43.43.005 Comprehensive outreach and marketing strategic plan. To ensure that it is adequately and thoroughly reaching potential recruits, the Washington state patrol must develop a comprehensive outreach and marketing strategic plan that expands on the success of current strategies and looks for ways to tap into groups or individuals that do not currently show an interest in the state patrol or law enforcement as a career. The plan must include, but is not limited to, expanding marketing and outreach efforts online and through other media outlets and expanding recruitment relationships in respective communities. The plan must also include polling applicants about their application. Results from the polling must be tracked to determine the success of each outreach method. [2016 c 28 § 7.]

Intent—2016 c 28: See note following RCW 43.43.380.

43.43.010 Patrol created. There shall be a department of state government known as the "Washington state patrol." The chief thereof shall be known as the chief of the Washington state patrol, and members thereof shall be known as Washington state patrol officers. [1965 c 8 § 43.43.010. Prior: 1933 c 25 § 1; RRS § 6362-59.]

43.43.012 Chief for a day program. (1) To promote positive relationships between law enforcement and the citizens of the state of Washington, the Washington state patrol may participate in the chief for a day program. The chief of the Washington state patrol may designate staff who may participate in organizing the event. The Washington state patrol may accept grants of funds and gifts to be utilized in furtherance of this purpose, and may use their public facilities for such purpose. At all times, the participation of the Washington state patrol must comply with chapter 42.52 RCW.

(2) For the purposes of this section, "chief for a day program" means a program in which the Washington state patrol partners with other local, state, and federal law enforcement agencies, hospitals, and the community to provide a day of special attention to chronically ill children. Each child is selected and sponsored by a law enforcement agency. The event, chief for a day, may occur on the grounds and in the facilities of the Washington state patrol. The program may include any appropriate honoring of the child as a chief, such as a certificate swearing them in as a chief, a badge, a uniform, and donated gifts. The gifts may include, but are not limited to, games, puzzles, and art supplies. [2010 c 10 § 2.]

Finding—2010 c 10: "The legislature finds that the Washington state patrol's participation in charitable work, such as the chief for a day program that provides special attention to chronically ill children through recognition by various law enforcement agencies within the state, advances the overall purposes of the department by promoting positive relationships between law enforcement and the citizens of the state of Washington." [2010 c 10 § 1.]

43.43.013 Donations, gifts, conveyances, devises, and grants. The Washington state patrol may accept any and all donations, bequests, gifts, conveyances, devices [devises], and grants conditional or otherwise; or money, property, service, or other things of value which may be received from the United States or any agency thereof, any governmental agency, institution, person, firm, or corporation, public and private, to be held, used, or applied for the purpose of fulfilling its mission. [2009 c 108 § 1.]

43.43.015 Affirmative action. For the purposes of this chapter, "affirmative action" means a procedure by which racial minorities, women, persons in the protected age category, persons with disabilities, Vietnam-era veterans, and disabled veterans are provided with increased employment opportunities. It shall not mean any sort of quota system. [1985 c 365 § 4; (2019 c 160 § 4, Referendum Measure No. 88 failed to become law).]

43.43.020 Appointment of personnel. The governor, with the advice and consent of the senate, shall appoint the chief of the Washington state patrol, determine his compensation, and may remove him at will.

The chief shall appoint a sufficient number of competent persons to act as Washington state patrol officers, may remove them for cause, as provided in this chapter, and shall make promotional appointments, determine their compensation, and define their rank and duties, as hereinafter provided. Before a person may be appointed to act as a Washington state patrol officer, the person shall meet the minimum standards for employment with the Washington state patrol, including successful completion of a psychological examination and polygraph examination or similar assessment procedure administered by the chief or his or her designee in accordance with the requirements of RCW 43.101.095(2).

The chief may appoint employees of the Washington state patrol to serve as special deputies, with such restricted police authority as the chief shall designate as being necessary and consistent with their assignment to duty. Such appointment and conferral of authority shall not qualify said employees for membership in the Washington state patrol retirement system, nor shall it grant tenure of office as a regular officer of the Washington state patrol.

The chief may personally appoint, with the consent of the state treasurer, employees of the office of the state treasurer who are qualified under the standards of the criminal justice training commission, or who have comparable training and experience, to serve as special deputies. The law enforcement powers of any special deputies appointed in the office of the state treasurer shall be designated by the chief and shall be restricted to those powers necessary to provide for statewide security of the holdings or property of or under the custody of the office of the state treasurer. These appointments may be revoked by the chief at any time and shall be revoked upon the written request of the state treasurer or by operation of law upon termination of the special deputy's employment with the office of the state treasurer or thirty days after the chief who made the appointment leaves office. The chief shall be civilly immune for the acts of such special deputies. Such appointment and conferral of authority shall not qualify such employees for membership in the Washing-

ton state patrol retirement system, nor shall it grant tenure of office as a regular officer of the Washington state patrol. [2005 c 434 § 4; 1983 c 144 § 1; 1981 c 338 § 4; 1973 1st ex.s. c 80 § 1; 1965 c 8 § 43.43.020. Prior: 1949 c 192 § 1; 1933 c 25 § 3; Rem. Supp. 1949 § 6362-61.]

Civil service exemptions: RCW 41.06.070.

43.43.030 Powers and duties—Peace officers. The chief and other officers of the Washington state patrol shall have and exercise, throughout the state, such police powers and duties as are vested in sheriffs and peace officers generally, and such other powers and duties as are prescribed by law. [1965 c 8 § 43.43.030. Prior: 1933 c 25 § 2; RRS § 6362-60.]

General authority law enforcement agency: RCW 10.93.020.

43.43.035 Governor, lieutenant governor, and governor-elect—Security and protection—Duty to provide. The chief of the Washington state patrol is directed to provide security and protection for the governor, the governor's family, and the lieutenant governor to the extent and in the manner the governor and the chief of the Washington state patrol deem adequate and appropriate.

In the same manner the chief of the Washington state patrol is directed to provide security and protection for the governor-elect from the time of the November election. [1991 c 63 § 1; 1965 ex.s. c 96 § 1.]

43.43.037 Legislature—Security and protection—Duty to provide. The chief of the Washington state patrol is directed to provide such security and protection for both houses of the legislative building while in session as in the opinion of the speaker of the house and the president of the senate may be necessary therefor upon the advice of the respective sergeant-at-arms of each legislative body. [1965 ex.s. c 96 § 2.]

43.43.040 Disability of patrol officers. (1) The chief of the Washington state patrol shall relieve from active duty Washington state patrol officers who, while in the performance of their official duties, or while on standby or available for duty, have been or hereafter may be injured or incapacitated to such an extent as to be mentally or physically incapable of active service: PROVIDED, That:

(a) Any officer disabled while performing line duty who is found by the chief to be physically incapacitated shall be placed on disability leave for a period not to exceed six months from the date of injury or the date incapacitated. During this period, the officer shall be entitled to all pay, benefits, insurance, leave, and retirement contributions awarded to an officer on active status, less any compensation received through the department of labor and industries. No such disability leave shall be approved until an officer has been unavailable for duty for more than forty consecutive work hours. Prior to the end of the six-month period, the chief shall either place the officer on disability status or return the officer to active status.

For the purposes of this section, "line duty" is active service which encompasses the traffic law enforcement duties and/or other law enforcement responsibilities of the state patrol. These activities encompass all enforcement practices

(2021 Ed.)

of the laws, accident and criminal investigations, or actions requiring physical exertion or exposure to hazardous elements.

The chief shall define by rule the situations where a disability has occurred during line duty;

(b) Benefits under this section for a disability that is incurred while in other employment will be reduced by any amount the officer receives or is entitled to receive from workers' compensation, social security, group insurance, other pension plan, or any other similar source provided by another employer on account of the same disability;

(c) An officer injured while engaged in willfully tortious or criminal conduct shall not be entitled to disability benefits under this section; and

(d) Should a disability beneficiary whose disability was not incurred in line of duty, prior to attaining age fifty, engage in a gainful occupation, the chief shall reduce the amount of his or her retirement allowance to an amount which when added to the compensation earned by him or her in such occupation shall not exceed the basic salary currently being paid for the rank the retired officer held at the time he or she was disabled. All such disability beneficiaries under age fifty shall file with the chief every six months a signed and sworn statement of earnings and any person who shall knowingly swear falsely on such statement shall be subject to prosecution for perjury. Should the earning capacity of such beneficiary be further altered, the chief may further alter his or her disability retirement allowance as indicated above. The failure of any officer to file the required statement of earnings shall be cause for cancellation of retirement benefits.

(2)(a) Officers on disability status shall receive one-half of their compensation at the existing wage, during the time the disability continues in effect, less any compensation received through the department of labor and industries. They shall be subject to mental or physical examination at any state institution or otherwise under the direction of the chief of the patrol at any time during such relief from duty to ascertain whether or not they are able to resume active duty.

(b) In addition to the compensation provided in (a) of this subsection, the compensation of an officer who is totally disabled during line duty shall include reimbursement for any payments of premiums made after June 10, 2010, for employer-provided medical insurance. An officer is considered totally disabled if he or she is unable to perform any substantial gainful activity due to a physical or mental condition that may be expected to result in death or that has lasted or is expected to last at least twelve months. Substantial gainful activity is defined as average earnings in excess of eight hundred sixty dollars a month in 2006 adjusted annually as determined by the department of retirement systems based on federal social security disability standards. An officer in receipt of reimbursement for any payments of premium rates for employer-provided medical insurance under this subsection is required to file with the chief any financial records that are necessary to determine continued eligibility for such reimbursement. The failure of any officer to file the required financial records is cause for cancellation of the reimbursement. The legislature reserves the right to amend or repeal the benefits provided in this subsection (2)(b) in the future and no member or beneficiary has a contractual right to receive any distribution not granted prior to that time. [2010 c 259 § 3;

2009 c 549 § 5122; 1998 c 194 § 1; 1987 c 185 § 17; 1981 c 165 § 1; 1973 2nd ex.s. c 20 § 1; 1965 c 8 § 43.43.040. Prior: 1947 c 174 § 1; 1943 c 215 § 1; RRS § 6362-65.]

When the complaint served upon an officer is of a criminal nature calling for the discharge of the officer, the chief of the patrol may immediately suspend the officer without pay pending a trial board hearing. The board shall be convened no later than forty-five days from the date of suspension. However, this does not preclude the granting of a mutually agreed upon extension; in such cases the officer shall remain on suspension without pay.

An officer complained of may waive a hearing and accept the proposed discipline by written notice to the chief of the patrol. [1989 c 28 § 1; 1965 c 8 § 43.43.080. Prior: 1943 c 205 § 4; Rem. Supp. 1943 § 6362-69.]

43.43.090 Procedure at hearing. At the hearing, an administrative law judge appointed under chapter 34.12 RCW shall be the presiding officer, and shall make all necessary rulings in the course of the hearing, but shall not be entitled to vote.

The complainant and the officer complained of may submit evidence, and be represented by counsel, and a full and

complete record of the proceedings, and all testimony, shall be taken down by a stenographer.

After hearing, the findings of the trial board shall be submitted to the chief. Such findings shall be final if the charges are not sustained. In the event the charges are sustained the chief may determine the proper disciplinary action and declare it by written order served upon the officer complained of. [1989 c 28 § 2; 1984 c 141 § 3; 1965 c 8 § 43.43.090. Prior: 1943 c 205 § 5; Rem. Supp. 1943 § 6362-70.]

43.43.100 Review of order. Any officer subjected to disciplinary action may, within ten days after the service of the order upon the officer, apply to the superior court of Thurston county for a writ of review to have the reasonableness and lawfulness of the order inquired into and determined.

The superior court shall review the determination of the chief of the Washington state patrol in a summary manner, based upon the record of the hearing before the trial board, and shall render its decision within ninety days, either affirming or reversing the order of the chief, or remanding the matter to the chief for further action. A transcript of the trial board hearing shall be provided to the court by the state patrol after being paid for by the officer subjected to disciplinary action. However, if the officer prevails before the court, the state patrol shall reimburse the officer for the cost of the transcript. [1984 c 141 § 4; 1965 c 8 § 43.43.100. Prior: 1943 c 205 § 6; Rem. Supp. 1943 § 6362-71.]

43.43.110 Reinstatement on acquittal. If as a result of any trial board hearing, or review proceeding, an officer complained of is found not guilty of the charges against him or her, he or she shall be immediately reinstated to his or her former position, and be reimbursed for any loss of salary suffered by reason of the previous disciplinary action. [2009 c 549 § 5123; 1965 c 8 § 43.43.110. Prior: 1943 c 205 § 7; Rem. Supp. 1943 § 6362-72.]

43.43.111 Patrol officer vehicle accidents. To ensure transparency, integrity, and credibility during Washington state patrol vehicle accident investigations, the agency will continue to review and reform the agency policies and procedures regarding Washington state patrol officers that are involved in vehicle accidents. The agency shall develop agency policies and include as part of the terms of their collective bargaining agreements a progressive corrective process addressing Washington state patrol officer vehicle accidents that may include retraining in vehicle handling, wage or benefit reductions, and termination of employment. The agency shall develop a process for tracking accidents and an accident review process. Annually, a collision data report must be produced designating each accident during the year as minor or severe and any resulting disciplinary actions and be available for review by the legislature. The agency shall implement communication procedures for the victims involved in the accidents from the time the accident occurs until the investigative process has been concluded. The policies must also provide for outside supervision of accident investigations by a qualified independent agency under certain circumstances.

Before the legislative committee assembly in September 2005, the Washington state patrol shall have an outside entity

that has a reputation for and has proven experience in law enforcement management and reviewing law enforcement and criminal justice policies and procedures review the agency's proposed law enforcement vehicle accident policies and procedures where a law enforcement officer is involved. The agency will present the proposed policies and procedures to the legislature and finalize the policies and procedures based on input from the legislature. The Washington state patrol shall report to the house and senate transportation committees by November 30, 2005, on the updated policies, processes, and procedures. Once the policies and procedures are completed, other law enforcement agencies may adopt the policies and procedures for their agencies. [2005 c 27 § 2.]

Intent—2005 c 27: "It is the intent of the legislature that accidents involving Washington state patrol officers follow a process that provides a high degree of integrity and credibility both within the investigation of the accident and the perception of the investigation from persons outside the investigation. It is the intent of the legislature to have a communication process in place for the Washington state patrol to communicate accident information to the persons and their families who are involved in the vehicle accidents. It is the intent of the legislature to have early detections in place to reduce future vehicle accidents." [2005 c 27 § 1.]

(1) A member commissioned on or after January 1, 2003, upon retirement for service as prescribed in RCW 43.43.250 shall elect to have the retirement allowance paid pursuant to the following options, calculated so as to be actuarially equivalent to each other.

(a) Standard allowance. A member electing this option shall receive a retirement allowance payable throughout the member's life. However, if the retiree dies before the total of the retirement allowance paid to the retiree equals the amount of the retiree's accumulated contributions at the time of retirement, then the balance shall be paid to the member's estate, or such person or persons, trust, or organization as the retiree shall have nominated by written designation duly executed and filed with the department; or if there be no such designated person or persons still living at the time of the retiree's death, then to the surviving spouse or domestic partner; or if there be neither such designated person or persons still living at the time of death nor a surviving spouse or domestic partner, then to the retiree's legal representative.

(b) The department shall adopt rules that allow a member to select a retirement option that pays the member a reduced retirement allowance and upon death, such portion of the member's reduced retirement allowance as the department by

rule designates shall be continued throughout the life of and paid to a designated person. Such person shall be nominated by the member by written designation duly executed and filed with the department at the time of retirement. The options adopted by the department shall include, but are not limited to, a joint and one hundred percent survivor option and a joint and fifty percent survivor option.

(2)(a) A member, if married or in a domestic partnership, must provide the written consent of his or her spouse or domestic partner to the option selected under this section, except as provided in (b) and (c) of this subsection. If a member is married or in a domestic partnership and both the member and member's spouse or domestic partner do not give written consent to an option under this section, the department will pay the member a joint and fifty percent survivor benefit and record the member's spouse or domestic partner as the beneficiary. This benefit shall be calculated to be actuarially equivalent to the benefit options available under subsection (1) of this section unless consent by the spouse or domestic partner is not required as provided in (b) and (c) of this subsection.

(b) Written consent from a spouse or domestic partner is not required if a member who is married or a domestic partner selects a joint and survivor option under subsection (1)(b) of this section and names the member's spouse or domestic partner as the survivor beneficiary.

(c) If a copy of a dissolution order designating a survivor beneficiary under RCW 41.50.790 has been filed with the department at least thirty days prior to a member's retirement:

(i) The department shall honor the designation as if made by the member under subsection (1) of this section; and

(ii) The spouse or domestic partner consent provisions of (a) of this subsection do not apply.

(3) No later than January 1, 2003, the department shall adopt rules that allow a member additional actuarially equivalent survivor benefit options, and shall include, but are not limited to:

(a)(i) A retired member who retired without designating a survivor beneficiary shall have the opportunity to designate their spouse or domestic partner from a postretirement marriage or domestic partnership as a survivor during a one-year period beginning one year after the date of the postretirement marriage or domestic partnership provided the retirement allowance payable to the retiree is not subject to periodic payments pursuant to a property division obligation as provided for in RCW 41.50.670.

(ii) A member who entered into a postretirement marriage or domestic partnership prior to the effective date of the rules adopted pursuant to this subsection and satisfies the conditions of (a)(i) of this subsection shall have one year to designate their spouse or domestic partner as a survivor beneficiary following the adoption of the rules.

(b) A retired member who elected to receive a reduced retirement allowance under this section and designated a non-spouse or a nondomestic partner as survivor beneficiary shall have the opportunity to remove the survivor designation and have their future benefit adjusted.

(c) The department may make an additional charge, if necessary, to ensure that the benefits provided under this subsection remain actuarially equivalent.

(4) No later than July 1, 2003, the department shall adopt rules to permit:

(a) A court-approved property settlement incident to a court decree of dissolution made before retirement to provide that benefits payable to a member who has completed at least five years of service and the member's divorcing spouse or former domestic partner be divided into two separate benefits payable over the life of each spouse or domestic partner.

The member shall have available the benefit options of subsection (1) of this section upon retirement, and if remarried or in a domestic partnership at the time of retirement remains subject to the spouse or domestic partner consent requirements of subsection (2) of this section. Any reductions of the member's benefit subsequent to the division into two separate benefits shall be made solely to the separate benefit of the member.

The nonmember ex spouse or former domestic partner shall be eligible to commence receiving their separate benefit upon reaching the ages provided in RCW 43.43.250(2) and after filing a written application with the department.

(b) A court-approved property settlement incident to a court decree of dissolution made after retirement may only divide the benefit into two separate benefits payable over the life of each spouse or domestic partner if the nonmember ex spouse or former domestic partner was selected as a survivor beneficiary at retirement.

The retired member may later choose the survivor benefit options available in subsection (3) of this section. Any actuarial reductions subsequent to the division into two separate benefits shall be made solely to the separate benefit of the member.

Both the retired member and the nonmember divorced spouse or former domestic partner shall be eligible to commence receiving their separate benefits upon filing a copy of the dissolution order with the department in accordance with RCW 41.50.670.

(c) The department may make an additional charge or adjustment if necessary to ensure that the separate benefits provided under this subsection are actuarially equivalent to the benefits payable prior to the decree of dissolution.

(5) Beginning on the date that the state receives a determination from the federal internal revenue service that this subsection (5) conforms with federal law, retirees have up to ninety calendar days after the receipt of their first retirement allowance to change their survivor election under subsections (1) and (2) of this section. If a member changes the member's survivor election under this subsection the change is effective the first of the following month and is prospective only. The examinations shall be prepared and conducted under the supervision of the chief of the Washington state patrol, who shall cause at least thirty days written notice thereof to be given to all patrol officers eligible for such examinations. The written notice shall specify the expected type of examination and relative weights to be assigned if a combination of tests is to be used. Examinations shall be given once every two years, or whenever the eligible list becomes exhausted as the case may be. After the giving of each such examination a new eligible list shall be compiled replacing any existing eligible list for such rank. 43.43.340 Eligible list, and promotions therefrom—Affirmative action. (1) The names of all officers who have passed examinations satisfactorily shall be placed on an eligible list in the order of the grade attained in the examinations. The chief, or the committee mentioned in RCW 43.43.330 at the chief's request, may determine the lowest examination grade which will qualify an officer for inclusion of his or her name on an eligible list. Examination papers shall be graded promptly and an eligible list shall be made up immediately thereafter. All officers taking an examination shall be informed of the grade earned.

(2) After an eligible list is made up all promotions shall be made from the five top names on the applicable list, and if needed to comply with affirmative action goals three additional names referred under subsection (3) of this section. Not all three additional names need be promoted at the time they are referred and they may be referred more than once. Each officer shall be informed in writing as his or her name is included in the top five on an eligible list or referred under subsection (3) of this section. No officer whose name appears within the top five on any eligible list shall be passed over for promotion more than three times.

The three additional names referred for each vacancy shall be the top three members of the protected groups designated by the chief for referral for that vacancy in accordance with the state patrol's affirmative action goals. These names shall be drawn in rank order from the remaining names of protected group members on the eligible list, after ranking by examination grade. For each vacancy, a total of three supplementary names may be referred.

(4) After having qualified for promotion hereunder an officer must pass a medical examination and must be certified as to physical fitness to perform the duties of the advanced position by one of three doctors designated by the chief of the Washington state patrol.

(5) The state patrol shall consult with the human rights commission in the development of rules pertaining to affirmative action. The state patrol shall transmit a report annually to the human rights commission which states the progress the state patrol has made in meeting affirmative action goals and timetables. 43.43.370 Staff or technical officers. The chief of the Washington state patrol may appoint such staff or technical officers as he or she deems necessary for the efficient operation of the patrol, and he or she may assign whatever rank he or she deems necessary to such staff or technical officers for the duration of their service as such.

Staff or technical officers may be returned to their line rank or position whenever the chief so desires. Staff or technical officers without line command assignment and whose duties are of a special or technical nature shall hold their staff or technical rank on a continuing probationary basis; however, such staff or technical officers, if otherwise eligible, shall not be prevented from taking the line promotion examinations, and qualifying for promotion whenever the examinations may be held.

43.43.380 Minimum salaries—Report. (Expires June 30, 2025.) (1) The minimum monthly salary paid to state patrol troopers and sergeants must be competitive with law enforcement agencies within the boundaries of the state of Washington, guided by the results of a survey undertaken in the collective bargaining process during each biennium. The salary levels must be guided by the average of compensation paid to the corresponding rank from the Seattle police department, King county sheriff's office, Tacoma police department, Snohomish county sheriff's office, Spokane police department, and Vancouver police department. Compensation must be calculated using base salary, premium pay (a

(2021 Ed.)

pay received by more than a majority of employees), education pay, and longevity pay. The compensation comparison data is based on the Washington state patrol and the law enforcement agencies listed in this section. Increases in salary levels for captains and lieutenants that are collectively bargained must be proportionate to the increases in salaries for troopers and sergeants as a result of the survey described in this section.

(2) By December 1, 2024, as part of the salary survey required in this section, the office of financial management must report to the governor and transportation committees of the legislature on the efficacy of Washington state patrol recruitment and retention efforts. Using the results of the 2016 salary survey as the baseline data, the report must include an analysis of voluntary resignations of state patrol troopers and sergeants and a comparison of state patrol academy class sizes and trooper graduations.

(3) This section expires June 30, 2025. [2018 c 140 § 1; 2016 c 28 § 5; 1965 c 8 § 43.43.380. Prior: 1949 c 192 § 6; Rem. Supp. 1949 § 6362-61e.]

Intent—2016 c 28: "It is the intent of the legislature to recruit and retain the highest qualified commissioned officers of the Washington state patrol appointed under RCW 43.43.020. The "Joint Transportation Committee Recruitment and Retention Study" dated January 7, 2016, outlines several recommendations to fulfill this intent. The study recommendations were broken down into several areas, with the Washington state patrol, office of financial management, select committee on pension policy, and the legislature all supporting their respective authorizations and control over their respective areas of responsibility and accountability. It is also the intent of the legislature in the 2017-2019 fiscal biennium to increase the thirty dollar vehicle license fee distribution to the state patrol for the salaries and benefits of state patrol officers, including troopers, sergeants, lieutenants, and captains, and make adjustments as needed in the 2019-2021 fiscal biennium." [2016 c 28 § 1.]

43.43.390 Bicycle awareness program—Generally. Bicycling is increasing in popularity as a form of recreation and as an alternative mode of transportation. To make bicycling safer, the various law enforcement agencies should enforce traffic regulations for bicyclists. By enforcing bicycle regulations, law enforcement officers are reinforcing educational programs. Bicycling takes more skill than most people realize. Since bicyclists have a low profile in traffic and are unprotected, they need more defensive riding skills than motorists do.

A bicycle awareness program is created within the Washington state patrol. In developing the curriculum for the bicycle awareness program the patrol shall consult with the traffic safety commission and with bicycling groups providing bicycle safety education. The patrol shall conduct the program in conjunction with the safety education officer program and may use other law enforcement personnel and volunteers to implement the program for children in grades kindergarten through six. The patrol shall ensure that each safety educator presenting the bicycle awareness program has received specialized training in bicycle safety education and has been trained in effective defensive bicycle riding skills. [1991 c 214 § 1.]

Bicycle transportation management program: RCW 47.04.190.

43.43.395 Ignition interlock devices—Standards—Compliance. (1) The state patrol shall by rule provide standards for the certification, installation, repair, maintenance,

monitoring, inspection, and removal of ignition interlock devices, as defined under RCW 46.04.215, and equipment as outlined under this section, and may inspect the records and equipment of manufacturers and vendors during regular business hours for compliance with statutes and rules and may suspend or revoke certification for any noncompliance.

(2)(a) When a certified service provider or individual installer of ignition interlock devices is found to be out of compliance, the installation privileges of that certified service provider or individual installer may be suspended or revoked until the certified service provider or individual installer comes into compliance. During any suspension or revocation period, the certified service provider or individual installer is responsible for notifying affected customers of any changes in their service agreement.

(b) A certified service provider or individual installer whose certification is suspended or revoked for noncompliance has a right to an administrative hearing under chapter 34.05 RCW to contest the suspension or revocation, or both. For the administrative hearing, the procedure and rules of evidence are as specified in chapter 34.05 RCW, except as otherwise provided in this chapter. Any request for an administrative hearing must be made in writing and must be received by the state patrol within twenty days after the receipt of the notice of suspension or revocation.

(3)(a) An ignition interlock device must employ:

(i) Fuel cell technology. For the purposes of this subsection, "fuel cell technology" consists of the following electrochemical method: An electrolyte designed to oxidize the alcohol and release electrons to be collected by an active electrode; a current flow is generated within the electrode proportional to the amount of alcohol oxidized on the fuel cell surface; and the electrical current is measured and reported as breath alcohol concentration. Fuel cell technology is highly specific for alcohols;

(ii) Technology capable of taking a photo identification of the user giving the breath sample and recording on the photo the time the breath sample was given; and

(iii) Technology capable of providing the global positioning coordinates at the time of each test sequence. Such coordinates must be displayed within the data log that is downloaded by the manufacturer and must be made available to the state patrol to be used for circumvention and tampering investigations.

(b) To be certified, an ignition interlock device must:

(i) Meet or exceed the minimum test standards according to rules adopted by the state patrol. Only a notarized statement from a laboratory that is accredited and certified under the current edition of ISO (the international organization of standardization) 17025 standard for testing and calibration laboratories and is capable of performing the tests specified will be accepted as proof of meeting or exceeding the standards. The notarized statement must include the name and signature of the person in charge of the tests under the certification statement. The state patrol must adopt by rule the required language of the certification statement that must, at a minimum, outline that the testing meets or exceeds all specifications listed in the federal register adopted in rule by the state patrol; and

(ii) Be maintained in accordance with the rules and standards adopted by the state patrol. [2015 2nd sp.s. c 3 § 11; 2013 2nd sp.s. c 35 § 9; 2012 c 183 § 16; 2010 c 268 § 2.]

43.43.396 Ignition interlock devices—Fee schedule and fee collection—Report—Fee deposit. (1) As part of the state patrol's authority to provide standards for certification, installation, repair, maintenance, monitoring, inspection, and removal of ignition interlock devices, the state patrol shall by rule establish a fee schedule and collect fees from ignition interlock manufacturers, technicians, providers, and persons required under RCW 46.20.385, 46.20.720, and 46.61.5055 to install an ignition interlock device in all vehicles owned or operated by the person. At a minimum, the fees must be set at a level necessary to support effective performance of the duties identified in this section. The state patrol must report back to the transportation committees of the legislature and the office of financial management by December 1st of each year on the level of the fees that have been adopted and whether those fees are sufficient to cover the cost of performing the duties listed in this section.

(2) Fees collected under this section must be deposited into the highway safety account [fund] to be used solely to fund the Washington state patrol impaired driving section projects. [2012 c 183 § 15.]

Effective date—2012 c 183: See note following RCW 9.94A.475.

43.43.400 Aquatic invasive species inspection and training. (1) Money in the aquatic invasive species management account created in RCW 77.135.200 may be used by the Washington state patrol for aquatic invasive species inspection training and to inspect for the presence of aquatic invasive species on aquatic conveyances that are required to stop at a Washington state patrol port of entry weigh station.

Intent—2020 c 26: See note following RCW 63.21.090.

Finding—Intent—2016 c 173: "The legislature recognizes the deep pain and suffering experienced by victims of sexual assault. Sexual assault is an extreme violation of a person's body and sense of self and safety. Sexual violence is a pervasive social problem. National studies indicate that approximately one in four women will be sexually assaulted in their lifetimes. Survivors often turn to hospitals and local law enforcement for help, and many volunteer to have professionals collect a sexual assault kit to preserve physical evidence from their bodies. The process of collecting a sexual assault kit is extremely invasive and difficult.

The legislature finds that, when forensic analysis is completed, the biological evidence contained inside sexual assault kits can be an incredibly powerful tool for law enforcement to solve and prevent crime. Forensic analysis of all sexual assault kits sends a message to survivors that they matter. It sends a message to perpetrators that they will be held accountable for their crimes. The legislature is committed to bringing healing and justice to survivors of sexual assault.

The legislature recognizes the laudable and successful efforts of law enforcement in the utilization of forensic analysis of sexual assault kits in the investigation and prosecution of crimes in Washington state. In 2015, the legislature enhanced utilization of this tool by requiring the preservation and forensic analysis of sexual assault kits. The legislature intends to continue building on its efforts through the establishment of the statewide sexual assault kit tracking system. The system will be designed to track all sexual assault kits in Washington state, regardless of when they were collected, in order to further empower survivors with information, assist law enforcement with investigations and crime prevention, and create transparency and foster public trust." [2016 c 173 § 1.]

43.43.546 Statewide sexual assault kit tracking system—Participation by bureau of forensic laboratory services. The Washington state patrol bureau of forensic laboratory services shall participate in the statewide sexual assault kit tracking system established in RCW 43.43.545 for the purpose of tracking the status of all sexual assault kits in the custody of the Washington state patrol and other entities contracting with the Washington state patrol. The Washington state patrol bureau of forensic laboratory services shall begin full participation in the system according to the implementation schedule established by the Washington state patrol. [2016 c 173 § 5.]

43.43.570 Automatic fingerprint identification system—Conditions for local establishment or operation—Rules. The local law enforcement agency shall be able to

transmit a tenprint record to the state system through any available protocol which meets accepted industry standards, and the state system must be able to accept tenprint records which comply with those requirements. The Washington state patrol shall transmit the fees collected to the state treasurer for deposit in the state firearms background check system account created in RCW 43.43.590. "Criminal justice agencies" are those public agencies within or outside the state which perform, as a principal function, activities directly relating to the apprehension, prosecution, adjudication or rehabilitation of criminal offenders.

The section may refuse to furnish any information pertaining to the identification or history of any person or persons of whom it has a record, or other information in its files and records, to any applicant if the chief determines that the applicant has previously misused information furnished to such applicant by the section or the chief believes that the applicant will not use the information requested solely for the purpose of due administration of the criminal laws or for the purposes enumerated in RCW 43.43.760(4). The applicant may appeal such determination by notifying the chief in writing within thirty days. The hearing shall be before an administrative law judge appointed under chapter 34.12 RCW and in accordance with procedures for adjudicative proceedings under chapter 34.05 RCW. [2006 c 294 § 2; 1999 c 151 § 1101; 1989 c 334 § 7; 1987 c 486 § 10; 1985 c 201 § 8; 1977 ex.s. c 314 § 14; 1972 ex.s. c 152 § 2.]

If the individual believes such information to be inaccurate or incomplete, he or she may request the section to purge, modify or supplement it and to advise such persons or agencies who have received his or her record and whom the individual designates to modify it accordingly. Should the section decline to so act, or should the individual believe the section's decision to be otherwise unsatisfactory, the individual may appeal such decision to the superior court in the county in which he or she is resident, or the county from which the disputed record emanated or Thurston county. The court shall in such case conduct a de novo hearing, and may order such relief as it finds to be just and equitable.

(2) The section may prescribe reasonable hours and a place for inspection, and may impose such additional restrictions, including fingerprinting, as are reasonably necessary both to assure the record's security and to verify the identities of those who seek to inspect them: PROVIDED, That the section may charge a reasonable fee for fingerprinting or for pro-

(2) Every time the secretary authorizes a furlough as provided for in RCW 72.66.012 the department of corrections shall notify, thirty days prior to the beginning of such furlough, the sheriff or director of public safety of the county to which the prisoner is being furloughed, the nearest Washington state patrol district facility in the county wherein the furloughed prisoner is to be residing, and other similar criminal justice agencies that the named prisoner has been granted a furlough, the place to which furloughed, and the dates and times during which the prisoner will be on furlough status. In the case of an emergency furlough the thirty-day time period shall not be required but notification shall be made as promptly as possible and before the prisoner is released on furlough.

(3) Disposition of the charge for which the arrest was made shall be reported to the section at whatever stage in the proceedings a final disposition occurs by the arresting law enforcement agency, county prosecutor, city attorney, or court having jurisdiction over the offense: PROVIDED, That the chief shall promulgate rules pursuant to chapter 34.05 RCW to carry out the provisions of this subsection.

In addition, nothing in this section shall be construed to prevent any local law enforcement authority from recording the residency and other information concerning any convicted felon or other person convicted of a criminal offense when such information is obtained from a source

other than from registration pursuant to RCW 9A.44.130 which source may include any officer or other agency or subdivision of the state.

(5) The existence of the notice requirement in subsection (2) of this section will not require any extension of the release date in the event the release plan changes after notification. [1994 c 129 § 7; 1993 c 24 § 1; 1990 c 3 § 409; 1985 c 346 § 6; 1973 c 20 § 1; 1972 ex.s. c 152 § 10.]

43.43.750 Use of force to obtain identification information—Liability. In exercising their duties and authority under RCW 43.43.735 and 43.43.740, the sheriffs, directors of public safety, chiefs of police, and other chief law enforcement officers, may, consistent with constitutional and legal requirements, use such reasonable force as is necessary to compel an unwilling person to submit to being photographed, or fingerprinted, or to submit to any other identification procedure, except interrogation, which will result in obtaining physical evidence serving to identify such person. No one having the custody of any person subject to the identification procedures provided for in chapter 152, Laws of 1972 ex. sess., and no one acting in his or her aid or under his or her direction, and no one concerned in such publication as is provided for in RCW 43.43.740, shall incur any liability, civil or criminal, for anything lawfully done in the exercise of the provisions of chapter 152, Laws of 1972 ex. sess. 43.43.751 Biological samples for missing persons investigations. Biological samples taken for a missing person's investigation under RCW 68.50.320 shall be forwarded to the appropriate laboratory as soon as possible. The crime laboratory of the Washington state patrol will provide guidance to agencies regarding where samples should be sent. If substantial delays in testing occur or federal testing is no longer available, the legislature should be requested to provide funding to implement mitochondrial technology in the state of Washington. [2007 c 10 § 6; 2006 c 102 § 7.]

Intent—2007 c 10: See note following RCW 43.103.110.

43.43.752 DNA identification system—Plan—Report. (1) To support criminal justice services in the local communities throughout this state, the state patrol in consultation with the University of Washington school of medicine shall develop a plan for and establish a DNA identification system. In implementing the plan, the state patrol shall purchase the appropriate equipment and supplies. The state patrol shall procure the most efficient equipment available.

(2) The DNA identification system as established shall be compatible with that utilized by the federal bureau of investigation.

(3) The state patrol and the University of Washington school of medicine shall report on the DNA identification system to the legislature no later than November 1, 1989. The report shall include a timeline for implementing each stage, a local agency financial participation analysis, a system analysis, a full cost/purchase analysis, a vendor bid evaluation, and a space location analysis that includes a site determination.

43.43.753 Findings—DNA identification system—DNA database—DNA data bank. The legislature finds that recent developments in molecular biology and genetics have important applications for forensic science. It has been scientifically established that there is a unique pattern to the chemical structure of the deoxyribonucleic acid (DNA) contained in each cell of the human body. The process for identifying this pattern is called "DNA identification."

The legislature further finds that DNA databases are important tools in criminal investigations, in the exclusion of individuals who are the subject of investigations or prosecutions, and in detecting recidivist acts. It is the policy of this state to assist federal, state, and local criminal justice and law enforcement agencies in both the identification and detection of individuals in criminal investigations and the identification and location of missing and unidentified persons. Therefore, it is in the best interest of the state to establish a DNA database and DNA data bank containing DNA samples submitted by persons convicted of felony offenses and other crimes as specified in RCW 43.43.754. DNA samples necessary for the identification of missing persons and unidentified human remains shall also be included in the DNA database.

The legislature further finds that the DNA identification system used by the federal bureau of investigation and the Washington state patrol has no ability to predict genetic disease or predisposal to illness. Nonetheless, the legislature intends that biological samples collected under RCW 43.43.754, and DNA identification data obtained from the samples, be used only for purposes related to criminal investigation, identification of human remains or missing persons, or improving the operation of the system authorized under RCW 43.43.752 through 43.43.758. [2008 c 97 § 1; 2002 c 289 § 1; 1989 c 350 § 1.]

43.43.7532 DNA identification system—DNA database account. The state DNA database account is created in the custody of the state treasurer. All receipts under RCW 43.43.7541 must be deposited into the account. Expenditures from the account may be used only for creation, operation, and maintenance of the DNA database under RCW 43.43.754. Only the chief of the Washington state patrol or the chief's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures. [2002 c 289 § 5.]

(a) Every adult or juvenile individual convicted of a felony, or any of the following crimes (or equivalent juvenile offenses):

(i) Assault in the fourth degree where domestic violence as defined in RCW 9.94A.030 was pleaded and proven (RCW 9A.36.041, 9.94A.030);

(ii) Assault in the fourth degree with sexual motivation (RCW 9A.36.041, 9.94A.835);

(xi) Violation of a sexual assault protection order granted under chapter 7.90 RCW; and

(b) Every adult or juvenile individual who is required to register under RCW 9A.44.130.

(2)(a) A municipal jurisdiction may also submit any biological sample to the laboratory services bureau of the Washington state patrol for purposes of DNA identification analysis when:

(i) The sample was collected from a defendant upon conviction for a municipal offense where the underlying ordinance does not adopt the relevant state statute by reference but the offense is otherwise equivalent to an offense in subsection (1)(a) of this section;

(ii) The equivalent offense in subsection (1)(a) of this section was an offense for which collection of a biological sample was required under this section at the time of the conviction; and

(iii) The sample was collected on or after June 12, 2008, and before January 1, 2020.

(b) When submitting a biological sample under this subsection, the municipal jurisdiction must include a signed affidavit from the municipal prosecuting authority of the jurisdiction in which the conviction occurred specifying the state crime to which the municipal offense is equivalent.

(3) Law enforcement may submit to the forensic laboratory services bureau of the Washington state patrol, for purposes of DNA identification analysis, any lawfully obtained biological sample within its control from a deceased offender who was previously convicted of an offense under subsection (1)(a) of this section, regardless of the date of conviction.

(4) If the Washington state patrol crime laboratory already has a DNA sample from an individual for a qualifying offense, a subsequent submission is not required to be submitted.

(5) Biological samples shall be collected in the following manner:

(a) For persons convicted of any offense listed in subsection (1)(a) of this section or adjudicated guilty of an equivalent juvenile offense, who do not serve a term of confinement in a department of corrections facility or a department of children, youth, and families facility, and are serving a term of confinement in a city or county jail facility, the city or county jail facility shall be responsible for obtaining the biological samples.

(b) The local police department or sheriff's office shall be responsible for obtaining the biological samples for:

(i) Persons convicted of any offense listed in subsection (1)(a) of this section or adjudicated guilty of an equivalent juvenile offense, who do not serve a term of confinement in a department of corrections facility, department of children, youth, and families facility, or a city or county jail facility; and

(ii) Persons who are required to register under RCW 9A.44.130.

(c) For persons convicted of any offense listed in subsection (1)(a) of this section or adjudicated guilty of an equivalent juvenile offense, who are serving or who are to serve a term of confinement in a department of corrections facility or a department of children, youth, and families facility, the facility holding the person shall be responsible for obtaining the biological samples as part of the intake process. If the facility did not collect the biological sample during the intake process, then the facility shall collect the biological sample as soon as is practicable. For those persons incarcerated before June 12, 2008, who have not yet had a biological sample collected, priority shall be given to those persons who will be released the soonest.

(d) For persons convicted of any offense listed in subsection (1)(a) of this section or adjudicated guilty of an equivalent juvenile offense, who will not serve a term of confinement, the court shall: Order the person to report to the local police department or sheriff's office as provided under subsection (5)(b)(i) of this section within a reasonable period of time established by the court in order to provide a biological sample; or if the local police department or sheriff's office has a protocol for collecting the biological sample in the courtroom, order the person to immediately provide the biological sample to the local police department or sheriff's office before leaving the presence of the court. The court must further inform the person that refusal to provide a biological sample is a gross misdemeanor under this section.

(6) Any biological sample taken pursuant to RCW 43.43.752 through 43.43.758 may be retained by the forensic laboratory services bureau, and shall be used solely for the purpose of providing DNA or other tests for identification analysis and prosecution of a criminal offense or for the identification of human remains or missing persons. Nothing in this section prohibits the submission of results derived from the biological samples to the federal bureau of investigation combined DNA index system.

(7) The forensic laboratory services bureau of the Washington state patrol is responsible for testing performed on all biological samples that are collected under this section, to the extent allowed by funding available for this purpose. Known duplicate samples may be excluded from testing unless testing is deemed necessary or advisable by the director.

(8) This section applies to:

(a) All adults and juveniles to whom this section applied prior to June 12, 2008;

(b) All adults and juveniles to whom this section did not apply prior to June 12, 2008, who:

(i) Are convicted on or after June 12, 2008, of an offense listed in subsection (1)(a) of this section on the date of conviction; or

(ii) Were convicted prior to June 12, 2008, of an offense listed in subsection (1)(a) of this section and are still incarcerated on or after June 12, 2008;

(c) All adults and juveniles who are required to register under RCW 9A.44.130 on or after June 12, 2008, whether convicted before, on, or after June 12, 2008; and

(d) All samples submitted under subsections (2) and (3) of this section.

(9) This section creates no rights in a third person. No cause of action may be brought based upon the noncollection or nonanalysis or the delayed collection or analysis of a biological sample authorized to be taken under RCW 43.43.752 through 43.43.758.

(10) The detention, arrest, or conviction of a person based upon a database match or database information is not invalidated if it is determined that the sample was obtained or placed in the database by mistake, or if the conviction or juvenile adjudication that resulted in the collection of the biological sample was subsequently vacated or otherwise altered in any future proceeding including but not limited to posttrial or postfact-finding motions, appeals, or collateral attacks. No cause of action may be brought against the state based upon the analysis of a biological sample authorized to be taken pursuant to a municipal ordinance if the conviction or adjudication that resulted in the collection of the biological sample was subsequently vacated or otherwise altered in any future proceeding including, but not limited to, posttrial or postfact-finding motions, appeals, or collateral attacks.

(11) A person commits the crime of refusal to provide DNA if the person willfully refuses to comply with a legal request for a DNA sample as required under this section. The refusal to provide DNA is a gross misdemeanor. [2020 c 26 § 7; 2019 c 443 § 3; 2017 c 272 § 4; 2015 c 261 § 10; 2008 c 97 § 2; 2002 c 289 § 2; 1999 c 329 § 2; 1994 c 271 § 402; 1990 c 230 § 3; 1989 c 350 § 4.]

Intent—2020 c 26: See note following RCW 63.21.090.

Short title—2019 c 443: "This act may be known and cited as Jennifer and Michella's law." [2019 c 443 § 1.]

Findings—2019 c 443: "The legislature finds that the state of Washington has for decades routinely required collection of DNA biological samples from certain convicted offenders and persons required to register as sex and kidnapping offenders. The resulting DNA data has proven to be an invaluable component of forensic evidence analysis. Not only have DNA matches focused law enforcement efforts and resources on productive leads, assisted in the expeditious conviction of guilty persons, and provided identification of recidivist and cold case offenders, DNA analysis has also played a crucial role in absolving wrongly suspected and convicted persons and in providing resolution to those who have tragically suffered unimaginable harm.

In an effort to solve cold cases and unsolved crimes, to provide closure to victims and their family members, and to support efforts to exonerate the wrongly accused or convicted, the legislature finds that procedural improvements and measured expansions to the collection and analysis of lawfully obtained DNA biological samples are both appropriate and necessary." [2019 c 443 § 2.]

Findings—1999 c 329: "The legislature finds it necessary to expand the current pool of convicted offenders who must have a blood sample drawn for purposes of DNA identification analysis. The legislature further finds that there is a high rate of recidivism among certain types of violent and sex offenders and that drawing blood is minimally intrusive. Creating an expanded DNA data bank bears a rational relationship to the public's interest in enabling law enforcement to better identify convicted violent and sex offenders who are involved in unsolved crimes, who escape to reoffend, and who reoffend after release." [1999 c 329 § 1.]

Finding—1994 c 271: "The legislature finds that DNA identification analysis is an accurate and useful law enforcement tool for identifying and prosecuting sexual and violent offenders. The legislature further finds no

compelling reason to exclude juvenile sexual and juvenile violent offenders from DNA identification analysis." [1994 c 271 § 401.]

Purpose—Severability—1994 c 271: See notes following RCW 9A.28.020.

Finding—Funding limitations—1989 c 350: See notes following RCW 43.43.752.

(b) The local police department or sheriff's office shall be responsible for obtaining the biological samples for:

(i) Persons convicted of any offense listed in subsection (1)(a) of this section or adjudicated guilty of an equivalent juvenile offense, who do not serve a term of confinement in a department of corrections facility, department of children, youth, and families facility, or a city or county jail facility; and

(ii) Persons who are required to register under RCW 9A.44.130.

(c) For persons convicted of any offense listed in subsection (1)(a) of this section or adjudicated guilty of an equivalent juvenile offense, who are serving or who are to serve a term of confinement in a department of corrections facility or a department of children, youth, and families facility, the facility holding the person shall be responsible for obtaining the biological samples as part of the intake process. If the facility did not collect the biological sample during the intake process, then the facility shall collect the biological sample as soon as is practicable. For those persons incarcerated before June 12, 2008, who have not yet had a biological sample collected, priority shall be given to those persons who will be released the soonest.

(d) For persons convicted of any offense listed in subsection (1)(a) of this section or adjudicated guilty of an equivalent juvenile offense, who will not serve a term of confinement, the court shall: Order the person to report to the local police department or sheriff's office as provided under subsection (5)(b)(i) of this section within a reasonable period of time established by the court in order to provide a biological sample; or if the local police department or sheriff's office has a protocol for collecting the biological sample in the courtroom, order the person to immediately provide the biological sample to the local police department or sheriff's office before leaving the presence of the court. The court must further inform the person that refusal to provide a biological sample is a gross misdemeanor under this section.

(6) Any biological sample taken pursuant to RCW 43.43.752 through 43.43.758 may be retained by the forensic laboratory services bureau, and shall be used solely for the purpose of providing DNA or other tests for identification analysis and prosecution of a criminal offense or for the identification of human remains or missing persons. Nothing in this section prohibits the submission of results derived from

the biological samples to the federal bureau of investigation combined DNA index system.

(7) The forensic laboratory services bureau of the Washington state patrol is responsible for testing performed on all biological samples that are collected under this section, to the extent allowed by funding available for this purpose. Known duplicate samples may be excluded from testing unless testing is deemed necessary or advisable by the director.

(8) This section applies to:

(a) All adults and juveniles to whom this section applied prior to June 12, 2008;

(b) All adults and juveniles to whom this section did not apply prior to June 12, 2008, who:

(c) All adults and juveniles who are required to register under RCW 9A.44.130 on or after June 12, 2008, whether convicted before, on, or after June 12, 2008; and

(d) All samples submitted under subsections (2) and (3) of this section.

(9) This section creates no rights in a third person. No cause of action may be brought based upon the noncollection or nonanalysis or the delayed collection or analysis of a biological sample authorized to be taken under RCW 43.43.752 through 43.43.758.

(10) The detention, arrest, or conviction of a person based upon a database match or database information is not invalidated if it is determined that the sample was obtained or placed in the database by mistake, or if the conviction or juvenile adjudication that resulted in the collection of the biological sample was subsequently vacated or otherwise altered in any future proceeding including but not limited to posttrial or postfact-finding motions, appeals, or collateral attacks. No cause of action may be brought against the state based upon the analysis of a biological sample authorized to be taken pursuant to a municipal ordinance if the conviction or adjudication that resulted in the collection of the biological sample was subsequently vacated or otherwise altered in any future proceeding including, but not limited to, posttrial or postfact-finding motions, appeals, or collateral attacks.

(11) A person commits the crime of refusal to provide DNA if the person willfully refuses to comply with a legal request for a DNA sample as required under this section. The refusal to provide DNA is a gross misdemeanor. [2021 c 215 § 149; 2020 c 26 § 7; 2019 c 443 § 3; 2017 c 272 § 4; 2015 c 261 § 10; 2008 c 97 § 2; 2002 c 289 § 2; 1999 c 329 § 2; 1994 c 271 § 402; 1990 c 230 § 3; 1989 c 350 § 4.]

Effective date—2021 c 215: See note following RCW 7.105.900.

Intent—2020 c 26: See note following RCW 63.21.090.

Short title—2019 c 443: "This act may be known and cited as Jennifer and Michella's law." [2019 c 443 § 1.]

Findings—2019 c 443: "The legislature finds that the state of Washington has for decades routinely required collection of DNA biological samples from certain convicted offenders and persons required to register as sex and kidnapping offenders. The resulting DNA data has proven to be an invaluable component of forensic evidence analysis. Not only have DNA matches focused law enforcement efforts and resources on productive leads, assisted in the expeditious conviction of guilty persons, and provided identification

of recidivist and cold case offenders, DNA analysis has also played a crucial role in absolving wrongly suspected and convicted persons and in providing resolution to those who have tragically suffered unimaginable harm.

In an effort to solve cold cases and unsolved crimes, to provide closure to victims and their family members, and to support efforts to exonerate the wrongly accused or convicted, the legislature finds that procedural improvements and measured expansions to the collection and analysis of lawfully obtained DNA biological samples are both appropriate and necessary." [2019 c 443 § 2.]

Findings—1999 c 329: "The legislature finds it necessary to expand the current pool of convicted offenders who must have a blood sample drawn for purposes of DNA identification analysis. The legislature further finds that there is a high rate of recidivism among certain types of violent and sex offenders and that drawing blood is minimally intrusive. Creating an expanded DNA data bank bears a rational relationship to the public's interest in enabling law enforcement to better identify convicted violent and sex offenders who are involved in unsolved crimes, who escape to reoffend, and who reoffend after release." [1999 c 329 § 1.]

Finding—1994 c 271: "The legislature finds that DNA identification analysis is an accurate and useful law enforcement tool for identifying and prosecuting sexual and violent offenders. The legislature further finds no compelling reason to exclude juvenile sexual and juvenile violent offenders from DNA identification analysis." [1994 c 271 § 401.]

Purpose—Severability—1994 c 271: See notes following RCW 9A.28.020.

Finding—Funding limitations—1989 c 350: See notes following RCW 43.43.752.

(2) The Washington state patrol, in consultation with the Washington state association of sheriffs and police chiefs, shall adopt uniform state criteria for entering gangs, gang members, and gang associates into the database. (4) The database shall provide an internet-based multi-agency, multilocation, information-sharing application that operates in a network fashion.

(5) The database shall be used solely as a law enforcement intelligence tool and shall not be used as evidence in any criminal, civil, or administrative proceeding. Law enforcement may use the information within the database to obtain information external to the database to formulate the probable cause necessary to make a stop or arrest. The mere existence of information relating to an individual within the database does not by itself justify a stop or arrest.

(6) Access to the database shall be determined by the chief executive officer of each participating agency. Information about specific individuals in the database shall be automatically expunged if: (a) No new or updated information has been entered into the database within the previous five years; (b) there are no pending criminal charges against such person in any court in this state or another state or in any federal court; (c) the person has not been convicted of a new crime in this state, another state, or federal court within the last five years; and (d) it has been five years since the person completed his or her term of total confinement.

(c) Ensure that any information entered into the database relates to a criminal street gang associate or gang member who is twelve years old or older;

(d) Annually produce a gang threat assessment report including available data sources such as uniform crime reports, record management systems, and entries into the statewide gang database. Local public schools shall also be encouraged to provide data to the local gang threat assessment report.

(8) The database and all contents in the database are confidential and exempt from public disclosure under chapter 42.56 RCW.

(9) Any public employee or public agency as defined in RCW 4.24.470, or units of local government and its employees, as provided in RCW 36.28A.010, and the Washington association of sheriffs and police chiefs and its employees are immune from civil liability for damages arising from incidents involving a person who has been included in the database, unless it is shown that an employee acted with gross negligence or bad faith. The notice form shall also contain information directing the applicant to a web site describing the process of appealing a national instant criminal background check system denial through the federal bureau of investigation and refer the applicant to local law enforcement for information on a denial based on a state background check. The notice form shall also contain a phone number for a contact at the Washington state patrol to direct the person to resources regarding an individual's right to appeal a background check denial.

(6) The Washington state patrol may adopt rules as are necessary to carry out the purposes of this section. [2018 c 22 § 11; 2017 c 261 § 3.]

health shall adopt additional requirements for the licensure or relicensure of agencies, facilities, and licensed individuals who provide care and treatment to vulnerable adults, including nursing pools registered under chapter 18.52C RCW. (g) The otherwise disqualifying conviction or disposition has been the subject of a pardon, annulment, or other equivalent procedure.

The offenses set forth in (a) through (g) of this subsection do not automatically disqualify an applicant from employment by a licensee. Nothing in this section may be construed to require the employment of any person against a licensee's judgment.

A recent federal study reported that Native American women are murdered at rates greater than ten times the national average. Many of these crimes, however, are often unsolved or even unreported because there are also very high rates of disappearance for Native American women.

The legislature further finds that although violence against Native American women has been a neglected issue in society, there is a growing awareness of this crisis, as well as a recognition that the criminal justice system needs to better serve and protect Native American women. The legislature intends to find ways to connect state, tribal, and federal resources to create partnerships to find ways to solve this crisis facing Native American women in our state, while being mindful to include voices from both tribal and urban communities." [2019 c 127 § 1.]

43.43.876 Missing and murdered indigenous women, other indigenous persons—Protocol—Training. (1) The Washington state patrol must develop a best practices protocol for law enforcement response to missing persons reports for indigenous women and other indigenous persons. The protocol must include steps that law enforcement should take

upon receiving a missing persons report for an indigenous woman or other indigenous person.

(2) The governor's office of Indian affairs must provide the Washington state patrol with government-to-government training, and must work with the Washington state patrol to schedule and facilitate the training. [2019 c 127 § 3.]

Findings—Intent—2019 c 127: See note following RCW 43.43.874.

43.43.880 Agreements with contiguous states—Jointly occupied ports of entry—Collection of fees and taxes. The Washington state patrol may negotiate and enter into bilateral agreements with designated representatives of contiguous states. Agreements may provide for the manning and operation of jointly occupied ports of entry, for the collection of highway user fees, registration fees, and taxes that may be required by statute or rule. Agreements may further provide for the collection of these fees and taxes by either party state at jointly occupied ports of entry before authorization is given for vehicles to legally operate within that state or jurisdiction, and for the enforcement of safety, size, and weight statutes or rules of the respective states. [1988 c 21 § 1.]

43.43.885 No-buy list database program. (1) Beginning on July 1, 2014, when funded, the Washington association of sheriffs and police chiefs shall implement and operate an ongoing electronic statewide no-buy list database program.

(2) The database must be made available on a web site.

(3) The no-buy list database program shall allow for any scrap metal business to enter a customer's name and date of birth into the database. The database must determine if the customer pursuing the transaction with the scrap metal business has been convicted in Washington of any crime involving burglary, robbery, theft, or possession of or receiving stolen property within the past four years.

(4) If the customer has been convicted of any crime involving burglary, robbery, theft, or possession of or receiving stolen property within the past four years despite whether the person was acting in his or her own behalf or as the agent of another then, at a minimum, the no-buy list database program must immediately send an alert to the scrap metal business stating: (a) That the customer is listed on a current no-buy list, (b) the four-year expiration period for the customer's most recent crime listed, and (c) a notification that entering into a transaction with the customer is prohibited under RCW 19.290.070. [2013 c 322 § 31.]

43.43.887 No-buy list database program—Washington association of sheriffs and police chiefs not liable for civil damages. The Washington association of sheriffs and police chiefs shall not be held liable for civil damages resulting from any act or omission in carrying out the requirements of RCW 43.43.885 other than an act or omission constituting gross negligence or willful or wanton misconduct. [2013 c 322 § 33.]

43.43.912 Construction—Chapter applicable to state registered domestic partnerships—2009 c 521. For the purposes of this chapter, the terms spouse, marriage, marital, husband, wife, widow, widower, next of kin, and family shall

(2021 Ed.)

be interpreted as applying equally to state registered domestic partnerships or individuals in state registered domestic partnerships as well as to marital relationships and married persons, and references to dissolution of marriage shall apply equally to state registered domestic partnerships that have been terminated, dissolved, or invalidated, to the extent that such interpretation does not conflict with federal law. Where necessary to implement chapter 521, Laws of 2009, gender-specific terms such as husband and wife used in any statute, rule, or other law shall be construed to be gender neutral, and applicable to individuals in state registered domestic partnerships. [2009 c 521 § 107.]

43.43.930 State fire protection services—Intent. The legislature finds that fire protection services at the state level are provided by different, independent state agencies. This has resulted in a lack of a comprehensive state-level focus for state fire protection services, funding, and policy. The legislature further finds that the paramount duty of the state in fire protection services is to enhance the capacity of all local jurisdictions to assure that their personnel with fire suppression, prevention, inspection, origin and cause, and arson investigation responsibilities are adequately trained to discharge their responsibilities. It is the intent of the legislature to consolidate fire protection services into a single state agency. It is also the intent of the legislature that the fire protection services program created herein will assist local fire protection agencies in program development without encroaching upon their historic autonomy. It is the further intent of the legislature that the fire protection services program be implemented incrementally to assure a smooth transition, to build local, regional, and state capacity, and to avoid undue burdens on jurisdictions with limited resources. [2010 1st sp.s. c 7 § 44; 1995 c 369 § 14; 1993 c 280 § 68; 1986 c 266 § 54. Formerly RCW 43.63A.300.]

43.43.934 Director of fire protection—Duties. The director of fire protection shall:

(1)(a)(i) With the state board for community and technical colleges, provide academic, vocational, and field training programs for the fire service; and (ii) with the state colleges and universities, provide instructional programs requiring advanced training, especially in command and management skills;

(b) Cooperate with the common schools, technical and community colleges, institutions of higher education, and any department or division of the state, or of any county or municipal corporation in establishing and maintaining instruction in fire service training and education in accordance with any act of congress and legislation enacted by the legislature in pursuance thereof and in establishing, building, and operating training and education facilities.

Industrial fire departments and private fire investigators may participate in training and education programs under this chapter for a reasonable fee established by rule;

(c) Develop and adopt a master plan for constructing, equipping, maintaining, and operating necessary fire service

training and education facilities subject to the provisions of *chapter 43.19 RCW;

(d) Develop and adopt a master plan for the purchase, lease, or other acquisition of real estate necessary for fire service training and education facilities in a manner provided by law; and

(e)(i) Develop and adopt a plan for the Washington state patrol fire training academy to deliver basic firefighter training and testing to all city fire departments, fire protection districts, regional fire protection service authorities, and other public fire agencies in the state. The plan required by this subsection (1)(e) must specify that the delivery of training and testing services will be provided:

(A) To recipients in the following order of priority:

(I) Volunteer departments;

(II) Combination departments; and

(III) Fire agencies that employ only career firefighters and fire officers; and

(B) By personnel of the fire training academy, either at the academy's facilities in North Bend, Washington, or regionally at local fire agencies.

(ii)(A) In lieu of receiving training and testing services from the fire training academy, city fire departments, fire protection districts, regional fire protection service authorities, and other public fire agencies in the state may seek reimbursement for their firefighter I training expenses. The amount of reimbursement will be calculated on a per capita basis. The per capita amount is equal to the three-year statewide firefighter per capita average for the regional direct delivery of training by the fire training academy. The three-year statewide firefighter per capita average is calculated by dividing the number of firefighters trained using the regional direct delivery program during the three-year period into the total cost of providing regional direct delivery during the same three-year period. The regional direct delivery costs used for the basis of these calculations does not include the costs of the fire training academy personnel used to coordinate the direct delivery programs, the state's indirect costs, or any other indirect costs.

(B) Prior to the implementation of the reimbursement provisions in (e)(ii)(A) of this subsection, the amount of reimbursement for city fire departments, fire protection districts, regional fire protection service authorities, and other public fire agencies must be not less than three dollars for every one hour of firefighter I training, and may not exceed two hundred hours.

(iii) Subject to approval by the director of fire protection, and in accordance with the plan required by this subsection (1)(e), the fire training academy facilities and programs must be made available at no cost to fire service youth programs. The goal of making these facilities and programs available is to increase enrollment of volunteer firefighters, and to improve gender, cultural, and ethnic diversity within the fire service.

(iv) For purposes of this subsection (1)(e), the following definitions apply:

(A) "Basic firefighter training and testing" means training and testing for firefighters that is up to and includes the requirements of firefighter I, as identified by the national fire protection association standard 1001;

(B) "Combination department" means a fire department with emergency service personnel comprising less than eighty-five percent of either volunteer or career membership;

(C) "Delivery of training" includes all resources, personnel, and equipment necessary to deliver training at the fire academy in North Bend, Washington, or regionally at local fire agencies; and

(D) "Volunteer department" means a fire department with volunteer emergency service personnel comprising eighty-five percent or greater of its department membership.

(2)(a) Promote mutual aid and disaster planning for fire services in this state;

(b) Assure the dissemination of information concerning the amount of fire damage including that damage caused by arson, and its causes and prevention; and

(c) Implement any legislation enacted by the legislature to meet the requirements of any acts of congress that apply to this section.

(3) In carrying out its statutory duties, the office of the state fire marshal shall give particular consideration to the appropriate roles to be played by the state and by local jurisdictions with fire protection responsibilities. Any determinations on the division of responsibility shall be made in consultation with local fire officials and their representatives.

To the extent possible, the office of the state fire marshal shall encourage development of regional units along compatible geographic, population, economic, and fire risk dimensions. Such regional units may serve to: (a) Reinforce coordination among state and local activities in fire service training, reporting, inspections, and investigations; (b) identify areas of special need, particularly in smaller jurisdictions with inadequate resources; (c) assist the state in its oversight responsibilities; (d) identify funding needs and options at both the state and local levels; and (e) provide models for building local capacity in fire protection programs. 43.43.952 Arson investigation information system—Findings—Intent. (1) The legislature finds that provisions for information systems relating to statistics and reporting for fire prevention, suppression, and damage control do not adequately address the needs of ongoing investigations of fire incidents where the cause is suspected or determined to be the result of negligence or otherwise suggestive of some criminal activity, particularly that of arson. It is the intent of the legislature to establish an information and reporting system designed specifically to assist state and local officers in conducting such investigations and, where substantiated, to undertake prosecution of individuals suspected of such activities.

STATE FIRE SERVICE MOBILIZATION

43.43.960 State fire service mobilization—Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this subchapter.

(1) "All risk resources" means those resources regularly provided by fire departments, fire districts, and regional fire protection service authorities required to respond to natural or man-made incidents, including but not limited to:

- (a) Wild land fires;
- (b) Landslides;
- (c) Earthquakes;
- (d) Floods; and
- (e) Contagious diseases.

(2) "Chief" means the chief of the Washington state patrol.

(3) "Fire chief" includes the chief officer of a statutorily authorized fire agency, or the fire chief's authorized representative. Also included are the department of natural resources fire control chief, and the department of natural resources regional managers.

(4) "Jurisdiction" means state, county, city, fire district, regional fire protection service authority, or port district units, or other units covered by this chapter.

(5) "Mobilization" means that all risk resources regularly provided by fire departments, fire districts, and regional fire protection service authorities beyond those available through existing agreements will be requested and, when available, sent in response to an emergency or disaster situation that has exceeded the capabilities of available local resources. During a large scale emergency, mobilization includes the redistribution of regional or statewide risk resources to either direct emergency incident assignments or to assignment in communities where resources are needed. All risk resources may not be mobilized to assist law enforcement with police activities during a civil protest or demonstration, or other exercise by the people of their constitutionally protected First Amend-

ment rights, or other protected concerted activity, however, fire departments, fire districts, and regional fire protection service authorities are not restricted from providing medical care or aid and firefighting when mobilized for any purpose.

When mobilization is declared and authorized as provided in this chapter, all risk resources regularly provided by fire departments, fire districts, and regional fire protection service authorities including those of the host fire protection authorities, i.e. incident jurisdiction, shall be deemed as mobilized under this chapter, including those that responded earlier under existing mutual aid or other agreement. All non-host fire protection authorities providing resources in response to a mobilization declaration shall be eligible for expense reimbursement as provided by this chapter from the time of the mobilization declaration.

This chapter shall not reduce or suspend the authority or responsibility of the department of natural resources under chapter 76.04 RCW.

(6) "Mutual aid" means emergency interagency assistance provided without compensation under an agreement between jurisdictions under chapter 39.34 RCW.

(7) "State fire marshal" means the director of fire protection in the Washington state patrol. [2019 c 259 § 1. Prior: 2015 c 181 § 2; 2003 c 405 § 1; 1997 c 49 § 8; prior: 1995 c 391 § 5; 1995 c 369 § 10; 1992 c 117 § 9. Formerly RCW 38.54.010.]

Effective date—2019 c 259: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect July 1, 2019." [2019 c 259 § 3.]

43.43.961 State fire service mobilization—Legislative declaration and intent. Because of the possibility of the occurrence of disastrous fires or other disasters of unprecedented size and destructiveness, the need to insure that the state is adequately prepared to respond to such a fire or disaster, the need to establish a mechanism and a procedure to provide for reimbursement to state agencies and local agencies that respond to help others in time of need or to a host fire district that experiences expenses beyond the resources of the fire district, and generally to protect the public peace, health, safety, lives, and property of the people of Washington, it is hereby declared necessary to:

(1) Provide the policy and organizational structure for large scale mobilization of all risk resources in the state through creation of the Washington state fire services mobilization plan;

(2) Confer upon the chief the powers provided herein;

(3) Provide a means for reimbursement to state agencies and local fire jurisdictions that incur expenses when mobilized by the chief under the Washington state fire services mobilization plan; and

(4) Provide for reimbursement of the host fire department or fire protection district when it has: (a) Exhausted all of its resources; and (b) invoked its local mutual aid network and exhausted those resources. Upon implementation of state fire mobilization, the host district resources shall become

(2021 Ed.)

state fire mobilization resources consistent with the fire mobilization plan.

It is the intent of the legislature that mutual aid and other interlocal agreements providing for enhanced emergency response be encouraged as essential to the public peace, safety, health, and welfare, and for the protection of the lives and property of the people of the state of Washington. If possible, mutual aid agreements should be without stated limitations as to resources available, time, or area. Nothing in this chapter shall be construed or interpreted to limit the eligibility of any nonhost fire protection authority for reimbursement of expenses incurred in providing all risk resources for mobilization provided that the mobilization must meet the requirements identified in the Washington state fire service mobilization plan. [2015 c 181 § 3; 2003 c 405 § 2; 1997 c 49 § 9; 1995 c 391 § 6; 1992 c 117 § 10. Formerly RCW 38.54.020.]

43.43.962 State fire service mobilization—State fire services mobilization plan—State fire resources coordinator. The director of fire protection shall review and make recommendations to the chief on the refinement and maintenance of the Washington state fire services mobilization plan, which shall include the procedures to be used during fire and other emergencies for coordinating local, regional, and state fire jurisdiction resources. In carrying out this duty, the director of fire protection shall consult with and solicit recommendations from representatives of state and local fire and emergency management organizations, regional fire defense boards, and the department of natural resources. The Washington state fire services mobilization plan shall be consistent with, and made part of, the Washington state comprehensive emergency management plan. The chief shall review the fire services mobilization plan as submitted by the director of fire protection, recommend changes that may be necessary, and approve the fire services mobilization plan for inclusion within the state comprehensive emergency management plan.

It is the responsibility of the chief to mobilize jurisdictions under the Washington state fire services mobilization plan. The state fire marshal shall serve as the state fire resources coordinator when the Washington state fire services mobilization plan is mobilized. (2)(a) There is created a regional fire defense board within each region created in subsection (1) of this section.

(b) The regional fire defense boards shall consist of two members from each county in the region. One member from each county shall be appointed by the county fire chiefs' association or, in the event there is no such county association, by the county's legislative authority. Each county's office of emergency management or, in the event there is no such office, the county's legislative authority shall select the second representative to the regional board. The department of natural resources fire control chief shall appoint a representative from each department of natural resources region to serve as a member of the appropriate regional fire defense board.

(c) Members of each regional board will select a chairperson and secretary as officers. Members serving on the regional boards do so in a voluntary capacity and are not eligible for reimbursement for meeting-related expenses from the state.

(3)(a) Regional defense boards shall develop regional fire service plans that include provisions for organized fire agencies to respond across municipal, county, or regional boundaries.

(b) Each regional plan shall be consistent with the incident command system, the Washington state fire services mobilization plan, the requirements of this section, and regional response plans already adopted and in use in the state. The regional boards shall work with the relevant local government entities to facilitate development of intergovernmental agreements if any such agreements are required to implement a regional fire service plan.

(c) Each regional fire service plan must include a mechanism by which a local fire mobilization radio frequency, consistent with RCW 76.04.015, is identified and made available during the initial response to any forest fire that crosses jurisdictional lines so that all responders have access to communications during the response. Different initial response frequencies may be identified and used as appropriate in different geographic response areas. If the fire radio communication needs escalate beyond the capability of the identified local radio frequency, the use of other available designated interoperability radio frequencies may be used.

(d) Each regional fire service plan shall be approved by the director of fire protection. [2010 1st sp.s. c 7 § 48; 2010 c 38 § 2; 1997 c 49 § 11; 1992 c 117 § 12. Formerly RCW 38.54.040.]

43.43.964 State fire service mobilization—Development of reimbursement procedures. The Washington state patrol in consultation with the office of financial management and the Washington military department shall develop procedures to facilitate reimbursement to state agencies and jurisdictions from appropriate federal and state funds when state agencies and jurisdictions are mobilized by the chief under the Washington state fire services mobilization plan. The Washington state patrol shall ensure that these procedures provide reimbursement to the host district in as timely a manner as possible. [2003 c 405 § 4; 1997 c 49 § 12; 1995 c 391 § 7; 1992 c 117 § 13. Formerly RCW 38.54.050.]

43.43.965 State fire service mobilization—Plan use for purposes other than fire suppression—Annual report. The chief of the Washington state patrol must report on an annual basis the following information for each emergency or disaster in which the Washington state fire service mobilization plan was used for purposes other than fire suppression, and reimbursement was made under RCW 43.43.961:

- (1) The type and nature of the disaster or emergency;
- (2) The reasons why the host jurisdiction and mutual aid resources were exhausted;
- (3) The additional risk resources provided under the mobilization plan;
- (4) The cost incurred by the state patrol;
- (5) The amount of reimbursement made under RCW 43.43.961 to the host jurisdiction and to each nonhost jurisdiction providing all risk resources; and
- (6) An assessment and any recommendations of actions that can be taken by the host jurisdiction and its mutual aid network to prevent future use of the fire mobilization plan for similar disasters or emergencies. [2015 c 181 § 4.]

Intent—2015 c 181: "The legislature recognizes the vital role that our state's fire service personnel play in responding not just to fires but to disasters of varying types and kinds. The legislature further recognizes that the fire service mobilization plan may be a more effective tool for use in all emergencies and disasters to which fire departments, fire districts, and regional fire protection service authorities typically respond. It is the intent of the legislature that state fire service mobilization be allowed in all incidents to which fire departments, fire districts, and regional fire protection service authorities typically respond, so long as the mobilization meets the requirements identified in the Washington state fire service mobilization plan. It is the intent of the legislature to review the use of the fire mobilization plan for emergencies and disasters other than fire suppression to determine if this policy should continue or be modified." [2015 c 181 § 1.]

Legislative declaration and intent—2003 c 405: "(1) Because of the possibility of a disaster of unprecedented size and destruction, including acts of domestic terrorism and civil unrest, that requires law enforcement response for the protection of persons or property and preservation of the peace, the need exists to ensure that the state is adequately prepared to respond to such an incident. There is a need to (a) establish a mechanism and a procedure to provide for reimbursement to law enforcement agencies that respond to help others in time of need, and to host law enforcement agencies that experience expenses beyond the resources of the agencies; and (b) generally to protect the public safety, peace, health, lives, and property of the people of Washington.

(2) It is hereby declared necessary to:

(a) Provide the policy and organizational structure for large-scale mobilization of law enforcement resources in the state, using the incident command system, through creation of the Washington state law enforcement mobilization plan;

(b) Confer upon the chief of the Washington state patrol the powers provided in this chapter;

(c) Provide a means for reimbursement to law enforcement jurisdictions that incur expenses when mobilized by the chief under the Washington state law enforcement mobilization plan; and

(d) Provide for reimbursement of the host law enforcement agency when it has:

(i) Exhausted all of its resources; and

(ii) Invoked its local mutual aid network and exhausted those resources." [2003 c 405 § 5.]

(3) The chief shall review the Washington state law enforcement mobilization plan, as submitted by the board, recommend changes as necessary, and may approve the plan. The plan shall be consistent with the Washington state com-

prehensive emergency management plan. The chief may recommend the plan for inclusion within the state comprehensive emergency management plan established under chapter 38.52 RCW. [2003 c 405 § 7.]

43.43.972 Law enforcement mobilization—Local law enforcement request for mobilization—State law enforcement resource coordinator—Mobilization response—Declaration of end of mobilization. (1) Local law enforcement may request mobilization only in response to an emergency or disaster exceeding the capabilities of available local resources and those available through existing mutual aid agreements. Upon finding that the local jurisdiction has exhausted all available resources, it is the responsibility of the chief to determine whether mobilization is the appropriate response to the emergency or disaster and, if so, to mobilize jurisdictions under the Washington state law enforcement mobilization plan.

(2) Upon mobilization, the chief shall appoint a state law enforcement resource coordinator, and an alternate, who shall serve jointly with the chief law enforcement officer from the host agency to command the mobilization effort consistent with incident command system procedures.

(3) Upon mobilization, all law enforcement resources including those of the host agency and those that responded earlier under an existing mutual aid or other agreement shall be mobilized. (4) For the duration of the mobilization:

(a) Host agency resources shall become state law enforcement mobilization resources, under the command of the state law enforcement resource coordinator and the chief law enforcement officer from the host agency, consistent with the state law enforcement mobilization plan and incident command system procedures; and

(b) All law enforcement authorities providing resources in response to a mobilization declaration shall be eligible for expense reimbursement as provided by this chapter.

(5) The chief, in consultation with the regional law enforcement resource coordinator, shall determine when mobilization is no longer required and shall then declare the end to the mobilization. [2003 c 405 § 8.]

43.43.973 State law enforcement mobilization—State law enforcement coordinator—Duties. (1) The state law enforcement resource coordinator, or alternate, shall serve in that capacity for the duration of the mobilization.

(2) The duties of the coordinator are to:

(a) Coordinate the mobilization of law enforcement and other support resources within a region;

(b) Be primarily responsible for the coordination of resources in conjunction with the regional law enforcement mobilization committees, in the case of incidents involving more than one region or when resources from more than one region must be mobilized; and

43.43.974 State law enforcement mobilization—Regions established—Regional law enforcement mobilization committees—Regional law enforcement mobilization plans. The committees shall consist of the sheriff of each county in the region, the district commander of the Washington state patrol from the region, a number of police chiefs within the region equivalent to the number of counties within the region plus one, and the director of the counties' emergency management office. The police chief members of each regional committee must include the chiefs of police of each city of ninety-five thousand or more population, and the number of members of the committee shall be increased if necessary to accommodate such chiefs. Members of each regional mobilization committee shall select a chair, who shall have authority to implement the regional plan, and a secretary as officers. Members serving on the regional mobilization committees shall not be eligible for reimbursement for meeting-related expenses from the state.

(3) The regional mobilization committees shall work with the relevant local government entities to facilitate development of intergovernmental agreements if any such agreements are required to implement a regional law enforcement mobilization plan.

(4) Regional mobilization committees shall develop regional law enforcement mobilization plans that include provisions for organized law enforcement agencies to respond across municipal, county, or regional boundaries. 43.46.100 Creative districts—Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Commission" means the Washington state arts commission.

(2) "Coordinator" means the employee of the Washington state arts commission who is responsible for performing the specific tasks under RCW 43.46.115.

(3) "Creative district" means a land area designated by a local government in accordance with RCW 43.46.105 that contains either a hub of cultural facilities, creative industries, or arts-related businesses, or multiple vacant properties in close proximity that would be suitable for redevelopment as a creative district.

(4) "Local government" means a city, county, or town.

(5) "State-certified creative district" means a creative district whose application for certification has been approved by the commission. [2017 c 240 § 2.]

Findings—Intent—2017 c 240: "(1) The legislature finds that:

(a) A creative district is a designated, geographical, mixed-use area of a community in which a high concentration of cultural facilities, creative businesses, or arts-related businesses serve as a collective anchor of public attraction;

(b) In certain cases, multiple vacant properties in close proximity may exist within a community that would be suitable for redevelopment as a creative district;

(c) Creative districts are a highly adaptable economic development tool that is able to take a community's unique conditions, assets, needs, and opportunities into account and thereby address the needs of large, small, rural, and urban areas;

(d) Creative districts may be home to both nonprofit and for-profit creative industries and organizations;

(e) The arts and culture transcend boundaries of race, age, gender, language, and social status; and

(f) Creative districts promote and improve communities in particular and the state more generally in many ways. Specifically, such districts:

(i) Attract artists and creative entrepreneurs to a community and thereby infuse the community with energy and innovation and enhance the economic and civic capital of the community;

(ii) Create a hub of economic activity that helps an area become an appealing place to live, visit, and conduct business, complements adjacent businesses, creates new economic opportunities and jobs in both the cultural sector and other local industries, and attracts new businesses and assists in the recruitment of employees;

(iii) Establish marketable tourism assets that highlight the distinct identity of communities, attract in-state, out-of-state, and international visitors, and become especially attractive destinations for cultural, recreational, and business travelers;

(iv) Revitalize and beautify neighborhoods, cities, and larger regions, reverse urban decay, promote the preservation of historic buildings, and facilitate a healthy mixture of business and residential activity that contributes to reduced vacancy rates and enhanced property values;

(v) Provide a focal point for celebrating and strengthening a community's unique cultural identity, providing communities with opportunities to highlight existing cultural amenities as well as mechanisms to recruit and establish new artists, creative industries, and organizations;

(vi) Provide artists with a creative area in which they can live and work, with living spaces that enable them to work in artistic fields and find affordable housing close to their place of employment; and

(vii) Enhance property values. Successful creative districts combine improvements to public spaces such as parks, waterfronts, and pedestrian corridors, alongside property development. The redevelopment of abandoned properties and historic sites and recruiting businesses to occupy

vacant spaces can also contribute to reduced vacancy rates and enhanced property values.

(2) It is the intent of the legislature that the state provide leadership, technical support, and the infrastructure to local communities desirous of creating their own creative districts by, among other things, certifying districts, offering available incentives to encourage business development, exploring new incentives that are directly related to creative enterprises, facilitating local access to state assistance, enhancing the visibility of creative districts, providing technical assistance and planning help, ensuring broad and equitable program benefits, and fostering a supportive climate for the arts and culture, thereby contributing to the development of healthy communities across the state and improving the quality of life of the state's residents." [2017 c 240 § 1.]

43.46.105 Creative districts—Designation—Certification. (1) A local government may designate a creative district within its territorial boundaries subject to certification as a state-certified creative district by the commission. Two or more local governments may jointly apply for certification of a creative district that extends across a common boundary.

(2) In order to receive certification as a state-certified creative district, a creative district must:

- (a) Be a geographically contiguous area;
- (b) Be distinguished by physical, artistic, or cultural resources that play a vital role in the quality and life of a community, including its economic and cultural development;
- (c) Be the site of a concentration of artistic or cultural activity, a major arts or cultural institution or facility, arts and entertainment businesses, an area with arts and cultural activities, or artistic or cultural production;
- (d) Be engaged in the promotional, preservation, and educational aspects of the arts and culture of the community and contribute to the public through interpretive, educational, or recreational uses; and

(e) Satisfy any additional criteria required by the commission that in its discretion will further the purposes of RCW 43.46.100 through 43.46.115. Any additional eligibility criteria must be posted by the commission on its public web site.

(3) The commission may grant certification to a creative district that does not qualify for certification under subsection (2) of this section if the land area proposed for certification contains multiple vacant properties in close proximity that would be suitable, as determined by the commission, for redevelopment as a creative district. [2017 c 240 § 3.]

Findings—Intent—2017 c 240: See note following RCW 43.46.100.

43.46.110 Creative districts—Applications for certification—Review—Approval, rejection, revocation—Additional powers of commission. (1) Subject to the availability of amounts appropriated for this specific purpose, the commission may create a process for review of applications submitted by local governments or federally recognized Indian tribes for certification of state-certified creative districts. The application must be submitted on a standard form developed and approved by the commission.

(2) After reviewing an application for certification, the commission must approve or reject the application or return it to the applicant with a request for changes or additional information. The commission may request that an applicant provide relevant information supporting an application. Rejected applicants may reapply at any time in coordination with program guidelines.

(3) Certification must be based upon the criteria specified in RCW 43.46.105.

(4) If the commission approves an application for certification, it must notify the applicant in writing and must specify the terms and conditions of the commission's approval, including the terms and conditions set forth in the application and as modified by written agreement between the applicant and the commission.

(5) Upon approval by the commission of an application for certification, a creative district becomes a state-certified creative district with all of the attendant benefits under RCW 43.46.100 through 43.46.115.

(6) The commission may revoke a certification previously granted for failure by a local government to comply with the requirements of this section or an agreement executed pursuant to this section.

(7) In addition to any powers explicitly granted to the commission under RCW 43.46.100 through 43.46.115, the commission is granted such additional powers as are necessary to carry out the purposes of RCW 43.46.100 through 43.46.115. Where authorized by law, such powers may include offering incentives to state-certified creative districts to encourage business development, exploring new incentives that are directly related to creative enterprises, facilitating local access to state economic development assistance, enhancing the visibility of state-certified creative districts, providing state-certified creative districts with technical assistance and planning aid, ensuring broad and equitable program benefits, and fostering a supportive climate for the arts and culture within the state.

(8) The creation of a district under this section may not be used to prohibit any particular business or the development of residential real property within the boundaries of the district or to impose a burden on the operation or use of any particular business or parcel of residential real property located within the boundaries of the district. [2017 c 240 § 4.]

Findings—Intent—2017 c 240: See note following RCW 43.46.100.

(3) With the approval of the commission, develop standards and policies for the certification of state-certified creative districts. Any approved standards and policies must be posted on the commission's public web site;

(4) Require periodic written reports from any state-certified creative district for the purpose of reviewing the activities of the district, including the compliance of the district with the policies and standards developed under this section and with the conditions of an approved application for certification;

(5) Identify available public and private resources, including any applicable economic development incentives and other tools, that support and enhance the development and maintenance of creative districts and, with the assistance

of the commission, ensure that such programs and services are accessible to creative districts; and

(6) With the approval of the commission, develop such additional procedures as may be necessary to administer this section. Any approved procedures must be posted on the commission's public web site. [2017 c 240 § 5.]

Findings—Intent—2017 c 240: See note following RCW 43.46.100.

43.52.3411 Revenue bonds or warrants. For the purposes provided for in this chapter, an operating agency shall have power to issue revenue bonds or warrants payable from the revenues of the utility properties operated by it. Whenever the board of a joint operating agency shall deem it advisable to issue bonds or warrants to engage in conservation activities or to construct or acquire any public utility or any works, plants or facilities or any additions or betterments thereto or extensions thereof it shall provide therefor by resolution, which shall specify and adopt the system or plan proposed and declare the estimated cost thereof as near as may be. Such cost may include funds for working capital, for payment of expenses incurred in the conservation activities or the acquisition or construction of the utility and for the repayment of advances made to the operating agency by any public utility district or city. Except as otherwise provided in RCW 43.52.343, all the provisions of law as now or hereafter in effect relating to revenue bonds or warrants of public utility districts shall apply to revenue bonds or warrants issued by the joint operating agency including, without limitation, provisions relating to: The creation of special funds and the pledging of revenues thereto; the time and place of payment of such bonds or warrants and the interest rate or rates thereon; the covenants that may be contained therein and the effect thereof; the execution, issuance, sale, funding, or refunding, redemption and registration of such bonds or warrants; and the status thereof as negotiable instruments, as legal securities for deposits of public moneys and as legal investments for trustees and other fiduciaries and for savings and loan associations, banks and insurance companies doing business in this state. However, for revenue bonds or warrants issued by an operating agency, the provisions under RCW 54.24.030 relating to additional or alternate methods for payment may be made a part of the contract with the owners of any revenue bonds or warrants of an operating agency. The board may authorize the managing director or the treasurer of the operating agency to sell revenue bonds or warrants maturing one year or less from the date of issuance, and to fix the interest rate or rates on such revenue bonds or warrants with such restrictions as the board shall prescribe. Such bonds and warrants may be in any form, including bearer bonds or bearer warrants, or registered bonds or registered warrants as provided in RCW 39.46.030. Such bonds and warrants may also be issued and sold in accordance with chapter 39.46 RCW. [1987 c 376 § 10; 1983 c 167 § 116; 1981 1st ex.s. c 1 § 2; 1965 c 8 § 43.52.3411. Prior: 1957 c 295 § 6.]

43.52.350 Operating agencies to provide fishways, facilities and hatcheries—Contracts. An operating agency shall, at the time of the construction of any dam or obstruction, construct and shall thereafter maintain and operate such fishways, fish protective facilities and hatcheries as the director of fish and wildlife finds necessary to permit anadromous fish to pass any dam or other obstruction operated by the operating agency or to replace fisheries damaged or destroyed by such dam or obstruction and an operating agency is further authorized to enter into contracts with the department of fish and wildlife to provide for the construction and/or operation of such fishways, facilities and hatcheries. 43.52.360 Operating agency—Formation—Additional projects—Appeals—Membership, withdrawal—Dissolution. Any two or more cities or public utility districts or combinations thereof may form an operating agency (herein sometimes called a joint operating agency) for the purpose of acquiring, constructing, operating and owning plants, systems and other facilities and extensions thereof, for the generation and/or transmission of electric energy and power. Each such agency shall be a municipal corporation of the state of Washington with the right to sue and be sued in its own name.

Application for the formation of an operating agency shall be made to the director of the department of ecology (herein sometimes referred to as the director) after the adoption of a resolution by the legislative body of each city or public utility district to be initial members thereof authorizing said city or district to participate. Such application shall set forth (1) the name and address of each participant, together with a certified copy of the resolution authorizing its participation; (2) a general description of the project and the principal project works, including dams, reservoirs, power houses and transmission lines; (3) the general location of the project and, if a hydroelectric project, the name of the stream on which such proposed project is to be located; (4) if the project is for the generation of electricity, the proposed use or market for the power to be developed; (5) a general statement of the electric loads and resources of each of the participants; (6) a statement of the proposed method of financing the preliminary engineering and other studies and the participation therein by each of the participants.

Within ten days after such application is filed with the director of the department of ecology notice thereof shall be published by the director once a week for four consecutive

weeks in a newspaper of general circulation in the county or counties in which such project is to be located, setting forth the names of the participants and the general nature, extent and location of the project. Any public utility wishing to do so may object to such application by filing an objection, setting forth the reasons therefor, with the director of the department of ecology not later than ten days after the date of last publication of such notice.

Within ninety days after the date of last publication the director shall either make findings thereon or have instituted a hearing thereon. In the event the director has neither made findings nor instituted a hearing within ninety days of the date of last publication, or if such hearing is instituted within such time but no findings are made within one hundred and twenty days of the date of such last publication, the application shall be deemed to have been approved and the operating agency established. If it shall appear (a) that the statements set forth in said application are substantially correct; (b) that the contemplated project is such as is adaptable to the needs, both actual and prospective, of the participants and such other public utilities as indicate a good faith intention by contract or by letter of intent to participate in the use of such project; (c) that no objection to the formation of such operating agency has been filed by any other public utility which prior to and at the time of the filing of the application for such operating agency had on file a permit or license from an agency of the state or an agency of the United States, whichever has primary jurisdiction, for the construction of such project; (d) that adequate provision will be made for financing the preliminary engineering, legal and other costs necessary thereto; the director shall make findings to that effect and enter an order creating such operating agency, establishing the name thereof and the specific project for the construction and operation for which such operating agency is formed. Such order shall not be construed to constitute a bar to any other public utility proceeding according to law to procure any required governmental permits, licenses or authority, but such order shall establish the competency of the operating agency to proceed according to law to procure such permits, licenses or authority.

No operating agency shall undertake projects or conservation activities in addition to those for which it was formed without the approval of the legislative bodies of a majority of the members thereof. Prior to undertaking any new project for acquisition of an energy resource, a joint operating agency shall prepare a plan which details a least-cost approach for investment in energy resources. The plan shall include an analysis of the costs of developing conservation compared with costs of developing other energy resources and a strategy for implementation of the plan. The plan shall be presented to the energy and utilities committees of the senate and house of representatives for their review and comment. In the event that an operating agency desires to undertake such a hydroelectric project at a site or sites upon which any publicly or privately owned public utility has a license or permit or has a prior application for a license or permit pending with any commission or agency, state or federal, having jurisdiction thereof, application to construct such additional project shall be made to the director of the department of ecology in the same manner, subject to the same requirements and with the same notice as required for an initial

agency and project and shall not be constructed until an order authorizing the same shall have been made by the director in the manner provided for such original application.

Any party who has joined in filing the application for, or objections against, the creation of such operating agency and/or the construction of an additional project, and who feels aggrieved by any order or finding of the director shall have the right to appeal to the superior court in the manner set forth in RCW 43.52.430.

After the formation of an operating agency, any other city or district may become a member thereof upon application to such agency after the adoption of a resolution of its legislative body authorizing said city or district to participate, and with the consent of the operating agency by the affirmative vote of the majority of its members. Any member may withdraw from an operating agency, and thereupon such member shall forfeit any and all rights or interest which it may have in such operating agency or in any of the assets thereof: PROVIDED, That all contractual obligations incurred while a member shall remain in full force and effect. An operating agency may be dissolved by the unanimous agreement of the members, and the members, after making provisions for the payment of all debts and obligations, shall thereupon hold the assets thereof as tenants in common. [1998 c 245 § 68; 1987 c 376 § 11; 1977 ex.s. c 184 § 6; 1965 c 8 § 43.52.360. Prior: 1957 c 295 § 1; 1955 c 258 § 3; 1953 c 281 § 12.]

Each representative shall have one vote and shall have, in addition thereto, one vote for each block of electric energy equal to ten percent of the total energy generated by the agency during the preceding year purchased by the member represented by such representative. Each member may appoint an alternative representative to serve in the absence or disability of its representative. Each representative shall serve at the pleasure of the member. The board of an operating agency shall elect from its members a president, vice president and secretary, who shall serve at the pleasure of the board. The board of an operating agency shall adopt rules for the conduct of its meetings and the carrying out of its business, and adopt an official seal. All proceedings of an operating agency shall be by motion or resolution and shall be recorded in the minute book which shall be a public record. A majority of the board members shall constitute a quorum for

the transaction of business. A majority of the votes which the members present are entitled to cast shall be necessary and sufficient to pass any motion or resolution: PROVIDED, That such board members are entitled to cast a majority of the votes of all members of the board. The members of the board of an operating agency may be compensated by such agency as is provided in RCW 43.52.290: PROVIDED, That the compensation to any member shall not exceed five thousand dollars in any year except for board members who are elected to serve on an executive board established under RCW 43.52.374.

(2) If an operating agency is constructing, operating, terminating, or decommissioning a nuclear power plant under a site certification agreement under chapter 80.50 RCW, the powers and duties of the board of directors shall include and are limited to the following:

(a) Final authority on any decision of the operating agency to purchase, acquire, construct, terminate, or decommission any power plants, works, and facilities except that once the board of directors has made a final decision regarding a nuclear power plant, the executive board established under RCW 43.52.374 shall have the authority to make all subsequent decisions regarding the plant and any of its components;

(b) Election of members to, removal from, and establishment of salaries for the elected members of the executive board under RCW 43.52.374(1)(a); and

All other powers and duties of the operating agency, including without limitation authority for all actions subsequent to final decisions by the board of directors, including but not limited to the authority to sell any power plant, works, and facilities are vested in the executive board established under RCW 43.52.374. 43.52.374 Operating agency executive board—Members—Terms—Removal—Rules—Proceedings—Managing director—Civil immunities—Defense and indemnification. (1) With the exception of the powers and duties of the board of directors described in RCW 43.52.370(2), the management and control of an operating agency constructing, operating, terminating, or decommissioning a nuclear power plant under a site certification agreement under chapter 80.50 RCW is vested in an executive board established under this subsection and consisting of eleven members.

(a) Five members of the executive board shall be elected to four-year terms by the board of directors from among the members of the board of directors. The board of directors may provide by rule for the composition of the five members of the executive board elected from among the members of the board of directors so as to reflect the member public utility districts' and cities' participation in the joint operating agency's projects. Members elected to the executive board from the board of directors are ineligible for continued membership on the executive board if they cease to be members of the board of directors. The board of directors may also provide by rule for the removal of a member of the executive

board, except for the outside directors. Members of the board of directors may be elected to serve successive terms on the executive board. Members elected to the executive board from the board of directors shall receive a salary from the operating agency at a rate set by the board of directors.

(b) Six members of the executive board shall be outside directors. Three shall be selected and appointed by the board of directors, and three shall be selected and appointed by the governor and confirmed by the senate. All outside directors shall:

(i) Serve four-year terms on the executive board. However, of the initial members of the executive board, the board of directors and the governor shall each appoint one outside director to serve a two-year term, one outside director to serve a three-year term, and one outside director to serve a four-year term. Thereafter, all outside directors shall be appointed for four-year terms. All outside directors are eligible for reappointment;

(iv) Not be involved in the financial affairs of the operating agency as an underwriter or financial adviser of the operating agency or any of its members or any of the participants in any of the operating agency's plants; and

(v) Be representative of policymakers in business, finance, or science, or have expertise in the construction or management of such facilities as the operating agency is constructing or operating, or have expertise in the termination, disposition, or liquidation of corporate assets.

(c) The governor may remove outside directors from the executive board for incompetency, misconduct, or malfeasance in office in the same manner as state appointive officers under chapter 43.06 RCW. For purposes of this subsection, misconduct shall include, but not be limited to, nonfeasance and misfeasance.

(2) Nothing in this chapter shall be construed to mean that an operating agency is in any manner an agency of the state. Nothing in this chapter alters or destroys the status of an operating agency as a separate municipal corporation or makes the state liable in any way or to any extent for any pre-existing or future debt of the operating agency or any present or future claim against the agency.

(3) The eleven members of the executive board shall be selected with the objective of establishing an executive board which has the resources to effectively carry out its responsibilities. All members of the executive board shall conduct their business in a manner which in their judgment is in the interest of all ratepayers affected by the joint operating agency and its projects.

(4) The executive board shall elect from its members a chair, vice chair, and secretary, who shall serve at the pleasure of the executive board. The executive board shall adopt rules for the conduct of its meetings and the carrying out of its business. All proceedings shall be by motion or resolution and shall be recorded in the minute book, which shall be a

public record. A majority of the executive board shall constitute a quorum for the transaction of business.

(a) The board of directors shall elect five members to the executive board no later than sixty days after April 20, 1982; and

(b) The board of directors and the governor shall select and appoint the initial outside directors and the executive board shall hold its organizational meeting no later than sixty days after April 20, 1982, and the powers and duties prescribed in this chapter shall devolve upon the executive board at that time.

(6) The executive board shall select and employ a managing director of the operating agency and may delegate to the managing director such authority for the management and control of the operating agency as the executive board deems appropriate. The managing director's employment is terminable at the will of the executive board.

(7) Members of the executive board shall be immune from civil liability for mistakes and errors of judgment in the good faith performance of acts within the scope of their official duties involving the exercise of judgment and discretion. This grant of immunity shall not be construed as modifying the liability of the operating agency.

The operating agency shall undertake the defense of and indemnify each executive board member made a party to any civil proceeding including any threatened, pending, or completed action, suit, or proceeding, whether civil, administrative, or investigative, by reason of the fact he or she is or was a member of the executive board, against judgments, penalties, fines, settlements, and reasonable expenses, actually incurred by him or her in connection with such proceeding if he or she had conducted himself or herself in good faith and reasonably believed his or her conduct to be in the best interest of the operating agency.

In addition members of the executive board who are utility employees shall not be fired, forced to resign, or demoted from their utility jobs for decisions they make while carrying out their duties as members of the executive board involving the exercise of judgment and discretion. The treasurer shall advise the board on all matters affecting the financial condition of the operating agency. Before entering upon his or her duties the treasurer shall give bond to the operating agency, with a surety company authorized to write such bonds in this state as surety, in an amount which the board finds by resolution will protect the operating agency against loss, conditioned that all funds which he or she receives as such treasurer will be faithfully kept and

accounted for and for the faithful discharge of his or her duties. The amount of such bond may be decreased or increased from time to time as the board may by resolution direct.

(2) The board shall also appoint an auditor and may require him or her to give a bond with a surety company authorized to do business in the state of Washington in such amount as it shall by resolution prescribe, conditioned for the faithful discharge of his or her duties. The auditor shall report directly to the board and be responsible to it for discharging his or her duties.

(3) The premiums on the bonds of the auditor and the treasurer shall be paid by the operating agency. The board may provide for coverage of said officers and other persons on the same bond.

However, if the applicable fund is not solvent at the time payment is ordered, then no check may be issued and payment shall be by warrant. When checks are to be used, the board shall designate the qualified public depository upon which the checks are to be drawn as well as the officers required or authorized to sign the checks. For the purposes of this chapter, "warrant" includes checks where authorized by this subsection. [2009 c 173 § 1; 1982 1st ex.s. c 43 § 7; 1981 1st ex.s. c 3 § 3; 1965 c 8 § 43.52.375. Should any person be detained, the security force shall immediately notify the law enforcement agency, having jurisdiction over the nuclear power plant site, of the detention. The security force is authorized to detain the person for a reasonable time until custody can be transferred to a law enforcement officer. Members of a security force may use that force necessary in the protection of persons and properties located within the confines of the nuclear power plant site exclusion area.

[2015 c 73 § 1; 2004 c 189 § 1; 1998 c 245 § 69; 1987 c 376 § 1.]

43.52.565 Contracts for materials or work through competitive negotiation—Nuclear generating projects and associated facilities. (1) An operating agency may enter into contracts through competitive negotiation under subsection (2) of this section for materials, equipment, supplies, or work to be performed during commercial operation of a nuclear generating project and associated facilities (a) to replace a defaulted contract or a contract terminated in whole or in part, or (b) where consideration of factors in addition to price, such as technical knowledge, experience, management, staff, or schedule, is necessary to achieve economical operation of the project, provided that the managing director or a designee determines in writing and the executive board finds that execution of a contract under this section will accomplish project completion or operation more economically than sealed bids.

(2) The selection of a contractor shall be made in accordance with the following procedures:

(a) Proposals shall be solicited through a request for proposals, which shall state the requirements to be met. Responses shall describe the professional competence of the offeror, the technical merits of the offer, and the price.

(b) The request for proposals shall be given adequate public notice in the same manner as for sealed bids.

(c) As provided in the request for proposals, the operating agency shall specify at a preproposal conference the contract requirements in the request for proposal, which may include but are not limited to: Schedule, managerial, and staffing requirements, productivity and production levels, technical expertise, approved project quality assurance procedures, and time and place for submission of proposals. Any inquiries and responses thereto shall be confirmed in writing and shall be sent to all potential offerors.

(d) Proposals shall be opened so as to avoid disclosure of contents to competing offerors during the process of negotiation. A register of proposals shall be open for public inspection after contract award.

(e) As provided in the request for proposals, invitations shall be sent to all responsible offerors who submit proposals to attend discussions for the purpose of clarification to assure full understanding of, and responsiveness to, the solicitation requirements. Any inquiries and responses thereto shall be confirmed in writing and shall be sent to all offerors. Offerors shall be accorded fair and equal treatment with respect to any opportunity for discussion and revision of proposals, and such revisions may be permitted after submissions and prior to award for the purpose of obtaining best and final offers. In conducting discussions, there shall be no disclosure of any information derived from proposals submitted by competing offerors.

(f) The operating agency shall execute a contract with the responsible offeror whose proposal is determined in writing to be the most advantageous to the operating agency and the state taking into consideration the requirements set forth in the request for proposals. The contract file shall contain the basis on which the successful offeror is selected. The operating agency shall conduct a briefing conference on the selection if requested by an offeror.

(g) The contract may be fixed price or cost-reimbursable, in whole or in part, but not cost-plus-percentage-of-cost.

(h) The operating agency shall retain authority and responsibility for inspection, testing, and compliance with applicable regulations or standards of any state or federal governmental agency. [1998 c 245 § 70; 1994 c 27 § 1; 1987 c 376 § 2.]

43.52.567 Contracts for materials or work through competitive negotiation—Renewable electrical energy generation projects.

(1) A joint operating agency with an executive board formed under RCW 43.52.374 may enter into contracts through competitive negotiation under subsection (3) of this section for materials, equipment, supplies, or work to be performed in support of siting, constructing, developing, or deploying a renewable electrical energy generation project, if the managing director or a designee determines in writing and the executive board finds that execution of a contract under this section will accomplish project completion or operation more economically than sealed bids.

(2) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Professional competence" means the totality of demonstrated experience, knowledge, skills, proficiency, and abilities required to successfully perform the contract.

(b) "Qualified hydropower" means the energy produced either: (i) As a result of modernizations or upgrades made after June 1, 1998, to hydropower facilities operating on May 8, 2001, that have been demonstrated to reduce the mortality of anadromous fish; or (ii) by run of the river or run of the canal hydropower facilities that are not responsible for obstructing the passage of anadromous fish.

(c) "Renewable electrical energy generation project" means electrical generation facilities that are fueled by: (i) Wind; (ii) solar energy; (iii) geothermal energy; (iv) landfill gas; (v) wave or tidal action; (vi) gas produced during the

treatment of wastewater; (vii) qualified hydropower; or (viii) biomass energy based on animal waste or solid organic fuels from wood, forest, or field residues, or dedicated energy crops that do not include wood pieces that have been treated with chemical preservatives such as creosote, pentachlorophenol, or copper-chrome-arsenic.

(d) "Responsible offerors" means offerors who possess necessary management and financial resources, experience, organization, and the ability, capacity, and skill to successfully perform the contract.

(3) The selection of a contractor shall be made in an open public meeting, as part of a public record, and in accordance with the following procedures:

(a) Proposals shall be solicited through a request for proposals, which shall state the requirements to be met. Responses shall describe the professional competence of the offeror, the technical merits of the offer, and the price.

(b) The request for proposals shall be given adequate public notice in the same manner as for sealed bids.

(c) As provided in the request for proposals, the joint operating agency shall specify at a preproposal conference specific contract requirements, which may include but are not limited to: Schedule, managerial, and staffing requirements, productivity and production levels, technical expertise, approved project quality assurance procedures, and time and place for submission of proposals. Any inquiries and responses thereto shall be confirmed in writing and shall be sent to all potential offerors.

(d) Proposals shall be opened so as to avoid disclosure of contents to competing offerors during the process of negotiation. A register of proposals shall be open for public inspection after contract award.

(e) As provided in the request for proposals, invitations shall be sent to all responsible offerors who submit proposals to attend discussions for the purpose of clarification to assure full understanding of, and responsiveness to, the solicitation requirements. Any inquiries and responses thereto shall be confirmed in writing and shall be sent to all offerors. Offerors shall be accorded fair and equal treatment with respect to any opportunity for discussion and revision of proposals, and such revisions may be permitted after submissions and prior to award for the purpose of obtaining best and final offers. In conducting discussions, there shall be no disclosure of any information derived from proposals submitted by competing offerors.

(f) The joint operating agency shall execute a contract with the responsible offeror whose proposal is determined in writing to be the most advantageous to the joint operating agency and the state taking into consideration the requirements set forth in the request for proposals. The contract file shall contain the basis on which the successful offeror is selected. The joint operating agency shall conduct a briefing conference on the selection if requested by an offeror.

(g) The contract may be fixed price or cost-reimbursable, in whole or in part, but not cost-plus-percentage-of-cost.

(h) The joint operating agency shall retain authority and responsibility for inspection, testing, and compliance with applicable regulations or standards of any state or federal governmental agency. [2006 c 176 § 1.]

43.52.570 Purchase of materials by telephone or written quotation authorized—Procedure. For the awarding of a contract to purchase any item or items of materials, equipment, or supplies in an amount exceeding five thousand dollars but less than seventy-five thousand dollars, exclusive of sales tax, the managing director or a designee may, in lieu of sealed bids, secure telephone and/or written quotations from at least five vendors, where practical, and award contracts for purchase of materials, equipment, or supplies to the lowest responsible bidder. The agency shall establish a procurement roster, which shall consist of suppliers and manufacturers who may supply materials or equipment to the operating agency, and shall provide for solicitations which will equitably distribute opportunity for bids among suppliers and manufacturers on the roster. Immediately after the award is made, the bid quotations obtained shall be recorded and shall be posted or otherwise made available for public inspection and copying pursuant to chapter 42.56 RCW at the office of the operating agency or any other officially designated location. Waiver of the deposit or bid bond required for sealed bids may be authorized by the operating agency in securing the bid quotations. [2005 c 274 § 299; 1987 c 376 § 3.]

43.52.575 Purchase of materials without competition authorized. When the managing director or a designee determines in writing that it is impracticable to secure competition for required materials, equipment, or supplies, he or she may purchase the materials, equipment, or supplies without competition. The term "impracticable to secure competition" means:

(1) When material, equipment, or supplies can be obtained from only one person or firm (single source of supply); or

(2) When specially designed parts or components are being procured as replacement parts in support of equipment specially designed by the manufacturer. [1987 c 376 § 4.]

43.52.580 Emergency purchase of materials or work by contract. When the managing director or a designee determines in writing that an emergency endangers the public safety or threatens property damage or that serious financial injury would result if materials, supplies, equipment, or work are not obtained by a certain time, and they cannot be contracted for by that time by means of sealed bids, the managing director or a designee may purchase materials, equipment, or supplies or may order work by contract in any amount necessary, after having taken precautions to secure a responsive proposal at the lowest price practicable under the circumstances.

For the purposes of this section the term "serious financial injury" means that the costs attributable to the delay caused by contracting by sealed bids exceed the cost of materials, supplies, equipment, or work to be obtained. [1987 c 376 § 5.]

43.52.585 Procedures for implementing RCW 43.52.560 through 43.52.580. The executive board shall establish procedures for implementing RCW 43.52.560 through 43.52.580 by operating agency resolution after notice, public hearing, and opportunity for public comment.

(2021 Ed.)

The procedures shall be established within six months after July 26, 1987. [1987 c 376 § 6.]

43.52.590 Construction of RCW 43.52.560 through 43.52.585. Nothing in RCW 43.52.560 through 43.52.585 requires reapplication by a joint operating agency in existence on July 26, 1987. [1987 c 376 § 7.]

43.52.595 Contracts for electric power and energy. A city or district may contract to purchase from an operating agency electric power and energy required for its present or future requirements. For projects the output of which is limited to qualified alternative energy resources as defined by RCW 19.29A.090(3), the contract may include the purchase of capability of the projects to produce electricity in addition to the actual output of the projects. The contract may provide that the city or district must make the payments required by the contract whether or not a project is completed, operable, or operating and notwithstanding the suspension, interruption, interference, reduction, or curtailment of the output of a project or the power and energy contracted for. The contract may also provide that payments under the contract are not subject to reduction, whether by offset or otherwise, and shall not be conditioned upon the performance or nonperformance of the operating agency or a city or district under the contract or other instrument. [2003 c 138 § 1.]

43.52.612 Contract bid form. A joint operating agency shall require that bids upon any construction or improvement of any nuclear generating project and associated facilities shall be made upon the contract bid form supplied by the operating agency, and in no other manner. The operating agency may, before furnishing any person, firm, or corporation desiring to bid upon any work with a contract bid form, require from the person, firm, or corporation, answers to questions contained in a standard form of questionnaire and financial statement, including a complete statement of the financial ability and experience of the person, firm, or corporation in performing work. The questionnaire shall be sworn to before a notary public or other person authorized to take acknowledgment of deeds and shall be submitted once a year or at such other times as the operating agency may require. Whenever the operating agency is not satisfied with the sufficiency of the answers contained in the questionnaire and financial statement or whenever the operating agency determines that the person, firm, or corporation does not meet all of the requirements set forth in this section, it may refuse to furnish the person, firm, or corporation with a contract bid form and any bid of the person, firm, or corporation must be disregarded. The operating agency shall require that a person, firm, or corporation have all of the following requirements in order to obtain a contract form:

(1) Adequate financial resources, the ability to secure these resources, or the capability to secure a one hundred percent payment and performance bond;

(2) The necessary experience, organization, and technical qualifications to perform the proposed contract;

(3) The ability to comply with the required performance schedule taking into consideration all of its existing business commitments;

(4) A satisfactory record of performance, integrity, judgment, and skills; and

(5) Be otherwise qualified and eligible to receive an award under applicable laws and regulations.

The refusal shall be conclusive unless appealed to the superior court of the county where the operating agency is situated or Thurston county within fifteen days, which appeal shall be heard summarily within ten days after the appeal is made and on five days' notice thereof to the operating agency.

The prevailing party in such litigation shall be awarded its attorney fees and costs.

The operating agency shall not be required to make available for public inspection or copying under chapter 42.56 RCW financial information provided under this section. [2005 c 274 § 300; 1982 1st ex.s. c 44 § 5.]

43.58.060 Oregon-Washington Columbia River boundary compact—Terms and provisions. The terms and provisions of the compact referred to in RCW 43.58.050 are as follows:

INTERSTATE COMPACT DETERMINING OREGON-WASHINGTON BOUNDARY ON THE COLUMBIA RIVER

ARTICLE I. PURPOSE

The boundary between the states of Oregon and Washington along the course of the Columbia River has not been easy to ascertain because of changes in the main channel of the river with a result that a state of confusion and dispute exists and the enforcement and administration of the laws of the two states has been rendered difficult.

The purpose of this compact is to fix with precision by reference to stations of longitude and latitude the boundary between the states of Oregon and Washington from one marine league due west of the mouth of the Columbia River to the most easterly point at which the 46th parallel of North

latitude crosses said river, at which point the river ceases to form the boundary between the two states.

ARTICLE II. DESCRIPTION

The boundary between the states of Oregon and Washington from one marine league due west of the mouth of the Columbia River to the point at which the last described point number (# 191) of the boundary as herein determined meets the 46th parallel of North latitude at 118° 59'10".12 of West longitude shall be as follows:

Beginning one marine league at sea off the mouth of the Columbia river at north latitude 46° 15'00".00; running thence due east to point number 1 of this description, which point is at north latitude 46° 15'00".00, west longitude 124° 05'00".00; thence from point number 1 continuing upstream in the channel of the Columbia river by a series of straight lines connecting the following numbered and described points in consecutive order.

43.59.010 Purpose—Finding. (1) The purpose of this chapter is to establish a new agency of state government to be known as the Washington traffic safety commission. The functions and purpose of this commission shall be to find solutions to the problems that have been created as a result of the tremendous increase of motor vehicles on our highways and the attendant traffic death and accident tolls; to plan and supervise programs for the prevention of accidents on streets and highways including but not limited to educational campaigns designed to reduce traffic accidents in cooperation with all official and unofficial organizations interested in traffic safety; to coordinate the activities at the state and local level in the development of statewide and local traffic safety programs; to promote a uniform enforcement of traffic safety laws and establish standards for investigation and reporting of traffic accidents; to promote and improve driver education; and to authorize the governor to perform all functions required to be performed by him or her under the federal Highway Safety Act of 1966 (Public Law 89-564; 80 Stat. 731).

(2) The legislature finds and declares that bicycling and walking are becoming increasingly popular in Washington as clean and efficient modes of transportation, as recreational activities, and as organized sports. Future plans for the state's transportation system will require increased access and safety for bicycles and pedestrians on our common roadways, and federal transportation legislation and funding programs have created strong incentives to implement these changes quickly. As a result, many more people are likely to take up bicycling in Washington both as a leisure activity and as a convenient, inexpensive form of transportation. Bicyclists are more vulnerable to injury and accident than motorists, and should be as knowledgeable as possible about traffic laws, be highly visible and predictable when riding in traffic, and be encouraged to wear bicycle safety helmets. Hundreds of bicyclists and pedestrians are seriously injured every year in accidents, and millions of dollars are spent on health care costs associated with these accidents. There is clear evidence that organized training in the rules and techniques of safe and

effective cycling can significantly reduce the incidence of serious injury and accidents, increase cooperation among road users, and significantly increase the incidence of bicycle helmet use, particularly among minors. A reduction in accidents benefits the entire community. Therefore it is appropriate for businesses and community organizations to provide donations to bicycle and pedestrian safety training programs. [2009 c 549 § 5141; 1998 c 165 § 2; 1967 ex.s. c 147 § 1.]

The governor is authorized and empowered to accept and disburse federal grants or other funds or donations from any source for the purpose of improving traffic safety programs in the state of Washington, and is hereby empowered to contract and to do all other things necessary in behalf of this state to secure the full benefits available to this state under the federal Highway Safety Act of 1966 (Public Law 89-564; 80 Stat. 731) and in so doing, to cooperate with federal and state agencies, agencies private and public, interested organizations, and with individuals, to effectuate the purposes of that enactment, and any and all subsequent amendments thereto. 43.59.156 Cooper Jones active transportation safety council. (1) Within amounts appropriated to the traffic safety commission, the commission must convene the Cooper Jones active transportation safety council comprised of stakeholders who have a unique interest or expertise in the safety of pedestrians, bicyclists, and other nonmotorists.

(2) The purpose of the council is to review and analyze data and programs related to fatalities and serious injuries involving pedestrians, bicyclists, and other nonmotorists to identify points at which the transportation system can be improved including, whenever possible, privately owned areas of the system such as parking lots, and to identify patterns in pedestrian, bicyclist, and other nonmotorist fatalities and serious injuries. The council may also:

(a) Monitor progress on implementation of existing council recommendations; and

(b) Seek opportunities to expand consideration and implementation of the principles of systematic safety, including areas where data collection may need improvement.

(3)(a) The council may include, but is not limited to:

(i) A representative from the commission;

(ii) A coroner from the county in which pedestrian, bicyclist, or nonmotorist deaths have occurred;

(iii) Multiple members of law enforcement who have investigated pedestrian, bicyclist, or nonmotorist fatalities;

(ix) A representative from a bicyclist or other nonmotorist advocacy group.

(b) The commission may invite other representatives of stakeholder groups to participate in the council as deemed appropriate by the commission. Additionally, the commission may invite a victim or family member of a victim to participate in the council.

(4) The council must meet at least quarterly. By December 31st of each year, the council must issue an annual report detailing any findings and recommendations to the governor and the transportation committees of the legislature. The

commission must provide the annual report electronically to all municipal governments and state agencies that participated in the council during that calendar year. Additionally, the council must report any budgetary or fiscal recommendations to the office of financial management and the legislature by August 1st on a biennial basis.

(5) As part of the review of pedestrian, bicyclist, or nonmotorist fatalities and serious injuries that occur in Washington, the council may review any available information, including crash information maintained in existing databases; statutes, rules, policies, or ordinances governing pedestrians and traffic related to the incidents; and any other relevant information. The council may make recommendations regarding changes in statutes, ordinances, rules, and policies that could improve pedestrian, bicyclist, or nonmotorist safety. Additionally, the council may make recommendations on how to improve traffic fatality and serious injury data quality, including crashes that occur in privately owned property such as parking lots. The council may consult with local cities and counties, as well as local police departments and other law enforcement agencies and associations representing those jurisdictions on how to improve data quality regarding crashes occurring on private property.

(6)(a) Documents prepared by or for the council are inadmissible and may not be used in a civil or administrative proceeding, except that any document that exists before its use or consideration in a review by the council, or that is created independently of such review, does not become inadmissible merely because it is reviewed or used by the council. For confidential information, such as personally identifiable information and medical records, which are obtained by the council, neither the commission nor the council may publicly disclose such confidential information. No person who was in attendance at a meeting of the council or who participated in the creation, retention, collection, or maintenance of information or documents specifically for the commission or the council shall be permitted to testify in any civil action as to the content of such proceedings or of the documents and information prepared specifically as part of the activities of the council. However, recommendations from the council and the commission generally may be disclosed without personal identifiers.

(b) The council may review, only to the extent otherwise permitted by law or court rule when determined to be relevant and necessary: Any law enforcement incident documentation, such as incident reports, dispatch records, and victim, witness, and suspect statements; any supplemental reports, probable cause statements, and 911 call taker's reports; and any other information determined to be relevant to the review. The commission and the council must maintain the confidentiality of such information to the extent required by any applicable law.

(7) If acting in good faith, without malice, and within the parameters of and protocols established under this chapter, representatives of the commission and the council are immune from civil liability for an activity related to reviews of particular fatalities and serious injuries.

(8) This section must not be construed to provide a private civil cause of action.

(9)(a) The council may receive gifts, grants, or endowments from public or private sources that are made from time

to time, in trust or otherwise, for the use and benefit of the purposes of the council and spend the gifts, grants, or endowments from the public or private sources according to their terms, unless the receipt of the gifts, grants, or endowments violates RCW 42.17A.560.

43.60A.100 Counseling services—Veterans, including national guard and reservists. The department of veterans affairs, to the extent funds are made available, shall: (1) Contract with professional counseling specialists to provide a range of direct treatment services to state veterans, including national guard and reservists, with military-related mental health needs, and their family members; (2) provide additional treatment services to Washington state Vietnam veterans for posttraumatic stress disorder, particularly for those veterans whose posttraumatic stress disorder has intensified or initially emerged due to war or combat-related stress; (3) provide an educational program designed to train primary care professionals, such as mental health professionals, about the effects of war-related stress, trauma, and traumatic brain injury; (4) provide informational and counseling services for the purpose of establishing and fostering peer-support networks throughout the state for families of deployed members of the reserves and the Washington national guard; (5) provide for veterans' families, a referral network of community mental health providers who are skilled in treating deployment stress, combat stress, posttraumatic stress, traumatic brain injury; and (6) offer training and support for volunteers interested in providing peer-to-peer support to other veterans. [2018 c 45 § 1. Prior: 2017 c 192 § 2; 2017 c 185 § 2; 1991 c 55 § 1.]

Findings—2017 c 192: "The legislature finds that:

(1) Veterans are national heroes who have made great sacrifices in their lives for the protection of our nation;

(2) Due to the relatively high number of military installations in our state, as well as the standard of living in our state, many veterans choose to live in Washington;

(3) Many veterans have a need for support services, including peer-to-peer counseling services. Some veterans need to talk about their experiences with combat, deployment, or other situations experienced during their time in the military. Often, there is no person better prepared to speak with a veteran about his or her experiences than another veteran;

(4) In 2009, the state of Texas created an award winning peer-to-peer counseling network, called the military veteran peer network. On a voluntary basis, veterans elect to receive specialized training about the facilitation of group counseling sessions. After receiving their training, the volunteers create peer-to-peer support groups in their local communities;

(5) Veterans living in Washington would benefit from a program that is similar to the military veteran peer network." [2017 c 192 § 1.]

Findings—2017 c 192: See note following RCW 43.41.460.

43.60A.101 Peer-to-peer support program—Report to the legislature. By December 31, 2018, the department of veterans affairs must submit a report to the legislature on the veteran peer-to-peer training and support program authorized in RCW 43.60A.100 to determine the effectiveness of the program in meeting the needs of veterans in the state. The report must include the number of veterans receiving peer-to-peer support and the location of such support services; the number of veterans trained through the program to provide

peer-to-peer support; and the types of training and support services provided by the program. The report must also include an analysis of peer-to-peer training and support programs developed by other states, as well as in the private and nonprofit sectors, in order to evaluate best practices for implementing and managing the veteran peer-to-peer training and support program authorized in RCW 43.60A.100. [2017 c 192 § 5.]

43.60A.120 Counseling—Priority. The department of veterans affairs shall give priority in its counseling and instructional programs to treating state veterans located in rural areas of the state, especially those who are members of traditionally underserved minority groups, and women veterans. [1991 c 55 § 3.]

43.60A.130 Counseling—Posttraumatic stress disorder and combat stress program. The department of veterans affairs shall design its posttraumatic stress disorder and combat stress programs and related activities to provide veterans with as much privacy and confidentiality as possible and yet consistent with sound program management. [1991 c 55 § 4.]

43.60A.140 Veterans stewardship account. (1) The veterans stewardship account is created in the custody of the state treasurer. Disbursements of funds must be on the authorization of the director or the director's designee, and only for the purposes stated in subsection (4) of this section. In order to maintain an effective expenditure and revenue control, funds are subject in all respects to chapter 43.88 RCW, but no appropriation is required to permit expenditure of the funds.

(2) The department may request and accept nondedicated contributions, grants, or gifts in cash or otherwise, including funds generated by the issuance of the armed forces license plate collection under chapter 46.18 RCW.

(3) All receipts from the sale of armed forces license plates and Purple Heart license plates as required under RCW 46.68.425(2) must be deposited into the veterans stewardship account.

(4) All moneys deposited into the veterans stewardship account must be used by the department for activities that benefit veterans or their families, including but not limited to, providing programs and services for homeless veterans; establishing memorials honoring veterans; and maintaining a future state veterans' cemetery. Funds from the account may not be used to supplant existing funds received by the department. For the 2019-2021 fiscal biennium, moneys deposited into the veterans stewardship account may be used for the department's traumatic brain injury program. [2019 c 415 § 965; 2016 c 31 § 4; 2010 c 161 § 1106; 2008 c 183 § 3; 2005 c 216 § 4.]

(2) The department shall create a list of veterans who are interested in working on projects that restore Washington's natural habitat. The department shall promote the opportunity to volunteer for the veterans conservation corps through its local counselors and representatives. Only veterans who grant their approval may be included on the list. The department shall consult with the salmon recovery board, the recreation and conservation funding board, the department of natural resources, the department of fish and wildlife, the department of agriculture, conservation districts, and the state parks and recreation commission to determine the most effective ways to market the veterans conservation corps to agencies and natural resource partners. [2017 c 185 § 3. Prior: 2007 c 451 § 2; 2007 c 241 § 6; 2005 c 257 § 2.]

Intent—Effective date—2007 c 241: See notes following RCW 79A.25.005.

Findings—Purpose—2005 c 257: "The legislature finds that many Washington citizens are veterans of armed forces conflicts that have important skills that may be employed in projects that help to protect and restore Washington's rivers, streams, lakes, marine waters, and open lands, and help to maintain urban and suburban wastewater and stormwater management systems. The legislature further finds that such work has demonstrated benefits for many veterans who are coping with posttraumatic stress disorder or have other mental health or substance abuse disorders related to their service in the armed forces. The legislature further finds that these projects provide an opportunity for veterans to obtain on-the-job training, leading to certification in specific skill sets and to living wage employment in environmental restoration and stewardship. Therefore, it is the purpose of this chapter to create the veterans conservation corps program to assist veterans in obtaining training, certification, and employment in the field of environmental restoration and management, and to provide state funding assistance for projects that restore Washington's waters, forests, and habitat through the participation of veterans." The department shall consult with the workforce training and education coordinating board, the state board for community and technical colleges, the employment security department, and other state agencies administering conservation corps programs, to incorporate training, education, ecotherapy, and certification in environmental restoration and management fields into the program. The department may enter into agreements with

community colleges, private schools, conservation districts, state or local agencies, or other entities to provide training, internships, and educational courses as part of the enrollee benefits from the program.

(2) The department may receive gifts, grants, federal funds, or other moneys from public or private sources, for the use and benefit of the veterans conservation corps program. The funds shall be deposited to the veterans conservation corps account created in RCW 43.60A.153. [2017 c 185 § 4; 2012 c 229 § 820; 2007 c 451 § 3.]

These agencies shall work together to identify stewardship and maintenance projects on public lands that are suitable for work by veterans conservation corps enrollees. The department may expend funds appropriated to the veterans conservation corps program to defray the costs of education, training, and certification associated with the enrollees participating in such projects. [2011 c 20 § 13; 2007 c 451 § 5.]

The middle range shall represent the office's estimate of the most likely population projection for the county. If any city or county believes that a projection will not accurately reflect actual population growth in a county, it may petition the office to revise the projection accordingly. The office shall complete the first set of ranges for every county by December 31, 1995.

Such facilities must be located in a distressed community or serve a substantial number of low-income or disadvantaged persons.

(2) The department shall establish a competitive process to solicit, evaluate, and rank applications for the building communities fund program as follows:

(a) The department shall conduct a statewide solicitation of project applications from nonprofit organizations.

(b) The department shall evaluate and rank applications in consultation with a citizen advisory committee using objective criteria. To be considered qualified, applicants must demonstrate that the proposed project:

(d) The department may not set a monetary limit to funding requests.

(3) The department shall submit biennially to the governor and the legislature in the department's capital budget request a ranked list of the qualified eligible projects for which applications were received. The list must include a description of each project, its total cost, and the amount of state funding requested. In addition, if cash funds have been appropriated, up to three million dollars may be used for technical assistance grants. The department shall not sign contracts or otherwise financially obligate funds under this section until the legislature has approved a specific list of projects.

(6) In contracts for grants authorized under this section the department shall include provisions which require that capital improvements shall be held by the grantee for a specified period of time appropriate to the amount of the grant and that facilities shall be used for the express purpose of the grant. (j) Submit expenditure and performance reports, including information related to the performance measures in RCW 43.63A.311, to the department on a time schedule determined by the department; and

43.63A.750 Performing arts, art museums, cultural facilities—Competitive grant program for nonprofit organizations. (1) A competitive grant program to assist nonprofit organizations in acquiring, constructing, or rehabilitating performing arts, art museums, and cultural facilities is created.

(2)(a) The department shall submit a list of recommended performing arts, art museum projects, and cultural organization projects eligible for funding to the governor and the legislature in the department's biennial capital budget request beginning with the 2001-2003 biennium and thereafter. The list, in priority order, shall include a description of each project, the amount of recommended state funding, and documentation of nonstate funds to be used for the project. The total amount of recommended state funding for projects on a biennial project list shall not exceed twelve million dollars, except that lists submitted during the 2019-2021 and 2021-2023 fiscal biennia may not exceed sixteen million dollars.

(b) The department shall establish a competitive process to prioritize applications for state assistance as follows:

(i) The department shall conduct a statewide solicitation of project applications from nonprofit organizations, local governments, and other entities, as determined by the department. The evaluation and ranking process shall also consider local community support for projects and an examination of existing assets that applicants may apply to projects.

(ii) The department may establish the amount of state grant assistance for individual project applications but the amount shall not exceed twenty percent, or thirty-three and one-third percent for lists submitted during the 2019-2021 fiscal biennium, of the estimated total capital cost or actual cost of a project, whichever is less. The remaining portions of the project capital cost shall be a match from nonstate sources. The nonstate match may include cash, the value of real property when acquired solely for the purpose of the project, and in-kind contributions. The department is authorized to set matching requirements for individual projects. State assistance may be used to fund separate definable phases of a project if the project demonstrates adequate progress and has secured the necessary match funding.

(iii) The department shall not sign contracts or otherwise financially obligate funds under this section until the legislature has approved a specific list of projects. In contracts for grants authorized under this section, the department shall include provisions requiring that capital improvements be held by the grantee for a specified period of time appropriate to the amount of the grant and that facilities be used for the express purpose of the grant. If the grantee is found to be out of compliance with provisions of the contract, the grantee shall repay to the state general fund the principal amount of the grant plus interest calculated at the rate of interest on state of Washington general obligation bonds issued most closely to the date of authorization of the grant. [2021 c 332 § 7042; 2020 c 356 § 7008; 2006 c 371 § 235; 2005 c 160 § 2; 1999 c 295 § 1.]

43.70.005 Intent. The legislature finds and declares that it is of importance to the people of Washington state to live in a healthy environment and to expect a minimum standard of quality in health care. The legislature further finds that the social and economic vitality of the state depends on a healthy and productive population. The legislature further declares where it is a duty of the state to assure a healthy environment and minimum standards of quality in health care facilities and among health care professionals, the ultimate responsibility for a healthy society lies with the citizens themselves.

For these reasons, the legislature recognizes the need for a strong, clear focus on health issues in state government and among state health agencies to give expression to the needs of individual citizens and local communities as they seek to preserve the public health. It is the intent of the legislature to form such focus by creating a single department in state government with the primary responsibilities for the preservation of public health, monitoring health care costs, the maintenance of minimal standards for quality in health care delivery, and the general oversight and planning for all the state's activities as they relate to the health of its citizenry.

Further, it is the intent of the legislature to improve illness and injury prevention and health promotion, and restore the confidence of the citizenry in the efficient and accountable expenditure of public funds on health activities that further the mission of the agency via grants and contracts, and to ensure that this new health agency delivers quality health services in an efficient, effective, and economical manner that is faithful and responsive to policies established by the legislature. [2005 c 32 § 1; 1989 1st ex.s. c 9 § 101.]

The department may provide grant amounts of varying sizes depending on the need of the applicant hospital;

The report is subject to the following:

(6) The department shall adopt rules as necessary to carry out its responsibilities under this section. [2013 c 319 § 2; 2013 c 319 § 1; 2010 c 113 § 1; 2009 c 244 § 2; 2007 c 261 § 2.]

***Reviser's note:** RCW 70.02.050 was amended by 2013 c 200 § 3, eliminating many of the provisions relating to disclosure of health care information without patient's authorization, effective July 1, 2014. See RCW 70.02.200 through 70.02.260.

Effective date—2013 c 319 § 2: "Section 2 of this act takes effect July 1, 2017." [2013 c 319 § 4.]

Findings—2007 c 261: "The legislature finds that each year health care-associated infections affect two million Americans. These infections result in the unnecessary death of ninety thousand patients and costs the health care system 4.5 billion dollars. Hospitals should be implementing evidence-based measures to reduce hospital-acquired infections. The legislature further finds the public should have access to data on outcome measures regarding hospital-acquired infections. Data reporting should be consistent with national hospital reporting standards." [2007 c 261 § 1.]

(2021 Ed.)

43.70.057 Hospital emergency room patient care information—Data collection, maintenance, analysis, and dissemination—Rules. (1) The legislature finds that public health data is critical to the department's ability to respond to emerging public health threats and chronic conditions affecting the public health and, therefore, intends that the department be fully informed about emerging public health threats and chronic conditions that may impact the health of Washington citizens.

(2) The department shall require hospitals with emergency departments to submit emergency department patient care information, which must be collected, maintained, analyzed, and disseminated by the department. The department shall also accept other data types submitted voluntarily as approved by the department. The data must be collected in a way that allows automated reporting by electronic transmission. Emergency departments submitting data must be able to obtain their data and aggregate regional and statewide data from the collection system within thirty minutes of submission of a query for the data once the data is available in the system. The department may, if deemed cost-effective and efficient, contract with a private entity for any or all parts of data collection, maintenance, analysis, and dissemination. The department or contractor shall include the following elements:

(a) A demonstrated ability to collect the data required by this section in a way that allows automated reporting by electronic transmission;

(b) An established data submission arrangement with the majority of emergency departments required to submit data pursuant to this section;

(c) The demonstrated ability to allow emergency departments submitting data to immediately obtain their own data and aggregate regional and statewide data and the department to immediately obtain any data within thirty minutes of submission of a query for data once the data is available in the system; and

(d) The capacity to work with existing emergency department data systems to minimize administrative reporting burden and costs.

(3) Data elements must be reported in conformance with a uniform reporting system established by the department in collaboration with representatives from emergency departments required to submit data pursuant to this section and in conformance with current or emerging national standards for reporting similar data. Data elements to be initially collected include, but are not limited to, data elements identifying facility information, limited patient identifiers, patient demographics, and encounter, clinical, and laboratory information. In order to ensure meaningful public health surveillance, after consulting with emergency departments required to submit data pursuant to this section, the department shall adopt rules including, but not limited to, data element and format requirements and time frames for reporting and addressing errors in submission. The rules adopted shall support alignment with current or emerging national standards for reporting similar data and minimization of administrative burden and costs.

[Title 43 RCW—page 419]

(4) The department may require additional information from data providers only for the purposes of validating data received, verifying data accuracy, conducting surveillance of potential public health threats, and addressing potential public health threats.

(5) The data collected, maintained, and analyzed by the department must only be available for retrieval in original or processed form to public and private requestors pursuant to subsection (6) of this section and must be available within a reasonable period of time after the date of request, except that emergency departments submitting data pursuant to this section must have the ability to immediately obtain their own data and aggregate regional and statewide data within thirty minutes of submission of a query for data once the data is available in the system. The cost of retrieving their own data and aggregate regional and statewide data in standardized reports for state, local, tribal, federal officials and agencies, and health care facilities, and health care providers associated with the emergency departments submitting data pursuant to this section, must be funded through the agency's resources. The cost of retrieving data for individuals and organizations engaged in research or private use of data or reports must be funded by a fee schedule developed by the department that reflects the direct cost of retrieving the data or report in the requested form.

(6) The department must maintain the confidentiality of patient data it collects under subsection (2) of this section. Patient data collected by the department is health care information under chapter 70.02 RCW. Patient data that includes direct and indirect identifiers is not subject to public inspection and copying and the department may only release that data as allowed for in this section. Any agency that receives patient data under (a) or (b) of this subsection must also maintain the confidentiality of the data and may not release the data except as consistent with subsection (7)(b) of this section. The department may release the data as follows:

(a) Data that includes direct and indirect patient identifiers, as specifically defined in rule, may be released to:

(i)(A) Federal, Washington state, tribal, and local government agencies upon receipt of a signed data use agreement with the department;

(B) In the case of an emergent public health threat, the signed data use agreement requirement must be waived for public health authorities. The department may disclose only the minimum amount of information necessary, to the fewest number of people, for the least amount of time required to address the threat;

(ii) Researchers with approval of an institutional review board upon receipt of a signed confidentiality agreement with the department;

(b) Data that does not contain direct patient identifiers but may contain indirect patient identifiers may be released to agencies, institutional review board-approved researchers, and other persons upon receipt of a signed data use agreement with the department;

(c) Data that does not contain direct or indirect patient identifiers may be released on request.

(7) Recipients of data under subsection (6)(a) and (b) of this section must agree in a data use agreement, as applicable, at a minimum, to:

(a) Take steps to protect direct and indirect patient identifiers as described in the data use agreement; and

(b) Not redisclose the data except as authorized in their data use agreement consistent with the purpose of the agreement.

(8) Recipients of data under subsection (6)(b) and (c) of this section must not attempt to determine the identity of persons whose information is included in the data set or use the data in any manner that identifies individuals or their families.

(9) For the purposes of this section:

(a) "Direct patient identifier" means information that identifies a patient; and

(b) "Indirect patient identifier" means information that may identify a patient when combined with other information.

(10) The department may adopt rules necessary to carry out its responsibilities under this section. The department must consider national standards when adopting rules. [2017 c 220 § 1.]

43.70.060 Duties of department—Promotion of health care cost-effectiveness. It is the intent of the legislature to promote appropriate use of health care resources to maximize access to adequate health care services. The legislature understands that the rapidly increasing costs of health care are limiting access to care. To promote health care cost-effectiveness, the department shall:

(1) Implement the certificate of need program;

(2) Monitor and evaluate health care costs;

(3) Evaluate health services and the utilization of services for outcome and effectiveness; and

(4) Recommend strategies to encourage adequate and cost-effective services and discourage ineffective services. [1989 1st ex.s. c 9 § 108.]

43.70.064 Health care quality—Findings and intent—Requirements for conducting study under RCW 43.70.066.

The legislature finds that it is difficult for consumers of health care services to determine the quality of health care prior to purchase or utilization of medical care. The legislature also finds that accountability is a key component in promoting quality assurance and quality improvement throughout the health care delivery system, including public programs. Quality assurance and improvement standards are necessary to promote the public interest, contribute to cost efficiencies, and improve the ability of consumers to ascertain quality health care purchases.

The legislature intends to have consumers, health carriers, health care providers and facilities, and public agencies participate in the development of quality assurance and improvement standards that can be used to develop a uniform quality assurance program for use by all public and private health plans, providers, and facilities. To that end, in conducting the study required under RCW 43.70.066, the department of health shall:

(1) Consider the needs of consumers, employers, health care providers and facilities, and public and private health plans;

(2) Take full advantage of existing national standards of quality assurance to extend to middle-income populations the

protections required for state management of health programs for low-income populations;

(3) Consider the appropriate minimum level of quality assurance standards that should be disclosed to consumers and employers by health care providers and facilities, and public and private health plans; and

(4) Consider standards that permit health care providers and facilities to share responsibility for participation in a uniform quality assurance program. [1995 c 267 § 3.]

43.70.066 Study—Uniform quality assurance and improvement program—Reports to legislature—Limitation on rule making.

(1) The department of health shall study the feasibility of a uniform quality assurance and improvement program for use by all public and private health plans and health care providers and facilities. In this study, the department shall consult with:

- (a) Public and private purchasers of health care services;
- (b) Health carriers;
- (c) Health care providers and facilities; and
- (d) Consumers of health services.

(2) In conducting the study, the department shall propose standards that meet the needs of affected persons and organizations, whether public or private, without creation of differing levels of quality assurance. All consumers of health services should be afforded the same level of quality assurance.

(3) At a minimum, the study shall include but not be limited to the following program components and indicators appropriate for consumer disclosure:

- (a) Health care provider training, credentialing, and licensure standards;
- (b) Health care facility credentialing and recredentialing;
- (c) Staff ratios in health care facilities;
- (d) Annual mortality and morbidity rates of cases based on a defined set of procedures performed or diagnoses treated in health care facilities, adjusted to fairly consider variable factors such as patient demographics and case severity;
- (e) The average total cost and average length of hospital stay for a defined set of procedures and diagnoses;
- (f) The total number of the defined set of procedures, by specialty, performed by each physician at a health care facility within the previous twelve months;
- (g) Utilization performance profiles by provider, both primary care and specialty care, that have been adjusted to fairly consider variable factors such as patient demographics and severity of case;
- (h) Health plan fiscal performance standards;
- (i) Health care provider and facility recordkeeping and reporting standards;
- (j) Health care utilization management that monitors trends in health service underutilization, as well as overutilization of services;
- (k) Health monitoring that is responsive to consumer, purchaser, and public health assessment needs; and
- (l) Assessment of consumer satisfaction and disclosure of consumer survey results.

(4) In conducting the study, the department shall develop standards that permit each health care facility, provider group, or health carrier to assume responsibility for and determine the physical method of collection, storage, and

assimilation of quality indicators for consumer disclosure. The study may define the forms, frequency, and posting requirements for disclosure of information.

In developing proposed standards under this subsection, the department shall identify options that would minimize provider burden and administrative cost resulting from duplicative private sector data submission requirements.

(5) The department shall submit a preliminary report to the legislature by December 31, 1995, including recommendations for initial legislation pursuant to subsection (6) of this section, and may submit supplementary reports and recommendations as completed, consistent with appropriated funds and staffing.

(6) The department shall not adopt any rule implementing the uniform quality assurance program or consumer disclosure provisions unless expressly directed to do so by an act of law. [1998 c 245 § 72; 1997 c 274 § 3; 1995 c 267 § 4.]

43.70.068 Quality assurance—Interagency cooperation.

The department of health, the health care authority, the department of social and health services, the office of the insurance commissioner, and the department of labor and industries shall form an interagency group for coordination and consultation on quality assurance activities and collaboration on final recommendations for the study required under RCW 43.70.066. [1997 c 274 § 4; 1995 c 267 § 5.]

43.70.070 Duties of department—Analysis of health services. The department shall evaluate and analyze readily available data and information to determine the outcome and effectiveness of health services, utilization of services, and payment methods. This section should not be construed as allowing the department access to proprietary information.

(1) The department shall make its evaluations available to the board for use in preparation of the state health report required by *RCW 43.20.050, and to consumers, purchasers, and providers of health care.

(2) The department shall use the information to:

- (a) Develop guidelines which may be used by consumers, purchasers, and providers of health care to encourage necessary and cost-effective services; and
- (b) Make recommendations to the governor on how state government and private purchasers may be prudent purchasers of cost-effective, adequate health services. [1995 c 269 § 2202; 1989 1st ex.s. c 9 § 109.]

*Reviser's note: RCW 43.20.050 was amended by 2011 c 27 § 1, eliminating the "state health report."

The court shall award reasonable attorneys' fees in favor of the respondent if the civil action was initiated by a whistleblower who is not an employee and the court finds that the respondent has not engaged in the alleged reprisal or retaliatory action and that the complaint was frivolous, unreasonable, or groundless.

(2) A civil action under this section may not be brought more than two years after the date when the retaliation occurred.

(3) In this section:

Each health disciplinary authority as defined in RCW 18.130.040 may, with consultation and interdisciplinary coordination provided by the state department of health, adopt rules defining accepted standards of practice for their profession that shall further define improper quality of care. Improper quality of care shall not include good faith personnel actions related to employee performance or actions taken

according to established terms and conditions of employment.

(c) "Reprisal or retaliatory action" means but is not limited to: Denial of adequate staff to perform duties; frequent staff changes; frequent and undesirable office changes; refusal to assign meaningful work; unwarranted and unsubstantiated report of misconduct pursuant to Title 18 RCW; letters of reprimand or unsatisfactory performance evaluations; demotion; reduction in pay; denial of promotion; suspension; dismissal; denial of employment; a supervisor or superior encouraging coworkers to behave in a hostile manner toward the whistleblower; and the revocation, suspension, or reduction of medical staff membership or privileges without following a medical staff sanction process that is consistent with RCW 7.71.050.

43.70.115 Licenses—Denial, suspension, revocation, modification. This section governs the denial of an application for a license or the suspension, revocation, or modification of a license by the department. This section does not govern actions taken under chapter 18.130 RCW.

(1) The department shall give written notice of the denial of an application for a license to the applicant or his or her agent. The department shall give written notice of revocation, suspension, or modification of a license to the licensee or his or her agent. The notice shall state the reasons for the action. The notice shall be personally served in the manner of service of a summons in a civil action or shall be given in another manner that shows proof of receipt.

(2) Except as otherwise provided in this subsection and in subsection (4) of this section, revocation, suspension, or modification is effective twenty-eight days after the licensee or the agent receives the notice.

(a) The department may make the date the action is effective later than twenty-eight days after receipt. If the department does so, it shall state the effective date in the written notice given the licensee or agent.

(b) The department may make the date the action is effective sooner than twenty-eight days after receipt when necessary to protect the public health, safety, or welfare. When the department does so, it shall state the effective date and the reasons supporting the effective date in the written notice given to the licensee or agent.

(c) When the department has received certification pursuant to chapter 74.20A RCW from the department of social and health services that the licensee is a person who is not in compliance with a child support order or *an order from a court stating that the licensee is in noncompliance with a residential or visitation order under chapter 26.09 RCW, the department shall provide that the suspension is effective immediately upon receipt of the suspension notice by the licensee.

The presiding or reviewing officer may permit the department to implement part or all of the adverse action while the proceedings are pending if the appellant causes an unreasonable delay in the proceeding, if the circumstances change so that implementation is in the public interest, or for other good cause.

(b) If the department gives a licensee less than twenty-eight days notice of revocation, suspension, or modification

and the licensee timely files a sufficient appeal, the department may implement the adverse action on the effective date stated in the notice. The presiding or reviewing officer may order the department to stay implementation of part or all of the adverse action while the proceedings are pending if staying implementation is in the public interest or for other good cause. 43.70.195 Public water systems—Receivership actions brought by secretary—Plan for disposition. (1) In any action brought by the secretary of health or by a local health officer pursuant to chapter 7.60 RCW to place a public water system in receivership, the petition shall include the names of one or more suitable candidates for receiver who have consented to assume operation of the water system. The department shall maintain a list of interested and qualified individuals, municipal entities, special purpose districts, and investor-owned water companies with experience in the provision of water service and a history of satisfactory operation of a water system. If there is no other person willing and able to be named as receiver, the court shall appoint the county in which the water system is located as receiver. The county may designate a county agency to operate the system, or it may contract with another individual or public water system to provide management for the system. If the county is appointed as receiver, the secretary of health and the county health officer shall provide regulatory oversight for the agency or other person responsible for managing the water system.

(2) In any petition for receivership under subsection (1) of this section, the department shall recommend that the court grant to the receiver full authority to act in the best interests of the customers served by the public water system. The receiver shall assess the capability, in conjunction with the department and local government, for the system to operate in compliance with health and safety standards, and shall report to the court and the petitioning agency its recommendations for the system's future operation, including the formation of a water-sewer district or other public entity, or ownership by another existing water system capable of providing service.

(3) If a petition for receivership and verifying affidavit executed by an appropriate departmental official allege an immediate and serious danger to residents constituting an

emergency, the court shall set the matter for hearing within three days and may appoint a temporary receiver ex parte upon the strength of such petition and affidavit pending a full evidentiary hearing, which shall be held within fourteen days after receipt of the petition.

(4) A bond, if any is imposed upon a receiver, shall be minimal and shall reasonably relate to the level of operating revenue generated by the system. Any receiver appointed pursuant to this section shall not be held personally liable for any good faith, reasonable effort to assume possession of, and to operate, the system in compliance with the court's orders.

(5) The court shall authorize the receiver to impose reasonable assessments on a water system's customers to recover expenditures for improvements necessary for the public health and safety.

(6) No later than twelve months after appointment of a receiver, the petitioning agency, in conjunction with the county in which the system is located, and the appropriate state and local health agencies, shall develop and present to the court a plan for the disposition of the system. The report shall include the recommendations of the receiver made pursuant to subsection (2) of this section. The report shall include all reasonable and feasible alternatives. After receiving the report, the court shall provide notice to interested parties and conduct such hearings as are necessary. The court shall then order the parties to implement one of the alternatives, or any combination thereof, for the disposition of the system. Such order shall include a date, or proposed date, for the termination of the receivership. Nothing in this section authorizes a court to require a city, town, public utility district, water-sewer district, or irrigation district to accept a system that has been in receivership unless the city, town, public utility district, water-sewer district, or irrigation district agrees to the terms and conditions outlined in the plan adopted by the court.

(7) The court shall not terminate the receivership, and order the return of the system to the owners, unless the department of health approves of such an action. The court may impose reasonable conditions upon the return of the system to the owner, including the posting of a bond or other security, routine performance and financial audits, employment of qualified operators and other staff or contracted services, compliance with financial viability requirements, or other measures sufficient to ensure the ongoing proper operation of the system.

(8) If, as part of the ultimate disposition of the system, an eminent domain action is commenced by a public entity to acquire the system, the court shall oversee any appraisal of the system conducted under Title 7 RCW to assure that the appraised value properly reflects any reduced value because of the necessity to make improvements to the system. The court shall have the authority to approve the appraisal, and to modify it based on any information provided at an evidentiary hearing. The secretary shall renew the license of every such person who applies for renewal thereof within six months after being honorably discharged from service upon payment of the renewal fee applicable to the then current year or other license period.

(2) If requested by the licensee, the license of a spouse or registered domestic partner of a servicemember in the United States armed forces, including the United States public health service commissioned corps, if valid and in force and effect at the time the servicemember is deployed or stationed in a location outside Washington state, must be placed in inactive military spouse or registered domestic partner status so long as such service continues, unless sooner suspended, canceled, or revoked for cause as provided by law. However, no license, certification, or registration may be issued or approved for a period in excess of four years, without renewal. Such extension, reduction, or other modification of a licensing, certification, or registration period shall be by rule or regulation of the department of health adopted in accordance with the provisions of chapter 34.05 RCW. Such rules and regulations may provide a method for imposing and collecting such additional proportional fee as may be required for the extended or modified period. Legislative finding and purpose—1990 c 253: "The legislature finds that the demand for housing for migrant and seasonal farmworkers far exceeds the supply of adequate housing in the state of Washington. In addition, increasing numbers of these housing units are in deteriorated condition because they cannot be economically maintained and repaired.

The legislature further finds that the lack of a clear program for the regulation and inspection of farmworker housing has impeded the construction and renovation of housing units in this state.

It is the purpose of this act for the various agencies involved in the regulation of farmworker housing to coordinate and consolidate their activities to provide for efficient and effective monitoring of farmworker housing. It is intended that this action will provide greater responsiveness in dealing with public concerns over farmworker housing, and allow greater numbers of housing units to be built." [1990 c 253 § 1.]

43.70.400 Head injury prevention—Legislative finding. The legislature finds that head injury is a major cause of

death and disability for Washington citizens. The costs of head injury treatment and rehabilitation are extensive and resultant disabilities are long and indeterminate. These costs are often borne by public programs such as medicaid. The legislature finds further that many such injuries are preventable. The legislature intends to reduce the occurrence of head injury by educating persons whose behavior may place them at risk and by regulating certain activities. [1990 c 270 § 2.]

43.70.410 Head injury prevention—Program, generally. As used in RCW 43.70.400 through 43.70.440, the term "head injury" means traumatic brain injury.

A head injury prevention program is created in the department of health. The program's functions may be integrated with those of similar programs to promote comprehensive, integrated, and effective health promotion and disease prevention.

In consultation with the traffic safety commission, the department shall, directly or by contract, identify and coordinate public education efforts currently underway within state government and among private groups to prevent traumatic brain injury, including, but not limited to, bicycle safety, pedestrian safety, bicycle passenger seat safety, motorcycle safety, motor vehicle safety, and sports safety. If the department finds that programs are not available or not in use, it may, within funds appropriated for the purpose, provide grants to promote public education efforts. Grants may be awarded only after recipients have demonstrated coordination with relevant and knowledgeable groups within their communities, including at least schools, brain injury support organizations, hospitals, physicians, traffic safety specialists, police, and the public. The department may accept grants, gifts, and donations from public or private sources to use to carry out the head injury prevention program.

The department may assess or contract for the assessment of the effectiveness of public education efforts coordinated or initiated by any agency of state government. Agencies are directed to cooperate with assessment efforts by providing access to data and program records as reasonably required. The department may seek and receive additional funds from the federal government or private sources for assessments. Assessments shall contain findings and recommendations that will improve the effectiveness of public education efforts. These findings shall be distributed among public and private groups concerned with traumatic brain injury prevention. [1990 c 270 § 3.]

Bicycle awareness program: RCW 43.43.390.

43.70.420 Head injury prevention—Information preparation. The department of health, the department of licensing, and the traffic safety commission shall jointly prepare information for driver license manuals, driver education programs, and driving tests to increase driver awareness of pedestrian safety, to increase driver skills in avoiding pedestrian and motor vehicle accidents, and to determine drivers' abilities to avoid pedestrian motor vehicle accidents. [1990 c 270 § 4.]

43.70.430 Head injury prevention—Guidelines on training and education—Training of emergency medical personnel. The department shall prepare guidelines on rele-

vant training and education regarding traumatic brain injury for health and education professionals, and relevant public safety and law enforcement officials. The department shall distribute such guidelines and any recommendations for training or educational requirements for health professionals or educators to the disciplinary authorities governed by chapter 18.130 RCW and to educational service districts established under chapter 28A.310 RCW. Specifically, all emergency medical personnel shall be trained in proper helmet removal. [1990 c 270 § 6.]

training that includes only screening and referral elements is appropriate for the profession in question, in which case the training must be at least three hours in length.

(d) Beginning July 1, 2017, the training required by this subsection must be on the model list developed under subsection (6) of this section. Nothing in this subsection (1)(d) affects the validity of training completed prior to July 1, 2017.

(2)(a) Except as provided in (b) of this subsection:

(i) A professional listed in subsection (1)(a) of this section must complete the first training required by this section by the end of the first full continuing education reporting period after January 1, 2014, or during the first full continuing education reporting period after initial licensure or certification, whichever occurs later.

When adopting the rules required under this subsection (6)(c), the department shall:

(i) Consult with the affected disciplining authorities, public and private institutions of higher education, educators, experts in suicide assessment, treatment, and management, the Washington department of veterans affairs, and affected professional associations; and

(ii) Consider standards related to the best practices registry of the American foundation for suicide prevention and the suicide prevention resource center.

(d) Beginning January 1, 2017:

(7) The department shall provide the health profession training standards created in this section to the professional educator standards board as a model in meeting the requirements of RCW 28A.410.226 and provide technical assistance, as requested, in the review and evaluation of educator training programs. The educator training programs approved by the professional educator standards board may be included in the department's model list.

(8) Nothing in this section may be interpreted to expand or limit the scope of practice of any profession regulated under chapter 18.130 RCW.

(9) The secretary and the disciplining authorities affected by this section shall adopt any rules necessary to implement this section.

(10) For purposes of this section:

(a) "Disciplining authority" has the same meaning as in RCW 18.130.020.

(b) "Training in suicide assessment, treatment, and management" means empirically supported training approved by the appropriate disciplining authority that contains the following elements: Suicide assessment, including screening and referral, suicide treatment, and suicide management. However, the disciplining authority may approve training that includes only screening and referral elements if appropriate for the profession in question based on the profession's scope of practice. The board of occupational therapy may also approve training that includes only screening and referral elements if appropriate for occupational therapy practitioners based on practice setting.

(11) A state or local government employee is exempt from the requirements of this section if he or she receives a total of at least six hours of training in suicide assessment,

For purposes of this subsection, the training may be provided in one six-hour block or may be spread among shorter training sessions at the employer's discretion. [2020 c 229 § 1. Findings—Intent—2017 c 262: "The legislature finds that over one thousand one hundred suicide deaths occur each year in Washington and these suicide deaths take an enormous toll on families and communities across the state. The legislature further finds that: Sixty-five percent of all suicides, and most suicide deaths and attempts for young people ages ten to eighteen, occur using firearms and prescription medications that are easily accessible in homes; firearms are the most lethal method used in suicide and almost entirely account for more men dying by suicide than women; sixty-seven percent of all veteran deaths by suicide are by firearm; and nearly eighty percent of all deaths by firearms in Washington are suicides. The legislature further finds that there is a need for a robust public education campaign designed to raise awareness of suicide and to teach everyone the role that he or she can play in suicide prevention. The legislature further finds that important suicide prevention efforts include: Motivating households to improve safe storage practices to reduce deaths from firearms and prescription medications; decreasing barriers to prevent access to lethal means by allowing for temporary and voluntary transfers of firearms when individuals are at risk for suicide; increasing access to drug take-back sites; and making the public aware of suicide prevention steps, including recognizing warning signs, empathizing and listening, asking directly about suicide, removing dangers to ensure immediate safety, and getting help. The legislature intends by this act to create a public-private partnership fund to implement a suicide-safer home public education campaign in the coming years." [2017 c 262 § 1.]

Effective date—2016 c 90 § 5: "Section 5 of this act takes effect January 1, 2017." [2016 c 90 § 8.]

Findings—2016 c 90: "The legislature finds that: Washington's suicide rate is fourteen percent higher than the national average; on average, two young people between the ages of ten and twenty-four die by suicide each week; almost a quarter of those who die by suicide are veterans; and many of the state's rural and tribal communities have the highest suicide rates. The legislature further finds that when suicide occurs, it has devastating consequences for communities and schools, yet, according to the United States surgeon general, suicide is the nation's most preventable form of death. The legislature further finds that one of the most immediate ways to reduce the tragedy of suicide is through suicide awareness and prevention education coupled with safe storage of lethal means commonly used in suicides, such as firearms and prescription medications. The legislature further finds that

(2021 Ed.)

encouraging firearms dealers to voluntarily participate in suicide awareness and prevention education programs and provide certain safe storage devices at cost is an important step in creating safer homes and reducing suicide deaths in the state." [2016 c 90 § 1.]

Findings—Intent—2014 c 71; 2012 c 181: "(1) The legislature finds that:

(a) According to the centers for disease control and prevention:

(i) In 2008, more than thirty-six thousand people died by suicide in the United States, making it the tenth leading cause of death nationally.

(ii) During 2007-2008, an estimated five hundred sixty-nine thousand people visited hospital emergency departments with self-inflicted injuries in the United States, seventy percent of whom had attempted suicide.

(iii) During 2008-2009, the average percentages of adults who thought, planned, or attempted suicide in Washington were higher than the national average.

(b) According to a national study, veterans face an elevated risk of suicide as compared to the general population, more than twice the risk among male veterans. Another study has indicated a positive correlation between posttraumatic stress disorder and suicide.

(i) Washington state is home to more than sixty thousand men and women who have deployed in support of the wars in Iraq and Afghanistan.

(ii) Research continues on how the effects of wartime service and injuries, such as traumatic brain injury, posttraumatic stress disorder, or other service-related conditions, may increase the number of veterans who attempt suicide.

(iii) As more men and women separate from the military and transition back into civilian life, community mental health providers will become a vital resource to help these veterans and their families deal with issues that may arise.

(c) Suicide has an enormous impact on the family and friends of the victim as well as the community as a whole.

(d) Approximately ninety percent of people who die by suicide had a diagnosable psychiatric disorder at the time of death, such as depression. Most suicide victims exhibit warning signs or behaviors prior to an attempt.

(e) Improved training and education in suicide assessment, treatment, and management has been recommended by a variety of organizations, including the United States department of health and human services and the institute of medicine.

(2) It is therefore the intent of the legislature to help lower the suicide rate in Washington by requiring certain health professionals to complete training in suicide assessment, treatment, and management as part of their continuing education, continuing competency, or recertification requirements.

(3) The legislature does not intend to expand or limit the existing scope of practice of any health professional affected by this act." [2014 c 71 § 1; 2012 c 181 § 1.]

(ii) The model list must include six-hour trainings in suicide assessment, treatment, and management, and three-hour trainings that include only screening and referral elements; and

(iii) A person or entity providing the training required in this section may petition the department for inclusion on the model list. The department shall add the training to the list only if the department determines that the training meets the minimum standards established in the rules adopted under (c) of this subsection.

(e) By January 1, 2021, the department shall adopt minimum standards for advanced training and training in treatment modalities shown to be effective in working with people who are suicidal. Beginning July 1, 2021, all such training on the model list must meet the minimum standards. When adopting the minimum standards, the department must consult with the affected disciplining authorities, public and private institutions of higher education, educators, experts in suicide assessment, treatment, and management, the Washington department of veterans affairs, and affected professional associations.

(7) The department shall provide the health profession training standards created in this section to the professional educator standards board as a model in meeting the requirements of RCW 28A.410.226 and provide technical assistance, as requested, in the review and evaluation of educator training programs. The educator training programs approved by the professional educator standards board may be included in the department's model list.

(8) Nothing in this section may be interpreted to expand or limit the scope of practice of any profession regulated under chapter 18.130 RCW.

(9) The secretary and the disciplining authorities affected by this section shall adopt any rules necessary to implement this section.

(10) For purposes of this section:

(a) "Disciplining authority" has the same meaning as in RCW 18.130.020.

(b) "Training in suicide assessment, treatment, and management" means empirically supported training approved by the appropriate disciplining authority that contains the following elements: Suicide assessment, including screening and referral, suicide treatment, and suicide management. However, the disciplining authority may approve training that includes only screening and referral elements if appropri-

ate for the profession in question based on the profession's scope of practice. The board of occupational therapy may also approve training that includes only screening and referral elements if appropriate for occupational therapy practitioners based on practice setting.

(11) A state or local government employee is exempt from the requirements of this section if he or she receives a total of at least six hours of training in suicide assessment, treatment, and management from his or her employer every six years. For purposes of this subsection, the training may be provided in one six-hour block or may be spread among shorter training sessions at the employer's discretion.

(12) An employee of a community mental health agency licensed under chapter 71.24 RCW or a chemical dependency program certified under chapter 71.24 RCW is exempt from the requirements of this section if he or she receives a total of at least six hours of training in suicide assessment, treatment, and management from his or her employer every six years. For purposes of this subsection, the training may be provided in one six-hour block or may be spread among shorter training sessions at the employer's discretion. [2020 c 229 § 1; 2020 c 80 § 30. Findings—Intent—2017 c 262: "The legislature finds that over one thousand one hundred suicide deaths occur each year in Washington and these suicide deaths take an enormous toll on families and communities across the state. The legislature further finds that: Sixty-five percent of all suicides, and most suicide deaths and attempts for young people ages ten to eighteen, occur using firearms and prescription medications that are easily accessible in homes; firearms are the most lethal method used in suicide and almost entirely account for more men dying by suicide than women; sixty-seven percent of all veteran deaths by suicide are by firearm; and nearly eighty percent of all deaths by firearms in Washington are suicides. The legislature further finds that there is a need for a robust public education campaign designed to raise awareness of suicide and to teach everyone the role that he or she can play in suicide prevention. The legislature further finds that important suicide prevention efforts include: Motivating households to improve safe storage practices to reduce deaths from firearms and prescription medications; decreasing barriers to prevent access to lethal means by allowing for temporary and voluntary transfers of firearms when individuals are at risk for suicide; increasing access to drug take-back sites; and making the public aware of suicide prevention steps, including recognizing warning

signs, empathizing and listening, asking directly about suicide, removing dangers to ensure immediate safety, and getting help. The legislature intends by this act to create a public-private partnership fund to implement a suicide-safer home public education campaign in the coming years." [2017 c 262 § 1.]

Effective date—2016 c 90 § 5: "Section 5 of this act takes effect January 1, 2017." [2016 c 90 § 8.]

Findings—2016 c 90: "The legislature finds that: Washington's suicide rate is fourteen percent higher than the national average; on average, two young people between the ages of ten and twenty-four die by suicide each week; almost a quarter of those who die by suicide are veterans; and many of the state's rural and tribal communities have the highest suicide rates. The legislature further finds that when suicide occurs, it has devastating consequences for communities and schools, yet, according to the United States surgeon general, suicide is the nation's most preventable form of death. The legislature further finds that one of the most immediate ways to reduce the tragedy of suicide is through suicide awareness and prevention education coupled with safe storage of lethal means commonly used in suicides, such as firearms and prescription medications. The legislature further finds that encouraging firearms dealers to voluntarily participate in suicide awareness and prevention education programs and provide certain safe storage devices at cost is an important step in creating safer homes and reducing suicide deaths in the state." [2016 c 90 § 1.]

Findings—Intent—2014 c 71; 2012 c 181: "(1) The legislature finds that:

(a) According to the centers for disease control and prevention:

(i) In 2008, more than thirty-six thousand people died by suicide in the United States, making it the tenth leading cause of death nationally.

(ii) During 2007-2008, an estimated five hundred sixty-nine thousand people visited hospital emergency departments with self-inflicted injuries in the United States, seventy percent of whom had attempted suicide.

(iii) During 2008-2009, the average percentages of adults who thought, planned, or attempted suicide in Washington were higher than the national average.

(b) According to a national study, veterans face an elevated risk of suicide as compared to the general population, more than twice the risk among male veterans. Another study has indicated a positive correlation between posttraumatic stress disorder and suicide.

(i) Washington state is home to more than sixty thousand men and women who have deployed in support of the wars in Iraq and Afghanistan.

(ii) Research continues on how the effects of wartime service and injuries, such as traumatic brain injury, posttraumatic stress disorder, or other service-related conditions, may increase the number of veterans who attempt suicide.

(iii) As more men and women separate from the military and transition back into civilian life, community mental health providers will become a vital resource to help these veterans and their families deal with issues that may arise.

(c) Suicide has an enormous impact on the family and friends of the victim as well as the community as a whole.

(d) Approximately ninety percent of people who die by suicide had a diagnosable psychiatric disorder at the time of death, such as depression. Most suicide victims exhibit warning signs or behaviors prior to an attempt.

(e) Improved training and education in suicide assessment, treatment, and management has been recommended by a variety of organizations, including the United States department of health and human services and the institute of medicine.

(2) It is therefore the intent of the legislature to help lower the suicide rate in Washington by requiring certain health professionals to complete training in suicide assessment, treatment, and management as part of their continuing education, continuing competency, or recertification requirements.

(3) The legislature does not intend to expand or limit the existing scope of practice of any health professional affected by this act." [2014 c 71 § 1; 2012 c 181 § 1.]

(b) Identify key risk and protective factors relating to suicide; and

(c) Identify goals, action areas, and implementation strategies relating to suicide prevention.

(2) When developing the plan, the secretary shall consider national research and practices employed by the federal government, tribal governments, and other states, including the national strategy for suicide prevention. (3) The secretary shall convene a steering committee to advise him or her in the development of the Washington plan for suicide prevention. The committee must consist of representatives from the following:

(g) Primary care providers;

(h) Local health departments or districts; and

(i) Any other organizations or groups the secretary deems appropriate.

(4) The secretary shall complete the plan no later than November 15, 2015, publish the report on the department's web site, and submit copies to the governor and the relevant standing committees of the legislature. [2014 c 71 § 4.]

43.70.446 Suicide-safer homes project—Suicide-safer homes project account. (1) The suicide-safer homes project is created within the department of health for the purpose of accepting private funds for use by the suicide-safer homes task force created in *RCW 43.70.445 in developing and providing suicide education and prevention materials, training, and outreach programs to help create suicide-safer homes. (2) The suicide-safer homes project account is created in the custody of the state treasurer. The account shall consist of funds appropriated by the legislature for the suicide-safer homes project account and all receipts from gifts, grants,

(2021 Ed.)

bequests, devises, or other funds from public and private sources to support the activities of the suicide-safer homes project. Only the secretary of the department of health, or the secretary's designee, may authorize expenditures from the account to fund projects identified and prioritized by the suicide-safer homes task force. Funds deposited in the suicide-safer homes project account may be used for the development and production of suicide prevention materials and training programs, for providing financial incentives to encourage firearms dealers and others to participate in suicide prevention training, and to implement pilot programs involving community outreach on creating suicide-safer homes.

(3) The suicide-safer homes project account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures. [2017 c 262 § 3.]

43.70.447 Suicide assessment, treatment, and management—Curriculum for dental students and dentists.

(1) By July 1, 2020, the school of dentistry at the University of Washington shall develop a curriculum on suicide assessment, treatment, and management for dental students and licensed dentists. The curriculum must meet the minimum standards established under RCW 43.70.442 and must include material on identifying at-risk patients and limiting access to lethal means. When developing the curriculum, the school of dentistry must consult with experts on suicide assessment, treatment, and management and with the suicide-safer homes task force established in *RCW 43.70.445. The school of dentistry shall submit a progress report to the governor and the relevant committees of the legislature by July 1, 2019.

(2) The dental quality assurance commission shall, for purposes of RCW 43.70.442(4)(a), consider a dentist who has successfully completed the curriculum developed under subsection (1) of this section prior to licensure as possessing the minimum training and experience necessary to be exempt from the training requirements in RCW 43.70.442. [2017 c 262 § 5.]

*Reviser's note: RCW 43.70.445 expired July 1, 2021.

Findings—Intent—2017 c 262: See note following RCW 43.70.442.

43.70.452 Agricultural industry workforce behavioral health improvement and suicide prevention—Pilot program.

(1) Subject to the availability of amounts appropriated for this specific purpose not to exceed two hundred thousand dollars per fiscal year, the department shall establish a pilot program to support behavioral health improvement and suicide prevention efforts for members of the agricultural industry workforce. By March 1, 2019, the pilot program shall be established in a county west of the Cascade crest that is reliant on the agricultural industry.

(2) When implementing the pilot program, the department shall consider the report of the task force on behavioral health and suicide prevention in the agricultural industry established in section 2, chapter 95, Laws of 2018.

(3) In implementing the pilot program, the department shall contract with an entity that has behavioral health and suicide prevention expertise to develop a free resource for

workers in the agricultural industry. When selecting an entity, the department shall seek to use an entity that has an existing telephonic and web-based resource, including entities that have prepared similar resources for other states. The contracting entity must be responsible for constructing and hosting the free resource and linking the free resource to the web sites of the department, the department of agriculture, and other relevant stakeholders.

(4) At a minimum, the free resource must:

(a) Be made publicly available through a web-based portal or a telephone support line;

(b) Provide a resource to train agricultural industry management, workers, and their family members in suicide risk recognition and referral skills;

(c) Provide a resource to build capacity within the agricultural industry to train individuals to deliver training in person;

(d) Contain model crisis protocols that address behavioral health crisis and suicide risk identification, intervention, reentry, and postvention;

(e) Contain model marketing materials and messages that promote behavioral health in the agricultural industry; and

(f) Be made available in English and Spanish.

(5) A preliminary report shall be made to the legislature on the elements and implementation of the pilot program by December 1, 2019. A final report containing information about results of the pilot program and recommendations for improving the pilot program and expanding its availability to other counties shall be made to the legislature by December 1, 2020. [2018 c 95 § 3.]

Findings—2018 c 95: "(1) The legislature finds that the agricultural industry is an integral part of Washington's economy and sense of common identity, and that the behavioral health of workers in the industry and their family members is a statewide concern.

(2) Several factors related to the agricultural industry may affect the behavioral health of workers in the agricultural industry, including job-related isolation and demands, stressful work environments, the heightened potential for financial losses, lack of access to behavioral health services, and barriers to or unwillingness to seek mental health services.

(3) A 2016 report from the federal centers for disease control and prevention studied suicide data from the year 2012 and found that workers in the farming, fishing, and forestry industries had the highest rate of suicide, eighty-four and one-half suicides per one hundred thousand workers, among the occupational groups that it studied.

(4) The legislature finds that there is an urgent need to develop resources and interventions specifically targeted to helping workers in the agricultural industry and their family members manage their behavioral health needs." [2018 c 95 § 1.]

(1) The department may establish a program to purchase and maintain liability malpractice insurance for retired primary and specialty care providers who provide health care services to low-income patients. The following conditions apply to the program:

(a) Health care services shall be provided at clinics serving low-income patients that are public or private tax-exempt corporations or other established practice settings as defined by the department;

(e) Specialists in this program will be limited to those whose malpractice insurance premiums are comparable to primary care providers.

(2) This section and RCW 43.70.470 shall not be interpreted to require a liability insurer to provide coverage to a health care provider should the insurer determine that coverage should not be offered to a health care provider because of past claims experience or for other appropriate reasons.

(3) The state and its employees who operate the program shall be immune from any civil or criminal action involving claims against clinics or health care providers that provided health care services under this section and RCW 43.70.470. This protection of immunity shall not extend to any clinic or health care provider participating in the program.

(4) The department may monitor the claims experience of retired health care providers covered by liability insurers contracting with the department.

(5) The department may provide liability insurance under chapter 113, Laws of 1992 only to the extent funds are provided for this purpose by the legislature. If there are insufficient funds to support all applications for liability insurance coverage, priority shall be given to those retired health care providers working at clinics operated by public or private tax-exempt corporations rather than clinics operated by for-profit corporations. 43.70.490 Emergency medical service personnel training program—Assistance to persons with disabilities—Requirements—Law enforcement officer training—Definitions. (1) Subject to the availability of amounts appropriated for this specific purpose, the department, in collaboration with the department of social and health services, the state fire marshal's office, the superintendent of public instruction, and the Washington state council of firefighters, must review existing local training programs and training programs being used in other states and design a statewide training program that will familiarize fire department and emergency medical service personnel with the techniques, procedures, and protocols for best handling situations in which persons with disabilities are present at the scene of an emergency in order to maximize the safety of persons with disabilities, minimize the likelihood of injury to persons with disabilities, and promote the safety of all persons present. The program must include a checklist of disabilities, symptoms of such disabilities, and things to do and not to do relevant to a particular disability so fire department and emergency medical services personnel can easily and quickly determine the specific scenario into which they are entering. The department must make the training program available on the department's web site for use by all fire departments and

emergency medical service agencies in the state. The department must include on its web site a list of public and private nonprofit disability-related agencies and organizations and the contact information of each agency and organization. Fire departments and emergency medical service agencies must ensure their employees are adequately trained in and familiarized with techniques, procedures, and protocols for best handling situations in which persons with particular disabilities are present at the scene of an emergency.

(2) Subject to the availability of amounts appropriated for this specific purpose, the criminal justice training commission, in consultation with the Washington state patrol and other stakeholders, must examine existing training programs and curricula related to law enforcement officers responding to an emergency where a person with a disability may be present, to ensure that those programs and curricula are consistent with best practices.

(3) For purposes of this section:

(a) Both "accident" and "emergency" mean an unforeseen combination of circumstances or a resulting situation that results in a need for assistance or relief and calls for immediate action; and

(b) "Persons with disabilities" means individuals who have been diagnosed medically to have a physical, mental, emotional, intellectual, behavioral, developmental, or sensory disability. [2017 c 295 § 2.]

Short title—2017 c 295: "This act may be known and cited as the Travis alert act." [2017 c 295 § 1.]

43.70.495 Telemedicine training for health care professionals. (1) The legislature finds that a large segment of Washington residents do not have access to critical health care services. Telemedicine is a way to increase access to health care services to those who would otherwise not have reasonable access. The legislature therefore intends to ensure that health care professionals who provide services through telemedicine, as defined in RCW 70.41.020, in cities and rural areas alike, have current information available, making it possible for them to provide telemedicine services to the entire state of Washington.

(2) Except as permitted under subsection (3) of this section, beginning January 1, 2021, a health care professional who provides clinical services through telemedicine, other than a physician licensed under chapter 18.71 RCW or an osteopathic physician licensed under chapter 18.57 RCW, shall complete a telemedicine training. By January 1, 2020, the telemedicine collaborative shall make a telemedicine training available on its web site for use by health care professionals who use telemedicine technology. If a health care professional completes the training, the health care professional shall sign and retain an attestation. The training:

(a) Must include information on current state and federal law, liability, informed consent, and other criteria established by the collaborative for the advancement of telemedicine, in collaboration with the department and the Washington state medical quality assurance commission [medical commission];

(b) Must include a question and answer methodology to demonstrate accrual of knowledge; and

(c) May be made available in electronic format and completed over the internet.

(3) A health care professional is deemed to have met the requirements of subsection (2) of this section if the health care professional:

(a) Completes an alternative telemedicine training; and

(b) Signs and retains an attestation that he or she completed the alternative telemedicine training.

(4) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Alternative telemedicine training" means training that includes components that are substantively similar to the telemedicine training developed by the telemedicine collaborative under subsection (2) of this section. "Alternative telemedicine training" may include, but is not limited to:

(i) Training offered by hospitals and other health care facilities to employees of the facility;

(ii) Continuing education courses; and

(b) All such programs shall comply with the requirements of RCW 70.41.200(1) (a), (c), (d), (e), (f), (g), and (h) as modified to reflect the structural organization of the institution, facility, professional societies or organizations, health care service contractors, health maintenance organizations, health carriers, or any other person or entity providing health care coverage under chapter 48.42 RCW that is subject to the jurisdiction and regulation of any state agency or any subdivision thereof, unless an alternative quality improvement program substantially equivalent to RCW 70.41.200(1)(a) is developed. All such programs, whether complying with the requirement set forth in RCW 70.41.200(1)(a) or in the form of an alternative program, must be approved by the department before the discovery limitations provided in subsections (3) and (4) of this section and the exemption under RCW 42.56.360(1)(c) and subsection (5) of this section shall apply. In reviewing plans submitted by licensed entities that are associated with physicians' offices, the department shall ensure that the exemption under RCW 42.56.360(1)(c) and the discovery limitations of this section are applied only to information and documents related specifically to quality improvement activities undertaken by the licensed entity.

Any person or entity participating in a coordinated quality improvement program that, in substantial good faith, shares information or documents with one or more other programs, committees, or boards under subsection (6) of this section is not subject to an action for civil damages or other relief as a result of the activity or its consequences. For the purposes of this section, sharing information is presumed to be in substantial good faith. However, the presumption may be rebutted upon a showing of clear, cogent, and convincing evidence that the information shared was knowingly false or deliberately misleading.

action, and no person who was in attendance at a meeting of such committee or who participated in the creation, collection, or maintenance of information or documents specifically for the committee shall be permitted or required to testify in any civil action as to the content of such proceedings or the documents and information prepared specifically for the committee. 43.70.512 Public health system—Foundational public health services—Intent. (1) Protecting the public's health across the state is a fundamental responsibility of the state and is accomplished through the governmental public health system. This system is comprised of the state department of health, state board of health, local health jurisdictions, sovereign tribal nations, and Indian health programs.

(2)(a) The legislature intends to define a limited statewide set of core public health services, called foundational public health services, which the governmental public health system is responsible for providing in a consistent and uniform way in every community in Washington. These services are comprised of foundational programs and cross-cutting capabilities.

(b) These governmental public health services should be delivered in ways that maximize the efficiency and effectiveness of the overall system, make best use of the public health workforce and evolving technology, and address health equity.

(c) Funding for the governmental public health system must be restructured to support foundational public health services. In restructuring, there must be efforts to both reinforce current governmental public health system capacity and implement service delivery models allowing for system stabilization and transformation. [2019 c 14 § 1; 2007 c 259 § 60.]

43.70.515 Foundational public health services—Funding. (1) With any state funding of foundational public health services, the state expects that measurable benefits will be realized to the health of communities in Washington as a result of the improved capacity of the governmental public health system. Close coordination and sharing of services are integral to increasing system capacity.

(2)(a) Funding for foundational public health services shall be appropriated to the office of financial management. The office of financial management may only allocate funding to the department if the department, after consultation with federally recognized Indian tribes pursuant to chapter 43.376 RCW, jointly certifies with a state association representing local health jurisdictions and the state board of health, to the office of financial management that they are in agreement on the distribution and uses of state foundational public health services funding across the public health system.

(b) If joint certification is provided, the department shall distribute foundational public health services funding according to the agreed-upon distribution and uses. If joint certifica-

tion is not provided, appropriations for this purpose shall lapse.

(3) By October 1, 2020, the department, in partnership with sovereign tribal nations, local health jurisdictions, and the state board of health, shall report on:

(1) The department, in conjunction with local health jurisdictions, shall require each local health jurisdiction to submit an immunization assessment and enhancement proposal, consistent with the standards established in the public health [services] improvement plan, to provide immunization protection to the children of the state to further reduce vaccine-preventable diseases.

(2) These plans shall include, but not be limited to:

(a) A description of the population groups in the jurisdiction that are in the greatest need of immunizations;

Immunization: RCW 28A.210.060.

43.70.526 Childhood immunizations—Resources for expecting parents. The department shall develop and make available resources for expecting parents regarding recommended childhood immunizations. 43.70.540 Data collection—Legislative finding and intent. The legislature recognizes that the state patrol, the administrative office of the courts, the sheriffs' and police chiefs' association, the department of social and health services, the *department of community, trade, and economic development, the sentencing guidelines commission, the department of corrections, and the superintendent of public instruction each have comprehensive data and analysis capa-

(2021 Ed.)

bilities that have contributed greatly to our current understanding of crime and violence, and their causes.

The legislature finds, however, that a single health-oriented agency must be designated to provide consistent guidelines to all these groups regarding the way in which their data systems collect this important data. It is not the intent of the legislature by RCW 43.70.545 to transfer data collection requirements from existing agencies or to require the addition of major new data systems. It is rather the intent to make only the minimum required changes in existing data systems to increase compatibility and comparability, reduce duplication, and to increase the usefulness of data collected by these agencies in developing more accurate descriptions of violence. [2005 c 282 § 45; 1995 c 399 § 76; 1994 sp.s. c 7 § 201.]

***Reviser's note:** The "department of community, trade, and economic development" was renamed the "department of commerce" by 2009 c 565.

Legislative finding and intent—1994 sp.s. c 7: "The legislature finds that the increasing violence in our society causes great concern for the immediate health and safety of our citizens and our social institutions. Youth violence is increasing at an alarming rate and young people between the ages of fifteen and twenty-four are at the highest risk of being perpetrators and victims of violence. Additionally, random violence, including homicide and the use of firearms, has dramatically increased over the last decade.

The legislature finds that violence is abhorrent to the aims of a free society and that it cannot be tolerated. State efforts at reducing violence must include changes in criminal penalties, reducing the unlawful use of and access to firearms, increasing educational efforts to encourage nonviolent means for resolving conflicts, and allowing communities to design their prevention efforts.

The legislature finds that the problem of violence can be addressed with many of the same approaches that public health programs have used to control other problems such as infectious disease, tobacco use, and traffic fatalities.

Addressing the problem of violence requires the concerted effort of all communities and all parts of state and local governments. It is the immediate purpose of chapter 7, Laws of 1994 sp. sess. to: (1) Prevent acts of violence by encouraging change in social norms and individual behaviors that have been shown to increase the risk of violence; (2) reduce the rate of at-risk children and youth, as defined in *RCW 70.190.010; (3) increase the severity and certainty of punishment for youth and adults who commit violent acts; (4) reduce the severity of harm to individuals when violence occurs; (5) empower communities to focus their concerns and allow them to control the funds dedicated to empirically supported preventive efforts in their region; and (6) reduce the fiscal and social impact of violence on our society." [1994 sp.s. c 7 § 101.]

***Reviser's note:** The governor vetoed 1994 sp.s. c 7 § 302, which amended RCW 70.190.010 to define "at-risk children and youth." RCW 70.190.010 was subsequently amended by 1996 c 132 § 2, which now includes a definition for "at-risk children." RCW 70.190.010 was subsequently repealed by 2011 1st sp.s. c 32 § 13, effective June 30, 2012.

***Reviser's note:** Sections 901 through 909, chapter 7, Laws of 1994 sp. sess. were approved and ratified by the voters on November 8, 1994, in Referendum Bill No. 43. Therefore, the amendments to sections 510 through 512, 519, 521, 525, and 527, chapter 7, Laws of 1994 sp. sess. do not expire on July 1, 1995.

43.70.545 Data collection and reporting rules. (1) The department of health shall develop, based on recommendations in the public health services improvement plan and in consultation with affected groups or agencies, comprehensive rules for the collection and reporting of data relating to acts of violence, at-risk behaviors, and risk and protective factors. The data collection and reporting rules shall be used by any public or private entity that is required to report data relating to these behaviors and conditions. The department may require any agency or program that is state-funded or that accepts state funds and any licensed or regulated person

or professional to report these behaviors and conditions. To the extent possible the department shall require the reports to be filed through existing data systems. The department may also require reporting of attempted acts of violence and of nonphysical injuries. For the purposes of this section "acts of violence" means self-directed and interpersonal behaviors that can result in suicide, homicide, and nonfatal intentional injuries. "At-risk behaviors," "protective factors," and "risk factors" have the same meanings as provided in *RCW 70.190.010. A copy of the data used by a school district to prepare and submit a report to the department shall be retained by the district and, in the copy retained by the district, identify the reported acts or behaviors by school site.

(2) The department is designated as the statewide agency for the coordination of all information relating to violence and other intentional injuries, at-risk behaviors, and risk and protective factors.

(3) The department shall provide necessary data to the local health departments for use in planning by or evaluation of any community network authorized under RCW 70.190.060.

(4) The department shall by rule establish requirements for local health departments to perform assessment related to at-risk behaviors and risk and protective factors and to assist community networks in policy development and in planning and other duties under chapter 7, Laws of 1994 sp. sess.

(5) The department may, consistent with its general authority and directives under RCW 43.70.540 through 43.70.560, contract with a college or university that has experience in data collection relating to the health and overall welfare of children to provide assistance to:

(a) State and local health departments in developing new sources of data to track acts of violence, at-risk behaviors, and risk and protective factors; and

(b) Local health departments to compile and effectively communicate data in their communities. [1998 c 245 § 76; 1994 sp.s. c 7 § 202.]

*Reviser's note: RCW 70.190.010 was repealed by 2011 1st sp.s. c 32 § 13, effective June 30, 2012.

Finding—Intent—Severability—Effective dates—Contingent expiration date—1994 sp.s. c 7: See notes following RCW 43.70.540.

43.70.550 Public health services improvement plan—Contents. The public health services improvement plan developed under *RCW 43.70.520 shall include:

(1) Minimum standards for state and local public health assessment, performance measurement, policy development, and assurance regarding social development to reduce at-risk behaviors and risk and protective factors. The department in the development of data collection and reporting requirements for the superintendent of public instruction, schools, and school districts shall consult with the joint select committee on education restructuring and local school districts.

(2)(a) Measurable risk factors that are empirically linked to violent criminal acts by juveniles, teen substance abuse, teen pregnancy and male parentage, teen suicide attempts, dropping out of school, child abuse or neglect, and domestic violence; and

(b) An evaluation of other factors to determine whether they are empirically related risk factors, such as: Out-of-home placements, poverty, single-parent households, inade-

quate nutrition, hunger, unemployment, lack of job skills, gang affiliation, lack of recreational or cultural opportunities, school absenteeism, court-ordered parenting plans, physical, emotional, or behavioral problems requiring special needs assistance in K-12 schools, learning disabilities, and any other possible factors.

(3) Data collection and analysis standards on at-risk behaviors and risk and protective factors for use by the local public health departments and the **state council and the local community networks to ensure consistent and interchangeable data.

(4) Recommendations regarding any state or federal statutory barriers affecting data collection or reporting.

The department shall provide an annual report to the Washington state institute for public policy on the implementation of this section. [1994 sp.s. c 7 § 203.]

Reviser's note: *(1) RCW 43.70.520 was repealed by 2019 c 14 § 3.

***(2) RCW 70.170.030, which created the health care access and cost control council, was repealed by 1995 c 269 § 2204.

Finding—Intent—Severability—Effective dates—Contingent expiration date—1994 sp.s. c 7: See notes following RCW 43.70.540.

43.70.555 Assessment standards. The department shall establish, by rule, standards for local health departments and networks to use in assessment, performance measurement, policy development, and assurance regarding social development to prevent health problems caused by risk factors empirically linked to: Violent criminal acts by juveniles, teen substance abuse, teen pregnancy and male parentage, teen suicide attempts, dropping out of school, child abuse or neglect, and domestic violence. The standards shall be based on the standards set forth in the public health services improvement plan as required by RCW 43.70.550. [2011 1st sp.s. c 32 § 8; 1998 c 245 § 77; 1994 sp.s. c 7 § 204.]

Finding—Intent—Severability—Effective dates—Contingent expiration date—1994 sp.s. c 7: See notes following RCW 43.70.540.

43.70.560 Media violence—Reporting reduction efforts. The legislature encourages the use of a statewide voluntary, socially responsible policy to reduce the emphasis, amount, and type of violence in all public media. The department shall develop a suggested reporting format for use by the print, television, and radio media in reporting their voluntary violence reduction efforts. Each area of the public media may carry out the policy in whatever manner that area deems appropriate. [1994 sp.s. c 7 § 205.]

Finding—Intent—Severability—1994 sp.s. c 7: See notes following RCW 43.70.540.

43.70.570 Intent—1995 c 43. The legislature declares its intent to implement the recommendations of the public health improvement plan by initiating a program to provide the public health system with the necessary capacity to improve the health outcomes of the population of Washington state and establishing the methodology by which improvement in the health outcomes and delivery of public health activities will be assessed. [1995 c 43 § 1.]

43.70.595 Health equity zones. (1) Subject to the availability of amounts appropriated for this specific purpose, the department, in coordination with the governor's inter-agency council on health disparities, local health jurisdictions, and accountable communities of health, must share and review population health data, which may be related to chronic and infectious diseases, maternal birth complications, preterm births and other newborn health complications, and any other relevant health data, including hospital community health needs assessments, to identify, or allow communities to self-identify, potential health equity zones in the state and develop projects to meet the unique needs of each zone. The department must provide technical support to communities in the use of data to facilitate self-identification of health equity zones.

(2) Communities' uses of data must align with projects and outcomes to be measured in self-identified zones.

(3) The department must use the first 12 months following July 25, 2021, to develop a plan and process to allow communities to implement health equity zone programs statewide. The department has authority to determine the number of health equity zones and projects based on available resources.

(4) Communities that self-identify zones or the department must notify relevant community organizations in the zones of the health equity zone designation and allow those organizations to identify projects to address the zone's most urgent needs related to health disparities. Community organizations may include, but are not limited to:

(a) Community health clinics;

(b) Local health providers;

(c) Federally qualified health centers;

(d) Health systems;

(e) Local government;

(f) Public school districts;

(g) Recognized American Indian organizations and Indian health organizations;

(h) Local health jurisdictions; and

(i) Any other nonprofit organization working to address health disparities in the zone.

(5) Local organizations working within zones may form coalitions to identify the needs of the zone, design projects to address those needs, and develop an action plan to implement the projects. Local organizations may partner with state or national organizations outside the specific zone designation. Projects may include, but are not limited to:

(a) Addressing health care provider access and health service delivery;

(b) Improving information sharing and community trust in providers and services;

(c) Conducting outreach and education efforts; and

(d) Recommending systems and policy changes that will improve population health.

(6) The department must provide:

(a) Support to the coalitions in identifying and applying for resources to support projects within the zones;

(b) Technical assistance related to project management and developing health outcome and other measures to evaluate project success; and

(c) Subject to availability, funding to implement projects.

(7) Subject to the availability of amounts appropriated for this specific purpose, by December 1, 2023, and every two years thereafter, the department must submit a report to the legislature detailing the projects implemented in each zone and the outcome measures, including year-over-year health data, to demonstrate project success.

(8) For the purposes of this section "health equity zone" or "zone" means a contiguous geographic area that demonstrates measurable and documented health disparities and poor health outcomes, which may include but are not limited to high rates of maternal complications, newborn health complications, and chronic and infectious disease, is populated by communities of color, Indian communities, communities experiencing poverty, or immigrant communities, and is small enough for targeted interventions to have a significant impact on health outcomes and health disparities. Documented health disparities must be documented or identified by the department or the centers for disease control and prevention. [2021 c 262 § 2.]

Findings—Intent—2021 c 262: "(1) The legislature finds that people of color, Indian, people experiencing poverty, and immigrant populations experience significant health disparities compared to the general population, including more limited access to health care and poorer health outcomes. The legislature finds that these circumstances result in higher rates of morbidity and mortality for persons of color and immigrant populations than observed in the general population.

(2) Therefore, the legislature intends to create health equity zones to address significant health disparities identified by health outcome data. The state intends to work with community leaders within the health equity zones to share information and coordinate efforts with the goal of addressing the most urgent needs. Health equity zone partners shall develop, expand, and maintain positive relationships with communities of color, Indian communities, communities experiencing poverty, and immigrant communities within the zone to develop effective and sustainable programs to address health inequity." [2021 c 262 § 1.]

43.70.600 Survey regarding exposure to radio frequencies—Results. When funds are appropriated for this purpose, the department shall conduct a survey of scientific literature regarding the possible health effects of human exposure to the radio frequency part of the electromagnetic spectrum (300Hz to 300GHz). The department may submit the survey results to the legislature, prepare a summary of that survey, and make the summary available to the public. The department may update the survey and summary periodically. [1998 c 245 § 78; 1996 c 323 § 6.]

Findings—1996 c 323: "The legislature finds that concerns have been raised over possible health effects from exposure to some wireless telecommunications facilities, and that exposures from these facilities should be kept as low as reasonably achievable while still allowing the operation of these networks. The legislature further finds that the department of health should serve as the state agency that follows the issues and compiles information pertaining to potential health effects from wireless telecommunications facilities." [1996 c 323 § 1.]

43.70.605 Personal wireless services—Random testing on power density analysis—Rules. Unless this section is preempted by applicable federal statutes, the department may require that in residential zones or areas, all providers of personal wireless services, as defined in *section 1 of this act,

provide random test results on power density analysis for the provider's licensed frequencies showing radio frequency levels before and after development of the personal wireless service antenna facilities, following national standards or protocols of the federal communications commission or other federal agencies. This section shall not apply to microcells as defined in RCW 80.36.375. The department may adopt rules to implement this section. [1996 c 323 § 7.]

***Reviser's note:** The reference to section 1 of this act is erroneous. Section 2 of the act, codified as RCW 43.21C.0384, was apparently intended.

Findings—1996 c 323: See note following RCW 43.70.600.

43.70.610 Domestic violence education program—Established—Findings. The legislature finds that domestic violence is the leading cause of injury among women and is linked to numerous health problems, including depression, abuse of alcohol and other drugs, and suicide. Despite the frequency of medical attention, few people are diagnosed as victims of spousal abuse. The department, in consultation with the disciplinary authorities as defined in RCW 18.130.040, shall establish, within available department general funds, an ongoing domestic violence education program as an integral part of its health professions regulation. The purpose of the education program is to raise awareness and educate health care professionals regarding the identification, appropriate treatment, and appropriate referral of victims of domestic violence. The disciplinary authorities having the authority to offer continuing education may provide training in the dynamics of domestic violence. No funds from the health professions account may be utilized to fund activities under this section unless the disciplinary authority authorizes expenditures from its proportions of the account. A disciplinary authority may defray costs by authorizing a fee to be charged for participants or materials relating to any sponsored program. [1996 c 191 § 89.]

43.70.613 Health care professionals—Health equity continuing education. (1) By January 1, 2024, the rule-making authority for each health profession licensed under Title 18 RCW subject to continuing education requirements must adopt rules requiring a licensee to complete health equity continuing education training at least once every four years.

(2) Health equity continuing education courses may be taken in addition to or, if a rule-making authority determines the course fulfills existing continuing education requirements, in place of other continuing education requirements imposed by the rule-making authority.

(3)(a) The secretary and the rule-making authorities must work collaboratively to provide information to licensees about available courses. The secretary and rule-making authorities shall consult with patients or communities with lived experiences of health inequities or racism in the health care system and relevant professional organizations when developing the information and must make this information available by July 1, 2023. The information should include a course option that is free of charge to licensees. It is not required that courses be included in the information in order to fulfill the health equity continuing education requirement.

(b) By January 1, 2023, the department, in consultation with the boards and commissions, shall adopt model rules

establishing the minimum standards for continuing education programs meeting the requirements of this section. The department shall consult with patients or communities with lived experience of health inequities or racism in the health care system, relevant professional organizations, and the rule-making authorities in the development of these rules.

(c) The minimum standards must include instruction on skills to address the structural factors, such as bias, racism, and poverty, that manifest as health inequities. These skills include individual-level and system-level intervention, and self-reflection to assess how the licensee's social position can influence their relationship with patients and their communities. These skills enable a health care professional to care effectively for patients from diverse cultures, groups, and communities, varying in race, ethnicity, gender identity, sexuality, religion, age, ability, socioeconomic status, and other categories of identity. The courses must assess the licensee's ability to apply health equity concepts into practice. Course topics may include, but are not limited to:

(i) Strategies for recognizing patterns of health care disparities on an individual, institutional, and structural level and eliminating factors that influence them;

(ii) Intercultural communication skills training, including how to work effectively with an interpreter and how communication styles differ across cultures;

(iii) Implicit bias training to identify strategies to reduce bias during assessment and diagnosis;

(iv) Methods for addressing the emotional well-being of children and youth of diverse backgrounds;

(v) Ensuring equity and antiracism in care delivery pertaining to medical developments and emerging therapies;

(vi) Structural competency training addressing five core competencies:

(A) Recognizing the structures that shape clinical interactions;

(B) Developing an extraclinical language of structure;

(C) Rearticulating "cultural" formulations in structural terms;

(D) Observing and imagining structural interventions; and

(E) Developing structural humility; and

(vii) Cultural safety training.

(4) The rule-making authority may adopt rules to implement and administer this section, including rules to establish a process to determine if a continuing education course meets the health equity continuing education requirement established in this section.

(5) For purposes of this section the following definitions apply:

(a) "Rule-making authority" means the regulatory entities identified in RCW 18.130.040 and authorized to establish continuing education requirements for the health care professions governed by those regulatory entities.

(b) "Structural competency" means a shift in medical education away from pedagogic approaches to stigma and inequalities that emphasize cross-cultural understandings of individual patients, toward attention to forces that influence health outcomes at levels above individual interactions. Structural competency reviews existing structural approaches to stigma and health inequities developed outside of medicine

(2021 Ed.)

and proposes changes to United States medical education that will infuse clinical training with a structural focus.

(c) "Cultural safety" means an examination by health care professionals of themselves and the potential impact of their own culture on clinical interactions and health care service delivery. This requires individual health care professionals and health care organizations to acknowledge and address their own biases, attitudes, assumptions, stereotypes, prejudices, structures, and characteristics that may affect the quality of care provided. In doing so, cultural safety encompasses a critical consciousness where health care professionals and health care organizations engage in ongoing self-reflection and self-awareness and hold themselves accountable for providing culturally safe care, as defined by the patient and their communities, and as measured through progress towards achieving health equity. Cultural safety requires health care professionals and their associated health care organizations to influence health care to reduce bias and achieve equity within the workforce and working environment. [2021 c 276 § 2.]

Findings—2021 c 276: "The legislature finds that:

(1) Healthy Washingtonians contribute to the economic and social welfare of their families and communities, and access to health services and improved health outcomes allows all Washington families to enjoy productive and satisfying lives;

(2) The COVID-19 pandemic has further exposed that health outcomes are experienced differently by different people based on discrimination and bias by the health care system. Research shows that health care resources are distributed unevenly by intersectional categories including, but not limited to, race, gender, ability status, religion, sexual orientation, socioeconomic status, and geography; and

(3) These inequities have permeated health care delivery, deepening adverse outcomes for marginalized communities. This bill aims to equip health care workers with the skills to recognize and reduce these inequities in their daily work. In addition to their individual impact, health care workers need the skills to address systemic racism and bias." [2021 c 276 § 1.]

43.70.615 Multicultural health awareness and education program—Integration into health professions basic education preparation curriculum.

(1) For the purposes of this section, "multicultural health" means the provision of health care services with the knowledge and awareness of the causes and effects of the determinants of health that lead to disparities in health status between different genders and racial and ethnic populations and the practice skills necessary to respond appropriately.

(2) The department, in consultation with the disciplining authorities as defined in RCW 18.130.040, shall establish, within available department general funds, an ongoing multicultural health awareness and education program as an integral part of its health professions regulation. The purpose of the education program is to raise awareness and educate health care professionals regarding the knowledge, attitudes, and practice skills necessary to care for diverse populations to achieve a greater understanding of the relationship between culture and health. Any such education shall be developed in collaboration with education programs that train students in that health profession. No funds from the health professions account may be utilized to fund activities under this section unless the disciplining authority authorizes expenditures from its proportions of the account.

(3) By July 1, 2008, each education program with a curriculum to train health professionals for employment in a profession credentialed by a disciplining authority under chapter 18.130 RCW shall integrate into the curriculum instruction in

multicultural health as part of its basic education preparation curriculum. The department may not deny the application of any applicant for a credential to practice a health profession on the basis that the education or training program that the applicant successfully completed did not include integrated multicultural health curriculum as part of its basic instruction. [2021 c 276 § 3; 2006 c 237 § 2.]

Findings—2021 c 276: See note following RCW 43.70.613.

Findings—2006 c 237: "The legislature finds that women and people of color experience significant disparities from the general population in education, employment, healthy living conditions, access to health care, and other social determinants of health. The legislature finds that it shall be a priority for the state to develop the knowledge, attitudes, and practice skills of health professionals and those working with diverse populations to achieve a greater understanding of the relationship between culture and health and gender and health." [2006 c 237 § 1.]

43.70.617 Prenatal nutrition best practices—Educational resources for pregnant women. The department shall develop and make available educational resources for pregnant women regarding prenatal nutrition best practices to promote infant health. The educational resources may include, but are not limited to, courses delivered in-person or electronically and pamphlets printed on paper or made available on the department's web site. The educational resources are intended to provide pregnant women knowledge of healthy foods and essential daily nutrients needed to promote infant growth and development. [2014 c 38 § 1.]

43.70.619 Pregnancy complications—Informational resources. By December 31, 2021, the department shall design, prepare, and make available online, written materials to clearly inform health care providers and staff of the provisions of, and authority to act under, chapter 70.400 RCW. [2021 c 235 § 5.]

Conflict with federal requirements—2021 c 235: See RCW 70.400.900.

43.70.620 List of contacts—Health care professions. The secretary shall create and maintain a list of contacts with each of the health care professions regulated under the following chapters for the purpose of policy advice and information dissemination: RCW 18.06.080, 18.89.050, and 18.138.070 and chapters *18.135, 18.55, and 18.88A RCW. [1999 c 151 § 402.]

***Reviser's note:** Chapter 18.135 RCW was repealed by 2012 c 153 § 20.

43.70.630 Cost-reimbursement agreements. (1) The department may enter into a written cost-reimbursement agreement with a permit applicant or project proponent to recover from the applicant or proponent the reasonable costs incurred by the department in carrying out the requirements of this chapter, as well as the requirements of other relevant laws, as they relate to permit coordination, environmental review, application review, technical studies, and permit processing.

(2) The cost-reimbursement agreement shall identify the tasks and costs for work to be conducted under the agreement. The agreement must include a schedule that states:

- (a) The estimated number of weeks for initial review of the permit application;
- (b) The estimated number of revision cycles;
- (c) The estimated number of weeks for review of subsequent revision submittals;
- (d) The estimated number of billable hours of employee time;
- (e) The rate per hour; and
- (f) A date for revision of the agreement if necessary.

(3) The written cost-reimbursement agreement shall be negotiated with the permit applicant or project proponent. Under the provisions of a cost-reimbursement agreement, funds from the applicant or proponent shall be used by the department to contract with an independent consultant to carry out the work covered by the cost-reimbursement agreement. The department may also use funds provided under a cost-reimbursement agreement to hire temporary employees, to assign current staff to review the work of the consultant, to provide necessary technical assistance when an independent consultant with comparable technical skills is unavailable, and to recover reasonable and necessary direct and indirect costs that arise from processing the permit. The department shall, in developing the agreement, ensure that final decisions that involve policy matters are made by the agency and not by the consultant. The department shall make an estimate of the number of permanent staff hours to process the permits, and shall contract with consultants or hire temporary employees to replace the time and functions committed by these permanent staff to the project. The billing process shall provide for accurate time and cost accounting and may include a billing cycle that provides for progress payments.

(4) The cost-reimbursement agreement must not negatively impact the processing of other permit applications. In order to maintain permit processing capacity, the agency may hire outside consultants, temporary employees, or make internal administrative changes. Consultants or temporary employees hired as part of a cost-reimbursement agreement or to maintain agency capacity are hired as agents of the state not of the permit applicant. The restrictions of chapter 42.52 RCW apply to any cost-reimbursement agreement, and to any person hired as a result of a cost-reimbursement agreement. [2009 c 97 § 10; 2007 c 94 § 12; 2003 c 70 § 3; 2000 c 251 § 4.]

Intent—Captions not law—Effective date—2000 c 251: See notes following RCW 43.21A.690.

43.70.640 Workplace breastfeeding policies—Infant-friendly designation. (1) An employer may use the designation "infant-friendly" on its promotional materials if the employer has an approved workplace breastfeeding policy addressing at least the following:

- (a) Flexible work scheduling, including scheduling breaks and permitting work patterns that provide time for expression of breast milk;
- (b) A convenient, sanitary, safe, and private location, other than a restroom, allowing privacy for breastfeeding or expressing breast milk;
- (c) A convenient clean and safe water source with facilities for washing hands and rinsing breast-pumping equipment located in the private location specified in (b) of this subsection; and

(d) A convenient hygienic refrigerator in the workplace for the mother's breast milk.

(2) Employers seeking approval of a workplace breastfeeding policy must submit the policy to the department of health. The department of health shall review and approve those policies that meet the requirements of this section. The department may directly develop and implement the criteria for "infant-friendly" employers, or contract with a vendor for this purpose.

(3) For the purposes of this section, "employer" includes those employers defined in RCW 49.12.005 and also includes the state, state institutions, state agencies, political subdivisions of the state, and municipal corporations or quasi-municipal corporations. [2001 c 88 § 3.]

Acknowledgment—Declaration—Findings—2001 c 88: "(1) The legislature acknowledges the surgeon general's summons to all sectors of society and government to help redress the low breastfeeding rates and duration in the United States, including the social and workplace factors that can make it difficult for women to breastfeed. The legislature also acknowledges the surgeon general's report on the health and economic importance of breastfeeding which concludes that:

(a) Breastfeeding is one of the most important contributors to infant health;

(b) Breastfeeding provides a range of benefits for the infant's growth, immunity, and development; and

(c) Breastfeeding improves maternal health and contributes economic benefits to the family, health care system, and workplace.

(2) The legislature declares that the achievement of optimal infant and child health, growth, and development requires protection and support for the practice of breastfeeding. The legislature finds that:

(a) The American academy of pediatrics recommends exclusive breastfeeding for the first six months of a child's life and breastfeeding with the addition of solid foods to continue for at least twelve months, and that arrangements be made to provide expressed breast milk if the mother and child must separate during the first year. Children should be breastfed or fed expressed breast milk when they show signs of need, rather than according to a set schedule or the location;

(b) Breast milk contains all the nutrients a child needs for optimal health, growth, and development, many of which can only be found in breast milk;

(c) Research in developed countries provides strong evidence that breastfeeding decreases the incidence and/or severity of diarrhea, lower respiratory tract infection, otitis media, bacteremia, bacterial meningitis, urinary tract infection, and necrotizing enterocolitis. In addition, a number of studies show a possible protective effect of breastfeeding against SIDS, Type 1 diabetes mellitus, Crohn's disease, lymphoma, ulcerative colitis, and allergic diseases;

(d) Studies also indicate health benefits in mothers who breastfeed. Breastfeeding is one of the few ways that mothers may be able to lower their risk of developing breast and ovarian cancer, with benefits proportional to the duration that they are able to breastfeed. In addition, the maternal hormonal changes stimulated by breastfeeding also help the uterus recover faster and minimize the amount of blood mothers lose after birth. Breastfeeding inhibits ovulation and menstrual bleeding, thereby decreasing the risk of anemia and a precipitous subsequent pregnancy. Breastfeeding women also have an earlier return to prepregnancy weight;

(e) Approximately two-thirds of women who are employed when they become pregnant return to the workforce by the time their children are six months old;

(f) Employers benefit when their employees breastfeed. Breastfed infants are sick less often; therefore, maternal absenteeism from work is lower in companies with established lactation programs. In addition, employee medical costs are lower and employee productivity is higher;

(g) According to a survey of mothers in Washington, most want to breastfeed but discontinue sooner than they hope, citing lack of societal and workplace support as key factors limiting their ability to breastfeed;

(h) Many mothers fear that they are not making enough breast milk and therefore decrease or discontinue breastfeeding. Frequency of breastfeeding or expressing breast milk is the main regulator of milk supply, such that forcing mothers to go prolonged periods without breastfeeding or expressing breast milk can undermine their ability to maintain breastfeeding; and

(2021 Ed.)

(i) Maternal stress can physiologically inhibit a mother's ability to produce and let down milk. Mothers report modifiable sources of stress related to breastfeeding, including lack of protection from harassment and difficulty finding time and an appropriate location to express milk while away from their babies.

(3) The legislature encourages state and local governmental agencies, and private and public sector businesses to consider the benefits of providing convenient, sanitary, safe, and private rooms for mothers to express breast milk." [2001 c 88 § 1.]

43.70.650 School sealant endorsement program—Rules—Fee—Report to the legislature. The secretary is authorized to create a school sealant endorsement program for dental hygienists and dental assistants. The secretary of health, in consultation with the dental quality assurance commission and the dental hygiene examining committee, shall adopt rules to implement this section.

(1) A dental hygienist licensed in this state after April 19, 2001, is eligible to apply for endorsement by the department of health as a school sealant dental hygienist upon completion of the Washington state school sealant endorsement program. While otherwise authorized to act, currently licensed hygienists may still elect to apply for the endorsement.

(2) A dental assistant employed after April 19, 2001, by a dentist licensed in this state, who has worked under dental supervision for at least two hundred hours, is eligible to apply for endorsement by the department of health as a school sealant dental assistant upon completion of the Washington state school sealant endorsement program. While otherwise authorized to act, currently employed dental assistants may still elect to apply for the endorsement.

(3) The department may impose a fee for implementation of this section.

(4) The secretary shall provide a report to the legislature by December 1, 2005, evaluating the outcome of chapter 93, Laws of 2001. [2001 c 93 § 2.]

Findings—Intent—2001 c 93: "The legislature finds that access to preventive and restorative oral health services by low-income children is currently restricted by complex regulatory, financial, cultural, and geographic barriers that have resulted in a large number of children suffering unnecessarily from dental disease. The legislature also finds that very early exposure to oral health care can reverse this disease in many cases, thereby significantly reducing costs of providing dental services to low-income populations.

It is the intent of the legislature to address the problem of poor access to oral health care by providing for school-based sealant programs through the endorsement of dental hygienists." [2001 c 93 § 1.]

43.70.660 Product safety education. (1) The legislature authorizes the secretary to establish and maintain a product safety education campaign to promote greater awareness of products designed to be used by infants and children that:

(a) Are recalled by the United States consumer products safety commission;

(b) Do not meet federal safety regulations and voluntary safety standards;

(c) Are unsafe or illegal to place into the stream of commerce under the infant crib safety act, chapter 70.111 RCW; or

(d) Contain chemicals of high concern for children as identified under RCW 70A.430.040.

(2) The department shall make reasonable efforts to ensure that this infant and children product safety education

campaign reaches the target population. The target population for this campaign includes, but is not limited to, parents, foster parents and other caregivers, child care providers, consignment and resale stores selling infant and child products, and charitable and governmental entities serving infants, children, and families.

(3) The secretary may utilize a combination of methods to achieve this outreach and education goal, including but not limited to print and electronic media. The secretary may operate the campaign or may contract with a vendor.

(4) The department shall coordinate this infant and children product safety education campaign with child-serving entities including, but not limited to, hospitals, birthing centers, midwives, pediatricians, obstetricians, family practice physicians, governmental and private entities serving infants, children, and families, and relevant manufacturers.

(5) The department shall coordinate with other agencies and entities to eliminate duplication of effort in disseminating infant and children consumer product safety information.

(6) The department may receive funding for this infant and children product safety education effort from federal, state, and local governmental entities, child-serving foundations, or other private sources. [2021 c 65 § 45; 2008 c 288 § 6; 2001 c 257 § 2.]

Explanatory statement—2021 c 65: See note following RCW 53.54.030.

Findings—Intent—2001 c 257: "(1) The legislature finds that infants and children in Washington are injured, sometimes fatally, by unsafe consumer products designed for use by infants and children.

(2) The legislature finds that parents and other persons responsible for the care of infants and children are often unaware that some of these consumer products have been recalled or are unsafe.

(3) The legislature intends to address this lack of awareness by establishing a statewide infant and children product safety campaign across Washington state." [2001 c 257 § 1.]

43.70.665 Early detection breast and cervical cancer screening program—Medical advisory committee. (1) The legislature finds that Washington state has the highest incidence of breast cancer in the nation. Despite this, mortality rates from breast cancer have declined due largely to early screening and detection. Invasive cervical cancer is the most preventable type of cancer. The Pap test, used to detect early signs of this disease, has been called "medicine's most successful screening test." Applied consistently, invasive cervical cancer could nearly be eliminated. The legislature further finds that increasing access to breast and cervical cancer screening is critical to reducing incidence and mortality rates, and eliminating the disparities of this disease in women in Washington state. Furthermore, the legislature finds there is a need for a permanent program providing early detection and screening to the women and families of Washington state.

It is the intent of the legislature to establish an early detection breast and cervical cancer screening program as a voluntary screening program directed at reducing mortalities through early detection to be offered to eligible women only as funds are available.

(2) As used in this section:

(a) "Eligible woman" means a woman who is age forty to sixty-four, and whose income is at or below two hundred fifty percent of the federal poverty level, as published annually by the federal department of health and human services. Priority

enrollment shall be given to women as defined by the federal national breast and cervical cancer early detection program, under P.L. 101-354.

(b) "Approved providers" means those state-supported health providers, radiology facilities, and cytological laboratories that are recognized by the department as meeting the minimum program policies and procedures adopted by the department to qualify under the federal national breast and cervical cancer early detection program, and are designated as eligible for funding by the department.

(c) "Comprehensive" means a screening program that focuses on breast and cervical cancer screening as a preventive health measure, and includes diagnostic and case management services.

(3) The department of health is authorized to administer a state-supported early detection breast and cervical cancer screening program to assist eligible women with preventive health services. To the extent of available funding, eligible women may be enrolled in the early detection breast and cervical cancer screening program and additional eligible women may be enrolled to the extent that grants and contributions from community sources provide sufficient funds for expanding the program.

(4) Funds appropriated for the state program shall be used only to operate early detection breast and cervical cancer screening programs that have been approved by the department, or to increase access to existing state-approved programs, and shall not supplant federally supported breast and cervical cancer early detection programs.

(5) Enrollment in the early detection breast and cervical cancer screening program shall not result in expenditures that exceed the amount that has been appropriated for the program in the operating budget. If it appears that continued enrollment will result in expenditures exceeding the appropriated level for a particular fiscal year, the department may freeze new enrollment in the program. Nothing in this section prevents the department from continuing enrollment in the program if there are adequate private or public funds in addition to those appropriated in the biennial budget to support the cost of such enrollment.

(6) The department shall establish a medical advisory committee composed of interested medical professionals and consumer liaisons with expertise in a variety of areas relevant to breast and cervical health to provide expert medical advice and guidance. The medical advisory committee shall address national, state, and local concerns regarding best practices in the field of early prevention and detection for breast and cervical cancer and assist the early detection breast and cervical cancer screening program in implementing program policy that follows the best practices of high quality health care for clinical, diagnostic, pathologic, radiological, and oncology services. [2006 c 55 § 1.]

43.70.670 Human immunodeficiency virus insurance program. (1) "Human immunodeficiency virus insurance program," as used in this section, means a program that provides health insurance coverage for individuals with human immunodeficiency virus, as defined in RCW 70.24.017(7), who are not eligible for medical assistance programs from the health care authority as defined in *RCW 74.09.010(10) and

meet eligibility requirements established by the department of health.

(2) The department of health may pay for health insurance coverage on behalf of persons with human immunodeficiency virus, who meet department eligibility requirements, and who are eligible for "continuation coverage" as provided by the federal consolidated omnibus budget reconciliation act of 1985, group health insurance policies, or individual policies. [2011 1st sp.s. c 15 § 72; 2007 c 259 § 38; 2003 c 274 § 2.]

Finding—2021 c 205: "The legislature finds that everyone in Washington state, no matter what community they live in, should be able to rely on a public health system that is able to support a standard level of public health service. Like public safety, there is a foundational level of public health delivery that must exist everywhere for services to work. A strong public health system is only possible with intentional investments into our state's public health system. Services should be delivered efficiently, equitably, and effectively, in ways that make the best use of technology, science, expertise, and leveraged resources and in a manner that is responsive to local communities." [2021 c 205 § 1.]

43.70.680 Volunteers for emergency or disaster assistance. (1) The department is authorized to contact persons issued credentials under this title for the purpose of requesting permission to collect his or her name, profession, and contact information as a possible volunteer in the event of a bioterrorism incident, natural disaster, public health emer-

(2) The department shall maintain a record of all volunteers who provide information under subsection (1) of this section. Upon request, the department shall provide the record of volunteers to:

- (a) Local health departments;
- (b) State agencies engaged in public health emergency planning and response, including the state military department;
- (c) Agencies of other states responsible for public health emergency planning and response; and
- (d) The centers for disease control and prevention. [2003 c 384 § 1.]

43.70.690 State asthma plan. (1) The department, in collaboration with its public and private partners, shall design a state asthma plan, based on clinically sound criteria including nationally recognized guidelines such as those established by the national asthma education prevention partnership expert panel report guidelines for the diagnosis and management of asthma.

(2) The plan shall include recommendations in the following areas:

- (a) Evidence-based processes for the prevention and management of asthma;

Findings—2005 c 462: See note following RCW 28A.210.370.

43.70.700 Locally grown foods—Women, infant, and children farmers market nutrition program—Fruit and vegetable benefit—Rules. (1) The department shall adopt rules authorizing retail operation farms stores, owned and operated by a farmer and collocated with a site of agricultural production, to participate in the women, infant, and children farmers market nutrition program to provide locally grown, nutritious, unprepared fruits and vegetables to eligible program participants.

(2) Such rules must meet the provisions of 7 C.F.R. part 3016, uniform administrative requirements for grants and cooperative agreements to state and local governments, as it existed on June 12, 2008, or such subsequent date as may be provided by the department by rule, consistent with the purposes of this section.

(3) Subject to the availability of amounts appropriated for this specific purpose, the department shall distribute a fruit and vegetable benefit of no less than twenty-eight dollars per summer farmers market season to each eligible par-

ticipant in the women, infant, and children farmers market nutrition program. To the extent that federal funds are available, the department shall use federal funds up to the maximum benefit allowable under federal law. [2020 c 68 § 2; 2008 c 215 § 8.]

Findings—Intent—2020 c 68: "The legislature finds that our state has a robust agricultural system, with Washington farmers producing diverse foods available at regional markets throughout the state. The legislature further finds that one in six Washington children do not know where their next meal will come from and that promoting access to fresh foods supports Washington farmers as well as food-insecure families. Hunger for families with children continues to be a significant issue across our state and a growing concern. Hunger and unhealthy diets also impact the health and development of children and a child's ability to learn. Therefore, the legislature intends to expand access to nutritious foods by increasing the fruit and vegetable benefit for participants in the women, infant, and children farmers market nutrition program." [2020 c 68 § 1.]

Findings—Intent—Short title—Captions not law—Conflict with federal requirements—2008 c 215: See notes following RCW 15.64.060.

43.70.705 Fall prevention program. Within funds appropriated for this purpose, the department shall develop a statewide fall prevention program. The program shall include networking community services, identifying service gaps, making affordable senior-based, evaluated exercise programs more available, providing consumer education to older adults, their adult children, and the community at large, and conducting professional education on fall risk identification and reduction. Findings—Intent—Severability—2008 c 146: See notes following RCW 74.41.040.

43.70.710 Annual review of medication practices of five jails that use nonpractitioner jail personnel—Non-compliance. The department of health shall annually review the medication practices of five jails that provide for the delivery and administration of medications to inmates in their custody by nonpractitioner jail personnel. The review shall assess whether the jails are in compliance with sections 3 and 4, chapter 411, Laws of 2009. To the extent that a jail is found not in compliance, the department shall provide technical assistance to assist the jail in resolving any areas of noncompliance. [2009 c 411 § 5.]

43.70.715 COVID-19 public health response account. (1) The COVID-19 public health response account is created in the custody of the state treasurer. The account shall consist of funds appropriated by the legislature and grants received by the department of health for activities in response to the coronavirus pandemic (COVID-19). Only the secretary, or the secretary's designee, may authorize expenditures from the account for costs related to the public health response to COVID-19, subject to any limitations imposed by grant funding deposited into the account. The COVID-19 public health response account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

(2)(a) The legislature finds that a safe, efficient, and effective delivery of vaccinations is of the utmost importance for restoring societal and economic functions. As we learn more about the virus, the vaccine, and challenges to vaccine allocation and distribution, it is anticipated that the state's COVID-19 vaccination distribution plan will evolve. To that

end, the legislature has provided flexibility by funding expenditures for testing, contact tracing, mitigation activities, vaccine administration and distribution, and other allowable uses for the state, local health jurisdictions, and tribes at the discretion of the secretary and without an appropriation. However, to maintain fiscal control and to ensure spending priorities align, the department is required to collaborate and communicate with the chairs and ranking members of the health care and fiscal committees of the legislature and local health jurisdictions in advance of any significant revision of the state's COVID-19 vaccination plan and to provide regular updates on its implementation and spending.

(b) As part of the public health response to COVID-19, the expenditures from the account must be used to effectively administer the vaccine for COVID-19 and conduct testing and contact tracing. The department must ensure that COVID-19 outreach is accessible, culturally and linguistically appropriate, and that it includes community-driven partnerships and strategies.

(c) When making expenditures for administering the vaccine for COVID-19, the department must focus on identifying persons for vaccination, prioritizing underserved, underrepresented, and hard-to-reach communities, making the vaccine accessible, and providing support to schools for safe reopening. Strategies for vaccine distribution shall include the establishment and expansion of community vaccination centers, mobile vaccination units, reporting enhancements, in-home visits for vaccinations for the elderly, and transportation of individuals to vaccination sites.

(d) When making expenditures regarding testing and contact tracing, the department must provide equitable access, prioritize underserved, underrepresented, and hard-to-reach communities, and provide support and resources to facilitate the safe reopening of schools while minimizing community spread of the virus.

(e) The department may also make expenditures from the account related to developing the public health workforce using funds granted by the federal government for that purpose in section 2501, the American rescue plan act of 2021, P.L. 117-2.

(3) When making expenditures from the account, the department must include an emphasis on public communication regarding the availability and accessibility of the vaccine and testing, and the importance of vaccine and testing availability to the safe reopening of the state.

(4)(a) The department must report to the fiscal and health care committees of the legislature on a monthly basis regarding its COVID-19 response.

(b) To the extent that it is available, the report must include data regarding vaccine distribution, testing, and contact tracing, as follows:

(i) The number of vaccines administered per day, including regional data regarding the location and age groups of persons receiving the vaccine, specifically identifying hard-to-reach communities in which vaccines were administered; and

(ii) The number of tests conducted per week, including data specifically addressing testing conducted in hard-to-reach communities.

(c) The first monthly report is due no later than one month from February 19, 2021. Monthly reports are no lon-

(2021 Ed.)

ger required upon the department's determination that the remaining balance of the COVID-19 [public health] response account is less than \$100,000. [2021 c 334 § 1004; 2021 c 3 § 19.]

Conflict with federal requirements—Effective date—2021 c 334: See notes following RCW 43.79.555.

Conflict with federal requirements—2021 c 3: "If any part of this act is found to be in conflict with federal requirements that are a prescribed condition to the allocation of federal funds to the state, the conflicting part of this act is inoperative solely to the extent of the conflict and with respect to the agencies directly affected, and this finding does not affect the operation of the remainder of this act in its application to the agencies concerned. Rules adopted under this act must meet federal requirements that are a necessary condition to the receipt of federal funds by the state." [2021 c 3 § 21.]

Effective date—2021 c 3: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [February 19, 2021]." [2021 c 3 § 22.]

43.70.720 Universal vaccine purchase account. The universal vaccine purchase account is created in the custody of the state treasurer. Receipts from public and private sources for the purpose of increasing access to vaccines for children may be deposited into the account. Expenditures from the account must be used exclusively for the purchase of vaccines, at no cost to health care providers in Washington, to administer to children under nineteen years old who are not eligible to receive vaccines at no cost through federal programs. Only the secretary or the secretary's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures. [2010 c 174 § 10; 2009 c 564 § 934.]

(1) Subject to the availability of amounts appropriated for this specific purpose, the department shall establish a health extension program to provide training, tools, and technical assistance to primary care, behavioral health, and other providers. The program must emphasize high quality preventive, chronic disease, and behavioral health care that is comprehensive and evidence-based.

(2) The health extension program must coordinate dissemination of evidence-based tools and resources that promote:

(a) Integration of physical and behavioral health;
(b) Clinical decision support to promote evidence-based care;

(c) Reports of the Robert Bree collaborative created by RCW 70.250.050 and findings of health technology assessments under RCW 70.14.080 through 70.14.130;

(g) Identification of evidence-based models to effectively treat depression and other conditions in primary care settings, such as the program advancing integrated mental health solutions, and others.

(3) The department may adopt rules necessary to implement this section, but may not adopt rules, policies, or procedures beyond the scope of authority granted in this section. [2014 c 223 § 5.]

Finding—2014 c 223: See note following RCW 41.05.690.

(i) Up-to-date, evidence-based, written information about Down syndrome and people born with Down syndrome that has been reviewed by medical experts and national Down syndrome organizations; and

(ii) Contact information regarding support services, including information hotlines specific to Down syndrome, resource centers or clearinghouses, national and local Down syndrome organizations, and other education and support programs.

(b) The resources prepared by the department must:

(i) Be culturally and linguistically appropriate for expectant parents receiving a positive prenatal diagnosis or for the parents of a child receiving a postnatal diagnosis of Down syndrome; and

(ii) Include: Physical, developmental, educational, and psychosocial outcomes; life expectancy; clinical course; and intellectual and functional development and therapy options.

(2) The department shall make the information described in this section available to any person who renders prenatal care, postnatal care, or genetic counseling to expectant parents receiving a positive prenatal diagnosis or to the parents of a child receiving a postnatal diagnosis of Down syndrome.

(3) For the purposes of this section, "Down syndrome" means a chromosomal condition that results in the presence of an extra whole or partial copy of chromosome 21. [2016 c 70 § 1.]

43.70.740 Adjudicative proceedings. In all adjudicative proceedings before the secretary or the department, the secretary may delegate initial decision-making authority to a presiding officer. The presiding officer shall enter an initial order pursuant to RCW 34.05.461 subject to the review of the secretary or his or her designee. Pursuant to RCW 34.05.464, the secretary may, by rule, provide that initial orders in specified classes of cases may become final without further agency action unless, within a specified time period:

(1) The secretary upon his or her own motion determines that the initial order should be reviewed; or

(2) A party to the proceedings files a petition for administrative review of the initial order. [2013 c 109 § 3.]

43.70.750 Community assistance referral and education program—Review of certification and training—Recommendations to the legislature. The department of health must review the professional certification and training of health professionals participating in a community assistance referral and education program, review the certification and training requirements in other states with similar programs, and coordinate with the health care authority to link the certification requirements with the covered health care services recommended for payment in RCW 74.09.335. The department shall submit recommendations to the appropriate

committees of the legislature for any changes and suggestions for implementation within six months of the development of the payment standards. [2017 c 273 § 3.]

43.70.765 Opioid drugs—Warning—Patient education materials. (1) The department must create a statement warning individuals about the risks of opioid use and abuse and provide information about safe disposal of opioids. The department must provide the warning on its web site.

(2) The department must review the science, data, and best practices around the use of opioids and their associated risks. As evidence and best practices evolve, the department must update its warning to reflect these changes.

(3) The department must update its patient education materials to reflect the patient's right to refuse an opioid prescription or order. [2019 c 314 § 11.]

Declaration—2019 c 314: See note following RCW 18.22.810.

(a) Farmers market basic food incentives to provide eligible participants with extra benefits to purchase fruits and vegetables at authorized farmers markets when the participant uses basic food benefits;

(b) Grocery store basic food incentives to provide eligible participants with extra benefits to purchase fruits and vegetables at authorized grocery stores when the participant uses basic food benefits; and

(c) Fruit and vegetable vouchers provided by a health care provider, health educator, community health worker, or other health professional to an eligible participant for use at an authorized farmers market or grocery store.

(2) Subject to the availability of amounts appropriated for this specific purpose, the department shall administer the fruit and vegetable incentives program. As part of its duties, the department shall:

(a) Collaborate with other state agencies whose missions and programs closely align with the fruit and vegetable incentives program, including the department of social and health services and the department of agriculture, in the development and implementation of the program;

(b) Provide resources, coordination, and technical assistance to program partners for targeted outreach to food insecure populations and for administration of the program. Program partners may include farmers markets, grocery stores, government agencies, health care systems, and nonprofit organizations; and

(c) Adopt rules to implement this section.

(3) Farmers market basic food incentives may be provided to eligible participants for use at farmers markets authorized by the department. The incentives are additional funds that may be used to purchase eligible fruits and vegetables as defined by the department. When authorizing a participating farmers market, the department may give preference to a farmers market that accepts or has previously accepted supplemental nutrition assistance program benefits, has the capacity to accept supplemental nutrition assistance program benefits, or is located in a county with a high level of food insecurity, as defined by the department.

(4) Grocery store basic food incentives may be provided to eligible participants for use at a grocery store that is an authorized supplemental nutrition assistance program retailer and approved by the department. The incentives are additional funds that may be used to purchase eligible fruits and vegetables as defined by the department. When approving a participating grocery store, the department may give preference to a store that is located in a county with a high level of food insecurity.

(5) Fruit and vegetable vouchers are cash-value vouchers that may be distributed by a participating health care provider, health educator, community health worker, or other health professional to a patient who is eligible for basic food and has a qualifying health condition, as defined by the department, or is food insecure. The voucher may be redeemed at a participating retailer, including an authorized farmers market or grocery store. The department shall approve participating health care systems and may give preference to systems that have operated fruit and vegetable prescription programs, routinely screen patients for food insecurity, have a high percentage of patients who are medicaid clients, or are located in a county with a high level of food insecurity.

(6) Subject to the availability of funds, the department must evaluate the fruit and vegetable incentives program effectiveness. When conducting the evaluation, the department must collect information related to fruit and vegetable consumption by eligible participants, levels of food security, and likely impacts on public health outcomes as a result of the program. By July 1, 2021, and in compliance with RCW 43.01.036, the department must submit a progress report to the governor and the legislature describing the results of the program and recommending any legislative or programmatic changes to improve the effectiveness of program delivery. By December 1, 2023, the department must submit a complete program evaluation describing the program's effectiveness and including any additional recommendations for program improvements.

(7) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Eligible participant" means:

(i) For the purposes of subsection (1)(a) and (b) of this section, a recipient of basic food benefits, including the supplemental nutrition assistance program and the food assistance program, as authorized under Title 74 RCW; or

(ii) For the purposes of subsection (1)(c) of this section, a person who is determined to be food insecure by a participating health care provider.

(2021 Ed.)

(b) "Food insecure" means a state in which consistent access to adequate food is limited by a lack of money and other resources at times during the year. [2019 c 168 § 2.]

Findings—Intent—2019 c 168: "(1) The legislature finds that nearly eleven percent of Washington households, including more than two hundred eighty thousand children, are food insecure with limited or uncertain availability of nutritionally adequate and safe foods. The legislature further finds that food insecurity contributes to poor quality diets; chronic medical conditions such as diabetes, heart disease, and hypertension; and negative outcomes for children and families, including harmful effects on behavioral health. Further, food insecurity disproportionately affects people with low incomes, people of color, and rural residents.

(2) The legislature finds that food assistance programs such as the special supplemental nutrition program for women, infants, and children and the supplemental nutrition assistance program are effective in significantly reducing food insecurity; that participants report difficulty affording and accessing healthy foods; and that fruit and vegetable consumption among such food assistance program participants is far below national dietary guidelines.

(3) The legislature finds that the state department of health has successfully managed a food insecurity nutrition incentives grant from the United States department of agriculture that provides a framework for providing fruit and vegetable incentives for low-income shoppers and that those federal funds are set to expire in March 2020. Further, the legislature finds that more than two million dollars in fruit and vegetable incentives have been redeemed by food insecure Washingtonians through this grant, helping to alleviate food insecurity and increase fruit and vegetable consumption.

(4) Therefore, the legislature intends to create a state fruit and vegetable incentives program to benefit people who are food insecure, our agricultural industry, and retailers across the state." [2019 c 168 § 1.]

43.70.790 Health care facility inspection and investigation availability. As resources allow, the department shall make health care facility inspection and investigation statements of deficiencies, plans of correction, notice[s] of acceptance of plans of correction, enforcement actions, and notices of resolution available to the public on the internet, starting with psychiatric hospitals and residential treatment facilities. [2020 c 115 § 4.]

Findings—Intent—Effective date—2020 c 115: See notes following RCW 71.12.700.

The department must work with stakeholders including, but not limited to, the statewide associations of the facilities under review to create recommendations that will be shared with stakeholders and the legislature for a uniform health care facility enforcement act for consideration in the 2021 legislative session. [2020 c 115 § 5.]

Findings—Intent—Effective date—2020 c 115: See notes following RCW 71.12.700.

43.70.810 Provision of medical information—Dissemination of requirements and authority. (1) The department must design, prepare, and make available online, written materials to clearly inform health care providers and staff of the provisions of, and authority to act under, chapter 70.03 RCW.

(2) The department must design, prepare, and make available online, written materials to provide information to

providers and patients regarding Washington's death with dignity act, chapter 70.245 RCW. [2020 c 102 § 4.]

43.70.815 Environmental health disparities map. (1)

In consultation with the environmental justice council established in RCW 70A.02.110, the department must continue to develop and maintain an environmental health disparities map with the most current available information necessary to identify cumulative environmental health impacts and overburdened communities. The department may also consult with other interested partners, such as the University of Washington department of environmental and occupational health sciences, other academic partners, members of overburdened communities and vulnerable populations, and other agencies. The environmental health disparities map must include tools to:

(a) Track changes in environmental health disparities over time in an interactive, regularly updated display; and

(b) Measure the link between overall environmental health disparity map ranks, environmental data, vulnerable populations characteristics, such as race and income, and human health data.

(2) In further developing and maintaining the environmental health disparities map, the department must:

(a) Solicit feedback from representatives from overburdened communities and vulnerable populations through community engagement and listening sessions in all regions of the state and provide opportunities for public comment; and

(b) Request assistance from:

(i) State universities;

(ii) Other academic researchers, such as the Washington state institute for public policy, to perform modeling and create evidence-based indicators and to conduct sensitivity analyses to assess the impact of new indicators on communities and determinations of overburdened communities; and

(iii) Other state agencies to provide applicable statewide environmental and sampling data for air, water, soil, polluted sites, toxic waste, pesticides, toxic chemicals, and other applicable media.

(3) The department must:

(a) Document and publish a summary of the regular updates and revisions to the environmental health disparities map that happen over time as the new data becomes available, in order to help the public understand different versions of the map as they are published;

(b) At least every three years, perform a comprehensive evaluation of the map to ensure that the most current modeling and methods available to evaluate cumulative environmental health impacts are being used to develop and update the environmental health disparities map's indicators;

(c) Develop technical guidance for agencies that includes an online training video detailing a description of how to use the environmental health disparities map's features, access source data, and explanation of map and indicator limitations; and

(d) Provide support and consultation to agencies on the use of the environmental health disparities map by Washington tracking network staff.

(4)(a) By November 1, 2022, the Washington state institute for public policy must conduct a technical review of the measures and methods used in the environmental health dis-

parities map. The review must, to the extent possible, address the following:

(i) Identify how the measures used in the map compare to measures used in other similar tools that aim to identify communities that are disproportionately impacted as a result of environmental justice issues;

(ii) Compare characteristics such as the reliability, validity, and clinical importance of individual and composite measures included in the map and other similar tools; and

(iii) Compare methodologies used in the map to statistical methodologies used in other similar tools.

(b) The department of health and the University of Washington must provide technical documentation regarding current methods to the Washington state institute for public policy and must consult with the institute as needed to ensure that the institute has adequate information to complete the technical review.

(c) By November 1, 2022, the Washington state institute for public policy must submit a report on their findings to the office of the governor, the appropriate committees of the legislature, and the environmental justice council. [2021 c 314 § 19.]

Conflict with federal requirements—2021 c 314: See note following RCW 70A.02.005.

43.70.820 Environmental justice obligations of the department of health. The department must apply and comply with the substantive and procedural requirements of chapter 70A.02 RCW. [2021 c 314 § 4.]

(2) Subject to the availability of amounts appropriated for this specific purpose, the school-based health center program office shall:

(a) Develop funding criteria and metrics for monitoring and evaluation in partnership with a statewide nonprofit organization providing training and technical assistance to school-based health centers;

(b) Award grant funding for school-based health centers. The department may grant funding for the following purposes:

(i) Planning a school-based health center;

(ii) Start-up costs associated with setting up a school-based health center; and

(iii) Ongoing costs of operating a school-based health center;

(c) Monitor and evaluate school-based health centers that receive grant funding from the program office;

(d) Partner with a statewide nonprofit organization to provide training and technical assistance to school-based health centers; and

(e) Coordinate with the statewide nonprofit organization providing training and technical assistance, educational service districts, the health care authority, hosting school dis-

districts, and the office of the insurance commissioner, to provide support to school-based health centers.

(3) For purposes of this section, a "school-based health center" means a collaboration between the community, the school, and a sponsoring agency that operates the school-based health center, which is a student-focused health center located in or adjacent to a school that provides integrated medical, behavioral health, and other health care services such as dental care. [2021 c 68 § 2.]

Findings—Intent—2021 c 68: "(1) The legislature finds that:

(a) Research shows that school-based health centers provide a crucial link between health and education, improving outcomes for students in both areas;

(b) Health and academic disparities are increasing during the COVID-19 pandemic, particularly for students of color;

(c) School-based health centers advance equity by providing health care access and support at schools;

(d) School-based health centers have been operating across the state for more than 30 years;

(e) Local control and decision making for school-based health centers is important; and

(f) In 2016, the legislature created the Washington integrated student supports protocol as a strategy to close educational opportunity gaps through school-based coordination of academic and nonacademic supports for students.

(2) Therefore, the legislature intends to create a school-based health center program office within the department of health to award grants and coordinate with other agencies and entities to provide support, training, and technical assistance to school-based health centers." [2021 c 68 § 1.]

The department meets the requirements of this section when a school contracts for sampling and testing that meets the requirements of this section and submits the test results to the department according to a procedure and deadlines determined by the department.

(2) Sampling and testing for the presence and level of lead in drinking water must meet the technical requirements described in the technical guidance.

(3)(a) Initial testing for lead contamination in drinking water must be conducted between July 1, 2014, and June 30, 2026.

(b) Retesting for lead contamination in drinking water must be conducted no less than every five years beginning July 1, 2026.

(4)(a) The department shall develop and publish a two-year plan for sampling and testing. The plan must be updated at least annually. Prior to adding a school to the plan, the department must contact the school to determine whether the school has contracted, or is planning to contract, for sampling and testing.

(b) Beginning July 1, 2026, in developing the two-year plan for sampling and testing, the department must group school buildings by governing body and then prioritize the groups based on the combined length of time since each school building built, or with all plumbing replaced, before 2016 was sampled and tested.

(5) The department shall enter a data-sharing agreement with the office of the superintendent of public instruction for (2021 Ed.)

the purpose of compiling a list of school buildings built, or with all plumbing replaced, before 2016.

(6) The definitions in RCW 28A.210.410 apply throughout this section unless the context clearly requires otherwise. [2021 c 154 § 3.]

Findings—Intent—2021 c 154: "(1) The legislature recognizes that the United States environmental protection agency and centers for disease control and prevention acknowledge that there is no known safe level of lead in a child's blood. Even low levels of lead exposure can cause permanent cognitive, academic, and behavioral difficulties in children. The American academy of pediatrics recommends government action to ensure that the lead concentration in drinking water at schools does not exceed one part per billion.

(2) The legislature finds that the department of health sampled and tested drinking water outlets in 551 elementary schools between 2017 and 2020. 82 percent of these schools had lead contamination of five or more parts per billion in one or more drinking water outlets and 49 percent of these schools had lead contamination of 15 or more parts per billion in one or more drinking water outlets.

(3) The legislature acknowledges that the department of health was appropriated \$1,000,000 in the 2019-2021 fiscal biennium to continue the testing for lead contamination in school drinking water. The legislature also finds that the office of the superintendent of public instruction was appropriated funds in the 2019-2021 fiscal biennium for the healthy kids/healthy schools initiative. Part of these funds are for the purpose of distributing grants to school districts for remediation of elevated lead levels in drinking water. The legislature encourages districts to apply for these grants when lead test results reveal elevated lead levels, which are lead levels above five parts per billion.

(4) The legislature acknowledges the historically inequitable distribution of lead exposure for communities of color and of low socioeconomic status and plans to make a priority the protection of children from the dangers of lead exposure through school drinking water. The legislature, therefore, intends to require that drinking water outlets in elementary and secondary school buildings built, or with all plumbing replaced, before 2016 be tested for the presence and level of lead contamination by June 30, 2026, and every five years thereafter. The legislature also intends to require that schools notify the school community of lead test results and develop action plans for remediation if test results exceed the health-based standard of five parts per billion.

(5) The legislature recognizes that the youngest children are the most vulnerable to lead exposure and that many of these children spend significant amounts of time at child care facilities.

(6) This act is named for the director of the Washington public interest research group who developed and advocated for this legislation before dying of cancer in 2019 and may be known as the Bruce Speight protect children from being exposed to lead in school drinking water act." [2021 c 154 § 1.]

Short title—2021 c 154: "This act may be known and cited as the Bruce Speight protect children from being exposed to lead in school drinking water act." [2021 c 154 § 8.]

43.70.835 Lead contamination in drinking water in school buildings—State-tribal compact schools. The department shall allow state-tribal compact schools established under chapter 28A.715 RCW to opt into sampling and testing for lead contamination at drinking water outlets in school buildings built, or with all plumbing replaced, before 2016 pursuant to RCW 43.70.830. [2021 c 154 § 4.]

Findings—Intent—Short title—2021 c 154: See notes following RCW 43.70.830.

43.70.840 Lead contamination in drinking water in school buildings—Technical guidance. The department shall develop and make available technical guidance for reducing lead contamination in drinking water at schools that is at least as protective of student health as any technical guidance on this topic issued by the United States environmental protection agency. The technical guidance must include the technical requirements for sampling, processing,

and analysis, including that analysis must be conducted by a laboratory accredited by the department of ecology. The technical guidance must describe best practices for remediating elevated lead levels at drinking water outlets in schools. Best practices must include installing and maintaining filters certified by a body accredited by the American national standards institute. Provisions of the technical guidance related to testing for the presence and level of lead in drinking water, as opposed to testing to identify sources of lead for remediation, must be designed to maximize detection of lead in water, and therefore must prohibit sampling or analytical methods that tend to mask lead contamination, including prestagnation flushing and removal of aerators prior to sampling. [2021 c 154 § 5.]

Findings—Intent—Short title—2021 c 154: See notes following RCW 43.70.830.

43.70.845 Lead contamination in drinking water in school buildings—Department of health as lead agency—Waiver. (1) To the fullest extent permitted by federal law, the department, rather than community water systems, is designated as the lead or principal agency in regard to lead in drinking water sampling, testing, notification, remediation, public education, and other actions at public and private elementary and secondary schools as required by the federal lead and copper rule, 40 C.F.R. Part 141.

(2) The department must issue a written waiver that exempts community water systems that serve schools from the sampling and testing requirements of 40 C.F.R. Part 141.92 related to schools if the department determines that the mandatory requirements for sampling and testing for, and remediation of, lead contamination in drinking water outlets at elementary and secondary schools under chapter 154, Laws of 2021 are consistent with the requirements in 40 C.F.R. Part 141.92 of the federal lead and copper rule. [2021 c 154 § 7.]

Findings—Intent—Short title—2021 c 154: See notes following RCW 43.70.830.

43.71.005 Finding—Intent. (1) The legislature finds that the affordable care act requires the establishment of health benefit exchanges. The legislature intends to establish an exchange, including a governance structure. There are many policy decisions associated with establishing an exchange that need to be made that will take a great deal of effort and expertise. It is therefore the intent of the legislature to establish a process through which these policy decisions can be made by the legislature and the governor by the deadline established in the affordable care act.

(2) The exchange is intended to:

(a) Increase access to quality affordable health care coverage, reduce the number of uninsured persons in Washington state, and increase the availability of health care coverage through the private health insurance market to qualified individuals and small employers;

(b) Provide consumer choice and portability of health insurance, regardless of employment status;

(c) Create an organized, transparent, and accountable health insurance marketplace for Washingtonians to purchase affordable, quality health care coverage, to claim available federal refundable premium tax credits and cost-sharing subsidies, and to meet the personal responsibility requirements

for minimum essential coverage as provided under the federal affordable care act;

(d) Promote consumer literacy and empower consumers to compare plans and make informed decisions about their health care and coverage;

(e) Effectively and efficiently administer health care subsidies and determination of eligibility for participation in publicly subsidized health care programs, including the exchange;

(f) Create a health insurance market that competes on the basis of price, quality, service, and other innovative efforts;

(g) Operate in a manner compatible with efforts to improve quality, contain costs, and promote innovation;

(h) Recognize the need for a private health insurance market to exist outside of the exchange; and

(i) Recognize that the regulation of the health insurance market, both inside and outside the exchange, should continue to be performed by the insurance commissioner. [2011 c 317 § 1.]

43.71.010 Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise. Terms and phrases used in this chapter that are not defined in this section must be defined as consistent with implementation of a state health benefit exchange pursuant to applicable federal law.

(1) "Authority" means the Washington state health care authority, established under chapter 41.05 RCW.

(2) "Board" means the governing board established in RCW 43.71.020.

(3) "Commissioner" means the insurance commissioner, established in Title 48 RCW.

(4) "Exchange" means the Washington health benefit exchange established in RCW 43.71.020.

(5) "Self-sustaining" means capable of operating with revenue attributable to the operations of the exchange. Self-sustaining sources include, but are not limited to, federal grants, federal premium tax subsidies and credits, charges to health carriers, premiums paid by enrollees, and premium taxes under RCW 48.14.0201(5)(b) and 48.14.020(2). [2018 c 44 § 1; 2013 2nd sp.s. c 6 § 1; 2012 c 87 § 2; 2011 c 317 § 2.]

43.71.020 Washington health benefit exchange. (1) The Washington health benefit exchange is established and constitutes a self-sustaining public-private partnership separate and distinct from the state, exercising functions delineated in chapter 317, Laws of 2011. By January 1, 2014, the exchange shall operate consistent with applicable federal law subject to statutory authorization. The exchange shall have a governing board consisting of persons with expertise in the Washington health care system and private and public health care coverage. The membership of the board shall be appointed as follows:

(a) Each of the two largest caucuses in both the house of representatives and the senate shall submit to the governor a list of five nominees who are not legislators or employees of the state or its political subdivisions, with no caucus submitting the same nominee.

(i) The nominations from the largest caucus in the house of representatives must include at least one employee benefit specialist;

(ii) The nominations from the second largest caucus in the house of representatives must include at least one health economist or actuary;

(iii) The nominations from the largest caucus in the senate must include at least one representative of health consumer advocates;

(iv) The nominations from the second largest caucus in the senate must include at least one representative of small business;

(v) The remaining nominees must have demonstrated and acknowledged expertise in at least one of the following areas: Individual health care coverage, small employer health care coverage, health benefit plan administration, health care finance and economics, actuarial science, or administering a public or private health care delivery system.

(b) The governor shall appoint two members from each list submitted by the caucuses under (a) of this subsection. The appointments made under this subsection (1)(b) must include at least one employee benefits specialist, one health economist or actuary, one representative of small business, and one representative of health consumer advocates. The remaining four members must have a demonstrated and acknowledged expertise in at least one of the following areas: Individual health care coverage, small employer health care coverage, health benefit plan administration, health care finance and economics, actuarial science, or administering a public or private health care delivery system.

(c) The governor shall appoint a ninth member to serve as chair. The chair may not be an employee of the state or its political subdivisions. The chair shall serve as a nonvoting member except in the case of a tie.

(d) The following members shall serve as nonvoting, ex officio members of the board:

(i) The insurance commissioner or his or her designee; and

(ii) The administrator of the health care authority, or his or her designee.

(2) Initial members of the board shall serve staggered terms not to exceed four years. Members appointed thereafter shall serve two-year terms.

(3) A member of the board whose term has expired or who otherwise leaves the board shall be replaced by gubernatorial appointment. Upon the expiration of a member's term, the member shall continue to serve until a successor has been appointed and has assumed office. When the person leaving was nominated by one of the caucuses of the house of representatives or the senate, his or her replacement shall be appointed from a list of five nominees submitted by that caucus within thirty days after the person leaves. If the member to be replaced is the chair, the governor shall appoint a new chair within thirty days after the vacancy occurs. A person appointed to replace a member who leaves the board prior to the expiration of his or her term shall serve only the duration of the unexpired term. Members of the board may be reappointed to multiple terms.

(4) No board member may be appointed if his or her participation in the decisions of the board could benefit his or her own financial interests or the financial interests of an entity

he or she represents. A board member who develops such a conflict of interest shall resign or be removed from the board.

(5) Members of the board must be reimbursed for their travel expenses while on official business in accordance with RCW 43.03.050 and 43.03.060. The board shall prescribe rules for the conduct of its business. Meetings of the board are at the call of the chair.

(6) The exchange and the board are subject only to the provisions of chapter 42.30 RCW, the open public meetings act, and chapter 42.56 RCW, the public records act, and not to any other law or regulation generally applicable to state agencies. Consistent with the open public meetings act, the board may hold executive sessions to consider proprietary or confidential unpublished information.

(7)(a) The board shall establish an advisory committee to allow for the views of the health care industry and other stakeholders to be heard in the operation of the health benefit exchange.

(b) The board may establish technical advisory committees or seek the advice of technical experts when necessary to execute the powers and duties included in chapter 317, Laws of 2011.

(8) Members of the board are not civilly or criminally liable and may not have any penalty or cause of action of any nature arise against them for any action taken or not taken, including any discretionary decision or failure to make a discretionary decision, when the action or inaction is done in good faith and in the performance of the powers and duties under chapter 317, Laws of 2011. Nothing in this section prohibits legal actions against the board to enforce the board's statutory or contractual duties or obligations.

(9) In recognition of the government-to-government relationship between the state of Washington and the federally recognized tribes in the state of Washington, the board shall consult with the American Indian health commission. [2018 c 44 § 2; 2012 c 87 § 3; 2011 c 317 § 3.]

43.71.030 Exchange—Powers and duties—Annual report and plan. (1) The exchange has the authority to:

The board shall seek input from health carriers to develop funding mechanisms that fairly and equitably apportion among carriers the reasonable administrative costs and expenses incurred to implement the provisions of this chapter.

(4) The board shall establish policies that permit city and county governments, Indian tribes, tribal organizations, urban Indian organizations, private foundations, and other entities to pay premiums and cost sharing on behalf of qualified individuals.

(5) The employees of the exchange may participate in the public employees' retirement system under chapter 41.40 RCW and the public employees' benefits board under chapter 41.05 RCW.

(6) Qualified employers may access coverage for their employees through the exchange for small groups under applicable federal law. The exchange shall enable any qualified employer to specify a level of coverage so that any of its employees may enroll in any qualified health plan offered through the small group exchange at the specified level of coverage. The exchange may offer information to consumers and small businesses about qualified small employer health reimbursement arrangements.

(7) The exchange shall report its activities and status to the governor and the legislature as requested, and no less often than annually.

(8) By January 1st of each year, the exchange must submit to the legislature, the governor's office, and the board an annual financial report that identifies the annual cost of operating the exchange. The report must identify specific reductions in spending in the following areas: Call center, information technology, and staffing. The report must include:

(a) A report of all expenses;

(b) Beginning and ending fund balances, by fund source;

(c) Any contracts or contract amendments signed by the exchange;

(e) A per member per month metric, per qualified health plan enrollee and apple health enrollee, calculated by dividing funds allocated for the exchange over the 2015-2017 biennium by the number of enrollees in both qualified health plans and apple health during the year.

(9)(a) The exchange shall prepare and annually update a strategic plan for the development, maintenance, and improvement of exchange operations for the purpose of assisting the exchange in establishing priorities to better serve the needs of its specific constituency and the public in

general. The strategic plan is the exchange's process for defining its methodology for achieving optimal outcomes, for complying with applicable state and federal statutes, rules, regulations, and mandatory policies, and for guaranteeing an appropriate level of transparency in its dealings. The strategic plan must include, but is not limited to:

- (i) Comprehensive five-year and ten-year plans for the exchange's direction with clearly defined outcomes and goals;
- (ii) Concrete plans for achieving or surpassing desired outcomes and goals;
- (iii) Strategy for achieving enrollment and reenrollment targets;
- (iv) Detailed stakeholder and external communication plans; and
- (v) Identification of funding sources, and a plan for how it will fund and allocate resources to pursue desired goals and outcomes.

(b) The strategic plan and its updates must be submitted to the authority, the appropriate committees of the legislature, and the board by September 30th of each year. [2018 c 44 § 3; 2015 3rd sp.s. c 33 § 1; 2012 c 87 § 4; 2011 c 317 § 4.]

Effective date—2012 c 87 §§ 4, 16, 18, and 19-23: "Sections 4, 16, 18, and 19 through 23 of this act are necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and take effect immediately [March 23, 2012]." [2012 c 87 § 28.]

43.71.060 Health benefit exchange account. (1) The health benefit exchange account is created in the state treasury. Moneys in the account may be spent only after appropriation. Expenditures from the account may only be used to fund the operation of the exchange and identification, collection, and distribution of premium taxes collected under RCW 48.14.0201(5)(b) and 48.14.020(2).

(2) The following funds must be deposited in the account:

- (a) Premium taxes collected under RCW 48.14.0201(5)(b) and 48.14.020(2);
- (b) Assessments authorized under RCW 43.71.080; and
- (c) Amounts transferred by the pool administrator as specified in the state omnibus appropriations act pursuant to RCW 48.41.090.

(3) All receipts from federal grants received may be deposited into the account. Expenditures from the account may be used only for purposes consistent with the grants. [2018 c 44 § 4; 2013 2nd sp.s. c 6 § 2; 2012 c 87 § 5; 2011 c 317 § 7.]

43.71.065 Qualified health plans—Certification—Criteria stand-alone dental plans—Direct primary care medical home plans—Appeals. (1) The board shall certify a plan as a qualified health plan to be offered through the exchange if the plan is determined by the:

- (a) Insurance commissioner to meet the requirements of Title 48 RCW and rules adopted by the commissioner pursuant to chapter 34.05 RCW to implement the requirements of Title 48 RCW;
- (b) Board to meet the requirements of applicable federal law for certification as a qualified health plan; and
- (c) Board to include tribal clinics and urban Indian clinics as essential community providers in the plan's provider

(2021 Ed.)

network consistent with federal law. If consistent with federal law, integrated delivery systems shall be exempt from the requirement to include essential community providers in the provider network.

(2) Consistent with applicable federal law, the board shall allow stand-alone dental plans to offer coverage in the exchange beginning January 1, 2014. Dental benefits offered in the exchange must be offered and priced separately to assure transparency for consumers.

(3) The board may permit direct primary care medical home plans, consistent with applicable federal law, to be offered in the exchange.

(4) Upon request by the board, a state agency shall provide information to the board for its use in determining if the requirements under subsection (1)(b) or (c) of this section have been met. Unless the agency and the board agree to a later date, the agency shall provide the information within sixty days of the request. The exchange shall reimburse the agency for the cost of compiling and providing the requested information within one hundred eighty days of its receipt.

(5) A decision by the board denying a request to certify or recertify a plan as a qualified health plan may be appealed according to procedures adopted by the board. [2018 c 44 § 5; 2012 c 87 § 8.]

43.71.067 Qualified health plans—Prohibited marketing practices or benefit designs—Rules. (1) For qualified health plans, an issuer [issuer] offering a qualified health plan may not employ marketing practices or benefit designs that have the effect of discouraging enrollment in the plan by individuals with significant health needs.

(2) Unless preempted by federal law, the commissioner shall adopt any rules necessary to implement this section, consistent with federal rules and guidance in effect on January 1, 2017, implementing the patient protection and affordable care act. [2019 c 33 § 16.]

Effective date—2019 c 33: See note following RCW 48.43.005.

43.71.070 Rating system—Rating factors. The board shall establish a rating system consistent with applicable federal law, for qualified health plans to assist consumers in evaluating plan choices in the exchange. Rating factors established by the board may include, but are not limited to:

- (1) Affordability with respect to premiums, deductibles, and point-of-service cost-sharing;
- (2) Enrollee satisfaction;
- (3) Provider reimbursement methods that incentivize health homes or chronic care management or care coordination for enrollees with complex, high-cost, or multiple chronic conditions;
- (4) Promotion of appropriate primary care and preventive services utilization;
- (5) High standards for provider network adequacy, including consumer choice of providers and service locations and robust provider participation intended to improve access to underserved populations through participation of essential community providers, family planning providers and pediatric providers;
- (6) High standards for covered services, including languages spoken or transportation assistance; and

(7) Coverage of benefits for spiritual care services that are deductible under section 213(d) of the internal revenue code. [2018 c 44 § 6; 2012 c 87 § 9.]

43.71.075 Navigator not soliciting or negotiating insurance—Health care information—Protection—Disclosure—Notification. (1) A person or entity functioning as a navigator shall not be considered soliciting or negotiating insurance as stated under chapter 48.17 RCW.

(2)(a) A person or entity functioning as a navigator may only request health care information that is relevant to the specific assessment and recommendation of health plan options. Any health care information received by a navigator may not be disclosed to any third party that is not part of the enrollment process and must be destroyed after enrollment has been completed.

(b) If a person's health care information is received and disclosed to a third party in violation of (a) of this subsection, the navigator must notify the person of the breach. The exchange must develop a policy to establish a reasonable notification period and what information must be included in the notice. This policy and information on the exchange's confidentiality policies must be made available on the exchange's web site.

(3) For the purposes of this section:

(a) "Health care information" has the meaning provided in RCW 70.02.010.

(b) "Navigator" means a person or entity certified by the exchange to provide culturally and linguistically appropriate education and assistance and facilitate enrollment in qualified health plans and federal and state health care programs, in a manner consistent with applicable federal law. [2018 c 44 § 7; 2014 c 220 § 3; 2012 c 87 § 25.]

Effective date—2014 c 220: See note following RCW 70.02.290.

43.71.080 Assessment to fund exchange—Generally—Stand-alone dental plans. (1)(a) Beginning January 1, 2015, the exchange may require each issuer writing premiums for qualified health benefit plans or stand-alone pediatric dental plans offered through the exchange to pay an assessment in an amount necessary to fund the operations of the exchange, applicable to operational costs incurred beginning January 1, 2015.

(b) The assessment is an exchange user fee. Assessments of issuers may be made only if the amount of expected premium taxes, as provided under RCW 48.14.0201(5)(b) and 48.14.020(2), and other funds deposited in the health benefit exchange account in the current calendar year (excluding premium taxes on stand-alone family dental plans and the assessment received under subsection (3) of this section applicable to stand-alone family dental plans) are insufficient to fund exchange operations in the following calendar year at the level authorized by the legislature for that purpose in the omnibus appropriations act plus three months of additional operating costs.

(c) A health benefit plan or stand-alone dental plan may identify the amount of the assessment to enrollees, but must not bill the enrollee for the amount of the assessment separately from the premium.

(2) The board, in collaboration with the issuers, the health care authority, and the commissioner, must establish a

fair and transparent process for calculating the assessment amount. The process must meet the following requirements:

(a) The assessment only applies to issuers that offer coverage in the exchange and only for those market segments offered and must be based on the number of enrollees in qualified health plans and stand-alone dental plans in the exchange for a calendar year;

(b) The assessment must be established on a flat dollar and cents amount per member per month, and the assessment for stand-alone pediatric dental plans must be proportional to the premiums paid for stand-alone dental plans in the exchange;

(c) Issuers must be notified of the assessment amount by the exchange on a timely basis;

(d) An appropriate assessment reconciliation process must be established by the exchange that is administratively efficient;

(e) Issuers must remit the assessment due to the exchange in quarterly installments after receiving notification from the exchange of the due dates of the quarterly installments;

(f) A procedure must be established to allow issuers subject to assessments under this section to have grievances reviewed by an impartial body and reported to the board; and

(g) A procedure for enforcement must be established if an issuer fails to remit its assessment amount to the exchange within ten business days of the quarterly installment due date.

(3)(a) The exchange may require each issuer writing premiums for stand-alone family dental plans offered through the exchange to pay an assessment in an amount necessary to fund the operational costs of offering family dental plans in the exchange, applicable to operational costs incurred beginning January 1, 2017.

(b) The assessment is an exchange user fee. Assessments of issuers may be made only if the amount of expected premium tax received from stand-alone family dental plans, as provided under RCW 48.14.0201(5)(b) and 48.14.020(2), in the current year is insufficient to fund the operational costs estimated to be attributable to offering such stand-alone family dental plans in the exchange, including an allocation of costs to proportionately cover overall exchange operational costs, in the following calendar year, plus three months of additional operating costs.

(c) If the exchange is charging an assessment, the exchange shall display the amount of the assessment per member per month for enrollees. A stand-alone family dental plan may identify the amount of the assessment to enrollees, but must not bill the enrollee for the amount of the assessment separately from the premium.

(d) The board, in collaboration with the family dental issuers and the commissioner, must establish a fair and transparent process for calculating the assessment amount, including the allocation of overall exchange operational costs. The process must meet the following requirements:

(i) The assessment only applies to issuers that offer stand-alone family dental plans in the exchange and must be based on the number of enrollees in such plans in the exchange for a calendar year;

(ii) The assessment must be established on a flat dollar and cents amount per member per month;

(iii) The requirements included in subsection (2)(c) through (g) of this section shall apply to the assessment described in this subsection (3).

(e) The board, in collaboration with issuers, shall annually assess the viability of offering stand-alone family dental plans on the exchange.

(4) For purposes of this section:

(a) "Stand-alone family dental plan" means coverage for limited scope dental benefits meeting the requirements of section 9832(c)(2)(A) of the internal revenue code of 1986 and providing pediatric oral services that qualify as coverage for the minimum essential coverage requirement under applicable federal and state law.

(b) "Stand-alone pediatric dental plan" means coverage only for pediatric oral services that qualify as coverage for the minimum essential coverage requirement under applicable federal and state law.

(5) The exchange shall deposit proceeds from the assessments in the health benefit exchange account under RCW 43.71.060.

(6) The assessment described in this section shall be considered a special purpose obligation or assessment in connection with coverage described in this section for the purpose of funding the operations of the exchange, and may not be applied by issuers to vary premium rates at the plan level.

(7) This section does not prohibit an enrollee of a qualified health plan in the exchange from purchasing a plan that offers dental benefits outside the exchange.

(8) This section does not prohibit an issuer from offering a plan that covers dental benefits that do not meet the requirements of a stand-alone family dental plan outside the exchange.

(9) The exchange shall monitor enrollment and provide periodic reports which must be available on its web site.

(10) The board shall offer all qualified health plans through the exchange, and the exchange shall not add criteria for certification of qualified health plans beyond those set out in RCW 43.71.065 without specific statutory direction. Nothing shall be construed to limit duties, obligations, and authority otherwise legislatively delegated or granted to the exchange. [2018 c 44 § 8; 2016 c 133 § 3; 2013 2nd sp.s. c 6 § 3.]

43.71.095 Standardized health plans. (1) The exchange, in consultation with the commissioner, the authority, an independent actuary, and other stakeholders, must establish up to three standardized health plans for each of the bronze, silver, and gold levels.

(a) The standardized health plans must be designed to reduce deductibles, make more services available before the deductible, provide predictable cost sharing, maximize subsidies, limit adverse premium impacts, reduce barriers to maintaining and improving health, and encourage choice based on value, while limiting increases in health plan premium rates.

(b) The exchange may update the standardized health plans annually.

(c) The exchange must provide a notice and public comment period before finalizing each year's standardized health plans.

(d) The exchange must provide written notice of the standardized health plans to licensed health carriers by Janu-

(ii) The exchange, in consultation with the office of the insurance commissioner, shall analyze the impact to exchange consumers of offering only standard plans beginning in 2025 and submit a report to the appropriate committees of the legislature by December 1, 2023. The report must include an analysis of how plan choice and affordability will be impacted for exchange consumers across the state, including an analysis of offering a bronze standardized high deductible health plan compatible with a health savings account, and a gold standardized health plan closer in actuarial value to the silver standardized health plan.

(iii) The actuarial value of nonstandardized silver health plans offered on the exchange may not be less than the actuarial value of the standardized silver health plan with the lowest actuarial value.

(c) A health carrier offering a standardized health plan on the exchange under this section must continue to meet all requirements for qualified health plan certification under RCW 43.71.065 including, but not limited to, requirements relating to rate review and network adequacy. [2021 c 246 § 7; 2019 c 364 § 1.]

(2) The exchange may provide the access required under this section directly on its web site, through a link to an external web site, or in any other manner that allows consumers to easily access the information. [2020 c 283 § 2.]

(vii) Meets any other eligibility criteria established by the exchange; or

(b) Meets alternate eligibility criteria as established in the omnibus appropriations act.

43.71A.005 Findings—Intent. (1) The legislature finds that:

(a) The compact of free association (COFA) islands, which consists of the Republic of Palau, the Republic of the Marshall Islands, and the Federated States of Micronesia, has had a long-standing relationship with the United States;

(b) The relationship between the COFA islands and the United States includes economic development and a military presence in the islands;

(2021 Ed.)

(1) With assistance from the authority, the commission, and other member entities of the advisory council, the reinvestment committee of the advisory council shall prepare and amend from time to time a biennial Indian health improvement advisory plan to:

(a) Develop programs directed at raising the health status of American Indians and Alaska Natives and reducing the health inequities that these communities experience; or

(b) Help the state, the Indian health service, tribes, and urban Indian organizations, statewide or in regions, improve delivery systems for American Indians and Alaska Natives by increasing access to care, strengthening continuity of care, and improving population health through investments in capacity and infrastructure.

(2) The advisory plan shall include the following:

(a) An assessment of Indian health and Indian health care in the state;

(b) Specific recommendations for programs, projects, or activities, along with recommended reinvestment account

expenditure amounts and priorities for expenditures, for the next two state fiscal bienniums. The programs, projects, and activities may include but are not limited to:

(i) The creation and expansion of facilities operated by Indian health services, tribes, and urban Indian health programs providing evaluation, treatment, and recovery services for opioid use disorder, other substance use disorders, mental illness, or specialty care;

(ii) Improvement in access to, and utilization of, culturally appropriate primary care, mental health, and substance use disorder and recovery services;

(iii) The elimination of barriers to, and maximization of, federal funding of substance use disorder and mental health services under the programs established in chapter 74.09 RCW;

(iv) Increased availability of, and identification of barriers to, crisis and related services established in chapter 71.05 RCW, with recommendations to increase access including, but not limited to, involuntary commitment orders, designated crisis responders, and discharge planning;

(v) Increased access to quality, culturally appropriate, trauma-informed specialty services, including adult and pediatric psychiatric services, medication consultation, and addiction or geriatric psychiatry;

(vi) A third-party administrative entity to provide, arrange, and make payment for services for American Indians and Alaska Natives;

(vii) Expansion of suicide prevention services, including culture-based programming, to instill and fortify cultural practices as a protective factor;

(viii) Expansion of traditional healing services;

(ix) Development of a community health aide program, including a community health aide certification board for the state consistent with 25 U.S.C. Sec. 16161, and support for community health aide services;

(x) Health information technology capability within tribes and urban Indian organizations to assure the technological capacity to: (A) Produce sound evidence for Indian health care provider best practices; (B) effectively coordinate care between Indian health care providers and non-Indian health care providers; (C) provide interoperability with state claims and reportable data systems, such as for immunizations and reportable conditions; and (D) support patient-centered medical home models, including sufficient resources to purchase and implement certified electronic health record systems, such as hardware, software, training, and staffing;

(xi) Support for care coordination by tribes and other Indian health care providers to mitigate barriers to access to care for American Indians and Alaska Natives, with duties to include without limitation: (A) Follow-up of referred appointments; (B) routine follow-up care for management of chronic disease; (C) transportation; and (D) increasing patient understanding of provider instructions;

(xii) Expanded support for tribal and urban Indian epidemiology centers to create a system of epidemiological analysis that meets the needs of the state's American Indian and Alaska Native population; and

access to quality, culturally appropriate health care for American Indians and Alaska Natives in the state; and

(c) Review of how programs, projects, or activities that have received investments from the reinvestment account have or have not achieved the objectives and why. [2019 c 282 § 4.]

43.71B.040 Indian health improvement reinvestment account. (1) The Indian health improvement reinvestment account is created in the custody of the state treasurer. All receipts from new state savings as defined in RCW 43.71B.010 and any other moneys appropriated to the account must be deposited into the account. Expenditures from the account may be used only for projects, programs, and activities authorized by RCW 43.71B.030. Only the director of the authority or the director's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

(2) Beginning November 1, 2019, the new state savings as defined in RCW 43.71B.010, less the state's administrative costs as agreed upon by the state and the reinvestment committee, shall be deposited into the reinvestment account. With advice from the advisory council, the authority shall develop a report and methodology to identify and track the new state savings. Each fall, to assure alignment with existing budget processes, the methodology selected shall involve the same forecasting procedures that inform the authority's medical assistance and behavioral health appropriations to prospectively identify new state savings each fiscal year, as defined in RCW 43.71B.010.

(3) The authority shall pursue new state savings for medicaid managed care premiums on an actuarial basis and in consultation with tribes. [2019 c 282 § 5.]

43.71B.900 Short title. This chapter may be known and cited as the "Washington Indian health improvement act." [2019 c 282 § 6.]

43.71B.901 Findings—Intent—2019 c 282. (1) The legislature finds that:

(a) As set forth in 25 U.S.C. Sec. 1602, it is the policy of the nation, in fulfillment of its special trust responsibilities and legal obligations to American Indians and Alaska Natives, to:

(i) Ensure the highest possible health status for American Indians and Alaska Natives and to provide all resources necessary to effect that policy;

(ii) Raise the health status of American Indians and Alaska Natives to at least the levels set forth in the goals contained within the healthy people 2020 initiative or successor objectives; and

(iii) Ensure tribal self-determination and maximum participation by American Indians and Alaska Natives in the direction of health care services so as to render the persons administering such services and the services themselves more responsive to the needs and desires of tribes and American Indian and Alaska Native communities;

(b) According to the northwest tribal epidemiology center and the department of health, American Indians and

Alaska Natives in the state experience some of the greatest health disparities compared to other groups, including:

(i) Disproportionately high rates of premature mortality due to chronic diseases and unintentional injury;

(ii) Disproportionately high rates of asthma, coronary heart disease, hypertension, diabetes, prediabetes, obesity, dental caries, poor mental health, youth depressive feelings, cigarette smoking and vaping, and cannabis use;

(iii) A drug overdose death rate in 2016 in this state that is three times higher than the national American Indian and Alaska Native rate and has increased thirty-six percent since 2012 and almost three hundred percent since 2000 in contrast to a relatively stable rate for the state overall population. Over seventy-two percent of these overdose deaths involved an opioid;

(iv) A suicide mortality rate in this state that is more than one and four-fifths times higher than the rate for non-American Indians and Alaska Natives. Since 2001, the suicide mortality rate for American Indians and Alaska Natives in this state has increased by fifty-eight percent which is more than three times the rate of increase among non-American Indians and Alaska Natives. Nationally, the highest suicide rates among American Indians and Alaska Natives are for adolescents and young adults, while rates among non-Hispanic whites are highest in older age groups, suggesting that different risk factors might contribute to suicide in these groups; and

(v) A rate of exposure to significant adverse childhood experiences between 2009 and 2011 that is nearly twice the rate of non-Hispanic whites;

(c) These health disparities are a direct result of both historical trauma, leading to adverse childhood experiences across multiple generations, and inadequate levels of federal funding to the Indian health service;

(d) Under a 2016 update in payment policy from the centers for medicare and medicaid services, the state has the opportunity to shift more of the cost of care for American Indian and Alaska Native medicaid enrollees from the state general fund to the federal government if all of the federal requirements are met;

(e) Because the federal requirements to achieve this cost shift and obtain the new federal funds place significant administrative burdens on Indian health service and tribal health facilities, the state has no way to shift these costs of care to the federal government unless the state provides incentives for tribes to take on these administrative burdens; and

(f) The federal government's intent for this update in payment policy is to help states, the Indian health service, and tribes to improve delivery systems for American Indians and Alaska Natives by increasing access to care, strengthening continuity of care, and improving population health.

(2) The legislature, therefore, intends to:

(a) Establish that it is the policy of this state and the intent of this chapter, in fulfillment of the state's unique relationships and shared respect between sovereign governments, to:

(i) Recognize the United States' special trust responsibility to provide quality health care and allied health services to American Indians and Alaska Natives, including those individuals who are residents of this state; and

(ii) Implement the national policies of Indian self-determination with the goal of reducing health inequities for American Indians and Alaska Natives;

(b) Establish the governor's Indian health advisory council to:

(i) Adopt a biennial Indian health improvement advisory plan, developed by the reinvestment committee;

(ii) Address issues with tribal implications that are not able to be resolved at the agency level;

(iii) Provide oversight of the Indian health improvement reinvestment account; and

(iv) Draft recommended legislation to address Indian health improvement needs including, but not limited to, crisis coordination between Indian health care providers and the state's behavioral health system;

(c) Establish the Indian health improvement reinvestment account in order to provide incentives for tribes to assume the administrative burdens created by the federal requirements for the state to shift health care costs to the federal government;

(d) Appropriate and deposit into the reinvestment account all of the new state savings, subject to federal appropriations and less agreed upon administrative costs to maintain fiscal neutrality to the state general fund;

(e) Require the funds in the reinvestment account to be spent only on costs for projects, programs, or activities identified in the advisory plan;

(f) Address the ongoing suicide and addiction crisis among American Indians and Alaska Natives by:

(i) Including Indian health care providers among entities eligible to receive available resources as defined in RCW 71.24.025 for the delivery of behavioral health services to American Indians and Alaska Natives;

(ii) Strengthening the state's behavioral health system crisis coordination with tribes and Indian health care providers by removing barriers to the federal trust responsibility to provide for American Indians and Alaska Natives; and

(g) Recognize the sovereign authority of tribal governments to act as public health authorities in providing for the health and safety of their community members including those individuals who may be experiencing a behavioral health crisis. [2020 c 256 § 101; 2019 c 282 § 1.]

43.71C.090 Enforcement. The authority may assess a fine of up to one thousand dollars per day for failure to comply with the requirements of RCW 43.71C.020 through 43.71C.080. The assessment of a fine under this section is subject to review under the administrative procedure act, chapter 34.05 RCW. Fines collected under this section must be deposited in the medicaid fraud penalty account created in RCW 74.09.215. [2019 c 334 § 11.]

43.71C.100 Annual report—Data confidentiality. (1) The authority shall compile and analyze the data submitted by health carriers, pharmacy benefit managers, manufacturers, and pharmacy services administrative organizations pursuant to this chapter and prepare an annual report for the public and the legislature synthesizing the data to demonstrate

the overall impact that drug costs, rebates, and other discounts have on health care premiums.

(2) The data in the report must be aggregated and must not reveal information specific to individual health carriers, pharmacy benefit managers, pharmacy services administrative organizations, individual prescription drugs, individual classes of prescription drugs, individual manufacturers, or discount amounts paid in connection with individual prescription drugs.

(3) Beginning January 1, 2021, and by each January 1st thereafter, the authority must publish the report on its web site.

(4) Except for the report, and as provided in subsection (5) of this section, the authority shall keep confidential all data submitted pursuant to RCW 43.71C.020 through 43.71C.080.

43.71C.800 Joint state strategies—Development and implementation recommendations. The authority must contact the California office of statewide health planning and development and the Oregon department of consumer and business services to develop strategies to reduce prescription drug costs and increase prescription drug cost transparency. The authority must make recommendations to the legislature for implementing joint state strategies, which may include a joint purchasing agreement, by January 1, 2020. [2019 c 334 § 12.]

43.71C.900 Findings—2019 c 334. The legislature finds that the state of Washington has substantial public interest in the following:

(1) The price and cost of prescription drugs. Washington state is a major purchaser through the department of corrections, the health care authority, and other entities acting on behalf of a state purchaser;

(2) Enacting this chapter to provide notice and disclosure of information relating to the cost and pricing of prescription drugs in order to provide accountability to the state for prescription drug pricing;

(3) Rising drug costs and consumer ability to access prescription drugs; and

(4) Containing prescription drug costs. It is essential to understand the drivers and impacts of these costs, as transparency is typically the first step toward cost containment and greater consumer access to needed prescription drugs. [2019 c 334 § 1.]

43.72.180 Legislative approval—Uniform benefits package and medical risk adjustment mechanisms. [1993 c 492 § 454.] Repealed by 1995 c 265 § 27, effective July 1, 1995.

Reviser's note: RCW 43.72.180 was also amended by 1995 c 2 § 2 without cognizance of its repeal by 1995 c 265 § 27. For rule of construction concerning sections amended and repealed in the same legislative session, see RCW 1.12.025.

43.72.300 Managed competition—Findings and intent. (1) The legislature recognizes that competition among health care providers, facilities, payers, and purchasers will yield the best allocation of health care resources, the lowest prices for health care services, and the highest quality of health care when there exists a large number of buyers and sellers, easily comparable health plans and services, minimal barriers to entry and exit into the health care market, and adequate information for buyers and sellers to base purchasing and production decisions. However, the legislature finds that purchasers of health care services and health care coverage do not have adequate information upon which to base purchasing decisions; that health care facilities and providers of health care services face legal and market disincentives to develop economies of scale or to provide the most cost-efficient and efficacious service; that health insurers, contractors, and health maintenance organizations face market disincentives in providing health care coverage to those Washington residents with the most need for health care coverage; and that potential competitors in the provision of health care coverage bear unequal burdens in entering the market for health care coverage.

(2) The legislature therefore intends to exempt from state anti-trust laws, and to provide immunity from federal anti-trust laws through the state action doctrine for activities approved under this chapter that might otherwise be constrained by such laws and intends to displace competition in the health care market: To contain the aggregate cost of health care services; to promote the development of comprehensive, integrated, and cost-effective health care delivery systems through cooperative activities among health care providers and facilities; to promote comparability of health care coverage; to improve the cost-effectiveness in providing health care coverage relative to health promotion, disease prevention, and the amelioration or cure of illness; to assure universal access to a publicly determined, uniform package of health care benefits; and to create reasonable equity in the distribution of funds, treatment, and medical risk among purchasers of health care coverage, payers of health care services, providers of health care services, health care facilities, and Washington residents. To these ends, any lawful action taken pursuant to chapter 492, Laws of 1993 by any person or entity created or regulated by chapter 492, Laws of 1993 are declared to be taken pursuant to state statute and in furtherance of the public purposes of the state of Washington.

(3) The legislature does not intend and unless explicitly permitted in accordance with RCW 43.72.310 or under rules adopted pursuant to chapter 492, Laws of 1993, does not

authorize any person or entity to engage in activities or to conspire to engage in activities that would constitute per se violations of state and federal anti-trust laws including but not limited to conspiracies or agreements:

(a) Among competing health care providers not to grant discounts, not to provide services, or to fix the price of their services;

(b) Among health carriers as to the price or level of reimbursement for health care services;

(c) Among health carriers to boycott a group or class of health care service providers;

(d) Among purchasers of health plan coverage to boycott a particular plan or class of plans;

(e) Among health carriers to divide the market for health care coverage; or

(f) Among health carriers and purchasers to attract or discourage enrollment of any Washington resident or groups of residents in a health plan based upon the perceived or actual risk of loss in including such resident or group of residents in a health plan or purchasing group. [1997 c 274 § 6; 1993 c 492 § 447.]

43.72.310 Managed competition—Competitive oversight—Attorney general duties—Anti-trust immunity—Fees. (1) A health carrier, health care facility, health care provider, or other person involved in the development, delivery, or marketing of health care or health plans may request, in writing, that the department of health obtain an informal opinion from the attorney general as to whether particular conduct is authorized by chapter 492, Laws of 1993. Trade secret or proprietary information contained in a request for informal opinion shall be identified as such and shall not be disclosed other than to an authorized employee of the department of health or attorney general without the consent of the party making the request, except that information in summary or aggregate form and market share data may be contained in the informal opinion issued by the attorney general. The attorney general shall issue such opinion within thirty days of receipt of a written request for an opinion or within thirty days of receipt of any additional information requested by the attorney general necessary for rendering an opinion unless extended by the attorney general for good cause shown. If the attorney general concludes that such conduct is not authorized by chapter 492, Laws of 1993, the person or organization making the request may petition the department of health for review and approval of such conduct in accordance with subsection (3) of this section.

(2) After obtaining the written opinion of the attorney general and consistent with such opinion, the department of health:

(a) May authorize conduct by a health carrier, health care facility, health care provider, or any other person that could tend to lessen competition in the relevant market upon a strong showing that the conduct is likely to achieve the policy goals of chapter 492, Laws of 1993 and a more competitive alternative is impractical;

(b) Shall adopt rules governing conduct among providers, health care facilities, and health carriers including rules governing provider and facility contracts with health carriers, rules governing the use of "most favored nation" clauses and

exclusive dealing clauses in such contracts, and rules providing that health carriers in rural areas contract with a sufficient number and type of health care providers and facilities to ensure consumer access to local health care services;

(c) Shall adopt rules permitting health care providers within the service area of a plan to collectively negotiate the terms and conditions of contracts with a health carrier including the ability of providers to meet and communicate for the purposes of these negotiations;

(d) Shall adopt rules governing cooperative activities among health care facilities and providers; and

(e) Effective July 1, 1997, in addition to the rule-making authority granted to the department under this section, the department shall have the authority to enforce and administer rules previously adopted by the health services commission and the health care policy board pursuant to RCW 43.72.310.

(3) A health carrier, health care facility, health care provider, or any other person involved in the development, delivery, and marketing of health care services or health plans may file a written petition with the department of health requesting approval of conduct that could tend to lessen competition in the relevant market. Such petition shall be filed in a form and manner prescribed by rule of the department of health.

The department of health shall issue a written decision approving or denying a petition filed under this section within ninety days of receipt of a properly completed written petition unless extended by the department of health for good cause shown. The decision shall set forth findings as to benefits and disadvantages and conclusions as to whether the benefits outweigh the disadvantages.

(4) In authorizing conduct and adopting rules of conduct under this section, the department of health with the advice of the attorney general, shall consider the benefits of such conduct in furthering the goals of health care reform including but not limited to:

(a) Enhancement of the quality of health services to consumers;

(b) Gains in cost efficiency of health services;

(c) Improvements in utilization of health services and equipment;

(d) Avoidance of duplication of health services resources; or

(e) And as to (b) and (c) of this subsection: (i) Facilitates the exchange of information relating to performance expectations; (ii) simplifies the negotiation of delivery arrangements and relationships; and (iii) reduces the transactions costs on the part of health carriers and providers in negotiating more cost-effective delivery arrangements.

These benefits must outweigh disadvantages including and not limited to:

(i) Reduced competition among health carriers, health care providers, or health care facilities;

(ii) Adverse impact on quality, availability, or price of health care services to consumers; or

(iii) The availability of arrangements less restrictive to competition that achieve the same benefits.

(5) Conduct authorized by the department of health shall be deemed taken pursuant to state statute and in the furtherance of the public purposes of the state of Washington.

(6) With the assistance of the attorney general's office, the department of health shall actively supervise any conduct authorized under this section to determine whether such conduct or rules permitting certain conduct should be continued and whether a more competitive alternative is practical. The department of health shall periodically review petitioned conduct through, at least, annual progress reports from petitioners, annual or more frequent reviews by the department of health that evaluate whether the conduct is consistent with the petition, and whether the benefits continue to outweigh any disadvantages. If the department of health determines that the likely benefits of any conduct approved through rule, petition, or otherwise by the department of health no longer outweigh the disadvantages attributable to potential reduction in competition, the department of health shall order a modification or discontinuance of such conduct. Conduct ordered discontinued by the department of health shall no longer be deemed to be taken pursuant to state statute and in the furtherance of the public purposes of the state of Washington.

(7) Nothing contained in chapter 492, Laws of 1993 is intended to in any way limit the ability of rural hospital districts to enter into cooperative agreements and contracts pursuant to RCW 70.44.450 and chapter 39.34 RCW.

(8) The secretary of health shall from time to time establish fees to accompany the filing of a petition or a written request to the department to obtain an opinion from the attorney general under this section and for the active supervision of conduct approved under this section. Such fees may vary according to the size of the transaction proposed in the petition or under active supervision. In setting such fees, the secretary shall consider that consumers and the public benefit when activities meeting the standards of this section are permitted to proceed; the importance of assuring that persons sponsoring beneficial activities are not foreclosed from filing a petition under this section because of the fee; and the necessity to avoid a conflict, or the appearance of a conflict, between the interests of the department and the public. The total fee for a petition under this section, a written request to the department to obtain an opinion from the attorney general, or a combination of both regarding the same conduct shall not exceed the level that will defray the reasonable costs the department and attorney general incur in considering a petition and in no event shall be greater than twenty-five thousand dollars. The fee for review of approved conduct shall not exceed the level that will defray the reasonable costs the department and attorney general incur in conducting such a review and in no event shall be greater than ten thousand dollars per annum. The fees shall be fixed by rule adopted in accordance with the provisions of the administrative procedure act, chapter 34.05 RCW, and shall be deposited in the health professions account established in accordance with RCW 43.70.320. [1997 c 274 § 7; 1995 c 267 § 8; 1993 c 492 § 448.]

43.72.860 Managed care pilot projects. (1) The department of labor and industries, in consultation with the workers' compensation advisory committee, may conduct pilot projects to purchase medical services for injured workers through managed care arrangements. The projects shall

assess the effects of managed care on the cost and quality of, and employer and employee satisfaction with, medical services provided to injured workers.

(2) The pilot projects may be limited to specific employers. The implementation of a pilot project shall be conditioned upon a participating employer and a majority of its employees, or, if the employees are represented for collective bargaining purposes, the exclusive bargaining representative, voluntarily agreeing to the terms of the pilot. Unless the project is terminated by the department, both the employer and employees are bound by the project agreements for the duration of the project.

(3) Solely for the purpose and duration of a pilot project, the specific requirements of Title 51 RCW that are identified by the department as otherwise prohibiting implementation of the pilot project shall not apply to the participating employers and employees to the extent necessary for conducting the project. Managed care arrangements for the pilot projects may include the designation of doctors responsible for the care delivered to injured workers participating in the projects.

(4) The projects shall conclude no later than January 1, 1997. [1998 c 245 § 79; 1995 c 81 § 2; 1993 c 492 § 486.]

Findings—Intent—2019 c 406: "The legislature finds it is essential that Washington residents have the opportunity to succeed in a competitive global economy by investing in Washington students for Washington jobs. The legislature finds that Washington state is expected to have seven hundred forty thousand job openings by 2021 and that most of these projected openings will be filled by workers with a postsecondary credential, such as a degree, apprenticeship, or certificate. The legislature finds that the state must focus on educational opportunities with targeted investments to keep tuition low and expand capacity for in-state students. The legislature also finds that currently only forty percent of Washington's high school students earn such a credential by age twenty-six, when seventy percent is the goal set by industry and business leaders intent on hiring Washington-educated workers. The

legislature finds that Washington state already has several successful programs that help Washington students train for Washington jobs, including the state need grant, the guided pathways initiative at the community and technical colleges, and degree and apprenticeship programs in high-demand fields, such as computer science, engineering, nursing, and more. The legislature further finds that providing additional resources for workforce investments is critical in maintaining Washington's competitiveness in the global economy by ensuring businesses are able to hire Washington talent. Therefore, the legislature intends to create the new workforce education investment account, supported by professions that depend on higher education, that will expand existing investments to help people earn the credentials essential to obtain family-wage jobs and fill the seven hundred forty thousand jobs of the future." Sections

43.81.010	Legislative declaration.
43.81.020	Availability of state-owned or leased living facilities.
43.81.030	Rent—Custodial housekeeping—Damages.
43.81.040	Maintenance in safe, healthful condition.

43.81.010 Legislative declaration. The legislature recognizes that significant benefits accrue to the state and that certain types of state operations are more efficient when personnel services are available on an extended basis. Such operations include certain types of facilities managed by agencies such as the departments of natural resources, corrections, fish and wildlife, social and health services, transportation, and veterans affairs, and the parks and recreation commission.

The means of assuring that such personnel are available on an extended basis is through the establishment of on-site state-owned or leased living facilities. The legislature also recognizes the restrictions and hardship placed upon those personnel who are required to reside in such state-owned or leased living facilities in order to provide extended personnel services.

The legislature further recognizes that there are instances where it is to the benefit of the state to have state-owned or leased living facilities occupied even though such occupancy is not required by the agency as a condition of employment. [1994 c 264 § 27; 1988 c 36 § 19; 1985 c 463 § 1.]

43.81.020 Availability of state-owned or leased living facilities. (1) Whenever an agency requires that an employee reside in state-owned or leased living facilities as a condition of employment, such living facilities shall be made available to the employee under the conditions set forth in RCW 43.81.030 and 43.81.040.

(2) Whenever an agency determines that (a) a living facility owned or leased by the agency is not occupied by employees under subsection (1) of this section and (b) it would be to the agency's benefit to have the facility occupied by an employee of the agency whose duties involve extended personnel services associated with the work site upon which the living facility is located or at work site near to where the living facility is located, the agency may make the facility available to such employee.

(3) Whenever an agency determines that (a) a living facility owned or leased by the agency is not occupied by employees under subsection (1) of this section and (b) the facility has been made available to employees under subsection (2) of this section and that no such employees have opted to reside in the facility, the agency may make the facility available for occupancy to other interested parties. [1985 c 463 § 2.]

43.81.030 Rent—Custodial housekeeping—Damages. (1) No rent may be charged to persons living in facilities provided under RCW 43.81.020(1). Such employees shall pay the costs of utilities associated with the living facility.

(2) Any person occupying state-owned or leased living facilities shall do so with the understanding that he or she

assumes custodial housekeeping responsibility as directed by the agency. Such responsibility shall not include maintenance, repairs, or improvements to the facilities. An occupant of a state-owned or leased facility is liable for damages to the facility in excess of normal wear and tear. [1989 c 11 § 16; 1985 c 463 § 3.]

Additional notes found at www.leg.wa.gov

43.81.040 Maintenance in safe, healthful condition.

The state shall maintain living facilities occupied under RCW 43.81.020 in a safe, healthful condition. [1985 c 463 § 4.]

43.82.010 Acquisition, lease, and disposal of real estate for state agencies—Long-range planning—Use of lease as collateral or security—Colocation and consolidation—Studies—Delegation of functions—Exemptions.

(1) The director of enterprise services, on behalf of the agency involved and after consultation with the office of financial management, shall purchase, lease, lease purchase, rent, or otherwise acquire all real estate, improved or unimproved, as may be required by elected state officials, institutions, departments, commissions, boards, and other state agencies, or federal agencies where joint state and federal activities are undertaken and may grant easements and transfer, exchange, sell, lease, or sublease all or part of any surplus real estate for those state agencies which do not otherwise have the specific authority to dispose of real estate. Any such transfer, exchange, or sale must comply with RCW 43.17.400, and may be made in accordance with RCW 39.33.015. This section does not transfer financial liability for the acquired property to the department of enterprise services.

(2) Except for real estate occupied by federal agencies, the director shall determine the location, size, and design of any real estate or improvements thereon acquired or held pursuant to subsection (1) of this section. Facilities acquired or held pursuant to this chapter, and any improvements thereon, shall conform to standards adopted by the director and approved by the office of financial management governing

facility efficiency unless a specific exemption from such standards is provided by the director of enterprise services. The director of enterprise services shall report to the office of financial management and the appropriate committees of the legislature annually on any exemptions granted pursuant to this subsection.

(3) Except for leases permitted under subsection (4) of this section, the director of enterprise services may fix the terms and conditions of each lease entered into under this chapter, except that no lease shall extend greater than twenty years in duration. The director of enterprise services may enter into a long-term lease greater than ten years in duration upon a determination by the director of the office of financial management that the long-term lease provides a more favorable rate than would otherwise be available, it appears to a substantial certainty that the facility is necessary for use by the state for the full length of the lease term, and the facility meets the standards adopted pursuant to subsection (2) of this section. The director of enterprise services may enter into a long-term lease greater than ten years in duration if an analysis shows that the life-cycle cost of leasing the facility is less than the life-cycle cost of purchasing or constructing a facility in lieu of leasing the facility.

(4) The director of enterprise services may fix the terms of leases for property under the department of enterprise services' control at the former Northern State Hospital site for up to sixty years.

(5) Except as permitted under chapter 39.94 RCW, no lease for or on behalf of any state agency may be used or referred to as collateral or security for the payment of securities offered for sale through a public offering. Except as permitted under chapter 39.94 RCW, no lease for or on behalf of any state agency may be used or referred to as collateral or security for the payment of securities offered for sale through a private placement without the prior written approval of the state treasurer. However, this limitation shall not prevent a lessor from assigning or encumbering its interest in a lease as security for the repayment of a promissory note provided that the transaction would otherwise be an exempt transaction under RCW 21.20.320. The state treasurer shall adopt rules that establish the criteria under which any such approval may be granted. In establishing such criteria the state treasurer shall give primary consideration to the protection of the state's credit rating and the integrity of the state's debt management program. If it appears to the state treasurer that any lease has been used or referred to in violation of this subsection or rules adopted under this subsection, then he or she may recommend that the governor cause such lease to be terminated. The department of enterprise services shall promptly notify the state treasurer whenever it may appear to the department that any lease has been used or referred to in violation of this subsection or rules adopted under this subsection.

(6) It is the policy of the state to encourage the colocation and consolidation of state services into single or adjacent facilities, whenever appropriate, to improve public service delivery, minimize duplication of facilities, increase efficiency of operations, and promote sound growth management planning.

(7) The director of enterprise services shall provide coordinated long-range planning services to identify and evaluate

opportunities for colocating and consolidating state facilities. Upon the renewal of any lease, the inception of a new lease, or the purchase of a facility, the director of enterprise services shall determine whether an opportunity exists for colocating the agency or agencies in a single facility with other agencies located in the same geographic area. If a colocation opportunity exists, the director of enterprise services shall consult with the affected state agencies and the office of financial management to evaluate the impact colocation would have on the cost and delivery of agency programs, including whether program delivery would be enhanced due to the centralization of services. The director of enterprise services, in consultation with the office of financial management, shall develop procedures for implementing colocation and consolidation of state facilities.

(8) The director of enterprise services is authorized to purchase, lease, rent, or otherwise acquire improved or unimproved real estate as owner or lessee and to lease or sublet all or a part of such real estate to state or federal agencies. The director of enterprise services shall charge each using agency its proportionate rental which shall include an amount sufficient to pay all costs, including, but not limited to, those for utilities, janitorial and accounting services, and sufficient to provide for contingencies; which shall not exceed five percent of the average annual rental, to meet unforeseen expenses incident to management of the real estate.

(9) If the director of enterprise services determines that it is necessary or advisable to undertake any work, construction, alteration, repair, or improvement on any real estate acquired pursuant to subsection (1) or (8) of this section, the director shall cause plans and specifications thereof and an estimate of the cost of such work to be made and filed in his or her office and the state agency benefiting thereby is hereby authorized to pay for such work out of any available funds: PROVIDED, That the cost of executing such work shall not exceed the sum of twenty-five thousand dollars. Work, construction, alteration, repair, or improvement in excess of twenty-five thousand dollars, other than that done by the owner of the property if other than the state, shall be performed in accordance with the public works law of this state.

(10) In order to obtain maximum utilization of space, the director of enterprise services shall make space utilization studies, and shall establish standards for use of space by state agencies. Such studies shall include the identification of opportunities for colocation and consolidation of state agency office and support facilities.

(11) The director of enterprise services may construct new buildings on, or improve existing facilities, and furnish and equip, all real estate under his or her management. Prior to the construction of new buildings or major improvements to existing facilities or acquisition of facilities using a lease purchase contract, the director of enterprise services shall conduct an evaluation of the facility design and budget using life-cycle cost analysis, value-engineering, and other techniques to maximize the long-term effectiveness and efficiency of the facility or improvement.

(12) All conveyances and contracts to purchase, lease, rent, transfer, exchange, or sell real estate and to grant and accept easements shall be approved as to form by the attorney general, signed by the director of enterprise services or the

director's designee, and recorded with the county auditor of the county in which the property is located.

(13) The director of enterprise services may delegate any or all of the functions specified in this section to any agency upon such terms and conditions as the director deems advisable. By January 1st of each year, beginning January 1, 2008, the department shall submit an annual report to the office of financial management and the appropriate committees of the legislature on all delegated leases.

(14) This section does not apply to the acquisition of real estate by:

(a) The state college and universities for research or experimental purposes;

(b) The state liquor and cannabis board for liquor stores and warehouses;

(c) The department of natural resources, the department of fish and wildlife, the department of transportation, and the state parks and recreation commission for purposes other than the leasing of offices, warehouses, and real estate for similar purposes; and

(d) The department of commerce for community college health career training programs, offices for the department of commerce or other appropriate state agencies, and other non-profit community uses, including community meeting and training facilities, where the real estate is acquired during the 2013-2015 fiscal biennium.

(15) Notwithstanding any provision in this chapter to the contrary, the department of enterprise services may negotiate ground leases for public lands on which property is to be acquired under a financing contract pursuant to chapter 39.94 RCW under terms approved by the state finance committee.

(16) The department of enterprise services shall report annually to the office of financial management and the appropriate fiscal committees of the legislature on facility leases executed for all state agencies for the preceding year, lease terms, and annual lease costs. The report must include leases executed under RCW 43.82.045 and subsection (13) of this section. 43.82.030 Acquisition of property and rights declared public use—Eminent domain. 43.82.035 Predesign process for requests to lease, purchase, or build facilities for state programs—Approval of plans for major leased facilities. (1) The office of financial management shall design and implement a modified predesign process for any space request to lease, purchase, or build facilities that involve (a) the housing of new state programs, (b) a major expansion of existing state programs, or (c) the relocation of state agency programs. This includes the consolidation of multiple state agency tenants into one facility. The office of financial management shall define facilities that meet the criteria described in (a) and (b) of this subsection.

(2) State agencies shall submit modified predesigns to the office of financial management and the legislature. Modified predesigns must include a problem statement, an analysis of alternatives to address programmatic and space requirements, proposed locations, and a financial assessment. For proposed projects of twenty thousand gross square feet or less, the agency may provide a cost-benefit analysis, rather than a life-cycle cost analysis, as determined by the office of financial management.

(3) Projects that meet the capital requirements for predesign on major facility projects with an estimated project cost of 10 million dollars or more pursuant to chapter 43.88 RCW shall not be required to prepare a modified predesign.

(4) The office of financial management shall require state agencies to identify plans for major leased facilities as part of the ten-year capital budget plan. State agencies shall not enter into new or renewed leases of more than one million dollars per year unless such leases have been approved by the office of financial management except when the need for the lease is due to an unanticipated emergency. The regular termination date on an existing lease does not constitute an emergency. The department of enterprise services shall notify the office of financial management and the appropriate legislative fiscal committees if an emergency situation arises.

(5) For project proposals in which there are estimates of operational savings, the office of financial management shall require the agency or agencies involved to provide details including but not limited to fund sources and timelines. [2021 c 54 § 3; 2015 c 225 § 75; 2007 c 506 § 4.]

Findings—Intent—2021 c 54: See note following RCW 43.88.110.

Findings—Intent—2007 c 506: "The legislature finds that the capital stock of facilities owned and leased by state agencies represents a significant financial investment by the citizens of the state of Washington. Capital construction projects funded in the state's capital budget require diligent analysis and approval by the governor and the legislature. In some cases, long-term leases obligate state agencies to a larger financial commitment than some capital construction projects without a comparable level of diligence. State facility analysis and portfolio management can be strengthened through greater oversight and support from the office of financial management and the legislature and with input from stakeholders.

The legislature finds that the state lacks specific policies and standards on conducting life-cycle cost analysis to determine the cost-effectiveness of owning or leasing state facilities and lacks clear guidance on when and how to use it. Further, there is limited oversight and review of the results of

life-cycle cost analyses in the capital project review process. Unless decision makers are provided a thorough economic analysis, they cannot identify the most cost-effective alternative or identify opportunities for improving the cost-effectiveness of state facility alternatives.

The legislature finds that the statewide accounting system limits the ability of the office of financial management and the legislature to analyze agency expenditures that include only leases for land, buildings, and structures. Additionally, other statewide data systems that track state-owned and leased facility information are limited, onerous, and inflexible.

Therefore, it is the intent of the legislature to strengthen the office of financial management's oversight role in state facility analysis and decision making. Further, it is the intent of the legislature to support the office of financial management's and the *department of general administration's need for technical expertise and data systems to conduct thorough analysis, long-term planning, and state facility portfolio management by providing adequate resources in the capital and operating budgets." [2007 c 506 § 1.]

***Reviser's note:** The "department of general administration" was renamed the "department of enterprise services" by 2011 1st sp.s. c 43 § 107.

43.82.045 Approval of leases—Privately owned buildings being planned or under construction. State agencies are prohibited from entering into lease agreements for privately owned buildings that are in the planning stage of development or under construction unless there is prior written approval by the director of the office of financial management. Approval of such leases shall not be delegated. Lease agreements described in this section must comply with RCW 43.82.035. [2007 c 506 § 5.]

Findings—Intent—2007 c 506: See note following RCW 43.82.035.

43.82.055 Long-term facility needs—Six-year facility plan—Efficient use of state facilities. The office of financial management shall:

(1) Work with the department of enterprise services and all other state agencies to determine the long-term facility needs of state government;

(2) Develop and submit a six-year facility plan to the legislature by January 1st of every odd-numbered year that includes state agency space requirements and other pertinent data necessary for cost-effective facility planning. The department of enterprise services shall assist with this effort as required by the office of financial management; and

(3) Establish and enforce policies and workplace strategies that promote the efficient use of state facilities. [2015 3rd sp.s. c 1 § 301; 2015 c 225 § 76; 2007 c 506 § 6.]

Findings—Intent—2007 c 506: See note following RCW 43.82.035.

43.82.110 Lease of space—Surplus space. All office or other space made available through the provisions of this chapter shall be leased by the director to such state or federal agencies, for such rental, and on such terms and conditions as he or she deems advisable: PROVIDED, HOWEVER, if space becomes surplus, the director is authorized to lease office or other space in any project to any person, corporation or body politic, for such period as the director shall determine said space is surplus, and upon such other terms and conditions as he or she may prescribe. [1994 c 219 § 13; 1969 c 121 § 2; 1965 c 8 § 43.82.110. Prior: 1961 c 184 § 4; 1959 c 255 § 11.]

Finding—1994 c 219: See note following RCW 43.88.030.

43.82.120 Enterprise services account—Rental income. All rental income collected by the department of enterprise services from rental of state buildings shall be

deposited in the enterprise services account. [2011 1st sp.s. c 43 § 254; 1998 c 105 § 14; 1994 c 219 § 14; 1965 c 8 § 43.82.120. Prior: 1961 c 184 § 5; 1959 c 255 § 12.]

43.82.150 Inventory of state-owned or leased facilities—Report. (1) The office of financial management shall develop and maintain an inventory system to account for all facilities owned or leased by state government. At a minimum, the inventory system must include the facility owner, location, type, condition, use data, and size of each facility. In addition, for owned facilities, the inventory system must include the date and cost of original construction and the cost of any major remodeling or renovation. Findings—Intent—2007 c 506: See note following RCW 43.82.035.

Findings—Purpose—1997 c 96: "The legislature finds that the capital stock of facilities owned by state agencies represents a significant financial investment by the citizens of the state of Washington, and that providing agencies with the tools and incentives needed to adequately maintain state facilities is critically important to realizing the full value of this investment. The legislature also finds that ongoing reporting of facility inventory, condition, and maintenance information by agencies will improve accountability and assist in the evaluation of budget requests and facility management by the legislature and governor. The purpose of this act is to ensure that recent enhancements to facility and maintenance reporting systems implemented by the office of financial management, and a new program created by the *department of general administration to provide maintenance information and technical assistance to state and local agencies, are sustained into the future." For purposes of this section,

(2021 Ed.)

"transfer" may include lease renewals. The nonprofit corporation shall use the real property and facilities for the purpose of providing the following limited programs as designated by the department of social and health services: Nonprofit community centers, close-to-home living units, employment and independent living training centers, vocational rehabilitation centers, developmental disabilities training centers, and community homes for individuals with mental illness.

(2) The deed transferring the property in subsection (1) of this section must provide for immediate reversion back to the public body if the nonprofit corporation ceases to use the property for the purposes described in subsection (1) of this section.

(3) The nonprofit corporation is authorized to sell the property transferred to it pursuant to subsection (1) of this section only if all of the following conditions are satisfied: (a) Any such sale must have the prior written approval by the department of social and health services; (b) all proceeds from such a sale must be applied to the purchase price of a different property or properties of equal or greater value than the original property; (c) any new property or properties must be used for the purposes stated in subsection (1) of this section; (d) the new property or properties must be available for use within one year of sale; and (e) the nonprofit corporation must enter into an agreement with the public entity to reimburse the public entity for the value of the original property at the time of the sale if the nonprofit corporation ceases to use the new property for the purposes described in subsection (1) of this section.

[2015 1st sp.s. c 4 § 38; 2006 c 35 § 2. Formerly RCW 43.99C.070.]

Reviser's note: This section has been recodified pursuant to RCW 1.08.015(2)(h).

Findings—2006 c 35: "The legislature finds that protecting the public health, safety, and welfare by providing services to needy or vulnerable persons is a fundamental purpose of government. The legislature further finds that private nonprofit corporations fill an important public purpose in providing these types of health, safety, and welfare services to our state's residents. Acting through partnerships with governmental entities, these private sector providers are able to increase the amount and quality of these services available to state residents. The legislature finds that ensuring continued provision of these services in the private sector confers a valuable benefit on the public that constitutes consideration for transfer of certain public property and facilities to eligible private nonprofit corporations, subject to restrictions that provide continued protection of the public interest." [2006 c 35 § 1.]

43.83.410 Transfers of real property and facilities to nonprofit corporations. For purposes of this section, "transfer" may include lease renewals. The nonprofit corporation shall use the real property and facilities for the purpose of providing the following programs as designated by the department of social and health services: Facilities for social services, adult and juvenile correction or detention, child welfare, day care, drug abuse and alcoholism treatment, mental health, public health, developmental disabilities, and vocational rehabilitation.

(2) The deed transferring the property in subsection (1) of this section must provide for immediate reversion back to the public body if the nonprofit corporation ceases to use the property for the purposes described in subsection (1) of this section.

(3) The nonprofit corporation is authorized to sell the property transferred to it pursuant to subsection (1) of this section only if all of the following conditions are satisfied: (a) Any such sale must be subject to prior written approval by the department of social and health services; (b) all proceeds from such a sale must be applied to the purchase price of a different property or properties of equal or greater value than the original property; (c) any new property or properties must be used for the purposes stated in subsection (1) of this section; (d) the new property or properties must be available for use within one year of sale; and (e) the nonprofit corporation must enter into an agreement with the public entity to reimburse the public entity for the value of the original property at the time of the sale if the nonprofit corporation ceases to use the new property for the purposes described in subsection (1) of this section.

(4) If the nonprofit corporation ceases to use the property for the purposes described in subsection (1) of this section, the property and facilities revert immediately to the public body. The public body shall then determine if the property, or the reimbursed amount in the case of a reimbursement under subsection (3)(e) of this section, may be used by another program as designated by the department of social and health services. These programs have priority in obtaining the property to ensure that the purposes specified in the social and health services facilities 1972 bond issue are carried out.

(5) As used in this section, the term "public body" means the state of Washington, or any agency, political subdivision, taxing district, or municipal corporation thereof, and those Indian tribes now or hereafter recognized as such by the federal government for participation in the federal land and water conservation program and which may constitutionally receive grants or loans from the state of Washington. 43.83B.011 Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Department" means the department of ecology.

(2) "Drought condition" means that the water supply for a geographic area, or for a significant portion of a geographic area, is below seventy-five percent of normal and the water shortage is likely to create undue hardships for water users or the environment.

(3) "Normal" water supply, for the purpose of determining drought conditions, means the median amount of water available to a geographical area, relative to the most recent thirty-year base period used to define climate normals. [2020 c 168 § 1.]

43.83B.230 Provision for recreation, fish and wildlife enhancement and other public benefits. In the course of considering applications under this chapter, the department of ecology shall make known to other state agencies possibilities which may arise to provide public benefits such as recreation or fish and wildlife enhancement in connection with proposed projects. Such agencies, including the department of ecology, are authorized to participate in said projects provided agency funds are made available to pay the full cost of their participation. [1975 1st ex.s. c 295 § 14.]

43.83B.400 Findings—Intent. The legislature recognizes that drought and water shortages can place a significant hardship on Washington communities, farms, and the natural environment. Rising temperatures due to climate change may cause water supply shortages to be more frequent and severe in the future. Therefore, the ability to respond to drought and water shortage emergencies is critical to the long-term prosperity of our state. It is the intent of the legislature to provide the department with the authority to effectively and efficiently take actions when a drought emergency occurs to alleviate hardship on water users and our natural environment.

The legislature also recognizes that effective emergency drought response is predicated on building resiliency and preparedness before water shortages occur. Therefore, it is also the intent of the legislature that the department assist water users by supporting measures to strengthen the resiliency and preparedness of water users to drought conditions in the long term. [2020 c 168 § 2; 1989 c 171 § 1.]

43.83B.405 Drought advisories—Orders of drought emergency—Procedure. (1) Whenever it appears to the department, based on the definitions of drought condition and normal water supply set forth in RCW 43.83B.011, that drought conditions may develop, the department may issue a drought advisory. The drought advisory should seek to increase the awareness and readiness of affected water users and may recommend voluntary actions to alleviate drought impacts.

(2)(a) Whenever it appears to the department, based on the definitions of drought condition and normal water supply set forth in RCW 43.83B.011, that a drought condition either exists or is forecast to occur within the state or portions thereof, the department is authorized to issue orders of drought emergency, pursuant to adopted rules, to implement the powers as set forth in RCW 43.83B.410 through 43.83B.420.

(b) Prior to the issuance of an order of drought emergency, the department shall:

(i) Consult with the federal and state government entities identified in the drought contingency plan periodically revised by the department pursuant to RCW 43.83B.440 and consult with affected federally recognized tribes;

(ii) Consider input from local water users, including nursery and landscape professionals, in the determination of undue hardship under RCW 43.83B.011(2); and

(iii) Obtain the written approval of the governor.

(c) Upon issuance of an order of drought emergency, the department shall notify the public of the order consistent with rules adopted by the department.

(d) Orders of drought emergency issued under (a) of this subsection shall be deemed orders for the purposes of chapter 34.05 RCW.

(e) A person may petition the department to declare a drought emergency for the state or portions of the state. The department may review a petition, but any order of drought emergency issued after receipt of a petition must be based on the definitions of drought condition and normal water supply set forth in RCW 43.83B.011, and must be issued according to the procedure set forth in this section. The department must not rely exclusively on information presented in a petition when determining whether to issue an order of drought emergency.

(3)(a) Any order issued under subsection (2) of this section shall contain a termination date for the order. The termination date shall be not later than one calendar year from the date the order is issued. Although the department may, with the written approval of the governor, change the termination date by amending the order, no such amendment or series of amendments may have the effect of extending its termination to a date which is later than two calendar years after the issuance of the order.

(b) The provisions of this section do not preclude the issuance of more than one order under subsection (2) of this section for different areas of the state, or sequentially for the same area, as the need arises. [2020 c 168 § 3; 1989 c 171 § 2.]

43.83B.410 Drought emergencies—Withdrawals and diversions—Agreements. Upon the issuance of an order of

(2021 Ed.)

drought emergency under RCW 43.83B.405(2), the department may:

(1)(a) Authorize emergency withdrawal of public surface and ground waters, including dead storage within reservoirs, on a temporary basis and authorize temporary or permanent associated physical works. The department shall prioritize the approval of emergency withdrawal authorizations in order to address those most affected by the water deficit to ensure the survival of irrigated crops, the state's fisheries, and the provision of water for small communities.

(b) The termination date for emergency withdrawals may not be later than the termination date of the order issued under RCW 43.83B.405(2).

(c) The department may issue emergency withdrawal authorizations only when, after investigation and after providing appropriate federal, state, and local governmental bodies and affected federally recognized tribes an opportunity to comment, the following are found:

(i) The waters proposed for withdrawal are to be used for a beneficial use involving a previously established activity or purpose;

(ii) The previously established activity or purpose was furnished water through rights applicable to the use of a public body of water that cannot be exercised due to the lack of water arising from natural drought conditions; and

(iii) The proposed withdrawal will not reduce flows or levels below essential minimums necessary to ensure the maintenance of fisheries requirements and to protect federal and state interests including, among others, power generation, navigation, and existing water rights.

(d) All emergency withdrawal authorizations issued under this section shall contain provisions that allow for termination of withdrawals, in whole or in part, whenever withdrawals will conflict with flows and levels as provided in (c)(iii) of this subsection.

(e) As to water withdrawal and associated works authorized under this subsection, the requirements of chapter 43.21C RCW and public bidding requirements as otherwise provided by law are waived and inapplicable. All state and local agencies with authority to issue permits or other authorizations for such works shall, to the extent possible, expedite the processing of the permits or authorizations in keeping with the emergency nature of the requests and shall provide a decision to the applicant within fifteen calendar days of the date of application. All state departments or other agencies having jurisdiction over state or other public lands, if such lands are necessary to effectuate the withdrawal authorizations issued under this subsection, shall provide short-term easements or other appropriate property interest upon the payment of the fair market value. This mandate shall not apply to any lands of the state that are reserved for a special purpose or use that cannot properly be carried out if the property interest were conveyed;

(2) Approve a temporary change in purpose, place of use, point of diversion, or point of withdrawal, consistent with existing state policy allowing transfer or lease of waters between willing parties, as provided for in RCW 90.03.380, 90.03.390, and 90.44.100. However, compliance with any requirements of notice of newspaper publication of these sections or the state environmental policy act under chapter 43.21C RCW, is not required when such changes are neces-

sary to respond to drought conditions as determined by the department. An approval of a temporary change of a water right as authorized under this subsection is not admissible as evidence in either supporting or contesting the validity of water claims in a general adjudication under RCW 90.03.210 or any similar proceeding where the existence of a water right is at issue;

(3) Employ additional persons for specified terms of time, consistent with the term of a drought condition, as are necessary to ensure the successful performance of the activities associated with implementing the emergency drought program of this chapter;

(4) Acquire needed emergency drought-related equipment;

(5) Enter into agreements with applicants receiving emergency withdrawal authorizations established under this section to recover the costs, or a portion thereof, of mitigation for emergency withdrawal authorizations, provided that mitigation is done to protect instream flows, federally regulated flows, or senior water rights. The department may establish the specifics of cost recovery by rule, based on the amount of water used in the emergency withdrawal, which shall not exceed the cost of mitigation; and

(6) Enter into interagency agreements as authorized under chapter 39.34 RCW to partner in emergency drought response. [2020 c 168 § 4; 1989 c 171 § 3.]

43.83B.415 Grants to public entities. (1)(a) The department is authorized to issue grants to eligible public entities to reduce current or future hardship caused by water unavailability stemming from drought conditions. No single entity may receive more than twenty-five percent of the total funds available. The department is not obligated to fund projects that do not provide sufficient benefit to alleviating hardship caused by drought or water unavailability. Projects must show substantial benefit from securing water supply, availability, or reliability relative to project costs.

(b) Except for projects for public water systems serving economically disadvantaged communities, the department may only fund up to fifty percent of the total eligible cost of the project. Money used by applicants as a cash match may not originate from other state funds.

(c) For the purposes of this chapter, eligible public entities include only:

(i) Counties, cities, and towns;

(ii) Water and sewer districts formed under chapter 57.02 RCW;

(iii) Public utility districts formed under chapter 54.04 RCW;

(iv) Port districts formed under chapter 53.04 RCW;

(v) Conservation districts formed under chapter 89.08 RCW;

(vi) Irrigation districts formed under chapter 87.03 RCW;

(vii) Watershed management partnerships formed under RCW 39.34.200; and

(viii) Federally recognized tribes.

(2) Grants may be used to develop projects that enhance the ability of water users to effectively mitigate for the impacts of water unavailability arising from drought. Project

applicants must demonstrate that the projects will increase their resiliency, preparedness, or ability to withstand drought conditions when they occur. Projects may include, but are not limited to:

(a) Creation of additional water storage;

(b) Implementation of source substitution projects;

(c) Development of alternative, backup, or emergency water supplies or interties;

(d) Installation of infrastructure or creation of educational programs that improve water conservation and efficiency or promote use of reclaimed water;

(e) Development or update of local drought contingency plans if not already required by state rules adopted under chapter 246-290 WAC;

(f) Mitigation of emergency withdrawals authorized under RCW 43.83B.410(1);

(g) Projects designed to mitigate for the impacts of water supply shortages on fish and wildlife; and

(h) Emergency construction or modification of water recreational facilities.

(3) During a drought emergency order pursuant to RCW 43.83B.405(2), the department shall prioritize funding for projects designed to relieve the immediate hardship caused by water unavailability. [2020 c 168 § 5; 1989 c 171 § 4.]

43.83B.425 Applicability—Construction. Nothing in this chapter shall:

(1) Authorize any interference whatsoever with existing water rights;

(2) Authorize the establishment of rights to withdrawal of waters of a permanent nature or of rights with any priority;

(3) Authorize the establishment of a water right under RCW 90.03.250 or 90.44.060;

All receipts from appropriated funds designated for the account and all cost recovery revenues collected under RCW 43.83B.410(5) must be deposited into the account. Expenditures from the account may be used for drought preparedness and response activities under this chapter, including grants issued under RCW 43.83B.415. Moneys in the account may be spent only after appropriation. [2020 c 168 § 6; 2016 sp.s. c 36 § 933; 2011 c 5 § 911; 2002 c 371 § 910; 1999 c 379 § 921.]

revise the existing drought contingency plan. The department shall notify interested parties of any updates to the drought contingency plan. [2020 c 168 § 7.]

43.83B.450 Long-term water right lease agreements—Pilot program. (Expires June 30, 2025.) (1) The department shall initiate a pilot program in a selected basin or basins to explore the cost, feasibility, and benefits of entering into long-term water right lease agreements. The purpose of the agreements is to alleviate water supply conditions that may affect public health and safety, drinking water supplies, agricultural activities, or fish and wildlife survival. Under this program, the department is authorized to negotiate and enter into contractual agreements before a drought emergency is declared under RCW 43.83B.405(2) that identify projects, measures, sources of water, and other resources that may be accessed during times of water shortage. Water right changes executed under agreement under this section are subject to the requirements of RCW 90.03.380.

(2) The department shall submit a report to the legislature by December 31, 2024, on the results of the pilot program. The department shall include a summary of the contracts entered into pursuant to this section and recommendations to the legislature.

(3) This section expires June 30, 2025. [2020 c 168 § 8.]

43.83B.901 Severability—1977 ex.s. c 1. If any provision of this 1977 amendatory act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected. [1977 ex.s. c 1 § 19.]

The legislature also finds that it is in the best interest of the state and local communities to secure a stable and dedicated source of funds for the community economic revitalization board. It is the intent of the legislature to establish an ongoing funding source for the community economic revitalization board that will be used exclusively to advance economic development infrastructure. This act provides a partial funding solution by directing that beginning July 1, 2005, the interest earnings generated by the public works assistance account shall be used to fund the community economic revitalization board's financial assistance programs. These funds are not for use other than for the stated purpose and goals of the community economic revitalization board." [2003 c 150 § 1; 2002 c 242 § 1.]

Legislative finding—1999 c 94: "The legislature finds that a periodic review of the accounts and their uses is necessary. While creating new accounts may facilitate the implementation of legislative intent, the creation of too many accounts limits the effectiveness of performance-based budgeting. Too many accounts also limit the flexibility of the legislature to address emerging and changing issues in addition to creating administrative burdens for the responsible agencies. Accounts created for specific purposes may no longer be valid or needed. Accordingly, this act eliminates accounts that are not in use or are unneeded and consolidates accounts that are similar in nature." [1999 c 94 § 1.]

The legislature also finds that it is in the best interest of the state and local communities to secure a stable and dedicated source of funds for the community economic revitalization board. It is the intent of the legislature to establish an ongoing funding source for the community economic revitalization board that will be used exclusively to advance economic development infrastructure. This act provides a partial funding solution by directing that beginning July 1, 2005, the interest earnings generated by the public works assistance account shall be used to fund the community economic revitalization board's financial assistance programs. These funds are not for use other than for the stated purpose and goals of the community economic revitalization board." [2003 c 150 § 1; 2002 c 242 § 1.]

Legislative finding—1999 c 94: "The legislature finds that a periodic review of the accounts and their uses is necessary. While creating new accounts may facilitate the implementation of legislative intent, the creation of too many accounts limits the effectiveness of performance-based budgeting. Too many accounts also limit the flexibility of the legislature to address emerging and changing issues in addition to creating administrative burdens for the responsible agencies. Accounts created for specific purposes may no longer be valid or needed. Accordingly, this act eliminates accounts that are not in use or are unneeded and consolidates accounts that are similar in nature." [1999 c 94 § 1.]

Public funds, deposit and investment, public depositories: Chapter 39.58 RCW.

43.86A.010 Finding—Objectives. The legislature finds that a procedure should be established for the management of short term treasury surplus funds by the state treasurer in order to insure a maximum return while they are on deposit in public depositories. The objectives of this procedure are to minimize noninterest earning demand deposits and provide fair compensation to financial institutions for services rendered to the state through the investment of state funds in time deposits. [1983 c 66 § 20; 1973 c 123 § 1.]

Additional notes found at www.leg.wa.gov

43.86A.020 Surplus funds held as demand deposits to be limited. After March 19, 1973, the state treasurer shall limit surplus funds held as demand deposits to an amount

necessary for current operating expenses including direct warrant redemption payments, investments and revenue collection. The state treasurer may hold such additional funds as demand deposits as he or she deems necessary to insure efficient treasury management. [2009 c 549 § 5164; 1973 c 123 § 2.]

43.86A.030 Time certificate of deposit investment program—Available funds—Allocation. (1)(a) The state treasurer shall make funds available for a time certificate of deposit investment program according to the following formula: The state treasurer shall apportion to all participating depositories an amount equal to five percent of the three year average mean of general state revenues as certified in accordance with Article VIII, section 1(b) of the state Constitution, or fifty percent of the total surplus treasury investment availability, whichever is less. Within thirty days after certification, an amount equal to those funds determined to be available according to this formula for the time certificate of deposit investment program shall be available for deposit in qualified public depositories. These funds shall be allocated among the participating depositories on a basis to be determined by the state treasurer.

(b) The funds made available by the treasurer for a time certificate of deposit investment program under (a) of this subsection (1) may be provided from either treasury surplus funds or funds held pursuant to chapter 43.250 RCW.

(2) Of all state funds available under this section, the state treasurer may use up to one hundred seventy-five million dollars per year for the purposes of RCW 43.86A.060 (2)(c) (i) and (iii) and up to fifteen million dollars per year for the purposes of RCW 43.86A.060(2)(c)(ii). The amounts made available to these public depositories shall be equal to the amounts of outstanding loans made under RCW 43.86A.060.

(3) The formula so devised shall be a matter of public record giving consideration to, but not limited to, deposits, assets, loans, capital structure, investments, or some combination of these factors. However, if in the judgment of the state treasurer the amount of allocation for certificates of deposit as determined by this section will impair the cash flow needs of the state treasury, the state treasurer may adjust the amount of the allocation accordingly. [2010 c 139 § 1; 2009 c 384 § 2; 2008 c 187 § 2; 2007 c 500 § 1; 2005 c 302 § 2; 1993 c 512 § 33; 1982 c 74 § 1; 1973 c 123 § 3.]

Intent—2005 c 302: "The legislature intends that funds provided under the linked deposit program shall be used to create jobs and economic opportunity as well as to remedy the problem of a lack of access to capital by minority and women's business enterprises." [2005 c 302 § 1.]

43.86A.040 Other investment powers of state treasurer not limited. Except as provided in RCW 43.86A.020 and 43.86A.030, nothing in this chapter shall be construed as a limitation upon the powers of the state treasurer to determine the amount of surplus treasury funds which may be invested in time certificates of deposit. [1973 c 123 § 4.]

43.86A.050 Implementation of chapter by state treasurer. The state treasurer shall devise the necessary formulae and methodology to implement the provisions of this chapter. Periodically, but at least once every six months, the

state treasurer shall review all rules and shall adopt, amend or repeal them as may be necessary. These rules and a list of time certificate of deposit allocations shall be published in the treasurer's monthly financial report as required under the provisions of RCW 43.08.150. [1973 c 123 § 5.]

43.86A.060 Linked deposit program—Eligible entities—Interest rates—Rule-making authority. (1) The state treasurer shall establish a linked deposit program for investment of deposits in qualified public depositories. As a condition of participating in the program, qualified public depositories must make qualifying loans as provided in this section. The state treasurer may purchase a certificate of deposit that is equal to the amount of the qualifying loan made by the qualified public depository or may purchase a certificate of deposit that is equal to the aggregate amount of two or more qualifying loans made by one or more qualified public depositories.

(2) Qualifying loans made under this section are those:

(a) Having terms that do not exceed ten years;

(b) Where an individual loan does not exceed one million dollars;

(c)(i) That are made to a minority or women's business enterprise that has received state certification under chapter 39.19 RCW;

(ii) That are made to a veteran-owned business that has received state certification under RCW 43.60A.190; or

(iii) That are made to a community development financial institution that is: (A) Certified by the United States department of the treasury pursuant to 12 U.S.C. Sec. 4701 et seq.; and (B) using that loan to make qualifying loans under (c)(i) of this subsection;

(d) Where the interest rate on the loan to the minority or women's business enterprise or veteran-owned business does not exceed an interest rate that is two hundred basis points below the interest rate the qualified public depository would charge for a loan for a similar purpose and a similar term, except that, if the preference given by the state treasurer to the qualified public depository under subsection (3) of this section is less than two hundred basis points, the qualified public depository may reduce the preference given on the loan by an amount that corresponds to the reduction in preference below two hundred basis points given to the qualified public depository; and

(e) Where the points or fees charged at loan closing do not exceed one percent of the loan amount.

(3) In setting interest rates of time certificate of deposits, the state treasurer shall offer rates so that a two hundred basis point preference will be given to the qualified public depository, except that the treasurer may lower the amount of the preference to ensure that the effective interest rate on the deposit is not less than zero percent.

(4) Upon notification by the state treasurer that a minority or women's business enterprise is no longer certified under chapter 39.19 RCW or that a veteran-owned business is no longer certified under RCW 43.60A.190, the qualified public depository shall reduce the amount of qualifying loans by the outstanding balance of the loan made under this section to the minority or women's business enterprise or the veteran-owned business, as applicable.

(2021 Ed.)

(5) The office of minority and women's business enterprises has the authority to adopt rules to:

(a) Ensure that when making a qualified loan under the linked deposit program, businesses that have never received a loan under the linked deposit program are given first priority;

(b) Limit the total principal loan amount that any one business receives in qualified loans under the linked deposit program over the lifetime of the businesses;

(c) Limit the total principal loan amount that an owner of one or more businesses receives in qualified loans under the linked deposit program during the owner's lifetime;

(d) Limit the total amount of any one qualified loan made under the linked deposit program; and

(e) Ensure that loans made by community development financial institutions are qualifying loans under subsection (2)(c)(i) of this section. [2009 c 385 § 3; 2009 c 384 § 1; 2008 c 187 § 3; 2007 c 500 § 2; 2005 c 302 § 3; 2002 c 305 § 1; 1993 c 512 § 30.]

Reviser's note: This section was amended by 2009 c 384 § 1 and by 2009 c 385 § 3, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

Intent—2005 c 302: See note following RCW 43.86A.030.

Finding—Intent—1993 c 512: "The legislature finds that minority and women's business enterprises have been historically excluded from access to capital in the marketplace. The lack of capital has been a major barrier to the development and expansion of business by various minority groups and women. There has been a significant amount of attention on the capital needs of minority and women's business enterprises. It is the intent of the legislature to remedy the problem of a lack of access to capital by minority and women's business enterprises, and other small businesses by authorizing the state treasurer to operate a program that links state deposits to business loans by financial institutions to minority and women's business enterprises." [1993 c 512 § 29.]

43.86A.070 Linked deposit program—Liability. The state and those acting as its agents are not liable in any manner for payment of the principal or interest on qualifying loans made under RCW 43.86A.060. Any delay in payments or defaults on the part of the borrower does not in any manner affect the deposit agreement between the qualified public depository and the state treasurer. [1993 c 512 § 34.]

Finding—Intent—1993 c 512: See note following RCW 43.86A.060.

43.86A.080 Linked deposit program—Minority and women's business enterprises—Public depositories' participation. Public depositories participating in the linked deposit program are encouraged to increase the funds available to certified minority and women's business enterprises by taking full advantage of the linked deposit program loans to qualify for the community reinvestment act community programs under federal law (12 U.S.C. Sec. 2901 et seq.). [2005 c 302 § 4.]

Intent—2005 c 302: See note following RCW 43.86A.030.

43.88.005 Finding—Intent. The legislature finds that agency missions, goals, and objectives should focus on statewide results. It is the intent of the legislature to focus the biennial budget on how state agencies produce real results that reflect the goals of statutory programs. Specifically, budget managers and the legislature must have the data to move toward better statewide results that produce the intended public benefit. This data must be supplied in an impartial, quantifiable form, and demonstrate progress toward statewide results. With a renewed focus on achieving true results, state agencies, the office of financial management, and the legislature will be able to prioritize state resources. [2005 c 386 § 1.]

43.88.010 Purpose—Intent. It is the purpose of this chapter to establish an effective state budgeting, accounting, and reporting system for all activities of the state government, including both capital and operating expenditures; to prescribe the powers and duties of the governor as these relate to securing such fiscal controls as will promote effective budget administration; and to prescribe the responsibilities of agencies of the executive branch of the state government.

It is the intent of the legislature that the powers conferred by this chapter, as amended, shall be exercised by the executive in cooperation with the legislature and its standing, special, and interim committees in its status as a separate and coequal branch of state government. Omnibus lists of habitat and recreation land acquisitions shall include individual project cost estimates for operation and maintenance as well as a total for all state projects included in the list. The document shall identify the source of funds from which the operation and maintenance costs are proposed to be funded;

43.88.090 Development of budget—Detailed estimates—Mission statement, measurable goals, quality and productivity objectives—Integration of strategic plans and performance assessment procedures—Reviews by office of financial management and consolidated technology services agency—Governor-elect input. (1) For purposes of developing budget proposals to the legislature, the governor shall have the power, and it shall be the governor's duty, to require from proper agency officials such detailed estimates and other information in such form and at such times as the governor shall direct. The governor shall communicate statewide priorities to agencies for use in developing biennial budget recommendations for their agency and

shall seek public involvement and input on these priorities. The estimates for the legislature and the judiciary shall be transmitted to the governor and shall be included in the budget without revision. The estimates for state pension contributions shall be based on the rates provided in chapter 41.45 RCW. Copies of all such estimates shall be transmitted to the standing committees on ways and means of the house and senate at the same time as they are filed with the governor and the office of financial management.

The estimates shall include statements or tables which indicate, by agency, the state funds which are required for the receipt of federal matching revenues. The estimates shall be revised as necessary to reflect legislative enactments and adopted appropriations and shall be included with the initial biennial allotment submitted under RCW 43.88.110. The estimates must reflect that the agency considered any alternatives to reduce costs or improve service delivery identified in the findings of a performance audit of the agency by the joint legislative audit and review committee. Nothing in this subsection requires performance audit findings to be published as part of the budget.

(2) Each state agency shall define its mission and establish measurable goals for achieving desirable results for those who receive its services and the taxpayers who pay for those services. Each agency shall also develop clear strategies and timelines to achieve its goals. This section does not require an agency to develop a new mission or goals in place of identifiable missions or goals that meet the intent of this section. The mission and goals of each agency must conform to statutory direction and limitations.

(3) For the purpose of assessing activity performance, each state agency shall establish quality and productivity objectives for each major activity in its budget. The objectives must be consistent with the missions and goals developed under this section. The objectives must be expressed to the extent practicable in outcome-based, objective, and measurable form unless an exception to adopt a different standard is granted by the office of financial management and approved by the legislative committee on performance review. Objectives must specifically address the statutory purpose or intent of the program or activity and focus on data that measure whether the agency is achieving or making progress toward the purpose of the activity and toward statewide priorities. The office of financial management shall provide necessary professional and technical assistance to assist state agencies in the development of strategic plans that include the mission of the agency and its programs, measurable goals, strategies, and performance measurement systems.

(4) Each state agency shall adopt procedures for and perform continuous self-assessment of each activity, using the mission, goals, objectives, and measurements required under subsections (2) and (3) of this section. The assessment of the activity must also include an evaluation of major information technology systems or projects that may assist the agency in achieving or making progress toward the activity purpose and statewide priorities. The evaluation of proposed major information technology systems or projects shall be in accordance with the standards and policies established by the technology services board. Agencies' progress toward the mission, goals, objectives, and measurements required by subsections (2)

and (3) of this section is subject to review as set forth in this subsection.

(a) The office of financial management shall regularly conduct reviews of selected activities to analyze whether the objectives and measurements submitted by agencies demonstrate progress toward statewide results.

(b) The office of financial management shall consult with: (i) The four-year institutions of higher education in those reviews that involve four-year institutions of higher education; and (ii) the state board for community and technical colleges in those reviews that involve two-year institutions of higher education.

(c) The goal is for all major activities to receive at least one review each year.

(d) The consolidated technology services agency shall review major information technology systems in use by state agencies periodically.

(5) It is the policy of the legislature that each agency's budget recommendations must be directly linked to the agency's stated mission and program, quality, and productivity goals and objectives. Consistent with this policy, agency budget proposals must include integration of performance measures that allow objective determination of an activity's success in achieving its goals. When a review under subsection (4) of this section or other analysis determines that the agency's objectives demonstrate that the agency is making insufficient progress toward the goals of any particular program or is otherwise underachieving or inefficient, the agency's budget request shall contain proposals to remedy or improve the selected programs. The office of financial management shall develop a plan to merge the budget development process with agency performance assessment procedures. The plan must include a schedule to integrate agency strategic plans and performance measures into agency budget requests and the governor's budget proposal over three fiscal biennia. The plan must identify those agencies that will implement the revised budget process in the 1997-1999 biennium, the 1999-2001 biennium, and the 2001-2003 biennium. In consultation with the legislative fiscal committees, the office of financial management shall recommend statutory and procedural modifications to the state's budget, accounting, and reporting systems to facilitate the performance assessment procedures and the merger of those procedures with the state budget process. The plan and recommended statutory and procedural modifications must be submitted to the legislative fiscal committees by September 30, 1996.

(6) In reviewing agency budget requests in order to prepare the governor's biennial budget request, the office of financial management shall consider the extent to which the agency's activities demonstrate progress toward the statewide budgeting priorities, along with any specific review conducted under subsection (4) of this section.

(7) In the year of the gubernatorial election, the governor shall invite the governor-elect or the governor-elect's designee to attend all hearings provided in RCW 43.88.100; and the governor shall furnish the governor-elect or the governor-elect's designee with such information as will enable the governor-elect or the governor-elect's designee to gain an understanding of the state's budget requirements. The governor-elect or the governor-elect's designee may ask such questions during the hearings and require such information as the gov-

ernor-elect or the governor-elect's designee deems necessary and may make recommendations in connection with any item of the budget which, with the governor-elect's reasons therefor, shall be presented to the legislature in writing with the budget document. Copies of all such estimates and other required information shall also be submitted to the standing committees on ways and means of the house and senate. 43.88.092 Information technology budget detail—Information technology plan—Accounting method for information technology. (1) As part of the biennial budget process, the office of financial management shall collect from agencies, and agencies shall provide, information to produce reports, summaries, and budget detail sufficient to allow review, analysis, and documentation of all current and proposed expenditures for information technology by state agencies. Information technology budget detail must be included as part of the budget submittal documentation required pursuant to RCW 43.88.030.

(2) The office of financial management must collect, and present as part of the biennial budget documentation, information for all existing information technology projects as defined by technology services board policy. The office of financial management must work with the office of the state chief information officer to maximize the ability to draw this information from the information technology portfolio management data collected by the consolidated technology services agency. Connecting project information collected through the portfolio management process with financial data developed under subsection (1) of this section provides transparency regarding expenditure data for existing technology projects.

(3) The director of the consolidated technology services agency shall evaluate proposed information technology expenditures and establish priority ranking categories of the proposals. No more than one-third of the proposed expenditures shall be ranked in the highest priority category.

(4) The biennial budget documentation submitted by the office of financial management pursuant to RCW 43.88.030 must include an information technology plan and a technology budget for the state identifying current baseline funding for information technology, proposed and ongoing major information technology projects, and their associated costs. This plan and technology budget must be presented using a method similar to the capital budget, identifying project costs through stages of the project and across fiscal periods and biennia from project initiation to implementation. This information must be submitted electronically, in a format to be

determined by the office of financial management and the legislative evaluation and accountability program committee.

(5) The office of financial management shall also institute a method of accounting for information technology-related expenditures, including creating common definitions for what constitutes an information technology investment.

(6) For the purposes of this section, "major information technology projects" includes projects that have a significant anticipated cost, complexity, or are of statewide significance, such as enterprise-level solutions, enterprise resource planning, and shared services initiatives. (a) "Designated state agency" means the department of social and health services, the department of health, the health care authority, the department of commerce, the department of ecology, the department of fish and wildlife, the office of the superintendent of public instruction, and the department of children, youth, and families.

(b) "Federal receipts" means the federal financial assistance, as defined in 31 U.S.C. Sec. 7501 on September 28, 2013, that is reported as part of a single audit.

(c) "Single audit" is as defined in 31 U.S.C. Sec. 7501 on September 28, 2013.

(2) Subject to subsection (3) of this section, a designated state agency shall prepare as part of the agency's biennial budget submittal under this chapter a report that:

(a) Reports the aggregate value of federal receipts the designated state agency estimated for the ensuing biennium;

(b) Calculates the percentage of the designated state agency's total budget for the ensuing biennium that constitutes federal receipts that the designated state agency received; and

(c) Develops plans for operating the designated state agency if there is a reduction of:

(i) Five percent or more in the federal receipts that the designated state agency receives; and

(ii) Twenty-five percent or more in the federal receipts that the designated state agency receives.

(3) The report required by subsection (2) of this section prepared by the superintendent of public instruction shall include the information required by subsection (2)(a) through (c) of this section for each school district within the state. [2017 3rd sp.s. c 6 § 227; 2013 2nd sp.s. c 32 § 1.]

43.88.100 Executive hearings. The governor may provide for hearings on all agency requests for expenditures to enable him or her to make determinations as to the need, value or usefulness of activities or programs requested by

agencies. The governor may require the attendance of proper agency officials at his or her hearings and it shall be their duty to disclose such information as may be required to enable the governor to arrive at his or her final determination. 43.88.110 Expenditure programs—Allotments—Reserves—Monitor capital appropriations—Predesign review for major capital construction. This section sets forth the expenditure programs and the allotment and reserve procedures to be followed by the executive branch for public funds.

(1) Allotments of an appropriation for any fiscal period shall conform to the terms, limits, or conditions of the appropriation.

(2) The director of financial management shall provide all agencies with a complete set of operating and capital instructions for preparing a statement of proposed expenditures at least thirty days before the beginning of a fiscal period. The set of instructions need not include specific appropriation amounts for the agency.

(3) Within forty-five days after the beginning of the fiscal period or within forty-five days after the governor signs the omnibus biennial appropriations act, whichever is later, all agencies shall submit to the governor a statement of proposed expenditures at such times and in such form as may be required by the governor.

(4) The office of financial management shall develop a method for monitoring capital appropriations and expenditures that will capture at least the following elements:

(a) Appropriations made for capital projects including transportation projects;

(b) Estimates of total project costs including past, current, ensuing, and future biennial costs;

(c) Comparisons of actual costs to estimated costs;

(d) Comparisons of estimated construction start and completion dates with actual dates;

(e) Documentation of fund shifts between projects.

This data may be incorporated into the existing accounting system or into a separate project management system, as deemed appropriate by the office of financial management.

(5) Except as provided for under subsection (6) of this section, the office of financial management, prior to approving allotments for major capital construction projects valued over ten million dollars, shall institute procedures for reviewing such projects at the predesign stage that will reduce long-term costs and increase facility efficiency. The procedures shall include, but not be limited to, the following elements:

(a) Evaluation of facility program requirements and consistency with long-range plans;

(b) Utilization of a system of cost, quality, and performance standards to compare major capital construction projects; and

(c) A requirement to incorporate value-engineering analysis and constructability review into the project schedule.

(6) The office of financial management may make an exception to some or all of the predesign requirements in subsection (5) of this section. The office of financial management shall report any exception to the fiscal committees of the legislature and include: (a) A description of the major capital project for which the predesign waiver is made; (b) an

explanation of the reason for the waiver; and (c) a rough order of magnitude cost estimate for the project's design and construction.

(7) In deliberations related to submitting an exception under subsection (6) of this section, the office of financial management shall consider the following factors:

(a) Whether there is any determination to be made regarding the site of the project;

(b) Whether there is any determination to be made regarding whether the project will involve renovation, new construction, or both;

(c) Whether, within six years of submitting the request for funding, the agency has completed, or initiated the construction of, a substantially similar project;

(d) Whether there is any anticipated change to the project's program or the services to be delivered at the facility;

(e) Whether the requesting agency indicates that the project may not require some or all of the requirements in subsection (5) of this section due to a lack of complexity; and

(f) Whether any other factors related to project complexity or risk, as determined by the office of financial management, could reduce the need for, or scope of, a predesign.

(8) If under subsection (6) of this section, some or all of the predesign requirements under subsection (5) of this section are waived, the office of financial management may instead propose a professional project cost estimate instead of a request for predesign funding.

(9) No expenditure may be incurred or obligation entered into for such major capital construction projects including, without exception, land acquisition, site development, pre-design, design, construction, and equipment acquisition and installation, until the allotment of the funds to be expended has been approved by the office of financial management. This limitation does not prohibit the continuation of expenditures and obligations into the succeeding biennium for projects for which allotments have been approved in the immediate prior biennium.

(10) If at any time during the fiscal period the governor projects a cash deficit in a particular fund or account as defined by RCW 43.88.050, the governor shall make across-the-board reductions in allotments for that particular fund or account so as to prevent a cash deficit, unless the legislature has directed the liquidation of the cash deficit over one or more fiscal periods. Except for the legislative and judicial branches and other agencies headed by elective officials, the governor shall review the statement of proposed operating expenditures for reasonableness and conformance with legislative intent. The governor may request corrections of proposed allotments submitted by the legislative and judicial branches and agencies headed by elective officials if those proposed allotments contain significant technical errors. Once the governor approves the proposed allotments, further revisions may at the request of the office of financial management or upon the agency's initiative be made on a quarterly basis and must be accompanied by an explanation of the reasons for significant changes. However, changes in appropriation level authorized by the legislature, changes required by across-the-board reductions mandated by the governor, changes caused by executive increases to spending authority, and changes caused by executive decreases to spending authority for failure to comply with the provisions of chapter

36.70A RCW may require additional revisions. Revisions shall not be made retroactively. However, the governor may assign to a reserve status any portion of an agency appropriation withheld as part of across-the-board reductions made by the governor and any portion of an agency appropriation conditioned on a contingent event by the appropriations act. The governor may remove these amounts from reserve status if the across-the-board reductions are subsequently modified or if the contingent event occurs. The director of financial management shall enter approved statements of proposed expenditures into the state budgeting, accounting, and reporting system within forty-five days after receipt of the proposed statements from the agencies. If an agency or the director of financial management is unable to meet these requirements, the director of financial management shall provide a timely explanation in writing to the legislative fiscal committees.

(11) It is expressly provided that all agencies shall be required to maintain accounting records and to report thereon in the manner prescribed in this chapter and under the regulations issued pursuant to this chapter. Within ninety days of the end of the fiscal year, all agencies shall submit to the director of financial management their final adjustments to close their books for the fiscal year. Prior to submitting fiscal data, written or oral, to committees of the legislature, it is the responsibility of the agency submitting the data to reconcile it with the budget and accounting data reported by the agency to the director of financial management.

(12) The director of financial management may exempt certain public funds from the allotment controls established under this chapter if it is not practical or necessary to allot the funds. Allotment control exemptions expire at the end of the fiscal biennium for which they are granted. The director of financial management shall report any exemptions granted under this subsection to the legislative fiscal committees. Findings—Intent—2021 c 54: "The legislature finds that predesigns are often done due to statutory requirements regardless of whether it is necessary to the capital project. For those agencies required to develop six-year programs and financial plans under *RCW 44.40.070, six-year revenue estimates shall be submitted to the director of financial management and the

43.88.130 When contracts and expenditures prohibited. No agency shall expend or contract to expend any money or incur any liability in excess of the amounts appropriated for that purpose: PROVIDED, That nothing in this section shall prevent the making of contracts or the spending of money for capital improvements, nor the making of contracts of lease or for service for a period exceeding the fiscal period in which such contract is made, when such contract is permitted by law. 43.88.145 Capital projects—Transfer of excess appropriation authority. (1) The capital appropriations act may authorize the governor, through the director of financial management, to transfer the appropriation authority for a capital project that is in excess of the amount required for the completion of the project to another capital project for which the appropriation is insufficient.

(a) No such transfer may be used to expand the capacity or change the intended use of the project beyond that intended by the legislature in making the appropriation.

(b) The transfer may be effected only between capital projects within a specific department, commission, agency, or institution of higher education.

(c) The transfer may be effected only if the project from which the transfer of funds is made is substantially complete and there are funds remaining, or bids have been let on the project from which the transfer of funds is made and it appears to a substantial certainty that the project can be completed within the biennium for less than the amount appropriated.

(2) For the purposes of this section, the legislature intends that each project be defined as proposed to the legislature in the governor's budget document, unless the legislative history demonstrates that the legislature intended to define the scope of a project in a different way.

(3) The office of financial management shall notify the legislative fiscal committees of the senate and the house of representatives at least thirty days before any transfer is effected under this section except emergency projects or any transfer under two hundred fifty thousand dollars, and shall prepare a report to such committees listing all completed transfers at the close of each fiscal year. [1994 c 219 § 6.]

Finding—1994 c 219: See note following RCW 43.88.030.

43.88.150 Priority of expenditures—Appropriated and nonappropriated funds—Matching funds, disburse state moneys proportionally. (1) For those agencies that make expenditures from both appropriated and nonappropriated funds for the same purpose, the governor shall direct such agencies to charge their expenditures in such ratio, as between appropriated and nonappropriated funds, as will conserve appropriated funds. For institutions of higher education, as defined in RCW 28B.10.016, this subsection applies only to operating fee accounts.

(2) Unless otherwise provided by law, if state moneys are appropriated for a capital project and matching funds or other contributions are required as a condition of the receipt of the state moneys, the state moneys shall be disbursed in proportion to and only to the extent that the matching funds or other contributions have been received and are available for expenditure.

(3) The office of financial management shall adopt guidelines for the implementation of this section. The guidelines may account for federal matching requirements or other requirements to spend other moneys in a particular manner. 43.88.160 Fiscal management—Powers and duties of officers and agencies. This section sets forth the major fiscal duties and responsibilities of officers and agencies of the executive branch. The regulations issued by the governor pursuant to this chapter shall provide for a comprehensive, orderly basis for fiscal management and control, including efficient accounting and reporting therefor, for the executive branch of the state government and may include, in addition, such requirements as will generally promote more efficient public management in the state.

(1) Governor; director of financial management. The governor, through the director of financial management, shall devise and supervise a modern and complete accounting system for each agency to the end that all revenues, expenditures, receipts, disbursements, resources, and obligations of the state shall be properly and systematically accounted for. The accounting system shall include the development of accurate, timely records and reports of all financial affairs of the state. The system shall also provide for central accounts in the office of financial management at the level of detail deemed necessary by the director to perform central financial management. The director of financial management shall adopt and periodically update an accounting procedures manual. Any agency maintaining its own accounting and reporting system shall comply with the updated accounting procedures manual and the rules of the director adopted under this chapter. An agency may receive a waiver from complying with this requirement if the waiver is approved by the director. Waivers expire at the end of the fiscal biennium for which they are granted. The director shall forward notice of waivers granted to the appropriate legislative fiscal committees. The director of financial management may require such financial, statistical, and other reports as the director deems necessary from all agencies covering any period.

(2) Except as provided in chapter 43.88C RCW, the director of financial management is responsible for quarterly reporting of primary operating budget drivers such as applicable workloads, caseload estimates, and appropriate unit cost data. These reports shall be transmitted to the legislative fiscal committees or by electronic means to the legislative evaluation and accountability program committee. Quarterly reports shall include actual monthly data and the variance between actual and estimated data to date. The reports shall also include estimates of these items for the remainder of the budget period.

(3) The director of financial management shall report at least annually to the appropriate legislative committees regarding the status of all appropriated capital projects, including transportation projects, showing significant cost

overruns or underruns. If funds are shifted from one project to another, the office of financial management shall also reflect this in the annual variance report. Once a project is complete, the report shall provide a final summary showing estimated start and completion dates of each project phase compared to actual dates, estimated costs of each project phase compared to actual costs, and whether or not there are any outstanding liabilities or unsettled claims at the time of completion.

(4) In addition, the director of financial management, as agent of the governor, shall:

(a) Develop and maintain a system of internal controls and internal audits comprising methods and procedures to be adopted by each agency that will safeguard its assets, check the accuracy and reliability of its accounting data, promote operational efficiency, and encourage adherence to prescribed managerial policies for accounting and financial controls. The system developed by the director shall include criteria for determining the scope and comprehensiveness of internal controls required by classes of agencies, depending on the level of resources at risk.

(i) For those agencies that the director determines internal audit is required, the agency head or authorized designee shall be assigned the responsibility and authority for establishing and maintaining internal audits following professional audit standards including generally accepted government auditing standards or standards adopted by the institute of internal auditors, or both.

(ii) For those agencies that the director determines internal audit is not required, the agency head or authorized designee may establish and maintain internal audits following professional audit standards including generally accepted government auditing standards or standards adopted by the institute of internal auditors, or both, but at a minimum must comply with policies as established by the director to assess the effectiveness of the agency's systems of internal controls and risk management processes;

(b) Make surveys and analyses of agencies with the object of determining better methods and increased effectiveness in the use of manpower and materials; and the director shall authorize expenditures for employee training to the end that the state may benefit from training facilities made available to state employees;

(c) Establish policies for allowing the contracting of child care services;

(d) Report to the governor with regard to duplication of effort or lack of coordination among agencies;

(e) Review any pay and classification plans, and changes thereunder, developed by any agency for their fiscal impact: PROVIDED, That none of the provisions of this subsection shall affect merit systems of personnel management now existing or hereafter established by statute relating to the fixing of qualifications requirements for recruitment, appointment, or promotion of employees of any agency. The director shall advise and confer with agencies including appropriate standing committees of the legislature as may be designated by the speaker of the house and the president of the senate regarding the fiscal impact of such plans and may amend or alter the plans, except that for the following agencies no amendment or alteration of the plans may be made without

the approval of the agency concerned: Agencies headed by elective officials;

(f) Fix the number and classes of positions or authorized employee years of employment for each agency and during the fiscal period amend the determinations previously fixed by the director except that the director shall not be empowered to fix the number or the classes for the following: Agencies headed by elective officials;

(g) Adopt rules to effectuate provisions contained in (a) through (f) of this subsection.

(5) The treasurer shall:

(a) Receive, keep, and disburse all public funds of the state not expressly required by law to be received, kept, and disbursed by some other persons: PROVIDED, That this subsection shall not apply to those public funds of the institutions of higher learning which are not subject to appropriation;

(b) Receive, disburse, or transfer public funds under the treasurer's supervision or custody;

(c) Keep a correct and current account of all moneys received and disbursed by the treasurer, classified by fund or account;

(d) Coordinate agencies' acceptance and use of credit cards and other payment methods, if the agencies have received authorization under RCW 43.41.180;

(e) Perform such other duties as may be required by law or by regulations issued pursuant to this law.

It shall be unlawful for the treasurer to disburse public funds in the treasury except upon forms or by alternative means duly prescribed by the director of financial management. These forms or alternative means shall provide for authentication and certification by the agency head or the agency head's designee that the services have been rendered or the materials have been furnished; or, in the case of loans or grants, that the loans or grants are authorized by law; or, in the case of payments for periodic maintenance services to be performed on state owned equipment, that a written contract for such periodic maintenance services is currently in effect; and the treasurer shall not be liable under the treasurer's surety bond for erroneous or improper payments so made. When services are lawfully paid for in advance of full performance by any private individual or business entity other than equipment maintenance providers or as provided for by RCW 42.24.035, such individual or entity other than central stores rendering such services shall make a cash deposit or furnish surety bond coverage to the state as shall be fixed in an amount by law, or if not fixed by law, then in such amounts as shall be fixed by the director of the department of enterprise services but in no case shall such required cash deposit or surety bond be less than an amount which will fully indemnify the state against any and all losses on account of breach of promise to fully perform such services. No payments shall be made in advance for any equipment maintenance services to be performed more than twelve months after such payment except that institutions of higher education as defined in RCW 28B.10.016 and the consolidated technology services agency created in RCW 43.105.006 may make payments in advance for equipment maintenance services to be performed up to sixty months after such payment. Any such bond so furnished shall be conditioned that the person, firm or corporation receiving the advance payment will apply it toward performance of the contract. The responsibility for recovery of

erroneous or improper payments made under this section shall lie with the agency head or the agency head's designee in accordance with rules issued pursuant to this chapter. Nothing in this section shall be construed to permit a public body to advance funds to a private service provider pursuant to a grant or loan before services have been rendered or material furnished.

(6) The state auditor shall:

(a) Report to the legislature the results of current post audits that have been made of the financial transactions of each agency; to this end the auditor may, in the auditor's discretion, examine the books and accounts of any agency, official, or employee charged with the receipt, custody, or safekeeping of public funds. Where feasible in conducting examinations, the auditor shall utilize data and findings from the internal control system prescribed by the office of financial management. The current post audit of each agency may include a section on recommendations to the legislature as provided in (c) of this subsection.

(b) Give information to the legislature, whenever required, upon any subject relating to the financial affairs of the state.

(c) Make the auditor's official report on or before the thirty-first of December which precedes the meeting of the legislature. The report shall be for the last complete fiscal period and shall include determinations as to whether agencies, in making expenditures, complied with the laws of this state. The state auditor is authorized to perform or participate in performance verifications and performance audits as expressly authorized by the legislature in the omnibus biennial appropriations acts or in the performance audit work plan approved by the joint legislative audit and review committee. The state auditor, upon completing an audit for legal and financial compliance under chapter 43.09 RCW or a performance verification, may report to the joint legislative audit and review committee or other appropriate committees of the legislature, in a manner prescribed by the joint legislative audit and review committee, on facts relating to the management or performance of governmental programs where such facts are discovered incidental to the legal and financial audit or performance verification. The auditor may make such a report to a legislative committee only if the auditor has determined that the agency has been given an opportunity and has failed to resolve the management or performance issues raised by the auditor. If the auditor makes a report to a legislative committee, the agency may submit to the committee a response to the report. This subsection (6) shall not be construed to authorize the auditor to allocate other than de minimis resources to performance audits except as expressly authorized in the appropriations acts or in the performance audit work plan. The results of a performance audit conducted by the state auditor that has been requested by the joint legislative audit and review committee must only be transmitted to the joint legislative audit and review committee.

(d) Be empowered to take exception to specific expenditures that have been incurred by any agency or to take exception to other practices related in any way to the agency's financial transactions and to cause such exceptions to be made a matter of public record, including disclosure to the agency concerned and to the director of financial manage-

ment. It shall be the duty of the director of financial management to cause corrective action to be taken within six months, such action to include, as appropriate, the withholding of funds as provided in RCW 43.88.110. Fiscal impact of proposed legislation on political subdivisions: Chapter 43.132 RCW.

43.88A.010 Legislative declaration. The legislature hereby recognizes the necessity of developing a uniform and coordinated procedure for determining the expected fiscal impact of bills and resolutions on state government. The legislature also recognizes that developing such statements of fiscal impact, which shall be known as fiscal notes, requires

the designation of a state agency to be principally responsible therefor. [1977 ex.s. c 25 § 1.]

43.88A.020 Preparation—Ongoing cost projections—Duties of office of financial management—School district fiscal notes. The office of financial management shall, in cooperation with appropriate legislative committees and legislative staff, establish a procedure for the provision of fiscal notes on the expected impact of bills and resolutions which increase or decrease or tend to increase or decrease state government revenues or expenditures. Such fiscal notes shall indicate by fiscal year the impact for the remainder of the biennium in which the bill or resolution will first take effect as well as a cumulative forecast of the fiscal impact for the succeeding four fiscal years. Fiscal notes shall separately identify the fiscal impacts on the operating and capital budgets. Estimates of fiscal impacts shall be calculated using the procedures contained in the fiscal note instructions issued by the office of financial management.

In establishing the fiscal impact called for pursuant to this chapter, the office of financial management shall coordinate the development of fiscal notes with all state agencies affected.

The preparation and dissemination of the ongoing cost projections and other requirements of RCW 43.135.031 for bills increasing taxes or fees shall take precedence over fiscal notes.

For proposed legislation that uniquely affects school districts, in addition to any fiscal note prepared under this chapter, a school district fiscal note must be prepared under the process established in RCW 28A.300.0401. [2011 c 140 § 1; 2008 c 1 § 3 (Initiative Measure No. 960, approved November 6, 2007); 1994 c 219 § 3; 1979 c 151 § 146; 1977 ex.s. c 25 § 2.]

Finding—1994 c 219: See note following RCW 43.88.030.

43.88A.030 Distribution of fiscal notes and cost projections. When a fiscal note is prepared and approved as to form, accuracy, and completeness by the office of financial management, which depicts the expected fiscal impact of a bill or resolution, copies shall be filed immediately with:

- (1) The chairperson of the committee to which the bill or resolution was referred upon introduction in the house of origin;
- (2) The senate committee on ways and means, or its successor; and
- (3) The house committees on revenue and appropriations, or their successors.

Whenever possible, such fiscal note and, in the case of a bill increasing taxes or fees, the cost projection and other information required under RCW 43.135.031 shall be provided prior to or at the time the bill or resolution is first heard by the committee of reference in the house of origin.

When a fiscal note has been prepared for a bill or resolution, a copy of the fiscal note shall be placed in the bill books or otherwise attached to the bill or resolution and shall remain with the bill or resolution throughout the legislative process insofar as possible. For bills increasing taxes or fees, the cost

projection and other information required by RCW 43.135.031 shall be placed in the bill books or otherwise attached to the bill or resolution and shall remain with the bill or resolution throughout the legislative process insofar as possible. Findings—Intent—Construction—Severability—Subheadings and part headings not law—Short title—Effective date—2008 c 1 (Initiative Measure No. 960): See notes following RCW 43.135.031.

43.88A.040 Fiscal notes—Preparation upon request of any legislator. The office of financial management shall also provide a fiscal note on any legislative proposal at the request of any legislator. Such fiscal note shall be returned to the requesting legislator, and copies shall be filed with the appropriate legislative committees pursuant to RCW 43.88A.030 at the time such proposed legislation is introduced in either house. [1979 c 151 § 148; 1977 ex.s. c 25 § 4.]

43.88A.900 Construction of chapter. Nothing in this chapter shall prevent either house of the legislature from acting on any bill or resolution before it as otherwise provided by the state Constitution, by law, and by the rules and joint rules of the senate and house of representatives, nor shall the lack of any fiscal note as provided in this chapter or any error in the accuracy thereof affect the validity of any measure otherwise duly passed by the legislature. Chapter 43.88D RCW HIGHER EDUCATION CAPITAL PROJECT STRATEGIC PLANNING

Sections

43.88D.010 Capital budget projects—Objective analysis and scoring—Prioritized lists.

43.88D.010 Capital budget projects—Objective analysis and scoring—Prioritized lists. (1) By October 1st of each even-numbered year, the office of financial management shall complete an objective analysis and scoring of all capital budget projects proposed by the public four-year institutions of higher education and submit the results of the scoring process to the legislative fiscal committees and the four-year institutions. Each project must be reviewed and scored within one of the following categories, according to the project's principal purpose. Each project may be scored in only one category. The categories are:

(a) Access-related projects to accommodate enrollment growth at all campuses, at existing or new university centers, or through distance learning. Growth projects should provide significant additional student capacity. Proposed projects must demonstrate that they are based on solid enrollment demand projections, more cost-effectively provide enrollment access than alternatives such as university centers and distance learning, and make cost-effective use of existing and proposed new space;

(b) Projects that replace failing permanent buildings. Facilities that cannot be economically renovated are considered replacement projects. New space may be programmed for the same or a different use than the space being replaced and may include additions to improve access and enhance the relationship of program or support space;

(c) Projects that renovate facilities to restore building life and upgrade space to meet current program requirements. Renovation projects should represent a complete renovation of a total facility or an isolated wing of a facility. A reasonable renovation project should cost between sixty to eighty percent of current replacement value and restore the renovated area to at least twenty-five years of useful life. New space may be programmed for the same or a different use than the space being renovated and may include additions to

improve access and enhance the relationship of program or support space;

(d) Major stand-alone campus infrastructure projects;

(e) Projects that promote economic growth and innovation through expanded research activity. The acquisition and installation of specialized equipment is authorized under this category; and

(f) Other project categories as determined by the office of financial management in consultation with the legislative fiscal committees.

(2) The office of financial management, in consultation with the legislative fiscal committees, shall establish a scoring system and process for each four-year project category that is based on the framework used in the community and technical college system of prioritization. Staff from the state board for community and technical colleges and the four-year institutions shall provide technical assistance on the development of a scoring system and process.

(3) The office of financial management shall consult with the legislative fiscal committees in the scoring of four-year institution project proposals, and may also solicit participation by independent experts.

(a) For each four-year project category, the scoring system must, at a minimum, include an evaluation of enrollment trends, reasonableness of cost, the ability of the project to enhance specific strategic master plan goals, age and condition of the facility if applicable, and impact on space utilization.

(b) Each four-year project category may include projects at the predesign, design, or construction funding phase.

(c) To the extent possible, the objective analysis and scoring system of all capital budget projects shall occur within the context of any and all performance agreements between the office of financial management and the governing board of a public, four-year institution of higher education that aligns goals, priorities, desired outcomes, flexibility, institutional mission, accountability, and levels of resources.

(4) In evaluating and scoring four-year institution projects, the office of financial management shall take into consideration project schedules that result in realistic, balanced, and predictable expenditure patterns over the ensuing three biennia.

(5) The office of financial management shall distribute common definitions, the scoring system, and other information required for the project proposal and scoring process as part of its biennial budget instructions. The office of financial management, in consultation with the legislative fiscal committees, shall develop common definitions that four-year institutions must use in developing their project proposals and lists under this section.

(6) In developing any scoring system for capital projects proposed by the four-year institutions, the office of financial management:

(a) Shall be provided with all required information by the four-year institutions as deemed necessary by the office of financial management;

(b) May utilize independent services to verify, sample, or evaluate information provided to the office of financial management by the four-year institutions; and

(c) Shall have full access to all data maintained by the joint legislative audit and review committee concerning the condition of higher education facilities.

(7) By August 1st of each even-numbered year each public four-year higher education institution shall prepare and submit prioritized lists of the individual projects proposed by the institution for the ensuing six-year period in each category. The lists must be submitted to the office of financial management and the legislative fiscal committees. The four-year institutions may aggregate minor works project proposals by primary purpose for ranking purposes. Proposed minor works projects must be prioritized within the aggregated proposal, and supporting documentation, including project descriptions and cost estimates, must be provided to the office of financial management and the legislative fiscal committees.

(8) For the 2019-2021 fiscal biennium and the 2021-2023 fiscal biennium, pursuant to subsection (1) of this section, by November 1, 2022, the office of financial management must score higher education capital project criteria with a rating scale that assesses how well a particular project satisfies those criteria. The office of financial management may not use a rating scale that weighs the importance of those criteria.

(9) For the 2019-2021 fiscal biennium and the 2021-2023 fiscal biennium, pursuant to subsection (6)(a) of this section and in lieu of the requirements of subsection (7) of this section, by August 15, 2022, the institutions of higher education shall prepare and submit or resubmit to the office of financial management and the legislative fiscal committees:

(a) Individual project proposals developed pursuant to subsection (1) of this section;

(b) Individual project proposals scored in prior biennia pursuant to subsection (1) of this section; and

(c) A prioritized list of up to five project proposals submitted pursuant to (a) and (b) of this subsection. [2021 c 332 § 7034; 2019 c 413 § 7032; 2018 c 298 § 7013; 2017 c 52 § 15; 2012 c 229 § 821; 2010 c 245 § 9; 2008 c 205 § 2.]

43.99N.010 Definitions. The definitions in RCW 36.102.010 apply to this chapter. [1997 c 220 § 209 (Referendum Bill No. 48, approved June 17, 1997).]

43.99N.020 General obligation bonds—Certifications by public stadium authority—Obligations of team affiliate. (1) For the purpose of providing funds to pay for operation of the public stadium authority created under RCW 36.102.020, to pay for the preconstruction, site acquisition, design, site preparation, construction, owning, leasing, and equipping of the stadium and exhibition center, and to reimburse the county or the public stadium authority for its direct or indirect expenditures or to repay other indebtedness incurred for these purposes, the state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of three hundred million dollars, or so much thereof as may be required, for these purposes and all costs incidental thereto. Bonds authorized in this section may be sold at such price as the state finance committee shall determine.

(2) Bonds shall not be issued under this section unless the public stadium authority has certified to the director of financial management that:

(a) A professional football team has made a binding and legally enforceable contractual commitment to play all of its regular season and playoff home games in the stadium and exhibition center, other than games scheduled elsewhere by the league, for a period of time not shorter than the term of the

bonds issued or to be issued to finance the initial construction of the stadium and exhibition center;

(b) A team affiliate has entered into one or more binding and legally enforceable contractual commitments with a public stadium authority under RCW 36.102.050 that provide that:

(i) The team affiliate assumes the risks of cost overruns;

(ii) The team affiliate shall raise at least one hundred million dollars, less the amount, if any, raised by the public stadium authority under RCW 36.102.060(15). The total one hundred million dollars raised, which may include cash payments and in-kind contributions, but does not include any interest earned on the escrow account described in RCW 43.99N.030, shall be applied toward the reasonably necessary preconstruction, site acquisition, design, site preparation, construction, and equipping of the stadium and exhibition center, or to any associated public purpose separate from bond-financed expenses. No part of the payment may be made without the consent of the public stadium authority. In any event, all amounts to be raised by the team affiliate under (b)(ii) of this subsection shall be paid or expended before the completion of the construction of the stadium and exhibition center. To the extent possible, contributions shall be structured in a manner that would allow for the issuance of bonds to construct the stadium and exhibition center that are exempt from federal income taxes;

(iii) The team affiliate shall deposit at least ten million dollars into the *youth athletic facility grant account created in RCW 43.99N.060 upon execution of the lease and development agreements in RCW 36.102.060 (7) and (8);

(iv) At least ten percent of the seats in the stadium for home games of the professional football team shall be for sale at an affordable price. For the purposes of this subsection, "affordable price" means that the price is the average of the lowest ticket prices charged by all other national football league teams;

(v) One executive suite with a minimum of twenty seats must be made available, on a lottery basis, as a free upgrade, at home games of the professional football team, to purchasers of tickets that are not located in executive suites or club seat areas;

(vi) A nonparticipatory interest in the professional football team has been granted to the state beginning on the date on which bonds are issued under this section which only entitles the state to receive ten percent of the gross selling price of the interest in the team that is sold if a majority interest or more of the professional football team is sold within twenty-five years of the date on which bonds are issued under the [this] section. The ten percent shall apply to all preceding sales of interests in the team which comprise the majority interest sold. This provision shall apply only to the first sale of such a majority interest. The ten percent must be deposited in the permanent common school fund. If the debt is retired at the time of the sale, then the ten percent may only be used for costs associated with capital maintenance, capital improvements, renovations, reequipping, replacement, and operations of the stadium and exhibition center;

(vii) The team affiliate must provide reasonable office space to the public stadium authority without charge;

(viii) The team affiliate, in consultation with the public stadium authority, shall work with surrounding areas to miti-

gate the impact of the construction and operation of the stadium and exhibition center with a budget of at least ten million dollars dedicated to area mitigation. For purposes of this subsection, "mitigation" includes, but is not limited to, parking facilities and amenities, neighborhood beautification projects and landscaping, financial grants for neighborhood programs intended to mitigate adverse impacts caused by the construction and operation of the stadium and exhibition center, and mitigation measures identified in the environmental impact statement required for the stadium and exhibition center under chapter 43.21C RCW; and

(ix) Twenty percent of the net profit from the operation of the exhibition facility of the stadium and exhibition center shall be deposited into the permanent common school fund. Profits shall be verified by the public stadium authority. [1997 c 220 § 210 (Referendum Bill No. 48, approved June 17, 1997).]

*Reviser's note: The "youth athletic facility grant account" was renamed the "youth athletic facility account" by 2000 c 137 § 1.

43.99N.030 Escrow agreement, account—Distributions. On or before August 1, 1997: (1) The state treasurer and a team affiliate or an entity that has an option to become a team affiliate shall enter into an escrow agreement creating an escrow account; and (2) the team affiliate or the entity that has an option to become a team affiliate shall deposit the sum of fifty million dollars into the escrow account as a credit against the obligation of the team affiliate in RCW 43.99N.020(2)(b)(ii).

The escrow agreement shall provide that the fifty million dollar deposit shall be invested by the state treasurer and shall earn interest. If the stadium and exhibition center project proceeds, then the interest on amounts in the escrow account shall be for the benefit of the state, and all amounts in the escrow account, including all principal and interest, shall be distributed to the stadium and exhibition center account. The escrow agreement shall provide for appropriate adjustments based on amounts previously and subsequently raised by the team affiliate under RCW 43.99N.020(2)(b)(ii) and amounts previously and subsequently raised by the public stadium authority under RCW 36.102.060(15). If the stadium and exhibition center project does not proceed, all principal and the interest in the escrow account shall be distributed to the team affiliate or the entity that has an option to become a team affiliate. [1997 c 220 § 211 (Referendum Bill No. 48, approved June 17, 1997).]

43.99N.040 Stadium and exhibition center construction account. The proceeds from the sale of the bonds authorized in RCW 43.99N.020 shall be deposited in the stadium and exhibition center construction account, hereby created in the custody of the state treasurer, and shall be used exclusively for the purposes specified in RCW 43.99N.020 and for the payment of expenses incurred in the issuance and sale of the bonds. These proceeds shall be administered by the office of financial management. Only the director of the office of financial management or the director's designee may authorize expenditures from the account. The account is subject to the allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures. At the direction of the office of financial management the state treasurer

shall transfer moneys from the stadium and exhibition center construction account to the public stadium authority created in RCW 36.102.020 as required by the public stadium authority. [1997 c 220 § 212 (Referendum Bill No. 48, approved June 17, 1997).]

43.99N.050 Payment of principal and interest from nondebt-limit reimbursable bond retirement account—Transfers of certified amounts—Bonds as general obligation, full faith and credit, promise to pay—Insufficiency in stadium and exhibition center account as obligation—Proceedings to require transfer and payment. The nondebt-limit reimbursable bond retirement account shall be used for the payment of the principal of and interest on the bonds authorized in RCW 43.99N.020.

The state finance committee shall, on or before June 30th of each year, certify to the state treasurer the amount needed in the ensuing twelve months to meet the bond retirement and interest requirements. On each date on which any interest or principal and interest payment is due, the state treasurer shall transfer from the stadium and exhibition center account to the nondebt-limit reimbursable bond retirement account an amount equal to the amount certified by the state finance committee to be due on the payment date.

Bonds issued under RCW 43.99N.020 shall state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and shall contain an unconditional promise to pay the principal and interest as the same shall become due. If in any year the amount accumulated in the stadium and exhibition center account is insufficient for payment of the principal and interest on the bonds issued under RCW 43.99N.020, the amount of the insufficiency shall be a continuing obligation against the stadium and exhibition center account until paid.

The owner and holder of each of the bonds or the trustee for the owner and holder of any of the bonds may by mandamus or other appropriate proceeding require the transfer and payment of funds as directed in this section. [1997 c 220 § 213 (Referendum Bill No. 48, approved June 17, 1997).]

43.99N.060 Stadium and exhibition center account—Youth athletic facility account—Community outdoor athletic facility loans and grants. (1) The stadium and exhibition center account is created in the custody of the state treasurer. All receipts from the taxes imposed under RCW 82.14.0494 and distributions under RCW 67.70.240(1)(d) shall be deposited into the account. Only the director of the office of financial management or the director's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW. An appropriation is not required for expenditures from this account.

(2) Until bonds are issued under RCW 43.99N.020, up to five million dollars per year beginning January 1, 1999, shall be used for the purposes of subsection (3)(b) of this section, all remaining moneys in the account shall be transferred to the public stadium authority, created under RCW 36.102.020, to be used for public stadium authority operations and development of the stadium and exhibition center.

(3) After bonds are issued under RCW 43.99N.020, all moneys in the stadium and exhibition center account shall be used exclusively for the following purposes in the following priority:

(a) On or before June 30th of each year, the office of financial management shall accumulate in the stadium and exhibition center account an amount at least equal to the amount required in the next succeeding twelve months for the payment of principal of and interest on the bonds issued under RCW 43.99N.020;

(b) An additional reserve amount not in excess of the expected average annual principal and interest requirements of bonds issued under RCW 43.99N.020 shall be accumulated and maintained in the account, subject to withdrawal by the state treasurer at any time if necessary to meet the requirements of (a) of this subsection, and, following any withdrawal, reaccumulated from the first tax revenues and other amounts deposited in the account after meeting the requirements of (a) of this subsection; and

(c) The balance, if any, shall be transferred to the youth athletic facility account under subsection (4) of this section.

Any revenues derived from the taxes authorized by RCW 36.38.010(5) and 36.38.040 or other amounts that if used as provided under (a) and (b) of this subsection would cause the loss of any tax exemption under federal law for interest on bonds issued under RCW 43.99N.020 shall be deposited in and used exclusively for the purposes of the youth athletic facility account and shall not be used, directly or indirectly, as a source of payment of principal of or interest on bonds issued under RCW 43.99N.020, or to replace or reimburse other funds used for that purpose.

(4) Any moneys in the stadium and exhibition center account not required or permitted to be used for the purposes described in subsection (3)(a) and (b) of this section shall be deposited in the youth athletic facility account hereby created in the state treasury. Expenditures from the account may be used only for purposes of grants or loans to cities, counties, and qualified nonprofit organizations for community outdoor athletic facilities. Only the director of the recreation and conservation office or the director's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures. The athletic facility grants or loans may be used for acquiring, developing, equipping, maintaining, and improving community outdoor athletic facilities. Funds shall be divided equally between the development of new community outdoor athletic facilities, the improvement of existing community outdoor athletic facilities, and the maintenance of existing community outdoor athletic facilities. Cities, counties, and qualified nonprofit organizations must submit proposals for grants or loans from the account. To the extent that funds are available, cities, counties, and qualified nonprofit organizations must meet eligibility criteria as established by the director of the recreation and conservation office. The grants and loans shall be awarded on a competitive application process and the amount of the grant or loan shall be in proportion to the population of the city or county for where the community outdoor athletic facility is located. Grants or loans awarded in any one year need not be distributed in that year. In the 2009-2011 biennium, if there are not enough project applications submitted

in a category within the account to meet the requirement of equal distribution of funds to each category, the director of the recreation and conservation office may distribute any remaining funds to other categories within the account. The director of the recreation and conservation office may expend up to one and one-half percent of the moneys deposited in the account created in this subsection for administrative purposes. During the 2021-2023 fiscal biennium, the legislature may appropriate moneys from the youth athletic facility account to support a task force to consider ways to improve equitable access to K-12 schools' fields and athletic facilities and local parks agency facilities with the goal of increasing physical activity for youth and families. A portion of the appropriation must be used to inventory K-12 school fields and athletic facilities and park agency facilities. Furthermore, it is the intent of the legislature to fund the majority of the rehabilitation and construction using bonds repaid by the capitol building construction account, as provided for in the enabling act and dedicated by the federal government for the sole purpose of establishing a state capitol, to fund the cash elements of the project using capital project surcharge revenues in the Thurston county capital facilities account, and to support the establishment of a private foundation to engage the public in the preservation of the state legislative building and raise private funds for restoration and educational efforts. [2009 c 500 § 9; 2001 2nd sp.s. c 9 § 13.]

43.101.095 Peace and corrections officer certification—Background investigation. (1) As a condition of employment, all Washington peace officers and corrections officers are required to obtain certification as a peace officer or corrections officer or exemption therefrom and maintain certification as required by this chapter and the rules of the commission.

(2)(a) Any applicant who has been offered a conditional offer of employment as a peace officer or reserve officer or offered a conditional offer of employment as a corrections officer after July 1, 2021, including any person whose certification has lapsed as a result of a break of more than 24 consecutive months in the officer's service for a reason other than being recalled to military service, must submit to a background investigation to determine the applicant's suitability for employment. Employing agencies may only make a conditional offer of employment pending completion of the background check and shall verify in writing to the commission that they have complied with all background check requirements prior to making any nonconditional offer of employment.

(b) The background check must include:

(i) A check of criminal history, any national decertification index, commission records, and all disciplinary records by any previous law enforcement or correctional employer, including complaints or investigations of misconduct and the reason for separation from employment. Law enforcement or correctional agencies that previously employed the applicant shall disclose employment information within 30 days of receiving a written request from the employing agency conducting the background investigation, including the reason for the officer's separation from the agency. Complaints or investigations of misconduct must be disclosed regardless of the result of the investigation or whether the complaint was unfounded;

(ii) Inquiry to the local prosecuting authority in any jurisdiction in which the applicant has served as to whether the applicant is on any potential impeachment disclosure list;

(iii) Inquiry into whether the applicant has any past or present affiliations with extremist organizations, as defined by the commission;

(iv) A review of the applicant's social media accounts;

(v) Verification of immigrant or citizenship status as either a citizen of the United States of America or a lawful permanent resident;

(vi) A psychological examination administered by a psychiatrist licensed in the state of Washington pursuant to chapter 18.71 RCW or a psychologist licensed in the state of Washington pursuant to chapter 18.83 RCW, in compliance with standards established in rules of the commission;

(vii) A polygraph or similar assessment administered by an experienced professional with appropriate training and in compliance with standards established in rules of the commission; and

(viii) Except as otherwise provided in this section, any test or assessment to be administered as part of the background investigation shall be administered in compliance with standards established in rules of the commission.

(c) The commission may establish standards for the background check requirements in this section and any other

preemployment background check requirement that may be imposed by an employing agency or the commission.

(d) The employing law enforcement agency may require that each person who is required to take a psychological examination and a polygraph or similar test pay a portion of the testing fee based on the actual cost of the test or \$400, whichever is less. Employing agencies may establish a payment plan if they determine that the person does not readily have the means to pay the testing fee.

(3) The commission shall allow a peace officer or corrections officer to retain status as a certified peace officer or corrections officer as long as the officer: (a) Timely meets the basic training requirements, or is exempted therefrom, in whole or in part, under RCW 43.101.200 or under rule of the commission; (b) timely meets or is exempted from any other requirements under this chapter as administered under the rules adopted by the commission; (c) is not denied certification by the commission under this chapter; and (d) has not had certification suspended or revoked by the commission.

(4) As a condition of certification, a peace officer or corrections officer must, on a form devised or adopted by the commission, authorize the release to the employing agency and commission of the officer's personnel files, including disciplinary, termination, civil or criminal investigation, or other records or information that are directly related to a certification matter or decertification matter before the commission. The peace officer or corrections officer must also consent to and facilitate a review of the officer's social media accounts, however, consistent with RCW 49.44.200, the officer is not required to provide login information. The release of information may not be delayed, limited, or precluded by any agreement or contract between the officer, or the officer's union, and the entity responsible for the records or information.

(5) The employing agency and commission are authorized to receive criminal history record information that includes nonconviction data for any purpose associated with employment or certification under this chapter. Dissemination or use of nonconviction data for purposes other than that authorized in this section is prohibited.

(6) For a national criminal history records check, the commission shall require fingerprints be submitted and searched through the Washington state patrol identification and criminal history section. The Washington state patrol shall forward the fingerprints to the federal bureau of investigation.

(7) Prior to certification, the employing agency shall certify to the commission that the agency has completed the background check, no information has been found that would disqualify the applicant from certification, and the applicant is suitable for employment as a peace officer or corrections officer. [2021 c 323 § 8; 2018 c 32 § 5; 2011 c 234 § 2; 2009 c 139 § 1; 2008 c 74 § 8; 2005 c 434 § 2; 2001 c 167 § 2.]

system, upon request by an officer's employer or on its own initiative, the commission may deny, suspend, or revoke certification of, or require remedial training for, an officer as provided in this section. The commission shall provide the officer with written notice and a hearing, if a hearing is timely requested by the officer under RCW 43.101.155. Notice and hearing are not required when a peace officer voluntarily surrenders certification.

(2) The commission must deny or revoke the certification of an applicant or officer if the applicant or officer:

(B) The officer was a certified peace officer or corrections officer at the time of the offense; and

(iii) The offense is not one for which the officer was granted a full and unconditional pardon; and

(iv) The offense was not adjudicated as a juvenile and the record sealed;

(b) Has been terminated by the employing agency or otherwise separated from the employing agency after engaging in, or was found by a court to have engaged in, the use of force which resulted in death or serious injury and the use of force violated the law;

(c) Has been terminated by the employing agency or otherwise separated from the employing agency after witnessing, or found by a court to have witnessed, another officer's use of excessive force and:

(i) Was in a position to intervene to end the excessive use of force and failed to do so; or

(ii) Failed to report the use of excessive force in accordance with agency policy or law;

(d) Has been terminated by the employing agency or otherwise separated from the employing agency after knowingly making, or found by a court to have knowingly made, misleading, deceptive, untrue, or fraudulent representations in the practice of being a peace officer or corrections officer including, but not limited to, committing perjury, filing false reports, hiding evidence, or failing to report exonerating information. This subsection (2)(d) does not apply to representations made in the course and for the purposes of an undercover investigation or other lawful law enforcement purpose; or

(e) Is prohibited from possessing weapons by state or federal law or by a permanent court order entered after a hearing.

(3) The commission may deny, suspend, or revoke certification or require remedial training of an applicant or officer if the applicant or officer:

(a) Failed to timely meet all requirements for obtaining a certificate of basic law enforcement or corrections training, a certificate of basic law enforcement or corrections training equivalency, or a certificate of exemption from the training;

(b) Was previously issued a certificate through administrative error on the part of the commission;

(c) Knowingly falsified or omitted material information on an application to the employer or for training or certification to the commission;

(d) Interfered with an investigation or action for denial or revocation of certification by:

(i) Knowingly making a materially false statement to the commission;

(iii) In any matter under review or investigation by or otherwise before the commission, tampering with evidence or tampering with or intimidating any witness;

(e) Engaged in a use of force that could reasonably be expected to cause physical injury, and the use of force violated the law or policy of the officer's employer;

(f) Committed sexual harassment as defined by state law;

(g) Through fraud or misrepresentation, has used the position of peace officer or corrections officer for personal gain;

(h) Engaged in conduct including, but not limited to, verbal statements, writings, online posts, recordings, and gestures, involving prejudice or discrimination against a person on the basis of race, religion, creed, color, national origin, immigration status, disability, genetic information, marital status, sex, gender, gender identity, gender expression, age, sexual orientation, or military and veteran status;

(i) Has affiliation with one or more extremist organizations;

(j) Whether occurring on or off duty, has:

(i) Been found to have committed a felony, without regard to conviction;

(ii) Engaged in a pattern of acts showing an intentional or reckless disregard for the rights of others, including but not limited to violation of an individual's constitutional rights under the state or federal Constitution or a violation of RCW 10.93.160;

(iii) Engaged in unsafe practices involving firearms, weapons, or vehicles which indicate either a willful or wanton disregard for the safety of persons or property; or

(iv) Engaged in any conduct or pattern of conduct that: Fails to meet the ethical and professional standards required of a peace officer or corrections officer; disrupts, diminishes, or otherwise jeopardizes public trust or confidence in the law enforcement profession and correctional system; or demonstrates an inability or unwillingness to uphold the officer's sworn oath to enforce the Constitution and laws of the United States and the state of Washington;

(k) Has been suspended or discharged, has resigned or retired in lieu of discharge, or has separated from the agency after the alleged misconduct occurred, for any conduct listed in this section; or

(l) Has voluntarily surrendered the person's certification as a peace officer or corrections officer.

(4) In addition to the penalties set forth in subsection (3) of this section, the commission may require mandatory retraining or placement on probation for up to two years, or both. In determining the appropriate penalty or sanction, the commission shall consider: The findings and conclusions, and the basis for the findings and conclusions, of any due pro-

cess hearing or disciplinary appeals hearing following an investigation by a law enforcement agency regarding the alleged misconduct, if such hearing has occurred prior to the commission's action; any sanctions or training ordered by the employing agency regarding the alleged misconduct; and whether the employing agency bears any responsibility for the situation.

(5) The commission shall deny certification to any applicant who lost certification as a result of a break in service of more than 24 consecutive months if that applicant failed to comply with the requirements set forth in RCW 43.101.080(15) and 43.101.095(2).

(6) The fact that the commission has suspended an officer's certification is not, in and of itself, a bar to the employing agency's maintenance of the officer's health and retirement benefits.

(7) Any suspension or period of probation imposed by the commission shall run concurrently to any leave or discipline imposed by the employing agency for the same incident.

(8) A law enforcement agency may not terminate a peace officer based solely on imposition of suspension or probation by the commission. This subsection does not prohibit a law enforcement agency from terminating a peace officer based on the underlying acts or omissions for which the commission took such action.

(9) Any of the misconduct listed in subsections (2) and (3) of this section is grounds for denial, suspension, or revocation of certification of a reserve officer to the same extent as applied to a peace officer, if the reserve officer is certified pursuant to RCW 43.101.095. [2021 c 323 § 9; 2011 c 234 § 3; 2005 c 434 § 3; 2001 c 167 § 3.]

43.101.115 Denial or revocation of peace or corrections officer certification—Readmission to academy—Reinstatement. (1) A person denied a certification based upon dismissal or withdrawal from a basic law enforcement academy or basic corrections academy under RCW 43.101.105(3)(a) is eligible for readmission and certification upon meeting standards established in rules of the commission, which rules may provide for probationary terms on readmission.

(2) A person whose certification is denied or revoked based upon prior administrative error of issuance, failure to cooperate, or interference with an investigation is eligible for certification upon meeting standards established in rules of the commission, which rules shall provide for a probationary period of certification in the event of reinstatement of eligibility.

(3) A person whose certification is mandatorily denied or revoked pursuant to RCW 43.101.105(2) is not eligible for certification at any time.

(4) A person whose certification is denied or revoked for reasons other than provided in subsections (1) through (3) of this section may, five years after the revocation or denial, petition the commission for reinstatement of the certificate or for eligibility for reinstatement. The commission may hold a hearing on the petition to consider reinstatement, and the commission may allow reinstatement based upon standards established in rules of the commission. If the certificate is reinstated or eligibility for certification is determined, the

commission shall establish a probationary period of certification.

(5) A person whose certification is revoked based solely upon a criminal conviction may petition the commission for reinstatement immediately upon a final judicial reversal of the conviction. The commission shall hold a hearing on request to consider reinstatement, and the commission may allow reinstatement based on standards established in rules of the commission. If the certificate is reinstated or if eligibility for certification is determined, the commission shall establish a probationary period of certification.

(6) The commission's rules and decisions regarding reinstatement shall align with its responsibilities to enhance public trust and confidence in the law enforcement profession and correctional system. [2021 c 323 § 10; 2001 c 167 § 4.]

43.101.121 Denial or revocation of certification—Subsequent certification as corrections officer or peace officer. An individual whose peace officer certification is denied or revoked pursuant to this chapter may not thereafter be certified as a corrections officer without first satisfying the requirements of eligibility for certification or reinstatement of certification. A corrections officer whose corrections officer certification is denied or revoked pursuant to this chapter may not thereafter be certified as a peace officer without first satisfying the requirements of eligibility for certification or reinstatement of certification. [2020 c 119 § 11.]

43.101.125 Lapsed peace officer certification—Reinstatement—Rules. A peace officer's certification lapses automatically when there is a break of more than twenty-four consecutive months in the officer's service as a full-time law enforcement officer. A break in full-time law enforcement service which is due solely to the pendency of direct review or appeal from a disciplinary discharge, or to the pendency of a work-related injury, does not cause a lapse in certification. The officer may petition the commission for reinstatement of certification. Upon receipt of a petition for reinstatement of a lapsed certificate, the commission shall determine under this chapter and any applicable rules of the commission if the peace officer's certification status is to be reinstated, and the commission shall also determine any requirements which the officer must meet for reinstatement. The commission may adopt rules establishing requirements for reinstatement. [2001 c 167 § 5.]

43.101.126 Lapsed corrections officer certification—Reinstatement—Rules. A corrections officer's certification lapses automatically when there is a break of more than twenty-four consecutive months in the officer's service as a full-time corrections officer. A break in full-time corrections service which is due solely to the pendency of direct review or appeal from a disciplinary discharge, or to the pendency of a work-related injury, does not cause a lapse in certification. The officer may petition the commission for reinstatement of certification. Upon receipt of a petition for reinstatement of a lapsed certificate, the commission shall determine under this chapter and any applicable rules of the commission if the corrections officer's certification status is to be reinstated, and the commission shall also determine any requirements which the officer must meet for reinstatement. The commission may

(2021 Ed.)

adopt rules establishing requirements for reinstatement. [2020 c 119 § 6.]

43.101.135 Separation of peace or corrections officer—Notification to commission—Investigation—Civil penalty. (1)(a) Upon separation of a peace officer or corrections officer from an employing agency for any reason, including termination, resignation, or retirement, the agency shall notify the commission within 15 days of the separation date on a personnel action report form provided by the commission.

(b) If the employer accepts an officer's resignation or retirement in lieu of termination, the employing agency shall report the reasons and rationale in the information provided to the commission, including the findings from any internal or external investigations into alleged misconduct.

(2) In addition to those circumstances under subsection (1) of this section and whether or not disciplinary proceedings have been concluded, the employing agency shall:

(a) Notify the commission within 15 days of learning of the occurrence of any death or serious injury caused by the use of force by an officer or any time an officer has been charged with a crime. Employing agencies must have a policy requiring officers to report any pending criminal charges and any conviction, plea, or other case disposition immediately to their agency; and

(b) Notify the commission within 15 days of an initial disciplinary decision by an employing agency for alleged behavior or conduct by an officer that is noncriminal and may result in revocation of certification pursuant to RCW 43.101.105.

(3) To better enable the commission to act swiftly and comprehensively when misconduct has occurred that may undermine public trust and confidence in law enforcement or the correctional system, if the totality of the circumstances support a conclusion that the officer resigned or retired in anticipation of discipline, whether or not the misconduct was discovered at the time, and when such discipline, if carried forward, would more likely than not have led to discharge, or if the officer was laid off when disciplinary investigation or action was imminent or pending which could have resulted in the officer's suspension or discharge, the employing agency shall conduct and complete the investigation and provide all relevant information to the commission as if the officer were still employed by the agency.

(4) Upon request of the commission, the employing agency shall provide such additional documentation or information as the commission deems necessary to determine whether the separation or event provides grounds for suspension or revocation.

(5) At its discretion, the commission may:

(a) Initiate decertification proceedings upon conclusion of any investigation or disciplinary proceedings initiated by the employing agency;

(b) Separately pursue action against the officer's certification under RCW 43.101.105; or

(c) Wait to proceed until any investigation, disciplinary proceedings, or appeals through the employing agency are final before taking action. Where a decertification decision requires a finding that the officer's conduct violated policy and the employing agency has begun its investigation into the

underlying event, the commission shall await notification of a finding by the employing agency before beginning the decertification process.

(6) No action or failure to act by an employing agency or decision resulting from an appeal of that action precludes action by the commission to suspend or revoke an officer's certification.

(7) An employing agency may not enter into any agreement or contract with an officer, or union:

(a) Not to report conduct, delay reporting, or preclude disclosure of any relevant information, including a promise not to check the box on a commission notice that indicates the officer may have committed misconduct, in exchange for allowing an officer to resign or retire or for any other reason; or

(b) That allows the agency to destroy or remove any personnel record while the officer is employed and for 10 years thereafter. Such records must include all misconduct and equal employment opportunity complaints, progressive discipline imposed including written reprimands, supervisor coaching, suspensions, involuntary transfers, investigatory files, and other disciplinary appeals and litigation records.

(8) The commission shall maintain all information provided pursuant to this section in a permanent file.

(9) In addition to disciplinary action authorized in RCW 43.101.105, the commission may impose a civil penalty not to exceed \$10,000 for the failure by an officer or an employing agency to timely and accurately report information pursuant to this section. [2021 c 323 § 11; 2001 c 167 § 6.]

43.101.145 Written complaint to deny, suspend, or revoke peace or corrections officer certification—Immunity of complainant. (1) Any individual may submit a written complaint to the commission stating that an officer's certificate should be denied, suspended, or revoked, and specifying the grounds for the complaint. Filing a complaint does not make a complainant a party to the commission's action.

(2) The commission has sole discretion whether to investigate a complaint, and the commission has sole discretion whether to investigate matters relating to certification, denial of certification, or revocation of certification on any other basis, without restriction as to the source or the existence of a complaint. All complaints must be resolved with a written determination, regardless of the decision to investigate.

(3) The commission may initiate an investigation in any instance where there is a pattern of complaints or other actions that may not have resulted in a formal adjudication of wrongdoing, but when considered together demonstrate conduct that would constitute a violation of RCW 43.101.105 (2) or (3). The commission must consider the agency's policies and procedures and the officer's job duties and assignment in determining what constitutes a pattern.

(4) A person who files a complaint in good faith under this section is immune from suit or any civil action related to the filing or the contents of the complaint. [2021 c 323 § 12; 2001 c 167 § 8.]

43.101.155 Denial, suspension, or revocation of peace or corrections officer certification—Statement of charges—Notice—Hearing. (1) If the commission determines, upon investigation, that there is cause to believe that a

peace officer's or corrections officer's certification should be denied, suspended, or revoked under RCW 43.101.105, the commission must prepare and serve upon the officer a statement of charges. Service on the officer must be by mail or by personal service on the officer unless the officer has consented to service in some other manner, including electronic notification. Notice of the charges must also be mailed to or otherwise served upon the officer's agency of separation and any current agency employer. The statement of charges must be accompanied by a notice that to receive a hearing on the denial or revocation, the officer must, within 60 days of the statement of charges, request a hearing before the hearings panel appointed under RCW 43.101.380. Failure of the officer to request a hearing within the 60-day period constitutes a default, whereupon the commission may enter an order under RCW 34.05.440.

(2) If a hearing is requested, the officer is required to provide an email address that constitutes the officer's legal address for purposes of any subsequent communication with the commission. Unless otherwise agreed to by the mutual agreement of the parties or for good cause, within two weeks of receipt of the officer's request for a hearing, the commission shall set a date for the hearing, which must be held within 90 days thereafter. On the date the hearing is set, the commission shall transmit electronic and written notice of the hearing to the officer, and provide public notice on the commission website, specifying the time, date, and place of hearing. [2021 c 323 § 13; 2001 c 167 § 9.]

43.101.157 Tribal police officer certification. (1) Tribal governments may voluntarily request certification for their police officers. Tribal governments requesting certification for their police officers must enter into a written agreement with the commission. The agreement must require the tribal law enforcement agency and its officers to comply with all of the requirements for granting, denying, and revoking certification as those requirements are applied to peace officers certified under this chapter and the rules of the commission. To ensure clarity regarding the requirements with which the tribal government and its police officers must comply should the tribal government request certification, a tribal government may first request consultation with the commission.

(2) Officers making application for certification as tribal police officers shall meet the requirements of this chapter and the rules of the commission as those requirements are applied to certification of peace officers. Application for certification as a tribal police officer shall be accepted and processed in the same manner as those for certification of peace officers. [2021 c 323 § 14; 2006 c 22 § 2.]

The services provided by the state through the establishment and maintenance of the programs of the commission are primarily intended for the benefit of the criminal justice agencies of the counties, cities, and towns of this state. To the extent that funds available to the state under the Crime Control Act of 1973 are utilized by the commission, it is the determination of the legislature that, to the maximum extent permitted by federal law, such funds as are so utilized shall be charged against that portion of United States law enforcement assistance administration funds which the state is required to make available to units of local government pursuant to section 303(a)(2) of Part C of the Crime Control Act of 1973. [1974 ex.s. c 94 § 19.]

For personnel initially employed before January 1, 1990, such training shall be successfully completed during the first fifteen months of employment of such personnel unless otherwise extended or waived by the commission and shall be requisite to the continuation of such employment. Personnel initially employed on or after January 1, 1990, shall commence basic training during the first six months of employment unless the basic training requirement is otherwise waived or extended by the commission. Successful completion of basic training is requisite to the continuation of employment of such personnel initially employed on or after January 1, 1990.

Additionally, to the extent funds are provided for this purpose, the commission shall reimburse to participating law enforcement agencies with ten or less full-time commissioned patrol officers the cost of temporary replacement of each officer who is enrolled in basic law enforcement training: PROVIDED, That such reimbursement shall include only the actual cost of temporary replacement not to exceed the total amount of salary and benefits received by the replaced officer during his or her training period. 43.101.225 Training on vehicular pursuits. (1) By June 30, 2006, every new full-time law enforcement officer employed, after July 27, 2003, by a state, county, or municipal law enforcement agency shall be trained on vehicular pursuits.

(2) Beginning July 1, 2006, every new full-time law enforcement officer employed by a state, county, or municipal law enforcement agency shall be trained on vehicular pursuits, within six months of employment.

43.101.270 Sexual assault—Training for investigating and prosecuting. (1) Each year the criminal justice training commission shall offer an intensive, integrated training session on investigating and prosecuting sexual assault

cases. The training shall place particular emphasis on the development of professionalism and sensitivity towards the victim and the victim's family.

(2) The commission shall seek advice from the Washington association of prosecuting attorneys, the Washington defender association, the Washington association of sheriffs and police chiefs, and the Washington coalition of sexual assault programs.

(3) The training shall be an integrated approach to sexual assault cases so that prosecutors, law enforcement, defenders, and victim advocates can all benefit from the training.

(4) The training shall be self-supporting through fees charged to the participants of the training.

(5) The training shall include a reference to the possibility that a court may allow children under the age of fourteen to testify in a room outside the presence of the defendant and the jury pursuant to RCW 9A.44.150. [2015 c 286 § 2; 1991 c 267 § 2.]

Findings—Intent—2015 c 286: "(1) The legislature finds that RCW 9A.44.150, which allows testimony of child victims by closed-circuit television in certain cases, helps protect certain child witnesses. During the prosecution of many child abuse cases, child victims may suffer serious emotional and mental trauma from exposure to the abuser. Some of these child victims are unable to testify at all in the presence of the abuser. For these reasons, the legislature found it a compelling state interest to allow for remote testimony in certain cases to enhance the truth-seeking process and to shield child victims from trauma.

(2) The legislature further finds that while there is a possibility for certain child victims to testify remotely in some cases, this procedure is rarely used. The legislature intends to raise awareness regarding this procedure by including it in training materials for investigating and prosecuting sexual assault cases." [2015 c 286 § 1.]

Findings—1991 c 267: "The safety of all children is enhanced when sexual assault cases are properly investigated and prosecuted. The victim of the sexual assault and the victim's family have a right to be treated with sensitivity and professionalism, which also increases the likelihood of their continued cooperation with the investigation and prosecution of the case. The legislature finds the sexual assault cases, particularly those involving victims who are children, are difficult to prosecute successfully. The cooperation of a victim and the victim's family through the investigation and prosecution of the sexual assault case is enhanced and the trauma associated with the investigation and prosecution is reduced when trained victim advocates assist the victim and the victim's family through the investigation and prosecution of the case. Trained victim advocates also assist law enforcement, prosecutors, and defense attorneys, by relieving some of the burden of explaining the investigation and prosecution process and possible delays to the victim and accompanying the victim during interviews by the police, prosecutor, and defense attorney, and accompanying the victim during hearings and the trial.

The legislature finds that counties should give priority to the successful prosecution of sexual assault cases, especially those that involve children, by ensuring that prosecutors, investigators, defense attorneys, and victim advocates are properly trained and available. Therefore, the legislature intends to establish a mechanism to provide the necessary training of prosecutors, law enforcement investigators, defense attorneys, and victim advocates and ensure the availability of victim advocates for victims of sexual assault and their families." of trauma and trauma-informed interviewing, counseling, and investigative techniques.

(2) The training must: Be based on research-based practices and standards; offer participants an opportunity to practice interview skills and receive feedback from instructors; minimize the trauma of all persons who are interviewed during abuse investigations; provide methods of reducing the number of investigative interviews necessary whenever possible; assure, to the extent possible, that investigative interviews are thorough, objective, and complete; recognize needs of special populations; recognize the nature and consequences of victimization; require investigative interviews to be conducted in a manner most likely to permit the interviewed persons the maximum emotional comfort under the circumstances; address record retention and retrieval; address documentation of investigative interviews; and educate investigators on the best practices for notifying victims of the results of forensic analysis of sexual assault kits and other significant events in the investigative process, including for active investigations and cold cases.

(3) In developing the training, the commission shall seek advice from the Washington association of sheriffs and police chiefs, the Washington coalition of sexual assault programs, and experts on sexual assault and the neurobiology of trauma. The commission shall consult with the Washington association of prosecuting attorneys in an effort to design training containing consistent elements for all professionals engaged in interviewing and interacting with sexual assault victims in the criminal justice system.

(4) The commission shall develop the training and begin offering it by July 1, 2018. Officers assigned to regularly investigate sexual assault involving adult victims shall complete the training within one year of being assigned or by July 1, 2020, whichever is later. The training must include components on available resources for victims including, but not limited to, material on and references to community-based victim advocates.

(2) In developing the training, the commission shall seek advice from the Washington association of sheriffs and police chiefs, the Washington coalition of sexual assault programs, and experts on sexual assault and the neurobiology of trauma.

(3) Beginning in 2018, all law enforcement agencies shall annually host the training for commissioned peace officers. All law enforcement agencies shall, to the extent feasible, consult with and feature local community-based victim advocates during the training. [2017 c 290 § 5.]

(1) Subject to the availability of amounts appropriated for this specific purpose, the commission shall conduct an annual case review program. The program must review case files from law enforcement agencies and prosecuting attorneys selected by the commission in order to identify changes to training and investigatory practices necessary to optimize outcomes in sexual assault investigations and prosecutions involving adult victims. The program must include:

(a) An evaluation of whether current training and practices foster a trauma-informed, victim-centered approach to victim interviews and that identifies best practices and current gaps in training and assesses the integration of the community resiliency model;

(b) A comparison of cases involving investigators and interviewers who have participated in training to cases involving investigators and interviewers who have not participated in training;

(c) Randomly selected cases for a systematic review to assess whether current practices conform to national best practices for a multidisciplinary approach to investigating sexual assault cases and interacting with survivors; and

(d) An analysis of the impact that race and ethnicity have on sexual assault case outcomes.

(2) The case review program may review and access files, including all reports and recordings, pertaining to closed cases involving allegations of adult sexual assault only. Any law enforcement agency or prosecuting attorney selected for the program by the commission shall make requested case files and other documents available to the commission, provided that the case files are not linked to ongoing, open investigations and that redactions may be made where appropriate and necessary. Agencies and prosecuting attorneys shall include available information on the race and ethnicity of all sexual assault victims in the relevant case files provided to the commission. Case files and other documents must be made available to the commission according to appropriate deadlines established by the commission in consultation with the agency or prosecuting attorney.

(3) If a law enforcement agency has not participated in the training under RCW 43.101.272 by July 1, 2022, the commission may prioritize the agency for selection to participate in the program under this section.

(4) In designing and conducting the program, the commission shall consult and collaborate with experts in trauma-informed and victim-centered training, experts in sexual assault investigations and prosecutions, victim advocates, and other stakeholders identified by the commission. The

The curriculum shall be developed by October 1, 1993. 43.101.380 Hearings—Panel membership—Standard of proof—Appeals—Judicial review. (1) The procedures governing adjudicative proceedings before agencies under chapter 34.05 RCW, the administrative procedure act, govern hearings before the commission and govern all other actions before the commission unless otherwise provided in this chapter. The standard of proof in actions before the commission is a preponderance of the evidence.

(2) In all hearings requested under RCW 43.101.155, an administrative law judge appointed under chapter 34.12 RCW shall be the presiding officer, shall make all necessary

rulings in the course of the hearing, and shall issue a proposed recommendation, but is not entitled to vote. In addition, a five-member hearings panel shall hear the case and make the commission's final administrative decision.

(3) The commission shall appoint a panel to hear certification actions as follows:

(a) When a hearing is requested in relation to a certification action of a Washington peace officer, the commission shall appoint to the panel: (i) One police chief or sheriff from an agency not a current or past employer of the peace officer; (ii) one certified Washington peace officer who is at or below the level of first line supervisor and who has at least ten years' experience as a peace officer; (iii) one civilian member of the commission as appointed under RCW 43.101.030(1) (f) and (h) through (j); (iv) one member of the public who is not a prosecutor, defense attorney, judge, or law enforcement officer; and (v) one person with expertise and background in police accountability who is not a current or former peace officer or corrections officer.

(b) When a hearing is requested in relation to a certification action of a Washington corrections officer, the commission shall appoint to the panel: (i) A person who heads either a city or county corrections agency or facility or of a Washington state department of corrections facility; (ii) one corrections officer who is at or below the level of first line supervisor and who has at least ten years' experience as a corrections officer; (iii) one civilian member of the commission as appointed under RCW 43.101.030(1) (f) and (h) through (j); (iv) one member of the public who is not a prosecutor, defense attorney, judge, or law enforcement officer; and (v) one person with expertise and background in police accountability who is not a current or former peace officer or corrections officer.

(c) When a hearing is requested in relation to a certification action of a tribal police officer, the commission shall appoint to the panel (i) one tribal police chief; (ii) one tribal police officer who is at or below the level of first line supervisor, and who has at least ten years' experience as a peace officer; (iii) one civilian member of the commission as appointed under RCW 43.101.030(1) (f) and (h) through (j); (iv) one member of the public who is not a prosecutor, defense attorney, judge, or law enforcement officer; and (v) one person with expertise and background in police accountability who is not a current or former peace officer or corrections officer.

(4) In decertification matters where there was a due process hearing or a disciplinary appeals hearing following an investigation by a law enforcement agency, or a criminal hearing regarding the alleged misconduct, the hearings panel need not redetermine the underlying facts but may make its determination based solely on review of the records and decision relating to those proceedings and any investigative or summary materials from the administrative law judge, legal counsel, and commission staff. However, the hearings panel may, in its discretion, consider additional evidence to deter-

mine whether misconduct occurred. The hearings panel shall, upon written request by the subject peace officer or corrections officer, allow the peace officer or corrections officer to present additional evidence of extenuating circumstances.

(5) The commission is authorized to proceed regardless of whether an arbitrator or other appellate decision maker overturns the discipline imposed by the officer's employing agency or whether the agency settles an appeal. No action or failure to act by a law enforcement agency or corrections agency or decision resulting from an appeal of that action precludes action by the commission to suspend or revoke an officer's certificate, to place on probation, or to require remedial training for the officer.

(6) The hearings, but not the deliberations of the hearings panel, are open to the public. The transcripts, admitted evidence, and written decisions of the hearings panel on behalf of the commission are not confidential or exempt from public disclosure, and are subject to subpoena and discovery proceedings in civil actions.

(7) Summary records of hearing dispositions must be made available on an annual basis on a public website.

(2) Without limiting the generality of the foregoing, the commission and individuals acting on behalf of the commission are immune from suit in any civil action based on the certification, denial of certification, suspension, or other action regarding decertification of peace officers, reserve officers, or corrections officers. [2021 c 323 § 16; 2001 c 167 § 11.]

43.101.400 Confidentiality of records—Public database. Such records are not subject to public disclosure, subpoena, or discovery proceedings in any civil action, except as provided in RCW 43.101.380(6) or which become part of the record in a suspension or decertification matter.

(2) Records which are otherwise confidential and exempt under subsection (1) of this section may be reviewed and copied: (a) By the officer involved or the officer's counsel or authorized representative, who may review the officer's file and may submit any additional exculpatory or explanatory evidence, statements, or other information, any of which must be included in the file; (b) by a duly authorized representative of (i) the agency of termination, or (ii) a current employing law enforcement or corrections agency, which

may review and copy its employee-officer's file; or (c) by a representative of or investigator for the commission.

(3) Records which are otherwise confidential and exempt under subsection (1) of this section may also be inspected at the offices of the commission by a duly authorized representative of a law enforcement or corrections agency considering an application for employment by a person who is the subject of a record. A copy of records which are otherwise confidential and exempt under subsection (1) of this section may later be obtained by an agency after it hires the applicant. In all other cases under this subsection, the agency may not obtain a copy of the record.

(4) The commission shall maintain a database that is publicly searchable, machine readable, and exportable, and accompanied by a complete, plain-language data dictionary describing the names of officers and employing agencies, all conduct investigated, certifications denied, notices and accompanying information provided by law enforcement or correctional agencies, including the reasons for separation from the agency, decertification or suspension actions pursued, and final disposition and the reasons therefor for at least 30 years after final disposition of each incident. The dates for each material step of the process must be included. Any decertification must be reported to the national decertification index.

(5) Every individual, legal entity, and agency of federal, state, or local government is immune from civil liability, whether direct or derivative, for providing information to the commission in good faith. [2021 c 323 § 21; 2020 c 119 § 12; 2001 c 167 § 12.]

43.101.410 Racial profiling—Policies—Training—Complaint review process—Data collection and reporting.

(1) Local law enforcement agencies shall comply with the recommendations of the Washington association of sheriffs and police chiefs regarding racial profiling, as set forth under (a) through (f) of this subsection. Local law enforcement agencies shall:

(a) Adopt a written policy designed to condemn and prevent racial profiling;

(b) Review and audit their existing procedures, practices, and training to ensure that they do not enable or foster the practice of racial profiling;

(c) Continue training to address the issues related to racial profiling. Officers should be trained in how to better interact with persons they stop so that legitimate police actions are not misperceived as racial profiling;

(d) Ensure that they have in place a citizen complaint review process that can adequately address instances of racial profiling. The process must be accessible to citizens and must be fair. Officers found to be engaged in racial profiling must be held accountable through the appropriate disciplinary procedures within each department;

(e) Work with the minority groups in their community to appropriately address the issue of racial profiling; and

(f) Within fiscal constraints, collect demographic data on traffic stops and analyze that data to ensure that racial profiling is not occurring.

(2) The Washington association of sheriffs and police chiefs shall coordinate with the criminal justice training commission to ensure that issues related to racial profiling are

addressed in basic law enforcement training and offered in regional training for in-service law enforcement officers at all levels.

(3) Local law enforcement agencies shall report all information required under this section to the Washington association of sheriffs and police chiefs. [2002 c 14 § 2.]

Declaration—Findings—2002 c 14: "(1) The legislature declares that racial profiling is the illegal use of race or ethnicity as a factor in deciding to stop and question, take enforcement action, arrest, or search a person or vehicle with or without a legal basis under the United States Constitution or Washington state Constitution.

(2) The legislature recognizes that the president of the United States has issued an executive order stating that stopping or searching individuals on the basis of race is not an effective law enforcement policy, that it is inconsistent with democratic ideals, especially the commitment to equal protection under the law for all persons, and that it is neither legitimate nor defensible as a strategy for public protection. The order also instructs the law enforcement agencies within the departments of justice, treasury, and interior to collect race, ethnicity, and gender data on the people they stop or arrest.

(3) The legislature finds that the Washington state patrol has been in the process of collecting data on traffic stops and analyzing the data to determine if the patrol has any areas in its enforcement of traffic laws where minorities are being treated in a discriminatory manner. The legislature further finds that the Washington association of sheriffs and police chiefs has recently passed a resolution condemning racial profiling and has reaffirmed local law enforcement agencies' commitment to ensuring the public safety and the protection of civil liberties for all persons. The association also restated its goal of implementing policing procedures that are fair, equitable, and constitutional." [2002 c 14 § 1.]

43.101.415 Racial profiling—Reports to the legislature. The Washington association of sheriffs and police chiefs, in cooperation with the criminal justice training commission, shall report to the legislature by December 31, 2002, and each December 31st thereafter, on the progress and accomplishments of each local law enforcement agency in the state in meeting the requirements and goals set forth in RCW 43.101.410. [2002 c 14 § 3.]

Declaration—Findings—2002 c 14: See note following RCW 43.101.410.

43.101.419 Motorcycle profiling. (1) The criminal justice training commission shall ensure that issues related to motorcycle profiling are addressed in basic law enforcement training and offered to in-service law enforcement officers in conjunction with existing training regarding profiling.

(2) Local law enforcement agencies shall add a statement condemning motorcycle profiling to existing policies regarding profiling.

(3) For the purposes of this section, "motorcycle profiling" means the illegal use of the fact that a person rides a motorcycle or wears motorcycle-related paraphernalia as a factor in deciding to stop and question, take enforcement action, arrest, or search a person or vehicle with or without a legal basis under the United States Constitution or Washington state Constitution. [2011 c 49 § 1.]

43.101.420 Personal crisis recognition and crisis intervention services—Training.

(1) The commission shall offer a training session on personal crisis recognition and crisis intervention services to criminal justice, corrections, and other public safety employees. The training shall be implemented by the commission in consultation with appropriate public and private organizations that have expertise in crisis

referral services and in the underlying conditions leading to the need for crisis referral.

(2) The training shall consist of a minimum of one hour of classroom or internet instruction, and shall include instruction on the following subjects:

(a) The description and underlying causes of problems that may have an impact on the personal and professional lives of public safety employees, including mental health issues, chemical dependency, domestic violence, financial problems, and other personal crises;

(b) Techniques by which public safety employees may recognize the conditions listed in (a) of this subsection and understand the need to seek assistance and obtain a referral for consultation and possible treatment; and

(c) A listing of examples of public and private crisis referral agencies available to public safety employees.

(3) The training developed by the commission shall be made available by the commission to all employees of state and local agencies that perform public safety duties. The commission may charge a reasonable fee to defer the cost of making the training available. [2021 c 323 § 17; 2009 c 19 § 1.]

43.101.425 Communications to crisis referral services—Confidentiality of communications and records.

(1) All communications to crisis referral services by employees and volunteers of law enforcement, correctional, fire-fighting, and emergency services agencies, and all records related to the communications, shall be confidential. Crisis referral services include all public or private organizations that advise employees and volunteers of such agencies about sources of consultation and treatment for personal problems including mental health issues, chemical dependency, domestic violence, gambling, financial problems, and other personal crises.

(2) A crisis referral service may reveal information related to crisis referral services to prevent reasonably certain death, substantial bodily harm, or commission of a crime. [2009 c 19 § 2.]

43.101.427 Crisis intervention training—Rules. (1) The commission shall provide crisis intervention training to every new full-time law enforcement officer employed after July 1, 2017, by a general authority Washington law enforcement agency. The training shall consist of not less than eight hours and shall be incorporated into the basic training academy as provided in RCW 43.101.200.

(2) The commission must ensure that:

(a) All full-time, general authority Washington peace officers who are certified after July 1, 2017, complete a two-hour online crisis intervention course as part of the annual training required by the commission for all full-time, general authority Washington peace officers employed by a general authority Washington law enforcement agency.

(b) Each full-time general authority Washington peace officer certified before July 1, 2017, receives crisis intervention training by July 1, 2021. The training shall consist of not less than eight hours and shall be substantially similar in hours and content to the training offered through the basic training academy. Each attendee of the program shall be

(2021 Ed.)

required to obtain written proof of completion of the program as provided by rules of the commission.

(3) The commission shall make efforts to provide enhanced crisis intervention training for at least twenty-five percent of all full-time, general authority Washington peace officers assigned to patrol duties. The enhanced training may be (a) comprised of forty hours of commission-certified training and (b) accomplished within any funds remaining after appropriation is made for purposes of this section.

(4) By July 1, 2017, the commission shall establish by rule:

(a) A program and standards to certify organizations, other than the commission, that may provide crisis intervention training as required under this section. Certified organizations must use a commission-certified training or curriculum to facilitate the training. The commission shall consider geographic training needs when considering programs and standards. The commission shall provide grants to general authority Washington law enforcement agencies to reimburse those law enforcement agencies for the cost of sending officers to crisis intervention training;

(b) Standards for successful completion of the annual two hours of crisis intervention training as provided in subsection (2) of this section. The standards shall include, at a minimum, the requirement of successful completion of a written exam.

(5) For the purposes of this section, "crisis intervention training" means training designed to provide tools and resources to full-time, general authority Washington peace officers in order to respond effectively to individuals who may be experiencing an emotional, mental, physical, behavioral, or chemical dependency crisis, distress, or problem and that are designed to increase the safety of both law enforcement and individuals in crisis.

(6) This section is subject to the availability of amounts appropriated for this specific purpose. [2015 c 87 § 1.]

Short title—2015 c 87: "This act may be known and cited as the Douglas M. Ostling act." [2015 c 87 § 2.]

43.101.430 Criminal justice training commission firing range maintenance account. The criminal justice training commission firing range maintenance account is created in the custody of the state treasurer. All moneys generated by the rental of the commission's firing range facilities, property, and equipment must be deposited into the account. The sources of the moneys generated and deposited under this section may include federal, state, local, or private grants, consistent with RCW 43.101.190. Expenditures from the account may be used only for cost related to rental, maintenance, or development of the commission's firing range facilities, property, and equipment. Only the executive director, acting on behalf of the criminal justice training commission, or the executive director's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures. [2013 c 265 § 1.]

43.101.435 Washington internet crimes against children account. The Washington internet crimes against children account is created in the custody of the state treasurer. All receipts from legislative appropriations, donations, gifts,

grants, and funds from federal or private sources must be deposited into the account. Expenditures from the account must be used exclusively by the Washington internet crimes against children task force and its affiliate agencies for combating internet-facilitated crimes against children, promoting education on internet safety to the public and to minors, and rescuing child victims from abuse and exploitation. Only the criminal justice training commission or the commission's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures. The commission may enter into agreements with the Washington association of sheriffs and police chiefs to administer grants and other activities funded by the account and be paid an administrative fee not to exceed three percent of expenditures. During the 2019-2021 fiscal biennium, monies in the account may be used by the Washington state patrol for activities related to the missing and exploited children task force. [2019 c 415 § 971; 2015 c 84 § 2.]

Effective date—2019 c 415: See note following RCW 28B.20.476.

Findings—Intent—2015 c 84: "(1) The legislature finds that the internet crimes against children task force program, through the United States department of justice, helps state and local law enforcement agencies develop an effective response to technology-facilitated child sexual exploitation and internet crimes against children. This help encompasses forensic and investigative components, training and technical assistance, victim services, and community education. The program is a national network of sixty-one coordinated task forces representing over three thousand five hundred federal, state, and local law enforcement and prosecutorial agencies. In 2013, the program's investigations contributed to the arrests of more than seven thousand four hundred individuals and task forces conducted over sixty thousand forensic examinations. Additionally, the program trained over thirty thousand law enforcement personnel, over three thousand five hundred prosecutors, and more than five thousand three hundred other professionals working in the program's field.

(2) The legislature finds that there is a lack of dedicated state resources to combat internet-facilitated crimes against children. As a result, many of the cases involving internet-facilitated crimes are not adequately investigated. The legislature further finds that a minimum of fifteen full-time affiliate investigators and three forensic examiners are currently needed to just investigate the very worst of these cases in Washington. It is the intent of the legislature to create an account dedicated to combating internet-facilitated crimes against children, promoting education on internet safety to the public and to minors, and rescuing child victims from abuse and exploitation." [2015 c 84 § 1.]

43.101.440 Testimony of children under age fourteen—Remote testimony—Number of child sexual abuse cases referred for prosecution and number prosecuted—Annual survey—Reports to the legislature. The results of the survey described in this section must be reported every other year to the appropriate committees of the legislature with an initial reporting date of December 1, 2015. [2015 c 286 § 3.]

Findings—Intent—2015 c 286: See note following RCW 43.101.270.

[Title 43 RCW—page 596]

43.101.450 Violence de-escalation training. (1) Beginning one year after December 6, 2018, all law enforcement officers in the state of Washington must receive violence de-escalation training. Law enforcement officers beginning employment after December 6, 2018, must successfully complete such training within the first 15 months of employment. The commission shall set the date by which other law enforcement officers must successfully complete such training.

(2) All law enforcement officers shall periodically receive continuing violence de-escalation training to practice their skills, update their knowledge and training, and learn about new legal requirements and violence de-escalation strategies.

(3) The commission shall set training requirements through the procedures in RCW 43.101.455.

(4) Violence de-escalation training provided under this section must be consistent with RCW 10.120.020 and the model policies established by the attorney general under RCW 10.120.030.

(5) The commission shall submit a report to the legislature and the governor by January 1st and July 1st of each year on the implementation of and compliance with subsections (1) and (2) of this section. The report must include data on compliance by agencies and officers. The report may also include recommendations for any changes to laws and policies necessary to improve compliance with subsections (1) and (2) of this section. [2021 c 324 § 6; 2019 c 1 § 3 (Initiative Measure No. 940); (2018 c 11 § 3 (Initiative Measure No. 940) repealed by 2019 c 4 § 8).]

Intent—2021 c 324: See note following RCW 10.120.010.

Short title—2019 c 1 (Initiative Measure No. 940): "This act may be known and cited as the law enforcement training and community safety act." [2019 c 1 § 1 (Initiative Measure No. 940); (2018 c 11 § 1 (Initiative Measure No. 940) repealed by 2019 c 4 § 8).]

Intent—2019 c 1 (Initiative Measure No. 940): "The intent of the people in enacting this act is to make our communities safer. This is accomplished by requiring law enforcement officers to obtain violence de-escalation and mental health training, so that officers will have greater skills to resolve conflicts without the use of physical or deadly force. Law enforcement officers will receive first aid training and be required to render first aid, which will save lives and be a positive point of contact between law enforcement officers and community members to increase trust and reduce conflicts. Finally, the initiative adopts a "good faith" standard for officer criminal liability in those exceptional circumstances where deadly force is used, so that officers using deadly force in carrying out their duties in good faith will not face prosecution." [2019 c 1 § 2 (Initiative Measure No. 940); (2018 c 11 § 2 (Initiative Measure No. 940) repealed by 2019 c 4 § 8).]

Liberal construction—2019 c 1 (Initiative Measure No. 940): "The provisions of this act are to be liberally construed to effectuate the intent, policies, and purposes of this act. Nothing in this act precludes local jurisdictions or law enforcement agencies from enacting additional training requirements or requiring law enforcement officers to provide first aid in more circumstances than required by this act or guidelines adopted under this act." [2019 c 1 § 8 (Initiative Measure No. 940); (2018 c 11 § 8 (Initiative Measure No. 940) repealed by 2019 c 4 § 8).]

(7) "Involved agency" means a general authority Washington law enforcement agency or limited authority Washington law enforcement agency, as defined in RCW 10.93.020, that employs or supervises the officer or officers who are an involved officer as defined in this section, or an agency responsible for a city, county, or regional adult or juvenile institution, correctional, jail, holding, or detention facility as defined in RCW 70.48.020, 72.09.015, or 13.40.020.

(9) "Office" means the office of independent investigations.

(10) "Substantial bodily harm" has the same meaning as in RCW 9A.04.110. [2021 c 318 § 201.]

Finding—Intent—2021 c 318: See note following RCW 43.102.020.

43.102.020 Creation. (1) The office of independent investigations is hereby established within the office of the

governor for the purpose of conducting fair, thorough, transparent, and competent investigations as authorized under this chapter.

(2) The office of independent investigations is an investigative law enforcement agency, including for the purposes of the public records act, chapter 42.56 RCW. [2021 c 318 § 301.]

Finding—Intent—2021 c 318: "The legislature finds that there has been an outpouring of frustration, anger, and demand for change from many members of the public over the deaths of people of color resulting from encounters with police. The most recent deaths in the United States and within Washington are a call to lead our state to a new system for investigating deaths and other serious incidents involving law enforcement officers.

The legislature intends that the office of independent investigations be created to conduct investigations of use of force and other cases under its jurisdiction in a manner that is competent, unbiased, and thorough. The office will be transparent and accountable for its work. The office should ensure that it treats all people with dignity and respect. The director and staff must be qualified and trained to conduct the investigations, including training to understand the impact and effect of racism in the investigation and use of an antiracist lens to conduct their work.

It is intended that this office will assume responsibility for investigations of serious use of force incidents and refer the reports on the investigation to the prosecutorial entity to determine if the action was justified, or if there was criminal action such that criminal charges should be filed. This is the same criminal investigative inquiry that is currently conducted when there is an officer-involved incident. The legislature does not intend to create a new type of investigation or that the office should be involved in any administrative review of conduct or complaints to police agencies about officer conduct related to policy or procedure. The process created in this act is intended to change only who investigates the incident. It does not change the nature of the investigation and involves only an investigation to determine justification or whether criminal charges are appropriate." [2021 c 318 § 101.]

43.102.030 Powers and duties. In addition to other responsibilities set forth in this chapter, the office shall:

(1) Conduct fair, thorough, transparent, and competent investigations of police use of force and other incidents involving law enforcement as authorized in this chapter and shall prioritize investigations conducted by the office based on resources and other criteria developed in consultation with the advisory board. The office shall commence investigations as follows:

(a) Beginning no later than July 1, 2022, the office is authorized to conduct investigations of deadly force cases occurring after July 1, 2022, including any incident involving use of deadly force by an involved officer against or upon a person who is in-custody or out-of-custody; and

(b) Beginning no later than July 1, 2023, the office is authorized to review, and may investigate, prior investigations of deadly force by an involved officer if new evidence is brought forth that was not included in the initial investigation;

(2) Analyze data available to the office and provide reports and recommendations as appropriate based on the data regarding issues, trends, and other relevant areas;

(3) Provide reports on activities of the office as authorized under this chapter; and

(4) Carry out such other responsibilities as may be consistent with this chapter. [2021 c 318 § 302.]

Finding—Intent—2021 c 318: See note following RCW 43.102.020.

43.102.040 Director. (1)(a) The governor shall appoint the director of the office and determine the director's compensation. The governor shall select the director from a list of

three candidates recommended by the advisory board unless the governor declines to select any of the candidates provided. If the governor declines to select a candidate proposed by the advisory board, the governor may request the advisory board to provide additional qualified nominees for consideration or may offer an alternative candidate who may be appointed following approval by a majority of the advisory board.

(b) Prior to selecting the director, the governor shall consider the results of a background check, including an assessment of criminal history, and research of social media and affiliations to check for racial bias and conflicts of interest.

(2) The director shall hold office for a term of three years and continue to hold office until reappointed or until his or her successor is appointed. The governor may remove the director prior to the expiration of the director's term for neglect of duty, misconduct, or inability to perform duties. [2021 c 318 § 303.]

Finding—Intent—2021 c 318: See note following RCW 43.102.020.

43.102.050 Director—Duties—Review of prior investigations. (1) The director shall:

(a) Oversee the duties and functions of the office and investigations conducted by the office pursuant to this chapter;

(b) Hire or contract with investigators and other personnel as the director considers necessary to perform investigations conducted by the office, and other duties as required, under this chapter;

(c) Plan and provide trainings for office personnel, including contracted investigators, that promote recognition of and respect for, the diverse races, ethnicities, and cultures of the state;

(d) Plan and provide training for advisory board members including training to utilize an antiracist lens in their duties as advisory board members;

(e) Publish reports of investigations conducted under this chapter;

(f) Enter into contracts and memoranda of understanding as necessary to implement the responsibilities of the office under this chapter;

(g) Adopt rules in accordance with chapter 34.05 RCW and perform all other functions necessary and proper to carry out the purposes of this chapter;

(h) Develop the nondisclosure agreement required in RCW 43.102.130; and

(i) Perform the duties and exercise the powers that are set out in this chapter, as well as any additional duties and powers that may be prescribed.

(2) No later than February 1, 2022, in consultation with the advisory board, the director shall develop a plan to implement:

(a) Regional investigation teams and a system for promptly responding to incidents of deadly force under the jurisdiction of the office. The regional investigation teams should:

(i) Allow for prompt response to the incident requiring investigation; and

(ii) Include positions for team members who are not required to be designated as limited authority Washington peace officers;

(b) A system and requirements for involved agencies to notify the office of any incident under the jurisdiction of the office, which must include direction to agencies as to what incidents of force and injuries and other circumstances must be reported to the office, including the timing of such reports, provided that any incident involving substantial bodily harm, great bodily harm, or death is reported to the office immediately in accordance with RCW 43.102.120;

(c) The process to conduct investigations of cases under the jurisdiction of the office including, but not limited to:

(i) The office intake process following notification of an incident by an involved agency;

(ii) The assessment and response to the notification of the incident by the office, including direction to and coordination with the independent investigation team;

(iii) Determination and deployment of necessary resources for the regional investigation teams to conduct the investigations;

(iv) Determination of any conflicts with office investigators or others involved in the investigation to ensure no investigator has an existing conflict with an assigned case;

(v) Protocol and direction to the involved agency;

(vi) Protocol and direction to the independent investigation team;

(vii) Protocol and guidelines for contacts and engagement with the involved agency; and

(viii) Protocol for finalizing the completed investigation and referral to the entity responsible for the prosecutorial decision, including communication with the family and public regarding the completion of the investigation;

43.103.100 Sudden infant death syndrome—Training—Protocols. (1) The council shall research and develop an appropriate training component on the subject of sudden, unexplained child death, including but not limited to sudden infant death syndrome. The training component shall include, at a minimum:

(a) Medical information on sudden, unexplained child death for first responders, including awareness and sensitivity in dealing with families and child care providers, and the importance of forensically competent death scene investigation;

(b) Information on community resources and support groups available to assist families who have lost a child to sudden, unexplained death, including sudden infant death syndrome; and

(c) The value of timely communication between the county coroner or medical examiner and the public health department, when a sudden, unexplained child death occurs, in order to achieve a better understanding of such deaths, and connecting families to various community and public health support systems to enhance recovery from grief.

(2) The council shall work with volunteer groups with expertise in the area of sudden, unexplained child death, including but not limited to the SIDS foundation of Washington and the Washington association of county officials.

(3) Basic training for death investigators offered by the Washington association of coroners and medical examiners and the criminal justice training commission shall include a module which specifically addresses the investigations of the sudden unexplained deaths of children under the age of three. The training module shall include a scene investigation protocol endorsed or developed by the council. A similar training curriculum shall be required for city and county law enforcement officers and emergency medical personnel certified by the department of health as part of their basic training through the criminal justice training commission or the department of health emergency medical training certification program.

(4) Each county shall use a protocol that has been endorsed or developed by the council for scene investigations of the sudden unexplained deaths of children under the age of three. The council may utilize guidelines from the center for disease control and other appropriate resources.

(5) The council shall develop a protocol for autopsies of children under the age of three whose deaths are sudden and

(2021 Ed.)

unexplained. This protocol shall be used by pathologists who are not certified by the American board of pathology in forensic pathology, and who are providing autopsy services to coroners and medical examiners. [2001 c 82 § 1; 1991 c 176 § 6.]

Finding—Declaration—1991 c 176: "The legislature finds and declares that sudden and unexplained child deaths are a leading cause of death for children under age three. The public interest is served by research and study of the potential causes and indications of such unexplained child deaths and the prevention of inaccurate and inappropriate designation of sudden infant death syndrome (SIDS) as a cause of death. The legislature further finds and declares that law enforcement officers, firefighters, emergency medical technicians, and other first responders in emergency situations are not adequately informed regarding sudden, unexplained death in young children including but not limited to sudden infant death syndrome, its signs and typical history, and as a result may compound the family and child care provider's grief through conveyed suspicions of a criminal act. Coroners, investigators, and prosecuting attorneys are also in need of updated training on the identification of unexplained death in children under the age of three, including but not limited to sudden infant death syndrome awareness and sensitivity and the establishment of a statewide uniform protocol in cases of sudden, unexplained child death." [1991 c 176 § 5.]

43.103.110 Training modules for missing persons protocols. The Washington state forensic investigations council, in cooperation with the Washington association of coroners and medical examiners and other interested agencies, shall develop training modules that are essential to the effective implementation and use of missing persons protocols using funds provided in RCW 43.79.445. The training commission shall make the training modules available to small departments or those at remote locations with the least disruption. The modules shall include, but not be limited to: The reporting process, the use of forms and protocols, the effective use of resources, the collection and importance of evidence and preservation of biological evidence, and risk assessment of the individuals reported missing. [2007 c 10 § 2; 2006 c 102 § 3.]

Intent—2007 c 10: "It is the intent of this act to build upon the research and findings of the Washington state missing persons task force, assembled by the state attorney general in 2003, the United States department of justice, and the initiative taken in chapter 102, Laws of 2006, by the legislature to aid in recovery of missing persons and the identification of human remains." [2007 c 10 § 1.]

Finding—Intent—2006 c 102: See note following RCW 36.28A.100.

43.103.901 Effective date—1983 1st ex.s. c 16. This act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect July 1, 1983. [1983 1st ex.s. c 16 § 24.]

43.105.006 Consolidated technology services agency—Purpose. To achieve maximum benefit from advances in information technology the state establishes a centralized provider and procurer of certain information technology services as an agency to support the needs of state agencies. This agency shall be known as the consolidated technology services agency. To ensure maximum benefit to the state, state agencies shall rely on the consolidated technology services agency for those services with a business case of broad use, uniformity, scalability, and price sensitivity to aggregation and volume.

To successfully meet agency needs and meet its obligation as the primary service provider for these services, the consolidated technology services agency must offer high quality services at the lowest possible price. It must be able to attract an adaptable and competitive workforce, be authorized to procure services where the business case justifies it, and be accountable to its customers for the efficient and effective delivery of critical business services.

The consolidated technology services agency is established as an agency in state government. The agency is established with clear accountability to the agencies it serves and to the public. This accountability will come through enhanced transparency in the agency's operation and perfor-

mance. The agency is also established with broad flexibility to adapt its operations and service catalog to address the needs of customer agencies, and to do so in the most cost-effective ways. [2011 1st sp.s. c 43 § 801.]

Effective date—Purpose—2011 1st sp.s. c 43: See notes following RCW 43.19.003.

43.105.007 Purpose. Information technology is a tool used by state agencies to improve their ability to deliver public services efficiently and effectively. Advances in information technology, including advances in hardware, software, and business processes for implementing and managing these resources, offer new opportunities to improve the level of support provided to citizens and state agencies and to reduce the per-transaction cost of these services. These advances are one component in the process of reengineering how government delivers services to citizens.

To fully realize the service improvements and cost efficiency from the effective application of information technology to its business processes, state government must establish decision-making structures that connect business processes and information technology in an operating model. Many of these business practices transcend individual agency processes and should be worked at the enterprise level. To do this requires an effective partnership of executive management, business processes owners, and providers of support functions necessary to efficiently and effectively deliver services to citizens.

To maximize the potential for information technology to contribute to government business process reengineering, the state must establish clear central authority to plan, set enterprise policies and standards, and provide project oversight and management analysis of the various aspects of a business process.

Establishing a state chief information officer as the director of the consolidated technology services agency will provide state government with the cohesive structure necessary to develop improved operating models with agency directors and reengineer business process to enhance service delivery while capturing savings.

To achieve maximum benefit from advances in information technology, the state establishes a centralized provider and procurer of certain information technology services as an agency to support the needs of public agencies. This agency shall be known as the consolidated technology services agency. To ensure maximum benefit to the state, state agencies shall rely on the consolidated technology services agency for those services with a business case of broad use, uniformity, scalability, and price sensitivity to aggregation and volume.

To successfully meet public agency needs and meet its obligation as the primary service provider for these services, the consolidated technology services agency must offer high quality services at the best value. It must be able to attract an adaptable and competitive workforce, be authorized to procure services where the business case justifies it, and be accountable to its customers for the efficient and effective delivery of critical business services.

The consolidated technology services agency is established with clear accountability to the agencies it serves and to the public. This accountability will come through

enhanced transparency in the agency's operation and performance. The agency is also established with broad flexibility to adapt its operations and service catalog to address the needs of customer agencies, and to do so in the most cost-effective ways. 43.105.351 Electronic access to public records—Findings—Intent. Based upon the recommendations of the public information access policy task force, the legislature finds that government records and information are a vital resource to both government operations and to the public that government serves. Broad public access to state and local government records and information has potential for expanding citizen access to that information and for improving government services. Electronic methods for locating and transferring information can improve linkages between and among citizens, organizations, businesses, and governments. Information must be managed with great care to meet the objectives of citizens and their governments.

It is the intent of the legislature to encourage state and local governments to develop, store, and manage their public records and information in electronic formats to meet their missions and objectives. Further, it is the intent of the legislature for state and local governments to set priorities for making public records widely available electronically to the public. [1996 c 171 § 1. Formerly RCW 43.41A.115, 43.105.250.]

43.105.355 Electronic access to public records—Costs and fees. Funding to meet the costs of providing access, including the building of the necessary information systems, the digitizing of information, developing the ability to mask nondisclosable information, and maintenance and upgrade of information access systems should come primarily from state and local appropriations, federal dollars, grants, private funds, cooperative ventures among governments, nonexclusive licensing, and public/private partnerships.

State agencies and local governments are encouraged to pool resources and to form cooperative ventures to provide electronic access to government records and information. State agencies are encouraged to seek federal and private grants for projects that provide increased efficiency and improve government delivery of information and services. [2015 3rd sp.s. c 1 § 217; 1996 c 171 § 12. Formerly RCW 43.41A.130, 43.105.280.]

43.105.359 Electronic access to public records—Government information locator service pilot project. The state library, with the assistance of the office and the state archives, shall establish a pilot project to design and test an electronic information locator system, allowing members of the public to locate and access electronic public records. In designing the system, the following factors shall be considered: (1) Ease of operation by citizens; (2) access through multiple technologies, such as direct dial and toll-free numbers, kiosks, and the internet; (3) compatibility with private

online services; and (4) capability of expanding the electronic public records included in the system. The pilot project may restrict the type and quality of electronic public records that are included in the system to test the feasibility of making electronic public records and information widely available to the public. [2011 1st sp.s. c 43 § 724; 1996 c 171 § 13. Formerly RCW 43.41A.135, 43.105.290.]

43.105.365 Accuracy, integrity, and privacy of records and information. State agencies and local governments that collect and enter information concerning individuals into electronic records and information systems that will be widely accessible by the public under RCW 42.56.010 shall ensure the accuracy of this information to the extent possible. To the extent possible, information must be collected directly from, and with the consent of, the individual who is the subject of the data. State agencies shall establish procedures for correcting inaccurate information, including establishing mechanisms for individuals to review information about themselves and recommend changes in information they believe to be inaccurate. The inclusion of personal information in electronic public records that is widely available to the public should include information on the date when the database was created or most recently updated. If personally identifiable information is included in electronic public records that are made widely available to the public, state agencies must follow retention and archival schedules in accordance with chapter 40.14 RCW, retaining personally identifiable information only as long as needed to carry out the purpose for which it was collected. At least once every five years, each agency that collects information must review the information collected and justify why it is being collected and for what purpose. [2015 3rd sp.s. c 1 § 218; 2011 c 60 § 39; 1996 c 171 § 15. Formerly RCW 43.41A.140, 43.105.310.]

43.105.369 Office of privacy and data protection. (1) The office of privacy and data protection is created within the office of the state chief information officer. The purpose of the office of privacy and data protection is to serve as a central point of contact for state agencies on policy matters involving data privacy and data protection.

(2) The director shall appoint the chief privacy officer, who is the director of the office of privacy and data protection.

(3) The primary duties of the office of privacy and data protection with respect to state agencies are:

- (a) To conduct an annual privacy review;
- (b) To conduct an annual privacy training for state agencies and employees;
- (c) To articulate privacy principles and best practices;
- (d) To coordinate data protection in cooperation with the agency; and

(e) To participate with the office of the state chief information officer in the review of major state agency projects involving personally identifiable information.

(4) The office of privacy and data protection must serve as a resource to local governments and the public on data privacy and protection concerns by:

(a) Developing and promoting the dissemination of best practices for the collection and storage of personally identifiable information, including establishing and conducting a training program or programs for local governments; and

(b) Educating consumers about the use of personally identifiable information on mobile and digital networks and measures that can help protect this information.

(5) By December 1, 2016, and every four years thereafter, the office of privacy and data protection must prepare and submit to the legislature a report evaluating its performance. The office of privacy and data protection must establish performance measures in its 2016 report to the legislature and, in each report thereafter, demonstrate the extent to which performance results have been achieved. These performance measures must include, but are not limited to, the following:

(a) The number of state agencies and employees who have participated in the annual privacy training;

(b) A report on the extent of the office of privacy and data protection's coordination with international and national experts in the fields of data privacy, data protection, and access equity;

(c) A report on the implementation of data protection measures by state agencies attributable in whole or in part to the office of privacy and data protection's coordination of efforts; and

(d) A report on consumer education efforts, including but not limited to the number of consumers educated through public outreach efforts, as indicated by how frequently educational documents were accessed, the office of privacy and data protection's participation in outreach events, and inquiries received back from consumers via telephone or other media.

(6) Within one year of June 9, 2016, the office of privacy and data protection must submit to the joint legislative audit and review committee for review and comment the performance measures developed under subsection (5) of this section and a data collection plan.

(7) The office of privacy and data protection shall submit a report to the legislature on the: (a) Extent to which telecommunications providers in the state are deploying advanced telecommunications capability; and (b) existence of any inequality in access to advanced telecommunications infrastructure experienced by residents of tribal lands, rural areas, and economically distressed communities. The report may be submitted at a time within the discretion of the office of privacy and data protection, at least once every four years, and only to the extent the office of privacy and data protection is able to gather and present the information within existing resources. [2016 c 195 § 2.]

Findings—2016 c 195: "The legislature finds that the rapid expansion of digital technology and mobile networks is changing how citizens access and share personal data and communications. Data privacy, data protection, and access equity are of increasing concern for all residents of the state. State agencies and programs entrusted by citizens with sensitive personal information must serve as responsible custodians of this data. The state can also play an important role in educating local governments and consumers about mea-

tures that may help them protect this information and as an advocate for access equity. In an interconnected world, citizens who lack meaningful access to digital technology, including mobile networks and high-speed internet connections, lack the necessary tools for sharing in the state's technology, innovation, and economic development successes. For the forgoing reasons, the legislature finds that it is necessary and efficient to have a central point of contact for policy matters involving data privacy, data protection, and access equity." [2016 c 195 § 1.]

43.105.375 Use of state data center or commercial cloud computing services—Exceptions. (1) Except as provided by subsection (2) of this section, state agencies shall locate all existing and new information or telecommunications investments in the state data center or within third-party, commercial cloud computing services.

(2) State agencies with a service requirement that precludes them from complying with subsection (1) of this section must receive a waiver from the office. Waivers must be based upon written justification from the requesting state agency citing specific service or performance requirements for locating servers outside the state's common platform.

(3) The legislature and the judiciary, which are constitutionally recognized as separate branches of government, may enter into an interagency agreement with the office to migrate its servers into the state data center or third-party, commercial cloud computing services.

(5) [(4)] This section does not apply to institutions of higher education. [2021 c 40 § 3; 2015 3rd sp.s. c 1 § 219; 2011 1st sp.s. c 43 § 735. Formerly RCW 43.41A.150.]

Findings—Intent—2021 c 40: "(1) The legislature finds that the advent of the COVID-19 pandemic has increased the needs of the people of Washington for state services. From unemployment benefits to information on the incidence of disease in the state, Washingtonians have increasingly turned to state government for vital services and information.

(2) The legislature further finds that the state's information technology infrastructure is outdated and with insufficient capacity to handle the increased demand and has, in many cases, not been adequate to enable the state to provide the needed services effectively and efficiently.

(3) Therefore, the legislature intends to migrate the state's information technology toward cloud services, which will deliver the capacity, security, resiliency, disaster recovery capability, and data analytics necessary to allow the state to provide Washingtonians the services they require during this pandemic and in the future." 43.105.385 Agency as central service provider for state agencies. (1) The office shall conduct a needs assessment and develop a migration strategy to ensure that, over time, all state agencies are moving towards using the agency as their central service provider for all utility-based infrastructure services, including centralized PC and infrastructure support. State agency-specific application services shall remain managed within individual agencies.

(2) The office shall develop short-term and long-term objectives as part of the migration strategy.

(3) This section does not apply to institutions of higher education. [2015 3rd sp.s. c 1 § 220; 2011 1st sp.s. c 43 § 736. Formerly RCW 43.41A.152.]
