Representative Kagi moved the adoption of amendment (139): Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that parents are their children's first and most important teachers, caregivers, and decision makers. The legislature also recognizes that many parents are employed or in school and must seek services in their communities to assist with the care and support of their children. Welfare reform requires parents with low incomes to enter the work force while their children are young, increasing parents' need for the support of such resources. In seeking out resources in their communities to provide care and support for their children, parents throughout the state need and deserve to have the best possible information to help inform their choices about the care and education of their children.

The legislature also finds that research on brain development in young children establishes that early experiences are important to children's emotional, social, physical, and cognitive development. Research also shows a clear and compelling connection between the quality of children's early childhood care and education experiences and later success in school and in life.

The legislature intends to build on the efforts of communities across the state to improve the quality of early learning environments available to children and their families, as well as the information available to families relating to those early learning environments. The legislature recognizes that efforts to improve early learning must build upon existing partnerships between the public and private sectors. The experiences and resources of both public and private entities are essential to making meaningful and lasting improvements in the quality of early learning environments across the state. Statewide leadership is needed to guide and support the efforts of the private and public sectors working together to make systemic improvements in the quality, affordability, and accessibility of early learning opportunities.

The legislature intends to establish an effective oversight body, composed of representation from the public and private sectors, to provide leadership and vision to strengthen the quality of early learning services and programs for all children and families in the state and to ensure that children enter school ready to succeed.

NEW SECTION. Sec. 2. The definitions in this section apply throughout sections 1 through 6 of this act unless the context clearly requires otherwise.

(1) "Early learning programs and services" include the following: Child care; state, private, and nonprofit preschool programs; child care subsidy programs; and training and professional development programs for early learning professionals.

(2) "Council" means the Washington early learning council.

NEW SECTION. Sec. 3. (1) The Washington early learning council is established in the governor's office. The purpose of the council is to provide vision, leadership, and direction to the improvement, realignment, and expansion of early learning programs and services for children birth to five years of age in order to better meet the early learning needs of children and their families. The goal of the council is to build upon existing efforts and recommend new initiatives, as necessary, to create an adequately financed, high-quality, accessible, and comprehensive early learning system that benefits all young children whose parents choose it.

(2) The council shall develop an early learning plan to improve the organization of early learning programs and services at the state level, and to improve the accessibility and quality of early learning programs and services throughout the state.

(a) By November 15, 2005, the council shall make recommendations to the governor and the appropriate committees of the legislature concerning statewide organization of early learning.

(b) The council shall also make recommendations to the governor and the appropriate committees of the legislature concerning the following:

(i) Identification of current populations being served and potential populations to be served by early learning programs and services;

(ii) The state's role in supporting quality early learning programs and services;

(iii) Appropriate levels and sources of stable and sustainable funding to meet statewide and local need for early learning programs and services, including public-private partnerships;
(iv) Changes in existing early learning programs and services, including the administration of those programs and services, to improve their efficiency, effectiveness, and quality;
(v) Changes in existing early learning programs and services to ensure that the content is aligned with what children need to know and be able to do upon entering school;
(vi) How to maximize available early learning resources to ensure children are receiving continuity of care; and
(vii) Providing for smooth transitions from early learning programs and services to K-12 programs.

(c) As provided in sections 5 and 6 of this act, the council shall focus on quality improvements to licensed child care through the following mechanisms:
(i) A voluntary, quality-based, graduated rating system to provide information to parents on the quality of child care programs and to provide resources and incentives for quality improvements; and
(ii) A tiered-reimbursement system for state-subsidized child care to improve the quality of care for children participating in state-funded care.

(d) The council shall make recommendations to the governor and the appropriate committees of the legislature concerning the regulation of child care, including child care that is exempt from regulation and unlicensed child care that is subject to regulation, in order to ensure the safety, health, quality, and accessibility of child care services throughout the state.

(3) The council shall serve as the advisory committee on early learning to the comprehensive education study steering committee, created in Substitute House Bill No. 1380. The nongovernmental cochair of the council shall serve as the chair of the advisory committee on early learning. The council shall have input on the recommendations developed by the comprehensive education study steering committee.

(4) The council shall make use of existing reports, research, planning efforts, and programs, including, but not limited to, the following: the federal early head start program, the federal head start program, the state early childhood education and assistance program, the state's essential academic learning requirements and K-3 grade level expectations, the Washington state early learning and development benchmarks, existing tiered-reimbursement initiatives, the state's early childhood comprehensive systems plan, and the work of the child care coordinating committee established pursuant to RCW 74.13.090.

The legislature finds that (1) demographic, economic, and social trends underlie a critical and increasing demand for child care in the state of Washington; (2) working parents and their children benefit when the employees’ child care needs have been resolved; (3) the state of Washington should serve as a model employer by creating a supportive atmosphere, to the extent feasible, in which its employees may meet their child care needs; and (4) the state of Washington should encourage the development of partnerships between state agencies, state employees, state employee labor organizations, and private employers to expand the availability of affordable quality child care. Therefore, the legislature declares that it is the policy of the state of Washington to assist state employees by creating a supportive atmosphere in which they may meet their child care needs. The secretary shall have the power and it shall be the secretary’s duty:

(1) In consultation with the children’s services advisory committee, and with the advice and assistance of persons representative of the various type agencies to be licensed, to designate categories of facilities for which separate
or different requirements shall be developed as may be appropriate whether because of variations in the ages, sex and other characteristics of persons served; variations in the purposes and services offered or size or structure of the agencies to be licensed hereunder, or because of any other factor relevant thereto.

(2) In consultation with the children's services advisory committee, and with the advice and assistance of persons representative of the various type agencies to be licensed, to adopt and publish minimum requirements for licensing applicable to each of the various categories of agencies to be licensed.

The minimum requirements shall be limited to:

(a) The size and suitability of a facility and the plan of operation for carrying out the purpose for which an applicant seeks a license;

(b) The character, suitability and competence of an agency and other persons associated with an agency directly responsible for the care and treatment of children, expectant mothers or developmentally disabled persons.

In consultation with law enforcement personnel, the secretary shall investigate the conviction record or pending charges and dependency record information under chapter 43.43 RCW of each agency and its staff seeking licensure or relicensure. No unfounded allegation of child abuse or neglect as defined in RCW 26.44.020 may be disclosed to a child-placing agency, private adoption agency, or any other provider licensed under this chapter. In order to determine the suitability of applicants for an agency license, licensees, their employees, and other persons who have unsupervised access to children in care, and who have not resided in the state of Washington during the three-year period before being authorized to care for children shall be fingerprinted. The fingerprints shall be forwarded to the Washington state patrol and federal bureau of investigation for a criminal history records check. The fingerprint criminal history records checks will be at the expense of the licensee except that in the case of a foster family home, if this expense would work a hardship on the licensee, the department shall pay the expense. The licensee may not pass this cost on to the employee or prospective employee, unless the employee is determined to be unsuitable due to his or her criminal history record. The secretary shall use the information solely for the purpose of determining eligibility for a license and for determining the character, suitability, and competence of those persons or agencies, excluding parents, not required to be licensed who are authorized to care for children, expectant mothers, and developmentally disabled persons. Criminal justice agencies shall provide the secretary such information as they may have and that the secretary may require for such purpose;

(d) The number of qualified persons required to render the type of care and treatment for which an agency seeks a license;

(e) The provision of necessary care, including food, clothing, supervision and discipline; physical, mental and social well-being; and educational, recreational and spiritual opportunities for those served;

(f) The financial ability of an agency to comply with minimum requirements established pursuant to chapter 74.15 RCW and RCW 74.13.031; and

(g) The maintenance of records pertaining to the admission, progress, health and discharge of persons served;

(3) To investigate any person, including relatives by blood or marriage except for parents, for character, suitability, and competence in the care and treatment of children, expectant mothers, and developmentally disabled persons prior to authorizing that person to care for children, expectant mothers, and developmentally disabled persons. However, if a child is placed with a relative under RCW 13.34.065 or 13.34.130, and if such relative appears otherwise suitable and competent to provide care and treatment the criminal history background check required by this section need not be completed before placement, but shall be completed as soon as possible after placement;

(4) On reports of alleged child abuse and neglect, to investigate agencies in accordance with chapter 26.44 RCW, including child day-care centers and family day-care homes, to determine whether the alleged abuse or neglect has occurred, and whether child protective services or referral to a law enforcement agency is appropriate;

(5) To issue, revoke, or deny licenses to agencies pursuant to chapter 74.15 RCW and RCW 74.13.031. Licenses shall specify the category of care which an agency is authorized to render and the ages, sex and number of persons to be served;

(6) To prescribe the procedures and the form and contents of reports necessary for the administration of chapter 74.15 RCW and RCW 74.13.031 and to require regular reports from each licensee;

(7) To inspect agencies periodically to determine whether or not there is compliance with chapter 74.15 RCW and RCW 74.13.031 and the requirements adopted hereunder;

(8) To review requirements adopted hereunder at least every two years and to adopt appropriate changes after consultation with ((the child care coordinating committee and other)) affected groups for child day-care requirements and with the children's services advisory committee for requirements for other agencies; and

(9) To consult with public and private agencies in order to help them improve their methods and facilities for the care of children, expectant mothers and developmentally disabled persons.

Schools are also responsible for identifying and reporting child abuse, identifying drug and alcohol problems, treating emergencies, providing counseling and assistance for teenage parents, and providing AIDS, human growth and development, and personal safety education. Schools are asked to coordinate with families and community services to manage students with significant health problems and to make referrals to appropriate community services. The legislature finds that additional school nurses with the appropriate expertise are needed in our schools to play a pivotal role in improving the health and educational success of the school-age child.

NEW SECTION. Sec. 2. (1) The office of superintendent of public instruction and the department of health shall collaborate and develop a work group to assess school nursing services in class I school districts. The work group shall consult with representatives from the following groups: School nurses, schools, students, parents, teachers, health officials, and administrators.

The work group shall assess whether funding for school nurses should continue as part of basic education; and
