FIRST DAY

NOON SESSION

House Chamber, Olympia, Monday, January 12, 1987

The Chief Clerk of the Forty-Ninth Legislature, Dennis L. Heck, called the House to order at 12:00 noon.

The Chief Clerk requested the Sergeant at Arms to escort the members-elect to seats on the floor of the House as selections were played by the 560th Air Force Band of the Washington Air National Guard.

The flag was escorted to the rostrum by the Color Guard from the Washington Army National Guard. All present joined in singing the National Anthem.

Prayer was offered by The Reverend John Day of the Columbia Presbyterian Church of Vancouver:

Father, as You know there are many different women and men gathered before You today, of different faiths, backgrounds and traditions. Whatever may be the case, Lord, we all recognize our needs this afternoon and that is the need for help, and so we pray that You would be with us at this moment as we begin this session and also throughout the months ahead, that You would be a continual presence within the lives of all these people, guiding them, giving them vision for what they can be and what they can do and what they can accomplish. Give them hearts of compassion and love that they might put behind them political expediency and partisanship in the interests of the welfare of the people of this State. We thank You, Lord, for the freedoms of which we just sang that allow all of us to gather as we are now, a free people seeking to discern Your will and the will of the people of this land. We worshipfully and humbly give You thanks in a spirit of gratitude that You have allowed this to be, and we pray now for Your continual blessing and guidance in all that we do that You might be glorified and the people of this State might be blessed. Amen.

The Chief Clerk appointed Representatives Armstrong and Padden to escort the Honorable Robert Utter, Justice of the Supreme Court of the State of Washington to the rostrum.

Any materials of any nature distributed to the members' desks on the floor shall be subject to approval by the speaker and shall bear the name of at least one member granting permission for the distribution. This shall not apply to materials normally distributed by the chief clerk.

(E) Order of Questions. All questions, whether in committee or in the house, shall be propounded in the order in which they are named except that in filling blanks, the largest sum and the longest time shall be put first.

(F) Division of Points of Debate. Any member may call for a division of a question which shall be divided if it embraces subjects so distinct that one being taken away a substantive proposition shall remain for the decision of the house; but a motion to strike out and to insert shall not be divided. The rejection of a motion to strike out and to insert one proposition shall not prevent a motion to strike out and to insert a different proposition.

(G) Remarks Confined. A member shall confine all remarks to the question under debate and avoid personalities. No member shall impugn the motive of any member's vote or argument.

(H) Exception to Words Spoken in Debate. If any member be called to order for words spoken in debate, the person calling the member to order shall repeal the words excepted to and they shall be taken down in writing at the clerk's table. No member shall be held in answer or be subject to the censure of the house for words spoken in debate if any other member has spoken before exception to them shall have been taken.

(I) Transgression of Rules -- Appeal. If any member, in speaking or otherwise, transgresses the rules of the house the speaker shall, or any member may, call the member to order, in which case the member so called to order shall immediately sit down unless permitted to explain; and the house shall, if appealed to, decide the case without debate; if there be no appeal, the decision of the chair shall be submitted to.

If the decision be in favor of the member called to order, the member shall be at liberty to proceed; if opposed, and the case shall require it, the member shall be liable to the censure of the house.

ENDING OF DEBATE -- PREVIOUS QUESTION

RULE 19. The previous question may be ordered on all recognized motions or amendments which are debatable by a two-thirds (2/3) vote of the members present.

The previous question is not debatable and cannot be amended.

The previous question shall be put in this form: "Representative demands the previous question. As many as are in favor of ordering the previous question will say 'Aye'; as many as are opposed will say 'No.'

The results of the motion are as follows: If determined in the negative, the consideration goes on as if the motion had never been made; if decided in the affirmative it shall have the effect of cutting off all debate and bringing the house to a direct vote upon the motion or amendment on which it has been ordered: PROVIDED HOWEVER, that when a bill is on final passage or when the motion to postpone indefinitely is pending, one of the sponsors of the bill or the chair of the
committee may have the privilege of closing debate after the previous question has been ordered.

If an adjournment is had after the previous question is ordered, the motion or proposition on which the previous question was ordered shall be put to the house immediately following the approval of the journal on the next working day, thus making the main question privileged over all other business, whether new or unfinished.

VOTING

RULE 20. (A) Putting of Question. The speaker shall put the question in the following form: "The question before the house is (state the question). As many as are in favor say ‘Aye’; and after the affirmative vote is expressed, "as many as are opposed say ‘No’.”

(B) All Members to Vote. Every member who was in the house when the question was put shall vote unless, for special reasons, excused by the house.

All motions to excuse a member shall be made before the house divides or before the call for yeas and nays is commenced; and any member requesting to be excused from voting may make a brief and verbal statement of the reasons for making such request, and the question shall then be taken without further debate.

Upon a division and count of the house on the question, only members at their desks within the bar of the house shall be counted.

(C) Change of Vote. When the electric roll call machine is used, no member shall be allowed to vote or change a vote after the speaker has locked the roll call machine. When an oral roll call is taken, no member shall be allowed to vote or change a vote after the result has been announced.

(D) Private Interest. No member shall vote on any question in which that member is immediately or particularly interested.

“A member who has a private interest in any bill or measure proposed or pending before the legislature shall disclose the fact to the house to which he is a member, and shall not vote thereon.” (Art. II § 30)

(E) Interruption of Roll Call. Once begun, the roll call may not be interrupted.

No member or other person shall visit or remain at the clerk’s desk while the yeas and nays are being called.

(F) Yeas and Nays -- Recorded Votes. Upon the final passage of any bill, the vote shall be taken by yeas and nays and shall be recorded by the electric voting system: PROVIDED, HOWEVER, That an oral roll call shall be ordered when demanded by one-sixth (1/6) of the members present. (Art. II § 21)

The speaker may vote last when the yeas and nays are called.

When the vote is by electric voting machine or by oral roll call on any question, it shall be entered upon the journal of the house. A recorded vote may be compelled by one-sixth (1/6) of the members present.

(G) Tie Vote, Question Loses. In case of an equal division, the question shall be lost.

(H) Division. If the speaker is in doubt, or if division is called for and is supported by at least seventeen members, the house shall divide and a recorded vote shall be taken.

RECONSIDERATION

RULE 21. Notice of a motion for reconsideration on the final passage of bills shall be made on the day the vote to be reconsidered was taken and before the house has voted to transmit the bill to the senate.

Reconsideration of the votes on the final passage of bills must be taken on the next working day after such vote was taken: PROVIDED, That on and after the fifth day prior to the day of adjournment sine die of any session, as determined pursuant to Article II, Section 12 of the state Constitution, or concurrent resolution, or on and after the third day prior to the day a bill must be reported from the house as established by concurrent resolution, then reconsideration of votes on the final passage of bills must be taken on the same day as the original vote was taken.

Any member who voted on the prevailing side may move for reconsideration or give notice thereof.

A motion to reconsider can be decided only once when decided in the negative.
When a motion to reconsider has been carried, its effect shall be to place the original question before the house in the exact position it occupied before it was voted upon.

CALL OF THE HOUSE

RULE 22. One-sixth (1/6) of the members present may demand a call of the house at any time before the house has divided or the voting has commenced by yeas and nays.

(A) Doors to be Closed. When call of the house has been ordered, the sergeant at arms shall close and lock the doors, and no member shall be allowed to leave the chamber: PROVIDED, That the rules committee shall be allowed to meet, upon request of the speaker, while the house stands at ease: AND PROVIDED FURTHER, That the speaker may permit members to use such portions of the fourth floor as may be properly secured.

(B) Sergeant at Arms to Bring in the Absentees. The clerk shall immediately call a roll of the members and note the absentees, whose names shall be read and entered upon the journal in such manner as to show who are excused and who are absent without leave.

The clerk shall furnish the sergeant at arms with a list of those who are absent without leave, and the sergeant at arms shall proceed to bring in such absentees; but arrests of members for absence shall not be made unless ordered by a majority of the members present.

(C) House Under Call. While the house is under a call, no business shall be transacted except to receive and act on the report of the sergeant at arms; and no other motion shall be in order except a motion to proceed with business under the call of the house or a motion to excuse absentees. The motion to excuse absent members shall not be adopted unless a majority of the members elected vote in favor thereof.

(D) Call of House Raised when Absentees Return. When the sergeant at arms shall make a report showing that all who were absent without leave are present, the call of the house may be dispensed with.

APPEAL FROM DECISION OF CHAIR

RULE 23. The decision of the chair may be appealed from by any member, on which appeal no member shall speak more than once unless by leave of the house. In all cases of appeal, the question shall be: "Shall the decision of the chair stand as the judgment of the house?"

(A) Notice of Committee Meeting. The chief clerk shall make public the time, place and subjects to be discussed at committee meetings. All public hearings held by committees shall be scheduled at least five (5) days in advance and shall be given adequate publicity: PROVIDED. That only adequate publicity, as determined by the Speaker with regard to the circumstances, including but not limited to the time remaining, the nature of the subject and the number of prior hearings on the subject, shall be required when fifteen (15) days or less remain before a session must end as determined pursuant to Article II, Section 12 of the state Constitution, or concurrent resolution.

(B) Committee Quorum. A majority of any committee shall constitute a quorum for the transaction of business.

(C) Session Meetings. No committee shall sit while the house is in session without special leave of the speaker.

(D) Duties of Standing Committees.

(1) Standing committees shall act upon all referred bills, memorials and resolutions. Only such bills as are included on the written notice of a committee meeting may be considered at that meeting except upon the vote of a majority of the entire membership of the committee to consider another bill.

(2) A majority recommendation of a committee must be signed by a majority of the entire membership of the committee in a regularly called meeting before a bill, memorial or resolution may be reported out: PROVIDED. That a majority of the members elected to the house may require a committee to report a bill back to the house during the order of business at which it may be considered.

Bills referred to the ways and means committee may be assigned to the appropriations or revenue subcommittee by the committee chair. Bills assigned to the appropriations or revenue subcommittee may be acted upon by the assigned subcommittee and recommendations of these subcommittees when signed by a majority of the membership of such subcommittee and approved by the chair of the ways and means committee shall be reported back to the house, except that budget bills shall be acted upon by the whole ways and means committee before being reported back to the house.

Majority recommendations of a committee can only be “do pass”, “do pass as amended” or that “the substitute be substituted therefor and that the substitute bill do pass.”

(3) Minority reports “do not pass” or “without recommendation” may be submitted with the majority report. Members of the committee not concurring in the majority report may prepare a written minority report containing a different recommendation, which shall be signed by those members of the committee subscribing thereto.

(4) All committee reports shall be spread upon the journal. The journal of the house shall contain an exact copy of all committee reports, together with the names of the members signing such reports.

(7) No standing committee shall vote by secret written ballot on any issue.

(8) During its consideration of or vote on any bill, resolution or memorial, the deliberations of any standing committee of the house of representatives shall be open to the public.
FREE CONFERENCE COMMITTEE REPORT

VETOED BILLS

RULE 27. Veto messages of the governor shall be read in the house and entered upon the journal. It shall then be in order to proceed to reconsider the bill, refer it, lay it on the table, or postpone its consideration to a day certain.

The merits of the bill may be debated before the vote is taken, but the vote on a vetoed bill cannot be reconsidered.

In case of a bill containing several sections or items, one or more of which has been objected to by the governor, each section or item so objected to shall be voted upon separately by the house.

Action by the house upon all vetoed bills shall be endorsed upon the bill and certified by the speaker.

Vetoed bills originating in the house, which have not been passed notwithstanding the veto of the governor, shall remain in the custody of the officers of the house until the close of the assembly, after which they shall be filed with the secretary of state.

SUSPENSION OF COMPENSATION

RULE 28. (1) Any member of the house of representatives convicted and sentenced for any felony punishable by death or by imprisonment in a Washington state penal institution shall, as of the time of sentencing, be denied the legislative salary for future service and be denied per diem, compensation for expenses, office space facilities and assistance. Any member convicted of a felony and sentenced therefor under any federal law or the law of any other state shall, as of the time of sentencing, be similarly denied such salary, per diem, expenses, facilities and assistance if either (a) such crime would also constitute a crime punishable under the laws of Washington by death or by imprisonment in a state penal institution, or (b) the conduct resulting in the conviction and sentencing would also constitute a crime punishable under the laws of Washington by death or by imprisonment in a state penal institution.

(2) At any time, the house may vote by a constitutional majority to restore the salary, per diem, expenses, facilities, and assistance denied a member under subsection (1). If the conviction of a member is reversed, then the salary, per diem, and expense amounts denied the member since his sentencing shall be forthwith paid to him, and the member shall thereafter have the rights and privileges of other members.

STANDING RULES AMENDMENT

Mr. McMullen moved adoption of the resolution. Representatives McMullen and Brough spoke in favor of the resolution, and it was adopted.

ELECTION OF SPEAKER OF THE HOUSE

The Chief Clerk announced that nominations were in order for Speaker of the House of Representatives.

Mr. McMullen: I rise to nominate Joe King as Speaker of the House of Repre­sentatives. Those of you who know Representative King recall that he came to this body in 1980; he was with a small class in his caucus, yet he was able to come in and make his impression very early. In his second term he rose rapidly to Chair a committee and he made Economic Development. I think, a byword of what we are about down here in Olympia. Economic Development is no longer a dirty word thanks to Joe King. In his third term he became a majority leader, and I think we can all recall what a successful term we had, not only did we pass some major legislation, we got out of here on time and did our work in a very business—like fashion. I think it’s now time that Joe King be elevated to Speaker of the House of Representatives. Not that Joe has only been making his impression on the House, as you well know, the House has also had its impression on Joe. We can recall Joe sitting back there leaning back with blue pipe smoking curling into the rafters— he has now given up that nasty habit. Likewise, Joe can be a little stubborn at times and we can recall his great thesis and efforts on behalf of the seatbelt law in this state. And yet one particular day he was not wearing a seatbelt when he was rid­ing his bicycle and had an accident. Some people say that accident actually improved his image down here in Olympia.

I think Joe is the type of open, congenial and down-to-earth person we need in the House this year to work with the Senate, to try to get the House together as a body to work with the Senate. We have some very difficult and large tasks before us. I think we will accomplish them; I think Joe King is the type of Speaker who will lead us there.

Ms. Hine: I would like to second the nomination of Representative Joe King for Speaker of the House. Joe and I sat together in the back of the room when he was doing his pipe smoking. Across the aisle was another member of our freshman class, Representative Wang, who was also smoking his pipe at the time. I want you to know my first session down here, I spent a fortune on perfume for nothing. Joe and I had a good opportunity to learn together in that row and that has advanced over the years as we have gained knowledge together and trust with and for each other. I think Joe is going to bring to this group the same kind of respect for this institution his predecessor had and that most of us feel is more important to have than any of us individually or as a party must have. I look forward to him carrying on that position of fairness. I also look forward to him working well and coopera­tively with the other body. Now that may be a plus or minus and may influence your vote, but I do think it’s important for the two bodies to get along, and I know Representative King has already expressed his intent to try to do that and to work together with the minority party in both houses.

Representative King is going to be new up there on the rostrum if you go along with the recommendations of my colleagues and me. He will make mistakes; we all do. I think that the most significant thing about Representative King is that he dares to risk, and I know I’ve made that speech many other places and I have for my children. We are nothing if we don’t dare to risk and I believe we have a col­league who has shown that courage, that willingness to serve us because that’s what he will be doing in that position. I urge you to support the nomination for Representative Joe King for Speaker of the House.

Mr. S. Wilson: It gives me great pleasure to place the name of Clyde Ballard of East Wenatchee as Speaker of the House of Representatives. Now the Speaker we choose today will bear an enormous responsibility for the effective management
and leadership of this institution. It is a responsibility that will carry far beyond the marble halls in the State Capitol. The people of our state demand the best from their government to meet the challenges of these difficult years we face. The Speaker of the House must exemplify the high quality of this House and all that our citizens expect. I am convinced that Clyde Ballard will bring to this institution the high standards of leadership that the Speaker's role demands. He is a successful businessman and an outstanding citizen of his community when seeking election to this office and now, during his years in Olympia, he has learned quickly and has earned the respect of his fellow legislators. During the two years that it has been my pleasure to share leadership in our caucus with Clyde, I have learned great respect for his talents and judgments in legislative activities. While I have no illusions of the outcome of this election today, I am very enthusiastic about the future of our caucus under Clyde's leadership. We are united and we intend to return the control of the House of Representatives to this side of the aisle under his leadership. Therefore I am very, very pleased to place Clyde's name in nomination for Speaker of the House.

Ms. Brough: It is with great pleasure that I rise to second the nomination of Representative Clyde Ballard for Speaker of the House during the Fiftieth Legislature. Throughout the service of the House, Representative Ballard has earned the respect and trust of his colleagues and respect and trust from both sides of the aisle. His commitment to fairness and to a sound and responsive legislature has been clearly demonstrated. As Republican Caucus Chairman during the past two years, Representative Ballard has proven his ability to get members of differing views and personalities working together. This kind of experience is important in a House Speaker. Representative Ballard's hard work and his effectiveness have earned our respect. His willingness to listen, his open-minded approach and his integrity have earned our trust. Representative Clyde Ballard is an outstanding leader in this legislature and it is a privilege to second his nomination for Speaker of the House.

On motion of Mr. McMullen, nominations for Speaker of the House were closed.

ROLL CALL

The Clerk called the roll and Representative J. King was elected Speaker of the House by the following vote: Those voting for Mr. King, 60; those voting for Mr. Ballard, 37; absent, 1.

Not voting: Representative Vekich - 1.

The Chief Clerk appointed Representatives Hine and Prince to escort Representative J. King to the rostrum.

Justice Utter administered the oath of office to Speaker King.

POINT OF PERSONAL PRIVILEGE

Mr. Ballard: As we begin this historic Fiftieth Legislature, it is my privilege to congratulate you and to be the first to officially call you Speaker. I must admit to you that I would prefer that our roles were changed, even though I had no real illusions about the outcome of the vote. I think the fact that I had heard that your name had been put on the door of the Speaker's office gave me a bit of a clue as to the outcome of this vote. It is perhaps of some comfort to those of us on this side of the aisle to note that since the First Legislature of Washington State convened in 1889, Republicans have been in control forty-seven times; Democrats, twenty-one times, including this session; we had an even-number on one occasion, and early
the Populace Party had control of the Legislature. What this suggests is that we can expect our roles as majority and minority parties to change as we continue to govern the State of Washington. We cannot take our positions for granted. We must work together to give the people of the State of Washington an effective and responsible legislative process. We must cooperate to the greatest extent possible and we must respect one another. As a minority party we pledge to you this kind of cooperation, respect and courtesy.

I don't want to shock you, Mr. Speaker, but there is a strong likelihood that our members of our respective parties will take different sides on many of the issues that we face this session and when we find ourselves in disagreement with you, we will not hesitate to speak up. However, we will not obstruct the legislative process. You can count on us to make this a smooth and, we hope, a quick session. We do not take seriously our role as a minority party. Our members have an important responsibility to represent a large segment of the citizenry. An active and effective party, a minority party, is essential if all our citizens are to be represented in the legislative process. The importance of our role was noted by the great people who framed our Constitution. In this session Republicans hold thirty-seven seats even though our candidates received forty-five percent of the vote. Our numbers may not be large, but our responsibility is great. We will meet our responsibility to the people we represent and to the citizens we serve. This may, on occasion, lead us to point out instances where we believe you to be on the wrong side of the issue, but you can rely on us to do it in a constructive manner and you can count on our assistance as you take on this very challenging and difficult task as Speaker of the House. I would like to illustrate to you just how cooperative we can be: Even though random surveys show that we have a good chance at winning at least a couple of the seats in the leadership in this election. we have decided not to present a Republican slate. In the spirit of harmony and cooperation, we will defer to the nominations made by your caucus. Mr. Speaker, you have our best wishes as you undertake the challenges and responsibilities of your office. Best of luck.

SPEAKER'S ACCEPTANCE SPEECH

The Speaker: Thank you. With the permission of the body I'd like to introduce some people who are very important to me. Let me start with the one who truly was required to make this event possible ... my good Baptist mother Emma King. My father Lewis King had planned to be here but health reasons kept him from being with us. Next, my three children. Rebecca, Seth and Adam who are all crushed because they had to miss a day of school. With them my sister Connie DeLooze, her children David and Alyssa and my niece Kari King. Finally I'd like to introduce my best friend, Ann Gardner.

Partly in response to the future of three generations of King's in the gallery, I'd like the permission of the body to continue with a few more personal remarks.

In preparing for these remarks I reached back into the journals for the remarks of past speakers. Many started their speeches - and accurately so - with a charge that the state was facing an immediate crisis. It gives me some comfort today to acknowledge with you that we're not in a crisis. What a luxury it is this session to face a difficult future without an immediate fiscal emergency driving us toward some spastic reflexive action. Our Governor has suggested we have two possible futures. We have the ability to choose between those futures logically and emphatically. It's time to consider making some substantial new investments as Booth Gardner is asking us to do, not under the gun sights of a smoking economic hole, but in a period of relative (albeit stagnant) economic calm.

The current situation, however is as sobering as being in those economic gun sights. Let me ask you to visualize a rounded hill with sharply sloping sides. Stop and reexperience the frightening feeling of slipping down that steep hill.

Many will ask why dramatic action is called for if there is no immediate crisis. The answer is found in real people we all know who are, perhaps, a little further down the slope than we. They are reporting they don't like the view from their precarious perch.

I talked to a new mother at a meeting in Tacoma last week. After eight years of working in a machine shop her husband was laid off when the shop closed. Shortly thereafter the woman unexpectedly became pregnant and with no health
insurance could not get in to see a doctor for six months. She subsequently gave
birth to a low-birth weight baby with significant health problems. She has been
told that early prenatal care might have made a difference. A client of mine— a
downtown merchant who has employed several of the same full-time people for
years—is now gradually going under due to competition from several mall stores
who are using low wage, part-time, no-benefit paid help.

A man I met in Aberdeen last summer comes to mind. He was stocky, a big
strong-looking man of 34. A former mill worker he had been unemployed 17
months and his three kids couldn’t understand why their dad seemed so angry
sometimes. I can remember seeing my father out of work and can remember the
frustration that brings.

All of these people we’ve discussed, my kids, my insurance clients and your
constituents are being affected by rapid global economic changes. We feel these
changes through the effects of heavily increased offshore competition. We can
choose to respond on behalf of the people we’ve talked about by ignoring them...
by defending the status quo. We could proclaim that we like the downhill bob sled
run we’re riding or we can cuss government and assume that the best way to
compete is to lower wages and lower the level of services that government pro­
vides for our people. Continued lower real income, continually lowered expecta­
tions, and a lower standard of living for all but the chosen few is not, however, a
legacy I think we wish to leave.

We have a governor who understands that major changes have occurred and
has come forward with a bold creative initiative to address the problems and
opportunities with which we’ve been presented. How then do we respond to the
initiatives? I think that in spite of our personal fondness for our Governor, in spite of
our admiration for his courage, in spite of the initiative, creativity and energy
behind these proposals, we need to acknowledge that this is not a thunderbolt from
Zeus and that we have an institutional obligation to examine closely the ideas pre­
sented. Is the proposal sound? Will it work? Will it do what it claims to do? Can we
figure out how to make it better? Those are the questions we’ll ask, but I suspect as
we work we’ll be engaged in something that this body has done extremely well
over the years and that is to listen... to listen to the dreams of the people who sent
us here: To the elderly, to the students, to educators, to consumers, to business peo­
ple and to our parents. We have listened in the past and we have responded
magnificently at times. The legislature listened after World War II to returning GI’s
who dreamed of accessible education and this body responded with a
marvelously accessible community college system. We listened to a dream of par­
ents in poor school districts who dreamed of the same opportunities for their stu­
dents that rich school districts had and we responded (with some urging from the
courts) with full state funding of education and a Basic Education Act that is still a
wonder to many of our sister states.

We’ve responded recently to dreams of equal pay for comparable worth
regardless of gender, and of dreams about clean water for our kids and their kids.
What we must listen for, however, is not just a reaction to a specific proposal, but to
listen closely to hear those dreams and then to lead them to accept the change that
it always takes to make those dreams real. We have a history in this body of listen­
ing closely to those who sent us and of responding again and again with vision
and, yes, with courage.

There is no higher honor than to be chosen to lead one’s colleagues. For that
honor I’m extremely grateful. I want to help in that listening process and, after
having listened, to help give voice and body to those dreams. For that listening
process to work we need also to lower our voices and listen to one another. And
we need, above all, to listen with the mutual respect which is the oil that allows
these tortured gears of government to turn. To that end I pledge my support.

ELECTION OF SPEAKER PRO TEMPORE

The Speaker announced that nominations were open for Speaker Pro
Tempore.

Mr. Ebersole: I rise to nominate John L. O’Brien to serve as Speaker Pro Tem­
poire of the Washington State House of Representatives. John O’Brien is a great
man. John O’Brien lives forever and serves forever. John O’Brien has served longer
than anyone alive and, remember, we love John O'Brien—we are afraid not to love John O'Brien. John has friends in very high places—in Olympia, Seattle and Rome. John O'Brien is a legend, the stories are legion. When John O'Brien was Speaker, I am told he would not allow freshmen to speak on the floor of the House during their first year. That sounds like a pretty good rule. Mr. Speaker; you might try that. John knows parliamentary procedure, and what he doesn't know we all assume he knows, which works just as well. The last time a ruling of John's was challenged was in March of 1953. The funeral was held later that year.

Enough of that. Here are the facts. Speaker O'Brien was first elected to the House forty-seven years ago in 1940. He's the only person to have been elected Speaker four consecutive terms. He has served as Speaker Pro Tempore for six terms. He has served in a major legislative leadership post longer than anyone in the history of the United States. Some sages predicted John O'Brien's demise this fall; he won big. You can't beat John O'Brien; his heart is too young. You cannot outlast him; he lives forever. He has been here since before half of us were born. He was holding up bills in Rules before our parents were holding us up. We all hold our eldest and best statesman in the highest regard. He brings dignity and decorum to our chambers. His presence enriches our institution and gives us a sense of history and time–honored tradition. He is a gentleman. He's an institution within this institution. John O'Brien loves the House and we love him. He represents all that is good about the Washington State House of Representatives. He was here to celebrate the fiftieth birthday, the hundredth birthday. We hope he will be with us forever.

Mr. Dellwo: I have the honor of seconding the nomination of Representative O'Brien to the position of Speaker Pro Tempore. As the previous speaker narrated, John has contributed a great amount to the State of Washington. I wanted to expand a bit on that. Since Washington became a state in 1889, there have been over 4400 regular, special and extraordinary session days. John has served more years and more sessions than any other legislator in Washington's history. He has served over sixty percent of all the session days in this state's ninety–seven year history. John has also served an unprecedented four terms as Speaker of the House and has served as President of the National Conference of State Legislative Leaders.

John is a part of the legend, the grace, the charm and the strength of this House. I therefore second the nomination as Speaker Pro Tempore, the Legislator's all–time master parliamentarian, Representative John L. O'Brien.

Ms. Niemi: It is an honor to second the nomination of John O'Brien as Speaker Pro Tempore of the House. Every year I hear new stories about the legend of John O'Brien. This year I learned that for the first twenty years that Representative O'Brien was in the House he took his meals in his office. When he was Speaker his meals were catered in his office. He is now adjusting, I think, very admirably to eating with the rest of us. John has been very active in the promotion of the arts. He is responsible for what—and I want you all to take my word for it—our wonderful murals under these draperies. They are not as exciting as some of you have been led to believe and I hope to join with Representative O'Brien to enable all of you to see them, perhaps sometime this session.

Representative O'Brien represents a neighboring district to me in Seattle. It is both an economically and ethnically diverse district. This year John received what many of us in the City of Seattle believe to be a very great victory—not all of us can do this—John was endorsed by his own legislative district. It's a very great pleasure for me to second the nomination of Speaker O'Brien.

On motion of Mr. McMullen, the nominations for Speaker Pro Tempore were closed.

Representative O'Brien was unanimously elected Speaker Pro Tempore of the House of Representatives.

The Speaker appointed Representatives Ebersole and Brough to escort Representative O'Brien to the rostrum.
FIRST DAY, JANUARY 12, 1987

Justice Utter administered the oath of office to Speaker Pro Tempore John L. O'Brien.

Mr. O'Brien: Honorable Justice Utter, Mr. Speaker, members of the House: Of course, it's a great honor to be here again and to serve as Speaker Pro Tempore for this Fiftieth Session of the Legislature. It's not only a pleasure, but it's a privilege. Of course, this long tenure that I have might seem to this institution, and to the ladies and gentlemen who represent the various constituencies of the State of Washington, never cease to grow. It's a great experience for all of us and I can say that I appreciate this great honor, and after listening to Representative Ebersole and Representatives Niemi and Dellwo, I wonder where all this information came from. It's hard to express your deep feelings about being elected Representative for so long as I have and to receive the great honor that you people have bestowed upon me. It's certainly something that's real hard to express in words. Down the line it seems that I've been quite fortunate. Somebody has been guiding me through these many years and it has been a real honor to represent this great institution in this capacity. I look forward to serving all of you, each and everyone of you, and also with our new Speaker. I'm sure in the days ahead we are going to maybe have some problems, but I'm certain we are going to resolve them to the best of our ability.

At this time I would like to recognize my wife, Mary, and my niece Mary Lyn. Please stand. Again I want to thank you for granting me this great honor.

The Speaker instructed the escort committee to escort Speaker Pro Tempore John O'Brien to his seat on the floor of the House.

NOMINATIONS FOR CHIEF CLERK

The Speaker notified the House that nominations were open for Chief Clerk of the House.

Mr. Grimm: It's my honor to place in nomination the name of Alan Thompson as Chief Clerk of the Washington State House of Representatives. As those of us who have been around here for awhile know, and for those of you who may be new, Alan is a former Senator, just recently resigned in order to have this opportunity available to him and to us. He was a Senator for about six years and before that was a member of this august body for a number of years. He was obviously a young man compared to the Speaker Pro Tempore, but I think I was in about the eighth grade when he first was elected to this Chamber. He is a man of courage. He is a man of good judgment and he shares our aspirations. It was encouraging to hear the lady from the 43rd Legislative District in her seconding of the nomination of Representative O'Brien, as the arts are, for example, an instance of Mr. Thompson's concern about the future of the state. In fact, it was his concern about the future regard with which the arts in this state would be held. He was the one who sponsored the resolution that covered those murals up there and restored this Chamber to its previous grace and high stature. He was unable to accomplish a similar goal in the Senate and that will probably never get resolved over there, but we do appreciate his efforts here.

He is also, obviously, an excellent administrator in his real life. He owns and operates and is publisher of several newspapers in Southwest Washington. He has the skills of both an administrator and a counselor here, but the real reason I hope you will join with me in supporting this nomination is that it was about fourteen years ago—it was 1973—when Alan Thompson was Chairman of the House Employment Committee and he gave me my first job down here. So I hope you will all join with me in returning the favor for what, I hope, is an opportunity for him that we will all appreciate and will be an excellent opportunity for him to demonstrate yet another area of expertise that he has available to us.

On motion of Mr. McMullen, the nominations for Chief Clerk were closed. Alan Thompson was unanimously elected Chief Clerk of the House of Representatives.

Mr. Vekich appeared at the bar of the House.

The Speaker appointed Representatives Vekich and S. Wilson to escort Mr. Thompson to the rostrum.
Justice Utter administered the oath of office to Alan Thompson.

The Chief Clerk: With your indulgence, I would like to introduce to you my family in the gallery. My wife, Barbara and with her are two of our sons, Jonathan, who is going back to school at Whitman on Wednesday and Jim, who is leaving for Paris on the same day.

Briefly, I want to thank you for the confidence you have placed in me. I will do my very best to live up to it. It's a great pleasure to return to the House and a great honor. It's certainly a greater honor than being a member of the Washington State Senate.

ELECTION OF ASSISTANT CHIEF CLERK

The Speaker announced that nominations were in order for Assistant Chief Clerk.

Ms. Belcher: It's my pleasure today to place in nomination for the position of Assistant Chief Clerk, the name of Sharon Case. Again, for those of you who may be new to this body, Sharon has been Assistant Chief Clerk for the last four years, all of the time that I have served in the Legislature, and she has done a fine job. She has demonstrated her dedication to the House of Representatives over a period of time that begins to approach two decades. For those of us who know Sharon I know that seems impossible. She has been Assistant Chief Clerk during a time when we have gone through much change in the House of Representatives and indeed, she has been responsible for many of the organizational changes that have resulted in the highly-productive staffing organization that we now have. Our staff is a model throughout the country and is often modeled by other legislatures. Sharon has been involved in that organizational change and the growth that we have experienced and has been responsible for much of it. She has also been the person who has provided the continuity and has been the objective liaison between the policy makers of this body and the staff who support us in such a fine fashion. She has done that by being able to adapt to the changes of a constantly evolving body and she has done it very well. In addition to these things that make her qualified for the position of Assistant Chief Clerk, we all have a list of things we want to have changed or fixed or accomplished and we need to get her elected so that we can quickly present our lists. I want to take this opportunity, publicly, to say thanks for the paper towel dispenser in the fourth floor kitchen. I nominate Sharon Case for Assistant Chief Clerk.

On motion of Mr. McMullen the nominations for Assistant Chief Clerk were closed and Sharon Case was unanimously elected Assistant Chief Clerk of the House of Representatives.

The Speaker appointed Representatives Unsoeld and Taylor to escort Sharon Case to the rostrum.

Justice Utter administered the oath of office to Assistant Chief Clerk Sharon Case.

ELECTION OF SERGEANT AT ARMS

The Speaker announced that nominations were in order for Sergeant at Arms.

Mr. Sayan: I rise to nominate Ross Young to the position of Sergeant at Arms. Most of you know that this is a position second to none in importance to the personal and creature comforts of this body. As a matter of fact, Ross Young has served ably in this body for some twelve years consecutively, two years of that time he served as the caucus Sergeant at Arms. Let me share with you that Ross recently confided in me that during this entire period he has not received one worthy complaint. With the permission of the body, I would like to move that nominations be closed and that we cast a unanimous ballot for Ross Young.

Ross Young was unanimously elected Sergeant at Arms of the House of Representatives.

The Speaker appointed Representatives Holm and Amondson to escort Ross Young to the rostrum.
Justice Utter administered to Ross Young the oath of office of Sergeant at Arms of the House of Representatives.

**MOTIONS**

On motion of Mr. McMullen, the House advanced to the eighth order of business.

On motion of Mr. McMullen, the rules were suspended to allow consideration of House Resolution No. 4601.

**RESOLUTION**

WHEREAS, Dennis L. Heck is leaving the position of Chief Clerk of the House of Representatives, where he has served with distinction for the past two years; and

WHEREAS, Dennis L. Heck demonstrated admirable leadership and skillful management in serving as the chief executive officer of the House of Representatives; and

WHEREAS, Chief Clerk Dennis L. Heck has earned the respect of the members of the legislature, regardless of their political affiliation, and of the employees of the House of Representatives; and

WHEREAS, Dennis L. Heck, his wife Paula, and their son Bobby have established their family here in the Olympia community where Paula works as a Vice Principal for the Olympia School District; and

WHEREAS, Dennis L. Heck served eight years as a member of the House of Representatives before being elected to the office of Chief Clerk; and

WHEREAS, Dennis L. Heck held numerous leadership positions as a representative from the 17th District, including Chair of the Subcommittee on Basic Education, Chair of the House Education Committee, Minority Floor Leader, and Majority Leader of the House; and

WHEREAS, Dennis L. Heck authored the landmark Basic Education Act of 1977, the Tuition Reciprocity Act of 1979, the Public Accountancy Act of 1983, the Vote by Mail Act of 1983, and the Solid Waste Reform Act of 1984; and

WHEREAS, Dennis L. Heck's service in the House of Representatives began in 1973, when he worked for the House Education Committee; and

WHEREAS, Dennis L. Heck's service to the State of Washington as Chief Clerk, State Representative and a committee staff person will be regarded with honor;

NOW, THEREFORE, BE IT RESOLVED, By the House of Representatives, That we express our deepest appreciation to Dennis L. Heck for his service to the House of Representatives; and

BE IT FURTHER RESOLVED, That we wish Dennis L. Heck the best of luck in whatever endeavor he decides to pursue; and

BE IT FINALLY RESOLVED, That a copy of this Resolution be immediately transmitted by the Chief Clerk of the House of Representatives to Dennis L. Heck.

Mr. O'Brien: I move the resolution be adopted. It was somewhat of a surprise to me, really, advocating the adoption of this resolution because I thought Dennis Heck was someone who would be with us for many years. He was dedicated to his work and it seemed to me he enjoyed his work; it was a challenge for him. He served us well because he had prior experience on the floor of the House. He understood the process; he understood the legislators and he really tried and I think he was very impartial. I know from my experience with him on the rostrum.
that he looked at things objectively in a well-skilled manner. He was a very dedicated and intelligent person and I felt he would be with us for many years. As things go by I think Denny has greater ambitions and I know that you people have felt this privilege unanimously. Certainly I, along with the rest of you, wish him the best of luck in future endeavors and I know that with his talent and experience and know-how and the fact that he is a very ambitious individual—he has talked to me about many things economically and I know that in the future he is going to do well in whatever he attempts because he has that kind of a background and intelligence. I wish him well and I know you do, too, in his future efforts and we shall hear from Denny again.

Mr. Lewis: Also urging unanimous adoption of this resolution, but as a previous speaker said, with some reluctance. It's always kind of sad to see quality leaving this chamber. We obviously have quality coming in, but as one who has been around here for a little while, not only as a member, but as a staff person and then as one of these folks in the aisles with a TV camera, the institution and the workings of the institution were extremely important. I did have some concerns when we lost what I felt was the epitome of protecting the institution and that being Dean Foster. I often told the Governor that had I known he was going to pick someone of the high caliber of Dean Foster, I probably would have voted for him. I was a little concerned when Denny took the rostrum because of Denny's astute political savvy and I thought "Oh boy, here we go." But, Denny surprised me very pleasantly. He carried forth with the very high principal of Dean Foster. I mean that with all sincerity. It is a surprise to me to see Denny leaving; I felt that he, too, would be here for many years, hopefully not in his position for as long, but in some major role representing his caucus.

Denny, it is a shame to see you leave the House. You did a good job on the floor and you did an excellent job on the rostrum in protecting the most valuable commodity we have here and that's the institution we serve. Denny, we're going to miss you.

Mr. McMullen: I, likewise, rise to speak in favor of this resolution. We've had a chance to see Dennis Heck operate in several different roles and I harken back to when I first ran for the House. At that time Denny was a very partisan leader of our party and was very influential in my actual campaigning and election to the House. At that time, I recall, we had some tough economic decisions to make when we first came in and we spent hours and hours agonizing over the solutions and we felt we had our solutions; in fact, it passed both bodies, and I can recall very clearly, when I got the message that there had been a veto of all our hard work, running down to Denny Heck's office, closing the door and venting my thoughts on this whole process. Denny very carefully listened, heard me out, calmed me down and got me back on the right road. I'm forever grateful for the way he handled that particular situation. Denny then became the Chief Clerk and all of a sudden the respect for the Institution became, in his mind, paramount over and above the interests of either party. He was very clear to explain that we were here to serve the public regardless of partisanship and we bought him in that role. I could go on and on about the personal contact with Denny Heck. Were he not such a young man, this speech would be much harder but as you can see, I'm as curious as the rest of you as to where he's going to go. He's a very talented person. He has a great future in front of him. I wish him well in his future endeavors and I'm sure that whatever path he chooses to follow, we will all be very proud of Dennis Heck.

Ms. Hine: Denny Heck is a dear, indeed a rare bird. He came in as a spring chicken and is going out as a lame duck. When he came in, nobody thought he was going to win that election, but he got busy and he got elected to the House and as he is leaving us here, who wants him to go? Denny Heck brought a dimension to this legislature, to the government of the State of Washington, that is as much or more than any other individual and I guess I would echo that he has done it through some of the younger years of his life, a lot of us wait a lot longer to even start, and that makes it even more astounding. He has done something beyond serving us in these various capacities and serving us well. He has done more than that. A lot of you may not even know this, but he has spoken on behalf of us, the legislators, to more groups that I would guess anybody else in this body has. And
you know what? He likes to do it. I have seen him talk to those students in government. In fact, my children were in some of those groups and I have seen him talk to senior citizens, but especially the way he has related to those children. He gets them excited about government; enthused about government and I think they can hardly wait until they can line up to take our place. That is a rare talent and he gets back from those children just what he has given to them.

He has done one other thing that I want to especially highlight. He has touched my life deeply in what he has done to help me. I'm not going to go into that, but I suspect each of us has our Denny Heck story. One of the things about his character that I appreciated so very much is that occasion when we may have done something that was particularly good—maybe something particularly hard for us, but effective—he has told us so. How few of us remember to say that to each other. Denny, our love and good wishes go with you, but at this moment it's our thanks for all the jobs well done.

The resolution was unanimously adopted with all members names on.

The Speaker appointed Representatives Grimm, Nelson and Walk to escort Dennis Heck to the rostrum and the resolution was presented to him.

Mr. Speaker: Representative Hine mentioned you touching her life significantly; she mentioned that we all have those kinds of stories. I have that kind of story also that I'm not going to share today, but I think nobody in this body fails to note that you have touched this institution deeply. You have left standards of integrity and commitment that will serve this body well for years and years to come. Our very best wishes to you and with that my very, very deep and sincere thank you.

Mr. Heck: Senator Magnuson used to say that if he had known he was going to live this long he would have taken better care of himself and I've developed Heck's corollary, if I'd known you fell this way about me, I might have stayed around a little longer. I do thank you, Mr. Speaker and friends and colleagues, especially since it gives me the opportunity to have the gavel and the mike one last time. One last time to say thank you to a few very special people and goodbye to all of you.

I want to start with my bride, Paula—-it's just thank you, honey, it's not goodbye—I want to thank you for your years of sacrifice, my many absences, the stress I brought home with me, the late night phone calls, all of that which you dealt with so gracefully. I know there are a whole lot of people in this room who are going to miss Paula a lot more than they are going to miss me. She really reflects, I think, the kinds of sacrifices that all our families endure and it is really they who are the unsung heroes of politics.

Thank you to the people of the 17th Legislative District who, ten or eleven years ago, gave a twenty-four-year-old kid the brass to come up here and represent their interests among you. My heart is lighter leaving here today because I leave them fully in the very capable hands of my good friends Dean Sutherland and Kim Peery.

To staff, those here, those across the street listening on the intercom, I hope, Democrats and Republicans, even Vito, the Office of Program Research under Dennis Karra, the administrative staff, all of them and a few special acknowledgements: To Sharon, to Ed and to Ross, and now it's time, Ruth, to bring out the roses. Most importantly to Phyllis Mottman—most of you know who she is—she has been administrative assistant to the Chief Clerk for a long time and I think she began her employment with the House before I was born. (She was only four years old.) She is the closest thing to an institution outside of my good friend, John O'Brien, that this place has. The staff heard me say altogether too often, that nobody, myself included, is indispensable, which I have proven by my departure, but I think Phyllis disproves that rule because she truly is indispensable. As a token of my appreciation and affection, I want to share these roses with her now and tell her how much I will miss her.

To a few people who are not here, my thanks—Wayne Ehlers, whose effectiveness was exceeded only by his personal integrity; to Al Bauer, who made the dubious mistake of crossing the rotunda to the other chamber, who got me my start
in this business and there were times when he was proud of me and there were
times when he couldn't wait for this moment to arrive. To Dean Foster, my prede­
cessor, from whom I inherited my respect and love for this institution. I have to tell
you, Dean's philosophy on the separation of the power structure has undergone, I
think, a questionable change. To the Executive Rules Committee, my friends, Joe
and Lorraine and Sim and Clyde, who have already left (I hope your microphones
are on) but especially Sim and Clyde and the members of the minority. Dick Barrett
supported me in a seconding speech two years ago and I hope for all of you on
that side of the aisle that I have upheld your trust with my fairness in the conduct of
this office. Lastly to the escort committee who, as the Speaker has indicated, are the
last three remaining members of my class—kind of like the good, the bad and the
ugly—figure out among yourselves who is who. Dan, my dear friend, thank you for
disproving that legislative adage that around this place there are no friends, only
allies. Thank you to all of you.

Now I only have three brief parting shots: To the freshmen, you are now
embarking on a journey during which you will experience more frustration, more
stress, more anxiety, more lows and more highs and more rewards and more grati­
ation, make more new friends and lose more old friends than during any period
of time in the balance of your lives. I only ask that as you do, that you please
remember that the needs of this institution are more important than your personal
ambitions, your party's agenda, (with all due respect Madame Chair) or any par­
ticular issue. Nurture this institution as vigorously as you love democracy.

Secondly, to all of you, in those exceedingly rare but occasional moments
when self-importance sets in, do me this favor: Lean forward and start fiddling with
your name tag there at your desk on the floor. Please take note of how easily it
slides in and out and remember, my friends, that they change those name tags
often but the desks have always been here and always will be.

Last, I hope that at the end of your journey here, your time of service here in
the legislature, that you can stand before your colleagues with as much pride and
conviction as I do today and say, I got a lot more out of this place than I gave it
and I gave it everything I had. Thank you.

STATE OF THE STATE ADDRESS
BY GOVERNOR BOOTH GARDNER

Governor Gardner: Mr. President, Mr. Speaker, Mr. Chief Justice, distinguished Justices of the Supreme Court, members of the Legislature, honored elected officials and fellow citizens of Washington State: At 10 a.m.—under overcast skies—on January 8th, thirty people gathered on the second floor of a two-story wood frame building, just off the Interurban in Renton, where a little-noted event took place, of some significance to the many small businesses in this state who are trying to carve out a living. That morning the state announced the commencement of the Unified Business Identifier program for businesses registered to do business in the State of Washington. What that means simply is that instead of filling out fifty-five sheets of paper, they will now only fill out five. Instead of writing five checks, they only write one. Instead of coming to Olympia to file the papers, they can go to any of fifty offices throughout the State of Washington.

That's more than just an indication of the state's desire to serve the public, it's another small but important step to promote economic development in the State of Washington. That's our mission. Our mission is to help provide jobs for people and to take care of those who are unable to work while making sure that we maintain the unique environment which is so important to every one of us. It is a mission made more difficult by the world economy in which we live. And that's where this talk begins today. A discussion of the economy in which we live, a discussion of this state's major tool for fighting and giving ourselves positions and a discussion of how we might pay for this with the unique twists in that discussion. We live in a world economy, as well as a national economy. We see factories leaving and we see products coming back more cheaply. We see high-paying jobs disappearing from mass production facilities. We see the shift to high-technology with lower wages and many people are unprepared to accept those jobs. We see our welfare rolls in this state expanding without the ability to finance those rolls and pay for economic development at the same time. Already over half the money that we spend in this state goes for public education and the school-age population in this state is about to explode again ... in a state which requires full funding of education. The growth in elderly population is placing a tremendous strain on the state's finances. This is information that every one of you in this room could cite individually. But there are additional burdens on government which do not come to mind quite as quickly. First: The amount of money being cycled back to state by the federal government, with the exception of welfare monies, has decreased by one-third. To put that in numbers, the federal government in recent years sent $90-billion back to the fifty states. That figure has now gone to $60 billion and declining. A significant impact on the states and more so on local governments in the areas of law enforcement and fire. The new tax reform at the federal level severely restricts the state's ability to finance capital improvements. In a recent court decision, just last year, says that the federal government can force the state and local governments to comply with mandates regardless of the impact on state finances. Unfair? Sure it is, but those are the conditions in which everyone of us on this floor today find ourselves, and we have no choice but to cope. Because of this financial stress, governors and legislators become managers—more like a corporate environment
than the traditional political environment. The first thing you do when you are a manager is look at your economy. Without a healthy economy, you can't provide jobs for your people or care for those who cannot work. Government has a responsibility for the ingredients of a healthy economy. That means we have to do long-range planning built around economic development. We have to define objectives and the means for determining those objectives. For example, we must plan affordable, high-quality health care for the people of this state and we must begin to address the problem of the growing numbers of people who do not have health insurance. We must continue our commitment to the future generations that they will have clean water. We need to act this year on the major recommendations of the Puget Sound Water Quality Authority and every one of us in this room knows that one way or another we pay for poverty. We are addressing that problem in this state through a bold and creative welfare reform program. The heart of that program is getting rid of the disincentives for people to go back to work. Right now it sometimes costs people more money to go back to work than to stay home and collect welfare. That's just not right. Our goal is for people to be better off working than they are staying at home. Now it's no accident or political whim that education is the top priority for the coming session.

The people of this state have always known the importance of education. They knew that importance in 1889 when they adopted the Constitution of this state because Article IX says the paramount duty of this state will be to provide education—the strongest language of any Constitution of any state in this country. They knew the importance of it in 1895 when the Legislature adopted the John Rogers Barefoot Schoolboy Act, which became a national standard for state educational funding. The people of this state knew it in 1972 when Washington became the first state in this country to pass the Education For All Act providing education for handicapped children. They knew it in 1977 when the Legislature passed the Basic Education Act. The same holds today in 1987. Our standard of living, our quality of life and our status as a leader in this world all depend on our ability to meet the dramatic challenges faced by the changing world economy. Washington State is not the first state to come to this realization. In Tennessee, ten percent of the jobs were drying up each year, meaning 200,000 people were looking for work every twelve months. Facing that problem, a Republican governor said: "It becomes obvious to me that growing and keeping jobs meant having good skills. So the first thing we did was focus on better schools." In Massachusetts, a Democratic governor said: "We found ourselves in the pits in the middle '70s. We were so busy doing all kinds of other things that we kind of forgot that the economic strength and vitality of the state was fundamental to everything else we wanted to do." Their first priority included a heavy investment in state-supported schools. From there, they turned to the usual economic development tools of industrial revenue bonds, export assistance loans, et cetera. So there is a precedent.

What about this state? Let's begin with higher education. In this state we have not kept pace. Why? Because in the last ten years, only eight states in this country have committed a smaller percentage of their resources to higher education then we have. Our salaries, and our equipment, and our libraries have not kept pace, and the buildings themselves are falling into a serious state of disrepair. In our community colleges this year we are going to launch a major effort to improve adult literacy. Why? Because there are more than 270,000 adults in this state who are functionally illiterate. That means they can't read stop signs and they can't read simple directions on a TV dinner. They have trouble holding jobs. Higher education in this state used to represent over twenty percent of the state general fund budget. It now represents fifteen percent and if we don't step up to the problem, that percentage will continue to decrease. By some measurements, such as test scores, Washington's K-12 system is doing well. But just like the rest of the nation, the proficiency of many of our students has fallen behind that of students in those countries that compete against us for economic livelihood. Other measurements bring us more disturbing results. One out of every four students who enters high school this year will drop out without graduating. If you want a translation for that, it's this: More than sixty percent of our prison inmates are high school dropouts. The abuse of drugs and alcohol in high schools, even in junior highs and grade schools, is startling. Because we have not addressed these concerns at their
source, it dictates how we spend our money in this state. It means we spend money on prisons and welfare instead of education and economic development. But I don't think there's one of us that doesn't recognize that the best way to deal with welfare and crime is to attack the problem at its root source. There are nearly 200,000 children living at or below poverty in the state of Washington. A baby whose mother can't afford medical care or adequate food is deprived of the chance for equal opportunity long before reaching the schoolhouse door. Children whose parents can't read or write face insurmountable barriers and there's nothing natural about the progression from grade school to high school to college, so the cycle of poverty continues. This year, it is time to break the poverty cycle and we can do that by investing in early childhood education, in Project Even Start, which helps parents understand a little about what their children will be learning in school and other carefully defined programs. It should be a simple decision. It may cost us $3,000 a child, but when you consider that the average cost to care for an adult can run as high as $25,000 in our prisons and other institutions, it seems to me that we ought to pay now instead of paying later.

I believe it is extremely important to every one of us that we restructure the common school system of this state. Without going into detail, our proposal focuses on how teaching colleges, working together with educational leaders, can uphold the higher standards for new teachers. It focuses on how schools can reach and meet the educational needs of a greater number of students from the disadvantaged to the gifted. Specifically, (and follow this, if you will) we focus on the quality of schoolwide performance—by increasing the responsibility of teachers and principals, by providing them resources for inservice training and development, by making school funding and compensation simpler and fairer, by holding each school, and ultimately the system, accountable so that we can show the citizens of this state—based on facts, not faith—that their money is well spent. In short, we want to remove the shackles of bureaucracy and regulation that engulf our schools and let professional creativity and initiative take over.

Which brings me to the last part of this speech. I'm going to talk about the issue of paying for excellence. We have designed a revenue proposal which was based on four objectives: Raising money for education; promoting economic development; helping local governments meet their critical needs, and broadening the tax base, so we can avoid a recurrence of the financial problems which created the problems we are attempting to solve this session. Every one of us knows that we have 105 days to discuss taxes, so let me take the few minutes that are left and discuss those questions which are on the public's mind—I know because I hear them all the time. The first one: The state doesn't have a funding problem, it has a spending problem. Let's talk about that. Frankly, we have both. We have a funding problem and a spending problem because the spending in this state is dictated to us based on the basic needs of this state. Let's be specific. Ninety percent, approximately, of the state general fund money goes in two directions—it goes for education and human services, for enrollment and caseloads. We know that approximately fifty percent goes for K-12 for education and we have designed a program to deal with that. The next fifty percent goes for higher education and that system is in a world of hurt and we are going to stand up to that this session. Let's be very honest with ourselves. When we talk about spending reform, we're talking about human services. In a few minutes I will discuss one where we are going to take a look at where we can be more effective. In the aggregate there are some good arguments that we are not meeting the needs of human service at this juncture. I honestly don't know many people who sleep well every night knowing there are others out there going without such basic needs as medical care. I'm just here to tell you very candidly that this state will not turn its back any more than it has on those who need help. But at the same time, through welfare reform, through job training, day care and literacy programs, we will do everything we can to help people integrate back as contributing members of this society.

The second thing we always hear: Why don't we live within our means? We can live within our means. We can run state government exactly as it is being run today, we won't be able to make any instrumental investments in anything and we will continue to slide toward mediocrity, but we can live within our means. Let me use a business analogy with you. In business, when times are tough, you don't
second day, January 13, 1987

squirrel your money away. You invest in product improvement and you hold your market position so that you can get increased market share when the economy turns. It's no different at the state level. We need to get positioned, to make an investment and have that investment working for us.

Now the third thing we always hear: Let's cut waste in government. That is right and we are working at that in two fronts at least—small gains and big gains. The most direct means of finding waste and inefficiency is through our employees and through the Productivity Board program our employees this year alone have identified $1.4 million in savings. Simple little savings, like some people at the Department of Transportation figured out a better way to make highway transportation maps and saved the state over $200,000. Two ladies in the Department of Ecology mail room saved $12,000 when they figured a better way to do their business and took on a twenty percent workload increase at the same time. Small examples but important examples and there are many, many more just like that. Every one of us knows that the biggest savings come from the top—from new legislation and major management initiatives such as you enacted last time which allowed us to take a $225 million deficit in industrial insurance bonds and move that fund to a surplus which it has today. We need to continue to these opportunities. The Attorney General and I have joined forces to improve the state's ability to avoid costly court judgments. Potential savings—millions. The Department of Social and Health Services is revising a major welfare program to make sure that the dollars, that the food and the shelter are not used for alcohol. Potential savings—millions. We will continue this vigilance of attacking waste in every way that we can. We are going to initiate a program shortly, borrowed from state of Minnesota, called STEP, which means, simply, Strive for Excellence in Performance. We are currently modifying this program for our own use and plan to have it in place soon.

The discussion of the past few minutes was intentional. We can spend the next 105 days making excuses, or we can face up to the responsibility for which we were elected: which is to maintain the standard of living in this state in the highly competitive world in which we live; to stop dead in its tracks the growth of a permanent underclass; and which is to make an investment in our future to assure that this state has an outstanding educational system. As we enter 1987, I'm reminded that twenty-five years ago the City of Seattle hosted a World's Fair that many thought would bankrupt the City of Seattle. Seattle couldn't afford it, we heard. Let somebody else take the risks, critics said. Well, the critics were wrong. The people of Seattle took that risk, and they tackled a task which must have seemed overwhelming at the time. I offer that example as a symbol of what we can accomplish when we put our minds, our hearts and our resources together and we work for a common good. In two short years this state will celebrate its 100th Anniversary. I'd like it to be said at that time that Washington is truly preparing itself for the second one hundred years—economically, educationally and environmentally. I want it said that the Legislature and all of state government and throughout this state, have agreed that education is the key to the success of the 21st Century, and we've done something about that. I want it said that we've had the foresight to invest real money in education in the confident hope of a long-term payoff. I want it said that we, in this state, are a national leader in providing for people in need not simply a handout which offers no hope, but a hand up that provides real opportunity for education, training and economic independence.

Now I'm closing. Someday every one of us on this floor will be gone. I don't know what you want to leave behind you, but I'll tell you what I would like to leave behind. When I am gone I would rather leave the children of this state an opportunity for a good education than anything else I can think of. And finally, Mr. Jones, wherever you are, you called me on one of the many talk shows I've been on and you read me the riot act for wanting to spend money on education, and you said, "Give me the answer on your state of the state address." So here's your answer Mr. Jones: If you think education is expensive, try what we're paying for ignorance.

POINT OF INFORMATION

Mr. Padden: Mr. Speaker, how many votes does this bill require to pass?

The Speaker: Fifty-nine votes. Representative Padden.

POINT OF INQUIRY

Mr. Appelwick yielded to question by Mr. Wang.

Mr. Wang: Representative Appelwick, in the amendment we passed on the floor on Monday, the language struck the reference to extinguishing the rights to the unclaimed prizes and transferring it to the general fund. Does the language transferring it to the general fund have the effect of extinguishing the rights to the prize after the 180 days?

Mr. Appelwick: I would say it is the intent of the amendment. The first part of the sentence refers to the lottery holding the money for a winner for 180 days, and the only purpose in having that 180-day limitation is that after that point of time the money would revert to the state and to the general fund. It was not the intention that we not extinguish the right to the prize.

Representatives Wang, Pruitt and R. King spoke in favor of passage of the bill, and Representatives Fuhrman, Hargrove, Sanders, Barnes and Schoon spoke against it.

The bill was ordered engrossed.

Mr. McMullen moved that the rules be suspended, the second reading considered the third, and the bill be placed on final passage.

Ms. Brough: I rise really to address the process in the legislative arena and in particular with emphasis on the bill that is before us now, Substitute House Bill 445. This bill was first heard in public hearing, Thursday, in committee. It went straight from public hearing to executive session in committee. I would maintain that, in keeping with a good deliberative process, this was rather a quick and inappropriate move. Normally, in committee, members are permitted to read the language and prepare their amendments according to the language as presented and have a day to do that. But this happened differently in committee on Thursday, and it moved out from executive session and public hearing in one meeting time. The bill came to us on Friday and you made the motion, and we accepted that motion, to put it straight to the second reading calendar rather than have it referred to the Rules Committee. We supported that move in order to expedite the process to have this bill fully deliberated and discussed on the floor today. Because we feel that this bill is a very critical bill and the humanitarian concerns that are addressed in this bill are very important to the public in this state, I would encourage my members and those of you on the other side of the aisle to accept this bump. We have had a full deliberation today in this amendatory process and so I would encourage support for this move right now to the third reading calendar.

The motion was carried.

On motion of Mr. McMullen, all remarks on final passage were ordered inserted into the Journal.

Mr. Wang: Urging your support for this bill. For eighty-five days now we have dealt with Lockheed workers. We've seen them with their yellow armbands; we've seen them and know that they have been unable to find employment, either with Lockheed or anywhere else. They have been unable to obtain any unemployment benefits in contrast to virtually any other group of unemployed workers. They have been unable to qualify for public assistance, unable to qualify for food stamps, unable to get virtually any other assistance. For eighty-five days they have been stuck. They are desperate. I appreciate the cooperation of the lady from the 30th District who indicated the humanitarian aspect of this bill and the importance of swift action. I appreciate that because I think it is time for swift action. I hope that our action today will spur the body across the hall to take immediate action also and follow up and make sure that they do the next step. I think the focus is appropriately on them, once we have passed this, to take rapid action. However, I think it is also important to note that there are two issues involved here. One is the immediate issue of Lockheed and the humanitarian concern of providing assistance to those people who worked, who spent many long years working for a company providing shipbuilding assistance to our state. But the other issue is how we deal with collective bargaining in this state. The other issue is what is indeed a level playing field. It's the old cliche, but nevertheless, I think it's important to recognize that we need to make sure that collective bargaining takes place fairly. The major policy shift was done in July of 1986 when the NLRB made a decision which changed that playing field, which tipped the balance there. What we need to do is to restore the balance by allowing locked-out workers, who otherwise would have no benefits and would be under hopeless pressure of economic coercion; we need to allow those people the opportunity to at least respond, to be able to seek equitably to get their jobs back. There are plenty of safeguards in this bill. It provides only that benefits will be paid if there is a substantial deterioration in the benefits of the contract, or if they are ready to go back to work and are unable to do so because their employer refuses to allow them to go back to work. In order to level that playing field and to make the policy fair, I would urge your support of this bill.

Mr. Patrick: I rise in opposition to this bill. I can tell you for a fact that there are quite a few members on this side of the aisle who really want to vote for some kind of a bill that will drive out unemployment benefits to those workers who are ostensibly locked out. I think they are going to have great difficulty doing so. I think,
also, that many of you believe that this bill is going to pass this body rather quickly and that it's going to move through the Senate rather quickly for ratification by that body—that other body over there, but I believe you are going to find you are mistaken. Because of some of the very responsible amendments that were sponsored by myself today and others—because they weren't adopted by this body—it's going to make it more difficult in that other body.

Let's go through the bill very quickly. I want to compare the bill as it is now written to some of the amendments that I sponsored today. We did deal with the problem of multi-employer bargaining units and I thought that was a very responsible amendment that was passed by this body today, almost unanimously. But we didn't deal with all lockout situations and we should have, because that's going to come back and bite us sometime in the future. Waiting period — under this bill, there is absolutely no waiting period. The amendment that I ran would have created a waiting period of seven weeks. That's a responsible approach; it maintains that fair balance between labor and business and I hate using "level playing field." I think that's overused. There are some other requirements under this bill. The worker must agree to work as last offered unless there is substantial deterioration. Under the amendment that I proposed, the worker must have voted no on the last offer—must have had the opportunity to vote and voted no, must be willing to work at last offer and the offer must have been a substantial deterioration—a much more reasonable approach to solving the problems of the locked-out workers.

Effective date—this bill, November 16, 1986 retroactive. Under my amendment—actually there were no amendments, but I think we should have a later date than that, perhaps, December of 1986 rather than November of 1986.

Sunset clause—there is absolutely no sunset clause in this bill, which means it goes on to infinity unless we have a specific piece of legislation that would eliminate the law. Under my amendment it would have had sunset of December 27, 1987. That gave us plenty of time to look at the issue, to get some history and to come up with legislation that is going to be fair to all parties concerned.

Experience rating—under this bill a pool is charged for expenses prior to the enactment of this act, and then after the enactment of this act, the employer who is directly involved is going to be charged. Under my amendment the employer who is directly involved would be charged—a much fairer approach than the language in the bill.

Finally, a study and report. Under this bill a study is due back on January 1 of 1989. My amendment, January 1 of 1988. What was wrong with that amendment? Nothing. It is a much more responsible approach. I want to make it very clear that there are votes on this side of the aisle and we don't represent just business and we don't represent just labor, we represent all the people in the State of Washington. Sometimes in this body, it appears to me, we lose sight of that fact. I'm reluctantly going to vote no on this measure. I'm going to urge all of you to vote no, but I want to make it very clear that we are willing and able to be part of the process, to negotiate a bill that is fair to all parties. I urge your opposition.

Mr. Hargrove: I'm also going to urge you to vote no and for a very different reason. The reason is, the bill as we have amended it now, has eliminated the strikers, the locked-out employees in Grays Harbor, from receiving benefits under this bill. Also, Representative Sutherland's district has people who are eliminated from consideration under this bill. We have a plastic case here, as has been colorfully put by a representative from the 35th District, of the big pigs and the little pigs. What we have here is the Lockheed employees from Seattle—Seattle being the big pigs—pushing up to the trough and shoving the little pigs away—the people in Grays Harbor—for what is politically expedient at this time. Let's be serious here; this is the 29th day of a 105-day session. You don't think that there is more opportunity to sort out these problems and to alleviate the suffering of all of the people that have been adversely affected by a lock-out instead of rushing this bill out, taking care of a few who happen to have some political clout—Seattle—and eliminating the benefits for Grays Harbor and some people in other areas of the state who don't happen to carry the political clout. I would ask that every single representative from other than Seattle think seriously of what happens when your district comes up next time; when your district is the district that is picked on by the majority because they want to give benefits to Seattle and not to the rest of the state. I would
ask that until we solve this whole problem, that we vote no on this bill. Suppose this bill leaves this House, if passed as it is in the Senate, and goes to the governor's office for his signature. We'll have no other opportunity to deal with this bill again or with this issue again. This is our last chance, so I'm urging that you vote no until we correct these other problems.

Mr. Vekich: Members, this is another case where we see there is equality in the state, but some parts of the state are more equal than others. I'm going to vote for this bill, but not with a clear conscience, not with a happy heart; it's one where I think we've gotten into semantics here—offensive lockouts, defensive lockouts—what's the difference? People are deprived of their jobs; people pay taxes in this state and people ought to get equal protection of the law. That's a phrase we hear a lot and I think we lose track of it. We're not covering the Draper Valley people; we're not covering the locked-out grocery workers. I think once in awhile we just give in too much to the Senate and we make deals too quickly. Thanks to the Senate we've got the employment security laws that we have today because they made the deal. I'm not happy about this, but I think it's time for this body to stand up and start making policy on its own. A year ago, it was what happens across the body. Because in my opinion this is the body that is most representative of the state. By running every two years, we're more in touch. We get out and knock on more doors. I think it gets pinpointed over there in the decision-making and I wish for once we stood up to them and said no. I'm voting for this; I'm not happy about it and I think we ought to get back to the idea that everyone in the state should be equal and quit trying to find ways of splitting hairs and carving out areas because of political expedience.

Mr. C. Smith: This is my ninth year of serving on the Labor Committee in the House and during those years many of these things have come before this Labor Committee. It appears to me that the labor unions that come to our committee and many, many times come to try to change statutes, put into statutes those things that should be negotiated across the table. Now, once again, they come to the Labor Committee with an issue, a very emotional issue, the Lockheed. Once again, they are saying they would like to have their desires, which they tried to pass through the last few years, put into statute once again with a very emotional issue. The employees were questioned in the committee just last Friday. The question was asked, "Would you be willing to go back to work?" I saw all their heads nod yes. I felt sorry for those people; however, it is my understanding that they never had the opportunity after the first vote to be able to say yes. My question at this time is: Are labor unions more willing and more interested in changing these statutes on the laws that we have today than they are to see that the employees are employed properly? We're talking about one of the largest industries in this state, the shipbuilding industry. I know it because my son worked there, but we're talking also about one of the largest ports, the second largest I believe on the west coast. And doesn't the industry go with that. My biggest concern is, are we putting a sign up on our borders saying to those businesses that want to come into the state, beware of what we might do in that Labor Committee. Are we saying to the businesses that are already in the state, you had better watch out? I would hope you will vote no on this important issue.

Mr. Lux: With your indulgence I would like to relate a story that happened to me on December 1 in Washington, D.C. There was a National Conference of State Legislatures and a Conference of State Bank Supervisors that was held in unison to understand one another's problems. There was a fellow from Iowa, Thomas Houston, who was a farmer. He is the president and chairman of the Columbus Junction State Bank and he was a state bank supervisor in Iowa for ten years. He stated the situation on the status and soundness and solvency of banks and as you know, Iowa had its fair share of bank failures. Probably more than the average—it's a farm community—and when he wound up his presentation, he made a plea for farm subsidy. Farm subsidies are a federal program. Unemployment compensation is a federal and state program. I don't know how many of you would like to have urban legislators making determinations on farm subsidies. Unfortunately, those folks that plant and plow and then pray, if the crop is good, it's an oversupply and if it's a failure, there's nothing—either way, they lose. What those farm
TWENTY-NINTH DAY, FEBRUARY 9, 1987

subsidies do for the farmer is exactly what unemployment compensation does for
the worker in an urban area. I think you want to take that and remember very
seriously that these people are not itinerant, rootless folks wandering around
aimlessly. I've met with these folks at 6 o'clock in the morning down at the plant
gate; I've been at breakfast with them at 7 o'clock in the morning. They are used to
going up at 4 o'clock, 5 o'clock in the morning and getting down to the shop. I tell
you that when we make determinations that these people are not interested in
going back to work, we've made one hell of a mistake. I think it would be criminal
if we don't pass this bill and I would certainly hope for your support.

Mr. Fisch: Yes, this is a bill that has some flaws and yes, people do get emo­
tional when they are talking about food, shelter and clothing for the ones who are
the closest to them and yes, I'm disappointed that we didn't include the Grays Har­
bor people in the content of this bill, but I am going to vote for it. I'm going to vote
for it because of what it does. I wish it did more, but I can't see locking out from our
considerations here the Lockheed workers from the benefits that I think they need. I
think this is a chance for us to do some good and I hope you will join with me in
voting for it. Thank you.

Mr. B. Williams: You know we are all very sympathetic, I think, to the plight of
the Lockheed workers. Unfortunately, this bill does not address the problem. This
bill will not get the workers back to their jobs. Not only that, but this bill applies not
only to Lockheed but to many other workers. I'm very sensitive to the plight of
workers involved in labor dispute. I think many of us have had neighbors and
friends and family members who have been out of work with little or no benefits.
particularly in the last few years, but this bill does not get those workers back to
work. In fact, this bill could result in the permanent loss of jobs for those workers. I
would really like to urge the members to vote no on this bill. Let's work together on
a bipartisan basis; let's put together a bill that is geared to the Lockheed workers to
give them benefits, but in the meantime let's do something else. Let's, in the mean­
time, urge the Governor of this state to get involved in this dispute as he did in the
Seattle teachers' strike. Let's urge the Governor to bring both sides into the legisla­
tive building to hold them here until there is a negotiated settlement and until those
workers are back to work. The Lockheed workers don't want unemployment bene­
fits; they want jobs and we need to make sure that we do everything possible to
work on jobs and not to pass a bill that does not get the workers back to work but,
in fact, could negatively impact their jobs in the future. Let's vote no.

Ms. Hine: Just briefly, both sides, everyone here seems to be expressing desire
to help in a situation that we all recognize and then we go off on our own direction
as to why we will or why we won't. I think we need to keep in mind that these
people would have been covered had it not been for the NLRB ruling and so we
are not doing anything different from what we thought we had done in the past. I,
frankly, resent the notion that for some reason if you are a worker in an urban
area, there is something negative about that that we shouldn't
pay
attention to. We
are elected from our districts to serve the state. This bill ts in the best interest of
workers wherever in the state they may occur. We did leave out a couple that I
thought should have been in, but we have to give and take in this body and we
know that, so let's not kid ourselves, this is an opportunity, and it may be our only
opportunity, to help some people who desperately need some help and to right a
wrong that was done as a result of the federal ruling. Let's vote yes.

Ms. L. Smith: I guess this is one of those bills where you have a yea and a nay
and we have also said we would like to have a maybe, and I think I'd like to have
a neither, but they are not going to give me a neither. So what I'm going to have to
do is like we all do--sometimes we divide the sheet of paper; we put the good
parts on one side and the bad parts on the other side and we try to balance them.
This is a really hard bill for me because what I've seen is big unions, and some­
times big business, plague my families and my district as pawns and I find it repul­
sive and I guess most of you do also. Often I see unions not move knowing that
those in control don't have to worry about buying groceries, and I see companies
doing the same thing. They have enough money to hold up and I find that just as
repulsive. We are in a position right now that we have to look at what is now, what
I consider, not a very good bill. It could have been a balanced bill; it could have been a fair bill, but it's not, in its present form, and we have to decide what is best. For me, I guess I'm going to have to come down and look at who it is hurting and who I represent and that's the people and the families. So, as much as I find this total bill in the way that it is drafted now obnoxious, I'm going to vote with families and individual people who are out trying to buy groceries and then I'm going to pray the Senate cleans up the mess we've just made, so we don't have to come back next year and try to fix some of the problems I'm afraid that we've created. So I will vote yes and I'm sure that the rest of you will look to your districts and your people and do what you think is right.

Mr. Sayan: Very briefly, we are somewhat tired of the debate. I'm sure, but those of us who have taken the trouble to study the issue of labor in this country will recall that in 1935. the Wagner Act was passed after several years of strikes and labor management relationships that make today's activity look like a cake walk. For over fifty years, that law of the land, the Wagner Act, has been in place and it provided two basic things historically: One, that when employees strike they get no benefits and when management locks employees out, they get no benefits, but in 1986 under a new national relations board dominated by a new philosophy at the federal level, by people who seemed to have lost sight of the principles of equity, made a new ruling, a very dramatic ruling. That ruling was that you could lock people out; they would not have the benefits of unemployment compensation even though they didn't strike. That's not equity. That's not fair. That's not an equal playing field. Members of the body, this is simply not right and we should correct it. I hope you will support this legislation that takes one step in that direction, even though it denies the people I represent in the 35th District. So, vote yes.

ROLL CALL
The Clerk called the roll on the final passage of Engrossed Substitute House Bill No. 445, and the bill passed the House by the following vote: Yeas, 61; nays, 36; excused, 1.

Excused: Representative Basich - 1.

Engrossed Substitute House Bill No. 445, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

STATEMENT FOR THE JOURNAL
I support the concept of providing unemployment benefits to anyone involved in a labor dispute when it drastically impacts his/her economic well-being. Unfortunately, SHB 445 is not the proper vehicle to convey these benefits. This bill will give an advantage to one side which now does not enjoy such an advantage, and would tilt the balance of fairness. For this reason I am opposed to SHB 445.

JOHN B. BECK, 21st District.

On motion of Mr. McMullen, Engrossed Substitute House Bill No. 445 was ordered immediately transmitted to the Senate.

MOTION
On motion of Mr. McMullen, the House adjourned until 10:00 a.m., Wednesday, February 11, 1987.

JOSEPH E. KING, Speaker
The House was called to order at 10:00 a.m. by the Speaker. The Clerk called the roll and all members were present except Representatives Bristow, Grimm, P. King, Locke, Nelson, Wang and J. Williams. Representatives P. King and J. Williams were excused.

The flag was escorted to the rostrum by a Sergeant at Arms Color Guard, Pages Tracy Rogers and Kevin Gordon. Prayer was offered by The Reverend John Hagebusch, Minister of the Evergreen Christian Center of Olympia.

Reading of the Journal of the previous day was dispensed with and it was ordered to stand approved.

POINT OF INQUIRY

Ms. Valle yielded to question by Mr. Amondson.

Mr. Amondson: I would like to ask, Representative Valle, what the fiscal impact of this is and what the lost revenues will be as a result of this?

Ms. Valle: First of all, I couldn't predict how many people are going to smoke or not smoke within the next years. I know that the money for the cigarette tax that funds water quality cleanup have not gone down, they are up a percentage or two. In answer to you, because of the exemption of employers of four or less, the moneys that are on the fiscal note will be far less and right now the fiscal note is inaccurate and that's a million dollars over a six-year period. approximately, but it's going to take less money than that. As a matter of fact, FANS, right now, are taking all the complaints. They are doing it. This is a fresh air for nonsmokers organization and they are doing it and all of the complaints are being referred from DSHS and from Labor and Industries. At first there will be significant complaints and after that the complaints will fall because accommodations will have been reached by the smoker and the nonsmoker. This is a really very fair bill because it gives equal rights to both.
Mr. Amondson opposed passage of the bill, and Representatives Sprenkle and Ferguson spoke in favor of it.

POINT OF PERSONAL PRIVILEGE

Mr. B. Williams: Today we pause to remember Abraham Lincoln, a giant among men, who walked tall in our nation's history. He was possessed with some of the finest attributes and often, I think, we pray that we may be filled with these attributes of faith, courage, wisdom, justice and compassion. I really admire Abe's ability to stand up for what he believed in and to make the tough decisions even when they were not always popular. As we pause today to celebrate Lincoln's birthday, which is, of course, tomorrow, we remember a man who was born in a Kentucky log cabin. Success came late and death came early to Lincoln.

Almost from birth, Lincoln appeared to wind up as an also-ran in life's race. He was poor. He had very little formal schooling. He failed in business at the age of 22. He was defeated for the state legislature at 23. He failed again in business at age 25. He had a nervous breakdown at age 32. He failed to receive his party's nomination for Congress at 34. He ran for the Senate and he lost when he was 46. He was defeated for the vice presidential nomination at age 47; defeated again for the Senate at age 49. A hopeless loser, many people said. Yet Abraham Lincoln was elected our president at age 51. He knew how to accept defeat temporarily. Lincoln is remembered not only for his record as President, but also for two immortal speeches which he gave: The Gettysburg Address and his second Inaugural Address. At Gettysburg, Lincoln expressed a new moral concept between the victors and the vanquished. He expressed an ideal that made it possible to resolve the hate and to heal the wounds of a nation torn by one of the most bloody wars of all times. Hopefully, we will use his wisdom throughout this legislative session as we get some tougher times in the budget.

As Lincoln stated in his speech, "The world will little know, nor long remember what we say here...." If we put that into the sense of the state today, the people of this state will drastically be affected by our action. We need to re dedicate ourselves to the great tasks remaining before us, that from the honored memory of our dead president we take increased devotion to that cause to which he gave his last full measure of devotion. Those ideals which were expressed at Gettysburg in 1863 are as meaningful and as vital today as they were then. I am firmly convinced that they will continue to have vitality as long as men and women remain determined "...that government by the people, for the people and of the people shall not perish from the earth."
POINT OF PERSONAL PRIVILEGE

Mr. Todd: Those of you who have been here for the past two years are no doubt aware that this is also a special day for me. My great, great, great aunt was Mary Todd Lincoln, the wife of our 16th President, Abraham Lincoln. I'm sure you can all understand the pride that I take in being connected in this special way to one of our country's truly great men. I'm sure you can understand because we all have a special connection to Abraham Lincoln. If someone were to ask you to name the great presidents of the United States, what would you say? Whose face would come to mind?

The mention of certain historical events and great ideas have the same effect, the Civil War, emancipation, liberty and justice for all, one nation indivisible—all bring up the craggy bearded face of Lincoln. You can't spend a penny without seeing his face or lick a stamp (by the way he has appeared on three in the past three years alone). You've heard about him, read about him and seen him all of your lives. You've heard a great deal about him from my colleague from across the aisle. It's difficult, in fact, for me to stand up here and say anything that you don't already know about Lincoln when we have been celebrating his birthday for well over 100 years. Some of us probably stood on the floor of the legislature and memorialized him, as I am doing now, every year since this body came into existence. Lincoln is so well known to us that he has become larger than life. His stories become myth to the point that it's almost hard not to be skeptical—did he really walk all that distance just to return a book? Did he really stay up all night reading that book by firelight? Personally, I'm sure he did. How could he be all things to all people? A plain-spoken frontier lawyer, a sophisticated politician, a shy man and a very gifted speaker.

Historians would tell us that he was not a perfect man. He had some family difficulties; he was often depressed to the point where he once missed an entire session of the Illinois State Legislature. The details of his personal life don't really matter in the end because the accomplishments are known fact. He held our country together during a war that saw 600,000 Americans die on their own soil. He led the country past bitterness and hatred with his vision of "malice toward none and charity for all." He brought slavery to its legal end in the United States. He gave us a belief in ourselves as a nation, that could lead the world toward democracy through our example. He led Americans, by looking at him, see themselves at their best. He showed us commitment, determination, honesty, sacrifice, good humor and compassion. I believe in today's world, one hardly less troubled than Lincoln's, we would need his example as much as ever. Lincoln defined liberty as the "right to rise." Yet we find people all over the world, and some quite close to home, who have been denied the right to rise by war, political oppression, poverty or lack of education. Now, as much as ever, we need to use those qualities that Lincoln helped us to find in ourselves. We need to face the problems of our day with the honesty, skill and courage that Lincoln brought to the problems of his day. As we remember Lincoln on his birthday and as we remember his greatness, let us also remember the greatness we are all capable of and carry this lesson from the past toward a much better future.

POINT OF PERSONAL PRIVILEGE

Mr. Lux: I, too, have an interest in this great man. I think he's a symbol of what we refer to as the late bloomers. I just feel that it should be made very clear to some of us who have passed through the gate, so to speak, and where the slope is becoming steeper and slipperier, that there is hope. Also I want to leave with you the fact that Lincoln said many things and one of the things that most stands out in my mind is that he said: "Prior to and before capital, there must be labor." I leave you with that thought.

POINT OF PERSONAL PRIVILEGE

Ms. Walker: I am a native of the state of Illinois and one of the most memorable things that happened to me as a third or fourth-grade person, was being taken on a trip during spring vacation by my mother and she called it "The Lincoln Trip." We followed Abraham Lincoln's places of residence all through Kentucky, Illinois, Indiana and ended at the State Capitol in Springfield, Illinois at his burial place. I
still remember it very clearly. I would leave you with one quote from Mr. Lincoln which I will never forget. When speaking to a young man of about 10, he said to that young man: "If my father's son can be the president of the United States, think what your father's son can be." Those were very good words then and they are equally applicable today.

The area exempt under this section includes the building or buildings, the land under the buildings, and an additional area necessary for parking, not exceeding a total of one acre: PROVIDED, That for property essentially unimproved except for restroom facilities and structures on such property which has been used primarily for annual community celebration events for at least ten years, such exempt property shall not exceed twenty-nine acres.

To qualify for this exemption the property must be used exclusively for public gatherings and be available to all organizations or persons desiring to use the property, but the owner may impose conditions and restrictions which are necessary for the safekeeping of the property and promote the purposes of this exemption. Membership shall not be a prerequisite for the use of the property.

The use of the property for pecuniary gain or to promote business activities, except fund raising activities conducted by a nonprofit organization, nullifies the exemption otherwise available for the property for the assessment year. The exemption is not nullified by the collection of rent or donations if the amount is reasonable and does not exceed maintenance and operation expenses created by the user.

POINT OF PERSONAL PRIVILEGE

Ms. Allen: Yesterday was the birthday of one of our eminent historical people, Susan B. Anthony. Susan B. Anthony's activities were such that had she not been around we, some of us, might well not be here today. It extends that far. Susan Anthony was not a speaker, not particularly a writer, but she was one heck of an organizer. She took on the New York State Legislature in regard to revising the married women's property laws; she took on the New York State Legislature in regard to the antislavery petitions and finally, she did that for which we most remember her. she took on the suffrage for women program. This was something that was debated long and loud. It started a long time ago. Some of us don't remember how long ago it was. It started before the Civil War that women started—well, actually, Abigail Adams started asking for the vote and some consideration. At any rate, Susan B. Anthony finally saw that it was beginning to get to a point where she could do something about it. She registered to vote in New York and then she voted, for which she was arrested and tried and convicted. She was fined. The judge fined her, the judge convicted her. He pulled from his pocket a prewritten decision. He didn't pay any attention to the trial at all. However, Susan Anthony paid not a penny of that fine. nor did she spend a day in jail because of that sentence. She noted, "It is idle for women to hope to do battle until they shall be armed with weapons equal to those of the enemies—votes and money." Susan B. Anthony born in 1820. died in 1906. We wish her a happy birthday.

Ms. Hine: I would like to join my long-time good colleague in also commemorating Susan B. Anthony. I think it is worthy for us to note that this session, this legislature in the State of Washington has almost twenty-six percent women. We rank number four nationwide. In this body, in the House, and as Senator Evans said, we are more progressive and I don't know if he said we do better things. but I think we do. Thirty of our ninety-eight members are women. It was necessary for us to expand our facilities to accommodate so many of us and that was a really happy occasion we celebrated last week. I heard a news reporter say, not too long ago, how difficult it was to cover the legislature, it was kind of boring stuff to look out at that sea of male faces and dark suits. I'm delighted to look around and see that that situation has changed. We women have enjoyed our role in working the political system and following Susan B. Anthony in helping to do the good things for the people of our state. We have enjoyed the kind of reception and absolute equality that our colleagues in this enlightened body have shown us. May our pride increase.

THIRD READING

ENGROSSED SUBSTITUTE HOUSE BILL NO. 114, by Committee on Commerce & Labor (originally sponsored by Representatives Sayan, Patrick, Wang, R. King, Fisch and Winsley)

Extending effect of expired collective bargaining agreement.

The bill was read the third time and placed on final passage.

Representatives Sayan and Fisch spoke in favor of passage of the bill, and Representatives Patrick, C. Smith and Barnes opposed it.

Mr. Sayan spoke again in favor of the bill.

POINT OF INQUIRY

Mr. Patrick yielded to question by Mr. Padden.

Mr. Padden: Representative Patrick, under House Bill 114, what would be the effect if the tax base were to decrease in a city or school district?

Mr. Patrick: What would happen if a tax base was reduced under this bill is that the county or the city would have to continue services at the present dollar level or reduce services essentially. This bill would not give them the flexibility that they need. Let me give you an example. Let's look at some of the timber counties. If the Weyerhaeuser Company went out of business, I think we would all agree, that would have a substantial effect on revenues. Under this bill, the counties or the cities could not unilaterally implement the last offer at the table and would have to continue the salary and fringe benefit structure at exactly the same level. The only choice they would have would be to reduce services substantially within that city or within that county. I think we had better recognize that we have an obligation to the people that we serve. If this bill passes there is a very strong likelihood that services, essential services, would be reduced substantially because there is no other way to go. I urge your opposition to this bill. Thank you, Representative Padden.

Mr. Patrick spoke against passage of the bill, and Representatives R. King and Baugher spoke in favor of it.
Mr. Sayan yielded to question by Mr. Sutherland.

Mr. Sutherland: This bill provides that it will not apply to employees covered by RCW 54.04.170 and 54.04.180. What is the purpose of that reference?

Mr. Sayan: RCW 54.04.170 and .180 govern the labor relations of public utility districts. PUDs have never been covered by chapter 41.56 RCW, and so they would not be affected by this bill in any event. The reference to the PUD statute is in the bill out of an abundance of caution, just to make sure there is no doubt that the bill does not reach PUDs.

BE IT FURTHER RESOLVED, That copies of this Resolution be transmitted by the Chief Clerk of the House of Representatives to the Gain family and to the Washington State Patrol.

On motion of Mr. Cooper, the resolution was adopted.

HOUSE FLOOR RESOLUTION NO. 87-4625, by Representatives Cooper, Hargrove, Nelson, Miller, Barnes, Sutherland, Haugen, B. Williams, L. Smith, Vekich, Sayan, Brough, Nulley, Prince, Schoon, Allen, McMullen and Hine
WHEREAS, The Bonneville Power Administration proposed on March 2, 1986 to increase its electric rates by as much as 9.5 percent; and
WHEREAS, The Bonneville Power Administration also has proposed a possible second rate increase in 1988 of up to ten percent; and
WHEREAS, Many electric utilities that buy power from the Bonneville Power Administration have expressed concern over the proposed rate increases and their effect on local economies; and
WHEREAS, There is considerable concern that such rate increases would further reduce the Bonneville Power Administration’s sales and enlarge the current electricity surplus, especially since oil and gas prices in the Pacific Northwest have dropped twenty-five to forty-five percent in the past year; and
WHEREAS, The House of Representatives recognizes that the Bonneville Power Administration has an obligation to make scheduled payments to the federal treasury in full and on time and that the Pacific Northwest region has firmly committed itself to such repayments; and
WHEREAS, The proposed rate increases are, in part, the result of plans to increase the Bonneville Power Administration’s program spending by some $334 million per year, or fifteen percent; and
WHEREAS, The House of Representatives is concerned that the Bonneville Power Administration should receive any rate increase necessary to maintain its financial health and meet its obligations, but that any rate increase be held to the minimum sufficient to accomplish this goal; and
WHEREAS, Some of the Bonneville Power Administration’s costs are beyond the agency’s direct control and can be addressed only by Congress, such as increases in ratepayer-funded costs of the Corps of Engineers and the Bureau of Reclamation; and
WHEREAS, The Bonneville Power Administration’s proposed budget contains risk-mitigation measures that might be unnecessary with an annual rate review process; and
WHEREAS, Further scrutiny might reveal other areas where the Bonneville Power Administration’s budget could be reduced without affecting the long-term costs of power;
NOW, THEREFORE, BE IT RESOLVED, That the members of Congress from the Pacific Northwest states give careful scrutiny to the Bonneville Power Administration's proposed budget, requiring the Bonneville Power Administration to demonstrate that any rate increase is necessary to meet its other payments to the federal treasury and costs beyond the agency's direct control, and considering an annual rate review to reduce the need for budget contingencies; and

BE IT FURTHER RESOLVED, That copies of this Resolution be immediately transmitted by the Chief Clerk of the House of Representatives to each member of Congress from the States of Washington, Idaho, Oregon and Montana.

On motion of Mr. Cooper, the resolution was adopted.

On page 2, line 7 after "practitioners" insert ": PROVIDED FURTHER, That it shall be unlawful to fill a prescription written by an authorized prescriber who is not licensed in this state if more than six months has passed since the date of the issuance of the original prescription"

The bill was ordered engrossed. On motion of Mr. Appelwick, the rules were suspended, the second reading considered the third, and the bill was placed on final passage.

ROLL CALL

The Clerk called the roll on the final passage of Engrossed House Bill No. 235, and the bill passed the House by the following vote: Yeas, 97; excused, 1.

Excused: Representative Day - 1.

Engrossed House Bill No. 235, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

HOUSE BILL NO. 432, by Representatives Chandler, Lux, Ballard, McMullen, Winsley and Zellinsky
Regulating fraternal benefit societies.
The bill was read the second time.
Ms. Niemi moved adoption of the following amendment:
On page 18, line 17 after "equipment." insert "However, no exemption from state, county, district, municipal, or school tax may be granted to any society which denies full membership to any person on the basis of race or sex."

POINT OF ORDER
Mr. Padden: Mr. Speaker, I would challenge this amendment on the basis of scope and object and ask your ruling on that.

SPEAKER'S RULING
The Speaker: Representative Padden, the Speaker has examined House Bill 432 and it deals with charitable organizations. Section 24 deals with the taxes levied on those organizations. The amendment by Representative Niemi simply limits the tax as levied. The Speaker finds that this amendment is within the scope and object of the original bill.

Representatives Niemi and Locke spoke in favor of the amendment, and Representatives Winsley, Zellinsky and Chandler opposed it.

Ms. Niemi demanded an electric roll call vote and the demand was sustained.

Mr. Schoon spoke against adoption of the amendment.

POINT OF INQUIRY
Ms. Niemi yielded to question by Mr. Appelwick.

Mr. Appelwick: Representative Niemi, in your amendment, by "full membership," do you intend to include or exclude organizations such as the Elks, who have had a woman's auxiliary and organizations such as the Lions for selling insurance where there is a separate, but equal men's and women's organization?

Ms. Niemi: Neither the Lions nor the Elks are beneficial societies and they would not be involved in this; however, I do intend to exclude auxiliaries.

Mr. Wineberry spoke in favor of the amendment.

POINT OF ORDER
Mr. Lewis: Mr. Speaker, I believe we have a flawed amendment. The amendment that we are objecting to refers to "no exemptions..." and so on and so forth, "...in any society which denies membership to any person on the basis of race or sex." The title of the bill relates to "An Act Relating to fraternal benefit societies." My point is that Article II, section 19 of the State Constitution says that a bill must contain one subject and that should be expressed in the title. The title itself is sexist in that it deals with a brotherly beneficial society and this amendment wishes to strike from there the term "fraternal." My point of order, Mr. Speaker, is: Shouldn't there also be a title amendment to this amendment?
The Speaker: Your point of order is not timely, Representative Lewis. If you wanted to raise that point you should have done it at the time the amendment was moved. The question is moot.

Ms. Miller spoke in favor of the amendment.

ROLL CALL

The Clerk called the roll on adoption of the amendment by Representative Niemi to House Bill No. 432, and the amendment was adopted by the following vote: Yeas, 58; nays, 39; excused, 1.

Excused: Representative Day — 1.

The bill was ordered engrossed. On motion of Mr. Appelwick, the rules were suspended, the second reading considered the third, and the bill was placed on final passage.

Mr. Chandler spoke in favor of passage of the bill.

ROLL CALL

The Clerk called the roll on the final passage of Engrossed House Bill No. 432, and the bill passed the House by the following vote: Yeas, 93; nays, 4; excused, 1.

Excused: Representative Day — 1.

Engrossed House Bill No. 432, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

The Speaker declared the House to be at ease until 7:00 p.m.

ROLL CALL

Engrossed Substitute House Bill No. 454, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

On page 2, line 28 after "is" strike "guilty of a misdemeanor" and insert "liable for a civil fine not exceeding $100"

Representatives Brekke, P. King and Leonard spoke in favor of the amendment, and Representatives Padden and Nelson opposed it.

POINT OF INQUIRY

Mr. Padden yielded to question by Mr. Brooks.

Mr. Brooks: Representative Padden, is there any way that community service can be written into a bill like this without getting into the individual's record?

Mr. Padden: Representative Brooks, there is no way that I know of that you can mandate community service other than to go through the juvenile court system, which we would not be able to do through the bill. Under the juvenile court system there are diversion procedures and community service could, and in all probability, would be ordered. I should say now that this is a very, very small addition to the point system and would have almost a minimal affect on the total number of points. You are not going to be thrown into prison for buying cigarettes; you are going to have to have a much more severe misdemeanor for a long period of time and this is such a small percentage, I don't think it would have that much of an effect. It would allow for the diversion.

Mr. Sanders spoke in favor of the amendment.

The amendment was adopted.

The bill was ordered engrossed and passed to Committee on Rules for third reading.

POINT OF PERSONAL PRIVILEGE

Ms. Brough: This is the week following the deadline for committee action. I wish to stand and congratulate all the hardworking members of all the committees of the legislature for the work they have put forth in the first part of this session. I especially want to congratulate the members of the Ways & Means Subcommittees, who worked this weekend. The Ways & Means Subcommittee on Appropriations worked until 5:00 a.m. Sunday morning, and again yesterday evening they worked at our insistence because they had not finished their job and managed to get out the bills that impact children. We regret that a lot of honest work has gone for naught. There were seven bills in Committee on Ways & Means/Appropriations that passed committee action that were vetoed by one member of this body. I want to point out that this is a flaw in either the process or in the individual who would exercise such arbitrary power. This is an affront to this institution——
The Speaker (Mr. O'Brien presiding): Representative Brough, I want you to refer to Reed's Rule 178 under questions of privilege. It states what a member can and cannot do. The first part of your statement was fine, but I think you are now being quite critical of the process and under question of privilege as set forth by Reed's, you are out of order. We don't feel you should be allowed to continue if you are going to continue to be critical of the process. If you have recommendations to improve the process or if you are disturbed about the process, that's something else, but to stand up and to criticize the process, the number of bills that were defeated and weren't considered, I think that's out of order.

Ms. Brough: I want to address what I think has been an abuse of the members' work and efforts in this process. I also do have a solution to tender, so if I might continue I will do so. The members who worked these bills worked them in good faith and that good faith went for naught. Our process in this House, has historically been different than the process in the other body. If it is our collective intent to permit pocket vetoes by one member—one member, I might add, that is not elected to this chairmanship—I think we need to be aware that we have granted this privilege in our rules. We have done so, but I do not think that when he did this we anticipated this abuse of the power. I might also add, considering the floor debate that we had yesterday on an amendment to a piece of legislation about blatant sexism in this House---

The Speaker (Mr. O'Brien presiding): You are out of order, Representative Brough, please temper your remarks as much as you possibly can.

Ms. Brough: It's really hard to temper them because I do feel that the process has been abused. I mentioned the blatant sexism. Five of the seven bills that were passed were sponsored by women. In any event, if we are not allowed to address this issue, we do have a solution and I---

POINT OF ORDER

Ms. Hine: Mr. Speaker, I do believe that the remarks are conclusionary and frankly, I'm not amused by those kinds of remarks in this body about other members.

The Speaker (Mr. O'Brien presiding): Your point is well taken.

Ms. Brough: We do have a proposal to place on the rostrum today, a rule change that would abolish this abusive process. I would encourage all of you to consider this rule change and perhaps we can prevent this abuse of the integrity of the institution from occurring again.

POINT OF INQUIRY

Mr. C. Smith yielded to question by Mr. May.

Mr. May: Representative Smith, like many of us, I rely on the title of bills to describe content. This bill's title says it relates to collective bargaining for firefighters and emergency medical personnel. Since the title does not describe other persons who receive collective bargaining rights under this act, may I rely on the title to describe the parties granted such rights in this bill?

Mr. C. Smith: No, Representative May. You cannot rely on the title of SHB 498 to describe the parties given collective bargaining rights under it. In addition to the parties named in the title, the bill extends such rights to persons involved in fire investigation, fire inspection, fire dispatching and many other jobs often held by civilians who are not a part of the fire department.

Mr. May spoke against passage of the bill.

POINT OF INQUIRY

Mr. Wang yielded to question by Mr. Patrick.

Mr. Patrick: Representative Wang, as Chair of the House Commerce & Labor Committee through which House Bill 498 passed, have you examined the title of the bill for any constitutional defects?

Mr. Wang: I have examined the bill, its title and Article II, section 19 of the State Constitution. The title uses generic terms: Firefighters and emergency medical personnel. The bill is limited to employees of the fire department and allied EMTs. In substance, EMTs are merely moved from one section of the Code to another. The practical effect of section 1 is to deal with fire dispatchers. The bill extends collective bargaining to about thirty-five employees of some five fire departments. I would interpret the fire dispatchers to be included in the generic term in the title, "firefighters and emergency medical personnel."

Section 2 also deals with the subject of collective bargaining. The bill amends RCW 41.56, titled, "Public Employees' Collective Bargaining." If the title used that term it would have opened the subject up considerably. The primary purpose of Article II, section 19 has been interpreted to require disclosure of the general subject of the bill and to prevent log rolling. In my opinion, those constitutional purposes are not violated by this bill. I see no constitutional impairment in the title.
Mr. Patrick spoke in favor of passage of the bill.

MOTION

On motion of Mr. McMullen, the following remarks by Representative Sayan were ordered spread upon the Journal.

Mr. Sayan: I encourage you to support this legislation. I will do so by reading one brief paragraph out of the existing statute which explains the reasons for this legislation and may clarify some of the misinformation that has been presented here today. RCW 41.56.430 states: "The intent and purpose of this 1973 amendatory act is to recognize that there exists a public policy in the state of Washington against strikes by uniformed personnel as a means of settling their labor disputes: that the uninterrupted and dedicated service of these classes of employees is vital to the welfare and public safety of the state of Washington; that to promote such dedicated and uninterrupted public service there should exist an effective and adequate alternative means of settling disputes." Pursuant to that policy, and for no other reason, were these people who are already included under collective bargaining added to the arbitration purpose. That's the sole purpose of this legislation. I urge your support.

Mr. May spoke now in favor of the bill.

Point of Order

Ms. Valle: Mr. Speaker, I would ask for your ruling on scope and object of this amendment.

Speaker's Ruling

The Speaker: Representative Valle, the Speaker has examined Substitute House Bill 7 and the proposed amendment by Representative Braddock. House Bill 7 is entitled "An Act Relating to sunrise procedures for the regulation of professions..." Its main purpose is to expand the sunset law to cover business professions as well as health professions. The state sunrise law provides guidelines for the regulation of health professions which are not currently licensed or which seek a substantial increase in the scope of their practice. The amendment deals with licensed dental hygienists under chapter 18.29 RCW and expands their allowed scope of practice. The Speaker finds that the subject matter of the bill is limited to sunrise procedures under chapter 18.120 RCW. It does not deal with the licensing or regulation of particular professions. The amendment would expand the scope of the bill beyond that of licensing procedures; therefore, it is beyond the scope and object of Substitute House Bill 7. Your point is well taken.

On motion of Mr. McMullen, the rules were suspended, the second reading considered the third, and the bill was placed on final passage.

Representatives Wang and Patrick spoke in favor of passage of the bill, and Representative Silver opposed it.

Mr. Baugher moved adoption of the following amendment by Representatives Baugher, Chandler, Nealey, Brooks and Rasmussen:

On page 1, after line 4 insert:
NEW SECTION. Sec. 1. Agriculture is a major industry in Washington state. During the last several years, farm credit has become tighter, making it more difficult for farmers and ranchers to obtain necessary financing. In addition, commercial banks located in rural, farming communities have been faced with increased competition and harder times because of the drop in farm income and the increase in bankruptcies. The legislature, by granting the additional powers provided in this act, intends that the supervisor of banking assure that the additional powers granted to commercial state chartered banks are those necessary to assure the viability of all banks, especially those located in rural communities, so that they will continue to be able to provide credit to farmers and ranchers.

Renumber the remaining sections consecutively.

POINT OF PARLIAMENTARY INQUIRY

Ms. Schmidt: Mr. Speaker, this amendment deals with travel agents. In my private life I operate travel agencies that would be affected by this amendment. I ask for your ruling on whether or not I am eligible to vote on this measure based on House Rule 20(D)?

SPEAKER'S RULING

The Speaker: Representative Schmidt, the question you raise presents a dilemma faced by most members of a citizen legislature because by its very nature, the legislature deals with issues that impact the private lives of its members. House Rule 20(D) provides that no member shall vote on any question in which that member has an immediate or particular interest. A similar provision is contained in Article II, section 30 of the State Constitution, which prohibits members from voting on matters in which they have a private interest.

The rulings of previous speakers on this point have consistently been that unless members have an immediate or particular interest in the question they will not be excused from voting. In other words, if a legislator is a member of a class of people affected by the bill or amendment in question but is not treated differently than other members of that class, then the member will not be excused from voting on the issue. In this case, it appears that your concern is simply as a member of the class of individuals affected by this bill. Therefore, a request to be excused from voting would have to be denied.

A division was called.

ROLL CALL

The Clerk called the roll on adoption of the amendment by Representative Zellinsky and others to Substitute House Bill No. 341, and the amendment was adopted by the following vote: Yeas. 53; nays. 41; absent. 1; excused. 3.

The board shall have the following responsibilities with respect to the department of corrections:

(1) Within two years of July 1, 1981, it shall recommend such advisory standards to the legislature, the governor, and the department as it determines are necessary to: (a) Meet federal and state constitutional requirements relating to health, safety, security, and welfare of inmates and staff or specific state or federal statutory requirements; and (b) provide for the public's health, safety, and welfare. In carrying out this responsibility, the board shall consider the standards of the United States department of justice and the accreditation commission on corrections of the American corrections association and any other standards or proposals it finds appropriate. Whenever possible, these standards should discourage duplication of services by the state and local governments.

(2) The standards recommended by the board shall be advisory only and may not be enforced by the board. The board shall review and make recommendations regarding any standards which are proposed by the secretary.

(3) ((Each year commencing in 1983)) On or before July 1, 1988, the board shall issue a report to the governor, the legislature and the department which shall contain: (a) All recommended standards which are proposed either by the board or the secretary, and the reasons
for any variance therefrom with respect to adopted standards; and (b) a report on the variance (i) between its recommended standards and the standards adopted by the secretary; (ii) between its recommended standards and the performance of the department; and (iii) between the standards adopted by the secretary and the performance of the department. This report shall be issued by July 1 of each even-numbered year after 1988.

(4) The board shall review the development and functioning of the department’s grievance procedures. The board and the secretary shall jointly visit and inspect at least once (a year) every two years each state corrections institution. For institutions of less than one hundred fifty, the board may appoint one or more of its members to carry out this duty.

(5) The board may recommend advisory standards for the location, construction, and operation of all state correctional facilities and programs.

(6) The board may recommend to the governor, the legislature, and the secretary the expenditure of public funds in a manner which recognizes and advances the board’s or the secretary’s proposed standards.

(7) The board shall appoint an executive secretary to assist it in carrying out its functions under this chapter. As authorized by the board, the executive secretary shall hire and supervise necessary staff to assist the board in carrying out its duties. The secretary may provide any technical assistance or support which the board may request from time to time.

Sec. 2. Section 21, chapter 136, Laws of 1981 as amended by section 107, chapter 287, Laws of 1984 and RCW 72.09.150 are each amended to read as follows:

(1) The corrections standards board shall consist of (eleven) eleven voting members appointed by the governor with the consent of the senate. The secretary of corrections shall serve as an ex officio member without a vote. In addition, the speaker of the house of representatives and the president of the senate shall each appoint two nonvoting members, one from each of the two largest caucuses in their respective houses.

(2) The voting members shall serve four-year staggered terms. No member may serve more than two consecutive terms. (Of the voting members, initially one third shall be appointed for two-year terms; one third for three-year terms, and one third for four-year terms) The legislative members shall serve two-year terms, or until they cease to be members of the house from which they were appointed, whichever occurs first.

(3) The voting membership of the board shall be divided so that seven of the members reside west of the Cascade mountains and four reside east of the Cascade mountains. (One-third) Five of the members shall be elected county, city, or town officials, (one-third) two of whom shall be either a county commissioner or, in the case of a home rule county, a county council member or executive. Three members shall be elected or appointed state officials or their designees, and (one-third) three shall be private citizens. (In 1983, the members appointed to take the positions of the persons previously appointed to the two-year terms provided under subsection (2) of this section shall have been members of the state jail commission as local government representatives on June 30, 1983.) All local elected officials appointed shall be from jurisdictions which currently operate a jail. The board shall include women and members of minority groups as that term is commonly understood.

(4) The members of the board shall be compensated in accordance with RCW 43.03.240 and shall be reimbursed for travel expenses under RCW 43.03.050 and 43.03.060 for nonlegislative members and under RCW 44.04.120 for legislative members.

(5) The members shall elect a chairman and such other officers as they deem necessary.

Sec. 3. Section 20, chapter 136, Laws of 1981 and RCW 72.09.170 are each amended to read as follows:

In respect to local government facilities and programs, the corrections standards board, commencing July 1, 1983, shall exercise the powers and duties of the state jail commission: PROVIDED, That the authority for adoption of mandatory custodial care standards as provided in RCW 70.48.050(1)(a) and enforcement of such standards pursuant to RCW 70.48.070 and 70.48.080 is vested in a seven member committee of the board. (Three) Five of whom shall be the county, city, or town representatives on the board, and two of whom shall be appointed by the board chairman. The board shall recommend this committee with such staff and support as is appropriate for the committee’s performance of its powers and duties.

Sec. 4. Section 22, chapter 136, Laws of 1981 and RCW 72.09.180 are each amended to read as follows:

The corrections standards board shall cease to exist two years after July 1, 1987, unless extended by law. The legislative budget committee shall review the board and recommend to the legislature by January of 1989 whether or not the board should be extended.

POINT OF ORDER

Ms. H. Sommers: Mr. Speaker, I ask you to rule on scope and object of this amendment.
SPEAKER'S RULING

The Speaker: The Speaker has examined Substitute House Bill 738 and has examined the amendment by Representative Sayan. I find that the title of the bill is "An Act Relating to the transfer of correction standards to other state agencies,..." That is the title of the bill; that is the scope of the bill. The amendment does not deal with transferring the board, but with continuing it. I find the amendment to be outside the scope and object of the bill. Representative Sommers, your point is well taken.

The bill was passed to Committee on Rules for third reading.

The House advanced to the eighth order of business.

SPEAKER’S RULING

The Speaker: Representative King, I have reviewed Substitute House Bill 1004 and reviewed the amendment that you have asked me to examine. Mr. Crane: Mr. Speaker, I would challenge this amendment on grounds of scope and object.

The Speaker: Representative Crane, the Speaker has examined Substitute House Bill 1004 and the amendment offered by Representative Meyers. The original bill deals with sunset review process and the amendment deals with the duties of

On page 2, alter line 11, insert the following:

"Sec. 3, Section 2, chapter 96, Laws of 1979 ex. sess. as amended by section 2, chapter 306. Laws of 1986 and RCW 41.32.485 are each amended to read as follows:

(1) Notwithstanding any provision of law to the contrary, effective July 1, 1987, as a cost-of-living adjustment, no beneficiary receiving a retirement allowance pursuant to this chapter shall receive, as the pension portion of that retirement allowance, less than $13 per month for each year of service creditable to the person whose service is the basis of the pension. Portions of a year shall be treated as fractions of a year and the decimal equivalent shall be multiplied by $13. Where the pension payable was adjusted at the time benefit payments to the beneficiary commenced, the minimum pension provided in this section shall be adjusted in a manner consistent with that adjustment.

(2) Notwithstanding any provision of law to the contrary, effective July 1, 1979, the retirement allowance of each beneficiary who either is receiving benefits pursuant to RCW 41.32.520 or 41.32.550 as of December 31, 1978, or commenced receiving a monthly retirement allowance under this chapter as of a date no later than July 1, 1974, shall be permanently increased by a post-retirement adjustment. This adjustment shall be in lieu of any adjustments provided under RCW 41.32.499(6) as of July 1, 1979, or July 1, 1980, for the affected beneficiaries. Such adjustment shall be calculated as follows:

(a) Retirement allowances to which this subsection and subsection (1) of this section are both applicable shall be determined by first applying subsection (1) and then applying this subsection. The department shall determine the total years of creditable service and the total dollar benefit base accrued as of December 31, 1978, except that this determination shall take into account only those beneficiaries to whom this subsection applies;

(b) The department shall multiply the total benefits determined in (a) of this subsection by six percent and divide the dollar value thus determined by the total service determined in (a) of this subsection. The resultant figure shall then be a post-retirement increase factor which shall be applied as specified in (c) of this subsection;

(c) Each beneficiary to whom this subsection applies shall receive an increase which is the product of the factor determined in (b) of this subsection multiplied by the years of creditable service.

(3) The provisions of subsections (1) and (2) of this section shall not be applicable to those receiving benefits pursuant to RCW 41.32.540 or 41.32.760 through 41.32.825.

NEW SECTION. Sec. 4. There is appropriated seven million eight hundred thousand dollars, or so much thereof as may be necessary, from the general fund to the teachers' retirement fund for the biennium ending June 30, 1989, for the purposes of paying the cost-of-living adjustments provided in section 3 of this act."

Renumber the sections consecutively.

POINT OF ORDER

Mr. Locke: Mr. Speaker, I would like a ruling on scope and object of this amendment.
The Speaker (Mr. O'Brien presiding): It appears the act pertains to social security benefits for retired teachers. The amendment is broadening the scope completely and allows for all teachers, and according to Reed's Rules, amendments are supposed to be germane and relevant to the subject matter of the bill. The Speaker is going to rule it out of order.

Ms. Unsoeld moved adoption of the following amendments:
On page 2, on line 11, after "of" insert "section 1 of"
On page 2, after line 11, insert the following:
*NEW SECTION. Sec. 3. A new section is added to chapter 41.32 RCW to read as follows:
Beginning July 1, 1987, and every year thereafter, the department shall determine the following information for the minimum retirement allowance provided by RCW 41.32.485(1):
(1) The dollar amount of the minimum retirement allowance as of July 1, 1987;
(2) The index for the 1986 calendar year, to be known as 'index A';
(3) The index for the calendar year prior to the date of determination, to be known as 'index B'; and
(4) The ratio obtained when index B is divided by index A.
The value of the ratio obtained shall be the annual adjustment to the minimum retirement allowance and shall be applied beginning with the July payment. In no event, however, shall the annual adjustment:
(a) Produce a retirement allowance which is lower than the minimum retirement allowance as of July 1, 1987;
(b) Exceed three percent in the initial annual adjustment; or
(c) Differ from the previous year's annual adjustment by more than three percent.
For the purposes of this section, 'index' means, for any calendar year, that year's average consumer price index—Seattle, Washington area for urban wage earners and clerical workers, all items, compiled by the bureau of labor statistics, United States department of labor.

NEW SECTION. Sec. 4. A new section is added to chapter 41.40 RCW to read as follows:
Beginning July 1, 1987, and every year thereafter, the department shall determine the following information for the minimum retirement allowance provided by RCW 41.40.198(2):
(1) The dollar amount of the minimum retirement allowance as of July 1, 1987;
(2) The index for the 1986 calendar year, to be known as 'index A';
(3) The index for the calendar year prior to the date of determination, to be known as 'index B'; and
(4) The ratio obtained when index B is divided by index A.
The value of the ratio obtained shall be the annual adjustment to the minimum retirement allowance and shall be applied beginning with the July payment. In no event, however, shall the annual adjustment:
(a) Produce a retirement allowance which is lower than the minimum retirement allowance as of July 1, 1987;
(b) Exceed three percent in the initial annual adjustment; or
(c) Differ from the previous year's annual adjustment by more than three percent.
Persons who served as elected officials and whose accumulated employee contributions and credited interest were less than seven hundred fifty dollars at the time of retirement shall not receive the benefit provided by this section.
For the purposes of this section, 'index' means, for any calendar year, that year's average consumer price index—Seattle, Washington area for urban wage earners and clerical workers, all items, compiled by the bureau of labor statistics, United States department of labor.

Renumber the sections consecutively.

POINT OF ORDER

Mr. Locke: Mr. Speaker, again I would challenge this amendment. I believe it exceeds the scope and object of the bill.

SPEAKER'S RULING (MR. O'BRIEN PRESIDING)

The Speaker (Mr. O'Brien presiding): The proposed amendment by Representative Unsoeld pertains not only to teachers, but also to state employees. It presents allowances on the consumer price index and on that basis, the Speaker is going to rule that it isn't germane to the subject matter of House Bill 1070. The amendment is out of order.

On motion of Mr. Locke, the rules were suspended, the second reading considered the third, and the bill was placed on final passage.
Representatives Unsoeld, Silver and Jacobsen spoke in favor of passage of the bill.

Strike everything after the enacting clause and insert the following:

"Sec. 1. Section 3, chapter 96, Laws of 1979 ex. sess. and RCW 43.43.275 are each amended to read as follows:

(1) Notwithstanding any provision of law to the contrary, effective July 1, 1987, no beneficiary receiving a retirement allowance pursuant to this chapter shall receive less than ((ten)) thirteen dollars per month for each year of service creditable to the person whose service is the basis of the retirement allowance. Portions of a year shall be treated as fractions of a year and the decimal equivalent shall be multiplied by ((ten)) thirteen dollars. Where the retirement allowance was adjusted at the time benefit payments to the beneficiary commenced, the minimum retirement allowance provided in this subsection shall be adjusted in a manner consistent with that adjustment. The minimum retirement allowance provided in this subsection shall not be applicable to those receiving benefits pursuant to RCW 43.43.040 or 43.43.270 (3) or (4).

(2) Notwithstanding any provision of law to the contrary, effective July 1, 1979, the retirement allowance of each beneficiary who either is receiving benefits pursuant to RCW 43.43.270 as of December 31, 1978, or commenced receiving a monthly retirement allowance under this chapter as of a date no later than July 1, 1974, shall be permanently increased by a post-retirement adjustment. This adjustment shall be in lieu of any adjustments provided under RCW 43.43.260(5) as of July 1, 1979, or July 1, 1980, for the affected beneficiaries, except that in no case shall such adjustment be less than the total of those which would be provided under RCW 43.43.260(5) as of July 1, 1979, and July 1, 1980. Such adjustment shall be calculated as follows:

(a) Retirement allowances to which this subsection and subsection (1) of this section are both applicable shall be determined by first applying subsection (1) and then applying this subsection. The department shall determine the total years of creditable service and the total dollar benefit base accrued as of December 31, 1978, except that this determination shall take into account only those beneficiaries to whom this subsection applies;

(b) The department shall multiply the total benefits determined in (a) of this subsection by six percent and divide the dollar value thus determined by the total service determined in (a) of this subsection. The resultant figure shall then be a post-retirement increase factor which shall be applied as specified in (c) of this subsection;

(c) Each beneficiary to whom this subsection applies shall receive an increase which is the product of the factor determined in (b) of this subsection multiplied by the years of creditable service.

NEW SECTION. Sec. 2. A new section is added to chapter 43.43 RCW to read as follows:

(1) The benefits provided under subsection (2) of this section shall be available only to surviving spouses whose allowances commenced before January 1, 1970, and who are not receiving and are not eligible for federal old age, survivors, or disability benefits.

(2) Effective July 1, 1987, the minimum retirement benefit provided pursuant to RCW 43.43.275(1) to surviving spouses who meet the qualifications in subsection (1) of this section shall be twenty-three dollars per month per year of service. However, the minimum benefit for the surviving spouse of a member who died in service who meets the qualifications in subsection (1) of this section shall be calculated using twenty years of service or the member's actual years of service, whichever is greater.

NEW SECTION. Sec. 3. The sum of fifty-one thousand dollars, or so much thereof as may be necessary, is appropriated from the motor vehicle fund to the Washington state patrol fund for the biennium ending June 30, 1989, to carry out the purposes of paying the cost-of-living adjustments provided by this act.

NEW SECTION. Sec. 4. This act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect July 1, 1987."

Representatives Hine and Patrick spoke in favor of the amendment.

POINT OF INQUIRY

Ms. Hine yielded to question by Ms. Silver.

Ms. Silver: Representative Hine, there is no fiscal note attached. Could you tell us what the fiscal responsibility is to the state?

Ms. Hine: Representative Silver, the original bill was $75,000 and this is a little bit more than that. I'm sorry I can't give you the exact figure, but it is very close.

Ms. Silver: Very close? It would not be over $100,000?

Ms. Hine: I believe not. I'm told now that it is $53,000.

The amendment was adopted.
On motion of Ms. Hine, the following amendment to the title of the bill was adopted:

On page 1, line 1 of the title after "allowances," strike the remainder of the title and insert "amending RCW 43.43.275; adding a new section to chapter 43.43 RCW; making an appropriation; providing an effective date; and declaring an emergency."

It can go up or down on a quarterly basis rather than waiting for the whole year to go around before there is any change in the interest rates. The usury on banks is four percent above T bill on the twenty-six weeks option, but on this particular one it was on the yearly average and it had to go a whole year before there was a rate set. NEW SECTION. Sec. 2. A new section is added to chapter 70.95 RCW to read as follows:

Prior to January 1, 1988, each county and the cities within the county shall enter into an interlocal agreement pursuant to chapter 39.34 RCW for preparation of a comprehensive solid waste management plan. An interlocal agreement shall: (1) Designate either the county or a city as the lead agency responsible for the preparation of the plan; (2) provide for the joint financing of the plan; (3) provide for the responsibilities of the cities and county for preparation and implementation of the plan; (4) provide for existing solid waste systems and plants authorized under RCW 35.21.120 through 35.21.154, or chapter 35.67 or 35.92 RCW; and (5) provide for existing county solid waste systems and facilities authorized under chapter 36.58 RCW.

The interlocal agreement shall provide for the joint appointment of members to the solid waste advisory committee by the county and cities as required under section 11 of this act.

The requirement to enter into an interlocal agreement under this section shall be satisfied if, prior to January 1, 1988, a county and the cities within the county have entered into a different interlocal agreement providing for a coordinated system of solid waste disposal that assigns management responsibility of the system to one city or county and is binding on other cities and counties as contemplated by this section.

A city authorized under RCW 70.95.080 to prepare its own comprehensive solid waste management plan that wishes to exercise this option must make such intention known in the interlocal agreement required under this section.

An interlocal agreement may provide that a city may enter into an agreement with another county, a city in another county, or both, to become part of the comprehensive solid waste management plans of both counties if: (1) The city has given prior notice of its intent to the county in which it is located; and (2) the agreement is incorporated into the comprehensive solid waste management plans of both counties.

Sec. 3. Section 8, chapter 134, Laws of 1969 ex. sess. as amended by section 17, chapter 448, Laws of 1985 and RCW 70.95.080 are each amended to read as follows:

"(Each county within the state, in cooperation with the various cities located within such county, shall prepare a coordinated, comprehensive solid waste management plan. Such plan may cover two or more counties:

Each city shall:

(1) Prepare and deliver to the county auditor of the county in which it is located its plan for its own solid waste management for integration into the comprehensive county plan; or

(2) Enter into an agreement with the county pursuant to which the city shall participate in preparing a joint city-county plan for solid waste management; or

(3) Authorize the county to prepare a plan for the city's solid waste management for inclusion in the comprehensive county plan.

Two or more cities may prepare a plan for inclusion in the county plan. With prior notification of its home county of its intent, a city in one county may enter into an agreement with a city in an adjoining county, or with an adjoining county, or both, to prepare a joint plan for solid waste management to become part of the comprehensive plan of both counties;

(1) Every county and the cities within each county shall prepare a coordinated comprehensive solid waste management plan.

Any city with a population of one hundred thousand or more, and any city that owns or operates a solid waste disposal site receiving all of the solid waste generated within the city, may prepare its own comprehensive solid waste management plan for the city which shall be
having the authority to operate, manage, regulate, plan for, designate, and set rates for the
and other major disposers of solid waste at the site. If the site is publicly owned or operated,
solid waste system or facilities, unless the legislative authority of the city or county owning or
site is privately owned or operated, changes in rates shall require notification and hearings.

(3) After consultation with representatives of the cities and counties, the department shall
establish a schedule for the development of the comprehensive solid waste management plans
((for solid waste management)). In preparing such a schedule, the department shall take into
account the probable cost of such plans to the cities and counties.

Each county and city within the comprehensive solid waste management plan shall either
adopt or reject the plan within six months of completion of the plan. The plan shall be for­
warded to the department for approval unless the county and/or cities representing a majority
of the population reject the plan or portions of the plan. For purposes of representation under
this subsection, the county shall represent the population residing in the unincorporated area
of the county and each city shall represent the population residing within the city boundaries. If a
facility is designated in the portion of the plan that is rejected, the permit for such facility shall
be withheld until the dispute is resolved.

If the plan or portions of the plan are rejected, the department shall review the plan or
portions thereof and determine the best method of achieving the solid waste management
objectives as required by chapter 70.95 RCW and select the best alternative for the plan, or
portions of the plan, that have been rejected. After holding a hearing on the rejected plan or
portions thereof and determine the best method of achieving, the solid waste management
objectives as required by chapter 70.95 RCW.

A comprehensive solid waste management plan may cover two or more counties and the
cities within such counties;

(2) Each comprehensive solid waste management plan for the county and the cities within
the county shall:

(a) Designate all solid waste handling facilities as required under RCW 70.95.090, including
those facilities described under section 2 (4) and (5) of this 1987 act, that are necessary to
accomplish the priorities of chapter 70.95 RCW and to implement the minimal functional stan­
dards as adopted by the department; and

(b) Except as provided in section 2 (4) and (5) of this 1987 act, designate either: (i) A single
entity, either the county or a city, to operate, manage, regulate, and set rates for all solid waste
disposal sites within the geographic area covered by the plan; or (ii) different entities to oper­
ate, manage, and set rates for specified solid waste disposal sites within the geographic area
covered by the plan.

A comprehensive solid waste management plan may provide that with prior notice to the
county within which it is located of its intent, a city may become part of the comprehensive
solid waste management plan of another city or county, while remaining part of the compre­
hensive solid waste management plan of the county within which it is located, upon adoption
of the change into both comprehensive solid waste management plans.

NEW SECTION. Sec. 4. A new section is added to chapter 70.95 RCW to read as follows:

The owners and/or operators of a solid waste disposal site shall make available a
complete description of the current and projected future operational costs for the site and a
complete analysis of the rates and projected rates for disposing at the site to all cities, counties,
and other major disposers of solid waste at the site. If the site is publicly owned or operated,
changes in rates shall be made only after a public hearing has been held on this matter. If a
site is privately owned or operated, changes in rates shall require notification and hearings
before the appropriate state agency or local jurisdiction.

facility where the city or county has issued bonds or other obligations that are payable from
rates, charges, or other operating revenues from the solid waste handling facility.

((Any city electing to prepare an independent city plan, a joint city plan, or a joint county-city plan for solid waste management for inclusion in the county comprehensive plan may apply for financial aid for such purpose through the county. Every city application for financial aid for planning shall be filed with the county auditor and shall be included as a part of the county’s application for financial aid. Any city preparing an independent plan shall provide for disposal sites wholly within its jurisdiction.))

The department shall allocate to the counties and cities applying for financial aid for planning, such funds as may be available pursuant to legislative appropriations or from any federal grants for such purpose.

The department shall determine priorities and allocate available funds among the counties and cities applying for aid according to criteria established by regulations of the department considering population, urban development, environmental effects of waste disposal, existing waste handling practices, and the local justification of their proposed expenditures.

Sec. 7. Section 15, chapter 134, Laws of 1969 ex. sess. and RCW 70.95.150 are each amended to read as follows:

Upon the allocation of planning funds as provided in RCW 70.95.130, the department shall enter into a contract with each county or city receiving a planning grant. The contract shall include such provisions as the director may deem necessary to assure the proper expenditure of such funds including allocations made to cities within the county who are assisting with plan preparation. The sum allocated to a county or city shall be paid to the treasurer of such county or city.

"NEW SECTION. Sec. 1. It is the intent of the legislature to:
(1) Promote economic development in the rural community through the use of telecommunications;
(2) Find ways to diversify the rural economy by using information-intensive service-sector type businesses and
(3) Find ways to use telecommunications applications to stimulate the economy in agricultural areas.

The legislature therefore directs the department of community development, and the utilities and transportation commission, to investigate the feasibility of introducing office-intensive industry into agriculturally based rural communities in Washington state.

NEW SECTION. Sec. 2. In its study, the department of community development shall:
(1) Examine the trends in office-intensive industry and the extent to which the industry decentralizes its facilities to determine how locating such facilities in rural areas can benefit the industry and the communities in which such facilities are located.
(2) Compare the cost of locating the office sector work for these industries in the rural community to conducting the work in a nearby urban setting in Washington state. The department shall base this comparison on a specific agriculturally based rural community in this state. This comparison should include:
(a) Cost of labor;
(b) Turn-over rates;
(c) Availability and cost of office space;
(d) Occupancy costs;
(e) Availability and qualification of labor force; and
(f) Such other factors found pertinent to the study.
(3) Determine whether the rural community has the sufficient telecommunications infrastructure to accommodate the potential facilities. The department should consider:
(a) The type of local exchange facilities available;
(b) The level of sophistication of central office switching technology;
(c) The type, availability, and choice of long distance carriers; and
(d) A comparison of party line and private line technology and cost."

NEW SECTION. Sec. 3. (1) The utilities and transportation commission shall conduct a study to determine the number of party versus private lines in the rural community selected for study under section 2 of this act, and determine the cost, feasibility, and desirability of converting to private lines. This information shall be supplied to the department of community development.

(2) The department of community development and the utilities and transportation commission shall jointly develop recommendations for a program to update rural communities about telecommunications and computer applications to farming, logging, wood products manufacturing, and aquaculture and fishing enterprises.

NEW SECTION. Sec. 5. As we become an information-based society, the communications channels that serve us become part of the state's infrastructure. They are our highways and pathways to progress. No segment of this state must be unable to avail itself of communications facilities. In order to be able to promote economic development in the rural community through the use of telecommunications, the legislature further directs the utilities and transportation commission to conduct a study of the state's telecommunications infrastructure.

Sec. 6. Section 41, chapter 450, Laws of 1985 and RCW 80.36.380 are each amended to read as follows:

The commission shall provide the legislature with an annual report on the status of the Washington telecommunications industry. The report shall describe the competitiveness of all markets as defined by the commission; the availability of diverse and affordable telecommunications services to all people of Washington, particularly to customers in rural or sparsely populated areas; and the level of rates for local exchange and interexchange telecommunications service. The report also shall address the quality and extent of the state's telecommunications infrastructure. The report also shall address the question of whether competition in certain markets has developed to such an extent that the commission recommends additional regulatory flexibility such as detariffing or total deregulation and the evidence therefor; and the need for further legislation to achieve the purposes of RCW 80.36.300 through 80.36.370 and 80.04.010. The commission shall also monitor cost of service methodologies and shall recommend to the legislature whether cost of service ratemaking shall become a standard for telecommunications services.

NEW SECTION. Sec. 6. It is essential for recipients of general assistance with long-term disabilities and other participants in state and federal assistance programs to have access to those public and private entities, and individuals, capable of rendering assistance to them. Universal telephone service for persons of all income levels is an important policy goal.

NEW SECTION. Sec. 7. Unless the context clearly requires otherwise, the definitions in this section apply throughout sections 8 through 14 of this act.

(1) 'Local exchange company' means a telecommunications company providing local exchange telecommunications service.

(2) 'Department' means the department of social and health services.

NEW SECTION. Sec. 8. Lifeline assistance shall be available to participants of department programs set forth in section 13 of this act. Lifeline assistance shall consist of the following components:

(1) A discount on service connection fees of fifty percent as set forth in section 12 of this act.

(2) A waiver of deposit requirements on local exchange service, as set forth in section 12 of this act.

(3) A discounted flat rate lifeline service rate for local exchange service, which shall be subject to the following conditions:

(a) The commission shall establish a single lifeline service rate for all local exchange companies operating in the state of Washington. The lifeline service rate shall include any federal end user access charges and any other charges necessary to obtain local exchange service.
(b) The commission shall, in establishing the lifeline service rate, consider all charges for local exchange service, including federal end user access charges, mileage charges, extended area service, and any other charges necessary to obtain local exchange service.

(c) The lifeline service rate shall only be available to eligible customers subscribing to the lowest available local exchange flat rate service, where the lowest local exchange flat rate, including any federal end user access charges and any other charges necessary to obtain local exchange service, is greater than the lifeline service rate.

(d) The cost of providing the lifeline service shall be paid, to the maximum extent possible, by a waiver of all or part of the federal end user access charge and, to the extent necessary, from the lifeline fund created by section 9 of this act.

NEW SECTION. Sec. 9. Costs associated with lifeline telephone service shall be recovered through a lifeline surcharge on all other switched access lines. The lifeline surcharge shall be applied equally to all residential and business access lines not to exceed sixteen cents per month. All money collected from the lifeline surcharge shall be transferred to a lifeline fund administered by the department. Local exchange companies shall bill the fund for their expenses incurred in offering lifeline telecommunications services, including administrative and program expenses. The department shall disburse the money to the local exchange companies. The department shall recover its administrative costs from the fund.

NEW SECTION. Sec. 10. The commission and the department may adopt any rules necessary to implement sections 7 through 14 of this act.

NEW SECTION. Sec. 11. Lifeline service shall be limited to one residential access line per eligible household.

NEW SECTION. Sec. 12. Local exchange companies shall file tariffs with the commission which waive deposits on local exchange service for eligible subscribers and which establish a fifty percent discount on service connection fees for eligible subscribers. The remaining portion of the connection fee to be paid by the subscriber shall be expressly payable by installment fees spread over a period of months. A subscriber may, however, choose to pay the connection fee in a lump sum. Costs associated with the waiver and discount shall be accounted for separately and recovered from the lifeline fund. Eligible subscribers shall be allowed one waiver of a deposit and one discount on service connection fees per year.

NEW SECTION. Sec. 13. Participants in the following department programs are eligible for lifeline assistance: General assistance, aid to families with dependent children, chore services, food stamps, supplemental security income, refugee assistance, and community options program entry system (COPES). The department shall notify the participants of their eligibility.

NEW SECTION. Sec. 14. The energy and utilities committees of the legislature shall review the results of the lifeline program and shall explore by December 15, 1989, whether additional lifeline measures are warranted.

NEW SECTION. Sec. 15. Sections 7 through 14 of this act are each added to chapter 80.36 RCW.

NEW SECTION. Sec. 16. Sections 7 through 14 of this act shall expire December 31, 1989, unless extended by the legislature.

Point of Order
Mr. Locke: Mr. Speaker, I would like your ruling on this amendment which, I believe, exceeds the scope and object of the bill.

Speaker's Ruling
The Speaker: The Speaker, having reviewed Substitute House Bill 665, finds that the bill invalidates a referral program for recipients to the SSI program. The amendment deals with retention of a life-line telephone system to call people. It is not limited to GA-U people. I find then that the amendment is outside the scope and object of the bill and your point is well taken, Mr. Locke.

The bill was ordered engrossed. On motion of Mr. McMullen, the rules were suspended, the second reading considered the third, and the bill was placed on final passage.

Representatives Grimm and Holland spoke in favor of passage of the bill.

STATEMENT FOR THE JOURNAL

I wish the record to show that I wished to vote AYE on Engrossed Substitute House Bill No. 509.

JOSEPH L. WILLIAMS, 41st District.

MOTION

On motion of Mr. McMullen, the House was adjourned until 10:00 a.m., Tuesday, March 17, 1987.

JOSEPH E. KING, Speaker

ALAN THOMPSON, Chief Clerk
The House was called to order at 10:00 a.m. by the Speaker (Mr. O'Brien presiding). The Clerk called the roll and all members were present except Representatives Locke, Sanders and C. Smith. Representatives Sanders and C. Smith were excused.

The flag was escorted to the rostrum by a Sergeant at Arms Color Guard, Pages Kristin Nealey, Roy Simperman and Irish Page Ryan Logan, carrying an Irish flag. Prayer was offered by Father Kieran Cunningham, a Benedictine from Ireland, from St. Edward’s Church in Shelton.

The Speaker Pro Tempore introduced Bob McGrath and Nancy Strand who sang "Danny Boy," "An Irish Lullaby" and "When Irish Eyes Are Smiling." They were accompanied by Karla Gallatin.

The Speaker Pro Tempore: I would like to present to you an Irish philosophy:

"Count your garden by the flowers
Never by the leaves that fall.
Count your days by golden hours,
Don’t remember the clouds at all.
Count your nights by stars, not shadows,
Count your life with smiles, not tears.
And Joy on every birthday,
Count your age by friends, not years."

Happy St. Patrick’s Day.

POINT OF PERSONAL PRIVILEGE

Ms. Cantwell: Last night as I was coming through the Chambers from a late night meeting, I ran across a Banshee standing on the rostrum there who wanted to deliver a message to the Speaker on St. Patrick’s Day. I wanted to oblige in doing that: "There once was a Speaker O’Brien, whose job was to be our St. Patrick’s Day lion, so when the legislature is long, not only for his poem, but also for chasing out our snakes without trying. " With this he also left a St. Patrick’s Day card that has magically been signed by every member in the House and staff as well. It reads, "Because you are always thought of in a very special way, this brings you warmest wishes for a fine St. Patrick’s Day.” We want to wish you a very happy St. Patrick’s Day.

POINT OF PERSONAL PRIVILEGE

Mr. Ebersole: I wanted to join this nonsense. When Representative Cantwell showed me the limerick, she said it was kind of corny and it was, but I thought it was fine. I was thinking of a similarity between Representative Cantwell and the Speaker. Although they represent the two opposite ends of the Eighth, Representative Cantwell is 28 and God knows how old Speaker O’Brien is. I was thinking that they are both Irish and they are both young at heart and they are both full of mischief, so they have an awful lot in common. I understand they have become good friends and I think that’s a fine thing to happen on St. Patrick’s Day.

POINT OF PERSONAL PRIVILEGE

Mr. Jacobsen: Mr. Speaker, I feel compelled to present the Scandinavian version of Irish history, that the Irish are nothing but shipwrecked Norwegians. I would
also like to remind you that every town in Ireland was founded by the Norwegians, the Irish didn’t live in cities.

Reading of the Journal of the previous day was dispensed with and it was ordered to stand approved.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds:
(a) That manufactured housing and mobile home parks provide a source of low-cost housing to the low income, elderly, poor and infirmed, without which they could not afford private housing; but rising costs of mobile home park development and operation, as well as turnover in ownership, has resulted in mobile home park living becoming unaffordable to the low income, elderly, poor and infirmed, resulting in increased numbers of homeless persons, and persons who must look to public housing and public programs, increasing the burden on the state to meet the housing needs of its residents;
(b) That state government can play a vital role in addressing the problems confronted by mobile home park residents by providing assistance which makes it possible for mobile home park residents to acquire the mobile home parks in which they reside and convert them to resident ownership; and
(c) That to accomplish this purpose, information and technical support shall be made available through the department of community development.
(2) Therefore, it is the intent of the legislature, in order to maintain low-cost housing in mobile home parks to benefit the low income, elderly, poor and infirmed, to encourage and facilitate the conversion of mobile home parks to resident ownership, to protect low-income mobile home park residents from both physical and economic displacement, to obtain a high level of private financing for mobile home park conversions, and to help establish acceptance for resident-owned mobile home parks in the private market.

NEW SECTION. Sec. 2. The following definitions shall apply throughout this chapter unless the context clearly requires otherwise:
(1) 'Affordable' means that, where feasible, low-income residents should not pay more than thirty percent of their monthly income for housing costs.
(2) 'Conversion costs' includes the cost of acquiring the mobile home park, the costs of planning and processing the conversion, the costs of any needed repairs or rehabilitation, and any expenditures required by a government agency or lender for the project.
(3) 'Department' means the department of community development.
(4) 'Fund' means the mobile home park purchase fund created pursuant to section 3 of this act.
(5) 'Housing costs' means the total cost of owning, occupying, and maintaining a mobile home and a lot or space in a mobile home park. The department's regulations shall specify the factors included in these costs and may, for the purposes of calculating affordability, establish reasonable allowances.
(6) 'Individual interest in a mobile home park' means any interest which is fee ownership or a lesser interest which entitles the holder to occupy a lot or space in a mobile home park for a period of not less than either fifteen years or the life of the holder. Individual interests in a mobile home park include, but are not limited to, the following:
(a) Ownership of a lot or space in a mobile home park or subdivision;
(b) A membership or shares in a stock cooperative, or a limited equity housing cooperative; or
(c) Membership in a nonprofit mutual benefit corporation which owns, operates, or owns and operates the mobile home park.
(7) 'Low-income resident' means an individual or household who resided in the mobile home park prior to application for a loan pursuant to this chapter and with an annual income at or below eighty percent of the median income for the county of standard metropolitan statistical area of residence. However, personal assets shall not be considered in the calculation of income, except to the extent that they actually generate income.
(8) 'Low-income spaces' means those spaces in a mobile home park operated by a resident organization which are occupied by low-income residents.
(9) 'Mobile home park' means a mobile home park, as defined in RCW 59.20.030(4), or a manufactured home park subdivision as defined by RCW 59.20.030(6) created by the conversion to resident ownership of a mobile home park.

(10) 'Resident organization' means a group of mobile home park residents who have formed a nonprofit corporation, cooperative corporation, or other entity or organization for the purpose of acquiring the mobile home park in which they reside and converting the mobile home park to resident ownership. The membership of a resident organization shall include at least two-thirds of the households residing in the mobile home park at the time of application for assistance from the department.

(11) 'Resident ownership' means, depending on the context, either the ownership, by a resident organization, as defined in this section, of an interest in a mobile home park which entitles the resident organization to control the operations of the mobile home park for a term of no less than fifteen years, or the ownership of individual interests in a mobile home park, or both.

NEW SECTION. Sec. 3. The mobile home park purchase fund is hereby created and shall be maintained in the office of the treasurer. The purpose of this fund is to provide loans according to the provisions of this chapter and for related administrative costs of the department. The fund shall include appropriations, loan repayments, interest, and any other money from private sources made available to the state for the purposes of this chapter.

NEW SECTION. Sec. 4. (1) Subject to appropriation, the department may make loans from the fund to resident organizations for the purpose of financing mobile home park conversion costs, as defined in this chapter.

(2) Loans provided pursuant to this section shall be for a term of no more than three years and shall bear interest at a competitive rate set by the department and adjusted by the department when necessary.

(3) Loans granted pursuant to this section shall be for the least amount necessary to enable a resident organization to acquire and convert the mobile home park in which its members reside. However, in no case shall the loan amount exceed fifty percent of the approved conversion costs.

(4) The department shall make loans to resident organizations of mobile home parks where a significant portion of the residents are low income, elderly, poor or infirm.

NEW SECTION. Sec. 5. (1) The department may make loans from the fund to low-income residents of mobile home parks converted to resident ownership or to resident organizations which have converted or plan to convert a mobile home park to resident ownership. The purpose of providing loans pursuant to this section is to reduce the monthly housing costs for low-income residents to an affordable level.

(2) Loans provided pursuant to this section shall be for a term of no more than thirty years and shall bear interest at a competitive rate set by the department.

(3) The department may establish flexible repayment terms for loans provided pursuant to this section if the terms are necessary to reduce monthly housing costs for low-income residents to an affordable level and do not represent an unacceptable risk to the security of the fund. Flexible repayment terms may include, but are not limited to, graduated payment schedules with negative amortization.

(4) Loans provided to low-income residents pursuant to this section shall be for the least amount necessary to reduce the borrower's monthly housing costs to an affordable level. However, in no case shall loan amounts exceed fifty percent of the acquisition costs of the individual interests in the mobile home park. In addition, the total indebtedness upon individual interests may not exceed ninety percent of the value of the interests.

(5) Loans provided to resident organizations pursuant to this section shall be for the least amount necessary to reduce the monthly housing costs of low-income residents to an affordable level. However, in no case shall the loan amounts exceed fifty percent of the conversion costs attributable to the low-income spaces. Funds provided pursuant to this section shall not be used to assist residents who are not low-income, or to reduce monthly housing costs for low-income residents to less than thirty percent of their monthly income.

NEW SECTION. Sec. 6. In determining the eligibility for, and the amount of, loans pursuant to sections 4 and 5 of this act, the department shall take into consideration, among other factors, all of the following: (1) The reasonableness of the conversion costs relating to repairs, rehabilitation, construction, or other costs; (2) whether or not the project complements the implementation of a local housing program to preserve or increase the supply of housing for persons and families of low or moderate income; (3) whether or not state funds are utilized in the most efficient and effective manner in the furtherance of the goals of this chapter; and (4) any administrative and security factors affecting the department's program operation and administration.

To the extent consistent with requests for assistance, the department shall allocate funds available for the purposes of this chapter throughout the state in accordance with identified housing needs, including seeking to allocate not less than twenty percent to rural areas.

NEW SECTION. Sec. 7. (1) The department shall adopt regulations for the administration and implementation of this chapter.
(2) The department shall obtain the best available security for loans made pursuant to this chapter. The security may be in the form of a note, deed of trust, assignment of lease, or other form of security on real or personal property which the department determines is adequate to protect the security of the fund and the interests of the state. To the extent applicable, these security documents shall be recorded or referenced in a recorded document in the office of the county auditor of the county in which the mobile home park is located.

(3) The department shall exercise sufficient regulatory control with respect to park operations to assure the accomplishment of the purposes of the program authorized by this chapter.

(4) Before providing financing pursuant to this chapter, the department shall require provision of, and approve, at least the following:

(a) Verification that at least two-thirds of the households residing in the mobile home park support the plan for acquisition and conversion of the park;

(b) Verification that either no park residents will be involuntarily displaced as a result of the park conversion, or the impacts of displacement will be mitigated so as not to impose an unreasonable hardship on the displaced resident or residents;

(c) Verification that the conversion is consistent with local zoning and land use requirements, other applicable state and local laws, and regulations and ordinances;

(d) Projected costs and sources of funds for all conversion activities;

THIRD READING

ENGROSSED SUBSTITUTE HOUSE BILL NO. 115, by Committee on Environmental Affairs (originally sponsored by Representatives Rust, Allen, Brekke, May, Walker, Nutley and Lux)

Providing for single authority to be responsible for solid waste management and eliminating city comprehensive solid waste management plans.

The bill was read the third time and placed on final passage.

Representatives Rust and Walker spoke in favor of passage of the bill.

POINT OF INQUIRY

Ms. Rust yielded to question by Ms. Hine.

Ms. Hine: Representative Rust, on page 2, line 30, the interlocal agreement calls for the joint financing of the solid waste plan. Does this mean that each participant pays an equal share?

Ms. Rust: No, the joint financing requires all participants to participate in the financing. The amount paid by each participant will be based upon several factors
including the amount of solid waste generated, population, benefits and other things determined by the local government. Also a city that prepares its own plan will only finance the cost to integrate its plan into the countywide plan.

Ms. Hine: Representative Rust, on page 3, line 30 the interlocal agreement says, "A city may join with a different city or a different county for solid waste planning and disposal." On page 5, lines 10 to 21, certain cities are allowed to do their own plans, "...which shall be integrated into the countywide plan." Is there a conflict between these two sections?

Ms. Rust. No. The provisions on lines 10 to 21 on page 5 will prevail in those instances.

Mr. Ferguson spoke in favor of passage of the bill.

POINT OF INQUIRY

Mr. Ebersole yielded to question by Mr. Padden.

Mr. Padden: Representative Ebersole, I notice in the fiscal note on this that over a six year period there is a $4,138,000 impact. Will Representative Schoon's amendment reduce that impact? Can you shed any light of what the fiscal impact of his amendment would be?

Mr. Ebersole: My interpretation would be that the amendment as written would be fairly close to the appropriation because about 800 to 1,000 new teachers come into the system each year. If some year we have 1,050 come into the system, I wouldn't want to say arbitrarily that there is an additional 50 that won't be served.

Mr. Schoon spoke again in favor of the amendment.

The amendment was not adopted.

On motion of Mr. Ebersole, the following amendments by Representatives Ebersole, Valle, Kremen and Cooper were adopted:

NEW SECTION. Sec. 6. A new section is added to chapter 28A.67 RCW to read as follows:

(1) Each candidate for teacher certification shall be endorsed in one or more subject matters or teacher specializations appropriate to the elementary and/or secondary levels.

(2) The state board of education shall, no later than March 15, 1988, adopt rules authorizing specific written examinations and qualifying scores which will authorize the granting of endorsements in grade levels and subject areas in lieu of course work.

(3) The state board of education shall, no later that January 1, 1990, issue to the legislature a recommendation as to whether all teacher candidates should be required to pass a written subject matter examination. The board shall, before making its recommendation, administer

(3) If the commission by majority vote finds, after giving a financial institution an opportunity to be heard, that such policy not to provide services to the government of a country having an apartheid policy has been violated, the commission shall revoke its approval upon giving thirty days' notice.

Mr. Wang moved adoption of the following amendment by Representatives Wang, R. King, Wineberry, Miller, Winsley, Cole, Brough, Hankins, Unsoeld, Dellwo, Bristow, Walk, Grimm, H. Sommers, Braddock, Fisch and Allen:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. The legislature finds that the demands of the workplace and the needs of families need to be balanced to promote the stability and economic security of families. Changes in leave policies are desirable to accommodate changes in the workforce such as rising numbers of dual-career couples and working mothers. The legislature declares it to be in the public interest to provide reasonable parental leave for the birth or adoption of a child and family leave to care for a family member with a serious health condition.

NEW SECTION. Sec. 2. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) 'Child' means a biological, adopted, or foster child, a stepchild, a legal ward, or a child of a person standing in loco parentis, who is:
   (a) Under eighteen years of age; or
   (b) Eighteen years of age or older and incapable of self-care because of mental or physical disability.

(2) 'Department' means the department of labor and industries.

(3) 'Employee' means a person engaged by an employer on a full-time basis in a job that is not considered temporary or seasonal and who has completed an initial probationary period of not less than three months under a formal probationary policy or one year of employment, whichever is less. 'Employee' does not include any individual employed by his or her parents, spouse, or child or who is in the domestic service of any person.

(4) 'Employer' includes any person acting in the interest of an employer, directly or indirectly, who employs twenty-five or more persons who carry on their employment in the same approximate geographical location.

(5) 'Family leave' means leave from employment to care for specified family members with serious health conditions, as provided in section 3 of this act.

(6) 'Health care provider' means a person licensed as a physician under chapter 18.71 RCW, and advanced registered nurse practitioner under rules adopted by the board of nursing under chapter 18.88 RCW, or an osteopath under chapter 18.57 RCW.

(7) 'Parent' means a biological, foster, or adoptive parent, a stepparent, or a legal guardian.

(8) 'Parental leave' means leave from employment to care for a birth or adoptive child, as provided in section 3 of this act.

(9) 'Person' includes one or more individuals, partnerships, associations, organizations, corporations, cooperatives, legal representatives, trustees and receivers, or any group of persons; it includes any owner, lessee, proprietor, manager, agent, or employee, whether one or more natural persons; and further includes any political or civil subdivisions of the state and any agency or instrumentality of the state or of any political or civil subdivision.

(10) 'Reduced leave schedule' means leave scheduled for fewer than an employee's usual number of hours per workweek or hours per workday.

(11) 'Serious health condition' means an illness, injury, impairment, or physical or mental condition whether or not preexisting which requires:
   (a) Inpatient care in a hospital, hospice, or residential medical care facility; or
   (b) Continuing treatment or continuing supervision by a health care provider.

To take family leave because of the serious health condition of a family member under section 3 of this act, the presence of the employee must be necessary to care for the individual, as determined by a health care provider.

NEW SECTION. Sec. 3. (1) An employee is entitled to sixteen workweeks of leave during any twenty-four month period under the circumstances in (a) and (b) of this subsection.
(a) An employee may take parental leave to care for a birth child or adoptive child under the age of six of the employee. Leave under this subsection shall be completed within twelve months after the birth or placement for adoption, as applicable.

(b) An employee may take family leave to care for any of the following individuals who has a serious health condition:
(i) A child of the employee;
(ii) The spouse of the employee; or
(iii) A parent of the employee or the employee’s spouse who is dependent for care on the employee.

An employee may take leave under this subsection only when the presence of the employee is necessary to care for the individual, as determined by a health care provider. For a serious health condition which is expected to last more than two weeks, an employee may take leave on an intermittent basis as medically necessary. An employer may limit family leave under this subsection for conditions expected to last two weeks or less to leave for three such conditions during any twenty-four month period.

(2) Leave may be taken on a reduced leave schedule if:
(a) The total period during which the sixteen workweeks is taken does not exceed thirty-six consecutive workweeks; and
(b) The leave is scheduled so as not to disrupt unduly the employer's operations.

(3) The leave required by this section may be unpaid. If an employer provides paid parental or family leave for fewer than sixteen workweeks, the additional weeks of leave added to attain the sixteen workweek total may be unpaid. An employer may require an employee to first use the employee’s total accumulation of paid vacation leave, personal leave, family leave, or other comparable paid leave to which the employee is otherwise entitled before going on unpaid leave.

(4) The department may, upon the request of an employer, grant a full or partial exemption from the requirements of this section for a particular employee upon a showing by the employer that if the employee took leave which requires prior notice under section 4 of this act or continues to take leave under subsection (1)(b) of this section which was not foreseeable, the absence of the employee would create a severe financial hardship on the employer in that the functions of the employee cannot be performed by any other person engaged by the employer. The employer shall notify the employee of the exemption request in a manner as determined by the department. The department shall establish procedures for determining requests, which shall provide for the initial determination of exemptions in an expedited manner. A person aggrieved by a decision of the department may seek review under the administrative procedure act, chapter 34.04 RCW.

NEW SECTION. Sec. 4. (1) An employee planning to take parental leave under section 3(1)(a) of this act shall provide the employer with prior notice of such expected birth or adoption in a manner and at a time which is reasonable and practical.

(2) If family leave under section 3(1)(b) of this act is foreseeable, the employee shall make a reasonable effort to schedule the leave so as not to disrupt unduly the operations of the employer, subject to approval of the health care provider, and shall provide the employer with prior notice of such expected leave in a manner and at a time which is reasonable and practical.

NEW SECTION. Sec. 5. (1) An employer may require that a claim for family leave under section 3(1)(b) of this act be supported by certification issued by the health care provider of the child, spouse, or parent, whichever is appropriate.

(2) The certification shall state:
(a) The date on which the serious health condition commenced;
(b) The probable duration of the condition; and
(c) The extent to which the presence of the employee is necessary to care for the individual.

(3) An employer may require, at the employer's expense, that the employee obtain the opinion of a second health care provider selected by the employer concerning any information required under subsection (2) of this section. If the health care providers disagree on any factor which is determinative of the employee's eligibility for family leave, the two health care providers shall select a third health care provider, whose opinion, obtained at the employer's expense, shall be conclusive.

NEW SECTION. Sec. 6. (1) Subject to subsection (2) of this section, an employee who exercises any right provided under section 3 of this act shall be entitled, upon return from leave or during any reduced leave schedule:
(a) To the same position held by the employee when the leave commenced; or
(b) To a position with equivalent benefits, pay, and other terms and conditions of employment.

(2) The entitlement under subsection (1) of this section is subject to bona fide provisions on reduction-in-force.

(3) The taking of leave under this chapter shall not result in the loss of any benefit, including seniority, accrued before the date on which the leave commenced.
(4) Except as provided in section 7 of this act, nothing in this chapter shall be construed to require the employer to grant benefits, including seniority, during any period of leave.

(5) All policies applied during the period of leave to the classification of employees to which the employee belongs shall apply to the employee on leave.

NEW SECTION. Sec. 7. If the employer provided health benefits to an employee prior to leave under section 3 of this act, and the employee is not eligible for any employer contribution to health benefits under the applicable collective bargaining agreement or employer policy during any period of leave, the employer shall allow the employee to elect to continue the employee's health benefits, including any spouse and dependent coverage. The coverage shall be identical to the coverage provided to similarly situated persons not on leave and the premium to be paid by the employee shall not exceed one hundred two percent of the applicable premium for the leave period.

NEW SECTION. Sec. 8. The department shall administer the provisions of this chapter.

NEW SECTION. Sec. 9. The department shall adopt rules to carry out the provisions of this chapter.

NEW SECTION. Sec. 10. The rights and remedies under this chapter are in addition to any other rights or remedies provided by law.

NEW SECTION. Sec. 11. (1) Nothing in this chapter shall be construed to supersede any provision of any local law which provides greater leave rights to employees than the rights established under this chapter.

(2) Nothing in this chapter shall be construed to diminish an employer's obligation to comply with any collective bargaining agreement or any employment benefit program or plan which provides greater leave rights to employees than the rights provided under this chapter.

NEW SECTION. Sec. 12. No person shall be excused from attending and testifying or from producing records, correspondence, documents or other evidence in obedience to the subpoena of the department, on the ground that the testimony or evidence required of the person may tend to incriminate or subject the person to a penalty or forfeiture, but no person shall be compelled to testify or produce evidence, except that such person so testifying shall not be exempt from prosecution and punishment for perjury committed in so testifying.

NEW SECTION. Sec. 13. This chapter shall apply to collective bargaining agreements or employment benefit programs or plans entered into or renewed after the effective date of this section.

NEW SECTION. Sec. 14. The department has power to hold hearings, subpoena witnesses, compel their attendance, administer oaths, take the testimony of any person under oath, and in connection therewith, to require the production for examination of any books or papers relating to any matter under investigation or in question before the department. The department may make rules as to the issuance of subpoenas under this chapter, as to service of complaints, decisions, orders, recommendations and other process or papers of the department, either personally or by registered mail, return receipt requested, or by leaving a copy thereof at the principal office or place of business of the person required to be served. The return post office receipt, when service is by registered mail, shall be proof of service of the same.

NEW SECTION. Sec. 15. No person shall be excused from attending and testifying or from producing records, correspondence, documents or other evidence in obedience to the subpoena of the department, on the ground that the testimony or evidence required of the person may tend to incriminate or subject the person to a penalty or forfeiture, but no person shall be compelled to testify or produce evidence, except that such person so testifying shall not be exempt from prosecution and punishment for perjury committed in so testifying. The immunity herein provided shall extend only to natural persons so compelled to testify.

NEW SECTION. Sec. 16. In case of contumacy or refusal to obey a subpoena issued to any person, the superior court of any county within the jurisdiction of which the investigation, proceeding, or hearing is carried on or within the jurisdiction of which the person guilty of contumacy or refusal to obey is found or resides or transacts business, upon application by the department shall have jurisdiction to issue to such person an order requiring such person to appear before the department, there to produce evidence if so ordered, or there to give testimony touching the matter under investigation or in question. Any failure to obey such order of the court may be punished by the court as a contempt thereof.

NEW SECTION. Sec. 17. Witnesses before the department shall be paid the same fees and mileage that are paid witnesses in the courts of this state. Witnesses whose depositions are taken and the person taking the same shall be entitled to same fees as are paid for like services in the courts of the state.

NEW SECTION. Sec. 18. Violation of sections 3 through 7 of this act is an unfair practice.

(1) Any person claiming to be aggrieved by an alleged unfair practice may, personally or by his or her attorney, make, sign, and file with the department a complaint in writing under oath. The complaint shall state the name and address of the person alleged to have committed the unfair practice and the particulars thereof, and contain such other information as may be required by the department.
(2) Whenever it has reason to believe that any person has been engaged or is engaging in an unfair practice, the department may issue a complaint.

(3) Any employer or principal whose employees, or agents, or any of them, refuse or threaten to refuse to comply with the provisions of this chapter may file with the department a written complaint under oath asking for assistance by conciliation or other remedial action.

Any complaint filed pursuant to this section must be so filed within six months after the alleged violation of this chapter.

NEW SECTION. Sec. 19. After the filing of any complaint, the department shall refer it to the appropriate staff of the department for prompt investigation and ascertainment of the facts alleged in the complaint. The investigation shall be limited to the alleged facts contained in the complaint. The results of the investigation shall be reduced to written findings of fact, and a finding shall be made that there is or that there is not reasonable cause for believing that an unfair practice has been or is being committed. A copy of said findings shall be furnished to the complainant and to the person named in such complaint, hereinafter referred to as the respondent.

If the finding is made that there is reasonable cause for believing that an unfair practice has been or is being committed, the staff of the department shall immediately endeavor to eliminate the unfair practice by conference, conciliation and persuasion.

If an agreement is reached for the elimination of such unfair practice as a result of such conference, conciliation and persuasion, the agreement shall be reduced to writing and signed by the respondent, and an order shall be entered by the department setting forth the terms of said agreement. No order shall be entered by the department at this stage of the proceedings except upon such written agreement.

If no such agreement can be reached, a finding to that effect shall be made and reduced to writing, with a copy thereof furnished to the complainant and the respondent.

NEW SECTION. Sec. 20. (1) In case of failure to reach an agreement for the elimination of such unfair practice, and upon the entry of findings to that effect, the entire file, including the complaint and any and all findings made, shall be certified to the director of the department. The director shall thereupon request the appointment of an administrative law judge under Title 34 RCW to hear the complaint and shall cause to be issued and served in the name of the department a written notice, together with a copy of the complaint, as the same may have been amended, requiring the respondent to answer the charges of the complaint at a hearing before the administrative law judge, at a time and place to be specified in such notice.

(2) The place of any such hearing may be the office of the department or another place designated by it. The case in support of the complaint shall be presented at the hearing by counsel for the department: PROVIDED, That the complainant may retain independent counsel and submit testimony and be fully heard. No member or employee of the department who previously made the investigation or caused the notice to be issued shall participate in the hearing except as a witness, nor shall the member or employee participate in the deliberations of the administrative law judge in such case. Any endeavors or negotiations for conciliation shall not be received in evidence.

(3) The respondent shall file a written answer to the complaint and appear at the hearing in person or otherwise, with or without counsel, and submit testimony and be fully heard. The respondent has the right to cross-examine the complainant.

(4) The administrative law judge conducting any hearing may permit reasonable amendment to any complaint or answer. Testimony taken at the hearing shall be under oath and recorded.

(5) If, upon all the evidence, the administrative law judge finds that the respondent has engaged in any unfair practice, the administrative law judge shall state findings of fact and shall issue and file with the department and cause to be served on such respondent an order requiring such respondent to cease and desist from such unfair practice and to take such affirmative action, including, (but not limited to) hiring, reinstatement or upgrading of employees, with or without back pay, or to take such other action as, in the judgment of the administrative law judge, will effectuate the purposes of this chapter, including action that could be ordered by a court, except that damages for humiliation and mental suffering shall not exceed one thousand dollars, and including a requirement for report of the matter on compliance.

(6) The final order of the administrative law judge shall include a notice to the parties of the right to obtain judicial review of the order by appeal in accordance with the provisions of RCW 34.04.130 or 34.04.133, and that such appeal must be served and filed within thirty days after the service of the order on the parties.

(7) If, upon all the evidence, the administrative law judge finds that the respondent has not engaged in any alleged unfair practice, the administrative law judge shall state findings of fact and shall similarly issue and file an order dismissing the complaint.

(8) An order dismissing a complaint may include an award of reasonable attorneys’ fees in favor of the respondent if the administrative law judge concludes that the complaint was frivolous, unreasonable, or groundless.

(9) The department shall establish rules of practice to govern, expedite and effectuate the foregoing procedure.
NEW SECTION. Sec. 21. (1) The department shall petition the court within the county wherein any unfair practice occurred or wherein any person charged with an unfair practice resides or transacts business for the enforcement of any final order which is not complied with and is issued by the department or an administrative law judge under the provisions of this chapter and for appropriate temporary relief or a restraining order, and shall certify and file in court the final order sought to be enforced. Within five days after filing such petition in court, the department shall cause a notice of the petition to be sent by registered mail to all parties or their representatives.

(2) From the time the petition is filed, the court shall have jurisdiction of the proceedings and of the questions determined thereon, and shall have the power to grant such temporary relief or restraining order as it deems just and suitable.

(3) If the petition shows that there is a final order issued by the department or administrative law judge under RCW 49.60.240 or 49.60.250 and that the order has not been complied with in whole or in part, the court shall issue an order directing the person who is alleged to have not complied with the administrative order to appear in court at a time designated in the order, not less than ten days from the date thereof, and show cause why the administrative order should not be enforced according to the terms. The department shall immediately serve the person with a copy of the court order and the petition.

(4) The administrative order shall be enforced by the court if the person does not appear, or if the person appears and the court finds that:

(a) The order is regular on its face;

(b) The order has not been complied with; and

(c) The person's answer discloses no valid reason why the order should not be enforced, or that the reason given in the person's answer could have been raised by review under RCW 34.04.130, and the person has given no valid excuse for failing to use that remedy.

(5) The jurisdiction of the court shall be exclusive and its judgment and decree shall be final, except that the same shall be subject to a review by the supreme court or the court of appeals, on appeal, by either party, irrespective of the nature of the decree or judgment. Such appeal shall be taken and prosecuted in the same manner and form and with the same effect as is provided in other cases of appeal to the supreme court or the court of appeals, and the record so certified shall contain all that was before the lower court.

NEW SECTION. Sec. 22. Any respondent or complainant, including the department, aggrieved by a final order of an administrative law judge may obtain judicial review of such order as provided under the administrative procedure act, chapter 34.04 RCW. From the time a petition for review is filed, the court has jurisdiction to grant to any party such temporary relief or restraining order as it deems just and suitable. If the court affirms the order, it shall enter a judgment and decree enforcing the order as affirmed.

NEW SECTION. Sec. 23. Petitions filed under sections 21 and 22 of this act shall be heard expeditiously and determined upon the transcript filed, without requirement of printing. Hearings in the court under this chapter shall take precedence over all other matters, except matters of the same character.

NEW SECTION. Sec. 24. Any person who wilfully resists, prevents, impedes, or interferes with the department or representatives in the performance of duty under this chapter, or who wilfully violates an order of the department, is guilty of a misdemeanor; but procedure for the review of the order shall not be deemed to be such wilful conduct.

NEW SECTION. Sec. 25. In any case in which the department shall issue an order against any political or civil subdivision of the state, or any agency, or instrumentality of the state or of the foregoing, or any officer or employee thereof, the department shall transmit a copy of such order to the governor of the state. The governor shall take such action to secure compliance with such order as the governor deems necessary.

NEW SECTION. Sec. 26. It is an unfair practice for any employer, employment agency, labor union, or other person to discharge, expel, or otherwise discriminate against any person because he or she has opposed any practices forbidden by this chapter, or because he or she has filed a charge, testified, or assisted in any proceeding under this chapter.

NEW SECTION. Sec. 27. It is an unfair practice for any person to aid, abet, encourage, or incite the commission of any unfair practice, or to attempt to obstruct or prevent any other person from complying with the provisions of this chapter or any order issued thereunder.

NEW SECTION. Sec. 28. Any person deeming himself or herself damaged by an act in violation of this chapter shall have a civil action in a court of competent jurisdiction to enjoin further violations, to recover the actual damages sustained by him or her, or both, together with the cost of suit including a reasonable attorney's fees.

NEW SECTION. Sec. 29. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 30. Sections 1 through 28 of this act shall constitute a new chapter in Title 49 RCW.

NEW SECTION. Sec. 31. This act shall take effect January 1, 1988.

POINT OF PERSONAL PRIVILEGE

Mr. Locke: Members of the body, there has been some concern about some of my actions today and I wish to apologize to the House if I have made it uncomfortable or inconvenient for others. Earlier today we had a vote on an education bill and I did not stand to make any statements on the bill as the prime sponsor. It is not always my practice to speak on behalf of the bill of which I am the sponsor. Because of that some people did not rise in opposition to that bill. I want to state to the members of the body that it is not a ploy of any sort. nor was it intentional. In fact I was expecting people to speak against it and then when nothing materialized, the voting machine had been started. Second of all, with respect to an issue that was before us earlier this evening, there was some miscommunication with Representative Ballard and myself and, as a consequence, I rose in opposition to an amendment he offered and my comments may have, and probably did, materially affect the outcome of that, and to Representative Ballard, I apologize for the miscommunication.

MOTION

On motion of Mr. McMullen, the House adjourned until 10:00 a.m., Thursday, March 19, 1987.

(3) If two or more taxing districts that occupy a portion of the same territory receive such approval, the additional authorized taxing capacity above nine dollars and fifteen cents per thousand dollars of assessed valuation shall be distributed among these taxing districts by adjusting their levy rate requests in the same manner and under the same conditions as if they were the only taxing districts in the area subject to adjustment of their property tax rates and the levy rate adjustments were being made with the cumulative limitation of nine dollars and fifteen cents per thousand dollars of assessed valuation.

Strike everything after the enacting clause and insert the following:

"Sec. 1. Section 1, chapter 56, Laws of 1975 1st ex. sess. as last amended by section 6, chapter 169, Laws of 1985 and by section 1, chapter 219, Laws of 1985 and RCW 35.22.620 are each reenacted and amended to read as follows:

(1) ((Any public work or improvement of a first class city shall be done by contract pursuant to public notice and call for competitive bids, whenever the estimated cost of such work or improvement, including the cost of materials, supplies, and equipment will exceed the sum of ten thousand dollars. PROVIDED. That whenever this public work or improvement is for construction of water mains, such sum shall be fifteen thousand dollars.)) As used in this section, the term 'public works' means as defined in RCW 39.04.010.

(2) A first class city may have public works performed by contract pursuant to public notice and call for competitive bids. As limited by subsection (3) of this section, a first class city may have public works performed by city employees in any annual or biennial budget period equal to a dollar value not exceeding ten percent of the public works construction budget, including any amount in a supplemental public works construction budget, over the budget period. The amount of public works that a first class city has a county perform for it under RCW 35.77.020 shall be included within this ten percent limitation.

If a first class city has public works performed by public employees in any budget period that are in excess of this ten percent limitation, the amount in excess of the permitted amount shall be reduced from the otherwise permitted amount of public works that may be performed by public employees for that city in its next budget period. Twenty percent of the motor vehicle fuel tax distributions to that city shall be withheld if two years after the year in which the excess amount of work occurred, the city has failed to reduce the amount of public works that it has performed by public employees. The amount so withheld shall be distributed to the city when it has demonstrated in its reports to the state auditor that the amount of public works it has performed by public employees has been so reduced.

Whenever a first class city has had public works performed in any budget period up to the maximum permitted amount for that budget period, all remaining public works within that budget period shall be done by contract pursuant to public notice and call for competitive bids.

The state auditor shall report to the state treasurer any first class city that exceeds this amount and the extent to which the city has or has not reduced the amount of public works it has performed by public employees in subsequent years.

(3) In addition to the percentage limitation provided in subsection (2) of this section, a first class city with a population in excess of one hundred fifty thousand shall not have public employees perform a public works project in excess of fifty thousand dollars if more than a single craft or trade is involved with the public works project, or a public works project in excess of twenty-five thousand dollars if only a single craft or trade is involved with the public works project or the public works project is street signalization or street lighting. A public works project means a complete project. The restrictions in this subsection do not permit the division of the project into units of work or classes of work to avoid the restriction on work that may be performed by day labor on a single project.

(4) In addition to the accounting and record-keeping requirements contained in RCW 39.04.070, every first class city annually shall prepare a report for the state auditor indicating the total public works construction budget and supplemental public works construction budget for that year, the total construction costs of public works performed by public employees for that year, and the amount of public works that is performed by public employees above or below ten percent of the total construction budget. However, if a city budgets on a biennial basis, this annual report shall indicate the amount of public works that is performed by public
employees within the current biennial period that is above or below ten percent of the total biennial construction budget.

After September 1, 1987, each first class city with a population of one hundred fifty thousand or less shall use the form required by section 4 of this 1987 act to account and record costs of public works in excess of five thousand dollars that are not let by contract.

(3) The cost of a separate public works project shall be the costs of materials, supplies, equipment, and labor on the construction of that project. The value of the public works budget shall be the value of all the separate public works projects within the budget.

(4) When any emergency shall require the immediate execution of such public work, upon the finding of the existence of such emergency by the authority having power to direct such public work to be done and duly entered of record, publication of description and estimate may be made within seven days after the commencement of the work. Within two weeks of the finding that such an emergency existed, the city council shall adopt a resolution certifying the existence of this emergency situation.

(((2))) (2) In lieu of the procedures of subsections ((3)) (2) and (6) of this section, a first class city may use a small works roster and award contracts under this subsection for contracts of one hundred thousand dollars or less.

(a) The city may maintain a small works roster comprised of all contractors who have requested to be on the roster and are, where required by law, properly licensed or registered to perform such work in this state.

(b) Whenever work is done by contract, the estimated cost of which is one hundred thousand dollars or less, and the city uses the small works roster, the city shall invite proposals from all appropriate contractors on the small works roster: PROVIDED, That not less than five separate appropriate contractors, if available, shall be invited to submit bids on any one contract: PROVIDED FURTHER, That whenever possible, the city shall invite at least one proposal from a minority or woman contractor who shall otherwise qualify under this section. Once a bidder on the small works roster has been offered an opportunity to bid, that bidder shall not be offered another opportunity until all other appropriate contractors on the small works roster have been afforded an opportunity to submit a bid. Invitations shall include an estimate of the scope and nature of the work to be performed, and materials and equipment to be furnished.

(c) When awarding such a contract for work, the estimated cost of which is one hundred thousand dollars or less, the city shall award the contract to the contractor submitting the lowest responsible bid.

(((3))) (3) The allocation of public works projects to be performed by city employees shall not be subject to a collective bargaining agreement.

(2) This section does not apply to performance-based contracts, as defined in RCW 39.35A.010, that are negotiated under chapter 39.35A RCW.

Sec. 2. Section 35.23.352, chapter 7, Laws of 1965 as last amended by section 7, chapter 169. Laws of 1985, by section 2, chapter 219. Laws of 1985, and by section 24, chapter 469. Laws of 1985 and RCW 35.23.352 are each reenacted and amended to read as follows:

((f))) (1) Any second or third class city or town may construct any public work or improvement)) as defined in RCW 39.04.010, by contract or day labor without calling for bids therefor whenever the estimated cost of the work or improvement, including materials, supplies and equipment, will not exceed the sum of ((fifteen)) thirty thousand dollars if more than one craft or trade is involved with the public works, or twenty thousand dollars if a single craft or trade is involved with the public works or the public works project is street signalization or street lighting. A public works project means a complete project. The restrictions in this subsection do not permit the division of the project into units of work or classes of work to avoid the restriction on work that may be performed by day labor on a single project.

Whenever the cost of the public work or improvement, including materials, supplies and equipment, will exceed ((fifteen thousand dollars)) these figures, the same shall be done by contract. All such contracts shall be let at public bidding upon posting notice calling for sealed bids upon the work. The notice thereof shall be posted in a public place in the city or town and by publication in the official newspaper once each week for two consecutive weeks before the date fixed for opening the bids. The notice shall generally state the nature of the work to be done that plans and specifications therefor shall then be on file in the city or town hall for public inspection, and require that bids be sealed and filed with the council or commission within the time specified therein. Each bid shall be accompanied by a bid proposal deposit in the form of a cashier's check, postal money order, or surety bond to the council or commission for a sum of not less than five percent of the amount of the bid, and no bid shall be considered unless accompanied by such bid proposal deposit. The council or commission of the city or town shall let the contract to the lowest responsible bidder or shall have power by resolution to reject any or all bids and to make further calls for bids in the same manner as the original call.

When the contract is let then all bid proposal deposits shall be returned to the bidders except that of the successful bidder which shall be retained until a contract is entered into and a bond to perform the work furnished. A surety satisfactory to the council or commission, in the full amount of the contract price. If the bidder fails to enter into the contract in accordance with his bid and furnish a bond within ten days from the date at which he is notified that he is
the successful bidder, the check or postal money order and the amount thereof shall be forfeited to the council or commission or the council or commission shall recover the amount of the surety bond.

If no bid is received on the first call the council or commission may readvertise and make a second call, or may enter into a contract without any further call or may purchase the supplies, material or equipment and perform the work or improvement by day labor.

(2) The allocation of public works projects to be performed by city or town employees shall not be subject to a collective bargaining agreement.

(3) In lieu of the procedures of subsection (1) of this section, a second or third class city or a town may use a small works roster and award contracts under this subsection for contracts of one hundred thousand dollars or less.

(a) The city or town may maintain a small works roster comprised of all contractors who have requested to be on the roster and are, where required by law, properly licensed or registered to perform such work in this state.

(b) Whenever work is done by contract, the estimated cost of which is one hundred thousand dollars or less, and the city uses the small works roster, the city or town shall invite proposals from all appropriate contractors on the small works roster: PROVIDED, That whenever possible, the city or town shall invite at least one proposal from a minority or woman contractor who shall otherwise qualify under this section. The invitation shall include an estimate of the scope and nature of the work to be performed, and materials and equipment to be furnished.

(c) When awarding such a contract for work, the estimated cost of which is one hundred thousand dollars or less, the city or town shall award the contract to the contractor submitting the lowest responsible bid.

(4) After September 1, 1987, each second class city, third class city, and town shall use the form required by section 4 of this 1987 act to account and record costs of public works in excess of five thousand dollars that are not set by contract.

(5) The cost of a separate public works project shall be the costs of the materials, equipment, supplies, and labor on that construction project.

(6) Any purchase of supplies, material, equipment or services other than professional services, except for public work or improvement, where the cost thereof exceeds ((two)) seven thousand five hundred dollars shall be made upon call for bids: PROVIDED, That the limitations herein shall not apply to any purchases of materials at auctions conducted by the government of the United States, any agency thereof or by the state of Washington or a political subdivision thereof.

(7) Bids shall be called annually and at a time and in the manner prescribed by ordinance for the publication in a newspaper published or of general circulation in the city or town of all notices or newspaper publications required by law. The contract shall be awarded to the lowest responsible bidder.

(8) For advertisement and competitive bidding to be dispensed with as to purchases between ((two)) seven thousand five hundred and ((ten)) fifteen thousand dollars, the city legislative authority must authorize by resolution a procedure for securing telephone and/or written quotations from enough vendors to assure establishment of a competitive price and for awarding the contracts for purchase of materials, equipment, or services to the lowest responsible bidder. Immediately after the award is made, the bid quotations obtained shall be recorded and open to public inspection and shall be available by telephone inquiry.

(9) These requirements for purchasing may be waived by resolution of the city or town council which declared that the purchase is clearly and legitimately limited to a single source or supply within the near vicinity, or the materials, supplies, equipment, or services are subject to special market conditions, and recites why this situation exists. Such actions are subject to RCW 39.30.020.

(10) This section does not apply to performance-based contracts, as defined in RCW 39.35A.020(3), that are negotiated under chapter 39.35A RCW.

Notwithstanding any provision of law to the contrary, any municipality of the second, third or fourth class may call for bids for garbage collection and disposal for a period of five years or less but in no case for more than five years. The contract shall be awarded to the lowest responsible bidder. Nothing in this section is intended to repeal, amend or change RCW 35.13.280 as now or hereafter amended.

If during a tenancy the status of landlord is transferred to another, any sums in the deposit trust account affected by such transfer shall simultaneously be transferred to an equivalent trust account of the successor landlord, and the successor landlord shall promptly notify the tenant of the transfer and of the name, address and location of the new depository. **POINT OF ORDER**

Mr. Jacobsen: Mr. Speaker, I would like you to rule on the scope and object of this amendment.

**SPEAKER'S RULING**

The Speaker: Representative Jacobsen, the question before us is the substitute bill. Under our rules, a motion to substitute a bill for the original bill is a form of
amendment and is subject to the same rules on scope and object as an amendment. Also, I would refer to Reed’s Rule 140: "...Amendment by way of substitute is a short and informal method of striking out and inserting usually applied to whole paragraphs or bills, and is made by offering a new paragraph or bill as a substitute for the old, and upon adoption the old paragraph or bill is stricken out and the new one inserted." The Speaker has examined the original House Bill 1021, "An Act Relating to higher educational opportunities...." It establishes the Washington State and employers' higher education opportunities program. Part of the program is to provide scholarships to disadvantaged working persons through the joint efforts of the state and private business. The substitute bill deletes the original bill and provides a procedure for state higher education institutions to contract with private institutions for instructional services. I find then that the subject of the substitute bill is out of the scope and object of the original bill. Your point is well taken, Representative Jacobsen.

On motion of Mr. McMullen, further consideration of House Bill No. 1021 was deferred and the bill was ordered held on the second reading calendar.

Mr. S. Wilson: Representative Armstrong, I am really curious to know how the employer is supposed to know the marital status and the background of all of his employees. Is that mechanism set up in this bill or is it set up for the department?

Mr. Armstrong: The way it was proposed—and it was by a business organization—was that there would be a toll-free hotline where someone could call in and find out if any information about the employee had to be reported to the state. The only time that something would have to be reported about the employee is if that employee was failing to pay the child support. Only about those who failed to pay would information be passed on.

Mr. Lux: Does this lien take effect after the person has deceased or when they are put into a nursing home?

Mr. Wang: The lien itself would only be attached after the person was deceased, however, the person in a nursing home would certainly know that the only thing left at that point—the only option that person has left—the family home, is going to be attached and would no longer be able to have any assets to pass on to his or her heirs.

Mr. Lux: Is it also true that, as Representative Brekke said, it was a $25,000 home as well as a $250,000 or $500,000 home?

A covenant may be issued with respect to all remedial actions taken under a completed response action plan or may be issued for one or more particular remedial actions taken under a completed response action plan.

Nor does the issuance of a covenant affect any power of the state to institute or respond to any tort action or any other judicial or administrative action, so long as the state's action or response is not expressly barred by the covenant. With respect to any action filed against the state, a covenant does not bar the state from filing a cross-claim, counterclaim, or third party action against any person who may be liable or from seeking contribution from such person, so long as the damages or relief sought by the state in filing the cross-claim, counterclaim, or third party action is not expressly barred by the covenant."

POINT OF INQUIRY

Mr. Grimm yielded to question by Ms. Miller.

Ms. Miller: Representative Grimm, we had a very good presentation in our caucus today on all of the various environmental bills and most particularly, this one. I'm wondering if you could give us an idea of what the price tag would be that would be attached to this particular bill?

Mr. Grimm: Based on the best information available, this bill, if it were enacted into law, would raise approximately $60 million per biennium. During the next two years, 1987-89, about $30 million would be expended. That pattern would tend to continue one biennium to the next in constant dollars, although it probably will increase and the assumptions are that while the $60 million would be taken in on a biennial basis, about $45 million would tend to be spent with the remainder being applied to and contained in a contingency fund.

Mr. May spoke in favor of passage of the bill.
