3 Trust Land Transfer Program (04-2-851)

4 The state building construction account appropriation in this  
5 section is subject to the following conditions and limitations:

6 (1) The total appropriation is provided to the department solely to  
7 transfer from trust status or enter into thirty-year timber harvest  
8 restrictive easements/leases for certain trust lands of state-wide  
9 significance deemed appropriate for state park, fish and wildlife  
10 habitat, natural area preserve, natural resources conservation area,  
11 open space, or recreation purposes.

12 (2) Property transferred under this section shall be appraised and  
13 transferred at fair market value. The value of the timber transferred  
14 shall be deposited by the department to the common school construction  
15 account in the same manner as timber revenues from other common school  
16 trust lands. No deduction shall be made for the resource management  
17 cost account under RCW 79.64.040. The value of the land transferred  
18 shall be deposited in the natural resources real property replacement  
19 account. These funds shall be expended by the department for the  
20 exclusive purpose of acquiring real property of equal value to be  
21 managed as common school trust land.

22 (3) Property subject to easement/lease agreements under this  
23 section shall be appraised at fair market value both with and without  
24 the imposition of the easement/lease. The entire difference in  
25 appraised value shall be deposited by the department to the common  
26 school construction fund in the same manner as lease revenues from  
27 other common school trust lands. No deduction shall be made for the  
28 resource management cost account under RCW 79.64.040.

29 (4) All reasonable costs incurred by the department to implement  
30 this section are authorized to be paid out of this appropriation.  
31 Authorized costs include the actual cost of appraisals, staff time,  
32 environmental reviews, surveys, and other similar costs.

33 (5) Intergrant exchanges between common school and other trust  
34 lands of equal value may occur if the exchange is in the interest of  
35 each trust, as determined by the board of natural resources.

36 (6) Prior to or concurrent with conveyance of these properties, the  
37 department, with full cooperation of the receiving agencies, shall

1 execute and record a real property instrument that dedicates the  
 2 transferred properties to the purposes identified in subsection (1) of  
 3 this section for a minimum period of thirty years. The department of  
 4 natural resources, in consultation with the receiving state agencies,  
 5 shall develop policy to address requests to replace transferred  
 6 properties subject to the recorded property instrument that are no  
 7 longer deemed appropriate for the purposes identified in subsection (1)  
 8 of this section.

9 (7) The department and receiving agencies shall work in good faith  
 10 to carry out the intent of this section. However, the department or  
 11 receiving agencies may remove a property from the transfer list based  
 12 on new, substantive information, if it is determined that transfer of  
 13 the property is not in the statewide interest of either the common  
 14 school trust or the receiving agency.

15 (8) The department shall execute trust land transfers and  
 16 easements/leases such that, after the deduction of reasonable costs as  
 17 provided in subsection (4) of this section, eighty percent of the  
 18 appropriation in this section is deposited in the common school  
 19 construction fund. To achieve the 80:20 ratio, the department may  
 20 offset transfers of property with low timber-to-land ratios with  
 21 easements/leases on other properties.

22 (9) On June 30, 2005, the state treasurer shall transfer all  
 23 remaining uncommitted funds from this appropriation to the common  
 24 school construction fund and the appropriation in this section shall be  
 25 reduced by an equivalent amount.

26 (10) The appropriation in this section is provided for a list of  
 27 projects in LEAP capital document No. 2004-24, as developed on April  
 28 14, 2003.

18 has given final approval to the allotment of the funds to be expended  
19 or encumbered. For allotments under this act, the allotment process  
20 includes, in addition to the statement of proposed expenditures for the  
21 current biennium, a category or categories for any reserve amounts and  
22 amounts expected to be expended in future biennia. Projects that will  
23 be employing alternative public works construction procedures under  
24 chapter 39.10 RCW are subject to the allotment procedures defined in  
25 this section and RCW 43.88.110. Contracts shall not be executed that  
26 call for expenditures in excess of the approved allotment, and the

5 biennia to complete from predesign to the end of construction, or large

33 expended by June 30, 2005, shall lapse.

34 NEW SECTION. **Sec. 909.** The amounts shown under the headings  
35 "Prior Biennia," "Future Biennia," and "Total" in this act are for  
36 informational purposes only and do not constitute legislative approval

1 of these amounts. "Prior biennia" typically refers to the immediate  
2 prior biennium for reappropriations, but may refer to multiple biennia  
3 in the case of specific projects. A "future biennia" amount is an  
4 estimate of what may be appropriated for the project or program in the  
5 2005-07 biennium and the following four biennia; and amount of zero  
6 does not necessarily constitute legislative intent to not provide  
7 funding for the project or program in the future.

8 NEW SECTION. **Sec. 910.** "Reappropriations" in this act are  
9 appropriations and, unless the context clearly provides otherwise, are  
10 subject to the relevant conditions and limitations applicable to  
11 appropriations. Reappropriations shall be limited to the unexpended  
12 balances remaining on June 30, 2003, from the 2001-2003 biennial  
13 appropriations for each project.

14 NEW SECTION. **Sec. 911.** To carry out the provisions of this act,  
15 the governor may assign responsibility for predesign, design,  
16 construction, and other related activities to any appropriate agency.

17 NEW SECTION. **Sec. 912.** If any federal moneys appropriated by this  
18 act for capital projects are not received by the state, the department  
19 or agency to which the moneys were appropriated may replace the federal  
20 moneys with funds available from private or local sources. No  
21 replacement may occur under this section without the prior approval of  
22 the director of financial management in consultation with the senate  
23 ways and means committee and the house of representatives capital  
24 budget committee.

25 NEW SECTION. **Sec. 913.** (1) Unless otherwise stated, for all  
26 appropriations under this act that require a match of nonstate money or  
27 in-kind contributions, the following requirement, consistent with RCW  
28 43.88.150, shall apply: Expenditures of state money shall be timed so  
29 that the state share of project expenditures never exceeds the intended  
30 state share of total project costs.

31 (2) Provision of the full amount of required matching funds is not  
32 required to permit the expenditure of capital budget appropriations for  
33 phased projects if a proportional amount of the required matching funds  
34 is provided for each distinct, identifiable phase of the project.

1        NEW SECTION.    **Sec. 914.** Any capital improvements or capital  
2 projects involving construction or major expansion of a state office  
3 facility, including, but not limited to, district headquarters,  
4 detachment offices, and off-campus faculty offices, must be reviewed by  
5 the department of general administration for possible consolidation,  
6 collocation, and compliance with state office standards before  
7 allotment of funds. The intent of the requirement imposed by this  
8 section is to eliminate duplication and reduce total office space  
9 requirements where feasible, while ensuring proper service to the  
10 public.

11        NEW SECTION.    **Sec. 915.** (1) The governor, through the office of  
12 financial management, may authorize a transfer of appropriation  
13 authority provided for a capital project that is in excess of the  
14 amount required for the completion of such project to another capital  
15 project for which the appropriation is insufficient. No such transfer  
16 may be used to expand the capacity of any facility beyond that intended  
17 by the legislature in making the appropriation. Such transfers may be  
18 effected only between capital appropriations to a specific department,  
19 commission, agency, or institution of higher education and only between  
20 capital projects that are funded from the same fund or account. No  
21 transfers may occur between projects to local government agencies  
22 except where the grants are provided within a single omnibus  
23 appropriation and where such transfers are specifically authorized by  
24 the implementing statutes that govern the grants.

25        (2) For purposes of this section, the governor may find that an  
26 amount is in excess of the amount required for the completion of a  
27 project only if: (a) The project as defined in the notes to the budget  
28 document is substantially complete and there are funds remaining; or  
29 (b) bids have been let on a project and it appears to a substantial  
30 certainty that the project as defined in the notes to the budget  
31 document can be completed within the biennium for less than the amount  
32 appropriated in this act.

33        (3) For the purposes of this section, the legislature intends that  
34 each project be defined as proposed to the legislature in the  
35 governor's budget document, unless it clearly appears from the  
36 legislative history that the legislature intended to define the scope  
37 of a project in a different way.

1 (4) A report of any transfer effected under this section, except  
2 emergency projects or any transfer under \$250,000, shall be filed with  
3 the legislative fiscal committees of the senate and house of  
4 representatives by the office of financial management at least thirty  
5 days before the date the transfer is effected. The office of financial  
6 management shall report all emergency or smaller transfers within  
7 thirty days from the date of transfer.

8 NEW SECTION. **Sec. 916.** NONTAXABLE AND TAXABLE BOND PROCEEDS.

9 Portions of the appropriation authority granted by this act from the  
10 state building construction account may be transferred to the state  
11 taxable building construction account as deemed necessary by the state  
12 finance committee to comply with the federal internal revenue service  
13 rules and regulations pertaining to the use of nontaxable bond  
14 proceeds. The state treasurer shall submit written notification to the  
15 director of financial management if it is determined that a shift of  
16 appropriation authority from the state building construction account to  
17 the state taxable building construction account is necessary.

18 NEW SECTION. **Sec. 917.** The office of financial management, in  
19 consultation with the department of general administration, shall  
20 identify capital projects that may benefit from an energy analysis to  
21 determine whether there are alternate, more economical, and energy  
22 efficient means of completing the work. The office of financial  
23 management shall hold appropriations in allotment reserve on the  
24 following types of capital projects until this analysis can be  
25 completed: Heating, ventilation, and air conditioning modifications,  
26 chiller plants, steam plants, boilers, chilled water or steam lines,  
27 building control systems, lighting improvements, or other major energy  
28 using systems that may warrant additional analysis. Agencies receiving  
29 appropriations for such projects are encouraged to utilize energy  
30 performance contracts or alternative financing for equipment in lieu of  
31 state appropriated funds. The office of financial management may  
32 transfer funds remaining in allotment reserve to infrastructure savings  
33 projects within the agency that has realized savings from energy  
34 efficiency alternatives.

1        NEW SECTION.    **Sec. 918.**    The University of Washington shall develop  
2 a ten year program for the eventual relocation of the residents of the  
3 floating homes located at 1409 NE Boat street.    After meeting and  
4 negotiating with the affected residents, the University of Washington  
5 shall develop a report to the legislature.    The report, giving the  
6 various options for achieving relocation, shall be submitted no later  
7 than January 15, 2004, to the senate ways and means committee and the  
8 house of representatives capital budget committee.    Relocation may  
9 include the purchase and rental back of existing homes through reverse  
10 declining purchase agreements, the physical relocation of the floating  
11 homes to other locations, the creation of a buy-back fund, the  
12 relocation of residents in concert with the purchase of the existing  
13 residences, or other creative real estate transactions that achieve the  
14 relocation of the existing residents or floating homes.

15        NEW SECTION.    **Sec. 919.**    (1) The joint legislative audit and review  
16 committee shall conduct a performance audit of state capital planning,  
17 design, and construction processes.    In conducting this study, the  
18 committee shall select a sample of major capital projects from the  
19 1995-97 through the 2003-05 biennia in higher education, corrections,  
20 social and health services, and other state agencies.    Capital projects  
21 selected for this sample shall accommodate regional differences within  
22 the state.    The committee shall consider the following topics in  
23 conducting this performance audit:

24        (a) Agency development, evaluation, and justification of the cost  
25 drivers and cost elements associated with each of the major phases of  
26 a capital project:    General or master planning, predesign, design,  
27 construction, and postconstruction review;

28        (b) Evaluation of the management and fiscal controls surrounding  
29 agency capital project decision making and implementation processes,  
30 such as policy goals, planning procedures, budget limits, cost and  
31 performance standards, criteria for selecting project priorities,  
32 written instructions, review processes, as well as management,  
33 oversight, reporting, and accountability systems;

34        (c) Processes and standards for cost-effective and efficient design  
35 and construction contracting, management, oversight, and review;

4 basic capital project costs, and how equipment costs are estimated and  
5 evaluated for inclusion in projects; and

6 (f) Comparison of costs to public and private sector benchmarks,  
7 when available and where appropriate, in establishing cost parameters  
8 for state capital construction projects.

9 (2) State agencies, including state public higher education  
10 institutions, shall provide any requested information concerning the  
11 planning, selection, design, contracting, implementation, management,  
12 costs, performance, and outcomes of projects to the joint legislative  
13 audit and review committee in a timely manner, including relevant  
14 proprietary information that may be associated with individual firms.  
15 However, any proprietary information provided to the committee for this  
16 performance audit shall be deemed confidential and shall not be subject  
17 to public disclosure.

18 (3) In conducting this performance audit, the committee shall work  
19 closely with the appropriate legislative fiscal committees and shall  
20 consult with the office of financial management, the department of  
21 general administration, the department of corrections, the department  
22 of social and health services, the higher education coordinating board,  
23 the state board for community and technical colleges, individual higher

25 committee may contract for consulting services in conducting this  
26 performance audit. In its final report, the committee shall make  
27 recommendations as appropriate. The committee shall provide a progress  
28 report to the appropriate legislative committees by January 9, 2004,
