INFORMATION REGARDING
WRITTEN TESTIMONY

Written testimony submitted before, during, or after a meeting will be distributed to the Mental Health Task Force and staff only if you have provided 22 copies for this purpose. Submitted testimony with less than 22 copies will be placed in the Task Force files.

Testimony should be organized so that important points you wish to make are highlighted. Written testimony should not be read at Task Force hearings. Writing down your comments in outline form will be helpful when you speak, and you should summarize your written testimony.

If other persons will be offering similar testimony at the hearing, try to coordinate your testimony and avoid duplication. Well organized brief testimony is most effective.
