(1) Prior to the delivery of nonemergency services, a provider-based clinic that charges a facility fee shall provide a notice to any patient that the clinic is licensed as part of the hospital and the patient may receive a separate charge or billing for the facility component, which may result in a higher out-of-pocket expense.

(2) Each health care facility must post prominently in locations easily accessible to and visible by patients, including its website, a statement that the provider-based clinic is licensed as part of the hospital and the patient may receive a separate charge or billing for the facility, which may result in a higher out-of-pocket expense.

(3) Nothing in this section applies to laboratory services, imaging services, or other ancillary health services not provided by staff employed by the health care facility.

(4) As part of the year-end financial reports submitted to the department of health pursuant to RCW 43.70.052, all hospitals with provider-based clinics that bill a separate facility fee shall report:

This does not include clinics exclusively designed for and providing laboratory, X-ray, testing, therapy, pharmacy, or educational services and does not include facilities designated as rural health clinics.

Sec. 5. RCW 70.41.470 and 2012 c 103 s 1 are each amended to read as follows:

(1) As of January 1, 2013, each hospital that is recognized by the internal revenue service as a 501(c)(3) nonprofit entity must make its federally required community health needs assessment widely available to the public and submit it to the department within fifteen days of submission to the internal revenue service. Following completion of the initial community health needs assessment, each hospital in accordance with the internal revenue service((r)) shall complete and make
widely available to the public and submit to the department an assessment once every three years. The department must post the information submitted to it pursuant to this subsection on its website.

(2)(a) Unless contained in the community health needs assessment under subsection (1) of this section, a hospital subject to the requirements under subsection (1) of this section shall make public and submit to the department a description of the community served by the hospital, including both a geographic description and a description of the general population served by the hospital; and demographic information such as leading causes of death, levels of chronic illness, and descriptions of the medically underserved, low-income, and minority, or chronically ill populations in the community.

(b)(i) A hospital, other than a hospital designated by medicare as a critical access hospital or sole community hospital, that is subject to the requirements under subsection (1) of this section must annually submit to the department an addendum which details information about activities identified as community health improvement services with a cost of $5,000 or more. The addendum must include the type of activity, the method in which the activity was delivered, how the activity relates to an identified community need in the community health needs assessment, the target population for the activity, strategies to reach the target population, identified outcome metrics, the cost to the hospital to provide the activity, the methodology used to calculate the hospital's costs, and the number of people served by the activity. If a community health improvement service is administered by an entity other than the hospital, the other entity must be identified in the addendum.

(iii) The department shall require the reporting of demographic information about participant race, ethnicity, any disability, gender identity, preferred language, and zip code of primary residency. The department, in consultation with interested entities, may revise the required demographic information according to an established six-year review cycle about participant race, ethnicity, disabilities, gender identity, preferred language, and zip code of primary residence that must be reported under (b)(i) and (ii) of this subsection (2). At a minimum, the department's consultation process shall include community organizations that provide community health improvement services, communities impacted by health inequities, health care workers, hospitals, and the governor's interagency coordinating council on health disparities. The department shall establish a six-year cycle for the review of the information requested under this subsection (2)(b)(iii).

(iv) The department shall provide guidance on participant data collection and the reporting requirements under this subsection (2)(b). The guidance shall include a standard form for the reporting of information under this subsection (2)(b). The standard form must allow for the reporting of community health improvement services that are repeated within a reporting period to be combined within the addendum as a single project with the number of instances of the services listed. The department must develop the guidelines in consultation with interested entities, including an association representing hospitals in Washington, labor unions representing workers who work in hospital settings, and community health board associations. The department must post the information submitted to it pursuant to this subsection (2)(b) on its website.
(3)(a) Each hospital subject to the requirements of subsection (1) of this section shall make widely available to the public a community benefit implementation strategy within one year of completing its community health needs assessment. In developing the implementation strategy, hospitals shall consult with community-based organizations and stakeholders, and local public health jurisdictions, as well as any additional consultations the hospital decides to undertake. Unless contained in the implementation strategy under this subsection (3)(a), the hospital must provide a brief explanation for not accepting recommendations for community benefit proposals identified in the assessment through the stakeholder consultation process, such as excessive expense to implement or infeasibility of implementation of the proposal. (b) Implementation strategies must be evidence-based, when available; or development and implementation of innovative programs and practices should be supported by evaluation measures.

(4) When requesting demographic information under subsection (2)(b) of this section, a hospital must inform participants that providing the information is voluntary. If a hospital fails to report demographic information under subsection (2)(b) of this section because a participant refused to provide the information, the department may not take any action against the hospital for failure to comply with reporting requirements or other licensing standards on that basis.

(5) For the purposes of this section, the term "widely available to the public" has the same meaning as in the internal revenue service guidelines.

NEW SECTION. Sec. 6. The department of health shall develop any forms or guidance required in this act at least 60 days before hospitals are required to utilize the form or guidance.
