(7)(a) For the fiscal year ending June 30, 2011, the juvenile rehabilitation administration shall administer a block grant, rather than categorical funding, of consolidated juvenile service funds, community juvenile accountability act grants, the chemical dependency disposition alternative funds, the mental health disposition alternative, and the sentencing disposition alternative for the purpose of serving youth adjudicated in the juvenile justice system. In making the block grant, the juvenile rehabilitation administration shall follow the following formula and will prioritize evidence-based programs and disposition alternatives and take into account juvenile courts program-eligible youth in conjunction with the number of youth served in each approved evidence-based program or disposition alternative: (i) Thirty-seven and one-half percent for the at-risk population of youth ten to seventeen years old; (ii) fifteen percent for moderate and high-risk youth; (iii) twenty-five percent for evidence-based program participation; (iv) seventeen and one-half percent for minority populations; (v) three percent for the chemical dependency disposition alternative; and (vi) two percent for the mental health and sentencing dispositional alternatives. Funding for the evidence-based expansion grants shall be excluded from the block grant formula. Funds may be used for promising practices when approved by the juvenile rehabilitation administration and juvenile courts, through the community juvenile accountability act committee, based on the criteria established in consultation with Washington state institute for public policy and the juvenile courts.

(b) It is the intent of the legislature that the juvenile rehabilitation administration phase the implementation of the formula provided in subsection (1) of this section by including a stop-loss formula of three percent in fiscal year 2011, five percent in fiscal year 2012, and five percent in fiscal year 2013. It is further the intent of the legislature that the evidence-based expansion grants be incorporated into the block grant formula by fiscal year 2013 and SSODA remain separate unless changes would result in increasing the cost benefit savings to the state as identified in (c) of this subsection.

(c) The juvenile rehabilitation administration and the juvenile courts shall establish a block grant funding formula oversight committee with equal representation from the juvenile rehabilitation administration and the juvenile courts. The purpose of this committee is to assess the ongoing implementation of the block grant funding formula, utilizing data-driven decision making and the most current available information. Initial members will include one juvenile court representative from the finance committee, the community juvenile accountability act committee, the risk assessment quality assurance committee, the executive board of the Washington association of juvenile court administrators, the Washington state center for court research, and a representative of the superior court judges association; two representatives from the juvenile rehabilitation administration headquarters program oversight staff, two representatives of the juvenile rehabilitation administration regional office staff, one representative of the juvenile rehabilitation administration fiscal staff and a juvenile rehabilitation administration division director. The committee may make changes to the formula categories other than the evidence-based program and disposition alternative categories if it is determined the changes will increase statewide service delivery or effectiveness of evidence-based program or disposition alternative resulting in increased cost benefit savings to the state. Long-term cost benefit must be considered. Percentage changes may occur in the evidence-based program or disposition alternative categories of the formula should it be determined the changes will increase evidence-based program or disposition alternative delivery and increase the cost benefit to the state. These outcomes will also be considered in determining when evidence-based expansion or special sex offender disposition alternative funds should be included in the block grant or left separate.

(d) The juvenile courts and administrative office of the courts shall be responsible for collecting and distributing information and providing access to the data systems to the juvenile rehabilitation administration and the Washington state institute for public policy related to program and outcome data. (e) By December 1, 2010, the Washington state institute for public policy shall report to the office of financial management and appropriate committees of the legislature on the implementation of the block grant authorized in this subsection. The report shall include the criteria used for allocating the funding as a block grant and the participation targets and actual participation in the programs subject to the block grant.

(f) $3,700,000 of the Washington auto theft prevention authority account--state appropriation is provided solely for competitive grants to community-based organizations to provide at-risk youth intervention services, including but not limited to, case management, employment services, educational services, and street outreach intervention programs. Projects funded should focus on preventing, intervening, and suppressing behavioral problems and violence while linking at-risk youth to pro-social activities. The department may not expend more than $1,850,000 per fiscal year. The costs of administration must not exceed four percent of appropriated funding for each grant recipient. Each
entity receiving funds must report to the juvenile rehabilitation administration on the number and types of youth served, the services provided, and the impact of those services upon the youth and the community.

(9) The appropriations in this section assume savings associated with the transfer of youthful offenders age eighteen or older whose sentences extend beyond age twenty-one to the department of corrections to complete their sentences. Prior to transferring an offender to the department of corrections, the juvenile rehabilitation administration shall evaluate the offender to determine the offender's physical and emotional suitability for transfer.

(10) The department shall cease planning for closure and shall not close the maple lane facility during the current biennium.

TOTAL APPROPRIATION ($4,091,284,000) $1,071,849,000

The appropriations in this subsection are subject to the following conditions and limitations:

(a) $113,689,000 of the general fund—state appropriation for fiscal year 2010 and ($113,689,000) $96,023,000 of the general fund—state appropriation for fiscal year 2011 are provided solely for persons and services not covered by the medicare program. This is a reduction of $11,606,000 each fiscal year from the nonmedicaid funding that was allocated for expenditure by regional support networks during fiscal year 2009 prior to supplemental budget reductions. This $11,606,000 reduction shall be distributed among regional support networks proportional to each network's share of the total state population. To the extent possible, levels of regional support network spending shall be maintained in the following priority order: (i) Crisis and commitment services; (ii) community inpatient services; and (iii) residential care services, including personal care and emergency housing assistance.

(b) $10,400,000 of the general fund—state appropriation for fiscal year 2010, ($5,100,000) $8,528,000 of the general fund—state appropriation for fiscal year 2011, and $1,300,000 of the general fund—federal appropriation are provided solely for the department and regional support networks to contract for implementation of high-intensity program for active community treatment (PACT) teams. The department shall work with regional support networks and the center for medicare and medicare services to integrate eligible components of the PACT service delivery model into medicare capitation rates no later than January 2011, while maintaining consistency with all essential elements of the PACT evidence-based practice model.

(c) $6,500,000 of the general fund—state appropriation for fiscal year 2010 and ($6,500,000) $6,091,000 of the general fund—state appropriation for fiscal year 2011 are provided solely for the western Washington regional support networks to provide either community- or hospital campus-based services for persons who require the level of care provided by the program for adaptive living skills (PALS) at western state hospital.

(d) The number of nonforensic beds allocated for use by regional support networks at eastern state hospital shall be 192 per day. The number of nonforensic beds allocated for use by regional support networks at western state hospital shall be 617 per day during the first quarter of fiscal year 2010, 587 per day through the second quarter of fiscal year 2011, and 557 per day thereafter. Beds in the program for adaptive living skills (PALS) are not included in the preceding bed allocations. The department shall separately charge regional support networks for persons served in the PALS program.

(e) From the general fund—state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and disability services administration for the general fund—state cost of medicare personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(f) $4,582,000 of the general fund—state appropriation for fiscal year 2010 and $4,582,000 of the general fund—state appropriation for fiscal year 2011 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement.

(g) The department is authorized to continue to contract directly, rather than through contracts with regional support networks, for children's long-term inpatient facility services.

(h) $750,000 of the general fund—state appropriation for fiscal year 2010 and ($750,000) $703,000 of the general fund—state appropriation for fiscal year 2011 are provided solely to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who were discharged from the state hospitals as part of the expanding community services initiative. These funds will be used to enhance community residential and support services provided by regional support networks through other state and federal funding.

(i) $1,500,000 of the general fund—state appropriation for fiscal year 2010 and ($1,500,000) $1,125,000 of the general fund—state appropriation for fiscal year 2011 are provided solely for the Spokane regional support network to implement services to reduce utilization and the census at eastern state hospital. Such services shall include:

(i) High intensity treatment team for persons who are high utilizers of psychiatric inpatient services, including those with co-occurring disorders and other special needs;

(ii) Crisis outreach and diversion services to stabilize in the community individuals in crisis who are at risk of requiring inpatient care or jail services;

(iii) Mental health services provided in nursing facilities to individuals with dementia, and consultation to facility staff treating those individuals; and

(iv) Services at the sixteen-bed evaluation and treatment facility.

At least annually, the Spokane regional support network shall assess the effectiveness of these services in reducing utilization at eastern state hospital, identify services that are not optimally effective, and modify those services to improve their effectiveness.
(j) The department shall return to the Spokane regional support network fifty percent of the amounts assessed against the network during the last six months of calendar year 2009 for state hospital utilization in excess of its contractual limit. The regional support network shall use these funds for operation during its initial months of a new sixteen-bed evaluation and treatment facility that will enable the network to reduce its use of the state hospital, and for diversion and community support services for persons with dementia who would likely otherwise require care at the state hospital.

(k) The department is directed to identify and implement program efficiencies and benefit changes in its delivery of Medicaid managed-care services that are sufficient to operate within the state and federal appropriations in this section. Such actions may include but are not limited to methods such as adjusting the care access standards; improved utilization management of ongoing, recurring, and high-intensity services; and increased uniformity in provider payment rates. The department shall ensure that the capitation rate adjustments necessary to accomplish these efficiencies and changes are distributed uniformly and equitably across all regional support networks statewide. The department is directed to report to the relevant legislative fiscal and policy committees at least thirty days prior to implementing rate adjustments reflecting these changes.

(l) In developing the new Medicaid managed care rates under which the public mental health managed care system will operate during the five years beginning in fiscal year 2011, the department should seek to estimate the reasonable and necessary cost of efficiently and effectively providing a comparable set of medically necessary mental health benefits to persons of different acuity levels regardless of where in the state they live. Actual prior period spending in a regional administrative area shall not be a key determinant of future payment rates. The department shall report to the office of financial management and to the relevant fiscal and policy committees of the legislature on its proposed new waiver and mental health managed care rate-setting approach by October 1, 2009, and again at least sixty days prior to implementation of new capitation rates.

(m) In implementing the new public mental health managed care payment rates for fiscal year 2011, the department shall to the maximum extent possible within each regional support network’s allowable rate range establish rates so that there is no increase or decrease in the total state and federal funding that the regional support network would receive if it were to continue to be paid at its October 2009 through June 2010 rates. The department shall additionally revise the draft rates issued January 28, 2010, to more accurately reflect the lower practitioner productivity inherent in the delivery of services in extremely rural regions in which a majority of the population reside in frontier counties, as defined and designated by the national center for frontier communities.

(n) $1,529,000 of the general fund—state appropriation for fiscal year 2010 and $1,529,000 of the general fund—state appropriation for fiscal year 2011 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting 180-day commitment hearings at the state psychiatric hospitals.

(o) The legislature intends and expects that regional support networks and contracted community mental health agencies shall make all possible efforts to, at a minimum, maintain current compensation levels of direct care staff. Such efforts shall include, but not be limited to, identifying local funding that can preserve client services and staff compensation, achieving administrative reductions at the regional support network level, and engaging stakeholders on cost-savings ideas that maintain client services and staff compensation. For purposes of this section, “direct care staff” means persons employed by community mental health agencies whose primary responsibility is providing direct treatment and support to people with mental illness, or whose primary responsibility is providing direct support to such staff in areas such as client scheduling, client intake, client reception, client records-keeping, and facilities maintenance.

(p) Regional support networks may use local funds to earn additional federal Medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide Medicaid state plan or waiver services to Medicaid clients. Additionally, regional support networks may use a portion of the state funds allocated in accordance with (a) of this subsection to earn additional Medicaid match, but only to the extent that the application of such funds to Medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for Medicaid.

The appropriations in this subsection are subject to the following conditions and limitations:
(a) Individuals receiving services as supplemental security income (SSI) state supplemental payments shall not become eligible for medical assistance under RCW 74.09.510 due solely to the receipt of SSI state supplemental payments.
(b)(i) Amounts appropriated in this section reflect a reduction to funds appropriated for in-home care. The department shall reduce the number of in-home hours authorized. The reduction shall be scaled based on the acuity level of care recipients. The largest hour reductions shall be to lower acuity patients and the smallest hour reductions shall be to higher acuity patients. In doing so, the department shall comply with all maintenance of effort requirements contained in the American reinvestment and recovery act.
(ii) $508,000 of the general fund—state appropriation for fiscal year 2011 and $822,000 of the general fund—federal appropriation are provided solely for the department to partially restore the reductions to in-home care that are taken in (b)(i) of this subsection. The department will use the same formula to restore personal care hours that it used to reduce personal care hours.
(c) Amounts appropriated in this section are sufficient to develop and implement the use of a consistent, statewide outcome-based vendor contract for employment and day services by April 1, 2011. The rates paid to vendors under this contract shall also be made consistent. In its description of activities the agency shall include activity listings and dollars appropriated for: Employment services, day services, child development services and county administration of services to the developmentally disabled. (ii) The federal portion of the amounts in this subsection (g) is contingent upon federal approval of participation in contributions to the trust and shall remain unallotted and placed in reserve status until the office of financial management and the department of social and health services receive federal approval.
(iii) Expenditures for the purposes specified in this subsection (g) shall not exceed the amounts provided in this subsection.

requirements. The amounts appropriated are sufficient to ensure that all individuals currently receiving services under the state-only employment and day and state-only residential programs who are not transferred to a department HCBS waiver will continue to receive services.

(g) In addition to other reductions, the appropriations in this subsection reflect reductions targeted specifically to state government administrative costs. These administrative reductions shall be achieved, to the greatest extent possible, by reducing those administrative costs that do not affect direct client services or direct service delivery or programs.

(j) The amounts appropriated in this subsection reflect a reduction in funds available for employment and day services. In administering this reduction the department shall negotiate with counties and their vendors so that this reduction, to the greatest extent possible, is achieved by reducing vendor rates and allowable contract administrative charges (overhead) and not through reductions to direct client services or direct service delivery or programs.

(k) As part of the needs assessment instrument, the department may collect data on family income for minor children with developmental disabilities and all individuals who are receiving state-only funded services. The department may ensure that this information is collected as part of the client assessment process.

The appropriations in this subsection are subject to the following conditions and limitations: In addition to other reductions, the appropriations in this subsection reflect reductions targeted specifically to state government administrative costs. These administrative reductions shall be achieved, to the greatest extent possible, by reducing those administrative costs that do not affect direct client services or direct service delivery or programs.
The appropriations in this subsection are subject to the following conditions and limitations:

1. For purposes of implementing chapter 74.46 RCW, the weighted average nursing facility payment rate shall not exceed $169.85 for fiscal year 2010 and shall not exceed ($166.24) $164.00 for fiscal year 2011, including the rate add-on described in subsection (12) of this section. There will be no adjustments for economic trends and conditions in fiscal years 2010 and 2011. The economic trends and conditions factor or factors defined in the biennial appropriations act shall not be compounded with the economic trends and conditions factor or factors defined in any other biennial appropriations acts before applying it to the component rate allocations established in accordance with chapter 74.46 RCW.

2. After examining actual nursing facility cost information, the legislature finds that the medicaid nursing facility rates calculated pursuant to Substitute House Bill No. 3202 or Substitute Senate Bill No. 6872 (nursing facility medicaid payments) provide sufficient reimbursement to efficiently and economically operating nursing facilities and bears a reasonable relationship to costs.

3. In accordance with chapter 74.46 RCW, the department shall issue no additional certificates of capital authorization for fiscal year 2010 and no new certificates of capital authorization for fiscal year 2011 shall grant no rate add-ons to payment rates for capital improvements not requiring a certificate of need and a certificate of capital authorization for fiscal year 2011.

4. The long-term care program may develop and pay enhanced rates for exceptional care to nursing homes for persons with traumatic brain injuries who are transitioning from hospital care. The cost per patient day for caring for these clients in a nursing home setting may be equal to or less than the cost of caring for these clients in a hospital setting.

5. Within the appropriations of this section, the department shall reduce all seventeen payment levels of the seventeen-level payment system from the fiscal year 2009 levels for boarding homes, boarding homes contracted as assisted living, and adult family homes. Excluded from the reductions are exceptional care rate add-ons. The long-term care program may develop add-ons to pay exceptional care rates to adult family homes and boarding homes with specialty contracts to provide support for the following specifically eligible clients:
   (a) Persons with AIDS or HIV-related diseases who might otherwise require nursing home or hospital care;
   (b) Persons with Alzheimer's disease and related dementia who might otherwise require nursing home care; and
   (c) Persons with co-occurring mental illness and long-term care needs who are eligible for expanded community services and who might otherwise require state and local psychiatric hospital care.

Within amounts appropriated, exceptional add-on rates for AIDS/HIV, dementia specialty care, and expanded community services may be standardized within each program.

6. (a) Amounts appropriated in this section reflect a reduction to funds appropriated for in-home care. The department shall reduce the number of in-home hours authorized. The reduction shall be scaled based on the acuity level of care recipients. The largest hour reductions shall be to lower acuity patients and the smallest hour reductions shall be to higher acuity patients. In doing so, the department shall comply with all maintenance of effort requirements contained in the American reinvestment and recovery act.

   (b) $3,070,000 of the general fund--state appropriation for fiscal year 2011 and $4,980,000 of the general fund--federal appropriation are provided solely for the department to partially restore the reduction to in-home care that are taken in (a) of this subsection. The department will use the same formula to restore personal care hours that it used to reduce personal care hours.

7. $536,000 of the general fund--state appropriation for fiscal year 2010, $1,477,000 of the general fund--state appropriation for fiscal year 2011, and $2,830,000 of the general fund--federal appropriation are provided solely for health care benefits pursuant to a collective bargaining agreement negotiated with the exclusive bargaining representative of individual providers established under RCW 74.39A.270.

(a) $1,212,000 of the general fund--state appropriation for fiscal year 2010, $2,934,000 of the general fund--state appropriation for fiscal year 2011, and $2,982,000 of the general fund--federal appropriation are provided solely for the state's contribution to the training partnership, as provided in RCW 74.39A.360, pursuant to a collective bargaining agreement negotiated with the exclusive bargaining representative of individual providers established under RCW 74.39A.270.

   (b) $3,300,000 of the general fund--state appropriation for fiscal year 2010, $660,000 of the general fund--state appropriation for fiscal year 2011, and $810,000 of the general fund--federal appropriation are provided solely for transfer from the department to the training partnership, as provided in RCW 74.39A.360, for infrastructure and instructional costs associated with training of individual providers, pursuant to a collective bargaining agreement negotiated with the exclusive bargaining representative of individual providers established under RCW 74.39A.270.

   (c) The federal portion of the amounts in this subsection is contingent upon federal approval of participation in contributions to the trust and shall remain unallotted and placed in reserve status until the office of financial management and the department of social and health services receive federal approval.

   (d) Expenditures for the purposes specified in this subsection shall not exceed the amounts provided in this subsection.

9. Within the amounts appropriated in this section, the department may expand the new freedom waiver program to accommodate new waiver recipients throughout the state. As possible, and in compliance with current state and federal laws, the department shall allow current waiver recipients to transfer to the new freedom waiver.
(10) Individuals receiving services as supplemental security income (SSI) state supplemental payments shall not become eligible for medical assistance under RCW 74.09.510 due solely to the receipt of SSI state supplemental payments.

These funds shall be used to serve individuals whose treatment needs constitute substantial barriers to community placement, who no longer require active psychiatric treatment at an inpatient hospital level of care, and who no longer meet the criteria for inpatient involuntary commitment. Coordination of these services will be done in partnership between the mental health program and the aging and disability services administration.

(12) Within the funds provided, the department shall continue to provide an add-on per Medicaid resident day per facility not to exceed $1.57. The add-on shall be used to increase wages, benefits, and/or staffing levels for certified nurse aides; to increase wages and/or benefits for dietary aides, housekeepers, laundry aides, or any other category of worker whose statewide average dollars-per-hour wage was less than $15 in calendar year 2008, according to cost report data. The add-on may also be used to address resulting wage compression for related job classes immediately affected by wage increases to low-wage workers. The department shall continue reporting requirements and a settlement process to ensure that the funds are spent according to this subsection. The department shall adopt rules to implement the terms of this subsection.

(13) $1,840,000 of the general fund--state appropriation for fiscal year 2010 and ($1,877,000) $1,759,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for operation of the volunteer services program. Funding shall be prioritized towards serving populations traditionally served by long-term care services to include senior citizens and persons with disabilities.

(14) In accordance with chapter 74.39 RCW, the department may implement two Medicaid waiver programs for persons who do not qualify for such services as categorically needy, subject to federal approval and the following conditions and limitations:

(a) One waiver program shall include coverage of care in community residential facilities. Enrollment in the waiver shall not exceed 600 persons at any time.

(b) The second waiver program shall include coverage of in-home care. Enrollment in this second waiver shall not exceed 200 persons at any time.

(c) The department shall identify the number of medically needy nursing home residents, and enrollment and expenditures on each of the two medically needy waivers, on monthly management reports.

(d) If it is necessary to establish a waiting list for either waiver because the budgeted number of enrollment opportunities has been reached, the department shall track how the long-term care needs of applicants assigned to the waiting list are met.

(15) The department shall establish waiting lists to the extent necessary to assure that annual expenditures on the community options program entry systems (COPES) program do not exceed appropriated levels. In establishing and managing any such waiting list, the department shall assure priority access to persons with the greatest unmet needs, as determined by department assessment processes.

(16) The department shall contract for housing with service models, such as cluster care, to create efficiencies in service delivery and responsiveness to unscheduled personal care needs by clustering hours for clients that live in close proximity to each other.

(17) The department shall not pay a home care agency licensed under chapter 70.127 RCW for personal care services provided by a family member, pursuant to Substitute House Bill No. 2361 (modifying state payments for in-home care).

(18) $209,000 of the general fund--state appropriation for fiscal year 2010, ($281,000) $732,000 of the general fund--state appropriation for fiscal year 2011, and $1,293,000 of the general fund--federal appropriation are provided solely to implement Engrossed House Bill No. 2194 (extraordinary medical placement policy). The department shall work in partnership with the department of corrections to identify services and find placements for offenders who are released through the extraordinary medical placement program. The department shall collaborate with the department of corrections to identify and track cost savings to the department of corrections, including medical cost savings and to identify and track expenditures incurred by the aging and disability services program for community services and by the medical assistance program for medical expenses. A joint report regarding the identified savings and expenditures shall be provided to the office of financial management and the appropriate fiscal committees of the legislature by November 30, 2010. If this bill is not enacted by June 30, 2009, the amounts provided in this subsection shall lapse.

(19) In accordance with RCW 18.51.050, 18.20.050, and 43.135.055, the department is authorized to increase nursing facility and boarding home fees in fiscal year 2011 as necessary to meet the actual costs of conducting the licensure, inspection, and regulatory programs.

(a) $1,035,000 of the general fund--private/local appropriation assumes that the current annual renewal license fee for nursing facilities shall be increased to $327 per bed beginning in fiscal year 2011.

(b) $1,806,000 of the general fund--local appropriation assumes that the current annual renewal license fee for boarding homes shall be increased to $106 per bed beginning in fiscal year 2011.

The TBI advisory council shall provide a report to the legislature by December 1, 2010, on the effectiveness of the functions overseen by the council and shall provide recommendations on the development of critical services for individuals with traumatic brain injury.

(21) The automatic award of additional hours of personal care for people with special meal preparation or incontinence needs is eliminated. Authorization of service hours will be based upon the individual's assessed needs.

(22) For calendar year 2009, the department shall calculate split settlements covering two periods January 1, 2009, through June 30, 2009, and July 1, 2009, through December 31, 2009. For the second period beginning July 1, 2009, the department may partially or totally waive settlements only in specific cases where a nursing home can demonstrate significant decreases in costs from the first period.

(23) $72,000 of the traumatic brain injury account appropriation and $116,000 of the general fund--federal appropriation are provided solely for a direct care rate add-on to any nursing facility specializing in the care of residents with traumatic brain injuries where more than 50 percent of residents are classified with this condition based upon the federal minimum data set assessment.

The consultant shall review pay-for-performance strategies used in other states to sustain and enhance quality-improvement efforts in nursing facilities. The evaluation shall include a review of the centers for medicare and medicaid services demonstration project to explore the feasibility of pay-for-performance systems in medicare certified nursing facilities. It is the intent of the legislature that the lifeline incapacity determination and progressive evaluation process regulations be carefully designed to accurately identify those persons who have been or will be incapacitated for at least ninety days. The incapacity determination and progressive evaluation process regulations in effect on January 1, 2010, cannot be amended until at least September 30, 2010; except that provisions related to the use of administrative review teams may be amended, and obsolete terminology and functional assessment language may be updated on or after July 1, 2010, in a manner that only minimally impacts the outcome of incapacity evaluations. After September 30, 2010, the incapacity determination and progressive evaluation process regulations may be amended only if the reports under (a) and (b) of this subsection have been submitted, and find that expenditures will exceed the appropriated level by three percent or more.
5. (a) The department and the caseload forecast council shall, by September 21, 2010, submit a report to the legislature based upon the most recent caseload forecast and actual expenditure data available, as to whether expenditures for the lifeline-unemployed grants in fiscal year 2011

If expenditures will exceed the appropriated amount for lifeline-unemployable benefits by three percent or more, the department may adopt regulations modifying incapacity determination and progressive evaluation process regulations after September 30, 2010.

(b) On or before September 21, 2010, the department shall submit a report to the relevant policy and fiscal committees of the legislature that includes the following information regarding any regulations proposed for adoption that would modify the lifeline incapacity determination and progressive evaluation process:

(c) Within these amounts:

(i) The department shall aggressively pursue opportunities to transfer lifeline clients to general assistance expedited coverage and to facilitate client applications for federal supplemental security income when the client's incapacities indicate that he or she would be likely to meet the federal disability criteria for supplemental security income. The department shall initiate and file the federal supplemental security income interim agreement as quickly as possible in order to maximize the recovery of federal funds;

(ii) The department shall review the lifeline caseload to identify recipients that would benefit from assistance in becoming naturalized citizens, and thus be eligible to receive federal supplemental security income benefits. Those cases shall be given high priority for naturalization funding through the department;

(iii) The department shall actively coordinate with local workforce development councils to expedite access to worker retraining programs for lifeline clients in those regions of the state with the greatest number of such clients;

The evaluation shall identify services necessary to eliminate or minimize barriers to employment, including mental health treatment, substance abuse treatment and vocational rehabilitation services. The department shall expedite referrals to chemical dependency treatment, mental health and vocational rehabilitation services for these clients.

(vi) The appropriations in this subsection reflect a change in the earned income disregard policy for lifeline clients. It is the intent of the legislature that the department shall adopt the temporary assistance for needy families earned income policy for the lifeline program.

(7) The appropriations in this section reflect reductions in the appropriations for the economic services administration's administrative expenses. It is the intent of the legislature that these reductions shall be achieved, to the greatest extent possible, by reducing those administrative costs that do not affect direct client services or direct service delivery or program.

(8) $855,000 of the general fund--state appropriation for fiscal year 2011, $719,000 of the general fund--federal appropriation, and $2,907,000 of the general fund--private/local appropriation are provided solely for the implementation of the opportunity portal, the food stamp employment and training program, and the disability lifeline program under Second Substitute House Bill No. 2782 (security lifeline act). Appropriation $260,036,000
TOTAL APPROPRIATION (($9,814,052,000) $9,727,634,000

The appropriations in this section are subject to the following conditions and limitations:

1. Based on quarterly expenditure reports and caseload forecasts, if the department estimates that expenditures for the medical assistance program will exceed the appropriations, the department shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

2. In determining financial eligibility for medicare-funded services, the department is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

3. The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

4. When a person is ineligible for medicaid solely by reason of residence in an institution for mental disabilities, the department shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

5. In accordance with RCW 74.46.625, $6,000,000 of the general fund--federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the department's discretion. During either the interim cost settlement or the final cost settlement, the department shall recoup from the public hospital districts the supplemental payments that exceed the medicare cost limit and/or the medicare upper payment limit. The department shall apply federal rules for identifying the eligible incurred medicare costs and the medicare upper payment limit.

6. $1,110,000 of the general fund--federal appropriation and $1,105,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for grants to rural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients, and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

7. (($9,818,000) ($5,729,000) of the general fund--state appropriation for fiscal year 2011, and (($9,865,000) $5,776,000) of the general fund--federal appropriation are provided solely for grants to nonrural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients, and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

8. The department shall continue the inpatient hospital certified public expenditures program for the 2009-11 biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The department shall submit reports to the governor and legislature by November 1, 2009, and by November 1, 2010, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the department shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2010 and fiscal year 2011, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim
payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2009-11 biennial operating appropriations act (chapter 564, Laws of 2009) and in effect on July 1, 2009, (b) one half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital payments exist in the 2009-11 biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. $20,403,000 of the general fund--state appropriation for fiscal year 2010, of which $6,570,000 is appropriated in section 204(1) of this act, and $29,480,000 of the general fund--state appropriation for fiscal year 2011, of which $6,570,000 is appropriated in section 204(1) of this act, are provided solely for state grants for the participating hospitals. CPE hospitals will receive the inpatient and outpatient reimbursement rate restorations in section 9 and rate increases in section 10(1)(b) of Engrossed Second Substitute House Bill No. 2956 (hospital safety net assessment fund) rather than through the baseline mechanism specified in this subsection.

(9) The department is authorized to use funds appropriated in this subsection to purchase goods and services through direct contracting with vendors when the department determines it is cost-effective to do so.

(10) $93,000 of the general fund--state appropriation for fiscal year 2010 and $93,000 of the general fund--federal appropriation are provided solely for the department to pursue a federal Medicaid waiver pursuant to Second Substitute Senate Bill No. 5945 (Washington health partnership plan). If the bill is not enacted by June 30, 2009, the amounts provided in this subsection shall lapse.

(11) The department shall require managed health care systems that have contracts with the department to serve medical assistance clients to limit any reimbursements or payments the systems make to providers not employed by or under contract with the systems to no more than the medical assistance rates paid by the department to providers for comparable services rendered to clients in the fee-for-service delivery system.

(12) A maximum of $241,141,000 in total funds from the general fund--state, general fund--federal, and tobacco and prevention control account--state appropriations may be expended in the fiscal biennium for the medical program pursuant to chapter 8, Laws of 2010 1st sp. sess. (security lifeline act), and these amounts are provided solely for this program. Of these amounts, $10,749,000 of the general fund--state appropriation for fiscal year 2010 and $10,892,000 of the general fund--federal appropriation are provided solely for payments to hospitals for providing outpatient services to low income patients who are recipients of lifeline benefits. Pursuant to RCW 74.09.035, the department shall not expend for the lifeline medical care services program any amounts in excess of the amounts provided in this subsection.

(13) Mental health services shall be included in the services provided through the managed care system for lifeline clients under chapter 8, Laws of 2010 1st sp. sess. In transitioning lifeline clients to managed care, the department shall attempt to deliver care to lifeline clients through medical homes in community and migrant health centers. The department, in collaboration with the carrier, shall seek to improve the transition rate of lifeline clients to the federal supplemental security income program. The department shall renegotiate the contract with the managed care plan that provides services for lifeline clients to maximize state retention of future hospital savings as a result of improved care coordination. The department, in collaboration with stakeholders, shall propose a new name for the lifeline program.

(14) The department shall evaluate the impact of the use of a managed care delivery and financing system on state costs and outcomes for lifeline medical clients. Outcomes measured shall include state costs, utilization, changes in mental health status and symptoms, and involvement in the criminal justice system.

(15) The department shall report to the governor and the fiscal committees of the legislature by June 1, 2010, on its progress toward achieving a twenty percentage point increase in the generic prescription drug utilization rate.

(16) State funds shall not be used by hospitals for advertising purposes.

(17) $24,356,000 of the general fund--private/local appropriation and $35,707,000 of the general fund--federal appropriation are provided solely for the implementation of professional services supplemental payment programs. The department shall seek a medicaid state plan amendment to create a professional services supplemental payment program for University of Washington medicine professional providers no later than July 1, 2009. The department shall apply federal rules for identifying the shortfall between current fee-for-service medicaid payments to participating providers and the applicable federal upper payment limit. Participating providers shall be solely responsible for providing the local funds required to obtain federal matching funds. Any incremental costs incurred by the department in the development, implementation, and maintenance of this program will be the responsibility of the participating providers. Participating providers will retain the full amount of supplemental payments provided under this program, net of any potential costs for any related audits or litigation brought against the state. The department shall report to the governor and the legislative fiscal committees on the prospects for expansion of the program to other qualifying providers as soon as feasibility is determined but no later than December 31, 2009. The report will outline estimated impacts on the participating providers, the procedures necessary to comply with federal guidelines, and the administrative resource requirements necessary to implement the program. The department will create a process for expansion of the program to other qualifying providers as soon as it is determined feasible by both the department and providers but no later than June 30, 2010.

(20) Pursuant to 42 U.S.C. Sec. 1396(a)(25), the department shall pursue insurance claims on behalf of medicaid children served through its in-home medically intensive child program under WAC 388-551-3000. The department shall report to the Legislature by December 31, 2009, on the results of its efforts to recover such claims.

(21) The department may, on a case-by-case basis and in the best interests of the child, set payment rates for medically intensive home care services to promote access to home care as an alternative to hospitalization. Expenditures related to these increased payments shall not exceed the amount the department would otherwise pay for hospitalization for the child receiving medically intensive home care services.

(22) $425,000 of the general fund–state appropriation for fiscal year 2010 and $790,000 of the general fund–federal appropriation are provided solely to continue children's health coverage outreach and education efforts under RCW 74.09.470. The department shall seek public-private partnerships and federal funds that are or may become available to provide on-going support for outreach and education efforts under the federal children's health insurance program reauthorization act of 2009.

(23) The department, in conjunction with the office of financial management, shall implement a prorated inpatient payment policy.

(24) The department will pursue a competitive procurement process for anesthesiologist products, emphasizing evidence-based medicine and protection of patient access without significant disruption in treatment.

(25) The department will pursue several strategies towards reducing pharmacy expenditures including but not limited to increasing generic prescription drug utilization by 20 percentage points and promoting increased utilization of the existing mail-order pharmacy program.

(26) The department shall reduce reimbursement for over-the-counter medications while maintaining reimbursement for those over-the-counter medications that can replace more costly prescription medications.

(27) The department shall seek public-private partnerships and federal funds that are or may become available to implement health information technology projects under the federal American recovery and reinvestment act of 2009.

(28) If the cost of a brand name drug, after receiving discounted prices and rebates, is less than the cost of the generic version of the drug for the medical assistance program, the brand name drug shall be purchased.

(29) The department shall target funding for maternity support services towards pregnant women with factors that lead to higher rates of poor birth outcomes, including hypertension, a preterm or low birth weight birth in the most recent previous birth, a cognitive deficit or developmental disability, substance abuse, severe mental illness, unhealthy weight or failure to gain weight, tobacco use, or African American or Native American race. The department shall prioritize evidence-based practices for delivery of maternity support services.    (i) A district's annual average headcount enrollment of students ages birth through four and those five year olds not yet enrolled in kindergarten, as defined in subsection (4) of this section, multiplied by the district's average basic education allocation per full-time equivalent student, multiplied by 1.15; and
   (ii) A district's annual average full-time equivalent basic education enrollment multiplied by the funded enrollment percent determined pursuant to subsection (6)(b) of this section, multiplied by the district's average basic education allocation per full-time equivalent student multiplied by 0.9309.

(b) For purposes of this subsection, "average basic education allocation per full-time equivalent student" for a district shall be based on the staffing ratios required by RCW 28A.150.260 and shall not include enhancements, secondary vocational education, or small schools in the 2009-10 school year. In the 2010-11 school year, the per student allocation under this subsection (5)(b) shall include the same factors as in the 2009-10 school year, but shall also include the classified staff enhancements included in section 502(3)(b).

6. The definitions in this subsection apply throughout this section.

(a) "Annual average full-time equivalent basic education enrollment" means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW 28A.225.250).

(b) "Enrollment percent" means the district's resident special education annual average enrollment, excluding the birth through age four enrollment and those five year olds not yet enrolled in kindergarten, as a percent of the district's annual average full-time equivalent basic education enrollment.

Each district's general fund--state funded special education enrollment shall be the lesser of the district's actual enrollment percent or 12.7 percent.

7. At the request of any interdistrict cooperative of at least 15 districts in which all excess cost services for special education students of the districts are provided by the cooperative, the maximum enrollment percent shall be calculated in accordance with subsection (6)(b) of this section, and shall be calculated in the aggregate rather than individual district units. For purposes of this subsection, the average basic education allocation per full-time equivalent student shall be calculated in the aggregate rather than individual district units.
(8) To the extent necessary, (§44.269.000) $45,269,000 of the general fund–state appropriation and $29,574,000 of the general fund–federal appropriation are provided for safety net awards for districts with demonstrated needs for special education funding beyond the amounts provided in subsection (5) of this section. If the federal safety net awards based on the federal eligibility threshold exceed the federal appropriation in this subsection (8) in any fiscal year, the superintendent shall expend all available federal discretionary funds necessary to meet this need. Safety net funds shall be awarded by the state safety net oversight committee subject to the following conditions and limitations:
   (a) The committee shall consider unmet needs for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding formulas. In the determination of need, the committee shall also consider additional available revenues from federal sources. Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards. In the determination of need, the committee shall require that districts demonstrate that they are maximizing their eligibility for all state and federal revenues related to services for special education-eligible students. Awards associated with (b) and (c) of this subsection shall not exceed the total of a district’s specific determination of need.
   (b) The committee shall then consider the extraordinary high cost needs of one or more individual special education students. Differences in costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.
   (c) Using criteria developed by the committee, the committee shall then consider extraordinary costs associated with communities that draw a larger number of families with children in need of special education services. The safety net awards to school districts shall be adjusted to reflect amounts awarded under (b) of this subsection.
   (d) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.
   (e) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.
   (f) Safety net awards shall be adjusted based on the percent of potential medicaid eligible students billed as calculated by the superintendent in accordance with chapter 318, Laws of 1999. The state safety net oversight committee shall ensure that safety net documentation and awards are based on current medicaid revenue amounts.
   (g) The office of the superintendent of public instruction, at the conclusion of each school year, shall recover safety net funds that were distributed prospectively but for which districts were not subsequently eligible.
   (9) The superintendent of public instruction may adopt such rules and procedures as are necessary to administer the special education funding and safety net award process. Prior to revising any standards, procedures, or rules, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature.
   (10) The safety net oversight committee appointed by the superintendent of public instruction shall consist of:
      (a) One staff from the office of superintendent of public instruction;
      (b) Staff of the office of the state auditor who shall be nonvoting members of the committee; and
      (c) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.
   (11) The office of the superintendent of public instruction shall review and streamline the application process to access safety net funds, provide technical assistance to school districts, and annually survey school districts regarding improvement to the process.
   (12) A maximum of $678,000 may be expended from the general fund–state appropriations to fund 5.43 full-time equivalent teachers and 2.1 full-time equivalent aides at children's orthopedic hospital and medical center. This amount is in lieu of money provided through the home and hospital allocation and the special education program.
   (13) The superintendent shall maintain the percentage of federal flow-through to school districts at 85 percent. In addition to other purposes, school districts may use increased federal funds for high-cost students, for purchasing regional special education services from educational service districts, and for staff development activities particularly relating to inclusion issues.
   (14) A school district may carry over from one year to the next year up to 10 percent of the general fund–state funds allocated under this program; however, carryover funds shall be expended in the special education program.
   (15) $262,000 of the general fund–state appropriation for fiscal year 2010 and $251,000 of the general fund–state appropriation for fiscal year 2011 are provided solely for two additional full-time equivalent staff to support the work of the safety net committee and to provide training and support to districts applying for safety net awards.
   (16) $50,000 of the general fund–state appropriation for fiscal year 2010, $50,000 of the general fund–state appropriation for fiscal 2011, and $100,000 of the general fund–federal appropriation shall be expended to support a special education ombudsman program within the office of superintendent of public instruction.

The department shall submit to the appropriate committees of the legislature a plan by January 15, 2011.

(9) The department is the lead agency for and recipient of the federal child care and development fund grant. Amounts within this grant shall be used to fund child care licensing, quality initiatives, agency administration, and other costs associated with child care subsidies. The department shall transfer a portion of this grant to the department of social and health services to partially fund the child care subsidies paid by the department of social and health services on behalf of the department of early learning.

(10) The department shall use child care development fund money to satisfy the federal audit requirement of the improper payments act (PIPA) of 2002. In accordance with the PIPA's rules, the money spent on the audits will not count against the five percent state limit on administrative expenditures.

Temporary layoffs under this section shall not affect the employees' vacation leave accrual, seniority, health insurance, or sick leave credits. For the purposes of chapter 430, Laws of 2009, the compensation reductions under this section are deemed to be an integral part of an employee's expenditure reduction efforts and shall not result in the loss of retirement benefits in any state defined benefit retirement plan for an employee whose period of average final compensation includes a portion of the period from the effective date of this section through June 30, 2011.

(b)(i) During the closure of an office or institution under this section, any employee with a monthly full-time equivalent salary of two thousand five hundred dollars or less may, at the employee's option, use accrued vacation leave in lieu of temporary layoff during the closure. (9)(a) If any state agency of the executive, legislative, and judicial branch is unable to achieve its full amount of cost reductions as provided in the omnibus appropriations act through its approved plan in accordance with subsection (1) of this section or through ten days of temporary layoffs in accordance with subsections (2) and (8) of this section, the remaining amount is a reduction to the agency's cost of operations and may include savings as a result of sections 601 through 604 of chapter 3, Laws of 2010.

(b) If any state agency of the executive, legislative, and judicial branch is able to achieve its full amount of cost reductions as provided in the omnibus appropriations act through ten days or less of temporary layoffs in accordance with subsections (2) and (8) of this section, any residual amount of cost reductions that cannot be achieved through a full day of closure is a reduction to the agency's cost of operations and may include savings as a result of sections 601 through 604 of chapter 3, Laws of 2010.

Sec. 902. RCW 18.04.105 and 2004 c 159 s 2 are each amended to read as follows:

(1) A license to practice public accounting shall be granted by the board to any person:

(a) Who is of good character. Good character, for purposes of this section, means lack of a history of dishonest or felonious acts. The board may refuse to grant a license on the ground of failure to satisfy this requirement only if there is a substantial connection between the lack of good character of the applicant and the professional and ethical responsibilities of a licensee and if the finding by the board of lack of good character is supported by a preponderance of evidence. When an applicant is found to be unqualified for a license because of a lack of good character, the board shall furnish the applicant a statement containing the findings of the board and a notice of the applicant's right of appeal;

(b) Who has met the educational standards established by rule as the board determines to be appropriate;

(c) Who has passed an examination;

(iii) Meeting the competency requirements in a manner as determined by the board to be appropriate and established by board rule; and

(e) Who has paid appropriate fees as established by rule by the board.

(2) The examination described in subsection (1)(c) of this section shall test the applicant's knowledge of the subjects of accounting and auditing, and other related fields the board may specify by rule. The time for holding the examination is fixed by the board and may be changed from time to time. The board shall prescribe by rule the methods of applying for and taking the examination, including methods for grading examinations and determining a passing grade required of an applicant for a license. The board shall to the extent possible see to it that the grading of the examination, and the passing grades, are uniform with those applicable to all other states. The board may make use of all or a part of the uniform certified public accountant examination and advisory grading service of the American Institute of Certified Public Accountants and may contract with third parties to perform administrative services with respect to the examination as the board deems appropriate to assist it in performing its duties under this chapter. The board shall establish by rule provisions for transitioning to a new examination structure or to a new media for administering the examination.

(3) The board shall charge each applicant an examination fee for the initial examination or for reexamination. The applicable fee shall be paid by the person at the time he or she applies for examination, reexamination, or evaluation of educational qualifications. Fees for examination, reexamination, or evaluation of educational qualifications shall be determined by the board under chapter 18.04 RCW. There is established in the state treasury an account to be known as the certified public accountants' account. All fees received from candidates to take any or all sections of the certified public accountant examination shall be used only for costs related to the examination. During the 2009-2011 fiscal biennium, the legislature may transfer from the certified public accountants' account to the state general fund such amounts as reflect the excess fund balance of the account.

(4) Persons who on June 30, 2001, held valid certificates previously issued under this chapter shall be deemed to be certificate holders, subject to the following:

(a) Certificate holders may, prior to June 30, 2006, petition the board to become licensees by documenting to the board that they have gained one year of experience through the use of accounting, issuing reports on financial statements, management advisory, financial advisory, tax, tax advisory, or consulting skills, without regard to the eight-year limitation set forth in (b) of this subsection, while employed in government, industry, academia, or public practice.

(b) Certificate holders who do not petition to become licensees prior to June 30, 2006, may after that date petition the board to become licensees by documenting to the board that they have one year of experience acquired within eight years prior to applying for a license through the use of accounting, issuing reports on financial statements, management advisory, financial advisory, tax, tax advisory, or consulting skills in government, industry, academia, or public practice.

(c) Certificate holders who petition the board pursuant to (a) or (b) of this subsection must also meet competency requirements in a manner as determined by the board to be appropriate and established by board rule.

(d) Any certificate holder petitioning the board pursuant to (a) or (b) of this subsection to become a licensee must submit to the board satisfactory proof of having completed an accumulation of one hundred twenty hours of CPE during the thirty-six months preceding the date of filing the petition.

(e) Any certificate holder petitioning the board pursuant to (a) or (b) of this subsection to become a licensee must pay the appropriate fees established by rule by the board.

(5) Certificate holders shall comply with the prohibition against the practice of public accounting in RCW 18.04.345.

(6) Persons who on June 30, 2001, held valid certificates previously issued under this chapter are deemed to hold inactive certificates, subject to renewal as inactive certificates, until they have petitioned the board to become licensees and have met the requirements of subsection (4) of this section. No individual who did not hold a valid certificate before July 1, 2001, is eligible to obtain an inactive certificate.
(7) Persons deemed to hold inactive certificates under subsection (6) of this section shall comply with the prohibition against the practice of public accounting in subsection (8)(b) of this section and RCW 18.04.345, but are not required to display the term inactive as part of their title, as required by subsection (8)(a) of this section until renewal. Certificates renewed to any persons after June 30, 2001, are inactive certificates and the inactive certificate holders are subject to the requirements of subsection (8) of this section.

(8) Persons holding an inactive certificate:

(a) Must use or attach the term “inactive” whenever using the title CPA or certified public accountant or referring to the certificate, and print the word “inactive” immediately following the title, whenever the title is printed on a business card, letterhead, or any other document, including documents published or transmitted through electronic media, in the same font and font size as the title; and
