**HOUSE CONCURRENT RESOLUTION NO. 1.**

Be it resolved by the House, the Senate concurring, That the Legislature of the State of Washington meet in joint session in the House Chamber, at 12:30 o'clock, March 22nd, 1920, to receive the Governor's message.

On motion of Mr. Reed, the resolution was adopted.

On motion of Mr. Reed, the rules were suspended and the Chief Clerk was directed to immediately transmit the resolution to the Senate.

On motion of Mr. Thompson (H. W.), the following resolutions were ordered spread upon the journal of the House:

WHEREAS, In such regrettable mob action as was witnessed at Centralia last Armistice Day, November 11, when four of the state's former service men were fatal victims of murderous attacks by armed forces, the entire commonwealth is interested in seeing that justice be done, and

WHEREAS, It naturally follows that when organizations such as the I. W. W. figure in such outrages, prosecutions of such trials entail such heavy expenditures as to prove a burdensome item to any particular county to bear, and

WHEREAS, Most of the counties of this State of Washington find themselves confronting a serious problem should they be so unfortunate as to be faced by such crimes within their particular boundaries, and

WHEREAS, In the interests of justice to the various counties, and to insure prosecutions being unrelentlessly had in such cases where the state is fighting an element of "Rodeo" which has for its object the destruction of our fundamental principles, there fore be it

**Resolved, That in all prosecutions where the alleged guilty parties are members of organizations which have been declared radical in their principles, these prosecutions will be conducted under the direction of the Attorney General of the State of Washington, which official will be empowered to engage such additional counsel as he may deem necessary, and the entire expense of such prosecution to be borne by the state, thus relieving individual counties of heavy financial burdens and placing such expense to be borne by the state commonwealth.**
WHEREAS, Two of the alleged participants in the Armistice Day murders at Cura-
tralia, Wash., on November 11 last are still at large, and
WHEREAS, It is quite possible that a substantial reward being offered might spur
activities and lead to the apprehension of these two men, guilty of shooting down
former service men who had proven themselves worthy of our honest admiration
through the valiant response to our country's call, therefore be it
Resolved, That we, members of the Washington State Legislature in special ses-
sion assembled, do call upon our Governor to immediately offer a reward of $2,500.00
for the arrest of either of the alleged guilty parties, known as John Doe and John
Doe, or for the arrest of both John Doe and John Doe that this reward be increased
to $5,000.00, and that a special appropriation of $5,000.00 be set aside for this purpose.

Mr. Hull announced that the committee appointed to inform the Governor
that the House was in session and ready to transact business had performed
that duty and that the Governor was ready to deliver his message to the
Legislature.

MESSAGE FROM THE SECRETARY OF STATE.

To the Honorable Speaker of the House of Representatives, House Chamber, Olympia, Washington.

Sir: I have the honor to transmit herewith, pursuant to Section 12, Article III, of the Constitution of the State of Washington, for the consideration of the House, a certified copy of a portion of House Bill No. 214 (Chap. 201), passed by the House and Senate at the sixteenth session and vetoed by the Acting Governor, together with a certified copy of his veto message attached thereto.

Very respectfully,

I. M. HOWELL,
Secretary of State.

HOUSE BILL NO. 214.

To All to Whom These Presents Shall Come.

I, I. M. Howell, Secretary of State of the State of Washington and custodian of the seal of said state, do hereby certify that I have carefully compared the annexed copy of the Governor's veto message on Section 7 of Chapter 201, House Bill No. 214, with the original copy of said veto message on Section 7 of Chapter 201, House Bill No. 214, now on file in this office, and find the same to be a full, true and correct copy of said original, and of the whole thereof, together with all official endorsements thereon.

In testimony whereof, I have hereunto set my hand and affixed hereto the seal of the State of Washington. Done at the Capitol, at Olympia, this 10th day of March, A. D. 1920.

[SEAL]

I. M. HOWELL,
Secretary of State.

Honorable I. M. Howell, Secretary of State, Olympia, Washington.

Dear Sir: I am herewith transmitting to you House Bill No. 214, entitled "An act relating to coal mining, and amending sections 7, 36, 16, 17, 107, 260, and repealing Section 221 of Chapter 26 of the Laws of 1917."

Sections 1, 2, 3, 4, 5, and 6 of this bill are approved. For the reasons following, Section 7 is vetoed:

Section 7 of said bill No. 214 reads as follows: "That Section 221 of Chapter 26 of the Laws of 1917 are hereby repealed."

There is but one section of chapter 26 of the Laws of 1917. An observation of this enrolled bill will show, as does the title that the chapter of the Laws of 1917 being amended and repealed is Chapter No. 36. The corvonor in drafting the original bill in writing Section 7 referred to Chapter 26 instead of Chapter 36.

For the objections above noted, Section 7 of House Bill No. 214 is vetoed.

Yours very truly,

LOUIS F. HART,
Acting Governor.

MESSAGE FROM THE SECRETARY OF STATE.

DEPARTMENT OF STATE, OFFICE OF THE SECRETARY.
OLYMPIA, March 22, 1920.

To the Honorable Speaker of the House of Representatives, House Chamber, Olympia, Washington.

Sirs: I have the honor to transmit herewith, pursuant to Section 12, Article III, of the Constitution of the State of Washington, for the consideration of the House, a certified copy of a portion of House Bill No. 263 (Chap. 202), passed by the House and Senate at the sixteenth session and vetoed by the Acting Governor, together with a certified copy of his veto message attached thereto.

Very respectfully,
I. M. HOWELL,
Secretary of State.

HOUSE BILL NO. 263.

UNITED STATES OF AMERICA.
The State of Washington, Department of State.

To All to Whom These Presents Shall Come.

I, I. M. Howell, Secretary of State of the State of Washington and custodian of the seal of said state, do hereby certify that I have carefully compared the annexed copy of the Governor's message on Section 2 of Chapter 202, House Bill No. 263, vetoing same, with the original copy of said Governor's message on Section 2 of Chapter 202, House Bill No. 263, now on file in this office, and find the same to be a full, true and correct copy of said original, and of the whole thereof, together with all official endorsements thereon.

In testimony whereof, I have hereunto set my hand and affixed hereto the seal of the State of Washington. Done at the Capitol, at Olympia, this 10th day of March, A. D. 1920.

I. M. HOWELL,
Secretary of State.
FIRST DAY, MARCH 22, 1920

STATE OF WASHINGTON, OFFICE OF GOVERNOR.

OLYMPIA, March 22, 1920.

Honorable I. M. Howell, Secretary of State, Olympia, Washington.

Dear Sir: I am herewith handing you House Bill No. 263, entitled "An act in relation to parental schools, amending Sections 8609 and 8610, Remington & Ballinger's Codes and Statutes of Washington."

Section 1 of this bill is approved. For the reason following Section 2 of said bill is vetoed:

In line 5 of the enrolled bill, or line 6 of the printed bill, a line of the original Section 8610 was omitted, but there is nothing in the printed bill to indicate such omission. The omitted matter reads as follows, following the word "such" in line 5 of the enrolled bill: "child is a fit person to be committed to such parental or truant school an."

With this omitted matter from the original section, Section 8610 in the enrolled bill has no intelligent meaning.

For the objections above noted, Section 2 of House Bill No. 263 is vetoed.

Yours very truly,

Louis F. Hart,
Acting Governor.

SECTION 2, HOUSE BILL NO. 263.

UNITED STATES OF AMERICA.

THE STATE OF WASHINGTON, DEPARTMENT OF STATE.

To All to Whom These Presents Shall Come.

I, I. M. Howell, Secretary of State of the State of Washington and custodian of the seal of said state, do hereby certify that I have carefully compared the annexed copy of Section 2 of Chapter 202, House Bill No. 263, vetoed by the Governor, with the original copy of said Section 2 of Chapter 202, House Bill No. 263, now on file in this office, and find the same to be a full, true and correct copy of said original, and of the whole thereof, together with all official endorsements thereon.

In testimony whereof, I have hereunto set my hand and affixed hereto the seal of the State of Washington. Done at the Capitol, at Olympia, this 10th day of March, A. D. 1920.

I. M. Howell,
Secretary of State.

CHAPTER 202, HOUSE BILL NO. 263.

An Act in relation to parental schools, amending Sections 8609 and 8610, Remington & Ballinger's Annotated Codes and Statutes of Washington.

Sec. 2. That Section 8610, Remington & Ballinger's Annotated Codes and Statutes of Washington, be amended to read as follows:

Section 8610. Upon the filing of such petition the clerk of the court shall issue a writ to the sheriff of the county, directing him to bring such child before the court; and if the court shall find that the material facts set forth in the petition are true, and in the opinion of the courts such order shall be entered that such child be committed to such parental or truant school, to be kept there until he or she shall have reached the limit of compulsory school age, unless sooner discharged in the manner hereinbefore set forth. Before the hearing aforesaid, notice in writing shall be given to the parent or guardian of such child, if known, of the proceedings about to be instituted, that he or she may appear and resist the same if they so declare.

On motion of Mr. Hubbell, the messages and vetoed section were laid on the table.

MESSAGE FROM THE SECRETARY OF STATE.

DEPARTMENT OF STATE, OFFICE OF THE SECRETARY.

OLYMPIA, March 22, 1920.

To the Honorable Speaker of the House of Representatives, House Chamber, Olympia, Washington.

Sir: I have the honor to transmit herewith, pursuant to Section 12, Article III of the Constitution of the State of Washington, for the consideration of the House of Representatives, substitute House Bill No. 90 passed by the House and Senate at the
sixteenth session and vetoed by the Acting Governor, together with his veto message attached thereto.

Respectfully submitted,

I. M. HOWELL,
Secretary of State.

STATE OF WASHINGTON, OFFICE OF GOVERNOR.
OLYMPIA, March 22, 1920.

Honorable I. M. Howell, Secretary of State, Olympia, Washington.

DEAR SIR: I am transmitting you herewith Substitute House Bill No. 90, entitled "An act relating to elections in drainage districts, and amending Section 4141 of Remington & Ballinger's Annotated Codes and Statutes of Washington," which is vetoed for the reasons following:

An examination of this enrolled bill will disclose the fact that the last 22 lines of said bill is but a repetition of the part of Section 4141 of the code as it now reads, while the 24 lines of the enrolled bill immediately preceding the last 22 show that they were intended as a substitute for the last 22 lines of the bill, and the last 22 lines were erroneously added to the bill.

This measure being a committee bill, perhaps did not receive the same careful attention in its way through the legislative channels as it otherwise might have received.

For the objections above noted, Substitute House Bill No. 90 is vetoed.

Yours very truly,

LOUIS F. HART,
Acting Governor.

Very respectfully,

H. H. HAMMER, National Secretary.

The Sons of Veterans, U. S. A., being the descendants of the Union Soldiers and Sailors of the Civil War, organized as a civic body for many years to perpetuate the memory of their fathers' service and sacrifices for the preservation of the Union, and to inculcate the principles of patriotism and love of country, do declare:

That the Order will, to the limit of its power and influence, vigorously oppose all bolshevik movements and tendencies, and all efforts that make for the destruction or impairment of our constitutional Union.

That we demand of all citizens one hundred per cent Americanism.

That we call upon Congress to provide necessary laws for the deportation of all unregenerate aliens, and those who do not in good faith seek to become citizens.

That we insist upon the energetic enforcement of these laws by the executive branch of the government.

This order furthermore offers the Government the service of its nationwide organization with its influence in affiliated orders and social circles to distribute any propaganda of Americanism which may be authorized to combat all movements which would raise the red flag of anarchy, or which are treasonable or subversive of free democracy as handed down by the founders of this Republic.

STATE OF WASHINGTON, EXECUTIVE DEPARTMENT,
OLYMPIA, WASH., January 12, 1921.

Members of the Senate and the House of Representatives:

Under the provisions of Section six, Article three of the State Constitution it is
made the duty of the Governor to communicate by message to the Legislature "the con­
dition of the affairs of the state, and recommend such measures as he shall deem ex­
pedient for their action." In compliance therewith I submit the following message.

RESOLUTIONS OF THE EXTRAORDINARY SESSION.

At the Extraordinary Legislature Session held last March, resolutions were passed,
first, directing the Governor and Attorney General to prepare and submit to the Legis­
lature a Civil Administrative Code.

Second, requiring the Governor to appoint a commissioner to make a study and
report on reorganization of the Public School Administrative Code.

THE CIVIL ADMINISTRATIVE CODE.

For many years past, and particularly during the last two years I have been com­
pelled to study the working of our State Government; it has always been perfectly
apparent to me, as it has been to many others, that State Government must be made
more economical and more effective. The State is overloaded with Boards and Commis­
sions which duplicate or overlap each other or fail properly to cooperate or coordinate in
their functioning. In some cases they are not responsible to any superior officer. I have
called attention to these conditions both officially and informally. The Legislature has recognized this as a proper time to act in the matter for in extraordinary session it has directed the Governor and the Attorney General to prepare and submit a Civil Administrative Code. We are now submitting such a Code after a most painstaking study of the organization and experience of our own and other states.

Last March I called attention to the fact that the estimated expense of the State, incident to the appropriations of the last legislative session, was nearly two million dollars in excess of the estimated revenues of the State as provided by the State Board of Equalization in September, 1918, two months prior to the signing of the armistice with the Central Powers of Europe. In such a revenue situation and entering upon a period of high tax pressure, it becomes a problem of the most fundamental kind to reorganize our State Government so that it will be more responsible, effective and economical. Lost efficiency is bad enough at any time; it cannot be tolerated at all in our present situation.

We have proceeded with the preparation of the Civil Administrative Code holding firmly to the belief that the sound principles of business administration, everywhere in vogue among successful institutions of private business, are none too good for adoption and use in our public affairs. Believing that the greatest possible degree of efficiency ought to be maintained in all departments of the State Government, I have personally for the past twenty months devoted all my spare effort and time to the study of various systems for the reorganization of governmental business, with the determination to present to your body a consistent, practical, working code which could be adopted as a whole early in the regular legislative session.

Something of the great care with which the work on the Civil Administrative Code has been done may be suggested by brief reference to the specific services of some of my associates in the work. Immediately after the close of the extraordinary session I called to my assistance Mr. L. D. McArdle of the Bureau of Inspection and Supervision of Public Offices. For many years a careful student of the specific functions and operations of State Government, he has, without additional compensation and with complete unselfishness, devoted himself evenings and days to the larger problems of organizing a workable code. He has been a persistent service throughout eight months. For two months Mr. Todd Fullerton, the Attorney General's Office, has searched the Session Laws, Codes and Statutes and compiled for our use a complete list of all the boards, commissions and appointees exercising governmental functions, giving their powers and duties with fully detailed citations. For nearly two months, Mr. Charles Gleason, representing the Attorney General, has devoted all his time to the drafting of the proposed code. The Attorney General, Mr. L. L. Thompson, has personally given every assistance that his official duties would permit. Mr. W. Vaughn Tanner, former Attorney General, has generously given his legal assistance upon many difficult points. A large number of other officials and citizens, with special competence to aid on particular points, have given a valuable cooperation that we can acknowledge here only in a general way. With such special aid, Mr. McArdle and I have devoted every spare hour since the tenth of November in checking our analysis of the State Government of Washington with the successful reorganization experience of Illinois, Massachusetts and Nebraska, and in making every item of the proposed code fit into every other item so that each part would sustain every other part. To this end numerous sections have been rewritten many times so as to perfect a consistent and thorough-going piece of work which could be presented to the Legislature with the expectation that it could be enacted as an entity.

I want to reaffirm the fact that our dominant desire at all times has been to build up a consistent and workable code for the efficient administration of the State's business. No other consideration has guided us. We have completely disregarded the petty interests of all individuals, with the idea of making this Code one which will protect the great interests of the State supreme. We have not hesitated to shear the Governor of power or to lay on that officer onerous duties where it appeared that the good of the service required such sacrifice.

We make no claim to superhuman power in drafting this Code. We know that this Code is not perfect. We have applied the best experience available and exercised all the foresight which could be summoned, with the thought that time and more experience must assist in further perfection of the Code. We have given you the best we could and I sincerely trust that no legislator will seek to amend the bill in its passage through
either house unless he feels absolutely certain that his personal judgment, after a reading of some portion of the bill, is better than the combined judgment of those who have for months studied its provisions from every angle and fully considered the relation and bearing of each section of the Code to the provisions of every other section. The Code is a consistent whole and we present it as such for your consideration and action.

THE PUBLIC SCHOOL ADMINISTRATIVE CODE.

In my message to the Extraordinary Session I referred to the need of a careful study of the fiscal and administrative affairs of the common schools, and in compliance with the expressed wish of the Legislature, appointed a special commission to make the requisite study and offer recommendations. The membership of this commission consists of:

- Mrs. Mark E. Reed of Shelton.
- Mrs. Alfred Lister of Tacoma.
- Mr. A. S. Burrows of Seattle.
- Mrs. Elizabeth Meyer Kelly of Ritzville.
- Mr. W. M. Kern of Walla Walla.
- Honorable W. J. Sutton of Cheney.

They have labored zealously on fiscal and related problems of the common school system and prepared bills which will enact desired improvements. These will be submitted to you as a practical summary of their report.

The major changes proposed are merely an extension of the fundamental spirit of the “Barefoot School Boy” Law through modifications and improvements which meet current difficulties. Poor, short-term schools perpetually short of funds are done away with in certain districts and wasteful and profligate expenditures are done away with in others by making larger taxing units. Under these new proposals the country schools are given the same direct supervision under trained superintendents as is now given the city schools and, by establishing better working conditions for teachers, rural children are insured better and more permanent teaching service.

As nearly as possible every boy and girl in the State, whether in city or country, will have equal opportunity for an education in our public schools. It is believed that with the use of the larger taxing unit and better supervision, the average cost of educating the children of the State can be reduced anywhere from fifteen to twenty-five dollars.

I commend this Public School Administrative Code to your most careful consideration.

THE SOLDIERS’ ADDITIONAL COMPENSATION ACT.

The Soldiers’ Additional Compensation Act passed by the Extraordinary Legislative Session was approved by the people, and affirmed by the Supreme Court. The State Board of Finance has advertised bonds for sale and will in all ways expedite the distribution of the fund.

The service rendered, for the payment of which these bonds were issued, was to preserve rights more valuable and more sacred than property rights. It is therefore most proper that the debt created should be paid by a personal rather than a property tax. I therefore recommend the enactment of a carefully prepared law levying a poll tax of five dollars on each person over twenty-one years of age, to raise a fund to pay these bonds and the interest thereon.

I also recommend that the legislature make some provision for the payment of the first year’s interest on the bonds.

VETERANS’ WELFARE COMMISSION.

The Veterans’ Welfare Commission, which was directed by the 1919 Legislative Session, was appointed by Governor Lister shortly before he retired from office. It consists of Honorable John H. Powell, Captain Miller Freeman, and Mr. W. H. Short, of Seattle, Reverend F. W. Keator, of Tacoma, and Major George E. Tuttle, of Spokane.

The work of this Commission cannot be too highly commended, and the value of this legislation and the half million dollars expended cannot be too highly estimated. It was one of the most beneficient provisions made to help the returned soldier, sailor and marine resume his status in civil life.
THIRD DAY, JANUARY 12, 1921

After the Commission and its departments were fully organized and properly functioning, Mr. Short feeling unable to take further time from other duties resigned from the Commission and I appointed Colonel W. L. Lemon, of Yakima, in his stead.

I feel that the important, patriotic work of this Commission is completed.

INDUSTRIAL CODE COMMISSION.

At the regular Legislative Session of 1919, I was instructed to appoint an Industrial Code Commission, to study the industrial situation, especially with regard to methods of avoiding strikes, lockouts and other disputes which cause so much loss and suffering to the general public.

After a lapse of some months, during which the Act was tested in the courts and the organization delayed by several declinations to serve, the Commission was finally organized with the following personnel, viz: Mr. E. P. Blake, of Seattle; Mr. H. Alvin Moore, of Seattle; Mr. DeWitt M. Evans, of Tacoma; Mr. W. L. Dimmick, of Yakima, and Mr. John Patterson, of Spokane.

The members of the Commission have studied the different phases of the various questions involved, have received available information from all parts of the world and will submit their report to the Legislature. I commend this report to you for careful study, and the bill to be submitted by the Commission for your favorable action.

CONSERVATION.

The State Reclamation Board created by the Legislature of 1919 met shortly after adjournment of the Session and perfected their organization.

The board has been very energetic and their report, which will be submitted to you, will indicate something of the importance and value of its work.

The Columbia Basin Survey Commission authorized at the same session was appointed early after the session and is composed of:

Mr. Arthur D. Jones of Spokane.
Mr. Peter McGregor of Hoover.
Prof. O. L. Waller of Pullman.
Mr. E. E. Benson of Prosser.
Mr. Marvin Chase of Olympia.

The Commission submits a voluminous report indicating the activity of the Board and the thoroughness of its work.

I recommend a careful study of each of these reports.

PROTECTION OF RIVER LANDS.

The extensive losses caused by the annual freshet in the Nooksack, Skagit, Snohomish, Puyallup and other rivers, when thousands of acres of our most fertile soil have been washed away, prompts me to recommend authorization of the State Reclamation Board to cooperate with Federal, County or other Governmental Agencies and individuals in the protection of these lands from the ravages of the high waters.

ALIEN OWNERSHIP OF LAND.

The Constitution of the State of Washington prohibits the ownership of land by aliens.

I recommend legislation that will prevent the violation and evasion by any subterfuge, of Section 33 of Article 2 of the Constitution.

The violation of such a statute should be visited with severe punishment.

FARM MARKETING.

Realizing as all must that agriculture is the primary source of our wealth and that the farmer is as much entitled to a full return for his labor and investment as are people in industrial and commercial pursuits, and believing that there may be just complaint of the difference between the price received by the producer and the price paid by the consumer, I recommend that a well prepared Farm Marketing law be enacted, and that the Farm Marketing Bureau be empowered to function more effectively from a practical viewpoint.
COLD STORAGE.

I desire to call the attention of the Legislature to the problem of the cold storage of food stuffs and to request appropriate regulation of the same so as to safeguard the public health and interest. Such regulation should include proper limitation of the time during which food stuffs may be kept in cold storage, specify conditions under which cold storage foods may be sold and establish some sound system for regulating price.

IMPROVEMENT OF DAIRY HERDS.

At eight of our State Institutions (besides the State College) dairy herds are maintained to furnish dairy products to the wards. Only three of these herds are really worth being called dairy herds. I believe these farms should in all things be models for practical farmers and particularly so with regard to our livestock. At the Western Washington Hospital we have some very fine pure bred dairy stock, needing only a head of the herd to be able to raise foundation stock for the herds of all our farms.

I recommend that a specific appropriation be made for such purpose.

STATE FAIR.

For several years the State has maintained with more or less success, at an annual expense of about fifty thousand dollars, a fair on the State's Grounds at Yakima. By reason of the topography of our State it is not possible to build or maintain a fully representative State Fair at any one particular place.

Without intimating that the Fair has not been worth its cost, I do wish to emphasize the fact that their facilities are not being utilized up to their greatest possibilities. I believe that if the City of Yakima owned this tract of land and the improvements thereon, the same could be used as a community park serving more varied purposes than at present. In addition to its present agricultural, industrial and commercial exhibition purposes, the fair grounds might well be used for athletic games and sports, camping and picnicking, educational exhibits and public entertainments. The community could still maintain, without financial contributions from the City Treasurer, a Fair that would be the equal of any in the West and one that from an educational standpoint would be of great value to the district and the State.

I therefore recommend that the State Fair Grounds at Yakima be deeded to the City of Yakima after the present indebtedness of the State has been paid.

HIGHER EDUCATIONAL INSTITUTIONS.

The 1917 Session of the Legislature organized the Joint Board of Higher Curricula and specifically instructed it to report to this session recommendations as to a revised millage tax for the support of the State Institutions of Higher Education, together with reasons for their recommendations.

This particular report is of special import at this time because after-war conditions have so greatly altered the situation at our higher educational institutions as to constitute a financial crisis for them. The recommendations of the Joint Board of Higher Curricula are based upon an educational cost-accounting system, which is the first of its kind adopted by any state system of higher public schools. This detailed report, with recommendations and reasons, will be submitted to you and I recommend its careful study by the Legislature prior to establishing the new millage.

STATE HIGHWAYS.

I recommend that no new highways be at present added to our present State Highway System.

I also recommend that the maintenance of state highways be made the duty of the State Highway Department.

HIGHWAY PARKS.

I recommend that the State Highway Board be authorized, either through cooperation with the State Land Commissioner, or through dealings with private persons and corporations, to acquire small tracts of land for camping and picnicking purposes, and
THIRD DAY, JANUARY 12, 1921

larger and longer strips of land containing virgin forest along the State Highways, for the preservation of their natural and characteristic beauty.

Such public parks maintained in connection with the highway system of the State are a valuable natural asset to the State and should be established before suitable locations are lost to these purposes.

THE CONTROL OF FIRE ARMS.

The recent crime wave again calls to our attention the need of adequate measures to regulate the display, sale, purchase and carrying of Fire Arms. Proper regulation is recommended.

AN OBSOLETE STATUTE.

I recommend the repeal of Section 8989 of Remington's Code and Statutes. The section calls for an obsolete and useless practice. This statute provides for keeping a record of all applications or petitions for the pardon of criminals. Such applications are so frequent and numerous and in most cases so completely unsupported by reasonable grounds that a register such as is called for is a useless record.

The present registry of all petitions and applications for pardon favorably acted upon is a useful record and should be continued.

PAROLE OF FIRST OFFENDERS.

I recommend that some provision be made whereby a first offender, who has as yet manifested no permanently vicious traits of character and who signifies a desire for another chance with some promise of making good, may be paroled, or permitted to go under suspended sentence, under such regulations as may be for the benefit of the youth and the safeguarding of society.

The time to save a wayward boy is before he has lost his self-respect through imprisonment, before he is even sentenced to a prison term. A young man caught in some boyish prank or escapade and brought into court, so scared as to be wholly incapable of any intelligent action, should not be condemned to a prison term, either on plea of guilty or trial, when some form of suspended sentence or parole will in the opinion of the trial judge perfectly safeguard society while giving the youth a chance to restore himself before the handicap of incarceration is irrevocably imposed upon him. Our whole system of handling first offenders needs careful thought and proper legislation.

TRAINING SCHOOLS.

Ever since the problem of our Training Schools for boys and girls has come to my attention, I have felt the great necessity for developing agricultural and industrial activities in connection with these institutions. It is far more than a state economy to develop improved dairies, increased poultry yards, added acreage for berry culture, equipment for the conserving of vegetables and fruits and similar vocational facilities in connection with the Training Schools; it is one of the best means we have for increasing the educational efficiency of these institutions, in rehabilitating those unfortunate boys and girls who have failed to receive the right kind of moral training earlier in life. Such a policy will multiply the opportunities to train the youth under custodial care in profitable and agreeable employment which will be their chief means for developing themselves into honorable and self-sustaining men and women. The policy should be still further developed.

THE DIVORCE EVIL.

It is a lamentable fact obvious to those who have inquired into the past life of the boys and girls in the Training Schools that the present conditions of far too many of these young people is the direct result of a broken family life, made too frequent by easy divorce and its associated evils. Surely parents owe to society the proper care and training of their children in a decent family life. Surely children are entitled to a home, with parental love and care bestowed by those responsible for their existence. Society should not look with calmness upon the easy way in which men and women throw off their marital relations under the too-ready sanction of public officials. The problem of marriage, family life and divorce needs the careful attention of the Legis-
lature. As important steps in the solution of the problem I recommend that our divorce laws be made more stringent; that the grounds for which divorce may be granted be restricted; and that collusion be an absolute bar to divorce.

**STATE POLICE.**

Many of the Prosecuting Attorneys in their annual reports urge the necessity of a State Police to assist in the enforcement of the Prohibition Law.

If a State Police is established it should primarily be a Highway Police to enforce the Rules of the Road, with general police powers permitting them to enforce all of the laws of the State, including prohibition. Such a State Police should be supported by a special fund raised by a one dollar licence fee on all drivers of automobiles living within the State, rather than by the general taxes of the State.

**QUALIFICATIONS OF THE ADJUTANT GENERAL.**

In his message of the 1919 Legislative Session, Governor Lister called attention to the fact that the then occupant of the office of Adjutant General was the only person in the State technically qualified under the statute for that office.

The ridiculousness of the present statute is indicated by the fact that the Adjutant General who resigned to go to war was thereby disqualified for reappointment upon his return because he had not been active in the National Guard for the three years just preceding the contemplated reappointment. In consequence he could be appointed to the office he had previously held only under the title of Acting Adjutant General.

I recommend an amendment to the Military Code that will permit the Governor to select a legally qualified officer of the National Guard as Adjutant General, should a vacancy again occur.

**WORK OF THE CAPITOL COMMISSION.**

Temple of Justice.

The Capitol Commission let the contract for the interior finish of the Temple of Justice to the firm of Pratt and Watson, who finished their work in due time. We ask a careful inspection of the Temple by members of the Legislature.

Insurance Building.

Finding that it was absolutely necessary to have room for the various Boards and Commissions occupying Legislative space in the present Capitol Building, and believing that an office building conforming to the Group Plan adopted by the Commission several years ago could be sufficiently near completion for occupancy by some of the Boards before the Legislature convened, the Commission on February 1, 1920, entered into a contract with Maccera, Pratt and Watson for the erection of what will be known as the Insurance Building. This building will not be completed for a few months although much of the space is fit for occupancy, and some already occupied by State Departments. Other departments will move in from week to week as the space is made ready. We also invite inspection of this work.

Additional Land.

Owing to some oversight in buying a part of the Capitol site some years ago a small square containing about 5,000 square feet of land was omitted on the southeast corner of the intersection of Thirteenth Street and the extension of Water Street. This necessitates the purchase of two lots. We recommend that a small portion of the Capitol Fund be made available for the purchase of land.

**WAR MEMORIAL.**

The 1919 Session of the Legislature authorized us to spend fifty thousand dollars for the erection on the Capitol grounds of a monument to the brave boys who made the supreme sacrifice in the great world war.

After consulting with sculptors and architects it was deemed inadvisable, owing to the incomplete condition of the Capitol Group, to attempt to locate such a memorial at this time.
MAIN CAPITOL BUILDING.

Owing to changing industrial conditions good business judgment demands that contracts for the erection of the Main Capitol Building be let for the erection of only a portion of the building at a time.

It will probably take five years to entirely complete this building.

The unexpended balance of the Capitol Building Construction should be reappropriated.

PRIMARIES ELECTIONS.

Time and experience have demonstrated that the Direct Primary is not the ross-strewn pathway that leads to the political Utopia dreamed by its sponsors. Even those most responsible for its creation are now quite willing and ready for a change.

The demonstration of responsible party organization, the unfair advantage given to minority parties and groups, the easy temptation to undue personal abuse by unscrupulous persons, all require a modification of our method of nominating candidates for public office.

I suggest a statewide official primary election conducted largely as are our present primary elections, but for the sole purpose of electing delegates to the County and State Conventions of the several parties. Each voter should vote for delegates of his or her political party only.

For your consideration I suggest that County Conventions merely nominate a county ticket and adopt a county platform and that State Conventions merely nominate a state ticket, adopt a state platform and, in quadrennial years, name delegates to the National Convention of the party.

No ticket of any party or group should be printed on the official ballot at the General Election unless the same was nominated at a regular convention composed of delegates elected thereto at the official Primary Election.

CONSTITUTIONAL AMENDMENT.

I recommend the submission of an amendment to Section 1 of Article 8 of the Constitution, changing the date of lapsing of appropriations from "two years from the first day of May next after the passage of such Appropriation Act" to "within one calendar month after the end of the next ensuing fiscal biennium."

The object of this amendment is to make possible the change of the fiscal year now ending March 31st, to one ending June 30th, making it correspond to the Federal year and at the same time permit legislation changing the meeting of the Board of Equalization that it may follow the Legislature instead of preceding it.

The Board of Equalization should levy a tax adequate to take care of the expenditure provided by the Legislature.

GENERAL FUND.

The estimate of a two million dollar deficit, as given to the Special Session, bids fair to be realized. Raising the maximum general fund tax levy to five mills by the Extraordinary Session was taken advantage of only to the extent of levying a four and one-half mills general tax by the Board of Equalization. And while the old millage for higher education will be in force for the first year of the biennium, necessitating the payment from the general fund next year of approximately four hundred thousand dollars, it is confidently believed that with economy in appropriations, the adoption of recommendations here made and the working of the new Civil Administrative Code, we will close the fiscal year ending March 31, 1922, with a healthy balance in the general fund.

GENERAL FISCAL POLICY.

If we are to realize this much desired condition, it will be necessary to conduct the State's affairs on business principles. Property must not be unduly burdened with taxation. Assessments must be properly equalized, that all property contribute its just portion of taxes; income must be sought from a greater Inheritance Tax, a greater Fish Tax and a reasonable tax on gasoline, distillate and kerosene: and the General Fund must be relieved of the burden of carrying special and local departments that ought to pay their own way.
I have endeavored in this message to refrain from making any recommendations or suggestions that would involve new burdens on the General Fund. Whenever possible, essential increases in expenditures are cared for not by new general taxation, but by the creation of a special fund to take care of the same.

**ASSESSMENT.**

I recommend that the statutes be amended so as to provide that property shall be assessed for taxation at its value, instead of fifty per cent of its value; and that the State Board of Equalization be authorized to equalize assessments of property and classes of property among counties.

**INHERITANCE TAX.**

With the state, county, city, school, port district and metropolitan part district taxes all levied against general property, and with large values of property being withdrawn from taxation by municipal ownership, it seems that we have about reached the limit of taxation that may be borne by property. If the current tendency to over-burden property with taxation is to be checked or reduced, I am of the opinion that considerable relief may come through enlarged resources gained through a properly increased inheritance tax.

A properly modulated inheritance tax, starting with a very light tax on small inheritances and becoming quite heavy, say with large inheritances about fifty per cent of the excess over fifty thousand dollars, should be levied on the amount received by the devisee or legatee and not on the value of the estate. An extra heavy tax on bequests to legatees who are strangers to the blood should also be part of the plan.

I recommend for your careful study and favorable action some such plan for a properly increased inheritance tax revenue.

**GASOLINE TAX.**

The voters of the State having again voiced their faith in the "pay as you go" policy in state development, and it now appearing that the Federal Congress will materially reduce, if it does not entirely withhold all Federal aid, for highways construction, and believing it to be an equitable way of raising funds for hard surfacing our highways, I recommend a tax on gasoline, distillate and kerosene, and that the fund thus raised be appropriated for construction and hard surfacing of State Highways.

I further recommend that in addition to an appropriation for the necessary expense of maintaining State Highways, and caring for detour that not less than one million dollars be appropriated to the Highway Board for emergency work and for connecting up completed portions of roads, where the amount for contract has been insufficient.

**FISHERIES FUND.**

The expense of the Fisheries Department is well within the amount of the appropriation, but owing to the smallness of the salmon run for the last two years the receipts are less than the appropriation or the necessary expenses.

I recommend that the Appropriation Act of 1919 providing for the Fisheries Department be amended by striking out the words "Not to exceed receipts" and insert in lieu thereof "To be paid from the Fisheries Fund."

I recommend that there be a material increase in the tax on fish, levied and payable at its source. I can see no reason why our fisheries should not be a source of revenue. I think there should be no increase in license fees or in tax on prepared food.

**DEPARTMENTAL EXPENSES.**

I believe that every taxpayer in the State is entitled to know or have an opportunity to know just what each department of government costs.

It is also my opinion that each state department having a special tax or source of revenue should be so financed that all of its expenses should be borne by its own funds.
I therefore recommend that the expense of administration of the Fisheries Department be paid from the Fisheries Fund.

That the expense of administration of the Game Department be paid from the Game Fund.

That the administrative expense of the Highway Department be paid from the Highway Fund.

That the administration of the Building and Loan Department be paid from the fees collected by that department.

That the administration of the Banking Department be paid from the fees collected by that department.

That the administrative expense of the Industrial Insurance Department, including Medical Aid and Safety Boards be paid from the Accident Fund.

That the expenses of administration of the Reclamation Board be paid from the Reclamation Fund.

That the expenses of administration of the Educational Department be paid from the Current School Fund.

The Joint Board of Higher Curricula recommends a millage tax to pay only current expense of the several institutions. The omission of items for major capital outlays, such as the occasional purchase of land and erection of new buildings, was for the reason that some of the institutions would probably not have a new building oftener than once in eight or ten years. To add to its millage even the cost of one building might double its millage. I believe that a building program can be worked out so that about the same amount will be needed each biennium.

I therefore recommend that in addition to the millage tax for each institution for current maintenance and operation, there be fixed a millage tax for a Building Fund for the Higher Educational Institutions, and that from this fund there be appropriated all the money for new buildings for such institutions, excepting only Initial units and sites for new institutions and the amount required to duplicate the tuition fees at the University under our compact hereafter mentioned.

The policy involved in the foregoing recommendation is based upon the belief that, with each department paying its own way and clearly showing its own costs, the current expense of purely governmental functions will quickly reduce the General Fund. Tax levy below three mills, where it can easily be kept if future sessions of the Legislature in adding new governmental functions will in each instance provide the fund to pay its cost.

EMERGENCY APPROPRIATIONS.

Motor Vehicle Fund and Unemployment.

From reports and requests for help from many sections of the State, it is evident that there is an immediate need of employment for idle men throughout the state.

I therefore recommend the prompt appropriation of $750,000.00 of the Motor Vehicle Fund to be expended by the Highway Board in completion of existing contracts and in construction work on the State Highways, both under contract and by force account.

Urgent Need of Floor Space at University.

During the Session of the Legislature of 1915, at a conference between the Governor, the Lieutenant Governor, the President and the Regents of the State University, and the members of the Appropriation Committees of the House and of the Senate some means were being sought to finance a building program for the State University made necessary by the temporary character of some of the A. Y. P. buildings which had been used by the University. It was finally agreed by all present that, as a partial remedy, if the State University would collect certain tuition fees from the students the State would at each session appropriate from the General Fund an equal amount for erection of new buildings.

Realizing the continuing need of new buildings at the State University as well as the moral obligation, I recommend an appropriation from the General Fund equal to the sum of tuition fees collected during the past biennium, which together with the fees, shall be used in the erection of a new building or buildings at the State University.
Need of Normal School Building at Centralia.

The new Normal School at Centralia cannot function without buildings. Under the direction given me at the 1919 Session I appointed R. R. Sommerville of Lewis county, and G. W. Nash, President of the State Normal School at Bellingham, and together we selected a site for the new school on what is known as Seminary Hill, in the eastern part of Centralia. The citizens have obtained title to about fifteen acres of land and are ready to deed the same to the State when approved by the Legislature.

This is adjoining land which I believe will eventually be needed and which can be bought at a very low price. I believe it ought to be bought now. On my suggestion options have been taken on this land.

I recommend that there be appropriated from the General Fund, for the erection of a first unit of the Centralia State Normal School building and for the purchase of land, the sum of $350,000.00.

Immediate Emergency Appropriations for Higher Educational Institutions.

Immediately following the war the enrollment at the State University and the State College increased so abnormally and the cost of all things went up so high that it was a grave question whether it would be possible to keep these institutions going. By careful management of the Boards of Regents and Presidents, together with the self-sacrifice and loyalty of the members of the faculties they have both been able to pay their bills up to the present time. In varying degree we have had similar situations in the different State Normal Schools.

Under the abnormal conditions existing in the work of these Higher Educational Institutions, I recommend that appropriations be made from the General Fund sufficient to carry these institutions to the end of the biennium. This will take approximately four hundred thousand dollars.

Emergency Needs of Other State Institutions.

Owing to increased attendance and great advances in living costs it was wholly impossible to furnish maintenance at the Veterans' Home, the State Reformatory, the Western Hospital for the Insane, and the Boys' Training School. It will be necessary to provide additional emergency appropriations for carrying these institutions over to the end of this biennium.

Possibly there may be small deficiencies in some other institutions, in which case these must also be cared for.

Other Matters.

Several subjects of importance are omitted from this message. For the most part those dealing with the effectiveness of State Government are carefully presented in the Civil Administrative Code. Many other matters, likewise important for your consideration, are not included here, chiefly because they are amply presented in the printed reports of the various state departments. I commend all such detailed reports to your attention as presenting facts and recommendations of important value in framing legislation.

Conclusion.

The overwhelming vote cast for nearly all of us who are members of one political party, with only two Senators and three Representatives of the minority parties, causes me to believe that the people of the state are looking to this Legislature and this Administration for constructive legislation and practical business methods.

I hope that everyone of us will fearlessly and unselfishly do the thing he believes to be or the best interests of all the people and of the State as a whole, forgetting all personal interests and disregarding all local prejudices, that from the results of our labor together the people of our State may proclaim this a real constructive legislative session and we may each of us find our own reward in the consciousness of duty well done.

MR. SPEAKER:

We, a majority of your committee on Privileges and Elections, to whom was referred the matter of Frances M. Haskell, Contestant, vs. David Lewis, Contestee, have had the same under consideration, and we respectfully report the same back to the House with the following Findings of Fact, Conclusions of Law and recommendation:

Findings of Fact.

Having heard the evidence introduced in the above entitled action, we, a majority of your Committee on Privileges and Elections, find that subsequent to the general election held on November 2, 1920, the Contestee, David Lewis, together with his family, moved and established his residence outside of 38th Legislative district of the State of Washington, from which he was elected a Representative in the House of Representatives of the 17th Legislature of the State of Washington; that the said David Lewis is not now, nor has he at any time since he left the said 38th Legislative district of the State of Washington from which he was elected such Representative been an inhabitant of said district; that he is not a bona fide citizen in said district, nor is he qualified to retain his seat in the House of Representatives of the 17th Legislature of the State of Washington.

Conclusions of Law.

From the foregoing Findings of Fact, we, a majority of your Committee on Privileges and Elections, make the following Conclusions of Law.

That the Contestee is not eligible to sit in the House of Representatives of the 17th Legislature of the State of Washington as a Representative of the 38th Legislative district of the State of Washington.

That the seat of said David Lewis as a Representative of the 38th Legislative district of the State of Washington in the 17th Legislature of the State of Washington is vacated.

WHEREFORE, We, a majority of your Committee on Privileges and Elections recommend that the charges be sustained, and that the seat of David Lewis as a Representative of the 38th Legislative district of the State of Washington in the 17th Legislature of the State of Washington be declared vacated.

Mr. Speaker:

We, a minority of your Committee on Privileges and Elections, to whom was referred the matter of the contest above mentioned, beg leave to report the following Findings of Fact:

FIRST: That David Lewis, contestee, was a bona fide resident of the 38th Legislative District prior to and including the election held November 2, 1920.

SECOND: At said election, said David Lewis was duly and legally elected representative from said district.

THIRD: That on or about November 6th, 1920, said David Lewis, contestee, temporarily removed himself and family and a portion of his household goods from said district with no intention of locating his residence elsewhere, but with the intention of returning thereto, and that he has at this time the intention of returning to said district at the conclusion of this present session.

From the foregoing Findings of Fact, a minority of your Committee agree on the following Conclusion of Law:

That said David Lewis is at present a resident and voter of the 38th Legislative District and is entitled to a seat in this House.

WHEREFORE a minority of your Committee on Privileges and Elections recommend that the above contest be dismissed.

MR. SPEAKER:

We, your Committee on Municipal Corporations of the First Class to whom was referred House Bill No. 44, have had the same under consideration, and we respectfully report the same back to the House with the recommendation that it be indefinitely postponed for the following reasons:

House Bill No. 44, labeled by its sponsors "The Farm Marketing Bill" proposes no plan more beneficial to the producer or consumer than the enactment of 1912, known as the "Agricultural Development District Law," set forth in Sections 19 to 77 inclusive, of Pierce's Washington Code, which confers all powers proposed by this bill in establishing the principle of "Farm Marketing." It is the belief of your committee that House Bill No. 44 was introduced for no purpose other than the promotion of political propaganda of professional preachers of untruth, and we therefore recommend it for indefinite postponement.

The Speaker addressed the House as follows:

This is the 22nd day of the session. To date we have not outlined or adopted a constructive program which will afford definite and immediate relief to the tax burdened people of the state, except the passage of the administrative code, the ultimate beneficial results of which cannot be positively stated. If this Republican Legislature fails to curb the useless increasing state indebtedness and the consequent tax burden it would be well had we never convened.

I believe I reflect the sentiment of the people of the State and the members of this House when I suggest to the Revenue and Taxation Committee that it is desirable and imperative that you make a horizontal cut in the tax levies that may be assessed which will result in a saving of from three million to five million dollars under the levies now authorized. The Rules Committee will submit to you its recommendations as to how a cut can be made.

Our educational institutions have become top-heavy. Do not let the persistent and persuasive arguments urged upon you by either the invited or uninvited lobbyists swerve you from bringing these institutions back to the first principles for which they were established, viz, the education of the legally resident youth of our state, and do not permit yourselves to be led astray in the Utopian fields of University and common school extension work, for the imparting of knowledge to men and women whose arteries and brains cells have begun to harden.

The House vigorously applauded the Speaker's remarks.

Before the roll was called, Mr. Grass sent the following explanation of his vote to the desk to be spread upon the journal:

EXPLANATION OF VOTE OF REPRESENTATIVE GRASS ON SENATE AMENDMENTS TO HOUSE BILL NO. 11.

I vote yes on this amendment to the bill because I consider it helps somewhat a measurer that is contrary to the spirit of American Government. Under it the Governor may be an autocrat. He can control the policies and patronage of every state office.

He can build a political machine including every state employee. Every elective state official if appointed to a directorship must surrender all independency of thought and policy of the Governor if the Governor desires it.

No one knows how long we will have a good Governor. Any autocratic government is good only so long as we have a good Governor.

If this act saves any considerable sum of money it will be because all commodities used in future will be purchased at lower prices than in the past. We face a lowering market. The Governor under existing laws has absolute control and management of the three state boards that spend our money, to wit: "Board of Control," "Highway Department" and "Public Service Commission." If they are wasting our money now the Governor can stop it just as well under present law as he can under this act.

I therefore see no reason why the Governor should be given additional and almost autocratic power over everyone connected with state government. My reasons are impersonal and not directed toward the present Governor nor any present state official.

On motion of Mr. Reed, the House concurred in the Senate amendments to House Bill No. 11 by the following vote: Yeas, 86; nays, 4; absent or not voting, 7.

The President announced that the joint session was called for the purpose of holding memorial services as a mark of respect to the memories of former legislators and state officials who had departed this life.

Prayer was offered by Rev. W. J. Hindley of Spokane.

Senator Landon delivered the following eulogy on the life of former Governor Ernest Lister, as follows:

In common with most of you present I first met Governor Lister upon his taking up the duties of state.

Memory brings us back to the dignified appearance, the sincere manner of the man who from that time on was a living power among men, molding public opinion and shaping the destiny of our state.

It is difficult for us and his loved ones indeed to realize that we shall hear the earnest tones of his voice no more, and be deprived of his counsel in time of need.

After having served the people for four years as the chief executive, he was re-elected without difficulty, for it can be truthfully said that he fought for them and they in turn for him; his acts were above suspicion and he discharged his duties with credit to himself and honor to the State.

A thorough and intimate knowledge of the state institutions and their requirements gained him an authority on the subject of the business conduct of the state government and gave weight to his recommendations for economy in state expenditures. He was a firm and able advocate of sane finance in public affairs and nothing in the record more redounds to his credit than his insistence upon and success in applying business principles in the administration of his office. He regarded a promise to the public as a sacred contract and bent every energy and effort to fulfill his promise to reduce the cost of government in this state by effecting practicable economies without crippling the legitimate
and normal functions of government or without failing to give proper care to the wards of
the state.

He was an ardent champion of democracy and he realized that man was greater
than anything that man could do and insofar as it was within his power he restored
and protected the inalienable rights of the people.

Governor Lister was essentially a fighter. He never beat a retreat. There was
neither weakness nor fear in his makeup.

He met every responsibility and every difficulty with strong courage and a deter-
mined purpose to insure justice to all. The severe test of war, no less exacting in its
demands upon the civil officer than upon the soldier in the field, found him prepared
and ready to discharge the duties that it imposed. He gave to his state and to his
country the best service of which he was capable throughout the period of the war,
and gave so unswervingly that physical strength failed under the self-imposed burdens
that he shouldered. He sacrificed health and life itself to his high sense of duty.

Our friends and loved ones pass from Life—and the rest is silence. Only faith
can make a hopeful response, and never is Faith so hopeful as when regarding duty
well done. From out the darkness of the tomb we hear the still small voice: “Well
done, thou good and faithful servant.”

Mr. Mansfield delivered the following eulogy on the life of W. G. Duncan:

William George Duncan was a native of Ontario, Canada, born August 26, 1857,
of Scotch-Irish ancestry. He came to Washington Territory in 1884 and on July 4 of
that year he settled on a homestead at Egypt, Lincoln county, where in addition to
farming, he conducted a store and post office for some years.

Before leaving Canada he was married to Mary Hemphill and nine children were
born to them. In 1914 Mr. Duncan was elected to the Legislature from the 16th Dis-
trict, and served Lincoln County faithfully and conscientiously in the 1915 session.

He was known as a man of high ideals and honesty of purpose, and was an un-
swerving Republican from the time he became a citizen of the United States.

During the last two years of his life he resided at Deep Creek, Spokane County,
where his death followed a surgical operation in May, 1919.

Mr. Richardson delivered the following eulogy on the life of S. H. Manley:

Dr. Sheric H. Manley was a prominent physician and surgeon of Northeastern
Washington. He was born on a farm near Norwalk, Ohio, March 10, 1847. He was a
graduate of the Keokuk (Iowa) Medical College, receiving his diploma in 1873. In
the early 80's he came west to California and later moved to the Territory of Wash-
ington. He was elected to the territorial legislature from Whatcom County in 1884. In
1885 he crossed the mountains into Eastern Washington and located at Colville, and
from Stevens County was elected to the constitutional convention which convened in
1889.

At the time of the mining boom on the Colville Indian Reservation he moved from
Colville to the city of Republic where he continued to reside until a few years ago
when he moved to San Francisco. Dr. Manley took an active part in civic affairs of
Perry County serving for a number of years as county physician or coroner.

He built and equipped a hospital and was active in promoting every public enter-
prise.

In 1877 Dr. Manley married Miss Florence Cotel of Saginaw, Mich., and to that
union eight children were born, of whom three daughters, a son and their mother still
survive.

His death in San Francisco in June, 1920, was not unexpected as he had been in
a very serious condition for a long time. He leaves a host of friends in Northeastern
Washington who sincerely regret the passing of one of nature's gentlemen, a man
admired for his ability, his generous, genial and kindly disposition.

Senator Adamson delivered the following eulogy on the life of Jacob
Hunsaker:

Away back in 1845, in Adams County, Illinois, on the 22nd day of January, Jacob
T. Hunsacker, and Emily Hunsacker, his wife, living in a humble home, coming from
the old pioneers of Pennsylvania, to them on this day was born Jacob Hunsacker
(and in later days was called Jake Hunsacker by his more intimate friends). At the age of one year and a half his father and mother, longing for the land of the setting sun, started on the old ox trail for the State of Oregon, and landed, after a long and dangerous journey, near Oregon City, where they made their home on a farm.

The boy at an early age determined to secure an education such as was afforded in the country school, and on merging into young manhood, without any advantages, worked his way partially through Pacific University, Forest Grove, Oregon. After securing his education he came to the State of Washington and taught school in Thurston County for a period of three years. Being of an adventurous nature, in the year 1872, he went to Peru, South America, where he was employed by a railroad construction company. After residing in Peru for a little over one year, he again set out on a long journey and landed at Olympia, Washington.

In 1873, on the 1st day of May, he was married to Elizabeth Chamber, a native of Thurston County, living at Chambers Prairie. In 1875 they located on a farm near what is now called Underwood. In 1883 he removed to White Salmon, where he was engaged in general merchandising. During the years 1885 to 1889 he was county commissioner of Klickitat County. In the fall of 1889 he was elected as State Senator for Klickitat and Skamania Counties and served during his term of office. In 1892 he moved to Everett, Washington. During his residence in Everett he was honored by being elected mayor for two terms, also city treasurer. During his active life he was always interested in the welfare of others. Three children were born to Mr. and Mrs. Hunsacker.

Mr. Hunsacker was a great admirer of Abraham Lincoln, and always loved his country and his fellow men. Many young men will remember him for his fatherly advice and counsel.

On the morning of December 27, 1920, Mr. Hunsacker, the pioneer, the husband, the father, the Christian gentleman, the friend of all, arose as usual and spent an active day in his office. About 4 o'clock in the evening, on his way home to his loved ones, without any warning, his Heavenly Father said: "Well done, thou good and faithful servant." Thus ended the earthly career of our friend and brother.

Senator Coman delivered the following eulogy on the life of former Governor Miles C. Moore:

Mr. President, the Governor, Members of the House and Senate, Ladies and Gentlemen:

It is a high privilege to be permitted to stand here for a few brief moments and recount some of the salient points in the life and career of that distinguished citizen and pioneer developer of the Northwest, Hon. Miles C. Moore, the last Governor of the Territory of Washington.

Miles C. Moore was born in Muskingum, Ohio, April 17th, 1845. At the early age of twelve years, with his parents, he removed to the State of Wisconsin where he received his education. Of an adventurous spirit, his eyes turned toward the setting sun. The tales of wondrous natural resources and agreeable climate of this sparsely settled region of the Northwest fired the ambition of young Moore and he broke the home ties to try his fortune in the new land before he had attained his majority. Availing himself of the varied forms of transportation in use in that early day, he arrived in Walla Walla in 1863. His most engaging personality won him friends from the start and although penniless and unknown he soon found employment and shortly thereafter was admitted to the firm. Later he associated with Dr. D. S. Baker, who was then one of the most prominent, wealthy and progressive citizens of the Northwest, with very extensive business interests. In 1869, in association with Eugene Doyer, there was founded the Baker-Doyer Bank, later converted into a national bank, and at the present time the oldest financial institution in the state and the largest in point of resources in the territory which it serves. Governor Moore was actively identified with its management as its vice president and in 1899 as its president, which office he held until the time of his death. His business career was one of almost uninterrupted success, and at his death he left a most substantial fortune as a result of his faith in the future of this state and his uniring industry coupled with sagacity in his investments. His dependability and right judgment
brought him in contact with business men in various walks of life. His counsel was always appreciated and his advice usually heeded. In recognition and appreciation of his ability, he served as a member of the Executive Council of the State Bankers Association and was afterward honored by election to the presidency of that organization. On retiring from that office he was chosen by his fellow bankers of the state to represent the Washington bankers in the Executive Council, which is the governing body of the National Bankers Association, a position which he held for three years.

While a most successful business man, Governor Moore was not unmindful of the duties and responsibilities of a good citizen and the need of a contribution of a part of his time and resources to the public welfare. He served his community as councilman, mayor, and member of the school board prior to being called to the higher office of chief executive of the state. President Benjamin Harrison appointed him territorial governor in 1889 and he served in that position until his office was terminated by the admission of the territory to full statehood, a period of seven months. During his incumbency in office the three principal cities of the state Seattle, Tacoma and Spokane—were visited by very disastrous conflagrations which destroyed the larger part of the business districts of these cities, besides rendering many thousand people homeless. Governor Moore showed his firmness and executive capacity in promptly rising to the responsibilities imposed upon him by these calamities. He ordered out the militia and in one case where the need was greatest proclaimed martial law that the rights and property of the bereaved and stricken citizens might be afforded the fullest protection.

In addition to his business and political careers, Governor Moore was a sincere lover of his fellow man and deeply interested in every movement that promised for the welfare and betterment of those with whom he came in contact. For many years he served an overseer of the board of trustees of Whitman College and at his death was president of that organization.

A strong personality, with decided views, his political ambitions brought him in conflict with others of like type and character. Out of these contests grew one of the most notable political feuds in the Northwest, between Governor Moore and Senator Levi Ankeny. The passage of time and the afflictions of death in the immediate families softened the hearts of those fine old antagonists and a number of years prior to the death of Governor Moore they had become completely reconciled and each learned to appreciate the fine qualities of and the large contribution to the public service that had been rendered by the other.

Governor Moore's long and successful career should be an inspiration to all who contemplate his life and character. His public activities were a notable contribution to the framing of the public policy of the Territory and State of Washington. His success in business amid such handicaps is an encouraging example to young men striving to make for themselves a career. His fidelity to every trust and his faithful performance of every public duty imposed upon him should lead us, who have our several public responsibilities, to attempt to emulate his high example.

Mr. Satterlee delivered the following eulogy on the life of former Lieutenant Governor Chas. E. Coon:

It is with the deepest respect and veneration, I believe, that we pause in our rapid progress through life and at this time bring before us the spirits of those who have passed the dark border of the valley shadow. There comes to me at this time the great honor to speak for a few minutes in eulogy of the Honorable Charles E. Coon. And in refreshing the memory of this venerable character I bring before you the life of one of the most noted men in public life, not only of our own state, but of the beloved nation.

Charles Evert Coon was born on March 15, 1842, in the little village of Friendship, in the Allegheny Mountains of New York, of sturdy Scotch and English stock. Through his mother he was a direct descendent of the Intrepid Brigadier General Gideon Brownson, who commanded a brigade of the famous “Green Mountain Boys” in the war of the Revolution. Perhaps it was this inherited fighting blood from his forebears which led him, in 1861, at the age of 18, to enlist in the 23rd New York Volunteer Infantry, with which organization he served in the army of the Potomac until 1863, when he became chief clerk and deputy provost marshal of the 27th Congressional District.
of New York. In 1864, on his discharge from the army, he was given a position in the office of the United States Treasurer at Washington, and, though he had but the merest common school education, through long years of service, his life was a story of promotion and success in the service of the government, until he became assistant secretary of the treasury under President Arthur. He was finally transferred to the office of the secretary. In 1871 Mr. Coon was selected as one of the staff of Hon. Wm. A. Richardson, assistant secretary of the treasury, a staff charged with the very important duty of refunding the United States bonded debt. He was engaged in this work for ten years, during the latter part of which time he served as agent in charge. It has been computed that during this time money and securities passing through his hands would total over a billion dollars. Mr. Coon was employed in the office of the secretary of the treasury at the time of that historic event when Secretary John Sherman brought about the resumption of specie payments. By Mr. Sherman's direction Mr. Coon prepared an exhaustive report to Congress which was published under the title of "Refunding and Resumption of Specie Payments." Perhaps one of the most notable services rendered by Mr. Coon was at the outset of the Garfield administration, when a disturbance of balance of trade was threatened by the return from abroad of a large number of United States bonds about to fall due. He went to England, and through his experience and acquaintance with British financial circles was enabled to exchange these for low interest-bearing long time bonds, thus saving the nation from a critical financial situation, at the same time making an enormous saving in interest.

In 1884 Mr. Coon was selected by President Arthur as assistant secretary of the treasury, and upon the death of his chief, Charles J. Folger, became acting secretary. His continuous service with the treasury of the Government lasted from the regime of Salmon P. Chase in 1864 to that of David Manning in 1885. He was widely known as a wonderful source of information and authority on government finance.

Mr. Coon linked his life with the destinies of the State of Washington in 1895, when on a visit to his daughter in Tacoma he became so favorably impressed with the Puget Sound country that he decided to remain. He located at Port Townsend in 1897 and established a mercantile business which he conducted until his death. He served two terms as mayor of his adopted city and was an earnest worker for its welfare in every possible way.

In the fall of 1904 our commonwealth honored this venerable statesman by electing him to the position of lieutenant governor, in which capacity he served as president of the Senate from 1905 to 1909. He was elected without opposition to the 18th session of this legislature as a member of the House, the last official act of his life being to notify the senate that the house was about to adjourn sine die.

Mr. Coon was prominent in fraternal circles in the state and nation. He was one of the first members of the Grand Army of the Republic, having assisted in its organization in Washington, D. C., was a member of the Masons, the Elks and a member of other fraternal orders.

He was always an active participant in social and civic affairs in his home town. Wherever people were gathered the imposing figure and genial bearing of "Uncle Charlie" as he was lovingly called by his friends and neighbors, at once inspired attention, and his wonderful life of experience made him intensely interesting in conversation. He was open hearted and friendly to men, chivalrous and courteous to women and kind and loving to little children. During the closing months of his life he seemed to ripen into the fullness of his eventful career. And Uncle Charlie died as he lived—as he wished to die—with his shoulder to the wheel, with his hand still at the helm of his earthly affairs in spite of his advanced years looking calmly and fearlessly toward the sunset and asking nothing more than that the strike of the grim messenger should be swift and sure. On January third, 1920, in the seventy-eighth year of his life he was stricken with paralysis and sank into a deep sleep from which he never awakened, and five days later, the well-filled book of his life was gently closed and there passed into the corridors of memory a remarkable soul, the best years of whose life and effort was given to the service of his country.

Senator Groff delivered the following eulogy on the life of former Secretary of State I. M. Howell:

This being the day dedicated to pay our respects to the memory of those servants of this State who have departed, it is most fitting and proper that we should from time to
time recall the achievements and personal sacrifices made by those individuals resulting in the development of this Common Wealth. The creation of the Union and its several states, and the blessings of our present form of Government has been maintained and developed by our public servants.

Frequently the major portion of a man’s life is spent in public service. Pride actuates an individual to exert his or her best efforts and by such manner and means the state secures the contribution of this service. Rarely is he over compensated in any degree for the amount of benefit rendered to his fellows. The people, generally, are prone to encourage the efforts of a servant with praise, but never neglect to criticize. This is due primarily to an oversight and not to lack of appreciation. We, as a class, are patriotic, and frequently make utterances without much reflection and are too busy to smooth over hurried statements.

All of our public servants who have contributed the most to the creation and nurturing into existence of this great Republic have left an achievement, and an occasional mention of that achievement in kind words of appreciation often stimulates, rest and relax an overworked individual and inspires them to greater effort. Pride actuates men and women to perform many deeds which renown the common benefit of all of us.

Captain I. M. Howell, was born in Waukon, Alamakee County, Iowa, February 13, 1866. At the age of six years he moved to Rock Rapids, Lyon County, Iowa, with his parents where they became interested in farming and city building. In 1877 he moved to Tacoma, Washington Territory, and received his education in the public schools at Tacoma, finishing at the Oregon State Normal.

His entry into politics dates back to 1901 when he was appointed chief deputy of Auditor J. H. Davis in Pierce County. His record as deputy elected him the succeeding term, where he served eight years. In 1909 he received the appointment of Secretary of State under Governor Hay, and was elected to the office by the people in 1912 and 1916. Mr. Howell filled the position of Secretary of State with honor and was favorably mentioned for the governorship on many occasions. In politics he was always a staunch Republican, never wavering during the Populist craze or later in the Progressive movement. He always held the confidence of his friends and had a faculty of making no enemies.

“Cap”, as he was affectionately called by his many friends, was always ready to contribute his time, energy and talent towards the advancement of the party to which he was connected, and to give his uniring efforts to the people of whom he was a servant. He was not in any sense a politician. His office was never used to promote his interests or for his own profit or advantage. After many years of faithful service to the state, he died a poor man, leaving his family very little in the way of property or money, but leaving the greatest estate that any man could leave—a host of loyal friends and a life record of honesty and square dealing. He died on the 13th day of July, 1920.

Mr. Spencer delivered the following eulogy on the life of C. W. Gorham:

Mr. President; Governor, members of the Senate and House, in joint session assembled: It is, indeed, a beautiful custom for us to stop for a few moments in the hurry and bustle of the affairs of the State, and pay tribute to the former members who have passed to the great beyond.

C. W. Gorham was born in the City of New York, May 30, 1865. Of his early life I know but very little, other than that after completing his common school education, he entered Cornell College, Iowa, from which he graduated, a young man. He came to the great Pacific Northwest, and settled in the city of Snohomish, Snohomish County. In 1900 he was elected to the Legislature of the State of Washington. After the session of 1901 he returned home and resumed private life. During the administration of Governor Mead, he was appointed State Printer, which office he held during that administration. Upon the expiration of his term of office he became greatly identified with the business, fraternal and social welfare of his community. He was elected a director of the First National Bank. He was also instrumental in financing the Cascade Lumber Company, one of the largest institutions of Snohomish County. In 1916 he was, for the second time, elected to the State Legislature. It was during the session of 1917 that I had the privilege of meeting Mr. Gorham and found in him a man of sterling qualities and worth. After that session, came the Great War. Mr. Gorham put aside
his business affairs and became very actively identified with war work. He was placed at the head of the Liberty Loan, Red Cross and Y. M. C. A. drives in his district, working from early morning until late at night. In 1918 he was again elected to the legislature, and the day before the opening of the session of 1919, while seated at his desk, in this Chamber, he was stricken with paralysis. After remaining in the hospital in the city of Olympia for a couple of weeks until he had gained sufficient strength he was removed to his home in Chehalis, where he could be with friends and loved ones.

Mr. Gorham believed in and exemplified the principle that labor is the noblest of virtues; that life is short, while the thought and influence of our words and deeds are immortal; that the stars in their never ending course, and in all space, and in all time, silently are continually admonishing us to labor while it is yet today, Labor which is broad as the earth has its summit in Heaven. To toll, whether by the sweat of the brow or of the brain or heart, is worship, which is the noblest thing yet discovered beneath the stars. He believed that we should cease to think that labor is a curse, for without it there could be no true excellence in human nature; without it, and pain and sorrow, there could be no human virtues.

I believe that on the 22nd day of October, 1919, C. W. Gorham made the supreme sacrifice, in no less degree than did those who fell on Flanders Field, when the spirit of the universe called him to that undiscovered bome from which no traveler ever returned.

In the passing of Mr. Gorham, his family lost a father and companion; his community lost a friend, and this State and Nation lost a man and a citizen, of whom we can all well be proud.

Senator Cornwall delivered the following eulogy on the life of former State Senator Reser:

Hon. William Philip Reser was born in Quincy, Illinois, February 29, 1843. He was the eldest son of the late Rev. John L. Reser. When two years of age he was taken by his parents to Missouri where he grew to manhood and received his education. In 1863 he crossed the plains by ox teams and settled on a homestead about three miles southeast of Walla Walla. Mr. Reser was married in 1863 to Miss Mary Gray, who died May 16, 1895, leaving four children by this marriage: Mrs. Clara Corbin, Mrs. Anna Drumheller and Phillip Reser, all of Walla Walla; and Frank Reser, who died in 1895. Mr. Reser was again married in 1897 to Miss Linda Davis, daughter of a pioneer family, who still survives him. To this union one son, Byron Reser, was born and resides with his mother on the farm. In 1900 Mr. Reser was elected to the State Senate of Washington and served in the sessions of 1901 and 1903. At the time of his election he was the only Democrat elected on the ticket in Walla Walla County.

Immediately on arriving in the Walla Walla Valley he began laying out an extensive program of farming and stock raising. At one time he owned and operated 60,000 acres of land, farming and growing wheat on the fertile lands of the valley and raising livestock of all kinds on the mountain and arid lands, using the mountain ranges for summer pasture and the breaks of the Snake River for winter range. At the time of his election to the State Senate he was known as one of the most extensive farmers in the Northwest in grain, stock raising and diversified farming. On his home ranch he kept a band of elk and raised them successfully for a great many years.

Mr. Reser had a strong personality and personally superintended and supervised the operations of his many farms. He was very liberal and kindly disposed to all educational and other institutions that were for the betterment of the rising generation. He was a friend of the young man and was always ready with his timely advice in directing and advising the young man in his moral career as well as in his business interests. While he was a very busy man, he took a particular interest in the welfare of his neighbors and the social center of the community in which he lived. On Sunday morning he was never absent from the little church in the community of which he was a devoted member and he was always present instructing a Sunday School class in that now and growing country. He followed these lines of activity until the time of his death on June 23, 1919.

Mr. Rogers delivered the following eulogy on the life of Elmer E. Johnston:

The Hon. Elmer E. Johnston came to Everett in 1891. He was intimately acquainted with him for 28 years. His first occupation was as a stenographer and clerk at the
Smoilin Works. He studied law, was admitted to practice in 1890. He was elected to represent Snohomish County in the House. He was a Democrat in politics and was elected from a strong Republican district. The records of that session will show that he was an influential member. He was a man of exceptional executive ability. He was appointed Executive Commissioner to represent the State of Washington at the Buffalo Exposition. He did his work so well that he was appointed to represent the State of Washington at Saint Louis Fair, the Portland Exposition and the A. Y. P. Exposition at Seattle. Then he was appointed to represent the State of Washington at San Francisco but resigned on account of his large private interests. At the time of his death he was Vice President and Manager of the Bank of Commerce of Everett, one of the large banks of Everett.

He was a quiet man and of a retiring disposition but made many friends and kept them. He loved the country life and his home, when he died was on his farm between Everett and Seattle. He loved horses, cows, chickens and every thing pertaining to a farm. He liked to go in the woods and saw blocks for his wood and to get exercise, but every day you would find him at his desk in the bank at certain hours and then would go back and work on his farm.

He was a Christian man, and also a member of the Masonic Fraternity. He was taken away in the prime of life. He was a large man, fine physique, robust and healthy. But, my friends, when the Great Master of the Universe calls us from this earthly sphere it behooves us all to be ready for that hour.

He was a good citizen, influential in the community in which he lived. He was charitable and kind and was always ready to assist the poor and needy. He was a man of good character, honest and upright. A man you could point to your son to pattern after. The City of Everett mourned his untimely death.

His wishes were that his funeral would be private. He left a wife and one daughter to mourn his loss.

I am sure that when he shall appear before the Great Master of the Universe, he shall say: “Well done, good and faithful servant, enter thou into the joy of thy Lord.”

Mr. Bassett delivered the following eulogy on the life of Gerhardt Erickson:

We have this afternoon been recalling the services of an unusually large number of leaders in this history of our State. Among recent leaders our thoughts have gone back to the recent Governor of the State, who, despite the difficulties attending differences in political views with his associates, led our State with such high ideals until his untimely death, of a Lieutenant Governor who presided over our Senate with so much dignity, of our last territorial governor whose usefulness as a citizen in later years has almost led us to forget his services as a governor, and of the head of one of our most important departments who so lately passed away, perhaps the most popular of our State officials. Today I want to add a word for one who was a private in the ranks of public servants, Gerhardt Erickson of King County, a member of the Legislature of 1905. He and I were privates in the State’s service during that session. I remember him well, a short stocky man, with traces in his speech of the land from which he came. I remember his name, Gerhardt Erickson, as it often appeared in the reports of the Education Committee on which we both served. During the session, he was especially interested in education, both common school and higher, in agriculture and in the candidate of his county for the highest office in the gift of the State, then chosen by the Legislature. He was a faithful rather than an obstructive member and showed his interest by his vote and his attention to details rather than by his voice in public. He accepted his position in this body as he did the ordinary duties of life, the calls of a customer or of a neighbor, to be performed faithfully as a matter of course, with thought of the public and not of himself. He seldom started a discussion in politics but preferred to give his attention to matters of importance to the State and to his constituents.

Mr. Erickson was born in Norway in 1860. He crossed the ocean as a young man, took up a homestead near Bothell and later started a small general store which grew into the leading store of the town. He became a leading citizen of the community, was postmaster for twenty years and when a bank was organized in his town, became its president. He was a member of the Lutheran Church. He lived a quiet and unassuming life, helping in all public matters and good works and leaving
behind him a family comfortably provided for, a good name and a kindly remembrance
with many whom he had helped. Mr. Erickson started life about as near the bottom
as anyone could, foreign born, with a new language in a strange country on an unin-
proved homestead in a timber country. His life brought him a fair competence, good
standing in the community, a position in this body, and opportunities for usefulness
of which he availed himself to the advantage of his neighbors and friends. No man
could start much poorer, any man could well be satisfied with such a life, almost every-
one can secure equal respect and be equally useful. In these days of unrest and dis-
satisfaction would that every young man, however circumstanced in early life, could
see the opportunities before him, and by following in the path of sobriety, industry and
integrity which Mr. Erickson traveled, win for himself, before his life is over, the same
returns, to his own satisfaction and the good of the community in which he lives.

Senator Myers delivered the following eulogy on the life of former State
Senator Bethel:

“When to the common rest that crowns our days,
   Called in the noon of life, the good man goes,
Or full of years, and ripe in wisdom, lays
   His silver temple in their last repose;
When, o'er the buds of youth, the death-wind blows,
   And blights the fairest: Then our bitterest tears
Stream, as the eyes of those that love us close,
   We think on what they were, with many fears
Lest goodness die with them and leave the coming years.”

We come today, to commemorate the lives of some of death's trophies among whom
is former Senator C. W. Bethel, of Lincoln County.

He reached the bounds of man's appointed years and like the long line of his
neighbors, sleeps beneath the rolling prairies that he helped to conquer.

Senator Bethel was a hardy pioneer, and got his start between the handles of the
plow. No shade trees cooled his early dwelling place, but being a true son of labor
he pursued that most legitimate occupation, a tiller of the soil under the blazing rays
of morning and evening sun, and not shrinking from the tasks that called for arduous
labor even under the blistering and perpendicular glare of the noon-day.

Like many of his brawny neighbors who now sleep beside him, and others who yet
survive him, he became a factor in transforming the virgin prairies from an unsightly
sage brush plain to a vast field of golden grain, and did his full part in building that
abstract structure we call society.

Senator Bethel was a jolly bald-headed man, and I imagine he was the sort of a
fellow that Shakespeare said Julius Caesar liked. He had his faults and frailties in
common with you and me, and while the early and ancient biographers in the time of
Abraham, Isaac and Jacob, recorded the good and bad in men for a purpose not fully
revealed to us, we are inclined to adhere to the doctrine of a great dramatist:

“That the good men do lives after them, and the bad is interred with their bones.”

On the walls of the rotunda of this capitol hang frames containing likenesses of
black bearded, together with time-wrinkled men, with locks of white, who gave us laws.
Their feet no longer tread the halls within this State House. The sound of their voices
is no longer heard in these chambers; but laws and resolutions and mandates have not
ceased to issue forth because of their demise.

Therefore, let us not despair because of their withdrawal. The earth has yet its
everlasting youth. Spring will come again with all its verdure and song of birds. Each
season will come and go, and earth will reward the honest toil of men as in the favored
past.

As we look back into the night of years we have no regret that men are dead who
laid out the highways of thought or who have discovered nature's secrets, or who have
passed down to us our most useful philosophies, for the same dart that downs the good
man pierces the wretch that prowls around our homes at midnight, and they must
yield to that inexorable law that makes them again brother to the insensible clad, and
mix forever with the elements.

We take out of their lives the contribution left their fellows; that which is useful
and good. That which is otherwise, we remember no more. No—all goodness shall not
die from the earth at the departure of our most illustrious men.
TWENTY-THIRD DAY, FEBRUARY 1, 1921

When our beloved McKinley was stricken down by the assassin's hand the stalwart Roosevelt with his rugged honesty put on the mantle of executive authority and the Ship of State plowed on.

We halt today to pay tribute to the great deeds and the memory of our departed associates, but look ever ahead to bright days and the free spirit of mankind, under the fatherly care of our benign Creator.

Senator Davis delivered the following eulogy on the life of Wilbur Fairchild:

When the 1919 session of the Legislature adjourned, perhaps no one would have selected Senator Wilbur Fairchild as the first of that body of forty two men who would be taken by the hand of death and would not answer to the roll call at the 1921 session.

He was so strong, so vigorous that he was one of those men with whom we do not connect the thought of death. When in October, 1919, within seven short months after the adjournment of the 1919 session, the news of Senator Fairchild's death went over our State, it came as a distinct surprise and shock to his friends and fellow senators.

Senator Fairchild had so many noble qualities, his human interests and sympathies were so large, that it is most fitting that tribute be paid to his memory in more than a conventional sense.

He was chosen in 1912 to the Senate in the Roosevelt and Progressive movement which swept over this State. In 1916 he was re-elected as a Republican and without opposition from any source. As he had been a conductor on the Northern Pacific Railroad for many years between Tacoma and Portland, his interests in legislation were chiefly on labor questions. He was a true friend to labor and yet not unfair to capital. He enjoyed the confidence of his employers. He strove to bring labor and capital together, and on the passage of the labor legislation of the 1919 session, he arose and uttered the memorable words: "Washington now has the best labor laws of any State in the Union."

On the attempt in the 1915 session to repeal the full crew bill, it was Senator Fairchild more than any other member, to whom is due the retention of that law on the statutes, though others may deserve credit for its original passage in 1911.

Aside from his interest in labor, the law by which Senator Fairchild will best be known, is the "Absentee Voters' Law" of 1915, which secured the right of franchise to those unavoidably absent on election day.

He was also interested in the question of pure food and a lower rate of interest.

Senator Fairchild was devoted to duty and rarely absent from his seat. It may be said of him, as was said of William Henry Seward, "He was faithful." He did not harbor enmity, and was known for his kindness to political opponents. Words spoken in a heated debate were soon forgotten by him. Like Abou Ben Adhem, he loved his fellowmen. He was a believer in the Second Commandment. He loved a good story, for his strong and hearty laugh could be heard above the hum of conversation when the Senate was not in session.

Educated only in common schools, he gave to the support of struggling institutions. If not learned in the books of men, he had read from the books of Nature and experience, and knew his fellowmen.

He enjoyed a very wide acquaintance along the line of the Northern Pacific Railroad from Tacoma to Portland. He did his part in charity for he was a strong believer in the fullest religious freedom. He was very happy in his home circle. He had higher political ambitions, and hoped to represent this district in Congress. He was a good neighbor and had the qualities of neighborliness: a good citizen himself, a worker and a friend to those who toiled, a devoted husband, a faithful and conscientious lawmaker, Senator Wilbur Fairchild has deserved well of the Republic and of our State. Like Governor Lidster and the American soldiers who fell in France, Senator Fairchild died at the post of duty.

Charles Sumner says there is a beautiful story in Greek history, that while there might be war and strife in other parts of Greece, there was one spot—the little Island of Delos—free from war and the tread of marching feet. There all tribes met in peace and harmony. Here arose the temple of Concord, here was kept the common treasure.

So it is, friends, that in this biennial lodge of sorrow, in this biennial meeting, we come together in a different spirit than in the regular session. In the daily session there is the clash of minds, there are words spoken in the heated debate, but here today all contention is laid aside and we unite in paying tribute to our noble dead.
Nothing is more certain than death; so sure is it that courts have held that a
note made so many days after a man's death is valid, while contracts made so many
days after certain other events are not valid.

Gradually the members of the House and Senate will be dropping from the Legis­
lature. To each of us in turn will come the day for tribute from our surviving com­
rades. May our devotion to duty be such; may our relations to one another be so
cordial that these tributes may come from the heart as these we pay today to Governor
Lister and our devoted comrades.

The committee appointed to escort the Governor to the joint session
was instructed to escort the Governor to his chambers.

On motion of Mr. Reed, the joint session dissolved at 3:50 p. m.
On motion of Mr. Jones (J. T.), the House adjourned.

E. H. GUE, Speaker.

C. R. MAYBURY, Chief Clerk.

STATE OF WASHINGTON, OFFICE OF ATTORNEY GENERAL.
OLYMPIA, WASH., February 11, 1921.

Hon. J. T. Jones, House of Representatives, Olympia, Washington:

DEAR SIR: You have asked our opinion on the constitutionality of section 4 of House Bill No. 79, which reads as follows:

"If an alien acquire land by inheritance, or in good faith either under mortgage or in the ordinary course of justice in the collection of debts, and, remaining an alien, hold the same for more than seven years from the date title was acquired or control or possession taken, the land shall be forfeited to the state."

Article II. Sec. 33 of the State Constitution so far as material reads:

"The ownership of lands by aliens other than those who in good faith have declared their intention to become citizens of the United States is prohibited in this state, except where acquired by inheritance, under mortgage or in good faith in the ordinary course of justice in the collection of debts . . ."

The proviso is not repugnant to Art. II, Section 33, supra, inasmuch as it does not purport to deny to aliens a limited right to acquire and hold land, but simply restricts that right by limiting such ownership or possession to a period of seven years, and for the further reason that this provision of the Constitution is negative in its language and does not purport to confer any right of inheritance upon aliens, even in the excepted cases. The power of the legislature to enact laws not In conflict with express constitutional provisions is unquestioned. Cooley, Constitutional Limitations, 7th Ed. p. 242.

Your inquiry, however, involves the broader question as to whether the limitation of ownership to a certain definite period of years abrogates any of the constitutional rights of aliens.

The cases quite generally hold that an alien has no inherent right to hold title to real property, but holds merely as permitted by the legislative power.

"Aliens can hold and convey lands only upon such terms and conditions as may be prescribed by law."

Donaldson v. State 78 N. E. 182.

"Subject to the provisions of the organic law of the state, and the constitution, laws and treaties of the United States, the state has full power to determine whether aliens shall be permitted to take and hold real estate, and if so, to what extent and under what circumstances." 2 C. J. 1048, and cases cited.

Insofar as the right to inherit land is concerned the authorities are equally clear that such right is a creature of the law, and that such rights may be imposed by the legislature upon that right as it may deem proper, so long as there is no infringement of constitutional provisions.

"The legislatures of the several states, may except where constitutional provisions of treaties entered into by the Federal government provide otherwise, expressly restrict the right of aliens to inherit." 2 C. J. 1064; In re Anderson's Estate, 147 N. W. 1098.
"The power to transmit or take property by descent or devise is a creature of law and not a natural right."

U. S. v. Fox, 94 U. S. 315.

Gregley v. Jackson, 38 Ark. 487.

State v. Dalrymple, 70 Md. 294.

Noel v. Ewing, 9 Ind. 37.

Mager v. Grima, 8 U. S. 490.

In Mager v. Grima, supra, Chief Justice Taney said:

"The law in question is nothing more than the exercise of the power which every state and sovereignty possesses of regulating the manner and terms upon which property within its dominion may be transferred . . . If a state may deny the privilege it follows that when it grants it, it may annex conditions which it supposes to be required by its interest or policy."

In the case of Kolbow v. State, 44 Mont. 259, the above principles were relied on to sustain an act of the legislature providing that no non-resident alien could take land by succession unless he appear and claim such succession within five years. The Montana Constitution, Art. III, Sec. 25, provided aliens shall have the same right as citizens to inherit property. "This merely places aliens on the same footing as citizens," the court said, "but does not limit the power of the legislature to impose on the right to succession conditions as are prescribed by Rev. Codes 4835, authorizing aliens to take by succession but providing that no non-resident foreigner can so take unless he appear and claim the succession within five years after decedents' death, for the statute is merely one of limitations not affecting the right conferred."

The Montana court also said:

"The right to inherit lands rests in public policy and is dependent on the will of the legislature, except as restricted by the constitution."

"The right to inherit or take by will is not a natural and inalienable right, nor is it guaranteed by the state or federal constitutions."

Moody v. Hagen, 36 N. Dak. 471.

The two cases of Donaldson v. State, 78 N. E. 182, and 101 N. E. 485, involve a statute of the State of Indiana, which provided that an alien might hold by descent or devise but required him to dispose of property so obtained within a period of five years. This statute was superseded by a later act which enlarged the rights of aliens to the extent of permitting them to take by descent or devise, but provided that any land so taken in excess of 320 acres must be disposed of within five years. Sec. 3944 Burns Annotated Indiana Statutes, Vol. 2.

In Wunderle v. Wunderle, 33 N. E. 195, an Illinois statute providing for the escheat of the state of lands inherited by aliens after they have been held three years, if such alien was twenty one years of age, and five years if such alien was under twenty one, without a bona fide sale of the land, was sustained.

It follows that the proviso in question would not be unconstitutional unless the limitation on duration of ownership of land by aliens would contravene provisions of treaties entered into by the Federal government. Treaties are a part of the supreme law of the land, and supersede any conflicting state statutes. Lewis' Sutherland on Statutory Construction, Sec. 22, p. 38; Lehman v. State, 88 N. E. 365. The act would therefore be superseded in cases where its provisions might be inconsistent with some treaty entered into by the Federal government.

We express no opinion upon the question of whether this section can constitutionally be given a retroactive construction so as to apply to lands heretofore acquired by an alien by inheritance, under mortgage or in the ordinary course of justice in the collection of debts. Even though that could not be done it would not affect the validity of the section as drawn, but would merely limit the future scope of its operation.

Yours respectfully,

L. L. THOMPSON,
Attorney General.

The bill was passed to second reading.

REPORT OF SPECIAL COMMITTEE.

Report of Joint Oregon and Washington Committee on Fisheries.

To the Senate and House of Representatives of the States of Washington and Oregon:

We, your Joint Committee, heretofore appointed to confer, concerning legislation, with reference to the fishing industry in the waters and streams over which said states have concurrent rights and jurisdiction, beg leave to submit the following report:

Your Joint Committee met in Seattle, Washington, on Saturday, January 29, 1921, and, after due deliberation, adopted the following resolutions:

Whereas, the joint conference of the legislative committees of the States of Oregon and Washington in 1919 agreed to recommend to their respective legislatures that a uniform law be passed by each of said legislatures providing that no commercial fish-
ing license should be granted to any person by either of said states, effective after January 1, 1921, unless such person be a citizen of the United States; and

Whereas, the legislature of the State of Oregon in 1919 passed such a law and the same is now effective in the State of Oregon, but said bill failed to pass the Washington legislature of 1919 and no such law has been enacted in the State of Washington;

Now Therefore Be It Resolved by the Joint Legislative Committees of the States of Oregon and Washington of the regular session of 1921, that these committees have agreed, and do hereby unanimously agree, to recommend to and request of the legislature of the State of Washington that at its present session it enact a law providing that no commercial fishing license be granted after January 1, 1922, or which shall be effective or in force after March 31, 1922, to any person who is not a citizen of the United States.

"Be It Resolved by the Joint Legislative Committees of Oregon and Washington that they recommend for enactment into law by their respective legislatures as follows:

That the original purchaser of fish subject to tax shall be liable and responsible to the state for the collection of the same."

Your Joint Committee, therefore, recommends that the legislature of the State of Washington enact into law the recommendation embodied in the resolution first above set forth, and that the legislatures of the States of Oregon and Washington enact into law the recommendation embodied in the resolution second above set forth.

MESSAGE FROM THE SENATE,

Mr. Speaker:
The Senate has approved the report of the committee appointed by virtue of House Joint Resolution No. 2, and the same is herewith transmitted.

VICTOR ZEDNICK,
Secretary of the Senate.

On motion of Mr. Hughes, the report was read as follows:

REPORT OF THE SEVENTEENTH REGULAR SESSION OF THE LEGISLATURE OF THE STATE OF WASHINGTON.

The undersigned Joint Committee appointed by virtue of House Joint Resolution No. 2, hereby respectfully makes the following report:

Several days were consumed in endeavoring to agree upon a method of procedure and similar matters.

The committee formally convened in public session on the 2nd day of February, 1921, at the hour of 2 p.m., and began taking testimony concerning acts of the State Reclamation Board pursuant to said joint resolution. The Committee was represented by the Attorney General. The board was without counsel.

The Committee continued receiving testimony until February 4th, at approximately 11 a.m., when it was notified of the passage by the Legislature of Senate Concurrent Resolution No. 11. Upon being advised of such action by the Legislature, the Committee forthwith went into executive session for about thirty minutes, after which it returned to the room in which it was holding its public hearing and made the following public announcement:

The Committee will hold its investigation in abeyance until Monday, February 7, 1921, at 1 p.m., up to which time any who desire may file charges in writing against the Reclamation Board with the chairman of the Committee. In the event of no charges being filed, the Committee will proceed with the investigation under House Joint Resolution No. 2 and Senate Concurrent Resolution No. 11, the Attorney General representing the public upon one hand, and the Reclamation Board being represented by the attorney selected by them upon the other hand.

The Committee then adjourned until Monday, February 7, 1921, at 1 p.m., at which time it reconvened. Mr. Scott Z. Henderson, accompanied by Mr. C. L. Babcock, State Treasurer, appeared before the Committee and announced that Mr. Henderson had been retained as attorney for the Reclamation Board.

No charges having been filed with the chairman, the Committee made the following public announcement and requested the representatives of the press present to give publicity to the same, to-wit:

"The Joint Committee of the House and Senate, appointed by the Seventeenth Legislature of the State of Washington to investigate the State Reclamation Board,
having held its investigation in abeyance until 1 p. m., Monday, February 7, 1921, to permit the filing of definite charges in writing against said Board by any desiring to do so in accordance with Senate Concurrent Resolution No. 11, and no charges having been filed, the Committee will proceed upon its own initiative to investigate the acts of the said board.

The committee invites any and all persons having evidence against said reclamation board or any of its members, to acquaint the said committee therewith in writing."

The committee having made such announcement forthwith proceeded upon its investigation. A large number of witnesses, including members of the board, its employees, persons living in localities where the board has assisted in reclamation work, and those who had criticized the acts of the board were called and interrogated. The work of the board during its entire history has been reviewed. Its official records and files were called for and have been examined in detail. Over fifty documentary exhibits have been received in evidence, properly marked and included in the record. An audit by the Bureau of Inspection and Supervision of Public Offices of the accounts and of all moneys expended by the board was secured by the committee, has been examined by it and duly included in the record as an exhibit, and to the best of our ability, we have investigated all of the acts of the state reclamation board. The proceedings before the committee including testimony, have been reported and a transcript of the same, together with the exhibits introduced in evidence are herewith submitted as a part of this report. No written charges have been filed with your committee.

Inasmuch as many of the exhibits including the minute book of the state reclamation board, have been taken from the files and archives of said board and should be in their possession, we recommend that the said board, upon action being taken by the legislature upon this report, be permitted to withdraw from the record such exhibits as have been taken from their files and archives.

From its examination and investigation of the acts of the state reclamation board, your committee finds and concludes:

1. That the propriety of creating the reclamation board arbitrarily from officers with other duties and selected for other purposes, and allied matters are questions which we regard as eliminated by the enactment of the new administrative code.

2. That the board has done little under the land settlement act, other than making certain preliminary investigations. We believe that their conduct in this regard is justified for the reason that the constitutionality of the act was in doubt until the decision of the Supreme Court in April, 1920, and for the further reason that the sum of $150,000.00 appropriated by the 1919 legislature for land settlement purposes is entirely inadequate to carry on any feasible scheme of land settlement. The impression which seems to prevail in some quarters that the reclamation fund could have been used in the land settlement act, we regard as erroneous. The reclamation act and the land settlement act are two separate and distinct acts, therefore, the funds appropriated to carry out one of these acts could not be used to carry out the other. The committee believes that in order to properly carry out a policy of land settlement as proposed under the land settlement law, an assistant supervisor should be appointed in the department of conservation and development, to have charge of land settlement exclusively.

3. That in the matter of criticisms of wasteful expenditures in the Methow Okanogan District, the reclamation board has a contract with the district which calls for the reimbursement of the state of all money expended in that district. There having been no complaints filed with your committee from this district we assume that it is satisfied with the manner in which its money has been expended.

4. That the board has spent some money in having prepared an amended irrigation code and paid fees and expenses in connection therewith; that it arranged for the employment of one person familiar with its acts to remain in attendance during the present session of the legislature to advise inquiring members of the legislature with reference to its acts and ideas and that in connection with said proposed amended code it paid the expenses of several experts attending the conference at Seattle, and further find that in all its acts, including its contracting of expense, employment of individuals, etc., the board should not be advertently criticized and that it acted in
accordance with what it believed to be the best interests of irrigation and land reclamation in this state.

5. That while the board under the law is given wide discretion in the disbursement of funds, we believe that it has never been wasteful or reckless in its expenditures of money, including the purchase of bonds, but on the contrary, has proceeded with due diligence and caution, and the testimony of various witnesses appearing before the committee has been to the effect that the activities of the board have been of great assistance in various irrigation districts of the state and in promoting generally the matter of reclaiming lands.

Respectfully submitted,

F. W. LOOMIS, Chairman.
H. B. McMillen,
C. E. Hughes
GEORGE W. O'BRIEN
C. W. RYAN

On motion of Mr. Hughes, the report was adopted and the committee discharged.

SPECIAL ORDER.
The hour having arrived, the House took up for consideration the Governor's veto of House Bill No. 6.

STATE OF WASHINGTON, OFFICE OF GOVERNOR.
OLYMPIA, WASH., February 15, 1921.

To the House of Representatives, Legislature of Washington.

GENTLEMEN: I return to you herewith House Bill No. 6 entitled:
"AN ACT relating to revenue and taxation, and amending Section 9214½ of Remington & Ballinger's Annotated Codes and Statutes of Washington," without my approval.

I can see nothing to be gained by the enactment of such a law and am of the opinion that imposing judicial functions on a ministerial officer is not good policy.

I am further of the opinion that the burden upon public officials and taxing bodies is already sufficient.

I further believe that so long as our taxing bodies have power of expediting public funds, that burdens of litigation for their errors ought not to be imposed upon ministerial officers.

There is no reason why under the present law the tax levying body cannot obtain the opinion of the Prosecuting Attorney or Attorney General just as well or better than could the Assessor whose duties are purely ministerial.

Believing that this amendment to the law would result in a delay and inconvenience and would retard the collection of taxes rather than to expedite the same, said House Bill No. 6 is vetoed.

Very truly yours,
LOUIS F. HART, Governor.

HOUSE BILL NO. 6.

AN ACT relating to revenue and taxation, and amending Section 9214½ of Remington & Ballinger's Annotated Codes and Statutes of Washington.

Be it enacted by the Legislature of the State of Washington:

Section 9214½. The county assessor shall extend the tax rolls of his county in the manner required by law, and upon the completion of such tax extension, it shall be his duty to make in each assessment book, tax roll, or list, a certificate in the following form:

I, ................. assessor of ................. county, State Washington, do hereby certify that the foregoing is a correct list of taxes levied on the real and personal property in the county of ................. for the year one thousand nine hundred and .................
Witness my hand this ................. day of ................., 19.....

................. assessor.

Delivering said tax rolls to the county auditor on or before the 15th day of December, taking his receipt thereof. Provided, however, it shall not be lawful for the assessor to extend any tax levy made by any taxing district in excess of the limit prescribed by law. Where the electors of any taxing district have, at an election held therefor pursuant to law, authorized a rate of levy higher than the normal rate prescribed by statute, the officer or board certifying the levy shall also certify the facts
as to the holding of such election and the result thereof. Where a levy in excess of that authorized by law shall be certified to the assessor, he shall return the same immediately to the proper officer or board of the taxing district for correction or revision and the return of a new levy conforming to the provisions of law.

MESSAGE FROM THE GOVERNOR.

STATE OF WASHINGTON, EXECUTIVE DEPARTMENT,
OLYMPIA, February 23, 1921.

To the Senate and House of Representatives, State of Washington.

GENTLEMEN: I am in receipt of a letter from Honorable D. W. Davis, Governor of Idaho, with a form of proposed joint memorial attached thereto, copy of which I am transmitting to you herewith for your information.

Very truly yours,
LOUIS F. HART, Governor.

The clerk read the resolution as follows:

Legislature of the State of .........., House Joint Memorial No. .................
by Committee on Irrigation.

To The Honorable Senate and House of Representatives of the United States in Congress Assembled:

Your memorialist, the Legislature of the State of .......... respectfully represent:

That,

WHEREAS, The future growth and prosperity of .......... and the entire West and Southwest is of vital importance in connection with the maintenance of our National Institutions and of inestimable value in connection with the future defence of the Nation, and is almost wholly dependent upon the development and utilization of natural resources, particularly the reclamation by irrigation and drainage of the vast areas of new unproductive desert and swamp lands; and,

WHEREAS, The wisdom of government reclamation of arid lands by irrigation and drainage has been fully demonstrated through the accomplishment of the United States Reclamation Service created by an Act of Congress in 1902 whereby former arid and wholly unproductive lands now sustain upwards of 45,000 prosperous families and contribute annually eighty million dollars in crop value to our national wealth; and,

WHEREAS, There is an urgent necessity for stimulating activity in that greatest of all American industries—home building—and for the lending of national support to the "back to the farm movement" in order that our discontented floating population might be permanently cemented to the soil and its loyalty as citizens guaranteed to the Nation; and,

WHEREAS, The most important of these reclamation enterprises are beyond the scope and probability of development by private or even State capital, but are essentially national problems:

Now, therefore, Your memorialist, the Senate and House of Representatives of the State of .......... hereby endorse a fixed and comprehensive national policy of reclamation of arid and swamp lands and solicit the immediate enactment of legislation designed and adapted to the needs of this great work, embodying such policies as will make available the natural resources essential to drainage and reclamation, and

That the Secretary of State of the State of .......... is hereby instructed to forward this Memorial to the Senate and House of Representatives of the United States of America.

The Speaker pro tem declared that unanimous consent to have an explanation of a member's vote spread upon the journal was not necessary if the explanation was handed to the chief clerk in writing before the calling of the roll, and that he, therefore, would rule that Mr. Murphine's explanation of his vote be spread upon the journal.

There being no affirmative response, the Speaker declared that unanimous consent had been given.

MESSAGE FROM THE SENATE.

SENATE CHAMBER,
OLYMPIA, WASH., February 28, 1921.

MR. SPEAKER:

The Senate has adopted the report of the Conference Committee appointed to
consider House Amendments to Senate Bills No. 52 and has granted the committee the
power of free conference, also

The Senate has adopted the report of the Conference Committee appointed to
consider House Amendments to Senate Bill No. 151, and has granted the Committee
the power of free conference.

VICTOR ZEDNICK,
Secretary of the Senate.

GOVERNOR’S VETO OF HOUSE BILL NO. 39.

STATE OF WASHINGTON, OFFICE OF GOVERNOR.
OLYMPIA, February 28, 1921.

To the House of Representatives of the State of Washington:

GENTLEMEN: I am returning to you herewith House Bill No. 39, entitled:
"AN ACT to amend Section 5848 of Remington and Ballinger’s Annotated Codes and
Statutes of Washington, relating to Metropolitan Park Districts", without my
approval.

The error in drafting this bill emphasizes the value of the legislative rule re-
quiring new matter to be underlined and deleted matter to be indicated by stars or
asterisks, see rule 53 of House Rules and rule 32 of Senate Rules.
In line fourteen of the printed bill after the word “city,” being the first word in line fourteen, there is omitted the phrase “and for the purchase of lands within or without the limits of said city.”

I cannot believe that the Legislature intended to give to the Board of Park Commissioners authority to sell land not needed for Park purposes, and in the same act take from the Park Boards the authority to purchase necessary lands for Park purposes. If such was the intention, then I think the judgment of the Legislature is at fault and that such legislation ought not to be enacted into law. I believe that while we have Park District Boards with power to superintend, control and manage Metropolitan Parks, that they should not be denied the right to acquire additional lands for park purposes.

For the reasons above stated, House Bill No. 39 is vetoed. This is with the sanction of the author of the Bill.

Very truly yours,

LOUIS F. HART, Governor.

HOUSE BILL NO. 39.

AN ACT to amend Section 5848 of Remington and Ballinger’s Annotated Codes and Statutes of Washington, relating to Metropolitan Park Districts.

Be it enacted by the Legislature of the State of Washington:

SECTION 1. That Section 5848 of Remington and Ballinger’s Codes and Statutes of the State of Washington be amended, so as to read as follows:

Section 5848. Said park commissioners shall have power to improve, acquire, extend and maintain, open and lay out, parks, parkways, boulevards, avenues, aviation landings and playgrounds, within or without said park district, and to authorize, conduct and manage the lettering of boats, or other amusement apparatus, the operation of bath houses, the purchase and sale of foodstuffs or other merchandise, the giving of vocal or instrumental concerts or other entertainments, the establishment and maintenance of aviation landings and playgrounds, and generally the management and conduct of such forms of recreation or business as they shall judge desirable or beneficial for the public, or for the production of revenue for expenditure for park purposes; and may pay out moneys for the maintenance and improvement of any such parks, parkways, boulevards, avenues, aviation landings and playgrounds as now exists, or may hereafter be acquired, within or without the limits of said city, whenever they shall deem such purchase to be for the benefit of the public and for the interests of said park district, and for the maintenance and improvement of the same, and for all expenses incidental to their office and duties. And whenever said park commissioners shall determine by resolution, that any land theretofore acquired by purchase, either by said commissioners or by any predecessor of said commission in the control of the parks of the district, the title to which land is without restriction as to use or reversion, has become useless for the park purposes of said district, they may sell and convey such land, at public sale, after publishing notice of their intention to sell the same in a daily or weekly newspaper, printed and published in the district once a week for three weeks, immediately preceding the day of sale. The consideration of any such sale shall be paid to the County Treasurer as other public money, to the credit of the district.

REPORT OF SPECIAL COMMITTEE FROM RULES AND ORDER COMMITTEE.

MR. SPEAKER:

We, your special committee, appointed to consider millage levies for the State Institutions of higher learning, beg leave to report as follows:

Sessions of the committee have been held almost daily from the time of its appointment and the heads of the various institutions have appeared with their budgets
and schedules of proposed expenditures which have been carefully examined and con­sidered. As a result of our investigation we submit the following millage as being adequate for the needs of the institutions represented and recommend that the bill fixing such levies and which is introduced concurrently with this report be passed by the legislature.

University of Washington—one and ten one hundredths (1.10) mills.
Washington State College—Sixty-seven one hundredths (.67) mills.
Bellingham State Normal School—Eighteen one hundredths (.18) mills.
Ellensburg State Normal School—Twelve one hundredths (.12) mills.
Cheney Normal School—Fifteen and nine tenths one hundredths (.159) mills.

Your committee acknowledges receipt of the closest cooperation from the heads of the various institutions in our efforts to reduce the millage necessary to carry on the work of their institutions without in any manner crippling their efficiency.

In order to bring about savings in the institutions and in the interests of the greatest efficiency, it was deemed advisable to limit attendance and charge certain tuition fees in the University and at the State College.

It is recommended by this committee, concurred in by the heads of the state institutions of higher learning that the personnel of the Joint Board of Higher Curricula be changed so that a majority of the members of such board will be laymen in no way connected with the institutions.

It is also recommended by your committee in the interest of greater efficiency at the normal schools and in view of the great need for grade teachers that the courses of study in all normal schools be reduced to three years.

Bills covering the above recommendations will be presented to the legislature by your committee.

Respectfully submitted.

Mark E. Reed,
S. Frank Spencer,
E. F. Banker,
Howard C. Lucas.

MOTION TO ENTER CERTAIN PROCEEDINGS IN JOURNAL.
On motion of Mr. Morris, the following proceedings had at the opening of the morning session this date were ordered spread upon the journal of the House:

BY MR. REED:

Mr. Speaker: I desire to rise to a question of personal privilege. My attention was called this morning to an article in the Olympian, headed "Taylor attacks trading
stunts before the Senate.” I would like to have this article, and also a stenographic copy of Mr. Taylor’s remarks read by the clerk.

MR. SPEAKER:

If there is no objection the clerk will read.

There being no objection the clerk read as follows:

“Senator Taylor rising to a question of personal privilege.

I desire to have the attention of all the members of the Senate. It has been called to my attention that certain members of the House are offering trades with Senate members whereby the members of the Senate could get their bills on the calendar in the House if they would vote to please the House members who offer the trades on certain bills.

I want to assure the members of the Senate that a majority of the Senate Rules Committee will protect the Senators in getting their bills on the calendar in the House, and it is not necessary for you to make trades with the House members in order to get your bills on the calendar. It takes a vote of seven members of the Rules Committee of the House to put a bill on the calendar, and no one member of the House can put your bill on the calendar.

I am speaking of this because in my fifteen years’ experience in the legislature I have never heard of so much trading being offered as there is in this late session of this legislature.”

(From morning Olympian.)

Taylor Attacks Trading Stunts Before Senate.

Senator Howard Taylor, former speaker of the House and a member of the legislature since 1907, protested in the Senate yesterday with what he said were indignation and surprise at symptoms of trading for places on the calendar in the last days of the session. House members and particularly one House member, Taylor declared, had gone beyond all previous precedent in threatening to overlook Senate bills in the House unless certain Senate bills were given preference on the Senate calendar.

Taylor also mentioned what he regarded as a disposition on the part of House members to pass H. B. 113, a measure designed to permit cities to sell surplus electric current from municipal power plants outside their limits.

Disregard Threats.

Senators should not be influenced by any such threats, Taylor told them, and offered assurance from his own experience in legislative dickering that the House could not maintain any such policy.

It is understood that one member he mentioned in particular without using any names, is Mark Reed, Republican floor leader of the House.

Senator Fawcett, of Pierce, said he had encountered the House disposition to force matters and expressed himself as grateful to Senator Taylor for exposing the situation. Some other members seemed to find no little diversion in Senator Taylor’s protest. They were all inclined to support, however, to the extent, at least, of getting as many Senate bills as possible on the House calendar for final passage.

BY MR. REED:

I want to say that I called on Senator Taylor this morning, and he distinctly told me that he made no personal reference to any one, but that he did feel that certain members of the House had been trading, and that the Rules Committee of the House had been influenced. I want to say that in my experience as a member of this legislature and previous legislatures I never have demanded of any member of the legislature, either Senate or House, that he vote for or against any bill, and I never will. (applause.) I want to say that I have not made a trade with any member of this House or any member of the Senate at this session or any other session directly on a bill, and with reference to House Bill, No. 113, there are certain members sitting within the sound of my voice at the present time who came to me before the passage of that bill and wanted to know if I was interested in its passage, and I told them that I was. They said to me that they would like to vote for the bill but that they did not feel that they could, and I said: “Go back and vote against the bill.” Now that is true of not only one but several members of the House. I never saw a poll
on the vote on that bill, and I did not know any more than the least informed mem­
ber of the House as to how many votes there were for or against it when it came up
for final passage.

Now as to the rules Committee. We passed a joint resolution that after Wednes­
day, the House would consider House bills until Monday noon and the Senate would
consider Senate Bills until Monday noon, but it has always been the custom where
important bills came before the rules committees of the respective Houses that required
immediate action to waive that rule. Night before last, before the rules committee
met, it was announced that there would be no more House bills put on the Senate
calendar until Monday. The House committee discussed it briefly and rather agreed
that we would follow the same line of action insofar as it was advisable, and no
further; that if there was an urgent department bill it would go on the calendar
whether it was a Senate bill or a House bill, and on the calendar today you will find
a Senate bill. I have not looked at it, but my understanding from the record last
night is, that Senate Bill No. 220 was to be on the calendar this morning.

Now as to the record of the respective Houses. Senate bills passed by the Senate
and sent to the House up to last night amount to 96. We have in the rules committee
on third reading, 11; we have in the rules committee on second reading, 23; this
house has passed 40, failed to pass 1, and there has been recalled from the House by
resolution from the Senate, 1. There are in committees of the House 20, making a
total of 96. The bills sent to the Senate from the House passed by this body amount
to 115. The Senate has passed 39 of them; they have in the rules committee 33, they
have in other committees 35, and they have defeated 2. Now if there is any sign of
discrimination or unfair treatment or intimidation on the part of the rules committee
of the House against Senate bills or Senate members I fail to see it. We have passed
more Senate bills, and we have all the way down the line given them further consid­
eration, and they are further along in this House than our bills are in the Senate.
(applause.)

Now I do not believe that there has been an excessive amount of trading in this
House, I do not know of any law or any precedent or any rule prohibiting one member
of the House submitting to another member of the House the merits or any particular
measure that he is interested in. It is done, and how in the name of goodness is
legislation to be accomplished without an exchange of ideas between members on the
merits or demerits of any bill? But when it is proceeded with to the point of trading,
it is an entirely different matter. I am sure, and I think I have had some little ex­
perience in the game and ought to know if it is going on around me, and I have not
seen evidences of trading to any great extent, and therefore, believe that the attack
made in the Senate on the membership of this House is unjustifiable in this respect.

Now, further with reference to House Bill No. 113, there has never been a cleaner
fight in this legislature so far as I can judge. It is true that the opponents of this
bill have maintained a lobby here against it, even before the session convened, I am
not taking issue on that, or criticizing them for it. If they want to do that it is
their business, but I do not believe that they should be permitted to impugn the
motives of the members of this legislature. As far as my knowledge goes, no member
of this House was threatened or coajoled in any manner in order to get him to vote for
this bill. It was an absolutely clean fight on the part of the proponents of the bill,
and any statement to the contrary is untrue. This is all. (Prolonged applause.)

Mr. Mann: I am very glad that this subject has been approached in the manner
that it has. This is my first experience as a member of the legislature of the State
of Washington. Before coming here, in the interim between election and the time of
my arrival in Olympia, I read many articles in newspapers accusing Mark Reed of
being a boss and controlling the situation and this, that and the other thing about
him. Naturally, I expected to come over here and find Mark Reed going around the
floor of the House and telling the members what they would have to do. I naturally
expected him to come to me and tell me what I should do. Now, I want to say, mem­
bers of this House, that from the time I first met Mark Reed until the present time
he has never in any way, manner or form attempted to dictate to me in any particular
as to what attitude I should assume upon any bill. Now, I was opposed to House Bill
No. 113. If I remember correctly, I spoke against it, and I want to say that Mr.
Reed never approached me in any way, and I think it is absolutely unfair and unjust
for such scurrilous attacks to be made upon a man whom I have found to be eminently fair and just. (Applause.)

MR. RYAN (C. W.): Mr. Speaker and members of the House: I want to say that this is the third term that I have served in this House with Mr. Reed, and that he has never attempted to influence a vote of mine on any measure, I am probably one of the members whom Mr. Reed referred to as having gone to him and talking with him about House Bill No. 113 in which he states he was interested. I said to him, as I said on the floor of the House, that there was a service that I would be pleased to have taken care of in some way, but that I was opposed to House Bill No. 113 in its present form and gave him my reasons for feeling that way. Now, with reference to the lobby feature, I am pleased to say that no lobbyist on either side have attempted to influence me in my position on this bill. I did, however, one or two days before the bill came up, go to parties, to Mr. Torger Peterson while he was here, and later talked with Mr. Dennis and also to two or three other parties who were opposing him in order to get some figures that I used on the floor of the House, and I believe that I stated from whom I procured the figures at the time I talked against the bill. I believe that this charge made in the Senate is unjust.

MR. McGILLEN: I do not know whether I should inject myself into this, but it happens to be a fact that I am one of those voters on House Bill No. 113 who switched. I voted against the bill, but I want to make it a matter of record that I went over to Mr. Reed and volunteered, without any questions on his part, that I was going to vote the other way after I had asked him certain questions upon the merits of the bill.

MR. ALLEN: I do not believe that Mr. Reed needs any apologies at the hands of the members of this legislature, particularly from those who have worked with him session after session and who know him well. It was a pleasure to me, after the vote on House No. 113 was taken, to go to Mr. Reed's desk and say to him: "Mark, I voted for the bill and you never asked me to, and I am glad that I can vote for it without you making any request." Isn't that so, Mr. Reed?

MR. REED: Yes.

MR. ALLEN: Mark Reed has always been fair, and it has been a pleasure for us to work with him. I noticed a little paragraph in an editorial in the Morning Olympian of this date in connection with the matter that I think is more or less pertinent: "Senator Taylor's Surprise Discovery."

After fourteen years' experience of trading arrangements between the two houses for calendar position in the closing days is another demonstration of how knowledge is acquired by diligent application." (Laughter and applause).

MR. MORRIS: Mr. Speaker and members of the House: Since one of the members of this House has been attacked, I wish to make a few remarks in defense of that gentleman. Before I came here and since my arrival here I have heard Mark Reed accused of being a boss. In the light of my experience with him, I have had the pleasure of correcting that statement and saying that he did not appear to me to be a boss in any sense, but that he is practically a leader. I have received nothing at his hands, have never asked him for anything, and do not expect to, but I think this statement should be made in all fairness. I believe he is a leader because he is fair and square, and I am willing to follow a leader who is fair and square, and as long as he is fair and square I will follow him. I am satisfied that Mr. Reed is a man of that type, and as such he is naturally, with his ability and fairness, the leader of this House.

MR. HOUSER: Mr. Speaker and members: I was a member of this House at the session of 1913, when the eminent senator was speaker. He and I had a lot of trouble, and we said some unpleasant things to each other. I came back as a member in 1917, and the gentleman from Mason was here. I started out in that session on the theory, about five minutes after the session opened, that he had hoofs and horns, and at times I almost believed it, but as the session ran its course I discovered finally that he did not have any hoofs and did not have any horns at all, and I got up and said so. Since that time, and in this session of the legislature, it has been a pleasure to me to work with him sometimes, and sometimes against him, and anybody who says that Mark Reed is not a square shooter gets very far away from the facts and very far away from the truth, Mr. Speaker and members. (Applause).

SECOND READING OF SENATE BILLS.

HOUSE OF REPRESENTATIVES,
OLYMPIA, WASH., MARCH 3, 1921.

MR. SPEAKER:

We, your Committee on Education, to whom was referred Substitute Engrossed Senate Bill No. 180, have had the same under consideration, and we respectfully report the same back to the House with the recommendation that it do pass with the following amendments:

Amend Section 1 of the bill as follows:

Strike all that portion of Section 1 beginning with the word “college” in line 3 on page 4 of the engrossed bill, the same being line 66 of the printed substitute bill, and ending with the words “arising out or of” in line 7 on page 4 of the engrossed bill, the same being line 69 of the printed substitute bill, and insert in lieu thereof the following: “maintained by a district of the first class, or for the employment of any person as teacher in any such school or in any other capacity.”

The proviso beginning in line 64 of the printed substitute bill and ending in line 69 would then read as follows:
“Provided further, That no form of vaccination, inoculation, or other medication shall hereafter be made a condition precedent in this state for admission to or attendance in any public school or in any other capacity in connection therewith.”

Amend Section 1, in the 13th line on page 3 of the engrossed bill, by inserting after the word “school” the words “districts of the first class.”

O. L. Olsen, Chairman.

We concur in this report: Austin Mires, H. A. Reynolds, Paul Pearson, John A. Miller, Charles M. Baldwin.

The bill had been previously read the second time by sections.

The first committee amendment was adopted.

The second committee amendment had previously been adopted.

Mr. Tripple moved the adoption of the following amendment:

Amend Section 1 of the bill as follows:

Strike all of line 44 after the word “thirteenth”, lines 45, 46, 47, 48 and 49, down to and including the words “board of health” and insert in lieu thereof the following:

“To appoint a physician and surgeon licensed to practice medicine and surgery under the laws of Washington, who shall be known as the supervisor of health. It shall be the duty of the supervisor of health to advise the board of school directors on all matters relating to health and sanitation affecting the schools of the district, and he or his authorized deputies shall make sanitary inspections, encourage the teaching and training of pupils in habits of right living, advise or cooperate with the parents or guardians in the discovery and correction of conditions hindering the pupils’ development or progress in school, investigate and report to the board of health or city health department suspected cases of contagious diseases, employ such measures as may be necessary to discover and control communicable diseases, and render such other services as may be necessary and proper to secure regular school attendance and to promote health and efficiency in the school, and the board of directors shall have the power to employ such number of registered nurses, physicians and dentists as may be necessary for the examination and treatment of the pupils of the schools of the districts and furnish such facilities as may be needed to carry on the health work provided for in this act: Provided, That treatment shall be given only for the purposes of removing impediments to the education of pupils and for the promotion of health and only to children whose parents or guardians are financially unable to pay for the same. Pupils may be permitted to pay the cost of material used in such treatment, but no pupil shall be denied treatment who is unable to pay for such material.”

Mr. Reed raised the point of order that the subject matter of the amendment was covered in Senate Bill No. 145 which had been defeated in the Senate on the previous day, and that under Reed’s Rules of Order a subject matter which had been considered in one house and defeated cannot again be considered during the session, quoting Section 136 of Reed’s Rules of Order.

The Speaker held the point of order not well taken because the amendment involved additional matter than those acted upon in Senate Bill No. 145, and on the further ground that the Senate Bill No. 145 had not been disposed of by the Senate.

Mr. Reed raised the further point of order, quoting Section 38, Article 2, of the Constitution, that no amendment to any bill shall be permitted which changes the scope and object of the bill.

The Speaker held the point of order not well taken.

After extended debate, on motion of Mr. Kresky the previous question was ordered.

The amendment was lost by a rising vote.

Also, House Bill No. 98;
Also, House Bill No. 188;
Also, House Bill No. 310;
Also, House Concurrent Resolution No. 12.
And the same are herewith transmitted.

VICTOR ZEDNICK,
Secretary of the Senate.

Senate Bill No. 160: Relating to student fees in the University of
Washington.
The bill was read the second time by sections.
Mr. Beeler moved the adoption of the following amendment:
Amend Section No. 1, as follows:

and insert in lieu thereof Ten Dollars ($10).

Amend Sec. 1 by striking the words and figures twenty dollars ($20.00) in line 4
and 5 and inserting in lieu thereof the words and figures Fifteen dollars ($15.00).

Mr. Murphine raised the point of order that the Joint Rules providing
for the underlining new matter had not been complied with and objected
to further consideration of the bill on that ground.
The Speaker declared the point of order well taken.
Mr. Reed moved that the bill be made a special order for 10:30 a. m.
on the next working day and that the chief clerk be instructed to underline
the new matter in the printed and original bills.
Mr. Murphine raised the point of order that the joint rules of the House
and Senate could not be evaded in the manner proposed in the motion of

Mr. Murphine raised the point of order that Joint Rule No. 20 could not be suspended in the manner proposed by the motion of Mr. Grass.

After extended argument, the Speaker declared that he would not hold to a strict construction of the rule cited by Mr. Murphine; that while the Joint Rules state that the underlining shall be done it does not state that if it is not done the bill shall not be considered, and that it would probably be more conductive to orderly procedure, and the chair would rule that the House, having suspended the rules, could proceed with the consideration of the bill.

Roll call showed all members present except Messrs. Bruihl, Jones (J. T.), McLean, Meserve, Satterlee, Teter, Trimble, and Zylstra, Messrs. Trimble and Zylstra being excused.

REPORT OF CONFERENCE COMMITTEE.

OLYMPIA, WASH., March 8, 1921.

MR. SPEAKER:

We, your Committee on Conference, to whom was referred Engrossed Senate Bill No. 22, have had the same under consideration, and we respectfully report the same back to the House with the recommendation that we are unable to agree and ask that the power of free conference be granted.

We concur in this report: Carlyon, McCoy, Reed, Hubbell, Ryan (C. W.), Taylor.

On motion of Mr. Reed, the report was adopted and the powers of free conference granted.

The reading clerk read the following:

Members of the House and Senate, 
Olympia, Washington, Greetings.

My dear fellow members of the Legislature:

Just received your beautiful floral offerings, for which accept my heartiest appreciation and thanks.

My enforced absence has been a source of the keenest sorrow to me aside from the suffering I've endured, and I highly esteem the courtesies extended by members of the House and Senate, many of whom have been to see me, others have written, and all have expressed their sympathy and best wishes for my speedy recovery.

While my recovery will necessarily be slow I believe that I am going to get well and be alright again. This is the first time in my life that I have not been able to help myself and when a man is taken in good health and laid on his back, not even able to feed himself, it makes him realize the truth of the old axiom that "man that is born of woman" ("is small potatoes and few in a hill").

While it is going to be a costly siege for me, as my salary only pays my nurse when I have one (and part of the time I had to have two) my doctor and hospital bills besides, however when I realize that my time would have been short if it hadn't been for the operations and the hospital bills it again reminds me of the old Biblical axiom "For what shall it profit a man if he gain the whole world" ("if his wife is a widow").

Wish it were possible to be with you to-morrow but that will be out of the question. The spirit is willing but the flesh is mighty weak.
I have followed your work in the Legislature as closely as I was able and believe it has been a real constructive session. When we go back to our homes we will probably hear some grumbling about high taxes, etc., but let us think of the duties of the Legislature as duties well done.

Now at the close of the Session, may heaven’s richest blessings be extended to each and every member, is my earnest and heartfelt prayer.

D. F. Trimble.

The Honorable, the House of Representatives of the State of Washington.

GENTLEMEN: I am returning you herewith, without my approval, Senate Bill No. 52, entitled:

"AN ACT providing for the regulation of fishing at Prosser Falls, in the Yakima River, in Benton County, State of Washington, by Indians of the Yakima Nation, claiming rights under a certain treaty made with the United States on June 9, 1855, and by any other person."

I am at a loss to understand the necessity for this bill. The Indians are permitted to fish at Prosser Falls in the Yakima River under proper rules and regulation. The fact that Indians do not like to acknowledge the supremacy of the law or to acknowledge the dominant power of the State is not a reason, in my opinion, for permitting them to indiscriminately fish at the Prosser Falls Dam and to exercise privileges denied the white people.

The Indians have no reason to complain, and the only excuse they have is that they are under restraint of the law.

I am strongly of the opinion that only for the most urgent reasons is the Legislature justified in making a declaration of fact, uncorroborated by good and sufficient evidence, which fact could be pleaded in the Courts against the interests of the State in any litigation that might be pending or might hereafter arise. Such legislative declaration might properly be held as binding upon the State and depriving it of its right to demand that an opposing litigant establish the truthfulness of his pleading by competent proof.

I think that litigation ought to be conducted in the Courts and that legislative action ought not to be invoked which would deny the State its "day in Court."

For the foregoing reason Senate Bill No. 52 is vetoed.

Yours respectfully,

LouiS F. HART, Governor.

SENATE BILL NO. 52.

AN ACT providing for the regulation of fishing at Prosser Falls, in the Yakima River, in Benton County, State of Washington, by Indians of the Yakima Nation, claiming rights under a certain treaty made with the United States on June 9, 1855, and by any other person.

Be it enacted by the Legislature of the State of Washington.

Section 1. To obviate difficulties arising out of the conflict existing between certain state laws and a certain treaty made by Governor Isaac I. Stevens, acting for the United States Government, with certain tribes of Indians known as the Yakima Nation, State Fish Commission is hereby empowered to make regulations under which Indians belonging to the Yakima Nation may fish at Prosser Falls, in the Yakima River, State of Washington, under conditions not otherwise permitted by the laws of Washington, so that any Indian belonging to any tribe of the Yakima Nation, who has maintained his tribal relations and who resides within this state, may take salmon or other food fish, by any reasonable means, at any time, at said Prosser Falls, for the use of himself and family, but this right is not to extend to others than such Indians: Provided, That any other person may take food fish with hook and line for the use of himself and family at any reasonable times at the above mentioned place, under the rules and regulations prescribed by the State Fish Commission.

GOVERNOR'S VETO OF SECTION 2 OF HOUSE BILL NO 174.

STATE OF WASHINGTON, OFFICE OF THE GOVERNOR,
OLYMPIA, MARCH 10, 1921.

To the Honorable, The House of Representatives of the State of Washington:

Gentlemen: I have this day approved Section 1 of House Bill No. 174, entitled: "An act to amend an act entitled An Act relating to public service properties and utilities, providing for the regulation of the same, fixing penalties for the violations
thereof, making an appropriation, and repealing certain acts," the same being Chapter 117 of the Session Laws of 1911, approved by the Governor, March 19, 1911, by repealing Section 105 of said act and by adding thereto a new section to be designated Section 74a, to prevent waste by the unnecessary duplication of public utilities."

Section 2 of said House Bill No. 174 is disapproved for the following reasons:

Fully believing in the policy and principle of public service supervision and control, I am not unmindful of the present mental attitude of a large number of our people who are of a different opinion.

There are times and conditions which make it inopportune to do a thing which at other times ought to be done.

Appreciating the turmoil and unrest among the people incident and immediately following the World-wide War; and rejoicing with all the people in the rapid approach of normalcy, I am of the opinion that at this time an agitation and arousing of prejudices and passion, whether merited in fact or not, would perhaps more than counterbalance any benefits that might be derived from the enactment and enforcement of the provisions of Section 2 of House Bill No. 174. This section, if permitted to become a law, would directly effect, and I think beneficially, the people of our larger cities and only indirectly have any bearing upon the people of the State at large. While on the other hand, an agitation which would be carried on, arousing the prejudices and the passions of the people, would, as above stated, practically nullify the benefits to be derived from the enforcement of the provisions of this section.

Believing it to be for the best interests of all the people that this subject matter be further considered by the people as a whole before being enacted into law, Section 2 of House Bill No. 174 is vetoed.

Very respectfully,

Louis F. Hart, Governor.

HOUSE BILL NO. 174.

Section 2, Section 105 of Chapter 117 of the Session Laws of 1911, approved by the Governor, March 18th, 1911, be and the same is hereby repealed.

The question being "shall the vetoed section of House Bill No. 174 pass notwithstanding the Governor's veto," the clerk called the roll and the Governor's veto was sustained by the following vote: Yeas, 1; nays, 78; absent or not voting, 18.

Voting yea: Representative Grass—1.

Those voting nay were: Representatives Adams, Allen, Arland, Aspinwall, Atkinson, Baldwin, Banker, Barber, Bassett, Beeler, Behrens, Brown, Colwell, Cory, Danskin, David, Dollar, Erickson, Fulton (Fred B.), Fulton (Dr. H.
