serve on the board of the operating agency. Each representa-
tive shall have one vote and shall have, in addition thereto,
one vote for each block of electric energy equal to ten percent
of the total energy generated by the agency during the prece-
ding year purchased by the member represented by such repre-
sentative. Each member may appoint an alternative represen-
tative to serve in the absence or disability of its representa-
tive. Each representative shall serve at the pleasure of the
member. The board of an operating agency shall elect from
its members a president, vice president and secretary, who
shall serve at the pleasure of the board. The president and sec-
etary shall perform the same duties with respect to the oper-
ating agency as are provided by law for the president and sec-
etary, respectively, of public utility districts, and such other
duties as may be provided by motion, rule or resolution of the
board. The board of an operating agency shall adopt rules for
the conduct of its meetings and the carrying out of its busi-
ness, and adopt an official seal. All proceedings of an operat-
ing agency shall be by motion or resolution and shall be
recorded in the minute book which shall be a public record. A
majority of the board members shall constitute a quorum for
the transaction of business. A majority of the votes which the
members present are entitled to cast shall be necessary and
sufficient to pass any motion or resolution: PROVIDED,
That such board members are entitled to cast a majority of the
votes of all members of the board. The members of the board
of an operating agency may be compensated by such agency
as is provided in RCW 43.52.290: PROVIDED, That the
compensation to any member shall not exceed five thousand
dollars in any year except for board members who are elected
to serve on an executive board established under RCW 43.52.374.

(2) If an operating agency is constructing, operating, ter-
minaling, or decommissioning a nuclear power plant under a
site certification agreement under chapter 80.50 RCW, the
powers and duties of the board of directors shall include and
are limited to the following:

(a) Final authority on any decision of the operating
agency to purchase, acquire, construct, terminate, or decom-
mission any power plants, works, and facilities except that
once the board of directors has made a final decision regard-
ing a nuclear power plant, the executive board established
under RCW 43.52.374 shall have the authority to make all
sections regarding the plant and any of its components;

(b) Election of members to, removal from, and establishment of salaries for the elected members of the executive board under RCW 43.52.374(1)(a); and

(c) Selection and appointment of three outside directors as provided in RCW 43.52.374(1)(b).

All other powers and duties of the operating agency, including without limitation authority for all actions subsequent to final decisions by the board of directors, including but not limited to the authority to sell any power plant, works, and facilities are vested in the executive board established under RCW 43.52.374. ### 43.52.374 Operating agency executive board—Members—Terms—Removal—Rules—Proceedings—Managing director—Civil immunities—Defense and indemnification.

1. With the exception of the powers and duties of the board of directors described in RCW 43.52.370(2), the management and control of an operating agency constructing, operating, terminating, or decommissioning a nuclear power plant under a site certification agreement under chapter 80.50 RCW is vested in an executive board established under this subsection and consisting of eleven members.

(a) Five members of the executive board shall be elected to four-year terms by the board of directors from among the members of the board of directors. The board of directors may provide by rule for the composition of the five members of the executive board elected from among the members of the board of directors so as to reflect the member public utility districts’ and cities’ participation in the joint operating agency’s projects. Members elected to the executive board from the board of directors are ineligible for continued membership on the executive board if they cease to be members of the board of directors. The board of directors may also provide by rule for the removal of a member of the executive board, except for the outside directors. Members of the board of directors may be elected to serve successive terms on the executive board. Members elected to the executive board from the board of directors shall receive a salary from the operating agency at a rate set by the board of directors.

(b) Six members of the executive board shall be outside directors. These shall be selected and appointed by the board of directors, and three shall be selected and appointed by the governor and confirmed by the senate. All outside directors shall:

(i) Serve four-year terms on the executive board. However, of the initial members of the executive board, the board of directors and the governor shall each appoint one outside director to serve a two-year term, one outside director to serve a three-year term, and one outside director to serve a four-year term. Thereafter, all outside directors shall be appointed for four-year terms. All outside directors are eligible for reappointment;

(ii) Receive travel expenses on the same basis as the five members elected from the board of directors. The outside directors shall also receive a salary from the operating agency as fixed by the governor;

(iii) Not be an officer or employee of, or in any way affiliated with, the Bonneville power administration or any electric utility conducting business in the states of Washington, Oregon, Idaho, or Montana;

(iv) Not be involved in the financial affairs of the operating agency as an underwriter or financial adviser of the operating agency or any of its members or any of the participants in any of the operating agency’s plants; and

(v) Be representative of policymakers in business, finance, or science, or have expertise in the construction or management of such facilities as the operating agency is constructing or operating, or have expertise in the termination, disposition, or liquidation of corporate assets.

(c) The governor may remove outside directors from the executive board for incompetency, misconduct, or malfeasance in office in the same manner as state appointive officers under chapter 43.06 RCW. For purposes of this subsection, misconduct shall include, but not be limited to, nonfeasance and misfeasance.

2. Nothing in this chapter shall be construed to mean that an operating agency is in any manner an agency of the state. Nothing in this chapter alters or destroys the status of an operating agency as a separate municipal corporation or makes the state liable in any way or to any extent for any pre-existing or future debt of the operating agency or any present or future claim against the agency.

3. The eleven members of the executive board shall be selected with the objective of establishing an executive board which has the resources to effectively carry out its responsibilities. All members of the executive board shall conduct their business in a manner which in their judgment is in the interest of all ratepayers affected by the joint operating agency and its projects.

4. The executive board shall elect from its members a chair, vice chair, and secretary, who shall serve at the pleasure of the executive board. The executive board shall adopt rules for the conduct of its meetings and the carrying out of its business. All proceedings shall be by motion or resolution and shall be recorded in the minute book, which shall be a public record. A majority of the executive board shall constitute a quorum for the transaction of business.

5. With respect to any operating agency existing on April 20, 1982, to which the provisions of this section are applicable:

(a) The board of directors shall elect five members to the executive board no later than sixty days after April 20, 1982; and

(b) The board of directors and the governor shall select and appoint the initial outside directors and the executive board shall hold its organizational meeting no later than sixty days after April 20, 1982, and the powers and duties prescribed in this chapter shall devolve upon the executive board at that time.

6. The executive board shall select and employ a managing director of the operating agency and may delegate to the managing director such authority for the management and control of the operating agency as the executive board deems appropriate. The managing director’s employment is terminable at the will of the executive board.

7. Members of the executive board shall be immune from civil liability for mistakes and errors of judgment in the
good faith performance of acts within the scope of their official duties involving the exercise of judgment and discretion. This grant of immunity shall not be construed as modifying the liability of the operating agency.

The operating agency shall undertake the defense of and indemnify each executive board member made a party to any civil proceeding including any threatened, pending, or completed action, suit, or proceeding, whether civil, administrative, or investigative, by reason of the fact he or she is or was a member of the executive board, against judgments, penalties, fines, settlements, and reasonable expenses, actually incurred by him or her in connection with such proceeding if he or she had conducted himself or herself in good faith and reasonably believed his or her conduct to be in the best interest of the operating agency.

In addition members of the executive board who are utility employees shall not be fired, forced to resign, or demoted from their utility jobs for decisions they make while carrying out their duties as members of the executive board involving the exercise of judgment and discretion. [2009 c 549 § 5136; 1983 1st ex.s. c 3 § 3; 1982 1st ex.s. c 43 § 3; 1981 1st ex.s. c 3 § 2.]

When checks are to be used, the board shall designate the qualified public depository upon which the checks are to be drawn as well as the officers required or authorized to sign the checks. For the purposes of this chapter, "warrant" includes checks where authorized by this subsection. [2009 c 173 § 1; 1982 1st ex.s. c 43 § 7; 1981 1st ex.s. c 3 § 3; 1965 c 8 § 43.52.375. Members of the security force shall enroll in and successfully complete a training program approved by the criminal justice training commission which does not conflict with any requirements of the United States nuclear regulatory commission for the training of security personnel at nuclear power plants. All costs incurred by the criminal justice training commission in the preparation, delivery, or certification of the training programs shall be paid by the operating agency. [1981 c 301 § 1.]

43.52.525 **Security force—Criminal history record information.** An operating agency is authorized to obtain criminal history record information pursuant to RCW 10.97.050 for any member of an operating agency security force and for any applicant seeking employment as a member of an operating agency security force. [1981 c 301 § 2.]

[Title 43 RCW—page 364]
Members of an operating agency security force authorized under RCW 43.52.520 may use reasonable force to detain, search, or remove persons who enter or remain without permission within the nuclear power plant site exclusion area or whenever, upon probable cause, it appears to a member of the security force that a person has committed or is attempting to commit a crime. Should any person be detained, the security force shall immediately notify the law enforcement agency, having jurisdiction over the nuclear power plant site, of the detainment. The security force is authorized to detain the person for a reasonable time until custody can be transferred to a law enforcement officer. Members of a security force may use that force necessary in the protection of persons and properties located within the confines of the nuclear power plant site exclusion area.

(2) An operating agency may adopt and enforce rules controlling the speed, operation, and location of vehicles on property owned or occupied by the operating agency. Such rules shall be conspicuously posted and persons violating the rules may be expelled or detained.

(3) The rights granted in subsection (1) of this section are in addition to any others that may exist by law including, but not limited to, the rights granted in RCW 9A.16.020(4). [1981 c 301 § 3.]

43.52.535 Security force—Membership in retirement system authorized. Members of the operating agency security force shall be members of the retirement system under chapter 41.40 RCW. [1981 c 301 § 4.]

43.52.550 Plans for repayment of operating agency obligations maturing prior to planned operation of plant. Any municipal corporation, cooperative or mutual which has entered into a contract with an operating agency to participate in the construction or acquisition of an energy plant as defined in chapter 80.50 RCW shall annually adopt a plan for the repayment of its contractual share of any operating agency obligation which matures prior to the planned operation of the plant. The manner of adoption of the plan shall be subject to the laws regarding approval of rates of the municipal corporation, cooperative or mutual.

The plan shall include the effect of the means of repayment on its financial condition, its customers' rates, its other contractual rights and obligations, and any other matter deemed useful by the participant.

Each such participating municipal corporation, cooperative or mutual shall include a statement of the extent of its contractual obligation to any operating agency in an annual financial report. [1981 1st ex.s. c 1 § 4.]

43.52.560 Contracts for materials or work required—Sealed bids. Except as provided otherwise in this chapter, a joint operating agency shall purchase any item or items of materials, equipment, or supplies, the estimated cost of which is more than fifteen thousand dollars exclusive of sales tax, or order work for construction of generating projects and associated facilities, the estimated cost of which is more than twenty-five thousand dollars exclusive of sales tax, by contract in accordance with RCW 54.04.070 and 54.04.080, which require sealed bids for contracts. [2015 c 73 § 1; 2004 c 189 § 1; 1998 c 245 § 69; 1987 c 376 § 1.]

43.52.565 Contracts for materials or work through competitive negotiation—Nuclear generating projects and associated facilities. (1) An operating agency may enter into contracts through competitive negotiation under subsection (2) of this section for materials, equipment, supplies, or work to be performed during commercial operation of a nuclear generating project and associated facilities (a) to replace a defaulted contract or a contract terminated in whole or in part, or (b) where consideration of factors in addition to price, such as technical knowledge, experience, management, staff, or schedule, is necessary to achieve economical operation of the project, provided that the managing director or a designee determines in writing and the executive board finds that execution of a contract under this section will accomplish project completion or operation more economically than sealed bids.

(2) The selection of a contractor shall be made in accordance with the following procedures:

(a) Proposals shall be solicited through a request for proposals, which shall state the requirements to be met. Responses shall describe the professional competence of the offeror, the technical merits of the offer, and the price.

(b) The request for proposals shall be given adequate public notice in the same manner as for sealed bids.

(c) As provided in the request for proposals, the operating agency shall specify at a preproposal conference the contract requirements in the request for proposal, which may include but are not limited to: Schedule, managerial, and staffing requirements, productivity and production levels, technical expertise, approved project quality assurance procedures, and time and place for submission of proposals. Any inquiries and responses thereto shall be confirmed in writing and shall be sent to all potential offerors.

(d) Proposals shall be opened so as to avoid disclosure of contents to competing offerors during the process of negotiation. A register of proposals shall be open for public inspection after contract award.

(e) As provided in the request for proposals, invitations shall be sent to all responsible offerors who submit proposals to attend discussions for the purpose of clarification to assure full understanding of, and responsiveness to, the solicitation requirements. Any inquiries and responses thereto shall be confirmed in writing and shall be sent to all offerors. Offerors shall be accorded fair and equal treatment with respect to any opportunity for discussion and revision of proposals, and such revisions may be permitted after submissions and prior to award for the purpose of obtaining best and final offers. In conducting discussions, there shall be no disclosure of any information derived from proposals submitted by competing offerors.

(f) The operating agency shall execute a contract with the responsible offeror whose proposal is determined in writing to be the most advantageous to the operating agency and the state taking into consideration the requirements set forth in the request for proposals. The contract file shall contain the basis on which the successful offeror is selected. The operat
43.52.567 Contracts for materials or work through competitive negotiation—Renewable electrical energy generation projects. (1) A joint operating agency with an executive board formed under RCW 43.52.374 may enter into contracts through competitive negotiation under subsection (3) of this section for materials, equipment, supplies, or work to be performed in support of siting, constructing, developing, or deploying a renewable electrical energy generation project, if the managing director or a designee determines in writing and the executive board finds that execution of a contract under this section will accomplish project completion or operation more economically than sealed bids.

(2) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Professional competence" means the totality of demonstrated experience, knowledge, skills, proficiency, and abilities required to successfully perform the contract.

(b) "Qualified hydropower" means the energy produced either: (i) As a result of modernizations or upgrades made after June 1, 1998, to hydropower facilities operating on May 8, 2001, that have been demonstrated to reduce the mortality of anadromous fish; or (ii) by run of the river or run of the canal hydropower facilities that are not responsible for obstructing the passage of anadromous fish.

(c) "Renewable electrical energy generation project" means electrical generation facilities that are fueled by: (i) Wind; (ii) solar energy; (iii) geothermal energy; (iv) landfill gas; (v) wave or tidal action; (vi) gas produced during the treatment of wastewater; (vii) qualified hydropower; or (viii) biomass energy based on animal waste or solid organic fuels from wood, forest, or field residues, or dedicated energy crops that do not include wood pieces that have been treated with chemical preservatives such as creosote, pentachlorophenol, or copper-chrome-arsenic.

(d) "Responsible offerors" means offerors who possess necessary management and financial resources, experience, organization, and the ability, capacity, and skill to successfully perform the contract.

(3) The selection of a contractor shall be made in an open public meeting, as part of a public record, and in accordance with the following procedures:

(a) Proposals shall be solicited through a request for proposals, which shall state the requirements to be met. Responses shall describe the professional competence of the offeror, the technical merits of the offer, and the price.

(b) The request for proposals shall be given adequate public notice in the same manner as for sealed bids.

(c) As provided in the request for proposals, the joint operating agency shall specify at a preproposal conference specific contract requirements, which may include but are not limited to: Schedule, managerial, and staffing requirements, productivity and production levels, technical expertise, approved project quality assurance procedures, and time and place for submission of proposals. Any inquiries and responses thereto shall be confirmed in writing and shall be sent to all potential offerors.

(d) Proposals shall be opened so as to avoid disclosure of contents to competing offerors during the process of negotiation. A register of proposals shall be open for public inspection after contract award.

(e) As provided in the request for proposals, invitations shall be sent to all responsible offerors who submit proposals to attend discussions for the purpose of clarification to assure full understanding of, and responsiveness to, the solicitation requirements. Any inquiries and responses thereto shall be confirmed in writing and shall be sent to all offerors. Offerors shall be accorded fair and equal treatment with respect to any opportunity for discussion and revision of proposals, and such revisions may be permitted after submissions and prior to award for the purpose of obtaining best and final offers. In conducting discussions, there shall be no disclosure of any information derived from proposals submitted by competing offerors.

(f) The joint operating agency shall execute a contract with the responsible offeror whose proposal is determined in writing to be the most advantageous to the joint operating agency and the state taking into consideration the requirements set forth in the request for proposals. The contract file shall contain the basis on which the successful offeror is selected. The joint operating agency shall conduct a briefing conference on the selection if requested by an offeror.

(g) The contract may be fixed price or cost-reimbursable, in whole or in part, but not cost-plus-percentage-of-cost.

(h) The joint operating agency shall retain authority and responsibility for inspection, testing, and compliance with applicable regulations or standards of any state or federal governmental agency. [2006 c 176 § 1.]

43.52.570 Purchase of materials by telephone or written quotation authorized—Procedure. For the awarding of a contract to purchase any item or items of materials, equipment, or supplies in an amount exceeding five thousand dollars but less than seventy-five thousand dollars, exclusive of sales tax, the managing director or a designee may, in lieu of sealed bids, secure telephone and/or written quotations from at least five vendors, where practical, and award contracts for purchase of materials, equipment, or supplies to the lowest responsible bidder. The agency shall establish a procurement roster, which shall consist of suppliers and manufacturers who may supply materials or equipment to the operating agency, and shall provide for solicitations which will equitably distribute opportunity for bids among suppliers and manufacturers on the roster. Immediately after the award is made, the bid quotations obtained shall be recorded and shall be posted or otherwise made available for public inspection and copying pursuant to chapter 42.56 RCW at the office of the operating agency or any other officially designated location. Waiver of the deposit or bid bond required for sealed bids may be authorized by the operating agency in securing the bid quotations. [2005 c 274 § 299; 1987 c 376 § 3.]
43.52.575 Purchase of materials without competition authorized. When the managing director or a designee determines in writing that it is impracticable to secure competition for required materials, equipment, or supplies, he or she may purchase the materials, equipment, or supplies without competition. The term "impracticable to secure competition" means:

(1) When material, equipment, or supplies can be obtained from only one person or firm (single source of supply); or

(2) When specially designed parts or components are being procured as replacement parts in support of equipment specially designed by the manufacturer. [1987 c 376 § 4.]

43.52.580 Emergency purchase of materials or work by contract. When the managing director or a designee determines in writing that an emergency endangers the public safety or threatens property damage or that serious financial injury would result if materials, supplies, equipment, or work are not obtained by a certain time, and they cannot be contracted for by that time by means of sealed bids, the managing director or a designee may purchase materials, equipment, or supplies or may order work by contract in any amount necessary, after having taken precautions to secure a responsive proposal at the lowest price practicable under the circumstances.

For the purposes of this section the term "serious financial injury" means that the costs attributable to the delay caused by contracting by sealed bids exceed the cost of materials, supplies, equipment, or work to be obtained. [1987 c 376 § 5.]

43.52.585 Procedures for implementing RCW 43.52.560 through 43.52.580. The executive board shall establish procedures for implementing RCW 43.52.560 through 43.52.580 by operating agency resolution after notice, public hearing, and opportunity for public comment. The procedures shall be established within six months after July 26, 1987. [1987 c 376 § 6.]

43.52.590 Construction of RCW 43.52.560 through 43.52.585. Nothing in RCW 43.52.560 through 43.52.585 requires reapplication by a joint operating agency in existence on July 26, 1987. [1987 c 376 § 7.]

43.52.595 Contracts for electric power and energy. A city or district may contract to purchase from an operating agency electric power and energy required for its present or future requirements. For projects the output of which is limited to qualified alternative energy resources as defined by RCW 19.29A.090(3), the contract may include the purchase of capability of the projects to produce electricity in addition to the actual output of the projects. The contract may provide that the city or district must make the payments required by the contract whether or not a project is completed, operable, or operating and notwithstanding the suspension, interruption, interference, reduction, or curtailment of the output of a project or the power and energy contracted for. The contract may also provide that payments under the contract are not subject to reduction, whether by offset or otherwise, and shall not be conditioned upon the performance or nonperformance of the operating agency or a city or district under the contract or other instrument. [2003 c 138 § 1.]

43.52.612 Contract bid form. A joint operating agency shall require that bids upon any construction or improvement of any nuclear generating project and associated facilities shall be made upon the contract bid form supplied by the operating agency, and in no other manner. The operating agency may, before furnishing any person, firm, or corporation desiring to bid upon any work with a contract bid form, require from the person, firm, or corporation, answers to questions contained in a standard form of questionnaire and financial statement, including a complete statement of the financial ability and experience of the person, firm, or corporation in performing work. The questionnaire shall be sworn to before a notary public or other person authorized to take acknowledgment of deeds and shall be submitted once a year or at such other times as the operating agency may require. Whenever the operating agency is not satisfied with the sufficiency of the answers contained in the questionnaire and financial statement or whenever the operating agency determines that the person, firm, or corporation does not meet all of the requirements set forth in this section, it may refuse to furnish the person, firm, or corporation with a contract bid form and any bid of the person, firm, or corporation must be disregarded. The operating agency shall require that a person, firm, or corporation have all of the following requirements in order to obtain a contract form:

(1) Adequate financial resources, the ability to secure these resources, or the capability to secure a one hundred percent payment and performance bond;

(2) The necessary experience, organization, and technical qualifications to perform the proposed contract;

(3) The ability to comply with the required performance schedule taking into consideration all of its existing business commitments;

(4) A satisfactory record of performance, integrity, judgment, and skills; and

(5) Be otherwise qualified and eligible to receive an award under applicable laws and regulations.

The refusal shall be conclusive unless appealed to the superior court of the county where the operating agency is situated or Thurston county within fifteen days, which appeal shall be heard summarily within ten days after the appeal is made and on five days' notice thereof to the operating agency.

The prevailing party in such litigation shall be awarded its attorney fees and costs.

The operating agency shall not be required to make available for public inspection or copying under chapter 42.56 RCW financial information provided under this section. [2005 c 274 § 300; 1982 1st ex.s. c 44 § 5.]

43.58.060 Oregon-Washington Columbia River
boundary compact—Terms and provisions. The terms
and provisions of the compact referred to in RCW 43.58.050
are as follows:

INTERSTATE COMPACT DETERMINING
OREGON-WASHINGTON BOUNDARY ON THE
COLUMBIA RIVER

ARTICLE I. PURPOSE

The boundary between the states of Oregon and Wash-
ington along the course of the Columbia River has not been
easy to ascertain because of changes in the main channel of
the river with a result that a state of confusion and dispute
exists and the enforcement and administration of the laws of
the two states has been rendered difficult.

The purpose of this compact is to fix with precision by
reference to stations of longitude and latitude the boundary
between the states of Oregon and Washington from one
marine league due west of the mouth of the Columbia River
to the most easterly point at which the 46th parallel of North
latitude crosses said river, at which point the river ceases to
form the boundary between the two states.

ARTICLE II. DESCRIPTION

The boundary between the states of Oregon and Wash-
ington from one marine league due west of the mouth of the
Columbia River to the point at which the last described point
number (# 191) of the boundary as herein determined meets
the 46th parallel of North latitude at 118° 59’10".12 of West
longitude shall be as follows:

Beginning one marine league at sea off the mouth of the
Columbia river at north latitude 46° 15’00".00; running
tence due east to point number 1 of this description, which
point is at north latitude 46° 15’00".00, west longitude 124°
05’00".00; thence from point number 1 continuing upstream
in the channel of the Columbia river by a series of straight
lines connecting the following numbered and described
points in consecutive order.

43.59.010 Purpose—Finding. (1) The purpose of this chapter is to establish a new agency of state government to be known as the Washington traffic safety commission. The functions and purpose of this commission shall be to find solutions to the problems that have been created as a result of the tremendous increase of motor vehicles on our highways and the attendant traffic death and accident tolls; to plan and supervise programs for the prevention of accidents on streets and highways including but not limited to educational campaigns designed to reduce traffic accidents in cooperation with all official and unofficial organizations interested in traffic safety; to coordinate the activities at the state and local level in the development of statewide and local traffic safety programs; to promote a uniform enforcement of traffic safety laws and establish standards for investigation and reporting of traffic accidents; to promote and improve driver education; and to authorize the governor to perform all functions required to be performed by him or her under the federal Highway Safety Act of 1966 (Public Law 89-564; 80 Stat. 731).

(2) The legislature finds and declares that bicycling and walking are becoming increasingly popular in Washington as clean and efficient modes of transportation, as recreational activities, and as organized sports. Future plans for the state's transportation system will require increased access and safety for bicycles and pedestrians on our common roadways, and federal transportation legislation and funding programs have created strong incentives to implement these changes quickly. As a result, many more people are likely to take up bicycling in Washington both as a leisure activity and as a convenient, inexpensive form of transportation. Bicyclists are more vulnerable to injury and accident than motorists, and should be as knowledgeable as possible about traffic laws, be highly visible and predictable when riding in traffic, and be encouraged to wear bicycle safety helmets. Hundreds of bicyclists and pedestrians are seriously injured every year in accidents, and millions of dollars are spent on health care costs associated with these accidents. There is clear evidence that organized training in the rules and techniques of safe and effective cycling can significantly reduce the incidence of serious injury and accidents, increase cooperation among road users, and significantly increase the incidence of bicycle helmet use, particularly among minors. A reduction in accidents benefits the entire community. Therefore it is appropriate for businesses and community organizations to provide donations to bicycle and pedestrian safety training programs. [2009 c 549 § 5141; 1998 c 165 § 2; 1967 ex.s. c 147 § 1.]

43.60A.080 Veterans affairs advisory committee—Created—Membership—Terms—Powers and duties. (1) There is hereby created a veterans affairs advisory committee which shall serve in an advisory capacity to the governor and the director of the department of veterans affairs. The committee shall appoint members to serve as liaisons to each of the state veterans' homes, unless the home has a representative appointed to the committee. This liaison must share information on committee meetings and business with the resident council of the state's veterans' homes, as well as bring information back for the committee's consideration to ensure veterans' home resident issues are included at regular committee meetings. The committee shall be composed of seventeen members to be appointed by the governor, and shall consist of the following:

If the resident council does not provide any nomination, the governor may appoint a member at large in place of the home's representative.

(b) One representative each from the three congressionally chartered or nationally recognized veterans service organizations as listed in the current "Directory of Veterans Service Organizations" published by the United States department of veterans affairs with the largest number of active members in the state of Washington as determined by the director. (d) Two members shall be veterans at large, as well as any other at large member appointed pursuant to (a) of this subsection. 43.60A.100 Counseling services—Veterans, including national guard and reservists. The department of veterans affairs, to the extent funds are made available, shall: (1) Contract with professional counseling specialists to provide a range of direct treatment services to state veterans, including national guard and reservists, with military-related mental health needs, and their family members; (2) provide additional treatment services to Washington state veterans for posttraumatic stress disorder, particularly for those veterans whose posttraumatic stress disorder has intensified or initially emerged due to war or combat-related stress; (3) provide an educational program designed to train primary care professionals, such as mental health professionals, about the effects of war-related stress, trauma, and traumatic brain injury; (4) provide informational and counseling services for the purpose of establishing and fostering peer-support networks throughout the state for families of deployed members of the reserves and the Washington national guard; (5) provide for veterans' families, a referral network of community mental health providers who are skilled in treating deployment stress, combat stress, posttraumatic stress, traumatic brain injury; and (6) offer training and support for volunteers interested in providing peer-to-peer support to other veterans. [2018 c 45 § 1. Prior: 2017 c 192 § 2; 2017 c 185 § 2; 1991 c 55 § 1.]

Findings—2017 c 192: "The legislature finds that:
(1) Veterans are national heroes who have made great sacrifices in their lives for the protection of our nation;
(2) Due to the relatively high number of military installations in our state, as well as the standard of living in our state, many veterans choose to live in Washington;
(3) Many veterans have a need for support services, including peer-to-peer counseling services. Some veterans need to talk about their experiences with combat, deployment, or other situations experienced during their time in the military. Often, there is no person better prepared to speak with a veteran about his or her experiences than another veteran;
(4) In 2009, the state of Texas created an award winning peer-to-peer counseling network, called the military veteran peer network. On a voluntary basis, veterans elect to receive specialized training about the facilitation of group counseling sessions. After receiving their training, the volunteers create peer-to-peer support groups in their local communities;
(5) Veterans living in Washington would benefit from a program that is similar to the military veteran peer network." [2017 c 192 § 1.]

Findings—2017 c 192: See note following RCW 43.41.460.

43.60A.101 Peer-to-peer support program—Report to the legislature. By December 31, 2018, the department of veterans affairs must submit a report to the legislature on the veteran peer-to-peer training and support program authorized in RCW 43.60A.100 to determine the effectiveness of the program in meeting the needs of veterans in the state. The report must include the number of veterans receiving peer-to-peer support and the location of such support services; the number of veterans trained through the program to provide peer-to-peer support; and the types of training and support services provided by the program. The report must also include an analysis of peer-to-peer training and support programs developed by other states, as well as in the private and nonprofit sectors, in order to evaluate best practices for implementing and managing the veteran peer-to-peer training and support program authorized in RCW 43.60A.100. [2017 c 192 § 5.]

Findings—2017 c 192: See notes following RCW 43.41.460 and 43.60A.100.

43.60A.110 Counseling—Coordination of programs. The department shall coordinate the programs contained in RCW 43.60A.100 with the services offered by the department of social and health services, local mental health organizations, and the federal department of veterans affairs to minimize duplication. [1991 c 55 § 2.]

43.60A.120 Counseling—Priority. The department of veterans affairs shall give priority in its counseling and instructional programs to treating state veterans located in rural areas of the state, especially those who are members of traditionally underserved minority groups, and women veterans. [1991 c 55 § 3.]

43.60A.130 Counseling—Posttraumatic stress disorder and combat stress program. The department of veterans affairs shall design its posttraumatic stress disorder and combat stress programs and related activities to provide veterans with as much privacy and confidentiality as possible and yet consistent with sound program management. [1991 c 55 § 4.]

43.60A.140 Veterans stewardship account. (1) The veterans stewardship account is created in the custody of the state treasurer. Disbursements of funds must be on the authorization of the director or the director’s designee, and only for the purposes stated in subsection (4) of this section. In order to maintain an effective expenditure and revenue control, funds are subject in all respects to chapter 43.88 RCW, but no appropriation is required to permit expenditure of the funds.

(2) The department may request and accept nondedicated contributions, grants, or gifts in cash or otherwise, including funds generated by the issuance of the armed forces license plate collection under chapter 46.18 RCW.

(3) All receipts from the sale of armed forces license plates and Purple Heart license plates as required under RCW 46.68.425(2) must be deposited into the veterans stewardship account.

(4) All moneys deposited into the veterans stewardship account must be used by the department for activities that benefit veterans or their families, including but not limited to,
providing programs and services for homeless veterans; establishing memorials honoring veterans; and maintaining a future state veterans’ cemetery. Funds from the account may not be used to supplant existing funds received by the department. For the 2019-2021 fiscal biennium, moneys deposited into the veterans stewardship account may be used for the department’s traumatic brain injury program. [2019 c 415 § 965; 2016 c 31 § 4; 2010 c 161 § 1106; 2008 c 183 § 3; 2005 c 216 § 4.]

Effective date—2019 c 415: See note following RCW 28B.20.476.

Effective date—2016 c 31: See note following RCW 46.18.280.

Effective date—Intent—Legislation to reconcile chapter 161, Laws of 2010 and other amendments made during the 2010 legislative session—2010 c 161: See notes following RCW 46.04.013.

43.60A.150 Veterans conservation corps—Created.
(1) The Washington veterans conservation corps is created. The department shall establish enrollment procedures for the program. Enrollees may choose to participate in either or both the volunteer projects list authorized in subsection (2) of this section, and the training, certification, ecotherapy, and placement program authorized in RCW 43.60A.151.

(2) The department shall create a list of veterans who are interested in working on projects that restore Washington's natural habitat. The department shall promote the opportunity to volunteer for the veterans conservation corps through its local counselors and representatives. Only veterans who grant their approval may be included on the list. The department shall consult with the salmon recovery board, the recreation and conservation funding board, the department of natural resources, the department of fish and wildlife, the department of agriculture, conservation districts, and the state parks and recreation commission to determine the most effective ways to market the veterans conservation corps to agencies and natural resource partners. [2017 c 185 § 3. Prior: 2007 c 451 § 2; 2007 c 241 § 6; 2005 c 257 § 2.]

Intent—Effective date—2007 c 241: See notes following RCW 79A.25.005.

Findings—Purpose—2005 c 257: "The legislature finds that many Washington citizens are veterans of armed forces conflicts that have important skills that may be employed in projects that help to protect and restore Washington's rivers, streams, lakes, marine waters, and open lands, and help to maintain urban and suburban wastewater and stormwater management systems. The legislature further finds that such work has demonstrated benefits for many veterans who are coping with posttraumatic stress disorder or have other mental health or substance abuse disorders related to their service in the armed forces. The legislature further finds that these projects provide an opportunity for veterans to obtain on-the-job training, leading to certification in specific skill sets and to living wage employment in environmental restoration and stewardship. Therefore, it is the purpose of this chapter to create the veterans conservation corps program to assist veterans in obtaining training, certification, and employment in the field of environmental restoration and management, and to provide state funding assistance for projects that restore Washington's waters, forests, and habitat through the participation of veterans." [2007 c 451 § 1; 2005 c 257 § 1.]

43.60A.151 Veterans conservation corps—Employment assistance—Agreements for educational benefits—Receipt of gifts, grants, or federal moneys. (1) The department shall assist veterans enrolled in the veterans conservation corps with obtaining employment in conservation programs and projects that restore Washington's natural habitat, maintain and steward local, state, and federal forestlands and other outdoor lands, maintain and improve urban and suburban stormwater management facilities and other water management facilities, and other environmental maintenance, stewardship, and restoration projects. The department shall consult with the workforce training and education coordinating board, the state board for community and technical colleges, the employment security department, and other state agencies administering conservation corps programs, to incorporate training, education, ecotherapy, and certification in environmental restoration and management fields into the program. The department may enter into agreements with community colleges, private schools, conservation districts, state or local agencies, or other entities to provide training, internships, and educational courses as part of the enrollee benefits from the program.

(2) The department may receive gifts, grants, federal funds, or other moneys from public or private sources, for the use and benefit of the veterans conservation corps program. The funds shall be deposited to the veterans conservation corps account created in RCW 43.60A.153. [2017 c 185 § 4; 2012 c 229 § 820; 2007 c 451 § 3.]

Effective date—2012 c 229 §§ 101, 117, 401, 402, 501 through 594, 601 through 609, 701 through 708, 801 through 821, 902, and 904: See note following RCW 28B.77.005.

43.60A.152 Collaboration with departments implementing the Washington conservation corps. The department shall collaborate with the department of ecology and the department of natural resources and any of its partnering agencies in implementing the Washington conservation corps, created in chapter 43.220 RCW, to maximize the utilization of both conservation corps programs. These agencies shall work together to identify stewardship and maintenance projects on public lands that are suitable for work by veterans conservation corps enrollees. The department may expend funds appropriated to the veterans conservation corps program to defray the costs of education, training, and certification associated with the enrollees participating in such projects. [2011 c 20 § 13; 2007 c 451 § 5.]

Findings—Purpose—2011 c 20: See note following RCW 43.220.020.

Intent—Application—2011 c 20: See RCW 43.220.005.

43.60A.153 Veterans conservation corps account. The veterans conservation corps account is created in the state treasury. All moneys appropriated to the account or directed to the account from other sources must be deposited in the account. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only for purposes of the veterans conservation corps program. [2007 c 451 § 6.]

43.60A.154 Agreements with federal entities for projects. The department shall seek to enter agreements with the bureau of land management, the national park service, the United States forest service, the United States fish and wildlife service, and other federal agencies managing lands or waterways in Washington, for the employment of veterans conservation corps enrollees in maintenance, restoration, and stewardship projects. [2017 c 185 § 5; 2007 c 451 § 7.]

[Title 43 RCW—page 378]
43.60A.155 Cooperation with the salmon recovery funding board regarding project work. The salmon recovery funding board shall cooperate with the department of veterans affairs to inform salmon habitat project sponsors of the availability of veterans conservation corps enrollees to perform project work. From applications submitted, the board and the department shall identify projects that propose work suitable for corps enrollees and located near where enrollees are based or may be created. projects. Grant assistance under this section shall not exceed twenty-five percent of the total cost of the project, except, under exceptional circumstances, the department may reduce the amount of nonstate match required. However, during the 2019-2021 biennium, the legislature may waive the match required for the projects specified in section 1009, chapter 413, Laws of 2019. Department of Health

43.70.005 Intent. The legislature finds and declares that it is of importance to the people of Washington state to live in a healthy environment and to expect a minimum standard of quality in health care. The legislature further finds that the social and economic vitality of the state depends on a healthy and productive population. The legislature further declares where it is a duty of the state to assure a healthy and productive population. The legislature further recognizes the need for a strong, clear focus on health issues in state government and among state health agencies to give expression to the needs of individual citizens and local communities as they seek to preserve the public health. It is the intent of the legislature to form such focus by creating a single department in state government with the primary responsibilities for the preservation of public health, monitoring health care costs, the maintenance of minimal standards for quality in health care delivery, and the general oversight and planning for all the state's activities as they relate to the health of its citizenry.

Further, it is the intent of the legislature to improve illness and injury prevention and health promotion, and restore the confidence of the citizenry in the efficient and accountable expenditure of public funds on health activities that further the mission of the agency via grants and contracts, and to ensure that this new health agency delivers quality health services in an efficient, effective, and economical manner that is faithful and responsive to policies established by the legislature. [2005 c 32 § 1; 1989 1st ex.s. c 9 § 101.]

Finding—1994 c 7: "The legislature recognizes the critical importance of ensuring that all Washington residents have access to quality and affordable health care. The legislature further recognizes that substantial improvements can be made in health care delivery when providers, including health care facilities, are encouraged to continuously strive for excellence in quality management practices, value, and consumer satisfaction. The legislature finds that when centers of quality are highlighted and honored publicly they become examples for other health care providers to emulate, thereby further promoting the implementation of improved health care delivery processes." [1994 c 7 § 1.]

43.70.047 Warren Featherstone Reid Award for Excellence in Health Care. The governor, in conjunction with the secretary of health, shall identify and honor health care providers and facilities in Washington state who exhibit exceptional quality and value in the delivery of health ser-
services. The award shall be given annually consistent with the availability of qualified nominees. The secretary may appoint an advisory committee to assist in the selection of nominees, if necessary. [1994 c 7 § 3.]

43.70.050 Collection, use, and accessibility of health-related data. (1) The legislature intends that the department and board promote and assess the quality, cost, and accessibility of health care throughout the state as their roles are specified in chapter 9, Laws of 1989 1st ex. sess. in accordance with the provisions of this chapter. In furtherance of this goal, the secretary shall create an ongoing program of data collection, storage, assessability, and review. The legislature does not intend that the department conduct or contract for the conduct of basic research activity. The secretary may request appropriations for studies according to this section from the legislature, the federal government, or private sources.

(2) All state agencies which collect or have access to population-based, health-related data are directed to allow the secretary access to such data. This includes, but is not limited to, data on needed health services, facilities, and personnel; future health issues; emerging bioethical issues; health promotion; recommendations from state and national organizations and associations; and programmatic and statutory changes needed to address emerging health needs. Private entities, such as insurance companies, health maintenance organizations, and private purchasers are also encouraged to give the secretary access to such data in their possession. The secretary's access to and use of all data shall be in accordance with state and federal confidentiality laws and ethical guidelines. Such data in any form where the patient or provider of health care can be identified shall not be disclosed, subject to disclosure according to chapter 42.56 RCW, discoverable or admissible in judicial or administrative proceedings. Such data can be used in proceedings in which the use of the data is clearly relevant and necessary and both the department and the patient or provider are parties.

(3) The department shall serve as the clearinghouse for information concerning innovations in the delivery of health care services, the enhancement of competition in the health care marketplace, and federal and state information affecting health care costs.

(4) The secretary shall review any data collected, pursuant to this chapter, to:

(a) Identify high-priority health issues that require study or evaluation. Such issues may include, but are not limited to:
(i) Identification of variations of health practice which indicate a lack of consensus of appropriateness;
(ii) Evaluation of outcomes of health care interventions to assess their benefit to the people of the state;
(iii) Evaluation of specific population groups to identify needed changes in health practices and services;
(iv) Evaluation of the risks and benefits of various incentives aimed at individuals and providers for both preventing illnesses and improving health services;
(v) Identification and evaluation of bioethical issues affecting the people of the state; and
(vi) Other such objectives as may be appropriate;
(b) Further identify a list of high-priority health study issues for consideration by the board, within their authority, for inclusion in the state health report required by *RCW 43.20.050. The list shall specify the objectives of each study, a study timeline, the specific improvements in the health status of the citizens expected as a result of the study, and the estimated cost of the study; and
(c) Provide background for the state health report required by *RCW 43.20.050.

(5) Any data, research, or findings may also be made available to the general public, including health professions, health associations, the governor, professional boards and regulatory agencies and any person or group who has allowed the secretary access to data.

(6) Information submitted as part of the health professional licensing application and renewal process, excluding social security number and background check information, shall be available to the office of financial management consistent with RCW 43.370.020, whether the license is issued by the secretary of the department of health or a board or commission. The department shall replace any social security number with an alternative identifier capable of linking all licensing records of an individual. The office of financial management shall also have access to information submitted to the department of health as part of the medical or health facility licensing process.

(7) The secretary may charge a fee to persons requesting copies of any data, research, or findings. The fee shall be no more than necessary to cover the cost to the department of providing the copy. [2009 c 343 § 2; 2005 c 274 § 301; 1989 1st ex.s. c 9 § 107.]

*Reviser's note: RCW 43.20.050 was amended by 2011 c 27 § 1, eliminating the "state health report."

43.70.052 Hospital financial and patient discharge data—Financial reports—Data retrieval—American Indian health data—Patient discharge data—Confidentiality and protection. (1) To promote the public interest consistent with the purposes of chapter 492, Laws of 1993 as amended by chapter 267, Laws of 1995, the department shall continue to require hospitals to submit hospital financial and patient discharge information, which shall be collected, maintained, analyzed, and disseminated by the department. The department shall, if deemed cost-effective and efficient, contract with a private entity for any or all parts of data collection. Data elements shall be reported in conformance with a uniform reporting system established by the department. This includes data elements identifying each hospital's revenues, expenses, contractual allowances, charity care, bad debt, other income, total units of inpatient and outpatient services, and other financial and employee compensation information reasonably necessary to fulfill the purposes of this section. Data elements relating to use of hospital services by patients shall be the same as those currently compiled by hospitals through inpatient discharge abstracts. The department shall encourage and permit reporting by electronic transmission or hard copy as is practical and economical to reporters.

(2) In identifying financial reporting requirements, the department may require both annual reports and condensed quarterly reports from hospitals, so as to achieve both accuracy and timeliness in reporting, but shall craft such requirements with due regard of the data reporting burdens of hospitals.
(3)(a) Beginning with compensation information for 2012, unless a hospital is operated on a for-profit basis, the department shall require a hospital licensed under chapter 70.41 RCW to annually submit employee compensation information. To satisfy employee compensation reporting requirements to the department, a hospital shall submit information as directed in (a)(i) or (ii) of this subsection. A hospital may determine whether to report under (a)(i) or (ii) of this subsection for purposes of reporting.

(i) Within one hundred thirty-five days following the end of each hospital's fiscal year, a nonprofit hospital shall file the appropriate schedule of the federal internal revenue service form 990 that identifies the employee compensation information with the department. If the lead administrator responsible for the hospital or the lead administrator's compensation is not identified on the schedule of form 990 that identifies the employee compensation information, the hospital shall also submit the compensation information for the lead administrator as directed by the department's form required in (b) of this subsection.

(ii) Within one hundred thirty-five days following the end of each hospital's calendar year, a hospital shall submit the names and compensation of the five highest compensated employees of the hospital who do not have any direct patient responsibilities. Compensation information shall be reported on a calendar year basis for the calendar year immediately preceding the reporting date. If those five highest compensated employees do not include the lead administrator for the hospital, compensation information for the lead administrator shall also be submitted. Compensation information shall include base compensation, bonus and incentive compensation, other payments that qualify as reportable compensation, retirement and other deferred compensation, and nontaxable benefits.

(b) To satisfy the reporting requirements of this subsection (3), the department shall create a form and make it available no later than August 1, 2012. To the greatest extent possible, the form shall follow the format and reporting requirements of the portion of the internal revenue service form 990 schedule relating to compensation information. If the internal revenue service substantially revises its schedule, the department shall update its form.

(4) The health care data collected, maintained, and studied by the department shall only be available for retrieval in original or processed form to public and private requestors pursuant to subsection (7) of this section and shall be available within a reasonable period of time after the date of request. The cost of retrieving data for state officials and agencies shall be funded through the state general appropriation. The cost of retrieving data for individuals and organizations engaged in research or private use of data or studies shall be funded by a fee schedule developed by the department that reflects the direct cost of retrieving the data or study in the requested form.

(5) The department shall, in consultation and collaboration with the federally recognized tribes, urban or other Indian health service organizations, and the federal area Indian health service, design, develop, and maintain an American Indian-specific health data, statistics information system.

(6) All persons subject to the data collection requirements of this section shall comply with departmental requirements established by rule in the acquisition of data.

(7) The department must maintain the confidentiality of patient discharge data it collects under subsection (1) of this section. Patient discharge data that includes direct and indirect identifiers is subject to public inspection and the department may only release such data as approved for in this section. Any agency that receives patient discharge data under (a) or (b) of this subsection must also maintain the confidentiality of the data and may not release the data except as consistent with subsection (8)(b) of this section. The department may release the data as follows:

(a) Data that includes direct and indirect patient identifiers, as specifically defined in rule, may be released to:

(i) Federal, state, and local government agencies upon receipt of a signed data use agreement with the department; and
(ii) Researchers with approval of the Washington state institutional review board upon receipt of a signed confidentiality agreement with the department.

(b) Data that does not contain direct patient identifiers but may contain indirect patient identifiers may be released to agencies, researchers, and other persons upon receipt of a signed data use agreement with the department.

(c) Data that does not contain direct or indirect patient identifiers may be released on request.

(8)(a) Recipients of data under subsection (7)(a) and (b) of this section must agree in a written data use agreement, at a minimum, to:

(a) Take steps to protect direct and indirect patient identifying information as described in the data use agreement; and

(b) Not redisclose the data except as authorized in their data use agreement consistent with the purpose of the agreement.

(c) Not redisclose the data except as authorized in their data use agreement consistent with the purpose of the agreement.

(9) Recipients of data under subsection (7)(b) and (c) of this section must not attempt to determine the identity of persons whose information is included in the data set or use the data in any manner that identifies individuals or their families.

(10) For the purposes of this section:

(a) "Direct patient identifier" means information that identifies a patient; and

(b) "Indirect patient identifier" means information that may identify a patient when combined with other information.

(11) The department shall only release to public or private entity upon request.

[Title 43 RCW—page 402]
health carriers, providers, and state government as consistent with the intent of chapter 492, Laws of 1993 as amended by chapter 267, Laws of 1995, to promote the delivery of quality health services that improve health outcomes for state residents. The data standards shall include content, coding, confidentiality, and transmission standards for all health care data elements necessary to support the intent of this section, and to improve administrative efficiency and reduce cost. Purchasers, as allowed by federal law, health carriers, health facilities and providers as defined in chapter 48.43 RCW, and state government shall utilize the data standards. The information and data elements shall be reported as the department of health directs by rule in accordance with data standards developed under this section.

(2) The health care data collected, maintained, and studied by the department under this section or any other entity: (a) Shall include a method of associating all information on health care costs and services with discrete cases; (b) shall not contain any means of determining the personal identity of any enrollee, provider, or facility; (c) shall only be available for retrieval in original or processed form to public and private requesters; (d) shall be available within a reasonable period of time after the date of request; and (e) shall give strong consideration to data standards that achieve national uniformity.

(3) The cost of retrieving data for state officials and agencies shall be funded through state general appropriation. The cost of retrieving data for individuals and organizations engaged in research or private use of data or studies shall be funded by a fee schedule developed by the department that reflects the direct cost of retrieving the data or study in the requested form.

(4) All persons subject to this section shall comply with departmental requirements established by rule in the acquisition of data, however, the department shall adopt no rule or effect no policy implementing the provisions of this section without an act of law.

(5) The department shall submit developed health care data standards to the appropriate committees of the legislature by December 31, 1995. [2015 3rd sp.s. c 1 § 408; 1997 c 274 § 2; 1995 c 267 § 2.]

Effective date—2015 3rd sp.s. c 1 §§ 101-109, 201-224, 406-408, 410, 501-507, 601, and 602: See note following RCW 43.105.007.

43.70.056 Health care-associated infections—Data collection and reporting—Advisory committee—Rules.

(1) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Health care-associated infection" means a localized or systemic condition that results from adverse reaction to the presence of an infectious agent or its toxins and that was not present or incubating at the time of admission to the hospital.

(b) "Hospital" means a health care facility licensed under chapter 70.41 RCW.

(2)(a) A hospital shall collect data related to health care-associated infections as required under this subsection (2) on the following:

(i) Central line-associated bloodstream infection in all hospital inpatient areas where patients normally reside at least twenty-four hours;

(ii) Surgical site infection for colon and abdominal hysterectomy procedures.

(b) The department shall, by rule, delete, add, or modify categories of reporting when the department determines that doing so is necessary to align state reporting with the reporting categories of the centers for medicare and medicaid services. The department shall begin rule making forty-five calendar days, or as soon as practicable, after the centers for medicare and medicaid services adopts changes to reporting requirements.

(c) A hospital must routinely collect and submit the data required to be collected under (a) and (b) of this subsection to the national healthcare safety network of the United States centers for disease control and prevention in accordance with national healthcare safety network definitions, methods, requirements, and procedures.

If the centers for medicare and medicaid services changes reporting from the national healthcare safety network to another database or through another process, the department shall review the new reporting database or process and consider whether it aligns with the purposes of this section.

(d) Data collection and submission required under this subsection (2) must be overseen by a qualified individual with the appropriate level of skill and knowledge to oversee data collection and submission.

(e)(i) A hospital must release to the department, or grant the department access to, its hospital-specific information contained in the reports submitted under this subsection (2), as requested by the department consistent with *RCW 70.02.050.

(ii) The hospital reports obtained by the department under this subsection (2), and any of the information contained in them, are not subject to discovery by subpoena or admissible as evidence in a civil proceeding, and are not subject to public disclosure as provided in RCW 42.56.360.

(3) The department shall:

(a) Provide oversight of the health care-associated infection reporting program established in this section;

(b) By November 1, 2013, and biennially thereafter, submit a report to the appropriate committees of the legislature that contains: (i) Categories of reporting currently required of hospitals under subsection (2)(a) of this section; (ii) categories of reporting the department plans to add, delete, or modify by rule; and (iii) a description of the evaluation process used under (d) of this subsection;

(c) By December 1, 2009, and by each December 1st thereafter, prepare and publish a report on the department's web site that compares the health care-associated infection rates at individual hospitals in the state using the data reported in the previous calendar year pursuant to subsection (2) of this section. The department may update the reports quarterly. In developing a methodology for the report and determining its contents, the department shall consider the recommendations of the advisory committee established in subsection (5) of this section. The report is subject to the following:

(i) The report must disclose data in a format that does not release health information about any individual patient; and

(ii) The report must not include data if the department determines that a data set is too small or possesses other char-
acteristics that make it otherwise unrepresentative of a hospital's particular ability to achieve a specific outcome;

(d) Evaluate, on a regular basis, the quality and accuracy of health care-associated infection reporting required under subsection (2) of this section and the data collection, analysis, and reporting methodologies; and

(e) Provide assistance to hospitals with the reporting requirements of this chapter including definitions of required reporting elements.

(4) The department may respond to requests for data and other information from the data required to be reported under subsection (2) of this section, at the requestor's expense, for special studies and analysis consistent with requirements for confidentiality of patient records.

(5)(a) The department shall establish an advisory committee which may include members representing infection control professionals and epidemiologists, licensed health care providers, nursing staff, organizations that represent health care providers and facilities, health maintenance organizations, health care payers and consumers, and the department. The advisory committee shall make recommendations to assist the department in carrying out its responsibilities under this section, including making recommendations on allowing a hospital to review and verify data to be released in the report and on excluding from the report selected data from certified critical access hospitals.

(b) In developing its recommendations, the advisory committee shall consider methodologies and practices related to health care-associated infections of the United States centers for disease control and prevention, the centers for medicare and medicaid services, the joint commission, the national quality forum, the institute for healthcare improvement, and other relevant organizations.

(6) The department shall adopt rules as necessary to carry out its responsibilities under this section. [2013 c 319 § 2; 2013 c 319 § 1; 2010 c 244 § 2; 2007 c 261 § 2.]

*Reviser's note: RCW 70.02.050 was amended by 2013 c 200 § 3, eliminating many of the provisions relating to disclosure of health care information without patient's authorization, effective July 1, 2014. See RCW 70.02.200 through 70.02.260.

Effective date—2013 c 319 § 2: “Section 2 of this act takes effect July 1, 2014.” [2013 c 319 § 4.]

Effective date—2010 c 113: “This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [March 18, 2010].” [2010 c 113 § 2.]

Findings—2007 c 261: “The legislature finds that each year health care-associated infections affect two million Americans. These infections result in the unnecessary deaths of ninety thousand patients and costs the health care system 4.5 billion dollars. Hospitals should be implementing evidence-based measures to reduce hospital-acquired infections. The legislature further finds the public should have access to data on outcome measures regarding hospital-acquired infections. Data reporting should be consistent with national hospital reporting standards.” [2007 c 261 § 1.]

43.70.057 Hospital emergency room patient care information—Data collection, maintenance, analysis, and dissemination—Rules. (1) The legislature finds that public health data is critical to the department's ability to respond to emerging public health threats and chronic conditions affecting the public health and, therefore, intends that the department be fully informed about emerging public health threats and chronic conditions that may impact the health of Washington citizens.

(2) The department shall require hospitals with emergency departments to submit emergency department patient care information, which must be collected, maintained, analyzed, and disseminated by the department. The department shall also accept other data types submitted voluntarily as approved by the department. The data must be collected in a way that allows automated reporting by electronic transmission. Emergency departments submitting data must be able to obtain their data and aggregate regional and statewide data from the collection system within thirty minutes of submission of a query for the data once the data is available in the system. The department may, if deemed cost-effective and efficient, contract with a private entity for any or all parts of data collection, maintenance, analysis, and dissemination. The department or contractor shall include the following elements:

(a) A demonstrated ability to collect the data required by this section in a way that allows automated reporting by electronic transmission;

(b) An established data submission arrangement with the majority of emergency departments required to submit data pursuant to this section;

(c) The demonstrated ability to allow emergency departments submitting data to immediately obtain their own data and aggregate regional and statewide data and the department to immediately obtain any data within thirty minutes of submission of a query for data once the data is available in the system; and

(d) The capacity to work with existing emergency department data systems to minimize administrative reporting burden and costs.

(3) Data elements must be reported in conformance with a uniform reporting system established by the department in collaboration with representatives from emergency departments required to submit data pursuant to this section and in conformance with current or emerging national standards for reporting similar data. Data elements to be initially collected include, but are not limited to, data elements identifying facility information, limited patient identifiers, patient demographics, and encounter, clinical, and laboratory information. In order to ensure meaningful public health surveillance, after consulting with emergency departments required to submit data pursuant to this section, the department shall adopt rules including, but not limited to, data element and format requirements and time frames for reporting and addressing errors in submission. The rules adopted shall support alignment with current or emerging national standards for reporting similar data and minimization of administrative burden and costs.

(4) The department may require additional information from data providers only for the purposes of validating data received, verifying data accuracy, conducting surveillance of potential public health threats, and addressing potential public health threats.

(5) The data collected, maintained, and analyzed by the department must only be available for retrieval in original or processed form to public and private requestors pursuant to subsection (6) of this section and must be available within a reasonable period of time after the date of request, except that
emergency departments submitting data pursuant to this section must have the ability to immediately obtain their own data and aggregate regional and statewide data within thirty minutes of submission of a query for data once the data is available in the system. The cost of retrieving their own data and aggregate regional and statewide data in standardized reports for state, local, tribal, federal officials and agencies, and health care facilities, and health care providers associated with the emergency departments submitting data pursuant to this section, must be funded through the agency’s resources. The cost of retrieving data for individuals and organizations engaged in research or private use of data or reports must be funded by a fee schedule developed by the department that reflects the direct cost of retrieving the data or report in the requested form.

(6) The department must maintain the confidentiality of patient data it collects under subsection (2) of this section. Patient data collected by the department is health care information under chapter 70.02 RCW. Patient data that includes direct and indirect identifiers is not subject to public inspection and copying and the department may only release that data as allowed for in this section. Any agency that receives patient data under (a) or (b) of this subsection must also maintain the confidentiality of the data and may not release the data except as consistent with subsection (7)(b) of this section. The department may release the data as follows:

(a) Data that includes direct and indirect patient identifiers, as specifically defined in rule, may be released to:

(i)(A) Federal, Washington state, tribal, and local government agencies upon receipt of a signed data use agreement with the department;

(B) In the case of an emergent public health threat, the signed data use agreement requirement must be waived for public health authorities. The department may disclose only the minimum amount of information necessary, to the fewest number of people, for the least amount of time required to address the threat;

(ii) Researchers with approval of an institutional review board upon receipt of a signed confidentiality agreement with the department;

(b) Data that does not contain direct patient identifiers but may contain indirect patient identifiers may be released to agencies, institutional review board-approved researchers, and other persons upon receipt of a signed data use agreement with the department;

(c) Data that does not contain direct or indirect patient identifiers may be released on request.

(7) Recipients of data under subsection (6)(a) and (b) of this section must agree in a data use agreement, as applicable, at a minimum, to:

(a) Take steps to protect direct and indirect patient identifiers as described in the data use agreement; and

(b) Not redisclose the data except as authorized in their data use agreement consistent with the purpose of the agreement.

(8) Recipients of data under subsection (6)(b) and (c) of this section must not attempt to determine the identity of persons whose information is included in the data set or use the data in any manner that identifies individuals or their families.

(9) For the purposes of this section:

(a) "Direct patient identifier" means information that identifies a patient; and

(b) "Indirect patient identifier" means information that may identify a patient when combined with other information.

(10) The department may adopt rules necessary to carry out its responsibilities under this section. The department must consider national standards when adopting rules. [2017 c 220 § 1.]

43.70.060 Duties of department—Promotion of health care cost-effectiveness. It is the intent of the legislature to promote appropriate use of health care resources to maximize access to adequate health care services. The legislature understands that the rapidly increasing costs of health care are limiting access to care. To promote health care cost-effectiveness, the department shall:

(1) Implement the certificate of need program;

(2) Monitor and evaluate health care costs;

(3) Evaluate health services and the utilization of services for outcome and effectiveness; and

(4) Recommend strategies to encourage adequate and cost-effective services and discourage ineffective services. [1989 1st ex.s. c 9 § 108.]

43.70.064 Health care quality—Findings and intent—Requirements for conducting study under RCW 43.70.066. The legislature finds that it is difficult for consumers of health care services to determine the quality of health care prior to purchase or utilization of medical care. The legislature also finds that accountability is a key component in promoting quality assurance and quality improvement throughout the health care delivery system, including public programs. Quality assurance and improvement standards are necessary to promote the public interest, contribute to cost efficiencies, and improve the ability of consumers to ascertain quality health care purchases.

The legislature intends to have consumers, health carriers, health care providers and facilities, and public agencies participate in the development of quality assurance and improvement standards that can be used to develop a uniform quality assurance program for use by all public and private health plans, providers, and facilities. To that end, in conducting the study required under RCW 43.70.066, the department of health shall:

(1) Consider the needs of consumers, employers, health care providers and facilities, and public and private health plans;

(2) Take full advantage of existing national standards of quality assurance to extend to middle-income populations the protections required for state management of health programs for low-income populations;

(3) Consider the appropriate minimum level of quality assurance standards that should be disclosed to consumers and employers by health care providers and facilities, and public and private health plans; and

(4) Consider standards that permit health care providers and facilities to share responsibility for participation in a uniform quality assurance program. [1995 c 267 § 3.]

(a) Public and private purchasers of health care services;
(b) Health carriers;
(c) Health care providers and facilities; and
(d) Consumers of health services.
(2) In conducting the study, the department shall propose standards that meet the needs of affected persons and organizations, whether public or private, without creation of differing levels of quality assurance. All consumers of health services should be afforded the same level of quality assurance.
(3) At a minimum, the study shall include but not be limited to the following program components and indicators appropriate for consumer disclosure:
(a) Health care provider training, credentialing, and licensure standards;
(b) Health care facility credentialing and recredentialing;
(c) Staff ratios in health care facilities;
(d) Annual mortality and morbidity rates of cases based on a defined set of procedures performed or diagnoses treated in health care facilities, adjusted to fairly consider variable factors such as patient demographics and case severity;
(e) The average total cost and average length of hospital stay for a defined set of procedures and diagnoses;
(f) The total number of the defined set of procedures, by specialty, performed by each physician at a health care facility within the previous twelve months;
(g) Utilization performance profiles by provider, both primary care and specialty care, that have been adjusted to fairly consider variable factors such as patient demographics and severity of case;
(h) Health plan fiscal performance standards;
(i) Health care provider and facility recordkeeping and reporting standards;
(j) Health care utilization management that monitors trends in health service underutilization, as well as overutilization of services;
(k) Health monitoring that is responsive to consumer, purchaser, and public health assessment needs; and
(l) Assessment of consumer satisfaction and disclosure of consumer survey results.
(4) In conducting the study, the department shall develop standards that permit each health care facility, provider group, or health carrier to assume responsibility for and determine the physical method of collection, storage, and assimilation of quality indicators for consumer disclosure.
(5) The department shall submit a preliminary report to the legislature by December 31, 1995, including recommendations for initial legislation pursuant to subsection (6) of this section, and may submit supplementary reports and recommendations as completed, consistent with appropriated funds and staffing.
(6) The department shall not adopt any rule implementing the uniform quality assurance program or consumer disclosure provisions unless expressly directed to do so by an act of law. [1998 c 245 § 72; 1997 c 274 § 3; 1995 c 267 § 4.]

43.70.068 Quality assurance—Interagency cooperation. The department of health, the health care authority, the department of social and health services, the office of the insurance commissioner, and the department of labor and industries shall form an interagency group for coordination and consultation on quality assurance activities and collaboration on final recommendations for the study required under RCW 43.70.066. [1997 c 274 § 4; 1995 c 267 § 5.]

43.70.070 Duties of department—Analysis of health services. The department shall evaluate and analyze readily available data and information to determine the outcome and effectiveness of health services, utilization of services, and payment methods. This section should not be construed as allowing the department access to proprietary information.
(1) The department shall make its evaluations available to the board for use in preparation of the state health report required by *RCW 43.20.050, and to consumers, purchasers, and providers of health care.
(2) The department shall use the information to:
(a) Develop guidelines which may be used by consumers, purchasers, and providers of health care to encourage necessary and cost-effective services; and
(b) Make recommendations to the governor on how state government and private purchasers may be prudent purchasers of cost-effective, adequate health services. [1995 c 269 § 2202; 1989 1st ex.s. c 9 § 109.]
*Reviser's note: RCW 43.20.050 was amended by 2011 c 27 § 1, eliminating the "state health report."

43.70.075 Identity of whistleblower protected—Remedy for retaliatory action—Definitions—Rules. (1)(a) The identity of a whistleblower must remain confidential if that whistleblower:
(i) Complains, in good faith, to the department of health about the improper quality of care by a health care provider, or in a health care facility;
(ii) Initiates in good faith any investigation or administrative proceeding about a complaint of improper quality of care made to the department under this section; or

43.70.195 Public water systems—Receivership actions brought by secretary—Plan for disposition. (1) In any action brought by the secretary of health or by a local health officer pursuant to chapter 7.60 RCW to place a public water system in receivership, the petition shall include the names of one or more suitable candidates for receiver who have consented to assume operation of the water system. The department shall maintain a list of interested and qualified individuals, municipal entities, special purpose districts, and investor-owned water companies with experience in the provision of water service and a history of satisfactory operation of a water system. If there is no other person willing and able to be named as receiver, the court shall appoint the county in which the water system is located as receiver. The county may designate a county agency to operate the system, or it may contract with another individual or public water system to provide management for the system. If the county is appointed as receiver, the secretary of health and the county health officer shall provide regulatory oversight for the agency or other person responsible for managing the water system.

(2) In any petition for receivership under subsection (1) of this section, the department shall recommend that the court grant to the receiver full authority to act in the best interests of the customers served by the public water system. The receiver shall assess the capability, in conjunction with the department and local government, for the system to operate in compliance with health and safety standards, and shall report to the court and the petitioning agency the recommendations for the system’s future operation, including the formation of a water-sewer district or other public entity, or ownership by another existing water system capable of providing service.

(3) If a petition for receivership and verifying affidavit executed by an appropriate departmental official allege an immediate and serious danger to residents constituting an

(2019 Ed.)
emergency, the court shall set the matter for hearing within three days and may appoint a temporary receiver ex parte upon the strength of such petition and affidavit pending a full evidentiary hearing, which shall be held within fourteen days after receipt of the petition.

(4) A bond, if any is imposed upon a receiver, shall be minimal and shall reasonably relate to the level of operating revenue generated by the system. Any receiver appointed pursuant to this section shall not be held personally liable for any good faith, reasonable effort to assume possession of, and to operate, the system in compliance with the court's orders.

(5) The court shall authorize the receiver to impose reasonable assessments on a water system's customers to recover expenditures for improvements necessary for the public health and safety.

(6) No later than twelve months after appointment of a receiver, the petitioning agency, in conjunction with the county in which the system is located, and the appropriate state and local health agencies, shall develop and present to the court a plan for the disposition of the system. The report shall include the recommendations of the receiver made pursuant to subsection (2) of this section. The report shall include all reasonable and feasible alternatives. After receiving the report, the court shall provide notice to interested parties and conduct such hearings as are necessary. The court shall then order the parties to implement one of the alternatives, or any combination thereof, for the disposition of the system. Such order shall include a date, or proposed date, for the termination of the receivership. Nothing in this section authorizes a court to require a city, town, public utility district, water-sewer district, or irrigation district to accept a system that has been in receivership unless the city, town, public utility district, water-sewer district, or irrigation district agrees to the terms and conditions outlined in the plan adopted by the court.

(7) The court shall not terminate the receivership, and order the return of the system to the owners, unless the department of health approves of such an action. The court may impose reasonable conditions upon the return of the system to the owner, including the posting of a bond or other security, routine performance and financial audits, employment of qualified operators and other staff or contracted services, compliance with financial viability requirements, or other measures sufficient to ensure the ongoing proper operation of the system.

(8) If, as part of the ultimate disposition of the system, an eminent domain action is commenced by a public entity to acquire the system, the court shall oversee any appraisal of the system conducted under Title 7 RCW to assure that the appraised value properly reflects any reduced value because of the necessity to make improvements to the system. The court shall have the authority to approve the appraisal, and to modify it based on any information provided at an evidentiary hearing. The court's determination of the proper value of the system, based on the appraisal, shall be final, and only appealable if not supported by substantial evidence. If the appraised value is appealed, the court may order that the system's ownership be transferred upon payment of the approved appraised value. [1999 c 153 § 57; 1994 c 292 § 3; 1990 c 133 § 4.]

However, no license, certification, or registration may be issued or approved for a period in excess of four years, without renewal. Such extension, reduction, or other modification of a licensing, certification, or registration period shall be by rule or regulation of the department of health adopted in accordance with the provisions of chapter 34.05 RCW. Such rules and regulations may provide a method for imposing and collecting such additional proportional fee as may be required for the extended or modified period. (2) All expenses incurred in carrying out the health professions licensing activities of the department shall be paid from the account as authorized by legislative appropriation, except as provided in subsections (4) and (5) of this section. 43.70.400 Head injury prevention—Legislative finding. The legislature finds that head injury is a major cause of death and disability for Washington citizens. The costs of head injury treatment and rehabilitation are extensive and resultant disabilities are long and indeterminate. These costs are often borne by public programs such as medicaid. The legislature finds further that many such injuries are preventable. The legislature intends to reduce the occurrence of head injury by educating persons whose behavior may place them at risk and by regulating certain activities. [1990 c 270 § 2.]

43.70.410 Head injury prevention—Program, generally. As used in RCW 43.70.400 through 43.70.440, the term "head injury" means traumatic brain injury.

A head injury prevention program is created in the department of health. The program's functions may be integrated with those of similar programs to promote comprehensive, integrated, and effective health promotion and disease prevention.

In consultation with the traffic safety commission, the department shall, directly or by contract, identify and coordinate public education efforts currently underway within state government and among private groups to prevent traumatic brain injury, including, but not limited to, bicycle safety, pedestrian safety, bicycle passenger seat safety, motorcycle safety, motor vehicle safety, and sports safety. If the department finds that programs are not available or not in use, it may, within funds appropriated for the purpose, provide grants to promote public education efforts. Grants may be awarded only after recipients have demonstrated coordination with relevant and knowledgeable groups within their communities, including at least schools, brain injury support organizations, hospitals, physicians, traffic safety specialists, police, and the public. The department may accept grants, gifts, and donations from public or private sources to use to carry out the head injury prevention program.

The department may assess or contract for the assessment of the effectiveness of public education efforts coordinated or initiated by any agency of state government. Agencies are directed to cooperate with assessment efforts by providing access to data and program records as reasonably required. The department may seek and receive additional funds from the federal government or private sources for assessments. Assessments shall contain findings and recommendations that will improve the effectiveness of public education efforts. These findings shall be distributed among public and private groups concerned with traumatic brain injury prevention. [1990 c 270 § 3.]

43.70.420 Head injury prevention—Information preparation. The department of health, the department of licensing, and the traffic safety commission shall jointly prepare information for driver license manuals, driver education programs, and driving tests to increase driver awareness of pedestrian safety, to increase driver skills in avoiding pedestrian and motor vehicle accidents, and to determine drivers' abilities to avoid pedestrian motor vehicle accidents. [1990 c 270 § 4.]

43.70.430 Head injury prevention—Guidelines on training and education—Training of emergency medical personnel. The department shall prepare guidelines on relevant training and education regarding traumatic brain injury for health and education professionals, and relevant public safety and law enforcement officials. The department shall distribute such guidelines and any recommendations for training or educational requirements for health professionals or educators to the disciplinary authorities governed by chapter 18.130 RCW and to educational service districts established under chapter 28A.310 RCW. Specifically, all emergency medical personnel shall be trained in proper helmet removal. [1990 c 270 § 6.]

Training completed between June 12, 2014, and January 1, 2016, that meets the requirements of this section, other than the timing requirements of this subsection (5)(b), must be accepted by the disciplining authority as meeting the one-time training requirement of this subsection (5).

(ii) A licensed pharmacist or a person holding a retired active pharmacist license must complete the one-time training by the end of the first full continuing education reporting period after January 1, 2017, or during the first full continuing education reporting period after initial licensure, whichever is later.

(b) The secretary and the disciplining authorities shall update the list at least once every two years.

(c) By June 30, 2016, the department shall adopt rules establishing minimum standards for the training programs included on the model list. The minimum standards must require that six-hour trainings include content specific to veterans and the assessment of issues related to imminent harm via lethal means or self-injurious behaviors and that three-hour trainings for pharmacists include content related to the assessment of issues related to imminent harm via lethal means. When adopting the rules required under this subsection (6)(c), the department shall:

(i) Consult with the affected disciplining authorities, public and private institutions of higher education, educators, experts in suicide assessment, treatment, and management, the Washington department of veterans affairs, and affected professional associations; and

(ii) Consider standards related to the best practices registry of the American foundation for suicide prevention and the suicide prevention resource center.

(d) Beginning January 1, 2017:

(i) The model list must include only trainings that meet the minimum standards established in the rules adopted under (c) of this subsection and any three-hour trainings that met the requirements of this section on or before July 24, 2015;

(ii) The model list must include six-hour trainings in suicide assessment, treatment, and management, and three-hour trainings that include only screening and referral elements; and

(7) The department shall provide the health profession training standards created in this section to the professional educator standards board as a model in meeting the requirements of RCW 28A.410.226 and provide technical assistance, as requested, in the review and evaluation of educator training programs. The educator training programs approved by the professional educator standards board may be included in the department's model list.

(8) Nothing in this section may be interpreted to expand or limit the scope of practice of any profession regulated under chapter 18.130 RCW.

(9) The secretary and the disciplining authorities affected by this section shall adopt any rules necessary to implement this section.

(10) For purposes of this section:

(a) "Disciplining authority" has the same meaning as in RCW 18.130.020.

(b) "Training in suicide assessment, treatment, and management" means empirically supported training approved by the appropriate disciplining authority that contains the following elements: Suicide assessment, including screening and referral, suicide treatment, and suicide management. However, the disciplining authority may approve training that includes only screening and referral elements if appropriate for the profession in question based on the profession’s scope of practice. The board of occupational therapy may also approve training that includes only screening and referral elements if appropriate for occupational therapy practitioners based on practice setting.

(11) A state or local government employee is exempt from the requirements of this section if he or she receives a total of at least six hours of training in suicide assessment, treatment, and management from his or her employer every six years. For purposes of this subsection, the training may be provided in one six-hour block or may be spread among shorter training sessions at the employer's discretion.

(12) An employee of a community mental health agency licensed under chapter 71.24 RCW or a chemical dependency program certified under chapter 71.24 RCW is exempt from the requirements of this section if he or she receives a total of at least six hours of training in suicide assessment, treatment, and management from his or her employer every six years. For purposes of this subsection, the training may be provided in one six-hour block or may be spread among shorter training sessions at the employer's discretion.

Reviser's note: This section was amended by 2019 c 358 § 4 and by 2019 c 444 § 12, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

Expiration dates—2019 c 444 §§ 12 and 18: "(1) Section 12 of this act expires August 1, 2020.

(2) Section 18 of this act expires July 1, 2026." [2019 c 444 § 33.]

Expiration date—2019 c 358 § 4: "Section 4 of this act expires August 1, 2020." [2019 c 358 § 7.]

Effective date—2016 c 90 § 5: "Section 5 of this act takes effect January 1, 2017." [2016 c 90 § 8.]

Findings—2016 c 90: "The legislature finds that: Washington's suicide rate is fourteen percent higher than the national average; on average, two young people between the ages of ten and twenty-four die by suicide each week; almost a quarter of those who die by suicide are veterans; and many of the state's rural and tribal communities have the highest suicide rates. The legislature further finds that when suicide occurs, it has devastating consequences for communities and schools, yet, according to the United States surgeon general, suicide is the nation's most preventable form of death. The legislature further finds that one of the most immediate ways to reduce the tragedy of suicide is through suicide awareness and prevention education coupled with safe storage of lethal means commonly used in suicides, such as firearms, and prescription medications. The legislature further finds that encouraging firearms dealers to voluntarily participate in suicide awareness and prevention education programs and provide certain safe storage devices at cost is an important step in creating safer homes and reducing suicide deaths in the state." [2016 c 90 § 1.]

Findings—Intent—2014 c 71; 2012 c 181: "(1) The legislature finds that:

(a) According to the centers for disease control and prevention:

(i) In 2008, more than thirty-six thousand people died by suicide in the United States, making it the tenth leading cause of death nationally.

(ii) During 2007-2008, an estimated five hundred sixty-nine thousand people visited hospital emergency departments with self-inflicted injuries in the United States, seventy percent of whom had attempted suicide.

(iii) During 2008-2009, the average percentages of adults who thought, planned, or attempted suicide in Washington were higher than the national average.

(b) According to a national study, veterans face an elevated risk of suicide as compared to the general population, more than twice the risk among male veterans. Another study has indicated a positive correlation between posttraumatic stress disorder and suicide.

(i) Washington state is home to more than sixty thousand men and women who have deployed in support of the wars in Iraq and Afghanistan.

[Title 43 RCW—page 420]
(ii) Research continues on how the effects of wartime service and injuries, such as traumatic brain injury, posttraumatic stress disorder, or other service-related conditions, may increase the number of veterans who attempt suicide.

(iii) As more men and women separate from the military and transition back into civilian life, community mental health providers will become a vital resource to help these veterans and their families deal with issues that may arise.

(c) Suicide has an enormous impact on the family and friends of the victim as well as the community as a whole.

(d) Approximately ninety percent of people who die by suicide had a diagnosable psychiatric disorder at the time of death, such as depression. Most suicide victims exhibit warning signs or behaviors prior to an attempt.

(e) Improved training and education in suicide assessment, treatment, and management has been recommended by a variety of organizations, including the United States department of health and human services and the institute of medicine.

(2) It is therefore the intent of the legislature to help lower the suicide rate in Washington by requiring certain health professionals to complete training in suicide assessment, treatment, and management as part of their continuing education, continuing competency, or recertification requirements.

(3) The legislature does not intend to expand or limit the existing scope of practice of any health professional affected by this act. [2014 c 71 § 1; 2012 c 181 § 1.]

Findings—Intent—2017 c 262: "The legislature finds that over one thousand one hundred suicide deaths occur each year in Washington and these suicide deaths take an enormous toll on families and communities across the state. The legislature further finds that: Sixty-five percent of all suicides, and most suicide deaths and attempts for young people ages ten to eighteen, occur using firearms and prescription medications that are easily accessible in homes; firearms are the most lethal method used in suicide and almost entirely account for more men dying by suicide than women; sixty-seven percent of all veteran deaths by suicide are by firearm; and nearly eighty percent of all deaths by firearms in Washington are suicides. The legislature further finds that there is a need for a robust public education campaign designed to raise awareness of suicide and to teach everyone the role that he or she can play in suicide prevention. The legislature further finds that important suicide prevention efforts include: Motivating households to improve safe storage practices to reduce deaths from firearms and prescription medications; decreasing barriers to prevent access to lethal means by allowing for temporary and voluntary transfers of firearms when individuals are at risk for suicide; increasing access to drug take-back sites; and making the public aware of suicide prevention steps, including recognizing warning signs, empathizing and listening, asking directly about suicide, removing dangerous to ensure immediate safety, and getting help. The legislature intends by this act to create a public-private partnership fund to implement a suicide-safer home public education campaign in the coming years." [2017 c 262 § 1.]

Effective date—2016 c 90 § 5: "Section 5 of this act takes effect January 1, 2017." [2016 c 90 § 8.]

Findings—2016 c 90: "The legislature finds that: Washington’s suicide rate is fourteen percent higher than the national average; on average, two young people between the ages of ten and twenty-four die by suicide each week; almost a quarter of those who die by suicide are veterans; and many of the state’s rural and tribal communities have the highest suicide rates. The legislature further finds that when suicide occurs, it has devastating consequences for communities and schools, yet, according to the United States surgeon general, suicide is the nation’s most preventable form of death. The legislature further finds that one of the most immediate ways to reduce the tragedy of suicide is through suicide awareness and prevention education coupled with safe storage of lethal means commonly used in suicides, such as firearms and prescription medications. The legislature further finds that encouraging firearms dealers to voluntarily participate in suicide awareness and prevention education programs and provide certain safe storage devices at cost is an important step in creating safer homes and reducing suicide deaths in the state." [2016 c 90 § 1.]

Findings—Intent—2014 c 71; 2012 c 181: "(1) The legislature finds that:
(a) According to a national study, veterans face an elevated risk of suicide as compared to the general population, more than twice the risk among male veterans. Another study has indicated a positive correlation between posttraumatic stress disorder and suicide.
(i) Washington state is home to more than sixty thousand men and women who have deployed in support of the wars in Iraq and Afghanistan.
(ii) Research continues on how the effects of wartime service and injuries, such as traumatic brain injury, posttraumatic stress disorder, or other service-related conditions, may increase the number of veterans who attempt suicide.
(iii) As more men and women separate from the military and transition back into civilian life, community mental health providers will become a vital resource to help these veterans and their families deal with issues that may arise.
(c) Suicide has an enormous impact on the family and friends of the victim as well as the community as a whole.
(d) Approximately ninety percent of people who die by suicide had a diagnosable psychiatric disorder at the time of death, such as depression. Most suicide victims exhibit warning signs or behaviors prior to an attempt.
(e) Improved training and education in suicide assessment, treatment, and management has been recommended by a variety of organizations, including the United States department of health and human services and the institute of medicine.

(2) It is therefore the intent of the legislature to help lower the suicide rate in Washington by requiring certain health professionals to complete training in suicide assessment, treatment, and management as part of their continuing education, continuing competency, or recertification requirements.
(3) The legislature does not intend to expand or limit the existing scope of practice of any health professional affected by this act." [2014 c 71 § 1; 2012 c 181 § 1.]

Short title—2012 c 181: "This act may be known and cited as the Matt Adler suicide assessment, treatment, and management training act of 2012." [2012 c 181 § 4.]

The program must include a checklist of disabilities, symptoms of such disabilities, and things to do and not to do relevant to a particular disability so fire department and emergency medical services personnel can easily and quickly determine the specific scenario into which they are entering. The department must make the training program available on the department's web site for use by all fire departments and emergency medical service agencies in the state. The department must include on its web site a list of public and private nonprofit disability-related agencies and organizations and the contact information of each agency and organization. (2) Subject to the availability of amounts appropriated for this specific purpose, the criminal justice training commission, in consultation with the Washington state patrol and other stakeholders, must examine existing training programs and curricula related to law enforcement officers responding to an emergency where a person with a disability may be present, to ensure that those programs and curricula are consistent with best practices.

43.70.495 Telemedicine training for health care professionals. (1) The legislature finds that a large segment of Washington residents do not have access to critical health care services. Telemedicine is a way to increase access to health care services to those who would otherwise not have reasonable access. The legislature therefore intends to ensure that health care professionals who provide services through telemedicine, as defined in RCW 70.41.020, in cities and rural areas alike, have current information available, making it possible for them to provide telemedicine services to the entire state of Washington.

(b) Must include a question and answer methodology to demonstrate accrual of knowledge; and

(c) May be made available in electronic format and completed over the internet.

(3) The training may be incorporated into existing telemedicine training programs, provided that the training meets the requirements in subsection (2) of this section.

(2019 Ed.)
Practice indicators shall be based upon expert consensus and best available scientific evidence. The department shall:

(1) Develop a definition of expert consensus and best available scientific evidence so that practice indicators can serve as a standard for excellence in the provision of health care services.

(2) Establish a process to identify and evaluate practice indicators and risk management protocols as they are developed by the appropriate professional, scientific, and clinical communities.

(3) Recommend the use of practice indicators and risk management protocols in quality assurance, utilization review, or provider payment to the health services commission. [1993 c 492 § 410.]

The privacy protections of chapter 70.02 RCW and the federal health insurance portability and accountability act of 1996 and its implementing regulations apply to the sharing of individually identifiable patient information held by a coordinated quality improvement program. Any rules necessary to implement this section shall meet the requirements of applicable federal and state privacy laws. Information and documents disclosed by one coordinated quality improvement program to another coordinated quality improvement program or a peer review committee under RCW 4.24.250 and any information and documents created or maintained as a result of the sharing of information and documents shall not be subject to the discovery process and confidentiality shall be respected as required by subsection (4) of this section and RCW 4.24.250.

43.70.515 Foundational public health services—Funding. (1) With any state funding of foundational public health services, the state expects that measurable benefits will be realized to the health of communities in Washington as a result of the improved capacity of the governmental public health system. Close coordination and sharing of services are integral to increasing system capacity.

(2)(a) Funding for foundational public health services shall be appropriated to the office of financial management. The office of financial management may only allocate funding to the department if the department, after consultation with federally recognized Indian tribes pursuant to chapter 43.376 RCW, jointly certifies with a state association representing local health jurisdictions and the state board of health, to the office of financial management that they are in agreement on the distribution and uses of state foundational public health services funding across the public health system. 43.70.525 Immunization assessment and enhancement proposals by local jurisdictions. (1) The department, in conjunction with local health jurisdictions, shall require each local health jurisdiction to submit an immunization assessment and enhancement proposal, consistent with the standards established in the public health [services] improvement plan, to provide immunization protection to the children of the state to further reduce vaccine-preventable diseases.

(2) These plans shall include, but not be limited to:

(a) A description of the population groups in the jurisdiction that are in the greatest need of immunizations;

43.70.526 Childhood immunizations—Resources for expecting parents. The department shall develop and make available resources for expecting parents regarding recommended childhood immunizations. The resources are intended to be provided to expecting parents by their health care providers to encourage discussion on childhood immunizations and postnatal care. [2016 c 141 § 1.]

The department may designate one or more chronic conditions to be the subject of the program.

(2) The training and technical assistance program shall include the following elements:

43.70.540 Data collection—Legislative finding and intent. The legislature recognizes that the state patrol, the administrative office of the courts, the sheriffs’ and police chiefs’ association, the department of social and health services, the *department of community, trade, and economic development, the sentencing guidelines commission, the department of corrections, and the superintendent of public instruction each have comprehensive data and analysis capabilities that have contributed greatly to our current understanding of crime and violence, and their causes.

The legislature finds, however, that a single health-oriented agency must be designated to provide consistent guidelines to all these groups regarding the way in which their data systems collect this important data. It is not the intent of the legislature by RCW 43.70.545 to transfer data collection requirements from existing agencies or to require the addition of major new systems. It is the intent to make only the minimum required changes in existing data systems to increase compatibility and comparability, reduce duplication, and to increase the usefulness of data collected by these agencies in developing more accurate descriptions of violence.

[2005 c 282 § 45; 1995 c 399 § 76; 1994 sp.s. c 7 § 201.]

*Reviser’s note: The "department of community, trade, and economic development" was renamed the "department of commerce" by 2009 c 565.

Legislative finding and intent—1994 sp.s. c 7: "The legislature finds that the increasing violence in our society causes great concern for the immediate health and safety of our citizens and our social institutions. Youth violence is increasing at an alarming rate and young people between the ages of fifteen and twenty-four are at the highest risk of being perpetrators and victims of violence. Additionally, random violence, including homicide and the use of firearms, has dramatically increased over the last decade.

The legislature finds that violence is abhorrent to the aims of a free society and that it cannot be tolerated. State efforts at reducing violence must include changes in criminal penalties, reducing the unlawful use of and access to firearms, increasing educational efforts to encourage nonviolent means for resolving conflicts, and allowing communities to design their prevention efforts.

The legislature finds that the problem of violence can be addressed with many of the same approaches that public health programs have used to control other problems such as infectious disease, tobacco use, and traffic fatalities.

Addressing the problem of violence requires the concerted effort of all communities and all parts of state and local governments. It is the immediate purpose of chapter 7, Laws of 1994 sp. sess. to: (1) Prevent acts of violence
by encouraging change in social norms and individual behaviors that have been shown to increase the risk of violence; (2) reduce the rate of at-risk children and youth, as defined in *RCW 70.190.010; (3) increase the severity and certainty of punishment for youth and adults who commit violent acts; (4) reduce the severity of harm to individuals when violence occurs; (5) empower communities to focus their concerns and allow them to control the funds dedicated to empirically supported preventive efforts in their region; and (6) reduce the fiscal and social impact of violence on our society." [1994 sp.s. c 7 § 101.]

*Reviser's note: The governor vetoed 1994 sp.s. c 7 § 302, which amended RCW 70.190.010 to define "at-risk children and youth." RCW 70.190.010 was subsequently amended by 1996 c 132 § 2, which now includes a definition for "at-risk children." RCW 70.190.010 was subsequently repealed by 2011 1st sp.s. c 32 § 13, effective June 30, 2012.

*Reviser's note: Sections 901 through 909, chapter 7, Laws of 1994 sp. sess. were approved and ratified by the voters on November 8, 1994, in Referendum Bill No. 43. Therefore, the amendments to sections 510 through 512, 519, 521, 525, and 527, chapter 7, Laws of 1994 sp. sess. do not expire on July 1, 1995.

### 43.70.545 Data collection and reporting rules.

The department of health shall develop, based on recommendations in the public health services improvement plan and in consultation with affected groups or agencies, comprehensive rules for the collection and reporting of data relating to acts of violence, at-risk behaviors, and risk and protective factors. The data collection and reporting rules shall be used by any public or private entity that is required to report data relating to these behaviors and conditions. The department may require any agency or program that is state-funded or that accepts state funds and any licensed or regulated person or professional to report these behaviors and conditions. To the extent possible the department shall require the reports to be filed through existing data systems. The department may also require reporting of attempted acts of violence and of nonphysical injuries. For the purposes of this section "acts of violence" means self-directed and interpersonal behaviors that can result in suicide, homicide, and nonfatal intentional injuries. "At-risk behaviors," "protective factors," and "risk factors" have the same meanings as provided in *RCW 70.190.010. A copy of the data used by a school district to prepare and submit a report to the department shall be retained by the district and, in the copy retained by the district, identify the reported acts or behaviors by school site.

(2) The department is designated as the statewide agency for the coordination of all information relating to violence and other intentional injuries, at-risk behaviors, and risk and protective factors.

(3) The department shall provide necessary data to the local health departments for use in planning by or evaluation of any community network authorized under RCW 70.190.060.

(4) The department shall by rule establish requirements for local health departments to perform assessment related to at-risk behaviors and risk and protective factors and to assist community networks in policy development and in planning and other duties under chapter 7, Laws of 1994 sp. sess.

(5) The department may, consistent with its general authority and directives under RCW 43.70.540 through 43.70.560, contract with a college or university that has experience in data collection relating to the health and overall welfare of children to provide assistance to:

(a) State and local health departments in developing new sources of data to track acts of violence, at-risk behaviors, and risk and protective factors; and

(b) Local health departments to compile and effectively communicate data in their communities. [1998 c 245 § 76; 1994 sp.s. c 7 § 202.]

*Reviser's note: RCW 70.190.010 was repealed by 2011 1st sp.s. c 32 § 13, effective June 30, 2012.

Finding—Intent—Severability—Effective dates—Contingent expiration date—1994 sp.s. c 7: See notes following RCW 43.70.540.

#### 43.70.550 Public health services improvement plan—Contents.

The public health services improvement plan developed under *RCW 43.70.520 shall include:

(1) Minimum standards for state and local public health assessment, performance measurement, policy development, and assurance regarding social development to reduce at-risk behaviors and risk and protective factors. The department in the development of data collection and reporting requirements for the superintendent of public instruction, schools, and school districts shall consult with the joint select committee on education restructuring and local school districts.

(2)(a) Measurable risk factors that are empirically linked to violent criminal acts by juveniles, teen substance abuse, teen pregnancy and male parentage, teen suicide attempts, dropping out of school, child abuse or neglect, and domestic violence; and

(b) An evaluation of other factors to determine whether they are empirically related risk factors, such as: Out-of-home placements, poverty, single-parent households, inadequate nutrition, hunger, unemployment, lack of job skills, gang affiliation, lack of recreational or cultural opportunities, school absenteeism, court-ordered parenting plans, physical, emotional, or behavioral problems requiring special needs assistance in K-12 schools, learning disabilities, and any other possible factors.

(3) Data collection and analysis standards on at-risk behaviors and risk and protective factors for use by the local public health departments and the state council and the local community networks to ensure consistent and interchangeable data.

(4) Recommendations regarding any state or federal statutory barriers affecting data collection or reporting.

The department shall provide an annual report to the Washington state institute for public policy on the implementation of this section. [1994 sp.s. c 7 § 203.]

Reviser's note: *(1) RCW 43.70.520 was repealed by 1994 c 14 § 3. * **(2) RCW 70.170.030, which created the health care access and cost control council, was repealed by 1995 c 269 § 2204.

Finding—Intent—Severability—Effective dates—Contingent expiration date—1994 sp.s. c 7: See notes following RCW 43.70.540.

#### 43.70.555 Assessment standards.

The department shall establish, by rule, standards for local health departments and networks to use in assessment, performance measurement, policy development, and assurance regarding social development to prevent health problems caused by risk factors empirically linked to: Violent criminal acts by juveniles, teen substance abuse, teen pregnancy and male parentage, teen suicide attempts, dropping out of school, child abuse or neglect, and domestic violence. The standards shall be based on the standards set forth in the public health services
improvement plan as required by RCW 43.70.550. [2011 1st sp.s. c 32 § 8; 1998 c 245 § 77; 1994 sp.s. c 7 § 204.]

Transition plan—Report to the legislature—2011 1st sp.s. c 32: See note following RCW 70.305.005.

Finding—Intent—Severability—Effective dates—Contingent expiration date—1994 sp.s. c 7: See notes following RCW 43.70.540.

43.70.560 Media violence—Reporting reduction efforts. The legislature encourages the use of a statewide voluntary, socially responsible policy to reduce the emphasis, amount, and type of violence in all public media. The department shall develop a suggested reporting format for use by the print, television, and radio media in reporting their voluntary violence reduction efforts. Each area of the public media may carry out the policy in whatever manner that area deems appropriate. [1994 sp.s. c 7 § 205.]

Finding—Intent—Severability—1994 sp.s. c 7: See notes following RCW 43.70.540.

43.70.570 Intent—1995 c 43. The legislature declares its intent to implement the recommendations of the public health improvement plan by initiating a program to provide the public health system with the necessary capacity to improve the health outcomes of the population of Washington state and establishing the methodology by which improvement in the health outcomes and delivery of public health activities will be assessed. [1995 c 43 § 1.]

43.70.575 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout RCW 43.70.570 through *43.70.580.

(1) "Capacity" means actions that public health jurisdictions must do as part of ongoing daily operations to adequately protect and promote health and prevent disease, injury, and premature death. The public health improvement plan identifies capacity necessary for assessment, policy development, administration, prevention, including promotion and protection, and access and quality.

(2) "Department" means the department of health.

(3) "Local health jurisdiction" means the local health agency, either county or multicounty, operated by local government, with oversight and direction from a local board of health, that provides public health services throughout a defined geographic area.

(4) "Health outcomes" means long-term objectives that define optimal, measurable, future levels of health status, maximum acceptable levels of disease, injury, or dysfunction, or prevalence of risk factors in areas such as improving the rate of immunizations for infants and children to ninety percent and controlling and reducing the spread of tuberculosis and that are stated in the public health improvement plan.

(5) "Public health improvement plan," also known as the public health services improvement plan, means the public health services improvement plan established under *RCW 43.70.520, developed by the department in consultation with local health departments and districts, the state board of health, the health services commission, area Indian health services, and other state agencies, health services providers, and residents concerned about public health, to provide a detailed accounting of deficits in the core functions of assess-

ment, policy development, and assurance of the current public health system, how additional public health funding would be used, and to describe the benefits expected from expanded expenditures.

(6) "Public health" means activities that society does collectively to assure the conditions in which people can be healthy. This includes organized community efforts to prevent, identify, preempt, and counter threats to the public's health.

(7) "Public health system" means the department, the state board of health, and local health jurisdictions. [1995 c 43 § 2.]

Reviser's note: RCW 43.70.580 and 43.70.520 were repealed by 2019 c 14 § 3.

43.70.590 American Indian health care delivery plan. Consistent with funds appropriated specifically for this purpose, the department shall establish in conjunction with the area Indian health services system and providers an advisory group comprised of Indian and non-Indian health care facilities and providers to formulate an American Indian health care delivery plan. The plan shall include:

(1) Recommendations to providers and facilities methods for coordinating and joint venturing with the Indian health services for service delivery;

(2) Methods to improve American Indian-specific health programming;

(3) Creation of co-funding recommendations and opportunities for the unmet health services programming needs of American Indians. [1995 c 43 § 4; 1993 c 492 § 468. Formerly RCW 41.05.240.]

Reviser's note: RCW 41.05.240 was amended and recodified as RCW 43.70.590 by 1995 c 43 without cognizance of the repeal by 1995 1st sp.s. c 6 § 9. For rule of construction concerning sections amended and repealed in the same legislative session, see RCW 1.12.025.

Findings—Intent—1993 c 492: See notes following RCW 43.20.050.

43.70.600 Survey regarding exposure to radio frequencies—Results. When funds are appropriated for this purpose, the department shall conduct a survey of scientific literature regarding the possible health effects of human exposure to the radio frequency part of the electromagnetic spectrum (300Hz to 300GHz). The department may submit the survey results to the legislature, prepare a summary of that survey, and make the summary available to the public. The department may update the survey and summary periodically. [1998 c 245 § 78; 1996 c 323 § 6.]

Findings—1996 c 323: "The legislature finds that concerns have been raised over possible health effects from exposure to some wireless telecommunications facilities, and that exposures from these facilities should be kept as low as reasonably achievable while still allowing the operation of these networks. The legislature further finds that the department of health should serve as the state agency that follows the issues and compiles information pertaining to potential health effects from wireless telecommunications facilities." [1996 c 323 § 1.]

43.70.605 Personal wireless services—Random testing on power density analysis—Rules. Unless this section is preempted by applicable federal statutes, the department may require that in residential zones or areas, all providers of personal wireless services, as defined in *section 1 of this act, provide random test results on power density analysis for the provider's licensed frequencies showing radio frequency levels before and after development of the personal wireless service antenna facilities, following national standards or proto-
cals of the federal communications commission or other federal agencies. This section shall not apply to microcells as defined in RCW 80.36.375. The department may adopt rules to implement this section. [1996 c 323 § 7.]

*Reviser’s note: The reference to section 1 of this act is erroneous. Section 2 of the act, codified as RCW 43.21C.0384, was apparently intended.

Findings—1996 c 323: See note following RCW 43.70.600.

43.70.610 Domestic violence education program—Established—Findings. The legislature finds that domestic violence is the leading cause of injury among women and is linked to numerous health problems, including depression, abuse of alcohol and other drugs, and suicide. Despite the frequency of medical attention, few people are diagnosed as victims of spousal abuse. The department, in consultation with the disciplinary authorities as defined in RCW 18.130.040, shall establish, within available department general funds, an ongoing domestic violence education program as an integral part of its health professions regulation. The purpose of the education program is to raise awareness and educate health care professionals regarding the identification, appropriate treatment, and appropriate referral of victims of domestic violence. The disciplinary authorities having the authority to offer continuing education may provide training in the dynamics of domestic violence. No funds from the health professions account may be utilized to fund activities under this section unless the disciplinary authority authorizes expenditures from its proportions of the account. A disciplinary authority may defray costs by authorizing a fee to be charged for participants or materials relating to any sponsored program. [1996 c 191 § 89.]

43.70.615 Multicultural health awareness and education program—Integration into health professions basic education preparation curriculum. (1) For the purposes of this section, "multicultural health" means the provision of health care services with the knowledge and awareness of the causes and effects of the determinants of health that lead to disparities in health status between different genders and racial and ethnic populations and the practice skills necessary to respond appropriately.

(2) The department, in consultation with the disciplining authorities as defined in RCW 18.130.040, shall establish, within available department general funds, an ongoing multicultural health awareness and education program as an integral part of its health professions regulation. The purpose of the education program is to raise awareness and educate health care professionals regarding the knowledge, attitudes, and practice skills necessary to care for diverse populations to achieve a greater understanding of the relationship between culture and health. The disciplining authorities having the authority to offer continuing education may provide training in the dynamics of providing culturally competent, multicultural health care to diverse populations. Any such education shall be developed in collaboration with education programs that train students in that health profession. A disciplining authority may require that instructors of continuing education or continuing competency programs integrate multicultural health into their curricula when it is appropriate to the subject matter of the instruction. No funds from the health professions account may be utilized to fund activities under this section unless the disciplining authority authorizes expenditures from its proportions of the account. A disciplining authority may defray costs by authorizing a fee to be charged for participants or materials relating to any sponsored program.

(3) By July 1, 2008, each education program with a curriculum to train health professionals for employment in a profession credentialed by a disciplining authority under chapter 18.130 RCW shall integrate into the curriculum instruction in multicultural health as part of its basic education preparation curriculum. The department may not deny the application of any applicant for a credential to practice a health profession on the basis that the education or training program that the applicant successfully completed did not include integrated multicultural health curriculum as part of its basic instruction. [2006 c 237 § 2.]

Findings—2006 c 237: "The legislature finds that women and people of color experience significant disparities from the general population in education, employment, healthy living conditions, access to health care, and other social determinants of health. The legislature finds that it shall be a priority for the state to develop the knowledge, attitudes, and practice skills of health professionals and those working with diverse populations to achieve a greater understanding of the relationship between culture and health and gender and health." [2006 c 237 § 1.]

43.70.617 Prenatal nutrition best practices—Educational resources for pregnant women. The department shall develop and make available educational resources for pregnant women regarding prenatal nutrition best practices to promote infant health. The educational resources may include, but are not limited to, courses delivered in-person or electronically and pamphlets printed on paper or made available on the department’s web site. The educational resources are intended to provide pregnant women knowledge of healthy foods and essential daily nutrients needed to promote infant growth and development. [2014 c 38 § 1.]

43.70.620 List of contacts—Health care professions. The secretary shall create and maintain a list of contacts with each of the health care professions regulated under the following chapters for the purpose of policy advice and information dissemination: RCW 18.06.080, 18.89.050, and 18.138.070 and chapters *18.135, 18.85, and 18.88A RCW. [1999 c 151 § 402.]

*Reviser’s note: Chapter 18.135 RCW was repealed by 2012 c 153 § 20.

43.70.630 Cost-reimbursement agreements. (1) The department may enter into a written cost-reimbursement agreement with a permit applicant or project proponent to recover from the applicant or proponent the reasonable costs incurred by the department in carrying out the requirements of this chapter, as well as the requirements of other relevant laws, as they relate to permit coordination, environmental review, application review, technical studies, and permit processing.

(2) The cost-reimbursement agreement shall identify the tasks and costs for work to be conducted under the agreement. The agreement must include a schedule that states:

(a) The estimated number of weeks for initial review of the permit application;

(2019 Ed.) [Title 43 RCW—page 433]
(b) The estimated number of revision cycles;
(c) The estimated number of weeks for review of subsequent revision submittals;
(d) The estimated number of billable hours of employee time;
(e) The rate per hour; and
(f) A date for revision of the agreement if necessary.

(3) The written cost-reimbursement agreement shall be negotiated with the permit applicant or project proponent. Under the provisions of a cost-reimbursement agreement, funds from the applicant or proponent shall be used by the department to contract with an independent consultant to carry out the work covered by the cost-reimbursement agreement. The department may also use funds provided under a cost-reimbursement agreement to hire temporary employees, to assign current staff to review the work of the consultant, to provide necessary technical assistance when an independent consultant with comparable technical skills is unavailable, and to recover reasonable and necessary direct and indirect costs that arise from processing the permit. The department shall, in developing the agreement, ensure that final decisions that involve policy matters are made by the agency and not by the consultant. The department shall make an estimate of the number of permanent staff hours to process the permits, and shall contract with consultants or hire temporary employees to replace the time and functions committed by these permanent staff to the project. The billing process shall provide for accurate time and cost accounting and may include a billing cycle that provides for progress payments.

(4) The cost-reimbursement agreement must not negatively impact the processing of other permit applications. In order to maintain permit processing capacity, the agency may hire outside consultants, temporary employees, or make internal administrative changes. Consultants or temporary employees hired as part of a cost-reimbursement agreement or to maintain agency capacity are hired as agents of the state not of the permit applicant. The restrictions of chapter 42.52 RCW apply to any cost-reimbursement agreement, and to any person hired as a result of a cost-reimbursement agreement. [2009 c 97 § 10; 2007 c 94 § 12; 2003 c 70 § 3; 2000 c 251 § 4.]

Intention—Captions not law—Effective date—2000 c 251: See notes following RCW 43.21A.690.

43.70.640 Workplace breastfeeding policies—Infant-friendly designation. (1) An employer may use the designation "infant-friendly" on its promotional materials if the employer has an approved workplace breastfeeding policy addressing at least the following:

(a) Flexible work scheduling, including scheduling breaks and permitting work patterns that provide time for expression of breast milk;
(b) A convenient, sanitary, safe, and private location, other than a restroom, allowing privacy for breastfeeding or expressing breast milk;
(c) A convenient clean and safe water source with facilities for washing hands and rinsing breast-pumping equipment located in the private location specified in (b) of this subsection; and
(d) A convenient hygienic refrigerator in the workplace for the mother's breast milk.

(2) Employers seeking approval of a workplace breastfeeding policy must submit the policy to the department of health. The department of health shall review and approve those policies that meet the requirements of this section. The department may directly develop and implement the criteria for "infant-friendly" employers, or contract with a vendor for this purpose.

(3) For the purposes of this section, "employer" includes those employers defined in RCW 49.12.005 and also includes the state, state institutions, state agencies, political subdivisions of the state, and municipal corporations or quasi-municipal corporations. [2001 c 88 § 3.]

Acknowledgment—Declaration—Findings—2001 c 88: "(1) The legislature acknowledges the surgeon general's summons to all sectors of society and government to help redress the low breastfeeding rates and duration in the United States, including the social and workplace factors that can make it difficult for women to breastfeed. The legislature also acknowledges the surgeon general's report on the health and economic importance of breastfeeding which concludes that:

(a) Breastfeeding is one of the most important contributors to infant health;
(b) Breastfeeding provides a range of benefits for the infant's growth, immunity, and development; and
(c) Breastfeeding improves maternal health and contributes economic benefits to the family, health care system, and workplace.

(2) The legislature declares that the achievement of optimal infant and child health, growth, and development requires protection and support for the practice of breastfeeding. The legislature finds that:

(a) The American academy of pediatrics recommends exclusive breastfeeding for the first six months of a child's life and breastfeeding with the addition of solid foods to continue for at least twelve months, and that arrangements be made to provide expressed breast milk if the mother and child must separate during the first year.

(b) Breast milk contains all the nutrients a child needs for optimal health, growth, and development, many of which can only be found in breast milk;

(c) Research in developed countries provides strong evidence that breastfeeding decreases the incidence and/or severity of diarrhea, lower respiratory tract infection, otitis media, bacteremia, bacterial meningitis, urinary tract infection, and necrotizing enterocolitis. In addition, a number of studies show a possible protective effect of breastfeeding against SIDS, Type 1 diabetes mellitus, Crohn's disease, lymphoma, ulcerative colitis, and allergic diseases;

(d) Studies also indicate health benefits in mothers who breastfeed.

Breastfeeding is one of the few ways that mothers may be able to lower their risk of developing breast and ovarian cancer, with benefits proportional to the duration that they are able to breastfeed. In addition, the maternal hormonal changes stimulated by breastfeeding also help the uterus recover faster and minimize the amount of blood mothers lose after birth. Breastfeeding inhibits ovulation and menstrual bleeding, thereby decreasing the risk of anemia and a precipitous subsequent pregnancy. Breastfeeding women also have an earlier return to pre-pregnancy weight;

(e) Approximately two-thirds of women who are employed when they become pregnant return to the workforce by the time their children are six months old;

(f) Employers benefit when their employees breastfeed. Breastfed infants are sick less often; therefore, maternal absenteeism from work is lower in companies with established lactation programs. In addition, employee medical costs are lower and employee productivity is higher;

(g) According to a survey of mothers in Washington, most want to breastfeed but discontinue sooner than they hope, citing lack of societal and workplace support as key factors limiting their ability to breastfeed;

(h) Many mothers fear that they are not making enough breast milk and therefore decrease or discontinue breastfeeding. Frequency of breastfeeding or expressing breast milk is the main regulator of milk supply, such that forcing mothers to go prolonged periods without breastfeeding or expressing breast milk can undermine their ability to maintain breastfeeding; and

(i) Maternal stress can psychologically inhibit a mother's ability to produce and let down milk. Mothers report modifiable sources of stress related to breastfeeding, including lack of protection from harassment and difficulty..."
finding time and an appropriate location to express milk while away from their babies.

(3) The legislature encourages state and local governmental agencies, and private and public sector businesses to consider the benefits of providing convenient, sanitary, safe, and private rooms for mothers to express breast milk. [*2001 c 88 § 1.*]

43.70.650 School sealant endorsement program—Rules—Fee—Report to the legislature. The secretary is authorized to create a school sealant endorsement program for dental hygienists and dental assistants. The secretary of health, in consultation with the dental quality assurance commission and the dental hygiene examining committee, shall adopt rules to implement this section.

(1) A dental hygienist licensed in this state after April 19, 2001, is eligible to apply for endorsement by the department of health as a school sealant dental hygienist upon completion of the Washington state school sealant endorsement program. While otherwise authorized to act, currently licensed hygienists may still elect to apply for the endorsement.

(2) A dental assistant employed after April 19, 2001, by a dentist licensed in this state, who has worked under dental supervision for at least two hundred hours, is eligible to apply for endorsement by the department of health as a school sealant dental assistant upon completion of the Washington state school sealant endorsement program. While otherwise authorized to act, currently employed dental assistants may still elect to apply for the endorsement.

(3) The department may impose a fee for implementation of this section.

(4) The secretary shall provide a report to the legislature by December 1, 2005, evaluating the outcome of chapter 93, Laws of 2001. [*2001 c 93 § 2.*]

(2) The legislature finds that parents and other persons responsible for the care of infants and children are often unaware that some of these consumer products have been recalled or are unsafe.

(3) The legislature intends to address this lack of awareness by establishing a statewide infant and children product safety campaign across Washington state." [*2001 c 257 § 1.*]

43.70.665 Early detection breast and cervical cancer screening program—Medical advisory committee. (1) The legislature finds that Washington state has the highest incidence of breast cancer in the nation. Despite this, mortality rates from breast cancer have declined due largely to early screening and detection. Invasive cervical cancer is the most preventable type of cancer. The Pap test, used to detect early signs of this disease, has been called "medicine's most successful screening test." Applied consistently, invasive cervical cancer could nearly be eliminated. The legislature further finds that increasing access to breast and cervical cancer screening is critical to reducing incidence and mortality rates, and eliminating the disparities of this disease in women in Washington state. Furthermore, the legislature finds there is a need for a permanent program providing early detection and screening to the women and families of Washington state.

It is the intent of the legislature to establish an early detection breast and cervical cancer screening program as a voluntary screening program directed at reducing mortalities through early detection to be offered to eligible women only as funds are available.

(2) As used in this section:

(a) "Eligible woman" means a woman who is age forty to sixty-four, and whose income is at or below two hundred fifty percent of the federal poverty level, as published annually by the federal department of health and human services. If it appears that continued enrollment in the program shall not result in expenditures that exceed the appropriated in the biennial budget to support the program. a. Farmers market basic food incentives to provide eligible participants with extra benefits to purchase fruits and vegetables at authorized farmers markets when the participant uses basic food benefits; and

b. Grocery store basic food incentives to provide eligible participants with extra benefits to purchase fruits and vegetables at authorized grocery stores when the participant uses basic food benefits; and

c. Fruit and vegetable vouchers provided by a health care provider, health educator, community health worker, or other health professional to an eligible participant for use at an authorized farmers market or grocery store.

2. Subject to the availability of amounts appropriated for this specific purpose, the department shall administer the fruit and vegetable incentives program. As part of its duties, the department shall:

Program partners may include farmers markets, grocery stores, government agencies, health care systems, and nonprofit organizations; and

c. Adopt rules to implement this section.

3. Farmers market basic food incentives may be provided to eligible participants for use at farmers markets authorized by the department. The incentives are additional funds that may be used to purchase eligible fruits and vegetables as defined by the department. When authorizing a participating farmers market, the department may give preference to a farmers market that accepts or has previously accepted supplemental nutrition assistance program benefits, has the capacity to accept supplemental nutrition assistance program benefits, or is located in a county with a high level of food insecurity, as defined by the department.

4. Grocery store basic food incentives may be provided to eligible participants for use at a grocery store that is an authorized supplemental nutrition assistance program retailer and approved by the department. The incentives are additional funds that may be used to purchase eligible fruits and vegetables as defined by the department. When approving a participating grocery store, the department may give preference to a store that is located in a county with a high level of food insecurity.

5. Fruit and vegetable vouchers are cash-value vouchers that may be distributed by a participating health care provider, health educator, community health worker, or other health professional to a patient who is eligible for basic food and has a qualifying health condition, as defined by the department, or is food insecure. The voucher may be redeemed at a participating retailer, including an authorized farmers market or grocery store. The department shall approve participating health care systems and may give preference to systems that have operated fruit and vegetable prescription programs, routinely screen patients for food insecurity, have a high percentage of patients who are medicaid clients, or are located in a county with a high level of food insecurity.

6. Subject to the availability of funds, the department must evaluate the fruit and vegetable incentives program effectiveness. When conducting the evaluation, the depart-
ment must collect information related to fruit and vegetable consumption by eligible participants, levels of food security, and likely impacts on public health outcomes as a result of the program. By July 1, 2021, and in compliance with RCW 43.01.036, the department must submit a progress report to the governor and the legislature describing the results of the program and recommending any legislative or programmatic changes to improve the effectiveness of program delivery. By December 1, 2023, the department must submit a complete program evaluation describing the program's effectiveness and including any additional recommendations for program improvements.

(7) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Eligible participant" means:

(i) For the purposes of subsection (1)(a) and (b) of this section, a recipient of basic food benefits, including the supplemental nutrition assistance program and the food assistance program, as authorized under Title 74 RCW; or

(ii) For the purposes of subsection (1)(c) of this section, a person who is determined to be food insecure by a participating health care provider.

(b) "Food insecure" means a state in which consistent access to adequate food is limited by a lack of money and other resources at times during the year. [2019 c 168 § 2.]

Findings—Intent—2019 c 168: *(1) The legislature finds that nearly eleven percent of Washington households, including more than two hundred eighty thousand children, are food insecure with limited or uncertain availability of nutritionally adequate and safe foods. The legislature further finds that food insecurity contributes to poor quality diets; chronic medical conditions such as diabetes, heart disease, and hypertension; and negative outcomes for children and families, including harmful effects on behavioral health. Further, food insecurity disproportionately affects people with low incomes, people of color, and rural residents.

(2) The legislature finds that food assistance programs such as the special supplemental nutrition program for women, infants, and children and the supplemental nutrition assistance program are effective in significantly reducing food insecurity; that participants report difficulty affording and accessing healthy foods; and that fruit and vegetable consumption among such food assistance program participants is far below national dietary guidelines.

(3) The legislature finds that the state department of health has successfully managed a food insecurity nutrition incentives grant from the United States department of agriculture that provides a framework for providing food assistance program participants with two million dollars in fruit and vegetable incentives have been redeemed by food insecure Washingtonians through this grant, helping to alleviate food insecurity and increase fruit and vegetable consumption.

(4) Therefore, the legislature intends to create a state fruit and vegetable incentives program to benefit people who are food insecure, our agricultural industry, and retailers across the state." [2019 c 168 § 1.]

43.71.080 Assessment to fund exchange—Generally—Stand-alone dental plans. (1)(a) Beginning January 1, 2015, the exchange may require each issuer writing premiums for qualified health benefit plans or stand-alone pediatric dental plans offered through the exchange to pay an assessment in an amount necessary to fund the operations of the exchange, applicable to operational costs incurred beginning January 1, 2015.
(b) The assessment is an exchange user fee. Assessments of issuers may be made only if the amount of expected premium tax received from stand-alone family dental plans, as provided under RCW 48.14.0201(5)(b) and 48.14.0202, in the current year is insufficient to fund the operational costs estimated to be attributable to offering such stand-alone family dental plans in the exchange, including an allocation of costs to proportionately cover overall exchange operational costs, in the following calendar year, plus three months of additional operating costs.
(c) A health benefit plan or stand-alone dental plan may identify the amount of the assessment to enrollees, but must not bill the enrollee for the amount of the assessment separately from the premium.
(2) The board, in collaboration with the issuers, the health care authority, and the commissioner, must establish a fair and transparent process for calculating the assessment amount. The process must meet the following requirements:
(a) The assessment only applies to issuers that offer coverage in the exchange and only for those market segments offered and must be based on the number of enrollees in qualified health plans and stand-alone dental plans in the exchange for a calendar year;
(b) The assessment must be established on a flat dollar and cents amount per member per month, and the assessment for stand-alone pediatric dental plans must be proportional to the premiums paid for stand-alone dental plans in the exchange;
(c) Issuers must be notified of the assessment amount by the exchange on a timely basis;
(d) An appropriate assessment reconciliation process must be established by the exchange that is administratively efficient;
(e) Issuers must remit the assessment due to the exchange in quarterly installments after receiving notification from the exchange of the due dates of the quarterly installments;
(f) A procedure must be established to allow issuers subject to assessments under this section to have grievances reviewed by an impartial body and reported to the board; and
(g) A procedure for enforcement must be established if an issuer fails to remit its assessment amount to the exchange within ten business days of the quarterly installment due date.
(3)(a) The exchange may require each issuer writing premiums for stand-alone family dental plans offered through the exchange to pay an assessment in an amount necessary to fund the operational costs of offering family dental plans in the exchange, applicable to operational costs incurred beginning January 1, 2017.
(b) The assessment is an exchange user fee. Assessments of issuers may be made only if the amount of expected premium tax received from stand-alone family dental plans, as provided under RCW 48.14.0201(5)(b) and 48.14.0202, in the current year is insufficient to fund the operational costs estimated to be attributable to offering such stand-alone family dental plans in the exchange, including an allocation of costs to proportionately cover overall exchange operational costs, in the following calendar year, plus three months of additional operating costs.
(c) If the exchange is charging an assessment, the exchange shall display the amount of the assessment per member per month for enrollees. A stand-alone family dental plan may identify the amount of the assessment to enrollees, but must not bill the enrollee for the amount of the assessment separately from the premium.
(d) The board, in collaboration with the family dental issuers and the commissioner, must establish a fair and transparent process for calculating the assessment amount, including the allocation of overall exchange operational costs. The process must meet the following requirements:
(i) The assessment only applies to issuers that offer stand-alone family dental plans in the exchange and must be
based on the number of enrollees in such plans in the exchange for a calendar year;

(ii) The assessment must be established on a flat dollar and cents amount per member per month;

(iii) The requirements included in subsection (2)(c) through (g) of this section shall apply to the assessment described in this subsection (3).

(4) For purposes of this section:

(a) "Stand-alone family dental plan" means coverage for limited scope dental benefits meeting the requirements of section 9832(c)(2)(A) of the internal revenue code of 1986 and providing pediatric oral services that qualify as coverage for the minimum essential coverage requirement under applicable federal and state law.

(5) The exchange shall deposit proceeds from the assessment in the health benefit exchange account under RCW 43.71.060.

(6) The assessment described in this section shall be considered a special purpose obligation or assessment in connection with coverage described in this section for the purpose of funding the operations of the exchange, and may not be applied by issuers to vary premium rates at the plan level.

(7) This section does not prohibit an enrollee of a qualified health plan in the exchange from purchasing a plan that offers dental benefits outside the exchange.

(8) This section does not prohibit an issuer from offering a plan that covers dental benefits that do not meet the requirements of a stand-alone family dental plan outside the exchange.

(9) The exchange shall monitor enrollment and provide periodic reports which must be available on its web site.

(10) The board shall offer all qualified health plans through the exchange, and the exchange shall not add criteria for certification of qualified health plans beyond those set out in RCW 43.71.065 without specific statutory direction. Nothing shall be construed to limit duties, obligations, and authority otherwise legislatively delegated or granted to the exchange. [2018 c 44 § 8; 2016 c 133 § 3; 2013 2nd sp.s. c 6 § 3.]

43.71.095 Standardized health plans. (1) The exchange, in consultation with the commissioner, the authority, an independent actuary, and other stakeholders, must establish up to three standardized health plans for each of the bronze, silver, and gold levels.

(a) The standardized health plans must be designed to reduce deductibles, make more services available before the deductible, provide predictable cost sharing, maximize subsidies, limit adverse premium impacts, reduce barriers to maintaining and improving health, and encourage choice based on value, while limiting increases in health plan premium rates.

(b) The exchange may update the standardized health plans annually.

(c) The exchange must provide a notice and public comment period before finalizing each year's standardized health plans.

(d) The exchange must provide written notice of the standardized health plans to licensed health carriers by January 31st before the year in which the health plans are to be offered on the exchange. The exchange may make modifications to the standardized plans after January 31st to comply with changes to state or federal law or regulations.

(2)(a) Beginning January 1, 2021, any health carrier offering a qualified health plan on the exchange must offer one silver standardized health plan and one gold standardized health plan on the exchange. If a health carrier offers a bronze health plan on the exchange, it must offer one bronze standardized health plan on the exchange.

(b)(i) A health plan offering a standardized health plan under this section may also offer nonstandardized health plans on the exchange.

(ii) The exchange, in consultation with the office of the insurance commissioner, shall analyze the impact to exchange consumers of offering only standard plans beginning in 2025 and submit a report to the appropriate committees of the legislature by December 1, 2023. The report must include an analysis of how plan choice and affordability will be impacted for exchange consumers across the state.

(iii) The actuarial value of nonstandardized silver health plans offered on the exchange may not be less than the actuarial value of the standardized silver health plan with the lowest actuarial value.

(c) A health carrier offering a standardized health plan on the exchange under this section must continue to meet all requirements for qualified health plan certification under RCW 43.71.065 including, but not limited to, requirements relating to rate review and network adequacy. [2019 c 364 § 1.]

43.71.900 Conflict with federal requirements—2011 c 317. If any part of this act is found to be in conflict with federal requirements that are a prescribed condition to the allocation of federal funds to the state, the conflicting part of this act is inoperative solely to the extent of the conflict and with respect to the agencies directly affected, and this finding does not affect the operation of the remainder of this act in its application to the agencies concerned. Rules adopted under this act must meet federal requirements that are a necessary condition to the receipt of federal funds by the state. [2011 c 317 § 9.]

43.71.901 Spiritual care services—2012 c 87. Nothing in chapter 87, Laws of 2012 prohibits the offering of benefits for spiritual care services deductible under section 213(d) of the internal revenue code in health plans inside and outside of the exchange. [2012 c 87 § 14.]

43.71B.040 Indian health improvement reinvestment account. (1) The Indian health improvement reinvestment account is created in the custody of the state treasurer. All receipts from new state savings as defined in RCW 43.71B.010 and any other moneys appropriated to the account must be deposited into the account. 43.71B.900 Short title. This chapter may be known and cited as the "Washington Indian health improvement act." [2019 c 282 § 6.]
43.71B.901 Findings—Intent—2019 c 282. (1) The legislature finds that:
(a) As set forth in 25 U.S.C. Sec. 1602, it is the policy of the nation, in fulfillment of its special trust responsibilities and legal obligations to American Indians and Alaska Natives, to:
(i) Ensure the highest possible health status for American Indians and Alaska Natives and to provide all resources necessary to effect that policy;
(ii) Raise the health status of American Indians and Alaska Natives to at least the levels set forth in the goals contained within the healthy people 2020 initiative or successor objectives; and
(iii) Ensure tribal self-determination and maximum participation by American Indians and Alaska Natives in the direction of health care services so as to render the persons administering such services and the services themselves more responsive to the needs and desires of tribes and American Indian and Alaska Native communities;
(b) According to the northwest tribal epidemiology center and the department of health, American Indians and Alaska Natives in the state experience some of the greatest health disparities compared to other groups, including excessively high rates of:
(i) Premature mortality due to suicide, overdose, unintentional injury, and various chronic diseases; and
(ii) Asthma, coronary heart disease, hypertension, diabetes, prediabetes, obesity, dental caries, poor mental health, youth depressive feelings, cigarette smoking and vaping, and cannabis use;
(c) These health disparities are a direct result of both historical trauma, leading to adverse childhood experiences across multiple generations, and inadequate levels of federal funding to the Indian health service;
(d) Under a 2016 update in payment policy from the centers for medicare and medicaid services, the state has the opportunity to shift more of the cost of care for American Indian and Alaska Native medicaid enrollees from the state general fund to the federal government if all of the federal requirements are met;
(e) Because the federal requirements to achieve this cost shift and obtain the new federal funds place significant administrative burdens on Indian health service and tribal health facilities, the state has no way to shift these costs of care to the federal government unless the state provides incentives for tribes to take on these administrative burdens; and
(f) The federal government’s intent for this update in payment policy is to help states, the Indian health service, and tribes to improve delivery systems for American Indians and Alaska Natives by increasing access to care, strengthening continuity of care, and improving population health.
(2) The legislature, therefore, intends to:
(a) Establish that it is the policy of this state and the intent of this chapter, in fulfillment of the state’s unique relationships and shared respect between sovereign governments, to:
(i) Recognize the United States’ special trust responsibility to provide quality health care and allied health services to American Indians and Alaska Natives, including those individuals who are residents of this state; and

43.72.300 Managed competition—Findings and intent. (1) The legislature recognizes that competition among health care providers, facilities, payers, and purchasers will yield the best allocation of health care resources, the lowest prices for health care services, and the highest quality of health care when there exists a large number of buyers and sellers, easily comparable health plans and services, minimal barriers to entry and exit into the health care market, and adequate information for buyers and sellers to base purchasing and production decisions. However, the legislature finds that purchasers of health care services and health care coverage do not have adequate information upon which to base purchasing decisions; that health care facilities and providers of health care services face legal and market disincentives to develop economies of scale or to provide the most cost-effi-
cient and efficacious service; that health insurers, contractors, and health maintenance organizations face market disincentives in providing health care coverage to those Washington residents with the most need for health care coverage; and that potential competitors in the provision of health care coverage bear unequal burdens in entering the market for health care coverage.

(2) The legislature therefore intends to exempt from state anti-trust laws, and to provide immunity from federal anti-trust laws through the state action doctrine for activities approved under this chapter that might otherwise be constrained by such laws and intends to displace competition in the health care market: To contain the aggregate cost of health care services; to promote the development of comprehensive, integrated, and cost-effective health care delivery systems through cooperative activities among health care providers and facilities; to promote comparability of health care coverage; to improve the cost-effectiveness in providing health care coverage relative to health promotion, disease prevention, and the amelioration or cure of illness; to assure universal access to a publicly determined, uniform package of health care benefits; and to create reasonable equity in the distribution of funds, treatment, and medical risk among purchasers of health care coverage, payers of health care services, providers of health care services, health care facilities, and Washington residents. To these ends, any lawful action taken pursuant to chapter 492, Laws of 1993 by any person or entity created or regulated by chapter 492, Laws of 1993 are declared to be taken pursuant to state statute and in furtherance of the public purposes of the state of Washington.

(3) The legislature does not intend and unless explicitly permitted in accordance with RCW 43.72.310 or under rules adopted pursuant to chapter 492, Laws of 1993, does not authorize any person or entity to engage in activities or to conspire to engage in activities that would constitute per se violations of state and federal anti-trust laws including but not limited to conspiracies or agreements:
(a) Among competing health care providers not to grant discounts, not to provide services, or to fix the price of their services;
(b) Among health carriers as to the price or level of reimbursement for health care services;
(c) Among health carriers to boycott a group or class of health care service providers;
(d) Among purchasers of health plan coverage to boycott a particular plan or class of plans;
(e) Among health carriers to divide the market for health care coverage; or
(f) Among health carriers and purchasers to attract or discourage enrollment of any Washington resident or groups of residents in a health plan based upon the perceived or actual risk of loss in including such resident or group of residents in a health plan or purchasing group. 43.72.310 Managed competition—Competitive oversight—Attorney general duties—Anti-trust immunity—Fees. (1) A health carrier, health care facility, health care provider, or other person involved in the development, delivery, or marketing of health care or health plans may request,
in writing, that the department of health obtain an informal opinion from the attorney general as to whether particular conduct is authorized by chapter 492, Laws of 1993. Trade secret or proprietary information contained in a request for informal opinion shall be identified as such and shall not be disclosed other than to an authorized employee of the department of health or attorney general without the consent of the party making the request, except that information in summary or aggregate form and market share data may be contained in the informal opinion issued by the attorney general. The attorney general shall issue such opinion within thirty days of receipt of a written request for an opinion or within thirty days of receipt of any additional information requested by the attorney general necessary for rendering an opinion unless extended by the attorney general for good cause shown. If the attorney general concludes that such conduct is not authorized by chapter 492, Laws of 1993, the person or organization making the request may petition the department of health for review and approval of such conduct in accordance with subsection (3) of this section.

(2) After obtaining the written opinion of the attorney general and consistent with such opinion, the department of health:

(a) May authorize conduct by a health carrier, health care facility, health care provider, or any other person that could tend to lessen competition in the relevant market upon a strong showing that the conduct is likely to achieve the policy goals of chapter 492, Laws of 1993 and a more competitive alternative is impractical;

(b) Shall adopt rules governing conduct among providers, health care facilities, and health care providers including rules governing provider and facility contracts with health carriers, rules governing the use of "most favored nation" clauses and exclusive dealing clauses in such contracts, and rules providing that health carriers in rural areas contract with a sufficient number and type of health care providers and facilities to ensure consumer access to local health care services;

(c) Shall adopt rules permitting health care providers within the service area of a plan to collectively negotiate the terms and conditions of contracts with a health carrier including the ability of providers to meet and communicate for the purposes of these negotiations;

(d) Shall adopt rules governing cooperative activities among health care facilities and providers; and

(e) Effective July 1, 1997, in addition to the rule-making authority granted to the department under this section, the department shall have the authority to enforce and administer rules previously adopted by the health services commission and the health care policy board pursuant to RCW 43.72.310.

(3) A health carrier, health care facility, health care provider, or any other person involved in the development, delivery, and marketing of health care services or health plans may file a written petition with the department of health requesting approval of conduct that could tend to lessen competition in the relevant market. Such petition shall be filed in a form and manner prescribed by rule of the department of health.

The department of health shall issue a written decision approving or denying a petition filed under this section within ninety days of receipt of a properly completed written petition unless extended by the department of health for good cause shown. The decision shall set forth findings as to benefits and disadvantages and conclusions as to whether the benefits outweigh the disadvantages.

(4) In authorizing conduct and adopting rules of conduct under this section, the department of health with the advice of the attorney general, shall consider the benefits of such conduct in furthering the goals of health care reform including but not limited to:

(a) Enhancement of the quality of health services to consumers;

(b) Gains in cost efficiency of health services;

(c) Improvements in utilization of health services and equipment;

(d) Avoidance of duplication of health services resources; or

(e) And as to (b) and (c) of this subsection: (i) Facilitates the exchange of information relating to performance expectations; (ii) simplifies the negotiation of delivery arrangements and relationships; and (iii) reduces the transactions costs on the part of health carriers and providers in negotiating more cost-effective delivery arrangements.

These benefits must outweigh disadvantages including and not limited to:

(i) Reduced competition among health carriers, health care providers, or health care facilities;

(ii) Adverse impact on quality, availability, or price of health care services to consumers;

(iii) The availability of arrangements less restrictive to competition that achieve the same benefits.

(5) Conduct authorized by the department of health shall be deemed taken pursuant to state statute and in the furtherance of the public purposes of the state of Washington.

(6) With the assistance of the attorney general's office, the department of health shall actively supervise any conduct authorized under this section to determine whether such conduct or rules permitting certain conduct should be continued and whether a more competitive alternative is practical. The department of health shall periodically review petitioned conduct through, at least, annual progress reports from petitioners, annual or more frequent reviews by the department of health that evaluate whether the conduct is consistent with the petition, and whether the benefits continue to outweigh any disadvantages. If the department of health determines that the likely benefits of any conduct approved through rule, petition, or otherwise by the department of health no longer outweigh the disadvantages attributable to potential reduction in competition, the department of health shall order a modification or discontinuance of such conduct. Conduct ordered discontinued by the department of health shall no longer be deemed to be taken pursuant to state statute and in the furtherance of the public purposes of the state of Washington.

(7) Nothing contained in chapter 492, Laws of 1993 is intended to in any way limit the ability of rural hospital districts to enter into cooperative agreements and contracts pursuant to RCW 70.44.450 and chapter 39.34 RCW.

(8) The secretary of health shall from time to time establish fees to accompany the filing of a petition or a written request to the department to obtain an opinion from the attorney general under this section and for the active supervision of conduct approved under this section. Such fees may vary
43.72.860 Managed care pilot projects. (1) The department of labor and industries, in consultation with the workers' compensation advisory committee, may conduct pilot projects to purchase medical services for injured workers through managed care arrangements. The projects shall assess the effects of managed care on the cost and quality of, and employer and employee satisfaction with, medical services provided to injured workers.

(2) The pilot projects may be limited to specific employers. The implementation of a pilot project shall be conditioned upon a participating employer and a majority of its employees, or, if the employees are represented for collective bargaining purposes, the exclusive bargaining representative, voluntarily agreeing to the terms of the pilot. Unless the project is terminated by the department, both the employer and employees are bound by the project agreements for the duration of the project.

(3) Solely for the purpose and duration of a pilot project, the specific requirements of Title 51 RCW that are identified by the department as otherwise prohibiting implementation of the pilot project shall not apply to the participating employers and employees to the extent necessary for conducting the project. Managed care arrangements for the pilot projects may include the designation of doctors responsible for the care delivered to injured workers participating in the projects.

43.72.902 Public health services account. The public health services account is created in the state treasury. Moneys in the account may be spent only after appropriation. Moneys in the account may be expended only for maintaining and improving the health of Washington residents through the public health system. For purposes of this section, the public health system shall consist of the state board of health, the state department of health, and local health departments and districts. During the 2001-2003 biennium, moneys in the fund may also be used for costs associated with hepatitis C testing and treatment in correctional facilities. Findings—Intent—2019 c 406: "The legislature finds that Washington residents have the opportunity to succeed in a competitive global economy by investing in Washington students for Washington jobs. The legislature finds that Washington state is expected to have seven hundred forty thousand job openings by 2021 and that most of these projected openings will be filled by workers with a postsecondary credential, such as a degree, apprenticeship, or certificate. The legislature finds that the state must focus on educational opportunities with targeted investments to keep tuition low and expand capacity for in-state students. The legislature also finds that currently only forty percent of Washington's high school students earn such a credential by age twenty-six, when seventy percent is the goal set by industry and business leaders intent on hiring Washington-educated workers. The legislature finds that Washington state already has several successful programs that help Washington students train for Washington jobs, including the state need grant, the guided pathways initiative at the community and technical colleges, and degree and apprenticeship programs in high-demand fields, such as computer science, engineering, nursing, and more. The legislature further finds that providing additional resources for workforce investments is critical in maintaining Washington's competitiveness in the global economy by ensuring businesses are able to hire Washington talent. Therefore, the legislature intends to create the new workforce education investment account, supported by professions that depend on higher education, that will expand existing investments to help people earn the credentials essential to obtain family-wage jobs and fill the seven hundred forty thousand jobs of the future." 43.81.020 Availability of state-owned or leased living facilities.
43.81.030 Rent—Custodial housekeeping—Damages.

43.81.010 Legislative declaration. The legislature recognizes that significant benefits accrue to the state and that certain types of state operations are more efficient when personnel services are available on an extended basis. Such operations include certain types of facilities managed by agencies such as the departments of natural resources, corrections, fish and wildlife, social and health services, transportation, and veterans affairs, and the parks and recreation commission.

The means of assuring that such personnel are available on an extended basis is through the establishment of on-site state-owned or leased living facilities. The legislature also recognizes the restrictions and hardship placed upon those personnel who are required to reside in such state-owned or leased living facilities in order to provide extended personnel services.

(1994 c 264 § 27; 1988 c 36 § 19; 1985 c 463 § 1.)

43.81.020 Availability of state-owned or leased living facilities. (1) Whenever an agency requires that an employee reside in state-owned or leased living facilities as a condition of employment, such living facilities shall be made available to the employee under the conditions set forth in RCW 43.81.030 and 43.81.040.

(2) Whenever an agency determines that (a) a living facility owned or leased by the agency is not occupied by employees under subsection (1) of this section and (b) it would be to the agency’s benefit to have the facility occupied by an employee of the agency whose duties involve extended personnel services associated with the work site upon which the living facility is located or at work site near to where the living facility is located, the agency may make the facility available to such employee.

(3) Whenever an agency determines that (a) a living facility owned or leased by the agency is not occupied by employees under subsection (1) of this section and (b) the facility has been made available to employees under subsection (2) of this section and that no such employees have opted to reside in the facility, the agency may make the facility available for occupancy to other interested parties. [1985 c 463 § 2.]

Such responsibility shall not include maintenance, repairs, or improvements to the facilities. An occupant of a state-owned or leased facility is liable for damages to the facility in excess of normal wear and tear. [1989 c 11 § 16; 1985 c 463 § 3.]

43.81.040 Maintenance in safe, healthful condition. The state shall maintain living facilities occupied under RCW 43.81.020 in a safe, healthful condition. [1985 c 463 § 4.]

43.82.010 Acquisition, lease, and disposal of real estate for state agencies—Long-range planning—Use of lease as collateral or security—Colocation and consolidation—Studies—Delegation of functions—Exemptions.

(1) The director of enterprise services, on behalf of the agency involved and after consultation with the office of financial management, shall purchase, lease, lease purchase, rent, or otherwise acquire all real estate, improved or unimproved, as may be required by elected state officials, institutions, departments, commissions, boards, and other state agencies, or federal agencies where joint state and federal activities are undertaken and may grant easements and transfer, exchange, sell, lease, or sublease all or part of any surplus real estate for those state agencies which do not otherwise have the specific authority to dispose of real estate. Any such transfer, exchange, or sale must comply with RCW 43.17.400, and may be made in accordance with RCW 39.33.015. This section does not transfer financial liability for the acquired property to the department of enterprise services.

(2) Except for real estate occupied by federal agencies, the director shall determine the location, size, and design of any real estate or improvements thereon acquired or held pursuant to subsection (1) of this section. Facilities acquired or held pursuant to this chapter, and any improvements thereon, shall conform to standards adopted by the director and approved by the office of financial management governing facility efficiency unless a specific exemption from such standards is provided by the director of enterprise services. The director of enterprise services shall report to the office of financial management and the appropriate committees of the legislature annually on any exemptions granted pursuant to this subsection.

(3) Except for leases permitted under subsection (4) of this section, the director of enterprise services may fix the terms and conditions of each lease entered into under this chapter, except that no lease shall extend greater than twenty years in duration. The director of enterprise services may enter into a long-term lease greater than ten years in duration upon a determination by the director of the office of financial management that the long-term lease provides a more favorable rate than would otherwise be available, it appears to a substantial certainty that the facility is necessary for use by the state for the full length of the lease term, and the facility meets the standards adopted pursuant to subsection (2) of this section. The director of enterprise services may enter into a long-term lease greater than ten years in duration if an analysis shows that the life-cycle cost of leasing the facility is less than the life-cycle cost of purchasing or constructing a facility in lieu of leasing the facility.

(4) The director of enterprise services may fix the terms of leases for property under the department of enterprise services' control at the former Northern State Hospital site for up to sixty years.

(5) Except as permitted under chapter 39.94 RCW, no lease for or on behalf of any state agency may be used or referred to as collateral or security for the payment of securities offered for sale through a public offering. Except as permitted under chapter 39.94 RCW, no lease for or on behalf of any state agency may be used or referred to as collateral or security for the payment of securities offered for sale through a private placement without the prior written approval of the state treasurer. However, this limitation shall not prevent a lessor from assigning or encumbering its interest in a lease as security for the repayment of a promissory note provided that the transaction would otherwise be an exempt transaction under RCW 21.20.320. The state treasurer shall adopt rules that establish the criteria under which any such approval may be granted. In establishing such criteria the state treasurer shall give primary consideration to the protection of the state's credit rating and the integrity of the state's debt management program. If it appears to the state treasurer that any lease has been used or referred to in violation of this subsection or rules adopted under this subsection, then he or she may recommend that the governor cause such lease to be terminated. The department of enterprise services shall promptly notify the state treasurer whenever it may appear to the department that any lease has been used or referred to in violation of this subsection or rules adopted under this subsection.

(6) It is the policy of the state to encourage the colocation and consolidation of state services into single or adjacent facilities, whenever appropriate, to improve public service delivery, minimize duplication of facilities, increase efficiency of operations, and promote sound growth management planning.

(7) The director of enterprise services shall provide coordinated long-range planning services to identify and evaluate opportunities for collocating and consolidating state facilities. Upon the renewal of any lease, the inception of a new lease, or the purchase of a facility, the director of enterprise services shall determine whether an opportunity exists for collocating the agency or agencies in a single facility with other agencies located in the same geographic area. If a colocation opportunity exists, the director of enterprise services shall consult with the affected state agencies and the office of financial management to evaluate the impact colocation would have on the cost and delivery of agency programs, including whether program delivery would be enhanced due to the centralization of services. The director of enterprise services, in consultation with the office of financial management, shall develop procedures for implementing colocation and consolidation of state facilities.

(8) The director of enterprise services is authorized to purchase, lease, rent, or otherwise acquire improved or unimproved real estate as owner or lessee and to lease or sublet all or a part of such real estate to state or federal agencies. The director of enterprise services shall charge each using agency its proportionate rental which shall include an amount suffi-
cient to pay all costs, including, but not limited to, those for utilities, janitorial and accounting services, and sufficient to provide for contingencies; which shall not exceed five percent of the average annual rental, to meet unforeseen expenses incident to management of the real estate.

(9) If the director of enterprise services determines that it is necessary or advisable to undertake any work, construction, alteration, repair, or improvement on any real estate acquired pursuant to subsection (1) or (8) of this section, the director shall cause plans and specifications thereof and an estimate of the cost of such work to be made and filed in his or her office and the state agency benefiting thereby is hereby authorized to pay for such work out of any available funds: PROVIDED, That the cost of executing such work shall not exceed the sum of twenty-five thousand dollars. Work, construction, alteration, repair, or improvement in excess of twenty-five thousand dollars, other than that done by the owner of the property if other than the state, shall be performed in accordance with the public works law of this state.

(10) In order to obtain maximum utilization of space, the director of enterprise services shall make space utilization studies, and shall establish standards for use of space by state agencies. Such studies shall include the identification of opportunities for colocation and consolidation of state agency office and support facilities.

(11) The director of enterprise services may construct new buildings on, or improve existing facilities, and furnish and equip, all real estate under his or her management. Prior to the construction of new buildings or major improvements to existing facilities or acquisition of facilities using a lease purchase contract, the director of enterprise services shall conduct an evaluation of the facility design and budget using life-cycle cost analysis, value-engineering, and other techniques to maximize the long-term effectiveness and efficiency of the facility or improvement.

(12) All conveyances and contracts to purchase, lease, rent, transfer, exchange, or sell real estate and to grant and accept easements shall be approved as to form by the attorney general, signed by the director of enterprise services or the director's designee, and recorded with the county auditor of the county in which the property is located.

(13) The director of enterprise services may delegate any or all of the functions specified in this section to any agency upon such terms and conditions as the director deems advisable. By January 1st of each year, beginning January 1, 2008, the department shall submit an annual report to the office of financial management and the appropriate committees of the legislature on all delegated leases.

(14) This section does not apply to the acquisition of real estate by:

(a) The state college and universities for research or experimental purposes;

(b) The state liquor and cannabis board for liquor stores and warehouses;

(c) The department of natural resources, the department of fish and wildlife, the department of transportation, and the state parks and recreation commission for purposes other than the leasing of offices, warehouses, and real estate for similar purposes; and

(d) The department of commerce for community college health career training programs, offices for the department of commerce or other appropriate state agencies, and other non-profit community uses, including community meeting and training facilities, where the real estate is acquired during the 2013-2015 fiscal biennium.

EMERGENCY WATER WITHDRAWAL AND FACILITIES

43.83B.300 Legislative findings—General obligation bonds authorized—Issuance, terms—Appropriation required. The legislature finds that the fundamentals of water resource policy in this state must be reviewed by the legislature to ensure that the water resources of the state are protected and fully utilized for the greatest benefit to the people of the state of Washington. The legislature further finds that it is necessary to provide the department of ecology with emergency powers to authorize withdrawals of public surface and groundwater, including dead storage within reservoirs, on a temporary basis, and construction of facilities in relation thereto, in order to alleviate emergency water supply conditions arising from the drought forecast for the state of Washington during 1977 and during 1987 through 1989.

The legislature further finds that there is a continuing water supply shortage in many areas of the state and that there is an urgent need to assure the survival of irrigated crops and of the state's fisheries.

The legislature further finds that in addition to water storage facilities or other augmentation programs, improved efficiency of water use could provide an important new supply of water in many parts of the state with which to meet future water needs and that improved efficiency of water use should receive greater emphasis in the management of the state's water resources.

In order to study the fundamentals of water resource policy of the state and to provide needed moneys for the planning, acquisition, construction, and improvement of water supply facilities and for other appropriate measures to assure the survival of irrigated crops and/or the state's fisheries to alleviate emergency water supply conditions arising from droughts occurring from time to time in the state of Washington, and to carry out a comprehensive water use efficiency study for the state of Washington, the state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of eighteen million dollars, or so much thereof as may be required to finance such projects, and all costs incidental thereto. No bonds authorized by this section and *RCW 43.83B.360 through 43.83B.375 shall be offered for sale without prior legislative appropriation, and these bonds shall be paid and discharged with thirty years of the date of issuance in accordance with Article VIII, section 1 of the state Constitution. [1988 c 45 § 1; 1987 c 343 § 1; 1979 ex.s. c 263 § 1; 1977 ex.s. c 1 § 1.]

(2) This section was amended by 1988 c 45 § 1, 1988 c 46 § 2, and by 1984 c 47 § 1, each without reference to the other. All amendments are incorporated in the publication of this section pursuant to RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

43.83B.345 Rates of charges for water—Payment into bond redemption fund—Grants and loans—Contracts. (1) The department of ecology shall, by rule, establish rates of charges for all waters delivered from such facilities as constructed by the department with funds provided in RCW 43.83B.385 (2) or (3). Where the department provides water to public or municipal corporations or other governmental bodies having authority to distribute water, the payment for the water may be made pursuant to contract over a period not exceeding twenty-five years from the date of delivery. In all other cases, the department shall obtain payment for waters prior to its delivery to a purchaser. All payments received shall be deposited into the state emergency water projects bond redemption fund of 1977.

Prior to the expenditure of funds for projects approved by the department, the department shall file a listing of the approved projects with the senate ways and means committee and the house appropriations committee.

(2) There is hereby appropriated to the department of health the sum of five million three hundred twenty-seven thousand dollars, or so much thereof as may be necessary, for the biennium ending June 30, 1977, from the general fund—state and local improvements revolving account—water supply facilities to be expended for municipal and industrial water supply and distribution facility projects for which applications are in progress on March 25, 1977 and have arisen from the drought forecast for the summer and fall of 1977. Prior to the expenditure of funds for projects approved by the department, the department shall file a listing of the approved projects with the senate ways and means committee and the house appropriations committee.

The municipal and industrial water supply and distribution facilities receiving funds from the appropriations contained in this section shall comply with the eligible costs criteria, health and design standards, and contract performance requirements of the municipal and industrial funding program under chapter 43.83B RCW. All projects shall be evaluated by applying the said chapter's evaluation and prioritization criteria to assure that only projects related to water shortage problems receive funding. The projects funded shall be limited to those projects providing interties with adjacent utilities, an expanded source of supply, conservation projects which will conserve or maximize efficiency of the existing supply, or a new source of supply. No obligation to provide a grant for a project authorized under this section shall be incurred after June 30, 1977. [1991 c 3 § 300; 1977 ex.s. c 1 § 17.]

*Reviser’s note: RCW 43.83B.305 through 43.83B.330 and 43.83B.340 through 43.83B.344 were repealed by 1989 c 171 § 12.

43.83B.385 Appropriations to department of ecology—Authorized projects—Findings. (1) There is hereby appropriated to the department of ecology for the biennium ending June 30, 1977, from the state emergency water projects revolving account in the general fund, the sum of five million dollars, or so much thereof as may be necessary, which shall be expended for the financing of the following agricultural water supply and distribution projects from surface water sources: Kennewick Irrigation District; Kittitas Reclamation District; Stemilt Irrigation District; Wenatchee Heights Reclamation District; and the Wenatchee Reclamation District.

(2) There is hereby appropriated to the department of ecology for the biennium ending June 30, 1977, from the state emergency water projects revolving account in the general fund, the sum of six million dollars, or so much thereof as may be necessary, which shall be expended for water withdrawal projects relating to ground and surface waters as provided for in subsections (1) and (2) of this section and for the financing and construction of agricultural water supply and distribution projects from ground and surface water sources which may become required by public bodies other than those identified in this section as a result of the drought forecast for the summer and fall of 1977. The department may expend funds from the appropriations contained in subsections (1), (2), and (3) of this section to make loans or combinations of loans and grants to public bodies as defined in *RCW 43.83B.050. The grant portion of a combination loan and grant to a public body for any project shall not exceed fifteen percent of the total amount received by such project under this section.

The department may expend funds from the appropriations contained in subsections (1), (2), and (3) of this section to make loans or combinations of loans and grants to public bodies as defined in *RCW 43.83B.050 to satisfy the matching requirements of RCW 43.83B.210 as now or hereafter amended.

Prior to the funding of any agriculture projects not specifically set forth in this section the department must make a formal finding that: An emergency water shortage condition exists; the project proposed for funding will alleviate the water shortage; the public body recipient of any funds has reasonable capability to repay the loan involved; and the water from the project will be used for a beneficial purpose as a substitute for water not available due to drought conditions. [1977 ex.s. c 1 § 18.]

*Reviser’s note: RCW 43.83B.050 was decodified pursuant to 2015 1st sp.s. c 4 § 23.

43.83B.400 Drought conditions—Defined—Intent. It is the intent of the legislature to provide emergency powers to the department of ecology to enable it to take actions, in a timely and expeditious manner, that are designed to alleviate hardships and reduce burdens on various water users and uses arising from drought conditions. As used in this chapter, "drought condition" means that the water supply for a geographical area or for a significant portion of a geographical area is below seventy-five percent of normal and the water shortage is likely to create undue hardships for various water uses and users. [1989 c 171 § 1.]

43.83B.405 Drought conditions—Withdrawals and diversions—Orders, procedure. (1) Whenever it appears to the department of ecology that a drought condition either
exists or is forecast to occur within the state or portions thereof, the department of ecology is authorized to issue orders, pursuant to rules previously adopted, to implement the powers as set forth in RCW 43.83B.410 through 43.83B.420. The department shall, immediately upon the issuance of an order under this section, cause said order to be published in newspapers of general circulation in the areas of the state to which the order relates. Prior to the issuance of an order, the department shall (a) consult with and obtain the views of the federal and state government entities identified in the drought contingency plan periodically revised by the department pursuant to RCW 43.83B.410(4), and (b) obtain the written approval of the governor. Orders issued under this section shall be deemed orders for the purposes of chapter 34.05 RCW.

(2) Any order issued under subsection (1) of this section shall contain a termination date for the order. The termination date shall be not later than one calendar year from the date the order is issued. Although the department may, with the written approval of the governor, change the termination date by amending the order, no such amendment or series of amendments may have the effect of extending its termination to a date which is later than two calendar years after the issuance of the order.

(3) The provisions of subsection (2) of this section do not preclude the issuance of more than one order under subsection (1) of this section for different areas of the state or sequentially for the same area as the need arises for such an order or orders. [1989 c 171 § 2.]

43.83B.410 Drought conditions—Withdrawals and diversions—Orders, authority granted. Upon the issuance of an order under RCW 43.83B.405, the department of ecology is empowered to:

(1)(a) Authorize emergency withdrawal of public surface and ground waters, including dead storage within reservoirs, on a temporary basis and authorize associated physical works which may be either temporary or permanent. The termination date for the authority to make such an emergency withdrawal may not be later than the termination date of the order issued under RCW 43.83B.405 under which the power to authorize the withdrawal is established. The department of ecology may issue such withdrawal authorization when, after investigation and after providing appropriate federal, state, and local governmental bodies an opportunity to comment, the following are found:

(i) The waters proposed for withdrawal are to be used for a beneficial use involving a previously established activity or purpose;

(ii) The previously established activity or purpose was furnished water through rights applicable to the use of a public body of water that cannot be exercised due to the lack of water arising from natural drought conditions; and

(iii) The proposed withdrawal will not reduce flows or levels below essential minimums necessary (A) to assure the maintenance of fisheries requirements, and (B) to protect federal and state interests including, among others, power generation, navigation, and existing water rights;

(b) All withdrawal authorizations issued under this section shall contain provisions that allow for termination of withdrawals, in whole or in part, whenever withdrawals will conflict with flows and levels as provided in (a)(iii) of this subsection. Domestic and irrigation uses of public surface and ground waters shall be given priority in determining “beneficial uses.” As to water withdrawal and associated works authorized under this subsection, the requirements of chapter 43.21C RCW and public bidding requirements as otherwise provided by law are waived and inapplicable. All state and local agencies with authority to issue permits or other authorizations for such works shall, to the extent possible, expedite the processing of the permits or authorizations in keeping with the emergency nature of the requests and shall provide a decision to the applicant within fifteen calendar days of the date of application. All state departments or other agencies having jurisdiction over state or other public lands, if such lands are necessary to effectuate the withdrawal authorizations issued under this subsection, shall provide short-term easements or other appropriate property interest upon the payment of the fair market value. This mandate shall not apply to any lands of the state that are reserved for a special purpose or use that cannot properly be carried out if the property interest were conveyed;

(2) Approve a temporary change in purpose, place of use, or point of diversion, consistent with existing state policy allowing transfer or lease of waters between willing parties, as provided for in RCW 90.03.380, 90.03.390, and 90.44.100. However, compliance with any requirements of (a) notice of newspaper publication of these sections or (b) the state environmental policy act, chapter 43.21C RCW, is not required when such changes are necessary to respond to drought conditions as determined by the department of ecology. An approval of a temporary change of a water right as authorized under this subsection is not admissible as evidence in either supporting or contesting the validity of water claims in State of Washington, Department of Ecology v. Acquavella, Yakima county superior court number 77-2-01484-5 or any similar proceeding where the existence of a water right is at issue.

(3) Employ additional persons for specified terms of time, consistent with the term of a drought condition, as are necessary to ensure the successful performance of the activities associated with implementing the emergency drought program of this chapter.

(4) Revise the drought contingency plan previously developed by the department; and

(5) Acquire needed emergency drought-related equipment. [1989 c 171 § 3.]

43.83B.415 Drought conditions—Loans and grants.

(1) The department of ecology is authorized to make loans, grants, or combinations of loans and grants from emergency agricultural water supply funds when necessary to provide water to alleviate emergency drought conditions in order to ensure the survival of irrigated crops and the state's fisheries. For the purposes of this section, "emergency agricultural water supply funds" means funds appropriated from the state emergency water projects revolving account created under RCW 43.83B.360. The department of ecology may make the loans, grants, or combinations of loans and grants as matching funds in any case where federal, local, or other funds have
been made available on a matching basis. The department may make a loan of up to ninety percent of the total eligible project cost or combination loan and grant up to one hundred percent of the total single project cost. The grant portion for any single project shall not exceed twenty percent of the total project cost except that, for activities forecast to have fifty percent or less of normal seasonal water supply, the grant portion for any single project or entity shall not exceed forty percent of the total project cost. No single entity shall receive more than ten percent of the total emergency agricultural water supply funds available for drought relief. These funds shall not be used for nonagricultural drought relief purposes unless there are no other capital budget funds available for these purposes. In any biennium the total expenditures of emergency agricultural water supply funds for nonagricultural drought relief purposes may not exceed ten percent of the total of such funds available during that biennium.

(2)(a) Except as provided in (b) of this subsection, after June 30, 1989, emergency agricultural water supply funds, including the repayment of loans and any accrued interest, shall not be used for any purpose except during drought conditions as determined under RCW 43.83B.400 and 43.83B.405.

(b) Emergency agricultural water supply funds may be used on a one-time basis for the development of procedures to be used by state governmental entities to implement the state's drought contingency plan. [1989 c 171 § 4.]

(3) Authorize the establishment of a water right under RCW 90.03.250 or 90.44.060;

(4) Preclude any person from filing an application pursuant to RCW 90.03.250 or 90.44.060. [1989 c 171 § 6.]

43.83B.430 State drought preparedness account. The state drought preparedness account is created in the state treasury. All receipts from appropriated funds designated for the account and funds transferred from the state emergency water projects revolving account must be deposited into the account. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only for drought preparedness. During the 2009-2011 fiscal biennium, the legislature may transfer from the state drought preparedness account to the state general fund such amounts as reflect the excess fund balance of the account. For the 2015-2017 fiscal biennium, the account may also accept revenue collected from emergency drought well-related water service contracts and may be used for drought response.

role in stimulating and diversifying local economies, attracting private investment, creating new jobs, and generating additional state and local tax revenues by investing in public facilities projects that result in new or expanded economic development. The legislature also finds that it is in the best interest of the state and local communities to secure a stable and dedicated source of funds for the community economic revitalization board. It is the intent of the legislature to establish an ongoing funding source for the community economic revitalization board that will be used exclusively to advance economic development infrastructure. This act provides a partial funding solution by directing that beginning July 1, 2005, the interest earnings generated by the public works assistance account shall be used to fund the community economic revitalization board's financial assistance programs. These funds are not for use other than for the stated purpose and goals of the community economic revitalization board." [2003 c 150 § 1; 2002 c 242 § 1.]

Legislative finding—1999 c 94: "The legislature finds that a periodic review of the accounts and their uses is necessary. While creating new accounts may facilitate the implementation of legislative intent, the creation of too many accounts limits the effectiveness of performance-based budgeting. Too many accounts also limit the flexibility of the legislature to address emerging and changing issues in addition to creating administrative burdens for the responsible agencies. Accounts created for specific purposes may no longer be valid or needed. Accordingly, this act eliminates accounts that are not in use or are unneeded and consolidates accounts that are similar in nature." [1999 c 94 § 1.]

(e) Where the points or fees charged at loan closing do not exceed one percent of the loan amount.

(3) In setting interest rates of time certificate of deposits, the state treasurer shall offer rates so that a two hundred basis point preference will be given to the qualified public depositary, except that the treasurer may lower the amount of the preference to ensure that the effective interest rate on the deposit is not less than zero percent.

State Budgeting, Accounting, and Reporting System  Chapter 43.88

[Title 43 RCW—page 493]
43.88.005 Finding—Intent. The legislature finds that agency missions, goals, and objectives should focus on statewide results. It is the intent of the legislature to focus the biennial budget on how state agencies produce real results that reflect the goals of statutory programs. Specifically, budget managers and the legislature must have the data to move toward better statewide results that produce the intended public benefit. This data must be supplied in an impartial, quantifiable form, and demonstrate progress toward statewide results. With a renewed focus on achieving true results, state agencies, the office of financial management, and the legislature will be able to prioritize state resources. [2005 c 386 § 1.]

43.88.010 Purpose—Intent. It is the purpose of this chapter to establish an effective state budgeting, accounting, and reporting system for all activities of the state government, including both capital and operating expenditures; to prescribe the powers and duties of the governor as these relate to securing such fiscal controls as will promote effective budget administration; and to prescribe the responsibilities of agencies of the executive branch of the state government.

It is the intent of the legislature that the powers conferred by this chapter, as amended, shall be exercised by the executive in cooperation with the legislature and its standing, special, and interim committees in its status as a separate and coequal branch of state government. [1986 c 215 § 1; 1981 c 270 § 1; 1973 1st ex.s. c 100 § 1; 1965 c 8 § 43.88.010. Prior: 1959 c 328 § 1.]

The State of Washington, 173 Wn.2d 477, 269 P.3d 227, (2012), from which the short-term exclusion of these obligations is solely for the purposes of calculating this estimate and does not in any way indicate an intent to avoid full funding of these obligations;

(c) "Related funds," as used in this section, means the Washington opportunity pathways account and the education legacy trust account.

(3) Subsection (1)(a) and (b) of this section does not apply to an appropriations bill that makes net reductions in general fund and related funds appropriations and is enacted between July 1st and February 15th of any fiscal year.

43.88.090 Development of budget—Detailed estimates—Mission statement, measurable goals, quality and productivity objectives—Integration of strategic plans and performance assessment procedures—Reviews by office of financial management and consolidated technology services agency—Governor-elect input. (1) For purposes of developing budget proposals to the legislature, the governor shall have the power, and it shall be the governor's duty, to require from proper agency officials such detailed estimates and other information in such form and at such times as the governor shall direct. The governor shall communicate statewide priorities to agencies for use in developing biennial budget recommendations for their agency and shall seek public involvement and input on these priorities. The estimates for the legislature and the judiciary shall be transmitted to the governor and shall be included in the budget without revision. The estimates for state pension contributions shall be based on the rates provided in chapter 41.45 RCW. Copies of all such estimates shall be transmitted to the standing committees on ways and means of the house and senate at the same time as they are filed with the governor and the office of financial management.

The estimates shall include statements or tables which indicate, by agency, the state funds which are required for the receipt of federal matching revenues. The estimates shall be revised as necessary to reflect legislative enactments and adopted appropriations and shall be included with the initial biennial allotment submitted under RCW 43.88.110. The estimates must reflect that the agency considered any alternatives to reduce costs or improve service delivery identified in the findings of a performance audit of the agency by the joint legislative audit and review committee. Nothing in this subsection requires performance audit findings to be published as part of the budget.

(2) Each state agency shall define its mission and establish measurable goals for achieving desirable results for those who receive its services and the taxpayers who pay for those services. Each agency shall also develop clear strategies and timelines to achieve its goals. This section does not require an agency to develop a new mission or goals in place of identifiable missions or goals that meet the intent of this section. The mission and goals of each agency must conform to statutory direction and limitations.

(3) For the purpose of assessing activity performance, each state agency shall establish quality and productivity objectives for each major activity in its budget. The objectives must be consistent with the missions and goals developed under this section. The objectives must be expressed to the extent practicable in outcome-based, objective, and measurable form unless an exception to adopt a different standard is granted by the office of financial management and approved by the legislative committee on performance review. Objectives must specifically address the statutory purpose or intent of the program or activity and focus on data that measure whether the agency is achieving or making progress toward the purpose of the activity and toward statewide priorities. The office of financial management shall provide necessary professional and technical assistance to assist state agencies in the development of strategic plans that include the mission of the agency and its programs, measurable goals, strategies, and performance measurement systems.

(4) Each state agency shall adopt procedures for and perform continuous self-assessment of each activity, using the mission, goals, objectives, and measurements required under subsections (2) and (3) of this section. The assessment of the
activity must also include an evaluation of major information technology systems or projects that may assist the agency in achieving or making progress toward the activity purpose and statewide priorities. The evaluation of proposed major information technology systems or projects shall be in accordance with the standards and policies established by the technology services board. Agencies’ progress toward the mission, goals, objectives, and measurements required by subsections (2) and (3) of this section is subject to review as set forth in this subsection.

(a) The office of financial management shall regularly conduct reviews of selected activities to analyze whether the objectives and measurements submitted by agencies demonstrate progress toward statewide results.

(b) The office of financial management shall consult with: (i) The four-year institutions of higher education in those reviews that involve four-year institutions of higher education; and (ii) the state board for community and technical colleges in those reviews that involve two-year institutions of higher education.

(c) The goal is for all major activities to receive at least one review each year.

(d) The consolidated technology services agency shall review major information technology systems in use by state agencies periodically.

(5) It is the policy of the legislature that each agency's budget recommendations must be directly linked to the agency’s stated mission and program, quality, and productivity goals and objectives. Consistent with this policy, agency budget proposals must include integration of performance measures that allow objective determination of an activity’s success in achieving its goals. When a review under subsection (4) of this section or other analysis determines that the agency's objectives demonstrate that the agency is making insufficient progress toward the goals of any particular program or is otherwise underachieving or inefficient, the agency's budget request shall contain proposals to remedy or improve the selected programs. The office of financial management shall develop a plan to merge the budget development process with agency performance assessment procedures. The plan must include a schedule to integrate agency strategic plans and performance measures into agency budget requests and the governor’s budget proposal over three fiscal biennia. The plan must identify those agencies that will implement the revised budget process in the 1997-1999 biennium, the 1999-2001 biennium, and the 2001-2003 biennium. In consultation with the legislative fiscal committees, the office of financial management shall recommend statutory and procedural modifications to the state's budget, accounting, and reporting systems to facilitate the performance assessment procedures and the merger of those procedures with the state budget process. The plan and recommended statutory and procedural modifications must be submitted to the legislative fiscal committees by September 30, 1996.

(6) In reviewing agency budget requests in order to prepare the governor’s biennial budget request, the office of financial management shall consider the extent to which the agency's activities demonstrate progress toward the statewide budgeting priorities, along with any specific review conducted under subsection (4) of this section.

(7) In the year of the gubernatorial election, the governor shall invite the governor-elect or the governor-elect's designee to attend all hearings provided in RCW 43.88.100; and the governor shall furnish the governor-elect or the governor-elect’s designee with such information as will enable the governor-elect or the governor-elect's designee to gain an understanding of the state’s budget requirements. The governor-elect or the governor-elect's designee may ask such questions during the hearings and require such information as the governor-elect or the governor-elect's designee deems necessary and may make recommendations in connection with any item of the budget which, with the governor-elect's reasons therefor, shall be presented to the legislature in writing with the budget document. Copies of all such estimates and other required information shall also be submitted to the standing committees on ways and means of the house and senate. 43.88.092 Information technology budget detail—Information technology plan—Accounting method for information technology. (1) As part of the biennial budget process, the office of financial management shall collect from agencies, and agencies shall provide, information to produce reports, summaries, and budget detail sufficient to allow review, analysis, and documentation of all current and proposed expenditures for information technology by state agencies. Information technology budget detail must be included as part of the budget submittal documentation required pursuant to RCW 43.88.030.

(2) The office of financial management must collect, and present as part of the biennial budget documentation, information for all existing information technology projects as defined by technology services board policy. The office of financial management must work with the office of the state chief information officer to maximize the ability to draw this information from the information technology portfolio management data collected by the consolidated technology services agency. Connecting project information collected through the portfolio management process with financial data developed under subsection (1) of this section provides transparency regarding expenditure data for existing technology projects.

(3) The director of the consolidated technology services agency shall evaluate proposed information technology expenditures and establish priority ranking categories of the proposals. No more than one-third of the proposed expenditures shall be ranked in the highest priority category.

(4) The biennial budget documentation submitted by the office of financial management pursuant to RCW 43.88.030 must include an information technology plan and a technol-
ology budget for the state identifying current baseline funding for information technology, proposed and ongoing major information technology projects, and their associated costs. This plan and technology budget must be presented using a method similar to the capital budget, identifying project costs through stages of the project and across fiscal periods and biennia from project initiation to implementation. This information must be submitted electronically, in a format to be determined by the office of financial management and the legislative evaluation and accountability program committee.

(5) The office of financial management shall also institute a method of accounting for information technology-related expenditures, including creating common definitions for what constitutes an information technology investment.

(6) For the purposes of this section, "major information technology projects" includes projects that have a significant anticipated cost, complexity, or are of statewide significance, such as enterprise-level solutions, enterprise resource planning, and shared services initiatives. [2015 3rd sp.s. c 1 § 410; 2013 2nd sp.s. c 33 § 4; 2011 1st sp.s. c 43 § 733; 2010 c 282 § 3.]

43.88.096 Budget detail—Designated state agencies—Federal receipts reporting requirements. (1) As used in this section:

(a) "Designated state agency" means the department of social and health services, the department of health, the health care authority, the department of commerce, the department of ecology, the department of fish and wildlife, the office of the superintendent of public instruction, and the department of children, youth, and families.

(b) "Federal receipts" means the federal financial assistance, as defined in 31 U.S.C. Sec. 7501 on September 28, 2013, that is reported as part of a single audit.

(c) "Single audit" is as defined in 31 U.S.C. Sec. 7501 on September 28, 2013.

(2) Subject to subsection (3) of this section, a designated state agency shall prepare as part of the agency's biennial budget submittal under this chapter a report that:

(a) Reports the aggregate value of federal receipts the designated state agency estimated for the ensuing biennium;
(b) Calculates the percentage of the designated state agency's total budget for the ensuing biennium that constitutes federal receipts that the designated state agency received; and
(c) Develops plans for operating the designated state agency if there is a reduction of:
   (i) Five percent or more in the federal receipts that the designated state agency receives; and
   (ii) Twenty-five percent or more in the federal receipts that the designated state agency receives.

(3) The report required by subsection (2) of this section prepared by the superintendent of public instruction shall include the information required by subsection (2)(a) through (c) of this section for each school district within the state. [2017 3rd sp.s. c 6 § 227; 2013 2nd sp.s. c 32 § 1.]

(2019 Ed.)
(b) Utilization of a system of cost, quality, and performance standards to compare major capital construction projects; and

(c) A requirement to incorporate value-engineering analysis and constructability review into the project schedule.

(6) No expenditure may be incurred or obligation entered into for such major capital construction projects including, without exception, land acquisition, site development, pre-design, design, construction, and equipment acquisition and installation, until the allotment of the funds to be expended has been approved by the office of financial management. This limitation does not prohibit the continuation of expenditures and obligations into the succeeding biennium for projects for which allotments have been approved in the immediate prior biennium.

(7) If at any time during the fiscal period the governor projects a cash deficit in a particular fund or account as defined by RCW 43.88.050, the governor shall make across-the-board reductions in allotments for that particular fund or account so as to prevent a cash deficit, unless the legislature has directed the liquidation of the cash deficit over one or more fiscal periods. Except for the legislative and judicial branches and other agencies headed by elective officials, the governor shall review the statement of proposed operating expenditures for reasonableness and conformance with legislative intent. The governor may request corrections of proposed allotments submitted by the legislative and judicial branches and other agencies headed by elective officials if those proposed allotments contain significant technical errors. Once the governor approves the proposed allotments, further revisions may be made on the governor's initiative on a quarterly basis and must be accompanied by an explanation of the reasons for significant changes. However, changes in appropriation level authorized by the legislature, changes required by across-the-board reductions mandated by the governor, changes caused by executive increases to spending authority, and changes caused by executive decreases to spending authority for failure to comply with the provisions of chapter 36.70A RCW may require additional revisions. Revisions shall not be made retroactively. However, the governor may assign to a reserve status any portion of an agency appropriation withheld as part of across-the-board reductions made by the governor and any portion of an agency appropriation conditioned on a contingent event by the appropriations act. The governor may remove these amounts from reserve status if the across-the-board reductions are subsequently modified or if the contingent event occurs. The director of financial management shall enter approved statements of proposed expenditures into the state budgeting, accounting, and reporting system within forty-five days after receipt of the proposed statements from the agencies. If an agency or the director of financial management is unable to meet these requirements, the director of financial management shall provide a timely explanation in writing to the legislative fiscal committees.

(8) It is expressly provided that all agencies shall be required to maintain accounting records and to report thereon in the manner prescribed in this chapter and under the regulations issued pursuant to this chapter. Within ninety days of the end of the fiscal year, all agencies shall submit to the director of financial management their final adjustments to close their books for the fiscal year. Prior to submitting fiscal data, written or oral, to committees of the legislature, it is the responsibility of the agency submitting the data to reconcile it with the budget and accounting data reported by the agency to the director of financial management.

(9) The director of financial management may exempt certain public funds from the allotment controls established under this chapter if it is not practical or necessary to allot the funds. Allotment control exemptions expire at the end of the fiscal biennium for which they are granted. The director of financial management shall report any exemptions granted under this subsection to the legislative fiscal committees.

For those agencies required to develop six-year programs and financial plans under *RCW 44.40.070, six-year revenue estimates shall be submitted to the director of financial management and the transportation committees of the senate and the house of representatives unless the responsibility for reporting these revenue estimates is assumed elsewhere.

The joint legislative audit and review committee, the legislative evaluation and accountability program committee, and the ways and means committees of the senate and house of representatives shall coordinate their activities with the transportation committees of the legislature in carrying out the committees’ powers and duties under chapter 43.88 RCW in matters relating to the transportation programs of the state.

43.88.130 When contracts and expenditures prohibited. No agency shall expend or contract to expend any money or incur any liability in excess of the amounts appropriated for that purpose: PROVIDED, That nothing in this section shall prevent the making of contracts or the spending of money for capital improvements, nor the making of contracts of lease or for service for a period exceeding the fiscal period in which such contract is made, when such contract is permitted by law. 43.88.145 Capital projects—Transfer of excess appropriation authority. (1) The capital appropriations act may authorize the governor, through the director of financial management, to transfer the appropriation authority for a capital project that is in excess of the amount required for the completion of the project to another capital project for which the appropriation is insufficient.

(a) No such transfer may be used to expand the capacity or change the intended use of the project beyond that intended by the legislature in making the appropriation.

(b) The transfer may be effected only between capital projects within a specific department, commission, agency, or institution of higher education.

(c) The transfer may be effected only if the project from which the transfer of funds is made is substantially complete and there are funds remaining, or bids have been let on the project from which the transfer of funds is made and it appears to a substantial certainty that the project can be completed within the biennium for less than the amount appropriated.

(2) For the purposes of this section, the legislature intends that each project be defined as proposed to the legislature in the governor’s budget document, unless the legislative history demonstrates that the legislature intended to define the scope of a project in a different way.

(3) The office of financial management shall notify the legislative fiscal committees of the senate and the house of representatives at least thirty days before any transfer is effected under this section except emergency projects or any transfer under two hundred fifty thousand dollars, and shall prepare a report to such committees listing all completed transfers at the close of each fiscal year. 43.88.150 Priority of expenditures—Appropriated and nonappropriated funds—Matching funds, disburse state moneys proportionally. (1) For those agencies that make expenditures from both appropriated and nonappropriated funds for the same purpose, the governor shall direct such agencies to charge their expenditures in such ratio, as between appropriated and nonappropriated funds, as will conserve appropriated funds. For institutions of higher education, as defined in RCW 28B.10.016, this subsection applies only to operating fee accounts.

(2) Unless otherwise provided by law, if state moneys are appropriated for a capital project and matching funds or other contributions are required as a condition of the receipt of the state moneys, the state moneys shall be disbursed in proportion to and only to the extent that the matching funds or other contributions have been received and are available for expenditure.

(3) The office of financial management shall adopt guidelines for the implementation of this section. 43.88.160 Fiscal management—Powers and duties of officers and agencies. This section sets forth the major fiscal duties and responsibilities of officers and agencies of the executive branch. The regulations issued by the governor pursuant to this chapter shall provide for a comprehensive, orderly basis for fiscal management and control, including efficient accounting and reporting therefor, for the executive branch of the state government and may include, in addition, such requirements as will generally promote more efficient public management in the state.

(1) Governor; director of financial management. The governor, through the director of financial management, shall devise and supervise a modern and complete accounting system for each agency to the end that all revenues, expendi-
The accounting system shall include the development of accurate, timely records and reports of all financial affairs of the state. The system shall also provide for central accounts, including transportation projects, showing significant cost overruns or underruns. If funds are shifted from one project to another, the office of financial management shall also reflect this in the annual variance report. Once a project is complete, the report shall provide a final summary showing estimated start and completion dates of each project phase compared to actual dates, estimated costs of each project phase compared to actual costs, and whether or not there are any outstanding liabilities or unsettled claims at the time of completion.

In addition, the director of financial management, as agent of the governor, shall:

(a) Develop and maintain a system of internal controls and internal audits comprising methods and procedures to be adopted by each agency that will safeguard its assets, check the accuracy and reliability of its accounting data, promote operational efficiency, and encourage adherence to prescribed managerial policies for accounting and financial controls. The system developed by the director shall include criteria for determining the scope and comprehensiveness of internal controls required by classes of agencies, depending on the level of resources at risk.

(i) For those agencies that the director determines internal audit is required, the agency head or authorized designee shall be assigned the responsibility and authority for establishing and maintaining internal audits following professional audit standards including generally accepted government auditing standards or standards adopted by the institute of internal auditors, or both.

(ii) For those agencies that the director determines internal audit is not required, the agency head or authorized designee may establish and maintain internal audits following professional audit standards including generally accepted government auditing standards or standards adopted by the institute of internal auditors, or both, but at a minimum must comply with policies as established by the director to assess the effectiveness of the agency's systems of internal controls and risk management processes;

(b) Make surveys and analyses of agencies with the object of determining better methods and increased effectiveness in the use of manpower and materials; and the director shall authorize expenditures for employee training to the end that the state may benefit from training facilities made available to state employees;

(c) Establish policies for allowing the contracting of child care services;

(d) Report to the governor with regard to duplication of effort or lack of coordination among agencies;

(e) Review any pay and classification plans, and changes thereunder, developed by any agency for their fiscal impact: PROVIDED, That none of the provisions of this subsection shall affect merit systems of personnel management now existing or hereafter established by statute relating to the fixing of qualifications requirements for recruitment, appointment, or promotion of employees of any agency. The director shall advise and confer with agencies including appropriate standing committees of the legislature as may be designated by the speaker of the house and the president of the senate regarding the fiscal impact of such plans and may amend or alter the plans, except that for the following agencies no amendment or alteration of the plans may be made without the approval of the agency concerned: Agencies headed by elective officials;

(f) Fix the number and classes of positions or authorized employee years of employment for each agency and during the fiscal period amend the determinations previously fixed by the director except that the director shall not be empowered to fix the number or the classes for the following: Agencies headed by elective officials;

(g) Adopt rules to effectuate provisions contained in (a) through (f) of this subsection.

(5) The treasurer shall:

(a) Receive, keep, and disburse all public funds of the state not expressly required by law to be received, kept, and disbursed by some other persons: PROVIDED, That this subsection shall not apply to those public funds of the institutions of higher learning which are not subject to appropriation;

(b) Receive, disburse, or transfer public funds under the treasurer's supervision or custody;

(c) Keep a correct and current account of all moneys received and disbursed by the treasurer, classified by fund or account;

(d) Coordinate agencies' acceptance and use of credit cards and other payment methods, if the agencies have received authorization under RCW 43.41.180;

(e) Perform such other duties as may be required by law or by regulations issued pursuant to this law.
It shall be unlawful for the treasurer to disburse public funds in the treasury except upon forms or by alternative means duly prescribed by the director of financial management. These forms or alternative means shall provide for authentication and certification by the agency head or the agency head's designee that the services have been rendered or the materials have been furnished; or, in the case of loans or grants, that the loans or grants are authorized by law; or, in the case of payments for periodic maintenance services to be performed on state owned equipment, that a written contract for such periodic maintenance services is currently in effect; and the treasurer shall not be liable under the treasurer's surety bond for erroneous or improper payments so made. When services are lawfully paid for in advance of full performance by any private individual or business entity other than equipment maintenance providers or as provided for by RCW 42.24.035, such individual or entity other than central stores rendering such services shall make a cash deposit or furnish surety bond coverage to the state as shall be fixed in an amount by law, or if not fixed by law, then in such amounts as shall be fixed by the director of the department of enterprise services but in no case shall such required cash deposit or surety bond be less than an amount which will fully indemnify the state against any and all losses on account of breach of promise to fully perform such services. No payments shall be made in advance for any equipment maintenance services to be performed more than twelve months after such payment except that institutions of higher education as defined in RCW 28B.10.016 and the consolidated technology services agency created in RCW 43.105.006 may make payments in advance for equipment maintenance services to be performed up to sixty months after such payment. Any such bond so furnished shall be conditioned that the person, firm or corporation receiving the advance payment will apply it toward performance of the contract. The responsibility for recovery of erroneous or improper payments made under this section shall lie with the agency head or the agency head's designee in accordance with rules issued pursuant to this chapter. Nothing in this section shall be construed to permit a public body to advance funds to a private service provider pursuant to a grant or loan before services have been rendered or material furnished.

(6) The state auditor shall:

(a) Report to the legislature the results of current post audits that have been made of the financial transactions of each agency; to this end the auditor may, in the auditor's discretion, examine the books and accounts of any agency, official, or employee charged with the receipt, custody, or safekeeping of public funds. Where feasible in conducting examinations, the auditor shall utilize data and findings from the internal control system prescribed by the office of financial management. The current post audit of each agency may include a section on recommendations to the legislature as provided in (c) of this subsection.

(b) Give information to the legislature, whenever required, upon any subject relating to the financial affairs of the state.

(c) Make the auditor's official report on or before the thirty-first of December which precedes the meeting of the legislature. The report shall be for the last complete fiscal period and shall include determinations as to whether agencies, in making expenditures, complied with the laws of this state. The state auditor is authorized to perform or participate in performance verifications and performance audits as expressly authorized by the legislature in the omnibus biennial appropriations acts or in the performance audit work plan approved by the joint legislative audit and review committee. The state auditor, upon completing an audit for legal and financial compliance under chapter 43.09 RCW or a performance verification, may report to the joint legislative audit and review committee or other appropriate committees of the legislature, in a manner prescribed by the joint legislative audit and review committee, on facts relating to the management or performance of governmental programs where such facts are discovered incidental to the legal and financial audit or performance verification. The auditor may make such a report to a legislative committee only if the auditor has determined that the agency has been given an opportunity and has failed to resolve the management or performance issues raised by the auditor. If the auditor makes a report to a legislative committee, the agency may submit to the committee a response to the report. This subsection (6) shall not be construed to authorize the auditor to allocate other than de minimis resources to performance audits except as expressly authorized in the appropriations acts or in the performance audit work plan. The results of a performance audit conducted by the state auditor that has been requested by the joint legislative audit and review committee must only be transmitted to the joint legislative audit and review committee.

(d) Be empowered to take exception to specific expenditures that have been incurred by any agency or to take exception to other practices related in any way to the agency's financial transactions and to cause such exceptions to be made a matter of public record, including disclosure to the agency concerned and to the director of financial management. It shall be the duty of the director of financial management to cause corrective action to be taken within six months, such action to include, as appropriate, the withholding of funds as provided in RCW 43.88.110. The director of financial management shall annually report by December 31st the status of audit resolution to the appropriate committees of the legislature, the state auditor, and the attorney general. The director of financial management shall include in the audit resolution report actions taken as a result of an audit including, but not limited to, types of personnel actions, costs and types of litigation, and value of recouped goods or services.

(e) Promptly report any irregularities to the attorney general.

(f) Investigate improper governmental activity under chapter 42.40 RCW.

In addition to the authority given to the state auditor in this subsection (6), the state auditor is authorized to conduct performance audits identified in RCW 43.09.470. Nothing in this subsection (6) shall limit, impede, or restrict the state auditor from conducting performance audits identified in RCW 43.09.470.

(7) The joint legislative audit and review committee may:

(a) Make post audits of the financial transactions of any agency and management surveys and program reviews as provided for in chapter 44.28 RCW as well as performance
43.88.162 State auditor’s powers and duties—Performance audits. In addition to the authority given the state auditor in RCW 43.88.160(6), the state auditor is authorized to contract for and oversee performance audits pursuant to RCW 43.09.440. [2005 c 385 § 7.]

43.88.170 Refunds of erroneous or excessive payments. Whenever any law which provides for the collection of fees or other payment by an agency does not authorize the refund of erroneous or excessive payments thereof, refunds may be made or authorized by the agency which collected the fees or payments of all such amounts received by the agency in consequence of error, either of fact or of law. The regulations issued by the governor pursuant to this chapter shall prescribe the procedure to be employed in making refunds. [1965 c 8 § 43.88.170. Prior: 1959 c 328 § 17.]

43.88.175 Credit reporting agencies—State agency use. State agencies may report receivables to credit reporting agencies whenever the agency determines that such reporting would be cost-effective and does not violate confidentiality or other legal requirements. Within thirty-five days after satisfaction of a debt reported to a credit reporting agency, the state agency reporting the debt shall notify the credit reporting agency that the debt has been satisfied. [1991 c 85 § 1; 1989 c 100 § 1.]

43.88.180 When appropriations required or not required. Appropriations shall not be required for refunds, as provided in RCW 43.88.170, nor in the case of payments other than for administrative expenses or capital improvements to be made from trust funds specifically created by law to discharge awards, claims, annuities and other liabilities of the state. Said trust funds shall include, but shall not be limited to, the accident fund, medical aid fund, retirement system fund, Washington state patrol retirement fund and unemployment trust fund. Appropriations may be required in the case of public service enterprises defined for the purposes of this section as proprietary functions conducted by an agency of the state. 43.88.190 Revolving funds. Revolving funds shall not be created by law except to finance the operations of service units, or units set up to supply goods and services to other units or agencies. Such service units where created shall be self-supporting operations featuring continuous turnover of working capital. The regulations issued by the governor pursuant to this chapter shall prescribe the procedures to be employed by agencies in accounting and reporting for revolving funds and may provide for the keeping of such funds in the custody of the treasurer. [1965 c 8 § 43.88.190. Prior: 1959 c 328 § 19.]

After August 11, 1969, no state agency, state institution, state institution of higher education, which shall include all state universities, regional universities, The Evergreen State College, and community colleges, shall establish any new accounts or funds which are to be located outside of the state treasury: PROVIDED, That the office of financial management shall be authorized to grant permission for the establishment of such an account or fund outside of the state treasury only when the requesting agency presents compelling reasons of economy and efficiency which could not be achieved by placing such funds in the state treasury. When the director of financial management authorizes the creation of such fund or account, the director shall forthwith give written notice of the fact to the standing committees on ways and means of the house and senate:

43.88A.010 Legislative declaration. The legislature hereby recognizes the necessity of developing a uniform and coordinated procedure for determining the expected fiscal impact of bills and resolutions on state government. The legislature also recognizes that developing such statements of fiscal impact, which shall be known as fiscal notes, requires the designation of a state agency to be principally responsible therefor. [1977 ex.s. c 25 § 1.]

The office of financial management shall, in cooperation with appropriate legislative committees and legislative staff, establish a procedure for the provision of fiscal notes on the expected impact of bills and resolutions which increase or decrease or tend to increase or decrease state government revenues or expenditures. Estimates of fiscal impacts shall be calculated using the procedures contained in the fiscal note instructions issued by the office of financial management.

In establishing the fiscal impact called for pursuant to this chapter, the office of financial management shall coordinate the development of fiscal notes with all state agencies affected.

Chapter 43.88D RCW
HIGHER EDUCATION CAPITAL PROJECT STRATEGIC PLANNING

Sections

43.88D.010 Capital budget projects—Objective analysis and scoring—Prioritized lists.

43.88D.010 Capital budget projects—Objective analysis and scoring—Prioritized lists. (1) By October 1st of each even-numbered year, the office of financial management shall complete an objective analysis and scoring of all capital budget projects proposed by the public four-year institutions of higher education and submit the results of the scoring process to the legislative fiscal committees and the four-year institutions. Each project must be reviewed and scored within one of the following categories, according to the project’s principal purpose. Each project may be scored in only one category. The categories are:

(a) Access-related projects to accommodate enrollment growth at all campuses, at existing or new university centers, or through distance learning. Growth projects should provide significant additional student capacity. Proposed projects must demonstrate that they are based on solid enrollment demand projections, more cost-effectively provide enrollment access than alternatives such as university centers and distance learning, and make cost-effective use of existing and proposed new space;

(b) Projects that replace failing permanent buildings. Facilities that cannot be economically renovated are considered replacement projects. New space may be programmed for the same or a different use than the space being replaced and may include additions to improve access and enhance the relationship of program or support space;

(c) Projects that renovate facilities to restore building life and upgrade space to meet current program requirements. Renovation projects should represent a complete renovation of a total facility or an isolated wing of a facility. A reasonable renovation project should cost between sixty to eighty percent of current replacement value and restore the renovated area to at least twenty-five years of useful life. New space may be programmed for the same or a different use than the space being renovated and may include additions to improve access and enhance the relationship of program or support space;

(d) Major stand-alone campus infrastructure projects;

(e) Projects that promote economic growth and innovation through expanded research activity. The acquisition and installation of specialized equipment is authorized under this category; and

(f) Other project categories as determined by the office of financial management in consultation with the legislative fiscal committees.

(2) The office of financial management, in consultation with the legislative fiscal committees, shall establish a scoring system and process for each four-year project category that is based on the framework used in the community and technical college system of prioritization. Staff from the state board for community and technical colleges and the four-year institutions shall provide technical assistance on the development of a scoring system and process.

(3) The office of financial management shall consult with the legislative fiscal committees in the scoring of four-year institution project proposals, and may also solicit participation by independent experts.

(a) For each four-year project category, the scoring system must, at a minimum, include an evaluation of enrollment trends, reasonableness of cost, the ability of the project to enhance specific strategic master plan goals, age and condition of the facility if applicable, and impact on space utilization.

(b) Each four-year project category may include projects at the predesign, design, or construction funding phase.

(c) To the extent possible, the objective analysis and scoring system of all capital budget projects shall occur within the context of any and all performance agreements between the office of financial management and the governing board of a public, four-year institution of higher education that aligns goals, priorities, desired outcomes, flexibility, institutional mission, accountability, and levels of resources.

(4) In evaluating and scoring four-year institution projects, the office of financial management shall take into consideration project schedules that result in realistic, balanced, and predictable expenditure patterns over the ensuing three biennia.

(5) The office of financial management shall distribute common definitions, the scoring system, and other informa-
tion required for the project proposal and scoring process as part of its biennial budget instructions. The office of financial management, in consultation with the legislative fiscal committees, shall develop common definitions that four-year institutions must use in developing their project proposals and lists under this section.

(6) In developing any scoring system for capital projects proposed by the four-year institutions, the office of financial management:

(a) Shall be provided with all required information by the four-year institutions as deemed necessary by the office of financial management;

(b) May utilize independent services to verify, sample, or evaluate information provided to the office of financial management by the four-year institutions; and

(c) Shall have full access to all data maintained by the joint legislative audit and review committee concerning the condition of higher education facilities.

(7) By August 1st of each even-numbered year each public four-year higher education institution shall prepare and submit prioritized lists of the individual projects proposed by the institution for the ensuing six-year period in each category. The lists must be submitted to the office of financial management and the legislative fiscal committees. The four-year institutions may aggregate minor works project proposals by primary purpose for ranking purposes. Proposed minor works projects must be prioritized within the aggregated proposal, and supporting documentation, including project descriptions and cost estimates, must be provided to the office of financial management and the legislative fiscal committees.

(8) For the 2017-2019 fiscal biennium and the 2019-2021 fiscal biennium, pursuant to subsection (1) of this section, by November 1, 2020, the office of financial management must score higher education capital project criteria with a rating scale that assesses how well a particular project satisfies those criteria. The office of financial management may not use a rating scale that weighs the importance of those criteria.

(9) For the 2017-2019 fiscal biennium and the 2019-2021 fiscal biennium, pursuant to subsection (6)(a) of this section and in lieu of the requirements of subsection (7) of this section, by August 15, 2020, the institutions of higher education shall prepare and submit or resubmit to the office of financial management and the legislative fiscal committees:

(a) Individual project proposals developed pursuant to subsection (1) of this section;

(b) Individual project proposals scored in prior biennia pursuant to subsection (1) of this section; and

(c) A prioritized list of up to five project proposals submitted pursuant to (a) and (b) of this subsection. [2019 c 413 § 7032; 2018 c 298 § 7013; 2017 c 52 § 15; 2012 c 229 § 821; 2010 c 245 § 9; 2008 c 205 § 2.]

43.99N.010  Definitions. The definitions in RCW 36.102.010 apply to this chapter. [1997 c 220 § 209 (Referendum Bill No. 48, approved June 17, 1997).]
43.99N.020 General obligation bonds—Certifications by public stadium authority—Obligations of team affiliate. (1) For the purpose of providing funds to pay for operation of the public stadium authority created under RCW 36.102.020, to pay for the preconstruction, site acquisition, design, site preparation, construction, owning, leasing, and equipping of the stadium and exhibition center, and to reimburse the county or the public stadium authority for its direct or indirect expenditures or to repay other indebtedness incurred for these purposes, the state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of three hundred million dollars, or so much thereof as may be required, for these purposes and all costs incidental thereto. Bonds authorized in this section may be sold at such price as the state finance committee shall determine.

(2) Bonds shall not be issued under this section unless the public stadium authority has certified to the director of financial management that:

(a) A professional football team has made a binding and legally enforceable contractual commitment to play all of its regular season and playoff home games in the stadium and exhibition center, other than games scheduled elsewhere by the league, for a period of time not shorter than the term of the bonds issued or to be issued to finance the initial construction of the stadium and exhibition center;

(b) A team affiliate has entered into one or more binding and legally enforceable contractual commitments with a public stadium authority under RCW 36.102.050 that provide that:

(i) The team affiliate assumes the risks of cost overruns;

(ii) The team affiliate shall raise at least one hundred million dollars, less the amount, if any, raised by the public stadium authority under RCW 36.102.060(15). The total one hundred million dollars raised, which may include cash payments and in-kind contributions, but does not include any interest earned on the escrow account described in RCW 43.99N.030, shall be applied toward the reasonably necessary preconstruction, site acquisition, design, site preparation, construction, and equipping of the stadium and exhibition center, or to any associated public purpose separate from bond-financed expenses. No part of the payment may be made without the consent of the public stadium authority. In any event, all amounts to be raised by the team affiliate under (b)(ii) of this subsection shall be paid or expended before the completion of the construction of the stadium and exhibition center. To the extent possible, contributions shall be structured in a manner that would allow for the issuance of bonds to construct the stadium and exhibition center that are exempt from federal income taxes;

(iii) The team affiliate shall deposit at least ten million dollars into the *youth athletic facility grant account created in RCW 43.99N.060 upon execution of the lease and development agreements in RCW 36.102.060 (7) and (8);

(iv) At least ten percent of the seats in the stadium for home games of the professional football team shall be for sale at an affordable price. For the purposes of this subsection, "affordable price" means that the price is the average of the lowest ticket prices charged by all other national football league teams;

(v) One executive suite with a minimum of twenty seats must be made available, on a lottery basis, as a free upgrade, at home games of the professional football team, to purchasers of tickets that are not located in executive suites or club seat areas;

(vi) A nonparticipatory interest in the professional football team has been granted to the state beginning on the date on which bonds are issued under this section which only entitles the state to receive ten percent of the gross selling price of the interest in the team that is sold if a majority interest or more of the professional football team is sold within twenty-five years of the date on which bonds are issued under the [this] section. The ten percent shall apply to all preceding sales of interests in the team which comprise the majority interest sold. This provision shall apply only to the first sale of such a majority interest. The ten percent must be deposited in the permanent common school fund. If the debt is retired at the time of the sale, then the ten percent may only be used for costs associated with capital maintenance, capital improvements, renovations, reequipping, replacement, and operations of the stadium and exhibition center;

(vii) The team affiliate must provide reasonable office space to the public stadium authority without charge;

(viii) The team affiliate, in consultation with the public stadium authority, shall work with surrounding areas to mitigate the impact of the construction and operation of the stadium and exhibition center with a budget of at least ten million dollars dedicated to area mitigation. For purposes of this subsection, "mitigation" includes, but is not limited to, parking facilities and amenities, neighborhood beautification projects and landscaping, financial grants for neighborhood programs intended to mitigate adverse impacts caused by the construction and operation of the stadium and exhibition center, and mitigation measures identified in the environmental impact statement required for the stadium and exhibition center under chapter 43.21C RCW; and

(ix) Twenty percent of the net profit from the operation of the exhibition facility of the stadium and exhibition center shall be deposited into the escrow account described in RCW 43.99N.030, shall be applied toward the reasonably necessary preconstruction, site acquisition, design, site preparation, construction, and equipping of the stadium and exhibition center, or to any associated public purpose separate from bond-financed expenses. No part of the payment may be made without the consent of the public stadium authority. In any event, all amounts to be raised by the team affiliate under (b)(ii) of this subsection shall be paid or expended before the completion of the construction of the stadium and exhibition center. To the extent possible, contributions shall be structured in a manner that would allow for the issuance of bonds to construct the stadium and exhibition center that are exempt from federal income taxes;

*Reviser's note: The "youth athletic facility grant account" was renamed the "youth athletic facility account" by 2000 c 137 § 1.

43.99N.030 Escrow agreement, account—Distributions. On or before August 1, 1997: (1) The state treasurer and a team affiliate or an entity that has an option to become a team affiliate shall enter into an escrow agreement creating an escrow account; and (2) the team affiliate or the entity that has an option to become a team affiliate shall deposit the sum of fifty million dollars into the escrow account as a credit against the obligation of the team affiliate in RCW 43.99N.020(2)(b)(ii).

The escrow agreement shall provide that the fifty million dollar deposit shall be invested by the state treasurer and shall earn interest. If the stadium and exhibition center project proceeds, then the interest on amounts in the escrow account shall be for the benefit of the state, and all amounts in the escrow account, including all principal and interest, shall be distributed to the stadium and exhibition center account. Transfers of certified amounts—Bonds as general obliga-
tion, full faith and credit, promise to pay—Insufficiency in stadium and exhibition center account as obligation—
Procedures to require transfer and payment. The non-
debt-limit reimbursable bond retirement account shall be used for the payment of the principal of and interest on the bonds authorized in RCW 43.99N.020.

The state finance committee shall, on or before June 30th of each year, certify to the state treasurer the amount needed in the ensuing twelve months to meet the bond retirement and interest requirements. On each date on which any interest or principal and interest payment is due, the state treasurer shall transfer from the stadium and exhibition center account to the nondebt-limit reimbursable bond retirement account an amount equal to the amount certified by the state finance committee to be due on the payment date.

Bonds issued under RCW 43.99N.020 shall state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and shall contain an unconditional promise to pay the principal and interest as the same shall become due. If in any year the amount accumulated in the stadium and exhibition center account is insufficient for payment of the principal and interest on the bonds issued under RCW 43.99N.020, the amount of the insufficiency shall be a continuing obligation against the stadium and exhibition center account until paid.

The owner and holder of each of the bonds or the trustee for the owner and holder of any of the bonds may by mandamus or other appropriate proceeding require the transfer and payment of funds as directed in this section. [1997 c 220 § 213 (Referendum Bill No. 48, approved June 17, 1997).]

43.99N.060 Stadium and exhibition center account—Youth athletic facility account—Community outdoor ath-
etic facility loans and grants. (1) The stadium and exhibition center account is created in the custody of the state trea-
surer. All receipts from the taxes imposed under RCW 82.14.0494 and distributions under *RCW 67.70.240(5) shall be deposited into the account. Only the director of the office of financial management or the director's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW. An appropriation is not required for expenditures from this account.

(2) Until bonds are issued under RCW 43.99N.020, up to five million dollars per year beginning January 1, 1999, shall be used for the purposes of subsection (3)(b) of this section, all remaining moneys in the account shall be transferred to the public stadium authority, created under RCW 36.102.020, to be used for public stadium authority operations and development of the stadium and exhibition center.

(3) After bonds are issued under RCW 43.99N.020, all moneys in the stadium and exhibition center account shall be used exclusively for the following purposes in the following priority:

(a) On or before June 30th of each year, the office of financial management shall accumulate in the stadium and exhibition center account an amount at least equal to the amount required in the next succeeding twelve months for the payment of principal of and interest on the bonds issued under RCW 43.99N.020;

(b) An additional reserve amount not in excess of the expected average annual principal and interest requirements of bonds issued under RCW 43.99N.020 shall be accumu-
lated and maintained in the account, subject to withdrawal by the state treasurer at any time if necessary to meet the requirements of (a) of this subsection, and, following any with-
drawal, reaccumulated from the first tax revenues and other amounts deposited in the account after meeting the require-
ments of (a) of this subsection; and

(c) The balance, if any, shall be transferred to the youth athletic facility account under subsection (4) of this section.

Any revenues derived from the taxes authorized by RCW 36.38.010(5) and 36.38.040 or other amounts that if used as provided under (a) and (b) of this subsection would cause the loss of any tax exemption under federal law for interest on bonds issued under RCW 43.99N.020 shall be deposited in and used exclusively for the purposes of the youth athletic facility account and shall not be used, directly or indirectly, as a source of payment of principal of or interest on bonds issued under RCW 43.99N.020, or to replace or reimburse other funds used for that purpose.

(4) Any moneys in the stadium and exhibition center account not required or permitted to be used for the purposes described in subsection (3)(a) and (b) of this section shall be deposited in the youth athletic facility account hereby created in the state treasury. Expenditures from the account may be

used only for purposes of grants or loans to cities, counties, and qualified nonprofit organizations for community outdoor athletic facilities. Only the director of the recreation and conservation office or the director’s designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures. The athletic facility grants or loans may be used for acquiring, developing, equipping, maintaining, and improving community outdoor athletic facilities. Funds shall be divided equally between the development of new community outdoor athletic facilities, the improvement of existing community outdoor athletic facilities, and the maintenance of existing community outdoor athletic facilities. Cities, counties, and qualified nonprofit organizations must submit proposals for grants or loans from the account. To the extent that funds are available, cities, counties, and qualified nonprofit organizations must meet eligibility criteria as established by the director of the recreation and conservation office. The grants and loans shall be awarded on a competitive application process and the amount of the grant or loan shall be in proportion to the population of the city or county for where the community outdoor athletic facility is located. Grants or loans awarded in any one year need not be distributed in that year. In the 2009-2011 biennium, if there are not enough project applications submitted in a category within the account to meet the requirement of equal distribution of funds to each category, the director of the recreation and conservation office may distribute any remaining funds to other categories within the account. The director of the recreation and conservation office may expend up to one and one-half percent of the moneys deposited in the account created in this subsection for administrative purposes. 43.101.115 Denial or revocation of peace officer certification—Readmission to academy—Reinstatement. (2) A person whose certification is denied or revoked based upon prior administrative error of issuance, failure to cooperate, or interference with an investigation is eligible for certification upon meeting standards established in rules of the commission, rules which may provide for a probationary period of certification in the event of reinstatement of eligibility.

(3) A person whose certification is denied or revoked based upon a felony criminal conviction is not eligible for certification at any time.

(4) A peace officer whose certification is denied or revoked based upon discharge for disqualifying misconduct, but not also based upon a felony criminal conviction, may, five years after the revocation or denial, petition the commission for reinstatement of the certificate or for eligibility for reinstatement. (5) A peace officer whose certification is revoked based solely upon a criminal conviction may petition the commission for reinstatement immediately upon a final judicial reversal of the conviction. The commission shall hold a hearing on request to consider reinstatement, and the commission may allow reinstatement based on standards established in rules of the commission. If the certificate is reinstated or if eligibility for certification is determined, the commission may establish a probationary period of certification. [2001 c 167 § 4.]

43.101.125 Lapsed peace officer certification—Reinstatement—Rules. A peace officer's certification lapses automatically when there is a break of more than twenty-four consecutive months in the officer's service as a full-time law enforcement officer. A break in full-time law enforcement service which is due solely to the pendency of direct review or appeal from a disciplinary discharge, or to the pendency of a work-related injury, does not cause a lapse in certification. The officer may petition the commission for reinstatement of certification. Upon receipt of a petition for reinstatement of a lapsed certificate, the commission shall determine under this chapter and any applicable rules of the commission if the peace officer's certification status is to be reinstated, and the commission shall also determine any requirements which the officer must meet for reinstatement. The commission may adopt rules establishing requirements for reinstatement. [2001 c 167 § 5.]

43.101.135 Termination of peace officer—Notification to commission. Upon termination of a peace officer for any reason, including resignation, the agency of termination shall, within fifteen days of the termination, notify the commission on a personnel action report form provided by the commission. The agency of termination shall, upon request of the commission, provide such additional documentation or information as the commission deems necessary to determine whether the termination provides grounds for revocation under RCW 43.101.105. The commission shall maintain these notices in a permanent file, subject to RCW 43.101.400. [2001 c 167 § 6.]

43.101.145 Written complaint by law enforcement or law enforcement agency to deny or revoke peace officer certification—Immunity of complainant. A law enforcement officer or duly authorized representative of a law enforcement agency may submit a written complaint to the commission charging that a peace officer's certificate should be denied or revoked, and specifying the grounds for the charge. Filing a complaint does not make a complainant a party to the commission's action. The commission has sole discretion whether to investigate a complaint, and the commission has sole discretion whether to investigate matters relating to certification, denial of certification, or revocation of certification on any other basis, without restriction as to the source or the existence of a complaint. A person who files a complaint in good faith under this section is immune from suit or any civil action related to the filing or the contents of the complaint. [2001 c 167 § 8.]

43.101.155 Denial or revocation of peace officer certification—Statement of charges—Notice—Hearing. (1) If the commission determines, upon investigation, that there is probable cause to believe that a peace officer's certification should be denied or revoked under RCW 43.101.105, the commission must prepare and serve upon the officer a statement of charges. Service on the officer must be by mail or by personal service on the officer. Notice of the charges must also be mailed to or otherwise served upon the officer's agency of termination and any current law enforcement agency employer. The statement of charges must be accompanied by a notice that to receive a hearing on the denial or revocation, the officer must, within sixty days of communication of the statement of charges, request a hearing before the hearings board appointed under RCW 43.101.380. Failure of the officer to request a hearing within the sixty-day period constitutes a default, whereupon the commission may enter an order under RCW 34.05.440.

(2) If a hearing is requested, the date of the hearing must be scheduled not earlier than ninety days nor later than one hundred eighty days after communication of the statement of charges to the officer; the one hundred eighty-day period may be extended on mutual agreement of the parties or for good cause. The commission shall give written notice of hearing at least twenty days prior to the hearing, specifying the time, date, and place of hearing. [2001 c 167 § 9.]

43.101.157 Tribal police officer certification. (1) Tribal governments may voluntarily request certification for their police officers. Tribal governments requesting certification for their police officers must enter into a written agreement with the commission. The agreement must require the tribal law enforcement agency and its officers to comply with
all of the requirements for granting, denying, and revoking certification as those requirements are applied to peace officers certified under this chapter and the rules of the commission.

(2) Officers making application for certification as tribal police officers shall meet the requirements of this chapter and the rules of the commission as those requirements are applied to certification of peace officers. Application for certification as a tribal police officer shall be accepted and processed in the same manner as those for certification of peace officers.

(3) For purposes of certification, "tribal police officer" means any person employed and commissioned by a tribal government to enforce the criminal laws of that government. [2006 c 22 § 2.]

43.101.410 Racial profiling—Policies—Training—Complaint review process—Data collection and reporting. (1) Local law enforcement agencies shall comply with the recommendations of the Washington association of sheriffs and police chiefs regarding racial profiling, as set forth under (a) through (f) of this subsection. Local law enforcement agencies shall:

(a) Adopt a written policy designed to condemn and prevent racial profiling;

(b) Review and audit their existing procedures, practices, and training to ensure that they do not enable or foster the practice of racial profiling;

(c) Continue training to address the issues related to racial profiling. Officers should be trained in how to better interact with persons they stop so that legitimate police actions are not misperceived as racial profiling;

(d) Ensure that they have in place a citizen complaint review process that can adequately address instances of racial profiling. The process must be accessible to citizens and must be fair. Officers found to be engaged in racial profiling must be held accountable through the appropriate disciplinary procedures within each department;

(e) Work with the minority groups in their community to appropriately address the issue of racial profiling; and

(f) Within fiscal constraints, collect demographic data on traffic stops and analyze that data to ensure that racial profiling is not occurring.

(2) The Washington association of sheriffs and police chiefs shall coordinate with the criminal justice training commission to ensure that issues related to racial profiling are addressed in basic law enforcement training and offered in regional training for in-service law enforcement officers at all levels.

(3) Local law enforcement agencies shall report all information required under this section to the Washington association of sheriffs and police chiefs. [2002 c 14 § 2.]

Declaraton—Findings—2002 c 14: *(1) The legislature declares that racial profiling is the illegal use of race or ethnicity as a factor in deciding to stop and question, take enforcement action, arrest, or search a person or vehicle with or without a legal basis under the United States Constitution or Washington state Constitution.

(2) The legislature recognizes that the president of the United States has issued an executive order stating that stopping or searching individuals on the basis of race is not an effective law enforcement policy, that it is inconsistent with democratic ideals, especially the commitment to equal protection under the law for all persons, and that it is neither legitimate nor defensible
as a strategy for public protection. The order also instructs the law enforcement agencies within the departments of justice, treasury, and interior to collect race, ethnicity, and gender data on the people they stop or arrest.

(3) The legislature finds that the Washington state patrol has been in the process of collecting data on traffic stops and analyzing the data to determine if the patrol has any areas in its enforcement of traffic laws where minorities are being treated in a discriminatory manner. The legislature further finds that the Washington association of sheriffs and police chiefs has recently passed a resolution condemning racial profiling and has reaffirmed local law enforcement agencies' commitment to ensuring the public safety and the protection of civil liberties for all persons. The association also restated its goal of implementing policing procedures that are fair, equitable, and constitutional. [2002 c 14 § 1.]

43.101.415 Racial profiling—Reports to the legislature. The Washington association of sheriffs and police chiefs, in cooperation with the criminal justice training commission, shall report to the legislature by December 31, 2002, and each December 31st thereafter, on the progress and accomplishments of each local law enforcement agency in the state in meeting the requirements and goals set forth in RCW 43.101.410. [2002 c 14 § 3.]

43.101.419 Motorcycle profiling. (1) The criminal justice training commission shall ensure that issues related to motorcycle profiling are addressed in basic law enforcement training and offered to in-service law enforcement officers in conjunction with existing training regarding profiling.

(2) Local law enforcement agencies shall add a statement condemning motorcycle profiling to existing policies regarding profiling.

(3) For the purposes of this section, "motorcycle profiling" means the illegal use of the fact that a person rides a motorcycle or wears motorcycle-related paraphernalia as a factor in deciding to stop and question, take enforcement action, arrest, or search a person or vehicle with or without a legal basis under the United States Constitution or Washington state Constitution. [2011 c 49 § 1.]

(2) The training shall consist of a minimum of one hour of classroom or internet instruction, and shall include instruction on the following subjects:

(a) The description and underlying causes of problems that may have an impact on the personal and professional lives of public safety employees, including mental health issues, chemical dependency, domestic violence, financial problems, and other personal crises;

(b) Techniques by which public safety employees may recognize the conditions listed in (a) of this subsection and understand the need to seek assistance and obtain a referral for consultation and possible treatment; and

(c) A listing of examples of public and private crisis referral agencies available to public safety employees.

(3) The training developed by the commission shall be made available by the commission to all employees of state and local agencies that perform public safety duties. The commission may charge a reasonable fee to defer the cost of making the training available. [2009 c 19 § 1.]

43.101.425 Communications to crisis referral services—Confidentiality of communications and records. (1) All communications to crisis referral services by employees and volunteers of law enforcement, correctional, firefighting, and emergency services agencies, and all records related to the communications, shall be confidential. Crisis referral services include all public or private organizations that advise employees and volunteers of such agencies about sources of consultation and treatment for personal problems including mental health issues, chemical dependency, domestic violence, gambling, financial problems, and other personal crises.

(2) A crisis referral service may reveal information related to crisis referral services to prevent reasonably certain death, substantial bodily harm, or commission of a crime. [2009 c 19 § 2.]

(4) By July 1, 2017, the commission shall establish by rule:

(a) A program and standards to certify organizations, other than the commission, that may provide crisis intervention training as required under this section. Certified organizations must use a commission-certified training or curriculum to facilitate the training. (b) Information on community resources and support groups available to assist families who have lost a child to sudden, unexplained death, including sudden infant death syndrome; and

(c) The value of timely communication between the county coroner or medical examiner and the public health department, when a sudden, unexplained child death occurs, in order to achieve a better understanding of such deaths, and connecting families to various community and public health support systems to enhance recovery from grief.

(2) The council shall work with volunteer groups with expertise in the area of sudden, unexplained child death, including but not limited to the SIDS foundation of Washington and the Washington association of county officials.

(3) Basic training for death investigators offered by the Washington association of coroners and medical examiners and the criminal justice training commission shall include a module which specifically addresses the investigations of the sudden unexplained deaths of children under the age of three. The training module shall include a scene investigation protocol endorsed or developed by the council. A similar training curriculum shall be required for city and county law enforcement officers and emergency medical personnel certified by the department of health as part of their basic training through the criminal justice training commission or the department of health emergency medical training certification program.

Finding—Declaration—1991 c 176: "The legislature finds and declares that sudden and unexplained child deaths are a leading cause of death for children under age three. The public interest is served by research and study of the potential causes and indications of such unexplained child deaths and the prevention of inaccurate and inappropriate designation of sudden infant death syndrome (SIDS) as a cause of death. The legislature further finds and declares that law enforcement officers, firefighters, emergency medical technicians, and other first responders in emergency situations are not adequately informed regarding sudden, unexplained death in young children including but not limited to sudden infant death syndrome, its signs and typical history, and as a result may compound the family and child care provider's grief through conveyed suspicions of a criminal act. Coroners, investigators, and prosecuting attorneys are also in need of updated training on the identification of unexplained death in children under the age of three, including but not limited to sudden infant death syndrome awareness and sensitivity and the establishment of a statewide uniform protocol in cases of sudden, unexplained child death." [1991 c 176 § 5.]

43.103.110 Training modules for missing persons protocols. The Washington state forensic investigations council, in cooperation with the Washington association of coroners and medical examiners and other interested agencies, shall develop training modules that are essential to the effective implementation and use of missing persons protocols using funds provided in RCW 43.79.445. The training commission shall make the training modules available to small departments or those at remote locations with the least disruption. The modules shall include, but not be limited to: The reporting process, the use of forms and protocols, the effective use of resources, the collection and importance of evidence and preservation of biological evidence, and risk assessment of the individuals reported missing. [2007 c 10 § 2; 2006 c 102 § 3.]

Intent—2007 c 10: "It is the intent of this act to build upon the research and findings of the Washington state missing persons task force, assembled by the state attorney general in 2003, the United States department of justice, and the initiative taken in chapter 102, Laws of 2006, by the legislature to aid in recovery of missing persons and the identification of human remains." [2007 c 10 § 1.]

Finding—Intent—2006 c 102: See note following RCW 36.28A.100.

43.103.901 Effective date—1983 1st ex.s. c 16. This act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect July 1, 1983. [1983 1st ex.s. c 16 § 24.]

43.105.006 Consolidated technology services agency—Purpose. To achieve maximum benefit from advances in information technology the state establishes a centralized provider and procurer of certain information technology services as an agency to support the needs of state agencies. This agency shall be known as the consolidated technology services agency. To ensure maximum benefit to the state, state agencies shall rely on the consolidated technology services agency for those services with a business case of broad use, uniformity, scalability, and price sensitivity to aggregation and volume.

To successfully meet agency needs and meet its obligation as the primary service provider for these services, the consolidated technology services agency must offer high quality services at the lowest possible price. It must be able to attract an adaptable and competitive workforce, be authorized to procure services where the business case justifies it, and be accountable to its customers for the efficient and effective delivery of critical business services.

The consolidated technology services agency is established as an agency in state government. The agency is established with clear accountability to the agencies it serves and to the public. This accountability will come through enhanced transparency in the agency's operation and performance. The agency is also established with broad flexibility to adapt its operations and service catalog to address the needs of customer agencies, and to do so in the most cost-effective ways. [2011 1st sp.s. c 43 § 801.]

Effective date—Purpose—2011 1st sp.s. c 43: See notes following RCW 43.19.003.

43.105.007 Purpose. Information technology is a tool used by state agencies to improve their ability to deliver public services efficiently and effectively. Advances in information technology, including advances in hardware, software, and business processes for implementing and managing these resources, offer new opportunities to improve the level of support provided to citizens and state agencies and to reduce the per-transaction cost of these services. These advances are one component in the process of reengineering how government delivers services to citizens.

To fully realize the service improvements and cost efficiency from the effective application of information technology to its business processes, state government must establish decision-making structures that connect business processes and information technology in an operating model. Many of these business practices transcend individual agency processes and should be worked at the enterprise level. To do this requires an effective partnership of executive management, business processes owners, and providers of support functions necessary to efficiently and effectively deliver services to citizens.

To maximize the potential for information technology to contribute to government business process reengineering, the state must establish clear central authority to plan, set enterprise policies and standards, and provide project oversight and management analysis of the various aspects of a business process.

Establishing a state chief information officer as the director of the consolidated technology services agency will provide state government with the cohesive structure necessary to develop improved operating models with agency directors and reengineer business process to enhance service delivery while capturing savings.

To achieve maximum benefit from advances in information technology, the state establishes a centralized provider and procurer of certain information technology services as an agency to support the needs of public agencies. This agency shall be known as the consolidated technology services agency. To ensure maximum benefit to the state, state agencies shall rely on the consolidated technology services agency for those services with a business case of broad use, uniformity, scalability, and price sensitivity to aggregation and volume.

To successfully meet public agency needs and meet its obligation as the primary service provider for these services, the consolidated technology services agency must offer high quality services at the best value. It must be able to attract an adaptable and competitive workforce, be authorized to procure services where the business case justifies it, and be accountable to its customers for the efficient and effective delivery of critical business services.

The consolidated technology services agency is established with clear accountability to the agencies it serves and to the public. This accountability will come through enhanced transparency in the agency's operation and performance. The agency is also established with broad flexibility to adapt its operations and service catalog to address the needs of customer agencies, and to do so in the most cost-effective ways. 43.105.351 Electronic access to public records—Findings—Intent. Based upon the recommendations of the public information access policy task force, the legislature finds that government records and information are a vital resource to both government operations and to the public that government serves. Broad public access to state and local government records and information has potential for expanding citizen access to that information and for improving government services. Electronic methods for locating and transferring information can improve linkages between and among citizens, organizations, businesses, and governments. Information must be managed with great care to meet the objectives of citizens and their governments.

It is the intent of the legislature to encourage state and local governments to develop, store, and manage their public records and information in electronic formats to meet their missions and objectives. Further, it is the intent of the legislature for state and local governments to set priorities for making public records widely available electronically to the public. [1996 c 171 § 1. Formerly RCW 43.41A.115, 43.105.250.]

43.105.355 Electronic access to public records—Costs and fees. Funding to meet the costs of providing access, including the building of the necessary information systems, the digitizing of information, developing the ability to mask nondisclosable information, and maintenance and upgrade of information access systems should come primarily from state and local appropriations, federal dollars, grants, private funds, cooperative ventures among governments, nonexclusive licensing, and public/private partnerships.

State agencies and local governments are encouraged to pool resources and to form cooperative ventures to provide electronic access to government records and information. State agencies are encouraged to seek federal and private grants for projects that provide increased efficiency and improve government delivery of information and services. [2015 3rd sp.s. c 1 § 217; 1996 c 171 § 12. Formerly RCW 43.41A.130, 43.105.280.]

43.105.359 Electronic access to public records—Government information locator service pilot project. The state library, with the assistance of the office and the state archives, shall establish a pilot project to design and test an electronic information locator system, allowing members of
the public to locate and access electronic public records. In designing the system, the following factors shall be considered: (1) Ease of operation by citizens; (2) access through multiple technologies, such as direct dial and toll-free numbers, kiosks, and the internet; (3) compatibility with private online services; and (4) capability of expanding the electronic public records included in the system. The pilot project may restrict the type and quality of electronic public records that are included in the system to test the feasibility of making electronic public records and information widely available to the public. [2011 1st sp.s. c 43 § 724; 1996 c 171 § 13. Formerly RCW 43.41A.135, 43.105.290.]

To the extent possible, information must be collected directly from and with the consent of, the individual who is the subject of the data. State agencies shall establish procedures for correcting inaccurate information, including establishing mechanisms for individuals to review information about themselves and recommend changes in information they believe to be inaccurate. The inclusion of personal information in electronic public records that is widely available to the public should include information on the date when the database was created or most recently updated. If personally identifiable information is included in electronic public records that are made widely available to the public, state agencies must follow retention and archival schedules in accordance with chapter 40.14 RCW, retaining personally identifiable information only as long as needed to carry out the purpose for which it was collected. At least once every five years, each agency that collects information must review the information collected and justify why it is being collected and for what purpose. [2015 3rd sp.s. c 1 §§ 218; 2011 c 60 § 39; 1996 c 171 § 15. Formerly RCW 43.41A.140, 43.105.310.]

43.105.369 Office of privacy and data protection. (1) The office of privacy and data protection is created within the office of the state chief information officer. The purpose of the office of privacy and data protection is to serve as a central point of contact for state agencies on policy matters involving data privacy and data protection.

(2) The director shall appoint the chief privacy officer, who is the director of the office of privacy and data protection.

(3) The primary duties of the office of privacy and data protection with respect to state agencies are:

(a) To conduct an annual privacy review;

(b) To conduct an annual privacy training for state agencies and employees;

(c) To articulate privacy principles and best practices;

(d) To coordinate data protection in cooperation with the agency; and

(e) To participate with the office of the state chief information officer in the review of major state agency projects involving personally identifiable information.

(4) The office of privacy and data protection must serve as a resource to local governments and the public on data privacy and protection concerns by:

(a) Developing and promoting the dissemination of best practices for the collection and storage of personally identifiable information, including establishing and conducting a training program or programs for local governments; and

(b) Educating consumers about the use of personally identifiable information on mobile and digital networks and measures that can help protect this information.

(5) By December 1, 2016, and every four years thereafter, the office of privacy and data protection must prepare and submit to the legislature a report evaluating its performance. The office of privacy and data protection must establish performance measures in its 2016 report to the legislature and, in each report thereafter, demonstrate the extent to which performance results have been achieved. These performance measures must include, but are not limited to, the following:

(a) The number of state agencies and employees who have participated in the annual privacy training;

(b) A report on the extent of the office of privacy and data protection's coordination with international and national experts in the fields of data privacy, data protection, and access equity;

(c) A report on the implementation of data protection measures by state agencies attributable in whole or in part to the office of privacy and data protection's coordination of efforts; and

(d) A report on consumer education efforts, including but not limited to the number of consumers educated through public outreach efforts, as indicated by how frequently educational documents were accessed, the office of privacy and data protection's participation in outreach events, and inquiries received back from consumers via telephone or other media.

(7) The office of privacy and data protection shall submit a report to the legislature on the: (a) Extent to which telecommunications providers in the state are deploying advanced telecommunications capability; and (b) existence of any inequality in access to advanced telecommunications infrastructure experienced by residents of tribal lands, rural areas, and economically distressed communities. The report may be submitted at a time within the discretion of the office of privacy and data protection, at least once every four years, and only to the extent the office of privacy and data protection is able to gather and present the information within existing resources. [2016 c 195 § 2.]
Findings—2016 c 195: "The legislature finds that the rapid expansion of digital technology and mobile networks is changing how citizens access and share personal data and communications. Data privacy, data protection, and access equity are of increasing concern for all residents of the state. State agencies and programs entrusted by citizens with sensitive personal information must serve as responsible custodians of this data. The state can also play an important role in educating local governments and consumers about measures that may help them protect this information and as an advocate for access equity. In an interconnected world, citizens who lack meaningful access to digital technology, including mobile networks and high-speed internet connections, lack the necessary tools for sharing in the state's technology, innovation, and economic development successes. For the foregoing reasons, the legislature finds that it is necessary and efficient to have a central point of contact for policy matters involving data privacy, data protection, and access equity." [2016 c 195 § 1]

43.105.375 Use of state data center—Business plan and migration schedule for state agencies—Exceptions. (1) Except as provided by subsection (2) of this section, state agencies shall locate all existing and new servers in the state data center.

(2) State agencies with a service requirement that requires servers to be located outside the state data center must receive a waiver from the office. Waivers must be based upon written justification from the requesting state agency citing specific service or performance requirements for locating servers outside the state's common platform.

(3) The office, in consultation with the office of financial management, shall continue to develop the business plan and migration schedule for moving all state agencies into the state data center.

(4) The legislature and the judiciary, which are constitutionally recognized as separate branches of government, may enter into an interagency agreement with the office to migrate its servers into the state data center.

(5) This section does not apply to institutions of higher education. [2015 3rd sp.s. c 1 § 219; 2011 1st sp.s. c 43 § 735. Formerly RCW 43.41A.150.]

*Reviser's note: The "department of information services" was renamed the "consolidated technology services agency" by 2011 1st sp.s. c 43 § 803.

Findings—Intent—2008 c 262: *(1) The legislature finds and declares the following:

(a) The deployment and adoption of high-speed internet services and information technology has resulted in enhanced economic development and public safety for the state's communities, improved health care and educational opportunities, and a better quality of life for the state's residents;

(b) Continued progress in the deployment and adoption of high-speed internet services and other advanced telecommunications services, both land-based and wireless, is vital to ensuring Washington remains competitive and continues to create business and job growth; and

(c) That the state must encourage and support strategic partnerships of public, private, nonprofit, and community-based sectors in the continued growth and development of high-speed internet services and information technology for state residents and businesses.

(2) Therefore, in order to begin advancing the state towards further growth and development of high-speed internet in the state, and to ensure a better quality of life for all state residents, it is the legislature's intent to conduct a statewide needs assessment of broadband internet resources through an open dialogue with all interested parties, including providers, unions, businesses, community organizations, local governments, and state agencies. The legislature intends to use this needs assessment in guiding future plans and continues to create business and job growth; and

(3) All rules and all pending business before the department of information services pertaining to the powers, duties, and functions transferred shall be continued and acted upon by the consolidated technology services agency. [Title 43 RCW—page 583]
43.113.005 Legislative declaration. The legislature declares that it is the public policy of this state to insure equal opportunity for all of its citizens. The legislature finds that, for economic, social, and historical reasons, a disproportionate number of African Americans find themselves disadvantaged or isolated from the benefits of equal opportunity. The legislature believes that it is the duty of this state to improve the well-being of African Americans by enabling them to participate fully in all fields of endeavor and by assisting them in obtaining governmental services. The legislature further finds that the development of public policy and the delivery of governmental services to meet the special needs of African Americans can be improved by establishing a focal point in state government for the interests of African American citizens. Therefore, the legislature deems it necessary to establish in statute the commission on African American affairs to further these purposes. [1992 c 96 § 1.]

[2019 c 283 § 2.]

Findings—Intent—2019 c 283: "The legislature finds that the writings and teachings of American history have often overlooked the role of people of color, among them the history of Filipino Americans, whose heritage spans a colonial, political, economic, and cultural relationship with the United States. The legislature also finds that the earliest documented proof of Filipino presence in the continental United States was on October 18, 1587, when the first "Luzones Indios" set foot in Morro Bay, California. The Filipino American national historical society recognizes the year of 1763 as the date of the first permanent Filipino settlement in the United States in St. Malo Parrish, Louisiana. Subsequent waves of migration followed, and today Filipino Americans continue to make a lasting impact on the history and heritage of Washington state and the United States. In recognition of the critical economic, cultural, social, and other notable contributions by Filipino Americans to Washington state and the United States, the legislature has proclaimed October as Filipino American history month since 2010. The legislature further finds that the prominence of Filipino and Filipino American population in Washington state warrants official commemoration of the history and heritage of Filipino Americans. Therefore the legislature intends to designate the month of October as Filipino American history month, a period of commemoration that highlights the contributions of Filipino Americans to Washington state and the United States." Finding—2018 c 98: "On August 26, 1920, with the action of the Tennessee legislature, the Nineteenth Amendment to the United States Constitution was ratified, establishing the right to vote for most American women. However, this right for some women occurred later: Native Americans generally by 1924; many Asians during the mid-twentieth century; and many others following enactment of voting rights legislation during the 1960s.

The introduction, passage, and ratification of the Nineteenth Amendment were the result of decades of work and struggle by women's voting rights advocates throughout the United States, with people from Washington state providing significant leadership. In 1854, six years after the landmark women's rights convention in Seneca Falls, New York, the Washington territorial legislature initially considered enacting women's right to vote. Susan B. Anthony visited Washington territory in 1871 and addressed the Washington territorial legislature, the first woman in the country to address a state legislative body in session. This spurred the creation of many women's right to vote associations in Washington and other states.

State women's right to vote legislation eventually passed the Washington territorial legislature twice, but each time was found unconstitutional by the territorial supreme court. With the 1910 approval of a state constitutional amendment by the male voters of the state, Washington became the first state in the twentieth century, and the fifth state overall, to enact women's right to vote at the state level. In 2009, the state of Washington posthumously awarded its highest honor, the medal of merit, to the two key leaders of the Washington women's right to vote movement, Emma Smith DeVoe and May Arkwright Hutton.

The path to women's suffrage was blazed by western states. Washington's action (1910) followed Wyoming (1890), Colorado (1893), Utah..."
(1870), and Idaho (1896). These successes were immediately followed by California (1911) and Oregon (1912), in establishing women's right to vote. Washington was a major leader in the movement for nationwide women's right to vote. Washington was the first state in the twentieth century to fully enfranchise women and inspired the nationwide campaign that soon brought success in many western states and the territory of Alaska, culminating in the Nineteenth Amendment to the United States Constitution providing for American women throughout the country to vote.

In 2010, the Washington women's history consortium provided leadership for statewide commemoration of the centennial of Washington state women's right to vote, sponsoring and coordinating a wide range of statewide activities.

The centennial of the passage of the Nineteenth Amendment to the United States Constitution, in 2020, offers still greater opportunities for Washingtonians to commemorate and educate themselves and future generations about the importance of voting and civic engagement. Washingtonians and the many visitors to Washington will benefit from learning about and becoming inspired by the historic efforts of the women's right to vote movement in Washington and throughout the nation and the subsequent impacts on life in Washington and the United States.

Therefore, the legislature finds it beneficial to begin the process of preparing for statewide commemoration from 2018 through 2020, of the centennial of the processes of congressional passage of and states' legislative ratification of the Nineteenth Amendment to the United States Constitution, which established the right to vote for American women. It is the purpose of this chapter to establish an economic impact act for the state of Washington to meet the emergency situation now in existence for state employees affected by the closure of state facilities, as defined in RCW 43.130.020. [1973 2nd ex.s. c 37 § 1.]

(1) "Employees" includes those persons performing services for the state on a salaried or hourly basis including, but not limited to, persons in "classified service" as defined in *RCW 41.06.020(3) and those persons defined as exempt from the state civil service laws pursuant to RCW 41.06.070.
(2) The term "closure of a state facility" means the termination of services being provided by a facility operated by the department of social and health services or in conjunction with the department of natural resources, when such facility is terminated for fiscal reasons, obsolescence, or other extraordinary reasons.
(3) "Classified employees" means those employees performing classified service as defined in RCW 41.06.020(3). [1973 2nd ex.s. c 37 § 2.]

*Reviser's note: RCW 41.06.020 was alphabetized pursuant to RCW 1.08.015(2)(k), changing subsection (3) to subsection (5).

Excluded employment and excluded employees under this chapter include, but are not limited to, the following:

(1) State employment related to a single project under a program separately financed by a grant of nonstate funds, federal funds or state funds, or by a combination of such funding, which is designed to provide training or employment opportunities, expertise or additional manpower related to the project or which, because of the nature of the project funding requirements, is not intended as a permanent program.

(2) Activities at least seventy-five percent federally funded by a categorical grant for a specific purpose and any other activities terminated because of actions taken by the federal government or other funding sources other than the state of Washington in eliminating or substantially limiting funding sources, except to the extent that the federal government or such other funding sources may permit the use of nonstate funds to pay for any employee benefits authorized pursuant to this chapter.

(3) The following categories of employees are excluded from benefits under this chapter:

(a) employees refusing transfer to vacant positions in the same or a like job classification and at not more than one full range lower than the same salary range;

(2) Relocation leave shall be allowed up to five working days' leave with pay for the purpose of locating new residence in the area of employment.

(3) The state shall reimburse the transferring employee to the extent of any unavoidable financial loss suffered by an employee who sells his or her home at a price less than the true and fair market value as determined by the county assessor not exceeding three thousand dollars: PROVIDED, That this right of reimbursement must be exercised, and sale of the property must be accomplished, within a period of two years from the date other state employment is accepted.

(4) For employees in facilities which have been terminated who do not choose to participate in the transfer program set forth in the preceding subsections, the following terminal pay plan shall be available:

(e) Those employees who are reemployed by the state during the period they are receiving terminal pay pursuant to subsections (a), (b) and (c) of this section shall reimburse the state for that portion of the terminal pay covered by the period of new employment.

GENERAL PROVISIONS

43.131.010 Short title. (Expires June 30, 2025.) This chapter may be known and cited as the Washington Sunset Act. [1990 c 297 § 1; 1977 ex.s. c 289 § 1.]

43.131.020 Findings. (Expires June 30, 2025.) The state legislature finds that state entities may fail to deliver services as effectively and efficiently as is expected by the general public and as originally contemplated by the legislature.
It further finds that state government actions have produced a substantial increase in numbers of entities, growth of programs, and foration of rules, and that the entire process has evolved without sufficient legislative and executive over-sight, regulatory accountability, or a system of checks and balances. The legislature further finds that by establishing a system for the termination, continuation, or modification of state entities, coupled with a system of scheduled review of such entities, it will be in a better position to: Evaluate the need for the continued existence of existing and future state entities; assess the effectiveness and performance of agencies, boards, commissions, and programs; and ensure public accountability. The legislature recognizes that the executive branch shares in this duty and responsibility to assure that state government operates in an efficient, orderly, and responsive manner. [2000 c 189 § 1; 1977 ex.s. c 289 § 2.]

43.131.030 Definitions. (Expires June 30, 2025.) As used in this chapter the following words and phrases shall have the following meanings unless the context clearly requires otherwise.

(1) "Entity" includes every state office, department, board, commission, unit or subunit, and agency of the state, and where provided by law, programs and activities involving less than the full responsibility of a state agency. "Entity" also includes any part of the Revised Code of Washington scheduled for repeal, expiration, or program termination.

(2) "Person" includes every natural person, firm, partnership, corporation, association, or organization. [2000 c 189 § 2; 1983 1st ex.s. c 27 § 1; 1977 ex.s. c 289 § 3.]

43.131.040 Reestablishment of entity scheduled for termination—Review. (Expires June 30, 2025.) Any state entity scheduled for termination by the processes provided in this chapter may be reestablished by the legislature for a specified period of time or indefinitely. The legislature may again review the state entity in a manner consistent with the provisions of this chapter and reestablish, modify, or consolidate such state entity or allow it to be terminated. [2000 c 189 § 3; 1983 1st ex.s. c 27 § 2; 1977 ex.s. c 289 § 4.]

43.131.051 Program and fiscal review—Reports. (Expires June 30, 2025.) The joint legislative audit and review committee shall conduct a program and fiscal review of any entity scheduled for termination under this chapter. This program and fiscal review shall be completed and a preliminary report prepared during the calendar year prior to the date established for termination. These reports shall be prepared in the manner set forth in RCW 44.28.071 and 44.28.075. Upon completion of its preliminary report, the joint legislative audit and review committee shall transmit copies of the report to the office of financial management and any affected entity. The final report shall include the response, if any, of the affected entity and the office of financial management in the same manner as set forth in RCW 44.28.088, except the affected entity and the office of financial management shall have sixty days to respond to the report. The joint legislative audit and review committee shall transmit the final report to the legislature, to the state entity affected, to the governor, and to the state library. [2000 c 189 § 4.]

43.131.055 Program and fiscal review—Alternative public works contracting procedures. (Expires July 1, 2022.) (1) If the sunset review process in RCW 43.131.010 through 43.131.150 expires before June 30, 2021, the joint legislative audit and review committee must conduct a program and fiscal review of the alternative public works contracting procedures authorized in chapter 39.10 RCW. The review must be completed by June 30, 2021, and findings reported to the office of financial management and any affected entities. The report must be prepared in the manner set forth in RCW 44.28.071 and 44.28.075.

(2) This section expires July 1, 2022. [2013 c 222 § 24.]

Contingent effective date—2013 c 222 § 24: "Section 24 of this act takes effect upon the expiration of RCW 43.131.051." [2013 c 222 § 25.]

The entity has the burden of demonstrating the extent to which performance results have been achieved. The sunset termination legislation shall name a lead entity, if more than one entity is impacted by scheduled termination. The affected entity or lead entity has the responsibility for developing and implementing a data collection plan and submitting the resulting performance information to the joint legislative audit and review committee.

(3) An entity shall develop performance measures and a data collection plan and submit them for review and comment to the joint legislative audit and review committee within one year of the effective date of the legislation establishing the sunset termination.

(4) Unless specified otherwise, sunset terminations under this chapter shall be a minimum of seven years. The joint legislative audit and review committee shall complete its review in the year prior to the date of termination. [2000 c 189 § 5.]

43.131.071 Scope of review—Recommendations to the legislature. (Expires June 30, 2025.) (1) In conducting the review of an entity, the joint legislative audit and review committee shall determine the scope and objectives of the review and consider, but not be limited to, the following factors, if applicable:

(a) The extent to which the entity has complied with legislative intent;

(b) The extent to which the entity is operating in an efficient and economical manner which results in optimum performance;

(c) The extent to which the entity is operating in the public interest by controlling costs;

(d) The extent to which the entity duplicates the activities of other entities or of the private sector;

(e) The extent to which the entity is meeting the performance measures developed under RCW 43.131.061; and

Unless otherwise provided:

Legislative fiscal notes: Chapter 43.88A RCW.

43.132.010  Intent.  It is the intent of this chapter to create a uniform and coordinated procedure to determine the fiscal impact of proposed legislation on units of local government. [1977 ex.s. c 19 § 1.]

43.132.020  Fiscal notes—Preparation—Contents—Scope—Revisions—Reports.  The director of financial management or the director's designee shall, in cooperation with appropriate legislative committees and legislative staff, establish a mechanism for the determination of the fiscal impact of proposed legislation which if enacted into law would directly or indirectly increase or decrease revenues received or expenditures incurred by counties, cities, towns, or any other units of local government. For purposes of this section, "unit of local government" includes school districts to the extent that the proposed legislation affects school districts in the same manner as it affects other units of local government. Where proposed legislation uniquely affects school districts, a school district fiscal note must be prepared under the process established in RCW 28A.300.0401. The office of financial management shall, when requested by a member of the state legislature, report in writing as to such fiscal impact and report shall be known as a "fiscal note".

Such fiscal notes shall indicate by fiscal year the total impact on the local governments involved for the first two years the legislation would be in effect and also a cumulative six year forecast of the fiscal impact. Where feasible and applicable, the fiscal note also shall indicate the fiscal impact on each individual county or on a representative sampling of cities, towns, or other units of local government.

A fiscal note as defined in this section shall be provided only upon request of any member of the state legislature. A request for a fiscal note on legislation shall be considered to be a continuing request for a fiscal note on any formal alteration of the legislation in the form of amendments to the legislation that are adopted by a committee or a house of the legislature or a substitute version of such legislation that is adopted by a committee and preparation of the fiscal note on the prior version of the legislation shall stop, unless the legislator requesting the fiscal note specifies otherwise or the altered version is first adopted or enacted in the last week of a legislative session.

Fiscal notes shall be completed within one week of the request unless a longer time period is allowed by the requesting legislator. In the event a fiscal note has not been completed within one week of a request, a daily report shall be prepared for the requesting legislator by the director of financial management which report summarizes the progress in preparing the fiscal note. If the request is referred to the director of commerce, the daily report shall also include the date and time such referral was made. [2011 c 140 § 2; 2000 c 182 § 2; 1995 c 399 § 79; 1984 c 125 § 16; 1979 c 151 § 149; 1977 ex.s. c 19 § 2.]

Intent—2000 c 182: "It is the intent of the legislature to enhance the local government fiscal note process by providing for updated fiscal information on pending legislation and to establish a process for a more comprehensive report on the fiscal impacts to local governments arising from laws that have been enacted. Further, it is the intent of the legislature that the varying effects of legislation on different local governments be recognized. This act is enacted in recognition of the responsibilities imposed by RCW 43.135.060." [2000 c 182 § 1.]

43.132.030  Designation of department of community, trade, and economic development to prepare fiscal notes—Cooperation of state agencies, legislative staffs, and local government associations.  The director of financial management is hereby empowered to designate the director of community, trade, and economic development as the official responsible for the preparation of fiscal notes authorized and required by this chapter. It is the intent of the legislature that when necessary the resources of other state agencies, appropriate legislative staffs, and the various associations of local government may be employed in the development of such fiscal notes. [1995 c 399 § 80; 1985 c 6 § 10; 1979 c 151 § 150; 1977 ex.s. c 19 § 3.]

*Reviser's note: The "director of community, trade, and economic development" was changed to the "director of commerce" by 2009 c 565.

43.132.040  Fiscal notes—Transmission of copies to designated recipients.  When a fiscal note is prepared and approved as to form and completeness by the director of financial management, the director shall transmit copies immediately to:

(1) The requesting legislator;
(2) With respect to proposed legislation held by the senate, the chairperson of the committee which holds or has acted upon the proposed legislation, the chairperson of the ways and means committee and equivalent committees with jurisdiction over matters normally considered by a ways and means committee, the chairperson of the local government committee or equivalent committee that considers local government matters, and the secretary of the senate; and
(3) With respect to proposed legislation held by the house of representatives, the chairperson of the committee which holds or has acted upon the proposed legislation, the chairpersons of the ways and means committee and equivalent committees with jurisdiction over matters normally considered by a ways and means committee, the chairperson of the local government committee or equivalent committee that considers local government matters, and the chief clerk of the
43.132.050 Fiscal notes—Transmission of copies upon request. The office of financial management may make additional copies of the fiscal note available to members of the legislature and others on request.

At the request of any member of the senate or house of representatives, whichever is considering the proposed legislation, and unless it is prohibited by the rules of the body, copies of the fiscal note or a synopsis thereof shall be placed on the members' desks at the time the proposed legislation takes its place on the second reading calendar.

Whenever proposed legislation accompanied by such a fiscal note is passed by either the senate or the house of representatives, the fiscal note shall be transmitted with the bill to the other house. [1986 c 158 § 19; 1979 c 151 § 152; 1977 ex.s. c 19 § 5.]

43.132.055 Fiscal notes—Expenditures by local government—Fiscal responsibility. When the fiscal note indicates that a bill or resolution would require expenditures of funds by a county, city, town, or other unit of local government, the legislature shall determine the state's fiscal responsibility and shall make every effort to appropriate the funds or provide the revenue generating authority necessary to implement the legislation during the ensuing biennium. [1979 ex.s. c 112 § 2.]

43.132.060 Legislative action upon or validity of measures not affected. (1) Nothing in this chapter shall prevent either house of the legislature from acting on any bill or resolution before it as otherwise provided by the state Constitution, by law, and by the rules of the senate and house of representatives, nor shall the lack of any fiscal note as provided in this chapter or any error in the accuracy thereof affect the validity of any measure otherwise duly passed by the legislature.

(2) Subsection (1) of this section shall not alter the responsibilities of RCW 43.135.060. [2000 c 182 § 4; 1977 ex.s. c 19 § 6.]

Intent—2000 c 182: See note following RCW 43.132.020.

43.132.810 Local government fiscal notes—Fiscal impact of selected laws on local governments—Biennial report. The office of financial management, in consultation with the *department of community, trade, and economic development, shall prepare a report for the legislature on or before December 31st of every even-numbered year on local government fiscal notes, and reports on the fiscal impacts on local governments arising from selected laws, that were prepared over the preceding two-year period. [2000 c 182 § 6.]

*Reviser's note: The "department of community, trade, and economic development" was renamed the "department of commerce" by 2009 c 565.

Intent—2000 c 182: See note following RCW 43.132.020.

(2019 Ed.)
43.135.010 Findings—Intent. The people of the state of Washington hereby find and declare:

(1) The continuing increases in our state tax burden and the corresponding growth of state government is contrary to the interest of the people of the state of Washington.

(2) It is necessary to limit the rate of growth of state government while ensuring adequate funding of essential services, and ample funding of basic education as defined by the legislature in chapter 548, Laws of 2009 and chapter 236, Laws of 2010 and as required by the state supreme court opinion and subsequent orders in McCleary v. State.

(3) The current budgetary system in the state of Washington lacks stability. The system encourages crisis budgeting and results in cutbacks during lean years and overspending during surplus years.

(4) It is therefore the intent of this chapter to:
   (a) Establish a limit on state expenditures that will assure that the growth rate of state expenditures does not exceed the growth rate in Washington personal income once the state has fully implemented its Article IX funding obligations;
   (b) Assure that local governments are provided funds adequate to render those services deemed essential by their citizens;
   (c) Assure that the state does not impose responsibility on local governments for new programs or increased levels of service under existing programs unless the costs thereof are paid by the state;
   (d) Provide for adjustment of the limit when costs of a program are transferred between the state and another political entity;
   (e) Establish a procedure for exceeding this limit in emergency situations;
   (f) Provide for voter approval of tax increases; and
   (g) Avoid overfunding and underfunding state programs by providing stability, consistency, and long-range planning.

43.135.025 General fund expenditure limit—Computation—Annual limit adjustment—Definitions—Emergency exception—State treasurer duty, penalty—
State expenditure limit committee. (1) Beginning July 1, 2021, the state shall not expend from the general fund during any fiscal year state moneys in excess of the state expenditure limit established under this chapter.

(2) Except pursuant to an appropriation under RCW 43.135.045(2), the state treasurer shall not issue or redeem any check, warrant, or voucher that will result in a state general fund expenditure for any fiscal year in excess of the state expenditure limit established under this chapter. A violation of this subsection constitutes a violation of RCW 43.88.290 and shall subject the state treasurer to the penalties provided in RCW 43.88.300.

(3) The state expenditure limit for any fiscal year shall be the previous fiscal year's state expenditure limit increased by a percentage rate that equals the fiscal growth factor.

(4) For purposes of computing the state expenditure limit for the fiscal year beginning July 1, 2021, the phrase "the previous fiscal year's state expenditure limit" means the total state expenditures from the state general fund for the fiscal year beginning July 1, 2020, plus the fiscal growth factor.

(5) A state expenditure limit committee is established for the purpose of determining and adjusting the state expenditure limit as provided in this chapter. The members of the state expenditure limit committee are the director of financial management, the attorney general or the attorney general's designee, and the chairs and ranking minority members of the senate committee on ways and means and the house of representatives committee on ways and means. All actions of the state expenditure limit committee taken pursuant to this chapter require an affirmative vote of at least four members.

(6) Each November, the state expenditure limit committee shall adjust the expenditure limit for the preceding fiscal year based on actual expenditures and known changes in the fiscal growth factor and then project an expenditure limit for the next two fiscal years. If, by November 30th, the state expenditure limit committee has not adopted the expenditure limit adjustment and projected expenditure limit as provided in subsection (5) of this section, the attorney general or his or her designee shall adjust or project the expenditure limit, as necessary.

(7) "Fiscal growth factor" means the average growth in state personal income for the prior ten fiscal years.

(8) "General fund" means the state general fund. [2015 3rd sp.s. c 29 § 3; 2009 c 479 § 35; 2005 c 72 § 4; (2006 c 56 § 7 expired July 1, 2007); 2000 2nd sp.s. c 2 § 1; 1994 c 2 § 2 (Initiative Measure No. 601, approved November 2, 1993).]

Effective date—2015 3rd sp.s. c 29: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [July 6, 2015]." [2015 3rd sp.s. c 29 § 5.]

Findings—2015 3rd sp.s. c 29: "The legislature finds that under the state supreme court's decision and subsequent orders in McCleary v. State, the state has an Article IX constitutional obligation to make significant enhancements to the program of basic education over the next biennium. The legislature further finds that the state expenditure limit was first enacted in 1993 as part of Initiative Measure No. 601, and that Washington has undergone many changes in the intervening years, including a recession during which state general fund revenues and expenditures actually declined despite population growth and increased demands for public services. Finally, the legislature finds that the new state requirements for a four-year balanced budget and budget outlook process provide a better tool for balancing and controlling the state budget while fulfilling constitutional requirements than does the state expenditure limit process. For these reasons, during the biennium in which the legislature is phasing in its Article IX obligations and for the ensuing biennium, the legislature is temporarily suspending the state expenditure limit." The press release required by this subsection must include all the information required by subsection (1) of this section and the names of the legislators, and their contact information, who are members of the legislative committee conducting the hearing so they can provide information to, and answer questions from, the public.

(3) Each time a bill that raises taxes as defined by RCW 43.135.034 or increases fees is approved by any legislative committee or by at least a simple majority in either the house of representatives or the senate, the office of financial management must expeditiously reexamine and redetermine its ten-year cost projection due to amendment or other changes during the legislative process, must promptly and without delay report the results of its most up-to-date analysis by public press release via email to each member of the house of representatives, each member of the senate, the news media, and the public, and must post and maintain these releases on its web site. Any ten-year cost projection must include a year-by-year breakdown. (4) For the purposes of this section, "names of legislators, and their contact information" includes each legislator's position (senator or representative), first name, last name, party affiliation (for example, Democrat or Republican), city or town they live in, office phone number, and office email address.

(5) For the purposes of this section, "news media" means any member of the press or media organization, including newspapers, radio, and television, that signs up with the office of financial management to receive the public press releases by email.

(6) For the purposes of this section, "the public" means any person, group, or organization that signs up with the office of financial management to receive the public press releases by email. [2013 c 1 § 5 ( Initiative Measure No. 1185, approved November 6, 2012); 2016 c 1 § 4 (Initiative Measure No. 1366, approved November 3, 2015); 2008 c 1 § 2 ( Initiative Measure No. 960, approved November 6, 2007).]

Reviser's note: The Washington state supreme court ruled in Lee v. State, 185 Wn.2d 608, 374 P.3d 157 (2016) that Initiative Measure No. 1366 (chapter 1, Laws of 2016) is in violation of the single-subject rule of Article II, section 19 of the state Constitution and is therefore void in its entirety. This section is published without the amendment contained in Initiative Measure No. 1366.

Intent—Construction—Short title—2013 c 1 ( Initiative Measure No. 1185): See notes following RCW 43.135.034.

Findings—Intent—2008 c 1 ( Initiative Measure No. 960): "Washington has a long history of public interest in tax increases. The people have clearly and consistently illustrated their ongoing and passionate desire to ensure that taxpayers and fees are protected. The people find that even without raising taxes, the government consistently receives revenue growth many times higher than the rate of inflation every year. With this measure, the people intend to protect taxpayers by creating a series of accountability procedures to ensure greater legislative transparency, broader public participation, and wider agreement before state government takes more of the people's money. This measure protects taxpayers and relates to tax and fee increases imposed by state government. This measure would require publication of cost projections, information on public hearings, and legislators' sponsorship and voting records on bills increasing taxes and fees, allow either two-thirds legislative approval or voter approval for tax increases, and require advisory votes on tax increases blocked from citizen referendum. The intent of sections 2, 3, and 4 of this act: The people want a thorough, independent analysis of any proposed increase in taxes and fees. The people find that legislators too often do not know the costs to the taxpayers for their tax and fee increases and this fiscal analysis by the office of financial management will provide better, more accessible information. The people want a user-friendly method to track the progress of bills increasing taxes and fees, finding that transparency and openness leads to more public involvement and better understanding. The people want information on public hearings and legislators' sponsorship and voting records on bills increasing taxes and fees and want easy access to contact information of legislators so the people's voice can be heard. Section 2(5) and (6) of this act are intended to provide active, engaged citizens with the opportunity to be notified of the status of bills increasing taxes and fees. Such a notification system is already being provided by the state supreme court with regard to judicial rulings. Intent of RCW 43.88A.020: The cost projection reports required by section 2 of this act will simplify and facilitate the creation of fiscal notes. The people have a right to know what is happening in Olympia. Intent of section 14 of this act: The people want to return the authority to impose or increase fees from unelected officials at state agencies to the duly elected representatives of the legislature or to the people. The people find that fee increases should be debated openly and transparently and up-or-down votes taken by our elected representatives so the people are given the opportunity to hold them accountable at the next election." 43.135.034  Tax legislation—Two-thirds approval—Referral to voters—Conditions and restrictions—Ballot title—Declarations of emergency—Taxes on intangible property—Expenditure limit to reflect program cost shifting or fund transfer. (1)(a) Any action or combination of actions by the legislature that raises taxes may be taken only if approved by a two-thirds vote in both the house of representatives and the senate. Pursuant to the referendum power set forth in Article II, section 1(b) of the state Constitution, tax increases may be referred to the voters for their approval or rejection at an election.

(b) For the purposes of this chapter, "raises taxes" means any action or combination of actions by the state legislature that increases state tax revenue deposited in any fund, budget, or account, regardless of whether the revenues are deposited into the general fund.

(2)(a) If the legislative action under subsection (1) of this section will result in expenditures in excess of the state expenditure limit, then the action of the legislature may not take effect until approved by a vote of the people at a November general election. The state expenditure limit committee must adjust the state expenditure limit by the amount of additional revenue approved by the voters under this section. This adjustment may not exceed the amount of revenue generated by the legislative action during the first full fiscal year in which it is in effect. The state expenditure limit must be

[Title 43 RCW—page 602]
adjusted downward upon expiration or repeal of the legislative action.

(b) The ballot title for any vote of the people required under this section must be substantially as follows:

"Shall taxes be imposed on . . . . . . in order to allow a spending increase above last year's authorized spending adjusted for personal income growth?"

(3)(a) The state expenditure limit may be exceeded upon declaration of an emergency for a period not to exceed twenty-four months by a law approved by a two-thirds vote of each house of the legislature and signed by the governor. The law must set forth the nature of the emergency, which is limited to natural disasters that require immediate government action to alleviate human suffering and provide humanitarian assistance. The state expenditure limit may be exceeded for no more than twenty-four months following the declaration of the emergency and only for the purposes contained in the emergency declaration.

(b) Additional taxes required for an emergency under this section may be imposed only until thirty days following the next general election, unless an extension is approved at that general election. The additional taxes expire upon expiration of the declaration of emergency. The legislature may not impose additional taxes for emergency purposes under this subsection unless funds in the education construction fund have been exhausted.

(c) The state or any political subdivision of the state may not impose any tax on intangible property listed in RCW 84.36.070 as that statute exists on January 1, 1993.

(4) If the cost of any state program or function is shifted from the state general fund to another source of funding, or if moneys are transferred from the state general fund to another fund or account, the state expenditure limit committee, acting pursuant to RCW 43.135.025(5), must lower the state expenditure limit to reflect the shift. For the purposes of this section, a transfer of money from the state general fund to another fund or account includes any state legislative action taken that has the effect of reducing revenues from a particular source, where such revenues would otherwise be deposited into the state general fund, while increasing the revenues from that particular source to another state or local government account. This subsection does not apply to: (a) The dedication or use of lottery revenues under RCW 67.70.240(1)(c), in support of education or education expenditures; (b) a transfer of moneys to, or an expenditure from, the budget stabilization account; or (c) a transfer of money to, or an expenditure from, the connecting Washington account established in RCW 46.68.395.

(5) If the cost of any state program or function and the ongoing revenue necessary to fund the program or function are shifted to the state general fund on or after January 1, 2007, the state expenditure limit committee, acting pursuant to RCW 43.135.025(5), must increase the state expenditure limit to reflect the shift unless the shifted revenue had previously been shifted from the general fund. 43.135.041 Tax legislation—Advisory vote—Duties of the attorney general and secretary of state—Exemption. (1)(a) After July 1, 2011, if legislative action raising taxes as defined by RCW 43.135.034 is blocked from a public vote or is not referred to the people by a referendum petition found to be sufficient under RCW 29A.72.250, a measure for an advisory vote of the people is required and shall be placed on the next general election ballot under this chapter.

(b) If legislative action raising taxes enacted after July 1, 2011, involves more than one revenue source, each tax being increased shall be subject to a separate measure for an advisory vote of the people under the requirements of this chapter.

(2) No later than the first of August, the attorney general will send written notice to the secretary of state of any tax increase that is subject to an advisory vote of the people, under the provisions and exceptions provided by this chapter. Within five days of receiving such written notice from the attorney general, the secretary of state will assign a serial number for a measure for an advisory vote of the people and transmit one copy of the measure bearing its serial number to the attorney general as required by RCW 29A.72.040, for any tax increase identified by the attorney general as needing an advisory vote of the people for that year’s general election ballot. Saturdays, Sundays, and legal holidays are not counted in calculating the time limits in this subsection.

(3) For the purposes of this section, "blocked from a public vote" includes adding an emergency clause to a bill increasing taxes, bonding or contractually obligating taxes, or otherwise preventing a referendum on a bill increasing taxes.

(4) If legislative action raising taxes is referred to the people by the legislature or is included in an initiative to the people found to be sufficient under RCW 29A.72.250, then the tax increase is exempt from an advisory vote of the people under this chapter. Findings—Construction—2001 c 314: See RCW 15.100.010 and 15.100.900.

Findings—1997 c 303: "The legislature finds that Initiative Measure No. 601, adopted by the people of the state of Washington, limits fee increases by requiring that any increases in fees beyond the levels expressly allowed under the initiative receive the prior approval of the legislature. The legislature finds that a more direct system of allowing the people to control fee increases predates Initiative Measure No. 601. This system developed in agricultural communities and provides these communities with direct control of the fees of the agricultural commodity commissions they created to serve them. The system requires those who pay the assessments levied by commodity commissions and boards to approve of assessment increases by referendum. It is at the heart of the statutes and marketing orders and agreements under which agricultural commodity commissions and boards are created. The legislature does not believe that the adoption of Initiative Measure No. 601 was intended to dilute in any manner this more direct control held by the people governed by commodity commissions or boards over the fees they pay in the form of such assessments. Therefore, the legislature defers to this more direct control of these assessments so long as the authority to approve or disapprove of increases in these assessments is by referendum held directly by those who pay them." Reimbursement by the state may be made by: (a) A specific appropriation; or (b) increases in state distributions of revenue to political subdivisions occurring after January 1, 1998.

(2) If by order of any court, or legislative enactment, the costs of a federal or local government program are transferred to or from the state, the otherwise applicable state expenditure limit shall be increased or decreased, as the case may be, by the dollar amount of the costs of the program.

(3) The legislature, in consultation with the office of financial management or its successor agency, shall determine the costs of any new programs or increased levels of service under existing programs imposed on any political subdivision or transferred to or from the state.

For the purposes of this subsection, "sufficient consensus" means the point at which the vast majority of the commission favors taking a particular action. If the commission determines that sufficient consensus cannot be reached, a vote must be taken. The commission must allow a minority report to be included with a decision of the commission, if requested by a member of the commission.

(5) Members serve for terms of years, with the terms expiring on June 30th on the fourth year of the term. However, in the case of the initial terms, the members appointed by the chairs of senate caucuses shall serve four-year terms, the members appointed by the chairs of house of representatives caucuses shall serve three-year terms, and the member appointed by the governor shall serve a two-year term, with each of the terms expiring on June 30th of the applicable year. Appointees may be reappointed to serve more than one term.

(6) The joint legislative audit and review committee shall provide clerical, technical, and management personnel to the commission to serve as the commission's staff. The department of revenue shall provide necessary support and information to the joint legislative audit and review committee.

(7) The commission shall meet at least once a quarter and may hold additional meetings at the call of the chair or by a majority vote of the members of the commission. The members of the commission shall be compensated in accordance with RCW 43.03.220 and reimbursed for travel expenses in accordance with RCW 43.03.050 and 43.03.060. [2006 c 197 § 3.]

43.136.045 Schedule for review of tax preferences—Expedited review—Citizen input. (1) The citizen commission for performance measurement of tax preferences must develop a schedule to accomplish an orderly review of tax preferences at least once every ten years. In determining the schedule, the commission must consider the order the tax preferences were enacted into law, in addition to other factors including but not limited to grouping preferences for review by type of industry, economic sector, or policy area. The commission may elect to include, anywhere in the schedule, a tax preference that has a statutory expiration date. The commission must omit from the schedule tax preferences that are required by constitutional law, sales and use tax exemptions for machinery and equipment for manufacturing, research and development, or testing, the small business credit for the business and occupation tax, sales and use tax exemptions for food and prescription drugs, property tax relief for retired persons, and property tax valuations based on current use, and may omit any tax preference that the commission determines is a critical part of the structure of the tax system. As an alternative to the process under RCW 43.136.055, the commission may recommend to the joint legislative audit and review committee an expedited review process for any tax preference.

(2) The commission must revise the schedule as needed each year, taking into account newly enacted or terminated tax preferences. The commission must deliver the schedule to the joint legislative audit and review committee by September 1st of each year.

[Title 43 RCW—page 606]
(3) The commission must provide a process for effective citizen input during its deliberations. [2011 c 335 § 2; 2006 c 197 § 4.]

43.136.055 Review of tax preferences by joint legislative audit and review committee—Recommendations. (1) The joint legislative audit and review committee must review tax preferences according to the schedule developed under RCW 43.136.045. The committee must consider, but not be limited to, the following factors in the review as relevant to each particular tax preference:

(a) The classes of individuals, types of organizations, or types of industries whose state tax liabilities are directly affected by the tax preference;

(b) Public policy objectives that might provide a justification for the tax preference, including but not limited to the legislative history, any legislative intent, or the extent to which the tax preference encourages business growth or relocation into this state, promotes growth or retention of high wage jobs, or helps stabilize communities;

(c) Evidence that the existence of the tax preference has contributed to the achievement of any of the public policy objectives;

(d) The extent to which continuation of the tax preference might contribute to any of the public policy objectives;

(e) The extent to which the tax preference may provide unintended benefits to an individual, organization, or industry other than those the legislature intended;

(f) The extent to which terminating the tax preference may have negative effects on the category of taxpayers that currently benefit from the tax preference, and the extent to which resulting higher taxes may have negative effects on employment and the economy;

(g) The feasibility of modifying the tax preference to provide for adjustment or recapture of the tax benefits of the tax preference if the objectives are not fulfilled;

(h) Fiscal impacts of the tax preference, including past impacts and expected future impacts if it is continued. For the purposes of this subsection, "fiscal impact" includes an analysis of the general effects of the tax preference on the overall state economy, including, but not limited to, the effects of the tax preference on the consumption and expenditures of persons and businesses within the state;

(i) The extent to which termination of the tax preference would affect the distribution of liability for payment of state taxes;

(j) The economic impact of the tax preference compared to the economic impact of government activities funded by the tax for which the tax preference is taken at the same level of expenditure as the tax preference. For purposes of this subsection the economic impact shall be determined using the analysis into this state, promotes growth or retention of high wage jobs, or helps stabilize communities;

(k) Consideration of similar tax preferences adopted in other states, and potential public policy benefits that might be gained by incorporating corresponding provisions in Washington.

(2) For each tax preference, the committee must provide a recommendation as to whether the tax preference should be continued without modification, modified, scheduled for sunset review at a future date, or terminated immediately. The committee may recommend accountability standards for the future review of a tax preference. [2011 c 335 § 3; 2006 c 197 § 5.]

43.136.057 Review of hog fuel tax exemption by joint legislative audit and review committee. (Expires June 30, 2024.) (1) The intent of the tax exemption provided in RCW 82.08.956 and 82.12.956 is to promote the retention of relatively high wage jobs in the counties where facilities who purchase and use hog fuel are located. Specifically, in a time when there is increasing pressure to close industrial facilities like mills and relocate this economic activity out of state or overseas, rural areas of the state are at risk of losing critical jobs that directly, or indirectly, support entire communities. The legislature, in enacting the hog fuel tax exemption, hopes to retain seventy-five percent of the jobs at each facility in the state at which the exemption is claimed, between now and June 30, 2024.

(2) The joint legislative audit and review committee must review the performance through July 1, 2018, of the tax preferences established in RCW 82.08.956 and 82.12.956, and prepare a report to the legislature by October 31, 2019.

(3) The department of revenue must provide the committee with annual survey information and any other tax data necessary to conduct the review required in subsection (2) of this section. The employment security department and other agencies, as requested, must cooperate with the committee by providing information about the average wage of employment in the county where each facility owned or operated by a company claiming the exemption is located. The report is not limited to, but must include, the following information:

(a) Identification of the baseline number of jobs existing as of January 1, 2013, in facilities where the preference has been claimed, as well as related wage and benefit information;

(b) Identification of the number of jobs at these facilities has changed during the duration of the credit;

(c) Analysis of how the wages provided to employees at affected facilities compare to the average wages in the county in which the facility is located;

(d) Analysis of how the benefits, including medical and other health care benefits, provided to employees at affected facilities compare to the average wages in the county in which the facility is located and;

(e) Whether and to what extent the goal has been achieved, of retaining seventy-five percent of employment at the facilities at which the exemption has been claimed.

(4) This section expires June 30, 2024. [2013 2nd sp.s. c 13 § 1005.]

Intent—Effective date—2013 2nd sp.s. c 13: See notes following RCW 82.08.956.

43.136.058 Review of tax preferences for sales of machinery and equipment used in generating electricity. (Expires January 1, 2020.) (1) The intent of the tax preference provided in RCW 82.08.962 and 82.12.962 is to promote electricity generation by facilities with generating capacity of not less than one thousand watts, using renewable energy fuel sources in order to improve energy security and decrease greenhouse gas emissions. Encouraging the development of more facilities that generate power from renew-
able energy has both immediate and long-term value to the state.

(2) As part of the joint legislative audit and review committee’s 2019 tax preference reviews conducted under this chapter, the joint legislative audit and review committee must assess the performance of the tax preferences established in RCW 82.08.956 and 82.12.956 with reference to the intent and performance milestones established in this section.

(3) The department of revenue must provide the joint legislative audit and review committee with annual survey information and any other tax data necessary to conduct the review required in subsection (2) of this section. The Washington State University energy program, department of ecology, and other agencies, as requested, must cooperate with the committee by providing information to assist the committee’s analysis.

(4) The report is not limited to, but must include, the following information:

(a) Identification of the baseline number of facilities, prior to July 1, 2009, with generating capacity of not less than one thousand watts, using fuel cells, wind, sun, biomass energy, tidal or wave energy, geothermal resources, anaerobic digestion, technology that converts otherwise lost energy from exhaust, or landfill gas as the principal source of power.

(b) The number of facilities developed each year by purchasers claiming the preference for machinery, equipment, labor, or other services, and the increase in the number of such facilities, as compared to the baseline established in (a) of this subsection.

(c) The total generating capacity in megawatts and total power production in kilowatt-hours of the facilities reported in (b) of this subsection.

(d) The estimated greenhouse gas emissions avoided as a result of power generation from renewable energy sources by the facilities reported in (b) of this subsection.

(e) The number of barrels of oil and tons of coal avoided as a result of power generation from renewable energy sources by the facilities reported in (b) of this subsection, as estimated from the average fuel mix of electricity generated statewide.

(f) The number of employees and wages and benefits reported by taxpayers claiming the exemption at the facilities reported in (a) of this subsection.

(g) Subject to data availability, analysis of how the wages and benefits reported in (e) of this subsection compare with statewide averages and averages in the county in which the facility is located.

(5) This section expires January 1, 2020. [2013 2nd sp.s. c 13 § 1504.]

Intent—2013 2nd sp.s. c 13: See note following RCW 82.08.962.

Effective date—2013 2nd sp.s. c 13: See note following RCW 82.08.956.

43.136.065 Reports to the citizen commission—Reports to the legislature—Public hearings. (1) The joint legislative audit and review committee shall report its findings and recommendations for scheduled tax preferences to the citizen commission for performance measurement of tax preferences by August 30th of each year. The commission may review and comment on the report of the committee. The committee may revise its report based on the comments of the commission. The committee shall prepare a final report that includes the comments of the commission and submit the final report to the finance committee of the house of representatives and the ways and means committee of the senate by December 30th.

(2) The joint legislative audit and review committee shall submit a special report reviewing all tax preferences that have statutory expiration dates between June 30, 2005, and January 1, 2007. For the special report, the committee shall complete a review under RCW 43.136.055, and obtain comments of the citizen commission for performance measurement of tax preferences under subsection (1) of this section, to the extent possible. The committee shall submit the special report to the finance committee of the house of representatives and the ways and means committee of the senate by January 12, 2006.

(3) Following receipt of a report under this section, the finance committee of the house of representatives and the ways and means committee of the senate shall jointly hold a public hearing to consider the final report and any related data. [2006 c 197 § 6.]

43.136.075 Information from the department of revenue and the employment security department. Upon request of the citizen commission for performance measurement of tax preferences or the joint legislative audit and review committee, the department of revenue and the department of employment security shall provide information needed by the commission or committee to meet its responsibilities under this chapter. [2006 c 197 § 7.]

43.136.080 Tax preference performance statements—Task force created. (1) The legislative auditor, with the assistance of a task force, must make recommendations on the appropriate data and metrics that should be included in tax preference performance statements to evaluate new tax preferences, as provided under RCW 82.32.808.

(a) The task force is comprised of five members: (i) One person from the department of revenue; (ii) one person from an association representing Washington businesses; (iii) one person from the office of financial management; (iv) the legislative auditor or a designee of the legislative auditor; and (v) an economist with substantial experience in state taxes.

(b) The task force must choose its chair from among its membership.

(3) By January 1, 2014, and in compliance with RCW 43.01.036, the legislative auditor must submit a report to the appropriate fiscal committees of the legislature the findings and recommendations of the task force. [2013 2nd sp.s. c 13 § 1703.]

Effective date—2013 2nd sp.s. c 13: See note following RCW 82.04.43393.

43.136.090 Economic impact report. (Expires January 1, 2022.) By December 1, 2020, and in compliance with RCW 43.01.036, the joint legislative audit and review committee must provide an economic impact report to the legislature evaluating the impacts of changes made in chapter 207, Laws of 2014 regarding the leasehold tax and property tax treatment of property owned by a federally recognized Indian tribe. Oil or gas exploration in marine waters: RCW 90.58.550. Transport of petroleum products or hazardous substances: Chapter 88.40 RCW.

43.143.005 Legislative findings. (1) Washington's coastal waters, seabed, and shorelines are among the most valuable and fragile of its natural resources.

(2) Ocean and marine-based industries and activities, such as fishing, aquaculture, tourism, and marine transportation have played a major role in the history of the state and will continue to be important in the future.

(3) Washington's coastal waters, seabed, and shorelines are faced with conflicting use demands. Some uses may pose unacceptable environmental or social risks at certain times.

(4) The state of Washington has primary jurisdiction over the management of coastal and ocean natural resources within three miles of its coastline. From three miles seaward to the boundary of the two hundred mile exclusive economic zone, the United States federal government has primary jurisdiction. Since protection, conservation, and development of the natural resources in the exclusive economic zone directly affect Washington's economy and environment, the state has an inherent interest in how these resources are managed. [1997 c 152 § 1; 1995 c 339 § 1; 1989 1st ex.s. c 2 § 8.]

43.143.010 Legislative policy and intent—Moratorium on leases for oil and gas exploration, development, or production—Appeals from regulation of recreational uses—Participation in federal ocean and marine resource decisions. (1) The purpose of this chapter is to articulate policies and establish guidelines for the exercise of state and local management authority over Washington's coastal waters, seabed, and shorelines.

(2) There shall be no leasing of Washington's tidal or submerged lands extending from mean high tide seaward three miles along the Washington coast from Cape Flattery south to Cape Disappointment, nor in Grays Harbor, Willapa Bay, and the Columbia river downstream from the Longview bridge, for purposes of oil or gas exploration, development, or production.

(3) When conflicts arise among uses and activities, priority shall be given to resource uses and activities that will not adversely impact renewable resources over uses which are likely to have an adverse impact on renewable resources.

(4) It is the policy of the state of Washington to actively encourage the conservation of liquid fossil fuels, and to explore available methods of encouraging such conservation.

(5) It is not currently the intent of the legislature to include recreational uses or currently existing commercial uses involving fishing or other renewable marine or ocean resources within the uses and activities which must meet the planning and review criteria set forth in RCW 43.143.030. It is not the intent of the legislature, however, to permanently exclude these uses from the requirements of RCW 43.143.030. If information becomes available which indicates that such uses should reasonably be covered by the requirements of RCW 43.143.030, the permitting government or agency may require compliance with those requirements, and appeals of that decision shall be handled through the established appeals procedure for that permit or approval.

(6) The state shall participate in federal ocean and marine resource decisions to the fullest extent possible to ensure that the decisions are consistent with the state's policy concerning the use of those resources. [1997 c 152 § 2; 1995 c 339 § 1; 1989 1st ex.s. c 2 § 9.]

43.143.020 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter:

(1) "Coastal counties" means Clallam, Jefferson, Grays Harbor, and Pacific counties.

(2) "Coastal waters" means the waters of the Pacific Ocean seaward from Cape Flattery south to Cape Disappointment, from mean high tide seaward two hundred miles. [1989 1st ex.s. c 2 § 10.]

43.143.030 Planning and project review criteria. (1) When the state of Washington and local governments develop plans for the management, conservation, use, or development of natural resources in Washington's coastal waters, the policies in RCW 43.143.010 shall guide the decision-making process.

(2) Uses or activities that require federal, state, or local government permits or other approvals and that will adversely impact renewable resources, marine life, fishing, aquaculture, recreation, navigation, air or water quality, or other existing ocean or coastal uses, may be permitted only if the criteria below are met or exceeded:

(a) There is a demonstrated significant local, state, or national need for the proposed use or activity;

(b) There is no reasonable alternative to meet the public need for the proposed use or activity;

(c) There will be no likely long-term significant adverse impacts to coastal or marine resources or uses;

(d) All reasonable steps are taken to avoid and minimize adverse environmental impacts, with special protection provided for the marine life and resources of the Columbia river,
Willapa Bay and Grays Harbor estuaries, and Olympic national park;
   (e) All reasonable steps are taken to avoid and minimize adverse social and economic impacts, including impacts on aquaculture, recreation, tourism, navigation, air quality, and recreational, commercial, and tribal fishing;
   (f) Compensation is provided to mitigate adverse impacts to coastal resources or uses;
   (g) Plans and sufficient performance bonding are provided to ensure that the site will be rehabilitated after the use or activity is completed; and
   (h) The use or activity complies with all applicable local, state, and federal laws and regulations.  [1989 1st ex.s. c 2 § 11.]

43.143.050 Washington coastal marine advisory council. (1) The Washington coastal marine advisory council is established in the executive office of the governor to fulfill the duties outlined in RCW 43.143.060.

(2)(a) Voting members of the Washington coastal marine advisory council shall be appointed by the governor or the governor's designee. The council consists of the following voting members:
   (i) The governor or the governor's designee;
   (ii) The director or commissioner, or the director's or commissioner's designee, of the following agencies:
       (A) The department of ecology;
       (B) The department of natural resources;
       (C) The department of fish and wildlife;
       (D) The state parks and recreation commission;
       (E) The department of commerce; and
       (F) Washington sea grant;
   (iii) The following members of the Washington coastal marine advisory council established by the department of ecology and as existing on January 15, 2013:
       (A) One citizen from a coastal community;
       (B) Two persons representing coastal commercial fishing;
       (C) One representative from a coastal conservation group;
       (D) One representative from a coastal economic development group;
       (E) One representative from an educational institution;
       (F) Two representatives from energy industries or organizations, one of which must be from the coast;
       (G) One person representing coastal recreation;
       (H) One person representing coastal recreational fishing;
       (I) One person representing coastal shellfish aquaculture;
       (J) One representative from the coastal shipping industry;
       (K) One representative from a science organization;
       (L) One representative from the coastal Washington sustainable salmon partnership;
       (M) One representative from a coastal port; and
       (N) One representative from each outer coast marine resources committee, to be selected by the marine resources committee.
   (b) The Washington coastal marine advisory council shall adopt bylaws and operating procedures that may be modified from time to time by the council.

(3) The Washington coastal marine advisory council may invite state, tribal, local governments, federal agencies, scientific experts, and others with responsibility for the study and management of coastal and ocean resources or regulation of coastal and ocean activities to designate a liaison to the council to attend council meetings, respond to council requests for technical and policy information, perform collaborative research, and review any draft materials prepared by the council. The council may also invite representatives from other coastal states or Canadian provinces to participate, when appropriate, as nonvoting members.

(4) The chair of the Washington coastal marine advisory council must be nominated and elected by a majority of council members. The term of the chair is one year, and the position is eligible for reelection. The agenda for each meeting must be developed as a collaborative process by council members.

(5) The term of office of each member appointed by the governor is four years. Members are eligible for reappointment.

(6) The Washington coastal marine advisory council shall utilize a consensus approach to decision making. The council may put a decision to a vote among council members, in the event that consensus cannot be reached. The council must include in its bylaws guidelines describing how consensus works and when a lack of consensus among council members will trigger a vote.

(7) Consistent with available resources, the Washington coastal marine advisory council may hire a neutral convener to assist in the performance of the council's duties, including but not limited to the dissemination of information to all parties, facilitating selected tasks as requested by the council members, and facilitating setting of meeting agendas.

(8) The department of ecology shall provide administrative and primary staff support for the Washington coastal marine advisory council.

(9) The Washington coastal marine advisory council must meet at least twice each year or as needed.

(10) A majority of the members of the Washington coastal marine advisory council constitutes a quorum for the transaction of business.  [2013 c 318 § 1.]

43.143.060 Washington coastal marine advisory council—Duties. (1) The duties of the Washington coastal marine advisory council established in RCW 43.143.050 are to:

   (a) Serve as a forum for communication concerning coastal waters issues, including issues related to: Resource management; shellfish aquaculture; marine and coastal hazards; ocean energy; open ocean aquaculture; coastal waters research; education; and other coastal marine-related issues.
   (b) Serve as a point of contact for, and collaborate with, the federal government, regional entities, and other state governments regarding coastal waters issues.

(2) In making recommendations under this section, the Washington coastal marine advisory council shall consider:

(a) The principles and policies articulated in Washington's ocean action plan; and

(b) The protection and preservation of existing sustainable uses for current and future generations, including economic stakeholders reliant on marine waters to stabilize the vitality of the coastal economy. [2013 c 318 § 2.]

43.143.901 Short title. Sections 8 through 12 of this act shall constitute a new chapter in Title 43 RCW and may be known and cited as the ocean resources management act. [1989 1st ex.s. c 2 § 19.]

NORTHWEST INTERSTATE COMPACT ON LOW-LEVEL RADIOACTIVE WASTE MANAGEMENT

Sections
43.145.010 Compact.
43.145.020 Requirements of Washington representative to Northwest low-level waste compact committee.
43.145.030 Rule-making authority.

Radioactive Waste Storage and Transportation Act of 1980: Chapter 70.99 RCW.

43.145.010 Compact. The Northwest Interstate Compact on Low-Level Radioactive Waste Management is hereby enacted into law and entered into by the state of Washington as a party, and is in full force and effect between the state and other states joining the compact in accordance with the terms of the compact.

NORTHWEST INTERSTATE COMPACT ON LOW-LEVEL RADIOACTIVE WASTE MANAGEMENT

ARTICLE I—Policy and Purpose

The party states recognize that low-level radioactive wastes are generated by essential activities and services that benefit the citizens of the states. It is further recognized that the protection of the health and safety of the citizens of the party states and the most economical management of low-level radioactive wastes can be accomplished through cooperation of the states in minimizing the amount of handling and transportation required to dispose of such wastes and through the cooperation of the states in providing facilities that serve the region. It is the policy of the party states to undertake the necessary cooperation to protect the health and safety of the citizens of the party states and to provide for the most economical management of low-level radioactive wastes on a continuing basis. It is the purpose of this compact to provide the means for such a cooperative effort among the party states so that the protection of the citizens of the states and the maintenance of the viability of the states' economies will be enhanced while sharing the responsibilities of radioactive low-level waste management.

ARTICLE II—Definitions

As used in this compact:

(1) "Facility" means any site, location, structure, or property used or to be used for the storage, treatment, or disposal of low-level waste, excluding federal waste facilities;

(2) "Low-level waste" means waste material which contains radioactive nuclides emitting primarily beta or gamma radiation, or both, in concentrations or quantities which exceed applicable federal or state standards for unrestricted release. Low-level waste does not include waste containing more than ten nanocuries of transuranic contaminants per gram of material, nor spent reactor fuel, nor material classified as either high-level waste or waste which is unsuited for disposal by near-surface burial under any applicable federal regulations;

(3) "Generator" means any person, partnership, association, corporation, or any other entity whatsoever which, as a part of its activities, produces low-level radioactive waste;

(4) "Host state" means a state in which a facility is located.

ARTICLE III—Regulatory Practices

Each party state hereby agrees to adopt practices which will require low-level waste shipments originating within its borders and destined for a facility within another party state to conform to the applicable packaging and transportation requirements and regulations of the host state. Such practices shall include:

(1) Maintaining an inventory of all generators within the state that have shipped or expect to ship low-level waste to facilities in another party state;

(2) Periodic unannounced inspection of the premises of such generators and the waste management activities thereon;

(3) Authorization of the containers in which such waste may be shipped, and a requirement that generators use only that type of container authorized by the state;

(4) Assurance that inspections of the carriers which transport such waste are conducted by proper authorities, and appropriate enforcement action taken for violations;

(5) After receiving notification from a host state that a generator within the party state is in violation of applicable packaging or transportation standards, the party state will take appropriate action to assure that such violations do not recur. Such action may include inspection of every individual low-level waste shipment by that generator.

(2019 Ed.)
Each party state may impose fees upon generators and shippers to recover the cost of the inspections and other practices under this Article. Nothing in this Article shall be construed to limit any party state's authority to impose additional or more stringent standards on generators or carriers than those required under this Article.

ARTICLE IV—Regional Facilities

Section 1. Facilities located in any party state, other than facilities established or maintained by individual low-level waste generators for the management of their own low-level waste, shall accept low-level waste generated in any party state if such waste has been packaged and transported according to applicable laws and regulations.

Section 2. No facility located in any party state may accept low-level waste generated outside of the region comprised of the party states, except as provided in Article V.

Section 3. Until such time as Section 2 takes effect as provided in Article VI, facilities located in any party state may accept low-level waste generated outside of any of the party states only if such waste is accompanied by a certificate of compliance issued by an official of the state in which such waste shipment originated. Such certificate shall be in such form as may be required by the host state, and shall contain at least the following:

1. The generator's name and address;
2. A description of the contents of the low-level waste container;
3. A statement that the low-level waste being shipped has been inspected by the official who issued the certificate or by his agent or by a representative of the United States Nuclear Regulatory Commission, and found to have been packaged in compliance with applicable federal regulations and such additional requirements as may be imposed by the host state;
4. A binding agreement by the state of origin to reimburse any party state for any liability or expense incurred as a result of an accidental release of such waste during shipment or after such waste reaches the facility.

Section 4. Each party state shall cooperate with the other party states in determining the appropriate site of any facility that might be required within the region comprised of the party states, in order to maximize public health and safety while minimizing the use of any one party state as the host of such facilities on a permanent basis. Each party state further agrees that decisions regarding low-level waste management facilities in their region will be reached through a good faith process which takes into account the burdens borne by each of the party states as well as the benefits each has received.

Section 5. The party states recognize that the issue of hazardous chemical waste management is similar in many respects to that of low-level waste management. Therefore, in consideration of the state of Washington allowing access to its low-level waste disposal facility by generators in other party states, party states such as Oregon and Idaho which host hazardous chemical waste disposal facilities will allow access to such facilities by generators within other party states. Nothing in this compact may be construed to prevent any party state from limiting the nature and type of hazardous or low-level wastes to be accepted at facilities within its borders or from ordering the closure or [of] such facilities, so long as such action by a host state is applied equally to all generators within the region composed of the party states.

Section 6. Any host state may establish a schedule of fees and requirements related to its facility, to assure that closure, perpetual care, and maintenance and contingency requirements are met, including adequate bonding.

ARTICLE V—Northwest Low-level Waste Compact Committee

The governor of each party state shall designate one official of that state as the person responsible for administration of this compact. The officials so designated shall together comprise the Northwest low-level waste compact committee. The committee shall meet as required to consider matters arising under this compact. The parties shall inform the committee of existing regulations concerning low-level waste management in their states, and shall afford all parties a reasonable opportunity to review and comment upon any proposed modifications in such regulations. Notwithstanding any provision of Article IV to the contrary, the committee may enter into arrangements with states, provinces, individual generators, or regional compact entities outside the region comprised of the party states for access to facilities on such terms and conditions as the committee may deem appropriate. However, it shall require a two-thirds vote of all such members, including the affirmative vote of the member of any party state in which a facility affected by such arrangement is located, for the committee to enter into such arrangement.

ARTICLE VI—Eligible Parties and Effective Date

Section 1. Each of the following states is eligible to become a party to this compact: Alaska, Hawaii, Idaho, Montana, Oregon, Utah, Washington, and Wyoming. As to any eligible party, this compact shall become effective upon enactment into law by that party, but it shall not become initially effective until enacted into law by two states. Any party state may withdraw from this compact by enacting a statute repealing its approval.

Section 2. After the compact has initially taken effect pursuant to Section 1, any eligible party state may become a party to this compact by the execution of an executive order by the governor of the state. Any state which becomes a party in this manner shall cease to be a party upon the final adjournment of the next regular session of its legislature or July 1, 1983, whichever occurs first, unless the compact has by then been enacted as a statute by that state.

Section 3. Section 2 of Article IV of this compact shall take effect on July 1, 1983, if consent is given by Congress. As provided in Public Law 96-573, Congress may withdraw its consent to the compact after every five-year period.

ARTICLE VII—Severability

If any provision of this compact, or its application to any person or circumstance, is held to be invalid, all other provisions of this compact, and the application of all of its provisions to all other persons and circumstances, shall remain valid; and to this end the provisions of this compact are severable. [1981 c 124 § 1.]
43.145.020 Requirements of Washington representative to Northwest low-level waste compact committee. The person designated as the Washington representative to the committee as specified in Article V shall adhere to all provisions of the low-level radioactive waste compact. In considering special conditions or arrangements for access to the state's facilities from wastes generated outside of the region, the committee member shall ensure at a minimum, that the provisions of Article IV, Section 3 are complied with. After 1992 the Washington representative may approve access to the state's facility only for the states currently members of the Rocky Mountain compact or states which generate less than one thousand cubic feet of waste annually and are contiguous with a state which is a member of the Northwest compact. [1990 c 21 § 5; 1981 c 124 § 2.]

Chapter 43.146 RCW PACIFIC STATES AGREEMENT ON RADIOACTIVE MATERIAL TRANSPORTATION MANAGEMENT

Sections
43.146.010 Pacific States Agreement on Radioactive Materials Transportation Management.
43.146.010 Legislative directive—State designee.

43.146.010 Pacific States Agreement on Radioactive Materials Transportation Management. The Pacific States Agreement on Radioactive Materials Transportation Management is hereby enacted into law and entered into by the state of Washington as a party, and is in full force and effect between the state and other states joining the agreement in accordance with its terms.

PACIFIC STATES AGREEMENT ON RADIOACTIVE MATERIALS TRANSPORTATION MANAGEMENT

ARTICLE I—Policy and Purpose

The party states recognize that protection of the health and safety of citizens and the environment, and the most economical transportation of radioactive materials, can be accomplished through cooperation and coordination among neighboring states. It is the purpose of this agreement to establish a committee comprised of representatives from each party state to further cooperation between the states on emergency response and to coordinate activities by the states to eliminate unnecessary duplication of rules and regulations regarding the transportation and handling of radioactive material.

The party states intend that this agreement facilitate both interstate commerce and protection of public health and the environment. To accomplish this goal, the party states direct the committee to develop model regulatory standards for party states to act upon and direct the committee to coordinate decisions by party states relating to the routing and inspection of shipments of radioactive material.

(2019 Ed.)

ARTICLE II—Definitions

As used in this agreement:
(1) "Carrier" includes common, private, and contract carriers.
(2) "Hazardous material" means a substance or material which has been determined by the United States department of transportation to be capable of posing an unreasonable risk to health, safety, and property when transported in commerce, and which has been so designated.
(3) "Radioactive material" has the meaning given that term in federal department of transportation regulations found in 49 C.F.R. Sec. 173, and includes, but is not limited to, high-level radioactive waste, low-level radioactive waste, and spent nuclear fuel, as defined in section 2 of the nuclear waste policy act of 1982 (96 Stat. 2202; 42 U.S.C.A. Sec. 10101).
(4) "Transportation" means the transport by any means of radioactive material destined for or derived from any location, and any loading, unloading, or storage incident to such transport. "Transportation" does not include permanent storage or disposal of the material.

ARTICLE III—Regulatory Practices

Section 1. The party states agree to develop model standards, not in conflict with federal law or regulations, for carriers of radioactive material to provide information regarding:
(1) The amount and kind of material transported;
(2) The mode of transportation and, to the extent feasible, the route or routes and the time schedule;
(3) The carrier's compliance with local, state, and federal rules and regulations related to radioactive material transportation;
(4) The carrier's compliance with federal and state liability insurance requirements.

Section 2. Consistent with federal law or regulations pertaining to transportation of radioactive material, the party states also agree to:
(1) Develop model uniform procedures for issuing permits to carriers;
(2) Develop model uniform recordkeeping processes that allow access on demand by each state;
(3) Develop model uniform safety standards for carriers;
(4) Coordinate routing of shipments of radioactive materials;
(5) Develop a method for coordinating the party states' emergency response plans to provide for regional emergency response including (a) systems for sharing information essential to radiation control efforts, (b) systems for sharing emergency response personnel, and (c) a method to allocate costs and clarify liability when a party state or its officers request or render emergency response;
(6) Recommend parking requirements for motor vehicles transporting radioactive materials;
(7) Coordinate state inspections of carriers; and
(8) Develop other cooperative arrangements and agreements to enhance safety.

Section 3. The party states also agree to coordinate emergency response training and preparedness drills among the
party states, Indian tribes, and affected political subdivisions of the party states, and, if possible, with federal agencies.

Section 4. The party states recognize that the transportation management of hazardous waste and hazardous materials is similar in many respects to that of radioactive materials. The party states, therefore, agree to confer as to transportation management and emergency response for those items where similarities in management exist.

ARTICLE IV—Pacific States Radioactive Materials Transportation Committee

Section 1. Each party shall designate one official of that state to confer with appropriate legislative committees and with other officials of that state responsible for managing transportation of radioactive material and with affected Indian tribes and be responsible for administration of this agreement. The officials so designated shall together comprise the Pacific states radioactive materials transportation committee. The committee shall meet as required to consider and, where necessary, coordinate matters addressed in this agreement. The parties shall inform the committee of existing regulations concerning radioactive materials transportation management in their states, and shall afford all parties a reasonable opportunity to review and comment upon any proposed modifications in such regulations.

Section 2. The committee may also engage in long-term planning to assure safe and economical management of radioactive material transportation on a continuing basis.

Section 3. To the extent practicable, the committee shall coordinate its activities with those of other organizations.

ARTICLE V—Eligible Parties and Effective Date

Section 1. The states of Arizona, California, Colorado, Idaho, Montana, New Mexico, Nevada, Oregon, Utah, Washington, and Wyoming are eligible to become a party to this agreement. As to any eligible party, this agreement shall become effective upon enactment into law by that party, but it shall not become initially effective until enacted into law by two states. Any party state may withdraw from this agreement by enacting a statute repealing its approval.

Section 2. After the agreement has initially taken effect under section 1 of this article, any eligible party state may become a party to this agreement by the execution of an executive order by the governor of the state. Any state which becomes a party in this manner shall cease to be a party upon the final adjournment of the next general or regular session of its legislature or July 1, 1988, whichever occurs first, unless the agreement has by then been enacted as a statute by that state.

ARTICLE VI—Severability

If any provision of this agreement, or its application to any person or circumstance, is held to be invalid, all other provisions of this agreement, and the application of all of its provisions to all other persons and circumstances, shall remain valid; and to this end the provisions of this agreement are severable. [1987 c 90 § 1.]

Chapter 43.147 RCW

PACIFIC NORTHWEST ECONOMIC REGION AGREEMENT

ARTICLE I—Policy and Purpose

States and provinces participating in the Pacific Northwest Economic Region shall seek to develop and establish policies that: Promote greater regional collaboration among the seven entities; enhance the overall competitiveness of the region in international and domestic markets; increase the economic well-being of all citizens in the region; and improve the quality of life of the citizens of the Pacific Northwest.

States and provinces recognize that there are many public policy areas in which cooperation and joint efforts would be mutually beneficial. These areas include, but are not limited to: International trade; economic development; human resources; the environment and natural resources; energy; and education. Parties to this agreement shall work diligently to establish collaborative activity in these and other appropriate policy areas where such cooperation is deemed worthwhile and of benefit to the participating entities. Participating states and provinces also agree that there are areas in which cooperation may not be feasible.

The substantive actions of the Pacific Northwest Economic Region may take the form of uniform legislation enacted by two or more states and/or provinces or policy initiatives endorsed as appropriate by participating entities. It shall not be necessary for all states and provinces to participate in each initiative.

ARTICLE II—Eligible Parties and Effective Date

Each of the following states and provinces is eligible to become a party to this agreement: Alaska, Alberta, British Columbia, Idaho, Montana, Oregon, and Washington. This agreement establishing the Pacific Northwest Economic Region shall become effective when it is executed by one state, one province, and one additional state and/or province in a form deemed appropriate by each entity. This agreement

[Title 43 RCW—page 614]
shall continue in force and remain binding upon each state and province until renounced by it. Renunciation of this agreement must be preceded by sending one year's notice in writing of intention to withdraw from the agreement to the other parties to the agreement.

ARTICLE III—Organizational Structure

Each state and province participating in this agreement shall appoint representatives to the Pacific Northwest Economic Region. The organizational structure of the Pacific Northwest Economic Region shall consist of the following: A delegate council consisting of four legislators and the governor or governor's designee from each participating state and four representatives and the premier or the premier's designee from each participating province and an executive committee consisting of one legislator from each participating state and/or province who is a member of the delegate council and four of the seven governors/premiers or their designees who are members of the delegate council. The legislator members of the executive committee from each state or province shall be chosen by the legislator members of that state or province. The four governor or premier members of the executive committee shall be chosen by the governors and premiers from among the governors and premiers on the delegate council. At least one of four members representing the governors and premiers on the executive committee must be the premier of a Canadian province. Policy committees may be established to carry out further duties and responsibilities of the Pacific Northwest Economic Region.

ARTICLE IV—Duties and Responsibilities

The delegate council shall have the following duties and responsibilities: Facilitate the involvement of other government officials in the development and implementation of specific collaborative initiatives; work with policy-making committees in the development and implementation of specific initiatives; approve general organizational policies developed by the executive committee; provide final approval of the annual budget and staffing structure for the Pacific Northwest Economic Region developed by the executive committee; and other duties and responsibilities as may be established in the rules and regulations of the Pacific Northwest Economic Region. The executive committee shall perform the following duties and responsibilities: Elect the president and vice president of the Pacific Northwest Economic Region; approve and implement general organizational policies; develop the annual budget; devise the annual action plan; act as liaison with other public and private sector entities; review the availability of, and if appropriate apply for, (1) tax exempt status under the laws and regulations of the United States or any state or subdivision thereof and (2) similar status under the laws and regulations of Canada or any province or subdivision thereof; and approve such rules, regulations, organizational policies, and staffing structure for the Pacific Northwest Economic Region and take such further actions on behalf of the Pacific Northwest Economic Region as may be deemed by the executive committee to be necessary or appropriate to qualify for and maintain such tax exempt or similar status under the applicable laws or regulations; and other duties and responsibilities established in the rules and regulations of the Pacific Northwest Economic Region. The rules and regulations of the Pacific Northwest Economic Region shall establish the procedure for voting.

ARTICLE V—Membership of Policy Committees

Policy committees dealing with specific subject matter may be established by the executive committee. Each participating state and province shall appoint legislators and governors or premiers to sit on these committees in accordance with its own rules and regulations concerning such appointments.

ARTICLE VI—General Provisions

This agreement shall not be construed to limit the powers of any state or province or to amend or repeal or prevent the enactment of any legislation. [1993 c 108 § 1; 1991 c 251 § 2.]

43.147.020 Finding. The legislature finds that there is a new emerging global economy in which countries and regions located in specific areas of the world are forging new cooperative arrangements.

The legislature finds that these new cooperative arrangements are increasing the competitiveness of the participating countries and regions, thus increasing the economic benefits and the overall quality of life for the citizens of the individual countries and regions.

The legislature also finds that the Pacific Northwest states of Alaska, Idaho, Montana, Oregon, and Washington and the Canadian provinces of Alberta and British Columbia are in a strategic position to act together, as a region, thus increasing the overall competitiveness of the individual states and provinces that will provide substantial economic benefits for all of their citizens. [1991 c 251 § 1.]

43.147.030 Cooperative activities encouraged. It is the intent of chapter 251, Laws of 1991 to direct and encourage the establishment of cooperative activities between the seven legislative bodies of the region. The state representatives to the Pacific Northwest Economic Region shall work through appropriate channels to advance consideration of proposals developed by this body. [1991 c 251 § 3.]

43.147.040 Interlibrary sharing—Finding. In chapter 251, Laws of 1991, the legislature enacted into law the Pacific Northwest economic region agreement and made the state of Washington a party along with member states Alaska, Idaho, Montana, and Oregon, and member Canadian provinces Alberta and British Columbia. The legislature recognized that the member states and provinces of the Pacific Northwest economic region are in a strategic position to act together, as a region, thus increasing the overall competitiveness of the members and providing substantial economic benefits for all of their citizens.

For those reasons, in chapter 251, Laws of 1991, the legislature also encouraged the establishment of cooperative activities between the seven legislative bodies of the Pacific Northwest economic region. The member states and provinces now desire to engage in such cooperation by electronically sharing twenty-two million volumes from certain of their respective universities. The member states and provinces have determined that such interlibrary sharing will pro-
provide substantial economic benefit for their citizens. The legislature agrees, specifically also finding that such interlibrary sharing furthers a major component of education strategy in the 1990's and twenty-first century, namely providing increased access to knowledge via technology. [1993 c 485 § 1.]

43.147.050 Interlibrary sharing—Definition—Member libraries. Unless the context clearly requires otherwise, as used in RCW 43.147.040 through 43.147.080 "PNWER-Net" means the technology network to be created by the member states and provinces of the Pacific Northwest economic region that will be capable of electronically linking the following undergraduate university libraries of the member states and provinces:

(1) Alaska:
   (a) University of Alaska, Anchorage;
   (b) University of Alaska, Juneau;
(2) Alberta:
   (a) University of Alberta, Calgary;
   (b) University of Alberta, Edmonton;
(3) British Columbia:
   (a) University of British Columbia, Vancouver;
   (b) University of Victoria, Victoria;
(4) Idaho:
   (a) Boise State University, Boise;
   (b) University of Idaho, Moscow;
(5) Montana:
   (a) Montana State University, Bozeman;
   (b) University of Montana, Missoula;
(6) Oregon:
   (a) Oregon State University, Corvallis;
   (b) University of Oregon, Eugene;
(7) Washington:
   (a) University of Washington, Seattle; and
   (b) Washington State University, Pullman. [1993 c 485 § 2.]

43.147.060 PNWER-Net working subgroup—Generally. (1) The PNWER-Net working subgroup is hereby created for the member state of Washington. The working subgroup shall be composed of seven members as follows: Two members of the house of representatives, one from each of the major caucuses, appointed by the president of the senate; two members of the house of representatives, appointed by the speaker of the house of representatives; the state librarian; and the primary undergraduate academic librarian from each of the state's two research institutions of higher education.

(2) The staff support shall be provided by the senate committee services and, to the extent authorized by the chief clerk of the house of representatives, by the house of representatives office of program research as mutually agreed by the legislators on the working group.

(3) Legislative members shall be reimbursed for expenses in accordance with RCW 44.04.120. Nonlegislative members shall be reimbursed for expenses in accordance with RCW 43.03.050 and 43.03.060. [1993 c 485 § 3.]

43.147.070 PNWER-Net working subgroup—Duties. The PNWER-Net working subgroup shall have the following duties:

(1) To work with working subgroups from other member states and provinces in an entity known as the PNWER-Net working group to develop PNWER-Net; and

(2) To assist the PNWER-Net working group in developing criteria to ensure that designated member libraries use existing telecommunications infrastructure including the internet. [1998 c 245 § 4; 1993 c 485 § 4.]

(a) Large numbers of Washington's citizens are actively engaged in carrying forward the ethic of service and voluntary activities that benefit their citizens, their communities, and the entire state;

(b) This contribution continues to provide the equivalent of hundreds of millions of dollars in services that might otherwise create a need for additional tax collections;

(c) Many Washington citizens have yet to become fully involved in the life of their communities; many societal needs exist that could and should be met by new citizen service initiatives;

(d) The state of Washington needs to continue to encourage and expand the ethic of civic responsibility among its citizenry, through individuals working on their own, and through local and statewide organizations, both governmental and private and nonprofit agencies;

(e) This ethic of citizen service benefits those who serve and those who receive services; in both cases there is the betterment of all Washington communities;

(f) Public and private agencies depend in large measure on the efforts of volunteers for the accomplishment of their missions and actively seek to increase these efforts;

(g) State agencies can and should extend their service delivery programs through the increased use of and support for volunteers;

(h) The national and community service act of 1990 provides an opportunity for Washington to support citizen service and volunteer activities in Washington;

(i) Business, industry, communities, schools, and labor in Washington state are increasingly interested in opportunities for community service and in developing the volunteer and service ethic;

43.155.010 Legislative findings and policy. The legislature finds that there exists in the state of Washington over four billion dollars worth of critical projects for the planning, acquisition, construction, repair, replacement, rehabilitation, or improvement of streets and roads, bridges, water systems, and storm and sanitary sewage systems. The December, 1983 Washington state public works report prepared by the planning and community affairs agency documented that local governments expect to be capable of financing over two billion dollars worth of the costs of those critical projects but will not be able to fund nearly half of the documented needs. The legislature further finds that Washington's local governments have unmet financial needs for solid waste disposal, including recycling, and encourages the board to make an equitable geographic distribution of the funds.

It is the policy of the state of Washington to encourage self-reliance by local governments in meeting their public works needs and to assist in the financing of critical public works projects by making loans, grants, financing guarantees, and technical assistance available to local governments for these projects. [2017 3rd sp.s. c 10 § 1; 1996 c 168 § 1; 1985 c 446 § 7.]

(5) Adopt rules under chapter 34.05 RCW as necessary to carry out the purposes of this chapter;

(6) Do all acts and things necessary or convenient to carry out the powers expressly granted or implied under this chapter. [2017 3rd sp.s. c 10 § 4; 1985 c 446 § 10.]

43.155.050 Public works assistance account. The public works assistance account is hereby established in the state treasury. Money may be placed in the public works assistance account from the proceeds of bonds when authorized by the legislature or from any other lawful source. Money in the public works assistance account shall be used to make loans and grants and to give financial guarantees to local governments for public works projects. Moneys in the account may also be appropriated or transferred to the water pollution control revolving fund and the drinking water assistance account to provide for state match requirements under federal law. Not more than twenty percent of the biennial capital budget appropriation to the public works board from this account may be expended or obligated for preconstruction loans and grants, emergency loans and grants, or loans and grants for capital facility planning under this chapter. Not more than ten percent of the biennial capital budget appropriation to the public works board from this account may be expended or obligated as grants for preconstruction, emergency, capital facility planning, and construction projects. During the 2017-2019 and 2019-2021 fiscal biennia, the legislature may appropriate moneys from the account for activities related to rural economic development, the growth management act, the aviation revitalization loan program, the community economic revitalization board broadband program, and the voluntary stewardship program. During the 2017-2019 and 2019-2021 fiscal biennia, the legislature may direct the state treasurer to make transfers of moneys in the public works assistance account to the education legacy trust account. It is the intent of the legislature that this policy will be continued in subsequent fiscal biennia. If chapter 365, Laws of 2019 (Second Substitute Senate Bill No. 5511, broadband service) is enacted by June 30, 2019, then during the 2019-2021 fiscal biennium, the legislature may direct the state treasurer to make transfers of moneys in the public works assistance account to the statewide broadband account. Finding—2005 c 425: "The legislature has and continues to recognize the vital importance of economic development to the health and prosperity of Washington state as indicated in RCW 43.160.010, *43.155.070(4) (g), 43.163.005, and 43.168.010. The legislature finds that current economic development programs and funding, which are primarily low-interest loan programs, can be enhanced by creating a grant program to assist with public infrastructure projects that directly stimulate community and economic development by supporting the creation of new jobs or the retention of existing jobs." [2005 c 425 § 1.]

43.155.060 Public works financing powers—Establishment of interest rates—Competitive bids on projects. (1) In order to aid the financing of public works projects, the board may:
(a) Make loans or grants to local governments from the public works assistance account or other funds and accounts for the purpose of assisting local governments in financing public works projects. Money received from local governments in repayment of loans made under this section shall be paid into the public works assistance account for uses consistent with this chapter.
(b) Pledge money in the public works assistance account, or money to be received by the public works assistance account, to the repayment of all or a portion of the principal of or interest on obligations issued by local governments to finance public works projects. The board shall not pledge any amount greater than the sum of money in the public works assistance account plus money to be received from the payment of the debt service on loans made from that account, nor shall the board pledge the faith and credit or the taxing power of the state or any agency or subdivision thereof to the repayment of obligations issued by any local government.
(c) Create such subaccounts in the public works assistance account as the board deems necessary to carry out the purposes of this chapter.
(d) Provide a method for the allocation of loans, grants, and financing guarantees and the provision of technical assistance under this chapter.
(2) When establishing interest rates for loan programs authorized in this chapter for projects which are supported by a rate base of at least fifty thousand equivalent residential units, the board must base interest rates on the average daily market interest rate for tax-exempt municipal bonds as published in the bond buyer's index for the period from sixty to thirty days before the start of the application cycle.
(a) For projects with a repayment period between five and twenty years, the rate must be fifty percent of the market rate.
(b) For projects with a repayment period under five years, the rate must be twenty-five percent of the market rate.
(c) For any year in which the average daily market interest rate for tax-exempt municipal bonds for the period from sixty to thirty days before the start of an application cycle is nine percent or greater, the board may cap interest rates at four percent for projects with a repayment period between five and twenty years and at two percent for projects with a repayment period under five years.
(d) The board may also provide reduced interest rates, extended repayment periods, or grants for projects that meet financial hardship criteria as measured by the affordability index or similar standard measure of financial hardship. The board may provide reduced interest rates, extended repayment periods, or grants for projects that are supported by a rate base of less than fifty thousand equivalent residential units.
(3) All local public works projects aided in whole or in part under the provisions of this chapter shall be put out for competitive bids, except for emergency public works under RCW 43.155.065 for which the recipient jurisdiction shall comply with this requirement to the extent feasible and practicable. The competitive bids called for shall be administered in the same manner as all other public works projects put out for competitive bidding by the local governmental entity aided under this chapter. [2017 3rd sp.s. c 10 § 6; 1988 c 93 § 2; 1985 c 446 § 11.]

43.155.065 Emergency public works projects. The board may make low-interest or interest-free loans or grants to local governments for emergency public works projects. Emergency public works projects shall include the construction, repair, reconstruction, replacement, rehabilitation, or improvement of a public water system that is in violation of health and safety standards and is being operated by a local government on a temporary basis. The loans or grants may be used to help fund all or part of an emergency public works project less any reimbursement from any of the following sources: (1) Federal disaster or emergency funds, including funds from the federal emergency management agency; (2) state disaster or emergency funds; (3) insurance settlements; or (4) litigation. [2017 3rd sp.s. c 10 § 7; 2001 c 131 § 3; 1990 c 133 § 7; 1988 c 93 § 1.]

Findings—Severability—1990 c 133: See notes following RCW 36.94.140.

43.155.068 Loans or grants for preconstruction activities. (1) The board may make loans or grants to local governments for preconstruction activities on public works projects before the legislature approves the construction phase of the project. Preconstruction activities include design, engineering, bid-document preparation, environmental studies, right-of-way acquisition, value planning, and other preliminary phases of public works projects as determined by the board. The purpose of the loans and grants authorized in this section is to accelerate the completion of
Public Works Projects

43.155.070 Eligibility, priority, limitations, and exceptions—Report. (1) To qualify for financial assistance under this chapter the board must determine that a local government meets all of the following conditions:

(a) The city or county must be imposing a tax under chapter 82.46 RCW at a rate of at least one-quarter of one percent;

(b) The local government must have developed a capital facility plan; and

(c) The local government must be using all local revenue sources which are reasonably available for funding public works, taking into consideration local employment and economic factors.

(2) Except where necessary to address a public health need or substantial environmental degradation, a county, city, or town planning under RCW 36.70A.040 may not receive financial assistance under this chapter unless it has adopted a comprehensive plan, including a capital facilities plan element, and development regulations as required by RCW 36.70A.040. This subsection does not require any county, city, or town planning under RCW 36.70A.040 to adopt a comprehensive plan or development regulations before requesting or receiving financial assistance under this chapter if such request is made before the expiration of the time periods specified in RCW 36.70A.040. A county, city, or town planning under RCW 36.70A.040 that has not adopted a comprehensive plan and development regulations within the time periods specified in RCW 36.70A.040 may apply for and receive financial assistance under this chapter if the comprehensive plan and development regulations are adopted as required by RCW 36.70A.040 before executing a contractual agreement for financial assistance with the board.

(3) In considering awarding financial assistance for public facilities to special districts requesting funding for a proposed facility located in a county, city, or town planning under RCW 36.70A.040, the board must consider whether the county, city, or town planning under RCW 36.70A.040 in whose planning jurisdiction the proposed facility is located has adopted a comprehensive plan and development regulations as required by RCW 36.70A.040.

(4)(a) The board must develop a process to prioritize applications and funding of loans and grants for public works projects submitted by local governments. The board must consider, at a minimum and in any order, the following factors in prioritizing projects:

(i) Whether the project is critical in nature and would affect the health and safety of many people;

(ii) The extent to which the project leverages other funds;

(iii) The extent to which the project is ready to proceed to construction;

(iv) Whether the project is located in an area of high unemployment, compared to the average state unemployment;

(v) Whether the project promotes the sustainable use of resources and environmental quality, as applicable;

(vi) Whether the project consolidates or regionalizes systems;

(vii) Whether the project encourages economic development through mixed-use and mixed income development consistent with chapter 36.70A RCW;

(viii) Whether the system is being well-managed in the present and for long-term sustainability;

(ix) Achieving equitable distribution of funds by geography and population;

(x) The extent to which the project meets the following state policy objectives:

(A) Efficient use of state resources;

(B) Preservation and enhancement of health and safety;

(C) Abatement of pollution and protection of the environment;

(D) Creation of new, family-wage jobs, and avoidance of shifting existing jobs from one Washington state community to another;

(E) Fostering economic development consistent with chapter 36.70A RCW;

(F) Efficiency in delivery of goods and services and transportation; and

(G) Reduction of the overall cost of public infrastructure;

(xi) Whether the applicant sought or is seeking funding for the project from other sources; and

(xii) Other criteria that the board considers necessary to achieve the purposes of this chapter.

(b) Before September 1, 2018, and each year thereafter, the board must develop and submit a report regarding the construction loans and grants to the office of financial management and appropriate fiscal committees of the senate and house of representatives. The report must include:

(i) The total number of applications and amount of funding requested for public works projects;

(ii) A list and description of projects approved in the preceding fiscal year with project scores against the board's prioritization criteria;

(iii) The total amount of loan and grants disbursements made from the public works assistance account in the preceding fiscal year;

(iv) The total amount of loan repayments in the preceding fiscal year for outstanding loans from the public works assistance account;
(v) The total amount of loan repayments due for outstanding loans for each fiscal year over the following ten-year period; and
(vi) The total amount of funds obligated and timing of when the funds were obligated in the preceding fiscal year.
(c) The maximum amount of funding that the board may provide for any jurisdiction is ten million dollars per biennium.

(5) Existing debt or financial obligations of local governments may not be refinanced under this chapter. Each local government applicant must provide documentation of attempts to secure additional local or other sources of funding for each public works project for which financial assistance is sought under this chapter.

(6) Before September 1st of each year, the board must develop and submit to the appropriate fiscal committees of the senate and house of representatives a description of the loans and grants made under RCW 43.155.065 and 43.155.068.

(7) The board may not sign contracts or otherwise financially obligate funds from the public works assistance account before the legislature has appropriated funds to the board for the purpose of funding public works projects under this chapter.

(8) To qualify for loans, grants, or pledges for solid waste or recycling facilities under this chapter, a city or county must demonstrate that the solid waste or recycling facility is consistent with and necessary to implement the comprehensive solid waste management plan adopted by the city or county under chapter 70.95 RCW.

(9) After January 1, 2010, any project designed to address the effects of stormwater or wastewater on Puget Sound may be funded under this section only if the project is not in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310.

(10) For projects involving repair, replacement, or improvement of a wastewater treatment plant or other public works facility for which an investment grade efficiency audit is reasonably obtainable, the public works board must require as a contract condition that the project sponsor undertake an investment grade efficiency audit. The project sponsor may finance the costs of the audit as part of its public works assistance account program loan or grant.

(11) The board must implement policies and procedures designed to maximize local government consideration of other funds to finance local infrastructure. Findings—Recommendations—Reports encouraged—2007 c 231: "(1) The legislature finds that permit programs have been legislatively established to protect the health, welfare, economy, and environment of Washington's citizens and to provide a fair, competitive opportunity for business innovation and consumer confidence. The legislature also finds that uncertainty in government processes to permit an activity by a citizen of Washington state is undesirable and erodes confidence in government. The legislature further finds that in the case of projects that would further economic development in the state, information about the permitting process is critical for an applicant's planning and financial assessment of the proposed project. The legislature also finds that applicants have a responsibility to provide complete and accurate information. (2) The legislature recommends that applicants be provided with the following information when applying for a development permit from a city, county, or state agency: (a) The minimum and maximum time an agency will need to make a decision on a permit, including public comment requirements; (b) The minimum amount of information required for an agency to make a decision on a permit; (c) When an agency considers an application complete for processing; (d) The minimum and maximum costs in agency fees that will be incurred by the permit applicant; and (e) The reasons for a denial of a permit in writing. (3) In providing this information to applicants, an agency should base estimates on the best information available about the permitting program and prior applications for similar permits, as well as on the information provided by the applicant. New information provided by the applicant subsequent to the agency estimates may change the information provided by an agency per subsection (2) of this section. Project modifications by an applicant may result in more time, more information, or higher fees being required for permit processing. (4) This section does not create an independent cause of action, affect any existing cause of action, or establish time limits for purposes of RCW 64.40.020. (5) City, county, and state agencies issuing development permits are encouraged to track the progress in providing the information to applicants per subsection (2) of this section by preparing an annual report of its performance for the preceding fiscal year. The report should be posted on its web site [and] made available and provided to the appropriate standing committees of the senate and house of representatives." [2007 c 231 § 1.]

43.155.075 Loans and grants for public works projects—Statement of environmental benefits—Sustainable asset management best practices—Development of outcome-focused performance measures. In providing loans and grants for public works projects, the board shall require recipients to incorporate the environmental benefits of the project into their applications, and the board shall utilize the statement of environmental benefits in its prioritization and selection process, when applicable. For projects funded under this chapter, the board may require a local government to have sustainable asset management best practices in place; provide a long-term financial plan to demonstrate a sound maintenance program; have a long-term financial plan for loan repayments in place; and undergo value planning at the predesign project stage, where the greatest productivity gains and cost savings can be found. The board shall also develop appropriate outcome-focused performance measures to be used both for management and performance assessment of the loan and grant program. To the extent possible, the department should coordinate its performance measure system with other natural resource-related agencies as defined in RCW 43.41.270. The board shall consult with affected interest groups in implementing this section. [2017 3rd sp.s. c 10 § 10; 2001 c 227 § 10.]

43.155.110 Puget Sound partners. In developing a priority process for public works projects under RCW 43.155.070, the board shall give preferences only to Puget Sound partners, as defined in RCW 90.71.010, over other entities that are eligible to be included in the definition of Puget Sound partner. Entities that are not eligible to be a Puget Sound partner due to geographic location, composition, exclusion from the scope of the action agenda developed by the Puget Sound partnership under RCW 90.71.310, or for any other reason, shall not be given less preferential treatment than Puget Sound partners. Entities not eligible for designation as an evergreen community shall not be given less preferential treatment than an evergreen community. [2008 c 299 § 30.]

43.155.130 Intent—Local infrastructure assistance. (1) The legislature intends to modernize state programs that provide financial and technical assistance related to local infrastructure by: (a) Clarifying the policy objectives and priorities for state assistance for local infrastructure; (b) eliminating redundancy among the various state programs; (c) increasing the speed of delivering state assistance and the ability to respond to emerging needs; (d) maximizing the acquisition and use of federal funding sources; (e) ensuring transparency in state and federal assistance; (f) improving access to the lowest cost private market financing; and (g) ensuring accountability and the periodic review of progress.

(2) By November 1, 2011, the public works board must prepare and submit to the appropriate committees of the legislature an implementation plan for creating a reformed state system for providing local infrastructure assistance. In developing the plan, the board must consult with state agencies that provide infrastructure funding and technical assistance including, but not limited to, the departments of commerce, health, and ecology. The board must also work in cooperation with local governments or entities that benefit from infrastructure funding and technical assistance.

(3) The board, state agencies, and local partners must consider, among other things, consolidation of state appropriations to support policy-focused investments including water quality, safe drinking water, stormwater, economic development, access to private financing, solid waste and recycling, and flood levees. In addition, they must consider consolidating assistance packages, streamlining application processes, and clarify the respective responsibilities of state and local agencies in planning for, developing[,] and maintaining local public infrastructure.

(4) The implementation plan must include draft legislation and the organizational and budgetary changes necessary to implement the new system in time for the 2013-2015 budget cycle. [2011 1st sp.s. c 48 § 7028.]

43.155.140 Projects in areas impacted by the closure or potential closure of large coal-fired electric generation facilities. The board shall solicit qualifying projects to plan, design, and construct public works projects needed to attract new industrial and commercial activities in areas impacted by the closure or potential closure of large coal-fired electric generation facilities, which for the purposes of this section means a facility that emitted more than one million tons of greenhouse gases in any calendar year prior to 2008. The projects should be consistent with any applicable plans for major industrial activity on lands formerly used or designated for surface coal mining and supporting uses under RCW 36.70A.368. When the board receives timely and eligible project applications from a political subdivision of the state for financial assistance for such projects, the board from available funds shall give priority consideration to such projects. 43.155.150 Interagency, multijurisdictional system improvement team. (Expires June 30, 2021.) (1) An interagency, multijurisdictional system improvement team must identify, implement, and report on system improvements that achieve the designated outcomes, including:

(a) Projects that maximize value, minimize overall costs and disturbance to the community, and ensure long-term durability and resilience;

(b) Projects that are designed to meet the unique needs of each community, rather than the needs of particular funding programs;

(c) Project designs that maximize long-term value by fully considering and responding to anticipated long-term environmental, technological, economic and population changes;

(d) The flexibility to innovate, including utilizing natural systems, addressing multiple regulatory drivers, and forming regional partnerships;

(e) The ability to plan and collaborate across programs and jurisdictions so that different investments are packaged to be complementary, timely, and responsive to economic and community opportunities;

(f) The needed capacity for communities, appropriate to their unique financial, planning, and management capacities, so they can design, finance, and build projects that best meet their long-term needs and minimize costs;

(g) Optimal use and leveraging of federal and private infrastructure dollars; and

(h) Mechanisms to ensure periodic, system-wide review and ongoing achievement of the designated outcomes.

(2019 Ed.)
(2) The system improvement team must consist of representatives of state infrastructure programs that provide funding for drinking water, wastewater, and stormwater programs, including but not limited to representatives from the public works board, department of ecology, department of health, and the department of commerce. The system improvement team may invite representatives of other infrastructure programs, such as transportation and energy, as needed in order to achieve efficiency, minimize costs, and maximize value across infrastructure programs. The system improvement team shall also consist of representatives of users of those programs, representatives of infrastructure project builders, and other parties the system improvement team determines would contribute to achieving the desired outcomes, including but not limited to representatives from a state association of cities, a state association of counties, a state association of public utility districts, a state association of water and sewer districts, a state association of general contractors, and a state organization representing building trades. The public works board, a representative from the department of ecology, department of health, and department of commerce shall facilitate the work of the system improvement team.

(3) The system improvement team must focus on achieving the designated outcomes within existing program structures and authorities. The system improvement team shall use lean practices to achieve the designated outcomes.

(4) The system improvement team shall provide briefings as requested to the public works board on the current state of infrastructure programs to build an understanding of the infrastructure investment program landscape and the interplay of its component parts.

(5) If the system improvement team encounters statutory or regulatory barriers to system improvements, the system improvement team must inform the public works board and consult on possible solutions. When achieving the designated outcomes would be best served through changes in program structures or authorities, the system improvement team must report those findings to the public works board.

(6) This section expires June 30, 2021. [2017 3rd sp.s. c 10 § 11.]

### 43.155.160 Broadband service expansion grant and loan program.

(3) Eligible applicants for grants and loans awarded under this section include:

(a) Local governments;
(b) Tribes;
(c) Nonprofit organizations;
(d) Cooperative associations;
(e) Multiparty entities comprised of public entity members;

(b) At least sixty days prior to the first day applications may be submitted each fiscal year, the board must publish on its website the specific criteria and any quantitative weighting scheme or scoring system that the board will use to evaluate or rank applications and award funding.

(c) The board may maintain separate accounting in the statewide broadband account created in RCW 43.155.165 as the board deems necessary to carry out the purposes of this section.

(d) The board must provide a method for the allocation of loans, grants, provision of technical assistance, and interest rates under this section.

(5) An applicant for a grant or loan under this section must provide the following information on the application:

(a) The location of the project;
(b) Evidence regarding the unserved nature of the community in which the project is to be located;
(c) Evidence that proposed infrastructure will be capable of scaling to greater download and upload speeds;
(d) The number of households that will gain access to broadband service as a result of the project or whose broadband service will be upgraded as a result of the project;
(e) The estimated cost of retail services to end users facilitated by a project;
(f) The proposed actual download and upload speeds experienced by end users;
(g) Evidence of significant community institutions that will benefit from the proposed project;
(h) Anticipated economic, educational, health care, or public safety benefits created by the project;

(n) A strategic plan to maintain long-term operation of the infrastructure;
(o) Evidence that no later than six weeks before submission of the application, the applicant contacted, in writing, all entities providing broadband service near the proposed project area to ask each broadband service provider's plan to upgrade broadband service in the project area to speeds that meet or exceed the state's definition for broadband service as defined in RCW 43.330.530, within the time frame specified in the proposed grant or loan activities;
(p) If applicable, the broadband service providers' written responses to the inquiry made under (o) of this subsection; and

(q) Any additional information requested by the board.

(6)(a) Within thirty days of the close of the grant and loan application process, the board shall publish on its website the proposed geographic broadband service area and the proposed broadband speeds for each application submitted.

(b) Any existing broadband service provider near the proposed project area may, within thirty days of publication of the information under (a) of this subsection, submit in writing to the board an objection to an application. An objection must contain information demonstrating that:

(i) The project would result in overbuild, meaning that the objecting provider currently provides, or has begun construction to provide, broadband service to end users in the proposed project area at speeds equal to or greater than the state speed goals contained in RCW 43.330.536; or

(ii) The objecting provider commits to complete construction of broadband infrastructure and provide broadband service to end users in the proposed project area at speeds equal to or greater than the state speed goals contained in RCW 43.330.536, no later than twenty-four months after the date awards are made under this section for the grant and loan cycle under which the application was submitted.

(d) The board may evaluate the information submitted under this section by the objecting provider and must consider it in making a determination on the application objected to. The board may request clarification or additional information. The board may choose to not fund a project if the board determines that the objecting provider's commitment to provide broadband service that meets the requirements of (b) of this subsection in the proposed project area is credible. In assessing the commitment, the board may consider whether the objecting provider has or will provide a bond, letter of credit, or other indicia of financial commitment guaranteeing the project's completion.

(e) If the board denies funding to an applicant as a result of a broadband service provider's objection made under this section, and the broadband service provider does not fulfill its commitment to provide broadband service in the project area, then for the following two grant and loan cycles, the board is prohibited from denying funding to an applicant on the basis of a challenge by the same broadband service provider, unless the board determines that the broadband service provider's failure to fulfill the provider's commitment was the result of factors beyond the broadband service provider's control. The board is not prohibited from denying funding to an applicant for reasons other than an objection by the same broadband service provider.

(f) An applicant or broadband service provider that objected to the application may request a debriefing conference regarding the board's decision on the application. Requests for debriefing must be coordinated by the office and must be submitted in writing in accordance with procedures specified by the office.

(g) Confidential business and financial information submitted by an objecting provider under this subsection is exempt from disclosure under chapter 42.56 RCW.

(7)(a) In evaluating applications and awarding funds, the board shall give priority to applications that are constructed in areas identified as unserved.

(b) In evaluating applications and awarding funds, the board may give priority to applications that:

(i) Provide assistance to public-private partnerships deploying broadband infrastructure from areas currently served with broadband service to areas currently lacking access to broadband services;

(ii) Demonstrate project readiness to proceed;

(iii) Construct infrastructure that is open access, meaning that during the useful life of the infrastructure, service providers may use network services and facilities at rates, terms, and conditions that are not discriminatory or preferential between providers, and employing accountable interconnection arrangements published and available publicly;

(iv) Are submitted by tribal governments whose reservations are in rural and remote areas where reliable and efficient broadband services are unavailable to many or most residents;

(v) Bring broadband service to tribal lands, particularly to rural and remote tribal lands or areas servicing rural and remote tribal entities;

(vi) Are submitted by tribal governments in rural and remote areas that have spent significant amounts of tribal funds to address the problem but cannot provide necessary broadband services without either additional state support, additional federal support, or both;

(vii) Serve economically distressed areas of the state as the term "distressed area" is defined in RCW 43.168.020;

(viii) Offer new or substantially upgraded broadband service to important community anchor institutions including, but not limited to, libraries, educational institutions, public safety facilities, and health care facilities;

(ix) Facilitate the use of telemedicine and electronic health records, especially in deliverance of behavioral health services and services to veterans;

(x) Provide technical support and train residents, businesses, and institutions in the community served by the project to utilize broadband service;

(xi) Include a component to actively promote the adoption of newly available broadband services in the community;

(xii) Provide evidence of strong support for the project from citizens, government, businesses, and community institutions;

(xiii) Provide access to broadband service to a greater number of unserved households and businesses, including farms;

(xiv) Utilize equipment and technology demonstrating greater longevity of service;

(xv) Seek the lowest amount of state investment per new location served and leverage greater amounts of funding for the project from other private and public sources;

(xvi) Include evidence of a customer service plan;

(xvii) Consider leveraging existing broadband infrastructure and other unique solutions;

(xviii) Benefit public safety and fire preparedness; or

(xix) Demonstrate other priorities as the board, in collaboration with the office, may prescribe by rule.

(c) The board shall endeavor to award funds under this section to qualified applicants in all regions of the state.
(d) The board shall consider affordability and quality of service to end users in making a determination on any application.

(e) The board, in collaboration with the office, may develop additional rules for eligibility, project applications, the associated objection process, and funding priority, as provided under this subsection and subsections (3), (5), and (6) of this section.

(f) The board, in collaboration with the office, may adopt rules for a voluntary nonbinding mediation between incumbent providers and applicants to the grant and loan program created in this section.

(8) To ensure a grant or loan to a private entity under this section primarily serves the public interest and benefits the public, any such grant or loan must be conditioned on a guarantee that the asset or infrastructure to be developed will be maintained for public use for a period of at least fifteen years.

(a) No funds awarded under this section may fund more than fifty percent of the total cost of the project, except as provided in (b) of this subsection.

(b) The board may choose to fund up to ninety percent of the total cost of a project in financially distressed areas as the term "distressed area" is defined in RCW 43.168.020, and in areas identified as Indian country as the term "Indian country" is defined in WAC 458-20-192.

(c) Funds awarded to a single project under this section must not exceed two million dollars, except that the board may choose to fund projects qualifying for the exception in (b) of this subsection up to, but not to exceed, five million dollars.

(10) Prior to awarding funds under this section, the board must consult with the Washington utilities and transportation commission. The commission must provide to the board an assessment of the technical feasibility of a proposed application. The board must consider the commission's assessment as part of its evaluation of a proposed application.

(11) The board shall have such rights of recovery in the event of default in payment or other breach of financing agreement as may be provided in the agreement or otherwise by law.

(12) The community economic revitalization board shall facilitate the timely transmission of information and documents from its broadband program to the board in order to effectuate an orderly transition.

(13) The definitions in RCW 43.330.530 apply throughout this chapter unless the context clearly requires otherwise. [2019 c 365 § 8.]

43.157.005 Declaration. The legislature declares that certain investments, such as investments for industrial development, environmental improvement, and innovation activities, merit special designation and treatment by governmental bodies when they are proposed. Such investments bolster the economies of their locale and impact the economy of the state as a whole. It is the intention of the legislature to recognize projects of statewide significance and to encourage local governments and state agencies to expedite their completion. [2009 c 421 § 1; 1997 c 369 § 1.]

(III) The project resulted from or is in furtherance of innovation activities at a public research institution in the state or is in or resulted from innovation activities within an innovation partnership zone; or
(IV) The project will provide a net environmental benefit as evidenced by plans for design and construction under green building standards or for the creation of renewable energy technology or components or under other environmental criteria established by the director in consultation with the director of the department of ecology.
A project may be qualified under this subsection (5)(b)(i)(J) only after consultation on the availability of staff resources of the office of regulatory assistance.
(6) "Research and development" shall have the meaning assigned it in RCW 82.62.010. [2017 c 288 § 2. Prior: 2012 c 63 § 2; prior: 2009 c 565 § 34; 2009 c 421 § 2; 2004 c 275 § 63; 2003 c 54 § 1; 1997 c 369 § 2.]

Finding—2017 c 288: "The legislature finds that Washington is one of our nation's trade leaders, serving as a gateway to both international and interstate trade for the west. Clark county's population has grown by thirty percent over the past fifteen years. Recent southwest Washington regional transportation council data found a greater than fifty percent year-over-year increase in peak-hour vehicle and truck delays on the Interstate 5 corridor through Vancouver. Southwest Washington must find a path forward to establishing a unified plan for infrastructure investments that will serve as the basis for progress for the next one hundred years. The safety and economic well-being of our residents cannot wait. Legislators representing southwest Washington have set out some guiding principles that will enable a planning process to begin to select a new Interstate 5 bridge project that will serve as the foundation of an initial investment in the bridges that link Washington with Oregon, supporting critical trade routes, alleviating congestion, and improving safety." [2017 c 288 § 1.]

Findings—Intent—2014 c 174; 2012 c 63: "The legislature finds that Washington is becoming a leader in the development and commercialization of aviation biofuels due to its strong tradition of market innovation, a concentrated demand for sustainable aviation fuels, leading expertise and research capacity, an established aviation manufacturing sector, and the availability of a diverse range of feedstocks for the production of biofuels. The legislature also finds that the development of aviation biofuels has the potential to reduce dependence on foreign sources of fossil fuels, reduce greenhouse gas emissions, and promote economic development and jobs in Washington. The legislature intends to support the development of commercial-scale aviation biofuels production facilities in Washington by facilitating and streamlining the permitting process for new facilities and the expansion of existing facilities and by providing access to low-cost financing through the issuance of revenue bonds. The legislature finds that the 2012 Washington state energy strategy calls for a targeted, strategic policy focus on sustainable aviation biofuels to encourage the realization of Washington's potential. The legislature also finds that a regional stakeholder effort to explore the opportunities and challenges surrounding the production of sustainable aviation fuels, known as sustainable aviation biofuels northwest, urged policymakers in the Northwest to develop supportive public policies that will jump start the industry, attract investment, and accelerate industry growth. In order to provide focus and develop policy recommendations to support the sustainable aviation biofuels sector in Washington, the legislature intends to establish a sustainable aviation biofuels work group." [2014 c 174 § 6; 2012 c 63 § 1.]

No designation of a project as a project of statewide significance shall be made without such letter of approval. The letter of approval must state that the jurisdiction joins in the request for the designation of the project as one of statewide significance and has or will hire the professional staff that will be required to expedite the processes necessary to the completion of a project of statewide significance. The development project proponents may provide the funding necessary for the jurisdiction to hire the professional staff that will be required to expedite. The application shall contain information regarding the location of the project, the applicant's average employment in the state for the prior year, estimated new employment related to the project, estimated wages of employees related to the project, estimated time schedules for completion and operation, and other information required by the department; and

(b) Designate a development project as a project of statewide significance if the department determines:

(ii) The development project meets or will meet the requirements of RCW 43.157.010 regarding designation as a project of statewide significance.

(2) Any project designated by the legislature and codified in this chapter is not subject to the application requirements set out in subsection (1) of this section.

(3) The office of regulatory assistance shall assign a project facilitator or coordinator to each project of statewide significance to:

(a) Assist in the scoping and coordinating functions provided for in chapter 43.42 RCW;

(b) Assemble a team of state and local government and private officials to help meet the planning, permitting, and development needs of each project, which team shall include those responsible for planning, permitting and licensing, infrastructure development, workforce development services including higher education, transportation services, and the provision of utilities; and

(c) Work with each team member to expedite their actions in furtherance of the project. [2017 c 288 § 3; 2009 c 421 § 4; 2003 c 54 § 3; 1997 c 369 § 4.]

Public records: Chapter 42.56 RCW.

43.160.010 Findings. (1) The legislature finds that it is the public policy of the state of Washington to direct financial resources toward the fostering of economic development through the stimulation of investment and job opportunities and the retention of sustainable existing employment for the general welfare of the inhabitants of the state. Reducing unemployment and reducing the time citizens remain jobless is important for the economic welfare of the state. A valuable means of fostering economic development is the construction of public facilities which contribute to the stability and growth of the state's economic base. Expenditures made for these purposes as authorized in this chapter are declared to be in the public interest, and constitute a proper use of public funds. A community economic revitalization board is needed which shall aid the development of economic opportunities. The general objectives of the board should include:

(a) Strengthening the economies of areas of the state which have experienced or are expected to experience chronically high unemployment rates or below average growth in their economies;

(b) Encouraging the diversification of the economies of the state and regions within the state in order to provide greater seasonal and cyclical stability of income and employment;

(c) Encouraging wider access to financial resources for both large and small industrial development projects;

(d) Encouraging new economic development or expansions to maximize employment;

(e) Encouraging the retention of viable existing firms and employment;

(f) Providing incentives for expansion of employment opportunities for groups of state residents that have been less successful relative to other groups in efforts to gain permanent employment; and
(g) Enhancing job and business growth through facility development and other improvements in innovation partnership zones designated under RCW 43.330.270.

(2) The legislature also finds that the state's economic development efforts can be enhanced by, in certain instances, providing funds to improve state highways, county roads, or city streets for industries considering locating or expanding in this state.

(3) The legislature finds it desirable to provide a process whereby the need for diverse public works improvements necessitated by planned economic development can be addressed in a timely fashion and with coordination among all responsible governmental entities.

(4) The legislature also finds that the state's economic development efforts can be enhanced by, in certain instances, providing funds to assist development of telecommunications infrastructure that supports business development, retention, and expansion in the state.

(5) The legislature also finds that the state's economic development efforts can be enhanced by providing funds to improve markets for those recyclable materials representing a large fraction of the waste stream. The legislature finds that public facilities which result in private construction of processing or remanufacturing facilities for recyclable materials are eligible for consideration from the board.

(6) The legislature finds that sharing economic growth statewide is important to the welfare of the state. The ability of communities to pursue business and job retention, expansion, and development opportunities depends on their capacity to ready necessary economic development project plans, sites, permits, and infrastructure for private investments. Project-specific planning, predevelopment, and infrastructure are critical ingredients for economic development. It is, therefore, the intent of the legislature to increase the amount of funding available through the community economic revitalization board and to authorize flexibility for available resources in these areas to help fund planning, predevelopment, and construction costs of infrastructure and facilities that foster economic vitality and diversification.

[2012 c 225 § 2; 2008 c 327 § 1. Prior: 1999 c 164 § 101; 1999 c 94 § 5; 1996 c 51 § 1; 1991 c 314 § 21; 1989 c 431 § 61; 1987 c 422 § 1; 1984 c 257 § 1; 1982 1st ex.s. c 40 § 1.]

Findings—Intent—1999 c 164: "The legislature finds that while Washington's economy is currently prospering, economic growth continues to be uneven, particularly as between metropolitan and rural areas. This has created in effect two Washingtons. One afflicted by inadequate infrastructure to support and attract investment, another suffering from congestion and soaring housing prices. In order to address these problems, the legislature intends to use resources strategically to build on our state's strengths while addressing threats to our prosperity." [1999 c 164 § 1.]

Findings—Intent—Part headings and subheadings not law—Effective date—Severability—1999 c 164: See notes following RCW 43.160.010.

Findings—1991 c 314: "The legislature finds that:

(1) Cutbacks in allowable sales of old growth timber in Washington state pose a substantial threat to the region and the state with massive layoffs, loss of personal income, and declines in state revenues;

(2) The timber impact areas are of critical significance to the state because of their leading role in the overall economic well-being of the state and their importance to the quality of life to all residents of Washington, and that these regions require a special state effort to diversify the local economy;

(3) There are key opportunities to broaden the economic base in the timber impact areas including agriculture, high-technology, tourism, and regional exports; and

(4) A coordinated state, local, and private sector effort offers the greatest potential to promote economic diversification and to provide support for new projects within the region.

The legislature further finds that if a special state effort does not take place the decline in allowable timber sales may result in a loss of six thousand logging and milling jobs; two hundred million dollars in direct wages and benefits; twelve thousand indirect jobs; and three hundred million dollars in indirect wages and benefits.

It is the intent of the legislature to develop comprehensive programs to provide diversified economic development and promote job creation and employment opportunities for the citizens of the timber impact areas." [1991 c 314 § 1.]

Economic Development—Public Facilities Loans and Grants 43.160.060

The board is authorized to make direct loans to political subdivisions of the state and to federally recognized Indian tribes for the purposes of assisting the political subdivisions and federally recognized Indian tribes in financing the cost of public facilities, including development of land and improvements for public facilities, project-specific environmental, capital facilities, land use, permitting, feasibility, and marketing studies and plans; project design, site planning, and analysis; project debt and revenue impact analysis; as well as the construction, rehabilitation, alteration, expansion, or improvement of the facilities. A grant may also be authorized for purposes designated in this chapter, but only when, and to the extent that, a loan is not reasonably possible, given the limited resources of the political subdivision or the federally recognized Indian tribe and the finding by the board that financial circumstances require grant assistance to enable the project to move forward. However, no more than twenty-five percent of all financial assistance approved by the board in any biennium may consist of grants to political subdivisions and federally recognized Indian tribes.

(2) Application for funds must be made in the form and manner as the board may prescribe. In making grants or loans the board must conform to the following requirements:

(a) The board may not provide financial assistance:
   (i) For a project the primary purpose of which is to facilitate or promote a retail shopping development or expansion.
   (ii) For any project that evidence exists would result in a development or expansion that would displace existing jobs in any other community in the state.
   (iii) For a project the primary purpose of which is to facilitate or promote gambling.
   (iv) For a project located outside the jurisdiction of the applicant political subdivision or federally recognized Indian tribe.

(b) The board may only provide financial assistance:
   (i) For a project demonstrating convincing evidence that a specific private development or expansion is ready to occur and will occur only if the public facility improvement is made that:
      (A) Results in the creation of significant private sector jobs or significant private sector capital investment as determined by the board; and
      (B) Will improve the opportunities for the successful maintenance, establishment, or expansion of industrial or commercial plants or will otherwise assist in the creation or retention of long-term economic opportunities;
   (ii) For a project that cannot meet the requirement of (b)(i) of this subsection but is a project that:

      (B) Is part of a local economic development plan consistent with applicable state planning requirements;
      (C) Can demonstrate project feasibility using standard economic principles; and
      (D) Is located in a rural community as defined by the board, or a rural county;
   (iii) For site-specific plans, studies, and analyses that address environmental impacts, capital facilities, land use, permitting, feasibility, marketing, project engineering, design, site planning, and project debt and revenue impacts, as grants not to exceed fifty thousand dollars.
   (c) The board must develop guidelines for local participation and allowable match and activities.
   (d) An application must demonstrate local participation and local participation, in accordance with guidelines developed by the board.
   (e) An application must be approved by the political subdivision and supported by the local associate development organization or local workforce development council or approved by the governing body of the federally recognized Indian tribe.
   (f) The board may allow de minimis general system improvements to be funded if they are critically linked to the viability of the project.
   (g) An application must demonstrate convincing evidence that the median hourly wage of the private sector jobs created after the project is completed will exceed the county-wide median hourly wage.
   (h) The board must prioritize each proposed project according to:
      (i) The relative benefits provided to the community by the jobs the project would create, not just the total number of jobs it would create after the project is completed, but also giving consideration to the unemployment rate in the area in which the jobs would be located;
      (ii) The rate of return of the state's investment, including, but not limited to, the leveraging of private sector investment, anticipated job creation and retention, and expected increases in state and local tax revenues associated with the project;
      (iii) Whether the proposed project offers a health insurance plan for employees that includes an option for dependents of employees;
      (iv) Whether the public facility investment will increase existing capacity necessary to accommodate projected population and employment growth in a manner that supports infill and redevelopment of existing urban or industrial areas that are served by adequate public facilities. Projects should maximize the use of existing infrastructure and provide for adequate funding of necessary transportation improvements;
      (v) Whether the applicant's permitting process has been certified as streamlined by the office of regulatory assistance; and
      (vi) Whether the applicant has developed and adhered to guidelines regarding its permitting process for those applying for development permits consistent with section 1(2), chapter 231, Laws of 2007.

[Title 43 RCW—page 633]
34.163.005 Purpose—Construction. Economic development is essential to the health, safety, and welfare of all Washington citizens by broadening and strengthening state and local tax bases, providing meaningful employment opportunities and thereby enhancing the quality of life. Economic development increasingly is dependent upon the ability of small-sized and medium-sized businesses and farms to finance growth and trade activities. Many of these businesses face an unmet need for capital that limits their growth. These unmet capital needs are a problem in both urban and rural areas which cannot be solved by the private sector alone. There presently exist some federal programs, private credit enhancements and other financial tools to complement the private banking industry in providing this needed capital. More research is needed to develop effective strategies to enhance access to capital and thereby stimulate economic development.

It is the purpose of this chapter to establish a state economic development finance authority to act as a financial conduit that, without using state funds or lending the credit of the state or local governments, can issue nonrecourse revenue bonds, and participate in federal, state, and local economic development programs to help facilitate access to needed capital by Washington businesses that cannot otherwise readily obtain needed capital on terms and rates comparable to large corporations, and can help local governments obtain capital more efficiently. It is also a primary purpose of this chapter to encourage the employment and retention of Washington workers at meaningful wages and to develop innovative approaches to the problem of unmet capital needs. This chapter is enacted to accomplish these and related purposes and shall be construed liberally to carry out its purposes and objectives. [1990 c 53 § 1; 1989 c 279 § 1.]

Findings—Purpose—1994 c 302: "The legislature finds that when public funds are used to support private enterprise, the public may gain through the creation of new jobs, the diversification of the economy, or higher quality jobs for existing workers. The legislature further finds that such returns on public investments are not automatic and that tax-based incentives, in particular, may result in a greater tax burden on businesses and individuals that are not eligible for the public support. It is the purpose of this chapter to collect information sufficient to allow the legislature and the executive branch to make informed decisions about the merits of existing tax-based incentives and loan programs intended to encourage economic development in the state." [1994 c 302 § 1.]

*Reviser's note: 1994 c 302 § 2 was vetoed. 1994 c 302 § 3 is a codification direction and 1994 c 302 § 4 is an emergency clause. The code reviser's office chose not to create a new chapter for the only remaining section, section 1.

43.167.003 Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.
(1) "Community" means a group of people who reside or work in the geographic area established by the community preservation and development authority board or the proposal to create the authority and who currently or historically share a distinct cultural identity or local history.

(2) "Community preservation and development authority" or "authority" means an authority created by members of an impacted community.

(3) "Constituency" means the general membership of the community preservation and development authority, which membership must be open to all persons eighteen years of age and over who are residents, property owners, employees, or business persons within the geographic boundaries established by the authority or the proposal to create the authority.

(4) "Impacted community" means a community that has been adversely impacted by the construction of, or ongoing operation of, multiple major public facilities, public works, and capital projects with significant public funding or by other land use decisions.

(5) "Major public facilities project, public works project, or capital project with significant public funding" means any capital project whose total cost exceeds ten million dollars. On July 1, 2019, and on July 1st of each odd-numbered year thereafter, the capital project cost threshold must be adjusted by the capital project cost adjustment factor for inflation established by the office of financial management. [2019 c 447 § 3.]

Findings—2019 c 447: See note following RCW 43.167.007.

43.167.007 Purpose. (1) Community preservation and development authorities are hereby created to restore or enhance the health, safety, and economic well-being of communities adversely impacted by the construction of, or ongoing operation of, multiple major public facilities, public works, and capital projects with significant public funding or by other land use decisions.

(2) Community preservation and development authorities must have one or more of the following purposes:

(a) To revitalize, enhance, and preserve the unique character of impacted communities;

(b) To mitigate the adverse effects of multiple major public facilities projects, public works projects, or capital projects with significant public funding, a secure community transition facility as defined in RCW 71.09.020, or other land use decisions;

(c) To restore a local area's sense of community;

(d) To reduce the displacement of community members and businesses;

(e) To stimulate the community's economic vitality;

(f) To enhance public service provisions;

(g) To improve the standard of living of community members; or

(h) To preserve historic buildings or areas by returning them to economically productive uses that are compatible with or enhance their historic character. [2019 c 447 § 2.]

Findings—2019 c 447: "The legislature finds that:

(1) Both state and local land use actions, such as the siting of major public facilities, public works, and capital projects with significant public funding, and other land use decisions, generally aim to accrue broad benefits to the people of Washington and local communities.

(2) The local stakeholder community which bears the disproportionate costs of such a land use decision by absorbing the deleterious impacts of the decision are often overlooked or inadequately addressed. These impacts may include dislocation, displacement, and the overall disintegration of an identifiable existing community and its historical and cultural character.

(3) The preservation and restoration of the character of such a community, and the community's historical and cultural character, are important public policy goals that can be achieved through the creation of community preservation and development authorities." [2019 c 447 § 1.]

43.167.010 Formation—Board of directors. (1) The residents, property owners, employees, or business owners of an impacted community may propose formation of a community preservation and development authority. The proposal to form a community preservation and development authority must be presented in writing to the appropriate legislative committee in both the house of representatives and the senate. The proposal must contain proposed general geographic boundaries that will be used to define the community for the purposes of the authority. Proposals presented after January 1, 2020, must identify in its proposal one or more stable revenue sources that (a) have a nexus with the multiple publicly funded facilities or other land use decisions that have adversely impacted the community, and (b) can be used to support future operating or capital projects that will be identified in the strategic plan required under RCW 43.167.030.

(2) Formation of the community preservation and development authority is subject to legislative authorization by statute. The legislature must find that (a) the area within the proposal's geographic boundaries meets the definition of "impacted community" contained in RCW 43.167.003(4) and (b) those persons that have brought forth the proposal are members of the community as defined in RCW 43.167.003(1) and, if the authority were approved, would meet the definition of constituency contained in RCW 43.167.003(3). For proposals brought after January 1, 2020, the legislature must also find that the community has identified one or more stable revenue sources as required in subsection (1) of this section. The legislature may then act to authorize the establishment of the community preservation and development authority in law.

(3) The affairs of a community preservation and development authority shall be managed by a board of directors, consisting of the following members:

(a) Two members who own, operate, or represent businesses within the community;

(b) Two members who reside in the community;

(c) Two members who are involved in providing nonprofit community or social services within the community;

(d) Two members who are involved in the arts and entertainment within the community;

(e) Two members with knowledge of the community's culture and history;

(f) One member who is involved in a nonprofit or public planning organization that directly serves the impacted community; and

(g) Two representatives of the local legislative authority or authorities, as ex officio members.

(4) No member of the board shall hold office for more than four years. Board positions shall be numbered one through nine, and the terms staggered as follows:

(a) Board members elected to positions one through five shall serve two-year terms, and if reelected, may serve no more than one additional two-year term.
(b) Board members initially elected to positions six through thirteen shall serve a three-year term only.
(c) Board members elected to positions six through thirteen after the initial three-year term shall serve two-year terms, and if reelected, may serve no more than one additional two-year term.
(5) With respect to an authority's initial board of directors: The state legislative delegation and those proposing formation of the authority shall jointly establish a committee to select the members of the initial board of directors once the authority has received legislative approval as established in subsection (2) of this section. For the purpose of identifying those persons who meet the criteria in subsection (3)(a) through (e) of this section, community shall mean the proposed geographic boundaries as set out in the proposal.
(6) With respect to subsequent elections of an authority's board of directors: A list of candidates shall be developed by the authority's existing board of directors and the election shall be held during the annual local town hall meeting as required in RCW 43.167.030. [2019 c 447 § 4; 2009 c 516 § 1; 2007 c 501 § 3.]

Findings—2019 c 447: See note following RCW 43.167.007.

43.167.020 Powers of authorities—Limitations. (1) A community preservation and development authority shall have the power to:
(a) Accept gifts, grants, loans, or other aid from public or private entities;
(b) Employ and appoint such agents, attorneys, officers, and employees as may be necessary to implement the purposes and duties of an authority;
(c) Contract and enter into partnerships with individuals, associations, corporations, and local, state, and federal governments;
(d) Buy, own, lease, and sell real and personal property;
(e) Hold in trust, improve, and develop land;
(f) Invest, deposit, and reinvest its funds;
(g) Incur debt in furtherance of its mission; and
(h) Lend its funds, property, credit, or services for corporate purposes.
(2) A community preservation and development authority has no power of eminent domain nor any power to levy taxes or special assessments.
(3) A community preservation and development authority that accepts public funds under subsection (1)(a) of this section:
(a) Is subject in all respects to Article VIII, section 5 or 7, as appropriate, of the state Constitution, and to RCW 42.17A.550; and
(b) May not use the funds to support or oppose a candidate, ballot proposition, political party, or political committee. [2011 c 60 § 40; 2009 c 516 § 2; 2007 c 501 § 4.]

Effective date—2011 c 60: See RCW 42.17A.919.

43.167.030 Duties of authorities. A community preservation and development authority shall have the duty to:
(1) Establish specific geographic boundaries for the authority within its bylaws based on the general geographic boundaries established in the proposal submitted and approved by the legislature;
(2) Solicit input from members of its community and develop a strategic preservation and development plan to restore and promote the health, safety, and economic well-being of the impacted community and to restore and preserve its cultural and historical identity;
(3) Include within the strategic plan a prioritized list of projects identified and supported by the community, including capital or operating components;
(4) Establish funding mechanisms to support projects and programs identified in the strategic plan including but not limited to grants and loans;

(6) Demonstrate ongoing accountability for its actions by:
(a) Reporting to the appropriate committees of the legislature, one year after formation and every biennium thereafter, on the authority's strategic plan, activities, accomplishments, and any recommendations for statutory changes;
(b) Reporting any changes in the authority's geographic boundaries to the appropriate committees of the legislature when the legislature next convenes in regular session;
(c) Convening a local town hall meeting with its constituency on an annual basis to: (i) Report its activities and accomplishments from the previous year; (ii) present and receive input from members of the impacted community regarding its proposed strategic plan and activities for the upcoming year; and (iii) hold board member elections as necessary; and
(d) Maintaining books and records as appropriate for the conduct of its affairs. [2009 c 516 § 3; 2007 c 501 § 5.]

43.167.040 Community preservation and development authority account. The community preservation and development authority account is created in the state treasury. The account is composed of two subaccounts, one for moneys to be appropriated for operating purposes, and the other for moneys to be appropriated for capital purposes. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only for projects under this chapter. [2007 c 501 § 7.]

43.167.050 Role of state and local government agencies. Prior to making siting, design, and construction decisions for future major public facilities, public works projects, or capital projects with significant public funding, state and local government agencies may:
(1) Communicate and consult with the community preservation and development authority and impacted community, including assessing the compatibility of the proposed project with the strategic plan adopted by the authority; and
(2) Make reasonable efforts to ensure that negative, cumulative effects of multiple projects upon the impacted community are minimized. [2007 c 501 § 8.]
43.167.060 Pioneer Square-International District community preservation and development authority. The legislature authorizes the establishment of the Pioneer Square-International District community preservation and development authority, which boundaries are those contained in the Pioneer Square-International District within the city of Seattle. Public records: Chapter 42.56 RCW.

43.168.010 Legislative findings and declaration. The legislature finds that:
(1) The economic health and well-being of the state, particularly in areas of high unemployment, economic stagnation, and poverty, is of substantial public concern.
(2) The consequences of minimal economic activity and persistent unemployment and underemployment are serious threats to the safety, health, and welfare of residents of these areas, decreasing the value of private investments and jeopardizing the sources of public revenue.
(3) The economic and social interdependence of communities and the vitality of industrial and economic activity necessitates, and is in part dependent on preventing substantial dislocation of residents and rebuilding the diversification of the areas' economy.
(4) The ability to remedy problems in stagnant areas of the state is beyond the power and control of the regulatory process and influence of the state, and the ordinary operations of private enterprise without additional governmental assistance are insufficient to adequately remedy the problems of poverty and unemployment.
(5) The revitalization of depressed communities requires the stimulation of private investment, the development of new business ventures, the provision of capital to ventures sponsored by local organizations and capable of growth in the business markets, and assistance to viable, but underfinanced, small businesses in order to create and preserve jobs that are sustainable in the local economy.
Therefore, the legislature declares there to be a substantial public purpose in providing capital to promote economic development and job creation in areas of economic stagnation, unemployment, and poverty. To accomplish this purpose, the legislature hereby creates the rural Washington loan fund and vests in the *department of community, trade, and economic development the authority to spend federal funds to stimulate the economy of distressed areas. [1999 c 164 § 501; 1985 c 164 § 1.]

*Reviser's note: The "department of community, trade, and economic development" was renamed the "department of commerce" by 2009 c 565.

Findings—Intent—Part headings and subheadings not law—Effective date—Severability—1999 c 164: See notes following RCW 43.160.010.

43.168.020 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.
(1) "Department" means the department of commerce.
(2) "Director" means the director of commerce.
(3) "Distressed area" means: (a) A rural county; (b) a county which has an unemployment rate which is twenty percent above the state average for the immediately previous three years; (c) a county that has a median household income that is less than seventy-five percent of the state median household income for the previous three years; (d) a metropolitan statistical area, as defined by the office of federal statistical policy and standards, United States department of commerce, in which the average level of unemployment for the calendar year immediately preceding the year in which an application is filed under this chapter exceeds the average state unemployment for such calendar year by twenty percent; or (e) an area within a county, which area: (i) Is composed of contiguous census tracts; (ii) has a minimum population of five thousand persons; (iii) has at least seventy percent of its families and unrelated individuals with incomes below eighty percent of the county's median income for families and unrelated individuals; and (iv) has an unemployment rate which is at least forty percent higher than the county's unemployment rate. For purposes of this definition, "families and unrelated individuals" has the same meaning that is ascribed to that term by the federal department of housing and urban development in its regulations authorizing action grants for economic development and neighborhood revitalization projects.
(4) "Fund" means the rural Washington loan fund.
(5) "Local development organization" means a nonprofit organization which is organized to operate within an area, demonstrates a commitment to a long-standing effort for an economic development program, and makes a demonstrable effort to assist in the employment of unemployed or underemployed residents in an area.
(6) "Project" means the establishment of a new or expanded business in an area which when completed will provide employment opportunities. "Project" also means the retention of an existing business in an area which when completed will provide employment opportunities.
(7) "Rural county" has the same meaning as provided in RCW 82.14.370. [2009 c 565 § 36; 2008 c 131 § 2; 2005 c 136 § 3; 1999 c 164 § 502; 1996 c 290 § 3; 1995 c 226 § 27; 1993 c 280 § 56; 1991 c 314 § 19; 1988 c 42 § 18; 1987 c 461 § 2; 1985 c 164 § 2.]

(199 Ed.)
Approval of applications for federal community development block grant funds for projects. Subject to the restrictions contained in this chapter, the director is authorized to approve applications of local governments for federal community development block grant funds which the local governments would use to make loans to finance business projects within their jurisdictions. Applications approved by the director under this chapter shall conform to applicable federal requirements. [2005 c 136 § 4; 1987 c 461 § 3; 1985 c 164 § 4.]

Application approval—Conditions and limitations. (1) The director may only approve an application providing a loan for a project which the director finds:
(a) Will result in the creation of employment opportunities, the maintenance of threatened employment, or development or expansion of business ownership by minorities and women;
(b) Will conform to federal rules and regulations governing the spending of federal community development block grant funds;
(c) Will be of public benefit and for a public purpose, and that the benefits, including increased or maintained employment, improved standard of living, the employment of disadvantaged workers, and development or expansion of business ownership by minorities and women, will primarily accrue to residents of the area;
(d) Will probably be successful;
(e) Would probably not be completed without the loan because other capital or financing at feasible terms is unavailable or the return on investment is inadequate.
(2) The director shall, subject to federal block grant criteria, give higher priority to economic development projects that contain provisions for child care.
(3) The director may not approve an application if it fails to provide for adequate reporting or disclosure of financial data to the director. The director may require an annual or other periodic audit of the project books.
(4) The director may require that the project be managed in whole or in part by a local development organization and may prescribe a management fee to be paid to such organization by the recipient of the loan or grant.
(5) The director may approve an application which results in a loan or grant of up to one million dollars.
(6) The director shall fix the terms and rates pertaining to fund loans.
(7) Should there be more demand for loans than funds available for lending, the director shall provide loans for those projects which will lead to the greatest amount of employment or benefit to a community. In determining the "greatest amount of employment or benefit" the director shall also consider the employment which would be saved by its loan and the benefit relative to the community, not just the total number of new jobs or jobs saved.
(8) To the extent permitted under federal law the director shall require applicants to provide for the transfer of all payments of principal and interest on loans to the fund created under this chapter. Under circumstances where the federal law does not permit the director to require such transfer, the director shall give priority to applications where the applicants on their own volition make commitments to provide for the transfer.
(9) The director shall not approve any application to finance or help finance a shopping mall.
(10) For loans not made to minority and women-owned businesses, the director shall make at least eighty percent of the appropriated funds available to projects located in distressed areas, and may make up to twenty percent available to projects located in areas not designated as distressed. For loans not made to minority and women-owned businesses, the director shall not make funds available to projects located in areas not designated as distressed if the fund's net worth is less than seven million one hundred thousand dollars.
(11) If an objection is raised to a project on the basis of unfair business competition, the director shall evaluate the potential impact of a project on similar businesses located in the local market area. A grant may be denied by the director if a project is not likely to result in a net increase in employment within a local market area.
(12) For loans to minority and women-owned businesses who do not meet the credit criteria, the director may consider nontraditional credit standards to offset past discrimination that has precluded full participation of minority or women-owned businesses in the economy. For applicants with high potential who do not meet the credit criteria, the director shall consider developing alternative borrowing methods. For applicants denied loans due to credit problems, the department shall provide financial counseling within available resources and provide referrals to credit rehabilitation services. In circumstances of competing applications, priority shall be given to members of eligible groups which previously have been least served by this fund. [2005 c 136 § 5; 1993 c 512 § 12; 1990 1st ex.s. c 17 § 74; 1989 c 430 § 9; 1987 c 461 § 4; 1986 c 204 § 2; 1985 c 164 § 5.]

Legislative findings—Severability—1989 c 430: See notes following RCW 43.31.502.

Local development organizations—Duties of department—Rules. The department is encouraged to work with local development organizations to promote applications for loans by the fund. The department shall also provide assistance to local development organizations and local governments to identify viable projects for consideration. The department shall adopt such rules and regulations as are appropriate for implementation of this chapter. [2005 c 136 § 6; 1985 c 164 § 6.]

43.168.070 Processing of applications—Contents of applications. The director may receive and approve applications on a monthly basis but shall receive and approve applications on at least a quarterly basis for each fiscal year. The director shall make every effort to simplify the loan process for applicants. Department staff shall process and assist in the preparation of applications. Each application shall show in detail the nature of the project, the types and numbers of jobs to be created, wages to be paid to new employees, and methods to hire unemployed persons from the area. Each application shall contain a credit analysis of the business to receive the loan. The director may respond on short notice to applications of a serious or immediate nature. [2005 c 136 § 7; 1993 c 512 § 14; 1987 c 461 § 5; 1985 c 164 § 7.]

Additional notes found at www.leg.wa.gov

43.168.090 Use of federal community development block grant funds. The department shall use for the fund an amount of federal community development block grant funds equal to the amount of state funds transferred or appropriated to the department for purposes of supplementing the department's block grant funds. [2005 c 136 § 8; 1985 c 164 § 9.]

Additional notes found at www.leg.wa.gov

43.168.100 Entitlement community grants—Conditions. The director may make grants of state funds to local governments which qualify as "entitlement communities" under the federal law authorizing community development block grants. These grants may only be made on the condition that the entitlement community provide the director with assurances that it will: (1) Spend the grant moneys for purposes and in a manner which satisfies state constitutional requirements; (2) spend the grant moneys for purposes and in a manner which would satisfy federal requirements; and (3) spend at least the same amount of the grant for loans to businesses from the federal funds received by the entitlement community. [2005 c 136 § 9; 1993 c 512 § 15; 1986 c 204 § 1; 1985 c 164 § 10.]

Additional notes found at www.leg.wa.gov

43.168.110 Rural Washington loan fund. There is established the rural Washington loan fund which shall be an account in the state treasury. All loan payments of principal and interest which are transferred under RCW 43.168.050 shall be deposited into the account. Moneys in the account may be spent only after legislative appropriation for loans under this chapter. Any expenditures of these moneys shall conform to federal law. [1999 c 164 § 504; 1992 c 235 § 11; 1985 c 164 § 11.]

Findings—Intent—Part headings and subheadings not law—Effective date—Severability—1999 c 164: See notes following RCW 43.160.010.

43.168.120 Guidelines for use of funds for existing economic development revolving loan funds—Grants to local governments to assist existing economic development revolving loan funds. (1) The department shall develop guidelines for rural Washington loan funds to be used to fund existing economic development revolving loan funds. Consideration shall be given to the selection process for grantees, loan quality criteria, legal and regulatory issues, and ways to minimize duplication between rural Washington loan funds and local economic development revolving loan funds.

(2) If it appears that all of the funds appropriated to the fund for a biennium will not be fully granted to local governments within that biennium, the department may make available up to twenty percent of the eighty percent of the funds available to projects in distressed areas under RCW 43.168.050(10) for grants to local governments to assist existing economic development revolving loan funds in distressed areas. The grants to local governments shall be utilized to make loans to businesses that meet the specifications for loans under this chapter. The local governments shall, to the extent permitted under federal law, agree to convey to the fund the principal and interest payments from existing loans that the local governments have made through their revolving loan funds. Under circumstances where the federal law does not permit the department to require such transfer, the department shall give priority to applications where the applicants on their own volition make commitments to provide for the transfer. [1999 c 164 § 505; 1987 c 461 § 6.]

Findings—Intent—Part headings and subheadings not law—Effective date—Severability—1999 c 164: See notes following RCW 43.160.010.

43.168.130 Development of performance standards. The director shall develop performance standards for judging the effectiveness of the program. Such standards shall include, to the extent possible, examining the effectiveness of grants in regard to:

(1) Job creation for individuals of low and moderate income;

(2) Retention of existing employment;

(3) The creation of new employment opportunities;

(4) The diversification of the economic base of local communities;

(5) The establishment of employee cooperatives;

(6) The provision of assistance in cases of employee buy-outs of firms to prevent the loss of existing employment;

(7) The degree of risk assumed by the fund, with emphasis on loans which did not receive financing from commercial lenders, but which are considered financially sound. [2005 c 136 § 10; 1998 c 245 § 52; 1987 c 461 § 7.]

Additional notes found at www.leg.wa.gov

43.168.150 Minority and women-owned businesses—Application process—Joint loan guarantee program. Subject to the restrictions contained in this chapter, the director is authorized to approve applications of minority and women-owned businesses for loans or loan guarantees from the fund. Applications approved by the director under this chapter shall conform to applicable federal requirements. The director shall prioritize available funds for loan guarantees rather than loans when possible. The director may enter into agreements with other public or private lending institutions to develop a joint loan guarantee program for minority and women-owned businesses. If such a program is developed, the director may provide funds, in conjunction with the other organizations, to operate the program. This section does not preclude the director from making individual loan guarantees.
To the maximum extent practicable, the funds available under this section shall be made available on an equal basis to minority and women-owned businesses. The director shall submit to the appropriate committees of the senate and house of representatives quarterly reports that detail the number of loans approved and the characteristics of the recipients by ethnic and gender groups. [2005 c 136 § 11; 1993 c 512 § 13.]

[Title 43 RCW—page 646]
It is declared to be the public policy of the state and a recognized governmental function to assist in making affordable and decent housing available throughout the state and by so doing to contribute to the general welfare. Decent housing for the people of our state is a most important public concern. Interest rates and construction costs have made it impossible for many Washington citizens to purchase their own homes. Older people, disabled persons, and low and moderate-income families often cannot afford to rent decent housing. There exists throughout the state a serious shortage of safe, sanitary and energy efficient housing available at prices within the financial means of our citizens. General economic development within the state is also impeded by a lack of affordable housing. The state's economy, which is dependent on the timber, wood products, and construction industries, has been damaged by inadequate investment in housing construction and rehabilitation. The result has been high unemployment and economic hardship affecting the prosperity of all the people of the state, particularly those in the wood products industry.

It is the purpose of this chapter to establish a state housing finance commission to act as a financial conduit which, without using public funds or lending the credit of the state or local government, can issue nonrecourse revenue bonds and participate in federal, state, and local housing programs and thereby make additional funds available at affordable rates to help provide housing throughout the state. It is also a primary purpose of this chapter to encourage the use of Washington state forest products in residential construction. This chapter is enacted to accomplish these and related purposes and shall be liberally construed to carry out its purposes and objectives.

[1983 c 161 § 1.]

3.180.020 Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Bonds" means the bonds, notes, or other evidences of indebtedness of the commission, the interest paid on which may or may not qualify for tax exemption.

(2) "Certifying authority" means: (a) For improvements involving solar electric systems, the Washington climate and renewable energy development center at Washington State University, established under RCW 28B.30.642; or (b) for all other renewable energy improvements in a manner that is efficient and minimizes the amount of time or cost.

(3) "Code" means the federal internal revenue code of 1954, as now or hereafter amended, and the regulations and rulings promulgated thereunder.

(4) "Commission" means the Washington state housing finance commission or any board, body, commission, department, or officer succeeding to the principal functions thereof or to whom the powers conferred upon the commission shall be given by law.

(5) "Costs of housing" means all costs related to the development, design, acquisition, construction, reconstruction, leasing, rehabilitation, and other improvements of housing, as determined by the commission.

(6) "Eligible applicant" means, with respect to the sustainable energy trust program, an owner of a residential, agricultural, commercial, state, or municipal property.

(7) "Eligible person" means a person or family eligible in accordance with standards promulgated by the commission. Such persons shall include those persons whose income is insufficient to obtain at a reasonable cost, without financial assistance, decent, safe, and sanitary housing in the area in which the person or family resides, and may include such other persons whom the commission determines to be eligible.

(8) "Energy efficiency improvement" means an installation or modification that is designed to reduce energy consumption in residential, agricultural, commercial, state, or municipal properties. The term includes, but is not limited to: insulation; storm windows and doors; automatic energy control systems; heating, ventilating, or air conditioning and distribution system modifications or replacements in buildings or central plants; caulking and weather stripping; energy recovery systems; geothermal heat pumps; and day lighting systems.

(9) "Housing" means specific new, existing, or improved residential dwellings within this state or dwellings to be constructed within this state. The term includes land, buildings, and manufactured dwellings, and improvements, furnishings, and equipment, and such other nonhousing facilities, furnishings, equipment, and costs as may be incidental or appurtenant thereto if in the judgment of the commission the facilities, furnishings, equipment and costs are an integral part of the project. Housing may consist of single-family or multifamily dwellings in one or more structures located on contiguous or noncontiguous parcels or any combination thereof. Improvements may include such equipment and materials as are appropriate to accomplish energy efficiency within a dwelling. The term also includes a dwelling constructed by a person who occupies and owns the dwelling, and nursing homes licensed under chapter 18.51 RCW.

(10) "Mortgage" means a mortgage, mortgage deed, deed of trust, security agreement, or other instrument securing a mortgage loan and constituting a lien or security interest in housing. The property may be held in fee simple or on a leasehold under a lease having a remaining term, at the time the mortgage is acquired, of not less than the term of repayment of the mortgage loan secured by the mortgage. The property may also be housing which is evidenced by an interest in a cooperative association or corporation if owner-
ship of the interest entitles the owner of the interest to occupancy of a dwelling owned by the association or corporation. 
(11) "Mortgage lender" means any of the following entities which customarily provide service or otherwise aid in the financing of housing and which are approved as a mortgage lender by the commission: A bank, trust company, savings bank, national banking association, savings and loan association, building and loan association, mortgage banker, mortgage company, credit union, life insurance company, or any other financial institution, governmental agency, municipal corporation, or any holding company for any of the entities specified in this subsection.

(12) "Mortgage loan" means an interest-bearing loan or a participation therein, made to a borrower, for the purpose of financing the costs of housing, evidenced by a promissory note, and which may or may not be secured (a) under a mortgage agreement, (b) under any other security agreement, regardless of whether the collateral is personal or real property, or (c) by insurance or a loan guarantee of a third party. However, an unsecured loan shall not be considered a mortgage loan under this definition unless the amount of the loan is under two thousand five hundred dollars.

(13) "Qualified improvement" means an energy efficiency improvement which has been approved by a certifying authority or a net metering system as defined under RCW 80.60.010. [2009 c 65 § 2; 1990 c 167 § 1; 1983 c 161 § 2.]

Intent—Finding—2009 c 65: "The legislature intends to promote the development of renewable energy technologies and the application of energy efficiency measures by authorizing the issuance of revenue bonds to finance renewable energy and energy efficiency improvement costs. The legislature finds that by providing access to low-cost capital to finance renewable energy and energy efficiency projects, a key barrier is eliminated." [2009 c 65 § 1.]

43.180.030 Bonds not debt of state. Bonds issued under this chapter shall be issued in the name of the commission. The bonds shall not be obligations of the state of Washington and shall be obligations only of the commission payable from the special fund or funds created by the commission for their payment. Such funds shall not be or constitute public moneys or funds of the state of Washington but at all times shall be kept segregated and set apart from other funds.

Bonds issued under this chapter shall contain a recital on their face to the effect that payment of the principal of, interest on, and prepayment premium, if any, on the bonds, shall be a valid claim only as against the special fund or funds relating thereto, that neither the faith and credit nor the taxing power of the state or any municipal corporation, subdivision, or agency of the state, other than the commission as set forth in this chapter, is pledged to the payment of the principal of, interest on, and prepayment premium, if any, on the bonds.

Contracts entered into by the commission shall be entered into in the name of the commission and not in the name of the state of Washington. The obligations of the commission under the contracts shall be obligations only of the commission and are not in any way obligations of the state of Washington. [1983 c 161 § 3.]

43.180.040 Commission created. (1) There is hereby established a public body corporate and politic, with perpetual corporate succession, to be known as the Washington state housing finance commission. The commission is an instrumentality of the state exercising essential government functions and, for purposes of the code, acts as a constituted authority on behalf of the state when it issues bonds pursuant to this chapter. The commission is a "public body" within the meaning of RCW 39.53.010.

(2) The commission shall consist of the following voting members:
(a) The state treasurer, ex officio;
(b) The *director of community, trade, and economic development, ex officio;
(c) An elected local government official, ex officio, with experience in local housing programs, who shall be appointed by the governor with the consent of the senate;
(d) A representative of housing consumer interests, appointed by the governor with the consent of the senate;
(e) A representative of labor interests, appointed by the governor, with the consent of the senate, after consultation with representatives of organized labor;
(f) A representative of low-income persons, appointed by the governor with the consent of the senate;
(g) Five members of the public appointed by the governor, with the consent of the senate, on the basis of geographic distribution and their expertise in housing, real estate, finance, energy efficiency, or construction, one of whom shall be appointed by the governor as chair of the commission and who shall serve on the commission and as chair of the commission at the pleasure of the governor.

The term of the persons appointed by the governor, other than the chair, shall be four years from the date of their appointment, except that the terms of three of the initial appointees shall be for two years from the date of their appointment. The governor shall designate the appointees who will serve the two-year terms. An appointee may be removed by the governor for cause pursuant to RCW 43.06.070 and 43.06.080. The governor shall fill any vacancy in an appointed position by appointment for the remainder of the unexpired term. If the *department of community, trade, and economic development is abolished, the resulting vacancy shall be filled by a state official who shall be appointed to the commission by the governor. If this official occupies an office or position for which senate confirmation is not required, then his or her appointment to the commission shall be subject to the consent of the senate. The members of the commission shall be compensated in accordance with RCW 43.03.240 and may be reimbursed, solely from the funds of the commission, for expenses incurred in the discharge of their duties under this chapter, subject to the provisions of RCW 43.03.050 and 43.03.060. A majority of the commission constitutes a quorum. Designees shall be appointed in such manner and shall exercise such powers as are specified by the rules of the commission.

(3) The commission may adopt an official seal and may select from its membership a vice chair, a secretary, and a treasurer. The commission shall establish rules concerning its exercise of the powers authorized by this chapter. The rules shall be adopted in conformance with chapter 34.05 RCW. [1995 c 399 § 98; 1985 c 6 § 14; 1984 c 287 § 90; 1983 c 161 § 4.]

Reviser's note: *(1) The "director of community, trade, and economic development" was changed to the "director of commerce" by 2009 c 565.
**(2) Powers, duties, and functions of the department of community development and the department of trade and economic development were transferred to the department of community, trade, and economic development by 1993 c 280, effective July 1, 1994. The department of community, trade, and economic development was renamed the department of commerce by 2009 c 565.

Legislative findings—Severability—Effective date—1984 c 287: See notes following RCW 43.03.220.

**43.180.050 Housing financing powers—Annual audit.** (1) In addition to other powers and duties prescribed in this chapter, and in furtherance of the purposes of this chapter to provide decent, safe, sanitary, and affordable housing for eligible persons, the commission is empowered to:

(e) Participate fully in federal and other governmental programs and to take such actions as are necessary and consistent with this chapter to secure to itself and the people of the state the benefits of those programs and to meet their requirements, including such actions as the commission considers appropriate in order to have the interest payments on its bonds and other obligations treated as tax exempt under the code.

(2) The commission shall establish eligibility standards for eligible persons, considering at least the following factors:

(a) Income;

(b) Family size;

(c) Cost, condition, and energy efficiency of available residential housing;

(d) Availability of decent, safe, and sanitary housing;

(e) Age or infirmity; and

(f) Applicable federal, state, and local requirements.

The state auditor shall audit the books, records, and affairs of the commission annually to determine, among other things, if the use of bond proceeds complies with the general plan of housing finance objectives including compliance with the objective for the use of financing assistance for implementation of cost-effective energy efficiency measures in dwellings. [2013 c 13 § 1; 1986 c 264 § 1; 1983 c 161 § 5.]

Effective date—2013 c 13: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [April 17, 2013]." [2013 c 13 § 2.]

**43.180.060 No power of eminent domain or taxation.** The commission does not have the power of eminent domain and the commission does not have the power to levy any taxes of any kind. [1983 c 161 § 6.]

**43.180.070 Housing finance plan.** The commission shall adopt a general plan of housing finance objectives to be implemented by the commission during the period of the plan. The commission may exercise the powers authorized under this chapter prior to the adoption of the initial plan. In developing the plan, the commission shall consider and set objectives for:

(1) The use of funds for single-family and multifamily housing;

(4) The use of funds in coordination with federal, state, and local housing programs for low-income persons;

(5) The use of funds in urban, rural, suburban, and special areas of the state;

(6) The use of financing assistance to stabilize and upgrade declining urban neighborhoods;

(7) The use of financing assistance for economically depressed areas, areas of minority concentration, reservations, and in mortgage-deficient areas;

(8) The geographical distribution of bond proceeds so that the benefits of the housing programs provided under this chapter will be available to address demand on a fair basis throughout the state;

(9) The use of financing assistance for implementation of cost-effective energy efficiency measures in dwellings.

The plan shall include an estimate of the amount of bonds the commission will issue during the term of the plan and how bond proceeds will be expended.

The plan shall be adopted by resolution of the commission following at least one public hearing thereon, notice of which shall be made by mailing to the clerk of the governing body of each county and by publication in the Washington State Register no more than forty and no less than twenty days prior to the hearing. A draft of the plan shall be made available not less than thirty days prior to any such public hearing. At least every two years, the commission shall report to the legislature regarding implementation of the plan.

The commission may periodically update the plan.

The commission shall adopt rules designed to result in the use of bond proceeds in a manner consistent with the plan. The commission may periodically update its rules.

This section is designed to deal only with the use of bond proceeds and nothing in this section shall be construed as a limitation on the commission’s authority to issue bonds. [1999 c 372 § 11; 1999 c 131 § 1; 1983 c 161 § 7.]

Reviser’s note: This section was amended by 1999 c 131 § 1 and by 1999 c 372 § 11, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

**43.180.080 General powers.** In addition to other powers and duties specified in this chapter, the commission may:

(1) Establish in resolutions relating to any issuance of bonds, or in any financing documents relating to such issuance, such standards and requirements applicable to the purchase of mortgages and mortgage loans or the making of loans to mortgage lenders as the commission deems necessary or desirable, including but not limited to: (a) The time within which mortgage lenders must make commitments and disbursements for mortgages or mortgage loans; (b) the location and other characteristics of single-family housing or multifamily housing to be financed by mortgages and mort-

(2) Sue and be sued in its own name;

(3) Make and execute contracts and all other instruments necessary or convenient for the exercise of its purposes or powers, including but not limited to contracts or agreements for the origination, servicing, and administration of mortgages or mortgage loans, and the borrowing of money;

(4) Procure such insurance, including but not limited to insurance: (a) Against any loss in connection with its property and other assets, including but not limited to mortgages or mortgage loans, in such amounts and from such insurers as the commission deems desirable, and (b) to indemnify members of the commission for acts done in the course of their duties;

(5) Provide for the investment of any funds, including funds held in reserve, not required for immediate disbursement, and provide for the selection of investments;

(6) Fix, revise, and collect fees and charges in connection with the investigation and financing of housing or in connection with assignments, contracts, purchases of mortgages or mortgage loans, or any other actions permitted under this chapter or by the commission; and receive grants and contributions;

Any properties acquired by the commission through such actions shall be sold as soon as practicable through persons licensed under chapter 18.85 RCW or at public auction, or by transfer to a public agency. In preparation for the disposition of the properties, the commission may own, lease, clear, construct, reconstruct, rehabilitate, repair, maintain, manage, operate, assign, or encumber the properties;

(11) Take assignments of leases and rentals;

(12) Subject to any provisions of the commission's contracts with the holders of obligations of the commission, consent to any modification with respect to rate of interest, time, and payment of any installment of principal or interest or any other term of any contract, mortgage, mortgage loan, mortgage loan commitment, contract, or agreement of any kind;

(13) Subject to provisions of the commission's contracts with the holders of bonds, permit the reduction of rental or carrying charges to persons unable to pay the regular rent or schedule of charges if, by reason of other income of the commission or by reason of payment by any department, agency, or instrumentality of the United States or of this state, the reduction can be made without jeopardizing the economic stability of the housing being financed;

(17) Impose covenants running with the land in order to satisfy and enforce the requirements of applicable state and federal law and commission policy with respect to housing or other facilities financed by the commission or assisted by federal, state, or local programs administered by the commission, by executing and recording regulatory agreements or other covenants between the commission and the person or entity to be bound. These regulatory agreements and covenants shall run with the land and be enforceable by the commission or its successors or assigns against the person or entity making the regulatory agreement or covenants or its successors or assigns, even though there may be no privity of estate or privity of contract between the commission or its successors or assigns and the person or entity against whom enforcement is sought. The term of any such covenant shall be set forth in the recorded agreement containing the covenant. This subsection shall apply to regulatory agreements and covenants previously entered into by the commission as well as regulatory agreements and covenants entered into by the commission on or after July 27, 1997;

(18) Delegate any of its powers and duties if consistent with the purposes of this chapter;

This subsection does not prohibit the payment of awards provided for in chapter 41.60 RCW. [2010 c 2 § 5; 1997 c 163 § 1; 1983 c 161 § 8.]

Findings—Effective date—2010 c 2: See notes following RCW 41.06.070. (2019 Ed.)
43.180.090 Selection of bond counsel—Written policies to be adopted. (1) The commission shall adopt written policies to provide for the selection of bond counsel. The policies shall provide for the creation and maintenance of a roster of attorneys whom the commission believes possess the requisite special expertise and professional standing to provide bond counsel opinions which would be accepted by the underwriters, bondholders, and other members of the financial community, and which would be in furtherance of the public interest in obtaining the lowest possible interest rates on the bonds issued by the commission. Any attorney may apply to have his or her name placed on the roster, but may not be placed on the roster unless the attorney demonstrates to the commission's satisfaction that the attorney would issue the kind of opinions required by this section.

(2) Prior to selecting an attorney or attorneys to provide bond counsel services, the commission shall provide all attorneys on the roster with a notice of its intentions to select bond counsel and shall invite each of them to submit to the commission his or her fee schedule for providing bond counsel services. The commission shall have wide discretion in selecting the attorney or attorneys it considers to be most appropriate to provide the services, but in the exercise of this discretion the commission shall consider all submitted fee schedules and the public interest in achieving both savings in bond counsel fees and issuance of bonds on terms most favorable to the commission. At least once every two calendar years, the commission shall select anew an attorney or attorneys to serve as bond counsel. However, the commission may retain an attorney for longer than two years when necessary to complete work on a particular bond issue. An attorney previously retained may be selected again but only after the commission has provided other attorneys on the roster with an opportunity to be selected and has made the fee schedule review required under this subsection. In addition to or as an alternative to retaining counsel for a period of time, the commission may appoint an attorney to serve as counsel in respect to only a particular bond issue. [1983 c 161 § 9.]

43.180.100 Selection of underwriters—Written policies to be adopted. (1) The commission shall adopt written policies to provide for the selection of underwriters. The policies shall provide for the creation of a roster of underwriters whom the commission believes possess the requisite special expertise and professional standing to provide bond marketing services which would be accepted by bondholders and other members of the financial community, and which would be in furtherance of the public interest in marketing the commission's bonds at the lowest possible costs. Any underwriter may apply to have its name placed on the roster, but may not be placed on the roster unless the attorney demonstrates to the commission's satisfaction that it meets the requirements of this section.

(2) Whenever the commission decides that it needs the services of an underwriter, it shall provide all underwriters on the roster with a notice of its intentions and shall invite each of them to submit to the commission an itemization of its fees and other charges for providing underwriting services on the issue. The itemization shall be by categories designed by the commission. The commission shall have wide discretion in selecting the underwriter it considers to be most appropriate to provide the services, but in the exercise of this discretion the commission shall consider the underwriter's fees and other charges and the public interest in achieving both savings in the total costs of underwriting services and issuance of bonds on terms most favorable to the commission. [1983 c 161 § 10.]

43.180.110 Review of initial policies adopted under RCW 43.180.090 and 43.180.100—Adoption—Change. The commission shall submit the initial policies adopted under RCW 43.180.090 and 43.180.100 to the chief clerk of the house and the secretary of the senate for transmittal to and review by the appropriate standing committees and the joint administrative rules review committee. By January 1, 1984 the commission shall have adopted policies in the form of rules and regulations under chapter 34.05 RCW. Such rules and regulations may only be changed or revised in accordance with chapter 34.05 RCW. [1983 c 161 § 11.]

43.180.120 Rules for fair allocation of bond proceeds for nonrental single-family housing. The legislature recognizes that the demand for mortgage loans for nonrental single-family housing will probably greatly exceed the supply of bond proceeds available to satisfy the demand. Therefore, the commission shall adopt rules providing procedures to assure that the bond proceeds available for that kind of housing shall be made available to qualified mortgagors in a fair and equitable manner. [1983 c 161 § 12.]

43.180.130 Protection of bondholders—Mortgage insurance. The commission is encouraged to adopt policies which will assure that bondholders will be protected against the failure to make mortgage payments financed under this chapter. Such policies may require, among other things, mortgage insurance. [1983 c 161 § 13.]

43.180.140 Rules for energy efficiency. The commission shall adopt rules providing for financing assistance to implement cost-effective energy efficiency improvements. [1983 c 161 § 14.]

43.180.150 Bond issues—Terms—Issuance—Purchase, etc. (1) The commission's bonds shall bear such date or dates, mature at such time or times, be in such denominations, be in such form, be registered or registrable in such manner, be made transferable, exchangeable, and interchangeable, be payable in such medium of payment, at such place or places, be subject to such terms of redemption, bear such fixed or variable rate or rates of interest, be payable at such time or times, and be sold in such manner and at such price or prices, as the commission determines. The bonds shall be executed by the chair, by either its duly elected secretary or its treasurer, and by the trustee or paying agent if the commission determines to use a trustee or paying agent for the bonds. Execution of the bonds may be by manual or facsimile signature.

*Reviser's note: Chapter 62A.9 RCW was repealed in its entirety by 2000 c 250 § 9A-901, effective July 1, 2001. For later enactment, see chapter 62A.9A RCW.

43.180.160 Debt limitation—Washington works housing program. (1) The total amount of outstanding indebtedness of the commission may not exceed eight billion dollars at any time. The calculation of outstanding indebtedness shall include the initial principal amount of an issue and shall not include interest that is either currently payable or that accrues as a part of the face amount of an issue payable at maturity or earlier redemption. Outstanding indebtedness shall not include notes or bonds as to which the obligation of the commission has been satisfied and discharged by refunding or for which payment has been provided by reserves or otherwise.

(2)(a) The Washington works housing program is created to increase opportunities for nonprofit organizations and public agencies to purchase, acquire, build, and own real property to be used for affordable housing for low and moderate-income households. The Washington works housing program is intended to provide access to new funding mechanisms and build long-term community equity by increasing the stock of permanently affordable housing owned by nonprofit organizations and public agencies.

(b) The Washington works housing program is intended to provide these opportunities for public agencies and nonprofit organizations, including those materially participating as a managing member or general partner of a partnership, limited liability company, or equivalent organization, through the issuance of tax exempt or taxable revenue bonds issued by the commission in conjunction with a subsidy necessary to make bond issues to finance affordable housing properties financially feasible. The program is intended to provide financing for affordable housing that will meet the following income and rent restrictions during the period of initial bond indebtedness and thereafter.

(c) During the period of initial bond indebtedness under the program, the owner of the property must meet one of the following requirements: A minimum of twenty percent of the units will be occupied by households earning less than fifty percent of area median income and an additional thirty-one percent of the units will be occupied by persons earning less than eighty percent of area median income; or forty percent of the units will be occupied by households earning less than sixty percent of area median income and an additional eleven percent of the units will be occupied by households earning less than eighty percent of area median income.

(d) After the initial bond indebtedness is retired, the rents charged for units in the project will be adjusted to be sufficient to pay reasonable operation and maintenance expenses, including necessary capital needs, and to make reasonable deposits into a reserve account with the intent of providing affordable housing to very low or low-income households for the remaining useful life of the property. The reasonableness of the rent levels must be periodically approved by the commission based on information provided by the owner of the property about income, expenses, and necessary reserve levels. The determination of the commission regarding the reasonableness of the rent levels will be final.

(e) The commission will enter into a recorded regulatory agreement with the borrower at the time of the issuance of bonds under the program for the purpose of ensuring that the property will meet the income and rent restrictions established in this section. The commission may charge such compliance fees as necessary to ensure enforcement of the income and rent restrictions during the useful life of the property.

(3) One billion dollars of the outstanding indebtedness of the commission is for the primary purpose of implementing the Washington works housing program.

(4) If no subsidies are available to make the program in subsection (2) of this section feasible, then the commission may pass a resolution stating these facts and authorize the use of a portion of the one billion dollars of indebtedness intended for the program to support its other bond programs until such time as the one billion dollars is exhausted or subsidies are available to make the program feasible. Funding: RCW 43.79.201 and 79.02.410.

43.185.010 Findings. The legislature finds that current economic conditions, federal housing policies and declining resources at the federal, state, and local level adversely affect the ability of low and very low-income persons to obtain safe, decent, and affordable housing.

The legislature further finds that members of over one hundred twenty thousand households live in housing units which are overcrowded, lack plumbing, are otherwise threatening to health and safety, and have rents and utility payments which exceed thirty percent of their income.

The legislature further finds that minorities, rural households, and migrant farmworkers require housing assistance at a rate which significantly exceeds their proportion of the general population.

The legislature further finds that one of the most dramatic housing needs is that of persons needing special housing-related services, such as the mentally ill, recovering alcoholics, frail elderly persons, families with members who have disabilities, and single parents. These services include medical assistance, counseling, chore services, and child care.

The legislature further finds that housing assistance programs in the past have often failed to help those in greatest need.

The legislature declares that it is in the public interest to establish a continuously renewable resource known as the housing trust fund and housing assistance program to assist low and very low-income citizens in meeting their basic housing needs, and that the needs of very low-income citizens should be given priority and that whenever feasible, assistance should be in the form of loans. [1991 c 356 § 1; 1986 c 298 § 1.]

43.185.015 Housing assistance program. There is created within the department the housing assistance program to carry out the purposes of this chapter. [1995 c 399 § 100; 1991 c 356 § 2.]

43.185.030 Washington housing trust fund. There is hereby created in the state treasury an account to be known as the Washington housing trust fund. The housing trust fund shall include revenue from the sources established by this chapter, appropriations by the legislature, private contributions, repayment of loans, and all other sources. During the 2015-2017 fiscal biennium, the legislature may transfer from the Washington housing trust fund to the home security fund account and to the state general fund such amounts as reflect the excess balance in the fund. At least thirty percent of these moneys used in any given funding cycle must be for the benefit of projects located in rural areas of the state as defined by the department. (1) During each calendar year in which funds from the housing trust fund or other legislative appropriations are available for use by the department for the housing assistance program, the department must announce to all known interested parties, and through major media throughout the state, a grant and loan application period of at least ninety days' duration. This announcement must be made as often as the director deems appropriate for proper utilization of resources. The department must then promptly grant as many applications as will utilize available funds less appropriate administrative costs of the department as provided in RCW 43.185.050.
(2) In awarding funds under this chapter, the department must:
(a) Provide for a geographic distribution on a statewide basis; and
(b) Until June 30, 2013, consider the total cost and per-unit cost of each project for which an application is submitted for funding under RCW 43.185.050(2) (a) and (j), as compared to similar housing projects constructed or renovated within the same geographic area.
(3) The department, with advice and input from the affordable housing advisory board established in RCW 43.185B.020, or a subcommittee of the affordable housing advisory board, must report recommendations for awarding funds in a cost-effective manner. As used in this subsection, privately owned housing stock includes housing that is acquired by a federal agency through a default on the mortgage by the private owner. Such projects and activities must be evaluated under subsection (5) of this section. Second priority must be given to activities and projects which utilize existing publicly owned housing stock. All projects and activities must be evaluated by some or all of the criteria under subsection (5) of this section, and similar projects and activities shall be evaluated under the same criteria.

(5) The department must give preference for applications based on some or all of the criteria under this subsection, and similar projects and activities must be evaluated under the same criteria:

(a) The degree of leveraging of other funds that will occur;
(b) The degree of commitment from programs to provide necessary habilitation and support services for projects focusing on special needs populations;
(c) Recipient contributions to total project costs, including allied contributions from other sources such as professional, craft and trade services, and lender interest rate subsidies;
(d) Local government project contributions in the form of infrastructure improvements, and others;
(e) Projects that encourage ownership, management, and other project-related responsibility opportunities;
(f) Projects that demonstrate a strong probability of serving the original target group or income level for a period of at least twenty-five years;
(g) The applicant has the demonstrated ability, stability and resources to implement the project;
(h) Projects which demonstrate serving the greatest need;
(i) Projects that provide housing for persons and families with the lowest incomes;
(j) Projects serving special needs populations which are under statutory mandate to develop community housing;
(k) Project location and access to employment centers in the region or area;
(l) Projects that provide employment and training opportunities for disadvantaged youth under a youthbuild or youthbuild-type program as defined in RCW 50.72.020;
(m) Project location and access to available public transportation services; and
(n) Projects involving collaborative partnerships between local school districts and either public housing authorities or nonprofit housing providers, that help children of low-income families succeed in school. To receive this preference, the local school district must provide an opportunity for community members to offer input on the proposed project at the first scheduled school board meeting following submission of the grant application to the department.

(6) The department may only approve applications for projects for persons with mental illness that are consistent with a behavioral health organization six-year capital and operating plan. 43.185.120  Protection of state's interest. The department shall adopt policies to ensure that the state's interest will be protected upon either the sale or change of use of projects financed in whole or in part under RCW 43.185.050(2) (a), (i), and (j). These policies may include, but are not limited to: (1) Requiring a share of the appreciation in the project in proportion to the state's contribution to the project; (2) requiring a lump-sum repayment of the loan or grant upon the sale or change of use of the project; or (3) requiring a deferred payment of principal or principal and interest on loans after a specified time period. [1991 c 356 § 7.]

43.185.130  Application process—Distribution procedure. The application process and distribution procedure for the allocation of funds are the same as the competitive application process and distribution procedure for the housing trust fund, described in this chapter and chapter 43.185A RCW, except for the funds applied to the *homeless families services fund created in RCW 43.330.167, dollars appropriated to weatherization administered through the energy matchmaker program, dollars appropriated for housing vouchers for homeless persons, victims of domestic violence, and low-income persons or seasonal farmworkers, and dollars appropriated to any program to provide financial assistance for grower-provided on-farm housing for low-income migrant or seasonal farmworkers. [2006 c 349 § 3.]

*Reviser's note: The "homeless families services fund" was renamed the "Washington youth and families fund" by 2015 c 69 § 24.

Finding—2006 c 349: "The legislature finds that Washington is experiencing an affordable housing crisis and that this crisis is growing exponentially every year as the population of the state expands and housing values increase at a rate that far exceeds most households' proportionate increase in income.

The fiscal and societal costs of the lack of adequate affordable housing are high for both the public and private sectors. Current levels of funding for affordable housing programs are inadequate to meet the housing needs of many low-income Washington households." [2006 c 349 § 1.]

43.185.140  Findings—Review of all housing properties—Energy audits. (1) The legislature finds that growing preservation and rehabilitation needs in the housing trust fund property portfolio provide opportunities to advance energy efficiency and weatherization efforts for low-income individuals in Washington state while protecting the state's six hundred million dollars in affordable housing investments. Preservation of existing affordable housing, when done in conjunction with weatherization activities, is a cost-effective, prudent, and environmentally friendly strategy to ensure that low-income housing remains durable, safe, and affordable. Therefore, the legislature intends that where federal funds are available for increasing and improving energy efficiency of low-income housing that these funds must be utilized, subject to federal requirements, for energy audits and implementing energy efficiency measures in the state housing trust fund real estate portfolio.

(2) The department shall review all housing properties in the housing trust fund real estate portfolio and identify those in need of major renovation or rehabilitation. In its review, the department shall survey property owners for information including, but not limited to, the age of the building and the type of heating, cooling, plumbing, and electrical systems contained in the property. The department shall prioritize all
2003.  Under this act shall meet federal requirements which are a prescribed condition to the receipt of federal funds by the state.  [1991 c 356 § 8.]

Finding—Intent—Effective date—2009 c 379:  See notes following RCW 70.260.010.

43.185A.910 Conflict with federal requirements—1991 c 356.  If any part of this act is found to be in conflict with federal requirements which are a prescribed condition to the allocation of federal funds to the state, the conflicting part of this act is inoperative solely to the extent of the conflict and with respect to the agencies directly affected, and this finding does not affect the operation of the remainder of this act in its application to the agencies concerned.  The rules under this act shall meet federal requirements which are a necessary condition to the receipt of federal funds by the state.  [1991 c 356 § 8.]

These policies may include, but are not limited to: (1) Requiring a share of the appreciation in the project in proportion to the state's contribution to the project; (2) requiring a lump-sum repayment of the loan or grant upon the sale or change of use of the project; or (3) requiring a deferred payment of principal or principal and interest on loans after a specified time period. *Reviser's note: The "department of community, trade, and economic development" was renamed the "department of commerce" by 2009 c 565.

Finding—2006 c 349: See note following RCW 43.185.130.

43.185A.110 Affordable housing land acquisition revolving loan fund program. (1) The affordable housing land acquisition revolving loan fund program is created in the department to assist eligible organizations, described under RCW 43.185A.040, to purchase land for affordable housing development. The department shall contract with the Washington state housing finance commission to administer the affordable housing land acquisition revolving loan fund program. Within this program, the Washington state housing
finance commission shall establish and administer the Washington state housing finance commission land acquisition revolving loan fund.

(2) As used in this chapter, "market rate" means the current average market interest rate that is determined at the time any individual loan is closed upon using a widely recognized current market interest rate measurement to be selected for use by the Washington state housing finance commission with the department's approval. This interest rate must be noted in an attachment to the closing documents for each loan.

(3) Under the affordable housing land acquisition revolving loan fund program:

(a) Loans may be made to purchase vacant or improved land on which to develop affordable housing. In addition to affordable housing, facilities intended to provide supportive services to affordable housing residents and low-income households in the nearby community may be developed on the land.

(b) Eligible organizations applying for a loan must include in the loan application a proposed affordable housing development plan indicating the number of affordable housing units planned, a description of any other facilities being considered for the property, and an estimated timeline for completion of the development. The Washington state housing finance commission may require additional information from loan applicants and may consider the efficient use of land, project readiness, organizational capacity, and other factors as criteria in awarding loans.

(c) Forty percent of the loans shall go to eligible applicants operating homeownership programs for low-income households in which the households participate in the construction of their homes. Sixty percent of loans shall go to other eligible organizations. If the entire forty percent for applicants operating self-help homeownership programs cannot be lent to these types of applicants, the remainder shall be lent to other eligible organizations.

(d) Within five years of receiving a loan, a loan recipient must present the Washington state housing finance commission with an updated development plan, including a proposed development design, committed and anticipated additional financial resources to be dedicated to the development, and an estimated development schedule, which indicates completion of the development within eight years of loan receipt. This updated development plan must be substantially consistent with the development plan submitted as part of the original loan application as required in (b) of this subsection.

(e) Within eight years of receiving a loan, a loan recipient must develop affordable housing on the property for which the loan was made and place the affordable housing into service.

(f) A loan recipient must preserve the affordable rental housing developed on the property acquired under this section as affordable housing for a minimum of thirty years.

(4) If a loan recipient does not place affordable housing into service on a property for which a loan has been received under this section within the eight-year period specified in subsection (3)(e) of this section, or if a loan recipient fails to use the property for the intended affordable housing purpose consistent with the loan recipient's original affordable housing development plan, then the loan recipient must pay to the Washington state housing finance commission an amount consisting of the principal of the original loan plus compounded interest calculated at the current market rate. The Washington state housing finance commission shall develop guidelines for the time period in which this repayment must take place, which must be noted in the original loan agreement. The Washington state housing finance commission may grant a partial or total exemption from this repayment requirement if it determines that a development is substantially complete or that the property has been substantially used in keeping with the original affordable housing purpose of the loan. Any repayment funds received as a result of non-compliance with loan requirements shall be deposited into the Washington state housing finance commission land acquisition revolving loan fund for the purposes of the affordable housing land acquisition revolving loan fund program.

(5) The Washington state housing finance commission, with approval from the department, may adopt guidelines and requirements that are necessary to administer the affordable housing land acquisition revolving loan fund program.

(6) Interest rates on property loans granted under this section may not exceed one percent. All loan repayment moneys received shall be deposited into the Washington state housing finance commission affordable housing land acquisition revolving loan fund for the purposes of the affordable housing land acquisition revolving loan fund program.

(7) The Washington state housing finance commission must develop performance measures for the program, which must be approved by the department, including, at a minimum, measures related to:

(a) The ability of eligible organizations to access land for affordable housing development;

(b) The total number of dwelling units by housing type and the total number of low-income households and persons served; and

(c) The financial efficiency of the program as demonstrated by factors, including the cost per unit developed for affordable housing units in different areas of the state and a measure of the effective use of funds to produce the greatest number of units for low-income households.

(8) By December 1st of each year, beginning in 2007, the Washington state housing finance commission shall report to the department and the appropriate committees of the legislature, at a minimum, the performance measures developed under subsection (7) of this section. [2017 c 274 § 1; 2008 c 112 § 1; 2007 c 428 § 2.]

Findings—2007 c 428: "The legislature finds that protecting the public health, safety, and welfare by providing affordable housing resources to needy or vulnerable persons is a fundamental purpose of government. The legislature further finds that assisting eligible organizations to purchase land for affordable housing development and related supportive services facilities confers a valuable benefit on the public that constitutes consideration for financing assistance to eligible organizations in the form of low-interest loans, subject to restrictions that provide continued protection of the public interest." 43.185C.005  Definitions. Despite laudable efforts by all levels of government, private individuals, nonprofit organizations, and charitable foundations to end homelessness, the number of homeless persons in Washington is unacceptably high. The state's homeless population, furthermore, includes a large number of families with children, youth, and employed persons. The legislature finds that the fiscal and societal costs of homelessness are high for both the public and private sectors, and that ending homelessness should be a goal for state and local government.

The legislature finds that there are many causes of homelessness, including a shortage of affordable housing; a shortage of family-wage jobs which undermines housing affordability; a lack of an accessible and affordable health care system available to all who suffer from physical and mental illnesses and chemical and alcohol dependency; domestic violence; and a lack of education and job skills necessary to acquire adequate wage jobs in the economy of the twenty-first century.

The support and commitment of all sectors of the state-wide community is critical to the chances of success in ending homelessness in Washington. While the provision of housing and housing-related services to the homeless should be administered at the local level to best address specific community needs, the legislature also recognizes the need for the state to play a primary coordinating, supporting, and monitoring role. There must be a clear assignment of responsibilities and a clear statement of achievable and quantifiable goals. Systematic statewide data collection on homelessness in Washington must be a critical component of such a program enabling the state to work with local governments to count homeless persons and assist them in finding housing.

The systematic collection and rigorous evaluation of homeless data, a search for and implementation through adequate resource allocation of best practices, and the systematic measurement of progress toward interim goals and the ultimate goal of ending homelessness are all necessary components of a statewide effort to end homelessness in Washington by July 1, 2015. [2005 c 484 § 1]

Homeless housing strategic plan—Program outcomes and performance measures and goals—Coordination—Statewide data gathering plan—Reports.

(1) The department, in consultation with the interagency council on homelessness, the affordable housing advisory board, and the state advisory council on homelessness, must coordinate the development and publication of a five-year state homeless housing strategic plan which must outline statewide goals and performance measures. The state homeless housing strategic plan must be submitted to the legislature by July 1, 2019, and every five years thereafter. The plan must include:

(a) Performance measures and goals to reduce homelessness, including long-term and short-term goals;

(b) An analysis of the services and programs being offered at the state and county level and an identification of those representing best practices and outcomes;

(c) Recognition of services and programs targeted to certain homeless populations or geographic areas in recognition of the diverse needs across the state;

(d) New or innovative funding, program, or service strategies to pursue;

(e) An analysis of either current drivers of homelessness or improvements to housing security, or both, such as increases and reductions to employment opportunities, housing scarcity and affordability, health and behavioral health services, chemical dependency treatment, and incarceration rates; and

(f) An implementation strategy outlining the roles and responsibilities at the state and local level and timelines to achieve a reduction in homelessness at the statewide level during periods of the five-year homeless housing strategic plan.

(2) The department must coordinate its efforts on the state homeless housing strategic plan with the office of homeless youth prevention and protection programs advisory committee under RCW 43.330.705. The state homeless housing strategic plan must not conflict with the strategies, planning, data collection, and performance and outcome measures developed under RCW 43.330.705 and 43.330.706 to reduce the state’s homeless youth population.

(3) To guide local governments in preparation of local homeless housing plans due December 1, 2019, the department shall issue by December 1, 2018, guidelines consistent with this chapter and including the best available data on each state and local governments’ performance will be measured.

(4) The department shall develop a consistent statewide data gathering instrument to monitor the performance of cities and counties receiving grants in order to determine compliance with the terms and conditions set forth in the grant application or required by the department.

The department shall, in consultation with the interagency council on homelessness and the affordable housing advisory board, report biennially to the governor and the appropriate committees of the legislature an assessment of

43.185C.030 Washington homeless census or count—Confidentiality—Online information and referral system—Organizational quality management system.

(1) The department shall annually conduct a Washington homeless census or count consistent with the requirements of RCW 43.185C.180. The census shall make every effort to count all homeless individuals living outdoors, in shelters, and in transitional housing, coordinated, when reasonably feasible, with already existing homeless census projects including those funded in part by the United States department of housing and urban development under the McKinney-Vento homeless assistance program. The department shall determine, in consultation with local governments, the data to be collected. Data on subpopulations and other characteristics of the homeless must, at a minimum, be consistent with the United States department of housing and urban development's point-in-time requirements.

(2) All personal information collected in the census is confidential, and the department and each local government shall take all necessary steps to protect the identity and confidentiality of each person counted.

(3) The department and each local government are prohibited from disclosing any personally identifying information about any homeless individual when there is reason to believe or evidence indicating that the homeless individual is an adult or minor victim of domestic violence, dating violence, sexual assault, or stalking or is the parent or guardian of a child victim of domestic violence, dating violence, sexual assault, or stalking; or revealing other confidential information regarding HIV/AIDS status, as found in RCW 70.02.220. The department and each local government shall not ask any homeless housing provider to disclose personally identifying information about any homeless individuals when the providers implementing those programs have reason to believe or evidence indicating that those clients are adult or minor victims of domestic violence, dating violence, sexual assault, or stalking or are the parents or guardians of child victims of domestic violence, dating violence, sexual assault, or stalking. Summary data for the provider’s facility or program may be substituted.

(4) The Washington homeless census shall be conducted annually on a schedule created by the department. The department shall make summary data by county available to the public each year. This data, and its analysis, shall be included in the department’s annual updated homeless housing program strategic plan.

(5) Based on the annual census and provider information from the local government plans, the department shall, by the end of year four, implement an online information and referral system to enable local governments and providers to identify available housing for a homeless person. The department shall work with local governments and their providers to develop a capacity for continuous case management to assist homeless persons.

(6) By the end of year four, the department shall implement an organizational quality management system. [2018 c 85 § 3; 2013 c 200 § 25; 2005 c 484 § 6.]

(2019 Ed.)
the state's performance in furthering the goals of the state five-year homeless housing strategic plan and the performance of each participating local government in creating and executing a local homeless housing plan which meets the requirements of this chapter. To increase the effectiveness of the report, the department must develop a process to ensure consistent presentation, analysis, and explanation in the report, including year-to-year comparisons, highlights of program successes and challenges, and information that supports recommended strategy or operational changes. The report may include performance measures such as:

(a) The reduction in the number of homeless individuals and families from the initial count of homeless persons;
(b) The reduction in the number of unaccompanied homeless youth. "Unaccompanied homeless youth" has the same meaning as in RCW 43.330.702;
(c) The number of new units available and affordable for homeless families by housing type;
(d) The number of homeless individuals identified who are not offered suitable housing within thirty days of their request or identification as homeless;
(e) The number of households at risk of losing housing who maintain it due to a preventive intervention;
(f) The transition time from homelessness to permanent housing;
(g) The cost per person housed at each level of the housing continuum;
(h) The ability to successfully collect data and report performance;
(i) The extent of collaboration and coordination among public bodies, as well as community stakeholders, and the level of community support and participation;
(j) The quality and safety of housing provided; and
(k) The effectiveness of outreach to homeless persons, and their satisfaction with the program. [2018 c 85 § 4; 2017 3rd sp.s. c 15 § 2; 2015 c 69 § 25; 2009 c 518 § 17; 2005 c 484 § 7.]

Intent—Short title—2018 c 85: See notes following RCW 43.185C.045.

Findings—2017 3rd sp.s. c 15: "The legislature finds that a surcharge on documents recorded for the sale or transfer of real property have generated approximately one hundred forty million dollars for homeless programs in Washington. The legislature further finds that according to a third-party audit of the use of surcharge funds, additional performance measures are needed to effectively measure the success of the state's homeless programs. Therefore, the legislature finds that developing and adopting recommendations to improve performance measures contained in the December 5, 2016, report required under *RCW 43.185C.240(1)(c) will help ensure accountability and transparency of public funds and their effectiveness in reducing homelessness in Washington." [2017 3rd sp.s. c 15 § 1.]

43.185C.045 Homeless housing strategic plan—Annual report of department and local governments. (1) By December 1st of each year, the department must provide an update on the state's homeless housing strategic plan and its activities for the prior fiscal year. The report must include, but not be limited to, the following information:

(a) An assessment of the current condition of homelessness in Washington state and the state's performance in meeting the goals in the state homeless housing strategic plan;
(b) A report on the results of the annual homeless point-in-time census conducted statewide under RCW 43.185C.030;
(c) The amount of federal, state, local, and private funds spent on homelessness assistance, categorized by funding source and the following major assistance types:
(i) Emergency shelter;
(ii) Homelessness prevention and rapid rehousing;
(iii) Permanent housing;
(iv) Permanent supportive housing;
(v) Transitional housing;
(vi) Services only; and
(vii) Any other activity in which more than five hundred thousand dollars of category funds were expended;
(d) A report on the expenditures, performance, and outcomes of state funds distributed through the consolidated homeless grant program, including the grant recipient, award amount expended, use of the funds, counties served, and households served;
(e) A report on state and local homelessness document recording fee expenditure by county, including the total amount of fee spending, percentage of total spending from fees, number of people served by major assistance type, and amount of expenditures for private rental housing payments required in RCW 36.22.179;
(f) A report on the expenditures, performance, and outcomes of the essential needs and housing support program meeting the requirements of RCW 43.185C.220; and
(g) A report on the expenditures, performance, and outcomes of the independent youth housing program meeting the requirements of RCW 43.63A.311.
(2) The report required in subsection (1) of this section must be posted to the department's web site and may include links to updated or revised information contained in the report.
(3) Any local government receiving state funds for homelessness assistance or state or local homelessness document recording fees under RCW 36.22.178, 36.22.179, or 36.22.1791 must provide an annual report on the current condition of homelessness in its jurisdiction, its performance in meeting the goals in its local homeless housing plan, and any significant changes made to the plan. The annual report must be posted on the department's web site. Along with each local government annual report, the department must produce and post information on the local government's homelessness spending from all sources by project during the prior state fiscal year in a format similar to the department's report under subsection (1)(c) of this section. If a local government fails to report or provides an inadequate or incomplete report, the department must take corrective action, which may include withholding state funding for homelessness assistance to the local government to enable the department to use such funds to contract with other public or nonprofit entities to provide homelessness assistance within the jurisdiction. [2018 c 85 § 9.]

Intent—2018 c 85: "The legislature recognizes that all of the people of the state should have the opportunity to live in a safe, healthy, and affordable home. The legislature further recognizes that homelessness in Washington is unacceptable and that action needs to be taken to protect vulnerable households including families with children, youth and young adults, veterans, seniors, and people at high risk of homelessness, including survivors of
domestic violence and people living with mental illness and other disabili-
ties.

The legislature recognizes that homelessness has immediate and often
times long-term consequences on the educational achievement of public
school children and disproportionately impacts students of color. Addition-
ally, the legislature recognizes that the health and safety of people experienc-
ing homelessness is immediately and oftentimes significantly compromised,
and that homelessness exacerbates physical and behavioral health disabili-
ties. The legislature further recognizes that homelessness is disproportion-
ately experienced by people of color and LGBTQ youth and young adults.
The legislature recognizes that homelessness is also disproportionately expe-
rienced by people living with mental illness and that homelessness is an
impediment to treatment. The legislature further recognizes that homeles-
ness is disproportionately experienced by Native Americans.

In 2005, the Washington state legislature passed the homeless housing
and assistance act that outlined several bold policies to address homeless-
ness. That act also required a strategic plan by the department of commerce,
which was first submitted in 2006 and subsequently updated. Since the first
statewide plan, the state has succeeded in housing over five hundred fifty-six
thousand people experiencing homelessness. These were previously
living in places not meant for human habitation, living in emergency shel-
ters, or at imminent risk of becoming homeless. Although the overall preva-
ience of homelessness is down more than seventeen percent, the recent
increase in homelessness, due in large part to surging housing costs, remains
a crisis and more must be done.

Therefore, the legislature intends to improve resources available to aid
with increasing access and removing barriers to housing for individuals and
families in Washington." [2018 c 85 § 1.]

Short title—2018 c 85: "This act may be known and cited as the Wash-
ington housing opportunities act." [2018 c 85 § 11.]

43.185C.050 Local homeless housing plans. (1) Each
local homeless housing task force shall prepare and recom-
mend to its local government legislative authority a five-year
homeless housing plan for its jurisdictional area, which shall
be not inconsistent with the department's statewide guide-
lines issued by December 1, 2018, and thereafter the depart-
ment's five-year homeless housing strategic plan, and which
shall be aimed at eliminating homelessness. The local gov-
ernment may amend the proposed local plan and shall adop-
t a plan by December 1, 2019. Performance in meeting the
goals of this local plan shall be assessed annually in terms of
the performance measures published by the department.
Local Plans may include specific local performance measures
adopted by the local government legislative authority, and
may include recommendations for any state legislation
needed to meet the state or local plan goals.

(2) Eligible activities under the local plans include:

(a) Rental and furnishing of dwelling units for the use of
homeless persons;

(b) Costs of developing affordable housing for homeless
persons, and services for formerly homeless individuals and
families residing in transitional housing or permanent hous-
ing and still at risk of homelessness;

(c) Operating subsidies for transitional housing or per-

tion of the surcharge established in RCW 36.22.179 and
36.22.1791 must be deposited in the account. Expenditures
from the account may be used only for homeless housing pro-
grams as described in this chapter.

(2) The department must distinguish allotments from the
account made to carry out the activities in RCW 43.330.167,
43.330.700 through 43.330.715, 43.330.911, 43.185C.010,
43.185C.250 through 43.185C.320, and 36.22.179(l)(b).

(3) The office of financial management must secure an
independent expenditure review of state funds received under
RCW 36.22.179(1)(b) on a biennial basis. The purpose of the
review is to assess the consistency in achieving policy priori-
ties within the private market rental housing segment for
housing persons experiencing homelessness. The indepen-
dent reviewer must notify the department and the office of
financial management of its findings. The first biennial
expenditure review, for the 2017-2019 fiscal biennium, is due

set aside under RCW 36.22.179(l)(b). [2015 e 69 § 27.]

43.185C.070 Grant applications. (1) During each cal-
endar year in which moneys from the *homeless housing
account are available for use by the department for the home-
less housing grant program, the department shall announce
to all Washington counties, participating cities, and through
major media throughout the state, a grant application period
of at least ninety days' duration. This announcement will be
made as often as the director deems appropriate for proper
utilization of resources. The department shall then promptly
grant as many applications as will utilize available funds, less
appropriate administrative costs of the department as
described in RCW 36.22.179.

(2019 Ed.)
(2) The department will develop, with advice and input from the affordable housing advisory board established in RCW 43.185B.020, criteria to evaluate grant applications.

(3) The department may approve applications only if they are consistent with the local and state homeless housing program strategic plans. The department may give preference to applications based on some or all of the following criteria:

(a) The total homeless population in the applicant local government service area, as reported by the most recent annual Washington homeless census;

(b) Current local expenditures to provide housing for the homeless to address the underlying causes of homelessness as described in RCW 43.185C.005;

(c) Local government and private contributions pledged to the program in the form of matching funds, property, infrastructure improvements, and other contributions; and the degree of leveraging of other funds from local government or private sources for the program for which funds are being requested, to include recipient contributions to total project costs, including allied contributions from other sources such as professional, craft and trade services, and lender interest rate subsidies;

*Reviser's note: The "homeless housing account" was changed to the "home security fund account" by 2007 c 427 § 6.

43.185C.080 Homeless housing grants—Participation. (1) Only a local government is eligible to receive a homeless housing grant from the *homeless housing account. Any city may assert responsibility for homeless housing within its borders if it so chooses, by forwarding a resolution to the legislative authority of the county stating its intention and its commitment to operate a separate homeless housing program. The city shall then receive a percentage of the surcharge assessed under RCW 36.22.179 equal to the percentage of the city's local portion of the real estate excise tax collected by the county. A participating city may also then apply separately for homeless housing program grants. A city choosing to operate a separate homeless housing program shall be responsible for complying with all of the same requirements as counties and shall adopt a local homeless housing plan meeting the requirements of this chapter for county local plans. However, the city may by resolution of its legislative authority accept the county's homeless housing task force as its own and based on that task force's recommendations adopt a homeless housing plan specific to the city.

(2) Local governments applying for homeless housing funds may subcontract with any other local government, housing authority, community action agency or other nonprofit organization for the execution of programs contributing to the overall goal of ending homelessness within a defined service area. All subcontracts shall be consistent with the local homeless housing plan adopted by the legislative authority of the local government, time limited, and filed with the department and shall have specific performance terms. While a local government has the authority to subcontract with other entities, the local government continues to maintain the ultimate responsibility for the homeless housing program within its borders.

(3) A county may decline to participate in the program authorized in this chapter by forwarding to the department a resolution adopted by the county legislative authority stating the intention not to participate. A copy of the resolution shall also be transmitted to the county auditor and treasurer. If such a resolution is adopted, all of the funds otherwise due to the county under RCW 43.185C.060 shall be remitted monthly to the state treasurer for deposit in the *homeless housing account, without any reduction by the county for collecting or administering the funds. Upon receipt of the resolution, the department shall promptly begin to identify and contract with one or more entities eligible under this section to create and execute a local homeless housing plan for the county meeting the requirements of this chapter. The department shall expend all of the funds received from the county under this subsection to carry out the purposes of chapter 484, Laws of 2005 in the county, provided that the department may retain six percent of these funds to offset the cost of managing the county's program.

(4) A resolution by the county declining to participate in the program shall have no effect on the ability of each city in the county to assert its right to manage its own program under this chapter, and the county shall monthly transmit to the city the funds due under this chapter.  

[2005 c 484 § 12.]

*Reviser's note: The "homeless housing account" was changed to the "home security fund account" by 2007 c 427 § 6.

The department may issue criteria or guidelines to guide local governments in the application process.  

[2005 c 484 § 13.]

(2019 Ed.)

2. Assisting local governments to identify appropriate service providers with which the local governments may subcontract for service provision and development activities, when necessary;
3. Assisting local governments to implement or expand homeless census programs to meet homeless housing program requirements;
4. Assisting in the identification of "best practices" from other areas;
5. Assisting in identifying additional funding sources for specific projects; and
6. Training local government and subcontractor staff. [2005 c 484 § 14.]

43.185C.110 Progress reports—Uniform process. The department shall establish a uniform process for participating local governments to report progress toward reducing homelessness and meeting locally established goals. [2005 c 484 § 15.]

43.185C.120 Rules. The department may adopt such rules as may be necessary to effect the purposes of this chapter. [2005 c 484 § 16.]

43.185C.130 Protection of state's interest in grant program projects. These policies may include, but are not limited to: (1) Requiring a share of the appreciation in the project in proportion to the state's contribution to the project, or (2) requiring a lump sum repayment of the grant upon the sale or change of use of the project. [2005 c 484 § 17.]

43.185C.140 Public assistance eligibility—Payments exempt. The department of social and health services shall exempt payments to individuals provided under this chapter when determining eligibility for public assistance. [2005 c 484 § 20.]

43.185C.150 Expenditures within authorized funds—Existing expenditures not reduced or supplanted. This chapter does not require either the department or any local government to expend any funds to accomplish the goals of this chapter other than the revenues authorized in chapter 484, Laws of 2005. However, neither the department nor any local government may use any funds authorized in chapter 484, Laws of 2005 to supplant or reduce any existing expenditures of public money for the reduction or prevention of homelessness or services for homeless persons. [2005 c 484 § 21.]

43.185C.215 Transitional housing operating and rent account. The transitional housing operating and rent account is created in the custody of the state treasurer. All receipts from sources directed to the transitional housing operating and rent program must be deposited into the account. Expenditures from the account may be used solely for the purpose of the transitional housing operating and rent program as described in RCW 43.185C.210. Only the director of the department or the director's designee may authorize expenditures from the account. The account is subject to allotment and biennial operating budget for the 2011-2013 biennium, a continuation of the transitional housing operating and rent program established under this section in a manner consistent with the requirements of this section and the biennial operating budget. The first distribution of funds must be completed by September 1, 2011. Essential needs or housing support is only for persons found eligible for such services under RCW 74.04.805 and is not considered an entitlement.

43.185C.220 Essential needs and housing support program—Distribution of funds. (1) The department shall distribute funds for the essential needs and housing support program established under this section in a manner consistent with the requirements of this section and the biennial operating budget. The first distribution of funds must be completed by September 1, 2011. Essential needs or housing support is only for persons found eligible for such services under RCW 74.04.805 and is not considered an entitlement.

(2) The department shall distribute funds appropriated for the essential needs and housing support program in the form of grants to designated essential needs support and housing support entities within each county. The department shall not distribute any funds until it approves the expenditure plan submitted by the designated essential needs support and housing support entities. The amount of funds to be distributed pursuant to this section shall be designated in the biennial operating budget. For the sole purpose of meeting the initial distribution of funds date, the department may distribute partial funds upon the department's approval of a preliminary expenditure plan. The department shall not distribute the remaining funds until it has approved a final expenditure plan.

(3)(a) During the 2011-2013 biennium, in awarding housing support that is not funded through the contingency fund in this subsection, the designated housing support entity shall provide housing support to clients who are homeless persons as defined in RCW 43.185C.010. As provided in the biennial operating budget for the 2011-2013 biennium, a contingency fund shall be used solely for those clients who are at substantial risk of losing stable housing or at substantial risk of losing one of the other services defined in RCW 74.62.010(6). For purposes of this chapter, "substantial risk" means the client has provided documentation that he or she will lose his or her housing within the next thirty days or that the services will be discontinued within the next thirty days.

(b) After July 1, 2013, the designated housing support entity shall give first priority to clients who are homeless persons as defined in RCW 43.185C.010 and second priority to clients who would be at substantial risk of losing stable housing without housing support.

(4) For each county, the department shall designate an essential needs support entity and a housing support entity that will begin providing these supports to medical care services program recipients on November 1, 2011. Essential needs and housing support entities are not required to provide assistance to every person referred to the local entity or who meets the priority standards in subsection (3) of this section.
(a) Each designated entity must be a local government or community-based organization, and may administer the funding for essential needs support, housing support, or both. Designated entities have the authority to subcontract with qualified entities. Upon request, and the approval of the department, two or more counties may combine resources to more effectively deliver services.

(b) The department's designation process must include a review of proficiency in managing housing or human services programs when designating housing support entities.

(c) Within a county, if the department directly awards separate grants to the designated housing support entity and the designated essential needs support entity, the department shall determine the amount allocated for essential needs support as directed in the biennial operating budget.

(5)(a) Essential needs and housing support entities must use funds distributed under this section as flexibly as is practicable to provide essential needs items and housing support to recipients of the essential needs and housing support program, subject to the requirements of this section.

(b) Benefits provided under the essential needs and housing support program shall not be provided to recipients in the form of cash assistance.

(c) The department may move funds between entities or between counties to reflect actual caseload changes. In doing so, the department must: (i) Develop a process for reviewing the caseload of designated essential needs and housing support entities, and for redistributing grant funds from those entities experiencing reduced actual caseloads to those with increased actual caseloads; and (ii) inform all designated entities of the redistribution process. Savings resulting from program caseload attrition from the essential needs and housing support program shall not result in increased per-client expenditures.

(d) Essential needs and housing support entities must partner with other public and private organizations to maximize the beneficial impact of funds distributed under this section, and should attempt to leverage other sources of public and private funds to serve essential needs and housing support recipients. Funds appropriated in the operating budget for essential needs and housing support must be used only to serve persons eligible to receive services under that program.

(6) The department shall use no more than five percent of the funds for administration of the essential needs and housing support program. Each essential needs and housing support entity shall use no more than seven percent of the funds for administrative expenses.

(7) The department shall:

(a) Require housing support entities to enter data into the homeless client management information system;

(b) Require essential needs support entities to report on services provided under this section;

(c) In collaboration with the department of social and health services, submit a report annually to the relevant policy and fiscal committees of the legislature. A preliminary report shall be submitted by December 31, 2011, and must include (c)(i), (iii), and (v) of this subsection. Annual reports must be submitted beginning December 1, 2012, and must include:

(i) A description of the actions the department has taken to achieve the objectives of chapter 36, Laws of 2011 1st sp. sess.;

(ii) The amount of funds used by the department to administer the program;

(iii) Information on the housing status of essential needs and housing support recipients served by housing support entities, and individuals who have requested housing support but did not receive housing support;

(iv) Grantee expenditure data related to administration and services provided under this section; and

(v) Efforts made to partner with other entities and leverage sources of public and private funds;

(d) Review the data submitted by the designated entities, and make recommendations for program improvements and administrative efficiencies. The department has the authority to designate alternative entities as necessary due to performance or other significant issues. Such change must only be made after consultation with the department of social and health services and the impacted entity.

(8) The department, counties, and essential needs and housing support entities are not civilly or criminally liable and may not have any penalty or cause of action of any nature arise against them related to decisions regarding: (a) The provision or lack of provision of housing or essential needs support; or (b) the type of housing arrangement supported with funds allocated under this section, when the decision was made in good faith and in the performance of the powers and duties under this section. However, this section does not prohibit legal actions against the department, county, or essential needs or housing support entity to enforce contractual duties or obligations. (b) If the administrator has reasonable cause to believe that a child is a child in need of services and the parent is unavailable or unwilling to continue efforts to maintain the family structure, the administrator shall immediately convene a multidisciplinary team.

(c) A parent may disband a team twenty-four hours, excluding weekends and holidays, after receiving notice of formation of the team under (b) of this subsection unless a petition has been filed under RCW 13.32A.140. If a petition has been filed the parent may not disband the team until the hearing is held under RCW 13.32A.179. The court may allow the team to continue if an out-of-home placement is ordered under RCW 13.32A.179(3). Upon the filing of an at-risk youth or dependency petition the team shall cease to exist, unless the parent requests continuation of the team or unless the out-of-home placement was ordered under RCW 13.32A.179(3).

(2) The department shall request participation of appropriate state agencies to assist in the coordination and delivery of services through the multidisciplinary teams. Those agencies that agree to participate shall provide the director or the director's designee all information necessary to facilitate forming a multidisciplinary team and the director or the director's designee shall provide this information to the administrator of each crisis residential center.

(3) The administrator shall also seek participation from representatives of mental health and drug and alcohol treatment providers as appropriate.

(4) A parent shall be advised of the request to form a multidisciplinary team and may select additional members of the multidisciplinary team. The parent or child may request any person or persons to participate including, but not limited to, educators, law enforcement personnel, court personnel, family therapists, licensed health care practitioners, social service providers, youth residential placement providers, other family members, church representatives, and members of their own community. The administrator shall assist in obtaining the prompt participation of persons requested by the parent or child.

43.185C.260 Youth services—Officer taking child into custody—Authorization—Duration of custody—Transporting to crisis residential center—Report on suspected abuse or neglect. (1) A law enforcement officer shall take a child into custody:

(a) If a law enforcement agency has been contacted by the parent of the child that the child is absent from parental custody without consent; or

(b) If a law enforcement officer reasonably believes, considering the child's age, the location, and the time of day, that a child is in circumstances which constitute a danger to the child's safety or that a child is violating a local curfew ordinance; or

(c) If an agency legally charged with the supervision of a child has notified a law enforcement agency that the child has run away from placement.

(2) Law enforcement custody shall not extend beyond the amount of time reasonably necessary to transport the child to a destination authorized by law and to place the child at that destination. Law enforcement custody continues until the law enforcement officer transfers custody to a person, agency, or other authorized entity under this chapter, or releases the child because no placement is available. Transfer
of custody is not complete unless the person, agency, or entity to whom the child is released agrees to accept custody.

(3) If a law enforcement officer takes a child into custody pursuant to either subsection (1)(a) or (b) of this section and transports the child to a crisis residential center, the officer shall, within twenty-four hours of delivering the child to the center, provide to the center a written report detailing the reasons the officer took the child into custody. The center shall provide the department of children, youth, and families with a copy of the officer's report if the youth is in the care of or receiving services from the department of children, youth, and families.

The officer releasing a child into the custody of a parent, an adult extended family member, responsible adult, or a licensed youth shelter shall inform the person receiving the child of the reason for taking the child into custody and inform all parties of the nature and location of appropriate services available in the community; or

(b) After attempting to notify the parent, take the child to a designated crisis residential center's secure facility or a center's semi-secure facility if a secure facility is full, not available, or not located within a reasonable distance if:

(ii) It is not practical to transport the child to his or her home or place of the parent's employment; or

(iii) There is no parent available to accept custody of the child; or

(c) After attempting to notify the parent, if a crisis residential center is full, not available, or not located within a reasonable distance, request the department of children, youth, and families to accept custody of the child. Upon accepting custody of a child from the officer, the department of children, youth, and families may place the child in an out-of-home placement for up to seventy-two hours, excluding Saturdays, Sundays, and holidays, without filing a child in need of services petition, obtaining parental consent, or obtaining an order for placement under chapter 13.34 RCW. Upon transferring a child to the department of children, youth, and families' custody, the officer shall provide written documentation of the reasons and the statutory basis for taking the child into custody. (3) Every officer taking a child into custody shall provide the child and his or her parent or parents or responsible adult with a copy of the statement specified in RCW 43.185C.290(6).

(4) Whenever an officer transfers custody of a child to a crisis residential center or the department of children, youth, and families, the child may reside in the crisis residential center or may be placed by the department of children, youth, and families in an out-of-home placement for an aggregate total period of time not to exceed seventy-two hours excluding Saturdays, Sundays, and holidays. Thereafter, the child

(5) The department of children, youth, and families shall ensure that all law enforcement authorities are informed on a regular basis as to the location of all designated secure and semi-secure facilities within centers in their jurisdiction, where children taken into custody under RCW 43.185C.260 may be taken. 43.185C.290 Youth services—Child admitted to secure facility—Maximum hours of custody—Evaluation for semi-secure facility or release to department of social
and health services—Parental right to remove child—Reconciliation effort—Information to parent and child—Written statement of services and rights—Crisis residential center immunity from liability. (1) A child admitted to a secure facility located in a juvenile detention center shall remain in the facility for at least twenty-four hours after admission but for not more than five consecutive days. A child admitted to a secure facility not located in a juvenile detention center or a semi-secure facility may remain for not more than fifteen consecutive days. If a child is transferred between a secure and semi-secure facility, the aggregate length of time a child may remain in both facilities shall not exceed fifteen consecutive days per admission, and in no event may a child's stay in a secure facility located in a juvenile detention center exceed five days per admission.

(2)(a)(i) The facility administrator shall determine within twenty-four hours after a child's admission to a secure facility whether the child is likely to remain in a semi-secure facility and may transfer the child to a semi-secure facility or release the child to the department of social and health services. The determination shall be based on: (A) The need for continued assessment, protection, and treatment of the child in a secure facility; and (B) the likelihood the child would remain at a semi-secure facility until his or her parents can take the child home or a petition can be filed under this title.

(ii) In making the determination the administrator shall consider the following information if known: (A) The child's age and maturity; (B) the child's condition upon arrival at the center; (C) the circumstances that led to the child's being taken to the center; (D) whether the child's behavior endangers the health, safety, or welfare of the child or any other person; (E) the child's history of running away; and (F) the child's willingness to cooperate in the assessment.

(b) If the administrator of a secure facility determines the child is unlikely to remain in a semi-secure facility, the administrator shall keep the child in the secure facility pursuant to this chapter and in order to provide for space for the child may transfer another child who has been in the facility for at least seventy-two hours to a semi-secure facility. The administrator shall only make a transfer of a child after determining that the child who may be transferred is likely to remain at the semi-secure facility.

(c) A crisis residential center administrator is authorized to transfer a child to a crisis residential center in the area where the child's parents reside or where the child's lawfully prescribed residence is located.

(d) An administrator may transfer a child from a semi-secure facility to a secure facility whenever he or she reasonably believes that the child is likely to leave the semi-secure facility and not return and after full consideration of all factors in (a)(i) and (ii) of this subsection.

(3) If no parent is available or willing to remove the child during the first seventy-two hours following admission, the department of social and health services shall consider the filing of a petition under RCW 13.32A.140.

(4) Notwithstanding the provisions of subsection (1) of this section, the parents may remove the child at any time unless the staff of the crisis residential center has reasonable cause to believe that the child is absent from the home because he or she is abused or neglected or if allegations of abuse or neglect have been made against the parents. The department of social and health services or any agency legally charged with the supervision of a child may remove a child from a crisis residential center at any time after the first twenty-four hour period after admission has elapsed and only after full consideration by all parties of the factors in subsection (2)(a) of this section.

(5) Crisis residential center staff shall make reasonable efforts to protect the child and achieve a reconciliation of the family. If a reconciliation and voluntary return of the child has not been achieved within forty-eight hours from the time of admission, and if the administrator of the center does not consider it likely that reconciliation will be achieved within five days of the child's admission to the center, then the administrator shall inform the parent and child of: (A) The availability of counseling services; (B) the right to file a child in need of services petition for an out-of-home placement, the right of a parent to file an at-risk youth petition, and the right of the parent and child to obtain assistance in filing the petition; (C) the right to request the facility administrator or his or her designee to form a multidisciplinary team; (D) the right to review a copy of any out-of-home placement; (E) the right to request a mental health or chemical dependency evaluation by a county-designated professional or a private treatment facility; and (F) the right to request treatment in a program to address the child's at-risk behavior under RCW 13.32A.197.

(6) At no time shall information regarding a parent's or child's rights be withheld. The department shall develop and distribute to all law enforcement agencies and to each crisis residential center administrator a written statement delineating the services and rights. The administrator of the facility or his or her designee shall provide every resident and parent with a copy of the statement.

(7) A crisis residential center and any person employed at the center acting in good faith in carrying out the provisions of this section are immune from criminal or civil liability for such actions. Juveniles placed in such a facility pursuant to this section may not, to the extent possible, come in contact with alleged or convicted juvenile or adult offenders.

(3) Any child placed in secure detention pursuant to this section shall, during the period of confinement, be provided with appropriate treatment by the department of social and health services or the department's designee, which shall include the services defined in RCW 43.185C.305(2). 43.185C.315 Youth services—HOPE centers—Establishment—Requirements. (1) The department shall establish HOPE centers across the state and may establish HOPE centers by contract, within funds appropriated by the legislature specifically for this purpose. HOPE centers shall be operated in a manner to reasonably assure that street youth placed there will not run away. Pursuant to rules established by the facility administrator, residents may come and go from the facility at reasonable hours such that no residents are free to come and go at all hours of the day and night. The facility administrator, where appropriate, may condition a resident's leaving the facility upon the resident being accompanied by the administrator or the administrator's designee and the resident may be required to notify the administrator or the administrator's designee of any intent to leave, his or her intended destination, and the probable time of his or her return to the HOPE center. Any street youth who runs away from a HOPE center shall not be readmitted unless specifically authorized by the street youth's placement and liaison specialist, and the placement and liaison specialist shall document with specific factual findings an appropriate basis for readmitting any street youth to a HOPE center. HOPE centers are required to have the following:

(a) A license issued by the department of children, youth, and families, including staff who meet licensing qualifications;

(b) A case manager who may be a contractual or a part-time employee, but must be available to work with street youth in a HOPE center at a ratio of one to every fifteen youth staying in a HOPE center. This case manager shall be known as a placement and liaison specialist. Preference shall be given to those case managers who have experience working with adolescents and are cross-credentialed in mental health and chemical dependency. The placement and liaison specialist shall:

(i) Conduct an assessment of the street youth that includes a determination of the street youth's legal status regarding residential placement;

(ii) Facilitate the street youth's return to his or her legally authorized residence at the earliest possible date or initiate processes to arrange legally authorized appropriate placement. Any street youth who may meet the definition of dependent child under RCW 13.34.030 must be referred to the department of children, youth, and families. The department of children, youth, and families shall determine whether a dependency petition should be filed under chapter 13.34 RCW. A shelter care hearing must be held within seventy-two hours to authorize out-of-home placement for any youth the department of children, youth, and families determines is appropriate for out-of-home placement under chapter 13.34 RCW. All of the provisions of chapter 13.32A RCW must be followed for children in need of services or at-risk youth;
(iii) Interface with other relevant resources and system representatives to secure long-term residential placement and other needed services for the street youth;

(iv) Be assigned immediately to each youth and meet with the youth within eight hours of the youth receiving HOPE center services;

(v) Facilitate a physical examination of any street youth who has not seen a physician within one year prior to residence at a HOPE center and facilitate evaluation by a county-designated mental health professional, a chemical dependency specialist, or both if appropriate; and

(vi) Arrange an educational assessment to measure the street youth's competency level in reading, writing, and basic mathematics, and that will measure learning disabilities or special needs;

(c) Staff trained in development needs of street youth as determined by the department, including but not limited to an on-site program manager who must work with the placement and liaison specialist to provide appropriate services on-site;

(d) A data collection system that measures outcomes for the population served, and enables research and evaluation that can be used for future program development and service delivery. Data collection systems must have confidentiality rules and protocols developed by the department;

(e) Notification requirements that meet the notification requirements of chapter 13.32A RCW. The youth's arrival date and time must be logged at intake by HOPE center staff. The staff must immediately notify law enforcement and dependency caseworkers if a street youth runs away from a HOPE center. A child may be transferred to a secure facility as defined in RCW 13.32A.030 whenever the staff reasonably believes that a street youth is likely to leave the HOPE center and not return after full consideration of the factors set forth in RCW 13.32A RCW. The youth's temporary placement in the HOPE center must be authorized by the court or the secretary of the department of children, youth, and families if the youth is a dependent of the state under chapter 13.34 RCW or the department of children, youth, and families is responsible for the youth under chapter 13.32A RCW, or by the youth's parent or legal custodian, until such time as the parent can retrieve the youth who is returning to home;

(f) HOPE centers must identify to the department of children, youth, and families any street youth it serves who is not traditionally been awarded contracts with the department.

(g) Services that provide counseling and education to the street youth.

(2) The department shall award contracts for the operation of HOPE center beds with the goal of facilitating the coordination of services provided for youth by such programs and those services provided by secure and semi-secure crisis residential centers.

(3) Subject to funds appropriated for this purpose, the department must incrementally increase the number of available HOPE beds by at least seventeen beds in fiscal year 2017, at least seventeen beds in fiscal year 2018, and at least seventeen beds in fiscal year 2019, such that by July 1, 2019, seventy-five HOPE beds are established and operated throughout the state as set forth in subsection (1) of this section.

(4) Subject to funds appropriated for this purpose, the beds available in HOPE centers shall be increased incrementally. The additional capacity shall be distributed around the state based upon need and, to the extent feasible, shall be geographically situated so that HOPE beds are available across the state. In determining the need for increased numbers of HOPE beds in a particular county or counties, one of the considerations should be the volume of truancy petitions filed there. (2) Carry out such other activities as the department of commerce deems appropriate;

(3) Establish procedures consistent with RCW 43.190.110 for appropriate access by long-term care ombuds to long-term care facilities and patients’ records, including procedures to protect the confidentiality of the records and ensure that the identity of any complainant or resident will not be disclosed without the written consent of the complainant or resident, or upon court order;

(4) Establish a statewide uniform reporting system to collect and analyze data relating to complaints and conditions in long-term care facilities for the purpose of identifying and resolving significant problems, with provision for submission of such data to the department of social and health services and to the federal department of health and human services, or its successor agency, on a regular basis; and

Legislative findings—1988 c 119: “The legislature recognizes that the state long-term care ombudsman [ombuds] program and the office of the state long-term care ombuds [ombuds], located within the department of social and health services, have brought into serious question the ability of that office to serve as an effective mechanism on the state level for investigating and resolving complaints made by or on behalf of residents of long-term care facilities.

The legislature further finds it necessary to exercise its options under the federal older Americans act and identify an organization, outside of the department of social and health services and independent of any other state agency, to provide, through contract, long-term care ombudsman [ombuds] services.” [1988 c 119 § 1.]

Use of survey findings—1988 c 119: “The survey findings, together with any reports of legislative committees in response to such survey, shall be used by the department of community development in determining the best manner to contract for and provide long-term care ombudsman [ombuds] services.” [1988 c 119 § 4.]

(2019 Ed.)
43.200.015 Definitions. As used in this chapter, the following terms have the meanings indicated unless the context clearly requires otherwise.

(1) "Commercial low-level radioactive waste disposal facility" has the same meaning as "facility" as defined in RCW 43.145.010.

(3) "High-level radioactive waste" means "high-level radioactive waste" as the term is defined in 42 U.S.C. Sec. 10101 (P.L. 97-425).

(4) "Low-level radioactive waste" means waste material that contains radioactive nuclides emitting primarily beta or gamma radiation, or both, in concentrations or quantities that exceed applicable federal or state standards for unrestricted release. Low-level waste does not include waste containing more than one hundred nanocuries of transuranic contaminants per gram of material, nor spent nuclear fuel, nor material classified as either high-level radioactive waste or waste that is unsuited for disposal by near-surface burial under any applicable federal regulations.

(5) "Radioactive waste" means both high-level and low-level radioactive waste.

The department may receive federal financial assistance for carrying out radioactive waste management activities, including assistance for expenses, salaries, travel, and monitoring and evaluating the program of repository exploration and siting undertaken by the federal government. [1989 c 322 § 2; 1984 c 161 § 2; 1983 1st ex.s. c 19 § 2.]

The last transfer under this section shall occur on July 1, 2033.

(b) The transfer in (a) of this subsection shall occur only if written agreement is reached between the state department of ecology and the United States department of energy pursuant to section 6 of the perpetual care agreement dated July 29, 1965, between the United States atomic energy commission and the state of Washington. If agreement cannot be reached between the state department of ecology and the United States department of energy by June 1, 2008, the treasurer shall transfer the funds from the general fund to the site closure account according to the schedule in (a) of this subsection.

(c) If for any reason the commercial low-level radioactive waste disposal facility is closed to further disposal operations during or after the 2003-2005 biennium and before 2033, then the amount remaining to be repaid from the 2003-2005 transfer of thirteen million eight hundred thousand dollars from the site closure account shall be transferred by the treasurer from the general fund to the site closure account to fund the closure and decommissioning of the facility. The treasurer shall transfer to the site closure account in full the amount remaining to be repaid upon written notice from the secretary of health that the department of health has authorized closure or that disposal operations have ceased. The treasurer shall complete the transfer within sixty days of written notice from the secretary of health.

(d) To the extent that money in the site closure account together with the amount of money identified for repayment to the site closure account, pursuant to (a) through (c) of this subsection, equals or exceeds the cost estimate approved by the department of health for closure and decommissioning of the facility, the money in the site closure account together with the amount of money identified for repayment to the site closure account shall constitute adequate financial assurance for purposes of the department of health financial assurance requirements;

(4) To assure maintenance of such insurance coverage by state licensees, lessees, or sublessees as will adequately, in the opinion of the director, protect the citizens of the state against nuclear accidents or incidents that may occur on privately or state-controlled nuclear facilities;

(6) To develop contingency plans for duties and options for the department and other state agencies related to the commercial low-level radioactive waste disposal facility based on various projections of annual levels of waste disposal. These plans shall include an analysis of expected revenue to the state in various taxes and funds related to low-level radioactive waste disposal and the resulting implications that any increase or decrease in revenue may have on state agency duties or responsibilities. The plans shall be updated annually. [2012 c 19 § 2; 2003 1st sp.s. c 21 § 1; 1999 c 372 § 12; 1991 sp.s. c 13 § 60; 1990 c 21 § 6; 1989 c 418 § 2; 1986 c 2 § 1; 1983 1st ex.s. c 19 § 8.]

(1) The director of the department of ecology may periodically review the potential for bodily injury and property damage arising from the transportation and disposal of commercial low-level radioactive waste under permits issued by the state.

(2) In making the determination of the appropriate level of financial assurance, the director shall consider:

(a) The nature and purpose of the activity and its potential for injury and damages to or claims against the state and its citizens;

(b) The current and cumulative manifested volume and radioactivity of waste being packaged, transported, buried, or otherwise handled;

(c) The location where the waste is being packaged, transported, buried, or otherwise handled, including the proximity to the general public and geographic features such as geology and hydrology, if relevant; and

(d) The legal defense cost, if any, that will be paid from the required financial assurance amount. [2012 c 19 § 6; 1998 c 245 § 83; 1992 c 61 § 1; 1990 c 82 § 1; 1986 c 191 § 1.]

43.200.230 Fees for waste generators. The director of the department of ecology shall require that generators of waste pay a fee for each cubic foot of waste disposed at any facility in the state equal to six dollars and fifty cents. The fee shall be imposed specifically on the generator of the waste and shall not be considered to apply in any way to the low-level site operator's disposal activities. The fee shall be allocated in accordance with RCW 43.200.233 and 43.200.235. Failure to comply with this section may result in denial or suspension of the generator's site use permit pursuant to RCW 70.98.085. [2012 c 19 § 7; 1991 c 272 § 16.]

HIGH-LEVEL NUCLEAR WASTE REPOSITORY SITING

Sections
43.205.010 Findings.
43.205.020 Duties relating to the site selection process for a high-level nuclear waste repository.

Nuclear waste site—Election for disapproval: Chapter 29A.88 RCW.

43.205.010 Findings. The legislature and the people of the state of Washington find that:

(1) In order to solve the problem of high-level radioactive waste disposal, congress established a process for selecting two sites for the safe, permanent, and regionally equitable disposal of such waste.

(2) The process of selecting three sites as final candidates, including the Hanford reservation, for a first high-level nuclear waste repository by the United States department of energy violated the intent and the mandate of congress.

(3) The United States department of energy has prematurely deferred consideration of numerous potential sites and disposal media that its own research indicates are more appropriate, safer, and less expensive.

(4) Placement of a repository at Hanford without methodical and independently verified scientific evaluation will pose a threat to the health and safety of the people and the environment of this state.

(5) The selection process is flawed and not credible because it did not include independent experts in the selection of the sites and in the review of that selection, as recommended by the National Academy of Sciences.

(6) By postponing indefinitely all site specific work for a second repository, the United States department of energy has not complied with the intent of congress expressed in the Nuclear Waste Policy Act, Public Law 97-425, and the fundamental compromise which enabled its enactment. [1986 ex.s. c 1 § 1.]

43.205.020 Duties relating to the site selection process for a high-level nuclear waste repository. In order to achieve complete compliance with federal law and protect the health, safety, and welfare of the people of the state of Washington, the governor, the legislature, other statewide elected officials, and the nuclear waste board shall use all legal means necessary to:

(1) Suspend the preliminary site selection process for a high-level nuclear waste repository, including the process of site characterization, until there is compliance with the intent of the Nuclear Waste Policy Act;

(2) Reverse the secretary of energy's decision to postpone indefinitely all site specific work on locating and developing a second repository for high-level nuclear waste;

(3) Insist that the United States department of energy's site selection process, when resumed, considers all acceptable geologic media and results in safe, scientifically justified, and regionally and geographically equitable high-level nuclear waste disposal;

(4) Demand that federal budget actions fully and completely follow the intent of the Nuclear Waste Policy Act; and

(5) Continue to pursue alliances with other states and interested parties, particularly with Pacific Northwest governors, legislatures, and other parties, affected by the site selection and transportation of high-level nuclear waste. [1986 ex.s. c 1 § 2.]

SMALL BUSINESS EXPORT FINANCE ASSISTANCE CENTER

Sections
43.210.010 Findings.
43.210.050 Export assistance services contract with department of commerce.
43.210.080 Rural manufacturer export outreach program—Export loan or loan guarantee programs.

43.210.010 Findings. The legislature finds:

(1) The exporting of goods and services from Washington to international markets is an important economic stimulus to the growth, development, and stability of the state's businesses in both urban and rural areas, and that these economic activities create needed jobs for Washingtonians.

(2) Impediments to the entry of many small and medium-sized businesses into export markets have restricted growth in exports from the state.

(3) Particularly significant impediments for many small and medium-sized businesses are the lack of easily accessible information about export opportunities and financing alternatives.

(4) There is a need for a small business export finance assistance center which will specialize in providing export assistance to small and medium-sized businesses throughout the state in acquiring information about export opportunities and financial alternatives for exporting. [1990 1st ex.s. c 17 § 65; 1985 c 231 § 1; 1983 1st ex.s. c 20 § 1.]

Intent—1990 1st ex.s. c 17: “The legislature finds that the Puget Sound region is experiencing economic prosperity and the challenges associated with rapid growth; much of the rest of the state is not experiencing economic prosperity, and faces challenges associated with slow economic growth. It is the intent of the legislature to encourage economic prosperity and balanced economic growth throughout the state.

In order to accomplish this goal, growth must be managed more effectively in the Puget Sound region, and rural areas must build local capacity to accommodate additional economic activity in their communities. Where possible, rural economies and low-income areas should be linked with prosperous urban economies to share economic growth for the benefit of all areas and the state.
To accomplish this goal it is the intent of the legislature to: (1) Assure equitable opportunities to secure prosperity for distressed areas, rural communities, and disadvantaged populations by promoting urban-rural economic links, and by promoting value-added product development, business networks, and increased exports from rural areas; (2) improve the economic development service delivery system to be better able to serve these areas, communities, and populations; (3) redirect the priorities of the state's economic development programs to focus economic development efforts into areas and sectors of the greatest need; (4) build local capacity so that communities are better able to plan for growth and achieve self-reliance; (5) administer grant programs to promote new feasibility studies and project development on projects of interest to rural areas or areas outside of the Puget Sound region; and (6) develop a coordinated economic investment strategy involving state economic development programs, businesses, educational and vocational training institutions, local governments and local economic development organizations, ports, and others. [1990 1st ex.s. c 17 § 64.]

43.210.020 Small business export finance assistance center authorized—Purposes. A nonprofit corporation, to be known as the small business export finance assistance center, and branches subject to its authority, may be formed under chapter 24.03 RCW for the following public purposes:

(1) To assist small and medium-sized businesses in both urban and rural areas in the financing of export transactions.

(2) To provide, singly or in conjunction with other organizations, information and assistance to these businesses about export opportunities and financing alternatives. [1998 c 109 § 1; 1990 1st ex.s. c 17 § 66; 1985 c 231 § 2; 1983 1st ex.s. c 20 § 2.]

43.210.030 Board of directors—Membership—Terms—Vacancies. The small business export finance assistance center and its branches shall be governed and managed by a board of seven directors appointed by the governor, with the advice of the board, and confirmed by the senate. The directors shall serve terms of four years following the terms of service established by the initial appointments after June 11, 1998. Three appointees, including directors on June 11, 1998, who are reappointed, must serve initial terms of two years and, if a director is reappointed that director may serve a consecutive four-year term. Four appointees, including directors on June 11, 1998, who are reappointed, must serve initial terms of four years and, if a director is reappointed that director may serve a consecutive four-year term. After the initial appointments, directors may serve two consecutive terms. The directors may provide for the payment of their expenses. The directors shall include the *director of community, trade, and economic development or the director's designee; representatives of a large financial institution engaged in financing export transactions in the state of Washington; a small financial institution engaged in financing export transactions in the state of Washington; a large exporting company domiciled in the state of Washington; a small exporting company in the state of Washington; organized labor in a trade involved in international commerce; and a representative at large. To the extent possible, appointments to the board shall reflect geographical balance and the diversity of the state population. Any vacancies on the board due to the expiration of a term or for any other reason shall be filled by appointment by the governor for the unexpired term.

[1998 c 109 § 2; 1995 c 399 § 106; 1991 c 314 § 15; 1985 c 231 § 3; 1983 1st ex.s. c 20 § 3.]

*Reviser's note: The "director of community, trade, and economic development" was changed to the "director of commerce" by 2009 c 565.

43.210.040 Powers and duties. (1) The small business export finance assistance center formed under RCW 43.210.020 and 43.210.030 has the powers granted under chapter 24.03 RCW. In exercising such powers, the center may:

(a) Solicit and accept grants, contributions, and any other financial assistance from the federal government, federal agencies, and any other sources to carry out its purposes;

(b) Make loans or provide loan guarantees on loans made by financial institutions to Washington businesses with annual sales of two hundred million dollars or less for the purpose of financing exports of goods or services by those businesses to buyers in foreign countries and for the purpose of financing business growth to accommodate increased export sales. Loans or loan guarantees made under the authority of this section may only be considered upon a financial institution's assurance that such loan or loan guarantee is otherwise not available;

(c) Provide assistance to businesses with annual sales of two hundred million dollars or less in obtaining loans and guarantees of loans made by financial institutions for the purpose of financing export of goods or services from the state of Washington;

For such counseling, the center may charge reasonable fees as it determines are necessary;

(e) Provide assistance in obtaining export credit insurance or alternate forms of foreign risk mitigation to facilitate the export of goods and services from the state of Washington;

(f) Be available as a teaching resource to both public and private sponsors of workshops and programs relating to the financing and risk mitigation aspects of exporting products and services from the state of Washington;

(g) Develop a comprehensive inventory of export-financing resources, both public and private, including information on resource applicability to specific countries and payment terms;

(h) Contract with the federal government and its agencies to become a program administrator for federally provided loan guarantee and export credit insurance programs; and

(i) Take whatever action may be necessary to accomplish the purposes set forth in this chapter.

(2) The center may not use any Washington state funds or funds which come from the public treasury of the state of Washington to make loans or to make any payment under a loan guarantee agreement. Under no circumstances may the center use any funds received under RCW 43.210.050 to make or assist in making any loan or to pay or assist in paying any amount under a loan guarantee agreement. Debts of the center shall be center debts only and may be satisfied only

43.211.005 Findings. The legislature finds that the implementation of a single easy to use telephone number, 211, for public access to information and referral for health and human services and information about access to services after a natural or nonnatural disaster will benefit the citizens of the state of Washington by providing easier access to available health and human services, by reducing inefficiencies in connecting people with the desired service providers, and by reducing duplication of efforts. The legislature further finds in a time of reduced resources for providing health and human services that establishing a cost-effective means to continue to provide information to the public about available services is important. The legislature further finds that an integrated statewide system of local information and referral service providers will build upon an already existing network of experienced service providers without the necessity of creating a new agency, department, or system to provide 211 services. The legislature further finds that no funds should be appropriated by the legislature to a 211 system under chapter 135, Laws of 2003 without receiving documentation that a 211 system will provide savings to the state. [2003 c 135 § 1.]

43.211.010 211 system. 211 is created as the official state dialing code for public access to information and referral for health and human services and information about access to services after a natural or nonnatural disaster. [2003 c 135 § 2.]

43.211.020 Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(5) "211" means the abbreviated dialing code assigned by the federal communications commission on July 21, 2000, for consumer access to community information and referral services. [2003 c 135 § 3.]

43.211.030 New information services. Before a state agency or department that provides health and human services establishes a new public information telephone line or hotline, the state agency or department shall consult with WIN 211 about using the 211 system to provide public access to the information. [2003 c 135 § 4.]

43.211.040 211 services. Only a service provider approved by WIN 211 may provide 211 telephone services. WIN 211 shall approve 211 service providers, after considering the following:

(1) The ability of the proposed 211 service provider to meet the national 211 standards recommended by the alliance of information and referral systems and adopted by the national 211 collaborative on May 5, 2000;

(2) The financial stability and health of the proposed 211 service provider;

(3) The community support for the proposed 211 service provider;

(4) The relationships with other information and referral services; and

(e) Providing grants to approved 211 service providers to enable 211 service providers to provide 211 service on an ongoing basis; and

(f) Providing grants to approved 211 service providers to enable the provision of 211 services on a twenty-four-hour per day seven-day a week basis. [2003 c 135 § 7.]

GENERAL PROVISIONS

43.216.005 Findings. (1) The legislature finds that state
services are not currently organized and delivered in a way
that achieves the optimal outcomes for children, youth, and
families. The legislature believes that, to improve service

(2019 Ed.)
delivery and outcomes, existing services must be restructured into a comprehensive agency dedicated to the safety, development, and well-being of children that emphasizes prevention, early childhood development, and early intervention, and supporting parents to be their children's first and most important teachers.

(2) The legislature finds that:
   (a) The early years of a child's life are critical to the child's healthy brain development and that the quality of caregiving during the early years can significantly impact the child's intellectual, social, and emotional development;
   (b) A successful outcome for every child obtaining a K-12 education depends on children being prepared from birth for academic and social success in school. For children at risk for school failure, the opportunity gap often emerges as early as eighteen months of age;
   (c) A more cohesive and integrated early learning system has been established that provides a solid foundation for further improvements in the quality and availability of early learning programs; and
   (d) Increasing the availability of high quality services for children ages birth to three and their parents or caregivers will result in improved school and life outcomes.

(3) Research is clear that quality culturally and linguistically responsive early care and education builds the foundation for a child's success in school and in life. In restructuring early learning and child welfare services, the legislature seeks to build on the success of Washington's early learning efforts to assure children most at risk of experiencing adversity are provided high quality early learning experiences.

(4) The legislature finds that advancements in research and science have identified indicators of risk, how they impact healthy development, and the critical importance of stable, nurturing relationships, particularly in the early years. Services for families and children should be prioritized for those who are most at risk of neglect, physical harm, and other adverse factors.

(5) The legislature finds that a focus on adolescent development is needed to ensure that effective supports and interventions are targeted to support adolescents successfully transitioning to adulthood. Youth known to both the child welfare and juvenile justice systems often suffer from childhood trauma, have multisystem involvement, and experience homelessness. Increased integration of the child welfare and juvenile justice systems can increase opportunities for prevention and improve outcomes for youth in both systems.

(6) The legislature finds that children and youth of color are disproportionately impacted at every point in the child welfare and juvenile justice systems. The department of children, youth, and families must prioritize addressing equity, disproportionality, and disparity in service delivery and outcomes, and provide transparent, frequent reporting of outcomes by race, ethnicity, and geography. The legislature finds that the state values the partnership with tribes in providing services for our children and youth and intends to honor the government-to-government relationship between the state and tribes.

(7) The department of children, youth, and families must be anchored in a culture of innovation, transparency, accountability, rigorous data analysis, and reliance on research and evidence-based interventions.

(8) The legislature finds that the public expects an effective service delivery system that is comprehensive, accountable, and goes beyond a single department's role. For this reason, the legislature is creating a mechanism in the department of children, youth, and families to align, integrate, and ensure accountability of state services for children, youth, and their families across state agencies so that there is a seamless, effective, prevention and early intervention-based service system regardless of which state agency is responsible for particular services.

(9) The legislature finds that the work of the department of children, youth, and families will only be as successful as the workforce—both the agency employees and community-based providers. Increased support for the professionals working with children, youth, and families is critical to improving outcomes.

(10) The legislature further finds that other states have successfully established integrated departments dedicated to serving children, youth, and families. These departments have improved the visibility of child and family issues, increased authority and accountability, enabled system improvements, and created a stronger focus on improving child outcomes.

(vii) In collaboration with county juvenile justice programs, reducing criminal justice involvement and recidivism as measured by: (A) An increase in the number of youth who successfully complete the terms of diversion or alternative sentencing options; (B) a decrease in the number of youth who commit subsequent crimes; and (C) eliminating the discharge of youth from institutional settings into homelessness; and

(viii) Reducing racial and ethnic disproportionality and disparities in system involvement and across child and youth outcomes in collaboration with other state agencies.

(4) Beginning July 1, 2018, the department must:

(a) Lead ongoing collaborative work to minimize or eliminate systemic barriers to effective, integrated services in collaboration with state agencies serving children, youth, and families;

(b) Identify necessary improvements and updates to statutes relevant to their responsibilities and proposing legislative changes to the governor no less than biennially;

Whenever possible, contractor performance data must be made available to the public, consistent with confidentiality laws and individual rights to privacy.

(8)(a) The board shall begin its work and call the first meeting of the board on or after July 1, 2018. The board shall immediately assume the duties of the legislative children's oversight committee, as provided for in RCW 74.13.570 and assume the full functions of the board as provided for in this section by July 1, 2019. 43.216.080 Integration with other entities. (1) The foundation of quality in the early care and education system in Washington is the quality rating and improvement system entitled the early achievers program. 8.5 Early achievers program—Quality rating and improvement system. (1) The department, in collaboration with tribal governments and community and statewide partners, shall implement a quality rating and improvement system, called the early achievers program. The early achievers program provides a foundation of quality for the early care and education system. The early achievers program is applicable to licensed or certified child care centers and homes and early learning programs such as working connections child care and early childhood education and assistance programs.

(2) The objectives of the early achievers program are to:

(a) Improve short-term and long-term educational outcomes for children as measured by assessments including, but not limited to, the Washington kindergarten inventory of developing skills in RCW 28A.655.080;

(b) Give parents clear and easily accessible information about the quality of child care and early education programs;

(c) Support improvement in early learning and child care programs throughout the state;

(d) Increase the readiness of children for school;

(e) Close the disparities in access to quality care;

(f) Provide professional development and coaching opportunities to early care and education providers; and

(g) Establish a common set of expectations and standards that define, measure, and improve the quality of early learning and child care settings.

(3)(a) Licensed or certified child care centers and homes serving nonschool-age children and receiving state subsidy payments must participate in the early achievers program by the required deadlines established in RCW 43.216.135.

(b) Approved early childhood education and assistance program providers receiving state-funded support must participate in the early achievers program by the required deadlines established in RCW 43.216.515.

(c) Participation in the early achievers program is voluntary for:

(i) Licensed or certified child care centers and homes not receiving state subsidy payments; and

(ii) Early learning programs not receiving state funds.

(d) School-age child care providers are exempt from participating in the early achievers program. By July 1, 2017, the department and the office of the superintendent of public instruction shall jointly design a plan to incorporate school-age child care providers into the early achievers program or other appropriate quality improvement system. To test implementation of the early achievers system for school-age child care providers the department and the office of the superintendent of public instruction shall implement a pilot program.

(4)(a) There are five primary levels in the early achievers program.

(b) In addition to the primary levels, the department must establish an intermediate level that is between level 3 and level 4 and serves to assist participants in transitioning to level 4.

(c) Participants are expected to actively engage and continually advance within the program.

(5) The department has the authority to determine the rating cycle for the early achievers program. The department shall streamline and eliminate duplication between early achievers standards and state child care rules in order to reduce costs associated with the early achievers rating cycle and child care licensing.

(a) Early achievers program participants may request to be rated at any time after the completion of all level 2 activities.

(b) The department shall provide an early achievers program participant an update on the participant's progress toward completing level 2 activities after the participant has been enrolled in the early achievers program for fifteen months.

(c) The first rating is free for early achievers program participants.

(d) Each subsequent rating within the established rating cycle is free for early achievers program participants.

(6)(a) Early achievers program participants may request to be rerated outside the established rating cycle. A rerating shall reset the rating cycle timeline for participants.

cultural and linguistic diversity when developing the professional development pathway.

The early achievers quality improvement awards shall be reserved for participants offering programs to an enrollment population consisting of at least five percent of children receiving a state subsidy.

In collaboration with tribal governments, community and statewide partners, and the early achievers review subcommittee created in RCW 43.216.075, the department shall develop a protocol for granting early achievers program participants an extension in meeting rating level requirement timelines outlined for the working connections child care program and the early childhood education and assistance program.

The department may grant extensions only under exceptional circumstances, such as when early achievers program participants experience an unexpected life circumstance.

Extensions shall not exceed six months, and early achievers program participants are only eligible for one extension in meeting rating level requirement timelines.

Extensions may only be granted to early achievers program participants who have demonstrated engagement in the early achievers program.

The department shall accept national accreditation that meets the requirements of this subsection (11) as a qualification for the early achievers program ratings.

Each national accreditation agency will be allowed to submit its most current standards of accreditation to establish potential credit earned in the early achievers program. The department shall grant credit to accreditation bodies that can demonstrate that their standards meet or exceed the current early achievers program standards. By December 1, 2019, and subject to the availability of amounts appropriated for this specific purpose, the department must submit a detailed plan to the governor and the legislature to implement a robust cross-accreditation process with multiple pathways that allows a provider to earn equivalent early achievers credit resulting from accreditation by high quality national organizations.

Licensed child care centers and child care home providers must meet national accreditation standards approved by the department for the early achievers program in order to be granted credit for the early achievers program standards. Eligibility for the early achievers program is not subject to bargaining, mediation, or interest arbitration under RCW 41.56.028, consistent with the legislative reservation of rights under RCW 41.56.028(4)(d).

The department shall explore the use of alternative quality assessment tools that meet the culturally specific needs of the federally recognized tribes in the state of Washington.

A child care or early learning program that is operated by a federally recognized tribe and receives state funds shall participate in the early achievers program. The tribe may choose to participate through an interlocal agreement between the tribe and the department. The interlocal agreement must reflect the government-to-government relationship between the state and the tribe, including recognition of tribal sovereignty. The interlocal agreement must provide that:

(a) Tribal child care facilities and early learning programs may volunteer, but are not required, to be licensed by the department;

   (iii) Are residing with a biological parent or guardian.

(b) Children who are eligible for working connections child care pursuant to this subsection do not have to keep receiving services identified in this subsection to maintain twelve-month authorization. The department of social and health services' involvement with the family referred for working connections child care ends when the family's child protective services, child welfare services, or family assessment response case is closed.

(10)(a) Beginning August 1, 2020, the department may not require an applicant or consumer to meet work requirements as a condition of receiving working connections child care benefits when the applicant or consumer is:

(ii) A full-time student of a community, technical, or tribal college; and
(iii) Pursuing vocational education that leads to a degree or certificate in a specific occupation, not to result in a bachelor's or advanced degree.

(b) An applicant or consumer is a full-time student for the purposes of this subsection if he or she meets the college's definition of a full-time student. The student must maintain passing grades and be in good standing pursuant to college attendance requirements.

(c) Nothing in this subsection is intended to change how applicants or consumers are prioritized when applicants or consumers are placed on a wait list for working connections child care benefits. Reviser's note: This section was amended by 2019 c 369 § 4 and by 2019 c 406 § 70, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

Contingent effective date—2019 c 406 § 70: "Section 70 of this act takes effect only if chapter 97, Laws of 2019 is enacted by July 28, 2019." [2019 c 406 § 78.]

Findings—Intent—2019 c 406: "(1) The legislature recognizes the following:

(a) In Washington, over forty-six thousand community and technical college students, which represents twenty-three percent of all community and technical college students in the state, are parents of dependent children. Student parents represent more than one-quarter of community and technical college students in Washington who receive financial aid. Financial assistance[,] however, does not sufficiently cover many student parents' college expenses.

(b) Caregiving demands affect student parents' ability to devote the time needed to succeed in school. Nearly three-quarters of women community college students living with dependents report spending over twenty hours per week caring for dependents. Many of these students report that care demands are likely to lead them to drop out: Forty-three percent of women and thirty-seven percent of men at two-year institutions who live with children say they are likely or very likely to withdraw from college to care for dependents.

(c) In addition, child care costs represent a large financial burden for parents who are in college. The annual cost of full-time, center-based infant care averages over thirteen thousand dollars in Washington. Given the financial pressures experienced by student parents, both married and single, assistance with paying for quality child care services could dramatically improve their ability to make ends meet and complete their higher education programs.

(d) Work requirements imposed on student parents as a condition for receiving child care assistance can have negative consequences for parents in education or job training. Students working more than fifteen hours per week achieve significantly lower college attainment compared with those who work fewer hours. Nationally, fifty-eight percent of community college student parents who work fifteen or more hours per week leave school without earning a credential within six years of enrollment, compared with forty-eight percent who work less than fifteen hours per week.

Therefore, the legislature intends to improve access and completion rates of student parents enrolled in community and technical colleges by reducing existing restrictions to subsidized child care." [2019 c 406 § 69.]

Nearly three-quarters of women community college students living with dependents report spending over twenty hours per week caring for dependents. Many of these students report that care demands are likely to lead them to drop out: Forty-three percent of women and thirty-seven percent of men at two-year institutions who live with children say they are likely or very likely to withdraw from college to care for dependents.

(c) In addition, child care costs represent a large financial burden for parents who are in college. The annual cost of full-time, center-based infant care averages over thirteen thousand dollars in Washington. Given the financial pressures experienced by student parents, both married and single, assistance with paying for quality child care services could dramatically improve their ability to make ends meet and complete their higher education programs.

(d) Work requirements imposed on student parents as a condition for receiving child care assistance can have negative consequences for parents in education or job training. Students working more than fifteen hours per week achieve significantly lower college attainment compared with those who work fewer hours. Nationally, fifty-eight percent of community college student parents who work fifteen or more hours per week leave school without earning a credential within six years of enrollment, compared with forty-eight percent who work less than fifteen hours per week.

Therefore, the legislature intends to improve access and completion rates of student parents enrolled in community and technical colleges by reducing existing restrictions to subsidized child care." [2019 c 97 § 1.]
43.216.137 Working connections child care program
—Unemployment compensation. For the working connections child care program, the department shall not count the twenty-five dollar increase paid as part of an individual's weekly benefit amount as provided in RCW 50.20.1202 when determining a consumer's income eligibility and copayment. [2011 c 4 § 17. Formerly RCW 43.215.1351.] Effective date—2011 c 4 §§ 1-6 and 16-21: See note following RCW 50.20.1202.

—Notification of change in providers. Beginning July 1, 2016, or earlier if a different date is provided in the omnibus appropriations act, when an applicant or recipient applies for or receives working connections child care benefits, the applicant or recipient is required to notify the department, within five days, of any change in providers. —Standards and guidelines—Duties of the department.
(1) The standards and guidelines described in this section are intended for the guidance of the department. They are not intended to, do not, and may not be relied upon to create a right or benefit, substantive or procedural, enforceable at law by a party in litigation with the state.

(2) When providing services to parents applying for or receiving working connections child care benefits, the department must provide training to departmental employees on professionalism.

(3) When providing services to parents applying for or receiving working connections child care benefits, the department has the following responsibilities:
(a) To return all calls from parents receiving working connections child care benefits within two business days of receiving the call;
(b) To develop a process by which parents receiving working connections child care benefits can submit required forms and information electronically by June 30, 2015;
(c) To notify providers and parents ten days before the loss of working connections child care benefits;
(d) To provide parents with a document that explains in detail and in easily understood language what services they are eligible for, how they can appeal an adverse decision, and the parents' responsibilities in obtaining and maintaining eligibility for working connections child care. 43.216.143 Working connections child care program—Contracted child care slots and vouchers.
(1) The department may employ a combination of vouchers and contracted slots for the subsidized child care programs in *RCW 43.215.135. Child care vouchers preserve parental choice. Child care contracted slots promote access to continuous quality care for children, provide parents and caregivers stable child care that supports employment, and allow providers to have predictable funding. Any contracted slots the department may create under this section must meet the requirements in subsections (2) through (6) of this section.

(2) Only child care providers who participate in the early achievers program and rate at a level 3, 4, or 5 are eligible to be awarded a contracted slot.

(3)(a) The department is required to use data to calculate a set number of targeted contracted slots. In calculating the number, the department must take into account a balance of family home and center child care programs and the overall geographic distribution of child care programs in the state and the distribution of slots between ages zero and five.

(b) The targeted contracted slots are reserved for programs meeting both of the following conditions:

43.216.155 Home visitation programs—Findings—
Intent. The legislature finds that:
(1) The years from birth to three are critical in building
the social, emotional, and cognitive developmental founda-
tions of a young child. Research into the brain development
of young children reveals that children are born learning.
(2) The farther behind children are in their social, emo-
tional, physical, and cognitive development, the more diffi-
cult it will be for them to catch up.
(3) A significant number of children age birth to five
years are born with two or more of the following risk factors
and have a greater chance of failure in school and beyond:
Poverty; single or no parent; no parent employed full time or
full year; all parents with disability; and mother without a
high school degree.
(2019 Ed.)
(4) Parents and children involved in home visitation pro-
grams exhibit better birth outcomes, enhanced parent and
child interactions, more efficient use of health care services,
enhanced child development including improved school
readiness, and early detection of developmental delays, as
well as reduced welfare dependence, higher rates of school
completion and job retention, reduction in frequency and
severity of maltreatment, and higher rates of school gradu-
ation.
The legislature intends to promote the use of voluntary
home visitation services to families as an early intervention
strategy to alleviate the effect on child development of fac-
tors such as poverty, single parenthood, parental unemploy-
ment or underemployment, parental disability, or parental
lack of a high school diploma, which research shows are risk
factors for child abuse and neglect and poor educational out-
comes. [2007 c 466 § 1. Formerly RCW 43.215.145,

43.216.159 Home visitation programs—Funding—
Home visitation services coordination or consolidation
plan. (1) Within available funds, the department shall fund
evidence-based and research-based home visitation programs
for improving parenting skills and outcomes for children.
Home visitation programs must be voluntary and must
address the needs of families to alleviate the effect on child
development of factors such as poverty, single parenthood,
parental unemployment or underemployment, parental dis-
ability, or parental lack of high school diploma, which
research shows are risk factors for child abuse and neglect
and poor educational outcomes. In order to maximize oppor-
tunities to obtain matching funds from private entities, gen-
eral funds intended to support home visiting funding shall be
appropriated to the home visiting services account estab-
lished in *RCW 43.215.130.
(2) The department shall work with the department of
social and health services, the department of health, the pri-
vate-public partnership created in *RCW 43.215.070, and
key partners and stakeholders to develop a plan to coordinate or consolidate home visitation services for children and families to the extent practicable. [2011 1st sp.s. c 32 § 7; 2008 c 152 § 6; 2007 c 466 § 3. Formerly RCW 43.215.147, 43.121.180.]

43.216.165 Early start account. (1) The early start account is created in the custody of the state treasurer. Revenues in the account shall consist of appropriations by the legislature and all other sources deposited into the account. Expenditures from the account may be used only for the purposes listed in RCW 43.216.080. All receipts from local governments, school districts, institutions of higher education as defined in RCW 28B.10.016, and nonprofit organizations must be deposited into the account.

(2) The department oversees the account. Only the secretary or the secretary's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

(3) The department shall separately track funds received for each local government, school district, institution of higher education as defined in RCW 28B.10.016, or nonprofit organization that deposits funds into the account. Expenditures from these funds may be used only for the purposes listed in RCW 43.216.080 as identified in writing with the department by the contributing local government, school district, institution of higher education as defined in RCW 28B.10.016, or nonprofit organization. 43.216.170 Applicants for positions with the department—Investigation and background checks. (1) The secretary shall investigate the conviction records, pending charges, and disciplinary board final decisions of any current employee or applicant seeking or being considered for any position with the department who will or may have unsupervised access to children. This includes, but is not limited to, positions conducting comprehensive assessments, financial eligibility determinations, licensing and certification activities, investigations, surveys, or case management; or for state positions otherwise required by federal law to meet employment standards.

(2) The secretary shall require a fingerprint-based background check through both the Washington state patrol and the federal bureau of investigation as provided in RCW 43.43.837. Unless otherwise authorized by law, the secretary shall use the information solely for the purpose of determining the character, suitability, and competence of the applicant.

(3) Criminal justice agencies shall provide the secretary such information as they may have and that the secretary may require for such purpose.

(4) Any person whose criminal history would otherwise disqualify the person under this section from a position that will or may have unsupervised access to children shall not be disqualified if the department of social and health services reviewed the person's otherwise disqualifying criminal history through the department of social and health services' background assessment review team process conducted in 2002 and determined that such person could remain in a position covered by this section, or if the otherwise disqualifying conviction or disposition has been the subject of a pardon, annulment, or other equivalent procedure. 43.216.180 Education of students in the custody of juvenile rehabilitation facilities—Duties—Creation of a comprehensive plan. (1) The department shall meet regularly with the school districts that educate students who are in the custody of medium and maximum security facilities operated by juvenile rehabilitation to help coordinate activities in areas of common interest, such as communication with parents. The office of the superintendent of public instruction shall facilitate upon request of the department.

(2) The office of the superintendent of public instruction, in collaboration with the department, shall create a comprehensive plan for the education of students in juvenile rehabilitation and provide it to the governor and relevant committees of the legislature by September 1, 2020. [2019 c 322 § 7.]

Findings—Intent—2019 c 322: See note following RCW 72.01.410.

LICENSING

43.216.250 Secretary's licensing duties. It shall be the secretary's duty with regard to licensing under this chapter:

(1) In consultation and with the advice and assistance of persons representative of the various type agencies to be licensed, to designate categories of child care facilities for which separate or different requirements shall be developed as may be appropriate whether because of variations in the ages and other characteristics of the children served, variations in the purposes and services offered or size or structure of the agencies to be licensed, or because of any other factor relevant thereto;

(2)(a) In consultation with the state fire marshal's office, the secretary shall use an interagency process to address health and safety requirements for child care programs that serve school-age children and are operated in buildings that contain public or private schools that safely serve children during times in which school is in session;

(b) Any requirements in (a) of this subsection as they relate to the physical facility, including outdoor playgrounds, do not apply to before-school and after-school programs that serve only school-age children and operate in the same facilities used by public or private schools;

(3) In consultation and with the advice and assistance of parents or guardians, and persons representative of the vari-
ous type agencies to be licensed, to adopt and publish minimum requirements for licensing applicable to each of the various categories of agencies to be licensed under this chapter;

(4) In consultation with law enforcement personnel, the secretary shall investigate the conviction record or pending charges of each agency and its staff seeking licensure or relicensure, and other persons having unsupervised access to children in child care;

(5) To satisfy the shared background check requirements provided for in RCW 43.216.270 and 43.20A.710, the department of children, youth, and families and the department of social and health services shall share federal fingerprint-based background check results as permitted under the law. The purpose of this provision is to allow both departments to fulfill their joint background check responsibility of checking any individual who may have unsupervised access to vulnerable adults, children, or juveniles. Neither department may share the federal background check results with any other state agency or person;

(6) To issue, revoke, or deny licenses to agencies pursuant to this chapter. Licenses shall specify the category of child care that an agency is authorized to render and the ages and number of children to be served;

(7) To prescribe the procedures and the form and contents of reports necessary for the administration of this chapter and to require regular reports from each licensee;

(8) To inspect agencies periodically to determine whether or not there is compliance with this chapter and the requirements adopted under this chapter;

(9) To review requirements adopted under this chapter at least every two years and to adopt appropriate changes after consultation with affected groups for child care requirements; and

(10) To consult with public and private agencies in order to help them improve their methods and facilities for the care and early learning of children. [2018 c 58 § 70; 2017 3rd sp.s. c 6 § 205; 2015 3rd sp.s. c 7 § 4. Prior: 2011 c 359 § 2; 2011 c 253 § 3; 2007 c 415 § 3; 2006 c 265 § 301. Formerly RCW 43.215.200.]

Effective date—2015 3rd sp.s. c 7 § 4: "Section 4 of this act takes effect July 1, 2016." [2015 3rd sp.s. c 7 § 23.]

Finding—Intent—2015 3rd sp.s. c 7: See note following RCW 43.216.085.

Finding—Intent—2011 c 359: "(1) The legislature finds that some licensed child care centers seeking to operate in public schools incur substantial costs to renovate spaces that are considered safe for children to use for the purpose of education. Consequently, families are forced to seek before or after school child care outside of the school building, resulting in additional transitions for students.

(2) It is the legislature's intent to allow licensed child care centers that serve school-age children to operate in facilities that provide a safe and healthy environment for children to use for the purpose of education. With respect to section 2(2) of this act, the legislature intends that the development of any related child care licensing requirements shall:

(a) Ensure safe and healthy environments for children;

(b) Utilize existing rule-making processes and resources;

(c) Utilize existing requirements as a starting point rather than create an entirely new set of requirements; and

(d) Give due consideration to the burdens imposed by inconsistent licensing requirements." [2011 c 359 § 1.]

(2019 Ed.)

43.216.255 Licensing standards. (1) No later than November 1, 2016, the department shall implement a single set of licensing standards for child care and the early childhood education and assistance program. The department shall produce the single set of licensing standards within the department's available appropriations. The new licensing standards must:

(a) Provide minimum health and safety standards for child care and preschool programs;

(b) Rely on the standards established in the early achievers program to address quality issues in participating early childhood programs;

(c) Take into account the separate needs of family care providers and child care centers; and

(d) Promote the continued safety of child care settings.

(2) Private schools that operate early learning programs and do not receive state subsidy payments shall be subject only to the minimum health and safety standards in subsection (1)(a) of this section and the requirements necessary to assure a sufficient early childhood education to meet usual requirements needed for transition into elementary school. The state, and any agency thereof, shall not restrict or dictate any specific educational or other programs for early learning programs operated by private schools except for programs that receive state subsidy payments. [2015 3rd sp.s. c 7 § 3. Formerly RCW 43.215.201.]

Finding—Intent—2015 3rd sp.s. c 7: See note following RCW 43.216.085.

43.216.260 Minimum requirements for licensure. Applications for licensure shall require, at a minimum, the following information:

(1) The size and suitability of a facility and the plan of operation for carrying out the purpose for which an applicant seeks a license;

(2) The character, suitability, and competence of an agency and other persons associated with an agency directly responsible for the care of children;

(3) The number of qualified persons required to render the type of care for which an agency seeks a license;

(4) The health, safety, cleanliness, and general adequacy of the premises to provide for the comfort, care, and well-being of children;

(5) The provision of necessary care and early learning, including food, supervision, and discipline; physical, mental, and social well-being; and educational and recreational opportunities for those served;

(6) The financial ability of an agency to comply with minimum requirements established under this chapter; and

(7) The maintenance of records pertaining to the care of children. [2007 c 415 § 4. Formerly RCW 43.215.205.]

43.216.265 Fire protection—Powers and duties of chief of the Washington state patrol. The chief of the Washington state patrol, through the director of fire protection, shall have the power and it shall be his or her duty:

(1) In consultation with the secretary and with the advice and assistance of persons representative of the various type agencies to be licensed, to adopt recognized minimum standard requirements pertaining to each category of agency
established pursuant to this chapter necessary to protect all persons residing therein from fire hazards;

(2) To adopt licensing minimum standard requirements to allow children who attend classes in a school building during school hours to remain in the same building to participate in before-school or after-school programs and to allow participation in such before-school and after-school programs by children who attend other schools and are transported to attend such before-school and after-school programs;

(3) To make or cause to be made such inspections and investigations of agencies as he or she deems necessary;

(4) To make a periodic review of requirements under RCW 43.216.250(8) and to adopt necessary changes after consultation as required in subsection (1) of this section;

(5) To issue to applicants for licenses under this chapter who comply with the requirements, a certificate of compliance, a copy of which shall be presented to the department before a license shall be issued, except that an initial license may be issued as provided in RCW 43.216.315. [2018 c 58 § 42; 2013 c 227 § 1; 2006 c 265 § 302. Formerly RCW 43.215.210.]

43.216.270 Character, suitability, and competence to provide child care and early learning services—Fingerprint criminal history record checks—Background check clearance card or certificate—Shared background checks.

(1) In determining whether an individual is of appropriate character, suitability, and competence to provide child care and early learning services to children, the department may consider the history of past involvement of child protective services or law enforcement agencies with the individual for the purpose of establishing a pattern of conduct, behavior, or inaction with regard to the health, safety, or welfare of a child. No report of child abuse or neglect that has been destroyed or expunged under RCW 26.44.031 may be used for such purposes. No unfounded or inconclusive allegation of child abuse or neglect as defined in RCW 26.44.020 may be used to disclose to a provider licensed under this chapter.

(2) In order to determine the suitability of individuals newly applying for an agency license, new licensees, their new employees, and other persons who newly have unsupervised access to children in child care, shall be fingerprinted.

(a) The fingerprints shall be forwarded to the Washington state patrol and federal bureau of investigation for a criminal history record check.

(b)(i) All individuals applying for first-time agency licenses, all new employees, and other persons who have not been previously qualified by the department to have unsupervised access to children in child care must be fingerprinted and obtain a criminal history record check pursuant to this section.

(ii) Persons required to be fingerprinted and obtain a criminal history record check pursuant to this section must pay for the cost of this check as follows: The fee established by the Washington state patrol for the criminal background history check, including the cost of obtaining the fingerprints; and a fee paid to the department for the cost of administering the individual-based/portable background check clearance registry. The fee paid to the department must be deposited into the individual-based/portable background check clearance account established in RCW 43.216.273. The licensee may, but need not, pay these costs on behalf of a prospective employee or reimburse the prospective employee for these costs. The licensee and the prospective employee may share these costs.

(c) The department shall use the fingerprint criminal history record check information solely for the purpose of determining eligibility for a license and for determining the character, suitability, and competence of those persons or agencies, excluding parents, not required to be licensed who are authorized to care for children.

(d) Criminal justice agencies shall provide the secretary such information as they may have and that the secretary may require for such purpose.

(e) No later than July 1, 2013, all agency licensees holding licenses prior to July 1, 2012, persons who were employees before July 1, 2012, and persons who have been qualified by the department before July 1, 2012, to have unsupervised access to children in child care, must submit a new background application to the department. The department must require persons submitting a new background application pursuant to this subsection (2)(e) to pay a fee to the department for the cost of administering the individual-based/portable background check clearance registry. This fee must be paid into the individual-based/portable background check clearance account established in RCW 43.216.273. The licensee may, but need not, pay these costs on behalf of a prospective employee or reimburse the prospective employee for these costs. The licensee and the prospective employee may share these costs.

(f) The department shall issue a background check clearance card or certificate to the applicant if after the completion of a background check the department concludes the applicant is qualified for unsupervised access to children in child care. The background check clearance card or certificate is valid for three years from the date of issuance. A valid card or certificate must be accepted by a potential employer as proof that the applicant has successfully completed a background check as required under this chapter. For purposes of renewal of the background clearance card or certificate, all agency licensees holding a license, persons who are employees, and persons who have been previously qualified by the department, must submit a new background application to the department on a date to be determined by the department. The fee requirements applicable to this section also apply to background clearance renewal applications.

(g) The original applicant for an agency license, licensees, their employees, and other persons who have unsupervised access to children in child care shall submit a new background check application to the department, on a form and by a date as determined by the department.

(h) The payment requirements applicable to (a) through (g) of this subsection do not apply to persons who:

(i) Provide regularly scheduled care for a child or children in the home of the provider or in the home of the child or children for periods of less than twenty-four hours or, if necessary due to the nature of the parent's work, for periods equal to or greater than twenty-four hours;

(ii) Receive child care subsidies; and

(iii) Are exempt from licensing under this chapter.
(i) The applicant and agency shall maintain on-site for inspection a copy of the background check clearance card or certificate.

(j) Individuals who have been issued a background check clearance card or certificate shall report nonconviction and conviction information to the department within twenty-four hours of the event constituting the nonconviction or conviction information.

(k) The department shall investigate and conduct a redetermination of an applicant's or licensee's background clearance if the department receives a complaint or information from individuals, a law enforcement agency, or other federal, state, or local government agency. Subject to the requirements contained in RCW 43.216.325 and 43.216.327 and based on a determination that an individual lacks the appropriate character, suitability, or competence to provide child care or early learning services to children, the department may: (i) Invalidate the background card or certificate; or (ii) suspend, modify, or revoke any license authorized by this chapter.

(3) To satisfy the shared background check requirements of the department of children, youth, and families, the office of the superintendent of public instruction, and the department of social and health services, each department shall share federal fingerprint-based background check results as permitted under the law. The purpose of this provision is to allow these departments to fulfill their joint background check responsibility of checking any individual who may have unsupervised access to vulnerable adults, children, or juveniles. These departments may not share the federal background check results with any other state agency or person.

(4) Individuals who have completed a fingerprint background check as required by the office of the superintendent of public instruction, consistent with RCW 28A.400.303, and have been continuously employed by the same school district or educational service district, can meet the requirements in subsection (2) of this section by providing a true and accurate copy of their Washington state patrol and federal bureau of investigation background check report results to the department or if the school district or the educational service district provides an affidavit to the department that the individual has been authorized to work by the school district or educational service district after completing a record check consistent with RCW 28A.400.303. The department may require that additional background checks be completed that do not require additional fingerprinting and may charge a fee for these additional background checks. 43.216.305 License application—Nonexpiring licenses—Issuance, renewal, duration. (1) Each agency shall make application for a license or the continuation of a full license to the department on forms prescribed by the department. Upon receipt of such application, the department shall either grant or deny a license or continuation of a full license within ninety days. A license or continuation shall be granted if the agency meets the minimum requirements set forth in this chapter and the departmental requirements consistent with this chapter, except that an initial license may be issued as provided in RCW 43.216.315. The department shall consider whether an agency is in good standing, as defined in subsection (4)(b) of this section, before granting a continuation of a full license. Full licenses provided for in this chapter shall continue to remain valid so long as the licensee meets the requirements for a nonexpiring license in subsection (2) of this section. The licensee, however, shall advise the secretary of any material change in circumstances which might constitute grounds for reclassification of license as to category. The license issued under this chapter is not transferable and applies only to the licensee and the location stated in the application. For licensed family day care homes having an acceptable history of child care, the license may remain in effect for two weeks after a move.
(2) In order to qualify for a nonexpiring full license, a licensee must meet the following requirements on an annual basis as established from the date of initial licensure:
   (a) Submit the annual licensing fee;
   (b) Submit a declaration to the department indicating the licensee’s intent to continue operating a licensed child care program, or the intent to cease operation on a date certain;
   (c) Submit a declaration of compliance with all licensing rules; and
   (d) Submit background check applications on the schedule established by the department.
(3) If a licensee fails to meet the requirements in subsection (2) of this section for continuation of a full license the license expires and the licensee must submit a new application for licensure under this chapter.
(4)(a) Nothing about the nonexpiring license process may interfere with the department's established monitoring practice.
(b) For the purpose of this section, an agency is considered to be in good standing if in the intervening period between monitoring visits the agency does not have any of the following:
   (i) Valid complaints;
   (ii) A history of noncompliance related to those valid complaints or pending from prior monitoring visits; or
   (iii) Other information that when evaluated would result in a finding of noncompliance with this section.
(c) The department shall consider whether an agency is in good standing when determining the most appropriate approach and process for monitoring visits, for the purposes of administrative efficiency while protecting children, consistent with this chapter. If the department determines that an agency is not in good standing, the department may issue a probationary license, as provided in RCW 43.216.320. [2018 c 58 § 40; 2011 c 297 § 1; 2006 c 265 § 307. If the department has failed to act at the time of the expiration date of the license, the license shall continue in effect until such time as the department acts.
(2) License renewal under this section does not apply to nonexpiring licenses described in *RCW 43.215.260. [2011 c 297 § 3; 2006 c 265 § 308. Formerly RCW 43.215.270.]

43.216.315 Initial licenses. The secretary may, at his or her discretion, issue an initial license instead of a full license, to an agency or facility for a period not to exceed six months, renewable for a period not to exceed two years, to allow such agency or facility reasonable time to become eligible for full license. [2018 c 58 § 39; 2006 c 265 § 309. Formerly RCW 43.215.280.]

Effective date—2018 c 58: See note following RCW 28A.655.080.

43.216.320 Probationary licenses. (1) The department may issue a probationary license to a licensee who has had an initial, expiring, or other license but is temporarily unable to comply with a rule or has been the subject of multiple complaints or concerns about noncompliance if:
(a) The noncompliance does not present an immediate threat to the health and well-being of the children but would be likely to do so if allowed to continue; and
(b) The licensee has a plan approved by the department to correct the area of noncompliance within the probationary period.

(2) Before issuing a probationary license, the department shall, in writing, refer the licensee to the child care resource and referral network or other appropriate resource for technical assistance. The department may issue a probationary license pursuant to subsection (1) of this section if within fifteen working days after the department has sent its referral:
(a) The licensee, in writing, has refused the department's referral for technical assistance; or
(b) The licensee has failed to respond in writing to the department's referral for technical assistance.

(3) If the licensee accepts the department's referral for technical assistance issued under subsection (2) of this section, the department, the licensee, and the technical assistance provider shall meet within thirty days after the licensee's acceptance. The licensee and the department, in consultation with the technical assistance provider, shall develop a plan to correct the areas of noncompliance identified by the department. If, after sixty days, the licensee has not corrected the areas of noncompliance identified in the plan developed in consultation with the technical assistance provider, the department may issue a probationary license pursuant to subsection (1) of this section.

(4) A probationary license may be issued for up to six months, and at the discretion of the department it may be extended for an additional six months. The department shall immediately terminate the probationary license, if at any time the noncompliance for which the probationary license was issued presents an immediate threat to the health or well-being of the children.

(5) The department may, at any time, issue a probationary license for due cause that states the conditions of probation.

(6) An existing license is invalidated when a probationary license is issued.

(7) At the expiration of the probationary license, the department shall reinstate the original license for the remainder of its term, issue a new license, or revoke the original license.

(8) A right to an adjudicative proceeding shall not accrue to the licensee whose license has been placed on probationary status unless the licensee does not agree with the placement on probationary status and the department then suspends, revokes, or modifies the license. [2011 c 297 § 2; 2006 c 265 § 310. Formerly RCW 43.215.290.]

43.216.325 Licenses—Denial, suspension, revocation, modification, nonrenewal—Proceedings—Penalties.

(1) An agency may be denied a license, or any license issued pursuant to this chapter may be suspended, revoked, modified, or not renewed by the secretary upon proof (a) that the agency has failed or refused to comply with the provisions of this chapter or the requirements adopted pursuant to this chapter; or (b) that the conditions required for the issuance of a license under this chapter have ceased to exist with respect to such licenses. RCW 43.216.327 governs notice of a license denial, revocation, suspension, or modification and provides the right to an adjudicative proceeding.

(2) In any adjudicative proceeding regarding the denial, modification, suspension, or revocation of any license under this chapter, the department's decision shall be upheld if it is supported by a preponderance of the evidence.

(3)(a) The department may assess civil monetary penalties upon proof that an agency has failed or refused to comply with the rules adopted under this chapter or that an agency subject to licensing under this chapter is operating without a license except that civil monetary penalties shall not be levied against a licensed foster home.

(b) Monetary penalties levied against unlicensed agencies that submit an application for licensure within thirty days of notification and subsequently become licensed will be forgiven. These penalties may be assessed in addition to or in lieu of other disciplinary actions. Civil monetary penalties, if imposed, may be assessed and collected, with interest, for each day an agency is or was out of compliance.

(c) Civil monetary penalties shall not exceed one hundred fifty dollars per violation for a family day care home and two hundred fifty dollars per violation for child day care centers. Each day upon which the same or substantially similar action occurs is a separate violation subject to the assessment of a separate penalty.

(d) The department shall provide a notification period before a monetary penalty is effective and may forgive the penalty levied if the agency comes into compliance during this period.

(e) The department may suspend, revoke, or not renew a license for failure to pay a civil monetary penalty it has assessed pursuant to this chapter within ten days after such assessment becomes final. RCW 43.216.335 governs notice of a civil monetary penalty and provides the right to an adjudicative proceeding. The preponderance of evidence standard shall apply in adjudicative proceedings related to assessment of civil monetary penalties.

(4)(a) In addition to or in lieu of an enforcement action being taken, the department may place a child day care center or family day care provider on nonreferral status if the center or provider has failed or refused to comply with this chapter or rules adopted under this chapter or an enforcement action has been taken. The nonreferral status may continue until the department determines that: (i) No enforcement action is appropriate; or (ii) a corrective action plan has been successfully concluded.

(b) Whenever a child day care center or family day care provider is placed on nonreferral status, the department shall provide written notification to the child day care center or family day care provider.

(5) The department shall notify appropriate public and private child care resource and referral agencies of the department's decision to: (a) Take an enforcement action against a child day care center or family day care provider; or (b) place or remove a child day care center or family day care provider on nonreferral status. (b) The department may make the date the action is effective sooner than twenty-eight days after receipt when necessary to protect the public health, safety, or welfare. When the department does so, it shall state the effective date and the reasons supporting the effective date in the written notice given to the licensee or agent.

(c) When the department has received certification pursuant to chapter 74.20A RCW from the division of child support that the licensee is a person who is not in compliance with a support order, the department shall provide that the suspension is effective immediately upon receipt of the suspension notice by the licensee.

(3) Except for licensees suspended for noncompliance with a support order under chapter 74.20A RCW, a license applicant or licensee who is aggrieved by a department denial, revocation, suspension, or modification has the right to an adjudicative proceeding. The proceeding is governed by the administrative procedure act, chapter 34.05 RCW. The application must be in writing, state the basis for contesting the fine, include a copy of the adverse notice, be served on and received by the department within twenty-eight days of the person's receiving the notice of civil fine, and be served in a manner that shows proof of receipt.

The presiding or reviewing officer may permit the department to implement part or all of the adverse action while the proceedings are pending if the appellant causes an unreasonable delay in the proceeding, if the circumstances change so that implementation is in the public interest, or for other good cause.

(b) If the department gives a licensee less than twenty-eight days' notice of revocation, suspension, or modification and the licensee timely files a sufficient appeal, the department may implement the adverse action on the effective date stated in the notice. The presiding or reviewing officer may order the department to stay implementation of part or all of the adverse action while the proceedings are pending if staying implementation is in the public interest or for other good cause. 43.216.395 Child care facility licensing compliance agreements—Internal review process—Definitions—Final review—First-time violators. (1) The department shall develop an internal review process to determine whether department licensors have appropriately and consistently applied agency rules in child care facility licensing compliance agreements that do not involve a violation of health and safety standards. Adverse licensing decisions including license denial, suspension, revocation, modification, or nonrenewal pursuant to RCW 43.216.325 or imposition of civil fines pursuant to RCW 43.216.335 are not subject to the internal review process in this section, but may be appealed using the administrative procedure act, chapter 34.05 RCW.

(2) The definitions in this subsection apply throughout this section.

(a) "Child care facility licensing compliance agreement" means an agreement issued by the department in lieu of the department taking enforcement action against a child care provider that contains: (i) A description of the violation and the rule or law that was violated; (ii) a statement from the licensee regarding the proposed plan to comply with the rule or law; (iii) the date the violation must be corrected; (iv) information regarding other licensing action that may be imposed if compliance does not occur by the required date; and (v) the signature of the licensor and licensee.

(b) "Health and safety standards" means rules or requirements developed by the department to protect the health and safety of children against substantial risk of bodily injury, illness, or death.

(3) The internal review process shall be conducted by the following six individuals:

(a) Three department employees who may include child care licensors; and

(b) Three child care providers selected by the department from names submitted by the oversight board for children, youth, and families established in RCW 43.216.015.

(4) The internal review process established in this section may overturn, change, or uphold a department licensing decision by majority vote. In the event that the six individuals conducting the internal review process are equally divided, the secretary shall make the decision of the internal review process. The internal review process must provide the parties with a written decision of the outcome after completion of the internal review process. A licensee must request a review under the internal review process within ten days of the development of a child care facility licensing compliance agreement and the internal review process must be completed within thirty days after the request from the licensee to initiate the internal review process is received.

(5) A licensee may request a final review by the oversight board for children, youth, and families after completing the internal review process established in this section by giving notice to the department and the oversight board for children, youth, and families within ten days of receiving the written decision produced by the internal review process.

(6) The department shall not develop a child care facility licensing compliance agreement with a child care provider for first-time violations of rules that do not relate to health and safety standards and that can be corrected on the same day that the violation is identified. The department shall develop a procedure for providing a warning and offering technical assistance to providers in response to these first-time violations. [2017 3rd sp.s. c 6 § 114.]

43.216.505 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout RCW 43.216.500 through 43.216.559, 43.216.900, and 43.216.901.

(j) Other risk factors determined by the department to be linked by research to school performance.

(3) The department shall adopt rules that allow a child to enroll in the early childhood education and assistance program, as space is available, when the child is not eligible under RCW 43.216.505 and the child turns three years old at any time during the school year when the child:
   (a) Has a family income at or below two hundred percent of the federal poverty level or meets at least one risk factor criterion adopted by the department in rule; and
   (b) Has received services from or participated in:
      (i) The early support for infants and toddlers program;
      (ii) The early head start or a successor federal program providing comprehensive services for children from birth through two years of age; or
      (iii) The birth to three early childhood education and assistance program, if such a program is established.

(4) Children enrolled in the early childhood education and assistance program under this section are not considered eligible children as defined in RCW 43.216.505 and are not considered to be part of the state-funded entitlement required in RCW 43.216.556. Contingent effective dates—2019 c 408 §§ 4 and 5: "(1) Section 5 of this act takes effect only if chapter 409, Laws of 2019 is enacted by July 28, 2019. (2) Section 4 of this act takes effect only if section 5 of this act does not take effect by July 28, 2019." [2019 c 408 § 13.] Substitute Senate Bill No. 5089 was enacted into law May 21, 2019.

Findings—Intent—2019 c 408: "The legislature finds that the family income eligibility limit of one hundred ten percent of the federal poverty level for the early childhood education and assistance program hinders the state's ability to recruit and enroll qualified families, particularly in rural areas of the state and in tribal communities. This income barrier results in unused preschool slots and growing waiting lists of children who are from low-income families but who are over the established income limits. Therefore, the legislature intends to keep the qualifying income for the early childhood education and assistance program at one hundred ten percent of the federal poverty level for the purposes of entitlement caseload forecasting and allow for the flexibility to serve additional children with family incomes up to two hundred percent of the federal poverty level." 43.216.514 Enrollment priority. (1) The department shall prioritize children for enrollment in the early childhood education and assistance program who are eligible pursuant to RCW 43.216.505.

(2) As space is available, children may be included in the early childhood education and assistance program pursuant to RCW 43.216.512. Priority within this group must be given first to children with incomes up to one hundred thirty percent of the federal poverty level. [2019 c 408 § 7; 2018 c 155 § 3.]

43.216.515 Eligible providers—State-funded support
—Requirements—Data collection—Pathways to early childhood education and assistance program. (1) Approved early childhood education and assistance programs shall receive state-funded support through the department. Public or private organizations including, but not limited to, school districts, educational service districts, community and technical colleges, local governments, or nonprofit organizations, are eligible to participate as providers of the state early childhood education and assistance program.

(2) Funds obtained by providers through voluntary grants or contributions from individuals, agencies, corporations, or organizations may be used to expand or enhance preschool programs so long as program standards established by the department are maintained.

(3) Persons applying to conduct the early childhood education and assistance program shall identify targeted groups and the number of children to be served, program components, the qualifications of instructional and special staff, the source and amount of grants or contributions from sources other than state funds, facilities and equipment support, and transportation and personal care arrangements.

(4) A new early childhood education and assistance program provider must complete the requirements in this subsection to be eligible to receive state-funded support under the early childhood education and assistance program:
   (a) Enroll in the early achievers program within thirty days of the start date of the early childhood education and assistance program contract;
   (b)(i) Except as provided in (b)(ii) of this subsection, rate at a level 4 or 5 in the early achievers program within twenty-four months of enrollment. If an early childhood education and assistance program provider rates below a level 4 within...
twenty-four months of enrollment, the provider must complete remedial activities with the department, and rate at a level 4 or 5 within six months of beginning remedial activities.

(ii) Licensed or certified child care centers and homes that administer an early childhood education and assistance program shall rate at a level 4 or 5 in the early achievers program within twenty-four months of the start date of the early childhood education and assistance program contract. If an early childhood education and assistance program provider rates below a level 4 within twenty-four months, the provider must complete remedial activities with the department, and rate at a level 4 or 5 within six months of beginning remedial activities.

(5)(a) If an early childhood education and assistance program provider has successfully completed all of the required early achievers program activities and is waiting to be rated by the deadline provided in this section, the provider may continue to participate in the early achievers program as an approved early childhood education and assistance program provider and receive state subsidy pending the successful completion of a level 4 or 5 rating.

(b) To avoid disruption, the department may allow for early childhood education and assistance program providers who have rated below a level 4 after completion of the six-month remedial period to continue to provide services until the current school year is finished.

(6)(a) When an early childhood education and assistance program in good standing changes classroom locations to a comparable or improved space within the same facility, a rating is not required outside of the regular rating and renewal cycle.

(b) When an early childhood education and assistance program in good standing moves to a new facility, the provider must notify the department of the move within six months of changing locations in order to retain their existing rating. The early achievers program must conduct an observational visit to ensure the new classroom space is of comparable or improved environmental quality. If a provider fails to notify the department within six months of a move, the early achievers rating must be changed from the posted rated level to "Participating, Not Yet Rated" and the provider will cease to receive tiered reimbursement incentives until a new rating is completed.

(7) The department shall collect data periodically to determine the demand for full-day programming for early childhood education and assistance program providers. The department shall analyze this demand by geographic region and shall include the findings in the annual report required under RCW 43.216.089.

(8) The department shall develop multiple pathways for licensed or certified child care centers and homes to administer an early childhood education and assistance program. The pathways shall include an accommodation for these providers to rate at a level 4 or 5 in the early achievers program according to the timelines and standards established in subsection (4)(b)(ii) of this section. The department must consider using the intermediate level that is between level 3 and level 4 as described in RCW 43.216.085, incentives, and front-end funding in order to encourage providers to participate in the pathway. Approved early childhood education and assistance programs shall conduct needs assessments of their service area and identify any targeted groups of children, to include but not be limited to children of seasonal and migrant farmworkers and native American populations living either on or off reservation. Approved early childhood education and assistance programs shall provide to the department a service delivery plan, to the extent practicable, that addresses these targeted populations.

(2) The department, in developing rules for the early childhood education and assistance program, shall consult with the early learning advisory council, and shall consider such factors as coordination with existing head start and other early childhood programs, the preparation necessary for instructors, qualifications of instructors, adequate space and equipment, and special transportation needs. The rules shall specifically require the early childhood programs to provide for parental involvement in participation with their child’s program, in local program policy decisions, in development and revision of service delivery systems, and in parent education and training.

(3) By January 1, 2016, the department shall adopt rules requiring early childhood education and assistance program employees who have access to children to submit to a fingerprint background check. 43.216.535 Reports. The department shall annually report to the governor and the legislature on the findings of the longitudinal study undertaken to examine and monitor the effectiveness of early childhood educational and assistance services for eligible children to measure, among other elements, if possible, how the average level of performance of children completing this program compare to the average level of performance of all state students in their grade level, and to the average level of performance of those eligible students who did not have access to this program. The evaluation system shall examine how the percentage of these children needing access to special education or remedial programs compares to the overall percentage of children needing such services and compares to the percentage of eligible students who did not have access to this program needing such services. (b) Following the priority in (a) of this subsection, preference shall be given to programs meeting at least one of the following characteristics:

(i) Programs offering an extended day program for early care and education;

(ii) Programs offering services to children diagnosed with a special need; or

(iii) Programs offering services to children involved in the child welfare system.

(2) The program shall be implemented in phases, so that full implementation is achieved in the 2022-23 school year.

43.216.565 Findings—Intent—Early start program. The legislature finds that the first five years of a child's life establish the foundation for educational success. The legislature also finds that children who have high quality early learning opportunities from birth through age five are more likely to succeed throughout their K-12 education and beyond. The legislature further finds that the benefits of high quality early learning experiences are particularly significant for low-income parents and children, and provide an opportunity to narrow the opportunity gap in Washington's K-12 educational system. The legislature understands that early supports for high-risk parents of young children through home visiting services show a high return on investment due to significantly improved chances of better education, health, and life outcomes for children. The legislature further recognizes that, when parents work or go to school, high quality and full-day early learning opportunities should be available and accessible for their children. In order to improve education outcomes, particularly for low-income children, the legislature is committed to expanding high quality early learning opportunities and integrating currently disparate funding streams for all birth-to-five early learning services including, working connections child care and the early childhood education and assistance program, into a single high quality continuum of learning that provides essential services to low-income families and prepares all enrolled children for success in school. The legislature therefore intends to establish the early start program to provide a continuum of high quality and accountable early learning opportunities for Washington's parents and children. [2013 c 323 § 1. Formerly RCW 43.215.460.]

43.216.570 Early intervention services—Findings. The legislature finds that there is an urgent and substantial need to:

(1) Enhance the development of infants and toddlers with disabilities in the state of Washington in order to minimize developmental delay and maximize individual potential and enhance the capability of families to meet the needs of their infants and toddlers with disabilities and maintain family integrity;

(2) Coordinate and enhance the state's existing early intervention services to ensure a statewide, community-based, coordinated, interagency program of early interven-
tion services for infants and toddlers with disabilities and their families; and
(3) Facilitate the coordination of payment for early intervention services from federal, state, local, and private sources including public and private insurance coverage. [1992 c 198 § 14. Formerly RCW 43.215.470, 70.195.005.]

**43.216.572 Early intervention services—Birth-to-three—Interagency coordinating council—Conditions and limitations.** For the purposes of implementing this chapter, the governor shall appoint a state birth-to-three interagency coordinating council and ensure that state agencies involved in the provision of, or payment for, early intervention services to infants and toddlers with disabilities and their families shall coordinate and collaborate in the planning and delivery of such services.

No state or local agency currently providing early intervention services to infants and toddlers with disabilities may use funds appropriated for early intervention services for infants and toddlers with disabilities to supplant funds from other sources.

All state and local agencies shall ensure that the implementation of this chapter will not cause any interruption in existing early intervention services for infants and toddlers with disabilities.

Nothing in this chapter shall be construed to permit the restriction or reduction of eligibility under Title V of the Social Security Act, P.L. 90-248, relating to maternal and child health or Title XIX of the Social Security Act, P.L. 89-97, relating to medicaid for infants and toddlers with disabilities. **43.216.574 Early intervention services—Birth-to-three—Interagency coordinating council—Coordination with counties and communities.** The state birth-to-three interagency coordinating council shall identify and work with county early childhood interagency coordinating councils to coordinate and enhance existing early intervention services and assist each community to meet the needs of infants and toddlers with disabilities and their families. [2016 c 57 § 2; 1992 c 198 § 17. Formerly RCW 43.215.474, 70.195.020.]

**43.216.576 Early intervention services—Interagency agreements.** State agencies providing or paying for early intervention services shall enter into formal interagency agreements with each other and where appropriate, with school districts, counties, and other providers, to define their relationships and financial and service responsibilities. Local agencies or entities, including local school districts, counties, and service providers receiving public money for providing or paying for early intervention services shall enter into formal interagency agreements with each other that define their relationships and financial responsibilities to provide services within each county. In establishing priorities, school districts, counties, and other service providers shall give due regard to the needs of children birth to three years of age and shall ensure that they continue to participate in providing services and collaborate with each other. The interagency agreements shall include procedures for resolving disputes, provisions for establishing maintenance requirements, and all additional components necessary to ensure collaboration and coordination. [1992 c 198 § 16. Formerly RCW 43.215.476, 70.195.030.]

**43.216.578 Birth to three early childhood education and assistance program—Pilot project—Reports.**

(1) Within resources available under the federal preschool development grant birth to five grant award received in December 2018, the department shall develop a plan for phased implementation of a birth to three early childhood education and assistance program pilot project for eligible children under thirty-six months old. Funds to implement the pilot project may include a combination of federal, state, or private sources.

(2) The department may adopt rules to implement the pilot project and may waive or adapt early childhood education and assistance program requirements when necessary to allow for the operation of the birth to three early childhood education and assistance program. The department shall consider early head start rules and regulations when developing the provider and family eligibility requirements and program requirements. Any deviations from early head start standards, rules, or regulations must be identified and explained by the department in its annual report under subsection (6) of this section.

(3)(a) Upon securing adequate funds to begin implementation, the pilot project programs must be delivered through child care centers and family home providers who meet minimum licensing standards and are enrolled in the early achievers program.

(b) The department must determine minimum early achievers ratings scores for programs participating in the pilot project.

(4) When selecting pilot project locations for service delivery, the department may allow each pilot project location to have up to three classrooms per location. When selecting and approving pilot project locations, the department shall attempt to select a combination of rural, urban, and suburban locations. The department shall prioritize locations with programs currently operating early head start, head start, or the early childhood education and assistance program.

(6) Beginning November 1, 2020, and each November 1st thereafter during pilot project activity, the department shall submit an annual report to the governor and legislature that includes a status update that describes the planning work completed, the status of funds secured, and any implementation activities of the pilot project. Implementation activity reports must include a description of the participating programs and number of children and families served. [2019 c 408 § 8.]

(2)(a) The department shall conduct a child fatality review if a child fatality occurs in an early learning program described in *RCW 43.215.400 through 43.215.450 or a licensed child care center or a licensed child care home.

(b) The department shall convene a child fatality review committee and determine the membership of the review committee. The committee shall comprise individuals with appropriate expertise, including but not limited to experts from outside the department with knowledge of early learning licensing requirements and program standards, a law enforcement officer with investigative experience, a representative from a county or state health department, and a child advocate with expertise in child fatalities. The department shall invite one parent or guardian for membership on the child fatality review committee who has had a child die in a child care setting. The department shall ensure that the fatality review team is made up of individuals who had no previous involvement in the case.

(c) The department shall allow the parents or guardians whose child's death is being reviewed to testify before the child fatality review committee.

(d) The primary purpose of the fatality review shall be the development of recommendations to the department and legislature regarding changes in licensing requirements, practice, or policy to prevent fatalities and strengthen safety and health protections for children.

(e) Upon conclusion of a child fatality review required pursuant to this section, the department shall, within one hundred eighty days following the fatality, issue a report on the results of the review, unless an extension has been granted by the governor. Reports must be distributed to the appropriate committees of the legislature, and the department shall create a public web site where all child fatality review reports required under this section must be posted and maintained. A child fatality review report completed pursuant to this section is subject to public disclosure and must be posted on the public web site, except that confidential information may be redacted by the department consistent with the requirements of RCW 13.50.100, 68.50.105, and 74.13.500 through 74.13.525, chapter 42.56 RCW, and other applicable state and federal laws.

(3) The department shall consult with the office of the family and children's ombuds to determine if a review should be conducted in the case of a near child fatality that occurs in an early learning program described in *RCW 43.215.400 through 43.215.450 or licensed child care center or licensed child care home.

(4) In any review of a child fatality or near fatality, the department and the fatality review team must have access to all records and files regarding the child or that are otherwise relevant to the review and that have been produced or retained by the early education and assistance program provider or licensed child care center or licensed family home provider.

(5) The child fatality review committee shall coordinate with local law enforcement to ensure that the fatality or near fatality review does not interfere with any ongoing or potential criminal investigation.

(6)(a) A child fatality or near fatality review completed pursuant to this section is subject to discovery in a civil or administrative proceeding, but may not be admitted into evidence or otherwise used in a civil or administrative proceeding except pursuant to this section.

(b) A department employee responsible for conducting a child fatality or near fatality review, or member of a child fatality or near fatality review team, may not be examined in a civil or administrative proceeding regarding the following:

(i) The work of the child fatality or near fatality review team;

(ii) The incident under review;

(iii) The employee's or member's statements, deliberations, thoughts, analyses, or impressions relating to the work of the child fatality or near fatality review team or the incident under review; or

(iv) Statements, deliberations, thoughts, analyses, or impressions of any other member of the child fatality or near fatality review team, or any person who provided information to the child fatality or near fatality review team, relating to the work of the child fatality or near fatality review team or the incident under review.

(c) Documents prepared by or for a child fatality or near fatality review team are inadmissible and may not be used in a civil or administrative proceeding, except that any document that exists before its use or consideration in a child fatality or near fatality review, or that is created independently of such review, does not become inadmissible merely because it is reviewed or used by a child fatality or near fatality review team. A person is not unavailable as a witness merely because the person has been interviewed by or has provided a statement for a child fatality or near fatality review, but if called as a witness, a person may not be examined regarding the person's interactions with the child fatality or near fatality review including, without limitation, whether the person was interviewed during such review, the questions that were asked during such review, and the answers that the person provided during such review. This section may not be construed as restricting a person from testifying freely in any proceeding regarding his or her knowledge of the incident under review.

(d) The restrictions in this section do not apply in a licensing or disciplinary proceeding arising from an agency's effort to revoke or suspend the license of any licensed professional based in whole or in part upon allegations of wrongdoing in connection with a minor's death or near fatality reviewed by a child fatality or near fatality review team.

(7) The department shall develop and implement procedures to carry out the requirements of this section.

(8) Nothing in this section creates a duty for the office of the family and children's ombuds under RCW 43.06A.030 as related to children in the care of an early learning program described in *RCW 43.215.400 through 43.215.450, a licensed child care center, or a licensed child care home. 43.216.655 Data collection and program evaluation—Reports. (1) The education data center established in RCW 43.41.400 must collect longitudinal, student-level data on all children attending an early childhood education and assistance program. Upon completion of an electronic time and attendance record system, the education data center must collect longitudinal, student-level data on all children attending a working connections child care program. Data collected should capture at a minimum the following characteristics:

(a) Daily program attendance;
(b) Identification of classroom and teacher;
(c) Early achievers program quality level rating;
(d) Program hours;
(e) Program duration;
(f) Developmental results from the Washington kindergarten inventory of developing skills in RCW 28A.655.080; and

(g) To the extent data is available, the distinct ethnic categories within racial subgroups of children and providers that align with categories recognized by the education data center.

(2) The department shall provide early learning providers student-level data collected pursuant to this section that are specific to the early learning provider's program. Upon completion of an electronic time and attendance record system identified in subsection (1) of this section, the department shall provide child care providers student-level data that are specific to the child care provider's program.

(3) The department shall review available research and best practices literature on cultural competency in early learning settings. The department shall review the K-12 components for cultural competency developed by the professional educator standards board and identify components appropriate for early learning professional development.

(4)(a) The Washington state institute for public policy shall conduct a longitudinal analysis examining relationships between the early achievers program quality ratings levels and outcomes for children participating in subsidized early care and education programs.

(b) The institute shall submit the first report to the appropriate committees of the legislature and the early learning advisory council by December 31, 2019. The institute shall submit subsequent reports annually to the appropriate committees of the legislature and the early learning advisory council by December 31st, with the final report due December 31, 2022. The final report shall include a cost-benefit analysis.

(5) By December 31, 2021, and subject to the availability of amounts appropriated for this specific purpose, the Washington state institute for public policy shall update the outcome evaluation of the early childhood education and assistance program required by chapter 16, Laws of 2013 and report to the governor and the legislature on the outcomes of program participants. The evaluation must include the demographics of program participants including race, ethnicity, and socioeconomic status. The evaluation must examine short and long-term impacts on program participants, including high school graduation rates for up to two cohorts. When conducting the evaluation, the institute must consider, to the extent that data is available, the education levels and demographics, including race, ethnicity, and socioeconomic status, of early childhood education and assistance program staff and the effects of full-day programming and half-day programming on outcomes. 43.216.660 Child care services—Declaration of policy. It shall be the policy of the state of Washington to:

(1) Recognize the family as the most important social and economic unit of society and support the central role parents play in child rearing. All parents are encouraged to care for and nurture their children through the traditional methods of parental care at home. The availability of quality, affordable child care is a concern for working parents, the costs of care are often beyond the resources of working parents, and child care facilities are not located conveniently to workplaces and neighborhoods. Parents are encouraged to participate fully in the effort to improve the quality of child care services.

(2) Promote a variety of culturally and developmentally appropriate child care settings and services of the highest possible quality in accordance with the basic principle of continuity of care. These settings shall include, but not be limited to, family day care homes, mini-centers, centers and schools.

(3) Promote the growth, development and safety of children by working with community groups including providers and parents to establish standards for quality service, training of child care providers, fair and equitable monitoring, and salary levels commensurate with provider responsibilities and support services.

(4) Promote equal access to quality, affordable, socio-economically integrated child care for all children and families.

(5) Facilitate broad community and private sector involvement in the provision of quality child care services to foster economic development and assist industry through the department. [2017 3rd sp.s. c 6 § 212; 2006 c 265 § 202; 1989 c 381 § 2; 1988 c 213 § 1. Formerly RCW 43.215.495, 74.13.085.]

Findings—1989 c 381: "The legislature finds that the increasing difficulty of balancing work life and family needs for parents in the workforce has made the availability of quality, affordable child care a critical concern for the state and its citizens. The prospect for labor shortages resulting from the aging of the population and the importance of the quality of the workforce to the competitiveness of Washington businesses make the availability of quality child care an important concern for the state and its businesses. The legislature further finds that making information on child care options available to businesses can help the market for child care adjust to the needs of businesses and working families. The legislature further finds that investments are necessary to promote partnerships between the public and private sectors, educational institutions, and local governments to increase the supply, affordability, and quality of child care in the state." [1989 c 381 § 1.]

43.216.665 Child care workers—Findings—Intent. The legislature finds that as of 2000, child care workers in the state earned an average hourly wage of eight dollars and twenty-two cents, only fifty-eight percent received medical
insurance through employers, only sixty-six percent received paid sick leave, and only seventy-three percent received paid vacation. The legislature further finds that low wages for child care workers create a barrier for individuals entering the profession, result in child care workers leaving the profession in order to earn a living wage in another profession, and make it difficult for child care workers to afford professional education and training. As a result, the availability of quality child care in the state suffers.

The legislature intends to increase wages to child care workers through establishing a child care career and wage ladder that provides increased wages for child care workers based on their work experience, level of responsibility, and education. To the extent practicable within available funds, this child care career and wage ladder shall mirror the successful child care career and wage ladder pilot project operated by the state between 2000 and 2003. While it is the intent of the legislature to establish the vision of a statewide child care career and wage ladder that will enhance employment quality and stability for child care workers, the legislature also recognizes that funding allocations will determine the extent of statewide implementation of a child care career and wage ladder. 43.216.670 Child care provider rules review. In conjunction with child care providers and other early learning leaders, the department shall review and revise child care provider rules in order to emphasize the need for mutual respect among parents, providers, and state staff who enforce rules. Revised rules shall clearly focus on keeping children safe and improving early learning outcomes for children. The department shall develop a plan by July 2007 that outlines the process and timelines to complete the rules review. Nothing in this section changes the department’s responsibility to collectively bargain over mandatory subjects. [2007 c 394 § 7. Formerly RCW 43.215.502.]

Finding—Declaration—Captions not law—2007 c 394: See notes following RCW 43.216.010.

43.216.675 Child care workers—Career and wage ladder. (1) Subject to the availability of funds appropriated for this specific purpose, the department shall establish a child care career and wage ladder in licensed child care centers that meet the following criteria: (a) At least ten percent of child care slots are dedicated to children whose care is subsidized by the state or any political subdivision thereof or any local government; (b) the center agrees to adopt the child care career and wage ladder, which, at a minimum, shall be at the same pay schedule as existed in the previous child care career and wage ladder pilot project; and (c) the center meets further program standards as established by rule pursuant to *section 4, chapter 507, Laws of 2005.

The child care career and wage ladder shall include wage increments for levels of education, years of relevant experience, levels of work responsibility, relevant early childhood education credits, and relevant requirements in the state training and registry system.

(2) The department shall establish procedures for the allocation of funds to implement the child care career and wage ladder among child care centers meeting the criteria identified in subsection (1) of this section. In developing these procedures, the department shall:
(a) Review past efforts or administration of the child care career and wage ladder pilot project in order to take advantage of any findings, recommendations, or administrative practices that contributed to that pilot project’s success;
(b) Consult with stakeholders, including organizations representing child care teachers and providers, in developing an allocation formula that incorporates consideration of geographic and demographic distribution of child care centers adopting the child care career and wage ladder; and
(c) Develop a system for prioritizing child care centers interested in adopting the child care career and wage ladder that is based on the criteria identified in subsection (1) of this section.

(3) Notwithstanding the requirements of subsection (2) of this section, child care centers meeting the criteria in subsection (1) of this section located in urban areas of the department of social and health services region one shall receive a minimum of fifteen percent of the funds allocated through the child care career and wage ladder, and of these centers, child care centers meeting the criteria in subsection (1) of this section participating in the Spokane tiered reimbursement pilot project shall have first priority for child care career and wage ladder funding. [2006 c 265 § 205; 2005 c 507 § 2. Formerly RCW 43.215.505, 74.13.098.]

*Reviser’s note: Section 4 of this act was vetoed.

43.216.680 Child care workers—Career and wage ladder—Wage increases. Child care centers adopting the child care career and wage ladder established pursuant to *RCW 43.215.505 shall increase wages for child care workers who have earned a high school diploma or high school equivalency certificate as provided in RCW 28B.50.536, gain additional years of experience, or accept increasing levels of responsibility in providing child care, in accordance with the child care career and wage ladder. The adoption of a child care career and wage ladder shall not prohibit the provision of wage increases based upon merit. The department shall pay wage increments for child care workers employed by child care centers adopting the child care career and wage ladder established pursuant to *RCW 43.215.505 who earn early childhood education credits or meet relevant requirements in the state training and registry system, in accordance with the child care career and wage ladder. [2013 c 39 § 20; 2006 c 265 § 206; 2005 c 507 § 3. Formerly RCW 43.215.510, 74.13.099.]

This subsection (2)(b) does not apply if it is determined that the measles, mumps, and rubella vaccine is no longer contraindicated.

(3) The child day care center shall maintain the documents required in subsection (1)(a) or (b) of this section in the person's personnel record maintained by the child day care center.

The department shall not regulate these activities nor shall the department bear any civil liability under chapter 74.15 RCW for the twelve-month pilot period. (7) Coordinate with the statewide child care resource and referral network and local child care resource and referral organizations for the provision of training and technical assistance to child care providers;

(8) Collect and assemble information regarding the availability of insurance and of federal and other child care funding to assist state and local agencies, businesses, and other child care providers in offering child care services;

(9) Subject to the availability of amounts appropriated for this specific purpose, increase the base rate for all child care providers by ten percent;

(10) Subject to the availability of amounts appropriated for this specific purpose, provide tiered subsidy rate enhancements to child care providers if the provider meets the following requirements:

   (a) The provider enrolls in quality rating and improvement system levels 2, 3, 4, or 5;

   (b) The provider is actively participating in the early achievers program;

   (c) The provider continues to advance towards level 5 of the early achievers program; and

   (d) The provider must complete level 2 within thirty months or the reimbursement rate returns the level 1 rate; and

   (11) Require exempt providers to participate in continuing education, if adequate funding is available. [2017 3rd sp.s. c 6 § 213; 2013 c 323 § 8; 2006 c 265 § 204; 2005 c 490 § 10; 1997 c 58 § 404; 1993 c 453 § 2; 1991 sp.s.c 16 § 924; 1989 c 381 § 5. Formerly RCW 43.215.545, 74.13.0903.]

Finding—1997 c 58: “The legislature finds that informed choice is consistent with individual responsibility and that parents should be given a range of options for available child care while participating in the program.” [1997 c 58 § 401.]

Finding—1993 c 453: “The legislature finds that building a system of quality, affordable child care requires coordinated efforts toward constructing partnerships at state and community levels. Through the office of child care policy, the department of social and health services is responsible for facilitating the coordination of child care efforts and establishing working partnerships among the affected entities within the public and private sectors. Through these collaborative efforts, the office of child care policy encouraged the coalition of locally based child care resource and referral agencies into a statewide network. The statewide network, in existence since 1989, supports the development and operation of community-based resource and referral programs, improves the quality and quantity of child care available in Washington by fostering statewide strategies, and generates then nurtures effective public-private partnerships. The statewide network provides important training, standards of service, and general technical assistance to its locally based child care resource and referral programs. The locally based programs enrich the availability, affordability, and quality of child care in their communities.” [1993 c 453 § 1.]

43.216.715 Child care partnership employer liaison. An employer liaison position is established in the department to be colocated with the department of commerce. The employer liaison shall, within appropriated funds:

Findings—Severability—1989 c 381: See notes following RCW 43.216.660.

43.216.720 Child care expansion grant fund. (1) The legislature recognizes that a severe shortage of child care exists to the detriment of all families and employers throughout the state. Many workers are unable to enter or remain in the workforce due to a shortage of child care resources. The high costs of starting a child care business create a barrier to the creation of new slots, especially for children with special needs.

(2) A child care expansion grant fund is created in the custody of the secretary of the department of social and health services. Grants shall be awarded on a one-time only basis to persons, organizations, or schools needing assistance to start a child care center or mini-center as defined by the department by rule, or to existing licensed child care providers, including family home providers, for the purpose of making capital improvements in order to accommodate handicapped children as defined under chapter 72.40 RCW, sick children, or infant care, or children needing nighttime care. No grant may exceed ten thousand dollars. Start-up costs shall not include operational costs after the first three months of business.

(3) Child care expansion grants shall be awarded on the basis of need for the proposed services in the community, within appropriated funds.

(4) The department shall adopt rules under chapter 34.05 RCW setting forth criteria, application procedures, and methods to assure compliance with the purposes described in this section. [1988 c 213 § 3. Formerly RCW 43.215.555, 74.13.095.] Additional notes found at www.leg.wa.gov

43.216.725 Subsidized child care report and assessment. The department and the department of social and health services, in consultation with interested individuals and organizations, shall jointly:

(1) Identify different options to track subsidized child care attendance, including methods using a land line or cellular telephone, a computer, a point of sale system, or some combination of these methods and report their recommended method to the legislature no later than December 31, 2011.

Each department’s recommendations must include implementation issues to be addressed and a proposed implementation timeline, and should assume a January 2013 implementation date for the attendance tracking system. The legislature shall review the recommendations and authorize implementation. The method that is chosen must interface smoothly with the current and future payment systems for subsidized child care payments.

(2) Conduct an assessment of the current subsidized child care eligibility determination system and develop recommendations to improve the accuracy, efficiency, and responsiveness of the system, including consideration of the most appropriate entity or entities to make eligibility determinations. The results of the assessment shall be reported to the legislature no later than December 31, 2011. [2011 1st sp.s. c 42 § 12. Formerly RCW 43.215.560.]

Findings—Intent—Effective date—2011 1st sp.s. c 42: See notes following RCW 74.04A.260.

Findings—2011 1st sp.s. c 42: See note following RCW 74.04.004.

43.216.730 Child care subsidy fraud—Referral—Collection of overpayments. (1) The department must refer all suspected incidents of child care subsidy fraud to the department of social and health services office of fraud and accountability for appropriate investigation and action.

(2) For the purposes of this section, "fraud" has the definition in RCW 74.04.004.

(3) This section does not limit or preclude the department or the department of social and health services from establishing and collecting overpayments consistent with federal regulation or seek other remedies that may be legally available, including but not limited to criminal investigation or prosecution. [2013 2nd sp.s. c 29 § 2. Formerly RCW 43.215.562.]

Finding—Intent—2013 2nd sp.s. c 29: "The legislature finds that child care providers positively contribute to local communities by offering important services that support the well-being of children and their families. The legislature further recognizes that most child care providers make every effort to ensure that subsidy payments received are correct and align with agency rules. When a child care provider is found to have fraudulently accepted subsidy payments, however, it is the legislature's intent to prohibit such a provider from receiving future child care subsidy payments." [2013 2nd sp.s. c 29 § 1.]

43.216.735 Placement of children ages sixty months through six years. For children ages sixty months through six years, the child's school enrollment status may not be used as a reason to require the child be placed within a specific mixed-age group. Nothing in this section changes or requires the department to change the staff-to-child ratio requirements for mixed-age groups that include children who are ages thirty months through six years. [2016 c 169 § 2. Formerly RCW 43.215.564.]

Finding—Intent—2016 c 169: "(1) The legislature recognizes that the high cost of quality child care places a heavy burden on Washington's poor families. The legislature further acknowledges the administrative burden unnecessary regulations place on child care providers and the families they serve. The legislature finds that under current rule, child care providers may not serve five year olds attending school in the same group as five year olds not attending school.

(2) The legislature intends to allow child care centers to serve kindergartners in a mixed group or classroom without having to go through a waiver process. The legislature further intends to streamline the delivery of services to children while continuing to protect their safety and well-being." [2016 c 169 § 1.]

[Title 43 RCW—page 741]

(2) The department shall adopt rules to implement the pilot project and may waive or adapt licensing requirements when necessary to allow for the operation of outdoor classrooms.

(3) As part of the pilot project, the department shall explore options for developing a quality rating and improvement system for outdoor preschools. Options may include, but are not limited to, adapting the early achievers program to assess quality in outdoor learning environments, as well as excluding or replacing the early achievers indoor environmental rating scale. The department may receive and expend funds from philanthropic organizations in order to implement this subsection and subsection (6) of this section. The department shall include a discussion of options and recommendations in the final report required under subsection (8) of this section.

(4) The department shall select up to ten pilot locations during the first year of the pilot project. Beginning August 31, 2018, additional outdoor, nature-based early learning and child care programs may apply to participate in the pilot project. When selecting and approving pilot project locations, the department shall aim to select a mix of rural, urban, and suburban locations, and may give priority to:

(a) Areas where there are few or limited licensed early learning programs;

(b) Areas of need where licensed early learning programs are at or near full capacity, and where access may be restricted by one or more enrollment wait-lists; and

(c) Areas where an outdoor early learning program would provide more family choice.

(5) A child care or early learning program operated by a federally recognized tribe may participate in the pilot project through an interlocal agreement between the tribe and the department. The interlocal agreement must reflect the government-to-government relationship between the state and the tribe, including recognition of tribal sovereignty.

(6) Subject to the availability of funds, the department may convene an advisory group of outdoor, nature-based early learning practitioners to inform and support implementation of the pilot project.

(7) For purposes of this section, "outdoor, nature-based early learning and child care program" means an agency-offered program operated primarily outdoors in which children are enrolled on a regular basis for three or more hours per day.

(8) The department shall provide the following reports to the legislature and the governor:

(a) By January 15, 2018, and annually thereafter through January 15, 2020, a brief status report describing implementation of the pilot project, including a description of participating providers and the number of children and families being served;

(b) By November 30, 2020, a full report on findings from the pilot project, including recommendations for modifying or expanding the availability of outdoor, nature-based early learning and child care programs. The final report also must include a discussion of potential options to mitigate the uncertainty for families and participating providers during the final six months of the pilot project when legislation may be pending.

(9) The provisions of this section are subject to appropriation.

(10) This section expires August 1, 2021. [2017 c 162 § 2. Formerly RCW 43.215.566.]

Findings—Intent—2017 c 162: "The legislature finds that, over the past decade, more than forty outdoor, nature-based early learning and child care programs have opened in Washington, several of which are in high demand based on existing wait-lists. The legislature finds, however, that these programs currently are unlicensed and thus unable to offer full-day programs, which many working families are seeking. Unlicensed outdoor programs also are unable to serve families who are eligible for assistance through the working connections child care program. The legislature further finds that the outdoor preschool model could help expand the number of high quality early learning opportunities available to families throughout Washington, particularly in areas where preschool-appropriate indoor space is unavailable or unaffordable. Additionally, when early learning programs spend less on their physical facilities, they are able to spend more on recruiting and retaining teachers and other early learning professionals. The legislature also finds that research on outdoor preschools operating in Scandinavian countries for decades has demonstrated a positive impact on children's development, including improved cognitive and social skills when children transition to grade school. The legislature, therefore, intends to establish a pilot project to license outdoor preschools in order to expand access to affordable, high quality early learning programs, and to further investigate the benefits of outdoor, nature-based classrooms for Washington's children and families." [2017 c 162 § 1.]

43.216.745 Child care consultation program—Creation, operation, and duties. (1) Subject to the availability of amounts appropriated for this specific purpose, the department shall establish a child care consultation program linking child care providers with evidence-based, trauma-informed, and best practice resources regarding caring for infants and young children who present behavioral concerns or symptoms of trauma. The department may contract with an entity with expertise in child development and early learning programs in order to operate the child care consultation program.

(2) In establishing and operating the program, the department or contracted entity shall: (a) Assist child care providers in recognizing the signs and symptoms of trauma in children; (b) provide support and guidance to child care staff; (c) consult and coordinate with parents, other caregivers, and experts or practitioners involved with the care and well-being of the young children; and (d) provide referrals for children who need additional services. [2017 c 202 § 5. Formerly RCW 43.215.570.]

Findings—Intent—2017 c 202: See note following RCW 74.09.492.

43.216.749 Child care subsidy rates—Use of cost model. (Expires January 30, 2025.) (1) By January 1, 2025, the department of children, youth, and families must use the child care cost model developed under RCW 43.330.527 to determine child care subsidy rates.

(2) This section expires January 30, 2025. [2019 c 368 § 7.]

Findings—Intent—Short title—2019 c 368: See notes following RCW 43.330.525.

(a) A critical incident protocol that establishes a process for appropriately responding to traumatic or high stress incidents in a manner that provides employees with proper mental health and stress management support, guidance, and education; and

(b) Peer counseling from someone trained in providing peer counseling and support.

(2) The department shall systematically collect workforce data regarding child welfare workers including staff turnover, workload distribution, exit interviews, and regular staff surveys to assess organizational culture and psychological safety.

(3) The department shall make a concerted effort to increase efficiency through the reduction of paperwork.

(4) The department shall develop a scientifically based method for measuring the direct service time of child welfare workers and contracted resources.

(5) The department shall convene a technical work group to develop a workload model including standardized ratios for supervisors, clerical, and other child welfare worker support staff and child welfare worker caseload ratios by case type.

(a) The technical work group must include:

(i) Two child welfare worker representatives, one from west of the crest of the Cascade mountain range, and one from east of the crest of the Cascade mountain range;

(ii) Fiscal staff from the department;

(iii) Human resources staff from the department; and

(iv) A representative from the office of financial management.

(b) The department shall provide a report to the relevant committees of the legislature in compliance with RCW 43.01.036 by December 1, 2019, that includes a description of the workload model recommended by the technical work group and the steps the department is taking to implement this model.

(c) The technical work group established in this section shall continue to meet and provide an annual report to the relevant committees of the legislature in compliance with RCW 43.01.036 by December 1st of each year regarding any recommended modifications to the workload model and steps the department is taking to implement those changes.

(b) "Critical incident" means an incident that is unusual and involves a perceived or actual threat of harm to an individual which includes but is not limited to child fatalities or near fatalities. [2019 c 470 § 28.]

43.216.7501 Child welfare work—Workplace culture and worker training reports—Training improvement plan. (Expires July 1, 2021.) (1) The legislature encourages the child welfare division of the department to incorporate reflective supervision principles and recognizes that the cumulative stress of child welfare work, workload for caseworkers and supervisors, organizational support levels, access to resources, insufficient training, limited direct service time, lack of clear expectations, limited access to technology, and burdensome paperwork contribute to high turnover. Child welfare workers who experience secondary, work-related trauma should be given the necessary support to process intense emotional events and the tools to build resiliency.

(2) The department shall provide a report on the department's current efforts to improve workplace culture to the relevant committees of the legislature in compliance with RCW 43.01.036 by December 1, 2019. The report must include results and activities related to the department's organizational change management initiatives, efforts related to the federal program improvement plan, and the department's existing peer support program.

(3) The department and any external entity responsible for providing child welfare worker training shall provide a report on current child welfare worker training to the relevant committees of the legislature in compliance with RCW 43.01.036 by September 1, 2019, that includes:

(a) A review of the effectiveness of the current course curriculum for supervisors;

(b) An evaluation of the preparedness of new child welfare workers;

(c) An inventory of the trauma-informed trainings for child welfare workers and supervisors;

(d) An inventory of the reflective supervision principles embedded within trainings for child welfare workers and supervisors; and

(5) For purposes of this section, "child welfare worker" means an employee of the department whose job includes supporting or providing child welfare services as defined in RCW 74.13.020 or child protective services as defined in RCW 26.44.020.

(6) This section expires July 1, 2021. [2019 c 470 § 26.]

[2018 c 52 § 2.]

Effective date—2018 c 52: "This act takes effect July 1, 2019." [2018 c 52 § 7.]

Intent—Finding—2018 c 52: "(1) The legislature recognizes that child care subsidy programs include the working connections child care program and the seasonal child care program. Child care subsidy programs provide children with stable, nurturing, and enriching activities while parents are supported in stable employment that contributes to financial independence. The legislature acknowledges that the department of early learning develops subsidized child care policy and conducts quality assurance for provider payments and the department of social and health services is responsible for other aspects of service delivery. The legislature intends for these child care subsidy programs to be thoughtfully integrated into the department of children, youth, and families while maintaining a delivery system that continues to support families and providers with consistent, accurate, and effective services.

(2) The legislature finds that the state of Washington conservation corps, the veterans conservation corps, and other state and nonprofit service corps contribute significantly to the priorities of state government to protect natural resources, including Puget Sound, while providing meaningful work experience for the state's youth, veterans, unemployed, and underemployed workforces.

(3) The legislature further finds that it is important to stretch limited public resources to advance the state's natural resource management priorities. Transformation of natural resource management and service delivery, including the creation of strategic partnerships among agencies and nongovernmental partners, will increase the efficiency and effectiveness of the expenditure of federal, state, and local funds for clean water and habitat rehabilitation projects.

(4) The legislature further finds that there are efficiencies to be gained by streamlining how the various conservation corps are administered, managed, funded, and deployed by the natural resources agencies. There are further efficiencies to be gained through coordinating the conservation corps with other state service corps programs, recruitment activities, and through public-private partnerships.

(5) The legislature further finds that the state should seek to expand the conservation corps in all areas of the state, deploying the corps to work on projects that advance established priorities including, but not limited to, the cleanup and rehabilitation of Puget Sound ecosystem, oil spill response and cleanup, salmon recovery, and the reduction of wildlife and forest health hazards statewide.

(6) The legislature further finds that individuals with developmental disabilities would benefit from experiencing a meaningful work experience and learning the value of labor and of membership in a productive society. As such, the legislature urges state agencies that are participating in the Washington conservation corps program to consider for enrollment in the program individuals with developmental disabilities, as defined in RCW 71A.10.020.

(7)(a) Therefore, it is the intent of the legislature to maintain the conservation corps statewide, to collaborate with the veterans conservation corps, to establish the Puget Sound corps, to streamline how government administrators and manages the state's conservation corps to more efficiently expend the state's resources toward priority outcomes, including the recovery of the Puget Sound ecosystem to health by 2020, to increase opportunities for meaningful work experience, and to authorize public-private partnerships as key element of corps activities.

(b) It is also the intent of the legislature to integrate into the Puget Sound corps the therapeutic and reintegration intent of the veterans conservation corps for veterans involved in the Puget Sound corps." [2011 c 20 § 1.]

### 43.220.020 Conservation corps created—Puget Sound corps created.

(1) The Washington conservation corps is created. The department of ecology must administer the corps as a partnership with the departments of natural resources and fish and wildlife, the state parks and recreation commission, and when appropriate, other agencies and non-profit organizations to advance the program goals outlined in RCW 43.220.045.

(2) The Puget Sound corps is created as a distinct program within the Washington conservation corps focused on the implementation of the specific program goals outlined in RCW 43.220.045. [2011 c 20 § 2; 1999 c 280 § 1; 1994 c 264 § 32; 1988 c 36 § 23; 1983 1st ex.s. c 40 § 1.]

**Findings—Intent—2011 c 20:** "(1) The legislature finds that the Washington conservation corps, the veterans conservation corps, and other state and nonprofit service corps contribute significantly to the priorities of state government to protect natural resources, including Puget Sound, while providing meaningful work experience for the state's youth, veterans, unemployed, and underemployed workforces.

(2) The legislature further finds that the long-term health of the economy of Washington depends on the sustainable management of its natural resources and that the livelihoods and revenues produced by Washington's forests, agricultural lands, estuaries, waterways, and watersheds would be enhanced by targeted, streamlined, and prioritized investments in clean water and habitat restoration.

(3) The legislature further finds that it is important to stretch limited public resources to advance the state's natural resource management priorities. Transformation of natural resource management and service delivery, including the creation of strategic partnerships among agencies and nongovernmental partners, will increase the efficiency and effectiveness of the expenditure of federal, state, and local funds for clean water and habitat rehabilitation projects.

(4) The legislature further finds that there are efficiencies to be gained by streamlining how the various conservation corps are administered, managed, funded, and deployed by the natural resources agencies. There are further efficiencies to be gained through coordinating the conservation corps with other state service corps programs, recruitment activities, and through public-private partnerships.

(5) The legislature further finds that the state should seek to expand the conservation corps in all areas of the state, deploying the corps to work on projects that advance established priorities including, but not limited to, the cleanup and rehabilitation of Puget Sound ecosystem, oil spill response and cleanup, salmon recovery, and the reduction of wildlife and forest health hazards statewide.

(6) The legislature further finds that individuals with developmental disabilities would benefit from experiencing a meaningful work experience and learning the value of labor and of membership in a productive society. As such, the legislature urges state agencies that are participating in the Washington conservation corps program to consider for enrollment in the program individuals with developmental disabilities, as defined in RCW 71A.10.020.

(7)(a) Therefore, it is the intent of the legislature to maintain the conservation corps statewide, to collaborate with the veterans conservation corps, to establish the Puget Sound corps, to streamline how government administrators and manages the state's conservation corps to more efficiently expend the state's resources toward priority outcomes, including the recovery of the Puget Sound ecosystem to health by 2020, to increase opportunities for meaningful work experience, and to authorize public-private partnerships as a key element of corps activities.

(b) It is also the intent of the legislature to integrate into the Puget Sound corps the therapeutic and reintegration intent of the veterans conservation corps for veterans involved in the Puget Sound corps." [2011 c 20 § 1.]

Investment accounting: RCW 43.33A.180.

43.250.010 Purpose. The purpose of this chapter is to enable eligible governmental entities, including community and technical college districts, the state board for community and technical colleges as established in chapter 28B.50 RCW, public four-year institutions of higher education, qualifying federally recognized tribes or federally recognized political subdivisions thereof, and other governmental entities to participate with the state in providing maximum opportunities for the investment of surplus public funds consistent with the safety and protection of such funds. The legislature finds and declares that the public interest is found in providing maximum prudent investment of surplus funds, thereby reducing the need for additional taxation. The legislature also recognizes that not all eligible governmental entities are able to maximize the return on their temporary surplus funds. The legislature therefore provides in this chapter a mechanism whereby eligible governmental entities may, at their option, utilize the resources of the state treasurer's office to maximize the potential of surplus funds while ensuring the safety of those funds. [2010 1st sp.s. c 10 § 1; 2001 c 31 § 1; 1996 c 268 § 1; 1986 c 294 § 1.]

(iv) Evidence of active participation in preparation of the proposal and specific commitments to implementing the community-wide agenda by leadership from education, law enforcement, local government, tribal government, and treatment entities in the community, and the opportunity for meaningful involvement from others such as neighborhood and citizen groups, businesses, human service, health and job training organizations, and other key elements of the community, particularly those whose responsibilities in law enforcement, treatment, prevention, education, or other community efforts provide direct, ongoing contact with substance abusers or those who exhibit violent behavior, or those at risk for alcohol, tobacco, or other drug abuse, or violent behavior;

(v) Evidence of additional local resources committed to the applicant's strategy totaling at least twenty-five percent of funds awarded under this section. These resources may consist of public or private funds, donated goods or services, and other measurable commitments, including in-kind contributions such as volunteer services, materials, supplies, physical facilities, or a combination thereof; and

(iv) An explanation of who was involved in development of the strategy and what specific commitments have been made to carry it out;

(v) Identification of existing prevention, education, treatment, and law enforcement resources committed by the applicant, including financial and other support, and an explanation of how the applicant's strategy involves and builds on the efforts of existing organizations or coalitions that have been carrying out community efforts against alcohol, tobacco, or other drug abuse, or violence;

(vi) Identification of activities that address specific objectives in the strategy for which additional resources are needed;

[1989 c 271 § 318.]

priorities that would help communities implement their strategies against alcohol, tobacco, or other drug abuse, or violence. The department of community, trade, and economic development shall review and respond to those suggestions making necessary changes where feasible, making recommendations to the legislature where appropriate, and providing an explanation as to why suggested changes cannot be accomplished, if the suggestions cannot be acted upon. The legislature also recognizes that these services are most effectively planned and provided at the local level through the combined efforts of concerned community and citizens groups, treatment providers, and local government officials. The legislature further recognizes that adequate services for victims is not only a matter of justice for the victim, but also a method by which additional abuse can be prevented.

The legislature intends to enhance the community-based services available to the victims of sexual assault by:

(1) Providing consolidated funding support for local programs which provide services to victims of sexual assault, as defined in RCW 70.125.030;

(2) Providing technical assistance and support to help communities plan for and provide victim services;

43.280.011 Intent—Approval of committee recommendations. The Washington state sexual assault services advisory committee issued a report to the department of commerce and the department of social and health services in June of 1995. The committee made several recommendations to improve the delivery of services to victims of sexual assault: (1) Consolidate the administration and funding of sexual assault and abuse services in one agency instead of splitting those functions between the department of social and health services and the department of commerce; (2) adopt a funding allocation plan to pool all funds for sexual assault services and to distribute them across the state to ensure the delivery of core and specialized services; (3) establish service, data collection, and management standards and outcome measurements for recipients of grants; and (4) create a data collection system to gather pertinent data concerning the delivery of sexual assault services to victims.

The legislature approves the recommendations of the advisory committee and consolidates the functions and funding for sexual assault services in the department of commerce to implement the advisory committee's recommendations. [2012 c 29 § 2; 1996 c 123 § 1.]

(7) The committee expires June 30, 2015. [2013 c 121 § 2.]

Intent—Finding—2013 c 121: "The legislature recognizes there are many state agencies and private organizations that might be called on to provide services to victims of sex trafficking. Victims of human trafficking are often in need of services such as emergency medical attention, food and shelter, vocational and English language training, mental health counseling, and legal support. The state intends to improve the response of state, local, and private entities to incidents of trafficking of humans. Victims would be better served if there is an established, coordinated system of identifying the needs of sex trafficking victims, training of service delivery agencies and staff, timely and appropriate delivery of services, and better investigations and prosecutions of trafficking.

Leadership in providing services to victims of sex trafficking also extends beyond government efforts and is grounded in the work of highly dedicated individuals and community-based groups. Without these efforts the struggle against human trafficking will be very difficult to win. The legislature, therefore, finds that such efforts merit regular public recognition and appreciation. Such recognition and appreciation will encourage the efforts of all persons to end sex trafficking, and provide the public with information and education about the necessity of its involvement in this struggle." [2013 c 121 § 1.]

(2) The training shall be provided where possible by an entity that has experience in developing coalitions, training, programs, and policy on human trafficking in Washington.

(3) The entity will provide or coordinate training for law enforcement personnel, prosecutors, and court personnel covering Washington's state antitrafficking laws, the investigation of sex trafficking cases, and the adjudication of sex trafficking cases. The training shall encourage interdisciplinary coordination among criminal justice personnel, build cultural competency, and develop understanding of diverse victim populations including children, youth, and adults.

(4) The office shall provide a biennial report to the appropriate policy committees of the legislature on the statewide training program, with a focus on the effectiveness of the training. [2015 c 101 § 2.]

Finding—2015 c 101: "The legislature finds that in order to reduce instances of human trafficking in our state there needs to be a cohesive and concerted statewide training program provided to those in the law enforcement and legal community. This training is intended to help promote the use of existing laws to initiate sustainable and viable investigations, prosecutions, and adjudications in all jurisdictions across the state." [2015 c 101 § 1.]

(2) Any funds remitted to the department of commerce pursuant to RCW 9.68A.105, 9A.88.120, or 9A.88.140 shall be spent on the fulfillment of the duties described in subsection (1) of this section. Any remaining funds may be spent on the administration of grants for services for victims of the commercial sex trade, consistent with this chapter. [2013 c 121 § 7.]

Intent—Finding—2013 c 121: See note following RCW 43.280.091.

43.280.110 Public restrooms—Model notice on human trafficking—Voluntary posting—Report to legislature. (1) Every establishment that maintains restrooms for use by the public may voluntarily, upon availability of the model notice as described in subsection (2) of this section, post a notice that complies with the requirements of this section in a conspicuous place within all restrooms of the estab-
lishment in clear view of the public and employees. The office of crime victims advocacy may work with businesses and other establishments and with human trafficking victim advocates to adopt policies for the placement of such notices.

(2)(a) The model notice that may be voluntarily posted pursuant to subsection (1) of this section may be in a variety of languages and include toll-free telephone numbers a person may call for assistance, including the number for the national human trafficking resource center and the number for the Washington state office of crime victims advocacy.

(b) The office of crime victims advocacy shall review and approve the initial form and content of the model notice to ensure the notice is appropriate for public display and likely to be an effective communication to reach human trafficking victims. The office of crime victims advocacy shall review the model notice on a yearly basis to ensure the information provided remains accurate.

(3) The cost of production, printing, and posting of the model notices shall be paid by a participating nonprofit at no cost to the state.

(4) The office of crime victims advocacy must provide a report to the appropriate committees of the legislature no later than December 31, 2016, regarding the voluntary participation in this effort. [2015 c 273 § 5.]

43.290.020 Authority of office.
43.290.900 Effective date—1991 c 24.

43.290.005 Finding—Purpose. The legislature finds that it is in the public interest to create an office of international relations and protocol in order to: Make international relations and protocol a broad-based, focused, and functional part of state government; develop and promote state policies that increase international literacy and cross-cultural understanding among Washington state's citizens; expand Washington state's international cooperation role in such areas as the environment, education, science, culture, and sports; establish coordinated methods for responding to the increasing number of inquiries by foreign governments and institutions seeking cooperative activities within Washington state; provide leadership in state government on international relations and assistance to the legislature and state elected officials on international issues affecting the state; assist with multistate international efforts; and coordinate and improve communication and resource sharing among various state offices, agencies, and educational institutions with international programs.

It is the purpose of this chapter to bring these functions together in a new office under the office of the governor in order to establish a visible, coordinated, and comprehensive approach to international relations and protocol. [1991 c 24 § 1.]

Additional notes found at www.leg.wa.gov

43.290.010 Office created. The office of international relations and protocol is created under the office of the governor. The office shall serve as the state's official liaison and protocol office with foreign governments. The governor shall appoint a director of the office of international relations and protocol, who shall serve at the pleasure of the governor. Because of the diplomatic character of this office, the director and staff will be exempt from the provisions of chapter 41.06 RCW. The director will be paid a salary to be fixed by the governor in accordance with the provisions of RCW 43.03.040. The director may hire such personnel as may be necessary for the general administration of the office. To the extent permitted by law, state agencies may temporarily loan staff to the office of international relations and protocol to assist in carrying out the office's duties and responsibilities under this chapter. An arrangement to temporarily loan staff must have the approval of the staff members to be loaned and the directors of the office and the agencies involved in the loan. [1991 c 24 § 2.]

43.290.020 Authority of office. The office of international relations and protocol may:

(1) Create temporary advisory committees as necessary to deal with specific international issues. Advisory committee representation may include external organizations such as the Seattle consular corps, world affairs councils, public ports, world trade organizations, private nonprofit organizations dealing with international education or international environmental issues, organizations concerned with international understanding, businesses with experience in international relations, or other organizations deemed appropriate by the director.

(2) Accept or request grants or gifts from citizens and other private sources to be used to defray the costs of appropriate hosting of foreign dignitaries, including appropriate gift-giving and reciprocal gift-giving, or other activities of the office. The office shall open and maintain a bank account into which it shall deposit all money received under this subsection. Such money and the interest accruing thereon shall not constitute public funds, shall be kept segregated and apart from funds of the state, and shall not be subject to appropriation or allotment by the state or subject to chapter 43.88 RCW. [1991 c 24 § 4.]

43.290.900 Effective date—1991 c 24. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1991. [1991 c 24 § 15.]

It will simplify licensing, amplify research, increase field staff, avoid duplication, and magnify enforcement of laws and rules. It will provide all fishers, hunters, and observers of fish and wildlife with a single source of consistent policies, procedures, and access. [1993 sp.s. c 2 § 1.]

43.300.010 Department created—Transfer of powers, duties, and functions. There is hereby created a department of state government to be known as the department of fish and wildlife. The department shall be vested with all powers and duties transferred to it under this chapter and such other powers and duties as may be authorized by law. All powers, duties, and functions of the department of fisheries and the department of wildlife are transferred to the department of fish and wildlife. All references in the Revised Code of Washington to the director or the department of fisheries or the director or department of wildlife shall be construed to mean the director or department of fish and wildlife. [1993 sp.s. c 2 § 2.]

43.300.020 Definitions. As used in this chapter, unless the context indicates otherwise:

43.300.060 Enforcement in accordance with RCW 43.05.100 and 43.05.110. Enforcement action taken after July 23, 1995, by the director or the department shall be in accordance with RCW 43.05.100 and 43.05.110. [1995 c 403 § 627.]

Findings—Short title—Intent—1995 c 403: See note following RCW 34.05.328.

43.300.070 Exchange of tidelands with private or public landowners. (1) The department of fish and wildlife may exchange the tidelands and shorelands it manages with private or public landowners if the exchange is in the public interest.

(2) As used in this section, an exchange of tidelands and shorelands is in the public interest if the exchange would provide significant fish and wildlife habitat or public access to the state's waterways. [1997 c 209 § 3.]

Finding—1997 c 209: "The legislature finds that the department of fish and wildlife manages a large amount of public land and that the department may have opportunities to improve the quality of its landholdings by participating in an exchange with private landowners or other public entities. The legislature declares that it is in the public interest to allow the department to exchange land with private landowners or with public entities if the exchange would provide significant fish and wildlife habitat or public access to the state's waterways." [1997 c 209 § 1.]

Additional notes found at www.leg.wa.gov

43.300.080 Cost-reimbursement agreements. (1) The department may enter into a written cost-reimbursement agreement with a permit applicant or project proponent to recover from the applicant or proponent the reasonable costs incurred by the department in carrying out the requirements of this chapter, as well as the requirements of other relevant laws, as they relate to permit coordination, environmental review, application review, technical studies, and permit processing.

(2) The cost-reimbursement agreement shall identify the tasks and costs for work to be conducted under the agreement. The agreement must include a schedule that states:
(a) The estimated number of weeks for initial review of the permit application;
(b) The estimated number of revision cycles;
(c) The estimated number of weeks for review of subsequent revision submittals;
(d) The estimated number of billable hours of employee time;
(e) The rate per hour; and
(f) A date for revision of the agreement if necessary.

(3) The written cost-reimbursement agreement shall be negotiated with the permit applicant or project proponent. Under the provisions of a cost-reimbursement agreement, funds from the applicant shall be used by the department to contract with an independent consultant to carry out the work covered by the cost-reimbursement agreement. The department may also use funds provided under a cost-reimbursement agreement to hire temporary employees, to assign current staff to review the work of the consultant, to provide necessary technical assistance when an independent consultant with comparable technical skills is unavailable, and to recover reasonable and necessary direct and indirect costs that arise from processing the permit. The department shall, in developing the agreement, ensure that final decisions that
involve policy matters are made by the agency and not by the consultant. The department shall make an estimate of the number of permanent staff hours to process the permits, and shall contract with consultants or hire temporary employees to replace the time and functions committed by these permanent staff to the project. The billing process shall provide for accurate time and cost accounting and may include a billing cycle that provides for progress payments.

(4) The cost-reimbursement agreement must not negatively impact the processing of other permit applications. In order to maintain permit processing capacity, the agency may hire outside consultants, temporary employees, or make internal administrative changes. Consultants or temporary employees hired as part of a cost-reimbursement agreement or to maintain agency capacity are hired as agents of the state not of the permit applicant. The restrictions of chapter 42.52 RCW apply to any cost-reimbursement agreement, and to any person hired as a result of a cost-reimbursement agreement. Chapter 43.310 RCW YOUTH GANGS

Sections
43.310.005 Finding.
43.310.007 Intent—Prevention and intervention pilot programs.
43.310.010 Definitions.
43.310.020 Gang risk prevention and intervention pilot programs—Request for proposals.
43.310.030 Gang risk prevention and intervention pilot programs—Scope.
43.310.040 Cultural awareness retreats.

43.310.005 Finding. The legislature finds and declares that:

(1) The number of youth who are members and associates of gangs and commit gang violence has significantly increased throughout the entire greater Puget Sound, Spokane, and other areas of the state;

(2) Youth gang violence has caused a tremendous strain on the progress of the communities impacted. The loss of life, property, and positive opportunity for growth caused by youth gang violence has reached intolerable levels. Increased youth gang activity has seriously strained the budgets of many local jurisdictions, as well as threatened the ability of the educational system to educate our youth;

(3) Among youth gang members the high school dropout rate is significantly higher than among nongang members. Since the economic future of our state depends on a highly educated and skilled workforce, this high school dropout rate threatens the economic welfare of our future workforce, as well as the future economic growth of our state;

(4) The unemployment rate among youth gang members is higher than that among the general youth population. The unusual unemployment rate, lack of education and skills, and the increased criminal activity could significantly impact our future prison population;

(5) Most youth gangs are subcultural. This implies that gangs provide the nurturing, discipline, and guidance to gang youth and potential gang youth that is generally provided by communities and other social systems. The subcultural designation means that youth gang participation and violence can be effectively reduced in Washington communities and schools through the involvement of community, educational, criminal justice, and employment systems working in a unified manner with parents and individuals who have a firsthand knowledge of youth gangs and at-risk youth; and

(6) A strong unified effort among parents and community, educational, criminal justice, and employment systems would facilitate: (a) The learning process; (b) the control and reduction of gang violence; (c) the prevention of youth joining negative gangs; and (d) the intervention into youth gangs. [1993 c 497 § 1.]

43.310.007 Intent—Prevention and intervention pilot programs. It is the intent of the legislature to cause the development of positive prevention and intervention pilot programs for elementary and secondary age youth through cooperation between individual schools, local organizations, and government. It is also the intent of the legislature that if the prevention and intervention pilot programs are determined to be effective in reducing problems associated with youth gang violence, that other counties in the state be eligible to receive special state funding to establish similar positive prevention and intervention programs. [1993 c 497 § 2.]

43.310.010 Definitions. Unless the context otherwise requires, the following definitions shall apply throughout RCW 43.310.005 through 43.310.040 and *sections 5 and 7 through 10, chapter 497, Laws of 1993:

(1) "School" means any public school within a school district any portion of which is in a county with a population of over one hundred ninety thousand.

(2) "Community organization" means any organization recognized by a city or county as such, as well as private, nonprofit organizations registered with the secretary of state.

(3) "Gang risk prevention and intervention program" means a community-based positive prevention and intervention program for gang members, potential gang members, at-risk youth, and elementary through high school-aged youth directed at all of the following:

(a) Reducing the probability of youth involvement in gang activities and consequent violence.

(b) Establishing ties, at an early age, between youth and community organizations.

(c) Committing local business and community resources to positive programming for youth.

(d) Committing state resources to assist in creating the gang risk prevention and intervention pilot programs.

(4) "Cultural awareness retreat" means a program that temporarily relocates at-risk youth or gang members and
their parents from their usual social environment to a different social environment, with the specific purpose of having them performing activities which will enhance or increase their positive behavior and potential life successes. [1993 c 497 § 3.]

*Reviser's note: Sections 5 and 7 through 10, chapter 497, Laws of 1993 were vetoed.

43.310.020 Gang risk prevention and intervention pilot programs—Request for proposals. (1) The *department of community, trade, and economic development may recommend existing programs or contract with either school districts or community organizations, or both, through a request for proposal process for the development, administration, and implementation in the county of community-based gang risk prevention and intervention pilot programs.

(2) Proposals by the school district for gang risk prevention and intervention pilot program grant funding shall begin with school years no sooner than the 1994-95 session, and last for a duration of two years.

(3) The school district or community organization proposal shall include:

(a) A description of the program goals, activities, and curriculum. The description of the program goals shall include a list of measurable objectives for the purpose of evaluation by the *department of community, trade, and economic development. To the extent possible, proposals shall contain empirical data on current problems, such as dropout rates and occurrences of violence on and off campus by school-age individuals.

(b) A description of the individual school or schools and the geographic area to be affected by the program.

(c) A demonstration of broad-based support for the program from business and community organizations.

(d) A clear description of the experience, expertise, and other qualifications of the community organizations to conduct an effective prevention and intervention program in cooperation with a school or a group of schools.

(e) A proposed budget for expenditure of the grant.

(4) Grants awarded under this section may not be used for the administrative costs of the school district or the individual school. [1995 c 399 § 11; 1993 c 497 § 4.]

*Reviser's note: The "department of community, trade, and economic development" was renamed the "department of commerce" by 2009 c 565.

43.310.030 Gang risk prevention and intervention pilot programs—Scope. Gang risk prevention and intervention pilot programs shall include, but are not limited to:

43.325.005 Findings—2007 c 348. (1) The legislature finds that excessive dependence on fossil fuels jeopardizes Washington's economic security, environmental integrity, and public health. Accelerated development and use of clean fuels and clean vehicle technologies will reduce the drain on Washington's economy from importing fossil fuels. As fossil fuel prices rise, clean fuels and vehicles can save consumers money while promoting the development of a major, sustainable industry that provides good jobs and a new source of rural prosperity. In addition, clean fuels and vehicles protect public health by reducing toxic air and climate change emissions.

(2) The legislature also finds that climate change is expected to have significant impacts in the Pacific Northwest region in the near and long-term future. These impacts include: Increased temperatures, declining snowpack, more frequent heavy rainfall and flooding, receding glaciers, rising sea levels, increased risks to public health due to insect and rodent-borne diseases, declining salmon populations, and increased drought and risk of forest fires. The legislature recognizes the need at this time to continue to gather and analyze information related to climate protection. This analysis will allow prudent steps to be taken to avoid, mitigate, or respond to climate impacts and protect our communities.

(3) Finally, the legislature finds that to reduce fossil fuel dependence, build our clean energy economy, and reduce climate impacts, the state should develop policies and incentives that help businesses, consumers, and farmers gain greater access to affordable clean fuels and vehicles and to produce clean fuels in the state. These policies and incentives should include: Incentives for replacement of the most polluting diesel engines, especially in school buses; transitional incentives for development of the most promising in-state clean fuels and fuel feedstocks, including biodiesel crops, ethanol from plant waste, and liquid natural gas from landfill or wastewater treatment gases; reduced fossil fuel consumption by state fleets; development of promising new technologies for displacing petroleum with electricity, such as "plug-in hybrids"; and impact analysis and emission accounting procedures that prepare Washington to respond and prosper as climate change impacts occur, and as policies and markets to reduce climate pollution are developed. [2007 c 348 § 1.]

43.325.030 Coordinator—Duties. The director of the department shall appoint a coordinator that is responsible for:

(4) Coordinating with the Western Washington University alternative automobile program for opportunities to support new Washington state technology for conversion of fossil fuel fleets to biofuel, hybrid, or alternative fuel propulsion;

(5) Coordinating with the University of Washington's college of forest management and the Olympic natural resources center for the identification of barriers to using the state's forest resources for fuel production, including the economic and transportation barriers of physically bringing forest biomass to the market;

(6) Coordinating with the department of agriculture and Washington State University for the identification of other barriers for future biofuels development and development of strategies for furthering the penetration of the Washington state fossil fuel market with Washington produced biofuels, particularly among public entities. [2015 c 225 § 92; 2009 c 451 § 4; 2007 c 348 § 205.]

Intent—2009 c 451: "The legislature intends to modify the energy freedom program and account in order to receive federal funds and other sources of funding. changing economic conditions; generate greater local capacity to respond to both economic growth and environmental challenges; increase accountability to the public, the executive branch, and the legislature; manage growth and achieve sustainable development; diversify the state's economy and export goods and services; provide greater access to economic opportunity; stimulate private sector investment and entrepreneurship; provide stable family-wage jobs and meet the diverse needs of families; provide affordable housing and housing services; and construct public infrastructure.

The legislature further finds that as a result of the rapid pace of global social and economic change, the state and local communities will require coordinated and creative responses by every segment of the community. The state can play a role in assisting such local efforts by reorganizing state responses by every segment of the community. The state can local communities will require coordinated and creative assistance efforts to promote such partnerships. The department has a primary responsibility to provide financial and technical assistance to the communities of the state, to assist in improving the delivery of federal, state, and local programs, and to provide communities with opportunities for productive and coordinated development beneficial to the well-being of communities and their residents. It is the intent of the legislature in creating the department to maximize the use of local expertise and resources in the delivery of community and economic development services. [2010 c 271 § 2; 1993 c 280 § 1.]

**Purpose—Effective date—2010 c 271:** "In 2009, the legislature changed the name of the department of community, trade, and economic development to the department of commerce and directed the agency to, among other things, develop a report with recommendations on statutory changes to ensure that the department's efforts: Are organized around a concise core mission and aligned with the state's comprehensive plan for economic development; generate greater local capacity; maximize results through partnerships and the use of intermediaries; and provide transparency and increased accountability. Recommendations for creating or consolidating programs deemed important to meeting the department's core mission and recommendations for terminating or transferring specific programs if they are not consistent with the department's core mission were to be included in the report.

In accordance with that legislation, chapter 565, Laws of 2009, in November 2009 the department of commerce submitted a plan that establishes a mission of growing and improving jobs in the state and recognizes the need for an innovation-driven economy. The plan also outlines agency priorities, efficiencies, and program transfers that will help to advance the new mission.

The primary purpose of this act is to implement portions of the department of commerce plan by transferring certain programs from the department of commerce to other state agencies whose missions are more closely aligned with the core functions of those programs. This act also directs additional efficiencies in state government and directs development of a statewide clean energy strategy, which will better enable the department of commerce to focus on its new mission." [2010 c 271 § 1.]

**Effective date—2010 c 271:** "This act takes effect July 1, 2010." [2010 c 271 § 803.]

### 43.330.007 Management responsibility. (1) The purpose of this chapter is to establish the broad outline of the structure of the department of commerce, leaving specific details of its internal organization and management to those charged with its administration. This chapter identifies the broad functions and responsibilities of the department and is intended to provide flexibility to the director to reorganize these functions to more closely reflect its customers, its mission, and its priorities, and to make recommendations for changes.

(2) In order to generate greater local capacity, maximize results through partnerships and the use of intermediaries, and leverage the use of state resources, the department shall, in carrying out its business assistance and economic development functions, provide business and economic development services primarily through sector-based, cluster-based, and regionally based organizations rather than providing assistance directly to individual firms. [2010 c 271 § 3; 2009 c 565 § 1; 1993 c 280 § 2.]

**Purpose—Effective date—2010 c 271:** See notes following RCW 43.330.005.

*Reviser's note: The "department of community, trade, and economic development" was renamed the "department of commerce" by 2009 c 565.

Findings—2003 c 153: "The legislature finds that tourism is a growing sector of the Washington economy. Washington has a diverse geography, geology, climate, and natural resources, and offers abundant opportunities for wildlife viewing. Nature-based tourism is the fastest growing outdoor activity and segment of the travel industry and the state can take advantage of this by marketing Washington's natural assets to international as well as national tourist markets. Expanding tourism efforts can provide Washington residents with jobs and local communities with needed revenues. The legislature also finds that current efforts to promote Washington's natural resources and nature-based tourism to national and international markets are too diffuse and limited by funding and that a collaborative effort among state and local governments, tribes, and private enterprises can serve to leverage the investments in nature-based tourism made by each." 43.330.270 Innovation partnership zone program.
(1) The department must design and implement an innovation partnership zone program through which the state will encourage and support research institutions, workforce training organizations, and globally competitive companies to work cooperatively in close geographic proximity to create commercially viable products and jobs.

(2) The director must designate innovation partnership zones on the basis of the following criteria:
(a) Innovation partnership zones must have three types of institutions operating within their boundaries, or show evidence of planning and local partnerships that will lead to dense concentrations of these institutions:
(i) Research capacity in the form of a university or community college fostering commercially valuable research, nonprofit institutions creating commercially applicable innovations, or a national laboratory;
(ii) An industry cluster as defined in RCW 43.330.090. The cluster must include a dense proximity of globally competitive firms in a research-based industry or industries or individual firms with innovation strategies linked to (a)(i) of this subsection. A globally competitive firm may be signified through international organization for standardization 9000 or 1400 certification, or evidence of sales in international markets; and
(iii) Training capacity either within the zone or readily accessible to the zone. The training capacity requirement may be met by the same institution as the research capacity requirement, to the extent both are associated with an educational institution in the proposed zone.
(b) The support of a local jurisdiction, a research institution, an educational institution, an industry or cluster association, a workforce development council, and an associate development organization, port, or chamber of commerce;
(c) Identifiable boundaries for the zone within which the applicant will concentrate efforts to connect innovative researchers, entrepreneurs, investors, industry associations or clusters, and training providers. The geographic area defined should lend itself to a distinct identity and have the capacity to accommodate firm growth;
(d) The innovation partnership zone administrator must be an economic development council, port, workforce development council, city, or county.
(3) With respect solely to the research capacity required in subsection (2)(a)(i) of this section, the director may waive the requirement that the research institution be located within the zone. To be considered for such a waiver, an applicant must provide a specific plan that demonstrates the research institution's unique qualifications and suitability for the zone, and the types of jointly executed activities that will be used to ensure ongoing, face-to-face interaction and research collaboration among the zone's partners.
(4) On October 1st of each odd-numbered year, the director must designate innovation partnership zones on the basis of applications that meet the legislative criteria, estimated economic impact of the zone, evidence of forward planning for the zone, and other criteria as developed by the department. Estimated economic impact must include evidence of anticipated private investment, job creation, innovation, and commercialization. The director must require evidence that zone applicants will promote commercialization, innovation, and collaboration among zone residents.

(5) Innovation partnership zones are eligible for funds and other resources as provided by the legislature or at the discretion of the governor.

(6) If the innovation partnership zone meets the other requirements of the fund sources, then the zone is eligible for the following funds relating to:
(a) The local infrastructure financing tools program;
(b) The sales and use tax for public facilities in rural counties;
(c) Job skills;
(d) Local improvement districts; and
(e) Community economic revitalization board projects under chapter 43.160 RCW.

(7) An innovation partnership zone must be designated as a zone for a four-year period. At the end of the four-year period, the zone must reapply for the designation through the department.

(8) If the director finds that an applicant does not meet all of the statutory criteria or additional criteria recommended by the department to be designated as an innovation partnership zone, the department must:
(a) Identify the deficiencies in the proposal and recommended steps for the applicant to take to strengthen the proposal;
(b) Provide the applicant with the opportunity to appeal the decision to the director; and
(c) Allow the applicant to reapply for innovation partnership designation on October 1st of the following calendar year or during any subsequent application cycle.

(9) If the director finds at any time after the initial year of designation that an innovation partnership zone is failing to meet the performance standards required in its contract with the department, the director may withdraw such designation and cease state funding of the zone.

(10) The department must convene annual information sharing events for innovation partnership zone administrators and other interested parties.

(11) An innovation partnership zone must annually provide performance measures as required by the director, including but not limited to private investment measures, job creation measures, and measures of innovation such as licensing of ideas in research institutions, patents, or other recognized measures of innovation.

(12) The department must compile a biennial report on the innovation partnership zone program by December 1st of every even-numbered year. The report must provide information for each zone on its: Objectives; funding, tax incentives, and other support obtained from public sector sources; major activities; partnerships; performance measures; and outcomes achieved since the inception of the zone or since the previous biennial report. The department must submit the report to the governor and legislature beginning December 1,

43.330.280 Documentation of clusters of companies having a comparative competitive advantage—Process and criteria—Working group. (1) The department shall document clusters of companies throughout the state that have comparative competitive advantage or the potential for comparative competitive advantage, using the process and criteria for identifying strategic clusters developed by the working group specified in subsection (2) of this section.

(2) The department and the workforce training and education coordinating board shall jointly convene a working group to:

(a) Specify the process and criteria for identification of substate geographic concentrations of firms or employment in an industry and the industry's customers, suppliers, supporting businesses, and institutions, which process will include the use of labor market information from the employment security department and local labor markets; and

(b) Establish criteria for identifying strategic clusters which are important to economic prosperity in the state, considering cluster size, growth rate, and wage levels among other factors. [2014 c 112 § 116; 2012 c 229 § 708. Prior: 2009 c 565 § 14; 2009 c 72 § 2; 2007 c 227 § 2.]

(3) The financial fraud and identity theft crimes investigation and prosecution account is created in the state treasury. Moneys in the account may be spent only after appropriation. 43.330.310 Comprehensive green economy jobs growth initiative—Establishment. (1) The legislature establishes a comprehensive green economy jobs growth initiative based on the goal of, by 2020, increasing the number of green economy jobs to twenty-five thousand from the eight thousand four hundred green economy jobs the state had in 2004.

(2) The department, in consultation with the employment security department, the state workforce training and education coordinating board, and the state board for community and technical colleges, shall develop a defined list of terms, consistent with current workforce and economic development terms, associated with green economy industries and jobs.

(3)(a) The employment security department, in consultation with the department, the state workforce training and education coordinating board, the state board for community and technical colleges, Washington State University small business development center, and the Washington State University extension energy program, shall conduct labor market research to analyze the current labor market and projected job growth in the green economy, the current and projected
(i) The employment security department shall conduct an analysis of occupations in the forest products industry to:
(A) Determine key growth factors and employment projections in the industry; and
(B) Define the education and skill standards required for current and emerging green occupations in the industry.

(ii) The term "forest products industry" must be given a broad interpretation when implementing (a)(i) of this subsection and includes, but is not limited to, businesses that grow, manage, harvest, transport, and process forest, wood, and paper products.

(b) The University of Washington business and economic development center shall: Analyze the current opportunities for and participation in the green economy by minority and women-owned business enterprises in Washington; identify existing barriers to their successful participation in the green economy; and develop strategies with specificity policy recommendations to improve their successful participation in the green economy. The research may be informed by the research of the Puget Sound regional council prosperity partnership, as well as other entities. The University of Washington business and economic development center shall report to the appropriate committees of the house of representatives and the senate on their research, analysis, and recommendations by December 1, 2008.

(4) Based on the findings from subsection (3) of this section, the employment security department, in consultation with the department and taking into account the requirements and goals of chapter 14, Laws of 2008 and other state clean energy and energy efficiency policies, shall propose which industries will be considered high-demand green industries, based on current and projected job creation and their strategic importance to the development of the state's green economy. The employment security department and the department shall take into account which jobs within green economy industries will be considered high-wage occupations and occupations that are part of career pathways to the same, based on family-sustaining wage and benefits ranges. These designations, and the results of the employment security department's broader labor market research, shall inform the planning and strategic direction of the department, the state workforce training and education coordinating board, and the state board for community and technical colleges.

(5) The department shall identify emerging technologies and innovations that are likely to contribute to advancements in the green economy, including the activities in designated innovation partnership zones established in RCW 43.330.270.

(6) The department shall:
(a) Develop targeting criteria for existing investments, and make recommendations for new or expanded financial incentives and comprehensive strategies, to recruit, retain, and expand green economy industries and small businesses; and
(b) Make recommendations for new or expanded financial incentives and comprehensive strategies to stimulate research and development of green technology and innovation, including designating innovation partnership zones linked to the green economy.

(7) For the purposes of this section, "target populations" means (a) entry-level or incumbent workers in high-demand green industries who are in, or are preparing for, high-wage occupations; (b) dislocated workers in declining industries who may be retrained for high-wage occupations in high-demand green industries; (c) dislocated agriculture, timber, or energy sector workers who may be retrained for high-wage occupations in high-demand green industries; (d) eligible veterans or national guard members; (e) disadvantaged populations; or (f) anyone eligible to participate in the state opportunity grant program under RCW 28B.50.271.

(8) The legislature directs the state workforce training and education coordinating board to create and pilot green industry skill panels. These panels shall consist of business representatives from: Green industry sectors, including but not limited to forest product companies, companies engaged in energy efficiency and renewable energy production, companies engaged in pollution prevention, reduction, and mitigation, and companies engaged in green building work and green transportation; labor unions representing workers in those industries or labor affiliates administering state-approved, joint apprenticeship programs or labor-management partnership programs that train workers for these industries; state and local veterans agencies; employer associations; educational institutions; and local workforce development councils within the region that the panels propose to operate; and other key stakeholders as determined by the applicant. Any of these stakeholder organizations are eligible to receive grants under this section and serve as the intermediary that convenes and leads the panel. Panel applicants must provide labor market and industry analysis that demonstrates high demand, or demand of strategic importance to the development of the state's clean energy economy as identified in this section, for high-wage occupations, or occupations that are part of career pathways to the same, within the relevant industry sector. The panel shall:

(a) Conduct labor market and industry analyses, in consultation with the employment security department, and drawing on the findings of its research when available;
(b) Plan strategies to meet the recruitment and training needs of the industry and small businesses; and
(c) Leverage and align other public and private funding sources. See note following RCW 70.94.6532.

Findings—2010 c 187: "(1) The legislature finds that:
(a) Washington's forest products industry plays a critical economic and environmental role in the state. The industry provides a wide range of services and goods both to Washingtonians and people around the world and is vital to the well-being and lifestyle of the people of the state of Washington; and
(b) It is in the best interest of the state to support and enhance the forest products industry.
(2) The legislature further finds that the state's forest practices are sustainably managed according to some of the most stringent riparian growing and harvest rules of any state in the nation or in the world, and that the state of Washington has received fifty-year assurances from the federal govern-
ment that the state's forest practices satisfy the requirements of the federal
endangered species act for aquatic species. As part of their environmental
stewardship, forestland owners in Washington have repaired or removed
nearly three thousand fish passage barriers, returned nearly twenty-five hun-
dred miles of forest roads to their natural condition, and opened up nearly fif-
teen hundred miles of riparian salmonid habitat.

(3) The legislature further finds that Washington's forests naturally cre-
ate habitat for fish and wildlife, clean water, and carbon storage; all environ-
mental benefits that are lost when land is converted out of working forestry
into another use. In recognition of forestry's benefits, the international panel
on climate change has reported that a sustainable forest management strategy
aimed at maintaining or increasing forest carbon stocks, while producing an
annual sustained yield of timber, fiber, wood products, or energy from the
forest, will generate the largest sustained carbon mitigation benefit.

(4) The legislature further finds that the forest products industry is a sev-
enteen billion dollar industry, making it Washington's second largest manu-
facturing industry. The forest products industry alone provides nearly forty-
five thousand direct jobs and one hundred sixty-two thousand indirect jobs,
many located in rural areas.

(5) The legislature further finds that working forests help generate
wealth through recreation and tourism, the retention and creation of green
jobs, and through the production of wood products and energy, a finding sup-
ported by the United States secretary of agriculture." [2010 c 187 § 1.]

43.330.320 Obtaining energy efficiency services—
Awarding grants to financial institutions—Credit
enhancements. (1) The department must: (a) Establish a
process to award grants on a competitive basis to provide
grants to financial institutions for the purpose of creating
credit enhancements, such as loan loss reserve funds as spec-
ified in RCW 43.330.330 and 43.330.350, and consumer
financial products and services that will be used to obtain
energy efficiency services; and (b) develop criteria, in con-
sultation with the department of financial institutions, regard-
ing the extent to which funds will be provided for the pur-
poses of credit enhancements and set forth principles for
accountability for financial institutions receiving funding for
credit enhancements.

(2) The department must:
(a) Give priority to financial institutions that provide
both consumer financial products or services and direct out-
reach;
(b) Approve any financing mechanisms offered by local
municipalities under RCW 43.330.350; and
(c) Require any financial institution or other entity
receiving funding for credit enhancements to:
(i) Provide books, accounts, and other records in such a
form and manner as the department may require;
(ii) Provide an estimate of projected loan losses; and
(iii) Provide the financial institution's plan to manage
loan loss risks, including the rationale for sizing a loan loss
reserve and the use of other credit enhancements, as applica-
able. [2009 c 379 § 205.]

Finding—Intent—Effective date—2009 c 379: See notes following
RCW 70.260.010.

43.330.330 Funding energy efficiency improvements
—Risk reduction mechanisms—Legislative intent. (1) The legislature finds that the creation and use of risk reduc-
tion mechanisms will promote greater involvement of local
financial institutions and other financing mechanisms in
funding energy efficiency improvements and will achieve
greater leverage of state and federal dollars. Risk reduction
mechanisms will allow financial institutions to lend to a
broader pool of applicants on more attractive terms, such as
potentially lower rates and longer loan terms. Placing a por-
tion of funds in long-term risk reduction mechanisms will
support a sustained level of energy efficiency investment by
financial institutions while providing funding to projects
quickly.

(2) It is the intent of the legislature to leverage new fed-
eral funding aimed at promoting energy efficiency projects,
improving energy efficiency, and increasing family-wage
jobs. To this end, the legislature intends to invest a portion of
all federal funding, subject to federal requirements, for
energy efficiency projects in financial mechanisms that will
provide for maximum leverage of financing. [2009 c 379 §
206.]

Finding—Intent—Effective date—2009 c 379: See notes following
RCW 70.260.010.

43.330.340 Appliance efficiency rebate program. The
department may create an appliance efficiency rebate
program with available funds from the energy efficient appli-
cances rebate program authorized under the federal energy

Finding—Intent—Effective date—2009 c 379: See notes following
RCW 70.260.010.

43.330.350 Use of moneys by local municipalities to
leverage financing for energy efficiency projects. (1) Local municipalities receiving federal stimulus moneys
through the federal energy efficiency and conservation block
grant program or state energy program are authorized to use
those funds, subject to federal requirements, to establish loan
loss reserves or toward risk reduction mechanisms, such as
loan loss reserves, to leverage financing for energy efficiency
projects.

(2) Interest rate subsidies, financing transaction cost sub-
sidies, capital grants to energy users, and other forms of
grants and incentives that support financing energy efficiency
projects are authorized uses of federal energy efficiency
funding.

(3) Financing mechanisms offered by local municipali-
ties under this section must conform to all applicable state
and federal rules and regulations. [2009 c 379 § 208.]

Finding—Intent—Effective date—2009 c 379: See notes following
RCW 70.260.010.

43.330.360 Findings—Involvement of state bond
authorities in financing energy efficiency projects. (1) The legislature finds that the state bond authorities have
capacities that can be applied to financing energy efficiency
projects for their respective eligible borrowers: Washington
economic development finance authority for industry; Wash-
ington state housing finance commission for single-family
and multifamily housing, commercial properties, agricultural
properties, and nonprofit facilities; Washington higher edu-
cation facilities authority for private, nonprofit higher educa-
tion; and Washington health care facilities authority for hos-
pitals and all types of health clinics.

(2)(a) Subject to federal requirements, the state bond
authorities may accept and administer an allocation of the
state's share of the federal energy efficiency funding for
designing energy efficiency finance loan products and for

developing and operating energy efficiency finance programs. The state bond authorities shall coordinate with the department on the design of the bond authorities' program.

(b) The department may make allocations of the federal funding to the state bond authorities and may direct and administer funding for outreach, marketing, and delivery of energy services to support the programs by the state bond authorities.

(c) The legislature authorizes a portion of the federal energy efficiency funds to be used by the state bond authorities for credit enhancements and reserves for such programs.

(3) The Washington state housing finance commission may:

(a) Issue revenue bonds as the term "bond" is defined in RCW 43.180.020 for the purpose of financing loans for energy efficiency and renewable energy improvement projects in accordance with RCW 43.180.150;

(b) Establish eligibility criteria for financing that will enable it to choose applicants who are likely to repay loans made or acquired by the commission and funded from the proceeds of federal funds or commission bonds; and

(c) Participate fully in federal and other governmental programs and take such actions as are necessary and consistent with chapter 43.180 RCW to secure to itself and the people of the state the benefits of programs to promote energy efficiency and renewable energy technologies. [2009 c 379 § 209.]

Finding—Intent—Effective date—2009 c 379: See notes following RCW 70.260.010.

43.330.370 Evergreen jobs initiative. The Washington state evergreen jobs initiative is established as a comprehensive green economy jobs growth initiative with the goals of:

(1) Creating fifteen thousand new green economy jobs by 2020, with a target of thirty percent of those jobs going to veterans, members of the national guard, and low-income and disadvantaged populations;

(3) Preparing the state's workforce to take full advantage of green economy job opportunities and to meet the recruitment and training needs of industry and small businesses;

(4) Attracting private sector investment that will create new and expand existing jobs, with an emphasis on services and products that have a high economic or environmental impact and can be exported domestically and internationally;

(5) Making Washington state a net exporter of green industry products and services, with special attention to renewable energy technology and components;

(g) Identify barriers to the growth of green jobs in traditional industries such as the forest products industry;

(h) Identify statewide performance metrics for projects receiving agency assistance. Such metrics may include:

(i) The number of new green jobs created each year, their wage levels, and, to the extent determinable, the percentage
of new green jobs filled by veterans, members of the national guard, and low-income and disadvantaged populations;

(ii) The total amount of new federal funding secured, the respective amounts allocated to the state and local levels, and the timeliness of deployment of new funding by state agencies to the local level;

(iii) The timeliness of state deployment of funds and support to local organizations; and

(iv) If available, the completion rates, time to completion, and training-related placement rates for green economy postsecondary training programs;

(d) Recommendations for new or expanded financial incentives and comprehensive strategies to:

(i) Recruit, retain, and expand green economy industries and small businesses; and

(ii) Stimulate research and development of green technology and innovation, which may include designating innovation partnership zones linked to the green economy;

43.330.400 Broadband mapping account—Federal broadband data improvement act funding—Coordination of broadband mapping activities. (1) The broadband mapping account is established in the custody of the state treasurer. The department shall deposit into the account such funds received from legislative appropriation, federal funding, and donated funds from private and public sources. Expenditures from the account may be used only for the purposes of RCW 43.330.403 through 43.330.409. Only the director of the department or the director's designee may authorize expenditures from the account. The account is subject to the allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

(2) The department is the single eligible entity in the state for purposes of the federal broadband mapping activities.

Intent—1999 c 384: "The legislature recognizes that the main and most enduring support for persons with developmental disabilities, along with public resources, is their immediate and extended families. The legislature recognizes that these families are searching for ways to provide for the long-term continuing care of their disabled family member when the family can no longer provide that care. It is the intent of the legislature to encourage and assist families to engage in long-range financial planning and to contribute to the lifetime care of their disabled family member. To further these objectives, this chapter is enacted to finance lifetime services and supports for persons with developmental disabilities through an endowment funded jointly by the investment of public funds and dedicated family contributions.

The establishment of this endowment is not intended to diminish the state’s responsibility for funding services currently available to future endowment participants, subject to available funding, nor is it the intent of the legislature, by the creation of this public/private endowment, to impose additional, unintended financial liabilities on the public." [2000 c 120 § 1; 1999 c 384 § 1.]

(3) Families should not feel compelled to contribute to the endowment in order to meet the needs of continuing care for their child.

(7) Endowment resources should be managed prudently so that families can be confident that their agreement with the endowment on behalf of their child will be honored.

(8) The private financial contribution on behalf of each person receiving services from the endowment shall be at least equal to the state's contribution to the endowment.

(10) The rate that state appropriations to the endowment are used to match private contributions shall be such that each legislative appropriation to the developmental disabilities endowment trust fund, including principal and investment income, is not depleted in a period of less than five years.

(11) Private contributions made on behalf of a particular individual, and the associated state match, shall only be used for services provided upon that person's behalf.

The governing board shall explore mechanisms to support individuals with developmental disabilities who do not have individual private contributions made on their behalf. The governing board shall establish policies for the use of any private donations.

(14) Types of services funded by money managed through the developmental disabilities endowment trust fund shall be approved by the governing board or its designee. [2000 c 120 § 6; 1999 c 384 § 5. Formerly RCW 43.70.734, 43.330.220.]

(5) Recommended policies regarding withdrawal of private contributions from the endowment in cases of movement out of state, death of the beneficiary, or other circumstances;

(6) Recommended matching rate of public and private contributions and, for each beneficiary, the maximum annual and lifetime amount of private contributions eligible for public matching funds;

(8) The recommended schedule according to which lump sum or periodic private contributions should be made to the endowment in order to qualify for public matching funds;

(9) A recommended program for educating families about the endowment, and about planning for their child's long-term future; and

Findings—Intent—2016 c 212: "(1) The legislature finds that:
(a) Washington's unemployment rate during the recent recession created economic and social hardships for the people of the state;
(b) Local start-up companies and small businesses are likely, as they grow, to remain in their communities of origin, thereby creating local jobs and an economic multiplier effect with their payrolls and taxes while providing local economic stimuli, which increases the local tax base;
(c) Statewide economic prosperity and job creation are advanced significantly by creating, promoting, and retaining local start-up companies and small businesses with high growth potential;
(d) Entrepreneurs and small business owners of second-stage companies, which are those companies that are beyond the start-up stage but have not yet fully matured, with innovative products or services that satisfy market needs, have particular potential for expansion and job creation;
(e) Such entrepreneurs and owners can benefit from specialized business assistance to refine core strategies and from access to in-depth market research, competitor analyses, geographic information systems, search engine optimization, and other strategic information, as well as from relationships with mentors and advisors;
(f) The aspects of economic gardening that incorporate these principles have proven successful in improving the entrepreneurial process and promoting economically sustainable local businesses; and
(g) It is important to the overall health and growth of the state's economy to promote favorable conditions for those expanding Washington businesses that demonstrate the ability to grow.

(2) In recognition of the foregoing findings and principles, it is the intent of the legislature to create a Washington economic gardening pilot project in the department of commerce." [2016 c 212 § 1.]

(a) Options for the state to incentivize the provision of:
(i) Employer-supported child care by public and private employers; and

(15) This section expires July 1, 2021. [2019 c 368 § 4; 2018 c 91 § 1.]

Findings—Intent—2019 c 368: "(1) The legislature finds that child care is a sector that is critical to the vitality and economic security of our state and communities and families, and that families in Washington face significant barriers to accessing and affording high quality child care. The legislature finds that Washington's committed caregivers and state investments and advancements in our quality rating and improvement system ensure that quality, culturally relevant child care supports children's healthy development and prepares them for success in school and in life. The legislature recognizes that provider diversity and cultural relevance are fundamental components of quality, and that parent choice is a priority throughout the state's early learning system.

(2) The legislature finds that the cost of quality child care is unaffordable for many families and state support is needed to ensure that all children and families in Washington can access safe, enriching child care.

(3) The legislature recognizes that expanding access to quality child care requires preparing the market of child care providers to meet existing and expanded demand. The legislature finds that the market of child care providers is shrinking, that child care deserts are expanding, and that fewer providers are offering services to working connections child care subsidy recipients. The legislature additionally finds that child care providers are unable to recruit and retain a qualified workforce; that wages in the industry remain among the lowest of all professions, at or near minimum wage; and that the relationship between a child and a qualified caregiver is of paramount importance to parents and, according to a rapidly accumulating body of brain science, is foundational to supporting healthy development.

(4) Further, while the system awaits systemic change, the legislature finds that steps must be taken to begin to preserve and expand access to child care for child care subsidy recipients, stabilize the child care industry, and reduce turnover in the workforce.

(5) Therefore, the legislature intends to promote high quality child care from diverse providers that is accessible and affordable to all families of Washington's children ages birth to twelve." [2019 c 368 § 1.]

Short title—2019 c 368: "This act may be known and cited as the Washington child care access now act." [2019 c 368 § 9.]

43.330.527 Child care collaborative task force—Duties. (Expires July 1, 2021.) (1) The child care collaborative task force shall:

(a)(i) Develop a child care cost estimate model to determine the full costs providers would incur when providing high quality child care, including recommended teacher-child ratios based on research and best practices. The model must include:

(A) Regional differences;

(B) Employee salaries and benefits;

(C) Enrollment levels;

(D) Facility costs; and

(E) Costs associated with compliance with statutory and regulatory requirements, including quality rating system participation and identify specific costs associated with each level of the rating system and any quality indicators utilized.

(ii) The model must utilize existing data and research available from existing studies and reports.

(iii) The model must consider differentiating subsidy rates by child age and region, evaluate the effectiveness of current child care subsidy region boundaries, and examine alternatives such as zip code level regions or regionalization based on urban, suburban, and rural designations;

(b) Consider how the measure of state median income could be used in place of federal poverty level when determining eligibility for child care subsidy;

(c) Evaluate recommendations from the department of children, youth, and families' technical work group on compensation, including consideration of pay scale changes, to achieve pay parity with K-12 teachers by January 1, 2025. When considering implementation of the technical work group recommendations, the task force shall further develop policy recommendations for the department of children, youth, and families that:

(i) Endeavor to preserve and increase racial and ethnic equity and diversity in the child care workforce and recognize the value of cultural competency and multilingualism;

(ii) Include a salary floor that supports recruitment and retention of a qualified workforce in every early learning setting, determined by an analysis of fields that compete to recruit workers with comparable skills, competencies, and experience of early childhood educators;

(iii) Index salaries for providers against the salary for a typical preschool lead teacher, differentiating base compensation for varying levels of responsibility within the early childhood workplace including consideration of center directors, assistant directors, lead teachers, assistant teachers, paraprofessionals, family child care owners, and family home assistants;

(iv) Incentivize advancements in relevant higher education credentials and credential equivalencies, training, and years of experience, by increasing compensation for each of these, including early learning certificates, associate degrees, bachelor's degrees, master's degrees, and doctoral degrees;

(v) Consider credential equivalencies, including certified demonstration of competencies developed through apprenticeships, peer learning models, community-based training, and other strategies;

(vi) Consider a provider's years of experience in the field and years of experience at his or her current site;

(vii) Differentiate subsidy rates by region; and

(viii) Provide additional targeted investments for providers serving a high proportion of working connections child care families, providers demonstrating additional linguistic or cultural competency, and provides serving populations furthest from opportunity, including:

(A) Families enrolled in the early childhood education and assistance program;

(B) Underserved geographic communities;

(C) Underserved ethnic or linguistic communities;

(D) Underserved age groups such as infants and toddlers; and

(2019 Ed.) [Title 43 RCW—page 801]
(E) Populations with specialized health or educational needs;

(d) Develop a phased implementation plan for policy changes to the working connections child care program. The implementation plan must focus on children and families furthest from opportunity as defined by income and must include recommended targeted supports for providers serving children who are underserved and emphasize greater racial equity. Implementation plan components must include:

(i) Increasing program income eligibility to three hundred percent of the federal poverty level or eighty-five percent of the state median income;

(ii) Establishing a graduated system of copayments that eliminates the cliff effect for families and limits the amount a family pays for child care to a maximum of seven percent of the family's income by January 1, 2025;

(iii) Developing a model to enable the state to provide contracted slots to programs serving working connections child care families in order to expand access for low-income families;

(iv) Eliminating work requirements for student families participating in the working connections child care program; and

(v) Eliminating the fiscal cap on working connections child care enrollment; and

(e) Develop a strategy, timeline, and implementation plan to reach the goal of accessible and affordable child care for all families by the year 2025.

(2) By December 1, 2020, the task force must submit its findings and required implementation plan pursuant to subsection (1)(a) through (d) of this section to the governor and the appropriate committees of the legislature. By June 1, 2021, the task force must submit the strategy, timeline, and implementation plan required by subsection (1)(e) of this section to the governor and the appropriate committees of the legislature.

(3) This section expires July 1, 2021. [2019 c 368 § 6.]

Findings—Intent—Short title—2019 c 368: See notes following RCW 43.330.525.

43.330.529 Child care industry assessment. (Expires December 31, 2020.) The department shall collaborate with the office of innovation, alignment, and accountability within the department of children, youth, and families to ensure efficient use of available data and rigorous research methods and to assist with interpretation of data and report preparation.

(b) The department shall conduct one or more competitive solicitations in accordance with chapter 39.26 RCW to select a third-party entity or entities to conduct the industry assessment in partnership with a statewide organization representing parents. (a) Incorporate current data on the number of children age twelve and under who are receiving care from child care and early learning providers. The data must differentiate, to the extent possible: Children served by licensed and certified child care centers and family homes; public schools providing preschool and child care programs; private schools providing child care programs; state agencies and other public municipalities providing child care programs; license-exempt providers who care for children for four hours or less per day; family, friend, and neighbor caregivers; nannies and au pairs; religious organizations providing care; entities providing before-and-after school care; employer-supported child care; and other formal and informal networks of care. The data must, to the extent possible, include a breakdown by provider type of the:

(i) Number of children receiving state subsidized care;

(ii) Number of children receiving exclusively private pay care;

(iii) Number of providers who are accepting state subsidy and, for providers who are not accepting subsidy, reasons why not;

(iv) Demographics of children served, including age, race, rates of developmental delays or disability, family income, home language, and population group trends. Demographic information must include military, homeless, and tribal families; and

(v) Demographics of providers, including age, race, family income, home language, number of years providing care, education levels, utilization rates of state assistance, and the number of times a provider has changed locations;

HOMELESS YOUTH PREVENTION AND PROTECTION ACT

43.330.700 Findings—Homeless youth. (1) The legislature finds that every night thousands of homeless youth in Washington go to sleep without the safety, stability, and support of a family or a home. This population is exposed to an increased level of violence, human trafficking, and exploitation resulting in a higher incidence of substance abuse, illness, and death. The prevention and reduction of youth and young adult homelessness and protection of homeless youth is of key concern to the state. Nothing in chapter 69, Laws of 2015 is meant to diminish the work accomplished by the implementation of Becca legislation but rather, the intent of the legislature is to further enhance the state's efforts in working with unaccompanied homeless youth and runaways to encourage family reconciliation or permanent housing and support through dependency when family reconciliation is not a viable alternative.

(2) Successfully addressing youth and young adult homelessness ensures that homeless youth and young adults...
in our state have the support they need to thrive and avoid involvement in the justice system, human trafficking, long-term, avoidable use of public benefits, and extended adult homelessness.

(3) Providing appropriate, relevant, and readily accessible services is critical for addressing one-time, episodic, or longer-term homelessness among youth and young adults, and keeping homeless youth and young adults safe, housed, and connected to family.

(4) The coordination of statewide programs to combat youth and young adult homelessness should include programs addressing both youth and young adults. In some instances, best practices mandate that youth programs and young adult programs be segregated in their implementation; however, in other instances, innovative approaches can ensure the health and safety of both populations while serving them together, allowing for alignment with federal programs and funding opportunities, application of adolescent neurodevelopment research, and maximization of capacity to serve more dispersed populations in rural areas. The legislature further finds that the differing needs of these populations should be considered when assessing which programs are relevant and appropriate.

(5) To successfully reduce and prevent youth and young adult homelessness, it is the goal of the legislature to have the following key components available and accessible:

(a) Stable housing: It is the goal of the legislature to provide a safe and healthy place for homeless youth to sleep each night until permanency can be reached. Every homeless young adult in our state deserves access to housing that gives them a safe, healthy, and supported launching pad to adulthood. Every family in crisis should have appropriate support as they work to keep their children housed and safe. It is the goal of the legislature that every homeless youth discharged from a public system of care in our state will not be discharged into homelessness.

(b) Family reconciliation: All homeless youth should have access to services that support reunification with immediate family. When reunification is not possible for homeless youth, youth should be placed in the custody of the department of children, youth, and families.

(c) Permanent connections: Every homeless young adult should have opportunities to establish positive, healthy relationships with adults, including family members, employers, landlords, teachers, and community members, with whom they can maintain connections and from whom they can receive ongoing, long-term support to help them develop the skills and experiences necessary to achieve a successful transition to adulthood.

(d) Education and employment: Every homeless young adult in our state deserves the opportunity and support they need to complete their high school education and pursue additional education and training. It is the goal of the legislature that every homeless young adult in our state will have the opportunity to engage in employment training and be able to access employment. With both education and employment support and opportunities, young adults will have the skills they need to become self-sufficient, self-reliant, and independent.

(e) Social and emotional well-being: Every homeless youth and young adult in our state should have access to both behavioral health care and physical health care. Every state-funded program for homeless youth and young adults must endeavor to identify, encourage, and nurture each youth’s strengths and abilities and demonstrate a commitment to youth-centered programming. [2019 c 124 § 4; 2015 c 69 § 4.]

WASHINGTON SMALL BUSINESS RETIREMENT MARKETPLACE

43.330.730 Finding—2015 c 296. The legislature finds that there is a retirement savings access gap in Washington; that Americans reach the median salary four years later than they did in 1980 and therefore have four fewer years of savings opportunities; and that one in six Americans retire in poverty. Employees who are unable to effectively build their retirement savings risk living on low incomes in their elderly years and are more likely to become dependent on state services. Further, small businesses, which employ more than forty percent of private sector employees in Washington, often choose not to offer retirement plans to employees due to concerns about costs, administrative burdens, and potential liability that they believe such plans would place on their business. In response, the legislature recognizes the work of the federal government in addressing these issues by establishing the myRA program: A safe, affordable, and accessible retirement vehicle designed to remove barriers to retirement savings. In addition, the legislature recognizes that many private financial services firms in Washington currently offer high quality retirement options for small businesses and their employees.

The Washington small business retirement marketplace will remove barriers to entry into the retirement market for small businesses by educating small employers on plan availability and promoting, without mandated participation, qualified, low-cost, low-burden retirement savings vehicles and myRA. The marketplace furthers greater retirement plan access for the residents of Washington while ensuring that individuals participating in these retirement plans will have all the protections offered by the employee retirement income security act. Further, the Washington small business retirement marketplace will not pose any significant financial burden upon taxpayers. The Washington small business retirement marketplace will be the best way for Washington to close the retirement savings access gap, protect the fiscal stability of the state and its citizens well into the future, and further cement its place as a national leader in retirement and investor promotion and protection. The marketplace will educate and promote retirement saving among employees and in particular market to small employers with fifty or fewer employees. [2015 c 296 § 1.]

Findings—Intent—1996 c 186: "The legislature finds responsibilities of state government need to be limited to core services in support of public safety and welfare. Services provided by the Washington state energy office are primarily advisory and can be eliminated. The legislature further finds a need to redefine the state's role in energy-related regulatory functions. The state may be better served by allowing regulatory functions to be performed by other appropriate entities, simplifying state government while maintaining core services. Further, it is the intent of the legislature that the state continue to receive oil overcharge restitution funds for our citizens while every effort is being made to maximize federal funds available for energy conservation purposes." 43.331.050 Competitive grant process—Audit—Administrative fees—Reports to the legislature. (1) Within appropriations specifically provided for the purposes of this chapter, the department of commerce, in consultation with the department of enterprise services, and the Washington State University energy program shall establish a competitive process to solicit and evaluate applications from public school districts, public higher education institutions, and other state agencies. Final grant awards shall be determined by the department of commerce.

(2) Grants must be awarded in competitive rounds, based on demand and capacity, with at least five percent of each grant round awarded to small public school districts with fewer than one thousand full-time equivalent students, based on demand and capacity.

(3) Within each competitive round, projects must be weighted and prioritized based on the following criteria and in the following order:

(a) Leverage ratio: In each round, the higher the leverage ratio of nonstate funding sources to state jobs act grant, the higher the project ranking.

(b) Energy savings: In each round, the higher the energy savings, the higher the project ranking. Applicants must submit documentation that demonstrates energy and operational cost savings resulting from the installation of the energy equipment and improvements. The energy savings analysis must be performed by a licensed engineer and documentation must include but is not limited to the following:

(i) A description of the energy equipment and improvements;

(ii) A description of the energy and operational cost savings; and

(iii) A description of the extent to which the project employs collaborative and innovative measures and encourages demonstration of new and emerging technologies with high energy savings or energy cost reductions.

(c) Expediency of expenditure: Project readiness to spend funds must be prioritized so that the legislative intent to expend funds quickly is met.

(4) Projects that do not use energy savings performance contracting must: (a) Verify energy and operational cost savings, as defined in RCW 43.331.040, for ten years or until the energy and operational costs savings pay for the project, whichever is shorter; (b) follow the department of enterprise services' energy savings performance contracting project guidelines developed pursuant to RCW 43.331.040; and (c) employ a licensed engineer for the energy audit and construction. The department of commerce may require third-party verification of savings if a project is not implemented by an energy savings performance contractor selected by the department of enterprise services through the request of qualifications process. Third-party verification must be conducted either by an energy savings performance contractor selected by the department of enterprise services through a request for qualifications, a licensed engineer specializing in energy conservation, or by a project resource conservation manager or educational service district resource conservation manager.

(5) To intensify competition, the department of commerce may only award funds to the top eighty-five percent of projects applying in a round until the department of commerce determines a final round is appropriate. Projects that do not receive a grant award in one round may reapply in subsequent rounds.

(6) To match federal grants and programs that require state matching funds and produce significantly higher efficiencies in operations and utilities, the level of innovation criteria may be increased for the purposes of weighted scoring to capture those federal dollars for selected projects that require a higher level of innovation and regional collaboration.

(7) Grant amounts awarded to each project must allow for the maximum number of projects funded with the greatest energy and cost benefit.

(8)(a) The department of commerce must use bond proceeds to pay one-half of the preliminary audit, up to five cents per square foot, if the project does not meet the school district's and higher education institution's predetermined cost-effectiveness criteria. School districts and higher education institutions must pay the other one-half of the cost of the preliminary audit if the project does not meet their predetermined cost-effectiveness criteria.

(b) The energy savings performance contractor may not charge for an investment grade audit if the project does not meet the school district's and higher education institution's predetermined cost-effectiveness criteria. School districts and higher education institutions must pay the full price of an investment grade audit if they do not proceed with a project that meets the school district's and higher education institution's predetermined cost-effectiveness criteria.

(9) The department of commerce may charge projects administrative fees and may pay the department of enterprise services and the Washington State University energy program administration fees in an amount determined through a memorandum of understanding.

(10) The department of commerce and the department of enterprise services must submit a joint report to the appropria-

43.332.005 Findings—Purpose. (1) The legislature finds that:

(a) The expansion of international trade is vital to the overall growth of Washington’s economy;

(b) On a per capita basis, Washington state is the most international trade dependent state in the nation;

(c) The North American free trade agreement (NAFTA) and the general agreement on tariffs and trade (GATT) highlight the increased importance of international trade opportunities to the United States and the state of Washington;

(d) The passage of NAFTA and GATT will have a major impact on the state’s agriculture, aerospace, computer software, and textile and apparel sectors;

(e) There is a need to strengthen and coordinate the state’s activities in promoting and developing its agricultural, manufacturing, and service industries overseas, especially for small and medium-sized businesses, and minority and women-owned business enterprises; and

(f) The importance of having a coherent vision for advancing Washington state’s interest in the global economy has rarely been so consequential as it is now.

(2) The legislature declares that the purpose of the office of the Washington state trade representative is to:

(a) Strengthen and expand the state’s activities in marketing its goods and services overseas;

(b) Review and analyze proposed international trade agreements to assess their impact on goods and services produced by Washington businesses; and

(c) Inform the legislature about ongoing trade negotiations, trade development, and the possible impacts on Washington’s economy. [2003 c 346 § 1; 1995 c 350 § 1.]

43.332.010 Office created—Duties. (1) The office of the Washington state trade representative is created in the office of the governor. The office shall serve as the state’s official liaison with foreign governments on trade matters.

(2) The office shall:

(a) Work with the *department of community, trade, and economic development, the department of agriculture, and other appropriate state agencies, and within the agencies’ existing resources, review and analyze proposed and enacted international trade agreements and provide an assessment of the impact of the proposed or enacted agreement on Washington’s businesses and firms;

(b) Provide input to the office of the United States trade representative in the development of international trade, commodity, and direct investment policies that reflect the concerns of the state of Washington;

(c) Serve as liaison to the legislature on matters of trade policy oversight including, but not limited to, updates to the legislature regarding the status of trade negotiations, trade litigation, and the impacts of trade policy on Washington state businesses;

(d) Work with the international trade division of the *department of community, trade, and economic development and the international marketing program of the Washington state department of agriculture to develop a statewide strategy designed to increase the export of Washington goods and services, particularly goods and services from small and medium-sized businesses; and

(e) Conduct other activities the governor deems necessary to promote international trade and foreign investment within the state.

(3) The office shall prepare and submit an annual report on its activities under subsection (2) of this section to the governor and appropriate committees of the legislature. [2003 c 346 § 2; 1995 c 350 § 2.]

Reviser’s note: *(1) The "department of community, trade, and economic development" was renamed the "department of commerce" by 2009 c 565.

(2) Substitute House Bill No. 1059, Substitute House Bill No. 1173, and Engrossed Substitute House Bill No. 1827 were enacted during the 2003 regular session of the legislature, but were vetoed in part by the governor. A stipulated judgment, No. 03-2-01988-4 filed in the Superior Court of Thurston County, between the governor and the legislature, settled litigation over the governor’s use of veto powers and declared the vetoes of SHB 1059, SHB 1173, and ESHB 1827 null and void. Consequently, the text of this section has been returned to the version passed by the legislature prior to the vetoes. For vetoed text and message, see chapter 346, Laws of 2003.

the future issuance of additional bonds or parity debt on a

parity with outstanding bonds, and the terms and conditions

of their issuance. The authority may issue refunding bonds in

accordance with chapter 39.53 RCW or issue bonds with a

subordinate lien against the fund or funds securing outstanding

bonds.

(6) The board and any person executing the bonds are

not liable personally on the indebtedness or subject to any

personal liability or accountability by reason of the issuance

thereof.

(7) The authority may, out of any fund available therefor,
purchase its bonds in the open market. [2011 c 74 § 702;

2002 c 365 § 8.]

43.340.060 Bonds—Obligations of authority—Not

obligations of state. (1) Bonds issued under this chapter

shall be issued in the name of the authority. The bonds shall

not be obligations of the state of Washington and shall be

obligations only of the authority, payable solely from the spe-

cial fund or funds created by the authority for their payment.

(2019 Ed.)
(2) Bonds issued under this chapter shall contain a recital on their face to the effect that payment of the principal of, interest on, and prepayment premium, if any, on the bonds shall be a valid claim only as against the special fund or funds relating thereto, that neither the faith and credit nor the taxing power of the state or any municipal corporation, subdivision, or agency of the state, other than the authority as set forth in this chapter, is pledged to the payment of the principal of, interest on, and prepayment premium, if any, on the bonds.

(3) Contracts entered into by the authority shall be entered into in the name of the authority and not in the name of the state of Washington. The obligations of the authority under the contracts shall be obligations only of the authority and are not in any way obligations of the state of Washington.  

[2002 c 365 § 4.]

**43.340.070 Bonds—Legal investments.** Bonds issued under this chapter are hereby made securities in which all insurance companies, trust companies in their commercial departments, savings banks, cooperative banks, banking associations, investment companies, executors, trustees and other fiduciaries, and all other persons whatsoever who are now or may hereafter be authorized to invest in obligations of the state may properly and legally invest funds, including capital in their control or belonging to them.  

[2002 c 365 § 9.]

**43.340.080 Sale of rights in master settlement agreement.** (1) The governor is authorized to sell and assign to the authority all of the state's right to receive a portion of the state's annual share of the revenue derived from the master settlement agreement for litigation brought by the state against tobacco product manufacturers. The portion of the state's share sold and assigned shall be determined by the governor in an amount necessary to generate net proceeds to the state for deposit to the tobacco securitization trust account under RCW 43.340.120 up to four hundred fifty million dollars. The attorney general shall assist the governor in the review of all necessary documentation to effect the sale. The governor and the authority are authorized to take any action necessary to facilitate and complete the sale.

(2) The sale made under this section is irrevocable so long as bonds issued under this chapter remain outstanding. The portion of the revenue sold to the authority shall be pledged to the bondholders. The sale and assignment shall constitute and be treated as a true sale and absolute transfer of the revenue so transferred and not as a pledge or other security interest granted by the state for any borrowing. The characterization of such a sale as an absolute transfer shall not be negated or adversely affected by the fact that only a portion of the revenue from the master settlement agreement is being sold and assigned, or by the state's acquisition or retention of an ownership interest in the portion of the revenue from the master settlement agreement so not assigned.

(3) In addition to such other terms, provisions, and conditions as the governor and the authority may determine appropriate for inclusion in the sale agreements, the sale agreements shall contain (a) a covenant of the state that the state will not agree to any amendment of the master settlement agreement that materially and adversely affects the authority's ability to receive the portion of the state's share of master settlement agreement payments that have been sold to the authority; (b) a requirement that the state enforce, at its own expense, the provisions of the master settlement agreement that require the payment of the portion of the state's share of master settlement agreement payments that have been sold to the authority; and (c) a covenant that the state shall take no action that would adversely affect the tax-exempt status of any tax exempt bonds of the authority.

(4) On or after the effective date of the sale, the state shall not have any right, title, or interest in the portion of the state's share of the master settlement agreement revenue sold and such portion shall be the property of the authority and not the state, and shall be owned, received, held, and disbursed by the authority or its trustee or assignee, and not the state.

(5) The terms of the state's sale to the authority of a portion of the master settlement agreement revenue shall provide that the portion shall be paid directly to the authority or its trustee or assignee. The revenue sold and assigned shall not be received in the treasury of the state and shall not be or deemed to be general state revenues as that term is used in Article VIII, section 1 of the state Constitution.  

[2002 c 365 § 7.]

*Reviser's note: RCW 43.340.120 was repealed by 2012 c 198 § 26.*

**43.340.090 Limitation of liability.** Members of the board and persons acting in the authority's behalf, while acting within the scope of their employment or agency, are not subject to personal liability resulting from carrying out the powers and duties conferred on them under this chapter.  

[2002 c 365 § 10.]

**43.340.100 Bankruptcy—Contractual obligation to contain section.** Prior to the date that is three hundred sixty-six days after which the authority no longer has any bonds outstanding, the authority is prohibited from filing a voluntary petition under chapter 9 of the federal bankruptcy code or such corresponding chapter or section as may, from time to time, be in effect, and a public official or organization, entity, or other person shall not authorize the authority to be or become a debtor under chapter 9 or any successor or corresponding chapter or sections during such periods. This section shall be part of any contractual obligation owed to the holders of bonds issued under this chapter. Any such contractual obligation shall not subsequently be modified by state law during the period of the contractual obligation.  

[2002 c 365 § 11.]

**43.340.110 Dissolution of authority.** The authority shall dissolve no later than two years from the date of final payment of all of its outstanding bonds and the satisfaction of all outstanding obligations of the authority, except to the extent necessary to remain in existence to fulfill any outstanding covenants or provisions with bondholders or third parties made in accordance with this chapter. Upon dissolution of the authority, all assets of the authority shall be returned to the state and shall be deposited in the state general fund, and the authority shall execute any necessary assignments or instruments, including any assignment of any right, title, or ownership to the state for receipt of payments under the master settlement agreement.  

[2002 c 365 § 12.]
43.340.130 Appeals bonds—Amounts. (1) Except as provided in subsection (2) of this section, in order to secure and protect the moneys to be received as a result of the master settlement agreement in civil litigation under any legal theory involving a signatory, a successor of a signatory, or any affiliate of a signatory to the master settlement agreement, the supersedeas bond to be furnished in order to stay the execution of the judgment during the entire course of appellate review shall be set in accordance with applicable laws or court rules, except that the total bond that is required of all appellants collectively shall not exceed one hundred million dollars, regardless of the value of the judgment.

(2) If an appellee proves by a preponderance of the evidence that an appellant is dissipating assets outside the ordinary course of business to avoid the payment of a judgment, a court may require the appellant to post a bond in an amount up to the amount of the judgment. [2006 c 246 § 2.]

Findings—Intent—2006 c 246: "(1) The legislature finds that:
(a) Over the past five years, Washington has received more than seven hundred million dollars from the tobacco master settlement agreement;
(b) While the state has securitized a portion of the moneys it was promised under the master settlement agreement, the remainder of the master settlement agreement payments is used to fund important health programs such as the state's basic health plan, children's health insurance, childhood vaccines, and public health;
(c) Litigation now pending in the state or filed in the future could result in damage awards against master settlement agreement signatories or their successors or affiliates that are so large that the defendants could obtain a stay of the execution of the judgment while they appeal only by declaring bankruptcy, rather than posting an appeal bond under state law;
(d) Should a master settlement agreement signatory declare bankruptcy, issues might be raised about whether that disrupts or jeopardizes the payments that fund important state programs;
(e) The legislature has the substantive obligation to raise revenue and to protect the financial well-being of the state and its citizens. Pursuant to that obligation, it is the legislature's responsibility to ensure the continued receipt of master settlement agreement funds to the maximum extent possible.
(f) The legislature intends to place a maximum limit on the appeal bond a master settlement agreement signatory or a successor or affiliate of a master settlement agreement signatory can be required to post in litigation in order to stay execution of the judgment without being forced into bankruptcy while it exercises its right to appeal an adverse judgment." 43.348.005 Findings—Intent. (1) The legislature finds the following:
(a) Washington has an existing infrastructure of world-class cancer research and care centers for children and adults that can develop and apply new techniques for the prevention of cancer and care of cancer patients throughout Washington;
(b) Sustained investment in cancer research, prevention, and care is critical to reducing long-term health costs, saving lives, and relieving pain and suffering;
(c) Promoting the health of state residents is a fundamental public purpose and governmental function. Action to promote cancer research and prevention to improve the quality of life of the people of Washington is consistent with this fundamental public purpose; and
(d) Additional public resources dedicated exclusively to cancer research will provide sustained investment in cancer research to the benefit of the people of Washington.

(2) It is the intent of the legislature in enacting chapter 34, Laws of 2015 3rd sp. sess. to:
(a) Optimize the use of public funds by giving priority to research utilizing the best science and technology with the greatest potential to improve health outcomes;
(b) Increase the value of our public investments by leveraging our state's existing cancer research facilities and talent, as well as clinical and therapeutic resources;
(c) Incentivize additional investment by requiring private or other nonstate resources to match public funds;
(d) Protect and benefit Washington taxpayers by funding proposals for cancer research that are reviewed by an independent scientific panel;
(e) Require fiscal and public accountability through independent audits, open public meetings and hearings, and annual reports to the public; and
(f) Create jobs and encourage investments that will generate new tax revenues in our state, and advance the biotech, medical device, and health care information technology industries in Washington. [2015 3rd sp.s. c 34 § 1.]

**43.348.020 Andy Hill cancer research endowment.**

(1) The Andy Hill cancer research endowment is created. The powers of the endowment are vested in and must be exercised by a board. The board consists of thirteen members appointed by the governor:

(a) Two members must be appointed from nominations submitted by the presidents of the University of Washington and Washington State University;

(b) Two members must be appointed from nominations submitted by the Fred Hutchinson cancer research center, Seattle cancer care alliance, and the Seattle children's research institute;

(c) Two members must be appointed from nominations submitted by patient advocacy organizations;

(d) Two members must be appointed from nominations submitted by representatives of businesses or industries engaged in the commercialization of life sciences research or cancer research;

(e) One member must be appointed from a list of at least three nominated by the speaker of the house of representatives;

(f) One member must be appointed from a list of at least three nominated by the president of the senate;

(g) One member must be appointed from nominations submitted by entities or systems that provide health care delivery services;

(h) One member must be appointed from nominations provided by private sector donors to the fund. However, the governor may reject all nominations and request a new list from which the governor must select the member; and

(i) The remaining member must be a member of the public.

(2) In soliciting nominations and appointing members, the governor must seek to identify individuals from throughout the state having relevant knowledge, experience, and expertise regarding (a) cancer research, prevention, and care; (b) health care consumer issues; (c) government finance and budget; and (d) the commercialization of life sciences or cancer research. In soliciting nominations and appointing members, the governor must seek individuals who will contribute to the geographic diversity of the board, with the goal that at least five board members be from counties with a population less than one million persons. Appointments must be made on or before July 1, 2016.

(3) The term of a member is four years from the date of their appointment except the initial term of the members in subsection (1)(d) through (i) of this section must be two years to create a staggered appointment process. A member may be appointed to not more than two full consecutive terms. A member appointed by the governor may be removed by the governor for cause under RCW 43.06.070 and 43.06.080. The members may not be compensated but may be reimbursed, solely from the fund, for expenses incurred in the discharge of their duties under this chapter.

(4) Seven members of the board constitute a quorum.

(5) The members must elect a chair, treasurer, and secretary annually, and other officers as the members determine necessary, and may adopt bylaws or rules for their own government.

(6) Meetings of the board must be held in accordance with the open public meetings act, chapter 42.30 RCW, and at the call of the chair or when a majority of the members so requests. Meetings of the board may be held at any location within or out of the state, and members may participate in a meeting of the board by means of a conference telephone or similar communication equipment under RCW 23B.08.200. [2018 c 4 § 2; 2015 3rd sp.s. c 34 § 3.]

**43.348.030 Endowment—General powers.** The endowment has all the general powers necessary to carry out its purposes and duties and to exercise its specific powers. In addition to other powers specified in this chapter, the endowment may:

43.348.040 Andy Hill cancer research endowment program. (1) The Andy Hill cancer research endowment program is created. The purpose of the program is to make grants to public and private entities, including commercial entities, to fund or reimburse the entities pursuant to agreement for the promotion of cancer research to be conducted in the state. The endowment is to oversee and guide the program, including the solicitation, selection, and award of grants.

(2) The board must develop a plan for the allocation of projected amounts in the fund, which it must update annually, following at least one annual public hearing. The plan must provide for appropriate funding continuity and take into account the projected speed at which revenues will be available and amounts that can be spent during the plan period.

(3) The endowment must solicit requests for grant funding and evaluate the requests by reference to factors such as:

(a) The quality of the proposed research or program;
(b) its potential to improve health outcomes of persons with cancer, with particular attention to the likelihood that it will also lower health care costs, substitute for a more costly diagnostic or treatment modality, or offer a breakthrough treatment for a particular cancer or cancer-related condition or disease;
(c) its potential for leveraging additional funding;
(d) its potential to provide additional health care benefits or benefit other human diseases or conditions;
(e) its potential to stimulate life science, health care, and biomedical employment in the state;
(f) the geographic diversity of the grantees within Washington;
(g) evidence of potential royalty, sales, or licensing revenue, or other commercialization-related revenue and contractual means to recapture such income for purposes of this chapter; and
(h) evidence of public and private collaboration.

(4) The endowment may not award a grant for a proposal that was not recommended by an independent expert scientific review and advisory committee under RCW 43.348.050.

(5) The endowment must issue an annual report to the public that sets forth its activities with respect to the fund, including grants awarded, grant-funded work in progress, research accomplishments, prevention, and care activities, and future program directions with respect to cancer research, prevention, and care. Each annual report regarding activities of the program and fund must include, but not be limited to, the following: The number and dollar amounts of grants; the grantees for the prior year; the endowment's administrative expenses; an assessment of the availability of funding for cancer research, prevention, and care from sources other than the endowment; a summary of research, prevention, and care-related findings, including promising new areas for investment; and a report on the benefits to Washington of its programs to date.

(6) The endowment's first annual report must include a proposed operating plan for the design, implementation, and administration of an endowment program supporting the purposes of the endowment and program;

(7) The endowment must adopt policies to ensure that all potential conflicts have been disclosed and that all conflicts have been eliminated or mitigated.

(8) The endowment must establish standards to ensure that recipients of grants for cancer research, prevention, or care purchase goods and services from Washington suppliers to the extent reasonably possible. [2018 c 4 § 4; 2015 3rd sp.s. c 34 § 5.]

43.348.050 Independent expert scientific review and advisory committee—Created—Grant proposal evaluations and recommendations. (1) In addition to any advisory boards the endowment determines to establish, the endowment must establish one or more independent expert scientific review and advisory committees for the purposes of evaluating grant proposals for cancer research and recommending grants to be made from the Andy Hill cancer research fund; advising the endowment during the development and review of its strategic plans for cancer research; and advising the endowment on scientific and other matters in furtherance of the cancer research purposes of this chapter.

(2) Each independent expert scientific review and advisory committee must consist of individuals with nationally recognized expertise in the scientific, clinical, ethical, commercial, and regulatory aspects of cancer research, prevention, and care. The board must appoint the members of the committee. Preliminary review of grant proposals may be made by a panel of such committee or an independent contractor chosen by the board upon recommendation of the committee, but all recommendations for grants to be made from the fund may be made only upon majority vote of the committee. [2018 c 4 § 5; 2015 3rd sp.s. c 34 § 6.]

43.348.060 Program administrator—Andy Hill cancer research fund—Independent auditor. (1) The program administrator must provide services to the board and has the following duties and responsibilities:

(a) Jointly with the board, solicit and receive gifts, grants, and bequests, and enter into contribution agreements with private entities and public entities, including commercial entities, in order to use those moneys to fund grants awarded by the endowment;

(b) Establish an Andy Hill cancer research fund. The fund must be a separate private account outside the state treasury into which grants and contributions received from public and private sources as well as state matching funds must be deposited, and from which funds for grants awarded by the endowment must be disbursed. Once moneys in the Andy Hill cancer research endowment fund match transfer account are subject to an agreement under RCW 43.348.080(6) and are deposited in the fund under this section, the moneys in the fund are not considered state money, common cash, or revenue to the state;

(c) Manage the fund, its obligations, and investments as to achieve the maximum possible rate of return on investment in the fund;
(d) Establish policies and procedures to facilitate the orderly process of grant application, review, selection, and notification; and

(e) Distribute funds to selected entities through grant agreements. Grant agreements must set forth the terms and conditions of the grant and must include, but not be limited to: (i) Deliverables to be provided by the recipient pursuant to the grant; (ii) the circumstances under which the grant amount would be required to be repaid or the circumstances under which royalty, sales, or licensing revenue, or other commercialization-related revenue would be required to be shared; and (iii) indemnification, dispute resolution, and any other terms and conditions as are customary for grant agreements or are deemed reasonable by the board. The program administrator may negotiate with any grantee the costs associated with performing scientific activities funded by grants.

(2) Periodically, but not less often than every three years, the endowment and the department must conduct a request for proposals and retain the services of an independent auditor with experience in performance auditing of research granting agencies similar to the endowment. The independent auditor must review the endowment’s strategic plan, program, and program administrator and publish a report assessing their performance and providing recommendations for improvement. The endowment must hold at least one public hearing at which the results of each audit are presented and discussed. [2018 c 4 § 6; 2015 3rd sp.s. c 34 § 7.]

43.348.070 Charitable contributions. The program administrator may create additional legal entities and take such action as may be necessary or advisable to enable the fund to accept charitable contributions. In addition, the program administrator may provide technical assistance, information, and training to private employers and other potential donors to establish programs that facilitate charitable contributions to the fund including tobacco use premium surcharge programs. [2018 c 4 § 7; 2015 3rd sp.s. c 34 § 8.]

43.348.080 Andy Hill cancer research endowment fund match transfer account. (Effective October 1, 2019.) (1) The Andy Hill cancer research endowment fund match transfer account is created in the custody of the state treasurer as a nonappropriated account to be used solely and exclusively for the program created in RCW 43.348.040. Moneys in the account may be spent only after appropriation. The purpose of the account is to provide matching funds for the fund and administrative costs. Expenditures from fund or reimburse the program administrator are not subject to the requirements of subsection (4) of this section.

(2) The legislature must appropriate a state match, up to a maximum of ten million dollars annually, beginning July 1, 2016, and each July 1st following the end of the fiscal year from tax collections and penalties generated from enforcement of state taxes on cigarettes and other tobacco products by the state liquor and cannabis board or other federal, state or local law or tax enforcement agency, as determined by the department of revenue. Tax collections include any cigarette tax, other tobacco product tax, and retail sales and use tax. Any amounts deposited into this account from the tax imposed under RCW 82.25.010 in excess of the cap provided in this subsection must be deposited into the foundational public health services account created in RCW 82.25.015.

(3) Revenues to the account must consist of deposits into the account, taxes imposed on vapor products under RCW 82.25.010, legislative appropriations, and any gifts, grants, or donations received by the department for this purpose.

(4) Each fiscal biennium, the legislature must appropriate to the department of commerce such amounts as estimated to be the balance of the account to provide state matching funds.

(5) Expenditures, in the form of matching funds, from the account may be made only upon receipt of proof from the program administrator of nonstate or private contributions to the fund for the program. Expenditures, in the form of matching funds, may not exceed the total amount of nonstate or private contributions.

(6) The department must enter into an appropriate agreement with the program administrator to demonstrate exchange of consideration for the matching funds. [2018 c 4 § 8; 2015 3rd sp.s. c 34 § 9.]

Tax incentives for Washington main street program: Chapter 82.73 RCW.

43.360.005 Findings—Intent. (1) The legislature finds:
   (a) The continued economic vitality of downtown and neighborhood commercial districts in our state's cities is essential to community preservation, social cohesion, and economic growth;
   (b) In recent years there has been a deterioration of downtown and neighborhood commercial districts in both rural and urban communities due to a shifting population base, changes in the marketplace, and greater competition from suburban shopping malls, discount centers, and business transacted through the internet;
   (c) This decline has eroded the ability of businesses and property owners to renovate and enhance their commercial and residential properties; and
   (d) Business owners in these districts need to maintain their local economies in order to provide goods and services to adjacent residents, to provide employment opportunities, to avoid disinvestment and economic dislocations, and to develop and sustain downtown and neighborhood commercial district revitalization programs to address these problems.

   (2) It is the intent of the legislature to establish a program to:
      (a) Work in partnership with these organizations;
      (b) Provide technical assistance and training to local governments, business organizations, downtown and neighborhood commercial district organizations, and business and property owners to accomplish community and economic revitalization and development of business districts; and
      (c) Certify a downtown or neighborhood commercial district organization's use of available tax incentives. [2005 c 514 § 901.]

43.360.010 Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

   (1) "Area" means a geographic area within a local government that is described by a closed perimeter boundary.
   (2) "Department" means the department of archaeology and historic preservation.
   (3) "Director" means the director of the department.
   (4) "Local government" means a city, code city, or town.
   (5) "Qualified levels of participation" means a local downtown or neighborhood commercial district revitalization program that has been designated by the department. [2010 c 30 § 3, 2009 c 565 § 44; 2005 c 514 § 908.]

Finding—2010 c 30: "Many of Washington's communities use the main street program to address issues facing their older traditional commercial districts. The main street program is a preservation-based economic development program that assists communities in implementing a locally driven downtown revitalization effort. However, the main street program is broader than merely preserving a community's downtown, it is the revitalization of that community's downtown. Downtown revitalization creates jobs and puts people to work. Downtown revitalization attracts new businesses and offers local investment opportunities. New and expanding downtown businesses generate increased sales tax and attract export dollars to the community. Therefore, the legislature finds that the movement of the main street program from the department of commerce to the department of archaeology and historic preservation is designed to provide for both the preservation of a community's downtown and economic development for that community." [2010 c 30 § 1.]

Effective date—2010 c 30: "This act takes effect July 1, 2010." [2010 c 30 § 7.]

programs. In establishing the criteria, the department shall consider:

(a) The degree of interest and commitment to comprehensive downtown or neighborhood commercial district revitalization and, where applicable, historic preservation by both the public and private sectors;

(b) The evidence of potential private sector investment in the downtown or neighborhood commercial district;

(c) Where applicable, a downtown or neighborhood commercial district with sufficient historic fabric to become a foundation for an enhanced community image;

(d) The capacity of the organization to undertake a comprehensive program and the financial commitment to implement a long-term downtown or neighborhood commercial district revitalization program that includes a commitment to employ a professional program manager and maintain a sufficient operating budget;

(3) *RCW 82.73.010 does not apply to any local downtown or neighborhood commercial district revitalization program unless the boundaries of the program have been identified and approved by the department. The boundaries of a local downtown or neighborhood commercial district revitalization program are typically defined using the pedestrian core of a traditional commercial district.

(4) The department may not designate a local downtown or neighborhood commercial district revitalization program or official local main street program if the program is undertaken by a local government with a population of one hundred ninety thousand persons or more. [2005 c 514 § 910.]

43.362.020 Regional transfer of development rights program.

[Title 43 RCW—page 826]
Regional Transfer of Development Rights Program

43.362.020 Regional transfer of development rights program. Subject to the availability of amounts appropriated for this specific purpose, the department shall fund a process to develop a regional transfer of development rights program that complies with chapter 36.70A RCW that:

(1) Encourages King, Kitsap, Pierce, and Snohomish counties, and the cities within these counties, to participate in the development and implementation of regional frameworks and mechanisms that make transfer of development rights programs viable and successful. The department shall encourage and embrace the efforts in any of these counties or cities to develop local transfer of development rights programs. In fulfilling the requirements of this chapter, the department shall work with the Puget Sound regional council and its growth management policy board to develop a process that satisfies the requirements of this chapter. In the development of a process to create a regional transfer of development rights program, the Puget Sound regional council and its growth management policy board shall develop policies to discourage, or prohibit if necessary, the transfer of development rights from a sending area that would negatively impact the future economic viability of the sending area. The department shall also work with an advisory committee to develop a regional transfer of development rights marketplace that includes, but is not limited to, supporting strategies for financing infrastructure and conservation. The department shall establish an advisory committee of nine stakeholders with representatives of the following interests:

(a) Two qualified nongovernmental organizations with expertise in the transfer of development rights. At least one organization must have a statewide expertise in growth management planning and in the transfer of development rights and at least one organization must have a local perspective on market-based conservation strategies and transfer of development rights;

(b) Two representatives from real estate and development;

(c) One representative with a county government perspective;

(d) Two representatives from cities of different sizes and geographic areas within the four-county region; and

(e) Two representatives of the agricultural industry; and

(2) Allows the department to utilize recommendations of the interested local governments, nongovernmental entities, and the Puget Sound regional council to develop recommendations and strategies for a regional transfer of development rights marketplace with supporting strategies for financing infrastructure and conservation that represents the consensus of the governmental and nongovernmental parties engaged in the process. However, if agreement between the parties cannot be reached, the department shall make recommendations to the legislature that seek to balance the needs and interests of the interested governmental and nongovernmental parties. The department may contract for expertise to accomplish any of the following tasks. Recommendations developed under this subsection must:

(a) Identify opportunities for cities, counties, and the state to achieve significant benefits through using transfer of development rights programs and the value in modifying criteria by which capital budget funds are allocated, including but not limited to, existing state grant programs to provide incentives for local governments to implement transfer of development rights programs;

(b) Address challenges to the creation of an efficient and transparent transfer of development rights market, including the creation of a transfer of development rights bank, brokerage, or direct buyer-seller exchange;

(c) Address issues of certainty to buyers and sellers of development rights that address long-term environmental benefits and perceived inequities in land values and permitting processes;

(d) Address the means for assuring that appropriate values are recognized and updated, as well as specifically addressing the need to maintain the quality of life in receiving neighborhoods and the protection of environmental values over time;

(e) Identify opportunities and challenges that, if resolved, would result in cities throughout the Puget Sound.

Reviser's note: (1) The definitions in this section have been alphabetized pursuant to RCW 1.08.015(2)(k).

(2) This section was amended by 2009 c 474 § 2 and by 2009 c 565 § 45, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).
region participating in a transfer of development rights market;
(f) Compare the uses of a regional transfer of development rights program to other existing land conservation strategies to protect rural and resource lands and implement the growth management act; and
(g) Identify appropriate sending areas so as to protect future growth and economic development needs of the sending areas. [2007 c 482 § 3.]

43.362.030 Program established in central Puget Sound. (1) Subject to the availability of funds appropriated for this specific purpose or another source of funding made available for this specific purpose, the department shall establish a regional transfer of development rights program in central Puget Sound, including King, Kitsap, Snohomish, and Pierce counties and the cities and towns within these counties. The program must be guided by the Puget Sound regional council's multicounty planning policies adopted under RCW 36.70A.210(7).

(2) The purpose of the program is to foster voluntary county, city, and town participation in the program so that interjurisdictional transfers occur between the counties, cities, and towns, including transfers from counties to cities and towns in other counties. Private transactions between buyers and sellers of transferable development rights are allowed and encouraged under this program. In fulfilling the requirements of this chapter, the department shall work with the Puget Sound regional council to implement a regional program.

(3) The department shall encourage participation by the cities, towns, and counties in the regional program. The regional program shall not be implemented in a manner that negatively impacts existing local programs. The department shall encourage and work to enhance the efforts in any of these counties, cities, or towns to develop local transfer of development rights programs or enhance existing programs.

(4) Subject to the availability of funds appropriated for this specific purpose or another source of funding made available for this specific purpose, the department shall do the following to implement a regional transfer of development rights program in central Puget Sound:
(a) Serve as the central coordinator for state government in the implementation of RCW 43.362.030 through 43.362.070.
(b) Offer technical assistance to cities, towns, and counties planning for participation in the regional transfer of development rights program. The department's technical assistance shall:
   (i) Include written guidance for local development and implementation of the regional transfer of development rights program;
   (ii) Include guidance for and encourage permitting or environmental review incentives for developers to participate. Activities may include, but are not limited to, provision for by-right permitting, substantial environmental review of a subarea plan for the receiving area that includes the use of transferable development rights, adoption of a categorical exemption for infill under RCW 43.21C.229 for a receiving area, or adoption of a planned action under RCW 43.21C.240;
   (iii) Provide guidance to counties, cities, and towns to negotiate receiving area ratios and foster private transactions;
   (iv) Provide guidance and encourage planning for receiving areas that do not compete or conflict with comprehensive plan policies and development regulations that require or encourage affordable housing; and
   (v) Provide guidance and encourage planning for receiving areas that maximizes opportunities for economic development through the creation or retention of jobs.
(b) Work with counties, cities, and towns to inform elected officials, planning commissions, and the public regarding the regional transfer of development rights program. The information provided by the department shall discuss the importance of preserving farmland and farming, and forestland and forestry, to cities and towns and the local economy.

(d) Based on information provided by the counties, cities, and towns, post on a web site information regarding transfer of development rights transactions and a list of interested buyers and sellers of transferable development rights.
(e) Coordinate with and provide resources to state and local agencies and stakeholders to provide public outreach. [2009 c 474 § 3.]

43.362.040 Designation of sending and receiving areas—Inclusion of certain lands in programs for agricultural or forestland conservation. (1) Counties shall use the following criteria to guide the designation of sending areas for participation in the regional transfer of development rights program:
(a) Land designated as agricultural or forestland of long-term commercial significance;
(b) Land designated rural that is being farmed or managed for forestry;
(c) Land whose conservation meets other state and regionally adopted priorities; and
(d) Land that is in current use as a manufactured/mobile home park as defined in chapter 59.20 RCW.

Nothing in these criteria limits a county's authority to designate additional lands as a sending area for conservation under a local county transfer of development rights program.
(2) Upon purchase of a transferable development right from land designated rural that is being farmed or managed for forestry, a county must include the land from which the right was purchased in any programs it administers for conservation of agricultural land or forestland.

(3) The designation of receiving areas is limited to incorporated cities or towns. Prior to designating a receiving area, a city or town should have adequate infrastructure planned and funding identified for development in the receiving area at densities or intensities consistent with what can be achieved under the local transfer of development rights program. Nothing in this subsection limits a city's, town's, or county's authority to designate additional lands for a receiving area under a local intrajurisdictional transfer of development rights program that is not part of the regional program.

(4) Cities and towns participating in the regional transfer of development rights program shall have discretion to determine which sending areas they receive development rights from to be used in their designated receiving areas.

[Title 43 RCW—page 828]
(5) Designation of sending and receiving areas should include a process for public outreach consistent with the public participation requirements in chapter 36.70A RCW. [2009 c 474 § 4.]

43.362.050 Interlocal agreement for transfers of development rights—Rules. (1) To facilitate participation, the department shall develop and adopt by rule terms and conditions of an interlocal agreement for transfers of development rights between counties, cities, and towns. Counties, cities, and towns participating in the regional program have the option of adopting the rule by reference to transfer development rights across jurisdictional boundaries as an alternative to entering into an interlocal agreement under chapter 39.34 RCW.

(2) This section and the rules adopted under this section shall be deemed to provide an alternative method for the implementation of a regional transfer of development rights program, and shall not be construed as imposing any additional condition upon the exercise of any other powers vested in municipalities.

(3) Nothing in this section prohibits a county, city, or town from entering into an interlocal agreement under chapter 39.34 RCW to transfer development rights under the regional program. [2009 c 474 § 5.]

43.362.060 Participation in regional transfer of development rights program—Requirements—Incentives for developers. (1) Counties, cities, and towns that choose to participate in the regional transfer of development rights program must:

(b) Adopt transfer of development rights policies or implement development regulations that:

(i) Comply with chapter 36.70A RCW;

(ii) Designate sending or receiving areas consistent with RCW 43.362.030 through 43.362.070; and

(iii) Adopt a sending or receiving area ratio in cooperation with the sending or receiving jurisdiction.

(2) Cities and towns that choose to participate in the regional transfer of development rights program are encouraged to provide permitting or environmental review incentives for developers to participate. Such incentives may include, but are not limited to, provision for by-right permitting, substantial environmental review of a subarea plan for the receiving area that includes the use of transferable development rights, adoption of a categorical exemption for infill under RCW 43.21C.229 for a receiving area, or adoption of a planned action under RCW 43.21C.240. [2009 c 474 § 6.]

43.362.070 Quantitative and qualitative performance measures—Reporting—Posting on web site. The department will develop quantitative and qualitative performance measures for monitoring the regional transfer of development rights program. The performance measures may address conservation of land and creation of compact communities, as well as other measures identified by the department. The department may require cities, towns, and counties to report on these performance measures biannually. The department shall compile any performance measure information that has been reported by the counties, cities, and towns and post it on a web site. [2009 c 474 § 7.]

43.365.005 Findings—Intent. The legislature recognizes the motion picture industry in Washington as a valuable commodity contributing greatly to the economic vitality of the state and the cultural integrity of our communities. The legislature further recognizes the production of in-state motion pictures, television programs, and television commercials creates a marked increase in tourism, family-wage jobs, and the sale of local goods and services generating revenue for the state. Furthermore, with captive national and international audiences, the world is introduced to the state's pristine scenic venues and reminded that the Pacific Northwest is a great place to live and raise a family. The legislature also recognizes the inherent educational value of promoting arts and culture as well as the benefits of training young motion picture professionals who will build a fruitful industry for years to come.

The legislature finds in recent years that the state has realized a drastic decline in motion picture production that precludes economic expansion and threatens the state's reputation as a production destination. With the emergence of tax incentives in thirty states nationwide, in-state producers are taking their projects to more competitive economic climates, such as Oregon and Vancouver, British Columbia, where compelling tax incentive packages and subsidies are already in effect.

The legislature also finds that in recent years increasingly workers in Washington state are without health insurance coverage and retirement income protections, causing hardships on workers and their families and higher costs to the state.

Therefore, it is the intent of the legislature to recognize both national and international competition in the motion picture production marketplace. The legislature is committed to leveling the competitive playing field and interested in a partnership with the private sector to regain Washington's place as a premier destination to make motion pictures, television, and television commercials. While at the same time the legislature is committed to ensuring that workers in the motion picture and television industry are covered under health insurance and retirement income plans. [2006 c 247 § 1.]

(2) Each motion picture production receiving funding assistance under RCW 43.365.020 must report information to the department by filing a complete annual survey. The survey is due by March 31st of the year following any calendar year in which funding assistance under RCW 43.365.020 is taken. (3) The Washington motion picture competitiveness program established in RCW 43.365.030, in collaboration with the department and the department of revenue, and in consultation with the joint legislative audit and review committee, must develop a survey form and instructions that accompany the survey form by November 1, 2012. The instructions must provide sufficient detail to ensure consistent reporting. The survey must be designed to acquire data to allow the state to better measure the effectiveness of the program and to provide transparency of the motion picture competitiveness program. The survey must include:

The interest is assessed at the rate provided for delinquent taxes under chapter 82.32 RCW, retroactively to the date the funding assistance was received, and accrues until the funding assistance is repaid.

(6) The department must use the information from this section to prepare summary descriptive statistics. The department must report these statistics to the legislature each even-numbered year by September 1st. The department must provide the complete annual surveys to the joint legislative audit and review committee.

### 43.370.030 Development of strategy—Goals and principles—Required elements—Reports—Public hearings

(1) The office shall develop a statewide health resources strategy. The strategy shall establish statewide health planning policies and goals related to the availability of health care facilities and services, quality of care, and cost of care. The strategy shall identify needs according to geographic regions suitable for comprehensive health planning as designated by the office.

(2) The development of the strategy shall consider the following general goals and principles:

(a) That excess capacity of health services and facilities place considerable economic burden on the public who pay for the construction and operation of these facilities as patients, health insurance purchasers, carriers, and taxpayers; and

(b) That the development and ongoing maintenance of current and accurate health care information and statistics related to cost and quality of health care, as well as projections of need for health facilities and services, are essential to effective strategic health planning.

(3) The strategy, with public input by health service areas, shall include:

(a) A health system assessment and objectives component that:

(i) Describes state and regional population demographics, health status indicators, and trends in health status and health care needs; and

(ii) Identifies key policy objectives for the state health system related to access to care, health outcomes, quality, and cost-effectiveness;

(b) A health care facilities and services plan that shall assess the demand for health care facilities and services to inform state health planning efforts and direct certificate of need determinations, for those facilities and services subject to certificate of need as provided in chapter 70.38 RCW. The plan shall include:

(i) An inventory of each geographic region’s existing health care facilities and services;

(ii) Projections of need for each category of health care facility and service, including those subject to certificate of need;

(iii) Policies to guide the addition of new or expanded health care facilities and services to promote the use of quality, evidence-based, cost-effective health care delivery options, including any recommendations for criteria, standards, and methods relevant to the certificate of need review process; and

(iv) An assessment of the availability of health care providers, public health resources, transportation infrastructure, and other considerations necessary to support the needed health care facilities and services in each region;

(c) A health care data resource plan that identifies data elements necessary to properly conduct planning activities and to review certificate of need applications, including data related to inpatient and outpatient utilization and outcomes information, and financial and utilization information related to charity care, quality, and cost. The plan shall inventory existing data resources, both public and private, that store and disclose information relevant to the health planning process, including information necessary to conduct certificate of need activities pursuant to chapter 70.38 RCW. The plan shall identify any deficiencies in the inventory of existing data resources and the data necessary to conduct comprehensive health planning activities. The plan may recommend that the office be authorized to access existing data sources and conduct appropriate analyses of such data or that other agencies expand their data collection activities as statutory authority permits. The plan may identify any computing infrastructure deficiencies that impede the proper storage, transmission, and analysis of health planning data. The plan shall provide recommendations for increasing the availability of data related to health planning to provide greater community involvement in the health planning process and consistency in data used for certificate of need applications and determinations;

(d) An assessment of emerging trends in health care delivery and technology as they relate to access to health care facilities and services, quality of care, and costs of care. The assessment shall recommend any changes to the scope of health care facilities and services covered by the certificate of need program that may be warranted by these emerging trends. In addition, the assessment may recommend any changes to criteria used by the department to review certificate of need applications, as necessary;

(e) A rural health resource plan to assess the availability of health resources in rural areas of the state, assess the unmet needs of these communities, and evaluate how federal and state reimbursement policies can be modified, if necessary, to more efficiently and effectively meet the health care needs of rural communities. The plan shall consider the unique health care needs of rural communities, the adequacy of the rural health workforce, and transportation needs for accessing appropriate care.

(4) The office shall submit the initial strategy to the governor and the appropriate committees of the senate and house of representatives by January 1, 2010. Every two years the office shall submit an updated strategy. The health care facilities and services plan as it pertains to a distinct geographic planning region may be updated by individual categories on a rotating, biennial schedule.

(5) The office shall hold at least one public hearing and allow opportunity to submit written comments prior to the issuance of the initial strategy or an updated strategy. A public hearing shall be held prior to issuing a draft of an updated health care facilities and services plan, and another public hearing shall be held before final adoption of an updated health care facilities and services plan. Any hearing related to updating a health care facilities and services plan for a specific planning region shall be held in that region with sufficient notice to the public and an opportunity to comment. As the health care facilities and services plan is updated for any specific geographic planning region, the office shall submit that plan to the department of health to direct its activities related to the certificate of need review program under chapter 70.38 RCW. The office shall not issue determinations of the merits of specific project proposals submitted by applicants for certificates of need. [2007 c 259 § 53.]

43.370.050 Requests for data and other information. (1) The office may respond to requests for data and other information from its computerized system for special studies and analysis consistent with requirements for confidentiality of patient, provider, and facility-specific records. The office may require requestors to pay any all or the reasonable costs associated with such requests that might be approved.

Chapter 43.371 RCW

STATEWIDE HEALTH CARE CLAIMS DATA

Sections

43.371.005 Findings. The legislature finds that:

(1) The activities authorized by this chapter will require collaboration among state agencies and local governments that are involved in health care, private health carriers, third-party purchasers, health care providers, and hospitals. These activities will identify strategies to increase the quality and effectiveness of health care delivered in Washington state and are therefore in the best interest of the public.

(2) The benefits of collaboration, together with active state supervision, outweigh potential adverse impacts. Therefore, the legislature intends to exempt from state antitrust laws, and provide immunity through the state action doctrine from federal antitrust laws, activities that are undertaken, reviewed, and approved by the authority pursuant to this chapter that might otherwise be constrained by such laws. The legislature does not intend and does not authorize any person or entity to engage in activities not provided for in this chapter, and the legislature neither exempts nor provides immunity for such activities including, but not limited to, agreements among competing providers or carriers to set prices or specific levels of reimbursement for health care services. [2019 c 319 § 1; 2014 c 223 § 9.]

ment arrangements or other specific reimbursement arrangements between an individual health care facility or health care provider, as those terms are defined in RCW 48.43.005, and a specific payer, or internal fee schedule or other internal pricing mechanism of integrated delivery systems owned by a carrier.

(13) "Unique identifier" means an obfuscated identifier assigned to an individual represented in the database to establish a basis for following the individual longitudinally throughout different payers and encounters in the database without revealing the individual's identity. [2019 c 319 § 2. Prior: 2015 c 246 § 1; 2014 c 223 § 8.]

Effective date—2019 c 319: See note following RCW 43.371.020.
Finding—2014 c 223: See note following RCW 41.05.800.

43.371.020 Statewide all-payer health care claims database—Selection and duties of lead organization—Certification as qualified entity pursuant to 42 C.F.R. Sec. 401.703(a)—Contract with data vendor. (1) The office shall establish a statewide all-payer health care claims database. On January 1, 2020, the office must transfer authority and oversight for the database to the authority. The office and authority must develop a transition plan that sustains operations by July 1, 2019. The database shall support transparent public reporting of health care information. The database must improve transparency to: Assist patients, providers, and hospitals to make informed choices about care; enable providers, hospitals, and communities to improve by benchmarking their performance against that of others by focusing on best practices; enable purchasers to identify value, build expectations into their purchasing strategy, and reward improvements over time; and promote competition based on quality and cost. The database must systematically collect all medical claims and pharmacy claims from private and public payers, with data from all settings of care that permit the systematic analysis of health care delivery.

(2) The authority shall use a competitive procurement process, in accordance with chapter 39.26 RCW, to select a lead organization from among the best potential bidders to coordinate and manage the database.

(a)(i) In conducting the competitive procurement, the authority must ensure that no state officer or state employee participating in the procurement process:

(A) Has a current relationship or had a relationship within the last three years with any organization that bids on the procurement that would constitute a conflict with the proper discharge of official duties under chapter 42.52 RCW; or

(B) Is a compensated or uncompensated member of a bidding organization's board of directors, advisory committee, or has held such a position in the past three years.

(ii) If any relationship or interest described in (a)(i) of this subsection is discovered during the procurement process, the officer or employee with the prohibited relationship must withdraw from involvement in the procurement process.

(b) Due to the complexities of the all-payer claims database and the unique privacy, quality, and financial objectives, the authority must give strong consideration to the following elements in determining the appropriate lead organization contractor: (i) The organization's degree of experience in health care data collection, analysis, analytics, and security; (ii) whether the organization has a long-term self-sustainable financial model; (iii) the organization's experience in convening and effectively engaging stakeholders to develop reports, especially among groups of health providers, carriers, and self-insured purchasers; (iv) the organization's experience in meeting budget and timelines for report generations; and (v) the organization's ability to combine cost and quality data to assess total cost of care.

(c) The successful lead organization must apply to be certified as a qualified entity pursuant to 42 C.F.R. Sec. 401.703(a) by the centers for medicare and medicaid services.

(d) The authority may not select a lead organization that:

(i) Is a health plan as defined by and consistent with the definitions in RCW 48.43.005;

(ii) Is a hospital as defined in RCW 70.41.020;

(iii) Is a provider regulated under Title 18 RCW;

(iv) Is a third-party administrator as defined in RCW 70.290.010; or

(v) Is an entity with a controlling interest in any entity covered in (d)(i) through (iv) of this subsection.

(3) As part of the competitive procurement process referenced in subsection (2) of this section, the lead organization shall enter into a contract with a data vendor or multiple data vendors to perform data collection, processing, aggregation, extracts, and analytics. A data vendor must:

(a) Establish a secure data submission process with data suppliers;

(b) Review data submitters' files according to standards established by the authority;

(c) Assess each record's alignment with established format, frequency, and consistency criteria;

(d) Maintain responsibility for quality assurance, including, but not limited to: (i) The accuracy and validity of data suppliers' data; (ii) accuracy of dates of service spans; (iii) maintaining consistency of record layout and counts; and (iv) identifying duplicate records;

(e) Assign unique identifiers, as defined in RCW 43.371.010, to individuals represented in the database;

(f) Ensure that direct patient identifiers, indirect patient identifiers, and proprietary financial information are released only in compliance with the terms of this chapter;

(g) Demonstrate internal controls and affiliations with separate organizations as appropriate to ensure safe data collection, security of the data with state of the art encryption methods, actuarial support, and data review for accuracy and quality assurance;

(h) Store data on secure servers that are compliant with the federal health insurance portability and accountability act and regulations, with access to the data strictly controlled and limited to staff with appropriate training, clearance, and background checks; and

(i) Maintain state of the art security standards for transferring data to approved data requestors.

(4) The lead organization and data vendor must submit detailed descriptions to the office of the chief information officer to ensure robust security methods are in place. The office of the chief information officer must report its findings to the authority and the appropriate committees of the legislature.
(5) The lead organization is responsible for internal governance, management, funding, and operations of the database. At the direction of the authority, the lead organization shall work with the data vendor to:

(a) Collect claims data from data suppliers as provided in RCW 43.371.030;

(b) Design data collection mechanisms with consideration for the time and cost incurred by data suppliers and others in submission and collection and the benefits that measurement would achieve, ensuring the data submitted meet quality standards and are reviewed for quality assurance;

(c) Ensure protection of collected data and store and use any data in a manner that protects patient privacy and complies with this section. All patient-specific information must be deidentified with an up-to-date industry standard encryption algorithm;

(d) Consistent with the requirements of this chapter, make information from the database available as a resource for public and private entities, including carriers, employers, providers, hospitals, and purchasers of health care;

(e) Report performance on cost and quality pursuant to RCW 43.371.060 using, but not limited to, the performance measures developed under RCW 41.05.690;

(f) Develop protocols and policies, including prerelease peer review by data suppliers, to ensure the quality of data releases and reports;

(g) Develop a plan for the financial sustainability of the database as may be reasonable and customary as compared to other states' databases and charge fees for reports and data files as needed to fund the database. Any fees must be approved by the authority and should be comparable, accounting for relevant differences across data requests and uses. The lead organization may not charge providers or data suppliers fees other than fees directly related to requested reports and data files; and

(h) Convene advisory committees with the approval and participation of the authority, including: (i) A committee on data policy development; and (ii) a committee to establish a data release process consistent with the requirements of this chapter and to provide advice regarding formal data release requests. The advisory committees must include in-state representation from key provider, hospital, public health, health maintenance organization, large and small private purchasers, consumer organizations, and the two largest carriers supplying claims data to the database.

(6) The lead organization governance structure and advisory committees for this database must include representation of the third-party administrator of the uniform medical plan. A payer, health maintenance organization, or third-party administrator must be a data supplier to the all-payer health care claims database to be represented on the lead organization governance structure or advisory committees. [2019 c 319 § 3; 2015 c 246 § 2; 2014 c 223 § 10.]

Transfer of powers, duties, and functions from the office of financial management to the health care authority—2019 c 319: "(1) The powers, duties, and functions of the office of financial management provided in chapter 43.371 RCW, except as otherwise specified in this act, are transferred to the health care authority.

(2)(a) All reports, documents, surveys, books, records, files, papers, or written material necessary for the health care authority to carry out the powers, duties, and functions in chapter 43.371 RCW being transferred from the office of financial management to the health care authority and that are in the possession of the office of financial management must be delivered to the custody of the health care authority. (c) If any question arises as to the transfer of any funds, books, documents, records, papers, files, equipment, or other tangible property used or held in the exercise of the powers and the performance of the duties and functions transferred, the director of financial management must make a determination as to the proper allocation and certify the same to the state agencies concerned.

(3) All rules and pending business before the office of financial management specifically related to its powers, duties, and functions in chapter 43.371 RCW that are being transferred to the health care authority shall be continued and acted upon by the health care authority. All existing contracts and obligations remain in full force and must be performed by the health care authority.

(4) The transfer of the powers, duties, and functions of the office of financial management does not affect the validity of any act performed before May 8, 2019.

(5) If apportionments of budgeted funds are required because of the transfers directed by this section, the director of financial management shall certify the apportionments to the agencies affected, the state auditor, and the state treasurer. (2) Claims data obtained, distributed, or reported in the course of activities undertaken pursuant to or supported under this chapter are not subject to subpoena or similar compulsory process in any civil or criminal, judicial, or administrative proceeding, nor may any individual or organization with lawful access to data under this chapter be compelled to provide such information pursuant to subpoena or testify with regard to such data, except that data pertaining to a party in litigation may be subject to subpoena or similar compulsory process in an action brought by or on behalf of such individual to enforce any liability arising under this chapter. [2015 c 246 § 4; 2014 c 223 § 12.]

43.371.050 Availability of claims or data for retrieval—Confidentiality of claims or data—Duties of the lead organization and the data vendor. (1) Except as otherwise required by law, claims or other data from the database shall only be available for retrieval in processed form to public and private requesters pursuant to this section and shall be made available within a reasonable time after the request. Each request for claims data must include, at a minimum, the following information:

(a) The identity of any entities that will analyze the data in connection with the request;

(b) The stated purpose of the request and an explanation of how the request supports the goals of this chapter set forth in RCW 43.371.020(1);

(c) A description of the proposed methodology;

(d) The specific variables requested and an explanation of how the data is necessary to achieve the stated purpose described pursuant to (b) of this subsection;

(e) How the requester will ensure all requested data is handled in accordance with the privacy and confidentiality protections required under this chapter and any other applicable law;

(f) The method by which the data will be destroyed at the conclusion of the data use agreement;

(g) The protections that will be utilized to keep the data from being used for any purposes not authorized by the requester's approved application; and

(h) Consent to the penalties associated with the inappropriate disclosures or uses of direct patient identifiers, indirect patient identifiers, or proprietary financial information adopted under RCW 43.371.070(1).

(2) The lead organization may decline a request that does not include the information set forth in subsection (1) of this section that does not meet the criteria established by the lead organization's data release advisory committee, or for reasons established by rule.

(3) Except as otherwise required by law, the authority shall direct the lead organization and the data vendor to maintain the confidentiality of claims or other data it collects for the database that include proprietary financial information, direct patient identifiers, indirect patient identifiers, or any combination thereof. Any entity that receives claims or other data must also maintain confidentiality and may only release such claims data or any part of the claims data if:

(a) The claims data does not contain proprietary financial information, direct patient identifiers, indirect patient identifiers, or any combination thereof; and

(b) The release is described and approved as part of the request in subsection (1) of this section.

(4) The lead organization shall, in conjunction with the authority and the data vendor, create and implement a process to govern levels of access to and use of data from the database consistent with the following:

(a) Claims or other data that include proprietary financial information, direct patient identifiers, indirect patient identifiers, unique identifiers, or any combination thereof may be released only to the extent such information is necessary to achieve the goals of this chapter set forth in RCW 43.371.020(1) to researchers with approval of an institutional review board upon receipt of a signed data use and confidentiality agreement with the lead organization. A researcher or research organization that obtains claims data pursuant to this subsection must agree in writing not to disclose such data or parts of the data set to any other party, including affiliated entities, and must consent to the penalties associated with the inappropriate disclosures or uses of direct patient identifiers, indirect patient identifiers, or proprietary financial information adopted under RCW 43.371.070(1).

(b) Claims or other data that do not contain direct patient identifiers, but that may contain proprietary financial information, indirect patient identifiers, unique identifiers, or any combination thereof may be released to:

(i) Federal, state, tribal, and local government agencies upon receipt of a signed data use agreement with the authority and the lead organization. Federal, state, tribal, and local government agencies that obtain claims data pursuant to this subsection are prohibited from using such data in the purchase or procurement of health benefits for their employees;

(d) Claims or other data that do not contain direct patient identifiers, indirect patient identifiers, proprietary financial information, or any combination thereof may be released upon request.

(5) Reports utilizing data obtained under this section may not contain proprietary financial information, direct patient identifiers, indirect patient identifiers, or any combination thereof. Nothing in this subsection (5) may be construed to prohibit the use of geographic areas with a sufficient population size or aggregate gender, age, medical condition,
or other characteristics in the generation of reports, so long as they cannot lead to the identification of an individual.

(6) Reports issued by the lead organization at the request of providers, facilities, employers, health plans, and other entities as approved by the lead organization may utilize proprietary financial information to calculate aggregate cost data for display in such reports. The authority shall approve by rule a format for the calculation and display of aggregate cost data consistent with this chapter that will prevent the disclosure or determination of proprietary financial information. In developing the rule, the authority shall solicit feedback from the stakeholders, including those listed in RCW 43.371.020(5)(h), and must consider, at a minimum, data presented as proportions, ranges, averages, and medians, as well as the differences in types of data gathered and submitted by data suppliers.

(7) Recipients of claims or other data under subsection (4) of this section must agree in a data use agreement or a confidentiality agreement to, at a minimum:

(a) Take steps to protect data containing direct patient identifiers, indirect patient identifiers, proprietary financial information, or any combination thereof as described in the agreement;
(b) Not redisclose the claims data except pursuant to subsection (3) of this section;
(c) Not attempt to determine the identity of any person whose information is included in the data set or use the claims or other data in any manner that identifies any individual or their family or attempt to locate information associated with a specific individual;
(d) Destroy claims data at the conclusion of the data use agreement; and
(e) Consent to the penalties associated with the inappropriate disclosures or uses of direct patient identifiers, indirect patient identifiers, or proprietary financial information adopted under RCW 43.371.020(1).  

Effective date—2019 c 319: See note following RCW 43.371.020.

43.371.060 Health care data reports—Public comment period—Preparation—Contents—Publication or release of reports.  (1)(a) Under the supervision of and through contract with the authority, the lead organization shall prepare health care data reports using the database and the statewide health performance and quality measure set. Prior to the lead organization releasing any health care data reports that use claims data, the lead organization must submit the reports to the authority for review.

(b) By October 31st of each year, the lead organization shall submit to the director a list of reports it anticipates producing during the following calendar year. The director may establish a public comment period not to exceed thirty days, and shall submit the list and any comment to the appropriate committees of the legislature for review.

(2)(a) Health care data reports that use claims data prepared by the lead organization for the legislature and the public should promote awareness and transparency in the health care market by reporting on:

(i) Whether providers and health systems deliver efficient, high quality care; and

(ii) Geographic and other variations in medical care and costs as demonstrated by data available to the lead organization.

(b) Measures in the health care data reports should be stratified by demography, income, language, health status, and geography when feasible with available data to identify disparities in care and successful efforts to reduce disparities.

(c) Comparisons of costs among providers and health care systems must account for differences in the case mix and severity of illness of patients and populations, as appropriate and feasible, and must take into consideration the cost impact of subsidization for uninsured and government-sponsored patients, as well as teaching expenses, when feasible with available data.

(3) The lead organization may not publish any data or health care data reports that:

(a) Directly or indirectly identify individual patients;
(b) Disclose a carrier's proprietary financial information;
(c) Compare performance in a report generated for the general public that includes any provider in a practice with fewer than four providers; or
(d) Contain medicaid data that is in direct conflict with the biannual medicaid forecast.

(4) The lead organization may not release a report that compares and identifies providers, hospitals, or data suppliers unless:

(a) It allows the data supplier, the hospital, or the provider to verify the accuracy of the information submitted to the data vendor, comment on the reasonableness of conclusions reached, and submit to the lead organization data vendor any corrections of errors with supporting evidence and comments within thirty days of receipt of the report;
(b) It corrects data found to be in error within a reasonable amount of time; and
(c) The report otherwise complies with this chapter.

(5) The authority and the lead organization may use claims data to identify and make available information on payers, providers, and facilities, but may not use claims data to recommend or incentivize direct contracting between providers and employers.

(6)(a) The lead organization shall distinguish in advance to the authority when it is operating in its capacity as the lead organization and when it is operating in its capacity as a private entity. Where the lead organization acts in its capacity as a private entity, it may only access data pursuant to RCW 43.371.050(4)(b), (c), or (d).

(b) Except as provided in RCW 43.371.050(4), claims or other data that contain direct patient identifiers or proprietary financial information must remain exclusively in the custody of the data vendor and may not be accessed by the lead organization.  

Effective date—2019 c 319: See note following RCW 43.371.020.
Finding—2014 c 223: See note following RCW 41.05.800.

43.371.070 Rules.  (1) The director shall adopt any rules necessary to implement this chapter, including:

(a) Definitions of claim and data files that data suppliers must submit to the database, including: Files for covered medical services, pharmacy claims, and dental claims; member eligibility and enrollment data; and provider data with necessary identifiers;
(b) Deadlines for submission of claim files;
(c) Penalties for failure to submit claim files as required;
(d) Procedures for ensuring that all data received from data suppliers are securely collected and stored in compliance with state and federal law;
(e) Procedures for ensuring compliance with state and federal privacy laws;
(f) Procedures for establishing appropriate fees;
(g) Procedures for data release;
(h) Penalties associated with the inappropriate disclosures or uses of direct patient identifiers, indirect patient identifiers, and proprietary financial information; and
(i) A minimum reporting threshold below which a data supplier is not required to submit data.

(2) The director may not adopt rules, policies, or procedures beyond the authority granted in this chapter. [2019 c 319 § 9.]

Effective date—2019 c 319: See note following RCW 43.371.020.

Finding—2014 c 223: See note following RCW 41.05.800.

43.371.080 Cost, performance, and effectiveness of database and performance of lead organization—Reports to the legislature. (1) The authority shall report every two years to the appropriate committees of the legislature regarding the cost, performance, and effectiveness of the database and the performance of the lead organization under its contract with the authority. Using independent economic expertise, subject to appropriation, the report must evaluate whether the database has advanced the goals set forth in RCW 43.371.020(1), as well as the performance of the lead organization. The report must also make recommendations regarding but not limited to how the database can be improved, whether the contract for the lead organization should be modified, renewed, or terminated, and the impact the database has had on competition between and among providers, purchasers, and payers.

(2) The authority shall annually report to the appropriate committees of the legislature regarding any additional grants received or extended. [2019 c 319 § 8; 2015 c 246 § 8.]

Effective date—2019 c 319: See note following RCW 43.371.020.

43.371.090 State agency coordinating structure—Biennial review—Recommendations. (1) To ensure the database is meeting the needs of state agencies and other data users, the authority shall convene a state agency coordinating structure, consisting of state agencies with related data needs and the Washington health benefit exchange to ensure effectiveness of the database and the agencies’ programs. The coordinating structure must collaborate in a private/public manner with the lead organization and other partners key to the broader success of the database. The coordinating structure shall advise the authority and lead organization on the development of any database policies and rules relevant to agency data needs.

(2) The office must participate as a key part of the coordinating structure and evaluate progress towards meeting the goals of the database, and, as necessary, recommend strategies for maintaining and promoting the progress of the database in meeting the intent of this section, and report its findings biennially to the governor and the legislature. The authority shall facilitate the office obtaining the information needed to complete the report in a manner that is efficient and not overly burdensome for the parties. The authority must provide the office with access to database processes, procedures, nonproprietary methodologies, and outcomes to conduct the review and issue the biennial report. The biennial review shall assess, at a minimum the following:

(a) The list of approved agency use case projects and related data requirements under RCW 43.371.050(4);

(b) Successful and unsuccessful data requests and outcomes related to agency and nonagency health researchers pursuant to RCW 43.371.050(4);

(c) Online data portal access and effectiveness related to research requests and data provider review and reconsideration;

(d) Adequacy of data security and policy consistent with the policy of the office of the chief information officer; and

(e) Timeliness, adequacy, and responsiveness of the database with regard to requests made under RCW 43.371.050(4) and for potential improvements in data sharing, data processing, and communication.

(3) To promote the goal of improving health outcomes through better cost and quality information, the authority, in consultation with the agency coordinating structure, the office, lead organization, and data vendor shall make recommendations to the Washington state performance measurement coordinating committee as necessary to improve the effectiveness of the state common measure set as adopted under RCW 70.320.030. [2019 c 319 § 9.]

Effective date—2019 c 319: See note following RCW 43.371.020.

43.371.100 Development of data set and business process to assist in determining commercially reasonable payment amounts and resolving out-of-network payment disputes for medical services covered under the balance billing protection act. (1) The office of the insurance commissioner shall contract with the state agency responsible for administration of the database and the lead organization to establish a data set and business process to provide health carriers, health care providers, hospitals, ambulatory surgical facilities, and arbitrators with data to assist in determining commercially reasonable payments and resolving payment disputes for out-of-network medical services rendered by health care facilities or providers.

(a) The data set and business process must be developed in collaboration with health carriers, health care providers, hospitals, and ambulatory surgical facilities.

(b) The data set must provide the amounts for the services described in RCW 48.49.020. The data used to calculate the median in-network and out-of-network allowed amounts and the median billed charge amounts by geographic area, for the same or similar services, must be drawn from commercial health plan claims, and exclude medicare and medicaid claims as well as claims paid on other than a fee-for-service basis.

(c) The data set and business process must be available beginning November 1, 2019, and must be reviewed by an advisory committee established under chapter 43.371 RCW that includes representatives of health carriers, health care providers, hospitals, and ambulatory surgical facilities for validation before use.
(2) The 2019 data set must be based upon the most recently available full calendar year of claims data. The data set for each subsequent year must be adjusted by applying the consumer price index—medical component established by the United States department of labor, bureau of labor statistics to the previous year's data set. [2019 c 427 § 26.]

43.372.005 Findings—Purpose. (1) The legislature finds that:

(a) Native American tribes have depended on the state's marine waters and its resources for countless generations and continue to do so for cultural, spiritual, economic, and subsistence purposes.

(b) The state has long demonstrated a strong commitment to protecting the state's marine waters, which are abundant in natural resources, contain a treasure of biological diversity, and are a source of multiple uses by the public supporting the economies of nearby communities as well as the entire state. These multiple uses include, but are not limited to: Marine-based industries and activities such as cargo, fuel, and passenger transportation; commercial, recreational, and tribal fishing; shellfish aquaculture; telecommunications and energy infrastructure; seafood processing; tourism; scientific research; and many related goods and services. These multiple uses as well as new emerging uses, such as renewable ocean energy, constitute a management challenge for sustaining resources and coordinating state decision making in a proactive, comprehensive and ecosystem-based manner.

(c) Washington's marine waters are part of a west coastwide large marine ecosystem known as the California current, and the Puget Sound and Columbia river estuaries constitute two of the three largest estuaries that are part of this large marine ecosystem. Puget Sound and the Columbia river are estuaries of national significance under the national estuary program, and the outer coast includes the Olympic national marine sanctuary.

(d) Washington is working in cooperation with the states of Oregon and California and federal agencies on ocean and ocean health management issues through the west coast governors' agreement on ocean health, and with the government of British Columbia on shared waters management issues through the British Columbia-Washington coastal and ocean task force.

(e) Washington has initiated comprehensive management programs to protect and promote compatible uses of these waters. These include: The development of a comprehensive ecosystem-based management plan known as the Puget Sound action agenda; shoreline plans for shorelines around the state; management plans for state-owned aquatic lands and their associated waters statewide; and watershed and salmon recovery management plans in the upland areas of Puget Sound, the coast, and the Columbia river. Data and data management tools have also been developed to support these management and planning activities, such as the ocean atlas managed by the department of ecology and the shore zone database managed by the department of natural resources.

(f) For marine waters specifically, Washington has formed several mechanisms to improve coordination and management. A legislatively authorized task force formed by the governor identified priority recommendations for improving state management of ocean resources through Washington's ocean action plan in 2006. The governor further formed an ongoing interagency team that assists the department of ecology in implementing these recommendations. There is an extensive network of marine resources committees within Puget Sound and on the outer coast and the Columbia river to promote and support local involvement identifying and conducting local priority marine projects and some have been involved in local planning and management. Through the Olympic coast intergovernmental policy council, the state has also formalized its working relationship with coastal tribes and the federal government in the management of the Olympic coast national marine sanctuary.

(g) Reports by the United States commission on oceans policy, the Pew oceans commission, and the joint oceans commission initiative recommend the adoption of a national ocean policy under which states and coastal communities would have a principal role in developing and implementing ecosystem-based management of marine waters. Acting on these recommendations, the president of the United States recently formed an interagency ocean policy task force charged with developing a national ocean policy and a framework for marine spatial planning that involves all governmental levels, including state, tribal, and local governments. To further develop and implement such a planning framework, it is anticipated that federal cooperation and support will be available to coastal states that are engaged in marine and coastal resource management and planning, including marine spatial planning.

(2) The purpose of this chapter is to build upon existing statewide Puget Sound, coastal, and Columbia river efforts. When resources become available, the state intends to augment the marine spatial component of existing plans and to improve the coordination among state agencies in the development and implementation of marine management plans.

(3) It is also the purpose of this chapter to establish policies to guide state agencies and local governments when exercising jurisdiction over proposed uses and activities in these waters. Specifically, in conducting marine spatial planning, and in augmenting existing marine management plans with marine spatial planning components, the state must:

(a) Continue to recognize the rights of native American tribes regarding marine natural resources;
(b) Base all planning on best available science. This includes identifying gaps in existing information, recommend a strategy for acquiring science needed to strengthen marine spatial plans, and create a process to adjust plans once additional scientific information is available;

c) Coordinate with all stakeholders, including marine resources committees and nongovernmental organizations, that are significantly involved in the collection of scientific information, ecosystem protection and restoration, or other activities related to marine spatial planning;

d) Recognize that marine ecosystems span tribal, state, and international boundaries and that planning has to be coordinated with all entities with jurisdiction or authority in order to be effective;

e) Establish or further promote an ecosystem-based management approach including linking marine spatial plans to adjacent nearshore and upland spatial or ecosystem-based plans;

(f) Ensure that all marine spatial plans are linked to measurable environmental outcomes;

(g) Establish a performance management system to monitor implementation of any new marine spatial plan;

(h) Establish an ocean stewardship policy that takes into account the existing natural, social, cultural, historic, and economic uses;

(i) Recognize that commercial, tribal, and recreational fisheries, and shellfish aquaculture are an integral part of our state's culture and contribute substantial economic benefits;

(j) Value biodiversity and ecosystem health, and protect special, sensitive, or unique estuarine and marine life and habitats, including important spawning, rearing, and migration areas for finfish, marine mammals, and productive shellfish habitats;

(k) Integrate this planning with existing plans and ongoing planning in the same marine waters and provide additional mechanisms for improving coordination and aligning management;

(l) Promote recovery of listed species under state and federal endangered species acts plans pursuant to those plans; and

(m) Fulfill the state's public trust and tribal treaty trust responsibilities in managing the state's ocean waters in a sustainable manner for current and future generations. [2010 c 145 § 1.]

43.372.010 Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

1) "Aquatic lands" includes all tidelands, shorelands, harbor areas, and the beds of navigable waters, and must be construed to be coextensive with the term "aquatic lands" as defined in RCW 79.105.060.

2) "Exclusive economic zone waters" means marine waters from the offshore state boundary to the boundary of the exclusive economic zone, over which the United States government has primary jurisdiction.

3) "Marine counties" includes Clallam, Jefferson, Grays Harbor, Wthkiakum, San Juan, Whatcom, Skagit, Island, Snohomish, King, Pierce, Thurston, Mason, Kitsap, and Pacific counties.

4) "Marine ecosystem" means the physical, biological, and chemical components and processes and their interactions in marine waters and aquatic lands, including humans.

5) "Marine interagency team" or "team" means the marine interagency team created under RCW 43.372.020.

6) "Marine management plan" and "marine waters management plan" means any plan guiding activities on and uses of the state's marine waters, and may include a marine spatial plan or element.

7) "Marine resources committees" means those committees organized under RCW 36.125.020 or by counties within the Northwest straits marine conservation initiative.

8) "Marine spatial planning" means a public process of analyzing and allocating the spatial and temporal distribution of human activities in marine areas to achieve ecological, economic, and social objectives. Often this type of planning is done to reduce conflicts among uses, to reduce environmental impacts, to facilitate compatible uses, to align management decisions, and to meet other objectives determined by the planning process.

9) "Marine waters" means aquatic lands and waters under tidal influence, including salt waters and estuaries to the ordinary high water mark lying within the boundaries of the state. This definition also includes the portion of the Columbia river bordering Pacific and Wthkiakum counties, Willapa Bay, Grays Harbor, the Strait of Juan de Fuca, and the entire Puget Sound. [2010 c 145 § 2.]

43.372.020 Marine interagency team. (1) The office of the governor shall chair a marine interagency team that is composed of representatives of each of the agencies in the governor's natural resources cabinet with management responsibilities for marine waters, including the independent agencies. A representative from a federal agency with lead responsibility for marine spatial planning must be invited to serve as a liaison to the team to help ensure consistency with federal actions and policy. The team must assist state agencies under RCW 43.372.030 with the review and coordination of such planning with their existing and ongoing planning and conduct the marine management planning authorized in RCW 43.372.040.

(2) The team may not commence any activities authorized under RCW 43.372.030 and 43.372.040 until federal, private, or other funding is secured specifically for these activities. [2012 c 252 § 1; 2010 c 145 § 3.]

43.372.030 Marine spatial data and marine spatial planning elements—Inclusion in planning—Joint plans and planning frameworks—Integration with comprehensive marine management plan. (1) Subject to available federal, private, or other funding for this purpose, all state agencies with marine waters planning and management responsibilities are authorized to include marine spatial data and marine spatial planning elements into their existing plans and ongoing planning.

(2) The director of the Puget Sound partnership under the direction of the leadership council created in RCW 90.71.220 must integrate marine spatial information and planning provisions into the action agenda. The information should be used to address gaps or improve the effectiveness of the spatial...
planning component of the action agenda, such as in addressing potential new uses such as renewable energy projects.

(3) The governor and the commissioner of public lands, working with appropriate marine management and planning agencies, should work cooperatively with the applicable west coast states, Canadian provinces, and with federal agencies, through existing cooperative entities such as the west coast governor's agreement on ocean health, the coastal and oceans task force, the Pacific coast collaborative, the Puget Sound federal caucus, and the United States and Canada cooperative agreement working group, to explore the benefits of developing joint marine spatial plans or planning frameworks in the shared waters of the Salish Sea, the Columbia river estuary, and in the exclusive economic zone waters. The governor and commissioner may approve the adoption of shared marine spatial plans or planning frameworks where they determine it would further policies of this chapter and chapter 43.143 RCW.

(4) On an ongoing basis, the director of the department of ecology shall work with other state agencies with marine management responsibilities, tribal governments, marine resources committees, local and federal agencies, and marine waters stakeholders to compile marine spatial information and to incorporate this information into ongoing plans. This work may be integrated with the comprehensive marine management plan authorized under RCW 43.372.040 when that planning process is initiated.

(5) All actions taken to implement this section must be consistent with RCW 43.372.060. [2012 c 252 § 2; 2010 c 145 § 5.]

43.372.040 Comprehensive marine management plan. (1) Upon the receipt of federal, private, or other funding for this purpose, the marine interagency team shall coordinate the development of a comprehensive marine management plan for the state's marine waters. The marine management plan must include marine spatial planning, as well as recommendations to the appropriate federal agencies regarding the exclusive economic zone waters.

(2) The comprehensive marine management plan may be developed in geographic segments, and may incorporate or be developed as an element of existing marine plans, such as the Puget Sound action agenda. If the team exercises the option to develop the comprehensive marine management plan in geographic segments, it may proceed with development and adoption of marine management plans for these geographic segments on different schedules.

(3) The chair of the team may designate a state agency with marine management responsibilities to take the lead in developing and recommending to the team particular segments or elements of the comprehensive marine management plan.

(4) The marine management plan must be developed and implemented in a manner that:

(a) Recognizes and respects existing uses and tribal treaty rights;

(b) Promotes protection and restoration of ecosystem processes to a level that will enable long-term sustainable production of ecosystem goods and services;

(c) Addresses potential impacts of climate change and sea level rise upon current and projected marine waters uses and shoreline and coastal impacts;

(d) Fosters and encourages sustainable uses that provide economic opportunity without significant adverse environmental impacts;

(e) Preserves and enhances public access;

(f) Protects and encourages working waterfronts and supports the infrastructure necessary to sustain marine industry, commercial shipping, shellfish aquaculture, and other water-dependent uses;

(g) Fosters public participation in decision making and significant involvement of communities adjacent to the state's marine waters; and

(h) Integrates existing management plans and authorities and makes recommendations for aligning plans to the extent practicable.

(5) To ensure the effective stewardship of the state's marine waters held in trust for the benefit of the people, the marine management plan must rely upon existing data and resources, but also identify data gaps and, as possible, procure missing data necessary for planning.

(6) The marine management plan must include but not be limited to:

(a) An ecosystem assessment that analyzes the health and status of Washington marine waters including key social, economic, and ecological characteristics and incorporates the best available scientific information, including relevant marine data. This assessment should seek to identify key threats to plan goals, analyze risk and management scenarios, and develop key ecosystem indicators. In addition, the plan should incorporate existing adaptive management strategies underway by local, state, or federal entities and provide an adaptive management element to incorporate new information and consider revisions to the plan based upon research, monitoring, and evaluation;

(b) Using and relying upon existing plans and processes and additional management measures to guide decisions among uses proposed for specific geographic areas of the state's marine and estuarine waters consistent with applicable state laws and programs that control or address developments in the state's marine waters;

(c) A series of maps that, at a minimum, summarize available data on: The key ecological aspects of the marine ecosystem, including physical and biological characteristics, as well as areas that are environmentally sensitive or contain unique or sensitive species or biological communities that must be conserved and warrant protective measures; human uses of marine waters, particularly areas with high value for fishing, shellfish aquaculture, recreation, and maritime commerce; and appropriate locations with high potential for renewable energy production with minimal potential for conflicts with other existing uses or sensitive environments;

(d) An element that sets forth the state's recommendations to the federal government for use priorities and limitations, siting criteria, and protection of unique and sensitive biota and ocean floor features within the exclusive economic zone waters consistent with the policies and management criteria contained in this chapter and chapter 43.143 RCW;

(e) An implementation strategy describing how the plan's management measures and other provisions will be
considered and implemented through existing state and local authorities; and

(f) A framework for coordinating state agency and local government review of proposed renewable energy development uses requiring multiple permits and other approvals that provide for the timely review and action upon renewable energy development proposals while ensuring protection of sensitive resources and minimizing impacts to other existing or projected uses in the area.

(7) If the director of the department of fish and wildlife determines that a fisheries management element is appropriate for inclusion in the marine management plan, this element may include the incorporation of existing management plans and procedures and standards for consideration in adopting and revising fisheries management plans in cooperation with the appropriate federal agencies and tribal governments.

(8) Any provision of the marine management plan that does not have as its primary purpose the management of commercial or recreational fishing but that has an impact on this fishing must minimize the negative impacts on the fishing. The team must accord substantial weight to recommendations from the director of the department of fish and wildlife for plan revisions to minimize the negative impacts.

(9) The marine management plan must recognize and value existing uses. All actions taken to implement this section must be consistent with RCW 43.372.060.

(10) The marine management plan must identify any provisions of existing management plans that are substantially inconsistent with the plan.

(11)(a) In developing the marine management plan, the team shall implement a strong public participation strategy that seeks input from throughout the state and particularly from communities adjacent to marine waters. Public review and comment must be sought and incorporated with regard to planning the scope of work as well as in regard to significant drafts of the plan and plan elements.

(b) The team must engage tribes and marine resources committees in its activities throughout the planning process. In particular, prior to finalizing the plan, the team must provide each tribe and marine resources committee with a draft of the plan and invite them to review and comment on the plan.

(12) The director of the department of ecology shall submit the completed marine management plan to the appropriate federal agency for its review and approval for incorporation into the state's federally approved coastal zone management program.

(13) Subsequent to the adoption of the marine management plan, the team may periodically review and adopt revisions to the plan to incorporate new information and to recognize and incorporate provisions in other marine management plans. The team must afford the public an opportunity to review and comment upon significant proposed revisions to the marine management plan. [2012 c 252 § 3; 2010 c 145 § 6.]

43.372.050 Marine management plans—Compliance—Consistency—Review—Report and recommendations. (1) Upon the adoption of the marine management plan under RCW 43.372.040, each state agency and local government must make decisions in a manner that ensures consistency with applicable legal authorities and conformance with the applicable provisions of the marine management plan to the greatest extent possible.

(2) The director of the department of ecology, in coordination with the team, shall periodically review existing management plans maintained by state agencies and local governments that cover the same marine waters as the marine management plan under RCW 43.372.040, and for any substantial inconsistency with the marine management plan the director shall make recommendations to the agency or to the local government for revisions to eliminate the inconsistency.

(3) Not later than four years following adoption of the marine management plan under RCW 43.372.040, the department of ecology, in coordination with the team, shall report to the appropriate marine waters committees in the senate and house of representatives describing provisions of existing management plans that are substantially inconsistent with the marine management plan under RCW 43.372.040, and making recommendations for eliminating the inconsistency.

(4) All actions taken to implement this section must be consistent with RCW 43.372.060. [2010 c 145 § 7.]

43.372.060 Authority limited. No authority is created under this chapter to affect in any way any project, use, or activity in the state's marine waters existing prior to or during the development and review of the marine management plan. No authority is created under this chapter to supersede the current authority of any state agency or local government. [2010 c 145 § 8.]

43.372.070 Marine resources stewardship trust account. (1) The marine resources stewardship trust account is created in the state treasury. All receipts from income derived from the investment of amounts credited to the account, any grants, gifts, or donations to the state for the purposes of marine management planning, marine spatial planning, data compilation, research, or monitoring, and any appropriations made to the account must be deposited in the account. Moneys in the account may be spent only after appropriation.

(2) Expenditures from the account may only be used for the purposes of marine management planning, marine spatial planning, research, monitoring, and implementation of the marine management plan.

(3) Except as provided in subsection (5) of this section, until July 1, 2016, expenditures from the account may only be used for the purposes of:

(a) Conducting ecosystem assessment and mapping activities in marine waters consistent with RCW 43.372.040 (6) (a) and (c), with a focus on assessment and mapping activities related to marine resource uses and developing potential economic opportunities;

(b) Developing a marine management plan for the state's coastal waters as that term is defined in RCW 43.143.020; and

(c) Coordination under the west coast governors' agreement on ocean health, entered into on September 18, 2006, and other regional planning efforts consistent with RCW 43.372.030.

Chapter 43.376 Title 43 RCW: State Government—Executive

43.376.010 Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

43.376.020 Government-to-government relationships—State agency duties. In establishing a government-to-government relationship with Indian tribes, state agencies must:

1. Make reasonable efforts to collaborate with Indian tribes in the development of policies, agreements, and program implementation that directly affect Indian tribes and develop a consultation process that is used by the agency for issues involving specific Indian tribes;
2. Designate a tribal liaison who reports directly to the head of the state agency;
3. Ensure that tribal liaisons who interact with Indian tribes and the executive directors of state agencies receive training as described in RCW 43.376.040; and
4. Submit an annual report to the governor on activities of the state agency involving Indian tribes and on implementation of this chapter.

43.376.030 State agency tribal liaison. The position of tribal liaison within a state agency is responsible for:

1. Assisting the state agency in developing and implementing state and agency policies that promote effective communication and collaboration between the state agency and tribal governments;
2. Serving as a contact person with tribal governments and maintaining communication between the state agency and affected tribal governments; and

WASHINGTON STATEWIDE REENTRY COUNCIL

Sections

43.380.070 Meetings.
43.380.080 Performance audits.

43.380.005 Finding—Intent. The legislature finds that the cycle of recidivism warrants a closer examination of our criminal justice system, correctional systems, and community services in Washington. Over ninety-five percent of persons in prison will return to the community, and more than half of those persons will reoffend and be reincarcerated in today's system. This high rate of recidivism results in more crimes, more victims, more prisons, and more trauma within families and communities. We can do better for the people of Washington.

The legislature intends to establish the Washington statewide reentry council to develop collaborative and cooperative relationships between the criminal justice system, victims and their families, impacted individuals and their families, and service providers, with the purpose of improving public safety and outcomes for people reentering the community from incarceration. [2016 c 188 § 1.]

Appointments by the governor must reflect diversity in geography, size of business, gender, and ethnicity. No county may have more than two appointments and no city may have more than one appointment.

(4) There must be a nonvoting advisory committee to the board. The advisory committee must consist of:

(a) One ex officio representative from the department, state parks and recreation commission, department of transportation, and other state agencies as the authority deems appropriate; and

(b) One member from a federally recognized Indian tribe appointed by the director of the department.

(5) The initial appointments under subsections (1) and (2) of this section must be appointed by the governor to terms as follows: Four members for two-year terms; four members for three-year terms; and five members for four-year terms, which must include the chair. After the initial appointments, all appointments must be for four years.

(6) The board must select from its membership the chair of the board and such other officers as it deems appropriate. The chair of the board must be a member from the tourism industry or related businesses.

(7) A majority of the board constitutes a quorum.

(8) The board must create its own bylaws in accordance with the laws of the state of Washington.

(9) Any member of the board may be removed for misfeasance, malfeasance, or willful neglect of duty after notice and a public hearing, unless the notice and hearing are expressly waived in writing by the affected member.

(10) If a vacancy occurs on the board, a replacement must be appointed for the unexpired term.

(11) The members of the board serve without compensation but are entitled to reimbursement, solely from the funds of the authority, for expenses incurred in the discharge of their duties.

(12) The board must meet at least quarterly.

(13) No board member of the authority may serve on the board of an organization that could be considered for a contract authorized under RCW 43.384.050. [2018 c 275 § 4.]
43.384.040 Statewide tourism marketing account—Matching funds. The statewide tourism marketing account is created in the state treasury. All receipts from tax revenues under RCW 82.08.225 must be deposited into the account. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only for expenditures of the department that are related to implementation of a statewide tourism marketing program and operation of the authority. A two-to-one nonstate or state fund, other than general fund state, match must be provided for all expenditures from the account. A match may consist of nonstate or state fund, other than general fund state, cash contributions deposited in the private local account created under RCW 43.384.020(4), the value of an advertising equivalency contribution, or an in-kind contribution. The board must determine criteria for what qualifies as an in-kind contribution. [2018 c 275 § 5.]

43.384.050 Use of funds. (1) From amounts appropriated to the authority for the department and from other moneys available to it, the authority may incur expenditures for any purpose specifically authorized by this chapter including:
   (a) Entering into a contract for a multiple year statewide tourism marketing plan with a statewide nonprofit organization existing on June 7, 2018, whose sole purpose is marketing Washington to tourists. The marketing plan must include, but is not limited to, focuses on rural tourism-dependent counties, natural wonders and outdoor recreation opportunities of the state, including sustainable whale watching, attraction of international tourists, identification of local offerings for tourists, and assistance for tourism areas adversely impacted by natural disasters. In the event that no such organization exists on June 7, 2018, or the initial contractor ceases to exist, the authority may determine criteria for a contractor to carry out a statewide marketing program;
   (b) Contracting for the evaluation of the impact of the statewide tourism marketing program; and
   (c) Paying for administrative expenses of the authority, which may not exceed two percent of the state portion of funds collected in any fiscal year.

(2) All nonstate moneys received by the authority under RCW 43.384.060 or otherwise provided to the authority for purposes of matching funding must be deposited in the authority's private local account created under RCW 43.384.020(4) and are held in trust for uses authorized solely by this chapter.

(3) "Sustainable whale watching" means an experience that includes whale watching from land or aboard a vessel that reduces the impact on whales, provides a recreational and educational experience, and motivates participants to care about marine mammals, the sea, and marine conservation. [2019 c 291 § 5; 2018 c 275 § 6.]

43.384.060 Receipt of gifts, grants authorized. The board may receive gifts, grants, or endowments from public or private sources that are made from time to time, in trust or otherwise, for the use and benefit of the purposes of the authority and spend gift, grants, or endowments or income from public or private sources according to their terms, unless the receipt of gifts, grants, or endowments violates RCW 42.17A.560. [2018 c 275 § 7.]

43.384.800 Evaluation by joint legislative audit and review committee. The joint legislative audit and review committee must conduct an evaluation of the performance of the authority created in chapter 43.384 RCW and report its findings and recommendations, in compliance with RCW 43.01.036, to the governor and the economic development committees of the senate and house of representatives by December 1, 2023. The purpose of the evaluation is to determine the extent to which the authority has contributed to the growth of the tourism industry and economic development of the state. An interim report by the authority, submitted in compliance with RCW 43.01.036, is due to the governor and economic development committees of the house of representatives and senate by December 1, 2021. The report must provide an update on the authority's progress in implementing a statewide tourism marketing program. [2018 c 275 § 11.]

43.384.900 Findings—Purpose—2018 c 275. (1) The legislature finds that the tourism industry is the fourth largest economic sector in the state of Washington and provides general economic benefit to the state. Since 2011 there have been minimal general funds committed to statewide tourism marketing and Washington is the only state without a state-funded tourism marketing program. Before 2011, the amount of funds appropriated to statewide tourism marketing was not significant and, in fact, Washington ranked forty-eighth in state tourism funding. Washington has significant attractions and activities for tourists, including many natural outdoor assets that draw visitors to mountains, waterways, parks, and open spaces. There should be a program to publicize these assets and activities to potential out-of-state visitors that is implemented in an expeditious manner by tourism professionals in the private sector.

(2) The purpose of chapter 275, Laws of 2018 is to establish the framework and funding for a statewide tourism marketing program. The program needs to have a structure that includes significant, stable, long-term funding, and it should be implemented and managed by the tourism industry. The source of funds should be from major sectors of the tourism industry with government assistance in collecting these funds and providing accountability for their expenditure. The dedicated sales tax authorized for contributions made in this chapter will bring direct benefits to those making contributions by bringing more tourists into the state who will patronize the participating businesses and create economic benefit for the state. [2018 c 275 § 1.]
