(b) Approve or deny requests from treatment facilities for transfer of a minor to another facility;

(c) Receive and monitor reports required under this section;

(d) Receive and monitor reports of all discharges.

(3) The director may authorize transfer of minors among treatment facilities if the transfer is in the best interests of the minor or due to treatment priorities.

(4) The responsible state-funded evaluation and treatment facility or approved substance use disorder treatment program shall submit a report to the authority's designated placement committee within ninety days of admission and no less than every one hundred eighty days thereafter, setting forth such facts as the authority requires, including the minor's individual treatment plan and progress, recommendations for future treatment, and possible less restrictive treatment.

Sec. 21. RCW 18.130.175 and 2006 c 99 s 7 are each amended to read as follows:

(1) In lieu of disciplinary action under RCW 18.130.160 and if the disciplining authority determines that the unprofessional conduct may be the result of substance abuse, the disciplining authority may refer the license holder to a voluntary substance abuse monitoring program approved by the disciplining authority.

The cost of the treatment shall be the responsibility of the license holder, but the responsibility does not preclude payment by an employer, existing insurance coverage, or other sources. Primary alcoholism or other drug addiction treatment shall be provided by approved treatment programs under RCW 70.96A.020 or by any other provider approved by the entity or the commission. However, nothing shall prohibit the disciplining authority from approving additional services and programs as an adjunct to primary alcoholism or other drug addiction treatment. The disciplining authority may also approve the use of out-of-state programs. Referral of the license holder to the program shall be done only with the consent of the license holder. Referral to the program may also include probationary conditions for a designated period of time. If the license holder does not consent to be referred to the program or does not successfully complete the program, the disciplining authority may take appropriate action under RCW 18.130.160 which includes suspension of the license unless or until the disciplining authority, in consultation with the director of the voluntary substance abuse monitoring program, determines the license holder is able to practice safely. The secretary shall adopt uniform rules for the evaluation by the ~~((disciplinary [disciplining]))~~ disciplining authority of a relapse or program violation on the part of a license holder in the substance abuse monitoring program. The evaluation shall encourage program participation with additional conditions, in lieu of disciplinary action, when the ~~((disciplinary [disciplining]))~~ disciplining authority determines that the license holder is able to continue to practice with reasonable skill and safety.

(2) In addition to approving substance abuse monitoring programs that may receive referrals from the

disciplining authority, the disciplining authority may establish by rule requirements for participation of license holders who are not being investigated or monitored by the disciplining authority for substance abuse. License holders voluntarily participating in the approved programs without being referred by the disciplining authority shall not be subject to disciplinary action under RCW 18.130.160 for their substance abuse, and shall not have their participation made known to the disciplining authority, if they meet the requirements of this section and the program in which they are participating.

(3) The license holder shall sign a waiver allowing the program to release information to the disciplining authority if the licensee does not comply with the requirements of this section or is unable to practice with reasonable skill or safety. The substance abuse program shall report to the disciplining authority any license holder who fails to comply with the requirements of this section or the program or who, in the opinion of the program, is unable to practice with reasonable skill or safety. License holders shall report to the disciplining authority if they fail to comply with this section or do not complete the program's requirements. License holders may, upon the agreement of the program and disciplining authority, reenter the program if they have previously failed to comply with this section.

(4) The treatment and pretreatment records of license holders referred to or voluntarily participating in approved programs shall be confidential, shall be exempt from chapter 42.56 RCW, and shall not be subject to discovery by subpoena or admissible as evidence except for monitoring records reported to the disciplining authority for cause as defined in subsection (3) of this section. Monitoring records relating to license holders referred to the program by the disciplining authority or relating to license holders reported to the disciplining authority by the program for cause, shall be released to the disciplining authority at the request of the disciplining authority. Records held by the disciplining authority under this section shall be exempt from chapter 42.56 RCW and shall not be subject to discovery by subpoena except by the license holder.

(5) "Substance abuse," as used in this section, means the impairment, as determined by the disciplining authority, of a license holder's professional services by an addiction to, a dependency on, or the use of alcohol, legend drugs, or controlled substances.

(6) This section does not affect an employer's right or ability to make employment-related decisions regarding a license holder. This section does not restrict the authority of the disciplining authority to take disciplinary action for any other unprofessional conduct.

(7) A person who, in good faith, reports information or takes action in connection with this section is immune from civil liability for reporting information or taking the action.

(a) The immunity from civil liability provided by this section shall be liberally construed to accomplish the purposes of this section and the persons entitled to immunity shall include:

- (i) An approved monitoring treatment program;
- (ii) The professional association operating the program;
- (iii) Members, employees, or agents of the program or association;
- (iv) Persons reporting a license holder as being possibly impaired or providing information about the license holder's impairment; and
- (v) Professionals supervising or monitoring the course of the impaired license holder's treatment or rehabilitation.

(b) The courts are strongly encouraged to impose sanctions on clients and their attorneys whose allegations under this subsection are not made in good faith and are without either reasonable objective, substantive grounds, or both.

(c) The immunity provided in this section is in addition to any other immunity provided by law.

(8) In the case of a person who is applying to be a substance use disorder professional or substance use disorder professional trainee certified under chapter 18.205 RCW, if the person is:

(a) Less than one year in recovery from a substance use disorder, the duration of time that the person may be required to participate in the voluntary substance abuse monitoring program may not exceed the amount of time necessary for the person to achieve one year in recovery; or

(b) At least one year in recovery from a substance use disorder, the person may not be required to participate in the substance abuse monitoring program.

Sec. 22. RCW 43.43.842 and 2014 c 88 s 1 are each amended to read as follows:

(1)(a) The secretary of social and health services and the secretary of health shall adopt additional requirements for the licensure or relicensure of agencies, facilities, and licensed individuals who provide care and treatment to vulnerable adults, including nursing pools registered under chapter 18.52C RCW. These additional requirements shall ensure that any person associated with a licensed agency or facility having unsupervised access with a vulnerable adult shall not be the respondent in an active protective order under RCW 74.34.130, nor have been: (i) Convicted of a crime against persons as defined in RCW 43.43.830, except as provided in this section; (ii) convicted of crimes relating to financial exploitation as defined in RCW 43.43.830, except as provided in this section; or (iii) found in any disciplinary board final decision to have abused a vulnerable adult under RCW 43.43.830.

(b) A person associated with a licensed agency or facility who has unsupervised access with a vulnerable adult shall make the disclosures specified in RCW 43.43.834(2). The person shall make the disclosures in writing, sign, and swear to the contents under penalty of perjury. The person shall, in the disclosures, specify all crimes against children or other persons, all crimes relating to financial exploitation,

and all crimes relating to drugs as defined in RCW 43.43.830, committed by the person.

(2) The rules adopted under this section shall permit the licensee to consider the criminal history of an applicant for employment in a licensed facility when the applicant has one or more convictions for a past offense and:

(a) The offense was simple assault, assault in the fourth degree, or the same offense as it may be renamed, and three or more years have passed between the most recent conviction and the date of application for employment;

(b) The offense was prostitution, or the same offense as it may be renamed, and three or more years have passed between the most recent conviction and the date of application for employment;

(c) The offense was theft in the third degree, or the same offense as it may be renamed, and three or more years have passed between the most recent conviction and the date of application for employment;

(d) The offense was theft in the second degree, or the same offense as it may be renamed, and five or more years have passed between the most recent conviction and the date of application for employment;

(e) The offense was forgery, or the same offense as it may be renamed, and five or more years have passed between the most recent conviction and the date of application for employment;

(f) The department of social and health services reviewed the employee's otherwise disqualifying criminal history through the department of social and health services' background assessment review team process conducted in 2002, and determined that such employee could remain in a position covered by this section; or

(g) The otherwise disqualifying conviction or disposition has been the subject of a pardon, annulment, or other equivalent procedure.

The offenses set forth in (a) through (g) of this subsection do not automatically disqualify an applicant from employment by a licensee. Nothing in this section may be construed to require the employment of any person against a licensee's judgment.

(3) The rules adopted pursuant to subsection (2) of this section may not allow a licensee to automatically deny an applicant with a conviction for an offense set forth in subsection (2) of this section for a position as a substance use disorder professional or substance use disorder professional trainee certified under chapter 18.205 RCW if:

(a) At least one year has passed between the applicant's most recent conviction for an offense set forth in subsection (2) of this section and the date of application for employment;

(b) The offense was committed as a result of the applicant's substance use or untreated mental health symptoms; and

(c) The applicant is at least one year in recovery from a substance use disorder, whether through abstinence

or stability on medication-assisted therapy, or in recovery from a mental health disorder.

(4) In consultation with law enforcement personnel, the secretary of social and health services and the secretary of health shall investigate, or cause to be investigated, the conviction record and the protection proceeding record information under this chapter of the staff of each agency or facility under their respective jurisdictions seeking licensure or relicensure. An individual responding to a criminal background inquiry request from his or her employer or potential employer shall disclose the information about his or her criminal history under penalty of perjury. The secretaries shall use the information solely for the purpose of determining eligibility for licensure or relicensure. Criminal justice agencies shall provide the secretaries such information as they may have and that the secretaries may require for such purpose.

NEW SECTION. Sec. 23. A new section is added to chapter 18.205 RCW to read as follows:

The department may not automatically deny an applicant for certification under this chapter for a position as a substance use disorder professional or substance use disorder professional trainee based on a conviction history consisting of convictions for simple assault, assault in the fourth degree, prostitution, theft in the third degree, theft in the second degree, or forgery, the same offenses as they may be renamed, or substantially equivalent offenses committed in other states or jurisdictions if:

(1) At least one year has passed between the applicant's most recent conviction for an offense set forth in this section and the date of application for employment;

(2) The offense was committed as a result of the person's substance use or untreated mental health symptoms; and

(3) The applicant is at least one year in recovery from a substance use disorder, whether through abstinence or stability on medication-assisted therapy, or in recovery from mental health challenges.

Sec. 24. RCW 18.130.055 and 2016 c 81 s 12 are each amended to read as follows:

(1) The disciplining authority may deny an application for licensure or grant a license with conditions if the applicant:

(a) Has had his or her license to practice any health care profession suspended, revoked, or restricted, by competent authority in any state, federal, or foreign jurisdiction;

(b) Has committed any act defined as unprofessional conduct for a license holder under RCW 18.130.180, except as provided in RCW 9.97.020;

(c) Has been convicted or is subject to current prosecution or pending charges of a crime involving moral turpitude or a crime identified in RCW 43.43.830, except as provided in RCW 9.97.020 and section 23 of this act. For purposes of this section, conviction includes all instances in which a plea of guilty or nolo contendere is the basis for the

conviction and all proceedings in which the prosecution or sentence has been deferred or suspended. At the request of an applicant for an original license whose conviction is under appeal, the disciplining authority may defer decision upon the application during the pendency of such a prosecution or appeal;

(d) Fails to prove that he or she is qualified in accordance with the provisions of this chapter, the chapters identified in RCW 18.130.040(2), or the rules adopted by the disciplining authority; or

(e) Is not able to practice with reasonable skill and safety to consumers by reason of any mental or physical condition.

(i) The disciplining authority may require the applicant, at his or her own expense, to submit to a mental, physical, or psychological examination by one or more licensed health professionals designated by the disciplining authority. The disciplining authority shall provide written notice of its requirement for a mental or physical examination that includes a statement of the specific conduct, event, or circumstances justifying an examination and a statement of the nature, purpose, scope, and content of the intended examination. If the applicant fails to submit to the examination or provide the results of the examination or any required waivers, the disciplining authority may deny the application.

(ii) An applicant governed by this chapter is deemed to have given consent to submit to a mental, physical, or psychological examination when directed in writing by the disciplining authority and further to have waived all objections to the admissibility or use of the examining health professional's testimony or examination reports by the disciplining authority on the grounds that the testimony or reports constitute privileged communications.

(2) The provisions of RCW 9.95.240 and chapter 9.96A RCW do not apply to a decision to deny a license under this section.

(3) The disciplining authority shall give written notice to the applicant of the decision to deny a license or grant a license with conditions in response to an application for a license. The notice must state the grounds and factual basis for the action and be served upon the applicant.

(4) A license applicant who is aggrieved by the decision to deny the license or grant the license with conditions has the right to an adjudicative proceeding. The application for adjudicative proceeding must be in writing, state the basis for contesting the adverse action, include a copy of the adverse notice, and be served on and received by the department within twenty-eight days of the decision. The license applicant has the burden to establish, by a preponderance of evidence, that the license applicant is qualified in accordance with the provisions of this chapter, the chapters identified in RCW 18.130.040(2), and the rules adopted by the disciplining authority.

NEW SECTION. Sec. 25. A new section is added to chapter 18.205 RCW to read as follows:

(ii) A federally qualified health center; or

(iii) A hospital;

(b) Following an initial intake or assessment, a co-occurring disorder specialist may provide substance use disorder treatment only to clients diagnosed with a substance use disorder and a mental health disorder;

occurring disorder specialist enhancements and any related disciplinary activities.

(11) The department shall adopt rules regarding the role of co-occurring disorder specialists across the American society of addiction medicine continuum of care.

(7) The housing and services provided pursuant to subsection (6) of this section may only be provided to persons whose income is at or below sixty percent of the median income of the county or city imposing the tax.

(8) In determining the use of funds under subsection (6) of this section, a county or city must consider the income of the individuals and families to be served, the leveraging of the resources made available under this section, and the housing needs within the jurisdiction of the taxing authority.

(9) To carry out the purposes of this section including, but not limited to, financing loans or grants to nonprofit organizations or public housing authorities, the legislative authority of the county or city imposing the tax has the authority to issue general obligation or revenue bonds within the limitations now or hereafter prescribed by the laws of this state, and may use, and is authorized to pledge, the moneys collected under this section for repayment of such bonds.

(10) A county or city may enter into an interlocal agreement with one or more counties, cities, or public housing authorities in accordance with chapter 39.34 RCW. The agreement may include, but is not limited to, pooling the tax receipts received under this section, pledging those taxes to bonds issued by one or more parties to the agreement, and allocating the proceeds of the taxes levied or the bonds issued in accordance with such interlocal agreement and this section.

MESSAGE FROM THE SENATE

April 27, 2019

Mr. Speaker:

The Senate has passed SUBSTITUTE HOUSE BILL NO. 1101 with the following amendment:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** For the purpose of providing funds to finance the projects described and

authorized by the legislature in the omnibus capital and operating appropriations acts for the 2017-2019 and 2019-2021 fiscal biennia, and all costs incidental thereto, the state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of three billion two hundred million nine hundred twenty-six thousand dollars, or as much thereof as may be required, to finance these projects and all costs incidental thereto. Bonds authorized in this section may be sold at such price as the state finance committee shall determine. No bonds authorized in this section may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds.

NEW SECTION. Sec. 2. (1) The proceeds from the sale of bonds authorized in section 1 of this act shall be deposited in the state building construction account created by RCW 43.83.020. The proceeds shall be transferred as follows:

(a) Three billion twenty-four million two hundred ninety-two thousand dollars to remain in the state building construction account created by RCW 43.83.020;

(b) One hundred seventy-six million six hundred thirty-four thousand dollars to the state taxable building construction account. All receipts from taxable bonds issued are to be deposited into the account. If the state finance committee deems it necessary or advantageous to issue more than the amount specified in this subsection (1)(b) as taxable bonds in order to comply with federal internal revenue service rules and regulations pertaining to the use of nontaxable bond proceeds or in order to reduce the total financing costs for bonds issued, the proceeds of such additional taxable bonds shall be transferred to the state taxable building construction account in lieu of any transfer otherwise provided by this section. If the state finance committee determines that a portion of the amount specified in this subsection (1)(b) as taxable bonds may be issued as nontaxable bonds in compliance with federal internal revenue service rules and regulations pertaining to the use of nontaxable bond proceeds, then such bond proceeds shall be transferred to the state building construction account in lieu of the transfer to the state taxable building construction account otherwise provided by this subsection (1)(b). The state treasurer shall submit written notice to the director of financial management if it is determined that any such additional transfer to the state taxable building construction account is necessary or that a transfer from the state taxable building construction account to the state building construction account may be made. Moneys in the account may be spent only after appropriation.

(2)(a) The treasurer shall transfer bond proceeds deposited in the state building construction account into the outdoor recreation account created by RCW 79A.25.060, the habitat conservation account created by RCW 79A.15.020, the farm and forest account created by RCW 79A.15.130, and the early learning facilities development account created by RCW 43.31.569, at various times and in various amounts necessary to support authorized expenditures from those accounts.

(b) The treasurer shall transfer bond proceeds deposited in the state taxable building construction account into the early learning facilities revolving account created by RCW 43.31.569, at various times and in various amounts necessary to support authorized expenditures from that account.

(3) These proceeds shall be used exclusively for the purposes specified in this section and for the payment of expenses incurred in the issuance and sale of the bonds issued for the purposes of this section, and shall be administered by the office of financial management subject to legislative appropriation.

NEW SECTION. Sec. 3. (1) The debt-limit general fund bond retirement account shall be used for the payment of the principal of and interest on the bonds authorized in section 1 of this act.

(2) The state finance committee shall, on or before June 30th of each year, certify to the state treasurer the amount needed in the ensuing twelve months to meet the bond retirement and interest requirements on the bonds authorized in section 1 of this act.

(3) On each date on which any interest or principal and interest payment is due on bonds issued for the purposes of section 2 (1) and (2) of this act the state treasurer shall withdraw from any general state revenues received in the state treasury and deposit in the debt-limit general fund bond retirement account an amount equal to the amount certified by the state finance committee to be due on the payment date.

NEW SECTION. Sec. 4. (1) Bonds issued under section 1 of this act shall state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and shall contain an unconditional promise to pay the principal and interest as the same shall become due.

(2) The owner and holder of each of the bonds or the trustee for the owner and holder of any of the bonds may by mandamus or other appropriate proceeding require the transfer and payment of funds as directed in this section.

NEW SECTION. Sec. 5. The legislature may provide additional means for raising moneys for the payment of the principal of and interest on the bonds authorized in section 1 of this act, and sections 2 and 3 of this act shall not be deemed to provide an exclusive method for the payment.

NEW SECTION. Sec. 6. Sections 1 through 5 of this act are each added to chapter 43.100A RCW.

NEW SECTION. Sec. 7. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 8. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

On page 1, line 2 of the title, after "accounts;" strike the remainder of the title and insert "adding new sections to chapter 43.100A RCW; and declaring an emergency."

and the same is herewith transmitted.

MESSAGE FROM THE SENATE

April 27, 2019

Mr. Speaker:

The Senate has passed SUBSTITUTE HOUSE BILL NO. 1102 with the following amendment:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) A capital budget is hereby adopted and, subject to the provisions set forth in this act, the several dollar amounts hereinafter specified, or so much thereof as shall be sufficient to accomplish the purposes designated, are hereby appropriated and authorized to be incurred for capital projects during the period beginning with the effective date of this section and ending June 30, 2021, out of the several funds specified in this act.

(2) The definitions in this subsection apply throughout this act unless the context clearly requires otherwise.

(a) "Fiscal year 2020" or "FY 2020" means the period beginning July 1, 2019, and ending June 30, 2020.

(b) "Fiscal year 2021" or "FY 2021" means the period beginning July 1, 2020, and ending June 30, 2021.

(c) "Lapse" or "revert" means the amount shall return to an unappropriated status.

(d) "Provided solely" means the specified amount may be spent only for the specified purpose.

(3) Unless otherwise specifically authorized in this act, any portion of an amount provided solely for a specified purpose that is not expended subject to the specified conditions and limitations to fulfill the specified purpose shall lapse.

(4) The amounts shown under the headings "Prior Biennia," "Future Biennia," and "Total" in this act are for informational purposes only and do not constitute legislative approval of these amounts. "Prior biennia" typically refers to the immediate prior biennium for reappropriations, but may refer to multiple biennia in the case of specific projects. A "future biennia" amount is an estimate of what may be appropriated for the project or program in the 2021-2023 biennium and the following three biennia; an amount of zero does not necessarily constitute legislative intent to not provide funding for the project or program in the future.

(5) "Reappropriations" in this act are appropriations and, unless the context clearly provides otherwise, are subject to the relevant conditions and limitations applicable to appropriations. Reappropriations shall be limited to the unexpended balances remaining on June 30, 2019, from the 2017-2019 biennial appropriations for each project.

2019-21 Housing Trust Fund Program (40000036)

The appropriations in this section are subject to the following conditions and limitations:

(1) \$129,050,000 of the state taxable building construction account—state appropriation and \$45,950,000 of the state building construction account—state appropriation are provided solely for production and preservation of affordable housing. Of the amounts in this subsection:

(a) \$35,000,000 of the appropriation is provided solely for housing projects that provide supportive housing and case-management services to persons with behavioral or chronic mental illness. When evaluating applications for this population, the department must prioritize low-income supportive housing unit proposals that show:

- (i) Evidence that the application was developed in collaboration with one or more health care entities that provide behavioral health care services to individuals eligible for the housing provided under this subsection;
- (ii) A commitment by the applicant to provide, directly or through a formal partnership, necessary treatment

and supportive services to the tenants and maintain the beds or housing units for at least a forty-year period;

(iii) Readiness to begin structural modifications or construction resulting in a fast project completion;

(iv) Program requirements that adhere to the key elements of permanent supportive housing programs including choice in housing and living arrangements, functional separation of housing and services, community integration, rights of tenancy, and voluntary recovery-focused services; and

(v) To achieve geographic distribution, the department must prioritize projects in rural areas as defined by the department per RCW 43.185.050 and unserved communities with the goal of maximizing the investment and increasing the number of supportive housing units in rural, unserved communities.

(b) \$10,000,000 of the appropriation in this section is provided solely for competitive grant awards for modular housing which includes high quality affordable housing projects that will quickly move people from homelessness into secure housing and are significantly less expensive to construct than traditional housing. These funds must be awarded to projects with a total project development cost per housing unit of less than \$125,000, excluding the value of land, off-site infrastructure costs, and any capitalized reserves, compliant with the Americans with disabilities act, and with a commitment by the applicant to maintain the housing units for at least a fifty year period.

(c) \$10,000,000 of the appropriation in this section is provided solely for a state match or state matches on private contributions that fund the production and preservation of affordable housing. Awards must be made using a competitive process. If any funding remains unallocated after the first fiscal year during the 2019-2021 fiscal biennium, the department may allocate the remaining funding through its annual competitive process for affordable housing projects that serve and benefit low-income and special needs populations in need of housing.

(d)(i) \$10,000,000 of the appropriation in this section is provided solely for housing preservation grants or loans to be awarded competitively.

(ii) The funds may be provided for major building improvements, preservation, and system replacements, necessary for the existing housing trust fund portfolio to maintain long-term viability. The department must require a capital needs assessment to be provided prior to contract execution. Funds may not be used to add or expand the capacity of the property.

(iii) To allocate preservation funds, the department must review applications and evaluate projects based on the following criteria:

- (A) The age of the property, with priority given to buildings that are more than fifteen years old;
- (B) The population served, with priority given to projects with at least 50 percent of the housing units being

occupied by families and individuals at or below 50 percent area median income;

(C) The degree to which the applicant demonstrates that the improvements will result in a reduction of operating or utilities costs, or both;

(D) The potential for additional years added to the affordability period of the property; and

(E) Other criteria that the department considers necessary to achieve the purpose of this program.

(e)(i) \$7,000,000 of the appropriation in this section is provided solely for loans or grants to design and construct ultra-high energy efficient affordable housing projects.

(ii) To receive funding, a project must provide a life-cycle cost analysis report to the department and must demonstrate energy-saving and renewable energy systems either designed to reach net-zero energy use after housing is fully occupied or designed to achieve the most recent building standard of the passive house institute US as of the effective date of this section.

(iii) The department must consider, at a minimum and in any order, the following factors in assigning a numerical ranking to a project:

(A) Whether the proposed design has demonstrated that the project will achieve either net-zero energy use when fully occupied or will achieve the most recent building standard of the passive house institute US as of the effective date of this section;

(B) The life-cycle cost of the project;

(C) That the project demonstrates a design, use of materials, and construction process that can be replicated by the Washington building industry;

(D) The extent to which the project leverages nonstate funds;

(E) The extent to which the project is ready to proceed to construction;

(F) Whether the project promotes sustainable use of resources and environmental quality;

(G) Whether the project is being well managed to fund maintenance and capital depreciation;

(H) Reduction of housing and utilities carbon footprint; and

(I) Other criteria that the department considers necessary to achieve the purpose of this program.

(iv) The department must monitor and track the results of the housing projects that receive ultra-high energy efficiency funding under this section.

(f) \$45,950,000 of the appropriation in this section is provided solely for the following list of housing projects:

Bellwether Housing (Seattle)	\$6,000,000
Capitol Hill Housing Broadway (Seattle)	\$6,000,000

THA Arlington Drive (Tacoma).....	\$800,000

(g) \$57,050,000 of the appropriation in this section is provided solely for affordable housing projects that serve and benefit low-income and special needs populations in need of housing. Of the amounts appropriated in this subsection, the department must allocate the funds as follows:

(i) \$5,000,000 of the appropriation in this section is provided solely for housing for veterans;

(ii) \$5,000,000 of the appropriation in this section is provided solely for housing that serves people with developmental disabilities;

(iii) \$5,000,000 of the appropriation in this section is provided solely for housing that serves people who are employed as farmworkers; and

(iv)(A) \$5,000,000 of the appropriation in this section is provided solely for housing projects that benefit homeownership.

(B) During the 2019-2021 fiscal biennium, the department must use a separate application form for applications to provide homeownership opportunities and evaluate homeownership project applications as allowed under chapter 43.185A RCW.

(C) In addition to the definition of "first-time home buyer" in RCW 43.185A.010, for the purposes of awarding homeownership projects during the 2019-2021 fiscal biennium "first time home buyer" also includes:

(I) A single parent who has only owned a home with a former spouse while married;

(II) An individual who is a displaced homemaker as defined in 24 C.F.R. Sec. 93.2 as it existed on the effective date of this section, or such subsequent date as may be provided by the department by rule, consistent with the purposes of this section, and has only owned a home with a spouse;

(III) An individual who has only owned a principal residence not permanently affixed to a permanent foundation in accordance with applicable regulations; or

(IV) An individual who has only owned a property that is discerned by a licensed building inspector as being uninhabitable.

(2) In evaluating projects in this section, the department must give preference for applications based on some or all of the criteria in RCW 43.185.070(5).

(3)(a) The department must strive to allocate all of the amounts appropriated in this section within the 2019-2021 fiscal biennium in the manner prescribed in subsection (1) of this section. However, if upon review of applications the department determines there are not adequate suitable projects in a category, the department may allocate funds to projects serving other low-income and special needs populations, provided those projects are located in an area with an identified need for the type of housing proposed.

(b) By June 30, 2021, the department must report on its web site the following for every previous funding cycle: The number of homeownership and multifamily rental projects funded by housing trust fund moneys; the percentage of housing trust fund investments made to homeownership and multifamily rental projects; and the total number of households being served at up to eighty percent of the area median income, up to fifty percent of the area median income, and up to thirty percent of the area median income, for both homeownership and multifamily rental projects.

(4)(a) The department, in cooperation with the housing finance commission, must develop and implement a process for the collection of certified final development cost data from each grant or loan recipient under this section. The department must use this data as part of its cost containment policy.

(b) Beginning December 1, 2019, and continuing annually, the department must provide the legislature with a report of its final cost data for each project under this section. Such cost data must, at a minimum, include total development cost per unit for each project completed within the past year, descriptive statistics such as average and median per unit costs, regional cost variation, and other costs that the department deems necessary to improve cost controls and enhance understanding of development costs. The department must coordinate with the housing finance commission to identify relevant development costs data and ensure that the measures are consistent across relevant agencies.

(5) The legislature recognizes projects serving households at or below 30 percent of area median income may not generate sufficient income to support long-term

operations and services. In evaluating loan terms for projects funded by the housing trust fund program, particularly projects serving at or below 30 percent area median income households, the department must prioritize loan deferment to maintain long-term viability of projects.

The appropriations in this section are subject to the following conditions and limitations:

(1) The appropriations are provided solely for projects that provide a benefit to the public through development, demonstration, and deployment of clean energy technologies that save energy and reduce energy costs, reduce harmful air emissions, or increase energy independence for the state. Priority must be given to projects that benefit vulnerable populations, including tribes and communities with high environmental or energy burden.

(2) In soliciting and evaluating proposals, awarding contracts, and monitoring projects under this section, the department must:

(a) Ensure that competitive processes, rather than sole source contracting processes, are used to select all projects, except as otherwise noted in this section; and

(b) Conduct due diligence activities associated with the use of public funds including, but not limited to, oversight of the project selection process, project monitoring, and ensuring that all applications and contracts fully comply with all applicable laws including disclosure and conflict of interest statutes.

(3)(a) Pursuant to chapter 42.52 RCW, the ethics in public service act, the department must require a project applicant to identify in application materials any state of Washington employees or former state employees employed by the firm or on the firm's governing board during the past twenty-four months. Application materials must identify the individual by name, the agency previously or currently employing the individual, job title or position held, and separation date. If it is determined by the department that a conflict of interest exists, the applicant may be disqualified from further consideration for award of funding.

(b) If the department finds, after due notice and examination, that there is a violation of chapter 42.52 RCW, or any similar statute involving a grantee who received funding under this section, either in procuring or performing under the grant, the department in its sole discretion may terminate the funding grant by written notice. If the grant is terminated, the department must reserve its right to pursue all available remedies under law to address the violation.

(4) The requirements in subsections (2) and (3) of this section must be specified in funding agreements issued by the department.

(5) \$6,107,000 of the state building construction account—state appropriation is provided solely for grid modernization grants for projects that: Advance clean and renewable energy technologies and transmission and distribution control systems; support integration of renewable energy sources, deployment of distributed energy resources, and sustainable microgrids; and increase utility customer options for energy sources, energy efficiency, energy equipment, and utility services.

(a) Projects must be implemented by public and private electrical utilities that serve retail customers in the state. Priority must be given to: (i) Projects that benefit vulnerable populations, including tribes and communities with high environmental or energy burden; and (ii) projects that have a partner that is a tribe or nonprofit organization that serves community eligible entities. Utilities may partner with other public and private sector research organizations, businesses, tribes, and nonprofit organizations in applying for funding.

(b) The department shall develop a grant application process to competitively select projects for grant awards, to include scoring conducted by a group of qualified experts with application of criteria specified by the department. In development of the application criteria, the department shall, to the extent possible, allow smaller utilities or consortia of small utilities to apply for funding.

(c) Applications for grants must disclose all sources of public funds invested in a project.

(d) \$4,400,000 of the state building construction account—state appropriation is provided solely for providing shore power electrification at terminal five for the northwest seaport alliance. In order to receive this grant, the northwest seaport alliance must demonstrate that they applied to the VW settlement for this project and were denied.

Clean energy organizations who compete for grants from the program may not participate in the design of the grant program. Criteria for the grant program must include life cycle cost analysis for projects that are part of the competitive process.

(c) The program may include, but is not limited to: Solar technologies, advanced bioenergy and biofuels, development of new earth abundant materials or lightweight materials, advanced energy storage, battery components recycling, and new renewable energy and energy efficiency technologies.

(d) \$1,000,000 of the state building construction account—state appropriation is provided solely for grants that enhance the viability of dairy digester bioenergy projects, energy efficiency, and resource recovery to demonstrate advanced nutrient recovery systems that produce value added biofertilizers, reduce trucking of lagoon water, and improve soil health and air and water quality. State agencies must promote and demonstrate the use of such recovered biofertilizers through state procurement and contracts.

(7)(a) \$3,000,000 of the state taxable building construction account—state appropriation is provided solely as grants to nonprofit lenders to create a revolving loan fund to support the widespread use of proven energy efficiency and renewable energy technologies by households with high energy burden or environmental health risk now inhibited by lack of access to capital.

(b) The department shall provide grant funds to one or more competitively selected nonprofit lenders that will provide matching private capital and will administer the loan fund. The department must select the loan fund administrator or administrators through a competitive process, with scoring conducted by a group of qualified experts, applying criteria specified by the department.

State Forest Land Replacement (40000032)

The appropriation in this section is subject to the following conditions and limitations:

(1)(a) The appropriation is provided solely to the department to transfer from state forestland status to natural resources conservation area status certain state forestlands in counties with:

(i) A population of twenty-five thousand or fewer; and

(ii) Risks of timber harvest deferrals greater than thirty years due to the presence of wildlife species listed as endangered or threatened under the federal endangered species act.

(b) This appropriation must be used equally for the transfer of qualifying state forestlands in the qualifying counties.

(2) Property transferred under this section must be appraised and transferred at fair market value, without

consideration of management or regulatory encumbrances associated with wildlife species listed under the federal endangered species act. The value of the timber and other valuable materials transferred must be distributed as provided in RCW 79.64.110. The value of the land transferred must be deposited in the park land trust revolving account and be used solely to buy replacement state forestland, consistent with RCW 79.22.060.

(3) Prior to or concurrent with conveyance of these properties, the department shall execute and record a real property instrument that dedicates the transferred properties to the purposes identified in subsection (1) of this section. Transfer agreements for properties identified in subsection (1) of this section must include terms that restrict the use of the property to the intended purpose.

(4) The department and applicable counties shall work in good faith to carry out the intent of this section. The department will identify eligible properties for transfer, consistent with subsections (1) and (2) of this section, in consultation with the applicable counties, and will not execute any property transfers that are not in the statewide interest of either the state forest trust or the natural resources conservation area program.

Trust Land Transfer Program (40000034)

The appropriation in this section is subject to the following conditions and limitations:

(1) The appropriation is provided solely for the department of natural resources to transfer from trust status certain trust lands of statewide significance deemed appropriate for state parks, fish and wildlife habitats, natural area preserves, natural resources conservation areas, department of natural resources community forest open spaces, or recreation purposes. The approved property for

transfer is identified in the LEAP capital document No. 2019-9H, developed April 27, 2019.

(2) Property transferred under this section must be appraised and transferred at fair market value. By September 30, 2019, the department must deposit in the common school construction account the portion of the appropriation in this section that represents the estimated value of the timber on the transferred properties. This transfer must be made in the same manner as timber revenues from other common school trust lands. No deduction may be made for the resource management cost account under RCW 79.64.040. The portion of the appropriation in this section that represents the value of the land transferred must be deposited in the natural resources real property replacement account.

(3) All reasonable costs incurred by the department to implement this section are authorized to be paid out of the appropriations. Authorized costs include the actual cost of appraisals, staff time, environmental reviews, surveys, and other similar costs, and may not exceed one and nine-tenths percent of the appropriation.

(4) By June 30, 2021, land within the common school trust shall be exchanged for land of equal value held for other trust beneficiaries of the property identified in subsection (1) of this section.

(5) Prior to or concurrent with conveyance of these properties, the department shall execute and record a real property instrument that dedicates the transferred properties to the purposes identified in subsection (1) of this section. Fee transfer agreements for properties identified in subsection (1) of this section must include terms that perpetually restrict the use of the property to the intended purpose. Transfer agreements may include provisions for receiving agencies to request alternative uses of the property, provided the alternative uses are compatible with the originally intended public purpose and the department and legislature approves such uses.

(6) The department shall work in good faith to carry out the intent of this section.

(7) By June 30, 2021, the state treasurer shall transfer to the common school construction account any unexpended balance of the appropriation in this section.

The appropriation in this section is subject to the following conditions and limitations:

(1) The department, in consultation with the office of emergency management, the office of the superintendent of public instruction, and the state board of education, shall develop a prioritized seismic risk assessment that includes seismic safety surveys of public facilities that are subject to high seismic risk because of high earthquake hazard and soils that amplify that hazard.

(2) The survey must be a representative sample of public facilities located in high priority areas as determined in the 2017-19 survey of public school seismic safety assessments and tsunami inundation zones as published by the department. The survey must use the results of the 2017-19 survey's findings to prioritize school buildings based on geologic and engineering results.

(3) The seismic safety surveys must be conducted for the following types of public facilities in the following order:

(a) A portion of public school facilities that are routinely used for the instruction of students in kindergarten through twelfth grade and in school districts that have held successful bond elections within the previous three years;

(b) A portion of the remaining public school facilities that are routinely used for the instruction of students in kindergarten through twelfth grade;

(c) Fire stations located within a one-mile radius of a facility described in (a) or (b) of this subsection.

(4) The department must coordinate and maximize survey efforts made under subsection (3)(a), (b), and (c) of this section whenever possible.

(5) The initial phase of the prioritized seismic needs assessment of the facilities specified in subsection (3)(a) and (b) of this section shall include, but is not limited to, the following:

(a) An on-site assessment, under the supervision of licensed geologists, of the seismic site class of the soils at the facilities;

(b) An on-site inspection of the facility buildings, including structural systems using structural plans where available, condition, maintenance, and nonstructural seismic hazards following standardized methods by licensed structural engineers;

(c) An estimate of costs to retrofit a prioritized subset of the facilities specified in subsection (3)(a) and (b) of this section to life safety standards as defined by the American society of civil engineers; and

(d) An estimate of costs to retrofit a prioritized subset of facilities specified in subsection (3)(c) of this section to immediate occupancy standards as defined by the American society of civil engineers.

(6) The department must collect and submit survey data to the superintendent of public instruction in a format compatible with the inventory and condition of schools database. The department must enter into an agreement with the superintendent of public instruction to make any

necessary modifications to the inventory and condition of schools database to receive and report the survey data.

(7) The department must share that data with the school districts where the surveys were conducted, the schools where the surveys were conducted, the governor, and the appropriate legislative committees.

(8) The department and the office of the superintendent of public instruction must provide technical assistance to the school facilities sampled to incorporate survey information into their school safety plans.

(1) \$2,000,000 of the common school construction account—state appropriation is provided solely for emergency repair grants to address unexpected and imminent health and safety hazards at K-12 public schools, including skill centers, that will impact the day-to-day operations of the school facility, and this is the maximum amount that may be spent for this purpose. For emergency repair grants only, an emergency declaration must be signed by the school district board of directors and submitted to the superintendent of public instruction for consideration. The emergency declaration must include a description of the imminent health and safety hazard, the possible cause, the proposed scope of emergency repair work and related cost estimate, and identification of local funding to be applied to the project. Grants of emergency repair moneys must be conditioned upon the written commitment and plan of the school district board of directors to repay the grant with any insurance payments or other judgments that may be awarded, if applicable.

(2) \$3,000,000 of the state building construction account—state appropriation is provided solely for urgent repair grants to address nonrecurring urgent small repair projects at K-12 public schools, excluding skill centers, that could impact the health and safety of students and staff if not completed, and this is the maximum amount that may be spent for this purpose. The grant applications must include a description of the Americans with disabilities act or individuals with disabilities education act compliance deficiency, a comprehensive description of the facility accessibility issues to be addressed, a detailed description of the remedy including a detailed cost estimate of the repair or replacement work to be performed, and identification of local funding, if any, which will be applied to the project. Priority for grant funding must be given to school districts that demonstrate a lack of capital resources to address the compliance deficiencies outlined in the grant application.

2019-21 Small District Modernization Grants (92000139)

The appropriation in this section is subject to the following conditions and limitations:

(1) The legislature finds that small school districts with total enrollments of one thousand students or less may have school facilities with significant building systems deficiencies and low property values, and that raising enough funds to participate in the school construction

assistance program to replace or modernize their school facilities would present an extraordinary tax burden on property owners or would exceed allowable debt.

(2) \$200,000 of the appropriation is provided solely for the office of the superintendent of public instruction to administer the grant program and provide technical assistance to small school districts seeking grants funded in this section.

(3) \$1,000,000 of the appropriation is provided solely for planning grants for small school districts interested in seeking modernization grants in subsection (4) of this section. The superintendent may prioritize planning grants for school districts with the most serious building deficiencies and the most limited financial capacity. Planning grants may not exceed \$50,000 per district.

(4) The remaining portion of the appropriation is provided solely for modernization grants for small school districts with significant building system deficiencies and limited financial capacity with the following conditions:

(a) The superintendent of public instruction must appoint an advisory committee whose members have experience in financing and managing school facilities in small school districts to assist the office in designing the grant application process, developing the prioritization criteria, and evaluating the grant applications. Advisory committee members may not be involved in developing projects or applying for grants funded in this section.

(b) In addition to prioritization criteria developed by the office of the superintendent of public instruction and the advisory committee pursuant to (4)(a) of this section, the office and the advisory committee must also prioritize projects that: (i) Improve student health, safety, and academic performance for the largest number of students; (ii) provide the most available school district resources, including in-kind resources; and (iii) make use of mass-timber products, including cross-laminated timber, or aggregates and concretes materials.

(c) The superintendent must submit a list of small school district modernization projects, as prioritized by the advisory committee, to the legislature by January 15, 2020. The list must include: (i) A description of the project; (ii) the proposed state funding level, not to exceed \$5,000,000; (iii) estimated total project costs; and (iv) local funding resources. The appropriated funds in this subsection may be awarded only after the legislature approves the list.

(5) For projects in this section that are also eligible for funding through the school construction assistance program, the office of the superintendent of public instruction must expedite and streamline the administrative requirements, timelines, and matching requirements for the funds provided in this section to be used promptly. Funds provided in this section plus state funds provided in the school construction assistance program grant must not exceed total project costs minus available local resources.

(3) \$3,100,000 of the appropriation in this section is provided solely for heating and ventilation upgrades at North Beach elementary school in Seattle public schools.

(4) The remaining portion of the appropriation is provided solely for competitive grants for modular classrooms made with mass timber products, including cross-laminated timber, for the purpose of replacing portables in school districts with space challenges due to unavailable land for new school facilities to accommodate enrollment growth or with an overdependent use of portables to provide classroom space. The grants are subject to the following conditions and limitations:

(a) School districts are responsible for the costs of site preparation; required permits; delivery and installation of the modular classrooms; furnishings, fixtures, and equipment; utility connections; and any other infrastructure costs related to the modular classrooms;

(b) The office of the superintendent of public instruction must prioritize projects based on the following criteria in the following order:

The appropriations in this section are subject to the following conditions and limitations:

- (1) The department shall not expend the appropriations in this section unless and until the nonstate share of project costs have been either expended or firmly

committed, or both, in an amount sufficient to complete the project or a distinct phase of the project that is useable to the public for the purpose intended by the legislature. This requirement does not apply to projects where a share of the appropriation is for design costs only.

(2) Prior to receiving funds, project recipients must demonstrate that the project site is under control for a minimum of ten years, either through ownership or a long-term lease. If the grantee is found to be out of compliance with provisions of the contract, the grantee shall repay to the state general fund the principal amount of the grant plus interest calculated at the rate of interest on state of Washington general obligation bonds issued most closely to the date of authorization of the grant.

MultiCare-Franciscan and the department of social and health services must work to increase the competency and skills of health care professionals across both facilities by establishing organized joint- and cross-training programs. The parties must measure the success of this strategy by the number of health care professionals in total and by discipline complete cross-training activities and by the number and hours of cross-training opportunities offered under the agreement.

(7) The department of commerce shall notify all applicants that they may be required to have a construction review performed by the department of health.

(8) To accommodate the emergent need for behavioral health services, the department of health and the department of commerce, in collaboration with the health care authority and the department of social and health services, shall establish a concurrent and expedited process to assist grant applicants in meeting any applicable regulatory requirements necessary to operate inpatient psychiatric beds, free-standing evaluation and treatment facilities, enhanced services facilities, triage facilities, crisis stabilization facilities, detox, or secure detox.

(9) The department must strive to allocate all of the amounts appropriated within subsection (3) of this section in the manner prescribed. FOR THE DEPARTMENT OF COMMERCE

Local and Community Projects 2016 (92000369)

The appropriation in this section is subject to the following conditions and limitations:

(1) Except as directed otherwise prior to the effective date of this section, the department may not expend the appropriation in this section unless and until the nonstate share of project costs have been either expended, or firmly committed, or both, in an amount sufficient to complete the project or a distinct phase of the project that is useable to the public for the purpose intended by the legislature. This requirement does not apply to projects where a share of the appropriation is released for design costs only.

(2) Prior to receiving funds, project recipients must demonstrate that the project site is under control for a minimum of ten years, either through ownership or a long-term lease. This requirement does not apply to appropriations for preconstruction activities or appropriations whose sole purpose is to purchase real property that does not include a construction or renovation component.

(3) Projects funded in this section may be required to comply with Washington's high performance building standards as required by chapter 39.35D RCW.

(4) Project funds are available on a reimbursement basis only, and shall not be advanced under any circumstances.

(5) Projects funded in this section must be held by the recipient for a minimum of ten years and used for the same purpose or purposes intended by the legislature as required in RCW 43.63A.125(6).

(6) Projects funded in this section, including those that are owned and operated by nonprofit organizations, are generally required to pay state prevailing wages.

(7) \$2,209,000 of the appropriation in this section is provided solely for the Fairchild air force base protection and community empowerment project, including the purchase of twenty acres of land by Spokane county or the city of Airway Heights for development of affordable housing and the purchase of mobile home parks by Spokane county or the city of Airway Heights in order to reduce the use of the accident potential zone for residential purposes. There shall be no limitations on the sequence of the purchase of mobile home parks. If Spokane county or the city of

Airway Heights subsequently rezones, develops, and leases the mobile home park property for commercial or industrial uses contrary to the allowed uses in the accident potential zone, Spokane county or the city of Airway Heights must repay to the state the amount spent on the purchase of mobile home parks in its entirety within ten years. Mobile home parks purchased under the provisions of this subsection may be sold by Spokane county or the city of Airway Heights, provided that the uses of the mobile home park property are not contrary to the allowed uses in the accident potential zone. Any moneys from this sale must be used to purchase other mobile home parks in the Fairchild air force base protection and community empowerment project. The twenty acres of land purchased under this subsection for development as affordable housing may be sold, in whole or in part, by the recipient, provided the property sold is used for affordable housing as required in the Fairchild air force base protection and community empowerment project. Recipients of funds provided under this subsection are not required to demonstrate that the project site is under their control for a minimum of ten years but they must demonstrate that the project site is under their control through ownership or long-term lease. Projects funded under this subsection are not required to meet the provisions of RCW 43.63A.125(6) and subsection (5) of this section.

(8) \$850,000 of the appropriation in this section is provided solely for the White River restoration project. Design solutions for flooding reductions in the lower White River must include a floodplain habitat design that both reduces flood risks and restores salmon habitat by reconnecting the river with its floodplain and a sustainable riparian corridor. Project designs and plans must also identify lands for acquisition needed for floodplain reconnection where pending or existing development eliminates the potential for riparian and aquatic habitat restoration. The city shall work cooperatively with the Muckleshoot Indian Tribe and the Puyallup Tribe of Indians, and develop a plan collaboratively to achieve both flood reduction and habitat restoration.

(9) Up to \$300,000 of the appropriation in this section for the veterans helping veterans: Emergency transition shelter project may be spent on preconstruction or preacquisition activities, including, but not limited to, building inspections, design of necessary renovations, cost estimation, and other activities necessary to identify and select a facility appropriate for the program. During the 2015-2017 fiscal biennium, the center may not house any community health care training organization that has been investigated by and has paid settlement fees to the attorney general's office for alleged medicaid fraud.

Sec. 6023. 2018 c 2 s 4002 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF TRANSPORTATION

Aviation Revitalization Loans (92000003)

The appropriation in this section is subject to the following conditions and limitations:

~~((1) This appropriation is provided solely for deposit into the public use general aviation airport loan revolving account created in section 7028 of this act for direct loans to political subdivisions of the state and privately owned airports for the purpose of improvements at public use airports that primarily support general aviation activities.~~

~~(2) The department must convene a community aviation revitalization board to develop criteria for selecting loan recipients, to develop a process for evaluating applications, and to make decisions. The board must consist of the capital budget chair and ranking minority member of the capital budget committee of the house of representatives and the senate ways and means committee, and a representative from both the department of transportation's aviation division and the department of commerce. The board must also consist of the following members appointed by the secretary of transportation: One port district official, one county official, one city official, one representative of airport managers, and one representative of pilots. The chair of the board must be selected by the secretary of transportation. The members of the board must elect one of their members to serve as vice chair. The director of commerce and the secretary of transportation must serve as nonvoting advisory members of the board.~~

~~(3) The board may provide loans to privately owned airports for the purpose of airport improvements only if the state is receiving commensurate public benefit, such as guaranteed long term public access to the airport as a condition of the loan. For purposes of this subsection, "public use airports that primarily support general aviation activities" means all public use airports not listed as having more than fifty thousand annual commercial air service passenger enplanements as published by the federal aviation administration.~~

~~(4) An application for loan funds under this section must be made in the form and manner as the board may prescribe. When evaluating loan applications, the board must prioritize applications that provide conclusive justification that completion of the loan application project will create revenue generating opportunities. The board is not limited to, but must also use, the following expected outcome conditions when evaluating loan applications:~~

~~(a) A specific private development or expansion is ready to occur and will occur only if the aviation facility improvement is made;~~

~~(b) The loan application project results in the creation of jobs or private sector capital investment as determined by the board;~~

~~(c) The loan application project improves opportunities for the successful maintenance, operation, or expansion of an airport or adjacent airport business park;~~

~~(d) The loan application project results in the creation or retention of long-term economic opportunities; and~~

~~(e) The loan application project results in leveraging additional federal funding for an airport.~~

~~(5) The repayment of any loan made from the public use general aviation airport loan revolving account under the contracts for aviation loans must be paid into the public use general aviation airport loan revolving account.)) (1)(a) The department of transportation must convene a community aviation revitalization board to exercise the powers granted under this section.~~

(b) The board must consist of a representative from the department of transportation's aviation division, the public works board, and a nonlegislative member of the community economic revitalization board. The board must also consist of the following members appointed by the secretary of transportation: One port district official, one county official, one city official, one representative of airport managers, and one representative of a general aviation pilots organization within Washington that has an active membership and established location, chapter, or appointed representative within Washington. The appointive members must initially be appointed to terms as follows: Two members for two-year terms, and three members for three-year terms which must include the chair. Thereafter, each succeeding term must be for three years. The chair of the board must be selected by the secretary of transportation. The members of the board must elect one of their members to serve as vice chair.

(c) Management services, including fiscal and contract services, must be provided by the department of transportation to assist the board in implementing this section.

(d) If a vacancy occurs by death, resignation, or otherwise of appointive members of the board, the secretary of transportation must fill the vacancy for the unexpired term. Members of the board may be removed for malfeasance or misfeasance in office, upon specific written charges by the secretary of transportation, under chapter 34.05 RCW.

(e) A member appointed by the secretary of transportation may not be absent from more than fifty percent of the regularly scheduled meetings in any one calendar year. Any member who exceeds this absence limitation is deemed to have withdrawn from the office and may be replaced by the secretary of transportation.

(f) A majority of members currently appointed constitutes a quorum.

(g) The board must meet three times a year or as deemed necessary by the department of transportation.

(h) Staff support to the board must be provided by the department of transportation as needed.

(2) In addition to other applicable provisions of law pertaining to conflicts of interest of public officials, any community aviation revitalization board member, appointive or otherwise, may not participate in any decision on any board contract in which the board member has any interests, direct or indirect, with any firm, partnership, corporation, or association that would be the recipient of any aid under this section. If such participation occurs, the board must void the transaction and the involved member is subject to further sanctions as provided by law. The board must adopt a code of ethics for its members, which must be designed to protect the state and its citizens from any unethical conduct by the board.

(3) The community aviation revitalization board may:

(a) Adopt bylaws for the regulation of its affairs and the conduct of its business;

(b) Adopt an official seal and alter the seal at its pleasure;

(c) Utilize the services of other governmental agencies;

(d) Accept from any federal agency loans or grants for the planning or financing of any project and enter into an agreement with the agency respecting the loans or grants;

(e) Conduct examinations and investigations and take testimony at public hearings of any matter material for its information that will assist in determinations related to the exercise of the board's lawful powers;

(f) Accept any gifts, grants, loans of funds, property, or financial or other aid in any form from any other source on any terms and conditions that are not in conflict with this section;

(g) Enter into agreements or other transactions with and accept grants and the cooperation of any governmental agency in furtherance of this section;

(h) Adopt rules under chapter 34.05 RCW as necessary to carry out the purposes of this section; and

(i) Perform all acts and things necessary or convenient to carry out the powers expressly granted or implied under this section.

(4)(a) The community aviation revitalization board may make direct loans to airport sponsors of public use airports in the state for the purpose of airport improvements that primarily support general aviation activities. The board may provide loans for the purpose of airport improvements only if the state is receiving commensurate public benefit, which must include, as a condition of the loan, a commitment to provide public access to the airport for a

period of time equivalent to one and one-half times the term of the loan. For purposes of this subsection, "public use airports" means all public use airports not listed as having more than seventy-five thousand annual commercial air service passenger enplanements as published by the federal aviation administration.

(b) An application for loan funds under this section must be made in the form and manner as the board may prescribe. When evaluating loan applications, the board must prioritize applications that provide conclusive justification that completion of the loan application project will create revenue generating opportunities. The board is not limited to, but must also use, the following expected outcome conditions when evaluating loan applications:

(i) A specific private development or expansion is ready to occur and will occur only if the aviation facility improvement is made;

(ii) The loan application project results in the creation of jobs or private sector capital investment as determined by the board;

(iii) The loan application project improves opportunities for the successful maintenance, operation, or expansion of an airport or adjacent airport business park;

(iv) The loan application project results in the creation or retention of long-term economic opportunities; and

(v) The loan application project results in leveraging additional federal funding for an airport.

(c)(i) If the board chooses to require a local match, the board must develop guidelines for local participation and allowable match and activities.

(ii) An application must:

(A) Be supported by the port district, city, or county in which the project is located; or

(B) Clearly identify the source of funds intended to repay the loan.

(5) The public use general aviation airport loan program, when authorized by the community aviation revitalization board, is subject to the following conditions:

(a) The moneys in the public use general aviation airport loan revolving account created in section 7037 of this act must be used only to fulfill commitments arising from loans authorized in this section. The total outstanding amount that the board must dispense at any time pursuant to this section must not exceed the moneys available from the account.

(b) On contracts made for public use general aviation airport loans, the board must determine the interest rate that loans must bear. The interest rate must not exceed the amount needed to cover the administrative expenses of the board and the loan program. The board may provide reasonable terms and conditions for the repayment of loans, with the repayment of a loan to begin no later than three years after the award date of the loan. The loans must not exceed twenty years in duration.

(c) The repayment of any loan made from the public use general aviation airport loan revolving account under the contracts for aviation loans must be paid into the public use general aviation airport loan revolving account.

(6) All receipts from moneys collected under this section must be deposited into the public use general aviation airport loan revolving account created in section 7037 of this act.

39.94 RCW to purchase one or more properties adjacent to the campus.

NEW SECTION. Sec. 7003. (1) To ensure that major construction projects are carried out in accordance with legislative and executive intent, agencies must complete a predesign for state construction projects with a total anticipated cost in excess of \$5,000,000, or \$10,000,000 for higher education institutions. "Total anticipated cost" means the sum of the anticipated cost of the predesign, design, and construction phases of the project.

(2) Appropriations for design may not be expended or encumbered until the office of financial management has reviewed and approved the agency's predesign.

(3) The predesign must explore at least three project alternatives. These alternatives must be both distinctly different and viable solutions to the issue being addressed. The chosen alternative should be the most reasonable and cost-effective solution. The predesign document must include, but not be limited to, program, site, and cost analysis, and an analysis of the life-cycle costs of the alternatives explored, in accordance with the predesign manual adopted by the office of financial management.

(4) The office of financial management may make an exception to the predesign requirements in this section after notifying the legislative fiscal committees and waiting ten days for comment by the legislature regarding the proposed exception.

NEW SECTION. Sec. 7004. (1) The legislature finds that use of life-cycle cost analysis will aid public entities, architects, engineers, and contractors in making design and construction decisions that positively impact both the initial construction cost and the ongoing operating and maintenance cost of a project. To ensure that the total cost of a project is accounted for and the most reasonable and cost efficient design is used, agencies shall develop life-cycle costs for any construction project over \$10,000,000. The life-cycle costs must represent the present value sum of capital costs, installation costs, operating costs, and maintenance costs over the life expectancy of the project. The legislature further finds the most effective approach to the life-cycle cost analysis is to integrate it into the early part of the design process.

(2) Agencies must develop a minimum of three project alternatives for use in the life-cycle cost analysis. These alternatives must be both distinctly different and viable solutions to the issue being addressed. The chosen alternative must be the most reasonable and cost-effective solution. A brief description of each project alternative and why it was chosen must be included in the life-cycle cost analysis section of the predesign.

(3) The office of financial management shall: (a) Make available a life-cycle cost model to be used for analysis; (b) in consultation with the department of enterprise services, provide assistance in using the life-cycle cost model; and (c) update the life-cycle cost model annually including assumptions for inflation rates, discount rates, and energy rates.

(4) Agencies shall consider architectural and engineering firms' and general contractors' experience using life-cycle costs, operating costs, and energy efficiency measures when selecting an architectural and engineering firm, or when selecting contractors using alternative contracting methods.

NEW SECTION. Sec. 7005. Agencies administering construction projects with a total anticipated cost in excess of \$5,000,000, or \$10,000,000 for higher education institutions, must submit progress reports to the office of financial management and to the fiscal committees of the house of representatives and senate. "Total anticipated cost" means the sum of the anticipated cost of the predesign, design, and construction phases of the project. Reports must be submitted on July 1st and December 31st of each year in a format determined by the office of financial management. After the project is completed, agencies must also submit a closeout report that identifies the total project cost and any unspent appropriations.

NEW SECTION. Sec. 7006. (1) Allotments for appropriations in this act shall be provided in accordance with the capital project review requirements adopted by the office of financial management and in compliance with RCW 43.88.110. Projects that will be employing alternative public works construction procedures under chapter 39.10 RCW are subject to the allotment procedures defined in this section and RCW 43.88.110.

(2) Each project is defined as proposed in the legislative budget notes or in the governor's budget document.

NEW SECTION. Sec. 7007. (1) The office of financial management may authorize a transfer of appropriation authority provided for a capital project that is in excess of the amount required for the completion of such project to another capital project for which the appropriation is insufficient. No such transfer may be used to expand the capacity of any facility beyond that intended in making the appropriation. Such transfers may be effected only between capital appropriations to a specific department, commission, agency, or institution of higher education and only between capital projects that are funded from the same fund or account. No transfers may occur between projects to local government agencies except where the grants are provided within a single omnibus appropriation and where such transfers are specifically authorized by the implementing statutes that govern the grants. However, the office of financial management may transfer funds from the emergency repair pool to supplement the western state hospital wards renovations for forensic services project in section 2035 of this act if bids exceed the project appropriation.

(2) The office of financial management may find that an amount is in excess of the amount required for the completion of a project only if: (a) The project as defined in the notes to the budget document is substantially complete and there are funds remaining; or (b) bids have been let on a project and it appears to a substantial certainty that the project as defined in the notes to the budget document can

be completed within the biennium for less than the amount appropriated in this act.

(3) For the purposes of this section, the intent is that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

(4) A report of any transfer effected under this section, except emergency projects or any transfer under \$250,000, shall be filed with the legislative fiscal committees of the senate and house of representatives by the office of financial management at least thirty days before the date the transfer is effected. The office of financial management shall report all emergency or smaller transfers within thirty days from the date of transfer. However, the office of financial management may effect one or more transfers to supplement the western state hospital wards renovations for forensic services project in section 2035 of this act without waiting thirty days for fiscal committee response.

NEW SECTION. Sec. 7008. (1) It is expected that projects be ready to proceed in a timely manner depending on the type or phase of the project or program that is the subject of the appropriation in this act. Except for major projects that customarily may take more than two biennia to complete from predesign to the end of construction, or large infrastructure grant or loan programs supporting projects that often take more than two biennia to complete, the legislature generally does not intend to reappropriate funds more than once, particularly for smaller grant programs, local/community projects, and minor works.

(2) Agencies shall expedite the expenditure of reappropriations and appropriations in this act in order to: (a) Rehabilitate infrastructure resources; (b) accelerate environmental rehabilitation and restoration projects for the improvement of the state's natural environment; (c) reduce additional costs associated with acquisition and construction inflationary pressures; and (d) provide additional employment opportunities associated with capital expenditures.

(3) To the extent feasible, agencies are directed to accelerate expenditure rates at their current level of permanent employees and shall use contracted design and construction services wherever necessary to meet the goals of this section.

NEW SECTION. Sec. 7009. (1) Any building project that receives over \$10,000,000 in funding from the capital budget must be built to sustainable standards. "Sustainable building" means a building that integrates and optimizes all major high-performance building attributes, including energy efficiency, durability, life-cycle performance, and occupant productivity. The following design and construction attributes must be integrated into the building project:

(a) Employ integrated design principles: Use a collaborative, integrated planning and design process that initiates and maintains an integrated project team in all stages of a project's planning and delivery. Establish

performance goals for siting, energy, water, materials, and indoor environmental quality along with other comprehensive design goals and ensures incorporation of these goals throughout the design and life-cycle of the building. Consider all stages of the building's life-cycle, including deconstruction.

(b) Commissioning: Employ commissioning practices tailored to the size and complexity of the building and its system components in order to verify performance of building components and systems and help ensure that design requirements are met. This should include an experienced commissioning provider, inclusion of commissioning requirements in construction documents, a commissioning plan, verification of the installation and performance of systems to be commissioned, and a commissioning report.

(c) Optimize energy performance: Establish a whole building performance target that takes into account the intended use, occupancy, operations, plug loads, other energy demands, and design to earn the ENERGY STAR targets for new construction and major renovation where applicable. For new construction target low energy use index. For major renovations, target reducing energy use by fifty percent below prerenovations baseline.

(d) On-site renewable energy: Meet at least thirty percent of the hot water demand through the installation of solar hot water heaters, when life-cycle cost effective. Implement renewable energy generation projects on agency property for agency use, when life-cycle cost effective.

(e) Measurement and verification: Where appropriate, install building level electricity meters in new major construction and renovation projects to track and continuously optimize performance. Include equivalent meters for natural gas and steam, where natural gas and steam are used. Where appropriate, install dashboards inside buildings to display and incentivize occupants on energy use.

(f) Benchmarking: Compare performance data from the first year of operation with the energy design target. Verify that the building performance meets or exceeds the design target. For other building and space types, use an equivalent benchmarking tool.

NEW SECTION. Sec. 7010. State agencies, including institutions of higher education, shall allot and report full-time equivalent staff for capital projects in a manner comparable to staff reporting for operating expenditures.

NEW SECTION. Sec. 7011. Executive Order No. 05-05, archaeological and cultural resources, was issued effective November 10, 2005. Agencies shall comply with the requirements set forth in this executive order.

NEW SECTION. Sec. 7012. FOR THE ARTS COMMISSION—ART WORK ALLOWANCE. (1) One-half of one percent of moneys appropriated in this act for original construction of school plant facilities is provided solely for the purposes of RCW 28A.335.210.

(2) One-half of one percent of moneys appropriated in this act for original construction or any major renovation or remodel work exceeding \$200,000 by colleges or universities is provided solely for the purposes of RCW 28B.10.027.

(3) One-half of one percent of moneys appropriated in this act for original construction of any public building by a state agency identified in RCW 43.17.200 is provided solely for the purposes of RCW 43.17.200.

(4) At least eighty percent of the moneys spent by the Washington state arts commission during the 2019-2021 biennium for the purposes of RCW 28A.335.210, 28B.10.027, and 43.17.200 must be expended solely for direct acquisition of works of art. Art allocations not expended within the ensuing two biennia will lapse. The commission may use up to \$200,000 of this amount to conserve or maintain existing pieces in the state art collection.

NEW SECTION. Sec. 7013. To carry out the provisions of this act, the governor may assign responsibility for predesign, design, construction, and other related activities to any appropriate agency.

NEW SECTION. Sec. 7014. If any federal moneys appropriated by this act for capital projects are not received by the state, the department or agency to which the moneys were appropriated may replace the federal moneys with funds available from private or local sources. No replacement may occur under this section without the prior approval of the director of financial management in consultation with the senate ways and means committee and the house of representatives capital budget committee.

NEW SECTION. Sec. 7015. (1) Unless otherwise stated, for all appropriations under this act that require a match of nonstate money or in-kind contributions, the following requirement, consistent with RCW 43.88.150, shall apply: Expenditures of state money shall be timed so that the state share of project expenditures never exceeds the intended state share of total project costs.

(2) Provision of the full amount of required matching funds is not required to permit the expenditure of capital budget appropriations for phased projects if a proportional amount of the required matching funds is provided for each distinct, identifiable phase of the project.

NEW SECTION. Sec. 7016. NONTAXABLE AND TAXABLE BOND PROCEEDS. Portions of the appropriation authority granted by this act from the state building construction account, or any other account receiving bond proceeds, may be transferred to the state taxable building construction account as deemed necessary by the state finance committee to comply with the federal internal revenue service rules and regulations pertaining to the use of nontaxable bond proceeds. Portions of the general obligation bond proceeds authorized by chapter . . ., Laws of 2019, (Substitute House Bill No. 1101, the general obligation bond bill) for deposit into the state taxable building construction account that are in excess of amounts required to comply with the federal internal revenue service rules and regulations shall be deposited into the state

building construction account. The state treasurer shall submit written notification to the director of financial management if it is determined that a shift of appropriation authority between the state building construction account, or any other account receiving bond proceeds, and the state taxable building construction account is necessary, or that a shift of appropriation authority from the state taxable building construction account to the state building construction account may be made.

NEW SECTION. Sec. 7017. (1) Minor works project lists are single line appropriations that include multiple projects of a similar nature and that are valued between \$25,000 and \$1,000,000 each, with the exception of higher education minor works projects that may be valued up to \$2,000,000. Funds appropriated in this act for minor works may not be initially allotted until agencies submit project lists to the office of financial management for review and approval.

(2) Revisions to the project lists, including the addition of projects and the transfer of funds between projects, are allowed but must be submitted to the office of financial management, the house of representatives capital budget committee, and the senate ways and means committee for review and comment, and must include an explanation of variances from prior lists. Any project list revisions must be approved by the office of financial management before funds may be expended from the minor works appropriation.

(3)(a) All minor works projects should be completed within two years of the appropriation with the funding provided.

(b) Agencies are prohibited from including projects on their minor works lists that are a phase of a larger project, and that if combined over a continuous period of time, would exceed \$1,000,000, or \$2,000,000 for higher education minor works projects.

(c) Minor works appropriations may not be used for the following: Studies, except for technical or engineering reviews or designs that lead directly to and support a project on the same minor works list; planning; design outside the scope of work on a minor works list; movable, temporary, and traditionally funded operating equipment not in compliance with the equipment criteria established by the office of financial management; software not dedicated to control of a specialized system; moving expenses; land or facility acquisition; rolling stock; computers; or to supplement funding for projects with funding shortfalls unless expressly authorized. (1) The council shall identify budget priorities and levels of funding for higher education, including the two and four-year institutions of higher education and state financial aid programs. It is the intent of the legislature for the council to make budget recommendations for allocations for major policy changes in accordance with priorities set forth in the ten-year plan, but the legislature does not intend for the council to review and make recommendations on individual institutional budgets. It is the intent of the legislature that recommendations from the council prioritize funding needs

for the overall system of higher education in accordance with priorities set forth in the ten-year plan. It is also the intent of the legislature that the council's recommendations take into consideration the total per-student funding at similar public institutions of higher education in the global challenge states.

(2) By December of each odd-numbered year, the council shall outline the council's fiscal priorities under the ten-year plan that it must distribute to the institutions, the state board for community and technical colleges, the office of financial management, and the joint higher education committee.

(a) Capital budget outlines for the two-year institutions shall be submitted to the office of financial management by August 15th of each even-numbered year, and shall include the prioritized ranking of the capital projects being requested, a description of each capital project, and the amount and fund source being requested.

(b) Capital budget outlines for the four-year institutions must be submitted to the office of financial management by August 15th of each even-numbered year, and must include: The institutions' priority ranking of the project; the capital budget category within which the project will be submitted to the office of financial management in accordance with RCW 43.88D.010; a description of each capital project; and the amount and fund source being requested.

(c) The office of financial management shall reference these reporting requirements in its budget instructions.

(3) The council shall submit recommendations on the operating budget priorities to support the ten-year plan to the office of financial management by October 1st each year, and to the legislature by January 1st each year.

(4)(a) The office of financial management shall develop one prioritized list of capital projects for the legislature to consider that includes all of the projects requested by the four-year institutions of higher education that were scored by the office of financial management pursuant to chapter 43.88D RCW, including projects that were previously scored but not funded. The prioritized list of capital projects shall be based on the following priorities in the following order:

(i) Office of financial management scores pursuant to chapter 43.88D RCW;

(ii) Preserving assets;

(iii) Degree production; and

(iv) Maximizing efficient use of instructional space.

(b) The office of financial management shall include all of the capital projects requested by the four-year institutions of higher education, except for the minor works projects, in the prioritized list of capital projects provided to the legislature.

(c) The form of the prioritized list for capital projects requested by the four-year institutions of higher education

shall be provided as one list, ranked in priority order with the highest priority project ranked number "1" through the lowest priority project numbered last. The ranking for the prioritized list of capital projects may not:

- (i) Include subpriorities;
- (ii) Be organized by category;
- (iii) Assume any state bond or building account biennial funding level to prioritize the list; or

Sec. 7030. RCW 43.63A.125 and 2011 1st sp.s. c 48 s 7027 are each amended to read as follows:

(1) The department shall establish the building communities fund program. Under the program, capital and technical assistance grants may be made to nonprofit organizations for acquiring, constructing, or rehabilitating facilities used for the delivery of nonresidential community services, including social service centers and multipurpose community centers, including those serving a distinct or ethnic population. Such facilities must be located in a distressed community or serve a substantial number of low-income or disadvantaged persons.

(2) The department shall establish a competitive process to solicit, evaluate, and rank applications for the building communities fund program as follows:

(a) The department shall conduct a statewide solicitation of project applications from nonprofit organizations.

(b) The department shall evaluate and rank applications in consultation with a citizen advisory committee using objective criteria. To be considered qualified, applicants must demonstrate that the proposed project:

(ii) Will be located in a distressed community or will serve a substantial number of low-income or disadvantaged persons;

(iii) Will offer three or more distinct activities that meet a single community service objective or offer a diverse

set of activities that meet multiple community service objectives, including but not limited to: Providing social services; expanding employment opportunities for or increasing the employability of community residents; or offering educational or recreational opportunities separate from the public school system or private schools, as long as recreation is not the sole purpose of the facility;

(ix) Will achieve its stated objectives; and

(x) Is a community priority as shown through tangible commitments of existing or future assets made to the project by community residents, leaders, businesses, and government partners.

(c) The evaluation and ranking process shall also include an examination of existing assets that applicants may apply to projects. Grant assistance under this section shall not exceed twenty-five percent of the total cost of the project, except, under exceptional circumstances, the department may reduce the amount of nonstate match required. However, during the 2019-2021 biennium, the legislature may waive the match required for the projects specified in section 1009 of this act. No more than ten percent of the total granted amount may be awarded to qualified eligible projects that meet the definition of exceptional circumstances defined in this subsection. For purposes of this subsection, exceptional circumstances include but are not limited to: Natural disasters affecting projects; emergencies beyond an applicant's control, such as a fire or an unanticipated loss of a lease where services are currently provided; or a delay that could result in a threat to public health or safety. The nonstate portion of the total project cost may include cash, the value of real property when acquired solely for the purpose of the project, and in-kind contributions.

(d) The department may not set a monetary limit to funding requests.

(3) The department shall submit biennially to the governor and the legislature in the department's capital budget request a ranked list of the qualified eligible projects for which applications were received. The list must include a description of each project, its total cost, and the amount of state funding requested. The appropriate fiscal committees of the legislature shall use this list to determine building communities fund projects that may receive funding in the capital budget. The total amount of state

capital funding available for all projects on the biennial list shall be determined by the capital budget beginning with the 2009-2011 biennium and thereafter. In addition, if cash funds have been appropriated, up to three million dollars may be used for technical assistance grants. The department shall not sign contracts or otherwise financially obligate funds under this section until the legislature has approved a specific list of projects.

(4) In addition to the list of ranked qualified eligible projects, the department shall submit to the appropriate fiscal committees of the legislature a summary report that describes the solicitation and evaluation processes, including but not limited to the number of applications received, the total amount of funding requested, issues encountered, if any, and any recommendations for process improvements.

(5) After the legislature has approved a specific list of projects in law, the department shall develop and manage appropriate contracts with the selected applicants; monitor project expenditures and grantee performance; report project and contract information; and exercise due diligence and other contract management responsibilities as required.

(6) In contracts for grants authorized under this section the department shall include provisions which require that capital improvements shall be held by the grantee for a specified period of time appropriate to the amount of the grant and that facilities shall be used for the express purpose of the grant. If the grantee is found to be out of compliance with provisions of the contract, the grantee shall repay to the state general fund the principal amount of the grant plus interest calculated at the rate of interest on state of Washington general obligation bonds issued most closely to the date of authorization of the grant.

Sec. 7032. RCW 43.88D.010 and 2018 c 298 s 7013 are each amended to read as follows:

(1) By October 1st of each even-numbered year, the office of financial management shall complete an objective analysis and scoring of all capital budget projects proposed by the public four-year institutions of higher education and submit the results of the scoring process to the legislative fiscal committees and the four-year institutions. Each project must be reviewed and scored within one of the following categories, according to the project's principal purpose. Each project may be scored in only one category. The categories are:

(a) Access-related projects to accommodate enrollment growth at all campuses, at existing or new university centers, or through distance learning. Growth projects should provide significant additional student capacity. Proposed projects must demonstrate that they are based on solid enrollment demand projections, more cost-effectively provide enrollment access than alternatives such as university centers and distance learning, and make cost-effective use of existing and proposed new space;

(b) Projects that replace failing permanent buildings. Facilities that cannot be economically renovated are considered replacement projects. New space may be programmed for the same or a different use than the space being replaced and may include additions to improve access and enhance the relationship of program or support space;

(c) Projects that renovate facilities to restore building life and upgrade space to meet current program requirements. Renovation projects should represent a complete renovation of a total facility or an isolated wing of a facility. A reasonable renovation project should cost between sixty to eighty percent of current replacement value and restore the renovated area to at least twenty-five years of useful life. New space may be programmed for the same or a different use than the space being renovated and may include additions to improve access and enhance the relationship of program or support space;

(d) Major stand-alone campus infrastructure projects;

(e) Projects that promote economic growth and innovation through expanded research activity. The acquisition and installation of specialized equipment is authorized under this category; and

(f) Other project categories as determined by the office of financial management in consultation with the legislative fiscal committees.

(2) The office of financial management, in consultation with the legislative fiscal committees, shall establish a scoring system and process for each four-year project category that is based on the framework used in the community and technical college system of prioritization. Staff from the state board for community and technical colleges and the four-year institutions shall provide technical assistance on the development of a scoring system and process.

(3) The office of financial management shall consult with the legislative fiscal committees in the scoring of four-year institution project proposals, and may also solicit participation by independent experts.

(a) For each four-year project category, the scoring system must, at a minimum, include an evaluation of enrollment trends, reasonableness of cost, the ability of the project to enhance specific strategic master plan goals, age and condition of the facility if applicable, and impact on space utilization.

(b) Each four-year project category may include projects at the predesign, design, or construction funding phase.

(c) To the extent possible, the objective analysis and scoring system of all capital budget projects shall occur within the context of any and all performance agreements between the office of financial management and the governing board of a public, four-year institution of higher education that aligns goals, priorities, desired outcomes, flexibility, institutional mission, accountability, and levels of resources.

(4) In evaluating and scoring four-year institution projects, the office of financial management shall take into consideration project schedules that result in realistic, balanced, and predictable expenditure patterns over the ensuing three biennia.

(5) The office of financial management shall distribute common definitions, the scoring system, and other information required for the project proposal and scoring process as part of its biennial budget instructions. The office of financial management, in consultation with the legislative fiscal committees, shall develop common definitions that four-year institutions must use in developing their project proposals and lists under this section.

(6) In developing any scoring system for capital projects proposed by the four-year institutions, the office of financial management:

(3) If a member has not been designated for a position set forth in subsection (2) of this section, that position may not be counted for purposes of determining a quorum.

(4) One cochair of the task force must be a member of the majority caucus of one chamber of the legislature, and one cochair must be a member of the minority caucus of the other chamber of the legislature, as those caucuses existed as of January 19, 2018.

~~((6))~~ (7) Within existing appropriations, the expenses of the operations of the task force, including the expenses associated with the task force's meetings, must be paid jointly and in equal amounts by the senate and the house of representatives. Task force expenditures are subject to approval by the house executive rules committee and the senate facility and operations committee. ~~((8))~~ (9) The department shall issue permit decisions for up to five water resource mitigation pilot projects. It is the intent of the legislature to use the pilot projects to inform the legislative task force process while also enabling the processing of water right applications that address water supply needs. The department is authorized to issue permits in reliance upon water resource mitigation of impacts to instream flows and closed surface water bodies under the following mitigation sequence:

(a) Avoiding impacts by: (i) Complying with mitigation required by adopted rules that set forth minimum flows, levels, or closures; or (ii) making the water diversion or withdrawal subject to the applicable minimum flows or levels; or

(b) Where avoidance of impacts is not reasonably attainable, minimizing impacts by providing permanent new or existing trust water rights or through other types of replacement water supply resulting in no net annual increase in the quantity of water diverted or withdrawn from the stream or surface water body and no net detrimental impacts to fish and related aquatic resources; or

(c) Where avoidance and minimization are not reasonably attainable, compensating for impacts by providing net ecological benefits to fish and related aquatic resources in the water resource inventory area through in-kind or out-of-kind mitigation or a combination thereof, that improves the function and productivity of affected fish populations and related aquatic habitat. Out-of-kind mitigation may include instream or out-of-stream measures that improve or enhance existing water quality, riparian habitat, or other instream functions and values for which minimum instream flows or closures were established in that watershed.

~~((9))~~ (10) The department must monitor the implementation of the pilot projects, including all mitigation associated with each pilot project, approved under this section at least annually through December 31, 2028.

~~((10))~~ (11) The pilot projects eligible for processing under this section, based on criteria as of January 19, 2018, include:

(e) An irrigation district located in Whatcom county and water resource inventory area 1, solely for the purpose of processing changes of water rights from surface water to groundwater, and implementing flow augmentation to benefit instream flows.

~~((11))~~ (12) Water right applicants eligible to be processed under this pilot project authority must elect to be included in the pilot project review by notifying the department by July 1, 2018. Once an applicant notifies the department of its intent to be processed under this pilot project authority, subsection ~~((8))~~ (9) of this section applies to final decisions issued by the department, even if such a final decision is issued after the expiration of this section.

~~((12))~~ (13) By November 15, 2018, the department must furnish the task force with information on conceptual mitigation plans for each water resource mitigation pilot project application. By November 15, 2019, the department must provide the task force with an update on the mitigation plans based on additional information developed after November 15, 2018.

~~((13))~~ (14) To ensure that the processing of pilot project applications can inform the task force process in a timely manner, the department must expedite processing of applications for water resource mitigation pilot projects. The applicant for each pilot project must reimburse the department for the department's costs of processing the applicant's application.

~~((14))~~ (15) The water resource mitigation pilot project authority granted to the department does not affect or modify any other procedural requirements of chapter 90.03, 90.44, or 90.54 RCW that apply to the processing of such applications.

The office of financial management shall place the amounts provided in this subsection, which represent a portion of the required minimum fund balance under the policy of the state treasurer, in unallotted status. The office may release the funds only when it determines that all other funds designated for operations and maintenance purposes have been exhausted.

(2) As long as the facility is tolled, the department must provide quarterly reports to the transportation committees of the legislature on the Interstate 405 express toll lane project performance measures listed in RCW 47.56.880(4). These reports must include:

(a) Information on the travel times and travel time reliability (at a minimum, average and 90th percentile travel times) maintained during peak and nonpeak periods in the express toll lanes and general purpose lanes for both the entire corridor and commonly made trips in the corridor including, but not limited to, northbound from Bellevue to Rose Hill, state route number 520 at NE 148th to Interstate 405 at state route number 522, Bellevue to Bothell (both NE 8th to state route number 522 and NE 8th to state route number 527), and a trip internal to the corridor (such as NE 85th to NE 160th) and similar southbound trips;

(b) A month-to-month comparison of travel times and travel time reliability for the entire corridor and commonly made trips in the corridor as specified in (a) of this subsection since implementation of the express toll lanes and, to the extent available, a comparison to the travel times and travel time reliability prior to implementation of the express toll lanes;

(c) Total express toll lane and total general purpose lane traffic volumes, as well as per lane traffic volumes for each type of lane (i) compared to total express toll lane and total general purpose lane traffic volumes, as well as per lane traffic volumes for each type of lane, on this segment of Interstate 405 prior to implementation of the express toll lanes and (ii) compared to total express toll lane and total general purpose lane traffic volumes, as well as per lane traffic volumes for each type of lane, from month to month since implementation of the express toll lanes; and

(d) Underlying congestion measurements, that is, speeds, that are being used to generate the summary graphs provided, to be made available in a digital file format.

(3)(a) \$71,000 of the high occupancy toll lanes operations account—state appropriation, \$1,238,000 of the state route number 520 corridor account—state appropriation, \$532,000 of the Tacoma Narrows toll bridge account—state appropriation, \$460,000 of the Interstate 405 express toll lanes operations account—state appropriation, and \$699,000 of the Alaskan Way viaduct replacement project account—state appropriation are provided solely for the department to finish implementing a new tolling customer service toll collection system, and are subject to the conditions, limitations, and review provided in section 701 of this act.

(b) The department shall continue to work with the office of financial management, office of the chief information officer, and the transportation committees of the legislature on the project management plan that includes a provision for independent verification and validation of contract deliverables from the successful bidder and a provision for quality assurance that includes reporting independently to the office of the chief information officer on an ongoing basis during system implementation.

(4) The department shall make detailed quarterly reports to the transportation committees of the legislature and the public on the department's web site on the following:

The request for proposals and subsequent competitive procurement must incorporate elements that prioritize the overall goal of lowering costs per transaction for the facility, such as incentives for innovative approaches which result in lower transactional costs, requests for efficiencies on the part of the bidder that lower operational costs, and incorporation of technologies such as self-serve credit card machines or other point-of-payment technologies that lower costs or improve operational efficiencies.

The office of financial management shall closely monitor the application of the cost allocation model and ensure that the new state route number 99 tunnel toll facility is adequately sharing costs and the other toll facility accounts are not being overspent or subsidizing the new state route number 99 tunnel toll facility.

(8) \$256,000 of the high occupancy toll lanes operations account—state appropriation and \$352,000 of the Interstate 405 express toll lanes operations account—state appropriation are provided solely for increased levels of service from the Washington state patrol for enforcement of toll lane violations on the state route number 167 high occupancy toll lanes and the Interstate 405 express toll lanes. The reason for the geographic selection of Spokane and Whatcom counties is based on the high utilization of studded tires in these jurisdictions. The public information campaigns must primarily focus on making the consumer aware of the safety implications for other drivers, road deterioration, financial impact for taxpayers, and, secondarily, the alternatives to studded tires. The Whatcom county pilot media-based public information campaign must begin by September 1, 2020. The advancement of a project may not hinder the delivery of the projects for which the reappropriations are necessary for the 2021-2023 fiscal biennium.

(c) To the extent practicable, the department shall use the flexibility and authority granted in this section to minimize the amount of reappropriations needed each biennium.

(12)(a) \$22,195,000 of the transportation partnership account—state appropriation, \$12,805,000 of the transportation 2003 account (nickel account)—state appropriation, and \$48,000,000 of the Interstate 405 express toll lanes operations account—state appropriation are provided solely for the I-405/SR 522 to I-5 Capacity Improvements project (L2000234) for activities related to adding capacity on Interstate 405 between state route number 522 and Interstate 5, with the goals of increasing vehicle throughput and aligning project completion with the implementation of bus rapid transit in the vicinity of the project. The transportation partnership account—state appropriation and transportation 2003 account (nickel account)—state appropriation are a transfer or a reappropriation of a transfer from the I-405/Kirkland Vicinity Stage 2 - Widening project (8BI1002) due to savings and will fund right-of-way and construction for an additional phase of this I-405 project.

(b) If sufficient bonding authority to complete this project is not provided within chapter . . . (Engrossed Substitute Senate Bill No. 5825), Laws of 2019 (addressing tolling) or chapter . . . (House Bill No. 2132), Laws of 2019 (addressing tolling), or within a bond authorization act referencing chapter . . . (Engrossed Substitute Senate Bill No. 5825), Laws of 2019 or chapter . . . (House Bill No. 2132), Laws of 2019, by June 30, 2019, \$21,000,000 of the Interstate 405 express toll lanes operations account—state appropriation provided in this subsection lapses, and it is the intent of the legislature to reduce the Interstate 405 express toll lanes operations account—state appropriation in the 2021-2023 biennium to \$5,000,000, and in the 2023-2025 biennium to \$0 on the list referenced in subsection (2) of this section.

(13)(a) \$395,822,000 of the connecting Washington account—state appropriation, \$60,000 of the motor vehicle account—state appropriation, and \$342,000 of the motor vehicle account—private/local appropriation are provided solely for the SR 520 Seattle Corridor Improvements - West End project (M00400R).

(b) Recognizing that the department of transportation requires full possession of parcel number 1-23190 to complete the Montlake Phase of the West End project, the department is directed to:

(i) Work with the operator of the Montlake boulevard market located on parcel number 1-23190 to negotiate a lease allowing continued operations up to January 1, 2020. After that time, the department shall identify an area in the vicinity of the Montlake property for a temporary market or other food service to be provided during the period of project construction. Should the current operator elect not to participate in providing that temporary service, the department shall then develop an outreach plan with the city to solicit community input on the food services provided, and then advertise the opportunity to other

potential vendors. Further, the department shall work with the city of Seattle and existing permit processes to facilitate vendor access to and use of the area in the vicinity of the Montlake property.

(ii) Upon completion of the Montlake Phase of the West End project (current anticipated contract completion of 2023), WSDOT shall sell that portion of the property not used for permanent transportation improvements and initiate a process to convey that surplus property to a subsequent owner.

(c) \$60,000 of the motor vehicle account—state appropriation is provided solely for grants to nonprofit organizations located in a city with a population exceeding six hundred thousand persons and that empower artists through equitable access to vital expertise, opportunities, and business services. Funds may be used only for the purpose of preserving, commemorating, and sharing the history of the city of Seattle's freeway protests and making the history of activism around the promotion of more integrated transportation and land use planning accessible to current and future generations through the preservation of Bent 2 of the R. H. Thompson freeway ramp.

(14) It is the intent of the legislature that for the I-5 JBLM Corridor Improvements project (M00100R), the department shall actively pursue \$50,000,000 in federal funds to pay for this project to supplant state funds in the future. \$50,000,000 in connecting Washington account funding must be held in unallotted status during the 2021-2023 fiscal biennium. These funds may only be used after the department has provided notice to the office of financial management that it has exhausted all efforts to secure federal funds from the federal highway administration and the department of defense.

(15) \$265,100,000 of the connecting Washington account—state appropriation is provided solely for the SR 167/SR 509 Puget Sound Gateway project (M00600R).

(a) Any savings on the project must stay on the Puget Sound Gateway corridor until the project is complete.

(b) Proceeds from the sale of any surplus real property acquired for the purpose of building the SR 167/SR 509 Puget Sound Gateway (M00600R) project must be deposited into the motor vehicle account for the purpose of constructing the project.

(c) In making budget allocations to the Puget Sound Gateway project, the department shall implement the project's construction as a single corridor investment. The department shall develop a coordinated corridor construction and implementation plan for state route number 167 and state route number 509 in collaboration with affected stakeholders. Specific funding allocations must be based on where and when specific project segments are ready for construction to move forward and investments can be best optimized for timely project completion. Emphasis must be placed on avoiding gaps in fund expenditures for either project.

(d) It is the legislature's intent that the department shall construct a full single-point urban interchange at the

junction of state route number 161 (Meridian avenue) and state route number 167 and a full single-point urban interchange at the junction of state route number 509 and 188th Street. If the department receives additional funds from an outside source for this project after the base project is fully funded, the funds must first be applied toward the completion of these two full single-point urban interchanges.

(e) In designing the state route number 509/state route number 516 interchange component of the SR 167/SR 509 Puget Sound Gateway project (M00600R), the department shall make every effort to utilize the preferred "4B" design.

(f) The department shall explore the development of a multiuse trail for bicyclists, pedestrians, skateboarders, and similar users along the SR 167 right-of-way acquired for the project to connect a network of new and existing trails from Mount Rainier to Point Defiance Park.

(g) If sufficient bonding authority to complete this project is not provided within chapter . . . (Engrossed Substitute Senate Bill No. 5825), Laws of 2019 (addressing tolling) or chapter . . . (House Bill No. 2132), Laws of 2019 (addressing tolling), or within a bond authorization act referencing chapter . . . (Engrossed Substitute Senate Bill No. 5825), Laws of 2019 or chapter . . . (House Bill No. 2132), Laws of 2019, by June 30, 2019, it is the intent of the legislature to return the Puget Sound Gateway project (M00600R) to its previously identified construction schedule by moving \$128,900,000 in connecting Washington account—state appropriation back to the 2027-2029 biennium from the 2023-2025 biennium on the list referenced in subsection (2) of this section. If sufficient bonding authority is provided, it is the intent of the legislature to advance the project to allow for earlier completion and inflationary savings.

(16) It is the intent of the legislature that, for the I-5/North Lewis County Interchange project (L2000204), the department develop and design the project with the objective of significantly improving access to the industrially zoned properties in north Lewis county. The design must consider the county's process of investigating alternatives to improve such access from Interstate 5 that began in March 2015.

(17) The department shall support Pierce county's New Rhodes Lake Road project including state route 162 and 128th Street East intersection improvements following the preferred and recommended alternative of Pierce county's SEIS issued May 3, 2018. The department shall fully support, review, and approve improvements and right-of-way plans in a timely manner.

(18) \$950,000 of the transportation partnership account—state appropriation is provided solely for the U.S. 2 Trestle IJR project (L1000158).

(19) The department shall itemize all future requests for the construction of buildings on a project list and submit them through the transportation executive information system as part of the department's annual budget submittal. It is the intent of the legislature that new facility construction must be transparent and not appropriated within larger highway construction projects.

(20) Any advisory group that the department convenes during the 2019-2021 fiscal biennium must consider the interests of the entire state of Washington.

(21) The legislature finds that there are sixteen companies involved in wood preserving in the state that employ four hundred workers and have an annual payroll of fifteen million dollars. Before the department's switch to steel guardrails, ninety percent of the twenty-five hundred mile guardrail system was constructed of preserved wood and one hundred ten thousand wood guardrail posts were produced annually for state use. Moreover, the policy of using steel posts requires the state to use imported steel. Given these findings, where practicable, and until June 30, 2021, the department shall include the design option to use wood guardrail posts, in addition to steel posts, in new guardrail installations. The selection of posts must be consistent with the agency design manual policy that existed before December 2009.

(22)(a) For projects funded as part of the 2015 connecting Washington transportation package listed on the LEAP transportation document identified in subsection (1) of this section, if the department expects to have substantial reappropriations for the 2021-2023 fiscal biennium, the department may, on a pilot basis, apply funding from a project in this section with an appropriation that cannot be used for the current fiscal biennium to advance one or more of the following projects:

- (i) I-82 Yakima - Union Gap Economic Development Improvements (T21100R);
- (ii) I-5 Federal Way - Triangle Vicinity Improvements (T20400R); or
- (iii) SR 522/Paradise Lk Rd Interchange & Widening on SR 522 (Design/Engineering) (NPARADI).

(b) At least ten business days before advancing a project pursuant to this subsection, the department must notify the office of financial management and the transportation committees of the legislature. The advancement of a project may not hinder the delivery of the projects for which the reappropriations are necessary for the 2021-2023 fiscal biennium.

(c) For connecting Washington projects that have already begun and are eligible for the authority granted in section 601 of this act, the department shall prioritize advancing the following projects if expected reappropriations become available:

- (i) SR 14/I-205 to SE 164th Ave - Auxiliary Lanes (L2000102);
- (ii) SR 305 Construction - Safety Improvements (N30500R);
- (iii) SR 14/Bingen Underpass (L2220062);
- (iv) I-405/NE 132nd Interchange - Totem Lake (L1000110);
- (v) US Hwy 2 Safety (N00200R);
- (vi) US-12/Walla Walla Corridor Improvements (T20900R);

(vii) I-5 JBLM Corridor Improvements (M00100R);

(viii) I-5/Slater Road Interchange - Improvements (L1000099);

(ix) SR 510/Yelm Loop Phase 2 (T32700R); or

(x) SR 520/124th St Interchange (Design and Right of Way) (L1000098).

(d) To the extent practicable, the department shall use the flexibility and authority granted in this section and in section 601 of this act to minimize the amount of reappropriations needed each biennium.

(23) The legislature continues to prioritize the replacement of the state's aging infrastructure and recognizes the importance of reusing and recycling construction aggregate and recycled concrete materials in our transportation system. To accomplish Washington state's sustainability goals in transportation and in accordance with RCW 70.95.805, the legislature reaffirms its determination that recycled concrete aggregate and other transportation building materials are natural resource construction materials that are too valuable to be wasted and landfilled, and are a commodity as defined in WAC 173-350-100.

Further, the legislature determines construction aggregate and recycled concrete materials substantially meet widely recognized international, national, and local standards and specifications referenced in American society for testing and materials, American concrete institute, Washington state department of transportation, Seattle department of transportation, American public works association, federal aviation administration, and federal highway administration specifications, and are described as necessary and desirable products for recycling and reuse by state and federal agencies.

As these recyclable materials have well established markets, are substantially a primary or secondary product of necessary construction processes and production, and are managed as an item of commercial value, construction aggregate and recycled concrete materials are exempt from chapter 173-350 WAC.

(24)(a) \$17,500,000 of the motor vehicle account—state appropriation is provided solely for staffing of a project office to replace the Interstate 5 bridge across the Columbia river (G2000088). If at least a \$9,000,000 transfer is not authorized in section 406(29) of this act, then \$9,000,000 of the motor vehicle account—state appropriation lapses.

(b) Of the amount provided in this subsection, \$7,780,000 of the motor vehicle account—state appropriation must be placed in unallotted status by the office of financial management until the department develops a detailed plan for the work of this project office in consultation with the chairs and ranking members of the transportation committees of the legislature. The director of the office of financial management shall consult with the chairs and ranking members of the transportation committees of the legislature prior to making a decision to allot these funds.

(c) The work of this project office includes, but is not limited to, the reevaluation of the purpose and need identified for the project previously known as the Columbia river crossing, the reevaluation of permits and development of a finance plan, the reengagement of key stakeholders and the public, and the reevaluation of scope, schedule, and budget for a reinvigorated bistate effort for replacement of the Interstate 5 Columbia river bridge. When reevaluating the finance plan for the project, the department shall assume that some costs of the new facility may be covered by tolls. The project office must also study the possible different governance structures for a bridge authority that would provide for the joint administration of the bridges over the Columbia river between Oregon and Washington. As part of this study, the project office must examine the feasibility and necessity of an interstate compact in conjunction with the national center for interstate compacts.

(d) Within the amount provided in this subsection, the department must implement chapter . . . (Engrossed Substitute House Bill No. 1994), Laws of 2019 (projects of statewide significance).

(e) The department shall have as a goal to:

(i) Reengage project stakeholders and reevaluate the purpose and need and environmental permits by July 1, 2020;

(ii) Develop a finance plan by December 1, 2020; and

(iii) Have made significant progress toward beginning the supplemental environmental impact statement process by June 30, 2021. The department shall aim to provide a progress report on these activities to the governor and the transportation committees of the legislature by December 1, 2019, and a final report to the governor and the transportation committees of the legislature by December 1, 2020.

(25) \$17,500,000 of the motor vehicle account—state appropriation is provided solely to begin the pre-design phase on the I-5/Columbia River Bridge project (G2000088); however, if at least \$50,000,000 is not made available, by means of transfer, deposit, appropriation, or other similar conveyance, to the motor vehicle account for stormwater-related activities through the enactment of chapter . . . (Engrossed Substitute Senate Bill No. 5993), Laws of 2019 (model toxics control program reform) by June 30, 2019, the amount provided in this subsection lapses.

(26)(a) \$36,500,000 of the connecting Washington account—state appropriation, \$44,961,000 of the motor vehicle account—federal appropriation, and \$18,539,000 of the transportation partnership account—state appropriation are provided solely for the Fish Passage Barrier project (OBI4001) with the intent of fully complying with the court injunction by 2030.

(b) Of the amounts provided in this subsection, \$320,000 of the connecting Washington account—state appropriation is provided solely to remove the fish passage barrier on state route number 6 that interfaces with Boistfort Valley water utilities near milepost 46.6.

(c) The department shall coordinate with the Brian Abbott fish passage barrier removal board to use a watershed approach to maximize habitat gain by replacing both state and local culverts. The department shall deliver high habitat value fish passage barrier corrections that it has identified, guided by the following factors: Opportunity to bundle projects, ability to leverage investments by others, presence of other barriers, project readiness, other transportation projects in the area, and transportation impacts.

(d) The department must keep track of, for each barrier removed: (i) The location; (ii) the amount of fish habitat gain; and (iii) the amount spent to comply with the injunction.

(27) \$14,750,000 of the connecting Washington account—state appropriation and \$6,000,000 of the motor vehicle account—private/local appropriation are provided solely for the I-90/Barker to Harvard – Improve Interchanges & Local Roads project (L2000122). The connecting Washington account appropriation for the improvements that fall within the city of Liberty Lake may only be expended if the city of Liberty Lake agrees to cover any project costs above the \$20,900,000 of state appropriation provided for the total project in LEAP Transportation Document 2019-1 as developed April 27, 2019, Program – Highway Improvements (I).

(28)(a) \$7,060,000 of the motor vehicle account—federal appropriation, \$72,000 of the motor vehicle account—state appropriation, \$3,580,000 of the transportation partnership account—state appropriation, and \$7,000,000 of the high occupancy toll lanes operations account—state appropriation are provided solely for the SR 167/SR 410 to SR 18 - Congestion Management project (316706C).

(b) If sufficient bonding authority to complete this project is not provided within chapter . . . (Engrossed Substitute Senate Bill No. 5825), Laws of 2019 (addressing tolling) or chapter . . . (House Bill No. 2132), Laws of 2019 (addressing tolling), or within a bond authorization act referencing chapter . . . (Engrossed Substitute Senate Bill No. 5825), Laws of 2019 or chapter . . . (House Bill No. 2132), Laws of 2019, by June 30, 2019, it is the intent of the legislature to remove the \$100,000,000 in toll funding from this project on the list referenced in subsection (2) of this section.

(29) For the I-405/North 8th Street Direct Access Ramp in Renton project (L1000280), if sufficient bonding authority to begin this project is not provided within chapter . . . (Engrossed Substitute Senate Bill No. 5825), Laws of 2019 (addressing tolling) or chapter . . . (30) \$7,900,000 of the Special Category C account—state appropriation and \$1,000,000 of the motor vehicle account—private/local appropriation are provided solely for the SR 18 Widening - Issaquah/Hobart Rd to

Raging River project (L1000199) for improving and widening state route number 18 to four lanes from Issaquah-Hobart Road to Raging River.

(31) \$2,250,000 of the motor vehicle account—state appropriation is provided solely for the I-5 Corridor from Mounts Road to Tumwater project (L1000231) for completing a National and State Environmental Policy Act (NEPA/SEPA) analysis to identify mid- and long-term environmental impacts associated with future improvements along the I-5 corridor from Tumwater to DuPont.

During the 2013-2015 and 2015-2017 fiscal biennia, the legislature may transfer from the state route number 520 civil penalties account to the state route number 520 corridor account such amounts as reflect the excess fund balance of the state route number 520 civil penalties account. Funds transferred must be used solely for capital expenditures for the state route number 520 bridge replacement and HOV project. During the 2017-2019 and the 2019-2021 fiscal ~~((biennium))~~ biennia, the legislature may direct the state treasurer to make transfers of moneys in the state route number 520 civil penalties account to the state route number 520 corridor account.

Sec. 711. RCW 41.45.0631 and 2009 c 561 s 7 are each amended to read as follows:

(1) The allocation of costs between the employer and members of the Washington state patrol retirement system shall be made only after the application of any minimum total contribution rate that may be in effect for the system under subsection (4) of this section. For benefit improvements effective on or after July 1, 2007, costs shall be shared equally by members and the employer, and any cap on member contributions shall be adjusted accordingly. The member contribution rate shall be based on the adjusted total contribution rate described in subsection (2) of this section. Beginning July 1, 2007, the required member contribution rate for members of the Washington state patrol retirement system shall be the lesser of the following: (a) One-half of the adjusted total contribution rate for the system; or (b) seven percent, plus fifty percent of the contribution rate increase caused by any benefit improvements effective on or after July 1, 2007.

(2) The employer shall continue to pay for all costs attributable to distributions under RCW 43.43.270(2) for survivors of members who became disabled under RCW 43.43.040(2) prior to July 1, 2006, until such costs are fully paid. In order to avoid charging members for these costs, the total required contribution rate shall be adjusted to exclude these costs. The result of the adjustment shall be the adjusted total contribution rate that is to be used to calculate the required member contribution rate.

(3) The employer rate shall be the contribution rate required to cover all total system costs that are not covered by the member contribution rate.

(4) Beginning July 1, 2009, a minimum total contribution rate is established for the Washington state patrol retirement system. The total Washington state patrol retirement system contribution rate may exceed, but may not drop below, the established minimum total contribution rate. From July 1, 2009, through June 30, 2011, the minimum total contribution rate shall equal the total contribution rate required to fund fifty percent of the Washington state patrol retirement system's normal cost as calculated under the entry age normal cost method. Beginning July 1, 2011, the minimum total contribution rate shall equal the total

contribution rate required to fund seventy percent of the Washington state patrol retirement system's normal cost as calculated under the entry age normal cost method. This minimum rate, when applicable, shall be collected in addition to any contribution rate required to amortize any unfunded costs attributable to distributions under RCW 43.43.270(2) for survivors of members who became disabled under RCW 43.43.040(2) prior to July 1, 2006.

(5) Upon completion of each biennial actuarial valuation, the state actuary shall review the appropriateness of this minimum total contribution rate and recommend to the council any adjustments as may be needed. Any changes adopted by the council shall be subject to revision by the legislature.

(6) The legislature recognizes the short-term volatility of projected employer contribution rates for the Washington state patrol retirement system and intends to phase-in the increase in contribution rates from the 2017-2019 biennium to the 2019-2021 biennium over three successive biennia. The phase-in shall be calculated by the state actuary and shall not result in an expected funding shortfall when measured over the entire phase-in period. Consistent with this intent, the legislature revises the basic employer contribution rate for the Washington state patrol retirement system from 22.13 percent to 17.5 percent during the 2019-2021 biennium. By June 30, 2020, the state actuary shall calculate and report to the council the expected change to the basic employer contribution rates for the 2021-2023 and 2023-2025 biennia that continue this phase-in.

The appropriations in this section are subject to the following conditions and limitations:

(1) \$1,300,000 of the Tacoma Narrows toll bridge account—state appropriation and \$9,048,000 of the state route number 520 corridor account—state appropriation are provided solely for the purposes of addressing unforeseen operations and maintenance costs on the Tacoma Narrows bridge and the state route number 520 bridge, respectively.

The office of financial management shall place the amounts provided in this subsection, which represent a portion of the required minimum fund balance under the policy of the state treasurer, in unallotted status. The office may release the funds only when it determines that all other funds designated for operations and maintenance purposes have been exhausted.

(2) \$3,100,000 of the Interstate 405 express toll lanes operations account—state appropriation, \$1,498,000 of the state route number 520 corridor account—state appropriation, and \$1,802,000 of the high occupancy toll lanes operations account—state appropriation are provided solely for the operation and maintenance of roadside toll collection systems.

(3) ~~(\$4,131,000)~~ \$4,129,000 of the state route number 520 civil penalties account—state appropriation, \$2,192,000 of the Tacoma Narrows toll bridge account—state appropriation, and \$1,191,000 of the Interstate 405 express toll lanes operations account—state appropriation are provided solely for expenditures related to the toll adjudication process.

(4) The department shall make detailed quarterly expenditure reports available to the Washington state transportation commission and to the public on the department's web site using current resources. The reports must include a summary of toll revenue by facility on all operating toll facilities and high occupancy toll lane systems, and an itemized depiction of the use of that revenue.

(5) As long as the facility is tolled, the department must provide quarterly reports to the transportation committees of the legislature on the Interstate 405 express toll lane project performance measures listed in RCW 47.56.880(4). These reports must include:

(a) Information on the travel times and travel time reliability (at a minimum, average and 90th percentile travel times) maintained during peak and nonpeak periods in the express toll lanes and general purpose lanes for both the entire corridor and commonly made trips in the corridor including, but not limited to, northbound from Bellevue to Rose Hill, state route number 520 at NE 148th to Interstate 405 at state route number 522, Bellevue to Bothell (both NE 8th to state route number 522 and NE 8th to state route number 527), and a trip internal to the corridor (such as NE 85th to NE 160th) and similar southbound trips;

(b) A month-to-month comparison of travel times and travel time reliability for the entire corridor and commonly made trips in the corridor as specified in (a) of this subsection since implementation of the express toll lanes and, to the extent available, a comparison to the travel times and travel time reliability prior to implementation of the express toll lanes;

(c) Total express toll lane and total general purpose lane traffic volumes, as well as per lane traffic volumes for each type of lane (i) compared to total express toll lane and total general purpose lane traffic volumes, as well as per lane traffic volumes for each type of lane, on this segment of Interstate 405 prior to implementation of the express toll lanes and (ii) compared to total express toll lane and total

general purpose lane traffic volumes, as well as per lane traffic volumes for each type of lane, from month to month since implementation of the express toll lanes; and

(d) Underlying congestion measurements, that is, speeds, that are being used to generate the summary graphs provided, to be made available in a digital file format.

(6) (~~(\$666,000)~~) \$595,000 of the high occupancy toll lanes operations account—state appropriation, (~~(\$11,527,000)~~) \$10,289,000 of the state route number 520 corridor account—state appropriation, (~~(\$4,955,000)~~) \$4,423,000 of the Tacoma Narrows toll bridge account—state appropriation, (~~(\$4,286,000)~~) \$3,826,000 of the Interstate 405 express toll lanes operations account—state appropriation, and (~~(\$6,506,000)~~) \$5,807,000 of the Alaskan Way viaduct replacement project account—state appropriation are provided solely for the department to implement a new tolling customer service toll collection system, and are subject to the conditions, limitations, and review provided in section 701, chapter 313, Laws of 2017.

(a) The office of financial management shall place \$2,000,000 of the amounts provided in this subsection in unallotted status, to be distributed between the facilities using the account proportions in this subsection. If the vendors selected as the successful bidders for the new tolling customer service toll collection system or the operator of the new system are different than the vendor as of January 1, 2017, the office of financial management may release portions of this amount as transition costs.

(b) The funds provided in this subsection from the Alaskan Way viaduct replacement project account—state appropriation are provided through a transfer from the motor vehicle account—state in section 408(26), chapter 313, Laws of 2017. These funds are a loan to the Alaskan Way viaduct replacement project account—state, and the legislature assumes that these funds will be reimbursed to the motor vehicle account—state at a later date when the portion of state route number 99 that is the deep bore tunnel is operational.

(c) The department must provide a project status report to the office of financial management and the transportation committees of the legislature on at least a calendar quarterly basis. The report must include, but is not limited to:

(i) Detailed information about the planned and actual scope, schedule, and budget;

(ii) Status of key vendor and other project deliverables; and

(iii) A description of significant changes to planned deliverables or system functions over the life of the project.

(d) The department shall continue to work with the office of financial management, office of the chief information officer, and the transportation committees of the legislature on the project management plan that includes a provision for independent verification and validation of contract deliverables from the successful bidder and a provision for quality assurance that includes reporting

independently to the office of the chief information officer on an ongoing basis during system implementation.

(7) The department shall make detailed quarterly reports to the governor and the transportation committees of the legislature on the following:

(a) The use of consultants in the tolling program, including the name of the contractor, the scope of work, the type of contract, timelines, deliverables, any new task orders, and any extensions to existing consultant contracts;

(b) The nonvendor costs of administering toll operations, including the costs of staffing the division, consultants and other personal service contracts required for technical oversight and management assistance, insurance, payments related to credit card processing, transponder purchases and inventory management, facility operations and maintenance, and other miscellaneous nonvendor costs; and

(c) The vendor-related costs of operating tolled facilities, including the costs of the customer service center, cash collections on the Tacoma Narrows bridge, electronic payment processing, and toll collection equipment maintenance, renewal, and replacement.

(d) The toll adjudication process, including a summary table for each toll facility that includes:

(i) The number of notices of civil penalty issued;

(ii) The number of recipients who pay before the notice becomes a penalty;

(iii) The number of recipients who request a hearing and the number who do not respond;

(iv) Workload costs related to hearings;

(v) The cost and effectiveness of debt collection activities; and

(vi) Revenues generated from notices of civil penalty.

(8) (~~(\$13,179,000)~~) \$13,180,000 of the Interstate 405 express toll lanes operations account—state appropriation is provided solely for operational costs related to the express toll lane facility. The office of financial management shall place \$6,808,000 of the amount provided in this subsection in unallotted status. The office of financial management may only release the funds to the department upon the passage of a 2018 supplemental transportation budget.

(9) In 2021, toll equipment on the Tacoma Narrows Bridge will have reached the end of its operational life. During the 2017-2019 fiscal biennium, the department plans to issue a request for proposals as the first stage of a competitive procurement process that will replace the toll equipment and select a new tolling operator for the Tacoma Narrows Bridge. The request for proposals and subsequent competitive procurement must incorporate elements that prioritize the overall goal of lowering costs per transaction for the facility, such as incentives for innovative approaches which result in lower transactional costs, requests for efficiencies on the part of the bidder that lower operational

costs, and incorporation of technologies such as self-serve credit card machines or other point-of-payment technologies that lower costs or improve operational efficiencies.

~~(10) ((\$5,583,000 of the Alaskan Way viaduct replacement project account state appropriation is provided solely for the new state route number 99 tunnel toll facility's expected proportional share of collecting toll revenues, operating customer services, and maintaining toll collection systems for the last seven months of the biennium. Due to the uncertainty of the new state route number 99 tunnel toll facility timeline, the legislature is holding the other tolled facilities' administrative cost shares constant for this biennium. The legislature expects to see appropriate reductions to the other toll facility accounts once tolling on the new state route number 99 tunnel toll facility commences and any previously incurred costs for start up of the new facility are charged back to the Alaskan Way viaduct replacement project account. The office of financial management shall closely monitor the application of the cost allocation model and ensure that the new state route number 99 tunnel toll facility is adequately sharing costs and the other toll facility accounts are not being overspent or subsidizing the new state route number 99 tunnel toll facility.~~

~~(11) \$1,849,000) \$849,000 of the Alaskan Way viaduct replacement project account—state appropriation is provided solely for the costs associated with the sale of transponders for the opening of the new state route number 99 tunnel toll facility in Seattle. ((The office of financial management shall place \$510,000 of the amount provided in this subsection in unallotted status. The office of financial management may only release the funds to the department if it determines the transponder inventory will otherwise not be sufficient for facility ramp up.))~~

It is the intent of the legislature that if any portion of the labor system replacement project is leveraged in the future for the time, leave, and labor distribution of any other agencies, the motor vehicle account will be reimbursed proportionally for the development of the system since amounts expended from the motor vehicle account must be used exclusively for highway purposes in conformance with Article II, section 40 of the state Constitution. This must be accomplished through a loan arrangement with the current interest rate under the terms set by the office of the state treasurer at the time the system is deployed to additional agencies. Sec. 810. 2018 c 297 s 213 (uncodified) is amended to read as follows:

**FOR THE DEPARTMENT OF TRANSPORTATION—
PROGRAM DELIVERY MANAGEMENT AND
SUPPORT—PROGRAM H**

The appropriations in this section are subject to the following conditions and limitations:

(1) \$300,000 of the motor vehicle account—state appropriation is provided solely for the completion of property value determinations for surplus properties to be sold. The value determinations must be completed by agency staff if available; otherwise, the agency may contract out for these services. The real estate services division of the department must recover the cost of its efforts from the sale of surplus property. Proceeds for surplus property sales must fund additional future sales, and the real estate services division shall prioritize staff resources to meet revenue assumptions for surplus property sales.

(2) The legislature recognizes that the trail known as the Rocky Reach Trail, and its extensions, serve to separate motor vehicle traffic from pedestrians and bicyclists, increasing motor vehicle safety on state route number 2 and the coincident section of state route number 97. Consistent with chapter 47.30 RCW and pursuant to RCW 47.12.080, the legislature declares that transferring portions of WSDOT Inventory Control (IC) No. 2-09-04686 containing the trail and associated buffer areas to the Washington state parks and recreation commission is consistent with the public interest. The legislature directs the department to transfer the property to the Washington state parks and recreation commission.

(a) The department must be paid fair market value for any portions of the transferred real property that is later abandoned, vacated, or ceases to be publicly maintained for trail purposes.

(b) Prior to completing the transfer in this subsection (2), the department must ensure that provisions are made to accommodate private and public utilities and any facilities that predate the department's acquisition of the property, at no cost to those entities. Prior to completing the transfer, the department shall also ensure that provisions, by fair market assessment, are made to accommodate other private and public utilities and any facilities that have been legally allowed by permit or other instrument.

This project must be completed as soon as practicable as a design-build project. Any future savings on this project or other Interstate 405 corridor projects must stay on the Interstate 405 corridor and be made available to either the I-405/SR 167 Interchange - Direct Connector project (140504C), the I-405 Renton to Bellevue project (M00900R), or the I-405/SR 522 to I-5 Capacity Improvements project (L2000234) in the 2017-2019 fiscal biennium.

(15) \$4,960,000 of the transportation partnership account—state appropriation and \$3,000,000 of the Interstate 405 express toll lanes operations account—state appropriation are provided solely for the I-405/SR 522 to I-5 Capacity Improvements project (L2000234) for activities related to adding capacity on Interstate 405 between state route number 522 and Interstate 5, with the goals of increasing vehicle throughput and aligning project completion with the implementation of bus rapid transit in the vicinity of the project. The transportation partnership account—state appropriation funding is a transfer or a reappropriation of a transfer from the I-405/Kirkland Vicinity Stage 2 - Widening project due to savings, and will start an additional phase of this I-405 project.

(16)(a) The SR 520 Bridge Replacement and HOV project (8BI1003) is supported over time from multiple sources, including a \$300,000,000 TIFIA loan, \$924,615,000 in Garvee bonds, toll revenues, state bonds, interest earnings, and other miscellaneous sources.

(b) ~~(\$78,958,000)~~ \$49,353,000 of the transportation partnership account—state appropriation, \$12,296,000 of the motor vehicle account—federal appropriation, and ~~(\$232,000)~~ \$50,000 of the motor vehicle account—local appropriation are provided solely for the SR 520 Bridge Replacement and HOV project (8BI1003).

(c) When developing the financial plan for the project, the department shall assume that all maintenance and operation costs for the new facility are to be covered by tolls collected on the toll facility and not by the motor vehicle account.

(17) The department shall itemize all future requests for the construction of buildings on a project list and submit them through the transportation executive information system as part of the department's annual budget submittal. It is the intent of the legislature that new facility construction must be transparent and not appropriated within larger highway construction projects.

(18) Any advisory group that the department convenes during the 2017-2019 fiscal biennium must consider the interests of the entire state of Washington.

(19) It is the intent of the legislature that for the I-5 JBLM Corridor Improvements project (M00100R), the department shall actively pursue \$50,000,000 in federal funds to pay for this project to supplant state funds in the future. \$50,000,000 in connecting Washington account funding must be held in unallotted status during the 2021-

2023 fiscal biennium. These funds may only be used after the department has provided notice to the office of financial management that it has exhausted all efforts to secure federal funds from the federal highway administration and the department of defense.

(20) (~~(\$93,651,000)~~) \$133,651,000 of the connecting Washington account—state appropriation is provided solely for the SR 167/SR 509 Puget Sound Gateway project (M00600R).

(a) Any savings on the project must stay on the Puget Sound Gateway corridor until the project is complete.

(b) Proceeds from the sale of any surplus real property acquired for the purpose of building the SR 167/SR 509 Puget Sound Gateway (M00600R) project must be deposited into the motor vehicle account for the purpose of constructing the project.

(21)(a) In making budget allocations to the Puget Sound Gateway project, the department shall implement the project's construction as a single corridor investment. The department shall develop a coordinated corridor construction and implementation plan for state route number 167 and state route number 509 in collaboration with affected stakeholders. Specific funding allocations must be based on where and when specific project segments are ready for construction to move forward and investments can be best optimized for timely project completion. Emphasis must be placed on avoiding gaps in fund expenditures for either project.

(b) The secretary of transportation must develop a memorandum of understanding with local project stakeholders that identifies a schedule for stakeholders to provide local matching funds for the Puget Sound Gateway project. Criteria for eligibility of local match includes matching funds and equivalent in-kind contributions including, but not limited to, land donations. The memorandum of understanding must be finalized by July 1, 2018. The department must submit a copy of the memorandum of understanding to the transportation committees of the legislature and report regularly on the status of the requirements outlined in this subsection (21)(b) and (c) of this subsection.

(c) During the course of developing the memorandum of understanding, the department must evaluate the project schedules to determine if there are any benefits to be gained by moving the project schedule forward. It is the legislature's intent that if the department identifies any savings after the funding gap on the base project is closed as part of the proposal to expedite the project, that these cost savings shall go toward construction of a full single-point urban interchange at the junction of state route number 161 (Meridian avenue) and state route number 167 and a full single-point urban interchange at the junction of state route number 509 and 188th Street. If the department receives additional funds from an outside source for this project after the funding gap on the base project is closed, the funds must be applied toward the completion of these two full single-point urban interchanges.

(d) For the SR 167/SR 509 Puget Sound Gateway project (M00600R) the department is strongly encouraged to work to relocate any significant businesses currently located within the planned path of the state route number 509/Interstate 5 under-crossing to a location within the Kent city limits. The department shall provide regular updates on its progress to the joint transportation committee and affected stakeholders.

(e) In designing the state route number 509/state route number 516 interchange component of the SR 167/SR 509 Puget Sound Gateway project (M00600R), the department shall make every effort to utilize the preferred "4B" design.

(22) It is the intent of the legislature that, for the I-5/North Lewis County Interchange project (L2000204), the department develop and design the project with the objective of significantly improving access to the industrially zoned properties in north Lewis county. The design must consider the county's process of investigating alternatives to improve such access from Interstate 5 that began in March 2015.

(23)(a) (~~(\$2,000,000)~~) \$1,050,000 of the transportation partnership account—state appropriation and \$942,000 of the motor vehicle account—state appropriation are provided solely for the U.S. 2 Trestle IJR project (L1000158).

(b) Of the amounts provided in this subsection, \$942,000 of the motor vehicle account—state appropriation is provided solely for the department to complete an interchange justification report (IJR) for the U.S. 2 trestle, covering the state route number 204 and 20th Street interchanges at the end of the westbound structure.

~~((a))~~ (c) The department shall develop the IJR in close collaboration with affected local jurisdictions, including Snohomish county and the cities of Everett, Lake Stevens, Marysville, Snohomish, and Monroe.

~~((b))~~ (d) Within the amount provided for the IJR, the department must address public outreach and the overall operational approval of the IJR.

~~((c))~~ (e) The department shall complete the IJR and submit the final report to the governor and the transportation committees of the legislature by July 1, 2018.

(24)(a) The legislature recognizes that the city of Mercer Island has unique access issues that require the use of Interstate 90 to leave the island and that this access may be affected by the I-90/Two-Way Transit and HOV Improvements project. One of the most heavily traveled on-ramps from Mercer Island to the westbound Interstate 90 general purpose lanes is from Island Crest Way. The department must continue to consult with the city of Mercer Island and the other signatories to the 1976 memorandum of agreement to preserve access provided to Mercer Island by the Island Crest Way on-ramp, and thus grandfather in the current use of the on-ramp for both high occupancy vehicles as well as vehicles seeking to access the general purpose lanes of Interstate 90. The department must consider all reasonable access solutions, including allowing all vehicles to use the Island Crest Way on-ramp to access the new high

occupancy vehicle lane with a reasonable and safe distance provided for single-occupancy vehicles to merge into the general purpose lanes.

(b) A final access solution for Mercer Island must consider the following criteria: Safety; operational effects on all users, including maintaining historic access to Interstate 90 provided from Mercer Island by Island Crest Way; enforcement requirements; and compliance with state and federal law.

(c) The department may not restrict by occupancy the westbound on-ramp from Island Crest Way until a final access solution that meets the criteria in (b) of this subsection has been reached.

(25) (~~(\$3,258,000)~~) \$3,222,000 of the Interstate 405 express toll lanes operations account—state appropriation is provided solely for the I-405 NB Hard Shoulder Running – SR 527 to I-5 project (L1000163).

(26) The legislature finds that there are sixteen companies involved in wood preserving in the state that employ four hundred workers and have an annual payroll of fifteen million dollars. Before the department's switch to steel guardrails, ninety percent of the twenty-five hundred mile guardrail system was constructed of preserved wood and one hundred ten thousand wood guardrail posts were produced annually for state use. Moreover, the policy of using steel posts requires the state to use imported steel. Given these findings, where practicable, and until June 30, 2019, the department shall include the design option to use wood guardrail posts, in addition to steel posts, in new guardrail installations. The selection of posts must be consistent with the agency design manual policy that existed before December 2009.

(27) For the SR 526 Corridor Improvements project (N52600R), the department shall look holistically at the state route number 526 corridor from the state route number 526/Interstate 5 interchange at the east end to the southwest Everett industrial area and Boeing's west access road on the west end. The department, working with affected jurisdictions and stakeholders, shall select project elements that best maximize mobility and congestion relief in the corridor and draw from project elements identified in a practical solutions process.

(28)(a) For projects funded as part of the 2015 connecting Washington transportation package listed on the LEAP transportation document identified in subsection (1) of this section, if the department expects to have substantial reappropriations for the 2019-2021 fiscal biennium, the department may, on a pilot basis, apply funding from a project with an appropriation that cannot be used for the current fiscal biennium to advance one or more of the following projects:

(i) SR 20/Sharpes Corner Vicinity Intersection (L1000112);

(ii) I-5/Marvin Road/SR 510 Interchange (L1100110);

(iii) I-5/Northbound On-ramp at Bakerview (L2000119);

(iv) US 395/Ridgeline Intersection (L2000127);

(v) I-90/Eastside Restripe Shoulders (L2000201);

(vi) SR 240/Richland Corridor Improvements (L2000202);

(vii) SR 14/Bingen (~~(Overpass)~~) Underpass (L2220062);

(viii) US Hwy 2 Safety (N00200R);

(ix) SR 520/148th Ave NE Overlake Access Ramp (L1100101);

(xi) I-5/Rebuild Chamber Way Interchange Improvements (L2000223);

(xii) SR 28 East Wenatchee Corridor Improvements (T10300R);

(xiii) SR 3 Freight Corridor (T30400R); or

(xiv) SR 510/Yelm Loop Phase 2 (T32700R).

(b) At least ten business days before advancing a project pursuant to this subsection, the department must notify the office of financial management and the transportation committees of the legislature. The advancement of a project may not hinder the delivery of the projects for which the reappropriations are necessary for the 2019-2021 fiscal biennium.

(29) Within existing resources and in consultation with local communities, the department shall begin planning efforts, including traffic data collection, analysis and evaluation, scoping, and environmental review, for roundabouts at the intersection of state route number 900 and SE May Valley Road and at the intersection of state route number 169 and Cedar Grove Road SE.

(30) The legislature continues to prioritize the replacement of the state's aging infrastructure and recognizes the importance of reusing and recycling construction aggregate and recycled concrete materials in our transportation system.

To accomplish Washington state's sustainability goals in transportation and in accordance with RCW 70.95.805, the legislature reaffirms its direction to the department to lead the way in advancing the reuse and recycling of construction aggregate and recycled concrete materials whenever readily available, to use these recycled products when cost competitive, and to work with industry implementation partners to remove obstacles that unnecessarily preclude or inhibit their use and implement strategies for the reuse and recycling of construction aggregate and recycled concrete materials.

Specific steps and efforts made to achieve these objectives and accomplishments shall be included in the annual report to the legislature as required by RCW 70.95.807.

(31) Within existing resources, the department shall implement a safety solution after evaluating barrier and

mitigation options on state route number 167 between the intersections with 50th Ave E and E 40th Street in Pierce county to prevent vehicles from leaving the roadway and entering private property below the grade of the highway.

(32) \$350,000 of the motor vehicle account—state appropriation is provided solely for implementation of chapter 288 (Substitute Senate Bill No. 5806), Laws of 2017 (I-5 Columbia river bridge), listed as Replacement Bridge on Interstate 5 across the Columbia River project number (L2000259).

(33) For the SR 520 Seattle Corridor Improvements – West End project (M00400R), the legislature recognizes the department must acquire the entirety of parcel number 1-23190 for construction of the project. The department shall work with its design-build contractor to ensure to the maximum extent practicable that the building housing any grocery store or market currently located on parcel number 1-23190 will be preserved. The legislature recognizes the city of Seattle has requirements in the project area that the department must address and that those requirements may affect the use of parcel number 1-23190 and may affect the ability of the department to preserve any grocery store or market currently located on the property. The department shall meet and confer regularly with residents in the vicinity of the parcel regarding the status of the project and its effects on any grocery store or market currently located on the property. The legislature strongly encourages the city to utilize maximum flexibility in how the department meets the city's requirements and to be an equal partner in efforts to preserve any grocery store or market on parcel number 1-23190.

Projects submitted must include estimated costs for preliminary engineering, rights-of-way, and construction and must also consider the timing of any available funding for weigh station projects.

(12) The department must consult with the Washington state patrol and the office of financial management during the design phase of any improvement or preservation project that could impact Washington state patrol weigh station operations. At least ten business days before advancing the project pursuant to this subsection, the department must notify the office of financial management and the transportation committees of the legislature. The advancement of the project may not hinder the delivery of the projects for which the reappropriations are necessary for the 2019-2021 fiscal biennium.

(16) Within the connecting Washington account—state appropriation, the department may transfer funds from Highway System Preservation (L1100071) to other preservation projects listed in the LEAP transportation document identified in subsection (1) of this section, if it is determined necessary for completion of these high priority preservation projects. The appropriations in this section are subject to the following conditions and limitations:

(1) Except as provided otherwise in this section, the entire appropriations in this section are provided solely for the projects and activities as listed by project and amount in LEAP Transportation Document ((2018)) 2019-2 ALL PROJECTS as developed ((March 5)) April 27, ((2018)) 2019, Program - Rail Program (Y).

(2) (((\$7,009,000)) \$5,000,000) of the transportation infrastructure account—state appropriation is provided solely for new low-interest loans approved by the department through the freight rail investment bank (FRIB) program. The department shall issue FRIB program loans with a repayment period of no more than ten years, and charge only so much interest as is necessary to recoup the department's costs to administer the loans. The department shall report annually to the transportation committees of the legislature and the office of financial management on all FRIB loans issued.

(3) \$7,017,000 of the multimodal transportation account—state appropriation and \$24,000 of the essential rail assistance account—state appropriation are provided solely for new statewide emergent freight rail assistance projects identified in the LEAP transportation document referenced in subsection (1) of this section.

(4) \$367,000 of the transportation infrastructure account—state appropriation and \$1,100,000 of the multimodal transportation account—state appropriation are provided solely to reimburse Highline Grain, LLC for approved work completed on Palouse River and Coulee City

(PCC) railroad track in Spokane county between the BNSF Railway Interchange at Cheney and Geiger Junction and must be administered in a manner consistent with freight rail assistance program projects. The value of the public benefit of this project is expected to meet or exceed the cost of this project in: Shipper savings on transportation costs; jobs saved in rail-dependent industries; and/or reduced future costs to repair wear and tear on state and local highways due to fewer annual truck trips (reduced vehicle miles traveled). The amounts provided in this subsection are not a commitment for future legislatures, but it is the legislature's intent that future legislatures will work to approve biennial appropriations until the full \$7,337,000 cost of this project is reimbursed.

(5)(a) \$686,000 of the essential rail assistance account—state appropriation, \$422,000 of the multimodal transportation account—state appropriation, and \$21,000 of the transportation infrastructure account—state appropriation are provided solely for the purpose of the rehabilitation and maintenance of the Palouse river and Coulee City railroad line (F01111B).

(b) Expenditures from the essential rail assistance account—state in this subsection may not exceed the combined total of:

(i) Revenues and transfers deposited into the essential rail assistance account from leases and sale of property relating to the Palouse river and Coulee City railroad; and

(ii) Revenues transferred from the miscellaneous program account to the essential rail assistance account, pursuant to RCW 47.76.360, for the purpose of sustaining the grain train program by maintaining the Palouse river and Coulee City railroad.

(6) The department shall issue a call for projects for the freight rail assistance program, and shall evaluate the applications in a manner consistent with past practices as specified in section 309, chapter 367, Laws of 2011. By November 15, 2018, the department shall submit a prioritized list of recommended projects to the office of financial management and the transportation committees of the legislature.

(7) For projects funded as part of the 2015 connecting Washington transportation package identified on the LEAP transportation document identified in subsection (1) of this section, if the department expects to have substantial reappropriations for the 2019-2021 fiscal biennium, the department may, on a pilot basis, apply funding from a project with an appropriation that cannot be used for the current fiscal biennium to advance the South Kelso Railroad Crossing project (L1000147). At least ten business days before advancing a project pursuant to this subsection, the department must notify the office of financial management and the transportation committees of the legislature. The advancement of a project may not hinder the delivery of the projects for which the reappropriations are necessary for the 2019-2021 fiscal biennium.

(8) It is the intent of the legislature to encourage the department to pursue federal grant opportunities leveraging

up to \$6,696,000 in connecting Washington programmed funds to be used as a state match to improve the state-owned Palouse river and Coulee City system. The amount listed in this subsection is not a commitment for future legislatures, but is the legislature's intent that future legislatures will work to approve biennial appropriations up to a state match share not to exceed \$6,696,000 of a grant award.

(9) \$5,608,000 of the multimodal transportation account—state appropriation is provided solely as expenditure authority for any insurance proceeds received by the state for Passenger Rail Equipment Replacement (project 700010C). The department must use this expenditure authority only to purchase passenger rail equipment that has been competitively procured.

The report must include, but is not limited to, a list of projects selected and a brief description of each project's status.

(4) ~~(((\$32,984,000))~~ \$23,701,000 of the multimodal transportation account—state appropriation is provided solely for bicycle and pedestrian projects listed in the LEAP transportation document referenced in subsection (1) of this section.

(5) \$43,800,000 of the motor vehicle account—federal appropriation is provided solely for national highway freight network projects identified on the project list submitted in accordance with section 218(4)(b), chapter 14, Laws of 2016 on October 31, 2016. The department shall validate the projects on the list. Only tier one projects on the

prioritized freight project list that are validated by the department may receive funding under this subsection. The department shall continue to work with the Washington state freight advisory committee to improve project screening and validation to support project prioritization and selection, including during the freight mobility plan update in 2017. The department may compete for funding under this program and shall provide an updated prioritized freight project list when submitting its 2019-2021 budget request. To the greatest extent practicable, the department shall follow the Washington state freight advisory committee recommendation to allocate ten percent of the funds in this subsection to multimodal projects as permitted under the fixing America's surface transportation (FAST) act.

(6) It is the expectation of the legislature that the department will be administering a local railroad crossing safety grant program for \$7,400,000 in federal funds during the 2017-2019 fiscal biennium. Of the amounts identified in this subsection, a minimum of \$500,000 must be for railroad grade-crossing safety grants at locations where multiple pedestrian or bicyclist fatalities have occurred in the vicinity of a grade-crossing in the last five years.

(7) ~~(((\$8,000,000))~~ \$4,840,000 of the connecting Washington account—state appropriation is provided solely for the Covington Connector (L2000104). The amounts described in the LEAP transportation document referenced in subsection (1) of this section are not a commitment by future legislatures, but it is the legislature's intent that future legislatures will work to approve appropriations in the 2019-2021 fiscal biennium to reimburse the city of Covington for approved work completed on the project up to the full \$24,000,000 cost of this project.

(8)(a) For projects funded as part of the 2015 connecting Washington transportation package listed on the LEAP transportation document identified in subsection (1) of this section, if the department expects to have substantial reappropriations for the 2019-2021 fiscal biennium, the department may, on a pilot basis, apply funding from a project with an appropriation that cannot be used for the current fiscal biennium to advance one or more of the following projects:

(i) SR 502 Main Street Project/Widening (L2000065);

(ii) Complete SR 522 Improvements-Kenmore (T10600R);

(iii) Issaquah-Fall City Road (L1000094);

(iv) Lewis Street Bridge (L2000066);

(v) Covington Connector (L2000104);

(vi) Orchard Street Connector (L2000120);

(vii) Harbour Reach Extension (L2000136);

(viii) Sammamish Bridge Corridor (L2000137);

(ix) Brady Road (L2000164);

(x) Thornton Road Overpass (L2000228);

- (xi) I-5/Port of Tacoma Road Interchange (L1000087);
- (xii) Wilburton Reconnection Project (G2000006);
- (xiii) SR 520 Trail Grade Separation at 40th Street (G2000013);
- (xiv) Bay Street Pedestrian Project (G2000015); or
- (xv) Cowiche Canyon Trail (G2000010).

(b) At least ten business days before advancing a project pursuant to this subsection, the department must notify the office of financial management and the transportation committees of the legislature. The advancement of a project may not hinder the delivery of the projects for which the reappropriations are necessary for the 2019-2021 fiscal biennium.

STATE PROPERTY TAX DEPOSIT.

(1) Except as otherwise provided in this section, subject to the limitations in RCW 84.55.010, in each year the state must levy for collection in the following year for the support of common schools of the state a tax of three dollars and sixty cents per thousand dollars of assessed value upon the assessed valuation of all taxable property within the state adjusted to the state equalized value in accordance with the indicated ratio fixed by the state department of revenue.

(2)(a) In addition to the tax authorized under subsection (1) of this section, the state must levy an additional property tax for the support of common schools of the state.

(i) For taxes levied for collection in calendar years 2018 through 2021, the rate of tax is the rate necessary to bring the aggregate rate for state property tax levies levied under this subsection and subsection (1) of this section to a combined rate of two dollars and forty cents per thousand dollars of assessed value in calendar year 2019 and two dollars and seventy cents per thousand dollars of assessed value in calendar years 2018, 2020, and 2021. The state property tax levy rates provided in this subsection (2)(a)(i) are based upon the assessed valuation of all taxable property within the state adjusted to the state equalized value in accordance with the indicated ratio fixed by the state department of revenue.

(ii) For taxes levied for collection in calendar year 2022 and thereafter, the tax authorized under this subsection (2) is subject to the limitations of chapter 84.55 RCW.

(b)(i) Except as otherwise provided in this subsection, all taxes collected under this subsection (2) must be deposited into the state general fund.

(ii) For fiscal year 2019, (~~nine hundred thirty five million dollars of~~) taxes collected under this subsection (2) must be deposited into the education legacy trust account for the support of common schools.

(3) For taxes levied for collection in calendar years 2019 through 2021, the state property taxes levied under subsections (1) and (2) of this section are not subject to the limitations in chapter 84.55 RCW.

(4) For taxes levied for collection in calendar year 2022 and thereafter, the aggregate rate limit for state property taxes levied under subsections (1) and (2) of this section is three dollars and sixty cents per thousand dollars of assessed value upon the assessed valuation of all taxable property within the state adjusted to the state equalized value in accordance with the indicated ratio fixed by the state department of revenue.

(5) For property taxes levied for collection in calendar years 2019 through 2021, the rate of tax levied under subsection (1) of this section is the actual rate that was levied for collection in calendar year 2018 under subsection (1) of this section.

(6) As used in this section, "the support of common schools" includes the payment of the principal and interest on bonds issued for capital construction projects for the common schools.

Sec. 2. RCW 28A.300.780 and 2018 c 266 s 401 are each amended to read as follows:

HOLD HARMLESS.

(1) For the 2018-19 and 2019-20 school years, the office of the superintendent of public instruction shall allocate a hold-harmless payment to school districts if the sum of (b) of this subsection is greater than the sum of (a) of this subsection for either of the respective school years or if a school district meets the criteria under subsection (2) of this section.

(a) The current school year is calculated as the sum of (a)(i) through (iii) of this subsection using the enrollments and values in effect for that school year for the school district's:

(i) Formula-driven state allocations in part V of the state omnibus appropriations act for these programs: General apportionment, employee compensation adjustments, pupil transportation, special education programs, institutional

education programs, transitional bilingual programs, highly capable, and learning assistance programs;

(ii) Local effort assistance funding received under chapter 28A.500 RCW; and

(iii) The lesser of the school district's voter-approved enrichment levy collection or the maximum levy authority provided under RCW 84.52.0531 for ~~((the previous calendar))~~ that school year.

(b) The baseline school year is calculated as the sum of (b)(i) through (iii) of this subsection using the current school year enrollments and the values in effect during the 2017-18 school year for the school district's:

(i) Formula-driven state allocations in part V of the state omnibus appropriations act for these programs: General apportionment, employee compensation adjustments, pupil transportation, special education programs, institutional education programs, transitional bilingual programs, highly capable, and learning assistance programs;

(ii) Local effort assistance funding received under chapter 28A.500 RCW; and

(iii) Maintenance and operation levy collection under RCW 84.52.0531 in the 2017 calendar year.

(2) From amounts appropriated in chapter 266, Laws of 2018, the superintendent of public instruction must prioritize hold harmless payments to districts that meet both the following criteria:

(a) The sum of the school district's enrichment levy under RCW 84.52.0531 and 2017 3rd sp.s. c 13 s 203 and local effort assistance under RCW 28A.500.015 is less than half of the sum of the maintenance and operations levy and local effort assistance provided under law as it existed on January 1, 2017. For purposes of the calculation in this subsection, the maintenance and operations levy is limited to the lesser of the voter-approved levy as of January 1, 2017, or the maximum levy under law as of January 1, 2017; and

(b) The adjusted assessed value of property within the school district as calculated by the department of revenue is greater than twenty billion dollars in calendar year 2017.

(3) Districts eligible for hold-harmless payments under subsection (1) of this section shall receive the difference between subsection (1)(b) and (a) of this section through the apportionment payment process in RCW 28A.510.250.

(4) The voters of the school district must approve an enrichment levy under RCW 84.52.0531 to be eligible for a hold-harmless payment under this section.

(5) This section expires December 31, 2020.

Sec. 3. RCW 28A.320.330 and 2018 c 266 s 302 are each amended to read as follows:

(1)(a) A general fund for the school district to account for all financial operations of the school district except those required to be accounted for in another fund.

(b) By the 2018-19 school year, a local revenue subfund of its general fund to account for the financial operations of a school district that are paid from local revenues. The local revenues that must be deposited in the local revenue subfund are enrichment levies and transportation vehicle levies collected under RCW 84.52.053, local effort assistance funding received under chapter 28A.500 RCW, and other school district local

revenues including, but not limited to, grants, donations, and state and federal payments in lieu of taxes, but do not include other federal revenues, or local revenues that operate as an offset to the district's basic education allocation under RCW 28A.150.250. School districts must track expenditures from this subfund separately to account for the expenditure of each of these streams of revenue by source, and must provide any supplemental expenditure schedules required by the superintendent of public instruction or state auditor for purposes of RCW 43.09.2856.

(2) A capital projects fund shall be established for major capital purposes. All statutory references to a "building fund" shall mean the capital projects fund so established. Money to be deposited into the capital projects fund shall include but not be limited to rental and lease proceeds as authorized by RCW 28A.335.060, and proceeds from the sale of real property as authorized by RCW 28A.335.130.

Money legally deposited into the capital projects fund from other sources may be used for the purposes described in RCW 28A.530.010, and for the purposes of:

(a) Major renovation and replacement of facilities and systems where periodical repairs are no longer economical or extend the useful life of the facility or system beyond its original planned useful life. Such renovation and replacement shall include, but shall not be limited to, major repairs, exterior painting of facilities, replacement and refurbishment of roofing, exterior walls, windows, heating and ventilating systems, floor covering in classrooms and public or common areas, and electrical and plumbing systems.

(b) Renovation and rehabilitation of playfields, athletic fields, and other district real property.

(c) The conduct of preliminary energy audits and energy audits of school district buildings. For the purpose of this section:

(i) "Preliminary energy audits" means a determination of the energy consumption characteristics of a building, including the size, type, rate of energy consumption, and major energy using systems of the building.

(ii) "Energy audit" means a survey of a building or complex which identifies the type, size, energy use level, and major energy using systems; which determines appropriate energy conservation maintenance or operating procedures and assesses any need for the acquisition and installation of energy conservation measures, including solar energy and renewable resource measures.

(iii) "Energy capital improvement" means the installation, or modification of the installation, of energy

conservation measures in a building which measures are primarily intended to reduce energy consumption or allow the use of an alternative energy source.

Except as provided in subsection (6) of this section, such coverage may be provided by contracts or agreements with private carriers, with the state health care authority, or through self-insurance or self-funding pursuant to chapter 48.62 RCW, or in any other manner authorized by law. Any direct agreement must comply with RCW 48.150.050.

(2)(a) Whenever funds are available for these purposes the board of directors of the school district or educational service district may contribute all or a part of the cost of such protection or insurance for the employees of their respective school districts or educational service districts and their dependents. In establishing such a requirement, the district shall adopt regulations for waiving or reducing the premiums of such coverage as may be offered through the school district or educational service district to students participating in extracurricular activities, for those students whose families, by reason of their low income, would have difficulty paying the entire amount of such insurance premiums. (4) All contracts or agreements for insurance or protection written to take advantage of the provisions of this section shall provide that the beneficiaries of such contracts may utilize on an equal participation basis the services of those practitioners licensed pursuant to chapters 18.22, 18.25, 18.53, 18.57, and 18.71 RCW.

(ii) Make progress toward employee premiums that are established to ensure that full family coverage premiums are not more than three times the premiums for employees purchasing single coverage for the same coverage plan, unless a subsequent premium differential target is defined as a result of the review and subsequent actions described in RCW 41.05.655;

(iii) Offer employees at least one health benefit plan that is not a high deductible health plan offered in conjunction with a health savings account in which the employee share of the premium cost for a full-time employee, regardless of whether the employee chooses employee-only coverage or coverage that includes dependents, does not exceed the share of premium cost paid by state employees during the state employee benefits year that started immediately prior to the school year.

(b) All contracts or agreements for employee benefits must be held to responsible contracting standards, meaning a fair, prudent, and accountable competitive procedure for procuring services that includes an open competitive process, except where an open process would compromise cost-effective purchasing, with documentation justifying the approach.

(c) School districts offering medical, vision, and dental benefits shall also make progress on promoting health care innovations and cost savings and significantly reduce administrative costs.

(d) All contracts or agreements for insurance or protection described in this section shall be in compliance with chapter 3, Laws of 2012 2nd sp. sess.

(6) The authority to make available basic and optional benefits to school employees under this section expires December 31, 2019, except for nonrepresented employees of educational service districts for which the

authority expires December 31, 2023. Beginning January 1, 2020, school districts, for all school employees, and educational service districts, for represented employees, shall make available basic and optional benefits through plans offered by the health care authority and the school employees' benefits board. SENATE AMENDMENT TO HOUSE BILL

There being no objection, the House refused to concur in the Senate amendment to ENGROSSED SUBSTITUTE HOUSE BILL NO. 2140 and asked the Senate to recede therefrom.

MESSAGE FROM THE SENATE

April 28, 2019

Mr. Speaker:

The Senate has passed ENGROSSED SECOND SUBSTITUTE HOUSE BILL NO. 2042 with the following amendment:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that increasing the rate of adoption of electric vehicles and vessels and other clean alternative fuel vehicles will help to reduce harmful air pollution from exhaust emissions, including greenhouse gas emissions, in the state. The legislature also finds that an increased reliance on greener transit options will help to further reduce harmful air pollution from exhaust emissions. The legislature further finds that support for clean alternative fuel infrastructure can help to increase adoption of green transportation in the state, as noted in a 2015 joint transportation committee report. It is therefore the legislature's intent to drive green vehicle and vessel adoption and increased green transit use by: (1) Establishing and extending tax incentive programs for alternative fuel vehicles and related infrastructure, including for commercial vehicles; (2) providing funding for a capital grant program to assist transit authorities in reducing the carbon output of their fleets; (3) increasing public and private electric utilities' ability to invest in electric vehicle charging infrastructure; (4) establishing a technical assistance program for public agencies within the Washington State University's energy program; (5) funding a pilot program to test methods for facilitating access to

alternative fuel vehicles and alternative fuel vehicle infrastructure by low-income residents of the state; (6) funding a study to examine opportunities to provide financing assistance to lower-income residents of the state who would like to purchase an electric vehicle; and (7) establishing a tax incentive program for certain electric vessels.

Sec. 2. RCW 28B.30.903 and 2010 c 37 s 1 are each amended to read as follows:

(1) The Washington State University extension energy program shall provide information, technical assistance, and consultation on physical plant operation, maintenance, and construction issues to state and local governments, tribal governments, and nonprofit organizations through its plant operations support program. The Washington State University extension energy program may not enter into facilities design or construction contracts on behalf of state or local government agencies, tribal governments, or nonprofit organizations. The plant operations support program created in this section must be funded by voluntary subscription charges, service fees, and other funding acquired by or provided to Washington State University for such purposes.

(2) Subject to the availability of amounts appropriated for this specific purpose through the 2023-2025 biennium, the Washington State University extension energy program must establish and administer a technical assistance and education program focused on the use of alternative fuel vehicles. Education and assistance may be provided to public agencies, including local governments and other state political subdivisions.

Sec. 3. RCW 47.04.350 and 2015 3rd sp.s. c 44 s 403 are each amended to read as follows:

(1) Subject to the availability of amounts appropriated for this specific purpose through the 2023-2025 biennium, the department's public-private partnership office must develop and maintain a ((~~pilot~~)) program to support the deployment of ((~~electric~~)) clean alternative fuel vehicle charging and refueling infrastructure that is supported by private financing.

(2) The department must define corridors in which bidders may propose to install electric vehicle charging infrastructure or hydrogen fueling stations, and may update these corridors over time as needed. Alternatively, a bidder may propose a corridor in which the bidder proposes to install electric vehicle infrastructure or hydrogen fueling stations if the department has adopted rules allowing such a proposal and establishing guidelines for how such a proposal will be considered.

(3)(a) For bid proposals under this section, the department must require the following:

(i) Bidders must have private sector partners contributing to the project who stand to gain indirect value from development of the project, such as motor vehicle manufacturers, retail stores, or tourism stakeholders;

(ii) Bidders must demonstrate that the proposed project will be valuable to ((~~electric~~)) clean alternative fuel

vehicle drivers and will address an existing gap in the state's ((~~electric vehicle charging station~~)) low carbon transportation infrastructure;

(iii) Projects must be expected to be profitable and sustainable for the owner-operator and the private partner; and

(iv) Bidders must specify how the project captures the indirect value of charging or refueling station deployment to the private partner.

(b) The department may adopt rules that require any other criteria for a successful project.

(4) In evaluating proposals under this section, the department may use the electric vehicle financial analysis tool that was developed in the joint transportation committee's study into financing electric vehicle charging station infrastructure.

(5)(a) After selecting a successful proposer under this section, the department may provide a loan or grant to the proposer.

(b) Grants and loans issued under this subsection must be funded from the electric vehicle ((~~charging infrastructure~~)) account created in RCW 82.44.200.

(c) Any project selected for support under this section is eligible for only one grant or loan as a part of the ((~~pilot~~)) program.

(6) The department may conduct preliminary workshops with potential bidders and other potential private sector partners to determine the best method of designing and maintaining the ((~~pilot~~)) program, discuss how to develop and maintain the partnerships among the private sector partners that may receive indirect value, and any other issues relating to the implementation and administration of this section. The department should consider regional workshops to engage potential business partners from across the state.

(7) The department must adopt rules to implement and administer this section.

Sec. 4. 2019 c ... (SHB 1512) s 1 (uncodified) is amended to read as follows:

The legislature finds that:

(1) Programs for the electrification of transportation have the potential to allow electric utilities to optimize the use of electric grid infrastructure, improve the management of electric loads, and better manage the integration of variable renewable energy resources. Depending upon each utility's unique circumstances, electrification of transportation programs may provide cost-effective energy efficiency, through more efficient use of energy resources, and more efficient use of the electric delivery system. Electrification of transportation may result in cost savings and benefits for all ratepayers.

(2) State policy can achieve the greatest return on investment in reducing greenhouse gas emissions and improving air quality by expediting the transition to alternative fuel vehicles, including electric vehicles.

Potential benefits associated with electrification of transportation include the monetization of environmental attributes associated with carbon reduction in the transportation sector.

(3) Legislative clarity is important for utilities to offer programs and services, including incentives, in the electrification of transportation for their customers. It is the intent of the legislature to allow all utilities to support transportation electrification to further the state's policy goals and achieve parity among all electric utilities, so each electric utility, depending on its unique circumstances, can determine its appropriate role in the development of electrification of transportation infrastructure.

Sec. 5. RCW 80.28.--- and 2019 c ... (SHB 1512) s 4 are each amended to read as follows:

(1) An electric utility regulated by the utilities and transportation commission under this chapter may submit to the commission an electrification of transportation plan that deploys electric vehicle supply equipment or provides other electric transportation programs, services, or incentives to support electrification of transportation ~~((provided that such electric vehicle supply equipment, programs, or services may not increase costs to customers in excess of one quarter of one percent above the benefits of electric transportation to all customers over a period consistent with the utility's planning horizon under its most recent integrated resource plan)).~~ The plans should align to a period consistent with either the utility's planning horizon under its most recent integrated resource plan or the time frame of the actions contemplated in the plan, and may include:

(a) Any programs that the utility is proposing contemporaneously with the plan filing or anticipates later in the plan period;

(b) Anticipated benefits of transportation electrification, based on a forecast of electric transportation in the utilities' service territory; and

(c) Anticipated costs of programs, subject to the restrictions in RCW 80.28.360.

(2) In reviewing an electrification of transportation plan under subsection (1) of this section, the commission may consider the following: (a) The applicability of multiple options for electrification of transportation across all customer classes; (b) the impact of electrification on the utility's load, and whether demand response or other load management opportunities, including direct load control and dynamic pricing, are operationally appropriate; (c) system reliability and distribution system efficiencies; (d) interoperability concerns, including the interoperability of hardware and software systems in electrification of transportation proposals; and (e) the benefits and costs of the planned actions ~~((and (f) the overall customer experience)).~~

(3) The commission must issue an acknowledgment of an electrification of transportation plan within six months of the submittal of the plan. The commission may establish by rule the requirements for preparation and submission of an electrification of transportation plan. An electric utility

may submit a plan under this section before or during rule-making proceedings.

Sec. 6. RCW 80.28.360 and 2019 c ... (SHB 1512) s 5 are each amended to read as follows:

(1) In establishing rates for each electrical company regulated under this title, the commission may allow an incentive rate of return on investment through December 31, 2030, on capital expenditures for electric vehicle supply equipment that is deployed for the benefit of ratepayers, provided that the capital expenditures of the utilities' programs or plans in section 5(1) of this act do not increase ~~((costs to ratepayers))~~ the annual retail revenue requirement of the utility, after accounting for the benefits of transportation electrification in each year of the plan, in excess of one-quarter of one percent. The commission must consider and may adopt other policies to improve access to and promote fair competition in the provision of electric vehicle supply equipment.

(2) An incentive rate of return on investment under this section may be allowed only if the company chooses to pursue capital investment in electric vehicle supply equipment on a fully regulated basis similar to other capital investments behind a customer's meter. In the case of an incentive rate of return on investment allowed under this section, an increment of up to two percent must be added to the rate of return on common equity allowed on the company's other investments.

(3) The incentive rate of return on investment authorized in subsection (2) of this section applies only to projects which have been installed after July 1, 2015.

(4) The incentive rate of return on investment increment pursuant to this section may be earned only for a period up to the depreciable life of the electric vehicle supply equipment as defined in the depreciation schedules developed by the company and submitted to the commission for review. When the capital investment has fully depreciated, an electrical company may gift the electric vehicle supply equipment to the owner of the property on which it is located.

(5) By December 31, 2017, the commission must report to the appropriate committees of the legislature with regard to the use of any incentives allowed under this section, the quantifiable impacts of the incentives on actual electric vehicle deployment, and any recommendations to the legislature about utility participation in the electric vehicle market.

NEW SECTION. Sec. 7. This section is the tax preference performance statement for the tax preferences contained in sections 8 through 14, chapter . . . , Laws of 2019 (sections 8 through 14 of this act). The performance statement is only intended to be used for subsequent evaluation of the tax preference. It is not intended to create a private right of action by any party or be used to determine eligibility for preferential tax treatment.

(1) The legislature categorizes the tax preferences as ones intended to induce certain designated behavior by taxpayers, as indicated in RCW 82.32.808(2)(a).

(2) It is the legislature's specific public policy objective to increase the use of clean alternative fuel vehicles in Washington. It is the legislature's intent to establish and extend tax incentive programs for alternative fuel vehicles and related infrastructure by: (a) Reinstating the sales and use tax exemption on certain clean alternative fuel vehicles in order to reduce the price charged to customers for clean alternative fuel vehicles; (b) extending the business and occupation and public utility tax credit for clean alternative fuel commercial vehicles and expanding it to include clean alternative fuel infrastructure; (c) extending the sales and use tax exemption for electric vehicle batteries, fuel cells, and infrastructure and expanding it to include the electric battery and fuel cell components of electric buses and zero emissions buses; and (d) extending the leasehold excise tax exemption to tenants of public lands for battery and fuel cell electric vehicle infrastructure.

(3) To measure the effectiveness of the tax preferences in sections 8 through 14, chapter . . . , Laws of 2019 (sections 8 through 14 of this act) in achieving the public policy objectives described in subsection (2) of this section, the joint legislative audit and review committee must evaluate the number of clean alternative fuel vehicles titled in the state.

(4) In order to obtain the data necessary to perform the review in subsection (3) of this section, the department of licensing and the department of revenue must provide data needed for the joint legislative audit and review committee analysis. In addition to the data source described under this subsection, the joint legislative audit and review committee may use any other data it deems necessary.

Sec. 8. RCW 82.04.4496 and 2017 c 116 s 1 are each amended to read as follows:

(1)(a)(i) A person who is taxable under this chapter is allowed a credit against the tax imposed in this chapter according to the gross vehicle weight rating of the vehicle and the incremental cost of the vehicle purchased above the purchase price of a comparable conventionally fueled vehicle. The credit is limited, as set forth in the table below, to the lesser of the incremental cost amount or the maximum credit amount per vehicle purchased, and subject to a maximum annual credit amount per vehicle class.

Gross Vehicle Weight	Incremental Cost Amount	Maximum Credit Amount Per Vehicle	Maximum Annual Credit Per Vehicle Class
Up to 14,000 pounds	((50%)) 75% of incremental cost	\$25,000	\$2,000,000
14,001 to 26,500 pounds	((50%)) 75% of incremental cost	\$50,000	\$2,000,000

Above 26,500 pounds	((50%)) 75% of incremental cost	\$100,000	\$2,000,000
---------------------	--	-----------	-------------

(i) A person who is taxable under this chapter is allowed a credit against the tax imposed in this chapter for up to fifty percent of the cost to purchase alternative fuel vehicle infrastructure, tangible personal property that will become a component of alternative fuel vehicle infrastructure, and installation and construction of alternative fuel vehicle infrastructure, but excluding the cost of property acquisition and site improvement related to the installation of alternative fuel vehicle infrastructure. The credit is subject to a maximum annual credit amount of two million dollars.

(b) On September 1st of each year, any unused credits from any (~~(weight class))~~ category identified in (~~(the table in))~~ (a) of this subsection must be made available to applicants applying for credits under any other (~~(weight class listed))~~ category identified in (a) of this subsection, subject to the maximum annual and total credit amounts identified in this subsection. The credit established in this section and RCW 82.16.0496 is subject to a maximum annual credit amount of six million dollars, and a maximum total credit amount of thirty-two and one-half million dollars since the credit became available on July 15, 2015.

(c) The credit provided in (a)(i) of this subsection (~~((+))~~) is available for the lease of a vehicle. The credit amount for a leased vehicle is equal to the credit in (a)(i) of this subsection (~~((+))~~) multiplied by the lease reduction factor. The person claiming the credit for a leased vehicle must be the lessee as identified in the lease contract.

(2) A person who is taxable under this chapter is allowed, subject to the maximum annual credit per (~~(vehicle class))~~ category in subsection (1)(a) of this section, a credit against the tax imposed in this chapter for the lesser of twenty-five thousand dollars or (~~(thirty))~~ fifty percent of the costs of converting a commercial vehicle to be principally powered by a clean alternative fuel with a United States environmental protection agency certified conversion.

(3) The total credits under subsection (1)(a)(i) of this section may not exceed the lesser of two hundred fifty thousand dollars or twenty-five vehicles per person per calendar year.

(4) A person may not receive credit under this section for amounts claimed as credits under chapter 82.16 RCW.

(5) Credits are available on a first-in-time basis.

(a) The department must disallow any credits, or portion thereof, that would cause the total amount of credits claimed under this section, and RCW 82.16.0496, during any calendar year to exceed six million dollars. The department must provide notification on its web site monthly on the amount of credits that have been applied for, the amount issued, and the amount remaining before the statewide annual limit is reached. In addition, the department must provide written notice to any person who has applied to

claim tax credits in excess of the limitation in this subsection.

(b) The department must disallow any credits, or portion thereof, that would cause the total amount of credits claimed beginning July 15, 2015, under this section and RCW 82.16.0496 to exceed thirty-two and one-half million dollars. The department must provide notification on its web site monthly on the total amount of credits that have been applied for, the amount issued, and the amount remaining before the statewide limit is reached. In addition, the department must provide written notice to any person who has applied to claim tax credits in excess of the limitation in this subsection.

(6) For the purposes of the limits provided in this section, a credit must be counted against such limits for the calendar year in which the credit is earned.

(7) To claim a credit under this section a person must electronically file with the department all returns, forms, and any other information required by the department, in an electronic format as provided or approved by the department. No refunds may be granted for credits under this section.

(8) To claim a credit under this section, the person applying must:

(a) Complete an application for the credit which must include:

(i) The name, business address, and tax identification number of the applicant;

(ii) A quote or unexecuted copy of the purchase requisition or order for the vehicle, infrastructure, infrastructure components, infrastructure construction, or infrastructure installation;

(v) The anticipated delivery date of the vehicle, the anticipated delivery date of the infrastructure or infrastructure components, the anticipated construction completion date of the infrastructure, or the anticipated installation completion date of the infrastructure;

(vi) The estimated annual fuel use of the vehicle in the anticipated duties or the estimated annual fuel to be supplied by the infrastructure;

(vii) The gross weight of each vehicle for vehicle credits;

(viii) For leased vehicles, a copy of the lease contract that includes the gross capitalized cost, residual value, and name of the lessee; and

(ix) Any other information deemed necessary by the department to support administration or reporting of the program.

(b) Within fifteen days of notice of credit availability from the department, provide notice of intent to claim the credit including:

(i) A copy of the order for the vehicle or infrastructure-related item, including the total cost for the vehicle or infrastructure-related item;

(ii) The anticipated delivery date of the vehicle or infrastructure or infrastructure component, which must be within one year of acceptance of the credit; ~~((and))~~

(iii) The anticipated construction or installation completion date of the infrastructure, which must be within two years of acceptance of the credit; and

(iv) Any other information deemed necessary by the department to support administration or reporting of the program.

(c) Provide final documentation within ~~((fifteen))~~ thirty days of receipt of the vehicle or infrastructure or infrastructure components or of completion of construction or installation of the infrastructure, including:

(i) A copy of the final invoice for the vehicle or infrastructure-related items;

(vi) Any other information deemed necessary by the department to support administration or reporting of the program.

(9) A person applying for credit under subsection (8) of this section may apply for multiple vehicles on the same application, but the application must include the required information for each vehicle included in the application. A separate application is required for infrastructure-related items, but all infrastructure-related items at a single location may be included in a single application provided the required information for each infrastructure-related item is included in the application.

(10) To administer the credits, the department must, at a minimum:

(a) Provide notification on its web site monthly of the amount of credits that have been applied for, claimed, and the amount remaining before the statewide annual limit ~~((is))~~ and total limit are reached;

the year in which the vehicles or infrastructure applied for are anticipated to be delivered, constructed, or installed;

(c) Within fifteen days of receipt of the notice of intent to claim the tax credit, notify the applicant of the approval, denial, or missing information in their notice; and

(d) Within fifteen days of receipt of final documentation, review the documentation and notify the person applying of the acceptance of their final documentation.

(11) If a person fails to supply the information as required in subsection (8) of this section, the department must deny the application.

(12)(a) Taxpayers are only eligible for a credit under this section based on:

(i) Sales or leases of new commercial vehicles and qualifying used commercial vehicles with propulsion units that are principally powered by a clean alternative fuel; ~~((e))~~

(ii) Costs to modify a commercial vehicle, including sales of tangible personal property incorporated into the vehicle and labor or service expenses incurred in modifying the vehicle, to be principally powered by a clean alternative fuel; or

(iii) Sales of alternative fuel vehicle infrastructure or infrastructure components, or the cost of construction or installation of alternative fuel vehicle infrastructure.

(b) A credit is earned when the purchaser or the lessee takes receipt of the qualifying commercial vehicle or infrastructure-related item, the vehicle conversion is complete, or the construction or installation of the infrastructure is complete.

(13) A credit earned during one calendar year may be carried over to be credited against taxes incurred in the subsequent calendar year, but may not be carried over a second year.

(14)(a) Beginning November 25, 2015, and on the 25th of February, May, August, and November of each year thereafter, the department must notify the state treasurer of the amount of credits taken under this section as reported on returns filed with the department during the preceding calendar quarter ending on the last day of December, March, June, and September, respectively.

(b) On the last day of March, June, September, and December of each year, the state treasurer, based upon information provided by the department, must transfer a sum equal to the dollar amount of the credit provided under this section from the multimodal transportation account to the general fund.

(15) The department must conduct outreach to interested parties to obtain input on how best to streamline the application process required for the credit made available in this section and RCW 82.16.0496 to further adoption of alternative fuel technologies in commercial vehicle fleets, and must incorporate the findings resulting from this outreach effort into the rules and practices it adopts to

implement and administer this section and RCW 82.16.0496 to the extent permitted under law.

(16) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Alternative fuel vehicle infrastructure" means structures, machinery, and equipment necessary and integral to support a clean alternative fuel vehicle.

(b) "Auto transportation company" means any corporation or person owning, controlling, operating, or managing any motor propelled vehicle, used in the business of transporting persons for compensation over public highways within the state of Washington, between fixed points or over a regular route. For the purposes of this section, "auto transportation company" also includes the following categories of providers irrespective of whether they provide service between fixed points or over a regular route: "Private, nonprofit transportation provider" as defined in RCW 81.66.010, "charter party carrier" as defined in RCW 81.70.020, and paratransit service providers who primarily provide special needs transportation to individuals with disabilities and the elderly.

~~((b))~~ (c) "Clean alternative fuel" means electricity, dimethyl ether, hydrogen, methane, natural gas, liquefied natural gas, compressed natural gas, or propane.

~~((e))~~ (d) "Commercial vehicle" means any commercial vehicle that is purchased by a private business and that is used exclusively in the provision of commercial services or the transportation of commodities, merchandise, produce, refuse, freight, animals, or passengers, and that is displaying a Washington state license plate. All commercial vehicles that provide transportation to passengers must be operated by an auto transportation company.

~~((d))~~ (e) "Gross capitalized cost" means the agreed upon value of the commercial vehicle and including any other items a person pays over the lease term that are included in such cost.

~~((e))~~ (f) "Lease reduction factor" means the vehicle gross capitalized cost less the residual value, divided by the gross capitalized cost.

~~((f))~~ (g) "Qualifying used commercial vehicle" means vehicles that:

(i) Have an odometer reading of less than four hundred fifty thousand miles;

(ii) Are less than ten years past their original date of manufacture;

(iii) Were modified after the initial purchase with a United States environmental protection agency certified conversion that would allow the propulsion units to be principally powered by a clean alternative fuel; and

(iv) Are being sold for the first time after modification.

~~((g))~~ (h) "Residual value" means the lease-end value of the vehicle as determined by the lessor, at the end of the lease term included in the lease contract.

~~((16))~~ (17) Credits may be earned under this section from January 1, 2016, ~~((through January 1, 2021))~~ until the maximum total credit amount in subsection (1)(b) of this section is reached, except for credits for leased vehicles, which may be earned from July 1, 2016, ~~((through January 1, 2021))~~ until the maximum total credit amount in subsection (1)(b) of this section is reached.

~~((17) Credits earned under this section may not be used after January 1, 2022.~~

~~(18) This section expires January 1, 2022.)~~

NEW SECTION. Sec. 9. A new section is added to chapter 82.08 RCW to read as follows:

(1) Beginning August 1, 2019, with sales made or lease agreements signed on or after the qualification period start date:

(a) The tax levied by RCW 82.08.020 does not apply as provided in (b) of this subsection to sales or leases of new or used passenger cars, light duty trucks, and medium duty passenger vehicles that:

(i) Are exclusively powered by a clean alternative fuel; or

(ii) Use at least one method of propulsion that is capable of being reenergized by an external source of electricity and are capable of traveling at least thirty miles using only battery power; and

(iii)(A) Have a vehicle selling price plus trade-in property of like kind for purchased vehicles that:

(I) For a vehicle that is a new vehicle at the time of the purchase date or the date the lease agreement was signed, does not exceed forty-five thousand dollars; or

(II) For a vehicle that is a used vehicle at the time of the purchase date or the date the lease agreement was signed, does not exceed thirty thousand dollars; or

(B) Have a fair market value at the inception of the lease for leased vehicles that:

(I) For a vehicle that is a new vehicle at the time of the purchase date or the date the lease agreement was signed, does not exceed forty-five thousand dollars; or

(II) For a vehicle that is a used vehicle at the time of the purchase date or the date the lease agreement was signed, does not exceed thirty thousand dollars;

(b)(i) The exemption in this section is applicable for up to the amounts specified in (b)(ii) or (iii) of this subsection of:

(A) The total amount of the vehicle's selling price, for sales made; or

(B) The total lease payments made plus any additional selling price of the leased vehicle if the original lessee purchases the leased vehicle before the qualification period end date, for lease agreements signed.

(ii) Based on the purchase date or the date the lease agreement was signed of the vehicle if the vehicle is a new

vehicle at the time of the purchase date or the date the lease agreement was signed:

(A) From the qualification period start date until July 31, 2021, the maximum amount eligible under (b)(i) of this subsection is twenty-five thousand dollars;

(B) From August 1, 2021, until July 31, 2023, the maximum amount eligible under (b)(i) of this subsection is twenty thousand dollars;

(C) From August 1, 2023, until July 31, 2025, the maximum amount eligible under (b)(i) of this subsection is fifteen thousand dollars.

(iii) If the vehicle is a used vehicle at the time of the purchase date or the date the lease agreement was signed, the maximum amount eligible under (b)(i) of this subsection is sixteen thousand dollars.

(2) The seller must keep records necessary for the department to verify eligibility under this section. A person claiming the exemption must also submit itemized information to the department for all vehicles for which an exemption is claimed that must include the following: Vehicle make; vehicle model; model year; whether the vehicle has been sold or leased; date of sale or start date of lease; length of lease; sales price for purchased vehicles and fair market value at the inception of the lease for leased vehicles; and the total amount qualifying for the incentive claimed for each vehicle, in addition to the future monthly amount to be claimed for each leased vehicle. This information must be provided in a form and manner prescribed by the department.

(3)(a) The department of licensing must maintain and publish a list of all vehicle models qualifying for the tax exemptions under this section or section 10 of this act until the expiration date of this section, and is authorized to issue final rulings on vehicle model qualification for these criteria. A seller is not responsible for repayment of the tax exemption under this section and section 10 of this act for a vehicle if the department of licensing's published list of qualifying vehicle models on the purchase date or the date the lease agreement was signed includes the vehicle model and the department of licensing subsequently removes the vehicle model from the published list, and, if applicable, the vehicle meets the qualifying criterion under subsection (1)(a)(iii)(B) of this section and section 10(1)(a)(iii)(B) of this act.

(b) The department of revenue retains responsibility for determining whether a vehicle meets the applicable qualifying criterion under subsection (1)(a)(iii)(B) of this section and section 10(1)(a)(iii)(B) of this act.

(4) On the last day of January, April, July, and October of each year, the state treasurer, based upon information provided by the department, must transfer from the electric vehicle account to the general fund a sum equal to the dollar amount that would otherwise have been deposited into the general fund during the prior calendar quarter but for the exemption provided in this section. Information provided by the department to the state treasurer must be based on the best available data, except that the

department may provide estimates of taxes exempted under this section until such time as retailers are able to report such exempted amounts on their tax returns.

(5) By the last day of October 2019, and every six months thereafter until this section expires, based on the best available data, the department must report the following information to the transportation committees of the legislature: The cumulative number of vehicles that qualified for the exemption under this section and section 10 of this act by month of purchase or lease start and vehicle make and model; the dollar amount of all state retail sales and use taxes exempted on or after the qualification period start date, under this section and section 10 of this act; and estimates of the future costs of leased vehicles that qualified for the exemption under this section and section 10 of this act.

(6) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Clean alternative fuel" means natural gas, propane, hydrogen, or electricity, when used as a fuel in a motor vehicle that meets the California motor vehicle emission standards in Title 13 of the California Code of Regulations, effective January 1, 2019, and the rules of the Washington state department of ecology.

(b) "Fair market value" has the same meaning as "value of the article used" in RCW 82.12.010.

(c) "New vehicle" has the same meaning as "new motor vehicle" in RCW 46.04.358.

(d) "Qualification period end date" means August 1, 2025.

(e) "Qualification period start date" means the effective date of this section.

(f) "Used vehicle" has the same meaning as in RCW 46.04.660.

(7)(a) Sales of vehicles delivered to the buyer or leased vehicles for which the lease agreement was signed after the qualification period end date do not qualify for the exemption under this section.

(b) All leased vehicles that qualified for the exemption under this section before the qualification period end date must continue to receive the exemption as described under subsection (1)(b) of this section on any lease payments due through the remainder of the lease before the expiration date of this section.

(8) This section expires August 1, 2028.

(9) This section is supported by the revenues generated in section 23 of this act, and therefore takes effect only if section 23 of this act is enacted by June 30, 2019.

NEW SECTION. Sec. 10. A new section is added to chapter 82.12 RCW to read as follows:

(1) Beginning August 1, 2019, beginning with sales made or lease agreements signed on or after the qualification period start date:

(a) The provisions of this chapter do not apply as provided in (b) of this subsection in respect to the use of new or used passenger cars, light duty trucks, and medium duty passenger vehicles that:

(i) Are exclusively powered by a clean alternative fuel; or

(ii) Use at least one method of propulsion that is capable of being reenergized by an external source of electricity and are capable of traveling at least thirty miles using only battery power; and

(iii)(A) Have a fair market value at the time use tax is imposed for purchased vehicles that:

(I) For a vehicle that is a new vehicle at the time of the purchase date or the date the lease agreement was signed, does not exceed forty-five thousand dollars; or

(II) For a vehicle that is a used vehicle at the time of the purchase date or the date the lease agreement was signed, does not exceed thirty thousand dollars; or

(B) Have a fair market value at the inception of the lease for leased vehicles that:

(I) For a vehicle that is a new vehicle at the time of the purchase date or the date the lease agreement was signed, does not exceed forty-five thousand dollars; or

(II) For a vehicle that is a used vehicle at the time of the purchase date or the date the lease agreement was signed, does not exceed thirty thousand dollars;

(b)(i) The exemption in this section is only applicable for up to the amounts specified in (b)(ii) or (iii) of this subsection of:

(A) The total amount of the vehicle's purchase price, for sales made; or

(B) The total lease payments made plus any additional purchase price of the leased vehicle if the original lessee purchases the leased vehicle before the qualification period end date, for lease agreements signed.

(ii) Based on the purchase date or the date the lease agreement was signed of the vehicle if the vehicle is a new vehicle at the time of the purchase date or the date the lease agreement was signed:

(A) From the qualification period start date until July 31, 2021, the maximum amount eligible under (b)(i) of this subsection is twenty-five thousand dollars;

(B) From August 1, 2021, until July 31, 2023, the maximum amount eligible under (b)(i) of this subsection is twenty thousand dollars;

(C) From August 1, 2023, until July 31, 2025, the maximum amount eligible under (b)(i) of this subsection is fifteen thousand dollars.

(iii) If the vehicle is a used vehicle at the time of the purchase date or the date the lease agreement was signed, the maximum amount eligible under (b)(i) of this subsection is sixteen thousand dollars.

(2)(a) The seller must keep records necessary for the department to verify eligibility under this section, except as provided in (b) of this subsection. A person claiming the exemption must also submit itemized information to the department for all vehicles for which an exemption is claimed that must include the following: Vehicle make; vehicle model; model year; whether the vehicle has been sold or leased; date of sale or start date of lease; length of lease; fair market value of the vehicle; and the total amount qualifying for the incentive claimed for each vehicle, in addition to the future monthly amount to be claimed for each leased vehicle. This information must be provided in a form and manner prescribed by the department.

(b) (a) of this subsection applies only if the seller or person claiming the exemption is a vehicle dealer, as defined under RCW 46.70.011. When the seller is not a vehicle dealer, the department of licensing must establish a process for granting the tax exemption under this section for use tax otherwise collected at the time the ownership of a vehicle is transferred when the vehicle qualifies for the use tax exemption under subsection (1)(a) of this section, and must provide any information required under (a) of this subsection that it obtains as part of the vehicle titling and registration process for these vehicles to the department on at least a quarterly basis.

(3) On the last day of January, April, July, and October of each year, the state treasurer, based upon information provided by the department, must transfer from the electric vehicle account to the general fund a sum equal to the dollar amount that would otherwise have been deposited into the general fund during the prior calendar quarter but for the exemption provided in this section. NEW SECTION. Sec. 16. A new section is added to chapter 47.04 RCW to read as follows:

(1) Subject to the availability of amounts appropriated for this specific purpose through the 2023-2025 biennium, the department's public-private partnership office must develop a pilot program to support clean alternative fuel car sharing programs to provide clean alternative fuel vehicle use opportunities to underserved communities and low to moderate income members of the workforce not readily served by transit or located in transportation corridors with emissions that exceed federal or state emissions standards. Nonprofit organizations or local governments, including housing authorities, with a demonstrated history of managing or implementing low-income transportation clean alternative fuel and shared mobility pilot programs are eligible to participate in this program.

(2) The department must determine specific eligibility criteria, based on the requirements of this section, the report submitted to the legislature by the Puget Sound clean air agency entitled facilitating low-income utilization of electric vehicles, and other factors relevant to increasing clean alternative fuel vehicle use in underserved and low to moderate income communities. The department may adopt rules specifying the eligibility criteria it selects.

(3) The department may conduct preliminary workshops with potential bidders and other potential partners to determine the best method of designing the pilot program.

(4) The department must include the following elements in its proposal evaluation and scoring methodology: History of successful management of equity focused clean alternative fuel vehicle projects; substantial level of involvement from community-based, equity focused organizations in the project; plan for long-term financial sustainability of the work beyond the duration of the grant period; matching resources leveraged for the project; and geographical diversity of the projects selected.

(b) At the termination of a program for providing alternative fuel car sharing services, the state must be reimbursed for any property acquired with state grant funding under this section that nongovernmental participants in the program retain at the time of program termination. The amount of reimbursement may under no circumstances be less than the fair market value of the property at the time of the termination of the program.

NEW SECTION. Sec. 17. (1) Subject to the availability of amounts appropriated for this specific purpose, the department of commerce must conduct a study to identify opportunities to reduce barriers to battery and fuel cell electric vehicle adoption by lower income residents of the state through the use of vehicle and infrastructure financing assistance. The study must include an assessment of opportunities to work with nonprofit lenders to facilitate vehicle purchases through the use of loan-loss reserves and rate buy downs by qualified borrowers purchasing battery and fuel cell electric vehicles that are eligible for the tax exemptions under sections 9 and 10 of this act, and may address additional financing assistance opportunities identified. The study must focus on potential borrowers who are at or below eighty percent of the state median household income. The study may also address any additional opportunities identified to increase electric vehicle adoption by lower income residents of the state.

(2) The department of commerce must provide a report detailing the findings of this study to the transportation committees of the legislature by June 30, 2020, and may contract with a consultant on all or a portion of the study.

NEW SECTION. Sec. 20. This section is the tax preference performance statement for the tax preferences contained in sections 21 and 22, chapter . . . , Laws of 2019 (sections 21 and 22 of this act). The performance statement is only intended to be used for subsequent evaluation of the tax preference. It is not intended to create a private right of action by any party or be used to determine eligibility for preferential tax treatment.

(1) The legislature categorizes the tax preferences as ones intended to induce certain designated behavior by taxpayers, as indicated in RCW 82.32.808(2)(a).

(2) It is the legislature's specific public policy objective to increase the use of electric vessels in Washington. It is the legislature's intent to establish a sales and use tax exemption on certain electric vessels in order to reduce the price charged to customers for electric vessels.

(3) To measure the effectiveness of the tax preferences in sections 21 and 22, chapter . . . , Laws of 2019 (sections 21 and 22 of this act) in achieving the public policy objectives described in subsection (2) of this section, the joint legislative audit and review committee must evaluate the number of electric vessels titled in the state.

(4) In order to obtain the data necessary to perform the review in subsection (3) of this section, the department of licensing and the department of revenue must provide data needed for the joint legislative audit and review committee analysis. In addition to the data source described under this subsection, the joint legislative audit and review committee may use any other data it deems necessary.

NEW SECTION. Sec. 21. A new section is added to chapter 82.08 RCW to read as follows:

(1) The tax imposed by RCW 82.08.020 does not apply to:

(a) The sale of new battery-powered electric marine propulsion systems with continuous power greater than fifteen kilowatts.

(b) The sale of new vessels equipped with propulsion systems that qualify under (a) of this subsection.

(2) Sellers may make tax exempt sales under this section only if the buyer provides the seller with an exemption certificate in a form and manner prescribed by the department. The seller must retain a copy of the certificate for the seller's files.

(3) On the last day of January, April, July, and October of each year, the state treasurer, based upon information provided by the department, must transfer from the multimodal transportation account to the general fund a sum equal to the dollar amount that would otherwise have been deposited into the general fund during the prior calendar quarter but for the exemption provided in this section. Information provided by the department to the state treasurer must be based on the best available data, except that the department may provide estimates of taxes exempted under this section until such time as retailers are able to report such exempted amounts on their tax returns.

(4) For the purposes of this section:

(a) "Battery-powered electric marine propulsion system" means a fully electric outboard or inboard motor used by vessels, the sole source of propulsive power of which is the energy stored in the battery packs. The term includes required accessories, such as throttles, displays, and battery packs; and

(b) "Vessel" includes every watercraft, other than a seaplane, used or capable of being used as a means of transportation on the water.

(5) This section expires July 1, 2025.

NEW SECTION. Sec. 22. A new section is added to chapter 82.12 RCW to read as follows:

(1) The tax imposed by RCW 82.12.020 does not apply to the use of:

(a) New battery-powered electric marine propulsion systems with continuous power greater than fifteen kilowatts; and

(b) New vessels equipped with propulsion systems that qualify under (a) of this subsection.

(2) Sellers may make tax exempt sales under this section only if the buyer provides the seller with an exemption certificate in a form and manner prescribed by the department. The seller must retain a copy of the certificate for the seller's files.

(3) On the last day of January, April, July, and October of each year, the state treasurer, based upon information provided by the department, must transfer from the multimodal transportation account to the general fund a sum equal to the dollar amount that would otherwise have been deposited into the general fund during the prior calendar quarter but for the exemption provided in this section. Information provided by the department to the state treasurer must be based on the best available data, except that the department may provide estimates of taxes exempted under this section until such time as retailers are able to report such exempted amounts on their tax returns.

(4) For the purposes of this section, "battery-powered electric marine propulsion system" and "vessel" have the same meanings as provided in section 22 of this act.

(5) This section expires July 1, 2025.

NEW SECTION. Sec. 23. A new section is added to chapter 46.17 RCW to read as follows:

To realize the environmental benefits of electrification of the transportation system it is necessary to support the adoption of electric vehicles and other electric technology in the state by incentivizing the purchase of these vehicles, building out the charging infrastructure, developing greener transit options, and supporting clean alternative fuel infrastructure. Therefore, it is the intent of the legislature to support these activities through the imposition of new transportation electrification fees in this section.

(1) A vehicle that both (a) uses at least one method of propulsion that is capable of being reenergized by an external source of electricity and (b) is capable of traveling at least thirty miles using only battery power, is subject to an annual seventy-five dollar transportation electrification fee to be collected by the department, county auditor, or other agent or subagent appointed by the director, in addition to any other fees and taxes required by law. For administrative efficiencies, the transportation electrification fee must be collected at the same time as vehicle registration renewals and may only be collected for vehicles that are renewing an annual vehicle registration.

(2) Beginning October 1, 2019, in lieu of the fee in subsection (1) of this section for a hybrid or alternative fuel vehicle that is not required to pay the fees established in RCW 46.17.323 (1) and (4), the department, county auditor, or other agent or subagent appointed by the director must require that the applicant for the annual vehicle registration renewal of such hybrid or alternative fuel vehicle pay a seventy-five dollar hybrid vehicle transportation electrification fee, in addition to any other fees and taxes required by law.

(3) The fees required under this section must be deposited in the electric vehicle account created in RCW

82.44.200, until July 1, 2025, when the fee must be deposited in the motor vehicle account.

(4) This section only applies to a vehicle that is designed to have the capability to drive at a speed of more than thirty-five miles per hour.

NEW SECTION. Sec. 24. Sections 1 through 7, 12, and 14 through 23 of this act take effect August 1, 2019.

NEW SECTION. Sec. 25. Sections 8 and 13 of this act take effect January 1, 2020."

Representative Dufault, 15th District

MESSAGE FROM THE SENATE

April 28, 2019

Mr. Speaker:

The Senate has passed SUBSTITUTE HOUSE BILL NO. 1326 with the following amendment:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. This act may be known and cited as Jennifer and Michella's law.

NEW SECTION. Sec. 2. The legislature finds that the state of Washington has for decades routinely required collection of DNA biological samples from certain convicted offenders and persons required to register as sex and kidnapping offenders. The resulting DNA data has proven to be an invaluable component of forensic evidence analysis. Not only have DNA matches focused law enforcement efforts and resources on productive leads, assisted in the expeditious conviction of guilty persons, and provided identification of recidivist and cold case offenders, DNA analysis has also played a crucial role in absolving wrongly suspected and convicted persons and in providing resolution to those who have tragically suffered unimaginable harm.

In an effort to solve cold cases and unsolved crimes, to provide closure to victims and their family members, and to support efforts to exonerate the wrongly accused or convicted, the legislature finds that procedural improvements and measured expansions to the collection and analysis of lawfully obtained DNA biological samples are both appropriate and necessary.

Sec. 3. RCW 43.43.754 and 2017 c 272 s 4 are each amended to read as follows:

(1) A biological sample must be collected for purposes of DNA identification analysis from:

(a) Every adult or juvenile individual convicted of a felony, or any of the following crimes (or equivalent juvenile offenses):

(i) Assault in the fourth degree where domestic violence as defined in RCW 9.94A.030 was pleaded and proven (RCW 9A.36.041, 9.94A.030);

(ii) Assault in the fourth degree with sexual motivation (RCW 9A.36.041, 9.94A.835);

(iii) Communication with a minor for immoral purposes (RCW 9.68A.090);

(iv) Custodial sexual misconduct in the second degree (RCW 9A.44.170);

(v) Failure to register (~~(((RCW 9A.44.130 for persons convicted on or before June 10, 2010, and RCW 9A.44.132 for persons convicted after June 10, 2010))) chapter 9A.44 RCW~~);

(vi) Harassment (RCW 9A.46.020);

(vii) Patronizing a prostitute (RCW 9A.88.110);

(viii) Sexual misconduct with a minor in the second degree (RCW 9A.44.096);

(ix) Stalking (RCW 9A.46.110);

(x) Indecent exposure (RCW 9A.88.010);

(xi) Violation of a sexual assault protection order granted under chapter 7.90 RCW; and

(b) Every adult or juvenile individual who is required to register under RCW 9A.44.130.

(2)(a) A municipal jurisdiction may also submit any biological sample to the laboratory services bureau of the Washington state patrol for purposes of DNA identification analysis when:

(i) The sample was collected from a defendant upon conviction for a municipal offense where the underlying ordinance does not adopt the relevant state statute by reference but the offense is otherwise equivalent to an offense in subsection (1)(a) of this section;

(ii) The equivalent offense in subsection (1)(a) of this section was an offense for which collection of a biological sample was required under this section at the time of the conviction; and

(iii) The sample was collected on or after June 12, 2008, and before January 1, 2020.

(b) When submitting a biological sample under this subsection, the municipal jurisdiction must include a signed affidavit from the municipal prosecuting authority of the jurisdiction in which the conviction occurred specifying the state crime to which the municipal offense is equivalent.

(3) Law enforcement may submit to the forensic laboratory services bureau of the Washington state patrol, for purposes of DNA identification analysis, any lawfully obtained biological sample within its control from a deceased offender who was previously convicted of an

offense under subsection (1)(a) of this section, regardless of the date of conviction.

(4) If the Washington state patrol crime laboratory already has a DNA sample from an individual for a qualifying offense, a subsequent submission is not required to be submitted.

~~((3))~~ (5) Biological samples shall be collected in the following manner:

(a) For persons convicted of any offense listed in subsection (1)(a) of this section or adjudicated guilty of an equivalent juvenile offense, who do not serve a term of confinement in a department of corrections facility or a department of children, youth, and families facility, and ~~((do not serve))~~ are serving a term of confinement in a city or county jail facility, the city or county jail facility shall be responsible for obtaining the biological samples.

(b) The local police department or sheriff's office shall be responsible for obtaining the biological samples for:

(i) Persons convicted of any offense listed in subsection (1)(a) of this section or adjudicated guilty of an equivalent juvenile offense, who do not serve a term of confinement in a department of corrections facility, ~~((and do not serve a term of confinement in))~~ department of children, youth, and families facility, or a city or county jail facility; and

(ii) Persons who are required to register under RCW 9A.44.130.

(c) For persons convicted of any offense listed in subsection (1)(a) of this section or adjudicated guilty of an equivalent juvenile offense, who are serving or who are to serve a term of confinement in a department of corrections facility or a department of ~~((social and health services))~~ children, youth, and families facility, the facility holding the person shall be responsible for obtaining the biological samples as part of the intake process. If the facility did not collect the biological sample during the intake process, then the facility shall collect the biological sample as soon as is practicable. For those persons incarcerated before June 12, 2008, who have not yet had a biological sample collected, priority shall be given to those persons who will be released the soonest.

~~((4))~~ (6) For persons convicted of any offense listed in subsection (1)(a) of this section or adjudicated guilty of an equivalent juvenile offense, who will not serve a term of confinement, the court shall order the person to report to the local police department or sheriff's office as provided under subsection (5)(b)(i) of this section within a reasonable period of time established by the court in order to provide a biological sample. The court must further inform the person that refusal to provide a biological sample is a gross misdemeanor under this section.

(7) Any biological sample taken pursuant to RCW 43.43.752 through 43.43.758 may be retained by the forensic laboratory services bureau, and shall be used solely for the purpose of providing DNA or other tests for identification analysis and prosecution of a criminal offense or for the identification of human remains or missing persons. Nothing

in this section prohibits the submission of results derived from the biological samples to the federal bureau of investigation combined DNA index system.

~~((5))~~ (8) The forensic laboratory services bureau of the Washington state patrol is responsible for testing performed on all biological samples that are collected under ~~((subsection (1) of))~~ this section, to the extent allowed by funding available for this purpose. ~~((The director shall give priority to testing on samples collected from those adults or juveniles convicted of a felony or adjudicated guilty of an equivalent juvenile offense that is defined as a sex offense or a violent offense in RCW 9.94A.030.))~~ Known duplicate samples may be excluded from testing unless testing is deemed necessary or advisable by the director.

(d) All samples submitted under subsections (2) and (3) of this section.

~~((7))~~ (10) This section creates no rights in a third person. No cause of action may be brought based upon the noncollection or nonanalysis or the delayed collection or analysis of a biological sample authorized to be taken under RCW 43.43.752 through 43.43.758.

~~((8))~~ (11) The detention, arrest, or conviction of a person based upon a database match or database information is not invalidated if it is determined that the sample was obtained or placed in the database by mistake, or if the conviction or juvenile adjudication that resulted in the collection of the biological sample was subsequently vacated or otherwise altered in any future proceeding including but not limited to posttrial or postfact-finding motions, appeals, or collateral attacks. No cause of action may be brought against the state based upon the analysis of a biological sample authorized to be taken pursuant to a municipal ordinance if the conviction or adjudication that resulted in the collection of the biological sample was subsequently vacated or otherwise altered in any future proceeding including, but not limited to, posttrial or postfact-finding motions, appeals, or collateral attacks.

~~((9))~~ (12) A person commits the crime of refusal to provide DNA if the person ~~((has a duty to register under RCW 9A.44.130 and the person))~~ willfully refuses to comply with a legal request for a DNA sample as required

REMARKS

Representative Wilcox: Thank you, Mr. Speaker. Mr. Speaker, would you gavel him? And maybe him. Mr. Speaker, this is an historic night. Historic in many ways, I suppose. I was fortunate enough to spend a half an hour with Speaker Chopp earlier tonight and even more fortunate to spend a session, a very eventful session, as the Minority Leader with a person who has made an immense amount of history in our state. I'm so glad that his family is here because I know that family is a critical component for Speaker Chopp. We've talked about that. He's told me about his childhood. The son of immigrants. Someone who grew up in a family that works hard. I think that one of the things that I appreciate about the Speaker is something that we have in common. We grew up around people that worked hard, still know how to work, and have an immense amount of reverence for everyone among us who value work, who value families, and also have place in their heart for those who are less fortunate. Maybe those who don't have a community and don't have a family and one thing that is, I think, very unique about Frank, if I can call you that, is that not only does he value those things, but he's spent his entire

life, whether it was here in the chamber or his life in the community, in trying to provide those things – family and community – for those who had no other way of providing those for themselves.

One of my oldest friends, former Representative and Senator Mark Doumit, served with Frank from the very beginning. I think Frank was elected to the House two years before Senator Doumit, and I called up Mark on my way here today and asked him if he could share a few stories. I'm not sure I can share any of those, but he asked me to remember what he thought was Frank's most lasting achievement and that is the idea of One Washington. It's one of those achievements that both sides offer. You hear us talking about, on this side, 'One Washington' all the time. Mark asked me to be sure to mention Representative Bill Grant who was instrumental in helping people understand that Washington is the Puget Sound area, the rest of Western Washington and all of Eastern Washington as well, and said that that was a wonderful friendship and he wanted me to be sure to remember Bill Grant and the partnership that he and Frank had.

I've mentioned to a few of you that Frank came out to my home on the farm when I first became Minority Leader. I don't think a lot of people would have done that. He just called up, asked if he could do that and spent just about a whole day with my family. They were deeply honored to have someone as accomplished, as prominent and historic as Frank. We had lunch together and that's where I found out just how much we have in common as families, and an amazing amount of moral and personal convictions in common.

I had a great experience with Frank. Oh, I also forgot to include one little piece of advice that Frank shared with me. He shared a lot of advice, actually, but he did say something about the fact that he had had a great experience at Toastmasters, and he suggested that maybe Toastmasters would be good for me, and I can see from some of his experiences out here on the floor that it was a remarkable thing for him. I had fun with Frank, probably one of the first conversations that I had with him, at the Burke Museum dedication a few years ago and he gave kind of a surprising speech. He got up there and was very eloquent, kind of a stem-winder actually, and all he talked about was the taxpayers. And I was cheering him on, and he came down, we had a little nod of other lawmakers there, and said, "That one was for you, Wilcox." So, thanks for that, Frank.

It's going to be strange having you here as a regular member and I hope that you do that for a long time. We're already thinking of some, I think, really valuable ideas that we could collaborate with you on. You know, there are some license plates that haven't been proposed yet. We thought that you might enjoy some cozy meetings with reporters and maybe even some press conferences and, you know, we don't have a state reptile yet, so now that you've kind of broken the ice with passing bills, I bet we would support you on quite a few of those. You know, this is also a state that has become fairly well known for the reintroduction of formerly native species and so we thought that if you came back and sat with Representative Kretz, maybe he could reintroduce you to the chamber here as a regular member. Now there is another suggestion and that would be that you

replace me as being the person that sits next to Richard DeBolt and he can be your mentor.

Well, I also have a little bit of advice for the next Speaker. I don't know who that's going to be. It's going to be, honestly, hard to follow Frank, and so I've got another piece of advice for that Speaker. For God sake's, don't put him next to Richard. In all seriousness, I've said it before, many times, and I'll say it again: Frank, I and every member of this caucus admire you. You're a piece of history. We have two real political epochs here in Washington and they were dominated by first, Governor Evans, and later by Speaker Frank Chopp. It will be many years before anybody can hope to match that. Your contributions to the institution and the state will be felt for generations by people in every corner of the state. Frank, on behalf of our caucus now and the caucuses from the past, thank you very much. We appreciate you.

Representative Kirby: Thank you, Mr. Speaker. I imagine the gentleman to your right might be a little afraid right now. You might notice I'm not wearing, you know, a lot of these people brought mustaches- I brought my own from home, thank you very much. Yesterday when Frank's Chief of Staff Orlando took me aside and said "Hey, I need you to stand up" and maybe, it looks to me like maybe he wants me to eulogize Frank, and that's kind of scary, kind of feels that way, but it's really not Frank, it's his Speakership that we're eulogizing. I thought about it, it's a lot of responsibility and, of course, we were here all day and all night, I got home this morning at 4:30 in the morning. I fell asleep and darned if I didn't have a dream about it. I dreamed that I died and went to Heaven and when I got there, I was kind of getting my orientation, but I looked over and there's Frank Chopp and he was sitting over there, he was meeting with people and he was kind of waiving his hands and doing, you know, we've all seen him at work, and so I said to the guy next to me, I said "Hey, last I checked, Frank Chopp was alive and well and living, you know, in Seattle and you know." "Oh, no problem, that's not Frank Chopp, that just God - he thinks he's Frank Chopp." So, I think that Orlando was expecting that I'd maybe say some things that are funny, but the fact is that most of my interactions with Frank have not been funny at all. The conversations that I've had have pretty much been such that I can't repeat them out loud, at least not until a few more people die.

We actually got off to kind of a rocky start. Frank, unlike a lot of people over here, Frank didn't recruit me to run for this office. I kind of came in as sort of a free agent off the street. I remember, I went to my consultant at the time and I thought yeah, after I'd won the election, I thought, huh, I better start getting ready to hold office. So I said, "By the way, who's the Speaker now?" and he said "Frank Chopp," and I looked at him and I said "Who the hell is Frank Chopp?" Nineteen years ago, that was a valid question. It really, it was, because he was still kind of new at this kind of work but over time we've learned to get to know each other. It started, you know back then, he was the Co-Speaker with Clyde Ballard and, by the way, Orlando was his Legislative Assistant - I think he was about 15 at the time, and it took me a good three weeks before I finally got on his bad side enough to where I didn't just get the tap on the shoulder - the Speaker wants to see you - no, I was in a different kind of

trouble. He wanted to take me to lunch. So, I don't know, he got it in his mind he wants to go take me to lunch and straighten me out. Orlando's car was closest so we got in his car and we started heading for downtown and Orlando was driving and all of a sudden he pulled over. "Well what's the deal?" Frank said, "I think my blinkers, I think my turn signals aren't working," said Orlando. So Frank said, "That's ok, I'll tell you what - do your turn signals and I'll get out and I'll tell you if they're working or not." So he got out and Orlando stood behind the car and put on the turn signal and Frank was back there "It's working...it's not working...it's working...it's not working." And, you know, again, we didn't know each other very well but that told me pretty much everything I needed to know about Frank Chopp.

Over the years, we've gotten to know each other pretty well. I like to think that we're friends. We support each other. We're 100%. I can walk into his office any time I want. He's got two gatekeepers there, not just one like all the rest of us. I mean, I can just walk in there anytime I want and I'm going to tell you now, everybody in this room, I'm going to tell everybody what my secret is. Probably eight or ten years ago, Frank and I were meeting in my district and, I don't know how many of you know this, but Frank kind of does things old school. A lot of people, many of the young people in this place every time you have a conversation they'll pull out their phone and they'll take notes on their phone. Frank's got a pocket full of paper. I bet he's got a pocket full of paper right now. That's right, and then he'll write down things. He'll write himself notes and go back and refer to them. Well, we were talking about something, I don't even remember what, and he said "You know if that's ever a problem again, you come and see me directly. You come talk to me directly. You just come see me." "Frank," I said "that's a whole lot easier said than done. You know that, don't you? You can't just walk in to your office and see you any time you want." He was like "Oh wh.." the hands started moving. So he pulled out one of those white pieces of paper, this white piece of paper right here that I'm holding in my hand, and he wrote on it and I'm sure he doesn't know that I still have it, okay he knows, and it simply says, Let Steve in, then it's signed, Frank Chopp. I don't think anybody else in here has one of those, so I'm pretty proud of that. Now I will say that after today, you know, one might think that this just becomes a useless piece of paper, but Mr. Speaker, I'm keeping it, and I'll tell you why. I've known a lot of Speakers of the House in my time. I've been doing this kind of work a really long time. Many of you've heard me say I've watched the Sonics on television back in that corner office win the championship in 1979. I've been roaming these halls for a lot longer than people know. Speakers come and go. Only one has gone to prison, that I know, but they do, they come and go. Sorry, that really, that wasn't part of the script, I don't know, it just came to me. Okay, just for that, I'm going to tell you. You know one other thing, some of you who have been here a long time remember the time I stood here on the floor of the house and gave a floor speech and Frank Chopp was presiding and he gaveled me down five times. Five times, and yet he still let me finish my speech. He really liked that bill that I was talking about. But let me just say this: Like I said, I've known a lot of Speakers of the House, I've known hundreds

of elected officials, hundreds. I've seen just so many people come and go, and I'm here to tell everybody in this room, and I tell everybody who will listen, and many of you have heard me say this before, but guys like Frank Chopp only come around every now and then and I am lucky to be here at the time that he happened to be the Speaker of the House. We all are, he's that good. So I'm going to keep this little piece of paper because I think it's going to come in handy someday. I think that Frank's legacy is more than he knows, more than a lot of us know, and I think I'm going to be pulling this out some day and showing it to my grandchildren and I going to tell them that I served with the legendary Speaker Frank Chopp, and I'm going to tell them a few stories, but don't worry, Frank, I'll wait until the statute of limitations has passed before I do any of that. Thank you, Mr. Speaker, it's going to be nice to have Frank back here as a mere mortal with all the rest of us.

Representative DeBolt: Thank you Mr. Speaker. Mr. Speaker, one of the things that I wanted to talk about tonight is, you know we had this standup comedian, so that's been done, and the heartfelt thing, so that's been done, so I'm going to drive right up the middle here, Mr. Speaker.

I've known this Frank Chopp for a while and it's been, I view it as kind of Ralphie and the Sheepdog. Do you guys remember this with the cartoon where they go beat the hell out of each other, oops sorry, that works okay Frank, doesn't it? Alright, they go beat each other up and then at the end of the day they click their cards and they go "You wanna go get a beer?" "Yea, let's go get a beer." And I will tell you what, there has been no speaker that's been stronger, and I remember I used to hatch these plans and you know these plans: I'm gonna get him on the budget this time, I'm gonna go rally up some support, I'm gonna get these people, we're gonna work all night and we're gonna draft the budget and we're gonna beat him. And I remember we were in the people's portable – you remember the people's portable? Yes. We're in the people's portable and I had you this time, right? I had like four of your members, they were going to join me in a budget switch and I was gonna, I was gonna win, right? All of a sudden, here comes Frank and he comes out, points to one of them, they disappear for like 20 minutes, he walks out and goes (makes a gesture) sits down, Frank points to the next one, they go away for about 20 minutes they come out and they go (makes a gesture) about that time I realize, Okay, next plot, we'll keep trying. Now, you know, as a young leader it was really interesting to watch, and member control has been one of those things that is always a challenge and member management. And we, back in the people's portable, we were in some close quarters, and the walls were very thin and sometimes Frank gets animated and our walls were connected and I'm not saying that I had a glass up against the wall trying to figure out what was happening that day but, because I didn't have to because he was very loud and there's this little vent that went between the two of us.

The one thing we learned when we came in to this legislature with the tie, and it was grace. We learned grace. You had two completely different leaders that were Co-Speakers. They had that silly gavel with the two sticks coming out of it – it was odd, but it worked and it taught me, watching Speaker Chopp and Clyde Ballard, what grace was,

and forgiveness, but also, what tactical maneuvering was and you guys would maneuver and maneuver and tactical and tactical to death, but it taught me a ton and so I always tried, and I always thought I'd be successful at one thing, surely one day, I will get one vote where I can go "YES! I got him!" I never did.

As one of the longest serving Speakers in history, I will tell you this: the institution as we know it today, has changed and evolved and we don't have to always have to disagree but we do know that Washington State is better for a lot of the programs you've created. It's better because Washington State has caring people that are working hard to make it a better place to live. Now I think about what's next because after being leader, I went to Capital Budget, and I can't wait to see Frank Chopp on Capital Budget – housing will be like four billion dollars. Education gets \$25, salmon gets \$25 and, you know, housing will be the thing. But I got to tell you, I was talking to Nancy and we were talking about what comes next and I know she's happy to have you back and I know what this takes out of you, sometimes. And I will tell you, you came in as a good legislator, you were a great Speaker, now you get to go be a great legislator. You've created a legacy I think of interest in politics that young people can learn from and they can watch you and see how you manage things. Now I will say, to my credit, I won a lot of seats against you cause I came from 38 to 46 – just want to throw that out there. I've waited years for that. I mean really, I feel good about myself right now.

But your compassion and kindness, and I will tell you just like Steve, you always let me in when I needed to come in. You'd always have the snack for me. You'd also come over and visit and we would get to go out and we'd get to have some cocktails and we'd get to have some food and we'd break bread together and you can never be enemies with anybody if you break bread with them – you've said that actually – and you were always going to roast a goat for me and you never have so that's something you can focus on when you have so much extra time, because I'm willing.

I will tell you, the last thing I think it's important to understand about Frank Chopp - You guys have heard my stories so I don't have to tell it again, but he went to great lengths to make sure that I'm standing here today. I will never forget what you did to help me and it was very very important to my wife and my family that you got me to a person that could take care of me who told me that they couldn't see me for six months and then they were like "This guy named Frank Chopp called and come, you have an appointment tomorrow" and I'm like "Okay," and they realized what had happened and it's because of you though, that I had my surgery, got healthy, I'm still standing here today, gave you 175 million in housing - didn't bat an eye - and that's the kind of person you are because at any point in your life you could have said "that guy's been a pain in my...side for a long time" and you never did. You were always gracious and even when I was out here trying to figure out what I was going to do with myself and I would come in and talk to you, you always offered me warm advice and you'd always tell me that I was good at what I did and you didn't have to do any of that, and that's just the kind of man you are and my hat's off to you, and I can't wait to sit with you and make their lives miserable. Thank you, Mr. Speaker.

Representative Davis: “Thank you Mr. Speaker. Mr. Speaker, permission to read please? When I first met Frank Chopp, it was six years ago, who he was to our state I did not know. We were at a house party, it was a political bash, someone said there’s the Speaker, the one with the mustache. I introduced myself, said behavioral health is what I do, “That’s terrific!” he replied, I have a job for you. It’s about mental health, there’s a taskforce I run, they advise us on policy, come join us it’s fun. What could I say, but an enthusiastic yes, it was an honor to learn from, nothing less than the best. A few years later, Ricky’s law passed this floor, I was at a conference for work, so happy I could soar. I received a call on my phone from a number I didn’t know, I ignored the call, waited for voicemail to show. We passed Ricky’s law, across my screen a text came, Congratulations and thank you, signed with just his first name. To Frank all people are important, each one special in his eyes, he gives generously of his time he is humble and wise. Throughout the years, we’ve partnered on many a task, when I reflect on our speaker it’s the same questions I ask. Who is this man who uses his power for good, who when others say no, he says we can and we should? How can just one person have done so much right? How can one human heart hold so much light? There are two lessons I’ve learned throughout the course of it all: Always meet the man with the mustache and always take his call. From the day we first met, he fiercely believed in me, he saw something there that I could not see. He has given me the world and though I can never repay, I will always pay it forward until my dying day. His legacy in our state crafted here under this dome, is sewn on the hearts of men who now have a place to call home. It is heard in the voices of mothers whose children are ill, but who have healthcare today and get better they will. It is written on the faces of workers who now earn a living wage, who have paid family leave and long term care when they age. It lives on in the hopes of students who have a thirst for knowledge, whether low income or a dreamer, they can now go to college. Frank, your mark on this place, nothing on earth can sever, You are truly a gift because of you we are better.”

Representative Maycumber: “Thank you, Mr. Speaker, Speaker. I’m truly humbled to be asked to stand up and speak. As a new member I’m unworthy to stand here and speak to you. I started in the 2009 session and you were bigger than life. We would catch glimpses of you if something went wrong. I even worked in this building and I think that when we would talk about seeing you and it was a pretty big deal. Frank is out on the floor. I became a member and I was appointed and I told my new assistant the only thing you need to do, don’t worry about getting signed into the computer or answer any phone calls, you get me an appointment with the Speaker. Now she had been the Secretary of State’s assistant and she laughed and she said “That will never happen, you newly appointed legislator.” What I had not known is that I had written a policy about housing and Thursday at 1:00 pm she said, “the Speaker wants to see you” and I went down to his office and he said “What do you want?” And I said “I’m a newly appointed legislator. I want and need nothing, I just want to introduce myself.” And then, he showed me that he could cuss which I really liked, and he said “You’ve got a little bill here we

need to work out.” And from that moment on, you have proven that you have put people above politics. You have helped me in not just policy, but guidance and help and you have not cared what name or what political party we were from, and I appreciate every moment that you have helped and offered advice and assisted and it didn’t matter if we were Republicans or Democrats and I appreciate you for that, and many of us do over here. Thank you so much for everything that you have done and I am excited to sit next to you in Capital Budget in the front row.

Representative Cody: Thank you, Mr. Speaker, and you might want to hand the gavel back to him and don’t worry Frank, you know me well enough to know I’m not going to get sappy about this, but you do have reason to worry. Frank, we have served together for the last 25 sessions. We’re wrapping up the, we’re almost there - midnight, the 25th session, and I have more than a few stories that I could tell about the Speaker. Some of which I probably could get in great trouble for and some that I can’t say on TVW. But in thinking about this night, I was really trying to decide what I should talk about. I thought about the time that you, we actually won the bet, I had a bet with the Republican caucus and Richard was supposed to shave his head if they lost and Frank was supposed to shave his mustache, and he did, even though we won. And then I also thought about the lamb roast, and the dance, and procession that we had to do at one of the advances that we had a Croatian lamb roast and that was probably the loosest I think I’ve ever seen Frank in 25 years, was that night. But the one that I really wanted to talk about is the showing of leadership that you did on the day of the Nisqually earthquake. I don’t know whether you’ll remember, but we were in his office, the corner office, and at that point, we were on this side, and we were in the tie and there was a group of us and 2001 was a bad fiscal year, you know as if every year isn’t a bad fiscal year. But that one was particularly bad and we were in having a discussion about the budget and it was with Bill Grant was in there and Helen Sommers. Phyllis Kenney was the chair of Higher Ed and Lynn, I believe, Kessler was in and we had just got done. Helen, of course, never cut Higher Ed, that was like the holy grail for her, and we had just finished a discussion about how we thought we were going to have to cut Higher Ed and there was this rumbling noise and then we were all just looking around at each other and we realized, and somebody yells “EARTHQUAKE!” and, you know, people dive underneath the table and we get into the doorway and Bill Grant is holding up the bookcase – that’s the other thing I remember about that – but after it stopped, we all were kind of stunned and we looked around and then Frank goes “EVERYBODY OUT!” And he tears out of the office, and we never saw him again. He was so far gone, and that was real leadership, I’m telling ya. So that’s my memory of Frank’s leadership, and it always surprises me when I hear people saying they wanted to go into your office because I always figured that you wanted to avoid that damned office ‘cause it costs you every time you go in. But with that said, I, actually it was pointed out to me that you’re not dead and you’re not leaving the legislature, so we really don’t have to get sappy about this. So, I wanted to congratulate you on passing your first bill after 25 years. I thought that was another thing that we should give you

credit for, and because you've learned this year, I'm looking forward to you actually serving on Health Care next year so I can finally tell you what to do in the committee. I'll look forward to that, Frank."

Senator Walsh: "I'm sitting, officially, in the Walsh seat, I want to point that out, and I also want to thank your security guys for being so nice to indulge me to do this but I would have been very remiss not to give a few comments about the best Speaker we've ever had in the history of Washington State and I'm extremely fond of this man. I've known him for 27 years. My seatmate, Bill Grant, was his caucus chair for many years, you guys had the dream team – Lyn Kessler, Eric Pettigrew, Speaker Chopp, Sharon Tomiko Santos. You guys rocked this world when I was here, and I just want to tell you, Frank, how much respect I have for you. I know your heart is huge. Any time you would speak about your family, you get a little verklempt, Mr. Speaker, and rightfully so, and I just want to tell you how much I admire you, how much I love you, and I just want to wish you all the best. Thank you, Frank."

Representative Kretz: "Thank you Mr. Speaker. It's nice to see all the mustaches on the floor tonight. I wish somebody would give one to Fitzgibbons because he's spent most of the session trying to get (makes a motion).

The first time I met Frank was about my first, second night in Olympia, I guess. I didn't know much, I didn't know who was who and they had an informal freshman dinner. Don't even remember where it was but they seated me with Frank and I had no idea – he said "Hey, I'm Frank" and I said "good for you, I'm Joel" and we had a really good time that night. It was really lighthearted, we shared a lot of stories, got to know each other a little bit. He wanted to compare mustaches. His is smaller, we decided that. But we had a lot of fun and at the end of the evening we were walking out and I asked somebody "Who was that guy with the little mustache?" "Well, that's Speaker Chopp." So I'm in a briefing the next day and they're telling us what you can do and what you shouldn't do over here, and part of the briefing was – never have a conversation with Speaker Chopp because he will size you up in seconds. He'll know everything about you if you reveal anything, and in two years, you'll disappear. And I'm thinking, I've only been here two days and I'm done, you know. But we really had a good time that night. I haven't had that much fun with him since, probably.

One of the other things you would hear would be people coming back from his office saying "You know, I had an agreement with Frank and I didn't get exactly what I wanted" and what I found out was, I usually did. Sometimes that was good sometimes not, but what I found you had to do was be very precise in what you asked for because if you're not, you're gonna get something. If he reaches across that table and looks you in the eye and shakes your hand, you are going to get what he says but you better be careful what you said, because if it's not quite what you thought, you can get something that looks really really different. But his word was always good. It was a bond. One of the things I have appreciated most about Frank is his 'One Washington' belief and I think a lot of that came from working with both of our good friend Bill Grant, years ago. That was somebody from

pretty different background and geographic location, but I really believe that Frank believes in that. He's worked with me on some pretty strange things. We got funding for the Omak Stampede stadium which was pretty amazing. It was a stadium where they had to stop doing the 'wave' because it would start creaking and if you were underneath, nails would be falling and that sort of thing and I don't think Frank is really a big rodeo guy but he was really helpful in getting that. He has helped on wolves, I know they're not a big problem in Seattle but I appreciate him deciding that that was something that was really important in Northeast Washington and he's been a tremendous amount of help.

I didn't really want to get up here tonight. In some ways because how do you speak of someone who has been a real institution – kind of a legend. I mean, I remember seeing him on TV when I was in grade school, I think. But I do, maybe the biggest lesson that I learned from Frank is that we can disagree on a million things. You know, we heard all of his accomplishments up there. I don't think I voted for a single one. But we did find that we had areas of disagreement and we could be honorable and decent about them and have those discussions, and when we found a mutual agreement we got some big things done - maybe the biggest lesson I've learned here. Frank, thank you for the things you've done for me and the relationships we've built. I will miss you as Speaker. I'm glad you're going to be here for a while but thank you for the honesty and integrity that you've shown me for these years."

Representative Sullivan: "Thank you Mr. Speaker and I got my tie kind of loose right here and if I grab it, twist my neck around a little bit, (makes motion), you know. Wish I had a comb now that I could kind of brush my mustache for you. Every time you go somewhere, he's in the back, in the bathroom, you know, brushing his mustache...it really itches a lot too, I don't know how you do it.

Frank, it's hard not to learn things from you. I tried not to, but I failed. I remember the first several times I met with you, I came in and there was something I really wanted and I started the conversation and I said I really gotta have this and by the time that I ended the meeting and walked out your door I didn't even remember what you said. I didn't remember what I asked for. You had a way of turning it around so, I left pretty confused – You were pretty good.

In our caucus, we always have this thing about taking care of freshmen. That was always a big deal. You have to make sure freshmen are taken care of. You have to make sure that they get their Capital Budget projects. You have to make sure that they get something in the budget. Well then I learned after a little while that actually it's Frank telling those freshmen to talk to the chairs of the Capital Budget and the budget committee and they're mostly your asks. As a matter of fact, I'm pretty sure half the budget now is actually Frank Chopp's stuff. The one gift I really did want to get you was a GPS system because I won't ever forget, you know, it was on a Saturday and I get a call from Frank Chopp and he says "Hey, I'm in Covington, could you meet me?" I said "Sure, Frank. Where are ya?" He said "Well I'm in Covington, I'm at the Safeway." I said "Well Frank, right around the corner there's a coffee shop. I can get there in five minutes and, let's get together and have a cup of coffee." So I really quick grabbed my stuff and it takes me just five

minutes to drive out there and I'm sitting at the coffee shop thinking where the heck is he? You know, it's right around the corner. Come to learn he was actually in Maple Valley. The guy just doesn't get around very much. You know, Frank, in all seriousness, it's been, I've had the pleasure to serve as Majority Leader with you for nine years. It's been nine great years. I really have learned a lot and it's hard not to get a little choked up talking about it and I agree with Cody, you're not dying, at least that we know of. But this institution won't be the same without you - it absolutely won't. It will be a far different place. I'm sure it will be a far better place, no, I'm sorry. But seriously, it's just hard to imagine. We've talked about it, it's just going to be a really different atmosphere here because you really did bring about a collegial relationship, working across the aisle, working together when times got really tough you had a way to get through those tough days, and I just want to say from the bottom of my heart that we will miss you greatly in your role as Speaker, but now that you're a rank and file member, we look forward to stomping on you. Thank you."

With the consent of the House, HOUSE RESOLUTION NO. 4641 was adopted.

SPEAKER'S PRIVILEGE

Speaker Chopp: "I'm truly overwhelmed but this has gone on far too long. I also want to welcome all the fans of the Gardner Minshew WSU Quarterback Fan Club and whenever we're in special session we'll pass a law that bans snow storms in the Apple Cup, if you remember that disaster. So, I really appreciate this although I'm very embarrassed and I'll try to do the best I can because I might break up at any second thinking of things. I'm very proud of the traditions that we've engendered. I appreciate the thought about 'One Washington.' Another theme that we have in our caucus is the notion of 'everybody up' and so when our caucus chair, Eric, says "Everybody up" everybody stands up and whoever walks through the door gets a thunderous applause because everybody will remember that, and everybody's focused on supporting whoever is coming in the door. So I'd like to do three tonight - one side of the aisle, the other side, and then my family, because it's extremely important, no matter what happens, we have to support each other and try to bring people together.

On this side of the aisle, JT? Where's JT? I just very much appreciate working with you. You've been a great friend. I very much appreciate visiting your family farm. They were very gracious to me, quite a few of the family, and I was a little disappointed when I was expecting eggs for lunch and they served croissants. And I'm really getting tired of hearing when I come to work each day on the radio that Wilcox Family Farms. It's really disgusting. But I really appreciate his service and all the work he's done over the years. Joel, I dearly love ya. It was great to scheme together to get about five million dollars for the Omak stampede, which I told him "Whatever you do, don't tell my folks back in the 43rd district that I did that." And by the way Joel, I was a wolf in a previous life. Richard, I really dearly love you too. We've worked together on so many things and it's been great and I thank you for the 175 million, plus there's a few other things we got in there too. But you've been great

to work with on so many things. Norma, I think we were separated at birth, cause you and I are about the most emotional people on this floor. You get up, you start crying, then I start crying and it's a mess. And I appreciate, very much, all the time you spent working on issues of mental health and the facilities we need for folks. It's just extremely important for people to have a place to be, so I say thank you for that. So if you don't mind, I'd like to have everybody up and let's hear it for these members on this side of the aisle. LOUDER!

Now, on this side of the aisle, I do want to mention Eric again. You do not want to argue with Eric. We've had quite a few arguments in the last two days. In fact I was telling him that I didn't want to do this tonight and he was arguing with me about it, but I just so much appreciate Eric, all the work you've done, particularly keeping alive the tradition of Bill Grant. I learned so much about agriculture, and wheat farming and all sorts of other things and by the way, we have invested so much over the years in Walla Walla, it's just embarrassing because he was a great leader. His family were Irish immigrants in the 1850's escaping, I assume, the potato famine and he had a heart of gold and you've carried on his traditions. That means a lot to me personally because he was my best friend here. Eileen Cody, you're not my best friend. I'm sorry, I've been waiting 10 years to say that. I feel more close to you than ever before, I can't believe it. I actually told her I loved her and she got so embarrassed and red in the face, it was just great. Oh God, she got so flustered, she said, "uh," and then somebody in that room that we met, somebody said "well, Eileen, do you like Frank, or do you love Frank?" and she says "I don't even tell my husband that!" I've never seen her so flustered, it was funny. And Pat, I dearly love you. You've done more than anybody in the state of Washington for the school kids in our state, seriously, all this talk about politics and funding and all this stuff, you're the leader for us from 10 years ago or so. Incredible amount of hours and heart and soul to try to help educate our young people. And then, I could mention every one of you but the last one I want to mention on this side is Mrs. Speaker, Cathy Maynard. I don't know if you know this but I've never read the rules, I'm an organizer, not a reader. And so I knew from the very first time I met you that I could trust her and I didn't have to worry about you speaking up because you are tenacious and I just dearly love you and you've done so much for this house and I really appreciate it. So, if you wouldn't mind, everybody up, let's hear it for the Democratic side of the aisle.

And lastly, my family. I'm so, when you started reading that thing about, whatever that resolution was, you mentioned my mom, I immediately break up. I can't (gets emotional). She was a school cafeteria worker in East Bremerton. Couldn't get a high school diploma in the Depression, she waited until age 69 and she finally got her high school diploma at age 69 from Green River Community College. Let's hear it for my mom! And this next one is for the Republican side of the aisle - My dad was a 55-year member of IBW. He was a shipyard worker who loved FDR and hated toll roads. Sorry Jake, I know we passed that bill but, my dad was yelling at me from his grave. Lastly, I just want to mention my wife Nancy and my daughter Ellie. If you ever want to meet strong women, meet the two of them, and also, don't try to argue with them, it's just impossible to

win. I knew that when I first met Nancy, yeah, it was at a public hearing of all things, and I'm like "God" and I was struck for the first time because she just reamed out the Mayor's Office but who wouldn't want to do that in Seattle, by the way. And so, family is so important to all of us and that's a great thing for this institution. We serve a big family and so if you wouldn't mind honoring my family, let's hear it for Nancy and Ellie. Thank you all."

SPEAKER'S PRIVILEGE

"**Sec. 1.** RCW 28A.500.015 and 2018 c 266 s 303 are each amended to read as follows:

(1) Beginning in calendar year ~~((2019))~~ 2020 and each calendar year thereafter, the state must provide state local effort assistance funding to supplement school district enrichment levies as provided in this section.

(2)(a) For an eligible school district~~((s))~~ with an actual enrichment levy rate that is less than one dollar and fifty cents per thousand dollars of assessed value in the school district, the annual local effort assistance funding is equal to the school district's maximum local effort assistance multiplied by a fraction equal to the school district's actual enrichment levy rate divided by one dollar and fifty cents per thousand dollars of assessed value in the school district~~((s maximum allowable))~~.

(b) For an eligible school district with an actual enrichment levy rate that is equal to or greater than one dollar and fifty cents per thousand dollars of assessed value in the school district, the annual local effort assistance funding is equal to the school district's maximum local effort assistance.

(c) Beginning in calendar year 2022, for state-tribal education compact schools established under chapter 28A.715 RCW, the annual local effort assistance funding is equal to the actual enrichment levy per student as calculated by the superintendent of public instruction for the previous year for the school district in which the state-tribal education compact school is located, up to a maximum per student amount of one thousand five hundred fifty dollars as increased by inflation from the 2019 calendar year, multiplied by the student enrollment of the state-tribal education compact school in the prior school year.

(d) For a school district that meets the criteria in this subsection and is located west of the Cascades in a county that borders another state, the annual local effort assistance funding is equal to the local effort assistance funding authorized under (b) of this subsection and additional local effort assistance funding equal to the following amounts:

(i) Two hundred forty-six dollars per pupil in the 2019-20 school year for a school district with more than twenty-five thousand annual full-time equivalent students; and

Sec. 2. RCW 84.52.0531 and 2018 c 266 s 307 are each amended to read as follows:

(1) Beginning with taxes levied for collection in ~~((2019))~~ 2020, the maximum dollar amount which may be levied by or for any school district for enrichment levies under RCW 84.52.053 is equal to the lesser of ~~((one))~~ two dollars and fifty cents per thousand dollars of the assessed value of property in the school district or the maximum per-pupil limit. (d) For any salary and related benefit costs identified in (c)(xi), (xii), and (xiii) of this subsection, the school district shall maintain a record describing how these expenditures are documented and demonstrated enrichment of the state's statutory program of basic education. School districts shall maintain these records until the state auditor has completed the audit under RCW 43.09.2856.

(2) A capital projects fund shall be established for major capital purposes. All statutory references to a "building fund" shall mean the capital projects fund so established. PART II

HUMAN SERVICES

NEW SECTION. Sec. 201. FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(4) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in the health care authority. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(5) Information technology projects or investments and proposed projects or investments impacting time capture, payroll and payment processes and systems, eligibility, case management, and authorization systems within the department of social and health services are subject to technical oversight by the office of the chief information officer.

(6)(a) The department shall facilitate enrollment under the medicaid expansion for clients applying for or receiving state funded services from the department and its contractors. Prior to open enrollment, the department shall coordinate with the health care authority to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(b) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The department shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for public assistance benefits.

(7) The health care authority, the health benefit exchange, the department of social and health services, the department of health, and the department of children, youth, and families shall work together within existing resources to establish the health and human services enterprise coalition (the coalition). The coalition, led by the health care authority, must be a multi-organization collaborative that provides strategic direction and federal funding guidance for projects that have cross-organizational or enterprise impact, including information technology projects that affect organizations within the coalition. By October 31, 2019, the

coalition must submit a report to the governor and the legislature that describes the coalition's plan for projects affecting the coalition organizations. The report must include any information technology projects impacting coalition organizations and, in collaboration with the office of the chief information officer, provide: (a) The status of any information technology projects currently being developed or implemented that affect the coalition; (b) funding needs of these current and future information technology projects; and (c) next steps for the coalition's information technology projects. The office of the chief information officer shall maintain a statewide perspective when collaborating with the coalition to ensure that the development of projects identified in this report are planned for in a manner that ensures the efficient use of state resources and maximizes federal financial participation. The work of the coalition is subject to the conditions, limitations, and review provided in section 719 of this act.

The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2020 and fiscal year 2021, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2019-2021 biennial operating appropriations act and in effect on July 1, 2015, (b) one-half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2019-2021 fiscal biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. \$537,000 of the general fund—state appropriation for fiscal year 2020 and \$522,000 of the general fund—state appropriation for fiscal year 2021 are provided solely for state grants for the participating hospitals.

Appropriation\$1,714,000
TOTAL	APPROPRIATION
.....\$3,236,834,000

The appropriations in this section are subject to the following conditions and limitations:

(1) For the purposes of this section, "behavioral health entities" means managed care organizations and administrative services organizations in regions where the authority is purchasing medical and behavioral health services through fully integrated contracts pursuant to RCW 71.24.380, and behavioral health organizations in regions that have not yet transitioned to fully integrated managed care.

(2) Within the amounts appropriated in this section, funding is provided for implementation of the settlement agreement under *Trueblood, et al. v. Department of Social and Health Services, et al.*, United States District Court for the Western District of Washington, Cause No. 14-cv-01178-MJP. In addition to amounts provided solely for implementation of the settlement agreement, class members must have access to supports and services funded throughout this section for which they meet eligibility and medical necessity requirements. The authority must include language in contracts that requires regional behavioral health entities to develop and implement plans for improving access to timely and appropriate treatment for individuals with behavioral health needs and current or prior criminal justice involvement who are eligible for services under these contracts.

(3) \$15,605,000 of the general fund—state appropriation for fiscal year 2020, \$15,754,000 of the general fund—state appropriation for fiscal year 2021, and \$4,789,000 of the general fund—federal appropriation are provided solely for the phase-in of the settlement agreement under *Trueblood, et al. v. Department of Social and Health Services, et al.*, United States District Court for the Western District of Washington, Cause No. 14-cv-01178-MJP. The department, in collaboration with the health care authority and the criminal justice training commission, must implement the provisions of the settlement agreement pursuant to the timeline and implementation plan provided for under the settlement agreement. This includes

implementing provisions related to competency evaluations, competency restoration, crisis diversion and supports, education and training, and workforce development.

(4) \$8,777,000 of the general fund—state appropriation for fiscal year 2020, \$10,424,000 of the general fund—state appropriation for fiscal year 2021, and \$20,197,000 of the general fund—federal appropriation are provided solely for the authority and behavioral health entities to continue to contract for implementation of high-intensity programs for assertive community treatment (PACT) teams. In determining the proportion of medicaid and nonmedicaid funding provided to behavioral health entities with PACT teams, the authority shall consider the differences between behavioral health entities in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid. The authority may allow behavioral health entities which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under subsection (7) of this section. The authority and behavioral health entities shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(5) From the general fund—state appropriations in this section, the authority shall assure that behavioral health entities reimburse the department of social and health services aging and long term support administration for the general fund—state cost of medicaid personal care services that enrolled behavioral health entity consumers use because of their psychiatric disability.

(6) \$3,520,000 of the general fund—federal appropriation is provided solely for the authority to maintain a pilot project to incorporate peer bridging staff into behavioral health regional teams that provide transitional services to individuals returning to their communities.

(7) \$81,930,000 of the general fund—state appropriation for fiscal year 2020 and \$81,930,000 of the general fund—state appropriation for fiscal year 2021 are provided solely for persons and services not covered by the medicaid program. To the extent possible, levels of behavioral health entity spending must be maintained in the following priority order: Crisis and commitment services; community inpatient services; and residential care services, including personal care and emergency housing assistance. These amounts must be distributed to behavioral health entities proportionate to the fiscal year 2019 allocation of flexible nonmedicaid funds. The authority must include the following language in medicaid contracts with behavioral health entities unless they are provided formal notification from the center for medicaid and medicare services that the language will result in the loss of federal medicaid participation: "The contractor may voluntarily provide services that are in addition to those covered under the state plan, although the cost of these services cannot be included when determining payment rates unless including these costs are specifically allowed under federal law or an approved waiver."

(8) The authority is authorized to continue to contract directly, rather than through contracts with behavioral health entities for children's long-term inpatient facility services.

(9) \$1,204,000 of the general fund—state appropriation for fiscal year 2020 and \$1,204,000 of the general fund—state appropriation for fiscal year 2021 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting one hundred eighty-day commitment hearings at the state psychiatric hospitals.

(10) Behavioral health entities may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, behavioral health entities may use a portion of the state funds allocated in accordance with subsection (7) of this section to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(11) \$2,291,000 of the general fund—state appropriation for fiscal year 2020 and \$2,291,000 of the general fund—state appropriation for fiscal year 2021 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement. The authority must collect information from the behavioral health entities on their plan for using these funds, the numbers of individuals served, and the types of services provided and submit a report to the office of financial management and the appropriate fiscal committees of the legislature by December 1st of each year of the biennium.

(12) Within the amounts appropriated in this section, funding is provided for the authority to develop and phase in intensive mental health services for high needs youth consistent with the settlement agreement in *T.R. v. Dreyfus and Porter*.

(13) The authority must establish minimum and maximum funding levels for all reserves allowed under behavioral health organization and administrative services organization contracts and include contract language that clearly states the requirements and limitations. The authority must monitor and ensure that behavioral health organization and administrative services organization reserves do not exceed maximum levels. The authority must monitor revenue and expenditure reports and must require a behavioral health organization or administrative services organization to submit a corrective action plan on how it will spend its excess reserves within a reasonable period of time, when its reported reserves exceed maximum levels established under the contract. The authority must review and approve such plans and monitor to ensure compliance. If the authority determines that a behavioral health organization or administrative services organization has failed to provide an adequate excess reserve corrective

action plan or is not complying with an approved plan, the authority must reduce payments to the entity in accordance with remedial actions provisions included in the contract. These reductions in payments must continue until the authority determines that the entity has come into substantial compliance with an approved excess reserve corrective action plan.

(14) During the 2019-2021 fiscal biennium, any amounts provided in this section that are used for case management services for pregnant and parenting women must be contracted directly between the authority and providers rather than through contracts with behavioral health organizations.

(15) Within the amounts appropriated in this section, the authority may contract with the University of Washington and community-based providers for the provision of the parent-child assistance program or other specialized chemical dependency case management providers for pregnant, post-partum, and parenting women. For all contractors: (a) Service and other outcome data must be provided to the authority by request; and (b) indirect charges for administering the program must not exceed ten percent of the total contract amount.

(16) \$3,500,000 of the general fund—federal appropriation (from the substance abuse prevention and treatment federal block grant) is provided solely for the continued funding of existing county drug and alcohol use prevention programs.

(17) Within the amounts provided in this section, behavioral health entities must provide outpatient chemical dependency treatment for offenders enrolled in the medicaid program who are supervised by the department of corrections pursuant to a term of community supervision. Contracts with behavioral health entities must require that behavioral health entities include in their provider network specialized expertise in the provision of manualized, evidence-based chemical dependency treatment services for offenders. The department of corrections and the authority must develop a memorandum of understanding for department of corrections offenders on active supervision who are medicaid eligible and meet medical necessity for outpatient substance use disorder treatment. The agreement will ensure that treatment services provided are coordinated, do not result in duplication of services, and maintain access and quality of care for the individuals being served. The authority must provide all necessary data, access, and reports to the department of corrections for all department of corrections offenders that receive medicaid paid services.

(18) The criminal justice treatment account—state appropriation is provided solely for treatment and treatment support services for offenders with a substance use disorder pursuant to RCW 71.24.580. The authority must offer counties the option to administer their share of the distributions provided for under RCW 71.24.580(5)(a). If a county is not interested in administering the funds, the authority shall contract with behavioral health entities to administer these funds consistent with the plans approved by local panels pursuant to RCW 71.24.580(5)(b). The authority must provide a report to the office of financial

management and the appropriate committees of the legislature which identifies the distribution of criminal justice treatment account funds by September 30, 2019.

(19) No more than \$27,844,000 of the general fund—federal appropriation may be expended for supported housing and employment services described in initiative 3a and 3b of the medicaid transformation demonstration waiver under healthier Washington. Under this initiative, the authority and the department of social and health services shall ensure that allowable and necessary services are provided to eligible clients as identified by the authority or its providers or third party administrator. The department and the authority in consultation with the medicaid forecast work group, shall ensure that reasonable reimbursements are established for services deemed necessary within an identified limit per individual. The authority shall not increase general fund—state expenditures under this initiative. The secretary in collaboration with the director of the authority shall report to the joint select committee on health care oversight no less than quarterly on financial and health outcomes. The secretary in cooperation with the director shall also report to the fiscal committees of the legislature all of the expenditures of this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

(20) \$6,858,000 of the general fund—state appropriation for fiscal year 2020, \$6,858,000 of the general fund—state appropriation for fiscal year 2021, and \$8,046,000 of the general fund—federal appropriation are provided solely to maintain new crisis triage or stabilization centers. Services in these facilities may include crisis stabilization and intervention, individual counseling, peer support, medication management, education, and referral assistance. The authority shall monitor each center's effectiveness at lowering the rate of state psychiatric hospital admissions.

(21) \$1,125,000 of the general fund—federal appropriation is provided solely for the authority to develop a memorandum of understanding with the department of health for implementation of chapter 297, Laws of 2017 (opioid treatment programs). (22) \$6,655,000 of the general fund—state appropriation for fiscal year 2020, \$10,015,000 of the general fund—state appropriation for fiscal year 2021, and \$12,965,000 of the general fund—federal appropriation are provided solely for the operation of secure withdrawal management and stabilization facilities. The authority may not use any of these amounts for services in facilities that are subject to federal funding restrictions that apply to institutions for mental diseases, unless they have received a waiver that allows for full federal participation in these facilities. Within these amounts, funding is provided to increase the fee for service rate for these facilities up to \$650 per day. The authority must require in contracts with behavioral health entities that, beginning in calendar year 2020, they pay no lower than the fee for service rate. The authority must coordinate with regional behavioral health entities to identify and implement purchasing strategies or

regulatory changes that increase access to services for individuals with complex behavioral health needs at secure withdrawal management and stabilization facilities.

(23) \$23,090,000 of the general fund—state appropriation for fiscal year 2020, \$23,090,000 of the general fund—state appropriation for fiscal year 2021, and \$92,444,000 of the general fund—federal appropriation are provided solely to maintain the enhancement of community-based behavioral health services that was funded in fiscal year 2019. Twenty percent of the general fund—state appropriation amounts for each regional service area must be used to increase their nonmedicaid funding and the remainder must be used to increase medicaid rates above FY 2018 levels. Effective January 2020, the medicaid funding is intended to increase rates for behavioral health services provided by licensed and certified community behavioral health agencies as defined by the department of health. This funding must be allocated to the managed care organizations proportionate to their medicaid enrollees. The authority must require the managed care organizations to provide a report on their implementation of this funding. The authority must submit a report to the legislature by December 1, 2020, summarizing how this funding was used and provide information for future options of increasing behavioral health provider rates through directed payments. The report must identify different mechanisms for implementing directed payment for behavioral health providers including but not limited to minimum fee schedules, across the board percentage increases, and value-based payments. The report must provide a description of each of the mechanisms considered, the timeline that would be required for implementing the mechanism, and whether and how the mechanism is expected to have a differential impact on different providers. The report must also summarize the information provided by managed care organizations in implementing the funding provided under this section.

(24) \$27,917,000 of the general fund—state appropriation for fiscal year 2020, \$36,095,000 of the general fund—state appropriation for fiscal year 2021, and \$60,644,000 of the general fund—federal appropriation are provided solely for the department to contract with community hospitals or freestanding evaluation and treatment centers to provide long-term inpatient care beds as defined in RCW 71.24.025. Within these amounts, the authority must meet the requirements for reimbursing counties for the judicial services for patients being served in these settings in accordance with RCW 71.05.730. The authority must coordinate with the department of social and health services in developing the contract requirements, selecting contractors, and establishing processes for identifying patients that will be admitted to these facilities. Sufficient amounts are provided in fiscal year 2020 for the authority to reimburse community hospitals serving medicaid clients in long-term inpatient care beds as defined in RCW 71.24.025 at a rate of \$1,171 per day, or the hospital's current psychiatric inpatient per diem rate, whichever is higher. The rate paid to hospitals in this subsection cannot exceed one-hundred percent of the hospitals eligible costs based on their most recently completed medicare cost report. The authority in collaboration with the Washington state hospital association

must convene a work group to develop a methodology for reimbursing community hospitals serving these clients. In developing this methodology, the authority must account for cost structure differences between teaching hospitals and other hospital types. The authority must provide a report to the appropriate committees of the legislature by December 1, 2019. The report must:

(a) Describe the methodology developed by the work group;

(b) Identify cost differences between teaching hospitals and other hospital types;

The authority must submit an application for a waiver to allow, by July 1, 2020, for full federal participation for medicaid clients in mental health facilities classified as institutions of mental diseases. The authority must submit a report on the status of the waiver to the office of financial management and the appropriate committees of the legislature by December 1, 2019.

Behavioral health organization reserves may not be used to pay for services to be provided beyond the end of a behavioral health organization's contract or for startup costs in full integration regions except as provided in this subsection. The authority must ensure that any increases in expenditures in behavioral health reserve spend-down plans are required for the operation of services during the contract period and do not result in overpayment to providers. If the nonfederal share of reserves returned during fiscal year 2020 exceeds \$35,000,000, the authority shall use some of the amounts in excess of \$35,000,000 to support the final regions transitioning to full integration of physical and behavioral health care. These amounts must be distributed proportionate to the population of each regional area covered. The maximum amount allowed per region is \$3,175 per 1,000 residents. (3) The department of health shall enter into interagency agreements with the liquor and cannabis board to pay the costs incurred, up to thirty percent of available funds, in carrying out its enforcement responsibilities under this chapter. Such agreements shall set forth standards of enforcement, consistent with the funding available, so as to reduce the extent to which tobacco products and vapor products are available to individuals under the age of eighteen. The agreements shall also set forth requirements for data reporting by the liquor and cannabis board regarding its enforcement activities. During the 2019-2021 fiscal biennium, the department of health shall pay the costs incurred, up to twenty-three percent of available funds, in carrying out its enforcement responsibilities.

(4) The department of health, the liquor and cannabis board, and the department of revenue shall enter into an interagency agreement for payment of the cost of administering the tobacco retailer licensing system and for the provision of quarterly documentation of tobacco wholesaler, retailer, and vending machine names and locations.

Sec. 980. RCW 71.24.580 and 2018 c 205 s 2 and 2018 c 201 s 4044 are each reenacted and amended to read as follows:

(1) The criminal justice treatment account is created in the state treasury. Moneys in the account may be

expended solely for: (a) Substance use disorder treatment and treatment support services for offenders with a substance use disorder that, if not treated, would result in addiction, against whom charges are filed by a prosecuting attorney in Washington state; (b) the provision of substance use disorder treatment services and treatment support services for nonviolent offenders within a drug court program; and (c) the administrative and overhead costs associated with the operation of a drug court. Amounts provided in this subsection must be used for treatment and recovery support services for criminally involved offenders and authorization of these services shall not be subject to determinations of medical necessity. During the 2017-2019 fiscal biennium, the legislature may direct the state treasurer to make transfers of moneys in the criminal justice treatment account to the state general fund. ~~((It is the intent of the legislature to continue in the 2019-2021 biennium the policy of transferring to the state general fund such amounts as reflect the excess fund balance of the account.))~~ During the 2019-2021 fiscal biennium, the legislature may direct the state treasurer to make transfers of moneys in the criminal justice treatment account to the home security fund account created in RCW 43.185C.060. It is the intent of the legislature to continue the policy of transferring moneys from the criminal justice treatment account to the home security fund account in subsequent biennia. Moneys in the account may be spent only after appropriation.

(2) For purposes of this section:

(a) "Treatment" means services that are critical to a participant's successful completion of his or her substance use disorder treatment program, including but not limited to the recovery support and other programmatic elements outlined in RCW 2.30.030 authorizing therapeutic courts; and

(b) "Treatment support" includes transportation to or from inpatient or outpatient treatment services when no viable alternative exists, and child care services that are necessary to ensure a participant's ability to attend outpatient treatment sessions.

(3) Revenues to the criminal justice treatment account consist of: (a) Funds transferred to the account pursuant to this section; and (b) any other revenues appropriated to or deposited in the account.

(4)(a) For the fiscal year beginning July 1, 2005, and each subsequent fiscal year, the state treasurer shall transfer eight million two hundred fifty thousand dollars from the general fund to the criminal justice treatment account, divided into four equal quarterly payments. For the fiscal year beginning July 1, 2006, and each subsequent fiscal year, the amount transferred shall be increased on an annual basis by the implicit price deflator as published by the federal bureau of labor statistics.

(b) In each odd-numbered year, the legislature shall appropriate the amount transferred to the criminal justice treatment account in (a) of this subsection to the department for the purposes of subsection (5) of this section.

(5) Moneys appropriated to the authority from the criminal justice treatment account shall be distributed as

specified in this subsection. The authority may retain up to three percent of the amount appropriated under subsection (4)(b) of this section for its administrative costs.

(a) Seventy percent of amounts appropriated to the authority from the account shall be distributed to counties pursuant to the distribution formula adopted under this section. The authority, in consultation with the department of corrections, the Washington state association of counties, the Washington state association of drug court professionals, the superior court judges' association, the Washington association of prosecuting attorneys, representatives of the criminal defense bar, representatives of substance use disorder treatment providers, and any other person deemed by the authority to be necessary, shall establish a fair and reasonable methodology for distribution to counties of moneys in the criminal justice treatment account. County or regional plans submitted for the expenditure of formula funds must be approved by the panel established in (b) of this subsection.

(b) Thirty percent of the amounts appropriated to the authority from the account shall be distributed as grants for purposes of treating offenders against whom charges are filed by a county prosecuting attorney. The authority shall appoint a panel of representatives from the Washington association of prosecuting attorneys, the Washington association of sheriffs and police chiefs, the superior court judges' association, the Washington state association of counties, the Washington state association or the Washington association of criminal defense lawyers, the department of corrections, the Washington state association of drug court professionals, and substance use disorder treatment providers. The panel shall review county or regional plans for funding under (a) of this subsection and grants approved under this subsection. The panel shall attempt to ensure that treatment as funded by the grants is available to offenders statewide.

(6) The county alcohol and drug coordinator, county prosecutor, county sheriff, county superior court, a substance abuse treatment provider appointed by the county legislative authority, a member of the criminal defense bar appointed by the county legislative authority, and, in counties with a drug court, a representative of the drug court shall jointly submit a plan, approved by the county legislative authority or authorities, to the panel established in subsection (5)(b) of this section, for disposition of all the funds provided from the criminal justice treatment account within that county. The funds shall be used solely to provide approved alcohol and substance abuse treatment pursuant to RCW 71.24.560 and treatment support services. No more than ten percent of the total moneys received under subsections (4) and (5) of this section by a county or group of counties participating in a regional agreement shall be spent for treatment support services.

(7) Counties are encouraged to consider regional agreements and submit regional plans for the efficient delivery of treatment under this section.

(8) Moneys allocated under this section shall be used to supplement, not supplant, other federal, state, and local funds used for substance abuse treatment.

(9) Counties must meet the criteria established in RCW 2.30.030(3).

Sec. 981. RCW 76.04.610 and 2018 c 299 s 912 are each amended to read as follows:

(1)(a) If any owner of forestland within a forest protection zone neglects or fails to provide adequate fire protection as required by RCW 76.04.600, the department shall provide such protection and shall annually impose the following assessments on each parcel of such land: (i) A flat fee assessment of seventeen dollars and fifty cents; and (ii) twenty-seven cents on each acre exceeding fifty acres.

(b) Assessors may, at their option, collect the assessment on tax exempt lands. If the assessor elects not to collect the assessment, the department may bill the landowner directly.

(2) An owner who has paid assessments on two or more parcels, each containing fewer than fifty acres and each within the same county, may obtain the following refund:

(a) If all the parcels together contain less than fifty acres, then the refund is equal to the flat fee assessments paid, reduced by the total of (i) seventeen dollars and (ii) the total of the amounts retained by the county from such assessments under subsection (5) of this section.

(b) If all the parcels together contain fifty or more acres, then the refund is equal to the flat fee assessments paid, reduced by the total of (i) seventeen dollars, (ii) twenty-seven cents for each acre exceeding fifty acres, and (iii) the total of the amounts retained by the county from such assessments under subsection (5) of this section.

Applications for refunds shall be submitted to the department on a form prescribed by the department and in the same year in which the assessments were paid. The department may not provide refunds to applicants who do not provide verification that all assessments and property taxes on the property have been paid. Applications may be made by mail.

In addition to the procedures under this subsection, property owners with multiple parcels in a single county who qualify for a refund under this section may apply to the department on an application listing all the parcels owned in order to have the assessment computed on all parcels but billed to a single parcel. Property owners with the following number of parcels may apply to the department in the year indicated:

Year	Number of Parcels
2002	10 or more parcels
2003	8 or more parcels
2004 and thereafter	6 or more parcels

The department must compute the correct assessment and allocate one parcel in the county to use to collect the assessment. The county must then bill the forest fire protection assessment on that one allocated identified

parcel. The landowner is responsible for notifying the department of any changes in parcel ownership.

(3) Beginning January 1, 1991, under the administration and at the discretion of the department up to two hundred thousand dollars per year of this assessment shall be used in support of those rural fire districts assisting the department in fire protection services on forestlands.

(4) For the purpose of this chapter, the department may divide the forestlands of the state, or any part thereof, into districts, for fire protection and assessment purposes, may classify lands according to the character of timber prevailing, and the fire hazard existing, and place unprotected lands under the administration of the proper district. Amounts paid or contracted to be paid by the department for protection of forestlands from funds at its disposal shall be a lien upon the property protected, unless reimbursed by the owner within ten days after October 1st of the year in which they were incurred. The department shall be prepared to make statement thereof, upon request, to a forest owner whose own protection has not been previously approved as to its adequacy, the department shall report the same to the assessor of the county in which the property is situated. The assessor shall extend the amounts upon the tax rolls covering the property, and upon authorization from the department shall levy the forest protection assessment against the amounts of unimproved land as shown in each ownership on the county assessor's records. The assessor may then segregate on the records to provide that the improved land and improvements thereon carry the millage levy designed to support the rural fire protection districts as provided for in RCW 52.16.170.

(5) The amounts assessed shall be collected at the time, in the same manner, by the same procedure, and with the same penalties attached that general state and county taxes on the same property are collected, except that errors in assessments may be corrected at any time by the department certifying them to the treasurer of the county in which the land involved is situated. Assessments shall be known and designated as assessments of the year in which the amounts became reimbursable. Upon the collection of assessments the county treasurer shall place fifty cents of the total assessments paid on a parcel for fire protection into the county current expense fund to defray the costs of listing, billing, and collecting these assessments. The treasurer shall then transmit the balance to the department. Collections shall be applied against expenses incurred in carrying out the provisions of this section, including necessary and reasonable administrative costs incurred by the department in the enforcement of these provisions. The department may also expend sums collected from owners of forestlands or received from any other source for necessary administrative costs in connection with the enforcement of RCW 76.04.660. During the 2017-2019 and 2019-2021 fiscal (~~biennium~~) biennia, the legislature may appropriate moneys from the account for department of natural resources wildfire response and forest health activities.

(6) When land against which forest protection assessments are outstanding is acquired for delinquent taxes and sold at public auction, the state shall have a prior lien on the proceeds of sale over and above the amount necessary to

satisfy the county's delinquent tax judgment. The county treasurer, in case the proceeds of sale exceed the amount of the delinquent tax judgment, shall immediately remit to the department the amount of the outstanding forest protection assessments.

(7) All nonfederal public bodies owning or administering forestland included in a forest protection zone shall pay the forest protection assessments provided in this section and the special forest fire suppression account assessments under RCW 76.04.630. The forest protection assessments and special forest fire suppression account assessments shall be payable by nonfederal public bodies from available funds within thirty days following receipt of the written notice from the department which is given after October 1st of the year in which the protection was provided. Unpaid assessments are not a lien against the nonfederal publicly owned land but shall constitute a debt by the nonfederal public body to the department and are subject to interest charges at the legal rate. ~~((During the 2011-2013 fiscal biennium, the forest fire protection assessment account may be appropriated to The Evergreen State College for analysis and recommendations to improve the efficiency and effectiveness of the state's mechanisms for funding fire prevention and suppression activities.))~~

(8) A public body, having failed to previously pay the forest protection assessments required of it by this section, which fails to suppress a fire on or originating from forestlands owned or administered by it, is liable for the costs of suppression incurred by the department or its agent and is not entitled to reimbursement of costs incurred by the public body in the suppression activities.

(9) The department may adopt rules to implement this section, including, but not limited to, rules on levying and collecting forest protection assessments.

Sec. 982. RCW 76.09.405 and 2007 c 54 s 3 and 2007 c 48 s 1 are each reenacted and amended to read as follows:

The forest and fish support account is hereby created in the state treasury. Receipts from appropriations, the surcharge imposed under RCW 82.04.261, and other sources must be deposited into the account. Expenditures from the account shall be used for activities pursuant to the state's implementation of the forests and fish report as defined in this chapter and related activities including, but not limited to, adaptive management, monitoring, and participation grants to tribes, state and local agencies, and not-for-profit public interest organizations. Expenditures from the account may be made only after appropriation by the legislature. During the 2019-2021 fiscal biennium, the legislature may appropriate moneys from the account for activities to implement this chapter.

**PART XI
SUPPLEMENTAL
HUMAN SERVICES**

Sec. 1101. 2018 c 299 s 201 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated

facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(4) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in the health care authority. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(5) Information technology projects or investments and proposed projects or investments impacting time capture, payroll and payment processes and systems, eligibility, case management, and authorization systems within the department of social and health services are subject to technical oversight by the office of the chief information officer.

(6)(a) The department shall facilitate enrollment under the medicaid expansion for clients applying for or receiving state funded services from the department and its contractors. Prior to open enrollment, the department shall coordinate with the health care authority to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(b) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The department shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for public assistance benefits.

(7) In accordance with RCW 71.24.380, the health care authority and the department are authorized to purchase medical and behavioral health services through integrated contracts upon request of all of the county authorities in a regional service area to become an early adopter of fully integrated purchasing of medical and behavioral health services. The department may combine and transfer such amounts appropriated under sections 204, 208, and 213 of this act as may be necessary to fund early adopter contracts. The amount of medicaid funding transferred from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled, times the number of clients enrolled. The amount of non-medicaid funding transferred from sections 204 and

208 may not exceed the amount that would have been contracted with a behavioral health organization if the county authorities had not requested to become an early adopter of fully integrated purchasing. These limits do not apply to the amounts provided in section 204(1)(s) of this act. If any funding that this act provides solely for a specific purpose is transferred under this subsection, that funding must be used consistently with the provisions and conditions for which it was provided.

(8) In accordance with RCW 71.24.380, the department is authorized to purchase mental health and substance use disorder services through integrated contracts with behavioral health organizations. The department may combine and transfer such amounts appropriated under sections 204 and 208 of this act as may be necessary to finance these behavioral health organization contracts. If any funding that this act provides solely for a specific purpose is transferred under this subsection, that funding must be used consistently with the provisions and conditions for which it was provided.

(9)(a) The appropriations to the department of social and health services in this act must be expended for the programs and in the amounts specified in this act. However, after May 1, ~~((2018))~~ 2019, unless prohibited by this act, the department may transfer general fund—state appropriations for fiscal year ~~((2018))~~ 2019 among programs and subprograms after approval by the director of the office of financial management. However, the department may not transfer state appropriations that are provided solely for a specified purpose except as expressly provided in (b) through (d) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year ~~((2018))~~ 2019 caseload forecasts and utilization assumptions in the long-term care, developmental disabilities, ~~((foster care, adoption support,))~~ and public assistance programs, the department may transfer state appropriations that are provided solely for a specified purpose.

(c) Within the mental health program, the department may transfer appropriations that are provided solely for a specified purpose within and between subprograms as needed to fund actual expenditures through the end of fiscal year ~~((2018))~~ 2019.

(d) Within the developmental disabilities program, the department may transfer appropriations that are provided solely for a specified purpose within and between subprograms as needed to fund actual expenditures through the end of fiscal year ~~((2018))~~ 2019.

(e) The department may not transfer appropriations, and the director of the office of financial management may not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of the office of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and

justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

(10) The department and the department of children, youth, and families shall coordinate to ensure that both agencies have sufficient funding for allocated and nonallocated central services and, if necessary, must enter into an interagency agreement to ensure that funds are transferred to the agency that incurs costs. The agencies shall jointly report to the office of financial management the status of state fiscal year 2019 allocated and nonallocated central services costs and whether fund transfers were required.

(b) The juvenile rehabilitation administration shall administer a block grant to county juvenile courts for the purpose of serving youth as defined in RCW 13.40.510(4)(a) in the county juvenile justice system. Funds dedicated to the block grant include: Consolidated juvenile service (CJS) funds, community juvenile accountability act (CJAA) grants, chemical dependency/mental health disposition alternative (CDDA), and suspended disposition alternative (SDA). The juvenile rehabilitation administration shall follow the following formula and must prioritize evidence-based programs and disposition alternatives and take into account juvenile courts program-eligible youth in conjunction with the number of youth served in each approved evidence-based program or disposition alternative: (i) Thirty-seven and one-half percent for the at-risk population of youth ten to seventeen years old; (ii) fifteen percent for the assessment of low, moderate, and high-risk youth; (iii) twenty-five percent for evidence-based program participation; (iv) seventeen and one-half percent for minority populations; (v) three percent for the chemical dependency and mental health disposition alternative; and (vi) two percent for the suspended dispositional alternatives. (c) If Second Substitute House Bill No. 1280 (referred and diverted youth) is enacted, then the administration must implement a stop-loss policy when allocating funding under (b) of this subsection in the 2017-2019 fiscal biennium. Under the stop-loss policy, funding formula changes may not result in a funding loss for any juvenile court of more than two percent from one year to the next. The committee in (d) of this subsection must establish a minimum base level of funding for juvenile courts with lower numbers of at-risk youth age 10 – 17. The administration must report to the legislature by December 1, 2018, about how funding is used for referred youth and the impact of that use on overall use of funding. (d) The juvenile rehabilitation administration and the juvenile courts shall establish a block grant funding formula oversight committee with equal representation from the juvenile rehabilitation administration and the juvenile courts. The purpose of this committee is to assess the ongoing implementation of the block grant funding formula, utilizing data-driven decision making and the most current available information. The committee will be co-chaired by the juvenile rehabilitation administration and the juvenile courts, who will also have the ability to change members of the committee as needed to achieve its purpose. The committee may make changes to the formula categories in (b) of this subsection if it determines the changes will increase statewide service delivery or effectiveness of evidence-based program or disposition alternative resulting in increased cost/benefit savings to the state, including long-term cost/benefit savings. The committee must also consider these outcomes in determining when evidence-based expansion or special sex offender disposition alternative funds should be included in the block grant or left separate.

(e) The juvenile courts and administrative office of the courts must collect and distribute information and provide access to the data systems to the juvenile rehabilitation administration and the Washington state institute for public policy related to program and outcome data. (d) \$1,760,000 of the general fund—federal appropriation is provided solely for the department to maintain a pilot project to put peer bridging staff into each behavioral health organization as part of the state psychiatric liaison teams to promote continuity of service as individuals return to their communities. The department must collect data and submit a report to the office of financial management and the appropriate committees of the legislature on the impact of peer staff on state hospital discharges and community placements by December 1, 2017.

(e) \$11,405,000 of the general fund—state appropriation for fiscal year 2018 is provided solely to assist behavioral health organizations with the costs of providing services to medicaid clients receiving services in psychiatric facilities classified as institutions of mental diseases. The department must distribute these amounts proportionate to the number of bed days for medicaid clients in institutions for mental diseases that were excluded from behavioral health organization fiscal year 2018 capitation rates because they exceeded the amounts allowed under federal regulations. The department must also use these amounts to directly pay for costs that are ineligible for medicaid reimbursement in institutions of mental disease facilities for American Indian and Alaska Natives who opt to receive behavioral health services on a fee for service basis. The amounts used for these individuals must be reduced from the allocation of the behavioral health organization where the individual resides. If a behavioral health organization receives more funding through this subsection than is needed to pay for the cost of their medicaid clients in institutions for mental diseases, they must use the remainder of the amounts to provide other services not covered under the medicaid program. The department must apply for a waiver from the center for medicaid and medicare services to allow for the full cost of stays in institutions of mental diseases to be included in fiscal year 2019 behavioral health organization capitation rates. The department may tailor the fiscal year 2019 waiver to specific populations for which the center for medicaid and medicare services has indicated they are likely to approve and work to further expand the waiver to other populations in fiscal year 2020. The department must submit a report on the status of the waiver to the office of financial management and the appropriate committees of the legislature by December 1, 2017.

(f) \$81,930,000 of the general fund—state appropriation for fiscal year 2018 is provided solely for persons and services not covered by the medicaid program. To the extent possible, levels of behavioral health organization spending shall be maintained in the following priority order: Crisis and commitment services; community inpatient services; and residential care services, including personal care and emergency housing assistance. These amounts must be distributed to behavioral health organizations proportionate to the fiscal year 2017 allocation of flexible nonmedicaid funds. The department must include the following language in medicaid contracts with behavioral health organizations unless they are provided formal notification from the center for medicaid and medicare services that the language will result in the loss of federal medicaid participation: "The contractor may

voluntarily provide services that are in addition to those covered under the state plan, although the cost of these services cannot be included when determining payment rates unless including these costs are specifically allowed under federal law or an approved waiver."

(g) The department is authorized to continue to contract directly, rather than through contracts with behavioral health organizations for children's long-term inpatient facility services.

(h) \$1,125,000 of the general fund—state appropriation for fiscal year 2018 is provided solely for the Spokane county behavioral health organization to implement services to reduce utilization and the census at eastern state hospital. Such services shall include:

(A) High intensity treatment team for persons who are high utilizers of psychiatric inpatient services, including those with co-occurring disorders and other special needs;

(B) Crisis outreach and diversion services to stabilize in the community individuals in crisis who are at risk of requiring inpatient care or jail services;

(C) Mental health services provided in nursing facilities to individuals with dementia, and consultation to facility staff treating those individuals; and

(D) Services at the sixteen-bed evaluation and treatment facility.

At least annually, the Spokane county behavioral health organization shall assess the effectiveness of these services in reducing utilization at eastern state hospital, identify services that are not optimally effective, and modify those services to improve their effectiveness.

(i) \$1,204,000 of the general fund—state appropriation for fiscal year 2018 is provided solely to reimburse Pierce and Spokane counties for the cost of conducting 180-day commitment hearings at the state psychiatric hospitals.

(j) Behavioral health organizations may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, behavioral health organizations may use a portion of the state funds allocated in accordance with (f) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(k) \$2,291,000 of the general fund—state appropriation for fiscal year 2018 is provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement. The department must collect information from the behavioral health organizations on their plan for using these funds, the numbers of individuals served, and the types

of services provided and submit a report to the office of financial management and the appropriate fiscal committees of the legislature by December 1st of each year of the biennium.

(l) Within the amounts appropriated in this section, funding is provided for the department to develop and phase in intensive mental health services for high needs youth consistent with the settlement agreement in *T.R. v. Dreyfus and Porter*.

(m) The department must establish minimum and maximum funding levels for all reserves allowed under behavioral health organization contracts and insert contract language that clearly states the requirements and limitations. The department must monitor and ensure that behavioral health organization reserves do not exceed maximum levels. The department must monitor behavioral health organization revenue and expenditure reports and must require a behavioral health organization to submit a corrective action plan on how it will spend its excess reserves within a reasonable period of time, when its reported reserves exceed maximum levels established under the contract. The department must review and approve such plans and monitor to ensure compliance. If the department determines that a behavioral health organization has failed to provide an adequate excess reserve corrective action plan or is not complying with an approved plan, the department must reduce payments to the behavioral health organization in accordance with remedial actions provisions included in the contract. These reductions in payments must continue until the department determines that the behavioral health organization has come into substantial compliance with an approved excess reserve corrective action plan.

(n) \$2,309,000 of the general fund—state appropriation for fiscal year 2018 and \$2,169,000 of the general fund—federal appropriation are provided solely for the department to increase rates for community hospitals that provide a minimum of 200 medicaid psychiatric inpatient days. The department must increase both medicaid and nonmedicaid psychiatric per-diem reimbursement rates for these providers within these amounts. The amounts in this subsection include funding for additional hold harmless payments resulting from the rate increase. The department shall prioritize increases for hospitals not currently paid based on provider specific costs using a similar methodology used to set rate for existing inpatient facilities and the latest available cost report information. Rate increases for providers must be set so as not to exceed the amounts provided within this subsection. The rate increase related to nonmedicaid clients must be done to maintain the provider at the same percentage as currently required under WAC 182-550-4800.

(o) \$100,000 of the general fund—state appropriation for fiscal year 2018 is provided solely for the department to collaborate with tribal governments and develop a plan for establishing an evaluation and treatment facility that will specialize in providing care specifically to the American Indian and Alaska Native population. The plan must include options for maximizing federal participation and, ensure that utilization will be based on medical

necessity, and identify a specific geographic location where a tribal evaluation and treatment facility will be built.

(p) \$1,466,000 of the general fund—state appropriation for fiscal year 2018 and \$1,663,000 of the general fund—federal appropriation are provided solely for the department to contract with community hospitals or freestanding evaluation and treatment centers to provide up to forty-eight long-term inpatient care beds as defined in RCW 71.24.025. The department must seek proposals and contract directly for these services rather than contracting through behavioral health organizations. The department must coordinate with the department of social and health services in developing the contract requirements, selecting contractors, and establishing processes for identifying patients that will be admitted to these facilities. The department must not use any of the amounts provided under this subsection for contracts with facilities that are subject to federal funding restrictions that apply to institutions of mental diseases, unless they have received a waiver that allows for full federal participation in these facilities.

(q) \$4,983,000 of the general fund—state appropriation for fiscal year 2018 and \$10,849,000 of the general fund—federal appropriation are provided solely for the department to increase medicaid capitation payments for behavioral health organizations. The department must work with the actuaries responsible for certifying behavioral health capitation rates to adjust average salary assumptions in order to implement this increase. In developing further updates for medicaid managed care rates for behavioral health services, the department must include and make available all applicable documents and analysis to legislative staff from the fiscal committees throughout the process. The department must require the actuaries to develop and submit rate ranges for each behavioral health organization prior to certification of specific rates.

(r) The number of beds allocated for use by behavioral health organizations at eastern state hospital shall be 192 per day. The number of nonforensic beds allocated for use by behavioral health organizations at western state hospital shall be 557 per day. In fiscal year 2019, the department must reduce the number of beds allocated for use by behavioral health organizations at western state hospital by 30 beds to allow for the repurposing of a civil ward at western state hospital to provide forensic services. The contracted beds provided under (p) of this subsection shall be allocated to the behavioral health organizations in lieu of beds at the state hospitals and be incorporated in their allocation of state hospital patient days of care for the purposes of calculating reimbursements pursuant to RCW 71.24.310. It is the intent of the legislature to continue the policy of expanding community based alternatives for long term civil commitment services that allow for state hospital beds to be prioritized for forensic patients.

(s) \$11,405,000 of the general fund—state appropriation for fiscal year 2018 and \$8,840,000 of the general fund—federal appropriation are provided solely to maintain enhancements of community mental health services. The department must contract these funds for the operation of community programs in which the department determines there is a need for capacity that allows

individuals to be diverted or transitioned from the state hospitals including but not limited to: (i) Community hospital or free standing evaluation and treatment services providing short-term detention and commitment services under the involuntary treatment act to be located in the geographic areas of the King behavioral health organization, the Spokane behavioral health organization outside of Spokane county, and the Thurston Mason behavioral health organization; (ii) one new full program of an assertive community treatment team in the King behavioral health organization and two new half programs of assertive community treatment teams in the Spokane behavioral health organization and the Pierce behavioral health organization; and (iii) three new recovery support services programs in the Great Rivers behavioral health organization, the greater Columbia behavioral health organization, and the north sound behavioral health organization. In contracting for community evaluation and treatment services, the department may not use these resources in facilities that meet the criteria to be classified under federal law as institutions for mental diseases. If the department is unable to come to a contract agreement with a designated behavioral health organization for any of the services identified above, it may consider contracting for that service in another region that has the need for such service.

(t) \$200,000 of the general fund—state appropriation for fiscal year 2018 is provided solely for clubhouse programs. The department must develop options and cost estimates for implementation of clubhouse programs statewide through a medicaid state plan amendment or a medicaid waiver and submit a report to the office of financial management and the appropriate committees of the legislature by December 1, 2018.

(u) \$212,000 of the general fund—state appropriation for fiscal year 2018 is provided solely to fund one pilot project in Pierce county and one in Yakima county to promote increased utilization of assisted outpatient treatment programs. The department shall require two behavioral health organizations to contract with local government to establish the necessary infrastructure for the programs. The department, in collaboration with the health care authority, shall provide a report by October 15, 2018, to the office of financial management and the appropriate fiscal and policy committees of the legislature to include the number of individuals served, outcomes to include reduced use of inpatient treatment and state hospital stays, and recommendations for further implementation based on lessons learned and best practices identified by the pilot projects.

(v) The department, in collaboration with the health care authority, shall work to ensure that a single platform provider credentialing system is implemented. The authority and department shall ensure that appropriate cost offsets and cost avoidance are assumed for reduced staff time required for provider credentialing activity and reductions in improper billing activity when implementing provider credentialing systems.

(w) No more than \$6,464,000 of the general fund—federal appropriation may be expended for supported housing and employment services described in initiative 3a

and 3b of the medicaid transformation demonstration waiver under healthier Washington. Under this initiative, the department and the health care authority shall ensure that allowable and necessary services are provided to eligible clients as identified by the department or its providers or third party administrator. The department and the authority in consultation with the medicaid forecast work group, shall ensure that reasonable reimbursements are established for services deemed necessary within an identified limit per individual. The department shall not increase general fund—state expenditures under this initiative. The secretary in collaboration with the director of the authority shall report to the joint select committee on health care oversight no less than quarterly on financial and health outcomes. The secretary in cooperation with the director shall also report to the fiscal committees of the legislature all of the expenditures of this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

(e) The department may authorize a one-time waiver of all or any portion of the licensing and processing fees required under RCW 70.128.060 in any case in which the department determines that an adult family home is being relicensed because of exceptional circumstances, such as death or incapacity of a provider, and that to require the full payment of the licensing and processing fees would present a hardship to the applicant. In these situations the department is also granted the authority to waive the required residential administrator training for a period of 120 days if necessary to ensure continuity of care during the relicensing process.

(f) Community residential cost reports that are submitted by or on behalf of contracted agency providers are required to include information about agency staffing including health insurance, wages, number of positions, and turnover.

These services are intended to provide families and caregivers with a break in caregiving, the opportunity for behavioral stabilization of the child, and the ability to partner with the

state in the development of an individualized service plan that allows the child to remain in his or her family home. The department must provide the legislature with a respite utilization report in January of each year that provides information about the number of children who have used enhanced respite in the preceding year, as well as the location and number of days per month that each respite bed was occupied.

The department must provide the legislature with a respite utilization report by January of each year that provides information about the number of individuals who have used community respite in the preceding year, as well as the location and number of days per month that each respite bed was occupied.

enters a community placement, then the person centered service plan must also identify and authorize this training.

(iii) When reviewing placement options, the department must consider the safety of other residents, as well as the safety of staff, in a facility. An initial evaluation of each placement, including any documented safety concerns, must occur within thirty days of a client leaving one of the state psychiatric hospitals and entering one of the community placement options described in (j)(i) of this subsection. At a minimum, the department must perform two additional evaluations of each placement during the first year that a client has lived in the facility.

(iv) During fiscal year 2018, in a presentation to the select committee on quality improvement in state hospitals, the department must describe the process of fielding and subsequently investigating complaints of abuse, neglect, and exploitation within the community alternative placement options described in (j)(i) of this subsection. (h) Sufficient amounts are appropriated in this subsection to implement the medicaid expansion as defined in the social security act, section 1902(a)(10)(A)(i)(VIII).

(i) The legislature finds that medicaid payment rates, as calculated by the health care authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(j) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(k) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(o) Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

(p) \$6,000,000 of the general fund—federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall submit reports to the governor and legislature by November 1, 2017, and by November 1, 2018, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2018 and fiscal year 2019, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable

hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (i) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2017-2019 biennial operating appropriations act and in effect on July 1, 2015, (ii) one-half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (iii) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2017-2019 fiscal biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. \$359,000 of the general fund—state appropriation for fiscal year 2018 and ~~(\$361,000)~~ \$553,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for state grants for the participating hospitals.

The authority may allow behavioral health organizations which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under (f) of this subsection. The authority and behavioral health organizations shall maintain consistency with all essential

Services in these facilities may include crisis stabilization and intervention, individual counseling, peer support, medication management, education, and referral assistance. The authority shall monitor each center's effectiveness at lowering the rate of state psychiatric hospital admissions.

(f) \$81,930,000 of the general fund—state appropriation for fiscal year 2019 is provided solely for persons and services not covered by the medicaid program. To the extent possible, levels of behavioral health organization spending must be maintained in the following priority order: Crisis and commitment services; community inpatient services; and residential care services, including personal care and emergency housing assistance. These amounts must be distributed to behavioral health organizations proportionate to the fiscal year 2017 allocation of flexible nonmedicaid funds. The authority must include the following language in medicaid contracts with behavioral health organizations unless they are provided formal notification from the center for medicaid and medicare services that the language will result in the loss of federal medicaid participation: "The contractor may voluntarily provide services that are in addition to those covered under the state plan, although the cost of these services cannot be included when determining payment rates unless including these costs are specifically allowed under federal law or an approved waiver."

(g) The authority is authorized to continue to contract directly, rather than through contracts with behavioral health organizations for children's long-term inpatient facility services.

(j) Behavioral health organizations may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, behavioral health organizations may use a portion of the state funds allocated in accordance with (f) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(k) \$2,291,000 of the general fund—state appropriation for fiscal year 2019 is provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement. The authority must monitor and ensure that behavioral health organization reserves do not exceed maximum levels. The

authority must monitor behavioral health organization revenue and expenditure reports and must require a behavioral health organization to submit a corrective action plan on how it will spend its excess reserves within a reasonable period of time, when its reported reserves exceed maximum levels established under the contract. The authority must review and approve such plans and monitor to ensure compliance. If the authority determines that a behavioral health organization has failed to provide an adequate excess reserve corrective action plan or is not complying with an approved plan, the authority must reduce payments to the behavioral health organization in accordance with remedial actions provisions included in the contract. These reductions in payments must continue until the authority determines that the behavioral health organization has come into substantial compliance with an approved excess reserve corrective action plan.

(n) \$3,079,000 of the general fund—state appropriation for fiscal year 2019 and \$2,892,000 of the general fund—federal appropriation are provided solely for the authority to increase rates for community hospitals that provide a minimum of two hundred medicaid psychiatric inpatient days. The authority must increase both medicaid and nonmedicaid psychiatric per-diem reimbursement rates for these providers within these amounts. The amounts in this subsection include funding for additional hold harmless payments resulting from the rate increase. The authority shall prioritize increases for hospitals not currently paid based on provider specific costs using a similar methodology used to set rates for existing inpatient facilities and the latest available cost report information. Rate increases for providers must be set so as not to exceed the amounts provided within this subsection. The rate increase related to nonmedicaid clients must be done to maintain the provider at the same percentage as currently required under WAC 182-550-4800.

(q) \$1,133,000 of the general fund—state appropriation for fiscal year 2019 and \$1,297,000 of the general fund—federal appropriation are provided solely to increase the number of psychiatric residential treatment beds for individuals transitioning from psychiatric inpatient settings. The authority must work with the actuaries responsible for certifying behavioral health capitation rates to adjust average salary assumptions in order to implement this increase. In developing further updates for medicaid managed care rates for behavioral health services, the authority must require the contracted actuaries to: (i) Review and consider comparison of salaries paid by government agencies and hospitals that compete with community providers for behavioral health workers in developing salary assumptions; and (ii) review data to see whether a specific travel assumption for high congestion areas is warranted. The authority must include and make available all applicable documents and analysis to legislative staff from the fiscal committees throughout the process. The authority must require the actuaries to develop and submit rate ranges for each behavioral health organization prior to certification of specific rates.

(s) The number of beds allocated for use by behavioral health organizations at eastern state hospital shall be one hundred ninety two per day. The number of nonforensic beds allocated for use by behavioral health organizations at western state hospital shall be five hundred fifty-seven per day. The contracted beds provided under (p) of this subsection shall be allocated to the behavioral health organizations in lieu of beds at the state hospitals and be incorporated in their allocation of state hospital patient days of care for the purposes of calculating reimbursements pursuant to RCW 71.24.310. It is the intent of the legislature to continue the policy of expanding community based alternatives for long term civil commitment services that allow for state hospital beds to be prioritized for forensic patients.

In contracting for community evaluation and treatment services, the authority may not use these resources in facilities that meet the criteria to be classified under federal law as institutions for mental diseases. If the authority is unable to come to a contract agreement with a designated behavioral health organization for any of the services identified above, it may consider contracting for that service in another region that has the need for such service.

(u) \$1,296,000 of the general fund—state appropriation for fiscal year 2019 is provided solely for clubhouse programs. The authority shall ensure that \$400,000 is used for the biennium for support of the Spokane clubhouse program and the remaining funds must be used for support of new clubhouse programs. The department of health and the state board of health shall not implement any new or amended rules pertaining to primary and secondary school facilities until the rules and a final cost estimate have been presented to the legislature, and the legislature has formally funded implementation of the rules through the omnibus appropriations act or by statute. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not

require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation that provides appropriation authority, and an equal amount of appropriated state moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

To reflect the reduced costs associated with regulation of accredited programs, the department's fees for organizations with such proof of accreditation must reflect the lower costs of licensing for these programs than for other organizations which are not accredited.

(b) The tax imposed under this section must also be collected by the department from the consumer of vapor products where the tax imposed under this section was not paid by the distributor on such vapor products.

(3)(a) The moneys collected under this section must be deposited as follows:

(i) Fifty percent into the Andy Hill cancer research endowment fund match transfer account created in RCW 43.348.080; and

NEW SECTION. Sec. 103. The foundational public health services account is created in the state treasury. Half of all of the moneys collected from the tax imposed on vapor products under RCW 66.44.010 must be deposited into the account. Moneys in the account may be spent only after appropriation. Moneys in the account are to be used for the following purposes:

sales of vapor products to minors and related provisions for control of marketing and product safety, provided that no more than eight percent of the funds deposited into the account may be appropriated for these enforcement purposes.

NEW SECTION. Sec. 104. It is the intent and purpose of this chapter to levy a tax on all vapor products sold, used, consumed, handled, possessed, or distributed within this state. It is the further intent and purpose of this chapter to impose the tax only once on all vapor products in this state. Nothing in this chapter may be construed to exempt any person taxable under any other law or under any other tax imposed under this title.

NEW SECTION. Sec. 105. The tax imposed by section 102 of this act does not apply with respect to any vapor products which under the Constitution and laws of the United States may not be made the subject of taxation by this state.

NEW SECTION. Sec. 106. (1) Every distributor must keep at each place of business complete and accurate records for that place of business, including itemized invoices, of vapor products held, purchased, manufactured, brought in or caused to be brought in from without the state, or shipped or transported to retailers in this state, and of all sales of vapor products made.

(2) These records must show the names and addresses of purchasers, the inventory of all vapor products, and other pertinent papers and documents relating to the purchase, sale, or disposition of vapor products. All invoices and other records required by this section to be kept must be preserved for a period of five years from the date of the invoices or other documents or the date of the entries appearing in the records.

(3) At any time during usual business hours the department, board, or its duly authorized agents or employees may enter any place of business of a distributor, without a search warrant, and inspect the premises, the records required to be kept under this chapter, and the vapor products contained therein, to determine whether or not all the provisions of this chapter are being fully complied with. If the department, board, or any of its agents or employees are denied free access or are hindered or interfered with in making such examination, the registration certificate issued under RCW 82.32.030 of the distributor at such premises are subject to revocation by the department, and any licenses issued under chapter 70.345, 82.26, or 82.24 RCW are subject to suspension or revocation by the board.

NEW SECTION. Sec. 107. Every person required to be licensed under chapter 70.345 RCW who sells vapor products to persons other than the ultimate consumer must render with each sale itemized invoices showing the seller's name and address, the purchaser's name and address, the date of sale, and all prices. The person must preserve legible copies of all such invoices for five years from the date of sale.

NEW SECTION. Sec. 108. (1) Every retailer must procure itemized invoices of all vapor products purchased.

The invoices must show the seller's name and address, the date of purchase, and all prices and discounts.

(2) The retailer must keep at each retail outlet copies of complete, accurate, and legible invoices for that retail outlet or place of business. All invoices required to be kept under this section must be preserved for five years from the date of purchase.

(3) At any time during usual business hours the department, board, or its duly authorized agents or employees may enter any retail outlet without a search warrant, and inspect the premises for invoices required to be kept under this section and the vapor products contained in the retail outlet, to determine whether or not all the provisions of this chapter are being fully complied with. If the department, board, or any of its agents or employees are denied free access or are hindered or interfered with in making the inspection, the registration certificate issued under RCW 82.32.030 of the retailer at the premises is subject to revocation by the department, and any licenses issued under chapter 70.345, 82.26, or 82.24 RCW are subject to suspension or revocation by the board.

NEW SECTION. Sec. 109. (1)(a) Where vapor products upon which the tax imposed by this chapter has been reported and paid are shipped or transported outside this state by the distributor to a person engaged in the business of selling vapor products, to be sold by that person, or are returned to the manufacturer by the distributor or destroyed by the distributor, or are sold by the distributor to the United States or any of its agencies or instrumentalities, or are sold by the distributor to any Indian tribal organization, credit of such tax may be made to the distributor in accordance with rules prescribed by the department.

(b) For purposes of this subsection (1), the following definitions apply:

(i) "Indian distributor" means a federally recognized Indian tribe or tribal entity that would otherwise meet the definition of "distributor" under section 101 of this act, if federally recognized Indian tribes and tribal entities were not excluded from the definition of "person" in section 101 of this act.

(ii) "Indian retailer" means a federally recognized Indian tribe or tribal entity that would otherwise meet the definition of "retailer" under section 101 of this act, if federally recognized Indian tribes and tribal entities were not excluded from the definition of "person" in section 101 of this act.

(iii) "Indian tribal organization" means a federally recognized Indian tribe, or tribal entity, and includes an Indian distributor or retailer that is owned by an Indian who is an enrolled tribal member conducting business under tribal license or similar tribal approval within Indian country.

(2) Credit allowed under this section must be determined based on the tax rate in effect for the period for which the tax imposed by this chapter, for which a credit is sought, was paid.

NEW SECTION. Sec. 110. All of the provisions contained in chapter 82.32 RCW not inconsistent with the provisions of this chapter have full force and application with respect to taxes imposed under the provisions of this chapter.

NEW SECTION. Sec. 111. The department must authorize, as duly authorized agents, enforcement officers of the board to enforce provisions of this chapter. These officers are not employees of the department.

NEW SECTION. Sec. 112. (1) The department may by rule establish the invoice detail required under section 106 of this act for a distributor and for those invoices required to be provided to retailers under section 108 of this act.

(2) If a retailer fails to keep invoices as required under section 108 of this act, the retailer is liable for the tax owed on any uninvoiced vapor products but not penalties and interest, except as provided in subsection (3) of this section.

(3) If the department finds that the nonpayment of tax by the retailer was willful or if in the case of a second or plural nonpayment of tax by the retailer, penalties and interest must be assessed in accordance with chapter 82.32 RCW.

NEW SECTION. Sec. 113. (1) No person may transport or cause to be transported in this state vapor products for sale other than: (a) A licensed distributor under chapter 70.345 RCW, or a manufacturer's representative authorized to sell or distribute vapor products in this state under chapter 70.345 RCW; (b) a licensed retailer under chapter 70.345 RCW; (c) a seller with a valid delivery sale license under chapter 70.345 RCW; or (d) a person who has given notice to the board in advance of the commencement of transportation.

(2) When transporting vapor products for sale, the person must have in his or her actual possession, or cause to have in the actual possession of those persons transporting such vapor products on his or her behalf, invoices or delivery tickets for the vapor products, which must show the true name and address of the consignor or seller, the true name and address of the consignee or purchaser, and the quantity and brands of the vapor products being transported.

(3) In any case where the department or the board, or any peace officer of the state, has knowledge or reasonable grounds to believe that any vehicle is transporting vapor products in violation of this section, the department, board, or peace officer is authorized to stop the vehicle and to inspect it for contraband vapor products.

(4) This section does not apply to a motor carrier or freight forwarder as defined in Title 49 U.S.C. Sec. 13102 or an air carrier as defined in Title 49 U.S.C. Sec. 40102.

NEW SECTION. Sec. 114. The board must compile and maintain a current record of the names of all distributors, retailers, and delivery sales licenses under chapter 70.345 RCW and the status of their license or licenses. The information must be updated on a monthly basis and published on the board's official internet web site.

This information is not subject to the confidentiality provisions of RCW 82.32.330 and must be disclosed to manufacturers, distributors, retailers, and the general public upon request.

NEW SECTION. Sec. 115. (1) No person engaged in or conducting business as a distributor or retailer in this state may:

(a) Make, use, or present or exhibit to the department or the board any invoice for any of the vapor products taxed under this chapter that bears an untrue date or falsely states the nature or quantity of the goods invoiced; or

(b) Fail to produce on demand of the department or the board all invoices of all the vapor products taxed under this chapter within five years prior to such demand unless the person can show by satisfactory proof that the nonproduction of the invoices was due to causes beyond the person's control.

(2)(a) No person, other than a licensed distributor, retailer or delivery sales licensee, or manufacturer's representative, may transport vapor products for sale in this state for which the taxes imposed under this chapter have not been paid unless:

(i) Notice of the transportation has been given as required under section 113 of this act;

(ii) The person transporting the vapor products actually possesses invoices or delivery tickets showing the true name and address of the consignor or seller, the true name and address of the consignee or purchaser, and the quantity and brands of vapor products being transported; and

(iii) The vapor products are consigned to or purchased by a person in this state who is licensed under chapter 70.345 RCW.

(b) A violation of this subsection (2) is a gross misdemeanor.

(3) Any person licensed under chapter 70.345 RCW as a distributor, and any person licensed under chapter 70.345 RCW as a retailer, may not operate in any other capacity unless the additional appropriate license is first secured, except as otherwise provided by law. A violation of this subsection (3) is a misdemeanor.

(4) The penalties provided in this section are in addition to any other penalties provided by law for violating the provisions of this chapter or the rules adopted under this chapter.

(5) This section does not apply to a motor carrier or freight forwarder as defined in Title 49 U.S.C. Sec. 13102 or an air carrier as defined in Title 49 U.S.C. Sec. 40102.

NEW SECTION. Sec. 116. (1) A retailer that obtains vapor products from an unlicensed distributor or any other person that is not licensed under chapter 70.345 RCW must be licensed both as a retailer and a distributor and is liable for the tax imposed under section 102 of this act with respect to the vapor products acquired from the unlicensed person that are held for sale, handling, or distribution in this state. For the purposes of this subsection, "person" includes

both persons defined in this act and any person immune from state taxation, such as the United States or its instrumentalities, and federally recognized Indian tribes and enrolled tribal members, conducting business within Indian country.

(2) Every distributor licensed under chapter 70.345 RCW may sell vapor products to retailers located in Washington only if the retailer has a current retailer's license under chapter 70.345 RCW.

NEW SECTION. Sec. 117. A manufacturer that has manufacturer's representatives who sell or distribute the manufacturer's vapor products in this state must provide the board a list of the names and addresses of all such representatives and must ensure that the list provided to the board is kept current. A manufacturer's representative is not authorized to distribute or sell vapor products in this state unless the manufacturer that hired the representative has a valid distributor's license under chapter 70.345 RCW and that manufacturer provides the board a current list of all of its manufacturer's representatives as required by this section. A manufacturer's representative must carry a copy of the distributor's license of the manufacturer that hired the representative at all times when selling or distributing the manufacturer's vapor products.

NEW SECTION. Sec. 118. (1) Any vapor products in the possession of a person selling vapor products in this state acting as a distributor or retailer and who is not licensed as required under chapter 70.345 RCW, or a person who is selling vapor products in violation of RCW 82.24.550(6), may be seized without a warrant by any agent of the department, agent of the board, or law enforcement officer of this state. Any vapor products seized under this subsection are deemed forfeited.

(2) Any vapor products in the possession of a person who is not a licensed distributor, delivery seller, manufacturer's representative, or retailer and who transports vapor products for sale without having provided notice to the board required under section 113 of this act, or without invoices or delivery tickets showing the true name and address of the consignor or seller, the true name and address of the consignee or purchaser, and the quantity and brands of vapor products being transported may be seized and are subject to forfeiture.

(3) All conveyances, including aircraft, vehicles, or vessels that are used, or intended for use to transport, or in any manner to facilitate the transportation, for the purpose of sale or receipt of vapor products under subsection (2) of this section, may be seized and are subject to forfeiture except:

(a) A conveyance used by any person as a common or contract carrier having in actual possession invoices or delivery tickets showing the true name and address of the consignor or seller, the true name of the consignee or purchaser, and the quantity and brands of the vapor products transported, unless it appears that the owner or other person in charge of the conveyance is a consenting party or privy to a violation of this chapter;

(b) A conveyance subject to forfeiture under this section by reason of any act or omission of which the owner

establishes to have been committed or omitted without his or her knowledge or consent; or

(c) A conveyance encumbered by a bona fide security interest if the secured party neither had knowledge of nor consented to the act or omission.

(4) Property subject to forfeiture under subsections (2) and (3) of this section may be seized by any agent of the department, the board, or law enforcement officer of this state upon process issued by any superior court or district court having jurisdiction over the property. Seizure without process may be made if:

(a) The seizure is incident to an arrest or a search warrant or an inspection under an administrative inspection warrant; or

(b) The department, board, or law enforcement officer has probable cause to believe that the property was used or is intended to be used in violation of this chapter and exigent circumstances exist making procurement of a search warrant impracticable.

(5) This section may not be construed to require the seizure of vapor products if the department's agent, board's agent, or law enforcement officer reasonably believes that the vapor products are possessed for personal consumption by the person in possession of the vapor products.

(6) Any vapor products seized by a law enforcement officer must be turned over to the board as soon as practicable.

(7) This section does not apply to a motor carrier or freight forwarder as defined in Title 49 U.S.C. Sec. 13102 or an air carrier as defined in Title 49 U.S.C. Sec. 40102.

NEW SECTION. Sec. 119. (1) In all cases of seizure of any vapor products made subject to forfeiture under this chapter, the department or board must proceed as provided in RCW 82.24.135.

(2) When vapor products are forfeited under this chapter, the department or board may:

(a) Retain the property for official use or upon application by any law enforcement agency of this state, another state, or the District of Columbia, or of the United States for the exclusive use of enforcing this chapter or the laws of any other state or the District of Columbia or of the United States; or

(b) Sell the vapor products at public auction to the highest bidder after due advertisement. Before delivering any of the goods to the successful bidder, the department or board must require the purchaser to pay the proper amount of any tax due. The proceeds of the sale must be first applied to the payment of all proper expenses of any investigation leading to the seizure and of the proceedings for forfeiture and sale, including expenses of seizure, maintenance of custody, advertising, and court costs. The balance of the proceeds and all money must be deposited in the general fund of the state. Proper expenses of investigation include costs incurred by any law enforcement agency or any federal, state, or local agency.

(3) The department or the board may return any property seized under the provisions of this chapter when it is shown that there was no intention to violate the provisions of this chapter. When any property is returned under this section, the department or the board may return the property to the parties from whom they were seized if and when such parties have paid the proper amount of tax due under this chapter.

NEW SECTION. Sec. 120. When the department or the board has good reason to believe that any of the vapor products taxed under this chapter are being kept, sold, offered for sale, or given away in violation of the provisions of this chapter, it may make affidavit of facts describing the place or thing to be searched, before any judge of any court in this state, and the judge must issue a search warrant directed to the sheriff, any deputy, police officer, or duly authorized agent of the department or the board commanding him or her diligently to search any building, room in a building, place, or vehicle as may be designated in the affidavit and search warrant, and to seize the vapor products and hold them until disposed of by law.

NEW SECTION. Sec. 121. (1)(a) Where vapor products upon which the tax imposed by this chapter has been reported and paid are shipped or transported outside this state by the distributor to a person engaged in the business of selling vapor products, to be sold by that person, or are returned to the manufacturer by the distributor or destroyed by the distributor, or are sold by the distributor to the United States or any of its agencies or instrumentalities, or are sold by the distributor to any Indian tribal organization, credit of such tax may be made to the distributor in accordance with rules prescribed by the department.

(b) For purposes of this subsection (1), the following definitions apply:

(i) "Indian distributor" means a federally recognized Indian tribe or tribal entity that would otherwise meet the definition of "distributor" under section 101 of this act, if federally recognized Indian tribes and tribal entities were not excluded from the definition of "person" in section 101 of this act.

(ii) "Indian retailer" means a federally recognized Indian tribe or tribal entity that would otherwise meet the definition of "retailer" under section 101 of this act, if federally recognized Indian tribes and tribal entities were not excluded from the definition of "person" in section 101 of this act.

NEW SECTION. Sec. 122. (1) Preexisting inventories of vapor products are subject to the tax imposed in section 102 of this act. All retailers and other distributors must report the tax due under section 102 of this act on preexisting inventories of vapor products on a form, as prescribed by the department, on or before October 31, 2019, and the tax due on such preexisting inventories must be paid on or before January 31, 2020.

(2) Reports under subsection (1) of this section not filed with the department by October 31, 2019, are subject to a late filing penalty equal to the greater of two hundred fifty dollars or ten percent of the tax due under section 102 of this act on the taxpayer's preexisting inventories.

(3) The department must notify the taxpayer of the amount of tax due under section 102 of this act on preexisting inventories, which is subject to applicable penalties under RCW 82.32.090 (2) through (7) if unpaid after January 31, 2020. Amounts due in accordance with this section are not considered to be substantially underpaid for the purposes of RCW 82.32.090(2).

(4) Interest, at the rate provided in RCW 82.32.050(2), must be computed daily beginning February 1, 2020, on any remaining tax due under section 102 of this act on preexisting inventories until paid.

(5) A retailer required to comply with subsection (1) of this section is not required to obtain a distributor license as otherwise required under chapter 70.345 RCW as long as the retailer:

(a) Does not sell vapor products other than to ultimate consumers; and

(b) Does not meet the definition of "distributor" in section 101 of this act other than with respect to the sale of that retailer's preexisting inventory of vapor products.

(6) Taxes may not be collected under section 102 of this act from consumers with respect to any vapor products acquired before the effective date of this section.

(7) For purposes of this section, "preexisting inventory" means an inventory of vapor products located in this state as of the moment that section 102 of this act takes effect and held by a distributor for sale, handling, or distribution in this state.

In addition, for the purpose of reviewing an application for a wholesaler's license or retailer's license and for considering the denial, suspension, or revocation of any such license, the board may consider any prior criminal conduct of the applicant, including an administrative violation history record with the board and a criminal history record information check within the previous five years, in any state, tribal, or federal jurisdiction in the United States, its territories, or possessions, and the provisions of RCW 9.95.240 and chapter 9.96A RCW do not apply to such cases. If the applicant or licensee also has a license issued under chapter 66.24 (~~(or)~~), 82.26, or 70.345 RCW, the background check done under the authority of chapter 66.24 (~~(or)~~), 82.26, or 70.345 RCW satisfies the requirements of this section.

(4) Each such license expires on the business license expiration date, and each such license must be continued annually if the licensee has paid the required fee and complied with all the provisions of this chapter and the rules of the board made pursuant thereto.

(5) Each license and any other evidence of the license that the board requires must be exhibited in each place of business for which it is issued and in the manner required for the display of a business license.

(3) A license may not be suspended or revoked except upon notice to the licensee and after a hearing as prescribed by the board. The board, upon finding that the licensee has failed to comply with any provision of this chapter or any rule adopted under this chapter, must, in the case of the first offense, suspend the license or licenses of the licensee for a period of not less than thirty consecutive business days, and, in the case of a second or further offense, must suspend the license or licenses for a period of not less than ninety consecutive business days nor more than twelve months, and, in the event the board finds the licensee has been guilty of willful and persistent violations, it may revoke the license or licenses.

(5) Any person whose license or licenses have been revoked under this section may reapply to the board at the expiration of one year from the date of revocation of the license or licenses. The license or licenses may be approved by the board if it appears to the satisfaction of the board that the licensee will comply with the provisions of this chapter and the rules adopted under this chapter.

(6) A person whose license has been suspended or revoked may not sell cigarettes, vapor products, or tobacco products or permit cigarettes, vapor products, or tobacco products to be sold during the period of such suspension or revocation on the premises occupied by the person or upon other premises controlled by the person or others in any other manner or form whatever.

(7) Any determination and order by the board, and any order of suspension or revocation by the board of the license or licenses issued under this chapter, or refusal to reinstate a license or licenses after revocation is reviewable by an appeal to the superior court of Thurston county. The purchaser must return the signed certification form to the licensee before the initial shipment of product. Certification forms are not required for repeat customers. In the alternative, before a seller delivers an initial purchase to any person, the seller must first obtain from the prospective customer an electronic certification, such as by email, that includes a declaration that, at a minimum, the prospective

customer is over the minimum age required for the legal sale of a vapor product, and the credit or debit card used for payment has been issued in the purchaser's name.

(7) A delivery sale licensee must include on shipping documents a clear and conspicuous statement which includes, at a minimum, that the package contains vapor products, Washington law prohibits sales to those under the minimum age established by this chapter, and violations may result in sanctions to both the licensee and the purchaser.

(8) For purposes of this subsection (8), "vapor products" has the same meaning as provided in section 101 of this act.

(9) A person who knowingly violates this section is guilty of a class C felony, except that the maximum fine that may be imposed is five thousand dollars.

~~((9))~~ (10) In addition to or in lieu of any other civil or criminal remedy provided by law, a person who has violated this section is subject to a civil penalty of up to five thousand dollars for each violation. The attorney general, acting in the name of the state, may seek recovery of the penalty in a civil action in superior court.

~~((10))~~ (11) The attorney general may seek an injunction in superior court to restrain a threatened or actual violation of this section and to compel compliance with this section.

~~((11))~~ (12) Any violation of this section is not reasonable in relation to the development and preservation of business and is an unfair and deceptive act or practice and an unfair method of competition in the conduct of trade or commerce in violation of RCW 19.86.020. Standing to bring an action to enforce RCW 19.86.020 for violation of this section lies solely with the attorney general. Remedies provided by chapter 19.86 RCW are cumulative and not exclusive.

~~((12))~~ (13)(a) In any action brought under this section, the state is entitled to recover, in addition to other relief, the costs of investigation, expert witness fees, costs of the action, and reasonable attorneys' fees.

(b) If a court determines that a person has violated this section, the court shall order any profits, gain, gross receipts, or other benefit from the violation to be disgorged and paid to the state treasurer for deposit in the general fund.

~~((13))~~ (14) Unless otherwise expressly provided, the penalties or remedies, or both, under this section are in addition to any other penalties and remedies available under any other law of this state.

~~((14))~~ (15) A licensee who violates this section is subject to license suspension or revocation by the board.

~~((15))~~ (16) The board may adopt by rule additional requirements for mail or internet sales.

~~((16))~~ (17) The board must not adopt rules prohibiting internet sales.

Part III

Tribal Compacting

Sec. 301. RCW 43.06.450 and 2001 c 235 s 1 are each amended to read as follows:

The legislature intends to further the government-to-government relationship between the state of Washington and Indians in the state of Washington by authorizing the governor to enter into contracts concerning the sale of cigarettes and vapor products. The legislature finds that these cigarette tax and vapor product tax contracts will provide a means to promote economic development, provide needed revenues for tribal governments and Indian persons, and enhance enforcement of the state's cigarette tax ~~((law))~~ and vapor product tax, ultimately saving the state money and reducing conflict. In addition, it is the intent of the legislature that the negotiations and the ensuing contracts ~~((shall))~~ have no impact on the state's share of the proceeds under the master settlement agreement entered into on November 23, 1998, by the state. Chapter 235, Laws of 2001 ~~((does))~~ and this act do not constitute a grant of taxing authority to any Indian tribe nor ~~((does it))~~ do they provide precedent for the taxation of non-Indians on fee land.

NEW SECTION. Sec. 302. A new section is added to chapter 43.06 RCW to read as follows:

(1) The governor may enter into vapor product tax contracts concerning the sale of vapor products. All vapor product tax contracts must meet the requirements for vapor product tax contracts under this section.

(2) Vapor product tax contracts must be in regard to retail sales in which Indian retailers make delivery and physical transfer of possession of the vapor products from the seller to the buyer within Indian country, and are not in regard to transactions by non-Indian retailers. In addition, contracts may address the legal age of sale for vapor products pursuant to section 11, chapter 15, Laws of 2019.

(3) A vapor product tax contract with a tribe must provide for a tribal vapor product tax in lieu of all state vapor product taxes and state and local sales and use taxes on sales of vapor products in Indian country by Indian retailers. The tribe may allow an exemption for sales to tribal members.

(4) Vapor product tax contracts must provide that retailers must purchase vapor products only from:

(a) Wholesalers or manufacturers licensed to do business in the state of Washington;

(b) Out-of-state wholesalers or manufacturers who, although not licensed to do business in the state of Washington, agree to comply with the terms of the vapor product tax contract, are certified to the state as having so agreed, and do in fact so comply. However, the state may in its sole discretion exercise its administrative and enforcement powers over such wholesalers or manufacturers to the extent permitted by law;

(c) A tribal wholesaler that purchases only from a wholesaler or manufacturer described in (a), (b), or (d) of this subsection; and

(d) A tribal manufacturer.

(5) Vapor product tax contracts must be for renewable periods of no more than eight years.

(6) Vapor product tax contracts must include provisions for compliance, such as transport and notice requirements, inspection procedures, recordkeeping, and audit requirements.

(7) Tax revenue retained by a tribe must be used for essential government services. Use of tax revenue for subsidization of vapor products and food retailers is prohibited.

(8) The vapor product tax contract may include provisions to resolve disputes using a nonjudicial process, such as mediation.

(9) The governor may delegate the power to negotiate vapor product tax contracts to the department of revenue. The department of revenue must consult with the liquor and cannabis board during the negotiations.

(10) Information received by the state or open to state review under the terms of a contract is subject to the provisions of RCW 82.32.330.

(11) It is the intent of the legislature that the liquor and cannabis board and the department of revenue continue the division of duties and shared authority under chapter 82.-- RCW (the new chapter created in section 408 of this act) and therefore the liquor and cannabis board is responsible for enforcement activities that come under the terms of chapter 82.--- RCW (the new chapter created in section 408 of this act).

(12) Each vapor product tax contract must include a procedure for notifying the other party that a violation has occurred, a procedure for establishing whether a violation has in fact occurred, an opportunity to correct such violation, and a provision providing for termination of the contract should the violation fail to be resolved through this process, such termination subject to mediation should the terms of the contract so allow. A contract must provide for termination of the contract if resolution of a dispute does not occur within twenty-four months from the time notification of a violation has occurred. Intervening violations do not extend this time period. In addition, the contract must include provisions delineating the respective roles and responsibilities of the tribe, the department of revenue, and the liquor and cannabis board.

(13) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Essential government services" means services such as tribal administration, public facilities, fire, police, public health, education, job services, sewer, water, environmental and land use, transportation, utility services, and economic development.

(b) "Indian country" has the same meaning as provided in RCW 82.24.010.

(c) "Indian retailer" or "retailer" means:

(i) A retailer wholly owned and operated by an Indian tribe;

(ii) A business wholly owned and operated by a tribal member and licensed by the tribe; or

(iii) A business owned and operated by the Indian person or persons in whose name the land is held in trust.

(d) "Indian tribe" or "tribe" means a federally recognized Indian tribe located within the geographical boundaries of the state of Washington.

(e) "Vapor products" has the same meaning as provided in section 101 of this act.

NEW SECTION. Sec. 303. A new section is added to chapter 43.06 RCW to read as follows:

(1) The governor is authorized to enter into vapor product tax contracts with federally recognized Indian tribes located within the geographical boundaries of the state of Washington. Each contract adopted under this section must provide that the tribal vapor product tax rate be one hundred percent of the state vapor product tax and state and local sales and use taxes. The tribal vapor product tax is in lieu of the state vapor product tax and state and local sales and use taxes, as provided in section 302(3) of this act.

(2) A vapor product tax contract under this section is subject to section 302 of this act and is separate from a cigarette tax contract subject to RCW 43.06.455 or 43.06.466.

NEW SECTION. Sec. 304. A new section is added to chapter 43.06 RCW to read as follows:

(1) The governor may enter into a vapor product tax agreement with the Puyallup Tribe of Indians concerning the sale of vapor products, subject to the limitations in this section. The legislature intends to address the uniqueness of the Puyallup Indian reservation and its selling environment through pricing and compliance strategies, rather than through the imposition of equivalent taxes. The governor may delegate the authority to negotiate a vapor product tax agreement with the Puyallup Tribe to the department of revenue. The department of revenue must consult with the liquor and cannabis board during the negotiations. An agreement under this section is separate from an agreement under RCW 43.06.465.

(2) Any agreement must require the tribe to impose a tribal vapor product tax with a tax rate that is ninety percent of the state vapor product tax. This tribal tax is in lieu of the combined state and local sales and use taxes and the state vapor product tax, and as such these state taxes are not imposed during the term of the agreement on any transaction governed by the agreement. The tribal vapor product tax must increase or decrease at the time of any increase or decrease in the state vapor product tax so as to remain at a level that is ninety percent of the rate of the state vapor product tax.

(3) The agreement must include a provision requiring the tribe to transmit thirty percent of the tribal tax revenue on all vapor products sales to the state. The funds must be transmitted to the state treasurer on a quarterly basis for deposit by the state treasurer into the general fund. The remaining tribal tax revenue must be used for essential

government services, as that term is defined in section 302 of this act.

(4) The agreement is limited to retail sales in which Indian retailers make delivery and physical transfer of possession of the vapor products from the seller to the buyer within Indian country, and are not in regard to transactions by non-Indian retailers. In addition, agreements may address the legal age of sale for vapor products pursuant to section 11, chapter 15, Laws of 2019.

(5)(a) The agreement must include a provision to price and sell the vapor products so that the retail selling price is not less than the price paid by the retailer for the vapor products.

(b) The tribal tax is in addition to the retail selling price.

(c) The agreement must include a provision to assure the price paid to the retailer includes the tribal tax.

(d) If the tribe is acting as a distributor to tribal retailers, the retail selling price must not be less than the price the tribe paid for such vapor products plus the tribal tax.

(6)(a) The agreement must include provisions regarding enforcement and compliance by the tribe in regard to enrolled tribal members who sell vapor products and must describe the individual and joint responsibilities of the tribe, the department of revenue, and the liquor and cannabis board.

(b) The agreement must include provisions for tax administration and compliance, such as transport and notice requirements, inspection procedures, recordkeeping, and audit requirements.

(c) The agreement must include provisions for sharing of information among the tribe, the department of revenue, and the liquor and cannabis board.

(7) The agreement must provide that retailers must purchase vapor products only from distributors or manufacturers licensed to do business in the state of Washington.

(8) The agreement must be for a renewable period of no more than eight years.

(9) The agreement must include provisions to resolve disputes using a nonjudicial process, such as mediation, and must include a dispute resolution protocol. The protocol must include a procedure for notifying the other party that a violation has occurred, a procedure for establishing whether a violation has in fact occurred, an opportunity to correct such violation, and a provision providing for termination of the agreement should the violation fail to be resolved through this process, such termination subject to mediation should the terms of the agreement so allow. An agreement must provide for termination of the agreement if resolution of a dispute does not occur within twenty-four months from the time notification of a violation has occurred. Intervening violations do not extend this time period.

(10) Information received by the state or open to state review under the terms of an agreement is subject to RCW 82.32.330.

(11) It is the intent of the legislature that the liquor and cannabis board and the department of revenue continue the division of duties and shared authority under chapter 82.-- RCW (the new chapter created in section 408 of this act).

(12) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Indian country" has the same meaning as provided in RCW 82.24.010.

(b) "Indian retailer" or "retailer" means:

(i) A retailer wholly owned and operated by an Indian tribe; or

(ii) A business wholly owned and operated by an enrolled tribal member and licensed by the tribe.

(c) "Indian tribe" or "tribe" means the Puyallup Tribe of Indians, which is a federally recognized Indian tribe located within the geographical boundaries of the state of Washington.

(d) "Vapor products" has the same meaning as provided in section 101 of this act.

NEW SECTION. Sec. 305. A new section is added to chapter 82.08 RCW to read as follows:

(1) The tax levied by RCW 82.08.020 does not apply to sales of vapor products by an Indian retailer during the effective period of a vapor product tax contract subject to section 303 of this act or a vapor product tax agreement under section 304 of this act.

(2) The definitions in section 302 of this act apply to this section.

NEW SECTION. Sec. 306. A new section is added to chapter 82.12 RCW to read as follows:

(1) The provisions of this chapter do not apply in respect to the use of vapor products sold by an Indian retailer during the effective period of a vapor product tax contract subject to section 303 of this act or a vapor product tax agreement under section 304 of this act.

(2) The definitions in section 302 of this act apply to this section.

Sec. 307. 2019 c 15 s 11 (uncodified) is amended to read as follows:

In recognition of the sovereign authority of tribal governments, the governor may seek government-to-government consultations with federally recognized Indian tribes regarding raising the minimum legal age of sale in compacts entered into pursuant to RCW 43.06.455, 43.06.465, ~~((and))~~ 43.06.466, and sections 302 through 304 of this act. The office of the governor shall report to the appropriate committees of the legislature regarding the status of such consultations no later than December 1, 2020.

Part IV

May 21, 2019

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 1029(5), 1043(3), 1082(2), 1083(2), 1091(2), 3102, and 7019, Substitute House Bill No. 1102 entitled:

“AN ACT Relating to the capital budget.”

Section 1029(5), page 17, Department of Commerce, 2019-21 Housing Trust Fund Program (4000036)

I commend the Legislature for the capital budget appropriation of \$175 million for the Housing Trust Fund program. This vital funding will help preserve and build affordable units to address our state’s housing crisis. I share the concern that some projects serving those most in need lack sufficient funding streams to support long-term operations and services. However, Section 1029(5) directs Commerce to prioritize loan deferment for nearly all projects funded by the Housing Trust Fund. This proviso does not recognize that most of these projects serve a mix of households, including many that pay rent. Loan repayments from developers who receive rental income are reinvested in future Housing Trust Fund projects. I am directing the department to work with stakeholders and legislators to develop a fair and transparent policy for loan repayments, with the goal of ensuring the long-term viability of the state’s affordable housing investments. For these reasons, I have vetoed Section 1029(5).

Section 1043(3), page 45, Department of Commerce, Washington Broadband Program (40000117)

I appreciate the bipartisan effort to pass the Washington state broadband service bill (Second Substitute Senate Bill 5511) to expand affordable, resilient broadband service. The bill lays out the roles and responsibilities of the agencies involved, including the Governor’s statewide broadband office, Public Works Board (PWB), Community Economic Revitalization Board (CERB), Department of Commerce, and Utilities and Transportation Commission (UTC). However, Section 1043(3) contains language requiring the PWB to collaborate with CERB to implement the funding provided in the Universal Communications Services Account. This account funds the state universal communications services program administered by the UTC, and by statute only the UTC may authorize expenditures from the account. For this reason, I have vetoed Section 1043(3).

Section 1082(2), page 63, Department of Enterprise Services, Roof Replacement – Cherberg and Insurance Buildings (40000032)

This appropriation is for the replacement and construction of the Insurance and Cherberg Building roofs. This amount assumes cost savings by completing both roofs at the same time. Section 1082(2) limits the ability to complete this project by requiring the completion of the Cherberg Building roof before beginning work on the Insurance Building. For this reason, I have vetoed Section 1082(2).

Section 1083(2), pages 63-64, Department of Enterprise Services, Legislative Building Exterior Preservation Cleaning (4000033)

This reappropriation is for cleaning the exterior of the Legislative Building and to make various repairs. Section 1083(2) sets unrealistic expectations for what the department will be able to complete within the amount appropriated. For this reason, I have vetoed Section 1083(2). However, the department will continue the cleaning and repair work with the funding provided.

Section 1091(2), pages 66-67, Department of Enterprise Services, Legislative Building Cleaning (9200028)

This appropriation is for cleaning the exterior of Capitol Campus buildings, beginning with the Insurance Building. Section 1091(2) sets unrealistic expectations for what the department will be able to complete within the amount appropriated. For this reason, I have vetoed Section 1091(2). However, the department will continue the cleaning and repair work with the funding provided.

Section 3102, page 140, Department of Ecology, Port of Port Angeles Stormwater (91000358)

The appropriation in Section 3102 is duplicative of Section 129 of the 2019-21 operating budget (Engrossed Substitute House Bill 1109). For this reason, I have vetoed Section 3102.

Section 7019, pages 315-316, Review of Hazardous Substance Tax

This section directs the Department of Ecology, in consultation with the Department of Revenue and the Department of Transportation, to review the enforcement of the application of the hazardous substance tax to aviation fuels and submit recommendations to the appropriate legislative committees for the application of all state and local taxes to these fuels. The budget did not include funding for this effort and the cost of this work cannot be absorbed. However, I am directing the Office of Financial Management to collaborate with these agencies to examine revenue and expenditure data in light of any relevant federal regulations. For these reasons, I have vetoed Section 7019.

For these reasons I have vetoed Sections 1029(5), 1043(3), 1082(2), 1083(2), 1091(2), 3102, and 7019 of Substitute House Bill No. 1102.

With the exception of Sections 1029(5), 1043(3), 1082(2), 1083(2), 1091(2), 3102, and 7019, Substitute House Bill No. 1102 is approved.

Respectfully submitted,

May 21, 2019

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 103(2); 127(13); 129(37); 129(43); 129(73); 131(12); 131(13); 144(3); 144(5); 147, page 67, lines 3-8; 203(1)(m); 203(1)(v); 203(1)(x); 204(30); 204(34); 205(1)(d)(ii); 212(6); 222(1)(a); 222(3)(c); 302(10); 302(30); 306(4); 308(22); 309(15); 401(3); 601(9); 613(3); 723; 1005, page 464, lines 11-13; 1020; 1118(3), page 649, lines 12-13; 1118(4), page 656, lines 16-17; and 1702, page 801, lines 28-30, Engrossed Substitute House Bill No. 1109 entitled:

“AN ACT Relating to fiscal matters.”

Section 103(2), page 3, Joint Legislative Audit and Review Committee, Study

This section provides \$19,000 from the Performance Audits of Government Account solely for implementation of Engrossed Third Substitute House Bill 1324. This funding was provided for an earlier version of the bill that required JLARC to complete a study. The final bill does not require a JLARC study. For this reason, I have vetoed Section 103(2).

Section 129(43), page 36, Department of Commerce, Biorefinery Feasibility Study

This section provides \$300,000 General Fund–State to contract with the University of Washington for a feasibility study to construct a biorefinery in southwest Washington. This section duplicates funding provided to the University of Washington in Section 606(1)(nn) for this same purpose. For this reason, I have vetoed Section 129(43).

Section 129(73), page 44, Department of Commerce, Engrossed Substitute Senate Bill 5600, Residential Tenants

This section states that the appropriations for the Department of Commerce include sufficient funding for implementation of Engrossed Substitute Senate Bill 5600 (ESSB 5600). ESSB 5600 is null and void if specific funding is not provided in the capital or operating appropriations bills. Funding was provided in Section 1065 of Substitute House Bill 1102 (the 2019-21 capital budget) specifically for implementation of ESSB 5600, which satisfies the null and void clause in the bill. For this reason, I have vetoed Section 129(73).

Section 131(12), pages 48-49, Office of Financial Management, Facilities Data Reporting

The Office of Financial Management’s (OFM) current lease tracking database, the Facilities Portfolio Management Tool (FPMT), does not have the capacity to provide all of the fund source

data required by Section 131(12). Funding for modifications to FPMT provided in Section 131(11) will enable OFM to meet the data collection requirements of Section 131(12) by June 2021 without requiring 68 agencies with 1,108 leases to do burdensome manual data extraction and input. For this reason, I have vetoed Section 131(12).

Section 131(13), page 49, Office of Financial Management, Higher Education Accounting Standards

This section requires the Office of Financial Management to create appropriation standards and procedures to allow institutions of higher education to report additional revenue, spending and allotment information to the state's accounting system. This section relates to Section 601(9), which prohibits General Fund transfers to reimburse major expenses, such as employee payroll. This prohibition would cause a significant state accounting challenge. Because this would create a significant workload for the OFM Statewide Accounting office, and no funding was provided to perform these activities, I have vetoed Section 131(13).

Section 203(1)(m), page 91, Department of Social and Health Services – Developmental Disabilities Program, Reports on Community Transitions from Residential Habilitation Centers

This section directs the Department of Social and Health Services – Developmental Disabilities Program to report to the governor and the Legislature on the feasibility of adding enhanced service facilities to Medicaid waivers and specific barriers to doing so and to make policy recommendations to improve community placements for residents who wish to transition from residential habilitation centers. Much of this information was already addressed in a report submitted to the Legislature by the Ruckelshaus work group last December. In addition, no funding was provided to perform these activities. Because of these reasons, I have vetoed Section 203(1)(m).

Section 203(1)(v), page 93, Department of Social and Health Services – Developmental Disabilities Program, Reports on Services for Clients and Families in Rural Areas

This section directs the Department of Social and Health Services – Developmental Disabilities Program to report to the Legislature on policies to maximize service delivery and increase client flexibility to self-direct service in rural areas. Because no funding was provided to perform these activities, I have vetoed Section 203(1)(v).

Section 204(30), page 107, Department of Social and Health Services – Aging and Adult Services Program, Work Group on Pediatric Skilled Nursing Facilities

This section directs the Department of Social and Health Services – Aging and Adult Services Program to form a work group and report to the governor and the Legislature on policies to allow a pediatric skilled nursing facility to temporarily admit medically fragile children with complex medical conditions. Because no funding was provided to perform these activities, I have vetoed Section 204(30).

Section 205(1)(d)(ii), page 110, Department of Social and Health Services – Economic Services Administration, Working Connections Child Care Quality Control

This section requires the Department of Social and Health Services (DSHS) – Economic Services Administration to ensure quality control measures for the Working Connections Child Care (WCCC) program within existing appropriations. This directive conflicts with House Bill 2816

(Chapter 52, Laws of 2018) that transfers all powers, duties, and functions of the WCCC program from DSHS to the Department of Children, Youth, and Families (DCYF), effective July 1, 2019. To support the transition of the WCCC program, I have vetoed this section and am directing DCYF to conduct quality control activities for the WCCC program within existing appropriations. Quality control measures must focus on the WCCC eligibility criteria, including but not limited to, participation in work or other approved activities, household composition, and the maximum number of subsidized child care hours authorized. I am also directing DSHS to ensure DCYF has access to the information technology systems necessary to perform WCCC quality control activities. For these reasons, I have vetoed Section 205(1)(d)(ii).

Section 212(6), page 138, Health Care Authority, Public Employees Benefits Board, Report on Benefit Options

This section requires, but does not fund, another report on Medicare-eligible retiree medical coverage. The Health Care Authority has already completed an essentially identical study. My budget proposal included \$1.5 million to move forward in providing an additional insurance option for these retirees. Another study would be duplicative and delay a solution to increasingly expensive health insurance for retirees. I am directing the Health Care Authority, working with the Public Employees Benefits Board, to continue development of one or more retiree benefit choices that may be less expensive and better leverage federal funding. For these reasons, I have vetoed Section 212 (6).

Section 601(9), page 317, Institutions of Higher Education, Accounting Standards and Reporting

This section requires institutions of higher education to report to the state accounting system in accordance with new standards and procedures created under Section 131(13) and prohibits the institutions from using standard accounting practices to transfer funding from the General Fund to other accounts, beginning July 1, 2020. No funding was provided for the Office of Financial Management to develop new accounting standards for higher education institutions under Section 131(13). Additionally, the prohibition on General Fund transfers is limited to these institutions and would not allow the General Fund to reimburse major expenditures, such as employee payroll. For these reasons, I have vetoed Section 601(9).

Section 613(3), page 346, Student Achievement Council, State Need Grant Awards

This section ties State Need Grant award amounts for private four-year not-for-profit institutions to the average grant award for public research universities, estimated to be \$10,606 per FTE student in the 2019-20 academic year. This proviso conflicts with Engrossed Second Substitute House Bill 2158 (E2SHB 2158), Section 21(5)(b), that sets grant awards at \$9,739 per FTE student in the 2019-20 academic year and allows the amount to increase by a tuition growth factor each year thereafter. As a substantive bill, the setting of the grant awards in E2SHB 2158 should prevail. For this reason, I have vetoed Section 613(3).

Section 723, pages 370-371, Office of Financial Management, Agency Efficiencies

This section requires indiscriminate reductions in agency budgets. These spending reductions do not reflect any real savings or efficiencies. They are simply arbitrary budget cuts, which hinder the ability of agencies to perform the responsibilities with which the Legislature has tasked them and to fulfill their missions to serve Washingtonians. For this reason, I have vetoed Section 723.

Section 1005, page 464, lines 11-13, Office of the Governor, Economic Development Strategic Reserve Account-State Appropriation

This section reduces the Economic Development Strategic Reserve Account appropriation by \$2.0 million in the 2019 supplemental budget. This reduction limits the state's ability to issue grants for key economic investments specifically for recruiting and retaining businesses. Furthermore, the state would be required to rescind several grant awards that have already been announced if this reduction were to occur. For these reasons, I have vetoed Section 1005, page 464, lines 11-13.

Section 1020, pages 507-509, Consolidated Technical Services, Proviso Exceeds Appropriation

Section 1020 amends two existing proviso amounts to match the total appropriation without regard to a third proviso that must also be covered by the total appropriation. The changes to these two provisos result in these three provisos having appropriations greater than the total amount appropriated from the account. For this reason, I have vetoed Section 1020.

Section 1118(3), page 649, lines 12-13, Department of Children, Youth and Families, Children and Families Services Program, General Fund-State Appropriation

The 2019 supplemental appropriation from the General Fund-State for the Children and Families Services Program was reduced by \$1,126,000. Additional spending authority may be necessary to cover rising costs due to parent and child visits and central service expenditures. I have vetoed this reduction to maintain the original spending authority. I am directing the Office of Financial Management to retain the entire \$1,126,000 in unallotted status and that the additional authority only be used if necessary to close fiscal year 2019, with approval from the director of the Office of Financial Management. For this reason, I have vetoed Section 1118(3), page 649, lines 12-13.

Section 1118(4), page 656, lines 16-17, Department of Children, Youth and Families, Early Learning Program, General Fund-State Appropriation

The 2019 supplemental appropriation from the General Fund-State for the Early Learning Program was reduced by \$1,481,000. Additional spending authority may be necessary to cover rising costs due to parent and child visits and central service expenditures. I have vetoed this reduction to maintain the original spending authority. I am directing the Office of Financial Management to retain the entire \$1,481,000 in unallotted status and that the additional authority only be used if necessary to close fiscal year 2019, with approval from the director of the Office of Financial Management. For this reason, I have vetoed Section 1118(4), page 656, lines 16-17.

Section 1702, page 801, lines 28 through 30, Treasurer's Transfers, State Toxics Control Account to State General Fund

This section transfers \$38,000,000 from the State Toxics Control Account to the State General Fund by the end of fiscal year 2019. When combined with appropriations specified in the 2019-21 operating budget, this transfer contributes to a projected negative balance in the new Model Toxics Control Operating Account created in Engrossed Substitute Senate Bill 5993. As a result, we would not be able to ensure a positive balance in the new account. For this reason, I have vetoed Section 1702, lines 28-30.

Section 302(30), page 222, Department of Ecology; Section 306(4), page 227, State Conservation Commission; Section 308(22), page 238, Department of Natural Resources; and Section 309(15), page 243, Department of Agriculture

These four sections provided appropriations to implement Second Substitute House Bill 1579 (2SHB 1579) Section 13 (Chinook Abundance). Previously, I vetoed Section 13 of 2SHB 1579; therefore, the funding to implement this work is no longer necessary. As a result, I have vetoed Sections 302(30), 306(4), 308(22), and 309(15) to reflect my partial veto of 2SHB 1579.

I have vetoed the following sections related to bills that did not pass the Legislature resulting in the lapse of funding. My veto of these sections will serve to clean up these unnecessary sections of the bill.

Section 127(13), page 23, Office of the Attorney General, E2SSB 5740, Retirement Savings Program

Section 129(37), page 34, Department of Commerce, E2SHB 1110, Greenhouse Gas/Transportation Fuels.

Section 144(3), page 62, Utilities and Transportation Commission, ESHB 1332, Energy Site Evaluation Council.

Section 144(5), page 62, Utilities and Transportation Commission, HB1841, Crew Size on Certain Trains.

Section 147, page 67, lines 3-8, Board for Volunteer Firefighters, EHB 1912, Pension Benefits and Contributions.

Section 203(1)(x), page 93, Department of Social and Health Services Developmental Disabilities Program, SHB 1023, Adult Family Homes/8 beds.

Section 204(34), page 107, Department of Social and Health Services Aging and Adult Services Program, SHB 1023, Adult Family Homes/8 beds.

Section 222(1)(a), page 185, Department of Corrections, SSB 5876, DOC Gender Trauma Work Group.

Section 222(3)(c), page 189, Department of Corrections, E2SSB 5291, Confinement Alternatives/Children.

Section 302(10), page 219, Department of Ecology, ESSB 5323, Plastic Bags.

Section 401(3), page 245, Department of Licensing, ESB 5616, Manicuring for Diabetics

For these reasons I have vetoed Sections 103(2); 127(13); 129(37); 129(43); 129(73); 131(12); 131(13); 144(3); 144(5); 147, page 67, lines 3-8; 203(1)(m); 203(1)(v); 203(1)(x); 204(30); 204(34); 205(1)(d)(ii); 212(6); 222(1)(a); 222(3)(c); 302(10); 302(30); 306(4); 308(22); 309(15); 401(3); 601(9); 613(3); 723; 1005, page 464, lines 11-13; 1020; 1118(3), page 649, lines 12-13; 1118(4), page 656, lines 16-17; and 1702, page 801, lines 28-30 of Engrossed Substitute House Bill No. 1109.

With the exception of Sections 103(2); 127(13); 129(37); 129(43); 129(73); 131(12); 131(13); 144(3); 144(5); 147, page 67, lines 3-8; 203(1)(m); 203(1)(v); 203(1)(x); 204(30); 204(34); 205(1)(d)(ii); 212(6); 222(1)(a); 222(3)(c); 302(10); 302(30); 306(4); 308(22); 309(15); 401(3); 601(9); 613(3); 723; 1005, page 464, lines 11-13; 1020; 1118(3), page 649, lines 12-13; 1118(4), page 656, lines 16-17; and 1702, page 801, lines 28-30, Engrossed Substitute House Bill No. 1109 is approved.

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 213, Engrossed Second Substitute House Bill No. 1139 entitled:

“AN ACT Relating to expanding the current and future educator workforce supply through evidence-based strategies to improve and incentivize the recruitment and retention of highly effective educators, especially in high-need subject, grade-level, and geographic areas, and to establish a cohesive continuum of high quality professional learning from preparation programs to job embedded induction, mentoring, collaboration, and other professional development opportunities.”

Section 213 provides conflicting direction to three state agencies (the Professional Educator Standards Board, the Washington Student Achievement Council and the Office of the Superintendent of Public Instruction) regarding financial aid program implementation, participant selection and identification of educator shortages. The section also conflicts with direction in other sections of the bill and is superfluous to implementation of the programs in the bill.

For these reasons I have vetoed Section 213 of Engrossed Second Substitute House Bill No. 1139.

With the exception of Section 213, Engrossed Second Substitute House Bill No. 1139 is approved.

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 208(5); 208(7); 208(9); 208(12); 208(15); 208(16); 208(17); 208(24); 208(27); 208(28); 208(29); 220, page 42, line 23; page 42, line 38 beginning with "Fuel" through line 39 ending with "process."; page 43, line 3 beginning with "Fuel" through line 4 ending with "process."; page 43, line 15 beginning with "Fuel" through line 16 ending with "process."; page 44, line 10 beginning with "Fuel" through line 11 ending with "process."; page 44, line 31 beginning with "Fuel" through line 32 ending with "process."; page 46, line 5; 304(2); 306(17); 905, page 169, lines 36-38; page 170, lines 18-20; 905(14); 908, page 184, lines 10-12; and 908(1), Engrossed Substitute House Bill No. 1160 entitled:

“AN ACT Relating to transportation funding and appropriations.”

Sections 208(5), pages 17-18; 208(7), page 18; 208(15), pages 19-20; 208(16), page 20; 208(17), pages 20-21; 208(27), page 22; and 208(28), pages 22-23, Department of Licensing, Unfunded Studies

The Department of Licensing was tasked with forming several unfunded work groups and conducting studies, while also taking significant budget cuts. The department will not be able to complete all of the directives it has been assigned without additional funding. I am directing the department to undertake these efforts as much as it can within existing resources, prioritizing the work groups that assist active-duty and former military members. For this reason, I have vetoed Sections 208(5), 208(7), 208(15), 208(16), 208(17), 208(27) and 208(28).

Section 304(2), pages 55-56, Transportation Improvement Board, Programmatic Allotments

This section requires the Transportation Improvement Board (TIB) to allot its appropriations by certain programs and to not deviate without legislative consultation. This removes the TIB's authority, which is established in statute, to set its internal program levels. While the Legislature has the authority to appropriate funds, the executive branch has the statutory authority to allot the funds. For these reasons, I have vetoed Section 304(2).

Section 306(17), page 62, Department of Transportation, Highway Improvements, New Rhodes Lake Road Project

This section requires the Washington State Department of Transportation (WSDOT) to support, review, and approve improvements and right-of-way plans following the preferred and recommended alternative of Pierce County's supplemental environmental impact statement for this

project, which is a traffic signal. WSDOT conducted an intersection control evaluation process with stakeholders and determined that a roundabout provides the safest and most efficient results for this intersection. WSDOT is the approving authority for intersection control on highways such as State Route 162, and as such, the proviso language conflicts with WSDOT's stewardship of SR 162. For these reasons, I have vetoed Section 306(17).

Section 905, page 169, lines 36-38; page 170, lines 18-20; and Section 905(14), pages 172-173, Department of Transportation, Transportation Partnership Account-State Appropriation, Nickel Account-State Appropriation, and I-405/Kirkland Vicinity Project Delivery

The supplemental budget provides appropriations to the Interstate 405/Kirkland stage 2 project that are lower than expected expenditures and would result in a shortfall of approximately \$35 million in the Highway Construction program. For this reason, I have vetoed the supplemental Transportation Partnership Account-State appropriation, the supplemental Nickel Account-State appropriation, and the project proviso in order to increase the appropriation levels. I am directing WSDOT to spend within the appropriation provided by the Legislature, but including the \$35 million necessary for the I-405 Kirkland stage 2 project. For these reasons, I have vetoed Section 905, page 169, lines 36-38; page 170, lines 18-20; and Section 905(14).

Section 908, page 184, lines 10-12, and Section 908(1), page 184, Department of Transportation, Puget Sound Capital Construction Account-State Appropriation, Washington State Ferries Construction Program

The supplemental budget removed the ferry dispatch system replacement project, of which \$600,000 had already been spent. The appropriation of \$600,000 was also removed. Thus, the appropriation level in the Puget Sound Capital Construction account is below what is needed to fund the capital project list in the ferry program. For this reason I have vetoed the supplemental Puget Sound Capital Construction Account-State appropriation and the capital project list, thereby restoring it to previous levels. I am directing WSDOT to spend within the appropriation and capital project list provided by the Legislature, but including the \$600,000 that was removed. For these reasons, I have vetoed Section 908, page 184, lines 10-12, and Section 908(1).

Section 220, page 42, line 23; page 42, line 38 beginning with "Fuel" through line 39 ending with "process."; page 43, line 3 beginning with "Fuel" through line 4 ending with "process."; page 43, line 15 beginning with "Fuel" through line 16 ending with "process."; page 44, line 10 beginning with "Fuel" through line 11 ending with "process."; page 44, line 31 beginning with "Fuel" through line 32 ending with "process."; and page 46, line 5

Section 220 includes the following sentence in six provisos: "Fuel type may not be a factor in the grant selection process." This requirement is contrary to, and in direct conflict with, the statutory mandates in RCW 47.66.040 and 47.66.030 that direct WSDOT to consider, among other criteria, energy efficiency issues, and federal and state air quality requirements in selecting programs and projects. In addition, this requirement also conflicts with, or at best substantially impairs, the statutory mandate for the state and for local government subdivisions to transition to zero emission vehicles as articulated in RCW 43.19.648.

The sentence at issue is a policy change — that is, an amendment — to existing statutory requirements. As such, the sentence violates Article II, Section 37, by amending those statutes indirectly and failing to set those statutes forth in full. It also places WSDOT and others in the untenable position of being forced to violate one state law in order to comply with another.

It is well established that the governor's veto powers in Article III, Section 12 of the Washington State Constitution extend to appropriation items and full subsections or provisos in an appropriation bill. It is also well established that our courts will intervene to prevent obvious circumvention of the veto power by the Legislature or equally obvious manipulation of that power by the governor. The addition of this sentence within these provisos constrains my ability to exercise the constitutionally authorized veto powers.

While my veto authority is generally limited to subsections or appropriation items in an appropriation bill, in this very rare and unusual circumstance I have no choice but to veto a single sentence in several subsections to prevent a constitutional violation and to prevent a forced violation of state law.

For these reasons, I have vetoed Section 220, page 42, line 23, page 42, line 38 beginning with "Fuel" through line 39 ending with "process.," page 43, line 3 beginning with "Fuel" through line 4 ending with "process.," page 43, line 15 beginning with "Fuel" through line 16 ending with "process.," page 44, line 10 beginning with "Fuel" through line 11 ending with "process.," page 44, line 31 beginning with "Fuel" through line 32 ending with "process", and page 46, line 5.

I have vetoed the following sections related to bills that did not pass the Legislature, resulting in the lapse of funding. My veto of these sections will serve to clean up these unnecessary sections of the bill.

Section 208(9), pages 18-19, Department of Licensing, SSB 5694, Commercial Beekeeper Drivers

Section 208(12), page 19, Department of Licensing, SSB 5591, Stolen Vehicle Check Fee

Section 208(24), page 22, Department of Licensing, HB 1255, Patches Pal License Plate

Section 208(29), page 23, Department of Licensing, ESHB 1504, Impaired Driving

For these reasons I have vetoed Sections 208(5); 208(7); 208(9); 208(12); 208(15); 208(16); 208(17); 208(24); 208(27); 208(28); 208(29); 220, page 42, line 23; page 42, line 38 beginning with "Fuel" through line 39 ending with "process."; page 43, line 3 beginning with "Fuel" through line 4 ending with "process."; page 43, line 15 beginning with "Fuel" through line 16 ending with "process."; page 44, line 10 beginning with "Fuel" through line 11 ending with "process."; page 44, line 31 beginning with "Fuel" through line 32 ending with "process"; page 46, line 5; 304(2); 306(17); 905, page 169, lines 36-38; page 170, lines 18-20; 905(14); 908, page 184, lines 10-12; and 908(1) of Engrossed Substitute House Bill No. 1160.

With the exception of Sections 208(5); 208(7); 208(9); 208(12); 208(15); 208(16); 208(17); 208(24); 208(27); 208(28); 208(29); 220, page 42, line 23; page 42, line 38 beginning with "Fuel" through line 39 ending with "process."; page 43, line 3 beginning with "Fuel" through line 4 ending with "process."; page 43, line 15 beginning with "Fuel" through line 16 ending with "process."; page 44, line 10 beginning with "Fuel" through line 11 ending with "process."; page 44, line 31 beginning with "Fuel" through line 32 ending with "process"; page 46, line 5; 304(2); 306(17); 905, page 169, lines 36-38; page 170, lines 18-20; 905(14); 908, page 184, lines 10-12; and 908(1), Engrossed Substitute House Bill No. 1160 is approved.

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 7 and 41, Substitute House Bill No. 1195 entitled:

“AN ACT Relating to the efficient administration of campaign finance and public disclosure reporting and enforcement.”

This legislation was requested by the Public Disclosure Commission and builds on the important work the Legislature did in 2018 with the passage of ESHB 2938.

However, I am concerned with the language in Section 7(13)(b) that prohibits the agency from making Personal Financial Affairs Statements (“F-1” forms) filed by elected officials accessible online. Because these forms must be provided to anyone who makes a public records request, this prohibition against online access only serves to create an unnecessary barrier to information that the public is entitled to have.

While I recognize that making some personal financial information available online may create discomfort, it is my understanding that the Commission currently has the authority to decide whether or not to make F-1 forms available online.

I also understand that the Commission has already embarked on a process to work closely with the Legislature and other interested parties over the interim to consider the privacy interests implicated in certain types of information and the compelling public interest in access to financial data of public officials. In particular, I respectfully request that the Commission evaluate whether the existing statutory requirements for what must be reported in F-1s should be updated and also consider possible alternatives for non-elected, professional legislative staff.

Finally, Section 41 of the bill includes a reference to RCW 42.17A.775(5), which was amended in earlier drafts of this legislation to alter the process by which a successful citizen action plaintiff could be reimbursed. Language creating that new process was removed from the final version of the bill, but the reference in Section 41 was inadvertently retained. In order to avoid creating a conflict in law, and to avoid confusion over the process by which a plaintiff may be reimbursed for reasonable attorney’s fees and costs, it is necessary to veto Section 41.

For these reasons I have vetoed Sections 7 and 41 of Substitute House Bill No. 1195.

With the exception of Sections 7 and 41, Substitute House Bill No. 1195 is approved.

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 1, Engrossed House Bill No. 1219 entitled:

“AN ACT Relating to providing cities and counties authority to use real estate excise taxes to support affordable housing and homelessness projects.”

We are indeed facing a severe housing shortage in this state and across our nation, and I strongly support this bill. Some towns have already used this increased flexibility in the use of Real Estate Excises Taxes to provide critical shelters and services for families. Extending the timeline for the use of these funds provides cities and counties one of the tools necessary to plan for, acquire, and construct additional shelters and affordable housing in their communities.

However, I am concerned that the language in Section 1, the intent section, could be construed to imply that the use of the Real Estate Excise Tax is sufficient for every community to develop affordable housing and prevent people from entering homelessness. Much more work needs to be done in the areas of zoning and permitting; infrastructure development fees; tax incentives for affordable housing development; and innovative approaches to increase density, improve efficiency and reduce costs. I will work with interested members of the legislature on developing a comprehensive package of tools to help cities and counties adequately address these housing shortages.

For these reasons I have vetoed Section 1 of Engrossed House Bill No. 1219.

With the exception of Section 1, Engrossed House Bill No. 1219 is approved.

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 2 and 7, Engrossed Third Substitute House Bill No. 1324 entitled:

“AN ACT Relating to creating the Washington rural development and opportunity zone act.”

This bill is critical for forest and fish programs and provides additional funding for tribal programs. However, Section 2, which requires the Washington State Institute for Public Policy to conduct a fifty state review on programs that incentivize job creation and private investment in rural and distressed communities, was not funded in the budget. In addition, Section 7, the null and void clause, would void the entire bill if full funding is not provided. Because this bill is critical, I want the remainder of the bill to go into effect even if no funding is provided for some of its provisions.

For these reasons I have vetoed Sections 2 and 7 of Engrossed Third Substitute House Bill No. 1324.

With the exception of Sections 2 and 7, Engrossed Third Substitute House Bill No. 1324 is approved.

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 12, Engrossed Second Substitute House Bill No. 1391 entitled:

“AN ACT Relating to implementing improvements to the early achievers program as reviewed and recommended by the joint select committee on the early achievers program.”

The purpose of Section 12, which directs the Department of Children, Youth and Families (DCYF) to create a workgroup to study the cost of child care regulations, overlaps with the work of the Child Care Collaborative Task Force in HB 1344. In order to streamline efforts and also avoid duplicative efforts, I am directing the Department of Commerce and DCYF to ensure that purpose of Section 12 is incorporated into the work of the HB 1344 Task Force.

For these reasons I have vetoed Section 12 of Engrossed Second Substitute House Bill No. 1391.

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 13 and 8(1)(a), Second Substitute House Bill No. 1579 entitled:

“AN ACT Relating to implementing recommendations of the southern resident killer whale task force related to increasing chinook abundance.”

This bill implements recommendations of the Southern Resident orca task force (task force) related to increasing chinook abundance.

Current laws and protections are not sufficient. Salmon populations continue to decline putting our beloved orca at risk.

This bill provides the long needed tools to protect salmon habitat when development permits are issued along our marine and freshwater shoreline. Strengthening the hydraulic code will help ensure development projects that affect salmon and their habitats do no harm.

However, I am vetoing Section 13, which would require certain state agencies and local governments to identify river management demonstration projects in Whatcom, Snohomish, and Grays Harbor counties, because it is not a recommendation of the task force. As such, it is outside of both the title and scope of the bill, in violation of Article 2, Sections 19 and 38 of our constitution. Section 13 is unrelated, unnecessary and an unfortunate addition to this important bill about salmon and orca habitat and recovery.

In addition, I am also vetoing Section 8(1)(a), which establishes maximum civil penalty amounts for violations of Chapter 77.55 RCW (Construction Projects in State Waters). Consistent with the task force's recommendations, the original bill established a maximum civil penalty of up to ten thousand dollars for each violation. When the Legislature amended the bill to add Section 13, it simultaneously amended Section 8 and tied the original civil penalty amount to passage of Section 13. It did so by reducing the maximum civil penalty to "up to one hundred dollars" if Section 13 is not enacted by June 30, 2019. By making the original civil penalty amount contingent on passage of an unconstitutional section of the bill, the Legislature further compounded the constitutional violation. In addition, by structuring the contingency language within a subsection of Section 8, the Legislature intentionally attempted to circumvent and impede my veto authority by entangling an unrelated and unconstitutional provision within a recommendation of the task force. In vetoing this subsection, I direct the department to continue to use its authority to secure the effect of the statute, to establish a maximum civil penalty not to exceed the penalty amount established in the original

bill, and to use its rulemaking authority to support these efforts as needed.

I understand the concerns of landowners who are living and working in floodplains and the need for better approaches to protecting their property. We also need to find balance to provide habitat for salmon to spawn and grow if we want to save our orcas. We already have important programs in place to address ecosystem based river management. Watershed solutions should come from local efforts and I encourage people living in these communities to work collaboratively, with their neighbors, local governments, salmon recovery and agricultural preservation organizations to fund effective local solutions.

For these reasons I have vetoed Sections 13 and 8(1)(a) of Second Substitute House Bill No. 1579.

With the exception of Sections 13 and 8(1)(a), Second Substitute House Bill No. 1579 is approved.

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 1 and 4, Engrossed House Bill No. 1638 entitled:

“AN ACT Relating to promoting immunity against vaccine preventable diseases.”

Section 1 authorizes an exemption for proof of immunity based on an antibody test called a titer test. This provision is written too broadly because it applies to all vaccines, not just to Measles, Mumps, and Rubella (or MMR) and other conditions in which an antibody test is reliable. In addition, the Board of Health already allows the use of an antibody test for those vaccines in which the test is reliable, like MMR, so this provision is also unnecessary.

Section 4 contains a rulemaking clause that is unnecessary. Current law already permits the state Board of Health to perform these rulemaking functions, not the Department of Health as this section provides.

These minor changes will not disturb the substance of the bill.

For these reasons I have vetoed Sections 1 and 4 of Engrossed House Bill No. 1638.

With the exception of Sections 1 and 4, Engrossed House Bill No. 1638 is approved.

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval, House Bill No. 1866 entitled:

“AN ACT Relating to professional development requirements for child day care centers.”

This bill was intended to delay the effective date of the newly revised Washington Administrative Code (WAC) on general staff qualifications and professional development requirements for early learning professionals in child care centers. I agree with and support this intended purpose. However, the legislation before me would prevent the Department of Children, Youth, and Families from adopting and implementing any changes to professional development requirements until August 1, 2024. As a result, the language of the bill potentially puts Washington in conflict with future federal professional standards that may be required in order to receive federal funds. Therefore, I am vetoing HB 1866, but I am also issuing a formal directive to the Department of Children, Youth, and Families to provide center directors and assistant directors with at least 5 years to comply with the new professional development rules in WAC 110-300-0100.

For these reasons I have vetoed House Bill No. 1866 in its entirety.
