FIRST DAY, JANUARY 10, 1977

FIRST DAY

NOON SESSION

The Chief Clerk of the House of Representatives of the Forty-fourth Legislature, Dean R. Foster, called the House to order at 12:00 noon.

The flag was escorted to the rostrum by a Sergeant at Arms Color Guard, Pages Tina Champagne and John Dimico. Prayer was offered by Father Gerald Lovett of St. Paul's Parish in Seattle:

"Our Father, we ask You to bless this assembly as we come together today to take up again the tasks of our representative government. We have been chosen by the people of this state and we ask that You lead us in this service. Help us to begin our work, never certain of the direction, but finding satisfaction in consistency and integrity, never possessing all the answers, but continuing to ask the questions. Lord, we need most of all Your gifts of wisdom and courage. We ask for wisdom to understand the course our decisions must take to follow democracy's dream of a human society governed in peace, justice and fellowship. We ask for the courage to follow that dream. Amen."

The Chief Clerk appointed Representatives Newhouse and Knowles to escort the Honorable Chief Justice Charles T. Wright of the Supreme Court of the State of Washington to the rostrum.

Amend Rule 81 to read as follows:

"DUTIES OF COMMITTEE MEETINGS"

Rule 81. Standing committees shall act upon all referred bills, memorials and resolutions. Only such bills as are included on the written notice of a committee meeting may be considered at that meeting except upon the vote of a majority of the entire membership of the committee to consider another bill. A majority recommendation of a committee must be signed by a majority of the entire membership of the committee in a regularly called meeting before a bill, memorial or resolution may be reported out. ((That all bills, memorials, and resolutions, referred to the subcommittee on (a) Appropriations or (b) Revenue and Taxation of the Ways and Means Committee may be acted upon by the subcommittee concerned and those signed by a majority of the membership of such subcommittee shall be reported back to the House with the recommendation of such subcommittee reported thereon except that the Omnibus Appropriation Bill, Supplemental Appropriation Bill, and any bill containing an appropriation with a financial impact over a four year period in excess of ten million dollars and any bill estimated to raise or lower a revenue source by five million dollars or more over a four year period shall be acted upon and reported by the whole Ways and Means Committee.)) Majority recommendations of a committee can only be 'do pass,' 'do pass as amended,' or that 'the attached substitute be substituted therefor and that the attached substitute bill do pass.' Minority reports, 'do not pass' or 'without recommendation,' may be submitted with the majority report. Members of the committee not concurring in the majority report may prepare a written minority report containing a different recommendation, which shall be signed by those members of the committee subscribing thereto. All committee reports shall be spread upon the journal. The journal of the House shall contain an exact copy of all committee reports, together with the names of the members signing such reports: PROVIDED, That a majority of members elected to the House may require a committee to report a bill back to the House during the order of business at which it may be considered.

All bills including a direct appropriation must be referred to the ((Ways and Means)) Appropriations Committee before appearing on the second reading calendar.

No standing committee shall vote on any issue by secret written ballot.

During its consideration of or vote on any bill, resolution or memorial, the deliberations of any Standing Committee of the House of Representatives shall be open to the public.

When a bill has been presented to a standing committee by its chairman, if the motion to report out fails for want of a majority favoring, one-sixth of the members of such committee may demand that the vote be recorded and filed with the Chief Clerk of the House who shall preserve such record for a period of four years.*

Mr. King moved adoption of the resolution.

Mr. Newhouse moved adoption of the following amendments to the resolution:

On page 1, line 9 after "Appropriation" strike "26" and insert "27"
On page 1, line 15 after "Utilities" strike "16" and insert "17"
On page 1, line 26 after "Rules" strike "21" and insert "22"

Representatives Newhouse and Berenton spoke in favor of the amendments, and Mr. King spoke against them. The amendments were not adopted.

Representative Haley appeared at the bar of the House.

The Chief Clerk appointed Representatives Wilson and Nelson (Gary) to escort Representative Haley to the rostrum and Chief Justice Wright administered the oath of office to him.

The House resumed consideration of House Resolution No. 77-1.

Mr. Pardini moved adoption of the following amendment to the resolution:

On page 3, line 8 after "ballot." insert "All votes in standing committees shall be taken by yeas and nays and shall be recorded by the committee clerk and made a part of the legislative history of the bill, memorial or resolution under consideration."
Representatives Pardini and Chandler spoke in favor of the amendment, and Representatives King and Hurley (George) spoke against it.

**POINT OF INQUIRY**

Mr. Pardini yielded to question by Mr. Deccio.

Mr. Deccio: "Representative Pardini, would your motion also mean that the record would show those members absent from committee meetings?"

Mr. Pardini: "I would assume that only present members would be voting."

Mr. Whiteside spoke in favor of the amendment.

Mr. Patterson demanded an electric roll call and the demand was sustained.

Mr. Pardini closed debate, again speaking in favor of the amendment.

**ROLL CALL**

The Clerk called the roll on adoption of the amendment by Representative Pardini to House Resolution No. 77-1, and the amendment was not adopted by the following vote: Yeas, 39; nays, 59; not voting, 0.

House Resolution 77-1 was adopted.

**STATEMENT FOR THE JOURNAL**

Re: Representative Pardini's proposed amendment to Rules of the House to record all votes on all bills in committee, I voted against this proposal for these reasons:

1. Rules changes should be considered all at one time with careful review of their effects on the total legislative process.

2. This proposal was not discussed in the minority caucus before it was introduced. Past committee chairmen might well have explained its impact.

3. Instead of providing more "open government" the proposal primarily would slow down the process, would delay action, and would take additional time of all legislators and staff.

4. The proposal would cost not only more in paper, staff time, and storage space, but would make the meetings more boring and probably discourage the interest of some citizens who might otherwise be encouraged to take part in the legislative process.

HAROLD S. ZIMMERMAN, 17th District.

**ELECTION OF SPEAKER**

The Chief Clerk declared nominations for Speaker of the House were in order.

Mr. King: "The man whose name I place in nomination today has been a labor organizer; he has been involved in management; he now owns his own business. If there is one word that I would apply to him in the conduct of his affairs as Chairman of the House Ways and Means Committee in the past session, as Speaker-designate since November, that word would be fair. He has appointed key opponents to top positions. He has demonstrated his willingness to reward talent by picking the best person for a job regardless of personalities. He has avoided the temptation to punish those who opposed him and made no promises to those who supported him, except one, to put our House in order.

"In the past weeks I have observed firsthand the fairness and organizing ability of this man. As reported in a recent article, with this man as our Speaker we are 'broadly-based and intelligently run.' There is no vacuum in leadership in the statehouse. With the election of John Bagnariol our House will be in order. I shall be pleased to look up to the rostrum and say to Representative John Bagnariol, 'Mr. Speaker.'"

Mr. Knowles: "Mr. Chief Clerk and ladies and gentlemen of the House: It's my privilege this morning to second the nomination of John Bagnariol as Speaker of the House of Representatives. I'm going to do so by making a couple of comments. On November 2nd the
people of the state of Washington elected each and every one of us to the House of Representatives and in so doing they have said to us, in effect, that there are a great many problems the people of the state seek solutions for. I think that we can do it. We can work on those problems and one of the essentials to accomplish solutions to those problems is to have a strong leadership. It’s my belief that John Bagnariol is that strong leadership. If there is one word—one key word—that I think is necessary, it’s cooperation. We need cooperation from the Senate and Representative Bagnariol has demonstrated that he can do that for us. We need cooperation from the executive branch and I am confident that cooperation will be forthcoming. And so in anticipation of cooperation from this body, I consider it a privilege to second the nomination of John Bagnariol.

Ms. Becker: "Mr. Chief Clerk, it is my privilege also to second the nomination of John Bagnariol as Speaker of the House. Each of us here on the floor represents a portion of the people of this state and each of us is entitled to full participation in the legislative process, but with ninety-eight members participating it is necessary to elect a Speaker, a central leader to preside over the resolution of conflicts and the accomplishment of the session. Representative Bagnariol is the person who can fill the office of Speaker in the best way. He is fair; he is dedicated to democratic leadership and he is committed to the hard work that will be necessary to determine a conclusive majority opinion on issues that we confront. It is with great pride in the potential that this body represents, with great optimism about the legislative process and with great faith in his ability to lead that I second the nomination for John Bagnariol as Speaker."

Mr. Polk: "Thank you, Mr. Chief Clerk. Ladies and gentlemen of the House, I rise to place in nomination the name of Duane Berentson for Speaker of the House of Representatives. The person that we elect here today to serve in this important position will make a lasting impact on the life of every person that is serving in this body and indeed on the entire state. We saw this in the past few years. The Speaker of the House must be a person of great integrity, wisdom, proven leadership, constructional background in this body. Precisely these characteristics, these qualities, lead me to nominate Duane Berentson to the position of Speaker of the House. During Duane’s fourteen years serving here he has been a committee chairman and served with the State Transportation Committee. He has held positions and important responsibilities for the entire body of the House, serving on the Executive Rules Committee and has led our caucus in many different ways—many different functions. I have no illusions about the outcome of the election—I know the votes are not here to elect the minority party leader to the position of Speaker of the House. As a matter of fact when I came in this morning and looked up on the tote board and saw Bagnariol was already there—it makes one wonder—it’s sort of the handwriting on the wall or something. So why do it? Well, the simple answer is so that we don’t have to vote for your guy, but it’s really more than that. In fact we see our responsibility to the people of the state of Washington as a minority party to offer alternatives, offer choices, and as we proceed then there are choices and better alternatives. We offer the name of Duane Berentson in precisely that spirit—as a better choice. I ask you to give your consideration to Duane Berentson to be the next Speaker of the House."

On motion of Mr. King, nominations for Speaker of the House were closed.

ROLL CALL

The Clerk called the roll for election of the Speaker of the House, and Mr. Bagnariol was elected by the following vote: Mr. Bagnariol, 62; Mr. Berentson, 36.

The Chief Clerk appointed Representatives Polk and Bauer to escort Representative Bagnariol to the rostrum. The oath of office was administered to Representative Bagnariol by Chief Justice Wright.

The Chief Clerk presented the gavel to the Speaker.
FIRST DAY, JANUARY 10, 1977

The Speaker: "It really is a tremendous honor that you have bestowed upon me electing me as Speaker of the House of Representatives. I stand before you today promising you that I will do everything in my power to help this legislature accomplish the work that it needs to accomplish during the trying session that we're going to face here in 1977. At least you are elected by your constituents and are responsible to come to the legislature and do the best job you can. You have elected me Speaker and I am responsible to each and every one of you to do the best job I can, and I pledge that to you.

"One of the reasons that the galleries are so packed here today is because I have such a large family. I won't take your time to introduce you to every one of them, but I have seven of my eight children here and my wife, my mother— in-law, a number of my aunts, my brother— in-law, my sister—if they will all stand you can see who they are."

POINT OF PERSONAL PRIVILEGE

Mr. Berentson: "Mr. Speaker, on behalf of the Republican caucus I would like to extend our congratulations to you. Mr. Speaker, we would also like to point out that we on this side of the aisle have grown to know you very well, those of us that have been here for several years, and we consider you to be a very fair man. We have noticed that you are slow to anger and we have also noticed that your word is very good. That's an important thing in this body, and I think most of us will relax with that in mind. I would also like to point out that we stand ready to cooperate with you in every way possible. I'm sure that you are going to have some very fine help on your side of the aisle—Representatives Shinpoch, King and Bauer will be ready to assist you if you run into any difficulties, but if you do and you can't solve them over there we want you to know that you can come over on this side for help. One last point. In talking to Representatives Pardini and Deccio we want you to know that if any black gloves appear on our desks they will get right on them."

Mr. Bagnariol: "You probably don't realize the trouble that Representatives Deccio and Pardini are in for voting against my mother's son. Thank you, Duane; with that kind of cooperation I'm confident we will have a successful session."

ELECTION OF SPEAKER PRO TEMPORE

The Speaker announced that nominations for Speaker Pro Tempore of the House of Representatives were in order.

Mrs. North: "Mr. Speaker, fellow members of the House, I am indeed pleased to nominate John L. O'Brien as Speaker Pro Tern of the House of Representatives. John has served many years in this House and is a respected member. His reputation for fairness and his knowledge of parliamentary procedure makes him an excellent choice for this office. He is much loved by his district as shown by the huge majority by which he is elected year after year. I ask you to vote for John L. O'Brien."

Mr. Lux: "Mr. Speaker, members of the House, Justice Wright: It gives me a great deal of pride and privilege to second the nomination of my seatmate, John L. O'Brien as Speaker Pro Tem of the House of Representatives. John has served four terms as Speaker, and has served as caucus chairman. He has served as minority floor leader and is probably more qualified than any person who has served in this House over its history. It is with a great deal of pride that I second the nomination of John L. O'Brien."

Mr. Boldt: "Mr. Speaker, Mr. Chief Justice, ladies and gentlemen of the House: I, too, rise to second the nomination of John L. O'Brien as Speaker Pro Tem of the House of Representatives. You only have to have been here for awhile to realize the growing responsibilities of the office of Speaker Pro Tem and the job that he does and the time and responsibilities in his office. It is an experience and a pleasure to second the nomination of John L. O'Brien. An experience because I found out about it last night, and a pleasure because he is chairman of facilities, and perhaps I will get a filing cabinet for the session. In all seriousness, the Democratic party prides itself in its numbers here and probably more importantly we pride ourselves in our depth, breadth and our experience. If there is an individual that brings all three of those characteristics to this body, it's John L. O'Brien."

On motion of Mr. Newhouse, nominations for Speaker Pro Tempore were closed.

ROLL CALL

The Clerk called the roll on the election of Speaker Pro Tempore and John L. O'Brien was unanimously elected.

The Speaker appointed Representatives Hurley (Margaret) and Flanagan to escort Representative John L. O'Brien to the rostrum.

Chief Justice Wright administered the oath of office to Mr. O'Brien.

Mr. O'Brien: "Mr. Speaker, Mr. Chief Justice and ladies and gentlemen of the House:
Thank you very much for granting me this high honor of electing me to the office of Speaker Pro Tem. This Forty-fifth Legislative Session promises to be quite a challenging one. It's going to be a little bit different for the members on our side because it's the first time in twelve years we have a Governor that's of the same political faith, so I know that the people of the state of Washington are going to be looking on us for many pieces of constructive legislation that will not only benefit the people of the state, but the economy as well. We have all of the talent necessary to meet that challenge and I know that personally I am greatly impressed with the new members that were elected to the House of Representatives, and with the cooperation of all of us I think we can dedicate ourselves to the forthcoming days in a very constructive manner.

"I don't have as large a family as John Bagnariol. The Irish have large families, but the Italians seem to go a little bit better or a little bit larger. I have my wife and son, Paul, here and at this time I would like them to stand.

"Thank you very much, and I am looking forward to serving with Speaker Bagnariol and I know that the combination of the two of us will do the very best that we possibly can for all of you."

POINT OF PERSONAL PRIVILEGE

Mr. Pardini: "I would like to extend to Speaker Pro Tem O'Brien, on behalf of all our colleagues, our pledge to you for cooperation. We know of your honesty, your fairness, your keen sense of humor, your good wit. We're not asking for filing cabinets, we're not asking for any facilities; just give us a fair shake and keep your right eye open and recognize us once in a awhile."

VISITING DIGNITARIES

The Speaker appointed Representatives Keller and Kreidler to escort Mayor Tom Allen of Olympia and Mayor Wes Barclift of Tumwater to the rostrum.

Mayor Allen and Mayor Barclift addressed the House briefly, welcoming the legislators to the Olympia area.

The Speaker requested the committee to escort the mayors from the House Chamber.

ELECTION OF CHIEF CLERK

The Speaker announced that nominations for Chief Clerk of the House were in order.

Mr. Smith (Rick): "I've had the pleasure of working with Dean Reeder Foster since the fall of 1972 when we worked together on the House staff. Dean also worked seven years for the Senate staff before he was Chief Clerk. Dean has a degree in political science; he was an intelligence officer in the Army and has been active twenty years in politics and government. Dean has the same dedication and commitment to representative democracy as the members have.

"It is interesting to note the contribution the staff members with these qualities can make. All our staff has it, but Dean really epitomizes these qualities. I am proud to nominate Dean Foster as Chief Clerk."

Mr. Hanna: "Dean, remember the time you turned my per diem down, June 19, 1975? I think Dean is highly respected by people on both sides of the aisle. He is probably the most competent and knowledgeable person around regarding the rules of order and procedures of the House with the exception of Representative O'Brien. You will notice that Speaker Bagnariol
will look to Dean for a great deal of guidance on how to get out of various jams in the next months, and Dean will surely know the answers. Dean is also extremely competent in managing the affairs of the House. He's responsible for the staff. Dean is very tight with money for the people of the state—he watches it like a hawk to make sure no one gets away with anything. I am very happy to ask your support for Dean Foster for Chief Clerk of the House."

Mr. Newhouse: "Mr. Speaker, I, too, would like to second the nomination for Dean Foster and I think I can do it without incriminating myself. In my years in the legislature in this House, we, in my first term here some twelve years ago, had a Chief Clerk and an Assistant Chief Clerk from both parties. When we assumed the majority for six years we instituted something that I would like to see happen—that we have the Chief Clerk placed into position by the majority party and the minority party would have the right to name the Assistant Chief Clerk, so that we would have bipartisan operation, but more than that when the worm turns, as it will I assure you, that the minority party when it becomes the majority will have one trained for that job. I do not attempt at all to offer any opposition to Dean Foster. He has been more than fair and he is certainly qualified. He has done an excellent job as Chief Clerk and I want to second his nomination."

On motion of Mr. Tilly, nominations for Chief Clerk were closed.

On motion of Mr. King, a unanimous ballot was cast for Dean Foster as Chief Clerk of the House of Representatives.

The Speaker appointed Representatives Gallagher and Berentson to escort Mr. Foster to the rostrum.

Chief Justice Wright administered the oath of office to Mr. Dean R. Foster.

ELECTION OF SERGEANT AT ARMS

The Speaker announced that nominations were in order for Sergeant at Arms of the House.

Mr. Conner: "I would like to place for your consideration the name of Ross Young for Sergeant at Arms of the House of Representatives. I might mention that Ross' father served with dedication and distinction in this House for some sixteen years. Ross has taken it to continue the family tradition of dedication and service. He has served as the Sergeant at Arms of this House. He does have a personal commitment, as those of us who have been here previously know, of dedication and a willingness to spend the hours and the time. He has developed a staff who is willing to carry forward the feelings of the Sergeant at Arms of this House and I urge that you vote for Ross Young as Sergeant at Arms of the House of Representatives."

Mr. Fischer: "It's a privilege to second the name of Ross Young as Sergeant at Arms. I have known him for two years. He acts very quietly, very efficiently for all the members of the House and I urge your support for Ross Young."

On motion of Mr. King, nominations for Sergeant at Arms were closed, and Ross Young was unanimously elected as Sergeant at Arms of the House of Representatives.

The Speaker appointed Representatives McCormick and Hanna to escort Mr. Ross Young to the rostrum.

The President: "Mr. Speaker, honored members of the Legislature, ladies and gentlemen: It is a rare pleasure and privilege for the President to present to you at this time His Excellency, The Honorable Daniel J. Evans, Governor of the State of Washington."

GOVERNOR'S ADDRESS TO THE LEGISLATURE

Governor Evans: "Thank you.

*Mr. President, Mr. Speaker, Ladies and Gentlemen of the Legislature, and many, many friends in the audience. I see my cabinet, my staff, my family. I guess most of all, to the citizens of the State of Washington. I do not intend to present a State of the State Message this morning. But this won't be a farewell address either. The State of the State message will properly be given by Dr. Ray tomorrow. And this will be no farewell since I intend to always retain a fierce citizen's interest in the public affairs of this state and in the well-being of Washington and its citizens. I don't promise anything else either.

*As I stand before you the memories of twenty years flood back. In looking through the book this year, I find that only eleven members of the Legislature who stood there in January of 1957 still serve as members of this body. And 1957 was an easier time. A true citizen legislature met only every other year. There were relatively few federal programs and rules. We had not yet seen the trauma brought about by an incomprehensible war, by urban and campus unrest, foreign oil boycotts, and a national nightmare called Watergate.

*You face today a state far more complex than a decade ago. Intergovernmental relationships are increasingly more intricate but not necessarily better. The challenge of coping
with a modern technological world will require the best of each of you just as it will require excellence from those leaders of private enterprise.

"On each of your desks this morning are three documents. If they are not, they soon should be. A report on the hopes and the desires of thousands of Washington citizens and their specific recommendations for the future as expressed through Alternatives for Washington. That summary document has volumes behind it available for the use and the guidance of those who serve in both public and private enterprise.

"The second is a brief but nonetheless important list of suggested executive request subjects which would certainly be placed before you in final bill form if I were to remain as chief executive.

"And third, a history of the past twelve years delineating some of the successes and some of the failures, but more importantly the changes which have occurred during that tumultuous, interesting, and I believe, productive time.

"I do intend this morning to speak to five overriding issues, however, which I could not in good conscience ignore in this final day in office.

"Public pensions are neither as sound as some public employee groups would have you believe nor as chaotic as some watchdog groups suggest. The public employee pension system is in good financial shape and it is on target toward full funding. The teachers system is somewhat more expensive, but it is also on its way toward a reasonable full funding program. The law enforcement and firefighters' system, however, is seriously out of control. It will require during the next biennium more than 50 percent of total police and fire payrolls to fund pension requirements. When it is necessary to set more than three times as much money aside for disability pensions as for normal retirement and when upwards of three-quarters of some of our uniformed personnel in many of our communities retire on disability, there are obvious and serious loopholes. We should provide adequately for service-connected disabilities, but cannot continue the current ultra-liberal programs for our uniformed personnel.

"Tax reform still represents the major unresolved issue of this state. Recent reports have tagged Washington with the nation's most regressive tax structure. In that position we are number one, not a very enviable spot. Our neighboring state Oregon has the most progressive tax structure in the nation. The end result is that Oregon's legislature meeting this week will face a biennial budget suggested by their chief executive of increased investment, an increased quality in Oregon programs without necessary tax increases. We here in Washington will have to deal with difficult spending priorities, crippled by the knowledge that increased taxes in our current structure will fall most heavily on the poor and that citizens have shown little inclination to change the system.

"School finance is the third and compelling and overriding issue. School finance represents a ticking time bomb which may soon explode with the issuance of pending court decisions. During the last legislative session, you took extensive action to improve the management and insure better results in our public schools. Now it is important to provide long-term, consistent and dependable financing for basic education. Adequate financial support means that administrators can return to administering, teachers can return to teaching, parents and students can be involved in the learning process, rather than all spending inordinate amounts of time passing special levies.

"As we approach the centennial of Washington statehood, it is time to prepare for the remainder of this century and the beginning of the next by thoroughly reviewing the most fundamental document of our state, our Constitution. A constitutional convention need not send shudders down the spine of this legislature. The people of today have every bit the wisdom and the capabilities as had their forefathers and a better grasp of current needs and future priorities. Setting the questions of taxation completely aside, the Constitution needs overhaul to provide new strengths to the legislative branch, new streamlining to the executive branch, new management to the judicial branch, and freedom from excessive restrictions to units of local governments throughout this state. Let the citizens decide through their vote whether a convention is desirable. None of us should ever fear the people and their decision.

"And lastly, both the executive and legislative branches of government need to spend more time in oversight of laws already passed and regulations already written. We do not really need artificial sunset laws, but rather a change in emphasis which makes it just as important to review what we have done as it is to initiate new ideas and new concepts.

"Well, as we look ahead to the next few years, we can take pride in a healthy economy with expectation over the next several years of substantial new job growth. Unemployment is going to remain high as record numbers of young people enter our labor force. But more people
will be working than ever before in this state's history and more importantly a higher percentage of our labor force will be at productive work.

*The Western World is now joined economically to Japan and the developing countries of Asia. We, here in Washington, are precisely halfway between the major centers of European commerce and those of the Far East. We have an outstanding opportunity to become a leader in world trade and more importantly, the center for those who study and research and manage these major foreign relationships.

*We are blessed in Washington with productive natural resources under excellent management. Our forests each year are more productive than the previous. We can and we are rebuilding a major fishery resource. And our agricultural potential in Washington is virtually limitless.

*As I now step down from public office, let me speak of those people who have done so much to bring credit to this administration.

*Thirty thousand direct state employees in public service represent a profession which I believe is a high calling and of which I am exceptionally proud. They are neither saints nor sinners, but they are every bit as productive, as concerned, and as dedicated as their counterparts in private industry. For every Watergate, there is a Lockheed; for every bribe-taker in public service, there is a bribe-payer in private enterprise; for every development of remarkable new products however privately, there is a major stride forward publicly; for every private charity, there is a public sacrifice. The public and the private sectors cannot act as armed camps—one in conflict with the other, but as cooperators for the common good.

*The press has a massive responsibility. They must be the translators and the interpreters of public policy to our private citizens. The press must not unduly build up public heroes just so they can be brought down. Much as a judge, they cannot let personal feelings color a story. I am and have been gratified by the excellence of our Washington press. You are skilled and concerned. I wince occasionally at the barbs, but then I am not always right, and neither are you.

*I share executive responsibilities with eight other elected officials. Now while I believe that's an inordinately large number, I am sure that feeling is not shared by my executive colleagues. But, I, of course, have had a close and a warm working relationship with my two Republican counterparts—the Attorney General and the Secretary of State—who I believe have done outstanding jobs. But I have equal gratitude for the kindnesses shown by my Democratic colleagues. The relationship between a Governor and a Lt. Governor has always been a difficult one in the fifty American states, even if they represent the same political party. But I have never in twelve years feared leaving the state and have always been proud to have John Cherberg represent me. I serve as a member of two boards which are chaired by other elected officials—the Board of Natural Resources under Bert Cole and the State Finance Committee led by Treasurer Bob O'Brien. They have done an excellent job in their responsibilities and I am grateful to them for much that I have learned and those shared responsibilities which have done so much for those particular areas so important to our state.

*Part of the teamwork necessary for a successful government is a close working relationship with our Congressional delegation. Partisan differences have never stood in the way of full cooperation when the interests of Washington State were at stake. They have been immensely successful in resolving the problems we have had with our federal government and we are all the better for it.

*My cabinet and the Governor's office staff have been dedicated, loyal, and exceptionally competent leaders of state government. They have responded to my idiosyncrasies and have always produced, and especially produced during crisis conditions.

*My former colleagues, those in this audience, and members of the Legislature haven't always agreed with executive positions. But while we may differ on issues, I hope I will always have the personal friendship of those of you who serve in such a difficult and challenging responsibility. And that goes for you, too, Slim.

*No one succeeds in public life without a dedicated and an understanding family. My parents and my mother-in-law are in the audience. And they, along with the rest of my family, have made this challenge worthwhile. Most of all, my wife, Nancy has served as, I think, a simply smashing First Lady. Our Christmas card this year showed pictures of our family ten years ago and today. I received no comment at all, but Nancy had many letters back saying that she didn't look older, just better. Her responsibilities with the Seattle Symphony, as a board member of Whitman College, her extensive work with retarded children, and in the fight to save and restore the mansion will make her remembered as an independent force of the past dozen years.
"Finally, to the people of the state who three times gave me the opportunity to serve as Governor. Through your support I have been given a rare privilege accorded to only sixteen men in the history of our state. Through thousands of letters, personal contacts, and more than a million handshakes and opportunities to speak to people directly, you have helped to teach, guide, and influence my actions as Governor.

"The people have now asked Dr. Ray to take on Chief Executive responsibilities. I wish you well during the next four years. You will assume direction tomorrow of a state of incredible beauty matched nowhere in these United States. A state of enormous plenty, whose varied natural resources can sustain Washingtonians for centuries to come. A state increasingly recognized nationally and internationally for its excellence and its ability. A state whose people are creative, imaginative, productive, and most of all confident of their own future. It is a state in which I was born, where I have lived my entire life, and a state I never intend to leave.

"This has been an exciting, a challenging, and a rewarding era—a privilege to serve which I shall never forget.

"Twelve years now is all history. Nothing can be changed. Nothing can be added. As years go by memories will dim, and the impact of these years will diminish. If only one epitaph remains, I hope it will be 'He left it a better state than when he began.'"

MOTION

Mr. King moved that the bills and resolutions on today's agenda be considered first reading under the fourth order of business and be referred to the committees so designated.

POINT OF INQUIRY

Mr. King yielded to question by Mr. Newhouse.

Mr. Newhouse: "I note that House Bill No. 124, having to do with construction of mobile homes and the emergency exits and so forth, is referred to State Government. I think in previous years we might have sent that type of legislation to the Commerce Committee. Does this indicate a change of policy or will there be a consistent policy of sending bills to State Government Committee?"

Mr. King: "I think that the basic reason for sending that bill to State Government was that it had to do with regulations that are handled by state agencies. I would like to announce now, relative to the question of sending bills to committee, that I am sending a memo to all members asking them to send to my office recommendations of where they think their bills should go with the rationale for it. In each instance these bills have been discussed by the Assistant Majority Leader and myself and the Speaker and we are going to make some mistakes occasionally. We would like to know if there are strong reasons or objections for a bill going to a particular committee to let us know about it, and we can work it out between the committee chairmen and the sponsors. Many of these bills could go to three or four different committees just as well and it was the judgment of the people looking at that bill that State Government was more logical than the others, but maybe they will end up referring it back to another committee."

The motion by Mr. King was carried.

Prayer was offered by Reverend Matthew Naumes of St. Martin's Abbey of Olympia: "Stand with us, Lord, in this and every hour. You have chosen us as Your people. You have given us a nation and a state. You have handed over to us abundant fields, high mountains, wide and pure waters. You have made us a sovereign people with freedom as a heritage, with truth, with justice and with charity as ideals. Make us wise stewards of these riches. Make us a people of vision and generosity so that Your truth, justice and love might prevail. Stand with her, O Lord, whom we have chosen to govern us in Your good grace. Give her wisdom and wise counsel. Give her a sense of history and a pure vision of the days to come. Open her heart to those who have no other friend. Guard her from evil and from those who are selfish. Make her blessing an earnest of your people's prosperity. Make her health and security an earnest of your people's peace. Call her to that only sure reward—joyful service in Your name. Stand with us, Lord, now and forever. Amen."

'THE UNITED STATES OF AMERICA
(The State of Washington Seal)
This is to certify that at the General Election held in the State of Washington on the second day of November, 1976, DIXY LEE RAY received the highest number of votes cast for the office of Governor of said State of Washington and was therefore duly elected to said office as appears from the official returns of said election duly transmitted to the Secretary of State of said State and which returns were open, public and the results thereof duly declared in the presence of a majority of the members of the House of the Legislatures of said State as provided by law.

IN WITNESS WHEREOF we have hereunto set our hands this twelfth day of January A.D., 1977 at Olympia Washington.

Signed by the President of the Senate and signed by the Speaker of the House, the Honorable John Bagnariol.

"I have the firm opinion that you would like very much to meet the members of Governor Ray's family who are present today. There are four very charming and lovely ladies that are present in the House Chamber today, and I should like very much to request of Mrs. Marion R. Reid that you please stand in order that you may be properly recognized. (Applause) Also, Mrs. Jean R. Potenziani, Mrs. Juliana C. Strong of California and Mrs. Alvista Steele of Oregon. The President should have remarked that Mrs. Reid is a citizen of the State of Washington and Mrs. Potenziani is a citizen of New Mexico and a medical doctor. Governor, when you get ready to run for President it seems you've captured the western states already. Present-elect Carter will look upon you as a potential opponent.

"Ladies and gentlemen, I believe you will agree that this is a most significant moment in the State of Washington. If it is not, it will at least do as the most significant moment until a more significant moment comes along. We are honored today to have the first woman governor of a western state elected strictly in her own right. Now this lady is a person I have been fortunate enough to know for a number of years and I'm sure that I join with millions of other citizens in the State of Washington in our respect, admiration and affection for Dixy Lee Ray. Dixy has, as I indicated earlier, come a long way and I'm sure you will agree that her achievements in the areas of science, of education and government will be unparalleled. Dixy, I'm sure that every person in the state, every person in the country, every person who knows you and every member of the Legislature, every elected state official, every member of this most august body in the land, the Supreme Court, join with me in congratulating you from the heart and wishing you the very best in the years to come. True success to you, Dixy. Now I should like very much to request of you to deliver your message."
GOVERNOR'S INAUGURAL ADDRESS

Governor Ray: "Mr. President, Mr. Speaker, distinguished Justices of the Court, honored officials, members of the Legislature, my fellow citizens of Washington State: A funny thing happened on the way to the office this morning. I was flipping across the radio dial when something caught my ear. The announcer was promoting the fact that his station would be carrying live the Inauguration of the Governor.

"How will the new Governor handle the problem of the budget?" 'What will be her approach to school funding'—and several more questions—followed by the usual intonation to tune—in and hear it all.

"I came here today, ladies and gentlemen, not to propose all the answers, because I do not know them, but to share with you my views on the many, many problems we face together—the chief executive, the legislature, and each citizen of this state—and to make some modest proposals, and to seek your cooperation and guidance.

"When you, in this 45th Legislature, conclude your first session, let us hope that together we have made some solid beginnings in the fields of funding our educational system, improving the quality of education, financing of state government—and learning how to control its growth, reforming one of the most regressive tax structures in the nation, stimulating the economy with resultant new job opportunities, protecting our environment while helping to meet the requirements for our energy, and, meeting the needs of the elderly, the underprivileged, the sick and the poor.

"With our honest attention to these and other pressing matters, we may find some of the answers to restoring the faith of the people in the institution of government.

"So today begins a new administration in state government. You, as representatives of all the people, are entitled to know the basic philosophy and objectives of your new Governor.

"About philosophy: I do not think that big government can handle problems better than little government—especially those local problems that loom so very large in the eyes of the individuals affected. True, the 'town hall' approach is not sophisticated enough for some of our complex problems in this fast-moving world, but it is not necessary to make small problems complex by assigning their solution to big government.

"Because I believe problems should be solved as close to the source as possible, I shall also favor funding of solutions as close to the point of expenditure as is practical with reasonable equity to those who are paying the costs.

"This means that I do not generally favor collection of taxes by upper echelons of government to be returned to local government wrapped in the pretty package called 'Revenue Sharing.' There are instances where equity to the taxpayer requires funding over a broad base, but I believe spending is best controlled when the public officials spending the money must face the taxpayer resistance occasioned by the levy of taxes to pay the cost.

"I have no illusions that this administration can vastly modify some of the state and national trends that are well established. Indeed, change in some may not be desirable. But perhaps we can 'bend' rather than 'break'—'shape' rather than 'shatter'—those programs of government that seem to have taken over our direction.

"Perhaps if we believe strongly enough in our pledges of cooperation, we will make a beginning, for example, in the field of economic development.

"We need to help create an atmosphere that will foster business confidence, thus encouraging business and economic expansion that will create jobs for residents of the state of Washington.

"More jobs mean more paychecks—people paying taxes—citizens better able to contribute to, not withdraw from, the bank account of state government.

"The human race has many values other than a warm dwelling and enough to eat. Whether these values in respect to individuals center around music, the arts and literature, sports, outdoor recreation, or whatever, all are better enjoyed if employment is secure and tomorrow is expected to be better than yesterday. Unemployment is a miserable state. It plagues far too many of our citizens. It even drives some people into running for public office.

GOVERNMENT ORGANIZATION

"I use the term 'government organization' deliberately rather than the term 'disorganization,' which may be more applicable. The major departments under the Governor, about 14 in number, are, generally speaking, rather reasonable divisions of responsibility. Some do need restructuring. However, the proliferation of commissions, boards, advisory committees, and other appendages of government are far too numerous. The direct cost of their operation is not as important as the ancillary effects of their existence. It is almost impossible to track the maze of their government actions or sometimes even to understand their motivation.
I shall not start by suggesting a new commission to study the matter. I do intend, within the administration, to undertake an evaluation of each such entity in existence, and to make appropriate recommendations.

Controversial though it may be, I believe in those instances when a multiple member policy board or commission is deemed necessary, then it should continue, but should nevertheless be more under control by the Governor, especially over the administration of the program carried out than now exists. The remainder should be promptly phased out.

TAXATION

Washington's tax system is regressive. This term is usually understood to mean that the tax burden on those of under-average income level or property ownership pay a higher percentage of their income in taxes than do those who are more affluent.

The business and occupation tax is by nature regressive and, being levied on successive title passing of goods, from manufacturing to retail, compounds its inherent problems. It does have some merit in application as it reaches cooperatives, nonprofit and private entrepreneurs with equality. It also has the advantage of being the only present tax with rates adjusted to the special conditions of the class of business to which it is applied.

Washington's property taxes are not excessively high in comparison to those of many other states. What is significant is the extreme variance within the state. Most of this variation is due to overdependence on special levies for schools which vary from nothing to as much or more than all other property taxes combined.

With this very brief comment on our tax system, I want to suggest an approach to improvement.

People do not respond well to sudden tax changes of great magnitude unless the result is a specific, easily recognized reduction in their total, personal tax bill.

Acceptance of what I believe is a reasonable move toward better tax equity cannot be worked out between the Governor and the Legislature alone. This is a discussion that must include all the people of the state. I am encouraged by the recent position paper representing the views of some of our largest businesses. And I hope that the conclusions reached and recommendations submitted will receive wide attention.

I believe that your state government must operate in a climate of some austerity while this new administration determines whether our expenditure patterns developed over the last decade are truly justified. If spending is rational and controlled, chances of success with improvement in our tax system will be greater.

THE COMMON SCHOOLS

I have been involved in education all my life. I believe in education. The only resource that we can be confident we will never run out of is the resourcefulness of the human minds educated to the ever-growing body of knowledge and its uses in solving problems.

To discharge the state's responsibility in education, it is not enough to recite the language of the Constitution in the preamble to section nine, which reads, 'It is the paramount duty of the state to make ample provision for the education of all children residing within its borders, without distinction or preference on account of race, color, caste or sex.' A definition of 'ample' will always be written in the appropriation bill, session after session. But increasingly in recent years the decision of what is 'ample' has been transferred to the local school district voters through over-reliance on the special levy system.

There is much merit to allowing the local school districts a voice in the level of spending in support of common school education. Without some such authority, our financing statewide is most likely to be uniformly deficient. However, allowing unlimited authority to raise money locally, no matter how difficult, is an escape mechanism far too attractive to any legislature faced with many severe demands upon the public purse.

Dependence on special levies for support of the common schools must be reduced. Further, the burden on the taxpayer to provide the added school support over what can be supplied by the state must be equalized up to some specified level. Throughout the campaign I spoke often on this topic and generally supported the provisions of Initiative 53. I do not consider Initiative 53 to be a long-term solution to school financing. It is the first best step I see in getting on with a viable, more dependable, basis for support of the common schools. The cost of the program is within reach without a major tax overhaul, which will take time. Some additional state money over that needed to equalize special levies will be necessary for regular school apportionments and for categorical grants for special programs. With the adoption of legislation embodying these or similar provisions, I believe we will have taken a major step toward more adequate state funding.
THIRD DAY, JANUARY 12, 1977

"It is not generally my intention to comment in this address on the budget proposals of my predecessor. I am making an exception in the case of school funding because I will be recommending that the Legislature take early action on the matter of school funding in order to facilitate planning of the school districts of the state. The action of the previous Governor in purchasing advertising during the holiday season, seeking support for his budget proposals, seems to require an early answer where early action is asked on my part.

"The budget proposed by former Governor Evans with its attendant tax increase shows, on careful analysis, that our most regressive taxes—sales and B & O—will be increased beginning even before the next biennium to achieve 90 per cent funding without special levies in the second year of the biennium. A reduction in property taxes is projected, but actually no reduction is mandated until the collections due in 1979, and no relief of consequence will actually be evident until the second half taxes in that year, due to a provision that levies voted in 1978 for collection in 1979 all be paid in the first half collections. The collection of increased taxes for 25 months to support 90 per cent funding for 10 months of school during the last year of the biennium can only mean the need for even further increases in state taxes two years from now, or the raising of the ceiling on special levies over that proposed at the 1976 session.

"I am not ready to sanction an increase in the most regressive taxes in a regressive system to secure a very problematical reduction in property taxes two years later and probably, in the process, guarantee the schools uniform funding at an inadequate level.

HIGHER EDUCATION

"Support of the common schools is a primary public obligation. Participation in education beyond high school is a matter of individual choice and an investment in opportunity on the part of those attending. There are great public benefits associated with a well-educated citizenry, and these merit public support of universities and colleges—but the high costs cannot be entirely avoided by the students. A reasonable division of costs would indicate tuition rates should increase at about the rate of inflation in the costs of maintaining these high quality educational programs.

PENSIONS

"The costs of pensions for public employees has become a matter of concern to us all. In a way, the unfunded liabilities resemble those associated with raising and educating children. Had the financial consequences of their actions been fully understood by either those that conceived our pension system or our children, we might have had neither—at least not so many of them. However, now that we have pensions and children, we love them both too much to give them up or to restrict them. With respect to pensions, we probably can afford to carry some unfunded liability if we have a program that will not result in both impoverishment of today's supporters and insecurity of future benefits to those for whose benefit the liabilities are incurred.

"The new Director of the Department of Retirement Systems will be giving early and careful consideration as to how these pension fund problems can be resolved, and a special message on this important question can be expected.

ENERGY

"We have an energy office created by act of an earlier Legislature. Parts of that act were vetoed, leaving the state with an energy office so curtailed and constrained that it resembles some of the I-90 ramps meant to interchange with I-5. Apparently the vetoes were occasioned by failure to reach agreement on a suitable method under which the Legislature could exercise reasonable review, especially respecting enforced cutbacks in use and allocation procedures in times of critical shortage. Until this problem is resolved through amendment of the energy act, it is very questionable that any legal authority exists for restrictions or allocation in case of an impending or actual shortage of energy supplies.

"There will be few, if any, cases when your present Governor will stubbornly insist on having it all my way. I believe in pragmatic approaches that recognize attainable progress is better than unattainable perfection. It is my present inclination to support the establishment of a special legislative review committee on energy matters if that approach is deemed desirable to the Legislature. Such an arrangement with respect to highway matters has given the Legislature substantial influence in highway decisions for many years, without actual encroachment on executive authority or responsibility.

"In an overall energy policy the state of Washington must seek to have available to its citizens a supply of energy limited only by the balance of costs and benefits to the consumer when the costs properly reflect the real expense of production and delivery in an acceptable manner. We need to examine and to evaluate all methods of producing electricity and all sources of energy. This will take some time, but we need a balanced, diversified program.
"Some special comment is indicated with respect to petroleum.

"Our first priority is assuring that our present refineries are supplied in the most certain and environmentally safe manner. In the immediate future, and for many months, this supply must come by tanker, small or large. This means our first effort must be to assure safe movement of these supplies.

"I also share the concerns of Senator Magnuson and Transportation Secretary Brock Adams over the need to inspect, control and regulate the many 'flag of convenience' vessels now engaged in worldwide waterborne commerce. We must all work together with the Coast Guard and our Congressional delegation in raising the sensitivity of all of those responsible for the movement of any ship as to the safety features, navigational and cargo handling procedures, and sound maintenance policies.

"Tanker problems and the potential of oil spills have been exceedingly well publicized. Because this issue is viewed so emotionally, and because of the deep significance of assured petroleum supplies to our state and to our nation, I intend to make oil shipment and transshipment the subject of a special message in the very near future. This message will also deal with the equally important, equally necessary area of conservation of our energy supplies. Something we must be open about and begin to approach in a most practical and attainable manner.

AGRICULTURE

"There is a lot of talk about finite resources that are being rapidly depleted. In the final analysis, the most valuable of these to Washington State has to be food. Agriculture is one of the most important industries in our state and provides a very satisfactory way of life for many.

"Land is a resource that is largely non-depletable if properly used.

"Food is our greatest export, and international trade in various food products will become more valuable in the future.

"Irrigation development is not the only problem facing agriculture. Despite strong feelings, it is not as pressing as problems attendant with the modern use of fertilizers and pesticides.

"Let me emphasize that irrigation water policy should be settled in law—and that question is undeniably before this session of the Legislature.

FISHERIES

"Washington has a fish problem. That is an understatement if there ever was one. A fisheries enhancement program is in order. That alone does not resolve the problem that exists under the Boldt decision. Indian fishing rights under treaty provisions are hard to match with today's fishing processes and new techniques.

"It is my opinion that the burden of renegotiating those treaty provisions lies with the federal government. There is room for enhancing the benefits of the fishing resource to the Indians along with attendant benefits to non-treaty fishing by both Indians and non-Indians. We must find the ways to resolve the question that are amicable and fair to all.

"A special word is necessary in respect to Idaho's interest in the Columbia River fish runs. I am in favor of including Idaho in fish discussions and decision-making conferences now largely limited to Washington and Oregon. In addition, I should note that our fish problems are not entirely separable from those of British Columbia, and with the enactment of the two hundred mile zone. Our own fisheries extend far out to sea into what used to be international waters.

TRANSPORTATION

"Observation of transportation facilities in this state finds a generally good set of facilities, including a good, but not complete, system of state roads—sometimes crowded, but usually not crowded enough to discourage those inclined to drive in excess of posted speed limits. Mass transit systems are struggling with some success.

"While the gas tax is not the only source of revenue for the support of public roads and streets, it is the major one. If we decide added revenue for highway purposes is necessary, I would prefer a variable tax on gallons of gas or other comparable units.

"There has been discussion of creation of a Department of Transportation for several years. I do not view such a move as imperative at this time. I am concerned that good balance be attained between highways and other transportation facilities.

TOURISM AND RECREATION

"This administration will actively support tourism through a combined program of promotion and appropriate assistance to businesses and industries in this vital statewide segment of the economy.
"Tourism is Washington's second largest industry, representing $1.4 billion in business revenues and $159 million in state tax revenues annually. The industry employs 74,000 people throughout the state, with an annual payroll of $386 million.

"No other industry offers such potential for desirable long-term growth and stability for the state's economy. Its positive impact is statewide. It is people-oriented and can be environmentally sound.

"In this regard, Washington is the natural gateway to the Far East and Alaska. This administration will aggressively pursue every opportunity to make this the number one gateway through expansion of air travel capacity and additional airline routes.

THE ARTS

"Washington State is already an acknowledged leader among American states in taking the arts to the people. That is good, we must not rest on our laurels until every state resident has an opportunity to see and to hear productions of the finest quality. (Fooled you didn't I?) Despite our great progress thousands of Washingtonians have yet to experience the thrill of an opera, a symphony concert, a ballet performance, folk dancing and singing, a live drama and the greatest in visual and plastic arts, but there is another crucial aspect to the arts that remain virtually untapped and that is in the use of the arts—music, painting, sculptures, crafts of all kinds to help in the rehabilitation of the ailing, the handicapped, the incarcerated and in the care of the elderly and the infirm. Some experimentation and progress has been made in this field, but it represents only a modest scratching of the surface. This administration intends to place great emphasis on both of these aspects of art elements and a detailed report will soon be made to the legislature including recommendations for action.

EQUAL OPPORTUNITY FOR WOMEN AND MINORITIES

"I guess it is now established that a woman can be elected Governor in Washington State. Let me hasten to add that I believe a candidate with the same general platform and interests and programs who happened to be male or a member of any of our minorities would have won. The prejudice against women and other minorities in top positions is easing, but is far from fully overcome.

"For that reason I support making the Women's Council statutory. I also support the continuation and the enhancement of the council for our various minority groups—the Asian-Americans, the Spanish-speaking American, our American Indians, our black community and all those whose diversity of culture and background make this a richly diverse and richly rewarding area in which to live. In my incompleted search for candidates to appoint to various offices of the executive branch, I found many women and many members of minority groups of competence, all generally occupied in endeavors they chose not leave for what may well be temporary service in government. Entry back into the business or professional world is still not that easy for members of the groups I speak of.

"I shall encourage advancement of capable women and minorities in state employment, and I shall continue to search for candidates to high offices in the executive branch.

"I do not plan a quota system for state employment where I have authority or influence. I do plan to give careful consideration to candidates for employment who can contribute to a lessening of discrimination.

BUDGET

"I have expressed my philosophy and objectives in very general terms today. They will become more specific as explicit situations develop. I do not want either the members of the Legislature or the people of the state of Washington to think my positions are unalterable. I do not aspire to break any veto records set by previous Governors. I want to cooperate in solving problems and creating opportunities for the people we represent in Olympia.

"The budget will be the big item as always. I expect within a few days, possibly about the first of February, to submit a budget message to the Legislature. This does not mean that there should be any delay in hearings and consideration of our spending programs. In the meantime, I shall ask that each department under the Governor's direction be ready to provide information on expenditure requirements based on the first year of the coming biennium. I realize the benefits of being able to plan with assured financing for the full two-year period, but I do not believe it is possible now to predict accurately the costs of the second year's operation. I also hope that one year hence your new Governor will be implementing some cost saving programs. Also, I expect to make and propose some governmental organization changes that will require budget reconsideration.

"Let me conclude by reaffirming my faith in the people of this state and in their elected representatives and other officials who make up the basic institution of state government.
"We can—we must—cooperate in facing up to the pressing questions that have cried out for answers for far too long. Schools, the tax structure, employment opportunities, economic development, energy, the environment, resource utilization and many more.

"Let us work together to make government truly the tool of the people. Let government not stand in the way of personal enterprise and ambition, but rather, take the lead in lighting the path that can lead to a more profitable and meaningful life style for all segments and all age groups of our population.

"Thank you very much."

MESSAGE FROM THE SECRETARY OF STATE
Department of State
January 14, 1977

THE HONORABLE,
SPEAKER OF THE HOUSE OF REPRESENTATIVES
LEGISLATURE OF THE STATE OF WASHINGTON
OLYMPIA, WASHINGTON
Dear Sir:
We herewith respectfully transmit for your consideration pursuant to Article II, Section 1, of the state Constitution and RCW 29.79.200, the certification of the sufficiency of Initiative to the Legislature 59 together with a copy of the full, true and complete text of the Initiative as filed in this office on August 16, 1976.

Sincerely,
BRUCE K. CHAPMAN
Secretary of State
Duane C. Woods
Assistant Secretary of State

CERTIFICATION OF INITIATIVE TO THE LEGISLATURE 59

Pursuant to Article II, Section 1A of the Washington State Constitution, RCW 29.79.200, and WAC 90–12–010, the Office of the Secretary of State has caused the signatures submitted in support of Initiative to the Legislature 59 to be examined in the following manner:

(1) It was determined that 191,234 signatures were submitted by the sponsors thereof. A random sample of 7,602 signatures was taken from those submitted;

(2) Each sampled signature was examined to determine the following: (a) if the signer was a registered voter of the state at the address indicated on the petition; (b) if the signature was proper as to form; and (c) if the same signature appeared more than once in the sample. We found 7,128 valid signatures, 462 signatures invalid due to not being registered or being improper in form, and 6 pairs of duplicated signatures in the sample;
(3) We calculated an allowance for the chance of error of sampling (33) by multiplying the square root of the number of invalid signatures by 1.5;

(4) We estimated the upper limit of the number of signatures on the initiative petition which were invalid (12,453) by dividing the sum of the number of invalid signatures in the sample and the allowance for the chance error of sampling by the sampling ratio;

(5) We determined the maximum allowable number of pairs of signatures on the petition (42,698) by subtracting the sum of 110% of the number of signatures required by Article II, Section 1A of the Washington State Constitution (136,083) and the estimate of the upper limit of the number of invalid signatures in the population from the number of signatures submitted;

(6) We determined the expected number of pairs of signatures in the sample (67) by multiplying the square of the sampling ratio by the maximum allowable number of pairs of signatures on the initiative petition;

(7) We determined the acceptable number of pairs of signatures in the sample (47) by subtracting 2.33 times the square root of the expected number of pairs of signatures in the sample; and

(8) Since the number of pairs of signatures in the sample is less than the acceptable number of pairs of signatures in the sample, I hereby declare Initiative to the Legislature to be sufficient.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the State of Washington to be affixed this 14th day of January, A.D., 1977.

D U A N E  C. W O O D S
for BRUCE K. CHAPMAN
Secretary of State.

INITIATIVE MEASURE NO. 59

AN ACT Relating to the withdrawal of public waters for use in irrigation of agricultural lands; establishing family farm permits and other water permit classifications; and adding a new chapter to Title 90 RCW.

BE IT ENACTED BY THE PEOPLE OF THE STATE OF WASHINGTON:

NEW SECTION. Section 1. This chapter shall be known and may be cited as the "Family Farm Water Act".

NEW SECTION. Sec. 2. Nothing in this chapter shall affect any right to withdraw and use public waters if such rights were in effect prior to the effective date of the act, and nothing herein shall modify the priority of any such existing right.

NEW SECTION. Sec. 3. The people of the state of Washington recognize that it is in the public interest to conserve and use wisely the public surface and ground waters of the state in a manner that will assure the maximum benefit to the greatest possible number of its citizens. The maximum benefit to the greatest number of citizens through the use of water for the irrigation of agricultural lands will result from providing for the use of such water on family farms. To assure that future permits issued for the use of public waters for irrigation of agricultural lands will be made on the basis of deriving such maximum benefits, in addition to any other requirements in the law, all permits for the withdrawal of public waters for the purpose of irrigating agricultural lands after the effective date of this act shall be issued in accord with the provisions of this chapter.

NEW SECTION. Sec. 4. For the purposes of this chapter, the following definitions shall be applicable:

1. "Family farm" means a geographic area including not more than two thousand acres of irrigated agricultural lands, whether contiguous or noncontiguous, the controlling interest in which is held by a person having a controlling interest in no more than two thousand acres of irrigated agricultural lands in the state of Washington which are irrigated under rights acquired after the effective date of this act.

2. "Person" means any individual, corporation, partnership, limited partnership, organization, or other entity whatsoever, whether public or private. The term "person" shall include as one person all corporate or partnership entities with a common ownership of more than one-half of the assets of each of any number of such entities.

3. "Controlling interest" means a property interest that can be transferred to another person, the percentage interest so transferred being sufficient to effect a change in control of the landlord's rights and benefits. Ownership of property held in trust shall not be deemed a controlling interest where no part of the trust has been established through expenditure or assignment of assets of the beneficiary of the trust and where the rights of the family farm permit which is a part of the trust cannot be transferred to another by the beneficiary of the trust under terms of the trust. Each trust of a separate donor origin shall be treated as a
separate entity and the administration of property under trust shall not represent a controlling interest on the part of the trust officer.

(4) "Department" means the department of ecology of the state of Washington.

(5) "Application", "permit" and "public waters" shall have the meanings attributed to these terms in chapters 90.03 and 90.44 RCW.

(6) "Public water entity" means any public or governmental entity with authority to administer and operate a system to supply water for irrigation of agricultural lands.

NEW SECTION. Sec. 5. After the effective date of this act, all permits issued for the withdrawal of public waters for the purpose of irrigating agricultural lands shall be classified as follows and issued with the conditions set forth in this chapter:

(1) "Family farm permits". Such permits shall limit the use of water withdrawn for irrigation of agricultural lands to land qualifying as a family farm.

(2) "Family farm development permits". Such permits may be issued to persons without any limit on the number of acres to be irrigated during a specified period of time permitted for the development of such land into family farms and the transfer of the controlling interest of such irrigated lands to persons qualifying for family farm permits. The initial period of time allowed for development and transfer of such lands to family farm status shall not exceed ten years. Such time limit may be extended by the department for not to exceed an additional ten years upon a showing to the department that an additional period of time is needed for orderly development and transfer of controlling interests to persons who can qualify for family farm permits.

(3) "Publicly owned land permits". Such permits shall be issued only to governmental entities permitting the irrigation of publicly owned lands.

(4) "Public water entity permits". Such permits may be issued to public water entities under provisions requiring such public water entity, with respect to delivery of water for use in the irrigation of agricultural lands, to make water deliveries under the same provisions as would apply if separate permits were issued for persons eligible for family farm permits, permits to develop family farms, or for the irrigation of publicly owned land: PROVIDED, HOWEVER, That such permits shall not apply with respect to water deliveries on federally authorized reclamation projects if such federally authorized projects provide for acreage limitations in water delivery contracts.

NEW SECTION. Sec. 6. (1) The right to withdraw water for use for the irrigation of agricultural lands under authority of a family farm permit shall have no time limit but shall be conditioned upon the land being irrigated complying with the definition of a family farm as defined at the time the permit is issued: PROVIDED, HOWEVER, That if the acquisition by any person of land and water rights by gift, devise, bequest, or by way of bona fide satisfaction of a debt, would otherwise cause land being irrigated pursuant to a family farm permit to lose its status as a family farm, such acquisition shall be deemed to have no effect upon the status of family farm water permits pertaining to land held or acquired by the person acquiring such land and water rights if all lands held or acquired are again in compliance with the definition of a family farm within five years from the date of such acquisition.

(2) If the department determines that water is being withdrawn under a family farm permit for use on land not in conformity with the definition of a family farm, the department shall notify the holder of such family farm permit by personal service of such fact and the permit shall be suspended two years from the date of receipt of notice unless the person having a controlling interest in said land satisfies the department that such land is again in conformity with the definition of a family farm. The department may, upon a showing of good cause and reasonable effort to attain compliance on the part of the person having the controlling interest in such land, extend the two year period prior to suspension. If conformity is not achieved prior to five years from the date of notice the rights of withdrawal shall be canceled.

NEW SECTION. Sec. 7. (1) At any time that the holder of a family farm development permit or a publicly owned land permit shall transfer the controlling interest of all or any portion of the land entitled to water under such permit to a person who can qualify to receive water for irrigation of such land under a family farm permit, the department shall, upon request, issue a family farm permit to such person under the same conditions as would have been applicable if such request had been made at the time of the granting of the original family farm development permit. MOTION

Mr. King moved that all bills, memorials and resolutions printed on today's agenda be considered first reading under the fourth order of business and be referred to the committees designated.

POINT OF INQUIRY

Mr. King yielded to question by Mr. Newhouse.

Mr. Newhouse: "Would it be your intent that the Senate bill that was read in this morning be excepted from this and that it be subject to a different motion?"

Mr. King: "Yes, it would be. We haven't introduced it yet."

Mr. Newhouse: "I would like to point out a few policy matters that should be established. We note on yesterday's agenda that the three-way comp bill was to go to Committee on Insurance. I don't really know but I've understood that not just the Speaker may now have a hand in routing bills, but that the labor people have taken an undue interest in our internal policies and have demanded that it go to Labor Committee. I suggest that perhaps if we're going to have twenty-two committees and we have a Committee on Insurance that this is a matter of insurance and perhaps this bill needs real consideration and deals with several things that have happened during the past year in that department. If the Committee on Labor does not carefully consider this bill we may expect a motion to remove the bill from that committee and move it to some committee that is properly constituted to consider it."

Mr. King: "Was that a question?"

Mr. Newhouse: "Yes."

Mr. King: "That motion could, of course, be made at any time. Whether or not proper consideration has been given by a committee may be a matter of opinion that could only be decided by such a vote."

Mr. Newhouse: "With the matter of policy of introduction of bills, would you plan that bills be introduced all through this regular session except as provided in Senate Concurrent Resolution No. 103? Do you have any plans on introduction of bills in a special session which may follow this regular session?"

Mr. King: "We're only at the discussion stage of considering special session legislation. We really can't guarantee what is going to occur or even whether we will be back in special session. There is considerable talk of not allowing introduction of bills during the special session, so I would urge all the members if this motion is passed today—not the motion before us, but the next one—to do your work expeditiously and get the bills in for the regular session. I urge you to get your work done as quickly as possible."

Mr. Newhouse: "Then it may, in fact, require a suspension of the rules to introduce bills in the special session?"

Mr. King: "Yes."

Mr. Newhouse: "One further question involving title only bills. I note that there is one already introduced. Might it not be more efficient for all title only bills to be introduced or held in the Chief Clerk's office until late in the session and introduced as a group so they need not be printed so much and further, the people most directly involved, the committee chairmen—that there's no use of a minority member from the back row introducing a title only bill?"

Mr. King: "The title only bill that you are referring to has been discussed and it has been referred to the Agriculture Committee because they do happen to be working on an alternative to the water rights initiative. All other title only bills will be held and will be introduced en masse so that the numbers will be in sequence and we won't have to have them in the computer, so the procedure that you suggest is going to occur with title only bills."

The motion was carried.

MOTION
On motion of Mr. King, all bills and resolutions listed on today's agenda were considered first reading under the fourth order of business and were referred to the committees designated.

POINT OF PARLIAMENTARY INQUIRY

Mr. Berentson: "It is our intention that on Wednesday we will make a motion that this House resolve itself into a Committee of the Whole for the purpose of defining basic education, making it the whole legislature's paramount duty to the citizens of the state of Washington. We would like your comments in that there is no specific mention in the House Rules of the procedure for resolving into a Committee of the Whole, but there is specific mention of a Committee of the Whole in Reed's Rules and we notice that in years gone by there has been a specific mention of a Committee of the Whole in our House Rules. The last time we did resolve into a Committee of the Whole I think was in 1967 and in that session our House Rules did contain that provision. In view of the fact there is no mention in the House Rules, can you advise me as to the procedure to be followed in placing this motion before the body? I'm asking if you will accept the motion."
The Speaker: "The Rules, as the Speaker interprets them, do not prevent the making of a motion to go into a Committee of the Whole. That motion would, of course, be acted upon by the entire body at the time it is placed. We have nothing in our House Rules at this point that would prevent that. The last time we went into a Committee of the Whole was in 1967, which was an effort to prevent recorded votes on budget items. I'm hoping that going into a Committee of the Whole on this issue will not be in that context."

Mr. Berentson: "The purpose of this inquiry is to place the possibility before the entire body for their consideration and we would not, of course, have the opportunity to make that motion now until Wednesday since we won't be in session tomorrow."

The Speaker: "Under the proper order of business it will be placed."

POINT OF PERSONAL PRIVILEGE

Mr. Newhouse: "Your comment a moment ago that the purpose of going into a Committee of the Whole was to avoid taking votes on amendments—that is one proceeding where amendments are made without a recorded vote—but I think you might have more properly stated that the purpose of going into a Committee of the Whole was to adopt a more responsible budget, and the purpose this week of going into a Committee of the Whole might well be to arrive at a more proper definition of basic education a little more promptly and with input from every member of the body rather than to go to one specific committee. I think that clarification is very important."

The Speaker: "Thank you, Representative Newhouse. I was a freshman in 1967 and I guess I'm just repeating what was told to me."

MOTIONS

On motion of Mr. King, the House advanced to the eighth order of business.

On motion of Mr. Bender, HOUSE BILL NO. 165 was rereferred from Committee on Social and Health Services to Committee on Local Government.

POINT OF PERSONAL PRIVILEGE

Mr. Berentson: "On Monday we gave indication of our intent to place a motion to place ourselves into a Committee of the Whole for the purpose of defining basic education. Since Monday we have spoken with several people, including Speaker Bagnariol, and after the meeting yesterday with Senate leadership, which addressed itself to that question along with school funding, it is now our intent to delay the placing of that motion to give enough time to that committee appointed yesterday, along with what I think is a representative citizen group, to look at the question. We have not agreed, however, to not place the motion in the future. We do feel that it is possible that the results of that committee appointed yesterday—I felt the meeting went very well, and if those results are sufficient then I think at that time we can make a determination as to whether the best way to resolve it would be through a committee; or perhaps the best way may be to resolve into a Committee of the Whole. I would like to compliment the majority leadership on the meeting that did occur yesterday. It was a great step forward and it involves a lot more people other than those of us here. We might have seen the beginnings of a Committee of the Whole yesterday."

POINT OF PERSONAL PRIVILEGE

Mr. King: "I would also like to commend the minority party's willingness to work with the majority leadership in dealing with this very important problem. We have a different impression now of what they meant by a Committee of the Whole and it may well be a useful tool. It was apparent that it would not be at this point, but it might be at some future time when there are some definite proposals to bring before the body."

MOTION

On motion of Mr. King, the House adjourned until 1:30 p.m., Friday, January 21, 1977.

JOHN BAGNARIOL, Speaker.

DEAN R. FOSTER, Chief Clerk.

MOTION

Mr. King moved that the rules be suspended, and House Bill No. 169 be advanced to second reading and read the second time in full.

Representatives King and Newhouse spoke in favor of the motion.

POINT OF PARLIAMENTARY INQUIRY

Mr. Pardini: "Where do you intend to place it on the calendar, Mr. Speaker?"

The Speaker: "At the top of the second reading calendar."

The motion was carried.
TWELFTH DAY, JANUARY 21, 1977

SIGNED BY THE SPEAKER

The Speaker announced he was signing:
SENATE CONCURRENT RESOLUTION NO. 103.

SECOND READING

HOUSE BILL NO. 169, by Representatives Shinpoch, Blair and McKibbin (by Executive request of Governor Evans):
Adopting a supplemental budget.
The bill was read the second time.

On motion of Mr. King, Substitute House Bill No. 169 was substituted for House Bill No. 169, and the substitute bill was placed on the calendar for second reading.

Substitute House Bill No. 169 was read the second time.
Mr. Tilly moved adoption of the following amendment:
On page 6, line 12 strike all of section 13 and renumber the remaining sections consecutively.
Mr. Tilly spoke in favor of the amendment, and Mr. Warnke spoke against it.

POINT OF INQUIRY

Mr. Warnke yielded to question by Mr. Patterson.

Mr. Patterson: "When you speak of the foundations being poured are you speaking of one of the capital projects in particular? Could you identify which ones you are speaking of?"

Mr. Warnke: "Yes, the athletic facilities building."

Mr. Patterson: "You mean the one at the Walla Walla Community College?"

Mr. Warnke: "Right."

Mr. Patterson: "Does the same situation, as far as the dollar savings, apply to the Seattle Central Community College?"

Mr. Warnke: "I believe that is the movement of the second stage of construction into the first—to meld it with the first construction stage. Bill Julius from the higher education community college board testified to this, and by being able to move the second stage and work it with the first stage, they will be able to save the dollars that they would have to wait for until the next biennium and spend them this biennium."

Representatives Patterson and Tilly spoke in favor of the amendment, and Mr. Amen spoke against it.

The amendment was not adopted.

Mr. Zimmerman moved adoption of the following amendment:
On page 6, line 23 strike all of section 14 and renumber the remaining sections consecutively.

Representatives Zimmerman and Polk spoke in favor of the amendment, and Mr. Warnke spoke against it.

POINT OF INQUIRY

Mr. Shinpoch yielded to question by Mr. Newhouse.

Mr. Newhouse: "Is it your understanding that there may or may not be sufficient money in the bond redemption fund as generated by student fees to accomplish this and would this fit in the order of priorities that have been established?"

Mr. Shinpoch: "To answer your latter question first, I think that everyone is in agreement that this is not number nine on the state board's priority list. I don't think there is any debate about that. Relative to my understanding from talking to OPP&FM that this project is in the Governor's budget, and the utilization of these funds for that is probably legitimate, we should consider that this is probably where it's going to come from. The $383,000 for Walla Walla coming out of here probably means very simply that we must replace that with General Fund money irrespective of the fund source. I guess I have some problems making decisions about whether you should do something or not based on fund source. It's obvious that we are going to fund capital construction with General Fund money. Whether it's out of this money and something else comes out of the General Fund, I don't really think is pertinent. I'd hate to see us
making what I think is policy or management decisions based on fund source. I think we ought
to make the decision based on whether it's the proper thing to do or not the proper thing to do
in this time frame."

Representatives Pardini and Zimmerman spoke in favor of the amendment, and Repre­
sentatives Hurley (George) and Shinpoch spoke against it.

ROLL CALL

The Clerk called the roll on adoption of the amendment by Representative Zimmerman to
Substitute House Bill No. 169, and the amendment was not adopted by the following vote:
Yeas, 33; nays, 62; not voting, 3.

Voting yea: Representatives Amen, Barr, Berentson, Bond, Chandler, Craswell, Deccio, Dunlap,
Erickson, Fancher, Flanagan, Fuller, Haley, Hanna, Hurley M., Lee, McKibbin, Nelson G. A., Newhouse,
Oliver, Paris, Patterson, Polk, Sanders, Schnitten, Shinoda, Shinpoch, Struthers, Tilly, Whiteside, Wilson,
Winsley, Zimmerman.

Voting nay: Representatives Adams, Barnes, Bauer, Becker, Bender, Blair, Boldt, Burns, Charette,
Charnley, Clayton, Clemente, Conner, Douthwaite, Ehlers, Enbody, Eng, Fischer, Fortson, Gaines,
Gallagher, Greengo, Grier, Grimm, Gruger, Hansen, Hawkins, Heck, Hughes, Hurley G. S., Keller,
Kilbury, King, Knedlik, Knowles, Kreidler, Lux, Lysen, Martinis, May, McCormick, Monohon, Moreau,
Nelson D., North, O'Brien, Owen, Pardini, Pearsall, Pruitt, Salatino, Sherman, Smith, Sommers, Taller,
Thompson, Valle, Vrooman, Walk, Warnke, Williams, and Mr. Speaker.

Not voting: Representatives Gilleland, Leckenby, Maxie.

Mr. Flanagan moved adoption of the following amendment:
On page 2, line 23 strike all of section 5 and renumber the remaining sections consecutively.

Mr. Flanagan spoke in favor of the amendment, and Mr. Shinpoch spoke against it.

Mr. Flanagan spoke again in favor of the amendment.
The amendment was not adopted.

Mrs. Hurley (Margaret) moved adoption of the following amendment by Representatives
Hurley (Margaret) and Haley:
On page 5, line 14 strike all of section 11 and renumber the remaining sections consecutively.

Representatives Hurley (Margaret) and Haley spoke in favor of the amendment, and Mr.
Charette spoke against it.

POINT OF ORDER

Mr. Hurley (George): "I think for the matter of clarification that since there are two
Hurley's here and we often differ in philosophy even though we are personal friends, I would
appreciate it if the speakers, both on the platform and the House floor, would mention the first
names. I think the Smiths and the Nelsons would also appreciate that because it’s quite possi­
ble that somebody might think that somehow or other some of us of the same name are sup­
porting legislation which we are not. If our first names were mentioned in that category I
would appreciate it."

The Speaker: "Your point is well taken, Representative George Hurley."

Mr. Charette continued his remarks in opposition to the amendment.

Representative Hurley (Margaret) spoke again in favor of the amendment, and Represen­
tatives Shinpoch and Pardini spoke against it.
The amendment was not adopted.

MOTION FOR RECONSIDERATION

Mr. Pardini, having voted on the prevailing side, moved that the House do now reconsider
the vote by which the amendment by Representative Flanagan was not adopted.

Mr. Pardini spoke in favor of the motion, and Mr. Shinpoch spoke against it.
The motion was lost.

Ms. Lee moved adoption of the following amendment by Representatives Lee, Chandler,
Struthers, Greengo, Fuller and Barnes:
On page 7, beginning on line 22 strike all of section 17 and insert the following:
"NEW SECTION. Sec. 17. FOR THE HOUSE OF REPRESENTATIVES
General Fund Appropriation .......................................................... $4,666,712
Total Appropriation ................................................................. $4,666,712
This appropriation for the House of Representatives shall cover session expenditures for only ninety days and shall provide members forty dollars per diem subsistence allowance during session.*

Ms. Lee spoke in favor of the amendment, and Mr. Shinpoch spoke against it.

POINT OF INQUIRY

Mr. Shinpoch yielded to question by Mr. Flanagan.

Mr. Flanagan: "Representative Shinpoch, how much per day per diem for members of the House does this appropriation contemplate or represent? I don't think that's been brought out here yet and I would like to know what that is."

Mr. Shinpoch: "In the sheets that we gave to each member of the House of Representatives, it points out that in the members' subsistence the calculation is done 120 days times 98 members times $45 per day. That is the point that I was making, that we fixed a midpoint, that we could be off $58,800 either way or we can be right on."

Mr. Flanagan: "In other words, this is for $45?"

Mr. Shinpoch: "That is correct."

Representatives Shinpoch and Douthwaite spoke against the amendment, and Ms. Lee spoke again in favor of it.

Mr. Patterson demanded an electric roll call and the demand was sustained.

POINT OF PARLIAMENTARY INQUIRY

Mr. Lysen: "If a member votes for this, is it necessary for him, if it passes later on, to draw the $45 or can he still just draw $40?"

The Speaker: "There is nothing that requires a member to draw any amount of per diem. The per diem amount that is stipulated by statute is a maximum amount. Currently if a member does not feel that he can justify $40 for his subsistence down here, he does not have to draw $40—he can draw $20 or $25, or whatever. To my knowledge most of the members do draw the $40. If this issue were to pass—this budget does not address itself in any way to the $45 per diem. It's a lump sum appropriation to the legislature; the per diem is still at $40 and cannot be changed unless this legislative body enacts a statute."

Mr. Lysen: "One further clarification, Mr. Speaker. Will the members who vote no still be allowed to draw the increase if it occurs later?"

The Speaker: "Yes, if the legislature should—"

POINT OF ORDER

Mr. Newhouse: "I think the Speaker is going beyond the requirements of the job as Speaker when he is commenting on issues before the House."

The Speaker: "I was clarifying a point of order. Representative Lysen, would you restate your question?"

Mr. Lysen: "I want to thank you for your explanation; I thought it very helpful in making a decision here. Will the members who vote no here on this increase be allowed to draw the $45 even though they vote no later on?"

The Speaker: "$45 is not an authorized per diem."

POINT OF ORDER

Mr. Berentson: "I think you should explain to Mr. Lysen that his original question was really in error, and before he is allowed to ask a second question you should point out that we are not addressing the level of per diem, we are talking about a lump sum amount in the budget in case a statutory change is made later."

The Speaker: "If I were to rule that, Representative Berentson, I perhaps should have prevented Representative Lee from making the remarks she was making in support of her amendment."

Mr. Charette rose to speak on the amendment.
Mr. Berentson: "You recognized Representative Lee to close debate. The roll call vote was placed before the body."

RULING BY THE SPEAKER

The Speaker: "The rules pertaining to closing debate only apply to after the fiftieth day. The Chair attempts to recognize a speaker to close debate hoping that perhaps no one else will get involved, but there are no rules to prevent it."

Mr. Charette spoke against the amendment.

The Clerk called the roll on adoption of the amendment by Representative Lee and others to Substitute House Bill No. 169, and the amendment was not adopted by the following vote: Yeas, 35; nays, 62; not voting, 1.

HOUSE BILL NO. 59, by Representatives King, Burns, Bender, Fischer, Charnley, Pearsall, Douthwaite, Knowles, Lux, May, McKibbin, Moreau and Salatino:

Providing for collective bargaining at the state institutions of higher education.

The bill was read the second time.

On motion of Mr. King, the following amendment was adopted:

On page 3, line 30 strike "1976" and insert "1977"

Mr. Bond moved adoption of the following amendment:

On page 4, line 5 after "activities" strike all of the material down to and including "organization" on line 19 and insert "PROVIDED, That no employee shall be required to join any union or association nor shall any employee be required to pay any moneys to any union or association for activities of such union or association which the employee does not believe were of benefit to the employee; AND PROVIDED FURTHER, That a recognized bargaining unit is not required to assist any employee who is not a member in any proceeding by the employee to enforce a provision of the collective bargaining agreement"

Mr. Bond spoke in favor of the amendment, and Mr. Clemente spoke against it.
Mr. Pardini: "Mr. Speaker, I have just laid upon the desk an amendment dealing with the same section on line 13. Representative Bond's amendment would strike the language which I am attempting to perfect. Would it be possible for me to get my amendment in and perfect before striking?"

With the consent of the House, Mr. Bond temporarily withdrew his amendment.

Mr. Pardini moved adoption of the following amendments:

On page 4, line 13 after "organization" strike all material starting with "mutually" down through and including "fees" on line 16.

On line 17 after "made." strike all material starting with "If" down through and including "organization." on line 19.

Mr. Pardini spoke in favor of the amendments, and Mr. King spoke against them.

Mr. Pardini spoke again in favor of the amendments, and they were not adopted.

Mr. Bond again moved adoption of his amendment to page 4, line 5.

Representatives Bond and Barnes spoke in favor of the amendment, and Representatives Lux and May spoke against it.

Mr. Patterson demanded an electric roll call, and the demand was sustained.

Mr. Bond spoke again in favor of the amendment, and Representatives King and Warnke spoke against it.

ROLL CALL

The Clerk called the roll on adoption of the amendment by Representative Bond to House Bill No. 59, and the amendment was not adopted by the following vote: Yeas, 26; nays, 70; not voting, 2.

Not voting: Representatives Tilly, Zimmerman.

STATEMENT FOR THE JOURNAL

I wish to change my vote from Aye to Nay on the Bond amendment to House Bill No. 59. ALEX DECCIO, 14th District.

Mr. King moved adoption of the following amendment:

On page 4, beginning on line 30 after "That" strike everything down through "employees" on line 31 and insert "any or all of the employees listed below"

Mr. King spoke in favor of the amendment.

POINT OF INQUIRY

Mr. Patterson: "The language that follows your amendment identifies medical interns and residents, fellows, or undergraduates, and so forth—that's an exempt group that could form a separate unit. Is it a possibility that you are really speaking primarily to the University of Washington and the medical school personnel? And whether or not you see within this bill the opportunity for other groups that are primarily off campus, such as an extension service personnel, as being able to form their own unit under this act?"

Mr. King: "The answer to that is yes, they could form their own unit. The unit determination under this bill would be made by the PERS Commission with the exception of the specific areas that we have identified in the past. If they were not included within the original unit and didn't want to be, they would be able to make application for separate status and would probably be granted separate status."
Mr. Patterson: "So the enabling legislation which we are talking about here does afford that opportunity for those groups who feel that they have some distinguishing reason why they should be separated from the total?"

Mr. King: "Yes, it does."

**POINT OF INQUIRY**

Mr. King yielded to question by Mr. Pardini.

Mr. Pardini: "The language which we are striking out talks about groups of employees, the language which you are inserting talks about employees. When we leave out the groups of employees could an individual employee under your language then negotiate for his own unit?"

Mr. King: "I don't believe that he could. The reason for taking out groups in the first place, I believe, had to do with the fact of whether or not they were a unit under this law until such time as the PERS Commission recognized them as a separate group or unit—they would simply be a bunch of employees. The reason I said one individual would not be, is based on a guess about what the PERS Commission would do. I know of no labor relations commission in any state in the country on a national level that would recognize one person under the collective bargaining act as a bargaining unit."

Mr. Pardini: "Maybe we can clarify it. Is it your intent that if your amendment is adopted that we would still be dealing with groups of employees?"

Mr. King: "After they were recognized as a group, yes, that is the intent. Prior to recognition you wouldn't be dealing with them under this bill. Labor negotiations would not occur until after recognition of this."

Mr. Pardini: "Then it would follow that an individual could make his own group?"

Mr. King: "Only in the instance that he could convince the PERS Commission that he was representative of a wide group of people, etc. I don't think it's very possible at all, but highly impossible."

The amendment was adopted.

Mr. Berentson moved adoption of the following amendment by Representatives Berentson and Pardini:

> On page 5, section 6, line 5 after "receives a' strike 'majority of the votes cast' and insert "a favorable vote of a majority of all members of the bargaining unit to be represented. These votes shall be cast"

Representatives Berentson, Pardini and Chandler spoke in favor of the amendment, and Representatives Lux and Douthwaite spoke against it.

Representative Berentson closed debate, speaking again in favor of the amendment.

Mr. Patterson demanded an electric roll call and the demand was sustained.

**ROLL CALL**

The Clerk called the roll on adoption of the amendment by Representatives Berentson and Pardini to House Bill No. 59, and the amendment was not adopted by the following vote: Yeas, 39; nays, 58; not voting, 1.

Not voting: Representative Tilly.

On motion of Mr. King, the following amendment was adopted:

> On page 5, line 26 strike "1976" and insert "1977"

Mr. Polk moved adoption of the following amendment:

> On page 6, section 10, beginning on line 8 strike all of subsection (2)

Mr. Polk spoke in favor of the amendment, and Mr. King spoke against it.
POINT OF INQUIRY

Mr. Polk yielded to question by Mrs. Hurley (Margaret).

Mrs. Hurley (Margaret): "I wonder if you would elaborate just a little bit on your statement relating to how this section could bind future legislators?"

Mr. Polk: "During the last two years we found ourselves in a situation where some money had been negotiated at one particular level and we had been appropriating money as I mentioned before for the seven different formulas in what had been considered by some in the legislature to have been a management plan. There was a lot of debate here as to whether that was in fact a management plan or whether that was a generator of dollars for the various institutions. Now I frankly was on the side of saying that it was a generator of dollars. What happened to us however is that when the community colleges negotiated higher salaries in one particular college and then came back to us and said we didn't give them enough money for libraries, and they said they were letting their library resources go downhill. They talked to us about equipment; they talked to us about a number of different areas where we were not providing enough money to supply their needs and their resources. It became very apparent that if we are going to allow that to occur then we are allowing the salaries to be driven up and therefore they become a driver in the formula that is used in the next biennium or in a supplemental budget as to what the average faculty salary is, and therefore drives the entire level up once more."

Mr. Shinpoch spoke on the amendment.

POINT OF INQUIRY

Mr. Shinpoch yielded to question by Mr. Newhouse.

Mr. Newhouse: "You neglected to say then, are you speaking for or against the amendment? I take it you are for the Polk amendment?"

Mr. Shinpoch: "Mr. Polk's amendment struck this subsection, and yes, I am for the amendment as this subsection now stands. If someone were to amend it and take out that sentence then I would probably change to the other side, from what I understand and the manner in which I read the paragraph and what it says."

MOTION

Mr. King moved that further consideration of the amendment by Representative Polk be deferred and that it be placed after the remaining amendments had been considered.

POINT OF ORDER

Mr. Newhouse: "Shouldn't we set the whole bill down to the bottom of the calendar rather than just this amendment? Perhaps this amendment would be critical to the disposition as to how we vote on other amendments. I suggest that the motion by Mr. King be amended to say that the bill be set down or held over until tomorrow."

SPEAKER'S RULING (MR. O'BRIEN PRESIDING)

The Speaker (Mr. O'Brien presiding): "That isn't a point of order; that's your opinion. State your point of order."

Mr. Newhouse: "Mr. Speaker, it is a point of order because the disposition of this amendment will affect how we may want to vote on other amendments."

The Speaker (Mr. O'Brien presiding): "All he wants to do is set it down to review this section. If that is agreed then his motion is in order."

ROLL CALL

The Clerk called the roll on the motion by Mr. King to defer further consideration of the Polk amendment to House Bill No. 59, and the motion was carried by the following vote: Yeas, 60; nays, 35; not voting, 3.

Not voting: Representatives Bauer, Monohon, Tilly.

STATEMENT FOR THE JOURNAL

I wish the record to show that on Mr. King's motion to defer consideration of the Polk amendment, I would have voted on the prevailing side.

CAROL MONOHON, 19th District.

MOTIONS

Mr. Berentson moved that further consideration of House Bill No. 59 be deferred and that it be placed at the bottom of today's second reading calendar.

With the consent of the House, Mr. Berentson withdrew the motion.

On motion of Mr. King, further consideration of House Bill No. 59 was deferred and the bill was ordered placed at the top of Wednesday's second reading calendar.

HOUSE BILL NO. 85, by Representatives Fischer, Pearsall and King:

Including certain law enforcement and court personnel under the public employee collective bargaining laws.

The bill was read the second time.

Committee on Labor recommendation: Majority, do pass as amended. (For amendment, see Journal, 10th Day, January 19, 1977.)

Mr. Lux moved adoption of the committee amendment.

POINT OF INQUIRY

Mr. Lux yielded to question by Mrs. Hurley (Margaret).

Mrs. Hurley (Margaret): "My question is about the pension system—the LEOFF plan. If these people are brought in this system as it now exists, I presume, then any changes that would be made would grandfather this whole group in before the changes were made, and the changes then would not relate to them. Is this true?"

Mr. Lux: "As I understand it, this doesn't have anything to do with the pension system. It doesn't affect the pension system."

Mrs. Hurley (Margaret): "But they'd be members of the pension system, wouldn't they?"

Mr. Lux: "It just places them under the public employee relations commission, that's all it does. It doesn't do a thing about their pension system."

The committee amendment was adopted.

House Bill No. 85 was ordered engrossed and passed to Committee on Rules for third reading.

HOUSE JOINT MEMORIAL NO. 1, by Representatives Warnke, Paris, Greengo and Gaines:

Requesting the federal government to give the state more administrative freedom under the federal insecticide, fungicide, and rodenticide act.

The memorial was read the second time.

Committee on Agriculture recommendation: Majority, do pass as amended. (For amendment, see Journal, 10th Day, January 19, 1977.)

On motion of Mr. Kilbury, the committee amendment was adopted.

House Joint Memorial No. 1 was ordered engrossed and passed to Committee on Rules for third reading.
MOTION

On motion of Mr. King, the House adjourned until 1:30 p.m., Wednesday, January 26, 1977.

JOHN BAGNARIOL, Speaker.

DEAN R. FOSTER, Chief Clerk.
The House was called to order at 1:30 p.m. by the Speaker. The Clerk called the roll and all members were present except Representative Shinoda, who was excused.

The flag was escorted to the rostrum by a Sergeant at Arms Color Guard, Pages Misty Mondress and Larry Sheahan. Prayer was offered by Father William Treacy of St. Michael's Catholic Church of Olympia.

Reading of the Journal of the previous day was dispensed with and it was ordered to stand approved.

MOTIONS

Mr. King moved that all bills, memorials and resolutions listed on today's agenda be considered first reading under the fourth order of business and be referred to the committees designated with the exception of HOUSE BILL NO. 426, to be referred to Committee on Ecology, and HOUSE JOINT RESOLUTION NO. 27, to be referred to Committee on State Government.

Mr. Newhouse moved that Mr. King's motion be amended and that HOUSE BILL NO. 437 be referred to Committee on Judiciary instead of Committee on State Government.

POINT OF ORDER

Mr. Charette: "I have a motion that would also be an amendment, must I state it as an amendment to Mr. Newhouse's amendment, or shall I wait until his matter has been considered before the vote is put?"

The Speaker: "Does your motion refer to House Bill No. 437?"

Mr. Charette: "It does not, Mr. Speaker."

The Speaker: "You can make your amendment after Representative Newhouse's amendment has been acted upon."

Mr. Newhouse spoke in favor of the motion to amend the King motion, and Representatives King and Ehlers spoke against it.

The motion was not carried.

MOTION

Mr. Charette moved that the motion by Mr. King be amended, and that House Bill No. 443 be indefinitely postponed.

POINT OF ORDER

Mrs. Hurley (Margaret): "Mr. Speaker, I don't believe that this is an acceptable motion at this time."

SPEAKER'S RULING

The Speaker: "The motion to postpone is in order anytime except when the bill is on first reading. Your point of order is well taken, Representative Margaret Hurley. Your motion is out of order, Mr. Charette."

The Speaker stated the question before the House to be the motion by Mr. King.

The motion carried.

MOTION

Mr. Charette moved that House Bill No. 443 be indefinitely postponed.

SPEAKER'S RULING

The Speaker: "Your motion is still out of order; the bill is still on first reading and has not come back to the floor for second reading."

POINT OF PARLIAMENTARY INQUIRY

Mr. Charette: "Mr. Speaker, you have ruled that the bill is still on first reading, but it was my understanding that the bill had been read in and referred to a committee, and it is now referred to the Committee on Parks and Recreation. The bill is no longer on first reading and is before the Committee on Parks and Recreation. It would seem to me it would be in order to
indefinitely postpone now. It is only for the reason of an orderly process—to eliminate the possibility of having the insurrection and war that will be caused by this bill even being heard that I propose that it be indefinitely postponed."

**SPEAKER'S RULING**

The Speaker: "The Speaker will rule that House Bill No. 443 has been referred to committee and does not appear on second reading until it has been reported out of committee; therefore that motion is out of order."

SECOND READING

HOUSE BILL NO. 59, by Representatives King, Burns, Bender, Fischer, Charnley, Pearsall, Douthwaite, Knowles, Lux, May, McKibbin, Moreau and Salatino:

Providing for collective bargaining at the state institutions of higher education.

The House resumed consideration of the bill on second reading. (For previous action, see Journal, 15th Day, January 24, 1977.)

Mr. Shinpoch moved adoption of the following amendment by Representatives King and Shinpoch:

On page 3, line 10 following "the" insert "college or university"

POINT OF ORDER

Mr. Polk: "If I'm not mistaken weren't we considering my amendment at the time we adjourned the other day?"

The Speaker: "Your point is well taken, Representative Polk."

The House resumed consideration of the Polk amendment to page 6, line 8, striking subsection (2).

POINT OF ORDER

Mr. Shinpoch: "There are on the desk amendments to subsection 2, and I think we should attempt to perfect it before we consider the striking motion."

SPEAKER'S RULING

The Speaker: "The amendment by Representative Polk was under discussion when the House recessed on its last day of business. The amendment perfecting that section was apparently not before the House. If Representative Polk would be willing to withdraw his amendment until the perfecting amendment had been offered?"

POINT OF PARLIAMENTARY INQUIRY

Mr. Polk: "If I were to do that, would I be free to place my amendment again, regardless of the outcome of Representative Shinpoch's amendment?"

The Speaker: "That is correct."

With the consent of the House, Mr. Polk withdrew his amendment.

The Clerk read the following amendment by Representatives King and Shinpoch:

On page 3, line 10 following "the" insert "college or university"

POINT OF ORDER

Mr. Pardini: "Mr. Speaker, we're on page 6 and this amendment is on page 3. We've passed that order of business. It's too late for that amendment to be offered."

The Speaker: "Mr. Polk's amendment was on page 6. He's withdrawn that amendment and we decided to go back and work the entire amendment process."

Mr. Pardini: "Mr. Polk withdrew that amendment as a courtesy to Representative Shinpoch, not to open up the entire bill to the amendatory process, Mr. Speaker."

The Speaker: "If the amendment to page 3 had been in on Monday, I'm sure the body would have gotten to it if it had enough time."

Mr. King moved adoption of the amendment and spoke in favor of it.

The amendment was adopted.

Mr. Shinpoch moved adoption of the following amendment:

On page 6, line 12 after "state legislature" strike "for specific purposes"

Representatives Shinpoch and Polk spoke in favor of the amendment, and Mr. Douthwaite spoke against it.
Mr. Shinpoch yielded to question by Mr. King.

Mr. King: "This section of the bill deals with nonappropriated and local funds primarily. By taking the language out that you would take out if your two amendments were adopted, do you intend that the people of the colleges and universities would not be able to bargain for their salaries and their wages as is provided in several other places in the bill?"

Mr. Shinpoch: "To specifically answer your question, no, but I think it requires more explanation than that. I think a portion of that explanation goes back to Representative Douthwaite's comments. There are three portions of the tuition and fees. The tuition, which basically goes to capital, and that is dedicated funds and cannot and should not be used for this kind of purpose. There is a fee, however, that is called the Local General Fund and in the University of Washington where Representative Douthwaite works that is a considerable amount of money, and that is available for whatever you want to use it for, including negotiation for wages. In fact, the majority of it goes for the negotiation for wages. There is another portion that is student fees that is included in the tuition and fees which is purported to primarily go to student activities. It's supposed to be for students. Sometimes we have difficulty determining that. We now have a personal service contract with a community college to run a marketing survey on tennis and volleyball courts that comes out of those kind of fees, so sometimes it's kind of difficult to determine exactly what's education.

*There is a considerable amount of money that is budgeted that is not appropriated by the legislature. You should not be confused about that. Those local funds, those fees, are a considerable amount of dollars on all local higher education levels—those available under this language—for negotiation, and you shouldn't be confused by the statement that there is nothing left to negotiate. That just isn't a correct understanding of the system that we operate under.*

Mr. King spoke in favor of the amendment.

Mr. Shinpoch yielded to question by Mr. Douthwaite.

Mr. Douthwaite: "The two sources you name which can be open for bargaining as I understand you, are local general funds and student fees. Give me an indication of what percent of the budget this actually equals."

Mr. Shinpoch: "I don't have that. Someone else said 18%, but I'm not sure. If I gave this body the impression that student fees are open for negotiation of salaries that was not my intent. I think only the fees—the other fees, other than student fees, which go into the Local General Fund—are available for negotiation for salaries. Out of those three parts of the tuition and fees, one portion is student fees which in my judgment would not be open for negotiation for salaries, and that which is dedicated to capital funding would not be. I can get you the answer to the other and it is a considerable amount, but I don't know what it is."

Mr. Douthwaite: "So in fact the only source of money to be bargained for under subsection 2 as amended if this amendment is adopted, are the local general funds?"

Mr. Shinpoch: "I guess I'm not real sure what you mean by 'bargain for.' Obviously you are going to bargain for the money that is appropriated by the legislature which isn't covered under here because these are moneys that are other than appropriated. You are going to bargain how you're going to use those. Those moneys are obviously going to be bargained for, whether you're going into fringe benefits, whether you're going into salaries and whether you're going into the low paid or the high paid salaries. You're going to bargain for those and in addition to that this paragraph deals with only funds other than those appropriated by the legislature, and that is the local general funds which are budgeted but not appropriated and therefore would not be restricted under this language."

Mr. Douthwaite: "I gather then that in your opinion the local general funds are a sufficient amount which are worthy of the bargaining agreement. My fear, as I said earlier, is that there is nothing much left when you take out the money which is appropriated by the legislature. In fact I'm really worried that the local general funds, I believe, are authorized by the legislature, and I'm still concerned that we might be taking away all the marbles and saying afterwards, 'Now go ahead and collective bargain if you can.' But there is nothing to bargain for."
Mr. Shinpoch: "I guess that's a matter of judgment that there's nothing left to bargain for. I'm sure that the people that want to bargain think there is a considerable amount there to bargain for, otherwise they wouldn't want this bill. Very simply, in the University of Washington I suspect that it probably amounts to somewhere in the neighborhood of $30 million. If you don't really think you want to bargain for that, then let's just strike the whole thing."

The amendment was adopted.

Mr. Shinpoch moved adoption of the following amendment:
On page 6, line 14 after "are used" strike all the material down to and including "state agency" on line 15.

Mr. Shinpoch spoke in favor of the amendment, and Mr. Douthwaite spoke against it.

Mr. Shinpoch spoke again in favor of the amendment, and it was adopted.

Mr. Polk moved adoption of the following amendment:
On page 6, section 10, line 13 strike "other"

Mr. Polk spoke in favor of the amendment, and Mr. King spoke against it.

The amendment was not adopted.

Mr. Douthwaite moved adoption of the following amendment:
On page 6, line 8, following "(2)" strike all of the following sentence down to and including "agency."

Mr. Douthwaite spoke in favor of the amendment, and Mr. King spoke against it.

ROLL CALL

The Clerk called the roll on adoption of the amendment by Representative Douthwaite to House Bill No. 59, and the amendment was not adopted by the following vote: Yeas, 14; nays, 81; not voting, 3.

Voting yea: Representatives Barnes, Becker, Blair, Burns, Chandler, Douthwaite, Gaines, Hurley G. S., Moreau, Nelson D., Pardini, Patterson, Sherman, and Mr. Speaker.

Not voting: Representatives Berentson, Craswell, Shinoda.

POINT OF PERSONAL PRIVILEGE

Mr. Shinpoch: "I would like to finish answering Representative Douthwaite's question relative to local funds at the University of Washington. I wasn't able to get a breakdown of how much of that came out of student fees and how much came out of other things, but for this biennium for the University of Washington the funds that will be available for negotiation under the manner in which I read this act is $116.9 million."

POINT OF PERSONAL PRIVILEGE

Mr. Douthwaite: "I work here at the Legislature as do the rest of you and not just for the University of Washington, Mr. Shinpoch; let's get that straight. They've got money at the University of Washington as alleged by Representative Shinpoch. What about the remaining institutions of higher education around the state? I still feel what we've done to this bill is a violation. I object when I'm identified as one coming from the U. of W."

POINT OF ORDER

Mr. Polk: "Mr. Speaker, Representative Douthwaite is now reopening debate on the substance of this bill and is debating the content of it. He's not speaking to any point of personal privilege—just dealing with Representative Douthwaite."

The Speaker: "Your point is well taken. Will you confine your remarks, Representative Douthwaite, to your point of personal privilege?"

Mr. Douthwaite: "Yes. The point is, Mr. Speaker, that I don't represent the University of Washington. There are many other institutions of higher education. I'm not sure whether or
not Mr. Shinpoch is right about this, but let's not forget the rest of the state. I don't like being identified as coming from the University of Washington only."

POINT OF PERSONAL PRIVILEGE

Mr. Shinpoch: "If Representative Douthwaite thought I—apparently he assumed I was needling him or picking on him because he works for the University of Washington. That was the furthest thing from my mind. When I answered your question, I told you I would attempt to find out for the University of Washington. I just simply didn't ask the question for the rest of them. I'll be happy to get that information and relay that. You took it entirely differently than I intended. I was merely answering your question. Now, if I've offended you, I apologize, but it was not my intent. I'm sure you'll know when I intend to do that."

Mr. Bond moved adoption of the following amendment by Representatives Bond and Sanders:

On page 7, following section 11 add a new section as follows:

"NEW SECTION. Sec. 12. A student team to consist of the elected student association officers of any institution of higher education, or their designees, not to exceed three in number, shall be notified of and allowed to be present at all collective bargaining sessions. Rules regarding confidentiality shall apply to such students in the same manner as to the employer and the exclusive bargaining representative. If rules regarding confidentiality are violated by any student the commission shall have the authority to exclude any or all students from any or all further bargaining sessions affecting the negotiations in process when the violation occurred. In no event shall student representatives be allowed to be present during or participate in third party dispute resolution proceedings. Participation, other than observation, by students during bargaining sessions shall be determined by agreement between the employer and exclusive bargaining representative."

Representatives Bond, Nelson (Gary) and Sanders spoke in favor of the amendment, and Representatives Lux and Barnes spoke against it.

POINT OF INQUIRY

Mr. Shinpoch yielded to question by Mr. Patterson.

Mr. Patterson: "This is a very nice question. Representative Shinpoch, in the discussion on the other part of this question on what of the local funds would be negotiable, you made a statement that the other fees, and you said other student fees, and I think there are many members here who don't quite understand exactly how that fee breakdown works. Obviously the tuition money does go for capital purposes; the operational fee that is collected is another section, but when you come to the student services and activities fees, that is dedicated for those programs that are to be exclusively used in the promotion of the programs of the students. Now as I understand the way you made the reference, that would be the part of the local funds that would negotiated. Am I right? I would like a clarification."

Mr. Shinpoch: "I thought I had cleared that up with Representative Douthwaite. If I left the impression that there are two of those three portions that were negotiable, it was not my intent. Only the student operating fee portion is negotiable. The student activity fee goes into a separate type fund and is not available for negotiation—to my knowledge at least."

Representatives Patterson, Boldt and Newhouse spoke in favor of the amendment, and Representative Fischer spoke against it.

POINT OF INQUIRY

Mr. Bond yielded to question by Mr. Amen.

Mr. Amen: "The sentence that says, 'If rules regarding confidentiality are violated by any student the commission shall have the authority to exclude any or all students...'. Are you saying in this that these students that would be appointed and sitting in on this negotiation could not in any manner report back to the other students?"

Mr. Bond: "I'm saying that there are two parties to the agreement—the faculty negotiating team and the administrative team—to establish the rules of confidentiality that they wish to be observed and then the students would have to follow that."

Mr. Amen: "Then the students could report back to the other students those portions that had been agreed upon that could be reported back?"

Mr. Bond: "That's right. The two parties to the agreement could determine that."

Mr. Clemente spoke against the amendment, and Mr. Bond closed debate, speaking again in favor.
ROLL CALL

The Clerk called the roll on adoption of the amendment by Representatives Bond and Sanders to House Bill No. 59, and the amendment was not adopted by the following vote: Yeas, 40; nays, 57; not voting, 1.

Not voting: Representative Shinoda.

House Bill No. 59 was ordered engrossed and passed to Committee on Rules for third reading.

On page 3, line 22 after "advisory committee," insert "and"
On page 3, line 23 after "rates" strike ", and the canal commission"
On page 4, lines 20 and 21 strike "and the canal commission"
On page 22, line 24 after "74.32.170;" insert "and"
On page 22, line 26 after "74.32.180" strike the semicolon and insert a period.
On page 22, beginning on line 27 strike all material down to and including line 3 on page 23.

Mr. Charette spoke in favor of the amendments.

POINT OF ORDER

Mr. Pardini: "Mr. Charette's amendment deals with the Canal Commission—and he's on pornography again. Could we bring him back?"

The Speaker: "Your point of order is well taken. You may continue, Representative Charette, but try to contain your remarks to the rationale for not abolishing the Canal Commission."

Mr. Charette continued his remarks in favor of the amendments, and Representatives Ehlers, North and Berentson spoke against them.

Mr. Thompson demanded an electric roll call and the demand was sustained.

Mr. Nelson spoke against the amendment, and Mr. Charette closed debate, speaking again in favor.

POINT OF INQUIRY

Mr. King yielded to question by Mr. Pardini.

Mr. Pardini: "Representative King, you indicated in your comments that this would give bargaining rights to higher education. It is my understanding that the Public Employee Relations Commission at the present time has before them a petition for a declaratory ruling. That petition for declaratory ruling is coming from the AFL/CIO Local No. 1823 saying that in their opinion the higher education faculty at Eastern Washington State College is already covered under 41.56, the Public Employees' Collective Bargaining Act. Would passage of this bill moot the petition for declaratory ruling?"

Mr. King: "I'm not an expert in law, but I believe that if it were to pass the question would be moot because they would clearly be granted the rights to bargain collectively under a different provision of law. They wouldn't need to have that decision made."

Mr. Pardini: "In your investigation of the subject as the prime sponsor of this bill, and perhaps as chairman of the Labor Committee, are we well-advised to pass this particular bill while this petition for declaratory ruling is pending before the Public Employee Labor Relations Commission?"

Mr. King: "I would say so, yes. The Boards of Regents have been advised by their attorneys that current law does not allow them to enter into collective bargaining agreements and until such time as that is changed there will be no collective bargaining. If this bill is passed it will allow collective bargaining and the petitioners goals would have been achieved."

Mr. Thompson: "The request made of the Code Reviser dealing with the powers of townships did not include on its list the flood control authority. It was, however, alluded to in the earlier sections of the bill, but because it had not been requested and because the Code Reviser always follows instructions explicitly, it had to be inserted later for clarity of language."

Basically, I guess, what is the definition of marital relationship? How far can we reach with this?"

Mr. Tilly moved adoption of the following amendment:

On page 1, line 9 after "that" strike "commercial operations" and insert "individuals and commercial firms"

Representatives Tilly and Erickson spoke in favor of the amendment.

POINT OF INQUIRY

Mr. Charnley yielded to question by Mr. Patterson.

Mr. Patterson: "Is the intent of the legislation to strike at the commercial operations rather than the individual that might unknowingly get involved in preparing a paper and helping one of his classmates?"

Mr. Charnley: "Basically, you are correct—the primary concern that was brought before the subcommittee during the last interim in dealing with the preparation of theses, papers, etc., for students at any level of postsecondary education by commercial firms. The majority of the testimony was that this was where most of these things are available. It is true, and I had two instances where individuals reported to me that individuals approached them and asked if they would like to have that individual, acting as his own agent, prepare a paper for him, but I believe that in the great majority of the cases this is not where the problem lies. We now have seven states with statutes of this type, and in all cases they have been very successful in helping curb this activity. At any rate in those states, and my primary concern here, would be the commercial operation. In direct response to the proposed amendment, I guess I shall probably have no objection, but I will leave it to the body to decide whether or not they feel that we should broaden the intent section of this bill as is proposed by Representative Tilly."

Representatives Tilly and Owen spoke in favor of the amendment.

ROLL CALL

The Clerk called the roll on adoption of the amendment by Representative Tilly to Substitute House Bill No. 123, and the amendment was not adopted by the following vote: Yeas, 36; nays, 56; not voting, 6.

Mr. Patterson moved adoption of the following amendment:

On page 2, line 3 after "individual" insert "except enrolled student preparing any material for another enrolled student at the same institution which material is intended for submission, either in whole or substantial part in fulfillment of these requirements for a degree, diploma, certificate, or course of study at that institution,"

Mr. Patterson spoke in favor of the amendment, and Mr. Charnley spoke against it.

POINT OF INQUIRY

Mr. Patterson yielded to question by Mr. Chandler.

Mr. Chandler: "In committee you will recall that we talked about the problem of fraternities and sororities having on file a vast library of papers and subjects, and there was some concern that we should try to get it back in. Is it your opinion that under the bill as it is written it would be a violation of this law for a person to either make available or to use one of those papers on file with the sorority or fraternity, and if it is would your amendment exempt from the provisions of the law those papers and that activity where the fraternities and sororities are involved?"

Mr. Patterson: "Yes, I think it would exempt the live-in groups that you refer to. To go on with your question, I think under section 3, subsection (3) on page 2, there are three words at the bottom of the page that I think would be the key to the question, and that's whether or not it's done for a fee. In other words, you are not liable, as I read this bill, unless you did it for a fee."

Representatives Chandler and Erickson spoke against the amendment, and it was not adopted.

On motion of Mr. Thompson, the following amendment was adopted:

On page 3, line 18 strike "Anyone" and insert "Any person"

MOTION

Mr. Shinpoch moved that the House do concur in the Senate amendments to Substitute House Bill No. 169.

Mr. Shinpoch spoke in favor of the motion, and Mr. Polk spoke against it.
POINT OF INQUIRY

Mr. Shinpoch yielded to question by Mr. Pardini.

Mr. Pardini: "Representative Shinpoch, I realize this is short notice, but getting back to page 12, line 11, subsection (5), "$231,736 shall be for payment of 1973-75 O.A.S.D.I. payroll taxes...'

Are we cutting the Department of Social and Health Services' ability to meet their vendor claims? I really want to know what that item is if you can tell me. I had heard some talk that they were going to make the Department of Social and Health Services eat the data processing allocation. The data processing allocation has been reduced in this budget. I don't think subsection (5) does it, but I don't see where else they do it."

Mr. Shinpoch: "My understanding is that in the area for Social and Health Services, the Department has committed to us that if they have the money they will attempt to do that. My understanding also was that the changes that they made in that area—the reductions that they made—were two: That the freeze would produce X number of dollars and then the other portion was for the data processing portion for Computer Center 3. Other than that, I'm really not prepared to speak to the details of what changes they made in that area."

The motion by Mr. Shinpoch was carried.

MOTION

Mr. King moved that the resolution be adopted.

Mr. Paris moved adoption of the following amendment by Representatives Paris, Zimmerman, Gaines, Taller, Lee, Haley, Polk, Whiteside Wilson, Berentson, Sanders, Struthers, Oliver, Shinoda, Greengo, Craswell, Barr, Tilly, Barnes, Gilleland, Schmitten and Amen:

Add to Rule 5 a new paragraph:

"Per diem payments made pursuant to RCW 44.04.080 may only be paid for sixty days in even-numbered years and ninety days in odd-numbered years, unless two-thirds of the members elected to each House of the legislature approve a concurrent resolution extending such payment period for not more than thirty additional days in any calendar year, or unless the governor, upon occurrence of an emergency and declaration of an emergency, by proclamation, convenes an extraordinary session of the legislature, whereupon per diem may be paid for an additional period not to exceed thirty days in any calendar year: PROVIDED, That per diem for interim activities is not limited by this rule."

Representatives Paris and Berentson spoke in favor of the amendment, and Mr. King spoke against it.

Mr. Patterson demanded an electric roll call and the demand was sustained.

Representatives Zimmerman, Shinoda and Polk spoke in favor of the amendment, and Representatives Charnley, Clemente and Hurley (George) spoke against it.
Mr. Knowles demanded the previous question and the demand was sustained.

MOTION

Mr. King moved that the amendment by Representative Taller be considered immediately.

POINT OF PARLIAMENTARY INQUIRY

Mr. Pardini: "We have a motion before this body. That motion was Representative Paris' motion to adopt the amendment, and I don't think Representative King's motion is in order."

The Speaker: "We're trying to expedite the business. Your point is well taken. We can just put the House at ease and wait for an amendment to the Paris amendment to come out. In the interest of time, Representative King made his motion to consider the Taller amendment now, and then we would go back to the Paris amendment and the amendment to that amendment."

Mr. Pardini: "Mr. Speaker, I think we ought to put the House at ease."

The Speaker declared the House to be at ease.

The Speaker called the House to order.

Mr. Knedlik spoke in favor of the amendment to the amendment.

POINT OF INQUIRY

Mr. Knedlik yielded to question by Mr. Berentson.

Mr. Berentson: "Have you had an attorney look at this amendment?"

Mr. Knedlik: "I don't feel that need. I think one of the problems here—the reason the amendment is awkward—is that because of certain changes, attorneys no longer find it possible to serve. You haven't any in your caucus; we only have four practicing attorneys left in ours. I have looked at the amendment."

Mr. Berentson spoke in opposition to the amendment.

The amendment to the amendment was adopted.

The Speaker stated the question before the House to be the amendment by Representative Paris as amended.

Mr. Paris spoke in favor of the amendment.

ROLL CALL

The Clerk called the roll on adoption of the amendment by Representative Paris and others as amended to House Resolution No. 77-7, and the amendment was not adopted by the following vote: Yeas, 35; nays, 61; not voting, 2.

Not voting: Representatives Barr, Moreau.
Mr. Taller moved adoption of the following amendment by Representatives Taller, Schmitten, Struthers, Fancher, Shinoda, Oliver, Barr, Fuller, Sanders, Craswell and Winsley:

Add a new paragraph at the end of Rule 79 as follows:

"The name of each member of a standing committee who is present at any meeting of such committee shall be recorded and a copy of such record shall be maintained until the end of the biennium, open for public inspection, by the Chief Clerk of the House of Representatives."

Representatives Taller, Schmitten, Struthers and Owen spoke in favor of the amendment, and Representatives King and Charette spoke against it.

POINT OF INQUIRY

Mr. Taller yielded to question by Mr. Douthwaite.

Mr. Douthwaite: "In the interest of precision, Representative Taller, I would like you to tell me when you say, 'each member of a standing committee who is present,' for how long need a member be present in order to be counted as present?"

Mr. Taller: "The intent was to show that the person showed up for the meeting and was present for part of the time. My intent was not to say that he was there for ten minutes out of the hour or thirty minutes. I think the same things hold true in a classroom, many times in lecture classes it's if you show up for the class. That was the intent."

Mr. Douthwaite: "At which point in the proceedings of the committee do you recommend that the attendance record be taken?"

Mr. Taller: "I would leave that up to the discretion of the chairman. I think the intent is that there be a record kept and I don't see us telling the chairman that it must be in the first five minutes or the last five minutes. In many committees you can come in and sign up during the entire session and I think it would be appropriate to follow that procedure."

Representatives Lee, Blair and Oliver spoke in favor of the amendment, and Mr. Shinpoch spoke against it.

Mr. Patterson demanded an electric roll call and the demand was sustained.

ROLL CALL

The Clerk called the roll on adoption of the amendment by Representative Taller and others to House Resolution No. 77-7, and the amendment was not adopted by the following vote: Yeas, 44; nays, 52; not voting, 2.

Not voting: Representatives Moreau, Sherman.

Mr. Newhouse moved adoption of the following amendment:

Amend House Rule 81 as follows:

On line 6 strike "signed" and insert "((signed)) affirmatively voted upon"

Mr. Newhouse spoke in favor of the amendment, and Mr. King spoke against it.

POINT OF INQUIRY

Mr. King yielded to question by Mr. Greengo.

Mr. Greengo: "My reading of the rule as it stands now appears to be actually more stringent than what Representative Newhouse is proposing. The wording now says that you must sign it in a regularly called meeting, and I presume once the gavel goes down the meeting is adjourned, and you can no longer sign it. His words don't say that. It actually says that you ought to vote on it and says nothing about signing a do pass sheet. Could you give me your interpretation of the rule as it is now?"
Mr. King: "I think your interpretation is correct. The way the rule works now, you may sign during any regularly called meeting, but what it does say is that you don't have to be present when the vote comes up. I think there are many, many times when I've been at some other committee meeting and come back after the bill (maybe my own bill) has been voted out of the committee, and I have been able to sign that do pass sheet during the committee meeting. I think the flexibility to the legislature is greater under our existing rule than it would be under the proposed rule change."

Mr. Greengo: "With all respect, sir, I don't believe you've answered my specific question, and that is the matter of signing a bill prior to adjournment of the meeting or subsequent to the adjournment."

Mr. King: "The rule says any regularly called meeting. It doesn't have to be the meeting on any particular day. It should be signed during a regularly called meeting."

POINT OF INQUIRY

Mr. King yielded to question by Mr. Bond.

Mr. Bond: "Representative King, one little thing that puzzles me frequently in committee meetings is the situation where a member will vote when the time comes to vote either by voice or by raising hands or something and then that member doesn't sign anything—a do pass or a do not pass. How is that situation covered?"

Mr. King: "That certainly can occur. There are a number of reasons it would occur. It might be that the member is saying that he has changed his mind or it might be that the member is in a hurry to do something else and had to leave before he had a chance to sign, but that certainly can occur."

Mr. Bond: "If he voted and didn't sign, is that vote valid?"

Mr. King: "The vote is valid, but the bill won't move out of committee unless it has the signatures of the majority of the members of the committee."

Mr. Newhouse closed debate, speaking again in favor of the amendment.

Mr. Patterson demanded an electric roll call and the demand was sustained.

ROLL CALL

The Clerk called the roll on adoption of the amendment by Representative Newhouse to House Resolution No. 77-7, and the amendment was not adopted by the following vote: Yeas, 38; nays, 59; not voting, 1.

Not voting: Representative Moreau.

The Clerk read the following amendment by Representatives Greengo and Lee:

On line 5 of Rule 81 after "bill," strike all the material down to and including "meeting" on line 7 and insert "((A majority recommendation of a committee must be signed by a majority of the entire membership of the committee in a regularly called meeting)) During and prior to adjournment of a regular meeting of a committee in which a vote on a particular bill is taken, a majority recommendation must be signed by a majority of the entire membership of the committee"

POINT OF INFORMATION

Mr. Greengo: "Mr. King gave us his interpretation a few minutes ago of this particular sentence. Could I have a ruling from the Speaker as to his agreement with Representative King's opinion?"

The Speaker: "The rule is explicit. A bill to be signed out of committee must be signed by a member attending a regularly called meeting."

Mr. Greengo: "So it is your interpretation that the signing must occur at the meeting?"
The Speaker: "That's correct. Not necessarily the meeting the bill was voted upon, but at a meeting of that committee. I'm not saying that happens all the time, but that's the rule."

With the consent of the House, Mr. Greengo withdrew the amendment.

Mr. Berentson moved adoption of the following amendment:
Amend Rule 81 as follows: On line 11 after "considered." insert "A bill must be filed with the chief clerk of the House no later than 5:00 p.m. on the second day after the favorable vote of the committee. A bill not timely filed pursuant to this rule must return to the committee for another vote during a regular session of the committee."

Representatives Berentson and Greengo spoke in favor of the amendment, and Mr. King spoke against it.

Mr. Berentson closed debate, speaking again in favor of the amendment.

Mr. Patterson demanded an electric roll call and the demand was sustained.

ROLL CALL

The Clerk called the roll on adoption of the amendment by Representative Berentson to House Resolution No. 77-7, and the amendment was not adopted by the following vote: Yeas, 37; nays, 59; not voting, 2.

Not voting: Representatives Moreau, Pruitt.

Mr. Pardini moved adoption of the following amendment:
Amend Rule 81 as follows: On paragraph 3, line 3 after "recorded." strike "Upon demand of any member," and insert "A"

Representatives Pardini and Bond spoke in favor of the amendment, and Representatives King and Shinpoch spoke in opposition to it.

Mr. Pardini closed debate, speaking again in favor of the amendment.

Mr. Patterson demanded an electric roll call and the demand was sustained.

ROLL CALL

The Clerk called the roll on adoption of the amendment by Representative Pardini to House Resolution No. 77-7, and the amendment was not adopted by the following vote: Yeas, 36; nays, 59; not voting, 3.

Not voting: Representatives Fuller, Moreau, Newhouse.

Mr. Charnley moved adoption of the following amendment by Representatives Charnley, Valle, Kilbury, Becker, Nelson (Dick), Gruger, Pruitt, Lux, Taller, Douthwaite, Chandler, Sherman, Grim, Bond and Thompson:
Amend Rule 86 to read as follows:
"RULE 86: Smoking of cigarettes, pipes, or cigars shall not be permitted at any public meeting of any committee of the House of Representatives (unless such prohibition shall be waived by the chairperson of each committee)."

No smoking signs shall be posted in all committee rooms of the House of Representatives."

Mr. Charnley spoke in favor of the amendment.
Mr. Charette demanded an electric roll call and the demand was sustained.

Mr. Pruitt spoke in favor of the amendment, and Mr. Charette spoke against it.

Ms. Becker demanded the previous question, and the demand was sustained.

ROLL CALL

The Clerk called the roll on adoption of the amendment by Representative Charnley and others to House Resolution No. 77-7, and the amendment was adopted by the following vote:

Yeas, 60; nays, 36; not voting, 2.

Not voting: Representatives Knedlik, Moreau.

Mr. Polk moved adoption of the following amendment:

On line 4 of Rule 25 after "are" strike "committee bills" and insert "((committee-bills)), proposed by a standing committee or by a joint statutory legislative committee"

Mr. Polk spoke in favor of the amendment, and Mr. King spoke against it.

POINT OF INQUIRY

Mr. Polk yielded to question by Mr. Ehlers.

Mr. Ehlers: "Before I was in the Legislature, as I remember, there was something called the Legislative Council, when you were in the majority. There was also the interim committee system. Could you let us know what the policy was during those days as far as the interim committees or the joint interim committees having to do with education or other subject matter areas? When they came out during the interim did they go directly to Rules?"

Mr. Polk: "No, they did not, Representative Ehlers. As a matter of fact, there are a number of other statutory committees right now that are not funded such as you pointed out—the Legislative Council, the Joint Committee on Education and Higher Education, the Joint Committee on Nuclear Energy, and a permanent property tax commission. These are not funded so we are not faced with a decision on those, but even at that time we did it exactly as is being done right now."

Mr. Ehlers spoke in opposition to the amendment, and Mr. Polk closed debate, speaking in favor of it.

The amendment was not adopted.

Mr. Owen moved adoption of the following amendment:

Insert a new rule as follows:

"RULE 87. Within 14 days after receiving a standing committee report which recommends passage of any bill, memorial, or resolution, the Rules Committee shall take action either to schedule such bill, memorial, or resolution on the daily calendar for second reading, or to return it to a standing committee.

Each vote on a motion to take action pursuant to this rule shall be taken by yeas and nays; the names of the members voting for or against such motion shall be recorded; and a copy of such record shall be maintained, open for public inspection, by the Chief Clerk of the House of Representatives."

Representatives Owen and Douthwaite spoke in favor of the amendment, and Representatives Conner, Berentson, Thompson and Zimmerman spoke against it.

Mr. Owen spoke again in favor of the amendment.

The amendment was not adopted.

The Speaker stated the question before the House to be adoption of House Resolution No. 77-7 as amended.

Mr. King spoke in favor of the resolution, and Mr. Pardini spoke against it.

The resolution was adopted.

SECOND READING

ENGROSSED SUBSTITUTE SENATE BILL NO. 2056, by Committee on Ways and Means (Originally sponsored by Senators Donohue, Odegaard and McDermott – by Superintendent of Public Instruction request):

Implementing constitutional amendment permitting school district levies for two year periods.

The bill was read the second time.

Committee on Revenue recommendation: Majority, do pass as amended. (For amendments, see Journal, Twenty-fourth Day, February 2, 1977.)

On motion of Ms. Sommers, the committee amendments were adopted.

Mr. Bauer moved adoption of the following amendment by Representatives Bauer, Kilbury, Walk, Clemente, Sommers and Fortson:

On page 2, line 7 following "made" strike all the material down to and including "that period" on line 10.

Mr. Bauer spoke in favor of the amendment.

POINT OF INQUIRY

Mr. Bauer yielded to question by Mr. Flanagan.

Mr. Flanagan: "In order to clarify this so that everybody understands it, the way I understood it in the committee, when you use this kind of language you not only allow the school board to add another levy in the second year to make up for some deficiencies, but you also allow them to have another two-year levy later on top of the first two-year levy in the second year which would then be for that year plus the following year. Is that right?"

Mr. Bauer: "Nothing here prohibits the school district from running another two-year levy after the expiration of the first year of the original two-year levy. This is going along with the rationale that it would not be politically advisable to do so if they are interested in passing any levies or maintaining credibility in their community, which they may need to do in order to pass levies."
Mr. Flanagan spoke against the amendment, and Mr. Polk spoke in favor of it.

POINT OF INQUIRY

Mr. Bauer yielded to question by Mr. Amen.

Mr. Amen: "I'm still not clear on this. Are you saying that if a school, after the two-year special levies, after the first year, then they can pass another two-year special levy and put that first year of that second two-year special levy on top of the other two-year special levy?"

Mr. Bauer: "There is nothing in the bill that prohibits the district from running a two-year levy and then on the second year of that two-year levy running another two-year levy for that year in addition to the third year. There is nothing to prohibit that. The option is left to the local school district."

Representatives Clemente, Kilbury and Pardini spoke in favor of the amendment, and Representatives Amen, Tilly and Charette spoke against it.

Mr. Charnley demanded the previous question and the demand was sustained.

Mr. Pardini moved adoption of the following amendment:

On page 5, after line 5 insert a new paragraph as follows:

"If the department fails to send such application forms within such five-day period, the department shall pay to the applicant the amount of ten dollars per day for each day beyond the fifth day. Such payment shall be made to the applicant within sixty days of sending the application."

Mr. Pardini spoke in favor of the amendment.

POINT OF INQUIRY

Mr. Pardini yielded to question by Mrs. Valle.

Mrs. Valle: "I'd like a clarification. What fund does this money come from and is this a civil liability or is this a giving of the public's money?"

Mr. Pardini: "I would submit, Representative Valle, somebody is going to have a fiscal impact and I really don't know what the fiscal impact is. I would hope the fiscal impact is not more than a thousand dollars. I would hope that after the department gets stung a few times they would get in gear and not get caught the fifteenth and the twentieth and the thirtieth time, that they would establish an orderly procedure to get those back. The question of where the money comes from—what do we do with other agencies? Let them take it out of their budget—eat it. The eat-it concept for some state agencies who overspend is pretty popular around here and at ten dollars a day I would suspect they could eat it."

Representatives Valle and Thompson spoke against the amendment, and Mr. Deccio spoke in favor of it.

POINT OF INQUIRY

Mr. Pardini yielded to question by Mr. Ehlers.

Mr. Ehlers: "Representative Pardini, this may be an admirable amendment, but there doesn't seem to be any safety valve in this one. A hypothetical question: There is a fire in the department that has the applications. A major fire which destroys all the application forms, and so forth, that have been submitted. What's the control valve that you've built into this amendment which takes care of such a possible eventuality of a major catastrophe?"

Mr. Pardini: "There are two safety valves. One, I'm certain the Department of Ecology is well-run and open at the present time and that these applications that are pending, Representative Ehlers, are probably maintained in a very orderly neat filing system and it would be a very unprecedented type thing that they would be totally destroyed. The second safety valve is the same pressure that applies on the other side of the coin. What happens to the business who has a fire and can't get their B&O tax in or their property tax in on time? They are subject to the penalties too, you know. If we're going to invoke it in one place, we should invoke it in both places."

Representatives Warnke, Dunlap and Berentson spoke in favor of the amendment, and Mrs. Valle spoke again in opposition to it.

Mr. Pardini closed debate, speaking again in favor of the amendment.

ROLL CALL

Mr. Patterson: "Representative Hawkins, I always get concerned when I see two pages of repealers—"

The Speaker: "Representative Patterson, is that a question on the amendment before us?"

Mr. Patterson: "Yes. I'm concerned—"

The Speaker: "You're asking a question in regard to repealers in the bill and we are discussing an amendment by Representative Tilly, which I don't believe has anything to do with the repealers. Would you wait until we get to that point, please?"

The amendment was adopted.

Mr. Newhouse moved adoption of the following amendment:

- On page 10, line 15 after "forthwith" strike all material down to and including "therefor)" and insert "; but if it shall not so appear, it shall be the duty of the ((registrars)) county auditor receiving such authorization to notify the ((registrars)) county auditor of the county forwarding such authorization of the apparent fraud, and the ((registrars)) county auditor receiving such notification shall cancel the new registration, and note on the cards or ((forms)) record the reason for such cancellation, and shall notify the person so registered anew, by mail of such cancellation and the reason therefor"

POINT OF ORDER

Mr. Charette: "I have an amendment on the desk and it's for the same page and the same line. My amendment has been up there for three or four days and it should be considered first."
TWENTY-NINTH DAY, FEBRUARY 7, 1977 235

POINT OF ORDER

Mr. Lux: "Mr. Speaker, my amendment has also been up there for three or four days and due to the fact that I have better qualifications for the term of Tukwila, I think my amendment should be first."

SPEAKER'S RULING (MR. O'BRIEN PRESIDING)

The Speaker (Mr. O'Brien presiding): "Reed's Rules allow the friends of the paragraph to have an opportunity to submit his or her amendment before an amendment is offered by another person striking the whole amendment. We have the right to perfect a section before an amendment would be considered to strike the whole paragraph. So, Representative Charette, your amendment strikes the whole paragraph and that's the reason why we are allowing the other amendment to go through first, because it just strikes part of it and inserts a new name."

Mr. Charette: "Speaking to the point of order, if you read the amendment that has been offered by Representatives Lux, Lysen and Valle, you will find out that if their amendment is adopted the matter before the house wouldn't have too much meaning because it gives great compliment to the Issaquahs and then names the ferry the Tukwila. I think they would have to strike that section complimenting the Issaquahs before they name it the Tukwila. Now the one concerning the Humptulips is properly drafted."

The Speaker (Mr. O'Brien presiding): "That determination on the validity of the name change would be up to the body to determine."

POINT OF ORDER

Mr. Newhouse: "I was going to suggest, Mr. Speaker, that the whole bill is moot; we're not going to build a ferry anyway."

The Speaker (Mr. O'Brien presiding): "I suppose it is based on a contingency."

With the consent of the House, Mr. Lux withdrew the amendment.

The Clerk read the following amendment by Representatives Charette and Monohon:

On page 1, line 4 strike the second paragraph and on line 13 after "the" strike "Issaquah" and insert "Humptulips"

With the consent of the House, Mr. Charette withdrew the amendment.

POINT OF INQUIRY

Mr. Kilbury yielded to question by Mr. Newhouse.

Mr. Newhouse: "Mr. Kilbury, you mentioned that you don't particularly want this hot potato in your committee, and are not favorable to it. You also mentioned that Initiative 59 might die in your committee. I'm sure it could come out without action in your committee because it has to go to the Secretary of State if we don't act favorably on it. My question is, do you have a vehicle—a title—to which you can attach some alternative measure to go on the ballot with Initiative 59?"

Mr. Kilbury: "Yes, we have House Bill No. 281, which is a title only."

Mrs. Valle spoke in opposition to the motion.

Mr. Patterson demanded an electric roll call and the demand was sustained.

MAJORITY recommendation: Do pass with the following amendments:

On page 1, line 6 insert the following:
Section 1. Section 3, chapter 1, Laws of 1931 and RCW 54.08.010 are each amended to read as follows:

At any general election held in an even-numbered year the ((board-of)) county ((commissioners)) legislative authority of any county in this state may, or on petition of ten percent of the qualified electors of such county, based on the total vote cast in the last general county election, shall, by resolution, submit to the voters of such county the proposition of creating a public utility district which shall be coextensive with the limits of such county as now or hereafter established. Such petition shall be filed with the county auditor, who shall within fifteen days examine the signatures thereof and certify to the sufficiency or insufficiency thereof, and for such purpose the county auditor shall have access to all registration books in the possession of election officers within such county. If such petition be found to be insufficient, it shall be returned to the persons filing the same, who may amend or add names thereto for ten days, when the same shall be returned to the county auditor, who shall have an additional fifteen days to examine the same and attach his certificate thereto. No person having signed such petition shall be allowed to withdraw his name therefrom after the filing of the same with the county auditor. Whenever such petition shall be certified to as sufficient, the county auditor shall forthwith transmit the same, together with his certificate of sufficiency attached thereto, to the ((board-of)) county ((commissioners, who)) legislative authority, which shall thereupon immediately transmit such proposition to the election board of such county, and it shall be the duty of such county election board to submit such proposition to the voters at the next general election. The notice of the election shall state the boundaries of the proposed public utility district and the object of such election, and shall in other respects conform to the requirements of the general laws of the state of Washington, governing the time and manner of holding elections. In submitting the said question to the voters for their approval or rejection, the proposition shall be expressed on said ballot substantially in the following terms:

Public Utility District No. ...................................................... YES ☐
Public Utility District No. ...................................................... NO ☐

Any petition for the formation of a public utility district may describe a less area than the entire county in which the petition is filed, the boundaries of which shall follow the then existing precinct boundaries and not divide any voting precinct; and in the event that such a petition is filed the ((board-of)) county ((commissioners)) legislative authority shall fix a date for a hearing on such petition, and shall publish the petition, without the signatures thereto appended, for two weeks prior to the date of the hearing, together with a notice stating the time of the meeting when such petition will be heard. Such publication, and all other publications required by this act, shall be in a newspaper published in the proposed or established public utility district, or, if there be no such newspaper, then in a newspaper published in the county in which such district is situated, and of general circulation in such county. The hearing on such petition may be adjourned from time to time, not exceeding four weeks in all. If upon the final hearing the ((board-of)) county ((commissioners)) legislative authority shall find that any lands have been unjustly or improperly included within the proposed public utility district and will not be benefited by inclusion therein, (the said board) it shall change and fix the boundary lines in such manner as it shall deem reasonable and just and conducive to the public welfare and convenience, and make and enter an order establishing and defining the boundary lines of the proposed public utility district: PROVIDED, That no lands shall be included within the boundaries so fixed lying outside the boundaries described in the petition, except upon the written request of the owners of such lands. Thereafter the same procedure shall be followed as prescribed in this ((act)) chapter for the formation of a public utility district including an entire county, except that the petition and election shall be confined solely to the lesser public utility district.*

Mr. Pardini: "Representative Taller, did you understand that in 1979, if there were no other statewide issues on the ballot, that it would be mandatory to mail this pamphlet, if nothing else was out there, at a cost of $450,000?"
Mr. Taller: "That's my understanding, that the way the bill is written, if there are no other issues it would have to bear the entire cost of the mailing. It is not permissive language; it does require that it be mailed out."

Mr. Nelson (Dick) spoke again in favor of the bill.

Mr. Heck spoke in favor of passage of the bill, and Mr. Tilly spoke against it.

POINT OF INQUIRY

Mr. Heck yielded to question by Mr. Patterson.

Mr. Patterson: "Representative Heck, I'm looking at section 3 and my primary concern is whether or not the bill would give that individual an opportunity to change his registration place one day before an election. Let me cite you an example and maybe you can respond to it. We have thousands of students, for example, who are going to the institutions of higher learning around this state. In September most of them are enrolling at that time and many of them currently are registered in their hometowns; that would be their place of residence. They are going into these institutions with the intent of staying there nine months. In other words, they are taking up a new residence. I'm just wondering whether or not this bill would authorize those people at that point in time, right before an election, to change their residence and vote in a new district?"

Mr. Heck: "Only if they've met the constitutional requirement of having resided in that precinct for thirty days prior to the election. This doesn't change that."

Mr. Patterson: "Does the Auditor have any way of checking on that point?"

Mr. Heck: "No more so than he has now."

Representatives Patterson, Tilly, Bond and Deccio spoke in opposition to passage of the bill, and Representatives Hurley (George) and Hawkins spoke in favor of it.

Representative Hurley (Margaret) spoke in favor of the amendment.

POINT OF INQUIRY

Representative Hurley (Margaret) yielded to question by Mr. Martinis.

Mr. Martinis: “As I’m reading this amendment—and the amendment is by Representative Margaret Hurley and not a committee amendment—I’m reading that you want to exempt buoys from this moorage fee, but I’m confused by your statements. Are you trying to exempt them or are you trying to charge fees for moorage to buoys?”

Representative Hurley (Margaret): “No, we are trying to exempt them. Actually, it was an action taken by the committee. We did discuss this. The word ‘buoys’ was in the bill on line 30 after the word ‘wharfs’ and our committee decided that it would be practically impossible and costly and take more people to collect moorage fees at buoys and that’s why we deleted it there, but we felt it should be clarified in the next sentence.”

Representatives Martinis and Charnley spoke against the amendment.

MOTION

On motion of Mr. King, further consideration of Substitute House Bill No. 44 was deferred, and the bill was ordered placed at the top of Friday’s second reading calendar.

Mr. King moved adoption of the following amendment by Representatives King and Smith:
On page 4, line 5 strike all of section 4 and insert the following:
*Sec. 4. Section 3, chapter 305, Laws of 1971 ex. sess. and RCW 18.71.210 are each amended to read as follows:
No act or omission of any physician’s trained mobile intensive care paramedic, intravenous therapy technician, or airway management technician, as defined in RCW 18.71.200 as now or hereafter amended, done or omitted in good faith while rendering emergency (lifesaving) medical service under the responsible supervision and control of a licensed physician to a person who is in (immediate) imminent danger of loss of life or has suffered grievous bodily injury shall impose any liability upon:
(1) The trained mobile intensive care paramedic, intravenous therapy technician, or airway management technician;
(2) The supervising physician(,);
(3) Any hospital, the officers, members of the staff, nurses, or other employees of a hospital ((or upon));
(4) Any training agency or training physician;
(5) Any licensed ambulance service; or
(6) A federal, state, county, city or other local governmental unit or ((upon other)) employees of such a governmental unit((, PROVIDED, That));
Mr. King spoke in favor of the amendment.

POINT OF INQUIRY

Mr. Charette yielded to question by Mr. Newhouse.

Mr. Newhouse: "I'm looking at this language and I hope you have, for it appears to me that we are now amending what has been the Good Samaritan Act, that is, someone who performs a service not for pay. It would appear to me that the amendment by Mr. King would interject into the Good Samaritan Act an ambulance service, which I would understand is doing something for pay and wants to be freed of any liability. Am I correct?"

hours required between second and third reading."

Mr. Pardini: "That bill has passed the second reading calendar."

SPEAKER'S RULING
The Speaker: "It has been placed back on the second reading calendar."

POINT OF PARLIAMENTARY INQUIRY
Mr. Berentson: "It has been traditional in my opinion that this early in the session we
have never bumped a bill without agreement of the minority party, and I find it rather unusual
that since the question was asked of us if we would bump the bill and we didn't feel that was
necessary in this case, so I find this action rather unusual."

The Speaker: "How does that relate to a parliamentary inquiry?"
Mr. Berentson: "Consider it a point of order."

SPEAKER'S RULING
The Speaker: "It was the desire of the sponsors to attempt to bump the bill. It has not
been bumped yet, but they intend to make the motion."

and Engrossed House Bill No. 98 be placed on final passage.

POINT OF ORDER
Mr. Pardini: "My point of order, Mr. Speaker, is Rule 26, bills on second reading. That
says that when no further amendment shall be offered, the Speaker shall declare that the bill
has passed its second reading. Now if you want to declare that you are putting it back on sec­
ond reading, then I'll take you to the front section of Rule 26 and it says, "Upon second read­ing, the bill number and short title...it must be distributed to each member no later than 8:00
p.m. on the second day preceding such consideration... So I think that if you've gone to rules and you're coming back out on second reading again, then our twenty-four hour notice is valid. I think it is very important to establish this procedure during this session."

**SPEAKER'S RULING**

The Speaker: "Under Rule 43, 'A bill in the Rules Committee may be placed on the calendar by the affirmative vote of a constitutional majority of all members of the House.' That has been done and now there is a motion before us to suspend the rules and place it on third reading."

**POINT OF ORDER**

Mr. Polk: "Also reading Rule 26: 'All amendments adopted on second reading shall be pasted securely to the original bill.' Representative Zimmerman had a question during second reading about the language that we finally adopted. I went up to the Chief Clerk with Representative Zimmerman and talked with the Chief Clerk about the actual language that had been adopted. He stated to us that he does not know until he has been able to study the language carefully exactly what this House has done and would not read that language until he has had a chance to engross the bill and put it out for third reading. So in light of that, I think this House has the right to abide by Rule 26 and see these amendments firmly pasted to the bill before it is brought out for second reading."

**SPEAKER'S RULING**

The Speaker: "The motion before us is to suspend the rules. Therefore that would suspend that rule."

Mr. Lysen spoke in favor of the motion.

WHEREAS, Saturday, February 12, 1977, will be the 169th anniversary of the birth of Abraham Lincoln; and
WHEREAS, As the sixteenth President of the United States, Abraham Lincoln served through the most trying and difficult days in the history of our Republic and under his inspired leadership the Union was preserved and the slaves set free; and
WHEREAS, Lincoln believed that the individual has a God-given dignity and that government exists to be the servant of the individual and not his master; and
WHEREAS, Lincoln held to the following basic principles and beliefs, which are the foundation of our American form of government:

(1) That the individual has the right and capacity to govern himself, to set his own goals, and to make his way to them without the restraints of dictatorship or paternalism;
(2) That the basic function of government is to maintain an environment in which the individual can freely develop powers of mind, heart, and body with which his Creator endowed him;
(3) That the system of the separation of powers and of checks and balances is necessary to prevent a monopoly of power in any branch of government;
(4) That there should be special privilege to none and equal opportunity to all citizens;
THIRTY-THIRD DAY, FEBRUARY 11, 1977 273

(5) That the government must understand the difference between words and deeds, as the future will be built by those who work for it—not by those who only promise it; and

WHEREAS, Lincoln believed in responsible men and responsible government and opposed those whose concern with selfish political interests would hamper and distort those ends; and

WHEREAS, The life and character of Lincoln have provided a supreme guide and inspiration for all men of good will, devoted to the principles of freedom and self-government; and

WHEREAS, All men of whatever political persuasion should reflect upon the character and leadership provided by Lincoln and fervently pray that in the present day and in the years to come we might once again be blessed with leadership of the type given by Abraham Lincoln;

NOW, THEREFORE, BE IT RESOLVED, That the House of Representatives of the Forty-fifth Legislature of the State of Washington commemorate, observe, and reflect upon the life and contributions of Abraham Lincoln and always remember that Lincoln's foresight and courage will always illustrate to the American people that his type of leadership is a treasure that we should always cherish.

Mr. Hurley (George) moved adoption of the resolution.

Representatives Hurley (George) and Pardini spoke in favor of the resolution, and it was adopted.

POINT OF INQUIRY

Mr. King yielded to question by Mr. Blair.

Mr. Blair: "I've had a number of inquiries from people who don't really understand what being on the request list means and I have a question in my own mind. As I understand the provisions of our Constitution, a member of the legislature can introduce a bill anytime up to the cut-off date. If we choose to sit in our own offices and write a bill, is it not true that we could come in and drop that bill in the hopper on Thursday afternoon without ever going to the Code Reviser beforehand?"

Mr. King: "I don't really know that I can properly answer that. I think to get an answer to that question you would have to do it and then seek a ruling at that time. It is not before us at the present."

MOTION

On motion of Mr. King, the House adjourned until 2:15 p.m., Monday, February 14, 1977.

JOHN BAGNARIOL, Speaker.

DEAN R. FOSTER, Chief Clerk.
The House was called to order at 2:15 p.m. by the Speaker (Mr. O'Brien presiding). The Clerk called the roll and all members were present except Representatives Bond, Fischer and Leckenby, who were excused.

The flag was escorted to the rostrum by a Sergeant at Arms Color Guard, Pages Donell Cooke and Mike Gibbons. Prayer was offered by Reverend George Mitchell of the First Christian Church of Olympia.

Reading of the Journal of the previous day was dispensed with and it was ordered to stand approved.

Mr. Ehlers moved adoption of the following amendment by Representatives Ehlers and Charette:

On page 2, after section 3 insert the following:

"Sec. 4. Section 40, chapter 290, Laws of 1953 as amended by section 16, chapter 68, Laws of 1973 1st ex. sess. and RCW 68.05.180 are each amended to read as follows:

Each cemetery authority in charge of cemetery endowment care funds shall file with the board annually, on or before the thirtieth day of June, a written report in form prescribed by the board setting forth:

(2) The amount collected and deposited in both the general and special endowment care funds:

Renumber the sections following consecutively, and correct internal references accordingly.

Mr. Ehlers spoke in favor of the amendment.

POINT OF INQUIRY

Mr. Ehlers yielded to question by Mr. Zimmerman.

Mr. Zimmerman: "Your indication is that this entire amendment is existing language, existing law, is that correct?"

Mr. Ehlers: "Yes, except the underlined portion on lines 15 through 17."

Mr. Zimmerman: "The present practice has been handled by the authority—who is the authority you are referring to?"

Mr. Ehlers: "The Cemetery Board."

Mr. Zimmerman: "The State Cemetery Board is the authority you are listing here?"

Mr. Ehlers: "That is correct."

Mr. Zimmerman: "Is that the only agency presently that does have to have a requirement of reports on endowment funds?"

Mr. Ehlers: "My interpretation is that the Cemetery Board has an auditor who verifies these and usually through mail (not necessarily on sight) makes a recommendation to the Cemetery Board and the Cemetery Board generally approves those."

The amendment was adopted.

Mr. Charette moved adoption of the following amendment by Representatives Charette and Ehlers:

On page 2, after section 3, insert the following:
Sec. 4. Section 51, chapter 290, Laws of 1953 as amended by section 4, chapter 99, Laws of 1969 ex. sess. and RCW 68.05.230 are each amended to read as follows:

Every cemetery authority shall pay for each cemetery operated by it, an annual regulatory charge to be fixed by the board, based on the number of interments, entombments, and inumments made during the preceding full calendar year, but not exceeding ((twenty five)) one hundred dollars for one hundred or less, ((fifty)) two hundred dollars for one hundred one to three hundred fifty, ((seventy five)) three hundred dollars for three hundred fifty-one to seven hundred, ((one)) five hundred dollars for seven hundred one or more; plus an additional charge of not more than ((fifty...centi)) one dollar per interment, entombment, and inurnment made during the preceding full calendar year, which charges shall be deposited in the cemetery account. Upon payment of said charges and compliance with the provisions of Title 68 RCW and the lawful orders, rules, and regulations of the board, the board will issue a certificate of authority.

Renumber the sections following consecutively, and correct internal references accordingly.

POINT OF PARLIAMENTARY INQUIRY

Mr. Nelson (Gary): "We already have a section 4 from the previous amendment by Ehlers and Charette. Is it my understanding that this would really become section 5?"

The Speaker (Mr. O'Brien presiding): "Representative Nelson, your point is well taken; apparently there are two amendments to section 4. Also, included in this proposed amendment it states to correct internal references accordingly. As I understand it, section 4 should be section 5. The Chief Clerk states that he will change it to section 5."

Representatives Charette and Ehlers spoke in favor of the amendment, and it was adopted.

On motion of Mr. Charette, the following amendments to the title were adopted:

In line 3 of the title after '68.05.050;' insert "amending section 40, chapter 290, Laws of 1953 as amended by section 16, chapter 68, Laws of 1973 1st ex. sess. and RCW 68.05.180;" 

On page 1, line 3 after '68.05.050;' insert "amending section 51, chapter 290, Laws of 1953 as amended by section 4, chapter 99, Laws of 1969 ex. sess. and RCW 68.05.230;"

Mr. Douthwaite moved adoption of the following amendment by Representatives Douthwaite and North:

On line 11 strike •, but not to exceed ten days.*

Mr. Douthwaite spoke in favor of the amendment.

POINT OF INQUIRY

Mr. Douthwaite yielded to question by Mr. Pardini.

Mr. Pardini: "You're the chairman of this committee, was this amendment offered in the Insurance Committee?"

Mr. Douthwaite: "No."

Mr. Pardini: "Why not?"

Mr. Douthwaite: "The bill did receive a hearing for a matter of about an hour or so and it is a substitute bill so you do see that it has been overhauled from the original bill. This is simply an idea, I think, which has arisen from another amendment which was offered by Representative Smith, who kindly agreed to withdraw the amendment."

Representatives Douthwaite and Barnes spoke in favor of the amendment, and Representatives Pardini and Charette spoke against it.

POINT OF INQUIRY

Mr. Charette yielded to question by Mr. Hurley (George).

Mr. Hurley (George): "You heard the last speaker and according to his version and your version, it's entirely different. According to you the court has proceeded for years to give the loaner any limited time necessary, whether it's ten days or twelve or fifteen days, to procure a new car, and according to the testimony by the previous speaker, what you say is not accurate. Would you verify that?"

Mr. Charette: "Mr. Hurley, it is my understanding, and I don't know of any different law, that if a person's car is damaged and put out of commission, he is entitled to a reasonable amount of time for a replacement vehicle. Technically correcting what Mr. Barnes said—he said that if someone causes damage to your car you are entitled to it—technically it has to be their fault and on a comparative basis because of acts of the legislature within the last three or four years. It is my understanding that the court has always allowed a reasonable loss of use time. That is what I was saying and I can't imagine what the testimony before the committee said unless somebody just lost a case."

Mr. Hurley (George): "The reason I ask this question is because myself, or I think any other individual in this state, wouldn't want to be placed in the position where he couldn't get a loaner and even though the procedure has been as you stated, in case the insurance company didn't want to follow this procedure and the law did not force them to do so, then the injured person could remain injured and could not get a loaner. I would like to have a clarification on the law because without a clarification we would not be voting correctly here on the floor. If that is true the bill should revert back to committee to be rewritten so we know exactly what we are voting on."

Mr. Charette: "Mr. Hurley, in answering your question further, as I understand this bill it relates to actions arising. It does not have to do with the settlement of cases with an insurance company and an injured party. We're talking about actions arising out of accidents. This is not commanding an insurance company, the way I read the bill, to pay for ten days use. If we were commanding an insurance company, then in order to get that ten days use, if the company
would not pay, you would always have to bring an action. My understanding is that the vast majority of all cases are settled by insurance companies, reasonably, and the people who are injured are satisfied with their settlement."

Mr. Haley spoke against adoption of the amendment.

The amendment was adopted.

On motion of Mr. Douthwaite, the following amendment was adopted:

On line 13 after the period add a new sentence as follows: "Loss of use payments under the foregoing provisions shall be limited to a period of ten days unless the court determines that a replacement vehicle could not have reasonably been acquired within that period of time."

Substitute House Bill No. 100 was ordered engrossed and passed to Committee on Rules for third reading.

MOTION

On motion of Mr. Bender, the House advanced to the eighth order of business.

MOTION FOR RECONSIDERATION

Mr. Fuller, having voted on the prevailing side, moved that the House now reconsider the vote by which Engrossed Substitute House Bill No. 227 passed the House.

Representatives Fuller and Tilly spoke in favor of the motion, and Mr. Hawkins spoke against it.

Mr. Patterson demanded an electric roll call and the demand was sustained.

Mr. Fuller spoke again in favor of the motion.

MOTION

The Clerk called the roll on the motion for reconsideration of the vote by which the House passed Engrossed Substitute House Bill No. 227, and the motion was lost by the following vote: Yeas, 34; nays, 57; not voting, 6.

Mr. Berentson spoke against the motion.

MOTION

Mr. Pardini moved that Engrossed Senate Bill No. 2561 be placed at the top of today's second reading calendar.

SPEAKER'S RULING

The Speaker: "Your motion is basically out of order because the motions are of equal rank. In addition to that, it would take a suspension of the rules to put a bill with a direct appropriation on the floor of the House for second reading before it had gone to the Appropriations Committee. Our rules specifically state that every bill with a direct appropriation shall go to the Appropriations Committee."

With the consent of the House, Mr. Pardini withdrew his motion.

MOTION

Mr. Pardini moved that the rules be suspended, and Engrossed Senate Bill No. 2561 be placed at the top of today's second reading calendar.

The motion was lost.

The Speaker stated the question before the House to be the motion by Representative King to rerefer Engrossed Senate Bill No. 2561 to Committee on Appropriations.

Mr. Deccio: "Representative Shinpoch, can you tell us how early a hearing Engrossed Senate Bill No. 2561 will have?"

Mr. Shinpoch: "No, I can't do that, but I'm not sure that has any purpose to the matter before us."

POINT OF INQUIRY

Mr. King yielded to question by Mr. Deccio.

Mr. Deccio: "Representative King, may we have your best answer as to whether the majority caucus of this House plans to kill Engrossed Senate Bill No. 2561? Do you plan to have an early hearing in Appropriations? Are you waiting for the Governor to determine what she wants to do with that bill? Do you want to give her credit for it? I'm asking these questions because the districts over on the east side of the mountains are hard pressed for this action about seeding and I think because we do represent the entire state of Washington we should have early answers."

Mr. King: "Would you repeat the question?"

Mr. Deccio: "What are you going to do with the bill?"

Mr. King: "We are going to send it to the Appropriations Committee."

Representatives Clayton, Zimmerman and Hansen spoke against the motion, and Mr. Shinpoch spoke in favor of it.

Mr. Oliver spoke against the motion.
I

POINT OF ORDER

Mr. Boldt: "I feel that the representative is getting a little bit away from the motion and this issue is so important to me in my district that I think we should handle it post haste, get it into Appropriations, get it out here and do it right."

Mr. King moved that the House advance to the seventh order of business.

Mr. Pardini, having voted on the prevailing side, moved that the House do now reconsider the vote by which Engrossed Senate Bill No. 2561 was rereferred to Committee on Appropriations.

Mr. Pardini spoke in favor of the motion.

POINT OF ORDER

Mr. King: "Mr. Speaker, I don't believe he is speaking to the motion before us, which is whether or not the procedural motion should be reconsidered."

POINT OF INQUIRY

Mr. Barnes yielded to question by Mr. Leckenby.

Mr. Leckenby: "What happens when there’s an accident and it isn’t clearly evident as to who is at fault? They presently have some kind of a clause that says there may be divided responsibility, and maybe one participant is 75% at fault and the other 25% at fault. Does this help to clarify which one gets the car for ten days while their cars get fixed?"

Mr. Barnes: "First there has to be a determination of what the cost is if there was a loss and what the loss is, and then a determination of who is at fault. There’s two separate things there and, of course, if one person is 25% at fault the loss stands at 25% loss. This has nothing to do with the comparative fault type of conception. This only establishes or makes clear the conception that the person at fault—of course this includes the loss of the automobile along with all the other losses that have occurred in the same accident."

Mr. Leckenby spoke against the bill.

POINT OF INQUIRY

Mr. Douthwaite yielded to question by Ms. Becker.

Ms. Becker: "Representative Douthwaite, my understanding is that without this bill being passed, the person whose car is destroyed can still go to court and get some money for a vehicle during the time that they don’t have the use of their car, so this bill doesn’t change that, but what it does is sets a presumption that ten days is enough time to get a replacement vehicle, which strikes me as a little short if this person is working and doesn’t have enough money to go out and buy a car and they are having a battle with the insurance company anyway. It seems to me that this would make it more difficult for a person to get accurately compensated for their loss."

Mr. Douthwaite: "That would be a good point, but that’s what we dealt with yesterday, Representative Becker. If you read the contents of lines 13, 14, 15, it says, 'Loss of use payments under the foregoing provisions shall be limited to a period of ten days unless the court determines that a replacement vehicle could not have reasonably been acquired within that period of time.' You can go longer than ten days if it is a problem, and of course, I agree with you that it is a reasonable issue."

Mr. Douthwaite spoke again in favor of the bill, and Representatives Knowles and Deccio also spoke in favor of it.

ROLL CALL

The Clerk called the roll on the final passage of Engrossed Substitute House Bill No. 100, and the bill passed the House by the following vote: Yeas, 77; nays, 17; not voting, 4.

Engrossed Substitute House Bill No. 100, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

POINT OF ORDER

POINT OF ORDER

Mr. King: "Mr. Speaker, I believe that portion of Representative Flanagan's amendment dealing with section one would be out of order because it is beyond the scope and object of the bill. The bill itself deals with RCW 84.55.010 and this amendment deals with .020, .030, .040 and .050 and goes well beyond the object of the bill by repealing all those statutes."

GOVERNOR'S ENERGY ADDRESS

Governor Ray: "Mr. President, Mr. Speaker, honored members of the Judiciary, Senators, Representatives and my fellow citizens: The fact that a serious energy problem exists both in our nation, our state and on local levels is now obvious to everyone. The situation is far from simple. With eighty percent of our electricity hydrogenerated, our problems have been compounded by an unusually dry fall and winter. Given the extraordinary situation, we must take extraordinary measures. It is the policy of this administration to take every reasonable governmental action to insure that an adequate supply of energy is available at reasonable costs.

"The programs required to implement this policy are both short-term and long-term. Short-term programs include conservation and curtailment. Long-term programs also involve conservation, but additionally they involve improved uses of our present energy and development of new sources.

"Please note at this point the distinction I make between conservation and curtailment. Good conservation means living just as comfortably but using less energy because of higher efficiency. Insulation of homes and buildings is a prime example of a good conservation measure.

"Curtailment, on the other hand, involves some hardships or sacrifice on the part of certain sectors of our population to reduce the amount of energy used and, therefore, make our available energy supply go farther while still maintaining overall public health and safety.

"In general, conservation is preferable to curtailment, since the advantages gained by conservation are relatively long term, can create jobs, slow the growth of dependence on uncertain or unpredictable energy sources (such as weather and oil exporting countries), slow the rate of increase in energy prices, lower personal energy costs, and free up energy to be used by interruptible industrial customers.

"Curtailment is only a short term solution. Too often it results in the loss of jobs—as for example, right now in the aluminum industry—while not permanently freeing up more energy for industry, much less for economic growth. But in special circumstances, like the ones we face today, curtailment is necessary.

"With reference to the situation here in the Pacific Northwest, Secretary of the Interior Cecil D. Andrus has stressed: 'This is not another energy shortage. It is definitely a water shortage. By saving hydroelectric power, we can save water, which is vitally needed for irrigation of cropland, for orchards and vineyards which produce a significant portion of this nation's fruit, for municipal and industrial use in many cities, and for the stream flow necessary to perpetuate the anadromous fishery resource.'

"Recognizing then the precise nature and extent of our problem, what sort of executive action has been taken? As of last Friday, we issued a statement calling upon the utilities to intensify their conservation programs and to institute programs to inform their customers better of conservation measures that can be taken by all individuals, by organizations, by business, and by industry. I also asked the utilities to monitor these programs, setting specific goals, to
keep a current file of progress, and to report to me. We also made a general appeal for all citi­zens of the state to engage in conscious, deliberate, individual efforts to conserve energy and water.

"Second, we have appointed an ad hoc executive committee on water emergency. This represents a number of departments of the executive branch, including Agriculture, Fisheries, Ecology, General Administration, and Department of Social and Health Services. We will also ask for participation from Natural Resources. The committee will meet for the first time tomorrow; it has been directed to develop an overall state program for water management and water resource development to keep an accounting of the current status of water supplies. The committee will provide for liaison with various federal entities and will provide for private citizen input. In addition, the committee's activities will be coordinated with programs in the neighboring states of Oregon, Idaho and Montana.

"Yesterday, February 15th, I was invited by Secretary of the Interior Andrus to attend a special regional governors' meeting in Denver this coming Sunday. Governors from the west, the southwest, and the midwest have been invited to discuss various federal remedies for the current drought situation. I hope to seek all possible avenues of relief available from the federal government.

"In addition, I look forward to the cooperative program of working with my fellow gov­ernors in our region. Yesterday I issued an executive order binding on all state employees. It laid out requirements based on recommendations from the Director of the Department of General Administration which will substantially reduce energy consumption in the State Capit­ol buildings. This is just a first step. I have also requested that similar studies be done on all of our public state institutions of higher learning, at all office buildings owned and leased by the state government, and all government buildings throughout the State of Washington so that similar conservation measures may be proposed and put into effect in them.

"For the Capitol campus alone, the savings indicated by the procedures already set in motion will amount to about five thousand dollars a month. This represents a 5.54% savings in lighting and use of electricity, and it involves a 256,955 kilowatt-hour reduction and a 6% reduction in heating, including utilization of the mechanical and ventilating equipment.

"I expect that similar savings in both heating and electrical use can be made across the state. An example of action taken by other departments in the executive branch is that of the Department of Fisheries, which continues to study the possibility of reducing fishway flows on the Columbia and Snake Rivers. This will be undertaken in joint action with similar depart­ments in the states of Idaho and Oregon. It will also be coordinated with federal programs. We will continue to monitor programs of fisheries activities in all of these areas so as to minimize any possible effect upon the fisheries resource, while maximizing the savings of water.

"Moreover, the Department of Social and Health Services has already initiated a study examining the communities, cities, towns and localities around the state which either suffer from some imminent shortage in their potable water supplies or face shortages in the coming spring and summer.

"Additionally, we are examining the situation with respect to lighting of our interstate highways, and may ask for reductions back to the 1973 levels. I am asking the Washington State Patrol to enforce vigorously the 55 mile per hour speed limit. We are reexamining the situation concerning use of state automobiles and the motor pool and are urging carpooling under all possible circumstances. We may reinstitute the shuttle bus program which operated for a short time during the 1973 electricity emergency.

"I have asked the Adjutant General of the Washington State National Guard to survey the availability of water tank trucks that could become available to move water supplies in the case of a crisis in drought-stricken areas. He will report to me on the cost involved, the availability of such equipment, and the nature of support the Guard may be able to provide. This is one aspect of the water shortage that so far has not received much public attention. Ground water sources in some areas are receding, shallow wells are drying up, streams are at very low levels of flow, and the water resources for many cities and towns are now imperiled. We must work with cities that face water shortages.

"A report from the Department of Social and Health Services indicates that Bremerton, Sequim, Camas, Goldendale, and Long Beach are among cities facing critical water shortages for domestic, as well as commercial, use in the approaching months. Other cities will face similar problems soon if the drought is not broken. All of these activities will be coordinated by our Department of Emergency Services.

"At the same time we will continue to appeal to all citizens throughout the state to intensify their efforts in voluntary curtailment and reduction in the use of electrical energy. I must
refer once again to the fact that 80% of our electrical energy comes from water sources and, therefore, all savings of electricity will have a ripple effect in saving water. It is the drought that is the basis of our current problem.

*In addition to the actions taken by the executive branch, we recognize full well our responsibility in working with the legislative branch and the many actions that are called for, both to encourage voluntary conservation measures at present and to have the authority available for possible mandatory measures later. We have requested a number of pieces of legislation. I am asking emergency powers in order to solve some of the problems that may intensify if the drought continues. We must work together and we must be able to act quickly. Included in the emergency power bill is a request to reexamine the Energy Technical Advisory Council and perhaps make it statutory so it can be available to provide technical advice and oversights on all energy measures.

*I have also requested legislation to upgrade the state's Energy Office, which has been seriously hampered by statutory and budgetary insufficiencies resulting from selective vetoes in the past. The Energy Facility Siting Evaluation Council also needs upgrading legislation. This vital body needs to have the additional statutory clarification regarding its procedures and funding methods, and these are in the legislation I have requested.

"Legislation which may become useful or necessary—not requested at the moment, but something for us both to be thinking about—will refer to areas of the state hardest hit by the drought. The most critical area is the Yakima Valley. The situation indicates that the growers, the orchards, the farmers in that area may receive no more than about six percent of their annual amount of water. This would be catastrophic, and, in fact, would result in the death of many of the trees in that important orchard area.

"The one bright spot in an otherwise rather widely dismal picture with respect to water is the Columbia River. Because of the very wet summer of 1976 and a good snowpack farther north in the Canadian Cascades, the flow of the Columbia is nearly normal at present and therefore is providing us with a reservoir from which we may be able to draw in this emergency situation.

"Most of you are well informed about various irrigation and engineering projects developed in the past and studies of the feasibility of moving water out of the Columbia and into other regions. Now we should take a critical look at some of these plans. Consider, for example, the plan proposed for the Roza irrigation district, which services a large part of the Yakima Valley. It could be put into effect quickly. Water could be moved perhaps by making use of existing pumps at the Hanford Reservation—pumps at the reactor site not now being used. We could make use of surplus pipe from the Alyeska project, which could be acquired quickly. We could lay the pipe then from the Columbia across Union Gap, and then into the Yakima area. It might be done quickly and by June. It would remove only about one percent of the Columbia River flow, and it would get water into the Yakima Valley.

"If this were to be done it would make a tremendous difference to the growers of that region and perhaps save an enormous part of our fruit industry. If water does not come, the apple, the soft fruit trees will die, and it would taken seven to ten years to put those orchards back into production. The cost will be high if that project and several others proposed were to be undertaken as emergency measures to relieve the drought. The total cost could go as high as $50 million, but it would be insignificant compared to the enormous economic impact that could result from the loss of those food crops. The farmers in the region are willing to help pay a fair share of the cost through higher irrigation assessments, but they need our help. They will need long term loans and perhaps even some grants.

"I know the Legislature and the people of this state are not willing to turn their backs on the drought stricken area and the men and women who have spent a lifetime putting food on our tables. I urge the Legislature to consider these projects seriously. The engineering has already been done. They will make it possible to move water into the central part of our state for the next few months.

"Another proposal under discussion is the possibility of increasing water supplies in drought areas by cloud seeding. We will explore the possibility of such a program, but it should be recognized that seeding projects bring many uncertainties and not a few dangers. In the first place, making rain by cloud seeding or causing snow to fall in the higher elevations, is a little bit like making duck soup. First you must catch the duck. In the case of cloud seeding, you must first have the clouds. That has been a problem so far in the drought—no clouds. Furthermore, once you have clouds, they must be of the right kind and they must be seeded at the right time. It is not a simple process. The results of previous experiments cast doubts on the efficacies of the procedures. Under the very best circumstances the best that has been obtained
by these methods under the most favorable circumstances is an increase of ten or fifteen per­
cent over expected rainfall.

"Even so, such a drastic long shot emergency measure may be reasonable to undertake. I
would caution that serious consideration also be given to the real problems of environmental
impact. Whereas we may set aside our state requirements for environmental impact state­
ments, we must ask whether we can similarly set aside the national requirements. We also
must look into the very real possibility of liability and lawsuits. Even the discussion of cloud
seeding has brought us warnings from Idaho and Montana that we might be subject to lawsuit.

"In another area, I note with satisfaction that H.B. 98 establishing heat loss standards for
new construction in private dwellings, passed the House unanimously last Friday. I hope the
Senate will give immediate attention to this bill and that it will soon become law. Further, I
hope a way can be found to adopt similar statutory requirements or standards regarding insu­
lation, lighting, and so on to cover commercial construction. This may require some legislative
action that may be difficult to take, but if we succeed it will put us in conformity with require­
ments from the Federal Energy Administration and in line for assistance from federal sources.

"Generally speaking, I believe, as I am sure all of you do, that incentives are better than
orders. Thus, I pledge to work with you in developing appropriate incentives for homeowners
and for business and industry to increase their energy efficiency. Favorable tax treatment can
sometimes make the difference in whether people invest in efficiency improving measures. We
must be certain, however, that such measures as tax incentives, while beneficial to the state, do
not seriously jeopardize our tax revenues and thus undermine the very programs they fund. I
will leave that problem for you to resolve.

"Turning again to the question of hydroelectric generation, let us look at the possibilities
of pumped storage. For years we have considered hydroelectric power as the never ending
source of energy for our state. In doing so, we have overlooked the kind of savings that would
result from pumped storage after the water has worked to generate electricity. It could be
pumped back up into the higher elevation and reserved for future use, for generation of elec­
tricity, for irrigation, and, of course, for recreational use, too. We can no longer afford to
ignore the possibilities of pumped storage. The drought and our growing reliance on thermal
power plants make pumped storage a necessity. I urge that both private and public utilities
move ahead on plans to provide the capability and as many locations as possible.

"Hindsight often provides great wisdom. We look now at the plan, once developed but
turned down, of the Chelan County Public Utility District. If that plan were in operation
today, the pumped storage that would have been available could have provided peak-period
electrical generation equivalent to that generated by the Grand Coulee Dam before the third
powerhouse was put into operation.

"We also note with interest that investor-owned utilities have undertaken through their
own initiative, a program of assisting homeowners to insulate their private dwellings and to bill
them on a monthly basis so as to reduce the necessity for large capital output. I would encour­
age you to examine whether the Legislature might take steps to make it possible for public
utility districts to do the same thing. I realize that this type of action might require a constitu­
tional amendment, but it is a possibility well worth examining.

"In all of these actions, the Legislature must have a continuing and ongoing interest. I
understand that bipartisan support exists for the creation of a special legislative oversight
committee to coordinate both House and Senate activities in dealing with the current water
shortage and to provide for a more constant daily interaction between the executive and the
legislative branches. I would hope that you would look favorably on the creation of such a spe­
cial oversight committee. We would pledge to work closely with it.

"Let us turn now to the long term problems and take a look at the future. We must work
together. We are privileged to have one of our own Senators occupying a position of such
importance in the Senate of the United States as Chairman of the Energy and Natural
Resources Committee. We have pledged to work closely with Senator Jackson in this regard.
His new position and his vast experience in the field of energy will be well utilized by this
administration, and it will be extremely helpful to all the citizens of our state.

"As we look into the future, conservation is, and must be, a continuing way of life. I
encourage all citizens adopting conservation measures in excess of anything we have so far
done to look upon them as permanent. We want to emphasize again such measures as weather
stripping, insulation, and adopting standards of efficiency in heating and lighting for all new
construction. We should encourage the research that is going on with fuel-saving appliances
and seek increased efficiency in all types of structures we use in our technological society, from
automobiles to household appliances. We should look to state purchasing procedures and make sure we stress the importance of finding the most energy efficient equipment.

*The state's purchasing powers are great; they can have a considerable influence on the development of better energy saving pieces of equipment by providing an assured market. We would hope that through such actions and through encouragement we would soon see the emergence of many more energy efficient machines, including, we trust, even the development of a lightweight electric car that would have a high density, long lasting storage battery.

*Conservation is essential. We must practice it, but we must hope also that curtailment, such as we face right now, will be necessary only in the short term, because we need to use energy to keep our economy strong. Energy underlies all economic activities. It is energy that makes the world go 'round. Energy turns the wheels of industry as well as the wheels of transportation. Energy is required for the growing and the processing of all foods. It is required for the manufacture and distribution of all goods. It is required in all commercial, in all civic, in all domestic activities. Energy underlies the possibility of jobs, and we must face a growing economy, a growing opportunity for jobs in this state lest we ask all of our young people to move someplace else to find employment.

*We must have a strong economy. In order to maintain it, we must use our energy resources, but we must use them wisely and well. As we face the need for increasing jobs and improving the economy, we must look to the development of additional energy sources in the future.

*Energy means fuel, as well as electricity. How do we stand in this situation in Washington State today? Let us look at our fuels. First, natural gas. We are fortunate. Our present situation and our outlook for the future in natural gas is good. Even though we do not have endemic sources of natural gas in this state, our natural gas companies have enough on hand and in secure storage to meet new home construction needs. There is provided a substantial summer storage capability for winter use. Our natural gas companies have firm contracts with Canadian supplies lasting until 1989.

*Because of our favorable situation with respect to natural gas, it was possible in this state—without asking citizens to lower their domestic use of natural gas and only by asking interruptible customers to shift to their alternate fuels—to provide natural gas out of storage that could be put into the pipeline and pumped east to help relieve the natural gas shortage in the eastern part of our country. Gas from this state helped to supply enough heat for about 70,000 to 80,000 homes during the worst of the cold weather last month. But favorable as our natural gas supply situation is in this state, we must not waste it.

*With regard to petroleum, we begin to look at a fuel which seems now to be embroiled not just in heat, but in emotion. While it is possible to speak rather rationally about natural gas, it is difficult to mention the word 'petroleum' without raising a considerable amount of emotion. Petroleum is the lifeblood of our economy. Our number one priority is to be assured that crude oil supplies continue to get to our refineries.

*We are fortunate in the State of Washington that since 1950 we have had refineries that have provided all citizens of our state with oil products without long transportation lines and at a reasonable and competitive cost. If we did not refine oil in our state, we would have to import all our oil products—gasoline, fuel oil, diesel, and all of the other many, many petroleum products upon which our economy is based. The transportation of refined products carries with it risks far beyond the risks of the transportation of crude oil. Moreover, the only way to bring into this state the large amounts of gasoline and refined products we would need if our refineries were not operating, would be by ship, and if there were to be an accident and a spill—remember that the spilling of refined oil would cause far more ecological damage than the spilling of crude oil. None is good, but we must look at the whole picture.

*Our number one priority must be to assure that our own state refineries continue to receive their crude oil and the refined products then reach our state residents. Most of our crude oil in recent years came by pipeline from Canada, but this supply is no longer available. Consequently, our refineries can be supplied only by ship. They have been receiving tankers since 1950. It is clear that now and in the future tanker traffic will need to increase.

*Bringing crude oil in to refineries by ship raises the question of how it can best be done. First let me say that this administration supports strongly the measures discussed recently by Senator Magnuson and Transportation Secretary Brock Adams for bringing about new rules and procedures and regulations to assure increased tanker safety. They would increase the safety measures which are built into the ships, strengthen regulations under which they operate, improve the training of the crews, improve navigation standards and the navigation aids, allow for very much better traffic controls, upgrade the Coast Guard and provide it with the
resources and the appropriations for its enlarged responsibilities. If we do all of these things, it
is my conviction that we can tolerate increased ship tanker traffic on our waters while mini-
mizing the risk of accidents.

"While it is in one interest to get crude oil to our own refineries, we must also remember
that Washington is not a state unto itself. Just as our citizens responded and our private com-
panies and our government responded to sending natural gas to our states lying to the east of
us, we must also seriously examine whether we have some responsibilities to the rest of the
country in assisting to transship Alaskan crude oil from the west to the midwest and the east.
In ensuring that our own refineries receive crude oil, in trying to do everything we can to
relieve the dependence of our nation on foreign sources of oil, we should bend all our energies
to getting the Alaskan crude to our refineries. We should seek to make it possible for those
refineries not now capable of using Alaska crude, to do so in the future. Not only is that sensi-
ble with respect to assuring an independent oil supply; it has a secondary effect that is benefi-
cial, inasmuch as Alaska is part of the United States. It means that the movement of oil out of
Alaska into this state will be covered by the Jones Act, and that means that the oil will be in
American vessels built in American shipyards, flying the American flag and operating to
American standards that will make it easier to be sure we control and reduce risks to the min-
um. Once oil reaches our shores the question is: How do we get it to the refineries and how
do we get it to the east, if that is to be an important part of our function? A number of plans
have been proposed. One which has been discussed extensively would offload oil at Port
Angeles, then continue to pump it into a storage area about ten miles south, thence into a
pipeline which would be constructed around the entire Puget Sound going up the eastside and
finally eastward across country to the Middle West.

"While there seems to be some considerable support for an offloading facility at Port
Angeles, the questions with respect to the storage area and the pipeline around Puget Sound
have not been publicly discussed as yet with all the attendant questions that need to be exam-
ined concerning the environmental impact of such a pipeline. Where will be the right—of—way?
What happens with all of the rivers and streams the pipeline must cross? Will it be above them
or underneath? In addition, the pipeline has to be heated to an average of 40° in order to carry
the thick Alaskan crude and make it flow. Where do we build the pumping stations and heat-
ing stations? What about the various watersheds, particularly the extensive watershed for the
potable water for Tacoma and Pierce County, Seattle and King County, that the pipeline
would have to cross?

"As we look upon these things, we must recognize that important as our technology is and
as important as it is to use the very best technology available, it is never perfect. In the year
1975, 76% of all oil spills came from pipelines. So we have to think very, very seriously about
where pipelines go and what the environmental impact may be.

"We should also examine the economics. Construction of such an enormous pipeline
around the entire Puget Sound Basin would not only be costly, but time consuming, and time is
getting short. Petroleum supplies must come from Alaska and must get to refineries. If the
pipeline around Puget Sound were to supply only our own refineries, the cost would be enor-
mous, and the cost of the refined products would probably be beyond our ability to support.

"It is worthwhile to reexamine our attitudes with respect to tanker traffic; to look soberly
and objectively at what can be done with vessel traffic control systems, improved tanker con-
struction and operation, and to recall that even though we do not accept large tankers in the
inland waters of Puget Sound at the present time, Canada does. Large tankers carrying oil
move up Haro Strait past the San Juan Islands into refineries north of Vancouver. It is also
possible, with a good vessel traffic control system, to have one—way traffic, moving tankers
loaded with oil, as they are now going to Canadian refineries, northward up Haro Strait and
returning if they visit our refineries at Ferndale and Cherry Point, returning in ballast with a
water cargo down through Rosario Strait.

"There are many things that could be examined unemotionally and looked at as to the
possibilities of the much more economical means of moving the oil directly to where the refin-
eries are. Were that to be done, the economics, as well as the environmental impact of utilizing
an existing pipeline which stretches eastward from Cherry Point, may have some real attrac-
tion. The existing pipeline has brought oil from Canada to the Canadian and American refin-
eries in our state. The oil has flowed from east to west. The pipeline is there, and with the
simple expedient—yes, some cost is involved—of rebuilding the pumping stations with revers-
able pumps, the oil could flow in the opposite direction just as readily. The economics and the
ease of utilizing an existing pipeline could make it possible to receive and transmit oil years
earlier and at far less cost than any of the other alternatives now being discussed. It is quite
possible—and discussions have been going on recently involving the Trans-Mountain Pipeline Company which owns the right-of-way and the pipeline—that some east/westward flow of Canadian oil might be continued and that we might add to the pipeline the eastward flow of Alaskan oil. Refineries use a blend of Canadian and Alaskan oil that would reduce the amount of refitting needed in the various refineries.

*It is a plan that merits careful examination.

*With respect to tanker traffic, we should also be conscious of the fact that the smaller tankers tend to be the older ones and the ones flying flags of convenience. When we consider tanker traffic, we ought to remember that a smaller number of larger vessels may, in fact, bring better traffic safety than a larger number of smaller vessels.

*Finally, we must never forget that every ship carries oil. World trade, commerce with the rest of the world, is one of the most important parts of our economic well-being. This state, through its ports, moves goods in world trade. All those ships carry oil. A modern cargo vessel carrying bulk cargo such as grain, loading at the Seattle or Tacoma facilities, carries as much oil in its fuel tanks as a 'supertanker' of twenty years ago. In 1950, the largest tankers afloat were the Navy tankers of World War II, and they carry just about as much oil as the modern cargo vessel carrying bulk cargo or container cargo.

*We must use our existing fossil fuel supplies to keep our economy strong while we look to diversifying and developing other fuels and other energy sources. What are our prospects there?

*We have coal in this state. The readily mineable coal is being used to fuel a thermal power plant in Centralia, which produces about 1,400 megawatts of electricity. Unfortunately, most of the other coal supplies are in the Cascades and very expensive to mine, but their very characteristics make them good candidates for the possibility of development of a new technology of underground coal gasification. This technology is in its very early stages of development, but it would be worthwhile for experimental development of some type to take place in some of those seams so we can see whether the underground conversion of coal to more readily usable and cleaner gas might be profitable.

*Already in this state and others, a certain percentage of electricity comes from nuclear power plants. I support the construction of nuclear power generation as another addition to our power source. The people of this state indicated their support of nuclear power in rejecting the initiative that was on the ballot last November by a vote of almost 2 to 1.

*We have had electrical power produced by the N reactor at Hanford for many years. This old workhorse pumps 850 megawatts of electricity into our system. The plants already under construction at Hanford will add another 2,000 megawatts. They have suffered a number of different kinds of delays, and I would hope very much that a recognition of the need for increased capacity for electric power would speed the construction of these plants. All due consideration must be given to the rules and regulations and the safety precautions which are in place and are insisted upon both nationally and in our state.

*With regard to the two other plants, at Satsop and Skagit, plans for which have been approved by the previous administration, I support their construction and trust that they will move ahead on line to begin supplying us with electricity in the next decade. If these things all move ahead, we will have 7,000 additional megawatts of electricity toward the end of the decade of the 1980's. That would be a remarkable advantage we would have over many other states.

*For those who fear nuclear power plants are not reliable, let me call attention to the proof provided in the recent cold spell in the east. The city of Chicago and surrounding areas were hard hit, as hard as any other place, but there was not one single interruption of electrical power save for one day during the entire cold spell when interruptible customers were asked—interruptible only—to cut back on electricity because the last remaining coal plant had broken its conveyor belt. All the coal for the coal-fired plants had frozen and coal supplies were hard to get.

*The Commonwealth Edison Company was unable to operate most of its coal plants, but its seven nuclear power plants (Commonwealth operates more nuclear power plants than any other utility in this country) ran full tilt during the entire cold spell, generating 50% of all the electricity used throughout the Chicago region. They did it all during 1976, too. During 1976 they produced 24 1/2 billion kilowatt hours of electricity. That amounted to money savings of $200 million to residents. Had those seven nuclear power plants been burning coal, they would have cost $200 million more in fees. Had they been burning oil, it would have cost their ratepayers $500 million more for that one year.
"Operating those seven nuclear power plants saved 13.7 million tons of coal and 43 million barrels of oil.

I support nuclear power as a safe, dependable, additional source of electricity, and I trust that the plans already underway in this state will move ahead. We are fortunate also to have the Trojan plant nearby. Its additional generation of electricity will be of great assistance during this drought condition.

Overall, in this state, we must recognize that we have to end for all time our nearly total dependence upon petrochemicals as fuels and hydropower as our major source of electricity. We must diversify not only our electrical supply resources but also all of our energy resources. We must not be misled into the simplistic thinking that we can stop using petroleum and use something else instead. No, we will gradually phase down the uses of petroleum, as we phase in other things.

We must never again in this state, in our nation, in our society, have almost total dependence on any one energy supply. Hence, as a state, we must encourage diversification and, where appropriate, encourage the development of additional energy supplies wherever appropriate for whatever increment they can add.

There is no way in which we can turn to geothermal energy to serve most of our needs. We should, however, develop geothermal energy in the eastern part of our state in the several different areas where hot water is available within drilling distance of the surface. The hot water is about 120° to 150° degrees in temperature—that's just right, not for making electricity, but for use by the food processing industry. We must learn to make use of windmills where appropriate. Windmills don't generate electricity very well, but they are awfully good at pumping water. I spoke earlier of pump storage, it could be done, since it doesn't have to be done on a continuing basis, but could be done intermittently and could be done by modern, well developed high technology windmills.

In the Evergreen State we should look more to utilization of our plant materials. We have a forest products industry of high capability. Nevertheless, in our logging industry there are many pieces and bits of trees that go unutilized. We can make use of this material, not only as pellets for additional fuel, but we can examine it for conversion into liquid or gaseous fuels—wood alcohol, for example. We must consider that one organic resource which above all we waste more than any other: Human sewage, sludge. Unpleasant as the subject seems to be, it's a resource waiting to be used for conversion into methane gas or liquid fuels, and we should lend all of the help we can to assist communities install conversion plants to utilize sludge for energy purposes.

Moreover, important studies are going on. The Battelle Memorial Institute in Richland is looking into the possibility of growing plants for the purpose of converting them into energy. Certain microscopic plants already finely divided could be grown as feedstock into an industrial plant that could convert the material into methane gas or methanol. These studies are all in the very early stages of development, but making use of plant materials in a variety of ways to add to our fuel and energy supplies is a way of diversifying and making use of things not now being used.

We cannot ignore the possibilities of greater use of solar energy. As a lifelong native daughter of the Puget Sound area, I have always had my doubts about solar energy on a year round basis; however, east of the Cascades we are blessed with sunshine and there we can find many ways to assist in the development of solar heating and solar cooling. We can participate in some of the experimental activities now going on to try to improve the capability of converting the sun's rays into electrical supplies.

No one thing is going to do the entire job, but every little bit helps and that is how we must plan. In conclusion, the shortage of 1977 is clear. It is, we hope, temporary. Since most of our electricity today is generated by falling water and most of our water comes from snow, we must take extraordinary measures now because our mountains have little snow. But looking into the future the economic impact of the current drought is almost incomprehensible. We should take every measure we can, even with extraordinary engineering projects. We should try to relieve that shortage where the drought is the worst.

If we do not do these things and if the drought continues without relief, information compiled from our state agencies indicates that by the end of December it could cost us more than $2.5 billion in agriculture and industrial production losses. It is worth an investment to do all that is humanly within our power to relieve the drought. If we do not, more than 120,000 could lose their jobs from water-related stoppages alone.

These are only estimates, but they are an indication of the possible impact of our present and critical situation. In the longer view we must work to improve our conservation while we..."
improve our uses and develop new energy resources. Positive action, both short term and long term, by the executive and legislative branches of this government will be in the best interests of the people of our state and will reduce the human and financial impact of an increasingly critical situation."

POINT OF INQUIRY

Mr. Smith yielded to question by Mr. Pardini.

Mr. Pardini: "Representative Smith, the question of marital status—have you checked that with the Human Rights Commission and can they not enforce any complaints involving the marital status?"

Mr. Smith: "At least once the court has ruled that they cannot use their agency functions to enforce marital status complaints. It has not been ruled on by any Court of Appeals, however. I believe that they are acting to enforce marital status under their own interpretation of their authority, which I think is valid, but there is this question raised by the omission of these words in this one section."

The Speaker (Mr. O'Brien presiding) declared the question before the House to be the Point of Order raised by Representative King on the amendment offered by Representative Flanagan.

SPEAKER'S RULING (MR. O'BRIEN PRESIDING)

The Speaker (Mr. O'Brien presiding): "The Speaker rules that House Bill No. 130 is in a very narrow vein which is exempting fire districts from the application of the 106% limit. The amendment by Representative Flanagan places before us a referendum on the ballot to repeal all of the 106% limit law. On the basis of that, it seems to the Speaker that this amendment might well be within the title, but it considerably broadens the subject matter of the bill. Therefore, the Speaker rules that the point of order is well taken and the amendment is out of order."

House Bill No. 130 was passed to Committee on Rules for third reading.

HOUSE BILL NO. 230, by Representatives North and Lee (by Parks and Recreation Commission request):
Revising the penalty for a winter recreational parking violation.
The bill was read the second time.

The Clerk read the following amendment by Representative Martinis:
Following line 4 insert a new section as follows:
"Section 1. Section 2, chapter 209, Laws of 1975 1st ex. sess. and RCW 43.51.300 are each amended to read as follows:
The fee for the issuance of the special winter recreational area parking permit for each winter season commencing on October 1st of each year shall be five dollars annually ((, unless the person making application therefor is also the owner of a snowmobile registered pursuant to chapter 46.10 RCW, in which case there shall be no fee for the issuance of the permit)). All special winter recreational parking permits shall expire on the last day of September following the issuance of such permit."
Renumber the original section I as "Sec. 2."

POINT OF ORDER
Mr. Flanagan: "Mr. Speaker, I believe this amendment is beyond the scope and object of the bill."

SPEAKER'S RULING (MR. O'BRIEN PRESIDING)
The Speaker (Mr. O'Brien presiding): "It appears that the decision is going to rest with the body as to whether or not this amendment is consistent or compatible with the original bill. It appears that it is broad enough to include the amendment although it is placing snowmobiles in the same category as other vehicles in recreational parking."

POINT OF ORDER
Mr. Newhouse: "Mr. Speaker, I must protest these unequal rulings on points of order. I'm going to refer you to the ruling you made earlier today on Mr. King's objection to Mr. Flanagan's amendment and the entire amendment was in the same chapter—84.55 RCW. Now with Mr. Martinis' amendment—just because he happens to be a Democrat—you enter into RCW 43.51 when the original bill was RCW 46.61. I think that the Speaker should make rulings equal to both parties."

SPEAKER'S RULING (MR. O'BRIEN PRESIDING)
The Speaker: "It's like comparing apples with oranges. The first amendment you were questioning about would change the whole concept and place a referendum basis on material items. In the instant case it doesn't appear to be that material."

With the consent of the House, Mr. Martinis withdrew the amendment.
House Bill No. 230 was passed to Committee on Rules for third reading.
SUBSTITUTE HOUSE BILL NO. 323:

The House resumed consideration of the bill on second reading.

Mr. Berentson moved adoption of the following amendment:
On page 6, line 2 add a new section following section 13 as follows:

"NEW SECTION. Sec. 14. The supervisor of banking or the supervisor of savings and loans, upon a complaint by a loan applicant, shall have exclusive jurisdiction to determine whether an unfair practice as defined in section 12 of this amendatory act has been engaged in by a financial institution under its jurisdiction."

Renumber the remaining sections consecutively.

Mr. Pardini moved adoption of the following amendment to the Berentson amendment:
On line 5 strike "under its jurisdiction" and insert "as defined in section 11 of this amendatory act"

Representatives Pardini and Berentson spoke in favor of the amendment to the amendment, and it was adopted.

The Speaker (Mr. O'Brien presiding) stated the question before the House to be the amendment by Representative Berentson as amended.

Mr. Berentson spoke in favor of the amendment, and Mr. Eng spoke against it.

POINT OF INQUIRY

Mr. Berentson yielded to question by Mr. Douthwaite.

Mr. Douthwaite: "I would like to know how many complaints have the Supervisor of Banking or the Supervisor of Savings and Loan received in the past biennium and how many times have they ever interceded on behalf of the complainant?"

Mr. Berentson: "I'm told none."

Mr. Douthwaite spoke against the amendment as amended.

Mr. Charnley demanded an electric roll call and the demand was sustained.

Representatives Knowles, Hurley (Margaret) and Lee spoke in favor of the amendment, and Representatives Sommers, Burns and Lux spoke against it.

Mr. Berentson closed debate, speaking again in favor of the amendment as amended.

ROLL CALL

The Clerk called the roll on adoption of the amendment by Representative Berentson as amended to Substitute House Bill No. 323, and the amendment was not adopted by the following vote: Yeas, 40; nays, 54; not voting, 4.

Not voting: Representatives Bond, Chandler, Schmitten, and Mr. Speaker.

Mr. Deccio moved adoption of the following amendment:
On page 4, line 20 strike "chapter" and insert "act"

Mr. Deccio spoke in favor of the amendment, and Mr. Eng spoke against it.

The amendment was not adopted.

Substitute House Bill No. 323 was ordered engrossed and passed to Committee on Rules for third reading.

WHEREAS, The Washington State Utilities and Transportation Commission has heretofore been mandated by the superior court of the State of Washington to restrict the misuse of benefits flowing to utility companies by reason of charitable contributions; and

WHEREAS, The Washington State Utilities and Transportation Commission has disregarded both judicial decision and the precedents of tax law in dealing with the charitable contributions of utility companies by recently allowing substantial benefits to telephone company owners, which benefits are unobtainable by the individual wage earner; and

WHEREAS, Customers are the ones who should receive the tax deductions or credits for the money that the companies give as charitable contributions to foster community relations; and

WHEREAS, There is a gross inequity when the Utilities and Transportation Commission permits a utility to claim contributions as a cost of doing business while an individual or other business may take only a standard tax deduction after paying contributions from salary or business income;

NOW, THEREFORE, BE IT RESOLVED, By the House of Representatives of the State of Washington, That the Washington State Utilities and Transportation Commission be commended for any other action that it might take to encourage charitable contributions but that it be admonished for its discriminatory treatment in favor of utilities in recently allowing certain utilities to escape both the cost and the tax consequences which would be the responsibility of the stockholders of any other form of company making charitable contributions.

BE IT FURTHER RESOLVED, That the Chief Clerk of the House of Representatives transmit a copy of this resolution to each member of the Utilities and Transportation Commission.

MOTION

On motion of Mr. King, House Resolution No. 77–11 was referred to Committee on Energy and Utilities.

WHEREAS, House Concurrent Resolution No. 15, introduced on February 7, 1977, with bipartisan sponsorship, recognized that the Northwest faced the potential of the worst water shortage in its history; that water was vital to the maintenance of our agricultural industry, electric supply and jobs, that the shortage is critical and a present emergency exists and urged the Governor to take immediate emergency action in concert with the State Energy Advisory Council and plan to avert the crisis and implement conservation measures; and

WHEREAS, House Bill 783 introduced on February 14 would establish the emergency powers identical to the 1973 powers granted by this Legislature and House Bill 772 introduced on the same date would reestablish statutorily the State Energy Advisory Council and strengthen the Governor's emergency powers under RCW Chapter 43.21G; and

WHEREAS, House Concurrent Resolution 15 has not been acted upon in the House Energy and Utilities Committee and there is no indication that action will be taken by the Committee in the immediate future on the resolution or House Bill 772 and House Bill 783; and

WHEREAS, On this date, Governor Dixy Lee Ray recognized that a severe water shortage exists and urged the Legislature to grant her the same powers as granted to the Governor by the Legislature in 1973 and enumerated a number of other specific proposals for action;

NOW, THEREFORE, BE IT RESOLVED, By the House of Representatives of the State of Washington, That the Energy and Utilities Committee of the House immediately schedule for consideration and action all bills now before the Committee dealing with this emergency crisis and report to the House on the earliest possible date when such hearings and executive sessions will be held.

BE IT FURTHER RESOLVED, That Governor Dixy Lee Ray be lauded for recognizing the crisis at hand and assured that the Legislature stands ready to grant her the necessary emergency powers to accomplish the task of alleviating the present and anticipated crisis relating to the 1977 drought.

BE IT FURTHER RESOLVED, That Governor Dixy Lee Ray be urged to immediately request that President Jimmy Carter declare Washington State a disaster area so federal emergency funds can be available to assist in the alleviation of the irrigation water shortage in Eastern Washington.

The Speaker (Mr. O'Brien presiding): "Mr. Charette, I want to know the basic reason why you want to remove this bill from this committee to another committee that doesn't have jurisdiction over this subject matter.'

Mr. Charette: "Mr. Speaker, I, like you, learn by listening. A few years ago when you were here, you appreciated the remarks that were made by the Honorable Warren Magnuson when he visited with us, and his comment was, that if you have the votes you don't need a speech and if you need the speech you don't have the votes.'

Representative Hurley (Margaret) spoke against the motion.

SPEAKER'S RULING (MR. O'BRIEN PRESIDING)

The Speaker (Mr. O'Brien presiding): 'Reed's Rule 225 states in part, 'The duty of the presiding officer in cases where debate and parliamentary motions are employed to create disorder and impede business—the presiding officer should pay close attention to the debate, so as to be ready at all times to interpose for the preservation of order.' In my opinion, this is a frivolous motion, but I'm going to put it.'

Representatives Polk and Lysen spoke against the motion.

POINT OF ORDER

Mr. Berentson: "Representative Lysen is impugning our motives in introducing a meritorious piece of legislation in the form of the resolution. That resolution spoke to some very important issues that are before us: Emergency powers—"

POINT OF ORDER

Mr. King: "Mr. Speaker, the motion before us is the rereferral of the bill that is in Parks and Recreation Committee, not the resolution, and his remarks are not germane.'

The motion was lost.

STATEMENT FOR THE JOURNAL

ALEX DECCIO, 14th District.

Not voting: Representatives Bond, Chandler, Enbody, Keller, Lee, Oliver, Smith.

Engrossed Substitute House Bill No. 323, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

STATEMENT FOR THE JOURNAL

My opposition to Engrossed Substitute House Bill No. 323, known as the "anti-redlining" bill is based on these points:

1. The problem has been greatly exaggerated and is vastly misunderstood.
2. The bill places enforcement and administration in the wrong agency. The Human Rights Commission is not familiar with the details of the financial industry.
3. The Human Rights Commission is overloaded with cases on the subject already.
4. The administration should be either in the Attorney General's Consumer Education Division or with Supervisor of Banking.
5. Section 12 is highly unworkable under our present economic system and strongly over-regulatory.
6. Various federal requirements already lie heavily on financial institutions and tend to run up costs of loans.
7. The bill is premature. If financial institutions can do the job on their own, they should; and they need some time to prove their good intentions.

HAL ZIMMERMAN, 17th District.

ENGROSSED SUBSTITUTE HOUSE BILL NO. 102, by Committee on Revenue (Originally sponsored by Representatives McKibbin, Nelson (Gary) and Sommers):

Representatives Amen and Shinpoch spoke in favor of passage of the bill.

POINT OF INQUIRY

Mr. Amen yielded to question by Mr. Douthwaite.

Mr. Douthwaite: "I, too, have been interested in seeing this happen, but I'm concerned about comments made by Representative Shinpoch that it requires OPP&FM to check on the accuracy of the fiscal notes which are forthcoming from the local government. Is that going to result in considerable cost to the state government?"

Mr. Amen: "I don't believe it should, Representative Douthwaite, because a lot of this is being done now by a Planning Community Affairs Agency and this would just coordinate under the OPP&FM. Really the cost should be very little, if any at all."

The Clerk called the roll on the final passage of Engrossed House Bill No. 129, and the bill passed the House by the following vote: Yeas, 90; nays, 0; not voting, 8.

Mrs. North spoke in favor of the amendment.

POINT OF INQUIRY

Mr. Martinis yielded to question by Mr. Newhouse.

Mr. Newhouse: "Representative Martinis, I'm really asking about the effects of this amendment, too, but principally the previous amendment. When the word 'indirectly' is changed to 'negligently,' we have the words 'directly or negligently,' and I don't find those to be parallel words. The meaning is somewhat vague with those two words put together."

Mr. Martinis: "Representative Newhouse, the intent of that language is so that it would basically be a willful act by the person who had the control of the animal. Indirectly the person who had control of the animal could be held liable for just about anything, but if he negligently permits the dog to pursue or injure a deer or elk, then he would be held responsible. Granted, Representative Newhouse, either way it would be very difficult to prove."

Mrs. North spoke again in favor of her amendment, and Representatives Schmitten, Moreau, Barr and Martinis spoke against it.

The amendment was not adopted.

House Bill No. 280 was ordered engrossed and passed to Committee on Rules for third reading.

Authorizing adjustments of workmen's compensation payments.

The bill was read the third time and placed on final passage.

Representatives Clemente and Lux spoke in favor of the bill, and Mr. Bond spoke against it.
POINT OF INQUIRY

Mr. Clemente yielded to question by Mr. Patterson.

Mr. Patterson: "We've heard a lot of figures being bantered around, and I was just wondering, as the prime sponsor of this bill, could you identify the fiscal impact of this particular bill, and also exactly who is going to pay the bill? In other words, what kind of a tax arrangement are we going to have? I'd like to know who is going to pay for the extra benefits."

Mr. Clemente: "The exact fiscal impact—I heard $88 million mentioned, and that is over a six year period, and any crystal ball is good for that. As to who pays, industry pays, labor and management, as you see in the language in the bill. An amount is deducted from the workman's pay and the employer makes an equal contribution and it goes into a special fund for this purpose."

Mr. Patterson: "So it is a 50/50 arrangement as far as the employer and the employee is concerned in billing this special benefit?"

Mr. Clemente: "That is correct."

Representatives Paris and Lux spoke in favor of the bill, and Mr. Pardini spoke against it.

ROLL CALL

The Clerk called the roll on the final passage of House Bill No. 46, and the bill passed the House by the following vote: Yeas, 76; nays, 20; not voting, 2.

STATEMENT FOR THE JOURNAL

JOHN BAGNARIOL, 11th District.

MOTION

On motion of Mr. King, House Bill No. 46 was ordered transmitted immediately to the Senate.

The bill was read the third time and placed on final passage.

ROLL CALL

The Clerk called the roll on the final passage of Engrossed House Bill No. 108, and the bill passed the House by the following vote: Yeas, 95; nays, 0; not voting, 3.

Not voting: Representatives Heck, Kreidler, and Mr. Speaker.
Engrossed House Bill No. 108, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

HOUSE BILL NO. 195, by Representatives Shinpoch, Warnke, Charnley, Hughes and Knedlik (by Office of Program Planning and Fiscal Management request):

Extending time bonds of the Washington Futures Program of 1972 may be issued.

The bill was read the third time and placed on final passage.

POINT OF ORDER

Mr. Flanagan: "The nine percent debt limit requirement is that if the Legislature enacts a bond issue within that limit it requires a 60% vote. If they pass a bond issue that is referred to the people, it just requires a majority vote. Now this original issue was referred to the people with a time limit on it; therefore, it only required a majority vote of the Legislature, but this amendment is being put on here without being referred to the people and extending the time bond issue. I'm wondering whether it requires a 60% vote?"

SPEAKER'S RULING (MR. O'BRIEN PRESIDING)

The Speaker (Mr. O'Brien presiding): "Article VIII, section 1, subsection 8 spells out rather clearly the 60% requirement, which is the purpose of a debt which might be contracted, so in this case we are just extending a date and there is no appropriation or incurring of additional debt relative to the bond issue."

Mr. Flanagan: "In the original incurring of the debt there was a date put on the bond issue that was referred to the people. Now we're extending the date, which the people did not vote on, and that's the reason I'm wondering if this is, in effect, extending a debt just by the Legislature and not by a vote of the people, and therefore might be considered subject to the 60% vote?"

The Speaker (Mr. O'Brien presiding): "It appears to the Speaker that your point has to be considered. What I think we should do is act on the bill and if it receives a 60% vote, then the question might be moot. I'm going to ask for an Attorney General's opinion on it, if someone wants to question it further. I think rather than to delay action this is the procedure to take."

Mr. Leckenby spoke against the bill.

GOVERNOR'S BUDGET MESSAGE

Governor Ray: "Mr. President, Mr. Speaker, Ladies and Gentlemen of the Legislature:

"Today, it is my privilege to come before you and present the first fiscal message of my new administration. In developing this message, I have kept one thought foremost in my mind: We—this Legislature and this administration—you and I together, must take steps to solve some of the fiscal issues which have lingered unresolved in recent years and now press upon us with a growing sense of urgency.

"The issues are well known—school funding, tax reform, and pension reform, to name a few. It is solutions that have been elusive. But the time has come to confront these issues and to create workable solutions that do not borrow unreasonably against the future nor impose unfair burdens on our citizens. We owe the people of this state a fiscal plan that is both fair and workable.

"The 1977–79 biennium budget that I am proposing to you today totals $8.1 billion of which $5.2 billion is the General Fund portion. It represents an overall increase of 24.7 percent over the estimated expenditures for the current biennium.

"That's not the whole story. This proposal reflects the austerity era which I launched with a recent executive order and which I believe is essential for improving the financial condition of the state. It also reflects a reduction of $235.5 million from the 1977–79 budget plan proposed by former Governor Dan Evans last month.

"I will discuss the specifics of my proposed reductions in a moment, but first, I must comment on taxes.

"During the past twelve years, this state government has followed a set of fiscal policies that have required a steady stream of tax increases. The retail sales and use tax has been increased three times—in 1965, in 1967, and again in 1976. The business and occupation tax was increased in 1976. Taxes on alcoholic beverages were increased in 1965, 1969, 1971 and 1973. The public utility tax was increased in 1971. State taxes on cigarettes and tobacco now stand at 45% of the wholesale price, having been increased in 1965 and again in 1971.

"True, some of the pressure for these increases has come from a tax structure that does not generate revenues in proportion to increases in state income levels, but there has also been an unprecedented expansion of state government during the past twelve years, and state spending has increased by 261% since 1965. This is an increase far beyond that necessary to accommodate inflationary pressures. We must now bring unrestricted growth under control. We must establish new fiscal policies that will keep state spending at a level that is within our ability to pay. We must learn to say no.

"In prosperous times we must avoid the temptation to spend all of our increased tax resources for expanding government services to a level which we are later unable to sustain without tax increases. In other words, if a program cannot be justified during periods of a stable economy or recession, it should not be funded during periods of prosperity. In this administration, I will do my best to accumulate surpluses during periods of economic expansion so that we may continue the essential programs during the periods of slowdown.

"We must also come to recognize that state government cannot be responsible for all of the problems which confront local governments. In the past 12 years the state has assumed responsibility for contributing to mass transit and for funding the Law Enforcement Officers' and Firefighters' Pension Systems. While the need for these programs cannot be disputed, it is irresponsible for the state to assume these additional burdens without either developing new sources of revenue or eliminating programs of comparable expenditure. These two programs alone now cost the state millions to finance—millions we do not have. This forces us to either increase taxes or curtail services in other areas.

"I am aware of similar bills before the Legislature this session. I will not oppose them so long as they provide for specific sources of additional revenues or for reductions—with which I agree—in other programs. However, I would prefer that additional taxing powers be extended to local governments so that those who benefit and must pay can better determine expenditure priorities.

"Increases in federal funding over the last 12 years have substantially contributed to the increased services the state now offers to its citizens. Unfortunately, federal funding is often contingent upon the development of new programs which may or may not be consistent with the
state's highest priorities. More important from a financial standpoint is the fact that such federal funds are too often later withdrawn, leaving the state with the obligation to eliminate the programs or to fund them with state dollars. We all know how difficult it is to terminate a program once it is underway. It means discharging employees and often, it also means alienating large constituency groups that have become dependent on it. Consequently, this 'carrot approach' used by the federal government has led the state into funding and maintaining programs that are not necessarily consistent with our own priorities and our own funding limitations.

*It will be the policy of this administration to examine carefully all offers of federal assistance and determine before acceptance that the programs that we agree to sponsor are consistent with our own priorities. This administration will not be afraid to say no.

*Now, I want to talk about fiscal integrity.

*The fiscal policies of the prior administration not only resulted in continuous tax increases, but they have brought us dangerously close to being unable to redeem, with cash, the warrants we have issued.

*As of January 8, 1977, just four days before I assumed office, the General Fund cash deficit was $158.7 million, an increase of approximately $85 million since the same time one year ago. So far we have been able to avoid paying interest on warrants by borrowing from other state accounts which are not yet in a deficit position. This practice costs us at least five percent return on the amount borrowed. We cannot continue to rely on such borrowings from other accounts, nor can we allow the situation to grow worse. If we continue to meet our obligations in this manner, we will be forced to borrow from the banks. That would most likely cause the financial market to downgrade our financial rating resulting in higher interest rates for our bond issues. Adoption of my program will enable us to preserve our credit rating and avoid millions of dollars in increased interest charges.

*The difficulty we are experiencing in meeting our cash requirements without borrowing from other accounts has been caused mainly by accounting transactions which shifted revenue, but not cash, from future to current biennia. Accounting gimmicks like these have resulted in a General Fund deficit that now raises the possibility of the state being forced to issue registered warrants until the situation improves. This is our legacy from the last administration.

*I wish to make it known now that I do not like to use accounting gimmicks to balance the books. One of the goals of my administration will be to establish a sound fiscal basis for revenue collections, cash flow scheduling and expenditure controls that will improve the accounting integrity of our financial processes.

*Now, before turning to specific programs, I wish to comment briefly on the budget proposed by my predecessor and note some of our differences.

*The Evans' budget reflects the pattern of tax increases which characterized that administration. Specifically, the Evans' budget proposes that the state sales tax, one of the most regressive of personal taxes, be increased by one percent and that the B & O tax, one of the most regressive of all business taxes, be increased by twenty-five percent. Thus many of our citizens least able to pay were being asked to contribute an additional $650 million each biennium. While this might have been somewhat justified if the new revenues were to be used entirely for common schools, thus reducing the amount of property taxes, that was not the case. Only a little more than $200 million of the $650 million was to be used for that purpose. The remaining $450 million was required to finance program enhancements and growth in the cost of services. Unfortunately, even $650 million is not sufficient to fund the proposed service level. The true figure is closer to $700 million. Further, while the Evans' plan includes full funding for basic education only for the second year of the coming biennium, the requested tax increase covers twenty-five months. Obviously, in succeeding biennia we must fund both years and we cannot continue to do it simply by lengthening the biennial period for revenue purposes. Consequently, the Evans' budget lays the groundwork for even higher tax increases during the 1979-81 biennium in order to continue to meet our commitment to the common schools. When all of these conditions are recognized it becomes apparent that the Evans' budget proposal would commit the state to an expenditure level exceeding $1 billion in new obligations during the 1979-81 biennium. That is equivalent to more than a two percent increase in the state sales tax.

*Unlike the previous governor, I propose no increase in the state sales tax nor in the business and occupation surtax. The present level of those regressive taxes is onerous enough. Instead, I intend to balance my budget proposal through the addition of $112 million in one-time revenues, $95 million through increasing the motor vehicle excise tax, $11 million through
holding the inventory tax credit at forty percent for two years, $17.5 million through certain fund transfers, and $235.5 million in expenditure reductions.

*In addition to these specific expenditure reductions, each agency of state government must be committed to further cost reductions, to be achieved through improved efficiency and effectiveness of their operations. To this end, I will designate a subgroup of my cabinet to serve as a management committee. This management committee group will consist of department heads. Theirs will be the responsibility to evaluate and make recommendations on major improvements to increase the efficiency of state government.

*This committee will also be charged with maintaining public service levels within the reduced resources proposed by this budget. My administration will not tolerate the continuous proliferation of state government which marked the previous twelve years. Note again that while state spending has increased 261% since 1965, the total number of state agencies, boards, commissions has mushroomed to well over 350, and the total number of state employees has grown to more than 56,000. It is time to define just what limits there are on the role of state government. We must challenge not only the way we do things but why we do them. I am not suggesting that this task will be easy. It will not. It will require the complete dedication of the management team and all state employees, the people who are ultimately responsible for making anything work in state government.

*It would not be totally honest to imply that these proposals will solve our problems. For now, I am recommending the use of one time revenues to fund expenditure levels which will become a continuing requirement. Therefore, we will need additional taxes for the 1979-81 biennium.

*What I propose is this: A joint legislative–executive campaign to reform our regressive tax structure before 1979. I do not propose to continue balancing the state budget at the expense of those who can least afford to pay the increased taxes. Instead, I propose to work diligently during the coming year to explain our regressive tax structure to our citizens around our state and to caution them that, unless we can bring about a tax reform which includes some kind of graduated income tax within the next two years, we will be facing tax havoc in the spiraling discrimination of our sales and B&O taxes. Already we lead the nation with the most regressive state and local tax structure. I think the time has come to face up to this issue and to develop an equitable tax reform package that can intelligently be discussed with the citizens of our state. I am convinced that people will understand the urgency of tax reform if we establish controls on spending and reverse the continuous upward spiral of government costs, and if we provide a tax reform package that truly offers the kind of tax relief that is needed; one that distributes the tax burden equitably according to one's ability to pay. I believe that we can accomplish this needed reform if we work together to bring it about. I pledge my support to such a joint effort and I encourage you to join with me in this partnership. Together we can face up to these most pressing fiscal issues and begin to resolve our funding problems that have all but paralyzed this state government in recent years.

*I turn now to specific program highlights of my proposal.

COMMON SCHOOL EDUCATION

*Funding of the common schools is the top priority of this legislative session. The Thurston County Superior Court has ruled that special school levies must be used for special purposes only and that a contemporary education program must be funded by means other than special levies no later than July 1, 1979. This, of course, clearly means that the state must promptly assume the obligation of properly and appropriately funding a program of basic education for our children.

*Even without the added impetus of this court decision, the issue of properly funding the common schools is one requiring the concerted attention of this Legislature. For too long common school financing has had to rely on an annual property tax levy. This system of financing has thwarted proper planning, diverted attention from educational programs and left the individual district's programs unacceptably vulnerable.

*The issue of simple common school financing is now squarely before us, and it is pointless to speculate as to whether it can be avoided. It cannot. This Legislature must commit itself to solving the levy problem which has plagued us for more than a decade, and to do it without sacrificing the quality of our educational programs.

*It is my objective to reduce and limit excess levies voted by the people to ten percent of total costs by the 1979–80 school year and to permit such levies to be used only for enhancement purposes, such as additional course offerings, class size reduction and other special programs. It should be clearly understood, however, that levy support must of necessity be a very
real component of financing the basic education program of our common schools until that
time.

"The limitation on and reduction in school levies amount to a direct tax relief for the
property owner. It also requires that other tax sources be found to replace lost revenue and that
the new revenue be collected and distributed at the state level.

"The budget I am proposing includes approximately $2.1 billion for common school edu-
cation during the 1977–79 biennium. This level of support commits us to additional resources
during the 1979–81 biennium. There can be no avenue of retreat.

"The budget I recommend provides the phase-in during the 1977–79 biennium necessary
to accomplish full state funding of basic education by the first year of the following biennium.
It thus conforms to the directive of the recent superior court decision. To accomplish this, I
propose funding a formula essentially as proposed by the Superintendent of Public Instruction
at 90% of the cost of basic education for the 1978–79 school year.

"The Thurston County Superior Court decision requires that the Legislature define 'basic
education.' Once the Legislature has accomplished this, my goal will be to revise our regressive
tax structure so that the state will be in a better position to increase its support of our public
schools without adding the greatest part of the increased tax burden to those least able to
afford it.

"I have included a salary increase for K–12 certified and classified employees equal to
5.5% the first year and an additional 2.5% each year to fund the cost of increments. Our
teachers now enjoy salaries which rank them fourth in the nation and this proposal will main-
tain that level. The Legislature must, in turn, address the issue of locally negotiated salary lev-
elks. Without some constraints on salary levels, additional state support will not guarantee
better educational programs.

"The state commitment to eliminate school district reliance on special levies for basic
educational programs is, in fact, a recognition that a shifting of taxes is mandatory. The alter-
 natives are limited. Either we adopt a constitutional amendment allowing for an income tax, or
we will be forced to increase the state sales and B&O taxes substantially during the 1979–81
biennium.

STATE PENSION SYSTEMS

"I want to turn to another area of critical concern—that of our state pension systems. There
have been times during the past several years when our pension systems have been used
as a convenient means of balancing the state's constantly escalating budget. Such accounting
manipulations have seriously jeopardized the security of members' benefits and, worse, the
financial integrity of the pension systems. Moreover, certain provisions in the rules governing
the systems have created glaring inequities. In some cases employees whose contributions have
been minimal are able to reap windfall benefits. That this situation has been permitted to go on
this long is morally irresponsible and fiscally reckless.

"As a first step toward responsible pension funding, I propose a reduction in the invest-
ment earning potential assumed in Evans' budget from 7% to 6.75%. This reduction which is
prudent and proper will require the addition of $24.3 million in state contributions during the
1977–79 biennium.

"This, however, is a first step only. The Legislature must now endeavor to place our pen-
sion systems on sound financial footing and resist the temptation to underfund them which, in
any case, provides only temporary relief from a financial burden. To protect the pension sys-
tems from further erosion and abuse, and at the same time solve the problem of a growing
unfunded liability, I strongly urge and support pension reform. But I want to make it clear
right now that pension reform means substantive reform. I will veto any pension reform mea-
sure that is only cosmetic. Responsible pension reform should consider the following factors:

1. Establishment of social security payments as the first dollar benefit in determining final
pension benefits.
2. Revision of present benefit formulas so that greater equity can be achieved between
lower paid employees and higher paid employees.
3. Possible inclusion of a cost-of-living factor in benefit formulas to protect the purchas-
ing power of an individual's pension even if the initial benefit entitlement must be less.
4. Revision of the length of employment required to qualify for a pension based on the
state's overall personnel policies. The fundamental question is whether we should use the pen-
sion system to encourage early retirement.
5. Provisions for employees to transfer between present or future systems.
6. Finally, protection of the current retirement systems members' benefits since we have both a moral and a legal obligation to do so.

"This Legislature—in being asked to correct pension system abuses of many years standing and also provide ample funding for basic education—has before it a monumental task. The resolution of either issue could occupy the entire session. I can appreciate that possibility; however, I am committed to both of these issues. They must be resolved. Therefore, I propose that we jointly work toward pension reform. If the legislative leadership and I cannot agree upon a comprehensive pension reform bill within the next few days, we should defer the issue and I will pledge to submit a comprehensive pension reform proposal before August 31, 1977. We can then devote our complete attention to this vital issue during the 1978 special legislative session. This added time will also allow the general public to review my proposal before the 1978 session when pension reform will surely be the first item of concern.

STATE EMPLOYEES' SALARY INCREASES

"Our state employees deserve to be fairly compensated for the work they perform, and the inequities of current state salaries must be addressed in this legislative session. In 1975 the Legislature directed that a salary survey be conducted by an outside consultant in order to provide objective data upon which to base salary increases. The survey was conducted and presented to the 1976 Legislature for its consideration. The Legislature responded by implementing one-half of the 1975 survey findings effective July 1, 1976.

"Time and inflation continue to erode all salaries including those of state employees. Therefore, I am recommending implementation of the balance of the survey findings and further changes in salaries which will raise the total compensation increase to an average of ten percent for all classified employees. Further, I am recommending a ten percent increase for higher education faculty and a six percent increase for the State Patrol.

"I am aware of the controversies which have accompanied recent salary surveys and for that reason I support those specific portions of House Bill 602 and Senate Bill 2383 which provide legislative and executive branch guidance for the conduct of salary surveys, so we might be better able to understand and work with the results of the surveys.

"In addition to salaries, one area that is of concern to all state employees is the state's contribution to medical insurance. Since the $35 a month rate was established in 1974, medical insurance premiums have increased drastically, yet the state's contribution remains unchanged. On the average, premiums have increased over 50% since 1974, and further increases can be expected during the next biennium. I am, therefore, requesting that the state contribution be increased to $72.50 a month effective July 1. This increased contribution will reduce the employee's share of insurance premiums and encourage increased medical and life insurance coverage.

HUMAN RESOURCES

"As you well know, I am deeply concerned that we both adequately and efficiently provide for the genuine human needs of our citizens. In light of these concerns, I have appointed a select panel to study the organization and operation of the Department of Social and Health Services.

"In the meantime, some adjustments from the prior administration's budget are in order. For example, recent workload experience in the department suggests that original workload estimates were, in some cases, too high and that appropriate budget reductions are warranted.

"First caseloads in the major income maintenance programs continue to run below previous estimates; and for the most recent months, savings have been reflected in the medical assistance program as well. Accordingly, my budget recommendations for the coming biennium reflect these caseload changes. Secondly, the cost of continuing the 'current level' of spending for most major programs is less than was originally forecast, and some additional savings will result from the freeze on hiring. Therefore, my budget for the new biennium reflects a lower allowance for current spending levels.

"Additional savings are also being made by withholding support at the present time for many program enrichments which, although perhaps desirable, have not been sufficiently substantiated for me to recommend them as priority needs. I will be better able to identify the priorities after my select panel studying the organization of the department submits its report to me in June of this year.

"In total, my recommended state General Fund budget for the Department of Social and Health Services amounts to approximately $936.4 million, an increase of $95.2 million or 11.3 percent over current estimated state general fund expenditures of $841.2 million. With the
addition of anticipated federal funds the department's total budget is approximately $1.6 billion.

"Washington State offers a full range of public assistance and medical assistance benefits, ranking 15th among the fifty states in the level of income maintenance grants, and my recommendations will maintain this position.

"In the public assistance areas of income maintenance, social services and medical assistance, I am recommending vendor increases of $67.5 million and caseload standard increases of $58.2 million to cover the projected cost of inflation. An increase in state funding of $18.2 million is also needed to offset a reduction in federal matching funds for these programs. I am also recommending that child care services be expanded to permit employment of welfare recipients, and that the demonstration project on aging be continued pending legislative review. In addition, I am recommending increased enforcement to collect delinquent child support payments and third party medical recovery costs.

"In Adult Corrections, I am recommending several major items to increase our capacity to handle the growing institutional populations. These include additional staffing at the correctional institutions, additional work release facilities for 150 persons and a new honor camp.

"For the Mental Health program, I am recommending expanded inpatient services for mentally ill children, and continuation of long term treatment and program improvements in the alcoholism program. I am also proposing funding adequate institutional staffing ratios to assure accreditation.

"For Developmental Disabilities, I am recommending both client caseload and program increases for group homes and developmental disabilities centers, additional funding and staff for case services, and $3.4 million for the operation of three new residential training centers to be constructed during the coming year.

"Several other human resources programs require comment. I am recommending the transfer of both Comprehensive Health Planning and Drug Abuse Prevention Office from the Planning and Community Affairs Agency to the Department of Social and Health Services. These programs should be continued at current levels. I am also recommending inclusion in the Planning and Community Affairs Agency budget of the federally funded Comprehensive Employment and Training Act (CETA) program, which amounts to $112 million. The remaining Planning and Community Affairs Agency programs should be continued at the current levels.

"The Human Rights Commission budget of $2.9 million provides the $1.1 million increase necessary to deal with a serious backlog of complaints and to reduce the processing delays which have contributed to this problem.

"For the Department of Veterans' Affairs, I am recommending continuation of the thirteen field service offices at approximately $1.2 million and continuation of institutional and administrative programs.

HIGHER EDUCATION

"The operating budget I propose for our institutions of higher education totals $1.2 billion, an increase of $137 million over estimated expenditures for the current biennium. This budget will provide for the continuation of existing programs at the current level and for a modest amount of program enrichment.

"The growth of higher education in the State of Washington during the last fifteen years has been dramatic. Enrollment grew from just under 62,000 in the fall of 1962 to more than 236,000 in the fall of 1976, an increase of 283%.

"The years following World War II also brought about major growth in our community colleges, expanding them from eight campuses in 1945, when they were supported by local funds, to twenty-seven campuses today, supported since 1967 entirely by state funds and student fees. The combined enrollment of these institutions now stands at 158,000 students.

"I think we can now expect a stabilization of enrollment, although growth will occur in selected areas, such as continuing education and the vocationally oriented programs offered by our community colleges and vocational technical institutes. At the same time it appears that we may well see a decline in enrollment in some of our liberal arts programs.

"I have asked that our enrollment projections for these institutions of higher education be reevaluated in light of the latest fall quarter enrollment. This action may result in revised projections for both the four-year schools and the community colleges.

"The costs of higher education have increased substantially in recent years. The public cannot, and should not, be expected to absorb all of this increase. The extra burden should be borne, at least in part, by those who directly receive and benefit from these services. I have,

...
therefore, reluctantly recommended an increase in the operating fees paid by students. The fee increase that I recommend is in proportion to the cost of the educational services provided. It is the first such increase since 1971, and will generate approximately $32 million during the ensuing biennium.

"It is not my intention to bar the student with limited financial resources from our institutions of higher learning. I am also proposing, therefore, to increase the amount of financial aid available to low income students. This amount will be equivalent to an additional three percent in tuition and fee waivers. This additional support, applied directly where the need exists, will make it possible both to increase the number of students served and to improve the capacity of each college and university to meet the individual needs of its students.

"I am sure you all share my firm belief that the student of exceptional potential should be encouraged to advance his or her education. I believe that the contributions to society made by these gifted individuals far outweigh the costs of assisting in their education. I am, therefore, proposing that institutions of higher education be authorized to use one-sixth of the existing three percent fee waiver for the purpose of encouraging students of high potential, without regard to their financial resources, to seek advanced education. This should result in fee waivers to approximately 600 to 700 students annually at a cost of $380,000.

"The Legislature, in the development of its appropriations for institutions of higher education for the current biennium, proposed certain levels of support. I realize that these levels do not provide the quality of education that I would like to see available in our colleges and universities. I do believe, however, that given existing revenue constraints, these levels are realistic and reflect the funding priorities of our state as a whole. I am therefore proposing, in response to this dilemma, that approximately one-third of the additional revenue generated by my proposed fee increase be used to enhance educational programs. The remaining two-thirds is recommended to offset the added costs of inflation.

TRANSPORTATION

"To finance the proposed highway budget, the prior administration planned to issue $30 million in bonds and to obtain an additional $10 million in one-time receipts. Although I might be able to support such a plan if the need were temporary, I cannot recommend such a proposal when it is clear that the level of need expressed in the budget will be a continuing one. Historically, we have largely financed the highway systems from gas revenues, and I subscribe to this concept for a recurring level of need. Accordingly, I support the legislation which calls for a variable gas tax not to exceed twelve cents per gallon. This level of funding will allow us to preserve our investment in the highway system while stimulating the state economy and increasing employment. I also support use of the additional moneys to fund the deficit in the ferry system operations for the next biennium with no increase in ferry tolls. At the same time, as chairman of the Toll Bridge Authority, I intend to take a hard look at our water transportation system and to initiate improvements in this mode of transportation. We must begin to look at some new alternatives like passenger-only ferries and to develop cost effective approaches that will enable us to maintain service at levels users can afford.

"Finally, I have reviewed the Highway Commission's proposed construction budget for the next biennium and recommend full funding. It provides for completion of the interstate system and for other needed construction at a cost of $419 million, approximately two-thirds of which will be federal money. It provides for replacement of obsolete Puget Sound ferries through construction of two 100-car vessels to be financed through a $30 million bond issue. It also provides for restoration of an adequate program of highway maintenance. The total proposal represents a 26.7% increase over the present biennium.

CAPITAL BUDGET

"For the Capital Budget I propose $237 million in reappropriations for continuation of projects currently under construction. I also recommend a moratorium on bond issues related to approximately $150 million in capital projects until I have completed my detailed assessment of the priorities of the operating programs these projects support. The taxpayer should not be burdened either with the capital cost or the indefinite upkeep of facilities whose benefit may prove marginal. I note that unused Northern State Hospital costs a quarter of a million dollars a year just to maintain. I will not authorize the construction of new facilities until I am convinced that existing ones like Northern State Hospital are prudently utilized.

"I will support any new projects that can be proved to be essential for the health or safety of persons or for compliance with existing building codes. For example, I will support expansion of maximum security facilities to relieve the overcrowding problems in our state prisons. I
will further support capital projects shown to be essential for continuation of current services or for the preservation of existing structures. Renovation projects to conserve energy, improve space utilization, or provide access for the handicapped will be reviewed on an individual basis and will likely be supported.

SUMMARY

"To summarize, I am proposing a total budget of $8.1 billion without calling for increases in either the state sales tax or the business and occupation tax.

"I am assuming receipt of federal Comprehensive Employment and Training Act (CETA) funds estimated at $112 million—almost double those received in the current biennium. This estimate is based on announcements received on February 18 from the U.S. Department of Labor. No CETA funding was included in the prior administration's budget, an oversight which strikes me as a rather strange mixture of priorities given the desperate unemployment situation which now exists both here and across the nation.

"To balance this budget, I am calling for an overall reduction of $235.5 million below the level proposed in the Evans' budget. This includes a 'tightening up' of approximately five percent within almost all state agencies. I will provide the details of my proposals for each state agency to the Legislature in the next few days.

"My proposal assumes continuation of the temporary 0.1% increase in the sales tax and the 6.0% B&O surtax that has been in effect since June 1976.

"I also propose holding the business inventory tax reduction at 40% for two years and will propose a transfer to the General Fund the unexpended and unneeded balances from the community college bond fund and from the Treasurer's revolving fund. These actions together will provide an estimated $28.5 million in additional funds.

"I will propose legislation that will shift the collection of the state property taxes from twice a year to once a year. This one-time shift will not generate additional taxes but it will provide $112 million in additional collections within the 1977–79 biennial period.

"Finally, I am proposing an increase in the Motor Vehicle Excise Tax rate from two to three percent. This tax, one of the least regressive in our tax structure, was last changed in 1959. This proposal will generate an additional $95 million in new revenue.

"These recommendations, taken together, will result in revenues from state General Fund sources of $4,178.6 million. I have proposed expenditures from state General Fund sources of $4,157.5 million. My budget proposal, therefore, will yield a balance of $21.1 million in state funds.

"I suggest that it is prudent and sensible to leave a small reserve for unforeseen contingencies. There is, after all, the immediate uncertainty as to what the final economic effects of our present drought condition may be. There is the further possibility that adverse shifts in our economic plan could occur and cause revenues to decline while expenditures grow in order to accommodate a rising caseload in our public assistance program.

"In closing, I want to thank each of you in this Legislature for the courtesies you have shown me during these opening days of my administration. It is my wish to work closely with you in the months ahead so that, together, we can take those steps that are so desperately needed in order to develop solutions and achieve reforms that truly address the crucial fiscal issues that confront us today. Thank you."

Authorizing property tax exemption for improvements to historic sites or structures.

The bill was read the third time and placed on final passage.

MOTION

On motion of Mr. King, the rules were suspended, and Substitute House Bill No. 71 was placed at the bottom of today's second reading calendar.

HOUSE BILL NO. 376, by Representative Martinis:

Removing requirement that ocean fishing regulations for Washington be made jointly with Oregon and California.

The bill was read the third time and placed on final passage.

Mr. Martinis spoke in favor of passage of the bill.

POINT OF INQUIRY

Mr. Martinis yielded to question by Mr. Berentson.

Mr. Berentson: "In your opinion, is this bill offered in any way to make the operation of the problems created by the Boldt decision any easier for the Director of Fisheries in that he could, in effect, curtail the troll fishery to the same extent as the gillnetter or the seiner or the reef netter or the Indian fishery? In your opinion does this bill address itself to that problem?"

Mr. Martinis: "In my opinion, Representative Berentson, it does not. What you are speaking to is allocation. That's a separate issue. Allocation is coming before this Legislature in the guise of optimum yield. Those bills will be in executive session before the House Natural Resources Committee. When the troll industry was in testifying on this bill, they continued to testify toward the allocation issue. This is not for that, because there have to be different regulations set for the fisheries south of Tillamook Head—for Southern Washington and California. That subspecies of Chinook and Coho have different migration patterns—they are a different type of fish and the season is open earlier; they are smaller fish, the minimum sizes have to be smaller, so with this proviso the problem here is that the state of Washington has to abide by those regulations that California has. It has nothing to do with allocations."

Mr. Berentson: "In effect though, by giving this authority to the Director of Fisheries here, it is allocation to a degree. I realize that under present statute we can allocate only for conservation purposes, but it seems to me that if you're not taking away from the force and effect of allocating for conservation purposes only, the effect of this would be to not allow the Director of Fisheries to shorten the troll season."

Mr. Martinis: "The effect of this bill would allow the Director of Fisheries to shorten the troll season. Let me pursue that further. The question here is whether we are going to harvest three or four pound Coho salmon or four to six pound Chinook salmon, or are we going to harvest six and eight pound Coho, or ten to fifteen to twenty pound Chinook salmon. That's what fisheries management is—to get the most out of your resources. The state is not allowed presently to manage this resource on its own. If the state of California has a more liberal season, and granted their fish are a smaller species than ours, then we now have to follow that. Basically, we are not able to manage our own fisheries; we have to adopt similar regulations to what they have south of Tillamook Head. Now again, you're addressing allocation. If the Director of Fisheries in the state of Washington is only allowed to allocate for conservation reasons, the only thing he can set a basis for or allocate among the groups, is for conservation. If the Director of Fisheries adopts regulations off the coast of the state of Washington for
allocating to the user groups for other than conservation reasons, he is prohibited—physically prohibited—by statute from doing that. The commercial fishermen have had this in the courts many, many times. If he does that to which you are speaking to and your fears, the troll industry has that recourse, to go to court, and it has been proven time and time again that these citations that have been issued where the Director of Fisheries has allocated for other than conservation reasons have been thrown out of court."

Mr. Berentson spoke against the bill, and Mr. Wilson spoke in favor of it.

POINT OF INQUIRY

Mr. Wilson yielded to question by Mr. Blair.

Mr. Blair: "I just wonder whether or not we are being a little hasty here. I see where we enacted this law in 1955 and that was only twenty-two years ago. I wonder whether we've really given Oregon and California a fair opportunity to come around to our way of thinking on this? Maybe we're just trying to rush things too much. Is it possible that they would be more cooperative if we gave them a little more time or do you really think we should rush ahead after only twenty-two years and rescind this measure?"

Mr. Wilson: "As Representative Martinis has already explained, the state was taken to court last year by the offshore troll fisheries to effectively deregulate themselves because the fishing regulations set by the other states were less stringent. Granted the regulations our Fisheries Director was setting out on the offshore trollers were quite strict. They cut the season in half and literally cut a month out of the middle of the season. I think they were unjust, but I think the method the troll fishery used was wrong. I think it's up to this state to control its fishery, and it's up to us to devise regulations with which to control our fishery, and not to depend on a loophole created by the lack of action for the broader seasons of another state to control our fisheries. This is our problem. I think we can handle it ourselves."

On motion of Mr. Warnke, Substitute House Bill No. 101 was substituted for House Bill No. 101, and the substitute bill was placed on the second reading calendar.

Substitute House Bill No. 101 was read the second time.

POINT OF PARLIAMENTARY INQUIRY

Mrs. Fancher: "I would like to be excused from voting on any part of Substitute House Bill No. 101 or any amendments in view of the fact that my husband and I own property in the vicinity of both of the sites I understand are currently being considered."

SPEAKER'S RULING (MR. O'BRIEN PRESIDING)

The Speaker (Mr. O'Brien presiding): "Representative Fancher, in connection with your conflict of interest, the bill at the present time is on second reading for the purpose of amendment. Also the Site Commission has to select a site and then later the Commission will have to come back to the Legislature and request an appropriation to purchase the site. It would appear to the Speaker that at that time, if your site were selected and you were immediately interested, then you should refrain from voting on the appropriation. At this time we are just going through the motions and we don't know whether your site is going to be chosen or not. If you knew then you'd have a real interest. The purpose of the Site Commission is to select a site and bring that back to the Legislature for appropriation in order that the site may be purchased. On that basis, I don't believe you have a conflict of interest and you should not be excused from voting when you are within the bar of the House."

POINT OF PARLIAMENTARY INQUIRY

Mr. Pardini: "Mr. Speaker, carrying your logic a little further, do you believe it would be proper for Representative Fancher to vote on the amendment which is on the desk, which conceivably could move that site away from her adjacent property? There is an amendment which is going to be offered—I don't know whether Representative Fancher is for or against it—but it's a significant movement from the bill as we presently have it."

The Speaker (Mr. O'Brien presiding): "Representative Pardini, we don't really understand why you are raising a point of parliamentary inquiry relative to an amendment that we haven't considered yet. I did rule that Representative Fancher, if she is within the bar of the House, would have to vote on these amendments, because it appears to the Speaker there is no conflict at this time."
Mr. Newhouse: "May I more clearly define the conflict as I see it. The bill specifies that such a Bazaar must be located adjacent to or over, crossing, a federal interstate highway—there is one in the center of the state, Interstate 90—near the geographic center of the state. It would be in either one of two counties, Kittitas or Grant. Now if the Fanchers happen to own land in that area in both counties and to get five miles square, which would be twenty-five square miles, it would take some of their land. Therefore, I feel that she should be excused from voting on this bill."

SPEAKER'S RULING (MR. O'BRIEN PRESIDING)

The Speaker (Mr. O'Brien presiding): "It's up to the Commission to select the Bazaar site and they might decide not to select any site. Further approval is subsequently going to be determined by the Legislature and the appropriation will have to be made in order for a selection site to be purchased. At that time Representative Fancher, if it is on her property, should excuse herself from voting."

MOTION

Mr. Paris moved that Substitute House Bill No. 101 be indefinitely postponed.

Representatives Paris and Pruitt spoke in favor of the motion, and Mr. Warnke spoke against it.

Mr. Patterson demanded an electric roll call and the demand was sustained.

Not voting: Representatives Fancher, Knowles, Leckenby, Moreau.

On page 1, line 12 after "Washington" insert "state*"

On page 2, line 21 after "Washington" insert "state*"

Mr. Flanagan moved adoption of the following amendment by Representatives Flanagan and Tilly:

On page 2, following subsection (5) add a new subsection as follows:

"(6) Be approved by a favorable resolution of the local legislative authority."

Representatives Flanagan and Tilly spoke in favor of the amendment, and Mr. Warnke spoke against it.

POINT OF INQUIRY

Mr. Warnke yielded to question by Mr. Newhouse.

Mr. Newhouse: "You mentioned something about regulation possible by county officials. Could the county, if the Gambling Commission has chosen a site, refuse to grant under this bill the zoning qualifications necessary? In other words, could the County Commissioners or the Planning Commission under the County Commissioners veto such an operation?"

Mr. Warnke: "It is my feeling that there are several ways that it would be vetoed. One is by zoning laws—if they could not comply—ecology permits, all the rest of the things that are necessary for an industry to be built—the availability of water, the availability of sewage
facilities. I think that to assume the Gambling Commission is going to say, 'This site is chosen and this is where it's going and everybody get out of the way, we're going to start breaking ground,' just doesn't make much sense. I really can't buy that; I think that whoever is going in there to build is going to have to comply with all of the rules and regulations."

Representatives Newhouse, Blair, North and Hurley (George) spoke in favor of the amendment.

Mr. Patterson demanded an electric roll call and the demand was sustained.

ROLL CALL

The Clerk called the roll on adoption of the amendment by Representatives Flanagan and Tilly to Substitute House Bill No. 101, and the amendment was adopted by the following vote:

Yeas, 72; nays, 19; not voting, 7.

Substitute House Bill No. 291 was read the second time and passed to Committee on Rules for third reading.

HOUSE BILL NO. 240, by Representatives King, Vrooman, May, Hughes, Lux and Martinis:

Regulating motor vehicles used by railroad companies to transport employees.

The bill was read the second time.

Mr. Patterson moved adoption of the following amendment:

On page 1, line 6 after "for" strike "operation on roads which may or may not be equipped with retractable flanged wheels for"

Mr. Patterson spoke in favor of the amendment, and Mr. Conner spoke against it.

ROLL CALL

The Clerk called the roll on adoption of the amendment by Representative Patterson to House Bill No. 240, and the amendment was not adopted by the following vote: Yeas, 35; nays, 54; not voting, 9.

Not voting: Representatives Adams, Barr, Douthwaite, Enbody, Knedlik, Knowles, Nelson D., Sommers, and Mr. Speaker.

The bill was read the second time.

On motion of Mr. Conner, Substitute House Bill No. 50 was substituted for House Bill No. 50, and the substitute bill was placed on the calendar for second reading.

Substitute House Bill No. 50 was read the second time.

Mr. Shinoda moved adoption of the following amendments:

On page 1, at the beginning of line 25 strike "miles" and insert "kilometers"

On page 1, line 25 after "within" strike "three miles" and insert "five kilometers"

Representatives Shinoda, Wilson and Haley spoke in favor of the amendments, and Representatives Kilbury and Charette spoke against them.

Mr. Shinoda spoke again in favor of the amendments.

POINT OF INQUIRY

Mr. Kilbury yielded to question by Mr. Patterson.

Mr. Patterson: "Is it not true, Representative Kilbury, that all engines that are operating in interstate trade today are equipped with speedometers?"

Mr. Kilbury: "I can't answer if they all are, many are."

Mr. Patterson: "I think you'll find that they are all equipped. If Representative Shinoda's amendments are adopted, would that require that every one of these be changed so that they be calibrated in kilometers rather than miles per hour?"

Mr. Kilbury: "I think you'd have to ask him to get an answer. I think, just offhand, and I don't have a copy of these amendments before me, but I suspect it would require calibration in kilometers."
Mr. Patterson: "Do you have any idea what the cost would be to the railroads for such a proposal?"

Mr. Kilbury: "No, I do not."

Mr. Patterson spoke against adoption of the amendments.

The amendments were not adopted.

Mr. Amen moved adoption of the following amendment by Representatives Amen and Patterson:

On page 1, line 30 strike all of subsection 7 and renumber the remaining subsections consecutively.

Representatives Amen, Patterson and Berentson spoke in favor of the amendment, and Representatives Conner, Martinis and Kilbury spoke against it.

ROLL CALL

The Clerk called the roll on adoption of the amendment by Representatives Amen and Patterson to Substitute House Bill No. 50, and the amendment was not adopted by the following vote: Yeas, 36; nays, 59; not voting, 3.

Representatives Polk, Patterson and Flanagan spoke in favor of the motion, and Mr. Kilbury spoke against it.

Ms. Becker demanded the previous question.

POINT OF PERSONAL PRIVILEGE

Mr. Polk: "The point of personal privilege is that I figured here on the floor what the fiscal impact of the bill was as far as the information I had. We passed some legislation here the other day on fiscal impact statements. Representative Kilbury has—"

RULING BY THE SPEAKER (MR. O'BRIEN PRESIDING)

The Speaker (Mr. O'Brien presiding): "Representative Polk, I think you are going into the merits of your motion. You're talking about the dollar amount and making a speech. Go ahead, but try to hold it to personal privilege and whether or not your motives have been impugned because you made the motion."

Mr. Polk: "Mr. Speaker, if you would rather it not be under point of personal privilege, I would be happy to close debate and discuss the bill on its merits, but I am trying to—"

The Speaker (Mr. O'Brien presiding): "The question before us is the motion by Representative Becker. Allow me to place that motion and then use your own judgment."
Mr. Polk: "The reason is that the way things have been going around here today, they just close you off and you don't get a chance to say anything."

The Speaker (Mr. O'Brien presiding): "If you'll read the rule book you'll find out you have some place for your motion."

The demand for the previous question was not sustained.

Mr. Polk closed debate, speaking again in favor of the motion.

ROLL CALL

The Clerk called the roll on the motion by Representative Polk to rerefer Substitute House Bill No. 50 to Committee on Appropriations, and the motion was lost by the following vote: Yeas, 41; nays, 55; not voting, 2.

Not voting: Representatives Knowles, and Mr. Speaker.

INTRODUCTION AND FIRST READING

SPEAKER'S RULING (MR. O'BRIEN PRESIDING)

The Speaker (Mr. O'Brien presiding): "The Rules state that a committee can be relieved of a bill by majority vote."

Mr. Pardini: "I understand that, but the rules also say separate readings on separate days. Let's suspend the rules and put it back on second reading, Mr. Speaker."

The Speaker (Mr. O'Brien presiding): "Rule 81 states as follows: 'PROVIDED, That a majority of the members elected to the House may require a committee to report a bill back to the House during the order of business at which it may be considered.' The Speaker will rule that we are under this order of business and we weren't aware of the amendments by Representative Tilly and so we're asking the House to return the bill to second reading for the purpose of considering these amendments."

Mr. Pardini: "Mr. Speaker, Rule 26 also says that there will be separate readings of the bill on separate days and requires a twenty-four hour notice to bring the thing back on second reading unless we suspend the rules. I'm willing to cooperate and go along with the suspension of the rules, but I'm trying to establish an orderly procedure and I know that's what you want too, Mr. Speaker."

The Speaker (Mr. O'Brien presiding): "Representative Pardini, we are still on second reading and we're not leaving today."

Mr. Pardini: "I know we're not leaving today, but how many times can you have second reading on a bill? The rest of the bills are on second reading, the bill which you sent to the Rules Committee is not on second reading, and it requires a suspension of the rules."

The Speaker (Mr. O'Brien): "Actually, Representative Pardini, we're being extremely tolerant of the whole incident because it's one of your fellow colleagues. If you want to run roughshod over him, all we have to do is say goodby, the bill has gone to Rules Committee."

that concept which would cover not only the extension, but also expanding introductions? The reason I ask the question is that I think it's very possible that if the energy crisis continues to expand we might very well want to introduce some new legislation. I understand that we do have some title-only bills, but this would make sure that we have covered all bases—that we can introduce new legislation and not have to worry about cut-off dates and existing legislation.

Mr. King: "My suggestion would be that we revert to the fourth order of business, read in the concurrent resolution, place it on second reading and hold it over until tomorrow and talk about it."

Mr. Hurley (George): "How often do we consider resolutions when we don't have them on our desks?"

The Speaker (Mr. O'Brien presiding): "Representative Hurley, if you will allow us to place the resolution on second reading, we will read it in full. It's not very long. Apparently we haven't had the opportunity to reproduce it."

The names of all certified presidential candidates shall be printed on a ballot to be designated as the 'Independent Voter's Presidential Preference Primary Ballot.' These names shall be listed alphabetically in separate columns according to political party affiliation on this ballot. In addition to the 'Independent Voter's Presidential Preference Primary Ballot,' a separate ballot shall be printed for each major political party with which any certified presidential candidate is affiliated. The names of all certified presidential candidates who are affiliated with the same party shall be listed alphabetically in a column on that party's ballot.

Each person requesting an absentee ballot for a presidential preference primary shall specify on the application for such ballot the primary in which he or she desires to vote, whereupon the county auditor shall
send the applicant the appropriate absentee ballot. The county auditor shall then record the applicant's name and address on a list containing only the names and addresses of other applicants who have specified a desire to vote in the same such primary.

The following notice shall be prominently displayed at each polling place and included with each absentee ballot application provided for a person who wishes to request an absentee ballot for the presidential preference primary:

'If you desire to participate in the presidential candidate nominating process of a major political party, you must request the presidential preference primary ballot of that party. If you do not desire to participate in the presidential candidate nominating process of a major political party but desire to express your preference as to who should be elected president of the United States, you should request an 'Independent Voter's Presidential Preference Primary Ballot.'

At a presidential preference primary, a voter may cast no more than one vote on a ballot. Any presidential preference primary ballot with more than one vote shall be void, and notice to this effect, couched in clear, simple language, and printed in large type, shall appear on the face of each presidential preference primary ballot. Where voting machines or electronic voting devices are in use, the notice shall be displayed on or about each machine or device.

POINT OF PARLIAMENTARY INQUIRY

Adopting procedures for the establishment of transfer and clinical training programs at the University of Washington school of medicine for Washington residents attending foreign medical schools.

The bill was read the third time and placed on final passage.

Mr. Adams spoke in favor of passage of the bill.

POINT OF INQUIRY

Mr. Adams yielded to question by Mr. Patterson.

Mr. Patterson: "On page 2, where we are identifying a state resident, the qualification, of course, is that they must have been a resident for one year prior to entering the foreign medical school, but there is a further proviso that says, '... has in fact established a bona fide domicile in this state for other than educational purposes.' Can you identify what the definition of a bona fide domicile is?"

Mr. Adams: "I would presume it would mean that they had to be a resident of this state. Most of these young people that are going to school in Mexico are young men that have been in the service and come back here and because of their age limitation they were not able to enroll at the University of Washington. Therefore, they went to Mexico but they have continued to have this as their residence."

Mr. Patterson: "There must be a further requirement for residency. Currently for educational purposes, to be classified as an in-state student he must establish residence for one year in the state of Washington. This speaks to an additional requirement of residence and I'm just wondering what that additional requirement is?"

Mr. Adams: "I don't know how to answer that, Representative Patterson, except that we know that it is necessary to be a resident of the state of Washington and most of these young people were raised in this state and, as I said, they went into the service from this state and came back to this state and went to Mexico. I don't know what else there is beyond that."

Mr. Patterson: "Thank you. I'm not commenting on the answer, but I do have a concern. This seems to be adding something in addition to the current resident requirement as far as attending institutions of higher learning to establish in-state residency. It is requiring a certain kind of domicile and I would really like to know. I don't have the answer, but I would really like to know what we are talking about. Are we requiring that they be married and move here? Is there something other than just being a resident?"

ADMONITION BY THE SPEAKER

The Speaker: "I would really like you to hold your questions to direct questions and not debate between the sponsor of the bill and another member. That kind of debate should have taken place in committee. If you would like to respond to the question, Representative Adams, you may, but I am going to start tightening up a little bit."

Mr. Adams: "I have already responded, Mr. Speaker."

Representatives Haley and Schmitten spoke in favor of the bill, and Mr. Pardini spoke against it.

POINT OF INQUIRY

Mr. Schmitten yielded to question by Mr. Boldt.

Mr. Boldt: "Representative Schmitten, I'm not sure about what you're saying and there are others here who have questioned it, too. Does the University of Washington take age into consideration when determining entrance in the school of medicine? Can they discriminate by age?"

Mr. Schmitten: "The cutoff age is twenty-six. Those of us graduating at twenty-one, serving four or five years in the service, find ourselves not eligible to attend. When you have
only 175 places and probably twenty times that applicants, it's very hard to get in and compete against a 21-year old."

POINT OF INQUIRY

Ms. Sommers yielded to question by Mr. Pardini.

Mr. Pardini: "Representative Sommers, under your bill I am told occasionally fishing fleets will go out, catch fish, throw them in the holds and use a process called fresh-frozen in order to stay on the water and then bring the fish in and they are then thawed for processing and the final processing occurs. If that is the case, would these have to be labeled as frozen fish?"

Ms. Sommers: "There are many instances, I understand, whereby fish and shellfish are frozen right on the fishing boat and maintain that frozen state until delivered finally to the retailer. In that case, yes. You said processing, which would mean canning or something like that, then the canned product is clearly visible to the consumer as a canned product and would not be labeled in that case."

Mr. Pardini: "I don't know much about the fishing industry, but tuna fish—are they frozen? Are salmon caught in large quantities and held in holds with ice to the point of being frozen and then put out on the market as fresh fish?"

Ms. Sommers: "Yes, there certainly have been cases like that. I personally witnessed instances where shrimp and that kind of thing had been labeled as fresh and had come in frozen to the market."

POINT OF INQUIRY

Mr. Tilly: "I'm concerned about the growing costs of this thing and I wonder if you could enlighten us a little more. How many horses or how many teams are you going to have in this program?"

Representative Hurley (Margaret): "At first we thought we were going to have two horses and two rangers on those horses, and it was determined after we heard from Sergeant Rhodes, who has the very excellent program in the Seattle City Parks, that we would have to have three horses. The horses range from $1,000 to $1,900 which would increase the cost there. Also, while the rangers were mounted on the horses in the pursuit of their duties, they would hire a substitute ranger part-time who would come in and do the supervisory work of the CETA program and keep the maintenance up. The reason for two horses was that sometimes a horse might be ill, might throw a shoe, might not be able to be up and about, and that the mounted ranger and the patrol would not go to waste during that time because two horses work together instead of just one alone for effectiveness."

Mr. Eng: "How much does one of these units cost?"

Mr. Gaines: "Between twenty and twenty-five dollars."

Representatives Eng, Blair, Struthers, Smith and Douthwaite spoke in favor of the amendments, and Representatives Charnley and Warnke spoke against them.

POINT OF PARLIAMENTARY INQUIRY

Mr. Patterson: "What is the status of the bill before us in view of the fact that it is now five minutes after 4 o'clock?"

The Speaker (Mr. O'Brien presiding): "Although the resolution isn't quite clear on the subject matter on continuing bills after the 4 o'clock cutoff, it has been an established precedent of the House that on a closing resolution of this nature, we have completed action on the bill pending at the time of the cutoff. On the basis of a precedent established we will continue consideration of House Bill No. 357."

The Speaker (Mr. O'Brien presiding) stated the question before the House to be the amendments by Representatives Struthers and Polk.

Mr. Hurley (George) demanded the previous question, and the demand was sustained.

ROLL CALL

The Clerk called the roll on adoption of the amendments by Representatives Struthers and Polk to House Bill No. 357, and the amendments were adopted by the following vote: Yeas, 59; nays, 35; not voting, 4.

Not voting: Representatives Conner, Kilbury, Salatino, and Mr. Speaker.

Mr. Deccio moved adoption of the following amendment:

Following section 1 add a new section as follows:

"NEW SECTION. Sec. 2. Each manufacturer, distributor and installer shall be required to carry a minimum of $1,000,000 for each accident, products and completed operations liability insurance and furnish a certificate of such insurance to every purchaser or owner."

Renumber the remaining section consecutively.

POINT OF ORDER

Mr. Gaines: "Mr. Speaker, I would like you to rule on the scope and object of this amendment."

SPEAKER'S RULING (MR. O'BRIEN PRESIDING)

The Speaker (Mr. O'Brien presiding): "Representative Gaines, it appears that it is somewhat relevant to the subject matter. It requires the seller to have insurance to protect the owner of the dwelling and also the seller. On that basis, it appears that this is an added provision to the act."

Mr. Deccio spoke in favor of the amendment.
Mr. Deccio yielded to question by Mr. Amen.

Mr. Amen: "Representative Deccio, this says the manufacturer, distributor and installer—what would happen if I had a home and I had installed a smoke detector now and then sell it later. Would I have to have that $1,000,000 insurance to protect myself?"

Mr. Deccio: "Your homeowners' policy would cover you."

Mr. Amen: "For $1,000,000?"

Mr. Deccio: "A $1,000,000 liability policy is not a rare thing today. Anyone who has any degree of exposure certainly could buy a personal umbrella policy which goes to a million dollars which covers other things—it covers your automobile—and they are relatively inexpensive. I think anyone who is installing a smoke detector and is going to sell his house and the house burned down because that detector was faulty—then I think you'd better get yourself some coverage."

Mr. Amen spoke against adoption of the amendment.

MEMORIAL PROGRAM

Presiding: President Pro Tempore of the Senate Al Henry

INVOCATION

by

Reverend Charles A. Loyer
Westminster Presbyterian Church, Olympia
"Eternal God and Father, Who hast written intimations of immortality into the poetry of the seasons and so into the hearts of men, we thank You for this memorial service which provides us with the occasion for reaching into the past and reclaiming for ourselves moments of high privilege and rich experience. With heads and hearts bared we would pay homage to the lives and works of those Legislators who once peopled these chambers, but have since gone to their everlasting rewards. Now remember those loved ones who bear the burden of bereavement, sustain and guide them as they pursue the poignant and difficult task of putting together the jigsaw puzzle of their lives without that familiar and central piece into which all others have so happily fit. Be unto them, O God, an ever present help in time of need. Amen."

MEMORIAL TRIBUTE
by Representative Paul Pruitt

"The poet Scott writes: 'I sing a song of the saints of God, patient and brave and true; one was a doctor and one was a priest, one was a shepherdess on the green; they were all of them saints of God and I mean, God helping, to be one, too.'

"As you know, through the years of the history of the church the church has named certain special people that have been in the service of mankind saints. It became a part of their title so it's spelled with a capital S. I doubt there would be much enthusiasm, if any enthusiasm, either inside or outside the Legislature for us to have laws of certain people being saints; in our business there never would be. I am suggesting today in this memorial service that there were political saints. Of course, spelled with the small letter s. There are differences between the saints the church has designated and the political saints, and we would not suggest the differences, nor need to. But there are also some similarities and I would like to suggest some of those similarities.

"Among the political saints there is a certain amount of notoriety; to be in a political office there is the popularity of being out in public and being recognized, but along with that popularity and notoriety, the political saint also has a measure of humility. It is possible that humility has come about by circumstances—defeat in office, inability to achieve the ideals and goals that the candidate once had, or perhaps the humility is more innate than the character personality before joining the Legislature or working with the public. Nonetheless, whatever it is, the popularity, the notoriety, is joined with a measure of humility in the political saint. I suggest also that the political saint who we honor is one that recognized—and how does one avoid the recognition of certain privileges in office? Privileges in the privilege of election and yet at the same time I would suggest that the privileges in the political saint were never misused to the point that responsibility, either great or some moderate measure of responsibility, was also taken along with privilege. It is also a responsibility.

"Then the political saints that we are talking about also wanted to take the stance of a servant—take a servant posture in office, not a slave. There is a difference between a servant and a slave, because a slave is locked into a position and has no more individuality and does not stand on his own. But a servant, yes, is one who holds the office to the people. A political saint is also a servant.

"I sing then, says Scott, a song of these saints. You can meet them in church or in school. You can meet them in shops or at tea. All of them are saints of God and, God—helping, I'll be one too. I suggest that in a memorial service that we do cast some halos on the political saints; that the friends gathered in honor of these persons whom we are now to name, the families, the colleagues of Legislators departed from the House and the Senate, will recognize in your own minds, will cast your own halos, recognizing those periods in life and be thankful for the periods of stress, of controversy, even periods of failure, maybe of despair, but thankful that saints learned and grew, expanded in knowledge and in understanding. You also, in casting your halos, say thanks for the times of victory, times of triumph, the times of the great contributions of the persons that we now honor.

"Let us then join in the honoring of each person in this time of memorial."

**BENEDICTION**

Father William Treacy
St. Michael's Parish, Olympia

"Almighty God, You have spoken to millions of us in this country recently, revealing our hunger, for in the television series 'Roots' we are reminded that whatever our race, the very fact of our existence we owe to those who have gone before us. Whether it shall be people who lived in bondage in Egypt or pilgrims in the desert or citizens of the free countries. Today we give thanks to the men and women who served in this Legislature who are no longer with us—to the struggle to be elected, to hours of committee hearings, and hours of debate and the laws they enacted. They help to preserve our hard-won freedom and to make our state a more just state in which to live. With grateful hearts to their contributions we turn to You today, Lord. We hope our presence here today will communicate joy to them. We ask Thy blessing for those who follow in their footsteps, that they may be men and women of vision, courage and integrity, who will make the American dream rooted in diversity, real in our times. Amen."

**POINT OF PERSONAL PRIVILEGE**

Ms. Gruger: "This is my first session in the Legislature, but it is not my first time viewing a memorial service. In 1962 I was in the gallery. It was appropriate that I be in the gallery because my mother had been a member of another Legislature and she had passed away earlier that month. I was not an invited guest, I happened to be driving up the highway, saw the Capitol and thought 'it's Washington's Birthday, but perhaps they are in session.' We arrived just in time to witness the memorial service. Later I found that my sister had been invited to the North Dakota service and had attended it. I appreciated the service that day. Now that I know how busy you all are perhaps I appreciate it even more. On behalf of the families of deceased members I would like to thank the committee, the members of the Senate, the members of the House of Representatives. Thank you."

Representative Pruitt returned the gavel to Speaker Pro Tem Henry.
The President Pro Tem: "Thank you, Representative Pruitt, our appreciation and gratitude to you, Reverend Loyer, Father Treacy, Representative Erickson and other members of the memorial committee. The President Pro Tem is sure that the loved ones of the dearly departed gained considerable solace and comfort from this very impressive ceremony."

On motion of Ms. Erickson, the Joint Session was dissolved.

The President Pro Tem returned the gavel to the Speaker.

The Speaker instructed the Sergeants at Arms of the Senate and the House to escort President Pro Tem Al Henry from the House Chamber.

The House resumed its session.

POINT OF PARLIAMENTARY INQUIRY

Mr. Pardini: 'Under Senate Concurrent Resolution No. 103, 'Be it further resolved, That commencing on the fiftieth day of the session, except for appropriation and revenue bills, the Senate will only consider House bills and the House will only consider Senate bills.' My point of parliamentary inquiry, Mr. Speaker, is—in the process of accepting committee reports and moving bills through the various stages, to first reading, to committee reports and the Rules Committee, is that a violation of Senate Concurrent Resolution No. 103?"

The Speaker: "We have had cutoff resolutions every session that I can recall, Representative Pardini, and the House always acted on the bills in a normal fashion. When they are read in they go to the committees; when they come out they will end up being on the floor. We can only consider Senate bills for floor action during the fiftieth to the fifty-seventh day."

Mr. Pardini: "With your permission, Mr. Speaker, I would ask you to ask the Chief Clerk to research that question just a little further. I believe that in previous session we have stopped action even in committees on House bills after the cutoff date."

The Speaker: "He is so instructed."

SENATE AMENDMENT TO HOUSE BILL

Mr. Speaker:

The Senate has passed ENGROSSED HOUSE BILL NO. 69 with the following amendment:

On page 2, line 22 after "total" strike "estimated" and the same is herewith transmitted.

Bill Gleason, Assistant Secretary.

MOTION

Mr. Ehlers moved that the House do not concur in the Senate amendment to Engrossed House Bill No. 69, and ask the Senate to recede therefrom.

Representatives Ehlers, Nelson (Gary) and Sanders spoke in favor of the motion, and it was carried.

POINT OF PARLIAMENTARY INQUIRY

Mr. Berentson: "We noticed the group of bills that are on the Senate calendar today are all bills that passed the House, some of them as far back as January, and our concern may well be, and I would like you to comment, that there isn't proper coordination between the House and the Senate. Perhaps you could tell us what coordination is occurring over there. Let me point out that the first three bills on the Senate second reading calendar passed the House January 28th and we just happened to notice that they did have Republican sponsors, and we wonder if they are languishing over in the Senate and that the Senate bills that have come over and were passed out of the Senate at a later date, are now before us. Could you give us any indication of what administrative cooperation is occurring between the House and the Senate?"

Mr. Thompson: "I appreciate the opportunity to respond directly to Representative Berentson. The three bills that he specifically referred to are from Local Government Committee, and also happen to be bills originating in the Budget Committee in which none of us take particular pride of authorship—the bills distributed rather casually at committee meetings, and those of us who feel interested, sign on to them. We all vote them out; there's no jealousy or concern about who gets what credit with regard to these measures. These three bills are repealers; as you point out they passed the House with no opposition. The interest of the Local Government Committee was to act on them quickly, to, if you like, place an obligation on our counterpart committee to deal with more substantive measures which we placed before the House bills."

Mr. Berentson: "Thank you, I appreciate the remarks of Representative Thompson. Perhaps we aren't so concerned about the sponsorship or pride of sponsorship either. Perhaps we are more concerned about this: That in even bills of this nature, that we're holding double hearings. We're requiring people to come down for both the Senate hearing and the House hearing, and we just wonder if it wouldn't save a lot of money, time and effort if, in bills of this
nature, if the coordination were such that perhaps the hearings could be held in one house or the other and then move them ... way rather than have the duplication of effort which we're seeing, we think, too much of."

The Speaker (Mr. O'Brien presiding): "In connection with your point of parliamentary inquiry, Representative Berentson, you've been a member of this body for many years, and it's sometimes difficult to stop the joint introduction of bills in the House and the Senate. We are coordinating the activities between the House and the Senate. We have committees working on both sides, and where the duplication still exists, we are making decisions on which house should consider the reflected bill, and so it's just one of those things. In a large body, a legislative body, you do have duplication of effort, and it existed when you were in the majority, too."

Section 1. Section 29.24.010, chapter 9, Laws of 1965 and RCW 29.24.010 are each amended to read as follows:

A "convention" for the purposes of this chapter, is an organized assemblage of (at least one hundred) registered voters representing an independent candidate or candidates or a new or minor political party, organization, or principle (in lieu thereof ten registered voters from each congressional district in the state of Washington). As used in this chapter, the term "election jurisdiction" shall mean the state or any political subdivision or jurisdiction of the state from which partisan officials are elected. This term shall include county commissioner districts or council districts for members of a county legislative authority, counties for county officials who are nominated and elected on a county-wide basis, legislative districts for members of the legislature, congressional districts for members of congress, and the state for president and vice president, members of the United States senate, and state officials who are elected on a state-wide basis.

Sec. 2. Section 29.24.020, chapter 9, Laws of 1965 and RCW 29.24.020 are each amended to read as follows:

(Any new or minor political party is not entitled to participate in a state primary election but must nominate candidates for public office) All nominations of candidates for partisan public office by other than a major political party shall be made in a convention held on the (same day that state primary elections are held) last Saturday immediately preceding the first day for filing declarations of candidacy under RCW 29.18.030.

Sec. 3. Section 29.24.030, chapter 9, Laws of 1965 and RCW 29.24.030 are each amended to read as follows:

To be valid, a (minor-party) convention must:

1. Be attended by at least (one hundred registered voters; or in lieu thereof ten registered voters from each congressional district in the state of Washington) a number of registered voters who have living in the election jurisdiction for which nominations are to be made for at least thirty days immediately preceding the date of the convention, which number is equal to one for each ten thousand voters or portion thereof who voted in the last preceding general election held in that election jurisdiction or twenty-five such registered voters, whichever number is greater;

2. Have been called by a notice of the secretary of state published in a newspaper of general circulation published in the county in which the convention is to be held at least ten days before the date of the (primary election) convention stating the date, hour, and place of meeting (and a general statement of the principles of the organization). The notice shall also include the mailing address of the person or organization sponsoring the convention, if any. The information required to be included in this notice shall be forwarded to the secretary of state not later than the thirtieth day immediately preceding the date of the convention.

Sec. 4. Section 29.24.040, chapter 9, Laws of 1965 and RCW 29.24.040 are each amended to read as follows:

A certificate evidencing nominations made at a (minority-party) convention must:

1. Be in writing;

2. Contain the name of each person nominated, his residence, his business, and the office for which he is named; together with a sworn statement of each nominee giving his consent to the said nominations;

3. Designate in not more than five words the purpose for which the convention was held or the new or minor political party, organization, or principle which the convention represents;

4. Be verified by the oath of the presiding officer and secretary;

5. Be signed by at least (one hundred) a number of the registered voters (present-at) who live in the election jurisdiction for which the nominations are made and who attended the convention (and who did not vote at the primary election held on that day, or in lieu thereof signed by at least ten registered voters from each congressional district in the state of Washington present at a convention, and who did not vote at the primary election held on that day), which number is equal to the number of registered voters who must have attended a convention for it to be valid under RCW 29.24.030 as now or hereafter amended;

6. Show the voting addresses of all signers;

7. Contain proof of publication of the notice of calling the convention.

Sec. 5. Section 29.24.050, chapter 9, Laws of 1965 and RCW 29.24.050 are each amended to read as follows:

The signature of a (minor party) convention nominating certificate of a person who voted in (the primary) any other convention held on the day of the convention is invalid. Persons who sign convention petitions shall not be entitled to vote in the primary of any major political party held in September of the
same year as the convention. Such persons shall, however, be entitled to vote an absentee ballot for any nonpartisan primaries and ballot proposition elections which may be held concurrently with such partisan primaries. The signature of a registered voter on a convention petition shall be considered by the county auditor to be an application for an absentee ballot under chapter 29.36 RCW.

Sec. 6. Section 29.24.060, chapter 9, Laws of 1965 and RCW 29.24.060 are each amended to read as follows:

Upon the receipt of the certificate of nomination of a ((minor party nominating)) convention, the secretary of state shall check from the records the required signatures thereto to ascertain if the signatures are registered voters ((and whether said signers voted at the primary election held on the same day as said convention)) as of the day before the convention. If the secretary of state finds that the certificate ((is defective or)) does not comply with law he shall refuse to file the same and any declarations of candidacy of candidates nominated by such convention. Within two weeks after the last day of the filing period, as specified by RCW 29.18.030, the secretary of state shall notify the presiding officer and secretary of each convention of any signatures judged invalid, together with the reason for any such judgment. Within one week after such notification, upon request of the presiding officer or secretary of any such convention, the county auditor shall recheck the voter registration records and shall notify the secretary of state of any signatures validated upon rechecking.

On the seventh day after filing each nominating certificate, the secretary of state shall destroy the portion of the certificate which contains the signatures, names, and addresses of convention participants unless the certificate is in dispute, in which case that portion shall be retained until the presiding officer or secretary of the convention notifies the secretary of state that no further appeals are forthcoming, whereupon the secretary of state shall destroy that portion of the nominating certificate. In no case shall the signatures, names, and addresses on the certificate be disclosed to any person other than the election official who is required to check the validity of signatures contained thereon and update precinct voting records.

Sec. 7. Section 29.24.070, chapter 9, Laws of 1965 and RCW 29.24.070 are each amended to read as follows:

If the nominating certificate is valid, each candidate nominated by a ((minor party)) convention may file with the secretary of state a declaration of candidacy as nearly as possible in the form prescribed for candidates subject to primary election, and each candidate must at the time of filing such declaration pay to the secretary of state the fee prescribed by law for candidates subject to primary election. The name of a candidate nominated at a ((minor party)) convention shall not be printed upon the election ballot unless he pays the fee required by law to be paid by candidates for the same office to be nominated at a primary election.

Sec. 8. Section 29.24.080, chapter 9, Laws of 1965 and RCW 29.24.080 are each amended to read as follows:

The certificate of nominations made by a ((minor party)) convention, and the declarations of candidacy of the individual candidates nominated may be filed with the secretary of state at any time after said convention is held, but such filing must be complete not later than the ((first Tuesday after the date of the September primaries)) last day for filing declarations of candidacy under RCW 29.18.030.*

POINT OF INQUIRY

Mr. Knowles yielded to question by Mr. Polk.

Mr. Polk: "Representative Knowles, after your comments just now, I'm just a little unclear as to what your intentions were. Are you saying that the Judiciary Committee will be shortly working on that bill?"

Mr. Knowles: "The staff is now working on it."

Mr. Polk: "Are you going to have the committee work the bill?"

Mr. Knowles: "Certainly, as soon as the staff completes its work."

POINT OF INFORMATION

Mr. Polk: "Mr. Speaker, since we're going into the final week of this legislative session and we're coming up against several deadlines, there has been some question as to whether we are going to be called back into a special session. I was wondering if the leadership of the House has received any communication from the Governor that you may share with us so that our members would know whether to renew the leases on their apartments and what to do with their staff and other things?"

The Speaker (Mr. O'Brien presiding): "Well, Representative Polk, I can't speak for the Governor, but I can, of course, go on the past procedures of governors and usually we have never known until the last day of the regular session whether the Governor was going to call a special session."

Mr. Polk: "I understand things have been changing, Mr. Speaker, and I thought perhaps that procedure had changed, too."

The Speaker (Mr. O'Brien presiding): "At the present time we are not aware of when a special session is going to be called. The Governor is giving very serious consideration to your request and to the overall objectives of a special session."

Mr. Polk: "Has she given any indication as to when we might get her response?"

The Speaker (Mr. O'Brien presiding): "I would imagine you'll hear sometime next week."

SECOND READING

ENGROSSED SENATE BILL NO. 2057, by Senators Henry, Guess and Beck (by Department of Motor Vehicles request):

Bringing various laws dealing with motor vehicle operators into accord with current practices.

The bill was read the second time.

On motion of Ms. Becker, the rules were suspended, the second reading considered the third, and Engrossed Senate Bill No. 2057 was placed on final passage.

MOTION

On motion of Mr. Bender, further consideration of Engrossed Senate Bill No. 2057 was deferred, and the bill was ordered placed at the bottom of today's third reading calendar.

SENATE BILL NO. 2067, by Senators Woody, Clarke, Donohue, Odegaard, Scott, Bausch and Gould (by Legislative Budget Committee request to implement performance audit recommendations):

Supplementing law relating to traffic safety education courses.

The bill was read the second time.

On motion of Ms. Becker, the rules were suspended, the second reading considered the third, and Senate Bill No. 2067 was placed on final passage.

Representatives Clemente and Lee spoke in favor of passage of the bill, and Mr. Ehlers spoke against it.

POINT OF INQUIRY

Mrs. Lee yielded to question by Mr. Hurley (George).

Mr. Hurley (George): "Representative Lee, I'm a little curious about the funding part of this. It specifies that each district shall be reimbursed at the level established by the superintendent and may be provided from the traffic safety education account. This means that the state is paying for part of this traffic safety education, is that correct?"

Mrs. Lee: "The traffic safety education fund comes from traffic fines. In other words, when someone goes to traffic court, or even if they don't go to traffic court, and have to pay a fine, a major portion of that, over and above administrative costs, goes into a special fund called the traffic safety education fund and it is from that fund then that the local school districts are reimbursed for the traffic safety education cost. In that respect they have become state funds, but the traffic safety education fund itself is not something that comes from our general taxes, which is what I think you are concerned about."

Mr. Hurley (George): "In other words, there are not other moneys concerned at all in this bill?"

Mrs. Lee: "As far as this bill is concerned, that is true. We're only talking about the traffic safety education fund."

Mr. Hurley (George): "Were you on the committee that discussed this originally—the Education Committee?"

Mrs. Lee: "Yes, I serve on the Education Committee."

Mr. Hurley (George): "Did you discuss the question of the propriety of the whole purpose of fines and the relationship to the justice of paying for traffic education?"

Mrs. Lee: "The idea that there should be a traffic safety education fund, paid for out of fines, was something that was established by this Legislature a number of years ago before I served in the Legislature. To my knowledge there has been no bill introduced to change that system. If there is one introduced to change the policy then I'm sure it would be considered by the appropriate committee. It was not considered that it was an appropriate job for this bill and the title would not cover it."
Mr. Hurley (George) spoke against passage of the bill, and Mr. Thompson spoke in favor of it.

POINT OF INFORMATION

Mr. Hurley (George): "My name was mentioned in debate, and I thought I could have the privilege of making a brief answer."

The Speaker (Mr. O'Brien presiding): "We will allow you to defend your position, but Rule 51 prohibits a member from speaking any more than once after the 50th day and then you are limited to not more than three minutes."

Mr. Hurley (George) spoke again in opposition to the bill, and Mr. Barnes spoke in favor of it.

ROLL CALL

The Clerk called the roll on the final passage of Engrossed Senate Bill No. 2374 as amended by the House, and the bill passed the House by the following vote: Yeas, 85; nays, 5; not voting, 8.

Voting nay: Representatives Becker, Bums, Charette, Douthwaite, Eng.

ENGROSSED SENATE BILL NO. 2385, by Senators Henry, Beck and Clarke (by Department of Highways request):

Modifying the design procedure for limited access highways.

The bill was read the second time.

Mr. Douthwaite moved adoption of the following amendment by Representatives Douthwaite and Burns:

On page I, line 15 strike 'without further public hearings'

Representatives Douthwaite and Burns spoke in favor of the amendment, and Representative Hurley (Margaret) spoke against it.

POINT OF INQUIRY

Mr. Douthwaite yielded to question by Mr. Leckenby.

Mr. Leckenby: "I'm no longer on the Transportation Committee, but I just wanted to ask, will this proposed revision have a greater impact? Is that a larger, more massive project than the one on which hearings have already been held or am I correct to say that it would have somewhat less of an impact?"

Mr. Douthwaite: "The language on line 20 you will notice says that if the design is revised in excess of five percent by variance—it's a matter of relatively small impact, I believe. Five percent of the existing total is still a small amount of area, but my amendment speaks to the principle and the legal efficacy of requiring public hearings. I think we should support it as principle and as a legal matter to make it stick. I think history shows that we must have it."

Representatives Leckenby, Patterson and Berentson spoke in opposition to the amendment, and Representative Maxie spoke in favor of it.

Mr. Patterson demanded an electric roll call and the demand was sustained.

Mr. Douthwaite spoke again in favor of the amendment.

POINT OF PARLIAMENTARY INQUIRY

Mr. Berentson: "Under our current standing—members may close debate—that rule only applies to a maker of a motion on third reading and final passage. Is that not true?"

The Speaker (Mr. O'Brien presiding): "Rule 51: 'After the fiftieth day no member shall speak more than once on the same question without leave of the house: Provided, That the chairman/chairwoman of the committee or the mover of the question may close the debate except as provided in Rule 55: Provided Further, That no member shall speak more than three minutes without the consent of the house.'"

Mr. Berentson: "What does Rule 55 say?"

The Speaker (Mr. O'Brien presiding): "If the previous question has been called for, it would cut off all debate except on final passage, and then the chairman or chairwoman of the
committee, when the measure is on final passage or when the motion to postpone indefinitely is pending, may have the privilege of closing debate after the previous question has been ordered. The previous question wasn’t ordered in this instance.*

Mr. Douthwaite continued his remarks in favor of the amendment.

ROLL CALL

The Clerk called the roll on adoption of the amendment by Representatives Douthwaite and Burns to Engrossed Senate Bill No. 2385, and the amendment was not adopted by the following vote: Yeas, 33; nays, 56; not voting, 9.

The amendment was not adopted.

On motion of Ms. Becker, the rules were suspended, the second reading considered the third, and Engrossed Senate Bill No. 2157 was placed on final passage.

Mr. Adams spoke in favor of passage of the bill.
POINT OF INQUIRY

Mr. Adams yielded to question by Mr. Warnke.

Mr. Warnke: "Representative Adams, I'm concerned with just one thing and that is, under the definition of 70.39.020(2), which defines consumer, could you be a member of Group Health and not qualify for appointment as a consumer under this bill?"

Mr. Adams: "If you were a member you could. If you were a medical doctor or in the profession, you could not."

Mr. Warnke: "The word 'fiduciary' bothers me. If you belong to a group health and you are having a deduction taken from your paycheck, do you not then have an interest in a group health facility system?"

Mr. Adams: "The only reason you would not be able to be appointed as a consumer would be that you were a member of the profession and that would be the medical profession."

Representatives Haley, Lux and Maxie spoke in favor of passage of the bill, and Mr. Newhouse spoke against it.

The Clerk called the roll on the final passage of Engrossed Senate Bill No. 2157, and the bill passed the House by the following vote: Yeas, 78; nays, 12; not voting, 8.

A division was called.

Senate Bill No. 2378 was passed to Committee on Rules for third reading.
FIFTY-SEVENTH DAY, MARCH 7, 1977

ENGROSSED SENATE BILL NO. 2075, by Senators Day, von Reichbauer, Beck, Van Hollebeke, Buffington, Herr, Keefe and Talley:

Excluding convents from nursing home regulation.

The bill was read the third time and placed on final passage.

Mr. Kreidler spoke in favor of passage of the bill.

POINT OF INQUIRY

Mr. Kreidler yielded to question by Mr. Greengo.

Mr. Greengo: "About a month ago, I believe, we passed House Bill No. 91 out of here to solve the same problem. Could you comment on where that bill is and why are we acting on this bill now when the other one passed much earlier?"

Mr. Kreidler: "The House bill languishes, I understand, in the Senate Social and Health Services Committee. The specific reason as to why House Bill No. 91 was not acted upon, I could not say. I only know that this bill is before us today—the Senate version. The language is essentially identical, accomplishes the same end, and I see no reason to hold up this just to say that the House bill was the one to pass."

Mr. Gallagher spoke in favor of passage of the bill.

ROLL CALL

The Clerk called the roll on the final passage of Engrossed Senate Bill No. 2075, and the bill passed the House by the following vote: Yeas, 91; nays, 0; not voting, 7.

Not voting: Representatives Boldt, Chandler, Dunlap, Hansen, King, Knedlik, McKibbin, Newhouse, and Mr. Speaker.
Engrossed Senate Bill No. 2126, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MOTION

Mr. Pardini moved that the Rules Committee be relieved of Senate Bill No. 2378 and that it be placed on today's third reading calendar.

SPEAKER'S RULING (MR. O'BRIEN PRESIDING)

The Speaker (Mr. O'Brien presiding): "Representative Pardini, Rule 24 says that every bill should be read on three separate days unless the House deems it expedient to suspend this rule. The House has already deemed it expedient that it does not want to suspend this rule."

Mr. Pardini: "Mr. Speaker, I would call the Chair's attention to the early days of this session when a bill dealing with thermal insulation was on the calendar. The Speaker passed the bill to Rules Committee and a motion was placed from this floor to relieve the Rules Committee and bring it back for third reading. During that particular session the bill was brought back to the floor with a majority vote and placed on the third reading calendar. I would cite that to you. I think there is adequate precedence for bringing Senate Bill No. 2378 back to the calendar for third reading and final passage."

The Speaker (Mr. O'Brien presiding): "In the instant case, Representative Pardini, you are referring to House Bill No. 98, which was passed to the Rules Committee, and then it was found there were certain amendments that hadn't been considered. The Rules Committee was then relieved of the bill for the purpose of coming back to second reading. Later the rules were suspended to advance House Bill No. 98 to third reading. The case here is the fact that now you are bypassing the rule and asking to relieve Rules Committee on a proposed motion to place it on third reading. This will require a suspension of the rules and the House has already deemed otherwise."

Mr. Pardini: "Mr. Speaker, I would respectfully submit to you that the information that has been given to you, or the advice that has been given to you, is erroneous. The bill on which we went back to second reading was a Department of Social and Health Services bill coming from the Social and Health Services Committee. Mr. Tilly wanted to add some amendments to that; you asked us to bring it back so that my colleague could add amendments, but I submit to you that on House Bill No. 98 the bill was passed to the Rules Committee, there were no further amendments. I believe that Representative Becker made the motion to relieve the Rules Committee, the Speaker accepted the motion and it was placed before the body and on a majority vote, House Bill No. 98 was brought back the same day for third reading and final passage."

The Speaker (Mr. O'Brien presiding): "Representative Pardini, the Speaker is going to adhere to his ruling. Your motion, to be successful, requires suspension of the rules."

The Speaker (Mr. O'Brien presiding): "Representative Thompson, of course you can talk somewhat to the purpose of the amendment, but we would like you to hold your remarks as much as you can to the motion."

Mr. Thompson continued his remarks in opposition to the motion.

With the consent of the House, Mr. Charette withdrew his motion.

POINT OF PARLIAMENTARY INQUIRY

CALL OF THE HOUSE

The Speaker instructed the Sergeant at Arms to lock the doors.

The Clerk called the roll and all members were present except Representatives Adams, King, McKibbin and Winsley.

On motion of Mr. Bender, the absent members were excused, and the House proceeded with business under the Call of the House.

The Speaker (Mr. O'Brien presiding) stated the question before the House to be the motion to reconsider the vote by which the House refused to concur in the Senate amendment to Engrossed House Bill No. 57.

POINT OF ORDER

Mr. Pardini: "Under Rule 70, reconsideration can only be had after the fiftieth day on the same day. My point is that the House, by its action yesterday in adjourning, in effect, defeated the proposal that Representative Thompson has before us, namely the motion to reconsider."

SPEAKER'S RULING (MR. O'BRIEN PRESIDING)

The Speaker (Mr. O'Brien presiding): "Rule 70 actually doesn't apply in this case relative to the motion to reconsider because the bill wasn't on final passage. Also, if you review House Rule 45, it states as follows: 'The unfinished business at which the house was engaged preceding adjournment shall not be taken up until reached in regular order, unless the previous question on such unfinished business has been ordered prior to said adjournment.' It is the Speaker's position that we are now taking up unfinished business from yesterday. Rule 45 applies and Rule 70 is not applicable in this instant case."
Mr. Pardini: "Has the Chair examined Reed's 205? It says, 'A motion to reconsider must be made on the day on which the action sought to be revised was had, and before any action has been taken by the assembly in consequence of it.' My point, Mr. Speaker, is that the action of the body in adjourning carried the motion to reconsider with it and wiped it out."

The Speaker (Mr. O'Brien presiding): "It is also the interpretation of that rule that the motion can be made as long as the matter is pending before the body. If you will read the rule further, it states that type of consideration would be in order. Also, it's the Speaker's opinion that Rule 45 is applicable to this bill, and the motion to reconsider. We are just picking up now where we left off yesterday."

Mr. Kreidler spoke in favor of the motion to reconsider.

ROLL CALL

The Clerk called the roll on the motion by Representative Thompson that the House reconsider the vote by which the House failed to concur in the Senate amendment to Engrossed House Bill No. 57, and the motion was carried by the following vote: Yeas, 61; nays, 33; not voting, 4.

He must pay the fee whether he does hook up or doesn’t hook up. My question is, if he now hooks up, does he get credit under this section for all the time that the sewer was in and he refused to hook up to it?"

Mr. Conner moved that the House do concur in all the Senate amendments to House Bill No. 240, with the exception of the amendment to page 1, lines 5 and 6.

POINT OF PARLIAMENTARY INQUIRY

Mr. Charette: "Mr. Speaker, if one wanted to divide the question so that they would be put separately, what motion would be made?"

The Speaker: "The question is divided, based on Representative Conner's motion, because he has not spoken to the second amendment. He is moving to concur in the amendments except for the second amendment which is still there. Therefore, then the motion will be necessary to either concur or not concur in the other amendment."

Mr. Conner spoke in favor of the motion, and it was carried.

Mr. Conner moved that the House refuse to concur in the Senate amendment to page 1, lines 5 and 6 and ask the Senate to recede therefrom.

MOTION

Mr. Charette moved that further action on House Bill No. 240 be deferred until tomorrow.

ROLL CALL

The Clerk called the roll on the motion to defer further consideration of House Bill No. 240, and the motion was carried by the following vote: Yeas, 59; nays, 36; not voting, 3.

FIFTY-EIGHTH DAY, MARCH 8, 1977

THIRD READING
INITIATIVE TO THE LEGISLATURE 59, "FAMILY FARM WATER ACT."

The initiative was read the third time and placed on final passage.

Mrs. Valle spoke in favor of passage of the initiative.

POINT OF PARLIAMENTARY INQUIRY

Mr. Newhouse: "Mr. Speaker, Initiative 59 is before both the House and the Senate. It is not contemplated that the issue will come to a vote before the Senate. Is there any reason, in view of that, why we should even be addressing the issue? As a matter of fact, it must pass both houses or it goes to the Secretary of State and it appears on the ballot. I recognize we have no control over what the Senate does, but if the Senate doesn't address the issue, why should we?"

The Speaker: "Representative Newhouse, we do not have any idea at this point whether the Senate will or will not address this issue. The initiative was filed and signed by 190,000 people; it went to both the House and the Senate. The House has chosen to act on that initiative. What the Senate does is entirely up to the Senate. The issue is logically before us and the members of this House will make the decision of whether they want to approve or disapprove the initiative."

Representatives Amen and Kilbury spoke in opposition to the initiative.

POINT OF PARLIAMENTARY INQUIRY

Mr. Owen: "Would you go over this one more time and tell us what alternatives the Legislature has with an Initiative to the Legislature? Also, if the bill is voted down and an alternative is put on the ballot, does the original initiative go on the ballot, too?"

The Speaker: "The initiative is before us; if the House approves the initiative, we will then send it to the Secretary of State. If the Senate also approves the initiative, then the initiative becomes law. If the House passes the initiative and the Senate does not pass it, then the initiative will be on the ballot. If the House were to fail the initiative, then the issue also ends up on the ballot."

Representatives Barr, Charette, Pruitt and Fortson spoke in favor of the initiative, and Mr. Clayton spoke against it.

Mr. Bender demanded an oral roll call and the demand was sustained.

MOTION

Mr. Patterson moved that Rule 51 be suspended for the purposes of the debate, and the motion was lost.

Representatives Becker, Kreidler and Zimmerman spoke in favor of the initiative, and Representatives Oliver, Shinoda, Flanagan, Bond, Struthers and Deccio spoke against it.

ROLL CALL

The Clerk called the roll on final passage of Initiative to the Legislature 59, and the initiative failed to pass the House by the following vote: Yeas, 45; nays, 50; not voting, 3.

Not voting: Representatives Adams, King, McKibbin.

Initiative Measure to the Legislature 59, having failed to receive the constitutional majority, was declared lost.

SENATE AMENDMENTS TO HOUSE BILL

The Speaker (Mr. O'Brien presiding) stated the question before the House to be the motion that the House do not concur in the Senate amendment to page 1, lines 5 and 6 of House Bill No. 240 and ask the Senate to recede therefrom.

Mr. Charnley spoke in favor of the motion, and it was carried.

POINT OF PARLIAMENTARY INQUIRY

Mr. Berentson: "I'd just like to ask, Mr. Speaker, if there has been any message from the Governor yet?"

The Speaker (Mr. O'Brien presiding): "In what connection?"

Mr. Berentson: "In regard to what we might be doing in the special session. We were informed that there was a discussion in the majority caucus today as to the length of that session. We're getting near the end of the week and we'd like to plan for either leaving early Friday or to know if we're going to be in session Friday. Do you have any idea what type of message you might receive from the Governor if you haven't received one yet?"

The Speaker (Mr. O'Brien presiding): "It's rather difficult for me to answer your question. All I can say is that the Governor is a very understanding woman. She is a person of great tolerance and understanding and I'm sure she recognizes the plight of legislators on this matter and that it requires a decision. I would think you will have a decision within the next twenty-four hours."

Mr. Berentson: "When she was in our caucus the other day, she mentioned something about forty-eight hours, and those forty-eight hours have elapsed and we're anxiously awaiting her message."

The Speaker (Mr. O'Brien presiding): "I'm sure she understands the situation."

POINT OF INQUIRY

Mr. Hawkins yielded to question by Mr. Pardini.

Mr. Pardini: "Representative Hawkins, do you have a special intent in leaving one of the amendments out? Are you going to move that we not concur in that one?"

Mr. Hawkins: "I'll so move after we dispose of these amendments."
Mr. Pardini moved that the House do concur in all the Senate amendments to House Bill No. 186.

SPEAKER'S RULING (MR. O'BRIEN PRESIDING)

The Speaker (Mr. O'Brien presiding): "Representative Pardini, it would be in better order to stay with the motion we have. Representative Hawkins has moved to concur in three amendments, and on the fourth amendment if he moves not to concur, then you can place your positive motion at that time."

With the consent of the House, Mr. Pardini withdrew his motion.

MESSAGES FROM THE GOVERNOR

March 10, 1977

TO THE HONORABLE,
THE SENATE AND THE HOUSE OF REPRESENTATIVES
OF THE STATE OF WASHINGTON
LADIES AND GENTLEMEN:

In compliance with the provisions of Section 11 of Article III of the Constitution of the State of Washington, I have the honor to submit herewith my report of each case of reprieve, commutation, or pardon which has been granted since the adjournment of the Second Extraordinary Session of the Forty-fourth Regular Session of the Legislature.

Harley Eugene Kline was convicted on April 8, 1974, by the Washington County Circuit Court, Commonwealth of Virginia, for the crime of bigamy and was sentenced to a term of three years in the Virginia Penitentiary. On June 27, 1974, the execution of said sentence was suspended and Harley Eugene Kline was placed on probation for a period of three years under various terms and conditions set by the court. In December 1974 he left Virginia and came to the State of Washington and has resided in this area since that time.

Harley Eugene Kline now stands charged with the crime of violation of the terms and conditions of his probation and the Governor of the Commonwealth of Virginia has sought to extradite him from the State of Washington by requisition dated October 27, 1975, and to have him returned to Virginia to serve his sentence. Harley Eugene Kline has resisted such extradition and has petitioned for permission to remain in this state.

After a detailed consideration of the entire background in this case, my predecessor concluded that the best interests of Harley Eugene Kline, and the States of Washington and Virginia would be best served by allowing him to remain in this state under special parole supervision in lieu of his extradition to the Commonwealth of Virginia.

The extradition request by the Commonwealth of Virginia was directed to be held in abeyance during a three-year period. In the event it is shown to my satisfaction or any succeeding Governor at any time during the three-year period that Harley Eugene Kline has violated any of the terms and conditions of his special parole, granted on August 2, 1976, the extradition request of the Commonwealth of Virginia may thereupon be granted and a Governor's warrant of arrest issued without prior notice or hearing.

Respectfully submitted,

DIXY LEE RAY, Governor.

March 10, 1977

TO THE HONORABLE,
THE SENATE AND THE HOUSE OF REPRESENTATIVES
OF THE STATE OF WASHINGTON
LADIES AND GENTLEMEN:

In compliance with the provisions of Section 11 of Article III of the Constitution of the State of Washington, I have the honor to submit herewith my report of each case of reprieve,
commutation, or pardon which has been granted since the adjournment of the Second Extraordinary Session of the Forty-fourth Regular Session of the Legislature.

On the 8th day of December 1967, Augustus Wood was sentenced by the Superior Court of the State of Washington for King County, to a term of life imprisonment for the crime of Murder in the First Degree. He had served in excess of seven years at Washington State Penitentiary in Walla Walla where his conduct and record were exemplary. Because of the statutory minimum sentence provided in RCW Chapter 9.95, substantial additional incarceration would have been required before he would have been eligible for parole pursuant to the authority of the Board of Prison Terms and Paroles.

Petitions were received on behalf of Augustus Wood urging that his life sentence be commuted so he would be eligible for parole on the grounds that he was clearly able to assume a responsible role in society, was demonstrably rehabilitated, would not constitute a threat to other persons, and would not be benefited by further incarceration. The Board of Prison Terms and Paroles had reviewed his case and recommended to my predecessor that the life sentence be commuted.

All information available with respect to Augustus Wood was carefully reviewed and the recommendations of public officers who are knowledgeable of his present circumstances had been considered. My predecessor concluded that further incarceration of Augustus Wood was not in the best interest of society or himself.

On January 10, 1977, a commutation order was signed to commute the life sentence of Augustus Wood and authorize the Washington State Board of Prison Terms and Paroles to parole Augustus Wood subject to the complete control, supervision, and authority of said Board, which authority would include any and all action deemed appropriate by the Board including the authority to revoke the parole and return Augustus Wood to imprisonment.

Respectfully submitted,
DIXY LEE RAY, Governor.

TO THE HONORABLE,
THE SENATE AND THE HOUSE OF REPRESENTATIVES
OF THE STATE OF WASHINGTON
LADIES AND GENTLEMEN:

In compliance with the provisions of Section 11 of Article III of the Constitution of the State of Washington, I have the honor to submit herewith my report of each case of reprieve, commutation, or pardon which has been granted since the adjournment of the Second Extraordinary Session of the Forty-fourth Regular Session of the Legislature.

Gerald Lee Albaugh was found guilty of Second Degree Burglary by the Superior Court of the State of Washington for Lewis County on April 25, 1963, and was sentenced to a term of not more than 15 years in the State Reformatory. Mr. Albaugh served 2 years at the Reformatory and was paroled on January 24, 1965. Subsequently, he violated parole and was returned to the Reformatory for a 1-year period. In November 1972, Mr. Albaugh was released from parole and received a Final Discharge and Restoration of Civil Rights on March 5, 1974.

Gerald Albaugh has since maintained a record free of further arrests and for the past 4 years has been fully employed by the Centralia School District with an excellent work record. On October 19, 1975, he was granted a license to carry a concealed weapon by the Lewis County Sheriff's Office. His petition for a pardon is supported by numerous individuals in the community who have attested to his good character and standing, including the former Prosecuting Attorney for Lewis County who sought Mr. Albaugh's original conviction.

For these reasons, on January 10, 1977, Gerald Lee Albaugh was granted a pardon from that judgment and sentence of Second Degree Burglary entered on April 25, 1963 by the Superior Court of the State of Washington for Lewis County by my predecessor.

Respectfully submitted,
DIXY LEE RAY, Governor.

Frank Carver Brooks was found guilty of Resisting Arrest by the District Court of the State of Washington for the City of Mount Vernon on June 23, 1955, and was sentenced to sixty days in the county jail. Fifty-six days of the sentence were suspended, accompanied by an order to pay costs. On February 18, 1962, Mr. Brooks was arrested for Public Intoxication and was fined $25.00 by the District Court of the State of Washington for the City of Lynnwood. There is no record of any felony convictions and Mr. Brooks has never lost his civil rights.

Since 1945, Frank Carver Brooks has been President of Frank Brooks Manufacturing Company in Bellingham, Washington. Mr. Brooks is a successful businessman and a responsible member of the community, volunteering his services to a wide variety of civic organizations. His petition for a pardon is supported by numerous individuals in his community who have attested to his good character and standing.

For these reasons, on January 10, 1977, Frank Carver Brooks was granted a pardon from that judgment and sentence of resisting arrest occurring on June 23, 1955, and the February 18, 1962 conviction of Public Intoxication, by my predecessor.

Respectfully submitted,
DIXY LEE RAY, Governor.
March 10, 1977

TO THE HONORABLE,
THE SENATE AND THE HOUSE OF REPRESENTATIVES
OF THE STATE OF WASHINGTON
LADIES AND GENTLEMEN:

In compliance with the provisions of Section 11 of Article III of the Constitution of the State of Washington, I have the honor to submit herewith my report of each case of reprieve, commutation, or pardon which has been granted since the adjournment of the Second Extraordinary Session of the Forty-fourth Regular Session of the Legislature.

On December 5, 1955, Robert J. O'Toole was sentenced by the United States District Court for Alaska to confinement in a federal penitentiary for a period of 15 years for the crime of murder. Article VI, Section 3 of the State Constitution disqualifies a person convicted of a felony from voting in the State of Washington.

While the Board of Prison Terms and Paroles has the statutory authority to grant a restoration of civil rights to a person convicted of a felony under state law, it does not have such authority where a person is convicted under federal law.

I am advised that Robert J. O'Toole had conducted himself in a satisfactory and acceptable manner and had given such evidence as to justify the belief that he is trustworthy and reliable and that a restoration of his civil rights was appropriate.

On November 17, 1976, all civil rights and privileges forfeited by reason of his conviction were restored by my predecessor.

Respectfully submitted,
DIXY LEE RAY, Governor.
March 10, 1977

TO THE HONORABLE,
THE SENATE AND THE HOUSE OF REPRESENTATIVES
OF THE STATE OF WASHINGTON
LADIES AND GENTLEMEN:

In compliance with the provisions of Section 11 of Article III of the Constitution of the State of Washington, I have the honor to submit herewith my report of each case of reprieve, commutation, or pardon which has been granted since the adjournment of the Second Extraordinary Session of the Forty-fourth Regular Session of the Legislature.

On October 19, 1973, Bert Benjamin Ibsen was sentenced by the United States District Court for the Western District of Washington to confinement in a federal penitentiary for a period of 5 years for the crime of misappropriation of funds. Article IV, Section 3 of the State Constitution disqualifies a person convicted of a felony from voting in the State of Washington.

While the Board of Prison Terms and Paroles has the statutory authority to grant a restoration of civil rights to a person convicted of a felony under state law, it does not have such authority where a person is convicted under federal law. However, the Governor does have the authority to restore within this state the civil rights of a person convicted of a felony under federal law.
I am advised that Bert Benjamin Ibsen had conducted himself in a satisfactory and acceptable manner and had given such evidence as to justify the belief that he is trustworthy and reliable and that a restoration of his civil rights was appropriate.

On October 29, 1976, all civil rights and privileges forfeited by reason of his conviction were restored by my predecessor.

Respectfully submitted,
DIXY LEE RAY, Governor.

SIGNED BY THE SPEAKER

The Speaker announced he was signing:

SENATE BILL NO. 2133.

Sidney R. Snyder, Secretary.

PROCLAMATION BY THE GOVERNOR

In accordance with the constitutional limitation in Article II, Section 12, the 45th Session of the Washington State Legislature will be adjourned March 10, 1977, the sixtieth day of the session. It is obvious that the sixty day limit imposed in 1889 does not allow the Legislature enough time to consider the problems our state faces in 1977.

In recognition of the unrealistic deadline the sixty day limit imposes, I intend to convene the Legislature in extraordinary session. I am confident that during this special session the members of the 45th Legislature will resolve the problems of school funding, deal with pension reform, revise our tax system, provide emergency authority to deal with the energy shortage, provide authority for reorganizing state government, and fund state government.

NOW, THEREFORE, I, DIXY LEE RAY, Governor of the State of Washington, by virtue of the authority vested in me by the Constitution, do hereby convene the Legislature of the State of Washington in extraordinary session in the Capitol at Olympia on the eleventh day of March, A.D., 1977, at the hour of nine o'clock a.m. for the purposes stated herein.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the State of Washington to be affixed at Olympia, this tenth day of March, A.D., Nineteen Hundred and Seventy-seven.

(Seal)

DIXY LEE RAY, Governor.

The Speaker declared the House to be at ease.

The Speaker called the House to order.

MOTION

On motion of Mr. King, the House reverted to the fourth order of business.

MESSAGE FROM THE SENATE

March 10, 1977

Mr. Speaker:

The Senate has adopted:

SENATE CONCURRENT RESOLUTION NO. 113,

and the same is herewith transmitted.

SIGNED BY THE SPEAKER

Sidney R. Snyder, Secretary.

INTRODUCTION AND FIRST READING

SENATE CONCURRENT RESOLUTION NO. 113, by Senators Walgren, Bailey, Matson and Newschwander:

Establishing cutoff dates for the extraordinary session.

MOTIONS

On motion of Mr. King, the rules were suspended, and Senate Concurrent Resolution No. 113 was advanced to second reading and read the second time in full.

On motion of Mr. King, the rules were suspended, the second reading considered the third, and Senate Concurrent Resolution No. 113 was placed on final passage.
Representatives King and Berentson spoke in favor of the resolution.

POINT OF INQUIRY

Mr. King yielded to question by Mr. Pardini.

Mr. Pardini: "Representative King, the phrase, 'energy measures,'—is that intended to encompass water also, in the event we should come up with a solution to the drought problem?"

Mr. King: "My initial response to that would be yes, Representative Pardini; however, it would be a moot reason because we would have to look at the actual matter that was before us at the time."

The Speaker: "In further response to the question, those categories that are outside of the cutoff are basically broad statements and at the time an issue is before us, the Speaker would have the responsibility to decide whether that issue is within the cutoff or is excluded from it."

POINT OF INQUIRY

Mr. King yielded to question by Mr. Hurley (George).

Mr. Hurley (George): "Representative King, I don't see anything there about senior citizen legislation and it seems to me it's so important that it should not be excluded."

Mr. King: "I think we are all aware of the importance of senior citizen legislation. The bulk of it will be handled before the cutoff. The real help to them will come in appropriations and revenue measures, however, which are not in the cutoff."

Mr. Hurley (George): "Let's assume a bill or two isn't taken care of, then what?"

Mr. King: "Again, we would have to deal with it at the time. It's possible to change rules."

The resolution was adopted.

The Speaker declared the House to be at ease.

The Speaker called the House to order.

MESSAGE FROM THE SENATE

March 10, 1977

Mr. Speaker:
The Senate refuses to grant the request of the House for a conference on HOUSE BILL NO. 262, and adheres to its position on the Senate amendment thereto, and once again asks the House to concur therewith, and the same is herewith transmitted.

Sidney R. Snyder, Secretary.

MOTION

On motion of Mr. Martinis, the House concurred in the Senate amendment to House Bill No. 262, and the following statement was ordered read into the Journal:

Relating to my Amendment to HOUSE BILL NO. 262:

It was adopted by the Senate on March 4, 1977. The intent of my amendment is to retain the right of private land owners to control trespass over and across their lands, and to protect their property against abuse or damage. This provision specifically relating to wildlife is covered in the game code under RCW 77.16.230. I simply want to reaffirm this individual right.

It is not the intent of my amendment to allow individuals to establish fish and wildlife seasons independent of those established by the State Game Commission which is charged with that responsibility. I recommend that the Senate refuse a request for a Conference Committee on this issue and that it be transmitted back to the House for their concurrence in the existing language.

Senator A. L. Rasmussen.

FINAL PASSAGE OF HOUSE BILL AS AMENDED BY SENATE

The Speaker stated the question before the House to be the final passage of House Bill No. 262 as amended by the Senate.

Mr. Wilson spoke in favor of passage of the bill.
ROLL CALL

The Clerk called the roll on the final passage of House Bill No. 262 as amended by the Senate, and the bill passed the House by the following vote: Yeas, 82; nays, 1; not voting, 15.

Voting nay: Representative Nelson D.

House Bill No. 262 as amended by the Senate, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

POINT OF PERSONAL PRIVILEGE

Mr. Martinis: "The other day I spoke to the fact that the Senate amendment to House Bill No. 262 was surplus baggage in this bill. I'd like to point out that one time I was traveling with Senator Rasmussen and he was carrying an extra bag for a one-night stand. As we were rushing to the cab, the bag dropped and there was nothing in it. Believe me, this amendment that he has put on this bill has the same similarity."

MOTION
Mr. Adams moved that the rules be suspended, and additional sponsors be allowed to sign on Second Substitute House Bill No. 251.

POINT OF ORDER
Mr. Newhouse: "This is a rather unusual procedure since a substitute bill normally does not have sponsors. How would you propose to increase the sponsorship on this one?"
The Speaker: "The bill is still a substitute bill by the committee and if the body decides to suspend the rules, the additional sponsors would be added in the same manner as the original sponsors would appear on the bill."
Mr. Newhouse: "Again a rather unusual circumstance—the first substitute bill in this case was by the Committee on Social and Health Services and I understand the second substitute is by the Appropriations Committee."

The Speaker: "That is correct."

The motion to suspend the rules was carried.

ADDITIONAL SPONSORS

Those signing on as additional sponsors to Second Substitute House Bill No. 251 were: Representatives Amen, Barr, Bender, Charnley, Clayton, Douthwaite, Ehlers, Erak, Erickson, Fancher, Fuller, Gilleland, Haley, Hawkins, Lee, Nelson (Gary), O'Brien, Oliver, Pardini, Patterson, Salatino, Sanders, Schmitten, Shinoda, Taller, Walk, Warnke, Williams, Wilson, Winsley and Grier.

POINT OF INQUIRY

Mr. King yielded to question by Mr. Nelson (Dick).

Mr. Nelson (Dick): "I wonder if you could tell us why Second Substitute House Bill No. 251 was moved to the bottom of today's agenda?"

Mr. King: "It was placed at the bottom of the agenda because friends of the bill wanted to check out an amendment to make sure that it would actually help the bill. It is our intention to move the bill back up if all those questions are worked out before we get to the bottom of today's second reading calendar. It is not an attempt to delay the bill at all."

HOUSE BILL NO. 287, by Representatives Hansen, Dunlap and Gilleland:

Mr. Shinpoch spoke in favor of the amendment.

POINT OF INQUIRY

Mr. Shinpoch yielded to question by Mr. Newhouse.

Mr. Newhouse: "We've been concerned, Representative Shinpoch, that someone should have an overall plan for the development of the campus. Would the Capitol Committee have that plan and would this properly give authority to the Capitol Committee to place to best advantage any proposed parking garage?"

Mr. Shinpoch: "It is my understanding that removal of this language and the next amendment, which also defines structure, would give the Capitol Committee that ability."

Mr. Blair spoke in favor of the amendment.

The amendment was adopted.

On motion of Mr. Shinpoch, the following amendments by Representatives Shinpoch and Keller were adopted:

On page 3, line 28 after "garage" strike "on the site of the present state library parking lot" and insert "to be located on the west capitol campus"

Mr. Patterson: "Representative Dunlap, when you read the legislation and that section of the law that is being amended, the question I have is would the $10,000 be part of the original $25,000 limitation, or would that be an addition thereto? Would this extend the project if it included electrical to a total of $35,000?"

Mr. Dunlap: "That is not my understanding."

Mr. Patterson: "It would be part of the $25,000?"

Mr. Dunlap: "That is my understanding, yes."

On page 3, following line 15 add a new section as follows:

On page 1, line 1 of the title strike "and" and on line 3 of the title after "41.05.020" insert "; and declaring an emergency"

POINT OF INQUIRY

Mr. Ehlers yielded to question by Mr. Newhouse.

Mr. Newhouse: "I notice that the section we are addressing in the bill really amends a chapter of the 1977 Laws, and if my digest is correct that was a code correction. Is that right? Is that what we are doing here? It says House Bill No. 173, which is a code correction."

Mr. Ehlers: "The only thing I can say, Representative Newhouse, is that this goes back to the problem we had earlier where we were amending the same section and we didn't want to have the problem of two laws amending the same section. That's the only explanation I can see."

The Speaker declared the question before the House to be an amendment by Representative Deccio, adding a new section 2.

With the consent of the House, Mr. Deccio withdrew the amendment.

Mr. Deccio moved adoption of the following amendment:

On page 1, following section 1 add a new section as follows:

"NEW SECTION. Sec. 2. Each manufacturer, distributor and commercial installer shall be required to carry a minimum of $250,000 per each accident and $500,000 per occurrence, products and completed operations liability insurance and furnish a certificate of such insurance to every purchaser or owner.*

Renumber the remaining section consecutively.

Mr. Deccio spoke in favor of adoption of the amendment.

POINT OF INQUIRY

Mr. Deccio yielded to question by Mr. Warnke.

Mr. Warnke: "I wonder if you could tell me the difference between $250,000 per accident or $500,000 per occurrence?"

Mr. Deccio: "$250,000 would be a limit per action and $500,000 per occurrence is different from an accident and that would be the total amount. That's the way the limits are set up in a policy."

Mr. Warnke spoke in favor of the amendment.

POINT OF INQUIRY

Mr. Deccio yielded to question by Mr. Amen.

Mr. Amen: "Representative Deccio, I'm still not clear on this. $250,000 for each accident—how are you going to determine beforehand how much insurance a manufacturer, distributor or commercial installer has to have before there's any accident?"

Mr. Deccio: "The $250,000 and the $500,000 is the way all insurance policies are written. I'm installing the language as it now exists in a liability insurance policy. A limit for one accident and a double limit for total amount paid during the policy term."

Mr. Amen: "How do you determine how much accident liability the manufacturer is to have if it goes so much per accident, before an accident has happened?"

Mr. Deccio: "Representative Amen, I don't understand your question. If a suit is filed against a manufacturer, distributor or installer, they would have up to $250,000 liability for injury applying to one accident or a total of $500,000 if more than one accident were to occur during the policy year."

POINT OF INQUIRY

Mr. Deccio yielded to question by Mr. Knedlik.

Mr. Knedlik: "I'm interested in why it is that we are singling out one kind of manufacturer, distributor and commercial installer and requiring these levels for liability and products liability insurance when, in fact, there are thousands and thousands of other products which are just as dangerous or not any more dangerous and we are not requiring this of them?"

Mr. Deccio: "The installer does not have to be a licensed electrician; does not have to comply with state law to be a licensed electrician; does not have to be licensed as a general or specialty contractor. Anybody can put these things in and I suppose as soon as the state
requires the mandatory purchase of any kind of manufactured equipment we would do the same thing, but here we’re talking about smoke detectors."

Representatives Knedlik and Leckenby spoke against the amendment, and Representatives Blair and Deccio spoke in favor of it.

The amendment was not adopted.

House Bill No. 357 was ordered engrossed and passed to Committee on Rules for third reading.

The Speaker called on Mr. O’Brien to preside.

On motion of Mr. Lux, the committee amendments were adopted.

Mr. Newhouse moved adoption of the following amendment:

On page 5, line 1 beginning with "ill" strike all the material down to and including "fund." on line 19. Renumber the remaining section consecutively.

Mr. Newhouse spoke again in favor of the amendment, and Mr. Charette spoke against it.

Establishing the LEAP committee.

On motion of Mr. Thompson, the following amendment by Representatives Thompson and Polk was adopted:

On page 2, beginning on line 26 after "appropriated by" strike all the material down to and including the period on line 28 and insert "law for the committee: PROVIDED, That the senate and the house may authorize the committee to draw on funds appropriated by the legislature for legislative expenses."

Mr. Thompson moved adoption of the following amendment by Representatives Thompson and Polk:

On page 4, following line 26 insert a new section as follows:

"NEW SECTION. Sec. 13. The committee is hereby expressly exempted from the provisions of chapter 43.105 RCW."

Renumber the remaining sections consecutively.

Representatives Thompson and Polk spoke in favor of the amendment, and Mr. Shinpoch spoke against it.

Mr. Charnley demanded an electric roll call and the demand was sustained.

Mr. Thompson spoke again in favor of the amendment, and Mr. Shinpoch spoke again in opposition to it.

POINT OF INQUIRY

Mr. Shinpoch yielded to question by Mr. Hurley (George).

Mr. Hurley (George): "Representative Shinpoch, to get into this field, it's a field of almost foreign language to many of us and we take the words of experts. I assume that Representatives Polk, Thompson and yourself are experts. I notice that in the City of Seattle they have run into millions of dollars in debt on data processing and they don't seem to know whether they are going backwards or forwards in those data processing systems, so I assume that with the data processing system we should adopt here, or would adopt or would not adopt, we should know the direction we are going. I wonder if you think we should have some total of the money that is being spent on this system?"

Mr. Shinpoch: "Representative Hurley, the Legislature will have the control of the money that is being spent irrespective of whether the Data Processing Authority must review it for conformity to programming language—for conformity to the types of machines they are going to run on, to the software, the hardware. Irrespective of that, the Legislature makes the decision about how much money is going to be spent. The Legislature makes the decision about what kind of a system it is that we are going to have. We determine our own requirements and we fund it. That is not a function of the Data Processing Authority's responsibility."

Mr. Hurley (George): "Do you mean that if the amendment is adopted it will still be a good bill?"

Mr. Shinpoch: "I think it would be much less of a bill than it is now."

POINT OF INQUIRY

Mr. Shinpoch yielded to question by Mr. Pardini.

Mr. Pardini: "Representative Shinpoch, if the amendment is defeated and the LEAP system is under data processing, would that have a probable impact of locking us into one supplier of equipment, one supplier of systems and one supplier of software?"

Mr. Shinpoch: "I'm not sure how to answer your question. I think the answer to your question is that number one, the Data Processing Authority does not make those determinations relative to the type of software that we are going to buy. That's our determination of the kind of system we want. We determine our requirements and we fund our requirements. Relative to what kind of software we have or hardware we have, I don't think we care what kind of hardware it runs on as long as we get our data. I'm not real sure where you were going or what
Mr. Pardini: "If the attempt is to standardize and to integrate under the Data Processing Authority the computers, the software systems, their compatibles, as they speak with each other, maximum utilization of all that—in driving toward that goal do we then become so systematized that only one supplier can provide us either with hardware, software, programs that speak to each other, drives, tapes—that intermix?"

Mr. Shinpoch: "I think if you'll look at the equipment that is used on some kind of a common basis, you'll find that is not necessarily the case. We buy Univac; we buy IBM—I guess I don't think that for people who don't know anything about the computers, that's the key question. The key question is what kind of interface equipment do you have? That interface equipment is what is necessary in order to allow you to use the different systems. I'm sure that our software system has the flexibility with operating systems that can operate off of Univac or IBM and probably operates on both now."

POINT OF INQUIRY

Mr. Shinpoch yielded to question by Mr. Flanagan.

Mr. Flanagan: "These computer people talk a language that I and about ninety percent of the other people in here don't understand. Would you explain what is software and what is hardware?"

Mr. Shinpoch: "I'll try. I'm not sure that I fully understand. Hardware is simply the computer that runs. Software to me has two connotations: One is the operating system that carries the program through the hardware. I call all of those programs, whether it's operating systems or the applications themselves, software."

Mr. Polk spoke again in favor of the amendment.

POINT OF ORDER

Mr. Shinpoch: "The efficiency or nonefficiency of the State Data Processing Authority has no bearing on this amendment, which is to exempt the Legislature from acts of the Legislature. The administration of RCW 43.105 has nothing to do with this amendment."

The Speaker (Mr. O'Brien presiding): "Representative Polk, will you hold your remarks to the amendment. Hold them as closely as possible for the reasons for adopting this amendment."

Mr. Polk continued his remarks in favor of the amendment.

POINT OF ORDER

Mr. Shinpoch: "I just raised this point of order. The administration of this act has no bearing on the validity of whether we should be exempted or not. It was my understanding that you had just instructed him to talk about the amendment rather than about the administration of the Data Processing Authority."

The Speaker (Mr. O'Brien presiding): "I understand the purpose of this amendment, Representative Polk, and I'm sure you understand it. Let's keep your remarks relevant to this issue."

POINT OF PARLIAMENTARY INQUIRY

Mr. Polk: "Mr. Speaker, can I speak about the efficiency or the operation of a state agency if we're discussing whether to put something under that state agency? To me that seems to be a relevant factor."

The Speaker (Mr. O'Brien presiding): "You can state in your remarks why you want to be excluded from under the Data Processing Commission. I suppose this is the purpose of your amendment, and you can discuss that."

Mr. Polk continued his remarks.

POINT OF ORDER

Mr. Shinpoch: "Mr. Speaker, once more, the ability of an administrator does not have anything to do with the law. If you're trying to be exempted from the law—"
Mr. Berentson: "It just seems to me, Mr. Speaker, that you should make a ruling as to whether Representative Polk is going to be able to speak to the amendment or not. This is a dangerous precedent—if any member can just stand up and object because he doesn't like what he is hearing, we're in for a lot of trouble. Either the amendment by Mr. Polk allows him to speak about the way the Data Processing Authority is administered or it doesn't, but if he's going to be continuously interrupted I think the decision has to come from the Chair whether he is going to be allowed to speak or not."

SPEAKER'S RULING (MR. O'BRIEN PRESIDING)

The Speaker (Mr. O'Brien presiding): "Reed's Rule 160 states as follows: 'Amendments must be germane. Notwithstanding what has been said as to the wide range which amendments may take, yet there is a limitation. They must be germane or relevant to the subject matter of the original proposition. It is impossible to lay down any precise rule upon this subject, and much depends on the good sense of the presiding officer.' I would hope, Representative Shinpoch, that you would let him continue for a little while. Reed's Rule 161 states, 'Incompatibility or inconsistency ...' This is up to the judgment and the decision of the body. I would think what should happen is that Representative Polk should discuss his amendment and then let the body decide whether they think this is incompatible or not germane.

Mr. Shinpoch: "I've been trying to speak to my point of order for a while—"

POINT OF ORDER

Mr. Berentson: "Representative Shinpoch has already stated his point of order. It's up to you to rule whether it's really a point of order or whether you are going to allow Representative Polk to continue his debate."

The Speaker (Mr. O'Brien presiding): "The Speaker will allow Representative Shinpoch to speak to his point of order and if you wish to speak to the point of order after, Representative Polk, I will allow you to speak to the point of order."

Representatives Shinpoch and Polk spoke to the point of order.

The Speaker (Mr. O'Brien presiding): "Representative Polk, you have the floor if you wish to speak to your amendment."

Mr. Polk concluded his remarks in favor of the amendment.

Mr. Thompson demanded the previous question and the demand was sustained.

ROLL CALL

The Clerk called the roll on adoption of the amendment by Representatives Thompson and Polk to Substitute House Bill No. 660, and the amendment was adopted by the following vote: Yeas, 49; nays, 42; not voting, 7.

On motion of Mr. Thompson, the following amendments were adopted:

On page 5, beginning on line 1 insert:

"NEW SECTION. Sec. 16. This act is necessary for the immediate preservation of the public peace, health and safety, the support of the state government and its existing public institutions and shall take effect immediately."

On line 3 of the title strike the period and insert "and declaring an emergency."

Substitute House Bill No. 660 was ordered engrossed and passed to Committee on Rules for third reading.
SECOND SUBSTITUTE HOUSE BILL NO. 251:

The House resumed consideration of the bill on second reading.

Mr. Williams moved adoption of the following amendment:
On page 3, line 3 after "means" and before "income" strike "initial resources or subsequent" and insert "((initial resources or subsequent))"

Mr. Williams spoke in favor of the amendment, and Representatives Whiteside and Shinpoch spoke against it.

The amendment was not adopted.

The Clerk read the following amendment by Representative Williams:
On page 3, beginning on line 12 after "(8)" strike all the material down to and including "(9)" on line 16 and insert "((Resource) shall have the same meaning as RCW 74.04.005(11), as now or hereafter amended: (9)))"

With the consent of the House, Mr. Williams withdrew the amendment.

Mr. Haley moved adoption of the following amendments:
On page 4, line 9 after "health" strike "screening" and insert "((screening))"
On page 5, line 8 strike "screening" and insert "((screening)) evaluation"

Representative Haley spoke in favor of the amendments, and Representatives Gruger, Fortson, Adams, Pruitt and Whiteside spoke against them.

POINT OF INQUIRY

Mr. Haley yielded to question by Mr. Leckenby.

Mr. Leckenby: "Dr. Haley, you made the point that if this phraseology is changed to eliminate the screening and go to evaluation that there would be released considerable funds to be used for other purposes. It seems to me that this is where the judgment should rest with the members of the House and I think we need to know more. I realize that we're dealing in a very sophisticated area and most of us are not acquainted with the thing as deeply as you are, but how would these funds that would be released if we went to the evaluation system rather than the screening be used, and is there a greater benefit in that case?"

Mr. Haley: "There isn't enough money to go around for all the services that will be provided to senior citizens. If, instead of screening everyone, we just screened those who have some symptom or other, maybe we will be closer to being able to provide the health evaluation that is needed. There certainly is not enough money here (15% of this total) to be able to screen everyone. It's a matter of setting a little higher priority and get to evaluating all those people who have symptoms. Otherwise if we simply try to screen everyone we'll see far fewer people who really have the health problems. In screening you pick up a lot of people who have nothing appreciable wrong with them and that takes time and money. In other words, you see a lot of people who have nothing more than osteoarthritis and what can you tell them to do? Take aspirin and use heat. So you've just wasted money and you've wasted time doing that, whereas if you allowed them to only come if they have symptoms, you are much more likely to be cost effective with that dollar."

Mr. Leckenby spoke in favor of the amendments.

Ms. Becker demanded an electric roll call and the demand was sustained.

Representatives Pardini, Haley and Barr spoke in favor of the amendments, and Representatives Lux and Adams spoke against them.

ROLL CALL

The Clerk called the roll on adoption of the amendments by Representative Haley to Second Substitute House Bill No. 251, and the amendments were not adopted by the following vote: Yeas, 21; nays, 67; not voting, 10.

The bill was read the third time and placed on final passage.

Mr. Thompson spoke in favor of passage of the bill, and Representatives North and Becker spoke against it.

Mr. Thompson spoke again in favor of the bill, and Representatives Zimmerman and Lee also spoke in favor of it.

POINT OF INQUIRY

Mr. Thompson yielded to question by Mr. Newhouse.

Mr. Newhouse: "Representative Thompson, I'm afraid the people are talking this bill to death and we've been reading it in the process. In section 8 it says that the secretary shall adopt performance standards for fire protection incorporated in the systems. I recognize your proviso says that it shall not apply to existing systems; however, the words 'expanding systems' bothers me. When an existing system expands to one new household then may the secretary require that they have capacity facilities for a fire protection system that they have never had before?"

Mr. Thompson: "I think you've correctly identified the situation. Any expansion of an existing system would comply necessarily with the fire protection standards. I'm pleased to say that on the floor of the House. Are we not interested in providing adequately for fire protection? Do not purchasers of homes expect it—require it? Should not purveyors provide it in the course of doing business?"
ROLL CALL

The Clerk called the roll on the final passage of Engrossed Substitute House Bill No. 165, and the bill passed the House by the following vote: Yeas, 69; nays, 23; not voting, 6.

ROLL CALL

Voting nay: Representative Pardini.

Requiring smoke detectors.

The bill was read the third time and placed on final passage.

Mr. Gaines spoke in favor of passage of the bill, and Mr. Polk spoke against it.

POINT OF INQUIRY

Mr. Polk yielded to question by Mr. Eng.

Mr. Eng: "Representative Polk, you say that all this bill does is apply to rental property. We amended the bill on second reading, but the bill still states, 'Not occupied by owners.' Does this mean that each rental unit within that unit would have to have a smoke detector?"

Mr. Polk: "That's my understanding of the bill. I should expand it just a little bit, Representative Eng, to say that maybe I'm not correct in saying just rental property because it could be a property that you are not charging rent on as well. For instance, if you have your mother-in-law living in a residence that you own, that would also fall under this bill."
Mr. Eng: "So that date, June 30, 1977, has nothing to do with it at all in relation to sub­section (a)? All that means is that any rental unit, old or new, that is in existence right now would fall into the category of having to put in the smoke detectors?"

Mr. Polk: "Yes, that's my understanding. Line 9, which deals with subsection (a), is the only new thing being done by this bill. The rest of it is current law now."

Mr. Eng spoke against passage of the bill.

POINT OF INQUIRY

Mr. Polk yielded to question by Mr. Deccio.

Mr. Deccio: "Would the bill require that if you sold your home you would have to install smoke detectors before that sale could be consummated?"

Mr. Polk: "No, that language was stripped out on second reading."

Mr. Deccio: "Then it would apply strictly to any new construction or any existing con­struction as far as rental units are concerned?"

Mr. Polk: "Any new construction is in the law right now, but this only applies to rental units. The way I read the bill, if you have rental units, or if you have property that you are not occupying, you are required by this bill to install smoke detectors."

Representatives Erak, Warnke, Dunlap and Grier spoke in favor of passage of the bill.

ROLL CALL

The Clerk called the roll on the final passage of Engrossed House Bill No. 357, and the bill passed the House by the following vote: Yeas, 65; nays, 27; not voting, 6.

Substitute House Bill No. 161 was read the second time.

Mrs. Winsley moved adoption of the following amendment by Representatives Winsley, Knowles and Hurley (Margaret):

On page 5, line 25 strike all of section 3 and renumber the remaining sections consecutively.

Mrs. Winsley spoke in favor of the amendment.

POINT OF PARLIAMENTARY INQUIRY

Mr. Warnke: "Mr. Speaker, will the amendment to strike all of section 3 remove only the new language and place back in the old language, or will it strike the entire new and old language?"

The Speaker: "This amendment would remove section 3. It would not affect section 32.21.060. That part of the RCW would remain exactly as it is now.*

Representatives Knowles, Hurley (Margaret), Struthers, Oliver and Winsley spoke in favor of the amendment, and Representatives Hurley (George), Eng, Pardini and Lux spoke against it.

Mr. Eng spoke again in opposition to the amendment.
POINT OF INQUIRY

Mr. Pardini yielded to question by Mr. Patterson.

Mr. Patterson: "Representative Pardini, a new element has been brought into the discussion this afternoon and something that I think the body should be enlightened about. We have had reference made to the conversion now of the mutual savings banks back to becoming savings and loans. Could you identify what the basic difference would be between a savings and loan and a mutual savings bank and why they would convert?"

Mr. Pardini: "Representative Patterson, in my opinion the basic difference between a savings and loan association and a mutual savings bank is that a savings and loan association has a primary obligation to accumulate funds in whatever manner it can and to serve its borrowers, contrasted with a mutual savings bank. I think that this philosophy exists in the management of savings and loans and mutual savings banks. The primary function of a mutual savings bank is to protect its depositors and to make loans wherever it can to the maximum advantages of its savers. The history of the mutual savings bank is unparalleled in safety. A mutual savings bank has never been closed in the United States, even through the depression. It is because the management has primary consideration for the protection of savers. That's why this particular amendment is being offered—for additional diversification and additional earnings power. In the case of the savings and loan association by which I am employed and which converted to a mutual savings bank in 1968, we converted simply because we could not live with the unending regulations of the Federal Home Loan Bank Board. Contrary to what Representative Oliver has said, it is not an easy task to convert. A conversion from a savings and loan to a mutual savings bank is very difficult, and I don't know of anybody who has achieved it in less than two years. Two years in which you must reduce your loans and get down to certain requirements the Mutual Savings Bank Code has. I think the primary reason for conversion is rules and regulations of the Federal Home Loan Bank Board."

ROLL CALL

The Clerk called the roll on adoption of the amendment by Representatives Winsley, Hurley (Margaret) and Knowles to page 5, line 25 of Substitute House Bill No. 161, and the amendment was adopted by the following vote: Yeas, 47; nays, 43; not voting, 8.

Mrs. Winsley moved adoption of the following amendment by Representatives Winsley, Hurley (Margaret) and Knowles:

On page 9, line 19 strike all of section 6 and renumber the remaining sections consecutively.

Representatives Winsley, Hurley (Margaret) and Knowles spoke in favor of the amendment, and Representatives Eng and Hurley (George) spoke against it.

Mrs. Winsley spoke again in favor of the amendment.

ROLL CALL

The Clerk called the roll on adoption of the amendment by Representatives Winsley, Hurley (Margaret) and Knowles to Substitute House Bill No. 161, and the amendment was not adopted by the following vote: Yeas, 44; nays, 44; not voting, 10.

Not voting: Representatives Berentson, Blair, Chandler, Conner, Erickson, Gallagher, Knedlik, Leckenby, Peanall, Shinoda.

Mrs. Winsley moved adoption of the following amendment by Representatives Winsley, Hurley (Margaret) and Knowles:

"(4) Nothing in this section shall permit a mutual savings bank to make secured or unsecured loans on or for inventory as that term is defined in section 9-109(4), chapter 157, Laws of 1965, RCW 62A.9-109(4)."

Representatives Winsley and Oliver spoke in favor of the amendment, and Mr. Lux spoke against it.

POINT OF INQUIRY

Mrs. Winsley yielded to question by Mr. Chamley.

Mr. Charnley: "Representative Winsley, you have made some allusions here to the fact that if this amendment is not adopted the manager of the bank will have certain authority to make loans as seems prudent under his judgment. Could you tell me if managers of a commercial bank can make loans presently under the law for secured or unsecured loans for any term?"

Mrs. Winsley: "Yes. What in essence we were doing with the mutual banks is we're going into territory of the commercial banks now. I think if they want this power and they want to make loans on inventory and commercial enterprises they need to convert to commercial banks."

Representatives Charnley and Eng spoke against adoption of the amendment, and Representatives Struthers and Polk spoke in favor of it.

Mr. Knowles demanded the previous question and the demand was sustained.

ROLL CALL

The Clerk called the roll on adoption of the amendment to page 10, line 16 of Substitute House Bill No. 161, and the amendment was adopted by the following vote: Yeas, 53; nays, 37; not voting, 8.

Not voting: Representatives Blair, Chandler, Erickson, Gallagher, Leckenby, Peanall, Shinoda.

On motion of Mrs. Winsley, the following amendment to the title was adopted:

"Amending section 32.20.160, chapter 13, Laws of 1955 and RCW 32.20.160;"

Substitute House Bill No. 161 was ordered engrossed and passed to Committee on Rules for third reading.

HOUSE BILL NO. 371, by Representatives Becker, Hanna, Deccio, Knowles, Fischer, Salatino, Nelson (Dick) and Maxie:

Revising the juvenile justice and care system.

The bill was read the second time.

On motion of Mr. Hanna, Substitute House Bill No. 371 was substituted for House Bill No. 371, and the substitute bill was placed on the calendar for second reading.

MOTION

On motion of Mr. King, further consideration of Substitute House Bill No. 371 was deferred, and the bill was ordered placed at the top of tomorrow's second reading calendar.
SUBSTITUTE HOUSE BILL NO. 225, by Committee on Higher Education (Originally sponsored by Representatives Burns, Lux, Zimmerman, Chandler, Gruger, Pruitt and Sanders – by Commission on Asian-American Affairs request):

Granting resident status to immigrant refugees for college tuition.

The bill was read the second time. (For previous action see yesterday’s Journal, 4th Day ex. sess., March 14, 1977.)

The Speaker stated the question before the House to be the amendment by Representative Burns to page 1, line 23.

With the consent of the House, Mr. Burns withdrew the amendment.

On motion of Mr. Burns, the following amendment by Representatives Burns and Charette was adopted:

On page 1, after line 12 insert the following new section:

'*NEW SECTION. Sec. 2. As used herein, the term parole status shall mean that resident status heretofore granted by the attorney general of the United States under the provisions of Title 8, United States Code, section 1182 d5.*

Renumber the remaining sections consecutively.

The Clerk read the following amendment by Representatives Chandler and Enbody:

On page 1, line 8 after ‘to’ strike ‘Indo-Chinese’

With the consent of the House, Mr. Chandler withdrew the amendment.

Mr. Enbody moved adoption of the following amendment:

On page 1, line 8 after ‘Indo-Chinese‘ insert ‘and other’

POINT OF ORDER

Mr. Taller: 'If I understand this, we're going back to line 8 after we just passed new section 2 which was on line 12. Is that correct procedure?'

The Speaker: 'That's correct and that's permissible.'

Mr. Taller: 'The other thing I would like to point out: We have two sections two.'

The Speaker: 'We'll renumber before we're done.'

Mr. Enbody spoke in favor of the amendment.

POINT OF INQUIRY

Mr. Enbody yielded to question by Mr. Tilly.

Mr. Tilly: 'I almost feel that we should question this on scope and object because I think you are greatly expanding the intent of this bill. I wonder if you could explain to the body what the fiscal impact of this amendment would be?'

Mr. Enbody: 'No, I can't explain the fiscal impact because the figures that we would need from the State Department have not been made available to the departments of Washington State. But what it does do, it only applies to those immigrant refugees who have entered the country since 1975 and further qualifies them to the parole status, which limits it to those people who cannot go back to their own country of origin because of religious or political beliefs.

In answer to your question, no, I can't give you a fiscal impact, but I would hope you could use your own judgment and experience as to how many of those people are in Washington State and are entering a college.'

Mr. Tilly spoke against adoption of the amendment, and Representatives Chandler and Shinpoch spoke in favor of it.

POINT OF INQUIRY

Mr. Enbody yielded to question by Mr. Douthwaite.

Mr. Douthwaite: 'On line 20 the words appear 'and before or after the effective date of this act, is settled in Washington state for one year immediately prior to enrollment, and is either (1) on parole status, (2) has received an immigrant visa, or (3) has applied for United States citizenship.' It seems to me that anyone who has applied for U.S. citizenship qualifies regardless of these other two conditions. I know that is probably not the intent, and I would like to hear you state for the record that simply applying for U.S. citizenship is not enough to qualify here.'
Mr. Enbody: "I think it's a question of construction of the statute, and it's my understanding that the problem you pose would not arise in that on line 20 it states that it applies to immigrant refugees who have entered the U.S. after January 1, 1975 and—then it goes on to say the rest. I don't think we have the problem you pose."

The amendment was adopted.

On motion of Mr. Enbody, the following amendment was adopted:
On page 1, line 19 after "refugee" insert "including but not limited to those immigrant refugees"

Substitute House Bill No. 225 was ordered engrossed and passed to Committee on Rules for third reading.

MOTION

On motion of Mr. King, the House advanced to the seventh order of business.

THIRD READING

ENGROSSED HOUSE BILL NO. 541, by Representatives King, Lux, Paris and Pearsall:

Adjusting workmen's compensation for permanent partial disabilities.

The bill was read the third time and placed on final passage.

Representatives King and Charette spoke in favor of passage of the bill, and Representatives Bond and Newhouse spoke against it.

POINT OF INQUIRY

Mr. Charette yielded to question by Mr. Douthwaite.

Mr. Douthwaite: "We had a joint hearing on the subject of workmen's compensation and accidents with the Labor Committee and the Insurance Committee about three weeks ago. One of our concerns was accident prevention. I think I have seen notice that there is a bill or two on the subject of safety inspectors and the ways and means to reduce the loss and reduce the human misery here. Could you advise us what progress is being made in the area of reducing the accidents?"

Mr. Charette: "You must be referring to the matter that is before the Senate Ways and Means Committee and the Appropriations Committee in the House where a number of people are asking for more safety inspectors for the Department of Labor and Industries. If my memory serves me correctly, the cost of that number of additional inspectors would be $300,000, $150,000 of which would go to the state. This came about as a result of an accident that happened in Hoquiam within the last month or six weeks where there were four people killed while they were working. In line with this and in line with the remarks Mr. Newhouse has made, it is also interesting to note that because that insurer was self-insured they did not have the benefit of a provision of the state insurance they would have had. Their accident fund I'm sure will be charged by whatever private insurance carrier they have, but if they had been insured by the state, because it was more than three deaths, under our definition it would be a catastrophe and the employer is not charged. It possibly could cost that employer $100,000 to $150,000 in additional premiums to a private company within the next few years because actually their experience rating is going to go up. I think that it is important that we do have safety programs across the state. During the fiscal year 1975 we had sixty-six people killed in industry in the state of Washington. We had sixty killed in 1976. One of the reasons I have always been interested in this is that category 50–1 has the greatest number of deaths. In 1975 they were the highest by ten more than the next one, thirty–three deaths in the logging industry in
Washington and in 1976 they had twenty deaths. Building construction went from five in 1975 to seventeen in 1976. This is one of the reasons we have the law, and safety inspections would certainly avoid some of these deaths and probably a lot of accidents."

Mr. Haley spoke in favor of passage of the bill.

POINT OF INQUIRY

Mr. King yielded to question by Mr. Leckenby.

Mr. Leckenby: "Representative King, I'd like to ask you why, on pages 4 and 5 in the new language, that escalation or reduction will be based on the year's annual wage rate as compared to previous years rather than the consumer price index?"

Mr. King: "I believe there are probably several reasons. First, that is a figure that is used for a number of other purposes in unemployment compensation, and is a statistic that is used by the department. The other reason is it seems to us to make more sense to use something which is supposed to compensate a person for lost earnings—to tie that to a figure which reflects generally the ability of the workers in this state to earn an income, and that is annual income. I think that is why the figure was selected. I don't really know that it will result in anything greatly different from any other index of inflation that could be used. It just seems that's more directly related to the loss that occurs."

Representatives Pruitt, Sanders, King and Lux spoke in favor of passage of the bill, and Representatives Leckenby, Bond, Clayton and Berentson spoke against it.

Mr. Bender demanded the previous question, and the demand was sustained.

ROLL CALL

The Clerk called the roll on the final passage of Engrossed House Bill No. 541, and the bill passed the House by the following vote: Yeas, 79; nays, 18; not voting, 1.

Not voting: Representative Gallagher.

Engrossed House Bill No. 541, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

STANDING COMMITTEE APPOINTMENTS

The Speaker (Mr. O'Brien presiding) announced that Representative Sherman was taken off the Committee on State Government and placed on the Committee on Judiciary.

The Speaker (Mr. O'Brien presiding) announced that Representative Erak has been appointed to the Committee on Agriculture as Vice Chairman; Committee on Insurance and Committee on State Government.

MOTION

On motion of Mr. King, the House recessed until 1:30 p.m.

AFTERNOON SESSION

The House was called to order at 1:30 p.m. by the Speaker (Mr. O'Brien presiding). The Clerk called the roll and all members were present except Representatives Berentson, Gallagher and Vrooman, who were excused.
THIRD READING

SUBSTITUTE HOUSE BILL NO. 153, by Committee on Local Government (Originally sponsored by Representatives Gallagher, Pearsall, Grier and Wilson):

Revising the law on public works contracts.

The bill was read the third time and placed on final passage.

Mr. Thompson spoke in favor of passage of the bill, and Representatives Flanagan, Struthers and Haley spoke against it.

POINT OF INQUIRY

Mrs. Lee yielded to question by Mr. Tilly.

Mr. Tilly: "Representative Lee, my concern is over jobs that are very technical and I understand that this legislation originated because of workmen that were hired in the rewinding project at Wells Hydroelectric Dam. I'm wondering about the purpose of the amendment—I understand that you were maybe responsible for it—on page 1, line 18. Would this mean that the contractor responsible for the warranty would have the right to bring in workers of his own choosing from out of state if he determines that they are the only ones qualified to do the work?"

Mrs. Lee: "The particular proviso that you are talking about—which removes from that counting the number of employees who must be from the state of Washington when they are available—if it is a piece of equipment that is under manufactured warranty, you would be correct. For example, if there is a generator that has to be rewound and the company will only warrantee that if factory-trained personnel are there to do that work and they are told the workers are not available in the state of Washington, then they are removed from this particular restriction within the bill for Washington labor. It wouldn't apply only to things such as generators, but it would apply to things such as air pollution control equipment, certain kinds of instrumentation, computerization, and so on. It seems very, very clear that this bill was not intended to effect that kind of thing. What they are talking about is the person that a contractor hires to do the work; they are saying that if there are workers available in the state of Washington to do those jobs and they are qualified to do so, that they should have first preference."

POINT OF INQUIRY

Mr. Thompson yielded to question by Mr. Tilly.

Mr. Tilly: "Representative Thompson, regarding the committee amendment on page 2, line 24, the words, 'within a reasonable time.' Is it fair to assume that if a project is nearing completion and this project has been of considerable duration, and it has employed out-of-state workers from the beginning, would this amendment insure that those workers will be allowed to complete the project rather than be fired and replaced by resident workers? Especially in a situation where such a procedure would be costly and time-consuming?"

Mr. Thompson: "Representative Tilly, the language you are interested in represents a change in the law as it now applies to counties and cities. This is a fundamental change from those that originally existed and it substitutes the word 'reasonable' for 'immediate.' The significance of this change, I think, is this: The term 'reasonable' would go against consideration of a cost saving and project delay. Those considerations might permit the hiring of Washington state residents if they become available before the completion of a project if they are qualified by training and experience, but I should think that the consideration as a result of this changed language would also permit some consideration of the costs and the delays that might result from it."

Representatives Tilly and Leckenby spoke against passage of the bill, and Mrs. Lee spoke in favor of it.

POINT OF INQUIRY

Mr. Thompson yielded to question by Mr. Nelson (Gary).

Mr. Nelson (Gary): "Representative Thompson, looking at this bill now, I would sure like to know what your committee did in answer to the question of retaliation that Representative Leckenby brought out. Since we still have a board that's a reciprocity board, I'm just wondering what other states have this same kind of legislation that would prohibit, on top of
what already exists, port districts, PUD's, school districts, cities and counties from hiring people for the particular kind of construction and remodeling that some of these would do? And the second question would be, why did we continue to exempt Oregon and Idaho from specific projects where the employees in those states are included in the bill, but not maybe Montana, Alaska and some of the other far-western states?"

Mr. Thompson: "It is my understanding that this preference is not uncommon in this country and I want to stress the word 'preference.' This is not protective legislation. The example used by Representative Leckenby is not appropriate; this law should exist and if it exists in Alaska, would not prevent the construction of the pipeline, because obviously there wouldn't be enough native Alaskans or resident Alaskans to undertake a project of that size. This bill simply provides for preference for Washington state labor if qualified by training experience. Representative Lee has already enumerated and explained the economic reasons for this bill and I don't want to be repetitive, but such legislation is common in this country. It is not unusual; we've nothing to fear from the standpoint of retaliation. The contractors in this state advocated passage, the people in the building trades advocated the passage, and I advocate the passage."

Mr. Nelson (Gary) spoke against passage of the bill, and Mr. Greengo spoke in favor of it.

ROLL CALL

The Clerk called the roll on the final passage of Substitute House Bill No. 153, and the bill passed the House by the following vote: Yeas, 67; nays, 24; not voting, 7.

Not voting: Representatives Berentson, Gallagher, Kreidler, North, Oliver, Owen, Shinoda.

Substitute House Bill No. 153, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

STATEMENT FOR THE JOURNAL

I wish the record to show that I voted "Aye" on Substitute House Bill No. 153.

MYRON B. KREIDLER, 22nd District.

EXPLANATION OF VOTE

I opposed Substitute House Bill No. 153, regarding restrictions on hiring to 95% being Washington residents, because it is bad economics, shortsighted, and will not benefit the public. Its logic would mean we should require that 95% of sugar sold in the state be Washington produced and processed; that 95% of the beef sold in the state be Washington-raised and butchered; that 95% of the wheat or timber be Washington grown and processed.

The bill is a form of state trade barrier, a state "tariff wall," and will hurt our economy. Washington and America are great because they are large and diverse and they allow for specializing. Substitute House Bill No. 153 may well result in higher prices, may create unemployment, and cause government to develop public jobs and thus almost everyone loses.

HAL ZIMMERMAN, 17th District.

MOTION

On motion of Mr. King, the House reverted to the sixth order of business.

SECOND READING

Ms. Becker moved that Substitute House Bill No. 371 be rereferred to Committee on Institutions.

Ms. Becker spoke in favor of the motion.
Ms. Becker yielded to question by Mr. Pardini.

Mr. Pardini: "Representative Becker, is it your intent if it goes back into Institutions Committee that from there it would then go to Appropriations Committee before coming back out here?"

Ms. Becker: "Yes, that is my intent. There is a special hearing in the Institutions Committee on Friday, and from there it will be sent to Appropriations."

Mr. Struthers spoke in favor of the motion, and it was carried.

SECOND SUBSTITUTE HOUSE BILL NO. 282, by Committee on Appropriations (Originally sponsored by Representatives Hawkins, Barnes, Fortson, Nelson (Dick), Lux, Heck, Sherman, Hughes, Keller, Chandler, Erickson and Wilson):

Establishing a presidential preference primary.

The House resumed consideration of the bill on second reading. (For previous action, see Journal, 47th Day, February 25, 1977.)

The Speaker (Mr. O'Brien presiding) stated the question before the House to be the amendment by Representative Hughes:

On page 4, line 16 after "select" strike "at least seventy-five percent of"

Representatives Hughes and Blair spoke in favor of the amendment, and Representatives Barnes and Nelson (Dick) spoke against it.

Mr. Hurley (George) spoke in opposition to the amendment.

POINT OF ORDER

Mr. Douthwaite: "Mr. Speaker, the amendment deals with six words which read 'at least seventy-five percent of' and we're talking about representation. I don't think this really deals with the destruction and overthrow of the American system of politics or anything else and we should try to speak to the point."

SPEAKER'S RULING (MR. O'BRIEN PRESIDING)

The Speaker (Mr. O'Brien presiding): "Representative Hurley, Reed's Rule 216 states in part, 'Relevancy in Debate—All debate should be relevant and confined to the subject of debate.' Will you hold your remarks to the amendment."

Mr. Hurley (George) continued his remarks against the amendment, and Mr. Hughes spoke again in favor of it.

ROLL CALL

The Clerk called the roll on adoption of the amendment by Representative Hughes to Second Substitute House Bill No. 282, and the amendment was not adopted by the following vote: Yeas, 39; nays, 55; not voting, 4.

Not voting: Representatives Berentson, Bond, Gallagher, and Mr. Speaker.

Mr. Barnes moved adoption of the following amendment:

On page 4, beginning on line 15 after "party" strike all of the material down to and including "of" on line 16 and insert "may select"

Mr. Barnes spoke in favor of the amendment, and Mr. Hawkins spoke against it.

Mr. Barnes spoke again in favor of the amendment.
ROLL CALL

The Clerk called the roll on adoption of the amendment by Representative Barnes to Second Substitute House Bill No. 282, and the amendment was not adopted by the following vote:

Yeas, 29; nays, 62; not voting, 7.

Not voting: Representatives Berentson, Bond, Enbody, Erak, Gallagher, Vrooman, and Mr. Speaker.

POINT OF PERSONAL PRIVILEGE

Mr. Hawkins: "I was going to offer a motion to reconsider the Hawkins' amendment that was amended by Representative Douthwaite. However, instead of taking the time to consider that, I would like to draw your attention to several matters that were distributed on your desks. In our debate on the Douthwaite amendment there were several questions asking for precise proof as to the necessity for providing accountability. Those matters are on your desks; reflect on them. One is a mailgram and one is an accounting of the Nader case from Connecticut dealing with party accountability. If and when this bill is dealt with by the Senate and returned to this—"
ROLL CALL

The Clerk called the roll on adoption of the amendment by Representative Hurley (Margaret) to Second Substitute House Bill No. 282, and the amendment was not adopted by the following vote: Yeas, 42; nays, 51; not voting, 5.

Not voting: Representatives Benerson, Enbody, Gallagher, Vrooman, and Mr. Speaker.

Mr. Charette moved adoption of the following amendment:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Section 1. In each year when a president of the United States is to be nominated and elected, there shall be held a presidential preference primary at which voters may vote for any one candidate of a major political party for nomination for president. The presidential preference primary shall be held on the fourth Tuesday in May of each presidential election year.

NEW SECTION. Sec. 2. Each voter shall have the opportunity to vote on the official presidential preference primary ballot for one person to be the candidate for nomination by a major political party for president of the United States. The name of any such candidate for a major political party nomination for president of the United States shall be printed on the ballots only:

(1) If the secretary of state shall have determined that the individual's candidacy is generally advocated or recognized in the national news media throughout the United States and shall have certified to each major political party, on or before the sixtieth day preceding the presidential preference primary, the names of the individuals he or she has determined to be recognized candidates for the nomination of that party to the office of president; or

(2) If members of the political party of the candidate shall have presented a petition for nomination of such candidate which shall have attached thereto a sheet or sheets containing the signatures of at least a number of registered voters who declare themselves in the petition as being affiliated with the same political party as such presidential candidate, equal to one percent of the vote cast in the state for the candidate of such political party for president at the last presidential election, or at least three thousand such registered voters, whichever number is the greater. The petition shall be filed with the secretary of state not later than the seventy-fifty day prior to the presidential preference primary. The signature sheets shall also contain the residence address and name or number of the precinct of each registered voter whose signature appears thereon and shall be certified to in the manner prescribed in RCW 29.79.200 and 29.79.210.

NEW SECTION. Sec. 3. Each major political party shall select delegates and alternate delegates to its national nominating convention by the method and under such rules and regulations as such party may prescribe: PROVIDED, That each candidate for the position of delegate, prior to the selection of delegates, shall submit to the state chairman of the appropriate political party the following pledge:

Delegate Pledge

I, .................. , do hereby swear that I am a supporter of .................. for the office of President of the United States; and that if elected as a delegate to the .................. Party National Convention I pledge to cast my ballot as a delegate to said convention for said candidate on the first two ballots unless released by said candidate, and I pledge furthermore to do all that I can to advance the cause of said candidate at the national convention.

NEW SECTION. Sec. 4. The presidential candidate of each political party who receives the highest number of votes in each congressional district at the primary shall be entitled to all of the delegate votes allotted to such congressional district by the respective national committee: PROVIDED, That if the rules of any national party require or permit proportional representation, the presidential candidates of such political party may be awarded a pro rata portion of the authorized delegate votes of that political party to be determined as follows:

(1) The aggregate vote received by the candidates in each congressional district, when combined, shall be equal to one hundred percent, except that if any candidate receives less than ten percent of the total vote cast in any congressional district, such candidate shall not share in such pro rata portion of the delegate votes for that district, and the votes received by such candidate in that district shall not be included in the aggregate vote; and

(2) The total vote in each congressional district received by each candidate of such political party shall be mathematically converted to a percentage directly proportional to the aggregate vote received by all candidates in that district of such political party who meet the requirements of this section; and

(3) Such political party shall then apportion the percentage or percentages determined in subsection (2) of this section to the total number of delegate votes as are allotted to each congressional district of this state by the national committee of such political party: PROVIDED, That no delegate vote shall be fractionalized to accommodate a proportion determined in subsection (2) of this section.
If no candidate of a political party receives ten percent or more of the total vote cast in any congres-

sional district, the delegates to a congressional district convention of such political party shall determine how
delegate votes allotted to each congressional district of this state by the national committee shall be awarded.

Each delegate shall be bound at the party's national nominating convention to vote for each candidate
as determined by the primary until released by said candidate or until two convention nominating ballots
have been cast. Delegate votes released by any candidate shall be considered uncommitted. In the event of
the death of a candidate who has been allotted delegate votes prior to the nomination thereof, all such dele-
gate votes shall be uncommitted.

NEW SECTION. Sec. 5. Insofar as is practicable, and where the provisions of this chapter do not spec-
ifically indicate otherwise, the presidential preference primary shall be conducted in the same manner as a
state primary, including the certification of the election returns by the state canvassing board: PROVIDED,
That the secretary of state shall certify the names of all candidates who will appear on the presidential
primary election ballot to the respective county auditors on or before the fourth Tuesday in April of each
presidential year. County auditors, at their discretion, may combine and consolidate two or more precincts
for the purpose of conducting this election only: PROVIDED FURTHER, That no voter shall be required
because of such consolidation to go to a location different from that of the last regular election. The secre-
tary of state as chief election officer may make rules in accordance with chapter 34.04 RCW to facilitate the
operation, accomplishment, and purpose of this chapter.

NEW SECTION. Sec. 6. The arrangement and form of presidential primary ballots shall be substan-
tially as provided for any primary election within the state except as may be modified by this chapter or by
rule of the secretary of state as provided for in section 5 of this 1977 amendatory act to adequately reflect
the intent of this chapter. The names of presidential candidates shall be listed alphabetically in separate columns according to
political party affiliation. There shall be a D adjacent to the name of each candidate. In each column there
shall be a blank space following such list for writing in the name of another candidate if desired.

The ballot, in providing for a choice of president, shall set forth only such candidates with their political
party affiliation as have qualified for a place thereon under section 2 of this 1977 amendatory act.

NEW SECTION. Sec. 7. At a presidential preference primary, a voter may cast no more than one vote
on a ballot. Any presidential preference primary ballot with more than one vote shall be void and notice to
this effect, couched in clear, simple language, and printed in large type, shall appear on the face of each
presidential preference primary ballot. Where voting machines or electronic voting devices are in use, the
notice shall be displayed on or about each machine or device.

NEW SECTION. Sec. 8. Whenever a presidential preference primary election is held as provided by
this chapter, the state of Washington shall assume all costs of holding such election if held alone: PRO-
VIDED, That if any other election or elections shall be held at the same time, the state shall be liable only
for its prorated share. The county auditor shall determine the election costs, including the state's prorated
share, if applicable, and shall file a certified claim therefore with the state auditor. The state auditor shall
compile such claims for presentation to the next succeeding legislature in the same manner as other legisla-
tive relief claims.

Sec. 9. Section 29.13.010, chapter 9, Laws of 1965 as last amended by section 1, chapter 111, Laws of
1975—76 2nd ex. sess. and RCW 29.13.010 are each amended to read as follows:

All state, county, city, town, and district general elections for the election of federal, state, legislative,
judicial, county, city, town, district, and precinct officers, and for the submission to the voters of the state,
county, city, town, or district of any measure for their adoption and approval or rejection, shall be held on
the first Tuesday after the first Monday of November, in the year in which they may be called. A state-wide
general election shall be held on the first Tuesday after the first Monday of November of each year: PRO-
VIDED, That the state-wide general election held in odd-numbered years shall be limited to (1) city, town,
and district general elections as provided for in RCW 29.13.020 as now or hereafter amended, or as other-
wise provided by law; (2) the election of federal officers for the remainder of any unexpired terms in the
membership of either branch of the congress of the United States; (3) the election of state and county offi-

onal convention, initiative measures and referendum measures proposed by the electorate, referendum bills,
and any other matter provided by the legislature for submission to the electorate: PROVIDED FURTHER,
That this section shall not

be construed as fixing the time for holding primary elections, or elections for the recall of any elective public officer: PROVIDED HOWEVER, That the county legislative authority may, if
they deem an emergency to exist, call a special county election by presenting a resolution to the county
auditor at least forty-five days prior to the proposed election date. A special election called by the county

Such county special election shall be noticed and conducted in the manner provided by law.

This section shall supersede the provisions of any and all other statutes, whether general or special in nature, having different dates for such city, town, and district elections, the purpose of this section being to establish mandatory dates for holding elections.

Sec. 10. Section 29.13.020, chapter 13 laws of 1965 as last amended by section 2, chapter 111, laws of 1975-76 2nd ex. sess. and RCW 29.13.020 are each amended to read as follows:

All city, town, and district general elections shall be held throughout the state of Washington on the first Tuesday following the first Monday in November in the odd-numbered years.

This section shall not apply to:

1. Elections for the recall of any elective public officer; or
2. Public utility districts, or district elections where the ownership of property within said districts is a prerequisite to voting, all of which elections shall be held at the times prescribed in the laws specifically applicable thereto;
3. Consolidation proposals as provided for in RCW 28A.57.180 and nonhigh capital fund aid proposals as provided for in chapter 28A.56 RCW.

The county auditor, as ex officio supervisor of elections, upon request in the form of a resolution of the governing body of a city, town or district, presented to him at least forty-five days prior to the proposed election date, may, if he deems an emergency to exist, call a special election in such city, town, or district and for the purpose of such special election he may combine, unite, or divide precincts. A special election called by such governing body shall be held on one of the following dates as decided by the governing body:

(a) The first Tuesday after the first Monday in February;
(b) The second Tuesday in March;
(c) The first Tuesday after the first Monday in April;

In addition to (a) through (f) above, a special election to validate an excess levy or bond issue may be called at any time to meet the needs resulting from failure of a school or junior taxing district to pass a special levy for the first time or from fire, flood, earthquake, or other act of God. Such special election shall be conducted and notice thereof given in the manner provided by law.

This section shall supersede the provisions of any and all other statutes, whether general or special in nature, having different dates for such city, town, and district elections, the purpose of this section being to establish mandatory dates for holding elections.

NEW SECTION. Sec. 11. Sections 1 through 8 of this 1977 amendatory act shall constitute a new chapter in Title 29 RCW.

NEW SECTION. Sec. 12. If any provision of this 1977 amendatory act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected.

With the consent of the House, Mr. Tilly withdrew the amendment to the amendment.

Mr. Charette spoke in favor of his amendment.

POINT OF PARLIAMENTARY INQUIRY

Mr. Ehlers: "I wonder if the Chair could rule on Rule 66 on conflict of interest and if I have to vote on this measure?"

The Speaker (Mr. O'Brien presiding): "What is your conflict of interest?"

Mr. Ehlers: "Obviously, I'm the only one on the floor who has presidential ambitions."

Representatives Hawkins and Douthwaite spoke against the amendment, and Representatives Taller and Chandler spoke in favor of it.

On page 7, beginning on line 12 after "chapter." strike the remainder of the section.

POINT OF ORDER

Mr. Greengo: "Mr. Speaker, it appears that the amendment that is presented completely changes the nature of the bill. Could we have a ruling from the Speaker as to the scope and object of all these amendments? They have nothing to do with the release and recapture of salmon."

SPEAKER'S RULING (MR. O'BRIEN PRESIDING)

The Speaker (Mr. O'Brien presiding): "Representative Greengo, Reed's Rule 131 states 'The object of an amendment is to so change the main proposition that it may more nearly conform to the judgment of the assembly.' The amendments presented here have a partial effect on the overall object and subject of the bill, and it is my opinion that the amendments are germane and it is up to the House itself to determine whether or not the House wants to adopt the amendments."

Ms. Becker spoke in favor of the amendments, and Representatives Martinis, Zimmerman and Smith spoke against them.

POINT OF INQUIRY

Mr. Martinis yielded to question by Mr. Hanna.

Mr. Hanna: "The question is that it's very hard for someone like myself—I have a lot of gillnetters and purse seiners in my district and they are very strongly opposed to this. It's a situation where you have scientists on one hand saying one thing and scientists on the other hand saying the other. I wonder if you would dispute the feeling of the gillnetters and purse seiners about why this is poor legislation? They suggested that if I vote for it I might be something like keelhauled, whatever that means."

Mr. Martinis: "Do you think I want to become disinherited? Representative Hanna, like I expressed earlier, it's strange I imagine to many members of this body who have watched me
either help defeat or draft new legislation for an industry that I dearly love. They are not correct in their position on this, and I think this time we have to be statesmen and we have to take a look at a new concept in the raising of fixed protein in the state of Washington. A new concept that the state of Oregon is pioneering; the state of Alaska has proved it somewhat on a nonprofit basis. The state of Alaska is a very unique state, it has many inlets and canals. We don't have that. We have Puget Sound which is not sectioned off; maybe Hood Canal, yes, but we don't have other areas where certain groups of fishermen fish, so the Alaska concept won't work. The Oregon concept is workable in the state of Washington. Oregon, by regulation, has limited it to the coast. John Donaldson, the Director of Fish and Wildlife in Oregon, is the father of ocean ranching and he recommended to me, in a conversation that I do not have documented, to leave it on the coast and make sure it's in the tidal areas, and it will work fine and you won't hurt the industry and you won't hurt the resources if you leave it there. Representative Hanna, the fishermen are dead set against this and I'm for it."

POINT OF INQUIRY

Mr. Smith yielded to question by Mr. Lysen.

Mr. Lysen: "Representative Smith, I know you are a supporter of this measure and you're also an attorney. Some questions have been raised by some of the fishermen in my district saying that with the Indians and the Boldt decision, the questions of allocation have become very confusing and they haven't been able to work them out. Now this is adding a new element, a new competitor in a sense, to the distribution and allocation of the number of those fish. Their concerns are expressed that this additional element in the puzzle, so to speak—and they are trying to survive the Boldt years—will just complicate things all the more. I'd like you to respond to that and secondly, I think another concern they have is when the Director of Fisheries decides who can fish and when they can fish and when they can't fish, sometimes that becomes a very subjective kind of decision, and with the pressures for the investors to get a return on their investment, if their return hasn't developed significantly to justify their investment in a given year, there may be extreme pressures to reduce the number of days allowed to the various other types of commercial fishermen. I think this is a very legitimate concern they have and ultimately becomes a subjective and possibly even a political question on the decision the Director of Fisheries will make. That's the level I would like to hear some discussion on."

Mr. Smith: "You've asked two questions. I'll answer the first question first. You asked whether passage of this bill, should it become law and ocean ranchers are operating in this industry, would it cause additional problems with the Boldt decision for the Department of Fisheries in dealing with the Boldt decision. The answer is no, it will not cause any additional problems with the Boldt decision as it is sitting on our desks today. As I originally envisioned this it perhaps would have been a complicating factor, but by amendment in committee we have eliminated Puget Sound, the Straits of Juan de Fuca and Hood Canal as possible locations for sites and those are the decision areas for the Boldt decision. So it will have no effect on the Boldt decision. Your second question is a more pervasive issue in this question of private ocean ranchers and I think it is the bottom line reason that the commercial fishing industry opposes ocean ranching. They are fearful that some future Legislature will change the ground rules. This bill is much tighter in restrictions on ocean ranches than the Oregon proposal and it's tighter because every time the commercial fishing industry has expressed some concern we put language in the bill to address that concern. Fruitlessly, I might add, as they have never come off their position of opposition, but they will tell you that the bill is not dangerous as written. But what if some future legislature succumbs to the pressures of corporations and changes the regulations? Or what if the Department of Fisheries makes a judgment in order to return a higher yield of fish to the ocean ranches? If they did that and the Department of Fisheries made such rules and regulations, the commercial fishermen would have them in court the next day, and as this bill is written they would prevail because the bill is written to require these fish to contribute to the commercial sports fisheries. The best argument against that that I can think of is, in this time of full public disclosure, we are going to know who is contributing to what legislators if they vote to change this law and the political forces are free then to operate on that. The other answer is that we have problems to disburse in the Department of Fisheries every day in making decisions as to harvest and how those regulations affect various user groups. This is just going to be another user group. They can't however, under the provisions of this bill, take into consideration the return to the ocean ranchers and set their regulations in order to enhance that return."

On motion of Mr. King, further consideration of Substitute House Bill No. 261 was deferred and the bill was ordered placed on tomorrow's second reading calendar.

EXPLANATION OF VOTE

I wish to explain that I did not vote on Engrossed Substitute House Bill No. 161, nor on the proposed amendments to it, because of what I consider to be a conflict of interest. ESHB No. 161 directly affects mutual savings banks. I am an employee of Washington Mutual Savings Bank and receive a salary even during legislative sessions. For this reason I refrained from voting on this bill and plan to abstain from other votes on issues of interest to mutual savings banks.

ROD CHANDLER, 45th District.

ENGROSSED HOUSE BILL NO. 716, by Representatives Shinpoch and Hanna:

Providing for the issuance of bonds to pay for the construction of a visitors' parking garage.

The bill was read the third time and placed on final passage.

Mr. Shinpoch spoke in favor of passage of the bill.

POINT OF INQUIRY

Mr. Shinpoch yields to question by Mr. Greengo.

Mr. Greengo: "Representative Shinpoch, we have numerous parking lots around the capital that seem to be filled up with employees' cars and I notice in this bill there is a provision to devote part of it to employee parking. Is there any assurance at all that when the thing gets built it won't be exclusively devoted to employee parking and the citizens will be in the same boat they are right now?"

Mr. Shinpoch: "I can only speak to the intent of the bill and I can speak to the fact that the current Director of General Administration says that he will see that it happens that way. I probably would not be the Appropriations Committee Chairman by the time we get this garage built, but if I am, I can assure you it will be available for the public."

Mr. Charnley spoke against passage of the bill, and Mrs. North spoke in favor of it.

POINT OF INQUIRY

Mr. Shinpoch yielded to question by Mr. Deccio.

Mr. Deccio: "Representative Shinpoch, during the Appropriations Committee hearing on this bill I think the intent of the committee was that two of the levels would be for public parking during session and the other level would be for legislative employees during session. Would you agree with that interpretation?"
Mr. Shinpoch: "No. Assuming the garage did go on the library lot—there's nothing that
says that's where it's going to go, it can go in one of three potential places on the campus—the
first level was reserved for those people who are currently parking on that lot. They asked to
have one level reserved for people who are now parking in that lot; so we are replacing the
parking that we are taking away when we put a structure on that parking lot that's there now.
Then the additional two hundred spaces are for the public, so the public can participate in this
process. It was not for legislative employees. I don't know whether any legislative employees
park in that lot or not. I seriously doubt it because that is not a lot we normally access for the
legislative session."

Mr. Hanna spoke in favor of passage of the bill.

POINT OF INQUIRY

Mr. Shinpoch yielded to question by Mr. Polk.

Mr. Polk: "The appropriation for $1.7 million that is contained in the bill I understand
was estimated by the Department of General Administration as the cost to build a garage on
the library parking lot and that the cost to build a garage over near the General Administra-
tion building was in the range of $4.6 million. I'm concerned that we may determine the size or
configuration of the parking garage based upon the amount of dollars that we are appropriat-
ing, rather than appropriating the amount of dollars to build the necessary facility. The ques-
tion is, do you understand or is it your intention that that appropriation is money which can be
used for the essential front-end cost to get the design and construction document ready, but
there may be another appropriation needed to build the facility?"

Mr. Shinpoch: "Representative Polk, I have a letter back from the Department of General
Administration and they lay out the costs in it. There are several other things, including mov-
ing the greenhouse, straightening the street and numerous other things that enter into the $1.6
million. If that was what it was determined to be, then it would be my intent that we start with
this money and then the additional would have to be appropriated the next time we are back
here. You'd have to understand that you would be accepting other than just a parking garage
in order to do that. I do understand that potentially if we went underground it would require
additional funds, but I think those of you who participated when we were talking to General
Administration know that we did make it clear to them that it was a choice of how it fit into
the plans and we would make the money available. What we were interested in is providing the
parking space and not designating how or where it would be provided as long as it fits in with
the overall plan."

Mr. Keller spoke in favor of the bill.

POINT OF INQUIRY

Mr. Shinpoch yielded to question by Mr. Hansen.

Mr. Hansen: "There are approximately one hundred fifty legislators and three hundred
registered lobbyists. Are the lobbyists considered the people who would be using this facility or
would they be using facilities other than this?"

Mr. Shinpoch: "I guess I can't answer your question. I'm certain the legislators are not
going to be using it; we're probably going to be parking where we are now. It was never
intended to be used for legislative use. I guess I candidly never thought about lobbyists. I
assume they are citizens, too. I never questioned that they were, but I candidly never thought
about them in relationship to a constituent coming from a district looking for a place to park."

Representatives Oliver, Charnley and Greengo spoke against passage of the bill.

ROLL CALL

The Clerk called the roll on the final passage of Engrossed House Bill No. 716, and the
bill passed the House by the following vote: Yeas, 66; nays, 24; not voting, 8.

POINT OF INQUIRY

Mr. Amen yielded to question by Mr. Fuller.

Mr. Fuller: "I have two questions I would like to ask you as a former pharmacist. Can a pharmacy be open without a pharmacist on duty?"

Mr. Amen: "No. Prescriptions cannot be filled without a pharmacist."

Mr. Fuller: "Does this proposed amendment mean that the pharmacist has to make a choice whether he wants assistant A or assistant B?"

Mr. Amen: "I guess not, it just says there has to be a pharmacist there or no more than one technician. It would be under control of the pharmacist."

Mr. Fuller: "We are reestablishing a ratio of one to one?"

Mr. Amen: "That's correct."

Mr. Fischer spoke in favor of the amendment, and Mr. Adams spoke against it.

POINT OF PARLIAMENTARY INQUIRY

Mr. Douthwaite: "If we have once dealt with an amendment which is substantially the same as the amendment we are now dealing with, is there not a rule which prevents further consideration of the same thing?"

The Speaker (Mr. O'Brien presiding): "That point could probably be well taken, but the question would have to be raised immediately before discussion was entered into regarding the amendment."

Mr. Douthwaite spoke against the amendment.

POINT OF INQUIRY

Mr. Amen yielded to question by Mr. Pardini.

Mr. Pardini: "Representative Amen, I think the major difference in this amendment and the preceding amendment are the words on the second line, 'involved in the dispensing task.' Is dispensing a pharmaceutical term which deals with one specific thing? Is that when you hand it over the counter to the customer?"

Mr. Amen: "Dispensing, in my estimation, is filling the prescription."

Mr. Clemente spoke again in favor of the amendment.

ROLL CALL

The Clerk called the roll on adoption of the amendment by Representative Clemente to Substitute House Bill No. 314, and the amendment was not adopted by the following vote:

Yeas, 36; nays, 51; not voting, 11.

Not voting: Representatives Conner, Dunlap, Fancher, Gallagher, Knowles, Martinis, McCormick, Moreau, Shinoda, Williams, and Mr. Speaker.

Mr. Hurley (George) moved adoption of the following amendment:

On page 2, after line 26 insert the following:

"(3) The following duties may be performed only by a licensed and registered pharmacist or registered pharmacy intern:

(1) Taking any telephone inquiry regarding professional matters including receipt of prescriptions.
(2) Making final inspection of any compounded product."
(3) Typing and inspection of prescription label and verifying correct transcription.
(4) Compounding and reconstitution.
(5) Selection of brand and supplier.
(6) Certification of prescription order.
(7) Extemporariness compounding.
(8) Taking medication from shelf and bringing to prescription compounding area.
(9) Counting and pouring prefabricated medication for individual prescription.
(10) Issuing prescription to patient.
(11) Certification of drug handling procedure.
(12) Public health services.
(13) Such other duties and responsibilities as the board may assign to licensed pharmacists."

Mr. Hurley (George) spoke in favor of the amendment.

POINT OF ORDER

Mr. Berentson: "It seems to me that this amendment contains most of the material that was contained in the earlier amendment and I would like you to rule on whether or not we are running over the same program?"

SPEAKER'S RULING (MR. O'BRIEN PRESIDING)

The Speaker (Mr. O'Brien presiding): "The same point holds true on points of order, the action has to be objected to before consideration has been entered upon. After debate has begun or other action taken, it is too late. Debate has been begun by Representative Hurley on this issue. You should have asked for the point of order before Representative Hurley had the floor."

Mr. Hurley (George) continued his remarks in favor of the amendment, and Mr. Charette spoke against it.

POINT OF INQUIRY

Mr. Hurley (George) yielded to question by Mr. Barnes.

Mr. Barnes: "Representative Hurley, I'd like to completely understand your amendment before I vote on it. Would you cover point number 7—extemporaniness compounding?"

Mr. Hurley (George): "I would refer you to Representative Fischer on that since he is a pharmacist and I would prefer that he would answer that question, if you don't mind."

Mr. Fischer: "That is compounding on the spot, making up a product that has been prescribed by the doctor and doing it without special instructions. You refer to your text, your compounding book, and so forth, and that's the kind of compounding you are referring to. It takes some skill."

Mr. Adams spoke against adoption of the amendment.

The amendment was not adopted.

Substitute House Bill No. 314 was passed to Committee on Rules for third reading.

The Speaker (Mr. O'Brien presiding) declared the House to be at ease.

The Speaker (Mr. O'Brien presiding) called the House to order.

The Speaker (Mr. O'Brien presiding) introduced the Tacoma Scots, a bagpipe band and they entertained the House with several songs in honor of St. Patrick's Day.

On motion of Mr. King, the House adjourned until 11:00 a.m., Friday, March 18, 1977.

JOHN BAGNARIOL, Speaker.

ENGROSSED HOUSE BILL NO. 236, by Representatives Shinpoch, Flanagan, Thompson, Amen, Knedlik, Polk, Deccio, Ehlers and Knowles (by Legislative Budget Committee request):

Establishing a civil penalty in certain cases where state officers or employees violate budgetary provisions.

The bill was read the third time and placed on final passage.

Mr. Shinpoch spoke in favor of passage of the bill.

POINT OF INQUIRY

Mr. Shinpoch yielded to question by Mr. Patterson.

Mr. Patterson: "Representative Shinpoch, under the definition on page 5, '... not limited to boards of trustees, governing bodies of state agencies'—do we conclude that the penalty might be assessed against members of the boards of trustees of the state four-year colleges, or is that an officer acting in their behalf? My question really is, who would be the officer? Would it be each member of the board or would it be an officer acting on behalf of the board?"

Mr. Shinpoch: "I can only give you my opinion and this is a result of me attempting to get the Attorney General to sue the Shoreline Community College for expending funds differently than we provided them to be used exclusively for. My answer is based on his answer that he could only sue the board of trustees to recover that much money. If I interpret that and apply it to this, then the board of trustees would be liable for five hundred dollars or court costs whichever, if they did that."

Mr. Patterson: "It would be then the full board and not an individual member like the president of the board?"

Mr. Shinpoch: "No, my understanding is that it would be the full board of trustees. They all have equal responsibility and authority."

ROLL CALL

The Clerk called the roll on the final passage of Engrossed House Bill No. 236, and the bill passed the House by the following vote: Yeas, 85; nays, 1; not voting, 12.

Voting nay: Representative Leckenby.

Engrossed House Bill No. 236, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

ENGROSSED SUBSTITUTE HOUSE BILL NO. 261, by Committee on Natural Resources (Originally sponsored by Representatives Smith, Martinis, Conner, Nelson [Gary], Kilbury, Wilson, Oliver, Greengo, Knedlik, Hughes, Gilleland, Bond, Haley, Fuller, Flanagan, Gaines, Clemente and Sanders):

Authorizing private ownership and operation of release-recapture salmon rearing facilities.

The bill was read the third time and placed on final passage.

Mr. Smith spoke in favor of passage of the bill.
Mr. Smith yielded to question by Mr. Owen.

Mr. Owen: "Representative Smith, I've been told that the commercial fishermen should not be opposed to this bill because it would increase the number of fish that they would be able to catch. Is this true?"

Mr. Smith: "Yes, that's true. The bill specifically limits this to the Pacific Coast, so it will not increase the number of fish that the Puget Sound gillnetters will be able to catch nor the purse seiners who operate on Puget Sound, but ironically, both of those groups oppose the bill and particularly the gillnetters, and so we removed Puget Sound from the scope of the bill. I believe that it should significantly remove the opposition of the gillnetters although they still oppose it. The trolls who operate on the Pacific Coast will definitely benefit from the bill and will be catching the fish released by ocean ranches because the bill requires that fifty percent of the fish to be released be King or Silver salmon which do bite the lures of the troll fishermen and will also be caught by sports fishermen."

Mr. Owen: "Over a period of time is it possible to rear and release salmon so that they can return at a time when they might miss the commercial fishing season?"

Mr. Smith: "That's a very good question and it's one that came to light early in the development of the bill so we put specific language in the bill to direct that the intent of the bill is that these fish released by ocean ranches will contribute to the commercial and sports fishery. Then we gave the Department of Fisheries the authority to regulate the size, the species and the timing of release such that the ocean rancher will not be able to do what you asked. It would be possible biologically but the regulatory scheme set up in this bill will prevent an ocean rancher from doing that."

Mr. Owen: "What effect, if any, does this bill have on the commercial fisherman and the fifty percent allocation of the Boldt decision?"

Mr. Smith: "Because of the exclusion of the Puget Sound resource it will not affect the Boldt decision at all. The catch out in the coast will not be taken into consideration on that."

Representatives Haley, Oliver, Wilson and Greengo spoke in favor of the bill, and Representatives Becker, Fortson, Enbody and Owen spoke against it.

Mr. King demanded the previous question, and the demand was sustained.

Mr. Smith closed debate, speaking again in favor of passage of the bill.

Mr. Barnes moved adoption of the following amendment by Representatives Barnes and Haley:

On page 2, line 20 insert a new section as follows:

'NEW SECTION. Sec. 4. A pharmacist may not substitute a product under the provisions of this chapter unless it has been manufactured with the following minimum good manufacturing standards and practices:

(1) Maintain quality control standards equal to those of the Food and Drug Administration;
(2) Comply with the regulations promulgated by the Food and Drug Administration;
(3) Mark products with identification code or monogram;
(4) Label products with expiration date;
(5) Must have an approved new drug application (NDA) or an abbreviated new drug application (ANDA).'

Renumber the remaining sections consecutively.
Representatives Barnes, Fischer and Haley spoke in favor of the amendment, and Representatives Becker, Adams and Newhouse spoke against it.

Mr. Barnes spoke again in favor of the amendment, and Mr. Adams spoke again in opposition to it.

**POINT OF INQUIRY**

Mr. Barnes yielded to question by Mr. Deccio.

Mr. Deccio: "Representative Barnes, something you said that I don't quite understand—you said that the pharmacists know who the reputable drug manufacturers are. I thought under the edict of government and the Food and Drug Administration that they were all reputable."

Mr. Barnes: "I don't know that they are all reputable. I've been informed by druggists and by pharmaceutical association representatives that they do have knowledge of the good ones. I think Dr. Haley went through a list of them and he mentioned that some of these American manufacturers are very reliable and this batch is known. I think in the letter from the doctor concerning the child that almost died, he did mention that the Food and Drug Administration does not have the time nor the funds nor the capabilities of keeping up with all these drugs on the market to his satisfaction, so very probably we are relying on doctors' and druggists' judgment right now."

Mr. Shinpoch spoke against adoption of the amendment, and Mr. Fischer spoke again in favor of it.

The amendment was not adopted.

Mr. Newhouse moved adoption of the following amendment by Representatives Newhouse and Adams:

> On page 2, line 22 after "purchaser." insert "Said savings shall be computed based upon the difference in retail price between the prescribed drugs and the substituted drug and the retail price shall include only the wholesale cost plus the normal mark-up."

Mr. Newhouse moved adoption of the following amendment by Representative Amen:

Mr. Nelson (Dick) moved adoption of the committee amendment to page 1, line 16.
Mr. Nelson (Dick) spoke in favor of the amendment, and Mr. Pardini spoke against it.

**POINT OF ORDER**

Mr. Hawkins: "I believe that Representative Pardini is speaking to the entire bill and not to the amendment on page 1, line 16. It does not deal with the entire nominating list; it only deals with the contingency."

The Speaker (Mr. O'Brien presiding): "Continue, Representative Pardini, but if you can hold your remarks relevant to the amendment."

Mr. Pardini continued his remarks in opposition to the committee amendment, and Mr. Hawkins spoke in favor of it.

**POINT OF INQUIRY**

Mr. Hawkins yielded to question by Mr. Patterson.

Mr. Patterson: "If we adopt this particular amendment, then in essence aren't we telling the central committee that when you make up the list of three you are basically making a first selection because it's the logical thing they would do at that point in time?"

Mr. Hawkins: "No, we're not. The reason we are not is that we have some expectation that the governor will select any one of those three. In fact there are a number of those appointments that have been made in the past relative to other offices where someone other than the first person on the nominating list has ultimately been appointed. This only provides that upon failure of the governor to act in a timely fashion that there is a recourse to that failure."

Representatives Patterson and Newhouse spoke against the committee amendment, and Mr. Hawkins spoke again in favor of it.

**ROLL CALL**

The Clerk called the roll on adoption of the committee amendment to House Bill No. 588, and the amendment was adopted by the following vote: Yeas, 51; nays, 36; not voting, 11.

On the last line of the amendment strike the period and insert ": PROVIDED, That the provisions of this section shall apply only to the areas within first, second, or code cities having a population in excess of 3,000."
Mrs. North spoke in favor of the amendment to the committee amendment, and Mr. Charnley spoke against it.

(2) A special permit issued as provided in subsection (1) of this section for the movement of any mobile home shall not be valid until the county treasurer of the county in which the mobile home is located shall endorse or attach thereto his certificate that all property taxes due upon the mobile home being moved have been satisfied: PROVIDED, That endorsement or certification by the county treasurer is not required when a mobile home is to enter the state or is being moved from a manufacturer or distributor to a retail sales outlet or directly to the purchaser's designated location or between retail and sales outlets. It shall be the responsibility of the owner of the mobile home or his agent to obtain such endorsement from the county treasurer.

(3) Nothing herein should be construed as prohibiting the issuance of vehicle license plates for a mobile home, but no such plates shall be issued unless the mobile home for which such plates are sought has been listed for property tax purposes in the county in which it is principally located and the appropriate fee for such license has been paid.

(4) The state highway commission and local authorities are authorized to adopt reasonable rules for implementing the provisions of this section.

NEW SECTION. Sec. 3. There is added to chapter 46.44 RCW a new section to read as follows:

(1) Upon validation of a special permit as provided in section 2 of this 1977 amendatory act, the county treasurer shall forward notice of movement of the mobile home to the treasurer's own county assessor and to the county assessor of the county in which the mobile home will be located.
(2) When a single trip special permit not requiring tax certification is issued, the highway commission or local authority shall notify the assessor of the county in which the mobile home is to be located and when a continuous trip special permit is used to transport a mobile home not requiring tax certification, the transporter shall notify the assessor of the county in which the mobile home is to be located: PROVIDED, That notification shall not be necessary when the destination of a mobile home is a manufacturer, distributor, retailer, or location outside the state.

(3) A notification under this section shall state the specific, residential destination of the mobile home.

NEW SECTION. Sec. 4. There is added to chapter 46.44 RCW a new section to read as follows:

Any person or agent acting for a person who causes to be moved or moves a mobile home as defined in RCW 46.04.302 upon public highways of this state and who fails to comply with any of the provisions of sections 2 and 3 of this 1977 amendatory act is guilty of a misdemeanor and shall be fined not less than fifty dollars or more than one hundred dollars. In addition to the above fine, the highway commission or local authority may withhold issuance of a special permit or suspend a continuous special permit as provided by RCW 46.44.090 and 46.44.093 for a period of not less than thirty days.

Any person or agent who is denied a special permit or whose special permit is suspended may upon request receive a hearing before the highway commission or local authority having jurisdiction. The commission or local authority after such hearing may revise its previous action.

When any vehicle subject to license is to be moved upon the public highways of this state from one point to another, the department may issue a special permit therefor upon an application presented in such form as shall be approved by the department. two body feet or more in length and is eight body feet or more in width, and which is built on a permanent chassis, and designed to be used as a dwelling with or without a permanent foundation when connected to the required utilities, and includes the plumbing, heating, air-conditioning, and electrical systems contained therein, except as hereinafter specifically excluded, and excluding modular homes as defined below.

"Travel trailer" means all trailers of the type designed to be used upon the public streets and highways which are capable of being used as facilities for human habitation and which are ((thirty-five-foot or)) less than thirty-two body feet in length and eight body feet or less in width, except as may be hereinafter specifically excluded.

"Modular home" means any factory-built housing designed primarily for residential occupancy by human beings which does not contain a permanent frame and must be mounted on a permanent foundation.

"Camper" means a structure designed to be mounted upon a motor vehicle which provides facilities for human habitation or for temporary outdoor or recreational lodging and which is five feet or more in overall length and five feet or more in height from its floor to its ceiling when fully extended, but shall not include motor homes as defined in this section.

"Motor homes" means motor vehicles originally designed, reconstructed, or permanently altered to provide facilities for human habitation.

"Commission" means the department of revenue of the state.

"Director" means the director of motor vehicles of the state.

NEW SECTION. Sec. 7. There is added to chapter 36.21 RCW a new section to read as follows:

When any mobile home first becomes subject to assessment for property taxes in this state, the county assessor is authorized to place the mobile home on the assessment rolls for purposes of tax levy up to May 31st of each year. The assessed valuation of the mobile home shall be considered as of the April 30th immediately preceding the date that the mobile home is placed on the assessment roll.

Sec. 8. Section 84.60.020, chapter 15, Laws of 1961 and RCW 84.60.020 are each amended to read as follows:

The taxes assessed upon real property and mobile homes as defined in RCW 82.50.010 shall be a lien thereon from and including the first day of January in the year in which they are levied until the same are paid, but as between the grantor or vendor and the grantee or purchaser of any real property((, and-as between the vendor and the purchaser of any real property)) or any such mobile home, when there is no express agreement as to payment of the taxes thereon due and payable in the calendar year of the sale or the contract to sell, the grantor or vendor shall be liable for the same proportion of such taxes as the part of the calendar year prior to the day of the sale or the contract to sell bears to the whole of such calendar year, and the grantee or purchaser shall be liable for the remainder of such taxes and subsequent taxes. The lien for the property taxes assessed on a mobile home shall be terminated and absorbed for the year subsequent to the year of its removal from the state, when notice is given to the county treasurer describing the mobile home, if all property taxes due at the time of removal are satisfied. The taxes assessed upon each item of personal property assessed shall be a lien upon such personal property except mobile homes as above provided from and after the date upon which the same is listed with and valued by the county assessor, and no sale or transfer of such personal property shall in any way affect the lien for such taxes assessed upon such property.

The taxes assessed upon personal property shall be a lien upon each item of personal property of the person assessed, distrained by the treasurer as provided in RCW 84.56.070, from and after the date of the distraint and no sale or transfer of such personal property so distrained shall in any way affect the lien for such taxes assessed upon such property. To Committee on Rules for second reading.

MOTION

On motion of Mr. King, the House advanced to the seventh order of business.

THIRD READING

HOUSE BILL NO. 852, by Representatives Boldt, Berentson, Lysen, Schmitten and Kilbury:

Permitting certain amendments to contracts for nuclear generating projects.
The bill was read the third time and placed on final passage.

Mr. Boldt spoke in favor of passage of the bill.

**ROLL CALL**

The Clerk called the roll on the final passage of House Bill No. 852, and the bill passed the House by the following vote: Yeas, 90; nays, 0; not voting, 8.

House Bill No. 852, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

**ENGROSSED HOUSE BILL NO. 793, by Representatives King and Lux:**

Authorizing the department of labor and industries to insure employers against liability for compensation and benefits for injuries and death under the federal longshoremen's and harbor workers' compensation act.

The bill was read the third time and placed on final passage.

Mr. King spoke in favor of passage of the bill.

**POINT OF INQUIRY**

Mr. King yielded to question by Mr. Deccio.

Mr. Deccio: "This bill does not give the state a monopoly to write this insurance. Does it not still allow private insurance companies to insure, or the state?"

Mr. King: "Yes, it does. In effect this is a three-way compensation bill for longshoremen and harbor workers' coverage."

Mr. Leckenby spoke against passage of the bill.

**POINT OF INQUIRY**

Mr. King yielded to question by Ms. Sommers.

Ms. Sommers: "Representative King, one of my concerns about this bill is that I understand that in time the benefits to the federal legislation would provide for a benefit far in excess to those already provided under our system. I understand it would be up to some two hundred percent of the average weekly wage. Given our past experience with leap frogging, then what would probably be legitimate demands from other groups for similar benefits, I am concerned about the bill and I wonder if you could confirm whether or not this greatly increased benefit is in existence and what the effect might be on our system?"

Mr. King: "The benefit is there now. This benefit level is mandated by the federal government. The issue you address was a legitimate issue raised by the first bill that I sponsored because it dealt with a peripheral subject and that subject was what do you do with longshoremen who, when employed by a stevedoring company, come under the benefit rates of the federal longshoremen and harbor workers' act, but when employed by a port district doing exactly the same job, come under the state benefit level. Past bills dealing with this subject matter have solved that problem by putting the longshoremen under the benefit level of the federal act even though it came out of state funds. It became apparent to me that the need was so great for this bill, as far as the continued operation of many businesses in this state, that I felt that issue should be addressed separately and it has been taken out of this bill entirely. The state will be offering longshoremen and harbor workers' benefits only to those who are now covered by longshoremen and harbor workers' act, and not any state employees who would otherwise be covered under this bill. We have taken that out completely. The issue will be addressed, of course, in the future of raising benefits to that level because that has been the recommendation of many national committees dealing with the section of workmen's compensation levels. That
will come whether this bill passes or not. What we are dealing with here is completely separate."

Mr. Newhouse spoke against passage of the bill.

POINT OF INQUIRY

Mr. King yielded to question by Mr. Pardini.

Mr. Pardini: "Representative King, I listened to your answer to Representative Sommers very closely, but I got a little bit confused at one point. With passage of this bill, will it be the first time that we would be paying benefits out of the state fund that would be comparable to, or dictated by, federal law?"

Mr. King: "The answer is yes."

MOTION

Mr. Flanagan moved that the Labor Committee be relieved of HOUSE BILL NO. 145, and that it be placed on the the calendar for immediate consideration.

Mr. Flanagan spoke in favor of the motion.

POINT OF ORDER

Mr. King: "Mr. Speaker, was the motion to suspend the rules or just to relieve? It would require a suspension of the rules to bring a bill on third reading because we are on third reading and we are not on second reading. That would be the time to make that motion."

The Speaker: "Representative King, your point is well taken. The motion would be in order if we were on second reading of bills. Inasmuch as we are on third reading, it would take a suspension of the rules to place a bill onto the third reading calendar."

MOTION

Mr. Flanagan moved that the rules be suspended, and that the Labor Committee be relieved of House Bill No. 145, and that it be placed on the third reading calendar for immediate consideration.

Mr. Lux spoke against the motion.

Ms. Becker demanded an electric roll call and the demand was sustained.

ROLL CALL

The Clerk called the roll on the motion to suspend the rules, relieve the Labor Committee of House Bill No. 145 and place it on today's third reading calendar, and the motion was lost by the following vote: Yeas, 36; nays, 56; not voting, 6.

Not voting: Representatives Conner, Fortson, Gruger, Knedlik, Lee, McCormick.

EXPLANATION OF VOTE

I favored the motion by Representative Flanagan to suspend the rules and place House Bill No. 145 on the calendar because the bill applies to the same issue of industrial insurance. The arguments for House Bill No. 793 are those used for "three-way" compensation insurance. It also is important to recognize the application of federal law to state payment requirements.

HAL ZIMMERMAN, 17th District.

The Speaker stated the question before the House to be final passage of Engrossed House Bill No. 793.

Mr. Bond spoke against passage of the bill.
ELEVENTH DAY, MARCH 21, 1977

POINT OF INQUIRY

Mr. King yielded to question by Mr. Douthwaite.

Mr. Douthwaite: "In section 8, page 3, lines 9, 10 and so on, it refers to the fact that this fund is exempted from any and all taxes which are levied by any state or local government on insurance policies and coverage under this chapter. Does this mean that it is only the state fund that is exempt from the tax while the private companies must pay it?"

Mr. King: "That is the current practice, yes."

Representatives Douthwaite and Lux spoke in favor of passage of the bill.

POINT OF ORDER

Mr. Pardini: "Mr. Lux is moving very, very far from the bill. Representative Flanagan's motion was defeated."

The Speaker: "Your point is well taken. Confine your remarks to the merits of this bill, Representative Lux."

Mr. Lux continued his remarks in favor of the bill.

POINT OF INQUIRY

Mr. Lux yielded to question by Mr. Deccio.

Mr. Deccio: "Representative Lux, why wasn't the rationale for a state monopoly used in this piece of legislation like it is in the rest of the workmen's compensation bill?"

Mr. Lux: "Representative Deccio, you know it crossed my mind that this might be a test ground and we can see how it works and then in a couple of years we can come back and we'll know whether this is going to be a fruitful way to go."

Mr. Deccio spoke in favor of passage of the bill.

ROLL CALL

The Clerk called the roll on the final passage of Engrossed House Bill No. 793, and the bill passed the House by the following vote: Yeas, 74; nays, 18; not voting, 6.

Not voting: Representatives Conner, Fortson, Gruger, Knedlik, McCormick, and Mr. Speaker.

Engrossed House Bill No. 793, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

SUBSTITUTE HOUSE BILL NO. 314, by Committee on Social and Health Services (Originally sponsored by Representatives Adams, Whiteside, Thompson, Newhouse and Kreidler):

Authorizing pharmacy assistants and providing for their regulation.

The bill was read the third time and placed on final passage.

Representatives Adams and Newhouse spoke in favor of passage of the bill, and Representatives Amen and Fischer spoke against it.

POINT OF INQUIRY

Mr. Fischer yielded to question by Mr. Ehlers.

Mr. Ehlers: "You indicated that the deciding vote was the lay person on the pharmacy board. Could you tell us how they voted?"

Mr. Fischer: "The lay person voted for the pharmacy assistant."

Mr. Hurley (George) spoke in opposition to passage of the bill.
MOTION

On motion of Mr. King, the House recessed until 2:00 p.m.

AFTERNOON SESSION

The House was called to order at 2:00 p.m. by the Speaker. The Clerk called the roll and all members were present except Representatives Conner, Fortson, Gruger, Knedlik, McCormick and Shinoda, who were excused.

SUBSTITUTE HOUSE BILL NO. 314:

The House resumed consideration of the bill on third reading.

Mr. Adams spoke in favor of passage of the bill.

POINT OF INQUIRY

Mr. Fischer yielded to question by Mr. Bender.

Mr. Bender: "Representative Fischer, do you see this legislation as setting a trend for hiring more assistants as opposed to qualified pharmacists?"

Mr. Fischer: "Yes, I do. In one of the stores in this state at the present time there are seven pharmacy assistants working with one pharmacist, and this would certainly have that trend. That's exactly what is happening in California in the example that Representative Adams was talking about. There were a large number of assistants working and they were filling prescriptions and they are doing it in this state also right at the present time."

Representatives Kreidler and Shinpoch spoke in favor of passage of the bill, and Representatives Clemente and Amen spoke against it.

ROLL CALL

The Clerk called the roll on the final passage of Substitute House Bill No. 314, and the bill passed the House by the following vote: Yeas, 65; nays, 26; not voting, 7.

Not voting: Representatives Conner, Fortson, Gruger, Knedlik, McCormick, Shinoda, Sommers.

Substitute House Bill No. 314, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

ENGROSSED HOUSE BILL NO. 595, by Representatives Ehlers, Nelson (Gary) and Sommers:

Changing the number of members and means of appointment, respectively, of the nursing home council and the emergency medical and ambulance review committee.

The bill was read the third time and placed on final passage.

Mr. Ehlers spoke in favor of passage of the bill.

ROLL CALL

The Clerk called the roll on the final passage of Engrossed House Bill No. 595, and the bill passed the House by the following vote: Yeas, 91; nays, 0; not voting, 7.

Voting yea: Representatives Adams, Amen, Barnes, Barr, Bauer, Becker, Bender, Berentson, Blair, Boldt, Bond, Burns, Chandler, Charette, Charnley, Clayton, Clemente, Craswell, Deccio, Douthwaite,
ELEVENTH DAY, MARCH 21, 1977

Not voting: Representatives Conner, Fortson, Gruger, Kncdlik, Martinis, McCormick, Shinoda.

Engrossed House Bill No. 595, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MOTION

On motion of Mr. King, the House reverted to the sixth order of business.

SECOND READING

SUBSTITUTE HOUSE BILL NO. 101, by Committee on Commerce (Originally sponsored by Representatives Warnke, Fortson, Gallagher and Hansen):

Establishing a gambling area within the state to be known as the Washington Bazaar.

The House resumed consideration of the bill on second reading. (For previous action, see Journal, 45th Day, February 23, 1977.)

MOTION

Mr. Paris moved that further consideration of Substitute House Bill No. 101 be indefinitely postponed.

Representatives Paris, Tilly and Struthers spoke in favor of the motion, and Mr. Warnke spoke against it.

Mr. Patterson demanded an electric roll call and the demand was sustained.

Representatives Zimmerman, Paris, Pruitt and Fuller spoke in favor of the motion, and Mr. Gallagher spoke against it.

ROLL CALL

The Clerk called the roll on the motion to indefinitely postpone further consideration of Substitute House Bill No. 101, and the motion was carried by the following vote: Yeas, 55; nays, 35; not voting, 8.

NOTICE OF RECONSIDERATION

Mr. Warnke, having voted on the prevailing side, served notice that he would, on the next working day, move for reconsideration of the vote by which further consideration of Substitute House Bill No. 101 was indefinitely postponed.

HOUSE BILL NO. 395, by Representatives Shinpoch, Charette, Polk, Blair and Kncdlik:

Revising the procedures for processing claims against the state.

The bill was read the second time.

On motion of Mr. Shinpoch, Substitute House Bill No. 395 was substituted for House Bill No. 395, and the substitute bill was placed on the calendar for second reading.

Substitute House Bill No. 395 was read the second time.
Mr. Pardini: "My point is Mr. Warnke's motion to reconsider on the next working day. Rule 70 of the House rules says a motion to reconsider on the final passage of bills may be made only on the day the vote to reconsider was taken, and then you set over one day. Reed's 205 says a motion to reconsider must be made on the day on which the action sought to be revised was had. I ask the Chair to rule on whether we will vote on that motion immediately today or whether we hold it over until tomorrow?"

The Speaker: "The question is not before us. The current question before the House is second reading of House Bill No. 395. I acknowledged receiving the message from Representative Warnke that he would move to reconsider the motion by which Substitute House Bill No. 101 was indefinitely postponed."

Substitute House Bill No. 395 was passed to Committee on Rules for third reading.

Mr. Polk: "Mr. Speaker, then on the next working day when Representative Warnke makes his motion to reconsider will you accept a challenge of that motion at that time?"

The Speaker: "A point of order is always in order and I will make my ruling when the point is made. Right now that's not before us."

The resolution was read the second time.

On motion of Mr. Charette, Substitute House Joint Resolution No. 38 was substituted for House Joint Resolution No. 38, and the resolution was placed on the calendar for second reading.

MOTIONS

Mr. King moved that further consideration of Substitute House Joint Resolution No. 38 be deferred, and that the resolution be placed at the bottom of today's second reading calendar immediately following House Bill No. 601.

On motion of Mr. King, further consideration of House Bill No. 281 was deferred, and the bill was ordered placed at the top of tomorrow's second reading calendar.

Changing laws on reporting of vehicle accidents.
The bill was read the second time.

MOTION
On motion of Mr. King further consideration of House Bill No. 727 was deferred, and the bill was ordered placed on the second reading calendar of tomorrow immediately following House Bill No. 281.

The Speaker called on Mr. O'Brien to preside.

Mr. Douthwaite: "For the record, would you explain whether or not this was intended to apply to any one savings account or the total of one's total savings accounts, or specifically to what savings account might this apply?"

Mr. Charnley: "The intention of this amendment is that the first $500 of interest income from all savings accounts would be excluded and any other income beyond that amount would not be excluded; it would be counted as income."

Mr. Leckenby spoke against adoption of the Charnley amendment.
MOTION

On motion of Mr. King, further consideration of House Bill No. 355 was deferred, and the bill was ordered placed on tomorrow's second reading calendar.

The House reconsidered the Hawkins amendment to the committee amendment, and it was not adopted.

Mr. Hawkins moved adoption of the following amendment to the committee amendment: On page 4 of the amendment, line 24, beginning with "On" strike all material down to and including "records."

Within three weeks after the last day for filing declarations of candidacy under RCW 29.18.030, the secretary of state shall provide each county auditor with a list containing the names and addresses of all registered voters who signed a convention nominating certificate and who live in the same county as the auditor, but not containing any other details which could be used to ascertain the identity of the particular convention for which any such registered voter has signed a nominating certificate. On the seventh day after filing a nominating certificate or notifying the presiding officer or secretary of a convention of any signatures judged invalid on a nominating certificate, the secretary of state shall destroy the portion of the certificate which contains the signatures, names and addresses of convention participants unless the certificate is in dispute, in which case that portion shall be retained until the dispute is resolved. Upon resolution of any such dispute, the secretary of state shall destroy that portion of the nominating certificate. In no case shall the fact that a voter participated in a particular convention be disclosed to any person other than the election official who checks the validity of signatures on nominating certificates.

Representatives Hawkins and Fuller spoke in favor of the amendment to the committee amendment.

POINT OF INQUIRY

Mr. Hawkins yielded to question by Mr. Newhouse.

Mr. Newhouse: "Was this amendment considered in committee? Is there to be a secret list of attendants at a convention of this type?"

Mr. Hawkins: "The answer to the first question is that we did not consider this revised language; we did consider the subject in committee. As to whether there will be a secret list, I think the present nominating lists are kept within the safe in the Secretary of State's office and
that has been found to be an adequate security measure so if that's what your are referring to when you talk about a secret list. The availability of this list would exist for a finite period of time in order to provide for challenge and after that time the information would no longer be available."

POINT OF INQUIRY

Mr. Hawkins yielded to question by Mr. Pardini.

Mr. Pardini: "Representative Hawkins, in the middle of this amendment we make provisions for destroying these lists on the seventh day after the nomination; is there any other provision where the Secretary of State destroys anything that is sent to him in regard to an election or a nominating process?"

Mr. Hawkins: "No."

Mr. Pardini spoke against adoption of the amendment.

MOTIONS

Mr. Amen moved that Engrossed Substitute Senate Bill No. 2032 be rereferred to Committee on Elections and Governmental Ethics.

Mr. King moved that further action on Engrossed Substitute Senate Bill No. 2032 be deferred, and that the bill be placed on tomorrow's second reading calendar.

POINT OF ORDER

Mr. Newhouse: "The motions are of the same rank."

SPEAKER'S RULING (MR. O'BRIEN PRESIDING)

The Speaker (Mr. O'Brien presiding): "Your point is well taken. The motion to commit and the motion to defer are of the same rank. We have a motion before us now to rerefer Engrossed Substitute Senate Bill No. 2032 to Committee on Elections and Governmental Ethics, Representative King, and that motion will have to be disposed of before I can recognize your other motion."

Mr. Hawkins spoke in opposition to the motion to rerefer, and Mr. Newhouse spoke in favor of it.

Mr. King demanded the previous question, and the demand was not sustained.

MOTION

On motion of Mr. King, the House adjourned until 11:00 a.m., Tuesday, March 22, 1977.

Ms. Sommers: "Representative Thompson, I looked at this bill and wondered that if perhaps we should have rereferred it to the Revenue Committee because we do look at things like that generally. I didn’t raise the question because it was already on the floor. You have to go
through the PUD sections very carefully to be able to determine which pays what. They are quite complicated and they do have different terms."

Mr. Hawkins spoke in favor of the amendment, and Mr. Newhouse spoke against it.

**POINT OF INQUIRY**

Mr. Hawkins yielded to question by Mr. Barnes.

Mr. Barnes: "Representative Hawkins, Representative Newhouse brought up the question of revealing the candidates' names. Is there concealment of their names in your amendment to the committee amendment, or would the names be concealed in either case whether we passed your amendment or not?"

Mr. Hawkins: "There is no reference to the candidates' names. The candidate's name obviously has to become a matter of public record as to which party he is taking the nomination."

Mr. Barnes: "I meant the convention attendant's name."

Mr. Hawkins: "Their names would be a public record until such time as seven days had passed after the opportunity for an officer of that convention to respond to a challenge from within the membership of the convention, and their names would not be revealed as to which party convention they had participated in, but it would be part of the public record so that the auditor could check the file and see if indeed they had participated in that nominating convention."

Mr. Barnes: "In other words, the names would be revealed to the auditor so he could check the validity? The party association would not be public in either case whether your amendment is passed or not?"

Mr. Hawkins: "Yes."

Representatives Pardini and Zimmerman spoke against the amendment to the committee amendment, and Mr. Hawkins spoke again in favor of it.

**POINT OF INQUIRY**

Mr. Hawkins yielded to question by Mr. Patterson.

Mr. Patterson: "Representative Hawkins, I'm trying to recall back as to the way the minor political parties handled their conventions in the past, and as I recall in order to be eligible to participate in the convention you must have voted in the primary, is that correct? Now does this new amendment that you have also carry the same provision? If you voted in the primary would you then be allowed to be a delegate in a minor party convention?"

Mr. Hawkins: "The timing provision in this committee amendment is substantially different from the present process. You may have noticed in there that the minor parties would hold
their convention on the Saturday before the regular filing period, which is the last Monday in July. That's our normal filing period. They would be required to hold their nominating convention on the Saturday preceding that Monday so the nominating convention would not be held on the same day as the regular primary election. They would, however, be allowed to vote in the primary election, in nonpartisan elections, and for ballot proposals that would be placed on the primary ballot, and that would be a special ballot prepared by the County Auditor and made available to those individuals who participated in a minor party nominating convention in the preceding July.

Mr. Patterson: "In the section that identifies the legislative races, as I read on page 2, would the twenty-five people have to be present at the convention in order to nominate a candidate to run against you in your legislative district?"

Mr. Hawkins: "Yes."

Mr. Patterson: "Twenty-five people residing within that legislative district would have to be present and participating and registered as a member of the convention in order to be nominated?"

Mr. Hawkins: "I believe that is accurate. I think that is the minimum. Most commonly twenty-five would be the number and since we struck the proxy provision yesterday they would have to be actually there in order to nominate a candidate."

Mr. Polk demanded an electric roll call, and the demand was sustained.

ROLL CALL

The Clerk called the roll on adoption of the amendment by Representative Hawkins to the committee amendment to Engrossed Substitute Senate Bill No. 2032, and the amendment to the amendment was adopted by the following vote: Yeas, 49; nays, 44; not voting, 5.

Mr. Nelson (Dick) spoke in favor of the amended amendment, and Mr. Amen spoke against it.
Mr. Nelson (Dick) yielded to question by Mr. Deccio.

Mr. Deccio: "Representative Nelson, you used the term 'frivolous minor parties.' Would you give us an example of what a frivolous minor party is?"

Mr. Nelson (Dick): "Well, I think, to give you a general definition, I think a frivolous minor party is a party that really doesn't have a platform and isn't seriously proposing solutions to the problems of this state and this nation. There was at least one on the ballot I think that turned the election process into a comedy. That I would call a frivolous minor party. They appear to be taking on the proportions of a major party and unless maybe some of us get to work they might present a bigger problem."

Representatives Barnes and Hawkins spoke in favor of adoption of the committee amendment as amended.

Mr. Patterson demanded an electric roll call and the demand was sustained.

Representatives Hurley (George) and Fuller spoke in favor of adoption of the amendment.

ROLL CALL

POINT OF INQUIRY

Mr. Douthwaite yielded to question by Mr. Leckenby.

Mr. Leckenby: "Representative Douthwaite, there are a number of community councils that are operating now, and they can still operate without this law, so what is this going to do, if this is passed, that can't be done already?"

Mr. Douthwaite: "I think the best answer to that was provided by Representative Lee in her comments about the legitimacy of community councils. I know I've heard some come here before the legislative committees and the question was asked who did they represent and they say they represent the community council on Capitol Hill or something. Then you say, 'Well, are you elected? And if so, by whom?' These are embarrassing questions. They might be embarrassing because they don't have any legitimate official legal standing to represent whatever district they claim to represent. Therefore, this gives them a more solid basis in law, if they wish to utilize this pattern they can do so."

Mr. Ehlers: "Of course, if she remarries a veteran—"

Mr. Hurley (George): "I think she loses completely if she remarries and the thing that bothers me is that if she remarries and her husband dies in six months or a year she has lost that eligibility and it would be impossible for her again to be able to stay in one of those homes, regardless of poverty or anything else."

Mr. Ehlers: "No, I don't believe that's true. I can't find it in here, but I don't think it's true."

Mr. Hurley (George) spoke against passage of the bill, and Mr. Ehlers spoke again in favor of it.

On page 3, line 9 after "assignment" strike the period and insert ", with the exception of a private nonprofit agency which will receive compensation of ten percent of the net salary for each program for local service enrollee, up to two enrollees for each agency, and only five percent of each enrollee's net salary of three or more enrollees, these amounts not to be deducted from the enrollee's salary, but to be paid to the agency by the state."

Contracts entered into with employers other than local governmental and private nonprofit agencies shall not be exempted from the minimum wage laws of this state, but the director shall be empowered to reimburse the employer an amount not to exceed the amount that would have been paid under section 5 of this act. The director shall only be authorized to make said payments for a maximum period of one year.

The director shall report back to the legislature by January 15, 1978 the number of contracts entered into and the number of youth employed under this section and under section 5 of this act.*

Representatives Pardini, Berentson, Sanders, Leckenby and Bond spoke in favor of the amendment, and Representatives King, Becker and Lux spoke against it.

Mr. Pardini spoke again in favor of the amendment.

Mr. King demanded the previous question and the demand was sustained.

Mr. Patterson demanded an electric roll call and the demand was sustained.

ROLL CALL

The Clerk called the roll on adoption of the amendment by Representatives Pardini and Sanders to Engrossed Senate Bill No. 2069, and the amendment was adopted by the following vote: Yeas, 55; nays, 37; not voting, 6.

Not voting: Representatives Conner, Eng, Fortson, Gruger, Hurley G. S., and Mr. Speaker.

MOTION FOR RECONSIDERATION

Mr. King, having voted on the prevailing side, moved to reconsider the vote by which the House adopted the Pardini/Sanders amendment to Engrossed Senate Bill No. 2069.

Mr. King spoke in favor of the motion, and Mr. Polk spoke against it.

POINT OF INQUIRY

Mr. Pardini yielded to question by Mr. Lux.

Mr. Lux: "Representative Pardini, under the bill as it now exists with the stipend, do the young people, after one year of this type of exposure, receive unemployment when they are through with that one year of experience?"

Mr. Pardini: "It would be my hope, Representative Lux, that after one year those people would have enough marketable skills to allow them to remain in the labor force. If they did acquire enough skills they would have all the rights, all the entitlements, of any person who was discharged from a job."

Mr. Lux: "That's under your version?"

Mr. Pardini: "Yes, sir."

Representatives Lux and Hanna spoke in favor of the motion, and Representative Berentson spoke against it.

POINT OF INQUIRY

Mr. Pardini yielded to question by Mr. Nelson (Dick).

Mr. Nelson (Dick): "I'm still puzzled by one thing. Under the program of local services, an enrollee, in effect, can go out and negotiate a contract for a job for a year's time and I'm wondering if, under your amendment, an enrollee would have the right to refuse a job in private industry in a training program if that person was directed to that job by the Department of Employment Security?"

Mr. Pardini: "In response to your question, Representative Nelson, number one, I do not believe that under the present bill the enrollee himself goes out to contract for the job. I believe he is assigned to an area where the director has said that contract does exist and we can open up this thing. He then makes application for the job and if he has qualifications he goes on; he does not go out and make his own contracts. I would propose in my amendment that the director do exactly the same thing. The contract is actually made through the Department of Labor and Industries with the private sector. The director approves those particular things which in the opinion of the director—and I would cite to you very specifically, 'The director is
hereby authorized to enter into any contract with any employer that offers such training program... So it's up to the total discretion of the director."

Representatives Nelson (Dick) and Bauer spoke in favor of the motion to reconsider the amendment.

Mr. Patterson demanded an electric roll call and the demand was sustained.

Mr. Pardini spoke against the motion.

**ROLL CALL**

The Clerk called the roll on the motion to reconsider the vote by which the Pardini/Sanderson amendment to Engrossed Senate Bill No. 2069 was adopted, and the motion was carried by the following vote: Yeas, 49; nays, 43; not voting, 6.

Not voting: Representatives Conner, Eng, Fortson, Gruger, Keller, and Mr. Speaker.

**MOTIONS**

On motion of Mr. King, further consideration of Engrossed Senate Bill No. 2069 was deferred, and the bill was ordered held for tomorrow's second reading calendar.

On motion of Mr. King, the House advanced to the eighth order of business.

**MOTION FOR RECONSIDERATION**

Mr. Fuller, having voted on the prevailing side, moved that the House now reconsider the vote by which ENGROSSED SECOND SUBSTITUTE HOUSE BILL NO. 282 passed the House.

Representatives Fuller, Newhouse, Berentson, Hurley (Margaret) and Chandler spoke in favor of the motion, and Representatives Hawkins and Douthwaite spoke against it.

**POINT OF INQUIRY**

Mr. Hawkins yielded to question by Mr. Barnes.

Mr. Barnes: "Representative Hawkins, there seems to be some confusion as to whether this bill takes care of the other party's rules. I notice in page 5, there is a statement that says, 'The provisions of this subsection shall not apply where party rules provide otherwise.' My question would be, does this mean state party rules? Does this mean that the state party could, if they wish, go with a unit rule?"

Mr. Hawkins: "We're talking about conformity with state party rules with national party rules. That's one issue. I'm not sure that I can answer your question directly. The appropriation of a delegate according to the proportionality as a result of the election would be paramount criteria."

Mr. Barnes: "Thank you. Then your answer is that this would really take care of the other party's rules? I think that answers the confusion, does it not?"

Mr. Hawkins: "There in no interference with party rules."

Mr. Barnes: "So then, for the record, the state party, the Republican Party, these levels could, according to your answer, go with the unit rule and send delegates to the national convention on a unit rule basis?"

Mr. Hawkins: "That's correct."

Mr. Barnes: "On page 4, new section 6, it says, 'Each major political party shall select... Then why, please tell me, did you object to my attempt to amend that word to 'may'?"

Mr. Hawkins: "That's dealing with a different provision of the presidential preference primary. That's dealing with the direct selection of delegates by caucus and convention process and not the proportional representation as a result of the popular election."
Representatives Barnes and Haley spoke in favor of the motion for reconsideration, and Mr. Hawkins spoke against it.

Mr. King demanded the previous question, and the demand was sustained.

ROLL CALL

The Clerk called the roll on the motion for reconsideration of the vote by which the House passed Engrossed Second Substitute House Bill No. 282, and the motion was lost by the following vote: Yeas, 38; nays, 54; not voting, 6.

MOTION

On motion of Mr. King, the House reverted to the sixth order of business.

Mr. Clemente spoke in favor of the amendment, and Ms. Becker spoke against it.

POINT OF INQUIRY

Mr. Clemente yielded to question by Mr. McKibbin.

Mr. McKibbin: "Representative Clemente, would there be any fiscal impact or change in the impact as a result of this amendment that you are offering to the bill at this time?"

MAJORITY recommendation: Do pass with the following amendments:

On page 1, strike everything after the enacting clause and insert:

"NEW SECTION. Section 1. The legislature finds that it is necessary to provide the department of ecology with emergency powers to authorize withdrawals of public surface and ground waters, including dead storage within reservoirs, on a temporary basis, and construction of facilities in relation thereto, in order to alleviate emergency water supply conditions arising from the drought forecast for the state of Washington during the summer and fall of 1977.

In order to provide needed capital for the planning, acquisition, construction, and improvement of water supply facilities to withdraw and distribute water to alleviate emergency water supply conditions arising from the drought forecast for the state of Washington during the summer and fall of 1977, the state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of eighteen million dollars, or so much thereof as may be required to finance such projects, and all costs incidental thereto. No bonds authorized by this section and sections 13 through 16 of this 1977 amendatory act shall be offered for sale without prior legislative appropriation, and these bonds shall be paid and discharged within thirty years of the date of issuance in accordance with Article VIII, section 1 of the state Constitution.

NEW SECTION. Sec. 2. Domestic and irrigation uses of public surface and ground waters shall be given priority in determining "beneficial uses" for the purposes of section 3 of this 1977 amendatory act.

NEW SECTION. Sec. 3. In addition to the powers previously vested in the department of ecology to permit the withdrawal of public surface and ground waters by chapters 90.03 and 90.44 RCW, the department of ecology is authorized to permit withdrawals of public surface and ground waters, including dead..."
storage within reservoirs, on a temporary basis, for any period ending not later than September 30, 1977, for any beneficial use. The department may issue such emergency permits if, after investigation and after providing appropriate federal, state, and local governmental bodies an opportunity to comment, the following are found:

(1) The waters proposed for withdrawal are to be used in relation to beneficial use involving a previously established activity or purpose; and

(2) The previously established activity or purpose was furnished water through rights applicable to the use of a public water body which are not exercisable due to the lack of water arising from natural drought conditions; and

(3) The proposed withdrawal will not reduce flows or levels below essential minimums necessary (a) to assure the maintenance of fisheries requirements, and (b) to protect federal and state interests including, among others, power generation, navigation, and existing water rights.

All permits issued hereunder shall contain provisions which allow for termination of authorized withdrawals, in whole or in part, whenever withdrawals will conflict with flows and levels as provided in subsection (3) of this section.

NEW SECTION. Sec. 4. In addition to any other powers previously vested in the department of social and health services, the department is authorized to permit withdrawal of public surface and ground waters for municipal and industrial water supply and distribution facilities to alleviate emergency water supply conditions arising from the drought forecast for the state during the summer and fall of 1977. Such authorization shall be on a temporary basis for any period ending not later than September 30, 1977. The department may issue such emergency permits if, after investigation and after providing appropriate federal, state, and local governmental bodies an opportunity to comment, the following are found:

(1) The waters proposed for withdrawal are to be used in relation to beneficial use involving a previously established activity or purpose; and

(2) The previously established activity or purpose was furnished water through rights applicable to the use of a public water body which are not exercisable due to the lack of water arising from natural drought conditions; and

(3) The proposed withdrawal will not reduce flows or levels below essential minimums necessary (a) to assure the maintenance of fisheries requirements, and (b) to protect federal and state interests including, among others, power generation, navigation, and existing water rights.

All permits issued hereunder shall contain provisions which allow for termination of authorized withdrawals, in whole or in part, whenever withdrawals will conflict with flows and levels as provided in subsection (3) of this section.

NEW SECTION. Sec. 5. (1) As to projects and water withdrawal permits issued or authorized or both under sections 3 and 4 of this 1977 amendatory act, the requirements of chapter 43.21C RCW and all local zoning ordinances, plans, and local building and construction permit ordinances are waived and inapplicable. Notwithstanding any other provisions of law, water projects and related withdrawal permits, authorized or issued pursuant to sections 3 or 4 of this 1977 amendatory act shall not be subject to any public notice requirements. Permits issued under sections 3 and 4 of this 1977 amendatory act shall be in lieu of all environmental protection and natural resource regulation permits, certificates, and other approvals and authorization documents required under state statutes including, but not limited to, RCW 90.58.140, 75.20.100, and 86.16.080, as well as all other similar permits required under local ordinances. All state departments or other agencies having jurisdiction over state or other public lands which are required to be used in carrying out projects related to water withdrawal permits, issued pursuant to sections 3 and 4 of this 1977 amendatory act, shall provide short term easements or other appropriate property interests upon the payment of the fair market value: PROVIDED, That this mandate shall not apply to any lands of the state which are reserved for a special purpose or use which cannot properly be carried out if such a property interest were to be conveyed.

(2) Upon request of the department of ecology or the department of social and health services, the department of general administration may waive any public bidding requirements otherwise provided by law, for any project authorized by sections 3 or 4 of this 1977 amendatory act and financed with funds appropriated in this 1977 amendatory act if the department of general administration determines that (a) an emergency condition exists, and (b) if the request for a waiver is not approved the public interest will be significantly affected in a detrimental manner. The department of general administration shall rule upon requests for waiver submitted to it within five working days. If the department fails to rule within said five-day period the request shall be deemed approved and a waiver deemed to be granted. The department of general administration, after obtaining the views of the department of ecology and the department of social and health services, shall adopt rules to implement this section. Notwithstanding any other provision of this 1977 amendatory act, this subsection shall terminate on September 30, 1977.

NEW SECTION. Sec. 6. (1) Nothing in sections 1 through 10 of this 1977 amendatory act shall authorize any interference whatsoever with existing water rights.

(2) Nothing in sections 1 through 10 of this 1977 amendatory act shall authorize the establishment of rights to withdrawal of waters of a permanent nature or of rights with any priority.

(3) Nothing in sections 1 through 10 of this 1977 amendatory act shall authorize the establishment of a water right under RCW 90.03.250 or 90.44.060.

(4) Nothing in sections 1 through 10 of this 1977 amendatory act shall preclude any person from filing an application pursuant to RCW 90.03.250 or 90.44.060: PROVIDED, HOWEVER, That any such application for withdrawal rights as to withdrawals made under authority of sections 1 through 10 of this 1977
amendatory act shall be subject to all applicable laws and rules as though sections 1 through 10 of this 1977 amendatory act had not existed.

NEW SECTION. Sec. 7. (1) The department of ecology shall adopt such rules as are necessary and appropriate to carry out the powers provided in this 1977 amendatory act.

(2) The department of social and health services shall adopt such rules as are necessary and appropriate to carry out the powers provided in this 1977 amendatory act.

NEW SECTION. Sec. 8. The procedures of RCW 90.48.144 shall be applicable to all phases of the levying of a penalty as well as review and appeal of the same.

NEW SECTION. Sec. 9. The department of ecology is authorized to employ necessary temporary personnel until September 30, 1977, in project-related fields, including, but not limited to, engineering, hydrology, geology, and natural or water resources, not to exceed five full-time equivalent staff years to carry out the provisions of sections 1 through 10 of this 1977 amendatory act. Such temporary personnel shall be funded only through the biennial appropriations to the department, and not by funds provided by this 1977 amendatory act.

NEW SECTION. Sec. 10. (1) The department of ecology shall, by rule, establish rates of charges for all waters delivered from such facilities. Where the department provides water to public or municipal corporations or other governmental bodies having authority to distribute water, the payment for the water may be made pursuant to contract over a period not exceeding twenty-five years from the date of delivery. In all other cases, the department shall obtain payment for waters prior to its delivery to a purchaser. All payments received shall be deposited into the state emergency water projects bond redemption fund of 1977.

(2) Public bodies, eligible to obtain funds through grants or loans or combinations thereof under the provisions of sections 1 through 10 of this 1977 amendatory act and RCW 43.83B.210 as now or hereafter amended, are authorized to enter into contracts with the department of ecology for the purpose of repaying loans authorized by sections 17 and 18 of this 1977 amendatory act and for the purpose of purchasing water under this section.

(3) The department of ecology is authorized to enter into appropriate contracts to ensure effective delivery of water and the operation and maintenance of facilities constructed pursuant to this 1977 amendatory act.

Sec. 11. Section 3, chapter 295, Laws of 1975 1st ex. sess. as amended by section 1, chapter 36, Laws of 1975—76 2nd ex. sess. and RCW 43.83B.210 are each amended to read as follows:

The department of ecology is authorized to make loans or grants or combinations thereof to eligible public bodies as defined in RCW 43.83B.050 for rehabilitation or betterment of agricultural water supply facilities, and/or construction of agricultural water supply facilities required to develop new irrigated lands or, when required because of emergency drought conditions, to provide water to previously irrigated lands.

The department of ecology may make such loans or grants or combinations thereof as matching funds in any case where federal, local, or other funds have been made available on a matching basis. A loan or combination loan and grant shall not exceed fifty percent of the approved eligible project costs for any single proposed project: PROVIDED, That for projects authorized by section 18 of this 1977 amendatory act the department of ecology may make a loan or combination loan and grant up to one hundred percent of the total single project cost and the grant portion for any single project shall not exceed fifteen percent of the total single project cost. Any grant or grant portion of a combination loan and grant for any single proposed project shall not exceed fifteen percent of the eligible project costs: PROVIDED, That the fifteen percent limitation established herein shall not be applicable to project commitments which the director or deputy director of the state department of ecology made to the bureau of reclamation of the United States department of interior for providing state funding at thirty-five percent of project costs during the period between August 1, 1974, and June 30, 1975.

The department of social and health services is authorized to make grants of up to forty percent of the cost of construction of any eligible project necessitated by the 1977 drought conditions. Such grants may be made only to public bodies as defined in RCW 43.83B.050 for municipal and industrial water supply and distribution facilities.

NEW SECTION. Sec. 12. The state finance committee is authorized to prescribe the form of the bonds authorized in section 1 of this 1977 amendatory act, the time of sale of all or any portion or portions of such bonds, and the conditions of sale and issuance thereof.

The bonds shall pledge the full faith and credit of the state of Washington and contain an unconditional promise to pay the principal and interest when due. The committee may provide that the bonds, or any of them, may be called prior to the due date thereof under such terms and conditions as it may determine. The state finance committee may authorize the use of facsimile signatures in the issuance of the bonds.

As used in sections 1, and 12 through 16 of this 1977 amendatory act, the term "water supply facilities for water withdrawal and distribution" shall mean municipal, industrial, and agricultural water supply and distribution systems including, but not limited to, all equipment, utilities, structures, real property, and interest in and improvements on real property necessary for or incidental to the acquisition, construction, installation, improvement, or use of any water supply or distribution system furnishing water for agricultural, municipal or industrial purposes.
NEW SECTION. Sec. 13. At the time the state finance committee determines to issue such bonds authorized in sections 1, and 12 through 16 of this 1977 amendatory act or a portion thereof, it may, pending the issuance thereof, issue in the name of the state, temporary notes in anticipation of the money to be derived from the sale of the bonds, which notes shall be designated as "bond anticipation notes". The proceeds from the sale of bonds and notes authorized to be issued by sections 1, and 12 through 16 of this 1977 amendatory act shall be deposited in the state emergency water projects revolving account, hereby created in the general fund in the state treasury, and shall be used exclusively for the purposes specified in sections 1, and 12 through 16 of this 1977 amendatory act and for the payment of expenses incurred in the issuance and sale of such bonds and notes: PROVIDED, That such portion of the proceeds of the sale of such bonds as may be required for the payment of the principal and interest on such anticipation notes as have been issued, shall be deposited in the state emergency water projects bond redemption fund of 1977 in the state treasury created by section 15 of this 1977 amendatory act.

NEW SECTION. Sec. 15. The state emergency water projects bond redemption fund of 1977, hereby created in the state treasury, shall be used for the purpose of the payment of interest on and retirement of the bonds and notes authorized to be issued by sections 1, and 12 through 16 of this 1977 amendatory act. The state finance committee, on or before June 30th of each year, shall certify to the state treasurer the amount needed in the ensuing twelve months, to meet bond retirement and interest requirements. Not less than thirty days prior to the date on which any such interest or principal and interest payment is due, the state treasurer shall withdraw from any general state revenues received in the state treasury and deposit in the 1977 emergency water projects bond redemption fund an amount equal to the amount certified by the state finance committee to be due on such payment date.

MOTION

On motion of Mr. King, the rules were suspended, and Reengrossed Second Substitute
Senate Bill No. 2620 was placed at the bottom of today's second reading calendar.

SECOND READING

ENGROSSED SENATE BILL NO. 2069, by Senators Goltz, Morrison, Fleming,
Ridder, Sandison and North:

Establishing a youth service corps to promote youth employment and service to local
communities.

The House resumed consideration of the bill on second reading. (For previous action, see
yesterday's Journal, 13th Day ex. sess., March 23, 1977.)

The Speaker stated the question before the House to be reconsideration of the vote by
which the House adopted the amendment by Representatives Pardini and Sanders to page 3.

Mr. Pardini spoke in favor of the amendment, and Mr. King spoke against it.

POINT OF ORDER

Mr. Berentson: "I don't believe Representative King is speaking to the bill nor to the
amendment. We are talking about state support, not federal support. I think he ought to con­
fine his remarks to what we are doing in this bill."

The Speaker: "The amendment is pretty broad in its scope and it covers a lot of area.
Representative King is fairly close to speaking to the amendment. Please confine your remarks
to this issue, Representative King."

Mr. King continued his remarks in opposition to the amendment.

Representatives Leckenby, Greengo and Sanders spoke in favor of the amendment, and
Representatives Lux and Hanna spoke against it.

POINT OF INQUIRY

Mr. Pardini yielded to question by Mr. Douthwaite.

Mr. Douthwaite: "I've not heard anyone state an answer to the question of whether or not
this will enlarge the number of 750 employees. What is your opinion on that?"
Mr. Pardini: "Representative Douthwaite, as you know this bill does not carry any appropriation. I think the enlargement beyond 750 would be totally dependent upon the appropriation that is made later on in the session."

Mr. Douthwaite: "Then do I gather that the private employer, should this amendment pass, will not contribute money of his own, which will, in effect, cause this number to increase?"

Mr. Pardini: "That is correct. There is no contribution. There may not be, under this amendment, anybody participating in the program. The amendment suggests to the Director of Employment Security that if there is a private employer out there willing to keep someone skilled, with job opportunities, that the same amount of money that would go for these make-work jobs would be diverted to something more meaningful."

Mr. Douthwaite spoke in favor of the amendment.

Mr. Patterson demanded an electric roll call and the demand was sustained.

Mr. Pardini spoke in favor of the amendment, and Mr. Nelson (Dick) spoke against it.

POINT OF INQUIRY

Mr. Pardini yielded to question by Mr. Smith.

Mr. Smith: "Representative Pardini, is there anything in your amendment that sets up a division or distribution among these private service type jobs and the private enterprise jobs that your amendment addresses?"

Mr. Pardini: "Representative Smith, there is no mandate in this amendment. It's up to the discretion of the director to define whatever kind of balance he wants to define or put into this program. It's department discretion. It also, at the same time, means that if he finds none in the private sector, the entire program can go back to local service. If he finds one that might be worthwhile he might enter into that contract. It's totally voluntary. The director supports the program and I ask you to adopt the amendment."

ROLL CALL

The Clerk called the roll on reconsideration of the Pardini/Sanders amendment to Engrossed Senate Bill No. 2069, and the amendment was adopted by the following vote: Yeas, 49; nays, 46; not voting, 3.

Not voting: Representatives Deccio, Eng, Fischer.

On motion of Mr. Bond, the following amendment was adopted:
On page 3, line 16 strike "workman's" and insert "worker's"

The Speaker called on Mr. O'Brien to preside.

On motion of Mr. Pardini, the following amendments were adopted:
On page 4, following section 10 add a new section as follows:
"NEW SECTION. Sec. 11. The provisions of this chapter shall expire on December 31, 1981."
Renumber the remaining section consecutively.

On page 1, line 2 of the title after "service;" insert "creating an expiration date"

MOTION

Mr. King moved that Engrossed Senate Bill No. 2069 as amended by the House be rereferred to Committee on Appropriations.

Representatives King and Shinpoch spoke in favor of the motion, and Mr. Polk spoke against it.
Mr. Newhouse: "This does seem a bit unusual in procedure that following second reading this bill, that has not been amended to be more costly, then must go to Appropriations. I point out that the normal procedure is that when a bill comes from Rules with an impact substantial for an appropriation, it should go to Appropriations from Rules before second reading on the floor. I would also like to point out to the body that if we follow this procedure, take a bill through second reading, then send it to Appropriations, the normal procedure would be (and I know of no other) that then the bill must again come out here and go through the second reading process. I would suggest that this is not the normal procedure.

SPEAKER'S RULING (MR. O'BRIEN PRESIDING)

The Speaker (Mr. O'Brien presiding): "Do you want me to rule on your general comments? Representative Newhouse, in connection with your parliamentary inquiry on this motion for rereferral, there is no real standard procedure relative to matters pertaining to appropriations, directly or indirectly, except Rule 81. However, Rule 36 states as follows: 'A bill may be recommitted at any time before its final passage.' In other words, it's up to the House to determine whether or not this bill should be rereferred to Committee on Appropriations."

Mr. Newhouse: "Then the point, of course, that I raise and ask, is the Appropriations Committee authorized to add any further committee amendments or change the bill, and will the bill, when it comes from Appropriations Committee, be again subject to all amendments on second reading on the floor?"

The Speaker (Mr. O'Brien presiding): "Well, of course, as you are probably well aware, the committee has the authority and the right to review the contents of the bill and make decisions which later have to be confirmed and ratified by the House. Any amendment adopted by any committee at any stage is later subject to the approval of the House."

Mr. Shinpoch yielded to question by Mr. Berentson.

Mr. Berentson: "In that we do find this rather unusual and we trust that it's not an attempt to take the bill back to Appropriations to perhaps remove the Pardini amendment, could you comment as to your intent? Is it purely the appropriation that might be involved or would it be too much to ask if perhaps you would not disturb the bill in its present form other than the fiscal impact?"

Mr. Shinpoch: "Representative Berentson, I, obviously, cannot speak for the Appropriations Committee. Let me explain how we do handle appropriations. I'm sure that members of the Appropriations Committee will tell you that for those items which do not have a fiscal impact we do not work the bill in Appropriations. If it does not have a fiscal impact, then we do not put amendments on. Those must be done in other committees. That is the only thing that we work on these kinds of bills, except adding a new section to carry the appropriation. Other than that we really don't work anything else in Appropriations."

Mr. Berentson: "I assume then that you've answered in the affirmative and there is no real additional fiscal impact with the amendment, so you will look at it only from that standpoint and not the content of the amendment itself?"

Mr. Shinpoch: "That's the manner in which we handle all bills."

Mr. Polk: "I'd like to understand the ruling which you gave to Representative Newhouse. The next time the body sees this bill, I would presume it would return to us on second reading, is that correct?"

The Speaker (Mr. O'Brien presiding): "It will be a committee report coming back to the House."

Mr. Polk: "And referred to Rules Committee for second reading?"

The Speaker (Mr. O'Brien presiding): "That's our general practice, yes."
ROLL CALL

The Clerk called the roll on the motion to rerefer Engrossed Senate Bill No. 2069 as amended by the House to Committee on Appropriations, and the motion was carried by the following vote: Yeas, 64; nays, 29; not voting, 5.

Not voting: Representatives Deccio, Ehlers, Eng, Fischer, Fuller.

MOTION

On motion of Mr. King, the House recessed until 1:45 p.m.

AFTERNOON SESSION

The House was called to order at 1:45 p.m. by the Speaker. The Clerk called the roll and all members were present except Representatives Deccio, Eng and Fischer, who were excused.

Mr. King demanded a Call of the House and the demand was sustained.

CALL OF THE HOUSE

The Sergeant at Arms was instructed to lock the doors.

The Clerk called the roll and all members were present except Representatives Deccio, Eng and Fischer.

MOTION

On motion of Mr. King, the absent members were excused, and the House proceeded with business under the Call of the House.

SECOND READING

HOUSE BILL NO. 62, by Representatives King, Clemente, Fischer, Lux, Pearsall, Gallagher and May:

Enacting a state labor-management relations act.

The bill was read the second time.

Committee on Labor recommendation: Majority, do pass as amended. (For amendments, see Journal, 24th Day, February 2, 1977.)

On motion of Mr. Lux, the committee amendments were adopted.

Mr. King moved adoption of the following amendment:

On page 4, following line 14 insert a new section as follows:

*NEW SECTION. Sec. 3. This act shall not apply to any employer who employs fewer than five individuals.*

Renumber the remaining sections consecutively.

Mr. King spoke in favor of the amendment.

Ms. Becker demanded an oral roll call and the demand was sustained.

POINT OF INQUIRY

Mr. King yielded to question by Mr. Owen.

Mr. Owen: 'Representative King, when you say 'fewer than five,' does that mean actually four employees?"
Mr. King: "I suppose it would."

Mr. Owen: "I mean it wouldn't be five; it would be less than five?"

Mr. King: "Yes, that's the way it sounds."

Mr. Owen: "Does management personnel come under this directional? If you have a night manager, a day manager, on salary, would they be considered even though they wouldn't be part of the bargaining unit, but considered as part of the four?"

Mr. King: "You're asking me questions that would be decided if brought to the employment relations board. I don't know that I could answer them without knowing the specific cases involved. I really couldn't imagine an employer who only employs fewer than five employees, who would have one person who was management in the daytime and one management at night should be excluded from the act. That kind of an operation probably would have enough employees that they would come under the provisions anyway. These decisions would be made by the employment relations commission just as a national labor relations board now makes its decisions about whether or not particular businesses come under their jurisdiction."

Representatives Owen and Fancher spoke against adoption of the amendment.

ROLL CALL

The Clerk called the roll on adoption of the amendment by Representative King to page 4 of House Bill No. 62, and the amendment was not adopted by the following vote: Yeas, 39; nays, 56; not voting, 3.

Not voting: Representatives Deccio, Eng, Fischer.

On motion of Mr. King, the following amendments to the title were adopted:

On page I, line 11 of the title strike the last 'and'

On page I, line 12 of the title after 'RCW' insert '; and prescribing penalties'.

House Bill No. 62 was ordered engrossed and passed to Committee on Rules for third reading.

MOTION

On motion of Mr. King, the House dispensed with further business under the Call of the House.

The Speaker called on Mr. O'Brien to preside.

HOUSE BILL NO. 727, by Representatives Conner, Gallagher, Gilleland and Vrooman:

Changing laws on reporting of vehicle accidents.

The bill was read the second time.

Committee on Transportation recommendation: Majority, do pass as amended. (For amendment, see Journal, 6th Day ex. sess., March 16, 1977.)

On motion of Mr. Conner, the committee amendment was adopted.

Mr. Barnes moved adoption of the following amendment:

On page 1, line 16 strike 'three' and insert 'one'.

Representatives Barnes and Douthwaite spoke in favor of the amendment, and Mr. Hansen spoke against it.

POINT OF INQUIRY

Mr. Barnes yielded to question by Mr. Knowles.

Mr. Knowles: "Mr. Barnes, it's my impression that the suspension in the security deposit has been done by the Department of Motor Vehicles, is that right?"
Mr. Barnes: "I believe that's correct."

Mr. Knowles: "Now if the reporting requirement is $300 on an accident where there is only $100 damage done, how is that going to come to their attention in order for them to carry out their right of suspension?"

Mr. Barnes: "That's an interesting question and I asked the same question of the State Patrol. It's not necessary for the accident to reach the mandatory reporting level in order to motivate a person whose car has been damaged to report the accident. So at less than $300, the person whose car has been damaged can report the accident, if we adopt this amendment, then the threshold is $100 in which he can get the culprit's license listed."

ROLL CALL

The Clerk called the roll on adoption of the amendment by Representative Barnes to House Bill No. 727, and the amendment was adopted by the following vote: Yeas, 47; nays, 44; not voting, 7.

Not voting: Representatives Bauer, Deccio, Eng, Fischer, Wilson, Zimmerman, and Mr. Speaker.

House Bill No. 727 was ordered engrossed and passed to Committee on Rules for third reading.

HOUSE BILL NO. 355, by Representatives Burns, Vrooman, Lux, Pruitt, Clemente, Lysen, Charnley, Douthwaite and Sherman:

Relaxing income limitations for retired persons' property tax exemption.

The House resumed consideration of the bill on second reading. (For previous action, see Journal, 11th Day ex. sess., March 21, 1977.)

The Speaker (Mr. O'Brien presiding) stated the question before the House to be the amendment by Representative Charnley to page 2, line 24.

With the consent of the House, Mr. Charnley withdrew the amendment.

Mr. Charnley moved adoption of the following revised amendment:

On page 2, line 24 after "section:" insert "AND PROVIDED FURTHER, That in computing a person's combined income in accordance with subsection (4) of this section, interest income, in the aggregate amount of up to five hundred dollars in any year, from any savings account or savings certificate of deposit with a federal or state chartered bank, savings and loan association, mutual savings bank, or credit union shall not be included;"

Mr. Pardini moved adoption of the following amendment to the Charnley amendment:

On line 4 after "income" strike all of the remaining language and insert "or dividend income, or rental income shall not be included;"

Mr. Pardini spoke in favor of the amendment to the amendment, and Mr. Charnley spoke against it.

Mr. Pardini spoke again in favor of the amendment to the Charnley amendment.

POINT OF INQUIRY

Mr. Charnley yielded to question by Mr. Ehlers.

Mr. Ehlers: "If I understand the Pardini amendment to the amendment, there is an income maximum on the individual anyway and I really don't understand your opposition to the amendment to the amendment, if, in fact, there is an income limit on what the individual has. Could you comment a little bit more on this? Does it really make any difference where it comes from as long as you're putting a maximum on the income of any senior citizen?"

Mr. Charnley: "Representative Ehlers, I think you should go back to the original bill and read how this affects it. This would exclude from the calculation of a person's income, besides
the social security exclusion that is now in it, the first $500 in my original amendment of interest income. I would point out to the body that also Mr. Pardini's amendment strikes the $500 limit and therefore makes it possible that any and all income from interest and from dividends and so forth would be excluded from income."

With the consent of the House, Mr. Pardini withdrew the amendment to the amendment.

Mr. Tilly moved adoption of the following amendment to the Charnley amendment:
On line 4 after "income" insert "dividend income, or rental income"

Mr. Tilly spoke in favor of the amendment to the amendment, and Representatives Charnley, Nelson (Dick) and Winsley spoke against it.

POINT OF ORDER

Mr. Charnley: "Mr. Speaker, I believe Representative Winsley is speaking to the original amendment and not to the amendment, to the amendment, which is before us."

The Speaker (Mr. O'Brien presiding): "Your point appears to be well taken."

With the consent of the House, Mr. Tilly withdrew the amendment to the amendment.

The Speaker (Mr. O'Brien presiding) stated the question before the House to be the Charnley amendment.

Representatives Pruitt and Charnley spoke in favor of the amendment, and Representatives Flanagan, Sommers and Winsley spoke against it.

Mr. Bender demanded the previous question and the demand was sustained.

ROLL CALL

The Clerk called the roll on adoption of the amendment by Representative Charnley to House Bill No. 355 and the amendment was adopted by the following vote: Yeas, 54; nays, 37; not voting, 7.

Mr. Polk moved that Engrossed House Bill No. 355 be rereferred to Committee on Revenue.

Mr. Polk spoke in favor of the motion, and Mr. Charnley spoke against it.

Mr. Polk spoke again in favor of the motion, and Mr. Douthwaite spoke against it.

The motion was lost.

Engrossed House Bill No. 355 was passed to Committee on Rules for third reading.

SUBSTITUTE HOUSE BILL NO. 601, by Committee on Commerce (Originally sponsored by Representatives Hanna, Warnke, Hawkins, Adams, Salatino, Grier, Hansen, Heck, Gallagher, McCormick and Gaines):

Revising gambling laws on card games.

The bill was read the second time and passed to Committee on Rules for third reading.

HOUSE BILL NO. 344, by Representatives Hansen, Fancher, Kilbury, Tilly, Boldt, North and Bauer:

Prohibiting use of foreign beef and mutton in public institutions.

The bill was read the second time.
Mr. Lysen moved adoption of the following amendment:
On page 1, line 4 after *mutton* insert *or automobile*

Mr. Lysen spoke in favor of the amendment.

POINT OF ORDER

Mr. Warnke: "Mr. Speaker, would you give me a ruling on the scope and object of the amendment?"

POINT OF ORDER

Mr. Polk: "Mr. Speaker, in accordance with your ruling the other day, debate had already started and therefore it can't be ruled out of order."

SPEAKER'S RULING (MR. O'BRIEN PRESIDING)

The Speaker (Mr. O'Brien presiding): "It's a question of whether Reed's Rule 112 will apply on the basis of a timely objection. Debate had begun, but also, we have a further problem. The enemies of a proposition can offer amendments and the enemies may oppose it in various ways. This is Reed's Rule 159. It states in part, 'Hence the enemies of the proposition may present such amendments as will render it obnoxious to the assembly and cause its rejection.' I would think that now the debate has started that the only thing we can do is continue with the debate."

Mr. Lysen continued his remarks in favor of the amendment, and Mr. Hansen spoke against it.

POINT OF INQUIRY

Mr. Boldt asked Mr. Lysen to yield to question, and he refused to yield.

Representatives Shinoda and Barnes spoke against the amendment, and Mr. Lysen spoke again in favor of it.

ROLL CALL

The Clerk called the roll on adoption of the amendment by Representative Lysen to House Bill No. 344, and the amendment was not adopted by the following vote: Yeas, 23; nays, 67; not voting, 8.

Representatives Smith, Leckenby and Blair spoke in favor of the motion, and Mr. Hansen spoke against it.

Mr. King demanded the previous question, and the demand was sustained.

POINT OF PERSONAL PRIVILEGE

Mr. Blair: "I feel that the last speaker indicated that I was not being courteous. In fact those were his words—that I lacked courtesy to the agricultural industry of this state. I think he misunderstood my intention altogether. My point is that our port ships a substantial amount of agricultural products out."

ROLL CALL

The Clerk called the roll on the motion to rerefer House Bill No. 344 to Committee on Appropriations, and the motion was lost by the following vote: Yeas, 26; nays, 67; not voting, 5.

Not voting: Representatives Deccio, Eng, Fischer, Gilleland, and Mr. Speaker.

MOTIONS

On motion of Mr. King, further consideration of House Bill No. 344 was deferred, and the bill was ordered held for tomorrow's second reading calendar.

On motion of Mr. King, the House advanced to the eighth order of business.

On motion of Mr. Bender, HOUSE BILL NO. 1311 was rereferred from Committee on State Government to Committee on Local Government.

Mr. Bender moved that HOUSE BILL NO. 424 be rereferred from Committee on Rules to Committee on Appropriations.

POINT OF PARLIAMENTARY INQUIRY

Mr. Douthwaite: "I thought the sponsor had a chance to be clued into this kind of motion. That bill has a fiscal impact of $50,000 only and I would like to know what the reason is for that one to go to Appropriations? The impact is quite minimal; I think it's about $51,000."

Mr. Bender: "Representative Douthwaite, the bill does have an appropriation of $50,000 on it and it has been our policy to send these bills to the committee when they have that much fiscal impact."

Mr. Douthwaite: "Mr. Speaker, I thought there was a threshold in the rules requiring that if they do go to Appropriations, the threshold was $200,000 and as a matter of fact for the body it might be good if we reviewed what the threshold is, if you have it."

The Speaker (Mr. O'Brien presiding): "The so-called limitation was removed from our House rules and it has been customary to send any bill with an appropriation to the Committee on Appropriations."

ROLL CALL

The Clerk called the roll on the motion to rerefer House Bill No. 424 to Committee on Appropriations, and the motion was lost by the following vote: Yeas, 43; nays, 44; not voting, 11.

Not voting: Representatives Adams, Deccio, Enbody, Eng, Fischer, Haley, Martinis, Oliver, Owen, Vrooman, and Mr. Speaker.

MOTION

On motion of Mr. King, the House adjourned until 11:00 a.m., Friday, March 25, 1977.

JOHN BAGNARIOL, Speaker.
The House was called to order at 11:00 a.m. by the Speaker. The Clerk called the roll and all members were present except Representatives Chandler, Charette, Deccio, Eng, Fischer, Hansen, Hurley (Margaret), Kilbury, Williams and Wilson, who were excused.
