POINT OF ORDER

Representative Hudgins requested a scope and object ruling on amendment (110) to House Bill No. 2117.

SPEAKER'S RULING

Mr. Speaker (Representative Morris presiding): "House Bill No. 2117 is titled "an act relating to the basic health plan." The bill amends several sections of RCW 70.47.

The bill would create a new category of nonsubsidized Basic Health Plan enrollee, an economic recovery enrollee. To qualify, the enrollee must be recently involuntarily unemployed, or be receiving unemployment compensation benefits. Economic recovery enrollees would receive their coverage through managed health care systems contracting with the Basic Health Plan.

Amendment (110) would exclude persons between the ages of nineteen and thirty-four who qualify for coverage under newly authorized health plans for young adults in the private health insurance market from coverage as a subsidized Basic Health Plan enrollee. It amends the statutes governing the individual market under Title 48 RCW.

The amendment would exceed the scope and title of House Bill No. 2117 by authorizing a new individual health plan option that will be offered in the private health insurance market under Title 48 RCW. The new health plan option would not be offered through, or limited to, Basic Health Plan enrollees.

The good gentleman's point of order is well taken."

Representative Ericksen moved the adoption of amendment (103):

On page 8, after line 7, insert the following:

"(h) To provide subsidized and economic recovery enrollees a stipend sufficient to provide the same level of subsidy as would otherwise have been available through the basic health plan for subsidized and economic recovery enrollees who wish to purchase coverage through an employer's plan, or the individual health insurance market, including a high deductible health plan in conjunction with a health savings account."

Representative Ericksen spoke in favor of the adoption of the amendment.

Representative Cody spoke against the adoption of the amendment.

Making technical corrections to various statutes at the request of the statute law committee.

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 13.40.210 and 2007 c 203 s 1 and 2007 c 199 s 13 are each reenacted and amended to read as follows:

(1) The secretary shall set a release date for each juvenile committed to its custody. The release date shall be within the

prescribed range to which a juvenile has been committed under RCW 13.40.0357 or 13.40.030 except as provided in RCW 13.40.320 concerning offenders the department determines are eligible for the juvenile offender basic training camp program. Such dates shall be determined prior to the expiration of sixty percent of a juvenile's minimum term of confinement included within the prescribed range to which the juvenile has been committed. The secretary shall release any juvenile committed to the custody of the department within four calendar days prior to the juvenile's release date or on the release date set under this chapter. Days spent in the custody of the department shall be tolled by any period of time during which a juvenile has absented himself or herself from the department's supervision without the prior approval of the secretary or the secretary's designee.

(2) The secretary shall monitor the average daily population of the state's juvenile residential facilities. When the secretary concludes that in-residence population of residential facilities exceeds one hundred five percent of the rated bed capacity specified in statute, or in absence of such specification, as specified by the department in rule, the secretary may recommend reductions to the governor. On certification by the governor that the recommended reductions are necessary, the secretary has authority to administratively release a sufficient number of offenders to reduce in-residence population to one hundred percent of rated bed capacity. The secretary shall release those offenders who have served the greatest proportion of their sentence. However, the secretary may deny release in a particular case at the request of an offender, or if the secretary finds that there is no responsible custodian, as determined by the department, to whom to release the offender, or if the release of the offender would pose a clear danger to society. The department shall notify the committing court of the release at the time of release if any such early releases have occurred as a result of excessive in-residence population. In no event shall an offender adjudicated of a violent offense be granted release under the provisions of this subsection.

(3)(a) Following the release of any juvenile under subsection (1) of this section, the secretary may require the juvenile to comply with a program of parole to be administered by the department in his or her community which shall last no longer than eighteen months, except that in the case of a juvenile sentenced for rape in the first or second degree, rape of a child in the first or second degree, child molestation in the first degree, or indecent liberties with forcible compulsion, the period of parole shall be twenty-four months and, in the discretion of the secretary, may be up to thirty-six months when the secretary finds that an additional period of parole is necessary and appropriate in the interests of public safety or to meet the ongoing needs of the juvenile. A parole program is mandatory for offenders released under subsection (2) of this section and for offenders who receive a juvenile residential commitment sentence of theft of a motor vehicle ((+)), possession of a stolen motor vehicle, or taking a motor vehicle without permission 1. The decision to place an offender on parole shall be based on an assessment by the department of the offender's risk for reoffending upon release. The department shall prioritize available parole resources to provide supervision and services to offenders at moderate to high risk for reoffending.

(b) The secretary shall, for the period of parole, facilitate the juvenile's reintegration into his or her community and to further this goal shall require the juvenile to refrain from possessing a firearm or using a deadly weapon and refrain from committing new offenses and may require the juvenile to: (i) Undergo available medical, psychiatric, drug and alcohol, sex offender, mental health, and other offense-related treatment services; (ii) report as directed to a parole officer and/or designee; (iii) pursue a course of study, vocational

training, or employment; (iv) notify the parole officer of the current address where he or she resides; (v) be present at a particular address during specified hours; (vi) remain within prescribed geographical boundaries; (vii) submit to electronic monitoring; (viii) refrain from using illegal drugs and alcohol, and submit to random urinalysis when requested by the assigned parole officer; (ix) refrain from contact with specific individuals or a specified class of individuals; (x) meet other conditions determined by the parole officer to further enhance the juvenile's reintegration into the community; (xi) pay any court-ordered fines or restitution; and (xii) perform community restitution. Community restitution for the purpose of this section means compulsory service, without compensation, performed for the benefit of the community by the offender. Community restitution may be performed through public or private organizations or through work crews.

(c) The secretary may further require up to twenty-five percent of the highest risk juvenile offenders who are placed on parole to participate in an intensive supervision program. Offenders participating in an intensive supervision program shall be required to comply with all terms and conditions listed in (b) of this subsection and shall also be required to comply with the following additional terms and conditions: (i) Obey all laws and refrain from any conduct that threatens public safety; (ii) report at least once a week to an assigned community case manager; and (iii) meet all other requirements imposed by the community case manager related to participating in the intensive supervision program. As a part of the intensive supervision program, the secretary may require day reporting.

(d) After termination of the parole period, the juvenile shall be discharged from the department's supervision.

(4)(a) The department may also modify parole for violation thereof. If, after affording a juvenile all of the due process rights to which he or she would be entitled if the juvenile were an adult, the secretary finds that a juvenile has violated a condition of his or her parole, the secretary shall order one of the following which is reasonably likely to effectuate the purpose of the parole and to protect the public: (i) Continued supervision under the same conditions previously imposed; (ii) intensified supervision with increased reporting requirements; (iii) additional conditions of supervision authorized by this chapter; (iv) except as provided in (a)(v) and (vi) of this subsection, imposition of a period of confinement not to exceed thirty days in a facility operated by or pursuant to a contract with the state of Washington or any city or county for a portion of each day or for a certain number of days each week with the balance of the days or weeks spent under supervision; (v) the secretary may order any of the conditions or may return the offender to confinement for the remainder of the sentence range if the offense for which the offender was sentenced is rape in the first or second degree, rape of a child in the first or second degree, child molestation in the first degree, indecent liberties with forcible compulsion, or a sex offense that is also a serious violent offense as defined by RCW 9.94A.030; and (vi) the secretary may order any of the conditions or may return the offender to confinement for the remainder of the sentence range if the youth has completed the basic training camp program as described in RCW 13.40.320.

(b) The secretary may modify parole and order any of the conditions or may return the offender to confinement for up to twenty-four weeks if the offender was sentenced for a sex offense as defined under RCW 9A.44.130 and is known to have violated the terms of parole. Confinement beyond thirty days is intended to only be used for a small and limited number of sex offenders. It shall only be used when other graduated sanctions or interventions have not

been effective or the behavior is so egregious it warrants the use of the higher level intervention and the violation: (i) Is a known pattern of behavior consistent with a previous sex offense that puts the youth at high risk for reoffending sexually; (ii) consists of sexual behavior that is determined to be predatory as defined in RCW 71.09.020; or (iii) requires a review under chapter 71.09 RCW, due to a recent overt act. The total number of days of confinement for violations of parole conditions during the parole period shall not exceed the number of days provided by the maximum sentence imposed by the disposition for the underlying offense pursuant to RCW 13.40.0357. The department shall not aggregate multiple parole violations that occur prior to the parole revocation hearing and impose consecutive twenty-four week periods of confinement for each parole violation. The department is authorized to engage in rule making pursuant to chapter 34.05 RCW, to implement this subsection, including narrowly defining the behaviors that could lead to this higher level intervention.

(c) If the department finds that any juvenile in a program of parole has possessed a firearm or used a deadly weapon during the program of parole, the department shall modify the parole under (a) of this subsection and confine the juvenile for at least thirty days. Confinement shall be in a facility operated by or pursuant to a contract with the state or any county.

(5) A parole officer of the department of social and health services shall have the power to arrest a juvenile under his or her supervision on the same grounds as a law enforcement officer would be authorized to arrest the person.

(6) If so requested and approved under chapter 13.06 RCW, the secretary shall permit a county or group of counties to perform functions under subsections (3) through (5) of this section.

Sec. 2. RCW 46.09.170 and 2007 c 522 s 953 and 2007 c 241 s 16 are each reenacted to read as follows:

(3) On a yearly basis an agency may not, except as provided in RCW 46.09.110, expend more than ten percent of the funds it receives under this chapter for general administration expenses incurred in carrying out this chapter.

(4) During the 2007-09 fiscal biennium, the legislature may appropriate such amounts as reflect the excess fund balance in the NOVA account to the department of natural resources for planning and designing consistent off-road vehicle signage at department-managed recreation sites, and for planning recreation opportunities on department-managed lands in the Reiter block and Ahtanum state forest. (vi) State government programs for the safe reduction, recycling, or disposal of hazardous wastes from households, small businesses, and agriculture;

(vii) Hazardous materials emergency response training;

(viii) Water and environmental health protection and monitoring programs;

(ix) Programs authorized under chapter 70.146 RCW;

(x) A public participation program, including regional citizen advisory committees;

(xi) Public funding to assist potentially liable persons to pay for the costs of remedial action in compliance with cleanup standards under RCW 70.105D.030(2)(e) but only when the amount and terms of such funding are established under a settlement agreement under RCW 70.105D.040(4) and when the director has found that the funding will achieve both (A) a substantially more expeditious or enhanced cleanup than would otherwise occur, and (B) the prevention or mitigation of unfair economic hardship; and

(xii) Development and demonstration of alternative management technologies designed to carry out the hazardous waste management priorities of RCW 70.105.150.

(3) The following moneys shall be deposited into the local toxics control account: Those revenues which are raised by the tax imposed under RCW 82.21.030 and which are attributable to that portion of the rate equal to thirty-seven one-hundredths of one percent.

(a) Moneys deposited in the local toxics control account shall be used by the department for grants or loans to local governments for the following purposes in descending order of priority:

(i) Remedial actions;

(ii) Hazardous waste plans and programs under chapter 70.105 RCW;

(iii) Solid waste plans and programs under chapters 70.95, 70.95C, 70.95I, and 70.105 RCW;

(iv) Funds for a program to assist in the assessment and cleanup of sites of methamphetamine production, but not to be used for the initial containment of such sites, consistent with the responsibilities and intent of RCW 69.50.511; and

(v) Cleanup and disposal of hazardous substances from abandoned or derelict vessels, defined for the purposes of this section as vessels that have little or no value and either have no identified owner or have an identified owner lacking financial resources to clean up and dispose of the vessel, that pose a threat to human health or the environment.

(b) Funds for plans and programs shall be allocated consistent with the priorities and matching requirements established in chapters 70.105, 70.95C, 70.95I, and 70.95 RCW, except that any applicant that is a Puget Sound partner, as defined in RCW 90.71.010, along with any project that is referenced in the action agenda developed by the Puget Sound partnership under RCW 90.71.310, shall, except as conditioned by RCW 70.105D.120, receive priority for any available funding for any grant or funding programs or sources that use a competitive bidding process. During the 2007-2009 fiscal biennium, moneys in the account may also be used for grants to local governments to retrofit public sector diesel equipment and for storm water planning and implementation activities.

(c) ~~(Funds may also be appropriated to the department of health to implement programs to reduce testing requirements under the federal safe drinking water act for public water systems. The department of health shall reimburse the account from fees assessed under RCW 70.119A.115 by June 30, 1995.~~

(d) To expedite cleanups throughout the state, the department shall partner with local communities and liable parties for cleanups. The department is authorized to use the following additional

strategies in order to ensure a healthful environment for future generations:

(i) The director may alter grant-matching requirements to create incentives for local governments to expedite cleanups when one of the following conditions exists:

(A) Funding would prevent or mitigate unfair economic hardship imposed by the clean-up liability;

(B) Funding would create new substantial economic development, public recreational, or habitat restoration opportunities that would not otherwise occur; or

(C) Funding would create an opportunity for acquisition and redevelopment of vacant, orphaned, or abandoned property under RCW 70.105D.040(5) that would not otherwise occur;

(ii) The use of outside contracts to conduct necessary studies;

(iii) The purchase of remedial action cost-cap insurance, when necessary to expedite multiparty clean-up efforts.

(4) Except for unanticipated receipts under RCW 43.79.260 through 43.79.282, moneys in the state and local toxics control accounts may be spent only after appropriation by statute.

(5) One percent of the moneys deposited into the state and local toxics control accounts shall be allocated only for public participation grants to persons who may be adversely affected by a release or threatened release of a hazardous substance and to not-for-profit public interest organizations. The primary purpose of these grants is to facilitate the participation by persons and organizations in the investigation and remedying of releases or threatened releases of hazardous substances and to implement the state's solid and hazardous waste management priorities. ~~((However, during the 1999-2001 fiscal biennium, funding may not be granted to entities engaged in lobbying activities, and applicants may not be awarded grants if their cumulative grant awards under this section exceed two hundred thousand dollars.))~~ No grant may exceed sixty thousand dollars. Grants may be renewed annually. Moneys appropriated for public participation from either account which are not expended at the close of any biennium shall revert to the state toxics control account.

(6) No moneys deposited into either the state or local toxics control account may be used for solid waste incinerator feasibility studies, construction, maintenance, or operation, or, after January 1, 2010, for projects designed to address the restoration of Puget Sound, funded in a competitive grant process, that are in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310.

(7) The department shall adopt rules for grant or loan issuance and performance.

(8) During the 2007-2009 fiscal biennium, the legislature may transfer from the local toxics control account to the state toxics control account such amounts as reflect excess fund balance in the account.

(9) During the 2007-2009 fiscal biennium, the local toxics control account may also be used for a standby rescue tug at Neah Bay.

Sec. 6. RCW 79A.55.020 and 1999 c 249 s 802 and 1999 c 151 s 1702 are each reenacted and amended to read as follows:

(1) The commission shall develop and adopt management policies for publicly owned or leased land on the rivers designated by the legislature as being a part of the state's scenic river system and within the associated river areas. The commission may adopt rules identifying river classifications which reflect the characteristics common to various segments of scenic rivers and may adopt management policies consistent with local government's shoreline management master plans appropriate for each such river

classification. All such policies shall be adopted by the commission in accordance with the provisions of chapter 34.05 RCW, as now or hereafter amended. Any variance with such a policy by any public agency shall be authorized only by the approval of the ~~((department))~~ commission and shall be made only to alleviate unusual hardships unique to a given segment of the system.

(2) Any policies developed pursuant to subsection (1) of this section shall include management plans for protecting ecological, economic, recreational, aesthetic, botanical, scenic, geological, hydrological, fish and wildlife, historical, cultural, archaeological, and scientific features of the rivers designated as being in the system. Such policies shall also include management plans to encourage any nonprofit group, organization, association, person, or corporation to develop and adopt programs for the purpose of increasing fish propagation.

(3) The ~~((department))~~ commission shall identify on a river by river basis any publicly owned or leased lands which could be included in a river area of the system but which are developed in a manner unsuitable for land to be managed as part of the system. The commission shall exclude lands so identified from the provisions of any management policies implementing the provisions of this chapter.

(4) The ~~((department))~~ commission shall determine the boundaries which shall define the river area associated with any included river. With respect to the rivers named in RCW ~~((79.72.080))~~ 79A.55.070, the ~~((department))~~ commission shall make such determination, and those determinations authorized by subsection (3) of this section, within one year of September 21, 1977.

(5) Before making a decision regarding the river area to be included in the system, a variance in policy, or the excluding of land from the provisions of the management policies, the ~~((department))~~ commission shall hold hearings in accord with chapter 34.05 RCW, with at least one public hearing to be held in the general locale of the river under consideration. The commission shall cause to be published in a newspaper of general circulation in the area which includes the river or rivers to be considered, a description, including a map showing such river or rivers, of the material to be considered at the public hearing. Such notice shall appear at least twice in the time period between two and four weeks prior to the public hearing.

The ~~((department))~~ commission shall seek and receive comments from the public regarding potential additions to the system, shall initiate studies, and may submit to any session of the legislature proposals for additions to the state scenic river system. These proposals shall be accompanied by a detailed report on the factors which, in the ~~((department's))~~ commission's judgment, make an area a worthy addition to the system."

"NEW SECTION. Sec. 1. (1) The legislature finds that the Olympic Peninsula is bounded on the west and north by uniquely rich and highly vulnerable biological, cultural, and marine resources supporting some of the nation's most valuable tribal, commercial, and sport fisheries. The area also sustains endangered species and numerous species of vulnerable marine mammals. The area's national

significance is recognized by special federal designations including a national park, a national marine sanctuary, a maritime area to be avoided, national wildlife refuges, a world heritage site, as well as tribal lands and usual and accustomed fishing areas of federally recognized coastal Indian tribes. This remote area periodically experiences severe coastal storms, dangerous seas, strong coastal currents, and frequent fog placing economically valuable maritime commerce and ship crews at risk.

(2) The legislature further finds that these peculiarities of the local waters require special protection from the serious threat posed by maritime casualties. The area's natural, cultural, and economic resources must be provided with the best achievable protection from damages caused by the discharge of oil into coastal waters.

(3) The legislature further finds that the state of Washington has maintained an emergency response tug at Neah Bay since 1999 to protect its waters from maritime casualties and resultant oil spills. During that time it has demonstrated its capability by responding to forty-one ships in need of assistance in the area from Port Angeles to the Columbia river. State funding is scheduled to end June 30, 2009. The legislature intends for the maritime industry to provide and fully fund a year-round emergency response tug at Neah Bay, including the logistical and operational management support system. This emergency response towing vessel and its operations should meet or exceed the state's fiscal year 2009 technical contract specifications of the contracted Neah Bay emergency response towing vessel.

Sec. 2. RCW 88.46.130 and 1991 c 200 s 426 are each amended to read as follows:

(1) An emergency response system for vessels operating in the entry of the Strait of Juan de Fuca shall be established and operated consistent with this section by July 1, ((1992)) 2010. ((In establishing the emergency response system, the administrator shall consider the recommendations of the regional marine safety committees. The administrator shall also consult with the province of British Columbia regarding its participation in the emergency response system.))

(2)(a) Except as otherwise provided in this section, and in addition to the contingency plan requirements adopted by the department under RCW 88.46.060, contingency plans for all covered vessels while operating in all waters of the entry to the Strait of Juan de Fuca north of the Clallam county shoreline and east of Duncan rock must provide for the emergency response system described in this section, including the management and operation of an emergency response towing vessel that satisfies the planning standards in section 3 of this act.

(b) Owners and operators of covered vessels that operate in the portion of the entry to the Strait of Juan de Fuca identified in this subsection shall submit an addendum to their oil spill contingency plan demonstrating compliance with this section by January 1, 2010. A vessel submitting an initial contingency plan after January 1, 2010, must provide documentation of its compliance with this section concurrent with the submittal of its contingency plan.

(c) The department shall review all submittals demonstrating compliance with this section and shall approve any submittal that meets the intent and planning standards established in section 3 of this act.

(3) Full implementation of section 3 of this act, or implementation of a system of protective measures imposed or required by the federal government that are determined by the department to be substantially equivalent to those requirements, satisfies the emergency response system required by this section.

(4) The director may suspend the requirement for an emergency response towing vessel created in this section if the director

determines that an emergency response towing vessel satisfying the requirements of section 3 of this act is not available to provide the services required under this section.

NEW SECTION. Sec. 3. A new section is added to chapter 88.46 RCW to read as follows:

(1) An emergency response towing vessel that is a part of the emergency response system required by RCW 88.46.130 must be stationed at Neah Bay and be continuously capable and available to respond to any vessel emergency. The towing vessel must, at a minimum, be able to satisfy the following planning standards:

(a) Be underway within twenty minutes of a decision to deploy;

(b) Be able to deploy at any hour of any day to provide emergency assistance and be safely manned to remain underway for at least forty- eight hours;

(c) In severe weather conditions, be capable of making up to, stopping, holding, and towing a drifting or disabled vessel of one hundred eighty thousand metric dead weight tons;

(d) In severe weather conditions, be capable of holding position within one hundred feet of another vessel;

(e) Be equipped with and maneuverable enough to effectively employ a ship anchor chain recovery hook and line throwing gun;

(f) Be capable of a bollard pull of at least seventy short tons; and

(g) Be equipped with appropriate equipment for:

(i) Damage control patching;

(ii) Vessel dewatering;

(iii) Air safety monitoring; and

(iv) Digital photography.

(2) The requirements of this section may be fulfilled by one or more private organizations or nonprofit cooperatives providing umbrella coverage under contract to single or multiple covered vessels.

(3)(a) The department must be authorized to contract with the emergency response towing vessel, at the discretion of the department, in response to a potentially emerging maritime casualty or as a precautionary measure during severe storms. All instances of use by the department must be paid for by the department.

(b) Covered vessels that are required to provide an emergency response towing vessel under RCW 88.46.130 may not restrict the emergency response towing vessel from responding to distressed vessels that are not covered vessels.

(4) Nothing in this section limits the ability of a covered vessel to contract with an emergency response towing vessel with capabilities that exceed the minimum capabilities provided for a towing vessel in this section.

(5) The covered vessel owner or operator shall submit a written report to the department as soon as practicable regarding an emergency response system deployment, including photographic documentation determined by the department to be of adequate quality. The report must provide a detailed description of the incident necessitating a response and the actions taken to render assistance under the emergency response system.

NEW SECTION. Sec. 4. A new section is added to chapter 88.46 RCW to read as follows:

(1) It is the intent of the legislature to provide the various components of the maritime industry with the tools necessary to satisfy the requirements of RCW 88.46.130 in the most cost-effective manner. In doing, the legislature encourages, but does not mandate, the maritime industry to unite behind their mutual interests and responsibilities and identify or form a single umbrella organization that allows all affected covered vessels to equitably share the costs inherent in the implementation of RCW 88.46.130.

(2) The legislature further finds that an equitable sharing of the costs of implementing RCW 88.46.130 may mean that not all covered vessels will be responsible for providing the same amount of funding. Any umbrella organization that is identified or formed to satisfy the requirements of this act should consider the multitude of factors that comprise the risk of oil spills and the likelihood of initiating a response from the emergency response vessel required by RCW 88.46.130, including the number of transits made by the covered vessel, the nature and quantity of its cargo, and the technical sophistication of its design, safety updates, and maintenance.

(3) The legislature intends to provide the authority for any operator of a covered vessel that feels as though an umbrella organization that is identified, formed, or proposed for formation does not equitably share the costs of compliance with RCW 88.46.130 with the covered vessel in question, or the class of vessel to which the covered vessel belongs, to either contract directly with an adequate emergency response vessel or form or join a discreet umbrella organization representing the appropriate segment of the maritime industry. However, if the operator of a covered vessel chooses not to join a proposed or existing umbrella organization, or finds that negotiations leading to the formation of an umbrella organization are not progressing in an adequate manner, the legislature requests, but does not require, that the vessel operator contact the department and provide official notice of their concern as to how the umbrella group in question failed in establishing an equitable cost-share strategy.

(4) The department shall collect and maintain all notices received under this section and shall summarize any reports received by the operators of covered vessels and report the summation to the appropriate committees of the legislature upon request by a legislative committee.

NEW SECTION. Sec. 5. (1) Designated representatives of the owners and operators of all classes of covered vessels shall negotiate, given the intent of section 4 of this act, a system to determine the equitable apportionment of costs of the emergency response system required by this act.

(2) Participants to the negotiations shall report the results to the appropriate committees of the legislature by December 1, 2009. This report shall provide available information relating to:

(a) The anticipated average annual cost of providing the emergency response system required by this act;

(b) The methodology for determining the annual cost for each vessel of complying with this act, including a system for crediting enhanced navigational or structural characteristics, and any caps or limitations on total cost for vessels that frequently transit the waters identified in this act; and

(c) The anticipated average annual cost of complying with this act for each of the following class of covered vessels:

(i) Oil tankers;

(ii) Tank barges;

(iii) Tug and oil barge combinations;

(iv) Nontank vessels, including cruise ships;

(v) Other covered vessels.

(3) If the representatives designated under this section to participate in negotiations fail to achieve the goals of this section or otherwise choose not to report the outcomes to the legislature, the department of ecology shall, by December 1, 2009, deliver the summation of any reports received under section 4 of this act.

(4) This section expires June 30, 2010.

NEW SECTION. Sec. 6. A new section is added to chapter 88.46 RCW to read as follows:

(1) In addition to reviewing contingency plans submitted under RCW 88.46.130, the department may determine the adequacy of the emergency response system required in RCW 88.46.130 through practice drills that test the adequacy of the responding entity's capabilities and satisfaction of the requirements of section 3 of this act. Practice drills may be conducted without prior notice.

(2) Each successful response to a vessel emergency may be considered by the department to satisfy a drill covering this portion of a covered vessel's contingency plan.

(3) Drills of the emergency response system required in RCW 88.46.130 must emphasize the system's ability to respond to a potentially worst case vessel emergency scenario.

Sec. 7. RCW 88.46.010 and 2007 c 347 s 5 are each amended to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

~~((14))~~ (16) "Onshore facility" means any facility any part of which is located in, on, or under any land of the state, other than submerged land, that because of its location, could reasonably be expected to cause substantial harm to the environment by discharging oil into or on the navigable waters of the state or the adjoining shorelines.

On page 3, after line 5 of the amendment, insert the following:

"(5) If the cumulative annual contract amount for all covered vessels required to satisfy the emergency response system requirements of this section is greater than the annual amount paid by the state as part of its 2007-2009 biennium contract with the Neah Bay emergency response vessel, then the additional funding above the 2007-2009 contract rate must be provided by the state of Washington."
