PART II
HUMAN SERVICES

Sec. 201. 2001 2nd sp.s. c 7 s 201 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES. (1) Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose, except as expressly provided in subsection (3) of this section.

(2) The department of social and health services shall not initiate any services that will require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3)(a) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. However, after May 1, 2002, unless specifically prohibited by this act, the department may transfer general fund--state appropriations for fiscal year 2002 among programs after approval by the director of financial management. However, the department shall not transfer state moneys that are provided solely for
a specified purpose except as expressly provided in (b) of this subsection (3).

(b) To the extent that transfers under (a) of this subsection (3) are insufficient to fund actual expenditures in excess of fiscal year 2002 caseload forecasts and utilization assumptions in the medical assistance, long-term care, foster care, adoption support, and child support programs, the department may transfer state moneys that are provided solely for a specified purpose after approval by the director of financial management.

(c) The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing prior to approving any allotment modifications or transfers under this subsection.

(4) In the event the department receives additional unrestricted federal funds or achieves savings in excess of that anticipated in this act, the department shall use up to $5,000,000 of such funds to initiate a pilot project providing integrated support services to homeless individuals needing mental health services, alcohol or substance abuse treatment, medical care, or who demonstrate community safety concerns. Before such a pilot project is initiated, the department shall notify the fiscal committees of the legislature of the plans for such a pilot project including the source of funds to be used.

The facility shall provide at least three months of consultation and support to parents accepting placement of children from the facility. The facility may recruit new and current foster and adoptive parents for infants served by the facility. The department shall not require case management as a condition of the contract.))

3. $524,000 of the general fund--state fiscal year 2002 appropriation and $536,000 of the general fund--state fiscal year 2003 appropriation are provided for up to three nonfacility-based programs for the training, consultation, support, and recruitment of biological, foster, and adoptive parents of children through age three in need of special care as a result of substance abuse by their mothers, except that each program may serve up to three medically fragile nonsubstance-abuse-affected children. In selecting nonfacility-based programs, preference shall be given to programs whose federal or private funding sources have expired or that have successfully performed under the existing pediatric interim care program.
(4) $1,260,000 of the fiscal year 2002 general fund--state appropriation, $1,248,000 of the fiscal year 2003 general fund--state appropriation, and $4,196,000 of the violence reduction and drug enforcement account appropriation are provided solely for the family policy council and community public health and safety networks. The funding level for the family policy council and community public health and safety networks represents a 25 percent reduction below the funding level for the 1999-2001 biennium. Funding levels shall be reduced 25 percent for both the family policy council and network grants. Reductions to network grants shall be allocated so as to maintain current funding levels, to the greatest extent possible, for projects with the strongest evidence of positive outcomes and for networks with substantial compliance with contracts for network grants.

(5)) (3) $2,215,000 of the fiscal year 2002 general fund--state appropriation, $4,394,000 of the fiscal year 2003 general fund--state appropriation, and $5,604,000 of the general fund--federal appropriation are provided solely for reducing the average caseload level per case-carrying social worker. Average caseload reductions are intended to increase the amount of time social workers spend in direct contact with the children, families, and foster parents involved with their open cases. The department shall use some of the funds provided in several local offices to increase staff that support case-carrying social workers in ways that will allow social workers to increase direct contact time with children, families, and foster parents. To achieve the goal of reaching an average caseload ratio of 1:24 by the end of fiscal year 2003, the department shall develop a plan for redeploying 30 FTEs to case-carrying social worker and support positions from other areas in the children and family services budget. The FTE redeployment plan shall be submitted to the fiscal committees of the legislature by December 1, 2001.

((6)) (4) $1,000,000 of the fiscal year 2002 general fund--state appropriation and $1,000,000 of the fiscal year 2003 general fund--state appropriation are provided solely for increasing foster parent respite care services that improve the retention of foster parents and increase the stability of foster placements. The department shall report quarterly to the appropriate committees of the legislature progress against appropriate baseline measures for foster parent retention and stability of foster placements.
$1,050,000 of the general fund--federal appropriation is provided solely for increasing kinship care placements for children who otherwise would likely be placed in foster care. These funds shall be used for extraordinary costs incurred by relatives at the time of placement, or for extraordinary costs incurred by relatives after placement if such costs would likely cause a disruption in the kinship care placement. $50,000 of the funds provided shall be contracted to the Washington institute for public policy to conduct a study of kinship care placements. The study shall examine the prevalence and needs of families who are raising related children and shall compare services and policies of Washington state with other states that have a higher rate of kinship care placements in lieu of foster care placements. The study shall identify possible changes in services and policies that are likely to increase appropriate kinship care placements.

$3,386,000 of the fiscal year 2002 general fund--state appropriation, $6,708,000 of the fiscal year 2003 general fund--state appropriation, and $20,142,000 of the general fund--federal appropriation are provided solely for increases in the cost per case for foster care and adoption support. $16,000,000 of the general fund--federal amount shall remain unallotted until the office of financial management approves a plan submitted by the department to achieve a higher rate of federal earnings in the foster care program. That plan shall also be submitted to the fiscal committees of the legislature and shall indicate projected federal revenue compared to actual fiscal year 2001 levels. Within the amounts provided for foster care, the department shall increase the basic rate for foster care to an average of $420 per month on July 1, 2001 and to an average of $440 per month on July 1, 2002). The department shall use the remaining funds provided in this subsection to pay for increases in the cost per case for foster care and adoption support. The department shall seek to control rate increases and reimbursement decisions for foster care and adoption support cases such that the cost per case for family foster care, group care, receiving homes, and adoption support does not exceed the amount assumed in the projected caseload expenditures plus the amounts provided in this subsection.

$1,767,000 of the general fund--state appropriation for fiscal year 2002, $1,767,000 of the general fund--state appropriation for fiscal year 2003, and $1,241,000 of
the general fund--federal appropriation are provided solely for rate
and capacity increases for child placing agencies. Child placing
agencies shall increase their capacity by 15 percent in fiscal year
2002 ((and 30 percent in fiscal year 2003)).

((10) The department shall provide secure crisis residential
facilities across the state in a manner that: (a) Retains geographic
provision of these services; and (b) retains beds in high use areas.
((11)) (9) $125,000 of the general fund--state appropriation for
fiscal year 2002 and $125,000 of the general fund--state appropriation
for fiscal year 2003 are provided solely for a foster parent retention
program. This program is directed at foster parents caring for
children who act out sexually, as described in House Bill No. 1525
(foster parent retention program).

(10) Sufficient funds are provided in this section to implement
House Bill No. 2459 (children's programs/services).

The juvenile rehabilitation administration shall award these moneys on a competitive basis to counties that submitted a plan for the provision of services approved by the division of alcohol and substance abuse. When this occurs, the department shall notify the office of financial management and the legislative fiscal committees. TOTAL APPROPRIATION ........ $ (731,863,000)

759,339,000

The appropriations in this subsection are subject to the following conditions and limitations:

(a) Regional support networks shall use portions of the general fund--state appropriation for implementation of working agreements with the vocational rehabilitation program which will maximize the use of federal funding for vocational programs.

(b) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure that regional
support networks reimburse the aging and adult services program for the
general fund--state cost of medicaid personal care services that
enrolled regional support network consumers use because of their
psychiatric disability.

(c) $388,000 of the general fund--state appropriation for fiscal
year 2002, (($1,927,000)) $2,829,000 of the general fund--state
appropriation for fiscal year 2003, and (($2,349,000)) $3,157,000 of
the general fund--federal appropriation are provided solely for
development and operation of community residential and support services
for persons whose treatment needs constitute substantial barriers to
community placement and who no longer require active psychiatric
treatment at an inpatient hospital level of care, no longer meet the
criteria for inpatient involuntary commitment, and who are clinically
ready for discharge from a state psychiatric hospital. In the event
that enough patients are not transitioned or diverted from the state
hospitals to close at least two hospital wards by July 2002, and
((two)) four additional wards by April 2003, a proportional share of
these funds shall be transferred to the appropriations in subsection
(2) of this section to support continued care of the patients in the
state hospitals. Primary responsibility and accountability for
provision of appropriate community support for persons placed with
these funds shall reside with the mental health program and the
regional support networks, with partnership and active support from the
alcohol and substance abuse and from the aging and adult services
programs. The department shall negotiate performance-based incentive
contracts ((with those regional support networks which have the most
viable plans for providing appropriate community support services for
significant numbers of persons from their area who would otherwise be
served in the state hospitals)) to provide appropriate community
support services for individuals leaving the state hospitals under this
subsection. The department shall first seek to contract with regional
support networks before offering a contract to any other party. The
funds appropriated in this subsection shall not be considered
"available resources" as defined in RCW 71.24.025 and are not subject
to the standard allocation formula applied in accordance with RCW
71.24.035(13)(a).

(d) At least $1,000,000 of the federal block grant funding
appropriated in this subsection shall be used for (i) initial
development, training, and operation of the community support teams
which will work with long-term state hospital residents prior and
subsequent to their return to the community; and (ii) development of
support strategies which will reduce the unnecessary and excessive use
of state and local hospitals for short-term crisis stabilization
services. Such strategies may include training and technical
assistance to community long-term care and substance abuse providers;
the development of diversion beds and stabilization support teams;
examination of state hospital policies regarding admissions; and the
development of new contractual standards to assure that the statutory
requirement that 85 percent of short-term detentions be managed locally
is being fulfilled. The department shall report to the fiscal and
policy committees of the legislature on the results of these efforts by
November 1, 2001, and again by November 1, 2002.

(e) The department is authorized to implement a new formula for
allocating available resources among the regional support networks.
The distribution formula shall use the number of persons eligible for
the state medical programs funded under chapter 74.09 RCW as the
measure of the requirement for the number of acutely mentally ill,
chronically mentally ill, severely emotionally disturbed children, and
seriously disturbed in accordance with RCW 71.24.035(13)(a). The new
formula shall be phased in over a period of no less than six years.
Furthermore, the department shall increase the medicaid capitation
rates which a regional support network would otherwise receive under
the formula by an amount sufficient to assure that total funding
allocated to the regional support network in fiscal year 2002 increases
by up to ((2.1)) 3.5 percent over the amount actually paid to that
regional support network in fiscal year 2001, and by up to an
additional ((2.3)) 5.0 percent in fiscal year 2003, if total funding to
the regional support network would otherwise increase by less than
those percentages under the new formula, and provided that the
nonfederal share of the higher medicaid payment rate is provided by the
regional support network from local funds.

(f) Within funds appropriated in this subsection, the department
shall contract with the Clark county regional support network for
development and operation of a project demonstrating collaborative
methods for providing intensive mental health services in the school
setting for severely emotionally disturbed children who are medicaid
eligible. Project services are to be delivered by teachers and
teaching assistants who qualify as, or who are under the supervision
of, mental health professionals meeting the requirements of chapter 275-57 WAC. The department shall increase medicaid payments to the regional support network by the amount necessary to cover the necessary and allowable costs of the demonstration, not to exceed the upper payment limit specified for the regional support network in the department's medicaid waiver agreement with the federal government after meeting all other medicaid spending requirements assumed in this subsection. The regional support network shall provide the department with (i) periodic reports on project service levels, methods, and outcomes; and (ii) an intergovernmental transfer equal to the state share of the increased medicaid payment provided for operation of this project.

(g) The health services account appropriation is provided solely for implementation of strategies which the department and the affected regional support networks conclude will best assure continued availability of community-based inpatient psychiatric services in all areas of the state. Such strategies may include, but are not limited to, emergency contracts for continued operation of inpatient facilities otherwise at risk of closure because of demonstrated uncompensated care; start-up grants for development of evaluation and treatment facilities; and increases in the rate paid for inpatient psychiatric services for medically indigent and/or general assistance for the unemployed patients. The funds provided in this subsection must be:

(i) Prioritized for use in those areas of the state which are at greatest risk of lacking sufficient inpatient psychiatric treatment capacity, rather than being distributed on a formula basis; (ii) prioritized for use by those hospitals which do not receive low-income disproportionate share hospital payments as of the date of application for funding; and (iii) matched on a one-quarter local, three-quarters state basis by funding from the regional support network or networks in the area in which the funds are expended. Payments from the amount provided in this subsection shall not be made to any provider that has not agreed that, except for prospective rate increases, the payment shall offset, on a dollar-for-dollar basis, any liability that may be established against, or any settlement that may be agreed to by the state, regarding the rate of state reimbursement for inpatient psychiatric care. The funds provided in this subsection shall not be considered "available resources" as defined in RCW 71.24.025 and are
not subject to the distribution formula established pursuant to RCW 71.24.035.

(h) The department shall assure that each regional support network increases spending on direct client services in fiscal years 2002 and 2003 by at least the same percentage as the total state, federal, and local funds allocated to the regional support network in those years exceeds the amounts allocated to it in fiscal year 2001.

(i) The department shall reduce state funding otherwise payable to a regional support network in fiscal years 2002 and 2003 by the full amount by which the regional support network's reserves and fund balances as of December 31, 2001, exceed the required risk reserve for that regional support network. The required reserve amount shall be calculated by applying the risk reserve percentage specified in the department's contract with the regional support network to the total state and federal revenues for which the regional support network would otherwise be eligible in accordance with this subsection. As used in this subsection, "reserves" does not include capital project reserves established in accordance with state accounting and reporting standards before January 1, 2002.

(j) The department shall maintain the same relative allocation of budgeted, nonforensic state hospital beds among the regional support networks as was in effect during fiscal year 2002 until at least thirty days after adjournment of the first regular legislative session following submission of a report on the appropriate allocation of these beds. In preparing the report, the department shall: (i) Utilize the most current and reliable applicable academic research, and shall consult with academic and other national experts on mental health inpatient care; (ii) estimate the relative need for short-term and long-term inpatient psychiatric care in each of the state's regions, based upon the factors that the experts identify as the best predictors of need, including geographic proximity to the hospitals; and (iii) identify options for changing the current distribution of state hospital beds among the regional support networks. The report shall be prepared in consultation with representatives of people with mental illness and the regional support networks, and shall be submitted to appropriate committees of the legislature. This subsection does not prohibit the replacement of current state hospital beds with community alternatives as provided elsewhere in this section.
(k) The department shall develop a proposal to consolidate and organize existing ombudsman functions in regional support networks and the state hospitals into a single structure that is functionally independent of the existing mental health service delivery system. The proposal shall include recommendations as to the statutory and administrative changes needed to establish a functional statewide mental health ombudsman program. The department shall report to the appropriate policy and fiscal committees of the senate and house of representatives by November 1, 2002.

The appropriations in this subsection are subject to the following conditions and limitations:

(a) The state mental hospitals may use funds appropriated in this subsection to purchase goods and supplies through hospital group purchasing organizations when it is cost-effective to do so.

(b) The mental health program at Western state hospital shall continue to use labor provided by the Tacoma prerelease program of the department of corrections.

(c) The department shall seek to reduce the census of the two state psychiatric hospitals by 178 beds by April 2003 by arranging and providing community residential, mental health, and other support services for long-term state hospital patients whose treatment needs constitute substantial barriers to community placement and who no longer require active psychiatric treatment at an inpatient hospital level of care, no longer meet the criteria for inpatient involuntary commitment, and who are clinically ready for discharge from a state psychiatric hospital. No such patient is to move from the hospital until a team of community professionals has become familiar with the
person and their treatment plan; assessed their strengths, preferences, and needs; arranged a safe, clinically-appropriate, and stable place for them to live; assured that other needed medical, behavioral, and social services are in place; and is contracted to monitor the person's progress on an ongoing basis. The department and the regional support networks shall endeavor to assure that hospital patients are able to return to their area of origin, and that placements are not concentrated in proximity to the hospitals.

(d) For each month subsequent to the month in which a state hospital bed has been closed in accordance with (c) of this subsection, the mental health program shall transfer to the medical assistance program state funds equal to the state share of the monthly per capita expenditure amount estimated for categorically needy-disabled persons in the most recent forecast of medical assistance expenditures.

(e) The department shall report to the appropriate committees of the legislature by November 1, 2001, and by November 1, 2002, on its plans for and progress toward achieving the objectives set forth in (c) of this subsection.

Once implemented, the use of performance measures will allow comparison of measurement results to established standards and

(c) $125,000 of the general fund--state appropriation for fiscal year 2002, $125,000 of the general fund--state appropriation for fiscal year 2003, and $250,000 of the general fund--federal appropriation are provided solely for a study of the prevalence of mental illness among the state's regional support networks. In conducting this study, the department shall consult with the joint legislative audit and review committee, regional support networks, community mental health providers, and mental health consumer representatives. The department shall submit a final report on its findings to the fiscal, health care, and human services committees of the legislature by November 1, 2003.

The appropriations in this subsection are subject to the following conditions and limitations:

(a) The health services account appropriation and $(753,000) of the general fund--federal appropriation are provided solely for health care benefits for home care workers with family incomes below 200 percent of the federal poverty level who are employed through state contracts for twenty hours per week or more. Premium payments for individual provider home care workers shall be made only to the subsidized basic health plan. Home care agencies may obtain coverage either through the basic health plan or through an alternative plan with substantially equivalent benefits.

(b) $902,000 of the general fund--state appropriation for fiscal year 2002, $3,372,000 of the general fund--state appropriation for fiscal year 2003, and $4,056,000 of the general fund--federal appropriation are provided solely for community services for residents of residential habilitation centers (RHCs) who are able to be adequately cared for in community settings and who choose to live in those community settings. The department shall ensure that the average cost per day for all program services other than start-up costs shall not exceed $280. If the number and timing of residents choosing to move into community settings is not sufficient to achieve the RHC cottage consolidation plan assumed in the appropriations in subsection (2) of this section, the department shall transfer sufficient appropriations from this subsection to subsection (2) of this section to cover the added costs incurred in the RHCs. The department shall report to the appropriate committees of the legislature, within 45 days following each fiscal year quarter, the number of residents moving into community settings and the actual expenditures for all community services to support those residents.

(c) $(1,440,000) $1,153,000 of the general fund--state appropriation for fiscal year 2002, ($3,041,000) $3,054,000 of the general fund--state appropriation for fiscal year 2003, and ($4,311,000) $4,031,000 of the general fund--federal appropriation are provided solely for expanded community services for persons with developmental disabilities who also have community protection issues or are diverted or discharged from state psychiatric hospitals. The
department shall ensure that the average cost per day for all program services other than start-up costs shall not exceed $275. The department shall report to the appropriate committees of the legislature, within 45 days following each fiscal year quarter, the number of persons served with these additional community services, where they were residing, what kinds of services they were receiving prior to placement, and the actual expenditures for all community services to support these clients.

(d) $259,000 of the general fund--state appropriation for fiscal year 2002, $354,000 of the general fund--state appropriation for fiscal year 2003, and $485,000 of the general fund--federal appropriation are provided solely for increasing case/resource management resources to improve oversight and quality of care for persons enrolled in the medicaid home and community services waiver for persons with developmental disabilities. The department shall not increase total enrollment in home and community based waivers for persons with developmental disabilities except for changes assumed in additional funding provided in subsections (b) and (c) of this section. Prior to submitting to the health care financing authority any new or renewed home and community based waiver requests for persons with developmental disabilities, the department shall submit a summary of the waiver request to the appropriate committees of the legislature. The summary shall include eligibility criteria, program description, enrollment projections and limits, and budget and cost effectiveness projections that distinguish the requested waiver from other existing or proposed waivers.

(e) $1,000,000 of the general fund--state appropriation for fiscal year 2002 and $1,000,000 of the general fund--state appropriation for fiscal year 2003 are provided solely for employment, or other day activities and training programs, for young adults with developmental disabilities who complete their high school curriculum in 2001 or 2002. These services are intended to assist with the transition to work and more independent living. Funding shall be used to the greatest extent possible for vocational rehabilitation services matched with federal funding. In recent years, the state general fund appropriation for employment and day programs has been underspent. These surpluses, built into the carry forward level budget, shall be redeployed for high school transition services.
(f) $369,000 of the fiscal year 2002 general fund--state appropriation and $369,000 of the fiscal year 2003 general fund--state appropriation are provided solely for continuation of the autism pilot project started in 1999.

(g) $4,049,000 of the general fund--state appropriation for fiscal year 2002, $1,734,000 of the general fund--state appropriation for fiscal year 2003, and $5,369,000 of the general fund--federal appropriation are provided solely to increase compensation by an average of fifty cents per hour for low-wage workers providing state-funded services to persons with developmental disabilities. These funds, along with funding provided for vendor rate increases, are sufficient to raise wages an average of fifty cents and cover the employer share of unemployment and social security taxes on the amount of the wage increase. In consultation with the statewide associations representing such agencies, the department shall establish a mechanism for testing the extent to which funds have been used for this purpose, and report the results to the fiscal committees of the legislature by February 1, 2002.

(h) Up to $10,000,000 of funding for existing family support shall be provided as supplemental security income (SSI) state supplemental payments to the parent or legal guardian, on behalf of an eligible individual, and shall be considered a benefit to the eligible individual. Individuals receiving family support payments shall not become eligible for medical assistance under RCW 74.09.510 due solely to the receipt of the SSI state supplemental payment. The department shall reassess individuals who are on the home and community based waiver primarily for family support for transition to SSI state supplemental payments. The department in coordination with the economic services administration will create an application and process for determining eligibility of applicants. Eligibility shall require at least the following: (i) A statement that the family resides in this state, (ii) verification that the eligible individual meets the definition of developmental disability in RCW 71A.10.020, (iii) a statement that the eligible individual resides, or is expected to reside, with his or her parent or legal guardian or, another relative, and (iv) verification that the taxable income for the family for the year immediately preceding the date of application did not exceed 200 percent of the federal poverty level, unless it can be verified that the taxable income for the year in which the application is made will
be less than 200 percent of the federal poverty level. The department, in coordination with the economic services administration, will report to the appropriate committees of the legislature on implementation of this subsection (h) by December 1, 2002.

(3) For purposes of implementing chapter 74.46 RCW, the weighted average nursing facility payment rate shall be no more than $128.79 for fiscal year 2002, and no more than $(134.45) $127.46 for fiscal year 2003. For all facilities, the therapy care, support services, and operations component rates established in accordance with chapter 74.46 RCW shall be adjusted for economic trends and conditions by 2.1 percent effective July 1, 2001, and by an additional (2.3) 2.0 percent effective (September 1, 2002). For case-mix facilities, direct care component rates established in accordance with chapter 74.46 RCW shall also be adjusted for economic trends and conditions by 2.1 percent effective July 1, 2001, and by an additional (2.3) 2.0 percent effective (September 1, 2002). Additionally, to facilitate the transition to a fully case-mix based direct care payment system, the median price per case-mix unit for each of the applicable direct care peer groups shall be increased on a one-time basis by 2.64 percent effective July 1, 2002.

(4) In accordance with Substitute House Bill No. 2242 (nursing home rates), the department shall issue certificates of capital authorization which result in up to $10 million of increased asset value completed and ready for occupancy in fiscal year 2003; in up to $27 million of increased asset value completed and ready for occupancy in fiscal year 2004; and in up to $27 million of increased asset value completed and ready for occupancy in fiscal year 2005.

(5) Adult day health services shall not be considered a duplication of services for persons receiving care in long-term care settings licensed under chapter 18.20, 72.36, or 70.128 RCW.

(6) Within funds appropriated in this section and in section 204 of this act, the aging and adult services program shall coordinate with and actively support the efforts of the mental health program and of the regional support networks to provide stable community living arrangements for persons with dementia and traumatic brain injuries who have been long-term residents of the state psychiatric hospitals. The
aging and adult services program shall report to the health care and fiscal committees of the legislature by November 1, 2001, and by November 1, 2002, on the actions it has taken to achieve this objective.

(7) Within funds appropriated in this section and in section 204 of this act, the aging and adult services program shall devise and implement strategies in partnership with the mental health program and the regional support networks to reduce the use of state and local psychiatric hospitals for the short-term stabilization of persons with dementia and traumatic brain injuries. Such strategies may include training and technical assistance to help long-term care providers avoid and manage behaviors which might otherwise result in psychiatric hospitalizations; monitoring long-term care facilities to assure residents are receiving appropriate mental health care and are not being inappropriately medicated or hospitalized; the development of diversion beds and stabilization support teams; and the establishment of systems to track the use of psychiatric hospitals by long-term care providers. The aging and adult services program shall report to the health care and fiscal committees of the legislature by November 1, 2001, and by November 1, 2002, on the actions it has taken to achieve this objective.

(8) In accordance with Substitute House Bill No. 1341, the department may implement two medicaid waiver programs for persons who do not qualify for such services as categorically needy, subject to federal approval and the following conditions and limitations:

(a) One waiver program shall include coverage of home-based services, and the second shall include coverage of care in community residential facilities. Enrollment in the waiver covering home-based services shall not exceed ((150)) 15 persons by the end of fiscal year 2002, nor ((200)) 163 persons by the end of fiscal year 2003. Enrollment in the waiver covering community residential services shall not exceed ((500)) 50 persons by the end of fiscal year 2002, nor ((900)) 600 persons by the end of fiscal year 2003.

(b) For each month of waiver service delivered to a person who was not covered by medicaid prior to their enrollment in the waiver, the aging and adult services program shall transfer to the medical assistance program state and federal funds equal to the monthly per capita expenditure amount, net of drug rebates, estimated for medically
needy-AGED PERSONS IN THE MOST RECENT FORECAST OF MEDICAL ASSISTANCE
EXPENDITURES.

(c) The department shall identify the number of medically needy nursing home residents, and enrollment and expenditures on each of the two medically needy waivers, on monthly management reports.

(d) The department shall track and report to health care and fiscal committees of the legislature by November 15, 2002, on the types of long-term care support a sample of waiver participants were receiving prior to their enrollment in the waiver, how those services were being paid for, and an assessment of their adequacy.

(9) $50,000 of the general fund--state appropriation for fiscal year 2002 and $50,000 of the general fund--state appropriation for fiscal year 2003 are provided solely for payments to any nursing facility licensed under chapter 18.51 RCW which meets all of the following criteria: (a) The nursing home entered into an arm's length agreement for a facility lease prior to January 1, 1980; (b) the lessee purchased the leased nursing home after January 1, 1980; and (c) the lessor defaulted on its loan or mortgage for the assets of the home after January 1, 1991, and prior to January 1, 1992. Payments provided pursuant to this subsection shall not be subject to the settlement, audit, or rate-setting requirements contained in chapter 74.46 RCW.

(10) $364,000 of the general fund--state appropriation for fiscal year 2002, $364,000 of the general fund--state appropriation for fiscal year 2003, and $740,000 of the general fund--federal appropriation are provided solely for payment of exceptional care rates so that persons with Alzheimer's disease and related dementias who might otherwise require nursing home or state hospital care can instead be served in boarding home-licensed facilities which specialize in the care of such conditions.

(11) From funds appropriated in this section, the department shall increase compensation for individual and for agency home care providers. Payments to individual home care providers are to be increased from $7.18 per hour to $7.68 per hour on July 1, 2001. Payments to agency providers are to be increased to $13.30 per hour on July 1, 2001, and to $13.44 per hour on July 1, 2002. All but 18 cents per hour of the July 1, 2001, increase to agency providers is to be used to increase wages for direct care workers. The appropriations in this section also include the funds needed for the employer share of
unemployment and social security taxes on the amount of the wage increase required by this subsection.

(12) $2,507,000 of the general fund--state appropriation for fiscal year 2002, $2,595,000 of the general fund--state appropriation for fiscal year 2003, and $5,100,000 of the general fund--federal appropriation are provided solely for prospective rate increases intended to increase compensation by an average of fifty cents per hour for low-wage workers in agencies which contract with the state to provide community residential services for persons with functional disabilities. In consultation with the statewide associations representing such agencies, the department shall establish a mechanism for testing the extent to which funds have been used for this purpose, and report the results to the fiscal committees of the legislature by February 1, 2002. The amounts in this subsection also include the funds needed for the employer share of unemployment and social security taxes on the amount of the wage increase.

(13) $1,082,000 of the general fund--state appropriation for fiscal year 2002, $1,082,000 of the general fund--state appropriation for fiscal year 2003, and $2,204,000 of the general fund--federal appropriation are provided solely for prospective rate increases intended to increase compensation for low-wage workers in nursing homes which contract with the state. For fiscal year 2002, the department shall add forty-five cents per patient day to the direct care rate which would otherwise be paid to each nursing facility in accordance with chapter 74.46 RCW. For fiscal year 2003, the department shall increase the median price per case-mix unit for each of the applicable peer groups by six-tenths of one percent in order to distribute the available funds. Beginning July 1, 2002, for a specific nursing facility to be eligible for the rate increases provided in this subsection, the facility shall submit the following to the department:

(a) Proof of a legally binding, written commitment to increase the salaries, wages, or benefits of existing and newly hired low-wage workers, excluding managers, administrators, and contract employees, during the rate year;

(b) Proof of the existence of a method of enforcement of the commitment, such as arbitration, that is available to the employees or their representative, and proof that such a method is expeditious, uses a neutral decision maker, and is economical for the employees; and
(c) Proof that the specific nursing facility has provided written
notice of the terms of the commitment and the availability of the
enforcement mechanism to the relevant employees or their recognized
representatives.

(14) In consultation with the statewide associations representing
nursing facilities, the department shall establish a mechanism for
testing the extent to which funds have been used for ((this)) the
purposes of subsection (13) of this section, and report the results to
the fiscal committees of the legislature by February 1, ((2002)) 2003.

(15) $43,000 of the general fund--state appropriation for fiscal
year 2003 and $42,000 of the general fund--federal appropriation are
provided solely for the implementation of Substitute House Bill No.
2604 (unemployment compensation). If the bill is not enacted by June
30, 2002, the amounts provided in this subsection shall lapse.

(16) In the event that the cumulative expenditure pattern for this
program indicates that fiscal year appropriations are insufficient to
cover program costs, the department shall take necessary steps to
reduce expenditures so that total program costs will not exceed the
annual appropriation authority. The department will notify the fiscal
committees of the legislature prior to taking such action.

TOTAL APPROPRIATION . . . . . . . . $ ((2,249,449,000))
2,233,927,000

The appropriations in this section are subject to the following
conditions and limitations:
(1) $282,081,000 of the general fund--state appropriation for fiscal year 2002, $278,277,000 of the general fund--state appropriation for fiscal year 2003, $1,254,197,000 of the general fund--federal appropriation, and $31,444,000 of the general fund--local appropriation are provided solely for the WorkFirst program and child support operations. WorkFirst expenditures include TANF grants, diversion services, subsidized child care, employment and training, other WorkFirst related services, allocated field services operating costs, and allocated economic services program administrative costs. Within the amounts provided in this subsection, the department shall:

(a) Continue to implement WorkFirst program improvements that are designed to achieve progress against outcome measures specified in RCW 74.08A.410. Valid outcome measures of job retention and wage progression shall be developed and reported quarterly to appropriate fiscal and policy committees of the legislature for families who leave assistance, measured after 12 months, 24 months, and 36 months. An increased attention to job retention and wage progression is necessary to emphasize the legislature's goal that the WorkFirst program succeed in helping recipients gain long-term economic independence and not cycle on and off public assistance. The wage progression measure shall report the median percentage increase in quarterly earnings and hourly wage after 12 months, 24 months, and 36 months. The wage progression report shall also report the percent with earnings above one hundred percent and two hundred percent of the federal poverty level. The report shall compare former WorkFirst participants with similar workers who did not participate in WorkFirst. The department shall also report the percentage of families who have returned to temporary assistance for needy families after 12 months, 24 months, and 36 months.

(b) Develop informational materials that educate families about the difference between cash assistance and work support benefits. These materials must explain, among other facts, that the benefits are designed to support their employment, that there are no time limits on the receipt of work support benefits, and that immigration or residency status will not be affected by the receipt of benefits. These materials shall be posted in all community service offices and distributed to families. Materials must be available in multiple languages. When a family leaves the temporary assistance for needy families program, receives cash diversion assistance, or withdraws a
temporary assistance for needy families application, the department of social and health services shall educate them about the difference between cash assistance and work support benefits and offer them the opportunity to begin or to continue receiving work support benefits, so long as they are eligible. The department shall provide this information through in-person interviews, over the telephone, and/or through the mail. Work support benefits include food stamps, medicaid for all family members, medicaid or state children's health insurance program for children, and child care assistance. The department shall report annually to the legislature the number of families who have had exit interviews, been reached successfully by phone, and been sent mail. The report shall also include the percentage of families who elect to continue each of the benefits and the percentage found ineligible by each substantive reason code. A substantive reason code shall not be "other." The report shall identify barriers to informing families about work support benefits and describe existing and future actions to overcome such barriers.

(c) From the amounts provided in this subsection, provide $50,000 from the general fund--state appropriation for fiscal year 2002 and $50,000 from the general fund--state appropriation for fiscal year 2003 to the Washington institute for public policy for continuation of the WorkFirst evaluation database.

(d) Submit a report by December 1, 2001, to the fiscal committees of the legislature containing a spending plan for the WorkFirst program. The plan shall identify how spending levels in the 2001-2003 biennium will be adjusted by June 30, 2003, to be sustainable within available federal grant levels and the carryforward level of state funds.

(2) ($48,341,000) $54,623,000 of the general fund--state appropriation for fiscal year 2002 and ($48,341,000) $45,055,000 of the general fund--state appropriation for fiscal year 2003 are provided solely for cash assistance and other services to recipients in the general assistance--unemployable program. Within these amounts, the department may expend funds for services that assist recipients to reduce their dependence on public assistance, provided that expenditures for these services and cash assistance do not exceed the funds provided. The department shall make administrative and eligibility changes, including those described in House Bill No. 3009
(social service programs), to the program in order to achieve savings assumed in this subsection.

(3) $5,632,000 of the general fund--state appropriation for fiscal year 2002 and ($5,632,000) $1,132,000 of the general fund--state appropriation for fiscal year 2003 are provided solely for the food assistance program for legal immigrants. The level of benefits shall be equivalent to the benefits provided by the federal food stamp program.

(4) $48,000 of the general fund--state appropriation for fiscal year 2002 is provided solely to implement chapter 111, Laws of 2001 (veterans/Philippines).

(5) The department shall apply the provisions of RCW 74.04.005(10) to simplify resource eligibility policy, make such policy consistent with other federal public assistance programs, and achieve the budgetary savings assumed in this section.

(6) It is the intent of the legislature that the department shall comply with federal requirements to maintain aggregate funding for supplemental security income (SSI) state supplemental payments. Up to $10,000,000 in existing funding for family support payments to persons with developmental disabilities in the developmental disabilities program shall be provided as SSI state supplemental payments. Any subsequent increases in the family support program will be provided as additional SSI state supplemental payments. The department will adjust the base SSI state supplemental payments as needed for these increases. Individuals receiving family support payments shall not become eligible for medical assistance under RCW 74.09.510 solely because they receive the SSI state supplemental payment. If the number of people receiving SSI state supplemental payments does not allow for $10,000,000 in family support SSI state supplemental payments, the department shall identify other programs where existing payments can be made as SSI state supplemental payments to reach that amount.

(7) In the event that the cumulative expenditure pattern for this program indicates that fiscal year appropriations are insufficient to cover program costs, the department shall take necessary steps to reduce expenditures so that total program costs will not exceed the annual appropriation authority. The department will notify the fiscal committees of the legislature prior to taking such action.

TOTAL APPROPRIATION . . . . . . . . . . . $(7,949,775,000)
The appropriations in this section are subject to the following conditions and limitations:

(1) The department shall increase its efforts to restrain the growth of health care costs. The appropriations in this section anticipate that the department implements a combination of cost containment and utilization strategies sufficient to reduce general fund--state costs by approximately 3 percent below the level projected for the 2001-03 biennium in the March 2001 forecast plus an additional $10,000,000. The department shall report to the fiscal committees of the legislature by October 1, 2001, on its specific plans and semiannual targets for accomplishing these savings. The department shall report again to the fiscal committees by March 1, 2002, and by September 1, 2002, on actual performance relative to the semiannual targets. If satisfactory progress is not being made to achieve the targeted savings, the reports shall include recommendations for additional or alternative measures to control costs.

(2) The department shall continue to extend medicaid eligibility to children through age 18 residing in households with incomes below 200 percent of the federal poverty level.

(3) In determining financial eligibility for medicaid-funded services, the department is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(4) $502,000 of the health services account appropriation, $400,000 of the general fund--private/local appropriation, and $1,676,000 of the general fund--federal appropriation are provided solely for implementation of Second Substitute House Bill No. 1058 (breast and cervical cancer treatment). If the bill is not enacted by June 30, 2001, or if private funding is not contributed equivalent to the general fund--private/local appropriation, the funds appropriated in this subsection shall lapse.

(5) $620,000 of the health services account appropriation for fiscal year 2002, $1,380,000 of the health services account appropriation for fiscal year 2003, and $2,000,000 of the general fund--federal appropriation are provided solely for implementation of a "ticket to work" medicaid buy-in program for working persons with disabilities, operated in accordance with the following conditions:

(a) To be eligible, a working person with a disability must have total income which is less than 450 percent of poverty;
(b) Participants shall participate in the cost of the program by paying (i) a monthly enrollment fee equal to fifty percent of any unearned income in excess of the medicaid medically needy standard; and (ii) a monthly premium equal to 5 percent of all unearned income, plus 5 percent of all earned income after disregarding the first sixty-five dollars of monthly earnings, and half the remainder;

(c) The department shall establish more restrictive eligibility standards than specified in this subsection to the extent necessary to operate the program within appropriated funds;

(d) The department may require point-of-service copayments as appropriate, except that copayments shall not be so high as to discourage appropriate service utilization, particularly of prescription drugs needed for the treatment of psychiatric conditions; and

(e) The department shall establish systems for tracking and reporting enrollment and expenditures in this program, and the prior medical assistance eligibility status of new program enrollees. The department shall additionally survey the prior and current employment status and approximate hours worked of program enrollees, and report the results to the fiscal and health care committees of the legislature by January 15, 2003.

(6) From funds appropriated in this section, the department shall design, implement, and evaluate pilot projects to assist individuals with at least three different diseases to improve their health, while reducing total medical expenditures. The projects shall involve (a) identifying persons who are seriously or chronically ill due to a combination of medical, social, and functional problems; and (b) working with the individuals and their care providers to improve adherence to state-of-the-art treatment regimens. The department shall report to the health care and the fiscal committees of the legislature by January 1, 2002, on the particular disease states, intervention protocols, and delivery mechanisms it proposes to test.

(7) Sufficient funds are appropriated in this section for the department to continue full-scope dental coverage, vision coverage, and podiatry services for medicaid-eligible adults.

(8) The legislature reaffirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.
(9) $80,000 of the general fund--state appropriation for fiscal year 2002, $80,000 of the general fund--state appropriation for fiscal year 2003, and $160,000 of the general fund--federal appropriation are provided solely for the newborn referral program to provide access and outreach to reduce infant mortality.

(10) $30,000 of the general fund--state appropriation for fiscal year 2002, $31,000 of the general fund--state appropriation for fiscal year 2003, and $62,000 of the general fund--federal appropriation are provided solely for implementation of Substitute Senate Bill No. 6020 (dental sealants). If Substitute Senate Bill No. 6020 is not enacted by June 30, 2001, the amounts provided in this subsection shall lapse.

(11) In accordance with RCW 74.46.625, $703,077,000 of the health services account appropriation for fiscal year 2002, $228,252,000 of the health services account appropriation for fiscal year 2003, and $945,284,000 of the general fund--federal appropriation are provided solely for supplemental payments to nursing homes operated by rural public hospital districts, applicable to state fiscal years 2000, 2001, 2002, and 2003. The payments shall be conditioned upon (a) a contractual commitment by the association of public hospital districts and participating rural public hospital districts to make an intergovernmental transfer to the state treasurer, for deposit into the health services account, equal to at least 98 percent of the supplemental payments; and (b) a contractual commitment by the participating districts to not allow expenditures covered by the supplemental payments to be used for medicaid nursing home rate-setting. The participating districts shall retain no more than a total of $20,000,000 for the 2001-03 biennium.

(12) $38,766,000 of the health services account appropriation for fiscal year 2002, $40,488,000 of the health services account appropriation for fiscal year 2003, and $79,832,000 of the general fund--federal appropriation are provided solely for additional disproportionate share and medicare upper payment limit payments to public hospital districts. (a) The payments shall be conditioned upon a contractual commitment by the participating public hospital districts to make an intergovernmental transfer to the health services account equal to at least 91 percent of the additional payments. At least 28 percent of
the amounts retained by the participating hospital districts shall be allocated to the state's teaching hospitals.

(b) An additional 4.5 percent of the additional payments may be retained by the participating public hospital districts contingent upon the receipt of $446,500,000 in newly identified proshare reimbursement from the federal government over the 2001-03 biennium. If the actual amount received is less than $446,500,000, the amount retained pursuant to this subsection (12)(b) shall be prorated accordingly. The state teaching hospitals shall receive a distribution of the amount retained by the participating hospital districts in this subsection (12)(b) as allocated in (a) of this subsection.

(13) $412,000 of the general fund--state appropriation for fiscal year 2002, $862,000 of the general fund--state appropriation for fiscal year 2003, and $730,000 of the general fund--federal appropriation are provided solely for implementation of Substitute House Bill No. 1162 (small rural hospitals). If Substitute House Bill No. 1162 is not enacted by June 30, 2001, the amounts provided in this subsection shall lapse.

(14) The department may continue to use any federal money available to continue to provide medicaid matching funds for funds contributed by local governments for purposes of conducting eligibility outreach to children and underserved groups. The department shall ensure cooperation with the anticipated audit of the school districts' matchable expenditures for this program and advise the appropriate legislative fiscal committees of the findings.

(15) The department may transfer up to $11,000,000 of the general fund--state appropriation for fiscal year 2003 from the medical assistance administration to the economic services administration to implement reductions in the general assistance-unemployable program.

(16) The department shall coordinate with the health care authority and community and migrant health clinics to actively assist children and immigrant adults not eligible for medicaid to enroll in the basic health plan.

(17) Individuals who transition from receiving family support payments through the developmental disabilities division to SSI state supplemental payments shall not become eligible for medical assistance under RCW 74.09.510 solely because they receive the SSI state supplemental payment.
(18) Within available resources, the department shall design and initiate a general assistance medical care management project in two counties, one in eastern Washington and one in western Washington. In designing the project, the department shall consult with the mental health division, migrant and community health centers, and any other managed care provider that has the capacity to offer coordinated medical and mental health care. The projects shall be designed in such a way that a designated provider network is established for general assistance clients so that care management can be maximized. The department shall report on the design of the pilot projects to the policy and fiscal committees of the legislature by October 15, 2002.

(19) In the event that the cumulative expenditure pattern for this program indicates that fiscal year appropriations are insufficient to cover program costs, or that assumed federal proshare revenue is not attainable, the department shall take necessary steps to reduce expenditures so that total program costs will not exceed the annual appropriation authority. The department will notify the fiscal committees of the legislature prior to taking such action.

Staff allocations for small school enrollments in (d) through (f) of this subsection shall be reduced for vocational full-time equivalent enrollments. Staff allocations for small school enrollments in grades K-6 shall be the greater of that generated under (a) of this subsection, or under (d) and (e) of this subsection. Certificated staffing allocations shall be as follows:

For purposes of this subsection, additional classroom contact hours provided by teachers beyond the normal school day under a supplemental contract shall be converted to a certificated full-time equivalent by dividing the classroom contact hours by 900.

For any school district documenting a lower certificated instructional staff ratio, the allocation shall be based on the district's actual grades K-4 certificated instructional staff ratio achieved in that school year, or the statutory minimum ratio established under RCW 28A.150.260(2)(b), if greater;

Additional classified instructional assistants, for the purposes of this subsection, shall be determined using the 1989-90 school year as the base year;

(C) Any district maintaining a ratio in grades K-4 equal to or greater than 55.4 certificated instructional staff per thousand full-time equivalent students in the 2001-02 school year, and a ratio equal to or greater than 53.2 certificated instructional staff per thousand full-time equivalent students in the 2002-03 school year, may use allocations generated under this subsection (2)(a)(iv) and (v) in excess of that required to maintain the minimum ratio established under RCW 28A.150.260(2)(b) to employ additional basic education certificated instructional staff or classified instructional assistants in grades 5-6. Units calculated under (f)(ii) of this subsection shall be reduced by certificated staff units at the rate of forty-six certificated instructional staff units and four certificated administrative staff units per thousand vocational full-time equivalent students.

(b) The number of classified staff units determined in subsection (3) of this section multiplied by 1.152. This factor is intended to adjust allocations so that, for the purposes of distributing insurance benefits, full-time equivalent classified employees may be calculated on the basis of 1440 hours of work per year, with no individual employee counted as more than one full-time equivalent.

(8) Any school district board of directors may petition the superintendent of public instruction by submission of a resolution adopted in a public meeting to reduce or delay any portion of its basic education allocation for any school year. The superintendent of public instruction shall approve such reduction or delay if it does not impair the district's financial condition. Any delay shall not be for more than two school years. (b) As used in this subsection, the column headings "BA+(N)" refer to the number of credits earned since receiving the baccalaureate degree.

(c) For credits earned after the baccalaureate degree but before the masters degree, any credits in excess of forty-five credits may be counted after the masters degree. Thus, as used in this subsection, the column headings "MA+(N)" refer to the total of:

(i) Credits earned since receiving the masters degree; and

(ii) Any credits in excess of forty-five credits that were earned after the baccalaureate degree but before the masters degree.

(5) For the purposes of this section:

(a) "BA" means a baccalaureate degree.

(b) "MA" means a masters degree.

(c) "PHD" means a doctorate degree.

(d) "Years of service" shall be calculated under the same rules adopted by the superintendent of public instruction.

(e) "Credits" means college quarter hour credits and equivalent in-service credits computed in accordance with RCW 28A.415.020 and 28A.415.023.

(6) No more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and
LEAP documents referenced in this act, or any replacement schedules and documents, unless:

(a) The employee has a masters degree; or
(b) The credits were used in generating state salary allocations before January 1, 1992.

(7) The certificated instructional staff base salary specified for each district in LEAP Document 12E and the salary schedules in subsection (4)(a) of this section include three learning improvement days originally added in the 1999-00 school year. A school district is eligible for the learning improvement day funds for school years 2001-02 and 2002-03, only if three learning improvement days have been added to the 180-day contract year. If fewer than three days are added, the additional learning improvement allocation shall be adjusted accordingly. The additional days shall be for activities related to improving student learning consistent with education reform implementation. The length of a learning improvement day shall not be less than the length of a full day under the base contract. The superintendent of public instruction shall ensure that school districts adhere to the intent and purposes of this subsection.

(8) The salary allocation schedules established in this section are for allocation purposes only except as provided in RCW 28A.400.200(2).

(1) Each general fund fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(2) A maximum of $767,000 of this fiscal year 2002 appropriation and a maximum of $775,000 of the fiscal year 2003 appropriation may be expended for regional transportation coordinators and related activities. The transportation coordinators shall ensure that data submitted by school districts for state transportation funding shall, to the greatest extent practical, reflect the actual transportation activity of each district.

(3) $5,000 of the fiscal year 2002 appropriation and $5,000 of the fiscal year 2003 appropriation are provided solely for the transportation of students enrolled in "choice" programs. Transportation shall be limited to low-income students who are transferring to "choice" programs solely for educational reasons.

Allocations for transportation of students living within one radius mile shall be based on the number of enrolled students in grades kindergarten through five living within one radius mile of their assigned school multiplied by the per mile reimbursement rate for the school year multiplied by 1.29.

Sec. 506. 2001 2nd sp. s. c 7 s 507 (uncodified) is amended to read as follows:
FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SPECIAL EDUCATION

PROGRAMS

General Fund--State Appropriation (FY 2002) . . $ (419,264,000)

General Fund--State Appropriation (FY 2003) . . $ (420,644,000)

General Fund--Federal Appropriation . . . . . . . $ 256,092,000

TOTAL APPROPRIATION . . . . . . . . . . . . . . . . . . $ (1,096,000,000)

The appropriations in this section are subject to the following conditions and limitations:

(1) Funding for special education programs is provided on an excess cost basis, pursuant to RCW 28A.150.390. School districts shall ensure that special education students as a class receive their full share of the general apportionment allocation accruing through sections 502 and 504 of this act. To the extent a school district cannot provide an appropriate education for special education students under chapter 28A.155 RCW through the general apportionment allocation, it shall provide services through the special education excess cost allocation funded in this section.

(2)(a) Effective with the 2001-02 school year, the superintendent of public instruction shall change the S-275 personnel reporting system and all related accounting requirements to ensure that:

(i) Special education students are basic education students first;

(ii) As a class, special education students are entitled to the full basic education allocation; and

(iii) Special education students are basic education students for the entire school day.

(b) Effective with the 2001-02 school year, the S-275 and accounting changes shall supercede any prior excess cost methodologies and shall be required of all school districts.

(3) Each general fund--state fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(4) The superintendent of public instruction shall distribute state funds to school districts based on two categories: The optional birth through age two program for special education eligible developmentally delayed infants and toddlers, and the mandatory special education
program for special education eligible students ages three to twenty-one. A "special education eligible student" means a student receiving specially designed instruction in accordance with a properly formulated individualized education program.

(5)(a) For the 2001-02 and 2002-03 school years, the superintendent shall distribute state funds to each district based on the sum of:

(i) A district's annual average headcount enrollment of developmentally delayed infants and toddlers ages birth through two, multiplied by the district's average basic education allocation per full-time equivalent student, multiplied by 1.15; and
(ii) A district's annual average full-time equivalent basic education enrollment multiplied by the funded enrollment percent determined pursuant to subsection (6)(b) of this section, multiplied by the district's average basic education allocation per full-time equivalent student multiplied by 0.9309.

(b) For purposes of this subsection, "average basic education allocation per full-time equivalent student" for a district shall be based on the staffing ratios required by RCW 28A.150.260 and shall not include enhancements, secondary vocational education, or small schools.

(6) The definitions in this subsection apply throughout this section.

(a) "Annual average full-time equivalent basic education enrollment" means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW 28A.225.250).

(b) "Enrollment percent" means the district's resident special education annual average enrollment, excluding the birth through age two enrollment, as a percent of the district's annual average full-time equivalent basic education enrollment. For the 2001-02 and the 2002-03 school years, each district's funded enrollment percent shall be the lesser of the district's actual enrollment percent for the school year for which the allocation is being determined or 12.7 percent for the 2001-02 school year or 13.0 percent for the 2002-03 school year.

(7) At the request of any interdistrict cooperative of at least 15 districts in which all excess cost services for special education students of the districts are provided by the cooperative, the maximum
enrollment percent shall be 12.7 percent for the 2001-02 (school year) and (13.0 percent for the) 2002-03 school (year) years, and shall be calculated in the aggregate rather than individual district units. For purposes of this subsection, the average basic education allocation per full-time equivalent student shall be calculated in the aggregate rather than individual district units.

(8) For fiscal year 2002, safety net funding shall be awarded by the state safety net committee subject to the following conditions and limitations:

(a) A maximum of ($12,000,000) $9,400,000 of the general fund--state appropriation for fiscal year 2002 (and a maximum of $10,623,000 of the general fund--state appropriation for fiscal year 2003 are) is provided as safety net funding for districts with demonstrated needs for state special education funding beyond the amounts provided in subsection (5) of this section. Safety net funding shall be awarded by the state safety net oversight committee.

(i) The safety net oversight committee shall first consider the needs of districts adversely affected by the 1995 change in the special education funding formula. Awards shall be based on the lesser of the amount required to maintain the 1994-95 state special education excess cost allocation to the school district in aggregate or on a dollar per funded student basis.

(ii) The committee shall then consider unmet needs for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding formulas. In the determination of need, the committee shall also consider additional available revenues from federal and local sources. Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(b) To the extent necessary, $2,750,000 of the general fund--federal appropriation shall be expended for safety net funding to meet the extraordinary needs of one or more individual special education students. If safety net awards to meet the extraordinary needs exceed $2,750,000 of the general fund--federal appropriation, the superintendent shall expend all available federal discretionary funds necessary to meet this need. General fund--state funds shall not be expended for this purpose.
(9) For fiscal year 2003, safety net funding shall be awarded by the state safety net committee to districts with demonstrated needs for state special education funding beyond the amounts provided in subsection (5) of this section, subject to the following conditions and limitations:

(a) A maximum of $1,100,000 of the general fund--state appropriation for fiscal year 2003 is provided for awards to districts adversely affected by the 1995 change in the special education funding formula. Awards shall be based on the lesser of the amount required to maintain the 1994-95 state special education excess cost allocation to the school district in aggregate or on a dollar per funded student basis.

(b) A maximum of $13,650,000 of the general fund--federal appropriation shall be awarded to districts as follows:

(i) The committee shall consider unmet needs for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding formulas. In the determination of need, the committee shall also consider additional available revenues from federal and local sources.

(ii) The committee shall then consider the extraordinary high cost needs of one or more individual special education students.

(c) If safety net awards under (b) of this subsection (9) exceed $13,650,000, the superintendent shall expend all available federal discretionary funds necessary to meet these needs. General fund--state funds shall not be expended for these purposes.

(d) Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(10) For fiscal years 2002 and 2003:

(a) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(b) Safety net awards shall be adjusted based on the percent of potential medicaid eligible students billed as calculated by the superintendent in accordance with chapter 318, Laws of 1999.

(c) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

(d) The superintendent may expend up to $120,000 per year of the amounts provided in this subsection to provide staff assistance.
to the committee in analyzing applications for safety net funds received by the committee.

((9)) (11) The superintendent of public instruction may adopt such rules and procedures as are necessary to administer the special education funding and safety net award process. Prior to revising any standards, procedures, or rules, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature.

((10)) (12) The safety net oversight committee appointed by the superintendent of public instruction shall consist of:
(a) One staff from the office of superintendent of public instruction;
(b) Staff of the office of the state auditor;
(c) Staff of the office of the financial management; and
(d) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.

((11) To the extent necessary, $5,500,000 of the general fund--federal appropriation shall be expended for safety net funding to meet the extraordinary needs of one or more individual special education students. If safety net awards to meet the extraordinary needs exceed $5,500,000 of the general fund--federal appropriation, the superintendent shall expend all available federal discretionary funds necessary to meet this need. General fund--state funds shall not be expended for this purpose.

(12) A maximum of $678,000 may be expended from the general fund--state appropriations to fund 5.43 full-time equivalent teachers and 2.1 full-time equivalent aides at children's orthopedic hospital and medical center. This amount is in lieu of money provided through the home and hospital allocation and the special education program.

((13)) (14) $1,000,000 of the general fund--federal appropriation is provided for projects to provide special education students with appropriate job and independent living skills, including work experience where possible, to facilitate their successful transition out of the public school system. The funds provided by this subsection shall be from federal discretionary grants.

((14)) (15) The superintendent shall maintain the percentage of federal flow-through to school districts at 85 percent for the 2001-02 school year. For the 2002-03 school year, the superintendent shall
allocate federal funds as specified in this section and shall adjust federal flow through accordingly. In addition to other purposes, school districts may use increased federal funds for high-cost students, for purchasing regional special education services from educational service districts, and for staff development activities particularly relating to inclusion issues.

((15)) (16) A maximum of $1,200,000 of the general fund--federal appropriation may be expended by the superintendent for projects related to use of inclusion strategies by school districts for provision of special education services. The superintendent shall prepare an information database on laws, best practices, examples of programs, and recommended resources. The information may be disseminated in a variety of ways, including workshops and other staff development activities.

((16)) (17) A school district may carry over from one year to the next year up to 10 percent of general fund--state funds allocated under this program; however, carry over funds shall be expended in the special education program.

Sec. 507. 2001 2nd sp.s. c 7 s 508 (uncodified) is amended to read as follows:

(2) A maximum of $253,000 of the fiscal year 2002 general fund appropriation and a maximum of $254,000 of the fiscal year 2003 general fund appropriation may be expended for regional traffic safety education coordinators.

EFFICIENCY SAVINGS. The legislature finds that all state agencies must continue to strive to make their operations more efficient and effective. During periods of economic downturn, the need to reduce costs while still maintaining vital services is especially critical. It is the intent of the legislature that all agencies work to reduce costs while minimizing the impact on services to the public by taking the following actions:
(1) Imposing a hiring freeze for all positions except those that
directly serve public safety and essential health and welfare
activities of state government;

(2) Delaying equipment purchases unless that equipment is essential
to performing the mission of the agency;

(3) Avoiding all travel unless that travel is essential to
performing the mission of the agency;

(4) Avoiding personal services contracts unless those contracts are
essential to performing the mission of the agency; and

(5) Identifying and implementing other administrative efficiencies.
When requested, agencies are expected to be able to identify, for
each action, the level of savings achieved each fiscal quarter compared
to the level of administrative and efficiency savings assumed in this
act.

Individual agencies' appropriations for the 2001-2003 biennium have
been reduced to reflect the efficiencies assumed in this section.

in chapter 3.62 RCW as now exists or is later amended.

Moneys available in the administrative contingency fund, other than
money in the special account created under RCW 50.24.014, shall be
expended upon the direction of the commissioner, with the approval of
the governor, whenever it appears to him or her that such expenditure
is necessary for:
(a) The proper administration of this title and no federal funds
are available for the specific purpose to which such expenditure is to
be made, provided, the moneys are not substituted for appropriations
from federal funds which, in the absence of such moneys, would be made
available.
(b) The proper administration of this title for which purpose
appropriations from federal funds have been requested but not yet
received, provided, the administrative contingency fund will be
reimbursed upon receipt of the requested federal appropriation.
(c) The proper administration of this title for which compliance
and audit issues have been identified that establish federal claims
requiring the expenditure of state resources in resolution. Claims
must be resolved in the following priority: First priority is to
provide services to eligible participants within the state; second
priority is to provide substitute services or program support; and last priority is the direct payment of funds to the federal government.

(d) During the 2001–2003 fiscal biennium, the cost of worker retraining programs at community and technical colleges as appropriated by the legislature.

Money in the special account created under RCW 50.24.014 may only be expended, after appropriation, for the purposes specified in RCW 50.62.010, 50.62.020, 50.62.030, 50.04.070, 50.04.072, 50.16.010, 50.29.025, 50.24.014, 50.44.053, and 50.22.010.

Sec. 914. RCW 50.20.190 and 2001 c 146 s 7 are each amended to read as follows:

(1) An individual who is paid any amount as benefits under this title to which he or she is not entitled shall, unless otherwise relieved pursuant to this section, be liable for repayment of the amount overpaid. The department shall issue an overpayment assessment setting forth the reasons for and the amount of the overpayment. The amount assessed, to the extent not collected, may be deducted from any future benefits payable to the individual: PROVIDED, That in the absence of a back pay award, a settlement affecting the allowance of benefits, fraud, misrepresentation, or willful nondisclosure, every determination of liability shall be mailed or personally served not later than two years after the close of or final payment made on the individual's applicable benefit year for which the purported overpayment was made, whichever is later, unless the merits of the claim are subjected to administrative or judicial review in which event the period for serving the determination of liability shall be extended to allow service of the determination of liability during the six-month period following the final decision affecting the claim.

(2) The commissioner may waive an overpayment if the commissioner finds that the overpayment was not the result of fraud, misrepresentation, willful nondisclosure, or fault attributable to the individual and that the recovery thereof would be against equity and good conscience: PROVIDED, HOWEVER, That the overpayment so waived shall be charged against the individual's applicable entitlement for the eligibility period containing the weeks to which the overpayment was attributed as though such benefits had been properly paid.

(3) Any assessment herein provided shall constitute a determination of liability from which an appeal may be had in the same manner and to
the same extent as provided for appeals relating to determinations in
respect to claims for benefits: PROVIDED, That an appeal from any
determination covering overpayment only shall be deemed to be an appeal
from the determination which was the basis for establishing the
overpayment unless the merits involved in the issue set forth in such
determination have already been heard and passed upon by the appeal
tribunal. If no such appeal is taken to the appeal tribunal by the
individual within thirty days of the delivery of the notice of
determination of liability, or within thirty days of the mailing of the
notice of determination, whichever is the earlier, the determination of
liability shall be deemed conclusive and final. Whenever any such
notice of determination of liability becomes conclusive and final, the
commissioner, upon giving at least twenty days notice by certified mail
return receipt requested to the individual's last known address of the
intended action, may file with the superior court clerk of any county
within the state a warrant in the amount of the notice of determination
of liability plus a filing fee under RCW 36.18.012(10). The clerk of
the county where the warrant is filed shall immediately designate a
superior court cause number for the warrant, and the clerk shall cause
to be entered in the judgment docket under the superior court cause
number assigned to the warrant, the name of the person(s) mentioned in
the warrant, the amount of the notice of determination of liability,
and the date when the warrant was filed. The amount of the warrant as
docketed shall become a lien upon the title to, and any interest in,
all real and personal property of the person(s) against whom the
warrant is issued, the same as a judgment in a civil case duly docketed
in the office of such clerk. A warrant so docketed shall be sufficient
to support the issuance of writs of execution and writs of garnishment
in favor of the state in the manner provided by law for a civil
judgment. A copy of the warrant shall be mailed to the person(s)
mentioned in the warrant by certified mail to the person's last known
address within five days of its filing with the clerk.

(4) On request of any agency which administers an employment
security law of another state, the United States, or a foreign
government and which has found in accordance with the provisions of
such law that a claimant is liable to repay benefits received under
such law, the commissioner may collect the amount of such benefits from
the claimant to be refunded to the agency. In any case in which under
this section a claimant is liable to repay any amount to the agency of
another state, the United States, or a foreign government, such amounts
may be collected without interest by civil action in the name of the
commissioner acting as agent for such agency if the other state, the
United States, or the foreign government extends such collection rights
to the employment security department of the state of Washington, and
provided that the court costs be paid by the governmental agency
benefiting from such collection.

(5) Any employer who is a party to a back pay award or settlement
due to loss of wages shall, within thirty days of the award or
settlement, report to the department the amount of the award or
settlement, the name and social security number of the recipient of the
award or settlement, and the period for which it is awarded. When an
individual has been awarded or receives back pay, for benefit purposes
the amount of the back pay shall constitute wages paid in the period
for which it was awarded. For contribution purposes, the back pay
award or settlement shall constitute wages paid in the period in which
it was actually paid. The following requirements shall also apply:

(a) The employer shall reduce the amount of the back pay award or
settlement by an amount determined by the department based upon the
amount of unemployment benefits received by the recipient of the award
or settlement during the period for which the back pay award or
settlement was awarded;

(b) The employer shall pay to the unemployment compensation fund,
in a manner specified by the commissioner, an amount equal to the
amount of such reduction;

(c) The employer shall also pay to the department any taxes due for
unemployment insurance purposes on the entire amount of the back pay
award or settlement notwithstanding any reduction made pursuant to (a)
of this subsection;

(d) If the employer fails to reduce the amount of the back pay
award or settlement as required in (a) of this subsection, the
department shall issue an overpayment assessment against the recipient
of the award or settlement in the amount that the back pay award or
settlement should have been reduced; and

(e) If the employer fails to pay to the department an amount equal
to the reduction as required in (b) of this subsection, the department
shall issue an assessment of liability against the employer which shall
be collected pursuant to the procedures for collection of assessments
provided herein and in RCW 50.24.110.
(6) When an individual fails to repay an overpayment assessment that is due and fails to arrange for satisfactory repayment terms, the commissioner shall impose an interest penalty of one percent per month of the outstanding balance. Interest shall accrue immediately on overpayments assessed pursuant to RCW 50.20.070 and shall be imposed when the assessment becomes final. For any other overpayment, interest shall accrue when the individual has missed two or more of their monthly payments either partially or in full. The interest penalty shall be used to fund detection and recovery of overpayment and collection activities, and worker retraining programs at the community and technical colleges as appropriated by the legislature.

Sec. 915. RCW 51.44.170 and 1997 c 327 s 1 are each amended to read as follows:
The industrial insurance premium refund account is created in the custody of the state treasurer. All industrial insurance refunds earned by state agencies or institutions of higher education under the state fund retrospective rating program shall be deposited into the account. The account is subject to the allotment procedures under chapter 43.88 RCW, but no appropriation is required for expenditures from the account. Only the executive head of the agency or institution of higher education, or designee, may authorize expenditures from the account. No agency or institution of higher education may make an expenditure from the account for an amount greater than the refund earned by the agency. If the agency or institution of higher education has staff dedicated to workers' compensation claims management, expenditures from the account must be used to pay for that staff, but additional expenditure from the account may be used for any program within an agency or institution of higher education that promotes or provides incentives for employee workplace safety and health and early, appropriate return-to-work for injured employees. During the 2001-2003 fiscal biennium, the legislature may transfer from the industrial insurance premium refund account to the state general fund such amounts as reflect the reductions made by the 2002 supplemental appropriations act for administrative efficiencies and savings.

Sec. 916. RCW 66.08.170 and 1961 ex.s. c 6 s 1 are each amended to read as follows:
There shall be a fund, known as the "liquor revolving fund", which shall consist of all license fees, permit fees, penalties, forfeitures, and all other moneys, income, or revenue received by the board. The state treasurer shall be custodian of the fund. All moneys received by the board or any employee thereof, except for change funds and an amount of petty cash as fixed by the board within the authority of law shall be deposited each day in a depository approved by the state treasurer and transferred to the state treasurer to be credited to the liquor revolving fund. During the 2001-2003 fiscal biennium, the legislature may transfer from the liquor revolving account to the state general fund such amounts as reflect the excess fund balance of the fund and reductions made by the 2002 supplemental appropriations act for administrative efficiencies and savings. Disbursements from the revolving fund shall be on authorization of the board or a duly authorized representative thereof. In order to maintain an effective expenditure and revenue control the liquor revolving fund shall be subject in all respects to chapter 43.88 RCW but no appropriation shall be required to permit expenditures and payment of obligations from such fund.

Sec. 917. RCW 66.08.235 and 1997 c 75 s 1 are each amended to read as follows:

The liquor control board construction and maintenance account is created within the state treasury. The liquor control board shall deposit into this account a portion of the board's markup, as authorized by chapter 66.16 RCW, placed upon liquor as determined by the board. Moneys in the account may be spent only after appropriation. The liquor control board shall use deposits to this account to fund construction and maintenance of a centralized distribution center for liquor products intended for sale through the board's liquor store and vendor system. During the 2001-2003 fiscal biennium, the legislature may transfer from the liquor control board construction and maintenance account to the state general fund such amounts as reflect the excess fund balance of the account.

Sec. 918. RCW 67.70.260 and 1985 c 375 s 6 are each amended to read as follows:

There is hereby created the lottery administrative account in the state treasury. The account shall be managed, controlled, and
maintained by the director. The legislature may appropriate from the account for the payment of costs incurred in the operation and administration of the lottery. During the 2001-2003 fiscal biennium, the legislature may transfer from the lottery administrative account to the state general fund such amounts as reflect the appropriations reductions made by the 2002 supplemental appropriations act for administrative efficiencies and savings.

Sec. 919. RCW 69.50.520 and 2001 2nd sp.s. c 7 s 920 and 2001 c 168 s 3 are each reenacted and amended to read as follows:

The violence reduction and drug enforcement account is created in the state treasury. All designated receipts from RCW 9.41.110(8), 66.24.210(4), 66.24.290(2), 69.50.505(i)(1), 82.08.150(5), 82.24.020(2), 82.64.020, and section 420, chapter 271, Laws of 1989 shall be deposited into the account. Expenditures from the account may be used only for funding services and programs under chapter 271, Laws of 1989 and chapter 7, Laws of 1994 sp. sess., including state incarceration costs. Funds from the account may also be appropriated to reimburse local governments for costs associated with implementing criminal justice legislation including chapter 338, Laws of 1997. During the 2001-2003 biennium, funds from the account may also be used for costs associated with providing grants to local governments in accordance with chapter 338, Laws of 1997, the replacement of the department of corrections' offender-based tracking system, maintenance and operating costs of the Washington association of sheriffs and police chiefs jail reporting system, and for multijurisdictional narcotics task forces. ((After July 1, 2003, at least seven and one-half percent of expenditures from the account shall be used for providing grants to community networks under chapter 70.190 RCW by the family policy council.))

Sec. 920. RCW 70.146.030 and 2001 2nd sp.s. c 7 s 922 are each amended to read as follows:

(1) The water quality account is hereby created in the state treasury. Moneys in the account may be used only in a manner consistent with this chapter. Moneys deposited in the account shall be administered by the department of ecology and shall be subject to legislative appropriation. Moneys placed in the account shall include tax receipts as provided in RCW 82.24.027, 82.26.025, and 82.32.390,
principal and interest from the repayment of any loans granted pursuant to this chapter, and any other moneys appropriated to the account by the legislature.

(2) The department may use or permit the use of any moneys in the account to make grants or loans to public bodies, including grants to public bodies as cost-sharing moneys in any case where federal, local, or other funds are made available on a cost-sharing basis, for water pollution control facilities and activities, or for purposes of assisting a public body to obtain an ownership interest in water pollution control facilities and/or to defray a part of the payments made by a public body to a service provider under a service agreement entered into pursuant to RCW 70.150.060, within the purposes of this chapter and for related administrative expenses. For the period July 1, 2001, to June 30, 2003, moneys in the account may be used to process applications received by the department that seek to make changes to or transfer existing water rights and for grants and technical assistance to public bodies for watershed planning under chapter 90.82 RCW. No more than three percent of the moneys deposited in the account may be used by the department to pay for the administration of the grant and loan program authorized by this chapter.

(3) Beginning with the biennium ending June 30, 1997, the department shall present a biennial progress report on the use of moneys from the account to the chairs of the senate committee on ways and means and the house of representatives committee on appropriations. The first report is due June 30, 1996, and the report for each succeeding biennium is due December 31 of the odd-numbered year. The report shall consist of a list of each recipient, project description, and amount of the grant, loan, or both.

(4) During the fiscal biennium ending June 30, 1997, moneys in the account may be transferred by the legislature to the water right permit processing account.

Sec. 921. RCW 80.01.080 and 2001 c 238 s 8 are each amended to read as follows:

((The transportation revolving fund and the public utilities revolving fund are abolished as of April 1, 1949, and as of such date there is created in the state treasury a public service revolving fund to which shall be transferred all moneys which then remain on hand to the credit of the transportation revolving fund and the public

utilities revolving fund, subject, however, to outstanding warrants and
other obligations chargeable to appropriations made from such funds.
From and after April 1, 1949. Regulatory fees payable by all types
of public service companies shall be deposited to the credit of the
public service revolving fund. Except for expenses payable out of the
pipeline safety account, all expense of operation of the Washington
utilities and transportation commission shall be payable out of the
public service revolving fund.

During the 2001-2003 fiscal biennium, the legislature may transfer
from the public service revolving fund to the state general fund such
amounts as reflect the appropriations reductions made by the 2002
supplemental appropriations act for administrative efficiencies and
savings.

NEW SECTION. Sec. 922. If any provision of this act or its
application to any person or circumstance is held invalid, the
remainder of the act or the application of the provision to other
persons or circumstances is not affected.
