(1) COMMUNITY SERVICES

General Fund Appropriation—State . . . . .	\$	<del>((168,222,000))</del>	
			<u>177,613,000</u>
General Fund Appropriation—Federal . . . . .	\$	<del>((91,552,000))</del>	
			<u>94,432,000</u>
General Fund Appropriation—Local . . . . .	\$	<del>((3,360,000))</del>	
			<u>3,753,000</u>
Total Appropriation . . . . .	\$	<del>((263,134,000))</del>	<u>275,708,000</u>

The appropriations in this subsection are subject to the following conditions and limitations:

(a) A maximum of ~~\$((33,012,000))~~ 35,212,000 of the general fund—state appropriation and ~~\$((16,057,000))~~ 17,127,000 of the general fund—federal appropriation are provided for approved regional network plans through contracts negotiated with the secretary of social and health services.

(i) It is the intent of the legislature to implement mental health reform on a multi-year schedule. Dramatic escalation of costs for new programs would impair the state's ability to proceed with subsequent expansion. The contracts shall contain a fiscal plan that will ensure that the increased cost of maintaining fiscal year 1991 programs in fiscal year 1992 will not unduly exceed the rate of inflation. Of the amounts provided in this subsection, a maximum of \$500,000 from the general fund—state appropriation may be used for planning and technical assistance grants to counties or regions wishing to form networks. The amounts in this subsection include moneys needed to implement the federal omnibus budget and reconciliation act of 1987 ("OBRA"). First priority for necessary mental health services shall be given to individuals transferred from nursing homes because of OBRA. Such services shall be consistent with an individual's discharge plan and shall include residential services, if needed. Assumptions regarding the number of transfers from the nursing homes shall be incorporated into each contract and shall be consistent with the state-wide plan. The department shall coordinate OBRA transfers consistent with the provisions of each contract. ~~((The secretary shall negotiate contracts with networks from areas comprising no more than two-thirds of the state's population. Contracts shall be negotiated in at least two competitive rounds. The first round of contracts shall be effective no later than January 1, 1990. The last round of contracts shall be effective no later than March 1, 1990.))~~ The secretary shall negotiate contracts only with regional support networks that received recognition under chapter 205, Laws of 1989 as of January 1, 1990. Funding for the north sound and north central networks shall commence no sooner than January 1, 1991. Networks funded after January 1990 shall be

subject to the same contracting process as networks funded in January 1990.

(ii) The department shall continue contracting directly for the Kitsap mental health services residential care alternative project until such time as Kitsap county becomes or joins a regional support network. The reimbursement rate per available bed-day shall not exceed \$206 in fiscal year 1990 and \$210 in fiscal year 1991. During the contract period, all eligible involuntary treatment referrals for Kitsap county residents shall be made to the project. No involuntary referrals shall be made to western state hospital unless the Kitsap residential treatment facility is filled to capacity and the mental health division and the Kitsap county mental health coordinator concur with the referral. Priority for referral to western state hospital shall be given to individuals under ninety-day or one hundred eighty-day commitments and individuals who have exhausted all community placement options.

(iii) The department may continue to contract directly with Chartley house until King county joins or becomes a regional support network.

**(iv) The department's contracts with regional support networks shall include a provision for the transfer or diversion of mentally ill individuals from nursing homes when those individuals are not in need of a nursing home level of care. No individual shall be transferred without his or her consent or the consent of his or her guardian. Networks shall develop outreach and orientation protocols to encourage mentally ill individuals who might otherwise reside in nursing homes to reside in appropriate community settings supported by the network. The networks shall report the number of individuals diverted or transferred from nursing homes to network placements. The department shall report the same information for nonnetwork areas. The department shall make summary reports to the fiscal committees of the legislature on a quarterly basis.**

(b) \$2,000,000 of the general fund—state appropriation is provided solely for a mental health housing reserve. The secretary of social and health services shall transfer funds from the reserve to the state hospitals in any quarter in which hospital census exceeds the December 1988 forecast adjusted to eliminate the bed contract assumption. Any amount remaining after March 1991 may be used for one-time grants. In making grants, the secretary shall give priority to proposals that facilitate network development, demonstrate integration with other mental health services, and are designed to reduce involuntary treatment.

(c) \$5,500,000 of the general fund—state appropriation is provided solely for increases for involuntary treatment act administration, including costs associated with involuntary medication hearings.

(d) \$2,700,000 of the general fund—state appropriation is provided solely for information system requirements associated with chapter 205, Laws of 1989. Authority to expend funds for the client information system

is conditioned on compliance with section 802, chapter 19, Laws of 1989 1st ex. sess.

(c) \$600,000 of the general fund—state appropriation and \$400,000 of the general fund—federal appropriation are provided solely for increasing local hospital outlier payments.

(f) \$1,400,000 of the general fund—state appropriation and \$500,000 of the general fund—federal appropriation are for community mental health services for children. Priority for the remaining moneys shall be given to maintaining Title XIX eligibility for children's outpatient services at risk of losing federal financial participation because of lack of state match.

(g) \$3,509,000 of the general fund—state appropriation and \$1,322,000 of the general fund—federal appropriation are for vendor rate increases for vendors providing services to the mental health program, as specified in section 202 of this act.

(h) \$165,000 of the general fund—state appropriation is provided solely for a pilot project on the delivery of children's mental health services. The amount provided in this subsection is contingent on receipt by the department of \$393,000 from private sources.

(i) \$1,500,000 of the general fund—state appropriation and \$720,000 of the general fund—federal appropriation are provided solely for the enhancement of children's mental health services. The department shall contract with networks and counties through separate performance-based contracts. Contracts shall include a provision expanding services for underserved or difficult-to-service children, including minorities. Applications from counties and networks shall include endorsements from affected school districts, child welfare agencies, juvenile court systems, and tribes. Of these amounts, \$200,000 is provided solely for the development of a state-wide action plan for children's mental health. The plan shall include strategies to reduce duplicate case management. It shall recommend changes, if necessary, to mental health statutes and other statutes to accommodate children's special needs and circumstances. It shall include proposals to increase access and availability of culturally relevant mental health services for minority children. It shall propose a protocol for client referrals from educational and social service agencies and a cross-system collaborative process for ranking those referrals. In developing the plan, the department shall involve representatives of the education, juvenile justice, child welfare, and mental health systems. The department shall present the plan by December 1, 1990, to the appropriate program and fiscal committees of the house of representatives and the senate.

(j) \$500,000 of the general fund—state appropriation is provided solely for a comprehensive community-based pilot program for the prevention of community violence:

(i) The pilot program shall be established through a competitive selection process and shall provide for coordination between local law enforcement agencies and courts, local government, domestic violence and victims' support programs, regional support networks, public health agencies, health care providers, schools, and relevant programs within state agencies. The program shall designate a lead agency and develop written interagency agreements to provide a coordinated continuum of services. The pilot program shall make every effort to preserve existing violence intervention programs and coordinate available funding for services related to community violence prevention and services to victims of violence.

(ii) The pilot program shall provide at least the following services: Services to family members who are victims of violence; services to victims of violent crime; case management services; specialized intervention programs for treatment of perpetrators of violence; parenting and caregiver training to families experiencing or at-risk of experiencing violence; and public education regarding community violence.

(iii) Twenty-five percent of the funding for the pilot program shall be provided in-kind or in cash by public or private entities in the community administering the pilot program.

(2) \$3,200,000 of the general fund—state appropriation is provided solely to enhance respite care services.

(3) The department shall provide personal care services for Title XIX categorically eligible persons, effective July 1, 1989. Personal care services shall be provided to eligible persons with one or more personal care needs who meet program eligibility standards established by rule pursuant to chapter 34.05 RCW.

(4) \$2,100,000 of the general fund—state appropriation and \$700,000 of the general fund—federal appropriation are provided solely to increase medical benefits for contracted chore service workers, contracted personal care workers, and contracted COPES workers.

(6) At least \$16,050,420 of the general fund—state appropriation shall initially be allotted for implementation of the senior citizens services act. However, at least \$1,265,000 of this amount shall be used solely for programs that use volunteer workers for the provision of chore services to persons whose need for chore services is not being met by the chore services program.

(10) \$500,000 of the general fund—state appropriation is provided solely to enhance quality assurance for adult family homes through enhanced survey, licensing, and contracted consultation activities. If House Bill No. 1968 is not enacted by June 30, 1989, the amount provided in this subsection shall lapse.

(11) In addition to the adjustments for inflation set forth in subsection (1) of this section, \$1,410,000 of the general fund—state appropriation and \$1,590,000 of the general fund—federal appropriation are provided solely for a special prospective inflation adjustment for the nursing services cost center. The special adjustment shall go into effect July 1, 1989, and shall be set at a level to ensure that the amount provided in this subsection is sufficient to fund the special adjustment through June 30, 1991. The special adjustment shall be used only to fund wages and benefits and shall not be used to fund nursing pool expenses. The legislature finds that medicaid reimbursement rates, in every cost center and rate period, are and have been adequate, without enhancements, to meet costs that must be incurred by economically operated nursing care in compliance with all state or federal health and safety standards.

If necessary, the increase shall be granted from state funds only. In no case shall the annual value of the rate increase exceed \$50,000. The rate adjustment in this subsection shall not be implemented if it jeopardizes federal matching funds for qualifying facilities or the long-term care program in general.

(14) It is the intent of the legislature that mentally ill persons who are determined by the department not to be in need of a nursing home level of care shall be referred where possible to the regional support networks or,

where no network exists, to the mental health division for appropriate residential services. The department shall adopt procedures for these referrals.

(i) For remote and necessary schools enrolling students in any grades nine through twelve but no more than twenty-five average annual full time equivalent kindergarten through twelfth grade students, four and one-half certificated instructional staff units and one-quarter of a certificated administrative staff unit;

(ii) For all other small high schools under this subsection, nine certificated instructional staff units and one-half of a certificated administrative staff unit for the first sixty average annual full time equivalent students, and additional staff units based on a ratio of 0.8732 certificated instructional staff units and 0.1268 certificated administrative staff units per each additional forty-three and one-half average annual full time equivalent students.

Units calculated under ~~((f))~~ (g)(ii) of this subsection shall be reduced by certificated staff units at the rate of forty-six certificated instructional staff units and four certificated administrative staff units per thousand vocational and handicapped full time equivalent students.

~~((g))~~ (h) For each nonhigh school district having an enrollment of more than seventy annual average full time equivalent students and less than one hundred eighty students, operating a grades K-8 program or a grades 1-8 program, an additional one-half of a certificated instructional staff unit.

~~((h))~~ (i) For each nonhigh school district having an enrollment of more than fifty annual average full time equivalent students and less than one hundred eighty students, operating a grades K-6 program or a grades 1-6 program, an additional one-half of a certificated instructional staff unit.

(3) Allocations for classified salaries for the 1989-90 and 1990-91 school years shall be calculated using formula-generated classified staff units determined as follows:

(a) For enrollments generating certificated staff unit allocations under subsections (2) ~~((d))~~ (c) through ~~((h))~~ (i) of this section, one classified staff unit for each three certificated staff units allocated under such subsections.

(b) For all other enrollment in grades kindergarten through twelve, including vocational but excluding handicapped full time equivalent enrollments, one classified staff unit for each sixty average annual full time equivalent students.

(c) For each nonhigh school district with an enrollment of more than fifty annual average full time equivalent students and less than one hundred eighty students, an additional one-half of a classified staff unit.

(4) Fringe benefit allocations shall be calculated at a rate of 19.80 percent in the 1989-90 school year and 19.85 percent in the 1990-91 school year of certificated salary allocations provided under subsection (2) of this section, and a rate of 17.32 percent in the 1989-90 school year and 17.37 percent in the 1990-91 school year of classified salary allocations provided under subsection (3) of this section.

(5) Insurance benefit allocations shall be calculated at the rates specified in section 505 of this act, based on:

(a) The number of certificated staff units determined in subsection (2) of this section; and

(b) The number of classified staff units determined in subsection (3) of this section multiplied by 1.152. This factor is intended to adjust allocations so that, for the purposes of distributing insurance benefits, full time equivalent classified employees may be calculated on the basis of 1440 hours of work per year, with no individual employee counted as more than one full time equivalent.

(6)(a) For nonemployee related costs associated with each certificated staff unit allocated under subsection (2) (a), (b), (c), and ~~((d))~~ (e) through ~~((h))~~ (i) of this section, there shall be provided a maximum of \$6,355 per certificated staff unit in the 1989-90 school year and a maximum of \$6,654 per certificated staff unit in the 1990-91 school year.

(b) For nonemployee related costs associated with each certificated staff unit allocated under subsection (2)~~((c))~~ (d) of this section, there shall be provided a maximum of \$12,110 per certificated staff unit in the 1989-90 school year and a maximum of \$12,679 per certificated staff unit in the 1990-91 school year.

(7) Allocations for substitute costs for classroom teachers shall be distributed at a maximum rate of \$290 per year for allocated classroom teachers. Solely for the purposes of this subsection, allocated classroom teachers shall be equal to the number of certificated instructional staff units

allocated under subsection (2) of this section, multiplied by the ratio between the number of actual basic education certificated teachers and the number of actual basic education certificated instructional staff reported state-wide for the 1987-88 school year.

(8) The superintendent may distribute a maximum of \$9,925,000 outside the basic education formula during fiscal years 1990 and 1991 as follows:

(a) For fire protection for school districts located in a fire protection district as now or hereafter established pursuant to chapter 52.04 RCW, a maximum of \$358,000 may be expended in fiscal year 1990 and a maximum of \$375,000 in fiscal year 1991.

(b) For summer vocational programs at skills centers, a maximum of \$1,321,000 may be expended in fiscal year 1990 and a maximum of \$1,599,000 may be expended in fiscal year 1991.

(c) A maximum of \$272,000 may be expended for school district emergencies.

(d) A maximum of \$6,000,000 is provided solely for the purchase of new and replacement vocational education equipment for use primarily in approved vocational-secondary and skill center programs. These moneys shall be allocated to school districts during the 1989-90 school year on the basis of full time equivalent enrollment in vocational programs.

(9) For the purposes of RCW 84.52.0531, the increase per full time equivalent student in state basic education appropriations provided under this act, including appropriations for salary and benefits increases, is 6.07 percent from the 1988-89 school year to the 1989-90 school year, and ((5.74)) 7.0 percent from the 1989-90 school year to the 1990-91 school year.

(10) (a) The superintendent of public instruction shall revise personnel reporting systems to include information on grade level assignments of basic education certificated instructional staff, by grade level groupings of K-3, 4-6, and 7-12. The superintendent of public instruction shall collect such information from school districts beginning in the 1989-90 school year. School districts may submit supplemental information on changes in staffing levels after the initial personnel report for each school year. Staffing ratios calculated under this subsection may recognize additional staff reported, prorated by the number of months of employment during the academic year.

(b) For each school year, the funding provided under subsection (2)(a) of this section shall be based on a ratio of fifty-one certificated instructional staff per thousand students in kindergarten through grade three only if the district documents an actual ratio of at least fifty-one full time basic education certificated instructional staff per thousand full time equivalent students at those grade levels. For any school district documenting a lower ratio, the funding provided under this section shall be based on the district's

actual K-3 ratio achieved in that school year, or the statutory minimum ratio established under RCW 28A.41.140(2)(c), if greater.

(c) School districts that had a ratio of fifty-one basic education certificated instructional staff per thousand students in kindergarten through grade three in the 1988-89 school year shall expend additional funding generated by the increase in staffing ratios provided in this section solely to improve staffing ratios in kindergarten through grade twelve.

(11) School districts shall use allocations for salaries and benefits generated under subsection (2)(b) of this section only to increase the district's ratio of basic education certificated instructional staff per thousand full time equivalent students in grades K-3 above fifty-one per thousand, or to employ classified instructional assistants assigned to K-3 basic education classrooms. However, a district that has achieved a ratio of fifty-three basic education certificated instructional staff per thousand full time equivalent students in grades K-3 may also use the allocation to employ additional basic education certificated instructional staff or classified instructional assistants in any grades K-12. School districts shall document to the superintendent of instruction how the allocation was used and shall submit documentation on the number of classified instructional assistants employed in grades K-3 in the 1989-90 and 1990-91 school years. If a district uses moneys provided under subsection (2)(b) of this section for K-3 certificated instructional staff, these staff shall be excluded when determining the district's actual K-3 staffing ratio under subsection (10) of this section. A district shall be ineligible to receive allocations under subsection (2)(b) of this section unless the district documents to the superintendent of public instruction that its actual K-3 ratio under subsection (10) of this section for the 1990-91 school year is at least fifty-one full time basic education certificated instructional staff per thousand full time equivalent students. Districts may not use allocations provided under this subsection to supplant other moneys previously used to employ K-3 certificated instructional staff or K-3 classified instructional assistants. The superintendent of public instruction shall recover funding allocated under subsection (2)(b) of this section if the district does not submit documentation showing that the funding was used for the purposes specified.

(12) The additional moneys allocated due to the increase in the vocational-secondary staff ratio provided in subsection (2)(d) of this section shall be expended solely for expanded vocational-secondary programs approved by the superintendent of public instruction. Funds provided may be expended for extended day contracts. The percentage rate of indirect charges to vocational-secondary programs, in total, shall not exceed the state-wide average percentage rates of indirect charges in all other state-funded categorical programs.

NEW SECTION. Sec. 503. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION—SUPPLIES, MATERIALS, AND EQUIPMENT

General Fund Appropriation . . . . . \$ 43,000,000

The appropriation in this section is subject to the following conditions and limitations:

(1) Program enhancements funded pursuant to this section do not fall within the definition of basic education for purposes of Article IX of the state Constitution and the state's funding duty thereunder.

(2) \$38,000,000 is provided solely for the purchase of nonconsumable instructional supplies, equipment, books, and nonconsumable materials. The superintendent of public instruction shall allocate funds in fiscal year 1991 based on the full time equivalent enrollment in kindergarten through grade twelve. These funds shall not be used for supplemental contracts under RCW 28A.58.0951(4). A district receiving funds from this amount shall not reduce or supplant its current level of expenditure for supplies, equipment, or materials. From this amount, school districts are encouraged to maximize allocations provided directly to each school building, allowing school building-level staff to decide the use of the moneys and the specific items purchased.

(3) \$5,000,000 is provided solely for the purchase of new and replacement vocational-education equipment in fiscal year 1991 for use primarily in approved vocational-secondary and skill center programs. These moneys shall be allocated to school districts during the 1991 fiscal year on the basis of full time equivalent enrollment in vocational programs.

Sec. 504. Section 503, chapter 19, Laws of 1989 1st ex. sess. (uncodified) is amended to read as follows:

FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION—BASIC EDUCATION EMPLOYEE COMPENSATION INCREASES

General Fund Appropriation . . . . . \$ ((~~196,128,000~~))  
221,451,000

The appropriation in this section is subject to the following conditions and limitations:

(1) The following calculations determine the salaries used in the general fund allocations for certificated instructional, certificated administrative, and classified staff units under section 502 of this act:

(a) Salary allocations for certificated instructional staff units shall be determined for each district by multiplying the district's certificated instructional derived base salary shown on LEAP Document 12 by the district's average staff mix factor for basic education certificated instructional staff in that school year, computed using LEAP Document 1.

(b) Salary allocations for certificated administrative staff units and classified staff units shall be determined for each district by the district's certificated administrative and classified salary allocation amounts shown on LEAP Document 12.

(2)(a) Districts shall certify to the superintendent of public instruction such information as may be necessary regarding the years of service and educational experience of basic education certificated instructional employees for the purposes of calculating certificated instructional staff salary allocations pursuant to this section. Any change in information previously certified, on the basis of years of experience or educational credits, shall be reported and certified to the superintendent of public instruction at the time such change takes place.

(b) For the purposes of this section, "basic education certificated instructional staff" is defined as provided in RCW 28A.41.110.

(c) "LEAP Document 1" means the computerized tabulation establishing staff mix factors for basic education certificated instructional staff according to education and years of experience, as developed by the legislative evaluation and accountability program committee on August 18, 1987, at 13:26 hours.

(d) "LEAP Document 1R" means the computerized tabulation establishing staff mix factors for basic education certificated instructional staff according to education and years of experience, as developed on ~~((May 7, 1989))~~ March 29, 1990, at 11:00 hours.

(e) "LEAP Document 12" means the computerized tabulation of 1988-89 salary allocations for basic education certificated administrative staff and basic education classified staff and 1988-89 derived base salaries for basic education certificated instructional staff as developed on April 20, 1989, at 14:15 hours.

(f) The incremental fringe benefits factors applied to salary increases in this section shall be 1.1916 for certificated salaries and 1.1379 for classified salaries in the 1989-90 school year, and 1.1921 for certificated salaries and 1.1384 for classified salaries in the 1990-91 school year.

(3) ~~\$(7,492,000))~~ 7,517,000 is provided solely to increase allocations for certificated administrative staff units provided under section 502 of this act, pursuant to this subsection. For the 1989-90 and 1990-91 school years, the allocation for each certificated administrative staff unit shall be increased by 2.5 percent of the 1988-89 state-wide average certificated administrative salary shown on LEAP Document 12, multiplied by incremental fringe benefits.

(4) ~~\$(27,903,000))~~ 30,396,000 is provided solely to increase allocations for classified staff units provided under section 502 of this act, pursuant to this subsection. For the 1989-90 and 1990-91 school years, the allocation for each classified staff unit shall be increased by 4.0 percent of the 1988-89 state-wide average classified salary shown on LEAP Document

12, multiplied by incremental fringe benefits. For the 1990-91 school year, the allocation for each classified staff unit shall be further increased by an additional (~~(3.12)~~) 4.16 percent of the 1988-89 state-wide average classified salary shown on LEAP Document 12, multiplied by incremental fringe benefits.

(5) ~~\$(160,733,000)~~ 183,538,000 is provided solely to increase allocations for certificated instructional staff units provided under section 502 of this act, pursuant to this subsection:

(a) For any district with a derived base salary of \$17,600 on LEAP Document 12, the allocation for each certificated instructional staff unit in the 1989-90 school year shall be increased by the difference between:

(i) The district's salary allocation per certificated instructional staff unit computed under subsection (1)(a) of this section, adjusted for incremental fringe benefits; and

(ii) The district's 1989-90 average certificated instructional staff allocation salary as determined by placing the district's actual full time equivalent basic education certificated instructional staff on the state-wide salary allocation schedule established in subsection (6) of this section, adjusted for incremental fringe benefits.

(b) For any district with a derived base salary greater than \$17,600 on LEAP Document 12, the allocation for each certificated instructional staff unit in the 1989-90 school year shall be increased by 4.0 percent of the district's salary allocation per certificated instructional staff unit computed under subsection (1)(a) of this section, adjusted for incremental fringe benefits.

(c) For any district with a derived base salary of \$17,600 on LEAP Document 12, the allocation for each certificated instructional staff unit in the 1990-91 school year shall be increased by the difference between:

(i) The district's salary allocation per certificated instructional staff unit computed under subsection (1)(a) of this section, adjusted for incremental fringe benefits; and

(ii) The district's 1990-91 average certificated instructional staff allocation salary as determined by placing the district's actual full time equivalent basic education certificated instructional staff on the state-wide salary allocation schedule established in subsection (7) of this section, adjusted for incremental fringe benefits.

(d) For any district with a derived base salary greater than \$17,600 on LEAP Document 12, the allocation for each certificated instructional staff unit in the 1990-91 school year shall be increased by the difference between:

(i) The district's salary allocation per certificated instructional staff unit computed under subsection (1)(a) of this section, adjusted for incremental fringe benefits; and

(ii) The district's salary allocation per certificated instructional staff unit computed under subsection (1)(a) of this section multiplied by the compounded increase provided in this subsection, adjusted for incremental fringe benefits. The compounded increase for each district shall be 7.12 percent, compounded by the percentage difference between the district's average staff mix factor for actual 1990-91 full time equivalent basic education certificated instructional employees computed using LEAP Document 1R and such factor for the same 1990-91 employees computed using LEAP Document 1.

(6)(a) Pursuant to RCW 28A.41.112, the following state-wide salary allocation schedule for certificated instructional staff is established for basic education salary allocations for the 1989-90 school year:

(b) As used in this subsection, the column headings "BA+(N)" refer to the number of credits earned since receiving the baccalaureate degree.

(c) For credits earned after the baccalaureate degree but before the masters degree, any credits in excess of forty-five credits may be counted after the masters degree. Thus, as used in this subsection, the column headings "MA+(N)" refer to the total of:

(i) Credits earned since receiving the masters degree; and

(ii) Any credits in excess of forty-five credits that were earned after the baccalaureate degree but before the masters degree.

(8) For the purposes of this section:

(a) "BA" means a baccalaureate degree.

(b) "MA" means a masters degree.

(c) "PHD" means a doctorate degree.

(d) "Years of service" shall be calculated under the same rules used by the superintendent of public instruction for salary allocations in the 1988-89 school year.

(c) "Credits" means college quarter hour credits and equivalent in-service credits computed in accordance with RCW 28A.71.110.

(9) The salary allocation schedules established in subsections (6) and (7) of this section are for allocation purposes only. However, it is the legislature's intent to respond to salary needs of many senior teachers who have not been receiving salary increments on either state or local salary schedules. The legislature and the public recognize the need to provide salary growth for these senior teachers in order to encourage them to continue teaching. School districts should target moneys generated by the additional seniority steps provided for state salary funding in the 1990-91 school year to senior certification instructional staff. By December 1, 1990, each school district shall submit to the superintendent of public instruction a statement signed by the district's board of directors explaining how the moneys generated by the additional seniority steps were used and whether these moneys were targeted to senior staff.

Sec. 505. Section 504, chapter 19, Laws of 1989 1st ex. sess. (uncodified) is amended to read as follows:

FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION—CATEGORICAL PROGRAM SALARY INCREASES

Placement of students in magnet programs shall not be based on test scores or grades. Grants shall be expended solely for planning and promotional activities; acquisition of books, materials, and equipment needed specifically to implement magnet programs; staff training designed specifically to assist in the development of magnet programs; and certificated staff assigned to instructional programs that are in addition to the school's core basic skills curriculum and that are an integral part of the magnet program. Grants may not be used to supplant other moneys used previously for magnet schools, other than to offset reductions in total federal magnet school grants received by the district. The grants may be used for establishing new programs or for expanding existing programs, but may not be used for costs incurred more than twenty-four months after the establishment of a before- and after-school program at a particular site. No grant may support more than seventy-five percent of a district's program costs during the initial twenty-four months. The grants may be used for community needs assessments, planning and design of programs, equipment and supplies, capital improvements including portables, and compensation costs, for the first three months of employment only, for employees filling new positions. School districts shall be selected to receive grants based on documented demand for expansion of child care services and, in particular, demand from low-income families.

(18) If state-level administrative costs are necessary to implement subsections (13) through (17) of this section, the superintendent of public instruction shall not expend more than two percent from the moneys provided under subsections (13) through (17) of this section for state-level administrative costs.

In no case may this appropriation be used to close the salary gap to less than twenty percent of prevailing rate. None of these funds may be used to grant salary increases to the attendant counselor job classifications granted salary increases under subsection (8) of this section.

(7) \$1,455,000 of the general fund—state appropriation, \$395,000 of the general fund—federal appropriation, and \$40,000 of the special fund salary and insurance contribution increase revolving fund appropriation are provided solely to add five steps beyond step K to the salary schedule for registered nurses and related classifications, effective October 1, 1990. Each of the steps shall be two and one-half percent. Expenditure of these

amounts is contingent on approval by the state personnel board of the additional steps. These amounts shall be allocated as follows:

(a) \$86,000 from the general fund—state appropriation to the department of corrections;

(b) \$17,000 from the general fund—state appropriation to the department of health;

(c) \$40,000 from the general fund—state appropriation, \$40,000 from the general fund—federal appropriation, and \$40,000 from the special fund salary and insurance contribution increase revolving fund appropriation to the department of veterans' affairs; and

(d) \$1,312,000 from the general fund—state appropriation and \$355,000 from the general fund—federal appropriation to the department of social and health services.

(8) \$3,093,000 of the general fund—state appropriation and \$3,599,000 of the general fund—federal appropriation are provided solely for salary increases for attendant care counselors in the developmental disabilities program. These increases shall be implemented in two phases of the following amounts: Phase one—\$1,816,000 general fund—state and \$2,101,000 general fund—federal; and phase two—\$1,277,000 general fund—state and \$1,498,000 general fund—federal.

(9) \$215,000 of the insurance commissioner's regulatory account appropriation is provided solely to fund personnel reclassifications for compliance officers, analysts, and actuaries in the office of the insurance commissioner.

(10) To facilitate the transfer of moneys from dedicated funds and accounts, the state treasurer is directed to transfer sufficient moneys from each dedicated fund or account to the special fund salary and insurance contribution increase revolving fund in accordance with schedules provided by the office of financial management.

~~((5))~~ (11) In calculating individual agency allocations for this section, the office of financial management shall calculate the allocation of each subsection separately. The separate allocations for each agency may be combined under a single appropriation code for improved efficiency. The office of financial management shall transmit a list of agency allocations by subsection to the senate committee on ways and means and the house of representatives committee on appropriations.

~~((6))~~ (12) No salary increase may be paid under this section to any person whose salary has been Y-rated pursuant to rules adopted by the state personnel board.

~~((7) Moneys from the)~~ (13) \$4,470,000 of the special fund salary and insurance contribution increase revolving fund appropriation in this section may be expended for salary and benefit increases for ferry workers in accordance with the 1989-91 transportation appropriations act.

PART VIII  
MISCELLANEOUS

NEW SECTION. Sec. 801. This act is subject to the provisions, definitions, conditions, and limitations of chapter 19, Laws of 1989 1st ex. sess., as amended by this act.

Sec. 802. Section 7, chapter 40, Laws of 1982 1st ex. sess. as amended by section 4, chapter 60, Laws of 1983 1st ex. sess. and RCW 43.160.070 are each amended to read as follows:

(1) Public facilities loans and grants, when authorized by the board, are subject to the following conditions:

(a) The moneys in the public facilities construction loan revolving ~~((account))~~ fund shall be used solely to fulfill commitments arising from loans or grants authorized in this chapter or, during the 1989-91 fiscal biennium, for economic development purposes as appropriated by the legislature. The total outstanding amount which the board shall dispense at any time pursuant to this section shall not exceed the moneys available from the ~~((account))~~ fund. The total amount of outstanding loans and grants in Pierce, King, and Snohomish counties shall never exceed sixty percent of the total amount of outstanding loans and grants disbursed by the board.

(b) Financial assistance through the loans or grants may be used directly or indirectly for any facility for public purposes, including, but not

limited to, sewer or other waste disposal facilities, arterials, bridges, access roads, port facilities, or water distribution and purification facilities.

(c) On contracts made for public facilities loans the board shall determine the interest rate which loans shall bear. The interest rate shall not exceed ten percent per annum. The board may provide reasonable terms and conditions for repayment for loans as the board determines. The loans shall not exceed twenty years in duration.

(d) Repayments of loans made under the contracts for public facilities construction loans shall be paid into the public facilities construction loan revolving (~~account~~) fund.

(2) When every feasible effort has been made to provide loans and loans are not possible, the board may provide grants upon finding that unique circumstances exist.

NEW SECTION, Sec. 803. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION, Sec. 804. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately.

Passed the Senate April 1, 1990.

Passed the House April 1, 1990.

Approved by the Governor April 23, 1990, with the exception of certain items which were vetoed.

Filed in Office of Secretary of State April 23, 1990.

Note: Governor's explanation of partial veto is as follows:

"I am returning herewith, without my approval as to section 116(7), section 120(5), section 206(1)(a)(iv), section 207(1)(g), section 208(14), section 218(7), section 221(8), section 225(25), section 225(27), section 229(2)(c), section 229(3)(b), section 302(20), section 302(25), section 306(17), section 306(18), section 306(19), section 306(26), and section 705 of Substitute Senate Bill No. 6407 entitled:

"AN ACT Relating to fiscal matters."

My reasons for vetoing these sections are as follows:

Section 116(7)

This section directs the Office of Financial Management to study the Schools for the Deaf and Blind to determine the management organization and fiscal practices necessary for maximum operational and financial efficiency.

I am vetoing this item because these studies have already been done. Another study will not improve the operations of these schools. I will direct the Office of Financial Management to assist the schools to improve their efficiency and fiscal practices, but I do not feel another study at this time is needed.

Section 120(5)

Section 120(5) directs the Department of Revenue to immediately promulgate and implement a rule providing for fair and equitable applications of the business and occupation tax to persons engaged in business as tour operators. The Department has

processes in place through which any taxpayer or group of taxpayers can appeal their treatment under the state's tax laws and Administrative Code. I am vetoing this subsection because it constitutes an inappropriate intrusion into the appeal and due process provisions already present in tax law and the Washington Administrative Code.

Section 206(1)(a)(iv)

Section 206(1)(a)(iv) requires that mentally ill nursing-home residents who do not need a nursing-home level of care be transferred and provided services through regional support networks. Further, the person may not be transferred without his or her consent or consent of his or her guardian.

This requirement for consent is in conflict with federal Medicaid requirements for nursing-homes, as amended by the Omnibus Budget Reconciliation Act of 1987. The federal law requires that, in some cases, mentally ill nursing-home residents who do not need a nursing-home level of care must be discharged. Were the state to allow persons meeting the federal discharge criteria to reside in Medicaid-funded nursing-homes, the federal government would not share in the nursing home cost of care.

Section 207(1)(g)

This item directs that portions of the money appropriated in section 207 are provided solely for salary and benefit increases for employees of community-contracted facilities serving the developmentally disabled. The chairs of the legislative fiscal committees have indicated by letter that the intent of the Legislature was that these funds be provided only to residential facilities serving the developmentally disabled. Therefore, to ensure that these funds are expended as intended, I am vetoing this item and directing the Department of Social and Health Services to expend the funds to provide salary and benefit increases effective May 1, 1990, for employees of community-contracted residential facilities serving the developmentally disabled.

Section 208(14)

This subsection directs that mentally ill persons not in need of nursing home care may be referred to residences outside regional support networks. Senate Bill No. 5400 and the 1989 Biennial Budget bill directed the Department of Social and Health Services to implement the federal Omnibus Budget and Reconciliation Act of 1987 (OBRA). Senate Bill No. 5400 requires that funding be distributed to regional support networks for residential services for a variety of populations, including persons transferred from nursing homes. The budget bill appropriated all OBRA funding to the regional support networks. The Department, with legislative endorsement, is implementing OBRA beds incrementally in areas of the state with regional support networks. At this point of the biennium, the Department cannot shift course and reallocate funding differently and jeopardize programs being developed under the policies of Senate Bill No. 5400. I am vetoing this subsection to avoid this conflict.

Section 218(7)

This subsection restores chiropractic services to the medical assistance program but limits payments to ten treatments per recipient per twelve-month period. Limiting the number of chiropractic treatments by budget proviso is overly prescriptive. The Department of Social and Health Services intends to provide limited chiropractic services within the funds appropriated for this purpose. The Department has options to limit the number of treatments covered, which will ensure that the service can be provided within available funds. Within these general limits, the Department needs the ability to approve, on an exception basis, a greater number of treatments if it is determined to be medically necessary.

Section 221(8)

Section 221(8) limits to \$250,000 the amount of the General Fund-State appropriation that may be expended on the Automated Clients Eligibility System (ACES). If the cost of the project in this biennium exceeds the limit by any amount, the Department of Social and Health Services would not be able to continue with the project until review in the 1991 session.

The Department of Social and Health Services estimates the 1989-91 cost of ACES planning and development at \$339,000 General Fund-State. This estimate was provided to legislative staff, the Office of Financial Management, the Department of Information Services and the relevant federal agencies.

It is difficult to predict the federal match for the project. The amount of match currently assumed is tentative and could be revised by the participating federal agencies after the project is underway, making it impossible for the Department to guarantee that ACES expenditures will not exceed \$250,000 General Fund-State before executing a contract.

The Department will continue to comply with the requirements of section 802, chapter 19, Laws of 1989, 1st Extraordinary Session, which requires ongoing review of information system projects by the Department of Information Systems and the Office of Financial Management.

#### Section 225(25)

This subsection requires the Department of Community Development to establish a new and significant children's ombudsman program. I am vetoing this appropriation because \$90,000 is insufficient to create and properly administer a program of this scope. I will consider developing a budget item for inclusion in the 1991-93 biennium budget. The \$90,000 will be placed in reserve, and not used for any other purpose.

#### Section 225(27)

This subsection unduly restricts the Department of Community Development from adequately administering the Housing Trust Fund program by providing that none of the housing trust fund appropriation may be used for administrative expenses. While it is my expectation that the \$10 million appropriated will be expended on direct program activity, I am vetoing this subsection to make it clear that some of the interest earned on the \$10 million will be expended on administration, as allowed under the statute governing the Housing Trust Fund. The Department must have the ability to staff the program adequately in order to expedite the availability of these funds for local programs and to ensure that projects and contracts are monitored, that repayments be managed, and that site visits be conducted.

#### Section 229(2)(c)

This subsection states that the civil commitment of sexual predators pursuant to chapter 3, Laws of 1990, shall be at the Twin Rivers Corrections Center. Flexibility is needed to place the program where it can be operated most efficiently and effectively within the Monroe correctional facilities.

#### Section 229(3)(b)

Section 229(3)(b) provides prison impact funding. I recognize that some local jurisdictions may experience extraordinary costs relating to expansion of correctional institutions. The language of this subsection restricts the use of the appropriation to a few local jurisdictions for new purposes. In the interest of equitable distribution of impact funds, I am directing the Department of Corrections to develop revisions to the Washington Administrative Code that will specify how local jurisdictions are to be reimbursed for these new actual costs that are clearly related to offender populations.

#### Section 302(20)

Section 302(20)(a) provides \$600,000 for grants to local jurisdictions to develop local wetlands protection and management programs. Section 302(20)(b) provides \$600,000 to the Department of Ecology, contingent on a wetlands protection bill being enacted. The Legislature did not pass a wetlands protection bill, and if section 302(20)(b) remains, the funding will lapse.

In the absence of a comprehensive wetlands protection bill, this money is necessary for the Department of Ecology to more fully utilize existing authority to protect wetlands. I am vetoing this subsection and am directing the Department of Ecology

to use these funds for the stricter implementation and enforcement of current statutes and to provide a portion of the aforementioned grants to local jurisdictions.

Section 302(25)

Section 302(25) limits the Department of Ecology's June 1991 FTE level to not more than 154 above the agency's June 30, 1990, FTE level. This limitation on FTE growth unnecessarily limits the agency's ability to perform its required duties. The restriction on FTEs may not be sufficient to meet the Department of Ecology's growth assumed in the Supplemental Budget or those assumed in bills passed by the 1990 Legislature. In vetoing this section, I am directing the Department of Ecology to identify savings as a result of vacancies in Fiscal Year 1991 and directing that those savings remain unexpended.

Section 306(17)

Subsection 17 directs the Department of Community Development to implement a self-employment loan program as described in subsection 84 of Engrossed House Bill 2929. Encouraging self-employment as an option for dislocated and low-income individuals is a worthwhile idea. However, the Public Facilities Construction Loan Revolving Fund is an inappropriate funding source. These funds are legislatively dedicated for use by the Community Economic Revitalization Board. The fund is intended to be a renewable resource, originally capitalized through General Obligation Bonds, for economic development that requires expansion to local infrastructure. The Public Facilities Construction Loan Revolving Fund is needed for one-time projects in which there is critical need, and should not be used for programs that are clearly ongoing and operating in nature. The proposed self-employment loan program would be ongoing and would require support from the General Fund-State for continued operation in the next biennium.

Section 306(18)

Subsection 18 creates an industrial competitiveness program in the Department of Trade and Economic Development, as described in subsection 75 of Engrossed House Bill 2929. It is important to encourage the growth of value-added manufacturing in the state and to encourage smaller firms to work together to increase their competitiveness. However, again the Public Facilities Construction Loan Revolving Fund is an inappropriate funding source. These funds are legislatively dedicated for use by the Community Economic Revitalization Board. The fund is intended to be a renewable resource, originally capitalized through General Obligation Bond sales, for economic development that requires expansion to local infrastructure. The Public Facilities Construction Loan Revolving Fund is needed for one-time projects in which there is critical need, and should not be used for programs that are clearly ongoing and operating in nature. The industrial competitiveness program would be ongoing and would require support from the General Fund-State for continued operation in the next biennium. I am directing the Department of Trade and Economic Development to use existing general fund monies to provide assistance to facilitate efforts by small businesses to develop cooperative networks in order to increase their competitiveness.

Section 306(19)

Subsection 19 directs the Department of Community Development to provide grants for technical assistance for community-based organizations as described in subsection 83 of Engrossed House Bill 2929. Efforts to increase the capacity of community-based organizations in low-income communities are valuable and worthwhile. However, the provisions contained in this section are overly prescriptive and have the potential to reduce the effectiveness of the existing successful Local Development Matching Fund program. Once again, the Public Facilities Construction Loan Revolving Fund is an inappropriate funding source. These funds are legislatively dedicated for use by the Community Economic Revitalization Board. The fund is intended to be a renewable resource, originally capitalized through General Obligation Bonds, for economic development that requires expansion to local infrastructure. The Public Facilities Construction Loan Revolving Fund is needed for one-time projects in which there is critical need, and should not be used for programs that are

clearly ongoing and operating in nature. I am directing the Department of Community Development to explore opportunities to provide training and technical assistance to community-based organizations serving low-income rural and urban areas.

#### Section 306(26)

Subsection 26 provides for a review of state-supported advanced-technology and technology-transfer economic development activities. While I applaud the Legislature for examining these important issues, the language contained in section 76 of Engrossed House Bill 2929 is overly prescriptive given the size of the appropriation to support the review. I am directing the Department of Trade and Economic Development to utilize the available funds to evaluate existing state-supported applied research and technology transfer activities in the state. I am also directing the Department of Trade and Economic Development to conduct an initial examination of opportunities for collaboration between higher education, industry and the state as a way to increase the economic competitiveness of the state.

#### Section 705

This section forgives loans made to the cities of Federal Way and Sea-Tac that were supported by an Emergency Fund allocation to the Department of Community Development for that purpose. In modifying the Executive's decision in the matter of the allocation to the Department of Community Development in this way, the Legislature makes an unacceptable encroachment into gubernatorial authority and responsibility for the Governor's Emergency Fund.

With the exceptions of sections 116(7), 120(5), 206(1)(a)(iv), 207(1)(g), 208(14), 218(7), 221(8), 225(25), 225(27), 229(2)(e), 229(3)(b), 302(20), 302(25), 306(17), 306(18), 306(19), 306(26) and 705, Substitute Senate Bill No. 6407 is approved."
