NEW SECTION. Sec. 201. FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES. (1) Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose, except as expressly provided in subsection (3) of this section.

(2) The department of social and health services shall not initiate any services that will require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act.

The appropriations in this subsection are subject to the following conditions and limitations:

(a) Regional support networks shall use portions of the general fund--state appropriation for implementation of working agreements with the vocational rehabilitation program which will maximize the use of federal funding for vocational programs.
(b) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and adult services program for the general fund--state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(c) $388,000 of the general fund--state appropriation for fiscal year 2002, $1,927,000 of the general fund--state appropriation for fiscal year 2003, and $2,349,000 of the general fund--federal appropriation are provided solely for development and operation of community residential and support services for persons who are appropriately discharged from state psychiatric hospitals. In the event that there are not enough vacant beds at the state hospitals to close at least two hospital wards by July 2002, and two additional wards by April 2003, a proportional share of these funds shall be transferred to the appropriations in subsection (2) of this section to support continued care of the patients in the state hospitals. Primary responsibility and accountability for provision of appropriate community support for persons who would otherwise require long-term state hospital care shall reside with the mental health program and the regional support networks, with partnership and active support from the alcohol and substance abuse and from the aging and adult services programs.

(d) At least $1,000,000 of the federal block grant funding appropriated in this subsection shall be used for (i) initial development, training, and operation of the community support teams which will work with long-term state hospital residents prior and subsequent to their return to the community; and (ii) development of support strategies which will reduce the unnecessary and excessive use of state and local hospitals for short-term crisis stabilization services. Such strategies may include training and technical assistance to community long-term care and substance abuse providers; the development of diversion beds and stabilization support teams; examination of state hospital policies regarding admissions; and the development of new contractual standards to assure that the statutory requirement that 85 percent of short-term detentions be managed locally is being fulfilled. The department shall report to the fiscal and
policy committees of the legislature on the results of these efforts by
November 1, 2001, and again by November 1, 2002.

(e) The department is authorized to implement a new formula for
allocating available resources among the regional support networks.
The distribution formula shall use the number of persons eligible for
the state medical programs funded under chapter 74.09 RCW as the
primary measure of the population factors which are to be considered in
accordance with RCW 71.24.035(13)(a). The new formula shall be phased
in over a period of no less than six years. Furthermore, the
department shall increase the medicaid capitation rates which a
regional support network would otherwise receive under the formula by
an amount sufficient to assure that total funding allocated to the
regional support network in fiscal year 2002 increases by up to 2.2
percent over the amount actually paid to that regional support network
in fiscal year 2001, and by up to an additional 2.5 percent in fiscal
year 2003, if total funding to the regional support network would
otherwise increase by less than those percentages under the new
formula, and provided that the nonfederal share of the higher medicaid
payment rate is provided by the regional support network from local
funds.

(f) $125,000 of the general fund--state appropriation for fiscal
year 2002, $125,000 of the general fund--state appropriation for fiscal
year 2003, and $250,000 of the general fund--federal appropriation are
provided solely for a study of the prevalence of mental illness among
the state's regional support networks. The study shall examine how
reasonable estimates of the prevalence of mental illness relate to the
incidence of medicaid eligible persons in each regional support
network. In conducting its review, the division of mental health shall
consult with the joint legislative audit and review committee, the
regional support networks, community mental health providers, and
mental health consumer representatives. The department shall provide
sufficient resources, through an interagency agreement, for the joint
legislative audit and review committee to review all aspects of the
study, including but not limited to the request for proposals; the
selection of contractor(s); the study design and workplan; the
implementation of the study; and the draft and final reports. The
division shall contract for consulting services in conducting this
study. The division shall submit a final report to the fiscal, health

care, and human services committees of the legislature by November 1,

2003.

(g) Within funds appropriated in this subsection, the department

shall contract with the Clark county regional support network for

development and operation of a project demonstrating collaborative

methods for providing intensive mental health services in the school

setting for severely emotionally disturbed children who are medicaid

eligible. Project services are to be delivered by teachers and

teaching assistants who qualify as, or who are under the supervision

of, mental health professionals meeting the requirements of chapter

275-57 WAC. The department shall increase medicaid payments to the

regional support network by the amount necessary to cover the necessary

and allowable costs of the demonstration, not to exceed the upper

payment limit specified for the regional support network in the

department's medicaid waiver agreement with the federal government

after meeting all other medicaid spending requirements assumed in this

subsection. The regional support network shall provide the department

with (i) periodic reports on project service levels, methods, and

outcomes; and (ii) an intergovernmental transfer equal to the state

share of the increased medicaid payment provided for operation of this

project.

TOTAL APPROPRIATION . . . . . . . . . . . . . . $7,431,657,000
The appropriations in this section are subject to the following conditions and limitations:

2. Allocations for certificated staff salaries for the 2001-02 and 2002-03 school years shall be determined using formula-generated staff units calculated pursuant to this subsection. Staff allocations for small school enrollments in (d) through (f) of this subsection shall be reduced for vocational full-time equivalent enrollments. Staff allocations for small school enrollments in grades K-6 shall be the greater of that generated under (a) of this subsection, or under (d) and (e) of this subsection. Certificated staffing allocations shall be as follows:

   (a) On the basis of each 1,000 average annual full-time equivalent enrollments, excluding full-time equivalent enrollment otherwise recognized for certificated staff unit allocations under (c) through (f) of this subsection:

   (i) Four certificated administrative staff units per thousand full-time equivalent students in grades K-12;

   (ii) 49 certificated instructional staff units per thousand full-time equivalent students in grades K-3;

   (iii) Forty-six certificated instructional staff units per thousand full-time equivalent students in grades 4-12; and

   (iv) An additional 4.2 certificated instructional staff units for grades K-3 and an additional 7.2 certificated instructional staff units for grade 4. Any funds allocated for the additional certificated units provided in this subsection (iv) shall not be considered as basic education funding;

   (A) Funds provided under this subsection (2)(a)(iv) in excess of the amount required to maintain the statutory minimum ratio established under RCW 28A.150.260(2)(b) shall be allocated only if the district documents an actual ratio equal to or greater than 53.2 certificated instructional staff per thousand full-time equivalent students in grades K-4. For any school district documenting a lower certificated instructional staff ratio, the allocation shall be based on the district's actual grades K-4 certificated instructional staff ratio.

(B) Districts at or above 51.0 certificated instructional staff per one thousand full-time equivalent students in grades K-4 may dedicate up to 1.3 of the 53.2 funding ratio to employ additional classified instructional assistants assigned to basic education classrooms in grades K-4. For purposes of documenting a district's staff ratio under this section, funds used by the district to employ additional classified instructional assistants shall be converted to a certificated staff equivalent and added to the district's actual certificated instructional staff ratio. Additional classified instructional assistants, for the purposes of this subsection, shall be determined using the 1989-90 school year as the base year;

(C) Any district maintaining a ratio equal to or greater than 53.2 certificated instructional staff per thousand full-time equivalent students in grades K-4 may use allocations generated under this subsection (2)(a)(iv) in excess of that required to maintain the minimum ratio established under RCW 28A.150.260(2)(b) to employ additional basic education certificated instructional staff or classified instructional assistants in grades 5-6. Funds allocated under this subsection (2)(a)(iv) shall only be expended to reduce class size in grades K-6. No more than 1.3 of the certificated instructional funding ratio amount may be expended for provision of classified instructional assistants;

(b) For school districts with a minimum enrollment of 250 full-time equivalent students whose full-time equivalent student enrollment count in a given month exceeds the first of the month full-time equivalent enrollment count by 5 percent, an additional state allocation of 110 percent of the share that such increased enrollment would have generated had such additional full-time equivalent students been included in the normal enrollment count for that particular month;

(c)(i) On the basis of full-time equivalent enrollment in:

(A) Vocational education programs approved by the superintendent of public instruction, a maximum of 0.92 certificated instructional staff units and 0.08 certificated administrative staff units for each 19.5 full-time equivalent vocational students for the 2001-02 school year and the 2002-03 school year; and
(B) Skills center programs meeting the standards for skill center funding recommended by the superintendent of public instruction, January 1999, 0.92 certificated instructional staff units and 0.08 certificated administrative units for each 16.67 full-time equivalent vocational students; and

(ii) Vocational full-time equivalent enrollment shall be reported on the same monthly basis as the enrollment for students eligible for basic support, and payments shall be adjusted for reported vocational enrollments on the same monthly basis as those adjustments for enrollment for students eligible for basic support;

(d) For districts enrolling not more than twenty-five average annual full-time equivalent students in grades K-8, and for small school plants within any school district which have been judged to be remote and necessary by the state board of education and enroll not more than twenty-five average annual full-time equivalent students in grades K-8:

(i) For those enrolling no students in grades 7 and 8, 1.76 certificated instructional staff units and 0.24 certificated administrative staff units for enrollment of not more than five students, plus one-twentieth of a certificated instructional staff unit for each additional student enrolled; and

(ii) For those enrolling students in grades 7 or 8, 1.68 certificated instructional staff units and 0.32 certificated administrative staff units for enrollment of not more than five students, plus one-tenth of a certificated instructional staff unit for each additional student enrolled;

(e) For specified enrollments in districts enrolling more than twenty-five but not more than one hundred average annual full-time equivalent students in grades K-8, and for small school plants within any school district which enroll more than twenty-five average annual full-time equivalent students in grades K-8 and have been judged to be remote and necessary by the state board of education:

(i) For enrollment of up to sixty annual average full-time equivalent students in grades K-6, 2.76 certificated instructional staff units and 0.24 certificated administrative staff units; and
(ii) For enrollment of up to twenty annual average full-time equivalent students in grades 7 and 8, 0.92 certificated instructional staff units and 0.08 certificated administrative staff units;

(f) For districts operating no more than two high schools with enrollments of less than three hundred average annual full-time equivalent students, for enrollment in grades 9-12 in each such school, other than alternative schools:

(i) For remote and necessary schools enrolling students in any grades 9-12 but no more than twenty-five average annual full-time equivalent students in grades K-12, four and one-half certificated instructional staff units and one-quarter of a certificated administrative staff unit;

(ii) For all other small high schools under this subsection, nine certificated instructional staff units and one-half of a certificated administrative staff unit for the first sixty average annual full time equivalent students, and additional staff units based on a ratio of 0.8732 certificated instructional staff units and 0.1268 certificated administrative staff units per each additional forty-three and one-half average annual full time equivalent students.

Units calculated under (f)(ii) of this subsection shall be reduced by certificated staff units at the rate of forty-six certificated instructional staff units and four certificated administrative staff units per thousand vocational full-time equivalent students;

(g) For each nonhigh school district having an enrollment of more than seventy annual average full-time equivalent students and less than one hundred eighty students, operating a grades K-8 program or a grades 1-8 program, an additional one-half of a certificated instructional staff unit; and

(h) For each nonhigh school district having an enrollment of more than fifty annual average full-time equivalent students and less than one hundred eighty students, operating a grades K-6 program or a grades 1-6 program, an additional one-half of a certificated instructional staff unit.

(3) Allocations for classified salaries for the 2001-02 and 2002-03 school years shall be calculated using formula-generated classified staff units determined as follows:
(a) For enrollments generating certificated staff unit allocations under subsection (2)(d) through (h) of this section, one classified staff unit for each three certificated staff units allocated under such subsections; 

(b) For all other enrollment in grades K-12, including vocational full-time equivalent enrollments, one classified staff unit for each sixty average annual full-time equivalent students; and 

(c) For each nonhigh school district with an enrollment of more than fifty annual average full-time equivalent students and less than one hundred eighty students, an additional one-half of a classified staff unit. 

(4) Fringe benefit allocations shall be calculated at a rate of 11.27 percent in the 2001-02 and 2002-03 school years for certificated salary allocations provided under subsection (2) of this section, and a rate of 12.92 percent in the 2001-02 and 2002-03 school years for classified salary allocations provided under subsection (3) of this section. 

(5) Insurance benefit allocations shall be calculated at the maintenance rate specified in section 504(2) of this act, based on the number of benefit units determined as follows: 

(a) The number of certificated staff units determined in subsection (2) of this section; and 

(b) The number of classified staff units determined in subsection (3) of this section multiplied by 1.152. This factor is intended to adjust allocations so that, for the purposes of distributing insurance benefits, full-time equivalent classified employees may be calculated on the basis of 1440 hours of work per year, with no individual employee counted as more than one full-time equivalent. 

(6)(a) For nonemployee-related costs associated with each certificated staff unit allocated under subsection (2)(a), (b), and (d) through (h) of this section, there shall be provided a maximum of $8,519 per certificated staff unit in the 2001-02 school year and a maximum of $8,715 per certificated staff unit in the 2002-03 school year. 

(b) For nonemployee-related costs associated with each vocational certificated staff unit allocated under subsection (2)(c)(i)(A) of this section, there shall be provided a maximum of $20,920 per certificated
staff unit in the 2001-02 school year and a maximum of $21,401 per certificated staff unit in the 2002-03 school year.

(c) For nonemployee-related costs associated with each vocational certificated staff unit allocated under subsection (2)(c)(i)(B) of this section, there shall be provided a maximum of $16,233 per certificated staff unit in the 2001-02 school year and a maximum of $16,606 per certificated staff unit in the 2002-03 school year.

(7) Allocations for substitute costs for classroom teachers shall be distributed at a maintenance rate of $494.34 for the 2001-02 and 2002-03 school years per allocated classroom teachers exclusive of salary increase amounts provided in section 504 of this act. Solely for the purposes of this subsection, allocated classroom teachers shall be equal to the number of certificated instructional staff units allocated under subsection (2) of this section, multiplied by the ratio between the number of actual basic education certificated teachers and the number of actual basic education certificated instructional staff reported statewide for the 2000-01 school year.

(8) Any school district board of directors may petition the superintendent of public instruction by submission of a resolution adopted in a public meeting to reduce or delay any portion of its basic education allocation for any school year. The superintendent of public instruction shall approve such reduction or delay if it does not impair the district's financial condition. Any delay shall not be for more than two school years. Any reduction or delay shall have no impact on levy authority pursuant to RCW 84.52.0531 and local effort assistance pursuant to chapter 28A.500 RCW.

(9) For the 2002-03 school year, the superintendent of public instruction shall distribute directly to the national guard youth challenge program, for students enrolled in the program and earning high school graduation credit, funding generated under the provisions of chapter 28A.150 RCW. Funding shall be provided based on statewide average per pupil apportionment rates. Funding for one annual average full-time equivalent student shall be provided for each 900 hours of scheduled instruction for high school graduation credit, and shall be based on the opening day enrollment information submitted by the program.
(10) The superintendent may distribute a maximum of $6,510,000 outside the basic education formula during fiscal years 2002 and 2003 as follows:

(a) For fire protection for school districts located in a fire protection district as now or hereafter established pursuant to chapter 52.04 RCW, a maximum of $480,000 may be expended in fiscal year 2002 and a maximum of $491,000 may be expended in fiscal year 2003;

(b) For summer vocational programs at skills centers, a maximum of $2,098,000 may be expended each fiscal year;

(c) A maximum of $343,000 may be expended for school district emergencies; and

(d) A maximum of $500,000 per fiscal year may be expended for programs providing skills training for secondary students who are enrolled in extended day school-to-work programs, as approved by the superintendent of public instruction. The funds shall be allocated at a rate not to exceed $500 per full-time equivalent student enrolled in those programs.

(11) For purposes of RCW 84.52.0531, the increase per full-time equivalent student in state basic education appropriations provided under this act, including appropriations for salary and benefits increases, is 1.2 percent from the 2000-01 school year to the 2001-02 school year, and 3.0 percent from the 2001-02 school year to the 2002-03 school year.

(12) If two or more school districts consolidate and each district was receiving additional basic education formula staff units pursuant to subsection (2)(b) through (h) of this section, the following shall apply:

(a) For three school years following consolidation, the number of basic education formula staff units shall not be less than the number of basic education formula staff units received by the districts in the school year prior to the consolidation; and

NEW SECTION.  Sec. 503.  FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--BASIC EDUCATION EMPLOYEE COMPENSATION.  (1) The following calculations determine the salaries used in the general fund allocations for certificated instructional, certificated administrative, and classified staff units under section 502 of this act:

(a) Salary allocations for certificated instructional staff units shall be determined for each district by multiplying the district's certificated instructional total base salary shown on LEAP Document 12E for the appropriate year, by the district's average staff mix factor for basic education and special education certificated instructional staff in that school year, computed using LEAP Document 1S; and

(b) Salary allocations for certificated administrative staff units and classified staff units for each district shall be based on the district's certificated administrative and classified salary allocation amounts shown on LEAP Document 12E for the appropriate year.

(2) For the purposes of this section:

(a) "Basic education certificated instructional staff" is defined as provided in RCW 28A.150.100 and "special education certificated staff" means staff assigned to the state-supported special education program pursuant to chapter 28A.155 RCW in positions requiring a certificate;

(b) As used in this subsection, the column headings "BA+(N)" refer to the number of credits earned since receiving the baccalaureate degree.

c) For credits earned after the baccalaureate degree but before the masters degree, any credits in excess of forty-five credits may be counted after the masters degree. Thus, as used in this subsection, the column headings "MA+(N)" refer to the total of:

(i) Credits earned since receiving the masters degree; and

(ii) Any credits in excess of forty-five credits that were earned after the baccalaureate degree but before the masters degree.

(5) For the purposes of this section:

(a) "BA" means a baccalaureate degree.

(b) "MA" means a masters degree.

(c) "PHD" means a doctorate degree.

(d) "Years of service" shall be calculated under the same rules adopted by the superintendent of public instruction.

(e) "Credits" means college quarter hour credits and equivalent in-service credits computed in accordance with RCW 28A.415.020 and 28A.415.023.
(6) No more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and LEAP documents referenced in this act, or any replacement schedules and documents, unless:
(a) The employee has a masters degree; or
(b) The credits were used in generating state salary allocations before January 1, 1992.
(7) The certificated instructional staff base salary specified for each district in LEAP Document 12E and the salary schedules in subsection (4)(a) of this section include three learning improvement days originally added in the 1999-00 school year. A school district is eligible for the learning improvement day funds for school years 2001-02 and 2002-03, only if three learning improvement days have been added to the 180 day contract year. If fewer than three days are added, the additional learning improvement allocation shall be adjusted accordingly. The additional days shall be for activities related to improving student learning consistent with education reform implementation. The length of a learning improvement day shall not be less than the length of a full day under the base contract. The superintendent of public instruction shall ensure that school districts adhere to the intent and purposes of this subsection.
(8) The salary allocation schedules established in this section are for allocation purposes only except as provided in RCW 28A.400.200(2).

NEW SECTION. Sec. 504. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SCHOOL EMPLOYEE COMPENSATION ADJUSTMENTS
General Fund--State Appropriation (FY 2002) . . . . $ 121,701,000
General Fund--State Appropriation (FY 2003) . . . . $ 254,478,000
TOTAL APPROPRIATION . . . . . . . . . . $ 376,179,000
The appropriations in this section are subject to the following conditions and limitations:
(1) $300,506,000 is provided for a cost of living adjustment of 3.7 percent effective September 1, 2001, and another 2.6 percent effective September 1, 2002, for state formula staff units, in accordance with chapter 4, Laws of 2001 (Initiative Measure No. 732). It is the intent
of the legislature that the cost of living adjustment provided
effective September 1, 2002, be adjusted to reflect the actual calendar
year 2001 Seattle consumer price index increase as required by chapter
4, Laws of 2001 (Initiative Measure No. 732). The appropriations
include associated incremental fringe benefit allocations at rates of
10.63 percent for the 2001-02 and 2002-03 school years for certificated
staff and 9.42 percent for the 2001-02 and 2002-03 school years for
classified staff.

(a) The appropriations in this section include the increased
portion of salaries and incremental fringe benefits for all relevant
state-funded school programs in part V of this act in accordance with
chapter 4, Laws of 2001 (Initiative Measure No. 732). Salary
adjustments for state employees in the office of superintendent of
public instruction and the education reform program are provided in
part VII of this act. Increases for general apportionment are based on
the salary allocation schedules and methodology in section 502 of this
act. Increases for special education result from increases in each
district's general apportionment allocation per student. Increases for
educational service districts and institutional education programs are
determined by the superintendent of public instruction using the
methodology for general apportionment salaries and benefits in section
502 of this act.

(b) The appropriations in this section provide cost-of-living and

NEW SECTION. Sec. 507. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SPECIAL EDUCATION PROGRAMS

General Fund--State Appropriation (FY 2002) . . . . $ 419,264,000
General Fund--State Appropriation (FY 2003) . . . . $ 418,106,000
General Fund--Federal Appropriation . . . . . . . . $ 178,685,000
TOTAL APPROPRIATION . . . . . . . . . . . . . . . $ 1,016,055,000
The appropriations in this section are subject to the following conditions and limitations:

1. Funding for special education programs is provided on an excess cost basis, pursuant to RCW 28A.150.390. School districts shall ensure, to the greatest extent possible, that special education students receive their appropriate share of the general apportionment allocation accruing through sections 502 and 504 of this act. To the extent a school district cannot provide an appropriate education for special education students under chapter 28A.155 RCW through the general apportionment allocation, it shall provide services through the special education allocation funded in this section.

2. Effective with the 2001-02 school year, the superintendent of public instruction shall change the S-275 personnel reporting system and all related accounting requirements to ensure that:
   - Special education students are basic education students first;
   - As a class, special education students are entitled to the full basic education allocation; and
   - Special education students are basic education students for the entire school day.

3. Each general fund--state fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

4. The superintendent of public instruction shall distribute state funds to school districts based on two categories: The optional birth through age two program for special education eligible developmentally delayed infants and toddlers, and the mandatory special education program for special education eligible students ages three to twenty-one. A "special education eligible student" means a student receiving specially designed instruction in accordance with a properly formulated individualized education program.

5. For the 2001-02 and 2002-03 school years, the superintendent shall distribute state funds to each district based on the sum of:
   - A district's annual average headcount enrollment of developmentally delayed infants and toddlers ages birth through two,
multiplied by the district's average basic education allocation per full-time equivalent student, multiplied by 1.15; and

(b) A district's annual average full-time equivalent basic education enrollment multiplied by the funded enrollment percent determined pursuant to subsection (6)(c) of this section, multiplied by the district's average basic education allocation per full-time equivalent student multiplied by 0.9309.

(6) The definitions in this subsection apply throughout this section.

(a) "Average basic education allocation per full-time equivalent student" for a district shall be based on the staffing ratios required by RCW 28A.150.260 and shall not include enhancements, secondary vocational education, or small schools.

(b) "Annual average full-time equivalent basic education enrollment" means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW 28A.225.250).

(c) "Enrollment percent" means the district's resident special education annual average enrollment including those students counted under the special education demonstration projects, excluding the birth through age two enrollment, as a percent of the district's annual average full-time equivalent basic education enrollment. For the 2001-02 and the 2002-03 school years, each district's funded enrollment percent shall be the lesser of the district's actual enrollment percent for the school year for which the allocation is being determined or 12.7 percent.

(7) At the request of any interdistrict cooperative of at least 15 districts in which all excess cost services for special education students of the districts are provided by the cooperative, the maximum enrollment percent shall be 12.7, and shall be calculated in the aggregate rather than individual district units. For purposes of this subsection, the average basic education allocation per full-time equivalent student shall be calculated in the aggregate rather than individual district units.
(8) A maximum of $12,000,000 of the general fund--state appropriation for fiscal year 2002 and a maximum of $12,000,000 of the general fund--state appropriation for fiscal year 2003 are provided as safety net funding for districts with demonstrated needs for state special education funding beyond the amounts provided in subsection (5) of this section. Safety net funding shall be awarded by the state safety net oversight committee.

(a) The safety net oversight committee shall first consider the needs of districts adversely affected by the 1995 change in the special education funding formula. Awards shall be based on the amount required to maintain the 1994-95 state special education excess cost allocation to the school district in aggregate or on a dollar per funded student basis.

(b) The committee shall then consider unusual needs of districts due to a special education population which differs significantly from the assumptions of the state funding formula. Awards shall be made to districts that convincingly demonstrate need due to the concentration and/or severity of disabilities in the district. Differences in program costs attributable to district philosophy or service delivery style are not a basis for safety net awards.

(c) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(d) Safety net awards shall be adjusted based on the percent of potential medicaid eligible students billed as calculated by the superintendent in accordance with RCW 74.09.5255 and 74.09.5256.

(e) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

(f) The superintendent may expend up to $120,000 per year of the amounts provided in this subsection to provide staff assistance to the committee in analyzing applications for safety net funds received by the committee.

(9) The superintendent of public instruction may adopt such rules and procedures as are necessary to administer the special education funding and safety net award process. Prior to revising any standards, procedures, or rules, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature.
(10) The safety net oversight committee appointed by the superintendent of public instruction shall consist of:

(a) One staff person from the office of superintendent of public instruction;
(b) Staff of the office of the state auditor;
(c) Staff of the office of the financial management; and
(d) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.

(11) To the extent necessary, $5,500,000 of the general fund--federal appropriation shall be expended for safety net funding to meet the extraordinary needs of one or more individual special education students. If safety net awards to meet the extraordinary needs of one or more individual special education students exceed $5,500,000 of the general fund--federal appropriation, the superintendent shall expend all available federal discretionary funds necessary to meet this need. General fund--state funds shall not be expended for this purpose.

(12) The superintendent shall maintain the percentage of federal flow-through to school districts at 85 percent. In addition to other purposes, school districts may use increased federal funds for high-cost students, for purchasing regional special education services from educational service districts, and for staff development activities particularly relating to inclusion issues.

(13) A maximum of $1,000,000 of the general fund--federal appropriation is provided for projects to provide special education students with appropriate job and independent living skills, including work experience where possible, to facilitate their successful transition out of the public school system. The funds provided by this subsection shall be from federal discretionary grants.

(14) A maximum of $678,000 may be expended from the general fund--state appropriations to fund 5.43 full-time equivalent teachers and 2.13 full-time equivalent aides at children's orthopedic hospital and medical center. This amount is in lieu of money provided through the home and hospital allocation and the special education program.

(15) A maximum of $1,200,000 of the general fund--federal appropriation may be expended by the superintendent for projects related to use of inclusion strategies by school districts for
provision of special education services. The superintendent shall prepare an information database on laws, best practices, examples of programs, and recommended resources. The information may be disseminated in a variety of ways, including workshops and other staff development activities.

(16) For the 2002-03 school year, the superintendent shall distribute directly to the national guard youth challenge program, for students earning high school graduation credit, funding for special education eligible students, as defined in subsection (4) of this section, who are enrolled in the national guard youth challenge program. The superintendent shall distribute state funds directly to the national guard youth challenge program based on the program's annual average full-time equivalent basic education enrollment as determined under section 502(9) of this act, multiplied by the funded enrollment percent determined pursuant to subsection (6)(c) of this section, multiplied by the program's average basic education allocation under section 502(9) of this act per full-time equivalent student, multiplied by 0.9309.

(17) A school district may carry over from one year to the next year up to 10 percent of general fund--state funds allocated under this program; however, carryover funds shall be expended in the special education program.

Pursuant to RCW 43.88.037, moneys disbursed from the treasury on the basis of a formal loan agreement shall be recorded as loans receivable and not as expenditures for accounting purposes. To the extent that moneys are disbursed on a loan basis, the corresponding appropriation shall be reduced by the amount of loan moneys disbursed from the treasury during the 1999-01 biennium.

NEW SECTION.  Sec. 902. INFORMATION SYSTEMS PROJECTS. Agencies shall comply with the following requirements regarding information systems projects when specifically directed to do so by this act.

(1) Agency planning and decisions concerning information technology shall be made in the context of its information technology portfolio. "Information technology portfolio" means a strategic management approach in which the relationships between agency missions and information technology investments can be seen and understood, such that: Technology efforts are linked to agency objectives and business plans; the impact of new investments on existing infrastructure and business functions are assessed and understood before implementation; and agency activities are consistent with the development of an integrated, nonduplicative statewide infrastructure.

(2) Agencies shall use their information technology portfolios in making decisions on matters related to the following:

(a) System refurbishment, acquisitions, and development efforts;

(b) Setting goals and objectives for using information technology in meeting legislatively-mandated missions and business needs;

(c) Assessment of overall information processing performance, resources, and capabilities;
(d) Ensuring appropriate transfer of technological expertise for the operation of any new systems developed using external resources; and
(e) Progress toward enabling electronic access to public information.

(3) Each project will be planned and designed to take optimal advantage of Internet technologies and protocols. Agencies shall ensure that the project is in compliance with the architecture, infrastructure, principles, policies, and standards of digital government as maintained by the information services board.

(4) The agency shall produce a feasibility study for information technology projects at the direction of the information services board and in accordance with published department of information services policies and guidelines. At a minimum, such studies shall include a statement of: (a) The purpose or impetus for change; (b) the business value to the agency, including an examination and evaluation of benefits, advantages, and cost; (c) a comprehensive risk assessment based on the proposed project's impact on both citizens and state operations, its visibility, and the consequences of doing nothing; (d) the impact on agency and statewide information infrastructure; and (e) the impact of the proposed enhancements to an agency's information technology capabilities on meeting service delivery demands.

(5) The agency shall produce a comprehensive management plan for each project. The plan or plans shall address all factors critical to successful completion of each project. The plan(s) shall include, but is not limited to, the following elements: A description of the problem or opportunity that the information technology project is intended to address; a statement of project objectives and assumptions; a definition and schedule of phases, tasks, and activities to be accomplished; and the estimated cost of each phase. The planning for the phased approach shall be such that the business case justification for a project needs to demonstrate how the project recovers cost or adds measurable value or positive cost benefit to the agency's business functions within each development cycle.

(6) The agency shall produce quality assurance plans for information technology projects. Consistent with the direction of the information services board and the published policies and guidelines of
the department of information services, the quality assurance plan shall address all factors critical to successful completion of the project and successful integration with the agency and state information technology infrastructure. At a minimum, quality assurance plans shall provide time and budget benchmarks against which project progress can be measured, a specification of quality assurance responsibilities, and a statement of reporting requirements. The quality assurance plans shall set out the functionality requirements for each phase of a project.

(7) A copy of each feasibility study, project management plan, and quality assurance plan shall be provided to the department of information services, the office of financial management, and legislative fiscal committees. The plans and studies shall demonstrate a sound business case that justifies the investment of taxpayer funds on any new project, an assessment of the impact of the proposed system on the existing information technology infrastructure, the disciplined use of preventative measures to mitigate risk, and the leveraging of private-sector expertise as needed. Authority to expend any funds for individual information systems projects is conditioned on the approval of the relevant feasibility study, project management plan, and quality assurance plan by the department of information services and the office of financial management.

(8) Quality assurance status reports shall be submitted to the department of information services, the office of financial management, and legislative fiscal committees at intervals specified in the project's quality assurance plan.

As lead agency, the department shall develop standards and common specifications for leased and purchased telecommunications equipment and assist state agencies in developing a video telecommunications expenditure plan. No agency may spend any portion of any appropriation in this act for new video telecommunication equipment, new video telecommunication transmission, or new video telecommunication programming, or for expanding current
video telecommunication systems without first complying with chapter 43.105 RCW, including but not limited to, RCW 43.105.041(2), and without first submitting a video telecommunications expenditure plan, in accordance with the policies of the department of information services, for review and assessment by the department of information services under RCW 43.105.052. The fee shall be fifteen dollars pending action by the commission to increase the fee. The commission shall increase the current fee of twenty dollars by ((two)) five dollars ((and fifty cents)) effective September 30, ((1996)) 2001, and the commission shall increase the fee by another ((two)) five dollars ((and fifty cents)) effective September 30, ((1997)) 2002. After the fee increase effective September 30, ((1997)) 2002, the commission shall not increase the fee. In addition to the registration fee provided in this section the department shall charge each applicant for registration the actual cost of the decal. The department shall make available replacement decals for a fee equivalent to the actual cost of the decals.

The department shall promulgate rules allowing employers who do not have hazardous substances at their workplace to request an exemption from the assessment and shall establish penalties for fraudulent exemption requests. All fees collected by the department pursuant to this section shall be collected in a cost-efficient manner and shall be deposited in the fund.

(3) Records required by this chapter shall at all times be open to the inspection of the director, or his designee including, the traveling auditors, agents or assistants of the department provided for in RCW 51.16.070 and 51.48.040. (4) An employer may appeal the assessment of the fee or penalties pursuant to the procedures set forth in Title 51 RCW and accompanying rules except that the employer shall not have the right of appeal to superior court as provided in Title 51 RCW. The employer from whom the fee or penalty is demanded or enforced, may however, within thirty days of the board of industrial insurance appeal's final order, pay the fee or penalty under written protest setting forth all the grounds upon which such fee or penalty is claimed to be unlawful, excessive or otherwise improper and thereafter bring an action in superior court against the department to recover such fee or penalty or any portion of the fee or penalty which was paid under protest.

(5) Repayment shall be made to the general fund of any moneys appropriated by law in order to implement this chapter.

Sec. 920. RCW 82.14.310 and 1999 c 309 s 920 are each amended to read as follows:

(1) The county criminal justice assistance account is created in the state treasury. Beginning in fiscal year 2000, the state treasurer shall transfer into the county criminal justice assistance account from the general fund the sum of twenty-three million two hundred thousand dollars divided into four equal deposits occurring on July 1, October 1, January 1, and April 1. For each fiscal year thereafter, the state treasurer shall increase the total transfer by the fiscal growth factor, as defined in RCW 43.135.025, forecast for that fiscal year by the office of financial management in November of the preceding year.

(2) The moneys deposited in the county criminal justice assistance account for distribution under this section, less any moneys appropriated for purposes under subsection (4) of this section, shall be distributed at such times as distributions are made under RCW 82.44.150 and on the relative basis of each county’s funding factor as determined under this subsection.

(a) A county’s funding factor is the sum of:

(ii) The crime rate of the county, multiplied by three-tenths; and

(b) Under this section and RCW 82.14.320 and 82.14.330:

(i) The population of the county or city shall be as last determined by the office of financial management;

(ii) The crime rate of the county or city is the annual occurrence of specified criminal offenses, as calculated in the most recent annual report on crime in Washington state as published by the Washington association of sheriffs and police chiefs, for each one thousand in population;
(iii) The annual number of criminal cases filed in the county superior court shall be determined by the most recent annual report of the courts of Washington, as published by the office of the administrator for the courts;

(iv) Distributions and eligibility for distributions in the 1989-91 biennium shall be based on 1988 figures for both the crime rate as described under (ii) of this subsection and the annual number of criminal cases that are filed as described under (iii) of this subsection. Future distributions shall be based on the most recent figures for both the crime rate as described under (ii) of this subsection and the annual number of criminal cases that are filed as described under (iii) of this subsection.

(3) Moneys distributed under this section shall be expended exclusively for criminal justice purposes and shall not be used to replace or supplant existing funding. Criminal justice purposes are defined as activities that substantially assist the criminal justice system, which may include circumstances where ancillary benefit to the civil or juvenile justice system occurs, and which includes (a) domestic violence services such as those provided by domestic violence programs, community advocates, and legal advocates, as defined in RCW 70.123.020, and (b) during the (1999-2001) 2001-2003 fiscal biennium, juvenile dispositional hearings relating to petitions for at-risk youth, truancy, and children in need of services. Calendar year 1989 actual operating expenditures for criminal justice purposes exclude the following: Expenditures for extraordinary events not likely to reoccur, changes in contract provisions for criminal justice services, beyond the control of the local jurisdiction receiving the services, and major nonrecurring capital expenditures.

(4) Not more than five percent of the funds deposited to the county criminal justice assistance account shall be available for appropriations for enhancements to the state patrol crime laboratory system and the continuing costs related to these enhancements.
