**RECONSIDERATION**

Mr. Paulsen moved that the House now reconsider the vote by which Engrossed House Bill No. 498 passed the House.

Debate ensued.

**PARLIAMENTARY INQUIRY**

Mr. Woodall:

"Mr. Speaker, point of parliamentary inquiry. We are now on the ninth order of business—Second Reading of Bills. It is my understanding that to make such a motion at this time requires a suspension of the rules so that we would be either on the fourth order of business or the eleventh order of business."

**RULING BY THE SPEAKER**

The Speaker:

"The Speaker is of the opinion that the motion would be in order at any time when we are under the order of business for consideration of bills. For instance, immediately after the vote has been taken, which would not require a suspension of the rules."

Mr. Woodall:

"But, when you have passed beyond that stage—when the matter before the House is the next bill on the calendar—it is my opinion it requires a suspension of the rules."

The Speaker:

"We have not left the order of business under which the action was taken and the Speaker will rule that the motion to reconsider is in order as long as we have not progressed beyond the order of business under which the motion was made and carried, and under which the bill was passed."

The Speaker declared the question before the House to be the motion by Mr. Paulsen to reconsider the vote by which Engrossed House Bill No. 498 passed the House.

The motion to reconsider was carried on a rising vote.

The Speaker declared the question before the House to be the final passage of Engrossed House Bill No. 498.

Mr. O'Brien demanded the previous question and the demand was sustained. The Clerk called the roll on the final passage of Engrossed House Bill No. 498, and the bill failed to pass the House by the following vote: Yeas, 43; nays, 54; absent or not voting, 2.

Those absent or not voting were: Representatives Stonecipher, Wenberg, 2.

Engrossed House Bill No. 498, having failed to receive the constitutional majority, was declared lost.

**MOTIONS**

Mr. Rasmussen moved that the House now dispense with further proceedings under the call of the House.

The motion was carried on a rising vote.

Mr. O'Brien moved that the House adjourn until twelve o'clock noon, Saturday, March 3, 1951.

Mr. Woodall demanded a call of the House.

**POINT OF ORDER**

Mr. Henry (Edward E.):

"Point of order, Mr. Speaker. A motion to adjourn takes precedence over all motions."

Mr. Ford:

"Mr. Speaker, since no business has intervened, the demand is out of order."

Mr. Woodall:

"A demand for a call of the House is in order on a motion to adjourn. The motion to adjourn was made after the House dispensed with the last call of the House. Therefore, there has been an intervening motion."

Mr. Paulsen:

"If you recognized this point, the House would never be able to adjourn."

Mr. Henry (Edward E.):

"Further point of order, Mr. Speaker. A motion to adjourn takes precedence over all motions."

Mr. Woodall:

"Mine is not a motion."

**RULING BY THE SPEAKER**

The Speaker:

"The Speaker will rule that a motion to adjourn takes precedence over all other motions and demands. Therefore, the motion by Mr. O'Brien to adjourn is in order."

Mr. Woodall:

"There is a motion before the House now, the motion to adjourn, which was not before the House when the call was dispensed with."

The Speaker:

"But parliamentary practice requires certain procedure and the motion has not yet been put. It will be necessary for that motion to be disposed of before you may demand a call of the House."

Mr. Woodall:

"Would your ruling be the same if an amendment was offered to a bill? Would not we be entitled to a call of the House on a given amendment?"

The Speaker:

"Not if the call had just been dispensed with. At least, not in the case of a motion to adjourn because to allow the ruling that a call of the House could be ordered at this time would be to open the gate to a point where seventeen members could indefinitely keep the House from adjourning."
Mr. Woodall:

"Is it your ruling, then, that Rule 66 does not apply—that, 'One-sixth of the members present may demand a call of the House at any time before the House has divided or the voting has commenced by yeas and nays'?"

The Speaker:

"It could not apply in this instance, Mr. Woodall. To allow it to apply in this instance would be to defeat the majority in their efforts to adjourn. To make a ruling that would allow a minority group to place the House in a position of being unable to adjourn would clearly set a precedent that could not be sustained."

**APPEAL FROM THE RULING BY THE SPEAKER**

Mr. Clark:

"Mr. Speaker, I wish to appeal from the ruling by the Speaker."

The Speaker declared the question before the House: Shall the decision of the Speaker be the judgment of the House.

The decision of the Speaker was declared the judgment of the House on a rising vote.

The Speaker declared the question before the House to be the motion by Mr. O'Brien to adjourn.

The motion was carried on a rising vote and the House adjourned until twelve o'clock noon, March 3, 1951.

S. R. HOLCOMB, Chief Clerk.

PROPOSITIONS, MOTIONS AND RESOLUTIONS

Resolution by Mrs. Hansen, Mr. Savage and Mr. Hallauer:

WHEREAS, It is the mandate of Article II, section 3 of the constitution that the legislature be reapportioned every ten years; and

WHEREAS, The legislature has failed to carry out its duty in this regard since 1931 and there are great inequalities between the existing districts and many areas of the state are denied proper representation,

Now, Therefore, Be It Resolved, That the state legislative council embark upon a study of the proper apportionment of the Senate and House of Representatives. The council shall call upon the secretary of state and the director of the University of Washington bureau of governmental research and any other unit of government for advice and assistance.

The council shall consider the population, geographic and other factors affecting the equitable apportionment of the members of the legislature to the end that the members of the Senate and House of Representatives shall be apportioned and districted anew according to the number of inhabitants, excluding members of United States armed forces on active duty.

Any apportionment plan shall be based upon a Senate composed of not more than forty-nine members and a House of Representatives of not more than ninety-nine
members. Senatorial districts shall contain a number of inhabitants, which number shall be computed by dividing the number of proposed senatorial districts into the number of inhabitants of the state as determined by the last enumeration. Representative districts shall contain a number of inhabitants, which number shall be computed by dividing the number of proposed representatives into said number of inhabitants. The districts established may vary in population within reasonable limits over or under the figures derived from such computations in the interest of compactness or geography.

Districts shall be as compact as possible and the boundaries thereof shall be reasonably regular. In making any apportionment plan, the council shall not disturb the terms of holdover Senators unless required to do so in order to carry out the mandate of the constitution.

The council may make alternative proposals as to apportionment if it finds more than one proposal to be desirable.

The council shall complete its work and shall file its findings with the secretary of state for public inspection ninety days prior to the commencement of the next regular session of the legislature and, upon organization of the legislature, shall file the apportionment plan with each house thereof in the form of a report and proposed legislation.

**Resolution by Judiciary Committee:**

WHEREAS, There are defects, anachronisms, inconsistencies and inadequacies in the laws of this state; and

WHEREAS, The legislature does not now have proper facilities to obtain information on such problems or to secure recommendations with respect to needed changes in the law to eliminate such defects; and

WHEREAS, Studies should be made to inform the legislature upon such matters in order to enable it to properly act upon them—

1. The legislative council is empowered:
   (1) To examine the laws of the state for the purpose of discovering defects and anachronisms in the law and recommending needed reforms;

It demands the highest order of business and technical administration, accompanied by continuity of sound long range highway policies, freedom from political interference and changes of personnel, and an organization attracting the services of qualified talented administrators and meritng the confidence of the people.

"Sec. 2. There is hereby created a state highway commission consisting of five members, all of whom shall be residents of this state and who shall be appointed by the governor with the consent of the senate for terms of office as herein provided, and with the qualifications herein specified. Three members shall constitute a quorum at any meeting, but no resolution, motion, or other decision of the commission shall be adopted or passed without the favorable vote of at least three members.

"Sec. 9. The state highway commission shall select and appoint the director of highways who after appointment shall be an ex officio member of the commission without a vote. The report shall be printed and copies thereof submitted to the Senate and House of Representatives on or before the opening day of the legislative session and shall show the sum of money expended by or under its direction during the fiscal biennium or portion thereof during which the commission has functioned, and shall show data and information as will show a strict accounting of all sums expended by or under its direction.

"Sec. 15. The commission shall prepare, furnish and present to the governor, and through him to the legislature, the budget for the following two years. Mr. Frayn:
"Mr. Speaker, is the amendment germane to the bill?"

RULING BY THE SPEAKER

The Speaker (Mr. Ford presiding):
"The Speaker will rule that the subject matter of the amendment is not germane to the bill."

The Speaker (Mr. Ford presiding):
"The Speaker will rule that the amendment is not germane inasmuch as Senate Bill No. 113 deals with the issuance of bonds against Metropolitan Tract income and the amendment as offered, which was formerly House Bill No. 268, deals with some activities with one branch of the University. Do you wish to appeal from the decision of the Speaker?"

Mr. Giboney:
"Yes, I do. I feel that it is germane because it deals with the University of Washington and has to do with the expanding of their governmental research and makes it possible for the University of Washington bureau of governmental research to make studies of these areas adjacent where you have the same economic and social problems. Now, it was felt in our area that this particular bill was—"

POINT OF ORDER

"The point is well taken. Do you wish to appeal from the decision of the Speaker, Mr. Giboney? The Speaker has ruled the amendment is not germane."

APPEAL FROM THE DECISION OF THE SPEAKER

Mr. Giboney:
"I appeal from the decision of the Speaker."

The Speaker (Mr. Ford presiding):
"Mr. Giboney has appealed from the decision of the Speaker. Shall the decision of the Speaker be the judgment of the House?"

*Julia Butler Hansen, Chairman.*

*Mr. Speaker:*

House of Representatives, Olympia, Wash., March 5, 1951.

We, a part of your Committee on Roads and Bridges, to whom was referred Engrossed Senate Bill No. 156, making the Agate Pass bridge toll free, and making an appropriation, have had the same under consideration, and we respectfully report the same back to the House with the recommendation that it do not pass.

*Chairman.*

Mr. Speaker:

We, a part of your Committee on Roads and Bridges, to whom was referred Engrossed Senate Bill No. 156, making the Agate Pass bridge toll free, and making an appropriation, have had the same under consideration, and we respectfully report the same back to the House without recommendation. ..........................................., Chairman.

The bill was read the second time by sections.

On motion of Mrs. Hansen, the committee amendments were withdrawn.

Mrs. Hansen moved that the following amendment be adopted:

Strike everything after the enacting clause and insert in lieu thereof the following:

"Section 1. Reconstruction of Primary State Highway No. 1 from Oregon to British Columbia, construction of four traffic lanes at Snoqualmie Pass, construction of an adequate highway bridge from Pasco to Kennewick and construction of county arterial highways and farm to market roads in Grant, Franklin and Adams counties to coincide with the opening of lands for settlement in the Columbia Basin irrigation project, are declared to be highway projects of the first priority. The construction of such projects is required in the interest of the public safety and for the orderly development of the state. The reimbursement of the motor vehicle fund for money used to purchase Agate Pass bridge bonds will also make possible other war emergency or high priority highway construction. The threat of war makes acceleration of construction a vital necessity at this time.

"Sec. 2. To provide funds for accelerating construction of these first priority projects, and to reimburse the motor vehicle fund for money expended for Agate Pass bridge construction, there shall be issued and sold limited obligation bonds of the State of Washington in the sum of sixty-six million seven hundred three thousand, six hundred and twenty-five dollars. The issuance, sale and retirement of said bonds shall be under the general supervision and control of the state finance committee. The state finance committee shall, when notified by the director of highways, provide for the issuance of coupon or registered bonds to be dated, issued and sold from time to time in such amounts as may be necessary to the orderly progress of construction of the first priority projects.

"Sec. 3. Each of such bonds shall be made payable at any time not exceeding twenty-five years from the date of its issuance, with such reserved rights of prior redemption as the state finance committee may prescribe to be specified therein. The bonds shall be signed by the governor and the state auditor under the seal of the state, one of which signatures shall be made manually and the other signature may be in printed facsimile, and any coupons attached to such bonds shall be signed by the same officers whose signatures thereon may be in printed facsimile. Any bonds may be registered in the name of the holder on presentation to the state treasurer or at the fiscal agency of the State of Washington in New York City, as to principal alone, or as to both principal and interest under such regulations as the state treasurer may prescribe. Such bonds shall be payable at such places as the state finance committee may provide. All bonds issued under authority of this act shall be fully negotiable instruments.

"Sec. 4. Bonds issued under the provisions of this chapter shall distinctly state that they are not a general obligation of the state, but are payable in the manner provided in this chapter from the proceeds of all state excise taxes on motor vehicle fuels imposed by chapter 82.10 and sections 82.36.020, 82.36.230, 82.36.250 and 82.36.400, R.C.W., as derived from chapter 58, Laws of 1933, as amended, and as last amended by chapter 220, Laws of 1949; and chapter 82.11 and section 82.40.020, R.C.W., as derived from chapter 127, Laws of 1941, as amended, and as last amended by chapter 220, Laws of 1949. The proceeds of such excise taxes are hereby pledged to the payment of any bonds and the interest thereon issued under the provisions of this chapter, and the legislature hereby agrees to continue to impose the same excise taxes on motor vehicle fuels in amounts sufficient to pay the principal and interest on all bonds issued under the provisions of this chapter when due.

"Sec. 5. The bonds issued hereunder shall be in denominations to be prescribed by the state finance committee and may be sold in such manner and in such amounts and at such times and on such terms and conditions as the committee may prescribe."
If bonds are sold to any purchaser other than the State of Washington, they shall be sold at public sale, and it shall be the duty of the state finance committee to cause such sale to be advertised in such manner as it shall deem sufficient. Bonds issued under the provisions of this chapter shall be legal investment for any of the funds of the state, except the permanent school fund: Provided, That bonds authorized herein to reimburse the motor vehicle fund for the cost of the Agate Pass bridge construction shall be sold at the earliest date which the committee finds feasible.

"Sec. 6. The money arising from the sale of said bonds shall be deposited in the state treasury to the credit of the motor vehicle fund and such money shall be available only for the construction of such first priority projects, reimbursement of the motor vehicle fund for money expended for construction of the Agate Pass bridge in order to make such money available for war emergency highway projects or other high priority highway uses, and payment of the expense incurred in the printing, issuance and sale of any such bonds.

"Sec. 7. Any funds required to repay such bonds, or the interest thereon when due, subject to the proviso of this section, shall be taken from that portion of the motor vehicle fund which results from the imposition of all excise taxes on motor vehicle fuels and which is, or may be, appropriated to the highway department for state highway purposes, and which shall never constitute a charge against any allocations of such funds to counties, cities and towns unless and until the amount of the motor vehicle fund arising from the excise taxes on motor vehicle fuels and available for state highway purposes proves insufficient to meet the requirements for bond retirement or the interest on any bonds: Provided, That money required hereunder to pay interest on or to retire any bonds issued for Columbia Basin county arterial highways or farm to market roads shall be repaid by any such county or counties wherein such highways or roads are constructed in the manner set forth in section 9 of this act.

"Sec. 8. At least one year prior to the date any interest is due and payable on such bonds or before the maturity date of any bonds, the state finance committee shall estimate, subject to the provisions of section 7, the percentage of the receipts in money of the motor vehicle fund, resulting from collection of excise taxes on motor vehicle fuels, for each month of the year which will be required to meet interest or bond payments hereunder when due, and shall notify the state treasurer of such estimated requirement. The state treasurer shall thereafter from time to time each month as such funds are paid into the motor vehicle fund, transfer such percentage of the monthly receipts from excise taxes on motor vehicle fuels of the motor vehicle fund to the highway bond retirement fund, which is hereby established, and which fund shall be available solely for payment of such interest or bonds when due. If in any month it shall appear that the estimated percentage of money so made is insufficient to meet the requirements for interest or bond retirement, the treasurer shall notify the state finance committee forthwith and such committee shall adjust its estimates so that all requirements for interest and principal of all bonds issued shall be fully met at all times.

"Sec. 9. The director of highways shall report separately to the state finance committee all sums expended from funds resulting from the sale of bonds for Columbia Basin county arterial highways and farm to market roads in Grant, Franklin and Adams counties under the provisions of this chapter. Such counties shall repay to the state all the cost of any Columbia Basin highway or road facilities actually constructed under the provisions of this chapter within each of such counties as follows: The state finance committee, at least one year prior to the date any interest is due and payable on such bonds or before the maturity date of any such bonds, shall ascertain the percentage of the motor vehicle funds arising from the excise taxes on motor vehicle fuels, which is to be transferred to such counties under the provisions of law which will be necessary to pay all of the interest upon or retire when due all of the portion of said bonds chargeable to expenditures incurred under the provisions of this chapter in each of said counties. The state finance committee shall notify the state treasurer of this estimate and the treasurer shall thereafter, when distributions are made from the motor vehicle fund to counties, retain such percentage of the total sums credited to such counties as aforesaid in the motor vehicle fund arising from the excise taxes on motor vehicle fuels until such fund is fully reimbursed for all expenditures under this chapter in Grant, Adams and Franklin counties. Any money so retained shall be available for state highway purposes.

"Sec. 10. The sums retained from motor vehicle funds arising from the excise taxes on motor vehicle fuel, of any such counties shall not exceed in any distribution period fifty per cent of the total amount to be credited to such county. If there shall be a deficit in the amount available for reimbursement of the motor vehicle fund, due to
this provision, then such deficit shall continue to be a charge against any sums due any such county from the motor vehicle fund from such excise taxes until the full cost of such Columbia Basin highway facilities is paid.

"Sec. 11. Whenever the percentage of the motor vehicle fund arising from excise taxes on motor fuels, payable into the highway bond retirement fund, shall prove more than is required for the payment of interest on bonds when due, or current retirement of bonds, any excess may, in the discretion of the state finance committee, be available for the prior redemption of any bonds or remain available in the fund to reduce the requirements upon the fuel excise tax portion of the motor vehicle fund at the next interest or bond payment period.

"Sec. 12. The bonds authorized herein are allocated to the first priority projects as follows:

"(1) Forty-nine million two hundred fifty thousand dollars ($49,250,000) of the total issue for the acceleration of the reconstruction of Primary State Highway No. 1, said amount to be expended on said Primary State Highway No. 1 as follows: Thirty-three million five hundred thousand dollars ($33,500,000) between Everett, Seattle, Tacoma, Olympia, Chehalis, Centralia, Kelso, Vancouver, and the Oregon boundary line, and fifteen million seven hundred fifty thousand dollars ($15,750,000) between Everett and the Canadian boundary line;

"(2) Six million five hundred thousand dollars ($6,500,000) of the total issue for the construction of a four lane highway at Snoqualmie Pass;

"(3) Four million two hundred fifty thousand dollars ($4,250,000) of the total issue for the construction of Columbia Basin county arterial highways and farm to market roads in Grant, Franklin and Adams counties, for which the state must be reimbursed as provided in section 9; and

"(4) Five million dollars ($5,000,000) of the total issue for the construction of Columbia Basin county arterial highways and farm to market roads in Grant, Franklin and Adams counties, for which the state must be reimbursed as provided in section 9; and

"(5) One million seven hundred three thousand six hundred twenty-five dollars ($1,703,625) of the total issue for reimbursement of the motor vehicle fund for money spent for Washington Toll Bridge Authority bonds purchased in connection with the construction of the Agate Pass bridge, said sum of one million seven hundred three thousand six hundred twenty-five dollars ($1,703,625) to be used when it becomes available in the motor vehicle fund, under allotments to be made by the director of highways, for war emergency or other high priority highway projects: Provided, That no bonds shall be issued for Columbia Basin county arterial highway and road purposes unless expenditures are actually required for the settlement of lands ready for irrigation in the Columbia Basin project and all construction of arterial highways and roads in such counties shall be accomplished by the engineering forces of the various counties under the supervision of the director of highways.

"Sec. 13. When the state finance committee has made arrangements for the sale of sufficient bonds to reimburse the motor vehicle fund in the sum of one million seven hundred three thousand six hundred twenty-five dollars ($1,703,625) as aforesaid, the committee shall notify the Washington Toll Bridge Authority and the Authority is thereafter directed to transfer the Agate Pass bridge to the highway department for operation as a toll free part of the state highway system. The bonds of the Authority issued to construct the Agate Pass bridge shall then be cancelled.

"Sec. 14. There is appropriated from the motor vehicle fund the sum of sixty-six million seven hundred three thousand, six hundred and twenty-five dollars ($66,703,625), or so much thereof as may be necessary, to carry out the provisions of this chapter; but no money shall be available under this appropriation from said fund unless a like amount of the bonds provided for herein are sold and the money derived deposited to the credit of such fund.

"Sec. 15. This act is necessary for the immediate preservation of the public peace, health and safety, the support of the state government and its existing public institutions, and shall take effect immediately."

Debate ensued.

Mr. Simmons demanded the previous question and the demand was sustained.

The motion was carried and the amendment was adopted.

On motion of Mrs. Hansen, the following amendment was adopted:

No execution upon a judgment or attachment shall be levied against the property of the Authority, nor does the state consent to any maritime lien against vessels of the Authority, but the Authority may be required by order of court to pay any judgment.

Senate Bill No. 280, by Senator Sears (by departmental request):

Relating to the handling of the tuberculosis hospitalization equalization fund.

Amend the bill by adding a new section following section 1 to be known as section 2 to read as follows:

"Sec. 2. Section 82.12.16, R.C.W., as derived from section 1, chapter 54, Laws of 1945, is amended to read as follows:

"Before distributing moneys to the cities and towns from the motor vehicle excise fund, as provided in the preceding section, the state treasurer shall make an annual deduction therefrom of a sum equal to four cents per capita of the population of all cities or towns, determined as provided in said section, which sum shall be apportioned and transmitted to the University of Washington for use by its bureau of governmental research, and shall be used for studies and research in municipal government, studies of the economic and social problems of suburban areas situated adjacent to municipalities having similar economic, health, and social problems, publications, educational conferences, and attendance thereat, and in furnishing technical, consultative, and field services to cities and towns in problems relating to planning, public health, municipal sanitation, fire protection, law enforcement, post-war improvements, and public works, and in all matters relating to city and town government. The program shall be carried on and all expenditures shall be made in cooperation with the cities and towns of the state acting through the association of Washington cities by its executive committee which is hereby recognized as their official agency or instrumentality.

"Any moneys remaining unexpended or uncontracted for by the bureau at the end of any calendar year shall be returned to the motor vehicle excise fund and be paid to cities and towns under the provisions of the preceding section."

POINT OF ORDER

Mr. Woodall:

"Mr. Speaker, the amendment is not germane."

Mr. Giboney:

"Mr. Speaker, in order to save time, this is the same amendment I offered to a previous bill, House Bill No. 268, with one change—it has health inserted between economic and social problems on line ten. Now, this is a health measure and is germane to this bill. This has to do with hospitals and is a health problem and I feel this amendment is germane to the bill."

RULING BY THE SPEAKER

"The Speaker is of the opinion, Mr. Giboney, that the amendment you offered is not germane. The subject matter of the amendment is apparently entirely different. The act to which the amendment is offered relates to the distribution of funds for the purpose of the support of county hospitals for the treatment of tuberculosis. The amendment you offered seems to affect the use of moneys from the motor vehicle excise tax fund to be used by a certain institution at the University of Washington making research in regard to the economic and various other aspects of community problems. The Speaker tries to be very liberal in ruling whether or not matters are germane. The Speaker will rule that the amendment is not germane."

On motion of Mr. O'Brien, the rules were suspended, Senate Bill No. 280 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

On motion of Mr. Forrest, the committee amendment was adopted.

Mr. Hurley moved the adoption of the following amendment:
Amend the bill by striking everything after the enacting clause and substituting in lieu thereof the following:

"Section 1. This act shall be known as the 'pressure piping licensing act,' and is passed in the exercise of the police power of the state to protect the public health, safeguard property, promote the welfare of the state, and prevent fraudulent practices. Substandard pressure piping and equipment creates a hazardous condition dangerous to life and property. In order to protect the public health and property, proper standards of pressure piping construction and installation should be maintained and enforced and fraudulent and unsafe practices eliminated through the licensing of qualified contractors and the inspection of all pressure piping work installed by such contractors. In furtherance of the public safety it is necessary that competent persons engage in work in the pressure piping contracting and installation field.

"Sec. 2. When used in this act:
1. The term 'director' shall refer to director of labor and industries;
2. The term 'license' shall mean the pressure piping contractor's license, and the term 'license holder' shall refer to the person to whom the license has been issued under this act;
3. The term 'pressure piping' shall include all piping, appliances and equipment, exclusive of pressure vessels, designed and installed to conduct any fluid or gas or other substance under pressure as described by the code of pressure piping sponsored by the American society of mechanical engineers and approved by the American standards association;
4. The term 'inspector' shall refer to a pressure piping inspector and such deputy pressure piping inspectors as may be appointed by the director of labor and industries; and
5. The term 'permit' shall refer to the pressure piping permit issued under this act.

"Sec. 3. From and after the taking effect of this act the installation, construction and alteration of all pressure piping shall be in strict conformity with the provisions of this act, the statutes of this state, the rules and regulations issued by the department of labor and industries under the authority of this act, and shall conform to the most approved methods of construction. The code of pressure piping, sponsored by the American society of mechanical engineers, and approved by the American standards association, and other installation and safety regulations approved by the American
standards association, shall be prima facie evidence of the most approved methods for
the construction, installation and maintenance of pressure piping. All materials, de-
vices, appliances and equipment used in such construction and installation shall be of a
Type which shall conform to any applicable standards established by the national
bureau of standards of the United States department of commerce: Provided, That this
act shall not limit the authority of any city or town to enact or enforce under authority
of law, any ordinance, rule or regulation requiring a higher and better standard of
construction, installation or maintenance of pressure piping or a better standard of
materials, devices, appliances, fixtures and equipment than that required by this act,
but in such city or town having such superior standard, pressure piping construction
and installation and all pressure piping materials, devices, appliances, fixtures and
equipment shall be in accordance with the ordinance, rule or regulation of such city
or town.

"Sec. 4. It shall be unlawful for any person to install any pressure piping not in
accordance with the standards prescribed by this act. In cases where the interpretation
and application of the standards here prescribed are in dispute or in doubt, the director
shall, upon application of any interested person, determine the method of construction
and installation and the quantity, quality and type of pressure piping materials, de-
vices, appliances, fixtures or equipment to be used in the particular case submitted
for his decision.

"Sec. 5. From and after the first day of June, 1951, no person shall engage in the
business of contracting to construct or install pressure piping unless such person shall
have a valid license and certificate therefor, except that an unlicensed owner and resi-
dential occupant of property may make installation, alter or repair pressure piping
installed on property so owned and occupied: Provided, Such unlicensed owner shall
comply with the standards established by this act.

"Sec. 6. Any license required by this act shall be issued by the department of
licenses. All such licenses shall expire on the thirty-first day of December following
the date of their issuance.

"Sec. 7. Licensees shall pay an annual fee of one hundred dollars. Application for
such license shall be made in writing to the department of licenses, stating the name,
form of business identity, and place of business of the applicant, accompanied by the
required fee and by a bond in the penal sum of five thousand dollars, with the state
as obligee, with good and sufficient surety to be approved by the attorney general.
The aggregate liability of the surety upon such bond for all claims which may arise
thereunder shall not exceed the sum of five thousand dollars. The bond shall be con-
ditioned that in any installation of pressure pipe to convey liquid, gas or other sub-
stance, the principal of said bond shall comply with the provisions of this act and the
regulations adopted by the director, or any additional regulations enacted by any city
or town as may be in effect at the time of entering into any contract for pressure pipe
construction, installation or alteration. The bond shall be further conditioned that the
principal will pay for all damages that may be sustained by any person arising by
failure of the principal to perform pressure piping work as may be required by the
regulations of the director or the additional requirements of any municipality. Any
person sustaining any damage or injury by reason of the breach of the conditions of
said bond by the principal may bring action thereon in the superior court of any county
in which the principal of said bond resides or transacts business, or in the county in
which the work was performed, giving rise to the cause of action. The cancellation or
revocation of said bond shall immediately revoke the license.

"Sec. 8. Every person proposing to install, construct or alter any pressure piping
under this act shall apply for a pressure piping permit prior to the start of the work.
The permit shall be issued by the director upon the request of any owner or license
holder upon payment of a fee as hereinafter provided. The fees to be paid by the ap-
plicant for a permit at the time of making application as to any proposed construction,
installation or alteration shall be:

"(1) Two dollars on an estimated cost of three thousand dollars;
"(2) Five thousand dollars, a permit fee of five dollars;
"(3) Twenty-five thousand dollars, a permit fee of ten dollars;
"(4) Fifty thousand dollars, a permit fee of twenty-five dollars;
"(5) One hundred thousand dollars, a permit fee of fifty dollars;
"(6) In excess of two hundred fifty thousand dollars, a permit fee of one hundred
dollars.

"Sec. 9. The permit, if issued, shall describe the name of the permittee and the
address or site of the proposed construction, installation or alteration: All inspection
services required by the owner or license holder thereafter shall be performed by the
director under this act in consideration of the payment of the permit fee. The permit
so issued shall be displayed in a conspicuous place at the site of the pressure piping
work by the permittee.

"Sec. 10. The director and the officials of all incorporated cities and towns where
pressure pipe inspections are required by local ordinances, are empowered to regulate,
and it shall be their duty to enforce, the provisions of this act in their respective
jurisdictions. The director shall have the power to appoint a pressure piping inspector
and such assistant inspectors of pressure piping as he shall deem necessary to assist
him in the performance of his duties. All Inspectors appointed by the director shall be
pressure piping artisans of not less than six years' experience in constructing and
installing pressure piping equipment or six years' experience as pressure pipe in­
spectors for a municipality, or two years' training in the principles of civil and/or
mechanical engineering in a college of engineering of recognized standing and four
years' continuous practical pipe fitting experience in installing pressure pipe, or four
years of training in mechanical and civil engineering in a college of engineering of
recognized standing and two years' continuous practical pipe fitting experience in the
construction and installation of pressure piping work.

"Sec. 11. State inspectors shall be paid such salary or per diem as the director
shall determine, together with their necessary traveling expenses. The director shall
have the power to designate and appoint for temporary duty any pressure pipe in­
spector of any municipality who possesses the qualifications required by this act for
inspectors as a deputy state inspector. Inspectors, when deputized, shall, whenever
possible, make such inspections as the director may request outside the corporate
limits of their respective cities and towns. Whenever a municipal inspector is em­
ployed to do work under this act by the director, the municipality employing that
inspector shall be paid from the pressure piping license fund two dollars and seventy­
five cents per hour for each hour the municipal inspector is so engaged, together with
the necessary expenses of such inspector. Any inspection made by a municipal in­
spector shall be subject to such further and additional inspection as the director may
determine. The state shall not be responsible for the salary and/or expenses of any
inspector while engaged in inspecting any pressure pipe or equipment within the cor­
porate limits of any city or town unless such inspection shall have been authorized by
the director.

"Sec. 12. The director, through his subordinates, may inspect all pressure piping
to which the act applies. Whenever the installation of any such pressure piping is not
in accordance with the requirements of this act or is in such a condition as to be dan­
gerous to life or property, the person owning, using or operating the same shall be
notified by the director and shall, within fifteen days, or such further reasonable time
as may be granted by the director, make the repairs and/or changes required. The
director may disconnect, at the expense of the license holder or owner, and may order
the discontinuance of the use of any defective pressure piping installed or altered in
violation of the standards created by this act. In making such disconnection, the
director shall attach thereto a notice stating that such pressure pipe, equipment and/or
apparatus has been found dangerous to life or property or otherwise not in accordance
with the requirements of this act. It shall be unlawful for any person to reconnect
such defective pressure pipe, equipment or apparatus without the approval of the
director. The director, through his inspectors and employees, shall have the right
to enter into and upon any buildings or premises in the discharge of his official duties
or for the purpose of making any inspection or test of the installation of pressure
piping contained therein. No pressure piping subject to the requirements of this act
shall be concealed until an inspection is applied for under this act and an inspection
made, and the work approved by the inspector making such inspection: Provided, That
if duly authorized inspectors are not available for such inspection, an affidavit shall be
furnished by the license holder or other person doing the work indicating there has
been compliance with the provisions of this act.

"Sec. 13. If any inspection made under the provisions of this act require any correc­
tion or change in the work inspected, a report thereon shall be made in writing by the
inspector. The report shall state the corrections or changes required. A copy of such
report shall be furnished to the person doing the installation or operating the equipment
or apparatus, and a copy thereof filed with the director.

"Sec. 14. The director shall have power, in case of gross violation of the provisions
of this act, to revoke or suspend for such period as he may determine, any license or
permit issued under this act.
"Sec. 15. The director may, upon his own motion, and shall, upon the verified complaint in writing of any person, investigate the acts of a license holder within the state to determine whether said license holder is guilty of or has committed any act or omission constituting cause of disciplinary action, as provided for in this act. The director may hold a hearing on said complaint, after fifteen days' notice in writing of said hearing has been served upon the person complained against or has been transmitted to him by regular mail. All acts or omissions alleged in the complaint, or the specific grounds of the motion of the director, shall be set out in full in the notice of hearing so served or mailed. Thereafter all parties having an interest in the complaint or motion shall have a reasonable opportunity to be heard in all hearings conducted under this section. The hearing shall be conducted in accordance with regulations prescribed by the director for determining the rights of the parties, whether or not such regulations conform to common law or statutory rules of evidence and other technical rules of procedure. The director shall have the power to administer oaths and issue subpoenas. Testimony shall be taken under oath and a full and complete record taken thereof. All accusations and complaints against a license holder shall be filed within one year after the act or omission occurs. Any order of the director, in the absence of an appeal therefrom as provided by this act, shall be final fifteen days after the date of mailing the person or persons affected thereby written notification thereof. The director shall be deemed to be party to any judicial act involving any such decision and shall be represented in any such judicial action by the attorney general.

"Sec. 16. In all administrative proceedings provided by this act, involving dispute or complaint, the fees of all witnesses attending such proceedings pursuant to subpoena shall be paid at a rate fixed by such regulation as the director shall prescribe and such fees and all costs of such proceedings otherwise chargeable to an individual, except charges for services rendered by counsel or other agent representing such individual, shall be paid out of the pressure piping contractors' license fund. Cost bills may be served and filed and costs shall be taxed in accordance with such regulations as the director shall prescribe. In all judicial proceedings under this act the rule in civil cases as to costs and attorneys' fees shall apply.

"Sec. 17. Any person affected by any order of the director, and deeming the same to be contrary to law, within thirty days after the service of order upon him or it, may apply to the superior court for Thurston County for writ of review for the purpose of having the reasonableness and lawfulness of the order inquired into or determined. Such writ shall be made returnable not later than thirty days from and after the date of issuance thereof, and shall direct the director to certify his record in the case to the court. Such cause shall be heard by the court without the intervention of a jury on the evidence and exhibits introduced by the director and certified by him. Upon such hearing the superior court shall enter judgment either affirming or setting aside or remanding for further action the order of the director under review. The reasonable cost of preparing the transcript of testimony taken before the director shall be assessable as part of the statutory court costs and the amount thereof, if collected by the director, shall be deposited in the pressure pipe license fund. Pendency of any writ of review shall not of itself stay or suspend the operation of the order of the director. The superior court, in its discretion, may restrain or suspend in whole or in part the operation of the order of the director pending the final hearing and determination of the suit. In case the order of the director under review is superseded by the court, it shall require a bond with good and sufficient surety, conditioned as the court may require, to answer for all damages caused by the delay in the enforcement of the order of the director.

"Sec. 18. No person engaging in, conducting or carrying on the business of installing or constructing pressure pipe or equipment to convey any fluid, gas or other substance under pressure shall be entitled to commence or maintain any suit or action in any court of this state pertaining to any such work or business, without alleging and proving that such person held, at the time of commencing and performing such work, an unexpired, unrevoked and unsuspended license issued under the provisions of this act; and no city or town requiring a municipal pressure piping permit shall issue such permit to any person not holding a state license and/or state permit issued under this act.

"Sec. 19. Every violation of this act is a misdemeanor and shall be punishable by a fine of not more than one hundred dollars or not more than thirty days in jail, or both such fine and imprisonment; and each day that any such violation is continued shall be deemed a separate offense.
"Sec. 20. Nothing contained in this act will be construed to relieve from or lessen the responsibility or liability of any person for damages or injury to person or property caused by or resulting from any defect of any nature in the pressure piping work performed by said person, or in any pressure piping equipment owned, controlled, installed, operated or used by him, nor shall the state or any officer, agent or employee thereof incur or be held as assuming any liability by reason of or in consequence of any license permission, certificate of inspection, inspection or approval authorized herein or used or given as herein provided, or by reason of or in consequence of anything done or act performed pursuant to any provision of this act.

"Sec. 21. All fees and moneys received by the director for the licensing of pressure piping contractors and any other income received under the provisions of this act shall be paid to the state treasurer and by him placed in a special fund designated as the pressure piping license fund. All salaries and expenses of administration of this act shall be paid by the state treasurer on properly drawn vouchers from a fund appropriated by the legislature for the purpose of this act against said pressure piping license fund, but no expense or claim shall be incurred or paid in excess of the amount received from the fees and moneys herein provided.

"Sec. 22. On or before the first day of June, 1951, the director shall obtain an authentic copy of the American society of mechanical engineers' pressure piping code and an authentic copy of any applicable rules, regulations and standards of the national bureau of standards of the United States department of commerce prescribing rules, regulations and standards for pressure piping materials, devices, appliances, fixtures and equipment, and shall annually thereafter, on or before the first day of January, obtain a new set of such rules, regulations and standards, including therein any modifications and changes that have been made during the previous year in such rules, regulations and standards. All such rules, regulations and standards and all regulations and orders of the director shall be kept on file in the office of the director; compliance with all such rules, regulations, orders and standards shall be prima facie evidence of compliance with the provisions of this act. The director, upon request and payment of the cost of printing and postage by the applicant, shall deliver to all persons a certified copy of such rules, regulations and standards. Any printed copy of such rules, regulations and standards certified by the director as being a true, full and correct copy of such rules, regulations, orders and standards on file in his office shall be accepted in any court of the State of Washington as conclusive evidence of such approved methods, regulations, orders and standards.

"Sec. 23. If any section or part of this act shall be held and adjudged to be void and unconstitutional, such adjudication shall not affect any other section or part of this act not adjudged to be void or unconstitutional."

POINT OF ORDER

Mr. O’Brien:

“Mr. Speaker, I rise to a point of order. I raise the question that the amendment is not germane to Senate Bill No. 362.”

RULING BY THE SPEAKER

The Speaker (Mr. Woodall presiding):

“Senate Bill No. 362 is an act relating to the care, custody, control and relinquishment of minor children. The amendment, if I understand it correctly and I am assured it is the same as Senate Bill No. 163, relates to the licensing of child-care and placing agencies and foster homes. The Speaker will rule that it is germane. The Speaker will listen to argument.”

Debate ensued.

POINT OF ORDER

Mr. Carty:

“Will Mr. Comfort yield to a question?”

The Speaker (Mr. Woodall presiding):

“Will the gentleman yield?”

Mr. Comfort:

“Surely.”

Mr. Carty:

“Mr. Comfort, just how is it Senate Bill No. 163 was not able to get out of the Senate?”

Mr. Comfort:

“Not being a member of the Senate, I cannot answer that in full, but I do have my suspicions.”

The Speaker (Mr. Woodall presiding):

“I don’t think the question is in order to ask a House member why the Senate didn’t do something.”

Debate ensued.
Mr. Adams demanded the previous question and the demand was sustained. The motion by Mr. Comfort was lost on a rising vote and the amendment was not adopted.

On motion of Mr. Paulsen, the rules were suspended, Senate Bill No. 362 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

The Clerk called the roll on the final passage of Senate Bill No. 362, as amended by the House, and the bill passed the House by the following vote: Yeas, 97; nays, 0; absent or not voting, 2.

Those absent or not voting were: Representatives Simmons, Mr. Speaker—2.

On motion of Mr. Roderick, the following amendment was adopted:
Amend the bill immediately after section 12, being House amendment by Repre­sentative Roderick adopted March 6, 1951, by adding the following new sections:
"Sec. 13. There exists in certain localities in the state, slum and blighted areas
which are injurious to the public health, safety and welfare of the state. The existence
of such areas contributes to the spread of disease and crime, necessitating expenditures
of public funds for public health services, crime prevention, correction of juvenile
delinquency and for the maintenance of adequate police, fire and accident protection,
constituting an economic liability, substantially impairing or arresting the sound growth
of communities. The elimination of slum conditions or conditions of blight is a public
use and purpose.
"Sec. 14. The following terms, wherever used in this act, shall have the following
meanings, unless a different meaning is clearly indicated by the context:

endanger life or property by fire and other causes, or any combination of such factors,
is conducive to ill health, transmission of disease, infant mortality, juvenile delinquency and crime.

"Sec. 17. 'Blighted area' shall mean an area (other than a slum area) which, by reason of the predominance of defective or inadequate street layout, faulty lot layout in relation to size, adequacy, accessibility or usefulness, insanitary or unsafe conditions, deterioration of site improvements, improper subdivision or obsolete platting, or the existence of conditions which endanger life or property by fire and other causes, or any combination of such factors, substantially impairs or arrests the sound growth of the community, retards the provision of housing accommodations or constitutes an economic liability in its present condition and use.

"Sec. 18. (1) 'Redevelopment project' shall mean any work or undertaking:
"(a) To acquire slum areas or blighted areas or portions thereof, including lands, structures or improvements the acquisition of which is necessary or incidental to the proper clearance, development or redevelopment of such slum or blighted areas or to the prevention of the spread or recurrence of slum conditions or conditions of blight;

"'Obligee' shall include any bondholder, agents or trustees for any bondholders, or lessor demising to the authority property used in connection with a redevelopment project, or any assignee or assignees of such lessor's interest or any part thereof, and the federal government when it is a party to any contract with the authority.

"Sec. 20. The governing body of any municipality may create by resolution a public body corporate and politic, to be known as the 'Slum Clearance and Redevelopment Authority' of the municipality to exercise in such municipality the powers, functions and duties of an authority under this act: Provided, That if it deems such action to be in the public interest, the governing body may, instead of such resolution, adopt a resolution approving the exercise of such powers, functions and duties by the governing body itself or by a housing authority, and in such event, the governing body or housing authority, as the case may be, shall be vested with all the powers, functions, rights, duties and privileges of a slum clearance and redevelopment authority under this act.

"Sec. 21. The governing body of a municipality shall not adopt a resolution pursuant to section 8 unless it finds:
"(1) That one or more slum or blighted areas exist in such municipality; and
"(2) That the redevelopment of such area or areas is necessary in the interest of the public health, safety, morals or welfare of the residents of such municipality.

"Sec. 22. If the resolution adopted by a municipality is one approving the exercise of powers hereunder by a slum clearance and redevelopment authority, the chief executive thereof, by and with the advice and consent of the governing body, or if there be no chief executive, then the governing body shall appoint a board of commissioners of the authority, created for such municipality, which shall consist of five commissioners. The commissioners who are first appointed pursuant to this act shall be designated to serve for terms of one, two, three, four and five years, respectively, from the date of their appointment, but thereafter commissioners shall be appointed as aforesaid for a term of office of five years except that all vacancies shall be filled for the unexpired term.
Sec. 23. A commissioner of an authority shall receive no compensation for his services, but shall be entitled to the necessary expenses, including traveling expenses, incurred in the discharge of his duties. Each commissioner shall hold office until his successor has been appointed and has qualified. A certificate of the appointment or reappointment of any commissioner shall be filed with the municipal or county clerk, as the case may be, and such certificate shall be conclusive evidence of the due and proper appointment of such commissioner.

Sec. 24. The powers hereunder vested in each authority shall be exercised by the board of commissioners thereof. A majority of the commissioners shall constitute a quorum of such board for the purpose of conducting business and exercising the powers of the authority and for all other purposes. Action may be taken by the board upon a vote of a majority of the commissioners present, unless in any case the rules and regulations of the authority shall require a larger number. Meetings of the board of an authority may be held anywhere within the area of operation of the authority. Any persons may be appointed as commissioners of the authority if they reside within such area, and are otherwise eligible for such appointments under this act.

Sec. 25. The commissioners of an authority shall elect a chairman and vice-chairman from among the commissioners. An authority may delegate to one or more of its agents or employees such powers or duties as it may deem proper.

Sec. 26. For inefficiency or neglect of duty or misconduct in office, a commissioner of an authority may be removed by the appointing authority, but a commissioner shall be removed only after a hearing and after he shall have been given a copy of the charges at least ten days prior to such hearing and have had an opportunity to be heard in person or by counsel. In the event of the removal of any commissioner, a record of the proceedings, together with the charges and findings thereon, shall be filed in the office of the clerk of the municipality.

Sec. 27. In any suit, action or proceeding involving the validity or enforcement of or relating to any contract of an authority or other public body it shall be conclusively deemed to have become established and authorized to transact business and exercise its powers hereunder upon proof of the adoption of the appropriate resolution prescribed in section 20 of this act. Each such resolution shall be deemed sufficient if it authorizes the exercise of powers hereunder by the authority or other public body and finds in substantially the terms provided in section 21 that the conditions therein enumerated exist. A copy of such resolution duly certified by the municipal or county clerk, as the case may be, shall be admissible in evidence in any suit, action or proceeding.

Sec. 28. No commissioner or employee of an authority shall voluntarily acquire any interest, direct or indirect, in any redevelopment project or in any property included or planned by the authority to be included in any such project, or in any contract or proposed contract in connection with such project. Where the acquisition is not voluntary such commissioner or employee shall immediately disclose such interest in writing to the authority and such disclosure shall be entered upon the minutes of the authority. A commissioner or employee who owns or controls any interest, direct or indirect, in such property shall not participate in any action by the authority affecting the property. If any commissioner or employee of an authority owned or controlled within the preceding two years an interest, direct or indirect, in any property included or planned by the authority to be included in any redevelopment project, he immediately shall disclose such interest in writing to the authority and such disclosure shall be entered upon the minutes of the authority. Upon such disclosure such commissioner or employee shall not participate in any action by the authority affecting such property. Any violation of the provisions of this section shall constitute misconduct in office.

Sec. 29. An authority shall constitute a public body having all the powers necessary or convenient to carry out the purposes of this act, including the following powers in addition to others herein granted:

(1) To sue and to be sued; to make and execute contracts and other instruments necessary or convenient to the exercise of the powers of the authority; and to make and from time to time amend and repeal rules and regulations, not inconsistent with this act, to carry out the provisions of this act;
"(2) To prepare or cause to be prepared and recommend redevelopment plans to the governing body of the municipality within its area of operation and to undertake and carry out redevelopment projects within its area of operation; and

"(3) To arrange or contract for the furnishing or repair of services, works, streets, roads, public utilities or other facilities for or in connection with a redevelopment project.

"Sec. 30. Within its area of operation an authority may purchase, lease, obtain options upon, acquire by gift, grant, bequest, devise, eminent domain or otherwise, any real or personal property or any interest therein, together with any improvements thereon, necessary or incidental to a redevelopment project; to hold, improve, clear or prepare for redevelopment any such property; to sell, lease, exchange, transfer, assign, subdivide, retain for its own use, mortgage, pledge, hypothecate or otherwise encumber or dispose of any real or personal property or any interest therein; to enter into contracts with redevelopers of property containing covenants, restrictions and conditions regarding the use of such property for residential, commercial, industrial, recreational purposes or for public purposes in accordance with the redevelopment plan and such other covenants, restrictions and conditions as the authority may deem necessary to prevent a recurrence of slum or blighted areas or to effectuate the purposes of this act; to make any of the covenants, restrictions or conditions of the foregoing contracts covenants running with the land, and to provide appropriate remedies for any breach of any such covenants or conditions, including the right in the authority to terminate such contracts and any interest in the property created pursuant thereto; to borrow money and issue bonds and provide security for loans or bonds; to insu re or provide for the insurance of any real or personal property or operations of the authority against any risks or hazards, including the power to pay premiums on any such insurance; and to enter into any contracts necessary to effectuate the purposes of this act.

"Sec. 31. An authority may invest any funds held in reserves or sinking funds or any funds not required for immediate disbursement, in property or securities in which savings banks may legally invest funds subject to their control; to redeem its bonds at the redemption price established therein or to purchase its bonds at less than redemption price, all bonds so redeemed or purchased to be cancelled.

"Sec. 32. An authority may borrow money and apply for and accept advances, loans, grants, contributions and any other form of financial assistance from the federal government, the state, county, municipality or other public body or from any sources, public or private, for the purposes of this act, to give such security as may be required and to enter into and carry out contracts in connection therewith; an authority may include in any contract for financial assistance with the federal government for a redevelopment project such conditions imposed pursuant to federal law as the authority may deem reasonable and appropriate and which are not inconsistent with the purposes of this act.

"Sec. 33. Acting through one or more commissioners or other persons designated the authority may conduct examinations and investigations and hear testimony and take proof under oath at public or private hearings on any matter material for its information; administer oaths, issue subpoenas requiring the attendance of witnesses or the production of books and papers and issue commissions for the examination of witnesses who are outside the state or unable to attend before the authority, or excused from attendance; make available to appropriate agencies (including those charged with the duty of abating or requiring the correction of nuisances or like conditions or of demolishing unsafe or insanitary structures or eliminating slums or conditions of blight within its area of operation) its findings and recommendations with regard to any building or property where conditions exist which are dangerous to the public health, safety, morals or welfare.

"Sec. 34. Within its area of operation the authority may make or have made all surveys, studies and plans necessary to the carrying out of the purposes of this act and contract or cooperate with any and all persons or agencies, public or private, in the making and carrying out of such surveys, appraisals, studies and plans.

"Sec. 35. An authority may prepare plans and provide reasonable assistance for the relocation of families displaced from a redevelopment project area to permit the carrying out of the redevelopment project, to the extent essential for acquiring possession of and clearing such area or parts thereof.

"Sec. 36. An authority may make such expenditures as may be necessary to carry out the purposes of this act and make expenditures from funds obtained from the federal government.
"Sec. 37. An authority shall not acquire real property for a redevelopment project unless the governing body of the municipality in which the redevelopment project area is located has approved the redevelopment plan, as prescribed in section 44.

"Sec. 38. An authority shall not prepare a redevelopment plan for a redevelopment project area unless the governing body of the municipality in which such area is located has, by resolution, declared such area to be a slum or blighted area in need of redevelopment.

"Sec. 39. The authority may itself prepare or cause to be prepared a redevelopment plan or any person or agency, public or private, may submit such a plan to an authority. A redevelopment plan shall be sufficiently complete to indicate its relationship to definite local objectives as to appropriate land uses, improved traffic, public transportation, public utilities, recreational and community facilities and other public improvements and the proposed land uses and building requirements in the redevelopment project area, and shall include without being limited to:

"(1) The boundaries of the redevelopment project area, with a map showing the existing uses and condition of the real property therein;

"(2) A land use plan showing proposed uses of the area;

"(3) Information showing the standards of population densities, land coverage and building intensities in the area after redevelopment;

"(4) A statement of the proposed changes, if any, in zoning ordinances or maps, street layouts, street levels or grades, building codes and ordinances;

"(5) A site plan of the area; and

"(6) A statement as to the kind and number of additional public facilities or utilities which will be required in the area after redevelopment.

"Sec. 40. Prior to recommending a redevelopment plan to the governing body for approval, an authority shall submit such plan to any planning or zoning commission of the municipality, if there be such body, in which the redevelopment project area is located for review and recommendations as to its conformity with any comprehensive plan for the physical development of the municipality as a whole. The planning or zoning commission shall submit its written recommendations with respect to the proposed redevelopment plan to the authority within said thirty days after receipt of the plan for review. Upon receipt of the recommendations of the planning or zoning commission, or if no recommendations are received within thirty days, then without such recommendations, an authority may recommend the redevelopment plan to the governing body of the municipality for approval.

"Sec. 41. Prior to recommending a redevelopment plan to the governing body for approval, an authority shall consider whether the proposed land uses and building requirements in the redevelopment project area are designed with the general purpose of accomplishing, in conformance with any comprehensive plan, a coordinated, adjusted and harmonious development of the municipality and its environs which will, in accordance with present and future needs, promote health, safety, morals, order, convenience, prosperity and the general welfare, as well as efficiency and economy in the process of development; including among other things, adequate provision for traffic, vehicular parking, the promotion of safety from fire and other dangers, adequate provision for light and air, the promotion of the healthful and convenient distribution of population, the provision of adequate transportation, water, sewerage and other public utilities, schools, parks, recreational and community facilities and other public requirements, the promotion of sound design and arrangement, the wise and efficient expenditure of public funds, the prevention of the recurrence of insanitary or unsafe dwelling accommodations, slums, or conditions of blight, and the provision of adequate, safe and sanitary dwelling accommodations.

"Sec. 42. The recommendation of a redevelopment plan by an authority to the governing body shall be accompanied by the recommendations, if any, of the planning commission concerning the redevelopment plan; a statement of the proposed method and estimated cost of the acquisition and preparation for redevelopment of the project area and the estimated proceeds or revenues from its disposal to redevelopers; a statement of the proposed method of financing the redevelopment project; and a statement of a feasible method proposed for the relocation of families to be displaced from the redevelopment project area.

"Sec. 43. The governing body of the municipality shall hold a public hearing on any redevelopment plan or substantial modification thereof recommended by the authority, after reasonable public notice thereof, by publication at least once a week for two consecutive weeks in a newspaper of general circulation in the community,
the time of the hearing to be at least ten days from the last publication. The notice shall describe the time, date, place and purpose of the hearing and shall also generally identify the area to be redeveloped under the plan. All interested parties shall be afforded at such public hearing a reasonable opportunity to express their views respecting the proposed redevelopment plan.

"Sec. 44. Following such hearing, the governing body may approve a redevelopment plan if it finds that said plan is feasible and in conformity with the general plan for the development of the municipality as a whole: Provided, That if the redevelopment project area is a blighted area, the governing body must also find that the conditions of blight in the redevelopment project area and the shortage of decent, safe and sanitary housing cause or contribute to an increase in and spread of disease and crime and constitute a menace to the public health, safety or welfare; and that the development of the blighted area for predominantly residential uses is an integral part of and essential to the program of the municipality for the elimination of slum area. A redevelopment plan which has not been approved by the governing body when recommended by the authority may again be recommended to it with any modifications deemed advisable.

"Sec. 45. A redevelopment plan may be modified at any time by the authority: Provided, That if modified after the lease or sale of real property in the redevelopment project area, the modification must be consented to by the redeveloper. Where the proposed modification will substantially change the redevelopment plans as previously approved by the governing body the modification must similarly be approved by the governing body.

"Sec. 46. An authority may sell, lease, exchange or otherwise transfer real property or any interest therein in a redevelopment project area to any redeveloper for residential, recreational, commercial, industrial or other uses or for public use in accordance with the redevelopment plan, subject to such covenants, conditions and restrictions as may be deemed to be in the public interest or to carry out the purposes of this act: Provided, That such sale, lease, exchange or other transfer, and any agreement relating thereto, may be made only after, or subject to, the approval of the redevelopment plan by the governing body of the municipality. Such real property shall be sold, leased or transferred at its fair value for uses in accordance with the redevelopment plan notwithstanding such value may be less than the cost of acquiring and preparing such property for redevelopment. In determining the fair value of real property for uses in accordance with the redevelopment plan, an authority shall take into account and give consideration to the uses and purposes required by such plan; the restrictions upon, and the covenants, conditions and obligations assumed by the redeveloper of such property; the objectives of the redevelopment plan for the prevention of the recurrence of slum or blighted areas; and such other matters as the authority shall specify as being appropriate. In fixing rentals and selling prices, an authority shall give consideration to appraisals of the property for such uses made by land experts employed by the authority.

"Sec. 47. An authority shall, by public notice, by publication once each week for two consecutive weeks in a newspaper having a general circulation in the community, prior to the consideration of any redevelopment contract proposal, invite proposals from, and make available all pertinent information to private redevelopers or any persons interested in undertaking the redevelopment of an area, or any part thereof, which the governing body has declared to be in need of redevelopment. Such notice shall identify the area, and shall state that such further information as is available may be obtained at the office of the authority. The authority shall consider all redevelopment proposals and the financial and legal ability of the prospective redevelopers to carry out their proposals and may negotiate with any redevelopers for proposals for the purchase or lease of any real property in the redevelopment project area. The authority may accept such redevelopment contract proposal as it deems to be in the public interest and in furtherance of the purposes of this act, providing that the authority has, not less than thirty days prior thereto, notified the governing body in writing of its intention to accept such redevelopment contract proposal. Thereafter, the authority may execute such redevelopment contract in accordance with the provisions of section 46 and deliver deeds, leases and other instruments and take all steps necessary to effectuate such redevelopment contract. In its discretion, the authority may, without regard to the foregoing provisions of this paragraph, dispose of real property in a redevelopment project area to private redevelopers for redevelopment under such reasonable competitive bidding procedures as it shall prescribe, subject to the provisions of section 46.
"Sec. 48. In carrying out a redevelopment project, an authority may:
"(1) Convey to the municipality in which the project is located, such real property as, in accordance with the redevelopment plan, is to be laid out into streets, alleys, and public ways;
"(2) Grant servitudes, easements and rights of way, for public utilities, sewers, streets and other similar facilities, in accordance with the redevelopment plan; and
"(3) Convey to the municipality, or other appropriate public body, such real property as, in accordance with the redevelopment plan, is to be used for parks, schools, public buildings, facilities or other public purposes.

"Sec. 49. An authority may temporarily operate and maintain real property in a redevelopment project area pending the disposition of the property for redevelopment, without regard to the provisions of sections 46 and 47, for such uses and purposes as may be deemed desirable even though not in conformity with the redevelopment plan.

"Sec. 50. An authority shall have the right to acquire by the exercise of the power of eminent domain any real property which it may deem necessary for a redevelopment project or for its purposes under this act after the adoption by it of a resolution declaring that the acquisition of the real property described therein is necessary for such purposes. An authority may exercise the power of eminent domain in the same manner and under the same procedure as now is or may be hereafter provided by law in the case of cities and towns. Property already devoted to a public use may be acquired in like manner: Provided, That no real property belonging to a city, town, county or the state may be acquired without its consent.

"Sec. 51. An authority shall have power to issue bonds from time to time in its discretion for any of its corporate purposes including the payment of principal and interest upon any advances for surveys and plans for redevelopment projects. An authority shall also have power to issue refunding bonds for the purpose of paying or retiring or in exchange for bonds previously issued by it. An authority may issue such types of bonds as it may determine, including bonds on which the principal and interest are payable:
"(1) Exclusively from the income, proceeds, and revenues of the redevelopment project financed with the proceeds of such bonds; or
"(2) Exclusively from the income, proceeds, and revenues of any of its redevelopment projects whether or not they are financed in whole or in part with the proceeds of such bond: Provided, That any such bonds may be additionally secured by a pledge of any loan, grant or contributions, or parts thereof, from the federal government or other source, or a mortgage of any redevelopment project or projects of the authority.

"Sec. 52. The bonds and other obligations of the authority (and such bonds and obligations shall so state on their face) shall not be a debt of the municipality or the state, and neither the municipality nor the state shall be liable thereon, nor in any event shall such bonds or obligations be payable out of any funds or properties other than those of said authority acquired for the purposes of this act. The bonds shall not constitute an indebtedness within the meaning of any constitutional or statutory debt limitation or restriction. Bonds of an authority are declared to be issued for an essential public and governmental purpose and to be public instrumentalities and, together with interest thereon and income therefrom, shall be exempt from all taxes.

"Sec. 53. Bonds of an authority shall be authorized by its resolution and may be issued in one or more series and shall bear such date or dates, be payable upon demand or mature at such time or times, bear interest at such rate or rates, not exceeding six per cent per annum, be in such denomination or denominations, be in such form either coupon or registered, carry such conversion or registration privileges, have such rank or priority, be executed in such manner, be payable in such medium of payment, at such place or places, and be subject to such terms of redemption (with or without premium) as such resolution, its trust indenture or mortgage may provide.

"Sec. 54. The bonds shall be sold at public sale held after notice published once at least ten days prior to such sale in a newspaper having a general circulation in the area of operation and in such other medium of publication as the authority may determine: Provided, That such bonds may be sold to the federal government at private sale at not less than par, and in the event less than all of the bonds authorized in connection with any project or projects are sold to the federal government, the balance of such bonds may be sold at private sale at an interest cost to the authority of not to exceed the interest cost to the authority of the portion of the bonds sold to the federal government. Any bonds issued pursuant to this act shall be fully negotiable.
“Sec. 55. In any suit, action or proceedings involving the validity or enforceability of any bond of an authority or the security therefor, any such bond reciting in substance that it has been issued by the authority to aid in financing a redevelopment project, as herein defined, shall be conclusively deemed to have been issued for such purpose and such project shall be conclusively deemed to have been planned, located and carried out in accordance with the purposes and provisions of this act.

“Sec. 56. In connection with the issuance of bonds or the incurring of obligations under leases and in order to secure the payment of such bonds or obligations, an authority, in addition to its other powers, shall have power:

“(1) To pledge all or any part of its gross or net rents, fees or revenues to which its right then exists or may thereafter come into existence;

“(2) To mortgage all or any part of its real or personal property, then owned or thereafter acquired;

“(3) To covenant against pledging all or any part of its rents, fees and revenues, or against mortgageing all or any part of its real or personal property, to which its right or title then exists or may thereafter come into existence or against permitting or suffering any lien on such revenues or property; to covenant with respect to limitations on its right to sell, lease or otherwise dispose of any redevelopment project or any part thereof; and to covenant as to what other, or additional debts or obligations may be incurred by it;

“(4) To covenant as to the bonds to be issued and as to the issuance of such bonds in escrow or otherwise, and as to the use and disposition of the proceeds thereof; to provide for the replacement of lost, destroyed or mutilated bonds; to covenant against extending the time for the payment of its bonds or interest thereon; and to covenant for the redemption of the bonds and to provide the terms and conditions thereof;

“(5) To covenant (subject to the limitations contained in this act) as to the amount of revenues to be raised each year or other period of time by rents, fees and other revenues, and as to the use and disposition to be made thereof; to provide for the replacement of lost, destroyed or mutilated bonds; to covenant against extending the time for the payment of its bonds or interest thereon; and to covenant for the redemption of the bonds and to provide the terms and conditions thereof;

“(6) To prescribe the procedure, if any, by which the terms of any contract with bondholders may be amended or abrogated, the amount of bonds the holders of which must consent thereto and the manner in which such consent may be given;

“(7) To covenant as to the use, maintenance and replacement of any or all of its real or personal property, the insurance to be carried thereon and the use and disposition of insurance moneys, and to warrant its title to such property;

“(8) To covenant as to the rights, liabilities, powers and duties arising upon the breach by it of any covenants, condition or obligation; and to covenant and prescribe as to events of default and terms and conditions upon which any or all of its bonds or obligations shall become or may be declared due before maturity, and as to the terms and conditions upon which such declaration and its consequences may be waived;

“(9) To vest in any obligees of the authority the right to enforce the payment of the bonds or any covenants securing or relating to the bonds; to vest in any obligee or obligees holding a specified amount in bonds the right, in the event of a default by said authority, to take possession of and use, operate and manage any redevelopment project or any part thereof, title to which is in the authority, or any funds connected therewith, and to collect the rents and revenues arising therefrom and to dispose of such moneys in accordance with the agreement of the authority with such obligees; to provide for the powers and duties of such obligees and to limit the liabilities thereof; and to provide the terms and conditions upon which such obligees may enforce any covenant or rights securing or relating to the bonds; and

“(10) To exercise all or any part or combination of the powers herein granted; to make such covenants (other than and in addition to the covenants herein expressly authorized) and to do any and all such acts and things as may be necessary or convenient or desirable in order to secure its bonds, or, in the absolute discretion of said authority, as will tend to make the bonds more marketable notwithstanding that such covenants, acts or things may not be enumerated herein.

“Sec. 57. An authority shall have power by its resolution, trust indenture, mortgage, lease or other contract to confer upon any obligee holding or representing a specified amount in bonds, the right (in addition to all rights that may otherwise be conferred), upon the happening of an event of default as defined in such resolution or instrument, by suit, action or proceeding in any court of competent jurisdiction:
“(1) To cause possession of any redevelopment project or any part thereof, title to which is in the authority, to be surrendered to any such obligee;

“(2) To obtain the appointment of a receiver of any redevelopment project of said authority or any part thereof, title to which is in the authority, and of the rents and profits therefrom. If such receiver be appointed, he may enter and take possession of, carry out, operate and maintain such project or any part thereof and collect and receive all fees, rents, revenues, or other charges thereafter arising therefrom, and shall keep such moneys in a separate account or accounts and apply the same in accordance with the obligations of said authority as the court shall direct; and

“(3) To require said authority and the commissioners, officers, agents and employees thereof to account as if it and they were the trustees of an express trust.

“Sec. 58. An obligee of an authority shall have the right in addition to all other rights which may be conferred on such obligee, subject only to any contractual restrictions binding upon such obligee:

“(1) By suit to compel said authority and the commissioners, officers, agents or employees thereof to perform each and every term, provision and covenant contained in any contract of said authority with or for the benefit of such obligee, and to require the carrying out of any or all such covenants and agreements of said authority and the fulfillment of all duties imposed upon said authority by this act; and

“(2) By suit to enjoin any acts or things which may be unlawful, or the violation of any of the rights of such obligee of said authority.

“Sec. 59. All public officers, municipal corporations, political subdivisions and public bodies; all banks, trust companies, savings banks, building and loan associations, savings and loan associations, and other persons carrying on a banking business; all insurance companies, insurance associations, and other persons carrying on an insurance business; and all executors, administrators, trustees, and other fiduciaries may legally invest any funds belonging to them or within their control in any bonds or other obligations issued by an authority pursuant to this act for redevelopment purposes, when such bonds and other obligations are secured by a contract for financial assistance to be paid by the federal government or any agency thereof and such bonds and other obligations shall be authorized security for all public deposits. This section shall not apply to the permanent school fund.

“Sec. 60. "Sec. 68. This act is necessary for the immediate preservation of the public peace, health and safety, support of the state government and its existing public institutions and shall take effect immediately."

Mr. Cory moved the adoption of the following amendment:

Amend the bill immediately after section 67 by adding a new section to be known as section 68 to read as follows:

"Sec. 68. Any second, third or fourth class city or town may operate street level parking lots, and for the purposes of acquisition and improvement thereof, may use any available funds, but if such funds are obtained from any source other than funds available for traffic control and regulation, they shall be repaid to the fund of origin from any revenues derived from the operation of the lot. The establishment of any such lot prior to the effective date of this act is validated and confirmed."

Amend the bill further by renumbering section 68 to read "Sec. 69."
Mr. Roderick:
"Mr. Speaker, I raise the question that the amendment is not germane."

The Speaker:
"The Speaker is of the opinion that the amendment is germane."

Mr. Carmichael demanded the previous question and the demand was sustained.

The motion by Mr. Cory was carried and the amendment was adopted.

Mr. Miller (Floyd C.) moved that the following amendment be adopted:

Strike all the matter after section 15, being House amendment by Representative Roderick, adopted March 6, 1951, and insert in lieu thereof the following:

"Sec. 16. It is hereby declared: There exists in cities and counties in the state serious conditions of congestion and street traffic, preventing free circulation of traffic, obstructing access to and use of both public and private property, increasing traffic hazards, impeding rapid and effective fighting of fires and the disposition of police forces and endangering the public peace, health and safety. This condition is caused in substantial part by insufficiency of space or accommodations for the parking of motor vehicles off the public streets. The supplying of additional parking facilities and the performance of all undertakings incidental or advantageous thereto are declared to be public uses and purposes for which public money may be spent and private property acquired and are governmental functions. It is in the public interest that work on projects for such purposes be commenced as soon as possible in order to relieve traffic congestion and the necessity in the public interest for the provisions hereinafter enacted, is hereby declared as a matter of legislative determination.

"Sec. 17. The following terms, wherever used or referred to in this chapter, shall have the following respective meanings, unless a different meaning clearly appears from the context:

"(1) 'Municipal corporation' or 'municipality' shall mean any city, town, or county;

"(2) 'Legislative body' shall mean the body in which the general legislative powers of a municipal corporation are vested;

"(3) 'Project' shall mean any acquisition, improvement, construction, or undertaking of any kind authorized by this chapter;

"(4) 'Parking facilities' shall mean motor vehicle parking lots, garages, parking meters, and any other facilities necessary or incidental to the regulation, control, and parking of motor vehicles, whether above, at, or below the surface of the earth.

"Sec. 18. Any municipality is authorized to acquire, own, construct, equip, manage, control, erect, improve, extend, maintain, and operate, subject to the provisions of sections 45 and 46 hereof, parking facilities as the legislative body may from time to time find the necessity therefor exists, and for that purpose may acquire property of any kind.

"Sec. 19. Any municipality is authorized for the purposes of this chapter to acquire sites, buildings, and facilities by gift, lease, contract, purchase, or condemnation under power of eminent domain, in accordance with the applicable principles of the law of eminent domain and to pledge the revenues thereof for the payment of any bonds issued for such purposes as provided in this chapter.

"Sec. 20. Any municipality is authorized to borrow money and/or issue and sell revenue and/or special assessment bonds in such amount or amounts and on such terms and conditions as the legislative body thereof may determine for the purposes of this chapter, and to refund and refinance the same from time to time as often as it shall be advantageous and to the public interest to do so.

"Sec. 21. Any municipality is authorized to finance the acquisition of parking facilities by the issuance of special assessment bonds as hereinafter provided.

"Sec. 22. Any municipality is authorized to maintain, improve, extend, and operate any such parking facilities and to charge for the use thereof, subject to the provisions of sections 45 and 46.

"Sec. 24. Any municipality is authorized by ordinance to appoint a parking commission or commissions to administer the operation of any or all of its parking facilities.
and to exercise any and all of the powers herein vested in municipalities except the exercise of the power of eminent domain, the issuance of bonds and the establishment and operation of special assessment districts.

"Sec. 25. Any municipality is authorized to insure or provide for the insurance of any property acquired and to insure against liability arising during operation of such property by the municipality under the provisions of this chapter.

"Sec. 26. Any municipality is authorized from time to time, subject to its fiscal law, to appropriate such amounts from any available fund as shall be necessary to defray preliminary planning, engineering, economic surveys and administrative expense. Money to acquire off-street parking facilities may be advanced by the municipality from any available fund and shall constitute loans from such fund to be repaid out of revenues derived from the project or out of the proceeds of such bonds as may be issued in connection therewith.

"Sec. 27. All parking facilities shall be subject to the planning, zoning, sanitary, and building laws, ordinances and regulations applicable to the locality in which the parking facility is situated.

"Sec. 28. Any municipality, or planning commission, or parking commission thereof shall, upon request by the legislative body, formulate a master plan of public automobile parking facilities as a guide for the future provision of parking facilities properly integrated with present and proposed traffic facilities, subject to alteration as may be necessary. This master plan of parking facilities shall consist of a map showing proposed location and provisions for parking facilities, together with a general program of construction and general methods of financing of off-street parking facilities. A master plan of parking facilities may propose parking lots improved or unimproved, single or multi-level garages, above or under ground, and other structures, or combination of any of these features. The state highway department shall prepare a manual on planning for off-street parking facilities for the use of the legislative authority, planning commission, and parking commission of any county, city or town.

"Sec. 29. The legislative authority of any municipality availing itself of the provisions of this chapter shall adopt an ordinance describing in a general way any contemplated project and refer to plans and specifications therefor, which shall be placed on file in the office of the clerk of such municipality, and which shall be open for the inspection of the public. Such ordinance shall state the estimated cost of such project, and shall state in detail the proposed method of financing it.

"Sec. 30. Prior to its adoption, such ordinance shall, in its proposed form, be published once in a newspaper having general circulation within the community, together with a notice of the time and place of a regular meeting of the legislative body, where and when the public may be heard concerning its adoption. Such public hearing shall not be held sooner than ten days after the date of publication of the notice.

"Sec. 31. Within the discretion of the legislative body, any such hearing may for good cause be continued to a subsequent meeting.

"Sec. 32. Upon the adoption of such ordinance, the municipality may proceed to borrow money in the manner herein provided.

"Sec. 33. Any revenue bonds issued under the authority of this chapter may be sold by the legislative body in such manner as it deems best in the public interest: Provided, however, That such bonds shall be sold at such price that the interest cost of the proceeds therefrom will not exceed six per cent per annum, based on the average maturity of such bonds, and computed according to standard tables of bond values.

"Sec. 34. Revenue bonds shall be payable solely from the revenues to be derived from the operation of any or all of the parking facilities of a municipality including such portions of the on- and off-street parking meter revenues as may be determined by the legislative body and shall be secured by a pledge of such revenues.

"Sec. 35. Each bond shall state upon its face that it is payable solely from the revenues pledged therefor by the legislative body, and that it does not constitute a general obligation of the municipality within the meaning of any constitutional or statutory limitation or provision.

"Sec. 36. Revenue bonds issued under this chapter and the interest or income therefrom, are exempt from all taxation other than gift, inheritance, and estate taxes.

"Sec. 37. Bonds issued under the chapter shall be legal investments for both public and private funds, except the permanent school fund.

"Sec. 38. Revenue bonds issued under the provisions of this chapter are negotiable instruments, except when registered in the name of a registered owner.
"Sec. 39. The provisions of this chapter and of any ordinance, resolution, or proceeding authorizing the issuance of revenue bonds under this chapter shall constitute a contract with the holders of such bonds, and any holder of a bond, or coupon thereof, may either in law or in equity, by suit, action, mandamus, or other proceeding, enforce and compel the performance of all duties and conditions imposed by this chapter, including the making and collecting of sufficient charges and fees for service and use of any parking facilities and the application of income and revenue thereof.

"Sec. 40. Any parking facility may be financed in whole or in part by the issuance of special assessment bonds under the laws providing for eminent domain and local improvements by counties and cities, and in all instances the real property within the boundaries of such local improvement district shall be assessed in accordance with special benefits.

"Sec. 41. Whenever under eminent domain proceedings the whole or any part of the cost is to be assessed against the property specially benefited, proceedings shall not be undertaken until the engineer or other officer of the municipality to be designated by the governing body shall have prepared an estimate of the cost, showing an estimate as to the property which may be included in the assessment district and the amount which may be assessed against each separate parcel of land. When such estimate is filed with the governing body, a written notice shall be mailed to each property owner at the address shown on the rolls of the county treasurer, showing the total estimated cost and the amount which may be assessed against each parcel of property as shown on the estimate filed. A hearing shall be held before the governing body on the question of instituting eminent domain proceedings for the acquisition of the property, and notice thereof, giving the time and place of hearing, shall be contained in the notice mailed to the property owners. The hearing shall be held not earlier than two weeks after the notices are mailed to property owners. No eminent domain proceedings shall be authorized or instituted if within ninety days following the decision of the governing body on the question the owners who will pay at least fifty-one per cent of the cost of the acquisition of the land as shown on the estimate filed, shall file with the governing body written objections to such proceedings.

"Sec. 42. Whenever the physical improvement of any project is to be financed by special assessments, the governing body shall adopt a resolution proposing such improvement, describing the location of the property and the improvement proposed, and giving the same a project number. Such resolution shall outline the boundaries of the proposed assessment district, which shall include all property which will be specially benefited by the improvement. Upon adoption of the resolution the governing body shall require the engineer or some other official of the municipality to be designated by the governing body, to prepare preliminary plans, maps and specifications showing the outline of the boundaries of the assessment district, the nature of the proposed improvement, buildings or structures thereon, or to be placed thereon, and an estimate of the aggregate cost thereof. The engineer or other officer shall also prepare a preliminary assessment roll upon which shall be shown the name of the owners interested in each parcel of land to be included in the assessment district, with the amount of the estimated assessment to be levied against such parcel of land. The cost of preparation of such maps, plans, estimates and assessment rolls may be advanced from any available funds of the municipality, and may be included in the amount of the assessments against the property but shall be repaid as the assessments are collected. When such plans, maps, estimates and preliminary assessment rolls are filed with the governing body, such body shall cause notice to be given to each of such owners by mailing to such owners at the address shown on the records of the county treasurer a notice that a hearing will be held not earlier than two weeks after the mailing of the notice before the governing body at a time and place specified in the notice. No physical improvement shall be ordered or authorized if within ninety days following the decision of the governing body property owners who will pay at least fifty-one per cent of the cost as shown on the preliminary assessment roll shall file with the governing body written objections to such improvement.

"Sec. 43. Except where such laws are clearly inconsistent with the provisions of this chapter, the laws pertaining to local assessment districts and eminent domain procedures in cities shall apply to all proceedings for the establishment of special assessment districts under the provisions of this chapter and to the levying and collection of assessments, and the issuance of special assessment bonds.

"Sec. 44. No property being used as facility or facilities for the parking and/or storing of motor vehicles shall be acquired by eminent domain by a municipality under
The legislative body shall lease all parking facilities acquired for not less than a minimum rental fee to the highest bidder after notice, which shall consist of the publication of a notice, inviting bids, by two or more insertions thereof, not less than five days apart, in a newspaper of general circulation published in such municipality in the English language, which publication shall be commenced not less than fifteen days prior to the date fixed in the notice for the opening of bids; or if there be no newspaper of general circulation published therein, by posting copies of said notice inviting bids in at least three public places in the municipality, not less than fifteen days prior to the date set in the notice for the opening of bids. Such notice shall distinctly and specifically describe the project and the facilities in connection therewith which are to be leased, the period of time for which said project is to be leased and the minimum rental to be paid under such lease, and the bid bond or its equivalent required to be posted by each bidder: Provided, That cities having a population of twenty thousand or less may operate street level parking lots without first calling for bids, and for the purposes of acquisition and improvement thereof, may use any available funds, but if such funds are obtained from any source other than funds available for traffic control and regulation, they shall be repaid to the fund of origin from any revenues derived from the operation of the lot. The establishment of any such lot prior to the effective date of this act is validated and confirmed: Provided further, That the competitive bidding requirements of this act shall not apply to any municipality which shall grant to the operator of any facility a long term negotiated lease upon the condition that the tenant-operator shall construct a substantial portion of the improvements of the facility, which improvements shall become the property of the municipality upon expiration of the lease.

If no bid for at least the minimum rental is received for the lease of the parking facility, the legislative body may reject all bids and readvertise or may operate such project itself. In the event the municipality elects to so operate such project, it must readvertise for bids in the manner hereinabove provided at least once every three years at such minimum rental as it may then prescribe.

Parking facilities shall be used only for the parking of motor vehicles and for the sale of gasoline, oil, lubrication and minor automotive accessories: Provided, That not to exceed ten per cent of the area of any parking facility may be rented or leased to private persons for business or commercial purposes not incidental to or connected with the above prescribed uses: Provided further, That a municipality operating a parking facility shall not engage in the service station business but shall lease such facilities, if any, to private operators.

The legislative body may fix the rates, fees, and all other charges to be made for parking and shall make the same a part of any lease entered into. Subject to such contractual obligations as may be entered into by the municipality and the holders of the revenue bonds issued under this chapter, the legislative body is authorized to change such rates, charges, and fees from time to time as conditions warrant, but they shall not be changed during the first year of any lease: Provided, That nothing contained in this chapter shall prevent a municipality from affording free off-street parking facilities to its employees during working hours.

All rates, fees, and charges shall be at all times fixed to yield annual revenue which, together with other revenue, shall be at least equal to annual operating and maintenance expenses, including insurance costs and all redemption payments and interest charges on the revenue bonds at any time issued and outstanding in connection with the project of which such facilities are a part as the same become due.

If the state is the owner or possessor of any real property which is desired by any municipality for use as a parking facility, such property may be leased to the municipality, in the discretion of the appropriate state department or agency exercising control over the property.

No property acquired under the provisions of this chapter shall be sold unless the legislative body shall find that it is no longer reasonably usable for off-street parking purposes.

If any section, provision, or clause of this chapter shall be declared invalid or inapplicable to any circumstance, such invalidity or inapplicability shall not be

SENATE AMENDMENTS TO HOUSE BILL

Senate Chamber,
Olympia, Wash., March 5, 1951.

Mr. Speaker:
The Senate has passed: Engrossed House Bill No. 557; with the following amendments:

Amend the engrossed bill by renumbering section 3 as section 4, and inserting after section 2 the following:

"Sec. 3. No public utility district or combination of public utility districts shall have the power, directly or indirectly, to acquire any interest in any electric utility distribution properties located in any city of the first class having a population of over one hundred thousand, which is not within a public utility district, without the consent of the voters of such city. Whenever such district or districts shall submit a proposal to acquire such properties, including the terms and consideration, to the council of such city, the council shall within sixty days or as soon as legally permissible thereafter submit the question of consenting to said proposal to the voters of the city at a special election called for that purpose and such election shall be decided by a majority of those voting on the question."

Amend the title of the engrossed bill by striking everything after the words "An Act" and inserting in lieu thereof the following:

"Relating to electric utility properties; permitting first class cities and county-wide public utility districts to acquire by purchase or condemnation certain electrical properties within their boundaries; restricting purchases by public utility districts of electric utilities located in first class cities, and declaring an emergency."

and the same is herewith transmitted.

Herbert H. Steiler, Secretary.

Debate ensued.

Mr. Woodall moved that the House do concur in the Senate amendments to Engrossed House Bill No. 557.

**RULING BY THE SPEAKER**

"The gentleman from Yakima moves that the House do concur in the Senate amendments. The positive motion has precedence. The question before the House is the motion by Mr. Woodall that the House do concur in the Senate amendments to Engrossed House Bill No. 557."

Debate ensued.

**PERSONAL PRIVILEGE**

Mr. Simmons:

"Mr. Speaker, I would like to speak momentarily on a point of personal privilege. I feel that my motives, as well as others of us sitting here, have been impugned, apparently from the public power and the private power viewpoints. It is a very pitiful situation because I have friends, they have been very good friends of mine, but I am afraid under the circumstances I am going to have to step on some toes. I was contacted several times in the past few days relative to coming out in favor of this amendment that is on this bill. This morning I have here slip number one, a note sent in to me asking me to come to the door, which I did. I contacted the individual and a proposition was made to me. Likewise, it was followed up with note number two. I would like to read you from a piece of paper. I followed this up. I do not think it is the tactics with which we are going to pass legislation in the State of Washington. This reads, 'I was called out of the office and was asked by Mr. Simmons and Mr. Iversen to take some notes. We went to committee room 7 and they asked me to sit behind the bookcase and take down a conversation between Mr. Simmons and a certain party that was to be in that room in five minutes. Five minutes later Mr. Simmons entered with a man accompanying him. Opening the conversation, Mr. Simmons talked for a few minutes. He was told that some big organizations paid as much as three hundred to five hundred dollars for certain votes. This man stated that he was for a certain bill and that if he could receive two more votes for the bill he would pay twenty-five dollars apiece for these votes. Mr. Simmons then asked him if he would give the money before he voted and the man said, 'Yes.' Mr. Simmons then asked him if he was digging in his own pocket for the money. He said he was representing them from over there and that they would pay for it. Mr. Simmons then asked the man, 'How is your name pronounced?' The man said "Uleman," and then spelled it out for Mr. Simmons. Mr. Uleman went on to say he had fifty votes lined up, but wanted to be on the safe side and have a few extras, and if he would see to it personally—if Mr. Simmons had Reuben vote his way, he would get the money right away. He said he didn't contact Reuben because he knew how he felt, but if Mr. Simmons would get Reuben to change his vote, he would be grateful and take care of him. Mr. Simmons said he'd better be going so they left. After they left I got up, came back downstairs, and started typing.'

"Here are the following words verbatim of the words spoken in that meeting:

"'I will see you are not forgotten if you vote "Yes" on this bill and will give you twenty-five dollars before four o'clock. If you get Reuben to vote "Yes," he will get twenty-five dollars. That's twenty-five bucks apiece. No individual is digging this money out of his own pocket. I represent them over there and will get the money from them.' The question was asked, 'How do you pronounce your name?' 'My name is Uleman. Yes, I know it is a hard name to pronounce. U L E M A N, that's how it is spelled.' Those are the actual remarks.

"Now since that time, note number three came in. 'I would like to see you in the lounge a moment,' and it is signed, 'together with Mr. Knoblauch.' I went into that lounge about ten minutes ago and asked the question of the individual, 'What is the deal?' The individual said, 'There are two envelopes and there will be twenty-five dollars in each of them for each of you if you will go out on the floor and cast your
vote "Yes"." I asked the question, 'Who's money is this?' The reply was, 'This is not my money; it is the Spokane power money.'

"Now I ask you, ladies and gentlemen, is that the way we are going to pass legislation on the floor of the House of Representatives? I object to this type of tactics and I know everyone of you do. It is too bad. It is pitiful. I certainly can't condemn everyone for that type of tactics, but somebody had better clean house. I urge you to consider this deeply, consider it intelligently. I am not here to discuss the merits of the bill. I am here to discuss the merits of these tactics used to pass legislation in the House of Representatives for the people of the State of Washington."

The Speaker called on Mr. Ford to preside.

The Speaker (Mr. Ford presiding):

"The gentleman from Stevens, Mr. Hodde."

Mr. Hodde:

"Ladies and gentlemen:"

"This is probably the most serious moment that has been before this legislature since I have served in the House. The statement that has been made by Mr. Simmons is going to be followed up and, if it is to end up in Walla Walla, that's where it will end. If there are those people who think they can come to a legislature and buy votes for twenty-five dollars, or twenty-five thousand dollars, that fact has got to be disproved right away if democratic government is going to survive. I am sure Mr. Simmons would not make such a statement unless he is able to produce the individuals, secure affidavits and appear in court to back up such statements. His statements are the most serious that can be made.

"The first thing I want to do is to assure everybody in this House that personally I feel more strongly than I can possibly express myself. Any individual who thinks he can buy votes in this House has certainly underestimated the calibre of the people that serve in the House of Representatives. I think it is extremely unfortunate that a matter of this kind, which should be settled on its merits purely, should be covered up by the lobbying tactics that have gone on in this legislature, particularly the last two or three days. I had hoped we would be able to dispose of the matter without it becoming as potent a problem as it now has become. It is extremely difficult for anyone to vote his convictions under circumstances of this kind and without being accused of being under duress from one side or the other. But big men, grown men, honest men and able men have come into my office today and cried because of the pressure they were under—actually cried like a child. And, I said, 'We'll stop this! We'll have a vote on that bill and, if there have been bribes offered, we'll take it out to the floor of the House. We'll produce every name connected with it and we'll clean up this business.' If this session of the legislature does nothing more, let's prove to this state that irrespective of the results, votes are not going to be bought in the legislature in the State of Washington. Big men and honest men—the kind of men that make sacrifices to serve the public—are not going to suffer the indignity of being offered bribes, put in impossible positions where they have to sacrifice friendships of long standing, or make enemies of new friends.

"I don't know just how to approach this situation in so far as disposing of the business that is now before the legislature. I don't see how anybody can vote honestly and without prejudice in a circumstance like this. We'll have to conclude the business because there will be charges and counter-charges after this session. I find it practically impossible to argue on the merits of the propositions that are before us, but I want to point out one thing and that is that the tactics that have been used make it practically imperative that the matter at hand be handled with as little further argument as possible. I don't think anybody is particularly interested and I don't feel that any votes are going to be changed by arguing on the merits of the question. If votes have been changed because some person has erred and committed a grave offense in an attempt to bribe a legislator, then that is the fault of the people who err.

"I should make it further clear that it is not my opinion that the officials of the various power companies, cities, towns, or individuals sponsoring this legislation are engaged in any conspiracy of this type. I am not trying to convict anybody on the floor of the House and had this incident been a lone one, which Mr. Simmons had the nerve to get up and expose, I would not be as concerned as I am today. But I assure you that I have evidence which will be turned over to the authorities which will show this
is not a lone incident and that there has been considerable pressure on members of the legislature.

"I hope, ladies and gentlemen, that in disposing of this matter, you will vote as you would have voted before this matter was exposed."

PERSONAL PRIVILEGE

Mr. Knoblauch:

"My name was brought up in this discussion, Mr. Speaker, and I think I have a right to say what I know, too."

The Speaker (Mr. Ford presiding):

"The Speaker will rule that you do have, Mr. Knoblauch."

Mr. Knoblauch:

"Members of the House:

This is not the first session that I have sat here with some of you folks. None of you have ever had any right or any cause to question my honesty or my sincerity. Now, I want to tell you that a few minutes ago, Mr. John Uleman, who happens to be from my district, called me to the lounge along with Mr. Simmons and made the offer that if I voted for the bill, he would see that I received twenty-five dollars in an envelope after the vote was made. I don't care if he offered me twenty-five thousand dollars, I'm here to honestly represent my district and I'm not going to go home with any such dirty deals on my hands."

PERSONAL PRIVILEGE

Mr. Jones (W. Kenneth):

"I feel my motives have been impugned here, too, and I feel I am entitled to speak. After all, I am the only one who has spoken, thus far, in favor of this issue and if anyone is questioning my honesty or anything connected with it, then I resent it, also. There has never been anyone who had any reason to question my honesty. I want it to be known that whoever this man is that Mr. Simmons has named, I did not even know that such a man existed. I never heard his name before. I have never met him. I know nothing about him. He may represent my group. I don't know. We know nothing about it. I do not think that this matter should even enter into the consideration here because it is entirely possible that this man may be some individual who has just done this on his own. We don't know. If anyone has impugned my motives, I can only say I don't like it."

PERSONAL PRIVILEGE

Mr. Woodall:

"Mr. Speaker, Ladies and Gentlemen of the House:

I am just as sorry as Mr. Hodde is that anything of this nature has had to happen. It is extremely regrettable because there are always those who, when some matter of major importance is up, bring up the question whether or not someone is being paid for his or her vote. You heard some reference made only yesterday when considering another bill, that possibly some people might have had their votes influenced. Now, I don't know who this man, Uleman, is. I can only say this: One, he is obviously a very stupid mortal. For the first reason, if he had any sense at all, to attempt to buy anybody or anything for twenty-five dollars, he certainly is placing a very, very small price on that particular man's honesty. He is, indeed, a most stupid soul.

We all know that on many of these matters, interested people send persons down here to contact legislators in different ways. We all know that there isn't a person here who hasn't attended a dinner at some time or other at the expense of some particular group of people. We know that there are lobbyists who entertain people in their rooms. Now, whether or not some stupid soul with money which had been given him for legislative expenses: thought he could buy somebody for twenty-five dollars, I don't know. But, I agree with Mr. Jones. I think this has no place in the consideration on this particular matter. The mere fact that some stupid mortal did something he shouldn't have done, should not influence anyone's vote here today; and, as Mr. Hodde said, if the courage of our convictions happens to be on a certain line, we should definitely hold to that line; and, the mere fact that someone made a fool out of himself and committed a crime and ought to be prosecuted for it, and I definitely agree to that, should not alter your ideas."
Extensive debate ensued.

The Speaker (Mr. Ford presiding) declared the question before the House to be the motion by Mr. Woodall that the House do concur in the Senate amendments to Engrossed House Bill No. 557.

Debate ensued.

Mr. Zent demanded the previous question and the demand was sustained. Mr. Woodall demanded a roll call and the demand was sustained.

The Clerk called the roll on the motion by Mr. Woodall that the House do concur in the Senate amendments to House Bill No. 557, and the motion was lost by the following vote: Yeas, 44; nays, 55; absent or not voting, 0.

Those voting nay were: Representatives Adams, Anderson (Eva), Bailey, Beierlein, Bernethy, Brown (Henry A.), Carmichael, Carty, Connor, Cooney, Dootson, Ford, Forrest, Gallagher, Giboney, Hallauer, Hansen, Henry (Al), Henry (Edward E.), Hess, Hofmeister, Holliday, Hoopingarner, Huhta, Johnson (Charlie), Jones (John R.), King, Knoblauch, Kupka, Lester, Mardesich, McLean, Miller (Clyde J.), Miller (Floyd C.), Morris, Nunamaker, O'Brien, Olsen (Ray), Olson (Ole H.), Paulsen, Pedersen, Rasmussen, Ridgway, Roderick, Sandison, Savage, Simmons, Testu, Vane, Wedeking, Wenber, Wintler, Young, Zent, Mr. Speaker—55.

**MOTION**

Mr. Hodde moved that the House refuse to concur in the Senate amendments to Engrossed House Bill No. 557 and that the Senate be asked to recede therefrom.

**MOTION FOR RECONSIDERATION**

Mr. Zent:

"Having voted on the prevailing side, I serve notice of reconsideration, and move that we do now reconsider the vote by which the House failed to concur in the Senate amendments to Engrossed House Bill No. 557."

**POINT OF ORDER**

Mr. Hodde:

"Point of order, Mr. Speaker. A legitimate motion was presented first and will have to be voted on before the motion to reconsider will be in order."

**RULING BY THE SPEAKER**

The Speaker (Mr. Ford presiding):

"The Chair will rule that Mr. Zent's motion is out of order."

**POINT OF ORDER**

Mr. Woodall:

"Point of order, Mr. Speaker. A motion to reconsider is in order while the matter is still before the House."

**RULING BY THE SPEAKER**

The Speaker (Mr. Ford presiding):

"If Mr. Hodde's motion carries, then a motion to reconsider is out of order."

Debate ensued.

The motion by Mr. Hodde was carried on a rising vote.
POINT OF INFORMATION

Mr. Zent:
"Have I the right to spread on the Journal my reason for voting as I did?"

The Speaker (Mr. Ford presiding):
"That right will be granted, Mr. Zent."

EXPLANATION OF VOTE

Mr. Zent submitted the following explanation of his vote:
"I voted against concurrence with the Senate amendments to Engrossed House Bill No. 557 for the sole purpose of moving for reconsideration of the vote."

The Speaker resumed the Chair.
The Speaker declared the House at ease.
The Speaker called the House to order.
Mr. Zent raised the question of a quorum.
The Clerk called the roll on the question of a quorum and the following absentees were noted: Representatives Adams, Carmichael, Clark, Gordon, Henry (Edward E.), Hillyer, Hoefel, Hofmeister, Holliday, Jones (John R.), Jones (W. Kenneth), Lester, McLean, Neill, Powell, Shadbolt, Testu and Timm.

POINT OF ORDER

Mr. Henry (Edward E.):

"Mr. Speaker, I rise to a point of order. The amendment by Mr. Comfort is not germane."

Debate ensued.

RULING BY THE SPEAKER

The Speaker:

"The Speaker, after a brief perusal of the amendment, is of the opinion that the amendment deals with the regulating of certain agencies which indirectly derive at least twenty per cent of their income from grants. It seems to the Speaker that the amendment is not germane to Senate Bill No. 153 because the subject matter of the bill only provides for a method of holding and disbursing federal funds. The Speaker will rule the amendment is not germane."

On motion of Mr. O'Brien, the rules were suspended, Senate Bill No. 153 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

RECONSIDERATION

Mr. Hurley moved that the House now reconsider the vote by which Senate Bill No. 362, as amended by the House, passed the House.

Debate ensued.

The motion was carried on a rising vote.

The Speaker declared the question before the House to be the final passage of Senate Bill No. 362, as amended by the House.

Mr. Hurley moved that the rules be suspended and Senate Bill No. 362 be returned to second reading for the purpose of amendment.

Debate ensued.

The motion was carried on a rising vote.

The Speaker called on Mr. Ford to preside.

SECOND READING OF BILLS

Senate Bill No. 362 was re-read the second time by sections.

Mr. Hurley moved the adoption of the following amendment:

Amend the bill by adding at the end thereof the following:

It shall include within its scope the following:

(1) A children's institution is defined as an establishment which is maintained and operated for the group care of children and which may accept custody and responsibility as required for the welfare of children under care. It shall not apply to any boarding school which is essentially and primarily engaged in educational work characterized by having education as its only function, operating on a definite school year schedule, following a stated academic curriculum, accepting only school-age children, and not accepting custody of children.

educational work with preschool children whose parents send the child to the nursery school only for education, the child not being in need of substitute parental care.

"(5) A shopping or hourly nursery is an agency which has the facility for providing care for children on an hourly basis, with the primary objective of providing a few hours of care and supervision of such children during the period when parents are shopping or keeping appointments.

"(c) A foster home is defined as a private home which is operated to provide care for a child, or children, or an unmarried mother, either before or after confinement, in lieu of their own homes.

"Sec. 5. Powers and Duties of Department. The Department shall have the power and it shall be its duty through the staff of the Department, which staff shall be specialized in services for children and shall work under the direction of the Director of the Department:

"(a) To establish and publish standards governing the operation of any agency as defined herein, which standards shall be based upon the following principles:

"(1) That the practices and policies of the agency shall not be detrimental to the health, safety, physical and mental well-being of the children cared for by the agency;

"(2) That the agency, or the persons charged with the active management thereof, shall be persons of good character;

"(3) That the agency shall employ sufficient persons qualified by education or experience in the field in which such agency operates to render the type of care necessary to the health, safety, physical and mental well-being of the children cared for;

"(4) That the agency has the necessary physical facilities for accomplishing the purpose for which the agency operates.

"(c) To consult with agencies regarding their practices and policies and to make recommendations for the improvement of such practices and policies and to assist such agencies by advice in effecting such improvements.

"Sec. 7. The Department shall have the power and the duty in the event it determines that an agency is not complying or has not complied with this act or the standards established hereunder:

"(a) To notify said agency of the determination of the department of the specific practices or policies which constitute such failure and to hold a hearing for the purpose of determining whether said agency is complying with the provisions of this act and the standards published hereunder, which notice shall be in writing and shall be served upon the agency or its proper officers personally or by registered mail, and which notice shall set a hearing date which shall be not less than twenty days from the date of service or mailing of said notice. Said hearing shall be held before the supervisor of children's services of the Department in the county wherein the agency concerned is located. Within fifteen days after the conclusion of said hearing, the Director shall notify the agency of the determination of the Director, based on the findings of the supervisor of children's services, as to whether the agency is or is not complying with the provisions of this act and the standards set forth hereunder.

"(b) In the event the Director determines that said agency is not complying with the requirements as above set forth, the agency shall have a period of thirty days within which to comply, at the expiration of which, if the agency has not so complied, the Director shall file with the prosecuting attorney of the county in which said agency is located, formal complaint stating the manner in which said agency has failed to comply with the provisions of this act and the standards published pursuant to this act, and it shall be the duty of said prosecuting attorney forthwith to charge said agency with such failure and to institute proceedings in the superior court of said county to enjoin said agency from further activity in the field in which it operates.

"Sec. 8. A copy of the articles of incorporation or amendment of the articles of existing corporations for agencies, societies, associations, institutions or persons organized for the protection and care of children away from their own homes and for the placement of such children in family homes or in child care institutions to provide temporary or continued care for such children, shall be sent to the Department of social security at the time such articles are filed with the secretary of state.

"Sec. 9. Duties of Child Care Agencies and Institutions. It is the duty of all agencies, societies, associations, institutions, or persons caring for children, pursuant to this
act, to accord the Department or its agents the right of entrance, privilege of inspection, and access to its records of work for the purpose of ascertaining the kind and quality of work done and of obtaining a proper basis for its recommendations. The Department and its agents shall advise agency and institution boards and staff in regard to approved methods of child care, the best types of housing and institutional equipment, and adequate records of agency and institutional work. The principal purpose of such visitation shall not be to present official demands for adherences to the provisions of the law, but to offer counsel on child welfare problems and to advise concerning progressive methods and the improvement of the service rendered.

"Sec. 10. Certification of Foster Homes. The Department shall have the power and it shall be its duty through the staff of the Department specialized in services to children and working under the direction of the Director of the Department:

"(a) To establish and publish standards and rules and regulations governing the issuance of certificates of approval to foster homes in which the Department or its agents may place minor children or unmarried mothers for temporary or continued care, taking into account the following principles:

"(1) That the applicant for a certificate of approval as a foster home is a person of good character;

"(2) That the foster home care of the applicant will provide adequately for the promotion of the health, safety, physical and mental well-being of the child or children to be cared for by the applicant.

"(b) To issue certificates of approval to foster homes meeting the standards for temporary or continuing care of minor children or unmarried mothers either directly or through the county welfare departments acting for the Department or in cooperation with licensees of the Department as prescribed by rules and regulations.

"(c) To inspect and supervise all approved foster homes to enforce the application of such standards.

"(d) To revoke or suspend the certificate of approval of any foster home which has failed or refused to comply with the provisions of this act or the rules and regulations promulgated pursuant to this act.

"Sec. 11. Savings Clause. If any portion or portions of this act shall be declared unconstitutional such adjudication shall not affect the remaining portions of this act."

Debate ensued.

Mr. Paulsen moved that the following amendment to Mr. Hurley’s amendment be adopted:

Strike the whole of Mr. Hurley’s amendment and insert in lieu thereof the following:

"Sec. 4. For the purpose of this act, unless otherwise clearly indicated by the context, the terms used shall have the following meanings:

"(b) The term ‘director’ as used herein means the director of the state department of social security.

"(c) The term ‘children’s staff’ as used herein means personnel of the department specially qualified in and responsible for the direction of services for children.

"(d) The term ‘agency’ as used herein is defined as any person, firm, association or corporation, or any private institution, but not including foster homes, which receives for control, care, placement or maintenance, minor children, and not including in the case of an individual, children related to such persons or under guardianship, but shall include within its scope the following:

"(1) A children’s institution is defined as an establishment which is maintained and operated for the group care of children or which may accept custody and responsibility as required for the welfare of children under care. It shall not apply to any boarding school which is essentially and primarily engaged in educational work characterized by having education as its only function, operating on a definite school year schedule, following a stated academic curriculum, accepting only school-age children, and not accepting custody of children.

Its primary function is to give care and supervision to children in need of supplemental parental care during the day whose own families are unable to provide this daytime care. A day nursery shall not mean a nursery school which is essentially and primarily engaged in educational work with preschool children whose parents send the child to the nursery school only for education, the child not being in need of supplemental parental care.

(5) An hourly nursery is an agency which has the facility for providing care for children on an hourly basis, with the primary function of providing a few hours of care and supervision of such children during the period when parents are shopping or keeping appointments: Provided, That nothing in this act shall be construed to cover the occasional care of a neighbor's, relative's or friend's child or children with or without monetary consideration or where the person does not regularly engage in such activity or where parents on a mutually cooperative basis exchange care of one another's children. (c) To inspect and evaluate all applicants or licensees to determine whether or not there is compliance by such applicant or licensee with the applicable rules and regulations and standards.

(d) To consult with licensees and those applying for a license in order to help them improve their methods and facilities of child care.

(e) To prescribe the form and content of reports necessary for the administration of this act and to require regular reports from each licensee.

Sec. 6. Rules and regulations may be adopted, amended or rescinded by the director of the state department of social security only after public hearing or opportunity to be heard thereon, of which proper notice has been given. This public hearing shall be open to all interested parties, including representatives from voluntary agencies subject to licensing under this act, and such interested parties shall have opportunity to be heard. Rules and regulations shall be effective thirty days after filing with the secretary of state and publication of notice in one or more newspapers of general circulation in the state.

Sec. 7. Applicants for a license as provided for in this act shall make application to the state department of social security on forms provided by the department. Upon receipt of such an application the department shall have a reasonable time in which to determine whether or not a license should be granted. The licenses provided for in this act shall be issued for a period of one year. If a licensee desires to apply for a renewal of its license a request for a renewal shall be filed three months prior to the expiration date of the license. Amend the bill by striking everything after the enacting clause and inserting in lieu thereof the following:

"Sec. 1. It is the purpose of the state in the exercise of its sovereign and police powers and in the interest of public welfare, to establish a state and local participating slide control maintenance policy.

"Sec. 2. The supervisor of flood control under the director of conservation and development shall have charge for the state in the administration of all laws relating to slide control.

"Sec. 3. The engineer for each county, city and town shall be ex officio, the local slide control engineer on any slide control work prosecuted by his municipality with aid from state slide control funds. He shall prepare or approve on his part all plans for slide control maintenance projects within his jurisdiction; he shall supervise the construction and have control of and make the authorized expenditures therefor.

"Sec. 4. The approval of such plans, construction and expenditures by the supervisor of flood control shall be a condition precedent to state participation in the cost of any project.

"Sec. 5. Any county, city or town subject to slide conditions may establish in its treasury a slide control maintenance fund. Such fund shall be deemed to be for a municipal purpose and may be maintained by transfer thereto of moneys derived from regular or special lawful levies for slide control purposes, moneys which may be lawfully transferred to it from any other municipal fund; and gifts and contributions received for slide control purposes. All costs and expenses for slide control maintenance purposes shall be paid out of said slide control maintenance fund, which fund shall not be used for any other purpose."
“Sec. 6. Any county, city or town intending to seek state participating funds shall, within thirty days after final adoption of its annual budget for slide control purposes, report the amount thereof to the supervisor of flood control. On the basis of all such budget reports received, he may thereupon prepare his tentative and preliminary plan for the orderly and most beneficial allocation of state slide control funds for the ensuing calendar year. Any otherwise eligible county, city or town failing and neglecting to report the amount of its budget may, at the discretion of the supervisor, become ineligible for state participation during the ensuing year.

“Sec. 7. State participation shall be in such slide control maintenance projects as are affected with a general public and state interest, as differentiated from a private interest, and as are likely to bring about benefits commensurate with the amount of state funds allocated thereto. Such participation shall be made from state appropriations for slide control maintenance purposes and shall not exceed, except in cases of emergency, fifty per cent of the approved cost of any project. No warrant shall be drawn by the state auditor to the credit of the slide control maintenance account of any participating local agency except a voucher for reimbursement of expenditures therefor made and properly supported and approved by the local slide control engineer and by the supervisor of flood control.

“Sec. 8. For the biennium ending March 31, 1953, there is hereby appropriated from the general fund, to the department of conservation and development for research and for participation in slide control maintenance, the sum of fifty thousand dollars.”

"Sec. 4. Upon the petition of any settlor or of any beneficiary of such a trust after due notice thereof to the trustee the superior court in the county where the trustee or one of the trustees resides may direct the trustee or trustees thereof to file in said court such an account at any time subsequent to one year from the day on which such a report was last filed, or if none, then after one year from the inception of the trust.

"Sec. 5. When any such account shall have been filed the clerk of the court where filed shall fix a return day therefor, and issue a notice as provided for herein. If each of the beneficiaries and the guardians and guardians ad litem, if any, appointed pursuant to section 5 hereof, is personally served with a copy of the notice, whether within or outside the State of Washington, at least twenty-five days prior to the return day, then no publication of the notice shall be required; otherwise the trustees shall cause notice as provided for herein to be given by publishing the same at least once a week for three successive weeks preceding the return day, the first publication to be at least twenty-five days preceding the return day, such publication to be in a newspaper of general circulation in the county, or if none then in an adjoining county. "Sec. 6. Upon or before the return day any beneficiary of the trust may file his written objections or exceptions to the account filed or to any action of the trustee or trustees set forth therein. The court shall appoint either the legal guardian of a beneficiary, or a guardian ad litem to represent the interests of any such beneficiary who is an infant or of unsound mind or otherwise legally incompetent, or who is yet unborn or unascertained, and such beneficiary shall be bound by any action taken by such representative. Every unborn or unascertainable beneficiary shall be concluded by any action taken by the court for or against any living beneficiary of the same class or whose interests are similar to the interests of such unborn or unascertainable beneficiary.

"Sec. 7. At the same time or at some later date fixed by the court if so requested by one or more of the parties, the court without the intervention of a jury and after hearing all the evidence submitted shall determine the correctness of the account and the validity and propriety of all actions of the trustee or trustees set forth therein including the purchase, retention and disposition of any of the property and funds of the trust, and shall render its decree either approving or disapproving the same or any part thereof, and surcharging the trustee or trustees for all losses, if any, caused by negligent or willful breaches of trust.

"Sec. 11. The settlor of any trust governed by this act may waive any or all of the provisions of section 1 of this act requiring periodical statements to beneficiaries, or may add additional duties in the instrument creating the trust; and any adult beneficiary entitled to an accounting under either section 1 or section 2 of this act may waive such an accounting by a separate instrument delivered to the trustee.

"Sec. 12. This act is declared to be of similar import to the uniform trustees' accounting act. A provision in any will, deed or agreement heretofore or hereafter executed which provides in substance:

"(1) That the requirements or provisions of the uniform trustees' accounting act, whether by name or other reference thereto are waived, or that the trustee shall not be required to comply therewith; or

"(2) That the requirements or provisions of any other act of like or similar import are waived, or that the trustee shall not be required to comply therewith; shall constitute a waiver by the settlor pursuant to section 10 of this act.

"Sec. 13. If any provision of this act or the application thereof to any person or circumstance is held invalid, such invalidity shall not affect other provisions or applications of this act which can be given effect without the invalid provision or application, and to this end the provisions of this act are declared severable.

The commissioner of public lands shall appoint an advisory board of five members, the majority of whom shall be registered professional engineers or land surveyors, who shall serve at the pleasure of the commissioner. Members of the board shall serve without salary but are to receive twenty-five dollars per diem and actual expenses not to exceed fifteen dollars per diem while actively engaged in the discharge of their duties.

SENATE AMENDMENTS TO HOUSE BILL

Mr. Speaker:

The Senate has passed: Substitute House Bill No. 297 with the following amendments:

Amend the bill by striking everything after the enacting clause and insert in lieu thereof the following:

"Section 1. In order to extend to employees of the state and its political subdivisions and to the dependents and survivors of such employees, the basic protection accorded to others by the old-age and survivors insurance system embodied in the Social Security Act, it is hereby declared to be the policy of the legislature, subject to the limitations of this act, that such steps be taken as to provide such protection to employees of the state and its political subdivisions on as broad a basis as is permitted under the Social
Security Act. Nothing in this act shall be construed to in any way affect any existing pension or retirement system or plan for any group of state employees or the employees of any political subdivision thereof, nor to allow or authorize the governor or the governing body of any political subdivision, either separately or acting together, to terminate or alter any existing pension or retirement plan or to put under the Federal Social Security Act any persons now members or protected by any state or local pension or retirement plan or system.

"Sec. 2. For the purposes of this act—(a) The term 'wages' means all remuneration for employment as defined herein, including the cash value of all remuneration paid in any medium other than cash, except that such term shall not include that part of such remuneration which, even if it were for 'employment' within the meaning of the Federal Insurance Contributions Act, would not constitute 'wages' within the meaning of that act:

"(b) The term 'employment' means any service performed by an employee in the employ of the state, or any political subdivision thereof, for such employer, except (1) service which in the absence of an agreement entered into under this act would constitute 'employment' as defined in the Social Security Act; or (2) service which under the Social Security Act may not be included in an agreement between the state and the federal security administrator entered into under this act.

"(c) The term 'employee' includes all officers and employees of the state or its political subdivisions except elected officials and officials compensated on a fee basis.

"(d) The term 'federal security administrator' includes any individual to whom the federal security administrator has delegated any of his functions under the social security act with respect to coverage under such act of employees of states and their political subdivisions;

"(e) The term 'political subdivision' includes an instrumentality of the state, of one or more of its political subdivisions, or of the state and one or more of its political subdivisions. Such term also includes a proprietary enterprise acquired, purchased or originated by the state or any of its political subdivisions subsequent to December, 1950. Such a subdivision may elect to accept federal OASI coverage under this act, and if so, is exempted from the application of the state employees retirement act, chapter 274, Laws of 1947.

"Sec. 3. (a) The governor is hereby authorized to enter on behalf of the state into an agreement with the federal security administrator, consistent with the terms and provisions of this act, for the purpose of extending the benefits of the federal old-age and survivors insurance system to employees of the state or any political subdivision thereof with respect to services specified in such agreement which constitute 'employment' as defined in section 2 of this act. Such agreement may contain such provisions relating to coverage, benefits, contributions, effective date, modification and termination of the agreement, administration, and other appropriate provisions as the governor and federal security administrator shall agree upon, but, except as may be otherwise required by or under the social security act as to the services to be covered, such agreement shall provide in effect that—

"(1) Benefits will be provided for employees whose services are covered by the agreement (and their dependents and survivors) on the same basis as though such services constituted employment within the meaning of title II of the social security act;

"(2) The state will pay to the secretary of the treasury, at such time or times as may be prescribed under the social security act, contributions with respect to wages (as defined in section 2 of this act), equal to the sum of the taxes which would be imposed by sections 1400 and 1410 of the federal insurance contributions act if the services covered by the agreement constituted employment within the meaning of that act;

"(3) Such agreement shall be effective with respect to services in employment covered by the agreement performed after a date specified therein but in no event may it be effective with respect to any such services performed prior to the first day of the calendar year in which such agreement is entered into or in which the modification of the agreement making it applicable to such services, is entered into;

"(4) All services which constitute employment as defined in section 2 and are performed in the employ of the state by employees of the state, shall be covered by the agreement; and

"(5) All services which (A) constitute employment as defined in section 2, (B) are performed in the employ of a political subdivision of the state, and (C) are covered
by a plan which is in conformity with the terms of the agreement and has been approved by the governor under section 5, shall be covered by the agreement.

"(b) Any instrumentality jointly created by this state and any other state or states is hereby authorized, upon the granting of like authority by such other state or states, (1) to enter into an agreement with the federal security administrator whereby the benefits of the federal old-age and survivors insurance system shall be extended to employees of such instrumentality, (2) to require its employees to pay (and for that purpose to deduct from their wages) contributions equal to the amounts which they would be required to pay under section 4 (a) if they were covered by an agreement made pursuant to subsection (a) of this section, and (3) to make payments to the secretary of the treasury in accordance with such agreement, including payments from its own funds, and otherwise to comply with such agreements. Such agreement shall, to the extent practicable, be consistent with the terms and provisions of subsection (a) and other provisions of this act.

"Sec. 4. (a) Every employee of the state whose services are covered by an agreement entered into under section 3 shall be required to pay for the period of such coverage, into the contribution fund established by section 6, contributions, with respect to wages (as defined in section 2 of this act), equal to the amount of tax which would be imposed by section 1400 of the federal insurance contributions act if such services constituted employment within the meaning of that act. Such liability shall arise in consideration of the employee's retention in the service of the state, or his entry upon such service, after the enactment of this act.

"(b) The contribution imposed by this section shall be collected by deducting the amount of the contribution from wages as and when paid, but failure to make such deduction shall not relieve the employee from liability for such contribution.

"(c) If more or less than the correct amount of the contribution imposed by this section is paid or deducted with respect to any remuneration, proper adjustments, or refund if adjustment is impracticable, shall be made, without interest, in such manner and at such times as the state agency shall prescribe.

"Sec. 5. (a) Each political subdivision of the state is hereby authorized to submit for approval by the governor a plan for extending the benefits of title II of the social security act, in conformity with applicable provisions of such act, to employees of such political subdivision. Each such plan and any amendment thereof shall be approved by the governor if he finds that such plan, or such plan as amended, is in conformity with such requirements as are provided in regulations of the governor, except that no such plan shall be approved unless—

"(1) It is in conformity with the requirements of the social security act and with the agreement entered into under section 3;

"(2) It provides that all services which constitute employment as defined in section 2 and are performed in the employ of the political subdivision by employees thereof, shall be covered by the plan;

"(3) It specifies the source or sources from which the funds necessary to make the payments required by paragraph (1) of subsection (c) and by subsection (d) are expected to be derived and contains reasonable assurance that such sources will be adequate for such purposes;

"(4) It provides for such methods of administration of the plan by the political subdivision as are found by the governor to be necessary for the proper and efficient administration of the plan;

"(5) It provides that the political subdivision will make such reports, in such form and containing such information, as the governor may from time to time require, and comply with such provisions as the governor or the federal security administrator may from time to time find necessary to assure the correctness and verification of such reports; and

"(6) It authorizes the governor to terminate the plan in its entirety, in his discretion, if he finds that there has been a failure to comply substantially with any provision contained in such plan, such termination to take effect at the expiration of such notice and on such conditions as may be provided by regulations of the governor and may be consistent with the provisions of the social security act.

"(b) The governor shall not finally refuse to approve a plan submitted by a political subdivision under subsection (a), and shall not terminate an approved plan, without reasonable notice and opportunity for hearing to the political subdivision affected thereby.

"(c) (1) Each political subdivision as to which a plan has been approved under this section shall pay into the contribution fund, with respect to wages (as defined in
section 2 of this act), at such time or times as the governor may by regulation prescribe, contributions in the amounts and at the rates specified in the applicable agreement entered into by the governor under section 3.

"(2) Each political subdivision required to make payments under paragraph (1) of this subsection is authorized, in consideration of the employee's retention in, or entry upon, employment after enactment of this act, to impose upon each of its employees, as to services which are covered by an approved plan, a contribution with respect to his wages (as defined in section 2 of this act), not exceeding the amount of tax which is imposed by section 1400 of the federal insurance contributions act, and to deduct the amount of such contribution from his wages as and when paid. Contributions so collected shall be paid into the OASI contribution fund in partial discharge of the liability of such political subdivision or instrumentality under paragraph (1) of this subsection. Failure to deduct such contribution shall not relieve the employee or employer of liability therefor.

"(d) Delinquent payments due under paragraph (1) of subsection (c) may, with interest at the rate of six per centum per annum, be recovered by action in a court of competent jurisdiction against the political subdivision liable therefor or may, at the request of the governor, be deducted from any other moneys payable to such subdivision by any department or agency of the state.

"Sec. 6. (a) There is hereby established a special fund to be known as the OASI contribution fund. Such fund shall consist of and there shall be deposited in such fund: (1) all contributions, interest, and penalties collected under sections 4 and 5; (2) all moneys appropriated thereto under this act; (3) any property or securities and earnings thereof acquired through the use of moneys belonging to the fund; (4) interest earned upon any moneys in the fund, and (5) all sums recovered upon the bond of the custodian or otherwise for losses sustained by the fund and all other moneys received for the fund from any other source. All moneys in the fund shall be mingled and undivided. Subject to the provisions of this act, the governor is vested with full power, authority and jurisdiction over the fund, including all moneys and property or securities belonging thereto, and may perform any and all acts whether or not specifically designated, which are necessary to the administration thereof and are consistent with the provisions of this act.

"(b) The OASI contribution fund shall be established and held separate and apart from any other funds or moneys of the state and shall be used and administered exclusively for the purpose of this act. Withdrawals from such fund shall be made for, and solely for (A) payment of amounts required to be paid to the secretary of the treasury pursuant to an agreement entered into under section 3; (B) payment of refunds provided for in section 4(c) of this act; and (C) refunds of overpayments, not otherwise adjustable, made by a political subdivision or instrumentality.

"(c) From the OASI contribution fund the custodian of the fund shall pay to the secretary of the treasury such amounts and at such time or times as may be directed by the governor in accordance with any agreement entered into under section 3 and the social security act.

"(d) The treasurer of the state shall be ex officio treasurer and custodian of the OASI contribution fund and shall administer such fund in accordance with the provisions of this act and the directions of the governor and shall pay all warrants drawn upon it in accordance with the provisions of this section and with the regulations as the governor may prescribe pursuant thereto.

"Sec. 7. The governing body of any political subdivision having any coverage group, as the term is defined in title II of the social security act, not covered by a state or municipal retirement system may submit for an advisory vote to the members of such coverage group the question of whether they prefer coverage by federal old-age and survivors insurance or coverage by a state or municipal retirement system.

"Sec. 8. There is hereby appropriated for the biennium ending March 31, 1953, the sum of one million dollars, or so much thereof as may be necessary, from the OASI contribution fund, to be expended for the purposes of section 6 of this act.

"Sec. 9. All costs allocable to the administration of this chapter shall be charged to and paid to the general fund by the participating divisions and instrumentalities of the state pro rata according to their respective contributions.

"Sec. 10. The governor shall make and publish such rules and regulations, not inconsistent with the provisions of this act, as he finds necessary or appropriate to the efficient administration of the functions with which he is charged under this act.

"Sec. 11. Any authority conferred upon the governor by this act may be exercised by an official or state agency designated by him.
“Sec. 12. This act is necessary for the support of the state government and shall take effect immediately.”

Amend the title as follows: In line 4 of the title of the original bill, same being line 3 of the title of the printed bill after the words “as amended” strike the balance of the title and insert in lieu thereof the following: “; fixing the powers and duties of certain state officers; making an appropriation, and declaring an emergency;”.

SENATE AMENDMENT TO HOUSE BILL

Senate Chamber,
Olympia, Wash., March 6, 1951.

MR. SPEAKER:
The Senate has passed: Engrossed House Bill No. 305 with the following amendment:

Amend the bill by striking everything after the enactment clause and inserting in lieu thereof the following:

"Section 1. These are times of public danger; subversive persons and groups can endanger our domestic unity, and leave us unprepared to meet aggression. Under cover of the protection afforded by the bill of rights such persons and groups seek to destroy our liberties and our freedom by force, threats and sabotage, and to subject us to the domination of foreign powers.

"Sec. 2. There is hereby created a legislative fact-finding committee on un-American or subversive activities of the state which shall be designated as the 'Un-American Activities Committee', and which shall investigate, ascertain, collate and appraise all facts concerning individuals, groups or organizations, whose membership includes persons who are communists or whose activities are such as to indicate a purpose to foment internal strife, discord and dissension, to infiltrate and undermine the stability of our American institutions and form of government by means of force and violence or by conspiracy or any means of illegal or unconstitutional nature, or whose activities are of a seditious or subversive nature, or of any other organization suspected to be dominated or controlled by a foreign power, which activities affect the normal operation and conduct and development of this state, the functioning of any state agency, relief or any other forms of public assistance, educational institution of the state supported in whole or in part by state funds.

"Sec. 3. The committee shall consist of three members of the Senate appointed by the president and subject to confirmation by the Senate and four members of the House of Representatives appointed by the speaker. The joint committee shall elect its own chairman and secretary. Members of the committee shall serve until the convening of the next regular session of the legislature. Before serving on this committee each appointed member must take an oath that he has at no time been a member of any subversive organization. A copy of such oath shall be filed with the office of the secretary of state.

"Sec. 4. The committee hereby created in exercising the powers and performing the functions vested in it by this act shall have all powers necessary or convenient to accomplish the objectives and purposes of this act, including but not limited to the following duties and power:

"(1) To employ and fix the compensation of a secretary and such clerical, legal, expert and technical assistants as it may deem necessary, and to lease, rent or buy such supplies and facilities as may be required;

"(2) The chairman shall have authority to create subcommittees from its membership, assigning to the subcommittee any study, inquiry, investigation or hearing which the committee itself has authority to undertake or hold, and the subcommittee for the purpose of this assignment shall have and exercise all of the powers conferred upon the committee;

"(3) To adopt and from time to time amend such rules governing its procedure (including the fixing of its own quorum and the number of votes necessary to take action on any matter) as may to it appear appropriate;

"(4) To contract with such other agencies, public or private, as it deems necessary for the rendition and affording of such services, facilities, studies and reports to the committee as will best assist it to carry out the purposes for which it is created;

"(5) To hold public hearings at any place in the state at which hearings the people are to have an opportunity to present their views to the committee;

"(6) To make a complete study, survey and investigation of every phase of the subject of this act, including but not limited to the operation, effect, administration, enforcement, and needed revision of any and all laws in anywise bearing upon or relating to the subject of this act;

"(7) To meet at any and all places in this state, in public or executive session;

"(8) To act during sessions of the legislature, including any recess thereof, and after final adjournment thereof;

"(9) To file a report with each legislature and with the governor;

"(10) To summon and subpoena witnesses, require the production of papers, books,
accounts, reports, documents, and records of every kind and description; to issue sub-
poenas and to take all necessary means to compel the attendance of witnesses to insure
their attendance if necessary; to procure from any court having jurisdiction, upon
complaint showing probable cause to believe that pertinent evidence is being concealed
or withheld from the committee, a search warrant and cause a search to be made
therefor;

“(11) To cooperate with and secure the cooperation of county, city, federal and
other enforcement agencies in investigating any matter within the scope of this act,
and to direct the sheriff of any county to serve subpoenas, orders, and other process
issued by the committee; and

“(12) To do any and all other things necessary or convenient to enable it fully
and adequately to exercise its powers, perform its duties, and accomplish the objects
and purposes of this act; and in case of disobedience on the part of any witness to
comply with any subpoena issued by the committee or on the refusal of any person
to testify regarding any matter on which he may be lawfully interrogated, the superior
court of any county, or judge thereof, on application of the committee, shall compel
compliance by proceedings for contempt, as in the case of disobedience of the require-
ments of a subpoena issued from such court or a refusal to testify therein.

“Sec. 5. Any person who is required to appear and to testify before this committee
shall have the right:

“(1) To be represented by counsel;

“(2) To be interrogated by his counsel after his examination by or at the direction
of the committee;

“(3) To have witnesses to testify for and on his behalf; and

“(4) To have such witnesses interrogated first by the committee and to be exam-
ined by himself or his counsel.

If any such witness shall refuse to answer or to testify when interrogated by the
committee he shall not be permitted to testify for and on behalf of the person calling
him. The number of such witnesses and the order in which they shall testify may be
determined by the committee.

Before any witness shall be permitted to testify for or on behalf of such person,
the committee may require his name and address to be furnished to the committee,
together with a statement covering the testimony that he will give before said com-
mittee. This information must be furnished at least five days prior to the date the
witness is to testify. Failure to do so may disqualify the witness unless this requirement
is waived by the committee. A witness will not be permitted to testify as to any
matters not set forth in his statement of his testimony, without the permission of the
committee.

“Sec. 6. The right of cross-examination and of interrogation shall be limited to
the matters covered in interrogation in chief, and to such matters as are relevant and
material to the subject matter under inquiry by this committee or as set forth in this
act as the purposes thereof; and cross-examination of any witness other than that by
the committee shall not exceed one hour unless the direct examination was of greater
length, in which case, the length of the cross-examination shall not exceed the length
of the direct examination.

“Sec. 7. Any person whose name is mentioned, or who is specifically identified, and
who believes that testimony or other evidence given in the public hearing before the
committee tends to defame him or otherwise adversely affects his reputation, may be
afforded the following privileges:

“(1) To file with this committee a sworn statement concerning such testimony, evi-
dence or comment, which may be made a part of the records of such hearing;

“(2) To appear personally before the committee and testify in his own behalf;

“(3) To have the committee secure the appearance of witnesses whose testimony
adversely affected him and to cross-examine such witnesses either personally or by
counsel, but such cross-examination shall be limited to one hour as to any one witness
unless the direct examination was of greater length, in which case, the length of the
cross-examination shall not exceed the length of the direct examination, unless the
committee votes to lengthen the period; and

“(4) To have the committee secure the appearance of not to exceed four witnesses
requested by him for the purpose of testifying in his behalf and to examine such
witnesses either personally or by counsel. The cost of service of subpoenas for such
witnesses, the payment of witness fees, and travel, shall be borne by the person request-
ing the witness.
"Sec. 8. Any person who wishes to avail himself of the privileges accorded by the preceding section shall, within ten days of the receipt by the committee of the testimony complained of, file a petition with the committee requesting the fixing of a time and place for the receiving of testimony or the conduct of cross-examination designating the witnesses to be summoned. Such a petition shall be accompanied by the sworn statement of the petitioner that the petition is not filed for the purpose of delaying or obstructing the work of the committee, but because his reputation has been unjustifiably damaged or otherwise adversely affected by false accusations or influence. The committee may, within ten days after the receipt of such petition, fix a time and place for the receiving of testimony or the conduct of cross-examination, which time shall not be later than thirty days after the receipt of the petition and shall secure the appearance at such time and place of the witnesses designated in the petition.

"Sec. 9. No person shall be excused from giving any testimony or answering any question on the grounds that said testimony or answer may crincinate himself or subject himself to penalty or forfeiture nor shall any person refuse to produce any books, papers, files or documents of any nature on the grounds that the production thereof or the information contained therein may criminate himself or subject himself to penalty or forfeiture; such person may be compelled to answer or to produce, but the testimony given or the evidence produced shall not be used in any prosecution or proceeding, civil or criminal, against such person, except for perjury, or the offering of false evidence committed in such testimony, or in the production of such books, papers, files or documents.

"Sec. 10. Any person who shall refuse or neglect, without lawful excuse, to attend before the committee, or who shall wilfully refuse to be sworn or to affirm or to answer any material or proper question by the committee, or to produce upon reasonable notice as directed by the committee any material or proper books, papers, files, or documents. In his possession or under his control shall be guilty of a gross misdemeanor and shall be fined not less than five hundred dollars and imprisoned for a term of not less than six months in the county jail or be fined not to exceed five thousand dollars and imprisoned for a term not to exceed one year in the county jail.

"Sec. 11. The committee, each of its members, and any representatives of the committee thereunto authorized by the committee or by its chairman, is authorized and empowered to administer oaths.

"Sec. 12. The commission may include in any resolution authorizing the issuance of the bonds such covenants, stipulations and conditions as may be deemed necessary with respect to the continued use and application of the income and revenues from the undertaking.

(b) In view of the benefits that will accrue to all users of electric power and energy within the state from the operation by the commission of electric plants and facilities as provided by this act, from the stabilizing and better assurance of adequate supplies of electric power and energy made possible thereby, and to provide the commission with revenues for administrative purposes and for paying interest and principal on the revenue bonds provided for by subdivision (a) of this section, a license fee is hereby levied and imposed upon all ultimate users or consumers of electric power and energy within the state, except only such users as the state is prohibited from licensing by the state constitution or by the constitution or laws of the United States, equivalent to one-half of one per cent of all bills and charges payable by such ultimate users and consumers for such electric power and energy, to be included in the amount of such bills and charges without the necessity of separate itemization, to be paid on the due dates of such bills or charges, and to be collected by the suppliers of such electric power and energy for the account of the commission, except that, in any case where such bills and charges are payable to an agency of the United States, said license fee shall be paid by such ultimate user or consumer directly to the commission. All revenues received by the commission from said license fees shall be paid to the state treasurer, as ex officio treasurer of the commission, who shall deposit such revenues in a separate trust fund for use by the commission for the purposes of this act, subject to disbursement by the commission for the purposes aforesaid, and none of such revenues shall ever be used for any other purpose. The imposition of said license fee shall become effective beginning on the first day of the calendar month next succeeding the issuance by the governor of a proclamation that the commission has been appointed and has organized itself for carrying out the purposes of this act, and shall continue in effect until such time as the commission may determine by order that the imposition of said license fee may be temporarily discontinued without prejudice to the carrying out of the purposes of this act, in the event of which determination the imposition of said license fee shall be suspended for the period so specified by the commission, and shall again become effective from and after the termination of such temporary suspension. The commission shall make all necessary rules and regulations, and shall cause all necessary action to be taken to assure prompt payment to it of all amounts payable by ultimate users and consumers of electric power and energy in respect to said license fee.

“Sec. 3. This act is necessary for the immediate preservation of the public peace, health and safety, and for the support of the state government and its existing public institutions, and shall take effect immediately.”
Amend the title by striking everything after the word "corporations" and inserting in lieu thereof the following: "using electric power and energy; providing a license fee upon all ultimate users or consumers of electric power and energy within the state; amending sections 43.52.40 and 43.52.220, R.C.W., and declaring an emergency.", and the same is herewith transmitted.

SENATE AMENDMENTS TO HOUSE BILL

Mr. Speaker:

The Senate has passed House Bill No. 409 with the following amendments:

Amend the bill by adding eight (8) new sections after section 9, to be numbered section 10 to section 17, inclusive, reading as follows:

"Sec. 10. As used in this act:

‘Donor’ means any person who creates a power of appointment.

‘Donee’ means any person given the power to exercise the appointment.

‘Property’ means any property subject to the power of appointment which is within the jurisdiction of this state.

‘Ultimate beneficiary’ means any person who becomes entitled to the property through exercise of the power, or by reason of nonexercise of the power, or by reason of renouncement of the power by the donee, or by reason of renouncement or waiver by the person appointed to receive the property.

‘Greatest possible tax’ means a tentative tax computed on an assumed devolution of the property to an ultimate beneficiary within the limitations of the power, who would be taxable at the highest rates provided by the gift tax laws of this state.

‘Final tax’ means the tax determined under the gift tax laws of this state when the power is exercised or terminated.

‘Due date’ means the fifteenth day of March following, the close of the calendar year in which any gift is made.

‘Commission’ means the tax commission of this state.

‘Sec. 11. The gift of a power of appointment, in conjunction with a disposition of property which is effected before or after the effective date of this act, by intervivos
transfer, direct, or in trust or otherwise, is subject to the gift tax laws of this state from the donor to the ultimate beneficiary thereof.

"Sec. 12. The tax is due as of the date of the gift, and shall be a lien upon the property until paid in full. It shall be the duty of the trustee to pay the tax or provide the security therefor as hereinafter provided, but no provision of this act shall be construed as imposing a personal liability on such trustee. The tax shall be assessed on the value of the property as of the date of the gift regardless of any subsequent increase or decrease in value, and may be paid from the property at the discretion of the trustee. Any refund granted as hereinafter provided shall inure to the benefit of the ultimate beneficiary.

"Sec. 13. Upon the exercise of termination of the power, prior to furnishing the bond or other security for the tax as hereinafter provided, it shall be the duty of the donee to immediately notify the commission thereof, together with the name and address of the ultimate beneficiary and his relationship to the donor. If the donee fails to so notify the commission, which failure results in loss of tax, he shall be liable for such tax.

"Sec. 14. Unless the greatest possible tax is paid in full on or before the date due, a surety company bond shall be executed in favor of the State of Washington by the trustee and filed with the commission, which bond shall be binding on his successors or representatives in an amount equal to the greatest possible tax, conditioned that upon the exercise or termination of the power the commission will be notified and the final tax paid in full: Provided, That the trustee may elect to pay a tentative tax based on the probabilities of devolution of the property, and file a bond only for the difference between the tentative tax paid and the greatest possible tax. The commission, in its discretion, may accept other adequate security in lieu of any bond or payment of tax. If at any time the commission has cause to believe that the bond or security furnished is inadequate to insure payment of the final tax, it may require such further security from the remaining property as it deems necessary. If the trustee fails or refuses to pay such tax, or furnish a bond or adequate security, the greatest possible tax shall immediately become due and payable, and may be enforced against the property by the commission through foreclosure proceedings. Any bond executed by the trustee as above provided shall not be released or exonerated without written consent of the commission.

"Sec. 15. In the event any tentative tax paid as provided heretofore is determined to be in excess of the final tax, a refund for the excess shall be granted by the commission, without interest.

"Sec. 16. The trustee shall have until the due date to pay any tentative tax provided in this act, and if not so paid, interest shall be charged on such tax at the rate of one per cent per month from the first of January next preceding the due date until paid. Interest shall not be charged on the final tax if paid within three months of the exercise or termination of the power, but if not so paid, interest shall be charged at the rate of six per cent per annum from the date the power was exercised or terminated.

"Sec. 17. In the event the donee exercises the power by granting a power of appointment to another donee to all or any part of the property, such property shall be taxed as if the second donee is the ultimate beneficiary thereof, as above provided, and the second donee is then considered as the owner of the property for the purposes of this act."

Amend the title by inserting the words "and gifts" after the word "inheritances" and before the word "wherein", and the same is herewith transmitted.

"Within ten days after being served with a notice of appeal the director shall file with the clerk of the court the record of the case on appeal, and no further pleadings shall be necessary to bring the appeal to issue.

The court shall decide the case on the record. The findings of the director as to the facts shall be conclusive unless the court determines that such findings are not supported by a preponderance of the evidence in the record.

The court may affirm the decision of the director or reverse any decision of the director where it finds the director has acted arbitrarily, capriciously or contrary to law, and remand the cause to the director for further proceedings in conformity with the decision of the court. Either party may appeal from the decision of the superior court to the supreme court of the state, which appeal shall be taken and conducted in the manner provided for by law or by the rules of the court applicable to civil appeals.

"Sec. 11. A copy of the articles of incorporation or amendment of the articles of existing corporations for agencies shall be sent by the secretary of state to the department of social security at the time such articles are filed.

"Sec. 12. "(3) To inspect and supervise all foster homes to enforce the application of the rules and regulations.

"(4) To deny, revoke or suspend the certificate of approval of any foster home which has failed or refused to comply with the provisions of this act or the rules and regulations promulgated pursuant to this act.

"Sec. 15. Notwithstanding the existence or pursuit of any other remedy, the department of social security may, in the manner provided by law, upon the advice of the attorney general who shall represent the department in the proceeding, maintain an action in the name of the state for injunction or other process against any person, partnership, association, or corporation, or any private institution, agency or foster home, which shall hereafter give temporary or permanent care or custody to a child or children, or an illegitimate pregnant woman or women not related by blood, marriage, or adoption to such person, without having a license from the department or a certificate of approval as a foster home, or who shall place for temporary or permanent care or for adoption, a child or children not related to him by blood, marriage or adoption without having a license or certificate of approval, as heretofore provided in this act.

"Sec. 17. Every person having the care and custody, whether temporary or permanent, of minor children under the age of twelve years, who shall leave such children in a parked automobile unattended by an adult while such person enters a tavern or other premises where vinous spirituous or malt liquors are dispensed for consumption on the premises shall be guilty of a gross misdemeanor.

Mr. Adams:

"Mr. Speaker and Mrs. Hodde:

"This is indeed a great privilege that I have to be able to present to you, through our esteemed lady from Skagit County, a token of our appreciation to you folks."

The Speaker (Mr. Adams presiding) called on Mrs. Ridgway to come forward.

Mrs. Ridgway:

"My good friend, Charlie, as you are affectionately called, and your very dear and precious wife, and ladies and gentlemen of the House:

"I'm going to state in the first place that it is a distinct pleasure to be up here looking down on Charlie instead of having Charlie up here looking down on me. And I do want to say that we, as members of the thirty-second session of the legislature, wish to express to you our sincere appreciation for your untiring efforts, Charlie, and your devoted services to us, and not only to us as members of the House of Representatives but to the citizens of the State of Washington. Your fairness and splendid leadership have been a real and sincere inspiration to all of us who, in our efforts, are trying to serve the State of Washington. It is with these thoughts in mind that we, the members of the House of Representatives of this thirty-second session of the legislature, have joined together in presenting to you and Mrs. Hodde a token of our appreciation of your services in the form of a very fine set of Lenox china.

"To you, Mrs. Hodde, it is our feeling that this lovely set of fine china matches your charm, your daintiness, your fine character and your charming personality. We also have on the desk a scroll which has been signed by the members of this House and which expresses to our good friend, Charlie, our sincere appreciation for his fine services to us and to the State of Washington.

"We know that Charlie is going to have many fine meals off of this set of china, and don't be surprised if some of us drop in on you in your home in Colville and taste some of your fine cooking. We know the spirit of hospitality is there and will be there as it is in the spirit of your services and cooperation as expressed to us, the members of the House of Representatives.

"In conclusion may I say that we hope our gift will be an inspiration for many, many happy occasions to you and your family and your friends."

Mr. Adams:

"And, in addition, Mrs. Hodde, when you come to the sugar bowl we have a little sugar here that we wish to put in it. We understand that next month your parents will be celebrating their fiftieth wedding anniversary and this little sugar will get you down there. Then, you'll have to depend on Charlie to get you back."

Mr. Hodde:

"Really, I think in a situation like this my wife should make a speech. I want to tell you of what happened two years ago and I suspect the same thing will happen again. We were presented with some silverware and, as happened this time, there was a little money left over. Mr. Zent handed the money to my daughter, as my wife was not able to be here at that time. He said, 'Now, you're to go home and buy yourself an automatic washing machine.' Mrs. Hodde took the little present and spent six weeks in California but she said that wasn't the money she had spent. Finally she took two hundred dollars down and bought a three hundred and seventy-five dollar washing machine."
"I want to assure you that we certainly do appreciate and like this gift, not only because of its value—it being a very fine product and one we will always be proud to own, although I know I won't get to eat off of them very often—but chiefly because of the fact that it does represent something we received from our friends for our services here and is something we can look back on. I think there are just about enough dishes so that we can write the name of each member on the bottom or the top of a dish, so that when we look at them, we will remember the members.

"This year is different. This year there is something for the Speaker. I will keep the scroll and I'm sure that I'll appreciate it just as long as my wife will appreciate the china."

Mrs. Hodde:

"I would like to say thanks to each one of you. You don't know how many times I have looked at this china in the magazines and dreamed of owning it. I surely do appreciate these beautiful dishes and I extend to each and every one of you, personally, an invitation to come visit us; and I assure you we will have plenty of spuds and apples. Thank you very much."

The members of the House and the visitors in the galleries all rose and heartily applauded.

The Speaker (Mr. Adams presiding) declared the House to be at ease until the sound of the gavel.

The Speaker called the House to order.

SECOND READING OF BILLS

House Bill No. 626, by Representative Wedekind (by executive request): Relating to the ferry-toll bridge authority.

Mr. Speaker:

We, a majority of your Committee on Roads and Bridges, to whom was referred House Bill No. 626, relating to the Washington Toll Bridge Authority and making appropriations, have had the same under consideration, and we respectfully report the same back to the House with the recommendation that it do pass with the following amendments:

Amend the bill by striking all matter after the enacting clause and inserting in lieu thereof the following:
“Section 1. Section 47.60.140, R.C.W., derived from section 5, chapter 179, Laws of 1949, is amended to read as follows:

“The Authority is empowered to operate such ferry system, including all operations, whether intrastate or international, upon any route or routes, and toll bridges as a revenue producing and self-liquidating undertaking. The director of highways shall have full charge of the construction, rehabilitation, rebuilding, enlarging, improving, operation and maintenance of the ferry system, including toll bridges, approaches and roadways incidental thereto that may be authorized by the Authority, including the collection of tolls and other charges for the services and facilities of the undertaking: Provided, That the Authority shall have the exclusive right to enter into leases and contracts for use and occupancy by other parties of the concessions and space located on the ferries, wharves, docks, approaches and landings, but no such leases or contracts shall be entered into for more than five years, nor without public advertisement for bids as may be prescribed by the Authority: Provided further, That the Authority may accept and continue leases and contracts for a period of ten years without advertisement or bid, if such leases or contracts were in effect or entered into at the time of the purchase of the Puget Sound ferry system, and any leases or contracts so made are hereby validated.

“Sec. 2. Section 47.64.070, R.C.W., derived from section 6, chapter 148, Laws of 1949, is amended to read as follows:

“Employees, except the masters and members of the crews of vessels, shall be subject to and entitled to the benefits of the industrial insurance laws of the state, and are hereby declared to be in extra-hazardous employment within the meaning of such laws.

“Sec. 3. Section 47.60.100, R.C.W., derived from section 8, chapter 179, Laws of 1949, is amended to read as follows:

“Notwithstanding any other provision of the law, bonds issued by the Authority shall be legal investments by the state finance committee of any state moneys in its hands, except permanent school funds and motor vehicle funds. This section shall not invalidate any investment outstanding on its effective date.

“Sec. 4. Sections 6 to 13, inclusive, of this act are added to chapter 47.60, R.C.W., derived from chapter 179, Laws of 1949.

“Sec. 5. Any consent to liability given under the provisions of this act shall create liability of the Authority only and shall not create any general liability of the state.

“Sec. 6. The state consents to suits against the Authority by seamen for injuries occurring upon vessels of the Authority in accordance with the provisions of section 688, title 46, of the United States Code. The venue of such actions may be in the superior court for Thurston County or the county where the injury occurred.

“Sec. 7. The Authority shall have all the obligations, duties and rights of a common carrier of persons and property in its operation of ferries, terminals or other facilities used in its ferry operations, including the right to participate in joint rates and through routes, agreements, and divisions of through and joint rates with railroads and other common carriers and the right to make any filings with the Interstate Commerce Commission, the United States Maritime Commission or any other state or federal regulatory or governmental body and to comply with the lawful rules and regulations or requirements of any such body, and shall be subject to laws relating to carrier’s liability for loss or damage to property transported, and for personal injury or death of persons transported.

“Sec. 8. In case of property loss or damage, personal injuries or death resulting from the operation of any ferry or terminal by the Authority, any person or the personal representative of any person shall, subject to and to the extent hereinafter provided, have a right of action against the Authority for such damage, loss, injury or death.

“Sec. 9. The right of action extended by this act shall be applicable to loss or damage of property and/or personal injury or death, resulting from the operation of ferries or terminals by the Authority to persons other than shippers or passengers, but any recovery of damages in such cases shall not exceed an amount equal to the limitations of the insurance carried by the Authority to insure it against loss for such liability.

“Sec. 10. As a condition to a recovery thereon, a verified claim against the Authority growing out of such damages, loss, injuries or death must first be presented to the Authority and filed with its secretary within thirty days after the time when such claim accrued. If the claimant shall be incapacitated from verifying and filing his claim within said thirty days, or if the claimant be a minor, then the claim may be verified and presented on behalf of said claimant by his relative, attorney or agent. Each such claim must accurately locate and describe the event or defect that caused the damage, loss, injury or death, reasonably describe the damage, loss or injury, and state the time..."
when the same occurred, give the claimant's residence for six months last past and contain the items of damages claimed. No action shall be maintained against the Authority upon such claim until the same has been presented to, and filed with, the Authority and sixty days have elapsed after such presentation and filing, nor more than three years after such claim accrued.

"Sec. 11. The Authority may upon such terms and conditions as it may impose and under such rules and regulations as it may adopt, pay claims arising under its operation of ferries or terminals or compromise or settle such claims. No claim shall be paid by the Authority or any settlement or compromise hereof be made except from its operating revenues derived from its operation of ferries or terminals or from the proceeds of insurance recoveries.

"Sec. 12. Actions for the recovery of damages under all the foregoing provisions of this act except section 6 may be brought in Thurston County or in the county in which the aggrieved person resides. No execution upon a judgment or attachment shall be levied against the property of the Authority, nor does the state consent to any maritime lien against vessels of the Authority, but the Authority may be required by order of court to pay any judgment.

"Sec. 13. Nothing in section 47.60.150, R.C.W., shall forbid the establishment by the Authority of a Washington state ferries revolving fund of not to exceed three hundred thousand dollars from the proceeds of any bonds sold under the provisions of this act. Such fund may be deposited by the Authority in such banks or financial institutions as it may select throughout the state. The provisions of section 43.01.05, R.C.W., shall not be applicable to such fund or any deposits therein made by the Authority under the provisions of this section. The Authority may deposit thereafter therein all moneys received under the provisions of this chapter. All expenses whatsoever arising in the operations of the Puget Sound ferry system shall be paid from such fund if established by check or voucher in such manner as may be prescribed by the Authority.

"All moneys received by the Authority or any employee under the foregoing sections of this act, except an amount of petty cash for each day's needs as fixed by the regulation of the Authority, shall be each day and as often during such day as advisable, deposited in the nearest authorized depositary selected by the Authority under the terms of this section.

"Whenever the fund shall exceed three hundred thousand dollars, the Authority shall forthwith transmit such excess to the state treasurer for deposit in the trust fund established by section 47.60.150.

"Sec. 14. There is hereby established a permanent fund in the state treasury to be known as the 'Authority revolving fund', which fund shall be available to the Washington Toll Bridge Authority in lieu of any allocation from any other appropriation from the motor vehicle fund made to the department of highways for the proper engineering investigation, in its discretion, of any proposals for facilities, which appear to have merit, for the relief of traffic problems throughout the state. The projects to be investigated must propose facilities to be financed by revenue bonds of the Authority to be repaid by tolls or charges.

"Sec. 15. Any sums expended under the provisions of section 14 as to each projected facility which shall be adopted and constructed by the Authority shall be repaid from the revenues of such facility after it becomes operative to the Authority revolving fund. The Authority shall take into account any such expense in setting up any schedule of tolls or charges for such project. The Authority shall make and order an orderly schedule of payments for the recovery of such expenses from any constructed facility within a reasonable time, which schedule shall be so made that it will not interfere with the other necessary expenses to be recovered by tolls or charges but shall operate with such other expense charges. Any sums so recovered shall be paid into the state treasury and by the treasurer deposited in the Authority revolving fund.

"Sec. 16. The Toll Bridge Authority is directed to embark upon an investigation of Puget Sound transportation problems with the view to the preparation of a long range, overall plan for the permanent relief and solution of the unsatisfactory conditions which have prevailed as to cross-sound transportation in the Puget Sound area. The results of such investigation and any plan or plans recommended by the Authority shall be the subject of and embodied in a report which shall be prepared and transmitted to the governor and each member of the thirty-third session of the legislature one month prior to its convening.

"Sec. 17. There is hereby appropriated from the motor vehicle fund to the Authority revolving fund the sum of one hundred twenty-five thousand dollars for the purpose of establishing the permanent Authority revolving fund.
“Sec. 18. There is hereby appropriated from the Authority revolving fund to the Washington Toll Bridge Authority the sum of one hundred twenty-five thousand dollars, or so much thereof as may be necessary, to carry out the provisions of section 14.

“Sec. 19. There is hereby appropriated from the motor vehicle fund to the Washington Toll Bridge Authority the sum of two hundred twenty-five thousand dollars, or so much thereof as may be necessary, to carry out the provisions of section 16.

“Sec. 20. The provisions of this act are to be severable, and if any section, subdivision or clause of this act shall be held to be unconstitutional or invalid, such decision shall not affect the validity of the remaining portions of the act.

“Sec. 21. The Washington Toll Bridge Authority is authorized and directed to complete the location surveys and plans and specifications for a toll tunnel through the Cascade mountains, together with the necessary connections to existing highways, said toll tunnel to be located on an extension to Primary State Highway No. 5, beginning at a point on Primary State Highway No. 5 in the vicinity of the junction of the Greenwater and White rivers, thence in an easterly direction to a junction with Primary State Highway No. 5 in the vicinity north of Clifford. The Authority is further authorized and directed to proceed with the construction and operation of said toll tunnel as soon as finances therefor become available to the Authority.

“Sec. 22. This act is necessary for the immediate preservation of the public peace, health and safety, the support of the state government and its existing public institutions, and shall take effect immediately.”

Amend the title by striking the whole thereof and inserting the following: “An Act relating to the Washington Toll Bridge Authority; regulating the operation of the Puget Sound ferry and toll bridge system by such Authority; providing for the settlement or disposal of certain claims arising during the course of such operations; establishing a permanent revolving fund for certain engineering investigations thereby; and making an appropriation from the motor vehicle fund therefor; and making a further appropriation from the motor vehicle fund for an investigation by said Authority into projects for the solution of the cross-sound transportation problem; amending sections 47.60.140, 47.64.070 and 47.60.100, R.C.W.; adding sections to chapter 47.60, R.C.W.; and declaring an emergency.”

MR. PRESIDENT:

MR. SPEAKER:

We, of your Free Conference Committee, to whom was referred Engrossed House Bill No. 190, relating to certain "spendthrift" trusts have had the same under consideration, and we recommend that Engrossed House Bill No. 190 be amended to read as follows and that the amended bill do pass:

Amend the bill by striking everything after the enacting clause and insert the following:

"Section 1. Nothing in section 6.08.25, R.C.W., as derived from section 25, chapter CXXXIII (133), Laws of 1893, shall forbid execution upon the income of any trust created by a person other than the judgment debtor for debt arising through the furnishing of the necessities of life to the beneficiary of such trust; or as to such income forbid the enforcement of any order of the superior court requiring the payment of support for the children under the age of eighteen of any beneficiary; or forbid the enforcement of any order of the superior court subjecting the vested remainder of any such trust upon its expiration to execution for the debts of the remainderman.

"Sec. 2. The trustee or trustees appointed by any will, deed or agreement heretofore or hereafter executed shall mail or deliver at least annually to each adult income trust beneficiary a written itemized statement of all current receipts and disbursements made by the trustee of the funds of the trust both principal and income, and upon the request of any such beneficiary shall furnish him an itemized statement of all property then held by such trustee, and may also file any such statement in the superior court of the county in which the trustee or one of the trustees resides.

"Sec. 3. In addition thereto any such trustee or trustees whenever it or they so desire, may file in the superior court of the county in which the trustees or one of the trustees resides an intermediate account under oath showing:

"(1) The period covered by the account;

"(2) The total principal with which the trustee is chargeable according to the last preceding account or the inventory if there is no preceding account;

"(3) An itemized statement of all principal funds received and disbursed during such period;

"(4) An itemized statement of all income received and disbursed during such period, unless waived;

"(5) The balance of such principal and income remaining at the close of such period and how invested;

"(6) The names and addresses of all living beneficiaries, including contingent beneficiaries, of the trust, and a statement as to any such beneficiary known to be under legal disability;

"(7) A description of any possible unborn or unascertained beneficiary and his interest in the trust fund.

"In addition thereto, after the time for termination of the trust shall have arrived, the trustee or trustees may file a final account in similar manner.

"Sec. 4. Upon the petition of any settlor or of any beneficiary of such a trust after due notice thereof to the trustee the superior court in the county where the trustee or one of the trustees resides may direct the trustee or trustees thereof to file in said court such an account at any time subsequent to one year from the day on which such a report was last filed, or if none, then after one year from the inception of the trust.

"Sec. 5. When any such account shall have been filed the clerk of the court where filed shall fix a return day therefor, and issue a notice as provided for herein. If each of the beneficiaries and the guardians and guardians ad litem, if any, appointed pursuant to section 6 hereof, is personally served with a copy of the notice, whether within or outside the State of Washington, at least twenty-five days prior to the return day, then no publication of the notice shall be required; otherwise the trustees shall cause notice
as provided for herein to be given by publishing the same at least once a week for three successive weeks preceding the return day, the first publication to be at least twenty-five days preceding the return day, such publication to be in a newspaper of general circulation in the county, or if none then in an adjoining county. And in any event at least twenty-five days prior to the return day a copy of the notice shall be either served upon each beneficiary not represented by guardian or guardian ad litem or mailed to each such beneficiary not so served at such beneficiary’s address last known to the trustee; and shall be either served upon each guardian and guardian ad litem appointed pursuant to section 6 hereof, or mailed to each such guardian and guardian ad litem not so served at such guardian or guardian ad litem’s address last known to the trustee. Proof of service of the notice may be made by affidavit as provided for service of summons in civil actions, or by written admission of service signed by the person served. The notice shall state the time and place for the return day, the name or names of the trustee or trustees who have filed the account, that the account has been filed, that the court is asked to settle such account, and that any objections or exceptions thereto must be filed with the clerk of said court on or before such return day.

“Sec. 6. Upon or before the return day any beneficiary of the trust may file his written objections or exceptions to the account filed or to any action of the trustee or trustees set forth therein. The court shall appoint either the legal guardian of a beneficiary, or a guardian ad litem to represent the interests of any such beneficiary who is an infant or of unsound mind or otherwise legally incompetent, or who is yet unborn or unascertained, and such beneficiary shall be bound by any action taken by such representative. Every unborn or unascertained beneficiary shall be concluded by any action taken by the court for or against any living beneficiary of the same class or whose interests are similar to the interests of such unborn or unascertained beneficiary.

“Sec. 7. At the same time or at some later date fixed by the court if so requested by one or more of the parties, the court without the intervention of a jury and after hearing all the evidence submitted shall determine the correctness of the account and the validity and propriety of all actions of the trustee or trustees set forth therein including the purchase, retention and disposition of any of the property and funds of the trust, and shall render its decree either approving or disapproving the same or any part thereof, and surcharging the trustee or trustees for all losses, if any, caused by negligent or wilful breaches of trust.

“Sec. 8. The decree so rendered shall be deemed final, conclusive and binding upon all the parties interested including all incompetent, unborn and unascertained beneficiaries of the trust subject only to the right of appeal hereinafter stated.

“Sec. 9. The decree so rendered shall be a final order from which any party in interest may appeal as in civil actions to the supreme court of the State of Washington.

“Sec. 10. This act shall not apply to resulting trusts, constructive trusts, business trusts where certificates of beneficial interest are issued to the beneficiaries, investment trusts, voting trusts, insurance trusts prior to the death of the insured, trusts in the nature of mortgages or pledges, trusts created by judgment or decree of a federal court or of the superior court when not sitting in probate, liquidation trusts or trusts for the sole purpose of paying dividends, interests or interest coupons, salaries, wages or pensions; nor shall this act apply to executors, administrators or guardians.

“Sec. 11. The settlor of any trust governed by this act may waive any or all of the provisions of section 2 of this act requiring periodical statements to beneficiaries, or may add additional duties, in the instrument creating the trust; and any adult beneficiary entitled to an accounting by a separate instrument delivered to the trustee.

“Sec. 12. This act is declared to be of similar import to the uniform trustees’ accounting act. A provision in any will, deed or agreement heretofore or hereafter executed which provides in substance:

“(1) That the requirements or provisions of the uniform trustees’ accounting act, whether by name or other reference thereto are waived, or that the trustee shall not be required to comply therewith; or

“(2) That the requirements or provisions of any other act of like or similar import are waived, or that the trustee shall not be required to comply therewith; shall constitute a waiver by the settlor pursuant to section 11 of this act.

“Sec. 13. If any provision of this act or the application thereof to any person or circumstance is held invalid, such invalidity shall not affect other provisions or applications of this act which can be given effect without the invalid provision or application, and to this end the provisions of this act are declared severable.
"Sec. 14. Chapter 11.21, R.C.W., as derived from chapter 229, Laws of 1941, as amended, is repealed."

Amend the title by striking the whole thereof and insert in lieu thereof the following:

No provisional license may be issued unless the applicant makes at least minimum provision for the health and safety of the child and unless the department finds that an emergent need exists for the type of service the applicant proposes to render. Such provisional license shall in no event be issued for a period in excess of six months and shall not be subject to renewal.

"Sec. 9. (a) Any license issued pursuant to this act may be denied, suspended or revoked by the director upon proof (1) that the licensee has failed or refused to comply with the provisions of this act or the rules and regulations promulgated pursuant to the provisions of this act, or (2) that the conditions required for the issuance of a license under this act have ceased to exist with respect to such licenses.

"(b) Whenever the director shall have reasonable cause to believe that grounds for the denial, suspension or revocation of a license exist or that a licensee has failed to qualify for renewal of a license he shall notify the licensee in writing stating the grounds upon which it is proposed that the license be denied, suspended, revoked or not renewed.

"The director shall promulgate and publish rules and regulations governing the conduct of hearings. If no request for hearing is made within the time specified, the license shall be deemed denied, suspended or revoked. It shall be the duty of the department within thirty days after the date of the hearing to notify the appellant of the decision of the director.

"Sec. 10. In the event that an applicant or licensee feels aggrieved by the decision rendered in the hearing provided for in the foregoing section, he shall have the right to appeal to the superior court of the county of his legal residence which appeal shall be taken by a notice filed with the clerk of the court and served upon the director either by registered mail or by personal service within fifteen days after the decision of the department. Upon receipt of the notice of appeal, the clerk of the superior court shall immediately docket the case for trial.

"Within ten days after being served with a notice of appeal the director shall file with the clerk of the court the record of the case on appeal, and no further pleadings shall be necessary to bring the appeal to issue.

"The court shall decide the case on the record. The findings of the director as to the facts shall be conclusive unless the court determines that such findings are not supported by a preponderance of the evidence in the record.

"The court may affirm the decision of the director or reverse any decision of the director where it finds the director has acted arbitrarily, capriciously or contrary to law, and remand the cause to the director for further proceedings in conformity with the decision of the court. Either party may appeal from the decision of the superior court to the supreme court of the state, which appeal shall be taken and conducted in the manner provided for by law or by the rules of the court applicable to civil appeals.

"Sec. 11. A copy of the articles of incorporation or amendment of the articles of existing corporations for agencies shall be sent by the secretary of state to the department of social security at the time such articles are filed.

"Sec. 12. It is the duty of all agencies, pursuant to this act, to accord the department or its agents the right of entrance, privilege of inspection, and access to its records of work for the purpose of ascertaining the kind and quality of work done and of obtaining a proper basis for its recommendations.

"Sec. 13. The term 'foster home' as used in this act shall mean a family home which is operated with or without compensation to provide care on a twenty-four hour basis or during a period of the twenty-four hours a day in lieu of the child's own home. It shall not include within its scope the occasional care of a neighbor's, relative's or friend's child or children with or without compensation or where the person does not regularly engage in such activity or where the parents on a mutually cooperative basis exchange care of one another's children.

"Sec. 14. The department shall have the power, and it shall be its duty, through the children's staff of the department:
"(1) To issue and renew licenses to applicants who have complied with the following standards either directly or through the county welfare departments acting for the department of licensees of the department as prescribed by rules and regulations.  
(a) The applicant for a certificate of approval as a foster home must be a person of good character.  
(b) The foster home care of the applicant must provide adequately for the protection of the health, safety, physical, mental and moral well-being of the child or children to be cared for by the applicant.  
(2) To promulgate and publish rules and regulations in implementation of these standards governing the issuance and renewal of certificates of approval.  
(3) To inspect and supervise all foster homes to enforce the application of the rules and regulations.  
(4) To deny, revoke or suspend the certificate of approval of any foster home which has failed or refused to comply with the provisions of this act or the rules and regulations promulgated pursuant to this act.  
Sec. 15. Notwithstanding the existence or pursuit of any other remedy, the department of social security may, in the manner provided by law, upon the advice of the attorney general who shall represent the department in the proceeding, maintain an action in the name of the state for injunction or other process against any person, partnership, association, or corporation, or any private institution, agency or foster home, which shall hereafter give temporary or permanent care or custody to a child or children, or an illegitimate pregnant woman or women not related by blood, marriage or adoption to such person, without having a license from the department or a certificate of approval as a foster home, or who shall place for temporary or permanent care or for adoption, a child or children not related to him by blood, marriage or adoption without having a license or certificate of approval, as heretofore provided in this act.  
Sec. 16. Nothing in this act or the rules and regulations adopted pursuant thereto shall be construed as authorizing the supervision, regulation, or control of the remedial care or treatment of residents of any agency, children's institution, child placing agency, maternity home, day or hourly nursery, foster home or other related institution conducted for or by members of a recognized religious sect, denomination or organization which in accordance with its creed, tenets, or principles depends for healing upon prayer in the practice of religion, nor shall the existence of any of the above conditions militate against the licensing of such a home or institution.  
Sec. 17. Every person having the care and custody, whether temporary or permanent, of minor children under the age of twelve years, who shall leave such children in a parked automobile unattended by an adult while such person enters a tavern or other premises where vinous spirituous or malt liquors are dispensed for consumption on the premises shall be guilty of a gross misdemeanor.

REPORT OF FREE CONFERENCE COMMITTEE

Olympia, Wash., March 8, 1951.

Mr. President:

Mr. Speaker:

We, of your Free Conference Committee, to whom was referred Engrossed Senate Bill No. 100, relating to sureties and providing for joint control, have had the same under consideration, and we recommend that the bill do pass the Senate and the House with the following amendments:

Amend the bill by striking everything after the enacting clause and inserting in lieu thereof the following:

"Section 1. Section 11.52.010, R.C.W., as derived from section 103, chapter 156, Laws of 1917, as last amended by section 1, chapter 102, Laws of 1949, is divided into sections 2 to 5, inclusive herein, and is amended to read as follows:

"Sec. 2. If it is made to appear to the satisfaction of the court that no homestead has been claimed in the manner provided by law, either prior or subsequent to the death of the person whose estate is being administered, then the court, after hearing and upon being satisfied that the funeral expenses, expenses of last sickness and of administration have been paid or provided for, and upon petition for that purpose, shall award and set off to the surviving spouse, if any, property of the estate, either community or separate, not exceeding the value of six thousand dollars exclusive of general taxes and special assessments which were liens at the time of the death of the deceased spouse, and exclusive of any mortgage or mechanic's, laborer's or materialmen's or vendor's liens upon the property so set off, and exclusive of funeral expenses, expenses of last sickness and administration, which expenses may be deducted from the gross value in determining the value to be set off to the surviving spouse.

"Sec. 3. The property so set off shall include the home and household goods, if any, and such award shall be made by an order or judgment of the court and shall vest the absolute title, and thereafter there shall be no further administration upon such portion of the estate so set off, but the remainder of the estate shall be settled as other estates: Provided, That no property of the estate shall be awarded or set off, as in this act provided, to a surviving spouse who has feloniously killed the deceased spouse: Provided Further, That if it shall appear to the court, either (1) that there are minor or incompetent children of the deceased by a former marriage or by adoption prior to decedent's marriage to petitioner, or (2) that the petitioning surviving spouse has abandoned his or her minor children or wilfully and wrongfully failed to provide for them, or (3) if such surviving spouse is entitled to receive insurance on the life of the deceased spouse in the sum of five thousand dollars, or more, then the award in lieu of homestead and exemptions shall lie in the discretion of the court, and that whether there shall be an award and the amount thereof shall be determined by the court, who shall enter such decree as shall be just and equitable but not in excess of the award provided herein.

"Sec. 4. Notice of such hearing shall be given by posting a notice in three public places in the county in which the hearing is to be held. Said notice may be posted by the clerk of the superior court of the county in which the hearing is to be held, or may be posted by any person qualified to serve a summons in a civil action. Said notices shall be posted at least ten days prior to the date fixed for the hearing. If there be any
minor child or incompetent heir of the decedent, the court shall appoint a guardian ad
litem for such minor child or incompetent heir, who shall appear at the hearing and
represent the interest of such minor child or incompetent heir.

"Sec. 5. The order of judgment of the court making the award or awards provided
for in this • • • • act shall be conclusive and final, except on appeal and
except for fraud. The awards in this • • • • act provided shall be in
lieu of all homestead provisions of the law and of exemptions. The said property, when
set aside as herein provided, shall be exempt from all claims for the payment of any
debt of the deceased or of the surviving spouse existing at the time of death, whether
such debt be individual or community. Under this • • • • act, the court
shall not award more property than could be awarded under the law in effect at the
time of the death of the deceased spouse.

"The awards provided for in this • • • • act shall not be taken from
separate property of the deceased which is otherwise disposed of by will.

"Sec. 6. Section 11.52.020, R.C.W., as derived from section 104, chapter 156, Laws of
1917, as last amended by section 2, chapter 102, Laws of 1949, is divided into sections 7
to 9, Inclusive herein, and is amended to read as follows:

"Sec. 7. In event a homestead has been, or shall be selected in the manner provided
by law, whether the selection of such homestead results in vesting the complete or
partial title in the survivor, it shall be the duty of the court, upon petition of any person
interested, and upon being satisfied that the value thereof does not exceed • • • • six thousand dollars, exclusive of general taxes and special assessments which
were liens at the time of the death of the deceased and exclusive of mortgages, me­
chanic's, laborer's, materialmen's or vendor's liens thereon, and exclusive of funeral
expenses, expenses of last sickness and of administration, which expenses may be de­
ducted from the gross value in determining the value to be set off to the surviving
spouse, to enter a decree, upon such notice as the court may determine, setting off and
awarding such homestead to the survivor, thereby vesting the title thereto in fee simple
in the survivor.

"Sec. 8. If the value of the homestead, exclusive of all such liens, be less than
• • • • six thousand dollars, the court, upon being satisfied that the funeral
expenses, expenses of last sickness and of administration, have been paid or provided
for, shall set off and award additional property, either separate or community, in lieu
of such deficiency, so that the value of the homestead, exclusive of all such liens and
expenses when added to the value of the other property awarded, exclusive of all such
liens and expenses shall equal • • • • six thousand dollars: Provided,
That if it shall appear to the court, either (1) there are minor or incompetent children
of the deceased by a former marriage or by adoption prior to decedent's marriage to
petitioner, or (2) that the petitioning surviving spouse has abandoned his or her minor
children or wilfully and wrongfully failed to provide for them, or (3) if such surviving
spouse is entitled to receive insurance on the life of the deceased spouse in the sum
of five thousand dollars, or more, then the award of property in addition to the home­
stead, where the homestead is of less than • • • • six thousand dollars in value, shall lie in the discretion of the court, and that whether there shall be an
award in addition to the homestead and the amount thereof shall be determined by the
court, who shall enter such decree as shall be just and equitable, but not in excess of
the award provided herein.

"Sec. 9. Said decree shall particularly describe the said homestead and other property
so awarded, and such homestead and other property so awarded shall not be subject to
further administration, and such decree shall be conclusive and final, except on appeal,
and except for fraud, and such awards shall be in lieu of all further homestead rights
and of all exemptions. The property in addition to the homestead, when set aside as
herein provided, shall be exempt from all claims for the payment of any debt of de­
ceseed or of the surviving spouse existing at the time of death, whether such debt be
individual or community. Under this • • • • act the court shall not
award more property than could be awarded under the law in effect at the time of the
death of the deceased spouse.

"The awards provided for in this • • • • act shall not be taken from
separate property of the deceased which is otherwise disposed by will."

Amend the title by striking the whole thereof and inserting the following: "An Act
relating to probate law and procedure; providing for the rewarding and setting aside of
property of decedent to surviving spouse in lieu of homestead, and amending sections 11.52.010 and 11.52.020, R.C.W."

MOTION

Mr. Hurley:

"Mr. Speaker, I move that we do now request and consider a report of the committee which was appointed by unanimous request of the House to investigate the alleged bribery action which took place here on the fifty-eighth day of the legislature."

Mr. Mardesich:

"As chairman of the bribery investigation committee, we would like to pass on to Mr. Hurley and other members the fact that this committee is not yet prepared to render a full report but that such a report will be presented before the legislature announces its final adjournment."

Mr. Hurley:

"Will the chairman of the committee yield to a question?"

The Speaker:

"Does the gentleman yield?"

Mr. Hurley:

"It is my information that a report has been prepared already by certain members of the committee. Could you advise us when your report will be ready?"
Mr. Mardesich:  
"Will Mr. Hurley yield?"

Mr. Hurley:  
"Surely."

Mr. Mardesich:  
"I might ask what the source of your information is, indicating there has been a report prepared."

Mr. Hurley:  
"You may ask, but I will not tell you. Will you answer my question?"

Mr. Mardesich:  
"Then I will not answer yours."

Mr. Hurley:  
"Mr. Speaker, the chairman has said the report will be submitted before we adjourn. I want to ask him when it will be prepared."

The Speaker:  
"You may ask the question but it is not a point of personal privilege."

Mr. Mardesich:  
"If the gentleman will indicate to me when the session will adjourn, I will answer the question."

Mr. Hurley:  
"Will the gentleman yield?"

Mr. Mardesich:  
"Surely."

Mr. Hurley:  
"I wish a statement from the chairman as to whether or not he or any other members of the committee actually intend not to bring in a report if they can help it."

Mr. Mardesich:  
"I intend to bring out a report. Did you get information to the contrary, Mr. Hurley?"

Mr. Hurley:  
"It seems to me, Mr. Chairman, that your report is not even in the process of being typed and here we are in the closing days."

Mr. Mardesich:  
"Mr. Speaker, Ladies and Gentlemen:  
"In answer to that question, I would like to point out the committee has agreed that no report would be given unless there was one in which all the members of the committee had concurred and agreed. The committee also agreed that the matter of committee actions and the matter of a committee report, I think, should not be discussed upon the floor of the House.""

PERSONAL PRIVILEGE

Mr. Hurley:  
"Mr. Speaker, I believe the motives of all of us who voted for this particular amendment have been impugned in a certain sense."

POINT OF ORDER

Mr. Rasmussen:  
"Point of order, Mr. Speaker. That matter was raised on the floor and was taken care of by the appointment of a committee to investigate it. I think it is entirely improper for the gentleman to raise the question again."
PERSONAL PRIVILEGE

Mr. Mardesich:
"Mr. Speaker, I believe Mr. Hurley is impugning my motives."

The Speaker:
"Do you desire the gentleman to apologize?"

Mr. Mardesich:
"I do."

Mr. Hurley:
"I have asked for a simple answer to a simple question. It was the unanimous re­quest of this body that we have such a report and it appears now that we are not going to get it."

The Speaker:
"The gentleman raised the point that you were impugning his motives in inferring that a report would not be made, and the gentleman said a report would be made and desires an apology."

Mr. Hurley:
"I don't know what his motives are. How could I impugn them?"

Mr. Mardesich:
"I did state that there would be a report out."

The Speaker:
"The gentleman, Mr. Johnston."

Mr. Johnston (Elmer E.):
"Mr. Speaker, I think we all are entitled to know whether or not there will be a report out. Now, the voting of every member of this House has been impugned, more or less. We passed a resolution to have the matter looked into. This matter has not only cast a reflection on us but on all of the people standing around in the corridors and in these halls. I think it is time now, in these closing hours of the session, to know what this committee is going to do, and I for one, Mr. Speaker, would like to insist that the chairman of this committee tell us when he will bring in this report."

Mr. Carty:
"Mr. Speaker, I believe that these two gentlemen from Spokane who are so worried might well have asked the committee before they expressed this sense of trial on the floor. To my knowledge, neither one of these gentlemen has asked the committee while it was in session, nor expressed his worry and asked for some solution to his problem. I think it is highly improper for them at this time or any other time to bring their troubles out on the floor of the House before they ask members of the committee itself."

Mr. Orndorff:
"Mr. Speaker, I have spent several days trying to assist the committee in reaching a report."

POINT OF ORDER

Mr. Mardesich:
"Mr. Speaker, I think that Mr. Orndorff might take cognizance of the few agreements the committee made with respect to what would and what would not come out of committee before any agreement was reached. If he is to make statements regarding that, it should be done by the agreement of the committee."

Mr. Orndorff:
"All I have to say is, it may not be a majority report, but whenever the House wants a report, I'll produce one and I am prepared to do it now or any other time."

—31
MOTION

Mr. Hurley:
"Mr. Speaker, I move that Mr. Orndorff be requested to put in his report and have the reading clerk read it in full."

Mr. Roderick:
"I move that the motion by Mr. Hurley be laid on the table."

The Speaker:
"The Speaker has not presented the motion before the House yet. The gentleman, Mr. O'Brien.

QUESTION OF CONSIDERATION

Mr. O'Brien:
"I was going to raise the question of consideration on the motion."

The Speaker:
"The Speaker was debating in his own mind whether the point of consideration is in order before the question has been put. The Speaker will rule in this instance that the point of consideration could be raised on the motion before the question is decided as to whether the motion is in order. The body itself may determine in that manner whether it desires to consider the question.

"The question before the House is the question of consideration raised by Mr. O'Brien and a vote of 'aye' is a vote to consider the motion by Mr. Hurley."

The House voted on a rising vote not to consider the motion by Mr. Hurley.

POINT OF INFORMATION

Mr. Jones (W. Kenneth):
"Mr. Speaker, am I to gather from this vote that the House does not even want to hear the report of this committee?"

The Speaker:
"The chairman of the committee has assured us there will be a report, and I am sure there will be a report from the committee, Mr. Jones."

SENATE AMENDMENTS TO HOUSE BILL

Senate Chamber,
Olympia, Wash., March 8, 1951.

Mr. Speaker:

The Senate has passed: Engrossed House Bill No. 408 with the following amend­ments:

Amend the bill by striking everything after the enacting clause and inserting in lieu thereof the following:

"Section 1. Section 82.20.010, R.C.W., as derived from section 12, chapter 228, Laws of 1949, is amended to read as follows:

"There is levied and there shall be collected a tax upon each sale of real property or any estate or interest in real property (unless the deed, instrument, or writing is deposited in escrow before May 1, 1951) in the amount of one dollar for each one hundred dollars or fractional part thereof of the purchase price. The tax shall be the obligation of the purchaser, but the lien provided for in Sec. 7 hereof shall in any event attach at the time of any sale.

"Sec. 2. The term ‘sale’ shall have its ordinary meaning and shall include any conveyance, grant, assignment, quit-claim, or transfer of the ownership of or title to real property or any estate or interest in real property for a valuable consideration, and any contract for such conveyance, grant, assignment, quit-claim, or transfer, and any lease with an option to purchase real property or any estate or interest in real property or other contract under which possession of the property is given to the purchaser, or any other person by his direction, while title is retained by the vendor as security for the payment of the purchase price.

"The term shall not include a transfer by gift, devise, or inheritance, a transfer of any leasehold interest other than of the type mentioned above, a mortgage or other transfer of an interest in real property merely to secure a debt, nor a transfer in compliance with the terms of any lease or contract upon which the tax as imposed by this chapter has been paid.

"Sec. 3. The term ‘purchase price’ means the consideration, including money or anything of value, paid or delivered or contracted to be paid or delivered in return for the transfer of the real property or estate or interest in real property, and shall include the amount of any lien, mortgage, or other incumbrance, either given to secure the purchase price, or any part thereof, or remaining unpaid on such property at the time of sale. In the case of leases with option to purchase, the tax commission may provide by regulation for payment of this tax upon the total amount of the installments or rentals contracted to be paid, upon the portion thereof representing the true market value of the real property or estate or interest in real property subject to transfer under the option, or payment on the purchase price at the time of the execution of the option. In any case where the purchase price is not separately stated, or does not reflect the true market value of the real property or estate or interest transferred or to be transferred, the tax commission may render its order establishing the purchase price, which shall correspond as nearly as possible to the true market value at the time of sale.

"Sec. 4. The term ‘purchaser’ includes all persons included within the meaning of the word ‘buyer’ in section 82.02.01, R.C.W., except that it shall not include the United States or the State of Washington.

"Sec. 5. At the time of filing with the county auditor the purchaser, owner, or his agent, shall certify in writing on the instrument the true amount of the purchase price. Any person who shall make any false or fraudulent statement, with intent to defraud the state or evade the payment of this tax or any part thereof shall be guilty of perjury in the second degree; and any corporation or company for which such a false or fraudulent statement is made shall be punished on conviction thereof, by a fine of not more than one thousand dollars.

"Sec. 6. It shall be unlawful for the county auditor to accept the filing for record or registry of any deed, instrument, or writing without there being affixed thereto stamps in an amount sufficient to pay the tax due on the purchase price certified thereon.

"Sec. 7. The tax shall be a specific lien upon each piece of real property sold from the time of the sale until the tax shall have been paid, which lien may be foreclosed in the manner provided for the foreclosure of mortgages. The lien shall be removed if the deed, instrument, or other writing shall have been filed with the county auditor with stamps affixed thereto in an amount equal to the tax due on the purchase price certified thereon or if the purchaser has obtained from the tax commission or its authorized agent a satisfaction of such lien, which satisfaction may be obtained by proof that
sufficient stamps have been affixed to the deed, instrument, or other writing and cancelled as provided in this act.

"Sec. 8. The tax, and any penalties or interest thereon, may be collected by the state by an action of debt against the purchaser, by the issuance of and by collection from the purchaser upon a warrant as provided for in sections 82.32.210, 82.32.220 and 82.09.24, R.C.W., or by foreclosure of the lien provided for in the preceding section, and resort to one course shall not be an election not to pursue the others.

"Sec. 9. It shall be the duty of every licensed real estate broker to report all sales of real property negotiated by him to the tax commission at such intervals and in such manner as the commission shall prescribe. Failure to comply with this section shall be cause for the revocation of his license by the director of licenses.

"Sec. 9-A. Sections 1 to 9, inclusive, of this act shall constitute a part of chapter 82.20, R.C.W., as derived from Title VIII, chapter 180, Laws of 1935, as amended, and such chapter shall hereafter be known as the 'Real Estate Transaction Tax.'

**POINT OF ORDER**

Mr. Woodall:

"I think it is in order, Mr. Woodall."

"The gentleman from Stevens, Mr. Hodde."

Mr. Hodde:

"I think if the gentleman wants to consider either one of the items separately, he will have to offer an amendment to the amendment."

The proper apportionment and allocation of the deductions with respect to sources of income within and without the state shall be determined under rules and regulations to be prescribed by the tax commission.

“Sec. 48. DEDUCTIONS—LOSSES FROM WASH SALES. Any loss claimed to have been sustained from the sale or other disposition of stock or securities under the circumstances stated in section 118 of the internal revenue code shall be allowed only to the extent permitted under the terms of said section 118. The tax commission shall prescribe regulations conforming as nearly as may be with those prescribed under the federal law for the purpose of making this section effective.

“Sec. 49. DEDUCTIONS—Basis. (a) Losses and Bad Debts. The basis for determining the amount of deduction for losses sustained, to be allowed under section 47(a) (3), and for bad debts, to be allowed under section 47(a) (4), shall be the adjusted basis provided in section 43(f) for determining the loss from the sale or other disposition of property.

“(b) Depreciation. The basis upon which exhaustion, wear and tear, and obsolescence are to be allowed in respect of any property shall be the adjusted basis provided in section 43(f) for the purpose of determining the gain upon the sale or other disposition of such property.

“(c) Depletion. (1) The basis upon which depletion is to be allowed in respect of any property shall be the adjusted basis provided in section 43(f) for the purpose of determining the gain upon the sale or other disposition of such property, except as provided in paragraph (2) of this subsection.

“(2) To the extent permitted under the provisions of section 114(b) (2) of the internal revenue code and subject to the restrictions and limitations imposed under the provisions of the said section 114(b) (2), the tax commission may provide by regulation that the basis for depletion in the case of mines of the type described in said section 114(b) (2) discovered by the taxpayer from and after the date when this chapter becomes effective, shall be the discovery value of such mines.

“Sec. 50. DEDUCTIONS—RETURN OF TOTAL INCOME. A corporation shall receive the benefits of the deductions allowed to it under section 47 only by filing or causing to be filed with the tax commission an accurate and true return of its total income received from all sources, whether within or without the state.

“Sec. 51. GROSS INCOME—ITEMS NOT DEDUCTIBLE. In computing net income under this chapter no deduction shall be allowable in respect of any item which, under the
provisions of section 24 of the internal revenue code, is not allowed as a deduction for
the purpose of computing net income under the said code.

"Sec. 52. Capital Gains and Losses. (a) Amount Taken into Account. In the
case of a taxpayer subject to the provisions of this chapter the entire amount of the
gain or loss recognized upon the sale or exchange of a capital asset shall be taken into
account in computing net capital gain, net capital loss, and net income.

"(b) Internal Revenue Code Provisions Incorporated. For the purpose of this section,
all of the provisions of subsections (a), (d)(1), (e)(1), (f), (g), (h), (i), (j), (k),
(l), and (m) of section 117 of the internal revenue code shall apply, to the extent that
such provisions are not in conflict with the express provisions of this chapter, as though
fully set forth herein.

"Sec. 53. Income—Allocation and Apportionment. (a) Allocation—Property, Busi-
ness and Personal Service. Interest, rents, royalties, gains, profits and income (less
related deductions) received or derived in connection with property owned, or a trade
or business carried on and compensation for personal services performed in the State
of Washington shall be allocated to the state, and where received or derived in connec-
tion with the property owned, or with a trade or business carried on or service per-
formed without the state shall be allocated without the state.

"(b) Allocation—Separate Accounting. Where the trade or business of a taxpayer
is carried on both within and without the state the tax shall be computed upon such
portion of the taxpayer's entire net income as is received or derived from sales wher-
ever made of goods, wares and merchandise manufactured or originating in the state,
and also from other business done or property located within the state. Such portion
of the net income allocable to the state shall be determined by an allocation and
separate accounting based upon the books of the taxpayer.

"(c) Apportionment of Net Income. The state shall be apportioned all net income
domestic corporations with no places of business outside the state. In cases where
the books of the taxpayer do not in the opinion of the tax commission clearly and
accurately state all of the factors so as to reflect clearly and accurately the allocation
of business done and income received or derived, to the state, then the tax shall be
computed upon such proportion of the entire net income of such taxpayer as the sales,
payroll, and value of tangible property located in the state on the last day of the
taxable year bears to sales, payroll, and value of tangible property within and without
the state. In determining the fair market value of property situated without the state,
the tax commission may accept the values as given in the taxpayer's books, if in its
opinion, the same are reasonably correct, and the commission may also require the
taxpayer to furnish under oath such other evidence of the fair market value of such
property as it may find to be necessary. If, however, in the opinion of the tax com-
mission the methods of allocation hereinabove provided do not clearly and accurately
reflect the actual amount of the net income received or derived from any and every
source in the state or from all property owned and every trade or business carried on
in the state by the taxpayer, then the same shall be determined, allocated and appor-
tioned under such rules and regulations, processes and formulae as the tax commission
shall prescribe.

"Sec. 54. Accounting Periods—General Rule. The net income shall be computed
upon the basis of the taxpayer's annual accounting period (fiscal year or calendar year,
as the case may be) in accordance with the method of accounting regularly employed
in keeping the books of such taxpayers; but if no such method of accounting has been
so employed, or if the method employed does not clearly reflect the income, the compu-
tation shall be made in accordance with such method as in the opinion of the tax com-
mmission does clearly reflect the income. If the taxpayer's annual accounting period is
other than a fiscal year as defined in section 36, or if the taxpayer has no annual
accounting period or does not keep books, the net income shall be computed on the
basis of the calendar year. If the taxpayer makes a federal income tax return, its
income shall be computed, for the purposes of this chapter, on the basis of the same
calendar or fiscal year as in such federal income tax return.

"Sec. 55. Period in Which Items of Gross Income Included. The taxable year in
which the amount of any item of gross income shall be regarded as gross income for
the purposes of this chapter shall be determined in accordance with the provisions
of section 42 of the internal revenue code.

"Sec. 56. Accounting Periods—Deductions and Credits. The taxable year in which
any deduction or credit allowed under this chapter shall be taken shall be determined in
accordance with the provisions of section 43 of the internal revenue code.
Sec. 57. ACCOUNTING PERIODS—INSTALLMENT BASIS. (a) Dealers in Personal Property. Under regulations prescribed by the commission, a corporation which regularly sells or otherwise disposes of personal property on the installment plan may return as income therefrom in any taxable year that proportion of the installment payments actually received in that year which the gross profit realized or to be realized when payment is completed, bears to the total contract price.

(b) Sales of Realty and Casual Sales of Personalty. In the case (1) of a casual sale or other casual disposition of personal property (other than property of a kind which would properly be included in the inventory of the taxpayer if on hand at the close of the taxable year), for a price exceeding $1,000 or (2) of a sale or other disposition of real property, if in either case the initial payments do not exceed 30 per centum of the selling price, the income may, under regulations prescribed by the commission, be returned on the basis and in the manner above prescribed in this section. As used in this section the term 'initial payments' means the payments received in cash or property other than evidences of indebtedness of the purchaser during the taxable period in which the sale or other disposition is made.

(c) Change from Accrual to Installment Basis. If a taxpayer entitled to the benefits of subsection (a) elects for any taxable year to report its net income on the installment basis, then in computing its income for the year of change or any subsequent year, amounts actually received during any such year on account of sales or other dispositions of property made in any prior year shall not be excluded.

(d) Gain or Loss Upon Disposition of Installment Obligations. If an installment obligation is satisfied at other than its face value or distributed, transmitted, sold, or otherwise disposed of, gain or loss shall result to the extent of the difference between the basis of the obligation and (1) in the case of satisfaction at other than face value or a sale or exchange—the amount realized, or (2) in case of a distribution, transmission, or disposition otherwise than by sale or exchange—the fair market value of the obligation at the time of such distribution, transmission, or disposition. Any gain or loss so resulting shall be considered as resulting from the sale or exchange of the property in respect of which the installment obligation was received. The basis of the obligation shall be the excess of the face value of the obligation over an amount equal to the income which would be returnable were the obligation satisfied in full. If an installment obligation is distributed by one corporation to another corporation in the course of a liquidation, and under section 112 (b) (6) of the internal revenue code no gain or loss with respect to the receipt of such obligation is recognized in the case of the recipient corporation, then no gain or loss with respect to the distribution of such obligation shall be recognized in the case of the distributing corporation.

Sec. 58. ACCOUNTING PERIODS—CHANGE OF PERIOD. If a taxpayer changes its accounting period from fiscal year to calendar year, from calendar year to fiscal year, or from one fiscal year to another, the net income shall, with the approval of the tax commission, be computed on the basis of such new accounting period, subject to the provisions of section 59 of this chapter.

Sec. 59. ACCOUNTING PERIODS—LESS THAN TWELVE MONTHS. (a) Change of Accounting Period. If a taxpayer, with the approval of the tax commission, changes the basis of computing net income from fiscal year to calendar year, or from calendar year to fiscal year, or from one fiscal year to another fiscal year, separate returns shall be filed and income computed in the manner provided in subsections (a), (b) and (c) of section 47 of the internal revenue code and the regulations thereunder.

(b) Returns When Taxpayer Not in Existence for Twelve Months. In the case of a taxpayer not in existence during the whole of an annual accounting period ending on the last day of a month, or, if the taxpayer has no such annual accounting period or does not keep books, during the whole of a calendar year, the returns shall be made for the fractional part of the year during which the taxpayer was in existence.

Sec. 60. ACCOUNTING RECORDS. It shall be the duty of every taxpayer to keep and preserve, for a period of five years, such suitable records as may be necessary to determine the amount of tax for which it may be liable under the provisions of this chapter; and all books and records shall be open for examination at any time by the tax commission or its duly authorized agent. In case a taxpayer does not keep the necessary books and records within the state, it shall be sufficient if it produces within the state such books and records as shall be required by the tax commission, or bears the cost of examination by an agent authorized or designated by the commission at the place where such books and records are kept. Any taxpayer who shall fail to comply with the requirements of this section shall be forever barred from questioning.
in any court action or proceeding, the correctness of any assessment of taxes made by
the tax commission and based upon any period for which such books and records have
not been so kept and preserved.

"Sec. 61. ACCOUNTING METHODS—LOCATION OF INCOME AND DEDUCTIONS. In the case
of two or more organizations, trades, or businesses (whether or not incorporated,
whether or not organized in the state, and whether or not affiliated) owned or con-
trolled directly or indirectly by the same interests, and one or more of such organiza-
tions, trades or businesses is or are required to file a tax return under this chapter,
the commission may require each such reporting taxpayer to accompany its return
with a return for the same period for each of such other organizations, trades or busi-
nesses, which last-mentioned return may be required to be as complete as that required
under this chapter from a taxpayer taxable thereunder. Upon receipt of such returns (or
without such returns if the same be not provided by this section), the tax
commission is authorized to distribute, apportion, or allocate gross income or deductions
between or among such organizations, trades, or businesses, if it determines that such
distribution, apportionment, or allocation is necessary in order to prevent evasion of
taxes or clearly to reflect the income of any such organizations, trades, or businesses.

"Sec. 62. TAX ADDITIONAL. Taxes imposed by this chapter shall be in addition to
any and all other licenses, taxes and excises levied or imposed by the state or any
municipal subdivision therefor.

"Sec. 63. LICENSE FEES—OFFSET. Against the tax computed in conformity with the
provisions of this chapter, the taxpayer shall be entitled to an offset in the amount
of current annual corporate license fees actually paid to the state during the income
year for which the return is made.

"Sec. 64. TAX RETURNS—CORPORATIONS AND BANKS. (a) In General. Every cor-
poration subject to taxation under this chapter shall make a return, stating specifically the items of its gross income and the deductions and credits allowed by this chapter and
such other information for the purpose of carrying out the provisions of this chapter as the tax commission may by regulations prescribe. The return shall be sworn to by
the president, vice-president, or other principal officer and by the treasurer, assistant
treasurer, or chief accounting officer. In cases where receivers, trustees in bankruptcy,
or assignees are operating the property or business of corporations, such receivers,
trustees, or assignees shall make returns for such corporations in the same manner and
form as corporations are required to make returns. Any tax due on the basis of such
returns made by receivers, trustees, or assignees shall be collected in the same manner
as if collected from the corporations of whose business or property they have custody
and control.

"(b) Definition. As used in subsection (a) of this section, the word 'corporation'
includes banks, federal savings and loan associations, and national banking associations.

"Sec. 65. RETURN FORMS—DUTY TO FILE. (a) On request, blank forms of return
for income shall be supplied by the tax commission.

"(b) It shall be the duty of the commission to obtain an income tax return from
every taxpayer who is liable under the law to file such return; but this duty shall in no
manner diminish the obligation of the taxpayer to file a return without being called
upon to do so.

"Sec. 66. RETURNS—TIME AND PLACE OF FILING. (a) General Rule. Returns made
on the basis of the calendar year shall be filed with the tax commission on or before
the fifteenth day of March following the close of the calendar year. Returns made
on the basis of a fiscal year shall be filed with the tax commission on or before the
fifteenth day of the third month following the close of the fiscal year.

"(b) Extension of Time. The tax commission may grant a reasonable extension of
time for filing returns whenever good cause therefor exists and shall keep a record
of every such extension. No such extension shall be granted for more than six months.
Extension of time for filing a return shall not extend the time for payment of the tax
unless such an extension is also requested and granted under the provisions of section
69(c) of this chapter. If the time for filing the return and payment shall be extended,
interest at the rate of six per cent per annum from the date when the return was
originally required to be filed to the time of payment shall be added and paid.

"Sec. 67. RECORDS AND SPECIAL RETURNS. (a) Records, Returns and Statements.
Every corporation liable to any tax imposed by this chapter shall keep such records,
render under oath such statements, make such returns, and comply with such rules
and regulations as the tax commission from time to time may prescribe. Whenever
the commission judges it necessary it may require any corporation, by notice served
SIXTIETH DAY, MARCH 8, 1951

upon it, to make a return, render under oath such statements, or keep such records as such commission deems sufficient to show whether or not such corporation is liable to tax under this chapter and the extent of such liability.

"(b) Federal Income Tax Return. Any taxpayer upon request by the tax commission shall furnish to such commission a true and correct copy of its tax return or returns for a taxable year filed or to be filed with the collector of internal revenue pursuant to the requirements of the laws of the United States.

"(c) Adjustment of Federal Tax Liability. Every taxpayer shall notify the tax commission in writing of any alteration in or modification of its federal income tax return and of any recomputation of tax or determination of deficiency (whether with or without assessment). A full statement of the facts shall accompany this notice, which shall be filed within twenty days after such modification, recomputation or determination of deficiency.

"Sec. 66. Copies to Taxpayers. The tax commission, upon written request, shall furnish to the taxpayer a copy of its return upon payment of a fee of one dollar.

"Sec. 69. Payment of Tax. (a) Time of Payment. The total amount of tax imposed by this chapter shall be paid on the fifteenth day of March following the close of the calendar year or, if the return should be made on the basis of a fiscal year, then on the fifteenth day of the third month following the close of the fiscal year.

"(b) Installment Payments. If the total amount of tax shall be twenty-five dollars or more, the taxpayer may elect to pay the tax in two equal installments, in which case the first installment shall be paid on the date prescribed for the payment of the tax by the taxpayer, and the second installment shall be paid on the fifteenth day of the third month after such date. If any installment is not paid on or before the date fixed for its payment, the whole amount of the tax unpaid shall be paid upon notice and demand from the tax commission.

"(c) Extension of Time. At the request of the taxpayer the tax commission may extend the time for payment by the taxpayer of the amount determined as the tax, for a period not to exceed six months from the date prescribed for the payment of the tax or an installment thereof. In such case the amount in respect to which the extension is granted together with interest thereon at the rate of six per cent per annum shall be paid on or before the date of the expiration of the period of the extension.

"(d) Advance Payment. A tax imposed by this chapter, or any installment thereof, may be paid, at the election of the taxpayer, prior to the date prescribed for its payment.

"(e) Fractional Parts of Cent. In the payment of any tax under this chapter a fractional part of a cent shall be disregarded unless it amounts to one-half cent or more, in which case it shall be increased to one cent.

"(f) Tax Commission to Collect. The tax provided under this chapter shall be collected by the tax commission and the revenues derived therefrom shall be transmitted to the state treasurer and credited to the state general fund.

"(g) Receipts. The tax commission, upon written request, shall give to the corporation making payment of any tax collected under this chapter, a full written or printed receipt therefor.

"Sec. 70. Payment—Taxable Year Closed. (a) Tax in Jeopardy—Departure or Concealment. If the tax commission finds that a taxpayer designs quickly to remove its property from the state, or to conceal its property therein or to do any other act tending to prejudice or to render wholly or partly ineffectual proceedings to collect the tax for the taxable year then last past or the taxable year current unless such proceedings be brought without delay, the commission shall declare the taxable period for such taxpayer immediately terminated and shall cause notice of such finding and declaration to be given the taxpayer, together with a demand for immediate payment of the tax for the taxable period so declared terminated and of the tax for the preceding taxable year, or so much of such tax as is unpaid, whether or not the time otherwise allowed by law for filing return and paying the tax has expired, and such taxes shall thereupon become immediately due and payable. In any proceeding in court brought to enforce payment of taxes made due and payable by virtue of the provisions of this section, the finding of the commission made as herein provided, whether made after notice to the taxpayer or not, shall be for all purposes presumptive evidence of the taxpayer's design.

"(b) Tax in Jeopardy—Corporation in Liquidation. If the tax commission finds that the collection of the tax of a corporation for the current or last preceding taxable year will be jeopardized by the distribution of all or a portion of the assets of such corporation in the liquidation of the whole or any part of its capital stock, the tax
commission shall declare the taxable period for such taxpayer immediately terminated and shall cause notice of such finding and declaration to be given the taxpayer, together with a demand for immediate payment of the tax for the taxable period so declared terminated and of the tax for the last preceding taxable year or so much of such tax as is unpaid, whether or not the time otherwise allowed by law for filing return and paying the tax has expired; and such taxes shall thereupon become immediately due and payable.

“(c) Security for Payment. A taxpayer who is not in default in making any return or paying any tax to the state may furnish to the state, under regulations to be prescribed by the commission, security, approved by the commission, that it will duly make the return next thereafter required to be paid. The commission may approve and accept in like manner security for return and payment of taxes made due and payable by virtue of the provisions of this section, provided the taxpayer has paid in full all other taxes due to the state. If security is approved and accepted pursuant to the provision of this subsection and such further or other security with respect of the tax or taxes covered thereby is given as the commission shall from time to time find necessary and require, payment of such taxes shall not be enforced by any proceedings under the provisions of this section prior to the expiration of the time otherwise allowed for paying such taxes.

“(d) Addition to Tax. If taxpayer violates or attempts to violate this section there shall, in addition to all other penalties, be added as part of the tax twenty-five per cent of the total amount of the tax or deficiency in the tax, together with interest at the rate of one per cent a month from the time the tax became due.

“Sec. 71. ADMINISTRATIVE PROVISIONS. All of the provisions of chapter 82.09, R.C.W., except sections 82.09.03, 82.09.04, and 82.09.27, shall have full force and application with respect to the tax imposed by this chapter.

“Sec. 72. Sections 84.10.27 to 84.10.31, both inclusive, R.C.W., and uncodified sections 159 to 184, both inclusive, of chapter 180, Laws of 1935, are hereby repealed.

“Sec. 73. VALIDITY AND CONSTITUTIONALITY—SAVED. If any title, section, subdivision of a section, paragraph, sentence, clause, or word of this act for any reason shall be adjudged invalid, such judgment shall not affect, impair or invalidate the remainder of this act but shall be confined in its operation to the title, section, subdivision of a section, paragraph, sentence, clause, or word of the act directly involved in the controversy in which such judgment shall have been rendered. If any tax imposed under this act shall be adjudged invalid as to any corporation, association or class of corporations or associations included within the scope of the general language of this act, such invalidity shall not affect the liability of any corporation, association, or class of corporations or associations as to which such tax has not been adjudged invalid. It is hereby expressly declared that had any section, subdivision of a section, paragraph, sentence, clause, word or any corporation, association, or class of corporations or associations as to which this act is declared invalid been eliminated from the act at the time the same was considered, the act would have nevertheless been enacted with such portions eliminated.

“Sec. 74. There is hereby appropriated from the general fund, for the fiscal biennium ending March 31, 1953, for the tax commission, the sum of one hundred fifty thousand dollars, or so much thereof as shall be necessary to carry out the provisions of this chapter.

“Sec. 75. This act is necessary for the immediate support of the state government and its existing public institutions and shall take effect May 1, 1951.”

REPORT OF SPECIAL COMMITTEE

We, a majority of the special fact-finding committee, appointed pursuant to House resolution adopted March 4, 1951, to investigate and report upon the alleged attempted bribery made by Mr. John H. Uelman and involving Representatives Reuben Knoblauch and Kenneth H. Simmons, herewith submit our report:

PRELIMINARY STATEMENT

In view of what transpired on the floor of the House Saturday evening in connection with the report of this committee, we, the majority, feel that a statement of the circumstances concerning the preparation and presentation of our report should be made.

Shortly after your committee commenced its work, it became apparent that it was unlikely that the investigation could be concluded during the current session of the legislature, and, accordingly, House Joint Resolution No. 22 was prepared, establishing an interim committee which would have adequate time to make the complete investigation to which we think the House is entitled.

The original opinion of your committee was confirmed by the course of the investigation, and, towards the end of last week, it became certain that your committee would not be able to make a complete report before the adjournment of the current session of the legislature. Accordingly, on Friday, the committee counsel, George Holt, was directed to prepare a draft of a report which could be submitted to the House at this time. He prepared such a report, which was discussed by the committee on Friday afternoon. Mr. Woodall and Mr. Orndorff expressed themselves as dissatisfied with the report and stated that they wished to prepare a report of their own for the consideration of the committee. They prepared such a report Friday night which was submitted to the other members of the committee around Saturday noon. This report went far beyond what had previously been considered the purpose of the committee and a discussion followed as to the scope of this committee and the proper subjects
to be included in its report. When, late Saturday afternoon, it became apparent that it would not be possible to resolve the differences between the majority and the minority of the committee, we of the majority commenced the preparation of a report or our own to be considered by the committee as a whole.

This report prepared by the minority, instead of being a careful analysis of the facts surrounding the bribery incident based on the evidence submitted to the committee, is a partisan, political document. Their report contains statements which were not fully substantiated by the record and, in the opinion of the majority of your committee, was a deliberate political effort to unfairly criticize the conduct of the Speaker of the House of Representatives and of the active opponents of the so-called Spokane Power Bill. Many of the matters mentioned in the minority report should not, in our opinion, have been made public at this time; however, in order to avoid a completely one-sided picture, we of the majority are forced to include similar matters in our own report. It is our opinion that the majority and minority reports, taken together, will make any further conduct of this investigation more difficult and will unnecessarily embarrass the witnesses who appeared before the committee voluntarily and cooperated with it during the course of its investigation.

FINDINGS

In the present uncompleted state of the investigation, when a substantial portion of the testimony has not, as yet, been transcribed, much less, carefully reviewed and analyzed, we, the majority of your committee feel that only the following tentative findings are proper:

1. Mr. Uleman did attempt to bribe Representatives Simmons and Knoblauch to vote in favor of the Spokane Power Bill in substantially the manner stated by Mr. Simmons on the floor and as reported in the newspapers. Mr. Uleman has pleaded guilty to the charge of "Attempted Bribery" and the final disposition is in the hands of the Superior Court of Thurston County. For that reason, we do not feel it proper to discuss possible mitigating circumstances developed in the record. In our opinion, his story to the committee is full of inconsistencies and he has wholly failed to offer any credible explanation for his conduct in this matter. The committee has been unable to develop any reasonable and complete explanation of the facts and circumstances surrounding the attempted bribery. Although it appears likely that Mr. Uleman acted primarily in his own interest, the committee does not wish to exclude the possibility that his action may have been precipitated by other parties. Up to date, Mr. Uleman has not been shown to have acted on behalf of any private power representative or private power company, nor on behalf of any public power representative or organization.

2. Extreme pressure was brought on various members of the House to vote in favor of the Spokane Power Bill. Although the committee has not fully developed the extent of this pressure, in some instances, at least, it was applied by persons of influence in the legislature by threatening to kill or delay legislation in which the particular House members were interested; however, no illegal influence in this regard has been established by the evidence brought before this committee.

3. In addition to the foregoing findings, we wish to make the following observations to balance statements in the minority report:

THE PROPRIETY OF THE DISCLOSURE FROM THE FLOOR

In view of the criticism of the action taken by the Speaker of the House contained in the minority report, we should like to present our views on this subject. First, it is our opinion that the criticism of the Speaker and other opponents of the Spokane Power Bill are outside the proper scope of this investigation since they relate solely to a matter of legislative tactics and not to unlawful attempts to influence legislation. These criticisms clearly demonstrate the partisan political nature of the minority report. In thinking back over the investigation, it is our opinion that such was the unavowed purpose of the minority from the inception of this committee.

On March 7, 1951, immediately upon being informed by Representative Simmons that an effort had been made to bribe him, the Speaker referred Representative Simmons to Assistant Attorney General Lyle Iversen who was then placed in charge of the entire matter for the purpose of securing competent evidence to obtain a conviction of the party attempting to bribe Representative Simmons. Mr. Iversen initiated the effort to secure independent evidence of the bribe, either by having a transcription of the conversation between Mr. Simmons and Mr. Uleman, or by having a third party present. After discussions with the prosecuting attorney, it was decided
by the prosecuting attorney and Mr. Iversen that an effort should be made to secure the actual payment of money, and thus consummate the crime of bribery. This was to take place at approximately four o'clock p.m. which was after the time the Speaker had resumed his stand on the rostrum. At that time it was uncertain what the outcome of the final meeting between Mr. Uleman and Mr. Simmons would be, and consequently the Speaker did not know what, if anything, Mr. Simmons would wish to state from the floor.

We feel that the conduct of the Speaker in bringing on the Spokane Power Bill for a vote at an earlier time than had been previously planned was perfectly proper in view of the attempted bribe and the steadily increasing pressure on all members of the House which was making a fair vote in this matter increasingly difficult.

LACK OF COOPERATION WITHIN THE COMMITTEE

Upon its inception and at its first meeting, the committee agreed unanimously that strict secrecy would be observed in all matters in connection with the investigation of the alleged bribery attempt. In spite of this agreement, it is apparent by the statements made on the floor of the Senate by Senator Happy and the statements made on the floor of the House by Representative Hurley that the minority members of the committee did not fully live up to this agreement.

Secondly, Mr. Woodall, a member of the committee, was approached by Mr. Neil Hoff, a member of the House of Representatives, with certain information concerning Mr. Simmons. Without consulting other members of the committee and without authority, Mr. Woodall had Mr. Hoff examine witnesses, and Mr. Woodall subsequently used the information furnished by Mr. Hoff in examining a witness before this committee without first disclosing the information to other members of the committee. As a matter of fact, Mr. Hoff's participation was only divulged by Mr. Woodall in response to a direct question from another member of the committee. We, of the majority, are uncertain to what extent the minority members may have conducted other similar investigations, and, of course, are not aware of any information which may have been developed thereby.

SIGNIFICANT FACTS DEVELOPED IN THE INVESTIGATION

1. Mr. John Dierdorff, an officer of the Pacific Power and Light Company admitted that his company had spent at least $12,000.00 in working for the passage of Senate Bill No. 91. Mr. Dierdorff stated that there was no particular risk of his company being affected by joint purchase by PUDs, and further stated that the reason for his company's activity was the belief that any extension of public power would be inimical to their interests. Although the issue was presented as a question of home rule for Spokane, it is interesting to note that Pacific Power and Light paid the expenses and salary of Mr. James Dillard, who came to Olympia as a nominal representative of the Spokane Chamber of Commerce, and also paid the expenses of Mr. Vic Lindberg and Mr. John Salle, members of the Spokane Electrical Union.

2. There is unconfirmed evidence in the record that in addition to the other pressure for the passage of Senate Bill No. 91, telephone calls were made from the Senate appropriations chambers to the effect that the appropriations bill would be held up until Senate Bill No. 91 had received favorable consideration. The minority report contends that the proponents of Senate Bill No. 91 were not given all the facts concerning the attempted bribery when they were requested to have the bill brought on for hearing at an earlier date than had been planned. It should be pointed out that Mr. McGavick admits that Mr. Uleman approached him on two different occasions prior to the disclosure from the floor, discussing the necessity of money to obtain favorable votes from Mr. Simmons and Mr. Knoblauch. Mr. Jim Bolin, who represented the pinball interests in Olympia during this session of the legislature, also called Mr. C. Rea Moore of the Washington Water Power Company and told him that Mr. Uleman thought he had some favorable votes on the bill. Mr. McGavick passed on his information to Mr. Dierdorff, but neither Mr. Dierdorff nor Mr. McGavick saw fit to report the information that a bribe attempt might be made to any official of the legislature, the prosecuting attorney or the attorney general's office.

3. There is a telegram from a business man interested in the Highway Bond Bill, addressed to a member of the Senate, the pertinent portion of which reads as follows: "Understand today from reliable source Spokane if western Senators will vote 'yes' on House Bill No. 557, as amended, east of mountain senators will vote 'yes' on House Bill No. 148."
The writer of the telegram refused to disclose his Spokane source when questioned by the committee counsel and it should be pointed out that the telegram refers to the amendments to House Bill No. 557, although the date of the telegram indicates it was sent before any amendments had been placed on the bill by the Senate.

There is uncertainty concerning the reason why Mr. Steele, a Tacoma attorney, came to represent Mr. Uleman. At the time Mr. Steele first came to the Thurston county courthouse, he had not been contacted by Mr. Uleman, and stated to the prosecuting attorney that he was not then representing Mr. Uleman. After securing an interview with Mr. Uleman, Mr. Steele came back and informed the prosecuting attorney that he was now acting as counsel. Mr. Owen Clarke, Chairman of the Washington Public Service Commission, admits having a conversation with Mr. Steele concerning Mr. Uleman after the attempted bribery and prior to the time that Mr. Steele became Mr. Uleman's attorney. Mr. Clarke stated that his interest in this matter was the result of the interest of Governor Arthur B. Langlie, but Mr. Clarke denied having suggested to Mr. Steele that he should represent Mr. Uleman.

Although Mr. Simmons had a stenographer's testimony proving that Mr. Uleman used Mr. Leo McGavick's name as the source from which he would secure the money, Mr. Simmons carefully refrained from using Mr. McGavick's name on the floor in making his disclosure of the bribe attempt. Since Mr. McGavick is widely known as a representative of the private power interests, the use of his name would, of course, have tied the attempted bribe directly to the proponents of the Spokane Power Bill.

RECOMMENDATIONS

We, a majority of your committee, make the following recommendations:

1. That the Senate concur in House Joint Resolution No. 22 authorizing an interim committee to fully investigate any unlawful attempts to influence legislation during the current session of the Washington state legislature and to complete the work of this committee in investigating the circumstances surrounding the attempted bribery of Representatives Simmons and Knoblauch.

2. That, if the Senate fails to concur in House Joint Resolution No. 22, the files and records of this committee be turned over to the attorney general for review and for such further investigation as he feels may be necessary.

3. That this committee be authorized to continue its investigation until such time as the Senate has concurred in House Joint Resolution No. 22 or as the House has adjourned.

4. That the form of application for lobbyists' floor passes be revised to include a listing by every applicant of all persons, firms, or corporations who are in any way contributing to his salary or expenses and requiring that such statement be signed by the applicant under penalty of perjury; that, in addition, the Legislative Council be requested to consider the desirability of introducing legislation or making other changes in House and Senate rules to more fully control lobbying at future sessions of the Washington state legislature.

AUGUST P. MARDESICH, Chairman.

Additional opportunity was extended to any other Representatives who felt they might have information of value, by public announcement on the floor of the House of Representatives. Particular invitation was extended on three occasions to Representative Bernard J. Gallagher, who, on each occasion stated he was too busy to attend.
From a careful review of all the evidence adduced to date we arrive at the following findings and conclusions:

1. That no one representing the citizens of Spokane or any private power companies as employees, lobbyists or attorneys, were in any way responsible for the alleged bribery attempt.

   A. Mr. John J. Uleman, both in statements to the prosecuting attorney immediately after his arrest and prior to the time he had seen any members of this committee or his own counsel or any other person save law enforcement officials, maintains and did maintain upon examinations before this committee that he was not employed by any power company, citizens of Spokane or any person lawfully authorized to represent either or both of them. He was specifically asked as to his acquaintance with every known representative of the citizens of Spokane and private power companies here in Olympia and denied any acquaintance and evidenced no recognition of the names of any of them, with but one exception.

   B. Numerous private power representatives and representatives of the citizens of Spokane, and other interested parties were called, and, upon oath, denied having made any contact with the said John J. Uleman, and, in only one instance did any one of the aforesaid parties even know him.

   C. Examination of John J. Uleman's activities disclosed that he has had numerous employments; that he was employed in the Martin administration and later discharged for ineptitude, and more recently was employed in the Langlie administration and again discharged for ineptitude; that his most recent political activities consisted of running in the primary elections against Messrs. Simmons and Knoblauch; that he came to Olympia in an attempt to obtain a job with the hotel inspection division of the department of labor and industries and, when told that more funds would be necessary before any employment could be given anyone, sponsored a measure designed to increase the fees charged to hotels and motels for inspection services. Although this bill passed the House, it died in the Senate Rules Committee; while here, the said Uleman attempted to gain employment to assist in the pinball lobby but this employment was refused him. An examination of many witnesses as to Mr. Uleman's general reputation for truth, veracity and responsibility has produced a negative reaction. He is most frequently characterized as a political hanger-on, limited in mental concepts and one who likes to attach himself to what he feels to be important measures and people.

   D. The various representatives of the private power companies and the citizens of Spokane are either former members of the House or Senate or men who have attended the legislature for many sessions, from all of the evidence your committee had at its disposal, they are men of unquestioned character, and who do not offer money as a means of influencing the votes of any members.

   E. There is no evidence before the committee of any improper practices or attempted bribery on the part of any of the lobbyists espousing public power insofar as their contacts with members were concerned or their activities prior to the time of the consideration of the bill in the House or in any of their activities prior to Wednesday, March 7, 1951.

2. Question of Mr. Uleman's guilt or innocence can best be determined by the courts.

   A. This conclusion is reached, notwithstanding the admission of Uleman that he offered twenty-five dollars to Mr. Simmons and Mr. Knoblauch. Uleman has now employed counsel and it may be that after he has been advised by his counsel, he may have some legal defense to the charge of attempted bribery.

   B. Representative Kenneth Simmons was called as a witness on the first afternoon and was later recalled for further examination. On his last appearance, he requested that the committee extend the time of hearing to permit him to attend a banquet in Puyallup; that, although your committee diligently desired to pursue this investigation to the end, this courtesy was accorded him, he promising to reappear at 9:30 the following morning; that your committee was present together with its counsel, and its reporter; that Mr. Simmons did not advise the chairman, Mr. Mardesich, nor any member of the committee that he would not arrive as agreed, and, when appearing on the floor of the House sometime after eleven, he stated he would not reappear until he had talked with his counsel; that, after further continuance with notice being given by the chairman to appear before the committee at two o'clock, he failed to appear and his default was noted in the record; that shortly thereafter, a letter was received from him stating he had previously voluntarily appeared on three occasions before the committee, had given all of the testimony which he knew on the matter and was unwilling to "neglect my legislative duties any further during these closing days of this
important session," but that if further questions were desired they could be directed to him in writing and he would later submit written answers. Because of this conduct of Representative Simmons, the work of your committee was delayed for several hours and makes it impossible for the committee to conclude his examination and arrive at an over-all conclusion of the entire question and to resolve inconsistencies and conflicts in his and other witnesses' testimony. Your committee was appalled at this refusal in that the initial disclosures of Mr. Simmons precipitated the entire investigation, and his failure to cooperate resulted in committee indecision in the matter.

3. Inopportune release to members of the House of information of unverified alleged attempted bribe.

A. Your committee finds that this information first came to the attention of the Speaker of the House at approximately the hour of twelve o'clock noon on calendar date Wednesday, March 7, though it was then legislative day Tuesday, March 6; that the Speaker called his legal advisor, Lyle Iversen, who, in company with Mr. Simmons, went to the office of one Ralph Swanson, prosecuting attorney for Thurston county; that, at that time, Mr. Swanson expressed willingness to send a deputy sheriff to immediately arrest Mr. Uleman for attempted bribery, but that after further discussion with Mr. Iversen and Mr. Simmons, it was decided to pursue the matter further and to attempt to effect a completed case of bribery by obtaining the passage of money; that these matters were discussed with the prosecuting attorney shortly prior to three o'clock on said afternoon; that thereafter the Speaker requested of Representative Harold Zent, a proponent of the Spokane Power Bill, that he obtain the consent of other interested persons to permit said measure to come on the floor of the House at approximately five o'clock, stating to him that the pressure on the issue had become very tense, so tense that there had even been talk of money changing hands. Nothing was disclosed to the said Representative of the alleged attempted bribe or that any comments regarding it would be made on the floor during the debate of the merits of the bill; that, thereafter, consent having been obtained, said matter was brought on for hearing at approximately five o'clock on said afternoon; that prior thereto, certain House members had been accorded knowledge of the incident, but that in each instance they were opponents of the Spokane Power Bill, but that said information came to no one who was a proponent of the bill; that although the Sergeant-at-Arms of the House had not been advised, this matter was disclosed to one Frank Stuart, known as a lobbyist for the Washington State PUD Association; that, although Mr. Iversen and Mr. Simmons had dismissed the idea of having any stenographer in a room, Mr. Stuart, though he has no official status with the legislature and has not regularly been engaged to assist in moving of furniture, did assist Representative Simmons to move a bookcase in room number 7 for the purpose of concealing a stenographer; that, thereafter Mr. Stuart claims to have talked to the Speaker in his office and convinced him that he should take the floor; that Mr. Simmons was to speak, to come in between Mr. Gallagher and Mr. Hodde; that thereafter the said Frank Stuart wrote a note to Representative Simmons, urging him to point out a known friend of private power as the alleged "behind the scenes man" in the alleged bribery attempt; that at the time of the disclosure on the floor, no one had made any investigation of the said John J. Uleman, his antecedents or reputation nor had anyone been called in to discuss the same, though the said Uleman was immediately available and parties who were partially implicated by his statements could have been reached to substantiate or deny the allegations of complicity in the alleged bribery attempt. It is felt that this disclosure, brought in this fashion, with no knowledge having been given to the proponents of the measure or investigation having been made, placed the proponents of the measure at an extreme disadvantage, clouded and confused the issue, and may have rendered it impossible for some members to vote solely on the merits of the measure and that it became inescapably involved in the dramatic disclosure of the alleged attempted bribery obscuring the true issues from the legislative minds and raising a question in the minds of the committee as to whether or not the vote, when taken, represented the unbiased thinking of the members and their unprejudiced judgment.

4. While there has been some discussion as to members of the Senate attempting to pressure House members in their votes, from the evidence at-hand, it would appear that such pressuring was no more than is normally exerted between members of the Houses attempting to gain favorable action on the respective measures after the same reached the other House for its consideration.
5. **Recommendation**

A. It is recommended that the form of application for lobbyists' floor passes heretofore used for many sessions be revised to include space to require a listing by every person desiring such a pass of all persons, firms and corporations who are in any wise contributing to his salaries or expenses while at Olympia; that such information be under penalty of perjury.

B. It is recommended that the thirty-third legislature, in addition to its other committees, establish a committee on corrupt practices, said committee to consist of five members, three to be selected by the floor leader of the majority party, two to be selected by the floor leader of the minority party; and it be this committee's duty during session, to receive from all members and interested parties any reports of any improper practices in connection with lobbyists or attempts to influence members' decisions on legislation; and that hereafter no such matter be brought to the floor of the House during discussion on any pending legislation, but that the same be channeled through this committee, to first receive a report therefrom for appropriate House action, if any be recommended.

C. In this short period of time, it has been impossible to explore to definite conclusions many of the conflicting statements made by material witnesses. Your committee, therefore, recommends that the Senate adopt House Concurrent Resolution No. 22; that an interim investigating committee be created thereunder to conduct such other and further investigation as may be deemed expedient in the light of further evidence as the same may be obtained, or

That a recommendation be made to the judges of the superior court judicial district of Mason-Thurston counties, that a grand jury be empaneled to inquire into this matter and other matters of state government.

D. The committee further recommends that this committee be discharged of further consideration of the matter and that all copies of testimony taken hereunder be distributed as follows:

One copy to the Chief Clerk of the House of Representatives;
One copy to the Secretary of the Senate;
One copy to the attorney general of the State of Washington; and
One copy to the judges of the superior court judicial district of Mason-Thurston counties.

6. Your committee wishes to thank the attorney general for having made available the services of first assistant attorney general George H. Holt as counsel; Mrs. Grellert and Mrs. Ridenour for their services as reporters, and all witnesses who voluntarily attended said hearings and offered their testimony in said hearings in an effort to assist in a determination of this matter. Respectfully submitted:

C. A. ORNDORFF

"(c) The above rates shall apply at the age of sixty-two or over for members included in the miscellaneous personnel and at age sixty or over for members in the uniformed personnel: Provided, That if a member shall retire before attaining either of the ages above referred to the total prior service pension shall be reduced by percentages computed actuarially, for Miscellaneous Personnel at all ages under sixty-two; and for Uniformed Personnel at all ages under sixty.

The legislative authority in each participating city shall specify the amount of prior service to be granted or current service credit to be made available to such employees: Provided, That in no case shall such service credit exceed five years. The normal rate established for age sixty shall be the rate for any member who has attained a greater age before entrance into the retirement system and the normal contribution established for age twenty-four shall be the rate for any member who enters the system at an earlier age.

"(c) The normal rates of contribution for uniformed personnel shall be so fixed as to provide an annuity which, together with the pension provided by the city, shall produce as nearly as may be, a retirement allowance at the age of sixty years, of one and one-third per cent of the final compensation multiplied by the number of years of service of the retiring employee. The proper officials in each city shall apply such rate of contribution to so much of the compensation of a member as does not exceed three hundred dollars per month, and shall certify to the board on each and every payroll the total amount to be contributed and shall furnish immediately to the board a copy of each and every payroll; and each of said amounts shall be forwarded immediately to the board and the board shall credit the deduction shown on such payroll to individual accounts of the members represented on such payrolls.

"(e) Every member shall be deemed to consent and agree to the contribution made and provided for herein, and shall receipt in full for his salary or compensation. Payment less said contributions shall be a full and complete discharge of all claims and demands whatsoever for the service rendered by such person during the period covered by such payment, except his claim to the benefits to which he may be entitled under the provisions of this chapter.

"(f) Any member may elect to contribute in excess of the contributions provided for in this section in accordance with rules to be established by the board for the purpose of providing additional benefits, but the exercise of this privilege shall not place on the member city or cities any additional financial obligation. The board shall have authority to fix the rate of interest to be paid or allowed upon the additional contributions and from time to time make any necessary changes in said rate. Refunds of additional contributions shall be governed by the same rules as those covering normal contributions unless the board shall establish separate rules therefor.

An annuity purchased by accumulated additional contributions in such case shall be paid in addition to the minimum guaranteed as hereinafter provided.

"(b) If the retirement allowance of the member as provided in this section, is in excess of one-half of his final compensation, the pension of the member, purchased by the contributions of the city, shall be reduced to such an amount as shall make the member's retirement allowance equal to one-half of his final compensation.

"(c) A member, upon retirement from service, shall receive in addition to the retirement allowance provided in this section, an additional annuity which shall be the actuarial equivalent of any accumulated additional contributions which he has to his credit at the time of his retirement.
"Sec. 12. Section 41.44.160, R.C.W., as derived from section 6, chapter 171, Laws of 1949, is amended to read as follows:  

"Any member who has at least five years of creditable service within the fifteen years immediately preceding retirement and has not attained the age of sixty-five years, or who attains or has attained the age of sixty-five years prior to two years after the effective date, may be retired by the board for permanent and total disability, either ordinary or accidental, upon examination as follows:  

"Any member while in service, or while physically or mentally incapacitated for the performance of duty, if such incapacity has been continuous from discontinuance of city service, shall be examined by such medical authority as the board shall employ, upon the application of the head of the office or department in which the member is employed with approval of the legislative body, or upon application of said member, or a person acting in his behalf, stating that said member is permanently and totally incapacitated, either physically or mentally, for the performance of duty and ought to be retired. If examination shows, to the satisfaction of the board, that the member should be retired, he shall be retired forthwith: Provided, That no such application shall be considered or granted upon the application of a member unless said member or someone in his behalf, in case of the incapacity of a member, shall have filed the application within a period of one year from and after the discontinuance of service of said member: Provided, That the disability retirement allowance shall be effective on the first of the month following that in which the member last received salary or wages in city service.  

"The board shall secure such medical services and advice as it may deem necessary to carry out the purpose of this section and 41.44.180.  

"The provisions of this section shall not be applicable to employees pensioned for total and permanent disability, as defined in and pursuant to state or federal law, other than those pensioned on account of military service, except as to the amount of retirement allowance provided for herein may exceed the pension provided by state or federal law; nor shall the provisions of this section in so far as it provides for permanent and total disability from accident in course of employment apply to any member who is within and entitled to the benefits of the state workmen’s compensation act and medical aid act.

"(3) If it appears to the satisfaction of the board that disability was incurred in line of duty and the retirement allowance to be provided under subsection (1) and (2) of this section is less than sixty dollars per month, then there shall be provided by contributions of the city such additional pension as shall make the retirement allowance equal to sixty dollars per month.  

"(4) No disability retirement allowance shall exceed fifty per cent of final compensation, anything herein to the contrary notwithstanding.  

"(5) Upon the death of a member while in receipt of a disability retirement allowance, his accumulated contributions, as they were at the date of his retirement, less any annuity payments made to him, shall be paid to his estate, or to such persons having an insurable interest in his life as he shall have nominated by written designation duly executed and filed with the board.  

"(6) If disability is due to intemperance, willful misconduct, or violation of law, on the part of the member, the board, in its discretion, may pay to said member, in one lump sum his accumulated contribution, in lieu of a retirement allowance, and such payment shall constitute full satisfaction of all obligations of the city to such member.  

"(7) In addition to the annuity and pension provided for in subdivisions (1) and (2) of this section, a member shall receive an annuity which shall be the actuarial equivalent of his accumulated additional contributions."

The board may establish rules and regulations to govern withdrawal and redeposit of contributions.

"(b) Should a former member, within five years after discontinuance of service, return to service in the same city in which he was employed he may restore to the fund in such manner as may be agreed upon by such person and the board, his withdrawn normal accumulated contributions as they were at the time of his separation from service and upon completion of such redeposit all his rights and privileges existing at the time of discontinuance of service shall be restored and his obligations as a member shall begin again. The rate of contribution of such returning member shall be the same as it was at the time he separated from service.

"(c) Upon the death of any person who has not been retired, pursuant to the provisions hereof, there shall be paid to his estate, or to such persons having an insurable interest in his life as he shall have nominated by written designation duly executed and filed with the board, his accumulated contributions less any payments therefrom already made to him. Such payment may be made in one lump sum or may be paid in installments over a period of not to exceed five years, as may be designated by the member or his beneficiary, with such rate of interest as may be determined by the board.

It is the intent of this section to prevent any retired person from being able to receive both his retirement allowance and compensation for service to • • • • any city or town that is a member of the statewide city employees' retirement system: Provided, That nothing in this section shall prevent county or state welfare departments from furnishing to any retired employee under the terms of this chapter the hospital, medical, dental and other benefits granted to pensioners under the provisions of title 74." GOVERNOR'S MESSAGES ON HOUSE BILLS VETOED OR PARTIALLY VETOED

March 19, 1951.

To the Honorable
The House of Representatives of the State of Washington.
(Through the Secretary of State.)

Ladies and Gentlemen:
I am filing herewith, to be transmitted to the House of Representatives of the State of Washington at the next session of the Legislature, without my approval, House Bill No. 83, entitled:

"An Act relating to taxation of real and personal property; providing limiting rates of levy, and amending section 84.52.050, R.C.W."

The amendatory provisions of this act relate to metropolitan park districts. These same provisions have been embodied in House Bill No. 434. Since these measures would be in conflict in other respects House Bill No. 83 is vetoed.

Respectfully submitted,
(Signed) ARTHUR B. LANGLIE,
Governor.

March 19, 1951.

To the Honorable
The House of Representatives of the State of Washington.
(Through the Secretary of State.)

Ladies and Gentlemen:
I am filing herewith, to be transmitted to the House of Representatives of the State of Washington at the next session of the Legislature, without my approval as to section 2 thereof, House Bill No. 130, entitled:

"An Act providing for the disposition of the remains of certain indigent persons and repealing section 36.23.02, R.C.W."

This bill is approved with the exception of section 2, which reads:
"Sec. 2. Section 36.23.02, R.C.W., derived from section 2701 of the Code of 1881 is hereby repealed."

Section 36.23.02, R.C.W., provides that when any person not coming within the definition of a pauper, falls sick in any county, not having money or property to pay his board, nursing or medical aid, the county board shall provide just the necessary assistance, and if he dies, the county board shall provide a decent burial.

The title of the bill is broad enough to cover section 1 of the measure, but is obviously wholly insufficient to cover section 2, the repealing section.

With the exception of section 2 which is vetoed, the remainder of House Bill No. 130 is approved.

Respectfully submitted,
(Signed) ARTHUR B. LANGLIE,
Governor.
March 19, 1951.

To the Honorable
The House of Representatives of the State of Washington.

(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith, to be transmitted to the House of Representatives of the State of Washington at the next session of the Legislature, without my approval, House Bill No. 165, entitled:

"An Act relating to inheritance tax and certain liabilities of an executor, administrator or trustee and amending section 83.13.01, R.C.W."

The bill requires, as a condition precedent to distribution of an estate, that there be filed of record an order of the court adjudging that provision for payment of inheritance tax has been made to the court's satisfaction.

Since under present statutes, the Tax Commission is authorized to issue a release for the estate if satisfactory arrangements have been made for payment of the tax, there seems no need for extending such an administrative authority to the court.

Furthermore, it is deemed inadvisable to give the court authority to determine what provisions for payment are adequate and then require the Tax Commission to be responsible for collection of the tax.

For these reasons House Bill No. 165 is vetoed.

Respectfully submitted,
(Signed) ARTHUR B. LANGLIE,
Governor.

March 19, 1951.

To the Honorable
The House of Representatives of the State of Washington.

(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith, to be transmitted to the House of Representatives of the State of Washington at the next session of the Legislature, without my approval, House Bill No. 227, entitled:

"An Act to redistrict and reapportion the state of Washington into seven congressional districts and repealing sections 29.21.01 to 29.21.06, R.C.W."

This act provides for reapportioning the state into seven congressional districts to provide for the additional seat in the House of Representatives of the United States.

Analysis of this bill discloses that the mean average population of the seven districts created is 339,851. In the case of the first district as set up by this act the population therein is 63,239 over the mean average or 18.6% above, while in the sixth district the population is 65,129 less than the mean average, or 19.1% below.

In addition, the apportionment of the state into districts divides three of the present legislative districts into parts.
In my opinion the reapportionment made in this act is arbitrary, inequitable, confusing and unsound. It is further my opinion that any sound apportionment of the state into such districts, in order to be fair, should not vary more than fifteen per cent from the mean average and, if possible, should be less.

For these reasons House Bill No. 227 is vetoed.

Respectfully submitted,
(Signed) ARTHUR B. LANGLIE,
Governor.

March 20, 1951.

To the Honorable
The House of Representatives of the State of Washington.
(Through the Secretary of State.)

Ladies and Gentlemen:
I am filing herewith, to be transmitted to the House of Representatives of the State of Washington at the next session of the Legislature, without my approval, House Bill No. 425, entitled:

"An Act making appropriations and reappropriations for the payment of salaries of certain officers and employees of the state and for the operation, maintenance and other expenses of certain state institutions, departments and offices, for the purchase, condemnation and improvement of land, the construction of buildings and improvements for the various state institutions designated and mentioned, and for emergencies, and for refunds, and for transfers, and for deficiencies, and for sundry civil expenses of the state government, and for public assistance, and for purposes specified in certain acts of Congress, and for miscellaneous purposes, for the fiscal biennium beginning April 1, 1951, and ending March 31, 1953, except as otherwise provided, defining terms, limiting allowances and payments, prescribing penalties, and declaring that this act shall take effect immediately."

We have analyzed this bill and other appropriation acts and compared them with the anticipated revenues for the next biennium. The moneys appropriated by this bill exceed anticipated revenue by $45 million. The operating deficit of the current biennium is about $49 million, which together with the deficit resulting from this bill would place the state $94 million in the red at the end of the next two year period.

Without substantial increases in revenues it will be impossible for state government to operate under the appropriations bills as passed by the Legislature. The banks have indicated that they will refuse to accept state warrants in a relatively short time if the Legislature does not balance the budget for the next biennium. If additional revenues are not provided, drastic reductions will have to be made in the moneys allocated to the aged and those in need. The appropriations made available to the schools will fail if sufficient funds are not in the state treasury.

Obviously, the Legislature must therefore either revise this budget or provide tax revenues sufficient to meet the desired appropriations. Appropriations and revenues must be considered together. For six years the State of Washington has been spending more money through the state government's
general fund than we have been taking in. We have dissipated a $72 million surplus and are now $49 million in the red. We cannot longer continue in that direction. It is time that we faced the necessity of operating on a balanced budget.

It is unrealistic and unfair to deceive the people by making specific appropriations to support specific services and then to deny those services by failing and refusing to provide the revenue necessary to make such services financially possible. When the credit of the state is exhausted, appropriations without supporting revenues are meaningless.

For the foregoing reasons, House Bill No. 425 is vetoed.

Respectfully submitted,

Governor.

To the Honorable
The House of Representatives of the State of Washington.
(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith, to be transmitted to the House of Representatives of the State of Washington, at the next session of the Legislature, House Bill No. 434, entitled:

"An Act relating to property taxation, eliminating certain county levies, revising limitations upon rates of levy, amending sections 74.01.09 and 84.52.050, R.C.W., and repealing sections 74.01.15, 74.01.16, and 74.01.17, R.C.W."

I am approving section 1 of the bill.

I am vetoing sections 2 and 3 of the bill. These two sections would relieve counties of the obligation presently cast upon them of using two mills out of their total ten mill levy for social security assistance purposes. While this would have the effect of giving the counties an additional two mills, it would cast the burden of replacing this amount for social security purposes on the state.

Based on the present tax yield from the two mill levy this would involve some seven million dollars a biennium. In view of the substantial amount now contributed to social security purposes at the state level and the present deficit in the state general fund, I deem it unsound and unwise for the state to attempt to take over the additional financial burden that would be imposed under these sections of the act.

The counties I believe can deal with the problems inherent in the welfare of indigents much more ably than the state, and I believe they should assume this responsibility.

Respectfully submitted,
(Signed) ARTHUR B. LANGLIE,
Governor.
To the Honorable
The House of Representatives of the State of Washington.

(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith, to be transmitted to the House of Representatives of the State of Washington at the next session of the Legislature, without my approval, House Bill No. 445, entitled:

"An Act relating to workmen's compensation; fixing the time for payment of temporary total disability or death benefits, providing for interest thereon, and amending chapter 51.08, R.C.W., by adding thereto a new section."

I am convinced that this bill, if approved, would be injurious to the very interests it is designed to promote. It is unnecessary legislation in its application to the vast majority of compensation claims where there is no dispute and compensation is paid expeditiously by the Department.

The real impact of this measure would fall on the type of case where the facts are in dispute, where the diagnosis is questionable and where there is a grave question as to the relationship between the alleged injury or occupational disease and the pathology reported. Such cases frequently necessitate extensive investigations which cannot be completed within the thirty day time limit specified herein and if the Department should be obliged to enter its order without having the benefit of all of the vital evidence, a charge of "arbitrary and capricious action" would most certainly be justified. Such practice would undoubtedly result in a substantial increase in appeals, a further delay incident to the holding of hearings before the Appeals Board can make its decision and the infliction of legal expense on the applicant, all of which might have been avoided in many cases if the Department had been permitted to complete its investigation in the first instance.

The Department in its sworn duty to well and faithfully administer the Compensation law should not be forced to make offhand and perhaps arbitrary decisions in cases where human suffering is such a vital issue.

For these reasons House Bill No. 445 is vetoed.

Respectfully submitted,

(Signed) ARTHUR B. LANGLIE,
Governor.

To the Honorable
The House of Representatives of the State of Washington.

(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith, to be transmitted to the House of Representatives of the State of Washington at the next session of the Legislature, without my approval as to section 42, House Bill No. 506, entitled:

"An Act relating to highways and the operation of motor vehicles thereon; amending certain sections of the highway and motor vehicle code and adding sections thereto; prescribing the
size, weight and licenses of certain motor vehicles and regulating the collection of motor vehicle fuel taxes and fees; providing for an interim legislative committee on highways to make studies; providing for the experimental operation and study of test highways; relating to the organization of the department of highways; prescribing penalties, declaring an emergency and providing effective dates."

This bill is approved with the exception of section 42, which amends section 43.27.060, R.C.W., as derived from section 3, chapter 220, Laws of 1949, to read as follows:

"The director shall establish and provide for the operation and maintenance within the department of highways of a personnel merit system for the employment, classification, salaries, promotion, demotion, suspension, transfer, layoff, and discharge of its appointive officers and employees on the sole basis of merit and fitness and without regard to political influence or affiliation."

I feel constrained to veto this provision since I am convinced that the authority thus attempted to be vested in the Director of Highways to fix "salaries," would, to that extent, seriously disrupt the existing procedure in all departments under jurisdiction of the Chief Executive by virtue of which control over salaries and wages and supervision of a uniform system of compensation is now administered. The insertion of this single word "salaries" in the text of the then existing section was the sole purpose of the amendment. For this reason the entire section is disapproved, and the law in that regard is left as the legislature found it.

With the exception of section 42, which is vetoed, the remainder of House Bill No. 506 is approved.

Respectfully submitted,

Governor.

To the Honorable
The House of Representatives of the State of Washington.
(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith, to be transmitted to the House of Representatives of the State of Washington at the next session of the Legislature, without my approval, House Bill No. 552, entitled:

"An Act making an appropriation and acknowledging an obligation of the capitol construction fund to the general fund for expenditures therefrom for state capitol purposes pursuant to chapter 167, Laws of 1917."

This bill as finally enacted would fix and determine the liability of the capitol construction fund to the state general fund in the sum of $1,090,000 "created by chapter 167, Laws of 1917."

Chapter 167, Laws of 1917, relates to a tax levy for capitol building purposes and provides that the money so levied should be considered a loan from
the general fund to be repaid from the capitol building construction fund. The amount of such liability derived from the tax levy is $6,230,456 instead of $1,090,000 as shown in this bill. The $1,090,000 is approximately the liability of the capitol building construction fund to the general fund, for the cost of repairing earthquake damages during the current biennium.

This error was discovered in the Senate, and House Bill No. 552 was amended to correct the error. It is unfortunate that the Senate amendments were removed through conference committee action, leaving the bill in its original unsatisfactory condition.

For the foregoing reasons House Bill No. 552 is vetoed.

Respectfully submitted,

Governor.

To the Honorable
The House of Representatives of the State of Washington.
(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith, to be transmitted to the House of Representatives of the State of Washington at the next session of the Legislature, without my approval as to section 21, House Bill No. 626, entitled:

"An Act relating to the Washington Toll Bridge Authority; regulating the operation of the Puget Sound ferry and toll bridge system by such Authority; providing for the settlement or disposal of certain claims arising during the course of such operations; establishing a permanent revolving fund for certain engineering investigations thereby; and making an appropriation from the motor vehicle fund therefor; and making a further appropriation from the motor vehicle fund for an investigation by said Authority into projects for the solution of the cross-sound transportation problem; amending sections 47.60.140, 47.64.070, and 47.60.100, R.C.W.; adding sections to chapter 47.60, R.C.W., and declaring an emergency."

Section 21 of this act authorizes and directs the Toll Bridge Authority to complete location surveys, plans and specifications for a toll tunnel through the Cascade mountains, and further to proceed with the construction and operation of such tunnel as soon as finances become available.

In my opinion this function should more properly be placed in and handled by the Department of Highways.

For this reason section 21 is vetoed and the remainder of the act is approved.

Respectfully submitted,

Governor.

LETTER OF TRANSMITTAL

To the Members of the 32nd Legislature:

The second biennial report of the Washington State Legislative Council to the legislature describes the principal activities of the biennium and presents in summary form the recommendations of the Council for legislative action.

The recommendations of the Council are based on careful studies made by the special and standing subcommittees. Since a major portion of the information and findings upon which these recommendations are based has been forwarded to members of the legislature periodically throughout the past biennium, with the Council's minutes of meetings, comparatively little space has been devoted to documentation in this report. All basic information, however, is presently available in the Council office, and both the membership and the staff of the Council stand ready to assist any member if a review or further study of this information is desired.

The primary mission of the Council is to simplify and make more effective the complex task of legislation and to bring to bear upon major state problems the natural benefits of advance study and considered judgment. It is the sincere hope of the Council that with the publication of this report it will have taken a step towards accomplishment of this mission.

Respectfully,

Chas. W. Hodde, Chairman
Albert D. Rosellini, Vice Chairman
A. B. Comfort, Secretary

ORGANIZATION AND FUNCTIONS

Introduction.

The scope and activities of Washington State government have increased greatly in the past half-century. Appropriations in 1949 were four hundred times as great as in 1899, fifty years ago. A large and intricate administrative structure has resulted from the addition of over one hundred new functions. One of the most significant changes has been the abandonment of the old notion that any person of intelligence could easily qualify for the performance of the duties of any public office. We find that the greater part of governmental work, today, can be adequately performed only by personnel with suitable technical and professional training, acting under the direction of department heads of broad vision and a high order of personal leadership.

This phenomenal growth in governmental activity has not been limited to administration. Court calendars everywhere are crowded with both civil and criminal cases that reflect clearly our involved social and economic structure. The tasks of policy-forming and law-making have been complicated by a heritage of processes and procedures better adapted to the simpler situations of the nineteenth century than to present day complexities. In short, the need for significant improvement is found in every aspect of our democratic institutions.

The Council Idea.

Both the State Constitution and tradition have outlined certain basic features of the legislative process. The legislature must be representative of the people. It can meet, ordinarily, only sixty days every other year. These and many other parts of the law-making structure were designed to give the people opportunity for the greatest possible participation in the government of their society, and they have their foundation in years of valued precedent.

At the same time, the legislature's volume of business has grown out of all proportion. Adequate consideration of an increasing share of this business is dependent upon technical and professional knowledge alien to the experience of most legislators.

In this situation we see one of the central problems of government today; the adaptation of procedures to the framework of democracy in such manner as to achieve a maximum of efficiency and economy and still preserve our justly honored freedoms and institutions.

Many shortcuts and methods have been tried in the effort to ease the task of the legislature. Some, such as the annual session, have been aimed at permitting the law-maker more time for consideration of involved or unfamiliar issues. Others, such as the split session, were designed to give the people at home an opportunity to express their opinions, to permit introduction of all essential legislation, and the accumulation of information. Frequently, when an issue of great importance or involving widespread interest arises, interim legislative committees of a temporary nature have been created. There has also been an increase in committee activity and public hearings. One expedient, however, has been developed which accomplishes everything sought through the use of these other techniques, and more: namely, the legislative council.

The chief idea behind the Council is to bring to bear upon the multitude

(Progress Report, Committee on Legislative Processes and Procedures, Council of State Governments, Chicago, 1947.)
of problems with which the legislator must deal, a program of continuous fact finding and investigation. By establishing a body from its own membership which can function apart from the rush and tension of the law-making session, the legislature opens the way for more objective study, the screening and checking of proposals well in advance of the session, and more thorough analysis generally of the major problems of state government. Because it is a legislative group, responsible to the legislature only, greater reliance may be placed upon its findings by the legislator than upon those of administrative or other non-legislative interest groups. Finally, if properly staffed and operated, the Council is a source of accurate unbiased information to the legislator and, through him, to his constituents. No other device has met with such general approval among the states as a means of improving legislative leadership.

Powers and Duties.

The Council exercises the following powers and duties:

To carry out all functions normally delegated to special interim legislative committees.

To examine and study the organization and procedures of the state government and to make recommendations for greater economy and efficiency.

To examine and report concerning the current condition of all state funds and appropriations.

To make other studies and examinations of state affairs as deemed advisable.

To receive messages and reports from the governor and other state officials, and to attend to business addressed to and affecting the legislature during the interim between regular sessions.

To report findings and recommendations to the legislature at least ten days prior to the ensuing session.

To cooperate and function with the Council of State Governments, and with other legislative councils and research organizations.

To inspect the files, records and accounts of any state office and, if deemed necessary, to issue subpoenas and compel the attendance of witnesses.

To make its own rules and regulations governing the conduct of business not otherwise prescribed.

Membership, Officers and Staff.

The Council consists of ten senators and eleven representatives. The president pro tem of the Senate and the speaker of the House of Representatives are members ex officio. Members are appointed by the president of the Senate and the speaker of the House in such a manner as to give representation to each congressional district and to assure that there shall be no more than twelve members from any one political party. Appointments must be made at least ten days prior to the close of the session and confirmed by the membership of each house. Terms last only until the convening of the succeeding regular session.

The Council’s officers, a chairman, vice chairman, and secretary, are elected by the Council as a whole. Acting together, the officers form an executive committee which has authority to act in any way necessary for the Council when it is not in session.

In order to function effectively, a permanent full time staff is considered essential. Much of the information which forms a background and foundation for the Council’s work is available through libraries and research agencies of this and other states. However, an even greater portion of essential information can be procured only through the utilization of permanent professional research staff, adept at securing and coordinating available information.
to meet the specific needs of the Council. The activities of the Council entail the use of experienced, alert, and competent secretarial and stenographic personnel as well.

How the Council Functions.

The Council, like the legislature, functions through a number of active subcommittees. Under the rules of the Council, standing subcommittees are appointed, representing the major fields of governmental activity. Provision is also made for the appointment of special subcommittees as needed.

An allocation from the main Council budget is made to each subcommittee to provide for necessary travel of committee members and essential staff work.

The principal responsibility of the subcommittees is to survey their own fields of activity and decide which problems will be selected for study. From the many problems needing attention the subcommittees must screen and select those currently considered of most pressing importance. It is necessary to guard against spreading committee efforts too thinly over too wide a field. During the past biennium, the Council adopted a resolution requiring the approval of subcommittee projects by the Executive Committee.

In addition to the selection of projects, the subcommittees have the duty to consider such proposals as are referred to it by the Council.

Following selection of projects, basic data must be assembled, problems analyzed, proposals checked, and recommendations formulated. Pertinent information and data are accumulated and reported upon by Council and subcommittee research staff. Frequently, members of the subcommittee meet with persons in and out of the state government who are interested in the project and report back to the subcommittee on the results of their conference. This is especially useful where the problem or its proposed solution appears too tenuous to justify a full committee meeting.

The work of the subcommittees is reported upon at each quarterly meeting of the Council. These reports are incorporated into the minutes of the Council's meeting, a copy of which is sent to each member of the legislature immediately. Thus, the members of the legislature are kept informed of the action and findings of the Council.

When a subcommittee has completed its work and reached its conclusions, usually near the end of the biennium, its findings and recommendations are embodied in a report to the Council as a whole. Upon final action, all proposals accepted become the recommendations of the Council and are made a part of the Council's report to the legislature.

The final phase of Council action is the preparation of bills implementing its recommendations for early introduction during the legislative session. This is most important, since the legislature can act officially on the Council's proposals and recommendations only if they are in the form of actual bills. Naturally, the Council expects that further refinements will be effected in these bills as they are subjected to the full legislative process.
RECOMMENDATIONS TO THE 32ND LEGISLATURE

Subcommittee on Education and Public Building.

This subcommittee considered problems relating to education and the public school system of the state and building construction problems of public jurisdictions.

The subcommittee's efforts were devoted almost exclusively to a study of common school building need and costs and while no formal recommendations were made to the Council on this subject, it has made available to the legislature an exhaustive and detailed estimate of classroom needs and what it will cost to meet those needs.

Complete information on all phases of the subcommittee's work is available in the Council office for all interested members.

Special Subcommittee on Juvenile Delinquency.

The Special Subcommittee on Juvenile Delinquency was created for the purpose of continuing the work begun by the Washington State Legislative Interim Committee on Juvenile Delinquency.

The work of the subcommittee has centered around four important activities.

The first activity was a census of delinquents throughout the state, arrived at by a careful check of police and sheriffs' departments, probation officers, juvenile courts, schools, and county welfare departments.

The second was the listing of treatment and prevention programs administered in Washington. With the assistance of state-wide groups such as the Washington Congress of Parents and Teachers, the Washington State Grange, and various labor groups, a complete inventory of what is being done by communities, organizations, and individuals in delinquency treatment and prevention was made.

The third was a survey of youth programs in the other states. The governors of all forty-eight states were contacted, and a majority responded with a wealth of valuable information for study and evaluation.

Finally, the subcommittee conducted a program of publicity designed to keep the legislature and the public informed of its work and objectives. This was accomplished through periodic press and radio releases and the issuance of a monthly bulletin.

After reviewing the programs of other states and after an attempt to inventory delinquency prevention programs and to determine the extent of delinquency in Washington, the subcommittee recommended the following for the consideration of the Legislative Council:

1. The need for a permanent youth council and youth service department at the state level to promote and coordinate state and local community programs and services in the field of delinquency prevention.
2. The need for permanent youth councils to function at the community level for the purpose of promoting and coordinating delinquency prevention activities and services.
3. The need for a state-wide statistical reporting system to serve as a basis for research studies into the extent and causes of delinquency and for the planning of programs for its treatment and prevention.
4. The legislative programs which have been enacted by the states of California, Minnesota, Wisconsin, Massachusetts, Ohio, and New Jersey, in so far as they incorporate delinquency treatment and prevention.
within one state department, are suggested as patterns for the development of a state-wide delinquency prevention program for the State of Washington.

These recommendations were endorsed by the Council for consideration by the legislature.

Subcommittee on Legislative Processes and Budgetary Procedure.

The work of this subcommittee has had two distinct aspects: first, study of the processes and procedures involved in state legislative activity generally, and second, analysis of the defects of the present system for legislative consideration of budget requests and the enactment of appropriations.

The principal results of the subcommittee's deliberations have been the development of new procedures for more thorough consideration of the state's financial needs by the legislature and recommendations for certain changes in the constitutional provisions relating to the initiative. Formal recommendations on these subjects were made by the subcommittee in its final report to the Council and were adopted as Council recommendations to the legislature. They are as follows:

1. It is recommended that Article II, section 1, Para. c, of the State Constitution, relating to restrictions upon the power of the State Legislature to amend acts, laws, or bills approved by a majority of the people voting thereon, be amended, by adding a proviso, as follows:

   PROVIDED, That any such act, law, or bill may be amended within two years after such enactment at any regular or special session of the legislature by a vote of two-thirds of all the members elected to each house with full compliance with section 12, Article III, of the Washington Constitution, and no amendatory law adopted in accordance with this provision shall be subject to referendum.

Throughout the history of the use of the initiative and referendum procedure in this state, there have been instances where initiatives have contained serious errors, inequities, or impracticalities. It is the belief of the Council that the legislature should have the power to correct such defects at the earliest possible opportunity.

Few states having constitutional provisions for the initiative and referendum impose restrictions upon the power of the legislature to amend such acts. Consequently, the recommendation is not a serious departure from accepted practice or precedent. It is the feeling of the Council, furthermore, that quite adequate protection of the voters' intent is afforded by the requirement that amendment of initiated acts may be accomplished only if agreed upon by two-thirds of all legislators and if subject to veto by the governor, as with other legislation.

In recommending that legislative amendment of an initiated act should not be subject to referendum, the Council feels that if the necessity for change in the law is so great as to secure approval of two-thirds of the members of both houses of the legislature and not be vetoed by the governor, then the change would be so necessary that it should not be subject to postponement by referendum.

2. It is recommended that the legislature create, by law, a legislative budget committee, from its own membership, which will have as its principal functions, the accumulation and analysis of information concerning the revenue and expenditures of the state government and its departments and agencies, and the reporting of its findings and recommendations concerning these matters to the legislature.
Legislative consideration of budget requests and the enactment of appropriations for the support of state functions is seriously hampered by the failure of the legislature to inform itself adequately as to the scope of governmental operations, revenue and expenditures. Whatever the reasons for this failure, the fact remains that we must presently accept, on faith or on the basis of inadequate and hurried investigation, the estimates of need and the evidence proffered in support of these estimates by administrative leaders and other interested groups.

In its study of this problem, the Council found that several states had established small permanent legislative committees which, with the assistance of competent professional staffs, gave full time study, in the interim between legislative sessions, to the state’s operations and financial requirements. These committees report findings and recommendations to the legislature and particularly to appropriations and revenue committees. Thus, the same information is made available to the legislature for consideration of budget requests as is available to the executive departments for preparation of the budget. In the states following this procedure, the whole process of legislative consideration of the budget has been greatly simplified and real economies effected.

The Council is unanimously in favor of the creation of such a budget committee in the Washington Legislature. It is believed that its operation will result in greater efficiency, both in the appropriation process and in state government generally, and in such increased economy as to dwarf the cost of the committee’s operation into insignificance.

**Subcommittee on Natural Resources.**

The Subcommittee on Natural Resources was charged with consideration of matters relating to the natural resources of the state. During the past biennium, it has studied certain aspects of the timber and petroleum resources of Washington. From these studies, the following recommendations, adopted for transmission to the legislature, have resulted:

1. It is recommended that section 1, Chapter 61, Laws of 1933, Ex. Sess., be amended by striking therefrom the words “for hire,” so that said section of said chapter and law shall read as follows:

   **Section 1.** Every person, co-partnership, corporation or other association now or hereafter engaged in the business of producing from natural deposits and/or carrying or transporting natural gas and/or crude oil or petroleum or the products thereof by pipe lines within this state, shall be a common carrier within the meaning and subject to the provisions of Chapter 117, Laws of 1911, and all acts amendatory thereof and supplemental thereto: Provided, however, That the provisions of this act shall not apply to distribution systems owned and operated under franchise for the sale, delivery, or distribution of natural gas at retail.

   It is common knowledge that negotiations are being made to pipe oil and gas, particularly gas, into this state from the Province of Alberta, Canada, and from the State of Texas. The result is considerable pressure on the members of the legislature throughout the state for a law to make such pipe lines common carriers, if and when constructed.

   During the extraordinary session of the legislature last July a bill was introduced which provided that gas and oil lines within the state shall be common carriers. Later, however, attorneys assigned to the legislative bill drafting department advised that existing statutes amply covered the situation, so the bill was not acted upon during the special session.
Since the adjournment of the extraordinary session, the statutes were re-examined, and it was found that they do not cover the situation. The Council, therefore, believes that corrective legislation should be enacted at the earliest opportunity.

2. It is recommended that the legislature appropriate approximately $90,000 to continue to carry out the provisions of section 6, Chapter 175, Laws of 1933, relating to the expense of examination and cruising, advertising sales, marketing, scaling, protection of timber and general supervision and administration of state Sustained Yield Forest No. 1.

The present supervisor of Sustained Yield Forest No. 1 has uncovered many cases of illegal cutting of timber. A continuance of the program under Chapter 175, Laws of 1933, will save the state thousands of dollars in the future.

Chapter 175, Laws of 1933, provides that the General Fund be refunded the appropriations made for Sustained Yield Forest No. 1 out of the proceeds of timber sales from the forest. The supervisor of Sustained Yield Forest No. 1 estimates that such sales will exceed $1,000,000 per year, this being the proceeds from sale of an average 90,000,000 board feet of timber cut per year, and if the program outlined in Chapter 175 is carefully preserved and continued, this yield of 90,000,000 board feet per year will continue indefinitely, probably forever.

3. It is recommended that the legislature pass a memorial to Congress requesting enactment of legislation to provide for the investigation of the practicability of constructing a common carrier from Moclips, Washington, to Forks, Washington, forming a junction with the old Port Angeles and Western Railway, so that access may be had to both state owned and federally owned timber lands.

Sustained Yield Forest No. 1 at present has no common carrier or public highway for ingress or egress to or through its boundaries. All of the present roads are owned by private timber owners who refuse public access to these highways. It is imperative, in order to market the timber from Sustained Yield Forest No. 1, that a common carrier of some sort be made available.

At the final meeting of the Council for this biennium it was moved that the Legislative Council recommend to the legislature that it enact a comprehensive oil code, and that the code proposed by the Subcommittee on Natural Resources, together with the subcommittee's recommendations and transcripts of hearings pertaining thereto, be forwarded to the proper committees of the legislature for further action. This motion was seconded and adopted, thereby becoming the formal recommendation of the Council to the legislature.

Subcommittee on Public Welfare.

During the current biennium, the Subcommittee on Public Welfare gave primary attention to the problems of public assistance. The programs falling within this general category represent more than one-half of the state collected revenues of the general fund. Moreover, the total amount expended has risen sharply over previous fiscal periods. With the state moving constantly into a deeper deficit position, a careful review of present legislation and its administration was a matter of critical importance.

Trends in caseload and costs under Initiative 172 were analyzed in comparison with previous years and with trends in other states. An attempt was made to obtain data regarding the characteristics of the present caseload so that the needs of the people of the state for public aid could be realistically
defined. Unfortunately, this effort was not successful because of the inability of the State Department of Social Security to provide useful statistics regarding its operations.

Intensive attention was given to the administrative aspects of public assistance. The operating procedures of the county welfare departments were comprehensively surveyed, and the organization of the state department was analyzed. These projects were carried on in close cooperation with the State Director of Social Security, his assistants, and the county welfare administrators. Memorandum reports were prepared and reviewed in detail with the officials concerned.

In preparation for the special session of the legislature, convened in July, 1950, to consider additional welfare appropriations, a technical report was prepared to guide the committees and the general membership in exercising judgment regarding appropriation requests.

Throughout the biennium, the subcommittee utilized the Institute of Public Affairs of the University of Washington as its technical staff. The Institute prepared materials for subcommittee use, special memorandum reports, a final technical report, and also consulted with the state department on matters of common concern to the subcommittee and to the state department. The recommendations of the subcommittee, as endorsed by the Council, are as follows:

A. It is recommended that the public assistance program of the State of Washington be reconstructed in these terms:

1. Assistance should be granted on the basis of need to help persons whose income and resources are insufficient to provide a reasonable standard of health and well-being. This is very different from the pension, which is not concerned with individual need and seeks to continue earned income during the period after earning capacity has ceased. The pension responsibility belongs to the nation as a whole; this is reflected in the Federal old age and survivors' insurance. Any attempt to duplicate or compete with this national responsibility can lead only to confusion and to much greater financial burdens than the economy of the state can stand.

2. To assure equitable treatment of all needy persons, definitions of eligibility and need should be uniform, so far as possible, for all assistance programs.

3. All income and resources of a person should be utilized in meeting his requirements. The following should be regarded as meeting basic living needs and may, therefore, be reserved by the individual without affecting his eligibility:
   a) The home, if actually used as a residence, to an equity value not exceeding a stated maximum. This amount should be related to the homestead exemption.
   b) Reasonable household furnishings and equipment, clothing and personal effects necessary to the applicant.
   c) An automobile if necessary as transportation to meet personal needs.
   d) Other assets, not exceeding $500 in value, including cash value of life insurance, negotiable securities and cash.

4. Real and personal property in excess of the amounts stated above should not disqualify a person if devoted to a profitable use and producing a reasonable return, in cash or kind, which is applied toward the support of the recipient. However, if the property cannot be devoted to a profitable use or liquidated without unreasonable loss, an applicant may establish eligibility by assigning his interest in such property to the state to permit ultimate recovery from his estate against the excess property of the assistance paid in lieu of income.
5. Whenever a substantial increase in a recipient's equity in property is accrued as a result of assistance payments, the state should recover only against the increased equity for the amount of assistance paid.

6. Contributions, in cash or kind, actually made by relatives should be treated as a resource in determining need if these contributions are sufficiently predictable and continuous to be relied upon as income for the recipient. The administrative agency should be directed to recognize and develop family resources with immediate blood relatives responsible for contributing in accordance with their financial ability. Court enforcement is not recommended except with respect to the parents' responsibility for a minor child.

7. To protect the state against unnecessary burdens because of the avoidance of parental responsibility, the domestic relations law of the state should be amended to require mandatory provision in every divorce or separation settlement for the support of minor children, if any.

8. A person who has been a bona fide resident of the state for one year and who is actually in need should be eligible for assistance. This will provide a uniform rule for all assistance programs. Emergency grants to other persons should be authorized. However, persons newly arrived in the state should not accumulate the required residence while receiving assistance from this or any other state, unless the other state extends reciprocal treatment to residents of Washington.

9. A strong emphasis should be placed on the restoration of self-sufficiency whenever possible. To this end, the vocational rehabilitation services of the state should be further expanded.

10. To provide a recognition of efforts at self-help, an incentive should be provided whereby a portion of individual earnings, in cash or kind, may be budgeted for needs not included in the basic budgetary standard.

B. With respect to the organization and administration of public assistance, we recommend that legislation be enacted in accordance with these basic specifications:

1. The present state department should be replaced by a state social welfare council and a state department of social welfare. The new agency should be vested with the functions of public assistance now exercised by the Department of Social Security. Personnel holding office under the merit system should be transferred to the new department.

2. The state social welfare council should consist of seven citizens who have special fitness for the position because of their civic interest and experience. They should be appointed by the governor with the consent of the senate. The council should represent the general public interest. Members should serve without compensation except for actual expenses. They should be appointed on a bi-partisan basis for overlapping terms. The council should be responsible for policy functions, the recommendation of the biennial budget, the administrative allotment of funds within the limits of legislative appropriations, and acting in an advisory capacity to the director on administrative matters.

3. The state department of social welfare should be headed by a director appointed by the governor from among persons certified by the state council as qualified on the basis of knowledge and interest in the field of social welfare, and executive competence as demonstrated by previous successful experience. The director should be responsible to the governor for the effective application of policies established by the state council and for the efficient management of the department. The internal organization of the department should be determined by the director.
4. In each county there should be a county social welfare council and a county department of social welfare, except that the state council should be authorized to consolidate counties into larger administrative areas in the interest of efficient administration. Where counties are consolidated, a single council and a single department should serve the consolidated area.

5. The county social welfare council should be composed of seven leading citizens including the chairman of the county commissioners and the mayor of the largest city. In consolidated areas, ex officio members from the component counties should serve in annual rotation. Appointive members should be appointed by the governor from among persons nominated by the state council. The county council should appoint the county administrator under the merit system, approve an annual plan developed by the county administrator for meeting the county's problems of economic dependency, and assist the administrator in obtaining the cooperative participation of the judiciary, the bar, the school system, citizen groups and others who can contribute to the county's program.

6. The county administrator should be responsible for the administration of the state-wide program of assistance in the county under uniform state-wide standards.

7. To simplify the financing of the assistance program, the present 2 mill county levy should be abolished. The 2 mills should be made available for other county purposes.

8. Health care functions, including the care of the medically needy, should be placed in a new medical agency which would be responsible for the administration of medical care (which at least so far as office and home calls are concerned, should be on a prepaid basis), the private hospitalization of assistance recipients, and the financing of county hospitals and infirmaries. In all respects, this program should be aimed at the development in the recipient of a maximum capacity to care for himself, and if he is of employable age, at the restoration of partial or total self-sufficiency.

9. Special attention should be given by the state social welfare council and by the leadership of the state department to the strengthening of the administrative side of the assistance program. The difficulties mentioned previously in this report should be given first priority.

C. In view of the adoption of Initiative 178 by the people at the recent general election, the following recommendations, substantiated as to their legality by the Attorney General, are made:

1. The Council's recommendations pertaining to the reorganization of the State Department of Social Security can and should be adopted by the legislature.

2. To conform to the provision of Public Law 734, establishing a new federal aid category for the permanently and totally disabled, new state legislation can and should be adopted.

3. Immediately upon the convening of the regular session of the legislature, the appropriation for health care should be transferred to the State Department of Health.
4. The recommendations of the Council pertaining to the granting of public assistance which are not consistent with the provisions of Initiative 178, should be enacted by the legislature to take effect December 7, 1952, or at such earlier date as the provisions of Initiative 178 may for any reason become inoperative, if the Attorney General concludes that such action is legally possible.

5. The domestic relations law of the state can and should be amended to give effect to the Council recommendation that provision for support of minor children be mandatory in every divorce or separation settlement.

Subcommittee on Regulation of Commerce, Industry, Trades and Professions.

This subcommittee had responsibility for consideration of problems arising from state regulation of economic pursuits where such pursuits affect the public interest.

It has studied state and local licensing activities, administration of the state's basic science law, regulation of log patrol activities, and has given consideration to the possibility that monopolistic practices exist in certain Washington industries.

While the subcommittee has made no formal recommendations to the Council, its work entailed several public hearings. Such hearings were held on the subjects of log patrol activities, administration of the state's basic science law, and the development of monopolistic practices in Washington industries. Upon motion adopted by the Council, it was recommended that transcripts of these hearings be made available to appropriate committees of the legislature.

Special Subcommittee on Revised State Code.

The Special Subcommittee on Revised State Code was created for the purpose of continuing the work of the State Code Revision and Recompilation Committee.

Upon the recommendation of this subcommittee, as approved by the Council, the legislature enacted, at the 1950 Extraordinary Session, a proposed revised codification of state laws enacted up to and including the 1947 legislative session.

The subcommittee is having the laws of 1949 and 1950 codified and will recommend their incorporation in the Revised State Code at the 1951 legislative session.

The principal recommendation of this subcommittee, as adopted by the Council for transmission to the legislature, is as follows:

It is recommended that there be established, by law, for the purpose of keeping the Revised State Code up-to-date and in good order, a permanent code reviser's office.

The Council firmly believes that a code reviser's office or agency is necessary if errors in the present code are to be corrected and if the revision is to become the law. In this regard, the experience of other states has indicated that a code reviser's office is an absolute necessity if the law is to be kept in such condition as to obviate the necessity for future extensive and expensive revisions.

A second recommendation arose from the Council's consideration of the subcommittee's final report, as follows:

It is recommended that the rules of the Senate and of the House of Representatives be amended to provide that all bills introduced must be submitted to a bill drafting committee, prior to introduction, for approval as to form and reference.
It seems vitally necessary to the Council to make certain that all bills are properly drafted in the style and form of reference of the newly adopted code. This would have the advantage of avoiding duplications, repeals by implication, and other difficulties arising when the drafter or sponsor of the bill is not fully conversant with the contents of the Revised Code.

Subcommittee on State and Local Government.

The work of this subcommittee has been quite comprehensive in scope. It has had responsibility for consideration of many problems relating to state and local government which were not clearly the responsibility of the other subcommittees of the Council.

The subcommittee has studied such matters as the financial resources of the state, county consolidation, special taxing district organization, state administrative reorganization, crime commissions, and legislative reapportionment.

Those recommendations of the subcommittee which were endorsed for transmission to the legislature are as follows:

1. It is recommended that the legislature abolish, by repeal of the laws which created them, the following state agencies: (a) Washington State Welfare Survey Commission, (b) Institutional Board of Health, (c) State Humane Bureau, and (d) Canal Commission.

In its preliminary review of the existing state administrative structure, the subcommittee found several minor agencies which had either long ceased to function or were performing functions no longer of real value to the state. Recognizing that one of the principal causes of a cluttered and involved organizational structure is the failure to abolish outmoded and useless agencies, the subcommittee consulted with the state officers and administrators concerned as to the advisability of abolishing at least some of these agencies. The result of these conferences was the above recommendation; a recommendation which has met with no serious opposition from any quarter. Bills have been prepared and endorsed by the Council for this purpose.

2. It is recommended that legislation be enacted to effect a general revision of the fees charged for documents and services issued to and rendered for the public by the various county offices.

At the request of the Washington State Association of County Clerks, the Subcommittee on State and Local Government undertook a survey of fees charged by the various county offices for documents and services issued to and rendered the public. The original statute establishing these fees was enacted in 1907, and it is felt by the county officers that this law is antiquated. It is believed that the cost of issuing the documents and rendering the services concerned cannot be met under the existing fee schedule.

It was brought to the attention of the subcommittee that proposed legislation on this subject had been introduced in the 1949 legislative session. House Bill No. 512, the bill in question, was a revision of the 1907 statute. Upon reviewing this bill, the subcommittee felt that, with a few changes, it could be made to serve for re-introduction.

The subcommittee's recommendation, as endorsed by the Council for transmission to the legislature, is that this bill, with suggested changes, be forwarded to appropriate committees of the legislature for further action.

3. It is recommended that proposed legislation prepared by the Subcommittee on State and Local Government relating to the manner of publication and distribution of voters' pamphlets concerning initiatives
and referendum measures, with all pertinent information, be forwarded to appropriate committees of the legislature with the recommendation that action be taken on the matter.

During the Extraordinary Session of 1950, the problem of printing and distributing voters' pamphlets became a subject of discussion among the members. A survey of the various state methods used to advise the electorate of the content of initiatives, referendums and proposed constitutional amendments was conducted by the subcommittee. The information derived from this survey substantiates the subcommittee's opinion that Washington's present procedure is both ineffective and unnecessarily expensive.

The cost of printing past issues of the pamphlet has approximated $28,000. To this must be added the cost of envelopes in which they are mailed, amounting to $5,200; the cost of addressing, amounting to $37,000; and the cost of postage, approximating $15,500; or a total expenditure of $85,700.

Under the procedure outlined in the subcommittee's bill, savings to the state in postage, envelopes, and printing would amount to approximately $70,000. This procedure calls for distribution of the pamphlet to the voter, at the proper time, from polling places, county offices, and other strategic locations.

REPORT OF LEGISLATIVE COUNCIL ACTIVITIES IN INTERSTATE COOPERATION

Since its creation, the Legislative Council has functioned as Washington's Commission on Interstate Cooperation. During the 1949-1951 biennium, an allocation was made from the Council budget so that the Council might be represented at the many valuable meetings and conferences sponsored and organized by the Council of State Governments, the secretariat of the forty-eight state Commissions on Interstate Cooperation.

Each state is faced with common or similar problems in such matters as public finance, education, employment, highways, veterans affairs, legislative practices, and state-local relations. The Council of State Governments, acting through committees of the state legislators and state officials, studies such problems and develops programs for consideration by the states. The Council is also a channel for the organization of federal-state cooperative programs. Considerable attention is given to the prevention or elimination of interstate trade barriers. Through the medium of regional conferences, problems of these and other fields, such as institutional care and agriculture, are given more detailed study and suggested solutions propounded.

During the past biennium, Washington was represented at various Council of State Governments meetings, regional conferences, and legislative service conferences by one or more of the following Council members: Gerald G. Dixon, Thomas C. Hall, Albert D. Rosellini, Alfred J. Westberg, Bernard J. Gallagher, Robert L. Rutter, Jr., and Chas. W. Hodde.

In addition, at the request of the Council, Representative Julia Butler Hansen and Senator W. C. Raugust, of the Joint Fact-Finding Committee on Highways, Streets and Bridges, attended the Western Highways Policies Committee of the Eleven Western States meetings, February 16-17, 1950, in Salt Lake City, Utah, and October 21-24, 1950, in Santa Fe, New Mexico.

Each member of the Council attending these functions and Representative Hansen and Senator Raugust gave a full report on the proceedings of the conferences to the Council upon their return. Copies of these reports are available to all interested members in the Council office.

MESSAGE OF GOVERNOR ARTHUR B. Langlie TO THE LEGISLATURE

Mr. President, Mr. Speaker, Ladies and Gentlemen of the Legislature:

Your return to the legislative halls of the state has not only meant a great deal of inconvenience to all of you, but has involved considerable personal sacrifice. This I could not help but realize when I called you back so soon after the adjournment of your thirty-second session. Nevertheless, the problems and policies of state finance are so serious that I felt in all honesty no other course was open to me than to ask that you return while these matters are fresh in your minds.

Moreover, the problems become more serious with each passing week. If expenditures are to be made on the basis of the appropriation bills you passed—then any delay in providing new revenue means higher imposition of taxes to be collected in an ever-shortening period of time. Even now we have lost one month of the twenty-four in the next biennium.

If on the other hand appropriations are to be reduced, all agencies of government should know at once, so that plans can properly be laid for dealing with problems these reductions will bring as the new biennium begins.

Then, there is the problem of issuing bonds. The people by their votes and you by legislative act have authorized the issuance of over 100 million dollars worth of state bonds. The obligations to be issued by the state, if and when the supreme court approves their legality, are dependent for a favorable sale on the general conditions surrounding the marketing of these bonds. In the interest of sound business for the people of this state, it is incumbent on us to create the most favorable market conditions possible. In doing so we can save hundreds of thousands of dollars over the redemption period of the bonds in interest rates alone. A most important step in that direction is to put our financial house in order at once.

You are familiar with the figures in connection with the general fund. You know that at the close of this biennium we will be approximately 49 million dollars in the red. You know too that on the basis of the appropriation bills that you passed and without new revenues, this deficit would have increased 94 million. In all probability state government could have operated only a few months when serious credit limitations would have been imposed, thus jeopardizing all agencies of government that would depend upon the appropriations made at the thirty-second session of the legislature. Since your adjournment we have carefully reviewed the estimates of revenue for the next two years and despite all that has been said to the contrary we are satisfied that our estimates are as close to being accurate, as careful calculation and forecasting can make them.

The scope of matters for your deliberations is not known to me. You, of course, are not limited in this special session. However, I shall not now make any recommendations to you except with respect to the fiscal policies of the state.

In that connection I can but reiterate the essential points of my message to you on January 10, at which time I recommended the moderate budget and the broadening of revenue opportunities for local government. I believe that this is the best answer to the 94 million dollar question which confronts you.

Every consideration since the general session has also strengthened our belief that such a program presents the greatest opportunities for the long range well-being of state and local government, and for giving the people a better opportunity to understand the needs and the responsibilities of these times.

Many years ago, because of the disproportionate tax load that property was carrying, our state embarked upon a policy of tax limitation which took a great burden—almost an overbearing burden of taxes—off of the property owners. As a result of that, the responsibility for raising revenues to support local government shifted rapidly to state government. That burden has been increasing through the years to the point where now the share of taxes raised by state government is completely out of line with proper responsibilities on the local level of government. The error of shifting taxes to the state is being evidenced as each biennium passes. Proper controls and the responsibility for
expenditure of funds has been difficult and has developed expansive ideas of spending without the corresponding responsibility for raising revenue. This is not an easy matter to adjust. As I pointed out in my January message, a first step must be to free local government to the maximum extent in allowing them responsibilities not only of administration, but responsibilities for raising funds.

In the regular session of the thirty-second legislature just completed, it was evident that it was most difficult for legislators to decide on a proper additional tax source for the State of Washington. Everyone with an interest to protect pressed upon the legislature arguments—whether true, half true, or false—why taxes should not be passed; or why some other tax that would not affect them was better than the one proposed. The legislators were in no position, in many instances, to evaluate accurately this information and on many occasions were unwilling to rely upon the factual information of technicians who had spent considerable time in studying the problem.

The whole question of taxation and revenue as now applied to the poorly defined responsibilities of state and local governments demands objective study. The tax structure and revenue raising procedures of governments in this state are becoming more and more inconsistent with sound principles of effective, representative government.

The problem of basic tax reform, however, is long range in scope and does not solve our immediate obligations. We must, however, make a start now and that start must be made in the area of local government. If local government continues to look more and more to the state for the financial support of its services, or if the responsibilities of local governments are continuously shifted to the state, the cost to the taxpayer will inevitably be more. More than this, the necessary understanding and cooperation in government deteriorates as the bickering and quarreling over state funds becomes more intensified at each session of the legislature. We must not weaken local self government by keeping from local officials the responsibilities for raising the money they spend for the local services the people want. The myth that the money being spent through the state or federal government does not come out of the pockets of local taxpayers must be exploded now.

In view of the need for a redefinition of financial responsibility, it is necessary that an extensive study be made during the next two years. This study should be made by a well balanced and representative commission of outstanding citizens. In my judgment, the method used by the federal government in setting up the Hoover Commission might well be followed. I therefore suggest that four members be appointed by the House of Representatives, four by the Senate—and that of these eight members not more than two be appointed from each house; and the remaining four members of the twelve man commission be appointed by the governor.

We should furnish sufficient funds to such a commission to enable it to employ the best skills available to give this subject the most careful and painstaking study and review. Surely there are enough able, thoughtful and respected citizens in the State of Washington to make such a study and to establish the integrity of their recommendations. The results of such a study will serve as a guide for all interests in the state in the building of a sound tax structure, consistent with the best in representative government—a guide which places responsibilities where they properly belong and insures the future in the development of constructive government.

There is one problem that requires your immediate attention. Public assistance payments should suffer no delay if severe hardships upon our aged citizens are to be avoided. Therefore, an emergency appropriation is required providing the necessary funds for the month of April. This bill is prepared and I am requesting that you act upon it without delay.

As in the past, the Governor's office and all administrative offices under my jurisdiction are prepared to give you the fullest cooperation and assistance. Let us work together, as servants of all the people, adopt a balanced budget and continue the search for a wise and far-sighted fiscal policy for our state.

Let us be seekers after truth, for it is the truth that keeps us free.

The President announced that the special committee would escort His Excellency, Governor Arthur B. Langlie to the governor's chambers.

The special committee thereupon escorted the governor from the House chamber.

On motion of Mr. Adams, the joint session was dissolved.

EXPLANATION OF VOTE

Mr. Woodall submitted the following explanation of his vote on Engrossed House Bill No. 1:

"I wish to explain my vote on House Bill No. 1, the Appropriations Bill, which derives its funds from the general revenue groups. I realized that this budget was out of balance and above the governor's estimates. However, it was necessary to expedite this measure for the purpose of getting the same into conference between the House and Senate to the end that a reduced budget be effected."
EXPLANATION OF VOTE

Mr. Hofmeister:

"Mr. Speaker, Ladies and Gentlemen of the House:

"I wish to explain the reason why I voted 'no' on House Bill No. 1. When House Bill No. 1 was on second reading, the House by amendment cut one appropriation from $800,000 to $400,000, which I think will be very injurious to the veterans of this state and the veterans fighting in Korea today. If those fellows are losing their lives, their wives and widows are going to need some assistance. Some of you may think that is not a war over there, but with some 80,000 casualties, I think that it is. I cannot vote for this bill for that reason."

PROPOSITIONS AND MOTIONS

MOTION

Mr. Comfort moved the adoption of the following amendment to House Rule 43:

Amend House Rule No. 43, page 247, line 10 of the 1951 legislative manual, following the words "fiftieth day" and before the word "reconsideration" insert the following: "of a regular session or any day of a special session"

The motion was lost.

INTRODUCTION AND FIRST READING OF BILLS

The following were introduced, read first time by title, and acted upon as indicated:

House Bill No. 24, by Representatives Rasmussen, Ford and Stokes:

An Act relating to butter substitutes colored to imitate butter; providing for a tax thereon, adding a new chapter to Title 82, R.C.W., repealing chapter 15.40, R.C.W., and declaring an emergency and that this act shall take effect May 1, 1951.
FIFTH DAY, MARCH 31, 1951

POINT OF INFORMATION

The Speaker:

"The Speaker would like to inquire of Mr. Rasmussen if he feels that this matter, having been ruled out of order previously as not within the provisions of Senate Concurrent Resolution No. 2, is in order today."

Mr. Rasmussen:

"Mr. Speaker, ladies and gentlemen, this bill, as you know, concerns allowing the housewives to buy colored oleomargarine."

The Speaker:

"The Speaker may have to rule the matter out of order, if that is what it is about. Thank you, Mr. Rasmussen. That is all I wanted to know."

POINT OF ORDER

Mr. Rasmussen:

"Point of order, Mr. Speaker. This bill is an entirely different bill. We have had a tremendous demand for this bill and, as a result, we have had attorneys working on it for three days. They have drafted a bill which provides for one cent per pound revenue on the sale of colored oleomargarine. Now, this would bring in about $400,000 to $500,000 to the state. There is also a provision in this bill which would not allow colored oleo to be brought over from Oregon without paying the tax to the State of Washington. As it is now, Oregon has passed a law allowing the sale of colored oleomargarine and it will be coming across the border by the truck loads without any tax whatever. If you will allow this bill to go to the Committee on Revenue and Taxation, you will accomplish two purposes: One, you will get four to five hundred thousand dollars in revenue for the state; and two, you will prohibit the transportation of colored oleomargarine from Oregon to Washington. I believe, Mr. Speaker, this bill is in order and that it should go to the Committee on Revenue and Taxation."

PRESENTATION OF QUESTION TO THE HOUSE

The Speaker:

"The Speaker is unable to make a ruling in such a delicate situation and will present the question to the House."

The Speaker declared the motion before the House to be the consideration of House Bill No. 24 on introduction.

The House voted on a rising vote to consider House Bill No. 24 on introduction.

House Bill No. 24 was ordered printed and referred to the Committee on Revenue and Taxation.

MOTION

Mr. Jones (John R.) moved that House Bill No. 24 be re-referred to the Committee on Agriculture and Livestock.

Debate ensued.

POINT OF ORDER

Mr. Hurley:

"Point of order, Mr. Speaker. No bill can be introduced unless it concerns an appropriation, revenue or taxation."

The Speaker:

"The Speaker has already ruled by a division of the House that this is a proper bill, that it is a revenue bill, and has referred the bill to the Committee on Revenue and Taxation."

Mr. Hurley:

"I believe the only proper place for the bill, in that case, would be the Committee on Revenue and Taxation. I don't think the Speaker has any alternative. It would be inconsistent with the ruling of the House to refer it to any other committee. I think the motion is out of order."
RULING BY THE SPEAKER

"The Speaker will rule that any revenue matter might be considered by any committee."

Mr. Zent demanded the previous question and the demand was sustained.

The Speaker declared the question before the House to be the motion by Mr. Jones (John R.) that House Bill No. 24 be re-referred to the Committee on Agriculture and Livestock.

The motion was lost on a rising vote.

House Bill No. 25, by Representative Hess:

An Act relating to revenue from horse racing; requiring licensees operating pari-mutuel machines to transmit any revenue resulting from the breaks to the horse racing commission for deposit in the general fund, amending section 67.16.060, R.C.W., and declaring an emergency.

Ordered printed and referred to Committee on Revenue and Taxation.

POINT OF ORDER

Mr. Jones (W. Kenneth):

"I rise to a point of order on the ground that this committee report as just read is in violation of some of the rules of the House, some of the joint rules of the House and Senate, and is in violation of the State constitution. I cite rules 36 and 62 of the House rules; rule 6 of the joint rules of the House and Senate; and Article II, sections 19 and 38 of our State constitution. I would like to argue on this point of order and submit the point of order is well taken."

Mr. O'Brien demanded a call of the House and the demand was sustained.

Mr. Carmichael appeared within the bar of the House.

Mr. O'Brien moved that the House proceed with business under the call of the House.

The motion was carried.

POINT OF ORDER

Mr. Jones (W. Kenneth):

"Mr. Speaker, Ladies and Gentlemen of the House:

"I wish to state to you, in addition to my point of order, my arguments against the entire committee report and particularly against sections 3 to 46, inclusive, of the report, which definitely concern a corporation income or excise or franchise tax, whatever you choose to call it. To me this is an extremely important issue to be decided by this House, not so much for the matter at hand at the moment but for the precedent that is going to be established if this point of order is not sustained.

"This would establish a precedent of allowing a free conference committee to bring out a certain bill amended to include entirely new matter, which is not within the scope of the authority of that committee.

"I think you are well enough acquainted with what I am talking about. You all know this bill originated in the House. It was an appropriations bill and nothing else. The title so read. It went to the Senate and the Senate struck all of the bill after the enacting clause; they sent it back and, of course, we ultimately went into free conference committee. May I point out to you the dangerous precedent established when a committee can do such a thing for the benefit, for example: Those of you who are in the farm block, suppose that this committee—"

The Speaker:

"The Speaker will have to ask the gentleman to direct his remarks to the specific point of argument inasmuch as remarks on a point of order will appear in the journal. If he wishes to discuss the propriety of any ruling, after his point of order has been stated, then it would be proper for him to debate upon the ruling. It seems the gentleman is proceeding to debate upon a ruling which has not been made."

Mr. Jones (W. Kenneth):

"Then I shall make my first point. I stated the first point was a violation of rules 6 and 9 of the joint rules; and I say that a report of a free conference committee is established by those rules. In other words, even though it is a report of free conference committee, it is still an amendment even though it is submitted as a substitute bill. When you look at the joint rules of the Senate and the House concerning this matter of free conference, you can see in those rules it is definitely established that a report of free conference committee is an amendment to the bill. You can see that the report of the free conference committee on House Bill No. 1 is definitely setting a new precedent."

The Speaker:

"The gentleman fails to realize he is again arguing a ruling which has not been made. He is entitled to raise the point of order and get it in the record. Then if he desires to appeal from the ruling, should it be adverse to his point of order, he may argue it at length."
Mr. Jones (W. Kenneth):

"I believe I have covered my first point. My second point, as I have stated, is the fact that the report of the free conference committee on House Bill No. 1 violates rules 36 and 82 of the House rules. Rule 36 states, 'No motion or proposition of a subject different from that under consideration shall be admitted under color of amendment.' Rule 82 states, 'A substitute or amendment must relate to the same subject as the original bill, resolution, memorial or constitutional amendment under consideration.' I submit this conference report does not conform with those rules.

"A further point is on the constitution. Article II, section 19 provides that, 'No bill shall embrace more than one subject, and that shall be expressed in the title.' Section 38 of Article II provides that, 'No amendment to any bill shall be allowed which shall change the scope and object of the bill.'

"Does the Speaker now wish to rule on the point of order?"

RULING BY THE SPEAKER

The Speaker:

"The Speaker will rule that the point is not well taken inasmuch as it is the Speaker's opinion that the report of the free conference committee contains no matter, nor has the committee arrived at its report in any different manner than has been well established by precedent; that the matter contained therein is germane and would be ruled germane if it were introduced as an original bill, and would be accepted as germane if it had been added in regular standing committee. It does not violate the general practices of the House, or constitutional rules as have been cited by the gentleman."

APPEAL FROM THE RULING OF THE SPEAKER

Mr. Jones (W. Kenneth):

"Mr. Speaker, I appeal from the ruling of the Speaker."

The Speaker:

"The question before the House is, 'Shall the decision of the Speaker be the judgment of the House.' Does the gentleman wish to discuss the appeal from the Chair?"

Mr. Jones (W. Kenneth):

"Mr. Speaker, speaking on the appeal from your ruling, I quote you rule 6, which as you know provides for the powers of free conference in the event the two houses are unable to agree: 'In case of a failure of the conferees to agree, a report of such disagreement may be made and the power of free conference may be granted by the two houses, either to the same committee, or the committee may be discharged and a new committee appointed with the power of free conference, to whom the whole subject matter embraced in the bill or resolution shall be committed, and the committee of free conference may report by new bill or resolution, or otherwise, and bills or resolutions so reported shall be treated as amendments, unless such bills or resolutions are comprised entirely of original matter.' Certainly the report is not composed entirely of original matter.

"Rule 7 refers to the number of copies necessary and the uses thereof, also that a copy of the bill with all amendments inserted must be returned to the House.

"Rule 9 states: 'The report of a conference or free conference committee may be adopted by acclamation, but concurrence in the bill as amended shall be by roll call . . .'. I think it is very definitely established by these rules that a free conference report is an amendment to the original bill.

"We all know that the original bill pertained to appropriations and nothing else. I don't think that anyone can say that a corporation or income tax matter has anything to do with, or is germane to the question of appropriation of state moneys for the functions of the various state departments. I believe absolutely that the committee report violates the joint rules of the House and Senate and, because it is a House bill, it also violates the House rules.

"One further point. Article II, section 19 of the constitution states, 'No bill shall embrace more than one subject', and that rule was put in for a good reason. Here we have a bill that is comprised of two different subjects. One is the subject of appropriations; the other is the subject of revenue by means of income tax on corporations.
Section 38 of Article II of the state constitution states that 'no amendment to any bill shall be allowed which shall change the scope and object of the bill'. That was the law in 1889 and it has been the law since 1889. Now, suddenly because people think that we have reached an impasse and cannot agree, they have adopted this method which is in violation of our state constitution and would establish a dangerous precedent. I think that you members of the House should in all sincerity consider what you are doing and vote to overrule the ruling of the Speaker.

"As I started to point out, if this precedent is established, almost anything could happen when a bill goes into conference committee. Everybody could add to it, every kind of a bill, in order to get a bill back for a vote and you are then forced to accept it or reject it. Suppose the 'Oleo bill' had been added as an amendment here. Would anyone argue that, if the 'Oleo bill' had been tacked on as an amendment, it would not go beyond the scope of the original bill. Here it relates to income tax on corporations. Do not overlook the precedent which you would establish in this sort of thing. I earnestly submit to you that the ruling of the Chair on this matter should not be sustained."

The Speaker:

"The Speaker would like to comment to the extent of citing certain precedents which the members may have the opportunity to check before the vote is taken. In 1947 there was referred to a free conference committee the question of a welfare statute containing neither revenue nor appropriations. The free conference did, in its wisdom, introduce the matter of the entire social security appropriations into the bill in such a manner that it could not be segregated. The matter was taken before the supreme court and the action was upheld in the supreme court.

"The Speaker would also like to point out that during the 1951 regular legislature there were added other bills to bills which have been approved and have become law. Then again, in 1949 the legislature, while not in free conference committee, but during other legislative processes, placed three bills in one measure. An appeal was taken to the supreme court and the question was raised, the constitutional question, as to whether three bills could be combined under one title even though they were germane. The court again held the action of the legislature was constitutional. Therefore, the Speaker is of the opinion that no precedent is being broken; that the legislature makes its own rules, and as long as the rules of the legislature do not result in a non-constitutional or non-germane matter being placed in a bill, the matter is in order regardless in what part of the legislative process the matter is placed in the bill."

Mr. Hoff:

"Mr. Jones did not mention one thing which should be brought to your attention. In ruling originally on this matter, the Speaker said that these two subjects may have the opportunity to check before the vote is taken. In 1947 there was referred to a free conference committee the question of a welfare statute containing neither revenue nor appropriations. The free conference did, in its wisdom, introduce the matter of the entire social security appropriations into the bill in such a manner that it could not be segregated. The matter was taken before the supreme court and the action was upheld in the supreme court.

"The Speaker would also like to point out that during the 1951 regular legislature there were added other bills to bills which have been approved and have become law. Then again, in 1949 the legislature, while not in free conference committee, but during other legislative processes, placed three bills in one measure. An appeal was taken to the supreme court and the question was raised, the constitutional question, as to whether three bills could be combined under one title even though they were germane. The court again held the action of the legislature was constitutional. Therefore, the Speaker is of the opinion that no precedent is being broken; that the legislature makes its own rules, and as long as the rules of the legislature do not result in a non-constitutional or non-germane matter being placed in a bill, the matter is in order regardless in what part of the legislative process the matter is placed in the bill."

"Mr. Jones did not mention one thing which should be brought to your attention. In ruling originally on this matter, the Speaker said that these two subjects could have been introduced in a bill during the regular session. It is my feeling that they could have been introduced but they would have had to go through the processes of various readings, giving us an opportunity to make amendments. What have we done here? We have given six men the power to bring forth a revenue measure and we will now either have to take it or reject it. We cannot amend it further. It is my belief that a conference committee should have no more power than any other six people in this House, who might go out in the corridor, write a bill and present it to this Body. If that were to happen, the Speaker would have ruled the bill out of order. We would not have a right to vote and that is a point which hits very closely to this constitutional question.

"Further, I have read those cases cited by Mr. Hodde. My position is that of many attorneys in this group, that we have here the two major bills of this whole legislative session. It is a very important decision that the Chair now makes. This is the most important decision the Chair will make in this session. We know that our state supreme court and the supreme court of the United States many times have said, you can go in back of a statute or go in back of a constitutional provision to determine the purposes of the body drawing up that provision. What was the purpose behind this? The purpose was to make it possible for a group such as this to vote on one controversial measure at a time. We know there are individuals here who will vote on this measure who would not vote for the four per cent corporation tax. We saw that a few days ago when the four per cent tax failed. There are those here who want to see the appropriation bill passed. The veterans block here had a proposed $800,000 appropriation, and this Body showed that it didn't want that appropriation . . . . ."
POINT OF ORDER

Mr. O'Brien:
"I rise to a point of order."

The Speaker:
"State your point of order."

Mr. O'Brien:
"Mr. Hoff is speaking on the merits of the appropriations bill."

The Speaker:
"The Speaker will ask the gentleman to confine his remarks to the matter under discussion, the appeal from the ruling of the Chair."

Mr. Hoff:
"It seems to me that this is a basic issue and I think you will understand the point I am trying to get across. The free conference committee has no right to bring out a new bill and expect it to go out as a free conference report when we did not give them the authority to do it. This must be treated then as any other measure introduced here and must go through the primary stages of being introduced. And, I think that the second point Mr. Jones made is certainly valid. I hope this Body will overrule the Speaker."

Mr. Woodall:
"It is with some degree of reluctance that I make these observations. It is easy to lose sight of great things before you. How you feel about the bill is not the issue before this House any more than the ruling of a judge. In the ruling of the judge on a murder case, either it is a good or a bad ruling. A judge does not decide whether the defendant should or should not be found guilty. A judge rules on whether it is a proper method of achieving the end. We have recognized in our judiciary that the end does not always justify the means, whether you are for or against it.

"We now have a fundamental issue before this House. In 1947 an act, which was an act dealing with public assistance, went to a conference committee which wrote into the bill an appropriation amendment to the bill. I don't think that particular question was raised before the court. There have been other amendments allowed before in this session. On the other hand, I have heard the Speaker rule on certain matters which would not be germane. Does it mean that just because people want to get out of here we are going to vote against the rules? What does rule 36 mean? It states what it means. No bill shall at any time be amended by an amendment or incorporate therein any other bill pending before the House. Was the corporate tax bill before the House? Does everyone want to forget that rule? What is a conference committee? What is it for? The object of the conference is to adjust differences between two bodies. Were there any revenue measures hooked to the original bill?

"There were no differences between the two bodies on the subject of revenue. There was no mention of revenue in House Bill No. 1. The powers of free conference were granted to reconcile the differences in the amounts of the various appropriations.

"When the income tax bill was introduced in this Body it went to revenue committee. The appropriation bill was referred to appropriations. Why? I imagine both should have been referred to appropriations. Did the Speaker err in sending one to revenue and one to appropriations? They are different subjects, different matters. A new tax method, meritorious as it might be, is a different subject from appropriations. If this ruling holds, a precedent is established hereafter that all one has to do is introduce an act providing good things for the State of Washington and any amendments thereafter would be germane. What is the purpose of these rules? We have orderly proceedings. The rules are made so you can vote for or against different matters.

"There are members who are not in favor of the appropriation bill. Can they register their disapproval of the bill? No. If you vote for the appropriation bill, you vote for the tax bill. There are those who want to vote against the revenue bill and for the appropriation bill. Can we do it? No, we cannot, because if we do, someone is going to say, he voted not to give the department anything to run on. You are placed in a position where you cannot express yourself. The only thing you can say is, 'I had to go for the lesser of two evils'."
“Who were the members of the free conference committee? No members of revenue committee were on that free conference committee. Why? It was a conference to consider appropriations and the members were told to vote for the appropriation bill to hasten it into free conference. Many of us, who were against the appropriation bill, voted ‘aye’ on that promise. Was anyone told we were voting to get a free conference on revenue? Who of us knew when we voted for a free conference on appropriations that we were voting for a revenue measure? I stood here and said that I was told the quickest way to expedite the matter of getting the bill over was to get it in free conference committee. Did anyone say that was making it possible to tie something else with it?

“There is not one person among you to which a matter like this has ever been presented before. We are starting a hurricane, the backlash of which will some day hit those of you, who this morning voted ‘aye’. As I stated when I started, when there is a great moral issue, I would feel remiss in my duties if I did not express myself on this issue, irrespective of friendship or party loyalty. When I first took my oath I stated that I would support the constitution of the State of Washington and my first duty lies there, and the constitution says you cannot do what we are asked to do this morning.”

The Speaker:

“The Speaker would like to comment on several new points which Mr. Woodall has brought up. In the first place, in all disagreements between two bodies, the free conference is the final and last resort of reaching agreement. It is used consistently by all two house bodies and is given powers which are not granted to any other portion of the legislature. In the national Congress, which furnishes the national pattern, it is not unusual for subjects much less germane than that which is being proposed here to be added to bills in free conference. In fact, it is rather the general practice.

“The Speaker would like to point out the question of precedent has been borne on rather heavily. The Speaker feels he would be in grave error if he ruled other than he has on this point of order, in that a new precedent would be established, because this is the first time in the Speaker’s knowledge where the judgment of a conference committee, as to what could be included in a bill so long as it would be otherwise germane, has been challenged. To rule that this matter could not be included might lead to further rulings in the future which would narrow the possibilities of consideration in free conference committees to a point where it would be impossible to reach agreement between the two houses by restricting them to the extent they could not explore a large enough area to reach an agreement.

“The Speaker would like to point out also that no right of any member has been abrogated in this matter because the matter is not one which is arbitrarily accepted. The report of the free conference committee must still receive the majority of votes in both the House and the Senate before it can be enrolled and sent to the governor. The acceptance of either part could just as well depend on both parts being before the Body as to say that the acceptance could be decided better by division where the Body would be unable to tell what would happen in the other instance if they take action on one part.

“The Speaker does not feel the question of division is pertinent to the ruling because always on final passage there are differences of opinion on particular matters in the bill. It might as well be argued when an appropriations bill is on final passage that every single appropriation would have to be voted upon separately in order that the members might properly express their minds on individual matters in the bill.

“The Speaker might also point out that this bill contained more than just the matter of appropriations when it was referred to the conference committee. In fact, appropriations bills have been amended with much more foreign material than the question of raising money for an appropriation. The particular matters to which we would like to refer the members are matters of qualification and methods by which money might be expended, even though the methods and qualifications might be extended to the operation of municipal forms of government that are not directly state government.”

Mr. Ford demanded the previous question and the demand was sustained.

The Speaker declared the question before the House to be, “Shall the decision of the Speaker be the judgment of the House.”
Mr. Woodall demanded a roll call and the demand was sustained.

The Clerk called the roll on the question of whether the decision of the Speaker would be the judgment of the House and the appeal was lost by the following vote: Yeas, 58; nays, 41; absent or not voting, 0.

Those voting yea were: Representatives Adams, Bailey, Beierlein, Berney, Brown (Gordon J.), Brown (Henry A.), Carmichael, Carty, Connor, Cooney, Donohue, Dootson, Ford, Forrest, Gallagher, Giboney, Hallauer, Hansen, Henry (Al), Henry (Edward E.), Hess, Hofmeister, Holliday, Hoopingarner, Huhta, Jeffreys, Johnson (Charlie), Jones (John R.), King, Kirk, Knoblauch, Kupka, Lennart, Mardesich, McLean, Miller (Clyde J.), Miller (Floyd C.), Morris, Nunamaker, O'Brien, Olsen (Ray), Olson (Ole H.), Paulsen, Pedersen, Rasmussen, Ridgway, Roderick, Sandison, Savage, Simmons, Sorensen, Testu, Vane, Wedekind, Wenberg, Wintler, Young, Mr. Speaker—58.

Those voting nay were: Representatives Anderson (B. Roy), Anderson (Eva), Ball, Bassett, Clark, Comfort, Cory, Eldridge, Frayn, Gordon, Griffith, Hawley, Hillyer, Hoefel, Hoff, Hurley, Johnston (Elmer E.), Jones (Mrs. Vincent F.), Jones (W. Kenneth), Kellogg, Lester, Loney, Lorimer, Mayes, Nell, Orndorff, Owenell, Phillips, Powell, Riemcke, Schumann, Shadbolt, Siler, Sisson, Smith, Stokes, Stonecipher, Strom, Timm, Woodall, Zent—41.

The decision of the Speaker was voted the judgment of the House.

MOTION

Mr. Olson (Ole H.), moved that the report of the Free Conference Committee on House Bill No. 1 be adopted.

POINT OF ORDER

Mr. Jones (W. Kenneth):

"I wish to renew the same points of order which I raised before on the same grounds."

The Speaker:

"That is out of order, Mr. Jones."

Mr. Woodall:

"I believe that a point of order may be raised at successive times. You could make the same ruling at each stage the measure is introduced and the point is raised."

The Speaker:

"The point of order during consideration of the committee report has already been decided."

Mr. Jones (W. Kenneth):

"At the time of my original point of order, there was no motion before the House. There is now a motion and, therefore, new matter before the House."

RULING BY THE SPEAKER

The Speaker:

"The Speaker will rule that the only point of order which would be in order at this time would be whether or not the motion by Mr. Olson was in order, and there is no basis upon which the Speaker could rule that the motion to adopt the committee report is out of order. The motion to adopt the report of the Free Conference Committee on House Bill No. 1 is in order."

Mr. Woodall:

"I think the question is, in the event it might be deemed that Mr. Jones' original objections were premature when made prior to the motion that the report be adopted, that he has a right to show for the record again that he raises the same point of order. There need be no lengthy debate on the subject."
The Speaker:
"The record will show that he raised the point of order at this time and that the Speaker ruled he could not raise the same point of order, it having been determined already, and that the motion by Mr. Olson is in order."

The Speaker declared the question before the House to be the motion by Mr. Olson (Ole H.) that the report of the Free Conference Committee on House Bill No. 1 be adopted.

The motion was carried on a rising vote and the report of the Free Conference Committee was adopted.

The Speaker declared the question before the House to be the final passage of Substitute House Bill No. 1, as reported by the Free Conference Committee.

Debate ensued.

POINT OF ORDER

Mr. Jones (W. Kenneth):
"I rise to a point of order on the grounds that the bill on final passage violates rules 36 and 82 of the House rules, rule 6 of the joint House and Senate rules, and Article II, sections 19 and 38 of the state constitution. It is understood that this is the same objection I have heretofore made."

RULING BY THE SPEAKER

The Speaker:
"The point of order will be noted in the journal. The Speaker will rule that the point is not well taken."

Extended debate ensued.

Mr. Adams demanded the previous question and the demand was not sustained on a rising vote.

Extended debate ensued.

Mr. O'Brien demanded the previous question and the demand was sustained.

The Clerk called the roll on the final passage of Substitute House Bill No. 1, as reported by the Free Conference Committee, and the bill passed the House by the following vote: Yeas, 58; nays, 41; absent or not voting, 0.

Mrs. Vincent F. Jones, Chairman.

The Speaker announced that he was about to sign: House Bill No. 5; also Substitute House Bill No. 1.

The Speaker declared the House at ease.

The Speaker called the House to order.

Point of Inquiry

Mrs. Hansen:

"Mr. Speaker, point of inquiry."

The Speaker:

"State your point, Mrs. Hansen."

Mrs. Hansen:

"On page 36 of the mimeographed copy of Substitute House Bill No. 1, is an appropriation which reads, 'From the State School Equalization Fund for distribution to counties as provided by chapter 31, Laws of 1949, $17,350,000.'

"When the legislature passed Senate Bill No. 9, it repealed sections 28.47.030 and 28.47.040 of the Revised Code of Washington. I understand that these sections include the whole of chapter 31 of the Laws of 1949. Does this have the effect of making the appropriation inoperative?"

The Speaker recognized Mr. Ford.

Mr. Ford:

"Chapter 31 of the Laws of 1949 amended section 5 of subchapter 9 of Title III, chapter 97 of the Laws of 1909. The two sections referred to, sections 28.47.030 and 28.47.040 of the Revised Code of Washington, which were repealed by Senate Bill No. 9, did include the entire text of the amended section 5 as set out in chapter 31 of the Laws of 1949, which was practically everything in that chapter.

"I have asked the attorney general's office whether this would result in making the appropriation inoperative. They have advised me that the effect of Senate Bill No. 9 has been practically to repeal chapter 31 of the Laws of 1949. However, they do not believe that the appropriation would be rendered inoperative because the legislature would not be presumed to have done a vain and useless thing in making the appropriation,—this appropriation would be regarded as ambiguous. I am advised that in the case of such ambiguities the law is that the intention of the legislature may be gathered from the history of the bill and from all matters surrounding its passage, and the intention, so determined, can be carried out. The attorney general's office believes that the intention in this case is obviously to make the money available for distribution in accordance with Senate Bill No. 9."

Resolution by Mr. Rasmussen and Mr. Forrest:

Whereas, Legislation regarding the control of crime and corrupt political practices will probably be a subject for consideration at the next legislature;

Be It RESOLVED, That the legislative council is requested to study and report to the
1953 legislature upon the matter of crime, corrupt political practices and the inter­
relation, if any, between them.

Mr. Rasmussen moved the adoption of the resolution.

**POINT OF INQUIRY**

Mr. Beierlein:
"Will Mr. Rasmussen yield?"

The Speaker:
"Does the gentleman yield?"

Mr. Rasmussen:
"Yes."

Mr. Beierlein:
"Will the legislative council have to take care of these matters before the next
session of the legislature?"

Mr. Rasmussen:
"The legislative council will do its best. Various counties have different problems.
You don't always get a proposal for a new law."

Mr. O'Brien:
"When you make a study of crime do you have in mind any particular area?"

Mr. Rasmussen:
"We propose to look into the various laws of other states where they have control
of crime."

The resolution was lost on a rising vote.

**RESOLUTION**

Resolution by Committee on Rules and Order:

*Be It Resolved,* That the Speaker and the Chief Clerk be authorized and directed
to make out the necessary vouchers upon which warrants shall be drawn for the final
payment of all expenses in connection with the closing business and for all other busi­ness of the House of Representatives for the extraordinary session of the thirty-second

On motion of Mr. O'Brien, the resolution was adopted.

sine die?"

The Speaker:
"I believe that we have enough."

The Speaker declared the House at ease.
The Speaker called the House to order.

SENATE RESOLUTIONS PASSED BY BOTH THE HOUSE AND SENATE

Senate Concurrent Resolution No. 2 - Matters to be considered in extraordinary session
Senate Concurrent Resolution No. 5 - Investigation of organized crime
Senate Concurrent Resolution No. 6 - Adjournment of Legislature
To the Honorable
The House of Representatives of the State of Washington.

(Through the Secretary of State)

Ladies and Gentlemen:

I am filing herewith, to be transmitted to the House of Representatives of the State of Washington at the next session of the Legislature, without my approval, as to certain items, Substitute House Bill No. 1, entitled:

"An Act providing for the support of the state government, making appropriations for salaries, operations, maintenance and other expenses of state institutions, departments and offices, for the purchase, condemnation and improvement of land, the construction of buildings and improvements for the various state institutions designated and mentioned, and for emergencies, and for refunds, and for the relief of certain individuals, corporations, counties and municipalities, and for transfers, and for deficiencies, and for appropriation of revolving funds, and for sundry civil expenses of the state government, and for public assistance, and for purposes specified in certain acts of Congress, and for miscellaneous purposes, for the fiscal biennium beginning April 1, 1951, and ending March 31, 1953, except as otherwise provided, imposing an excise tax upon corporations, prescribing penalties, and declaring that certain parts of this act shall take effect immediately, and that certain other parts shall take effect May 1, 1951."

I disapprove and veto that portion of section 2 which reads:

"Provided, That no part of any appropriation contained in this act shall be used to pay the salary, wages, or grant of any person who believes in or who is a member of or who supports any organization that believes in or teaches the overthrow of the United States government by force or by any illegal or unconstitutional methods: Provided further, That no part of any appropriation contained in this act shall be used to pay the salary, wages, or grant of any person while engaged in strike against the state of Washington, or any office, department or agency thereof, or against any political subdivision of the state: Provided further, That for the purposes hereof an affidavit filed with the state auditor by the payee prior to the issuance of any warrant, or in lieu thereof a certificate by the responsible officer certifying that the payee or payees for whom vouchers or payrolls are submitted have filed with such officer such affidavit, shall be prima facie evidence that the person making it, or filing the same with the responsible officer, has not acted contrary to the provisions herein set forth: And provided further, That any person who believes in or who is a member of or who supports any organization that believes in or teaches the overthrow of the United States government by force or by any illegal or unconstitutional methods and accepts employment, the salary, wages,
or grant for which is paid from any appropriation contained in this act, shall be guilty of a gross misdemeanor and shall be fined not more than one thousand dollars ($1,000) or imprisoned in the county jail for not more than one (1) year, or both."

for the reason that it would impose upon thousands of our aged and blind citizens the burden of appearing before a notary, paying a fee from their meager funds, executing a loyalty affidavit and filing it either with the State Auditor or with the Director of the State Department of Social Security before becoming eligible to receive payment of the grant awarded them.

Such a provision would be considered insulting and discriminatory in its effect upon these people, many of whom have given a major portion of their lives to the building of our great state and are among our most loyal citizens. To stigmatize them with the suspicion of being subversive would be playing directly into the hands of the leaders of those who are truly subversive and would defeat the intended purpose of the legislature.

No greater opportunity to stir up confusion and dissension among our people could be given to our enemies than to attempt to pursue such a course.

In view of the additional fact that the Director of Social Security and others charged with the administration of our social security laws have stressed the impracticability of attempting to secure such affidavits and have joined in the request that these provisions be vetoed, and of the further fact that the Subversive Activities Act (Senate Bill No. 379, chapter 254, Laws of 1951) is now in effect and the protection intended in these provisions is amply afforded by existing law, this item is vetoed.

I disapprove and veto the item "Bureau of Statistics and Immigration: Salaries, Wages and Operations and State Resources Program $35,000.00" for the reason that in my opinion sufficient funds have been provided in the regular appropriations for the Secretary of State to support the duties required by law of said bureau.

I disapprove and veto the item "To carry out provisions of House Bill No. 536 to re-establish and monument corners in the surveys of Aberdeen, Hoquiam, and Cosmopolis tide lands $15,000.00" for the reason that House Bill No. 536 failed of passage.

I disapprove and veto the item "To carry out provisions of Senate Bill No. 185, relating to Apiculture $10,000.00" for the reason that Senate Bill No. 185 failed of passage.

I disapprove and veto the item "FROM THE GAME FUND. To General Fund (being 25% of the amount expended from the Washington State Development fund by the Department of Game for Capital Outlays) $273,750.00" for the reason that there is a question as to whether this payment would constitute a diversion of license fees under state and federal laws and I do not consider it advisable at this time to jeopardize our wild life conservation program for the amount involved in this appropriation.

I disapprove and veto the item, "Messrs. Lance, McGuire and Muri, architects, for architectural services at Soldiers' Home at Orting, payment to be made only upon a receipt in full and the dismissal of Thurston County cause No. 23672 with prejudice $4000.00" for the reason that this case relates to the question of certain public officials exceeding their authority and involves a serious question of public policy, therefore I believe that the determination of liability, if any exists, should abide the result of suitable court action.
I disapprove and veto the item "South Columbia Basin Irrigation District $450.54" for the reason that this item under the Treasurer of Adams County is a clerical error and in duplication of a similar item correctly entered under the Treasurer of Franklin County.

With the exception of the foregoing items which are vetoed the remainder of Substitute House Bill No. 1 is approved.

I have done this in the full understanding of the hazards involved as to the constitutionality of this legislation. The Attorney General, in his opinion, has advised that on many of the questions raised in connection with the bill its constitutionality can be sustained. As to the constitutionality of the corporate franchise tax, however, the Attorney General has advised that while a good case can be made in support of it, in view of previous decisions of the court, the ultimate sustaining of the act is uncertain.

This is far from being a perfect bill. The confusions in the legislative processes which marked its passage challenge description and stand as a reproach and a perversion of the orderly conduct of public affairs. But, in view of the difficulty of the legislature in reaching any agreement as to an acceptable tax source after two attempts, it seems that the most feasible course is to permit this law to be tested in the courts, although some months delay may result. Therefore, I have approved this section of the bill in the hope that the legal questions will be settled in the shortest possible time.

Respectfully submitted,
(Signed) ARTHUR B. LANGLIE,
Governor.

April 13, 1951.

To the Honorable
The House of Representatives of the State of Washington.
(Through the Secretary of State)

Ladies and Gentlemen:

I am filing herewith, to be transmitted to the House of Representatives of the State of Washington at the next session of the Legislature, without my approval as to the last unnumbered item of section 1, consisting of the following:

"Provided further, That no person, firm or corporation, licensed in any class under chapter 66.24, R.C.W., nor any agent or employee of such person, firm or corporation, shall have any interest, direct or indirect, and whether as owner, mortgagee, pledgee, consignee, or bailee, in any coin-operated amusement device or machine, other than a device or machine maintained and operated on the premises under license to such person, firm or corporation, or maintained and operated exclusively for charitable purposes,"

and as to section 16, of House Bill No. 4, entitled:

"An Act Relating to revenue and taxation, amending certain sections of Title 82, R.C.W.; and declaring an emergency and an effective date."

I am advised that the last unnumbered item of section 1, the content of which is set forth above, was added to section 1 by Senate amendment at the
very last moment and for that reason it possibly was not given the considera­tion it deserved. Its effect is to prohibit a tavern or cocktail bar licensee under the liquor act from having any interest in any juke box or other coin operated amusement device other than such as are maintained in his own licensed premises or such as are operated exclusively for charitable purposes.

While I have no quarrel with the object sought by such provision, it ob­viously has no place whatever in a revenue measure. Its proper place would have been in a bill dealing with liquor licensees. Under our Constitution no bill shall embrace more than one subject and that must be expressed in the title thereof. With this provision in the bill, House Bill No. 4 clearly contains two subjects and its presence therein serves to seriously jeopardize the re­mainder of the bill dealing with revenue. Moreover, the matter of regulating licensees of amusement devices in taverns and cocktail bars is not mentioned in the title. For these reasons the unnumbered item referred to is vetoed.

Section 16 of House Bill No. 4 provides that “section 6 of this act” shall have retrospective as well as prospective effect. I am advised that the reference should have been to an entirely different section of the act; that the erroneous reference to “section 6” was inadvertent, and that unless section 16 is vetoed the effect might be to lead to unnecessary complications in the future admin­istration of our revenue act. For this reason section 16 is vetoed.

With the exception of the provisions above noted, as vetoed, the remainder of House Bill No. 4 is approved.

Respectfully submitted,
(Signed) ARTHUR B. LANGLIE,
Governor.
