SENATE AMENDMENTS TO HOUSE BILL

May 11, 1979

Mr. Speaker:
The Senate has passed HOUSE BILL NO. 31 with the following amendments:

Strike everything after the enacting clause and insert the following:

'Section 1. Section 1, chapter 234, Laws of 1959 as amended by section 1, chapter 237, Laws of 1967 and RCW 34.04.010 are each amended to read as follows:

((For the purpose of this chapter:)) The definitions set forth in this section shall apply throughout this chapter, unless the context clearly requires otherwise.

(1) 'Agency' means any state board, commission, department, or officer, authorized by law to make rules or to adjudicate contested cases, except those in the legislative or judicial branches.

(2) 'Rule' means any agency order, directive, or regulation of general applicability (a) the violation of which subjects a person to a penalty or administrative sanction; (b) which establishes, alters, or revokes any procedure, practice, or requirement relating to agency hearings; (c) which establishes, alters, or revokes any qualification or requirement relating to the enjoyment of benefits or privileges conferred by law; (d) which establishes, alters, or revokes any qualifications or standards for the issuance, suspension, or revocation of licenses to pursue any commercial activity, trade, or profession; or (e) which establishes, alters, or revokes any mandatory standards for any product or material which must be met before distribution or sale. The term includes the amendment or repeal of a prior rule, but does not include (i) statements concerning only
the internal management of an agency and not affecting private rights or procedures available to the public, (ii) declaratory rulings issued pursuant to RCW 34.04.080, as now or hereafter amended, or (iii) speed restrictions for motor vehicles established by the state highway commission.

(3) 'Contested case' means a proceeding before an agency in which an opportunity for a hearing before such agency is required by law or constitutional right prior or subsequent to the determination by the agency of the legal rights, duties, or privileges of specific parties. Contested cases shall also include all cases of licensing and rate making in which an application for a license or rate change is denied except as limited by RCW 66.08.150, or a license is revoked, suspended, or modified, or in which the granting of an application is contested by a person having standing to contest under the law or agency rules.

(4) 'License' includes the whole or part of any agency permit, certificate, approval, registration, charter, or any form of permission required by law, including agency rule, to engage in any activity, but does not include a license required solely for revenue purposes.

(5) 'Licensing' includes the agency process respecting the grant, denial, renewal, revocation, suspension, annulment, withdrawal, or modification of a license.

(6) 'Review committee' means a standing committee of the senate or house of representatives which has been designated by the respective body for the purpose of selectively reviewing proposed and existing rules of a designated state agency or agencies.

Sec. 2. Section 3, chapter 237, Laws of 1967 as last amended by section 7, chapter 240, Laws of 1977 ex. sess. and RCW 34.04.025 are each amended to read as follows:

(1) Prior to the adoption, amendment, or repeal of any rule, each agency shall:

(a) File notice thereof with the code reviser in accordance with RCW 34.08.020(1) for publication in the state register, and with the secretary of the senate, the chief clerk of the house of representatives, and the appropriate review committees, and mail such notice to all persons who have made timely request of the agency for advance notice of its rule-making proceedings. Such notice shall also include (i) reference to the authority under which the rule is proposed, (ii) a statement of either the terms or substance of the proposed rule or a description of the subjects and issues involved, and (iii) the time when, the place where, and the manner in which interested persons may present their views thereon;

(b) Furnish to the legislature, along with the notice required by subsection (1)(a) of this section, a statement of the reasons supporting the proposed action;

(c) Afford all interested persons reasonable opportunity to submit data, views, or arguments, orally or in writing. In case of substantial rules, opportunity for oral hearing must be granted if requested by twenty-five persons, by a governmental subdivision or agency, by the appropriate review committee, or by an association having not less than twenty-five members.

(2) The agency shall make every effort to insure that the information on the proposed rule circulated pursuant to subsection (1)(a) of this section accurately reflects the rule to be presented and discussed at any oral hearing on such rule. Where substantial changes in the draft of the proposed rule are made after publication of notice in the register which would render it difficult for interested persons to properly comment on the rule without further notice, new notice of the agency's intended action as provided in subsection (1)(a) of this section shall be required.

(3) The agency shall consider fully all written and oral submissions respecting the proposed rule including those addressing the question of whether the proposed rule is within the intent of the legislature as expressed by the statute which the rule implements, and may amend the proposed rule at the oral hearing or adopt the proposed rule, if there are no substantial changes, without refile the notice required by this section. Upon adoption of a rule, the agency, if requested to do so by an interested person either prior to adoption or within thirty days thereafter, shall issue a concise statement of the principal reasons for and against its adoption, incorporating therein its reasons for overriding the considerations urged against its adoption.

(4) No proceeding ((shall)) may be held on any rule until twenty days have passed from the distribution date of the register in which notice thereof was contained. The code reviser shall make provisions for informing an agency giving notice under subsection (1) of this section of the distribution date of the register in which such notice will be published.

(5) No rule hereafter adopted is valid unless adopted in substantial compliance with this section, unless it is an emergency rule designated as such(;) and is adopted in substantial compliance with RCW 34.04.030, as now or hereafter amended. In any proceeding a rule cannot be contested on the ground of noncompliance with the procedural requirements of RCW 34.04.020(1), of this section, or of RCW 34.04.030, as now or hereafter amended, after two years have elapsed from the effective date of the rule.

Sec. 3. Section 3, chapter 234, Laws of 1959 as amended by section 8, chapter 240, Laws of 1977 ex. sess. and RCW 34.04.030 are each amended to read as follows:

(1) If the agency finds that immediate adoption or amendment of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to the public interest, the agency may dispense with such requirements and adopt the rule or amendment as an emergency rule or amendment. The agency's finding and a ((brief)) concise statement of the reasons for its finding shall be incorporated in the emergency rule or amendment as filed with the office of the code reviser under RCW 34.04.040 and with the appropriate review committees. An emergency rule or amendment ((shall)) may not remain in effect for longer than ninety days after filing. This section does not relieve any agency from compliance with any law requiring that its permanent rules be approved by designated persons or bodies before they become effective.

Sec. 4. Section 3, chapter 237, Laws of 1977 as amended by section 7, chapter 240, Laws of 1977 ex. sess. and RCW 34.04.030 are each amended to read as follows:

(1) If the agency finds that immediate adoption or amendment of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to the public interest, the agency may dispense with such requirements and adopt the rule or amendment as an emergency rule or amendment. The agency's finding and a ((brief)) concise statement of the reasons for its finding shall be incorporated in the emergency rule or amendment as filed with the office of the code reviser under RCW 34.04.040 and with the appropriate review committees. An emergency rule or amendment ((shall)) may not remain in effect for longer than ninety days after filing. This section does not relieve any agency from compliance with any law requiring that its permanent rules be approved by designated persons or bodies before they become effective.
NEW SECTION. Sec. 4. There is added to chapter 34.04 RCW a new section to read as follows:

(1) Notice of the designation of a standing committee of the legislature as a review committee for the rules of any particular agency shall be communicated by the house making such designation to the affected agency.

(2) Whenever a majority of the members of the appropriate senate and house review committees determine that a proposed rule is not within the intent of the legislature as expressed in the statute which the rule implements, the review committees shall give the affected agency written notice of their decisions. The notices shall be given at least seven days prior to any hearing scheduled for consideration of or adoption of the proposed rule pursuant to RCW 34.04.025(1)(a)(iii) as now or hereafter amended. The notices shall include a statement of the review committees' findings and the reasons therefor.

NEW SECTION. Sec. 5. There is added to chapter 34.04 RCW a new section to read as follows:

(1) All rules required to be filed pursuant to RCW 34.04.040, and emergency rules adopted pursuant to RCW 34.04.030 as now or hereafter amended, are subject to selective review by the legislature.

(2) If the appropriate house and senate review committees find by majority votes of their members: (a) That an existing rule is not within the intent of the legislature as expressed by the statute which the rule implements, or (b) that the rule has not been adopted in accordance with all applicable provisions of law, the agency affected shall be notified of such finding and the reasons therefor. Within thirty days of the receipt of the review committees' notice the agency shall file notice of a hearing on the rule in question with the code reviser and mail notice to all persons who have made timely request of the agency for advance notice of its action to the committees, the committees may file notice of their objections, together with a concise statement of the reasons therefor, with the code reviser within thirty days of such determination.

(3) The agency shall consider fully all written and oral submissions respecting whether the rule in question is within the intent of the legislature as expressed by the statute which the rule implements and whether the rule was adopted in accordance with all applicable provisions of law.

NEW SECTION. Sec. 6. There is added to chapter 34.04 RCW a new section to read as follows:

(1) Within seven days of an agency hearing held after notification of the agency by the review committees pursuant to section 4 or 5 of this 1979 act, the affected agency shall notify the committees of its action regarding a proposed or existing rule to which the committees objected. If the review committees determine, by majority votes of their members, that the agency has failed to provide for the required hearings or notice of its action to the committees, the committees may file notice of their objections, together with a concise statement of the reasons therefor, with the code reviser within thirty days of such determination.

(2) If the review committees find, by majority votes of their members, that the proposed or existing rule in question has not been modified, amended, withdrawn, or repealed by the agency so as to conform with the intent of the legislature, the review committees may, within thirty days from notification by the agency of its action, file with the code reviser notice of their objections together with a concise statement of the reasons therefor. Such notice and statement shall also be provided to the agency by the review committees.

(3) The code reviser shall publish the review committees' notice of objection and statement of the reasons therefor issued pursuant to subsection (1) or (2) of this section in the Washington state register and shall publish in the next supplement and compilation of the Washington Administrative Code a reference to the committees' objection and to the issue of the Washington state register in which the full text thereof appears.

NEW SECTION. Sec. 7. There is added to chapter 34.04 RCW a new section to read as follows:

(1) The committees may recommend to the legislature that the original enabling legislation serving as authority for the promulgation of any rule reviewed by the committees be amended or repealed in such manner as the committees deem advisable.

(2) The review committees shall report on their activities, including findings and recommendations with respect to rule-making procedures of state agencies and institutions of higher education, thirty days prior to the convening of the regular session of the legislature in 1981.

NEW SECTION. Sec. 8. There is added to chapter 34.04 RCW a new section to read as follows:

It is the express policy of the legislature that establishment of procedures for review of administrative rules by the legislature and the notice of nonconformance required by sections 5(2) and 6(2) of this 1979 act in no way serves to establish a presumption as to the legality or constitutionality of a rule in any subsequent judicial proceedings interpreting such rules.

Sec. 9. Section 2, chapter 57, Laws of 1971 ex. sess. as amended by section 42, chapter 169, Laws of 1977 ex. sess. and RCW 28B.19.020 are each amended to read as follows:

The words used in this chapter shall have the meaning given in this section, unless the context clearly indicates otherwise((1)).

(1) 'Institutions of higher education' are the University of Washington, Washington State University, Central Washington University, Eastern Washington University, Western Washington University, The Evergreen State College, the various community colleges, and the governing boards of each of the above, and the various colleges, divisions, departments, or offices authorized by the governing board of the institution involved to act for the institution, all of which are sometimes referred to in this chapter as 'institutions.' The various state community colleges are sometimes referred to in this chapter as 'community colleges.'
(2) 'Rule' means any order, directive, or regulation of any institution of higher education which affects the relationship of the general public with the institution, or the relationship of particular segments of the particular educational community such as students, faculty, or other employees, with the institution or with each other, (a) the violation of which subjects a person to a penalty or administrative sanction; or (b) which establishes, alters, or revokes any procedures, practice, or requirement relating to institutional hearings; or (c) which establishes, alters, or revokes any qualification or requirement relating to the enjoyment of benefits or privileges conferred by law. The term includes the amendment or repeal of a prior rule but does not include rules, regulations, orders, statements, or policies relating primarily to the following: Standards for admission; academic advancement, academic credits, graduation and the granting of degrees; tuition and fees, scholarships, financial aids, and similar academic matters; employment relationships; fiscal processes; or matters concerning only the internal management of an institution and not affecting private rights or procedures available to the general public; and such matters need not be established by rule adopted under this chapter unless otherwise required by law.

(3) 'Contested case' means a formal or informal proceeding before an institution of higher education, division, department, office, or designated official or representative thereof in which an opportunity for hearing is required by law, constitutional rights, or institutional policy, prior or subsequent to the determination by the institution of the legal rights, duties, or privileges of specific parties.

(4) 'Review committee' or 'committee' means a standing committee of the senate or house of representatives which has been designated by the respective body for the purpose of selectively reviewing existing and proposed rules of institutions of higher education.

(1) Prior to the adoption, amendment, or repeal of any rule adopted under this chapter, each institution, college, division, department, or official thereof exercising rule-making authority delegated by the governing board or the president, shall:

(a) File notice thereof with the code reviser in accordance with RCW 34.08.020(1) for publication in the state register, and with the secretary of the senate, the chief clerk of the house of representatives, and the appropriate review committees, and mail the notice to all persons who have made timely request of the institution or related board for advance notice of its rule-making proceedings. Such notice shall also include (i) reference to the authority under which the rule is proposed, (ii) a statement of either the terms or substance of the proposed rule or a description of the subjects and issues involved, and (iii) the time when, the place where, and the manner in which interested persons may present their views thereon;

(b) Furnish to the legislature, along with the notice required by subsection (1)(a) of this section, a statement of the reasons supporting the proposed action;

(c) Provide notice to the campus or standard newspaper of the institution involved and to a newspaper of general circulation in the area at least seven days prior to the date of the rule-making proceeding. The notice shall state the time when, place where, and manner in which interested persons may present their views thereon and the general subject matter to be covered;

(d) Afford all interested persons reasonable opportunity to submit data, views, or arguments, orally or in writing. An opportunity for oral hearing must be granted if requested by twenty-five persons or by the appropriate review committee.

(2) The institution shall make every effort to insure that the information on the proposed rule circulated pursuant to subsection (1)(a) of this section accurately reflects the rule to be presented and discussed at any oral hearing on such rule. Where substantial changes in the draft of the proposed rule are made after publication of notice in the register which would render it difficult for interested persons to properly comment on the rule without further notice, new notice of the institution's intended action as provided in subsection (1)(a) of this section shall be required.

(3) The institution shall consider fully all written and oral statements respecting the proposed rule including those addressing the question of whether the proposed rule is within the intent of the legislature as expressed by the statute which the rule implements and may amend the proposed rule at the oral hearing or adopt the proposed rule, if there are no substantial changes, without refileing the notice required by this section.

(4) No proceeding (shall) may be held on any rule until twenty days have passed from the distribution date of the register in which notice thereof was contained. The code reviser shall make provisions for informing an institution of higher education giving notice under subsection (1) of this section of the distribution date of the register in which such notice will be published.

(5) No rule adopted under this chapter is valid unless adopted in substantial compliance with this section, (or if) unless it is an emergency rule designated as such (or if) and is adopted in substantial compliance with RCW 28B.19.040, as now or hereafter amended. In any proceeding a rule cannot be contested on the ground of noncompliance with the procedural requirements of RCW 34.08.020(1), of this section, or of RCW 28B.19.040, as now or hereafter amended, after two years have elapsed from the effective date of the rule.

(6) When twenty days notice of intended action to adopt, amend, or repeal a rule has not been filed with the code reviser, as required by subsection (4), (or if) of this section, the code reviser (shall) may not publish such rule, and such rule (shall) may not be effective for any purpose.

Sec. 11. Section 4, chapter 57, Laws of 1971 ex. sess. as last amended by section 11, chapter 240, Laws of 1977 ex. sess. and RCW 28B.19.040 are each amended to read as follows:
If the institution of higher education finds that immediate adoption or amendment of a rule is necessary for the preservation of the public health, safety, or general welfare, and the observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to the public interest, the institution may dispense with such requirements and adopt the rule or amendment as an emergency rule or amendment. The institution's finding and a ((brief)) concise statement of the reasons for its finding shall accompany the emergency rule or amendment as filed with the code reviser and with the appropriate review committees. An emergency rule or amendment ((shall)) may not remain in effect for longer than ninety days after filing.

Emergency rules ((shall)) become effective upon filing with the code reviser unless an effective date is specified in the rule. ((The emergency rule published in the state register is solely to inform the public of its adoption, and nothing in this section shall be construed to prevent the implementation of the rule upon such filing.))

Bill Gleason, Assistant Secretary.

MOTION

Mr. Ehlers moved that the House do not concur in the Senate amendments to House Bill No. 31 and ask the Senate to recede therefrom.

Representatives Ehlers and Taller spoke in favor of the motion, and Representatives Smith (R) and Flanagan spoke against it.

ROLL CALL

The Clerk called the roll on the motion that the House do not concur in the Senate amendments to House Bill No. 31, and the motion was carried by the following vote: Yeas, 69; nays, 20; not voting, 9.

MOTION

On motion of Mr. Ehlers, House Bill No. 31, along with a message to the Senate stating the House refused to concur in the Senate amendments, was ordered transmitted immediately to the Senate.

SECOND READING

SUBSTITUTE SENATE BILL NO. 2504, by Committee on Agriculture (originally sponsored by Senators Morrison, Gaspard, Benitz and Hansen):

Providing for water during drought conditions.

The bill was read the second time.

Committee on Agriculture recommendation: Majority, do pass as amended. (For amendments, see Journal, 22nd Day ex. sess., April 12, 1979.)

Mr. Kreidler moved adoption of the committee amendment to page 2, line 21.

Mr. Kreidler spoke in favor of the amendment.

POINT OF INQUIRY

Mr. Kreidler yielded to question by Mr. Zimmerman.

Mr. Zimmerman: "Representative Kreidler, this committee amendment lists the Agnew Irrigation District and I see some of the other amendments are adding other districts; is that what is intended here, to be adding specifically the several other districts that were not included in the original bill? If so, what is the ultimate distribution? Will it have to be broken into different figures and have more money?"

Mr. Kreidler: "There is $16 million left out of $18 million that was left over from the 1977 emergency drought relief fund that was not all allocated. $2 million was allocated and $16 million was not allocated by the Department of Ecology. The Department of Ecology felt they needed some legislative direction with the $16 million since we were no longer dealing
with an emergency situation. As you can see by this act, they have changed it to an unsatis­factory situation for the allocation of these funds. How much of this will be grant or loan will be up to the Department of Ecology, but we're talking about funds that would be potentially, depending upon the investigation, partly grants, partly loans, from the state. These funds come from bonds that have already been issued and sold and are presently awaiting distribution for the irrigation districts."

Mr. Zimmerman: "Representative Kreidler, I'm wondering if there are perhaps other irri­gation districts that haven't had a chance to get their bid in, and if there's some likelihood that we're going to be omitting some significantly worthwhile districts. Is there any latitude for others that won't be listed in this bill?"

Mr. Kreidler: "Representative Zimmerman, those districts still can make application to the Department of Ecology. I believe there will be funds there that they can apply for on a grant and loan basis. In other words, it doesn't necessarily require that they be specified in this act."

Ms. Fancher spoke in favor of the amendment, and it was adopted.

On motion of Mr. Kreidler, the committee amendment to page 2, line 26 was adopted.

On motion of Mr. Nisbet, the following amendment by Representatives Nisbet and Owen was adopted:

On page 2, line 12 after "RCW 43.838.210," insert "not more than one hundred thousand dollars of the appropriation may be used for a loan or grant, or combination thereof, to the Cline Irrigation District, not more than one hundred thousand dollars of the appropriation may be used for a loan or grant, or combination thereof, to the Dungeness Irrigation District, not more than one hundred thousand dollars of the appropriation may be used for a loan or grant, or combination thereof, to the Highland Irrigation District," represented.

Mr. Tilly moved adoption of the following amendment by Representatives Tilly and Schmitten:

On page 2, line 21 after "District, insert "not more than four hundred twenty-five thousand dollars of the appropriation may be used for a loan or grant, or combination thereof, to the Icicle Irrigation District,"

Representatives Tilly and Schmitten spoke in favor of the amendment.

ROLL CALL

The Clerk called the roll on adoption of the amendment by Representatives Tilly and Schmitten to Substitute Senate Bill No. 2504, and the amendment was adopted by the following vote: Yeas, 81; nays, 8; not voting, 9.

Mr. Kreidler moved adoption of the following amendment:

On page 2, after line 33 insert a new section as follows:

"NEW SECTION. Sec. 4. There is added to chapter 87.03 RCW a new section to read as follows: There is created for each irrigation district a fund to be known as the upgrading and improvement fund. At least five percent of the revenue of each irrigation district shall annually be placed into its upgrading and improvement fund. Moneys from the upgrading and improvement fund may only be used to modernize, improve or upgrade the irrigation facilities of the irrigation district."

Renumber the remaining sections consecutively.

Representatives Kreidler and Becker spoke in favor of the amendment, and Representatives Clayton, Flanagan, Tilly, Fancher and Barr spoke against it.

Mr. Kreidler spoke again in favor of the amendment.

POINT OF INQUIRY

Mr. Kreidler yielded to question by Mr. Nisbet.

Mr. Nisbet: "Representative Kreidler, I'm concerned in that my irrigation districts are not multimillion dollar corporations. They are groups of friends and neighbors who have gathered
together to utilize the waters of our area to irrigate our land. My question is, if we, at the end of a given period of time, determine that the costs of doing that is, say for practical purposes, $1,000, and each one of us—say there are ten of us in this particular district—put in a tenth of that, have we produced revenue? It cost $1,000, ten of us put in $100 to pay for what has been spent. Have we produced revenue and how would that apply to your amendment?*

Mr. Kreidler: "Representative Nisbet, if I understand exactly what you're saying about the $1,000, you're talking about putting up money for the construction and so forth on each person who would be the recipient of the irrigated water, then we're looking at a different situation. We're talking about the revenues of the irrigation districts. If you're coming from a relatively small irrigation district, you're talking about a very small amount of money that's going to be set aside. All irrigation districts are going to experience, from time to time, the necessity of making some rather substantive improvements in the districts."

Mr. Nisbet spoke against the amendment.

Mr. Amen demanded the previous question, and the demand was sustained.

ROLL CALL

The Clerk called the roll on adoption of the amendment by Representative Kreidler, adding a new section 4 to Substitute Senate Bill No. 2504, and the amendment was not adopted by the following vote: Yeas, 38; nays, 55; not voting, 5.

Mr. Scott moved adoption of the following amendment:

On page 2, following line 33 insert new sections as follows:

"NEW SECTION. Sec. 4. There is added to chapter 43.83B RCW a new section to read as follows:

(1) Each time an eligible public body receives funds from the state for construction, rehabilitation, or betterment of agricultural water supply facilities as provided in RCW 43.83B.210, it shall determine for every parcel of real property located within the territorial limits of the eligible public body, the extent of this direct benefit for agricultural purposes that such parcel receives from the construction, rehabilitation, or betterment which is paid in whole or in part by the state funds. The extent of benefit figure for an individual parcel shall constitute that percentage of the total direct benefit for agricultural purposes received from the construction, rehabilitation, or betterment that the parcel receives.

(2) During the effective time period, the owner or owners of any parcel which is determined to have received benefit from such construction, rehabilitation, or betterment shall be liable to pay the state for an amount established in subsection (3) whenever the parcel is converted to nonagricultural use. The effective time period shall be the term of the loan of state funds to the eligible public body of all or a portion of the state funds were loaned to the eligible public body. Whenever the state funds received by an eligible public body only consist of a grant, the effective time period shall be twenty-five years.

(3) The amount required to be paid pursuant to subsection (2) for a parcel converted to nonagricultural uses shall be the extent of benefit figure for the parcel multiplied by the amount of state funds loaned and/or granted to the eligible public body.

NEW SECTION. Sec. 5. There is added to chapter 43.83B RCW a new section to read as follows:

The department of ecology shall, pursuant to the provisions of chapter 34.04 RCW, adopt rules necessary to implement the provisions of sections 4 and 5 of this act."

Renumber the remaining sections consecutively.

Mr. Scott spoke in favor of the amendment, and Representatives Clayton and Deccio spoke against it.
POINT OF INQUIRY

Mr. Scott yielded to question by Mr. Amen.

Mr. Amen: "Representative Scott, in your amendment do you mean that even if it's a loan that has been repaid, or what part of the state funds would this cover? I'm asking, does this include both loan and grant or just grant?"

Mr. Scott: "It's as long as the terms of the loan."

Representatives Amen, Struthers, Fancher and Nisbet spoke against the amendment, and Representatives Becker, Lux and Van Dyken spoke in favor of it.

Mr. Tilly demanded the previous question and the demand was sustained.

ROLL CALL

ROLL CALL

The Clerk called the roll on adoption of the amendment called by Representative Martinis to Substitute Senate Bill No. 2504, and the amendment was adopted by the following vote: Yeas, 67; nays, 25; not voting, 6.

Not voting: Representatives Adams, Sanders, Warnke, Whiteside, Wilson, Winsley.

Mr. Kreidler moved adoption of the following amendments by Representatives Kreidler and Sommers:

On page 2, line 11 after "that" strike "notwithstanding" and insert "when consistent with."

On page 2, line 21 after "District" strike ", and" and insert ": PROVIDED FURTHER, That notwithstanding the criteria related to loans and grants contained in RCW 43.83B.210,

On page 2, line 27 after "section." insert "Notwithstanding any other provisions of this section no grant of funds to an irrigation district, hereinbefore made available in this act as eligible for receipt of funds, may exceed the sum of five hundred thousand dollars plus fifteen percent of the remainder of the funds to be provided by the department to said district under this section."

Representatives Kreidler and Sommers spoke in favor of the amendments.
POINT OF INQUIRY

Mr. Kreidler yielded to question by Mr. Amen.

Mr. Amen: "On the third amendment, it says 'five hundred thousand plus fifteen percent.' This is more than we're allowing in the present legislation and we'd be giving more grants if we pass this amendment than we have in the past. Is that right?"

Mr. Kreidler: "No, Representative Amen, this isn't correct. In fact, right now the Department of Ecology could have given—let's say to the Yakima/Tieton District—where their grant application was for $8,200,000 plus, they could have given that money entirely as grant money. The wording of this particular act is loan or grant. The discretion is up to the Department of Ecology. No, it is not more liberal, it is more conservative. It's specifying what portion could be for grant and how much can be loaned. That's defined it in so we have some control, we're not just giving money away here."

POINT OF INQUIRY

Mr. Kreidler yielded to question by Mr. Flanagan.

Mr. Flanagan: "In the first part of the amendment you are changing the language from 'notwithstanding' to 'when consistent with,' which indicates to me that you're specifically saying that it has to be an eighty-five percent loan and fifteen percent grant. Is that right?"

Mr. Kreidler: "Representative Flanagan, those particular RCW's that were referenced here, where we want to change 'notwithstanding' to 'when consistent with' does specify that, except under this particular act we're defining it in such a way that we're saying that for this particular act, Substitute Senate Bill No. 2504, these funds shall be allocated in this particular fashion, but it would be consistent with the RCW specified in 85.15. What we're talking about here is the fact that sometimes we're talking about very large sums of money—a small portion of it being matching money from the State of Washington, and the rest of it from the federal government. That particular share of the money that comes from the State of Washington may be entirely grant money and may represent the fifteen percent and then the eighty-five percent may come from the federal government. We're trying to define the difference here between what is the fifteen percent and the eighty-five percent and giving some direction to deal with when we're not dealing with those large matching moneys from the federal government."

Mr. Flanagan: "When you change that from 'notwithstanding' to 'when consistent with'—I read that statute, and it definitely says that they have to be eighty-five percent loan and can't exceed fifteen percent grant—so I think you're changing that to where it cannot be more than fifteen percent grant when you change that language. Isn't that true?"

Mr. Kreidler: "Representative Flanagan, it would under certain circumstances, but as I read this and for the record, it would mean that we are saying that for the purposes of this act, the last part here would specify five hundred thousand dollars and then fifteen percent above that of the application except that when we talk about 'consistent with,' when we get into the larger sums of money. When we're dealing with state and federal matching we're dealing with very large sums of money that go far beyond what the state commitment is to that particular allocation in this program. So there's an exception here for this particular money, but if we're talking about a $40 million project of which fifteen percent is $8 million, let's say, the potential of the DOE is to give $8 million to a specific district, and that's what we're doing here—plying some control in those circumstances."

Mr. Flanagan spoke against the amendments.

MOTION

Mr. King moved that further consideration of Substitute Senate Bill No. 2504 be deferred and the bill be placed on the second reading calendar following Engrossed Substitute Senate Bill No. 2993.

Mr. Deccio spoke against the motion.

Mr. Kreidler spoke in favor of the amendment to the committee amendment, and Mr. Flanagan spoke against it.

Mr. Kreidler spoke again in favor of the amendment, and Mr. Flanagan spoke again in opposition to it.

Mr. Hastings spoke against the amendment to the amendment, and Mr. Van Dyken spoke in favor of it.

Mr. Amen demanded the previous question and the demand was sustained.

ROLL CALL

The Clerk called the roll on adoption of the amendment by Representatives Kreidler and Fancher to the committee amendment to Substitute Senate Bill No. 2791, and the amendment was not adopted by the following vote: Yeas, 31; nays, 63; not voting, 4.

ROLL CALL

The Clerk called the roll on the final passage of Substitute Senate Bill No. 2791 as amended by the House, and the bill passed the House by the following vote: Yeas, 81; nays, 11; not voting, 6.

Substitute Senate Bill No. 2791 as amended by the House, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

Representatives Nelson (D) and Jovanovich spoke in favor of the amendment, and Representatives Martinis and Scott spoke against it.

Mr. Nelson (D) spoke again in favor of the amendment.

POINT OF INQUIRY

Mr. Martinis yielded to question by Mr. Owen.

Mr. Owen: "Representative Martinis, would you please explain your position? Representative Nelson brought some shadow over it that I don't quite understand."

Mr. Martinis: "Representative Owen, under existing law if you are going to form lesser than countywide PUD districts, you have to go through the public hearing process, not the election process, but before you go to the ballot the county commissioners are required to hold public hearings. That is existing law. What this amendment is doing, in my estimation, is saying that you are circumventing the existing law by allowing the county commissioners to displace the lesser districts from the ballot rather than the requirement of them having to go to public hearings."

Mr. Douthwaite spoke in favor of the amendment.

ROLL CALL

The Clerk called the roll on adoption of the amendment by Representative Nelson (D) to Engrossed Substitute Senate Bill No. 2993, and the amendment was not adopted by the following vote: Yeas, 26; nays, 67; not voting, 5.

"NEW SECTION. Sec. 3. MOTION

Mr. Warnke spoke in favor of the motion.

POINT OF INQUIRY

Mr. Warnke yielded to question by Mr. Charnley.

Mr. Charnley: "Representative Warnke, I just looked through the language and the makeup of the new commission. It's my understanding that this new facility will be built in South King County, and I note one member of the commission is a member of the Tacoma City Council. I wondered if you would explain to me why. I can understand having a member of King County City Council and maybe I could understand why one would be from the Pierce County Board of Commissioners, but I don't understand why the City of Tacoma is involved."

Mr. Warnke: "The City of Tacoma boundary line runs right up to the very edge of the Pierce County line that is next to the Federal Way Festival. They have been long time supporters of the Festival. The facility is in Federal Way so we have placed one of those people on the commission."

POINT OF PARLIAMENTARY INQUIRY

Mr. Charnley: "How many votes are necessary to pass this bill?"

The Speaker (Mr. Newhouse presiding): "Sixty percent of the ninety-eight would be fifty-nine votes."

Mr. Nelson (G.A.) spoke against the motion to concur, and Representatives O'Brien and Greengo spoke in favor of it.

ROLL CALL

The Clerk called the roll on the motion that the House do concur in the Senate amendments to Engrossed House Bill No. 376, and the motion was carried by the following vote:

Yeas, 77; nays, 14; not voting, 7.

Not voting: Representatives Adams, Becker, Blair, Hastings, Hughes, Sanders, Whiteside.

FINAL PASSAGE OF HOUSE BILL AS AMENDED BY SENATE

The Speaker (Mr. Newhouse presiding) stated the question before the House to be the final passage of Engrossed House Bill No. 376 as amended by the Senate.
Representatives O’Brien, Eberle and Warnke spoke in favor of passage of the bill.

ROLL CALL

The Clerk called the roll on the final passage of Engrossed House Bill No. 376 as amended by the Senate, and the bill passed the House by the following vote: Yeas, 72; nays, 21; not voting, 5.

Not voting: Representatives Adams, Blair, Hastings, Hughes, Sanders.

Engrossed House Bill No. 376 as amended by the Senate, having received the constitutional sixty percent majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

SECOND READING

SUBSTITUTE SENATE BILL NO. 2504:

The House resumed consideration of the bill on second reading.

The Speaker (Mr. Newhouse presiding) stated the question before the House to be the amendments by Representatives Kreidler and Sommers to page 2.

With the consent of the House, Mr. Kreidler withdrew the amendments.

Mr. Kreidler moved adoption of the following amendment:

On page 2, line 27 after "section." insert "Notwithstanding any other provisions of this section, no more than fifteen percent of the total state funds provided to any irrigation district by this 1979 act may be a grant, except that no more than fifty percent of the total state funds provided to the Wenas Irrigation District by this 1979 act may be a grant."

Mr. Kreidler spoke in favor of the amendment, and Mr. Oliver spoke against it.

POINT OF INQUIRY

Mr. Kreidler yielded to question by Mr. Deccio.

Mr. Deccio: "Representative Kreidler, has the department asked for this amendment?"

Mr. Kreidler: "No."

Mr. Deccio: "Has the Wenas Irrigation District asked for this amendment?"

Mr. Kreidler: "No."

Mr. Deccio: "This is in my district and I haven't been contacted and I guess I'm rather curious as to why you're offering this amendment?"

Mr. Kreidler: "Perhaps, Representative Deccio, we're in a different situation than we've been in the past. State employees asked for a great deal and we didn't accede to everything they wanted; the Washington Education Association asked for a great deal and we didn't accede to everything they wanted, and perhaps, in the same situation, we don't accede to everything the people want in the state pocket book. We have to draw the line someplace and I think that's this issue."

Mr. Deccio: "Then I would assume by what you are telling me, that this is really an amendment that's not going to help the Wenas Irrigation District?"

Mr. Kreidler: "It would help them as much as this bill would with or without the amendment. This would give them the potential of going up to fifty percent of grant. They are going to get as much out of this as they had ever hoped for. There is absolutely nothing in this that would hurt the Wenas Irrigation District. In fact, I'm sure if you asked them they would tell you they are pleased with this amendment for at least having something written down so they have guarantee that when they walk into the Department of Ecology and ask what percentage,
they will have at least a chance at getting fifty percent of the million dollars. They will at least have an opportunity to get that much."

Representatives Clayton, Nisbet, Flanagan, Smith (C) and Deccio spoke against the amendment, and Representatives Sommers, Lux and Valle spoke in favor of it.

ROLL CALL

The Clerk called the roll on the amendment by Representative Kreidler to page 2, line 27 of Substitute Senate Bill No. 2504, and the amendment was adopted by the following vote:

Yeas, 51; nays, 41; not voting, 6.

Not voting: Representatives Adams, Blair, Hastings, Hughes, Sanders, Warnke.

On motion of Mr. Kreidler, the following amendments by Representatives Kreidler and Fancher were adopted:

On page 2, after line 33 insert a new section as follows:

*NEW SECTION. Sec. 4. There is added to chapter 87.03 RCW a new section to read as follows:

There may be created for each irrigation district a fund to be known as the upgrading and improvement fund. At least five percent of the revenue of each irrigation district may annually be placed into its upgrading and improvement fund. Moneys from the upgrading and improvement fund may only be used to modernize, improve or upgrade the irrigation facilities of the irrigation district or to respond to an emergency affecting such facilities."

Renumber the remaining sections consecutively.

On page 1, line 3 of the title after "creating" strike all the material down to and including "section;" on line 4 and insert "new sections; adding a new section to chapter 87.03 RCW;"

MOTION

Mr. Dunlap moved that the rules be suspended, the second reading considered the third, and Substitute Senate Bill No. 2504 as amended by the House be placed on final passage.

Mr. Scott spoke against the motion.

ROLL CALL

The Clerk called the roll on the motion to suspend the rules and advance Substitute Senate Bill No. 2504 as amended by the House to final passage, and the motion failed to receive the necessary two-thirds majority by the following vote: Yeas, 53; nays, 40; not voting, 5.

Sec. 10. Section 14, chapter 61, Laws of 1975-'76 2nd ex. sess. and RCW 84.36.451 are each amended to read as follows:

The following property shall be exempt from taxation: Any and all rights to occupy or use any real or personal property owned in fee or held in trust by:

(1) The United States, the state of Washington, or any political subdivision or municipal corporation of the state of Washington; or

(2) A public corporation, commission, or authority created under RCW 35.21.730 or 35.21.660 if the property is listed on or is within a district listed on any federal or state register of historical sites; and

(3) Including any leasehold interest arising from (such) the property identified in subsections (1) and (2) of this section as defined in RCW 82.29A.020: PROVIDED, That (this) the exemption under this section shall not apply to any such leasehold interests which are a part of operating properties of public utilities subject to assessment under chapter 84.12 RCW nor be construed to modify the provisions of RCW 84.40.230.

Sec. 11. Section 2, chapter 61, Laws of 1975-'76 2nd ex. sess. and RCW 82.29A.020 are each amended to read as follows:

As used in this chapter the following terms shall be defined as follows, unless the context otherwise requires:

(1) 'Leasehold interest' shall mean an interest in publicly owned real or personal property which exists by virtue of any lease, permit, license, or any other agreement, written or verbal, between the public owner of the property and a person who would not be exempt from property taxes if that person owned the property in fee, granting possession and use, to a degree less than fee simple ownership: PROVIDED, That no interest in personal property (excluding land or buildings) which is owned by the United States, whether or not as trustee, or by any foreign government shall constitute a leasehold interest hereunder when the right to use such property is granted pursuant to a contract solely for the manufacture or production of articles for sale to the United States or any foreign government. The term 'leasehold interest' shall include the rights of use or occupancy by others of property which is owned in fee or held in trust by a public corporation, commission, or authority created under RCW 35.21.730 or 35.21.660 if the property is listed on or is within a district listed on any federal or state register of historical sites. The term 'leasehold interest' shall not include road or utility easements or rights of access, occupancy or use granted solely for the purpose of removing materials or products purchased from a public owner or the lessee of a public owner.

(2) 'Taxable rent' shall mean contract rent as defined in subsection (a) of this subsection in all cases where the lease or agreement has been established or renegotiated through competitive bidding, or negotiated or renegotiated in accordance with statutory requirements regarding the rent payable, or negotiated or renegotiated under circumstances, established by public record, clearly showing that the contract rent was the maximum attainable by the lessor: PROVIDED, That after January 1, 1986, with respect to any lease which has been in effect for ten years or more without renegotiation, taxable rent may be established by procedures set forth in subsection (b) of this subsection. All other leasehold interests shall be subject to the determination of taxable rent under the terms of subsection (b) of this subsection.

(a) 'Contract rent' shall mean the amount of consideration due as payment for a leasehold interest, including: The total of cash payments made to the lessor or to another party for the benefit of the lessor according to the requirements of the lease or agreement; expenditures for the protection of the lessor's interest when required by the terms of the lease or agreement; and expenditures for improvements to the property to the extent that such improvements become the property of the lessor. Where the consideration conveyed for the leasehold interest is made in combination with payment for concession or other rights granted by the lessor, only that portion of such payment which represents consideration for the leasehold interest shall be part of contract rent.

'Contract rent' shall not include: (i) Expenditures made by the lessee, which under the terms of the lease or agreement, are to be reimbursed by the lessor to the lessee; (ii) expenditures made by the lessee for the replacement or repair of facilities due to fire or other casualty or for alterations or additions made necessary by an action of government taken after the date of the execution of the lease or agreement; (iii) improvements added to publicly owned property by a sublessee under an agreement executed prior to January 1, 1976, which have been taxed as personal property of the sublessee prior to January 1, 1976, or improvements added to publicly owned property by a sublessee under a similar agreement executed prior to January 1, 1976, and such improvements shall be taxable to the sublessee as personal property; (iv) improvements added to publicly owned property if such improvements are being taxed as personal property to any person.

Any prepaid contract rent shall be considered to have been paid in the year due and not in the year actually paid with respect to prepayment for a period of more than one year. Expenditures for improvements with a useful life of more than one year which are included as part of contract rent shall be treated as prepaid contract rent and prorated over the useful life of the improvement or the remaining term of the lease or agreement if the useful life is in excess of the remaining term of the lease or agreement. Rent prepaid prior to January 1, 1976, shall be prorated from the date of prepayment.

With respect to a 'product lease', the value of agricultural products received as rent shall be the value at the place of delivery as of the fifteenth day of the month of delivery, with respect to all other products received as contract rent, the value shall be that value determined at the time of sale under terms of the lease.

(b) If it shall be determined by the department of revenue, upon examination of a lessee's accounts or those of a lessor of publicly owned property, that a lessee is occupying or using publicly owned property in
such a manner as to create a leasehold interest and that such leasehold interest has not been established through competitive bidding, or negotiated in accordance with statutory requirements regarding the rent payable, or negotiated under circumstances, established by public record, clearly showing that the contract rent was the maximum attainable by the lessor, the department may establish a taxable rent computation for use in determining the tax payable under authority granted in this chapter based upon the following criteria: (i) Consideration shall be given to rental being paid to other lessees of similar property for similar purposes over similar periods of time; (ii) consideration shall be given to what would be considered a fair rate of return on the market value of the property leased less reasonable deductions for any restrictions on use, special operating requirements or provisions for concurrent use by the lessor, another person or the general public.

(3) 'Product lease' as used in this chapter shall mean a lease of property for use in the production of agricultural or marine products to the extent that such lease provides for the contract rent to be paid by the delivery of a stated percentage of the production of such agricultural or marine products to the credit of the lessor or the payment to the lessor of a stated percentage of the proceeds from the sale of such products.

(4) 'Renegotiated' means a change in the lease agreement which changes the agreed time of possession, restrictions on use, the rate of the cash rental or of any other consideration payable by the lessee to or for the benefit of the lessor, other than any such change required by the terms of the lease or agreement. In addition 'renegotiated' shall mean a continuation of possession by the lessee beyond the date when, under the terms of the lease agreement, the lessee had the right to vacate the premises without any further liability to the lessor.

(5) 'City' means any city or town.

NEW SECTION. Sec. 12. There is added to chapter 82.04 RCW a new section to read as follows:

This chapter shall not apply to school districts and educational service districts as defined in Title 28A RCW, in respect to materials printed in the school district and educational service districts printing facilities when said materials are used solely for school district and educational service district purposes.

Ms. Craswell spoke in favor of the motion, and Ms. Sommers spoke against it.

POINT OF INQUIRY

Ms. Craswell yielded to question by Mr. Haley.

Mr. Haley: "Representative Craswell, did the Senate take the sales tax from birth control pills? In this strange and bizarre situation they are the only prescription drugs in the drug store with sales tax on. I hope they did."

Mr. Whiteside spoke in favor of the Senate amendments.

POINT OF INQUIRY

Ms. Craswell yielded to question by Mr. Lux.

Mr. Lux: "Representative Craswell, I wonder if you could tell us what the fiscal impact of these taxes is going to be? How much are we losing? What do all these losses amount to?"

Ms. Craswell: "If you mean how much savings to the taxpayer, I don't happen to have that figure here with me now, but I could probably get it for you."

Mr. Polk spoke in favor of the motion to concur, and the motion was carried.

Mr. Amen: "Mr. Speaker, I don't think I quite understand your answer to this. Are you saying we should not believe what the Senate is saying in their resolution?"

(1) 'Underinsured motor vehicle' means a motor vehicle with respect to the ownership, maintenance, or use of which either no bodily injury liability bond or insurance policy applies at the time of an accident, or with respect to which the sum of the limits of liability under all bodily injury liability bonds and insurance policies applicable to a covered person after an accident is less than the applicable limits of liability afforded by the insured's own policy.

(2) (On and after January 1, 1968;) No new policy or renewal of an existing policy insuring against loss resulting from liability imposed by law for bodily injury or death suffered by any person arising out of the ownership, maintenance, or use of a motor vehicle shall be ('(delivered or) issued ((for delivery in this state)) with respect to any motor vehicle registered or principally garaged in this state unless coverage is provided therein or supplemental thereto, in limits for bodily injury or death set forth in RCW 46.29.496;) for the protection of persons insured thereunder who are legally entitled to recover damages from owners or operators of ((uninsured)) underinsured motor vehicles and hit-and-run motor vehicles because of bodily injury((, sickness or disease, including)) or death, resulting therefrom, except ((that the named insured may be given the right to reject such coverage, and except that, unless the named insured requests such coverage in writing, such coverage need not be provided in or supplemental to a renewal policy where the named insured had rejected the coverage in connection with a policy previously issued to him by the same insurer)) while operating or occupying a motorcycle or motor-driven cycle, and except while operating or occupying a motor vehicle owned by the insured which is not insured under the liability coverage of the policy.

(3) Coverage required under subsection (2) of this section must be in amounts at least equal to the limits for bodily injury or death set forth in RCW 46.29.490. At the purchaser's option, such coverage may be increased up to the limits of the purchaser's liability coverage provided against loss from bodily injury or death.

(4) The insured may reject underinsured coverage and the requirements of subsections (2) and (3) of this section shall not apply. If the insured has rejected underinsured coverage, such coverage shall not be included in any supplemental or renewal policy unless the insured subsequently requests such coverage in writing.

(5) The limit of liability under the policy coverage may be defined as the maximum limits of liability for all damages resulting from any one accident regardless of the number of covered persons, claims made, or vehicles or premiums shown on the policy, or vehicles involved in an accident, or premiums paid.

(6) The policy may provide that if an injured person has other similar insurance available to him under other policies, the total limits of liability of all coverages shall not exceed the higher of the applicable limits of the respective coverages.

Sec. 2. Section 3, chapter 95, Laws of 1967 ex. sess. and RCW 48.22.040 are each amended to read as follows:

(1) The term '((uninsured)) underinsured motor vehicles' with reference to coverage offered under any insurance policy regulated under this chapter shall, subject to the terms and conditions of such coverage, be deemed to include an insured motor vehicle where the liability insurer thereof is unable to make payment with respect to the legal liability of its insured within the limits specified therein because of insolvency.

(2) An insurer's insolvency protection shall be applicable only to accidents occurring during a policy period in which its insured's ((uninsured)) underinsured motorist coverage is in effect where the liability insurer of the tort-feasor becomes insolvent within three years after such an accident. Nothing herein contained shall be construed to prevent any insurer from affording insolvency protection under terms and conditions more favorable to its insureds than is provided hereunder.

(3) In the event of payment to an insured under the coverage required by this chapter and subject to the terms and conditions of such coverage, the insurer making such payment shall, to the extent thereof, be entitled to the proceeds of any settlement or judgment resulting from the exercise of any rights of recovery of such insured against any person or organization legally responsible for the bodily injury for which such payment is made, including the proceeds recoverable from the assets of the insolvent insurer. Whenever an insurer shall make payment under the coverage required by this section and which payment is occasioned by an insolvency, such insurer's right of recovery or reimbursement shall not include any rights against the insured of the tort-feasor because of bodily injury((, sickness or disease, including)) or death, resulting therefrom, except ((that the named insured may be given the right to reject such coverage, and except that, unless the named insured requests such coverage in writing, such coverage need not be provided in or supplemental to a renewal policy where the named insured had rejected the coverage in connection with a policy previously issued to him by the same insurer)) while operating or occupying a motorcycle or motor-driven cycle, and except while operating or occupying a motor vehicle owned by the insured which is not insured under the liability coverage of the policy.

Any and all premiums or assessments due under this title on account of such community services shall be the obligation of and be paid for by the county in which the juvenile was required to perform such community services from the fund created in section 4(2) of this act or from any other source. Coverage under this section commences when a county has given notice to the director that it wishes to cover juveniles performing community service prior to the occurrence of an injury or contraction of an occupational disease.
NEW SECTION. Sec. 4. There is added to chapter 291, Laws of 1977 ex. sess. and to chapter 13.40 RCW a new section to read as follows:

(2) The legislative authority of any county desiring to purchase insurance under subsection (1) of this section shall, by ordinance, establish a cumulative reserve fund to be used for purchasing and maintaining such insurance. The fund shall be known as the community service insurance fund and shall be administered by the county treasurer. Only moneys from fines imposed upon juveniles sentenced under chapter 13.40 RCW may be deposited in the fund: PROVIDED, That moneys may be transferred to the fund from the county's current expense fund to provide initial moneys for the community service insurance fund. Moneys which are deposited in the community service insurance fund, as a result of fines collected, which are in excess of those funds necessary to pay the required insurance premiums may be used to replace such moneys as were transferred from the current expense fund for the purpose of initiating the community service insurance fund.

Sec. 5. Section 1, chapter 20, Laws of 1971 as last amended by section 17, chapter 350, Laws of 1977 ex. sess. and RCW 51.12.035 are each amended to read as follows:

Any and all premiums or assessments due under this title on account of such volunteer service shall be the obligation of and be paid by the state or any agency thereof which has registered and accepted the services of volunteers.

(2) Volunteers may be deemed employees and/or workers, as the case may be, for all purposes relating to medical aid benefits under chapter 51.36 RCW at the option of any city, county, town, special district, municipal corporation, or political subdivision of any type, or any private nonprofit charitable organization, when any such unit of local government or any such nonprofit organization has given notice of covering all of its volunteers to the director prior to the occurrence of the injury or contraction of an occupational disease.

A 'volunteer' shall mean a person who performs any assigned or authorized duties for any such unit of local government, or any such organization, except emergency services workers as described by chapter 38.52 RCW, or fire fighters covered by chapter 41.24 RCW, brought about by one's own free choice, receives no wages, and is registered and accepted as a volunteer by any such unit of local government, or any such organization which has given such notice, for the purpose of engaging in authorized volunteer services: PROVIDED, That such person shall be deemed to be a volunteer although he or she may be granted maintenance and reimbursement for actual expenses necessarily incurred in performing his or her assigned or authorized duties: PROVIDED FURTHER, That juveniles performing community services pursuant to chapter 13.40 RCW may not be granted coverage as volunteers under this section.

Any and all premiums or assessments due under this title on account of such volunteer service for any such unit of local government, or any such organization shall be the obligation of and be paid by such organization which has registered and accepted the services of volunteers and exercised its option to secure the medical aid benefits under chapter 51.36 RCW for such volunteers.

NEW SECTION. Sec. 6. Sections 1 through 84 of chapter 155, Laws of 1979 shall control over any other provision of law in conflict therewith."

(1) For persons under the age of sixty-two receiving compensation for temporary or permanent total disability pursuant to the provisions of chapter 51.32 RCW, such compensation shall be reduced by an amount equal to the benefits payable under the federal old-age, survivors and disability insurance act as now or hereafter amended not to exceed the amount of the reduction established pursuant to 42 USC 424a. However, such reduction shall not apply when the combined compensation provided pursuant to chapter 51.32 RCW and the federal old-age, survivors and disability insurance act is less than the total benefits to which the federal reduction would apply, pursuant to 42 USC 424a. Where any person described in this section refuses to authorize the release of information concerning the amount of benefits payable under said federal act the department's estimate of said amount shall be deemed to be correct unless and until the actual amount is established and no adjustment shall be made for any period or time covered by any such refusal.

In the case of temporary or permanent total disability benefits, the recovery shall not exceed twenty-five percent of the monthly amount due from the department or self-insurer or one-sixth of the total overpayment, whichever is the lesser.

(4) No reduction may be made unless the worker receives notice of the reduction prior to the month in which the reduction is made.

(5) In no event shall the reduction reduce total benefits to less than the greater amount the worker may be entitled to under this title or the federal old-age, survivors and disability insurance act.

(6) The director, pursuant to rules adopted in accordance with the procedures provided in the administrative procedure act, chapter 34.04 RCW, may exercise his discretion to waive, in whole or in part, the amount of any overpayment where the recovery would be against equity and good conscience.

NEW SECTION. Sec. 2. This 1979 act applies to all cases in which notification of the first reduction in compensation pursuant to RCW 51.32.220 is mailed after the effective date of this 1979 act, regardless of when the basis, authority, or cause for such reduction may have arisen. To such extent, this 1979 act applies retrospectively, but in all other respects it applies prospectively.

POINT OF PARLIAMENTARY INQUIRY

POINT OF INQUIRY

Mr. Heck yielded to question by Mr. Chandler.

Mr. Chandler: "This legislation gives school districts some additional flexibility in the method used to compute the course mix requirements. It allows a five percent variation. I think it is clear how this variation would work in all of the grade categories except for grades nine through twelve. We have been shown four different ways to compute the maximum requirements for these grade levels. Three of them result in an eighty-five percent requirement for basic and work skills and a fifteen percent requirement for other things. One of them would result in an eighty percent requirement for basic and work skills and twenty percent for other. Is it your intention that all of these possible methods of computation shall be allowable to school districts?"

Mr. Heck: "Yes. The intention is to provide some additional flexibility to the school districts. It is not the intention, however, to permit the school districts to have a smaller basic and work skills requirement than eighty percent. That would be the minimum, but it would be possible under the language of the bill to have an eighty-twenty percent split in this respect for grades nine through twelve."

Mr. Chandler spoke in favor of the bill.

POINT OF INQUIRY

Mr. Heck yielded to question by Mr. Greengo.

Mr. Greengo: "Representative Chandler, for the benefit of some of our senior citizens or those who have grown children, could you confirm that a learning resource center is, in fact, a library, and that a learning resource specialist could possibly be a librarian?"

Mr. Chandler: "That is correct."

Mr. Taylor spoke against passage of the bill, and Mr. Heck spoke in favor of it.

ROLL CALL

The Clerk called the roll on the final passage of Engrossed Substitute Senate Bill No. 2709 as amended by the House, and the bill passed the House by the following vote: Yeas, 93; nays, 2; not voting, 3.

Voting nay: Representatives Barnes, Taylor.

Not voting: Representatives Adams, Houchen, Hughes.

Engrossed Substitute Senate Bill No. 2709 as amended by the House, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MOTION

Mr. Bauer moved that the Ecology Committee be relieved of HOUSE BILL NO. 675, and that the bill be placed on today's second reading calendar.

Mr. Bauer spoke in favor of the motion.

POINT OF ORDER

Mr. Oliver: "Mr. Speaker, we're talking about relieving the committee of House Bill No. 675, not the merits of the bill itself. I wish he would confine his remarks."

The Speaker (Mr. O'Brien presiding): "Representative Bauer, could you hold your remarks to why you feel the Committee on Ecology should be relieved of House Bill No. 675."

Mr. Bauer continued his remarks in favor of the motion.

POINT OF ORDER

Mr. Isaacson: "Mr. Speaker, I believe the Representative is wandering away from the merits of the question of whether or not we should bring this bill out. He's discussing some of the merits of the bill."

SPEAKER'S RULING (MR. O'BRIEN PRESIDING)

The Speaker (Mr. O'Brien presiding): "Reed's Rule 120 states, 'The motion to commit is debatable, but the merits of the main question are not open to discussion on this motion, since that discussion will be in order when the committee reports.' Representative Bauer, it appears that you are going into the merits of the bill."

Mr. Bauer concluded his remarks in favor of the motion, and Mr. Isaacson spoke against it.

POINT OF ORDER

Mr. Heck: "It seems to me Representative Isaacson ought to meet the same standards of the House Rules that he expects of Representative Bauer, and he ought to contain his remarks to the motion."

The Speaker (Mr. O'Brien presiding): "Your point is well taken, Representative Heck. Continue, Representative Isaacson."

Mr. Isaacson continued his remarks against the motion, and Ms. Valle spoke in favor of it.

POINT OF ORDER

Mr. Oliver: "Mr. Speaker, Three-Mile doesn't have anything to do with whether or not this bill should come from committee."

The Speaker (Mr. O'Brien presiding): "Representative Valle, hold your comments to the motion to relieve the committee of the bill."

Ms. Valle continued her remarks in favor of the motion.

POINT OF ORDER

Mr. Oliver: "Mr. Speaker, I believe you did rule that the speaker was using broad prerogative, beyond what you intended, and she has ignored that and continued on. I would appreciate it if you would recognize that point and she would, as well."
The Speaker (Mr. O'Brien presiding): "I know it's rather difficult to hold your remarks to the motion to relieve the committee of the bill without going into the merits of the bill. The Speaker is always very tolerant on discussions of this nature. I wish you would hold your comments to a limited degree, Representative Valle."

Ms. Valle concluded her remarks in favor of the motion, and Mr. Nisbet spoke against it.

Mr. King demanded an electric roll call vote on the motion, and the demand was sustained.

Mr. Tupper spoke in favor of the motion, and Mr. Nelson (D) also spoke in favor of the motion.

POINT OF ORDER

Mr. Oliver: "Mr. Speaker, the gentleman is talking about federal government having a repository and other matters which are not before us. The question before us is the question of whether or not to relieve the committee of House Bill No. 675."

The Speaker (Mr. O'Brien presiding): "Representative Nelson, will you please confine your remarks to the question."

Mr. Nelson (D) concluded his remarks in favor of the motion.

MESSAGES FROM THE GOVERNOR

May 14, 1979

TO THE HONORABLE,
THE HOUSE OF REPRESENTATIVES
OF THE STATE OF WASHINGTON

Ladies and Gentlemen:

I am returning herewith without my approval SUBSTITUTE HOUSE BILL NO. 194, entitled:

"AN ACT Relating to institutions of higher education."

I strongly support the position that students should have the responsibility and authority to allocate their service and activity fee revenue among the various student programs. Since the institutions of higher education do indeed have procedures in place which in effect comply with the spirit and intent of this position legislation is not necessary. Substitute House Bill No. 194 duplicates administrative procedures which are already working satisfactorily, given the requirement for the institution to serve as fiduciary agent for student fee money.

Moreover, this bill requires that all programs receiving any service and activity fee support shall be evaluated by the student committee as part of the annual budget process. This requirement extends the scope of the bill beyond its original intent and expands student involvement in budgeting beyond a role that is appropriate.

For these reasons, I have vetoed Substitute House Bill No. 194.

Respectfully submitted,

DIXY LEE RAY, Governor.

May 14, 1979

TO THE HONORABLE,
THE HOUSE OF REPRESENTATIVES
OF THE STATE OF WASHINGTON

Ladies and Gentlemen:

I am returning herewith without my approval as to one section, SUBSTITUTE HOUSE BILL NO. 1281, entitled:

"AN ACT Relating to snowmobiles; amending section 1, chapter 29, Laws of 1971 ex. sess., as amended by section 131, chapter ...(HB 849), Laws of 1971 and RCW 46.10.010;..."

Section 7 creates the "Snowmobile Account" within the General Fund and section 9 provides that the unused money shall be "invested in a manner as provided by law" and that all interest earnings "shall be considered moneys in the snowmobile account." At present, there are 71 accounts in the State General Fund, only eight of which receive interest earnings on their balances. In all other instances, account earnings are credited to the State's basic General Fund. To credit interest to the newly-created snowmobile account would be to directly contradict past policy concerning funds administered by the State Treasurer and would encourage other encroachments on the revenue derived from these sources to the State General Fund.

With the exception of Section 9, which I have vetoed, the remainder of Substitute House Bill No. 1281 is approved.
Mr. Speaker:

The Senate has passed HOUSE BILL NO. 320 with the following amendments:

On page 1, strike everything after the enacting clause and insert the following:

"Section 1. Section 1, chapter 133, Laws of 1967 ex. sess. as last amended by section 106, chapter 195, Laws of 1973 1st ex. sess. and RCW 84.52.065 are each amended to read as follows:

Subject to the limitations in RCW 84.55.010, in each year the state shall levy for collection in the following year for the support of common schools of the state a tax of three dollars and sixty cents per thousand dollars of assessed value upon the assessed valuation of all taxable property within the state adjusted to the state equalized value in accordance with the indicated ratio fixed by the state department of revenue.

Sec. 2. Section 20, chapter 288, Laws of 1971 ex. sess. as amended by section 1, chapter 67, Laws of 1973 1st ex. sess. and RCW 84.55.010 are each amended to read as follows:

Except as provided in ((RCW 84.55.020 through 84.55.050)) this chapter, the levy ((in 1973 and years subsequent thereto)) for a taxing district ((other than the state or a school district)) in any year shall be set so that the regular property taxes payable in the following year shall not exceed one hundred six percent of the amount of regular property taxes lawfully levied for such district in the highest of the three most recent years in which such taxes were levied for such district plus an additional dollar amount calculated by multiplying the increase in assessed value in that district resulting from new construction ((and)), improvements to property, and any increase in the assessed value of state-assessed property by the regular property tax levy rate of that district for the preceding year.

Sec. 3. Section 24, chapter 288, Laws of 1971 ex. sess. as amended by section 109, chapter 195, Laws of 1973 1st ex. sess. and RCW 84.55.050 are each amended to read as follows:

Subject to any otherwise applicable statutory dollar rate limitations, regular property taxes may be levied by or for a taxing district in an amount exceeding the limitations provided for in ((RCW 84.55.010 through 84.55.040)) this chapter if such levy is authorized by a proposition approved by a majority of the voters of the taxing district voting on the proposition at a general election held within the district or at a special election within the taxing district called by the district for the purpose of submitting such proposition to the voters. Any election held pursuant to this section shall be held not more than twelve months prior to the date on which the proposed levy is to be made. The ballot of the proposition shall state the dollar rate proposed.

After a levy authorized pursuant to this section is made, the dollar amount of such levy shall be used for the purpose of computing the limitations for subsequent levies provided for in this chapter.

NEW SECTION. Sec. 4. There is added to chapter 84.55 RCW a new section to read as follows:

If a taxing district has not levied in the three most recent years and elects to restore a regular property tax levy subject to applicable statutory limitations then such first restored levy shall be set so that the regular property tax payable shall not exceed the amount which could have been lawfully levied in 1973, plus an additional dollar amount calculated by multiplying the increase in assessed value in the district since 1973 resulting from new construction and improvements to property by the property tax rate which is proposed to be restored, or the maximum amount which could be lawfully levied in the year such a restored levy is proposed.

NEW SECTION. Sec. 5. There is added to chapter 84.55 RCW a new section to read as follows:

RCW 84.55.010 shall not apply to the first levy by or for a newly-formed taxing district created other than by consolidation or annexation.

Mr. Speaker:

The Senate has passed SECOND SUBSTITUTE HOUSE BILL NO. 418 with the following amendments:

On page 1, strike everything after the enacting clause and insert the following:

*NEW SECTION. Section 1. This chapter may be known and cited as the Victims of Sexual Assault Act.

NEW SECTION. Sec. 2. (1) The legislature hereby finds and declares that:

(a) Sexual assault has become one of the most rapidly increasing violent crimes over the last decade;
(b) There is a lack of essential information and data concerning sexual assault;
(c) There is a lack of adequate training for law enforcement officers concerning sexual assault, the victim, the offender, and the investigation;
(d) There is a lack of community awareness and knowledge concerning sexual assault and the physical and psychological impact upon the victim;
(e) There is a lack of public information concerning sexual assault prevention and personal self-protection;
(f) Because of the lack of information, training, and services, the victims of sexual assault are not receiving the assistance they require in dealing with the physical and psychological trauma of a sexual assault;
(g) The criminal justice system and health care system should maintain close contact and cooperation with each other and with community rape crisis centers to expedite the disposition of sexual assault cases; and

(h) Persons who are victims of sexual assault will benefit directly from increased public awareness and education, increased prosecutions, and a criminal justice system which treats them in a humane manner.

(2) Therefore, a state-wide sexual assault education, training, and consultation program should be developed. Such a state-wide program should seek to improve treatment of victims through information-gathering, education, training, community awareness programs, and by increasing the efficiency of the criminal justice and health care systems as they relate to sexual assault. Such a program should serve a consultative and facilitative function for organizations which provide services to victims and potential victims of sexual assault.

The department shall develop, with the cooperation of the criminal justice training commission, the attorney general's office, the medical profession, and existing rape crisis centers, a state-wide plan to aid organizations which provide services to victims of sexual assault.

NEW SECTION. Sec. 5. The state-wide program established under section 4 of this act shall include but not be limited to provision of the following services: PROVIDED, That the department shall utilize existing rape crisis centers and contract, where appropriate, with these centers to provide the services identified in this section:

Sec. 10. Section 9, chapter 302, Laws of 1977 ex. sess. and RCW 7.68.065 are each amended to read as follows:

Each law enforcement agency to which a criminal act has been reported and which criminal act results in physical injury or death to a victim shall make a reasonable effort to inform the known victim or his surviving dependent(s) of the existence of this chapter and the procedure for making application for benefits provided by this chapter. In any criminal case wherein the victim has sustained physical, emotional, or financial trauma, the law enforcement agency shall make a reasonable effort to inform the known victim of the existence and method of contacting agencies which may be able to assist the victim. Such list of agencies shall include public or private organizations that provide support for victims of crime: PROVIDED, That the failure to so act ((with)) under this section shall not stay the operation of RCW 7.68.060.

NEW SECTION. Sec. 11. There is added to chapter 7.68 RCW a new section to read as follows:

No costs incurred by a hospital or other emergency medical facility for the examination of the victim of a sexual assault, when such examination is performed for the purposes of gathering evidence for possible prosecution, shall be billed or charged directly or indirectly to the victim of such assault. Such costs shall be paid by the state pursuant to this chapter.

victim of crimes committed by: (i) such convicted person; or (ii) such accused person, but only if such accused person is eventually convicted of the crime and provided that such victim, within five years of the date of the establishment of such escrow account, brings a civil action in a court of competent jurisdiction and recovers a money judgment for damages against such person or his representatives.

NEW SECTION. Sec. 19. Notwithstanding the foregoing provisions of this act the department shall make payments from an escrow account to any person accused or convicted of a crime upon the order of a court of competent jurisdiction after a showing by such person that such moneys shall be used for the exclusive purpose of retaining legal representation at any stage of the proceedings against such person, including the appeals process.

NEW SECTION. Sec. 20. Any action taken by any person accused or convicted of a crime, whether by way of execution of a power of attorney, creation of corporate entities or otherwise, to defeat the purpose of this act shall be null and void as against the public policy of this state.

NEW SECTION. Sec. 21. Sections 12 through 20 of this act are each added to chapter 7.68 RCW.

NEW SECTION. Sec. 22. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected."

Mr. Barr demanded the previous question, and the demand was not sustained.

Mr. Douthwaite spoke again in favor of the amendment to the committee amendment.

POINT OF INQUIRY

Mr. Barr yielded to question by Mr. Tilly.

Mr. Tilly: "Representative Barr, I'm concerned and I know all members are, about accountability of state funds, and I'm wondering what kind of report is the Legislature going to get back if these funds are provided?"

Mr. Barr: "This will be a joint study between the Conservation Commission, which is the body that has responsibility for any and all funds that the districts use, and the committee. It is the official state body that will be responsible to the Legislature, and it will be working with the committee staff. It will be reported back this way. The purpose of the study is to report to the Legislature."

Mr. Tilly spoke against the amendment.

POINT OF INQUIRY

Mr. Ehlers yielded to question by Mr. Vrooman.

Mr. Vrooman: "You sent, to the members of the Appropriations Committee, a memo concerning this subject. Would you clarify that memo?"

Mr. Ehlers: "After the Appropriations Committee hearing in which we did defeat a different bill than the one that is before us now, I was concerned about the cost to the Commission and what we were asking them to do. I did get a memo back that indicated the Commission receives $106,000 now for direct general fund program; almost $37,000 for indirect costs for administrative support and services from the Department of Ecology; about $143,000 during fiscal year 1980—one year. In addition, the Commission will receive an estimated $200,000 during fiscal year 1980 in Federal Water Quality Conservation funds to provide assistance to conservation districts for water pollution control connected with agricultural uses. In addition, the federal government provides over one-third percent formula for administrative support. What I guess I'm saying here, and I'm not opposed to the Commission, I think they are doing good work, we're not exactly sure what they are doing. We know one thing, there is money in the budget, at least $350,000 during fiscal year 1980 alone, or more than that for this program."
Mr. Patterson demanded the previous question and the demand was sustained.

The amendment to the committee amendment was not adopted.

The following property shall be exempt from taxation:

Real or personal property owned by a nonprofit organization, association, or corporation in connection with the operation of a public assembly hall or meeting place. The area exempt under this section shall include the building or buildings and such additional area as may be necessary for parking, but shall not exceed one acre.

To qualify the property shall be used exclusively for public gatherings and be available to all organizations or persons desiring to utilize the property, but the owner may impose such conditions and restrictions as are necessary for the safekeeping of the property and to promote the purposes of this exemption. Membership shall not be a requirement or a prerequisite for the use of the property.

The exemption shall not be nullified by the collection of rent or donations if the income is reasonable and does not exceed maintenance and operation expenses created by the user.

The use of the property for pecuniary gain or to promote business activities, except fund raising activities conducted by a nonprofit organization, shall nullify the exemption otherwise available for the property for the assessment year under this section."
If such real property interests are sold or otherwise transferred to any nonpublic entity, all taxes which would have been collected if the property interests were subject to taxation shall become due and payable, together with the interest at the rate charged on delinquent property taxes, by the buyer or transferee. Organizations applying for exemption under this section are subject to the provisions of RCW 84.36.805."

Renumber the remaining sections consecutively.

Mr. Wilson spoke in favor of the amendment.

POINT OF INQUIRY

Mr. Wilson yielded to question by Mr. Lux.

Mr. Lux: "I'm very serious about this, Representative Wilson. We have some community clubs in the 35th District and I know some of the rents are quite high now because of the taxes. I'm not sure this would lower taxes, but I'm just wondering what would happen in the case of a political fund raiser in one of these clubs? We pay one hundred dollars for the rent of the club for an evening. When you say minimal rent, would that mean we would get that club for less? How would you work that out?"

Mr. Wilson: "This says, 'The exemption shall not be nullified by the collection of rent or donations if the income is reasonable and does not exceed maintenance and operation expenses created by the use.' I would suggest that the person who wants to rent could ask for an accounting. I would expect the rate would be reduced, yes. As for a political fund raiser, that's a public gathering. We hope that neither party closes membership; we try to get everyone. I think that applies to the square dance clubs or any other public organization that wants to use it. I would expect the rent, as it says here, would be just enough to cover the wear and tear and janitorial services that are required to clean up for that particular use."

POINT OF INQUIRY

Mr. Wilson yielded to question by Mr. McGinnis.

Mr. McGinnis: "Representative Wilson, the paragraph that starts, 'If such real property interests are sold or otherwise transferred to any nonpublic entity...,' goes on to describe a situation that I interpret as, if that property is sold at a future time, back taxes would be due on that property. Is that what you're saying?"

Mr. Wilson: "That's what it says. You are asking for a tax forgiveness. If it's going to revert to private use, just like the current open space law, it requires the same sort of thing."

POINT OF INQUIRY

Mr. Wilson yielded to question by Mr. Van Dyken.

Mr. Van Dyken: "Representative Wilson, two years ago the Legislature repealed a provision requiring the payment of back taxes for private schools and colleges that had to close and dispose of their property. Would this amendment affect that?"

Mr. Wilson: "Not if those schools were sectarian or had closed membership. I might add further that there are, in the law already, exemptions for other clubs with closed membership. I believe the granges have the exemptions, the Elks Clubs enjoy property exemptions. This particular use, open to the public with no restrictions, I believe, deserves the same kind of consideration."

Mr. Smith (R) spoke in favor of the amendment.

POINT OF INQUIRY

Mr. Wilson yielded to question by Mr. Flanagan.

Mr. Flanagan: "Representative Wilson, does this require the County Assessor to keep a double set of books ongoing over a period of years for the difference they would have paid if they had been on the tax rolls, similar to the current use law that we now have?"

Mr. Wilson: "I cannot answer that."

ROLL CALL

The Clerk called the roll on adoption of the amendment by Representatives Wilson and others to Engrossed Substitute Senate Bill No. 2929, and the amendment was adopted by the following vote: Yeas, 83; nays, 10; not voting, 5.

On motion of Mr. Sprague, the following amendment was adopted:

On page 11, after line 36 insert the following:

"Sec. 7. Section 82.32.060, chapter 15, Laws of 1961, as last amended by chapter 95, Laws of 1979 1st ex. sess. and RCW 82.32.060 are each amended to read as follows:

If, upon receipt of an application by a taxpayer for a refund or for an audit of his records, or upon an examination of the returns or records of any taxpayer, it is determined by the department that within the statutory period for assessment of taxes prescribed by RCW 82.32.050 a tax has been paid in excess of that properly due, the excess amount paid within such period shall be credited to the taxpayer's account or shall be refunded to the taxpayer, at his option. No refund or credit shall be made for taxes paid more than four years prior to the beginning of the calendar year in which the refund application is made or examination of records is completed.

Notwithstanding the foregoing limitations there shall be refunded or credited to taxpayers engaged in the performance of United States government contracts or subcontracts the amount of any tax paid, measured by that portion of the amounts received from the United States, which taxpayer is required by contract or applicable federal statute to refund or credit to the United States, if claim for such refund is filed by the taxpayer with the department within one year of the date that the amount of the refund or credit due to the United States is finally determined and filed within four years of the date on which the tax was paid: PROVIDED, That no interest shall be allowed on such refund.

Any such refunds shall be made by means of vouchers approved by the department and the issuance of state warrants drawn upon and payable from such funds as the legislature may provide.

Any judgment for which a recovery is granted by any court of competent jurisdiction, not appealed from, for tax, penalties, and interest which were paid by the taxpayer, and costs, in a suit by any taxpayer shall be paid in like manner, upon the filing with the department of a certified copy of the order or judgment of the court. Except as to the credits in computing tax authorized by RCW 82.04.435, interest at the rate of nine percent per annum shall be allowed by the department and by any court on the amount of any refund or recovery allowed to a taxpayer for taxes, penalties, or interest paid by him after May 1, 1949, and interest at the same rate shall be allowed on any judgment recovered by a taxpayer for taxes, penalties, or interest paid after such date."

Renumber the remaining sections consecutively.

Ms. Sommers moved adoption of the following amendment by Representatives Nelson (G.A.), Sommers and Flanagan:

On page 11, after line 36 of the engrossed bill, being page 11, line 33 of the printed bill, insert the following:

"Sec. 7. Section 6, chapter 91, Laws of 1947 as last amended by section 43, chapter 195, Laws of 1973 1st ex. sess. and RCW 41.16.060 are each amended to read as follows:

It shall be the duty of the legislative authority of each municipality, each year as a part of its annual tax levy, to levy and place in the fund a tax of twenty-two and one-half cents per thousand dollars of assessed value against all the taxable property of such municipality: PROVIDED, That if a report by a qualified actuary on the condition of the fund establishes that the whole or any part of said dollar rate is not necessary to maintain the actuarial soundness of the fund, the levy of said twenty-two and one-half cents per thousand dollars of assessed value may be omitted, or the whole or any part of said dollar rate may be levied and used for any other municipal purpose.

It shall be the duty of the legislative authority of each municipality, each year as a part of its annual tax levy and in addition to the city levy limit set forth in RCW 84.52.050, as now or hereafter amended, to levy and place in the fund an additional tax of twenty-two and one-half cents per thousand dollars of assessed value against all taxable property of such municipality: PROVIDED, That if a report by a qualified actuary establishes that all or any part of the additional twenty-two and one-half cents per thousand dollars of assessed value levy is unnecessary to meet the estimated demands on the fund under this chapter for the ensuing budget year, the levy of said additional twenty-two and one-half cents per thousand dollars of assessed value may be omitted, or the whole or any part of such dollar rate may be levied and used for any other municipal purpose.

The amount of such levy under this section allocated to the pension fund may be reduced in the same proportion as the regular property tax levy of the municipality is reduced by chapter 84.55 RCW."
In order to provide additional funds for the coordination of community mental retardation and other developmental disability services and to provide community mental retardation, other developmental disability, or mental health services, the board of county commissioners of each county in the state shall budget and levy annually a tax in a sum equal to the amount which would be raised by a levy of two and one-half cents per thousand dollars of assessed value against the taxable property in the county to be used for such purposes: PROVIDED, That all or part of the funds collected from the tax levied for the purposes of this section may be transferred to the state of Washington, department of social and health services, for the purpose of obtaining federal matching funds to provide and coordinate community mental retardation, other developmental disability, and mental health services. In the event a county elects to transfer such tax funds to the state for this purpose, the state shall grant these moneys and the additional funds received as matching funds to service-­providing community agencies or community boards in the county which has made such transfer, pursuant to the plan approved by the county, as provided by chapters 71.16, 71.20, 71.24, and 71.28 RCW, all as now or hereafter amended.

The amount of a levy allocated to the purposes specified in this section may be reduced in the same proportion as the regular property tax levy of the county is reduced by chapter 84.55 RCW.

Sec. 9. Section 7, page 210, Laws of 1888 as last amended by section 5, chapter 4, Laws of 1973 2nd ex. sess. and RCW 73.08.080 are each amended to read as follows:

The boards of county commissioners of the several counties in this state shall levy, in addition to the taxes now levied by law, a tax in a sum equal to the amount which would be raised by not less than one and one-eighth cents per thousand dollars of assessed value, and not greater than twenty-seven cents per thousand dollars of assessed value against the taxable property of their respective counties, to be levied and collected as now prescribed by law for the assessment and collection of taxes, for the purpose of creating the veteran's relief fund for the relief of honorably discharged veterans who served in the armed forces of the United States in the Civil War, in the war of Mexico or in any of the Indian wars, or the Spanish–American war or the Philippine insurrection, in the First World War, or Second World War or Korean conflict, or Viet Nam conflict, and the indigent wives, husbands, widows, widowers and minor children of such indigent or deceased veterans, to be disbursed for such relief by such board of county commissioners: PROVIDED, That if the funds on deposit, less outstanding warrants, residing in the veteran's relief fund on the first Tuesday in September exceed the expected yield of one and one-eighth cents per thousand dollars of assessed value against the taxable property of the county, the county commissioners may levy a lesser amount: PROVIDED FURTHER, That the costs incurred in the administration of said veteran's relief fund shall be computed by the county treasurer not less than annually, and such amount may then be transferred from the veteran's relief fund as herein provided for to the county current expense fund.

Ms. Becker spoke in favor of the amendment to the committee amendment.
Ms. Becker yielded to question by Mr. Tilly.

Mr. Tilly: "Representative Becker, I'm sure this is the first time most of us have had a chance to look at this amendment. Is the intent of your amendment here regarding spousal privilege, to narrow it down to make it more difficult for a spouse to testify, or to broaden it to allow further chances for a spouse to testify?"

Ms. Becker: "The intention of the committee amendment is to broaden it over existing law. The intent of my amendment is to narrow that broadening, but my amendment is broader than existing law, but narrower than the committee amendment."

Mr. Tilly spoke against the amendment to the amendment.

Ms. Becker: "I think Representative Tilly is making remarks that are more appropriate to final passage than for the amendment."

When a mental health professional is requested by a representative of a law enforcement agency, including a police officer, sheriff, a municipal attorney, or prosecuting attorney to undertake an investigation under RCW 71.05.150, as now or hereafter amended, the mental health professional shall, if requested to do so, advise said representative in writing of the results of the investigation including a statement of reasons for the decision to detain or release the person investigated. Such written report shall be submitted within seventy-two hours of the completion of the investigation or the request from the law enforcement representative, whichever occurs later."

POINT OF INQUIRY

Ms. Becker yielded to question by Mr. Newhouse.

Mr. Newhouse: "Would the mental health professionals referred to normally be employed by the Department of Social and Health Services or the community mental health agencies?"

POINT OF INQUIRY

Mr. Knowles yielded to question by Mr. Newhouse.

Mr. Newhouse: "Representative Knowles, I think you are arguing for the preservation of this amendment, but wouldn't the effects of striking the amendment be to allow the judge, in more instances, to hear from the spouse of the person who may be mentally unbalanced?"

Mr. Knowles: "Absolutely not, because it is a statutory privilege that if any attorney who represents one of these parties comes in and says this is a privilege that we have to recognize—bear in mind, a lot of attorneys who come into these kinds of situations are intent upon getting that individual out of any kind of incarceration and they have to follow the law, so they have to argue the law. I've often felt they really aren't doing those people all that much good following the law. My answer to you, Representative Newhouse, would be that if they bring it properly, without this amendment, that spouse could not testify against her husband and vice versa."
Mr. Newhouse spoke in favor of the motion for reconsideration, and Mr. Smith (R) spoke against it.

**ROLL CALL**

The Clerk called the roll on the motion to reconsider the Becker amendment to page 2, line 2 of the committee amendment to Engrossed Substitute Senate Bill No. 2415, and the motion was carried by the following vote: Yeas, 49; nays, 46; not voting, 3.

MESSAGES FROM THE GOVERNOR

TO THE HONORABLE,
THE HOUSE OF REPRESENTATIVES
OF THE STATE OF WASHINGTON

Ladies and Gentlemen:
I am returning herewith, without my approval as to several sections, SUBSTITUTE HOUSE BILL NO. 1308, entitled: "AN ACT Relating to landlords and tenants;"

I am in support of Sections 1-15 of this act that consist of revisions and additions to the mobile home landlord-tenant act.

Sections 16-29 of Substitute House Bill No. 1308 would establish a floating home landlord-tenant act and is modeled after the 1977 mobile home act. Nearly all of the floating homes covered by the act are in Seattle. There, the demand for moorage sites and the difficulties in obtaining new sites have created a situation that Seattle brought under control by ordinance in 1977. Two major objectives of that ordinance are to protect tenants from exorbitant rent increases and arbitrary evictions. The floating home act portion of Substitute House Bill No. 1308 would preempt certain portions of the Seattle ordinance and would remove the controls on evictions. As a result, tenants with no alternative sites for their homes could be evicted at the termination or conclusion of a rental agreement; this is specifically contrary to the intent of the Seattle ordinance and inappropriate in this act whose purpose is to refine and clarify the rights of both landlords and tenants of mobile homes. Consequently, I think a decision to decontrol this uniquely local situation is an inappropriate action for the state to take. It may be that some redress for the landlord is in order, but if changes need to be made in the Seattle ordinance, they should be undertaken by the City of Seattle.

For the foregoing reasons, I have chosen to veto sections 16-29 of Substitute House Bill No. 1308. The remainder of the bill is approved.

Respectfully submitted,
DIXY LEE RAY, Governor.

TO THE HONORABLE,
THE HOUSE OF REPRESENTATIVES
OF THE STATE OF WASHINGTON

Mr. Thompson again spoke in favor of the bill.

POINT OF ORDER

Mr. Polk: Mr. Speaker, Representative Thompson has spoken once and we are past the fiftieth day.

The Speaker (Mr. Newhouse presiding): "As Chairman of the committee, I suppose Representative Thompson should be afforded the opportunity to close debate."

Mr. Polk: "Mr. Speaker, I don't believe the rules allow the Chairman of the committee the prerogative of speaking twice. The bill was not worked in committee, but was worked on the floor. I don't think Representative Thompson should have that privilege."

SPEAKER'S RULING (MR. NEWHOUSE PRESIDING)

The Speaker (Mr. Newhouse presiding): "As Chairman of the committee, Representative Thompson will be allowed to continue."

Mr. Thompson concluded his remarks in favor of the bill, and Mr. Blair also spoke in favor of it.

POINT OF INFORMATION

Mr. Dunlap: "Mr. Speaker, much has been said about the emergency nature of this legislation. In light of the fact that the Senate has apparently scattered to the four corners of the country and no quorum is anticipated in the Senate before May 29th, I would like to ask the Speaker to rule on the question of..."

POINT OF ORDER

Mr. King: "Mr. Dunlap is in violation of Reed's Rule 224—References to Another Legislative Branch."

The Speaker (Mr. Newhouse presiding): "Reed's Rule 224 says it is not permissible to refer to action of the other house of a legislative body. The Speaker really cannot rule on that issue until the question is presented. I guess we would request that Representative Dunlap ask the question first."

Mr. Dunlap: "My question is: In light of the fact there is no quorum in the Senate before May 29th, can the passage of this bill be effectuated?"

SPEAKER'S RULING (MR. NEWHOUSE PRESIDING)

The Speaker (Mr. Newhouse presiding): "The responsibility of the House will end with the transmittal of the bill as passed by the House to the Senate. The procedures of the Senate are not open to question of this body. That question, if raised, would obviously have to be raised in the Senate."

Mr. Bond spoke against passage of the bill.

ROLL CALL

The Clerk called the roll on the final passage of Second Substitute Senate Bill No. 2944, and the bill passed the House by the following vote: Yeas, 79; nays, 9; not voting, 10.

Speaker Bagnariol spoke in favor of the motion, and Mr. Taller spoke against it.

Representatives Oliver and Dawson spoke against the motion, and Representatives Thompson and King spoke in favor of it.

POINT OF ORDER

Mr. Polk: "Mr. Speaker, the gentleman who is currently speaking is impugning the motives of the Republican members of this House, I think quite unfairly, and I think he should be called to order on that account."

The Speaker (Mr. O'Brien presiding): "Representative King, all remarks should be kept at a high level. We do not impugn the motives of any member. We should not use the word 'impossible,' because, of course, everything is possible."

Mr. King continued his remarks in favor of the motion, and Mr. McGinnis spoke against it.

POINT OF ORDER

Speaker Bagnariol: "Mr. Speaker, Mr. McGinnis is impugning the motives of every member of this body to insinuate they could be bought."

The Speaker (Mr. O'Brien presiding): "Representative McGinnis, when you impugn the motives of the members, you are violating our House rules. I think all of us should adhere to the rules."

Mr. Polk continued speaking in favor of the motion, and Speaker Bagnariol spoke against it.

MOTION

Mr. King moved that the House adjourn.

POINT OF ORDER

Speaker Berentson: "The motion to adjourn is of higher rank than the motion to adjourn to a time certain. Under Rule 38 the motion to adjourn, not being debatable, we will put that motion. JOHN BAGNAROL, Speaker
DUANE BERENTSON, Speaker

DEAN R. FOSTER, Chief Clerk

**MOTION**
On motion of Mr. King, the House recessed until 1:30 p.m.

**AFTERNOON SESSION**

**MOTION**
On motion of Speaker Bagnariol, consideration of Engrossed Substitute House Bill No. 236 was made a Special Order of Business for 3:30 p.m.

**MOTION**
On motion of Mr. King, the House advanced to the sixth order of business.

**SECOND READING**
Ms. Valle moved that the Rules Committee be relieved of HOUSE BILL NO. 49 and the bill be placed on today's second reading calendar.

Representatives Valle, Knowles and Pruitt spoke in favor of the motion, and Representatives Barr and Dunlap spoke against it.

**POINT OF ORDER**
Speaker Bagnariol: "We have worked in agreement, between the Co-Speakers, in ruling on points of order. We have agreed consistently throughout this session. That is what the Co-Speakers prior to this action agreed to and Representative Dunlap's comments are completely out of line."

The Speaker (Mr. O'Brien presiding): "Representative Dunlap, hold your remarks only to the motion and not to the main question."

Mr. Dunlap concluded his remarks in opposition to the motion.

**POINT OF INQUIRY**
Ms. Valle yielded to question by Ms. North.

Ms. North: "Representative Valle, there's a great deal of confusion about this bill, and I'm wondering if the body realizes what role the Corps of Engineers would play in the inspection of dams and what role this bill would encompass in the inspection of dams?"

Ms. Valle: "First of all, the federal government did not fund the Corps of Engineers' program for many, many years and then the Grand Teton Dam burst and the—"
POINT OF ORDER

Mr. Dunlap: "Mr. Speaker, you have said that speakers should confine their remarks to the question of relieving the Rules Committee of the bill and I think a discussion of the problems, the merits and demerits that surround this bill, are really not appropriate at this time."

SPEAKER'S RULING (MR. O'BRIEN PRESIDING)

The Speaker (Mr. O'Brien presiding): "The question really doesn't open the main question for discussion. The question before us is the motion to relieve the committee of House Bill No. 49. If the committee is relieved of the bill, then that kind of question would be in order."

Mr. Oliver spoke against the motion, and Mr. Charnley spoke in favor of it.

POINT OF ORDER

Mr. Dunlap: "Mr. Speaker, would you please ask the Representative now speaking to restrict his remarks to the question of whether we should pull this bill from the Rules Committee?"

The Speaker (Mr. O'Brien presiding): "Representative Charnley, the merits of the bill aren't open for discussion at this time. The question before us is why the House should consider House Bill No. 49 and the Rules Committee should be relieved of it."

Mr. Charnley concluded his remarks.

Representatives Bagnariol and Douthwaite spoke in favor of the motion.

POINT OF ORDER

Mr. Dunlap: "Mr. Speaker, please ask the Representative now speaking to restrict his remarks to the question of whether we should pull this bill from the Rules Committee. The question of liability of the dams and other bills is not before us."

The Speaker (Mr. O'Brien presiding): "Representative Douthwaite, you understand the motion; go ahead."

Mr. Douthwaite concluded his remarks in favor of the motion.

Mr. Polk spoke against the motion, and Representatives Valle, Tilly and Teutsch spoke in favor of it.

Mr. Salatino demanded an electric roll call vote on the motion, and the demand was sustained.

ROLL CALL

The Clerk called the roll on the motion to relieve the Rules Committee of House Bill No. 49 and place it on the second reading calendar, and the motion was carried by the following vote: Yeas, 62; nays, 31; not voting, 5.

Not voting: Representatives Blair, Chandler, Hughes, Taylor, Tupper.

Establishing a regulatory program with the department of ecology for dam safety.

The bill was read the second time.

On motion of Ms. Valle, Second Substitute House Bill No. 49 was substituted for House Bill No. 49, and the second substitute bill was placed on the calendar for second reading.

MOTION

ROLL CALL

Not voting: Representatives Hughes, Taylor, Tupper.

Mr. Barr moved adoption of the following amendment:

On page 2, beginning on line 26 strike all of section 6, and renumber the remaining sections consecutively.

Representatives Barr and Hastings spoke in favor of the amendment, and Representatives Valle and Charnley spoke against it.

Ms. Valle spoke again in favor of the amendment.

POINT OF ORDER

Mr. Newhouse: "The person who can close debate is the maker of the amendment."

SPEAKER'S RULING (MR. O'BRIEN PRESIDING)

The Speaker (Mr. O'Brien presiding): "Representative Newhouse's point is well taken. The amendment was offered by Representative Barr and you've already spoken once on this, Representative Valle."

Mr. Kreidler spoke in favor of the amendment, and Mr. Pruitt spoke against it.

POINT OF INQUIRY

Mr. Isaacson: "Representative Valle, could you explain to me how the Department of Ecology is going to work with the various dam operators on the Columbia River to control their fluctuations, particularly during high water situations?"

Ms. Valle: "My understanding is that the Department of Ecology may require an owner of a dam to submit an operational safety plan which identifies the means of protecting life and property from the potential hazards of rapid water level fluctuations. Notice that such a plan is available for review and shall be published at least four weeks prior to approval."

Mr. Isaacson: "I don't believe you answered my question of how the operators, and particularly Bonneville Power Administration, Grant County PUD, and others up and down the Columbia River, including the Canadian government, who have dams in Canada, are going to interact with the Department of Ecology on this matter?"

Ms. Valle: "Representative Isaacson, federally owned and licensed dams are exempted. That's one very clear definition in this bill. I did not want there to be any arguments about
which was a state dam and which was a federal dam such as there was at Tacola, Georgia, and whose responsibility the inspection was after that accident."

Representatives Isaacson, Nisbet, Fancher and Barr spoke in favor of the amendment, and Representatives King and Barnes spoke against it.

POINT OF PARLIAMENTARY INQUIRY

Mr. Patterson: "Wasn't there a motion that there would be a Special Order of Business at 3:30 on House Bill No. 236?"

The Speaker (Mr. O'Brien presiding) declared the House to be at ease.

The Speaker (Mr. O'Brien presiding) called the House to order.

MOTION

On motion of Mr. King, further consideration of Engrossed Substitute House Bill No. 236 was deferred until after consideration of Engrossed Substitute Senate Bill No. 2976.

The Speaker (Mr. O'Brien presiding) stated the question before the House to be the amendment to Second Substitute House Bill No. 49 by Representative Barr.

ROLL CALL

The Clerk called the roll on adoption of the amendment by Representative Barr to Second Substitute House Bill No. 49, and the amendment was not adopted by the following vote:

**Yeas, 41; nays, 53; not voting, 4.**

Not voting: Representatives Hughes, McDonald, Taylor, Tupper.

Mr. Smith (R) moved adoption of the following amendment by Representatives Smith (R) and Douthwaite:

On page 3, line 33 after "Sec. 9." strike all the material down to and including "chapter" on page 4, line 3 and insert the following: "In any action for damages against the state or a political subdivision thereof, or against its officers, agents or employees, the following affirmative defenses shall be applicable, but nothing contained herein shall create any cause of action or be held or interpreted as altering or diminishing any other existing defenses. In any action involving inspections, or failure to inspect, made for the purpose of determining compliance with applicable laws, it shall be an affirmative defense that the governmental agency:

1. Was not aware of the noncompliance; or
2. Has made a reasonable attempt to notify the owner, operator, or agent responsible for compliance of the noncompliance.

Neither affirmative defense shall apply where the property inspected is owned by the governmental agency."

Representatives Smith (R) and Newhouse spoke in favor of the amendment.

POINT OF INQUIRY

Mr. Newhouse yielded to question by Mr. Patterson.

Mr. Patterson: "Representative Newhouse, I have to assume the way this bill is drafted that once you have inspected a dam there must be some kind of a letter or certificate or something issued that this dam is safe. If there isn't something to that effect, then would the language in Representative Smith's amendment protect the state from liability because we said the dam was safe and then something went wrong?"

Mr. Newhouse: "Representative Patterson, I would not want to make such a statement. To infer that a dam is entirely safe because it has been inspected, would be, I think, beyond the purposes we can achieve. I think if we have a state agency which inspects dams, the certificate which the owner will receive will say that it either has or has not met the standards the state established. They will establish those standards by rule and regulation."
POINT OF INQUIRY

Mr. Smith (R) yielded to question by Mr. Nisbet.

Mr. Nisbet: "Representative Smith, my concern deals with the fact that, in a dam inspection where the owner of the dam is told to make his dam in compliance with the state inspection procedures, he does something to the dam to make it safe—with your amendment, would the state then be relieved of its responsibility in that agents of the state had told the owner of the dam to make corrections that later are the result of a failure—does this mean the state is completely free or would the state, in that case, be responsible in that their agents had directed the owner to make certain modifications that later resulted in a tragedy?"

Mr. Smith (R): "I'm not sure I understand your question."

Mr. Nisbet: "We have a bill that says the state will inspect dams and determine if they are safe or how they will be made safe. That is the thrust of this bill. The state is going to look at an owner's dam and say if it's not safe certain things must be done to make it safe. My question to you, with reference to your amendment, is: As a dam owner I make the corrections that the state of Washington has told me to make; I've complied as directed, and the next day there's a flood because of some correction I've made and the town below is wiped out. Does your amendment relieve the state of that responsibility? Is the owner stuck or can the owner turn back to the state and say, 'I did what you told me and that caused a failure of my dam; therefore the state is responsible.' Would your amendment still allow that to happen or would it preclude the owner from going back to the state?"

Mr. Smith (R): "This is the language that was adopted by the House in the product liability bill. I don't believe the state would be creating a hazardous procedure. The amendment would read, 'In any action involving inspections, or failure to inspect, made for the purpose of determining compliance with applicable laws...'. It is an absolute defense to the state if the state has inspected and notified the owner the dam is out of compliance."

Mr. Nisbet: "My question does not deal with out of compliance or failure to inspect. My question deals with the responsibility of the state where they have directed a specific action on the part of the owner in order to qualify with state standards. In that act, (and it can happen) that I am forced to comply with, do I, through your amendment, have no recourse through the state? I've done what I was told and it caused my dam to fail; am I going to be solely responsible or will the state, as a result of your amendment?"

Mr. Smith (R): "An affirmative defense is absolute exemption from liability, so the answer is the state would not be liable either to the owner or to the people injured if they had inspected the dam and advised that it was out of compliance."

Mr. Nisbet spoke against the amendment.

ROLL CALL

The Clerk called the roll on adoption of the amendment by Representatives Smith (R) and Douthwaite to Second Substitute House Bill No. 49, and the amendment was adopted by the following vote: Yeas, 60; nays, 34; not voting, 4.

Not voting: Representatives Blair, Hughes, Taylor, Tupper.

Mr. Eberle moved adoption of the following amendment: On page 2, line 30 strike all of line 30 and "approval" on line 31, and insert "to the department"

Mr. Eberle spoke in favor of the amendment, and Representatives Valle, Douthwaite and Nisbet spoke against it.

Mr. Eberle spoke again in favor of the amendment. The amendment was not adopted.
Mr. Haley moved adoption of the following amendment:
On page 2, beginning on line 12 following "Sec. 4." strike all language down through "dam." on line 20
and insert:
"Private or public entities that are recognized by the department as dam safety authorities shall carry
out a dam safety inspection program and shall make periodic inspections and conduct investigations pursuant
thereto. However, if no such inspection is made, or if the department elects not to accept such an inspection
and report, then the department shall carry out such inspection and investigations."

Representatives Haley, Valle and Barr spoke in favor of the amendment, and it was
adopted.

Mr. Smith (C) moved adoption of the following amendments:
On page I, line 28 following "than" strike "ten" and insert "twelve"
On page 2, line 2 before "acre" strike "twenty" and insert "fifty"

Representatives Smith (C) and Barr spoke in favor of the amendments, and Representa­
tives Valle, Pruitt, Charnley and Douthwaite spoke against them.

Mr. Smith (C) spoke again in favor of the amendment.

ROLL CALL

The Clerk called the roll on adoption of the amendments by Representative Smith (C) to
Second Substitute House Bill No. 49, and the amendments were not adopted by the following vote:
Yeas, 46; nays, 49; not voting, 3.

Not voting: Representatives Hughes, Taylor, Tupper.

Second Substitute House Bill No. 49 was ordered engrossed.

Mr. Salatino moved that the rules be suspended, and Engrossed Second Substitute House
Bill No. 49 be advanced to third reading and final passage.

Mr. Dunlap spoke against the motion, and the motion was lost.

Engrossed Second Substitute House Bill No. 49 was passed to Committee on Rules for
third reading.

ENGROSSED SUBSTITUTE SENATE JOINT RESOLUTION NO. 120, by Commit­
tee on Energy and Utilities (originally sponsored by Senators Bottiger and Lewis):

Authorizing government utilities to loan money for energy conservation purposes.

The resolution was read the second time.

Committee on Energy and Utilities recommendation: Majority, do pass as amended. (For
amendment, see Journal, 42nd Day ex. sess., May 1, 1979.)

On motion of Mr. Williams, the committee amendment was adopted.

Mr. Salatino moved that the rules be suspended, the second reading considered the third,
and the resolution be placed on final passage.

ROLL CALL

The Clerk called the roll on the motion to suspend the rules and advance Engrossed Sub­
stitute Senate Joint Resolution No. 120 as amended by the House to final passage, and the
motion received the required two-thirds majority by the following vote: Yeas, 72; nays, 20; not
voting, 6.

Voting yea: Representatives Adams, Addison, Amen, Bagnariol, Barnes, Barr, Bauer, Becker, Bender, Blair, Brekke, Brown, Burns, Chandler, Charnley, Dawson, Douthwaite, Ehlers, Eng, Erak, Erickson, Gallagher, Galloway, Garrett, Granlund, Greengo, Grimm, Gruger, Haley, Heck, Hurley, Jovanovich, Keller, King, Knowles, Kreidler, Lux, Martinis, Maxie, May, McCormick, McDonald, Mitchell, Monohon, Nelson D., Nisbet, North, O'Brien, Oliver, Owen, Patterson, Pruitt, Salatino, Sanders, Schmitten, Scott,

Not voting: Representatives Berentson, Hughes, Isaacson, Polk, Taylor, Tupper.

The Speaker (Mr. O'Brien presiding) stated the question before the House to be the final passage of Engrossed Substitute Senate Joint Resolution No. 120 as amended by the House.

Representatives Haley, McCormick, Isaacson, Nelson (D) and Oliver spoke in favor of the resolution, and Mr. McGinnis spoke against it.

Mr. Erak demanded the previous question, and the demand was sustained.

ROLL CALL

The Clerk called the roll on the final passage of Engrossed Substitute Senate Joint Resolution No. 120 as amended by the House, and the resolution was passed by the following vote:

Yeas, 70; nays, 25; not voting, 3.

Not voting: Representatives Hughes, Taylor, Tupper.

Engrossed Substitute Senate Joint Resolution No. 120 as amended by the House, having received the two-thirds constitutional majority, was declared passed.

ENGROSSED SUBSTITUTE SENATE BILL NO. 2976, by Committee on Energy and Utilities (originally sponsored by Senator Bottiger):

Permitting local governments to use public funds to promote conservation of energy.

The bill was read the second time.

Committee on Energy and Utilities recommendation: Majority, do pass as amended. (For amendments, see Journal, 43rd Day ex. sess., May 2, 1979.)

Ms. McCormick moved adoption of the committee amendment to page 2.

Mr. Addison moved adoption of the following amendment to the committee amendment:

On page 1 of the amendment to page 2, lines 16–26 of the bill, in subsection .(4), line 2 before "of" strike "and installation"

Mr. Addison spoke in favor of the amendment to the committee amendment.

POINT OF INQUIRY

Mr. Addison yielded to question by Mr. Nelson (D).

Mr. Nelson (D): "Representative Addison, in my copy of the House committee amendment to this bill which you are amending, in the last sentence it says, 'such services and materials shall be purchased from a private contractor and shall be installed by a private contractor or the owner.' Would that language cover what you are attempting to do in your amendment?"

Mr. Addison: "That's a good point, Representative Nelson. The way the amendment reads is that you have to take out of section 4, the installation. Understand this would not preclude the private contractor from putting in the insulation; it would only preclude the use of local moneys to be paid to a private contractor to do that."

Representatives Nelson (D), Williams and Douthwaite spoke against the amendment to the amendment, and Mr. Addison spoke again in favor of it.

The amendment to the committee amendment was not adopted.
The Speaker (Mr. O'Brien presiding) stated the question before the House to be the committee amendment.

POINT OF INQUIRY

Ms. McCormick yielded to question by Mr. Van Dyken.

Mr. Van Dyken: "Representative McCormick, in subparagraph (4) of the committee amendment there is a reference to contractors and private contractors. Does this mean that a person would be limited to buying insulating material from one who contracted for the installation of that or could I, for instance, go to a retail outlet and purchase the insulation and install it myself?"

Ms. McCormick: "Yes, you could purchase it yourself and install it yourself, or have a private contractor install it for you."

MOTION

POINT OF INQUIRY

Mr. Eberle yielded to question by Mr. Jovanovich.

Mr. Jovanovich: "Representative Eberle, can you tell me who will determine whether or not this is cost-effective?"

Mr. Eberle: "It would be up to the utility itself to make that analysis, because they are the ones who are in control of loaning the money."

Mr. Jovanovich: "Does this mean they are going to hire an engineer to come up with these conclusions? Who in the utility is qualified to do this?"

Mr. Eberle: "Probably an engineer would be most qualified, however, the American Society of Heating and Refrigeration Engineers have put out a handbook called The ASHRE Handbook and it has a lot of data in it. There have been some extensive tests performed on insulation and insulation materials. As a matter of fact, a Dr. McGraw who heads the Applied Sciences Engineering Association in Colorado has done some extensive testing just over the previous two years, and his data, which is fairly instructive, points up some interesting facts. He points out that most of the heat loss from a house is done through lifestyle, meaning that if you walk in and don't shut the door right away a lot of cold air comes in; if you sleep with the furnace on and the windows open, a lot of cold air comes in; if you run the range hood on your range, there's a tremendous amount of cold air brought in. It turns out that fifty to sixty percent of all heat loss in a house is that way so when we talk about saving, we are only talking about forty percent because the rest depends on your lifestyle. Insulation could only save forty to fifty percent and, of that forty to fifty percent, sixty percent of that is lost through the ceilings, about thirty percent is lost through the walls and ten percent through the floors, so the
analysis clearly says if you spend a lot of money to insulate the floor of your house, you are really throwing money out the door because you will never get that back in energy. You can spend a moderate amount in insulating the walls and you can maybe make a payback on that, but if you spend a great deal of money—if you spend $500 to have the walls foamed, for example—you'll never get that back in energy. However, putting insulation in the ceiling of your house is a good deal."

Representatives Jovanovich, King, Barnes, Nelson (D) and Charnley spoke against the amendment, and Representatives McDonald, Eberle, Oliver and Rohrbach spoke in favor of it.

Mr. Patterson demanded the previous question, and the demand was sustained.

MESSAGES FROM THE GOVERNOR

May 24, 1979

TO THE HONORABLE,
THE HOUSE OF REPRESENTATIVES
OF THE STATE OF WASHINGTON

Ladies and Gentlemen:

I have the honor to advise that on May 24, 1979, Governor Ray approved the following House Bills, entitled:

SUBSTITUTE HOUSE BILL NO. 76: Relating to local government;
HOUSE BILL NO. 100: Relating to state highway routes;
SUBSTITUTE HOUSE BILL NO. 302: Relating to business and occupation taxation;
HOUSE BILL NO. 376: Relating to commerce and economic development;
HOUSE BILL NO. 441: Relating to regulatory fees;
SECOND SUBSTITUTE HOUSE BILL NO. 1239: Relating to local government;
SUBSTITUTE HOUSE BILL NO. 1258: Relating to juvenile truancy.

Sincerely,
H. B. Hanna, Legal Counsel.

TO THE HONORABLE,
THE HOUSE OF REPRESENTATIVES
OF THE STATE OF WASHINGTON

Ladies and Gentlemen:

I have this day signed HOUSE BILL NO. 376 authorizing the sale of up to five million dollars in state bond funds to be sold only on condition that an additional fifteen million dollars in nonstate money becomes available for design and construction of an international performing arts' facility. I understand that it is the intention of the legislature that this facility will become a major focal point for cultural activities to serve all of the people of our state and, indeed, the entire Pacific Northwest. I further understand that the enhanced economic activity that this facility is expected to generate, especially through increased cultural tourism, will provide an additional increment of state revenue sufficient to retire the bond debt. Finally, I understand that the Federal Way site location specified in the bill was selected based upon an independent professional study of alternative sites and that it was selected to optimize accessibility to a maximum number of our state's citizens and tourists from out of state.

Since this is a facility designed to serve all of our citizens, my approval should not be interpreted as an endorsement of the use of state financing to support local cultural resource projects. The citizens of the State of Washington have, many times, amply demonstrated their interest and support for the arts. I sincerely share this interest. I do not, however, believe that it should be the state's responsibility to finance local capital projects of any kind. It should be clear that my approval of this bill is no exception to that principle.

Respectfully submitted,
DIXY LEE RAY, Governor.
TO THE HONORABLE
THE HOUSE OF REPRESENTATIVES
OF THE STATE OF WASHINGTON

Ladies and Gentlemen:

I am returning herewith, without my approval as to two sections, SUBSTITUTE HOUSE BILL NO. 1121, entitled:

"AN ACT Relating to insurance."

Sections 1 and 2 of this bill would allow the members of six occupations — attorneys, medical doctors, osteopaths, chiropractors, podiatrists, and dentists — to form mutual corporations under certain circumstances for the purpose of insuring against professional malpractice claims.

Although these sections specify some rather stringent limitations on the formation of such corporations, they do not provide the full protection of the public which the insurance laws are designed to provide. If these professional groups desire to establish such corporations, this can be done under existing statutes and be subject to the normal procedures of the insurance commissioner which protect the public welfare.

With the exception of Sections 1 and 2, which I have vetoed, the remainder of Substitute House Bill No. 1121 is approved.

Respectfully submitted,
DIXY LEE RAY, Governor.

The Speaker (Mr. Amen presiding) declared the House to be at ease until 1:30 p.m.
The Speaker (Mr. Amen presiding) called the House to order.

NEW SECTION. Sec. 118. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION—FOR THE ENVIRONMENTAL EDUCATION PROGRAM
General Fund Appropriation .................................................. $ 576,000

The appropriation contained in this section shall be subject to the following condition or limitation: The revenue from fees received in conjunction with this program shall be retained by educational service district No. 113 for the exclusive support of the Cispus Environmental Education Center.

NEW SECTION. Sec. 119. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION—FOR THE ENCUMBRANCE OF FEDERAL GRANTS
General Fund Appropriation—Federal .................................................. $ 24,221,000

NEW SECTION. Sec. 120. In accordance with this section, the office of financial management shall use the allotment process during the 1979–81 biennium to control the funding of the formula portion of the instruction and departmental research program of all four-year institutions of higher education and the community colleges. For the purposes of the contracts outlined in this section, deviations in the formula entitlements for faculty staffing shall be the controlling factor for the four-year institutions of higher education, while full time equivalent student enrollment will be the controlling factor for the community college system. The provisions of the contract enrollment process will apply to the community college system as a whole. Allocation of the contract enrollment totals to the individual districts is the responsibility of the state board for community college education. For the purpose of this section, the 'contract level' is defined as the level upon which the budget is based, and the 'base level' is defined as the formula entitlement level corresponding to the prior year's actual enrollment level.

The contract enrollment procedure proposed for use during the 1979–81 biennium is:

PLACEMENT OF GROWTH FUNDS IN RESERVE. All growth funds for the four-year institutions shall be reserved at the time of annual allotments. Such reserves shall be released only to the extent that the contract level is achieved based upon the financial management's population studies section projections of full year enrollments based on fall quarter actual experience. If growth fails to materialize, the school is required to revert all unearned growth funds prior to the end of that fiscal year. All growth funds for the community college system shall be controlled by the state board for community college education. Unearned growth funds will be reverted by the state board for community college education to the state general fund prior to the end of the fiscal year in which such growth fails to materialize.

SECOND YEAR CONTRACT RENEGOTIATION. Contract enrollments for the second year of a biennium will be renegotiated in the event the first year's actual faculty entitlement, or FTE student enrollment in the community colleges, falls below the tolerance band.

VARIABLE TOLERANCE BAND FOR UNDER-ENROLLMENT. No fiscal penalty will be assessed if the faculty entitlement generated by a four-year institution, or FTE student enrollment in the community college system, falls within the following tolerance bands:

Nothing in this section shall prevent the governor, through the director of the office of financial management, from authorizing the transfer of appropriation authority for capital projects for the parks and recreation commission, department of fisheries, department of game, department of natural resources, and the interagency committee for outdoor recreation which utilize the following funds: General Fund—ORA (Ref. 28), General Fund—ORA (Ref. 18), General Fund—ORA (Int. 215), and General Fund—ORA (LWCF). The governor, through the director of the office of financial management, may authorize similar transfers which utilize General Fund—ORA (HJR 52) funds, but only with the prior approval of the senate ways and means committee and the house appropriations committee if the legislature is
in session, or the legislative budget committee if the legislature is not in session. Such transfers shall only be made to maximize the use of the funds within the limits of the appropriations.

A report of any transfer effected under this section shall be filed with the legislative auditor by the director of the office of financial management within thirty days of the date the transfer is effected. The legislative auditor shall review and compile these filings and periodically report thereon to the legislative budget committee and the appropriate standing committees of the house and senate.

NEW SECTION. Sec. 221. Agencies shall fill 50% of state general fund supported positions vacated by reason of death, retirement, resignation, termination, or extended leave of absence after the effective date of this act. The director of the office of financial management may authorize the filling of vacant positions at a rate which exceeds the percentage specified in this section if such additional employment is critically necessary to ensure the public health, safety, or welfare of the citizens of the state. The office of financial management shall in conjunction with the department of personnel and the higher education personnel board establish procedures which will result in a system of position control and will cause to be reverted funds not expended as a result of this act.

NEW SECTION. Sec. 222. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 223. This act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect July 1, 1979.*

Mr. O'Brien concluded his remarks against passage of the bill.

POINT OF INQUIRY

Mr. O'Brien yielded to question by Speaker Berentson.

Speaker Berentson: "Representative O'Brien, I just want to know if it's going to hurt when you vote against this budget that contains the tapestries and murals that we've talked about? I know you've wanted to beautify the Chamber."

Mr. O'Brien: "Actually, Speaker Berentson, that's the really only intelligent and good thing about this budget, the fact you've kept the $200,000 in it."

MESSAGE FROM THE SENATE

May 25, 1979

Bill Gleason, Assistant Secretary.

POINT OF PERSONAL PRIVILEGE

Speaker Bagnariol: "I changed my vote from 'No' to 'Aye' as my promise indicated earlier. I do not care for the budget which just passed this House, but in an effort to try to be cooperative and see if we can bring this session to a conclusion, I changed my vote and voted for a budget I didn't care for. There's been a lot of talk about the level of spending on this budget—a lot of rhetoric on the part of the Republicans about a 35% increase over the last biennium and we've passed a budget now that's about 34-some percent increase over the last biennium. I congratulate Representatives Bond and Polk and the other conservatives in the Republican caucus for being really devoted to that kind of level of spending. I think it's perhaps the first time in some of your lives that you've ever had to vote for a budget. In the six years I spent in the minority, I voted almost every session; the Democrats had to join with the Republicans when they were in the majority to get them to get a budget passed. In 1971, there were about eleven Democrats who joined with the Republican majority to help them pass their budget because they could not get the demagogues in their own party to vote for it.

"We now have a budget over in the Senate; they'll look at it over the weekend. Senator Donohue will take a close look at this budget, analyze it and again we'll start talking on Tuesday and see if we can come to some resolve so we can adjourn this session sine die as soon as possible."

POINT OF PERSONAL PRIVILEGE

Speaker Berentson: "I think it should be pointed out that we've been here on this budget procedure now a long time and we've come from a lot of different directions. I recall a couple of months ago when many of you on that side of the aisle were taking the position against full funding for many reasons, many of them were legitimate. I think what has happened here, as time has gone on, is that there was a strong feeling, even among Senators, that maybe if the revenue were going to continue to pour in as it has, even though now it is starting to trail off, that maybe a way to take care of that extra revenue was to move toward full funding. I want to point out that this compromise, as you can see, was a true compromise. There were many people on this side of the aisle who were very unhappy with the prospect of voting for this budget and, had we gone the other way, I think there would have been some people who would have been very unhappy should that have occurred, also.

"I would like to point out that this budget, in general funds, is $80 million below the Governor's level. The Governor saw fit early in the session to defend her level. Sure, there's some inflationary factors that have to be taken into consideration since last December, and, in fairness, we're willing to look at some of those. I would point out that we are doing a couple of things here, again remembering that this does not absolutely close the door on a possible negotiated approach to full funding, but we're $165.9 below the Senate. When we add the employee..."
attrition factor, we think it's good as a factor in excess of $36 million to get to the $202 million. Again, remember we are not doing what the Senate did in taking the 66 million with the one-time property tax shift to fund full funding; we're leaving that in limbo, so you're looking at an overall potential as a working document in excess of $268 million. We consider it a worthwhile effort. We realize that many of you people are not happy with it and some of us over here are not happy with it for various reasons, but we hope the Senate will take a look at this document and perhaps it can be the factor that will lead us to a negotiation that will be fruitful and we can get out of here early next week."

MOTION

On motion of Mr. Polk, the House adjourned until 1:30 p.m., Tuesday, May 29, 1979.

The House resumed consideration of the bill on third reading.

Speaker Berentson stated the question before the House to be the Point of Order raised by Representative Sommers on May 29th.

Speaker Berentson: "The Speaker is going to rule that her point is not well taken."
Mr. Smith (R): "Mr. Speaker, I would like to inquire how it is that a bill that has no appropriation, has no revenue aspect to it, can be ruled in order at this time and be exempt from the cutoff resolution which provides that the House will not consider bills that do not have an appropriation or revenue aspect after the cutoff date?"

Speaker Berentson: "Our rules do state that when a Point of Order is brought before the body, the two speakers must agree. We have agreed that the point is not well taken, and at this point I don't think it will be necessary to go into the question of the revenue aspect."

Speaker Berentson stated the question before the House to be the final passage of Engrossed Senate Bill No. 2466 as amended by the House.

Mr. Smith (R) spoke against passage of the bill, and Representatives Scott and Newhouse spoke in favor of it.

Speaker Berentson declared the House to be at ease until 1:30 p.m.
Speaker Berentson called the House to order.

MESSAGES FROM THE SENATE

May 30, 1979
Sidney R. Snyder, Secretary.

Mr. Speaker:
The President has signed:
HOUSE CONCURRENT RESOLUTION NO. 20,
and the same is herewith transmitted.

May 30, 1979
Sidney R. Snyder, Secretary.

Mr. Speaker:
The President has signed:
SUBSTITUTE SENATE BILL NO. 2308,
SENATE BILL NO. 2508,
SUBSTITUTE SENATE BILL NO. 2744,
SENATE BILL NO. 2763,
SUBSTITUTE SENATE BILL NO. 2976,
SUBSTITUTE SENATE BILL NO. 3126,
SUBSTITUTE SENATE JOINT RESOLUTION NO. 120,
and the same are herewith transmitted.

Speaker Berentson stated the question before the House to be the final passage of Engrossed Senate Bill No. 2644 as amended by the House.

POINT OF INQUIRY

Mr. Newhouse yielded to question by Mr. Tilly.

Mr. Tilly: "Representative Newhouse, since there has been some confusion raised on this bill, would you explain to me and to the body just what it contains presently as amended by the House?"

Mr. Newhouse: "The original committee bill, by error, by misquoting people who could not be at the short hearing we had late in the session, put in the language, 'not provided for in the contract, which delay...'. Those words were stricken by the floor amendment and, in effect, if those words would stay in, my interpretation would be that there would be no reason for the bill. The language which was stricken would, in effect, gut the purpose of the bill."

POINT OF PARLIAMENTARY INQUIRY

Mr. Smith (R): "What is the ruling of the Chair with respect to the amount of time I might have to address this bill?"

Speaker Berentson: "I think I mentioned, Representative Smith, that you could have two minutes to go with the time you took to address the body in your first speech."
POINT OF ORDER

Ms. Sommers: "Mr. Speaker, I would like to have an explanation of that ruling. I do not believe it is consistent with our rules. A Point of Order or Point of Information is one issue and a three-minute speech is a separate issue."

SPEAKER'S RULING

Speaker Berentson: "I would rule, Representative Sommers, that when Representative Smith took the floor he did not raise either a Point of Order or a Point of Inquiry, but did speak in opposition to the bill itself. The first time he rose, he did address the Point of Order, but the second time he spoke against the bill."

Mr. Smith (R) again spoke in opposition to the bill.

POINT OF INQUIRY

Mr. Smith (R) yielded to question by Mr. Pruitt.

Mr. Pruitt: "Representative Smith, in the law as it stands now with no damages for delay cause, in a public works' contract does this preclude a contractor's claim for compensation for specific damages resulting from identifiable cause?"

Mr. Smith (R): "Not if the owner actively interferes with the contractor in the construction process and there is a specific delay. The contractor would be allowed to recover. In specific answer to that question, there has been a court case involving a project in the Port of Tacoma in which the Port of Tacoma did something that added to the cost of the contractor and the court held that because the Port's action was not contemplated by the parties in the contract, not provided for therein, the Port was liable for those additional expenses. So the answer is yes, they would be able to collect in that circumstance."

POINT OF INQUIRY

Mr. Newhouse yielded to question by Mr. Douthwaite.

Mr. Douthwaite: "Representative Newhouse, my question deals with what is the meaning of the language in the bills where it reads, '...rising out of an unreasonable delay in performance...'. I know there are many possible reasons for delay in a contract, for example, bad weather might cause one, changes in the plans, architectural design, and engineering specifications. Would you give us the benefit of your thinking as to what is an unreasonable delay which would cause the contractor to be compensated?"

Mr. Newhouse: "Representative Douthwaite, I'm not sure I'm fully capable of answering that question, but in my opinion, an unreasonable delay would not be a delay of a few days. An unreasonable delay in the cases that have gone to the court have extended into a period of a month or even over a year, and not be caused by bad weather. Those delays should be anticipated by the contractor. The types of unreasonable delays of which we are speaking would usually be a matter of design. Perhaps the architects or engineers find it necessary to change the design to meet unanticipated conditions, which might extend the work time for the contractor for several months and perhaps the contractor would have to have his equipment and machinery and crews idle for that time, which is a substantial cost to that contractor. These are the types of delays of which we speak."

Representatives Douthwaite and Lux spoke against the bill, and Mr. McGinnis spoke in favor of it.

POINT OF INQUIRY

Mr. Smith (R) yielded to question by Mr. Thompson.

Mr. Thompson: "Representative Smith, change orders have been alluded to but not adequately explained, at least as far as my understanding of it. I understand that matters arise that require a reopening of the contract, and if that's so and there is such a process, how is that accomplished?"

Mr. Smith (R): "Earlier Representative Newhouse indicated that what we're talking about here with this bill is delays that are substantial; that take a lot of time to correct, and he mentioned they are usually design or architectural interpretations. Every construction contract—the Association of Architects have a form contract that is most generally used, but every variation of that—has a provision in it so that if there is a change order there has to be
an amendment to the contract. Basically the parties have to look at the change order; the contractor agrees or gives a bid for what it will cost to do that; there are negotiations on the cost of the change order and they agree. It has been done in writing and they go ahead. Then they have a new contract price because there is additional compensation for any change order that requires additional work. The illustration of that, again, is the most recent case of the Nels Mortenson Construction Co. vs. Seattle Group Health. In that case there were some one hundred forty claims by the contractor for additional damages, seventy-eight of which were change orders and the compensation for all of those change orders amounted to almost $600,000. The contractor agreed to do that work for the $600,000, went ahead and did it and five months after completion of construction filed a law suit seeking additional compensation for damages due to delay on those change orders—change orders he had already been paid for. We’re not talking about design errors or corrections or anything like that. In fact, in the Nels Mortenson case, the contractor admitted that all of the errors and discrepancies that resulted in the additional work were corrected by change orders. The point Mr. McGinnis raised about the environmental impact, and so on, where they paid an additional $31,000 to the contractor who was delayed because the contractor had not secured a building permit as required in the contract. He was still paid extra for the delay.*

Mr. Newhouse again spoke in favor of the bill.

ROLL CALL

The Clerk called the roll on the final passage of Engrossed Senate Bill No. 2466 as amended by the House, and the bill passed the House by the following vote: Yeas, 65; nays, 28; not voting, 5.

Engrossed Senate Bill No. 2466 as amended by the House, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

SUBSTITUTE SENATE BILL NO. 2071, by Committee on Transportation (originally sponsored by Senators Henry, Wanamaker and Conner — by Department of Licensing request):

Increasing motor vehicle dealer and manufacturer fees and eliminating restrictions on dealer plates.

The House resumed consideration of the bill on final passage.

Speaker Berentson stated the question before the House to be reconsideration of final passage.

Representatives Martinis and Wilson spoke in favor of the bill, and Mr. Barnes spoke against it.

Mr. Martinis spoke again in favor of passage of the bill.

ROLL CALL

The Clerk called the roll on the final passage of Substitute Senate Bill No. 2071, and the bill passed the House by the following vote: Yeas, 78; nays, 16; not voting, 4.

MOTION

On motion of Mr. Polk, the House reverted to the sixth order of business.

SECOND READING

MOTION

Mr. Sanders moved that the Committee on Revenue be relieved of HOUSE BILL NO. 1182, and the bill be placed on the second reading calendar.

Mr. Sanders spoke in favor of the motion.

POINT OF INQUIRY

Ms. Craswell yielded to question by Mr. Eberle.

Mr. Eberle: "Representative Craswell, as you know I testified in favor of this bill before the Revenue Committee, and very frankly, I've been surprised it has not come before us on the floor of this body. Would you please review the history of House Bill No. 1182 from your perspective as Co-Chairwoman of the Revenue Committee?"

Ms. Craswell: "Yes, Representative Eberle, this bill did have a hearing in the committee. There were people there to testify and it was pointed out by those who testified that the intent of this was to return the surplus revenue to the taxpayers. The Legislature had set tax rates last session to cover the appropriations in the budget they passed but due to the economy we all saw what happened. Those tax rates brought in approximately $400 million more than the Legislature had anticipated and that was $400 million more than we needed, more than we had spent in the budget. Since then we've spent about $50 million of it in the supplemental budget, but we still have about $350 million that was not planned on. The intent of this bill was to bring..."

POINT OF ORDER

Mr. Smith (R): "Representative Craswell is not talking about the history of the bill in the Revenue Committee."

Speaker Berentson: "I think she is being rather careful to reply to the question by Representative Eberle as to what the history of the bill in committee has been. If she will do that and not address the bill itself, we'll let her continue."

Ms. Craswell: "I'd just like to say that a good case was made by those who testified that this money belongs to the taxpayers and should be returned to them. It did not pass out of committee, but I think perhaps it is time we took a second look at the bill for new reasons. We've all seen that as long as there's extra money laying around, the budget just grows and grows to spend all that's available. I think it's time we realize that the best way to hold the budget down is to hold down revenues."

Mr. Eberle spoke in favor of the motion.

POINT OF ORDER

Speaker Bagnariol: "On a motion to remove a bill from committee, the issue of the bill itself is not debatable. I think Representative Eberle is way off base in his remarks regarding what he thinks is a good measure."

Speaker Berentson: "Representative Eberle, would you try to limit your remarks to the motion."

Mr. Eberle continued his remarks in favor of the motion.

POINT OF ORDER

Speaker Bagnariol: "You're on the rostrum. Don't let Representative Eberle get carried away with himself. We all realize he was here once before 1965, but that doesn't give him the privilege..."
Speaker Berentson: "Speaker Bagnariol, make your remarks to your point of order please."

Speaker Bagnariol: "My point of order is that Representative Eberle is violating the rules, and you'd better uphold them."

Speaker Berentson: "Representative Eberle is being very careful as to how he addresses this motion. I assume you were taking a little leeway when you retraced the legislative history of Representative Eberle, also. Please conclude your remarks, Representative Eberle."

Mr. Eberle concluded his remarks in favor of the motion.

POINT OF INQUIRY

Ms. Craswell yielded to question by Mr. Rohrbach.

Mr. Rohrbach: "Representative Craswell, I'm sure this bill was studied in the Revenue Committee as to its fiscal impact. Would you advise me what the impact of this bill would be?"

Ms. Craswell: "Yes, the fiscal impact of the bill as it is, unamended, would be $296.5 million; however, I should point out that for every one-tenth of a cent..."
Ms. Sommers: "One of the questions addressed to me was with regard to the comparison of a budget and this proposed tax cut of about $300 million. You will recall the Republican budget which was voted for and supported by forty-nine Republican members was $100 million different from this proposal. In other words, this proposal is not consistent with the forty-nine Republican votes for a budget, which only leads me to believe that it is more a partisan game because it is apparently not a responsible, consistent proposal. With regard to the action in the committee, we did hear this bill. We had some interesting testimony by a Republican precinct committeeman. There was testimony in favor of bringing this bill out. The bill was defeated on a motion for a do pass, and it was defeated with the help of a couple of Republican 'no' votes. They took the responsible vote, so I would urge you to set aside this partisan game playing and vote no on this motion."

POINT OF INQUIRY

Mr. Nelson (G.A.) yielded to question by Mr. Hastings.

Mr. Hastings: "Representative Nelson, there was some talk by the last speaker regarding estimates and that sort of thing. I wonder if you would relate the present revenue estimates in the House budget that was passed last Friday to the revenue cuts envisioned in House Bill No. 1182?"

Mr. Nelson (G.A.): "Representative Hastings, the estimated available general fund revenues that we're dealing with, based on the latest figures given to me by the Department of Revenue and by the Revenue Committee of the House, indicate that we're looking at approximately $7.2 billion. Of course, the remainder of the budget is, for the most part, federal dollars and local dollars. And this bill, if we were to pass it out of here, would put a big hole in the budget the way it's been spoken to on this floor and in the Senate. You'd have to do something with the budget as seen by this body right now coming from the Senate—either accept it as is or refuse the one-half of one percent to something less—but nonetheless you could take care of that hole by addressing some of the things that we've looked at before when we debated the House budget. It does require some deductions and you're going to end up eliminating such things perhaps, as the overexpenditure in the Jail Commission; or you may want to provide a lower income maintenance grant amount to the State of Washington, taking into consideration we're eighth in the nation now and yet your income for the citizens of the State of Washington is about fifteenth in the country, so you may want to bring these into line. We could do so and save approximately $100 million right there. You could pick up what were proposed reductions in the Senate budget, realizing they are not reductions overall, they are totally increases from the present biennium to the future biennium, but pick up the learning/language disability students under the remediation bill and don't rely so heavily on the handicapped money. You could bring it into focus there with a reduction and you could go with the Senate level on..."  

POINT OF ORDER

Mr. O'Brien: "Is the gentleman answering a question or making a speech?"

Speaker Berentson: "He seems to be answering a question. Representative Nelson, you have ten seconds."

Mr. Nelson (G.A.): "I think probably if you're going to cut, the thing this body considered is the attrition program in the last budget we sent to the Senate, which would, in fact, probably bring us into a position of $37 million to possibly $54 million in reductions. So the measure, House Bill No. 1182, could be addressed by this body and still meet the budget requirements."

Speaker Bagnariol demanded a Call of the House and the demand was sustained.

CALL OF THE HOUSE

The Sergeants at Arms were instructed to lock the doors.

The Clerk called the roll and all members were present except Representatives McDonald and Van Dyken.

NEW SECTION. Sec. 198. FOR THE ARTS COMMISSION—ART WORK ALLOWANCE
In accordance with RCW 43.17.200, all state agencies or departments shall expend, as a nondeductible item, out of any moneys appropriated for the original construction of any state building, an amount of one-half of one percent of the appropriation for the acquisition of works of art which may be an integral part of the structure, attached to the structure, detached within or outside of the structure, or can be exhibited by the agency in other public facilities. In case the amount shall not be required in toto or in part for any project, such unrequired amounts may be accumulated and expended for art in other projects of the agency. For the purpose of this section, ‘building’ does not include highway construction sheds, warehouses, or other buildings of a temporary nature.

NEW SECTION. Sec. 199. The director of general administration shall transfer to the department of social and health services the facility known as Northern State Hospital, along with all attached real estate under the jurisdiction of the department of general administration.

NEW SECTION. Sec. 200. Notwithstanding the provisions of chapter 82, Laws of 1973 1st ex. sess., the house of representatives, the senate, and the permanent statutory committees shall pay expenses quarterly to the department of general administration facilities and services revolving fund for services rendered by the department for operations, maintenance, and supplies relating to buildings, structures, and facilities utilized by the legislature for the biennium beginning July 1, 1979.

NEW SECTION. Sec. 201. The word ‘agency’ used herein means and includes every state government office, officer, each institution, whether educational, correctional, or other, and every department, division, board, and commission, except as otherwise provided in this act.

The phrase ‘agencies headed by elective officials’ used herein means those executive offices or departments of the state which are directly supervised, administered, or controlled by the governor, lieutenant governor, secretary of state, treasurer, auditor, attorney general, superintendent of public instruction, commissioner of public lands, or insurance commissioner, but it does not include those boards, commissions, or committees on which one or more of the above-mentioned officials serve.

NEW SECTION. Sec. 202. In order to carry out the provisions of these appropriations and the state budget, the director of the office of financial management, with the approval of the governor, may:

1. Allot all or any portion of the funds herein appropriated or included in the state budget, to the various agencies by such periods as he shall determine and may place any funds not so allotted in reserve for subsequent allotment: PROVIDED, That the director of the office of financial management shall not alter allotment requests filed with him, nor shall he place in reserve any funds, for the following: Washington State Apple Advertising Commission; Washington State Fruit Commission; Washington Dairy Products Commission or any agricultural commodity commission created under chapter 15.66 RCW; the legislative branch of state government including the legislative budget committee, the statute law committee, and any legislative committee; or the judicial branch of state government: PROVIDED FURTHER, That the aggregate of allotments for any agency shall not exceed the total of applicable appropriations and local funds available to the agency concerned. It shall be unlawful for any officer or employee to incur obligations in excess of approved appropriations or to incur a deficiency and any obligations so made shall be deemed invalid. Nothing in this section or in chapter 328, Laws of 1959, shall prevent revisions of any allotment when necessary to prevent the making of expenditures under appropriations in this act in excess of available revenues;

2. Issue rules and regulations to establish uniform standards and business practices throughout the state service, including regulation of travel by officers and employees and the conditions under which per diem shall be paid, so as to improve efficiency and conserve funds;

3. Prescribe procedures and forms to carry out the above; and

4. Allot funds from appropriations in this act in advance of July 1, 1979, for the sole purpose of authorizing agencies to order goods, supplies, or services for delivery after July 1, 1979: PROVIDED, That no expenditures may be made from the appropriations contained in this act, except as otherwise provided, until after July 1, 1979.

NEW SECTION. Sec. 203. In the event that receipts are less than those appropriated in the budget from any source, expenditures shall be limited to the amount received and allotments made as provided in section 202 of this act. Receipts for purposes of this section include amounts realized within one calendar month following the close of a fiscal period and applicable to expenditures of that period. The amount of such payment shall be credited to and shall be treated for all purposes as having been collected during the fiscal period.

NEW SECTION. Sec. 204. State funds appropriated for the specific purpose of matching federal funds and which are not required wholly or in part to qualify for such federal funds shall be placed in reserve and shall revert to the fund from which appropriated at the end of the respective fiscal year.

NEW SECTION. Sec. 205. Any programs which are supported in whole or in part by federal funds shall not receive any additional state funds for the programs in the event that federal funds are reduced or eliminated for the program.

NEW SECTION. Sec. 206. Unless otherwise provided for by this act with respect to any specific agency, program, or revenue source, any receipts from federal or other sources, or from gifts or grants, in excess of estimates for the budget expenditures as approved by the legislature and which are not otherwise available for general governmental purposes, may be received and allotted by the governor in accordance with RCW 43.79.260 through 43.79.282.

NEW SECTION. Sec. 207. If a scheduled program or project funded by the appropriations contained in this act has not been fully implemented during any quarter of the respective fiscal year, then the office of
financial management shall withhold the equivalent amount of the appropriation and full time equivalent staff years from such program or project and shall place the same in reserve.

NEW SECTION. Sec. 208. Agencies are authorized to make refunds of erroneous or excessive payments and in the case of other refunds, which may be provided by law, without express appropriation therefor.

NEW SECTION. Sec. 209. Whenever allocations are made from the governor's emergency appropriation to an agency which is financed by other than general fund moneys, the director of the office of financial management shall direct the repayment of such allocated amount to the general fund from any balance in the fund or funds which finance such agency. No appropriation shall be necessary to effect such repayment.

NEW SECTION. Sec. 210. In addition to the amounts appropriated in this act for revenue distribution, bond retirement and interest, and interest on registered warrants, there is also appropriated such further amounts as may be required or available for these purposes under any statutory formula or under any proper bond covenant made in accordance with law.

NEW SECTION. Sec. 211. Amounts received by an agency as reimbursements pursuant to RCW 39.34.130 shall be considered as returned loans of materials supplied or services rendered. Such amounts may be expended as a part of the original appropriation of the fund to which it belongs, without further or additional appropriation, subject to conditions and procedures prescribed by the director of the office of financial management, which shall provide for determination of full costs, disclosure of such reimbursements in the governor's budget, maximum interagency usage of data processing equipment and services, and such restrictions as will promote more economical operations of state government without incurring continuing costs beyond those reimbursed.

NEW SECTION. Sec. 212. The chairmen of the senate committee on ways and means and the house appropriations committee shall review monthly reports of state agency expenditures prepared by the legislative evaluation and accountability program and shall advise their respective committee members of substantial deviations from an agency's allotment expenditure plan. The chairmen may request from an agency, or the office of financial management, such information as may be necessary to determine the reasons for such deviations.

NEW SECTION. Sec. 213. The office of financial management shall place in reserve status 3% of the general fund—state appropriations contained in this act. Such moneys shall remain in reserve status and may not be authorized for expenditure through the allotment process in any fiscal quarter unless the governor determines that projected economic conditions warrant additional expenditures: PROVIDED, That for institutions of higher education the requirements of this section are in addition to any enrollment reserve requirements set forth in section 214 of this act.

The provisions of this section shall not apply to sections 34, 38, or 100 of this act.

NEW SECTION. Sec. 214. In accordance with the provisions of this section, the office of financial management shall use the allotment process during the 1979-81 biennium to control the funding of the formula portion of the instruction services program of all the institutions of higher education. For the purpose of the controls outlined in this section, deviations in the formula entitlements for faculty staffing will be the controlling factor for the four-year institutions of higher education while full time equivalent student enrollment will be the controlling factor for the community college system. For the purpose of this section, the 'contract level' is defined as the level upon which the budget is based, and the 'base level' is defined as the level corresponding to the prior year's actual enrollment level. Controls shall be applied to each four-year institution separately and to the community college system as a total entity. 'Growth funding' is defined as that portion of the state general fund appropriation by which the contract level exceeds the base level. Growth funds may be allotted or placed in reserve at the option of the institution or system. Unearned growth funds will be reverted to the state general fund prior to the end of the fiscal year in which such growth fails to materialize. If The Evergreen State College's enrollments for the first year of the biennium exceed the contract level, additional funding will be considered. Olympia Technical Community College shall not become comprehensive and shall offer only courses essential to vocational education. Expenditures shall be authorized for the rental of off-campus classroom facilities by community college district number twelve when such rentals would not reduce the current utilization of facilities already constructed on either of its campuses.

Reversions are not required when an institution's faculty formula entitlement as generated by actual enrollment, or in the case of the community colleges the actual annual average full time equivalent student enrollment, is within a set range of the contracted level. The allowable tolerances are as follows: University of Washington, Washington State University, and the community colleges as a system, 1 percent; Central Washington University, Eastern Washington University, and Western Washington University, 2 percent; and The Evergreen State College, 3 percent.

Contract enrollments for the second year of the biennium will be renegotiated if the first year's actual enrollment falls below the base level of the first year of the biennium.

NEW SECTION. Sec. 215. Real property leases with purchase options are prohibited without prior legislative approval.

NEW SECTION. Sec. 216. It is the expressed intention of the legislature that agency operational activity shall be regularly monitored by the office of financial management, under its statutory authority relating to the allotment control function, in order to limit fluctuations in the respective fiscal year spending patterns which tend to inflate the expenditures in the second fiscal year of the biennium. Particular control emphasis shall be placed on those instances in which the full time equivalent staff years authorization is deliberately delayed in order to increase the agency's full time equivalent staff years as substantiation for the
second fiscal year of the ensuing biennial request. Unanticipated receipts, which are authorized by the governor and expended by any state agency, shall be allotted, monitored, and controlled.

NEW SECTION. Sec. 217. The superintendent of public instruction and the director of the state board for community college education, in conjunction with the director of the office of financial management, shall develop rules and regulations directing placement of local educational units' employees with nonstandard teaching certificates on the state-wide education and experience schedules.

NEW SECTION. Sec. 218. Any rate increases proposed for the legal services revolving fund or the general administration facilities and services revolving fund, or any change in the method of calculating changes from those funds, shall be subject to approval by the director of the office of financial management prior to implementation.

NEW SECTION. Sec. 219. To obtain maximum interagency use of aircraft, the aeronautics division in the department of transportation, in accordance with chapter 39.34 RCW, is hereby authorized to lease, purchase, or otherwise acquire suitable aircraft which shall be utilized for the purposes of the department of transportation and also by other state agencies which have a need for an aircraft to carry out agency assigned responsibilities: PROVIDED, That the department of transportation is further authorized to enter into contractual agreements with other state agencies in order to acquire aircraft, establish rental rates for aircraft under their control, provide pilot services, aircraft maintenance, and make such other provisions as necessary to provide aircraft and related services for multi-agency use: PROVIDED FURTHER, That in order to achieve economy in the use of the appropriations contained within this act, no state agency may purchase or otherwise acquire an aircraft or enter into a flying service or aircraft rental contract without first seeking such service from the department of transportation and without prior approval of the director of the office of financial management.

NEW SECTION. Sec. 220. If any part of this act shall be found to be in conflict with federal requirements which are a prescribed condition to the allocation of federal funds to the state, such conflicting part of this act is hereby declared to be inoperative solely to the extent of such conflict, and such finding or determination shall not affect the operation of the remainder of this act; the rules and regulations under this act shall meet federal requirements which are a necessary condition to the receipt of federal funds by the state.

NEW SECTION. Sec. 221. State agencies shall not receive or make a contractual agreement to receive any donation of real property or an interest therein which commits the agency to assume on a current basis any donation of real property or an interest therein which commits the agency to assume on a current basis.

NEW SECTION. Sec. 222. Any capital improvements or capital project involving construction or major expansion of a state office facility, to include district headquarters, detachment offices, and off-campus faculty offices shall be reviewed by the department of general administration for possible consolidation and any donation of real property or an interest therein which commits the agency to assume on a current basis.
The governor, through the director of the office of financial management, may authorize certain projects; designating effective dates for certain appropriations; authorizing expenditures for the operations of state agencies for the fiscal biennium beginning July 1, 1979. •

capital improvements; authorizing certain projects; designating effective dates for certain appropriations; authorizing expenditures for the operations of state agencies for the fiscal biennium

The governor, through the director of the office of financial management, may authorize certain projects; designating effective dates for certain appropriations; authorizing expenditures for the operations of state agencies for the fiscal biennium beginning July 1, 1979. •

capital improvements; authorizing certain projects; designating effective dates for certain appropriations; authorizing expenditures for the operations of state agencies for the fiscal biennium beginning July 1, 1979. •

appropriations and authorizing expenditures for the operations of state agencies for the fiscal biennium beginning July 1, 1979, and ending June 30, 1981; making appropriations and authorizing expenditures for capital improvements; authorizing certain projects; designating effective dates for certain appropriations; providing an effective date; and declaring an emergency.

NEW SECTION. Sec. 224. Expenditure of moneys appropriated by section 174 of this act shall be made in consultation with the prior approval of the state capitol committee in accordance with the provisions of chapter 79.24 RCW. In addition, the department of general administration shall consult with and obtain the approval of the joint legislative committee on capitol facilities prior to expenditure of moneys appropriated by this section on projects involving capitol buildings occupied wholly or in part by the legislature.

NEW SECTION. Sec. 225. To effectively carry out the provisions of this act, the governor may assign responsibility for planning, engineering, construction, and other related activities to any appropriate agency.

NEW SECTION. Sec. 226. Reappropriations shall be limited to the unexpended balances remaining June 30, 1979, in the current appropriation for each project.

NEW SECTION. Sec. 227. Notwithstanding any other provisions of law, for the 1981–83 biennium, state treasurer transfers of reimbursement to the general fund from the community college capital projects account for debt service payments made under the provisions of Title 28B RCW shall occur only after such debt service payment shall have been made and only to the extent that funds are actually available in the account. Any unpaid reimbursements shall be a continuing obligation against the community college capital projects account until paid. Beginning with the 1979–81 biennium, the state board for community college education need not accumulate any specific balance in the community college capital projects account in anticipation of transfers to reimburse the general fund.

NEW SECTION. Sec. 228. The governor, through the director of the office of financial management, may authorize a transfer of appropriation authority provided for a capital project which is in excess of the amount required for the completion of such project to another capital project for which the appropriation is insufficient. No such transfer shall be used to expand the capacity of any facility beyond that intended by the legislature in making the appropriation. Such transfers may be effected only between capital appropriations to a specific department, commission, agency, or institution of higher education and only between capital projects which are funded from the same fund or account.

Nothing in this section shall prevent the governor, through the director of the office of financial management, from authorizing the transfer of appropriation authority for capital projects for the parks and recreation commission, department of fisheries, department of game, department of natural resources, and the interagency committees for outdoor recreation which utilize the following funds: General Fund—ORA (Ref. 28), General Fund—ORA (Ref. 18), General Fund—ORA (Int. 215), and General Fund—ORA (LWCF).

The governor, through the director of the office of financial management, may authorize similar transfers which utilize General Fund—ORA (HJR 52) funds, but only with the prior approval of the senate ways and means committee and the house appropriations committee if the legislature is in session, or the legislative budget committee if the legislature is not in session. Such transfers shall only be made to maximize the use of the funds within the limits of the appropriations.

A report of any transfer effected under this section shall be filed with the legislative auditor by the director of the office of financial management within thirty days of the date the transfer is effected. The legislative auditor shall review and compile these filings and periodically report thereon to the legislative budget committee and the appropriate standing committees of the house and senate.

NEW SECTION. Sec. 229. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 230. This act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect July 1, 1979.

On page 1, line 1 of the title after "budget;" strike the remainder of the title and insert "making appropriations and authorizing expenditures for the operations of state agencies for the fiscal biennium beginning July 1, 1979, and ending June 30, 1981; making appropriations and authorizing expenditures for capital improvements; authorizing certain projects; designating effective dates for certain appropriations; providing an effective date; and declaring an emergency."
and the same is herewith transmitted.

Bill Gleason, Assistant Secretary.

MOTION

On motion of Mr. Thompson, the House concurred in the Senate amendments to Engrossed House Bill No. 516.

FINAL PASSAGE OF HOUSE BILL AS AMENDED BY SENATE

The Speaker (Mr. O'Brien presiding) stated the question before the House to be the final passage of Engrossed House Bill No. 516 as amended by the Senate.

Mr. King demanded an oral roll call, and the demand was sustained.

Representatives Taller and Nelson (G.A.) spoke against passage of the bill.

ROLL CALL

The Clerk called the roll on the final passage of Engrossed House Bill No. 516 as amended by the Senate, and the bill passed the House by the following vote: Yeas, 50; nays, 47; not voting, 1.

Not voting: Representative Taylor.

Engrossed House Bill No. 516 as amended by the Senate, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

POINT OF PERSONAL PRIVILEGE

Speaker Berentson: "I don't think I need to say how painful the vote I cast on behalf of our caucus really is to us. We have many people in our caucus who would have preferred to sit tight as the Senate had decided to do, and to ignore all efforts of any possible negotiations, but I think it had to come to the time where we were going to break the deadlock and the vote had to be given. Frankly, the people of the state are the losers. I don’t think, in my recollection, I have ever witnessed such an uncompromising, dictatorial or arrogant attitude as was displayed by the Senate Democrats. By the way, I feel you people have to take some responsibility because you acquiesced to their demands by going along with them.

"It’s also very disappointing to us to see a governor who would like to paint a picture of a fiscal conservative, who did a complete turn-around on this level of spending. We were invited to have a talk with her some time ago. We had, what we thought was a reasonable request and we asked her if she would be willing to run that budget with a reasonable inflation rate through the computer, and she said she would be glad to do that. Then someone got to her within the next day and that hasn’t occurred even to this day. I don’t think I need to point out that this budget is so much higher than her original budget request that, in our opinion, there can be no relationship whatsoever, but yet she sits firmly and has now decided that she is willing to spend all of the revenue that will be available to this State for the next two years.

"If anything good has transpired, it might be that the Senate Democrats did take our budget and used it to clean up some of the bad language and some of the problems that would have created administrative nightmares and maybe that is a plus. We just cannot believe that they did hold fast; they did reduce the $3.7 million, which was the amount that was added when the so-called compromise occurred between the House and the Senate Democrats. The system may have benefited in another way. I don’t think the people in the State of Washington will accept a completely different budget, for the next two years, and that is the reason why we are voting against this.
hope the people of our State are not the losers as they face the consequences with possible tax
increases if we do get the economic downturn many people are predicting.

POINT OF INQUIRY

Mr. Zimmerman yielded to question by Mr. Lux.

Mr. Lux: "Representative Zimmerman, all these bonds make me a little nervous and I'm looking at this sheet here, and it says, 'the $10 million appropriation for...,' and I'm reading the description of this, and it sounds like it's the same thing as the $125 million? Are they different?"

Mr. Zimmerman: "This particular bill is an extension of Referendum 27 which will have a sunset clause in June 1981. That's when the other measure will take effect if it is approved this fall by the voters, so it's simply to continue the projects or go ahead with projects that have already been approved and that just need the funding between now and 1981. It's cut off at that time."

Mr. Lux: "This is not within the budget now? Is the $10 million outside the budget we just passed?"

Mr. Zimmerman: "It's not included in the budget."

Mr. Barr spoke in favor of the amendment, and it was adopted.

On motion of Mr. Van Dyken, the following amendments were adopted:

On page 4, after line 16 insert the following:

The court, after hearing, is authorized to make an order fixing the water level thereof except during that period when it is ordered to be lowered for weed control and other similar purposes and directing the supervisor to regulate the outflow therefrom in accordance with the purposes described in the petition. This section shall not apply to any [(amended)] lake or reservoir used for the storage of water for irrigation or other beneficial purposes, or to lakes navigable from the sea.'

SENATE AMENDMENTS TO HOUSE BILL

May 9, 1979

Mr. Speaker:

The Senate has passed SUBSTITUTE HOUSE BILL NO. 56 with the following amendments:

On page 1, strike everything after the enacting clause and insert the following:

NEW SECTION. Section 1. The legislature finds that local governmental entities in this state are experiencing a trend of vastly increased insurance premiums for the renewal of identical insurance policies, that fewer insurance carriers are willing to provide local governmental entities with insurance coverage, and that some local governmental entities are unable to obtain desired insurance coverage.

It is the intent of this legislation to clearly provide for the authority of local governmental entities to individually self-insure, purchase individual insurance coverage, and obtain risk management services. It is also the intent of this legislation to grant local governmental entities the maximum flexibility to enter into agreements with each other to provide joint programs, which include programs for the joint purchasing of insurance, joint self-insuring, and joint contracting for or hiring personnel to provide risk management services.

NEW SECTION. Sec. 2. As used in sections 1 through 12 of this act, the term 'local governmental entity' shall mean every unit of local government, both general purpose and special purpose, and shall include, but not be limited to, counties, cities, towns, port districts, public utility districts, water districts, sewer districts, school districts, fire protection districts, irrigation districts, metropolitan municipal corporations, conservation districts, and other political subdivisions, governmental subdivisions, municipal corporations, and quasi municipal corporations.

NEW SECTION. Sec. 3. The governing body of any local governmental entity may, as an alternative or in addition to the establishment of a self-insurance fund or the purchasing of insurance, contract for or hire personnel to provide risk management services. Funds made available and funds expended by school districts and educational service districts for the purpose of implementing any provision of sections 1 through 12 of this act or RCW 36.16.138 shall be subject to such rules of the superintendent of public instruction as the superintendent may adopt governing the budgeting and accounting of such funds.

NEW SECTION. Sec. 4. The governing body of any one or more local governmental entities may, as an alternative or in addition to exercising any one or more of the powers granted in section 3 of this act and RCW 36.16.138, as now or hereafter amended, or any other provision of law, form together into or join a pool or organization for the joint purchasing of insurance, and/or joint self-insuring, and/or joint hiring or contracting for risk management services to the same extent that they may individually purchase insurance, self-insure, or hire or contract for risk management services: PROVIDED, That no organization of local governmental entities that is organized under section 4 of this act for the purpose of self-insuring shall provide any self-insurance other than liability insurance. For purposes of this section, liability insurance shall include but not be limited to coverage for claims arising from the tortious or negligent conduct of the local government entity, its officers, employees, or agents thereof, or any error or omission on the part of said local government entity. The agreement to form such a pooling arrangement shall be made under chapter 39.34 RCW.

Any pool or organization authorized to be formed by this section shall be subject to audit by the state auditor.

NEW SECTION. Sec. 5. Prior to the establishment of a joint self-insurance pool by any organization of local governmental entities that is organized under section 4 of this act for the purpose of self-insuring through a contributing trust, approval of the establishment of such self-insurance pool shall be obtained from the state risk manager pursuant to RCW 43.19.19362 in accordance with the following procedure:

(i) A proposed plan of organization and operation, including the following elements shall be submitted:
   (a) A financial plan specifying:
      (i) The coverage to be offered by the self-insurance pool, setting forth the deductible level and the maximum level of claims which the pool will self-insure;
      (ii) The amount of cash reserves to be set aside for the payment of claims;
      (iii) The amount of insurance to be purchased over and above the amount of claims to be satisfied directly from the organization's resources;
(iv) The amount of stop-loss coverage to be purchased in the event that the joint self-insurance pool’s resources are exhausted in a given fiscal period; and

(v) Certification that the participating local governmental entities in the self-insurance pool are apprised of the limitations of coverage provided and the availability of additional coverage which may be purchased individually by the participants in the pool;

(b) A plan of management setting forth the means of fulfilling the requirements of section 9(1) of this act, the means of establishing the governing authority of the organization, and the frequency of actuarial studies to establish the periodic contribution rates for each of the participants; and

(c) A plan specifying the conditions and responsibilities of the participants, including procedures for entry into and withdrawal from the pool and the allocation of contingent liabilities pursuant to section 6 of this act.

(2) Within sixty days after receipt of the aforementioned plan, the state risk manager shall determine whether the organization proposing to create a joint self-insurance pool has complied with the procedures and provisions contained in section 5(1) of this act, and has made provision for professional management of the joint self-insurance pool pursuant to section 9(1) of this act, and has provided for the insurance coverages required in section 9 (2) and (3) of this act, and that participants in the proposed joint self-insurance pool have been informed of the deductibles and limitations established pursuant to section 9(4) of this act. If the state risk manager determines that these criteria have been met, he shall approve the plan of operation of the proposed joint self-insurance pool, and such organization shall be authorized to commence operation.

(3) If approval is denied, the state risk manager shall specify in detail the reasons for denial and the manner in which the proposed joint self-insurance pool fails to meet the requirements of this section and section 9 (1) through (4) of this act and make comments and suggestions as to means by which such deficiencies could be corrected. The provisions of RCW 34.04.090 shall apply with regard to such basis for denial and a review thereof. If the risk manager fails to act within the time limit established in subsection (2) of this section the plan of operation of the proposed joint self-insurance pool shall be deemed approved.

NEW SECTION. Sec. 6. Any organization of local governmental entities that is organized under section 4 of this act which is established for the purpose of jointly self-insuring may, pursuant to section 8 of this act, be invested only in the following classes of securities and investments:

(1) Savings or time accounts in banks, trust companies, and mutual savings banks which are doing business in this state, up to the amount of insurance afforded such accounts by the federal deposit insurance corporation;

(2) Accounts in savings and loan associations which are doing business in this state, up to the amount of insurance afforded such accounts by the federal savings and loan insurance corporation;

(3) Certificates, notes, bonds, or other obligations or securities of the United States or any of its agencies, or of any corporation wholly owned by the government of the United States;

(4) Federal home loan bank notes and bonds, federal land bank bonds, and federal national mortgage association notes, debentures, and guaranteed certificates of participation, or the obligations of any other government-sponsored corporation whose obligations are or may become eligible as collateral for advances to member banks as determined by the board of governors of the federal reserve system;

(5) Direct and general obligation bonds and warrants of the state of Washington or any other state of the United States;

(6) Direct and general obligation bonds and warrants of any local governmental entity of this state having the power to levy general taxes which are payable from general ad valorem taxes;

(7) Revenue bonds of this state or any authority, board, commission, committee, or similar agency thereof;

(8) Motor vehicle fund warrants when authorized by agreement between the state finance committee and the state transportation commission requiring repayment of invested funds from any moneys in the motor vehicle fund available for state highway construction; and

(9) Bonds, securities, and obligations which are designated to be authorized security for all public deposits pursuant to RCW 35.58.510, 35.81.110, 35.82.220, 39.60.030, 39.60.040, and 54.24.120.

NEW SECTION. Sec. 8. Any organization of local governmental entities that is organized under section 4 of this act which is established for the purpose of jointly self-insuring may invest all or a portion of its assets by one or more of the following methods:

(1) Directly invest such assets itself; or

(2) Deposit such assets with the treasurer of any county within whose territorial limits any of its member local governmental entities lies to be invested by such treasurer for the organization.

NEW SECTION. Sec. 9. Any organization of local governmental entities that is organized under section 4 of this act which elects to provide pooled self-insurance shall satisfy the following requirements:
(1) Contract with a professional insurance management corporation or otherwise provide for the management and operation of any joint self-insurance pool established by the organization;
(2) Provide for umbrella coverage for the participating local governmental entities;
(3) Provide insurance coverage for those claims which the organization plans to jointly self-insure, such coverage to be effective only in the event of the exhaustion of the joint self-insurance pool's resources for a given fiscal period;
(4) Establish deductibles and/or limits to any coverage that is provided; and
(5) Provide an annual report of the operations of the organization to the participating entities, the state risk manager, and the state insurance commissioner.

NEW SECTION. Sec. 10. Any organization of local governmental entities that is organized under section 4 of this act shall have the flexibility to perform its functions and at its option may, if such functions and actions are within its purview as established by the agreement or contract adopted pursuant to chapter 39.34 RCW that lists the powers and functions of the organization, do any of the following:

(5) Possess any other powers and perform all other functions reasonably necessary to carry out the purposes of this chapter.

NEW SECTION. Sec. 11. Any organization of local governmental entities that is organized under section 4 of this act may provide for private meetings to consider litigation and settlement of claims when it appears that public discussion of these matters would impair the organization's ability to conduct its business effectively.

Notwithstanding any provision to the contrary contained in the public disclosure act, chapter 42.17 RCW, in a claim or action against the state or any local governmental entity, no person shall be entitled to discover that portion of funds or liability reserve established for purposes of satisfying a claim or cause of action, except that the reserve is discoverable in any supplemental or ancillary proceeding to enforce a judgment.

NEW SECTION. Sec. 12. The provisions of RCW 48.30.140 and 48.30.150 shall not be construed in such a manner as to prevent any local governmental entity or organization of local government entities that is organized under section 4 of this act from engaging or contracting with an insurance agent or broker to purchase or obtain insurance on a fee basis.

Sec. 13. Section .01.05, chapter 79, Laws of 1947 as amended by section 1, chapter 13, Laws of 1975-'76 2nd ex. sess. and RCW 48.01.050 are each amended to read as follows:

Two or more local governmental entities, as defined in section 2 of this 1979 act, which pursuant to section 4 of this 1979 act or any other provision of law join together and organize to form an organization for the purpose of jointly self-insuring shall not be deemed an 'insurer' under this code.

Allocations to school districts of state funds provided by RCW 28A.47.800 through 28A.47.811 shall be made by the state board of education and the amount of state assistance to a school district in financing a school plant project shall be determined in the following manner:

(1) The boards of directors of the districts shall determine the total cost of the proposed project, which cost may include the cost of acquiring and preparing the site, the cost of constructing the building or of acquiring a building and preparing the same for school use, the cost of necessary equipment, taxes chargeable to the project, necessary architects' fees, and a reasonable amount for contingencies and for other necessary incidental expenses: PROVIDED, That the total cost of the project shall be subject to review and approval by the state board of education.

(2) The state matching percentage for a school district shall be computed by the following formula:

**Further:** The percentage of state assistance to any such school district shall be based upon the formula in this subsection in effect at such time a district's bond issue for any such specific project was approved by the voters.

(3) In addition to the computed percent of state assistance developed in (2) above, a school district shall be entitled to additional percentage points determined by the average percentage of growth for the past three years. One percent shall be added to the computed percent of state assistance for each percent of growth, with a maximum of twenty percent.

(4) The approved cost of the project determined in the manner herein prescribed times the percentage of state assistance derived as provided for herein shall be the amount of state assistance to the district for the financing of the project. Provided, that need therefor has been established to the satisfaction of the state board of education. Provided, further, that additional state assistance may be allowed if it is found by the state board of education that such assistance is necessary in order to meet (a) a school housing emergency resulting from the destruction of a school building by fire, the condemnation of a school building by properly constituted authorities, a sudden excessive and clearly foreseeable future increase in school population, or other conditions similarly emergent in nature; or (b) a special school housing burden imposed by virtue of the admission of nonresident students into educational programs established, maintained and operated in conformity with the requirements of law; or (c) a deficiency in the capital funds of the district resulting from financing, subsequent to April 1, 1969, and without benefit of the state assistance provided by prior state assistance programs, the construction of a needed school building project or projects approved in conformity with the requirements of such programs, after having first applied for and been denied state assistance because of the inadequacy of state funds available for the purpose, or (d) a need for the construction of a school building to provide for improved school district organization or racial balance, or (f) conditions similar to those defined under (a), (b), (c), (d) and (e) hereinabove, creating a like emergency.

May 31, 1979

Mr. Speaker:

The Senate has passed ENGROSSED SUBSTITUTE SENATE BILL NO. 2709 as amended by the House.

Bill Gleason, Assistant Secretary.

SECOND READING

ENGROSSED SUBSTITUTE SENATE BILL NO. 2505, by Committee on Ways and Means (originally sponsored by Senators Donohue, Marsh, Day, Walgren, Ridder and Goltz – by Executive request):

- Authorizing a bond issue for jail facilities.

The bill was read the second time.

Mr. Schmitten moved adoption of the committee amendments.

On motion of Mr. Blair, the following amendment by the Committee on Appropriations to the Institutions Committee amendment was adopted: On page 9 of the amendment, line 30 strike "four hundred three thousand dollars" and insert "three hundred sixty thousand dollars"

On motion of Ms. Becker, the following amendment by Representatives Becker and Strutters to the committee amendment was adopted:

On page 9 of the committee amendment immediately following line 27 strike new sections 21 and 22 and renumber the remaining sections consecutively.

The Speaker (Mr. Polk presiding) stated the question before the House to be the committee amendment as amended.
Mr. Struthers spoke in favor of the amendment.

POINT OF INQUIRY

Mr. Struthers yielded to question by Mr. Amen.

Mr. Amen: "Regarding your comment on full funding, say one unit gets $3 million; is that all they can spend on that or could the local governing unit put more in on it if they wanted to?"

Mr. Struthers: "It would be my understanding, Representative Amen, that the plans submitted to the Jail Commission requesting funds by a county entity, the amount stated and the amount funded, is full funding. Any amount over that the county may spend; the county would be expending its own money and not the state’s money."

Mr. Amen: "They could then spend more money than the Jail Commission has allocated?"

Mr. Struthers: "They could spend their own funds."

POINT OF INQUIRY

Mr. Struthers yielded to question by Mr. Patterson.

Mr. Patterson: "Representative Struthers, I have heard that there has been some discussion that jails that have been built and funded by local governmental units to date which meet the specifications could be eligible to have some reimbursement through this bill. Is that true or not?"

Mr. Struthers: "Representative Patterson, I cannot answer that."

Mr. Patterson: "Does the bill speak only to those facilities that would be designed under the Jail Standards Act of the funding for those that are not now under construction or have been built under those standards previous to the passage of this act?"

Mr. Struthers: "What you’re referring to is a jail that is currently under construction?"

Mr. Patterson: "Yes."

Mr. Struthers: "I don’t know of anything that is currently under construction. Perhaps I can better identify your question by saying that those counties will be prioritized as to their needs by the Jail Commission, and then they will take the dollars at the top and work down through that list. They have $106 million with which to do that."

Mr. Patterson: "What is the intent of those of you who worked extensively on this bill? Is it your intent that you will, out of the proceeds of this fund, fund only those new facilities that would be planned and constructed from this point on?"

Mr. Struthers: "Yes. These have already been previously identified. There was a list and my understanding is that the list will be changed; that there is no list at this point in existence identified. Naturally those jails that are under a lawsuit would certainly place very high on the priority list."

The committee amendment as amended was adopted.

Ms. Becker moved adoption of the committee amendment to the title of the bill.

On motion of Ms. Becker, the following amendment to the title amendment was adopted:

On page 10, line 3 of the title amendment strike “making appropriations;”

The committee amendment to the title as amended was adopted.

On motion of Mr. Dunlap, the rules were suspended, the second reading considered the third, and Engrossed Substitute Senate Bill No. 2505 as amended by the House was placed on final passage.

Representatives Deccio, Becker, Blair, Newhouse and Thompson spoke in favor of the bill.

POINT OF INQUIRY

Ms. Becker yielded to question by Mr. Barr.

Mr. Barr: "Representative Becker, I understand the so-called jail bond bill, in essence, is a jail bill to quite a degree, and in this I understand that we will be adopting the facilities and custodial care standards. Will the commission have some flexibility in applying those custodial care standards?"

Ms. Becker: "Yes, it is my understanding that they will have some flexibility."

Mr. Lux spoke against passage of the bill.

Mr. Vrooman spoke in favor of the motion, and Mr. Warnke spoke against it.

POINT OF ORDER

Mr. Wilson: "I believe the speaker is speaking to the issue and not to the motion."

The Speaker (Mr. Polk presiding): "Representative Warnke, you were straying a little far. Try to confine your remarks to the motion."

Mr. Warnke continued his remarks against the motion, and Mr. Martinis spoke in favor of it.
POINT OF ORDER

Mr. Warnke: "Mr. Speaker, I think the gentleman is speaking to the issue and not to the motion."

The Speaker (Mr. Polk presiding): "I think Representative Martinis agrees with you and will try to restrain himself."

Mr. Martinis concluded his remarks in favor of the motion.

Speaker Berentson assumed the Chair.

Mr. Wilson spoke in favor of the motion, and Mr. Vrooman again spoke for it.

POINT OF ORDER

Mr. Warnke: "The gentleman again is speaking to the contents of the bill and what it does or does not do, and is not speaking to the motion to place it on the calendar."

Speaker Berentson: "Representative Warnke, I'm sure you want to be fair to Representative Vrooman. Representative Vrooman, please conclude your remarks in the next two minutes and be as careful as possible."

Mr. Vrooman concluded his remarks in favor of the motion.

The Senate has passed ENGROSSED SUBSTITUTE HOUSE BILL NO. 554 with the following amendment:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Section 1. The legislature finds that domestic violence is an issue of growing concern at all levels of government and that there is a present and growing need to develop innovative strategies and services which will ameliorate and reduce the trauma of domestic violence. Research findings show that domestic violence constitutes a significant percentage of homicides, aggravated assaults, and assaults and batteries in the United States. Domestic violence is a disruptive influence on personal and community life and is often interrelated with a number of other family problems and stresses. Shelters for victims of domestic violence are essential to provide protection to victims from further abuse and physical harm and to help the victim find long-range alternative living situations, if requested. Shelters provide safety, refuge, advocacy, and helping resources to victims who may not have access to such things if they remain in abusive situations.

The legislature therefore recognizes the need for the state-wide development and expansion of shelters for victims of domestic violence.

NEW SECTION. Sec. 2. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) 'Shelter' means a place of temporary refuge, offered on a twenty-four hour, seven day per week basis to victims of domestic violence and their children.
(2) 'Domestic violence' is a categorization of offenses, as defined in section 2, chapter 105, Laws of 1979 1st ex. sess., committed by one cohabitant against another.
(3) 'Department' means the department of social and health services.
(4) 'Victim' means a cohabitant who has been subjected to domestic violence.
(5) 'Cohabitant' means a person who is married or who is cohabiting with a person of the opposite sex like husband and wife at the present or at sometime in the past. Any person who has one or more children in common with another person, regardless of whether they have been married or lived together at any time, shall be treated as a cohabitant.

NEW SECTION. Sec. 3. The department of social and health services, in consultation with individuals or groups having experience and knowledge of the problems of victims of domestic violence, shall:

(1) Establish minimum standards for shelters applying for grants from the department under this chapter. Classifications may be made dependent upon size, geographic location, and population needs;
(2) Receive grant applications for the development and establishment of shelters for victims of domestic violence;
(3) Distribute funds, within forty-five days after approval, to those shelters meeting departmental standards;
(4) Evaluate biennially each shelter receiving departmental funds for compliance with the established minimum standards; and
(5) Review the minimum standards each biennium to ensure applicability to community and client needs.

NEW SECTION. Sec. 4. Minimum standards established by the department under section 3 of this act shall ensure that shelters receiving grants under this chapter provide services meeting basic survival needs, where not provided by other means, such as, but not limited to, food, clothing, housing, safety, security, client advocacy, and counseling. These services shall be problem-oriented and designed to provide necessary assistance to the victims of domestic violence and their children.

NEW SECTION. Sec. 5. The department shall contract, where appropriate, with public or private nonprofit groups or organizations with experience and expertise in the field of domestic violence to:

(1) Develop and implement an educational program designed to promote public and professional awareness of the problems of domestic violence and of the availability of services for victims of domestic violence. Particular emphasis should be given to the education needs of law enforcement agencies, the legal system, the medical profession, and other relevant professions that are engaged in the prevention, identification, and treatment of domestic violence;
(2) Maintain a directory of temporary shelters and other direct service facilities for the victims of domestic violence which is current, complete, detailed, and available, as necessary, to provide useful referral services to persons seeking help on an emergency basis;
(3) Create a state-wide toll-free telephone number that would provide information and referral to victims of domestic violence;
(4) Provide opportunities to persons working in the area of domestic violence to exchange information; and
(5) Provide training opportunities for both volunteer workers and staff personnel.

NEW SECTION. Sec. 6. The department shall prepare an annual report to the legislature which shall include but not be limited to:

(1) Data reflecting the geographic incidence of domestic violence in the state, indicating the number of cases officially reported as well as an assessment of the degree of unreported cases;
(2) The number of persons and relevant statistical data, where possible, of persons treated or assisted by shelters receiving state funds; and
(3) A listing of potential and feasible prevention efforts, the estimated cost of providing the prevention services, and the projected benefits of providing the services.
The department may contract, where applicable, for the information required by this section.
NEW SECTION. Sec. 7. Shelters receiving state funds under this chapter shall:
(1) Make available shelter services to any person who is a victim of domestic violence and to that person's children;
(2) Encourage victims, with the financial means to do so, to reimburse the shelter for the services provided;
(3) Recruit, to the extent feasible, persons who are former victims of domestic violence to work as volunteers or staff personnel. An effort shall also be made to provide bilingual services;
(4) Provide prevention and treatment programs to victims of domestic violence, their children and, where possible, the abuser;
(5) Provide a day program or drop-in center to assist victims of domestic violence who have found other shelter but who have a need for support services.
NEW SECTION. Sec. 8. The department shall consult in all phases with persons and organizations having experience and expertise in the field of domestic violence.
NEW SECTION. Sec. 9. The department is authorized, under this chapter and the rules adopted to effectuate its purposes, to make available grants awarded on a contract basis to public or private nonprofit agencies, organizations, or individuals providing shelter services meeting minimum standards established by the department. Consideration as to need, geographic location, population ratios, and the extent of existing services shall be made in the award of grants. The department shall provide technical assistance to any nonprofit organization desiring to apply for the contracts if the organization does not possess the resources and expertise necessary to develop and transmit an application without assistance.
NEW SECTION. Sec. 10. Fifty percent of the funding for shelters receiving grants under this chapter must be provided by one or more local, municipal, or county source, either public or private. Contributions in-kind, whether materials, commodities, transportation, office space, other types of facilities, or personal services, may be evaluated and counted as part of the required local funding.
The department shall seek, receive, and make use of any funds which may be available from federal or other sources in order to augment state funds appropriated for the purpose of this chapter, and shall make every effort to qualify for federal funding.
NEW SECTION. Sec. 11. General assistance or aid to families with dependent children payments shall be made to otherwise eligible individuals who are residing in a secure shelter, a housing network or other shelter facility which provides shelter services to persons who are victims of domestic violence. Provisions shall be made by the department for the confidentiality of the shelter addresses where victims are residing.
NEW SECTION. Sec. 12. A shelter shall not be held liable in any civil action for denial or withdrawal of services provided pursuant to the provisions of this chapter.
NEW SECTION. Sec. 13. There is appropriated from the general fund to the department of social and health services for the 1979–1981 biennium the sum of one million dollars, or so much as may be necessary, to carry out the purposes of this act. Seven hundred thousand dollars of the amount appropriated shall be used for grants to shelters under section 9 of this act. The remaining three hundred thousand dollars shall be used to fund sections 3, 5, and 6 of this act.
NEW SECTION. Sec. 14. Sections 2 through 12 of this act shall constitute a new chapter in Title 70 RCW.
NEW SECTION. Sec. 15. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. * and the same is herewith transmitted.

Bill Gleason, Assistant Secretary.

For the purposes of this subsection, the term 'gift' (shall) means a voluntary transfer of any thing of value without consideration of equal or greater value, but (shall) does not include informational material transferred for the sole purpose of informing the recipient about matters pertaining to official agency business: PROVIDED FURTHER, That this subsection (shall) does not apply to the legislative branch.

(4) Each (state agency which expends state funds for lobbying pursuant to an express authorization by law and each) state agency, county, city, town, municipal corporation, quasi-municipal corporation, or special purpose district which expends public funds for lobbying (pursuant to the authorization contained in subsection (3) of this section or whose officers or employees communicate on legislation directly affecting the agency to members of the legislature on request of any member or communicate to the legislature requests for legislation) shall file with the commission, except as exempted by subsection (4)(d) of this section, quarterly statements providing the following information for the quarter just completed:

(d) For purposes of subsection (4) of this section the term 'lobbying' does not include:
(i) Requests for appropriations by a state agency to the office of financial management pursuant to chapter 43.88 RCW nor requests by the office of financial management to the legislature for appropriations other than its own agency budget requests;
(ii) Requests for appropriations by a state agency to the office of financial management pursuant to chapter 43.88 RCW nor requests by the office of financial management to the legislature for appropriations other than its own agency budget requests;...
(ii) Recommendations or reports to the legislature in response to a legislative request expressly request-
ing or directing a specific study, recommendation, or report by an agency on a particular subject;
(iii) Official reports including recommendations submitted to the legislature on an annual or biennial
basis by a state agency as required by law;

(A) Telephone conversations or preparation of written correspondence;
(B) In-person lobbying on behalf of an agency of no more than four days or parts thereof during any
three-month period by officers or employees of that agency and in-person lobbying by any elected official of
such agency on behalf of such agency or in connection with the powers, duties, or compensation of such
official: PROVIDED, That the total expenditures of nonprofit funds made in connection with such lobbying
for or on behalf of any one or more members of the legislature or state elected officials or public officers or

FURTHER, That the exemption under this subsection is in addition to the exemption provided in (A) of this
subsection;

sure commission, that elected officials, officers, or employees who on behalf of any such local agency engage
in lobbying reportable under subsection (4) of this section shall register and report such reportable lobbying
in the same manner as a lobbyist who is required to register and report under RCW 42.17.150 and 42.17-
170. Each such local agency shall report as a lobbyist employer pursuant to RCW 42.17.180.
(6) The provisions of this section ((shall)) do not relieve any elected official or officer or employee of an
agency from complying with other provisions of this chapter, if such elected official, officer, or employee is
not otherwise exempted.
(7) The purpose of this section is to require each state agency and certain local agencies to report the
identities of those persons who lobby on behalf of the agency for compensation, together with certain sepa-
rately identifiable and measurable expenditures of an agency's funds for that purpose. This section shall be
reasonably construed to accomplish that purpose and not to require any agency to report any of its general
overhead cost or any other costs which relate only indirectly or incidentally to lobbying or which are equally
attributable to or inseparable from nonlobbying activities of the agency.
The public disclosure commission may adopt regulations clarifying and implementing this legislative
interpretation and policy.

POINT OF PERSONAL PRIVILEGE

Mr. Barr: "I would like to say that this amendment is House Bill No. 595. I think we all recognize that if you get a bill that's important to small communities through the legislature, it takes a lot of work and due to my absence I was unable to work this bill as hard as I should have. I understand that there's some agreement with the Senate that there should not be any amendments on this bill, however, this is so important to the people of the small communities throughout the state to get them exempt from the public disclosure. I've some agreement also...*"

Mr. Grimm: "Representative Patterson, there is a constitutional provision or prohibition on providing state support to those who are not needy or disadvantaged; however, an attorney general has ruled that his opinion is that only if there is conscious or deliberate state support. What we're providing is simply an extension from the payment of tuition; we are not supplementing or covering the cost that has been lost to those community colleges or to the institutions of higher education. As long as we do not reimburse the institutions for that revenue loss, it is permissible under the Constitution to provide that exemption. That is the basis on which this exemption has been formulated."

POINT OF ORDER

Mr. Newhouse: "Mr. Speaker, it would appear the amendment is clearly beyond the scope and object of the bill. The bill itself refers to one section of the Code, and this amendment goes into 44.60.020, an entirely different section and an entirely different subject."

SPEAKER BERENTSON'S RULING

Speaker Berentson: "The Speaker is going to rule that the point of order is well taken. This bill carries the title, 'An Act Relating to salaries of state officials.' The bill speaks to pay given by public bodies to elected officials for public work. The proposed amendment addresses new chapters of the Code and does not address the subject of salaries to be paid by public bodies for public work."

APPEAL FROM DECISION OF CHAIR

Mr. Nelson (D): "Mr. Speaker, I appeal the ruling of the Chair."

Speaker Berentson stated the question before the House to be the question, "Shall the decision of the Chair stand as the judgment of the House."

POINT OF PARLIAMENTARY INQUIRY

Mr. Polk: "Mr. Speaker, will you clarify the vote?"

Speaker Berentson: "A vote 'Aye' would sustain the decision of the Chair, so fifty votes would sustain the decision of the Chair."

Mr. Nelson (D) spoke in favor of the amendment.

The decision of the Chair was sustained.

Mr. Hastings moved adoption of the following amendment by Representatives Hastings, McGinnis, Eberle and Rohrbach:

On page 6, beginning on line 19, following "Sec. 10." strike the remainder of the section and insert "This act shall be submitted to the people for their adoption and ratification, or rejection, at a special election hereby ordered by the legislature, which election shall be held in conjunction with the next succeeding general election to be held in this state, all in accordance with the provisions of Article II, section 1 of the state Constitution, as amended, and the laws adopted to facilitate the operation thereof."

Mr. Hastings spoke in favor of the amendment, and Mr. Taller spoke against it.

POINT OF PERSONAL PRIVILEGE
Mr. King: "I think the Co-Speakers should be commended by this Legislature for doing something that really didn't happen in any place in the United States this year, or from what I've been able to tell, in history. That is to move the business of the state in an amicable way to the advantage of the citizens of the state. Other places in this country, where they have had the same kind of thing happen where they had a tie, weren't able to put together the kind of cooperation we have had. We have had our differences, there's no question about that, but we've worked together very well and I think in the final analysis, under the leadership of Co-Speakers Berentson and Bagnariol, we've done a good job."

POINT OF PERSONAL PRIVILEGE
Mr. Dunlap: "We heard a very moving poem read here earlier that spoke of the impossible dream and I think it's fair to say that most of us believed that operating this session under this most difficult 49-49 split was going to be nigh onto impossible, but Speakers Berentson and Bagnariol were able to bring this session off to, what I believe, a most successful conclusion. I'd like to make just one observation: That is that I think the spirit of cooperation that
has been led by Duane and John has carried over into committee work and subcommittee work, and I would like to think the next legislative session and the legislative sessions to follow are never going to be quite the same. They are going to be a little bit better because each of us have come to have a good respect, an increased appreciation, for the talents that exist across the aisle. So, John, Duane, to you, on behalf of all of us, thanks for a good session."

POINT OF PERSONAL PRIVILEGE

Mr. Barnes: "Mr. Speaker, we have just considered 2,683 bills in an attempt to enforce ten Commandments."

POINT OF PERSONAL PRIVILEGE

Mr. Van Dyken: "My college roommate is a member of the House of Representatives of a house so mixed, such as we are, in the state of Minnesota. We've had opportunity to keep tabs on one another's mixed houses by telephone in these intervening months. Now, when we're ready to sine die, he will have just gotten his committee assignments and his office. He had backed the wrong person for Speaker. They resolved their impasse by having a Republican Speaker and a Democratic Chairman of Rules, at which point the Republican Speaker found out he didn't have anything to preside over unless the Democrats wanted to give them some bills. They resolved their impasse and I was reluctant to let this body know how they resolved it at the time. They no longer have a tie in Minnesota; they discovered a rule in their procedures under which a member who is under censure and about to be ousted from the body cannot vote on his own behalf. One political party (I shall not say which party) decided to oust a member of the other political party and exactly two weeks ago tonight, by a one-vote margin, they took care of their even situation and they are no longer a split house in the State of Minnesota."

GOVERNOR'S MESSAGES ON HOUSE BILLS
VETOED AND PARTIALLY VETOED

Regular and First Extraordinary Session – 1979

For Veto Message on SUBSTITUTE HOUSE BILL NO. 29, see page 1493.

June 21, 1979

To the Honorable,
The House of Representatives
Of the State of Washington
Ladies and Gentlemen:

I am returning herewith without my approval as to one section of HOUSE BILL NO. 191, entitled:

"AN ACT Relating to school district bonds;"

Section 2 of this bill would reduce the state's matching ratio for school district capital construction. Buildings are an integral part of an educational program and to reduce the state matching ratio for capital at the same time the state has increased its commitment to 100 percent of basic education operating costs would be inconsistent. In addition, decreasing the state's matching ratio for capital construction would increase property tax levies at a time when the Legislature has approved, and I have signed, several measures designed to decrease property taxes.

A major thrust of my administration has been to place the common schools on a sound financial basis and reduce property taxes as a primary source of support. To reduce the state's funding for school construction would be in conflict with my basic commitment to both goals. While I do not endorse buildings that are unnecessary, I believe the voters of the individual school districts are best able to judge the necessity for construction of school buildings when they cast their special levy votes.

With the exception of Section 2, which I have vetoed, the remainder of House/Bill No. 191 is approved.

Respectfully submitted,
Dixy Lee Ray, Governor.

For Veto Message on SUBSTITUTE HOUSE BILL NO. 194, see page 1775.

For Veto Message on HOUSE BILL NO. 335, see page 1710.

June 25, 1979

To the Honorable,
The House of Representatives
of the State of Washington
Ladies and Gentlemen:

I am returning herewith without my approval as to the two last sentences in Subsection (3) of Section 1 of HOUSE BILL NO. 433, entitled:

"AN ACT Relating to water pollution control;"

House Bill No. 433 was and is for the single purpose of authorizing the Department of Ecology to participate in the Federal Water Pollution Control Act as "amended;" this single word, plus an added "or her" in line 23,
is all that was deemed necessary to allow the state to carry out the dictates of the federal law. The addition of your two sentences:

"The enactment of this 1979 act does not extend the eligibility for or increase the amount of exemptions or credits available under chapter 82.34 RCW: PROVIDED, That this amendatory provision relating to tax exemptions or credits shall not apply to any facility eligible for a certificate as described in RCW 82.34.010(5)." does nothing to further this authorization and in fact involves an entirely different subject. The inclusion of these sentences may also be construed to amend a separate law by reference, clearly which is prohibited by the state's Constitution.

I veto this part not because I'm not in sympathy with the Legislature in what the intentions were, but, simply because I feel these provisions introduce separate subjects that are inconsistent with the purpose of the bill and that if allowed to become law, will surely lead to much misinterpretation and possible litigation.

With the exception of the last two sentences of Subsection (3) of Section 1, which I have vetoed, the remainder of House Bill 433 is approved.

Respectfully submitted,
Dixy Lee Ray, Governor.
June 25, 1979

To the Honorable,
The House of Representatives
of the State of Washington
Ladies and Gentlemen:

I am returning herewith without my approval as to certain sections and items, HOUSE BILL NO. 516, entitled:

"AN ACT Adopting the budget;"

The specific items and sections which I have vetoed are as follows:

1. Insurance Contributions

On pages 7 and 8, I have vetoed the proviso contained in subsection (14)(2)(g) which provides "that the funds contained in this subsection (2)(g) and (e) shall be expended exclusively for the maintenance of the level of health benefits being provided on the effective date of this act." This limit on employee benefits is inconsistent and possibly in direct conflict with the provisions of subsection (i). Subsection (i) was added to provide a means whereby benefits could be improved if funds were available. It would be impossible to distinguish between the funds referenced in subsections (14)(2)(g) and (2)(e) and those in other sections of the bill. Therefore, any refunds or dividends used to improve benefits could well be in conflict with the proviso.

2. Military Department

On page 22, section 50, I have vetoed subsection (1) which reads, "No general fund moneys shall be expended for administration, operation or maintenance of the Washington State Guard."

I am vetoing this subsection because I believe that the State Guard is an important element of the total Military Department operations. It is essential that continuity exist in the State Guard if it is to be effective in time of emergency. The prohibition on using general fund money might very well impair the operation of the Washington State Guard,
3. Department of Social and Health Services – Developmental Disabilities

On page 28, section 56, I have vetoed subsection (5) which directs that "$120,000 shall be used to provide protection and advocacy services for the handicapped."

The budget already contains $100,000 in federal funds for a protection and advocacy system for the developmentally disabled. An additional $78,000 in state funds is included for legal services. It is inappropriate to divert state funding from direct services to establish a separate and duplicative advocacy function.

If there is truly a need for increased client advocacy, it should be funded from the private sector. An advocacy system ideally operates as an intermediary between the individual client and the service provider. It creates an inherent conflict of interest to expect the state, as primary service provider, also to fund significant advocacy activities.

4. Department of Social and Health Services – Income Maintenance Grants Program

On page 32, section 59, I have vetoed subsection (4) which provides that:

"$6,646,000 from state funds shall be expended for noncontinuing general assistance except that after the recipient has been determined eligible for such assistance for six consecutive weeks, the recipient's grant will be equivalent to two times the food only standard plus twenty dollars."

The General Assistance noncontinuing program is designed to provide temporary assistance to those individuals who will become employed or who will be found eligible for other state or federal assistance programs. I am therefore requesting the Secretary, DSHS to review the General Assistance–Unemployable portion of the caseload to see if these persons can be provided help and needed services.

5. Department of Social and Health Services – Community Social Health Services Grants

On pages 33, 34, and 35, I have vetoed subsections (1) through (3) of section 60. The stricken language provides that specified amounts shall be expended for vendor rate increases, child day care payments, and adult chore services. Given my commitment to improve conditions for senior citizens, and the difficulty associated with a precise determination of need and cost at this early time, I find it necessary to veto provisions that impose both upper and lower spending limits on a major portion of the funding for the Community Social Services program. It should be understood, however, that I strongly support the intent conveyed in these sections and as a consequence, will direct the DSHS to develop a spending plan that will reflect the purpose of the Legislature and my own concerns regarding the provision of services to the elderly.

6. Department of Social and Health Services – Public Health Program

On page 36, section 62, I have vetoed subsection (3): "Not less than $674,000 (of which $506,000 shall be from federal funds) and 42 FTE staff years shall be spent for administration of the
early periodic screening, testing, diagnosis, and treatment program (EPSDT)."

"(a) Local offices are to provide outreach for the EPSDT program.
(b) The department shall develop a screening/billing form to be used by EPSDT providers as a requirement for payment.
(c) The department shall develop a reporting system which will enable follow-up to the EPSDT diagnosis and treatment process.
(d) 2 FTE's shall be used by the department for the coordination and management of the EPSDT program."

In this subsection the Legislature is setting forth detailed instructions in how to manage the early, periodic screening, diagnosis, and treatment program. This unduly intrudes upon the role of the Executive Branch.

7. Department of Social and Health Services - Community Services Administration

On page 38, section 65, I have vetoed subsection (3) which directs that "...not more than 306 FTE staff years and $13,844,000 (of which $8,901,000 shall be from federal funds) shall be utilized in the medical assistance administration program." One of the major initiatives in the Medical Assistance program is to contain costs through expanded surveillance and utilization review activities; this may require added staff within the available funds. The proviso unnecessarily restricts the department in this area since it does not allow for full implementation of cost-containment initiatives in this program.

8. Donations of Real Estate

I have vetoed section 85(2) on page 46, Section 90(3) on pages 48 and 49, and section 221 on page 166. In each of these instances, agencies are restricted from receiving or making contractual agreements to receive any donation of real property which commits the agency to future operating, development, or acquisition costs without prior approval of the Legislative Budget and/or House Appropriations and Senate Ways and Means Committees.

I believe that this language is excessively restrictive, will generate serious delays in the acquisition and management of public lands, and may discourage future donations. On the other hand, the provisos reflect a legitimate legislative concern in an area that needs improved control. Accordingly, I have directed the Office of Financial Management to conduct a thorough review of real property acquisition policies by state agencies, and to propose statutory language changes, where appropriate, to the next legislative session.

9. Board of Education - Superintendent of Public Instruction

On page 156, section 196, I have vetoed all of the language starting on line 25 and concluding on line 54. This language would restrict the application of State Board of Education rules governing the K–12 capital program. The unprecedented level of construction demand, and erratic nature of the dedicated fund source, make retention of state board administrative prerogatives essential. In addition, the proviso language improperly modifies a substantive statute, RCW 28.47.802, that provides the board members necessary authority to accommodate changing conditions.

10. Northern State Hospital Transfer
I have vetoed Section 199 on page 159 which reads as follows: "The director of general administration shall transfer to the department of social and health services the facility known as Northern State Hospital, along with all attached real estate under the jurisdiction of the department of general administration."

At present, several agencies are housed in the facilities at Northern State Hospital, including the Department of Social and Health Services. I believe that it is in the best interest of the state for the Department of General Administration to manage multi-purpose real estate.

11. Federal Funds Loss

I have vetoed Section 205, page 161. This section requires that no additional state funds be provided to programs supported in whole or in part by federal funds, in the event that the program's anticipated federal funds are reduced or eliminated. This kind of provision is appropriate for programs that are wholly dependent upon federal funding, but many worthy activities do not fall into this category.

The state continually looks for ways to use available federal moneys for expenses that would otherwise be funded from state sources. If anticipated federal funds to not materialize, there must be the capability to provide for essential programs from state funds.

12. Capitol Facilities

I have vetoed Section 224 on pages 168 and 169, which reads as follows:

"Expenditure of moneys appropriated by Section 174 of this act shall be made in consultation with the prior approval (sic) of the state capitol committee in accordance with the provisions of Chapter 79.24 RCW. In addition, the department of general administration shall consult with and obtain the approval of the joint legislative committee on capitol facilities prior to expenditure of moneys appropriated by this section on projects involving capitol buildings occupied wholly or in part by the legislature."

Cooperation with the Capitol Committee and the Joint Legislative Committee on Capitol Facilities is appropriate and I will direct General Administration to consult with these committees. However, the section if allowed to stand, would unduly restrict the executive branch in its responsibility to complete the capitol projects in an efficient and timely manner.

With the exception of the foregoing sections and items which I have vetoed for the reasons stated, the remainder of House Bill No. 516 is approved.

Respectfully submitted,
Dixy Lee Ray, Governor.
June 15, 1979

To the Honorable,
The House of Representatives
of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to twelve sections, SUBSTITUTE HOUSE BILL NO. 791, entitled:

"AN ACT Relating to retirement from public service;"
Sections 12 through 23 of Substitute House Bill No. 791, which, were added by floor amendment, are identical to sections 1 through 12 of Senate Bill No. 2378. Senate Bill No. 2378, having already passed the Legislature and been approved by me, became chapter 205, Laws of 1979 1st ex. sess. and took effect on May 25, 1979. As a result, sections 12 through 23 of Substitute House Bill No. 791, as amended, are unnecessary and have been vetoed.

With the exception of these twelve sections which I have vetoed, the remainder of Substitute House Bill No. 791, as amended, is approved.

Respectfully submitted,
Dixy Lee Ray, Governor.

June 4, 1979

To The Honorable,
The House of Representatives
of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to one section, SUBSTITUTE HOUSE BILL NO. 1075, entitled:
"AN ACT Relating to operating agencies;"

The obvious intent of this bill as contained in Section 1 is to assure the opportunity for review of thermal power plant construction and management by both qualified auditors and the general public. This is a reasonable practice in the management of public services. Section 2 makes the construction and management of thermal power plants subject to the "disclosure" and "public meeting" laws. It does so by citing both of these statutes. The problem arises in Section 2, where the definition of scope is set out. The terms, "participating agency or other internal organization thereof" are not consistent with the scope of either of the two cited statutes, nor do the terms have any more exact definition by statutes or in common usage. Therefore, the limits of application for this section are unclear. It could be interpreted to demand public meetings for contractors who are supplying pencils to the power plant. The mandate is unreasonable and it would be impossible to comply. Further, since thermal power plants are now subject to the disclosure and public meeting statutes, a more certain application of these laws should be used.

For these reasons, I have vetoed Section 2 of Substitute House Bill No. 1075.

Respectfully submitted,
Dixy Lee Ray, Governor.
