

board. After consultation with a physician and the United States coast guard, the board shall establish minimum health standards to ensure that pilots licensed by the state are able to perform their duties. Within ninety days of the date of each annual physical examination, and after review of the physician's report, the board shall make a determination of whether the pilot or candidate is fully able to carry out the duties of a pilot under this chapter.

(7) The board shall prescribe, pursuant to chapter 34.05 RCW, a number of familiarization trips, between a minimum number of twenty-five and a maximum of one hundred, which pilot applicants must make in the pilotage district for which they desire to be licensed. Familiarization trips any particular applicant must make are to be based upon the applicant's vessel handling experience.

(8) The board may prescribe vessel simulator training for a pilot applicant, or pilot subject to RCW 88.16.105, as it deems appropriate, taking into consideration the economic cost of such training, to enhance that person's ability to perform pilotage duties under this chapter.

(9) The board shall prescribe, pursuant to chapter 34.05 RCW, such reporting requirements and review procedures as may be necessary to assure the accuracy and validity of license and service claims, and records of familiarization trips of pilot candidates. Willful misrepresentation of such required information by a pilot candidate shall result in disqualification of the candidate.

Passed the Senate March 5, 1990.

Passed the House February 27, 1990.

Approved by the Governor March 19, 1990.

CHAPTER 113

[Senate Bill No. 6866]

FIELD AND TURF GRASS SEED PRODUCTION RESEARCH FEES

AN ACT Relating to research for field and turf grass seed production; and amending RCW 70.94.656.

Be it enacted by the Legislature of the State of Washington:

Sec. 1. Section 7, chapter 193, Laws of 1973 1st ex. sess. as amended by section 69, chapter 57, Laws of 1985 and RCW 70.94.656 are each amended to read as follows:

It is hereby declared to be the policy of this state that strong efforts should be made to minimize adverse effects on air quality from the open burning of field and turf grasses grown for seed. To such end this section is intended to promote the development of economical and practical alternate

agricultural practices to such burning, and to provide for interim regulation of such burning until practical alternates are found.

(1) The department shall approve of a study or studies for the exploration and identification of economical and practical alternate agricultural practices to the open burning of field and turf grasses grown for seed. Prior to the issuance of any permit for such burning under RCW 70.94.650, there shall be collected a fee not to exceed ~~((fifty cents))~~ one dollar per acre of crop to be burned. Any such fees received by any authority shall be transferred to the department of ecology. The department of ecology shall deposit all such acreage fees in a special grass seed burning research account, hereby created, in the state treasury. All earnings of investments of balances in the special grass seed burning research account shall be credited to the general fund. The department shall allocate moneys annually from this account for the support of any approved study or studies as provided for in this subsection. For the conduct of any such study or studies, the department may contract with public or private entities: PROVIDED, That whenever the department of ecology shall conclude that sufficient reasonably available alternates to open burning have been developed, and at such time as all costs of any studies have been paid, the grass seed burning research account shall be dissolved, and any money remaining therein shall revert to the general fund.

(2) Whenever on the basis of information available to it, the department after public hearings have been conducted wherein testimony will be received and considered from interested parties wishing to testify shall conclude that any procedure, program, technique, or device constitutes a practical alternate agricultural practice to the open burning of field or turf grasses grown for seed, the department shall, by order, certify approval of such alternate. Thereafter, in any case which any such approved alternate is reasonably available, the open burning of field and turf grasses grown for seed shall be disallowed and no permit shall issue therefor.

(3) Until approved alternates become available, the department or the authority may limit the number of acres on a pro rata basis among those affected for which permits to burn will be issued in order to effectively control emissions from this source.

(4) Permits issued for burning of field and turf grasses may be conditioned to minimize emissions insofar as practical, including denial of permission to burn during periods of adverse meteorological conditions.

Passed the Senate February 13, 1990.

Passed the House March 1, 1990.

Approved by the Governor March 19, 1990.

Filed in Office of Secretary of State March 19, 1990.
