43.01.090 Departments to share occupancy costs—Capital projects surcharge. The director of enterprise services may assess a charge or rent against each state board, commission, agency, office, department, activity, or other occupant or user for payment of a proportionate share of costs for occupancy of buildings, structures, or facilities including but not limited to all costs of acquiring, constructing, operating, and maintaining such buildings, structures, or facilities

and the repair, remodeling, or furnishing thereof and for the rendering of any service or the furnishing or providing of any supplies, equipment, historic furnishings, or materials.

The director of enterprise services may recover the full costs including appropriate overhead charges of the foregoing by periodic billings as determined by the director including but not limited to transfers upon accounts and advancements into the enterprise services account. Charges related to the rendering of real estate services under RCW 43.82.010 and to the operation and maintenance of public and historic facilities at the state capitol, as defined in RCW 79.24.710, shall be allocated separately from other charges assessed under this section. Rates shall be established by the director of enterprise services after consultation with the director of financial management. The director of enterprise services may allot, provide, or furnish any of such facilities, structures, services, equipment, supplies, or materials to any other public service type occupant or user at such rates or charges as are equitable and reasonably reflect the actual costs of the services provided: PROVIDED, HOWEVER, That the legislature, its duly constituted committees, interim committees and other committees shall be exempted from the provisions of this section.

Upon receipt of such bill, each entity, occupant, or user shall cause a warrant or check in the amount thereof to be drawn in favor of the department of enterprise services which shall be deposited in the state treasury to the credit of the enterprise services account unless the director of financial management has authorized another method for payment of costs.

Beginning July 1, 1995, the director of enterprise services shall assess a capital projects surcharge upon each agency or other user occupying a facility owned and managed by the department of enterprise services in Thurston county, excluding state capitol public and historic facilities, as defined in RCW 79.24.710. The capital projects surcharge does not apply to agencies or users that agree to pay all future repairs, improvements, and renovations to the buildings they occupy and a proportional share, as determined by the office of financial management, of all other campus repairs, installations, improvements, and renovations that provide a benefit to the buildings they occupy or that have an agreement with the department of enterprise services that contains a charge for a similar purpose, including but not limited to RCW 43.01.091, in an amount greater than the capital projects surcharge. Beginning July 1, 2002, the capital projects surcharge does not apply to department of services for the blind vendors who operate cafeteria services in facilities owned and managed by the department of enterprise services; the department shall consider this space to be a common area for purposes of allocating the capital projects surcharge to other building tenants beginning July 1, 2003. The director, after consultation with the director of financial management, shall adopt differential capital project surcharge rates to reflect the differences in facility type and quality. The initial payment structure for this surcharge shall be one dollar per square foot per year. The surcharge shall increase over time to an amount that when combined with the facilities and service charge equals the market rate for similar types of lease space in the area or equals five dollars per square foot per year, whichever is less. The capital projects surcharge shall be in addition to other

charges assessed under this section. Proceeds from the capital projects surcharge shall be deposited into the Thurston county capital facilities account created in RCW 43.19.501. Findings—Purpose—1994 c 219: "The legislature finds that there is inequitable distribution among state programs of capital costs associated with maintaining and rehabilitating state facilities. The legislature finds that there are insufficient available resources to support even minor capital improvements other than debt financing. The legislature further finds that little attention is focused on efficient facility management because in many cases capital costs are not factored into the ongoing process of allocating state resources. The purpose of sections 16 through 18, chapter 219, Laws of 1994 is to create a mechanism to distribute capital costs among the agencies and programs occupying facilities owned and managed by the *department of general administration in Thurston county that will foster increased accountability for facility decisions and more efficient use of the facilities." 43.01.091 Departments to share debt service costs. It is hereby declared to be the policy of the state of Washington that each agency or other occupant of newly constructed or substantially renovated facilities owned and operated by the department of enterprise services in Thurston county shall proportionally share the debt service costs associated with the original construction or substantial renovation of the facility. Beginning July 1, 1995, each state agency or other occupant of a facility constructed or substantially renovated after July 1, 1992, and owned and operated by the department of enterprise services in Thurston county, shall be assessed a charge to pay the principal and interest payments on any bonds or other financial contract issued to finance the construction or renovation or an equivalent charge for similar projects financed by cash sources. In recognition that full payment of debt service costs may be higher than market rates for similar types of facilities or higher than existing agreements for similar charges entered into prior to June 9, 1994, the initial charge may be less than the full cost of principal and interest payments. The charge shall be assessed to all occupants of the facility on a proportional basis based on the amount of occupied space or any unique construction requirements. The office of financial management, in consultation with the department of enterprise services, shall develop procedures to implement this section and report to the legislative fiscal committees, by October 1994, their recommendations for implementing this section. The office of financial management shall separately identify in the budget document all payments and the documentation for determining the payments required by this section for each agency and fund source during the current and the two past and future fiscal biennia.

The charge authorized in this section is subject to annual audit by the state auditor. [2015 c 225 § 57; 1994 c 219 § 19.]

43.01.200 Facilitating recovery from Mt. St. Helens eruption—Legislative findings—Purpose. (1) The legislature finds that:

(a) The May 1980 eruption of Mount St. Helens has caused serious economic and physical damage to the land surrounding the mountain;

(b) There are continuing siltation problems which could severely affect the Toutle, Cowlitz, Coweeman, and Columbia rivers areas;

(c) There is an immediate need for sites for dredging, dredge spoils, flood control works, sediment retention, and

bank protection and funds for dredging, dredge sites, dredge spoils sites, flood control works, sediment retention sites, and bank protection and to continue the rehabilitation of the areas affected by the natural disaster; and

(d) Failure to dredge and dike along the rivers and failure to cooperate with the federal government in sediment retention would directly affect the lives and property of the forty-five thousand residents in the Cowlitz and Toutle River valleys with severe negative impacts on local, state, and national transportation systems, public utilities, public and private property, and the Columbia river which is one of the major navigation channels for worldwide commerce.

43.01.220 Commute trip reduction—Parking revenue—Definitions. The definitions in this section apply throughout this chapter.

(1) "Guaranteed ride home" means an assured ride home for commuters participating in a commute trip reduction program who are not able to use their normal commute mode because of personal emergencies.

(2) "Pledged" means parking revenue designated through any means, including moneys received from the natural resource building, which is used for the debt service payment of bonds issued for parking facilities. [1993 c 394 § 2.]

Finding—Purpose—1993 c 394: "The legislature finds that reducing the number of commute trips to work is an effective way of reducing automobile-related air pollution, traffic congestion, and energy use. The legislature intends that state agencies shall assume a leadership role in implementing programs to reduce vehicle miles traveled and single-occupant vehicle commuting, under RCW 70.94.521 through 70.94.551.

The legislature has established and directed an interagency task force to consider mechanisms for funding state agency commute trip reduction programs; and to consider and recommend policies for employee incentives for commuting by other than single-occupant vehicles, and policies for the use of state-owned vehicles.

It is the purpose of this act to provide state agencies with the authority to provide employee incentives, including subsidies for use of high occupancy vehicles to meet commute trip reduction goals, and to remove existing statutory barriers for state agencies to use public funds, including parking revenue, to operate, maintain, lease, or construct parking facilities at state-owned and leased facilities, to reduce parking subsidies, and to support commute trip reduction programs." [1993 c 394 § 1.]

43.01.225 Commute trip reduction—Parking revenue—State vehicle parking account. There is hereby established an account in the state treasury to be known as the "state vehicle parking account." All parking rental income resulting from parking fees established by the department of enterprise services under RCW 46.08.172 at state-owned or leased property shall be deposited in the "state vehicle parking account." Revenue deposited in the "state vehicle parking account" shall be first applied to pledged purposes. Unpledged parking revenues deposited in the "state vehicle parking account" may be used to:

(1) Pay costs incurred in the operation, maintenance, regulation, and enforcement of vehicle parking and parking facilities;

(2) Support the lease costs and/or capital investment costs of vehicle parking and parking facilities; and

(3) Support agency commute trip reduction programs under RCW 70A.15.4000 through 70A.15.4100. [2021 c 65 § 30; 2011 1st sp.s. c 43 § 253; 1995 c 215 § 2; 1993 c 394 § 5.]

43.01.240 State agency parking account—Parking rental fees—Employee parking, limitations. (1) There is hereby established an account in the state treasury to be known as the state agency parking account. All parking income collected from the fees imposed by state agencies on parking spaces at state-owned or leased facilities, including the capitol campus, shall be deposited in the state agency parking account. Only the office of financial management may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but no appropriation is required for expenditures. No agency may receive an allotment greater than the amount of revenue deposited into the state agency parking account.

(2) An agency may, as an element of the agency's commute trip reduction program to achieve the goals set forth in RCW 70A.15.4020, impose parking rental fees at state-owned and leased properties. These fees will be deposited in the state agency parking account. Each agency shall establish a committee to advise the agency director on parking rental fees, taking into account the market rate of comparable, privately owned rental parking in each region. The agency shall solicit representation of the employee population including, but not limited to, management, administrative staff, production workers, and state employee bargaining units. Funds shall be used by agencies to: (a) Support the agencies' commute trip reduction program under RCW 70A.15.4000 through 70A.15.4100; (b) support the agencies' parking program; or (c) support the lease or ownership costs for the agencies' parking facilities.

(3) In order to reduce the state's subsidization of employee parking, after July 1997 agencies shall not enter into leases for employee parking in excess of building code requirements, except as authorized by the director of enterprise services. In situations where there are fewer parking spaces than employees at a worksite, parking must be allocated equitably, with no special preference given to managers. (1) It is in the state's interest and to the benefit of the people of the state to encourage the use of electrical vehicles in order to reduce emissions and provide the public with cleaner air. This section expressly authorizes the purchase of power at state expense to recharge privately and publicly owned plug-in electrical vehicles at state office locations where the vehicles are used for state business, are commute vehicles, or where the vehicles are at the state location for the purpose of conducting business with the state.

(2) The director of the department of enterprise services may report to the governor and the appropriate committees of the legislature, as deemed necessary by the director, on the estimated amount of state-purchased electricity consumed by plug-in electrical vehicles if the director of enterprise services determines that the use has a significant cost to the state, and on the number of plug-in electric vehicles using state office locations. The report may be combined with the report under section 401, chapter 348, Laws of 2007. [2015 c 225 § 59; 2007 c 348 § 206.]

(2) All funds held by, or other moneys due to, the terminated entity shall revert to the fund from which they were appropriated, or if that fund is abolished to the general fund.

(3) All contractual rights and duties of an entity shall be assigned or delegated to the entity assuming the responsibilities of the terminated entity, or if there is none to such entity as the governor shall direct.

(4) All rules and all pending business before any terminated entity shall be continued and acted upon by the entity assuming the responsibilities of the terminated entity. [2015 c 225 § 60; 2010 1st sp.s. c 7 § 140.]

43.03.050 Subsistence, lodging and refreshment, and per diem allowance for officials, employees, and members of boards, commissions, or committees. (1) The director of financial management shall prescribe reasonable allowances to cover reasonable and necessary subsistence and lodging expenses for elective and appointive officials and state employees while engaged on official business away from

their designated posts of duty. The director of financial management may prescribe and regulate the allowances provided in lieu of subsistence and lodging expenses and may prescribe the conditions under which reimbursement for subsistence and lodging may be allowed. The schedule of allowances adopted by the office of financial management may include special allowances for foreign travel and other travel involving higher than usual costs for subsistence and lodging. The allowances established by the director shall not exceed the rates set by the federal government for federal employees. However, during the 2003-05 fiscal biennium, the allowances for any county that is part of a metropolitan statistical area, the largest city of which is in another state, shall equal the allowances prescribed for that larger city.

(2) Those persons appointed to serve without compensation on any state board, commission, or committee, if entitled to payment of travel expenses, shall be paid pursuant to special per diem rates prescribed in accordance with subsection (1) of this section by the office of financial management.

In order to prevent abuse, the director may regulate such allowances and prescribe additional conditions for claiming the allowances.

(4) Upon approval of the agency head or authorized designee, an agency may serve coffee or light refreshments at a meeting where: (a) The purpose of the meeting is to conduct state business or to provide formal training that benefits the state; and (b) the coffee or light refreshment is an integral part of the meeting or training session. The director of financial management shall adopt requirements necessary to prohibit abuse of the authority authorized in this subsection.

43.03.060 Mileage allowance. (1) Whenever it becomes necessary for elective or appointive officials or employees of the state to travel away from their designated posts of duty while engaged on official business, and it is found to be more advantageous or economical to the state that travel be by a privately-owned vehicle rather than a common carrier or a state-owned or operated vehicle, a mileage rate established by the director of financial management shall be allowed. The mileage rate established by the director shall not exceed any rate set by the United States treasury department above which the substantiation requirements specified in Treasury Department Regulations section 1.274-5T(a)(1), as now law or hereafter amended, will apply.

(2) The director of financial management may prescribe and regulate the specific mileage rate or other allowance for the use of privately-owned vehicles or common carriers on official business and the conditions under which reimbursement of transportation costs may be allowed. The reimbursement or other payment for transportation expenses of any employee or appointive official of the state shall be based on the method deemed most advantageous or economical to the state.

(3) The mileage rate established by the director of financial management pursuant to this section and any subsequent changes thereto shall be reported to the ways and means committees of the house of representatives and the senate at each regular session of the legislature.

Payments to suppliers for subsistence and lodging expenses of individuals in travel status shall not result in a cost to the state in excess of what would be payable by way of reimbursements to the individuals involved. 43.03.110 Moving expenses of employees. Whenever it is reasonably necessary to the successful performance of the required duty of a state office, commission, department or institution to transfer a deputy or other employee from one station to another within the state, thereby necessitating a change of such deputy's or employee's domicile, it shall be lawful for such office, commission, department or institution to move such deputy's or employee's household goods and effects to the new station at the expense of the state, or to defray the actual cost of such removal by common carrier, or otherwise, at the expense of the state, in which latter event reimbursement to the deputy or employee shall be upon voucher submitted by him or her and approved by the department head. [2009 c 549 § 5008; 1967 ex.s. c 16 § 1; 1965 c 8 § 43.03.110. Prior: 1943 c 128 § 1; Rem. Supp. 1943 § 9948-1.]

43.03.120 Moving expenses of new employees. Any state office, commission, department or institution may also pay the moving expenses of a new employee, necessitated by his or her acceptance of state employment, pursuant to mutual agreement with such employee in advance of his or her employment. Payment for all expenses authorized by RCW 43.03.060, 43.03.110 through 43.03.210 including moving expenses of new employees, exempt or classified, and others, shall be subject to reasonable rules adopted by the director of financial management, including regulations defining allowable moving costs: PROVIDED, That, if the new employee terminates or causes termination of his or her employment with the state within one year of the date of employment, the state shall be entitled to reimbursement for the moving costs which have been paid and may withhold such sum as necessary therefor from any amounts due the employee. [2011 1st sp.s. c 43 § 452; 2009 c 549 § 5009; 1979 c 151 § 86; 1967 ex.s. c 16 § 2.]

43.03.125 Relocation compensation for domiciliary moves. An agency may, within existing resources, authorize lump sum relocation compensation when it determines it is necessary to successfully recruit and retain qualified candidates who will have to make a domiciliary move in order to accept the position. It is lawful for a state office, commission, department, or institution to, within existing resources, authorize lump sum relocation compensation as authorized by rule under chapter 41.06 RCW and in accordance with the

provisions of chapter 43.88 RCW. If the person receiving the relocation payment terminates or causes termination with the state, for reasons other than layoff, disability separation, or other good cause as determined by an agency director, within one year of the date of the employment, the state is entitled to reimbursement of the lump sum compensation. [1999 c 297 § 2.]

Findings—1999 c 297: "The legislature finds that recruiting and retaining a highly qualified workforce is essential to deliver high quality public programs. One factor that impairs recruitment or transfer of public employees is the housing cost differential between the rural and urban areas of the state. This housing cost differential can cause state employees to decline promotional or transfer opportunities if the costs associated with such moves are not compensated.

Therefore, the legislature finds that it is in the interest of the citizens of the state of Washington to authorize an employing agency to offer assistance to state employees to relocate from one part of the state to another. This assistance is referred to as relocation compensation and is commonplace with private and federal government employers." [1999 c 297 § 1.]

43.03.130 Travel expenses of prospective employees.

Any state office, commission, department or institution may agree to pay the travel expenses of a prospective employee as an inducement for such applicant to travel to a designated place to be interviewed by and for the convenience of such agency. Travel expenses authorized for prospective employees called for interviews shall be payable at rates in accordance with RCW 43.03.050 and 43.03.060 as now existing or hereafter amended. When an applicant is called to be interviewed by or on behalf of more than one agency, the authorized travel expenses may be paid directly by the authorizing personnel department or agency, subject to reimbursement from the interviewing agencies on a pro rata basis.

In the case of both classified and exempt positions, such travel expenses will be paid only for applicants being considered for the positions of director, deputy director, assistant director, or supervisor of state departments, boards or commissions; or equivalent or higher positions; or engineers, or other personnel having both executive and professional status. In the case of the state investment board, such travel expenses may also be paid for applicants being considered for investment officer positions. In the case of four-year institutions of higher education, such travel expenses will be paid only for applicants being considered for academic positions above the rank of instructor or professional or administrative employees in supervisory positions. In the case of community and technical colleges, such travel expenses may be paid for applicants being considered for full-time faculty positions or administrative employees in supervisory positions. [2011 1st sp.s. c 43 § 453; 2000 c 153 § 1; 1993 c 93 § 1; 1975-'76 2nd ex.s. c 34 § 96; 1967 ex.s. c 16 § 3.]

43.03.150 Advance payment of travel expenses—Authorized. Whenever it becomes necessary for an elective or appointive official or employee of the state to travel and to incur expenses for which reimbursement may be made, it shall be the policy of the state to make reasonable allowances to such officers and employees in advance of expenditure, on request of such officer or employee, under appropriate rules

and regulations prescribed by the director of financial management. [1979 c 151 § 87; 1967 ex.s. c 16 § 6.]

43.03.160 Advance payment of travel expenses—"Department" defined. "Department", as used herein, shall mean every department, office, agency or institution of state government. [1967 ex.s. c 16 § 7.]

43.03.170 Advance payment of travel expenses—Advance warrants—Issuance—Limitations. The head of any state department may issue an advance warrant on the request of any officer or employee for the purpose of defraying his or her anticipated reimbursable expenses while traveling on business of such state department away from his or her designated post of duty, except expenses in connection with the use of a personal automobile. The amount of such advance shall not exceed the amount of such reasonably anticipated expenses of the officer or employee to be necessarily incurred in the course of such business of the state for a period of not to exceed ninety days. Department heads shall establish written policies prescribing a reasonable amount for which such warrants may be written. [2009 c 549 § 5010; 1979 ex.s. c 71 § 1; 1967 ex.s. c 16 § 8.]

43.03.180 Advance payment of travel expenses—Itemized travel expense voucher to be submitted—Repayment of unexpended portion of advance—Default. On or before the tenth day following each month in which such advance was furnished to the officer or employee, he or she shall submit to the head of his or her department a fully itemized travel expense voucher fully justifying the expenditure of such advance or whatever part thereof has been expended, for legally reimbursable items on behalf of the state. Any unexpended portion of such advance shall be returned to the agency at the close of the authorized travel period. Payment shall accompany such itemized voucher at the close of the travel period; and may be made by check or similar instrument payable to the department. Any default in accounting for or repaying an advance shall render the full amount which is unpaid immediately due and payable with interest at the rate of ten percent per annum from the date of default until paid. [2009 c 549 § 5011; 1967 ex.s. c 16 § 9.]

43.03.190 Advance payment of travel expenses—Lien against and right to withhold funds payable until proper accounting or repaying of advance made. To protect the state from any losses on account of advances made as provided in RCW 43.03.150 through 43.03.210, the state shall have a prior lien against and a right to withhold any and all funds payable or to become payable by the state to such officer or employee to whom such advance has been given as provided in RCW 43.03.150 through 43.03.210, up to the amount of such advance and interest at the rate of ten percent per annum, until such time as repayment or justification has been made. [1979 ex.s. c 71 § 2; 1967 ex.s. c 16 § 10.]

43.03.200 Advance payment of travel expenses—Advances construed. An advance made under RCW 43.03.150 through 43.03.210 shall be considered as having been made to such officer or employee to be expended by him or her as an agent of the state for state purposes only, and

specifically to defray necessary costs while performing his or her official duties. No such advance shall be considered for any purpose as a loan to such officer or employee, and any unauthorized expenditure of such funds shall be considered a misappropriation of state funds by a custodian of such funds. [2009 c 549 § 5012; 1967 ex.s. c 16 § 11.]

43.03.210 Advance payment of travel expenses—Director of financial management to prescribe rules and regulations to carry out RCW 43.03.150 through 43.03.210. The director of financial management may prescribe rules and regulations to assist in carrying out the purposes of RCW 43.03.150 through 43.03.210 including regulation of travel by officers and employees and the conditions under which per diem and mileage shall be paid, so as to improve efficiency and conserve funds and to insure proper use and accountability of travel advances strictly in the public interest and for public purposes only. [1979 c 151 § 88; 1967 ex.s. c 16 § 12.]

43.03.220 Compensation of members of part-time boards and commissions—Class one groups (as amended by 2011 c 5). (1) Any part-time board, commission, council, committee, or other similar group which is established by the executive, legislative, or judicial branch to participate in state government and which functions primarily in an advisory, coordinating, or planning capacity shall be identified as a class one group.

(3) Beginning July 1, 2010, through June 30, 2011, no person designated as a member of a class one board, commission, council, committee, or similar group may receive an allowance for subsistence, lodging, or travel expenses if the allowance cost is funded by the state general fund. Exceptions may be granted under section 605, chapter 3, Laws of 2010. Class one groups, when feasible, shall use an alternative means of conducting a meeting that does not require travel while still maximizing member and public participation and may use a meeting format that requires members to be physically present at one location only when necessary or required by law. Meetings that require a member's physical presence at one location must be held in state facilities whenever possible(~~and~~). Legislative findings—1984 c 287: "The legislature finds that members of part-time boards, commissions, councils, committees, and other similar groups established by the executive, legislative, or judicial branches of state government make a valuable contribution to the public welfare. This time and talent so generously donated to the state is gratefully acknowledged.

The legislature further finds that membership on certain part-time groups involves responsibility for major policy decisions and represents a significant demand on the time and resources of members. The demands and responsibilities are well beyond reasonable expectations of an individual's gratuitous contribution to the public welfare. It is therefore appropriate to provide compensation to members of specific qualifying groups and further to provide three levels of compensation based on the responsibilities of the group and the time required to perform the group's statutory duties." One member shall be selected from each congressional district. The secretary shall establish policies and procedures for conducting the selection by lot. The policies and procedures shall include, but not be limited to, those for notifying persons selected and for providing a new selection from a congressional district if a person selected from the district declines appointment to the commission or if, following the person's appointment, the person's position on the commission becomes vacant before the end of the person's term of office.

(2) The remaining seven of the sixteen commission members, all residents of this state, shall be selected jointly by the speaker of the house of representatives and the president of the senate. 43.04.010 Legislative findings. The legislature finds that the seal of the state of Washington is a symbol of the authority and sovereignty of the state and is a valuable asset of its people. It is the intent of the legislature to ensure that appropriate uses are made of the state seal and to assist the secretary of state in the performance of the secretary's constitutional duty as custodian of the seal. [1988 c 120 § 1.]

43.04.020 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "State seal" means the seal of the state as described in Article XVIII, section 1 of the state Constitution and in RCW 1.20.080.

(2) "Secretary" means the secretary of state and any designee of the secretary of state. [1988 c 120 § 2.]

43.04.030 Use of state seal—Official purposes. Except as otherwise provided in this chapter, the state seal shall be used for official purposes only. [1988 c 120 § 3.]

43.04.040 Use of state seal—Commemorative and souvenir items—Historical, educational, and civic purposes—Application—Fee—Licensing agreements—Rules. (1) The secretary of state may authorize the use of the state seal on commemorative and souvenir items, and for historical, educational, and civic purposes. Such authorization shall be in writing.

(2) Application for such authorization shall be in writing and shall be accompanied by a filing fee, the amount of which shall be determined by the secretary of state. The secretary shall set the fee at a level adequate to cover the administrative costs of processing the applications.

(3) If the secretary determines that a permitted use of the seal could financially benefit the state, the secretary may condition authorization upon a licensing agreement to secure those benefits for the state.

(4) The secretary of state shall adopt rules under chapter 34.05 RCW to govern the use of the seal in a manner consistent with this chapter. Any rule governing the use of the seal

shall be designed to prevent inappropriate or misleading use of the seal and to assure tasteful and high quality reproduction of the seal. The rules shall also prescribe the circumstances when a licensing arrangement shall be required and the method for determining licensing fees. [1988 c 120 § 4.]

43.04.050 Use of state seal—Prohibitions—Imitations. (1) Except as otherwise provided in RCW 43.04.040, the state seal shall not be used on or in connection with any advertising or promotion for any product, business, organization, service, or article whether offered for sale for profit or offered without charge.

(2) The state seal shall never be used in a political campaign to assist or defeat any candidate for elective office.

(3) It is a violation of this chapter to use any symbol that imitates the seal or that is deceptively similar in appearance to the seal, in any manner that would be an improper use of the official seal itself.

(4) Nothing in this chapter shall prohibit the reproduction of the state seal for illustrative purposes by the news media if the reproduction by the news media is incidental to the publication or the broadcast. Nothing in this chapter shall prohibit a characterization of the state seal from being used in political cartoons. [1988 c 120 § 5.]

43.04.060 Endorsements prohibited. No use of the state seal may operate or be construed to operate in any way as an endorsement of any business, organization, product, service, or article. [1988 c 120 § 6.]

43.04.070 Civil penalties—Injunctions. Any person who violates RCW 43.04.050 (1) or (3) by using the state seal or an imitative or deceptively similar seal on or in connection with any product, business, organization, service, or article shall be liable for damages in a suit brought by the attorney general. The damages shall be equal to the gross monetary amount gained by the misuse of the state seal or the use of the imitative or deceptively similar seal, plus attorney's fees and other costs of the state in bringing the suit. The "gross monetary amount" is the total of the gross receipts that can be reasonably attributed to the misuse of the seal or the use of an imitative or deceptively similar seal. In addition to the damages, the violator is subject to a civil penalty imposed by the court in an amount not to exceed five thousand dollars. In imposing this penalty, the court shall consider the need to deter further violations of this chapter.

The attorney general may seek and shall be granted such injunctive relief as is appropriate to stop or prevent violations of this chapter. [1988 c 120 § 7.]

43.04.080 Investigations—Enforcement. The secretary of state shall conduct investigations for violations of this chapter and may request enforcement by the attorney general. [1988 c 120 § 8.]

43.04.090 Criminal penalty. Any person who wilfully violates this chapter is guilty of a misdemeanor. [1988 c 120 § 9.]

43.04.100 Deposit of fees, penalties, and damages—Use. All fees, penalties, and damages received under this

chapter shall be paid to the secretary of state and with the exception of the filing fee authorized in RCW 43.04.040(2) shall be deposited by the secretary into the capitol furnishings preservation committee account created in RCW 27.48.040. [2007 c 453 § 4; 1988 c 120 § 10.]

43.05.005 Findings. The legislature finds that, due to the volume and complexity of laws and rules it is appropriate for regulatory agencies to adopt programs and policies that encourage voluntary compliance by those affected by specific rules. The legislature recognizes that a cooperative partnership between agencies and regulated parties that emphasizes education and assistance before the imposition of penalties will achieve greater compliance with laws and rules and that most individuals and businesses who are subject to regulation will attempt to comply with the law, particularly if they are given sufficient information. In this context, enforcement should assure that the majority of a regulated community that complies with the law are not placed at a competitive disadvantage and that a continuing failure to comply that is within the control of a party who has received technical assistance is considered by an agency when it determines the amount of any civil penalty that is issued. [1995 c 403 § 601.]

43.05.010 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Civil penalty" means a monetary penalty administratively issued by a regulatory agency for noncompliance with state or federal law or rules. The term does not include any criminal penalty, damage assessments, wages, premiums, or taxes owed, or interest or late fees on any existing obligation.

(2) "Regulatory agency" means an agency as defined in RCW 34.05.010 that has the authority to issue civil penalties. The term does not include the state patrol or any institution of higher education as defined in RCW 28B.10.016.

(3) "Technical assistance" includes:

(a) Information on the laws, rules, and compliance methods and technologies applicable to the regulatory agency's programs;

(b) Information on methods to avoid compliance problems;

(c) Assistance in applying for permits; and

(d) Information on the mission, goals, and objectives of the program.

(4) "Technical assistance documents" means documents prepared to provide information specified in subsection (3) of this section entitled a technical assistance document by the agency head or its designee. Technical assistance documents do not include notices of correction, violation, or enforcement action. Technical assistance documents do not impose mandatory obligations or serve as the basis for a citation. [1999 c 236 § 1; 1995 c 403 § 602.]

43.05.020 Agency programs—List of technical assistance providers. All regulatory agencies shall develop programs to encourage voluntary compliance by providing technical assistance consistent with statutory requirements. The programs shall include but are not limited to technical assistance visits, printed information, information and assistance by telephone, training meetings, and other appropriate methods to provide technical assistance. In addition, all regulatory agencies shall provide upon request a list of organizations, including private companies, that provide technical assistance. This list shall be compiled by the agencies from information submitted by the organizations and shall not constitute an endorsement by an agency of any organization. [1995 c 403 § 603.]

43.05.030 Technical assistance visit—Notice of violation. (1) For the purposes of this chapter, a technical assistance visit is a visit by a regulatory agency to a facility, business, or other location that:

(a) Has been requested or is voluntarily accepted; and

(b) Is declared by the regulatory agency at the beginning of the visit to be a technical assistance visit.

(2) A technical assistance visit also includes a consultative visit pursuant to RCW 49.17.250.

(3) During a technical assistance visit, or within a reasonable time thereafter, a regulatory agency shall inform the owner or operator of the facility of any violations of law or agency rules identified by the agency as follows:

(a) A description of the condition that is not in compliance and the text of the specific section or subsection of the applicable state or federal law or rule;

(b) A statement of what is required to achieve compliance;

(c) The date by which the agency requires compliance to be achieved;

(d) Notice of the means to contact any technical assistance services provided by the agency or others; and

(e) Notice of when, where, and to whom a request to extend the time to achieve compliance for good cause may be filed with the agency. [1996 c 206 § 2; 1995 c 403 § 604.]

Findings—1996 c 206: "The legislature finds that many individuals and small businesses who are required to comply with laws and agency rules often do not have access to the Revised Code of Washington, the Washing-

ton Administrative Code, the United States Code, or the Code of Federal Regulations. In this case, those informed of violations do not know whether, or to what extent, the cited law or agency rule actually applies to their situation. In order to facilitate greater understanding of the law and agency rules, the legislature finds that those who make the effort to obtain technical assistance from a regulatory agency, and those who are issued a notice of correction, should be given the text of the specific section or subsection of the law or agency rule they are alleged to have violated." [1996 c 206 § 1.]

43.05.040 Time to correct violations—Revisit—Issuance of penalties. (1) The owner and operator shall be given a reasonable period of time to correct violations identified during a technical assistance visit before any civil penalty provided for by law is imposed for those violations. A regulatory agency may revisit a facility, business, or other location after a technical assistance visit and a reasonable period of time has passed to correct violations identified by the agency in writing and issue civil penalties as provided for by law for any uncorrected violations.

(2) During a visit under subsection (1) of this section, the regulatory agency may not issue civil penalties for violations not previously identified in a technical assistance visit, unless the violations are of the type for which the agency may issue a citation: (a) During a technical assistance visit under RCW 43.05.050; or (b) under RCW 43.05.090. [2001 c 190 § 1; 1995 c 403 § 605.]

43.05.050 Issuance of penalty during technical assistance visit. A regulatory agency that observes a violation during a technical assistance visit may issue a civil penalty as provided for by law if: (1) The individual or business has previously been subject to an enforcement action for the same or similar type of violation of the same statute or rule or has been given previous notice of the same or similar type of violation of the same statute or rule; or (2) the issue involves sales taxes due to the state and the individual or business is not remitting previously collected sales taxes to the state; or (3) the violation has a probability of placing a person in danger of death or bodily harm, has a probability of causing more than minor environmental harm, or has a probability of causing physical damage to the property of another in an amount exceeding one thousand dollars. [1995 c 403 § 606.]

43.05.060 Department of ecology—Notice of correction. (1) If in the course of any site inspection or visit that is not a technical assistance visit, the department of ecology becomes aware of conditions that are not in compliance with applicable laws and rules enforced by the department and are not subject to civil penalties as provided for in RCW 43.05.070, the department may issue a notice of correction to the responsible party that shall include:

(a) A description of the condition that is not in compliance and the text of the specific section or subsection of the applicable state or federal law or rule;

(b) A statement of what is required to achieve compliance;

(c) The date by which the department requires compliance to be achieved;

(d) Notice of the means to contact any technical assistance services provided by the department or others; and

(e) Notice of when, where, and to whom a request to extend the time to achieve compliance for good cause may be filed with the department.

(2) A notice of correction is not a formal enforcement action, is not subject to appeal, and is a public record.

(3) If the department issues a notice of correction, it shall not issue a civil penalty for the violations identified in the notice of correction unless the responsible party fails to comply with the notice. [1996 c 206 § 3; 1995 c 403 § 607.]

Findings—1996 c 206: See note following RCW 43.05.030.

43.05.070 Department of ecology—Penalty. The department of ecology may issue a civil penalty provided for by law without first issuing a notice of correction if: (1) The person has previously been subject to an enforcement action for the same or similar type of violation of the same statute or rule or has been given previous notice of the same or similar type of violation of the same statute or rule; or (2) compliance is not achieved by the date established by the department in a previously issued notice of correction, if the department has responded to any request for review of such date by reaffirming the original date or establishing a new date; or (3) the violation has a probability of placing a person in danger of death or bodily harm, has a probability of causing more than minor environmental harm, or has a probability of causing physical damage to the property of another in an amount exceeding one thousand dollars. [1995 c 403 § 608.]

43.05.080 Application of RCW 43.05.060 and 43.05.070—Limited. The provisions of RCW 43.05.060 and 43.05.070 affecting civil penalties issued by the department of ecology shall not apply to civil penalties for negligent discharge of oil as authorized under RCW 90.56.330 or to civil penalties as authorized under RCW 90.03.600 for unlawful use of water in violation of RCW 90.03.250 or 90.44.050. [1995 c 403 § 609.]

43.05.090 Department of labor and industries—Consultative visit, report—Compliance inspection, citation. (1) Following a consultative visit pursuant to RCW 49.17.250, the department of labor and industries shall issue a report to the employer that the employer shall make available to its employees. The report shall contain:

(a) A description of the condition that is not in compliance and the text of the specific section or subsection of the applicable state or federal law or rule;

(b) A statement of what is required to achieve compliance;

(c) The date by which the department requires compliance to be achieved;

(d) Notice of means to contact technical assistance services provided by the department; and

(e) Notice of when, where, and to whom a request to extend the time to achieve compliance for good cause may be filed with the department.

(2) Following a compliance inspection pursuant to RCW 49.17.120, the department of labor and industries shall issue a citation for violations of industrial safety and health standards. The citation shall not assess a penalty if the violations:

(a) Are determined not to be of a serious nature;

(b) Have not been previously cited;

(c) Are not willful; and

(d) Do not have a mandatory penalty under chapter 49.17 RCW. [1996 c 206 § 4; 1995 c 403 § 610.]

Findings—1996 c 206: See note following RCW 43.05.030.

43.05.100 Departments of agriculture, fish and wildlife, health, licensing, natural resources—Notice of correction. (1) If in the course of any inspection or visit that is not a technical assistance visit, the department of agriculture, fish and wildlife, health, licensing, or natural resources becomes aware of conditions that are not in compliance with applicable laws and rules enforced by the department and are not subject to civil penalties as provided for in RCW 43.05.110, the department may issue a notice of correction to the responsible party that shall include:

(a) A description of the condition that is not in compliance and the text of the specific section or subsection of the applicable state or federal law or rule;

(b) A statement of what is required to achieve compliance;

(c) The date by which the department requires compliance to be achieved;

(d) Notice of the means to contact any technical assistance services provided by the department or others; and

(e) Notice of when, where, and to whom a request to extend the time to achieve compliance for good cause may be filed with the department.

(2) A notice of correction is not a formal enforcement action, is not subject to appeal, and is a public record.

(3) If the department issues a notice of correction, it shall not issue a civil penalty for the violations identified in the notice of correction unless the responsible party fails to comply with the notice. [1996 c 206 § 5; 1995 c 403 § 611.]

Findings—1996 c 206: See note following RCW 43.05.030.

43.05.110 Departments of agriculture, fish and wildlife, health, licensing, natural resources—Penalty. The department of agriculture, fish and wildlife, health, licensing, or natural resources may issue a civil penalty provided for by law without first issuing a notice of correction if: (1) The person has previously been subject to an enforcement action for the same or similar type of violation of the same statute or rule or has been given previous notice of the same or similar type of violation of the same statute or rule; or (2) compliance is not achieved by the date established by the department in a previously issued notice of correction, if the department has responded to any request for review of such date by reaffirming the original date or establishing a new date; [or] (3) the violation has a probability of placing a person in danger of death or bodily harm, has a probability of causing more than minor environmental harm, or has a probability of causing physical damage to the property of another in an amount exceeding one thousand dollars; or (4) the violation was committed by a business that employed fifty or more employees on at least one day in each of the preceding twelve months. In addition, the department of fish and wildlife may issue a civil penalty provided for by law without first issuing a notice of correction for a violation of any rule dealing with seasons, catch or bag limits, gear types, or geographical areas for fish or wildlife removal, reporting, or disposal.

(2021 Ed.)

This section does not apply to the civil penalties imposed under *RCW 82.38.170(13). [1998 c 176 § 84; 1995 c 403 § 612.]

***Reviser's note:** RCW 82.38.170 was amended by 2013 c 225 § 118, deleting subsection (13), effective July 1, 2016.

43.05.120 Time for compliance—Extension. The date for compliance established by the department of ecology, labor and industries, agriculture, fish and wildlife, health, licensing, or natural resources pursuant to RCW 43.05.060, 43.05.090, or 43.05.100 respectively shall provide for a reasonable time to achieve compliance. Any person receiving a notice of correction pursuant to RCW 43.05.060 or 43.05.100 or a report or citation pursuant to RCW 43.05.090 may request an extension of time to achieve compliance for good cause from the issuing department. Requests shall be submitted to the issuing department and responded to by the issuing department in writing in accordance with procedures specified by the issuing department in the notice, report, or citation. [1995 c 403 § 613.]

43.05.130 Educational programs. The departments of revenue and labor and industries and the employment security department shall undertake an educational program directed at those who have the most difficulty in determining their tax or premium liability. The departments may rely on information from internal data, trade associations, and businesses to determine which entities should be selected. The educational programs may include, but not be limited to, targeted informational fact sheets, self-audits, or workshops, and may be presented individually by the agency or in conjunction with other agencies. [1995 c 403 § 614.]

43.05.140 Pilot voluntary audit program. The department of revenue, the department of labor and industries in respect to its duties in Title 51 RCW, and the employment security department shall develop and administer a pilot voluntary audit program. Voluntary audits can be requested by businesses from any of these agencies according to guidelines established by each agency. No penalty assessments may be made against participants in such a program except when the agency determines that either a good faith effort has not been made by the taxpayer or premium payer to comply with the law or that the taxpayer has failed to remit previously collected sales taxes to the state. The persons conducting the voluntary audit shall provide the business undergoing the voluntary audit an audit report that describes errors or omissions found and future reporting instructions. This program does not relieve a business from past or future tax or premium obligations. [1995 c 403 § 615.]

43.05.150 Agency immunity—Enforcement authority. Nothing in this chapter obligates a regulatory agency to conduct a technical assistance visit. The state and officers or employees of the state shall not be liable for damages to a person to the extent that liability is asserted to arise from providing technical assistance, or if liability is asserted to arise from the failure of the state or officers or employees of the state to provide technical assistance. This chapter does not limit the authority of any regulatory agency to take any enforcement action, other than a civil penalty, authorized by

law. This chapter shall not limit a regulatory agency's authority to issue a civil penalty as authorized by law based upon a person's failure to comply with specific terms and conditions of any permit or license issued by the agency to that person. [1995 c 403 § 617.]

43.05.160 Liquor and cannabis board—Notice of correction. (1) If, during an inspection or visit to a marijuana business licensed under chapter 69.50 RCW that is not a technical assistance visit, the liquor and cannabis board becomes aware of conditions that are not in compliance with applicable laws and rules enforced by the board and are not subject to civil penalties as provided for in RCW 69.50.563, the board may issue a notice of correction to the licensee that includes:

(a) A description of the condition that is not in compliance and the text of the specific section or subsection of the applicable state law or rule;

(b) A statement of what is required to achieve compliance;

(c) The date by which the board requires compliance to be achieved;

(d) Notice of the means to contact any technical assistance services provided by the board or others; and

(e) Notice of when, where, and to whom a request to extend the time to achieve compliance for good cause may be filed with the board.

(2) A notice of correction is not a formal enforcement action, is not subject to appeal, and is a public record.

(3) If the liquor and cannabis board issues a notice of correction, it may not issue a civil penalty for the violations identified in the notice of correction unless the licensee fails to comply with the notice. [2019 c 394 § 2.]

Findings—2019 c 394: See note following RCW 69.50.563.

43.05.901 Conflict with federal requirements. If a regulatory agency determines any part of this chapter to be in conflict with federal law or program requirements, in conflict with federal requirements that are a prescribed condition to the allocation of federal funds to the state, or in conflict with the requirements for eligibility of employers in this state for federal unemployment tax credits, the conflicting part of this chapter shall be inoperative solely to the extent of the conflict. Any rules under this chapter shall meet federal requirements that are a necessary condition to the receipt of federal funds by the state or the granting of federal unemployment tax credits to employers in this state. [1995 c 403 § 619.]

43.05.902 Resolution of conflict with federal requirements—Notification. If notified by responsible federal officials of any conflict of this chapter with federal law or program requirements or with federal requirements that are a prescribed condition to the allocation of federal funds to the state, the regulatory agency notified of the conflict shall actively seek to resolve the conflict. If the agency determines that the conflict cannot be resolved without loss of benefits or authority to the state, the agency shall notify the governor, the president of the senate, and the speaker of the house of representatives in writing within thirty days of making that determination. [1995 c 403 § 620.]

43.05.905 Findings—Short title—Intent—1995 c 403. See note following RCW 34.05.328.

43.06.115 Militarily impacted area—Declaration by governor. (1) The governor may, by executive order, after consultation with or notification of the executive-legislative committee on economic development created by *chapter . . . (Senate Bill No. 5300), Laws of 1993, declare a community to be a "militarily impacted area." A "militarily impacted area" means a community or communities, as identified in the executive order, that experience serious social and economic

hardships because of a change in defense spending by the federal government in that community or communities.

(2) If the governor executes an order under subsection (1) of this section, the governor shall establish a response team to coordinate state efforts to assist the military impacted community. The response team may include, but not be limited to, one member from each of the following agencies: (a) The department of commerce; (b) the department of social and health services; (c) the employment security department; (d) the state board for community and technical colleges; (e) the student achievement council; and (f) the department of transportation. The governor may appoint a response team coordinator. The governor shall seek to actively involve the impacted community or communities in planning and implementing a response to the crisis. The governor may seek input or assistance from the community diversification advisory committee, and the governor may establish task forces in the community or communities to assist in the coordination and delivery of services to the local community. *Reviser's note: Senate Bill No. 5300 was vetoed.

Effective date—2012 c 229 §§ 101, 117, 401, 402, 501 through 594, 601 through 609, 701 through 708, 801 through 821, 902, and 904: See note following RCW 28B.77.005.

Findings—Intent—Part headings not law—Effective date—1996 c 186: See notes following RCW 43.330.904.

Finding—Intent—1993 c 421: "The legislature finds that military base expansions, closures, and defense procurement contract cancellations may have extreme economic impacts on communities and firms. The legislature began to address this concern in 1990 by establishing the community diversification program in the department of community development. While this program has helped military dependent communities begin the long road to diversification, base expansions or closures or major procurement contract reductions in the near future will find these communities unable to respond adequately, endangering the health, safety, and welfare of the community. The legislature intends to target emergency state assistance to military dependent communities significantly impacted by defense spending. The emergency state assistance and the long-term strategy should be driven by the impacted community and consistent with the state plan for diversification required under RCW 43.63A.450(4)." [1993 c 421 § 1.]

43.06.120 Federal funds and programs—Acceptance of funds by governor authorized—Administration and disbursement. The governor is authorized to accept on behalf of the state of Washington funds provided by any act of congress for the benefit of the state or its political subdivisions. He or she is further authorized to administer and disburse such funds, or to designate an agency to administer and disburse them, until the legislature otherwise directs. [2009 c 549 § 5021; 1967 ex.s. c 41 § 1.]

43.06.130 Federal funds and programs—Payment of travel expenses of committees, councils, or other bodies. Members of advisory committees, councils, or other bodies established to meet requirements of acts of congress may be paid travel expenses incurred pursuant to RCW 43.03.050 and 43.03.060 as now existing or hereafter amended from such funds as may be available by legislative appropriation or as may otherwise be available as provided by law. 43.06.155 Health care reform deliberations—Principles—Policies. (1) The following principles shall provide guidance to the state of Washington in its health care reform deliberations:

(a) **Guarantee choice.** Provide the people of Washington state with a choice of health plans and physicians, including health plans offered through the private insurance market and public programs, for those who meet eligibility standards. People will be allowed to keep their own doctor and their employer-based health plan.

(b) **Make health coverage affordable.** Reduce waste and fraud, high administrative costs, unnecessary tests and services, and other inefficiencies that drive up costs with no added health benefits.

(c) **Protect families' financial health.** Reduce the growing premiums and other costs that the people of Washington state pay for health care. People must be protected from bankruptcy due to catastrophic illness.

(d) **Invest in prevention and wellness.** Invest in public health measures proven to reduce cost drivers in our system, such as obesity, sedentary lifestyles, and smoking, as well as guarantee access to proven preventive treatments.

(e) **Provide portability of coverage.** People should not be locked into their job just to secure health coverage, and no American should be denied coverage because of preexisting conditions.

(f) **Aim for universality.** Building on the work of the blue ribbon commission and other state health care reform initiatives and recognizing the current economic climate, the state will partner with national health care reform efforts toward a goal of enabling all Washingtonians to have access to affordable, effective health care by 2014 as economic conditions and national reforms indicate.

(g) **Improve patient safety and quality care.** Ensure the implementation of proven patient safety measures and provide incentives for changes in the delivery system to reduce unnecessary variability in patient care. Support the widespread use of health information technology with rigorous privacy protections and the development of data on the effectiveness of medical interventions to improve the quality of care delivered.

(h) **Maintain long-term fiscal sustainability.** Any reform plan must pay for itself by reducing the level of cost growth, improving productivity, dedicating additional sources of revenue, and defining the appropriate role of the private and public sectors in financing health care coverage in Washington state.

(2) Over the past twenty years, both the private and public health care sectors in the state of Washington have implemented policies that are consistent with the principles in subsection (1) of this section. Most recently, the governor's blue ribbon commission on health reform agreed to recommendations that are highly consistent with those principles. Current

policies in Washington state in accord with those principles include:

(a) With respect to aiming for universality and access to a choice of affordable health care plans and health care providers:

(i) The Washington basic health plan offers affordable health coverage to low-income families and individuals in Washington state through a choice of private managed health care plans and health care providers;

(ii) Apple health for kids will achieve its dual goals that every child in Washington state have health care coverage by 2010 and that the health status of children in Washington state be improved. Only four percent of children in Washington state lack health insurance, due largely to efforts to expand coverage that began in 1993;

(iii) Through the health insurance partnership program, Washington state has designed the infrastructure for a health insurance exchange for small employers that would give employers and employees a choice of private health benefit plans and health care providers, offer portability of coverage and provide a mechanism to offer premium subsidies to low-wage employees of these employers;

(iv) Purchasers, insurance carriers, and health care providers are working together to significantly reduce health care administrative costs. These efforts have already produced efficiencies, and will continue through the activities provided in *Second Substitute Senate Bill No. 5346, if enacted by the 2009 legislature; and

(v) Over one hundred thousand Washingtonians have enrolled in the state's discount prescription drug card program, saving consumers over six million dollars in prescription drug costs since February 2007, with an average discount of twenty-two dollars or forty-three percent of the price of each prescription filled.

(b) With respect to improving patient safety and quality of care and investing in prevention and wellness, the public and private health care sectors are engaged in numerous nationally recognized efforts:

(i) The Puget Sound health alliance is a national leader in identifying evidence-based health care practices, and reporting to the public on health care provider performance with respect to these practices. Many of these practices address disease prevention and management of chronic illness;

(ii) The Washington state health technology assessment program and prescription drug program use medical evidence and independent clinical advisors to guide the purchasing of clinically and cost-effective health care services by state purchased health care programs;

(iii) Washington state's health record bank pilot projects are testing a new model of patient controlled electronic health records in three geographic regions of the state. The state has also provided grants to a number of small provider practices to help them implement electronic health records;

(iv) Efforts are underway to ensure that the people of Washington state have a medical home, with primary care providers able to understand their needs, meet their care needs effectively, better manage their chronic illnesses, and coordinate their care across the health care system. These efforts include group health cooperative of Puget Sound's medical home projects, care collaboratives sponsored by the state department of health, state agency chronic care manage-

ment pilot projects, development of apple health for kids health improvement measures as indicators of children having a medical home, and implementation of medical home reimbursement pilot projects under **Substitute Senate Bill No. 5891, if enacted by the 2009 legislature; and

(v) Health care providers, purchasers, the state, and private quality improvement organizations are partnering to undertake numerous patient safety efforts, including hospital and ambulatory surgery center adverse events reporting, with root cause analysis to identify actions to be undertaken to prevent further adverse events; reporting of hospital acquired infections and undertaking efforts to reduce the rate of these infections; developing a surgical care outcomes assessment program that includes a presurgery checklist to reduce medical errors; and developing a patient decision aid pilot to more fully inform patients of the risks and benefits of treatment alternatives, decrease unnecessary procedures and variation in care, and provide increased legal protection to physicians whose patients use a patient decision aid to provide informed consent. [2009 c 545 § 2.]

Reviser's note: *(1) Second Substitute Senate Bill No. 5346 became chapter 298, Laws of 2009.

***(2) Substitute Senate Bill No. 5891 became chapter 305, Laws of 2009.

Findings—2009 c 545: "The legislature finds that the principles for health care reform articulated by the president of the United States in his proposed federal fiscal year 2010 budget to the congress of the United States provide an opportunity for the state of Washington to be both a partner with, and a model for, the federal government in its health care reform efforts. The legislature further finds that the recommendations of the 2007 blue ribbon commission on health care costs and access are consistent with these principles." [2009 c 545 § 1.]

43.06.200 Definitions. Unless a different meaning is plainly required by the context, the following words and phrases as hereinafter used in RCW 43.06.010, and 43.06.200 through 43.06.270 each as now or hereafter amended shall have the following meaning:

"State of emergency" means an emergency proclaimed as such by the governor pursuant to RCW 43.06.010 as now or hereafter amended.

43.06.210 Proclamations—Generally—State of emergency. A proclamation of a state of emergency is effective upon the governor's signature. The governor shall give as

much public notice as practical through the news media of the issuance of proclamations or orders pursuant to RCW 43.06.010, and 43.06.200 through 43.06.270 as now or hereafter amended. The state of emergency shall cease to exist upon the issuance of a proclamation of the governor declaring its termination: PROVIDED, That the governor must terminate said state of emergency proclamation when order has been restored in the area affected. 43.06.220 State of emergency—Powers of governor pursuant to proclamation. (1) The governor after proclaiming a state of emergency and prior to terminating such, may, in the area described by the proclamation issue an order prohibiting:

(a) Any person being on the public streets, or in the public parks, or at any other public place during the hours declared by the governor to be a period of curfew;

(b) Any number of persons, as designated by the governor, from assembling or gathering on the public streets, parks, or other open areas of this state, either public or private;

(c) The manufacture, transfer, use, possession or transportation of a molotov cocktail or any other device, instrument or object designed to explode or produce uncontained combustion;

(d) The transporting, possessing or using of gasoline, kerosene, or combustible, flammable, or explosive liquids or materials in a glass or uncapped container of any kind except in connection with the normal operation of motor vehicles, normal home use or legitimate commercial use;

(e) The sale, purchase or dispensing of alcoholic beverages;

(f) The sale, purchase or dispensing of other commodities or goods, as he or she reasonably believes should be prohibited to help preserve and maintain life, health, property or the public peace;

(g) The use of certain streets, highways or public ways by the public; and

(h) Such other activities as he or she reasonably believes should be prohibited to help preserve and maintain life, health, property or the public peace.

(2) The governor after proclaiming a state of emergency and prior to terminating such may, in the area described by the proclamation, issue an order or orders concerning waiver or suspension of statutory obligations or limitations in the following areas:

(a) Liability for participation in interlocal agreements;

(b) Inspection fees owed to the department of labor and industries;

(c) Application of the family emergency assistance program;

(d) Regulations, tariffs, and notice requirements under the jurisdiction of the utilities and transportation commission;

(e) Application of tax due dates and penalties relating to collection of taxes;

(f) Permits for industrial, business, or medical uses of alcohol; and

(g) Such other statutory and regulatory obligations or limitations prescribing the procedures for conduct of state business, or the orders, rules, or regulations of any state agency if strict compliance with the provision of any statute, order, rule, or regulation would in any way prevent, hinder, or delay necessary action in coping with the emergency, unless (i) authority to waive or suspend a specific statutory or regulatory obligation or limitation has been expressly granted to another statewide elected official, (ii) the waiver or suspension would conflict with federal requirements that are a prescribed condition to the allocation of federal funds to the state, or (iii) the waiver or suspension would conflict with the rights, under the First Amendment, of freedom of speech or of the people to peaceably assemble. The governor shall give as much notice as practical to legislative leadership and impacted local governments when issuing orders under this subsection (2)(g).

(3) In imposing the restrictions provided for by RCW 43.06.010, and 43.06.200 through 43.06.270, the governor may impose them for such times, upon such conditions, with such exceptions and in such areas of this state he or she from time to time deems necessary.

(4) No order or orders concerning waiver or suspension of statutory obligations or limitations under subsection (2) of this section may continue for longer than thirty days unless extended by the legislature through concurrent resolution. If the legislature is not in session, the waiver or suspension of statutory obligations or limitations may be extended in writing by the leadership of the senate and the house of representatives until the legislature can extend the waiver or suspension by concurrent resolution. For purposes of this section, "leadership of the senate and the house of representatives" means the majority and minority leaders of the senate and the speaker and the minority leader of the house of representatives.

(5) Any person willfully violating any provision of an order issued by the governor under this section is guilty of a gross misdemeanor. [2019 c 472 § 2; 2008 c 181 § 1; 2003 c 53 § 222; 1969 ex.s. c 186 § 3.]

Findings—Intent—2019 c 472: "(1)(a) The legislature finds that the governor has broad authority to proclaim a state of emergency in any area of the state under RCW 43.06.010(12), and to exercise emergency powers during the emergency. These emergency powers have historically included the ability under RCW 43.06.220(1)(h) to temporarily waive or suspend statutory obligations by prohibiting compliance with statutory provisions during a proclaimed state of emergency when the governor reasonably believed it would help preserve and maintain life, health, property, or the public peace.

(b) The legislature further finds that, in response to issues arising from flooding events in 2007, RCW 43.06.220(2) was amended by chapter 181, Laws of 2008, to explicitly authorize the governor to temporarily waive or suspend a set of specifically identified statutes. This amendment has become problematic for subsequent emergency response activities because it has inadvertently narrowed the governor's ability to waive or suspend statutes under RCW 43.06.220(1)(h) by issuing orders temporarily prohibiting compliance with statutes not expressly identified in RCW 43.06.220(2).

(2) The legislature intends to allow the governor to immediately respond during a proclaimed state of emergency by temporarily waiving or suspending other statutory obligations or limitations prescribing the procedures for conduct of state business, or the orders, rules, or regulations of any state agency, if strict compliance would in any way prevent, hinder, or delay necessary action in coping with the emergency." [2019 c 472 § 1.]

43.06.225 State of emergency—Health care law waivers and suspensions. (1)(a) If when declaring or amending a statewide state of emergency pursuant to RCW 43.06.010, the governor determines that the emergency demands immediate action by hospitals to prevent critical health system failures and ensure hospitals' ability to work with emergency management in responding to the emergency, the governor shall, either simultaneously or within five days of that determination, specify within the emergency order or amended emergency order which of the following health care-related statutes and substantially equivalent regulations shall be waived or suspended based on the nature of the declared emergency:

- (i) RCW 70.38.105(4) (a), (e), and (h);
- (ii) RCW 70.41.110, the following language only: "premises and";

- (viii) RCW 43.70.280(2), the following language only: "Such extension, reduction, or other modification of a licensing, certification, or registration period shall be by rule or regulation of the department of health adopted in accordance with the provisions of chapter 34.05 RCW. Such rules and regulations may provide a method for imposing and collecting such additional proportional fee as may be required for the extended or modified period."; and
- (ix) RCW 18.360.010(11), the following language only: "physically present and is" and "in the facility. The health care practitioner does not need to be present during procedures to withdraw blood, but must be immediately available."

(b) Hospitals that rely on waiver or suspension under (a) of this subsection shall notify the department within 14 days of initiating such reliance.

(c) Nothing in this section prevents the governor from waiving or suspending any statutes and substantially equivalent regulations outside the time frames established in this section. Additionally, the governor may waive or suspend any additional statutes, without limitation, as the governor deems necessary to address the emergency.

(2) Waivers and suspensions in subsection (1) of this section do not apply except to projects undertaken to provide or respond to surge capacity, including temporary increases in bed capacity, during the governor's declaration of a statewide state of emergency. Such projects and increases in bed capacity must comply with these statutory and regulatory provisions after the termination of the state of emergency. [2021 c 268 § 1.]

(d) creating a hazardous or physically offensive condition which serves no legitimate purpose; or

(2) Engages with at least one other person in a course of conduct as defined in subsection (1) of this section which is likely to cause substantial harm or serious inconvenience, annoyance, or alarm, and refuses or knowingly fails to obey an order to disperse made by a peace officer shall be guilty of disorderly conduct and be punished by imprisonment in the county jail for up to three hundred sixty-four days or fined not more than one thousand dollars or by both fine and imprisonment. [2011 c 96 § 27; 1969 ex.s. c 186 § 5.]

Findings—Intent—2011 c 96: See note following RCW 9A.20.021.

43.06.250 State of emergency—Refusing to leave public way or property when ordered—Penalty. The listing must include an estimate of the revenue lost from the tax exemption, the purpose of the tax exemption, the persons, organizations, or parts of the population which benefit from the tax exemption, and whether or not the tax exemption conflicts with another state program. The listing must include but not be limited to the following revenue sources:

(a) Real and personal property tax exemptions under Title 84 RCW;

43.06.450 Cigarette tax contracts—Intent—Findings—Limitations. The legislature intends to further the government-to-government relationship between the state of Washington and Indians in the state of Washington by authorizing the governor to enter into contracts concerning the sale

of cigarettes and vapor products. The legislature finds that these cigarette tax and vapor product tax contracts will provide a means to promote economic development, provide needed revenues for tribal governments and Indian persons, and enhance enforcement of the state's cigarette tax and vapor product tax, ultimately saving the state money and reducing conflict. In addition, it is the intent of the legislature that the negotiations and the ensuing contracts have no impact on the state's share of the proceeds under the master settlement agreement entered into on November 23, 1998, by the state. Chapter 235, Laws of 2001 and chapter 445, Laws of 2019 do not constitute a grant of taxing authority to any Indian tribe nor do they provide precedent for the taxation of non-Indians on fee land. [2019 c 445 § 301; 2001 c 235 § 1.]

Conflict with federal requirements—Effective date—2019 c 445: See RCW 82.25.900 and 82.25.901.

Automatic expiration date and tax preference performance statement exemption—2019 c 445: See note following RCW 82.08.0318.

43.06.455 Cigarette tax contracts—Requirements—Use of revenue—Enforcement—Definitions. (1) The governor may enter into cigarette tax contracts concerning the sale of cigarettes. All cigarette tax contracts shall meet the requirements for cigarette tax contracts under this section. Except for cigarette tax contracts under RCW 43.06.460, the rates, revenue sharing, and exemption terms of a cigarette tax contract are not effective unless authorized in a bill enacted by the legislature.

(2) Cigarette tax contracts shall be in regard to retail sales in which Indian retailers make delivery and physical transfer of possession of the cigarettes from the seller to the buyer within Indian country, and are not in regard to transactions by non-Indian retailers. In addition, contracts shall provide that retailers shall not sell or give, or permit to be sold or given, cigarettes to any person under the age of eighteen years.

(3) A cigarette tax contract with a tribe shall provide for a tribal cigarette tax in lieu of all state cigarette taxes and state and local sales and use taxes on sales of cigarettes in Indian country by Indian retailers. The tribe may allow an exemption for sales to tribal members.

(4) Cigarette tax contracts shall provide that all cigarettes possessed or sold by a retailer shall bear a cigarette stamp obtained by wholesalers from a bank or other suitable stamp vendor and applied to the cigarettes. The procedures to be used by the tribe in obtaining tax stamps must include a means to assure that the tribal tax will be paid by the wholesaler obtaining such cigarettes. Tribal stamps must have serial numbers or some other discrete identification so that each stamp can be traced to its source.

(5) Cigarette tax contracts shall provide that retailers shall purchase cigarettes only from:

(a) Wholesalers or manufacturers licensed to do business in the state of Washington;

(b) Out-of-state wholesalers or manufacturers who, although not licensed to do business in the state of Washington, agree to comply with the terms of the cigarette tax contract, are certified to the state as having so agreed, and who do in fact so comply. However, the state may in its sole discretion exercise its administrative and enforcement powers over

such wholesalers or manufacturers to the extent permitted by law;

(c) A tribal wholesaler that purchases only from a wholesaler or manufacturer described in (a), (b), or (d) of this subsection; and

(d) A tribal manufacturer.

(6) Cigarette tax contracts shall be for renewable periods of no more than eight years. A renewal may not include a renewal of the phase-in period.

(7) Cigarette tax contracts shall include provisions for compliance, such as transport and notice requirements, inspection procedures, stamping requirements, recordkeeping, and audit requirements.

(8) Tax revenue retained by a tribe must be used for essential government services. Use of tax revenue for subsidization of cigarette and food retailers is prohibited.

(9) The cigarette tax contract may include provisions to resolve disputes using a nonjudicial process, such as mediation.

(10) The governor may delegate the power to negotiate cigarette tax contracts to the department of revenue. The department of revenue shall consult with the *liquor control board during the negotiations.

(11) Information received by the state or open to state review under the terms of a contract is subject to the provisions of RCW 82.32.330.

(12) It is the intent of the legislature that the *liquor control board and the department of revenue continue the division of duties and shared authority under chapter 82.24 RCW and therefore the *liquor control board is responsible for enforcement activities that come under the terms of chapter 82.24 RCW.

(13) Each cigarette tax contract shall include a procedure for notifying the other party that a violation has occurred, a procedure for establishing whether a violation has in fact occurred, an opportunity to correct such violation, and a provision providing for termination of the contract should the violation fail to be resolved through this process, such termination subject to mediation should the terms of the contract so allow. A contract shall provide for termination of the contract if resolution of a dispute does not occur within twenty-four months from the time notification of a violation has occurred. Intervening violations do not extend this time period. In addition, the contract shall include provisions delineating the respective roles and responsibilities of the tribe, the department of revenue, and the *liquor control board.

(14) For purposes of this section and RCW 43.06.460, 82.08.0316, 82.12.0316, and 82.24.295:

(a) "Essential government services" means services such as tribal administration, public facilities, fire, police, public health, education, job services, sewer, water, environmental and land use, transportation, utility services, and economic development;

(b) "Indian retailer" or "retailer" means (i) a retailer wholly owned and operated by an Indian tribe, (ii) a business wholly owned and operated by a tribal member and licensed by the tribe, or (iii) a business owned and operated by the Indian person or persons in whose name the land is held in trust; and

(c) "Indian tribe" or "tribe" means a federally recognized Indian tribe located within the geographical boundaries of the state of Washington. [2001 c 235 § 2.]

*Reviser's note: The "state liquor control board" was renamed the "state liquor and cannabis board" by 2015 c 70 § 3.

43.06.460 Cigarette tax contracts—Eligible tribes—

Tax rate. (1) The governor is authorized to enter into cigarette tax contracts with the Squaxin Island Tribe, the Nisqually Tribe, Tulalip Tribes, the Muckleshoot Indian Tribe, the Quinault Nation, the Jamestown S'Klallam Indian Tribe, the Port Gamble S'Klallam Tribe, the Stillaguamish Tribe, the Sauk-Suiattle Tribe, the Skokomish Indian Tribe, the Yakama Nation, the Suquamish Tribe, the Nooksack Indian Tribe, the Lummi Nation, the Chehalis Confederated Tribes, the Upper Skagit Tribe, the Snoqualmie Tribe, the Swinomish Tribe, the Samish Indian Nation, the Quileute Tribe, the Kalispel Tribe, the Confederated Tribes of the Colville Reservation, the Cowlitz Indian Tribe, the Lower Elwha Klallam Tribe, the Makah Tribe, the Hoh Tribe, the Spokane Tribe, and the Shoalwater Bay Tribe. Each contract adopted under this section shall provide that the tribal cigarette tax rate be one hundred percent of the state cigarette and state and local sales and use taxes within three years of enacting the tribal tax and shall be set no lower than eighty percent of the state cigarette and state and local sales and use taxes during the three-year phase-in period. The three-year phase-in period shall be shortened by three months each quarter the number of cartons of nontribal manufactured cigarettes is at least ten percent or more than the quarterly average number of cartons of nontribal manufactured cigarettes from the six-month period preceding the imposition of the tribal tax under the contract. Sales at a retailer operation not in existence as of the date a tribal tax under this section is imposed are subject to the full rate of the tribal tax under the contract. The tribal cigarette tax is in lieu of the state cigarette and state and local sales and use taxes, as provided in RCW 43.06.455(3).

(2) A cigarette tax contract under this section is subject to RCW 43.06.455. [2008 c 241 § 1; 2007 c 320 § 1; 2005 c 208 § 1; 2003 c 236 § 1; 2002 c 87 § 1; 2001 2nd sp.s. c 21 § 1; 2001 c 235 § 3.]

43.06.465 Cigarette tax agreement with Puyallup

Tribe of Indians. (1) The governor may enter into a cigarette tax agreement with the Puyallup Tribe of Indians concerning the sale of cigarettes, subject to the limitations in this section. The legislature intends to address the uniqueness of the Puyallup Indian reservation and its selling environment through pricing and compliance strategies, rather than through the imposition of equivalent taxes. It is the legislature's intent (a) that an increase in prices through a flat tax will reduce much of the competitive advantage that has historically existed due to the discrepancy in the difference between state and tribal taxes, and (b) that the tribal retailers can remain in business under the changed circumstances. The governor may delegate the authority to negotiate a cigarette tax agreement with the Puyallup Tribe to the department of revenue. The department of revenue shall consult with the *liquor control board during the negotiations.

(2) Any agreement must require the tribe to impose a tax of eleven dollars and seventy-five cents on each carton of cigarettes, with ten packs a carton and twenty cigarettes per pack being the industry standard. This tax shall be prorated for cartons and packs that are nonstandard. This tribal tax is in lieu of the combined state and local sales and use taxes, and state cigarette taxes, and as such these state taxes are not imposed during the term of the agreement on any transaction governed by the agreement. The tribal tax shall increase or decrease by the same dollar amount as any increase or decrease in the state cigarette tax.

(3) The agreement must include a provision requiring the tribe to transmit thirty percent of the tribal tax revenue on all cigarette sales to the state. The funds shall be transmitted to the state treasurer on a quarterly basis for deposit by the state treasurer into the general fund. The remaining tribal tax revenue must be used for essential government services, as that term is defined in RCW 43.06.455.

(4) The agreement is limited to retail sales in which Indian retailers make delivery and physical transfer of possession of the cigarettes from the seller to the buyer within Indian country, and are not in regard to transactions by non-Indian retailers. In addition, agreements shall provide that retailers shall not sell or give, or permit to be sold or given, cigarettes to any person under the age of eighteen years.

(5)(a) The agreement must include a provision to price and sell the cigarettes so that the retail selling price is not less than the price paid by the retailer for the cigarettes.

(b) The tribal tax is in addition to the retail selling price.

(c) The agreement must include a provision to assure the price paid to the retailer includes the tribal tax, as evidenced by the tribe's cigarette stamp.

(d) If the tribe is acting as a wholesaler to tribal retailers, the retail selling price must not be less than the price the tribe paid for such cigarettes plus the tribal tax, as evidenced by the tribe's cigarette stamp.

(6)(a) The agreement must include provisions regarding enforcement and compliance by the tribe in regard to enrolled tribal members who sell cigarettes and shall describe the individual and joint responsibilities of the tribe, the department of revenue, and the *liquor control board.

(b) The agreement must include provisions for tax administration and compliance, such as transport and notice requirements, inspection procedures, stamping requirements, recordkeeping, and audit requirements.

(c) The agreement must include provisions for sharing of information among the tribe, the department of revenue, and the *liquor control board.

(7) The agreement must provide that all cigarettes possessed or sold by a tribal retailer shall bear a tribal cigarette stamp obtained by wholesalers from a bank or other suitable stamp vendor and applied to the cigarettes. Tribal stamps must have serial numbers or some other discrete identification so that each stamp can be traced to its source.

(8) The agreement must provide that retailers shall purchase cigarettes only from wholesalers or manufacturers licensed to do business in the state of Washington.

(9) The agreement must be for a renewable period of no more than eight years.

(10) The agreement must include provisions to resolve disputes using a nonjudicial process, such as mediation, and

shall include a dispute resolution protocol. The protocol shall include a procedure for notifying the other party that a violation has occurred, a procedure for establishing whether a violation has in fact occurred, an opportunity to correct such violation, and a provision providing for termination of the agreement should the violation fail to be resolved through this process, such termination subject to mediation should the terms of the agreement so allow. An agreement must provide for termination of the agreement if resolution of a dispute does not occur within twenty-four months from the time notification of a violation has occurred. Intervening violations do not extend this time period.

(11) The agreement may not include any provisions that impact the state's share of the master settlement agreement, and as such this agreement does not authorize negotiation regarding a redistribution of the state's proceeds under the master settlement agreement.

(12) Information received by the state or open to state review under the terms of an agreement is subject to RCW 82.32.330.

(13) It is the intent of the legislature that the *liquor control board and the department of revenue continue the division of duties and shared authority under chapter 82.24 RCW.

(14) For purposes of this section:

(a) "Indian country" has the same meaning as in chapter 82.24 RCW.

(b) "Indian retailer" or "retailer" means (i) a retailer wholly owned and operated by an Indian tribe or (ii) a business wholly owned and operated by an enrolled tribal member and licensed by the tribe.

(c) "Indian tribe" or "tribe" means the Puyallup Tribe of Indians, which is a federally recognized Indian tribe located within the geographical boundaries of the state of Washington. [2005 c 11 § 2.]

***Reviser's note:** The "state liquor control board" was renamed the "state liquor and cannabis board" by 2015 c 70 § 3.

Findings—Intent—2005 c 11: "In 2001, the legislature enacted Engrossed Substitute Senate Bill No. 5372, which authorized the governor to enter into cigarette contracts with fourteen Indian tribes. In subsequent sessions, the legislature increased to twenty-one the number of tribes with whom the governor may negotiate under the terms of RCW 43.06.460. The legislature finds that this effort has been effective, as measured by the success of the existing agreements.

The legislature further finds the agreements resolved decades of conflict between the state and tribes over the sale of contraband cigarettes to non-Indians; benefited the tribes through tribal tax revenues; benefited the state because cigarettes are stamped and taxed; enhanced public health because access to low-priced cigarettes is reduced; improved law and order; and reduced the competitive advantage gained through the sale of tax-free cigarettes.

The 2001 legislation and its later amendments did not encompass the Puyallup Tribe of Indians within its scope due to the very different nature of the cigarette trade on the Puyallup Indian reservation. The legislature therefore intends to address the special circumstances on the Puyallup Indian reservation by recognizing the substantial distinctions and enacting legislation authorizing a cigarette tax agreement with the tribe that differs from the contracts entered into under RCW 43.06.460. Section 2 of this act provides the governor authority to enter into an agreement and sets forth the general framework for the agreement." [2005 c 11 § 1.]

43.06.466 Cigarette tax agreement—Yakama Nation. (1) The legislature finds that entering into a cigarette tax agreement with the Yakama Nation is a positive step and

that such an agreement will support a stable and orderly environment on the Yakima Reservation for regulation of cigarette sales. The legislature further finds that the very special circumstances of the Yakama Nation pursuant to the Treaty with the Yakamas of 1855 (12 Stat. 951) support a cigarette tax agreement that reflects those circumstances. The legislature also finds that the provisions of the agreement with the Yakama Nation authorized by chapter 228, Laws of 2008 are reasonably necessary to prevent fraudulent transactions and place a minimal burden on the Yakama Nation, pursuant to the United States supreme court's decision in *Washington v. Confederated Tribes of the Colville Indian Reservation*, 447 U.S. 134 (1980).

It is the intent of the legislature that the cigarette tax agreement with the Yakama Nation reflects the uniqueness of the Yakama Nation's Treaty through specific terms that govern pricing of cigarettes, tribal cigarette tax revenue, information sharing, and administration of the agreement.

(2) For purposes of this section:

(a) "Cigarette" has the same meaning as in chapter 82.24 RCW; and

(b) "Tribal retailer" means a cigarette retailer as that term is defined in RCW 82.24.010 that is licensed by and located within the jurisdiction of the Yakama Nation and is wholly owned by the Yakama Nation or any of its enrolled members.

(3) The governor may enter into a cigarette tax agreement with the Yakama Nation, a federally recognized Indian tribe located within the geographical boundaries of the state of Washington, concerning the sale of cigarettes, subject to the provisions of this section. The governor may delegate the authority to negotiate the agreement to the department of revenue.

(4) The agreement must be for a renewable period of no more than eight years.

(5) All cigarettes possessed or sold by tribal retailers must be subject to the agreement, except cigarettes manufactured within the jurisdiction of the Yakama Nation by the Yakama Nation or its enrolled members.

(6) The agreement must allow the Yakama Nation to exempt its enrolled members from the tribal cigarette tax imposed under subsection (7) of this section.

(a) Sales of cigarettes exempt under this subsection must be subject to the requirements of subsection (9) of this section.

(b) The exemption must be provided only at the point of sale and reimbursement provided to the tribal retailer by the Yakama Nation.

(7) The agreement must require the Yakama Nation to impose and maintain in effect on the sale of cigarettes by tribal retailers a tax as provided in this subsection.

(a) The rate of tax will be expressed in dollars and cents and must be the percentage of tax imposed by the state under chapter 82.24 RCW for the period of the agreement as stated here:

(i) Eighty percent during the first six years;

(ii) Eighty-four percent during the seventh year; and

(iii) Eighty-seven and six-tenths percent during the eighth year.

(b) The tax must be imposed on each carton, or portion of a carton, of cigarettes, with ten packs per carton and

twenty cigarettes per pack being the industry standard, and prorated for cartons and packs that are not standard.

(c) The tax must be in lieu of the combined state and local sales and use taxes, and state cigarette taxes, and, as provided in RCW 82.24.302, 82.08.0316, and 82.12.0316, the taxes imposed by chapters 82.08, 82.12, and 82.24 RCW do not apply during the term of the agreement on any transaction governed by the agreement.

(d) Throughout the term of the agreement and any renewal of the agreement, the tax must increase or decrease in correspondence with the state cigarette tax by applying the percentages in (a) of this subsection.

(a) Requirements must provide for sharing of information regarding transport of cigarettes in the state of Washington by the Yakama Nation or its enrolled members, reporting of information on sales to customers located outside the jurisdiction of the Yakama Nation, and authority for unannounced inspection by the state of tribal retailers to verify compliance with stamping and pricing provisions.

(b) Information received by the state or open to state review under the terms of the agreement is subject to RCW 82.32.330.

(14) The agreement must provide for resolution of disputes using a nonjudicial process, such as mediation, and establish a dispute resolution protocol that includes the following elements:

(13) For the purposes of this section:

(a) "Essential government services" means services such as forestland management; protection, enhancement, regulation, and stewardship of forested land; land consolidation; tribal administration; public facilities; fire; police; public health; education; job services; sewer; water; environmental and land use; transportation; utility services; and public facilities serving economic development purposes as those terms are defined in RCW 82.14.370(3)(c);

(b) "Forestland" has the same meaning as in RCW 84.33.035;

(c) "Harvester" has the same meaning as in RCW 84.33.035;

(d) "Indian tribe" or "tribe" means a federally recognized Indian tribe located within the geographical boundaries of the state of Washington; and

(e) "Timber" has the same meaning as in RCW 84.33.035. [2007 c 69 § 2.]

Findings—Intent—2007 c 69: "The legislature finds that in certain areas of taxation, where both a tribe and the state have jurisdiction and where there are challenges to administering a tax, tax agreements between the state and a tribe are a sound approach to resolving issues and simplifying processes. The legislature specifically recognizes that in the area of the timber excise tax, within the boundaries of the Quinault Reservation, the state faces challenges due to access to land and access to taxpayers. The activity being taxed takes place entirely within the reservation and is regulated by the tribe and by the state. The legislature therefore finds that shifting from a state administered tax, to a tribal tax credited against the state tax, will bring benefits such as consistent taxation, improved forest practices and water quality, improved fisheries, and sustainability. The legislature intends to further the government-to-government relationship between the state of Washington and the Quinault Nation by authorizing the governor to enter into an agreement related to timber harvest excise taxes." [2007 c 69 § 1.]

43.06.480 Timber harvest excise tax agreements—Quinault Nation. (1) The governor is authorized to enter into a timber harvest excise tax agreement with the Quinault

Nation. Agreements adopted under this section must provide that the tribal timber harvest excise tax rate be one hundred percent of the state timber harvest excise tax.

Findings—Intent—2007 c 69: See note following RCW 43.06.475.

43.06.485 Senior policy advisor to the governor—State lead for economic development relating to the outdoor recreation sector of the state's economy. (1) Subject to the availability of amounts appropriated for this specific purpose, the governor must maintain a senior policy advisor to the governor to serve as a state lead on economic development issues relating to the outdoor recreation sector of the state's economy. The advisor must focus on promoting, increasing participation in, and increasing opportunities for outdoor recreation in Washington, with a particular focus on achieving economic development and job growth through outdoor recreation.

(2) The success of the advisor must be based on measurable results relating to economic development strategies that more deliberately grow employment and outdoor recreation businesses, including:

(a) Strategies for increasing the number of new jobs directly or indirectly related to outdoor recreation, with a short-term goal of increasing employment in the sector by ten percent above the one hundred ninety-nine thousand jobs estimated to be connected to outdoor recreation as of 2015; and

(b) Strategies for increasing the twenty-one billion dollars of consumer spending in Washington, and the four and one-half billion dollars of spending from out-of-state visitors, estimated to be connected to outdoor recreation as of 2015. [2015 c 245 § 2.]

43.06.490 Marijuana agreements—Federally recognized Indian tribes—Tribal marijuana tax—Tax exemption. (1) The governor may enter into agreements with federally recognized Indian tribes concerning marijuana. Marijuana agreements may address any marijuana-related issue that involves both state and tribal interests or otherwise has an impact on tribal-state relations. Such agreements may include, but are not limited to, the following provisions and subject matter:

(d) Taxation in accordance with subsection (2) of this section;

(e) Any tribal immunities or preemption of state law regarding the production, processing, or marketing of marijuana; and

(f) Dispute resolution, including the use of mediation or other nonjudicial process.

(2)(a) Each marijuana agreement adopted under this section must provide for a tribal marijuana tax that is at least one hundred percent of the state marijuana excise tax imposed

under RCW 69.50.535 and state and local sales and use taxes on sales of marijuana. Marijuana agreements apply to sales in which tribes, tribal enterprises, or tribal member-owned businesses (i) deliver or cause delivery to be made to or receive delivery from a marijuana producer, processor, or retailer licensed under chapter 69.50 RCW or (ii) physically transfer possession of the marijuana from the seller to the buyer within Indian country.

(b) The tribe may allow an exemption from tax for sales to the tribe, tribal enterprises, tribal member-owned businesses, or tribal members[,] on marijuana grown, produced, or processed within its Indian country, or for activities to the extent they are exempt under state or federal law from the state marijuana excise tax imposed under RCW 69.50.535 or state and local sales or use taxes on sales of marijuana. Medical marijuana products used in the course of medical treatments by a clinic, hospital, or similar facility owned and operated by a federally recognized Indian tribe within its Indian country may be exempted from tax under the terms of an agreement entered into under this section.

(3) Any marijuana agreement relating to the production, processing, and sale of marijuana in Indian country, whether for recreational or medical purposes, must address the following issues:

- (a) Preservation of public health and safety;
- (b) Ensuring the security of production, processing, retail, and research facilities; and
- (c) Cross-border commerce in marijuana.

(4) The governor may delegate the power to negotiate marijuana agreements to the *state liquor control board. In conducting such negotiations, the *state liquor control board must, when necessary, consult with the governor and/or the department of revenue.

(5) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Indian country" has the same meaning as in RCW 82.24.010.

(b) "Indian tribe" or "tribe" means a federally recognized Indian tribe located within the geographical boundaries of the state of Washington.

(c) "Marijuana" means "marijuana," "marijuana concentrates," "marijuana-infused products," and "useable marijuana," as those terms are defined in RCW 69.50.101. [2015 c 207 § 2.]

***Reviser's note:** The "state liquor control board" was renamed the "state liquor and cannabis board" by 2015 c 70 § 3.

Intent—Finding—2015 c 207: "The legislature intends to further the government-to-government relationship between the state of Washington and federally recognized Indian tribes in the state of Washington by authorizing the governor to enter into agreements concerning the regulation of marijuana. Such agreements may include provisions pertaining to: The lawful commercial production, processing, sale, and possession of marijuana for both recreational and medical purposes; marijuana-related research activities; law enforcement, both criminal and civil; and taxation. The legislature finds that these agreements will facilitate and promote a cooperative and mutually beneficial relationship between the state and the tribes regarding matters relating to the legalization of marijuana, particularly in light of the fact that federal Indian law precludes the state from enforcing its civil regulatory laws in Indian country. Such cooperative agreements will enhance public health and safety, ensure a lawful and well-regulated marijuana market, encourage economic development, and provide fiscal benefits to both the tribes and the state." [2015 c 207 § 1.]

43.06.505 Vapor product tax contracts—Requirements. (1) The governor may enter into vapor product tax contracts concerning the sale of vapor products. All vapor product tax contracts must meet the requirements for vapor product tax contracts under this section.

(2) Vapor product tax contracts must be in regard to retail sales in which Indian retailers make delivery and physical transfer of possession of the vapor products from the seller to the buyer within Indian country, and are not in regard to transactions by non-Indian retailers. In addition, contracts may address the legal age of sale for vapor products pursuant to section 11, chapter 15, Laws of 2019.

(3) A vapor product tax contract with a tribe must provide for a tribal vapor product tax in lieu of all state vapor product taxes and state and local sales and use taxes on sales of vapor products in Indian country by Indian retailers. The tribe may allow an exemption for sales to tribal members.

(4) Vapor product tax contracts must provide that retailers must purchase vapor products only from:

(a) Wholesalers or manufacturers licensed to do business in the state of Washington;

(b) Out-of-state wholesalers or manufacturers who, although not licensed to do business in the state of Washington, agree to comply with the terms of the vapor product tax contract, are certified to the state as having so agreed, and do in fact so comply. However, the state may in its sole discretion exercise its administrative and enforcement powers over such wholesalers or manufacturers to the extent permitted by law;

(c) A tribal wholesaler that purchases only from a wholesaler or manufacturer described in (a), (b), or (d) of this subsection; and

(d) A tribal manufacturer.

(5) Vapor product tax contracts must be for renewable periods of no more than eight years.

(6) Vapor product tax contracts must include provisions for compliance, such as transport and notice requirements, inspection procedures, recordkeeping, and audit requirements.

(7) Tax revenue retained by a tribe must be used for essential government services. Use of tax revenue for subsidization of vapor products and food retailers is prohibited.

(8) The vapor product tax contract may include provisions to resolve disputes using a nonjudicial process, such as mediation.

(10) Information received by the state or open to state review under the terms of a contract is subject to the provisions of RCW 82.32.330.

(11) It is the intent of the legislature that the liquor and cannabis board and the department of revenue continue the division of duties and shared authority under chapter 82.25 RCW and therefore the liquor and cannabis board is responsible for enforcement activities that come under the terms of chapter 82.25 RCW.

(12) Each vapor product tax contract must include a procedure for notifying the other party that a violation has occurred, a procedure for establishing whether a violation has

in fact occurred, an opportunity to correct such violation, and a provision providing for termination of the contract should the violation fail to be resolved through this process, such termination subject to mediation should the terms of the contract so allow. A contract must provide for termination of the contract if resolution of a dispute does not occur within twenty-four months from the time notification of a violation has occurred. Intervening violations do not extend this time period. In addition, the contract must include provisions delineating the respective roles and responsibilities of the tribe, the department of revenue, and the liquor and cannabis board.

(13) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

43.06.510 Vapor product tax contracts—Indian tribes. (1) The governor is authorized to enter into vapor product tax contracts with federally recognized Indian tribes located within the geographical boundaries of the state of Washington. Each contract adopted under this section must provide that the tribal vapor product tax rate be one hundred percent of the state vapor product tax and state and local sales and use taxes. The tribal vapor product tax is in lieu of the state vapor product tax and state and local sales and use taxes, as provided in RCW 43.06.505(3).

(2) A vapor product tax contract under this section is subject to RCW 43.06.505 and is separate from a cigarette tax contract subject to RCW 43.06.455 or 43.06.466. [2019 c 445 § 303.]

Conflict with federal requirements—Effective date—2019 c 445: See RCW 82.25.900 and 82.25.901.

The governor may delegate the authority to negotiate a vapor product tax agreement with the Puyallup Tribe to the department of revenue. The department of revenue must consult with the liquor and cannabis board during the negotiations. An agreement under this section is separate from an agreement under RCW 43.06.465.

(4) The agreement is limited to retail sales in which Indian retailers make delivery and physical transfer of possession of the vapor products from the seller to the buyer within Indian country, and are not in regard to transactions by non-Indian retailers. In addition, agreements may address the legal age of sale for vapor products pursuant to section 11, chapter 15, Laws of 2019.

(8) The agreement must be for a renewable period of no more than eight years.

(9) The agreement must include provisions to resolve disputes using a nonjudicial process, such as mediation, and must include a dispute resolution protocol. The protocol must include a procedure for notifying the other party that a violation has occurred, a procedure for establishing whether a violation has in fact occurred, an opportunity to correct such violation, and a provision providing for termination of the agreement should the violation fail to be resolved through this process, such termination subject to mediation should the terms of the agreement so allow. 43.06.520 State sales, use, and business and occupation taxes—Indian tribe compacts—Findings—Intent.

(1) The legislature intends to further the government-to-government relationship between the state of Washington and federally recognized Indian tribes in the state of Washington by authorizing the governor to enter into compacts concerning the state's retail sales, use, and business and occupation taxes on certain activities.

(2) The legislature finds that these compacts will benefit all Washingtonians by providing a means to promote economic development and providing needed revenues for tribal governments and Indian persons.

(3) The state and the tribes have a long-standing history of working together to develop cooperative agreements on taxation for cigarettes, fuel, timber, and marijuana. It is the legislature's intent, given the positive experiences from the nearly two decades of cooperation, to build on these successes and provide the governor with the authority to address state sales, use, and business and occupation taxes on certain activities.

(2021 Ed.)

(4) In addition, it is the legislature's intent that these compacts will have no impact on the taxation of any transaction that is the subject of other compacts, contracts, or agreements authorized elsewhere in this chapter. [2020 c 132 § 1.]

43.06.523 State sales, use, and business and occupation taxes—Indian tribe compacts.

(1)(a) The governor may enter into compacts with tribes concerning revenue collected by the state from the state sales tax, state use tax, and certain state business and occupation taxes, to the extent these taxes are imposed on qualified transactions. All compacts must meet the requirements under this section.

(b)(i) Except with regard to the terms of a compacting tribe's qualified capital investment, the governor may delegate the authority to negotiate compacts to the department.

(ii) In negotiating the terms of a compacting tribe's qualified capital investment, the governor must be satisfied that the compacting tribe's qualified capital investment is substantially proportionate to the compacting tribe's estimated tax revenue under the compact as compared to qualified capital investments contained in other compacts. For purposes of estimating a compacting tribe's tax revenue under a compact, tax revenue from new development is not included in the estimate.

(2) Any compact authorized under this section must include provisions that allow the compacting tribe to receive, beginning on the compact's implementation date, the following amounts of tax collected on qualified transactions and received by the state:

(a) One hundred percent of certain state business and occupation tax revenues;

(b) The first five hundred thousand dollars of the total amount of state sales tax and state use tax collected during each calendar year from taxpayers, regardless of whether the taxpayers meet the requirements of a new development. If this five hundred thousand dollar cap is reached during a calendar year, any amounts collected from taxpayers that do not meet the requirements of a new development will be deemed to have been collected and applied to the cap first, but only in the calendar month in which the cap is reached;

(c) The following amounts of state sales tax and state use tax collected during each calendar year from taxpayers meeting the requirements of a new development:

(i) Twenty-five percent of any amount over the cap described in (b) of this subsection (2); or

(ii) Sixty percent of any amount over the cap described in (b) of this subsection (2), if the compacting tribe has completed a qualified capital investment; and

(d) Beginning January 1st of the fourth calendar year following the signing of the compact, the following amounts of state sales tax and state use tax collected during each calendar year from taxpayers that do not meet the requirements of a new development:

(i) Twenty-five percent of any amount over the cap described in (b) of this subsection (2); or

(ii) Fifty percent of any amount over the cap described in (b) of this subsection (2), if the compacting tribe has completed a qualified capital investment.

(3) The parties to any compact must agree to include the following provisions in the compact:

[Title 43 RCW—page 45]

(a) A process for determining when any qualified capital investment is complete;

(b) A process to verify compliance with the terms of the compact;

(c) A delineation of the respective roles and responsibilities of the compacting tribe and the department;

(d) A process to resolve disputes, including the use of a nonjudicial process;

(e) An agreement that the compact resolves all current and future disputes between the compacting tribe and state and local taxing authorities, while the compact is in effect, to the extent such disputes relate to the levying, assessment, and collection of taxes related to the following:

(i) Transactions between nonmembers, where such transactions are subject to any state sales tax, local sales tax, and any other taxes in effect or authorized as of June 11, 2020, except for any business and occupation tax under chapter 82.04 RCW other than certain state business and occupation taxes;

(ii) State and local use tax imposed on nonmembers and sourced to a location within the Indian country of the compacting tribe pursuant to RCW 82.32.730; and

(iii) State and local personal property taxes imposed on nonmembers;

(f) An agreement that in the event of a change in state tax laws that affects the negotiated terms of a compact, or a change in the department's interpretation regarding the property taxation of nonmember-owned improvements on Indian trust land:

(ii) A compacting tribe may terminate the compact if the good faith discussions do not result in a mutually satisfactory resolution;

(g)(i) An agreement that the department must perform all functions related to the administration and collection of the taxes collected on qualified transactions. The department may not impose any charge on a compacting tribe for these services. However, the department may seek legislative appropriations to cover its administrative costs associated with compact negotiations and administration.

(ii) As part of the department's authority under (g)(i) of this subsection (3), the department will apply the provisions contained in Title 82 RCW insofar as they are applicable to the taxes at issue in any compact authorized under this section;

(h) An agreement that the compacting tribe will provide information the department determines is necessary to fulfill the department's tax administration obligations under the compact, including information related to parcel ownership and business operations in the compact covered area; and

(i) Terms specifying the duration of the compact, and any related terms.

(4)(a) A compacting tribe may examine department records related to the payment of tax amounts to the compacting tribe. The compacting tribe must agree to keep information obtained from the department pursuant to a compact confidential to the same extent as the department is required to keep that information confidential pursuant to RCW 82.32.330.

(b) Information received by the state or open to state review under the terms of a compact is deemed tax information under RCW 82.32.330.

(5) The amounts in subsection (2) of this section must be paid to the compacting tribe on a monthly basis within sixty days after the department receives the tax amounts.

(6) All refunds and credits the department issues to taxpayers of amounts previously paid to the compacting tribe under the terms of a compact will be charged to the compacting tribe.

(7) Funds dedicated under RCW 82.08.020 and 82.12.0201 to the performance audits of government account under RCW 43.09.475 are not reduced by any payment to the compacting tribe.

(v) Alleged violations of law by the department that may adversely affect the health, safety, welfare, and rights of inmates.

(b) Prior to filing a complaint with the ombuds, a person shall have reasonably pursued resolution of the complaint through the internal grievance, administrative, or appellate procedures with the department. However, in no event may an inmate be prevented from filing a complaint more than ninety business days after filing an internal grievance, regardless of whether the department has completed the grievance process.  - (iv) Explain in detail the administrative action in question; or
 - (v) Rectify an omission.

(n) Before announcing a conclusion or recommendation that expressly, or by implication, criticizes a person or the department, the ombuds shall consult with that person or the department. The ombuds may request to be notified by the department, within a specified time, of any action taken on any recommendation presented. The ombuds must notify the inmate, if any, of the actions taken by the department in response to the ombuds' recommendations.

(3) This chapter does not require inmates to file a complaint with the ombuds in order to exhaust available administrative remedies for purposes of the prison litigation reform act of 1995, P.L. 104-134. [2018 c 270 § 5.]

(5) Following notification from the ombuds with a written demand for access to agency records, the delegated department staff must provide the ombuds with access to the requested documentation not later than twenty business days after the ombuds' written request for the records. Where the records requested by the ombuds pertain to an inmate death, threats of bodily harm including, but not limited to, sexual or physical assaults, or the denial of necessary medical treatment, the records shall be provided within five days unless the ombuds consents to an extension of that time frame.

(6) Upon notice and a request by the ombuds, a state or local government agency or entity that has records that are relevant to a complaint or an investigation conducted by the ombuds must provide the ombuds with access to such records.

(7) The ombuds must work with the department to minimize disruption to the operations of the department due to ombuds activities and must comply with the department's security clearance processes, provided those processes do not impede the activities outlined in this section. [2018 c 270 § 6.]

Sunset Act application: See note following chapter digest.

(2) The office shall establish confidentiality rules and procedures for all information maintained by the office.

(3) The ombuds shall treat all matters under investigation, including the identities of recipients of ombuds services, complainants, and individuals from whom information is acquired, as confidential, except as far as disclosures may be necessary to enable the ombuds to perform the duties of the office and to support any recommendations resulting from an investigation. Upon receipt of information that by law is confidential or privileged, the ombuds shall maintain the confidentiality of such information and shall not further disclose or disseminate the information except as provided by applicable state or federal law or as authorized by subsection (4) of this section. All records exchanged and communications between the office of the corrections ombuds and the department to include the investigative record are confidential and are exempt from public disclosure under chapter 42.56 RCW.

(4) To the extent the ombuds reasonably believes necessary, the ombuds:

(a) Must reveal information obtained in the course of providing ombuds services to prevent reasonably certain death or substantial bodily harm; and

(b) May reveal information obtained in the course of providing ombuds services to prevent the commission of a crime.

(5) If the ombuds believes it is necessary to reveal investigative records for any of the reasons outlined in *section 4 of this act, the ombuds shall provide a copy of what they intend to disclose to the department for review and application of legal exemptions prior to releasing to any other persons. If the ombuds receives personally identifying information about individual corrections staff during the course of an investigation that the ombuds determines is unrelated or unnecessary to the subject of the investigation or recommendation for action, the ombuds will not further disclose such information. If the ombuds determines that such disclosure is necessary to an investigation or recommendation, the ombuds will contact the staff member as well as the bargaining unit representative before any disclosure. [2018 c 270 § 7.]

Funds received from private sources may not be applied to reduce or substitute the office's budget as appropriated by the legislature, but must be applied and expended toward projects and functions authorized by this chapter that were not funded by the legislature. [2020 c 332 § 8.]

43.06D.900 Findings—Intent—2020 c 332. The legislature finds that the population of Washington state has become increasingly diverse over the last several decades. The legislature also finds that as the demographics of our state change, historically and currently marginalized communities still do not have the same opportunities to meet parity as their nonmarginalized counterparts across nearly every measure including education, poverty, employment, health, and more. Inequities based on race, ethnicity, gender, and other characteristics continue to be deep, pervasive, and persistent, and they come at a great economic and social cost. When individuals face barriers to achieving their full potential, the impact is felt by the individual, their communities, businesses, governments, and the economy as a whole in the form of lost wages, avoidable public expenditures, and more. This includes social ramifications that emerging technology, such as artificial intelligence and facial recognition technology, may have on historically and currently marginalized communities. It is the intent of the legislature to review these emerging technologies either already in use by agencies or before their launch by agencies if not already in use and make recommendations regarding agency use to ensure that the technology is used in a manner that benefits society and does not have disparate negative impacts on historically and currently marginalized communities or violate their civil rights. It is further intended that the office should collaborate with other state efforts in this regard.

The legislature finds that a more inclusive Washington is possible if agencies identify and implement effective strategies to eliminate systemic inequities. The legislature recognizes that different forms of discrimination and oppression are related to each other, and these relationships need to be taken into account.

The legislature finds that over the years, significant strides have been made within agencies to address the disparate outcomes faced by historically and currently marginalized communities. While these efforts have yielded positive work, the legislature finds that the work happening in agencies is fragmented across state government. Additionally, smaller agencies may not have the resources necessary to

identify and implement policies to address systemic inequities. Furthermore, the legislature finds that the commission on African American affairs, the commission on Asian Pacific American affairs, the commission on Hispanic affairs, the governor's office of Indian affairs, the LGBTQ commission, the women's commission, and the human rights commission each play an important and integral role by serving as a voice for their respective communities and linking state government to these communities. The office is distinct from the commissions because it will serve as the state's subject matter expert on diversity, equity, and inclusion to state agencies and will provide technical assistance and support to agencies while each agency implements its individual equity plan. The office is not duplicative of the commissions, rather it is the intent of the legislature that the office will work in collaboration with the commissions. It is not the legislature's intent to eliminate the commissions or to reduce funding to the commissions by creating the office. Instead, it is the intent of the legislature that the office and the commissions shall work in a complementary manner with each other, support each other's work, jurisdictions, and missions, and adequately fund the commissions and the office as they take on their new complementary roles.

The legislature finds that state government must identify and coordinate effective strategies that focus on eliminating systemic barriers for historically and currently marginalized groups. To support this objective, an office of equity will provide a unified vision around equity for all state agencies. The office will assist government agencies to promote diversity, equity, and inclusion in all aspects of their decision making, including but not limited to services, programming, policy development, budgeting, and staffing. Doing so will foster a culture of accountability within state government that promotes opportunity for marginalized communities and will help normalize language and concepts around diversity, equity, and inclusion. [2020 c 332 § 1.]

43.06D.901 Construction—2020 c 332. Nothing in chapter 332, Laws of 2020 creates any right or cause of action, nor may it be relied upon to compel the establishment of any program or special entitlement. [2020 c 332 § 9.]

43.07.160 Authenticating officers—Appointment authorized—Use of facsimile signature. The secretary of state may appoint authenticating officers and delegate to the authenticating officers power to sign for the secretary of state any document which, to have legal effect, requires the secretary of state's signature and which is of a class which the secretary of state has authorized for signature by the authenticating officers in a writing on file in the secretary of state's office. Authenticating officers shall sign in the following manner: "., Authenticating Officer for the Secretary of State"

The secretary of state may also delegate to the authenticating officers power to use the secretary of state's facsimile signature for signing any document which, to have legal effect, requires the secretary of state's signature and is of a

class with respect to which the secretary of state has authorized use of his or her facsimile signature by a writing filed in the secretary of state's office. As used in this section, "facsimile signature" includes, but is not limited to, the reproduction of any authorized signature by a copper plate, a rubber stamp, or by a photographic, photostatic, or mechanical device.

The secretary of state shall effect the appointment and delegation by placing on file in the secretary of state's office in a single document the names of all persons appointed as authenticating officers and each officer's signature, a list of the classes of documents each authenticating officer is authorized to sign for the secretary of state, a copy of the secretary of state's facsimile signature, and a list of the classes of documents which each authenticating officer may sign for the secretary of state by affixing the secretary of state's facsimile signature. The authorized signature of an authenticating officer or an authorized facsimile signature of the secretary of state shall have the same legal effect and validity as the genuine manual signature of the secretary of state. [1982 c 35 § 2.]

Intent—1982 c 35: "The legislature finds that the secretary of state's office, particularly the corporations division, performs a valuable public service for the business and nonprofit corporate community, and for the state of Washington. The legislature further finds that numerous filing and other requirements of the laws relating to the secretary of state's responsibilities have not been recently updated, thereby causing problems and delays for the corporate community as well as the secretary of state's office.

To provide better service to the corporate community in this state, and to permit the secretary of state to make efficient use of state resources and improve collection of state revenues, statutory changes are necessary. It is the intent of the legislature to provide for the modernization and updating of the corporate laws and other miscellaneous filing statutes and to give the secretary of state the appropriate authority the secretary of state needs to implement the modernization and streamlining effort." [1982 c 35 § 1.]

Finding—Intent—2019 c 448: "(1) The legislature finds that the current facilities housing the Washington state archives, Washington state library, Washington state corporations and charities office, and the state elections office is in need of modernization and update. This is due to these vital programs being housed in obsolete and crowded facilities that do not meet modern standards for the functions performed in each.

(2) It is the intent of the secretary of state and the legislature to preserve and protect the state's vital records and collections, provide convenient service to the public, be excellent stewards of state funds, and house staff and collections in a state of the art, energy efficient building owned and operated by the office of the secretary of state. This will be accomplished by constructing a new building funded by a financing contract entered into by the secretary of state pursuant to chapter 39.94 RCW. The principal and interest requirements of the financing contract will be serviced by existing rents, existing fees, and a new fee on documents recorded at county recording offices.

(3) This building, to be known as the library-archives building, will replace the existing state archives, the existing leased library location, the existing leased elections office, and the corporations and charities building on Capitol Way in addition to consolidating other archival structures. The consolidation of facilities will create efficiency under RCW 43.82.010(6) and convenience for customers with the eventual goal of housing all functions of the various divisions of the office of the secretary of state." (3) All rules and all pending business before the secretary of state pertaining to the powers, functions, and duties transferred shall be continued and acted upon by the secretary of the senate and the chief clerk of the house of representatives. All existing contracts and obligations shall remain in full force and shall be performed by the secretary of the senate and the chief clerk of the house of representatives.

(4) The transfer of the powers, duties, functions, and personnel of the secretary of state shall not affect the validity of any act performed before June 12, 2008.

(5) If apportionments of budgeted funds are required because of the transfers directed by this section, the director of financial management shall certify the apportionments to the agencies affected, the state auditor, and the state treasurer. Each of these shall make the appropriate transfer and adjustments in funds and appropriation accounts and equipment records in accordance with the certification.

(6) Nothing contained in this section may be construed to alter any existing collective bargaining unit or the provisions of any existing collective bargaining agreement until the agreement has expired or until the bargaining unit has been modified by action of the public employment relations commission as provided by law.

Intent—2005 c 457: "The legislature recognizes the state's obligation to provide adequate representation to criminal indigent defendants and to parents in dependency and termination cases. The legislature also recognizes that trial courts are critical to maintaining the rule of law in a free society and that they are essential to the protection of the rights and enforcement of obligations for all. Therefore, the legislature intends to create a dedicated revenue source for the purposes of meeting the state's commitment to improving trial courts in the state, providing adequate representation to criminal indigent defendants, providing for civil legal services for indigent persons, and ensuring equal justice for all citizens of the state." 43.08.280 Statewide custody contract for local governments and institutions of higher education. (1) The state treasurer is authorized to negotiate a statewide custody contract for custody services for local governments and institutions of higher education. The term of the contract shall be for a minimum of four years.

(2) The state treasurer shall, as soon as is practical after negotiations have been successfully completed, notify local

governments and institutions of higher education that a statewide custody contract has been negotiated.

(3) Following such notification, each local government or institution of higher education may, at its option, become a signatory to the statewide contract. Each local government or institution of higher education may only become a signatory to the contract by having its authorized local government official or financial officer and the statewide custodian execute the statewide contract. The contract is between the statewide custodian and the respective local government or institution of higher education. It is the responsibility of the local government official or financial officer to fully understand the terms and conditions of the statewide custody contract prior to its execution, and to ensure those terms and conditions are observed by the statewide custodian during the term of the contract.

(4) The state treasurer may adopt rules to implement this section, including, but not limited to, those rules deemed necessary to provide for an orderly transition in the event of a different statewide custodian in a new statewide custody contract.

(5) Any statewide custodian who becomes a signatory to the statewide custody contract may be exempted from the requirements of chapter 39.58 RCW for the purposes of this section, based on rules adopted by the public deposit protection commission.

(6) For the purposes of this section:

(a) "Financial institution" means a bank or trust company chartered and supervised under state or federal law;

(b) "Local government" means any county, city, town, special purpose district, political subdivision, municipal corporation, or quasi-municipal corporation, including any public corporation created by such an entity, which legally possesses and exercises investment authority;

(c) "Statewide custody contract" means a contract negotiated between the state treasurer and a financial institution that establishes terms and fees for custody services which are optional to any local government for the term of the contract;

(d) "Statewide custodian" means the financial institution with whom the state treasurer has negotiated a statewide custody contract;

(e) "Custody services" means services performed by a financial institution such as the settlement, safekeeping, valuation, and market-value reporting of negotiable instruments owned by the local government;

(f) "Local government official" means any officer or employee of a local government who has been designated by statute or local charter, ordinance, or resolution as the officer having the authority to invest the funds of the local government. However, the county treasurer is the only local government official for all political subdivisions for which the county treasurer has statutory or contractual authority to invest the funds thereof;

(g) "Financial officer" means the board-appointed treasurer of a college, university, community or technical college district, or the state board for community and technical colleges. [1999 c 293 § 2.]

Purpose—1999 c 293: "Local governments enter into separate, individual contracts with banks for custody services. The rate and terms which each local government obtains from a given bank sometimes varies widely depending upon the size of the local government's portfolio, and thus fails to

provide all of the state's taxpayers with the most advantageous rates and terms for such custody services. The purpose of this act is to enable local governments and institutions of higher education, through a statewide custody contract, to collectively obtain the most advantageous rate and terms from a single financial institution for custodial banking services. Under such a statewide custody contract, smaller local governments may receive a higher level of service, while paying lower fees than they might have individually obtained." [1999 c 293 § 1.]

43.08.290 City-county assistance account—Use and distribution of funds. (1) The city-county assistance account is created in the state treasury. All receipts from real estate excise tax disbursements provided under RCW 82.45.060 must be deposited into the account. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only for the purposes provided in this section.

(2) Funds deposited in the city-county assistance account must be distributed equally to the cities and counties.

(3)(a) Funds distributed to counties must, to the extent possible, increase the sum of revenues under RCW 82.14.030(1) and streamlined sales tax mitigation funds received by each county to the greater of two hundred fifty thousand dollars or:

(i) For a county with an unincorporated population of one hundred thousand or less, seventy percent of the statewide weighted average per capita level of sales and use tax revenues received under RCW 82.14.030(1) with respect to taxable activity in the unincorporated areas of all counties imposing the sales and use tax authorized under RCW 82.14.030(1) in the previous calendar year, for certifications before October 1, 2009, or the previous fiscal year, for certifications on and after October 1, 2009; and

(ii) For a county with an unincorporated population of more than one hundred thousand, sixty-five percent of the statewide weighted average per capita level of sales and use tax revenues received under RCW 82.14.030(1) with respect to taxable activity in the unincorporated areas of all counties imposing the sales and use tax authorized under RCW 82.14.030(1) in the previous calendar year, for certifications before October 1, 2009, or the previous fiscal year, for certifications on and after October 1, 2009.

(b) For each county with an unincorporated population of fifteen thousand or less, the county must receive the greater of the amount in (a) of this subsection or the amount received in local government assistance provided by section 716, chapter 276, Laws of 2004.

(c) For each county with an unincorporated population of more than fifteen thousand and less than twenty-two thousand, the county must receive in calendar year 2006 and 2007 the greater of the amount provided in (a) of this subsection or the amount received in local government assistance provided by section 716, chapter 276, Laws of 2004.

(d) To the extent that revenues are insufficient to fund the distributions under this subsection, the distributions of all counties as otherwise determined under this subsection must be ratably reduced.

(e) To the extent that revenues exceed the amounts needed to fund the distributions under this subsection, the excess funds must be divided ratably based upon unincorporated population among those counties receiving funds under

this subsection and imposing the tax authorized under RCW 82.14.030(2) at the maximum rate.

(4)(a) For each city with a population of five thousand or less with a per capita assessed property value less than twice the statewide average per capita assessed property value for all cities for the calendar year previous to the certification under subsection (6) of this section, the city must receive the greater of the following three amounts:

(i) An amount necessary to increase the sum of revenues under RCW 82.14.030(1) and streamlined sales tax mitigation funds received by a city up to fifty-five percent of the statewide weighted average per capita level of sales and use tax revenues received under RCW 82.14.030(1) with respect to taxable activity in all cities imposing the sales and use tax authorized under RCW 82.14.030(1) in the previous calendar year, for certifications before October 1, 2009, or the previous fiscal year, for certifications on and after October 1, 2009.

(ii) The amount received in local government assistance provided for fiscal year 2005 by section 721, chapter 25, Laws of 2003 1st sp. sess.

(iii) For a city with a per capita assessed property value less than fifty-five percent of the statewide average per capita assessed property value for all cities, an amount determined by subtracting the city's per capita assessed property value from fifty-five percent of the statewide average per capita assessed property value, dividing that amount by one thousand, and multiplying the result by the city's population.

(b) For each city with a population of more than five thousand with a per capita assessed property value less than the statewide average per capita assessed property value for all cities for the calendar year previous to the certification under subsection (6) of this section, the city must receive the greater of the following two amounts:

(i) An amount necessary to increase the sum of revenues under RCW 82.14.030(1) and streamlined sales tax mitigation funds received by a city up to fifty percent of the statewide weighted average per capita level of sales and use tax revenues received under RCW 82.14.030(1) with respect to taxable activity in all cities imposing the sales and use tax authorized under RCW 82.14.030(1) in the previous calendar year, for certifications before October 1, 2009, or the previous fiscal year, for certifications on and after October 1, 2009.

(ii) For a city with a per capita assessed property value less than fifty-five percent of the statewide average per capita assessed property value for all cities, an amount determined by subtracting the city's per capita assessed property value from fifty-five percent of the statewide average per capita assessed property value, dividing that amount by one thousand, and multiplying the result by the city's population.

(c) No city may receive an amount greater than one hundred thousand dollars a year under (a) or (b) of this subsection.

(d) To the extent that revenues are insufficient to fund the distributions under this subsection, the distributions of all cities as otherwise determined under this subsection must be ratably reduced.

(e) To the extent that revenues exceed the amounts needed to fund the distributions under this subsection, the excess funds must be divided ratably based upon population

among those cities receiving funds under this subsection and imposing the tax collected under RCW 82.14.030(2) at the maximum rate.

(f) This subsection only applies to cities incorporated before August 1, 2005.

(5) The two hundred fifty thousand dollar amount in subsection (3) of this section and the one hundred thousand dollar amount in subsection (4) of this section must be increased each year beginning in calendar year 2006 by inflation as defined in RCW 84.55.005, as determined by the department of revenue.

(6)(a) Distributions under subsections (3) and (4) of this section must be made quarterly beginning on October 1, 2005, based on population as last determined by the office of financial management. The department of revenue must certify the amounts to be distributed under this section by the state treasurer. The certification must be made by October 1, 2005, for the October 1, 2005, distribution and the January 1, 2006, distribution, based on calendar year 2004 department of revenue distributions of sales and use taxes authorized under RCW 82.14.030(1). The certification must be made by March 1, 2006, for distributions beginning April 1, 2006, by March 1, 2007, for distributions beginning April 1, 2007, and by March 1, 2008, for distributions beginning April 1, 2008. The March 1st certification must be used for distributions occurring on April 1st, July 1st, and October 1st of the year of certification and on January 1st of the year following certification.

(b) By March 1, 2009, the department of revenue must certify the amounts to be distributed under this section on April 1, 2009, July 1, 2009, and October 1, 2009. The certification must be based on calendar year 2008 department of revenue distributions of sales and use taxes authorized under RCW 82.14.030(1), and the population as last determined by the office of financial management.

(c) By October 1, 2009, the department of revenue must certify the amounts to be distributed under this section on January 1, 2010, April 1, 2010, July 1, 2010, and October 1, 2010. The certification must be based on department of revenue distributions in fiscal year 2009 of sales and use taxes authorized under RCW 82.14.030(1), streamlined sales tax mitigation data for mitigation distributions authorized under *RCW 82.14.495 made December 2008 through September 2009, and population as last determined by the office of financial management.

(d) By September 1, 2010, and September 1st of every year thereafter, the department of revenue must make available a preliminary certification of the amounts to be distributed under this section on January 1st, April 1st, July 1st, and October 1st of the year immediately following certification. By October 1, 2010, and October 1st of every year thereafter, the department must finalize the certification. Once finalized, no changes may be made to the certification for any reason. Certifications must be based on distributions of sales and use taxes imposed under RCW 82.14.030(1) made by the department of revenue in the fiscal year that ended during the calendar year of certification, streamlined sales tax mitigation data for mitigation distributions authorized under *RCW 82.14.495 made in the fiscal year that ended during the calendar year of certification, and population as last determined by the office of financial management.

(7) All distributions to local governments from the city-county assistance account constitute increases in state distributions of revenue to political subdivisions for purposes of state reimbursement for the costs of new programs and increases in service levels under RCW 43.135.060, including any claims or litigation pending against the state on or after January 1, 2005.

(8) As used in this section, "streamlined sales tax mitigation funds" means an amount determined by the department of revenue equal to the actual mitigation distribution amount under *RCW 82.14.495 received by a jurisdiction in four consecutive calendar quarters, less the mitigation distribution amount that would have been received by the jurisdiction during the same four calendar quarters had mitigation been calculated without the local sales tax authorized under RCW 82.14.030(1). If the difference is a negative amount or if a jurisdiction does not receive any mitigation distribution during the applicable four calendar quarters, then "streamlined sales tax mitigation funds" is zero. [2009 c 127 § 1; 2005 c 450 § 2.]

*Reviser's note: RCW 82.14.495 was repealed by 2017 3rd sp.s. c 28 § 404, effective October 1, 2019.

43.08.800 Billy Frank Jr. national statutory hall collection fund. (Contingent expiration date.) (1) The Billy Frank Jr. national statutory hall collection fund is created in the custody of the state treasurer. All receipts from gifts, grants, or endowments from public and private sources as authorized under section 3, chapter 20, Laws of 2021 must be deposited into the fund. Expenditures from the fund may be used only to carry out the provisions of chapter 20, Laws of 2021. Only the chair of the committee may authorize expenditures from the fund. The fund is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

(2) This section expires when the duties under sections 3 and 4, chapter 20, Laws of 2021 are completed. [2021 c 20 § 5.]

Notice of expiration date—2021 c 20 § 5: "The Billy Frank Jr. national statutory hall selection committee must provide written notice of the expiration date of section 5 of this act to affected parties, the chief clerk of the house of representatives, the secretary of the senate, the office of the code reviser, and others deemed appropriate by the committee." [2021 c 20 § 6.]

Findings—2021 c 20: "The legislature finds that:

(1) In 1864, the national statutory hall collection was established in the United States capitol authorizing each state to contribute two statues to the collection. The statues must be of deceased persons who were citizens of the respective state and are historically important figures or known for their distinguished civic or military service.

(2) Washington has contributed to the collection a statue of Mother Joseph in 1980 and a statue of Marcus Whitman in 1953.

(3) Marcus Whitman was a missionary who traveled to present-day Washington state with his wife Narcissa. Together, they established several missions as well as their own settlement, Waiilatupu, near present-day Walla Walla. Whitman assisted in the "great emigration" of 1843, which estab-

lished the Oregon trail. Whitman's contributions to the creation of Washington were profound and important. Whitman has represented the state in the statutory hall for nearly 70 years. The legislature finds that it is appropriate to replace his statue with one of a more contemporary Washingtonian to further celebrate the state and the continuous contributions Washingtonians have made in the 20th and 21st centuries.

(4) In the 1850s, the United States government signed a series of treaties with tribes in the region under which the tribes ceded millions of acres of land to the United States in exchange for agreeing to live on reservations while reserving what was most important to them: The right to continue to hunt, fish, and gather in all of their traditional places. Billy Frank Jr., born on March 9, 1931, on the banks of the Nisqually river in Washington, was a Nisqually tribal member and fought tirelessly to ensure that the United States government would honor the promises made in the treaties with Washington tribes. During his efforts, Billy Frank Jr. was arrested more than 50 times for exercising his treaty-protected right to fish for salmon, the first arrest being when he was 14 years old. He helped to stage "fish-ins" as protests, where he and others demanded that treaty tribes have the right to fish in their usual and accustomed places, a right that had been reserved in the treaty of Medicine Creek. His activism and perseverance paved the way for the "Boldt decision" in *United States v. Washington*, which affirmed the right of Washington treaty tribes to take up to half of the harvestable salmon in western Washington, reaffirmed tribal treaty-reserved rights, and established the tribes as comanagers of the salmon resource.

(5) Billy Frank Jr. dedicated his life advocating for equality, justice, and environmental protections. He fought to protect tribal treaty rights, native cultures and traditions, and the natural resources they are based upon, including fish and shellfish. Despite long-standing persecution, Billy Frank Jr. worked tirelessly to protect salmon for the benefit and enjoyment of all Washingtonians. When salmon populations plummeted toward extinction, eventually to the point of being listed as threatened under the federal endangered species act, Billy Frank Jr. vocally advocated to unify people to reverse the trend. His endless work on salmon recovery was based on inclusivity and an understanding that tribal treaty rights will help recover salmon and would benefit the entire society and the economy in enumerable ways.

(6) Billy Frank Jr. was a patron and the longtime chairman of, the north-west Indian fisheries commission, which assists its 20 member tribes in managing salmon and other natural resources and upholding tribal treaty rights, serves as an information clearinghouse, provides a forum for tribes to address issues of mutual concern, and works to establish relationships with government agencies and nongovernment organizations to recover salmon.

(7) Billy Frank Jr.'s unwavering commitment to the fight for equality and the fight against racism and abuse was of global influence.

(8) Billy Frank Jr. has been likened to other humanitarians and civil rights leaders such as Reverend Dr. Martin Luther King Jr., Cesar Chavez, and Nelson Mandela.

(9) In recognition of his distinguished accomplishments, Billy Frank Jr. was awarded the Albert Schweitzer prize for humanitarianism, the common cause award for human rights efforts, the American Indian distinguished service award, the Washington state environmental excellence award, and the Wallace Stegner award. Billy Frank Jr. was posthumously awarded the presidential medal of freedom by President Barack Obama.

(10) Congress passed the Billy Frank Jr. tell your story act, renaming the Nisqually national wildlife refuge in honor of Billy Frank Jr., and establishing a national memorial within the Billy Frank Jr. Nisqually national wildlife refuge to commemorate the location of the signing of the 1854 treaty of Medicine Creek between the United States government and the Nisqually, Muckleshoot, Puyallup, and Squaxin Island tribes.

(11) Billy Frank Jr. passed away on May 5, 2014, but he continues to be an inspiration to many domestically and abroad.

(12) Billy Frank Jr. is a significant historical and civil rights figure who is worthy of recognition and inclusion in the national statutory hall collection." [2021 c 20 § 1.]

Intent—Request of legislature—2021 c 20: "It is the intent and request of the legislature that the statue of Marcus Whitman be removed from the national statutory hall collection at the United States capitol and replaced with a statue of Billy Frank Jr., upon the approval of the joint committee on the library of congress in accordance with 2 U.S.C. Sec. 2132." [2021 c 20 § 2.]

43.09.055 Audit of entities with state contracts or grants—Costs. The state auditor may, where there is reasonable cause to believe that a misuse of state moneys has occurred, conduct an audit of financial and legal compliance of any entity that receives public moneys through contract or grant in return for services. This authority includes examina-

tions of not-for-profit corporations who provide personal services to a state agency or to clients of a state agency. Such a financial audit shall be performed in a manner consistent with this chapter, and may be performed according to an agreed upon procedures engagement as in the existing 1998 standards of the American institute of certified public accountants professional standards section 600.

The state auditor may charge the contracting agency, whether state or local, for the costs of an audit of a not-for-profit corporation that receives public moneys through contract or grant in return for services. Any contracting agency that is responsible to the state auditor for such costs shall use due diligence to recover costs from the audited entity. [1998 c 232 § 3.]

Findings—Intent—1998 c 232: "The legislature finds that the state auditor lacks the needed authority to investigate the finances of state nongovernmental contractors. The legislature further finds that current contract oversight and management procedures cannot ensure that services under contract are delivered effectively and efficiently. Therefore, the legislature intends to enhance the authority of the state auditor to audit entities that provide services to the state or its clients under contract with state agencies." (2) When any person summoned to appear and give testimony neglects or refuses to do so, or neglects or refuses to answer any question that may be put to him or her touching any matter under examination, or to produce any books or papers required, the person making such examination shall apply to a superior court judge of the proper county to issue a subpoena for the appearance of such person before him or her; and the judge shall order the issuance of a subpoena for the appearance of such person forthwith before him or her to give testimony; and if any person so summoned fails to appear, or appearing, refuses to testify, or to produce any books or papers required, he or she shall be subject to like proceedings and penalties for contempt as witnesses in the superior court.

(3) Willful false swearing in any such examination is perjury under chapter 9A.72 RCW. [2003 c 53 § 225; 1995 c 301 § 5.]

(1) In addition to the authority granted in RCW 43.09.165, the state auditor and his or her authorized assistants may apply for and obtain a superior court order approving and authorizing a subpoena in advance of its issuance. The application must (a) state that an order is sought pursuant to this subsection; (b) adequately specify the records, documents, or testimony; and (c) declare under oath that an investigation is being conducted for a lawfully authorized purpose related to an investigation within the state auditor's authority and that the subpoenaed documents or testimony are reasonably related to an investigation within the state auditor's authority.

(2) Where the application under this section is made to the satisfaction of the court, the court must issue an order approving the subpoena. An order under this section constitutes authority of law for the state auditor to subpoena the records or testimony.

(3) The state auditor and his or her authorized assistants may seek approval and a court may issue an order under this section without prior notice to any person, including the person to whom the subpoena is directed and the person who is the subject of an investigation. [2013 c 50 § 2.]

Intent—2013 c 50: "The legislature intends to provide a process for the state auditor's office to apply for court approval of an investigative subpoena which is authorized under current law in cases where the agency seeks such approval, or where court approval is required by Article I, section 7 of the state Constitution. The legislature does not intend to require court approval except where otherwise required by law or Article I, section 7 of the state Constitution. The legislature does not intend to create any new authority to subpoena records or create any new rights for any person." [2013 c 50 § 1.]

43.09.170 May administer oaths. The state auditor may administer all oaths required by law in matters pertaining to the duties of his or her office. [1995 c 301 § 6; 1965 c 8 § 43.09.170. Prior: 1890 p 641 § 23; RRS § 11017; prior: Code 1881 § 2586.]

All documents related to the report and subsequent investigation are also confidential until completion of the investigation or audit or when the documents are otherwise statutorily exempt from public disclosure.

(5) The state auditor must prepare a written determination of the results of the investigation performed, including any background information that the auditor deems necessary. The state auditor must report publicly the conclusions of each investigation and recommend ways to correct any deficiency and to improve efficiency. The reports must be distributed to the affected state agencies.

(6) The state auditor must provide an annual overview and update of hotline investigations, including the results and efficiencies achieved, to the legislature and to the appropriate legislative committees. [2007 c 41 § 1.]

Factors used to determine the frequency of subsequent reviews include the degree to which agencies are found to be in compliance with the act. This criteria shall include, at a minimum, the auditing standards of the United States government accountability office, as well as legislative mandates and performance objectives established by state agencies and the legislature. Mandates include, but are not limited to, agency strategies, timelines, program objectives, and mission and goals as required in RCW 43.88.090.

(b) Using the criteria developed in (a) of this subsection, the state auditor shall contract for a statewide performance review to be completed as expeditiously as possible as a preliminary to a draft work plan for conducting performance audits. The board and the state auditor shall develop a schedule and common methodology for conducting these reviews. The purpose of these performance reviews is to identify those agencies, programs, functions, or activities most likely to benefit from performance audits and to identify likely areas warranting early review, taking into account prior performance audits, if any, and prior fiscal audits.

(c) The board and the state auditor shall develop the draft work plan for performance audits based on input from citizens, state employees, including frontline employees, state managers, chairs and ranking members of appropriate legislative committees, the joint legislative audit and review committee, public officials, and others. The draft work plan may include a list of agencies, programs, or systems to be audited on a timeline decided by the board and the state auditor based on a number of factors including risk, importance, and citizen concerns. When putting together the draft work plan, there should be consideration of all audits and reports already required. On average, audits shall be designed to be completed as expeditiously as possible.

(d) Before adopting the final work plan, the board shall consult with the legislative auditor and other appropriate oversight and audit entities to coordinate work plans and avoid duplication of effort in their planned performance audits of state government agencies. The board shall defer to the joint legislative audit and review committee work plan if a similar audit is included on both work plans for auditing.

(e) The state auditor shall contract out for performance audits. In conducting the audits, agency frontline employees and internal auditors should be involved.

(f) All audits must include consideration of reports prepared by other government oversight entities.

(g) The audits may include:

(i) Identification of programs and services that can be eliminated, reduced, consolidated, or enhanced;

(ii) Identification of funding sources to the state agency, to programs, and to services that can be eliminated, reduced, consolidated, or enhanced;

(iii) Analysis of gaps and overlaps in programs and services and recommendations for improving, dropping, blending, or separating functions to correct gaps or overlaps;

(iv) Analysis and recommendations for pooling information technology systems used within the state agency, and evaluation of information processing and telecommunications policy, organization, and management;

(v) Analysis of the roles and functions of the state agency, its programs, and its services and their compliance with statutory authority and recommendations for eliminating or changing those roles and functions and ensuring compliance with statutory authority;

(vi) Recommendations for eliminating or changing statutes, rules, and policy directives as may be necessary to ensure that the agency carry out reasonably and properly those functions vested in the agency by statute;

(vii) Verification of the reliability and validity of agency performance data, self-assessments, and performance measurement systems as required under RCW 43.88.090;

(viii) Identification of potential cost savings in the state agency, its programs, and its services;

(ix) Identification and recognition of best practices;

(x) Evaluation of planning, budgeting, and program evaluation policies and practices;

(xi) Evaluation of personnel systems operation and management;

(xii) Evaluation of state purchasing operations and management policies and practices; and

(xiii) Evaluation of organizational structure and staffing levels, particularly in terms of the ratio of managers and supervisors to nonmanagement personnel.

(h) The state auditor must solicit comments on preliminary performance audit reports from the audited state agency, the office of the governor, the office of financial management, the board, the chairs and ranking members of appropriate legislative committees, and the joint legislative audit and review committee for comment. Comments must be received within thirty days after receipt of the preliminary performance audit report unless a different time period is approved by the state auditor. All comments shall be incorporated into the final performance audit report. The final performance audit report shall include the objectives, scope, and methodology; the audit results, including findings and recommendations; conclusions; and identification of best practices.

(i) The board and the state auditor shall jointly release final performance audit reports to the governor, the citizens of Washington, the joint legislative audit and review committee, and the appropriate standing legislative committees. Final performance audit reports shall be posted on the internet.

(j) For institutions of higher education, performance audits shall not duplicate, and where applicable, shall make maximum use of existing audit records, accreditation reviews, and performance measures required by the office of financial management and nationally or regionally recognized accreditation organizations including accreditation of hospitals licensed under chapter 70.41 RCW and ambulatory care facilities.

(2) The citizen board created under *RCW 44.75.030 shall be responsible for performance audits for transportation related agencies as defined under *RCW 44.75.020. [2012 c 229 § 817; 2005 c 385 § 5.]

The plan shall provide the name of the contact person responsible for each action, the action planned, and the anticipated completion date. If the audited agency does not agree with the audit findings and recommendations or believes action is not required, then the action plan shall include an explanation and specific reasons.

For agencies under the authority of the governor, the governor may require periodic progress reports from the audited agency until all resolution has occurred.

For agencies under the authority of an elected official other than the governor, the appropriate elected official may require periodic reports of the action taken by the audited agency until all resolution has occurred.

deemed necessary to ensure effective implementation of chapter 43, Laws of 2011 1st sp. sess. [2011 1st sp.s. c 43 § 310.]

(2) The auditor shall complete the audit and publish a report with its findings no later than December 31, 2022.

(3) This section expires July 1, 2023. [2019 c 93 § 3.]

43.09.470 Comprehensive performance audits—Scope—Reports. In addition to audits authorized under RCW 43.88.160, the state auditor shall conduct independent, comprehensive performance audits of state government and each of its agencies, accounts, and programs; local governments and each of their agencies, accounts, and programs; state and local education governmental entities and each of their agencies, accounts, and programs; state and local transportation governmental entities and each of their agencies, accounts, and programs; and other governmental entities, agencies, accounts, and programs. The term "government" means an agency, department, office, officer, board, commission, bureau, division, institution, or institution of higher education. This includes individual agencies and programs, as well as those programs and activities that cross agency lines. "Government" includes all elective and nonelective offices in the executive branch and includes the judicial and legislative branches. The state auditor shall review and analyze the economy, efficiency, and effectiveness of the policies, management, fiscal affairs, and operations of state and local governments, agencies, programs, and accounts. These performance audits shall be conducted in accordance with the United States general accounting office government auditing standards. The scope for each performance audit shall not be limited and shall include nine specific elements: (1) Identification of cost savings; (2) identification of services that can be reduced or eliminated; (3) identification of programs or services that can be transferred to the private sector; (4) analysis of gaps or overlaps in programs or services and recommendations to correct gaps or overlaps; (5) feasibility of pooling information technology systems within the department; (6) analysis of the roles and functions of the department, and recommendations to change or eliminate departmental roles or functions; (7) recommendations for statutory

(2021 Ed.)

or regulatory changes that may be necessary for the department to properly carry out its functions; (8) analysis of departmental performance data, performance measures, and self-assessment systems; and (9) identification of best practices. The state auditor may contract out any performance audits. For counties and cities, the audit may be conducted as part of audits otherwise required by state law. Each audit report shall be submitted to the corresponding legislative body or legislative bodies and made available to the public on or before thirty days after the completion of each audit or each follow-up audit. On or before thirty days after the performance audit is made public, the corresponding legislative body or legislative bodies shall hold at least one public hearing to consider the findings of the audit and shall receive comments from the public. The state auditor is authorized to issue subpoenas to governmental entities for required documents, memos, and budgets to conduct the performance audits. The state auditor may, at any time, conduct a performance audit to determine not only the efficiency, but also the effectiveness, of any government agency, account, or program. No legislative body, officeholder, or employee may impede or restrict the authority or the actions of the state auditor to conduct independent, comprehensive performance audits. To the greatest extent possible, the state auditor shall instruct and advise the appropriate governmental body on a step-by-step remedy to whatever ineffectiveness and inefficiency is discovered in the audited entity. For performance audits of state government and its agencies, programs, and accounts, the legislature must consider the state auditor reports in connection with the legislative appropriations process. An annual report will be submitted by the joint legislative audit and review committee by July 1st of each year detailing the status of the legislative implementation of the state auditor's recommendations. Justification must be provided for recommendations not implemented. Details of other corrective action must be provided as well. For performance audits of local governments and their agencies, programs, and accounts, the corresponding legislative body must consider the state auditor reports in connection with its spending practices. An annual report will be submitted by the legislative body by July 1st of each year detailing the status of the legislative implementation of the state auditor's recommendations. Justification must be provided for recommendations not implemented. Details of other corrective action must be provided as well. The people encourage the state auditor to aggressively pursue the largest, costliest governmental entities first but to pursue all governmental entities in due course. Follow-up performance audits on any state and local government, agency, account, and program may be conducted when determined necessary by the state auditor. Revenues from the performance audits of government account, created in RCW 43.09.475, shall be used for the cost of the audits. [2006 c 1 § 2 (Initiative Measure No. 900, approved November 8, 2005).]

Policies and purposes—2006 c 1 (Initiative Measure No. 900): "It is essential that state and local governments establish credibility with the taxpayers by implementing long-overdue performance audits to ensure accountability and guarantee that tax dollars are spent as cost-effectively as possible. Are politicians spending our current tax revenues as cost-effectively as possible? Voters don't know because politicians have repeatedly blocked our state auditor from conducting independent, comprehensive performance audits on state and local governments, agencies, programs, and accounts.

Currently, Washington is the only state in the nation that prohibits the independently elected state auditor from doing the job he or she was hired to do without explicit legislative permission. This handicap is costing the taxpayers billions of dollars in potential savings. Thankfully, this common sense initiative remedies this egregious failure of politicians to enact this reform. It is absurd for politicians to unilaterally impose tax increases or to seek voter approval for tax increases without first learning if we're getting the biggest bang for the buck from our current tax revenues. This measure requires the state auditor to conduct independent, comprehensive performance audits on state and local governments, agencies, programs, and accounts. This act dedicates a portion of the state's existing sales and use tax (1/100th of 1%) to fund these comprehensive performance audits. Similar performance reviews in Texas have saved taxpayers there nine billion dollars out of nineteen billion dollars in identified savings over the past decade. The performance audits required by this common sense initiative will identify solutions to our public policy problems, saving the taxpayers billions of dollars." 43.10.005 Workplace pregnancy accommodations—Unfair practices—Definitions. (1) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Employer" has the same meaning as and shall be interpreted consistent with how that term is defined in RCW 49.60.040, except that for the purposes of this section only the threshold of employees must be fifteen or more.

(b) "Pregnancy" includes the employee's pregnancy and pregnancy-related health conditions, including the need to express breast milk.

(c) "Reasonable accommodation" means:

(i) Providing more frequent, longer, or flexible restroom breaks;

(ii) Modifying a no food or drink policy;

(iii) Job restructuring, part-time or modified work schedules, reassignment to a vacant position, or acquiring or modifying equipment, devices, or an employee's work station;

(iv) Providing seating or allowing the employee to sit more frequently if her job requires her to stand;

(v) Providing for a temporary transfer to a less strenuous or less hazardous position;

(vi) Providing assistance with manual labor and limits on lifting;

(vii) Scheduling flexibility for prenatal visits;

(viii) Providing reasonable break time for an employee to express breast milk for two years after the child's birth each time the employee has need to express the milk and providing a private location, other than a bathroom, if such a location exists at the place of business or worksite, which may be used by the employee to express breast milk. If the business location does not have a space for the employee to express milk, the employer shall work with the employee to identify a convenient location and work schedule to accommodate their needs; and

(ix) Any further pregnancy accommodation an employee may request, and to which an employer must give reasonable consideration in consultation with information provided on pregnancy accommodation by the department of labor and industries or the attending health care provider of the employee.

(d) "Undue hardship" means an action requiring significant difficulty or expense. An employer may not claim undue hardship for the accommodations under (c)(i), (ii), and (iv) of this subsection, or for limits on lifting over seventeen pounds.

(2) It is an unfair practice for any employer to:

(a) Fail or refuse to make reasonable accommodation for an employee for pregnancy, unless the employer can demonstrate that doing so would impose an undue hardship on the employer's program, enterprise, or business;

(b) Take adverse action against an employee who requests, declines, or uses an accommodation under this section that affects the terms, conditions, or privileges of employment;

(c) Deny employment opportunities to an otherwise qualified employee if such denial is based on the employer's need to make reasonable accommodation required by this section;

(d) Require an employee to take leave if another reasonable accommodation can be provided for the employee's pregnancy.

(3) An employer may request that the employee provide written certification from her treating health care professional regarding the need for reasonable accommodation, except for accommodations listed in subsection (1)(c)(viii) and (d) of this section.

(4)(a) This section does not require an employer to create additional employment that the employer would not otherwise have created, unless the employer does so or would do so for other classes of employees who need accommodation.

(b) This section does not require an employer to discharge any employee, transfer any employee with more seniority, or promote any employee who is not qualified to perform the job, unless the employer does so or would do so to accommodate other classes of employees who need accommodation.

(5) The department of labor and industries must provide online education materials explaining the respective rights and responsibilities of employers and employees who have a health condition related to pregnancy or childbirth. The online education materials must be prominently displayed on the department's web site.

(6) The attorney general shall investigate complaints and enforce this section, including by conference and conciliation. In addition to the complaint process with the attorney general, any person believed to be injured by a violation of this section has a civil cause of action in court to enjoin further violations, or to recover the actual damages sustained by the person, or both, together with the cost of suit and reasonable attorneys' fees or any other appropriate remedy authorized by state or federal law.

(7) This section does not preempt, limit, diminish, or otherwise affect any other provision of law relating to sex discrimination or pregnancy, or in any way diminish or limit legal protections or coverage for pregnancy, childbirth, or a pregnancy-related health condition. [2020 c 111 § 1; 2019 c 134 § 1; 2017 c 294 § 3.]

Finding—1998 c 223: "The legislature finds that increased communications between local law enforcement officers and the state department of corrections' community corrections officers improves public safety through shared monitoring and supervision of offenders living in the community under the jurisdiction of the department of corrections.

Participating local law enforcement agencies and the local offices of the department of corrections have implemented the supervision management and recidivist tracking program, whereby each entity provides mutual assistance in supervising offenders living within the boundaries of local law enforcement agencies. The supervision management and recidivist tracking program has helped local law enforcement solve crimes faster or prevented future criminal activity by reporting offender's sentence violations in a more timely manner to community corrections officers by rapid and comprehensive electronic sharing of information regarding supervised offenders. The expansion of the supervision management and recidivist tracking program will improve public safety throughout the state." [1998 c 223 § 1.]

43.10.230 Purpose. The purpose of RCW 43.10.232 is to grant authority to the attorney general concurrent with the county prosecuting attorneys to investigate and prosecute crimes. The purpose of *RCW 43.10.234 is to insure access by the attorney general to the procedural powers of the various prosecuting attorneys in exercising criminal prosecuto-

rial authority granted in RCW 43.10.232 or otherwise granted by the legislature. [1981 c 335 § 1.]

*Reviser's note: The reference to RCW 43.10.234 appears to be erroneous. RCW 10.01.190 was apparently intended.

43.10.232 Concurrent authority to investigate crimes and initiate and conduct prosecutions—Payment of costs.

(1) The attorney general shall have concurrent authority and power with the prosecuting attorneys to investigate crimes and initiate and conduct prosecutions upon the request of or with the concurrence of any of the following:

(b) The governor of the state of Washington; or

(c) A majority of the committee charged with the oversight of the organized crime intelligence unit.

(2) Such request or concurrence shall be communicated in writing to the attorney general.

(3) Prior to any prosecution by the attorney general under this section, the attorney general and the county in which the offense occurred shall reach an agreement regarding the payment of all costs, including expert witness fees, and defense attorneys' fees associated with any such prosecution. [1986 c 257 § 16; 1981 c 335 § 2.]

Additional notes found at www.leg.wa.gov

43.10.234 Determination of prosecuting authority if defendant charged by attorney general and prosecuting attorney.

If both a prosecuting attorney and the attorney general file an information or indictment charging a defendant with substantially the same offense(s), the court shall, upon motion of either the prosecuting attorney or the attorney general:

(1) Determine whose prosecution of the case will best promote the interests of justice and enter an order designating that person as the prosecuting authority in the case; and

(2) Enter an order dismissing the information or indictment filed by the person who was not designated the prosecuting authority. [1981 c 335 § 3.]

43.10.240 Investigative and criminal prosecution activity—Annual report—Security protection.

The attorney general shall annually report to the chief of the Washington state patrol a summary of the attorney general's investigative and criminal prosecution activity conducted pursuant to this chapter. Except to the extent the summary describes information that is a matter of public record, the information made available to the chief of the Washington state patrol shall be given all necessary security protection in accordance with the terms and provisions of applicable laws and rules and shall not be revealed or divulged publicly or privately. [2009 c 560 § 26; 1985 c 251 § 1.]

Intent—Effective date—Disposition of property and funds—Assignment/delegation of contractual rights or duties—2009 c 560: See notes following RCW 18.06.080.

43.10.250 Appellate review of criminal case. Upon request of a prosecuting attorney, the attorney general may assume responsibility for the appellate review of a criminal case or assist the prosecuting attorney in the appellate review if the attorney general finds that the case involves fundamen-

tal issues affecting the public interest and the administration of criminal justice in this state. [1985 c 251 § 2.]

43.10.260 Criminal profiteering—Assistance to local officials.

The attorney general may: (1) Assist local law enforcement officials in the development of cases arising under the criminal profiteering laws with special emphasis on narcotics related cases; (2) assist local prosecutors in the litigation of criminal profiteering or drug asset forfeiture cases, or, at the request of a prosecutor's office, litigate such cases on its behalf; and (3) conduct seminars and training sessions on prosecution of criminal profiteering cases and drug asset forfeiture cases. [1991 c 345 § 2.]

Findings—1991 c 345: "The legislature finds that drug asset forfeiture and criminal profiteering laws allow law enforcement officials and the courts to strip drug dealers and other successful criminals of the wealth they have acquired from their crimes and the assets they have used to facilitate those crimes. These laws are rarely used by prosecutors, however, because of the difficulty in identifying profiteering and the assets that criminals may have as a result of their crimes. It is the intent of the legislature to provide assistance to local law enforcement officials and state agencies to seize the assets of criminals and the proceeds of their profiteering." [1991 c 345 § 1.]

43.10.270 Criminal profiteering—Asset recovery.

All assets recovered pursuant to RCW 43.10.260 shall be distributed in the following manner: (1) For drug asset forfeitures, pursuant to the provisions of RCW 69.50.505; and (2) for criminal profiteering cases, pursuant to the provisions of RCW 9A.82.100. [1991 c 345 § 3.]

(5) The working group must hold at least four meetings. By July 1, 2020, the office of the attorney general must report the working group's recommendations to the governor and the legislature, in compliance with RCW 43.01.036. [2019 c 271 § 4.]

Findings—Intent—2005 c 319: "The legislature finds that it is in the interest of the state to restructure the roles and responsibilities of the state's transportation agencies in order to improve efficiency and accountability. The legislature also finds that continued citizen oversight of the state's transportation system remains an important priority. To achieve these purposes, the legislature intends to provide direct accountability of the department of transportation to the governor, in his or her role as chief executive officer of state government, by making the secretary of transportation a cabinet-level official. Additionally, it is essential to clearly delineate between the separate and distinct roles and responsibilities of the executive and legislative branches of government. The role of executive is to oversee the implementation of transportation programs, while the legislature reserves to itself the role of policymaking. Finally, consolidating public outreach and auditing of the state's transportation agencies under a single citizen-governed entity, the transportation commission, will provide the public with information about the performance of the transportation system and an avenue for direct participation in its oversight." Effective date—2011 c 60: See RCW 42.17A.919.

Intent—1993 c 279: "It is the intent of the legislature to reduce the number of time-consuming and costly lawsuits between state agencies by establishing alternative dispute resolution processes available to any agency." [1993 c 279 § 1.]

43.17.330 Interagency disputes—Alternative dispute resolution—Methods. Whenever a dispute arises between state agencies, agencies shall employ every effort to resolve the dispute themselves without resorting to litigation. These efforts shall involve alternative dispute resolution methods. If a dispute cannot be resolved by the agencies involved, any one of the disputing agencies may request the governor to assist in the resolution of the dispute. The governor shall employ whatever dispute resolution methods that the governor deems appropriate in resolving the dispute. Such methods may include, but are not limited to, the appointment by the governor of a mediator, acceptable to the disputing agencies, to assist in the resolution of the dispute. The governor may also request assistance from the attorney general to advise the mediator and the disputing agencies. [1993 c 279 § 3.]

RCW 43.17.320 and 43.17.330 shall not apply to any state agency that is a party to a lawsuit, which: (1) Impleads another state agency into the lawsuit when necessary for the administration of justice; or (2) files a notice of appeal, petitions for review, or makes other filings

43.17.360 Lease of real property—Term of a lease—Use of proceeds—Retroactive application. (1) The department of social and health services and other state agencies may lease real property and improvements thereon to a consortium of three or more counties in order for the counties to construct or otherwise acquire correctional facilities for juveniles or adults.

(2) A lease governed by subsection (1) of this section shall not charge more than one dollar per year for the land value and facilities value, during the initial term of the lease, but the lease may include provisions for payment of any reasonable operation and maintenance expenses incurred by the state.

The initial term of a lease governed by subsection (1) of this section shall not exceed twenty years, except as provided in subsection (4) of this section. A lease renewed under subsection (1) of this section after the initial term shall charge the fair rental value for the land and improvements other than those improvements paid for by a contracting consortium. The renewed lease may also include provisions for payment of any reasonable operation and maintenance expenses incurred by the state. For the purposes of this subsection, fair rental value shall be determined by the commissioner of public lands in consultation with the department and shall not include the value of any improvements paid for by a contracting consortium.

(3) The net proceeds generated from any lease entered or renewed under subsection (1) of this section involving land and facilities on the grounds of eastern state hospital shall be used solely for the benefit of eastern state hospital programs for the long-term care needs of patients with mental disorders. These proceeds shall not supplant or replace funding from traditional sources for the normal operations and maintenance or capital budget projects. It is the intent of this subsection to ensure that eastern state hospital receives the full benefit intended by this section, and that such effect will not be diminished by budget adjustments inconsistent with this intent.

(4) The initial term of a lease under subsection (1) of this section entered into after January 1, 1996, and involving the grounds of eastern state hospital, shall not exceed fifty years. This subsection applies retroactively, and the department shall modify any existing leases to comply with the terms of this subsection. No other terms of a lease modified by this subsection may be modified unless both parties agree. [1997 c 349 § 1; 1996 c 261 § 2.]

43.17.400 Disposition of state-owned land—Notice to governmental entities—Right of first refusal. (1) Before any state agency may dispose of surplus state-owned real property to a private or any nongovernmental party, the agency must provide written notice to the following governmental entities at least sixty days before entering into any proposed disposition agreement:

(a) All other state agencies;

(b) Each federal agency operating within the state; and

(c) The governing authority of each county, city, town, special purpose district, and federally recognized Indian tribe in which the land is located.

(2) The state agency must dispose of the property, for continued public benefit as defined in RCW 39.33.015, to any governmental entity responding within the notification period, upon mutual agreement reached within a reasonable time period after the response is received. Priority must be given to state agencies. The disposition may be for any terms and conditions agreed upon by the proper authorities of each party, in accordance with RCW 39.33.010, except where the disposition at fair market value is required by law.

(3) The requirements of this section are in addition and supplemental to other requirements of the laws of this state.

(4) For purposes of this section, "disposition" means the sale, exchange, or other action resulting in a transfer of ownership.

(5) The requirements of this section do not apply to the department of transportation. [2018 c 217 § 2; 2015 c 225 § 64; 2007 c 62 § 2.]

Finding—Intent—2007 c 62: "The legislature recognizes that state agencies dispose of state-owned lands when these lands cannot be advantageously used by the agency or when dispositions are beneficial to the public's interest. The legislature also recognizes that dispositions of state-owned land can create opportunities for counties, cities, and towns wishing to purchase or otherwise acquire the lands, and citizens wishing to enjoy the lands for recreational or other purposes. However, the legislature finds that absent a specific requirement obligating state agencies to notify affected local governments of proposed land dispositions, occasions for governmental acquisition and public enjoyment of certain lands can be permanently lost.

Therefore, the legislature intends to enact an express and supplemental requirement obligating state agencies to notify local governments of proposed land dispositions." [2007 c 62 § 1.]

(2) The legislature also finds that Washington employers rely on a diverse workforce to ensure the economic vitality of the state. Nearly one million Washingtonians are immigrants, which is one out of every seven people in the state. Immigrants make up over sixteen percent of the workforce. In addition, fifteen percent of all business owners in the state were born outside the country, and these business owners have a large impact on the economy through innovation and the creation of jobs. Immigrants make a significant contribution to the economic vitality of this state, and it is essential that the state have policies that recognize their importance to Washington's economy.

(3) In recognition of this significant contribution to the overall prosperity and strength of Washington state, the legislature, therefore, has a substantial and compelling interest in ensuring the state of Washington remains a

Conflict with federal requirements—2019 c 440: "If any part of this act is found to be in conflict with federal requirements that are a prescribed condition to the allocation of federal funds to the state, the conflicting part of this act is inoperative solely to the extent of the conflict and with respect to the agencies directly affected, and this finding does not affect the operation of the remainder of this act in its application to the agencies concerned. Rules adopted under this act must meet federal requirements that are a necessary condition to the receipt of federal funds by the state." [2019 c 440 § 9.]

Effective date—2019 c 440: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [May 21, 2019]." [2019 c 440 § 12.]

(1) The department of enterprise services is created as an executive branch agency. The department is vested with all powers and duties transferred to it under chapter 43, Laws of 2011 1st sp. sess. and such other powers and duties as may be authorized by law.

(2) In addition to the powers and duties as provided in chapter 43, Laws of 2011 1st sp. sess., the department shall provide products and services to support state agencies, and may enter into agreements with any other governmental entity or a public benefit nonprofit organization, in compliance with RCW 39.34.055, to furnish such products and services as deemed appropriate by both parties. 43.19.008 Director—Executive powers and management—Review of programs and services—Audit. (1) The executive powers and management of the department shall be administered as described in this section.

(2) The executive head and appointing authority of the department is the director. The director is appointed by the governor, subject to confirmation by the senate. The director serves at the pleasure of the governor. The director is paid a salary fixed by the governor in accordance with RCW 43.03.040. If a vacancy occurs in the position of director while the senate is not in session, the governor shall make a temporary appointment until the next meeting of the senate at which time he or she shall present to that body his or her nomination for the position.

(3) The director may employ staff members, who are exempt from chapter 41.06 RCW, and any additional staff members as are necessary to administer this chapter, and such other duties as may be authorized by law. The director may delegate any power or duty vested in him or her by chapter 43, Laws of 2011 1st sp. sess. or other law, including authority to make final decisions and enter final orders in hearings conducted under chapter 34.05 RCW.

(4) The internal affairs of the department are under the control of the director in order that the director may manage the department in a flexible and intelligent manner as dictated by changing contemporary circumstances. Unless specifically limited by law, the director has complete charge and supervisory powers over the department. The director may create the administrative structures as the director deems appropriate, except as otherwise specified by law, and the director may employ personnel as may be necessary in accordance with chapter 41.06 RCW, except as otherwise provided by law.

(5) Until June 30, 2018, at the beginning of each fiscal biennium, the office of financial management shall conduct a review of the programs and services that are performed by the department to determine whether the program or service may be performed by the private sector in a more cost-efficient and effective manner than being performed by the department. In conducting this review, the office of financial management shall:

(a) Examine the existing activities currently being performed by the department, including but not limited to an examination of services for their performance, staffing, capital requirements, and mission. Programs may be broken down into discrete services or activities or reviewed as a whole; and

(b) Examine the activities to determine which specific services are available in the marketplace and what potential for efficiency gains or savings exist.

(i) As part of the review in this subsection (5), the office of financial management shall select up to six activities or services that have been determined as an activity that may be provided by the private sector in a cost-effective and efficient manner, including for the 2011-2013 fiscal biennium the bulk

printing services. The office of financial management may consult with affected industry stakeholders in making its decision on which activities to contract for services. Priority for selection shall be given to agency activities or services that are significant, ongoing functions.

(ii) The office of financial management must consider the consequences and potential mitigation of improper or failed performance by the contractor.

(iii) For each of the selected activities, the department shall use a request for information, request for proposal, or other procurement process to determine if a contract for the activity would result in the activity being provided at a reduced cost and with greater efficiency.

(iv) The request for information, request for proposal, or other procurement process must contain measurable standards for the performance of the contract.

(v) The department may contract with one or more vendors to provide the service as a result of the procurement process.

(vi) If the office of financial management determines via the procurement process that the activity cannot be provided by the private sector at a reduced cost and greater efficiency, the department of enterprise services may cancel the procurement without entering into a contract and shall promptly notify the legislative fiscal committees of such a decision.

(vii) The department of enterprise services, in consultation with the office of financial management, must establish a contract monitoring process to measure contract performance, costs, service delivery quality, and other contract standards, and to cancel contracts that do not meet those standards. No contracts may be renewed without a review of these measures.

(viii) The office of financial management shall prepare a biennial report summarizing the results of the examination of the agency's programs and services. In addition to the programs and services examined and the result of the examination, the report shall provide information on any procurement process that does not result in a contract for the services. During each regular legislative session held in odd-numbered years, the legislative fiscal committees shall hold a public hearing on the report and the department's activities under this section.

(ix) The joint legislative audit and review committee shall conduct an audit of the implementation of this subsection (5), and report to the legislature by January 1, 2018, on the results of the audit. The report must include an estimate of additional costs or savings to taxpayers as a result of the contracting out provisions. [2011 1st sp.s. c 43 § 104.]

(1) The director of financial management, after consultation with other interested or affected state agencies, shall establish overall policies governing the acquisition, operation, management, maintenance, repair, and disposal of all motor vehicles owned or operated by any state agency. These policies shall include but not be limited to a definition of what constitutes authorized use of a state owned or controlled passenger motor vehicle and other motor vehicles on official state business. The definition shall include, but not be limited to, the use of state-owned motor vehicles for commuter ride sharing so long as the entire capital depreciation and operational expense of the commuter ride-sharing arrangement is paid by the commuters. Any use other than such defined use shall be considered as personal use.

(2)(a) By June 15, 2010, the director of the *department of general administration, in consultation with the office and other interested or affected state agencies, shall develop strategies to assist state agencies in reducing fuel consumption and emissions from all classes of vehicles.

(b) In an effort to achieve lower overall emissions for all classes of vehicles, state agencies should, when financially comparable over the vehicle's useful life, consider purchasing or converting to ultra-low carbon fuel vehicles.

(3) State agencies shall phase in fuel economy standards for motor pools and leased petroleum-based fuel vehicles to achieve an average fuel economy standard of thirty-six miles per gallon for passenger vehicle fleets by 2015.

(4) After June 15, 2010, state agencies shall:

(a) When purchasing new petroleum-based fuel vehicles for vehicle fleets: (i) Achieve an average fuel economy of

forty miles per gallon for light duty passenger vehicles; and (ii) achieve an average fuel economy of twenty-seven miles per gallon for light duty vans and sports [sport] utility vehicles; or

(b) Purchase ultra-low carbon fuel vehicles.

(5) State agencies must report annually on the progress made to achieve the goals under subsections (3) and (4) of this section beginning October 31, 2011.

(6) The *department of general administration, in consultation with the office and other affected or interested agencies, shall develop a separate fleet fuel economy standard for all other classes of petroleum-based fuel vehicles and report the progress made toward meeting the fuel consumption and emissions goals established by this section to the governor and the relevant legislative committees by December 1, 2012.

(7) The following vehicles are excluded from the average fuel economy goals established in subsections (3) and (4) of this section: Emergency response vehicles, passenger vans with a gross vehicle weight of eight thousand five hundred pounds or greater, vehicles that are purchased for off-pavement use, ultra-low carbon fuel vehicles, and vehicles that are driven less than two thousand miles per year.

(8) Average fuel economy calculations used under this section for petroleum-based fuel vehicles must be based upon the current United States environmental protection agency composite city and highway mile per gallon rating.

(9) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Petroleum-based fuel vehicle" means a vehicle that uses, as a fuel source, more than ten percent gasoline or diesel fuel.

(b) "Ultra-low carbon fuel vehicle" means a vehicle that uses, as a fuel source, at least ninety percent natural gas, hydrogen, biomethane, or electricity. [2010 c 159 § 1; 2009 c 519 § 6; 1982 c 163 § 13; 1980 c 169 § 1; 1979 c 111 § 12; 1975 1st ex.s. c 167 § 5. Formerly RCW 43.41.130.]

43.19.635 Motor vehicle transportation service—Unauthorized use of state vehicles—Procedure—Disciplinary action. (1) The governor, acting through the department and any other appropriate agency or agencies as he or she may direct, is empowered to utilize all reasonable means for detecting the unauthorized use of state owned motor vehicles, including the execution of agreements with the state patrol for compliance enforcement. Whenever such illegal use is discovered which involves a state employee, the employing agency shall proceed as provided by law to establish the amount, extent, and dollar value of any such use, including an opportunity for notice and hearing for the employee involved. When such illegal use is so established, the agency shall assess its full cost of any mileage illegally used and shall recover such amounts by deductions from salary or allowances due to be paid to the offending official or employee by other means. Recovery of costs by the state under this subsection shall not preclude disciplinary or other action by the appropriate appointing authority or employing agency under subsection (2) of this section.

(3) In meeting the procurement requirement established in this section, preference shall be given to vehicles designed to operate exclusively on clean fuels. In the event that vehicles designed to operate exclusively on clean fuels are not available or would not meet the operational requirements for which a vehicle is to be procured, conventionally powered vehicles may be converted to clean fuel or dual fuel use to meet the requirements of this section.

(4) Fuel purchased through a state contract shall be a clean fuel when the fuel is purchased for the operation of a clean-fuel vehicle.

(5)(a) Weight classes are established by the following motor vehicle types:

(i) Passenger cars;

(ii) Light duty trucks, trucks with a gross vehicle weight rating by the vehicle manufacturer of less than eight thousand five hundred pounds;

(iii) Heavy duty trucks, trucks with a gross vehicle weight rating by the vehicle manufacturer of eight thousand five hundred pounds or more.

(b) This subsection does not place an obligation upon the state or its political subdivisions to purchase vehicles in any number or weight class other than to meet the percent procurement requirement.

(6) The provisions for purchasing clean-fuel vehicles under subsections (1) and (2) of this section are intended as minimum levels. The department should seek to increase the purchasing levels of clean-fuel vehicles above the minimum. The department must also investigate all opportunities to aggregate their purchasing with local governments to determine whether or not they can lower their costs and make it cost-efficient to increase the percentage of clean-fuel or high gas mileage vehicles in both the state and local fleets.

(7) For the purposes of this section, "clean fuels" and "clean-fuel vehicles" shall be those fuels and vehicles meeting the specifications provided for in RCW 70A.25.120. [2021 c 65 § 34; 2002 c 285 § 3; 1991 c 199 § 213.]

The amount of biodiesel added to the ultra-low sulfur diesel fuel shall be not less than two percent.

(2) Except as provided in subsection (5) of this section, effective June 1, 2009, state agencies are required to use a minimum of twenty percent biodiesel as compared to total volume of all diesel purchases made by the agencies for the operation of the agencies' diesel-powered vessels, vehicles, and construction equipment.

(4) By December 1, 2009, the department of enterprise services shall:

(a) Report to the legislature on the average true price differential for biodiesel by blend and location; and

(b) Examine alternative fuel procurement methods that work to address potential market barriers for in-state biodiesel producers and report these findings to the legislature.

(5) During the 2019-2021 and 2021-2023 fiscal biennia, the Washington state ferries is required to use a minimum of five percent biodiesel as compared to total volume of all diesel purchases made by the Washington state ferries for the operation of the Washington state ferries diesel-powered vessels, as long as the price of a B5 or B10 biodiesel blend does not exceed the price of conventional diesel fuel by five percent or more. 43.19.646 Coordinating the purchase and delivery of biodiesel—Reports. (1) The department must assist state agencies seeking to meet the biodiesel fuel requirements in RCW 43.19.642 by coordinating the purchase and delivery of biodiesel if requested by any state agency. The department may use long-term contracts of up to ten years, when purchasing from in-state suppliers who use predominantly in-state feedstock, to secure a sufficient and stable supply of biodiesel for use by state agencies.

(2) The department shall compile and analyze the reports submitted under RCW 43.19.642(3) and report in an electronic format its findings and recommendations to the governor and committees of the legislature with responsibility for energy issues, within sixty days from the end of each reporting period. The governor shall consider these reports in determining whether to temporarily suspend minimum renewable fuel content requirements as authorized under RCW 19.112.160. 43.19.647 Purchase of biofuels and biofuel blends—Contracting authority. (1) In order to allow the motor vehicle fuel needs of state and local government to be satisfied by Washington-produced biofuels as provided in this chapter, the department of enterprise services as well as local governments may contract in advance and execute contracts with public or private producers, suppliers, or other parties, for the purchase of appropriate biofuels, as that term is defined in *RCW 43.325.010, and biofuel blends. Contract provisions may address items including, but not limited to, fuel standards, price, and delivery date.

(2) The department of enterprise services may combine the needs of local government agencies, including ports, special districts, school districts, and municipal corporations, for the purposes of executing contracts for biofuels and to secure a sufficient and stable supply of alternative fuels. [2015 c 225 § 65; 2007 c 348 § 203.]

43.19.648 Publicly owned vehicles, vessels, and construction equipment—Fuel usage—Advisory committee—Tires. (1) Effective June 1, 2015, all state agencies, to the extent determined practicable by the rules adopted by the department of commerce pursuant to RCW 43.325.080, are required to satisfy one hundred percent of their fuel usage for operating publicly owned vessels, vehicles, and construction equipment from electricity or biofuel. Compressed natural

gas, liquefied natural gas, or propane may be substituted for electricity or biofuel if the department of commerce determines that electricity and biofuel are not reasonably available.

(2)(a) Effective June 1, 2018, all local government subdivisions of the state, to the extent determined practicable by the rules adopted by the department of commerce pursuant to RCW 43.325.080, are required to satisfy one hundred percent of their fuel usage for operating publicly owned vessels, vehicles, and construction equipment from electricity or biofuel. The department of commerce shall convene an advisory committee of representatives of local government subdivisions, representatives from organizations representing each local government subdivision, and either (i) an electric utility or (ii) a natural gas utility, or both, to work with the department to develop the rules. The department may invite additional stakeholders to participate in the advisory committee as needed and determined by the department.

(b) The following are exempt from this requirement: (i) Transit agencies using compressed natural gas on June 1, 2018, and (ii) engine retrofits that would void warranties. Nothing in this section is intended to require the replacement of equipment before the end of its useful life. Compressed natural gas, liquefied natural gas, or propane may be substituted for electricity or biofuel if the department of commerce determines that electricity and biofuel are not reasonably available.

(c)(i) Rules adopted pursuant to RCW 43.325.080 must provide the authority for local government subdivisions to elect to exempt police, fire, and other emergency response vehicles, including utility vehicles frequently used for emergency response, from the fuel usage requirement in (a) of this subsection.

(ii) Prior to executing its authority under (c)(i) of this subsection, a local government subdivision must provide notice to the department of commerce of the exemption. The notice must include the rationale for the exemption and an explanation of how the exemption is consistent with rules adopted by the department of commerce.

(d) Before June 1, 2018, local government subdivisions purchasing vessels, vehicles, and construction equipment capable of using biodiesel must request warranty protection for the highest level of biodiesel the vessel, vehicle, or construction equipment is capable of using, up to one hundred percent biodiesel, as long as the costs are reasonably equal to a vessel, vehicle, or construction equipment that is not warranted to use up to one hundred percent biodiesel.

(3) In order to phase in this transition for the state, all state agencies, to the extent determined practicable by the department of commerce by rules adopted pursuant to RCW 43.325.080, are required to achieve forty percent fuel usage for operating publicly owned vessels, vehicles, and construction equipment from electricity or biofuel by June 1, 2013. Compressed natural gas, liquefied natural gas, or propane may be substituted for electricity or biofuel if the department of commerce determines that electricity and biofuel are not reasonably available. The department of enterprise services, in consultation with the department of commerce, shall report to the governor and the legislature by December 1, 2013, on what percentage of the state's fuel usage is from electricity or biofuel.

(4) Except for cars owned or operated by the Washington state patrol, when tires on vehicles in the state's motor vehicle fleet are replaced, they must be replaced with tires that have the same or better rolling resistance as the original tires.

(5) By December 31, 2015, the state must, to the extent practicable, install electrical outlets capable of charging electric vehicles in each of the state's fleet parking and maintenance facilities.

(6) The department of transportation's obligations under subsection (3) of this section are subject to the availability of amounts appropriated for the specific purpose identified in subsection (3) of this section.

(7) The department of transportation's obligations under subsection (5) of this section are subject to the availability of amounts appropriated for the specific purpose identified in subsection (5) of this section unless the department receives federal or private funds for the specific purpose identified in subsection (5) of this section.

(8) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Battery charging station" means an electrical component assembly or cluster of component assemblies designed specifically to charge batteries within electric vehicles, which meet or exceed any standards, codes, and regulations set forth by chapter 19.28 RCW and consistent with rules adopted under RCW 19.27.540.

(1) When planning for the capital construction or renovation of a state facility, state agencies shall consider the utilization of fuel cells and renewable or alternative energy sources as a primary source of power for applications that require an uninterruptible power source.

(2) When planning the purchase of back-up or emergency power systems and remote power systems, state agencies shall consider the utilization of fuel cells and renewable or alternative energy sources instead of batteries or internal combustion engines.

(3) The director of enterprise services shall develop criteria by which state agencies can identify, evaluate, and develop potential fuel cell applications at state facilities.

(4) For the purposes of this section, "fuel cell" means an electrochemical reaction that generates electric energy by combining atoms of hydrogen and oxygen in the presence of a catalyst. [2015 c 225 § 66; 2003 c 340 § 1.]

(2) State agencies that are retail electric customers shall investigate opportunities to aggregate the purchase of electricity produced from generation resources that are fueled by wind or solar energy for their facilities located within a single utility's service area, to determine whether or not combined purchasing can reduce the unit cost of those resources.

(3) No public agency is required under this section to purchase clean technologies at prohibitive costs.

(4)(a) "Electric utility" shall have the same meaning as provided under RCW 19.29A.010.

(b) "Clean technology" includes, but may not be limited to, alternative fueled hybrid-electric and fuel cell vehicles, and distributive power generation.

43.19.668 Energy conservation—Legislative finding—Declaration. The legislature finds and declares that the buildings, facilities, equipment, and vehicles owned or leased by state government consume significant amounts of energy and that energy conservation actions, including energy management systems, to provide for efficient energy use in these buildings, facilities, equipment, and vehicles will reduce the costs of state government. In order for the operations of state government to provide the citizens of this state an example of energy use efficiency, the legislature further finds and declares that state government should undertake an aggressive program designed to reduce energy use in state buildings, facilities, equipment, and vehicles within a reasonable period of time. The use of appropriate tree plantings for energy conservation is encouraged as part of this program. [2001 c 214 § 23; 1993 c 204 § 6; 1980 c 172 § 1.]

Findings—2001 c 214: See note following RCW 39.35.010.

43.19.669 Energy conservation—Purpose. It is the purpose of RCW 43.19.670 through 43.19.685 to require energy audits in state-owned buildings, to require energy audits as a lease condition in all new, renewed, and renegotiated leases of buildings by the state, to undertake such modifications and installations as are necessary to maximize the efficient use of energy in these buildings, including but not limited to energy management systems, and to establish a policy for the purchase of state vehicles, equipment, and materials which results in efficient energy use by the state.

For a building that is leased by the state, energy audits and implementation of cost-effective energy conservation measures are required only for that portion of the building

that is leased by the state when the state leases less than one hundred percent of the building. When implementing cost-effective energy conservation measures in buildings leased by the state, those measures must generate savings sufficient to finance the building modifications and installations over a loan period not greater than ten years and allow repayment during the term of the lease. [2001 c 214 § 24; 1980 c 172 § 2.]

Findings—2001 c 214: See note following RCW 39.35.010.

(2) Obligate the lessor to implement identified energy conservation maintenance and operating procedures upon completion of the walk-through survey; and

(3) Obligate the lessor to undertake technical assistance studies and subsequent acquisition and installation of energy conservation measures if the director, in accordance with rules adopted by the department, determines that these stud-

ies and measures will both conserve energy and can be accomplished with a state funding contribution limited to the savings which would result in utility expenses during the term of the lease.

These lease covenants, conditions, and terms shall be incorporated into all specified new, renewed, and renegotiated leases executed on or after January 1, 1983. This section applies to all leases under which state occupancy is at least half of the facility space and includes an area greater than three thousand square feet. [2011 1st sp.s. c 43 § 239; 1982 c 48 § 4; 1980 c 172 § 6.]

(3) To facilitate the participation of small businesses in the provision of goods and services to the state, including purchases under chapters 39.26 and 43.105 RCW, the director, under the powers granted under this chapter, and the department, the department of transportation, and institutions of higher education as defined in RCW 28B.10.016 operating under delegated authority granted under this chapter or RCW 28B.10.029, must give technical assistance to small businesses regarding the state bidding process. Such technical assistance shall include providing opportunities for the agency to answer vendor questions about the bid solicitation requirements in advance of the bid due date and, upon request, holding a debriefing after the contract award to assist the vendor in understanding how to improve his or her responses for future competitive procurements.

(4)(a) The department, the department of transportation, and institutions of higher education as defined in RCW 28B.10.016 must maintain records of state purchasing contracts awarded to registered small businesses in order to track outcomes and provide accurate, verifiable information regarding the effects the technical assistance under subsection (3) of this section is having on the number of small businesses annually receiving state contracts for goods and services purchased by the state.

(b) The department may provide assistance to other agencies attempting to maintain records of state purchasing contracts awarded to registered small businesses for the purposes described under (a) of this subsection. [2012 c 224 § 26; 2011 c 358 § 2.]

Effective date—2012 c 224: See RCW 39.26.900.

Findings—Intent—2011 c 358: "The legislature finds that it is in the state's economic interest and serves a public purpose to promote and facilitate the fullest possible participation by Washington businesses of all sizes in the process by which goods and services are purchased by the state. The legislature further finds that large businesses have the resources to participate fully and effectively in the state's purchasing system, and because of many factors, including economies of scale, the purchasing system tends to create a preference in favor of large businesses and to disadvantage small businesses. The legislature intends, therefore, to assist, to the maximum extent possible, small businesses to participate in order to enhance and preserve competitive enterprise and to ensure that small businesses have a fair opportunity to be awarded contracts or subcontracts for goods and services purchased by the state. The legislature recognizes the need to increase accountability for the state's procurement and contracting practices. The legislature, therefore, intends to encourage all state agencies to maintain records of state purchasing contracts awarded to registered small businesses. The legislature further recognizes that access to a modernized system that categorizes a state business by such factors as its type and size, is an essential tool for receiving accurate and verifiable information regarding the effects any technical assistance is having on the number of small businesses annually receiving state contracts for goods and services purchased by the state." [2011 c 358 § 1.]

(2) By December 31, 2013, the department, the department of transportation, and institutions of higher education as defined in RCW 28B.10.016 must use the web-based information system created under subsection (3)(a) of this section to capture the data required under subsection (3)(a) of this section.

(3)(a) The department, in consultation with the department of transportation and the department of commerce, must develop and implement a web-based information system. The web-based information system must be used to capture data, track outcomes, and provide accurate and verifiable information regarding the effects the technical assistance under RCW 43.19.725(3) is having on the number of small businesses annually receiving state contracts for goods and services purchased by the state. Such measurable data shall include, but not be limited to: (i) The number of registered small businesses that have been awarded state procurement contracts, (ii) the percentage of total state dollars spent for goods and services purchased from registered small businesses, and (iii) the number of registered small businesses that have bid on but were not awarded state purchasing contracts.

(b) By September 1, 2012, the department, in collaboration with the department of transportation, shall submit a report to the appropriate committees of the legislature providing any recommendations for needed legislation to improve the collection of data required under (a) of this subsection.

(c) By December 31, 2013, the department must make the web-based information system available to all state purchasing agencies.

(d) The department may also make the web-based information system available to other agencies that would like to use the system for the purposes of chapter 358, Laws of 2011. [2012 c 224 § 27; 2011 c 358 § 3.]

Upon expiration of the copier and multifunctional device contract, the agency shall utilize a print management contract; and

(c) Any agency with a copier and multifunctional device contract that is terminated on or after January 1, 2012, shall enter a print management contract.

(4) Until December 31, 2016, for each agency transitioning from a copier and multifunctional device contract to a print management contract, the print management contract should result in savings in comparison with the prior copier and multifunctional device contract.

(5) If an agency has more full-time equivalent employees than it had when it entered its most recently completed print management contract, the cost of a new print management contract may exceed the cost of the most recently completed print management contract.

(6) The director of financial management may exempt a state agency, or a program within a state agency, from the requirements of this section if the director deems it unfeasible or the department and agency could not reasonably reach an agreement regarding print management. [2011 1st sp.s. c 43 § 308.]

43.19.736 Print shop services—Bid solicitations—Confidential information. 43.19.742 Agency management of print operations—Department rules and guidelines. To improve the efficiency and minimize the costs of agency-based printing, the department shall establish rules and guidelines for all agencies to use in managing their printing operations, including both agency-based printing and those jobs that require the services of a print shop, as based on the successes of implementation of existing print management programs in state agencies. At a minimum, the rules and guidelines must implement managed print strategies to track, manage, and reduce agency-based printing. [2011 1st sp.s. c 43 § 312.]

43.19.760 Risk management—Principles. It is the policy of the state for the management of risks to which it is exposed to apply the following principles consistently in a state program of risk management:

- (1) To identify those liability and property risks which may have a significant economic impact on the state;
- (2) To evaluate risk in terms of the state's ability to fund potential loss rather than the ability of an individual agency to fund potential loss;
- (3) To eliminate or improve conditions and practices which contribute to loss whenever practical;
- (4) To assume risks to the maximum extent practical;
- (5) To provide flexibility within the state program to meet the unique requirements of any state agency for insurance coverage or service;
- (6) To purchase commercial insurance:
 - (a) When the size and nature of the potential loss make it in the best interest of the state to purchase commercial insurance; or
 - (b) When the fiduciary of encumbered property insists on commercial insurance; or
 - (c) When the interest protected is not a state interest and an insurance company is desirable as an intermediary; or
 - (d) When services provided by an insurance company are considered necessary; or
 - (e) When services or coverages provided by an insurance company are cost-effective; or
 - (f) When otherwise required by statute; and
- (7) To develop plans for the management and protection of the revenues and assets of the state. [1985 c 188 § 2; 1977 ex.s. c 270 § 1. Formerly RCW 43.41.280, 43.19.19361.]

Intent—2002 c 332: "It is the intent of the legislature that state risk management should have increased visibility at a policy level in state government. This increased visibility can best be accomplished by the transfer of the statewide risk management function from the department of general administration to the office of financial management. The legislature intends that this transfer will result in increasing visibility for the management and funding of statewide risk, increasing executive involvement in risk management issues, and improving statewide risk management accountability." 43.19.782 Loss prevention review team—Appointment—Duties—Rules—Annual report. (1) In consultation with the department and upon delegation, a state agency shall appoint a loss prevention review team when the death of a person, serious injury to a person, or other substantial loss is alleged or suspected to be caused at least in part by the actions of a state agency except when the death, injury, or substantial loss is already being investigated by another federal or state agency, or by the affected state agency, pursuant to the federal or state agency requirements. Any review conducted by another agency or under other requirements must contain elements of subsection (3) of this section and must comply with RCW 43.19.783 to the extent RCW 43.19.783 does not conflict with statutes or rules governing those reviews. The department may also direct a state agency to conduct a loss prevention review after consultation with the affected agency as to the purpose, scope, necessary resources, and intended outcomes of the loss prevention review. The department may provide guidance to the state agency conducting the loss prevention review as requested by the state agency.

(2) A loss prevention review team shall consist of at least three persons, and may include independent consultants, contractors, or state employees, but it shall not include any person directly involved in the loss or risk of loss giving rise to the review, nor any person with testimonial knowledge of the incident to be reviewed. At least one member of the review team shall have expertise relevant to the matter under review, but no more than half of the review team members may be employees of the affected agency.

(3) The loss prevention review team shall review the death, serious injury, or other incident and the circumstances surrounding it, evaluate its causes, and recommend steps to reduce the risk of such incidents occurring in the future. The loss prevention review team shall accomplish these tasks by reviewing relevant documents and interviewing persons with relevant knowledge. The loss prevention review team must submit a report in writing to the director and the head of the state agency involved in the loss or risk of loss. The report must include the teams' findings, analyze the causes and contributing factors, analyze future risk, include methods that the agency will use to address and mitigate the risks identified, which may include changes to policies or procedures, and any legislative recommendation necessary to address and carry out the risk treatment strategies identified in the subject report and include the manner in which the agency will measure the effectiveness of its changes. The final report shall not disclose the contents of any documents required by law or regulation to be kept private or confidential, or that are subject to legal privilege or exemption.

(4) The director may develop and enact rules to implement the provisions of this chapter that apply to all state agency loss prevention review teams. State agencies must notify the department immediately upon becoming aware of a death, serious injury, or other substantial loss that is alleged or suspected to be caused at least in part by the actions of the state agency.

(5) All state agencies shall provide the loss prevention review team ready access to relevant documents in their possession and ready access to their employees.

(6) The director shall submit an annual report to the legislature identifying the reviews conducted in the past year, providing appropriate metrics on effectiveness and efficiency of the loss prevention review team and programs, and summarizing any determinations of trends in incidents such as reductions or increases in the frequency or magnitude of losses and innovative approaches to mitigating risks identified. [2017 c 318 § 2; 2011 1st sp.s. c 43 § 508; 2002 c 333 § 2. Formerly RCW 43.41.370.]

Effective date—Purpose—2011 1st sp.s. c 43: See notes following RCW 43.19.003.

Intent—2002 c 333: "The legislature intends that when the death of a person, serious injury to a person, or other substantial loss is alleged or suspected to be caused at least in part by the actions of a state agency, a loss prevention review shall be conducted. The legislature recognizes the tension inherent in a loss prevention review and the need to balance the prevention of harm to the public with state agencies' accountability to the public. The legislature intends to minimize this tension and to foster open and frank discussions by granting members of the loss prevention review teams protection from having to testify, and by declaring a general rule that the work product of these teams is inadmissible in civil actions or administrative proceedings." [2002 c 333 § 1.]

43.19.783 Loss prevention review team—Final report—Use of report and testimony limited. (1) The final report from the state agency's loss prevention review team to the director shall be made public by the director promptly after review, and shall be subject to public disclosure. The final report shall be subject to discovery in a civil or administrative proceeding. However, the final report shall not be admitted into evidence or otherwise used in a civil or administrative proceeding except pursuant to subsection (2) of this section.

(2) The relevant excerpt or excerpts from the final report of a loss prevention review team may be used to impeach a fact witness in a civil or administrative proceeding only if the party wishing to use the excerpt or excerpts from the report first shows the court by clear and convincing evidence that the witness, in testimony provided in deposition or at trial in the present proceeding, has contradicted his or her previous statements to the loss prevention review team on an issue of fact material to the present proceeding. In that case, the party may use only the excerpt or excerpts necessary to demonstrate the contradiction. This section shall not be interpreted as expanding the scope of material that may be used to impeach a witness.

(3) No member of a loss prevention review team may be examined in a civil or administrative proceeding as to (a) the work of the loss prevention review team, (b) the incident under review, (c) his or her statements, deliberations, thoughts, analyses, or impressions relating to the work of the loss prevention review team or the incident under review, or (d) the statements, deliberations, thoughts, analyses, or impressions of any other member of the loss prevention review team, or any person who provided information to it, relating to the work of the loss prevention review team or the incident under review.

(4) Any document that exists prior to the appointment of a loss prevention review team, or that is created independently of such a team, does not become inadmissible merely because it is reviewed or used by the loss prevention review team. A person does not become unavailable as a witness merely because the person has been interviewed by or

has provided a statement to a loss prevention review team. However, if called as a witness, the person may not be examined regarding the person's interactions with the loss prevention review team, including without limitation whether the loss prevention review team interviewed the person, what questions the loss prevention review team asked, and what answers the person provided to the loss prevention review team. This section shall not be construed as restricting the person from testifying fully in any proceeding regarding his or her knowledge of the incident under review.

The policies and specifications shall be revised to include such products unless a recycled content product does not meet an established performance standard of the agency.

(2) By fiscal year 1994, each local government shall adopt a minimum purchasing goal for recycled content as a percentage of the total dollar value of supplies purchased. To assist in achieving this goal each local government shall

adopt a strategy by January 1, 1993, and shall submit a description of the strategy to the department. All public agencies shall respond to requests for information from the department for the purpose of its reporting requirements under this section.

(3) Each local government shall designate a procurement officer who shall serve as the primary contact with the department for compliance with the requirements of this chapter.

(4) This section shall apply only to local governments with expenditures for supplies exceeding five hundred thousand dollars for fiscal year 1989. Expenditures for capital goods and for electricity, water, or gas for resale shall not be considered a supply expenditure. [1998 c 245 § 57; 1991 c 297 § 4.]

43.19A.040 Local government adoption of preferential purchase policy optional. (1) Each local government shall consider the adoption of policies, rules, or ordinances to provide for the preferential purchase of recycled content products. Any local government may adopt the preferential purchasing policy of the department of enterprise services, or portions of such policy, or another policy that provides a preference for recycled content products.

(2) The department of enterprise services shall prepare one or more model recycled content preferential purchase policies suitable for adoption by local governments. The model policy shall be widely distributed and provided through the technical assistance and workshops under RCW 43.19A.070.

(3) A local government that is not subject to the purchasing authority of the department of enterprise services, and that adopts the preferential purchase policy or rules of the department, shall not be limited by the percentage price preference included in such policy or rules. [2015 c 225 § 72; 1991 c 297 § 6.]

43.19A.050 Strategy for state agency procurement. The department shall prepare a strategy to increase purchases of recycled-content products by the department and all state agencies, including higher education institutions. The strategy shall include purchases from public works contracts. The strategy shall address the purchase of plastic products, retread and remanufactured tires, motor vehicle lubricants, latex paint, and lead acid batteries having recycled content. In addition, the strategy shall incorporate actions to achieve the following purchase level goals of compost products:

Compost products as a percentage of the total dollar amount on an annual basis:

(1) At least forty percent by 1996;

(2) At least sixty percent by 1997;

(3) At least eighty percent by 1998. [2009 c 356 § 4; 1996 c 198 § 2; 1991 c 297 § 7.]

43.19A.060 Database of products and vendors. (1) The department shall develop a database of available products with recycled-content products, and vendors supplying such products. The database shall incorporate information regarding product consistency with the content standards adopted under RCW 43.19A.020. The database shall incorporate information developed through state and local government procurement of recycled-content products.

(2) By December 1, 1992, the department shall report to the appropriate standing committees of the legislature on the cost of making the database accessible to all state and local governments and to the private sector.

(3) The department shall compile information on purchases made by the department or pursuant to the department's purchasing authority, and information provided by local governments, regarding:

(a) The percentage of recycled content and, if known, the amount of postconsumer waste in the products purchased;

(b) Price;

(c) Agency experience with the performance of recycled products and the supplier under the terms of the purchase; and

(d) Any other information deemed appropriate by the department. [1991 c 297 § 8.]

43.19A.070 Education program—Product substitution list—Model procurement guidelines. (1) The department shall implement an education program to encourage maximum procurement of recycled products by state and local government entities. The program shall include at least the following:

(a) Technical assistance to all state and local governments and their designated procurement officers on the requirements of this chapter, including preparation of model purchase contracts, the preparation of procurement plans, and the availability of recycled products;

(b) Two or more workshops annually in which all state and local government entities are invited;

(c) Information on intergovernmental agreements to facilitate procurement of recycled products.

(2) The director shall, in consultation with the department of ecology, make available to the public, local jurisdictions, and the private sector, a comprehensive list of substitutes for extremely hazardous, hazardous, toxic, and nonrecyclable products, and disposable products intended for a single use. The department and all state agencies exercising the purchasing authorities of the department shall include the substitute products on bid notifications, except where the department allows an exception based upon product availability, price, suitability for intended use, or similar reasons.

(3) The department shall prepare model procurement guidelines for use by local governments. [1991 c 297 § 9.]

43.19A.080 Bid notification to state recycled content requirements. A notification regarding a state or local government's intent to procure products with recycled content must be prominently displayed in the procurement solicitation or invitation to bid including:

(1) A description of the postconsumer waste content or recycled content requirements; and

(2) A description of the agency's recycled content preference program. [1991 c 297 § 11.]

43.19A.110 Local road projects—Compost products.

(1) Each county and city required to prepare a strategy under RCW 43.19A.030 shall adopt specifications for compost products to be used in road projects. The specifications developed by the department of transportation under RCW

47.28.220 may be adopted by the city or county in lieu of developing specifications.

(2) After July 1, 1992, any contract awarded in whole or in part for applying soils, soil covers, or soil amendments to road rights-of-way shall specify that compost materials be purchased in accordance with the following schedule:

(a) For the period July 1, 1992, through June 30, 1994, at least twenty-five percent of the total dollar amount of purchases by the city or county;

(b) On and after July 1, 1994, at least fifty percent of the annual total dollar amount of purchases by the city or county.

(3) The city or county may depart from the schedule in subsection (2) of this section where it determines that no suitable product is available at a reasonable price. [1991 c 297 § 17.]

43.19A.120 Use of compost products in projects. (1)

When planning government-funded projects or soliciting and reviewing bids for such projects, all state agencies and local governments shall consider whether compost products can be utilized in the project.

(2) If compost products can be utilized in the project, the state agency or local government must use compost products, except as follows:

(a) A state agency or local government is not required to use compost products if:

(i) Compost products are not available within a reasonable period of time;

(ii) Compost products that are available do not comply with existing purchasing standards;

(iii) Compost products that are available do not comply with federal or state health, quality, and safety standards; and

(iv) Compost purchase prices are not reasonable or competitive; and

(b) A state agency is also not required to use compost products in a project if:

(i) The total cost of using compost is financially prohibitive;

(ii) Application of compost will have detrimental impacts on the physical characteristics and nutrient condition of the soil as it is used for a specific crop;

(iii) The project consists of growing trees in a greenhouse setting, including seed orchard greenhouses; or

(iv) The compost products that are available have not been certified as being free of crop-specific pests and pathogens, including pests and pathogens that could result in the denial of phytosanitary permits for shipping seedlings.

(3) Before the transportation or application of compost products under this section, composting facilities, state agencies, and local governments must ensure compliance with department of agriculture pest control regulations provided in chapter 16-470 WAC.

(4) State agencies and local governments are encouraged to give priority to purchasing compost products from companies that produce compost products locally, are certified by a nationally recognized organization, and produce compost products that are derived from municipal solid waste compost programs and meet quality standards adopted by rule by the department of ecology. [2020 c 290 § 2.]

Findings—Legislative declaration—2020 c 290: "The legislature finds and declares that local compost manufacturing plays a critical role in

our state's solid waste infrastructure. Composting benefits Washington agencies, counties, cities, businesses, and residents by diverting hundreds of thousands of tons of organic waste from landfills, reducing solid waste costs, and lowering carbon emissions. The legislature finds that a growing number of local governments are recognizing the benefits of composting programs and offering compost collection to their residents and businesses. The diversion of food waste from landfills to compost processors remains critical for state and local governments to meet their ambitious diversion goals.

The legislature also finds that composting is a strong carbon reduction industry for Washington, as the application of compost to soil systems permits increased carbon sequestration. Compost can also replace synthetic chemical fertilizer, prevent topsoil erosion, and filter stormwater on green infrastructure projects such as rain gardens and retention ponds.

The legislature declares that state and local governments should lead by example by purchasing and using local compost that meets state standards and by encouraging farming operations to do so as well." [2020 c 290 § 1.]

43.19A.130 Local governments encouraged to enter compost product purchasing agreements. (1) Each local government that provides a residential composting service is encouraged to enter into a purchasing agreement with its compost processor to buy back finished compost products for use in government projects or on government land. The local government is encouraged to purchase an amount of finished compost product that is equal to or greater than fifty percent of the amount of organic residuals it delivered to the compost processor. Local governments may enter into collective purchasing agreements if doing so is more cost-effective or efficient. The compost processor should offer a purchase price that is reasonable and competitive for the specific market.

(2) When purchasing compost products for use in government projects or on government-owned land, local governments are encouraged to purchase compost with at least eight percent food waste, or an amount of food waste that is commensurate with that in the local jurisdiction's curbside collection program. [2020 c 290 § 3.]

Prior: 1989 1st ex.s. c 9 § 210; 1989 c 207 § 1; 1985 c 213 § 1; 1979 c 141 § 49; 1967 ex.s. c 102 § 9; 1965 c 8 § 43.20.050; prior: (i) 1901 c 116 § 1; 1891 c 98 § 2; RRS § 6001. (ii) 1921 c 7 § 58; RRS § 10816.]

Explanatory statement—2021 c 65: See note following RCW 53.54.030.

Findings—1993 c 492: "The legislature finds that our health and financial security are jeopardized by our ever increasing demand for health care and by current health insurance and health system practices. Current health system practices encourage public demand for unneeded, ineffective, and sometimes dangerous health treatments. These practices often result in unaffordable cost increases that far exceed ordinary inflation for essential care. Current total health care expenditure rates should be sufficient to provide access to essential health care interventions to all within a reformed, efficient system.

The legislature finds that too many of our state's residents are without health insurance, that each year many individuals and families are forced into poverty because of serious illness, and that many must leave gainful employment to be eligible for publicly funded medical services. Additionally, thousands of citizens are at risk of losing adequate health insurance, have had insurance canceled recently, or cannot afford to renew existing coverage.

The legislature finds that businesses find it difficult to pay for health insurance and remain competitive in a global economy, and that individuals, the poor, and small businesses bear an inequitable health insurance burden.

The legislature finds that persons of color have significantly higher rates of mortality and poor health outcomes, and substantially lower numbers and percentages of persons covered by health insurance than the general population. It is intended that chapter 492, Laws of 1993 make provisions to address

(2021 Ed.)

the special health care needs of these racial and ethnic populations in order to improve their health status.

The legislature finds that uncontrolled demand and expenditures for health care are eroding the ability of families, businesses, communities, and governments to invest in other enterprises that promote health, maintain independence, and ensure continued economic welfare. Housing, nutrition, education, and the environment are all diminished as we invest ever increasing shares of wealth in health care treatments.

The legislature finds that while immediate steps must be taken, a long-term plan of reform is also needed." [1993 c 492 § 101.]

Intent—1993 c 492: "(1) The legislature intends that state government policy stabilize health services costs, assure access to essential services for all residents, actively address the health care needs of persons of color, improve the public's health, and reduce unwarranted health services costs to preserve the viability of nonhealth care businesses.

(2) The legislature intends that:

(a) Total health services costs be stabilized and kept within rates of increase similar to the rates of personal income growth within a publicly regulated, private marketplace that preserves personal choice;

(b) State residents be enrolled in the certified health plan of their choice that meets state standards regarding affordability, accessibility, cost-effectiveness, and clinical efficaciousness;

(c) State residents be able to choose health services from the full range of health care providers, as defined in RCW 43.72.010(12), in a manner consistent with good health services management, quality assurance, and cost effectiveness;

(d) Individuals and businesses have the option to purchase any health services they may choose in addition to those included in the uniform benefits package or supplemental benefits;

(e) All state residents, businesses, employees, and government participate in payment for health services, with total costs to individuals on a sliding scale based on income to encourage efficient and appropriate utilization of services;

(f) These goals be accomplished within a reformed system using private service providers and facilities in a way that allows consumers to choose among competing plans operating within budget limits and other regulations that promote the public good; and

(g) A policy of coordinating the delivery, purchase, and provision of health services among the federal, state, local, and tribal governments be encouraged and accomplished by chapter 492, Laws of 1993.

(3) Accordingly, the legislature intends that chapter 492, Laws of 1993 provide both early implementation measures and a process for overall reform of the health services system." [1993 c 492 § 102.]

Rules and regulations—Visual and auditory screening of pupils: RCW 28A.210.020.

43.20.065 On-site sewage system failures and inspections—Rule making. (1) Rules adopted by the state board under RCW 43.20.050(3) regarding failures of on-site sewage systems must:

(a) Give first priority to allowing repair and second priority to allowing replacement of an existing conventional on-site sewage system, consisting of a septic tank and drainfield, with a similar conventional system;

(b) Not impose or allow the imposition of more stringent performance requirements of equivalent on-site sewage systems on private entities than public entities; and

(c) Allow a system to be repaired using the least expensive alternative that meets standards and is likely to provide comparable or better long-term sewage treatment and effluent dispersal outcomes.

(2) Rules adopted by the state board under RCW 43.20.050(3) regarding inspections must:

(a) Require any inspection of an on-site sewage system carried out by a certified professional inspector or public agency to be coordinated with the owner of the on-site sewage system prior to accessing the on-site sewage system;

(b) Require any inspection of an on-site sewage system carried out by a certified professional inspector or responsible public agency to be authorized by the owner of the on-site sewage system prior to accessing the on-site sewage system;

(c) Allow, in cases where an inspection has not been authorized by a property owner, the local health jurisdiction to follow the procedures established for an administrative search warrant in RCW 70A.105.030; and

(d) Forbid local health jurisdictions from requiring private property owners to grant inspection or maintenance easements for on-site sewage systems as a condition of permit issuance for on-site sewage systems that are located on a single property and service a single dwelling unit. [2021 c 65 § 38; 2019 c 21 § 2.]

Explanatory statement—2021 c 65: See note following RCW 53.54.030.

Finding—Intent—2019 c 21: "The legislature finds that properly functioning on-site sewage systems are an important component of the state's wastewater treatment infrastructure. In order to ensure that on-site sewage systems remain a wastewater treatment option that is economically accessible to a wide sector of the state's population, it is the intent of the legislature to ensure that only requirements that are reasonable, appropriately tailored, and necessary are imposed on the installation, operation, maintenance, or repair of on-site sewage systems." [2019 c 21 § 1.]

43.20.100 Biennial report. The state board of health shall report to the governor by July 1st of each even-numbered year including therein suggestions for public health priorities for the following biennium and such legislative action as it deems necessary. [2009 c 518 § 23; 1977 c 75 § 44; 1965 c 8 § 43.20.100. Prior: 1891 c 98 § 11; RRS § 6007.]

43.20.145 Food service rules—Consideration of federal food code—Safety standards for Asian rice-based noodles and Korean rice cakes. (1) The state board shall consider the most recent version of the United States food and drug administration's food code for the purpose of adopting rules for food service.

(2)(a) In considering the adoption of rules for food service, the state board shall consider scientific data regarding time-temperature safety standards for Asian rice-based noodles and Korean rice cakes.

(b) For the purposes of this subsection (2):

(i) "Asian rice-based noodles" means a rice-based pasta that contains rice powder, water, wheat starch, vegetable cooking oil, and optional ingredients to modify the pH or water activity, or to provide a preservative effect. The ingredients do not include products derived from animals. The rice-based pasta is prepared by using a traditional method that includes cooking by steaming at not less than one hundred thirty degrees Fahrenheit, for not less than four minutes.

(ii) "Korean rice cake" means a confection that contains rice powder, salt, sugar, various edible seeds, oil, dried beans, nuts, dried fruits, and dried pumpkin. The ingredients do not include products derived from animals. The confection is prepared by using a traditional method that includes cooking by steaming at not less than two hundred seventy-five degrees Fahrenheit, for not less than five minutes, nor more than fifteen minutes. [2016 sp.s. c 20 § 2; 2003 c 65 § 2.]

Findings—Intent—2016 sp.s. c 20: "(1) The legislature finds that Asian rice-based noodles and Korean rice cakes are cultural foods that possess different time-temperature safety standards from other foods sold for human consumption. The legislature finds that Asian rice-based noodles kept

at room temperature are safe for consumption within four hours of the time that the product first comes out of hot holding at temperatures at or above one hundred thirty-five degrees, or when the product has a pH of 4.6 or below, a water activity of 0.85 or below, or has been determined by the department to not be a potentially hazardous food based on formulation and supporting laboratory documentation submitted to the department of health by the manufacturer. Further, the legislature finds that Korean rice cakes are safe for consumption within one day of manufacture.

(2)(a) This act is intended to direct the state board of health to consider new standards for time-temperature requirements of Asian rice-based noodles and Korean rice cakes intended for human consumption. Further, this act is intended to direct the state board of health to consider laws enacted by other states regarding standards for time-temperature and manufacturer package labeling requirements of Asian rice-based noodles and Korean rice cakes.

(b) The legislature does not intend to create a private right of action or claim on the part of any individual, entity, or agency against the state board of health, any contractor of the state board of health, or the department of health." [2016 sp.s. c 20 § 1.]

Intent—2003 c 65: "The United States food and drug administration's food code incorporates the most recent food science and technology. The code is regularly updated in consultation with the states, the scientific community, and the food service industry. The food and drug administration's food code provides consistency for food service regulations, and it serves as a model for many states' food service rules. It is the legislature's intent that the state board of health use the United States food and drug administration's food code as guidance when developing food service rules for this state." [2003 c 65 § 1.]

This information shall be included in water system plans submitted to the department of health for approval after July 1, 1993. The department shall evaluate the following:

(1) Rate structures currently used by public water systems in Washington; and

(2) Economic and institutional constraints to implementing conservation rate structures. [1998 c 245 § 58; 1993 sp.s. c 4 § 10.]

The department may extend this ninety-day time limitation for new submittals by up to an additional ninety days if insufficient time exists to adequately review the general comprehensive plan. For rejections of plans or extensions of the timeline, the department shall provide in writing, to the person or entity submitting the plan, the reason for such action. After July 1, 2030, the state board may, by rule, define "elevated lead level" at a concentration of five or fewer parts per billion if scientific evidence supports a lower concentration as having the potential for further reducing the health effects of lead contamination in drinking water. [2021 c 154 § 6.]

Findings—Intent—Short title—2021 c 154: See notes following RCW 43.70.830.

43.20.270 Governor's interagency coordinating council on health disparities—Action plan—Statewide policy. The legislature finds that women and people of color experience significant disparities from men and the general population in education, employment, healthful living conditions, access to health care, and other social determinants of health. The legislature finds that these circumstances coupled with lower, slower, and less culturally appropriate and gender appropriate access to needed medical care result in higher rates of morbidity and mortality for women and persons of color than observed in the general population. Health disparities are defined by the national institute of health as the differences in incidence, prevalence, mortality, and burden of disease and other adverse health conditions that exist among specific population groups in the United States.

It is the intent of the Washington state legislature to create the healthiest state in the nation by striving to eliminate health disparities in people of color and between men and women. In meeting the intent of chapter 239, Laws of 2006, the legislature creates the governor's interagency coordinating council on health disparities. This council shall create an action plan and statewide policy to include health impact reviews that measure and address other social determinants of health that lead to disparities as well as the contributing factors of health that can have broad impacts on improving status, health literacy, physical activity, and nutrition. [2006 c 239 § 1.]

43.20.275 Council created—Membership—Duties—Advisory committees. (1) In collaboration with staff whom the office of financial management may assign, and within funds made expressly available to the state board for these purposes, the state board shall assist the governor by convening and providing assistance to the council. The council shall include one representative from each of the following groups: Each of the commissions, the state board, the department, the department of social and health services, the department of commerce, the health care authority, the department of agriculture, the department of ecology, the office of the superintendent of public instruction, the department of children, youth, and families, the workforce training and education coordinating board, and two members of the public who will represent the interests of health care consumers. The council is a class one group under RCW 43.03.220. The two public members shall be paid per diem and travel expenses in accordance with RCW 43.03.050 and 43.03.060. The council shall reflect diversity in race, ethnicity, and gender. The governor or the governor's designee shall chair the council.

(2) The council shall promote and facilitate communication, coordination, and collaboration among relevant state agencies and communities of color, and the private sector and public sector, to address health disparities. The council shall

conduct public hearings, inquiries, studies, or other forms of information gathering to understand how the actions of state government ameliorate or contribute to health disparities. All state agencies must cooperate with the council's efforts.

(3) The council with assistance from the state board, shall assess through public hearings, review of existing data, and other means, and recommend initiatives for improving the availability of culturally appropriate health literature and interpretive services within public and private health-related agencies.

(4) In order to assist with its work, the council shall establish advisory committees to assist in plan development for specific issues and shall include members of other state agencies and local communities.

(5) The advisory committee shall reflect diversity in race, ethnicity, and gender. [2018 c 58 § 19; 2006 c 239 § 3.]

Effective date—2018 c 58: See note following RCW 28A.655.080.

43.20.280 Action plan for eliminating health disparities—Council meetings—Reports to the legislature. The council shall consider in its deliberations and by 2012, create an action plan for eliminating health disparities. The action plan must address, but is not limited to, the following diseases, conditions, and health indicators: Diabetes, asthma, infant mortality, HIV/AIDS, heart disease, strokes, breast cancer, cervical cancer, prostate cancer, chronic kidney disease, sudden infant death syndrome (SIDS), mental health, women's health issues, smoking cessation, oral disease, and immunization rates of children and senior citizens. The council shall prioritize the diseases, conditions, and health indicators according to prevalence and severity of the health disparity. The council shall address these priorities on an incremental basis by adding no more than five of the diseases, conditions, and health indicators to each update or revised version of the action plan. The action plan shall be updated biannually. The council shall meet as often as necessary but not less than two times per calendar year. The council shall report its progress with the action plan to the governor and the legislature no later than January 15, 2008. A second report shall be presented no later than January 15, 2010, and a third report from the council shall be presented to the governor and the legislature no later than January 15, 2012. Thereafter, the governor and legislature shall require progress updates from the council every four years in odd-numbered years. The action plan shall recognize the need for flexibility. [2006 c 239 § 4.]

43.20.285 Health impact reviews—Obtaining and allocating federal or private funding to implement chapter. The state board shall, to the extent that funds are available expressly for this purpose, complete health impact reviews, in collaboration with the council, and with assistance that shall be provided by any state agency of which the board makes a request.

(1) A health impact review may be initiated by a written request submitted according to forms and procedures proposed by the council and approved by the state board before December 1, 2006.

(2) Any state legislator or the governor may request a review of any proposal for a state legislative or budgetary change. Upon receiving a request for a health impact review

(2021 Ed.)

from the governor or a member of the legislature during a legislative session, the state board shall deliver the health impact review to the requesting party in no more than ten days.

(3) The state board may limit the number of health impact reviews it produces to retain quality while operating within its available resources.

(4) A state agency may decline a request to provide assistance if complying with the request would not be feasible while operating within its available resources.

(5) Upon delivery of the review to the requesting party, it shall be a public document, and shall be available on the state board's web site.

(6) The review shall be based on the best available empirical information and professional assumptions available to the state board within the time required for completing the review. The review should consider direct impacts on health disparities as well as changes in the social determinants of health.

(7) The state board and the department shall collaborate to obtain any federal or private funding that may become available to implement the state board's duties under this chapter. If the department receives such funding, the department shall allocate it to the state board and affected agencies to implement its duties under this chapter, and any state general funds that may have been appropriated but are no longer needed by the state board shall lapse to the state general fund. [2006 c 239 § 5.]

43.20.290 Obtaining and allocating federal or private funding. The state board and the department shall collaborate to obtain any federal or private funding that may become available to implement the state board's duties under this chapter. If the department receives such funding, the department shall allocate it to the state board to implement its duties under this chapter, and any state general funds that may have been appropriated but are no longer needed by the state board shall lapse to the state general fund. [2006 c 239 § 6.]

43.20.300 Local boards of health—Membership. (1) The state board of health shall adopt rules establishing the appointment process for the members of local boards of health who are not elected officials. The selection process established by the rules must:

(a) Be fair and unbiased; and

(b) Ensure, to the extent practicable, that the membership of local boards of health include a balanced representation of elected officials and nonelected people with a diversity of expertise and lived experience.

(2) The rules adopted under this section must go into effect no later than one year after July 25, 2021. [2021 c 205 § 8.]

Finding—2021 c 205: See note following RCW 43.70.675.

(2) The assurance required under subsection (1) of this section must be a condition of contracting with the department and may be satisfied through one or more of the following contractual commitments made on the part of the contractor through the life of the contract as a condition of receiving or renewing a contract:

(a) An agreement between the contractor and any exclusive representative labor organization representing the employees performing the contracted services that contains a provision prohibiting economic or industrial action on the part of all parties and includes a process for the resolution of disputes between them;

(b) An agreement between the contractor and any labor organization seeking to represent the employees performing the contracted services that includes a provision prohibiting the parties from causing, promoting, or encouraging economic, industrial, or other disruptive activity on the part of the contractor or employees performing services under the contract, and includes a process for resolution of disputes between parties; or

(c) Any other agreement or binding obligation providing assurances equivalent to those specified in (a) and (b) of this subsection that are to be maintained through the life of the contract.

(3) The assurance made to the department must be a binding provision of any contract subject to this section and constitutes a warranty to the department on the part of the contractor.

(4) Failure to maintain the assurance, such that the services contracted by the department are interrupted, shall entitle the department to terminate, suspend, or revoke the contract and make arrangements for the provision of services by other means.

(5) In awarding any contract subject to this section, the department must take into consideration any prior disruptions in the provision of services by the contractor and whether the assurance provided by the contractor pursuant to this section has mitigated the risk of a reoccurrence of the disruptions, if any.

(6) Any contract subject to this section that is awarded or renewed must include a provision providing for reimbursement to the department of the actual costs to the department arising from the inadequacy of the assurance provided by the contractor. [2020 c 201 § 2.]

Intent—Findings—2020 c 201: "The legislature intends to provide the uninterrupted delivery of essential services to its most vulnerable citizens and to provide efficiency and quality in the delivery of such services purchased by the state. The legislature finds that the state's proprietary interest in procuring the services authorized by chapter 43.20A RCW includes providing continuity in the delivery of such services without interruption by its vendors and contractors. The legislature finds that this interest is served by making sure private sector providers contracted by the state have averted or meaningfully mitigated the possibility of service disruptions resulting from labor management disputes and employee unrest.

The legislature finds that the contracts and services subject to chapter 43.20A RCW are essential and, if disrupted, could harm vulnerable members of the community, compromise the efficient delivery of essential state services, and burden taxpayers with additional costs. Thus, the legislature designates the continuity of operations as a vital procurement goal with respect to services that the state funds to provide these services to the public.

The legislature further finds that by contracting for the provisions of the services rather than providing them directly, the state may negotiate contracts with vendors that are conditioned on meeting this procurement goal insofar as private entities continue to find it commercially advantageous to offer such services to the state on the terms sought by the state." [2020 c 201 § 1.]

43.20A.550 Federal programs—Rules and regulations—Internal reorganization to meet federal requirements—Statutes to be construed to meet federal law—Conflicting parts deemed inoperative. In furtherance of the policy of the state to cooperate with the federal government in all of the programs under the jurisdiction of the department, such rules and regulations as may become necessary to entitle the state to participate in federal funds may be adopted, unless the same be expressly prohibited by law. Any internal reorganization carried out under the terms of this chapter shall meet federal requirements which are a necessary condition to state receipt of federal funds. Any section or provision of law dealing with the department which may be susceptible to more than one construction shall be interpreted in favor of the construction most likely to comply with federal laws entitling this state to receive federal funds for the various programs of the department. If any law dealing with the department is ruled to be in conflict with federal requirements which are a prescribed condition of the allocation of federal funds to the state, or to any departments or agencies thereof, such conflicting part of chapter 18, Laws of 1970 ex. sess. is declared to be inoperative solely to the extent of the conflict. [1979 c 141 § 66; 1970 ex.s. c 18 § 66.]

43.20A.605 Authority to administer oaths and issue subpoenas—Provisions governing subpoenas. (1) The secretary or a designee shall have full authority to administer oaths and take testimony thereunder, to issue subpoenas requiring the attendance of witnesses before him or her together with all books, memoranda, papers, and other documents, articles or instruments, and to compel the disclosure by such witnesses of all facts known to them relative to the matters under investigation.

(2) Subpoenas issued in adjudicative proceedings are governed by RCW 34.05.588(1).

(3) Subpoenas issued in the conduct of investigations required or authorized by other statutory provisions or neces-

sary in the enforcement of other statutory provisions shall be governed by RCW 34.05.588(2).

(4) When a judicially approved subpoena is required by law, the secretary or designee may apply for and obtain a superior court order approving and authorizing a subpoena in advance of its issuance. The application may be made in the county where the subpoenaed person resides or is found, or in the county where the subpoenaed documents, records, or evidence are located, or in Thurston county. The application must:

(a) State that an order is sought under this section;

(b) Adequately specify the documents, records, evidence, or testimony; and

(c) Include a declaration made under oath that an investigation is being conducted for a lawfully authorized purpose related to an investigation within the department's authority and that the subpoenaed documents, records, evidence, or testimony are reasonably related to an investigation within the department's authority.

(5) When an application under subsection (4) of this section is made to the satisfaction of the court, the court must issue an order approving the subpoena. When a judicially approved subpoena is required by law, an order under this subsection constitutes authority of law for the agency to subpoena the documents, records, evidence, or testimony.

(6) The secretary or designee may seek approval and a court may issue an order under this section without prior notice to any person, including the person to whom the subpoena is directed and the person who is the subject of an investigation. An application for court approval is subject to the fee and process set forth in RCW 36.18.012(3). 43.20A.710 Investigation of conviction records or pending charges of state employees and individual providers. (1) The secretary shall investigate the conviction records, pending charges and disciplinary board final decisions of:

(a) Any current employee or applicant seeking or being considered for any position with the department who will or may have unsupervised access to children, vulnerable adults, or individuals with mental illness or developmental disabilities. This includes, but is not limited to, positions conducting comprehensive assessments, financial eligibility determinations, licensing and certification activities, investigations, surveys, or case management; or for state positions otherwise required by federal law to meet employment standards;

(b) Individual providers as defined in RCW 74.39A.240 and providers who are paid by home care agencies to provide in-home services involving unsupervised access to persons with physical, mental, or developmental disabilities or mental illness, or to vulnerable adults as defined in chapter 74.34 RCW, including but not limited to services provided under chapter 74.39 or 74.39A RCW; and

(c) Individuals or businesses or organizations for the care, supervision, case management, or treatment of children, persons with developmental disabilities, or vulnerable adults, including but not limited to services contracted for under chapter 18.20, 70.127, 70.128, 72.36, or 74.39A RCW or Title 71A RCW.

(2) The secretary shall require a fingerprint-based background check through both the Washington state patrol and the federal bureau of investigation as provided in RCW 43.43.837. Unless otherwise authorized by law, the secretary shall use the information solely for the purpose of determining the character, suitability, and competence of the applicant.

(3) Except as provided in subsection (4) of this section, an individual provider or home care agency provider who has resided in the state less than three years before applying for employment involving unsupervised access to a vulnerable adult as defined in chapter 74.34 RCW must be fingerprinted for the purpose of investigating conviction records through both the Washington state patrol and the federal bureau of investigation. This subsection applies only with respect to the

provision of in-home services funded by medicaid personal care under RCW 74.09.520, community options program entry system waiver services under RCW 74.39A.030, or chore services under RCW 74.39A.110. However, this subsection does not supersede RCW 74.15.030(2).

(4) Long-term care workers, as defined in RCW 74.39A.009, who are hired after January 7, 2012, are subject to background checks under RCW 74.39A.056, except that the department may require a background check at any time under RCW 43.43.837. For the purposes of this subsection, "background check" includes, but is not limited to, a fingerprint check submitted for the purpose of investigating conviction records through both the Washington state patrol and the federal bureau of investigation.

(5) An individual provider or home care agency provider hired to provide in-home care for and having unsupervised access to a vulnerable adult as defined in chapter 74.34 RCW must have no conviction for a disqualifying crime under RCW 43.43.830 and 43.43.842. An individual or home care agency provider must also have no conviction for a crime relating to drugs as defined in RCW 43.43.830. This subsection applies only with respect to the provision of in-home services funded by medicaid personal care under RCW 74.09.520, community options program entry system waiver services under RCW 74.39A.030, or chore services under RCW 74.39A.110.

(6) The secretary shall provide the results of the state background check on long-term care workers, including individual providers, to the persons hiring them or to their legal guardians, if any, for their determination of the character, suitability, and competence of the applicants. If the person elects to hire or retain an individual provider after receiving notice from the department that the applicant has a conviction for an offense that would disqualify the applicant from having unsupervised access to persons with physical, mental, or developmental disabilities or mental illness, or to vulnerable adults as defined in chapter 74.34 RCW, then the secretary shall deny payment for any subsequent services rendered by the disqualified individual provider.

(7) Criminal justice agencies shall provide the secretary such information as they may have and that the secretary may require for such purpose.

(8) Any person whose criminal history would otherwise disqualify the person under this section or RCW 43.43.842, from a position which will or may have unsupervised access to children, vulnerable adults, or persons with mental illness or developmental disabilities shall not be automatically disqualified if:

(a) The department of social and health services reviewed the person's otherwise disqualifying criminal history through the department of social and health services' background assessment review team process conducted in 2002 and determined that such person could remain in a position covered by this section;

(b) The conviction is no longer automatically disqualifying pursuant to RCW 43.20A.715;

(c) The applicant has received a certificate of restoration of opportunity for the convictions pursuant to RCW 9.97.020, and the department of social and health services has not disqualified the applicant based on character, competence, and suitability review; or

(2021 Ed.)

(d) The conviction or disposition has been the subject of a pardon, annulment, or other equivalent procedure.

(9) The department may not consider any founded finding of physical abuse or negligent treatment or maltreatment of a child made pursuant to chapter 26.44 RCW that is accompanied by a certificate of parental improvement or dependency as a result of a finding of abuse or neglect pursuant to chapter 13.34 RCW that is accompanied by a certificate of parental improvement when evaluating an applicant or employee's character, competency, and suitability pursuant to any background check authorized or required by this chapter, RCW 74.39A.056 or 43.43.832, or any of the rules adopted thereunder. 43.20A.711 Receipt and use of criminal history information. The secretary is authorized to receive criminal history record information that includes nonconviction data for any purpose associated with an investigation under chapter 74.04 RCW. Dissemination or use of nonconviction data for purposes other than that authorized in this section is prohibited. [2008 c 74 § 4.]

Finding—2008 c 74: See note following RCW 51.04.024.

43.20A.715 Long-term care worker screening—Limitations on disqualification. (1) Where the department is required to screen a long-term care worker, contracted provider, or licensee through a background check to determine whether the person has a history that would disqualify the person from having unsupervised access to, working with, or providing supervision, care, or treatment to vulnerable adults or children, the department may not automatically disqualify a person on the basis of a criminal record that includes a conviction of any of the following crimes once the specified amount of time has passed for the particular crime:

(a) Selling marijuana to a person under RCW 69.50.401 after three years or more have passed between the most recent conviction and the date the background check is processed;

(b) Theft in the first degree under RCW 9A.56.030 after 10 years or more have passed between the most recent conviction and the date the background check is processed;

(c) Robbery in the second degree under RCW 9A.56.210 after five years or more have passed between the most recent conviction and the date the background check is processed;

(d) Extortion in the second degree under RCW 9A.56.130 after five years or more have passed between the most recent conviction and the date the background check is processed;

(e) Assault in the second degree under RCW 9A.36.021 after five years or more have passed between the most recent conviction and the date the background check is processed; and

(f) Assault in the third degree under RCW 9A.36.031 after five years or more have passed between the most recent conviction and the date the background check is processed.

(2) The provisions of subsection (1) of this section do not apply where the department is performing background checks for the department of children, youth, and families.

(3) The provisions of subsection (1) of this section do not apply to department employees or applicants for department positions except for positions in the state-operated community residential program.

(4) Notwithstanding subsection (1) of this section, a long-term care worker, contracted provider, or licensee may not provide, or be paid to provide, care to children or vulnerable adults under the medicare or medicaid programs if the worker is excluded from participating in those programs by federal law.

(5) The department, a contracted provider, or a licensee, when conducting a character, competence, and suitability review for the purpose of hiring, licensing, certifying, contracting with, permitting, or continuing to permit a person to be employed in any position caring for or having unsupervised access to vulnerable adults or children, may, in its sole discretion, determine whether to consider any of the convictions identified in subsection (1) of this section. If the department or a consumer directed employer as defined in RCW 74.39A.009 determines that an individual with any of the convictions identified in subsection (1) of this section is qualified to provide services to a department client as an individual provider as defined in RCW 74.39A.240, the department or the consumer directed employer must provide the client, and their guardian if any, with the results of the state background check for their determination of character, suitability, and competence of the individual before the individual begins providing services. The department, a contracted provider, or a licensee, when conducting a character, competence, and suitability review for the purpose of hiring, licensing, certifying, contracting with, permitting, or continuing to permit a person to be employed in any position caring for or having unsupervised access to vulnerable adults or children, has a rebuttable presumption that its exercise of discretion under this section or the refusal to exercise such discretion was appropriate. This subsection does not create a duty for the department to conduct a character, competence, and suitability review.

(6) For the purposes of the section:

(a) "Contracted provider" means a provider, and its employees, contracted with the department or an area agency on aging to provide services to department clients under programs under chapter 74.09, 74.39, 74.39A, or 71A.12 RCW.

"Contracted provider" includes area agencies on aging and their subcontractors who provide case management.

(b) "Licensee" means a nonstate facility or setting that is licensed or certified, or has applied to be licensed or certified, by the department and includes the licensee and its employees. [2021 c 219 § 1.]

Rules—2021 c 219: "The department of social and health services and the department of health may adopt rules to implement this act." [2021 c 219 § 8.]

Conflict with federal requirements—2021 c 219: "If any part of this act is found to be in conflict with federal requirements that are a prescribed condition to the allocation of federal funds to the state, the conflicting part of this act is inoperative solely to the extent of the conflict and with respect to the agencies directly affected, and this finding does not affect the operation of the remainder of this act in its application to the agencies concerned. Rules adopted under this act must meet federal requirements that are a necessary condition to the receipt of federal funds by the state." [2021 c 219 § 9.]

43.20A.720 Telecommunications devices and services for the hearing and speech impaired—Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this section and RCW 43.20A.725.

(1) "Hearing impaired" means those persons who are certified to be deaf, deaf-blind, or hard of hearing, and those persons who are certified to have a hearing disability limiting their access to telecommunications.

(2) "Speech impaired" means persons who are certified to be unable to speak or who are certified to have a speech impairment limiting their access to telecommunications.

(3) "Department" means the department of social and health services.

(4) "Office" means the office of deaf and hard of hearing within the state department of social and health services. [2001 c 210 § 1; 1992 c 144 § 2; 1990 c 89 § 2; 1987 c 304 § 2.]

Legislative findings—1992 c 144: "The legislature finds that the state of Washington has shown national leadership in providing telecommunications access for the hearing impaired and speech impaired communities. The legislature further finds that the federal Americans with Disabilities Act requires states to further enhance telecommunications access for disabled persons and that the state should be positioned to allow this service to be delivered with fairness, flexibility, and efficiency." [1992 c 144 § 1.]

Legislative finding—1990 c 89: "The legislature finds that provision of telecommunications devices and relay capability for hearing impaired persons is an effective and needed service which should be continued. The legislature further finds that the same devices and relay capability can serve and should be extended to serve speech impaired persons." [1990 c 89 § 1.]

Legislative findings—1987 c 304: "The legislature finds that it is more difficult for hearing impaired people to have access to the telecommunications system than hearing persons. It is imperative that hearing impaired people be able to reach government offices and health, human, and emergency services with the same ease as other taxpayers. Regulations to provide telecommunications devices for the deaf with a relay system will help ensure that the hearing impaired community has equal access to the public accommodations and telecommunications system in the state of Washington in accordance with chapter 49.60 RCW." (1) The department, through the sole authority of the office or its successor organization, must maintain a program whereby an individual of school age or older who possesses a hearing or speech impairment is provided with telecommunications equipment, software, and/or peripheral devices, digital or otherwise, that is determined by the office to be necessary for such a person to access and use telecommunications transmission services effectively.

(2) The department, through the sole authority of the office or its successor organization, must maintain a program where telecommunications relay services of a human or electronic nature will be provided to connect hearing impaired, deaf-blind, or speech impaired persons with persons who do not have a hearing or speech impairment. Such telecommunications relay services must provide the ability for an individual who has a hearing or speech impairment to engage in voice, tactile, or visual communication by wire or radio with a hearing individual in a manner that is functionally equivalent to the ability of an individual who does not have a hearing or speech impairment to communicate using voice or visual communication services by wire or radio subject to subsection (4)(b) of this section.

(3) The telecommunications relay service and equipment distribution program may operate in such a manner as to provide communications transmission opportunities that are capable of incorporating new technologies that have demonstrated benefits consistent with the intent of this chapter and are in the best interests of the citizens of this state.

(4) The office must administer and control the award of money to all parties incurring costs in implementing and maintaining telecommunications services, programs, equipment, and technical support services according to this section. The relay service contract must be awarded to an individual company registered as a telecommunications company by the utilities and transportation commission, to a group of registered telecommunications companies, or to any other company or organization determined by the office as qualified to provide relay services, contingent upon that company or organization being approved as a registered telecommunications company prior to final contract approval. The relay system providers and telecommunications equipment vendors must be selected on the basis of cost-effectiveness and utility to the greatest extent possible under the program and technical specifications established by the office.

(a) To the extent funds are available for the purposes authorized by this chapter, the office may award contracts for communications and related services and equipment for hearing impaired or speech impaired individuals accessing or receiving services provided by, or contracted for, the department to meet access obligations under Title 2 of the federal Americans with disabilities act or related federal regulations.

(b) The office must perform its duties under this section with the goal of achieving functional equivalency of access to and use of telecommunications services similar to the enjoyment of access to and use of such services experienced by an individual who does not have a hearing or speech impairment

only to the extent that funds are available for the purposes authorized by this chapter.

(5) The program must be funded by the legislature by means of a biennial general fund appropriation to the department for the purposes of the program.

(6) The telecommunications relay service program and equipment vendors must provide services and equipment consistent with the requirements of federal law for the operation of both interstate and intrastate telecommunications services for the hearing impaired or speech impaired. The department and the utilities and transportation commission are responsible for ensuring compliance with federal requirements and must provide timely notice to the legislature of any legislation that may be required to accomplish compliance.

(7) The department must adopt rules establishing eligibility criteria, ownership obligations, financial contributions, and a program for distribution to individuals requesting and receiving such telecommunications devices distributed by the office, and other rules necessary to administer programs and services consistent with this chapter. 43.20A.735 Domestic violence perpetrator programs. (*Effective July 1, 2022.*) Any program that provides domestic violence treatment to perpetrators of domestic violence must be certified by the department of social and health services and meet minimum standards for domestic violence treatment purposes. The department of social and health services shall adopt rules for standards of approval of domestic violence perpetrator programs. The treatment must meet the following minimum qualifications:

(1) All treatment must be based upon a full, complete clinical intake including but not limited to: Current and past violence history; a lethality risk assessment; history of treatment from past domestic violence perpetrator treatment programs; a complete diagnostic evaluation; a substance abuse assessment; criminal history; assessment of cultural issues, learning disabilities, literacy, and special language needs; and a treatment plan that adequately and appropriately addresses the treatment needs of the individual.

(2) To facilitate communication necessary for periodic safety checks and case monitoring, the program must require the perpetrator to sign the following releases:

(a) A release for the program to inform the victim and victim's community and legal advocates that the perpetrator is in treatment with the program, and to provide information, for safety purposes, to the victim and victim's community and legal advocates;

(b) A release to prior and current treatment agencies to provide information on the perpetrator to the program; and

(c) A release for the program to provide information on the perpetrator to relevant legal entities including: Lawyers, courts, parole, probation, child protective services, and child welfare services.

(3) Treatment must be for a minimum treatment period defined by the secretary of the department of social and health services by rule. The weekly treatment sessions must be in a group unless there is a documented, clinical reason for another modality. Any other therapies, such as individual, marital, or family therapy, substance abuse evaluations or therapy, medication reviews, or psychiatric interviews, may be concomitant with the weekly group treatment sessions described in this section but not a substitute for it.

(4) The treatment must focus primarily on ending the violence, holding the perpetrator accountable for his or her violence, and changing his or her behavior. The treatment must be based on nonvictim-blaming strategies and philosophies and shall include education about the individual, family, and cultural dynamics of domestic violence. If the perpetrator or the victim has a minor child, treatment must specifically include education regarding the effects of domestic violence on children, such as the emotional impacts of domestic violence on children and the long-term consequences that exposure to incidents of domestic violence may have on children.

(5) Satisfactory completion of treatment must be contingent upon the perpetrator meeting specific criteria, defined by rule by the secretary of the department of social and health services, and not just upon the end of a certain period of time or a certain number of sessions.

(6) The program must have policies and procedures for dealing with reoffenses and noncompliance.

(7) All evaluation and treatment services must be provided by, or under the supervision of, qualified personnel.

(8) The secretary of the department of social and health services may adopt rules and establish fees as necessary to implement this section.

(9) The department of social and health services may conduct on-site monitoring visits as part of its plan for certifying domestic violence perpetrator programs and monitoring implementation of the rules adopted by the secretary of the department of social and health services to determine compliance with the minimum qualifications for domestic violence perpetrator programs. The applicant or certified domestic violence perpetrator program shall cooperate fully with the department of social and health services in the monitoring visit and provide all program and management records requested by the department of social and health services to determine the program's compliance with the minimum certification qualifications and rules adopted by the department of social and health services. 43.20A.760 Community and technical college students' eligibility for the Washington basic food program.

(1)(a) For the purposes of community and technical college students' eligibility for the Washington basic food program, the department shall, in consultation with the state board for community and technical colleges, identify educational programs at the community and technical colleges that would meet the requirements of state-approved employment and training programs.

(b) In identifying educational programs, the department must consider science, technology, engineering, and mathematics programs and must be as inclusive as possible of other programs.

(c) The department shall maintain and regularly update a list of identified programs in accordance with 7 C.F.R. Sec. 273.5(b)(11), which provides that a student is eligible for an exemption from eligibility rules if the student's attendance can be described as part of a program to increase the student's employability.

(d) For the purposes of this section, and to the extent allowed by federal law, a student shall be anticipating participation through a work-study program if he or she can reasonably expect or foresee being assigned work-study employment. For the purposes of this subsection: "Anticipation [Anticipating] participation" means a student has received approval of work-study as part of a financial aid package and has yet to receive notice from the institution of higher education that he or she has been denied participation in work-study; and "work-study" means the program created in chapter 28B.12 RCW.

(e) The department shall coordinate with the state board of [for] community and technical colleges and the Washington state student achievement council to identify options that could confer categorical eligibility for students who receive state need grants that are funded through temporary assistance for needy families federal or state maintenance of effort dollars. By January 1, 2020, the department must provide a report to the appropriate committees of the legislature that identifies federal assistance options for state need grant recipients.

(2) If the United States department of agriculture requires federal approval of what constitutes state-approved employment and training programs for the purposes of basic food eligibility, the department shall seek federal approval. [2019 c 407 § 4.]

Findings—Intent—Conflict with federal requirements—2019 c 407: See notes following RCW 28B.50.295.

43.20A.765 Mental health first aid training for teachers and educational staff.

Subject to appropriation for this specific purpose, the department shall provide funds for mental health first aid training targeted at teachers and educational staff. The training will follow the model developed by the department of psychology in Melbourne, Australia. Instruction provided will describe common mental disorders that arise in youth, their possible causes and risk factors, the availability of evidence-based medical, psychological, and alternative treatments, processes for making referrals for behavioral health services, and methods to effectively render assistance in both initial intervention and crisis situations. The department shall collaborate with the office of the super-

intendent of public instruction to identify sites and methods of instruction that leverage local resources to the extent possible for the purpose of making the mental health first aid training broadly available. [2013 c 197 § 9.]

Finding—Intent—2013 c 197: "(1) The legislature finds that a lack of information about mental health problems among the general public leads to stigmatizing attitudes and prevents people from seeking help early and seeking the best sort of help. It also prevents people from providing support to family members, friends, and colleagues because they might not know what to do. This lack of knowledge about mental health problems limits the initial accessibility of evidence-based treatments and leads to a lack of support for people with a mental disorder from family, friends, and other members of the community.

(2) The focus on training for teachers and educational staff is intended to provide opportunities for early intervention when the first signs of developing mental illness may be recognized in children, teens, and young adults, so that appropriate referrals may be made to evidence-based behavioral health services." [2013 c 197 § 8.]

Civil liability—2013 c 197: See RCW 28A.310.501.

43.20A.770 Administration of statutes applicable to runaway youth, at-risk youth, and families in conflict—Consistency required. The department shall ensure that the administration of chapter 13.32A RCW and applicable portions of chapter 74.13 RCW relating to runaway youth, at-risk youth, and families in conflict is consistent in all areas of the state and in accordance with statutory requirements. [1991 c 364 § 6.]

43.20A.790 Homeless families with children—Shelter and housing services. (1) The department shall collaborate with the *department of community, trade, and economic development in the development of the coordinated and comprehensive plan for homeless families with children required under RCW 43.63A.650, which designates the *department of community, trade, and economic development as the state agency with primary responsibility for providing shelter and housing services to homeless families with children. In fulfilling its responsibilities to collaborate with the *department of community, trade, and economic development pursuant to RCW 43.63A.650, the department shall develop, administer, supervise, and monitor its portion of the plan. The department's portion of the plan shall contain at least the following elements:

(a) Coordination or linkage of services with shelter and housing;

(b) Accommodation and addressing the needs of homeless families in the design and administration of department programs;

(c) Participation of the department's local offices in the identification, assistance, and referral of homeless families; and

(d) Ongoing monitoring of the efficiency and effectiveness of the plan's design and implementation.

(2) The department shall include community organizations involved in the delivery of services to homeless families with children, and experts in the development and ongoing evaluation of the plan.

(3) The duties under this section shall be implemented within amounts appropriated for that specific purpose by the

(2021 Ed.)

legislature in the operating and capital budgets. [1999 c 267 § 2.]

***Reviser's note:** The "department of community, trade, and economic development" was renamed the "department of commerce" by 2009 c 565.

Findings—Intent—1999 c 267: "The legislature finds that homelessness for families with children is a serious, widespread problem that has a devastating effect on children, including significant adverse effects upon their growth and development. Planning for and serving the shelter and housing needs of homeless families with children has been and continues to be a responsibility of the *department of community, trade, and economic development. The legislature further finds that the department of social and health services also plays an important role in addressing the service needs of homeless families with children. In order to adequately and effectively address the complex issues confronting homeless families with children, planning for, implementing, and evaluating such services must be a collaborative effort between the *department of community, trade, and economic development and the department of social and health services, other local, state, and federal agencies, and community organizations. It is the intent of the legislature that the *department of community, trade, and economic development and the department of social and health services jointly present the plan to the appropriate committees of the legislature as required in section 3 of this act. It is the intent of the legislature that children should not be placed or retained in the foster care system if family homelessness is the primary reason for placement or the continuation of their placement. It is the further intent of the legislature that services to homeless families with children shall be provided within funds appropriated for that specific purpose by the legislature in the operating and capital budgets. Nothing in this act is intended to prevent the court's review of the plan developed by the department of social and health services and the *department of community, trade, and economic development under *Washington State Coalition for the Homeless v. Department of Social and Health Services*, King County Superior Court No. 91-2-15889-4. However, it is the intent of the legislature that the court's review in that proceeding be confined solely to review of the plan submitted under the order of February 4, 1998. Nothing in sections 1 through 10 of this act is intended to grant the court in this proceeding continuing review over the department of social and health services after July 25, 1999." [1999 c 267 § 1.]

***Reviser's note:** The "department of community, trade, and economic development" was renamed the "department of commerce" by 2009 c 565.

43.20A.840 Vision services for the homeless—Third party payers. Findings—1993 c 96: See note following RCW 43.20A.800.

Except to the extent expressly authorized in the omnibus operating budget or other legislative act and where necessary to improve coordination of care for individual clients, nothing in this section or in section 116, chapter 15, Laws of 2011 1st sp. sess. shall be construed as authorizing the secretary or the director to transfer funds appropriated to one agency or program in the omnibus operating budget to another agency or program. [2011 1st sp.s. c 15 § 123.]

(3) The department, at any time, may accept offers of compromise of disputed claims or may grant partial or total write-off of any debt due the department if it is no longer cost-effective to pursue. The department shall adopt rules

Conflict with federal requirements—2012 c 258: "If any part of this act is found to be in conflict with federal requirements that are a prescribed condition to the allocation of federal funds to the state, the conflicting part of this act is inoperative solely to the extent of the conflict and with respect to the agencies directly affected, and this finding does not affect the operation of the remainder of this act in its application to the agencies concerned. Rules adopted under this act must meet federal requirements that are a necessary condition to the receipt of federal funds by the state." [2012 c 258 § 2.]

43.20B.060 Reimbursement for medical care or residential care—Lien—Subrogation—Delegation of lien and subrogation rights. (1) To secure reimbursement of any assistance paid under chapter 74.09 RCW or reimbursement for any residential care provided by the department at a hospital for the mentally ill or habilitative care center for the developmentally disabled, as a result of injuries to or illness of a recipient caused by the negligence or wrong of another, the department shall be subrogated to the recipient's rights against a tort feisor or the tort feisor's insurer, or both.

(2) The department shall have a lien upon any recovery by or on behalf of the recipient from such tort feisor or the tort feisor's insurer, or both to the extent of the value of the assistance paid or residential care provided by the department, provided that such lien shall not be effective against recoveries subject to wrongful death when there are surviving dependents of the deceased. The lien shall become effective upon filing with the county auditor in the county where the assistance was authorized or where any action is brought against the tort feisor or insurer. The lien may also be filed in any other county or served upon the recipient in the same manner as a civil summons if, in the department's discretion, such alternate filing or service is necessary to secure the department's interest. The additional lien shall be effective upon filing or service.

(3) The lien of the department shall be upon any claim, right of action, settlement proceeds, money, or benefits arising from an insurance program to which the recipient might be entitled (a) against the tort feisor or insurer of the tort feisor, or both, and (b) under any contract of insurance purchased by the recipient or by any other person providing coverage for the illness or injuries for which the assistance or residential care is paid or provided by the department.

(4) If recovery is made by the department under this section and the subrogation is fully or partially satisfied through an action brought by or on behalf of the recipient, the amount paid to the department shall bear its proportionate share of attorneys' fees and costs.

(a) The determination of the proportionate share to be borne by the department shall be based upon:

(i) The fees and costs approved by the court in which the action was initiated; or

(ii) The written agreement between the attorney and client which establishes fees and costs when fees and costs are not addressed by the court.

(b) When fees and costs have been approved by a court, after notice to the department, the department shall have the right to be heard on the matter of attorneys' fees and costs or its proportionate share.

(c) When fees and costs have not been addressed by the court, the department shall receive at the time of settlement a copy of the written agreement between the attorney and client which establishes fees and costs and may request and examine documentation of fees and costs associated with the case. The department may bring an action in superior court to void a settlement if it believes the attorneys' calculation of its proportionate share of fees and costs is inconsistent with the written agreement between the attorney and client which establishes fees and costs or if the fees and costs associated with the case are exorbitant in relation to cases of a similar nature.

(5) The rights and remedies provided to the department in this section to secure reimbursement for assistance, including the department's lien and subrogation rights, may be delegated to a managed health care system by contract entered into pursuant to RCW 74.09.522. A managed health care system may enforce all rights and remedies delegated to it by the department to secure and recover assistance provided under a managed health care system consistent with its agreement with the department. ing for prior notice and hearing rights to the record title holder or purchaser under a land sale contract.

(2) Liens may be adjusted by foreclosure in accordance with chapter 61.12 RCW.

(3) In the case of an individual who was fifty-five years of age or older when the individual received medical assistance, the department shall seek adjustment or recovery from the individual's estate, and from nonprobate assets of the individual as defined by RCW 11.02.005, but only for medical assistance consisting of nursing facility services, home and community-based services, other services that the department determines to be appropriate, and related hospital and prescription drug services. Recovery from the individual's estate, including foreclosure of liens imposed under this section, shall be undertaken as soon as practicable, consistent with 42 U.S.C. Sec. 1396p.

(4) The department shall apply the medical assistance estate recovery law as it existed on the date that benefits were received when calculating an estate's liability to reimburse the department for those benefits.

(5)(a) The department shall establish procedures consistent with standards established by the federal department of health and human services and pursuant to 42 U.S.C. Sec. 1396p to waive recovery when such recovery would work an undue hardship. The department shall recognize an undue hardship for a surviving domestic partner whenever recovery would not have been permitted if he or she had been a surviving spouse. The department is not authorized to pursue recovery under such circumstances.

(b) Recovery of medical assistance from a recipient's estate shall not include property made exempt from claims by federal law or treaty, including exemption for tribal artifacts that may be held by individual Native Americans.

(6) A lien authorized under this section relates back to attach to any real property that the decedent had an ownership interest in immediately before death and is effective as of that date or date of recording, whichever is earlier.

(7) The department may enforce a lien authorized under this section against a decedent's life estate or joint tenancy interest in real property held by the decedent immediately prior to his or her death. Such a lien enforced under this subsection shall not end and shall continue as provided in this subsection until the department's lien has been satisfied.

(a) The value of the life estate subject to the lien shall be the value of the decedent's interest in the property subject to the life estate immediately prior to the decedent's death.

(b) The value of the joint tenancy interest subject to the lien shall be the value of the decedent's fractional interest the recipient would have owned in the jointly held interest in the property had the recipient and the surviving joint tenants held title to the property as tenants in common on the date of the recipient's death.

(c) The department may not enforce the lien provided by this subsection against a bona fide purchaser or encumbrancer that obtains an interest in the property after the death of the recipient and before the department records either its lien or the request for notice of transfer or encumbrance as provided by RCW 43.20B.750.

(d) The department may not enforce a lien provided by this subsection against any property right that vested prior to July 1, 2005.

(8)(a) Subject to the requirements of 42 U.S.C. Sec. 1396p(a) and the conditions of this subsection (8), the department is authorized to file a lien against the property of an individual prior to his or her death, and to seek adjustment and recovery from the individual's estate or sale of the property subject to the lien, if:

(i) The individual is an inpatient in a nursing facility, intermediate care facility for persons with intellectual disabilities, or other medical institution; and

(ii) The department has determined after notice and opportunity for a hearing that the individual cannot reasonably be expected to be discharged from the medical institution and to return home.

(b) If the individual is discharged from the medical facility and returns home, the department shall dissolve the lien.

(9) The department is authorized to adopt rules to effect recovery under this section. The department may adopt by rule later enactments of the federal laws referenced in this section.

(10) It is the responsibility of the department to fully disclose in advance verbally and in writing, in easy to understand language, the terms and conditions of estate recovery to all persons offered long-term care services subject to recovery of payments.

(11) In disclosing estate recovery costs to potential clients, and to family members at the consent of the client, the department shall provide a written description of the community service options. 43.20B.090 Recovery for paid medical assistance and state-funded long-term care—Legislative intent—Legislative confirmation of effect of 1994 c 21. (1) It is the intent of the legislature to ensure that needy individuals have access to basic long-term care without requiring them to sell their homes. In the face of rising medical costs and limited funding for social welfare programs, however, the state's medicaid and state-funded long-term care programs have placed an increasing financial burden on the state. By balancing the interests of individuals with immediate and future unmet medical care needs, surviving spouses and dependent children, adult nondependent children, more distant heirs, and the state, the estate recovery provisions of RCW 43.20B.080 and 74.39A.170 provide an equitable and reasonable method of easing the state's financial burden while ensuring the continued viability of the medicaid and state-funded long-term care programs.

(2) It is further the intent of the legislature to confirm that chapter 21, Laws of 1994, effective July 1, 1994, repealed and substantially reenacted the state's medicaid estate recovery laws and did not eliminate the department's authority to recover the cost of medical assistance paid prior to October 1, 1993, from the estates of deceased recipients regardless of

whether they received benefits before, on, or after July 1, 1994. [1997 c 392 § 301.]

43.20B.110 License fees to be charged by secretary—Waiver—Review and comment. (1) The secretary shall charge fees to the licensee for obtaining a license. The secretary may waive the fees when, in the discretion of the secretary, the fees would not be in the best interest of public health and safety, or when the fees would be to the financial disadvantage of the state.

(2) Fees charged shall be based on, but shall not exceed, the cost to the department for the licensure of the activity or class of activities and may include costs of necessary inspection.

(3) Department of social and health services advisory committees may review fees established by the secretary for licenses and comment upon the appropriateness of the level of such fees.

(4) Fees associated with the licensing or regulation of health professions or health facilities administered by the department of health, shall be in accordance with RCW 43.70.110 and 43.70.250. [1991 c 3 § 296; 1989 1st ex.s. c 9 § 216; 1987 c 75 § 6; 1982 c 201 § 2. Formerly RCW 43.20A.055.]

The lien is valid for six years from the date of filing with the county auditor and has preference over the claims of all unsecured creditors. If the assets remain exempt or if no probate is commenced, the lien automatically terminates without further action six years after filing. [1987 c 75 § 45.]

Costs of transportation shall be computed by the department. [1967 ex.s. c 127 § 1; 1959 c 25 § 71.02.410. Prior: 1951 c 139 § 52. Formerly RCW 71.02.410.]

43.20B.330 Mental illness—Treatment costs—Liability. Any person admitted or committed to a state hospital for the mentally ill, and their estates and responsible relatives are liable for reimbursement to the state of the costs of hospitalization and/or outpatient services, as computed by the secretary, or his designee, in accordance with RCW 43.20B.325: PROVIDED, That such mentally ill person, and his or her estate, and the husband or wife of such mentally ill person and their estate shall be primarily responsible for reimbursement to the state for the costs of hospitalization and/or outpatient services; and, the parents of such mentally ill person and their estates, until such person has attained the age of eighteen years, shall be secondarily liable. 43.20B.335 Mental illness—Treatment costs—Determination of ability to pay—Standards—Rules and regulations. The department is authorized to investigate the financial condition of each person liable under the provisions of RCW 43.20B.355 and 43.20B.325 through 43.20B.350, and is further authorized to make determinations of the ability of each such person to pay hospitalization charges and/or charges for outpatient services, in accordance with the provisions of RCW 43.20B.355 and 43.20B.325 through 43.20B.350, and, for such purposes, to set a standard as a basis of judgment of ability to pay, which standard shall be recomputed periodically to reflect changes in the costs of living, and other pertinent factors, and to make provisions for unusual and exceptional circumstances in the application of

such standard. Such factors and circumstances shall include judgments owed by the person to any victim of an act that would have resulted in criminal conviction of the patient but for a finding of criminal insanity. A victim shall include a personal representative of an estate who has obtained judgment for wrongful death against the criminally insane patient.

In accordance with the provisions of the Administrative Procedure Act, chapter 34.05 RCW, the department shall adopt appropriate rules and regulations relating to the standards to be applied in determining ability to pay such charges, the schedule of charges pursuant to RCW 43.20B.325, and such other rules and regulations as are deemed necessary to administer the provisions of RCW 43.20B.355 and 43.20B.325 through 43.20B.350. [1996 c 125 § 2; 1987 c 75 § 14; 1979 c 141 § 126; 1967 ex.s. c 127 § 5. Formerly RCW 71.02.412.]

Findings—Purpose—1996 c 125: "The legislature finds that laws and regulations relating to the rights of the state to collection from criminally insane patients for cost of their hospitalization are in need of clarification. The legislature previously directed the department of social and health services to set standards regarding ability of such patients to pay that would include pertinent factors, as well as unusual and exceptional circumstances. The legislature finds that the regulations established by the department fail to take into account a factor and circumstance that should be paramount: Compensation owed by the patient to victims of his or her criminally insane conduct. The state public policy recognizes the due dignity and respect to be accorded victims of crime and the need for victims to be compensated, as set forth in Article I, section 35 of the state Constitution and in chapter 7.68 RCW. The legislature did not intend, in enacting RCW 43.20B.320, that the department attempt to obtain funds for hospitalization of criminally insane patients that would otherwise have compensated the victims of the patient. The purpose of chapter 125, Laws of 1996 is to clarify legislative intent and existing law." [1996 c 125 § 1.]

43.20B.340 Mental illness—Treatment costs—Notice and finding of responsibility—Period—Adjudicative proceedings. In any case where determination is made that a person, or the estate of such person, is able to pay all, or any portion of the charges for hospitalization, and/or charges for outpatient services, a notice and finding of responsibility shall be served on such person or the court-appointed personal representative of such person. The notice shall set forth the amount the department has determined that such person, or his or her estate, is able to pay not to exceed the costs of hospitalization, and/or costs of outpatient services, as fixed in accordance with the provisions of RCW 43.20B.325, or as otherwise limited by the provisions of RCW 43.20B.355 and 43.20B.325 through 43.20B.350. The responsibility for the payment to the department shall commence twenty-eight days after service of such notice and finding of responsibility which finding of responsibility shall cover the period from the date of admission of such mentally ill person to a state hospital, and for the costs of hospitalization, and/or the costs of outpatient services, accruing thereafter. The notice and finding of responsibility shall be served upon all persons found financially responsible in the manner prescribed for the service of summons in a civil action or may be served by certified mail, return receipt requested. The return receipt signed by addressee only is prima facie evidence of service. An application for an adjudicative proceeding may be filed with the secretary, or the secretary's designee within twenty-eight days from the date of service of such notice and finding of responsibility. The application must be written and served on the secretary by registered or certified mail, or by personal

service. If no application is filed, the notice and finding of responsibility shall become final. If an application is filed, the execution of notice and finding of responsibility shall be stayed pending the final adjudicative order. The hearing shall be conducted in a local department office or other location in Washington convenient to the appellant. The proceeding is governed by the Administrative Procedure Act, chapter 34.05 RCW. RECOVERY OF OVERPAYMENTS

43.20B.620 Overpayments of assistance—Lien against recipient's property—Recovery methods. Overpayments of public assistance or food stamps or food stamp benefits transferred electronically under RCW 74.04.300 shall become a lien against the real and personal property of the recipient from the time of filing by the department with the county auditor of the county in which the recipient resides or owns property, and the lien claim has preference over the claims of all unsecured creditors.

Debts due the state for overpayments of public assistance or food stamps or food stamp benefits transferred electronically may be recovered by the state by deduction from the

subsequent assistance payments to such persons, lien and foreclosure, or order to withhold and deliver, or may be recovered by civil action. [1998 c 79 § 4; 1987 c 75 § 43.]

43.20B.630 Overpayments of assistance—Procedures—Adjudicative proceeding. (1) Any person who owes a debt to the state for an overpayment of public assistance and/or food stamps or food stamp benefits transferred electronically shall be notified of that debt by either personal service or certified mail, return receipt requested. Personal service, return of the requested receipt, or refusal by the debtor of such notice is proof of notice to the debtor of the debt owed. Service of the notice shall be in the manner prescribed for the service of a summons in a civil action. The notice shall include a statement of the debt owed; a statement that the property of the debtor will be subject to collection action after the debtor terminates from public assistance and/or food stamps or benefits; a statement that the property will be subject to lien and foreclosure, distraint, seizure and sale, or order to withhold and deliver; and a statement that the net proceeds will be applied to the satisfaction of the overpayment debt. Action to collect the debt by lien and foreclosure, distraint, seizure and sale, or order to withhold and deliver, is lawful after ninety days from the debtor's termination from public assistance and/or food stamps or benefits or the receipt of the notice of debt, whichever is later. This does not preclude the department from recovering overpayments by deduction from subsequent assistance payments, not exceeding deductions as authorized under federal law with regard to financial assistance programs: PROVIDED, That subject to federal legal requirement, deductions shall not exceed five percent of the grant payment standard if the overpayment resulted from error on the part of the department or error on the part of the recipient without willful or knowing intent of the recipient in obtaining or retaining the overpayment.

If no application is filed, the debt will be subject to collection action as authorized under this chapter. If a timely application is filed, the execution of collection action on the debt shall be stayed pending the final adjudicative order or termination of the debtor from public assistance and/or food stamps or food stamp benefits transferred electronically, whichever occurs later. (b) The order to withhold and deliver shall be served by regular mail or, with a party's agreement, electronically.

(3)(a) Any person, firm, corporation, association, political subdivision, or department of the state upon whom service has been made shall answer the order to withhold and deliver within twenty days, exclusive of the day of service, under oath and in writing, and shall make true answers to the matters inquired of therein.

(b) The secretary may require further and additional answers to be completed by the person, firm, corporation, association, political subdivision, or department of the state.

(c) If any such person, firm, corporation, association, political subdivision, or department of the state possesses any property which may be subject to the claim of the department of social and health services, such property shall be withheld immediately upon receipt of the order to withhold and deliver and shall, after the twenty-day period, upon demand, be delivered forthwith to the secretary.

(d) The secretary shall hold the property in trust for application on the indebtedness involved or for return, without interest, in accordance with final determination of liability or nonliability. In the alternative, there may be furnished to the secretary a good and sufficient bond, satisfactory to the secretary, conditioned upon final determination of liability.

(e) Where money is due and owing under any contract of employment, express or implied, or is held by any person, firm, corporation, association, political subdivision, or department of the state subject to withdrawal by the debtor, such money shall be delivered by remittance payable to the order of the secretary. Delivery to the secretary, subject to the exemptions under RCW 6.27.150 and 6.27.160, chapters 6.13 and 6.15 RCW, 15 U.S.C. 1673, and other state or federal law applicable generally to debtors, of the money or other property held or claimed satisfies the requirement of the order to withhold and deliver. (b) The copy of the order shall be mailed or served together with a concise explanation of the right to petition for a hearing on any issue related to the collection. This requirement is not jurisdictional, but, if the copy is not mailed or served as provided in this section, or if any irregularity

appears with respect to the mailing or service electronically, the superior court, on its discretion on motion of the debtor promptly made and supported by affidavit showing that the debtor has suffered substantial injury due to the failure to mail the copy or serve the copy electronically, may set aside the order to withhold and deliver and award to the debtor an amount equal to the damages resulting from the secretary's failure to serve on or mail to the debtor the copy. This requirement to honor the assignment of earnings is applicable whether the earnings are to be paid presently or in the future and continues in force and effect until released in writing by the secretary. Payment of moneys pursuant to an assignment of earnings presented to the employer by the secretary serves as full acquittance under any contract of employment, and the state warrants and represents it shall defend and hold harmless such action taken pursuant to the assignment of earnings. The secretary is released from liability for improper receipt of moneys under assignment of earnings upon return of any moneys so received. [1981 c 163 § 4. Formerly RCW 74.04.730.]

recover temporary total disability compensation due to the recipient and the recipient's dependents under Title 51 RCW, to the extent of such assistance or compensation, whichever is less. However, the amount to be repaid to the department of social and health services shall bear its proportionate share of attorney's fees and costs, if any, incurred under Title 51 RCW by the recipient or the recipient's dependents.

(2) The department of social and health services may assert and enforce a lien and notice to withhold and deliver to secure reimbursement. The department shall identify in the lien and notice to withhold and deliver the recipient of public assistance and temporary total disability compensation and the amount claimed by the department. 43.20B.730 Recipient receiving industrial insurance compensation—Effective date of lien and notice—Service. The effective date of the lien and notice to withhold and deliver provided in RCW 43.20B.720 is the day that it is received by the department of labor and industries or a self-insurer as defined in chapter 51.08 RCW. Service of the lien and notice to withhold and deliver may be made personally, by regular mail with postage prepaid, or by electronic means. A statement of lien and notice to withhold and deliver shall be mailed to the recipient at the recipient's last known address by certified mail, return receipt requested, no later than two business days after the department mails, delivers, or transmits the lien and notice to withhold and deliver to the department of labor and industries or a self-insurer. 43.20B.735 Recipient receiving industrial insurance compensation—Duty to withhold and deliver—Amount. The director of labor and industries or the director's designee, or a self-insurer as defined in chapter 51.08 RCW, following receipt of the lien and notice to withhold and deliver, shall deliver to the secretary of social and health services or the secretary's designee any temporary total disability compensation payable to the recipient named in the lien and notice to withhold and deliver up to the amount claimed. The director of labor and industries or self-insurer shall withhold and deliver from funds currently in the director's or self-insurer's possession or from any funds that may at any time come into the director's or self-insurer's possession on account of temporary total disability compensation payable to the recipient named in the lien and notice to withhold and deliver. A recipient feeling aggrieved by the action of the department of social and health services in recovering his or her temporary total disability compensation as provided in RCW 43.20B.720 through 43.20B.745 shall have the right to an adjudicative proceeding.

A recipient seeking an adjudicative proceeding shall file an application with the secretary within twenty-eight days after the statement of lien and notice to withhold and deliver was mailed to the recipient. If the recipient files an applica-

tion more than twenty-eight days after, but within one year of, the date the statement of lien and notice to withhold and deliver was mailed, the recipient is entitled to a hearing if the recipient shows good cause for the recipient's failure to file a timely application. The filing of a late application does not affect prior collection action pending the final adjudicative order. Until good cause for failure to file a timely application is decided, the department may continue to collect under the lien and notice to withhold and deliver.

The proceeding shall be governed by chapter 34.05 RCW, the Administrative Procedure Act. [1997 c 130 § 4; 1989 c 175 § 101; 1987 c 75 § 35; 1973 1st ex.s. c 102 § 5. Formerly RCW 74.04.570.]

Chapter 43.20C RCW

EVIDENCE-BASED AND RESEARCH-BASED JUVENILE PREVENTION AND INTERVENTION SERVICES

Sections

43.20C.005	Intent.
43.20C.010	Definitions.
43.20C.020	Evidence-based, research-based, and promising practices—Descriptive definitions—Inventory—Baseline assessment—Reports.
43.20C.030	Unified and coordinated case plans—Monitoring and quality control procedures—Quality control and fidelity of implementation.
43.20C.040	Federal matching funds—Training funds—Training provider.

43.20C.005 Intent. (1) The legislature intends that prevention and intervention services delivered to children and juveniles in the areas of mental health, child welfare, and juvenile justice be primarily evidence-based and research-based, and it is anticipated that such services will be provided in a manner that is culturally competent.

(2) The legislature also acknowledges that baseline information is not presently available regarding the extent to which evidence-based and research-based practices are presently available and in use in the areas of children's mental health, child welfare, and juvenile justice; the cost of those practices; and the most effective strategies and appropriate time frames for expecting their broader use. Thus, it would be wise to establish baseline data regarding the use and availability of evidence-based and research-based practices.

(3) It is the intent of the legislature that increased use of evidence-based and research-based practices be accomplished to the extent possible within existing resources by coordinating the purchase of evidence-based services, the development of a trained workforce, and the development of

unified and coordinated case plans to provide treatment in a coordinated and consistent manner.

(4) The legislature recognizes that in order to effectively provide evidence-based and research-based practices, contractors should have a workforce trained in these programs, and outcomes from the use of these practices should be monitored. [2012 c 232 § 1.]

43.20C.010 Definitions. For the purposes of this chapter:

(1) "Contractors" does not include county probation staff that provide evidence-based or research-based programs.

(2) "Prevention and intervention services" means services and programs for children and youth and their families that are specifically directed to address behaviors that have resulted or may result in truancy, abuse or neglect, out-of-home placements, chemical dependency, substance abuse, sexual aggressiveness, or mental or emotional disorders. [2012 c 232 § 2.]

43.20C.020 Evidence-based, research-based, and promising practices—Descriptive definitions—Inventory—Baseline assessment—Reports. The department of social and health services shall accomplish the following in consultation and collaboration with the Washington state institute for public policy, the evidence-based practice institute at the University of Washington, a university-based child welfare partnership and research entity, other national experts in the delivery of evidence-based services, and organizations representing Washington practitioners:

(1) By September 30, 2012, the Washington state institute for public policy, the University of Washington evidence-based practice institute, in consultation with the department shall publish descriptive definitions of evidence-based, research-based, and promising practices in the areas of child welfare, juvenile rehabilitation, and children's mental health services.

(a) In addition to descriptive definitions, the Washington state institute for public policy and the University of Washington evidence-based practice institute must prepare an inventory of evidence-based, research-based, and promising practices for prevention and intervention services that will be used for the purpose of completing the baseline assessment described in subsection (2) of this section. The inventory shall be periodically updated as more practices are identified.

(b) In identifying evidence-based and research-based services, the Washington state institute for public policy and the University of Washington evidence-based practice institute must:

(i) Consider any available systemic evidence-based assessment of a program's efficacy and cost-effectiveness; and

(ii) Attempt to identify assessments that use valid and reliable evidence.

(c) Using state, federal, or private funds, the department shall prioritize the assessment of promising practices identified in (a) of this subsection with the goal of increasing the number of such practices that meet the standards for evidence-based and research-based practices.

(2) By June 30, 2013, the department and the health care authority shall complete a baseline assessment of utilization

(2021 Ed.)

of evidence-based and research-based practices in the areas of child welfare, juvenile rehabilitation, and children's mental health services. The assessment must include prevention and intervention services provided through medicaid fee-for-service and healthy options managed care contracts. The assessment shall include estimates of:

(a) The number of children receiving each service;

(b) For juvenile rehabilitation and child welfare services, the total amount of state and federal funds expended on the service;

(c) For children's mental health services, the number and percentage of encounters using these services that are provided to children served by behavioral health organizations and children receiving mental health services through medicaid fee-for-service or healthy options;

(d) The relative availability of the service in the various regions of the state; and

(e) To the extent possible, the unmet need for each service.

(3)(a) By December 30, 2013, the department and the health care authority shall report to the governor and to the appropriate fiscal and policy committees of the legislature on recommended strategies, timelines, and costs for increasing the use of evidence-based and research-based practices. The report must distinguish between a reallocation of existing funding to support the recommended strategies and new funding needed to increase the use of the practices.

(b) The department shall provide updated recommendations to the governor and the legislature by December 30, 2014, and by December 30, 2015.

(4)(a) The report required under subsection (3) of this section must include recommendations for the reallocation of resources for evidence-based and research-based practices and substantial increases above the baseline assessment of the use of evidence-based and research-based practices for the 2015-2017 and the 2017-2019 biennia. The recommendations for increases shall be consistent with subsection (2) of this section.

(b) If the department or health care authority anticipates that it will not meet its recommended levels for an upcoming biennium as set forth in its report, it must report to the legislature by November 1st of the year preceding the biennium. The report shall include:

(i) The identified impediments to meeting the recommended levels;

(ii) The current and anticipated performance level; and

(iii) Strategies that will be undertaken to improve performance.

(5) Recommendations made pursuant to subsections (3) and (4) of this section must include strategies to identify programs that are effective with ethnically diverse clients and to consult with tribal governments, experts within ethnically diverse communities, and community organizations that serve diverse communities. [2014 c 225 § 66; 2012 c 232 § 3.]

Effective date—2014 c 225: See note following RCW 71.24.016.

43.20C.030 Unified and coordinated case plans—Monitoring and quality control procedures—Quality control and fidelity of implementation. The department of social and health services, in consultation with a university-

based evidence-based practice institute entity in Washington, the Washington partnership council on juvenile justice, the child mental health systems of care planning committee, the children, youth, and family advisory committee, the health care authority, the Washington state racial disproportionality advisory committee, a university-based child welfare research entity in Washington state, behavioral health administrative services organizations established in chapter 71.24 RCW, managed care organizations contracted with the authority under chapter 74.09 RCW, the Washington association of juvenile court administrators, and the Washington state institute for public policy, shall:

(1) Develop strategies to use unified and coordinated case plans for children, youth, and their families who are or are likely to be involved in multiple systems within the department;

(2) Use monitoring and quality control procedures designed to measure fidelity with evidence-based and research-based prevention and treatment programs; and

(3) Utilize any existing data reporting and system of quality management processes at the state and local level for monitoring the quality control and fidelity of the implementation of evidence-based and research-based practices. [2019 c 325 § 5011; 2014 c 225 § 67; 2012 c 232 § 4.]

Effective date—2019 c 325: See note following RCW 71.24.011.

Effective date—2014 c 225: See note following RCW 71.24.016.

43.20C.040 Federal matching funds—Training funds—Training provider. (1) The department of social and health services and the health care authority shall identify components of evidence-based practices for which federal matching funds might be claimed and seek such matching funds to support implementation of evidence-based practices.

(2) The department shall efficiently use funds to coordinate training in evidence-based and research-based practices across the programs areas of juvenile justice, children's mental health, and child welfare.

(3) Any child welfare training related to implementation of this chapter must be delivered by the University of Washington school of social work in coordination with the University of Washington evidence-based practice institute.

(4) Nothing in this chapter requires the department or the health care authority to:

(a) Take actions that are in conflict with presidential executive order 13175 or that adversely impact tribal-state consultation protocols or contractual relations; or

(b) Redirect funds in a manner that:

(i) Conflicts with the requirements of the department's section 1915(b) medicaid mental health waiver; or

(ii) Would substantially reduce federal medicaid funding for mental health services or impair access to appropriate and effective services for a substantial number of medicaid clients; or

(c) Undertake actions that, in the context of a lawsuit against the state, are inconsistent with the department's obligations or authority pursuant to a court order or agreement. [2012 c 232 § 5.]

43.21A.010 Legislative declaration of state policy on environment and utilization of natural resources. The legislature recognizes and declares it to be the policy of this state, that it is a fundamental and inalienable right of the people of the state of Washington to live in a healthful and pleasant environment and to benefit from the proper development

(2021 Ed.)

and use of its natural resources. The legislature further recognizes that as the population of our state grows, the need to provide for our increasing industrial, agricultural, residential, social, recreational, economic and other needs will place an increasing responsibility on all segments of our society to plan, coordinate, restore and regulate the utilization of our natural resources in a manner that will protect and conserve our clean air, our pure and abundant waters, and the natural beauty of the state. [1970 ex.s. c 62 § 1.]

43.21A.020 Purpose. In recognition of the responsibility of state government to carry out the policies set forth in RCW 43.21A.010, it is the purpose of this chapter to establish a single state agency with the authority to manage and develop our air and water resources in an orderly, efficient, and effective manner and to carry out a coordinated program of pollution control involving these and related land resources. To this end a department of ecology is created by this chapter to undertake, in an integrated manner, the various water regulation, management, planning and development programs now authorized to be performed by the department of water resources and the water pollution control commission, the air regulation and management program now performed by the state air pollution control board, the solid waste regulation and management program authorized to be performed by state government as provided by chapter 70A.205 RCW, and such other environmental, management protection and development programs as may be authorized by the legislature. [2020 c 20 § 1030; 1970 ex.s. c 62 § 2.]

(4) The director shall determine the discharge of streams and springs and other sources of water supply, and the capacities of lakes and of reservoirs whose waters are being or may be utilized for beneficial purposes;

(5) The director shall, if requested, provide assistance to an applicant for a water right in obtaining or developing an adequate and appropriate supply of water consistent with the land use permitted for the area in which the water is to be used and the population forecast for the area under RCW 43.62.035. If the applicant is a public water supply system, the supply being sought must be used in a manner consistent with applicable land use, watershed and water system plans, and the population forecast for that area provided under RCW 43.62.035;

(6) The director shall keep such records as may be necessary for the recording of the financial transactions and statistical data thereof, and shall procure all necessary documents, forms, and blanks. The director shall keep a seal of the office, and all certificates covering any of the director's acts or the acts of the director's office, or the records and files of that office, under such seal, shall be taken as evidence thereof in all courts;

(7) The director shall render when required by the governor, a full written report of the office's work with such recommendations for legislation as the director deems advisable for the better control and development of the water resources of the state;

(8) The director and duly authorized deputies may administer oaths;

(9) The director shall establish and promulgate rules governing the administration of chapter 90.03 RCW;

(10) The director shall perform such other duties as may be prescribed by law. [1997 c 443 § 2; 1995 c 8 § 3; 1977 c 75 § 46; 1965 c 8 § 43.21.130. Prior: 1961 c 19 § 1; prior: (i) 1951 c 57 § 3; 1921 c 7 § 72; RRS § 10830. (ii) 1951 c 57 § 3; 1917 c 117 § 8; RRS § 7358. Formerly RCW 43.21.130.]

[Title 43 RCW—page 174]

Finding—Intent—1997 c 443: "The legislature finds that there is a need for development of additional water resources to meet the forecasted population growth in the state. It is the intent of chapter 443, Laws of 1997 to direct the responsible agencies to assist applicants seeking a safe and reliable water source for their use. Providing this assistance for public water supply systems can be accomplished through assistance in the creation of municipal interties and transfers, additional storage capabilities, enhanced conservation efforts, and added efficiency standards for using existing supplies." [1997 c 443 § 1.]

Findings—1995 c 8: "The legislature finds and declares:

(1) The federal energy regulatory commission, under the federal power act, licenses hydropower projects in navigable waters and regularly and extensively inspects facilities for safety; and

(2) Nothing in this act alters or affects the department of ecology's authority to: (a) Participate in the federal process of licensing hydropower projects; or (b) ensure that hydropower projects comply with federal statutes such as the coastal zone management act and the clean water act and, subject to RCW 43.21A.068, all applicable state law." 43.21A.067 Water resources—"Basic data fund" created. The director of ecology may create within his or her department a fund to be known as the "basic data fund."

Into such fund shall be deposited all moneys contributed by persons for streamflow, groundwater and water quality data or other hydrographic information furnished by the department in cooperation with the United States geological survey, and the fund shall be expended on a matching basis with the United States geological survey for the purpose of obtaining additional basic information needed for an intelligent inventory of water resources in the state.

Disbursements from the basic data fund shall be on vouchers approved by the department and the district engineer of the United States geological survey. 43.21A.068 Federal power act licensees—Exemption from state requirements. (1) With respect to the safety of any dam, canal, ditch, hydraulic power plant, reservoir, project, or other work, system, or plant that requires a license under the federal power act, no licensee shall be required to:

(a) Submit proposals, plans, specifications, or other documents for approval by the department;

(b) Seek a permit, license, or other form, permission, or authorization from the department;

(c) Submit to inspection by the department; or

(d) Change the design, construction, modification, maintenance, or operation of such facilities at the demand of the department.

(2) For the purposes of this section, "licensee" means an owner or operator, or any employee thereof, of a dam, canal, ditch, hydraulic power plant, reservoir, project, or other work, system, or plant that requires a license under the federal power act. [1995 c 8 § 2.]

43.21A.069 Powers and duties—Flood control. The department of ecology shall exercise all the powers and perform all the duties prescribed by law with respect to flood control. [1987 c 109 § 28; 1965 c 8 § 43.21.160. Prior: 1941 c 204 § 2, part; Rem. Supp. 1941 § 9663F-2, part. Formerly RCW 43.21.160.]

Purpose—Short title—Construction—Rules—Severability—Captions—1987 c 109: See notes following RCW 43.21B.001.

43.21A.070 Application of administrative procedure act to the review of decisions by director. The administrative procedure act, chapter 34.05 RCW, shall apply to the review of decisions by the director to the same extent as it applied to decisions issued by the directors of the various departments whose powers, duties and functions are transferred by chapter 62, Laws of 1970 ex. sess. to the department of ecology. The administrative procedure act shall further apply to all other decisions of the director as in chapter 34.05 RCW provided. [1970 ex.s. c 62 § 7.]

43.21A.080 Rule-making authority. The director of the department of ecology is authorized to adopt such rules and regulations as are necessary and appropriate to carry out the provisions of this chapter: PROVIDED, That the director may not adopt rules after July 23, 1995, that are based solely on a section of law stating a statute's intent or purpose, on the enabling provisions of the statute establishing the agency, or on any combination of such provisions, for statutory authority to adopt the rule. [1995 c 403 § 103; 1970 ex.s. c 62 § 8.]

Findings—Short title—Intent—1995 c 403: See note following RCW 34.05.328.

43.21A.081 Five-year formal review process of existing rules. The department of ecology must establish and perform, within existing funds, a formal review process of its existing rules every five years. The goal of the review is to decrease the numbers of, simplify the process, and decrease the time required for obtaining licenses, permits, and inspections, as applicable, in order to reduce the regulatory burden on businesses without compromising public health and safety. Benchmarks must be adopted to assess the effectiveness of streamlining efforts. The department must establish a process for effectively applying sunset provisions to rules when applicable. The department must report back to the applicable committees of the legislature with its review process and benchmarks by January 2014. [2013 2nd sp.s. c 30 § 2.]

Findings—Intent—2013 2nd sp.s. c 30: "The legislature finds that regulatory processes impose significant costs on doing business and significantly influence investment behavior, location decisions, start-up activity, expansions, and hiring. The legislature further finds that, for more than a decade, the executive and legislative branches have called upon state agencies to review their regulations to achieve meaningful regulatory reform and improve the regulatory climate for Washington businesses. However, a 2012 performance audit conducted by the state auditor's office found that the departments of ecology, health, and labor and industries have not adopted sufficient streamlining processes or formally measured the results of their streamlining activities. Thus, it is the intent of the legislature to formally direct these three state agencies to achieve the regulatory reform that has been repeatedly called for by the governor and the legislature." [2013 2nd sp.s. c 30 § 1.]

43.21A.085 Technical assistance officer and units—Coordination of voluntary compliance with regulatory

laws. The department, to the greatest extent possible, within available resources and without jeopardizing the department's ability to carry out its legal responsibilities, may designate one or more of its employees as a technical assistance officer, and may organize the officers into one or more technical assistance units within the department. The duties of a technical assistance officer are to coordinate voluntary compliance with the regulatory laws administered by the department and to provide technical assistance concerning compliance with the laws. [1992 c 19 § 1.]

43.21A.087 Technical assistance officer and units—Authority to issue orders or assess penalties. (1) An employee designated by the department as a technical assistance officer or as a member of a technical assistance unit may not, during the period of the designation, have authority to issue orders or assess penalties on behalf of the department. Such an employee who provides on-site consultation at an industrial or commercial facility and who observes violations of the law shall inform the owner or operator of the facility of the violations. On-site consultation visits by such an employee may not be regarded as inspections or investigations and no notices or citations may be issued or civil penalties assessed during such a visit. However, violations of the law must be reported to the appropriate officers within the department. If the owner or operator of the facility does not correct the observed violations within a reasonable time, the department may reinspect the facility and take appropriate enforcement action. If a technical assistance officer or member of a technical assistance unit observes a violation of the law that places a person in danger of death or substantial bodily harm, or has caused or is likely to cause physical damage to the property of others in an amount exceeding one thousand dollars, the department may initiate enforcement action immediately upon observing the violation.

(2) The state, the department, and officers or employees of the state shall not be liable for damages to a person to the extent that liability is asserted to arise from the performance by technical assistance officers of their duties, or if liability is asserted to arise from the failure of the department to supply technical assistance. [1992 c 19 § 2.]

43.21A.090 Powers, duties and functions transferred to department to be performed by director—Delegation by director, limitations. All powers, duties and functions transferred to the department by the terms of chapter 62, Laws of 1970 ex. sess. shall be performed by the director: PROVIDED, That the director may delegate, by appropriate rule or regulation, the performance of such of his or her powers, duties, and functions, other than those relating to the adoption, amendment or rescission of rules and regulations, to employees of the department whenever it appears desirable in fulfilling the policy and purposes of this chapter. [2009 c 549 § 5083; 1970 ex.s. c 62 § 9.]

43.21A.100 Departmental administrative divisions—Deputy director, duties—Assistant directors, duties—As exempt from state civil service law—Salaries. In order to obtain maximum efficiency and effectiveness within the department, the director may create such administrative divisions within the department as he or she deems necessary.

The director shall appoint a deputy director as well as such assistant directors as shall be needed to administer the several divisions within the department. The deputy director shall have charge and general supervision of the department in the absence or disability of the director. In the case of a vacancy in the office of director, the deputy director shall administer the department until the governor appoints a successor to the director or an acting director. The officers appointed under this section and exempt from the provisions of the state civil service law as provided in RCW 41.06.073, shall be paid salaries to be fixed by the governor in accordance with the procedure established by law for the fixing of salaries for officers exempt from the operation of the state civil service law. [2009 c 549 § 5084; 1970 ex.s. c 62 § 10.]

43.21A.120 Director to employ personnel—Application of state civil service law. The director shall have the power to employ such personnel as may be necessary for the general administration of this chapter: PROVIDED, That except as specified in RCW 41.06.073, such employment shall be in accordance with the rules of the state civil service law, chapter 41.06 RCW. [1970 ex.s. c 62 § 12.]

43.21A.130 Studies—Limitations. (1) In addition to any other powers granted the director, the director may undertake studies dealing with all aspects of environmental problems involving land, water, or air; however, in the absence of specific legislative authority, such studies shall be limited to investigations of particular problems, and shall not be implemented by positive action.

(2)(a) Any studies conducted by the department to establish the total maximum daily load of a water body under chapter 90.48 RCW must involve meaningful participation and opportunities to comment by the local watershed planning group established in chapter 90.82 RCW, the local governments whose jurisdictions are within the affected watershed, and any affected or concerned citizen who notifies the department of his or her interest in participating. Technical or procedural disputes or disagreements that arise during the participation and comment process may be presented to the director for review. The director shall conduct a review of the disputed items and issue written findings and conclusions to all interested participants.

(b) If a study conducted on the total maximum daily load of a water body may affect a new or renewed national pollution discharge elimination permit under chapter 90.48 RCW, the department must disclose prior to the finalization of the study the precision and accuracy of data collected, computer models developed, and assumptions used. [2002 c 364 § 1; 1987 c 505 § 28; 1980 c 87 § 22; 1970 ex.s. c 62 § 13.]

43.21A.140 Director to consult with department, state board of health. The director in carrying out his or her powers and duties under this chapter shall consult with the department of social and health services and the state board of health, or their successors, insofar as necessary to assure that those agencies concerned with the preservation of life and health may integrate their efforts to the fullest extent possible and endorse policies in common. [2009 c 549 § 5085; 1979 c 141 § 67; 1970 ex.s. c 62 § 14.]

43.21A.150 Director to consult with other states, federal government, and Canadian provinces—Authority to receive and disburse grants, funds, and gifts—Department's web site list of interagency agreements. (1) The director, whenever it is lawful and feasible to do so, shall consult and cooperate with the federal government, as well as with other states and Canadian provinces, in the study and control of environmental problems. On behalf of the department, the director is authorized to accept, receive, disburse, and administer grants or other funds or gifts from any source, including private individuals or agencies, the federal government, and other public agencies, for the purpose of carrying out the provisions of this chapter.

(2)(a) Beginning December 31, 2017, the director must list on the department's web site information regarding the current interagency agreements to which the department is a party or in which the department is a participant.

(b) The list must identify each agreement, the type of agreement, parties to the agreement, the effective date of the agreement, and a brief description of the agreement. The list must include all interagency agreements involving the department and other state agencies, local governments, special purpose districts, the federal government and federal government agencies, and the agencies of other states.

(c) For the initial list, the department must by December 31, 2017, list all grant agreements and federal agreements where information is readily extractable from the department's data systems. For those data systems that, because of their age, require programming support to extract and format data for publishing to the internet, the department must complete listing the required information according to the following schedule:

(i) By June 30, 2018, all contract, loan, and grant agreements;

(ii) By December 31, 2018, all agreements pertaining to funds receivable for work performed by the department, leases, and nonfinancial interagency agreements.

(d) Beginning December 1, 2018, the department must annually update the web site to include new interagency agreements that the department has entered into and must identify the agreements that have been updated within the past year.

(e) For the purposes of this section, the term "interagency agreement" includes but is not limited to memoranda of understanding, grant contracts, and advisory or nonbinding agreements.

(f) For purposes of this section, the information posted on the department's web site is considered to function as a report to the legislature because the report acts as a mechanism of keeping the legislature apprised of the department's interagency agreements. [2017 c 47 § 2; 1970 ex.s. c 62 § 15.]

Findings—Intent—2017 c 47: "The legislature finds that department of ecology pursues its mission of environmental protection within a complicated framework of national, state, and local authorities and responsibilities, and that the department of ecology's roles within this framework are not always readily intelligible to the public. Furthermore, the legislature finds that promoting the transparency of department of ecology activities will bolster the understanding and trust in the agency held by legislators and the Washingtonians they represent. Therefore, it is the intent of the legislature to require the department of ecology to maintain a list of the department's participation in interagency agreements on its web site for the purposes of

improving public understanding of the extent and implications of those agreements." [2017 c 47 § 1.]

43.21A.155 Environmental excellence program agreements—Effect on chapter. Notwithstanding any other provision of law, any legal requirement under this chapter, including any standard, limitation, rule, or order is superseded and replaced in accordance with the terms and provisions of an environmental excellence program agreement, entered into under chapter 43.21K RCW. [1997 c 381 § 20.]

Purpose—1997 c 381: See RCW 43.21K.005.

43.21A.160 Request for certification of records as confidential—Procedure. Whenever any records or other information furnished under the authority of this chapter to the director, the department, or any division of the department, relate to the processes of production unique to the owner or operator thereof, or may affect adversely the competitive position of such owner or operator if released to the public or to a competitor, the owner or operator of such processes or production may so certify, and request that such information or records be made available only for the confidential use of the director, the department, or the appropriate division of the department. The director shall give consideration to the request, and if such action would not be detrimental to the public interest and is otherwise within accord with the policies and purposes of this chapter, may grant the same. [1970 ex.s. c 62 § 16.]

43.21A.165 Environmental technology—Review of certification programs—Demonstration activities. (1) The legislature finds that:

- (a) New and innovative environmental technologies can help improve environmental quality at lower costs;
- (b) Current regulatory processes often include permits or approvals that require applicants to duplicate costly technical analysis;
- (c) The commercialization of innovative environmental technologies can be discouraged due to the costs of repeated environmental analysis;
- (d) The regulatory process can be improved by sharing and relying on information generated through demonstration projects and technical certification programs; and
- (e) Other states have developed programs to certify environmental technologies in order to streamline the permitting process and to encourage use of environmental technologies.

(2) The legislature therefore declares that the department shall:

- (a) Review environmental technology certification programs established by other states or federal agencies, and enter into agreements to use the information from these programs if the department finds that this information will improve the efficiency and effectiveness of the state's environmental regulatory process; and
- (b) Participate in technology demonstration activities that support the state's needs for environmental technology. [1997 c 419 § 1.]

43.21A.175 Environmental certification programs—Fees—Rules—Liability. (1) At the request of a project proponent, the department shall consider information developed

(2021 Ed.)

through a certification program when making permit or other regulatory decisions. The department may not require duplicative demonstration of such information, but may require additional information as necessary to assure that state requirements are met. A local government that has a regulatory authority delegated by the department may use information developed through a certification program when making permit or other regulatory decisions.

(2) The department shall develop a certification program for technologies for remediation of radioactive and mixed waste, as those terms are defined in chapter 70A.300 RCW, if all program development and operational costs are paid by the federal government or persons seeking certification of the technologies.

(3) Following the development of the certification program in subsection (2) of this section, the department may use the policies and procedures of that program on a pilot basis to evaluate the use of certification for site remediation technologies and other environmental technologies, if the operational costs of the certification are paid by the federal government or persons seeking certification of such technologies.

(4) The department shall charge a reasonable fee to recover the operational costs of certifying a technology.

(5) Subsections (1), (3), and (4) of this section apply to permit and other regulatory decisions made under the following: Chapters 70A.15, 70A.205, 70A.300, 70A.305, 70A.25, 70A.315, 90.48, 90.54, and 90.56 RCW.

(6) For the purposes of this section, "certification program" means a program, developed or approved by the department, to certify the quantitative performance of an environmental technology over a specified range of parameters and conditions. Certification of a technology does not imply endorsement of a specific technology by the department, or a guarantee of the performance of a technology.

(7) The department may adopt rules as necessary to implement the requirements of subsections (2) and (3) of this section, and establish requirements and procedures for evaluation and certification of environmental technologies.

(8) The state, the department, and officers and employees of the state shall not be liable for damages resulting from the utilization of information developed through a certification program, or from a decision to certify or deny certification to an environmental technology. Actions of the department under this section are not decisions reviewable under RCW 43.21B.110. [2020 c 20 § 1031; 1997 c 419 § 2.]

43.21A.230 Certification of environmental laboratories authorized—Fees—Use of certified laboratories by persons submitting data or results to department. The director of ecology may certify environmental laboratories which conduct tests or prepare data for submittal to the department. Fees for certification may be charged by the department to cover the department's costs. Such certification may consider:

- (1) Evaluating protocols and procedures;
- (2) Determining the accuracy and reliability of test results, including internal quality assurance and quality control procedures and proficiency at analyzing test samples supplied by the department;

(3) Certifying laboratories based on prior certification by another state or federal agency whose certification requirements are deemed satisfactory by the director; and

(4) Such other factors as the director considers appropriate.

The director of ecology may require that any person submitting laboratory data or test results to the department use laboratories certified by the department or laboratories which participate in quality assurance programs administered by the federal environmental protection agency.

Persons receiving a federal permit for wastewater discharge who operate a lab solely for their own use and who require certification for only conventional pollutants shall not be charged an annual certification fee in excess of the actual costs of providing the certification or four thousand dollars, whichever is less. Conventional pollutants as used in this subsection means those conventional pollutants regulated under the federal clean water act (33 U.S.C. Sec. 1314).

Fees and lab quality control requirements for persons receiving state or federal wastewater discharge permits shall not be implemented before September 30, 1988. The department shall not duplicate any laboratory quality control requirements imposed by the United States environmental protection agency. [1987 c 481 § 1.]

43.21A.235 Exemption from laboratory certification and fee requirements. Laboratories owned by persons holding wastewater discharge permits and operated solely for their own use which participate in quality assurance programs administered by the federal environmental protection agency shall be exempt from certification and fee requirements for the specific methods and tests which are the subject of such quality assurance programs. [1987 c 481 § 2.]

43.21A.350 Master plan of development. The department of ecology shall prepare and perfect from time to time a state master plan for flood control, state public reservations, financed in whole or in part from moneys collected by the state, sites for state public buildings and for the orderly development of the natural and agricultural resources of the state. The plan shall address how the department will expedite the completion of projects of statewide significance. The plan shall be a guide in making recommendations to the officers, boards, commissions, and departments of the state.

Whenever an improvement is proposed to be established by the state, the state agency having charge of the establishment thereof shall request of the director a report thereon, which shall be furnished within a reasonable time thereafter. In case an improvement is not established in conformity with the report, the state agency having charge of the establishment thereof shall file in its office and with the department a statement setting forth its reasons for rejecting or varying from such report which shall be open to public inspection.

The department shall insofar as possible secure the cooperation of adjacent states, and of counties and municipalities within the state in the coordination of their proposed improvements with such master plan. [2009 c 421 § 7; 1997 c 369 § 6; 1987 c 109 § 29; 1965 c 8 § 43.21.190. Prior: 1957 c 215 § 22; 1933 ex.s. c 54 § 3; RRS § 10930-3. Formerly RCW 43.21.190.]

43.21A.355 Master plan of development—Public hearings. [1988 c 127 § 7; 1965 c 8 § 43.21.200. Prior: 1957 c 215 § 23; 1933 ex.s. c 54 § 4; RRS § 10930-4. Formerly RCW 43.21.200.]

43.21A.405 Marine pollution—Baseline study program—Legislative finding and declaration. The legislature recognizes that there exists a great risk of potential damage from oil pollution of the waters of the state of Washington and further declares that immediate steps must be undertaken to reduce this risk. The legislature also is aware that such danger is expected to increase in future years in proportion to the increase in the size and cargo capacity of ships, barges, and other waterborne carriers, the construction and operational characteristics of these carriers, the density of waterborne traffic, and the need for a greater supply of petroleum products.

A program of systematic baseline studies to be conducted by the department of ecology has been recognized as a vital part of the efforts to reduce the risk of oil pollution of marine waters, and the legislature recognizes that many factors combine to make this effort one of considerable magnitude and difficulty. The marine shoreline of the state is about two thousand seven hundred miles long, a greater length than the combined coastlines of Oregon and California. There are some three million acres of submerged land and more than three hundred islands in these marine waters. The average depth of Puget Sound is two hundred twenty feet. There is a great diversity of animal life in the waters of the state. These waters have a multitude of uses by both humans and nonhumans, and the interaction between human activities and natural processes in these waters varies greatly with locale. [2010 c 8 § 7001; 1973 2nd ex.s. c 30 § 1.]

Oil and hazardous substances pollution: RCW 90.56.010 through 90.56.280.

43.21A.410 Marine pollution—Baseline study program established—Utilization of related programs—Coordination—Contracts. As part of the state effort to prevent and control oil pollution, a continuing, comprehensive program of systematic baseline studies for the waters of the state shall be established by the department of ecology. Full utilization of related historical data shall be made in planning these studies. Data from these and other scientific investigations made pursuant to RCW 43.21A.405 through 43.21A.420 should, whenever possible, have multiple use, including use as supporting evidence of environmental damage resulting from oil pollution, as indicators of the potential or existing risks and impacts of oil pollution, as aids to developing a methodology for implementing the reduction of risks, and as aids to maintaining water quality standards.

A baseline study program shall take full advantage of the data and information produced by related programs, such as the marine ecosystems analysis (MESA) program of the

national oceanic and atmospheric administration, studies and inventories made pursuant to the state shorelines management act of 1971, and others. All phases of the program, including planning, operations, data analysis, interpretation, storage, retrieval, and dissemination phases, shall be coordinated to the greatest possible extent with appropriate governmental, academic, and industrial organizations. Whenever possible, the department shall contract with existing state agencies, boards, commissions, and institutions of higher education for the scientific investigation programs to be conducted. [1973 2nd ex.s. c 30 § 2.]

43.21A.415 Marine pollution—Baseline study program—Scope of database produced. The database produced by such studies should include chemical, physical, and biological parameters of the waters, complete information on marine pollution accidents, and an economic evaluation of the marine resources and shoreline properties that may be damaged or impaired by oil pollution. Where oceanographic and water quality instrumentation is used to gather data, such instruments shall be standardized and intercalibrated. [1973 2nd ex.s. c 30 § 3.]

43.21A.420 Marine pollution—Baseline study program—Priority factors. In planning the state baseline studies program, priority shall be given to those waters (1) in which the greatest risk of damage from oil spills exists; (2) which contain marine and freshwater life that is particularly sensitive to toxins contained in crude oil, oil products, and oil wastes; and (3) which are used or may be used for the harvesting, gathering, or production of food or food products. [1973 2nd ex.s. c 30 § 4.]

43.21A.430 Catalytic converters in police, ambulance or emergency aid vehicles—Department's powers restricted in respect thereto. The department of ecology may not adopt, maintain in effect, or enforce any rule requiring the installation or maintenance of a catalytic converter in the exhaust system of any motor vehicle used as a police vehicle, or ambulance, an emergency aid vehicle, or a fire department vehicle, and any catalytic converter in the exhaust system of any such vehicle may be lawfully removed. [1977 ex.s. c 264 § 1.]

43.21A.440 Department authorized to participate in and administer federal Comprehensive Environmental Response, Compensation and Liability Act. The department of ecology is authorized to participate fully in and is empowered to administer all programs of the federal Comprehensive Environmental Response, Compensation and Liability Act (42 U.S.C. 9601 et seq.), as it exists on July 24, 1983, contemplated for state participation and administration under that act. (2) For the purpose of implementing subsection (1) of this section, the department of ecology may acquire, design, construct, own, operate, and maintain a project to be known as the Lake Osoyoos International Water Control Structure and may acquire all real property interests necessary thereto by purchase, grant, gift, or eminent domain; provided that the authority of eminent domain as granted to the department under this section is limited to acquiring property necessary for access to the control structure, location of abutments for the control structure, and flowage easements if necessary.

(3) The department may accept and administer grants or gifts from any source for the purpose of carrying out subsection (2) of this section.

(4) The department may exercise its powers under subsection (2) of this section directly or through contracts, except that it may not delegate its authority of eminent domain. [1985 c 27 § 1; 1982 c 76 § 1.]

Intent—1985 c 27; 1982 c 76: "It is the intent of this legislature in enacting RCW 43.21A.450 that total capital costs for the said project be shared equally by Washington state and British Columbia." [1985 c 27 § 2; 1982 c 76 § 2.]

43.21A.470 Yakima enhancement project—Duties—Request for congressional authorization for pipeline. (1) The director of the department of ecology shall:

(a) Continue to participate with the federal government in its studies of the Yakima enhancement project and of options for future development of the second half of the Columbia Basin project;

(b) Vigorously represent the state's interest in said studies, particularly as they relate to protection of existing water rights and resolution of conflicts in the adjudication of the Yakima river within the framework of state water rights law and propose means of resolving the conflict that minimize adverse effects on the various existing uses;

(c) As a cooperative federal and nonfederal effort, work with members of the congressional delegation to identify and advance, subject to the limitations in subsection (2) of this section, for federal authorization elements of the Yakima enhancement project which: Have general public support and acceptable cost-sharing arrangements, meet study objectives, and otherwise have potential for early implementation; and

(d) In developing acceptable cost-sharing arrangements, request federal recognition of state credit for expenditures of moneys from Washington state utility ratepayers.

(2) In the interest of promoting cooperation between all interested parties and to effectuate the efficient and satisfactory implementation of the Yakima enhancement project, the state requests that Congress authorize the construction of a pipeline between Keechelus Lake and Kachess Lake as one of the elements of early implementation of the Yakima enhancement project for the purpose of supplying the water which is demanded for and caused by the operation of the fish passage facilities at the Easton Dam. The department, in concert with other state agencies, shall work diligently to assure that the pipeline element is included in the federal legislation. [1987 c 517 § 1; 1986 c 316 § 3.]

43.21A.510 State environmental profile. In order to assist the *department of community, trade, and economic development in providing information to businesses interested in locating in Washington state, the department shall develop an environmental profile of the state. This profile shall identify the state's natural resources and describe how these assets are valuable to industry. Examples of information to be included are water resources and quality, air quality, and recreational opportunities related to natural resources. [1995 c 399 § 66; 1985 c 466 § 51; 1984 c 94 § 2.]

**Reviser's note:* The "department of community, trade, and economic development" was renamed the "department of commerce" by 2009 c 565.

Findings—1984 c 94: "The legislature finds (1) that a locality's natural environment is an important factor in determining where new businesses will locate, (2) that environmental regulations that preserve the quality of the environment can enhance economic development and the determination by new businesses where to locate and can lead to the creation of jobs and new industries, and (3) that some areas of the state have been and might be handicapped in their economic development efforts because of perceived environmental problems. Thus, the legislature declares that it is the policy of this state to recognize and emphasize the importance of the state's natural environment in its economic development efforts in attracting and maintaining businesses." The department shall make studies and surveys, collect, compile and disseminate information and statistics to facilitate development of the electric power resources of the state by public utility districts, municipalities, electric cooperatives, joint operating agencies and public utility companies. The director may cause studies to be made relating to the construction of steam generating plants using any available fuel and their integration with hydro-electric facilities. He or she may cause designs for any such plant to be prepared. He or she shall employ such engineers and other experts and assistants as may be necessary to carry out his or her power resources functions. [2009 c 549 § 5086; 1988 c 127 § 8; 1965 c 8 § 43.21.220. Joint operating agencies: Chapter 43.52 RCW.

43.21A.605 Development of electric power resources—Cooperation with governmental units. The director may represent the state and aid and assist the public utilities therein to the end that its resources shall be properly developed in the public interest insofar as they affect electric power and to this end he or she shall cooperate and may negotiate with Canada, the United States, the states thereof and their agencies to develop and integrate the resources of the region. [2009 c 549 § 5087; 1988 c 127 § 9; 1965 c 8 § 43.21.230. Prior: 1957 c 284 § 3. Formerly RCW 43.21.230.]

43.21A.610 Steam electric generating plant—Study—Construction. The director shall continue the study of the state power commission made in 1956 relating to the construction of a steam power electric generating plant, and if the construction of a steam electric generating plant is found to be feasible by the director, the director may construct such plant at a site determined by him or her to be feasible and operate it as a state owned facility. [2009 c 549 § 5088; 1988 c 127 § 10; 1965 c 8 § 43.21.250. Prior: 1957 c 275 § 3. Formerly RCW 43.21.250.]

43.21A.612 Steam electric generating plant—Statement of intention—Construction by public utility, operating agency, or the department, procedure—Powers of director of community, trade, and economic development. Before the director shall construct said steam generating facility within the state, or make application for any permit, license or other right necessary thereto, the director shall give notice thereof by publishing once a week for four consecutive weeks in a newspaper of general circulation in the county or counties in which such project is located a statement of intention setting forth the general nature, extent and location of the project. If any public utility in the state or any operating agency desires to construct such facility, such utility or operating agency shall notify the director thereof within ten days after the last date of publication of such notice. If the director determines that it is in the best public interest that the director proceed with such construction rather than the public utility or operating agency, the director shall so notify the *director of community, trade, and economic development, who shall set a date for hearing thereon. If after considering the evidence introduced the *director of community, trade, and economic development finds that the public utility or operating agency making the request intends to immediately proceed with such construction and is financially capable of carrying out such construction and further finds that the plan of such utility or operating agency is equally well adapted to serve the public interest, the director shall enter an order so finding and such order shall divest the director of authority to proceed further with such construction or acquisition until such time as the other public utility or agency voluntarily causes an assignment of its right or interest in the project to the director or fails to procure any further required governmental permit, license or authority or having procured such, has the same revoked or withdrawn, in accordance with the laws and regulations of such governmental entity, in which event the director shall have the same authority to proceed as though the director had originally entered an order so authorizing the director to proceed. If, after considering the evidence introduced, the *director of community, trade, and eco-

conomic development finds that the public utility or agency making the request does not intend to immediately proceed with such construction or acquisition or is not financially capable of carrying out such construction or acquisition, or finds that the plan of such utility or operating agency is not equally well adapted to serve the public interest, the director shall then enter an order so finding and authorizing the director to proceed with the construction or acquisition of the facility. (1) To generate, produce, transmit, deliver, exchange, purchase or sell electric energy and to enter into contracts for any or all such purposes.

(2) To construct, condemn, purchase, lease, acquire, add to, extend, maintain, improve, operate, develop and regulate such steam electric power plant, work and facilities for the generation and/or transmission of electric energy and to take, condemn, purchase, lease and acquire any real or personal, public or private property, franchise and property rights, including but not limited to state, county and school lands and properties, for any of the purposes herein set forth and for any facilities or works necessary or convenient for use in the construction, maintenance or operation of such work, plant and facilities; providing that the director shall not be authorized to acquire by condemnation any plant, work and facility owned and operated by any city or district, or by a privately owned public utility.

(4) To establish rates for electric energy sold or transmitted by the director. When any revenue bonds or warrants are outstanding the director shall have the power and shall be required to establish and maintain and collect rates or charges for electric energy furnished or supplied by the director which shall be fair and nondiscriminatory and adequate to provide revenues sufficient for the payment of the principal and interest on such bonds or warrants and all payments which the director is obligated to set aside in any special fund or funds created for such purposes, and for the proper operation and maintenance of the public utility owned by the director and all necessary repairs, replacements and renewals thereof.

(5) To employ legal, engineering and other professional services and fix the compensation of a managing director and such other employees as the director may deem necessary to carry on its business, and to delegate to such manager or other

employees such authority as the director shall determine. Such manager and employees shall be appointed for an indefinite time and be removable at the will of the director. [1988 c 127 § 12; 1965 c 8 § 43.21.270. Prior: 1957 c 275 § 5. Formerly RCW 43.21.270.]

43.21A.616 Steam electric generating plant—Eminent domain. For the purpose of carrying out any or all of the powers herein granted the director shall have the power of eminent domain for the acquisition of either real or personal property used or useful in connection with the construction of facilities authorized hereunder. Actions in eminent domain pursuant to RCW 43.21A.610 through 43.21A.642 shall be brought in the name of the state in any court of competent jurisdiction under the procedure set out in chapter 8.04 RCW. The director may institute condemnation proceedings in the superior court of any county in which any of the property sought to be condemned is located or in which the owner thereof does business, and the court in any such action shall have jurisdiction to condemn property wherever located within the state. It shall not be necessary to allege or prove any offer to purchase or inability to agree with the owners thereof for the purchase of any such property in said proceedings. Upon the filing of a petition for condemnation, as provided in this section, the court may issue an order restraining the removal from the jurisdiction of the state of any personal property sought to be acquired by the proceedings during the pendency thereof. The court shall further have the power to issue such orders or process as shall be necessary to place the director into possession of any property condemned. [1988 c 127 § 13; 1965 c 8 § 43.21.280. Prior: 1957 c 275 § 6. Formerly RCW 43.21.280.]

43.21A.618 Steam electric generating plant—State not financially obligated—Separation and expenditure of funds. The director shall have no right or power to impose any debt nor to suffer or create any financial obligation upon the state of Washington or its subdivisions in the execution of RCW 43.21A.610 through 43.21A.642.

No revenues received by the director for the sale of electricity or otherwise, shall be expended except for the payment of lawful obligations of the director and all such revenues and receipts shall be kept and maintained in a separate fund. [1988 c 127 § 14; 1965 c 8 § 43.21.290. Prior: 1957 c 275 § 7. Formerly RCW 43.21.290.]

43.21A.620 Steam electric generating plant—Revenue bonds and warrants. For the purposes provided for in RCW 43.21A.610 through 43.21A.642, the state finance committee shall, upon being notified to do so by the director, issue revenue bonds or warrants payable from the revenues from the steam electric plant provided for in RCW 43.21A.610. When the director deems it advisable that he or she acquire or construct said steam electric plant or make additions or betterments thereto, he or she shall so notify the state finance committee and he or she shall also notify the state finance committee as to the plan proposed, together with the estimated cost thereof. The state finance committee, upon receiving such notice, shall provide for the construction thereof and the issuance of revenue bonds or warrants therefor by a resolution which shall specify and adopt the system

or plan proposed, and declare the estimated cost thereof, as nearly as may be, including as part of the cost, funds necessary for working capital for the operation of such utility and the payment of the expenses incurred in the acquisition or construction thereof. Such resolution shall specify that utility revenue bonds are to be issued to defray the cost thereof and the amount of such bonds to be issued. Bonds issued under the provisions of RCW 43.21A.610 through 43.21A.642 shall distinctly state that they are not a general obligation of the state. [2009 c 549 § 5089; 1988 c 127 § 15; 1965 c 8 § 43.21.300. Prior: 1957 c 275 § 8. Formerly RCW 43.21.300.]

43.21A.622 Steam electric generating plant—Special funds—Payment of bonds, interest. When the state finance committee issues revenue bonds as provided in RCW 43.21A.620, it shall, as a part of the plan and system, request the state treasurer to establish a special fund or funds to defray the cost of the steam electric utility, or additions or betterments thereto or extensions thereof. The state finance committee may obligate and bind the director to set aside and pay to the state treasurer for deposit into such fund or funds a fixed proportion of the gross revenue of the steam electric utility and all additions or betterments thereto or extensions thereof, or any fixed amount out of, and not exceeding the fixed proportion of such revenue, or a fixed amount without regard to any fixed proportion, or an amount of the revenue equal to a fixed percentage of the aggregate principal amount of revenue bonds at any time issued against the special fund or funds. It may issue and sell utility bonds payable as to both principal and interest only out of such fund or funds.

The revenue bonds shall be payable at such places and times, both as to principal and interest, and bear interest at such rates payable semiannually as the state finance committee shall determine. [1988 c 127 § 16; 1965 c 8 § 43.21.310. Prior: 1957 c 275 § 9. Formerly RCW 43.21.310.]

43.21A.624 Steam electric generating plant—Considerations in issuance of bonds, limitations. In the issuance of any bonds hereunder the state finance committee shall have due regard to the cost of operation and maintenance of the steam electric utility as acquired, constructed or added to, and to any proportion or amount of the revenue previously pledged as a fund for the payment of revenue bonds. It shall not require to be set aside into the fund a greater amount or proportion of the revenue than in its judgment and as agreed to by the director will be available over and above the cost of maintenance and operation and any amount or proportion of the revenue so previously pledged. Revenue bonds and interest thereon issued against such fund shall be a valid claim of the holder thereof only as against the fund and the proportion or amount of the revenue pledged thereto, but shall constitute a prior charge over all other charges or claims whatsoever against the fund and the proportion or amount of the revenues pledged thereto. Each revenue bond shall state on its face that it is payable from a special fund, naming the fund and the resolution creating it. [1988 c 127 § 17; 1965 c 8 § 43.21.320. Prior: 1957 c 275 § 10. Formerly RCW 43.21.320.]

43.21A.626 Steam electric generating plant—Resolution authorizing issuance of bonds, contents, covenants.

The resolution of the state finance committee authorizing the issuance of revenue bonds shall specify the title of the bonds as determined by the state finance committee, and may contain covenants by the committee to protect and safeguard the security and the rights of the holders thereof, including covenants as to, among other things:

(1) The purpose or purposes to which the proceeds of the sale of the revenue bonds may be applied and the use and disposition thereof;

(2) The use and disposition of the gross revenue of the steam electric utility and any additions or betterments thereto or extensions thereof, the cost of which is to be defrayed with such proceeds, including the creation and maintenance of funds for working capital to be used in the operation of the steam electric utility and for renewals and replacements thereof;

(3) The amount, if any, of additional revenue bonds payable from such fund which may be issued and the terms and conditions on which such additional revenue bonds or warrants may be issued;

(4) The establishment and maintenance of adequate rates and charges for electric power and energy and other services, facilities, and commodities, sold, furnished or supplied by the steam electric utility;

(5) The operation, maintenance, management, accounting and auditing of the electric utility;

(6) The terms upon which the revenue bonds, or any of them, may be redeemed at the election of the agency;

(7) Limitations upon the right to dispose of the steam electric utility or any part thereof without providing for the payment of the outstanding revenue bonds; and

(8) The appointment of trustees, depositaries, and paying agents to receive, hold, disburse, invest, and reinvest all or any part of the income, revenue, receipts and profits derived by the director from the operation, ownership, and management of its steam electric utility. [1988 c 127 § 18; 1965 c 8 § 43.21.330. Prior: 1957 c 275 § 11. Formerly RCW 43.21.330.]

43.21A.628 Steam electric generating plant—Sale of bonds. All bonds issued under or by authority of RCW 43.21A.610 through 43.21A.642 shall be sold to the highest and best bidder after such advertising for bids as the state finance committee may deem proper. The state finance committee may reject any and all bids so submitted and thereafter sell such bonds so advertised under such terms and conditions as the state finance committee may deem most advantageous to its own interests. The refunding bonds shall be payable only out of a special fund created out of the gross revenue of the steam electric utility, and shall only be a valid claim as against such special fund and the amount or proportion of the revenue of the utility pledged to said fund. The rate of interest on refunding revenue bonds shall not exceed the rate of interest on revenue bonds refunded thereby. The state finance committee may exchange the refunding revenue bonds for the revenue bonds which are being refunded, or it may sell them in such manner as it deems for its best interest. 43.21A.650 Freshwater aquatic weeds account. The freshwater aquatic weeds account is hereby created in the state treasury. Expenditures from this account may only be used as provided in RCW 43.21A.660. Moneys in the account may be spent only after appropriation. [1991 c 302 § 2.]

Findings—1991 c 302: "The legislature hereby finds that Eurasian water milfoil and other freshwater aquatic weeds can adversely affect fish populations, reduce habitat for desirable plant and wildlife species, and decrease public recreational opportunities. The legislature further finds that the spread of freshwater aquatic weeds is a statewide problem and requires a coordinated response among state agencies, local governments, and the public. It is therefore the intent of the legislature to establish a funding source to reduce the propagation of Eurasian water milfoil and other freshwater aquatic weeds and to manage the problems created by such freshwater aquatic plants." 43.21A.681 Geoduck aquaculture operations—Guidelines—Rules. (1) The department of ecology shall develop, by rule, guidelines for the appropriate siting and operation of geoduck aquaculture operations to be included in any master program under this section. The guidelines adopted under this section must be prepared with the advice of the shellfish aquaculture regulatory committee created in section 4, chapter 216, Laws of 2007, which shall serve as the advisory committee for the development of the guidelines.

(2) The guidelines required under this section must be filed for public review and comment no later than six months after the delivery of the final report by the shellfish aquaculture regulatory committee created in section 4, chapter 216, Laws of 2007.

(2021 Ed.)

(3) The department of ecology shall update the guidelines required under this section, as necessary, after the completion of the geoduck research by the sea grant program at the University of Washington required under RCW 28B.20.475. [2007 c 216 § 5.]

43.21A.690 Cost-reimbursement agreements. (1) The department may enter into a written cost-reimbursement agreement with a permit applicant or project proponent to recover from the applicant or proponent the reasonable costs incurred by the department in carrying out the requirements of this chapter, as well as the requirements of other relevant laws, as they relate to permit coordination, environmental review, application review, technical studies, and permit processing.

(2) The cost-reimbursement agreement shall identify the tasks and costs for work to be conducted under the agreement. The agreement must include a schedule that states:

(a) The estimated number of weeks for initial review of the permit application;

(b) The estimated number of revision cycles;

(c) The estimated number of weeks for review of subsequent revision submittals;

(d) The estimated number of billable hours of employee time;

(e) The rate per hour; and

(f) A date for revision of the agreement if necessary.

(3) The written cost-reimbursement agreement shall be negotiated with the permit applicant or project proponent. Under the provisions of a cost-reimbursement agreement, funds from the applicant shall be used by the department to contract with an independent consultant to carry out the work covered by the cost-reimbursement agreement. The department may also use funds provided under a cost-reimbursement agreement to hire temporary employees, to assign current staff to review the work of the consultant, to provide necessary technical assistance when an independent consultant with comparable technical skills is unavailable, and to recover reasonable and necessary direct and indirect costs that arise from processing the permit. The department shall, in developing the agreement, ensure that final decisions that involve policy matters are made by the agency and not by the consultant. The department shall make an estimate of the number of permanent staff hours to process the permits, and shall contract with consultants or hire temporary employees to replace the time and functions committed by these permanent staff to the project. The billing process shall provide for accurate time and cost accounting and may include a billing cycle that provides for progress payments.

(4) The cost-reimbursement agreement must not negatively impact the processing of other permit applications. In order to maintain permit processing capacity, the agency may hire outside consultants, temporary employees, or make internal administrative changes. Consultants or temporary employees hired as part of a cost-reimbursement agreement or to maintain agency capacity are hired as agents of the state not of the permit applicant. The restrictions of chapter 42.52 RCW apply to any cost-reimbursement agreement, and to any person hired as a result of a cost-reimbursement agreement. [2009 c 97 § 8; 2007 c 94 § 10; 2003 c 70 § 1; 2000 c 251 § 2.]

Intent—2000 c 251: "It is the intent of the legislature to allow applicants for environmental permits for complex projects to compensate permitting agencies for providing environmental review through the voluntary negotiation of cost-reimbursement agreements with the permitting agency. It is the further intent of the legislature that cost-reimbursement agreements for complex projects free permitting agency resources to focus on the review of small projects permits." [2000 c 251 § 1.]

[2013 c 291 § 23.]

(a) The purposes for which the transferee intends to use the vessel; and

(b) Information demonstrating the prospective owner's intent to obtain legal moorage following the transfer, in the manner determined by the department.

(2)(a) The department shall remove any containers or other materials that are not fixed to the vessel and contain hazardous substances, as defined under RCW 70A.305.020.

(b) However, the department may transfer a vessel with:

(i) Those containers or materials described under (a) of this subsection where the transferee demonstrates to the department's satisfaction that the container's or material's presence is consistent with the anticipated use of the vessel; and

(ii) A reasonable amount of fuel as determined by the department, based on factors including the vessel's size, condition, and anticipated use of the vessel including initial destination following transfer.

(3) Prior to sale, and unless the vessel has a valid marine document, the department is required to apply for a title or certificate of title for the vessel under RCW 88.02.510 and register the vessel under RCW 88.02.550. [2020 c 20 § 1032; 2013 c 291 § 24.]

(ii) The best management practices for preventing and managing polychlorinated biphenyl contamination, as required under RCW 70A.224.030; and

(b) The department has determined that:

(i) The costs to the petitioning city or county for disposal of the contaminated oil or for compliance with United States environmental protection agency enforcement orders or enforcement-related agreements are extraordinary; and

(ii) The city or county could not reasonably accommodate or anticipate the extraordinary costs in their normal budget processes by following and meeting the best management practices for oil contaminated with polychlorinated biphenyl.

(3) Before January 1st of each year, the department must develop and submit to the appropriate fiscal committees of the senate and house of representatives a prioritized list of submitted petitions that the department recommends for funding by the legislature. It is the intent of the legislature that if funded, the reimbursement of extraordinary city or county costs associated with polychlorinated biphenyl management and compliance activities come from the model toxics control operating account created in RCW 70A.305.180. [2020 c 20 § 1033; 2014 c 173 § 3.]

(2) For the purposes of determining grant allocations, the department of ecology, in consultation with emergency first responders, oil spill response cooperatives, representatives from the oil and rail industries, and businesses that are recipients of liquid bulk crude oil shall: (a) Conduct an evaluation of oil spill and hazardous materials response and firefighting equipment and resources currently available for oil spill and hazardous materials response activities throughout the state; (b) review the local emergency management coordinating efforts for oil spill and hazardous materials response; (c) determine the need for additional, new, or updated equipment and resources; and (d) identify areas or regions of the state that are in greatest need of resources and oil spill and hazardous materials response and firefighting equipment.

(3) The department of ecology, in consultation with emergency first responders, oil spill response cooperatives, representatives from the oil and rail industries, and businesses that are recipients of liquid bulk crude oil shall review grant applications to prioritize grant awards using the evaluation of availability of oil spill and hazardous materials

response and firefighting equipment and resources as determined in subsection (2) of this section.

(a) The application review must include evaluation of equipment and resource requests, funding requirements, and coordination with existing equipment and resources in the area.

(b) Funding must be prioritized for applicants from areas where the need for firefighting and oil spill and hazardous materials response equipment is the greatest as determined in subsection (2) of this section.

(c) Grants must be coordinated to maximize currently existing equipment and resources that have been put in place by first responders and industry. [2015 c 274 § 26.]

(5) "Environmental boards" means the pollution control hearings board created in RCW 43.21B.010 and the shorelines hearings board created in RCW 90.58.170.

Intent—2010 c 210: "It is the intent of the legislature to reduce and consolidate the number of state boards that conduct administrative review of environmental and land use decisions and to make more uniform the timelines for filing appeals with such boards. The legislature intends to eliminate the hydraulics appeals board and the forest practices appeals board by transferring their duties to the pollution control hearings board. The legislature further intends to eliminate certain preliminary informal appeals heard internally by agencies. The legislature also intends to consolidate administratively and physically collocate the growth management hearings boards into the environmental and land use hearings office by July 1, 2011." [2010 c 210 § 1.]

Purpose—1987 c 109: "The purposes of this act are to:

(1) Simplify and clarify existing statutory and administrative procedures for appealing decisions of the department of ecology and air pollution control authorities in order to (a) expedite those appeals, (b) insure that those appeals are conducted with a minimum of expense to save state and private resources, and (c) allow the appellate authorities to decide cases on their merits rather than on procedural technicalities.

(2) Clarify existing statutes relating to the environment but which refer to numerous agencies no longer in existence.

(3) Eliminate provisions no longer effective or meaningful and abbreviate statutory provisions which are unnecessarily long and confusing." [1987 c 109 § 1.]

Purpose—1974 ex.s. c 179: See note following RCW 43.21C.080.

43.21B.260 Regulations and amendments of activated air pollution control authorities—Filing with hearings board authorized—Evidence. Activated air pollution control authorities, established under chapter 70A.15 RCW, may file certified copies of their regulations and amendments thereto with the pollution control hearings board of the state of Washington, and the hearings board shall take judicial note of the copies so filed and the said regulations and amendments shall be received and admitted, by reference, in all hearings before the board, as prima facie evidence that such regulations and amendments on file are in full force and effect. [2020 c 20 § 1037; 1974 ex.s. c 69 § 5.]

43.21B.300 Penalty procedures. (1) Any civil penalty provided in RCW 18.104.155, 70A.15.3160, 70A.205.280, 70A.300.090, 70A.20.050, 70A.245.040, 70A.245.050, 70A.245.070, 70A.245.080, 70A.65.200, 88.46.090, 90.03.600, 90.46.270, 90.48.144, 90.56.310, 90.56.330, and 90.64.102 and chapter 70A.355 RCW shall be imposed by a notice in writing, either by certified mail with return receipt requested or by personal service, to the person incurring the penalty from the department or the local air authority, describing the violation with reasonable particularity. For penalties issued by local air authorities, within thirty days after the notice is received, the person incurring the penalty may apply in writing to the authority for the remission or mitigation of the penalty. Upon receipt of the application, the authority may remit or mitigate the penalty upon whatever terms the authority in its discretion deems proper. The authority may ascertain the facts regarding all such applications in such reasonable manner and under such rules as it may deem proper and shall remit or mitigate the penalty only upon a demonstration of extraordinary circumstances such as the presence of information or factors not considered in setting the original penalty.

(2) Any penalty imposed under this section may be appealed to the pollution control hearings board in accordance with this chapter if the appeal is filed with the hearings board and served on the department or authority thirty days after the date of receipt by the person penalized of the notice imposing the penalty or thirty days after the date of receipt of the notice of disposition by a local air authority of the application for relief from penalty.

(3) A penalty shall become due and payable on the later of:

- (a) Thirty days after receipt of the notice imposing the penalty;
- (b) Thirty days after receipt of the notice of disposition by a local air authority on application for relief from penalty, if such an application is made; or
- (c) Thirty days after receipt of the notice of decision of the hearings board if the penalty is appealed.

(4) If the amount of any penalty is not paid to the department within thirty days after it becomes due and payable, the attorney general, upon request of the department, shall bring an action in the name of the state of Washington in the superior court of Thurston county, or of any county in which the

violator does business, to recover the penalty. If the amount of the penalty is not paid to the authority within thirty days after it becomes due and payable, the authority may bring an action to recover the penalty in the superior court of the county of the authority's main office or of any county in which the violator does business. In these actions, the procedures and rules of evidence shall be the same as in an ordinary civil action.

(5) All penalties recovered shall be paid into the state treasury and credited to the general fund except those penalties imposed pursuant to RCW 18.104.155, which shall be credited to the reclamation account as provided in RCW 18.104.155(7), RCW 70A.15.3160, the disposition of which shall be governed by that provision, RCW 70A.245.040 and 70A.245.050, which shall be credited to the recycling enhancement account created in RCW 70A.245.100, RCW 70A.300.090, which shall be credited to the model toxics control operating account created in RCW 70A.305.180, RCW 70A.65.200, which shall be credited to the climate investment account created in RCW 70A.65.250, RCW 90.56.330, which shall be credited to the coastal protection fund created by RCW 90.48.390, and RCW 70A.355.070, which shall be credited to the underground storage tank account created by RCW 70A.355.090. 43.21B.305 Appeals that involve penalties of fifteen thousand dollars or less or that involve a derelict or abandoned vessel under RCW 79.100.120. (1) In an appeal that involves a penalty of fifteen thousand dollars or less or that involves a derelict or abandoned vessel under RCW 79.100.120, the appeal may be heard by one member of the board, whose decision shall be the final decision of the board. The board shall define by rule alternative procedures to expedite appeals involving penalties of fifteen thousand dollars or less or involving a derelict or abandoned vessel. These alternatives may include: Mediation, upon agreement of all parties; submission of testimony by affidavit; or other forms that may lead to less formal and faster resolution of appeals.

(2) For appeals that involve a derelict or abandoned vessel under RCW 79.100.120 only, an administrative law judge employed by the board may be substituted for a board member under this section. [2013 c 291 § 44; 2005 c 34 § 2; 1994 c 253 § 5.]

43.21B.310 Appeal of orders. (1) The issuing agency in its discretion may stay the effectiveness of any order that has been appealed to the board during the pendency of such an appeal.

(2) At any time during the pendency of an appeal of such an order to the board, the appellant may apply pursuant to RCW 43.21B.320 to the hearings board for a stay of the order or for the removal thereof.

(3) Upon failure to comply with any final order of the department, the attorney general, on request of the department, may bring an action in the superior court of the county where the violation occurred or the potential violation is about to occur to obtain such relief as necessary, including injunctive relief, to ensure compliance with the order. The air authorities may bring similar actions to enforce their orders.

(4) An appealable decision or order shall be identified as such and shall contain a conspicuous notice to the recipient that it may be appealed only by filing an appeal with the hearings board and serving it on the issuing agency within thirty days of the date of receipt. [2010 c 210 § 13. 43.21B.320 Stays of orders. (1) A person appealing to the hearings board an order, not stayed by the issuing agency, may obtain a stay of the effectiveness of that order only as set forth in this section.

(2) An appealing party may request a stay by including such a request in the appeal document, in a subsequent motion, or by such other means as the rules of the hearings board shall prescribe. The request must be accompanied by a statement of grounds for the stay and evidence setting forth the factual basis upon which request is based. The hearings board shall hear the request for a stay as soon as possible. The hearing on the request for stay may be consolidated with the hearing on the merits.

(3) The applicant may make a prima facie case for stay if the applicant demonstrates either a likelihood of success on the merits of the appeal or irreparable harm. Upon such a showing, the hearings board shall grant the stay unless the issuing agency demonstrates either (a) a substantial probability of success on the merits or (b) likelihood of success on the merits and an overriding public interest which justifies denial of the stay.

(4) Unless otherwise stipulated by the parties, the hearings board, after granting or denying an application for a stay, shall expedite the hearing and decision on the merits.

(5) Any party or other person aggrieved by the grant or denial of a stay by the hearings board may petition the superior court for Thurston county for review of that decision pursuant to chapter 34.05 RCW pending the appeal on the merits

before the board. The superior court shall expedite its review of the decision of the hearings board. [2010 c 210 § 14; 1987 c 109 § 7.]

Such procedures may include provisions for determinations without an oral hearing or hearing by telephonic means. [1987 c 109 § 8.]

Economic policy: Chapter 43.21H RCW.

43.21C.010 Purposes. The purposes of this chapter are: (1) To declare a state policy which will encourage productive and enjoyable harmony between humankind and the environment; (2) to promote efforts which will prevent or eliminate damage to the environment and biosphere; (3) and [to] stimulate the health and welfare of human beings; and (4) to enrich the understanding of the ecological systems and natural resources important to the state and nation. [2009 c 549 § 5095; 1971 ex.s. c 109 § 1.]

43.21C.020 Legislative recognitions—Declaration—Responsibility. (1) The legislature, recognizing that a human being depends on biological and physical surround-

ings for food, shelter, and other needs, and for cultural enrichment as well; and recognizing further the profound impact of a human being's activity on the interrelations of all components of the natural environment, particularly the profound influences of population growth, high-density urbanization, industrial expansion, resource utilization and exploitation, and new and expanding technological advances and recognizing further the critical importance of restoring and maintaining environmental quality to the overall welfare and development of human beings, declares that it is the continuing policy of the state of Washington, in cooperation with federal and local governments, and other concerned public and private organizations, to use all practicable means and measures, including financial and technical assistance, in a manner calculated to: (a) Foster and promote the general welfare; (b) create and maintain conditions under which human beings and nature can exist in productive harmony; and (c) fulfill the social, economic, and other requirements of present and future generations of Washington citizens.

(2) In order to carry out the policy set forth in this chapter, it is the continuing responsibility of the state of Washington and all agencies of the state to use all practicable means, consistent with other essential considerations of state policy, to improve and coordinate plans, functions, programs, and resources to the end that the state and its citizens may:

(a) Fulfill the responsibilities of each generation as trustee of the environment for succeeding generations;

(b) Assure for all people of Washington safe, healthful, productive, and aesthetically and culturally pleasing surroundings;

(c) Attain the widest range of beneficial uses of the environment without degradation, risk to health or safety, or other undesirable and unintended consequences;

(d) Preserve important historic, cultural, and natural aspects of our national heritage;

(e) Maintain, wherever possible, an environment which supports diversity and variety of individual choice;

(f) Achieve a balance between population and resource use which will permit high standards of living and a wide sharing of life's amenities; and

(g) Enhance the quality of renewable resources and approach the maximum attainable recycling of depletable resources.

(3) The legislature recognizes that each person has a fundamental and inalienable right to a healthful environment and that each person has a responsibility to contribute to the preservation and enhancement of the environment. [2009 c 549 § 5096; 1971 ex.s. c 109 § 2.]

43.21C.030 Guidelines for state agencies, local governments—Statements—Reports—Advice—Information. The legislature authorizes and directs that, to the fullest extent possible: (1) The policies, regulations, and laws of the state of Washington shall be interpreted and administered in accordance with the policies set forth in this chapter, and (2) all branches of government of this state, including state agencies, municipal and public corporations, and counties shall:

(a) Utilize a systematic, interdisciplinary approach which will insure the integrated use of the natural and social sciences and the environmental design arts in planning and in

decision making which may have an impact on the environment;

(b) Identify and develop methods and procedures, in consultation with the department of ecology and the ecological commission, which will insure that presently unquantified environmental amenities and values will be given appropriate consideration in decision making along with economic and technical considerations;

(c) Include in every recommendation or report on proposals for legislation and other major actions significantly affecting the quality of the environment, a detailed statement by the responsible official on:

(i) the environmental impact of the proposed action;

(ii) any adverse environmental effects which cannot be avoided should the proposal be implemented;

(iii) alternatives to the proposed action;

(iv) the relationship between local short-term uses of the environment and the maintenance and enhancement of long-term productivity; and

(v) any irreversible and irretrievable commitments of resources which would be involved in the proposed action should it be implemented;

(d) Prior to making any detailed statement, the responsible official shall consult with and obtain the comments of any public agency which has jurisdiction by law or special expertise with respect to any environmental impact involved. Copies of such statement and the comments and views of the appropriate federal, province, state, and local agencies, which are authorized to develop and enforce environmental standards, shall be made available to the governor, the department of ecology, the ecological commission, and the public, and shall accompany the proposal through the existing agency review processes;

(e) Study, develop, and describe appropriate alternatives to recommended courses of action in any proposal which involves unresolved conflicts concerning alternative uses of available resources;

(f) Recognize the worldwide and long-range character of environmental problems and, where consistent with state policy, lend appropriate support to initiatives, resolutions, and programs designed to maximize international cooperation in anticipating and preventing a decline in the quality of the world environment;

(g) Make available to the federal government, other states, provinces of Canada, municipalities, institutions, and individuals, advice and information useful in restoring, maintaining, and enhancing the quality of the environment;

(h) Initiate and utilize ecological information in the planning and development of natural resource-oriented projects. [2010 c 8 § 7002; 1971 ex.s. c 109 § 3.]

43.21C.0301 Decisions not subject to RCW 43.21C.030. (1) Decisions made under RCW 36.70A.720 pertaining to work plans, as defined in RCW 36.70A.703, are not subject to the requirements of RCW 43.21C.030(2)(c).

(2) Decisions made by a county under RCW 36.70A.710 on whether to participate in the voluntary stewardship program established by RCW 36.70A.705 are not subject to the requirements of RCW 43.21C.030(2)(c). [2011 c 360 § 19.]

Purpose—Intent—Conflict with federal requirements—2011 c 360: See RCW 36.70A.700 and 36.70A.904.

43.21C.031 Significant impacts. (1) An environmental impact statement (the detailed statement required by RCW 43.21C.030(2)(c)) shall be prepared on proposals for legislation and other major actions having a probable significant, adverse environmental impact. The environmental impact statement may be combined with the recommendation or report on the proposal or issued as a separate document. The substantive decisions or recommendations shall be clearly identifiable in the combined document. Actions categorically exempt under RCW 43.21C.110(1)(a) and 43.21C.450 do not require environmental review or the preparation of an environmental impact statement under this chapter.

(2) An environmental impact statement is required to analyze only those probable adverse environmental impacts which are significant. Beneficial environmental impacts may be discussed. The responsible official shall consult with agencies and the public to identify such impacts and limit the scope of an environmental impact statement. The subjects listed in RCW 43.21C.030(2)(c) need not be treated as separate sections of an environmental impact statement. Discussions of significant short-term and long-term environmental impacts, significant irrevocable commitments of natural resources, significant alternatives including mitigation measures, and significant environmental impacts which cannot be mitigated should be consolidated or included, as applicable, in those sections of an environmental impact statement where the responsible official decides they logically belong. [2012 1st sp.s. c 1 § 302; 1995 c 347 § 203; 1983 c 117 § 1.]

Finding—Intent—Limitation—Jurisdiction/authority of Indian tribe under act—2012 1st sp.s. c 1: See notes following RCW 77.55.011.

Authority of department of fish and wildlife under act—2012 1st sp.s. c 1: See note following RCW 76.09.040.

Finding—Severability—Part headings and table of contents not law—1995 c 347: See notes following RCW 36.70A.470.

43.21C.0311 Final environmental impact statements—Expeditious manner—Time limit—Reports. (1) A lead agency shall aspire to prepare a final environmental impact statement required by RCW 43.21C.030(2) in as expeditious a manner as possible while not compromising the integrity of the analysis.

(a) For even the most complex government decisions associated with a broad scope of possible environmental impacts, a lead agency shall aspire to prepare a final environmental impact statement required by RCW 43.21C.030(2) within twenty-four months of a threshold determination of a probable significant, adverse environmental impact.

(b) Wherever possible, a lead agency shall aspire to far outpace the twenty-four month time limit established in this section for more commonplace government decisions associated with narrower and more easily identifiable environmental impacts.

(2) Beginning December 31, 2018, and every two years thereafter, the department of ecology must submit a report on the environmental impact statements produced by state agencies and local governments to the appropriate committees of the legislature. The report must include data on the average time, and document the range of time, it took to complete environmental impact statements within the previous two years.

(2021 Ed.)

(3) Nothing in this section creates any civil liability for a lead agency or creates a new cause of action against a lead agency. [2017 c 289 § 2.]

Finding—Intent—2017 c 289: "The legislature finds that the analysis of environmental impacts required under the state environmental policy act adds value to government decision-making processes in Washington state and helps minimize the potential environmental harm coming from those government decisions. However, the legislature also recognizes that excessive delays in the environmental impact analysis process adds uncertainty and burdensome costs to those seeking to do business in the state of Washington. Therefore, it is the intent of the legislature to promote timely completion of state environmental policy act processes. In doing so, the legislature intends to restore balance between the need to carefully consider environmental impacts and the need to maintain the economic competitiveness of state businesses." [2017 c 289 § 1.]

43.21C.033 Threshold determination to be made within ninety days after application is complete. (1) Except as provided in subsection (2) of this section, the responsible official shall make a threshold determination on a completed application within ninety days after the application and supporting documentation are complete. The applicant may request an additional thirty days for the threshold determination. The governmental entity responsible for making the threshold determination shall by rule, resolution, or ordinance adopt standards, consistent with rules adopted by the department to implement this chapter, for determining when an application and supporting documentation are complete.

(2) This section shall not apply to a city, town, or county that:

(a) By ordinance adopted prior to April 1, 1992, has adopted procedures to integrate permit and land use decisions with the requirements of this chapter; or

(b) Is planning under RCW 36.70A.040 and is subject to the requirements of *RCW 36.70B.090. [1995 c 347 § 422; 1992 c 208 § 1.]

*Reviser's note: RCW 36.70B.090 expired June 30, 2000, pursuant to 1998 c 286 § 8.

Finding—Severability—Part headings and table of contents not law—1995 c 347: See notes following RCW 36.70A.470.

43.21C.034 Use of existing documents. Lead agencies are authorized to use in whole or in part existing environmental documents for new project or nonproject actions, if the documents adequately address environmental considerations set forth in RCW 43.21C.030. The prior proposal or action and the new proposal or action need not be identical, but must have similar elements that provide a basis for comparing their environmental consequences such as timing, types of impacts, alternatives, or geography. The lead agency shall independently review the content of the existing documents and determine that the information and analysis to be used is relevant and adequate. If necessary, the lead agency may require additional documentation to ensure that all environmental impacts have been adequately addressed. [1993 c 23 § 1.]

43.21C.035 Certain irrigation projects decisions exempt from RCW 43.21C.030(2)(c). Decisions pertaining to applications for appropriation of fifty cubic feet of water per second or less for irrigation projects promulgated by any

person, private firm, private corporation or private association without resort to subsidy by either state or federal government pursuant to RCW 90.03.250 through 90.03.340, as now or hereafter amended, to be used for agricultural irrigation shall not be subject to the requirements of RCW 43.21C.030(2)(c), as now or hereafter amended. [1974 ex.s. c 150 § 1.]

43.21C.036 Hazardous substance remedial actions—Procedural requirements and documents to be integrated. In conducting a remedial action at a facility pursuant to a consent decree, order, or agreed order issued pursuant to chapter 70A.305 RCW, or if conducted by the department of ecology, the department of ecology to the maximum extent practicable shall integrate the procedural requirements and documents of this chapter with the procedures and documents under chapter 70A.305 RCW. Such integration shall at a minimum include the public participation procedures of chapter 70A.305 RCW and the public notice and review requirements of this chapter. [2020 c 20 § 1039; 1994 c 257 § 21.]

43.21C.037 Application of RCW 43.21C.030(2)(c) to forest practices. (1) Decisions pertaining to applications for Class I, II, and III forest practices, as defined by rule of the forest practices board under RCW 76.09.050, are not subject to the requirements of RCW 43.21C.030(2)(c) as now or hereafter amended.

(2) When the applicable county, city, or town requires a license in connection with any proposal involving forest practices:

(a) On forestlands that are being converted to another use; or

(b) On lands which, pursuant to RCW 76.09.070 as now or hereafter amended, are not to be reforested because of the likelihood of future conversion to urban development, then the local government, rather than the department of natural resources, is responsible for any detailed statement required under RCW 43.21C.030(2)(c).

(3) Those forest practices determined by rule of the forest practices board to have a potential for a substantial impact on the environment, and thus to be Class IV practices, require an evaluation by the department of natural resources as to whether or not a detailed statement must be prepared pursuant to this chapter. The evaluation shall be made within ten days from the date the department receives the application. A Class IV forest practice application must be approved or disapproved by the department within thirty calendar days from the date the department receives the application, unless the department determines that a detailed statement must be made, in which case the application must be approved or disapproved by the department within sixty days from the date the department receives the application, unless the commissioner of public lands, through the promulgation of a formal order, determines that the process cannot be completed within such period. This section shall not be construed to prevent any local or regional governmental entity from determining that a detailed statement must be prepared for an action regarding a Class IV forest practice taken by that governmental entity concerning the land on which forest prac-

tices will be conducted. [2011 c 207 § 3; 1997 c 173 § 6; 1983 c 117 § 2; 1981 c 290 § 1.]

43.21C.038 Application of RCW 43.21C.030(2)(c) to school closures. Nothing in RCW 43.21C.030(2)(c) shall be construed to require the preparation of an environmental impact statement or the making of a threshold determination for any decision or any action commenced subsequent to September 1, 1982, pertaining to a plan, program, or decision for the closure of a school or schools or for the school closure portion of any broader policy, plan or program by a school district board of directors. [1983 c 109 § 1.]

43.21C.0381 Application of RCW 43.21C.030(2)(c) to decisions pertaining to air operating permits. Decisions pertaining to the issuance, renewal, reopening, or revision of an air operating permit under RCW 70A.15.2260 are not subject to the requirements of RCW 43.21C.030(2)(c). [2020 c 20 § 1040; 1995 c 172 § 1.]

43.21C.0382 Application of RCW 43.21C.030(2)(c) to watershed restoration projects—Fish habitat enhancement projects. (1) Decisions pertaining to watershed restoration projects as defined in RCW 89.08.460 are not subject to the requirements of RCW 43.21C.030(2)(c).

(2) Decisions pertaining to fish habitat enhancement projects meeting the criteria of RCW 77.55.181 and being reviewed and approved according to the provisions of RCW 77.55.181 are not subject to the requirements of RCW 43.21C.030(2)(c). [2014 c 120 § 16; 2003 c 39 § 23; 1998 c 249 § 12; 1995 c 378 § 12.]

43.21C.0383 Application of RCW 43.21C.030(2)(c) to waste discharge permits. The following waste discharge permit actions are not subject to the requirements of RCW 43.21C.030(2)(c):

(1) For existing discharges, the issuance, reissuance, or modification of a waste discharge permit that contains conditions no less stringent than federal effluent limitations and state rules;

(2) The issuance of a construction stormwater general permit under chapter 90.48 RCW for a proposal disturbing less than five acres. The exemption in this subsection does not apply if, under rules adopted by the department of ecology, the proposal would otherwise be subject to the requirements of RCW 43.21C.030(2)(c). [2008 c 37 § 2; 1996 c 322 § 1.]

Intent—2008 c 37: "The legislature intends that the revised threshold adopted in 2005 for the department of ecology's construction stormwater general permit should not increase the scope of projects subject to state environmental policy act review. The department of ecology should pursue rule making to achieve the intent of this act." [2008 c 37 § 1.]

43.21C.0384 Application of RCW 43.21C.030(2)(c) to wireless services facilities—Reporting requirement—Definitions. (1) Decisions pertaining to applications to site wireless service facilities are not subject to the requirements of RCW 43.21C.030(2)(c), if those facilities meet the following requirements:

(a) The collocation of new equipment, removal of equipment, or replacement of existing equipment on existing or replacement structures does not substantially change the physical dimensions of such structures; or

(b) The siting project involves constructing a wireless service tower less than sixty feet in height that is located in a commercial, industrial, manufacturing, forest, or agricultural zone. This exemption does not apply to projects within a designated critical area.

(2) The exemption authorized under subsection (1) of this section may only be applied to a project consisting of a series of actions when all actions in the series are categorically exempt and the actions together do not have a probable significant adverse environmental impact.

(3) The department of ecology shall adopt rules to create a categorical exemption for wireless service facilities that meet the conditions set forth in subsections (1) and (2) of this section.

(4) By January 1, 2020, all wireless service providers granted an exemption to RCW 43.21C.030(2)(c) must provide the legislature with the number of permits issued pertaining to wireless service facilities, the number of exemptions granted under this section, and the total dollar investment in wireless service facilities between July 1, 2013, and June 30, 2019.

(5) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Collocation" means the mounting or installation of equipment on an existing tower, building, or structure for the purpose of either transmitting or receiving, or both, radio frequency signals for communications purposes.

(b) "Existing structure" means any existing tower, pole, building, or other structure capable of supporting wireless service facilities.

(c) "Substantially change the physical dimensions" means:

(i) The mounting of equipment on a structure that would increase the height of the structure by more than ten percent, or twenty feet, whichever is greater; or

(ii) The mounting of equipment that would involve adding an appurtenance to the body of the structure that would protrude from the edge of the structure more than twenty feet, or more than the width of the structure at the level of the appurtenance, whichever is greater.

(d) "Wireless service facilities" means facilities for the provision of wireless services.

(e) "Wireless services" means wireless data and telecommunications services, including commercial mobile services, commercial mobile data services, unlicensed wireless services, and common carrier wireless exchange access services, as defined by federal laws and regulations. [2013 c 317 § 1; 1996 c 323 § 2.]

43.21C.039 Metals mining and milling operations—Environmental impact statements required. Notwithstanding any provision in RCW 43.21C.030 and 43.21C.031 to the contrary, an environmental impact statement shall be

prepared for any proposed metals mining and milling operation as required by RCW 78.56.050. [1994 c 232 § 25.]

43.21C.040 Examination of laws, regulations, policies by state agencies and local authorities—Report of deficiencies and corrective measures. All branches of government of this state, including state agencies, municipal and public corporations, and counties shall review their present statutory authority, administrative regulations, and current policies and procedures for the purpose of determining whether there are any deficiencies or inconsistencies therein which prohibit full compliance with the purposes and provisions of this chapter and shall propose to the governor not later than January 1, 1972, such measures as may be necessary to bring their authority and policies in conformity with the intent, purposes, and procedures set forth in this chapter. [1971 ex.s. c 109 § 4.]

43.21C.050 Specific statutory obligations not affected. Nothing in RCW 43.21C.030 or 43.21C.040 shall in any way affect the specific statutory obligations of any agency (1) to comply with criteria or standards of environmental quality, (2) to coordinate or consult with any other public agency, or (3) to act, or refrain from acting contingent upon the recommendations or certification of any other public agency. [1971 ex.s. c 109 § 5.]

43.21C.060 Chapter supplementary—Conditioning or denial of governmental action. The policies and goals set forth in this chapter are supplementary to those set forth in existing authorizations of all branches of government of this state, including state agencies, municipal and public corporations, and counties. Any governmental action may be conditioned or denied pursuant to this chapter: PROVIDED, That such conditions or denials shall be based upon policies identified by the appropriate governmental authority and incorporated into regulations, plans, or codes which are formally designated by the agency (or appropriate legislative body, in the case of local government) as possible bases for the exercise of authority pursuant to this chapter. Such designation shall occur at the time specified by RCW 43.21C.120. Such action may be conditioned only to mitigate specific adverse environmental impacts which are identified in the environmental documents prepared under this chapter. These conditions shall be stated in writing by the decision maker. Mitigation measures shall be reasonable and capable of being accomplished. In order to deny a proposal under this chapter, an agency must find that: (1) The proposal would result in significant adverse impacts identified in a final or supplemental environmental impact statement prepared under this chapter; and (2) reasonable mitigation measures are insufficient to mitigate the identified impact. Except for permits and variances issued pursuant to chapter 90.58 RCW, when such a governmental action, not requiring a legislative decision, is conditioned or denied by a nonelected official of a local governmental agency, the decision shall be appealable to the legislative authority of the acting local governmental agency unless that legislative authority formally eliminates such

appeals. Such appeals shall be in accordance with procedures established for such appeals by the legislative authority of the acting local governmental agency. [1983 c 117 § 3; 1977 ex.s. c 278 § 2; 1971 ex.s. c 109 § 6.]

43.21C.065 Impact fees and fees for system improvements. A person required to pay an impact fee for system improvements pursuant to RCW 82.02.050 through 82.02.090 shall not be required to pay a fee pursuant to RCW 43.21C.060 for those same system improvements. [1992 c 219 § 1.]

43.21C.075 Appeals. (1) Because a major purpose of this chapter is to combine environmental considerations with public decisions, any appeal brought under this chapter shall be linked to a specific governmental action. The State Environmental Policy Act provides a basis for challenging whether governmental action is in compliance with the substantive and procedural provisions of this chapter. The State Environmental Policy Act is not intended to create a cause of action unrelated to a specific governmental action.

(2) Unless otherwise provided by this section:

(a) Appeals under this chapter shall be of the governmental action together with its accompanying environmental determinations.

(b) Appeals of environmental determinations made (or lacking) under this chapter shall be commenced within the time required to appeal the governmental action which is subject to environmental review.

(3) If an agency has a procedure for appeals of agency environmental determinations made under this chapter, such procedure:

(a) Shall allow no more than one agency appeal proceeding on each procedural determination (the adequacy of a determination of significance/nonsignificance or of a final environmental impact statement);

(b) Shall consolidate an appeal of procedural issues and of substantive determinations made under this chapter (such as a decision to require particular mitigation measures or to deny a proposal) with a hearing or appeal on the underlying governmental action by providing for a single simultaneous hearing before one hearing officer or body to consider the agency decision or recommendation on a proposal and any environmental determinations made under this chapter, with the exception of:

(i) An appeal of a determination of significance;

(ii) An appeal of a procedural determination made by an agency when the agency is a project proponent, or is funding a project, and chooses to conduct its review under this chapter, including any appeals of its procedural determinations, prior to submitting an application for a project permit;

(iii) An appeal of a procedural determination made by an agency on a nonproject action; or

(iv) An appeal to the local legislative authority under RCW 43.21C.060 or other applicable state statutes;

(c) Shall provide for the preparation of a record for use in any subsequent appeal proceedings, and shall provide for any subsequent appeal proceedings to be conducted on the record, consistent with other applicable law. An adequate record consists of findings and conclusions, testimony under oath, and taped or written transcript. An electronically recorded tran-

script will suffice for purposes of review under this subsection; and

(d) Shall provide that procedural determinations made by the responsible official shall be entitled to substantial weight.

(4) If a person aggrieved by an agency action has the right to judicial appeal and if an agency has an administrative appeal procedure, such person shall, prior to seeking any judicial review, use such agency procedure if any such procedure is available, unless expressly provided otherwise by state statute.

(5) Some statutes and ordinances contain time periods for challenging governmental actions which are subject to review under this chapter, such as various local land use approvals (the "underlying governmental action"). RCW 43.21C.080 establishes an optional "notice of action" procedure which, if used, imposes a time period for appealing decisions under this chapter. This subsection does not modify any such time periods. In this subsection, the term "appeal" refers to a judicial appeal only.

(a) If there is a time period for appealing the underlying governmental action, appeals under this chapter shall be commenced within such time period. The agency shall give official notice stating the date and place for commencing an appeal.

(b) If there is no time period for appealing the underlying governmental action, and a notice of action under RCW 43.21C.080 is used, appeals shall be commenced within the time period specified by RCW 43.21C.080.

(6)(a) Judicial review under subsection (5) of this section of an appeal decision made by an agency under subsection (3) of this section shall be on the record, consistent with other applicable law.

(b) A taped or written transcript may be used. If a taped transcript is to be reviewed, a record shall identify the location on the taped transcript of testimony and evidence to be reviewed. Parties are encouraged to designate only those portions of the testimony necessary to present the issues raised on review, but if a party alleges that a finding of fact is not supported by evidence, the party should include in the record all evidence relevant to the disputed finding. Any other party may designate additional portions of the taped transcript relating to issues raised on review. A party may provide a written transcript of portions of the testimony at the party's own expense or apply to that court for an order requiring the party seeking review to pay for additional portions of the written transcript.

(c) Judicial review under this chapter shall without exception be of the governmental action together with its accompanying environmental determinations.

(7) Jurisdiction over the review of determinations under this chapter in an appeal before an agency or superior court shall upon consent of the parties be transferred in whole or part to the shorelines hearings board. The shorelines hearings board shall hear the matter and sign the final order expeditiously. The superior court shall certify the final order of the shorelines hearings board and the certified final order may only be appealed to an appellate court. In the case of an appeal under this chapter regarding a project or other matter that is also the subject of an appeal to the shorelines hearings board under chapter 90.58 RCW, the shorelines hearings

board shall have sole jurisdiction over both the appeal under this section and the appeal under chapter 90.58 RCW, shall consider them together, and shall issue a final order within one hundred eighty days as provided in RCW 90.58.180.

(8) For purposes of this section and RCW 43.21C.080, the words "action", "decision", and "determination" mean substantive agency action including any accompanying procedural determinations under this chapter (except where the word "action" means "appeal" in RCW 43.21C.080(2)). The word "action" in this section and RCW 43.21C.080 does not mean a procedural determination by itself made under this chapter. The word "determination" includes any environmental document required by this chapter and state or local implementing rules. The word "agency" refers to any state or local unit of government. Except as provided in subsection (5) of this section, the word "appeal" refers to administrative, legislative, or judicial appeals.

(9) The court in its discretion may award reasonable attorneys' fees of up to one thousand dollars in the aggregate to the prevailing party, including a governmental agency, on issues arising out of this chapter if the court makes specific findings that the legal position of a party is frivolous and without reasonable basis. [1997 c 429 § 49; 1995 c 347 § 204; 1994 c 253 § 4; 1983 c 117 § 4.]

43.21C.080 Notice of action by governmental agency—How publicized—Time limitation for commencing challenge to action. (1) Notice of any action taken by a governmental agency may be publicized by the acting governmental agency, the applicant for, or the proponent of such action, in substantially the form as set forth in rules adopted under RCW 43.21C.110:

(a) By publishing notice on the same day of each week for two consecutive weeks in a legal newspaper of general circulation in the area where the property which is the subject of the action is located;

(b) By filing notice of such action with the department of ecology at its main office in Olympia prior to the date of the last newspaper publication; and

(c) Except for those actions which are of a nonproject nature, by one of the following methods which shall be accomplished prior to the date of first newspaper publication;

(i) Mailing to the latest recorded real property owners, as shown by the records of the county treasurer, who share a common boundary line with the property upon which the project is proposed through United States mail, first class, postage prepaid.

(ii) Posting of the notice in a conspicuous manner on the property upon which the project is to be constructed.

(2)(a) Except as otherwise provided in RCW 43.21C.075(5)(a), any action to set aside, enjoin, review, or otherwise challenge any such governmental action or subsequent governmental action for which notice is given as provided in subsection (1) of this section on grounds of noncompliance with the provisions of this chapter shall be commenced within twenty-one days from the date of last newspaper publication of the notice pursuant to subsection (1) of this section, or be barred.

(2021 Ed.)

(b) Any subsequent governmental action on the proposal for which notice has been given as provided in subsection (1) of this section shall not be set aside, enjoined, reviewed, or otherwise challenged on grounds of noncompliance with the provisions of RCW 43.21C.030(2)(a) through (h) unless there has been a substantial change in the proposal between the time of the first governmental action and the subsequent governmental action that is likely to have adverse environmental impacts beyond the range of impacts previously analyzed, or unless the action now being considered was identified in an earlier detailed statement or declaration of nonsignificance as being one which would require further environmental evaluation. [1995 c 347 § 205; 1977 ex.s. c 278 § 1; 1974 ex.s. c 179 § 2; 1973 1st ex.s. c 179 § 2.]

43.21C.087 List of filings required by RCW 43.21C.080. The department of ecology shall prepare a list of all filings required by RCW 43.21C.080 each week and shall make such list available to any interested party. The list of filings shall include a brief description of the governmental action and the project involved in such action, along with the location of where information on the project or action may be obtained. Failure of the department to include any project or action shall not affect the running of the statute of limitations provided in RCW 43.21C.080. [1974 ex.s. c 179 § 14.]

Purpose—1974 ex.s. c 179: See note following RCW 43.21C.080.

43.21C.090 Decision of governmental agency to be accorded substantial weight. In any action involving an attack on a determination by a governmental agency relative to the requirement or the absence of the requirement, or the adequacy of a "detailed statement", the decision of the governmental agency shall be accorded substantial weight. 43.21C.110 Content of state environmental policy act rules. It shall be the duty and function of the department of ecology:

(1) To adopt and amend rules of interpretation and implementation of this chapter, subject to the requirements of chapter 34.05 RCW, for the purpose of providing uniform

rules and guidelines to all branches of government including state agencies, political subdivisions, public and municipal corporations, and counties. The proposed rules shall be subject to full public hearings requirements associated with rule adoption. Suggestions for modifications of the proposed rules shall be considered on their merits, and the department shall have the authority and responsibility for full and appropriate independent adoption of rules, assuring consistency with this chapter as amended and with the preservation of protections afforded by this chapter. The rule-making powers authorized in this section shall include, but shall not be limited to, the following phases of interpretation and implementation of this chapter:

(a) Categories of governmental actions which are not to be considered as potential major actions significantly affecting the quality of the environment, including categories pertaining to applications for water right permits pursuant to chapters 90.03 and 90.44 RCW. The types of actions included as categorical exemptions in the rules shall be limited to those types which are not major actions significantly affecting the quality of the environment. The rules shall provide for certain circumstances where actions which potentially are categorically exempt require environmental review. An action that is categorically exempt under the rules adopted by the department may not be conditioned or denied under this chapter.

(b) Rules for criteria and procedures applicable to the determination of when an act of a branch of government is a major action significantly affecting the quality of the environment for which a detailed statement is required to be prepared pursuant to RCW 43.21C.030.

(c) Rules and procedures applicable to the preparation of detailed statements and other environmental documents, including but not limited to rules for timing of environmental review, obtaining comments, data and other information, and providing for and determining areas of public participation which shall include the scope and review of draft environmental impact statements.

(d) Scope of coverage and contents of detailed statements assuring that such statements are simple, uniform, and as short as practicable; statements are required to analyze only reasonable alternatives and probable adverse environmental impacts which are significant, and may analyze beneficial impacts.

(e) Rules and procedures for public notification of actions taken and documents prepared.

(f) Definition of terms relevant to the implementation of this chapter including the establishment of a list of elements of the environment. Analysis of environmental considerations under RCW 43.21C.030(2) may be required only for those subjects listed as elements of the environment (or portions thereof). The list of elements of the environment shall consist of the "natural" and "built" environment. The elements of the built environment shall consist of public services and utilities (such as water, sewer, schools, fire and police protection), transportation, environmental health (such as explosive materials and toxic waste), and land and shoreline use (including housing, and a description of the relationships with land use and shoreline plans and designations, including population).

(g) Rules for determining the obligations and powers under this chapter of two or more branches of government involved in the same project significantly affecting the quality of the environment.

(h) Methods to assure adequate public awareness of the preparation and issuance of detailed statements required by RCW 43.21C.030(2)(c).

(i) To prepare rules for projects setting forth the time limits within which the governmental entity responsible for the action shall comply with the provisions of this chapter.

(j) Rules for utilization of a detailed statement for more than one action and rules improving environmental analysis of nonproject proposals and encouraging better interagency coordination and integration between this chapter and other environmental laws.

(k) Rules relating to actions which shall be exempt from the provisions of this chapter in situations of emergency.

(l) Rules relating to the use of environmental documents in planning and decision making and the implementation of the substantive policies and requirements of this chapter, including procedures for appeals under this chapter.

(m) Rules and procedures that provide for the integration of environmental review with project review as provided in RCW 43.21C.240. The rules and procedures shall be jointly developed with the department of commerce and shall be applicable to the preparation of environmental documents for actions in counties, cities, and towns planning under RCW 36.70A.040. The rules and procedures shall also include procedures and criteria to analyze planned actions under RCW 43.21C.440 and revisions to the rules adopted under this section to ensure that they are compatible with the requirements and authorizations of chapter 347, Laws of 1995, as amended by chapter 429, Laws of 1997. Ordinances or procedures adopted by a county, city, or town to implement the provisions of chapter 347, Laws of 1995 prior to the effective date of rules adopted under this subsection (1)(m) shall continue to be effective until the adoption of any new or revised ordinances or procedures that may be required. If any revisions are required as a result of rules adopted under this subsection (1)(m), those revisions shall be made within the time limits specified in RCW 43.21C.120.

(2) In exercising its powers, functions, and duties under this section, the department may:

(a) Consult with the state agencies and with representatives of science, industry, agriculture, labor, conservation organizations, state and local governments, and other groups, as it deems advisable; and

(b) Utilize, to the fullest extent possible, the services, facilities, and information (including statistical information) of public and private agencies, organizations, and individuals, in order to avoid duplication of effort and expense, overlap, or conflict with similar activities authorized by law and performed by established agencies.

(3) Rules adopted pursuant to this section shall be subject to the review procedures of chapter 34.05 RCW. [2012 1st sp.s. c 1 § 311; 1997 c 429 § 47; 1995 c 347 § 206; 1983 c 117 § 7; 1974 ex.s. c 179 § 6.]

Intent—2002 c 93: "Incorporations and annexations are exempt from the state environmental policy act. However, there are no comparable exemptions for reductions of city limits or disincorporations. It is the legislature's intent to provide that a reduction in city limits or disincorporation is not subject to the state environmental policy act." [2002 c 93 § 1.]

43.21C.229 Infill development—Categorical exemptions from chapter. (1) In order to accommodate infill development and thereby realize the goals and policies of comprehensive plans adopted according to chapter 36.70A RCW, a city or county planning under RCW 36.70A.040 is authorized by this section to establish categorical exemptions from the requirements of this chapter. An exemption adopted under this section applies even if it differs from the categorical exemptions adopted by rule of the department under RCW 43.21C.110(1)(a). An exemption may be adopted by a city or county under this section if it meets the following criteria:

(a) It categorically exempts government action related to development proposed to fill in an urban growth area, designated according to RCW 36.70A.110, where current density and intensity of use in the area is roughly equal to or lower than called for in the goals and policies of the applicable comprehensive plan and the development is either:

(i) Residential development;

(ii) Mixed-use development; or

(iii) Commercial development up to sixty-five thousand square feet, excluding retail development;

(b) It does not exempt government action related to development that is inconsistent with the applicable comprehensive plan or would clearly exceed the density or intensity of use called for in the goals and policies of the applicable comprehensive plan;

(c) The local government considers the specific probable adverse environmental impacts of the proposed action and determines that these specific impacts are adequately addressed by the development regulations or other applicable requirements of the comprehensive plan, subarea plan element of the comprehensive plan, planned action ordinance, or other local, state, or federal rules or laws; and

(d)(i) The city or county's applicable comprehensive plan was previously subjected to environmental analysis through an environmental impact statement under the requirements of this chapter prior to adoption; or

(ii) The city or county has prepared an environmental impact statement that considers the proposed use or density and intensity of use in the area proposed for an exemption under this section.

(2) Any categorical exemption adopted by a city or county under this section shall be subject to the rules of the department adopted according to RCW 43.21C.110(1)(a) that provide exceptions to the use of categorical exemptions adopted by the department. 43.21C.240 Project review under the growth management act. (1) If the requirements of subsection (2) of this section are satisfied, a county, city, or town reviewing a project action shall determine that the requirements for environmental analysis, protection, and mitigation measures in the county, city, or town's development regulations and comprehensive plans adopted under chapter 36.70A RCW, and in other applicable local, state, or federal laws and rules provide adequate analysis of and mitigation for the specific adverse environmental impacts of the project action to which the requirements apply. Rules adopted by the department according to RCW 43.21C.110 regarding project specific impacts

that may not have been adequately addressed apply to any determination made under this section. In these situations, in which all adverse environmental impacts will be mitigated below the level of significance as a result of mitigation measures included by changing, clarifying, or conditioning of the proposed action and/or regulatory requirements of development regulations adopted under chapter 36.70A RCW or other local, state, or federal laws, a determination of nonsignificance or a mitigated determination of nonsignificance is the proper threshold determination.

(2) A county, city, or town shall make the determination provided for in subsection (1) of this section if:

(a) In the course of project review, including any required environmental analysis, the local government considers the specific probable adverse environmental impacts of the proposed action and determines that these specific impacts are adequately addressed by the development regulations or other applicable requirements of the comprehensive plan, subarea plan element of the comprehensive plan, or other local, state, or federal rules or laws; and

(b) The local government bases or conditions its approval on compliance with these requirements or mitigation measures.

(3) If a county, city, or town's comprehensive plans, subarea plans, and development regulations adequately address a project's probable specific adverse environmental impacts, as determined under subsections (1) and (2) of this section, the county, city, or town shall not impose additional mitigation under this chapter during project review. Project review shall be integrated with environmental analysis under this chapter.

(4) A comprehensive plan, subarea plan, or development regulation shall be considered to adequately address an impact if the county, city, or town, through the planning and environmental review process under chapter 36.70A RCW and this chapter, has identified the specific adverse environmental impacts and:

(a) The impacts have been avoided or otherwise mitigated; or

(b) The legislative body of the county, city, or town has designated as acceptable certain levels of service, land use designations, development standards, or other land use planning required or allowed by chapter 36.70A RCW.

(5) In deciding whether a specific adverse environmental impact has been addressed by an existing rule or law of another agency with jurisdiction with environmental expertise with regard to a specific environmental impact, the county, city, or town shall consult orally or in writing with that agency and may expressly defer to that agency. In making this deferral, the county, city, or town shall base or condition its project approval on compliance with these other existing rules or laws.

(6) Nothing in this section limits the authority of an agency in its review or mitigation of a project to adopt or otherwise rely on environmental analyses and requirements under other laws, as provided by this chapter.

(7) This section shall apply only to a county, city, or town planning under RCW 36.70A.040. [2003 c 298 § 2; 1995 c 347 § 202.]

Findings—Intent—1995 c 347 § 202: "(1) The legislature finds in adopting RCW 43.21C.240 that:

(2021 Ed.)

(a) Comprehensive plans and development regulations adopted by counties, cities, and towns under chapter 36.70A RCW and environmental laws and rules adopted by the state and federal government have addressed a wide range of environmental subjects and impacts. These plans, regulations, rules, and laws often provide environmental analysis and mitigation measures for project actions without the need for an environmental impact statement or further project mitigation.

(b) Existing plans, regulations, rules, or laws provide environmental analysis and measures that avoid or otherwise mitigate the probable specific adverse environmental impacts of proposed projects should be integrated with, and should not be duplicated by, environmental review under chapter 43.21C RCW.

(c) Proposed projects should continue to receive environmental review, which should be conducted in a manner that is integrated with and does not duplicate other requirements. Project-level environmental review should be used to: (i) Review and document consistency with comprehensive plans and development regulations; (ii) provide prompt and coordinated review by government agencies and the public on compliance with applicable environmental laws and plans, including mitigation for specific project impacts that have not been considered and addressed at the plan or development regulation level; and (iii) ensure accountability by local government to applicants and the public for requiring and implementing mitigation measures.

(d) When a project permit application is filed, an agency should analyze the proposal's environmental impacts, as required by applicable regulations and the environmental review process required by this chapter, in one project review process. The project review process should include land use, environmental, public, and governmental review, as provided by the applicable regulations and the rules adopted under this chapter, so that documents prepared under different requirements can be reviewed together by the public and other agencies. This project review will provide an agency with the information necessary to make a decision on the proposed project.

(e) Through this project review process: (i) If the applicable regulations require studies that adequately analyze all of the project's specific probable adverse environmental impacts, additional studies under this chapter will not be necessary on those impacts; (ii) if the applicable regulations require measures that adequately address such environmental impacts, additional measures would likewise not be required under this chapter; and (iii) if the applicable regulations do not adequately analyze or address a proposal's specific probable adverse environmental impacts, this chapter provides the authority and procedures for additional review.

(2) The legislature intends that a primary role of environmental review under chapter 43.21C RCW is to focus on the gaps and overlaps that may exist in applicable laws and requirements related to a proposed action. The review of project actions conducted by counties, cities, and towns planning under RCW 36.70A.040 should integrate environmental review with project review. Chapter 43.21C RCW should not be used as a substitute for other land use planning and environmental requirements." [1995 c 347 § 201.]

43.21C.260 Certain actions not subject to RCW 43.21C.030(2)(c)—Threshold determination on a watershed analysis. (1) Decisions pertaining to the following kinds of actions under chapter 4, Laws of 1999 sp. sess. are not subject to any procedural requirements implementing RCW 43.21C.030(2)(c): (a) Approval of forest road maintenance and abandonment plans under chapter 76.09 RCW and *RCW 77.55.100; (b) approval by the department of natural resources of future timber harvest schedules involving east-side clear cuts under rules implementing chapter 76.09 RCW;

(c) acquisitions of forestlands in stream channel migration zones under RCW 76.09.040; and (d) acquisitions of conservation easements pertaining to forestlands in riparian zones under RCW 76.13.120.

(2) For purposes of the department's threshold determination on a watershed analysis, the department shall not make a determination of significance unless the prescriptions themselves, compared to rules or prescriptions in place prior to the analysis, will cause probable significant adverse impact on elements of the environment other than those addressed in the watershed analysis process. Nothing in this subsection shall be construed to effect the outcome of pending litigation regarding the department's authority in making a threshold determination on a watershed analysis. [2003 c 39 § 24; 1999 sp.s. c 4 § 1201.]

43.21C.300 Workshops—Handbook. The department of ecology shall conduct annual statewide workshops and publish an annual state environmental policy act handbook or supplement to assist persons in complying with the provisions of this chapter and the implementing rules. The workshops and handbook shall include, but not be limited to, measures to assist in preparation, processing, and review of environmental documents, relevant court decisions affecting this chapter or rules adopted under this chapter, legislative changes to this chapter, administrative changes to the rules, and any other information which will assist in orderly implementation of this chapter and rules.

The department shall develop the handbook and conduct the workshops in cooperation with, but not limited to, state agencies, the association of Washington cities, the Washington association of counties, educational institutions, and other groups or associations interested in the state environmental policy act. 43.21C.410 Battery charging and exchange station installation. (1) The installation of individual battery charging stations and battery exchange stations, which individually are categorically exempt under the rules adopted under RCW 43.21C.110, may not be disqualified from such categorically exempt status as a result of their being parts of a larger proposal that includes other such facilities and related utility networks under the rules adopted under RCW 43.21C.110.

(2) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Battery charging station" means an electrical component assembly or cluster of component assemblies designed specifically to charge batteries within electric vehicles, which meet or exceed any standards, codes, and regula-

tions set forth by chapter 19.28 RCW and consistent with rules adopted under RCW 19.27.540.

(b) "Battery exchange station" means a fully automated facility that will enable an electric vehicle with a swappable battery to enter a drive lane and exchange the depleted battery with a fully charged battery through a fully automated process, which meets or exceeds any standards, codes, and regulations set forth by chapter 19.28 RCW and consistent with rules adopted under RCW 19.27.540. [2009 c 459 § 8.]

Finding—Purpose—2009 c 459: See note following RCW 47.80.090.

Regional transportation planning organizations—Electric vehicle infrastructure: RCW 47.80.090.

43.21C.420 Comprehensive plans and development regulations—Optional elements—Nonproject environmental impact statements—Subarea plans—Transfer of development rights program—Recovery of expenses. (1) Cities with a population greater than five thousand, in accordance with their existing comprehensive planning and development regulation authority under chapter 36.70A RCW, and in accordance with this section, may adopt optional elements of their comprehensive plans and optional development regulations that apply within specified subareas of the cities, that are either:

(a) Areas designated as mixed-use or urban centers in a land use or transportation plan adopted by a regional transportation planning organization; or

(b) Areas within one-half mile of a major transit stop that are zoned to have an average minimum density of fifteen dwelling units or more per gross acre.

(2) Cities located on the east side of the Cascade mountains and located in a county with a population of two hundred thirty thousand or less, in accordance with their existing comprehensive planning and development regulation authority under chapter 36.70A RCW, and in accordance with this section, may adopt optional elements of their comprehensive plans and optional development regulations that apply within the mixed-use or urban centers. The optional elements of their comprehensive plans and optional development regulations must enhance pedestrian, bicycle, transit, or other non-vehicular transportation methods.

(3) A major transit stop is defined as:

(a) A stop on a high capacity transportation service funded or expanded under the provisions of chapter 81.104 RCW;

(b) Commuter rail stops;

(c) Stops on rail or fixed guideway systems, including transitways;

(d) Stops on bus rapid transit routes or routes that run on high occupancy vehicle lanes; or

(e) Stops for a bus or other transit mode providing fixed route service at intervals of at least thirty minutes during the peak hours of operation.

(4)(a) A city that elects to adopt such an optional comprehensive plan element and optional development regulations shall prepare a nonproject environmental impact statement, pursuant to RCW 43.21C.030, assessing and disclosing the probable significant adverse environmental impacts of the optional comprehensive plan element and development regulations and of future development that is consistent with the plan and regulations.

(b) At least one community meeting must be held on the proposed subarea plan before the scoping notice for such a nonproject environmental impact statement is issued. Notice of scoping for such a nonproject environmental impact statement and notice of the community meeting required by this section must be mailed to all property owners of record within the subarea to be studied, to all property owners within one hundred fifty feet of the boundaries of such a subarea, to all affected federally recognized tribal governments whose ceded area is within one-half mile of the boundaries of the subarea, and to agencies with jurisdiction over the future development anticipated within the subarea.

(c) The notice of the community meeting must include general illustrations and descriptions of buildings generally representative of the maximum building envelope that will be allowed under the proposed plan and indicate that future appeals of proposed developments that are consistent with the plan will be limited. Notice of the community meeting must include signs located on major travel routes in the subarea. If the building envelope increases during the process, another notice complying with the requirements of this section must be issued before the next public involvement opportunity.

(d) Any person that has standing to appeal the adoption of this subarea plan or the implementing regulations under RCW 36.70A.280 has standing to bring an appeal of the nonproject environmental impact statement required by this subsection.

(e) As an incentive for development authorized under this section, a city shall consider establishing a transfer of development rights program in consultation with the county where the city is located, that conserves county-designated agricultural and forestland of long-term commercial significance. If the city decides not to establish a transfer of development rights program, the city must state in the record the reasons for not adopting the program. The city's decision not to establish a transfer of development rights program is not subject to appeal. Nothing in this subsection (4)(e) may be used as a basis to challenge the optional comprehensive plan or subarea plan policies authorized under this section.

(5)(a) Until July 1, 2029, a proposed development that meets the criteria of (b) of this subsection may not be challenged in administrative or judicial appeals for noncompliance with this chapter as long as a complete application for such a development that vests the application or would later lead to vested status under city or state law is submitted to the city within a time frame established by the city, but not to exceed the following time frames:

(i) Nineteen years from the date of issuance of the final environmental impact statement, for projects that are consistent with an optional element adopted by a city as of July 28, 2019; or

(ii) Ten years from the date of issuance of the final environmental impact statement, for projects that are consistent with an optional element adopted by a city after July 28, 2019.

(b) A proposed development may not be challenged, consistent with the timelines established in (a) of this subsection, so long as the development:

(i) Is consistent with the optional comprehensive plan or subarea plan policies and development regulations adopted under subsection (1) or (2) of this section;

(ii) Sets aside or requires the occupancy of at least ten percent of the dwelling units, or a greater percentage as determined by city development regulations, within the development for low-income households at a sale price or rental amount that is considered affordable by a city's housing programs. This subsection (5)(b)(ii) applies only to projects that are consistent with an optional element adopted by a city pursuant to this section after July 28, 2019; and

(iii) Is environmentally reviewed under subsection (4) of this section.

(c) After July 1, 2029, the immunity from appeals under this chapter of any application that vests or will vest under this subsection or the ability to vest under this subsection is still valid, provided that the final subarea environmental impact statement is issued by July 1, 2029. After July 1, 2029, a city may continue to collect reimbursement fees under subsection (6) of this section for the proportionate share of a subarea environmental impact statement issued prior to July 1, 2029.

(6) It is recognized that a city that prepares a nonproject environmental impact statement under subsection (4) of this section must endure a substantial financial burden. A city may recover or apply for a grant or loan to prospectively cover its reasonable expenses of preparation of a nonproject environmental impact statement prepared under subsection (4) of this section through access to financial assistance under RCW 36.70A.490 or funding from private sources. In addition, a city is authorized to recover a portion of its reasonable expenses of preparation of such a nonproject environmental impact statement by the assessment of reasonable and proportionate fees upon subsequent development that is consistent with the plan and development regulations adopted under subsection (5) of this section, as long as the development makes use of and benefits from, as described in subsection (5) of this section, the nonproject environmental impact statement prepared by the city. Any assessment fees collected from subsequent development may be used to reimburse funding received from private sources. In order to collect such fees, the city must enact an ordinance that sets forth objective standards for determining how the fees to be imposed upon each development will be proportionate to the impacts of each development and to the benefits accruing to each development from the nonproject environmental impact statement. Any disagreement about the reasonableness or amount of the fees imposed upon a development may not be the basis for delay in issuance of a project permit for that development. The fee assessed by the city may be paid with the written stipulation "paid under protest" and if the city provides for an administrative appeal of its decision on the project for which the fees are imposed, any dispute about the amount of the fees must be resolved in the same administrative appeal process.

(7) If a proposed development is inconsistent with the optional comprehensive plan or subarea plan policies and development regulations adopted under subsection (1) of this section, the city shall require additional environmental review in accordance with this chapter. [2019 c 348 § 7; 2010 c 153 § 2.]

Intent—2010 c 153: "It is the intent of the legislature to encourage high-density, compact, in-fill development and redevelopment within existing urban areas in order to further existing goals of chapter 36.70A RCW, the growth management act, to promote the use of public transit and encourage further investment in transit systems, and to contribute to the reduction of greenhouse gas emissions by: (1) Encouraging local governments to adopt plans and regulations that authorize compact, high-density urban development as defined in section 2 of this act; (2) providing for the funding and preparation of environmental impact statements that comprehensively examine the impacts of such development at the time that the plans and regulations are adopted; and (3) encouraging development that is consistent with such plans and regulations by precluding appeals under chapter 43.21C RCW." [2010 c 153 § 1.]

43.21C.428 Recovery of expenses of nonproject environmental impact statements—Fees for subsequent development. (1) A county, city, or town may recover its reasonable expenses of preparation of a nonproject environmental impact statement prepared under RCW 43.21C.229 and 43.21C.440:

(a) Through access to financial assistance under RCW 36.70A.490;

(b) With funding from private sources; and

(c) By the assessment of fees consistent with the requirements and limitations of this section.

(2)(a) A county, city, or town is authorized to assess a fee upon subsequent development that will make use of and benefit from: (i) The analysis in an environmental impact statement prepared for the purpose of compliance with RCW 43.21C.440 regarding planned actions; or (ii) the reduction in environmental analysis requirements resulting from the exercise of authority under RCW 43.21C.229 regarding infill development.

(b) The amount of the fee must be reasonable and proportionate to the total expenses incurred by the county, city, or town in the preparation of the environmental impact statement.

(c) Counties, cities, and towns are not authorized by this section to assess fees for general comprehensive plan amendments or updates.

(3) A county, city, or town assessing fees under subsection (2)(a) of this section must provide for a mechanism by which project proponents may either elect to utilize the environmental review completed by the lead agency and pay the fees under subsection (1) of this section or certify that they do not want the local jurisdiction to utilize the environmental review completed as a part of a planned action and therefore not be assessed any associated fees. Project proponents who choose this option may not make use of or benefit from the up-front environmental review prepared by the local jurisdiction.

(4) Prior to the collection of fees, the county, city, or town must enact an ordinance that establishes the total amount of expenses to be recovered through fees and provides objective standards for determining the fee amount to be imposed upon each development proposal proportionate to the impacts of each development and to the benefits accruing to each development from the nonproject environmental review. The ordinance must provide: (a) A procedure by which an applicant who disagrees with whether the amount of the fee is correct, reasonable, or proportionate may pay the fee with the written stipulation "paid under protest"; and (b) if the county, city, or town provides for an administrative

appeal of its decision on the project for which the fees are imposed, any dispute about the amount of the fees must be resolved in the same administrative appeals process. Any disagreement about the reasonableness, proportionality, or amount of the fees imposed upon a development may not be the basis for delay in issuance of a project permit for that development.

(5) The ordinance adopted under subsection (4) of this section must make information available about the amount of the expenses designated for recovery. When these expenses have been fully recovered, the county, city, or town may no longer assess a fee under this section.

(6) Any fees collected under this section from subsequent development may be used to reimburse funding received from private sources to conduct the environmental review.

(7) The county, city, or town shall refund fees collected where a court of competent jurisdiction determines that the environmental review conducted under RCW 43.21C.440, regarding planned actions, or under RCW 43.21C.229, regarding infill development, was not sufficient to comply with the requirements of this chapter regarding the proposed development activity for which the fees were collected. The applicant and the county, city, or town may mutually agree to a partial refund or to waive the refund in the interest of resolving any dispute regarding compliance with this chapter. [2013 c 243 § 1.]

43.21C.430 Certain fish protection standards exempt from compliance with chapter. The incorporation of fish protection standards adopted under chapter 77.55 RCW into the forest practices rules as required under RCW 76.09.040 (3) is exempt from compliance with this chapter. [2012 1st sp.s. c 1 § 213.]

43.21C.440 Planned action—Defined—Authority of a county, city, or town—Community meetings. (1) For purposes of this chapter, a planned action means one or more types of development or redevelopment that meet the following criteria:

(a) Are designated as planned actions by an ordinance or resolution adopted by a county, city, or town planning under RCW 36.70A.040;

(b) In conjunction with, or to implement, a comprehensive plan or subarea plan adopted under chapter 36.70A RCW, or a fully contained community, a master planned resort, a master planned development, or a phased project, have had the significant impacts adequately addressed:

(i) In an environmental impact statement under the requirements of this chapter; or

(ii) In a threshold determination or, where one is appropriate, in an environmental impact statement under the requirements of this chapter, if the planned action contains mixed use or residential development and encompasses an area that:

(A) Is within one-half mile of a major transit stop; or

(B) Will be within one-half mile of a major transit stop no later than five years from the date of the designation of the planned action;

(c) Have had project level significant impacts adequately addressed in a threshold determination or, where one is required under (b) of this subsection or where otherwise appropriate, an environmental impact statement, unless the impacts are specifically deferred for consideration at the project level pursuant to subsection (3)(b) of this section;

(d) Are subsequent or implementing projects for the proposals listed in (b) of this subsection;

(e) Are located within an urban growth area designated pursuant to RCW 36.70A.110;

(f) Are not essential public facilities, as defined in RCW 36.70A.200, unless an essential public facility is accessory to or part of a residential, office, school, commercial, recreational, service, or industrial development that is designated a planned action under this subsection; and

(g) Are consistent with a comprehensive plan or subarea plan adopted under chapter 36.70A RCW.

(2) A county, city, or town shall define the types of development included in the planned action and may limit a planned action to:

(a) A specific geographic area that is less extensive than the jurisdictional boundaries of the county, city, or town; or

(b) A time period identified in the ordinance or resolution adopted under this subsection.

(3)(a) A county, city, or town shall determine during permit review whether a proposed project is consistent with a planned action ordinance adopted by the jurisdiction. To determine project consistency with a planned action ordinance, a county, city, or town may utilize a modified checklist pursuant to the rules adopted to implement RCW 43.21C.110, a form that is designated within the planned action ordinance, or a form contained in agency rules adopted pursuant to RCW 43.21C.120.

(b) A county, city, or town is not required to make a threshold determination and may not require additional environmental review, for a proposal that is determined to be consistent with the development or redevelopment described in the planned action ordinance, except for impacts that are specifically deferred to the project level at the time of the planned action ordinance's adoption. At least one community meeting must be held before the notice is issued for the planned action ordinance. Notice for the planned action and notice of the community meeting required by this subsection (3)(b) must be mailed or otherwise verifiably provided to: (i) All affected federally recognized tribal governments; and (ii) agencies with jurisdiction over the future development anticipated for the planned action. The determination of consistency, and the adequacy of any environmental review that was specifically deferred, are subject to the type of administrative appeal that the county, city, or town provides for the proposal itself consistent with RCW 36.70B.060.

(4) For a planned action ordinance that encompasses the entire jurisdictional boundary of a county, city, or town, at least one community meeting must be held before the notice is issued for the planned action ordinance. Notice for the planned action ordinance and notice of the community meeting required by this subsection must be mailed or otherwise verifiably provided to:

(a) All property owners of record within the county, city, or town;

(b) All affected federally recognized tribal governments; and

(c) All agencies with jurisdiction over the future development anticipated for the planned action.

(5) For purposes of this section, "major transit stop" means a commuter rail stop, a stop on a rail or fixed guideway or transitway system, or a stop on a high capacity transportation service funded or expanded under chapter 81.104 RCW. [2017 3rd sp.s. c 16 § 7; 2012 1st sp.s. c 1 § 303.]

43.21C.450 Nonproject actions exempt from requirements of chapter. The following nonproject actions are categorically exempt from the requirements of this chapter:

(1) Amendments to development regulations that are required to ensure consistency with an adopted comprehensive plan pursuant to RCW 36.70A.040, where the comprehensive plan was previously subjected to environmental review pursuant to this chapter and the impacts associated with the proposed regulation were specifically addressed in the prior environmental review;

(2) Amendments to development regulations that are required to ensure consistency with a shoreline master program approved pursuant to RCW 90.58.090, where the shoreline master program was previously subjected to environmental review pursuant to this chapter and the impacts associated with the proposed regulation were specifically addressed in the prior environmental review;

(3) Amendments to development regulations that, upon implementation of a project action, will provide increased environmental protection, limited to the following:

(a) Increased protections for critical areas, such as enhanced buffers or setbacks;

(b) Increased vegetation retention or decreased impervious surface areas in shoreline jurisdiction; and

(c) Increased vegetation retention or decreased impervious surface areas in critical areas;

(4) Amendments to technical codes adopted by a county, city, or town to ensure consistency with minimum standards contained in state law, including the following:

(a) Building codes required by chapter 19.27 RCW;

(b) Energy codes required by chapter 19.27A RCW; and

(c) Electrical codes required by chapter 19.28 RCW. [2012 1st sp.s. c 1 § 307.]

43.21C.460 Environmental checklist—Authority of lead agency—Limitations of section. (1) The lead agency for an environmental review under this chapter utilizing an environmental checklist developed by the department of ecology pursuant to RCW 43.21C.110 may identify within the checklist provided to applicants instances where questions on the checklist are adequately covered by a locally

adopted ordinance, development regulation, land use plan, or other legal authority.

(2) If a lead agency identifies an instance as described in subsection (1) of this section, it still must consider whether the action has an impact on the particular element or elements of the environment in question.

(3) In instances where the locally adopted ordinance, development regulation, land use plan, or other legal authority provide the necessary information to answer a specific question, the lead agency must explain how the proposed project satisfies the underlying local legal authority.

(4) If the lead agency identifies instances where questions on the checklist are adequately covered by a locally adopted ordinance, development regulation, land use plan, or other legal authority, an applicant may still provide answers to any questions on the checklist.

(5) Nothing in this section authorizes a lead agency to ignore or delete a question on the checklist.

(6) Nothing in this section changes the standard for whether an environmental impact statement is required for an action that may have a probable significant, adverse environmental impact pursuant to RCW 43.21C.030.

(7) Nothing in this section affects the appeal provisions provided in this chapter.

(8) Nothing in this section modifies existing rules for determining the lead agency, as defined in WAC 197-11-922 through 197-11-948, nor does it modify agency procedures for complying with the state environmental policy act when an agency other than a local government is serving as the lead agency. 43.21C.470 Categorical exemption for structurally deficient bridges—Definition. (1) The department [of ecology] must amend the categorical exemption available to Washington department of transportation projects under WAC 197-11-800(26) as of July 24, 2015, so that the same categorical exemption applies to structurally deficient city, town, or county bridge repair or replacement projects.

(2) For purposes of this section, "structurally deficient" means a bridge that is classified as in poor condition under the state bridge condition rating system and is reported by the state to the national bridge inventory as having a deck, superstructure, or substructure rating of four or below. Structurally deficient bridges are characterized by deteriorated conditions of significant bridge elements and potentially reduced load-carrying capacity. Bridges deemed structurally deficient typically require significant maintenance and repair to remain in service, and require major rehabilitation or replacement to address the underlying deficiency. [2015 c 144 § 1.]

43.21C.480 Repair or replacement of structurally deficient state bridges exempt from chapter. The repair or replacement of a state bridge deemed structurally deficient, as defined in RCW 47.04.010, is exempt from compliance with this chapter as long as the action occurs within the existing right-of-way, except that the repair or replacement may occur outside the existing right-of-way as needed to meet

current engineering standards or state or local environmental permit requirements for highway construction as long as the repair or replacement does not result in additional lanes for automobiles. The issuance of applicable state and local agency permits or approvals associated with the repair or replacement of such bridges is also included in this exemption from compliance with this chapter. [2015 3rd sp.s. c 10 § 2.]

Effective date—2015 3rd sp.s. c 10: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [July 6, 2015]." [2015 3rd sp.s. c 10 § 5.]

Findings—Intent—2015 3rd sp.s. c 10: "The legislature finds that, as of November 2014, there were one hundred thirty state-owned bridges classified as structurally deficient. The legislature further finds that a span of the Skagit river bridge on Interstate 5, the Trooper Sean M. O'Connell Jr. Memorial bridge, recently collapsed when an oversized load struck the trusses that supported the bridge. Although the Skagit river bridge was not considered structurally deficient, this event underscores the importance of remedying bridge structural deficiencies as efficiently and expeditiously as possible. Thus, it is the intent of the legislature to provide for expedited permitting and contracting for state bridges identified as structurally deficient by the Washington state department of transportation." [2015 3rd sp.s. c 10 § 1.]

43.21C.490 Formation of community facilities districts exempt from this chapter. The formation of a community facilities district under chapter 36.145 RCW is exempt from compliance with this chapter, unless such formation constitutes a final agency decision to undertake construction of a structure or facility not otherwise exempt under state law or rule. [2019 c 260 § 2.]

43.21C.495 Amendments to development regulations and other nonproject actions taken by a city to implement RCW 36.70A.600 not subject to administrative or judicial appeals. If adopted by April 1, 2023, amendments to development regulations and other nonproject actions taken by a city to implement RCW 36.70A.600 (1) or (4), with the exception of the action specified in RCW 36.70A.600(1)(f), are not subject to administrative or judicial appeals under this chapter. [2020 c 173 § 2; 2019 c 348 § 4.]

43.21C.501 Certain project actions evaluated under this chapter by a city or town planning under RCW 36.70A.040—When exempt from appeals under this chapter. (1) A project action pertaining to residential, multi-family, or mixed use development evaluated under this chapter by a city or town planning under RCW 36.70A.040 is exempt from appeals under this chapter on the basis of the evaluation of or impacts to transportation elements of the environment, so long as the project does not present significant adverse impacts to the state-owned transportation system as determined by the department of transportation and the project is:

(a)(i) Consistent with a locally adopted transportation plan; or

(ii) Consistent with the transportation element of a comprehensive plan; and

(b)(i) A project for which traffic or parking impact fees are imposed pursuant to RCW 82.02.050 through 82.02.090; or

(ii) A project for which traffic or parking impacts are expressly mitigated by an ordinance, or ordinances, of general application adopted by the city or town.

(2) For purposes of this section, "impacts to transportation elements of the environment" include impacts to transportation systems; vehicular traffic; waterborne, rail, and air traffic; parking; movement or circulation of people or goods; and traffic hazards. [2019 c 348 § 6.]

Reviser's note: Section 6, chapter 348, Laws of 2019 was erroneously codified as RCW 43.21C.500. RCW 43.21C.500 expired June 30, 1995, and appears in the Disposition of Former RCW Sections. Section 6, chapter 348, Laws of 2019 is now codified as RCW 43.21C.501.

43.21C.515 Projects permitted pursuant to RCW 77.55.480—Not subject to RCW 43.21C.030(2). (Expires June 30, 2025.) (1) A project that receives a permit pursuant to RCW 77.55.480 is not subject to the requirements of RCW 43.21C.030(2).

(2) This section expires June 30, 2025. [2021 c 75 § 3.]

Findings—Intent—2021 c 75: See note following RCW 77.55.480.

43.21C.520 Review of greenhouse gas emissions from a new or expanded facility. The review under this chapter of greenhouse gas emissions from a new or expanded facility subject to the greenhouse gas emission reduction requirements of chapter 70A.65 RCW must occur consistent with RCW 70A.65.080(9). [2021 c 316 § 34.]

43.21C.911 Section headings not part of law—1983 c 117. Section headings as used in this act do not constitute any part of the law. [1983 c 117 § 14.]

43.21C.912 Applicability—1983 c 117. Sections 3 and 4 of this act apply to agency decisions and to appeal proceedings prospectively only and not retrospectively. Sections 1, 5, 6, 7, and 8 of this act may be applied by agencies retrospectively. [1983 c 117 § 15.]

43.21C.914 Effective dates—1983 c 117. (1) Sections 1, 2, and 4 through 16 of this act are necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect immediately [April 23, 1983].

(2) Section 3 of this act shall take effect one hundred eighty days after the remainder of this act goes into effect under subsection (1) of this section. [1983 c 117 § 17.]

43.21F.010 Legislative findings and declaration. (1) The legislature finds that the state needs to implement a comprehensive energy planning process that:

- (a) Is based on high quality, unbiased analysis;
- (b) Engages public agencies and stakeholders in a thoughtful, deliberative process that creates a cohesive plan that earns sustained support of the public and organizations and institutions that will ultimately be responsible for implementation and execution of the plan; and
- (c) Establishes policies and practices needed to ensure the effective implementation of the strategy.

(2) The legislature further finds that energy drives the entire modern economy from petroleum for vehicles to electricity to light homes and power businesses. The legislature further finds that the nation and the world have started the transition to a clean energy economy, with significant improvements in energy efficiency and investments in new clean and renewable energy resources and technologies. The legislature further finds this transition may increase or decrease energy costs and efforts should be made to mitigate cost increases.

(3) The legislature finds and declares that it is the continuing purpose of state government, consistent with other essential considerations of state policy, to foster wise and efficient energy use and to promote energy self-sufficiency through the use of indigenous and renewable energy sources, consistent with the promotion of reliable energy sources, the general welfare, and the protection of environmental quality.

(4) The legislature further declares that a successful state energy strategy must balance three goals to:

- (a) Maintain competitive energy prices that are fair and reasonable for consumers and businesses and support our state's continued economic success;
- (b) Increase competitiveness by fostering a clean energy economy and jobs through business and workforce development; and
- (c) Meet the state's obligations to reduce greenhouse gas emissions. [2010 c 271 § 401; 1975-'76 2nd ex.s. c 108 § 1.]

43.21F.045 Duties of department—Transfer of powers and duties relating to energy education, applied research, technology transfer, and energy efficiency in public buildings. (1) The department shall supervise and administer energy-related activities as specified in RCW 43.330.904 and shall advise the governor and the legislature with respect to energy matters affecting the state.

(2) In addition to other powers and duties granted to the department, the department shall have the following powers and duties:

- (a) Prepare and update contingency plans for implementation in the event of energy shortages or emergencies. The plans shall conform to chapter 43.21G RCW and shall include procedures for determining when these shortages or emergencies exist, the state officers and agencies to partici-

pate in the determination, and actions to be taken by various agencies and officers of state government in order to reduce hardship and maintain the general welfare during these emergencies. 43.21F.400 Western interstate nuclear compact—Entered into—Terms. The western interstate nuclear compact is hereby enacted into law and entered into by the state of Washington as a party, and is in full force and effect between the state and any other states joining therein in accordance with the terms of the compact, which compact is substantially as follows:

ARTICLE I. POLICY AND PURPOSE

The party states recognize that the proper employment of scientific and technological discoveries and advances in nuclear and related fields and direct and collateral application and adaptation of processes and techniques developed in connection therewith, properly correlated with the other resources of the region, can assist substantially in the industrial progress of the West and the further development of the economy of the region. They also recognize that optimum benefit from nuclear and related scientific or technological resources, facilities and skills requires systematic encouragement, guidance, assistance, and promotion from the party states on a cooperative basis. It is the policy of the party states to undertake such cooperation on a continuing basis. It is the purpose of this compact to provide the instruments and framework for such a cooperative effort in nuclear and related fields, to enhance the economy of the West and contribute to the individual and community well-being of the region's people.

ARTICLE II. THE BOARD

(a) There is hereby created an agency of the party states to be known as the "Western Interstate Nuclear Board" (hereinafter called the Board). The Board shall be composed of one member from each party state designated or appointed in accordance with the law of the state which he represents and serving and subject to removal in accordance with such law. Any member of the Board may provide for the discharge of his duties and the performance of his functions thereon (either for the duration of his membership or for any lesser period of time) by a deputy or assistant, if the laws of his state make specific provisions therefor. The federal government may be represented without vote if provision is made by federal law for such representation.

(b) The Board members of the party states shall each be entitled to one vote on the Board. No action of the Board shall be binding unless taken at a meeting at which a majority of all members representing the party states are present and unless

a majority of the total number of votes on the Board are cast in favor thereof.

(c) The Board shall have a seal.

(d) The Board shall elect annually, from among its members, a chairman, a vice chairman, and a treasurer. The Board shall appoint and fix the compensation of an Executive Director who shall serve at its pleasure and who shall also act as Secretary, and who, together with the Treasurer, and such other personnel as the Board may direct, shall be bonded in such amounts as the Board may require.

(k) The Board annually shall make to the governor of each party state, a report covering the activities of the Board for the preceding year, and embodying such recommendations as may have been adopted by the Board, which report shall be transmitted to the legislature of said state. The Board may issue such additional reports as it may deem desirable.

ARTICLE III. FINANCES

(a) The Board shall submit to the governor or designated officer or officers of each party state a budget of its estimated expenditures for such period as may be required by the laws of that jurisdiction for presentation to the legislature thereof.

(b) Each of the Board's budgets of estimated expenditures shall contain specific recommendations of the amount or amounts to be appropriated by each of the party states. Each of the Board's requests for appropriations pursuant to a budget of estimated expenditures shall be apportioned equally among the party states. Subject to appropriation by their respective legislatures, the Board shall be provided with such funds by each of the party states as are necessary to provide the means of establishing and maintaining facilities, a staff of personnel, and such activities as may be necessary to fulfill the powers and duties imposed upon and entrusted to the Board.

(c) The Board may meet any of its obligations in whole or in part with funds available to it under Article II(h) of this compact, provided that the Board takes specific action setting aside such funds prior to the incurring of any obligation to be met in whole or in part in this manner. Except where the Board makes use of funds available to it under Article II(h) hereof, the Board shall not incur any obligation prior to the allotment of funds by the party jurisdictions adequate to meet the same.

(j) Recommend such changes in, or amendments or additions to the laws, codes, rules, regulations, administrative procedures and practices or local laws or ordinances of the party states or their subdivisions in nuclear and related fields, as in its judgment may be appropriate. Any such recommendations shall be made through the appropriate state agency, with due consideration of the desirability of uniformity but shall also give appropriate weight to any special circumstances which may justify variations to meet local conditions.

(k) Consider and make recommendations designed to facilitate the transportation of nuclear equipment, materials, products, by-products, wastes, and any other nuclear or related substances, in such manner and under such conditions as will make their availability or disposal practicable on an economic and efficient basis.

(o) Act as licensee, contractor or sub-contractor of the United States Government or any party state with respect to the conduct of any research activity requiring such license or contract and operate such research facility or undertake any program pursuant thereto, provided that this power shall be exercised only in connection with the implementation of one or more other powers conferred upon the Board by this compact.

(p) Prepare, publish and distribute (with or without charge) such reports, bulletins, newsletters or other materials as it deems appropriate.

(q) Ascertain from time to time such methods, practices, circumstances, and conditions as may bring about the prevention and control of nuclear incidents in the area comprising the party states, to coordinate the nuclear incident prevention and control plans and the work relating thereto of the appropriate agencies of the party states and to facilitate the rendering of aid by the party states to each other in coping with nuclear incidents.

The Board may formulate and, in accordance with need from time to time, revise a regional plan or regional plans for coping with nuclear incidents within the territory of the party states as a whole or within any subregion or subregions of the geographic area covered by this compact.

Any nuclear incident plan in force pursuant to this paragraph shall designate the official or agency in each party state covered by the plan who shall coordinate requests for aid pursuant to Article VI of this compact and the furnishing of aid in response thereto.

Unless the party states concerned expressly otherwise agree, the Board shall not administer the summoning and dispatching of aid, but this function shall be undertaken directly by the designated agencies and officers of the party states.

However, the plan or plans of the Board in force pursuant to this paragraph shall provide for reports to the Board concerning the occurrence of nuclear incidents and the requests for aid on account thereof, together with summaries of the actual working and effectiveness of mutual aid in particular instances.

From time to time, the Board shall analyze the information gathered from reports of aid pursuant to Article VI and such other instances of mutual aid as may have come to its attention, so that experience in the rendering of such aid may be available.

(r) Prepare, maintain, and implement a regional plan or regional plans for carrying out the duties, powers, or functions conferred upon the Board by this compact.

(s) Undertake responsibilities imposed or necessarily involved with regional participation pursuant to such cooperative programs of the federal government as are useful in connection with the fields covered by this compact.

ARTICLE VI. MUTUAL AID

(a) Whenever a party state, or any state or local governmental authorities therein, request aid from any other party state pursuant to this compact in coping with a nuclear incident, it shall be the duty of the requested state to render all possible aid to the requesting state which is consonant with the maintenance of protection of its own people.

(b) Whenever the officers or employees of any party state are rendering outside aid pursuant to the request of another party state under this compact, the officers or employees of such state shall, under the direction of the authorities of the state to which they are rendering aid, have the same powers, duties, rights, privileges and immunities as comparable officers and employees of the state to which they are rendering aid.

(c) No party state or its officers or employees rendering outside aid pursuant to this compact shall be liable on account of any act or omission on their part while so engaged, or on account of the maintenance or use of any equipment or supplies in connection therewith.

(d) All liability that may arise either under the laws of the requesting state or under the laws of the aiding state or under the laws of a third state on account of or in connection with a request for aid, shall be assumed and borne by the requesting state.

(e) Any party state rendering outside aid pursuant to this compact shall be reimbursed by the party state receiving such aid for any loss or damage to, or expense incurred in the operation of any equipment answering a request for aid, and for the cost of all materials, transportation, wages, salaries and maintenance of officers, employees and equipment incurred in connection with such requests: PROVIDED, That nothing herein contained shall prevent any assisting party state from assuming such loss, damage, expense or other cost or from loaning such equipment or from donating such services to the receiving party state without charge or cost.

(f) Each party state shall provide for the payment of compensation and death benefits to injured officers and employees and the representatives of deceased officers and employees in case officers or employees sustain injuries or death while rendering outside aid pursuant to this compact, in the same manner and on the same terms as if the injury or death were sustained within the state by or in which the officer or employee was regularly employed.

ARTICLE VII. SUPPLEMENTARY AGREEMENTS

(a) To the extent that the Board has not undertaken an activity or project which would be within its power under the provisions of Article V of this compact, any two or more of the party states (acting by their duly constituted administrative officials) may enter into supplementary agreements for the undertaking and continuance of such an activity or project. Any such agreement shall specify the purpose or purposes; its duration and the procedure for termination thereof or withdrawal therefrom; the method of financing and allocating the costs of the activity or project; and such other matters as may be necessary or appropriate.

No such supplementary agreement entered into pursuant to this article shall become effective prior to its submission to and approval by the Board. The Board shall give such

approval unless it finds that the supplementary agreement or activity or project contemplated thereby is inconsistent with the provisions of this compact or a program or activity conducted by or participated in by the Board.

(b) Unless all of the party states participate in a supplementary agreement, any cost or costs thereof shall be borne separately by the states party thereto. However, the Board may administer or otherwise assist in the operation of any supplementary agreement.

(c) No party to a supplementary agreement entered into pursuant to this article shall be relieved thereby of any obligation or duty assumed by said party state under or pursuant to this compact, except that timely and proper performance of such obligation or duty by means of the supplementary agreement may be offered as performance pursuant to the compact.

(d) The provisions of this Article shall apply to supplementary agreements and activities thereunder, but shall not be construed to repeal or impair any authority which officers or agencies of party states may have pursuant to other laws to undertake cooperative arrangements or projects.

(c) Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until two years after the Governor of the withdrawing state has given notice in writing of the withdrawal to the Governors of all other party states. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

(d) Guam and American Samoa, or either of them may participate in the compact to such extent as may be mutually

agreed by the Board and the duly constituted authorities of Guam or American Samoa, as the case may be. However, such participation shall not include the furnishing or receipt of mutual aid pursuant to Article VI, unless that Article has been enacted or otherwise adopted so as to have the full force and effect of law in the jurisdiction affected. Neither Guam nor American Samoa shall be entitled to voting participation on the Board, unless it has become a full party to the compact.

ARTICLE X. SEVERABILITY AND CONSTRUCTION

The provisions of this compact and of any supplementary agreement entered into hereunder shall be severable and if any phrase, clause, sentence or provision of this compact or such supplementary agreement is declared to be contrary to the Constitution of any participating state or of the United States or the applicability thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact or such supplementary agreement and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. Governor's powers to declare energy emergency, etc.: RCW 43.06.200, 43.06.210.

43.21G.010 Legislative finding—Intent. The legislature finds that energy in various forms is increasingly subject to possible shortages and supply disruptions, to the point that there may be foreseen an emergency situation, and that without the ability to institute appropriate emergency measures to regulate the production, distribution, and use of energy, a severe impact on the public health, safety, and general welfare of our state's citizens may occur. The prevention or mitigation of such energy shortages or disruptions and their effects is necessary for preservation of the public health, safety, and general welfare of the citizens of this state.

It is the intent of this chapter to:

(1) Establish necessary emergency powers for the governor and define the situations under which such powers are to be exercised;

(2) Provide penalties for violations of this chapter.

It is further the intent of the legislature that in developing proposed orders under the powers granted in RCW 43.21G.040 as now or hereafter amended the governor may utilize, on a temporary or ad hoc basis, the knowledge and expertise of persons experienced in the technical aspects of energy supply, distribution, or use. Such utilization shall be in addition to support received by the governor from the *department of community, trade, and economic development under RCW 43.21F.045 and **43.21F.065 and from other state agencies. [1996 c 186 § 507; 1981 c 295 § 11; 1977 ex.s. c 328 § 1; 1975-'76 2nd ex.s. c 108 § 15.]

Reviser's note: *(1) The "department of community, trade, and economic development" was renamed the "department of commerce" by 2009 c 565.

** (2) RCW 43.21F.065 was repealed by 1996 c 186 § 524, effective July 1, 1996.

43.21G.030 Intent in developing energy production, allocation, and consumption programs. It is the intent of the legislature that the governor shall, in developing plans for the production, allocation, and consumption of energy, give high priority to supplying vital public services including, but not limited to, essential governmental operations, public health and safety functions, emergency services, public mass transportation systems, fish production, food production and processing facilities, including the provision of water to irrigated agriculture, and energy supply facilities, during a condition of energy supply alert or energy emergency. In developing any such plans, provisions should be made for the

equitable distribution of energy among the geographic areas of the state.

It is further the intent of the legislature that the governor shall, to the extent possible, encourage and rely upon voluntary programs and local and regional programs for the production, allocation, and consumption of energy and that involvement of energy users and producers be secured in implementing such programs. [1977 ex.s. c 328 § 3; 1975-'76 2nd ex.s. c 108 § 17.]

43.21G.040 Governor's energy emergency powers—Energy supply alert—Construction of chapter. (1) The governor may subject to the definitions and limitations provided in this chapter:

(a) Upon finding that an energy supply alert exists within this state or any part thereof, declare a condition of energy supply alert; or

(b) Upon finding that an energy emergency exists within this state or any part thereof, declare a condition of energy emergency. A condition of energy emergency shall terminate thirty consecutive days after the declaration of such condition if the legislature is not in session at the time of such declaration and if the governor fails to convene the legislature pursuant to Article III, section 7 of the Constitution of the state of Washington within thirty consecutive days of such declaration. If the legislature is in session or convened, in accordance with this subsection, the duration of the condition of energy emergency shall be limited in accordance with subsection (3) of this section.

Upon the declaration of a condition of energy supply alert or energy emergency, the governor shall present to the committee any proposed plans for programs, controls, standards, and priorities for the production, allocation, and consumption of energy during any current or anticipated condition of energy emergency, any proposed plans for the suspension or modification of existing rules of the Washington Administrative Code, and any other relevant matters the governor deems desirable. The governor shall review any recommendations of the committee concerning such plans and matters.

Upon the declaration of a condition of energy supply alert or energy emergency, the emergency powers as set forth in this chapter shall become effective only within the area described in the declaration.

(2) A condition of energy supply alert shall terminate ninety consecutive days after the declaration of such condition unless:

(a) Extended by the governor upon issuing a finding that the energy supply alert continues to exist, and with prior approval of such an extension by the committee; or

(b) Extended by the governor based on a declaration by the president of the United States of a national state of emergency in regard to energy supply; or

(c) Upon the request of the governor, extended by declaration of the legislature by concurrent resolution of a continuing energy supply alert.

An initial extension of an energy supply alert approved and implemented under this subsection shall be for a specified period of time not to exceed ninety consecutive days after the expiration of the original declaration. Any subse-

quent extensions shall be for a specified period of time not to exceed one hundred twenty consecutive days after the expiration of the previous extension.

(3) A condition of energy emergency shall terminate forty-five consecutive days after the declaration of such condition unless:

(a) Extended by the governor upon issuing a finding that the energy emergency continues to exist, and with prior approval of such an extension by the committee; or

(b) Extended by the governor based on a declaration by the president of the United States of a national state of emergency in regard to energy supply; or

(c) Upon the request of the governor, extended by declaration of the legislature by concurrent resolution of a continuing energy emergency.

An initial extension of an energy emergency approved and implemented under this subsection shall be for a specified period of time not to exceed forty-five consecutive days after the expiration of the original declaration. Any subsequent extensions shall be for a specified period of time not to exceed sixty consecutive days after the expiration of the previous extension.

(4) A condition of energy supply alert or energy emergency shall cease to exist upon a declaration to that effect by either of the following: (a) The governor; or (b) the legislature, by concurrent resolution, if in regular or special session: PROVIDED, That the governor shall terminate a condition of energy supply alert or energy emergency when the energy supply situation upon which the declaration of a condition of energy supply alert or energy emergency was based no longer exists.

(5) In a condition of energy supply alert, the governor may, as deemed necessary to preserve and protect the public health, safety, and general welfare, and to minimize, to the fullest extent possible, the injurious economic, social, and environmental consequences of such energy supply alert, issue orders to: (a) Suspend or modify existing rules of the Washington Administrative Code of any state agency relating to the consumption of energy by such agency or to the production of energy, and (b) direct any state or local governmental agency to implement programs relating to the consumption of energy by the agency which have been developed by the governor or the agency and reviewed by the committee.

(6) In addition to the powers in subsection (5) of this section, in a condition of energy emergency, the governor may, as deemed necessary to preserve and protect the public health, safety, and general welfare, and to minimize, to the fullest extent possible, the injurious economic, social, and environmental consequences of such an emergency, issue orders to: (a) Implement programs, controls, standards, and priorities for the production, allocation, and consumption of energy; (b) suspend and modify existing pollution control standards and requirements or any other standards or requirements affecting or affected by the use of energy, including those relating to air or water quality control; and (c) establish and implement regional programs and agreements for the purposes of coordinating the energy programs and actions of the state with those of the federal government and of other states and localities.

(7) The governor shall make a reasonable, good faith effort to provide the committee with notice when the governor is considering declaring a condition of energy supply alert or energy emergency. The governor shall immediately transmit the declaration of a condition of energy supply alert or energy emergency and the findings upon which the declaration is based and any orders issued under the powers granted in this chapter to the committee. The governor shall provide the committee with at least fourteen days' notice when requesting an extension of a condition of energy supply alert or energy emergency, unless such notice is waived by the committee.

(8) Nothing in this chapter shall be construed to mean that any program, control, standard, priority or other policy created under the authority of the emergency powers authorized by this chapter shall have any continuing legal effect after the cessation of the condition of energy supply alert or energy emergency.

(9) If any provision of this chapter is in conflict with any other provision, limitation, or restriction which is now in effect under any other law of this state, including, but not limited to, chapter 34.05 RCW, this chapter shall govern and control, and such other law or rule issued thereunder shall be deemed superseded for the purposes of this chapter.

(10) Because of the emergency nature of this chapter, all actions authorized or required hereunder, or taken pursuant to any order issued by the governor, shall be exempted from any and all requirements and provisions of the state environmental policy act of 1971, chapter 43.21C RCW, including, but not limited to, the requirement for environmental impact statements.

(11) Except as provided in this section nothing in this chapter shall exempt a person from compliance with the provisions of any other law, rule, or directive unless specifically ordered by the governor. 43.21J.005 Legislative findings. (1) The legislature finds that the long-term health of the economy of Washington state depends on the sustainable management of its natural resources. Washington's forests, estuaries, waterways, and watersheds provide a livelihood for thousands of citizens of Washington state and millions of dollars of income and tax revenues every year from forests, fisheries, shellfisheries, recreation, tourism, and other water-dependent industries.

(2) The legislature further finds that the livelihoods and revenues produced by Washington's forests, estuaries, waterways, and watersheds would be enhanced by immediate investments in clean water infrastructure and habitat restoration.

(3) The legislature further finds that an insufficiency in financial resources, especially in timber-dependent communities, has resulted in investments in clean water and habitat restoration too low to ensure the long-term economic and environmental health of Washington's forests, estuaries, waterways, and watersheds.

(4) The legislature further finds that unemployed workers and Washington's economically distressed communities, especially timber-dependent areas, can benefit from opportunities for employment in environmental restoration projects.

(5) The legislature therefore declares that immediate investments in a variety of environmental restoration projects, based on sound principles of watershed management and environmental and forest restoration, are necessary to rehabilitate damaged watersheds and to assist dislocated workers and the unemployed gain job skills necessary for long-term employment. [1993 c 516 § 1.]

43.21J.010 Intent—Purpose—Definitions. (1) It is the intent of this chapter to provide financial resources to make substantial progress toward: (a) Implementing the Puget Sound water quality management plan and other watershed-based management strategies and plans; (b) ameliorating degradation to watersheds; and (c) keeping and creating stable, environmentally sound, good wage employment in Washington state. The legislature intends that employment under this chapter is not to result in the displacement or partial displacement, whether by the reduction of hours of non-overtime work, wages, or other employment benefits, of cur-

rently employed workers, including but not limited to state civil service employees, or of currently or normally contracted services.

(2) It is the purpose of this chapter to:

(a) Implement clean water, forest, and habitat restoration projects that will produce measurable improvements in water and habitat quality, that rate highly when existing environmental ranking systems are applied, and that provide economic stability.

(b) Facilitate the coordination and consistency of federal, state, tribal, local, and private water and habitat protection and enhancement programs in the state's watersheds.

(c) Fund necessary projects for which a public planning process has been completed.

(d) Provide immediate funding to create jobs and training for environmental restoration and enhancement jobs for unemployed workers and displaced workers in impact areas, especially rural natural resources-dependent communities.

(3) For purposes of this chapter "impact areas" means:

(a) Distressed counties as defined in *RCW 43.168.020; and
(b) areas that the task force determines are likely to experience dislocations in the near future from downturns in natural resource-based industries.

(4) For purposes of this chapter, "high-risk youth" means youth eligible for Washington conservation corps programs under chapter 43.220 RCW or Washington service corps programs under chapter 50.65 RCW.

(5) For purposes of this chapter, "dislocated forest products worker" has the meaning set forth in **RCW 50.70.010.

43.21K.005 Purpose—1997 c 381. The purpose of chapter 381, Laws of 1997 is to create a voluntary program authorizing environmental excellence program agreements with persons regulated under the environmental laws of the state of Washington, and to direct agencies of the state of Washington to solicit and support the development of agreements that use innovative environmental measures or strategies to achieve environmental results more effectively or efficiently.

Agencies shall encourage environmental excellence program agreements that favor or promote pollution prevention, source reduction, or improvements in practices that are transferable to other interested entities or that can achieve better overall environmental results than required by otherwise applicable rules and requirements.

In enacting chapter 381, Laws of 1997 it is not the intent of the legislature that state environmental standards be applied in a manner that could result in these state standards being waived under section 121 of the federal comprehensive environmental response, compensation, and liability act (42 U.S.C. Sec. 9261 [9621]). [1997 c 381 § 1.]

(2) "Coordinating agency" means the state, regional, or local agency with the primary regulatory responsibility for the proposed environmental excellence program agreement. If multiple agencies have jurisdiction to administer state environmental laws affected by an environmental excellence agreement, the department of ecology shall designate or act as the coordinating agency.

(3) "Director" means the individual or body of individuals in whom the ultimate legal authority of an agency is vested by any provision of law. If the agency head is a body of individuals, a majority of those individuals constitutes the director.

(4) "Environmental laws" means chapters 43.21A, 70A.15, 70A.205, 70A.300, 70A.125, 77.55, 90.48, 90.52, 90.58, 90.64, and 90.71 RCW, and RCW 90.54.020(3)(b) and rules adopted under those chapters and section. Stakeholders may include communities near the project, local or state governments, permittees, businesses, environmental and other public interest groups, employees or employee representatives, or other persons. [2021 c 65 § 39; 2003 c 39 § 25; 1997 c 381 § 2.]

Explanatory statement—2021 c 65: See note following RCW 53.54.030.

43.21K.020 Agreements—Environmental results.

An environmental excellence program agreement entered into under this chapter must achieve more effective or efficient environmental results than the results that would be otherwise achieved. The basis for comparison shall be a reasonable estimate of the overall impact of the participating facility on the environment in the absence of an environmental excellence program agreement. More effective environmental results are results that are better overall than those that would be achieved under the legal requirements superseded or replaced by the agreement. More efficient environmental results are results that are achieved at reduced cost but do not decrease the overall environmental results achieved by the participating facility. An environmental excellence program agreement may not authorize either (1) the release of water pollutants that will cause to be exceeded, at points of compliance in the ambient environment established pursuant to law, numeric surface water or groundwater quality criteria or numeric sediment quality criteria adopted as rules under chapter 90.48 RCW; or (2) the emission of any air contaminants that will cause to be exceeded any air quality standard as defined in RCW 70A.15.1030(3); or (3) a decrease in the overall environmental results achieved by the participating facility compared with results achieved over a representative period before the date on which the agreement is proposed by the sponsor. However, an environmental excellence program agreement may authorize reasonable increases in the release of pollutants to permit increases in facility production or facility expansion and modification. [2021 c 65 § 40; 1997 c 381 § 3.]

Explanatory statement—2021 c 65: See note following RCW 53.54.030.

43.21K.030 Authority for agreements—Restrictions.

(1) The director of a state, regional, or local agency may enter into an environmental excellence program agreement with any sponsor, even if one or more of the terms of the environ-

mental excellence program agreement would be inconsistent with an otherwise applicable legal requirement. An environmental excellence program agreement must meet the requirements of RCW 43.21K.020. Otherwise applicable legal requirements identified according to RCW 43.21K.060(1) shall be superseded and replaced in accordance with RCW 43.21K.080.

(2) The director of a state, regional, or local agency may enter into an environmental excellence program agreement only to the extent the state, regional, or local agency has jurisdiction to administer state environmental laws either directly or indirectly through the adoption of rules.

(3) Where a sponsor proposes an environmental excellence program agreement that would affect legal requirements applicable to the covered facility that are administered by more than one state, regional, or local agency, the coordinating agency shall take the lead in developing the environmental excellence program agreement with the sponsor and other agencies administering legal requirements applicable to the covered facility and affected by the agreement. The environmental excellence program agreement does not become effective until the agreement is approved by the director of each agency administering legal requirements identified according to RCW 43.21K.060(1).

(4) No director may enter into an environmental excellence program agreement applicable to a remedial action conducted under the Washington model toxics control act, chapter 70A.305 RCW, or the federal comprehensive environmental response, compensation and liability act (42 U.S.C. Sec. 9601 et seq.). No action taken under this chapter shall be deemed a waiver of any applicable, relevant, or appropriate requirements for any remedial action conducted under the Washington model toxics control act or the federal comprehensive environmental response, compensation and liability act.

(5) The directors of state, regional, or local agencies shall not enter into an environmental excellence program agreement or a modification of an environmental excellence program agreement containing terms affecting legal requirements adopted to comply with provisions of a federal regulatory program and to which the responsible federal agency objects after notice under the terms of RCW 43.21K.070(4).

(6) The directors of regional or local governments may not enter into an environmental excellence program agreement or a modification of an environmental excellence program agreement containing terms affecting legal requirements that are subject to review or appeal by a state agency, including but not limited to chapters 70A.15, 70A.205, and 90.58 RCW, and to which the responsible state agency objects after notice is given under the terms of RCW 43.21K.070(4). [2021 c 65 § 41; 1997 c 381 § 4.]

Explanatory statement—2021 c 65: See note following RCW 53.54.030.

(b)(i) For a site-specific proposal, a comprehensive description of the proposed environmental excellence project that includes the nature of the facility and the operations that will be affected, how the facility or operations will achieve results more effectively or efficiently, and the nature of the results anticipated; or

(ii) For a programmatic proposal, a comprehensive description of the proposed environmental excellence project that identifies the facilities and the operations that are expected to participate, how participating facilities or operations will achieve environmental results more effectively or efficiently, the nature of the results anticipated, and the method to identify and document the commitments made by individual participants;

(c) An environmental checklist, containing sufficient information to reasonably inform the public of the nature of the proposed environmental excellence program agreement and describing probable significant adverse environmental impacts and environmental benefits expected from implementation of the proposal;

(d) A draft environmental excellence program agreement;

(e) A description of the stakeholder process as provided in RCW 43.21K.050;

(f) A preliminary identification of the permit amendments or modifications that may be necessary to implement the proposed environmental excellence program agreement. [1997 c 381 § 5.]

43.21K.050 Stakeholder participation. (1) Stakeholder participation in and support for an environmental excellence program agreement is vital to the integrity of the environmental excellence program agreement and helps to inform the decision whether an environmental excellence program agreement can be approved.

(2) A proposal for an environmental excellence program agreement shall include the sponsor's plan to identify and contact stakeholders, to advise stakeholders of the facts and nature of the project, and to request stakeholder participation and review. Stakeholder participation and review shall occur during the development, consideration, and implementation stages of the proposed environmental excellence program agreement. The plan shall include notice to the employees of the facility to be covered by the proposed environmental excellence program agreement and public notice in the area of the covered facility.

(3) The coordinating agency shall extend an invitation to participate in the development of the proposal to a broad and representative sector of the public likely to be affected by the environmental excellence program agreement, including representatives of local community, labor, environmental, and neighborhood advocacy groups. The coordinating agency shall select participants to be included in the stakeholder process that are representative of the diverse sectors of the public that are interested in the agreement. The stakeholder process

shall include the opportunity for discussion and comment at multiple stages of the process and access to the information relied upon by the directors in approving the agreement.

(4) The coordinating agency will identify any additional provisions for the stakeholder process that the director of the coordinating agency, in the director's sole discretion, considers appropriate to the success of the stakeholder process, and provide for notice to the United States environmental protection agency or other responsible federal agency of each proposed environmental excellence program agreement that may affect legal requirements of any program administered by that agency. [1997 c 381 § 6.]

43.21K.060 Terms and conditions of agreements. An environmental excellence program agreement must contain the following terms and conditions:

(1) An identification of all legal requirements that are superseded or replaced by the environmental excellence program agreement;

(3) A description of the voluntary goals that are or will be pursued by the sponsor;

(4) A statement describing how the environmental excellence program agreement will achieve the purposes of this chapter;

(5) A statement describing how the environmental excellence program agreement will be implemented, including a list of steps and an implementation schedule;

(6) A statement that the proposed environmental excellence program agreement will not increase overall worker safety risks or cause an unjust or disproportionate and inequitable distribution of environmental risks among diverse economic and cultural communities;

(7) A summary of the stakeholder process that was followed in the development of the environmental excellence program agreement;

(8) A statement describing how any participating facility shall measure and demonstrate its compliance with the environmental excellence program agreement including, without limitation, a description of the methods to be used to monitor performance, criteria that represent acceptable performance, and the method of reporting performance to the public and local communities. The facility's compliance with the agreement must be independently verifiable;

(9) A description of and plan for public participation in the implementation of the environmental excellence program agreement and for public access to information needed to assess the benefits of the environmental excellence program agreement and the sponsor's compliance with the environmental excellence program agreement;

(10) A schedule of periodic performance review of the environmental excellence program agreement by the directors that signed the agreement;

(11) Provisions for voluntary and involuntary termination of the agreement;

(15) Draft permits or permit modifications as needed to implement the environmental excellence program agreement;

(16) With respect to a programmatic environmental excellence program agreement, a statement of the method with which to identify and document the specific commitments to be made by individual participants. [1997 c 381 § 7.]

43.21K.070 Public comment—Notice—Responsiveness summary—Copy to federal agency. (1) The coordinating agency shall provide at least thirty days after notice has been published in a newspaper under subsection (2) of this section for public comment on a proposal to enter into or modify an environmental excellence program agreement. The coordinating agency may provide for an additional period of public comment if required by the complexity of the proposed environmental excellence program agreement and the degree of public interest. Before the start of the comment period, the coordinating agency shall prepare a proposed agreement, a public notice and a fact sheet. The fact sheet shall: (a) Briefly describe the principal facts and the significant factual, legal, methodological and policy questions considered by the directors signing the agreement, and the directors' proposed decisions; and (b) briefly describe how the proposed action meets the requirements of RCW 43.21K.020.

The notice shall generally describe the agreement or modification; the facilities to be covered; summarize the changes in legal requirements that will result from the agreement; summarize the reasons for approving the agreement or modifications; identify an agency person to contact for additional information; state that the proposed agreement or modification and fact sheet are available on request; and state that comments may be submitted to the agency during the comment period. The coordinating agency shall order a public informational meeting or a public hearing to receive oral comments if the written comments during the comment period demonstrate considerable public interest in the proposed agreement.

(3) The coordinating agency shall prepare and make available a responsiveness summary indicating the agencies' actions taken in response to comments and the reasons for those actions.

(4) With respect to an environmental excellence program agreement that affects legal requirements adopted to comply with provisions of a federal regulatory program, the coordinating agency shall provide a copy of the environmental excellence program agreement, and a copy of the notice required by subsection (1) of this section, to the federal

agency that is responsible for administering that program at least thirty days before entering into or modifying the environmental excellence program agreement, and shall afford the federal agency the opportunity to object to those terms of the environmental excellence program agreement or modification of an environmental excellence program agreement affecting the legal requirements. The coordinating agency shall provide similar notice to state agencies that have statutory review or appeal responsibilities regarding provisions of the environmental excellence program agreement. [1997 c 381 § 8.]

43.21K.080 Effect of agreements on legal requirements and permits—Permit revisions—Programmatic agreements. (1) Notwithstanding any other provision of law, any legal requirement identified under RCW 43.21K.060(1) shall be superseded or replaced in accordance with the terms of the environmental excellence program agreement. Legal requirements contained in a permit that are affected by an environmental excellence program agreement will continue to be enforceable until such time as the permit is revised in accordance with subsection (2) of this section. With respect to any other legal requirements, the legal requirements contained in the environmental excellence program agreement are effective as provided by the environmental excellence program agreement, and the facility or facilities covered by an environmental excellence program agreement shall comply with the terms of the environmental excellence program agreement in lieu of the legal requirements that are superseded and replaced by the approved environmental excellence program agreement.

(2) Any permits affected by an environmental excellence program agreement shall be revised to conform to the environmental excellence program agreement by the agency with jurisdiction. The permit revisions will be completed within one hundred twenty days of the effective date of the agreement in accordance with otherwise applicable procedural requirements, including, where applicable, public notice and the opportunity for comment, and the opportunity for review and objection by federal agencies.

(3) Other than as superseded or replaced as provided in an approved environmental excellence program agreement, any existing permit requirements remain in effect and are enforceable.

(4) A programmatic environmental excellence program agreement shall become applicable to an individual facility when all directors entering into the programmatic agreement approve the owner or operator's commitment to comply with the agreement. A programmatic agreement may not take effect, however, until notice and an opportunity to comment for the individual facility has been provided in accordance with the requirements of RCW 43.21K.070 (1) through (3). [1997 c 381 § 9.]

43.21K.090 Judicial review. (1) A decision by the directors of state, regional, or local agencies to approve a proposed environmental excellence program agreement, or to terminate or modify an approved environmental excellence program agreement, is subject to judicial review in superior court. For purposes of judicial review, the court may grant relief from the decision to approve or modify an environmen-

tal excellence program agreement only if it determines that the action: (a) Violates constitutional provisions; (b) exceeds the statutory authority of the agency; (c) was arbitrary and capricious; or (d) was taken without compliance with the procedures provided by this chapter. However, the decision of the director or directors shall be accorded substantial deference by the court. A decision not to enter into or modify an environmental excellence program agreement and a decision not to accept a commitment under RCW 43.21K.080(4) to comply with the terms of a programmatic environmental excellence [program] agreement are within the sole discretion of the directors of the state, regional, or local agencies and are not subject to review.

(2) An appeal from a decision to approve or modify a facility specific or a programmatic environmental excellence program agreement is not timely unless filed with the superior court and served on the parties to the environmental excellence program agreement within thirty days of the date on which the agreement or modification is signed by the director. For an environmental excellence program agreement or modification signed by more than one director, there is only one appeal, and the time for appeal shall run from the last date on which the agreement or modification is signed by a director.

(3) A decision to accept the commitment of a specific facility to comply with the terms of a programmatic environmental excellence program agreement, or to modify the application of an agreement to a specific facility, is subject to judicial review as described in subsection (1) of this section. An appeal is not timely unless filed with the superior court and served on the directors signing the agreement, the sponsor, and the owner or operator of the specific facility within thirty days of the date the director or directors that signed the programmatic agreement approve the owner or operator's commitment to comply with the agreement. For a programmatic environmental excellence program agreement or modification signed by more than one director, there shall be only one appeal and the time for appeal shall run from the last date on which a director approves the commitment.

(4) The issuance of permits and permit modifications is subject to review under otherwise applicable law.

(5) An appeal of a decision by a director under *section 11 of this act to terminate in whole or in part a facility specific or programmatic environmental excellence program agreement is not timely unless filed with the superior court and served on the director within thirty days of the date on which notice of the termination is issued under *section 11(2) of this act. [1997 c 381 § 10.]

*Reviser's note: Section 11 of this act was vetoed.

43.21K.100 Continued effect of agreements and permits—Modification of affected permit or approval. After a termination under *section 11 of this act is final and no longer subject to judicial review, the sponsor has sixty days in which to apply for any permit or approval affected by any terminated portion of the environmental excellence program agreement. An application filed during the sixty-day period shall be deemed a timely application for renewal of a permit under the terms of any applicable law. Except as provided in *section 11(4) of this act, the terms and conditions of the environmental excellence program agreement and of permits

issued will continue in effect until a final permit or approval is issued. If the sponsor fails to submit a timely or complete application, any affected permit or approval may be modified at any time that is consistent with applicable law. [1997 c 381 § 12.]

*Reviser's note: Section 11 of this act was vetoed.

43.21K.110 Enforceable and voluntary commitments—Enforcement actions. (1) The legal requirements contained in the environmental excellence program agreement in accordance with RCW 43.21K.060(2) are enforceable commitments of the facility covered by the agreement. Any violation of these legal requirements is subject to penalties and remedies to the same extent as the legal requirements that they superseded or replaced.

(2) The voluntary goals stated in the environmental excellence program agreement in accordance with RCW 43.21K.060(3) are voluntary commitments of the facility covered by the agreement. If the facility fails to meet these goals, it shall not be subject to any form of enforcement action, including penalties, orders, or any form of injunctive relief. The failure to make substantial progress in meeting these goals may be a basis on which to terminate the environmental excellence program agreement under *section 11 of this act.

(3) Nothing in this chapter limits the authority of an agency, the attorney general, or a prosecuting attorney to initiate an enforcement action for violation of any applicable legal requirement. However, no civil, criminal, or administrative action may be brought with respect to any legal requirement that is superseded or replaced under the terms of an environmental excellence program agreement.

(4) This chapter does not create any new authority for citizen suits, and does not alter or amend other statutory provisions authorizing citizen suits. [1997 c 381 § 13.]

*Reviser's note: Section 11 of this act was vetoed.

43.21K.120 Reduced fee schedule. An environmental excellence program agreement may contain a reduced fee schedule with respect to a program applicable to the covered facility or facilities. [1997 c 381 § 14.]

43.21K.130 Rule-making authority. Any state, regional, or local agency administering programs under an environmental law may adopt rules or ordinances to implement this chapter. However, it is not necessary that an agency adopt rules or ordinances in order to consider or enter into environmental excellence program agreements. [1997 c 381 § 16.]

43.21K.140 Advisory committee. The director of the department of ecology shall appoint an advisory committee to review the effectiveness of the environmental excellence program agreement program and to make a recommendation to the legislature concerning the continuation, termination, or modification of the program. The committee also may make recommendations it considers appropriate for revision of any regulatory program that is affected by an environmental excellence program agreement. The committee shall be composed of one representative each from two state agencies, two representatives of the regulated community, and two repre-

sentatives of environmental organizations or other public interest groups. The committee must submit a report and its recommendation to the legislature not later than October 31, 2001. The department of ecology shall provide the advisory committee with such support as they may require. [1997 c 381 § 17.]

43.21K.150 Costs of processing proposals—Fees—Voluntary contributions. (1) Agencies authorized to enter into environmental excellence program agreements may assess and collect a fee to recover the costs of processing environmental excellence program agreement proposals. The amount of the fee may not exceed the direct and indirect costs of processing the environmental excellence program agreement proposal. Processing includes, but is not limited to: Working with the sponsor to develop the agreement, meeting with stakeholder groups, conducting public meetings and hearings, preparing a record of the decision to enter into or modify an agreement, and defending any appeal from a decision to enter into or modify an agreement. Fees also may include, to the extent specified by the agreement, the agencies' direct costs of monitoring compliance with those specific terms of an agreement not covered by permits issued to the participating facility.

(2) Agencies assessing fees may graduate the initial fees for processing an environmental excellence program agreement proposal to account for the size of the sponsor and to make the environmental excellence program agreement program more available to small businesses. An agency may exercise its discretion to waive all or any part of the fees.

(3) Sponsors may voluntarily contribute funds to the administration of an agency's environmental excellence program agreement program. [1997 c 381 § 18.]

43.21K.160 Termination of authority to enter into agreements. The authority of a director to enter into a new environmental excellence program agreement program shall be terminated June 30, 2002. Environmental excellence program agreements entered into before June 30, 2002, shall remain in force and effect subject to the provisions of this chapter. [1997 c 381 § 19.]

(1) Before a manufacturer becomes self-certified, the department shall make an initial audit of the manufacturer making self-certification application. The audit must review and report on the following:

- (a) The manufacturer's quality control program;
- (b) The manufacturer's demonstrated ability to manufacture products in conformance with either or both of the American national standards institute standards A119.2 and A119.5; and

(3) If the department denies an application to allow a manufacturer to be self-certified, the manufacturer shall be notified in writing including the reasons for denial. A copy of the initial self-certification audit shall be provided to the manufacturer. A manufacturer who is denied self-certification may appeal the denial under chapter 34.05 RCW.

(4) If the department has reason to believe that the manufacturer is no longer meeting the criteria established in subsection (1) of this section, the department may make an audit of the manufacturer. For purposes of enforcement of this subsection, the department retains inspection and investigation authority under RCW 43.22.434. At the conclusion of this audit, the director or the director's authorized representative may continue the manufacturer's self-certification or require the manufacturer to meet all of the requirements of this chapter from which the manufacturer was once exempted.

(5) The manufacturer to whom the authorization is given shall pay all of the costs of the initial self-certification audit and any subsequent audit that the department has the authority to perform.

(6) The department shall conduct a performance audit of additional industry association quality control programs utilized by self-certified manufacturers at least once every two years. [1995 c 280 § 6.]

(c) Plan review is not required for those systems and other items listed in (a) of this subsection, or as modified by rule, that are already inspected and approved by another jurisdiction either to a common recognized standard or to standards substantially equivalent to Washington state. An insignia or certified inspection record from the inspecting jurisdiction will suffice as evidence of prior plan review approval.

43.22.434 Inspections and investigations necessary to adopt or enforce rules—Director's duties—Fees—Waiver of provisions during state of emergency. (1) The director or the director's authorized representative may conduct such inspections, investigations, and audits as may be necessary to adopt or enforce manufactured and mobile home, commercial coach, conversion vending units, medical units, recreational vehicle, park trailer, factory built housing, and factory built commercial structure rules adopted under the authority of this chapter or to carry out the director's duties under this chapter.

(2) For purposes of enforcement of this chapter, persons duly designated by the director upon presenting appropriate credentials to the owner, operator, or agent in charge may:

(a) At reasonable times and without advance notice enter any factory, warehouse, or establishment in which manufactured and mobile homes, commercial coaches, conversion vending units, medical units, recreational vehicles, park trailers, factory built housing, and factory built commercial structures are manufactured, stored, or held for sale;

(b) At reasonable times, within reasonable limits, and in a reasonable manner inspect any factory, warehouse, or establishment as required to comply with the standards adopted by the secretary of housing and urban development under the national manufactured home construction and safety standards act of 1974. Each inspection shall be commenced and completed with reasonable promptness; and

(c) As requested by an owner of a conversion vending unit or medical unit, inspect an alteration.

(3) For purposes of determining compliance with this chapter's permitting requirements for alterations of mobile and manufactured homes, the department may audit the records of a contractor as defined in chapter 18.27 RCW or RCW 18.106.020(1) or an electrical contractor as defined in RCW 19.28.006 when the department has reason to believe that a violation of the permitting requirements has occurred. The department shall adopt rules implementing the auditing procedures. Information obtained from a contractor through an audit authorized by this subsection is confidential and not open to public inspection under chapter 42.56 RCW.

(4) The department shall set a schedule of fees by rule which will cover the costs incurred by the department in the administration of RCW 43.22.335 through 43.22.490, and is hereby authorized to do so pursuant to RCW 43.135.055. The department shall use fees set under this subsection only for the administration of RCW 43.22.335 through 43.22.490. The department may waive mobile/manufactured home alteration permit fees for indigent permit applicants.

(5) During a state of emergency declared under RCW 43.06.010(12), the governor may waive or suspend the collection of fees under this section or any portion of this section or under any administrative rule, and issue any orders to facilitate the operation of state or local government or to promote and secure the safety and protection of the civilian population. [2008 c 285 § 4; 2008 c 181 § 203; 2005 c 274 § 296; 2004 c 137 § 1; 2003 c 67 § 1. Prior: 2002 c 268 § 3; 2002 c 268 § 2; 2001 c 335 § 5; 1999 c 22 § 10; 1995 c 280 § 5; 1977 ex.s. c 21 § 5.]

Reviser's note: This section was amended by 2008 c 181 § 203 and by 2008 c 285 § 4, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

Intent—2008 c 285: "To protect taxpayers, many state programs require the costs of licensing, registration, certification, and related government services to be borne by the profession or industry that uses the services, rather than by the taxpaying public as a whole. State standards that govern the professional duties of these industries are intended to protect the general public by safeguarding health, safety, employees, and consumers. The legislative approval of the fees and fee increases in this act is intended to ensure that the general public is not assessed these costs while also providing adequate funding to statutory programs that safeguard and improve Washington's health, safety, employees, and consumers." [2008 c 285 § 1.]

Purpose—Finding—2002 c 268: "The purpose of this act is to implement the recommendations of the joint legislative task force created by chapter 335, Laws of 2001. The legislature recognizes the need to improve communications among mobile/manufactured homeowners, regulatory agencies, and other interested parties, to streamline the complex regulatory environment and inflexible enforcement system, and to promote problem solving at an early stage. To assist in achieving these goals, the legislature:

(1) Encourages the relevant agencies to conduct a pilot project that tests an interagency coordinated system for processing permits for alterations or repairs of mobile and manufactured homes; and

(2) Recognizes the task force's work in reviewing agency rules related to alteration permit requirements and supports the task force's recommendations to the agency regarding those rules. The legislature finds that assisting consumers to understand when an alteration of a mobile or manufactured home is subject to a permit, and when it is not, will improve compliance with the agency rules and further the code's safety goals." [2002 c 268 § 1.]

43.22.435 Altering a mobile or manufactured home—Permit—Penalties—Appeals—Notice of correction. (1)(a) In addition to or in lieu of any other penalty applicable

under this chapter, and except as provided in (b) of this subsection, the department may assess a civil penalty of not more than one thousand dollars against a contractor, firm, partnership, or corporation, that fails to obtain a permit before altering a mobile or manufactured home as required under this chapter or rules adopted under this chapter. Each day on which a violation occurs constitutes a separate violation. However, the cumulative penalty for the same occurrence may not exceed five thousand dollars.

(b) The department must adopt a schedule of civil penalties giving due consideration to the appropriateness of the penalty with respect to the gravity of the violation and the history of previous violations. Penalties for subsequent violations, not constituting the same occurrence, committed within two years of a prior violation by the same party or entity, or by an individual who was a principal or officer of the same entity, must be double the amount of the penalty for the prior violation or one thousand dollars, whichever is greater.

(2)(a) The department may issue a notice of correction before issuing a civil penalty assessment. The notice must include:

- (i) A description of the violation;
- (ii) A statement of what is required to correct the violation;
- (iii) The date by which the department requires correction to be achieved; and
- (iv) Notice of the individual or department office that must be contacted to obtain a permit or other compliance information.

(b) A notice of correction is not a formal enforcement action, is not subject to appeal, and is a public record.

(c) If the department issues a notice of correction, it shall not issue a civil penalty for the violation identified in the notice of correction unless the responsible person fails to comply with the notice.

(3)(a) The department must issue written notices of civil penalties imposed under this section, with the reasons for the penalty, using a method by which the mailing can be tracked or the delivery can be confirmed to the last known address of the party named in the notice.

(b) If a party desires to contest a notice of civil penalty issued under this section, the party must file a notice of appeal with the department within twenty days of the department's mailing of the notice of civil penalty. An administrative law judge of the office of administrative hearings will hear and determine the appeal. Appeal proceedings must be conducted pursuant to chapter 34.05 RCW. An appeal of the administrative law judge's determination or order shall be to the superior court. The superior court's decision is subject only to discretionary review under the rules of appellate procedure. [2011 c 301 § 10; 2002 c 268 § 4.]

- (a) The department shall adopt rules that:

- (i) Specify exemptions from a requirement for a permit to alter a mobile or manufactured home;

- (ii) Authorize the granting of variances from the rules adopted under this section for alterations that use materials, designs, or methods of construction different from those required under the rules adopted under this chapter; and

- (iii) Require the seller of a mobile or manufactured home to deliver to the buyer prior to the sale: (A) A completed property transfer disclosure statement in accordance with chapter 64.06 RCW, unless the seller is exempt or the buyer waives his or her rights under chapter 64.06 RCW; and (B) the variance, if any, granted under the rules adopted under this section.

(b) The department may adopt a rule that allows parties to enter into a conditional sale of an altered mobile or manufactured home. However, a conditional sales agreement may be executed only if, prior to execution, the parties have complied with the department's requirements related to permit approval and a variance granted under the rules, if any, and with property transfer disclosure statement requirements.

(2) This chapter does not prohibit the sale of an altered mobile or manufactured home installed in accordance with the standards adopted under RCW 43.22.440. If, after an inspection requested by any party to a sale, including a party financing the sale, the department determines that an alteration may constitute a hazard to life, safety, or health, the department shall so notify the parties in writing within thirty days of completing the inspection and may notify the local official responsible for enforcing the uniform fire code adopted under chapter 19.27 RCW or local health officer, as applicable, within the relevant jurisdiction. 43.22.440 Manufactured and mobile home installation service and warranty service standards—Enforcement. (1) The legislature finds that inspections of manufactured and mobile home installation are not done on a consistent basis. Manufactured and mobile homes provide housing for many people in the state, and improperly installed manufactured or mobile homes are a serious health and safety risk. Where possible and practical, manufactured and mobile homes should be treated the same as any housing inhabited or to be inhabited by persons in this state, including housing built according to the state building code.

(2) In consultation with the factory assembled structures advisory board for manufactured homes, the director of labor and industries shall by rule establish uniform standards for the performance and workmanship of installation service and warranty service by persons or entities engaged in performing the services within this state for all manufactured and mobile homes, as defined in RCW 46.04.302. The standards shall conform, where applicable, with statutes, rules, and recommendations established under the national manufactured home construction and safety standards act of 1974 (42 U.S.C. Sec. 5401 et seq.). These rules regarding the installation of manufactured and mobile homes shall be enforced and fees charged by the counties and cities in the same manner the state building code is enforced under RCW 19.27.050.

(3) In addition to and in conjunction with the remedies provided in this chapter, failure to remedy any breach of the

standards and rules so established, upon adequate notice and within a reasonable time, is a violation of the consumer protection act, chapter 19.86 RCW and subject to the remedies provided in that chapter. [2001 c 335 § 6; 1988 c 239 § 5; 1980 c 153 § 1.]

In the event any person fails to pay the department the full amount of such assessment or such other sum on or before the date due, the department may, and is hereby authorized to, add to such unpaid assessment or other sum an amount not exceeding ten percent of the same to defray the cost of enforcing the collecting of the same. In the event of failure of such person or persons to pay any such due and payable assessment or other sum, the department may bring a civil action against such person or persons in a court of competent jurisdiction for the collections thereof, including all costs and reasonable attorneys' fees together with the above specified ten percent, and such action shall be tried and judgment rendered as in any other cause of action for debt due and payable. 43.23.270 Export market development project records—Confidentiality. Except for release of statistical information not descriptive of any readily identifiable person or persons, all financial and commercial information and records supplied by persons to the department with respect to export market development projects shall be kept confidential unless confidentiality is waived by the party supplying the information. For purposes of this section, persons include any natural person, joint venture, firm, partnership or association, private or public corporation, or governmental entity. [1996 c 80 § 2.]

43.23.275 Market development and promotion matching fund program. There is created a market development and promotion matching fund program within the Washington state department of agriculture. The purpose of the program is to allow the department of agriculture and the agricultural industry to combine funds in order to enhance access to markets that are growth sales areas for the industry's product. The goal of the program is to expose buyers to Washington's diverse agricultural products. The agriculture [agricultural] industry may bring in buying missions, perform trade promotions in various markets, hire overseas contractors, and perform other marketing functions that help it target the correct buyer and market for its product. [2001 c 324 § 2.]

Findings—Intent—2001 c 324: "The legislature finds that the growing and processing of food and agricultural products is the dominant industry in Washington state and a major employer in rural Washington. The legislature also finds that agriculture is a critical component of Washington's international trade industry, accounting for billions of dollars in exports every year.

The legislature further finds that the export market for Washington's agricultural products has dropped significantly in recent years and that such a drop has negatively impacted the economy in Washington's agricultural regions. Therefore, it is the intent of the legislature to enhance Washington's international trade of agricultural products by increasing funding for the Washington state department of agriculture's international marketing program in an effort to promote marketing of Washington's products and to assist the agricultural industry in efforts to reduce trade barriers that stand in the way of trade in new and emerging markets." [2001 c 324 § 1.]

43.23.280 Trade barrier matching fund program. (1) The legislature finds that trade barriers have become an increasingly important issue in the agricultural arena. Further, the world trade organization highlighted the need for "a fair and level playing field." The legislature finds that both large and small commodity groups need adequate resources to address trade barrier issues.

(2) There is created within the department of agriculture a trade barrier matching fund program to assist agriculture [agricultural] industries in fighting trade barriers. The purpose of the program is to allow the department of agriculture and the agricultural industry to combine funds in order to address trade barriers issues impacting the agricultural industry. [2001 c 324 § 3.]

Findings—Intent—2001 c 324: See note following RCW 43.23.275.

43.23.290 Food assistance programs. The director of the department may exercise powers and duties with respect to the administration of food assistance programs in the department. It is the intent of the legislature in administering the food assistance programs transferred to the department by chapter 68, Laws of 2010, that programs continue to be provided through community-based organizations. It is the intent of the legislature that in accepting the administration of food assistance programs, the department's core programs administered by the department by July 1, 2010, not be impacted.

The director of the department may adopt rules necessary to implement the food assistance programs.

The director may enter into contracts and agreements to implement food assistance programs, including contracts and agreements with the United States department of agriculture, to implement federal food assistance programs. [2010 c 68 § 1.]

43.23.300 Program to promote and protect pollinator habitat and pollinator species. (1) The department shall establish a program to promote and protect pollinator habitat and the health and sustainability of pollinator species. As funds are made available, the program must provide technical and financial assistance to state agencies, local governments, and private landowners to implement practices that promote habitat for all pollinators, including native species, as well as beekeeper and grower best management practices. The program must be administered in coordination with the apiary program established in chapter 15.60 RCW, the honey bee commission authorized in chapter 15.62 RCW, and programs administered by the conservation commission and conservation districts.

(2) Subject to the availability of funds appropriated for this specific purpose, and in consultation with the department of fish and wildlife, the department must:

(a) Review, in consultation with Washington State University, education needs related to pollinator education and develop a plan that outlines the goals related to pollinator education and the necessary partners, personnel, and other resources;

(b) Evaluate and complete an analysis of critical impacts and needed best management practices for managed and wild pollinators. The department shall lead this effort in partnership with Washington State University, and in collaboration with the department of fish and wildlife and the state conservation commission. The effort must utilize the framework established in the state's managed pollinator protection plan as a guide for formal recommendations and education opportunities. The analysis must address food insecurities, habitat loss, virus and disease, pests, and pesticides, which may play a role in pollinator health decline. The department shall make the resources produced pursuant to this subsection available to the public on the department's website, as well as through Washington State University and the state's conservation districts;

(c) Document, in consultation with Washington State University, the bee species within the state and map their distributions as practicable;

(d) Provide economic and environmental impacts of weed listing and categorization on pollinator health to county

noxious weed control boards in consultation with the state noxious weed control board and annually submit a report to the noxious weed control board describing pollinator health issues;

(e) Provide materials, where practicable and in consultation with Washington State University, about certification programs that support pollinator health, biodiversity, and low-impact pesticide application to the public;

(f) Educate the public through plant nurseries about the necessity for blooming nectar plants to be available to wild and managed pollinators throughout their respective active seasons;

(g) Survey registered beekeepers to determine whether the current apiary program should be expanded to include apiary inspections or registration of apiary yards;

(h) Continue and maintain partnership with federal agencies and neighboring states to promote and enhance the implementation of the national strategy to promote the health of honey bees and improve pollinator health;

(i) Increase the availability of pollinator-related resources on the department's website, as practicable, and other state agencies' websites as appropriate;

(j) Review guidelines on state-managed lands to protect native pollinators and improve transparency for state-managed land areas which may permit managed honey bees so that impacts to wild pollinators from honey bees may be minimized; and

(k) In consultation with the department of revenue, review the open space taxation act and provide recommendations to the legislature, in compliance with RCW 43.01.036, on options to include pollinator habitat in the current open space property tax classification. [2021 c 278 § 3; 2019 c 353 § 2.]

Purpose—Intent—2021 c 278: See note following RCW 43.23.320.

Findings—Intent—2019 c 353: "The legislature finds that more than three-fourths of the world's flowering plants and about thirty-five percent of the world's food crops depend on pollinators to reproduce. In Washington state, honey bees and other pollinators are responsible for the production of tree fruits, small fruits, and other crops, with the value in 2016 of crops pollinated by honey bees exceeding three billion dollars. The legislature further finds that, beyond agriculture, pollinators are keystone species in the terrestrial ecosystems of Washington, with fruit and seeds derived from insect pollination providing a major part of the diet of numerous bird and mammal species. The state has experienced pollinator habitat loss through property conversion, fragmentation, and degradation of land, and with the state's population continuing to grow at a fast pace, the additional loss of habitat is a significant concern.

Therefore, the legislature intends by this act to initiate a concerted effort to protect and expand the habitat upon which pollinators depend, by providing technical and financial assistance to public and private landowners, and by coordinating with other state agencies and local governments in promoting practices to ensure sustainable, healthy populations of managed and native pollinators." [2019 c 353 § 1.]

43.23.310 Environmental justice obligations of the department of agriculture. The department must apply and comply with the substantive and procedural requirements of chapter 70A.02 RCW. [2021 c 314 § 6.]

Conflict with federal requirements—2021 c 314: See note following RCW 70A.02.005.

43.23.320 Pollinator health task force. (Expires January 1, 2024.) (1) The department shall create and chair a pollinator health task force. The department shall appoint the

members of the task force, which must include, but is not limited to, representatives of the following interests, organizations, and state agencies:

- (a) The conservation commission;
- (b) The department of natural resources;
- (c) The department of fish and wildlife;
- (d) The state parks and recreation commission;
- (e) The Washington state department of transportation;
- (f) The state noxious weed control board;
- (g) The tree fruit industry;
- (h) The seed industry;
- (i) The berry industry;
- (j) Other agricultural industries dependent upon pollina-

tors;

- (k) Washington State University;
- (l) Pesticide distributors and applicators;
- (m) Conservation organizations;
- (n) Organizations representing beekeepers or apiarists;
- (o) A member of the public from west of the crest of the

Cascade mountains; and

- (p) A member of the public from east of the crest of the

Cascade mountains.

(2) One or more representatives of Washington tribes must also be invited to participate on the task force.

(3) One youth representative from an organization that encourages students to engage in agricultural education must also be invited to participate on the task force when available.

(4) The task force shall build upon existing pollinator research and pollinator habitat plans at the national and state level including, but not limited to, the state-managed pollinator plan, to assist with the development of an implementation plan to implement the state pollinator health strategy.

(5) The task force shall assist, as practicable, with implementation of the recommendations of the task force submitted to the legislature in November 2020.

(6) The department shall provide the implementation plan to the appropriate committees of the senate and house of representatives by December 31, 2021, in compliance with RCW 43.01.036. The implementation plan must include the task force's evaluation and development of protocols that would increase communications between beekeepers, farmers and growers, and pesticide applicators including, but not limited to, education and outreach to beekeepers, farmers and growers, and pesticide applicators.

(7) The department shall provide information related to implementation of the state pollinator health strategy and a recommendation of whether to extend the task force beyond January 1, 2024, to the appropriate committees of the senate and house of representatives by December 1, 2022, in compliance with RCW 43.01.036.

(8) This section expires January 1, 2024. [2021 c 278 § 2.]

Purpose—Intent—2021 c 278: "(1) The purpose of this act is to implement the recommendations of the pollinator health task force created by section 3, chapter 353, Laws of 2019, entitled "Recommendations of the Pollinator Health Task Force - for Pollinator Health in Washington" (November 2020).

(2) The task force provided recommendations to help prioritize and enact policy changes for pollinators in Washington. The recommendations are organized under five broad categories: (a) Habitat; (b) pesticides; (c) education; (d) managed pollinators; and (e) research.

(3) The task force met for the first time the same week that the Asian giant hornet was first discovered in Washington and the week after the Hou-

(2021 Ed.)

dini fly was also reported for the first time in Washington. Asian giant hornets primarily hunt honey bees and destroy entire honey bee hives. The Houdini fly threatens native mason bee populations as well as managed mason bees. Washington is home to over 400 different species of native bees, 65 species of butterflies, as well as moths, wasps, beetles, flies, and hummingbirds. The loss of pollinators, managed and unmanaged, can lead to decreased yields of many fruits, nuts, and vegetables. Washington is currently the top producer in the United States of apples, sweet cherries, alfalfa, blueberries, and pears. In Washington state, honey bees and other pollinators are responsible for the production of tree fruits, small fruits, and other crops.

(4) The legislature intends by this act to implement various recommendations from the pollinator health task force to protect and expand the habitat upon which pollinators depend, by providing technical and financial assistance to public and private landowners, and by coordinating with state agencies and local governments in promoting practices to ensure sustainable, healthy populations of managed and native pollinators." [2021 c 278 § 1.]

43.30.575 Wildfire areas—Funding wildfire risk reduction in certain counties. Subject to the availability of amounts appropriated for this specific purpose, in order to prevent homelessness in any county located east of the crest

For the purposes of this section, fire protection service providers include fire departments, fire districts, emergency management services, and regional fire protection service authorities. The department must prioritize funding to counties authorized in this section serving a disproportionately higher percentage of low-income residents, as defined in RCW 84.36.042, that are located in areas of higher wildfire risk, and whose fire protection service providers have a shortage of reliable equipment and resources. [2017 c 280 § 1.]

Applications for grant funds must be submitted by counties, cities, and towns in accordance with regulations adopted by the department. The department is authorized to make and administer grants on the basis of applications, within appropriations authorized by the legislature, to any county, city, or town for the purpose of developing findings of fact and maps establishing wildland urban interface areas. [2018 c 189 § 3.]

43.30.582 Marbled murrelet conservation strategy—Reports. (Contingent expiration date.) (1)(a) By December 1, 2018, and each December 1st until the year after the United States fish and wildlife service issues an incidental take permit on the state trust land habitat conservation plan for the long-term conservation strategy for the marbled murrelet, the department must provide a report to the legislature, consistent with RCW 43.01.036, as required in this section.

(b) No fewer than ninety days before submitting the report to the legislature as described in this section, the department must first submit a draft of the report for review and comment to the chair and ranking member of the committees of the house of representatives and senate with jurisdiction over state trust lands management.

(c) Each regular legislative session, the standing committee with jurisdiction over state trust land management

(2021 Ed.)

from the house of representatives and senate must each hold a meeting, which may be held as a joint meeting, on the report required in this section and the habitat conservation plan update process.

(2) The report required in this section must annually include an economic analysis of potential losses or gains from any proposed marbled murrelet long-term conservation strategy selected by the board of natural resources, forwarded to or approved by the United States fish and wildlife service, and subsequently adopted by the board.

(3) The initial report required under this section must also include recommendations relating to the following, to be updated as appropriate in subsequent reports:

(a) Actions that support maintaining or increasing family-wage timber and related jobs in the affected rural communities, taking into account, as appropriate, the role of other market factors;

(b) Strategies to ensure no net loss of revenues to the trust beneficiaries due to the implementation of additional marbled murrelet conservation measures;

(c) Additional means of financing county services; and

(d) Additional reasonable, incentive-based, nonregulatory conservation measures for the marbled murrelet that also provide economic benefits to rural communities. [2018 c 255 § 2.]

Contingent expiration date—2018 c 255 §§ 2 and 3: "(1) Sections 2 and 3 of this act expire at the end of the calendar year following the issuance by the United States fish and wildlife service of an incidental take permit on the long-term conservation strategy for the marbled murrelet under the state trust lands habitat conservation plan and subsequent adoption by the board of natural resources.

(2) The department of natural resources must notify the chief clerk of the house of representatives, the secretary of the senate, and the office of the code reviser when the conditional expiration date of sections 1 and 2 [2 and 3] of this act is satisfied." [2018 c 255 § 4.]

Findings—Intent—2018 c 255: "(1) The legislature finds that the 1997 state trust lands habitat conservation plan and the proposed amendment related to the conservation of the marbled murrelet, which provide certainty for beneficiaries of affected state lands and state forestlands, present an important and ongoing issue for the people of the state of Washington. The legislature further finds that complying with the endangered species act is a necessary aspect of managing state trust lands. The lands that are the subject of the 1997 habitat conservation plan are held by the state in trust for the trust beneficiaries, and the proposed amendment to the 1997 state trust lands habitat conservation plan presents an opportunity for the legislature to engage in its role as a fiduciary of those lands.

(2) The legislature intends that the process set forth in this act will serve as a model for future processes in the event that there are any subsequent amendments to the 1997 state trust lands habitat conservation plan beyond those envisioned in this act." [2018 c 255 § 1.]

43.30.583 Marbled murrelet advisory committee. (Contingent expiration date.) (1) To assist the department in developing and providing the report to the legislature required in RCW 43.30.582, the commissioner must appoint a marbled murrelet advisory committee.

(2) The marbled murrelet advisory committee may include one or more representatives from the following categories:

(a) State trust lands beneficiaries;

(b) Impacted state forestlands beneficiaries, including counties;

(c) Junior taxing districts;

(d) Environmental organizations;

(e) Local governments or an association representing local governments;

(f) Milling interests or an association representing milling interests;

(g) Private forestland owners or a statewide association representing private forestland owners; and

(h) Local public interest groups.

(3) The advisory committee required under this section may consult with relevant state and federal agencies and tribes. [2018 c 255 § 3.]

Contingent expiration date—2018 c 255 §§ 2 and 3: See note following RCW 43.30.582.

43.30.800 Olympic natural resources center—Finding, intent. The legislature finds that conflicts over the use of natural resources essential to the state's residents, especially forest and ocean resources, have increased dramatically. There are growing demands that these resources be fully utilized for their commodity values, while simultaneously there are increased demands for protection and preservation of these same resources. While these competing demands are most often viewed as mutually exclusive, recent research has suggested that commodity production and ecological values can be integrated. It is the intent of the legislature to foster and support the research and education necessary to provide sound scientific information on which to base sustainable forest and marine industries, and at the same time sustain the ecological values demanded by much of the public. [1991 c 316 § 1. Formerly RCW 76.12.205.]

43.30.810 Olympic natural resources center—Purpose, programs. (1) The Olympic natural resources center is hereby created at the University of Washington in the school of environmental and forest sciences and the school of aquatic and fishery sciences.

(2) The Olympic natural resources center shall maintain facilities and programs in the western portion of the Olympic Peninsula. The purpose of the center is to demonstrate innovative management methods which successfully integrate environmental, energy, marine, and economic interests into pragmatic management of forest and ocean resources. The center shall combine research and educational opportunities with experimental forestry, oceans management, and traditional management knowledge into an overall program which demonstrates that management based on sound economic principles is made superior when combined with new methods of management based on ecological principles. The programs developed by the center shall include the following:

(a) Research and education on a broad range of ocean resources problems and opportunities in the region, such as estuarine processes, ocean and coastal management, renewable energy production, offshore development, fisheries and shellfish enhancement, and coastal business development, tourism, and recreation. In developing this component of the center's program, the center shall collaborate with coastal educational institutions such as Grays Harbor community college and Peninsula community college;

(b) Research and education on forest resources management issues on the landscape, ecosystem, or regional level, including issues that cross legal and administrative boundaries;

(c) Research and education that broadly integrates marine and terrestrial issues, including interactions of marine, aquatic, and terrestrial ecosystems, and that identifies options and opportunities to integrate the production of commodities with the preservation of ecological values. Where appropriate, programs shall address issues and opportunities that cross legal and administrative boundaries;

(d) Research and education on natural resources and their social and economic implications, and on alternative

economic and social bases for sustainable, healthy, resource-based communities;

(e) Educational opportunities such as workshops, short courses, and continuing education for resource professionals, policy forums, information exchanges including international exchanges where appropriate, conferences, student research, and public education; and

(f) Creation of a neutral forum where parties with diverse interests are encouraged to address and resolve their conflicts. [2012 c 243 § 2; 1991 c 316 § 2; 1989 c 424 § 4. Formerly RCW 76.12.210.]

43.30.820 Olympic natural resources center—Administration—Policy advisory board. (1) The Olympic natural resources center shall operate under the authority of the board of regents of the University of Washington. It shall be administered by a director appointed jointly by the directors of the school of environmental and forest sciences and the school of aquatic and fishery sciences. The director of the center shall be a member of the faculty of one of those schools. The director of the center shall appoint and maintain a scientific or technical committee, and other committees as necessary, to advise the director on the efficiency, effectiveness, and quality of the center's activities.

(2) The governor must appoint a policy advisory board consisting of eleven members, who serve at the pleasure of the governor, to advise the directors of the school of environmental and forest sciences, the school of aquatic and fishery sciences, and the Olympic natural resources center on policies for the center that are consistent with its purposes. Membership on the policy advisory board must broadly represent the various interests concerned with the purposes of the center, including the Washington state department of natural resources and state and federal government, environmental, local community, timber industry, and tribal interests. Policy advisory board members shall serve four-year terms and are eligible for reappointment.

(3) Service on boards and committees of the Olympic natural resources center is without compensation but actual travel expenses incurred in connection with service to the center may be reimbursed from appropriated funds in accordance with RCW 43.03.050 and 43.03.060. [2012 c 243 § 1; 2010 1st sp.s. c 7 § 74; 1991 c 316 § 3. Formerly RCW 76.12.220.]

The center may solicit contracts for work, financial and in-kind contributions, and support from private industries, interest groups, federal and state sources, and other sources. It may also use separately appropriated funds of the University of Washington for the center's activities. [1991 c 316 § 4. Formerly RCW 76.12.230.]

43.30.835 Forest biomass demonstration projects.

(1) The department may develop and implement forest biomass energy demonstration projects, one east of the crest of the Cascade mountains and one west of the crest of the Cascade mountains. The demonstration projects must be designed to:

(a) Reveal the utility of Washington's public and private forest biomass feedstock;

(b) Create green jobs and generate renewable energy;

(c) Generate revenues or improve asset values for beneficiaries of state lands and state forestlands;

(d) Improve forest health, reduce pollution, and restore ecological function; and

(e) Avoid interfering with the current working area for forest biomass collection surrounding an existing fixed location biomass energy production site.

(2) To develop and implement the forest biomass energy demonstration projects, the department may form forest biomass energy partnerships or cooperatives.

(3) The forest biomass energy partnerships or cooperatives are encouraged to be public-private partnerships focused on convening the entities necessary to grow, harvest, process, transport, and utilize forest biomass to generate renewable energy. Particular focus must be given to recruiting and employing emerging technologies that can locally process forest biomass feedstock to create local green jobs and reduce transportation costs.

(4) The forest biomass energy partnerships or cooperatives may include, but are not limited to: Entrepreneurs or organizations developing and operating emerging technology to process forest biomass; industrial electricity producers; contractors capable of providing the local labor needed to collect, process, and transport forest biomass feedstocks; tribes; federal land management agencies; county, city, and other local governments; the *department of community, trade, and economic development; state trust land managers; an organization dedicated to protecting and strengthening the jobs, rights, and working conditions of Washington's working families; accredited research institution representatives; an industrial timberland manager; a small forestland owner; and a not-for-profit conservation organization. [2009 c 163 § 2.]

*Reviser's note: The "department of community, trade, and economic development" was renamed the "department of commerce" by 2009 c 565.

Findings—Intent—2009 c 163: "The legislature finds that forest biomass is an abundant and renewable by-product of Washington's forestland management. Forest biomass can be utilized to generate clean renewable energy.

In some Washington forests, residual forest biomass is burned on-site or left to decompose. The lack of forest products markets in some areas means that standing forest biomass removed for forest health and wildfire risk reduction treatments must occur at substantial cost. Utilizing forest biomass to generate energy can reduce the greenhouse gases emitted by burning forest biomass.

The legislature further finds that the emerging forest biomass energy economy is challenged by: Not having a reliable supply of predictably priced forest biomass feedstock; shipping and processing costs; insufficient forest biomass processing infrastructure; and feedstock demand.

The legislature finds that making use of the state's forest biomass resources for energy production may generate new revenues or increase asset values of state lands and state forestlands, protect forestland of all ownerships from severe forest health problems, stimulate Washington's economy, create green jobs, and reduce Washington's dependence on foreign oil.

It is the intent of the legislature to support forest biomass demonstration projects that employ promising processing technologies. The demonstration

projects must emphasize public and private forest biomass feedstocks that are generated as by-products of current forest practices. The project must reveal ways to overcome the current impediments to the developing forest biomass energy economy, and ways to realize ecologically sustainable outcomes from that development." [2009 c 163 § 1.]

43.30.840 Grants or financing. For the purposes of implementing chapter 163, Law of 2009, the department may seek grants or financing from the federal government, industry, or philanthropists. [2009 c 163 § 4.]

Findings—Intent—2009 c 163: See note following RCW 43.30.835.

43.31.205 Hanford reservation—Promotion of sublease for nuclear-related industry. In an effort to enhance the economy of the Tri-Cities area, the *department of community, trade, and economic development is directed to promote the existence of the lease between the state of Washington and the federal government executed September 10, 1964, covering one thousand acres of land lying within the

Hanford reservation near Richland, Washington, and the opportunity of subleasing the land to entities for nuclear-related industry, in agreement with the terms of the lease. When promoting the existence of the lease, the department shall work in cooperation with any associate development organization located in or near the Tri-Cities area. [1993 c 280 § 41; 1992 c 228 § 2; 1990 c 281 § 2.]

***Reviser's note:** The "department of community, trade, and economic development" was renamed the "department of commerce" by 2009 c 565.

Legislative findings—1992 c 228: "The legislature finds that the ninety-nine-year lease of one thousand acres of land by the state from the federal government requires that the state use any rent moneys from subleasing the land for the development of the leased land and nuclear-related industries in the Tri-Cities area. The legislature further finds that the new emphasis on waste cleanup at Hanford and the new technologies needed for environmental restoration warrant a renewed effort to promote development of the leased land and nuclear-related industries in the Tri-Cities area." [1992 c 228 § 1.]

Legislative findings—1990 c 281: "The legislature finds that the one thousand acres of land leased from the federal government to the state of Washington on the Hanford reservation constitutes an unmatched resource for development of high-technology industry, nuclear medicine research, and research into new waste immobilization and reduction techniques. The legislature further finds that continued diversification of the Tri-Cities economy will help stabilize and improve the Tri-Cities economy, and that this effort can be aided by emphasizing the resources of local expertise and nearby facilities." [1990 c 281 § 1.]

43.31.215 Hanford reservation—Tri-Cities area—Emphasize workforce and facilities. When the department implements programs intended to attract or maintain industrial or high-technology investments in the state, the department shall, to the extent possible, emphasize the following:

- (1) The highly skilled and trained workforce in the Tri-Cities area;
- (2) The world-class research facilities in the area, including the fast flux test facility and the Pacific Northwest laboratories;
- (3) The existence of the one thousand acres leased by the state from the federal government for the purpose of nuclear-related industries; and
- (4) The ability for high-technology and medical industries to safely dispose of low-level radioactive waste at the Hanford commercial low-level waste disposal facility. [1990 c 281 § 3.]

Legislative findings—1990 c 281: See note following RCW 43.31.205.

43.31.422 Hanford area economic investment fund. The Hanford area economic investment fund is established in the custody of the state treasurer. Moneys in the fund shall only be used for reasonable assistant attorney general costs in support of the committee or pursuant to the decisions of the committee created in RCW 43.31.425 for Hanford area revolving loan funds, Hanford area infrastructure projects, or other Hanford area economic development and diversification projects, but may not be used for government or non-profit organization operating expenses. Up to five percent of moneys in the fund may be used for program administration. For the purpose of this chapter "Hanford area" means Benton and Franklin counties. The director of commerce or the director's designee shall authorize disbursements from the fund with the advice of the committee created in RCW 43.31.425. The fund is subject to the allotment procedures under chapter

[Title 43 RCW—page 272]

43.88 RCW, but no appropriation is required for disbursements. The legislature intends to establish similar economic investment funds for areas that develop low-level radioactive waste disposal facilities. [2011 1st sp.s. c 21 § 42; 2004 c 77 § 1; 1998 c 76 § 1; 1993 c 280 § 44; 1991 c 272 § 19.]

43.31.450 SEED act—Findings—Purpose. The legislature finds that economic well-being encompasses not only income, spending, and consumption, but also savings, investment, and asset-building. The building of assets, in particular, can improve individuals' economic independence and stability. The legislature further finds that it is appropriate for the state to institute an asset-based strategy to assist low-income families. It is the purpose of chapter 402, Laws of 2005 to promote job training, homeownership, and business development among low-income individuals and to provide assistance in meeting the financial goals of low-income individuals. [2005 c 402 § 2.]

Effective date—2020 c 357: See note following RCW 43.79.545.

Legislative findings—1989 c 430: "The legislature finds that increasing the availability and affordability of quality child care will enhance the stability of the family and facilitate expanded economic prosperity in the state. The legislature finds that balancing work and family life is a critical concern for employers and employees. The dramatic increase in participation of women in the workforce has resulted in a demand for affordable child care exceeding the supply. The future of the state's workforce depends in part upon the availability of quality affordable child care. There are not enough child care services and facilities to meet the needs of working parents, the costs of care are often beyond the resources of working parents, and facilities are not located conveniently to workplaces and neighborhoods. The prospect for labor shortages resulting from the aging of the population and the importance of the quality of the workforce to the competitiveness of Washington businesses make the availability of quality child care an important concern for the state's businesses.

The legislature further finds that a partnership between business and child care providers can help the market for child care adjust to the needs of businesses and working families and improve productivity, reduce absenteeism, improve recruitment, and improve morale among Washington's labor force. The legislature further finds that private and public partnerships and investments are necessary to increase the supply, affordability, and quality of child care in the state." [1989 c 430 § 1.]

The department may reimburse the landlord for that portion of such judgment that is based on damages reimbursable under the landlord

mitigation program, subject to the limitations set forth in this section.

43.31.615 Landlord mitigation program account. (1)

The landlord mitigation program account is created in the custody of the state treasury. All transfers and appropriations by the legislature, repayments, private contributions, and all other sources must be deposited into the account. Expenditures from the account may only be used for the landlord mitigation program under this chapter to reimburse landlords for eligible claims related to private market rental units during the time of their rental to low-income tenants using housing subsidy programs as defined in RCW 43.31.605, for any unpaid judgment issued within an unlawful detainer action after a court order pursuant to RCW 59.18.410(3) as described in RCW 43.31.605(1)(c), for any unpaid rent as described in RCW 43.31.605(1)(d), and for the administrative costs identified in subsection (2) of this section. Only the director or the director's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

(2) Administrative costs associated with application, distribution, and other program activities of the department may not exceed twenty percent of the annual funds available for the landlord mitigation program. Reappropriations must not be included in the calculation of the annual funds available for determining the administrative costs.

(3) Funds deposited into the landlord mitigation program account shall be prioritized by the department for allowable costs under RCW 43.31.605(1)(b), and may only be used for other allowable costs when funding available in the account exceeds the amount needed to pay claims under RCW 43.31.605(1)(b). [2021 c 115 § 6; 2019 c 356 § 13; 2018 c 66 § 3.]

Finding—Intent—Application—Effective date—2021 c 115: See notes following RCW 59.18.620.

43.31.625 Industrial waste coordination program.

(1) An industrial waste coordination program is established in order to provide expertise, technical assistance, and best practices to support local industrial symbiosis projects.

(2) The industrial waste coordination program must be administered by the department of commerce and administered regionally, with each region provided with a dedicated facilitator and technical and administrative support.

(3) The industrial waste coordination program must facilitate waste exchange by:

(a) Developing inventories of industrial waste innovation currently in operation;

(b) Generating a material flow data collection system in order to capture and manage data on resource availability and potential synergies;

(c) Establishing guidance and best practices for emerging local industrial resource hubs, which must include a consideration of steps to avoid creating or worsening negative impacts to overburdened communities as identified by tools such as the department of health's environmental health disparities map;

(d) Identifying access to capital in order to fund projects, including federal, state, local, and private funding;

(e) Developing economic, environmental, and health disparities metrics to measure the results of industrial or commercial hubs;

(f) Hosting workshops and connecting regional businesses, governments, utilities, research institutions, and other organizations in order to identify opportunities for resource collaboration;

(g) Assisting entities throughout the entire life cycle of industrial symbiosis projects, from identification of opportunities to full project implementation;

(h) Developing economic cluster initiatives in order to spur growth and innovation; and

(i) Making any additional recommendations to the legislature in order to incentivize and facilitate industrial symbiosis.

(4) The department of commerce may coordinate with other agencies, representatives of business and manufacturing networks, and other entities in order to develop material flow generation data and increase multisectoral outreach.

(5) In generating the material flow data collection system under subsections (3)(b) and (4) of this section, the department of commerce may only use publicly available data or data voluntarily provided by program participants. No entity may be required to disclose material flow data. The department of commerce must keep any proprietary business information confidential and such information is exempt from public disclosure, as provided in RCW 42.56.270. [2021 c 308 § 2.]

Findings—Intent—2021 c 308: "The legislature finds that industrial symbiosis networks create valuable collaborative opportunities where the underutilized resources of one company, such as waste, by-products, residues, energy, water, logistics, capacity, expertise, equipment, and materials may be used by another. The legislature further finds that many existing businesses and organizations in the state have the potential to partner in the establishment of these networks, and the formation of industrial symbiosis innovation hubs at the state and local level would facilitate a systems approach that identifies business opportunities to improve resource utilization and productivity for a more sustainable and integrated industrial economy.

Therefore, the legislature intends to establish a statewide industrial waste coordination program in order to nurture and coordinate existing industrial symbiosis efforts and to catalyze new industrial symbiosis opportunities. Furthermore, the legislature intends to establish the program in order to: Find ways of turning waste and by-products into valued resource inputs; reduce waste management costs; generate new business opportunities; increase the size and diversity of business networks; identify means of improving environmental performance; achieve environmental justice in goals and policies; incentivize pathways to family-wage, green jobs; expand the regional circular economy; and drive innovation." [2021 c 308 § 1.]

43.31.635 Industrial symbiosis grant program. (1) Subject to the availability of amounts appropriated for this specific purpose, a competitive industrial symbiosis grant program is established in order to provide grants for the research, development, and deployment of local waste coordination projects.

(2) Grants may go towards:

(a) Existing industrial symbiosis efforts by public or private sector organizations;

(b) Emerging industrial symbiosis opportunities involving public or private sector organizations, including projects arising from:

(i) The industrial waste coordination program established in RCW 43.31.625;

(ii) Conceptual work completed by public utilities to redirect their wastes to productive use; or

(iii) Existing inventories or project concepts involving specific biobased wastes converted to renewable natural gas;

(c) Research on product development using a specific waste flow;

(d) Feasibility studies to evaluate potential biobased resources;

(e) Feasibility studies for publicly owned utilities to evaluate business models to transform to multiutility operations or for the evaluation of potential symbiosis connections with other regional businesses; or

(f) Other local waste coordination projects as determined by the department of commerce.

(3) The department of commerce must develop a method and criteria for the allocation of grants, subject to the following:

(a) Project allocation should reflect geographic diversity, with grants being distributed equally in western and eastern parts of the state, urban and rural areas, and small towns and large cities;

(b) Project allocation should consider factors such as time to implementation and scale of economic or environmental benefits;

(c) Grants must require a one-to-one nonstate to state match;

(d) Individual grant awards may not exceed \$500,000; and

(e) Project allocation should avoid creating or worsening environmental health disparities and should make use of tools such as the department of health's environmental health disparities map. [2021 c 308 § 3.]

Findings—Intent—2021 c 308: See note following RCW 43.31.625.

43.31.859 Rural development council—Successor organization—Funding. Notwithstanding anything to the contrary in chapter 41.06 RCW or any other provision of law, the department may contract to provide funding to a successor organization under *RCW 43.31.856 to carry out activities of the organization that are consistent with the department's powers and duties. All moneys for contracts entered into under this section are subject to appropriation. [1999 c 299 § 4.]

***Reviser's note:** RCW 43.31.856 was repealed by 1999 c 299 § 6, effective June 30, 2002.

(2021 Ed.)

43.31.970 Electric vehicle infrastructure. The *department of community, trade, and economic development must distribute to local governments model ordinances, model development regulations, and guidance for local governments for siting and installing electric vehicle infrastructure, and in particular battery charging stations, and appropriate handling, recycling, and storage of electric vehicle batteries and equipment, when available. The model ordinances, model development regulations, and guidance must be developed by a federal or state agency, or nationally recognized organizations with specific expertise in land-use regulations or electric vehicle infrastructure. [2009 c 459 § 18.]

***Reviser's note:** The "department of community, trade, and economic development" was renamed the "department of commerce" by 2009 c 565.

Finding—Purpose—2009 c 459: See note following RCW 47.80.090. *Regional transportation planning organizations—Electric vehicle infrastructure:* RCW 47.80.090.

43.31.980 Impact fee annual report. (1) Beginning December 1, 2018, and each year thereafter, the department of commerce must prepare an annual report on the impact fee deferral process established in RCW 82.02.050(3). The report must include: (a) The number of deferrals requested of and issued by counties, cities, and towns; (b) the number of deferrals that were not fully and timely paid; and (c) other information as deemed appropriate.

(2) The report required by this section must, in accordance with RCW 43.01.036, be submitted to the appropriate committees of the house of representatives and the senate. [2015 c 241 § 4.]

Effective date—2015 c 241: See note following RCW 44.28.812.

43.31C.005 Findings—Declaration. (1) The legislature finds that:

(a) There are geographic areas within communities that are characterized by a lack of employment opportunities, an average income level that is below the median income level for the surrounding community, a lack of affordable housing, deteriorating infrastructure, and a lack of facilities for community services, job training, and education;

(b) Strategies to encourage reinvestment in these areas by assisting local businesses to become stronger and area residents to gain economic power involve a variety of activities and partnerships;

(c) Reinvestment in these areas cannot be accomplished with only governmental resources and require a comprehen-

sive approach that integrates various incentives, programs, and initiatives to meet the economic, physical, and social needs of the area;

(d) Successful reinvestment depends on a local government's ability to coordinate public resources in a cohesive, comprehensive strategy that is designed to leverage long-term private investment in an area;

(e) Reinvestment can strengthen the overall tax base through increased tax revenue from expanded and new business activities and physical property improvement;

(f) Local governments, in cooperation with area residents, can provide leadership as well as planning and coordination of resources and necessary supportive services to address reinvestment in the area; and

(g) It is in the public interest to adopt a targeted approach to revitalization and enlist the resources of all levels of government, the private sector, community-based organizations, and community residents to revitalize an area.

(2) The legislature declares that the purposes of the community empowerment zone act are to:

(a) Encourage reinvestment through strong partnerships and cooperation between all levels of government, community-based organizations, area residents, and the private sector;

(b) Involve the private sector and stimulate private reinvestment through the judicious use of public resources;

(c) Target governmental resources to those areas of greatest need; and

(d) Include all levels of government, community individuals, organizations, and the private sector in the policy-making process. [2000 c 212 § 1.]

43.31C.010 Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Area" means a geographic area within a local government that is described by a close perimeter boundary.

(2) "Community empowerment zone" means an area meeting the requirements of RCW 43.31C.020 and officially designated by the director.

(3) "Department" means the department of commerce.

(4) "Director" means the director of the department of commerce.

(5) "Local government" means a city, code city, town, or county. [2009 c 565 § 31; 2000 c 212 § 2.]

43.31C.020 Community empowerment zone—Application. (1) The department, in cooperation with the department of revenue, the employment security department, and the office of financial management, may approve applications submitted by local governments for an area's designation as a community empowerment zone under this chapter. The application for designation shall be in the form and manner and contain such information as the department may prescribe, provided that the application shall:

(a) Contain information sufficient for the director to determine if the criteria established in RCW 43.31C.030 have been met;

(b) Be submitted on behalf of the local government by its chief elected official, or, if none, by the governing body of the local government;

(c) Contain a five-year community empowerment plan that meets the requirements of RCW 43.31C.040; and

(d) Certify that area residents were given the opportunity to participate in the development of the five-year community empowerment strategy required under RCW 43.31C.040.

(2) No local government shall submit more than two areas to the department for possible designation as a community empowerment zone under this chapter.

(3)(a) The director may designate up to six community empowerment zones, statewide, from among the applications submitted for designation as a community empowerment zone.

(b) The director shall make determinations of designated community empowerment zones on the basis of the following factors:

(i) The strength and quality of the local government commitments to meet the needs identified in the five-year community empowerment plan required under RCW 43.31C.040.

The plan shall address the following categories:

(c) Other public facilities needs, such as neighborhood facilities or facilities for the provision of health, education, recreation, public safety, and other services;

(2) The local government must provide a description of its strategy for meeting the needs identified in subsection (1) of this section. As part of the community empowerment zone strategy, the local government must identify the needs for which specific plans are currently in place and the source of funds expected to be used. For the balance of the area's needs, the local government must identify the source of funds expected to become available during the next two-year period and actions the local government will take to acquire those funds.

(3) The local government must submit an annual progress report to the department that details the extent to which the local government is working to meet the needs identified in the five-year community empowerment plan. If applicable, the progress report must also contain a discussion on the impediments to meeting the needs outlined in the five-year community empowerment plan. The local government must hold at least two public hearings on the proposed changes and include the information in its request for an amendment to its community empowerment zone.

(b) The department shall approve or disapprove a proposed amendment to a community empowerment zone within sixty days of its receipt of a request under subsection (1)(a) of this section. The department may not approve changes to a community empowerment zone that are not in conformity with this chapter.

The local government may file an appeal to the department's findings within sixty days of the notice to terminate the area's designation. The department must notify the local government of the results within thirty days of the filing of the appeal.

43.41.030 Purpose. The legislature finds that the need for long-range state program planning and for the short-range planning carried on through the budget process, complement each other. The biennial budget submitted to the legislature must be considered in the light of the longer-range plans and goals of the state. The effectiveness of the short-range plan presented as budget proposals, cannot be measured without being aware of these longer-range goals. Thus efficient management requires that the planning and fiscal activities of state government be integrated into a unified process. It is the purpose of this chapter to bring these functions together in a new division of the office of the governor to be called the office of financial management. [1979 c 151 § 109; 1969 ex.s. c 239 § 1.]

43.41.040 Definitions. As used in this chapter, unless the context indicates otherwise:

(2) The state of Washington has an obligation to operate state buildings efficiently and to implement all cost-effective energy conservation measures so that citizens are assured that public funds are spent wisely and so that citizens have an example of the savings possible from energy conservation.

(3) The state has completed energy consumption and walk-through surveys of its buildings and other facilities and has established a schedule for technical assistance studies which is the basis for implementing energy conservation measure installations to meet the milestones in RCW 43.19.680. However, there is uncertainty that the milestones will be met.

The legislature further finds that there is no policy similar to Schedule A in the federal civil service system for priority hiring of persons with disabilities. 43.42.005 Findings—Intent. (1) The legislature finds that: The health and safety of its citizens and environment are of vital interest to the state's long-term quality of life; Washington state is a national leader in protecting its environment; and Washington state has a vibrant and diverse economy that is dependent on the state maintaining high environmental standards. Further, the legislature finds that a complex and confusing network of environmental and land use laws and business regulations can create obstacles to sustainable growth.

It is the intent of the legislature to promote accountability, timeliness, and predictability for citizens, business, and state, federal, and local permitting agencies, and to provide information and assistance on the regulatory process through the creation of the office of regulatory assistance in the governor's office.

(2) The office of regulatory assistance is created to work to continually improve the function of environmental and business regulatory processes by identifying conflicts and overlap in the state's rules, statutes, and operational practices; the office is to provide project proponents and business owners with active assistance for all permitting, licensing, and other regulatory procedures required for completion of specific projects; and the office is to ensure that citizens, businesses, and local governments have access to, and clear information regarding, regulatory processes for permitting and business regulation, including state rules, permit and license requirements, and agency rule-making processes.

(3) The legislature declares that the purpose of this chapter is to provide direction, practical resources, and a range of innovative and optional service delivery options for improving the regulatory process and for providing assistance through the regulatory process on individual projects in furtherance of the state's goals of governmental transparency and accountability.

(4) The legislature intends that establishing an office of regulatory assistance will provide these services without abrogating or limiting the authority of any agency to make decisions on permits, licenses, regulatory requirements, or agency rule making. The legislature further intends that the office of regulatory assistance shall have authority to provide services but shall not have any authority to make decisions on permits. [2010 c 162 § 1; 2009 c 97 § 1; 2007 c 94 § 1; 2003 c 71 § 1; 2002 c 153 § 1.]

(a) Federal, state, and local rule-making processes and permitting and regulatory requirements applicable to Washington businesses and citizens;

(b) Federal, state, and local licenses, permits, and approvals necessary to start and operate a business or develop real property in Washington;

(c) State and local building codes;

(d) Federal, state, and local economic development programs that may be available to businesses in Washington; and

(e) State and local agencies regulating or providing assistance to citizens and businesses operating a business or developing real property in Washington.

(3) This section does not create an independent cause of action, affect any existing cause of action, or create any new

cause of action regarding the application of regulatory or permit requirements. [2007 c 94 § 5; 2003 c 71 § 4; 2002 c 153 § 5.]

43.42.050 Project scoping—Factors. (1) Upon request of a project proponent, the office must determine the level of project scoping needed by the project proponent, taking into consideration the complexity of the project and the experience of those expected to be involved in the project application and review process. The director may require the attendance at a scoping meeting of any state or local agency.

(2) Project scoping must consider the complexity, size, and needs for assistance of the project and must address as appropriate:

(a) The permits that are required for the project;

(b) The permit application forms and other application requirements of the participating permit agencies;

(c) The specific information needs and issues of concern of each participant and their significance;

(d) Any statutory or regulatory conflicts that might arise from the differing authorities and roles of the permit agencies;

(e) Any natural resources, including federal or state listed species, that might be adversely affected by the project and might cause an alteration of the project or require mitigation; and

(f) The anticipated time required for permit decisions by each participating permit agency, including the estimated time required to determine if the permit application is complete, to conduct environmental review, and to review and process the application. In determining the estimated time required, full consideration must be given to achieving the greatest possible efficiencies through any concurrent studies and any consolidated applications, hearings, and comment periods.

(3) The outcome of the project scoping must be documented in writing, furnished to the project proponent, and be made available to the public.

(4) The project scoping must be completed prior to the passage of sixty days of the project proponent's request for a project scoping unless the director finds that better results can be obtained by delaying the project scoping meeting or meetings to ensure full participation.

(5) Upon completion of the project scoping, the participating permit agencies must proceed under their respective authorities. The agencies may remain in communication with the office as needed.

(6) This section does not create an independent cause of action, affect any existing cause of action, or establish time limits for purposes of RCW 64.40.020. [2012 c 196 § 2; 2009 c 97 § 5; 2007 c 94 § 6; 2003 c 54 § 4; 2002 c 153 § 6.]

43.42.060 Fully coordinated permit process—Requirements—Procedure. (1) A project proponent may submit a written request to the director of the office for participation in a fully coordinated permit process. Designation as a fully coordinated project requires that:

(a) The project proponent enters into a cost-reimbursement agreement pursuant to RCW 43.42.070;

(b) The project has a designation under chapter 43.157 RCW; or

(c) The director determine that (i)(A) the project raises complex coordination, permit processing, or substantive permit review issues; or (B) if completed, the project would provide substantial benefits to the state; and (ii) the office, as well as the participating permit review agencies, have sufficient capacity within existing resources to undertake the full coordination process without reimbursement and without seriously affecting other services.

(2) A project proponent who requests designation as a fully coordinated permit process project must provide the office with a full description of the project. The office may request any information from the project proponent that is necessary to make the designation under this section, and may convene a scoping meeting or a work plan meeting of the likely participating permit agencies.

(3) When a project is designated for the fully coordinated permit process, the office must serve as the main point of contact for the project proponent and participating agencies with regard to the permit process for the project as a whole. Each participating agency must designate a single point of contact for coordinating with the office. The office must keep an up-to-date project management log and schedule illustrating required procedural steps in the permitting process, and highlighting substantive issues as appropriate that must be resolved in order for the project to move forward. In carrying out these responsibilities, the office must:

(a) Ensure that the project proponent has been informed of all the information needed to apply for the permits that are included in the coordinated permit process;

(b) Coordinate the timing of review for those permits by the respective participating permit agencies;

(c) Facilitate communication between project proponents, consultants, and agency staff to promote timely permit decisions;

(d) Assist in resolving any conflict or inconsistency among the permit requirements and conditions that are expected to be imposed by the participating permit agencies; and

(e) Make contact, at least once, with any local, tribal, or federal jurisdiction that is responsible for issuing a permit for the project and invite them to participate in the coordinated permit process or to receive periodic updates in the project.

(4) Within thirty days, or longer with agreement of the project proponent, of the date that the office designates a project for the fully coordinated permit process, it shall convene a work plan meeting with the project proponent and the participating permit agencies to develop a coordinated permit process schedule. The meeting agenda may include any of the following:

(a) Review of the permits that are required for the project;

(b) A review of the permit application forms and other application requirements of the agencies that are participating in the coordinated permit process;

(c) An estimation of the timelines that will be used by each participating permit agency to make permit decisions, including the estimated time periods required to determine if the permit applications are complete and to review or respond to each application or submittal of new information.

(2021 Ed.)

(i) The estimation must also include the estimated number of revision cycles for the project, or the typical number of revision cycles for projects of similar size and complexity.

(ii) In the development of this timeline, full attention must be given to achieving the maximum efficiencies possible through concurrent studies and consolidated applications, hearings, and comment periods.

(iii) Estimated action or response times for activities of the office that are required before or trigger further action by a participant must also be included;

(d) Available information regarding the timing of any public hearings that are required to issue permits for the project and a determination of the feasibility of coordinating or consolidating any of those required public hearings; and

(e) A discussion of fee arrangements for the coordinated permit process, including an estimate of the costs allowed by statute, any reimbursable agency costs, and billing schedules, if applicable.

(5) Each agency must send at least one representative qualified to discuss the applicability and timelines associated with all permits administered by that agency or jurisdiction. At the request of the project proponent, the office must notify any relevant local or federal agency or federally recognized Indian tribe of the date of the meeting and invite that agency's participation in the process.

(6) Any accelerated time period for the consideration of a permit application must be consistent with any statute, rule, or regulation, or adopted state policy, standard, or guideline that requires the participation of other agencies, federally recognized Indian tribes, or interested persons in the application process.

(7) If a permit agency or the project proponent foresees, at any time, that it will be unable to meet the estimated timelines or other obligations under the agreement, it must notify the office of the reasons for the problem and offer potential solutions or an amended timeline for resolving the problem. The office must notify the participating permit agencies and the project proponent and, upon agreement of all parties, adjust the schedule, or, if necessary, schedule another work plan meeting.

(8) The project proponent may withdraw from the coordinated permit process by submitting to the office a written request that the process be terminated. Upon receipt of the request, the office must notify each participating permit agency that a coordinated permit process is no longer applicable to the project. [2012 c 196 § 3. Prior: 2009 c 421 § 8; 2009 c 97 § 6; 2007 c 94 § 7; 2003 c 54 § 5; 2002 c 153 § 7.]

43.42.070 Cost-reimbursement agreements. (1) The office may enter into cost-reimbursement agreements with a project proponent to recover from the project proponent the reasonable costs incurred by the office in carrying out the provisions of this chapter. The agreement must include provisions for covering the costs incurred by the permit agencies that are participating in the cost-reimbursement project and carrying out permit processing or project review tasks referenced in the cost-reimbursement agreement.

(2) The office must maintain policies or guidelines for coordinating cost-reimbursement agreements with participating agencies, project proponents, and independent consul-

tants. Policies or guidelines must ensure that, in developing cost-reimbursement agreements, conflicts of interest are eliminated. The policies must also support effective use of cost-reimbursement resources to address staffing and capacity limitations as may be relevant within the office or participating permit agencies.

(3) For fully coordinated permit processes and priority economic recovery projects selected pursuant to this section, the office must coordinate the negotiation of all cost-reimbursement agreements executed under RCW 43.21A.690, 43.30.490, 43.70.630, 43.300.080, and 70A.15.1570. The office, project proponent, and participating permit agencies must be signatories to the cost-reimbursement agreement or agreements. Each participating permit agency must manage performance of its portion of the cost-reimbursement agreement. Independent consultants hired under a cost-reimbursement agreement must report directly to the hiring office or participating permit agency. Any cost-reimbursement agreement must require that final decisions are made by the participating permit agency and not by a hired independent consultant.

(4) For any project using cost reimbursement, the cost-reimbursement agreement must require the office and participating permit agencies to develop and periodically update a project work plan, which the office must provide on the internet and share with each party to the agreement.

(5)(a) The cost-reimbursement agreement must identify the proposed project, the desired outcomes, and the maximum costs for work to be conducted under the agreement. The desired outcomes must refer to the decision-making process and may not prejudice or predetermine whether decisions will be to approve or deny any required permit or other application. Each participating permit agency must agree to give priority to the cost-reimbursement project but may in no way reduce or eliminate regulatory requirements as part of the priority review.

(b) Reasonable costs are determined based on time and materials estimates with a provision for contingencies, or set as a flat fee tied to a reasonable estimate of staff hours required.

(c) The cost-reimbursement agreement may include deliverables and schedules for invoicing and reimbursement. The office may require advance payment of some or all of the agreed reimbursement, to be held in reserve and distributed to participating permit agencies and the office upon approval of invoices by the project proponent. The project proponent has thirty days to request additional information or challenge an invoice. If an invoice is challenged, the office must respond and attempt to resolve the challenge within thirty days. If the office is unable to resolve the challenge within thirty days, the challenge must be submitted to the office of financial management. A decision on such a challenge must be made by the office of financial management and approved by the director of the office of financial management and is binding on the parties.

(d) Upon request, the office must verify whether participating permit agencies have met the obligations contained in the project work plan and cost-reimbursement agreement.

(6) If a party to the cost-reimbursement agreement foresees, at any time, that it will be unable to meet its obligations under the agreement, it must notify the office and state the

reasons, along with proposals for resolving the problems. The office must notify the other parties to the cost-reimbursement agreement and seek to resolve the problems by adjusting invoices, deliverables, or the project work plan, or through some other accommodation. [2021 c 65 § 43; 2012 c 196 § 4; 2010 c 162 § 4; 2009 c 97 § 7; 2007 c 94 § 8; 2003 c 70 § 7; 2002 c 153 § 8.]

43.42.080 Participating permit agencies—Timelines.

With the agreement of all participating permitting agencies and the permit applicant or project proponent, state permitting agencies may establish timelines to make permit decisions, including the time periods required to determine that the permit applications are complete, to review the applications, and to process the permits. Established timelines shall not be shorter than those otherwise required for each permit under other applicable provisions of law, but may extend and coordinate such timelines. The goal of the established timelines is to achieve the maximum efficiencies possible through concurrent studies and consolidation of applications, permit review, hearings, and comment periods. A timeline established under this subsection with the agreement of each permitting agency shall commit each permitting agency to act within the established timeline. [2007 c 94 § 9; 2004 c 32 § 1.]

43.42.090 Multiagency permitting teams—Findings—Intent—Purpose.

(1) The legislature finds that the state of Washington has implemented a number of successful measures to streamline, coordinate, and consolidate the multiparty, multijurisdictional permitting and regulatory decision-making process. The office of regulatory assistance was developed and implemented at a time when the state faced a crisis in its economic competitiveness. The multiagency permitting team for transportation was developed and implemented at a time when the state's transportation system faced a crisis in public confidence concerning transportation project delivery. The legislature further finds that the state of Washington is now facing an economic and financial crisis that requires immediate action to spur economic development and the creation of jobs without sacrificing the quality of the state's environment.

(2) The legislature intends to:

(a) Draw from and extend the benefits of proven permit streamlining solutions to future project proponents and aid the state's recovery by authorizing optional multiagency permitting teams modeled after the multiagency permitting team developed and implemented for state transportation projects. It is the purpose of chapter 162, Laws of 2010 to provide willing permit applicants and project proponents with permit coordination and integrated regulatory decision-making services on a cost-reimbursed basis; and

(b) Phase-in a revenue-neutral permit streamlining approach to expedite permit and regulatory decision making while ensuring a high level of environmental protection. [2010 c 162 § 2.]

43.42.092 Multiagency permitting teams. (1)(a) The office of regulatory assistance is authorized to develop and advertise the availability of optional multiagency permitting teams to provide coordinated permitting and integrated regulatory decision making starting in the Puget Sound basin.

(b) New expenses associated with operating the optional multiagency permitting teams must be recovered by the office of regulatory assistance using existing state cost-reimbursement and interagency cost-sharing authorities as applicable. The cost-reimbursement process is subject to the requirements and limitations set forth in RCW 43.42.070. Initial administrative costs and other costs that may not be recoverable through cost-reimbursement or cost-sharing mechanisms may be covered by funds from the multiagency permitting team account created in RCW 43.42.095.

(c) The director of the office of regulatory assistance must solicit donations and such other funds as the director deems appropriate from public and private sources for the purposes of covering the initial administrative costs and other costs associated with operation of optional multiagency permitting teams which are not recoverable through cost-reimbursement or cost-sharing mechanisms. All such solicited funds must be placed in the multiagency permitting team account created in RCW 43.42.095.

(2) Optional multiagency permitting teams must be:

(a) Mobile, capable of traveling or working together as teams, initially throughout the Puget Sound basin;

(b) Located initially in central Puget Sound;

(c) Staffed by appropriate senior-level permitting and regulatory decision-making personnel representing the Washington state departments of ecology, fish and wildlife, and natural resources and having expertise in regulatory issues relating to the project; and

(d) Managed by the office of regulatory assistance through a team leader responsible for:

(i) Managing or monitoring team activities to ensure the cost-reimbursement schedule and agreement is followed;

(ii) Developing and maintaining partnerships and working relationships with local, state, tribal, and federal organizations not core to the optional multiagency permitting teams that can be called upon to join the team on a project-by-project basis;

(iii) Developing, defining, and providing a set of coordinated permitting and integrated decision-making services consistent with those set forth in subsection (3) of this section;

(iv) Developing and executing funding agreements with applicants, project proponents, regulatory agencies, and others as necessary to ensure the financial viability of the optional multiagency permitting teams;

(v) Measuring and regularly reporting on team performance, results and outcomes achieved, including improved: Permitting predictability, interagency early project coordination, interagency accessibility, interagency relationships, project delivery, and environmental results, including the avoidance or prevention of environmental harm and the effectiveness of mitigation;

(vi) Conducting outreach, marketing, and advertising of team services and team availability, focusing initially on projects such as large-scale public, private, and port development projects with complex aquatics, wetland, or other envi-

ronmental impacts; environmental cleanup, restoration, and enhancement projects; aquaculture projects; and energy, power generation, and utility projects;

(vii) Implementing issue and dispute resolution protocols;

(viii) Incorporating and using virtual tools for online collaboration to support permitting and regulatory coordination and expedited decision making; and

(ix) Extending and subsequently implementing the optional multiagency permitting team approach to other significant geographic regions of the state.

(3) The optional multiagency permitting teams must at a minimum work with the office of regulatory assistance to provide the following core services:

(a) Project scoping, as set forth in RCW 43.42.050 (1) through (4), to help applicants identify applicable permits and regulatory approvals;

(b) A preapplication coordination service, which may be combined with project scoping, to help applicants understand applicable requirements and plan out with the assistance of the regulatory agencies an optimally sequenced permitting and regulatory decision-making strategy and approach for the overall project;

(c) Fully coordinated project review as set forth in RCW 43.42.060 to set schedules and agreed-upon time frames for the applicant and regulatory decision makers consistent with statutory requirements and with regard to available agency resources and to track, monitor, and report progress made in meeting those schedules and time frames;

(d) Mitigation coordination to help applicants and regulatory agencies collaborate on and implement mitigation obligations within a watershed context so superior environmental results can be achieved when impacts cannot be avoided or further minimized.

(4) Local and federal permitting and regulatory personnel should be incorporated into the optional multiagency permitting teams whenever possible and at least on a project-by-project basis. Moneys recouped through state cost-reimbursement and interagency cost-sharing authorities, or as otherwise solicited for deposit into the multiagency permitting team account created in RCW 43.42.095, may also be used to cover local and federal participation.

(5) The optional multiagency permitting teams will provide services for complex projects requiring multiple permits and regulatory approvals and having multiple points of regulatory jurisdiction. The optional multiagency permitting teams are not intended to support state transportation projects specifically established for state transportation projects. Use of the optional multiagency permitting teams for a fully coordinated permit process must be allowed unless the office of regulatory assistance notifies a project proponent in writing of other means of effective and efficient project review that are available and are recommended. [2010 c 162 § 3.]

43.42.095 Multiagency permitting team account. The multiagency permitting team account is created in the custody of the state treasurer. All receipts from cost-reimbursement agreements authorized in RCW 43.42.070 and solicitations authorized in RCW 43.42.092 must be deposited into

the account. Expenditures from the account may be used only for covering staffing, consultant, technology, and other administrative costs of multiagency permitting teams and other costs associated with multiagency project review and management that may arise. Only the director of the office of regulatory assistance or the director's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures. [2012 c 196 § 5; 2010 c 162 § 5.]

43.42.100 Streamlined process certification. Within available funds, the office of regulatory assistance may certify permit processes at the local level as streamlined processes. In developing the certification program, the director must work with local jurisdictions to establish the criteria and the process for certification. Jurisdictions with permit processes certified as streamlined may receive priority in receipt of state funds for infrastructure projects. [2012 c 196 § 8.]

43.42.900 Jurisdiction of energy facility site evaluation council not affected. Nothing in this chapter affects the jurisdiction of the energy facility site evaluation council under chapter 80.50 RCW. [2002 c 153 § 11.]

43.42.901 Authority of permit agencies not affected.

(1) Nothing in this chapter shall be construed to abrogate or diminish the functions, powers, or duties granted to any permit agency by law.

(2) Nothing in this chapter grants the office authority to decide if a permit shall be issued. The authority for determining if a permit shall be issued shall remain with the permit agency. [2002 c 153 § 12.]

43.42.902 Authority of participating permit agency retained. This chapter shall not be construed to limit or abridge the powers and duties granted to a participating permit agency under the law that authorizes or requires the agency to issue a permit for a project. Each participating permit agency shall retain its authority to make all decisions on all nonprocedural matters with regard to the respective component permit that is within its scope of its responsibility including, but not limited to, the determination of permit application completeness, permit approval or approval with conditions, or permit denial. The office may not substitute its judgment for that of a participating permit agency on any such nonprocedural matters. [2009 c 97 § 13.]

43.42A.005 Intent—Finding. On December 30, 2013, the Washington state auditor's office issued a performance audit report, finding that state agencies could shorten the time it takes to submit, review, and make decisions on business permit applications through simple improvements. In response to the performance audit findings, the legislature intends to improve the predictability and efficiency of permit decisions by making information about permitting assistance and timelines more readily available to the public. The legislature finds that providing citizens and businesses with better information about permit decisions will assist their planning and decision making, promoting economic development. Making permit performance data readily accessible to citizens helps them hold government accountable to a high level of customer service and timeliness. Finally, requiring agencies to track the time it takes to issue permits equips agency leaders with key information that can assist them in improving overall project schedules, better allocating resources, and identifying additional opportunities to better serve the public. [2014 c 68 § 1.]

43.42A.020 Inventory of business permits—Information to be tracked and recorded—Performance data—Reports. (1) By June 30, 2014, each agency shall prepare and submit to the office an inventory of all the business permits indicated in the December 30, 2013, performance audit report by the state auditor.

(2)(a) Each agency shall track and record the time it takes to make permitting decisions.

(b) Agencies are encouraged to track all relevant information that can assist Washington businesses in determining how long a permit process will take so that the businesses may successfully plan their activities and make sound investment choices, reduce permitting costs to the taxpayers in the

form of unnecessary or duplicate staff work, and avoid permitting decision delays that can result in higher costs and lost revenue.

(c) At a minimum, each agency shall track and record the following information for each permit application it receives or decision it issues:

(i) The application completion time, which is the time elapsed from the initial submission of an application by an entity seeking a permit to the time at which the agency has determined that the application is complete; and

(ii) The permit decision time, which is the time elapsed from receipt of a complete application to the agency's issuance of a decision approving or denying the permit.

(3) Each agency shall calculate, for each permit it has identified in its inventory, the following performance data:

(a) The average application completion and permit decision times for each permit, as measured by the times tracked for ninety percent of applications or permit decisions, excluding the five percent that took the shortest and the five percent that took the longest;

(b) The maximum application completion time, excluding applications that were withdrawn or never completed; and

(c) The maximum permit decision time.

(4) Each agency shall report to the office, as provided in this subsection (4).

(c) In each of the reports required under this section, each agency shall submit an updated inventory of permits. Each agency shall identify any permits listed in its inventory for which the agency has not yet posted permit processing times and other information as required under RCW 43.42A.030 and an estimated date for such posting prior to June 30, 2015.

(5) The office shall make available to the legislature, upon request, the individual agency reports submitted under subsection (4) of this section. [2014 c 68 § 3.]

43.42A.030 Information available to permit applicants—Links from agencies' web sites to office of regulatory assistance's web site—Central repository of information—Searchability of information on central repository.

(1) To provide meaningful customer service that informs project planning and decision making by the citizens and businesses served, each agency must make available to permit applicants the following information through a link from the agency's web site to the office's web site, as provided in subsection (4) of this section:

(a) A list of the types of permit assistance available and how such assistance may be accessed;

(b) An estimate of the time required by the agency to process a permit application and issue a decision;

(c) Other tools to help applicants successfully complete a thorough application, such as:

(i) Examples of model completed applications;

(ii) Examples of approved applications, appropriately redacted to remove sensitive information; and

(iii) Checklists for ensuring a complete application.

(2) Each agency shall update at reasonable intervals the information it posts pursuant to this section.

(3)(a) Agencies must post the information required under subsection (1) of this section for all permits as soon as practicable, and no later than the deadlines established in this section.

(b) The agency shall post the permit inventory for that agency and the information required under subsection (1)(a) and (c) of this section no later than June 30, 2014.

(c) The agency shall post the estimates of application completion and permit decision times required under subsection (1)(b) of this section based on actual data for calendar year 2015 by March 1, 2016, and update this information for the previous calendar year, by March 1st of each year thereafter.

(d) Agencies must consider the customer experience in ensuring all permit assistance information is simple to use, easy to access, and designed in a customer-friendly manner.

(4) To ensure agencies can post the required information online with minimal expenditure of agency resources, the office of the chief information officer shall, in consultation with the office of regulatory assistance, establish a central repository of this information, hosted on the office of regulatory assistance's web site. Each agency shall include at least one link to the central repository from the agency's web site. Agencies shall place the link or links in such locations as the agency deems will be most customer-friendly and maximize accessibility of the information to users of the web site.

(5) The office shall ensure the searchability of the information posted on the central repository, applying industry best practices such as search engine optimization, to ensure that the permit performance and assistance information is readily findable and accessible by members of the public. [2014 c 68 § 4.]

43.42A.040 Comprehensive progress report—Identification of permits with processing and decision times that are most improved and those most in need of improvement.

(1) By September 30th of 2016 and each even-numbered year thereafter up to and including 2020, the office shall publish a comprehensive progress report to the economic development committees of the house of representatives and the senate and to the governor on the performance of agencies in tracking permit timelines and other efforts to improve clarity and predictability of regulatory permitting. The report must include at a minimum for each agency a summary of the data reported by the agency to the office under RCW 43.42A.020(4).

(2) The office shall post the comprehensive progress report on its web site. The report must be easily accessible and designed in a customer-friendly format.

(3) Beginning with the 2016 report, the office must identify permits with processing and decision times that are most improved and processing and decision times that are most in need of improvement, as indicated by the performance data collected under RCW 43.42A.020. Each agency may include a statement describing any process improvements the agency

has identified for implementation in order to improve processing and decision times. [2014 c 68 § 5.]
