This report should be used for a high-level review of Medicaid eligibility patterns, not for data verification or making fiscal assumptions. Since this report uses ACES eligibility and ignores TARGET contract type, funding source, or public assistance type, expect discrepancies between TARGET reports and this document, particularly at the county level. TARGET caseload determined by admit event, TX Activity, or an expenditure for OST, RES, or Detox in the month. Clients who may be considered on the caseload but did not receive a services in the month are excluded. SOURCE: BHSS_TARGET, DSHS TARGET Caseload and ACES Medicaid eligibility final determination for the month of service. Run date: 11/13/2014 AHQuA\Aaron\Medicaid Status Report by county.sas
