

DRS Proposal on Public Records Exemptions for Retirees

Issue

Should the Select Committee on Pension Policy (SCPP) recommend enacting an exception to the Public Records Act (PRA) to limit the release of data maintained by the Department of Retirement Systems (DRS)?

Background

In June, DRS [Director Guerin wrote to the Committee](#) asking the Committee to consider reviewing and endorsing legislation limiting the release of personal data held by DRS under the PRA.

Committee Activity

The SCPP received an informational briefing from DRS staff on this topic in July. In September, DRS withdrew the request for the SCPP to study this issue and it was removed from the draft interim work plan.
