(1)(a) Any person who operates a motor vehicle within this state is deemed to have given consent, subject to the provisions of RCW 46.61.506, to a test or tests of his or her breath or blood for the purpose of determining the ((alcoholic content of)) alcohol concentration or presence of any drug in his or her breath or blood if arrested for any offense where, at the time of the arrest, the arresting officer has reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle while under the influence of intoxicating liquor or any drug.

(b) A person under the age of twenty-one who drives or is in physical control of a motor vehicle within this state is deemed to have given consent, subject to the relevant portions of RCW 46.61.506, to be detained long enough, and be transported if necessary, to take a test or tests of that person's blood or breath for the purpose of determining the alcohol concentration in his or her system if requested or signaled to stop by a law enforcement officer pursuant to RCW 46.20.309 (as recodified by this act) where, at the time of the stop, the officer has reasonable grounds to believe the person is under the age of twenty-one and had been driving or was in actual physical control of a motor vehicle while having alcohol in a concentration of 0.02 or more in his or her system.

(2) The test or tests of breath shall be administered at the direction of a law enforcement officer having reasonable grounds to believe the person to have been driving or in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or the person to have been driving or in actual physical control of a motor vehicle while having alcohol in a concentration of 0.02 or more in his or her system and being under the age of twenty-one. However, in those instances where((: 

(a) the person is incapable due to physical injury, physical incapacity, or other physical limitation, of providing a breath sample((; or (b) as a result of a traffic accident)) or where the person is being treated ((for a medical condition)) in a hospital, clinic, doctor's office, emergency medical..."
vehicle, ambulance, or other similar facility in which a breath testing instrument is not present or
where the officer has reasonable grounds to believe that the person is under the influence of a drug, a
blood test shall be administered by a qualified person as provided in RCW 46.61.506(4). The officer
shall inform the person of his or her right to refuse the breath or blood test, and of his or her right to
have additional tests administered by any qualified person of his or her choosing as provided in RCW
46.61.506. The officer shall warn the driver that:
(a) His or her license, permit, or privilege to drive will be revoked or denied if he or she
refuses to submit to the test((, and (b) that));
(b) His or her license, permit, or privilege to drive will be suspended, revoked, denied, or
placed in probationary status and the person will be subject to possible criminal penalties if the test is
administered and the test indicates the alcohol concentration of the person’s breath or blood is 0.10 or
more, in the case of a person age twenty-one or over, or 0.02 in the case of a person under age twenty-
one; and
(c) His or her refusal to take the test may be used in a criminal trial.
(3) Except as provided in this section, the test administered shall be of the breath only. If an
individual is unconscious or is under arrest for the crime of vehicular homicide as provided in RCW
46.61.520 or vehicular assault as provided in RCW 46.61.522, or if an individual is under arrest for
the crime of driving while under the influence of intoxicating liquor or drugs as provided in RCW
46.61.502 or is under detention for driving with alcohol in his or her system as provided in RCW
46.20.309 (as recodified by this act), which arrest or detention results from an accident in which there
has been serious bodily injury to another person ((has been injured and there is a reasonable likelihood
that such other person may die as a result of injuries sustained in the accident)), a breath or blood test
may be administered without the consent of the individual so arrested or detained.
(4) Any person who is dead, unconscious, or who is otherwise in a condition rendering him or
her incapable of refusal, shall be deemed not to have withdrawn the consent provided by subsection (1)
of this section and the test or tests may be administered, subject to the provisions of RCW 46.61.506,
and the person shall be deemed to have received the warnings required under subsection (2) of this
section.
(5) If, following his or her arrest or detention and receipt of warnings under subsection (2) of
this section, the person arrested or detained refuses upon the request of a law enforcement officer to
submit to a test or tests of his or her breath or blood, no test shall be given except as authorized under
subsection (3) or (4) of this section.
(6) If, after arrest or detention and after the other applicable conditions and requirements of this
section have been satisfied, a test or tests of the person’s breath or blood is administered and the test
results indicate that the alcohol concentration of the person’s breath or blood is 0.10 or more if the
person is age twenty-one or over, or is 0.02 or more if the person is under the age of twenty-one, or
the person refuses to submit to a test, the arresting officer or other law enforcement officer at whose
direction any test has been given, or the department, where applicable, if the arrest or detention results
in a test of the person’s blood, shall:
(a) Serve notice in writing on the person on behalf of the department of its intention to suspend,
revoke, deny, or place in probationary status the person’s license, permit, or privilege to drive as
required by subsection (7) of this section;
(b) Serve notice in writing on the person on behalf of the department of his or her right to a
hearing, specifying the steps he or she must take to obtain a hearing. Within thirty days after the
notice has been given, the person may, in writing, request a formal hearing as provided by subsection
(8) of this section. If such request is made by mail it must be postmarked within thirty days after the
notice has been given;
(c) Mark the person’s Washington state driver’s license or permit to drive, if any, in a manner
authorized by the department;
(d) Serve notice in writing that the marked license or permit, if any, is a temporary license that
is valid for sixty days from the date of arrest or detention or from the date notice has been given in the
event notice is given by the department following a blood test, or until the suspension, revocation, or
denial of the person’s license, permit, or privilege to drive is sustained at a hearing pursuant to
subsection (8) of this section, whichever occurs first. No temporary license is valid to any greater
degree than the license or permit that it replaces; and
(e) Immediately notify the department of the arrest or detention and transmit to the department within seventy-two hours, except as delayed as the result of a blood test, a sworn report or report under a declaration authorized by RCW 9A.72.085 that states:

(i) That the officer had reasonable grounds to believe the arrested or detained person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or drugs, or both;

(ii) That after receipt of the warnings required by subsection (2) of this section the person refused to submit to a test of his or her blood or breath, or a test was administered and the results indicated that the alcohol concentration of the person's breath or blood was 0.10 or more if the person is age twenty-one or over, or was 0.02 or more if the person is under the age of twenty-one; and

(iii) Any other information that the director may require by rule.

(7) The department of licensing, upon the receipt of a sworn report ((of the law enforcement officer that the officer had reasonable grounds to believe the arrested person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor and that the person had refused to submit to the test or tests upon the request of the law enforcement officer after being informed that refusal would result in the revocation of the person's privilege to drive)) or report under a declaration authorized by RCW 9A.72.085 under subsection (6)(e) of this section, shall suspend, revoke, deny, or place in probationary status the person's license ((or permit, or privilege to drive)) or report under a declaration authorized by RCW 9A.72.085 under subsection (((7)))((6)(e)) of this section extended, if the person is otherwise eligible for licensing.

(((7) Upon revoking the license or permit to drive or the nonresident operating privilege of any person, the department shall immediately notify the person involved in writing by personal service or by certified mail of its decision and the grounds therefor, and of the person's right to a hearing, specifying the steps he or she must take to obtain a hearing. Within fifteen days after the notice has been given, the person may, in writing, request a formal hearing. The person shall pay a fee of one hundred dollars as part of the request.))

(8) Upon timely receipt of ((such)) a request ((and such fee)) for a formal hearing, the department shall afford the person an opportunity for a hearing ((as provided in))). Except as otherwise provided in this section, the hearing is subject to and shall be scheduled and conducted in accordance with RCW 46.20.329 and 46.20.332. The hearing shall be conducted in the county of the arrest or detention, except that all or part of the hearing may, at the discretion of the department, be conducted by telephone or other electronic means. The hearing shall be held within sixty days following the arrest or detention or following the date notice has been given in the event notice is given by the department following a blood test, or when sustained at a hearing pursuant to subsection (8) of this section, whichever occurs first.

((7) Upon time ly receipt of ((such)) a request ((and such fee)) for a formal hearing, the department shall afford the person an opportunity for a hearing ((as provided in))). Except as otherwise provided in this section, the hearing is subject to and shall be scheduled and conducted in accordance with RCW 46.20.329 and 46.20.332. The hearing shall be conducted in the county of the arrest or detention, except that all or part of the hearing may, at the discretion of the department, be conducted by telephone or other electronic means. The hearing shall be held within sixty days following the arrest or detention or following the date notice has been given in the event notice is given by the department following a blood test, unless otherwise agreed to by the department and the person, in which case the action by the department shall be stayed, and any valid temporary license marked under subsection (6)(c) of this section extended, if the person is otherwise eligible for licensing. For the purposes of this section, the scope of ((such)) the hearing shall cover the issues of whether a law enforcement officer had reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or any drug or had been driving or was in actual physical control of a motor vehicle within this state while having alcohol in his or her system and was under the age of twenty-one, whether the person was placed under arrest, and (a) whether the person refused to submit to the test or tests upon request of the officer after having been informed that such refusal would result in the revocation of the person's license, permit, or privilege to drive, or (b) if a test or tests were administered, whether the applicable requirements of this section were satisfied before the administration of the test or tests, whether the person submitted to the test or tests, or whether a test was administered without express consent as permitted under this section, and whether the test or tests indicated that the alcohol concentration of the person's breath or blood was 0.10 or more if the person was age twenty-one or over at the time of the arrest, or was 0.02 or more if the person was under the age of twenty-one at the time of the arrest or detention. The sworn report or report under a declaration authorized by RCW 9A.72.085 submitted by a law enforcement officer is prima facie evidence that the officer had reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or drugs, or both, or the person had been driving or was in actual physical control of a motor vehicle within this state while having alcohol in his or her system.
and was under the age of twenty-one and that the officer complied with the requirements of this section.

A hearing officer shall conduct the hearing, may issue subpoenas for the attendance of witnesses and the production of documents, and shall administer oaths to witnesses. The hearing officer shall not issue a subpoena for the attendance of a witness at the request of the person unless the request is accompanied by the fee required by RCW 5.56.010 for a witness in district court. The sworn report or report under a declaration authorized by RCW 9A.72.085 of the law enforcement officer and any other evidence accompanying the report shall be admissible without further evidentiary foundation and the certifications authorized by the criminal rules for courts of limited jurisdiction shall be admissible without further evidentiary foundation. The person may be represented by counsel, may question witnesses, may present evidence, and may testify. The department shall order that the suspension, revocation, denial, or placement in probationary status either be rescinded or sustained. ((Any decision by the department revoking a person’s driving privilege shall be stayed and shall not take effect while a formal hearing is pending as provided in this section or during the pendency of a subsequent appeal to superior court so long as there is no conviction for a moving violation or no finding that the person has committed a traffic infraction that is a moving violation during pendency of the hearing and appeal.

(9) If the suspension, revocation, denial, or placement in probationary status is sustained after such a hearing, the person whose license, privilege, or permit is suspended, revoked, denied, or placed in probationary status has the right to file a petition in the superior court of the county of arrest or detention to review the final order of revocation by the department in the same manner (provided in RCW 46.20.334) as an appeal from a decision of a court of limited jurisdiction. The appellant must pay the costs associated with obtaining the record of the hearing before the hearing officer plus an additional one hundred dollars to the department. The filing of the appeal does not stay the effective date of the suspension, revocation, denial, or placement in probationary status. A petition filed under this subsection must include the petitioner’s grounds for requesting review. Upon granting petitioner’s request for review, the court shall review the department’s final order of suspension, revocation, denial, or placement in probationary status as expeditiously as possible. If judicial relief is sought for a stay or other temporary remedy from the department’s action, the court shall not grant such relief unless the court finds that the appellant is likely to prevail in the appeal and that without a stay the appellant will suffer irreparable injury. If the court stays the suspension, revocation, denial, or placement in probationary status it may impose conditions on such stay.

(10) If a person whose driver’s license, permit, or privilege to drive has been or will be suspended, revoked, denied, or placed in probationary status under subsection (7) of this section, other than as a result of a breath test refusal, and who has not committed an offense within the last five years for which he or she was granted a deferred prosecution under chapter 10.05 RCW, petitions a court for a deferred prosecution on criminal charges arising out of the arrest for which action has been or will be taken under subsection (7) of this section, the court may direct the department to stay any actual or proposed suspension, revocation, denial, or placement in probationary status for at least forty-five days but not more than ninety days. If the court stays the suspension, revocation, denial, or placement in probationary status, it may impose conditions on such stay. If the person is otherwise eligible for licensing, the department shall issue a temporary license, or extend any valid temporary license marked under subsection (6) of this section, for the period of the stay. If a deferred prosecution treatment plan is not recommended in the report made under RCW 10.05.050, or if treatment is rejected by the court, or if the person declines to accept an offered treatment plan, or if the person violates any condition imposed by the court, then the court shall immediately direct the department to cancel the stay and any temporary marked license or extension of a temporary license issued under this subsection.

A suspension, revocation, or denial imposed under this section, other than as a result of a breath test refusal, shall be stayed if the person is accepted for deferred prosecution as provided in chapter 10.05 RCW for the incident upon which the suspension, revocation, or denial is based. If the deferred prosecution is terminated, the stay shall be lifted and the suspension, revocation, or denial reinstated. If the deferred prosecution is completed, the stay shall be lifted and the suspension, revocation, or denial canceled. ((11) When it has been finally determined under the procedures of this section that a nonresident’s privilege to operate a motor vehicle in this state has been suspended, revoked, or denied, the department shall give information in writing of the action taken to the motor vehicle administrator of the state of the person’s residence and of any state in which he or she has a license.
Sec. 2. RCW 46.20.309 and 1994 c 275 s 10 are each amended to read as follows:

(((4))) Notwithstanding any other provision of this title, a person under the age of twenty-one may not drive, operate, or be in physical control of a motor vehicle while having alcohol in his or her system in a concentration of 0.02 or above.

(((2))) A person under the age of twenty-one who drives or is in physical control of a motor vehicle within this state is deemed to have given consent, subject to the relevant portions of RCW 46.61.506, to be detained long enough, and be transported if necessary, to take a test or tests of that person’s blood or breath for the purpose of determining the alcohol concentration in his or her system.

(3) A test or tests may be administered at the direction of a law enforcement officer, who, after stopping or detaining the driver, has reasonable grounds to believe that the driver was driving or in actual physical control of a motor vehicle while having alcohol in his or her system.

(4) The law enforcement officer requesting the test or tests under subsection (2) of this section shall warn the person requested to submit to the test that a refusal to submit will result in that person’s driver’s license or driving privilege being revoked.

(5) If the person refuses testing, or submits to a test that discloses an alcohol concentration of 0.02 or more, the law enforcement officer shall:

(a) Serve the person notice in writing on behalf of the department of licensing of its intention to suspend, revoke, or deny the person’s license, permit, or privilege to drive;

(b) Serve the person notice in writing on behalf of the department of licensing of the person’s right to a hearing, specifying the steps required to obtain a hearing;

(c) Confiscate the person’s Washington state license or permit to drive, if any, and issue a temporary license to replace any confiscated license or permit. The temporary license shall be valid for thirty days from the date of the traffic stop or until the suspension or revocation of the person’s license or permit is sustained at a hearing as provided by subsection (7) of this section, whichever occurs first.

(6) Upon receipt of the sworn report of a law enforcement officer under subsection (5) of this section, the person may, upon written request, request a formal hearing.

(a) That the officer had reasonable grounds to believe the person was driving or in actual physical control of a motor vehicle within this state while having alcohol in his or her system;

(b) That pursuant to this section a test of the person’s alcohol concentration was administered or that the person refused to be tested;

(c) Confiscate the person’s Washington state license or permit to drive, if any, and issue a temporary license to replace any confiscated license or permit and a sworn report stating:

(i) That the officer had reasonable grounds to believe the person was driving or in actual physical control of a motor vehicle within this state while having alcohol in his or her system;

(ii) That pursuant to this section a test of the person’s alcohol concentration was administered or that the person refused to be tested;

(iii) If administered, that the test indicated the person’s alcohol concentration was 0.02 or higher;

(iv) Any other information that the department may require by rule.

(7) Upon receipt of the sworn report of a law enforcement officer under subsection (5) of this section, the department shall suspend or revoke the driver’s license or driving privilege beginning thirty days from the date of the traffic stop or beginning when the suspension, revocation, or denial is sustained at a hearing as provided by subsection (7) of this section. Within fifteen days after notice of a suspension or revocation has been given, the person may, in writing, request a formal hearing. If such a request is not made within the prescribed time, the right to a hearing is waived.

(8) The department shall order the suspension or revocation of the person’s driver’s license or driving privilege if there is no finding that the person has committed a traffic infraction that is a moving violation.

(9) A temporary license to replace any confiscated license or permit is valid to the degree that the license or permit it replaces.

(7) The department shall suspend or revoke the driver’s license or driving privilege of a person as required by this section as follows:
   (a) In the case of a person who has refused a test or tests:
      (i) For a first refusal within five years, revocation for one year;
      (ii) For a second or subsequent refusal within five years, revocation or denial for two years.
   (b) In the case of an incident where a person has submitted to a test or tests indicating an alcohol concentration of 0.02 or more:
      (i) For a first incident within five years, suspension for ninety days;
      (ii) For a second or subsequent incident within five years, revocation for one year or until the person reaches age twenty-one, whichever is longer.

(8) For purposes of this section, “alcohol concentration” means (a) grams of alcohol per two hundred ten liters of a person’s breath, or (b) the percent by weight of alcohol in a person’s blood.)

NEW SECTION. Sec. 3. A new section is added to chapter 46.20 RCW to read as follows:

Pursuant to RCW 46.20.308, the department shall suspend, revoke, or deny the arrested or detained person’s license, permit, or privilege to drive as follows:

(1) In the case of a person who has refused a test or tests:
   (a) For a first refusal within five years, where there has not been a previous incident within five years that resulted in administrative action under this section, revocation or denial for one year;
   (b) For a second or subsequent refusal within five years, or for a first refusal where there has been one or more previous incidents within five years that have resulted in administrative action under this section, revocation or denial for two years or until the person reaches age twenty-one, whichever is longer. A revocation imposed under this subsection (1)(b) shall run consecutively to the period of any suspension, revocation, or denial imposed pursuant to a criminal conviction arising out of the same incident.

(2) In the case of an incident where a person has submitted to or been administered a test or tests indicating that the alcohol concentration of the person’s breath or blood was 0.10 or more:

(3) In the case of an incident where a person under age twenty-one has submitted to or been administered a test or tests indicating that the alcohol concentration of the person’s breath or blood was more than 0.02:
   (a) For a first incident within five years, suspension or denial for ninety days;
   (b) For a second or subsequent incident within five years, revocation or denial for one year or until the person reaches age twenty-one, whichever is longer.

Sec. 4. RCW 46.20.355 and 1994 c 275 s 8 are each amended to read as follows:

(1) Upon ((notification of a conviction under RCW 46.61.502 or 46.61.504)) receipt of a sworn report or report under a declaration authorized by RCW 9A.72.085 under RCW 46.20.308, or upon receipt of an abstract indicating a deferred prosecution has been granted under RCW 10.05.060, the department of licensing shall order the person to surrender ((his or her)) any Washington state driver’s license that may be in his or her possession. The department shall revoke the license, permit, or privilege to drive of any person who fails to surrender it as required by this section for one year, unless the license has been previously surrendered to the department, a law enforcement officer, or a court, or the person has completed an affidavit of lost, stolen, destroyed, or previously surrendered license, such revocation to take effect thirty days after notice is given of the requirement for license surrender.

(2) Upon receipt of the surrendered license, and following the expiration of any period of license suspension or revocation, or following receipt of a sworn statement under RCW 46.20.365 that requires issuance of a probationary license, the department shall issue the person a probationary license if otherwise qualified. The probationary license shall be renewed on the same cycle as the person’s regular license would have been renewed until five years after the date of its issuance.) 10.05.060 or 46.20.308 for a period of five years from the date the probationary status is required to go into effect.

(3) Following receipt of an abstract indicating a deferred prosecution has been granted under RCW 10.05.060, or following receipt of a sworn report under RCW 46.20.308 that requires immediate placement in probationary status under section 3(2)(a) of this act, the department shall require the person to obtain a probationary license in order to operate a motor vehicle in the state of Washington, except as otherwise exempt under RCW 46.20.025. The department shall not issue the probationary license unless the person is otherwise qualified for licensing, and the person must renew the probationary license on the same cycle as the person's regular license would have been renewed until the expiration of the five-year probationary status period imposed under subsection (2) of this section.

(4) For each original issue or reissue renewal of a probationary license under this section, the department may charge a fee of fifty dollars in addition to any other licensing fees required. Except for when renewing a probationary license, the department shall waive the fifty-dollar fee if the person has a probationary license in his or her possession at the time a new probationary license is required.

(5) A probationary license shall enable the department and law enforcement personnel to determine that the person is on probationary status, including the period of that status, for a violation of RCW 46.61.502 or 46.61.504. The fact that a person's driving privilege is in probationary status or that the person has been issued a probationary license shall not be a part of the person's record that is available to insurance companies.

      (i) By imprisonment for not less than ninety days nor more than one year. Ninety days of the imprisonment may not be suspended or deferred unless the court finds that the imposition of this mandatory minimum sentence would impose a substantial risk to the offender’s physical or mental well-being. Whenever the mandatory minimum sentence is suspended or deferred, the court shall state in writing the reason for granting the suspension or deferral and the facts upon which the suspension or deferral is based; and

      (ii) By a fine of not less than one thousand dollars nor more than five thousand dollars. One thousand dollars of the fine may not be suspended or deferred unless the court finds the offender to be indigent; and

      (iii) By revocation of the offender’s license or permit to drive, or suspension of any nonresident privilege to drive, for a period of two years. The period of license, permit, or privilege revocation
may not be suspended. The court shall notify the department of licensing of the conviction, and upon receiving notification of the conviction the department shall revoke the offender’s license, permit, or privilege; or

(b) In the case of a person whose alcohol concentration was at least 0.15, or for whom by reason of the person’s refusal to take a test offered pursuant to RCW 46.20.308 there is no test result indicating the person’s alcohol concentration:

(i) By imprisonment for not less than one hundred twenty days nor more than one year. One hundred twenty days of the imprisonment may not be suspended or deferred unless the court finds that the imposition of this mandatory minimum sentence would impose a substantial risk to the offender’s physical or mental well-being. Whenever the mandatory minimum sentence is suspended or deferred, the court shall state in writing the reason for granting the suspension or deferral and the facts upon which the suspension or deferral is based; and

(ii) By a fine of not less than one thousand five hundred dollars nor more than five thousand dollars. One thousand five hundred dollars of the fine may not be suspended or deferred unless the court finds the offender to be indigent; and

(iii) By revocation of the offender’s license or permit to drive, or suspension of any nonresident privilege to drive, for a period of three years. The period of license, permit, or privilege revocation may not be suspended. The court shall notify the department of licensing of the conviction, and upon receiving notification of the conviction the department shall revoke the offender’s license, permit, or privilege.

(4) In exercising its discretion in setting penalties within the limits allowed by this section, the court shall particularly consider whether the person’s driving at the time of the offense was responsible for injury or damage to another or another’s property.

(5) An offender punishable under this section is subject to the alcohol assessment and treatment provisions of RCW 46.61.5056.

(6)(a) In addition to any nonsuspendable and nondeferrable jail sentence required by this section, whenever the court imposes less than one year in jail, the court shall also suspend but shall not defer a period of confinement for a period not exceeding two years. The court shall impose conditions of probation that include: (i) Not driving a motor vehicle within this state without a valid license to drive and proof of financial responsibility for the future; (ii) not driving a motor vehicle within this state while having an alcohol concentration of 0.08 or more within two hours after driving; and (iii) not refusing to submit to a test of his or her breath or blood to determine alcohol concentration upon request of a law enforcement officer who has reasonable grounds to believe the person was driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor. The court may impose conditions of probation that include nonrepetition, alcohol or drug treatment, supervised probation, or other conditions that may be appropriate. The sentence may be imposed in whole or in part upon violation of a condition of probation during the suspension period.

(b) For each violation of mandatory conditions of probation under (a) (i) and (ii) or (a) (i) and (iii) of this subsection, the court shall order the convicted person to be confined for thirty days, which shall not be suspended or deferred.

(c) For each incident involving a violation of a mandatory condition of probation imposed under this subsection, the license, permit, or privilege to drive of the person shall be suspended by the court for thirty days or, if such license, permit, or privilege to drive already is suspended, revoked, or denied at the time the finding of probation violation is made, the suspension, revocation, or denial then in effect shall be extended by thirty days. The court shall notify the department of any suspension, revocation, or denial or any extension of a suspension, revocation, or denial imposed under this subsection.

(7)(a) A "prior offense" means any of the following:

(i) A conviction for a violation of RCW 46.61.502 or an equivalent local ordinance;

(ii) A conviction for a violation of RCW 46.61.504 or an equivalent local ordinance;

(iii) A conviction for a violation of RCW 46.61.520 committed while under the influence of intoxicating liquor or any drug;

(iv) A conviction for a violation of RCW 46.61.522 committed while under the influence of intoxicating liquor or any drug;

(v) An out-of-state conviction for a violation that would have been a violation of (a)(i), (ii), (iii), or (iv) of this subsection if committed in this state; or
(vi) A deferred prosecution under chapter 10.05 RCW granted in a prosecution for a violation of RCW 46.61.502, 46.61.504, or an equivalent local ordinance.

(b) "Within five years" means that the arrest for a prior offense occurred within five years of the arrest for the current offense.

Sec. 6. RCW 46.61.5058 and 1994 c 139 s 1 are each amended to read as follows:

(1) Upon the arrest of a person or upon the filing of a complaint, citation, or information in a court of competent jurisdiction, based upon probable cause to believe that a person has violated RCW 46.61.502 or 46.61.504 or any similar municipal ordinance, if such person has a ((previous conviction for violation of either RCW 46.61.502 or 46.61.504 or other similar municipal ordinance, and where the offense occurs within a five-year period of the previous conviction)) prior offense within five years as defined in section 5 of this act, and where the person has been provided written notice that any transfer, sale, or encumbrance of such person’s interest in the vehicle over which that person was actually driving or had physical control when the violation occurred, is unlawful pending either acquittal, dismissal, sixty days after conviction, or other termination of the charge, such person shall be prohibited from encumbering, selling, or transferring his or her interest in such vehicle, except as otherwise provided in (a), (b), and (c) of this subsection, until either acquittal, dismissal, sixty days after conviction, or other termination of the charge. The prohibition against transfer of title shall not be stayed pending the determination of an appeal from the conviction.

(a) A vehicle encumbered by a bona fide security interest may be transferred to the secured party or to a person designated by the secured party;

(b) A leased or rented vehicle may be transferred to the lessor, rental agency, or to a person designated by the lessor or rental agency; and

(c) A vehicle may be transferred to a third party or a vehicle dealer who is a bona fide purchaser or may be subject to a bona fide security interest in the vehicle unless it is established that (i) in the case of a purchase by a third party or vehicle dealer, such party or dealer had actual notice that the vehicle was subject to the prohibition prior to the purchase, or (ii) in the case of a security interest, the holder of the security interest had actual notice that the vehicle was subject to the prohibition prior to the encumbrance of title.

(2) On (a second or subsequent) conviction for a violation of either RCW 46.61.502 or 46.61.504 or any similar municipal ordinance where (such offense was committed within a five-year period of the previous conviction) the person convicted has a prior offense within five years as defined in section 5 of this act, the motor vehicle the person was driving or over which the person had actual physical control at the time of the offense, if the person has a financial interest in the vehicle, is subject to seizure and forfeiture pursuant to this section.

(3) A vehicle subject to forfeiture under this chapter may be seized by a law enforcement officer of this state upon process issued by a court of competent jurisdiction. Seizure of a vehicle may be made without process if the vehicle subject to seizure has been the subject of a prior judgment in favor of the state in a forfeiture proceeding based upon this section.

(4) Seizure under subsection (3) of this section automatically commences proceedings for forfeiture. The law enforcement agency under whose authority the seizure was made shall cause notice of the seizure and intended forfeiture of the seized vehicle to be served within fifteen days after the seizure on the owner of the vehicle seized, on the person in charge of the vehicle, and on any person having a known right or interest in the vehicle, including a community property interest. The notice of seizure may be served by any method authorized by law or court rule, including but not limited to service by certified mail with return receipt requested. Service by mail is complete upon mailing within the fifteen-day period after the seizure. Notice of seizure in the case of property subject to a security interest that has been perfected on a certificate of title shall be made by service upon the secured party or the secured party’s assignee at the address shown on the financing statement or the certificate of title.

(5) If no person notifies the seizing law enforcement agency in writing of the person’s claim of ownership or right to possession of the seized vehicle within forty-five days of the seizure, the vehicle is deemed forfeited.

(6) If a person notifies the seizing law enforcement agency in writing of the person’s claim of ownership or right to possession of the seized vehicle within forty-five days of the seizure, the law enforcement agency shall give the person or persons a reasonable opportunity to be heard as to the claim or right. The hearing shall be before the chief law enforcement officer of the seizing agency or
the chief law enforcement officer’s designee, except where the seizing agency is a state agency as defined in RCW 34.12.020, the hearing shall be before the chief law enforcement officer of the seizing agency or an administrative law judge appointed under chapter 34.12 RCW, except that any person asserting a claim or right may remove the matter to a court of competent jurisdiction. Removal may only be accomplished according to the rules of civil procedure. The person seeking removal of the matter must serve process against the state, county, political subdivision, or municipality that operates the seizing agency, and any other party of interest, in accordance with RCW 4.28.080 or 4.92.020, within forty-five days after the person seeking removal has notified the seizing law enforcement agency of the person’s claim of ownership or right to possession. The court to which the matter is to be removed shall be the district court when the aggregate value of the vehicle is within the jurisdictional limit set forth in RCW 3.66.020. A hearing before the seizing agency and any appeal therefrom shall be under Title 34 RCW. In a court hearing between two or more claimants to the vehicle involved, the prevailing party shall be entitled to a judgment for costs and reasonable attorneys’ fees. The burden of producing evidence shall be upon the person claiming to be the legal owner or the person claiming to have the lawful right to possession of the vehicle. The seizing law enforcement agency shall promptly return the vehicle to the claimant upon a determination by the administrative law judge or court that the claimant is the present legal owner under Title 46 RCW or is lawfully entitled to possession of the vehicle.

(7) When a vehicle is forfeited under this chapter the seizing law enforcement agency may sell the vehicle, retain it for official use, or upon application by a law enforcement agency of this state release the vehicle to that agency for the exclusive use of enforcing this title; provided, however, that the agency shall first satisfy any bona fide security interest to which the vehicle is subject under subsection (1) (a) or (c) of this section.

(8) When a vehicle is forfeited, the seizing agency shall keep a record indicating the identity of the prior owner, if known, a description of the vehicle, the disposition of the vehicle, the value of the vehicle at the time of seizure, and the amount of proceeds realized from disposition of the vehicle.

(9) Each seizing agency shall retain records of forfeited vehicles for at least seven years.

(10) Each seizing agency shall file a report including a copy of the records of forfeited vehicles with the state treasurer each calendar quarter.

(11) The quarterly report need not include a record of a forfeited vehicle that is still being held for use as evidence during the investigation or prosecution of a case or during the appeal from a conviction.

(12) By January 31st of each year, each seizing agency shall remit to the state treasurer an amount equal to ten percent of the net proceeds of vehicles forfeited during the preceding calendar year. Money remitted shall be deposited in the public safety and education account.

(13) The net proceeds of a forfeited vehicle is the value of the forfeitable interest in the vehicle after deducting the cost of satisfying a bona fide security interest to which the vehicle is subject at the time of seizure; and in the case of a sold vehicle, after deducting the cost of sale, including reasonable fees or commissions paid to independent selling agents.

(14) The value of a sold forfeited vehicle is the sale price. The value of a retained forfeited vehicle is the fair market value of the vehicle at the time of seizure, determined when possible by reference to an applicable commonly used index, such as the index used by the department of licensing. A seizing agency may, but need not, use an independent qualified appraiser to determine the value of retained vehicles. If an appraiser is used, the value of the vehicle appraised is net of the cost of the appraisal.

PART III - TECHNICAL AMENDMENTS

Sec. 7. RCW 3.62.090 and 1994 c 275 s 34 are each amended to read as follows:

(1) There shall be assessed and collected in addition to any fines, forfeitures, or penalties assessed, other than for parking infractions, by all courts organized under Title 3 or 35 RCW a public safety and education assessment equal to sixty percent of such fines, forfeitures, or penalties, which shall be remitted as provided in chapters 3.46, 3.50, 3.62, and 35.20 RCW. The assessment required by this section shall not be suspended or waived by the court.

(2) There shall be assessed and collected in addition to any fines, forfeitures, or penalties assessed, other than for parking infractions and for fines levied under ((RCW 46.61.5051, 46.61.5052, and 46.61.5053)) section 5 of this act, and in addition to the public safety and education assessment
required under subsection (1) of this section, by all courts organized under Title 3 or 35 RCW, an additional public safety and education assessment equal to fifty percent of the public safety and education assessment required under subsection (1) of this section, which shall be remitted to the state treasurer and deposited as provided in RCW 43.08.250. The additional assessment required by this subsection shall not be suspended or waived by the court.

Sec. 8. RCW 10.05.060 and 1994 c 275 s 17 are each amended to read as follows:
If the report recommends treatment, the court shall examine the treatment plan. If it approves the plan and the petitioner agrees to comply with its terms and conditions and agrees to pay the cost thereof, if able to do so, or arrange for the treatment, an entry shall be made upon the person’s court docket showing that the person has been accepted for deferred prosecution. A copy of the treatment plan shall be attached to the docket, which shall then be removed from the regular court dockets and filed in a special court deferred prosecution file. If the charge be one that an abstract of the docket showing the charge, the date of the violation for which the charge was made, and the date of petitioner’s acceptance is required to be sent to the department of licensing, an abstract shall be sent, and the department of licensing shall make an entry of the charge and of the petitioner’s acceptance for deferred prosecution on the department’s driving record of the petitioner. The entry is not a conviction for purposes of Title 46 RCW. (Upon receipt of the abstract of the docket, the department shall issue the petitioner a probationary license in accordance with RCW 46.20.355, and the petitioner’s driver’s license shall be on probationary status for five years from the date of the violation that gave rise to the charge.) The department shall maintain the record for ten years from date of entry of the order granting deferred prosecution.

Sec. 9. RCW 35.21.165 and 1994 c 275 s 36 are each amended to read as follows:
Except as limited by the maximum penalties authorized by law, no city or town may establish a penalty for an act that constitutes the crime of driving while under the influence of intoxicating liquor or any drug, as provided in RCW 46.61.502, or the crime of being in actual physical control of a motor vehicle while under the influence of intoxicating liquor or any drug, as provided in RCW 46.61.504, that is less than the penalties prescribed for those crimes in (RCW 46.61.5051, 46.61.5052, and 46.61.5053) section 5 of this act.

Sec. 10. RCW 36.32.127 and 1994 c 275 s 37 are each amended to read as follows:
No county may establish a penalty for an act that constitutes the crime of driving while under the influence of intoxicating liquor or any drug, as provided in RCW 46.61.502, or the crime of being in actual physical control of a motor vehicle while under the influence of intoxicating liquor or any drug, as provided in RCW 46.61.504, that is less than the penalties prescribed for those crimes in (RCW 46.61.5051, 46.61.5052, and 46.61.5053) section 5 of this act.

Sec. 11. RCW 46.04.480 and 1994 c 275 s 38 are each amended to read as follows:
“Revoke,” in all its forms, means the invalidation for a period of one calendar year and thereafter until reissue: PROVIDED, That under the provisions of RCW 46.20.285, 46.20.311, 46.20.265, ((46.61.5051, 46.61.5052, or 46.61.5053)) or section 5 of this act, and chapter 46.65 RCW the invalidation may last for a period other than one calendar year.

Sec. 12. RCW 46.20.311 and 1994 c 275 s 27 are each amended to read as follows:
(1) The department shall not suspend a driver’s license or privilege to drive a motor vehicle on the public highways for a fixed period of more than one year, except as specifically permitted under RCW 46.20.342 or other provision of law. Except for a suspension under RCW 46.20.289 and 46.20.291(5), whenever the license or driving privilege of any person is suspended by reason of a conviction, a finding that a traffic infraction has been committed, pursuant to chapter 46.29 RCW, or pursuant to RCW 46.20.291 or 46.20.308, the suspension shall remain in effect until the person gives and thereafter maintains proof of financial responsibility for the future as provided in chapter 46.29 RCW. If the suspension is the result of a violation of RCW 46.61.502 or 46.61.504, the department shall determine the person’s eligibility for licensing based upon the reports provided by the alcoholism agency or probation department designated under RCW 46.61.5056 and shall deny reinstatement until enrollment and participation in an approved program has been established and the person is otherwise qualified. The department shall not issue to the person a new, duplicate, or renewal license until the
person pays a reissue fee of twenty dollars. If the suspension is the result of a violation of RCW 46.61.502 or 46.61.504, or is the result of administrative action under RCW 46.20.308, the reissue fee shall be fifty dollars.

(2) Any person whose license or privilege to drive a motor vehicle on the public highways has been revoked, unless the revocation was for a cause which has been removed, is not entitled to have the license or privilege renewed or restored until: (a) After the expiration of one year from the date the license or privilege to drive was revoked; (b) after the expiration of the applicable revocation period provided by (RCW 46.20.308 or 46.61.5052, 46.61.5053, or 46.20.365)) section 3 or 5 of this act; (c) after the expiration of two years for persons convicted of vehicular homicide; or (d) after the expiration of the applicable revocation period provided by RCW 46.20.265. After the expiration of the appropriate period, the person may make application for a new license as provided by law together with a reissue fee in the amount of twenty dollars, but if the revocation is the result of a violation of RCW 46.20.308, 46.61.502, or 46.61.504 ((or is the result of administrative action under RCW 46.20.365)), the reissue fee shall be fifty dollars. If the revocation is the result of a violation of RCW 46.61.502 or 46.61.504, the department shall determine the person's eligibility for licensing based upon the reports provided by the alcoholism agency or probation department designated under RCW 46.61.5056 and shall deny reissuance of a license, permit, or privilege to drive until enrollment and participation in an approved program has been established and the person is otherwise qualified.

Except for a revocation under RCW 46.20.265, the department shall not then issue a new license unless it is satisfied after investigation of the driving ability of the person that it will be safe to grant the privilege of driving a motor vehicle on the public highways, and until the person gives and thereafter maintains proof of financial responsibility for the future as provided in chapter 46.29 RCW. For a revocation under RCW 46.20.265, the department shall not issue a new license unless it is satisfied after investigation of the driving ability of the person that it will be safe to grant that person the privilege of driving a motor vehicle on the public highways.

(3) Whenever the driver's license of any person is suspended pursuant to Article IV of the nonresident violators compact or RCW 46.23.020 or 46.20.289 or 46.20.291(5), the department shall not issue to the person any new or renewal license until the person pays a reissue fee of twenty dollars. If the suspension is the result of a violation of the laws of this or any other state, province, or other jurisdiction involving (a) the operation or physical control of a motor vehicle upon the public highways while under the influence of intoxicating liquor or drugs, or (b) the refusal to submit to a chemical test of the driver's blood alcohol content, the reissue fee shall be fifty dollars.

Sec. 13. RCW 46.20.391 and 1994 c 275 s 29 are each amended to read as follows:

(1) Any person licensed under this chapter who is convicted of an offense relating to motor vehicles for which suspension or revocation of the driver's license is mandatory, other than vehicular homicide or vehicular assault, may submit to the department an application for an occupational driver's license. The department, upon receipt of the prescribed fee and upon determining that the petitioner is engaged in an occupation or trade that makes it essential that the petitioner operate a motor vehicle, may issue an occupational driver's license and may set definite restrictions as provided in RCW 46.20.394. No person may petition for, and the department shall not issue, an occupational driver's license if the person is ineligible for such a license under RCW 46.61.5052 or 46.61.5053. A person aggrieved by the decision of the department on the application for an occupational driver's license may request a hearing as provided by rule of the department.

(2) An applicant for an occupational driver's license is eligible to receive such license only if: (a) Within one year immediately preceding the date of the offense that gave rise to the present conviction, the applicant has not committed ((of)) any (([committed any])) offense relating to motor vehicles for which suspension or revocation of a driver's license is mandatory; and (b) Within five years immediately preceding the date of the offense that gave rise to the present conviction, the applicant has not committed any of the following offenses: (i) Driving or being in actual physical control of a motor vehicle while under the influence of intoxicating liquor; (ii) vehicular homicide under RCW 46.61.520; or (iii) vehicular assault under RCW 46.61.522; and (c) The applicant is engaged in an occupation or trade that makes it essential that he or she operate a motor vehicle; and
(d) The applicant files satisfactory proof of financial responsibility pursuant to chapter 46.29 RCW.

(3) The director shall cancel an occupational driver’s license upon receipt of notice that the holder thereof has been convicted of operating a motor vehicle in violation of its restrictions, or of an offense that pursuant to chapter 46.20 RCW would warrant suspension or revocation of a regular driver’s license. The cancellation is effective as of the date of the conviction, and continues with the same force and effect as any suspension or revocation under this title.

Sec. 14. RCW 46.61.5054 and 1994 c 275 s 7 are each amended to read as follows:

1. In addition to penalties set forth in RCW 46.61.5051 through 46.61.5053 until September 1, 1995, and section 5 of this act thereafter, a one hundred twenty-five dollar fee shall be assessed to a person who is either convicted, sentenced to a lesser charge, or given deferred prosecution, as a result of an arrest for violating RCW 46.61.502, 46.61.504, 46.61.520, or 46.61.522. This fee is for the purpose of funding the Washington state toxicology laboratory and the Washington state patrol breath test program.

(b) Upon a verified petition by the person assessed the fee, the court may suspend payment of all or part of the fee if it finds that the person does not have the ability to pay.

(c) When a minor has been adjudicated a juvenile offender for an offense which, if committed by an adult, would constitute a violation of RCW 46.61.502, 46.61.504, 46.61.520, or 46.61.522, the court shall assess the one hundred twenty-five dollar fee under (a) of this subsection. Upon a verified petition by a minor assessed the fee, the court may suspend payment of all or part of the fee if it finds that the minor does not have the ability to pay the fee.

2. The fee assessed under subsection (1) of this section shall be collected by the clerk of the court and distributed as follows:

(a) Forty percent shall be subject to distribution under RCW 3.46.120, 3.50.100, 35.20.220, 3.62.020, 3.62.040, or 10.82.070.

(b) If the case involves a blood test by the state toxicology laboratory, the remainder of the fee shall be forwarded to the state treasurer for deposit in the death investigations account to be used solely for funding the state toxicology laboratory blood testing program.

(c) Otherwise, the remainder of the fee shall be forwarded to the state treasurer for deposit in the state patrol highway account to be used solely for funding the Washington state patrol breath test program.

3. This section applies to any offense committed on or after July 1, 1993.

Sec. 15. RCW 46.61.5056 and 1994 c 275 s 9 are each amended to read as follows:

1. A person subject to alcohol assessment and treatment under ((RCW 46.61.5051, 46.61.5052, or 46.61.5053)) section 5 of this act shall be required by the court to complete a course in an alcohol information school approved by the department of social and health services or to complete more intensive treatment in a program approved by the department of social and health services, as determined by the court. The court shall notify the department of licensing whenever it orders a person to complete a course or treatment program under this section.

2. A diagnostic evaluation and treatment recommendation shall be prepared under the direction of the court by an alcoholism agency approved by the department of social and health services or a qualified probation department approved by the department of social and health services. A copy of the report shall be forwarded to the department of licensing. Based on the diagnostic evaluation, the court shall determine whether the person shall be required to complete a course in an alcohol information school approved by the department of social and health services or more intensive treatment in a program approved by the department of social and health services.

3. Standards for approval for alcohol treatment programs shall be prescribed by the department of social and health services. The department of social and health services shall periodically review the costs of alcohol information schools and treatment programs.

4. Any agency that provides treatment ordered under ((RCW 46.61.5051, 46.61.5052, or 46.61.5053)) section 5 of this act, shall immediately report to the appropriate probation department where applicable, otherwise to the court, and to the department of licensing any noncompliance by a person with the conditions of his or her ordered treatment. The court shall notify the department of licensing and the department of social and health services of any failure by an agency to so report noncompliance. Any agency with knowledge of noncompliance that fails to so report shall be fined.
two hundred fifty dollars by the department of social and health services. Upon three such failures by
an agency within one year, the department of social and health services shall revoke the agency's
approval under this section.

(5) The department of licensing and the department of social and health services may adopt
such rules as are necessary to carry out this section.

Sec. 16. RCW 46.61.5151 and 1994 c 275 s 39 are each amended to read as follows:

fulfill the terms of the sentence provided in ((RCW 46.61.5051, 46.61.5052, or 46.61.5053)) section 5
of this act in nonconsecutive or intermittent time periods. However, any mandatory minimum sentence
under ((RCW 46.61.5051, 46.61.5052, or 46.61.5053)) section 5 of this act shall be served
consecutively unless suspended or deferred as otherwise provided by law.

Sec. 19. RCW 46.61.506 and 1994 c 275 s 26 are each amended to read as follows:
(1) Upon the trial of any civil or criminal action or proceeding arising out of acts alleged to have been committed by any person while driving or in actual physical control of a vehicle while under the influence of intoxicating liquor or any drug, if the person's alcohol concentration is less than 0.10, it is evidence that may be considered with other competent evidence in determining whether the person was under the influence of intoxicating liquor or any drug.

SB 5275 Prime Sponsor, Haugen: Affecting the consolidation of cities and towns. Reported by Committee on Government Operations

MAJORITY recommendation: Do pass with the following amendment:

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 35.10.460 and 1985 c 281 s 9 are each amended to read as follows: (Ballot titles on the questions shall be prepared as provided in RCW 35A.29.120.) If a proposal for assumption of indebtedness is to be submitted to the voters of a city in which the
indebtedness did not originate, the proposal shall be separately stated and the ballots shall contain, as a separate proposition to be voted on, the words "For Assumption of Indebtedness to be paid by the levy of annual property taxes in excess of regular property taxes" and "Against Assumption of Indebtedness to be paid by the levy of annual property taxes in excess of regular property taxes" or words equivalent thereto. If the question of the form or plan of government is to be submitted to the voters, the question shall be separately stated and the ballots shall contain, as a separate proposition to be voted on, the option of a voter to select one of the three forms or plans of government. If the question of the name of the proposed consolidated city is to be submitted to the voters, the question shall be separately stated and the ballots shall contain, as a separate proposition to be voted on, the option of a voter to select one of the names of the proposed consolidated city.

Sec. 2. RCW 35.10.470 and 1985 c 281 s 10 are each amended to read as follows:

The county canvassing board in each county involved shall canvass the returns in each election. The votes cast in each of such cities shall be canvassed separately, and the statement shall show the whole number of votes cast, the number of votes cast in each city for consolidation, and the number of votes cast in each city against such consolidation. If a proposal for assumption or indebtedness was voted upon in a city in which the indebtedness did not originate, the statement shall show the number of votes cast in such a city for assumption of indebtedness and the number of votes cast against assumption of indebtedness. If a question of the form or plan of government was voted upon, the statement shall show the number of votes cast in each city for each of the optional forms or plans of government. If a name for the proposed consolidated city was voted upon, the statement shall show the number of votes cast in each city for each optional name. A certified copy of such statement shall be filed with the legislative body of each of the cities proposed to be consolidated.

If it appears from such statement of canvass that a majority of the votes cast in each of the cities were in favor of consolidation, the consolidation shall be authorized and shall be effective when the newly elected legislative body members assume office, as provided in RCW 35.10.480.

If a question of the form or plan of government was voted upon, that form or plan receiving the greatest combined number of votes shall become the form or plan of government for the consolidated city. If two or three of the forms or plans of government received the same highest number of votes, the form or plan of government shall be chosen by lot between those receiving the same highest number, where the mayor of the largest of the cities proposed to be consolidated draws the lot at a public meeting.

If a proposal to assume indebtedness was submitted to voters of a city in which the indebtedness did not originate, the proposition shall be deemed approved if approved by a majority of at least three-fifths of the voters of the city, and the number of persons voting on the proposition constitutes not less than forty percent of the number of votes cast in the city at the last preceding general election. Approval of the proposition authorizes annual property taxes to be levied on the property within the city in which the indebtedness did not originate that are in excess of regular property taxes. However, if the general indebtedness in question was incurred by action of a city legislative body, a proposition for assuming the indebtedness need only be approved by a simple majority vote of the voters of the city in which such indebtedness did not originate.

If a question of the name of the proposed consolidated city was voted upon, that name receiving the greatest combined number of votes shall become the name of the consolidated city. If two proposed names receive the same number of votes, the name shall be chosen by lot, where the mayor of the largest of the cities proposed to be consolidated draws the lot at a public meeting.

Sec. 3. RCW 35.10.480 and 1985 c 281 s 11 are each amended to read as follows:

If the voters of each of the cities proposed to consolidate approve the consolidation, elections to nominate and elect the elected officials of the consolidated city shall be held at times specified in RCW 35A.02.050. If the joint resolution or the petitions prescribe that councilmembers of the consolidated city shall be elected from wards, then the councilmembers shall be elected from wards under RCW 35A.12.180. Terms shall be established as if the city is initially incorporating.

The newly elected officials shall take office immediately upon their qualification. The effective date of the consolidation shall be when a majority of the newly elected members of the legislative body assume office. The clerk of the newly consolidated city shall transmit a duly certified copy of an abstract of the votes to authorize the consolidation and of the election of the newly elected city officials to the secretary of state and the office of financial management.
**Sec. 4.** RCW 35.10.490 and 1985 c 281 s 12 are each amended to read as follows:

A joint resolution or the petitions may prescribe the name of the proposed consolidated city or may provide that a ballot proposition to determine the name of the proposed consolidated city be submitted to the voters of the cities proposed to be consolidated. If two alternative names are submitted, the name receiving the simple majority vote of the voters voting on the question shall become the name of the consolidated city. If the name for the proposed consolidated city is not prescribed by the joint resolution or petition, or a proposition on the name is not submitted to the voters of the cities proposed to be consolidated, then the newly consolidated city shall be known as the city of . . . . . . (listing the names of the cities that were consolidated in alphabetical order). The legislative body of the newly consolidated city may present another name or two names for the newly consolidated city to the city voters for their approval or rejection at the next municipal general election held after the effective date of the consolidation. If only one alternative name is submitted, this alternative name shall become the name of the consolidated city if approved by a simple majority vote of the voters voting on the question. If two alternative names are submitted, the name receiving the simple majority vote of the voters voting on the question shall become the name of the consolidated city.

**Sec. 5.** RCW 35.21.010 and 1991 c 363 s 37 are each amended to read as follows:

(1) Municipal corporations now or hereafter organized are bodies politic and corporate under the name of the city of . . . . . ., or the town of . . . . . ., as the case may be, and as such may sue and be sued, contract or be contracted with, acquire, hold, possess and dispose of property, subject to the restrictions contained in other chapters of this title, having a common seal, and change or alter the same at pleasure, and exercise such other powers, and have such other privileges as are conferred by this title. However, not more than two square miles in area shall be included within the corporate limits of a town having a population of fifteen hundred or less, or located in a county with a population of one million or more, and not more than three square miles in area shall be included within the corporate limits of a town having a population of more than fifteen hundred in a county with a population of less than one million, nor shall more than twenty acres of unplatted land belonging to any one person be taken within the corporate limits of a town without the consent of the owner of such unplatted land.

(2) Notwithstanding subsections (1) and (3) of this section, a town located in three or more counties is excluded from a limitation in square mileage.

(3) Except as provided in subsection (2) of this section, the original incorporation of a town shall be limited to an area of not more than one square mile and a population as prescribed in RCW 35.01.040.

**NEW SECTION.** Sec. 6. A new section is added to chapter 35.10 RCW to read as follows:

Unless a commission form of government is prescribed or submitted to the voters under RCW 35.10.430, a joint resolution or petition may prescribe that wards be used to elect the councilmembers of the consolidated city. The joint resolution or petition must contain a map of the proposed consolidated city that clearly delineates the boundaries of each ward. Each ward in the proposed consolidated city shall contain approximately the same population. To the greatest extent possible, the integrity of the boundaries of the cities that are proposed to be consolidated shall be respected when the wards are drawn so that the territory within each city is: (1) included within the fewest number of wards, to the extent the city has a population that is greater than the maximum population established for each ward; or (2) included wholly within one ward, to the extent the city has a population that is equal to or less than the maximum population established for each ward. After the election specified in RCW 35.10.480, election wards may be modified in the manner specified in RCW 35A.12.180.

**Sec. 7.** RCW 35.10.420 and 1985 c 281 s 5 are each amended to read as follows:

The submission of a ballot proposal to the voters of two or more contiguous cities for the consolidation of these contiguous cities may also be caused by the filing of a petition with the legislative body of each such city, signed by the voters of each city in number equal to not less than ten percent of ((the votes cast)) voters who voted in the city at the last general municipal election therein, seeking consolidation of such contiguous cities. A copy of the petition shall be forwarded immediately by each city to the auditor of the county or counties within which that city is located.
The county auditor or auditors shall determine the sufficiency of the signatures in each petition within ten days of receipt of the copies and immediately notify the cities proposed to be consolidated of the sufficiency. If each of the petitions is found to have sufficient valid signatures, the auditor or auditors shall call a special election at which the question of whether such cities shall consolidate shall be submitted to the voters of each of such cities. If a general election is to be held more than ninety days but not more than one hundred eighty days after the filing of the last petition, the question shall be submitted at that election. Otherwise the question shall be submitted at a special election to be called for that purpose at the next special election date, as specified in RCW 29.13.020, that occurs ninety or more days after the date when the last petition was filed.

If each of the petitions is found to have sufficient valid signatures, the auditor or auditors also shall notify the county legislative authority of each county in which the cities are located of the proposed consolidation.

Petitions shall conform with the requirements for form prescribed in RCW 35A.01.040, except different colored paper may be used on petitions circulated in the different cities. A legal description of the cities need not be included in the petitions."

MAJORITY recommendation: Do pass with the following amendment:

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 9A.44.130 and 1994 c 84 s 2 are each amended to read as follows:
(1) Any adult or juvenile residing in this state who has been found to have committed or has been convicted of any sex offense, or who has been found not guilty by reason of insanity under chapter 10.77 RCW of committing any sex offense, shall register with the county sheriff for the county of the person’s residence.
(2) The person shall provide the county sheriff with the following information when registering: (a) Name; (b) address; (c) date and place of birth; (d) place of employment; (e) crime for which convicted; (f) date and place of conviction; (g) aliases used; and (h) social security number.
(3)(a) Sex offenders shall register within the following deadlines. For purposes of this section the term "conviction" refers to adult convictions and juvenile adjudications for sex offenses:
(i) SEX OFFENDERS IN CUSTODY. Sex offenders who committed a sex offense on, before, or after February 28, 1990, and who, on or after July 28, 1991, are in custody, as a result of that offense, of the state department of corrections, the state department of social and health services, a local division of youth services, or a local jail or juvenile detention facility, must register within twenty-four hours from the time of release with the county sheriff for the county of the person’s residence. The agency that has jurisdiction over the offender shall provide notice to the sex offender of the duty to register. Failure to register within twenty-four hours of release constitutes a violation of this section and is punishable as provided in subsection (7) of this section.
(ii) SEX OFFENDERS NOT IN CUSTODY BUT UNDER STATE OR LOCAL JURISDICTION. Sex offenders, who, on July 28, 1991, are not in custody but are under the jurisdiction of the indeterminate sentence review board or under the department of correction’s active supervision, as defined by the department of corrections, the state department of social and health services, a local division of youth services, for sex offenses committed before, on, or after February 28, 1990, must register within ten days of July 28, 1991. A change in supervision status of a sex offender who was required to register under this subsection (3)(a)(ii) as of July 28, 1991, shall not relieve the offender of the duty to register or to reregister following a change in residence. The obligation to register shall only cease pursuant to RCW 9A.44.140.
(iii) SEX OFFENDERS UNDER FEDERAL JURISDICTION. Sex offenders who, on or after July 23, 1995, as a result of that offense are in the custody of the United States bureau of prisons or other federal or military correctional agency for sex offenses committed before, on, or after February 28, 1990, must register within twenty-four hours from the time of release with the county sheriff for the county of the person’s residence. Sex offenders who, on July 23, 1995, are not in custody but are under the jurisdiction of the United States bureau of prisons, United States courts, United States parole commission, or military parole board for sex offenses committed before, on, or after February 28, 1990, must register within ten days of July 23, 1995. A change in supervision status of a sex offender who was required to register under this subsection (3)(a)(iii) as of July 23, 1995, shall not relieve the
offender of the duty to register or to reregister following a change in residence. The obligation to register shall only cease pursuant to RCW 9A.44.140.

(iv) SEX OFFENDERS WHO ARE CONVICTED BUT NOT CONFINED. Sex offenders who are convicted of a sex offense on or after July 28, 1991, for a sex offense that was committed on or after February 28, 1990, but who are not sentenced to serve a term of confinement immediately upon sentencing, shall report to the county sheriff to register immediately upon completion of being sentenced.

(v) SEX OFFENDERS WHO ARE NEW RESIDENTS OR RETURNING WASHINGTON RESIDENTS. Sex offenders who move to Washington state from another state or a foreign country that are not under the jurisdiction of the state department of corrections, the indeterminate sentence review board, or the state department of social and health services at the time of moving to Washington, must register within thirty days of establishing residence or reestablishing residence if the person is a former Washington resident. The duty to register under this subsection applies to sex offenders convicted under the laws of another state or a foreign country, federal or military statutes, or Washington state for offenses committed on or after February 28, 1990. Sex offenders from other states or a foreign country who, when they move to Washington, are under the jurisdiction of the department of corrections, the indeterminate sentence review board, or the state department of social and health services must register within twenty-four hours of moving to Washington. The agency that has jurisdiction over the offender shall notify the offender of the registration requirements before the offender moves to Washington.

(vi) SEX OFFENDERS FOUND NOT GUILTY BY REASON OF INSANITY. Any adult or juvenile who has been found not guilty by reason of insanity under chapter 10.77 RCW of committing a sex offense on, before, or after February 28, 1990, and who, on or after July 23, 1995, is in custody, as a result of that finding, of the state department of social and health services, must register within twenty-four hours from the time of release with the county sheriff for the county of the person’s residence. The state department of social and health services shall provide notice to the adult or juvenile in its custody of the duty to register. Any adult or juvenile who has been found not guilty by reason of insanity of committing a sex offense on, before, or after February 28, 1990, but who was released prior to July 23, 1995, shall be required to register within twenty-four hours of receiving notice of this registration requirement. The state department of social and health services shall make reasonable attempts within available resources to notify offenders who were released prior to July 23, 1995. Failure to register within twenty-four hours of release, or of receiving notice, constitutes a violation of this section and is punishable as provided in subsection (7) of this section.

(b) Failure to register within the time required under this section constitutes a per se violation of this section and is punishable as provided in subsection (7) of this section. The county sheriff shall not be required to determine whether the person is living within the county.

(c) An arrest on charges of failure to register, service of an information, or a complaint for a violation of this section, or arraignment on charges for a violation of this section, constitutes actual notice of the duty to register. Any person charged with the crime of failure to register under this section who asserts as a defense the lack of notice of the duty to register shall register immediately following actual notice of the duty through arrest, service, or arraignment. Failure to register as required under this subsection (c) constitutes grounds for filing another charge of failing to register. Registering following arrest, service, or arraignment on charges shall not relieve the offender from criminal liability for failure to register prior to the filing of the original charge.

(d) The deadlines for the duty to register under this section do not relieve any sex offender of the duty to register under this section as it existed prior to July 28, 1991.

(4) If any person required to register pursuant to this section changes his or her residence address within the same county, the person must send written notice of the change of address to the county sheriff within ten days of ((establishing the new residence)) moving. If any person required to register pursuant to this section moves to a new county, the person must register with the county sheriff in the new county within ten days of ((establishing the new residence)) moving. The person must also send written notice within ten days of the change of address to the county sheriff with whom the person last registered. If any person required to register pursuant to this section moves out of Washington state, the person must also send written notice within ten days of moving to the new state or a foreign country to the county sheriff with whom the person last registered in Washington state.
The county sheriff shall obtain a photograph of the individual and shall obtain a copy of the individual’s fingerprints.

"Sex offense" for the purpose of RCW 9A.44.130, 10.01.200, 43.43.540, 70.48.470, and 72.09.330 means any offense defined as a sex offense by RCW 9.94A.030.

A person who knowingly fails to register or who moves without notifying the county sheriff as required by this section is guilty of a class C felony (if the crime for which the individual was convicted was a class A felony or a federal or out-of-state conviction for an offense that under the laws of this state would be a class A felony. If the crime was other than a class A felony or a federal or out-of-state conviction for an offense that under the laws of this state would be a class A felony, violation of this section is a gross misdemeanor).

Sec. 2. RCW 9A.44.140 and 1991 c 274 s 3 are each amended to read as follows:

(1) The duty to register under RCW 9A.44.130 shall end:

(a) For a person convicted of a class A felony: Such person may only be relieved of the duty to register under subsection (((2)(3)) or (((3)(4)) of this section.

(b) For a person convicted of a class B felony: Fifteen years after the last date of release from confinement, if any, (including full-time residential treatment) pursuant to the conviction, or entry of the judgment and sentence, if the person has spent fifteen consecutive years in the community without being convicted of any new offenses.

(c) For a person convicted of a class C felony: Ten years after the last date of release from confinement, if any, (including full-time residential treatment) pursuant to the conviction, or entry of the judgment and sentence, if the person has spent ten consecutive years in the community without being convicted of any new offenses.

(2) The provisions of subsection (1) of this section shall apply equally to a person who has been found not guilty by reason of insanity under chapter 10.77 RCW of a sex offense.

(3) Any person having a duty to register under RCW 9A.44.130 may petition the superior court to be relieved of that duty. The petition shall be made to the court in which the petitioner was convicted of the offense that subjects him or her to the duty to register, or, in the case of convictions in other states, a foreign country, or a federal or military court, to the court in Thurston county. The prosecuting attorney of the county shall be named and served as the respondent in any such petition. The court shall consider the nature of the registrable offense committed, and the criminal and relevant noncriminal behavior of the petitioner both before and after conviction, and may consider other factors. Except as provided in subsection (((3)(4)) of this section, the court may relieve the petitioner of the duty to register only if the petitioner shows, with clear and convincing evidence, that future registration of the petitioner will not serve the purposes of RCW 9A.44.130, 10.01.200, 43.43.540, 46.20.187, 70.48.470, and 72.09.330.

(4) An offender having a duty to register under RCW 9A.44.130 for a sex offense committed when the offender was a juvenile may petition the superior court to be relieved of that duty. The court shall consider the nature of the registrable offense committed, and the criminal and relevant noncriminal behavior of the petitioner both before and after adjudication, and may consider other factors. The court may relieve the petitioner of the duty to register for a sex offense that was committed while the petitioner was fifteen years of age or older only if the petitioner shows, with clear and convincing evidence, that future registration of the petitioner will not serve the purposes of RCW 9A.44.130, 10.01.200, 43.43.540, 46.20.187, 70.48.470, and 72.09.330. The court may relieve the petitioner of the duty to register for a sex offense that was committed while the petitioner was under the age of fifteen if the petitioner (a) has not been adjudicated of any additional sex offenses during the twenty-four months following the adjudication for the sex offense giving rise to the duty to register, and (b) the petitioner proves by a preponderance of the evidence that future registration of the petitioner will not serve the purposes of RCW 9A.44.130, 10.01.200, 43.43.540, 46.20.187, 70.48.470, and 72.09.330.

(5) Unless relieved of the duty to register pursuant to this section, a violation of RCW 9A.44.130 is an ongoing offense for purposes of the statute of limitations under RCW 9A.04.080.

(6) Nothing in RCW 9.94A.220 relating to discharge of an offender shall be construed as operating to relieve the offender of his or her duty to register pursuant to RCW 9A.44.130.

NEW SECTION. Sec. 3. A new section is added to chapter 9A.44 RCW to read as follows:
When a sex offender registers with the county sheriff pursuant to RCW 9A.44.130, the county sheriff shall make reasonable attempts to verify that the sex offender is residing at the registered address. Reasonable attempts at verifying an address shall include at a minimum sending certified mail, with return receipt requested, to the sex offender at the registered address, and if the return receipt is not signed by the sex offender, talking in person with the residents living at the address. The sheriff shall make reasonable attempts to locate any sex offender who cannot be located at the registered address.

The amount of such payments shall be five percent of the monthly benefits payable as a result of the worker's death for such child and such payments shall not exceed twenty-five percent. Such payments on account of such child or children shall be subtracted from the amount to which such surviving spouse would have been entitled had such surviving spouse had legal custody of all of the children and the surviving spouse shall receive the remainder after such payments on account of such child or children have been subtracted. Such payments on account of a child or children not in the legal custody of such surviving spouse shall be apportioned equally among such children.
(c) Payments to the surviving spouse of the deceased worker shall cease at the end of the month in which remarriage occurs: PROVIDED, That a monthly payment shall be made to the child or children of the deceased worker from the month following such remarriage in a sum equal to five percent of the wages of the deceased worker for one child and a sum equal to five percent for each additional child up to a maximum of five such children. (f) Upon remarriage of a surviving spouse the monthly payments for the child or children shall continue as provided in this section, but the monthly payments to such surviving spouse shall cease at the end of the month during which remarriage occurs. However, after September 8, 1975, an otherwise eligible surviving spouse of a worker who died at any time prior to or after September 8, 1975, shall have an option of:

(i) Receiving, once and for all, a lump sum of twenty-four times the monthly compensation rate in effect on the date of remarriage allocable to the spouse for himself or herself pursuant to subsection (2)(a)(i) of this section and subject to any modifications specified under subsection (2)(d) of this section and RCW 51.32.075(3) or fifty percent of the then remaining annuity value of his or her pension, whichever is the lesser: PROVIDED, That if the injury occurred prior to July 28, 1991, the remarriage benefit lump sum available shall be as provided in the remarriage benefit schedules then in effect; or

(ii) If a surviving spouse does not choose the option specified in subsection (2)(f)(i) of this section to accept the lump sum payment, the remarriage of the surviving spouse of a worker shall not bar him or her from claiming the lump sum payment authorized in subsection (2)(f)(i) of this section during the life of the remarriage, or shall not prevent subsequent monthly payments to him or to her if the remarriage has been terminated by death or has been dissolved or annulled by valid court decree provided he or she has not previously accepted the lump sum payment.

(g) If the surviving spouse during the remarriage should die without having previously received the lump sum payment provided in subsection (2)(f)(i) of this section, his or her estate shall be entitled to receive the sum specified under subsection (2)(f)(i) of this section or fifty percent of the then remaining annuity value of his or her pension whichever is the lesser.

(5) If the worker leaves no surviving spouse or child, but leaves a dependent or dependents, a monthly payment shall be made to each dependent equal to fifty percent of the average monthly support actually received by such dependent from the worker during the twelve months next preceding the occurrence of the injury, but the total payment to all dependents in any case shall not exceed the lesser of sixty-five percent of the wages of the deceased worker at the time of his or her death or the applicable percentage of the average monthly wage in the state as defined in RCW 51.08.018 as follows:

E2SSB 5439 Prime Sponsor, Committee on Ways & Means: Revising procedures for nonoffender at-risk youth and their families. Reported by Committee on Children & Family Services

MAJORITY recommendation: Do pass with the following amendment:

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 13.32A.010 and 1979 c 155 s 15 are each amended to read as follows:
The legislature finds that within any group of people there exists a need for guidelines for acceptable behavior and that, presumptively, experience and maturity are better qualifications for establishing guidelines beneficial to and protective of individual members and the group as a whole than are youth and inexperience. The legislature further finds that it is the right and responsibility of adults to establish laws for the benefit and protection of the society; and that, in the same manner, the right and responsibility for establishing reasonable guidelines for the family unit belongs to the adults within that unit. The legislature reaffirms its position stated in RCW 13.34.020 that the family unit is the fundamental resource of American life which should be nurtured and that it should remain intact in the absence of compelling evidence to the contrary.
The legislature recognizes that the public is concerned about the growing problem with runaways. The legislature further recognizes that children have run away from home, are substance abusers, or have serious acting out behaviors and their parents have sought help. The legislature recognizes that families with children who are endangering themselves and others by their behavior also need services.
The legislature finds that many parents do not know their rights regarding their adolescent children and law enforcement, and parents and courts feel they have insufficient legal recourse for the chronic runaway child who is endangering himself or herself through his or her behavior. The legislature further finds that the juvenile justice reform enacted in 1977 does not adequately protect youth and families and that chronic runaways with substantial problems are left without adequate protection or legal recourse.
The legislature further recognizes that for chronic runaways whose behavior puts them in serious danger of harming themselves or others, secure facilities must be provided to assist parents and protect their children. The legislature intends, in chapter . . ., Laws of 1995 (this act), to give tools to law enforcement, courts, and parents to keep families together and reunite them whenever possible.
The legislature intends to provide for the protection of children who, through their behavior, are endangering themselves. The legislature intends to provide appropriate residential services, including secure facilities, to protect, stabilize, and treat children with serious problems. The legislature further intends to empower parents by providing them with the assistance they require to raise their children.

NEW SECTION. Sec. 2. This act may be known and cited as the "Becca bill."

Sec. 3. RCW 13.32A.030 and 1990 c 276 s 3 are each amended to read as follows:
As used in this chapter the following terms have the meanings indicated unless the context clearly requires otherwise:
(1) "Department" means the department of social and health services;
(2) "Child," "juvenile," and "youth" mean any individual who is under the chronological age of eighteen years;
(3) "Parent" means the legal custodian(s) or guardian(s) of a child;
(4) "((Semi-secure)) Secure facility" means any facility, including but not limited to crisis residential centers or specialized foster family homes, operated in a manner to reasonably assure that youth placed there will not run away((: PROVIDED, That such facility shall not be a secure facility...))

"Provided, That such facility shall not be a secure
institution or facility as defined by the federal juvenile justice and delinquency prevention act of 1974 (P.L. 93-415; 42 U.S.C. Sec. 5634 et seq.) and regulations and clarifying instructions promulgated thereunder. Pursuant to rules established by the department, the facility administrator shall establish reasonable hours for residents to come and go from the facility such that no residents are free to come and go at all hours of the day and night. To prevent residents from taking unreasonable actions, the facility administrator, where appropriate, may condition a resident’s leaving the facility upon the resident being accompanied by the administrator or the administrator’s designee and the resident may be required to notify the administrator or the administrator’s designee of any intent to leave, his or her intended destination, and the probable time of his or her return to the center. The facility administrator shall notify a parent and the appropriate law enforcement agency within four hours of all unauthorized leaves;

(5) "Multidisciplinary team" means those persons involved in helping a child who meets the definition of an at-risk youth. This group shall include the parent, guardian, or custodian, a department case worker, a representative of the counties, and a member of the following disciplines: mental health and substance abuse. This group may include, but is not limited to the following persons: educators, law enforcement personnel, probation officers, employers, church persons, tribal members, a member of the child’s cultural community, therapists, medical personnel, social service providers, placement providers, and extended family members. Team members shall be volunteers who do not receive compensation for team activities unless an individual team member’s employer chooses to provide such compensation.

(6) "At-risk youth" means an individual under the chronological age of eighteen years who:
(a) is absent from home for more than seventy-two consecutive hours without consent of his or her parent;
(b) is beyond the control of his or her parent such that the child’s behavior substantially endangers the health, safety, or welfare of the child or any other person; or
(c) has a serious substance abuse problem for which there are no pending criminal charges related to the substance abuse.

NEW SECTION. Sec. 4. A new section is added to chapter 13.32A RCW to read as follows: The department shall establish appropriate security requirements for all crisis residential centers. The requirements shall be designed to prevent children from leaving the centers without authorization. Security requirements may include, but not be limited to, locked doors and windows, electronic monitoring bracelets, and perimeter fences or patrols. The crisis residential center administrator shall notify parents and the appropriate law enforcement within four hours of all unauthorized leaves.

Sec. 5. RCW 13.32A.040 and 1994 c 304 s 3 are each amended to read as follows: Families who are in conflict or who are experiencing problems with at-risk youth may request family reconciliation services from the department. The department shall involve the local multidisciplinary teams in determining the services to be provided and in providing those services, if a local multidisciplinary team exists. Such services shall be provided to alleviate personal or family situations which present a serious and imminent threat to the health or stability of the child or family and to maintain families intact wherever possible. Family reconciliation services shall be designed to develop skills and supports within families to resolve problems related to at-risk youth or family conflicts and may include but are not limited to referral to services for suicide prevention, psychiatric or other medical care, or psychological, welfare, legal, educational, or other social services, as appropriate to the needs of the child and the family. Upon a referral by a school or other appropriate agency, family reconciliation services may also include training in parenting, conflict management, and dispute resolution skills.

Sec. 6. RCW 13.32A.130 and 1994 sp.s c 7 s 508 are each amended to read as follows: A child admitted to a crisis residential center under this chapter who is not returned to the home of his or her parent or who is not placed in an alternative residential placement under an agreement between the parent and child, shall, except as provided for by RCW 13.32A.140 and 13.32A.160(2), reside in the placement under the rules established for the center for a period not to exceed five consecutive days from the time of intake, except as otherwise provided by this chapter. Crisis residential center staff shall make every reasonable effort to protect the child and
achieve a reconciliation of the family. If a reconciliation, using family reconciliation services, and voluntary return of the child has not been achieved within forty-eight hours from the time of intake, and if the person in charge of the center does not consider it likely that reconciliation will be achieved within the five-day period, then the person in charge shall inform the parent and child of:

((1) the availability of counseling services; (2) the right to file a petition for an alternative residential placement; the right of a parent to file an at-risk youth petition, and the right of the parent and child to obtain assistance in filing the petition; and (3) the right to request a review of any alternative residential placement)) facility administrator or his or her designee shall immediately convene the multidisciplinary team, if one exists.

At no time shall information regarding a parent’s or child’s rights be withheld if requested. The department shall develop and distribute to all law enforcement agencies and to each crisis residential center administrator a written statement delineating the services and rights. Every officer taking a child into custody shall provide the child and his or her parent(s) or responsible adult with whom the child is placed with a copy of the statement. In addition, the administrator of the facility or his or her designee shall provide every resident and parent with a copy of the statement.

NEW SECTION. Sec. 7. A new section is added to chapter 13.32A RCW to read as follows:

(1) Each county shall have the authority to assemble a multidisciplinary team. To the extent possible, the multidisciplinary team shall draw upon existing community resources.

(2) The multidisciplinary team, if one exists, shall make every reasonable effort to protect the child and achieve a reconciliation of the family whenever possible. If a crisis residential center administrator or his or her designee makes a referral, the team must respond as soon as possible but no later than twelve hours after the referral is made. The team shall have the authority to assess the juvenile, and family members, if appropriate and agreed to, and shall:

(a) With parental input, develop a plan of appropriate available services and assist the family in obtaining those services;

(b) Make a referral to the designated chemical dependency specialist or the county designated mental health professional, if appropriate;

(c) Recommend no further intervention because the juvenile and his or her family have resolved the problem causing the family conflict; or

(d) With the family’s consent, work with the family on a longer-term basis to achieve reconciliation of the child and family, whenever possible.

(3) To the maximum extent possible, the members of the multidisciplinary team shall include members who are representative of the cultures in the family’s community.

NEW SECTION. Sec. 8. A new section is added to chapter 13.32A RCW to read as follows:

(1) The purpose of the multidisciplinary team is to coordinate and communicate about services offered to the child and family.

(2) At the first meeting of the multidisciplinary team, it shall choose a member to act as case manager for the family. The parent member of the multidisciplinary team must agree with the choice of case manager. Thereafter, the team shall meet periodically.

Sec. 9. RCW 13.32A.140 and 1990 c 276 s 9 are each amended to read as follows:

(d) No petition requesting approval of an alternative residential placement has been filed by either the child or parent or legal custodian;

(e) The parent has not filed an at-risk youth petition; and

(f) The child has no suitable place to live other than the home of his or her parent.
The child has been admitted to a crisis residential center and:
(a) Seventy-two hours, including Saturdays, Sundays, and holidays, have passed since such placement;
(b) The staff, after searching with due diligence, have been unable to contact the parent of such child; and
(c) The child has no suitable place to live other than the home of his or her parent.

An agreement between parent and child made pursuant to RCW 13.32A.090(2)(e) or pursuant to RCW 13.32A.120(1) is no longer acceptable to parent or child, and:
(a) The party to whom the arrangement is no longer acceptable has so notified the department;
(b) Seventy-two hours, including Saturdays, Sundays, and holidays, have passed since such notification;
(c) No new agreement between parent and child as to where the child shall live has been reached;
(d) No petition requesting approval of an alternative residential placement has been filed by either the child or the parent;
(e) The parent has not filed an at-risk youth petition; and
(f) The child has no suitable place to live other than the home of his or her parent.

Under the circumstances of subsections (1), (2), or (3) of this section, the child shall remain in a licensed child care facility, including but not limited to a crisis residential center, or in any other suitable residence to be determined by the department until an alternative residential placement petition filed by the department on behalf of the child is reviewed by the juvenile court and is resolved by such court. The department may authorize emergency medical or dental care for a child placed under this section. The state, when the department files a petition for alternative residential placement under this section, shall be represented as provided for in RCW 13.04.093.

Sec. 10. RCW 13.32A.150 and 1992 c 205 s 208 are each amended to read as follows:
(1) Except as otherwise provided in this section the juvenile court shall not accept the filing of an alternative residential placement petition by the child or the parents or the filing of an at-risk youth petition by the parent, unless verification is provided that a family assessment has been completed by the department. The family assessment provided by the department shall involve the multidisciplinary team as provided in RCW 13.32A.040, if one exists. The family assessment or plan of services developed by the multidisciplinary team shall be aimed at family reconciliation, reunification, and avoidance of the out-of-home placement of the child. If the department is unable to complete an assessment within two working days following a request for assessment the child or the parents may proceed under subsection (2) of this section or the parent may proceed under subsection (3) of this section.

(2) A child or a child’s parent may file with the juvenile court a petition to approve an alternative residential placement for the child outside the parent’s home. The department shall, when requested, assist either a parent or child in the filing of the petition. The petition shall only ask that the placement of a child outside the home of his or her parent be approved. The filing of a petition to approve such placement is not dependent upon the court’s having obtained any prior jurisdiction over the child or his or her parent, and confers upon the court a special jurisdiction to approve or disapprove an alternative residential placement.

(3) A child’s parent may file with the juvenile court a petition in the interest of a child alleged to be an at-risk youth. The department shall, when requested, assist the parent in filing the petition. The petition shall be filed in the county where the petitioning parent resides. The petition shall set forth the name, age, and residence of the child and the names and residence of the child’s parents and shall allege that:
(a) The child is an at-risk youth as defined in this chapter;
(b) The petitioning parent has the right to legal custody of the child;
(c) Court intervention and supervision are necessary to assist the parent to maintain the care, custody, and control of the child; and
(d) Alternatives to court intervention have been attempted or there is good cause why such alternatives have not been attempted.

The petition shall set forth facts that support the allegations in this subsection and shall generally request relief available under this chapter. The petition need not specify any proposed disposition following adjudication of the petition. The filing of an at-risk youth petition is not
dependent upon the court's having obtained any prior jurisdiction over the child or his or her parent and confers upon the court the special jurisdiction to assist the parent in maintaining parental authority and responsibility for the child. An at-risk youth petition may not be filed if the court has approved an alternative residential placement petition regarding the child or if the child is the subject of a proceeding under chapter 13.34 RCW. A petition may be accepted for filing only if alternatives to court intervention have been attempted. Juvenile court personnel may screen all at-risk youth petitions and may refuse to allow the filing of any petition that lacks merit, fails to comply with the requirements of this section, or fails to allege sufficient facts in support of allegations in the petition.

Sec. 11. RCW 13.50.010 and 1994 sp.s. c 7 s 541 are each amended to read as follows:

(1) For purposes of this chapter:
   (a) "Juvenile justice or care agency" means any of the following: Police, diversion units, court, prosecuting attorney, defense attorney, detention center, attorney general, the multidisciplinary team formed under chapter 13.32A RCW, the department of social and health services and its contracting agencies, schools; and, in addition, persons or public or private agencies having children committed to their custody;
   (b) "Official juvenile court file" means the legal file of the juvenile court containing the petition or information, motions, memorandums, briefs, findings of the court, and court orders;
   (c) "Social file" means the juvenile court file containing the records and reports of the probation counselor;
   (d) "Records" means the official juvenile court file, the social file, and records of any other juvenile justice or care agency in the case.

(2) Each petition or information filed with the court may include only one juvenile and each petition or information shall be filed under a separate docket number. The social file shall be filed separately from the official juvenile court file.

(3) It is the duty of any juvenile justice or care agency to maintain accurate records. To this end:
   (a) The agency may never knowingly record inaccurate information. Any information in records maintained by the department of social and health services relating to a petition filed pursuant to chapter 13.34 RCW that is found by the court, upon proof presented, to be false or inaccurate shall be corrected or expunged from such records by the agency;
   (b) An agency shall take reasonable steps to assure the security of its records and prevent tampering with them; and
   (c) An agency shall make reasonable efforts to insure the completeness of its records, including action taken by other agencies with respect to matters in its files.

(4) Each juvenile justice or care agency shall implement procedures consistent with the provisions of this chapter to facilitate inquiries concerning records.

(5) Any person who has reasonable cause to believe information concerning that person is included in the records of a juvenile justice or care agency and who has been denied access to those records by the agency may make a motion to the court for an order authorizing that person to inspect the juvenile justice or care agency record concerning that person. The court shall grant the motion to examine records unless it finds that in the interests of justice or in the best interests of the juvenile the records or parts of them should remain confidential.

(6) A juvenile, or his or her parents, or any person who has reasonable cause to believe information concerning that person is included in the records of a juvenile justice or care agency may make a motion to the court challenging the accuracy of any information concerning the moving party in the record or challenging the continued possession of the record by the agency. If the court grants the motion, it shall order the record or information to be corrected or destroyed.

(7) The person making a motion under subsection (5) or (6) of this section shall give reasonable notice of the motion to all parties to the original action and to any agency whose records will be affected by the motion.

(8) The court may permit inspection of records by, or release of information to, any clinic, hospital, or agency which has the subject person under care or treatment. The court may also permit inspection by or release to individuals or agencies, including juvenile justice advisory committees of county law and justice councils, engaged in legitimate research for educational, scientific, or public purposes. The court may also permit inspection of, or release of information from, records which have been sealed pursuant to RCW 13.50.050(11). Access to records or information for research purposes
shall be permitted only if the anonymity of all persons mentioned in the records or information will be preserved. Each person granted permission to inspect juvenile justice or care agency records for research purposes shall present a notarized statement to the court stating that the names of juveniles and parents will remain confidential.

(9) Juvenile detention facilities shall release records to the juvenile disposition standards commission under RCW 13.40.025 upon request. The commission shall not disclose the names of any juveniles or parents mentioned in the records without the named individual's written permission.

Sec. 12. RCW 13.32A.050 and 1994 sp.s c 7 s 505 are each amended to read as follows:

A law enforcement officer shall take a child into custody:

(1) If a law enforcement agency has been contacted by the parent of the child that the child is absent from parental custody without consent; or

(2) If a law enforcement officer reasonably believes, considering the child's age, the location, and the time of day, that a child is in circumstances which constitute a danger to the child's safety or that a child is violating a local curfew ordinance; or

(3) If an agency legally charged with the supervision of a child has notified a law enforcement agency that the child has run away from placement; or

(4) If a law enforcement agency that has been notified by the juvenile court that the court finds probable cause exists to believe that the child has violated a court placement order issued pursuant to chapter 13.32A RCW or that the court has issued an order for law enforcement pick-up of the child under this chapter.

Law enforcement custody shall not extend beyond the amount of time reasonably necessary to transport the child to a destination authorized by law and to place the child at that destination.

An officer who takes a child into custody under this section and places the child in a designated crisis residential center shall inform the department of such placement within twenty-four hours.

Sec. 13. RCW 13.32A.060 and 1994 sp.s c 7 s 506 are each amended to read as follows:

(1) An officer taking a child into custody under RCW 13.32A.050 (1) or (2) shall inform the child of the reason for such custody and shall either:

(a) Transport the child to his or her home. The officer releasing a child into the custody of the parent shall inform the parent of the reason for the taking of the child into custody and shall inform the child and the parent of the nature and location of appropriate services available in their community; or

(b) Take the child to the home of an extended family member, a designated crisis residential center, or the home of a responsible adult after attempting to notify the parent or legal guardian:

(i) If the child expresses fear or distress at the prospect of being returned to his or her home which leads the officer to believe there is a possibility that the child is experiencing in the home some type of child abuse or neglect, as defined in RCW 26.44.020, as now law or hereafter amended; or

(ii) If it is not practical to transport the child to his or her home; or

(iii) If there is no parent available to accept custody of the child.

(2) An officer taking a child into custody under RCW 13.32A.050 (3) or (4) shall inform the child of the reason for custody. An officer taking a child into custody under RCW 13.32A.050(3) shall take the child to a designated crisis residential center licensed by the department and established pursuant to chapter 74.13 RCW. An officer taking a child into custody under RCW 13.32A.050(4) may place the child in a juvenile detention facility as provided in RCW 13.32A.065. The department shall ensure that all the enforcement authorities are informed on a
regular basis as to the location of the designated crisis residential center or centers in their judicial district, where children taken into custody under RCW 13.32A.050 may be taken.

(3) "Extended family members" means an adult who is a grandparent, brother, sister, stepbrother, stepsister, uncle, aunt, or first cousin with whom the child has a relationship and is comfortable, and who is willing and available to care for the child.

Sec. 14. RCW 13.32A.065 and 1981 c 298 s 4 are each amended to read as follows:

(1) A child ((may)) shall be placed in detention after being taken into custody pursuant to RCW 13.32A.050(4). The court shall hold a detention review hearing within twenty-four hours, excluding Saturdays, Sundays, and holidays. The court shall release the child after twenty-four hours, excluding Saturdays, Sundays, and holidays, unless:
   (a) A motion and order to show why the child should not be held in contempt has been filed and served on the child at or before the detention hearing; and
   (b) The court believes that the child would not appear at a hearing on contempt.

(2) If the court orders the child to remain in detention, the court shall set the matter for a hearing on contempt within seventy-two hours, excluding Saturdays, Sundays, and holidays.

Sec. 15. RCW 13.32A.070 and 1986 c 288 s 2 are each amended to read as follows:

(1) Except when expressly required otherwise in this chapter, an officer taking a child into custody under RCW 13.32A.050 may, at his or her discretion, transport the child to the home of a responsible adult who is other than the child’s parent or extended family member where the officer reasonably believes that the child will be provided with adequate care and supervision and that the child will remain in the custody of such adult until such time as the department can bring about the child’s return home or an alternative residential placement can be agreed to or determined pursuant to this chapter. An officer placing a child with a responsible adult other than his or her parent or extended family member shall immediately notify the department’s local community service office of this fact and of the reason for taking the child into custody.

(2) A law enforcement officer acting in good faith pursuant to this chapter in failing to take a child into custody, in taking a child into custody, or in releasing a child to a person other than a parent or extended family member of such child is immune from civil or criminal liability for such action.

(3) A person other than a parent of such child who receives a child pursuant to this chapter and who acts reasonably and in good faith in doing so is immune from civil or criminal liability for the act of receiving such child. Such immunity does not release such person from liability under any other law including the laws regulating licensed child care and prohibiting child abuse.

(4) As used in this section, "extended family member" has the meaning prescribed in RCW 13.32A.060.

NEW SECTION. Sec. 16. A new section is added to chapter 13.32A RCW to read as follows:

(1) Any person who, without legal authorization, provides shelter to a minor and who knows at the time of providing the shelter that the minor is away from the parent’s home without the permission of the parent, shall promptly report the location of the child to a local law enforcement agency. The report may be made by telephone or any other reasonable means.

(2) Unless the context clearly requires otherwise, the definitions in this subsection apply throughout this section.

(a) "Shelter" means the person’s home or any structure over which the person has any control.

(b) "Promptly report" means to report within four hours after the person has knowledge that the minor is away from home without parental permission.

(c) "Parent" means any parent having legal custody of the child, whether individually or joint.

(3) Violation of this section is a gross misdemeanor.

NEW SECTION. Sec. 17. A new section is added to chapter 46.20 RCW to read as follows:

When the department of licensing is provided with a notice under section 18 of this act, the department shall suspend for ninety days all driving privileges of the juvenile identified in the notice. To the extent it may be required to provide due process, the department may adopt rules to provide the juvenile with an opportunity to challenge the notice.
NEW SECTION. Sec. 18. A new section is added to chapter 13.32A RCW to read as follows:

When petitioned to do so by a parent, the department shall determine whether the parent’s child has, on two or more occasions within a twelve-month period, been absent from home for more than seventy-two consecutive hours without parental consent. If the department finds that the child has and also that the child has a Washington state driver’s license, then the department shall provide a notice of its findings to the department of licensing which shall suspend the child’s driver’s license as provided in section 17 of this act. The twelve-month period shall be the twelve-calendar-month period immediately before the month in which the department receives the petition. The department shall develop procedures for verifying absences and if requested by either a parent or child shall conduct a hearing on the question of whether the absences have occurred.

Sec. 19. RCW 13.32A.196 and 1991 c 364 s 14 are each amended to read as follows:

(1) At the dispositional hearing regarding an adjudicated at-risk youth, the court shall consider the recommendations of the parties and the recommendations of any dispositional plan submitted by the department. The court may enter a dispositional order that will assist the parent in maintaining the care, custody, and control of the child and assist the family to resolve family conflicts or problems.

(2) The court may set conditions of supervision for the child that include:

(a) Regular school attendance;
(b) Counseling;
(c) Participation in a substance abuse treatment program;
(d) If ordered under subsection (3) of this section, placement in a secure facility or other secure program of treatment;
(e) Reporting on a regular basis to the department or any other designated person or agency;

and

(f) Any other condition the court deems an appropriate condition of supervision.

(3) If requested by a parent of an at-risk youth who is a habitual runaway, the court may include in its dispositional order or orders a requirement that the youth be placed, for up to one hundred eighty consecutive days, in a secure facility or other court-ordered secure program of treatment. The court may not include this requirement unless, at the disposition hearing, it finds that the placement is necessary in order to protect the at-risk youth and that a less-restrictive order or orders not requiring such placement would be inadequate to protect the youth, given the youth’s age, maturity, propensity to run away from home, past exposure to serious risk when the youth ran away from home, and possible future exposure to serious risk should the youth run away from home again. For purposes of this section, an at-risk youth is a "habitual runaway" if the youth, on each of three or more occasions within the twelve-month period preceding the month in which the at-risk youth petition was filed, has been absent from home for more than seventy-two consecutive hours without parental consent; or if the youth during such twelve-month period has been absent from home without parental consent for more than thirty consecutive days. This subsection constitutes a method of placement or commitment that is in addition to methods prescribed under other laws and is not intended as the exclusive method for placement or commitment of children who qualify as at-risk youth.

(4) Except as provided in this section for habitual runaways, no dispositional order or condition of supervision ordered by a court pursuant to this section shall include involuntary commitment of a child for substance abuse or mental health treatment.

(5) The court may order the parent to participate in counseling services or any other services for the child requiring parental participation. The parent shall cooperate with the court-ordered case plan and shall take necessary steps to help implement the case plan. The parent shall be financially responsible for costs related to the court-ordered plan; however, this requirement shall not affect the eligibility of the parent or child for public assistance or other benefits to which the parent or child may otherwise be entitled. The parent may request dismissal of an at-risk youth proceeding at any time and upon such a request, the court shall dismiss the matter and cease court supervision of the child unless a contempt action is pending in the case. The court may retain jurisdiction over the matter for the purpose of concluding any pending contempt proceedings, including the full satisfaction of any penalties imposed as a result of a contempt finding.

(6) The court may order the department to monitor compliance with the dispositional order, assist in coordinating the provision of court-ordered services, and submit reports at subsequent review hearings regarding the status of the case.
Sec. 20. RCW 13.32A.198 and 1990 c 276 s 15 are each amended to read as follows:

(1) Upon making a disposition regarding an adjudicated at-risk youth, the court shall schedule the matter on the calendar for review ((within three months)), advise the parties of the date thereof, appoint legal counsel for the child, advise the parent of the right to be represented by legal counsel at the review hearing at the parent’s own expense, and notify the parties of their rights to present evidence at the hearing. The review hearing shall commence within ninety consecutive days after the date in which the dispositional order or orders are entered. However, if the order or orders provide for the placement of a habitual runaway in a secure facility or secure program of treatment, then the review hearing shall commence within thirty consecutive days after such date.

(2) At the review hearing, the court shall approve or disapprove the continuation of court supervision in accordance with the goal of assisting the parent to maintain the care, custody, and control of the child. The court shall determine whether the parent and child are complying with the dispositional plan. If court supervision is continued, the court may modify the dispositional plan. However, in the case of a habitual runaway placed in a secure facility or secure program of treatment, the court may continue the placement for an additional period only if requested by the parent and if the court finds that its findings under RCW 13.32A.196 are still accurate.

(3) Except for the placement of a habitual runaway in a secure facility or secure program of treatment, court supervision of the child may not be continued past one hundred eighty consecutive days from the day the review hearing commenced unless the court finds, and the parent agrees, that there are compelling reasons for an extension of supervision. Any extension granted pursuant to this subsection shall not exceed ninety days. The court may not require the placement of a habitual runaway for longer than a period of one hundred eighty consecutive days and may not provide for any extension of the placement beyond such period.

(4) The court may dismiss an at-risk youth proceeding at any time if the court finds good cause to believe that continuation of court supervision, including the placement of a habitual runaway, would serve no useful purpose or that the parent is not cooperating with the court-ordered case plan. The court shall dismiss an at-risk youth proceeding if the child is the subject of a proceeding under chapter 13.34 RCW.

Sec. 21. RCW 28A.225.020 and 1992 c 205 s 202 are each amended to read as follows:

If a juvenile required to attend school under the laws of the state of Washington fails to attend school without valid justification, the juvenile’s school shall:

(1) Inform the juvenile’s custodial parent, parents or guardian by a notice in writing or by telephone that the juvenile has failed to attend school without valid justification after one unexcused absence within any month during the current school year;

(2) Schedule a conference or conferences with the custodial parent, parents or guardian and juvenile at a time and place reasonably convenient for all persons included for the purpose of analyzing the causes of the juvenile’s absences after two unexcused absences within any month during the current school year. If a regularly scheduled parent-teacher conference day is to take place within thirty days of the second unexcused absence, then the school district may schedule this conference on that day; and

(3) Take steps to eliminate or reduce the juvenile’s absences. These steps shall include, where appropriate, adjusting the juvenile’s school program or school or course assignment, providing more individualized or remedial instruction, preparing the juvenile for employment with specific vocational courses or work experience, or ((both)) refer the juvenile to a community truancy board, and assisting the parent or student to obtain supplementary services that might eliminate or ameliorate the cause or causes for the absence from school.

Sec. 22. RCW 28A.225.030 and 1992 c 205 s 203 are each amended to read as follows:

If action taken by a school pursuant to RCW 28A.225.020 is not successful in substantially reducing a student’s absences from school, any of the following actions may be taken after five or more unexcused absences during the current school year: (1) The attendance officer of the school district or the community truancy board through its attorney may petition the ((juvenile)) court to assume jurisdiction under RCW 28A.200.010, 28A.200.020, and 28A.225.010 through 28A.225.150 for the purpose of alleging a violation of RCW 28A.225.010 by the parent; or (2) a petition alleging a violation of RCW 28A.225.010 by a child may be filed with the ((juvenile)) court by the parent of such child or by the attendance officer of the school district or the community truancy board through its attorney at the request of the parent. If the court assumes jurisdiction in such an instance, the

NEW SECTION. Sec. 23. A new section is added to chapter 28A.225 RCW to read as follows:

For purposes of this chapter, "community truancy board" means a board comprised of members of the local community in which the juvenile attends school. The local school district shall direct the formation of the board, and if possible include a variety of representatives from the community. The community truancy board shall set conditions designed to improve school attendance and monitor subsequent school attendance.

Sec. 24. RCW 28A.225.150 and 1992 c 205 s 205 are each amended to read as follows:

The school district attendance officer shall report biannually to the educational service district superintendent, in the instance of petitions filed alleging a violation by a child under RCW 28A.225.030:

1. The number of petitions filed by a school district or by a parent;
2. The frequency of each action taken under RCW 28A.225.020 prior to the filing of such petition;
3. When deemed appropriate under RCW 28A.225.020, the frequency of delivery of supplemental services; and
4. Disposition of cases filed with the (juvenile) court, including the frequency of contempt orders issued to enforce a court's order under RCW 28A.225.090.

The educational service district superintendent shall compile such information and report annually to the superintendent of public instruction. The superintendent of public instruction shall compile such information and report to the committees of the house of representatives and the senate by September 1 of each year.

Sec. 25. RCW 70.96A.095 and 1991 c 364 s 9 are each amended to read as follows:

1. Any person fourteen years of age or older may give consent for himself or herself to the furnishing of counseling, care, treatment, or rehabilitation by a treatment program or by any person. Consent of the parent, parents, or legal guardian of a person less than eighteen years of age is not necessary to authorize the care, except that the person shall not become a resident of the treatment program without such permission except as provided in RCW 70.96A.120 or 70.96A.140. The parent, parents, or legal guardian of a person less than eighteen years of age are not liable for payment of care for such persons pursuant to this chapter, unless they have joined in the consent to the counseling, care, treatment, or rehabilitation. The parent's, parents', or guardians' insurance carrier is also not liable for payment and shall not be billed for payment unless the parent, parents, or guardian has given consent.

2. The parent of any minor may apply to an approved treatment program for the involuntary admission of his or her child does not create any right to this treatment or to obtain or benefit from any public funds or resources.

NEW SECTION. Sec. 26. A new section is added to chapter 70.96A RCW to read as follows:

Nothing in this chapter authorizes school district personnel to refer minors to any treatment program or treatment provider without providing notice of the referral to the parent, parents, or guardians.

Sec. 27. RCW 70.96A.110 and 1990 c 151 s 7 are each amended to read as follows:

1. An alcoholic or other drug addict may apply for voluntary treatment directly to an approved treatment program. If the proposed patient is (a minor or) an incompetent person, he or she, a parent, a legal guardian, or other legal representative may make the application. If the proposed patient is a minor, the minor or the minor's parent, legal guardian, or other legal representative may make the application as provided in RCW 70.96A.095.
(2) Subject to rules adopted by the secretary, the administrator in charge of an approved treatment program may determine who shall be admitted for treatment. If a person is refused admission to an approved treatment program, the administrator, subject to rules adopted by the secretary, shall refer the person to another approved treatment program for treatment if possible and appropriate.

(3) If a patient receiving inpatient care leaves an approved treatment program, he or she shall be encouraged to consent to appropriate outpatient treatment. If it appears to the administrator in charge of the treatment program that the patient is an alcoholic or other drug addict who requires help, the department may arrange for assistance in obtaining supportive services and residential programs.

(4) If a patient leaves an approved public treatment program, with or against the advice of the administrator in charge of the program, the department may make reasonable provisions for his or her transportation to another program or to his or her home. If the patient has no home he or she should be assisted in obtaining shelter. If the patient is less than ((fourteen)) eighteen years of age or an incompetent person the request for discharge from an inpatient program shall be made by a parent, legal guardian, or other legal representative or by the ((minor or)) incompetent if he or she was the original applicant.

Sec. 28. RCW 70.96A.140 and 1993 c 362 s 1 are each amended to read as follows:

(1) When a designated chemical dependency specialist receives information alleging that a person is incapacitated as a result of chemical dependency, the designated chemical dependency specialist, after investigation and evaluation of the specific facts alleged and of the reliability and credibility of the information, may file a petition for commitment of such person with the superior court or district court.

If a petition for commitment is not filed in the case of a minor, the parent, guardian, or custodian who has custody of the minor may seek review of that decision made by the designated chemical dependency specialist in superior or district court. The parent, guardian, or custodian shall file notice with the court and provide a copy of the designated chemical dependency specialist's report.

If the designated chemical dependency specialist finds that the initial needs of such person would be better served by placement within the mental health system, the person shall be referred to an evaluation and treatment facility as defined in RCW 71.05.020 or 71.34.020. If placement in a chemical dependency program is available and deemed appropriate, the petition shall allege that: The person is chemically dependent and is incapacitated by alcohol or drug addiction, or that the person has twice before in the preceding twelve months been admitted for detoxification or chemical dependency treatment pursuant to RCW 70.96A.110, and is in need of a more sustained treatment program, or that the person is chemically dependent and has threatened, attempted, or inflicted physical harm on another and is likely to inflict physical harm on another unless committed. A refusal to undergo treatment, by itself, does not constitute evidence of lack of judgment as to the need for treatment. The petition shall be accompanied by a certificate of a licensed physician who has examined the person within five days before submission of the petition, unless the person whose commitment is sought has refused to submit to a medical examination, in which case the fact of refusal shall be alleged in the petition. The certificate shall set forth the licensed physician's findings in support of the allegations of the petition. A physician employed by the petitioning program or the department is eligible to be the certifying physician.

(2) Upon filing the petition, the court shall fix a date for a hearing no less than two and no more than seven days after the date the petition was filed unless the person petitioned against is presently being detained in a program, pursuant to RCW 70.96A.120, 71.05.210, or 71.34.050, ((as new or hereafter amended,)) in which case the hearing shall be held within seventy-two hours of the filing of the petition: PROVIDED, HOWEVER, That the above specified seventy-two hours shall be computed by excluding Saturdays, Sundays, and holidays: PROVIDED FURTHER, That, the court may, upon motion of the person whose commitment is sought, or upon motion of petitioner with written permission of the person whose commitment is sought, or his or her counsel and, upon good cause shown, extend the date for the hearing. A copy of the petition and of the notice of the hearing, including the date fixed by the court, shall be served by the designated chemical dependency specialist on the person whose commitment is sought, his or her next of kin, a parent or his or her legal guardian if he or she is a minor, and any other person the court believes advisable. A copy of the petition and certificate shall be delivered to each person notified.
(3) At the hearing the court shall hear all relevant testimony, including, if possible, the
testimony, which may be telephonic, of at least one licensed physician who has examined the person
whose commitment is sought. Communications otherwise deemed privileged under the laws of this
state are deemed to be waived in proceedings under this chapter when a court of competent jurisdiction
in its discretion determines that the waiver is necessary to protect either the detained person or the
public. The waiver of a privilege under this section is limited to records or testimony relevant to
evaluation of the detained person for purposes of a proceeding under this chapter. Upon motion by the
detained person, or on its own motion, the court shall examine a record or testimony sought by a
petitioner to determine whether it is within the scope of the waiver.

The record maker shall not be required to testify in order to introduce medical, nursing, or
psychological records of detained persons so long as the requirements of RCW 5.45.020 are met,
except that portions of the record that contain opinions as to whether the detained person is chemically
dependent shall be deleted from the records unless the person offering the opinions is available for
cross-examination. The person shall be present unless the court believes that his or her presence is
likely to be injurious to him or her; in this event the court may deem it appropriate to appoint a
guardian ad litem to represent him or her throughout the proceeding. If deemed advisable, the court
may examine the person out of courtroom. If the person has refused to be examined by a licensed
physician, he or she shall be given an opportunity to be examined by a court appointed licensed
physician. If he or she refuses and there is sufficient evidence to believe that the allegations of the
petition are true, or if the court believes that more medical evidence is necessary, the court may make a
temporary order committing him or her to the department for a period of not more than five days for
purposes of a diagnostic examination.

(4) If after hearing all relevant evidence, including the results of any diagnostic examination,
the court finds that grounds for involuntary commitment have been established by clear, cogent, and
convincing proof, it shall make an order of commitment to an approved treatment program. It shall not
order commitment of a person unless it determines that an approved treatment program is available and
able to provide adequate and appropriate treatment for him or her.

(5) A person committed under this section shall remain in the program for treatment for a
period of sixty days unless sooner discharged. At the end of the sixty-day period, he or she shall be
discharged automatically unless the program, before expiration of the period, files a petition for his or
her recommitment upon the grounds set forth in subsection (1) of this section for a further period of
ninety days unless sooner discharged.

If a petition for recommitment is not filed in the case of a minor, the parent, guardian, or
custodian who has custody of the minor may seek review of that decision made by the designated
chemical dependency specialist in superior or district court. The parent, guardian, or custodian shall
file notice with the court and provide a copy of the treatment progress report.

If a person has been committed because he or she is chemically dependent and likely to inflict
physical harm on another, the program shall apply for recommitment if after examination it is
determined that the likelihood still exists.

(6) Upon the filing of a petition for recommitment under subsection (5) of this section, the
court shall fix a date for hearing no less than two and no more than seven days after the date the
petition was filed: PROVIDED, That, the court may, upon motion of the person whose commitment is
sought and upon good cause shown, extend the date for the hearing. A copy of the petition and of the
notice of hearing, including the date fixed by the court, shall be served by the treatment program on the
person whose commitment is sought, his or her next of kin, the original petitioner under subsection (1)
of this section if different from the petitioner for recommitment, one of his or her parents or his or her
legal guardian if he or she is a minor, and his or her attorney and any other person the court believes
advisable. At the hearing the court shall proceed as provided in subsection (3) of this section.

(7) The approved treatment program shall provide for adequate and appropriate treatment of a
person committed to its custody. A person committed under this section may be transferred from one
approved public treatment program to another if transfer is medically advisable.

(8) A person committed to the custody of a program for treatment shall be discharged at any
time before the end of the period for which he or she has been committed and he or she shall be
discharged by order of the court if either of the following conditions are met:

(a) In case of a chemically dependent person committed on the grounds of likelihood of
infliction of physical harm upon himself, herself, or another, the likelihood no longer exists; or further
treatment will not be likely to bring about significant improvement in the person's condition, or
treatment is no longer adequate or appropriate.

(b) In case of a chemically dependent person committed on the grounds of the need of treatment
and incapacity, that the incapacity no longer exists.

(9) The court shall inform the person whose commitment or recommitment is sought of his or
her right to contest the application, be represented by counsel at every stage of any proceedings relating
to his or her commitment and recommitment, and have counsel appointed by the court or provided by
the court, if he or she wants the assistance of counsel and is unable to obtain counsel. If the court
believes that the person needs the assistance of counsel, the court shall require, by appointment if
necessary, counsel for him or her regardless of his or her wishes. The person shall, if he or she is
financially able, bear the costs of such legal service; otherwise such legal service shall be at public
expense. The person whose commitment or recommitment is sought shall be informed of his or her
right to be examined by a licensed physician of his or her choice. If the person is unable to obtain a
licensed physician and requests examination by a physician, the court shall employ a licensed
physician.

(10) A person committed under this chapter may at any time seek to be discharged from
commitment by writ of habeas corpus in a court of competent jurisdiction.

(11) The venue for proceedings under this section is the county in which person to be
committed resides or is present.

(12) When in the opinion of the professional person in charge of the program providing
involuntary treatment under this chapter, the committed patient can be appropriately served by less
restrictive treatment before expiration of the period of commitment, then the less restrictive care may
be required as a condition for early release for a period which, when added to the initial treatment
period, does not exceed the period of commitment. If the program designated to provide the less
restrictive treatment is other than the program providing the initial involuntary treatment, the program
so designated must agree in writing to assume such responsibility. A copy of the conditions for early
release shall be given to the patient, the designated chemical dependency specialist of original
commitment, and the court of original commitment. The program designated to provide less restrictive
care may modify the conditions for continued release when the modifications are in the best interests
of the patient. If the program providing less restrictive care and the designated chemical dependency
specialist determine that a conditionally released patient is failing to adhere to the terms and conditions
of his or her release, or that substantial deterioration in the patient's functioning has occurred, then the
designated chemical dependency specialist shall notify the court of original commitment and request a
hearing to be held no less than two and no more than seven days after the date of the request to
determine whether or not the person should be returned to more restrictive care. The designated
chemical dependency specialist shall file a petition with the court stating the facts substantiating the
need for the hearing along with the treatment recommendations. The patient shall have the same rights
with respect to notice, hearing, and counsel as for the original involuntary treatment proceedings. The
issues to be determined at the hearing are whether the conditionally released patient did or did not
adhere to the terms and conditions of his or her release to less restrictive care or that substantial
deterioration of the patient's functioning has occurred and whether the conditions of release should be
modified or the person should be returned to a more restrictive program. The hearing may be waived
by the patient and his or her counsel and his or her guardian or conservator, if any, but may not be
waived unless all such persons agree to the waiver. Upon waiver, the person may be returned for
involuntary treatment or continued on conditional release on the same or modified conditions.

Sec. 29. RCW 71.34.030 and 1985 c 354 s 3 are each amended to read as follows:

(1) Any minor ((thirteen)) fourteen years or older may request and receive outpatient treatment
without the consent of the minor's parent provided that the treatment provider provides notice to the
minor's parent. The treatment provider must provide notice within forty-eight hours of the minor's
request for treatment excluding Saturdays, Sundays, and holidays. The notice shall contain the same
information as required under subsection (2)(c) of this section. Parental authorization is required for
outpatient treatment of a minor under the age of ((thirteen)) fourteen.

(2) When in the judgment of the professional person in charge of an evaluation and treatment
facility there is reason to believe that a minor is in need of inpatient treatment because of a mental
disorder, and the facility provides the type of evaluation and treatment needed by the minor, and it is
not feasible to treat the minor in any less restrictive setting or the minor’s home, the minor may be admitted to an evaluation and treatment facility in accordance with the following requirements:

(a) A minor under ((thirteen)) fourteen years of age may only be admitted on the application of the minor’s parent.

(b) A minor ((thirteen years or older)) may be voluntarily admitted by application of the minor. ((Such application must be accompanied by the written consent, knowingly and voluntarily given, of the minor.)) The consent of the minor is not required.

(c) A minor ((thirteen)) fourteen years or older may, with the concurrence of the professional person in charge of an evaluation and treatment facility, admit himself or herself without parental consent to the evaluation and treatment facility, provided that notice is given by the facility to the minor’s parent in accordance with the following requirements:

(i) Notice of the minor’s admission shall be in the form most likely to reach the parent within twenty-four hours of the minor’s voluntary admission and shall advise the parent that the minor has been admitted to inpatient treatment; the location and telephone number of the facility providing such treatment; and the name of a professional person on the staff of the facility providing treatment who is designated to discuss the minor’s need for inpatient treatment with the parent.

(ii) The minor shall be released to the parent at the parent’s request for release unless the facility files a petition with the superior court of the county in which treatment is being provided setting forth the basis for the facility’s belief that the minor is in need of inpatient treatment and that release would constitute a threat to the minor’s health or safety.

(iii) The petition shall be signed by the professional person in charge of the facility or that person’s designee.

(iv) The parent may apply to the court for separate counsel to represent the parent if the parent cannot afford counsel.

(v) There shall be a hearing on the petition, which shall be held within three judicial days from the filing of the petition.

(vi) The hearing shall be conducted by a judge, court commissioner, or licensed attorney designated by the superior court as a hearing officer for such hearing. The hearing may be held at the treatment facility.

(vii) At such hearing, the facility must demonstrate by a preponderance of the evidence presented at the hearing that the minor is in need of inpatient treatment and that release would constitute a threat to the minor’s health or safety. The hearing shall not be conducted using the rules of evidence, and the admission or exclusion of evidence sought to be presented shall be within the exercise of sound discretion by the judicial officer conducting the hearing.

(d) Written renewal of voluntary consent must be obtained from the applicant ((and the minor thirteen years or older)) no less than once every twelve months.

(e) The minor’s need for continued inpatient treatments shall be reviewed and documented no less than every one hundred eighty days.

(3) A notice of intent to leave shall result in the following:

(a) Any minor under the age of ((thirteen)) fourteen and any minor fourteen or older admitted by a parent under subsection (2)(b) of this section must be discharged immediately upon written request of the parent.

(b) Any minor ((thirteen)) fourteen years or older voluntarily admitted by himself or herself under subsection (2)(c) of this section may give notice of intent to leave at any time. The notice need not follow any specific form so long as it is written and the intent of the minor can be discerned.

(c) The staff member receiving the notice shall date it immediately, record its existence in the minor’s clinical record, and send copies of it to the minor’s attorney, if any, the county-designated mental health professional, and the parent.

(d) The professional person in charge of the evaluation and treatment facility shall discharge the minor, ((thirteen)) fourteen years or older, from the facility within twenty-four hours after receipt of the minor’s notice of intent to leave, unless the county-designated mental health professional or a parent or legal guardian files a petition or an application for initial detention within the time prescribed by this chapter.

(4) The ability of a parent to apply for treatment of his or her child under this section does not create a right to obtain this treatment or to obtain or benefit from any public funds or resources.

Sec. 30. RCW 71.34.040 and 1985 c 354 s 4 are each amended to read as follows:
If a minor, fourteen years or older, is brought to an evaluation and treatment facility or hospital emergency room for immediate mental health services, the professional person in charge of the facility shall evaluate the minor’s mental condition, determine whether the minor suffers from a mental disorder, and whether the minor is in need of immediate inpatient treatment. If it is determined that the minor suffers from a mental disorder, inpatient treatment is required, the minor is unwilling to consent to voluntary admission, and the professional person believes that the minor meets the criteria for initial detention set forth herein, the facility may detain or arrange for the detention of the minor for up to twelve hours in order to enable a county-designated mental health professional to evaluate the minor and commence initial detention proceedings under the provisions of this chapter.

NEW SECTION. Sec. 31. A new section is added to chapter 71.34 RCW to read as follows: Nothing in this chapter authorizes school district personnel to refer minors to any evaluation and treatment program or mental health professional without providing notice of the referral to the minor’s parent.

Sec. 32. RCW 71.34.050 and 1985 c 354 s 5 are each amended to read as follows:
(1) When a county-designated mental health professional receives information that a minor, fourteen years or older, as a result of a mental disorder presents a likelihood of serious harm or is gravely disabled, has investigated the specific facts alleged and of the credibility of the person or persons providing the information, and has determined that voluntary admission for inpatient treatment is not possible, the county-designated mental health professional may take the minor, or cause the minor to be taken, into custody and transported to an evaluation and treatment facility providing inpatient treatment.

If the minor is not taken into custody for evaluation and treatment, the parent who has custody of the minor may seek review of that decision made by the county designated mental health professional in court. The parent shall file notice with the court and provide a copy of the county designated mental health professional’s report or notes.
(2) Within twelve hours of the minor’s arrival at the evaluation and treatment facility, the county-designated mental health professional shall serve on the minor a copy of the petition for initial detention, notice of initial detention, and statement of rights. The county-designated mental health professional shall file with the court on the next judicial day following the initial detention the original petition for initial detention, notice of initial detention, and statement of rights along with an affidavit of service. The county-designated mental health professional shall commence service of the petition for initial detention and notice of the initial detention on the minor’s parent and the minor’s attorney as soon as possible following the initial detention.
(3) At the time of initial detention, the county-designated mental health professional shall advise the minor both orally and in writing that if admitted to the evaluation and treatment facility for inpatient treatment, a commitment hearing shall be held within seventy-two hours of the minor’s provisional acceptance to determine whether probable cause exists to commit the minor for further mental health treatment.

The minor shall be advised that he or she has a right to communicate immediately with an attorney and that he or she has a right to have an attorney appointed to represent him or her before and at the hearing if the minor is indigent.
(4) Whenever the county designated mental health professional petitions for detention of a minor under this chapter, an evaluation and treatment facility providing seventy-two hour evaluation and treatment must immediately accept on a provisional basis the petition and the person. Within twenty-four hours of the minor’s arrival, the facility must evaluate the minor’s condition and either admit or release the minor in accordance with this chapter.
(5) If a minor is not approved for admission by the inpatient evaluation and treatment facility, the facility shall make such recommendations and referrals for further care and treatment of the minor as necessary.

Sec. 33. RCW 71.34.070 and 1985 c 354 s 7 are each amended to read as follows:
(1) The professional person in charge of an evaluation and treatment facility where a minor has been admitted involuntarily for the initial seventy-two hour treatment period under this chapter may petition to have a minor committed to an evaluation and treatment facility for fourteen-day diagnosis, evaluation, and treatment.
If the professional person in charge of the treatment and evaluation facility does not petition to have the minor committed, the parent who has custody of the minor may seek review of that decision in court. The parent shall file notice with the court and provide a copy of the treatment and evaluation facility’s report.

(2) A petition for commitment of a minor under this section shall be filed with the superior court in the county where the minor is residing or being detained.

(a) A petition for a fourteen-day commitment shall be signed either by two physicians or by one physician and a mental health professional who have examined the minor and shall contain the following:

(i) The name and address of the petitioner;
(ii) The name of the minor alleged to meet the criteria for fourteen-day commitment;
(iii) The name, telephone number, and address if known of every person believed by the petitioner to be legally responsible for the minor;
(iv) A statement that the petitioner has examined the minor and finds that the minor’s condition meets required criteria for fourteen-day commitment and the supporting facts therefor;
(v) A statement that the minor has been advised of the need for voluntary treatment but has been unwilling or unable to consent to necessary treatment;
(vi) A statement recommending the appropriate facility or facilities to provide the necessary treatment; and
(vii) A statement concerning whether a less restrictive alternative to inpatient treatment is in the best interests of the minor.

(b) A copy of the petition shall be personally delivered to the minor by the petitioner or petitioner’s designee. A copy of the petition shall be sent to the minor’s attorney and the minor’s parent.

Sec. 34. RCW 71.34.130 and 1985 c 354 s 13 are each amended to read as follows:

(1) Except as provided in subsection (2) of this section, a minor receiving treatment under the provisions of this chapter and responsible others shall be liable for the costs of treatment, care, and transportation to the extent of available resources and ability to pay.

(2) The minor’s parent shall not be liable for payment for the costs of treatment, care, and transportation unless the parent gave consent to the treatment, care, and transportation. The parent’s insurance carrier is also not liable for payment and shall not be billed for payment unless the parent has given consent.

(3) The secretary shall establish rules to implement this section and to define income, resources, and exemptions to determine the responsible person’s or persons’ ability to pay.

Sec. 35. RCW 74.13.032 and 1979 c 155 s 78 are each amended to read as follows:

(1) The department shall establish, by contracts with private vendors, not less than eight regional crisis residential centers, which shall be structured group care facilities licensed under rules adopted by the department. Each regional center shall have an average of at least four adult staff members and in no event less than three adult staff members to every eight children. The staff shall be trained so that they may effectively counsel juveniles admitted to the centers, provide treatment, supervision, and structure to the juveniles, and carry out the responsibilities outlined in RCW 13.32A.090.

(2) The department shall, in addition to the regional facilities established under subsection (1) of this section, establish not less than thirty additional crisis residential centers pursuant to contract with licensed private group care or specialized foster home facilities. The department may also locate crisis residential centers in or adjacent to secure juvenile detention facilities operated by the county. Where a center is located in or adjacent to a secure juvenile detention facility, the center shall be operated in a manner that prevents in-person contact between the residents of the center and the persons held in such facility. The staff at the facilities shall be trained so that they may effectively counsel juveniles admitted to the centers, provide treatment, supervision, and structure to the juveniles, and carry out the responsibilities stated in RCW 13.32A.090. The responsibilities stated in RCW 13.32A.090 may, in any of the centers, be carried out by the department.

Crisis residential ((facilities)) centers shall be operated as ((semi-secure)) secure facilities.

Sec. 36. RCW 74.13.033 and 1992 c 205 s 213 are each amended to read as follows:
(1) If a resident of a center becomes by his or her behavior disruptive to the facility's program, such resident may be immediately removed to a separate area within the facility and counseled on an individual basis until such time as the child regains his or her composure. The department may set rules and regulations establishing additional procedures for dealing with severely disruptive children on the premises, (which procedures are consistent with the federal juvenile justice and delinquency prevention act of 1974 and regulations and clarifying instructions promulgated thereunder). Nothing in this section shall prohibit a center from referring any child who, as the result of a mental or emotional disorder, or intoxication by alcohol or other drugs, is suicidal, seriously assaultive or seriously destructive toward others, or otherwise similarly evidences an immediate need for emergency medical evaluation and possible care, for evaluation pursuant to chapter 71.34 RCW (ee), to a mental health professional pursuant to chapter 71.05 RCW, or to a chemical dependency specialist pursuant to chapter 70.96A RCW whenever such action is deemed appropriate and consistent with law.

(2) When the juvenile resides in this facility, all services deemed necessary to the juvenile's reentry to normal family life shall be made available to the juvenile as required by chapter 13.32A RCW. In providing these services, the facility shall:
(a) Interview the juvenile as soon as possible;
(b) Contact the juvenile's parents and arrange for a counseling interview with the juvenile and his or her parents as soon as possible;
(c) Conduct counseling interviews with the juvenile and his or her parents, to the end that resolution of the child/parent conflict is attained and the child is returned home as soon as possible; and
(d) Provide additional crisis counseling as needed, to the end that placement of the child in the crisis residential center will be required for the shortest time possible, but not to exceed five consecutive days.

(3) A juvenile taking unauthorized leave from this residence may be apprehended and returned to it by law enforcement officers or other persons designated as having this authority as provided in RCW 13.32A.050. If returned to the facility after having taken unauthorized leave for a period of more than twenty-four hours a juvenile shall be supervised by such a facility for a period, pursuant to this chapter, which, unless otherwise provided, may not exceed five consecutive days on the premises. Costs of housing juveniles admitted to crisis residential centers shall be assumed by the department for a period not to exceed five consecutive days.

Sec. 37. RCW 74.13.034 and 1992 c 205 s 214 are each amended to read as follows:

(1) A child taken into custody and taken to a crisis residential center established pursuant to RCW 74.13.032(2) may, if the center is unable to provide appropriate treatment, supervision, and structure to the child, be taken at department expense to another crisis residential center or the nearest regional crisis residential center. Placement in both centers shall not exceed five consecutive days from the point of intake as provided in RCW 13.32A.130.

(2) A child taken into custody and taken to a crisis residential center established by this chapter may be placed physically by the department or the department's designee and, at departmental expense and approval, in a secure juvenile detention facility operated by the county in which the center is located for a maximum of forty-eight hours, including Saturdays, Sundays, and holidays, if the child has taken unauthorized leave from the center and the person in charge of the center determines that the center cannot provide supervision and structure adequate to ensure that the child will not again take unauthorized leave. Juveniles placed in such a facility pursuant to this section may not, to the extent possible, come in contact with alleged or convicted juvenile or adult offenders.

(3) Any child placed in secure detention pursuant to this section shall, during the period of confinement, be provided with appropriate treatment by the department or the department's designee, which shall include the services defined in RCW 74.13.033(2). If the child placed in secure detention is not returned home or if an alternative living arrangement agreeable to the parent and the child is not made within twenty-four hours after the child's admission, the child shall be taken at the department's expense to a crisis residential center. Placement in the crisis residential center or centers plus placement in juvenile detention shall not exceed five consecutive days from the point of intake as provided in RCW 13.32A.130.

(4) ((Juvenile detention facilities used pursuant to this section shall first be certified by the department to ensure that juveniles placed in the facility pursuant to this section are provided with living conditions suitable to the well-being of the child. Where space is available, juvenile courts,
when certified by the department to do so, shall provide secure placement for juveniles pursuant to this section, at department expense.

(5)) It is the intent of the legislature that by July 1, 1982, crisis residential centers, supplemented by community mental health programs and mental health professionals, will be able to respond appropriately to children admitted to centers under this chapter and will be able to respond to the needs of such children with appropriate treatment, supervision, and structure.

MAJORITY recommendation: Do pass with the following amendment:

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 18.108.040 and 1991 c 3 s 255 are each amended to read as follows:
It shall be unlawful to advertise the practice of massage using the term massage or any other term that implies a massage technique or method in any public or private publication or communication by a person not licensed by the secretary as a massage practitioner or without printing in display advertisement the license number of the massage practitioner. Any person who holds a license to
practice as a massage practitioner in this state may use the title "licensed massage practitioner" and the abbreviation "L.M.P.". No other persons may assume such title or use such abbreviation or any other word, letters, signs, or figures to indicate that the person using the title is a licensed massage practitioner.

Sec. 2. RCW 18.108.085 and 1991 c 3 s 259 are each amended to read as follows:
(1) In addition to any other authority provided by law, the secretary may:
(a) Adopt rules, in accordance with chapter 34.05 RCW necessary to implement this chapter;
(b) Set all license, examination, and renewal fees in accordance with RCW 43.70.250;
(c) Establish forms and procedures necessary to administer this chapter;
(d) Issue a license to any applicant who has met the education, training, and examination requirements for licensure; and

(3) Any license issued under this chapter to a person who is or has been convicted of violating RCW 9A.88.030, 9A.88.070, 9A.88.080, or 9A.88.090, or an equivalent local ordinance shall automatically be revoked by the secretary upon receipt of a certified copy of the court documents reflecting such conviction. No further hearing or procedure is required, and the secretary has no discretion with regard to revocation of the license. The revocation shall be effective even though the conviction is under appeal or the time period for appeal has not lapsed. Upon presentation of a final appellate decision overturning the conviction, the license shall be reinstated, unless grounds for disciplinary action have been found pursuant to chapter 18.130 RCW. No license may be granted under this chapter to any person who has been convicted of violating RCW 9A.88.030, 9A.88.070, 9A.88.080, or 9A.88.090, or an equivalent local ordinance within eight years immediately preceding the date of application. For purposes of this subsection, "convicted" does not include a conviction that has been the subject of a pardon, annulment, or other equivalent procedure based on a finding of innocence, but does include a conviction for an offense for which the defendant received a deferred or suspended sentence, unless the record has been expunged according to law.
(4) The secretary shall keep an official record of all proceedings under this chapter, a part of which record shall consist of a register of all applicants for licensure under this chapter, with the result of each application.

NEW SECTION. Sec. 3. A new section is added to chapter 18.130 RCW to read as follows: RCW 18.108.085 governs the issuance and revocation of licenses under chapter 18.108 RCW issued to or applied for by persons convicted of violating RCW 9A.88.030, 9A.88.070, 9A.88.080, or 9A.88.090, or equivalent local ordinances.

Sec. 4. RCW 35.21.692 and 1991 c 182 s 1 are each amended to read as follows:
(1) A state licensed massage practitioner seeking a city or town license to operate a massage business must provide verification of his or her state massage license as provided for in RCW 18.108.030.
(2) The city or town may charge a licensing or operating fee, but the fee charged a state licensed massage practitioner shall not exceed the licensing or operating fee imposed on (similar health care providers, such as physical therapists or occupational therapists, other licensees operating within the same city or town, and such fees shall be reasonable and shall not exceed the costs of the processing and administration of the licensing procedure.
(3) A state licensed massage practitioner (is not) may be subject to additional licensing requirements (not currently imposed on similar health care providers, such as physical therapists or occupational therapists) under RCW 18.108.100.

Sec. 5. RCW 35A.82.025 and 1991 c 182 s 2 are each amended to read as follows:

"Sec. 1. RCW 84.36.381 and 1994 sp.s.c 8 s 1 are each amended to read as follows:
A person shall be exempt from any legal obligation to pay all or a portion of the amount of excess and regular real property taxes due and payable in the year following the year in which a claim is filed, and thereafter, in accordance with the following:
(1) The property taxes must have been imposed upon a residence which was occupied by the person claiming the exemption as a principal place of residence as of the time of filing: PROVIDED, That any person who sells, transfers, or is displaced from his or her residence may transfer his or her exemption status to a replacement residence, but no claimant shall receive an exemption on more than one residence in any year: PROVIDED FURTHER, That confinement of the person to a hospital or nursing home shall not disqualify the claim of exemption if:
(a) The residence is temporarily unoccupied;
(b) The residence is occupied by a spouse and/or a person financially dependent on the claimant for support; or
(c) The residence is rented for the purpose of paying nursing home or hospital costs;
(2) The person claiming the exemption must have owned, at the time of filing, in fee, as a life estate, or by contract purchase, the residence on which the property taxes have been imposed or if the person claiming the exemption lives in a cooperative housing association, corporation, or partnership, such person must own a share therein representing the unit or portion of the structure in which he or she resides. For purposes of this subsection, a residence owned by a marital community or owned by cotenants shall be deemed to be owned by each spouse or cotenant, and any lease for life shall be deemed a life estate;

(4) The amount that the person shall be exempt from an obligation to pay shall be calculated on the basis of combined disposable income, as defined in RCW 84.36.383. If the person claiming the exemption was retired for two months or more of the assessment year, the combined disposable income of such person shall be calculated by multiplying the average monthly combined disposable income of such person during the months such person was retired by twelve. If the income of the person claiming exemption is reduced for two or more months of the assessment year by reason of the death of the person’s spouse, or when other substantial changes occur in disposable income that are likely to continue for an indefinite period of time, the combined disposable income of such person shall be calculated by multiplying the average monthly combined disposable income of such person after such occurrences by twelve. If it is necessary to estimate income to comply with this subsection, the assessor may require confirming documentation of such income prior to May 31 of the year following application;

(5)(a) A person who otherwise qualifies under this section and has a combined disposable income of twenty-eight thousand dollars or less shall be exempt from all excess property taxes; and

(b)(i) A person who otherwise qualifies under this section and has a combined disposable income of eighteen thousand dollars or less but greater than fifteen thousand dollars shall be exempt from all regular property taxes on the greater of thirty thousand dollars or thirty percent of the valuation of his or her residence, but not to exceed fifty thousand dollars of the valuation of his or her residence; or

(ii) A person who otherwise qualifies under this section and has a combined disposable income of fifteen thousand dollars or less shall be exempt from all regular property taxes on the greater of thirty-four thousand dollars or fifty percent of the valuation of his or her residence;

(6) For a person who otherwise qualifies under this section and has a combined disposable income of twenty-eight thousand dollars or less, the taxable value of the residence shall not exceed the lesser of (a) the assessed value of the residence as reduced by the exemption under subsection (5) of this section, if any, or (b) the taxable value of the residence for the previous year, increased by the inflation factor for the assessment year. For counties that do not revalue property annually, the amount under (b) of this subsection shall be the previous taxable value increased by the inflation factor for each assessment year since the previous revaluation of the residence. As used in this section, "inflation factor" means the percentage change used by the federal government in adjusting social security payments for inflation at the beginning of each year. The department shall provide inflation factors to the county assessors annually).

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 43.01.230 and 1993 c 394 s 6 are each amended to read as follows:
State agencies may, ((subject to appropriation and)) under the internal revenue code rules, use public funds to financially assist agency-approved incentives for alternative commute modes, including but not limited to carpooling, vanpooling, purchase of transit and ferry passes, and guaranteed ride home programs, if the financial assistance is an element of the agency's commute trip reduction program as required under RCW 70.94.521 through 70.94.551. This section does not permit any payment for the use of state-owned vehicles for commuter ride sharing.

Sec. 2. RCW 43.01.225 and 1993 c 394 s 5 are each amended to read as follows:
(1) There is hereby established an account in the state treasury to be known as the "state ((capitol)) vehicle parking account." All parking rental income ((collected from rental of parking space)) resulting from parking fees established by the department of general administration under RCW 46.08.172 at state-owned or leased property shall be deposited in the "state ((capitol)) vehicle parking account." Revenue deposited in the "state ((capitol)) vehicle parking account" shall be first applied to pledged purposes. Unpledged parking revenues deposited in the "state ((capitol)) vehicle parking account" may be used to:
   (1) Pay costs incurred in the operation, maintenance, regulation, and enforcement of vehicle parking and parking facilities ((on state-owned or leased properties));
   (2) Support the lease costs and/or capital investment costs of vehicle parking and parking facilities ((off state-owned and leased facilities off the capitol campus)); and
   (3) Support agency commute trip reduction programs under RCW 70.94.521 through 70.94.551.
   ((Distribution of funds from the "state capitol vehicle parking account" are subject to appropriation by the legislature and will be made by the office of financial management after considering recommendations from the director of general administration and the interagency task force for commute trip reduction, under RCW 70.94.551.))

NEW SECTION. Sec. 3. A new section is added to chapter 43.01 RCW to read as follows:
(1) There is hereby established an account in the state treasury to be known as the state agency parking account. All parking income collected from the fees imposed by state agencies on parking spaces at state-owned or leased facilities, including the capitol campus, shall be deposited in the state agency parking account. Only the office of financial management may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but no appropriation is required for expenditures. No agency may receive an allotment greater than the amount of revenue deposited into the state agency parking account.

(2) An agency may, as an element of the agency's commute trip reduction program to achieve the goals set forth in RCW 70.94.527, impose parking rental fees at state-owned and leased properties. These fees will be deposited in the state agency parking account. Each agency shall establish a committee to advise the agency director on parking rental fees, taking into account the market rate of comparable, privately owned rental parking in each region. The agency shall solicit representation of the employee population including, but not limited to, management, administrative staff, production workers, and state employee bargaining units. Funds shall be used by agencies to: (a) Support the agencies' commute trip reduction program under RCW 70.94.521 through 70.94.551; (b) support the agencies' parking program; or (c) support the lease or ownership costs for the agencies' parking facilities.

(3) In order to reduce the state's subsidization of employee parking, after July 1997 agencies shall not enter into leases for employee parking in excess of building code requirements, except as authorized by the director of general administration. In situations where there are fewer parking spaces
than employees at a worksite, parking must be allocated equitably, with no special preference given to managers.

(4) The director of general administration must report to the house and senate transportation committees no later than December 1, 1997, regarding the implementation of chapter . . ., Laws of 1995 (this act). The report must include an estimate of the reduction in parking supply and an estimate of the cost savings.

Sec. 4. RCW 46.08.172 and 1993 c 394 s 4 are each amended to read as follows:
The director of the department of general administration shall establish equitable and consistent parking rental fees for ((state-owned or leased property)) the capitol campus and may, if requested by agencies, establish equitable and consistent parking rental fees for agencies off the capitol campus, to be charged to employees, visitors, clients, service providers, and others, that reflect the legislature's intent to reduce state subsidization of parking or to meet the commute trip reduction goals established in RCW 70.94.527. ((The department shall solicit representatives from affected state agencies, employees, and state employee bargaining units to meet as regional committees. These regional committees will advise the director on parking rental fees, taking into account the market rate of comparable, privately owned rental parking in each region. In the event that such fees become part of a collective bargaining agreement and there is a conflict between the agency and the collective bargaining unit, the terms of the collective bargaining agreement shall prevail.) All fees shall take into account the market rate of comparable privately owned rental parking, as determined by the director. However, parking rental fees are not to exceed the local market rate of comparable privately owned rental parking.

The director may delegate the responsibility for the collection of parking fees to other agencies of state government when cost-effective.

NEW SECTION. Sec. 5. A new section is added to chapter 43.01 RCW to read as follows:
All institutions of higher education as defined under RCW 28B.10.016 are exempt from the requirements under RCW 43.01.225.

Sec. 6. RCW 43.99H.070 and 1989 1st ex.s. c 14 s 7 are each amended to read as follows:
In addition to any other charges authorized by law and to assist in the reimbursement of principal and interest payments on bonds issued for the purposes of RCW 43.99H.020(15), the following revenues may be collected:

(1) The director of general administration may assess a charge against each state board, commission, agency, office, department, activity, or other occupant of the facility or building constructed with bonds issued for the purposes of RCW 43.99H.020(15) for payment of a proportion of costs for each square foot of floor space assigned to or occupied by the entity. Payment of the amount billed to the entity for such occupancy shall be made quarterly during each fiscal year. The director of general administration shall deposit the payment in the capitol campus reserve account.

(2) The director of general administration may pledge a portion of the parking rental income collected by the department of general administration from parking space developed as a part of the facility constructed with bonds issued for the purposes of RCW 43.99H.020(15). The pledged portion of this income shall be deposited in the capitol campus reserve account. The unpledged portion of this income shall continue to be deposited in the state ((capital)) vehicle parking account.

(3) The state treasurer shall transfer four million dollars from the capitol building construction account to the capitol campus reserve account each fiscal year from 1990 to 1995. Beginning in fiscal year 1996, the director of general administration, in consultation with the state finance committee, shall determine the necessary amount for the state treasurer to transfer from the capitol building construction account to the capitol campus reserve account for the purpose of repayment of the general fund of the costs of the bonds issued for the purposes of RCW 43.99H.020(15).

(4) Any remaining balance in the state building and parking bond redemption account after the final debt service payment shall be transferred to the capitol campus reserve account."

**2SSB 5387** Prime Sponsor, Committee on Ways & Means: Providing tax incentives for multiple-unit housing in urban centers. Reported by Committee on Finance

MAJORITY recommendation: Do pass with the following amendment by Committee on Trade & Economic Development:

Strike everything after the enacting clause and insert the following:

"**NEW SECTION. Sec. 1.** The legislature finds:

(1) That in many of Washington's urban centers there is insufficient availability of desirable and convenient residential units to meet the needs of a growing number of the public who would live in these urban centers if these desirable, convenient, attractive, and livable places to live were available;

(2) That the lack of these sufficient residential opportunities has resulted in an underutilization of these areas as a place to live by permanent residents and such absence of
permanent residents has contributed to the existence of vandalism, juvenile delinquency, the
prodigality by some to commit crimes, unreported crimes, and a perception by a large segment
of the public that some urban centers are unsafe or undesirable areas to visit or to inhabit after
normal working hours;

(3) That the development of additional and desirable residential units in these urban
centers that will attract and maintain a significant increase in the number of permanent residents
in these areas will help to alleviate the detrimental conditions and social liability that tend to
exist in the absence of a viable residential population and will help to achieve the planning
goals mandated by the growth management act under RCW 36.70A.020, including, but not
limited to, the encouragement of development in urban areas where adequate public facilities
and services exist or can be provided in an efficient manner, the reduction of sprawl, the
efficient utilization of multimode transportation systems, and the increased availability of
housing to all economic segments of the population of this state;

(4) That planning solutions to solve the problems of urban sprawl often lack incentive
and implementation techniques needed to encourage residential redevelopment in those urban
centers lacking sufficient residential opportunities, and it is in the public interest and will
benefit, provide, and promote the public health, safety, and welfare to stimulate new or
enhanced residential opportunities within urban centers through a tax incentive as provided by
this chapter; and

(5) That in order to maximize the purpose of this chapter to provide needed livable and
attractive places to live in urban centers and to achieve the objectives of the growth
management act, it is necessary to allow for the maximum participation by cities in determining
where the greatest need for increased residential opportunity exists within urban centers and the
location, configuration, and amenities of such residential redevelopment which will best meet
the objectives of this chapter and the growth management plan of a city adopted in
conformance with the growth management act.

NEW SECTION. Sec. 2. It is the purpose of this chapter to encourage increased
residential opportunities for individuals of all income levels in cities with a population of at
least one hundred fifty thousand that are required to plan or choose to plan under the growth
management act within urban centers where the legislative body of the affected city has found
there is insufficient housing opportunities, and that a particular residential development or
redevelopment is needed to properly advance the intent and purposes of this chapter. It is
further the purpose of this chapter to stimulate the construction of new multifamily housing and
the rehabilitation of existing vacant and underutilized buildings for multifamily housing in
urban centers having insufficient housing opportunities that will increase and improve
residential opportunities within these urban centers and that will assist in reducing urban
sprawl, locating housing close to work locations, promoting land use patterns that support and
encourage the use of public transit or other alternatives to automobile use and in making these
urban centers a place where more people can, and will, live. To achieve these purposes, this
chapter provides for special valuations for eligible improvements associated with multiunit
housing in residentially deficient urban centers.

NEW SECTION. Sec. 3. Unless the context clearly requires otherwise, the
definitions in this section apply throughout this chapter.

(1) "City" means a city with a population of at least one hundred fifty thousand located
in a county planning under the growth management act.

(2) "Governing authority" means the local legislative authority of a city having
jurisdiction over the property for which an exemption may be applied for under this chapter.

(3) "Growth management act" means chapter 36.70A RCW.

(4) "Multiple-unit housing" or "multifamily housing" means a building having four or
more dwelling units not designed or used as transient accommodations and not including hotels
and motels. Multifamily units may result from new construction or rehabilitated or conversion
of vacant, underutilized, or substandard buildings to multifamily housing. At least twenty
percent of the units may be set aside for households that earn no more than fifty percent of the
median income or forty percent of the units may be set aside for households who earn no more
than sixty percent of the median income, adjusted for household size.
(5) "Owner" means the property owner of record.

(6) "Permanent residential occupancy" means multiunit housing that provides either rental or owner occupancy on a nontransient basis. This includes owner-occupied or rental accommodation that is leased for a period of at least one month. This excludes hotels and motels that predominately offer rental accommodation on a daily or weekly basis.

(7) "Public benefit features" means amenities, uses, and other features of benefit to the public as may be locally designated. Examples include, but are not limited to, plazas, public open spaces, sidewalk surfacing, midblock connections, light standards, street level awnings, canopies or other weather protection features, street level retail uses, street furniture, pedestrian amenities, miniparks, tot lots, daycare centers, common meeting rooms, and other public amenities.

(8) "Rehabilitation improvements" means modifications made to existing structures that have been vacant for at least twelve months and failed to comply with one or more standards of the applicable state or local building or housing codes on or after the effective date of this section.

(9) "Residential targeted area" means an area within an urban center that has been designated by the governing authority as a residential targeted area in accordance with this chapter.

(10) "Substantial compliance" means compliance with local building or housing code requirements that are typically required for rehabilitation as opposed to new construction.

(11) "Urban center" means a compact identifiable district where urban residents may obtain a variety of products and services. An urban center must contain:
   
   (a) Several existing or previous, or both, business establishments that may include but are not limited to shops, offices, banks, restaurants, governmental agencies;
   
   (b) Adequate public facilities including streets, sidewalks, lighting, transit, domestic water, and sanitary sewer systems; and
   
   (c) A mixture of uses and activities that may include housing, recreation, and cultural activities in association with either commercial or office, or both, use.

NEW SECTION. Sec. 4. The provisions of this chapter relating to special valuation apply only to locally designated residential targeted areas of those cities planning under the growth management act.

NEW SECTION. Sec. 5. (1) The appraised value of new housing construction, conversion, rehabilitation improvements, and public benefit features qualifying under this chapter is exempt from ad valorem property taxation, for ten successive years beginning January 1 of the year immediately following the calendar year after issuance of the certificate of tax exemption eligibility. However, the exemption does not include the value of land or nonhousing-related improvements not qualifying under this chapter.

(2) In the case of rehabilitation of existing buildings, the exemption does not include the value of improvements constructed prior to the submission of the application required under this chapter. The incentive provided by this chapter is in addition to any other incentives, tax credits, grants, or other incentives provided by law.

(3) This chapter does not apply to increases in assessed valuation made by the assessor on nonqualifying portions of building and value of land nor to increases made by lawful order of a county board of equalization, the department of revenue, or a county, to a class of property throughout the county or specific area of the county to achieve the uniformity of assessment or appraisal required by law.

NEW SECTION. Sec. 6. An owner of property making application under this chapter must meet the following requirements:

(1) The new or rehabilitated multiple-unit housing must be located in a residential targeted area as designated by the city;

(2) The multiple-unit housing must meet the guidelines as adopted by the governing authority that may include height, density, public benefit features, number and size of proposed development, parking, design, and other adopted requirements indicated necessary by the city. The required amenities should be relative to the size of the project and tax benefit to be
obtained. The governing authority may determine design and other criteria necessary for the
new or rehabilitated multihousing unit to attract and keep permanent residents and to properly
enhance the appearance and livability of the residential targeted area in which it is to be
located;
(3) The new, converted, or rehabilitated multiple-unit housing must provide for a
minimum of fifty percent of the space for permanent residential occupancy. At least twenty
percent of the units may be set aside for households that earn no more than fifty percent of the
median income or forty percent of the units may be set aside for households who earn no more
than sixty percent of the median income, adjusted for household size;
(4) New construction of multifamily housing and rehabilitation improvements must be
completed within three years from the date of approval of the application;
(5) Property proposed to be rehabilitated must be vacant at least twelve months before
submitting an application and fail to comply with one or more standards of the applicable state
or local building or housing codes on or after the effective date of this section;
(6) The applicant must enter into a contract with the city approved by the governing
body under which the applicant has agreed to the implementation of the development on terms
and conditions satisfactory to the governing authority; and
(7) The applicant must not have received an exemption under this chapter for this
multiunit housing project.

NEW SECTION.  Sec.  7.  (1) The following criteria must be met before an area may
be designated as a residential targeted area:
(a) The area must be within an urban center, as determined by the governing authority;
(b) The area must lack, as determined by the governing authority, sufficient available,
desirable, and convenient residential housing for persons of all incomes to meet the needs of
the public who would be likely to live in the urban center, if the desirable, attractive, and
livable places to live were available; and
(c) The providing of additional housing opportunity in the area, as determined by the
governing authority, will assist in achieving one or more of the stated purposes of this chapter.
(2) For the purpose of designating a residential targeted area or areas, the governing
authority may adopt a resolution of intention to so designate an area as generally described in
the resolution. The resolution must state the time and place of a hearing to be held by the
governing authority to consider the designation of the area and may include such other
information pertaining to the designation of the area as the governing authority determines to
be appropriate to apprise the public of the action intended.
(3) The governing authority shall give notice of a hearing held under this chapter by
publication of the notice once each week for two consecutive weeks, not less than seven days,
nor more than thirty days before the date of the hearing in a paper having a general circulation
in the city where the proposed residential targeted area is located. The notice must state the
time, date, place, and purpose of the hearing and generally identify the area proposed to be
designated as a residential targeted area.
(4) Following the hearing, or a continuance of the hearing, the governing authority may
designate by resolution, all or a portion of the area described in the resolution of intent as a
residential targeted area if it finds, in its sole discretion, that the criteria in subsections (1)
through (3) of this section have been met.
(5) After designation of a residential targeted area, the governing authority shall adopt
standards and guidelines to be utilized in considering applications and making the
determinations required under section 9 of this act. The standards and guidelines must
establish basic requirements for both new construction and rehabilitation including application
process and procedures. These guidelines may include the following:
(a) Requirements that address demolition of existing structures and site utilization;
(b) Building design requirements that may include elements addressing aesthetics,
parking, height, density, environmental impact, public benefit features, and compatibility with
the existing surrounding property and such other amenities as will attract and keep permanent
residents and that will properly enhance the appearance and livability of the residential targeted
area in which they are to be located; and
(c) Provision for providing public benefit features and continued use of public facilities constructed.

NEW SECTION. Sec. 8. An owner of property seeking tax incentives under this chapter must complete the following procedures:

1. In the case of rehabilitation or where demolition or new construction is required, the owner shall secure from the governing authority or duly authorized agent, before commencement of rehabilitation improvements or new construction, verification of property noncompliance with applicable building and housing codes;

2. In the case of new and rehabilitated multifamily housing, the owner shall apply to the city on forms adopted by the governing authority. The application must contain the following:
   (a) Information setting forth the grounds supporting the requested exemption including information indicated on the application form or in the guidelines;
   (b) A description of the project and site plan, including location of public facilities, floor plan of units, and other information requested;
   (c) A statement that the applicant is aware of the potential tax liability involved when the property ceases to be eligible for the incentive provided under this chapter;
   (d) The application must be made on or before April 1 and must be accompanied by the application fee, if any, required under section 10 of this act. The governing authority may permit the applicant to revise an application before final action by the governing authority.

NEW SECTION. Sec. 9. The duly authorized administrative official or committee of the city may approve the application if it finds that:

1. The owner has agreed to include in the new construction or rehabilitation of housing one or more public benefit features;

2. A minimum of four units are being constructed or rehabilitated;

3. The proposed project is or will be, at the time of completion, in conformance with all local plans and regulations that apply at the time the application is approved;

4. The owner has complied with all standards and guidelines adopted by the city under this chapter;

5. The site is located in a residential targeted area of an urban center that has been designated by the governing authority in accordance with procedures and guidelines indicated in section 7 of this act.

NEW SECTION. Sec. 10. (1) The governing authority or an administrative official or commission authorized by the governing authority shall approve or deny an application filed under this chapter within ninety days after receipt of the application.

2. If the application is approved, the city shall issue the owner of the property a conditional certificate of acceptance of tax exemption. The certificate must contain a statement by a duly authorized administrative official of the governing authority that the property has complied with the required findings indicated in section 8 of this act.

3. If the application is denied by the authorized administrative official or commission authorized by the governing authority, the deciding administrative official or commission shall state in writing the reasons for denial and send the notice to the applicant at the applicant's last known address within ten days of the denial.

4. Upon denial by a duly authorized administrative official or commission, an applicant may appeal the denial to the governing authority within thirty days after receipt of the denial. The appeal before the governing authority will be based upon the record made before the administrative official with the burden of proof on the applicant to show that there was no substantial evidence to support the administrative official's decision. The decision of the governing body in denying or approving the application is final.

NEW SECTION. Sec. 11. The governing authority may establish an application fee. This fee may not exceed an amount determined to be required to cover the cost to be incurred by the governing authority and the assessor in administering this chapter. The application fee
must be paid at the time the application for limited exemption is filed. If the application is approved, the governing authority shall pay the application fee to the county assessor for deposit in the county current expense fund, after first deducting that portion of the fee attributable to its own administrative costs in processing the application. If the application is denied, the governing authority shall retain that portion of the application fee attributable to its own administrative costs and refund the balance to the applicant.

NEW SECTION. **Sec. 12.** (1) Upon completion of rehabilitation or new construction for which an application for limited exemption under this chapter has been approved and after issuance of the certificate of occupancy, the owner shall file with the city the following:

(a) A statement of the amount of rehabilitation or construction expenditures made with respect to each housing unit and the composite expenditures made in the rehabilitation or construction of the entire property;

(b) A description of the work that has been completed and a statement that the rehabilitation improvements or new construction on the owner’s property qualify the property for limited exemption under this chapter; and

(c) A statement that the work has been completed within three years of the issuance of the conditional certificate of tax exemption.

(2) Within thirty days after receipt of the statements required under subsection (1) of this section, the authorized representative of the city shall determine whether the work completed is consistent with the application and the contract approved by the governing authority and is qualified for limited exemption under this chapter. The city shall also determine which specific improvements completed meet the requirements and required findings.

(3) If the rehabilitation, conversion, or construction is completed within three years of the date the application for limited exemption is filed under this chapter, or within an authorized extension of this time limit, and the authorized representative of the city determines that improvements were constructed consistent with the application and other applicable requirements and the owner’s property is qualified for limited exemption under this chapter, the city shall file the certificate of tax exemption with the county assessor within ten days of the expiration of the thirty-day period provided under subsection (2) of this section. The county assessor shall determine the appraised value of the improvements eligible for the tax exemption under this chapter.

(4) The authorized representative of the city shall notify the applicant that a certificate of tax exemption is not going to be filed if the representative determines that:

(a) The rehabilitation or new construction was not completed within three years of the application date, or within any authorized extension of the time limit;

(b) The improvements were not constructed consistent with the application or other applicable requirements; or

(c) The owner’s property is otherwise not qualified for limited exemption under this chapter.

(5) If the authorized representative of the city finds that construction or rehabilitation of multiple-unit housing was not completed within the required time period due to circumstances beyond the control of the owner and that the owner has been acting and could reasonably be expected to act in good faith and with due diligence, the governing authority or the city official authorized by the governing authority may extend the deadline for completion of construction or rehabilitation for a period not to exceed twenty-four consecutive months.

(6) The governing authority may provide by ordinance for an appeal of a decision by the deciding officer or authority that an owner is not entitled to a certificate of tax exemption to the governing authority, a hearing examiner, or other city officer authorized by the governing authority to hear the appeal in accordance with such reasonable procedures and time periods as provided by ordinance of the governing authority. The owner may appeal a decision by the deciding officer or authority that is not subject to local appeal or a decision by the local appeal authority that the owner is not entitled to a certificate of tax exemption in superior court under RCW 34.05.510 through 34.05.598, if the appeal is filed within thirty days of notification by the city to the owner of the decision being challenged.
NEW SECTION. Sec. 13. (1) Within thirty days of the anniversary of the date of the certificate of tax exemption and each year for a period of ten years, the owner of the rehabilitated or newly constructed property shall file with a designated agent of the city an annual report indicating the following:
(a) A statement of occupancy and vacancy of the rehabilitated or newly constructed property during the previous twelve months ending with the anniversary date;
(b) A certification by the owner that the property has not changed use since the date of the certificate approved by the city;
(c) A certification that all public amenities and improvements are still available for use by the public;
(d) A description of changes or improvements constructed after issuance of the certificate of tax exemption; and
(e) For applicable projects, a certification of income eligibility for low-income tenants inhabiting the rehabilitated or newly constructed housing units during the previous twelve months.
(2) The designated agent of the city shall forward a copy of the annual report to the county assessor.

NEW SECTION. Sec. 14. (1) If improvements have been exempted under this chapter, the improvements continue to be exempted and not be converted to another use for at least ten years from date of issuance of the certificate of tax exemption. If the owner intends to convert the multifamily development to another use, the owner shall notify the assessor within sixty days of the change in use. If, after a certificate of tax exemption has been filed with the county assessor the city or assessor or agent discovers that a portion of the property is changed or will be changed to a use that is other than residential or that housing or amenities no longer meet the requirements as previously approved or agreed upon by contract between the governing authority and the owner and that the multifamily housing, or a portion of the housing, no longer qualifies for the exemption, the tax exemption must be canceled and the following must occur:
(a) Additional real property tax must be imposed upon the value of the nonqualifying improvements in the amount that would normally be imposed, plus a penalty amounting to twenty percent. The tax shall be imposed on the value of the improvement at the time the tax exemption certificate was issued. This additional tax is calculated based upon the difference between the property tax paid and the property tax that would have been paid if it had included the value of the nonqualifying improvements dated back to the date that the improvements were converted to a nonmultifamily use;
(b) The tax must include interest upon the amounts of the additional tax at the same statutory rate charged on delinquent property taxes from the dates on which the additional tax could have been paid without penalty if the improvements had been assessed at a value without regard to this chapter; and
(c) The additional tax owed together with interest and penalty must become a lien on the land and attach at the time the property or portion of the property is removed from multifamily use or the amenities no longer meet applicable requirements, and has priority to and must be fully paid and satisfied before a recognition, mortgage, judgment, debt, obligation, or responsibility to or with which the land may become charged or liable. The lien may be foreclosed upon expiration of the same period after delinquency and in the same manner provided by law for foreclosure of liens for delinquent real property taxes. An additional tax unpaid on its due date is delinquent. From the date of delinquency until paid, interest must be charged at the same rate applied by law to delinquent ad valorem property taxes.
(2) Upon a determination that a tax exemption is to be canceled for a reason stated in this section, the governing authority shall notify the record owner of the property as shown by the tax rolls by mail, return receipt requested, of the determination to cancel the exemption. The owner may appeal the determination to the governing authority within thirty days by filing a notice of appeal with the clerk of the governing authority, which notice must specify the factual and legal basis on which the determination of cancellation is alleged to be erroneous. The governing authority or a hearing examiner or other official authorized by the governing
authority may hear the appeal. At the hearing, all interested parties may be heard and all
competent evidence received. After the hearing, the deciding body or officer shall either
affirm, modify, or repeal the decision of cancellation of exemption based on the evidence
received. An aggrieved party may appeal the decision of the deciding body or officer to the
superior court under RCW 34.05.510 through 34.05.598.

(3) Upon determination by the governing authority or authorized representative to
terminate an exemption, the county officials having possession of the assessment and tax rolls
shall correct the rolls in the manner provided for omitted property under RCW 84.40.080. The
county assessor shall make such a valuation of the property and improvements as is necessary
to permit the correction of the rolls. The owner may appeal the valuation to the county board
of equalization under chapter 84.48 RCW. If there has been a failure to comply with this
chapter, the property must be listed as an omitted assessment for assessment years beginning
January 1 of the calendar year in which the noncompliance first occurred, but the listing as an
omitted assessment may not be for a period more than three calendar years preceding the year
in which the failure to comply was discovered.

NEW SECTION. Sec. 15. If any provision of this act or its application to any person
or circumstance is held invalid, the remainder of the act or the application of the provision to
other persons or circumstances is not affected.

NEW SECTION. Sec. 16. Sections 1 through 15 of this act shall constitute a new
chapter in Title 84 RCW."

E2SSB 5448 Prime Sponsor, Committee on Ways & Means: Modifying provisions for public water system regulation. Reported by Committee on Appropriations

MAJORITY recommendation: Do pass with the following amendment by Committee on Agriculture & Ecology:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that:
(1) Protection of the state’s water resources, and utilization of such resources for provision of public water supplies, requires more efficient and effective management than is currently provided under state law;
(2) The provision of public water supplies to the people of the state should be undertaken in a manner that is consistent with the planning principles of the growth management act and the comprehensive plans adopted by local governments under the growth management act;
(3) Small water systems have inherent difficulties with proper planning, operation, financing, management and maintenance. The ability of such systems to provide safe and reliable supplies to their customers on a long-term basis needs to be assured through proper management and training of operators;
(4) New water quality standards and operational requirements for public water systems will soon generate higher rates for the customers of those systems, which may be difficult for
customers to afford to pay. It is in the best interest of the people of this state that small systems maintain themselves in a financially viable condition;

(5) County governments are ultimately responsible to act as receivers of any failing water systems within their jurisdictions;

(6) The drinking water 2000 task force has recommended maintaining a strong and properly funded state-wide drinking water program, retaining primary responsibility for administering the federal safe drinking water act in Washington. The task force has further recommended delegation of as many water system regulatory functions as possible to local governments, with provision of adequate resources and elimination of barriers to such delegation. In order to achieve these objectives, the state should provide adequate future funding from both general state funds and funding directly from the regulated water system;

(7) The public health services improvement plan recommends that the principal public health functions in Washington, including regulation of public water systems, should be undertaken by local jurisdictions with the capacity to perform them; and

(8) State government, local governments, water suppliers, and other interested parties should work for continuing economic growth of the state by maximizing the use of existing water supply management alternatives, including regional water systems, satellite management, and coordinated water system development.

Sec. 2. RCW 70.116.060 and 1977 ex.s.c 142 s 6 are each amended to read as follows:

(1) A coordinated water system plan shall be submitted to the secretary for design approval within two years of the establishment of the boundaries of a critical water supply service area.

(2) The secretary shall review the coordinated water system plan and, to the extent the plan is consistent with the requirements of this chapter and regulations adopted hereunder, shall approve the plan, provided that the secretary shall not approve those portions of a coordinated water system plan (which) fail to meet the requirements for future service area boundaries until any boundary dispute is resolved as set forth in RCW 70.116.070.

(3) Following the approval of a coordinated water system plan by the secretary:
   (a) All purveyors constructing or proposing to construct public water system facilities within the area covered by the plan shall comply with the plan.
   (b) No other purveyor shall establish a public water system within the area covered by the plan, unless the local legislative authority determines that existing purveyors are unable to provide the service in a timely and reasonable manner, pursuant to guidelines developed by the secretary. An existing purveyor is unable to provide the service in a timely manner if the water cannot be provided to an applicant for water within one hundred twenty days. If such a determination is made, the local legislative authority shall require the new public water system to be constructed in accordance with the construction standards and specifications embodied in the coordinated water system plan approved for the area. The service area boundaries in the coordinated plan for the affected utilities shall be revised to reflect the decision of the local legislative authority.
   (4) The secretary may deny proposals to establish or to expand any public water system within a critical water supply service area for which there is not an approved coordinated water system plan at any time after two years of the establishment of the critical water supply service area: PROVIDED, That service connections shall not be considered expansions.
   (5) The affected legislative authorities may develop and utilize a mechanism for addressing disputes that arise in the implementation of the coordinated water system plan after the plan has been approved by the secretary.
   (6) After adoption of the initial coordinated water system plan, the local legislative authority or the secretary may determine that the plan should be updated or revised. The legislative authority may initiate an update at any time, but the secretary may initiate an update no more frequently than once every five years. The update may encompass all or a portion of the plan, with the scope of the update to be determined by the secretary and the legislative authority. The process for the update shall be the one prescribed in RCW 70.116.050.
The provisions of subsection (3) of this section shall not apply in any county for which a coordinated water system plan has not been approved under subsection (2) of this section.

Sec. 3. RCW 70.119A.060 and 1991 c 304 s 4 are each amended to read as follows:

(1) In order to assure safe and reliable public drinking water and to protect the public health, public water systems shall:
   (a) Protect the water sources used for drinking water;
   (b) Provide treatment adequate to assure that the public health is protected;
   (c) Provide and effectively operate and maintain public water system facilities;
   (d) Plan for future growth and assure the availability of safe and reliable drinking water;
   (e) Provide the department with the current names, addresses, and telephone numbers of the owners, operators, and emergency contact persons for the system, including any changes to this information, and provide to users the name and twenty-four hour telephone number of an emergency contact person; and
   (f) Take whatever investigative or corrective action is necessary to assure that a safe and reliable drinking water supply is continuously available to users.

(2) No new public water system may be approved or created unless: (a) It is owned or operated by a satellite system management agency established under RCW 70.116.134 and the satellite system management system complies with financial viability requirements of the department; or (b) a satellite management system is not available and it is determined that the new system has sufficient management and financial resources to provide safe and reliable service. The approval of any new system that is not owned by a satellite system management agency shall be conditioned upon future connection to another system if such connection may be made with reasonable economy and efficiency, or upon periodic review of the system’s operational history to determine its ability to meet the department’s financial viability and other operating requirements. The department and local health jurisdictions shall enforce this requirement under authority provided under this chapter, chapter 70.116, or 70.05 RCW, or other authority governing the approval of new water systems by the department or a local jurisdiction.

(3) The department and local health jurisdictions shall carry out the rules and regulations of the state board of health adopted pursuant to RCW 43.20.050(2)(a) and other rules adopted by the department relating to public water systems.

NEW SECTION. Sec. 4. A new section is added to chapter 70.119A RCW to read as follows:

The department shall create a water supply advisory committee. Membership on the committee shall reflect a broad range of interests in the regulation of public water supplies, including water utilities of all sizes, local governments, business groups, special purpose districts, local health jurisdictions, other state and federal agencies, financial institutions, environmental organizations, the legislature, and other groups substantially affected by the department’s role in implementing state and federal requirements for public water systems. Members shall be appointed for fixed terms of no less than two years, and may be reappointed. Any members of an existing advisory committee to the drinking water program may remain as members of the water supply advisory committee. The committee shall provide advice to the department on the organization, functions, service delivery methods, and funding of the drinking water program. The committee shall also review the adequacy and necessity of the current and prospective funding for the drinking water program, and the results of the committees’ review shall be forwarded to the department for inclusion in a report to the appropriate standing committees of the legislature no later than November 1, 1996. The report shall include a discussion of the extent to which the drinking water program has progressed toward achieving the objectives of the public health improvement plan, and an assessment of any changes to the program necessitated by modifications to the federal safe drinking water act.

Sec. 5. RCW 82.16.020 and 1989 c 302 s 204 are each amended to read as follows:
There is levied and there shall be collected from every person a tax for the act or privilege of engaging within this state in any one or more of the businesses herein mentioned. The tax shall be equal to the gross income of the business, multiplied by the rate set out after the business, as follows:

(a) Railroad, express, railroad car, sewerage collection, and telegraph businesses: Three and six-tenths percent;
(b) Light and power business: Three and sixty-two one-hundredths percent;
(c) Gas distribution business: Three and six-tenths percent;
(d) Urban transportation business: Six-tenths of one percent;
(e) Vessels under sixty-five feet in length, except tugboats, operating upon the waters within the state: Six-tenths of one percent;
(f) Motor transportation and tugboat businesses, and all public service businesses other than ones mentioned above: One and eight-tenths of one percent;
(g) Water distribution business: Four and seven-tenths percent.

An additional tax is imposed equal to the rate specified in RCW 82.02.030 multiplied by the tax payable under subsection (1) of this section.

Twenty percent of the moneys collected under subsection (1) of this section on water distribution businesses and sixty percent of the moneys collected under subsection (1) of this section on sewerage collection businesses shall be deposited in the public works assistance account created in RCW 43.155.050.

Fifteen percent of the moneys collected under subsection (1) of this section on water distribution businesses shall be deposited in the safe drinking water account created in RCW 70.119A.120.

Sec. 6. RCW 70.119.020 and 1991 c 305 s 2 are each amended to read as follows:

As used in this chapter unless context requires another meaning:

(1) "Board" means the board established pursuant to RCW 70.95B.070 which shall be known as the water and waste water operator certification board of examiners.

(2) "Certificate" means a certificate of competency issued by the secretary stating that the operator has met the requirements for the specified operator classification of the certification program.

(3) "Certified operator" means an individual holding a valid certificate and employed or appointed by any county, water district, municipality, public or private corporation, company, institution, person, or the state of Washington and who is designated by the employing or appointing officials as the person responsible for active daily technical operation.

(4) "Department" means the department of health.

(5) "Distribution system" means that portion of a public water system which stores, transmits, pumps and distributes water to consumers.

(6) "Ground water under the direct influence of surface water" means any water beneath the surface of the ground with:

(a) Significant occurrence of insects or other microorganisms, algae, or large diameter pathogens such as giardia lamblia; or
(b) Significant and relatively rapid shifts in water characteristics such as turbidity, temperature, conductivity, or pH which closely correlate to climatological or surface water conditions.

(7) "Group A water system" means a system with fifteen or more service connections, regardless of the number of people; or a system serving an average of twenty-five or more people per day for sixty or more days within a calendar year, regardless of the number of service connections. Group A water system does not include a system serving fewer than fifteen single-family residences, regardless of the number of people.

(8) "Nationally recognized association of certification authorities" shall mean an organization which serves as an information center for certification activities, recommends minimum standards and guidelines for classification of potable water treatment plants, water distribution systems and waste water facilities and certification of operators, facilitates reciprocity between state programs and assists authorities in establishing new certification programs and updating existing ones.
"Public water system" means any system, excluding a system serving only one single-family residence and a system with four or fewer connections all of which serve residences on the same farm, providing piped water for human consumption or domestic use, including any collection, treatment, storage, or distribution facilities under control of the purveyor and used primarily in connection with the system; and collection or pretreatment storage facilities not under control of the purveyor but primarily used in connection with the system.

"Purification plant" means that portion of a public water system which treats or improves the physical, chemical or bacteriological quality of the system’s water to bring the water into compliance with state board of health standards.

Sec. 7. RCW 70.119.030 and 1991 c 305 s 3 are each amended to read as follows:

(1) A public water system shall have a certified operator if:
   (a) It is a group A water system; or
   (b) It is a public water system using a surface water source or a ground water source under the direct influence of surface water.

(2) The certified operators shall be in charge of the technical direction of a water system’s operation, or an operating shift of such a system, or a major segment of a system necessary for monitoring or improving the quality of water. The operator shall be certified as provided in RCW 70.119.050.

(3) A certified operator may provide required services to more than one system or to a group of systems. The amount of time that a certified operator shall be required to be present at any given system shall be based upon the time required to properly operate and maintain the public water system as designed and constructed in accordance with RCW 43.20.050. The employing or appointing officials shall designate the position or positions requiring mandatory certification within their individual systems and shall assure that such certified operators are responsible for the system’s technical operation.

(4) The department shall, in establishing by rule or otherwise the requirements for public water systems with fewer than one hundred connections, phase in such requirements in order to assure that (a) an adequate number of certified operators are available to serve the additional systems, (b) the systems have adequate notice and time to plan for securing the services of a certified operator, (c) the department has the additional data and other administrative capacity, (d) adequate training is available to certify additional operators as necessary, and (e) any additional requirements under federal law are satisfied. The department shall waive the requirement for a certified operator for a system with fewer than one hundred connections if that system satisfactorily demonstrates to the department that: It has not had a significant number of violations of any monitoring or water quality standards; it otherwise meets the requirements of the department with regard to adequacy and financial viability; and it does not have, or is not required to have, any water treatment facilities. The waiver shall only be valid while the system meets these requirements.

(5) Operators not required to be certified by this chapter are encouraged to become certified on a voluntary basis.

Sec. 8. RCW 70.116.050 and 1977 ex.s. c 142 s 5 are each amended to read as follows:

(1) Each purveyor within the boundaries of a critical water supply service area shall develop a water system plan for the purveyor’s future service area if such a plan has not already been developed: PROVIDED, That nonmunicipally owned public water systems are exempt from the planning requirements of this chapter, except for the establishment of service area boundaries if they((:–(a) Were in existence as of September 21, 1977; and (b)) have no
plans for water service beyond their existing service area((, and (c) meet minimum quality and pressure design criteria established by the state board of health)): PROVIDED FURTHER, That if the county legislative authority permits a change in development that will increase the demand for water service of such a system beyond the existing system’s ability to provide minimum water service, the purveyor shall develop a water system plan in accordance with this section. The establishment of future service area boundaries shall be in accordance with RCW 70.116.070.

(2) After the boundaries of a critical water supply service area have been established pursuant to RCW 70.116.040, the committee established in RCW 70.116.040 shall participate in the development of a coordinated water system plan for the designated area. Such a plan shall incorporate all water system plans developed pursuant to subsection (1) of this section. The plan shall provide for maximum integration and coordination of public water system facilities consistent with the protection and enhancement of the public health and well-being. Decisions of the committee shall be by majority vote of those present at meetings of the committee.

(3) Those portions of a critical water supply service area not yet served by a public water system shall have a coordinated water system plan developed by existing purveyors based upon permitted densities in county plans, ordinances, and/or growth policies for a minimum of five years beyond the date of establishment of the boundaries of the critical water supply service area.

(4) To insure that the plan incorporates the proper designs to protect public health, the secretary shall adopt regulations pursuant to chapter 34.05 RCW concerning the scope and content of coordinated water system plans, and shall ensure, as minimum requirements, that such plans:
   (a) Are reviewed by the appropriate local governmental agency to insure that the plan is not inconsistent with the land use plans, shoreline master programs, and/or developmental policies of the general purpose local government or governments whose jurisdiction the water system plan affects.
   (b) Recognize all water resource plans, water quality plans, and water pollution control plans which have been adopted by units of local, regional, and state government.
   (c) Incorporate the fire protection standards developed pursuant to RCW 70.116.080.
   (d) Identify the future service area boundaries of the public water system or systems included in the plan within the critical water supply service area.
   (e) Identify feasible emergency inter-ties between adjacent purveyors.
   (f) Include satellite system management requirements consistent with RCW 70.116.134.
   (g) Include policies and procedures that generally address failing water systems for which counties may become responsible under RCW 43.70.195.

(5) If a “water general plan” for a critical water supply service area or portion thereof has been prepared pursuant to chapter 36.94 RCW and such a plan meets the requirements of subsections (1) and (4) of this section, such a plan shall constitute the coordinated water system plan for the applicable geographical area.

(6) The committee established in RCW 70.116.040 may develop and utilize a mechanism for addressing disputes that arise in the development of the coordinated water system plan.

(7) Prior to the submission of a coordinated water system plan to the secretary for approval ((of the design of the proposed facilities)) pursuant to RCW 70.116.060, ((the plan shall be reviewed for consistency with subsection (4) of this section by)) the legislative authorities of the counties in which the critical water supply service area is located shall hold a public hearing thereon and shall determine the plan’s consistency with subsection (4) of this section. If within sixty days of receipt of the plan, the legislative authorities find any segment of a proposed service area of a purveyor’s plan or any segment of the coordinated water system plan to be inconsistent with any current land use plans, shoreline master programs, and/or developmental policies of the general purpose local government or governments whose jurisdiction the water system plan affects, the secretary shall not approve that portion of the plan until the inconsistency is resolved between the local government and the purveyor. If no
comments have been received from the legislative authorities within sixty days of receipt of the plan, the secretary may consider the plan for approval.

(8) Any county legislative authority may adopt an abbreviated plan for the provision of water supplies within its boundaries that includes provisions for service area boundaries, minimum design criteria, and review process. The elements of the abbreviated plan shall conform to the criteria established by the department under subsection (4) of this section and shall otherwise be consistent with other adopted land use and resource plans. The county legislative authority may, in lieu of the committee required under RCW 70.116.040, and the procedures authorized in this section, utilize an advisory committee that is representative of the water utilities and local governments within its jurisdiction to assist in the preparation of the abbreviated plan, which may be adopted by resolution and submitted to the secretary for approval. Purveyors within the boundaries covered by the abbreviated plan need not develop a water system plan, except to the extent required by the secretary or state board of health under other authority. Any abbreviated plan adopted by a county legislative authority pursuant to this subsection shall be subject to the same provisions contained in RCW 70.116.060 for coordinated water system plans that are approved by the secretary.

Sec. 9. RCW 70.119A.040 and 1993 c 305 s 2 are each amended to read as follows:

(1)(a) In addition to or as an alternative to any other penalty or action allowed by law, a person who violates a law or rule regulating public water systems and administered by the department of health is subject to a penalty of not more than five thousand dollars per day for every such violation, or, in the case of a violation that has been determined to be a public health emergency, a penalty of not more than ten thousand dollars per day for every such violation. Every such violation shall be a separate and distinct offense. The amount of fine shall reflect the health significance of the violation and the previous record of compliance on the part of the public water supplier. In case of continuing violation, every day’s continuance shall be a separate and distinct violation.

(b) In addition, a person who constructs, modifies, or expands a public water system or who commences the construction, modification, or expansion of a public water system without first obtaining the required departmental approval is subject to penalties of not more than five thousand dollars per service connection, or, in the case of a system serving a transient population, a penalty of not more than four hundred dollars per person based on the highest average daily population the system serves or is anticipated to serve. The total penalty that may be imposed pursuant to this subsection (1)(b) is five hundred thousand dollars, except that the total penalty may not exceed one thousand dollars if the public water system has less than one thousand connections and an attempt was first made to secure departmental approval for modification or expansion of the system. For the purpose of computing the penalty under this subsection, a service connection shall include any new service connection actually constructed, any anticipated service connection the system has been designed to serve, and, in the case of a system modification not involving expansions, each existing service connection that benefits or would benefit from the modification.

(c) Every person who, through an act of commission or omission, procures, aids, or abets a violation is considered to have violated the provisions of this section and is subject to the penalty provided in this section.

(2) The penalty provided for in this section shall be imposed by a notice in writing to the person against whom the civil penalty is assessed and shall describe the violation. The notice shall be personally served in the manner of service of a summons in a civil action or in a manner that shows proof of receipt. A penalty imposed by this section is due twenty-eight days after receipt of notice unless application for an adjudicative proceeding is filed as provided in subsection (3) of this section.

(3) Within twenty-eight days after notice is received, the person incurring the penalty may file an application for an adjudicative proceeding and may pursue subsequent review as provided in chapter 34.05 RCW and applicable rules of the department or board of health.

(4) A penalty imposed by a final administrative order is due upon service of the final administrative order. A person who fails to pay a penalty assessed by a final administrative order within thirty days of service of the final administrative order shall pay, in addition to the amount of the penalty, interest at the rate of one percent of the unpaid balance of the assessed penalty.
penalty for each month or part of a month that the penalty remains unpaid, commencing with
the month in which the notice of penalty was served and such reasonable attorney’s fees as are
incurred in securing the final administrative order.

(5) A person who institutes proceedings for judicial review of a final administrative
order assessing a civil penalty under this chapter shall place the full amount of the penalty in an
interest bearing account in the registry of the reviewing court. At the conclusion of the
proceeding the court shall, as appropriate, enter a judgment on behalf of the department and
order that the judgment be satisfied to the extent possible from moneys paid into the registry of
the court or shall enter a judgment in favor of the person appealing the penalty assessment and
order return of the moneys paid into the registry of the court together with accrued interest to
the person appealing. The judgment may award reasonable attorney’s fees for the cost of the
attorney general’s office in representing the department.

(6) If no appeal is taken from a final administrative order assessing a civil penalty
under this chapter, the department may file a certified copy of the final administrative order
with the clerk of the superior court in which the public water system is located or in Thurston
county, and the clerk shall enter judgment in the name of the department and in the amount of
the penalty assessed in the final administrative order.

(7) A judgment entered under subsection (5) or (6) of this section shall have the same
force and effect as, and is subject to all of the provisions of law relating to, a judgment in a
civil action, and may be enforced in the same manner as any other judgment of the court in
which it is entered.

(8) All penalties imposed under this section shall be payable to the state treasury and
credited to the ((general fund)) safe drinking water account, and shall be used by the
department to provide training and technical assistance to system owners and operators.

(9) Except in cases of public health emergencies, the department may not impose
monetary penalties under this section unless a prior effort has been made to resolve the
violation informally.

Sec. 10. RCW 70.119A.130 and 1991 c 304 s 7 are each amended to read as follows:

((Until July 1, 1996, local governments shall be prohibited from administering a
separate operating permit requirement for public water systems. After July 1, 1996,)) Local
governments may establish separate operating permit requirements for public water systems
provided the operating permit requirements have been approved by the department. The
department shall not approve local operating permit requirements unless the local system will
result in an increased level of service to the public water system. There shall not be duplicate
operating permit requirements imposed by local governments and the department.

NEW SECTION. Sec. 11. A new section is added to chapter 70.119A RCW to read
as follows:

A drinking water assistance account is created in the state treasury. The purpose of the
account is to allow the state to take advantage of any federal funds that become available for
safe drinking water. Expenditures from the account may only be made by the secretary or the
public works board after appropriation. Moneys in the account may only be used to assist
water systems to provide safe drinking water.

Sec. 12. RCW 80.04.110 and 1991 c 134 s 1 and 1991 c 100 s 2 are each reenacted
and amended to read as follows:

(1) Complaint may be made by the commission of its own motion or by any person or
corporation, chamber of commerce, board of trade, or any commercial, mercantile,
agricultural or manufacturing society, or any body politic or municipal corporation, or by the
public counsel section of the office of the attorney general, or its successor, by petition or
complaint in writing, setting forth any act or thing done or omitted to be done by any public
service corporation in violation, or claimed to be in violation, of any provision of law or of any
order or rule of the commission: PROVIDED, That no complaint shall be entertained by the
commission except upon its own motion, as to the reasonableness of the schedule of the rates or
charges of any gas company, electrical company, water company, or telecommunications
company, unless the same be signed by the mayor, council or commission of the city or town
in which the company complained of is engaged in business, or not less than twenty-five consumers or purchasers of such gas, electricity, water or telecommunications service, or at least twenty-five percent of the consumers or purchasers of the company's service: PROVIDED, FURTHER, That when two or more public service corporations, (meaning to exclude municipal and other public corporations) are engaged in competition in any locality or localities in the state, either may make complaint against the other or others that the rates, charges, rules, regulations or practices of such other or others with or in respect to which the complainant is in competition, are unreasonable, unremunerative, discriminatory, illegal, unfair or intending or tending to oppress the complainant, to stifle competition, or to create or encourage the creation of monopoly, and upon such complaint or upon complaint of the commission upon its own motion, the commission shall have power, after notice and hearing as in other cases, to, by its order, subject to appeal as in other cases, correct the abuse complained of by establishing such uniform rates, charges, rules, regulations or practices in lieu of those complained of, to be observed by all of such competing public service corporations in the locality or localities specified as shall be found reasonable, remunerative, nondiscriminatory, legal, and fair or tending to prevent oppression or monopoly or to encourage competition, and upon any such hearing it shall be proper for the commission to take into consideration the rates, charges, rules, regulations and practices of the public service corporation or corporations complained of in any other locality or localities in the state.

(2) All matters upon which complaint may be founded may be joined in one hearing, and no motion shall be entertained against a complaint for misjoinder of complaints or grievances or joinder of parties; and in any review of the courts of orders of the commission the same rule shall apply and pertain with regard to the joinder of complaints and parties as herein provided. PROVIDED, All grievances to be inquired into shall be plainly set forth in the complaint. No complaint shall be dismissed because of the absence of direct damage to the complainant.

(3) Upon the filing of a complaint, the commission shall cause a copy thereof to be served upon the person or corporation complained of, which shall be accompanied by a notice fixing the time when and place where a hearing will be had upon such complaint. The time fixed for such hearing shall not be less than ten days after the date of the service of such notice and complaint, excepting as herein provided. The commission shall enter its final order with respect to a complaint filed by any entity or person other than the commission within ten months from the date of filing of the complaint, unless the date is extended for cause. Rules of practice and procedure not otherwise provided for in this title may be prescribed by the commission. Such rules may include the requirement that a complainant use informal processes before filing a formal complaint.

(4) The commission shall, as appropriate, audit a nonmunicipal water system upon receipt of an administrative order from the department, or the city or county in which the water system is located, finding that the water delivered by a system does not meet state board of health standards adopted under RCW 43.20.050(2)(a) or standards adopted under chapters 70.116 and 70.119A RCW, and the results of the audit shall be provided to the requesting department, city, or county. However, the number of nonmunicipal water systems referred to the commission in any one calendar year shall not exceed twenty percent of the water companies subject to commission regulation as defined in RCW 80.04.010.

Every nonmunicipal water system referred to the commission for audit under this section shall pay to the commission an audit fee in an amount, based on the system's twelve-month audited period, equal to the fee required to be paid by regulated companies under RCW 80.24.010.

(5) Any customer or purchaser of service from a water system or company that is subject to commission regulation may file a complaint with the commission if he or she has reason to believe that the water delivered by the system to the customer does not meet state drinking water standards under chapter 43.20 or 70.116 RCW. The commission shall investigate such a complaint, and shall request that the state department of health or local health department of the county in which the system is located test the water for compliance with state drinking water standards, and provide the results of such testing to the commission. The commission may decide not to investigate the complaint if it determines that the complaint has been filed in bad faith, or for the purpose of harassment of the water system or company, or
for other reasons has no substantial merit. The water system or company shall bear the expense for the testing. After the commission has received the complaint from the customer and during the pendency of the commission investigation, the water system or company shall not take any steps to terminate service to the customer or to collect any amounts alleged to be owed to the company by the customer. The commission may issue an order or take any other action to ensure that no such steps are taken by the system or company. The customer may, at the customer's option and expense, obtain a water quality test by a licensed or otherwise qualified water testing laboratory, of the water delivered to the customer by the water system or company, and provide the results of such a test to the commission. If the commission determines that the water does not meet state drinking water standards, it shall exercise its authority over the system or company as provided in this title, and may, where appropriate, order a refund to the customer on a pro rata basis for the substandard water delivered to the customer, and shall order reimbursement to the customer for the cost incurred by the customer, if any, in obtaining a water quality test.

Sec. 13. RCW 70.116.070 and 1977 ex.s. c 142 s 7 are each amended to read as follows:

(1) The proposed service area boundaries of public water systems within the critical water supply service area that are required to submit water system plans under this chapter shall be ((determined by written agreement among the purveyors and with the approval of the appropriate legislative authority. Failure of the legislative authority to file with the secretary objections to the proposed service area boundaries within sixty days of receipt of the proposed boundary agreement may be construed as approval of the agreement)) identified in the system's plan. The local legislative authority, or its planning department or other designee, shall review the proposed boundaries to determine whether the proposed boundaries of one or more systems overlap. The boundaries determined by the local legislative authority not to overlap shall be incorporated into the coordinated water system plan. Where any overlap exists, the local legislative authority may attempt to resolve the conflict through procedures established under RCW 70.116.060(5).

(2) (((If no service area boundary agreement has been established within a reasonable period of time, or if the legislative authority has filed with the secretary objections in writing as provided in subsection (1) of this section)) Any final decision by a local legislative authority regarding overlapping service areas, or any unresolved disputes regarding service area boundaries, may be appealed or referred to the secretary in writing for resolution. After receipt of an appeal or referral, the secretary shall hold a public hearing thereon. The secretary shall provide notice of the hearing by certified mail to each purveyor ((providing service in the critical water supply service area)) involved in the dispute, to each county legislative authority having jurisdiction in the area and to the public. The secretary shall provide public notice pursuant to the provisions of chapter 65.16 RCW. Such notice shall be given at least twenty days prior to the hearing. The hearing may be continued from time to time and, at the termination thereof, the secretary may restrict the expansion of service of any purveyor within the area if the secretary finds such restriction is necessary to provide the greatest protection of the public health and well-being.

NEW SECTION. Sec. 14. Section 10 of this act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1995."

Moneys shall be distributed under this subsection (1)(a) ratably based on population as last determined by the office of financial management, but no city may receive more than one dollar per capita. Allocation of funds shall be in proportion to the population of qualified jurisdictions, but the distribution to a city shall not exceed the amount of funds requested. Cities shall submit requests for program funding to the department of community, trade, and economic development by November 1 of each year for funding the following year. The department shall certify to the state treasurer the cities eligible for funding under this subsection and the amount of each allocation.

POINT OF ORDER

Representative Romero: Thank you Mr. Speaker. I would request a ruling on the scope and object of the amendment.

SPEAKER'S RULING

Representative Romero, the Speaker is prepared to Rule on your Point of Order which challenges amendment 643 as being beyond the Scope and Object of Senate Bill No. 5668.

POINT OF PERSONAL PRIVILEGE

Representative Jacobsen: Thank you Mr. Speaker. Reverend Armstrong has left but I did want to make a comment to the body that I did appreciate the fact that he did an ecumenical invocation. And perhaps I’m a little bit more sensitive to this issue than some of the other people, it happens that my wife is Jewish, and I have two daughters. And they’re constantly pointing out to me minor slights, and I think it’s more a manner of not being aware of it. But there’s a lot of people that live in this state and they’re from all different religions.

And I really think what we should do in here is with innovations is focus on non sectarian invocations and show that we are considerate of all peoples and all their faiths. And I suppose I should close with what Lincoln said one time, He didn’t care what religion you were but he said, ” Be the best”, and that’s the kind of thing we need to look at in this body. And I really did appreciate the invocation this morning. Thank you alot, Reverend Armstrong.
The Speaker assumed the chair.

Once designated, mineral resource uses, including operations as defined in RCW 78.44.031, shall be established as an allowed use in local development regulations.

The county, city, or town shall designate mineral resource deposits, both active and inactive, in economically viable proximity to locations where the deposits are likely to be used.

Through its comprehensive plan and development regulations, as defined in RCW 36.70A.030, the county, city, or town shall discourage the siting of incompatible uses adjacent to mineral resource industries, deposits, and holdings.

For the purposes of this section, "long-term commercial significance" includes the mineral composition of the land for long-term economically viable commercial production, in consideration with the mineral resource land’s proximity to population areas, product markets, and the possibility of more intense uses of the land."

POINT OF ORDER

Representative Carlson: Thank you Mr. Speaker. I would request a ruling on the scope and object of the amendment.

SPEAKER’S RULING

"Representative Carlson, the Speaker is prepared to Rule on your Point of Order which challenges Amendment 660 to Senate Bill No. 5120 as being beyond the Scope and Object of the bill.  The title of Senate Bill No. 5120 is "AN ACT Relating to death benefits under the law enforcement officers’ and fire fighters’ retirement system."

"The title is very broad.  The bill amends two sections in chapter 41.26 RCW.  The bill adds an additional election under certain circumstances for persons having an insurable interest in the member’s life to be paid a set percentage of the member’s accumulated contributions less certain amounts.  The bill also provides that accumulated contributions attributable to certain restorations be refunded at a set percentage.

"Amendment 660 to Senate Bill No. 5120 would add a new section to chapter 41.04 RCW that would grant a cash death benefit award to be funded in an omnibus appropriations bill and expressly prohibits such award from being paid out of any retirement funds under the administration of the department of retirement systems.

"The object of the bill is to provide for certain distributions from funds already paid into a member’s retirement system.  Amendment 660 awards certain cash grants that would require an appropriation.

"Although this amendment is within the scope of the title of Senate Bill No. 5120, the amendment goes beyond the object of the bill.

"The Speaker finds that Amendment 660 is beyond the scope and object of the bill.

"Representative Carlson, Your Point of Order is well taken."

Representative Lisk: The department has agreed with the business community to adopt a different approach to crediting third-party reimbursements. The current approach is "after-the-fact"
and employers often do not receive timely credits in their experience rating accounts. With the statutory restriction removed, the department will develop a prospective crediting method that will give employers “up-front” credit when a reimbursement is anticipated. Under no circumstances, will the department eliminate the crediting process for employers’ experience rating accounts.

"NEW SECTION. Sec. 1. The legislature finds that in the early 1900's and up through the 1930's, counties took possession of a number of forest land parcels as a result of tax delinquencies. In many cases, the timber had already been harvested from these lands prior to the forfeiture of the property to the counties. Since that time, the department of natural resources has reforested and managed these lands in conjunction with state trust lands. Given changes in forest practices, fluctuation in income from the forest board lands, and questions about forest board land management by the department of natural resources, the legislature finds that a legislative study of forest board lands is appropriate.

There is created a joint select committee on county forest board lands. The committee shall be comprised of eight members of the legislature, who shall be appointed to the committee as follows: the president of the senate shall appoint two members, one from each caucus, to represent the senate natural resources committee, and two members, one from each caucus, to represent the senate ways and means committee; the speaker of the house of representatives shall appoint two members, one from each caucus, to represent the house natural resources committee, and two members, one from each caucus, to represent the house capital budget committee. In conducting this study, the committee shall seek input from the department of natural resources, counties with forest board transfer lands, and Grays Harbor county, which manages its own county forest lands. Staff support for the committee shall be provided by senate committee services and the house office of program research."

(4) A Dungeness crab—coastal class B fishery license is not transferable. Such a license shall be issued to persons who do not meet the qualification criteria for a Dungeness crab—coastal fishery license, if the person has designated on a qualifying license after December 31, 1993, a vessel or replacement vessel that, singly or in combination, made a minimum of four landings totaling a minimum of two thousand pounds of coastal crab, documented by valid Washington state shellfish receiving tickets, during at least one of the four qualifying seasons, and if the person has participated continuously in the coastal crab fishery by having held or by having owned a vessel that held one or more of the licenses listed in subsection (2) of this section in each calendar year subsequent to the qualifying season in which qualifying landings were made through 1994. Dungeness crab—coastal class B fishery licenses cease to exist after December 31, 1999, and the continuing license provisions of RCW 34.05.422(3) are not applicable.

(7) For purposes of this section, "replacement vessel" means a vessel used in the coastal crab fishery in 1994, and that replaces a vessel used in the coastal crab fishery during any period from 1988 through 1993, and which vessel's licensing and catch history, together with the licensing and catch history of the vessel it replaces, qualifies a single applicant for a Dungeness crab—coastal or Dungeness crab—coastal class B fishery license. A Dungeness crab—coastal or Dungeness crab—coastal class B fishery license may only be issued to a person who designated a vessel in the 1994 coastal crab fishery and who designated the same vessel in 1995."

POINT OF INQUIRY

Representative Appelwick yielded to a question to Representative Thibaudeau.

Representative Thibaudeau: Thank you Mr. Speaker. My concern in these child abuse reporting issues, has to do with whether or not this particular bill might have a chilling effect on reporting on child abuse. Do you believe that this would prevent people from reporting some child abuse?

Representative Appelwick: Certainly we're all concerned that child abuse would in fact be reported. The amendments suggest that the penalties and the punishments in court whether civilly or criminally apply only if the person made the allegations or enticed someone else to make them knowing that they're false. But I don't think that should cause parents who are doing so honestly will be afraid of these penalties, I certainly hope not the requirement to be subject to them is you had to know you were doing it and that it wasn't true when you did it.

(b) As used in this subsection, the column headings "BA+ (N)" refer to the number of credits earned since receiving the baccalaureate degree.

(c) For credits earned after the baccalaureate degree but before the masters degree, any credits in excess of forty-five credits may be counted after the masters degree. Thus, as used in this subsection, the column headings "MA+ (N)" refer to the total of:

(i) Credits earned since receiving the masters degree; and

(ii) Any credits in excess of forty-five credits that were earned after the baccalaureate degree but before the masters degree.

(5) For the purposes of this section:

(a) "BA" means a baccalaureate degree.

(b) "MA" means a masters degree.

(c) "PHD" means a doctorate degree.

(d) "Years of service" shall be calculated under the same rules used by the superintendent of public instruction for salary allocations in the 1993-94 school year.

(e) "Credits" means college quarter hour credits and equivalent in-service credits computed in accordance with RCW 28A.415.020 or as hereafter amended.

(6) No more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and LEAP documents referenced in this act, or any replacement schedules and documents, unless:

(a) The employee has a masters degree; or

(b) The credits were used in generating state salary allocations before January 1, 1992.

(7) The salary allocation schedules established in this section are for allocation purposes only except as provided in RCW 28A.400.200(2).

NEW SECTION. Sec. 504. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION—FOR SCHOOL EMPLOYEE COMPENSATION ADJUSTMENTS

General Fund Appropriation (FY 1996) $ 126,273,000
General Fund Appropriation (FY 1997) $ 165,804,000

TOTAL APPROPRIATION $ 292,077,000

The appropriation in this section is subject to the following conditions and limitations:

(1) $276,939,000 is provided for cost of living adjustments of 5.0 percent effective September 1, 1995, for state-formula staff units. The appropriation includes associated incremental fringe benefit
allocations for both years at rates 20.07 percent for certificated staff and 15.27 percent for classified staff.

(a) The appropriation in this section includes the increased portion of salaries and incremental fringe benefits for all state funded school programs in PART V of this act. Salary adjustments for state employees in the office of superintendent of public instruction and the education reform program are provided in the Special Appropriations sections of this act. Increases for general apportionment (basic education) are based on the salary allocation schedules and methodology in section 503 of this act. Increases for special education result from increases in each district's basic education allocation per student. Increases for educational service districts and institutional education programs are determined by the superintendent of public instruction using the methodology for general apportionment salaries and benefits in section 503 of this act.

(b) The appropriation in this section provides salary increase and incremental fringe benefit allocations for the following programs based on formula adjustments as follows:

(i) For pupil transportation, an increase of $0.97 per weighted pupil-mile for the 1995-96 school year and maintained for the 1996-97 school year;

(ii) For learning assistance, an increase of $14.05 per eligible student for the 1995-96 school year and maintained for the 1996-97 school year;

(iii) For education of highly capable students, an increase of $10.99 per formula student for the 1995-96 school year and maintained for the 1996-97 school year; and

(2) $13,726,000 is provided to increase insurance benefit allocations above the maintenance rate of $322.90 per month provided through appropriations made in other sections of part V of this act. The rates specified in this subsection are subject to revision each year by the legislature.

NEW SECTION. Sec. 505. INCREMENT SALARY INCREASES The appropriations in sections 502 through 519 of this act contain $27,880,000 in fiscal year 1996 and $63,950,000 in fiscal year 1997 for funding of experience and education increments for certificated instructional staff. This provides an average salary increase of 1.55 percent per year.

NEW SECTION. Sec. 506. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR PUPIL TRANSPORTATION

The appropriation includes such funds as are necessary for the remaining months of the 1994-95 school year.

(2) A maximum of $1,347,000 may be expended for regional transportation coordinators and related activities. The transportation coordinators shall ensure that data submitted by school districts for state transportation funding shall, to the greatest extent practical, reflect the actual transportation activity of each district. (3) A maximum of $40,000 is provided to complete the computerized state map project containing school bus routing information. NEW SECTION. Sec. 507. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SCHOOL FOOD SERVICE PROGRAMS

General Fund--State Appropriation (FY 1996) $ 3,000,000

General Fund--State Appropriation (FY 1997) $ 381,664,000
General Fund--Federal Appropriation $ 98,684,000
TOTAL APPROPRIATION $ 863,715,000

The appropriations in this section are subject to the following conditions and limitations:

(1) The general fund--state appropriation includes such funds as are necessary for the remaining months of the 1994-95 school year.

(2) In recognition of the need for increased flexibility at the local district level to facilitate the provision of appropriate education to children with disabilities, and the need for substantive educational reform for a significant portion of the school population, the funding formula for special education is modified. These changes result from a 1994 study and recommendations by the institute for public policy and the legislative budget committee, aided by the office of the superintendent of public instruction and the statewide task force for the development of special education funding alternatives. The new formula is for allocation purposes only and is not intended to prescribe or imply any particular pattern of special education service delivery other than that contained in a properly formulated locally determined individualized education program.

(3) The superintendent of public instruction shall distribute state funds to school districts based on two categories, the mandatory special education program for special education students ages three to twenty-one and the optional birth through age two program for developmentally delayed infants and toddlers. The superintendent shall review current state eligibility criteria for the fourteen special education categories and consider changes which would reduce assessment time and administrative costs associated with the special education program.
(4) For the 1995-96 and 1996-97 school years, the superintendent shall distribute state funds to each district based on the sum of:
   (a) A district’s annual average headcount enrollment of developmentally delayed infants and toddlers ages birth through two, times the district’s average basic education allocation per full-time equivalent student, times 1.15; and
   (b) A district’s annual average full-time equivalent basic education enrollment times the enrollment percent, times the district’s average basic education allocation per full-time equivalent student times 0.943.
(5) The definitions in this subsection apply throughout this section.
   (a) “Average basic education allocation per full-time equivalent student” for a district shall be based on the staffing ratios required by RCW 28A.150.260 (i.e., 49/1000 certificated instructional staff in grades K-3, and 46/1000 in grades 4-12), including the part-time health benefit ratio for the special education program, and shall not include enhancements for K-3, secondary vocational education, or small schools.
   (b) “Annual average full-time equivalent basic education enrollment” means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW 28A.225.250).
   (c) “Enrollment percent” shall mean the district’s resident special education annual average enrollment, excluding the birth through age two enrollment, as a percent of the district’s annual average full-time equivalent basic education enrollment. For the 1995-96 and the 1996-97 school years, each district’s enrollment percent shall be:
      (i) For districts whose enrollment percent for 1994-95 was at or below 12.7 percent, the lesser of the district’s actual enrollment percent for the school year for which the allocation is being determined or 12.7 percent.
      (ii) For districts whose enrollment percent for 1994-95 was above 12.7 percent, the lesser of:
          (A) The district’s actual enrollment percent for the school year for which the special education allocation is being determined;
          (B) The district’s actual enrollment percent for the school year immediately prior to the school year for which the special education allocation is being determined; or
          (C) For 1995-96, the 1994-95 enrollment percent reduced by 25 percent of the difference between the district’s 1994-95 enrollment percent and 12.7. For 1996-97, the 1994-95 enrollment percent reduced by 50 percent of the difference between the district’s 1994-95 enrollment percent and 12.7.
(6) A minimum of $4.5 million of the general fund--federal appropriation shall be expended for safety net funding to meet the extraordinary needs of individual special education students.
(7) From the general fund--state appropriation, $14,600,000 is provided for the 1995-96 school year, and $22,500,000 for the 1996-97 school year, for safety net purposes for districts with demonstrable funding needs for special education beyond the combined amounts provided in subsection (4) of this section. By July 1, 1995, the superintendent of public instruction shall, by rule, establish procedures and standards by which such determinations shall be made at each educational service district. The superintendent shall distribute safety net moneys to educational service districts and establish procedures for regional committees to consider district applications and make allocations, without deduction, based on the procedures and standards established by the superintendent subject to the following conditions and limitations:
   (a) For a school district requesting state safety net funds due to special characteristics of the district and costs of providing services which differ significantly from the assumptions contained in the funding formula, the procedures and standards shall permit relief only if a district can demonstrate at a minimum that:
      (i) Individualized education plans are appropriate and are properly and efficiently prepared and formulated;
      (ii) The district is making a reasonable effort to provide appropriate program services for special education students utilizing state funds generated by the apportionment and special education funding formulas;
      (iii) The district’s programs are operated in a reasonably efficient manner and that the district has adopted a plan of action to contain or eliminate any unnecessary, duplicative, or inefficient practices.
(iv) Indirect costs charged to this program do not exceed the allowable percent for the federal special education program;
(v) Any available federal funds are insufficient to address the additional needs; and
(vi) The costs of any supplemental contracts are not charged to this program for purposes of making these determinations.

(b) For districts requesting safety net funds due to federal maintenance of effort requirements, the procedures and standards shall permit relief only if a district can demonstrate at a minimum that:
(i) The district is making a reasonable effort to provide appropriate program services for special education students utilizing state funds generated by the apportionment and special education funding formulas;
(ii) Calculations made in accordance with subsection (8) of this section with respect to state fund allocations justify a need for additional funds for compliance with federal maintenance of effort requirements.

(8)(a) For purposes of making safety net determinations pursuant to subsection (7) of this section, the superintendent shall make available to each school district, from available data, prior to June 1st of each year:
(i) The district’s 1994-95 enrollment percent;
(ii) For districts with a 1994-95 enrollment percent over 12.7 percent, the maximum 1995-96 enrollment percent, and prior to 1996-97 the maximum 1996-97 enrollment percent;
(iii) The estimate to be used for purposes of subsection (7) of this section of each district’s 1994-95 special education allocation showing the excess cost and the basic education portions; and
(iv) If necessary, a process for each district to estimate the 1995-96 school year excess cost allocation for special education and the portion of the basic education allocation formerly included in the special education allocation. This process may utilize the allocations generated pursuant to subsection (5) of this section, each district’s 1994-95 estimated basic education backout percent for the 1994-95 school year, and state compensation increases for 1995-96.

(b) The superintendent, in consultation with the state auditor, shall take all necessary steps to successfully transition to the new formula and minimize paperwork at the district level associated with maintenance of effort calculations. The superintendent shall develop such rules and procedures as are necessary to implement this process for the 1995-96 school year, and may use the same process for the 1996-97 school year if found necessary for federal maintenance of effort calculations.

(9) Prior to adopting any standards, procedures, or processes required to implement this section, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature.

(10) The superintendent of public instruction, in cooperation with the office of financial management and the fiscal committees of the legislature, shall evaluate the operation of the safety nets under subsections (6) and (7) of this section and shall prepare an interim report by December 15, 1995 and a final report on the first school year of operation by October 15, 1996.

(11) A maximum of $678,000 may be expended from the general fund--state appropriation to fund 5.43 full-time equivalent teachers and 2.1 full-time equivalent aides at Children’s orthopedic hospital and medical center. This amount is in lieu of money provided through the home and hospital allocation and the handicapped program.

(12) $1,000,000 of the general fund--federal appropriation is provided solely for projects to provide handicapped students with appropriate job and independent living skills, including work experience where possible, to facilitate their successful transition out of the public school system. The funds provided by this subsection shall be from federal discretionary grants.

(13) Not more than $80,000 of the general fund--federal appropriation shall be expended for development of an inservice training program to identify students with dyslexia who may be in need of special education.

However, beginning July 1, (1993) 1995, through June 30, (1995, the board shall not adopt job classification revisions or class studies unless implementation of the proposed revision or study will result in net cost savings, increased efficiencies, or improved management of personnel or services, and the proposed revision or study has been approved by the director of financial management in accordance with chapter 43.88 RCW): 1997:

For these purposes, inequities are defined as similar work assigned to different job classes with a salary disparity greater than ten percent.

(d) Adjustments made to the higher education hospital special pay plan are exempt from (a) through (c) of this subsection;

(18) Increment increases within the series of steps for each pay grade based on length of service for all employees whose standards of performance are such as to permit them to retain job status in the classified service. (However, beginning July 1, 1993, through June 30, 1995, increment increases shall not be provided to any classified or exempt employees under the jurisdiction of the board whose monthly salary on or after July 1, 1993, exceeds three thousand seven hundred fifty dollars;)

(20) Permitting agency heads to delegate the authority to appoint, reduce, dismiss, suspend, or demote employees within their agencies if such agency heads do not have specific statutory authority to so delegate: PROVIDED, That the board may not authorize such delegation to any position lower than the head of a major subdivision of the agency;

strong, robust, and vigorous voice on many important issues, and to which she continues to tirelessly contribute as a member of the Board of Directors; and

SPEAKER'S RULING

"Representative Rust, the Speaker is prepared to Rule on your Point of Order which challenges the Committee Amendment to Substitute Senate Bill No. 5155 as being beyond the Scope and Object of the bill.

"The title of Substitute Senate Bill No. 5155 is "AN ACT Relating to hydraulic permit exemptions from the shoreline management act."

"The title is somewhat broad as it relates to hydraulic permit exemptions. The bill adds a new section to chapter 90.85 RCW.

"The bill exempts certain public and private projects designed to improve fish or wildlife habitat or fish passage from the permit requirements of the Shoreline Management Act if all of certain conditions are met. One of the conditions set is that a local government has determined if the project is substantially consistent with its local shoreline master program. A local shoreline master program must be consistent with certain state guidelines.

"The Committee Amendment to Substitute Senate Bill No. 5155 would add a new section to chapter 90.58 RCW and create a new section. The amendment would add the requirement that under certain conditions the authority to approve hydraulic projects be delegated to certain local governments if an approved local shoreline master program exists for that jurisdiction and the jurisdiction requests such delegation.

"The object of Substitute Senate Bill No. 5155 is to establish a process and criteria for exempting certain projects from various permit requirements in order to promote the improvement of fish and wildlife habitat and fish passage while ensuring that various protective standards required under the shoreline management act are substantially complied with.

"The Committee Amendment deals with hydraulic permit exemptions from the shoreline management act and furthers the object of the bill to promote certain habitat and passage while ensuring compliance with certain state guidelines. The Speaker in unable to conclude that the Committee Amendment is beyond the scope and object of Substitute Senate Bill No. 5155."

SPEAKER'S RULING

"Representative Thibaudeau, the Speaker is prepared to Rule on your Point of Order which challenges the Committee Amendment to Senate Bill No. 5652 as being beyond the Scope and Object of the bill.

"The title of Senate Bill No. 5652 is "AN ACT Relating to welfare fraud."
The title is broad. The bill amends RCW 74.08.290 so as to provide that persons convicted of welfare fraud are denied access to welfare payments for at least six months.
The Committee Amendment also amends RCW 74.08.290, and in addition amends RCW 74.04.062; the amendment adds a new section to Chapter 74.08 and 74.12 RCW.
The amendment would preclude persons who are fugitives from justice from receiving public assistance. In addition the amendment would cause the state to implement the federal SAVE program so that welfare funds would be denied to illegal aliens.

Since it is currently an act of welfare fraud for an illegal alien to apply for welfare benefits, implementation of the federal SAVE program is within the Scope of the bill title. However, it is not currently illegal for a fugitive from justice to apply for or receive welfare benefits. Fleeing from a bench warrant is not often an act related to welfare fraud.
The Speaker finds that the committee amendment is beyond the scope of the title of Senate Bill No. 5652.

"Representative Thibaudeau, Your Point of Order is well taken.

With the consent of the House, amendment numbers 725, 735 and 687 to Senate Bill No. 5652 were withdrawn.

POINT OF ORDER

Representative Thibaudeau: Thank you Mr. Speaker. Perhaps I’m confused but I thought that part of the bill just scoped. So I guess that’s a point of order.

Speaker: Point of Information Representative Thibaudeau. The Committee Amendment was the one that I ruled on. This is not the amendment to the bill. The Committee Amendment had two parts. The ruling that we had on the scope and object was regarding the felons fleeing.

Representative Bolt moved adoption of the following amendment by Representative Bolt:
On page 1, strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. The legislature finds that those individuals who abuse and defraud the welfare system not only steal scarce resources, but also perpetuate myths about people on public assistance. The taxpayers of this state have limited resources with which to help those in need and it is imperative that the legislature use its authority to ensure that those resources are assisting the truly needy.

To protect the integrity of the welfare system the legislature must put into place mechanisms that guard against abuse. The message must be sent that we will not tolerate welfare fraud. People who are caught abusing public trust by defrauding the welfare system should be punished and not allowed to receive public assistance.

Sec. 2. RCW 74.08.290 and 1959 c 26 s 74.08.290 are each amended to read as follows:
(1) The department is hereby authorized to suspend temporarily the public assistance granted to any person for any period during which such person is not in need thereof.
(2) If a recipient is convicted of any crime or offense, and punished by imprisonment, no payment shall be made during the period of imprisonment.
(3)(a) If an applicant for or recipient of public assistance intentionally provides a false or misleading statement or commits an act which statement or act is designed to misrepresent, conceal, or withhold facts for the purpose of establishing or maintaining eligibility for public assistance or for the purpose of increasing, or preventing a reduction in, the amount of a grant, then, the applicant or recipient shall be considered in violation of this subsection (3)(a) and shall be subject to the penalties provided in (b) of this subsection.
(b) An individual who is found to have committed a violation of (a) of this subsection by a state administrative law judge or by a state court or federal court shall be ineligible for continued public assistance for the following periods:
(i) Six months for the first violation;
(ii) Twelve months for the second violation; and
(iii) Permanently for the third violation.
For the purpose of applying these penalties, numerous violations on a single application, or in a single statement, made by an individual shall count as one violation.

Sec. 3. RCW 74.04.062 and 1973 c 152 s 2 are each amended to read as follows:
Upon written request of a person who has been properly identified as an officer of the law with a felony arrest warrant or a properly identified United States immigration official with a warrant for an illegal alien the department shall disclose to such officer the current address and location of the person properly described in the warrant. However, this rule does not restrict in any manner whatsoever the disclosure of address and location information by the department pursuant to its implementation of the federal "systematic alien verification for entitlements" program or pursuant to section 4 of this act.

NEW SECTION. Sec. 4. A new section is added to chapter 74.08 RCW to read as follows:
The department shall implement the federal "systematic alien verification for entitlements" program, the "SAVE" program. The department shall:
(a) Coordinate with other state agencies, including but not limited to the employment security department, to ensure that persons receiving federal or state funds are eligible in terms of citizenship and residency status;
(b) Post at every community service office a sign letting applicants and recipients know that illegal aliens will be reported to the United States immigration and naturalization service and that the systematic alien verification for entitlements system is in use in the office; and
(c) Systematically use all processes available to verify eligibility in terms of the citizenship and residency status of applicants and recipients for public assistance.

NEW SECTION. Sec. 5. The department shall have the SAVE program in full force and effect by September 30, 1995, and report to the fiscal committees of the house of representatives and senate by December 1, 1995, regarding the progress of implementation and outcomes by region of the program."

The director of licensing shall, on the twenty-fifth day of February, May, August, and November of each year, advise the state treasurer of the total amount of motor vehicle excise taxes imposed by RCW 82.44.020 (1) and (2) remitted to the department during the preceding calendar quarter ending on the last day of March, June, September, and December, respectively, except for those payable under RCW 82.44.030, from motor vehicle owners residing within each municipality which has levied a tax under RCW 35.58.273, which amount of excise taxes shall be determined by the director as follows:

The total amount of motor vehicle excise taxes remitted to the department, except those payable under RCW 82.44.020(3) and 82.44.030, from each county shall be multiplied by a fraction, the numerator of which is the population of the municipality residing in such county, and the denominator of which is the total population of the county in which such municipality or portion thereof is located. The product of this computation shall be the amount of excise taxes from motor vehicle owners residing within such municipality or portion thereof. Where the municipality levying a tax under RCW 35.58.273 is located in more than one county, the above computation shall be made by county, and the combined products shall provide the total amount of motor vehicle excise taxes from motor vehicle owners residing in the municipality as a whole. Population figures required for these computations shall be supplied to the director by the office of financial management, who shall adjust the fraction annually.

On the first day of the months of January, April, July, and October of each year, the state treasurer based upon information provided by the department shall, from motor vehicle excise taxes deposited in the general fund, under RCW 82.44.110(1)(g), make the following deposits:

(a) To the high capacity transportation account created in RCW 47.78.010, a sum equal to four and five-tenths percent of the special excise tax levied under RCW 35.58.273 by those municipalities authorized to levy a special excise tax within (i) each county (with a population of two hundred ten thousand or more and (ii) each county with a population of from one hundred twenty-five thousand to less than two hundred ten thousand except for those counties that do not border a county with a population as described in subsection (i) of this subsection)) that has a population of one hundred seventy-five thousand or more and has an interstate highway within its borders; except that in a case of a municipality located in a county that has a population of one hundred seventy-five thousand or more that does not have an interstate highway located within its borders, that sum shall be deposited in the passenger ferry account created in section 416 of this act;

(b) To the central Puget Sound public transportation account created in RCW 82.44.180, for revenues distributed after December 31, 1992, within a county with a population of one million or more and a county with a population of from two hundred thousand to less than one million bordering a county with a population of one million or more, a sum equal to the difference between (i) the special excise tax levied and collected under RCW 35.58.273 by those municipalities authorized to levy and collect a special excise tax subject to the requirements of subsections (3) and (4) of this section and (ii) the special excise tax that the municipality would otherwise have been eligible to levy and collect at a tax rate of .815 percent and been able to match with locally generated tax revenues, other than the excise tax imposed under RCW 35.58.273, budgeted for any public transportation purpose. Before this deposit, the sum shall be reduced by an amount equal to the amount distributed under (a) of this subsection for each of the municipalities within the counties to which this subsection (2)(b) applies; however, any transfer under this subsection (2)(b) must be greater than zero;

(c) To the public transportation systems account created in RCW 82.44.180, for revenues distributed after December 31, 1992, within counties not described in (b) of this subsection, a sum equal to the difference between (i) the special excise tax levied and collected under RCW 35.58.273 by those municipalities authorized to levy and collect a special excise tax subject to the requirements of subsections (3) and (4) of this section and (ii) the special excise tax that the municipality would otherwise have been eligible to levy and collect at a tax rate of .815 percent and been able to match with locally generated tax revenues, other than the excise tax imposed under RCW 35.58.273, budgeted for any public transportation purpose. Before this deposit, the sum shall be reduced by an amount equal to the amount distributed under (a) of this subsection for each of the municipalities within the counties to which this subsection (2)(b) applies; however, any transfer under this subsection (2)(c) must be greater than zero; and
(d) To the general fund, for revenues distributed after June 30, 1993, and to the transportation fund, for revenues distributed after June 30, 1995, a sum equal to the difference between (i) the special excise tax levied and collected under RCW 35.58.273 by those municipalities authorized to levy and collect a special excise tax subject to the requirements of subsections (3) and (4) of this section and (ii) the special excise tax that the municipality would otherwise have been eligible to levy and collect at a tax rate of .815 percent notwithstanding the requirements set forth in subsections (3) through (6) of this section, reduced by an amount equal to distributions made under (a), (b), and (c) of this subsection and RCW 82.14.046.

(3) On the first day of the months of January, April, July, and October of each year, the state treasurer, based upon information provided by the department, shall remit motor vehicle excise tax revenues imposed and collected under RCW 35.58.273 as follows:

(a) The amount required to be remitted by the state treasurer to the treasurer of any municipality levying the tax shall not exceed in any calendar year the amount of locally-generated tax revenues, excluding (i) the excise tax imposed under RCW 35.58.273 for the purposes of this section, which shall have been budgeted by the municipality to be collected in such calendar year for any public transportation purposes including but not limited to operating costs, capital costs, and debt service on general obligation or revenue bonds issued for these purposes; and (ii) the sales and use tax equalization distributions provided under RCW 82.14.046;

(b) In no event may the amount remitted in a single calendar quarter exceed the amount collected on behalf of the municipality under RCW 35.58.273 during the calendar quarter next preceding the immediately preceding quarter, excluding the sales and use tax equalization distributions provided under RCW 82.14.046.

(4) At the close of each calendar year accounting period, but not later than April 1, each municipality that has received motor vehicle excise taxes under subsection (3) of this section shall transmit to the director of licensing and the state auditor a written report showing by source the previous year’s budgeted tax revenues for public transportation purposes as compared to actual collections. Any municipality that has not submitted the report by April 1 shall cease to be eligible to receive motor vehicle excise taxes under subsection (3) of this section until the report is received by the director of licensing. If a municipality has received more or less money under subsection (3) of this section for the period covered by the report than it is entitled to receive by reason of its locally-generated collected tax revenues, the director of licensing shall, during the next ensuing quarter that the municipality is eligible to receive motor vehicle excise tax funds, increase or decrease the amount to be remitted in an amount equal to the difference between the locally-generated budgeted tax revenues and the locally-generated collected tax revenues. In no event may the amount remitted for a calendar year exceed the amount collected on behalf of the municipality under RCW 35.58.273 during that same calendar year excluding the sales and use tax equalization distributions provided under RCW 82.14.046. At the time of the next fiscal audit of each municipality, the state auditor shall verify the accuracy of the report submitted and notify the director of licensing of any discrepancies.

(5) The motor vehicle excise taxes imposed under RCW 35.58.273 and required to be remitted under this section and RCW 82.14.046 shall be remitted without legislative appropriation.

(6) Any municipality levying and collecting a tax under RCW 35.58.273 which does not have an operating, public transit system or a contract for public transportation services in effect within one year from the initial effective date of the tax shall return to the state treasurer all motor vehicle excise taxes received under subsection (3) of this section.

Sec. 510. RCW 81.104.015 and 1992 c 101 s 19 are each amended to read as follows: Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.
(1) "High capacity transportation system" means a system of public transportation services within an urbanized region operating principally on exclusive rights of way, and the supporting services and facilities necessary to implement such a system, including interim express services and high
occupancy vehicle lanes, which taken as a whole, provides a substantially higher level of passenger capacity, speed, and service frequency than traditional public transportation systems operating principally in general purpose roadways.

(2) "Regional transit system" means a high capacity transportation system under the jurisdiction of one or more transit agencies (except where a regional transit authority created under chapter 81.112 RCW exists, in which case "regional transit system" means the high capacity transportation system under the jurisdiction of a regional transit authority).

(3) "Transit agency" means city-owned transit systems, county transportation authorities, metropolitan municipal corporations, and public transportation benefit areas.

Sec. 511. RCW 81.104.030 and 1993 c 428 s 1 are each amended to read as follows:

(1) In any county ((with a population of from two hundred ten thousand to less than one million that is not bordered by a county with a population of one million or more, and in each county with a population of less than two hundred ten thousand)) that has a population of one hundred seventy-five thousand or more and has an interstate highway within its borders, except for any county having a population of more than one million or a county that has a population more than four hundred thousand and is adjacent to a county with a population of more than one million, transit agencies may elect to establish high capacity transportation service. Such agencies shall form a regional policy committee with proportional representation based upon population distribution within the designated service area and a representative of the department of transportation, or such agencies may use the designated metropolitan planning organization as the regional policy committee.

Transit agencies participating in joint regional policy committees shall seek voter approval within their own service boundaries of a high capacity transportation system plan and financing plan. For transit agencies in counties adjoining state or international boundaries where the high capacity transportation system plan and financing plan propose a bi-state or international high capacity transportation system, such voter approval shall be required from only those voters residing within the service area in the state of Washington.

(2) Transit agencies in counties adjoining state or international boundaries are authorized to participate in the regional high capacity transportation programs of an adjoining state or Canadian province.

Sec. 512. RCW 81.104.040 and 1992 c 101 s 21 are each amended to read as follows:

Transit agencies in each county with a population of one million or more, and in each county with a population of from ((two)) four hundred ((ten)) thousand to less than one million bordering a county with a population of one million or more ((that are authorized on January 1, 1991, to provide high capacity transportation planning and operating services must)) may establish through interlocal agreements a ((joint regional policy committee with proportional representation based upon the population distribution within each agency’s designated service area, as determined by the parties to the agreement.))

(1) The membership of the joint regional policy committee shall consist of locally elected officials who serve on the legislative authority of the existing transit systems and a representative from the department of transportation. Nonvoting membership for elected officials from adjoining counties may be allowed at the committee’s discretion.

(2) The joint regional policy committee shall be responsible for the preparation and adoption of a process to jointly prepare a regional high capacity transportation implementation program, which shall include the system plan, project plans, and a financing plan. This program shall be in conformance with the regional transportation planning organization’s regional transportation plan and consistent with RCW 81.104.080.

(3) The joint regional policy committee shall present an adopted high capacity transportation system plan and financing plan to the boards of directors of the transit agencies within the service area or to the regional transit authority, if such authority has been formed. The authority shall proceed as prescribed in RCW 81.112.030)).
Transit agencies are encouraged to utilize this process and the process in section 518 of this act in order to better coordinate high-capacity transit services and to provide for more effective utilization of transportation resources.

**Sec. 513.** RCW 81.104.050 and 1992 c 101 s 22 are each amended to read as follows:
Regional high capacity transportation service may be expanded beyond the established district boundaries through interlocal agreements among the transit agencies ((and any regional transit authorities in existence)).

**Sec. 514.** RCW 81.104.120 and 1993 c 428 s 2 are each amended to read as follows:
(1) Transit agencies ((and regional transit authorities)) may operate or contract for commuter rail service where it is deemed to be a reasonable alternative transit mode. A reasonable alternative is one whose ((passenger)) costs per passenger mile, including costs of trackage, equipment, maintenance, operations, and administration are equal to or less than comparable bus, entrained bus, trolley, or personal rapid transit systems.

(2) A county may use funds collected under RCW 81.100.030 or 81.100.060 to contract with one or more transit agencies ((or regional transit authorities)) for planning, operation, and maintenance of commuter rail projects which: (a) Are consistent with the regional transportation plan; (b) have met the project planning and oversight requirements of RCW 81.104.100 and 81.104.110; and (c) have been approved by the voters within the service area of each transit agency ((or regional transit authority)) participating in the project. For transit agencies in counties adjoining state or international boundaries where the high capacity transportation system plan and financing plan propose a bi-state or international high capacity transportation system, such voter approval shall be required from only those voters residing within the service area in the state of Washington. The phrase "approved by the voters" includes specific funding authorization for the commuter rail project.

(3) The utilities and transportation commission shall maintain safety responsibility for passenger rail service operating on freight rail lines. Agencies providing passenger rail service on lines other than freight rail lines shall maintain safety responsibility for that service.

**Sec. 515.** RCW 81.104.140 and 1992 c 101 s 25 are each amended to read as follows:
(1) Transit agencies authorized to provide high capacity transportation service((, including transit agencies and regional transit authorities,)) are hereby granted dedicated funding sources for such systems. These dedicated funding sources, as set forth in RCW 81.104.150, 81.104.160, and 81.104.170, are authorized only for agencies located in (((a) each county with a population of two hundred ten thousand or more and (b) each county with a population of from one hundred twenty-five thousand to less than two hundred ten thousand except for those counties that do not border a county with a population as described under (a) of this subsection)) any county that has a population of one hundred seventy-five thousand or more and has an interstate highway within its borders. In any county with a population of one million or more or in any county having a population of four hundred thousand or more bordering a county with a population of one million or more, these funding sources may be (imposed only by a regional transit authority) placed before the voters for approval only after specific legislative approval by a recorded majority vote of the house of representatives and of the senate.

(2) Agencies planning to construct and operate a high capacity transportation system should also seek other funds, including federal, state, local, and private sector assistance.

(3) Funding sources should satisfy each of the following criteria to the greatest extent possible:
(a) Acceptability;
(b) Ease of administration;
(c) Equity;
(d) Implementation feasibility;
(e) Revenue reliability; and
(f) Revenue yield.

(4) Agencies participating in regional high capacity transportation system development are authorized to levy and collect the following voter-approved local option funding sources:
(a) Employer tax as provided in RCW 81.104.150;
(b) Special motor vehicle excise tax as provided in RCW 81.104.160; and
(c) Sales and use tax as provided in RCW 81.104.170.

Revenues from these taxes may be used only to support those purposes prescribed in subsection ((4)(9)) of this section. Before the date of an election authorizing an agency to impose any of the taxes enumerated in this section and authorized in RCW 81.104.150, 81.104.160, and 81.104.170, the agency must comply with the process prescribed in RCW 81.104.100 (1) and (2) and 81.104.110. No construction on exclusive right of way may occur before the requirements of RCW 81.104.100(3) are met.

(5) Authorization in subsection (4) of this section shall not adversely affect the funding authority of transit agencies not provided for in this chapter. Local option funds may be used to support implementation of interlocal agreements with respect to the establishment of regional high capacity transportation service. ((Except when a regional transit authority exists,)) Local jurisdictions shall retain control over moneys generated within their boundaries, although funds may be commingled with those generated in other areas for planning, construction, and operation of high capacity transportation systems as set forth in the agreements.

(6) Agencies planning to construct and operate high capacity transportation systems may contract with the state for collection and transference of voter-approved local option revenue.

(7) Dedicated high capacity transportation funding sources authorized in RCW 81.104.150, 81.104.160, and 81.104.170 shall be subject to voter approval by a simple majority. A single ballot proposition may seek approval for one or more of the authorized taxing sources. ((The ballot title shall reference the document identified in subsection (8) of this section.))

(8) ((Agencies shall provide to the registered voters in the area a document describing the system's plan and the financing plan set forth in RCW 81.104.100. It shall also describe the relationship of the system to regional issues such as development density at station locations and activity centers, and the interrelationship of the system to adopted land use and transportation demand management goals within the region. This document shall be provided to the voters at least twenty days prior to the date of the election.))

(9) For any election in which voter approval is sought for a high capacity transportation system plan and financing plan pursuant to RCW 81.104.040, a local voter's pamphlet shall be produced as provided in chapter 29.81A RCW.

Sec. 516. RCW 81.104.150 and 1992 c 101 s 26 are each amended to read as follows:
Cities that operate transit systems, county transportation authorities, metropolitan municipal corporations, and public transportation benefit areas((, and regional transit authorities)) may submit an authorizing proposition to the voters and if approved may impose an excise tax of up to two dollars per month per employee on all employers located within the agency's jurisdiction, measured by the number of full-time equivalent employees, solely for the purpose of providing high capacity transportation service. The rate of tax shall be approved by the voters. This tax may not be imposed by((4))) a transit agency when the county within which it is located is imposing an excise tax pursuant to RCW 81.100.030((, or (2) a regional transit authority when any county within the authority's boundaries is imposing an excise tax pursuant to RCW 81.100.030)). (1) Cities that operate transit systems, county transportation authorities, metropolitan municipal corporations, and public transportation benefit areas((, and regional transit authorities)) may submit an authorizing proposition to the voters, and if approved, may levy and collect an excise tax, at a rate
approved by the voters, but not exceeding eighty one-hundredths of one percent on the value, under chapter 82.44 RCW, of every motor vehicle owned by a resident of the taxing district, solely for the purpose of providing high capacity transportation service. In any county imposing a motor vehicle excise tax surcharge pursuant to RCW 81.100.060, the maximum tax rate under this section shall be reduced to a rate equal to eighty one-hundredths of one percent on the value less the equivalent motor vehicle excise tax rate of the surcharge imposed pursuant to RCW 81.100.060. This rate shall not apply to vehicles licensed under RCW 46.16.070 except vehicles with an unladen weight of six thousand pounds or less, RCW 46.16.079, (46.16.080), 46.16.085, or 46.16.090.

(2) An agency imposing a tax under subsection (1) of this section may also impose a sales and use tax solely for the purpose of providing high capacity transportation service, in addition to the tax authorized by RCW 82.14.030, upon retail car rentals within the agency’s jurisdiction that are taxable by the state under chapters 82.08 and 82.12 RCW. The rate of tax shall bear the same ratio to the rate imposed under RCW 82.08.020(2) as the excise tax rate imposed under subsection (1) of this section bears to the excise tax rate imposed under RCW 82.44.020 (1) and (2). The base of the tax shall be the selling price in the case of a sales tax or the rental value of the vehicle used in the case of a use tax. The revenue collected under this subsection shall be used in the same manner as excise taxes under subsection (1) of this section.

Sec. 518. RCW 81.104.170 and 1992 c 101 s 28 are each amended to read as follows:
Cities that operate transit systems, county transportation authorities, metropolitan municipal corporations, and public transportation benefit areas, and regional transit authorities may submit an authorizing proposition to the voters and if approved by a majority of persons voting, fix and impose a sales and use tax in accordance with the terms of this chapter, solely for the purpose of providing high capacity transportation service.

The tax authorized pursuant to this section shall be in addition to the tax authorized by RCW 82.14.030 and shall be collected from those persons who are taxable by the state pursuant to chapters 82.08 and 82.12 RCW upon the occurrence of any taxable event within the taxing district. The maximum rate of such tax shall be approved by the voters and shall not exceed one percent of the selling price (in the case of a sales tax) or value of the article used (in the case of a use tax). The maximum rate of such tax that may be imposed shall not exceed nine-tenths of one percent in any county that imposes a tax under RCW 82.14.340, or within a regional transit authority if any county within the authority imposes a tax under RCW 82.14.340).

"NEW SECTION. Sec. 1. The legislature finds that:
(1) The state's highly productive and efficient agricultural sector is composed predominately of family-owned and managed farms and an industrious and efficient work force;
(2) A reasonable level of safety regulation is needed to protect workers; and
(3) The smaller but highly efficient farming operations would benefit from safety rules that are easily referenced and agriculture-specific to the extent possible.

NEW SECTION. Sec. 2. A new section is added to chapter 49.17 RCW to read as follows:
(1) To afford the legislature an opportunity to examine more closely the agricultural safety standards that should apply to the agricultural industry, no rules adopted under this chapter amending or establishing agricultural safety standards shall take effect during the period beginning January 1, 1995, and ending January 15, 1996."
(2) Rollover protective structures shall not be required before January 15, 1996, for any tractor that was manufactured before October 25, 1976. By December 15, 1995, the department shall prepare a list of the rollover protective structures available to persons in this state that fully satisfy the standards for such structures proposed for such tractors by the department by rule before January 1, 1995. The list shall include the name and address of the manufacturer of each structure listed, the manufacturer’s price of the structure, and approximate delivery and installation costs. The department shall not list a structure if it: Is not readily available; restricts or eliminates a common use for the tractor for which it is designed; or does not include all of the parts needed to install the structure on the tractor for which it is designed in a manner that fully satisfies the standards proposed for such structures by the department. The department shall certify the accuracy of the information on the list and submit the list to the committees of the senate and the house of representatives with general jurisdiction over matters relating to agriculture and those with general jurisdiction over matters relating to labor.

(3) The following applies to rules for agricultural safety adopted under this chapter. The rules shall:

(a) Establish, for agricultural employers, an agriculture safety standard that includes agriculture-specific standards and specific references to the general industry safety standard adopted under this chapter; and

(b) Exempt agricultural employers from the general industry safety standard adopted under this chapter for all requirements not specifically referenced in the agriculture safety standard.

(4) The department shall publish in one volume all of the occupational safety standards that apply to agricultural employers and shall make this volume available to all agricultural employers before February 15, 1996. This volume must be available in both English and Spanish.

(5) The department shall provide training, education, and enhanced consultation services concerning its agricultural safety standards to agricultural employers before the standards take effect. The training, education, and consultation must continue throughout the winter of 1995-1996. Training and education programs must be provided throughout the state and must be coordinated with agricultural associations in order to meet their members’ needs.

(6) Subsections (1) and (2) of this section do not limit the authority of the director to adopt rules that are specifically required by federal law, and only to the extent specifically required, for the agricultural safety standards under this chapter to be as effective as the standards adopted or recognized by the United States secretary of labor under the authority of the occupational safety and health act of 1970 (P.L. 91-596; 84 Stat. 1590).

(7) Once the single volume of all of the rules setting agricultural safety standards is first published as required by subsection (4) of this section, no new rules regarding agricultural safety may be established under this chapter except: As specifically required by federal law, and only to the extent specifically required; or as specifically authorized by the legislature by law enacted after the effective date of this section.

Representative Dellwo, the Speaker is prepared to Rule on your Point of Order which challenges the Committee Amendment to Substitute Senate Bill No. 5431 as being beyond the Scope and Object of the bill.

The title of Substitute Senate Bill No. 5431 is "AN ACT Relating to rural health care. The title is broad. The bill adds a new section to chapter 43.70 RCW, creates new sections, and repeals RCW 48.45.005, 48.45.010, 48.45.020, and 48.05.030.

The bill repeals certain rural health care statutes and directs the Department of Health to set up a committee to study rural health care issues and report their findings to the legislature by December, 1995.

The Committee Amendment adds a new section to chapter 70.170 RCW and chapter 28B.80 RCW, amends RCW 43.70.470, creates new sections, and repeals RCW 28B.125.005 and 28B.125.010.

The object of Substitute Senate Bill No. 5431 is to repeal certain statutes regarding the licensure of small rural health care service arrangements which were never used and to create a study by the Department of Health to determine issues relevant to health care services provided to people living in rural areas.

The Committee Amendment repeals various other statutes and programs, establishes a statewide data system, transfers various agency functions and programs, and imposes other requirements not related to rural health care issues.

The Speaker finds that the Committee Amendment is beyond the scope and object of the bill.

Representative Dellwo, Your Point of Order is well taken.

With the consent of the House, amendment number 695 to Substitute Senate Bill No. 5431 was withdrawn.

Representative Hymes moved adoption of the following amendment by Representative Hymes:

On page 2, after line 2, insert the following:

"NEW SECTION. Sec. 3. A new section is added to chapter 43.70 RCW to read as follows:

(1) To promote the public interest consistent with the purposes of chapter 492, Laws of 1993 as amended by chapter . . ., Laws of 1995 (this act), the department shall continue to require hospitals to submit hospital financial and patient discharge information, which shall be collected, maintained, analyzed, and disseminated by the department. The department may, if deemed cost-effective and efficient, contract with a private entity for any or all parts of data collection. Data elements shall be reported in conformance with a uniform reporting system established by the department. This includes data elements identifying each hospital’s revenues, expenses, contractual allowances, charity care, bad debt, other income, total units of inpatient and outpatient services, and other financial information reasonably necessary to fulfill the purposes of chapter 492, Laws of 1993 as amended by chapter . . ., Laws of 1995 (this act). Data elements relating to use of hospital services by patients shall be the same as those currently compiled by hospitals through inpatient discharge abstracts. The department shall encourage and permit reporting by electronic transmission or hard copy as is practical and economical to reporters.

(2) In identifying financial reporting requirements, the department may require both annual reports and condensed quarterly reports from hospitals, so as to achieve both accuracy and timeliness in reporting, but shall craft such requirements with due regard of the data reporting burdens of hospitals.

(3) The health care data collected, maintained, and studied by the department shall only be available for retrieval in original or processed form to public and private requestors and shall be available within a reasonable period of time after the date of request. The cost of retrieving data for state officials and agencies shall be funded through the state general appropriation. The cost of retrieving data for individuals and organizations engaged in research or private use of data or studies shall be funded by a fee schedule developed by the department that reflects the direct cost of retrieving the data or study in the requested form."
(4) All persons subject to chapter 492, Laws of 1993 shall comply with departmental requirements established by rule in the acquisition of data.

NEW SECTION. Sec. 4. A new section is added to chapter 43.70 RCW to read as follows:

HEALTH CARE QUALITY -- FINDINGS AND INTENT. The legislature finds that it is difficult for consumers of health care services to determine the quality of health care in rural areas and other parts of the state prior to purchase or utilization of medical care. The legislature also finds that accountability is a key component in promoting quality assurance and quality improvement throughout the health care delivery system, including public programs. Quality assurance and improvement standards are necessary to promote the public interest, contribute to cost efficiencies, and improve the ability of consumers to ascertain quality health care purchases.

The legislature intends to have consumers, health carriers, health care providers and facilities, and public agencies participate in the development of quality assurance and improvement standards that can be used to develop a uniform quality assurance program for use by all public and private health plans, providers, and facilities. To that end, in conducting the study required under section 3 of this act, the department of health shall:

(1) Consider the needs of consumers, employers, health care providers and facilities, and public and private health plans;
(2) Take full advantage of existing national standards of quality assurance to extend to middle-income populations the protections required for state management of health programs for low-income populations;
(3) Consider the appropriate minimum level of quality assurance standards that should be disclosed to consumers and employers by health care providers and facilities, and public and private health plans; and
(4) Consider standards that permit health care providers and facilities to share responsibility for participation in a uniform quality assurance program.

NEW SECTION. Sec. 5. A new section is added to chapter 43.70 RCW to read as follows:

UNIFORM QUALITY ASSURANCE. (1) The department of health shall study the feasibility of a uniform quality assurance and improvement program for use by all public and private health plans and health care providers and facilities in rural areas and other parts of the state. In this study, the department shall consult with:

(a) Public and private purchasers of health care services;
(b) Health carriers;
(c) Health care providers and facilities; and
(d) Consumers of health services.

(2) In conducting the study, the department shall adopt standards that meet the needs of affected persons and organizations, whether public or private, without creation of differing levels of quality assurance. All consumers of health services should be afforded the same level of quality assurance.

(3) At a minimum, the study shall include but not be limited to the following program components and indicators appropriate for consumer disclosure:

(a) Health care provider training, credentialing, and licensure standards;
(b) Health care facility credentialing and recredentialing;
(c) Staff ratios in health care facilities;
(d) Annual mortality and morbidity rates of cases based on a defined set of procedures performed or diagnoses treated in health care facilities, adjusted to fairly consider variable factors such as patient demographics and case severity;
(e) The average total cost and average length of hospital stay for a defined set of procedures and diagnoses in health care facilities;
(f) The total number of the defined set of procedures, by specialty, performed by each physician at a health care facility within the previous twelve months;
(g) Utilization performance profiles by provider, both primary care and specialty care, that have been adjusted to fairly consider variable factors such as patient demographics and severity of case;
(h) Health plan fiscal performance standards;
(i) Health care provider and facility recordkeeping and reporting standards;
(j) Health care utilization management that monitors trends in health care service under-utilization, as well as over-utilization of services;
(k) Health monitoring that is responsive to consumer and purchaser needs; and
(l) Assessment of consumer satisfaction and disclosure of consumer survey results.

(4) In conducting the study, the department shall develop standards that permit each health care
facility, provider group, or health carrier to assume responsibility for and determine the physical
method of collection, storage, and assimilation of quality indicators for consumer disclosure. The
study may define the forms, frequency, and posting requirements for disclosure of information.

(5) The department shall submit its final report and recommendations to the legislature by

(6) The department shall not adopt any rule implementing the uniform quality assurance
program or consumer disclosure provisions unless expressly directed to do so by an act of law.

NEW SECTION. Sec. 6. A new section is added to chapter 43.70 RCW to read as follows:
QUALITY ASSURANCE--INTERAGENCY COOPERATION--ELIMINATION AND
COORDINATION OF DUPLICATE STATE PROGRAMS. No later than July 1, 1995, the
department of health together with the health care authority, the department of social and health
services, the office of the insurance commissioner, and the department of labor and industries shall
form an interagency group for coordination and consultation on quality assurance activities and
cooperation on final recommendations for the study required under section 3 of this act. By
December 31, 1995, the group shall review all state agency programs governing health service quality
assurance and shall recommend to the legislature, the consolidation, coordination, or elimination of
rules and programs that would be made unnecessary pursuant to the development of a uniform quality
assurance and improvement program.

"NEW SECTION. Sec. 5. The intent of this act is to create the capacity to collect data
regarding the distribution of health care professionals in the provider shortage areas of the state, with
emphasis on rural areas. The purpose of this collection is to make the data available to the public and
private sector for their use.

This data gathering and the analysis of the data by state government is done with the
assumption that the scopes of practice of the health care professions in effect at that time are
appropriate.

NEW SECTION. Sec. 6. A new section is added to chapter 70.170 RCW to read as follows:
The department of health, in consultation with the health services commission, or its successor
agency, shall establish a health care professional information data system. The system shall identify,
for the purpose of assisting rural communities and other areas of the state experiencing provider
shortages, the type, number, and location of health care professionals working in the state and create a
centralized inventory of applications, matriculations, and graduations from all health care training
programs in the state in vocational-technical training, community colleges, and four-year colleges and
universities.

NEW SECTION. Sec. 7. A new section is added to chapter 28B.80 RCW to read as follows:
In its deliberations regarding the health professions scholarship and forgivable loan program,
the board shall consider data collected under section 6 of this act in relation to areas of the state, such
as rural communities, experiencing provider shortages as identified by the Washington health services
commission or its successor agency.
NEW SECTION. Sec. 8. The following acts or parts of acts are each repealed:
(1) RCW 28B.125.005 and 1991 c 332 s 4; and
(2) RCW 28B.125.010 and 1993 c 492 s 270 & 1991 c 332 s 5.

NEW SECTION. Sec. 9. Information gathered through this act shall not be used to change or recommend change to the scope of practice of any health care profession nor shall the commission, the information advisory council, or its successor, advise or undertake to change such scope of practice.

Correct all internal references and correct the title accordingly.

(1) The purpose of this chapter is to articulate policies and establish guidelines for the exercise of state and local management authority over Washington’s coastal waters, seabed, and shorelines.

(2) There shall be no leasing of Washington’s tidal or submerged lands extending from mean high tide seaward three miles along the Washington coast from Cape Flattery south to Cape Disappointment, nor in Grays Harbor, Willapa Bay, and the Columbia river downstream from the Longview bridge, for purposes of oil or gas exploration, development, or production until at least July 1, ((1995)) 2000. During the ((1995)) 2000 legislative session, the legislature shall determine whether the moratorium on leasing should be extended past July 1, ((1995)) 2000. This determination shall be based on the information available at that time, including the analysis described in RCW 43.143.040. If the legislature does not extend the moratorium on leasing, the moratorium will end on July 1, ((1995)) 2000. At any time that oil or gas leasing, exploration, and development are allowed to occur, these activities shall be required to meet or exceed the standards and criteria contained in RCW 43.143.030.

(3) When conflicts arise among uses and activities, priority shall be given to resource uses and activities that will not adversely impact renewable resources over uses which are likely to have an adverse impact on renewable resources.

(4) It is the policy of the state of Washington to actively encourage the conservation of liquid fossil fuels, and to explore available methods of encouraging such conservation.

(5) It is not currently the intent of the legislature to include recreational uses or currently existing commercial uses involving fishing or other renewable marine or ocean resources within the uses and activities which must meet the planning and review criteria set forth in RCW 43.143.030. It is not the intent of the legislature, however, to permanently exclude these uses from the requirements of RCW 43.143.030. If information becomes available which indicates that such uses should reasonably be covered by the requirements of RCW 43.143.030, the permitting government or agency may require compliance with those requirements, and appeals of that decision shall be handled through the established appeals procedure for that permit or approval."
The state shall participate in federal ocean and marine resource decisions to the fullest extent possible to ensure that the decisions are consistent with the state's policy concerning the use of those resources.

POINT OF PERSONAL PRIVILEGE

Representative Kessler: Thank you Mr. Speaker. Well, this afternoon Mr. Speaker I had a moment in my life here on the floor that was very embarrassing for me. I honestly, I couldn’t believe it when one of our young Pages delivered, and I’m not going to open it up to the offensive page, but delivered this package and three of us were sitting there having a discussion on the floor, and one of the members started flipping through it, there was a man present when this was happening and I looked at it and I have to quite frankly tell you that I was appalled, I was embarrassed, and I can’t believe that this was necessary to get a point across, to show a picture of a woman in that position. I mean I’ve raised four children to adulthood and I’ve kept that kind of literature out of my home, because I choose not to look at it. And I did not anticipate seeing a young child carry this piece of pornography to every members desk in this body. I am embarrassed. I am totally embarrassed. And I think the member who distributed it owes many of us an apology. And I’m sorry it does cut across both sides of the aisle. I think many of us would not choose to look at this kind of literature. And I really hope that he will consider apologizing to the body. Thank you Mr. Speaker.

Speaker: Representative Kessler, the Speaker would like to point out that any materials that are to be passed out to the members desks will be approved by the Speaker, that is the Rule. The Rule was not followed.

I have made that clearly known to our Caucus and I’m making it known to all members at this time. And the purpose of that Rule is to make sure that materials are being placed. There are times that members wish to place materials for various reasons, my concern is with what happens with this membership. Those were not approved and were distributed and I have already taken action to make it very clear that in the future there are no materials distributed unless I or the person I appoint, which is the Chief Clerk, approves those.

Representative Kessler: Thank you very much.

POINT OF PERSONAL PRIVILEGE

Representative Goldsmith: Thank you Mr. Speaker. When it was mailed to me through the United States Mail, I also considered it pornography. But it was published in one of our Universities’ newspapers.

Speaker. Representative Goldsmith, What we’re dealing with here is the Rules of the House. And even though people may do things that are offensive to us in other areas we do not control those areas, here we do control those areas and the point the Speaker is trying to make is we will be making decisions based on our decisions on what materials will be passed out here from either side of the aisle. And quite frankly there’s been material from both sides of the aisle that we’ve had to say no on. And I can assure you that in the future there will be additional times that the Speaker is going to be saying no and quite frankly sometimes people are trying to make political positions and I will not have that either. And I will not have this particular material passed out.

POINT OF PERSONAL PRIVILEGE

Representative Ebersole: Thank you Mr. Speaker. Let me say that we appreciate the decision of the Chair to be a reasonable and fair one.

ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 5633, by Senate Committee on Ways & Means (originally sponsored by Senators Snyder, Swecker, Hargrove, Haugen, Morton, Hochstatter, Owen and Rasmussen)

Attempting to limit the growth and spread of the noxious weed Spartina.

The bill was read the second time.
There being no objection, the committee amendment was not adopted. Committee on Appropriations recommendation: Majority, do pass as amended. (For committee amendment see Journal, 85th Day, April 3, 1995.)

Representative Chandler moved adoption of the following amendment by Representative Chandler:

Strike everything after the enacting clause and insert the following:

"NEW SECTION.  Sec. 1. The legislature finds that:

(1) Spartina alterniflora, Spartina anglica, Spartina x townsendii, and Spartina patens which are collectively called spartina are not native to the state of Washington nor to the west coast of North America. This noxious weed was inadvertently introduced into the wetlands of the state and is now aggressively invading new areas to the detriment of native ecosystems and aquatic habitat. The spread of spartina threatens to permanently convert and displace native freshwater and saltwater wetlands and intertidal zones, including critical habitat for migratory birds, many fish species, bivalves, invertebrates, marine mammals, and other animals. The continued spread of spartina will permanently reduce the diversity and the quantity of these species and will have a significant negative environmental impact.

Spartina poses a significant hydrological threat. Clumps and meadows of spartina are dense environments that bind sediments and lift the intertidal gradient up out of the intertidal zone through time. This process reduces flows during flood conditions, raises flood levels, and significantly alters the hydrological regime of estuarine areas.

Spartina spreads by rhizomes and seed production. Through lateral growth by rhizomes, spartina establishes a dense monotypic meadow. Through seed production and the spread of seed through the air and by water, spartina is currently being spread to other states and to Canadian provinces.

(2) Purple loosestrife was first documented in the state in 1929 along freshwater shorelands. It is now present throughout the state and is particularly abundant in Grant county and its neighboring counties. The plant appears to be colonizing more rapidly on the eastern side of the state than on the western side. It was first introduced to the Winchester Wasteway area in the 1960's and has invaded the area rapidly. Purple loosestrife is displacing native plants and as a result is threatening an extremely important part of this state's wildlife habitat. Lythrum salicaria and L. virgatum are closely related loosestrife species that are morphologically similar and not easily distinguished from each other in the field. Both species have been referred to as purple loosestrife.

(3) Current laws and rules designed to protect the environment and preserve the wetland habitats, fish, and wildlife of the state are not designed to respond to an ecosystem-wide threat of this kind. State and federal agencies, local governments, weed boards, concerned individuals, and property owners attempting to deal with the ecological emergency posed by spartina and purple loosestrife infestations have been frustrated by interagency disagreements, demands for an undue amount of procedural and scientific process and information, dilatory appeals, and the improper application of laws and regulations by agencies that have in fact undermined the legislative purposes of those same laws while ignoring the long-term implications of delay and inaction. There is a compelling need for strong leadership, coordination, and reporting by a single state agency to respond appropriately to this urgent environmental challenge.

Any further delay of control efforts will significantly increase the cost of spartina and purple loosestrife control and reduce the likelihood of long-term success. Control efforts must be coordinated across political and ownership boundaries in order to be effective.

(4) The presence of noxious weeds on public lands constitutes a public nuisance and negatively impacts public and private lands. The legislature finds that control and eradication of noxious weeds on private lands is in the public interest.

NEW SECTION. Sec. 2. This state is facing an environmental disaster that will affect other states as well as other nations. The legislature finds that six years is sufficient time for state agencies to debate solutions to the spartina and purple loosestrife problems that are occurring in state waters. One of the purposes of this act is to focus agency action on control and future eradication of spartina and purple loosestrife. It is the mandate of the legislature that one state agency, the department of
agriculture, be responsible for a unified effort to eliminate spartina and control purple loosestrife, with the advice of the state noxious weed control board, and that state agency shall be directly accountable to the legislature on the progress of the spartina eradication and purple loosestrife control program.

NEW SECTION. Sec. 3. A new section is added to chapter 90.48 RCW to read as follows:
(1) The director shall issue or approve water quality permits for use by federal, state, or local governmental agencies and licensed applicators for the purpose of using, for aquatic noxious weed control, herbicides and surfactants registered under state or federal pesticide control laws. The issuance of the permits shall be subject only to compliance with: Federal and state pesticide label requirements, the requirements of the federal insecticide, fungicide, and rodenticide act, the Washington pesticide control act, the Washington pesticide application act, and the state environmental policy act; and applicable requirements established in an option or options recommended for controlling the noxious weed by a final environmental impact statement published under chapter 43.21C RCW by the department prior to the effective date of this section, by the department of agriculture, or by the department of agriculture jointly with other state agencies. This section may not be construed as requiring the preparation of a new environmental impact statement to replace a final environmental impact statement published before the effective date of this section.
(2) The director of ecology may not utilize this permit authority to otherwise condition or burden weed control efforts. The director’s authority to issue water quality modification permits for activities other than the application of surfactants and approved herbicides, to control aquatic noxious weeds, is unaffected by this section.
(3) As used in this section, "aquatic noxious weed" means an aquatic weed on the state noxious weed list adopted under RCW 17.10.080.

NEW SECTION. Sec. 4. A new section is added to chapter 75.20 RCW to read as follows:
(1) An activity conducted solely for the removal or control of spartina shall not require hydraulic project approval.
(2) An activity conducted solely for the removal or control of purple loosestrife and which is performed with hand-held tools, hand-held equipment, or equipment carried by a person when used shall not require hydraulic project approval.
(3) By June 30, 1997, the department of fish and wildlife shall develop rules for projects conducted solely for the removal or control of various aquatic noxious weeds other than spartina and purple loosestrife and for activities or projects for controlling purple loosestrife not covered by subsection (2) of this section, which projects will use, divert, obstruct, or change the natural flow or bed of any of the salt or fresh waters of the state. Following the adoption of the rules, the department shall produce and distribute a pamphlet describing the methods of removing or controlling the aquatic noxious weeds that are approved under the rules. The pamphlet serves as the hydraulic project approval for any project that is conducted solely for the removal or control of such aquatic noxious weeds and that is conducted as described in the pamphlet; no further hydraulic project approval is required for such a project.
From time to time as information becomes available, the department shall adopt similar rules for additional aquatic noxious weeds or additional activities for removing or controlling aquatic noxious weeds not governed by subsection (1) or (2) of this section and shall produce and distribute one or more pamphlets describing these methods of removal or control. Such a pamphlet serves as the hydraulic project approval for any project that is conducted solely for the removal or control of such aquatic noxious weeds and that is conducted as described in the pamphlet; no further hydraulic project approval is required for such a project.
(4) As used in this section, "spartina," "purple loosestrife," and "aquatic noxious weeds" have the meanings prescribed by section 12 of this act.
(5) Nothing in this section shall prohibit the department of fish and wildlife from requiring a hydraulic project approval for those parts of hydraulic projects that are not specifically for the control or removal of spartina, purple loosestrife, or other aquatic noxious weeds.

Sec. 5. RCW 90.58.030 and 1987 c 474 s 1 are each amended to read as follows:

Sec. 6. RCW 17.10.010 and 1987 c 438 s 1 are each amended to read as follows:

Unless a different meaning is plainly required by the context, the following words and phrases as hereinafter used in this chapter shall have the following meanings:

(1) "Noxious weed" means any plant which when established is highly destructive, competitive, or difficult to control by cultural or chemical practices.

(2) "State noxious weed list" means a list of noxious weeds adopted by the state noxious weed control board which list is divided into three classes:

Whenever the word "person" is used in this chapter, it shall be construed to include any political subdivision, government agency, municipality, industry, public or private corporation, copartnership, association, firm, individual or any other entity whatsoever.

NEW SECTION. Sec. 8. State agencies and local governments may not use any other local, state, or federal permitting requirement, regulatory authority, or legal mechanism to override the legislative intent and statutory mandates of this act.

NEW SECTION. Sec. 9. Spartina removal shall include restoration to return intertidal land and other infested lands to the condition found on adjacent unaffected lands in the same tidal elevation. The department of fish and wildlife, the department of ecology, the department of agriculture, and the department of natural resources shall develop a restoration plan in cooperation with owners of spartina infested lands and shall submit the plan to the appropriate standing committees of the house of representatives and the senate by December 31, 1995.

NEW SECTION. Sec. 10. (1) The state department of agriculture is the lead agency for the control of spartina and purple loosestrife with the advice of the state noxious weed control board.

(2) Responsibilities of the lead agency include:

(a) Coordination of the control program including memorandums of understanding, contracts, and agreements with local, state, federal, and tribal governmental entities and private parties;

The plan shall be developed in cooperation with local, state, federal, and tribal governments, private landowners, and concerned citizens. The plan shall prioritize areas for control. NEW SECTION. Sec. 11. This section applies to appropriations made to the department of agriculture specifically for the removal or control of spartina or purple loosestrife or both plants. The legislature finds that: The presence of spartina or purple loosestrife on private lands threatens wildlife habitat and provides a source of renewed infestation for public lands; and effective eradication or control of spartina or purple loosestrife requires concerted efforts on both public and private lands to protect public resources. The department of agriculture may grant funds to other state agencies, local governments, and nonprofit corporations for eradication or control purposes and may use those moneys itself. The department of agriculture may match private funds for eradication or control programs on private property on a fifty-fifty matching basis. The accounting and supervision of the funds at the local level shall be conducted by the department of agriculture.

NEW SECTION. Sec. 13. Sections 1, 2, and 8 through 12 of this act shall constitute a new chapter in Title 17 RCW.

NEW SECTION. Sec. 14. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 15. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately.

The director’s authority to issue water quality modification permits for activities other than the application of surfactants and approved herbicides to control elodea, pond weed, and algae is unaffected by this section."

(5) This section shall expire on June 30, 2001."
Sec. 302. RCW 43.10.19054 and 1975-'76 2nd ex.s. c 21 s 7 are each amended to read as follows:

The provisions of RCW 43.19.1905 shall not apply to materials, supplies, and equipment purchased for resale to other than public agencies by state agencies, including educational institutions. In addition, RCW 43.19.1905 shall not apply to purchases by institutions of higher education participating in the fiscal autonomy pilot program under section 301 of this act or liquor purchased by the state for resale under the provisions of Title 66 RCW.

Sec. 303. RCW 41.06.382 and 1979 ex.s. c 46 s 1 are each amended to read as follows:

(1) Nothing contained in this chapter shall prohibit any institution of higher education, as defined in RCW 28B.10.016, or related board from purchasing services by contract with individuals or business entities if such services were regularly purchased by valid contract at such institution prior to April 23, 1979: PROVIDED, That except as provided in subsection (2) of this section, no such contract may be executed or renewed if it would have the effect of terminating classified employees or classified employee positions existing at the time of the execution or renewal of the contract.

(2) An institution of higher education participating in the fiscal autonomy pilot program under section 301 of this act may purchase services by contract with individuals or business entities if the contract would not result in increased expenditures of public funds for the contracted service and if the contract would not result in the termination of classified employees employed at the institution on the effective date of this act.

Sec. 304. RCW 43.88.110 and 1991 sp.s. c 32 s 27 and 1991 c 358 s 2 are each reenacted and amended to read as follows:

This section sets forth the expenditure programs and the allotment and reserve procedures to be followed by the executive branch for public funds.

(1) Allotments of an appropriation for any fiscal period shall conform to the terms, limits, or conditions of the appropriation.

(2) The director of financial management shall provide all agencies with a complete set of operating and capital instructions for preparing a statement of proposed expenditures at least thirty days before the beginning of a fiscal period. The set of instructions need not include specific appropriation amounts for the agency.

(3) Within forty-five days after the beginning of the fiscal period or within forty-five days after the governor signs the omnibus biennial appropriations act, whichever is later, all agencies shall submit to the governor a statement of proposed expenditures at such times and in such form as may be required by the governor.

(4) Except as provided in subsection (9) of this section, the office of financial management shall develop a method for monitoring capital appropriations and expenditures that will capture at least the following elements:

(a) Appropriations made for capital projects including transportation projects;
(b) Estimates of total project costs including past, current, ensuing, and future biennial costs;
(c) Comparisons of actual costs to estimated costs;
(d) Comparisons of estimated construction start and completion dates with actual dates;
(e) Documentation of fund shifts between projects.

This data may be incorporated into the existing accounting system or into a separate project management system, as deemed appropriate by the office of financial management.

(5) If at any time during the fiscal period the governor projects a cash deficit in a particular fund or account as defined by RCW 43.88.050, the governor shall make across-the-board reductions in allotments for that particular fund or account so as to prevent a cash deficit, unless the legislature has directed the liquidation of the cash deficit over one or more fiscal periods. Except for the legislative and judicial branches and other agencies headed by elective officials, the governor shall review the statement of proposed operating expenditures for reasonableness and conformance with legislative intent. Once the governor approves the statements of proposed operating expenditures, further revisions shall be made only at the beginning of the second fiscal year and must be initiated by the governor. However, changes in appropriation level authorized by the legislature, changes required by across-the-board reductions mandated by the governor, changes caused by executive increases to spending authority, and changes caused by executive decreases to spending authority for failure to comply with the provisions of chapter 36.70A RCW may require additional revisions. Revisions shall
not be made retroactively. Revisions caused by executive increases to spending authority shall not be
made after June 30, 1987. However, the governor may assign to a reserve status any portion of an
agency appropriation withheld as part of across-the-board reductions made by the governor and any
portion of an agency appropriation conditioned on a contingent event by the appropriations act. The
governor may remove these amounts from reserve status if the across-the-board reductions are
subsequently modified or if the contingent event occurs. The director of financial management shall
enter approved statements of proposed expenditures into the state budgeting, accounting, and reporting
system within forty-five days after receipt of the proposed statements from the agencies. If an agency
or the director of financial management is unable to meet these requirements, the director of financial
management shall provide a timely explanation in writing to the legislative fiscal committees.

(6) Except as provided in subsection (9) of this section, it is expressly provided that all
agencies shall be required to maintain accounting records and to report thereon in the manner
prescribed in this chapter and under the regulations issued pursuant to this chapter. Within ninety days
of the end of the fiscal year, all agencies shall submit to the director of financial management their final
adjustments to close their books for the fiscal year. Prior to submitting fiscal data, written or oral, to
committees of the legislature, it is the responsibility of the agency submitting the data to reconcile it
with the budget and accounting data reported by the agency to the director of financial management.

(7) Except as provided in subsection (9) of this section, the director of financial management
shall monitor agency operating expenditures against the approved statement of proposed expenditures
and shall provide the legislature with quarterly explanations of major variances.

(8) The director of financial management may exempt certain public funds from the allotment
controls established under this chapter if it is not practical or necessary to allot the funds. With the
exception of exemptions that may be granted to institutions of higher education that are participating in
the fiscal autonomy pilot program under section 301 of this act, allotment control exemptions expire at
the end of the fiscal biennium for which they are granted. The director of financial management shall
report any exemptions granted under this subsection to the legislative fiscal committees.

(9) In consultation with the higher education coordinating board, the director of the office of
financial management shall develop and implement a simplified allotment and reporting procedure for
institutions of higher education participating in the fiscal autonomy pilot program under section 301 of
this act."

The House was called to order at 10:00 a.m. by the Speaker (Representative Hankins presiding). The Clerk called the roll and a quorum was present.

RESOLUTION

HOUSE RESOLUTION NO. 95-4645, by Representatives Dickerson, Ballasotes, Chappell, Hatfield, Conway, Wolfe, Mason, Cole, Tokuda, Campbell, Kessler, Blanton, Sherstad, Radcliff, Koster, Kremen, Dyer and Basich

WHEREAS, Youth violence in Washington state affects not just individuals but entire families, neighborhoods, and communities; and
WHEREAS, Incidents of youth violence including murder, assault, and rape have been rising steadily for more than a decade; and
WHEREAS, Youth violence is a reflection of significant problems underlying the fabric of our society, from poverty, drug and alcohol abuse, racism, child abuse and neglect, single parent households, inadequate educational systems, and media glamorization of violence; and
WHEREAS, It is the goal of the House of Representatives to stop youth violence by expanding our vision beyond simply preventing violence and envisioning the creation of healthy communities; and
WHEREAS, Creating healthy communities requires bringing together parents, educators, neighborhood associations, businesses, social and health services providers, law enforcement, and young people themselves;

NOW, THEREFORE, BE IT RESOLVED, That the House of Representatives of the State of Washington condemn the scourge of youth violence, and encourage the citizens of this state to actively participate in the creation of renewed, healthy, violence-free communities.

Representative Dickerson moved adoption of the resolution.

Representatives Dickerson, Mason, Sommers, Chopp and Tokuda spoke in favor of adoption of the resolution.

House Resolution No. 4645 was adopted.

POINT OF PERSONAL PRIVILEGE

Representative Costa: Thank you Mr. Speaker, I unfortunately was a little tardy in being here for the House Resolution on youth violence today because I was out gathering resources for an 11 year
old girl that was raped yesterday afternoon. However, I would like to honor the organizations in my area who are working on youth violence: One is the Snohomish County Youth Coalition who works through the Everett YMCA; the other is the interlocal youth gang taskforce through the Snohomish County Office of Children’s Affairs. Another is the students against violence everywhere.

There are other agencies in my area that are working hard to combat youth violence, and I just wanted to be able to recognize them as well today. Thank you.

There being no objection, the House advanced to the sixth order of business.

SECOND READING

SUBSTITUTE SENATE JOINT RESOLUTION NO. 8210, by Senate Committee on Law & Justice (originally sponsored by Senators Smith, McCaslin, Gaspard, Deccio, Wojahn, Snyder, Haugen, Morton, Long, Hale, Rinehart, Newhouse, Loveland, McDonald, Palmer, Bauer, Oke and Winsley; by request of Supreme Court)

Revising size and leadership of the state supreme court.

The resolution was read the second time.

There being no objection, the rules were suspended, the second reading considered the third and the resolution was placed on final adoption.

Representatives Hickel and Dellwo spoke in favor of adoption of the resolution.

Representatives Cole, Hargrove and Brown spoke against adoption of the resolution.

POINT OF INQUIRY

Representative Hickel yielded to a question by Representative Cole.

Representative Cole: Thank you Mr. Speaker. My question is, my understanding is that this would make it possible at a later time to reduce the size of the court with just a majority vote instead of having to have 2/3rds vote like when you have to have a constitutional Amendment is that time.

Representative Hickel: Actually I don’t have the answer to that, it’s my understanding that this measure simply allows the Justices of the Supreme Court to choose who they want to be the Chief Justice. I do not believe but I am not sure, maybe someone else here has that answer as to whether it will effect the other Bill.

Representative Hickel again spoke in favor of passage of the resolution.

MOTIONS

On motion of Representative Brown, Representative Appelwick was excused.

On motion of Representative Talcott, Representatives Benton and Foreman were excused.

The Speaker (Representative Horn presiding) stated the question before the House to be final adoption of Substitute Senate Joint Resolution No. 8210.

ROLL CALL

The Clerk called the roll on the final passage of Substitute Senate Joint Resolution No. 8210, and the resolution was adopted by the following vote: Yea 68, Nay 23, Absent 2, Excused 4.

Absent: Representatives Chopp and Sommers - 2.

Substitute Senate Joint Resolution No. 8210, having received the constitutional majority, was adopted.

The Speaker (Representative Horn presiding) declared the House to be at ease.

The Speaker (Representative Horn presiding) called the House to order.

There being no objection, the House reverted to the fourth order of business.

(1) If the results of an antibiotic, pesticide, or other drug residue test under RCW ((15.36.110)) 15.36.201 are above the actionable level established in the PMO and determined using procedures set forth in the PMO, a person holding a milk producer’s license is subject to a civil penalty. The penalty shall be in an amount equal to one-half the value of the sum of the volumes of milk equivalent produced under the license on the day prior to and the day of the adulteration. The value of the milk shall be computed by the weighted average price for the federal market order under which the milk is delivered.
(2) The penalty is imposed by the department giving a written notice which is either personally served upon or transmitted by certified mail, return receipt requested, to the person incurring the penalty. The notice of the civil penalty shall be a final order of the department unless, within fifteen days after the notice is received, the person incurring the penalty appeals the penalty by filing a notice of appeal with the department. (3) Any penalty imposed under this section is due and payable upon the issuance of the final order by the department. The penalty shall be deducted by the violator’s marketing organization from the violator’s final payment for the month following the issuance of the final order. The department shall promptly notify the violator’s marketing organization of any penalties contained in the final order.

(4) All penalties received or recovered from violations of this section shall be remitted monthly by the violator’s marketing organization to the Washington state dairy products commission and deposited in a revolving fund to be used solely for the purposes of education and research. No appropriation is required for disbursements from this fund.

(5) In case of a violation of the antibiotic, pesticide, or other drug residue test requirements, an investigation shall be made to determine the cause of the residue which shall be corrected. Follow-up sampling and testing must be done in accordance with the requirements of the PMO.

An inspection shall be conducted and an inspection report for a food storage warehouse shall be filed with the department at least once every twelve months or the warehouse shall be licensed under this chapter and inspected by the department for a period of two years.

(1) Whenever the director finds a food storage warehouse operating under conditions that constitute an immediate danger to public health or whenever the licensee or any employee of the licensee actively prevents the director or the director’s representative, during an on-site inspection, from determining whether such a condition exists, the director may summarily suspend, pending a hearing, a license provided for in this chapter.
(2) Whenever a license is summarily suspended, the holder of the license shall be notified in writing that the license is, upon service of the notice, immediately suspended and that prompt opportunity for a hearing will be provided.
(3) Whenever a license is summarily suspended, food distribution operations shall immediately cease. However, the director may reinstate the license if the condition that caused the suspension has been abated to the director’s satisfaction.

Sec. 301, et seq.), if the department would have the authority under this chapter to adopt the regulations. (2) The director when adopting rules in respect to the feed industry shall consult with affected parties, such as manufacturers and distributors of commercial feed and any final rule adopted shall be designed to promote orderly marketing and shall be reasonable and necessary and based upon the requirements and condition of the industry and shall be for the purpose of promoting the well-being of the members of the feed industry as well as the well-being of the purchasers and users of feed and for the general welfare of the people of the state.

NEW SECTION. Sec. 35. A new section is added to chapter 15.53 RCW to read as follows:

(1) Beginning January 1, 1996, a person who manufactures a commercial feed, is an initial distributor of a commercial feed, or whose name appears as the responsible party on a commercial feed label to be distributed in or into this state shall first obtain from the department a commercial feed license for each facility. Sale of food processing byproducts from fruit, vegetable, or potato processing plants, freezing or dehydrating facilities, or juice or jelly preserving plants, bona fide experimental feed on which accurate records and experimental programs are maintained, and pet food and specialty pet food are exempt from the requirement of a commercial feed license. The sale of byproducts or products of sugar refineries are not exempt from the requirement of a commercial feed license.

(2) Application for a commercial feed license shall be made annually on forms provided by the department and shall be accompanied by a fee of fifty dollars, except that for the period beginning January 1, 1996, and ending June 30, 1996, the fee shall be twenty-five dollars. The assessment of the delinquency fee shall not prevent the department from taking other action as provided for in this chapter. The penalty does not apply if the applicant furnishes an affidavit that he or she has not distributed a commercial feed subsequent to the expiration of his or her prior license.

(5) The department may deny a license application if the applicant is not in compliance with this chapter or applicable rules, and may revoke a license if the licensee is not in compliance with this chapter or applicable rules. Prior to denial or revocation of a license, the department shall provide notice and an opportunity to correct deficiencies. If an applicant or licensee fails to correct the deficiency, the department shall deny or revoke the license. If aggrieved by the decision, the applicant or licensee may request a hearing as authorized under chapter 34.05 RCW.
Notwithstanding the payment of a delinquency fee, it is a violation to distribute a commercial feed by an unlicensed person, and nothing in this chapter shall prevent the department from imposing a penalty authorized by this chapter for the violation.

The department may under conditions specified by rule, request copies of labels and labeling in order to determine compliance with the provisions of this chapter.

Sec. 36. RCW 15.53.9014 and 1993 sp. s. c 19 s 2 are each amended to read as follows:

(1) Each ((commercial feed)) pet food and specialty pet food shall be registered with the department and such registration shall be renewed annually before such commercial feed may be distributed in this state:(Provided, That sales of food processing byproducts from fruit, vegetable, or potato processing plants, freezing or dehydrating facilities, or juice or jelly preserving plants; unmixed seed, whole or processed, made directly from the entire seed; unground hay, straw, stover, silage, cobs, husks, and hulls, when not mixed with other material; bona fide experimental feeds on which accurate records and experimental programs are maintained; and customer formula feeds are exempt from such registration. If such commercial feed is also distributed in packages of less than ten pounds it shall be registered under subsection (b) of this section.

(b) Beginning July 1, 1993, each registration for a commercial feed product distributed in packages of less than ten pounds shall be accompanied by an annual registration fee of forty-five dollars on each such commercial feed so distributed, but no inspection fee may be collected on packages of less than ten pounds of the commercial feed so registered).

(2) The application for registration of pet food and specialty pet food shall be on forms provided by the department and shall be accompanied by the fees in subsection (3) of this section. Registrations expire on June 30th of each year.

(3) Pet food and specialty pet food registration fees are as follows:

(7) The department is ((empowered)) authorized to refuse registration of any application not in compliance with the provisions of this chapter and any rule adopted under this chapter and to cancel any registration subsequently found to be not in compliance with any provisions of this chapter, but a registration shall not be refused or canceled until the registrant has been given opportunity to be heard before the department and to amend his application in order to comply with the requirements of)) and any rule adopted under this chapter. Prior to refusal or cancellation of a registration, the applicant or registrant of an existing registered pet food or specialty pet food shall be notified of the reasons and given an opportunity to amend the application to comply. corrections, the department shall refuse to register the feed. The applicant or registrant of an existing registered pet food or specialty pet food may request a hearing as provided for in chapter 34.05 RCW.

8) After January 1, 1996, application for renewal of registration is due July 1st of each year. If an application for renewal of the registration provided for in this section is not filed prior to July 15th of any one year, a penalty of ten dollars per product shall be assessed and added to the original fee and shall be paid by the applicant before the renewal registration may be issued, unless the applicant furnishes an affidavit that he has not distributed this feed subsequent to the expiration of his or her prior registration.

9) It is a violation of this chapter to distribute an unregistered pet food or specialty pet food. Payment of a delinquency fee shall not prevent the department from imposing a penalty authorized by this chapter for the violation.

Sec. 37. RCW 15.53.9016 and 1965 ex.s. c 31 s 5 are each amended to read as follows:

1) Any commercial feed (registered with the department and), except a customer-formula feed, distributed in this state shall be accompanied by a legible label bearing the following information:

For mineral feeds the list shall include the following if added: Minimum and maximum percentages of calcium (Ca), minimum percentage of phosphorus (P), minimum percentage of iodine (I), and minimum and maximum percentages of salt (NaCl). Other substances or elements, determinable by laboratory methods, may be guaranteed by permission of the department. When any items are guaranteed, they shall be subject to inspection and analysis in accordance with the methods and regulations that may be prescribed by the department. Products distributed solely as mineral and/or vitamin supplements and guaranteed as specified in this section need not show guarantees for protein, fat, and fiber.
   d) The guaranteed analysis stated in such terms as the department by rule determines is required to advise the user of the composition of the feed or to support claims made in the labeling. In all cases the substances or elements must be determinable by laboratory methods such as the methods published by the association of official analytical chemists.
   e) The common or usual name of each ingredient used in the manufacture of the commercial feed, except as the department may, by regulation, permit the use of a collective term for a group of ingredients all of which perform the same function. An ingredient statement is not required for single standardized ingredient feeds which are officially defined.
   f) Adequate directions for use for all commercial feeds containing drugs and for all such other commercial feeds as the department may require by rule as necessary for their safe and effective use.
   g) Precautionary statements as the department by rule determines are necessary for the safe and effective use of the commercial feed.
   h) The net weight as required under chapter 19.94 RCW.

2) When a commercial feed, except a customer-formula feed, is distributed in this state in bags or other containers, the label shall be placed on or affixed to the container; when a commercial feed, except a customer-formula feed, is distributed in bulk the label shall accompany delivery and be furnished to the purchaser at time of delivery.

3) A customer-formula feed shall be labeled by ((invoice)) shipping document. The ((invoice)) shipping document, which is to accompany delivery and be supplied to the purchaser at the time of delivery, shall bear the following information:
   a) Name and address of the (mixer) manufacturer;
   b) Name and address of the purchaser;
   c) Date of (sale and) delivery;

4) If a commercial feed contains a nonnutritive substance which is intended for use in the diagnosis, cure, mitigation, treatment, or prevention of disease or which is intended to affect the
structure or any function of the animal body, the department may require the label to show the amount present, directions for use, and/or warnings against misuse of the feed.

(5) A customer-formula feed shall be considered to be in violation of this chapter if it does not conform to the invoice labeling. Upon request of the department it shall be the duty of the person distributing the customer-formula feed to supply the department with a copy of the invoice which represents that particular feed. PROVIDED That such person shall not be required to keep such invoice for a period of longer than six months.

Product name and the net weight as required under chapter 19.94 RCW;

Adopted directions for use for all customer-formula feeds containing drugs and for such other feeds as the department may require by rule as necessary for their safe and effective use;

(e) If a drug containing product is used:

(1) The purpose of the medication (claim statement);

(ii) The established name of each active drug ingredient and the level of each drug used in the final mixture expressed in accordance with rules established by the department.

These records must be kept on file for one year after the last sale. This information shall be made available to the purchaser, the dealer making the sale, and the department on request.

Sec. 38. RCW 15.53.9018 and 1982 c 177 s 3 are each amended to read as follows:

(1) (On or after June 30, 1981,)) Except as provided in subsection (4) of this section, each initial distributor of a commercial feed in this state shall pay to the department an inspection fee on all commercial feed sold by such person during the year. The fee shall be not less than four cents nor more than ((fourteen)) twelve cents per ton as prescribed by the director by rule: PROVIDED That such fees shall be used for routine enforcement ((of RCW 15.53.9022 and for analysis for contaminants only when the department has reasonable cause to believe any lot of feed or any feed ingredient is adulterated)) and administration of this chapter and rules adopted under this chapter.

(2) ((In computing the tonnage on which the inspection fee must be paid, sales of:

(a) Commercial feed to other feed registrants;)) An inspection fee is not required for:

(a) Commercial feed distributed by a person having proof that inspection fees have been paid by his or her supplier (manufacturer); (b) commercial feed in packages weighing less than ten pounds; (c) commercial feed for shipment to points outside this state; (d) food processing byproducts from fruit, vegetable, or potato processing plants, freezing or dehydrating facilities, or juice or jelly preserving plants; and (e) ((unmixed seed, whole or processed, made directly from the entire seed; (f) unground hay, straw, stover, silage, cobs, husks, and hulls, when not mixed with other material; and (g)) bona fide experimental feeds on which accurate records and experimental programs are maintained (may be excluded. The exemption for byproducts provided by this subsection does not apply to byproducts or products of sugar refineries or to materials used in the preparation of pet foods).

(3) Tonnage will be reported and inspection fees will be paid on (a) byproducts or products of sugar refineries; (b) materials used in the preparation of pet foods and specialty pet food.

(4) When more than one distributor is involved in the distribution of a commercial feed, the ((last registrant or)) initial distributor ((who distributes to a nonregistrant (dealer or consumer))) is responsible for reporting the tonnage and paying the inspection fee, unless ((the reporting and paying of fees have been made by a prior distributor of the feed)) this sale or transaction is made to an exempt buyer.

(5) Each person made responsible by this chapter for the payment of inspection fees for commercial feed sold in this state shall file a report with the department on January 1st and July 1st of each year showing the number of tons of such commercial feed sold during the six calendar months immediately preceding the date the report is due. The proper inspection fee shall be remitted with the report. The person required to file the report and pay the fee shall have a thirty-day period of grace immediately following the day the report and payment are due to file the report, and pay the fee. Upon permission of the department, an annual statement under oath may be filed by any person distributing within the state less than one hundred tons for each six-month period during any year, and upon filing such statement such person shall pay the inspection fee at the rate provided for in subsection (1) of this
section. The minimum inspection fee shall be twelve dollars and fifty cents for each six-month reporting period or twenty-five dollars if reporting annually.

(5) Each distributor shall keep such reasonable and practical records as may be necessary or required by the department to indicate accurately the tonnage of commercial feed distributed in this state, and the department has the right to examine such records to verify statements of tonnage. Failure to make an accurate statement of tonnage or to pay the inspection fee or comply as provided herein constitutes a violation of this chapter, and may result in the issuance of an order for “withdrawal from distribution” on any commercial feed being subsequently distributed.

(6) Inspection fees which are due and owing and have not been remitted to the department within thirty days following the due date shall have a collection fee of ten percent, but not less than ten dollars, added to the amount due when payment is finally made. The assessment of this collection fee shall not prevent the department from taking other actions as provided for in this chapter.

(7) For the purpose of determining accurate tonnage of commercial feed distributed in this state or to identify or verify semiannual tonnage reports, the department may require each registrant or licensee, or both, to maintain records or file additional reports.

(8) Records shall be maintained in usable condition by the registrant or licensee for a period of two years unless by rule this retention period is extended.

(9) The department may examine at reasonable times the records maintained under this section. Records shall be maintained in usable condition by the registrant or licensee for a period of two years unless by rule this retention period is extended.

(10) The registrant or licensee shall maintain records required under this section and submit these records to the department upon request.

(11) Any person responsible for reporting tonnage or paying inspection fees who fails to do so before the thirty-first day following the last day of each reporting period, shall pay a penalty equal to fifteen percent of the inspection fee due or fifty dollars, whichever is greater. The penalty, together with any delinquent inspection fee is due before the forty-first day following the last day of each reporting period. The department may cancel registration of a registrant or may revoke a license of a licensee who fails to pay the penalty and delinquent inspection fees within that time period. The applicant or licensee may request a hearing as authorized under chapter 34.05 RCW.

(12) The report required by subsection (((4))) (5) of this section shall not be a public record, and it is a misdemeanor for any person to divulge any information given in such report which would reveal the business operation of the person making the report: PROVIDED, That nothing contained in this subsection shall be construed to prevent or make unlawful the use of information concerning the business operation of a person if any action, suit, or proceeding instituted under the authority of this chapter, including any civil action for collection of unpaid inspection fees, which action is hereby authorized and which shall be as an action at law in the name of the director of the department.

Sec. 39. RCW 15.53.902 and 1982 c 177 s 4 are each amended to read as follows:

It is unlawful for any person to distribute an adulterated feed. A commercial feed is deemed to be adulterated:

(1) If it bears or contains any poisonous or deleterious substance which may render it injurious to health; but in case the substance is not an added substance, such commercial feed shall not be considered adulterated under this subsection if the quantity of such substance in such commercial feed does not ordinarily render it injurious to health; or

(2) If it bears or contains any added poisonous, added deleterious, or added nonnutritive substance which is unsafe within the meaning of section 406 of the Federal Food, Drug, and Cosmetic Act (other than one which is (a) a pesticide chemical in or on a raw agricultural commodity; or (b) a food additive); or

(3) If it is, or it bears, or contains any food additive which is unsafe within the meaning of section 409 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. Sec. 348); or

(4) If it is a raw agricultural commodity and it bears or contains a pesticide chemical which is unsafe within the meaning of section 408(a) of the Federal Food, Drug, and Cosmetic Act: PROVIDED, That where a pesticide chemical has been used in or on a raw agricultural commodity in conformity with an exemption granted or a tolerance prescribed under section 408 of the Federal Food, Drug, and Cosmetic Act and such raw agricultural commodity has been subjected to processing such as canning, cooking, freezing, dehydrating, or milling, the residue of such pesticide chemical remaining
in or on such processed feed shall not be deemed unsafe if such residue in or on the raw agricultural commodity has been removed to the extent possible in good manufacturing practice and the concentration of such residue in the processed feed is not greater than the tolerance prescribed for the raw agricultural commodity unless the feeding of such processed feed will result or is likely to result in a pesticide residue in the edible product of the animal, which is unsafe within the meaning of section 408(a) of the Federal Food, Drug, and Cosmetic Act; or

(5) If it is, or it bears or contains any color additive which is unsafe within the meaning of section 706 of the Federal Food, Drug, and Cosmetic Act; or

(6) If it is, or it bears or contains any new animal drug that is unsafe within the meaning of section 512 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. Sec. 360b); or

(7) If any valuable constituent has been in whole or in part omitted or abstracted therefrom or any less valuable substance substituted therefor; or

((7))) (8) If its composition or quality falls below or differs from that which it is purported or is represented to possess by its labeling; or

((8))) (9) If it contains a drug and the methods used in or the facilities or controls used for its manufacture, processing, or packaging do not conform to current good manufacturing practice rules adopted by the department to assure that the drug meets the requirements of this chapter as to safety and has the identity and strength and meets the quality and purity characteristics that it purports or is represented to possess. In adopting such rules, the department shall adopt the current good manufacturing practice regulations for type A medicated articles and type B and type C medicated feeds established under authority of the Federal Food, Drug, and Cosmetic Act, unless the department determines that they are not appropriate to the conditions that exist in this state; or

(10) If it contains viable, prohibited (primary) noxious weed seeds in excess of one per pound, or if it contains viable, restricted (secondary) noxious weed seeds in excess of twenty-five per pound. The primary and secondary noxious weed seeds shall be those as named pursuant to the provisions of chapter 15.49 RCW ((as enacted or hereafter amended)) and rules adopted thereunder.

Sec. 40. RCW 15.53.9022 and 1965 ex.s. c 31 s 8 are each amended to read as follows:
It shall be unlawful for any person to distribute misbranded feed. A commercial feed shall be deemed to be misbranded:
(1) If its labeling is false or misleading in any particular;
(2) If it is distributed under the name of another commercial feed;
(3) If it is not labeled as required in RCW 15.53.9016 and in ((regulations)) rules prescribed under this chapter;
(4) If it purports to be or is represented as a commercial feed ((ingredient)), or if it purports to contain or is represented as containing a commercial feed or feed ingredient, unless such commercial feed or feed ingredient conforms to the definition of identity, if any, prescribed by ((regulation)) rule of the department. In the adopting of such ((regulations)) rules the department may consider commonly accepted definitions such as those issued by nationally recognized associations or groups of feed control officials;
(5) If any word, statement, or other information required by or under authority of this chapter to appear on the label or labeling is not prominently placed thereon with such conspicuousness (as compared with other words, statements, designs, or devices, in the labeling) and in such terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use;
(6) If its composition or quality falls below or differs from that which it is purported or is represented to possess by its labeling.

Sec. 41. RCW 15.53.9024 and 1965 ex.s. c 31 s 9 are each amended to read as follows:
(1) It shall be the duty of the department to sample, inspect, make analysis of, and test commercial feed distributed within this state at such time and place and to such an extent as it may deem necessary to determine whether such feeds are in compliance with the provisions of this chapter. The department is authorized to stop any commercial vehicle transporting feed on the public highways and direct it to the nearest scales approved by the department to check weights of feeds being delivered. The department is also authorized, upon presentation of proper identification, to enter any distributor's premises including any vehicle of transport at all reasonable times in order to have access
to commercial feed and to records relating to their distribution. This includes the determining of the weight of packages and bulk shipments.

(2) The methods of sampling and analysis shall be those adopted by the department from officially recognized sources.

(3) For the purpose of enforcement of this chapter, and in order to determine whether its provisions have been complied with, including whether an operation is subject to such provisions, inspectors duly designated by the director, upon presenting appropriate credentials, and a written notice to the owner, operator, or agent in charge, are authorized (a) to enter, during normal business hours, a factory, warehouse, or establishment within the state in which commercial feeds are manufactured, processed, packed, or held for distribution, or to enter a vehicle being used to transport or hold such feeds; and (b) to inspect at reasonable times and within reasonable limits and in a reasonable manner, such factory, warehouse, establishment, or vehicle and all pertinent equipment, finished and unfinished materials, containers, and labeling. The inspection may include the verification of only such records, and production and control procedures as may be necessary to determine compliance with the current good manufacturing practice regulations established under RCW 15.53.902(9) and rules adopted under good manufacturing practices for feeds to include nonmedicated feeds.

(2) A separate notice shall be given for each such inspection, but a notice is not required for each entry made during the period covered by the inspection. Each such inspection shall be commenced and completed with reasonable promptness. Upon completion of the inspection, the person in charge of the facility or vehicle shall be so notified.

(3) If the inspector or employee making such inspection of a factory, warehouse, or other establishment has obtained a sample in the course of the inspection, upon completion of the inspection and prior to leaving the premises, he or she shall give to the owner, operator, or agent in charge, a receipt describing the samples obtained.

(4) If the owner of a factory, warehouse, or establishment described in subsection (1) of this section, or his or her agent, refuses to admit the director or his or her agent to inspect in accordance with subsections (1) and (2) of this section, the director or his or her agent is authorized to obtain from any court of competent jurisdiction a warrant directing such owner or his or her agent to submit the premises described in the warrant to inspection.

(5) For the enforcement of this chapter, the director or his or her duly assigned agent is authorized to enter upon any public or private premises including any vehicle of transport during regular business hours to have access to, and to obtain samples, and to examine records relating to distribution of commercial feeds.

(6) Sampling and analysis shall be conducted in accordance with methods published by the association of official analytical chemists, or in accordance with other generally recognized methods.

(7) The results of all analyses of official samples shall be forwarded by the department to the person named on the label and to the purchaser, if known. If the inspection and analysis of an official sample indicates a commercial feed has been adulterated or misbranded and upon request within thirty days following the receipt of the analysis, the department shall furnish to the registrant or licensee a portion of the sample concerned. If referee analysis is requested, a portion of the official sample shall be furnished by the department and shall be sent directly to an independent lab agreed to by all parties.

(8) The department, in determining for administrative purposes whether a feed is deficient in any component, shall be guided solely by the official sample as defined in RCW 15.53.901(((13))) (20) and obtained and analyzed as provided for in this section.

(4) When the inspection and analysis of an official sample has been made the results of analysis shall be forwarded by the department to the distributor and to the purchaser if known. Upon request and within thirty days the department shall furnish to the distributor a portion of the sample concerned.

(9) Analysis of an official sample by the department shall be accepted as prima facie evidence by any court of competent jurisdiction.

Sec. 42. RCW 15.53.9038 and 1982 c 177 s 5 are each amended to read as follows:

(1) When the department has reasonable cause to believe that any lot of commercial feed is adulterated or misbranded or is being distributed in violation of this chapter or any ((regulations)) rules hereunder it may issue and enforce a written or printed "withdrawal from distribution" order, or "stop sale" order, warning the distributor not to dispose of the lot of feed in any manner until written permission is given by the department ((or a court of competent jurisdiction)). The department shall
release the lot of commercial feed so withdrawn when the provisions and ((regulations)) rules have been complied with. If compliance is not obtained within thirty days, parties may agree to an alternative disposition in writing or the department may ((begin)) institute condemnation proceedings ((for condemnation)) in a court of competent jurisdiction.

(2) Any lot of commercial feed not in compliance with the provisions and ((regulations)) rules is subject to seizure on complaint of the department to a court of competent jurisdiction in the area in which the commercial feed is located. If the court finds the commercial feed to be in violation of this chapter and orders the condemnation of the commercial feed, it shall be disposed of in any manner consistent with the quality of the commercial feed and the laws of the state. The court shall first give the claimant an opportunity to apply to the court for release of the commercial feed or for permission to process or relabel the commercial feed to bring it into compliance with this chapter.

**Sec. 43.** RCW 15.53.9042 and 1965 ex.s. c 31 s 18 are each amended to read as follows:

The department shall publish at least annually, in such forms as it may deem proper, information concerning the distribution of commercial feed, together with such data on their production and use as it may consider advisable, and a report of the results of the analyses of official samples of commercial feed within the state as compared with the analyses guaranteed ((in the registration and)) on the label or as calculated from the invoice data for customer-formula feeds. PROVIDED, That the information concerning production and use of commercial feeds shall not disclose the operations of any person.

**Sec. 44.** RCW 15.53.9053 and 1975 1st ex.s. c 257 s 12 are each amended to read as follows:

((((1) The following acts or parts of acts are each repealed:

"NEW SECTION. Sec. 75. The legislature finds that in Washington, the loss of state lands from productive use due to infestation by noxious weeds is a major public concern."
It is the intent of the legislature that serious and fundamental policy direction be given to state agencies to:

(1) Ensure that state lands set an example of excellence in noxious weed control and eradication on state lands;

(2) Halt the spread of noxious weeds from state to private lands;

(3) Recognize that state agencies are ultimately responsible for noxious weed control on state land, regardless of type, timing, or amount of use;

(4) Recognize that the public is not well served by the spread of noxious weeds on state lands, in part, because of the decrease in wildlife habitat and loss of land productivity.

The legislature further finds that biological control agents represent one of the only cost-effective control measures for existing, widespread noxious weed infestations. Members of the genus *Centaurea*, commonly referred to as knapweeds, currently infest and destroy the productivity of hundreds of thousands of acres in Washington.

NEW SECTION. Sec. 76. The state noxious weed control board shall develop a study to determine the cost of controlling weeds on state-owned or managed lands, included along state-owned rights of way. The board may conduct the study, or may contract with either public or private agencies to conduct and complete the study. The departments of natural resources, transportation, and fish and wildlife, and the parks and recreation commission shall cooperate with the weed board or the contractor in the study.

As part of the study, the state noxious weed control board shall identify those weed species that are practical to control and should be controlled. The board shall also identify the costs of not controlling these weeds. The board may exclude from the study those weeds that, due to high cost or impracticality, cannot be controlled on private lands. The board shall develop a prioritized list of weeds that are practical to control and that should be controlled on state-owned and managed lands.

NEW SECTION. Sec. 77. The state noxious weed control board shall study alternative funding mechanisms for Washington’s noxious weed control program. The departments of natural resources, transportation, and fish and wildlife, and the parks and recreation commission shall cooperate with the weed board in the study. As part of the study, the state noxious weed control board shall identify the impacts and costs of each alternative. Funding alternatives shall address weed control needs of private citizens, local governments, county weed boards, state agencies, the state noxious weed control board, and federal agencies.

NEW SECTION. Sec. 78. A new section is added to chapter 17.10 RCW to read as follows: All state agencies shall control noxious weeds on lands they own, lease, or otherwise control. Agencies shall develop plans to control noxious weeds in accordance with standards in this chapter. All state agencies’ lands must comply with this chapter, regardless of noxious weed control efforts on adjacent lands. County noxious weed control boards shall assist landowners to meet and exceed the standards on state lands.

NEW SECTION. Sec. 79. (1) The standing committee on agriculture and agricultural trade and development of the senate and the standing committee on agriculture and ecology of the house of representatives shall jointly study land leasing practices of state agencies in regard to weed control and report their findings to the legislature in 1996.

(2) State agencies shall list noxious weed control projects in their respective jurisdictions in order of priority, along with their plans to control these infestations, and shall submit the lists and plans to the legislative committees identified in subsection (1) of this section before the beginning of the 1996 regular session of the legislature.

Sec. 80. RCW 17.10.240 and 1987 c 438 s 31 are each amended to read as follows:

The activated county noxious weed control board of each county shall annually submit a budget to the county legislative authority for the operating cost of the county’s weed program for the ensuing fiscal year: PROVIDED, That if the board finds the budget approved by the legislative authority is insufficient for an effective county noxious weed control program it shall petition the county legislative authority to hold a hearing as provided in RCW 17.10.890. Control of weeds is a special benefit to the
lands within any such section. Funding for the budget shall be derived from ((either or both)) any or all of the following:

(1) The county legislative authority may, in lieu of a tax, levy an assessment against the land for this purpose. Prior to the levying of an assessment the county noxious weed control board shall hold a public hearing at which it shall gather information to serve as a basis for classification and shall then classify the lands into suitable classifications, including but not limited to dry lands, range lands, irrigated lands, nonuse lands, forest lands, or federal lands. The board shall develop and forward to the county legislative authority, as a proposed level of assessment for each class, such an amount as shall seem just. The assessment rate shall be either uniform per acre in its respective class or a flat rate per parcel rate plus a uniform rate per acre. PROVIDED. That if no special benefits should be found to accrue to a class of land, a zero assessment may be levied. The legislative authority, upon receipt of the proposed levels of assessment from the board, after a hearing, shall accept, modify, or refer back to the board for its reconsideration all or any portion of the proposed levels of assessment. The findings by the county legislative authority of such special benefits, when so declared by resolution and spread upon the minutes of said authority shall be conclusive as to whether or not the same constitutes a special benefit to the lands within the section. The amount of such assessment shall constitute a lien against the property. The county legislative authority may by resolution or ordinance require that notice of the lien be sent to each owner of property for which the assessment has not been paid by the date it was due and that each such lien created shall be collected by the treasurer in the same manner as delinquent real property tax, if within thirty days from the date the owner is sent notice of the lien, including the amount thereof, the lien remains unpaid and an appeal has not been made pursuant to RCW 17.10.180. Liens treated as delinquent taxes shall bear interest at the rate of twelve percent per annum and such interest shall accrue as of the date notice of the lien is sent to the owner: PROVIDED FURTHER, That any collections for such lien shall not be considered as tax; or

(2) The county legislative authority may appropriate money from the county general fund necessary for the administration of the county noxious weed control program. In addition the county legislative authority may make emergency appropriations as it deems necessary for the implementation of this chapter.

(3) Forest lands used solely for the planting, growing, or harvesting of trees and which are typified, except during a single period of five years following clear-cut logging, by canopies so dense as to prohibit growth of an understory may be subject to an annual noxious weed assessment levied by a county legislative authority that shall not exceed one-tenth of the weighted average per acre noxious weed assessment levied on all other lands in unincorporated areas within the county that are subject to the weed assessment. This assessment shall be computed in accordance with the formula in subsection (4) of this section.

(4) The calculation of the "weighted average per acre noxious weed assessment" shall be a ratio expressed as follows: (a) The numerator shall be the total amount of funds estimated to be collected from the per acre assessment on all lands except (i) forest lands as identified in subsection (3) of this section, (ii) lands exempt from the noxious weed assessment, and (iii) lands located in an incorporated area. (b) The denominator shall be the total acreage from which funds in (a) of this subsection are collected. For lands of less than one acre in size, the denominator calculation may be based on the following assumptions: (i) Unimproved lands shall be calculated as being one-half acre in size on the average, and (ii) improved lands shall be calculated as being one-third acre in size on the average. The county legislative authority may choose to calculate the denominator for lands of less than one acre in size using other assumptions about average parcel size based on local information.

(5) For those counties that levy a per parcel assessment to help fund noxious weed control programs, the per parcel assessment on forest lands as defined in subsection (3) of this section shall not exceed one-tenth of the per parcel assessment on nonforest lands.

NEW SECTION. Sec. 81. The sum of thirty thousand dollars, or as much thereof as may be necessary, is appropriated from the general fund for the biennium ending June 30, 1997, to Washington State University for the use of the cooperative extension service in the selection, testing, and production of biological control agents for knapweed species on the state noxious weed list adopted under RCW 17.10.080, with the intent of improving field availability of these agents.

NEW SECTION. Sec. 82. The sum of twenty thousand dollars, or as much thereof as may be necessary, is appropriated from the general fund for the biennium ending June 30, 1997, to the state
noxious weed control board to study, or contract for a study, on the cost of controlling weeds on state-owned or managed lands."

Representative Chandler moved adoption of the following amendment by Representative Chandler:

Strike everything after the enacting clause and insert the following:

*NEW SECTION. Sec. 1. The legislature finds that:
Protection of the state’s water resources, and utilization of such resources for provision of public water supplies, requires more efficient and effective management than is currently provided under state law;

The provision of public water supplies to the people of the state should be undertaken in a manner that is consistent with the planning principles of the growth management act and the comprehensive plans adopted by local governments under the growth management act;

Small water systems have inherent difficulties with proper planning, operation, financing, management and maintenance. The ability of such systems to provide safe and reliable supplies to their customers on a long-term basis needs to be assured through proper management and training of operators;

New water quality standards and operational requirements for public water systems will soon generate higher rates for the customers of those systems, which may be difficult for customers to afford to pay. It is in the best interest of the people of this state that small systems maintain themselves in a financially viable condition;

The drinking water 2000 task force has recommended maintaining a strong and properly funded state-wide drinking water program, retaining primary responsibility for administering the federal safe drinking water act in Washington. The task force has further recommended delegation of as many water system regulatory functions as possible to local governments, with provision of adequate resources and elimination of barriers to such delegation. In order to achieve these objectives, the state shall provide adequate funding from both general state funds and funding directly from the regulated water system;

The public health services improvement plan recommends that the principal public health functions in Washington, including regulation of public water systems, should be fully funded by state revenues and undertaken by local jurisdictions with the capacity to perform them; and

State government, local governments, water suppliers, and other interested parties should work for continuing economic growth of the state by maximizing the use of existing water supply management alternatives, including regional water systems, satellite management, and coordinated water system development.

Sec. 2. RCW 70.116.060 and 1977 ex.s. c 142 s 6 are each amended to read as follows:

A coordinated water system plan shall be submitted to the secretary for design approval within two years of the establishment of the boundaries of a critical water supply service area.

The secretary shall review the coordinated water system plan and, to the extent the plan is consistent with the requirements of this chapter and regulations adopted hereunder, shall approve the plan, provided that the secretary shall not approve those portions of a coordinated water system plan that fail to meet the requirements for future service area boundaries until any boundary dispute is resolved as set forth in RCW 70.116.070.

Following the approval of a coordinated water system plan by the secretary:

(a) All purveyors constructing or proposing to construct public water system facilities within the area covered by the plan shall comply with the plan.

(b) No other purveyor shall establish a public water system within the area covered by the plan, unless the local legislative authority determines that existing purveyors are unable to provide the service in a timely and reasonable manner, pursuant to guidelines developed by the secretary. An existing purveyor is unable to provide the service in a timely manner if the water cannot be provided to an applicant for water within one hundred twenty days unless specified otherwise by the local legislative authority. If such a determination is made, the local legislative authority shall require the new public water system to be constructed in accordance with the construction standards and specifications embodied in the coordinated water system plan approved for the area. The service area boundaries in the coordinated plan for the affected utilities shall be revised to reflect the decision of the local legislative authority.

The secretary may deny proposals to establish or to expand any public water system within a critical water supply service area for which there is not an approved coordinated water system plan at any time after two years of the establishment of the critical water supply service area: PROVIDED, That service connections shall not be considered expansions.

The affected legislative authorities may develop and utilize a mechanism for addressing disputes that arise in the implementation of the coordinated water system plan after the plan has been approved by the secretary.
After adoption of the initial coordinated water system plan, the local legislative authority or the secretary may determine that the plan should be updated or revised. The legislative authority may initiate an update at any time, but the secretary may initiate an update no more frequently than once every five years. The update may encompass all or a portion of the plan, with the scope of the update to be determined by the secretary and the legislative authority. The process for the update shall be the one prescribed in RCW 70.116.050.

The provisions of subsection (3) of this section shall not apply in any county for which a coordinated water system plan has not been approved under subsection (2) of this section.

If the secretary initiates an update or revision of a coordinated water system plan, the state shall pay for the cost of updating or revising the plan.

Sec. 3. RCW 70.119A.060 and 1991 c 304 s 4 are each amended to read as follows:

1) In order to assure safe and reliable public drinking water and to protect the public health, public water systems shall:
   (a) Protect the water sources used for drinking water;
   (b) Provide treatment adequate to assure that the public health is protected;
   (c) Provide and effectively operate and maintain public water system facilities;
   (d) Plan for future growth and assure the availability of safe and reliable drinking water;
   (e) Provide the department with the current names, addresses, and telephone numbers of the owners, operators, and emergency contact persons for the system, including any changes to this information, and provide to users the name and twenty-four hour telephone number of an emergency contact person; and
   (f) Take whatever investigative or corrective action is necessary to assure that a safe and reliable drinking water supply is continuously available to users.

2) No new public water system may be approved or created unless: (a) It is owned or operated by a satellite system management agency established under RCW 70.116.134 and the satellite system management system complies with financial viability requirements of the department; or (b) a satellite management system is not available and it is determined that the new system has sufficient management and financial resources to provide safe and reliable service. The approval of any new system that is not owned by a satellite system management agency shall be conditioned upon future management or ownership by a satellite system management agency, if such management or ownership can be made with reasonable economy and efficiency, or upon periodic review of the system's operational history to determine its ability to meet the department's financial viability and other operating requirements. The department and local health jurisdictions shall enforce this requirement under authority provided under this chapter, chapter 70.116, or 70.05 RCW, or other authority governing the approval of new water systems by the department or a local jurisdiction.

3) The department and local health jurisdictions shall carry out the rules and regulations of the state board of health adopted pursuant to RCW 43.20.050(2)(a) and other rules adopted by the department relating to public water systems.

NEW SECTION. Sec. 4. A new section is added to chapter 70.119A RCW to read as follows:

The department shall create a water supply advisory committee. Membership on the committee shall reflect a broad range of interests in the regulation of public water supplies, including water utilities of all sizes, local governments, business groups, special purpose districts, local health jurisdictions, other state and federal agencies, financial institutions, environmental organizations, the legislature, and other groups substantially affected by the department's role in implementing state and federal requirements for public water systems. Members shall be appointed for fixed terms of no less than two years, and may be reappointed. Any members of an existing advisory committee to the drinking water program may remain as members of the water supply advisory committee. The committee shall provide advice to the department on the organization, functions, service delivery methods, and funding of the drinking water program. The committee shall review the adequacy and necessity of the current and prospective funding for the drinking water program, and the results of the committee's review shall be forwarded to the department for inclusion in a report to the appropriate standing committees of the legislature no later than November 1, 1996. The report shall include a discussion of the extent to which the drinking water program has progressed toward achieving the
objectives of the public health improvement plan, and an assessment of any changes to the program necessitated by modifications to the federal safe drinking water act.

Sec. 5. RCW 82.16.020 and 1989 c 302 s 204 are each amended to read as follows:
(1) There is levied and there shall be collected from every person a tax for the act or privilege of engaging within this state in any one or more of the businesses herein mentioned. The tax shall be equal to the gross income of the business, multiplied by the rate set out after the business, as follows:
   (a) Railroad, express, railroad car, sewerage collection, and telegraph businesses: Three and six-tenths percent;
   (b) Light and power business: Three and sixty-two one-hundredths percent;
   (c) Gas distribution business: Three and six-tenths percent;
   (d) Urban transportation business: Six-tenths of one percent;
   (e) Vessels under sixty-five feet in length, except tugboats, operating upon the waters within the state: Six-tenths of one percent;
   (f) Motor transportation and tugboat businesses, and all public service businesses other than ones mentioned above: One and eight-tenths of one percent;
   (g) Water distribution business: Four and seven-tenths percent.
(2) An additional tax is imposed equal to the rate specified in RCW 82.02.030 multiplied by the tax payable under subsection (1) of this section.
(3) Twenty percent of the moneys collected under subsection (1) of this section on water distribution businesses and sixty percent of the moneys collected under subsection (1) of this section on sewerage collection businesses shall be deposited in the public works assistance account created in RCW 43.155.050.
(4) Fifteen percent of the moneys collected under subsection (1) of this section on water distribution businesses shall be deposited in the safe drinking water account created in RCW 70.119A.120.

Sec. 7. RCW 70.119.030 and 1991 c 305 s 3 are each amended to read as follows:

   (a) The system serves one hundred or more services in use at any one time)

(3) A certified operator may provide required services to more than one system or to a group of systems. The amount of time that a certified operator shall be required to be present at any given system shall be based upon the time required to properly operate and maintain the public water system as designed and constructed in accordance with RCW 43.20.050. The waiver shall only be valid while the system meets these requirements.

(5) Any examination required by the department as a prerequisite for the issuance of a certificate under this chapter shall be offered in each region where the department has a regional office.

(6) Operators not required to be certified by this chapter are encouraged to become certified on a voluntary basis.

(1) Each purveyor within the boundaries of a critical water supply service area shall develop a water system plan for the purveyor's future service area if such a plan has not already been developed: PROVIDED, That nonmunicipally owned public water systems are exempt from the planning requirements of this chapter, except for the establishment of service area boundaries if they((a) Were in existence as of September 21, 1977; and (b)) have no plans for water service beyond their existing service area((, and (c) meet minimum quality and pressure design criteria established by the state board of health)): PROVIDED FURTHER, That if the county legislative authority permits a
change in development that will increase the demand for water service of such a system beyond the existing system's ability to provide minimum water service, the purveyor shall develop a water system plan in accordance with this section. The establishment of future service area boundaries shall be in accordance with RCW 70.116.070.

(3) Those portions of a critical water supply service area not yet served by a public water system shall have a coordinated water system plan developed by existing purveyors based upon permitted densities in county plans, ordinances, and/or growth policies for a minimum of five years beyond the date of establishment of the boundaries of the critical water supply service area.

(4) To insure that the plan incorporates the proper designs to protect public health, the secretary shall adopt regulations pursuant to chapter 34.05 RCW concerning the scope and content of coordinated water system plans, and shall ensure, as minimum requirements, that such plans:

(a) Are reviewed by the appropriate local governmental agency to insure that the plan is not inconsistent with the land use plans, shoreline master programs, and/or developmental policies of the general purpose local government or governments whose jurisdiction the water system plan affects.

(b) Recognize all water resource plans, water quality plans, and water pollution control plans which have been adopted by units of local, regional, and state government.

(c) Incorporate the fire protection standards developed pursuant to RCW 70.116.080.

(d) Identify the future service area boundaries of the public water system or systems included in the plan within the critical water supply service area.

(e) Identify feasible emergency inter-ties between adjacent purveyors.

(f) Include satellite system management requirements consistent with RCW 70.116.134.

(g) Include policies and procedures that generally address failing water systems for which counties may become responsible under RCW 43.70.195.

(5) If a "water general plan" for a critical water supply service area or portion thereof has been prepared pursuant to chapter 36.94 RCW and such a plan meets the requirements of subsections (1) and (4) of this section, such a plan shall constitute the coordinated water system plan for the applicable geographical area.

(6) The committee established in RCW 70.116.040 may develop and utilize a mechanism for addressing disputes that arise in the development of the coordinated water system plan.

(7) Prior to the submission of a coordinated water system plan to the secretary for approval (of the design of the proposed facilities) pursuant to RCW 70.116.060, (the plan shall be reviewed for consistency with subsection (4) of this section by) the legislative authorities of the counties in which the critical water supply service area is located shall hold a public hearing thereon and shall determine the plan's consistency with subsection (4) of this section. If within sixty days of receipt of the plan, the legislative authorities find any segment of a proposed service area of a purveyor's plan or any segment of the coordinated water system plan to be inconsistent with any current land use plans, shoreline master programs, and/or developmental policies of the general purpose local government or governments whose jurisdiction the water system plan affects, the secretary shall not approve that portion of the plan until the inconsistency is resolved between the local government and the purveyor. If no comments have been received from the legislative authorities within sixty days of receipt of the plan, the secretary may consider the plan for approval.

(8) Any county legislative authority may adopt an abbreviated plan for the provision of water supplies within its boundaries that includes provisions for service area boundaries, minimum design criteria, and review process. The elements of the abbreviated plan shall conform to the criteria established by the department under subsection (4) of this section and shall otherwise be consistent with other adopted land use and resource plans. The county legislative authority may, in lieu of the committee required under RCW 70.116.040, and the procedures authorized in this section, utilize an advisory committee that is representative of the water utilities and local governments within its jurisdiction to assist in the preparation of the abbreviated plan, which may be adopted by resolution and submitted to the secretary for approval. Purveyors within the boundaries covered by the abbreviated
plan need not develop a water system plan, except to the extent required by the secretary or state board of health under other authority. Any abbreviated plan adopted by a county legislative authority pursuant to this subsection shall be subject to the same provisions contained in RCW 70.116.060 for coordinated water system plans that are approved by the secretary.

Sec. 9. RCW 70.119A.040 and 1993 c 305 s 2 are each amended to read as follows:

(1)(a) In addition to or as an alternative to any other penalty or action allowed by law, a person who violates a law or rule regulating public water systems and administered by the department of health is subject to a penalty of not more than five thousand dollars per day for every such violation, or, in the case of a violation that has been determined to be a public health emergency, a penalty of not more than ten thousand dollars per day for every such violation. Every such violation shall be a separate and distinct offense. The amount of fine shall reflect the health significance of the violation and the previous record of compliance on the part of the public water supplier. In case of continuing violation, every day’s continuance shall be a separate and distinct violation.

(b) In addition, a person who constructs, modifies, or expands a public water system or who commences the construction, modification, or expansion of a public water system without first obtaining the required departmental approval is subject to penalties of not more than five thousand dollars per service connection, except that a penalty may not exceed one thousand dollars per service connection if the public water system has less than one thousand connections and the person had submitted all information and plans to the department necessary for departmental approval for modification or expansion of the system and the department has not acted within a reasonable period of time. In the case of a system serving a transient population, a penalty of not more than four hundred dollars per person based on the highest average daily population the system serves or is anticipated to serve may be imposed. The total penalty that may be imposed pursuant to this subsection (1)(b) is five hundred thousand dollars. For the purpose of computing the penalty under this subsection, a service connection shall include any new service connection actually constructed, any anticipated service connection the system has been designed to serve, and, in the case of a system modification not involving expansions, each existing service connection that benefits or would benefit from the modification.

(c) Every person who, through an act of commission or omission, procures, aids, or abets a violation is considered to have violated the provisions of this section and is subject to the penalty provided in this section.

(2) The penalty provided for in this section shall be imposed by a notice in writing to the person against whom the civil penalty is assessed and shall describe the violation. The notice shall be personally served in the manner of service of a summons in a civil action or in a manner that shows proof of receipt. A penalty imposed by this section is due twenty-eight days after receipt of notice unless application for an adjudicative proceeding is filed as provided in subsection (3) of this section.

(3) Within twenty-eight days after notice is received, the person incurring the penalty may file an application for an adjudicative proceeding and may pursue subsequent review as provided in chapter 34.05 RCW and applicable rules of the department or board of health.

(4) A penalty imposed by a final administrative order is due upon service of the final administrative order. A person who fails to pay a penalty assessed by a final administrative order within thirty days of service of the final administrative order shall pay, in addition to the amount of the penalty, interest at the rate of one percent of the unpaid balance of the assessed penalty for each month or part of a month that the penalty remains unpaid, commencing with the month in which the notice of penalty was served and such reasonable attorney’s fees as are incurred in securing the final administrative order.

(5) A person who institutes proceedings for judicial review of a final administrative order assessing a civil penalty under this chapter shall place the full amount of the penalty in an interest bearing account in the registry of the reviewing court. At the conclusion of the proceeding the court shall, as appropriate, enter a judgment on behalf of the department and order that the judgment be satisfied to the extent possible from moneys paid into the registry of the court or shall enter a judgment in favor of the person appealing the penalty assessment and order return of the moneys paid into the registry of the court together with accrued interest to the person appealing. The judgment may award reasonable attorney’s fees for the cost of the attorney general’s office in representing the department.

(6) If no appeal is taken from a final administrative order assessing a civil penalty under this chapter, the department may file a certified copy of the final administrative order with the clerk of the
superior court in which the public water system is located or in Thurston county, and the clerk shall enter judgment in the name of the department and in the amount of the penalty assessed in the final administrative order.

(7) A judgment entered under subsection (5) or (6) of this section shall have the same force and effect as, and is subject to all of the provisions of law relating to, a judgment in a civil action, and may be enforced in the same manner as any other judgment of the court in which it is entered.

(8) All penalties imposed under this section shall be payable to the state treasury and credited to the ((general fund)) safe drinking water account, and shall be used by the department to provide training and technical assistance to system owners and operators.

(9) Except in cases of public health emergencies, the department may not impose monetary penalties under this section unless a prior effort has been made to resolve the violation informally.

Sec. 10. RCW 70.119A.130 and 1991 c 304 s 7 are each amended to read as follows: 

((Until July 1, 1996, local governments shall be prohibited from administering a separate operating permit requirement for public water systems. After July 1, 1996,) Local governments may establish separate operating permit requirements for public water systems provided the operating permit requirements have been approved by the department. The department shall not approve local operating permit requirements unless the local system will result in an increased level of service to the public water system. There shall not be duplicate operating permit requirements imposed by local governments and the department.

NEW SECTION. Sec. 11. A new section is added to chapter 70.119A RCW to read as follows:

A drinking water assistance account is created in the state treasury. The purpose of the account is to allow the state to take advantage of any federal funds that become available for safe drinking water. Expenditures from the account may only be made by the secretary or the public works board after appropriation. Moneys in the account may only be used to assist water systems to provide safe drinking water through a program administered through the department of health and the public works board. Money may be placed in the account from the proceeds of bonds when authorized by the legislature, transfers from other state funds or accounts, federal capitalization grants or other financial assistance, all repayments of moneys borrowed from the account, all interest payments made by borrowers from the account or otherwise earned on the account, or any other lawful source. Expenditures from the account may only be made by the secretary or the public works board after appropriation. Moneys in the account may only be used to assist local governments and water systems to provide safe and reliable drinking water and to administer the program.

Sec. 12. RCW 43.155.050 and 1993 sp.s. c 24 s 921 are each amended to read as follows:

The public works assistance account is hereby established in the state treasury. Money may be placed in the public works assistance account from the proceeds of bonds when authorized by the legislature or from any other lawful source. Money in the public works assistance account shall be used to make loans and to give financial guarantees to local governments for public works projects. Moneys in the account may also be appropriated to provide for state match requirements under federal law for projects and activities conducted and financed by the board under the drinking water assistance account. During the 1993-95 fiscal biennium, moneys in the public works assistance account may be appropriated for flood control assistance including grants under chapter 86.26 RCW. To the extent that moneys in the public works assistance account are not appropriated during the 1993-95 fiscal biennium for public works or flood control assistance, the legislature may direct their transfer to the state general fund. In awarding grants under chapter 86.26 RCW, the department of ecology shall give strong preference to local governments that have: (1) Implemented, or are in the process of implementing, an ordinance that establishes a flood plain policy that is substantially more stringent than minimum federal requirements; (2) completed a comprehensive flood control plan meeting the requirements of RCW 86.12.200; or (3) constructed, or are in the process of constructing, a system of overtopping dikes or levees that allow public access.

Sec. 13. RCW 80.04.110 and 1991 c 134 s 1 and 1991 c 100 s 2 are each reenacted and amended to read as follows:
(1) Complaint may be made by the commission of its own motion or by any person or corporation, chamber of commerce, board of trade, or any commercial, mercantile, agricultural or manufacturing society, or any body politic or municipal corporation, or by the public counsel section of the office of the attorney general, or its successor, by petition or complaint in writing, setting forth any act or thing done or omitted to be done by any public service corporation in violation, or claimed to be in violation, of any provision of law or of any order or rule of the commission; PROVIDED, That no complaint shall be entertained by the commission except upon its own motion, as to the reasonableness of the schedule of the rates or charges of any gas company, electrical company, water company, or telecommunications company, unless the same be signed by the mayor, council or commission of the city or town in which the company complained of is engaged in business, or not less than twenty-five consumers or purchasers of such gas, electricity, water or telecommunications service, or at least twenty-five percent of the consumers or purchasers of the company's service; PROVIDED, FURTHER, That when two or more public service corporations, (meaning to exclude municipal and other public corporations) are engaged in competition in any locality or localities in the state, either may make complaint against the other or others that the rates, charges, rules, regulations or practices of such other or others with or in respect to which the complainant is in competition, are unreasonable, unremunerative, discriminatory, illegal, unfair or intending or tending to oppress the complainant, to stifle competition, or to create or encourage the creation of monopoly, and upon such complaint or upon complaint of the commission upon its own motion, the commission shall have power, after notice and hearing as in other cases, to, by its order, subject to appeal as in other cases, correct the abuse complained of by establishing such uniform rates, charges, rules, regulations or practices in lieu of those complained of, to be observed by all of such competing public service corporations in the locality or localities specified as shall be found reasonable, remunerative, nondiscriminatory, legal, and fair or tending to prevent oppression or monopoly or to encourage competition, and upon any such hearing it shall be proper for the commission to take into consideration the rates, charges, rules, regulations and practices of the public service corporation or corporations complained of in any other locality or localities in the state.

(2) All matters upon which complaint may be founded may be joined in one hearing, and no motion shall be entertained against a complaint for misjoinder of complaints or grievances or misjoinder of parties; and in any review of the courts of orders of the commission the same rule shall apply and pertain with regard to the joinder of complaints and parties as herein provided: PROVIDED, All grievances to be inquired into shall be plainly set forth in the complaint. No complaint shall be dismissed because of the absence of direct damage to the complainant.

(3) Upon the filing of a complaint, the commission shall cause a copy thereof to be served upon the person or corporation complained of, which shall be accompanied by a notice fixing the time when and place where a hearing will be had upon such complaint. The time fixed for such hearing shall not be less than ten days after the date of the service of such notice and complaint, excepting as herein provided. The commission shall enter its final order with respect to a complaint filed by any entity or person other than the commission within ten months from the date of filing of the complaint, unless the date is extended for cause. Rules of practice and procedure not otherwise provided for in this title may be prescribed by the commission. Such rules may include the requirement that a complainant use informal processes before filing a formal complaint.

(4) The commission shall, as appropriate, audit a nonmunicipal water system upon receipt of an administrative order from the department, or the city or county in which the water system is located, finding that the water delivered by a system does not meet state board of health standards adopted under RCW 43.20.050(2)(a) or standards adopted under chapters 70.116 and 70.119A RCW, and the results of the audit shall be provided to the requesting department, city, or county. However, the number of nonmunicipal water systems referred to the commission in any one calendar year shall not exceed twenty percent of the water companies subject to commission regulation as defined in RCW 80.04.010.

Every nonmunicipal water system referred to the commission for audit under this section shall pay to the commission an audit fee in an amount, based on the system's twelve-month audited period, equal to the fee required to be paid by regulated companies under RCW 80.24.010.

(5) Any customer or purchaser of service from a water system or company that is subject to commission regulation may file a complaint with the commission if he or she has reason to believe that the water delivered by the system to the customer does not meet state drinking water standards under chapter 43.20 or 70.116 RCW. The commission shall investigate such a complaint, and shall request
that the state department of health or local health department of the county in which the system is located test the water for compliance with state drinking water standards, and provide the results of such testing to the commission. The commission may decide not to investigate the complaint if it determines that the complaint has been filed in bad faith, or for the purpose of harassment of the water system or company, or for other reasons has no substantial merit. The water system or company shall bear the expense for the testing. After the commission has received the complaint from the customer and during the pendency of the commission investigation, the water system or company shall not take any steps to terminate service to the customer or to collect any amounts alleged to be owed to the company by the customer. The commission may issue an order or take any other action to ensure that no such steps are taken by the system or company. The customer may, at the customer's option and expense, obtain a water quality test by a licensed or otherwise qualified water testing laboratory, of the water delivered to the customer by the water system or company, and provide the results of such a test to the commission. If the commission determines that the water does not meet state drinking water standards, it shall exercise its authority over the system or company as provided in this title, and may, where appropriate, order a refund to the customer on a pro rata basis for the substandard water delivered to the customer, and shall order reimbursement to the customer for the cost incurred by the customer, if any, in obtaining a water quality test.

Sec. 14. RCW 70.116.070 and 1977 ex.s. c 142 s 7 are each amended to read as follows:
(1) The proposed service area boundaries of public water systems within the critical water supply service area that are required to submit water system plans under this chapter shall be determined by written agreement among the purveyors and with the approval of the appropriate legislative authority. Failure of the legislative authority to file with the secretary objections to the proposed service area boundaries within sixty days of receipt of the proposed boundary agreement may be construed as approval of the agreement identified in the system's plan. The local legislative authority, or its planning department or other designee, shall review the proposed boundaries to determine whether the proposed boundaries of one or more systems overlap. The boundaries determined by the local legislative authority not to overlap shall be incorporated into the coordinated water system plan. Where any overlap exists, the local legislative authority may attempt to resolve the conflict through procedures established under RCW 70.116.060(5).
(2) (If no service area boundary agreement has been established within a reasonable period of time, or if the legislative authority has filed with the secretary objections in writing as provided in subsection (1) of this section) Any final decision by a local legislative authority regarding overlapping service areas, or any unresolved disputes regarding service area boundaries, may be appealed or referred to the secretary in writing for resolution. After receipt of an appeal or referral, the secretary shall hold a public hearing thereon. The secretary shall provide notice of the hearing by certified mail to each purveyor (providing service in the critical water supply service area) involved in the dispute, to each county legislative authority having jurisdiction in the area and to the public. The secretary shall provide public notice pursuant to the provisions of chapter 65.16 RCW. Such notice shall be given at least twenty days prior to the hearing. The hearing may be continued from time to time and, at the termination thereof, the secretary may restrict the expansion of service of any purveyor within the area if the secretary finds such restriction is necessary to provide the greatest protection of the public health and well-being.

Sec. 15. RCW 56.08.200 and 1991 c 190 s 1 are each amended to read as follows:
It is unlawful and a misdemeanor to make, or cause to be made, or to maintain any ((sewer)) connection with any sewer or water system of any sewer district, or with any sewer or water system which is connected directly or indirectly with any sewer or water system of any sewer district without having permission from the sewer district.

Sec. 16. RCW 57.08.180 and 1991 c 190 s 5 are each amended to read as follows:
It is unlawful and a misdemeanor to make, or cause to be made, or to maintain any ((sewer)) connection with any sewer or water system of any water district, or with any sewer or water system which is connected directly or indirectly with any sewer or water system of any water district without having permission from the water district.
NEW SECTION. Sec. 17. Section 10 of this act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1995."

Land, platted for residential development, for which an application to the appropriate water supplier or agency for residential water use has been denied, is exempt from taxation. Land assessed under 84.33 or 84.34 RCW is not eligible for exemption. Land used for commercial purposes is not eligible for exemption.

Claims for exemption under this section shall be made to the assessor each year by March 31 for exemption from taxes payable in the following year. The exemption is limited to one year. The
applicant must show denial of residential water use dated within twelve months before the March 31
exemption application date.

The land loses its exempt status as of the date on which an application for residential water use
is granted by the appropriate water supplier or agency. Land which changes from exempt to taxable
status is subject to a pro rata portion of taxes as provided in RCW 84.04.350 through 84.40.390."

correct the title.

POINT OF ORDER

Representative Rust: Thank you Mr. Speaker. I would request a ruling on the scope and
object of the amendment.

There being no objection, the House deferred further consideration of Engrossed Second
Substitute Senate Bill No. 5448 and the bill held it's place on the second reading calendar.

SUBSTITUTE SENATE BILL NO. 5606, by Senate Committee on Ecology & Parks
(originally sponsored by Senators Fraser, Haugen, Owen, McCaslin, Swecker, Newhouse, Oke,
Rasmussen, Winsley, Morton and Schow)

Providing for use of reclaimed water.

The bill was read the second time.

There being no objection, the committee amendment was not adopted. Committee on
Appropriations recommendation: Majority, do pass as amended. (For committee amendment see
Journal, 85th Day, April 3, 1995.)

With the consent of the House, amendment numbers 796, 797 and 799 to Substitute Senate Bill
No. 5606 were withdrawn.

Representative Chandler moved adoption of the following amendment by Representative
Chandler:

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 90.46.005 and 1992 c 204 s 1 are each amended to read as follows:
The legislature finds that by encouraging the use of reclaimed water while assuring the health
and safety of all Washington citizens and the protection of its environment, the state of Washington will
continue to use water in the best interests of present and future generations.
To facilitate the ((opportunity to)) use of reclaimed water as soon as is practicable, the
legislature encourages the cooperative efforts of the public and private sectors and the use of pilot
projects to effectuate the goals of this chapter. The legislature further directs the department of health
and the department of ecology to coordinate efforts towards developing an efficient and streamlined
process for creating and implementing processes for the use of reclaimed water.
It is hereby declared that the people of the state of Washington have a primary interest in the
development of facilities to provide reclaimed water to replace potable water in nonpotable
applications, to supplement existing surface and ground water supplies, and to assist in meeting the
future water requirements of the state.
The legislature further finds and declares that the utilization of reclaimed water by local
communities for domestic, agricultural, industrial, recreational, and fish and wildlife habitat creation
and enhancement purposes, including wetland enhancement, will contribute to the peace, health, safety,
and welfare of the people of the state of Washington. To the extent reclaimed water is appropriate and
available for beneficial uses, it should be used where feasible to supplement existing water supplies
without threatening existing resources or public health in order to preserve potable water for drinking
purposes."
The legislature further finds and declares that the use of reclaimed water is not inconsistent with the policy of antidegradation of state waters announced in other state statutes, including the water pollution control act, chapter 90.48 RCW and the water resources act, chapter 90.54 RCW.

It is the intent of the legislature that the department of ecology and the department of health undertake the necessary steps to encourage the development of water reclamation facilities so that reclaimed water may be made available to help meet the growing water requirements of the state.

The legislature further finds and declares that reclaimed water facilities are water pollution control facilities as defined in chapter 70.146 RCW and are eligible for financial assistance as provided in chapter 70.146 RCW.

Sec. 2. RCW 90.46.010 and 1992 c 204 s 2 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Greywater" means wastewater having the consistency and strength of residential domestic type wastewater. Greywater includes wastewater from sinks, showers, and laundry fixtures, but does not include toilet or urinal waters.

(2) "Land application" means application of treated effluent for purposes of irrigation or landscape enhancement for residential, business, and governmental purposes.

(3) "Person" means any state, individual, public or private corporation, political subdivision, governmental subdivision, governmental agency, municipality, copartnership, association, firm, trust estate, or any other legal entity whatever.

(4) "Reclaimed water" means effluent derived in any part from sewage from a wastewater treatment system that has been adequately and reliably treated, so that as a result of that treatment, it is suitable for a beneficial use or a controlled use that would not otherwise occur and is no longer considered wastewater.

(5) "Sewage" means water-carried human wastes from residences, buildings, industrial and commercial establishments, or other places, together with such ground water infiltration, surface waters, or industrial wastewater as may be present.

(6) "User" means any person who uses reclaimed water.

(7) "Wastewater" means water and wastes discharged from homes, businesses, and industry to the sewer system.

(8) "Beneficial use," as used in this chapter, means the use of reclaimed water, that has been transported from the point of production to the point of use without an intervening discharge to the waters of the state, for a beneficial purpose.

(9) "Direct recharge" means the controlled subsurface addition of water directly to the ground water basin that results in the replenishment of ground water.

(10) "Ground water recharge criteria" means the contaminant criteria found in the drinking water quality standards adopted by the state board of health pursuant to chapter 43.20 RCW and the department of health pursuant to chapter 70.119A RCW.

(11) "Planned ground water recharge project" means any reclaimed water project designed for the purpose of recharging ground water, via direct recharge or surface spreading.

(12) "Reclamation criteria" means the criteria set forth in the water reclamation and reuse interim standards and subsequent revisions adopted by the department of ecology and the department of health.

(13) "Streamflow augmentation" means the discharge of reclaimed water to rivers and streams of the state or other surface water bodies, but not wetlands.

(14) "Surface percolation" means the controlled application of water to the ground surface for the purpose of recharging ground water.

(15) "Wetland or wetlands" means areas that are inundated or saturated by surface water or ground water at a frequency and duration sufficient to support, and that under normal circumstances do support, a prevalence of vegetation typically adapted to life in saturated soil conditions. Wetlands generally include swamps, marshes, bogs, and similar areas. No agency shall use a delineation process for what constitutes a wetland that is more stringent than that adopted by the United States army corps of engineers.

(16) "Man-made wetlands" means a wetland intentionally created from a nonwetland site to produce or replace natural habitat.
NEW SECTION. Sec.  3. A new section is added to chapter 90.46 RCW to read as follows:
(1) Reclaimed water may be beneficially used for surface percolation provided the reclaimed water meets the ground water recharge criteria as measured in ground water beneath or down gradient of the recharge project site, and has been incorporated into a sewer or water comprehensive plan, as applicable, adopted by the applicable local government and approved by the department of health or department of ecology as applicable.
(2) If the state ground water recharge criteria as defined by RCW 90.46.010 do not contain a standard for a constituent or contaminant, the department of ecology shall establish a discharge limit consistent with the goals of this chapter.
(3) Reclaimed water that does not meet the ground water recharge criteria may be beneficially used for surface percolation where the department of ecology has specifically authorized such use at such lower standard.

NEW SECTION. Sec.  4. A new section is added to chapter 90.46 RCW to read as follows:
(1) Reclaimed water may be beneficially used for discharge into man-made wetlands provided the reclaimed water meets the class A or B reclaimed water standards as defined in the reclamation criteria, and the discharge is incorporated into a sewer or water comprehensive plan, as applicable, adopted by the applicable local government and approved by the department of health or department of ecology as applicable.
(2) Reclaimed water that does not meet the class A or B reclaimed water standards may be beneficially used for discharge into man-made wetlands where the department of ecology has specifically authorized such use at such lower standards.

NEW SECTION. Sec.  5. A new section is added to chapter 90.46 RCW to read as follows:
Reclaimed water intended for beneficial reuse may be discharged for streamflow augmentation provided the reclaimed water meets the requirements of the federal water pollution control act, chapter 90.48 RCW, and is incorporated into a sewer or water comprehensive plan, as applicable, adopted by the applicable local government and approved by the department of health or department of ecology as applicable.

NEW SECTION. Sec.  6. A new section is added to chapter 90.46 RCW to read as follows:
The department of ecology shall, in consultation with the department of health, adopt a single set of standards, procedures, and guidelines, on or before December 31, 1996, for direct recharge using reclaimed water. The standards shall address both water quality considerations and avoidance of property damage from excessive recharge.

NEW SECTION. Sec.  7. A new section is added to chapter 90.46 RCW to read as follows:
The department of ecology shall, in consultation with the department of health, adopt a single set of standards, procedures, and guidelines, on or before June 30, 1996, for discharge of reclaimed water to wetlands.

NEW SECTION. Sec.  8. A new section is added to chapter 90.46 RCW to read as follows:
On or before December 31, 1995, the department of ecology and department of health shall, in consultation with local governments and local interested parties, jointly review and, if required, propose amendments to chapter 372-32 WAC to resolve conflicts between the development of reclaimed water projects in the Puget Sound region and chapter 372-32 WAC.

NEW SECTION. Sec.  9. The department of ecology and the department of health shall report on the progress of the implementation of this act to the members of the agriculture and ecology committee of the house of representatives and the members of the ecology and parks committee of the senate by December 15, 1995.

Sec.  10. RCW 90.46.050 and 1992 c 204 s 6 are each amended to read as follows:
(((4))) The department of health shall, before ((May 1, 1992)) July 1, 1995, form an advisory committee, in coordination with the department of ecology and the department of agriculture, which will provide technical assistance in the development of standards, procedures, and guidelines required by this chapter. Such committee shall be composed of individuals from the public water and
wastewater utilities, landscaping enhancement industry, commercial and industrial application community, and any other persons deemed technically helpful by the department of health.

(2) The department of health shall report to the joint select committee on water resource policy by December 1, 1992, on the fee structure which has been recommended under RCW 90.46.030(3) and review fees authorized under RCW 90.46.040(3).

NEW SECTION. Sec. 11. Sections 1 through 10 of this act shall not be construed as affecting any existing right acquired or liability or obligation incurred under the sections amended or repealed in this act or under any rule or order adopted under those sections, nor as affecting any proceeding instituted under those sections.

Sec. 12. RCW 90.03.380 and 1991 c 347 s 15 are each amended to read as follows:

(1) The right to the use of water which has been applied to a beneficial use in the state shall be and remain appurtenant to the land or place upon which the same is used: PROVIDED, HOWEVER, That (said) the right may be transferred to another or to others and become appurtenant to any other land or place of use without loss of priority of right theretofore established if such change can be made without detriment or injury to existing rights. The point of diversion of water for beneficial use or the purpose of use may be changed, if such change can be made without detriment or injury to existing rights. Before any transfer of such right to use water or change of the point of diversion of water or change of purpose of use can be made, any person having an interest in the transfer or change, shall file a written application therefor with the department, and (said) the application shall not be granted until notice of (said) the application (shall be) is published as provided in RCW 90.03.280. If it shall appear that such transfer or such change may be made without injury or detriment to existing rights, the department shall issue to the applicant a certificate in duplicate granting the right for such transfer or for such change of point of diversion or of use. The certificate so issued shall be filed and be made a record with the department and the duplicate certificate issued to the applicant may be filed with the county auditor in like manner and with the same effect as provided in the original certificate or permit to divert water.

(2) If an application for change proposes to transfer water rights from one irrigation district to another, the department shall, before publication of notice, receive concurrence from each of the irrigation districts that such transfer or change will not adversely affect the ability to deliver water to other landowners or impair the financial or operational integrity of either of the districts.

(3) A change in place of use by an individual water user or users of water provided by an irrigation district need only receive approval for the change from the board of directors of the district if the use of water continues within the irrigation district. The board of directors may approve such a change if the board determines that the change: Will not adversely affect the district’s ability to deliver water to other landowners; will not require the construction by the district of diversion or drainage facilities unless the board finds that the construction by the district is in the interest of the district; will not impair the financial or operational integrity of the district; and is consistent with the contractual obligations of the district.

(4) Subsections (1), (2), and (3) of this section do not apply to a change regarding a portion of the water governed by a water right that is made surplus to the beneficial uses exercised under the right through the implementation of practices or technologies, including but not limited to conveyance practices or technologies, which are more efficient or more water use efficient than those under which the right was perfected or through a change in the crops grown under the water right. The use within an irrigation district of water supplied by the district and made surplus as provided in this subsection shall be regulated solely as provided by the board of directors of the irrigation district except as follows: Such a use requires the approval of the board of directors of the irrigation district or must otherwise be authorized by the board; the board may approve or authorize such a use only if the use does not impair the financial or operational integrity of the district; and water made surplus through a change in the crops grown with district-supplied water is not available for use as a matter of right by the individual water user making the change, but may be used by the board for the benefit of the district generally. The district’s board of directors may approve or otherwise authorize under this subsection uses of such surplus water that result in the total irrigated acreage within the district exceeding the irrigated acreage recorded with the department for the district’s water right if the board notifies the department of the change in the irrigated acreage within the district. Such a notification provides a change in the district’s water right and, upon receiving the notification, the department shall
revise its records for the district's right to reflect the change. A change or use authorized by or under this subsection shall be made without loss of priority of the right. The use of water other than irrigation district-supplied water that is made surplus as provided in this subsection is governed by section 13 of this act.

(5) This section shall not apply to trust water rights acquired by the state through the funding of water conservation projects under chapter 90.38 RCW or RCW 90.42.010 through 90.42.070.

(6) The department may not initiate relinquishment proceedings under chapter 90.14 RCW regarding a water right for which an application for a transfer or change is filed under this section for a period of two years after the date the department receives the filing.

NEW SECTION. Sec. 13. A new section is added to chapter 90.03 RCW to read as follows:
If a portion of the water governed by a water right is made surplus to the beneficial uses exercised under the right through the implementation of practices or technologies, including but not limited to conveyance practices or technologies, which are more efficient or more water use efficient than those under which the right was perfected or through a change in the crops grown under the water right, the right to use the surplus water may be changed to use on other lands owned by the holder of the water right that are contiguous to the lands upon which the use of the water was authorized by the right before such a change. Such a change shall be made without loss of priority of the right. The holder of the water right shall notify the department of such a change. The notification provides a change in the holder's water right and, upon receiving the notification, the department shall revise its records for the water right to reflect the change.
This section does not apply to water supplied by an irrigation district.

Sec. 14. RCW 90.44.100 and 1987 c 109 s 113 are each amended to read as follows:
(1) After an application to, and upon the issuance by the department of an amendment to the appropriate permit or certificate of ground water right, the holder of a valid right to withdraw public ground waters may, without losing his priority of right, construct wells or other means of withdrawal at a new location in substitution for or in addition to those at the original location, or he may change the manner or the place of use of the water((--PROVIDED, HOWEVER, THAT SUCH)). An amendment shall be issued only after publication of notice of the application and findings as prescribed in the case of an original application. Such amendment shall be issued by the department only on the conditions that: (((4)) (a) The additional or substitute well or wells shall tap the same body of public ground water as the original well or wells; (((2)) (b) use of the original well or wells shall be discontinued upon construction of the substitute well or wells; (((3))) (c) the construction of an additional well or wells shall not enlarge the right conveyed by the original permit or certificate; and (((4))) (d) other existing rights shall not be impaired. The department may specify an approved manner of construction and shall require a showing of compliance with the terms of the amendment, as provided in RCW 90.44.080 in the case of an original permit.
(2) This section does not apply to a change in use of a portion of the water governed by a ground water right that is made surplus to the beneficial uses exercised under the right through the implementation of practices or technologies, including but not limited to conveyance practices or technologies, which are more efficient or more water use efficient than those under which the right was perfected or through a change in the crops grown under the water right. RCW 90.03.380(4) and section 13 of this act apply to water made surplus as provided in this subsection.
(3) The department may not initiate relinquishment proceedings under chapter 90.14 RCW regarding a water right for which an application for a transfer or change is filed under this section for a period of two years after the date the department receives the filing.

Sec. 15. RCW 90.03.290 and 1994 c 264 s 84 are each amended to read as follows:
When an application complying with the provisions of this chapter and with the rules and regulations of the department has been filed, the same shall be placed on record with the department, and it shall be its duty to investigate the application, and determine what water, if any, is available for appropriation, and find and determine to what beneficial use or uses it can be applied. If it is proposed to appropriate water for irrigation purposes, the department shall investigate, determine and find what lands are capable of irrigation by means of water found available for appropriation. If it is proposed to appropriate water for the purpose of power development, the department shall investigate, determine and find whether the proposed development is likely to prove detrimental to the public interest, having
in mind the highest feasible use of the waters belonging to the public. If the application does not contain, and the applicant does not promptly furnish sufficient information on which to base such findings, the department may issue a preliminary permit, for a period of not to exceed three years, requiring the applicant to make such surveys, investigations, studies, and progress reports, as in the opinion of the department may be necessary. If the applicant fails to comply with the conditions of the preliminary permit, it and the application or applications on which it is based shall be automatically canceled and the applicant so notified. If the holder of a preliminary permit shall, before its expiration, file with the department a verified report of expenditures made and work done under the preliminary permit, which, in the opinion of the department, establishes the good faith, intent and ability of the applicant to carry on the proposed development, the preliminary permit may, with the approval of the governor, be extended, but not to exceed a maximum period of five years from the date of the issuance of the preliminary permit. The department shall make and file as part of the record in the matter, written findings of fact concerning all things investigated, and if it shall find that there is water available for appropriation for a beneficial use, and the appropriation thereof as proposed in the application will not impair existing rights or be detrimental to the public welfare, it shall issue a permit stating the amount of water to which the applicant shall be entitled and the beneficial use or uses to which it may be applied: PROVIDED, That where the water applied for is to be used for irrigation purposes, it shall become appurtenant only to such land as may be claimed thereby to the full extent of the soil for agricultural purposes. But where there is no unappropriated water in the proposed source of supply, or where the proposed use conflicts with existing rights, or threatens to prove detrimental to the public interest, having due regard to the highest feasible development of the use of the waters belonging to the public, it shall be duty of the department to reject such application and to refuse to issue the permit asked for. If the permit is refused because of conflict with existing rights and such applicant shall acquire same by purchase or condemnation under RCW 90.03.040, the department may thereupon grant such permit. Any application may be approved for a less amount of water than that applied for, if there exists substantial reason therefor, and in any event shall not be approved for more water than can be applied to beneficial use for the purposes named in the application. In determining whether or not a permit shall issue upon any application, it shall be the duty of the department to investigate all facts relevant and material to the application. After the department approves said application in whole or in part and before any permit shall be issued thereon to the applicant, such applicant shall pay the fee provided in RCW 90.03.470: PROVIDED FURTHER, That in the event a permit is issued by the department upon any application, it shall be its duty to notify the director of fish and wildlife of such issuance.

This section does not apply to changes made under section 13 of this act or to applications for transfers or changes made under RCW 90.03.380 or 90.44.100.

Sec. 16. RCW 90.44.445 and 1993 c 99 s 1 are each amended to read as follows:

In any acreage expansion program adopted by the department as an element of a ground water management program, the authorization for a water right certificate holder to participate in the program shall be on an annual basis for the first two years. After the two-year period, the department may authorize participation for ten-year periods. The department may authorize participation for ten-year periods for certificate holders who have already participated in an acreage expansion program for two years. The department may require annual certification that the certificate holder has complied with all requirements of the program. The department may terminate the authority of a certificate holder to participate in the program for one calendar year if the certificate holder fails to comply with the requirements of the program.

This section applies only in an area with a ground water area or subarea management program in effect on the effective date of this section. The provisions of section 13 of this act, RCW 90.03.380, and 90.44.100 apply to transfers, changes, and amendments to permits or rights for the beneficial use of ground water in any other area.

NEW SECTION. Sec. 17. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately."

This chapter shall be known as the "law against discrimination". It is an exercise of the police power of the state for the protection of the public welfare, health, and peace of the people of this state, and in fulfillment of the provisions of the Constitution of this state concerning civil rights. The legislature hereby finds and declares that practices of discrimination against any of its inhabitants because of race, creed, color, national origin, families with children, sex, marital status, age, or the presence of any sensory, mental, or physical disability or the use of a trained guide dog or service dog by a disabled person are a matter of state concern, that such discrimination threatens not only the rights and proper privileges of its inhabitants but menaces the institutions and foundation of a free democratic state. A state agency is herein created with powers with respect to elimination and prevention of discrimination in employment, in credit and insurance transactions, in places of public resort, accommodation, or amusement, and in real property transactions because of race, creed, color, national origin, families with children, sex, marital status, age, or the presence of any sensory, mental, or physical disability or the use of a trained guide dog or service dog by a disabled person; and the commission established hereunder is hereby given general jurisdiction and power for such purposes.

agreeing to restore the interior of the dwelling to the condition that existed before the modification, reasonable wear and tear excepted;

(b) To refuse to make reasonable accommodation in rules, policies, practices, or services when such accommodations may be necessary to afford a person with the presence of any sensory, mental, or physical disability and/or the use of a trained guide dog or service dog by a blind, deaf, or physically disabled person equal opportunity to use and enjoy a dwelling; or

(4) Except pursuant to subsection (2)(a) of this section, this section shall not be construed to require structural changes, modifications, or additions to make facilities accessible to a disabled person except as otherwise required by law. Nothing in this section affects the rights, responsibilities, and remedies of landlords and tenants pursuant to chapter 59.18 or 59.20 RCW, including the right to post and enforce reasonable rules of conduct and safety for all tenants and their guests, provided that chapters 59.18 and 59.20 RCW are only affected to the extent they are inconsistent with the nondiscrimination requirements of this chapter. Nothing in this section limits the applicability of any reasonable federal, state, or local restrictions regarding the maximum number of occupants permitted to occupy a dwelling.

(5) Notwithstanding any other provision of this chapter, it shall not be an unfair practice for any public establishment providing for accommodations offered for the full enjoyment of transient guests as defined by RCW 9.91.010(1)(c) to make distinctions on the basis of families with children status. Nothing in this section shall limit the effect of RCW 49.60.215 relating to unfair practices in places of public accommodation.

(6) Nothing in this chapter prohibiting discrimination based on families with children status applies to housing for older persons as defined by the federal fair housing amendments act of 1988, 42 U.S.C. Sec. 3607(b)(1) through (3). Nothing in this chapter authorizes requirements for housing for older persons different than the requirements in the federal fair housing amendments act of 1988, 42 U.S.C. Sec. 3607(b)(1) through (3).

Sec. 4. RCW 49.60.225 and 1993 c 510 s 20 and 1993 c 69 s 9 are each reenacted and amended to read as follows:

(1) When a reasonable cause determination has been made under RCW 49.60.240 that an unfair practice in a real estate transaction has been committed and a finding has been made that the respondent has engaged in any unfair practice under RCW 49.60.250, the administrative law judge shall promptly issue an order for such relief suffered by the aggrieved person as may be appropriate, which may include actual damages as provided by ((Title VIII of the United States civil rights act of 1964, as amended, and)) the federal fair housing amendments act of 1988 (42 U.S.C. Sec. 3601 et
(a) In an amount up to ten thousand dollars if the respondent has not been determined to have committed any prior unfair practice in a real estate transaction;

(b) In an amount up to twenty-five thousand dollars if the respondent has been determined to have committed one other unfair practice in a real estate transaction during the five-year period ending on the date of the filing of this charge; or

(c) In an amount up to fifty thousand dollars if the respondent has been determined to have committed two or more unfair practices in a real estate transaction during the seven-year period ending on the date of the filing of this charge, for loss of the right secured by RCW 49.60.010, 49.60.030, 49.60.040, and 49.60.222 through 49.60.224, as now or hereafter amended, to be free from discrimination in real property transactions because of sex, marital status, race, creed, color, national origin, families with children status, or the presence of any sensory, mental, or physical disability or the use of a trained guide dog or service dog by a blind, deaf, or physically disabled person.

Enforcement of the order and appeal therefrom by the complainant or respondent may be made as provided in RCW 49.60.260 and 49.60.270. If acts constituting the unfair practice in a real estate transaction that is the object of the charge are determined to have been committed by the same natural person who has been previously determined to have committed acts constituting an unfair practice in a real estate transaction, then the civil penalty of up to fifty thousand dollars may be imposed without regard to the period of time within which any subsequent unfair practice in a real estate transaction occurred. All civil penalties assessed under this section shall be paid into the state treasury and credited to the general fund.

(2) Such order shall not affect any contract, sale, conveyance, encumbrance, or lease consummated before the issuance of an order that involves a bona fide purchaser, encumbrancer, or tenant who does not have actual notice of the charge filed under this chapter.

(3) Notwithstanding any other provision of this chapter, persons awarded damages under this section may not receive additional damages pursuant to RCW 49.60.250.

Sec. 5. RCW 49.60.240 and 1993 c 510 s 22 and 1993 c 69 s 12 are each reenacted and amended to read as follows:

After the filing of any complaint, the chairperson of the commission shall refer it to the appropriate section of the commission’s staff for prompt investigation and ascertainment of the facts alleged in the complaint. The investigation shall be limited to the alleged facts contained in the complaint. The results of the investigation shall be reduced to written findings of fact, and a finding shall be made that there is or that there is not reasonable cause for believing that an unfair practice has been or is being committed. A copy of said findings shall be provided to the complainant and to the person named in such complaint, hereinafter referred to as the respondent.

If the finding is made that there is reasonable cause for believing that an unfair practice has been or is being committed, the commission’s staff shall immediately endeavor to eliminate the unfair practice by conference, conciliation, and persuasion.

If an agreement is reached for the elimination of such unfair practice as a result of such conference, conciliation, and persuasion, the agreement shall be reduced to writing and signed by the respondent, and an order shall be entered by the commission setting forth the terms of said agreement. No order shall be entered by the commission at this stage of the proceedings except upon such written agreement, except that during the period beginning with the filing of complaints alleging an unfair practice with respect to real estate transactions pursuant to RCW 49.60.222 through 49.60.225, and ending with the filing of a finding of reasonable cause or a dismissal by the commission, the commission staff shall, to the extent feasible, engage in conciliation with respect to such complaint. Any conciliation agreement arising out of conciliation efforts by the commission shall be an agreement between the respondent and the complainant and shall be subject to the approval of the commission. Each conciliation agreement shall be made public unless the complainant and respondent otherwise agree and the commission determines that disclosure is not required to further the purposes of this chapter.

If no such agreement can be reached, a finding to that effect shall be made and reduced to writing, with a copy thereof provided to the complainant and the respondent.

The commission may adopt rules, including procedural time requirements, for processing complaints alleging an unfair practice with respect to real estate transactions pursuant to RCW
49.60.222 through 49.60.225 and which may be consistent with the federal fair housing amendments act of 1988 (42 U.S.C. Sec. 3601 et seq.), but which in no case shall exceed or be more restrictive than the requirements or standards of such act.

Sec. 6. RCW 49.60.260 and 1993 c 69 s 15 are each amended to read as follows:

(1) The commission or any person entitled to relief of a final order may petition the court within the county wherein any unfair practice occurred or wherein any person charged with an unfair practice resides or transacts business for the enforcement of any final order which is not complied with and is issued by the commission or an administrative law judge under the provisions of this chapter and for appropriate temporary relief or a restraining order, and shall certify and file in court the final order sought to be enforced. Within five days after filing such petition in court, the commission or any person entitled to relief of a final order shall cause a notice of the petition to be sent by certified mail to all parties or their representatives.

(2) If within sixty days after the date the administrative law judge's order concerning an unfair practice in a real estate transaction is entered, no petition has been filed under subsection (1) of this section and the commission has not sought enforcement of the final order under this section, any person entitled to relief under the final order may petition for a decree enforcing the order in the superior courts of the state of Washington for the county in which the unfair practice in a real estate transaction under RCW 49.60.222 through 49.60.224 is alleged to have occurred.

(3) From the time the petition is filed, the court shall have jurisdiction of the proceedings and of the questions determined thereon, and shall have the power to grant such temporary relief or restraining order as it deems just and suitable.

(4) If the petition shows that there is a final order issued by the commission or administrative law judge under RCW 49.60.240 or 49.60.250 and that the order has not been complied with in whole or in part, the court shall issue an order directing the person who is alleged to have not complied with the administrative order to appear in court at a time designated in the order, not less than ten days from the date thereof, and show cause why the administrative order should not be enforced according to the terms. The commission or any person entitled to relief of any final order shall immediately serve the noncomplying party with a copy of the court order and the petition.

(5) The administrative order shall be enforced by the court if the person does not appear, or if the person appears and the court finds that:
   (a) The order is regular on its face;
   (b) The order has not been complied with; and
   (c) The person's answer discloses no valid reason why the order should not be enforced, or that the reason given in the person's answer could have been raised by review under RCW 34.05.510 through 34.05.598, and the person has given no valid excuse for failing to use that remedy.

(6) The jurisdiction of the court shall be exclusive and its judgment and decree shall be final, except that the same shall be subject to appellate review by the supreme court or the court of appeals, on appeal, by either party, irrespective of the nature of the decree or judgment. The review shall be taken and prosecuted in the same manner and form and with the same effect as is provided in other cases.

Where a person makes an acquisition under lease or comparable arrangement, or through donation, which would have required review if the acquisition had been made by purchase, such expenditure shall be deemed a capital expenditure. Capital expenditures include donations of equipment or facilities to a nursing home facility which if acquired directly by such facility would be subject to certificate of need review under the provisions of this chapter and transfer of equipment or facilities for less than fair market value if a transfer of the equipment or facilities at fair market value would be subject to such review. A continuing care contract is not excluded from this definition because the contract is mutually terminable or because shelter and services are not provided at the same location.
(4) "Department" means the department of health."
"Expenditure minimum" means, for the purposes of the certificate of need program, one million dollars adjusted by the department by rule to reflect changes in the United States department of commerce composite construction cost index; or a lesser amount required by federal law and established by the department by rule.

"Health service area" means a geographic region appropriate for effective health planning which includes a broad range of health services.

"Person" means an individual, a trust or estate, a partnership, a corporation (including associations, joint stock companies, and insurance companies), the state, or a political subdivision or instrumentality of the state, including a municipal corporation or a hospital district.

"Provider" generally means a health care professional or an organization, institution, or other entity providing health care but the precise definition for this term shall be established by rule of the department, consistent with federal law.

"Public health" means the level of well-being of the general population; those actions in a community necessary to preserve, protect, and promote the health of the people for which government is responsible; and the governmental system developed to guarantee the preservation of the health of the people.

(3) A certificate of need application of a health maintenance organization or a health care facility which is controlled, directly or indirectly, by a health maintenance organization, shall be approved by the department if the department finds:
(a) Approval of such application is required to meet the needs of the members of the health maintenance organization and of the new members which such organization can reasonably be expected to enroll; and
(b) The health maintenance organization is unable to provide, through services or facilities which can reasonably be expected to be available to the organization, its health services in a reasonable and cost-effective manner which is consistent with the basic method of operation of the organization and which makes such services available on a long-term basis through physicians and other health professionals associated with it.
A health care facility, or any part thereof, with respect to which a certificate of need was issued under this subsection may not be sold or leased and a controlling interest in such facility or in a lease of such facility may not be acquired unless the department issues a certificate of need approving the sale, acquisition, or lease.
(4) Until the final expiration of the state health plan as provided under RCW 70.38.919, the decision of the department on a certificate of need application shall be consistent with the state health plan in effect, except in emergency circumstances which pose a threat to the public health. The department in making its final decision may issue a conditional certificate of need if it finds that the project is justified only under specific circumstances. The conditions shall directly relate to the project being reviewed. The conditions may be released if it can be substantiated that the conditions are no longer valid and the release of such conditions would be consistent with the purposes of this chapter.
(5) Criteria adopted for review in accordance with subsection (2) of this section may vary according to the purpose for which the particular review is being conducted or the type of health service reviewed.
(6) The department shall specify information to be required for certificate of need applications. Within fifteen days of receipt of the application, the department shall request additional information
considered necessary to the application or start the review process. Applicants may decline to submit requested information through written notice to the department, in which case review starts on the date of receipt of the notice. Applications may be denied or limited because of failure to submit required and necessary information.

(7) Concurrent review is for the purpose of comparative analysis and evaluation of competing or similar projects in order to determine which of the projects may best meet identified needs. Categories of projects subject to concurrent review include at least new health care facilities, new services, and expansion of existing health care facilities. The department shall specify time periods for the submission of applications for certificates of need subject to concurrent review, which shall not exceed ninety days. Review of concurrent applications shall start fifteen days after the conclusion of the time period for submission of applications subject to concurrent review. Concurrent review periods shall be limited to one hundred fifty days, except as provided for in rules adopted by the department authorizing and limiting amendment during the course of the review, or for an unresolved pivotal issue declared by the department.

(8) Review periods for certificate of need applications other than those subject to concurrent review shall be limited to ninety days. Review periods may be extended up to thirty days if needed by a review agency, and for unresolved pivotal issues the department may extend up to an additional thirty days. A review may be extended in any case if the applicant agrees to the extension.

(9) The department or its designee, shall conduct a public hearing on a certificate of need application if requested, unless the review is expedited or subject to emergency review. The department by rule shall specify the period of time within which a public hearing must be requested and requirements related to public notice of the hearing, procedures, recordkeeping and related matters.

(10) Any applicant denied a certificate of need or whose certificate of need has been suspended or revoked has the right to an adjudicative proceeding. The proceeding is governed by chapter 34.05 RCW, the Administrative Procedure Act.

(11) An amended certificate of need shall be required for the following modifications of an approved project:
(a) A new service requiring review under this chapter;
(b) An expansion of a service subject to review beyond that originally approved;
(c) An increase in bed capacity;
(d) A significant reduction in the scope of a nursing home project without a commensurate reduction in the cost of the nursing home project, or a cost increase (as represented in bids on a nursing home construction project or final cost estimates acceptable to the person to whom the certificate of need was issued) if the total of such increases exceeds twelve percent or fifty thousand dollars, whichever is greater, over the maximum capital expenditure approved. The review of reductions or cost increases shall be restricted to the continued conformance of the nursing home project with the review criteria pertaining to financial feasibility and cost containment.

(12) An application for a certificate of need for a nursing home capital expenditure which is determined by the department to be required to eliminate or prevent imminent safety hazards or correct violations of applicable licensure and accreditation standards shall be approved.

(13) In the case of an application for a certificate of need to replace existing nursing home beds, all criteria must be met on the same basis as an application for a certificate of need for a new nursing home, except that the need criteria shall be deemed met if the applicant is an existing licensee who proposes to replace existing beds that the licensee has operated for at least one year with the same or fewer number of beds in the same planning area. When an entire nursing home ceases operation, its beds shall be treated as existing nursing home beds for purposes of replacement for eight years or until a certificate of need to replace them is issued, whichever occurs first. However, the nursing home must give notice of its intent to retain the beds to the department of health no later than thirty days after the effective date of the facility’s closure."

**SPEAKER’S RULING**

Representative Rust, the Speaker is prepared to Rule on your Point of Order which challenges Amendment 821 to Engrossed Second Substitute Senate Bill No. 5448 as being beyond the Scope and Object of the bill.

The title of Engrossed Second Substitute Senate Bill No. 5448 is "AN ACT Relating to public water systems."

The title is broad. The bill amends various sections of the RCW’s, reenacts and amends RCW 80.04.110, adds new sections to chapter 70.119A RCW, and creates a new section.

The object of Engrossed Second Substitute Senate Bill No. 5448 is to establish various authority and criteria for creating and regulating public water systems.

Amendment 821 creates a tax exemption for specific lands denied certain water use applications.

The Speaker finds that the Amendment 821 is beyond the scope and object of the bill.

SPEAKER’S RULING

Representative Backlund, The Speaker (Representative Horn presiding) is prepared to Rule on your Point of Order.

The title of Engrossed Substitute Senate Bill No. 5607 is "AN ACT Relating to performance audits of state government. The title is narrow.

Section 6 of Engrossed Substitute Senate Bill No. 5607 provides a list of the items that a zero-base budget review must include. The review must include the costs and full-time equivalent staff associated with each program, the administrative staff costs and staffing levels and an estimate of the amount of funds that reach the intended recipients of the program or activity.

Amendment 806 would require that budget documents submitted by the governor contain the information that the bill asks to be determined by the audit. While the bill addresses the issue of what kind of performance has occurred the amendment addresses what kind of performance is intended to occur.

The Speaker (Representative Horn presiding) finds that amendment 806 perfects the bill and is not beyond the scope and object of the bill.

Representative Backlund, Your Point of Order is not well taken.

Representative Conway, you may continue.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds:
   (1) That in many of Washington’s urban centers there is insufficient availability of desirable and convenient residential units to meet the needs of a growing number of the public who would live in these urban centers if these desirable, convenient, attractive, and livable places to live were available;
   (2) That the development of additional and desirable residential units in these urban centers that will attract and maintain a significant increase in the number of permanent residents in these areas will help to alleviate the detrimental conditions and social liability that tend to exist in the absence of a viable residential population and will help to achieve the planning goals mandated by the growth management act under RCW 36.70A.020; and
(3) That planning solutions to solve the problems of urban sprawl often lack incentive and implementation techniques needed to encourage residential redevelopment in those urban centers lacking sufficient residential opportunities, and it is in the public interest and will benefit, provide, and promote the public health, safety, and welfare to stimulate new or enhanced residential opportunities within urban centers through a tax incentive as provided by this chapter.

NEW SECTION. Sec. 2. It is the purpose of this chapter to encourage increased residential opportunities in cities that are required to plan or choose to plan under the growth management act within urban centers where the legislative body of the affected city has found there is insufficient housing opportunities. It is further the purpose of this chapter to stimulate the construction of new multifamily housing and the rehabilitation of existing vacant and underutilized buildings for multifamily housing in urban centers having insufficient housing opportunities that will increase and improve residential opportunities within these urban centers. To achieve these purposes, this chapter provides for special valuations for eligible improvements associated with multiunit housing in residentially deficient urban centers.

NEW SECTION. Sec. 3. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "City" means a city or town with a population of at least one hundred fifty thousand located in a county planning under the growth management act.

(2) "Governing authority" means the local legislative authority of a city having jurisdiction over the property for which an exemption may be applied for under this chapter.

(3) "Growth management act" means chapter 36.70A RCW.

(4) "Multiple-unit housing" means a building having four or more dwelling units not designed or used as transient accommodations and not including hotels and motels. Multifamily units may result from new construction or rehabilitated or conversion of vacant, underutilized, or substandard buildings to multifamily housing.

(5) "Owner" means the property owner of record.

(6) "Permanent residential occupancy" means multiunit housing that provides either rental or owner occupancy on a nontransient basis. This includes owner-occupied or rental accommodation that is leased for a period of at least one month. This excludes hotels and motels that predominantly offer rental accommodation on a daily or weekly basis.

(7) "Rehabilitation improvements" means modifications to existing structures, that are vacant for twelve months or longer, that are made to achieve a condition of substantial compliance with existing building codes or modification to existing occupied structures which increase the number of multifamily housing units.

(8) "Residential targeted area" means an area within an urban center that has been designated by the governing authority as a residential targeted area in accordance with this chapter.

(9) "Substantial compliance" means compliance with local building or housing code requirements that are typically required for rehabilitation as opposed to new construction.

(10) "Urban center" means a compact identifiable district where urban residents may obtain a variety of products and services. An urban center must contain:

(a) Several existing or previous, or both, business establishments that may include but are not limited to shops, offices, banks, restaurants, governmental agencies;

(b) Adequate public facilities including streets, sidewalks, lighting, transit, domestic water, and sanitary sewer systems; and

(c) A mixture of uses and activities that may include housing, recreation, and cultural activities in association with either commercial or office, or both, use.

NEW SECTION. Sec. 4. The provisions of this chapter relating to special valuation apply only to locally designated residential targeted areas of those cities planning under the growth management act.

NEW SECTION. Sec. 5. (1) The value of new housing construction, conversion, and rehabilitation improvements qualifying under this chapter is exempt from ad valorem property taxation, for ten successive years beginning January 1 of the year immediately following the calendar year after
issuance of the certificate of tax exemption eligibility. However, the exemption does not include the value of land or nonhousing-related improvements not qualifying under this chapter.

(2) In the case of rehabilitation of existing buildings, the exemption does not include the value of improvements constructed prior to the submission of the application required under this chapter. The incentive provided by this chapter is in addition to any other incentives, tax credits, grants, or other incentives provided by law.

(3) This chapter does not apply to increases in assessed valuation made by the assessor on nonqualifying portions of building and value of land nor to increases made by lawful order of a county board of equalization, the department of revenue, or a county, to a class of property throughout the county or specific area of the county to achieve the uniformity of assessment or appraisal required by law.

NEW SECTION. Sec. 6. An owner of property making application under this chapter must meet the following requirements:

(1) The new or rehabilitated multiple-unit housing must be located in a residential targeted area as designated by the city;

(2) The multiple-unit housing must meet the guidelines as adopted by the governing authority that may include height, density, public benefit features, number and size of proposed development, parking, and other adopted requirements indicated necessary by the city. The required amenities should be relative to the size of the project and tax benefit to be obtained;

(3) The new, converted, or rehabilitated multiple-unit housing must provide for a minimum of fifty percent of the space for permanent residential occupancy. In the case of existing occupied multifamily development, the multifamily housing must also provide for a minimum of four additional multifamily units. Existing multifamily vacant housing that has been vacant for twelve months or more does not have to provide additional multifamily units;

(4) New construction multifamily housing and rehabilitation improvements must be completed within three years from the date of approval of the application;

(5) Property proposed to be rehabilitated must be vacant at least twelve months before submitting an application and fail to comply with one or more standards of the applicable state or local building or housing codes on or after the effective date of this section; and

(6) The applicant must enter into a contract with the city approved by the governing body under which the applicant has agreed to the implementation of the development on terms and conditions satisfactory to the governing authority.

NEW SECTION. Sec. 7. (1) The following criteria must be met before an area may be designated as a residential targeted area:

(a) The area must be within an urban center, as determined by the governing authority;

(b) The area must lack, as determined by the governing authority, sufficient available, desirable, and convenient residential housing to meet the needs of the public who would be likely to live in the urban center, if the desirable, attractive, and livable places to live were available; and

(c) The providing of additional housing opportunity in the area, as determined by the governing authority, will assist in achieving one or more of the stated purposes of this chapter.

(2) For the purpose of designating a residential targeted area or areas, the governing authority may adopt a resolution of intention to so designate an area as generally described in the resolution. The resolution must state the time and place of a hearing to be held by the governing authority to consider the designation of the area and may include such other information pertaining to the designation of the area as the governing authority determines to be appropriate to apprise the public of the action intended.

(3) The governing authority shall give notice of a hearing held under this chapter by publication of the notice once each week for two consecutive weeks, not less than seven days, nor more than thirty days before the date of the hearing in a paper having a general circulation in the city where the proposed residential targeted area is located. The notice must state the time, date, place, and purpose of the hearing and generally identify the area proposed to be designated as a residential targeted area.

(4) Following the hearing, or a continuance of the hearing, the governing authority may designate all or a portion of the area described in the resolution of intent as a residential targeted area if it finds, in its sole discretion, that the criteria in subsections (1) through (3) of this section have been met.
(5) After designation of a residential targeted area, the governing authority shall adopt standards and guidelines to be utilized in considering applications and making the determinations required under section 9 of this act. The standards and guidelines must establish basic requirements for both new construction and rehabilitation including application process and procedures. These guidelines may include the following:

(a) Requirements that address demolition of existing structures and site utilization; and
(b) Building requirements that may include elements addressing parking, height, density, environmental impact, and compatibility with the existing surrounding property and such other amenities as will attract and keep permanent residents and that will properly enhance the livability of the residential targeted area in which they are to be located.

NEW SECTION. Sec. 8. An owner of property seeking tax incentives under this chapter must complete the following procedures:

(1) In the case of rehabilitation or where demolition or new construction is required, the owner shall secure from the governing authority or duly authorized agent, before commencement of rehabilitation improvements or new construction, verification of property noncompliance with applicable building and housing codes;

(2) In the case of new and rehabilitated multifamily housing, the owner shall apply to the city on forms adopted by the governing authority. The application must contain the following:

(a) Information setting forth the grounds supporting the requested exemption including information indicated on the application form or in the guidelines;

(b) A description of the project and site plan, including the floor plan of units and other information requested;

(c) A statement that the applicant is aware of the potential tax liability involved when the property ceases to be eligible for the incentive provided under this chapter;

(3) The applicant must verify the application by oath or affirmation; and

(4) The application must be made on or before April 1 of each year, and must be accompanied by the application fee, if any, required under section 10 of this act. The governing authority may permit the applicant to revise an application before final action by the governing authority.

NEW SECTION. Sec. 9. The duly authorized administrative official or committee of the city may approve the application if it finds that:

(1) A minimum of four new units are being constructed or in the case of occupied rehabilitation or conversion a minimum of four additional multifamily units are being developed;

(2) The proposed project is or will be, at the time of completion, in conformance with all local plans and regulations that apply at the time the application is approved;

(3) The owner has complied with all standards and guidelines adopted by the city under this chapter; and

(4) The site is located in a residential targeted area of an urban center that has been designated by the governing authority in accordance with procedures and guidelines indicated in section 7 of this act.

NEW SECTION. Sec. 10. (1) The governing authority or an administrative official or commission authorized by the governing authority shall approve or deny an application filed under this chapter within ninety days after receipt of the application.

(2) If the application is approved, the city shall issue the owner of the property a conditional certificate of acceptance of tax exemption. The certificate must contain a statement by a duly authorized administrative official of the governing authority that the property has complied with the required findings indicated in section 8 of this act.

(3) If the application is denied by the authorized administrative official or commission authorized by the governing authority, the deciding administrative official or commission shall state in writing the reasons for denial and send the notice to the applicant at the applicant’s last known address within ten days of the denial.

(4) Upon denial by a duly authorized administrative official or commission, an applicant may appeal the denial to the governing authority within thirty days after receipt of the denial. The appeal before the governing authority will be based upon the record made before the administrative official with the burden of proof on the applicant to show that there was no substantial evidence to support the
administrative official’s decision. The decision of the governing body in denying or approving the application is final.

NEW SECTION. Sec. 11. The governing authority may establish an application fee. This fee may not exceed an amount determined to be required to cover the cost to be incurred by the governing authority and the assessor in administering this chapter. The application fee must be paid at the time the application for limited exemption is filed. If the application is approved, the governing authority shall pay the application fee to the county assessor for deposit in the county current expense fund, after first deducting that portion of the fee attributable to its own administrative costs in processing the application. If the application is denied, the governing authority may retain that portion of the application fee attributable to its own administrative costs and refund the balance to the applicant.

NEW SECTION. Sec. 12. (1) Upon completion of rehabilitation or new construction for which an application for limited exemption under this chapter has been approved and after issuance of the certificate of occupancy, the owner shall file with the city the following:
   (a) A statement of the amount of rehabilitation or construction expenditures made with respect to each housing unit and the composite expenditures made in the rehabilitation or construction of the entire property;
   (b) A description of the work that has been completed and a statement that the rehabilitation improvements or new construction on the owner’s property qualify the property for limited exemption under this chapter; and
   (c) A statement that the work has been completed within three years of the issuance of the conditional certificate of tax exemption.
(2) Within thirty days after receipt of the statements required under subsection (1) of this section, the authorized representative of the city shall determine whether the work completed is consistent with the application and the contract approved by the governing authority and is qualified for limited exemption under this chapter. The city shall also determine which specific improvements completed meet the requirements and required findings.
(3) If the rehabilitation, conversion, or construction is completed within three years of the date the application for limited exemption is filed under this chapter, or within an authorized extension of this time limit, and the authorized representative of the city determines that improvements were constructed consistent with the application and other applicable requirements and the owner’s property is qualified for limited exemption under this chapter, the city shall file the certificate of tax exemption with the county assessor within ten days of the expiration of the thirty-day period provided under subsection (2) of this section.
(4) The authorized representative of the city shall notify the applicant that a certificate of tax exemption is not going to be filed if the representative determines that:
   (a) The rehabilitation or new construction was not completed within three years of the application date, or within any authorized extension of the time limit;
   (b) The improvements were not constructed consistent with the application or other applicable requirements; or
   (c) The owner’s property is otherwise not qualified for limited exemption under this chapter.
(5) If the authorized representative of the city finds that construction or rehabilitation of multiple-unit housing was not completed within the required time period due to circumstances beyond the control of the owner and that the owner has been acting and could reasonably be expected to act in good faith and with due diligence, the governing authority or the city official authorized by the governing authority may extend the deadline for completion of construction or rehabilitation for a period not to exceed twenty-four consecutive months.
(6) The governing authority may provide by ordinance for an appeal of a decision by the deciding officer or authority that an owner is not entitled to a certificate of tax exemption to the governing authority, a hearing examiner, or other city officer authorized by the governing authority to hear the appeal in accordance with such reasonable procedures and time periods as provided by ordinance of the governing authority. The owner may appeal a decision by the deciding officer or authority that is not subject to local appeal or a decision by the local appeal authority that the owner is not entitled to a certificate of tax exemption in superior court under RCW 34.05.510 through 34.05.598, if the appeal is filed within thirty days of notification by the city to the owner of the decision being challenged.
NEW SECTION. Sec. 13. Thirty days after the anniversary of the date of the certificate of tax exemption and each year for a period of ten years, the owner of the rehabilitated or newly constructed property shall file with a designated agent of the city an annual report indicating the following:

(1) A statement of occupancy and vacancy of the rehabilitated or newly constructed property during the twelve months ending with the anniversary date;
(2) A certification by the owner that the property has not changed use since the date of the certificate approved by the city; and
(3) A description of changes or improvements constructed after issuance of the certificate of tax exemption.

NEW SECTION. Sec. 14. (1) If improvements have been exempted under this chapter, the improvements continue to be exempted and not be converted to another use for at least ten years from date of issuance of the certificate of tax exemption. If the owner intends to convert the multifamily development to another use, the owner shall notify the assessor within sixty days of the change in use. If, after a certificate of tax exemption has been filed with the county assessor the city or assessor or agent discovers that a portion of the property is changed or will be changed to a use that is other than residential or that housing or amenities no longer meet the requirements as previously approved or agreed upon by contract between the governing authority and the owner and that the multifamily housing, or a portion of the housing, no longer qualifies for the exemption, the tax exemption must be canceled and the following must occur:

(a) Additional real property tax must be imposed upon the value of the nonqualifying improvements in the amount that would normally be imposed, plus a penalty must be imposed amounting to twenty percent. This additional tax is calculated based upon the difference between the property tax paid and the property tax that would have been paid if it had included the value of the nonqualifying improvements dated back to the date that the improvements were converted to a nonmultifamily use;
(b) The tax must include interest upon the amounts of the additional tax at the same statutory rate charged on delinquent property taxes from the dates on which the additional tax could have been paid without penalty if the improvements had been assessed at a value without regard to this chapter; and
(c) The additional tax owed together with interest and penalty must become a lien on the land and attach at the time the property or portion of the property is removed from multifamily use or the amenities no longer meet applicable requirements, and has priority to and must be fully paid and satisfied before a recognizance, mortgage, judgment, debt, obligation, or responsibility to or with which the land may become charged or liable. The lien may be foreclosed upon expiration of the same period after delinquency and in the same manner provided by law for foreclosure of liens for delinquent real property taxes. An additional tax unpaid on its due date is delinquent. From the date of delinquency until paid, interest must be charged at the same rate applied by law to delinquent ad valorem property taxes.
(2) Upon a determination that a tax exemption is to be canceled for a reason stated in this section, the governing authority shall notify the record owner of the property as shown by the tax rolls by mail, return receipt requested, of the determination to cancel the exemption. The owner may appeal the determination to the governing authority within thirty days by filing a notice of appeal with the clerk of the governing authority, which notice must specify the factual and legal basis on which the determination of cancellation is alleged to be erroneous. The governing authority or a hearing examiner or other official authorized by the governing authority may hear the appeal. At the hearing, all affected parties may be heard and all competent evidence received. After the hearing, the deciding body or officer shall either affirm, modify, or repeal the decision of cancellation of exemption based on the evidence received. An aggrieved party may appeal the decision of the deciding body or officer to the superior court under RCW 34.05.510 through 34.05.598.
(3) Upon determination by the governing authority or authorized representative to terminate an exemption, the county officials having possession of the assessment and tax rolls shall correct the rolls in the manner provided for omitted property under RCW 84.40.080. The county assessor shall make such a valuation of the property and improvements as is necessary to permit the correction of the rolls. The owner may appeal the valuation to the county board of equalization under chapter 84.48 RCW. If there has been a failure to comply with this chapter, the property must be listed as an omitted
assessment for assessment years beginning January 1 of the calendar year in which the noncompliance first occurred, but the listing as an omitted assessment may not be for a period more than three calendar years preceding the year in which the failure to comply was discovered.

NEW SECTION. Sec. 15. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 16. Sections 1 through 15 of this act shall constitute a new chapter in Title 84 RCW."

"NEW SECTION. Sec. 19. It is the intent of sections 20 through 25 of this act to provide property tax relief for homeowners whose property taxes are at excessive levels. Rapid increases in home values often have the effect of increasing property taxes to excessive levels without an accompanying increase in a homeowner's ability to pay. Sections 20 through 25 of this act limit homeowners property taxes based on their ability to pay. Sections 20 through 25 of this act provide a means to eliminate tremendous surges in property taxes so that families will be able to keep pace and seniors will not be taxed out of their homes.

NEW SECTION. Sec. 20. As used in this section and sections 21 through 23 of this act, except where the context clearly indicates a different meaning:

(1) "Residence" means single-family dwelling unit whether such unit be separate or part of a multiunit dwelling, including the land on which such dwelling stands not to exceed one acre. The term shall also include a share ownership in a cooperative housing association, corporation, or partnership if the person claiming exemption can establish that his or her share represents the specific unit or portion of such structure in which he or she resides. The term shall also include a single-family dwelling situated upon lands the fee of which is vested in the United States or any instrumentality thereof including an Indian tribe or in the state of Washington, and notwithstanding the provisions of RCW 84.04.080 and 84.04.090, such a residence shall be deemed real property.

(2) "Department" means the state department of revenue.

(3) "Combined disposable income" means the disposable income of the person claiming the exemption, plus the disposable income of his or her spouse, and the disposable income of each cotenant occupying the residence for the assessment year, less amounts paid by the person claiming the exemption or his or her spouse during the assessment year for the treatment or care of either person received in the home or in a nursing home.

(4) "Disposable income" means adjusted gross income as defined in the federal internal revenue code, as amended prior to January 1, 1995, or such subsequent date as the director may provide by rule consistent with the purpose of this section, plus all of the following items to the extent they are not included in or have been deducted from adjusted gross income:

(a) Capital gains, other than nonrecognized gain on the sale of a principal residence under section 1034 of the federal internal revenue code, or gain excluded from income under section 121 of the federal internal revenue code to the extent it is reinvested in a new principal residence;

(b) Amounts deducted for loss;

(c) Amounts deducted for depreciation;

(d) Pension and annuity receipts;

(e) Military pay and benefits other than attendant-care and medical-aid payments;

(f) Veterans benefits other than attendant-care and medical-aid payments;

(g) Federal social security act and railroad retirement benefits;

(h) Dividend receipts; and

(i) Interest received on state and municipal bonds.

(5) "Cotenant" means a person who resides with the person claiming the exemption and who has an ownership interest in the residence.

NEW SECTION. Sec. 21. (1) A person is eligible to receive a partial reduction of regular and special property taxes if the following conditions are met:

(a) The property taxes must have been imposed upon a residence that was owned and occupied by the person claiming the reduction as a principal place of residence as of January 1st of the year for which the reduction is claimed. Confinement of the person to a hospital or nursing home shall not disqualify the claim of reduction if the residence is temporarily unoccupied or if the residence is occupied by a spouse or a person financially dependent on the claimant for support; and

(b) After taking the exemption under RCW 84.36.381 if applicable, the regular and special property taxes owed are in excess of five percent of the household's combined disposable income.
In determining eligibility under this section, income shall be income for the year prior to which the property taxes are due. Persons applying for a reduction under this section must apply by August 30th of each year to qualify for the reduction.

NEW SECTION. Sec. 22. (1) The department shall provide to persons eligible under section 21(1) of this act an amount equal to that portion of regular and special property taxes that is in excess of five percent of the household's combined disposable income. (2) The maximum allowable reduction for any household under section 21 of this act in 1995 is one thousand dollars. Thereafter, this reduction base is adjusted annually by the department based on the implicit price deflator for personal consumption expenditures as published by the United States department of commerce.

NEW SECTION. Sec. 23. The property tax reduction fund is created in the state treasury. Moneys in the fund may be spent only after appropriation. Expenditures from the fund may be used only for allowable reductions under section 21 of this act and costs of administering the program. The state treasurer shall credit money into the property tax reduction fund as necessary to provide property tax reductions and pay for administrative costs.

NEW SECTION. Sec. 24. The department of revenue may adopt rules to implement sections 19 through 26 of this act.

Sec. 25. RCW 84.52.067 and 1967 ex.s. c 133 s 2 are each amended to read as follows: All property taxes levied by the state for the support of common schools shall be paid into the general fund or the property tax reduction fund of the state treasury, as provided in RCW 84.56.280.

NEW SECTION. Sec. 26. Sections 20 through 23 of this act are each added to chapter 84.36 RCW.

(4) Property tax increases may place financial hardships on many low-income and middle-income families;

4. Assuming the greatest practicable compliance with the uniformity requirement, is the current property tax system fair and equitable?
5. Is the current property tax system perceived by the taxpayers to be a fair and equitable property tax system?

Frequently, the property management companies also manage the personnel who perform the necessary services at the property location. The property management company is merely acting as a conduit for the property owner's payment to the personnel at the property site.

Section 63 of this act is intended to clarify that the business and occupation tax does not apply to amounts received by a property management company and paid to on-site personnel. Section 63 of this act is not intended to modify the taxation of amounts received by a property management company for purposes other than payment to on-site personnel.

NEW SECTION. Sec. 63. A new section is added to chapter 82.04 RCW to read as follows:

This chapter shall not apply to amounts received by a property management company from the owner of a property for gross wages and benefits paid to or on behalf of on-site personnel. In such cases, the property owners may pay the on-site personnel through use of trust accounts, dedicated bank accounts, or paymaster accounts established for this purpose by the property management company. As used in this section, "on-site personnel" means a person who meets all of the following conditions: (1) The person works at the owner's property; (2) the person's duties include leasing property units, maintaining the property, collecting rents, or similar activities; and (3) pursuant to a written property management agreement, the person's compensation is the obligation of the property owner and not the property manager."

NEW SECTION. Sec. 3. (1) The cities shall contract, prior to the effective date of a resolution or ordinance imposing a sales tax under section 1 of this act, the administration and collection of the local option sales tax to the state department of revenue at no cost to the municipality. The tax authorized by chapter . . ., Laws of 1995 (this act) which is collected by the department of revenue shall be deposited by the state into the account created under RCW 67.40.040 in the state treasury.

Sec. 12.  RCW 67.40.020 and 1993 c 500 s 9 are each amended to read as follows:

(1) The governor is authorized to form a public nonprofit corporation in the same manner as a private nonprofit corporation is formed under chapter 24.03 RCW. The public corporation shall be an instrumentality of the state and have all the powers and be subject to the same restrictions as are permitted or prescribed to private nonprofit corporations, but shall exercise those powers only for carrying out the purposes of this chapter and those purposes necessarily implied therefrom. The governor shall appoint a board of nine directors for the corporation who shall serve terms of six years, except that two of the original directors shall serve for two years and two of the original directors shall serve for four years. After January 1, 1991, at least one position on the board shall be filled by a member representing management in the hotel or motel industry subject to taxation under RCW 67.40.090. The directors may provide for the payment of their expenses. The corporation may acquire a state convention and trade center with an overall size of approximately three hundred thousand square feet to be designed and constructed on a site in the city of Seattle. In acquiring, designing, and constructing the state convention and trade center, the corporation shall consider the recommendations and proposals issued on December 11, 1981, by the joint select committee on the state convention and trade center.

(2) The corporation may acquire and transfer real and personal property by lease, sublease, purchase, or sale, and further acquire property by condemnation of privately owned property or rights to and interests in such property pursuant to the procedure in chapter 8.04 RCW. The corporation may accept gifts or grants, request the financing provided for in RCW 67.40.030, cause the state convention and trade center facilities to be constructed, and do whatever is necessary or appropriate to carry out those purposes. Upon approval by the director of financial management in consultation with the chairpersons of the appropriate fiscal committees of the house of representatives and the senate, the corporation may enter into lease and sublease contracts for a term exceeding the fiscal period in which these leases or subleases are made. The terms of sale or lease of properties acquired by the corporation on February 9, 1987, pursuant to the property purchase and settlement agreement entered into by the corporation on June 12, 1986, including the McKay parcel which the corporation is contractually obligated to sell under that agreement, shall also be subject to the approval of the director of financial management in consultation with the chairpersons of the appropriate fiscal committees of the house of representatives and the senate. No approval by the director of financial management is required for leases of individual retail space,
meeting rooms, or convention-related facilities. In order to allow the corporation flexibility to secure appropriate insurance by negotiation, the corporation is exempt from RCW 48.30.270. The corporation shall maintain, operate, promote, and manage the state convention and trade center.

(3) In order to allow the corporation flexibility in its personnel policies, the corporation is exempt from chapter 41.06 RCW, chapter 41.05 RCW, RCW 43.01.040 through 43.01.044, chapter 41.04 RCW and chapter 41.40 RCW.

The state finance committee may make such bond covenants as it deems necessary to carry out the purposes of this section and this chapter. No bonds authorized in this section may be offered for sale without prior legislative appropriation.

Sec. 14. RCW 67.40.040 and 1991 sp.s c 13 s 11 are each amended to read as follows:

(3) The corporation shall identify with specificity those facilities of the state convention and trade center that are to be financed with proceeds of general obligation bonds, the interest on which is intended to be excluded from gross income for federal income tax purposes. The corporation shall not permit the extent or manner of private business use of those bond-financed facilities to be inconsistent with treatment of such bonds as governmental bonds under applicable provisions of the Internal Revenue Code of 1986, as amended.

(4) In order to ensure consistent treatment of bonds authorized under chapter . . ., Laws of 1995 (this act) with applicable provisions of the Internal Revenue Code of 1986, as amended, and notwithstanding RCW 43.84.092, investment earnings on bond proceeds deposited in the state convention and trade center account in the state treasury shall be retained in the account, and shall be expended by the corporation for the purposes authorized under chapter . . ., Laws of 1995 (this act) and in a manner consistent with applicable provisions of the Internal Revenue Code of 1986, as amended.

POINT OF INQUIRY

Representative Appelwick yielded to a question by Representative Hatfield.

Representative Hatfield: Thank you Mr. Speaker. I’m just curious as to how the public investment in this project compares to similar undertakings in Arlington, Texas, Baltimore and Cleveland.

Representative Appelwick: The bill itself doesn’t require any requirements but the Task Force recommended to the county that before they sign a lease the county would require a minimum of 35% but closer to a 45% commitment. That’s higher than any other public stadium built in this county. Before this goes forward the local officials have asked to have that substantial commitment in terms of public funding. And secondly have asked to have a lien against the franchise in the event of sale to retire the debt. That has also not been done in this country yet.

Representatives D. Schmidt, Appelwick, Van Luven and Quall spoke in favor of passage of the bill.

Representatives Sheldon, Mason, Campbell and Hargrove spoke against passage of the bill.

The Speaker stated the question before the House to be final passage of Engrossed Substitute Senate Bill No. 6049 as amended by the House.

On page 2, line 6, after "of" strike everything down to and including "This" on page 6, line 14 and insert "salvaged water by local communities and individuals for domestic, agricultural, industrial, recreational, and fish and wildlife habitat creation and enhancement purposes, including wetland enhancement, will contribute to the peace, health, safety, and welfare of the people of the state of Washington. To the extent salvaged water is appropriate and available for beneficial uses, it should be used where feasible to supplement existing water supplies without threatening existing resources or public health in order to preserve potable water for drinking purposes and encourage water conservation practices.

The legislature further finds and declares that the use of salvaged water is not inconsistent with the policy of antidegradation of state waters announced in other state statutes, including the water pollution control act, chapter 90.48 RCW and the water resources act, chapter 90.54 RCW, nor is it inconsistent with the state’s relinquishment statutes, chapter 90.48 RCW.

It is the intent of the legislature that the department of ecology and the department of health undertake the necessary steps to encourage the development of water reclamation facilities so that reclaimed water may be made available to help meet the growing water requirements of the state. It is also the intent of the legislature that the relationship between reclaimed water and other salvaged water be clarified to allow for the maximum use of current water conservation technologies and promote efficient administration of this limited resource.

The legislature further finds and declares that reclaimed water facilities are water pollution control facilities as defined in chapter 70.146 RCW and are eligible for financial assistance as provided in chapter 70.146 RCW.

Sec. 2. RCW 90.46.010 and 1992 c 204 s 2 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

1) "Greywater" means (sewage) wastewater having the consistency and strength of residential domestic type wastewater. Greywater includes wastewater from sinks, showers, and laundry fixtures, but does not include toilet or urinal waters.

2) "Land application" means application of treated effluent for purposes of irrigation or landscape enhancement for residential, business, and governmental purposes.

3) "Person" means any state, individual, public or private corporation, political subdivision, governmental subdivision, governmental agency, municipality, copartnership, association, firm, trust estate, or any other legal entity whatever.
(4) "Reclaimed water" means effluent derived in any part from sewage from a wastewater treatment system that has been adequately and reliably treated, so that as a result of that treatment, it is suitable for a ((direct)) beneficial use or a controlled use that would not otherwise occur.

(5) "Sewage" means water-carried human wastes (including kitchen, bath, and laundry waste) from residences, buildings, industrial and commercial establishments, or other places, together with such ground water infiltration, surface waters, or industrial wastewater as may be present.

(6) "User" means any person who uses reclaimed water.

(7) "Wastewater" means water and wastes discharged from homes, businesses, and industry to the sewer system.

(8) "Beneficial use", as used in this chapter, means the use of reclaimed water, that has been transported from the point of production to the point of use without an intervening discharge to the waters of the state, for a beneficial purpose.

(9) "Direct recharge" means the controlled subsurface addition of water directly to the ground water basin that results in the replenishment of ground water.

(10) "Ground water recharge criteria" means the contaminant criteria found in the drinking water quality standards adopted by the state board of health pursuant to chapter 43.20 RCW and the department of health pursuant to chapter 70.119A RCW.

(11) "Planned ground water recharge project" means any reclaimed water project designed for the purpose of recharging ground water, via direct recharge or surface percolation.

(12) "Reclamation criteria" means the criteria set forth in the water reclamation and reuse interim standards and subsequent revisions adopted by the department of ecology and the department of health.

(13) "Salvaged water" means water reclaimed under this chapter and water made surplus through efficiencies in use and related activities.

(14) "Streamflow augmentation" means the discharge of reclaimed water to rivers and streams of the state or other surface water bodies, but not wetlands.

(15) "Surface percolation" means the controlled application of water to the ground surface for the purpose of recharging ground water.

(16) "Wetland or wetlands" means areas that are inundated or saturated by surface water or ground water at a frequency and duration sufficient to support, and that under normal circumstances do support, a prevalence of vegetation typically adapted to life in saturated soil conditions. Wetlands generally include swamps, marshes, bogs, and similar areas. No agency shall use a delineation process for what constitutes a wetland that is more stringent than that adopted by the United States army corps of engineers.

(17) "Man-made wetlands" means a wetland intentionally created from a nonwetland site to produce or replace natural habitat.

NEW SECTION. Sec. 3. A new section is added to chapter 90.46 RCW to read as follows:

(1) Reclaimed water may be beneficially used for surface percolation provided the reclaimed water meets the ground water recharge criteria as measured in ground water beneath or down gradient of the recharge project site, and has been incorporated into a sewer or water comprehensive plan, as applicable, adopted by the applicable local government and approved by the department of health or department of ecology as applicable.

(2) If the state ground water recharge criteria as defined in RCW 90.46.010 do not contain a standard for a constituent or contaminant, the department of ecology shall establish a discharge limit consistent with the goals of this chapter.

(3) Reclaimed water that does not meet the ground water recharge criteria may be beneficially used for surface percolation where the department of ecology has specifically authorized such use at such lower standard.

NEW SECTION. Sec. 4. A new section is added to chapter 90.46 RCW to read as follows:

(1) Reclaimed water may be beneficially used for discharge into man-made wetlands provided the reclaimed water meets the class A or B reclaimed water standards as defined in the reclamation criteria, and the discharge is incorporated into a sewer or water comprehensive plan, as applicable, adopted by the applicable local government and approved by the department of health or department of ecology as applicable.
(2) Reclaimed water that does not meet the class A or B reclaimed water standards may be beneficially used for discharge into man-made wetlands where the department of ecology has specifically authorized such use at lower standards.

NEW SECTION. Sec. 5. A new section is added to chapter 90.46 RCW to read as follows:

Reclaimed water intended for beneficial reuse may be discharged for streamflow augmentation provided the reclaimed water meets the requirements of the federal water pollution control act, chapter 90.48 RCW, and is incorporated into a sewer or water comprehensive plan, as applicable, adopted by the applicable local government and approved by the department of health or department of ecology as applicable.

NEW SECTION. Sec. 6. A new section is added to chapter 90.46 RCW to read as follows:

The department of ecology, in consultation with the department of health, shall, on or before December 31, 1996, for direct recharge using reclaimed water. The standards shall address both water quality considerations and avoidance of property damage from excessive recharge.

NEW SECTION. Sec. 7. A new section is added to chapter 90.46 RCW to read as follows:

The department of ecology shall, in consultation with the department of health, adopt a single set of standards, procedures, and guidelines, on or before June 30, 1996, for discharge of reclaimed water to wetlands.

NEW SECTION. Sec. 8. A new section is added to chapter 90.46 RCW to read as follows:

On or before December 31, 1995, the department of ecology and department of health shall, in consultation with local governments and local interested parties, jointly review and, if required, propose amendments to chapter 372-32 WAC to resolve conflicts between the development of reclaimed water projects in the Puget Sound region and chapter 372-32 WAC.

NEW SECTION. Sec. 9. The department of ecology and the department of health shall report on the progress of the implementation of this act to the members of the agriculture and ecology committee of the house of representatives and the members of the ecology and parks committee of the senate by December 15, 1995.

Sec. 10. RCW 90.46.050 and 1992 c 204 s 6 are each amended to read as follows:

(1) The department of health shall, before July 1, 1995, form an advisory committee, in coordination with the department of ecology and the department of agriculture, which will provide technical assistance in the development of standards, procedures, and guidelines required by this chapter. Such committee shall be composed of individuals from public water and wastewater utilities, landscaping enhancement industry, commercial and industrial application community, and any other persons deemed technically helpful by the department of health.

(2) The department of health shall report to the joint select committee on water resource policy by December 1, 1992, on the fee structure which has been recommended under RCW 90.46.030(3) and review fees authorized under RCW 90.46.40(3).

The advisory committee shall:

review and make recommendations regarding the relationship between the right to use reclaimed water and the abandonment and relinquishment statutes, chapter 90.48 RCW; examine the anomaly in water allocation law posed by statutes calling for the issuance of permits under the water pollution control laws, chapter 90.48 RCW, rather than permits issued under the state's water allocation laws which govern other salvaged water; analyze whether the administration of use permits for reclaimed water should be transferred to the water allocation laws; and identify administrative barriers to the use of practices or technologies that will result in water being made surplus because of greater efficiencies.

"NEW SECTION. Sec. 1. The legislature recognizes that judicial review of certain environmental and land use appeals can be expedited to benefit the people of the state. Allowing direct appeals to superior court or the court of appeals can reduce backlogs, conserve resources, and provide quicker guidance to individuals and communities concerning important matters impacting their area. The legislature therefore finds that it is in the public interest to reduce delays in obtaining a final resolution over certain environmental and land use matters by streamlining the judicial appeals process.

Sec. 2. RCW 34.05.514 and 1994 c 257 s 23 are each amended to read as follows:
(1) Except as provided in subsections (2) and (3) of this section ((and RCW 36.70A.300(3))), proceedings for review under this chapter shall be instituted by filing a petition in the superior court, at the petitioner's option, for (a) Thurston county, (b) the county of the petitioner's residence or principal place of business, or (c) in any county where the property owned by the petitioner and affected by the contested decision is located.
(2) For proceedings involving institutions of higher education, the petition shall be filed either in the county in which the principal office of the institution involved is located or in the county of a branch campus if the action involves such branch.
(3) For proceedings involving water quantity decisions made by the department of ecology, as defined in section 14 of this act, the petition shall be filed in the superior court in the county that will be directly and immediately affected by the decision.

Sec. 3. RCW 43.21B.110 and 1993 c 387 s 22 are each amended to read as follows:

(f) Any other decision by the department, the administrator of the office of marine safety, or an air authority which pursuant to law must be decided as an adjudicative proceeding under chapter 34.05 RCW.

(2) The jurisdiction of the pollution control hearings board is further limited as follows:

(a) The hearings board shall have no jurisdiction whatsoever to review water quantity decisions of the department of ecology as defined in section 14 of this act, which are appealed directly to a superior court, to review orders pertaining to the relinquishment of a water right under RCW 90.14.130, or to review proceedings regarding general adjudications of water rights conducted pursuant to chapter 90.03 or 90.44 RCW.

(b) The following hearings shall not be conducted by the hearings board:

(i) Hearings required by law to be conducted by the shorelines hearings board pursuant to chapter 90.58 RCW.

(ii) Hearings conducted by the department pursuant to RCW 70.94.332, 70.94.390, 70.94.395, 70.94.400, 70.94.405, 70.94.410, and 90.44.180.

Sec. 4. RCW 43.21B.130 and 1990 c 65 s 3 are each amended to read as follows:

The administrative procedure act, chapter 34.05 RCW, shall apply to the appeal of rules and regulations adopted by the board to the same extent as it applied to the review of rules and regulations adopted by the directors and/or boards or commissions of the various departments whose powers, duties and functions were transferred by section 6, chapter 62, Laws of 1970 ex. sess. to the department. Except with regard to water quantity decisions by the department, as defined in section 14 of this act, which are appealed directly to a superior court and orders pertaining to the relinquishment of a water right under RCW 90.14.130, all other decisions and orders of the director and all decisions of air pollution control boards or authorities established pursuant to chapter 70.94 RCW shall be subject to review by the hearings board as provided in this chapter.

Sec. 5. RCW 43.21B.140 and 1987 c 109 s 30 are each amended to read as follows:

In all appeals over which the hearings board has jurisdiction, a party taking an appeal may elect either a formal or an informal hearing, such election to be made according to rules of practice and procedure to be promulgated by the hearings board: PROVIDED, That nothing herein shall be construed to modify the provisions of RCW 43.21B.190 ((and 43.21B.200)). In the event that appeals are taken from the same decision, order, or determination, as the case may be, by different parties and only one of such parties elects ((a formal)) an informal hearing, ((a formal)) an informal hearing shall be granted.

Sec. 6. RCW 43.21B.240 and 1989 c 175 s 105 are each amended to read as follows:

Sec. 7. RCW 43.21B.310 and 1992 c 73 s 3 are each amended to read as follows:

(1) Except as provided in subsection (2) of this section, any order issued by the department, the administrator of the office of marine safety, or authority pursuant to RCW 70.94.211, 70.94.332, 70.105.095, 43.27A.190, 86.16.020, 88.46.070, or 90.48.120(2) or any provision enacted after July 26, 1987, or any permit, certificate, or license issued by the department may be appealed to the pollution control hearings board if the appeal is filed with the board and served on the department or authority within thirty days after receipt of the order. Except as provided under chapter 70.105D RCW, ((this is)) these are the exclusive means of appeal of such an order.
(((2))) (a) The department, the administrator, or the authority in its discretion may stay the

obtain such relief as necessary, including injunctive relief, to insure compliance with the order. The
air authorities may bring similar actions to enforce their orders.

((e)) An appealable decision or order shall be identified as such and shall contain a
conspicuous notice to the recipient that it may be appealed only by filing an appeal with the hearings
board and serving it on the department within thirty days of receipt.

(2) Water quantity decisions of the department, as defined in section 14 of this act may be
appealed either to the pollution control hearings board or directly to a superior court as provided in
section 14 of this act. Appeals of orders pertaining to the relinquishment of a water right shall be filed
in superior court as provided by RCW 90.14.130.

Sec. 8. RCW 43.27A.190 and 1987 c 109 s 11 are each amended to read as follows:
Notwithstanding and in addition to any other powers granted to the department of ecology,
whenever it appears to the department that a person is violating or is about to violate any of the
provisions of the following:

(1) Chapter 90.03 RCW; or
(2) Chapter 90.44 RCW; or
(3) Chapter 86.16 RCW; or
(4) Chapter 43.37 RCW; or
(5) Chapter 43.27A RCW; or
(6) Any other law relating to water resources administered by the department; or

(7) A rule or regulation adopted, or a directive or order issued by the department relating to
 subsections (1) through (6) of this section; the department may cause a written regulatory order to be
served upon (said) the person either personally, or by registered or certified mail delivered to
addressee only with return receipt requested and acknowledged by him or her. The order shall specify
the provision of the statute, rule, regulation, directive or order alleged to be or about to be violated,
and the facts upon which the conclusion of violating or potential violation is based, and shall order the
act constituting the violation or the potential violation to cease and desist or, in appropriate cases, shall
order necessary corrective action to be taken with regard to such acts within a specific and reasonable
time. The regulation of a headgate or controlling works as provided in RCW 90.03.070, by a
watermaster, stream patrolman, or other person so authorized by the department shall constitute a
regulatory order within the meaning of this section. A regulatory order issued hereunder shall become
effective immediately upon receipt by the person to whom the order is directed, except for regulations
under RCW 90.03.070 which shall become effective when a written notice is attached as provided
therein. Any person aggrieved by such order may appeal the order pursuant to RCW 43.21B.310
unless the order is a water quantity decision of the department, as defined in section 14 of this act, in
which case it may be appealed either to the pollution control hearings board or directly to a superior
court as provided in section 14 of this act.
Sec. 9. RCW 90.03.383 and 1991 c 350 s 1 are each amended to read as follows:

(1) The legislature recognizes the value of interties for improving the reliability of public water systems, enhancing their management, and more efficiently utilizing the increasingly limited resource. Given the continued growth in the most populous areas of the state, the increased complexity of public water supply management, and the trend toward regional planning and regional solutions to resource issues, interconnections of public water systems through interties provide a valuable tool to ensure reliable public water supplies for the citizens of the state. Public water systems have been encouraged in the past to utilize interties to achieve public health and resource management objectives. The legislature finds that it is in the public interest to recognize interties existing and in use as of January 1, 1991, and to have associated water rights modified by the department of ecology to reflect current use of water through those interties, pursuant to subsection (3) of this section. The legislature further finds it in the public interest to develop a coordinated process to review proposals for interties commencing use after January 1, 1991.

(2) For the purposes of this section, the following definitions shall apply:

(a) "Interies" are interconnections between public water systems permitting exchange or delivery of water between those systems for other than emergency supply purposes, where such exchange or delivery is within established instantaneous and annual withdrawal rates specified in the systems' existing water right permits or certificates, or contained in claims filed pursuant to chapter 90.14 RCW, and which results in better management of public water supply consistent with existing rights and obligations. Interties include interconnections between public water systems permitting exchange or delivery of water to serve as primary or secondary sources of supply, but do not include development of new sources of supply to meet future demand.

(b) "Service area" is the area designated in a water system plan or a coordinated water system plan pursuant to chapter 43.20 or 70.116 RCW respectively. When a public water system does not have a designated service area subject to the approval process of those chapters, the service area shall be the designated place of use contained in the water right permit or certificate, or contained in the claim filed pursuant to chapter 90.14 RCW.

(3) Public water systems with interties existing and in use as of January 1, 1991, or that have received written approval from the department of health prior to that date, shall file written notice of those interties with the department of health and the department of ecology. The notice may be incorporated into the public water system's five-year update of its water system plan, but shall be filed no later than June 30, 1996. The notice shall identify the location of the intertie; the dates of its first use; the purpose, capacity, and current use; the intertie agreement of the parties and the service areas assigned; and other information reasonably necessary to modify the water right permit. Notwithstanding the provisions of RCW 90.03.380 and 90.44.100, for public water systems with interties existing and in use as of January 1, 1991, the department of ecology, upon receipt of notice meeting the requirements of this subsection, shall, as soon as practicable, modify the place of use descriptions in the water right permits, certificates, or claims to reflect the actual use through such interties, provided that the place of use is within service area designations established in a water system plan approved pursuant to chapter 43.20 RCW, or a coordinated water system plan approved pursuant to chapter 70.116 RCW, and further provided that the water used is within the instantaneous and annual withdrawal rates specified in the water right permit and that no outstanding complaints of impairment to existing water rights have been filed with the department of ecology prior to September 1, 1991. Where such complaints of impairment have been received, the department of ecology shall make all reasonable efforts to resolve them in a timely manner through agreement of the parties or through available administrative remedies.

(4) Notwithstanding the provisions of RCW 90.03.380 and 90.44.100, exchange or delivery of water through interties commencing use after January 1, 1991, shall be permitted when the intertie improves overall system reliability, enhances the manageability of the systems, provides opportunities for conjunctive use, or delays or avoids the need to develop new water sources, and otherwise meets the requirements of this section, provided that each public water system's water use shall not exceed the instantaneous or annual withdrawal rate specified in its water right authorization, shall not adversely affect existing water rights, and shall not be inconsistent with state-approved plans such as water system plans or other plans which include specific proposals for construction of interties. Interties commencing use after January 1, 1991, shall not be inconsistent with regional water resource plans developed pursuant to chapter 90.54 RCW.
(5) For public water systems subject to the approval process of chapter 43.20 RCW or chapter 70.116 RCW, proposals for interties commencing use after January 1, 1991, shall be incorporated into water system plans pursuant to chapter 43.20 RCW or coordinated water system plans pursuant to chapter 70.116 RCW and submitted to the department of health and the department of ecology for review and approval as provided for in subsections (5) through (9) of this section. The plan shall state how the proposed intertie will improve overall system reliability, enhance the manageability of the systems, provide opportunities for conjunctive use, or delay or avoid the need to develop new water sources.

(6) The department of health shall be responsible for review and approval of proposals for new interties. In its review the department of health shall determine whether the intertie satisfies the criteria of subsection (4) of this section, with the exception of water rights considerations, which are the responsibility of the department of ecology, and shall determine whether the intertie is necessary to address emergent public health or safety concerns associated with public water supply.

(7) If the intertie is determined by the department of health to be necessary to address emergent public health or safety concerns associated with public water supply, the public water system shall amend its water system plan as required and shall file an application with the department of ecology to change its existing water right to reflect the proposed use of the water as described in the approved water system plan. The department of ecology shall process the application for change pursuant to RCW 90.03.380 or 90.44.100 as appropriate, except that, notwithstanding the requirements of those sections regarding notice and protest periods, applicants shall be required to publish notice one time, and the comment period shall be fifteen days from the date of publication of the notice. Within sixty days of receiving the application, the department of ecology shall issue findings and advise the department of health if existing water rights are determined to be adversely affected. If no determination is provided by the department of ecology within the sixty-day period, the department of health shall proceed as if existing rights are not adversely affected by the proposed intertie. The department of ecology may obtain an extension of the sixty-day period by submitting written notice to the department of health and to the applicant indicating a definite date by which its determination will be made. No additional extensions shall be granted, and in no event shall the total review period for the department of ecology exceed one hundred eighty days.

(8) If the department of health determines the proposed intertie appears to meet the requirements of subsection (4) of this section but is not necessary to address emergent public health or safety concerns associated with public water supply, the department of health shall instruct the applicant to submit to the department of ecology an application for change to the underlying water right or claim as necessary to reflect the new place of use. The department of ecology shall consider the applications pursuant to the provisions of RCW 90.03.380 and 90.44.100 as appropriate. If in its review of proposed interties and associated water rights the department of ecology determines that additional information is required to act on the application, the department may request applicants to provide information necessary for its decision, consistent with agency rules and written guidelines. Parties disagreeing with the decision of the department of ecology ([on]) to approve or deny the application for change in place of use may appeal the decision to the pollution control hearings board or directly to a superior court as provided in section 14 of this act.

(9) The department of health may approve plans containing intertie proposals prior to the department of ecology’s decision on the water right application for change in place of use. However, notwithstanding such approval, construction work on the intertie shall not begin until the department of ecology issues the appropriate water right document to the applicant consistent with the approved plan.

Sec. 10. RCW 90.14.130 and 1987 c 109 s 13 are each amended to read as follows:

When it appears to the department of ecology that a person entitled to the use of water has not beneficially used his or her water right or some portion thereof, and it appears that ([said]) the right has or may have reverted to the state because of such nonuse, as provided by RCW 90.14.160, 90.14.170, or 90.14.180, the department of ecology shall notify such person by order: PROVIDED, That where a company, association, district, or the United States has filed a blanket claim under the provisions of RCW 90.14.060 for the total benefits of those served by it, the notice shall be served on such company, association, district or the United States and not upon any of its individual water users who may not have used the water or some portion thereof which they were entitled to use. The order shall contain: (1) A description of the water right, including the approximate location of the point of diversion, the general description of the lands or places where such waters were used, the water
source, the amount involved, the purpose of use, and the apparent authority upon which the right is based; (2) a statement that unless sufficient cause be shown on appeal the water right will be declared relinquished; and (3) a statement that such order may be appealed to ((the pollution control hearings board)) superior court. Any person aggrieved by such an order may appeal it to ((the pollution control hearings board pursuant to RCW 43.21B.310)) the superior court in the county where the land is located upon which the water was used. Any such appeal to superior court shall be de novo. The order shall be served by registered or certified mail to the last known address of the person and be posted at the point of division or withdrawal. The order by itself shall not alter the recipient’s right to use water, if any.

Sec. 11. RCW 90.14.190 and 1987 c 109 s 14 are each amended to read as follows:
Any person feeling aggrieved by any decision of the department of ecology may have the same reviewed by the pollution control hearings board or directly to a superior court pursuant to ((RCW 43.21B.310)) section 14 of this act. In any such review, the findings of fact as set forth in the report of the department of ecology shall be prima facie evidence of the fact of any waiver or relinquishment of a water right or portion thereof. If the hearings board affirms the decision of the department, a party seeks review in superior court of that hearings board decision pursuant to chapter 34.05 RCW, and the court determines that the party was injured by an arbitrary, capricious, or erroneous order of the department, the court may award reasonable attorneys’ fees. Any order regarding the relinquishment of a water right shall be appealed pursuant to RCW 90.14.130.

Sec. 12. RCW 90.14.200 and 1989 c 175 s 180 are each amended to read as follows:
(1) All matters relating to the implementation and enforcement of this chapter by the department of ecology shall be carried out in accordance with chapter 34.05 RCW, the Administrative Procedure Act, except where the provisions of this chapter expressly conflict with chapter 34.05 RCW. Proceedings held pursuant to RCW 90.14.130 are ((adjudicative proceedings within the meaning of chapter 34.05 RCW. Final decisions of the department of ecology in these proceedings)) appealable to superior court as provided in that section. Other final decisions of the department of ecology under this chapter are subject to review by the pollution control hearings board or a superior court in accordance with ((chapter 43.21B RCW)) section 14 of this act.
(2) RCW 90.14.130 provides nonexclusive procedures for determining a relinquishment of water rights under RCW 90.14.160, 90.14.170, and 90.14.180. RCW 90.14.160, 90.14.170, and 90.14.180 may be applied in, among other proceedings, general adjudication proceedings initiated under RCW 90.03.110 or 90.44.220: PROVIDED, That nothing herein shall apply to litigation involving determinations of the department of ecology under RCW 90.03.290 relating to the impairment of existing rights.

Sec. 13. RCW 90.66.080 and 1979 c 3 s 8 are each amended to read as follows:
The department is hereby empowered to promulgate such rules as may be necessary to carry out the provisions of this chapter. Decisions of the department, other than rule making, shall be subject to review by the pollution control hearings board or a superior court in accordance with ((chapter 43.21B RCW)) section 14 of this act.

NEW SECTION.  Sec. 14. A new section is added to chapter 43.21B RCW to read as follows:
(1) A person who is aggrieved or adversely affected by a water quantity decision may appeal the decision either to the pollution control hearings board pursuant to RCW 43.21B.310 or directly to a superior court. Any direct appeal to a superior court as authorized by this section shall be de novo and must be filed in the superior court in the county that will be directly and immediately affected by the decision.
(2) For purposes of this section, a "water quantity decision" includes the following:
(a) A decision to grant or deny a permit or certificate for a right to the beneficial use of water or to amend, change, or transfer such a right;
(b) A decision to enforce the conditions of a permit for, or right to, the beneficial use of water or to require any person to discontinue the use of water; and
(c) A decision to establish a minimum flow or level for water under chapter 90.03, 90.22, or 90.54 RCW, or to reserve water for such a minimum flow or level
Sec. 15. RCW 90.58.180 and 1994 c 253 s 3 are each amended to read as follows:

(1) Any person aggrieved by the granting, denying, or rescinding of a permit on shorelines of the state pursuant to RCW 90.58.140 may seek review from the shorelines hearings board by filing a request for the same within thirty days of the date of filing as defined in RCW 90.58.140(6).

((Concurrently with)) Within seven days of the filing of any request for review with the board as provided in this section pertaining to a final order of a local government, the requestor shall (((file a copy))) serve copies of his or her request (((with))) on the department and the attorney general. (((If it appears to the department or the attorney general that the requestor has valid reasons to seek review, either the department or the attorney general may certify the request within thirty days after its receipt to the shorelines hearings board following which the board shall then, but not otherwise, review the matter covered by the requestor. The failure to obtain such certification shall not preclude the requestor from obtaining a review in the superior court under any right to review otherwise available to the requestor.)) The department and the attorney general may intervene to protect the public interest and insure that the provisions of this chapter are complied with at any time within fifteen days from the date of the receipt by the department or the attorney general of a copy of the request for review filed pursuant to this section. ((The shorelines hearings board shall initially schedule review proceedings on such requests for review without regard as to whether such requests have or have not been certified or as to whether the period for the department or the attorney general to intervene has or has not expired, unless such review is to begin within thirty days of such scheduling. If at the end of the thirty day period for certification neither the department nor the attorney general has certified a request for review, the hearings board shall remove the request from its review schedule.))

(2) The department or the attorney general may obtain review of any final order granting a permit, or granting or denying an application for a permit issued by a local government by filing a written request with the shorelines hearings board and the appropriate local government within thirty days from the date the final order was filed as provided in RCW 90.58.140(6).

(3) The review proceedings authorized in subsections (1) and (2) of this section are subject to the provisions of chapter 34.05 RCW pertaining to procedures in adjudicative proceedings. Judicial review of such proceedings of the shorelines hearings board is governed by chapter 34.05 RCW.

(4) A local government may appeal to the shorelines hearings board any rules, regulations, or guidelines adopted or approved by the department within thirty days of the date of the adoption or approval. The board shall make a final decision within sixty days following the hearing held thereon. If the board determines that the rule, regulation, or guideline:

(a) Is clearly erroneous in light of the policy of this chapter; or
(b) Constitutes an implementation of this chapter in violation of constitutional or statutory provisions; or
(c) Is arbitrary and capricious; or
(d) Was developed without fully considering and evaluating all material submitted to the department by the local government; or
(e) Was not adopted in accordance with required procedures;
the board shall enter a final decision declaring the rule, regulation, or guideline invalid, remanding the rule, regulation, or guideline to the department with a statement of the reasons in support of the determination, and directing the department to adopt, after a thorough consultation with the affected local government, a new rule, regulation, or guideline. Unless the board makes one or more of the determinations as hereinbefore provided, the board shall find the rule, regulation, or guideline to be valid and enter a final decision to that effect.

(5) Rules, regulations, and guidelines shall be subject to review in superior court, if authorized pursuant to RCW 34.05.570(2). No review shall be granted by a superior court on petition from a local government unless the local government shall first have obtained review under subsection (4) of this section and the petition for court review is filed within three months after the date of final decision by the shorelines hearings board.

Sec. 16. RCW 34.05.518 and 1988 c 288 s 503 are each amended to read as follows:

(1) The final decision of an administrative agency in an adjudicative proceeding under this chapter may be directly reviewed by the court of appeals either (a) upon certification by the superior court pursuant to this section or (b) if the final decision is from an environmental board as defined in subsection (3) of this section, upon acceptance by the court of appeals after a certificate of appealability has been filed by the environmental board that rendered the final decision.
For direct review upon certification by the superior court, an application for direct review must be filed with the superior court within thirty days of the filing of the petition for review in superior court. The superior court may certify a case for direct review only if the judicial review is limited to the record of the agency proceeding and the court finds that:

1. Fundamental and urgent issues affecting the future administrative process or the public interest are involved which require a prompt determination;
2. Delay in obtaining a final and prompt determination of such issues would be detrimental to any party or the public interest;
3. An appeal to the court of appeals would be likely regardless of the determination in superior court; and
4. The appellate court's determination in the proceeding would have significant precedential value.

Procedures for certification shall be established by court rule.

For the purposes of direct review of final decisions of environmental boards, environmental boards include those boards identified in RCW 43.21B.005 and growth management hearings boards as identified in RCW 36.70A.250.

An environmental board may issue a certificate of appealability if it finds that delay in obtaining a final and prompt determination of the issues would be detrimental to any party or the public interest and either:

1. Fundamental and urgent state-wide or regional issues are raised; or
2. The proceeding is likely to have significant precedential value.

The environmental board shall state in the certificate of appealability which criteria it applied, explain how that criteria was met, and file with the certificate a copy of the final decision.

For an appellate court to accept direct review of a final decision of an environmental board, it shall consider the same criteria outlined in subsection (3) of this section.

The procedures for direct review of final decisions of environmental boards include:

1. Within thirty days after filing the petition for review with the superior court, a party may file an application for direct review with the superior court and serve the appropriate environmental board and all parties of record. The application shall request the environmental board to file a certificate of appealability.
2. If an issue on review is the jurisdiction of the environmental board, the board may file an application for direct review with the superior court and serve the appropriate environmental board and all parties of record. The application shall request the environmental board to file a certificate of appealability.
3. The environmental board shall have thirty days to grant or deny the request for a certificate of appealability and its decision shall be filed with the superior court and served on all parties of record.
4. If a certificate of appealability is issued, the parties shall have fifteen days from the date of service to file a notice of discretionary review in the superior court, and the notice shall include a copy of the certificate of appealability and a copy of the final decision.
5. If the appellate court accepts review, the certificate of appealability shall be transmitted to the court of appeals as part of the certified record.
6. If a certificate of appealability is denied, review shall be by the superior court. The superior court's decision may be appealed to the court of appeals.

Sec. 17. RCW 34.05.522 and 1988 c 288 s 504 are each amended to read as follows:

The court of appeals may refuse to accept direct review of a case ((certified)) pursuant to RCW 34.05.518 if it finds that the case does not meet the applicable standard in RCW 34.05.518(2) or (5). Rules of Appellate Procedure 2.3 do not apply in this instance. The refusal to accept such review is not subject to further appellate review, notwithstanding anything in Rule 13.3 of the Rules of Appellate Procedure to the contrary.

Sec. 18. RCW 34.05.542 and 1988 c 288 s 509 are each amended to read as follows:

Subject to other requirements of this chapter or of another statute:

1. A petition for judicial review of a rule may be filed at any time, except as limited by RCW 34.05.375.
2. A petition for judicial review of an order shall be filed with the court and served on the agency, the hearings board if one is involved, the office of the attorney general, and all parties of record within thirty days after service of the final order.
(3) A petition for judicial review of agency action other than the adoption of a rule or the entry of an order is not timely unless filed with the court and served on the agency, the office of the attorney general, and all other parties of record within thirty days after the agency action, but the time is extended during any period that the petitioner did not know and was under no duty to discover or could not reasonably have discovered that the agency had taken the action or that the agency action had a sufficient effect to confer standing upon the petitioner to obtain judicial review under this chapter.

(4) Service of the petition on the agency shall be by delivery of a copy of the petition to the office of the director, or other chief administrative officer or chairperson of the agency, at the principal office of the agency. Service of a copy by mail upon the other parties of record, the hearings board if one is involved, and the office of the attorney general shall be deemed complete upon deposit in the United States mail, as evidenced by the postmark.

(5) Failure to timely serve a petition on the office of the attorney general or the hearings board if one is involved, is not grounds for dismissal of the petition unless the service that is provided impairs the orderly conduct of judicial process. The service so provided as to the hearings board only applies to judicial proceedings pending on the effective date of this act.

(6) For the purposes of this section, "hearings board" means and independent, quasi-judicial, multiperson entity whose sole responsibility is to determine on review in a contested matter the validity or invalidity of an order issued by another governmental entity.

Sec. 19. RCW 34.05.566 and 1989 c 175 s 26 are each amended to read as follows:

(1) Within thirty days after service of the petition for judicial review, or within further time allowed by the court or by other provision of law, the agency shall transmit to the court the original or a certified copy of the agency record for judicial review of the agency action. The record shall consist of any agency documents expressing the agency action, other documents identified by the agency as having been considered by it before its action and used as a basis for its action, and any other material described in this chapter as the agency record for the type of agency action at issue, subject to the provisions of this section.

(2) If part of the record has been preserved without a transcript, the agency shall prepare a transcript for inclusion in the record transmitted to the court, except for portions that the parties stipulate to omit in accordance with subsection (4) of this section.

(3) The agency may charge a nonindigent petitioner with the reasonable costs of preparing any necessary copies and transcripts for transmittal to the court. A failure by the petitioner to pay any of this cost to the agency relieves the agency from the responsibility for preparation of the record and transmittal to the court.

(4) The record may be shortened, summarized, or organized temporarily or, by stipulation of all parties, permanently.

(5) The court may tax the cost of preparing transcripts and copies of the record:
(a) Against a party who unreasonably refuses to stipulate to shorten, summarize, or organize the record; or
(b) In accordance with any provision of law.

(6) Additions to the record pursuant to RCW 34.05.562 must be made as ordered by the court.

(7) The court may require or permit subsequent corrections or additions to the record.

(8) For the purposes of this section, agency includes hearings board as defined in RCW 34.05.542(6).

NEW SECTION. Sec. 20. It is the intent of the legislature through the enactment of section 18 of this act to clarify the filing procedures in RCW 34.05.542. Section 18 of this act is remedial in nature and applies to all judicial proceedings pending on the effective date of this act.

NEW SECTION. Sec. 21. A new section is added to chapter 43.21B RCW to read as follows:

The hearings board shall ensure that a hearing pertaining to a water quantity decision, as defined in section 14 of this act, shall be conducted in the general area where the petitioner resides, or provide for the hearing to be conducted by telephone. A single member of the board may conduct such hearings.
NEW SECTION. Sec. 22. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 23. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately."

POINT OF ORDER

Representative Rust: Thank you Mr. Speaker. I would request a ruling on the scope and object of the amendment.

SPEAKER'S RULING

Representative Rust, the Speaker is prepared to Rule on your Point of Order which challenges amendment 876 to Senate Bill No. 5087. "The Title of Senate Bill No. 5087 is AN ACT Relating to appeals involving environmental and land use appeals boards. The underlying Senate bill and the striking amendment both deal with environmental and land use appeals. Both the underlying bill and the amendment provide for expedited judicial review for limited cases. In both cases the expedited review is that the option of the appellant. The language in the committee striker that would have subjected these types of cases to review under the APA before an ALJ is removed. The purpose of both measures is to reduce back logs in the system and to save people time and money and provide quicker guidance to the community on whether certain actions should be allowed. The Speaker finds that the amendment is not beyond the scope and object of the bill.

Representative Rust, Your Point of Order is not well taken.

Representative Reams moved adoption of the following amendment to the amendment by Representative Reams:

On page 1, after line 15 of the amendment, insert the following:

"The legislature also finds that petitions to growth management hearings boards have resulted in costly reviews that have not accorded adequate deference to planning decisions of counties and cities. Sections 22 through 25 of this act are intended to reaffirm the presumption of validity accorded to local decisions and clarify the role of the state and the boards in the review and appeal of local plans."

On page 19, after line 2 of the amendment, insert the following:

"Sec. 22. RCW 36.70A.310 and 1994 c 249 ss 32 are each amended to read as follows: (1) A request for review by the state to a growth management hearings board may be made only by the governor, or with the governor's consent the head of an agency, or by the commissioner of public lands as relating to state trust lands, for the review of whether: (((1)) (a) A county or city that is required or chooses to plan under RCW 36.70A.040 has failed to adopt a comprehensive plan or development regulations, or county-wide planning policies within the time limits established by this chapter; or (((2)) (b) a county or city that is required or chooses to plan under this chapter has adopted a comprehensive plan, development regulations, or county-wide planning policies, that are not in compliance with the requirements of this chapter."
(2) Except as provided in subsection (1) of this section with regard to state trust lands, a state agency may be authorized to seek review by a growth management hearings board only if the governor finds:
   (a) The agency has participated substantially in the local process and has consistently raised the issues to be addressed in the petition; or
   (b) Review by a board is the best means to accomplish the state goals.

Sec. 23. RCW 36.70A.320 and 1991 sp.s c 32 s 13 are each amended to read as follows:
(1)(a) Comprehensive plans and development regulations, and amendments thereto, adopted under this chapter are presumed valid upon adoption. In any petition under this chapter, the board, after full consideration of the petition, shall determine whether there is compliance with the requirements of this chapter. In making its determination, the board shall consider the criteria adopted by the department under RCW 36.70A.190(4).
(b) The board shall find compliance unless it finds that the petitioner has demonstrated by a preponderance of the evidence that the state agency, county, or city erroneously interpreted or applied this chapter. The presumption of validity accorded to the decisions of the local legislative body places the burden upon the petitioner to demonstrate noncompliance. The failure of a county or city to develop a record that supports the action that is the basis of the petition does not by itself constitute a basis for a finding of noncompliance.
(2) In making its determination, the board shall take into consideration the extent of urbanization of the area in question, the planning history and capabilities of the county or city, and the relative amount of financial assistance made available to the county or city by the state for purposes of meeting the requirements of this chapter.

NEW SECTION. Sec. 24. A new section is added to chapter 36.70A RCW to read as follows:
The office of the attorney general shall, at the request of a county or city that has been found in compliance with the provisions of this chapter by a growth management hearings board, defend or provide assistance in the county or city’s defense of an appeal of the board finding in superior court.

Sec. 25. RCW 36.70A.250 and 1994 c 249 s 29 are each amended to read as follows:
(1) There are hereby created three growth management hearings boards for the state of Washington. Each board is a quasi-judicial body. The boards shall be established as follows:
(a) An Eastern Washington board with jurisdictional boundaries including all counties that are required to or choose to plan under RCW 36.70A.040 and are located east of the crest of the Cascade mountains;
(b) A Central Puget Sound board with jurisdictional boundaries including King, Pierce, Snohomish, and Kitsap counties; and
(c) A Western Washington board with jurisdictional boundaries including all counties that are required or choose to plan under RCW 36.70A.040 and are located west of the crest of the Cascade mountains and are not included in the Central Puget Sound board jurisdictional boundaries. Skamania county, should it be required or choose to plan under RCW 36.70A.040, may elect to be included within the jurisdictional boundaries of either the Western or Eastern board.
(2) Each board shall only hear matters pertaining to the cities and counties located within its jurisdictional boundaries."

Renumber the remaining sections consecutively and correct the title.

On page 6, after line 18, insert the following:

"Sec. 12. RCW 90.03.380 and 1991 c 347 s 15 are each amended to read as follows:

(1) The right to the use of water which has been applied to a beneficial use in the state shall be and remain appurtenant to the land or place upon which the same is used: PROVIDED, HOWEVER,
That the right may be transferred to another or to others and become appurtenant to any other land or place of use without loss of priority of right theretofore established if such change can be made without detriment or injury to existing rights. The point of diversion of water for beneficial use or the purpose of use may be changed, if such change can be made without detriment or injury to existing rights. Before any transfer of such right to use water or change of the point of diversion of water or change of purpose of use can be made, any person having an interest in the transfer or change, shall file a written application therefor with the department, and the application shall not be granted until notice of the application is published as provided in RCW 90.03.280. If it shall appear that such transfer or such change may be made without injury or detriment to existing rights, the department shall issue to the applicant a certificate in duplicate granting the right for such transfer or for such change of point of diversion or of use. The certificate so issued shall be filed and be made a record with the department and the duplicate certificate issued to the applicant may be filed with the county auditor in like manner and with the same effect as provided in the original certificate or permit to divert water.

(2) If an application for change proposes to transfer water rights from one irrigation district to another, the department shall, before publication of notice, receive concurrence from each of the irrigation districts that such transfer or change will not adversely affect the ability to deliver water to other landowners or impair the financial integrity of either of the districts.

(3) A change in place of use by an individual water user or users of water provided by an irrigation district need only receive approval for the change from the board of directors of the district if the use of water continues within the irrigation district.

(4) Sections (1), (2), and (3) of this section do not apply to a change regarding a portion of the water governed by a water right that is made surplus to the beneficial uses exercised under the right through the implementation of practices or technologies, which are more efficient or more water use efficient than those under which the right was perfected or through a change in crops grown under the water right. The use of water within an irrigation district of water supplied by the district and made surplus as provided in this subsection shall be regulated solely as provided by the board of directors of the irrigation district except as follows: Such a use requires the approval of the board of directors of the irrigation district or must otherwise be authorized by the board; the board may approve or authorize such a use only if the use does not impair the financial or operational integrity of the district; and water made surplus through a change in the crops grown with district-supplied water is not available for use as a matter of right by the individual water user making the change, but may be used by the board for the benefit of the district generally. The board of directors of directors may approve or otherwise authorize under this subsection uses of such surplus water that result in the total irrigated acreage within the district exceeding the irrigated acreage recorded with the department for the district's water right if the board notifies the department of the change in the irrigated acreage within the district. Such a notification provides a change in the district's water right and, upon receiving the notification, the department shall revise its records for the district's right to reflect the change. A change or use authorized by or under this subsection shall be made without loss of priority of the right. The use of water other than irrigation district-supplied water that is made surplus as provided in this subsection is governed by section 13 of this act.

(5) This section shall not apply to trust water rights acquired by the state through the funding of water conservation projects under chapter 90.38 RCW or RCW 90.42.010 through 90.42.070.

NEW SECTION. Sec. 13. A new section is added to chapter 90.03 RCW to read as follows:

If a portion of the water governed by a water right is made surplus to the beneficial uses exercised under the right through the implementation of practices or technologies, which are more efficient or more water use efficient than those under which the right was perfected or through a change in crops grown under the water right, the right to use the surplus water may be changed to use on other lands owned by the holder of the water right that are contiguous to the lands upon which the use of the water was authorized by the right before such a change. Such a change shall be made without loss of priority of the right. The holder of the water right shall notify the department of such a change. The notification provides a change in the holder's water right and, upon receiving the notification, the department shall revise its records for the water right to reflect the change.

This section does not apply to water supplied by an irrigation district.
Sec. 14. RCW 90.44.100 and 1987 c 109 s 113 are each amended to read as follows: (1) After an application to, and upon the issuance by the department of an amendment to the appropriate permit or certificate of ground water right, the holder of a valid right to withdraw public ground waters may, without losing his priority of right, construct wells or other means of withdrawal at a new location in substitution for or in addition to those at the original location, or he may change the manner or the place of use of the water. (2) An amendment shall be issued only after publication of notice of the application and findings as prescribed in the case of an original application. Such amendment shall be issued by the department only on the conditions that: (a) The additional or substitute well or wells shall tap the same body of public ground water as the original well or wells; (b) use of the original well or wells shall be discontinued upon construction of the substitute well or wells; (c) the construction of an additional well or wells shall not enlarge the right conveyed by the original permit or certificate; and (d) other existing rights shall not be impaired. The department may specify an approved manner of construction and shall require a showing of compliance with the terms of the amendment, as provided in RCW 90.44.080 in the case of an original permit.

(2) This section does not apply to a change in use of a portion of the water governed by a ground water right that is made surplus to the beneficial uses exercised under the right through the implementation of practices or technologies, including but not limited to conveyance technologies, which are more efficient or more water use efficient than those under which the right was perfected or through a change in the crops grown under the water right. RCW 90.03.380(4) and section 13 of this act apply to water made surplus as provided in this subsection.

Sec. 15. RCW 90.03.290 and 1994 c 264 s 84 are each amended to read as follows: When an application complying with the provisions of this chapter and with the rules and regulations of the department has been filed, the same shall be placed on record with the department, and it shall be its duty to investigate the application, and determine what water, if any, is available for appropriation, and find and determine to what beneficial use or uses it can be applied. If it is proposed to appropriate water for irrigation purposes, the department shall investigate, determine and find what lands are capable of irrigation by means of water found available for appropriation. If it is proposed to appropriate water for the purpose of power development, the department shall investigate, determine and find whether the proposed development is likely to prove detrimental to the public interest, having in mind the highest feasible use of the waters belonging to the public. If the application does not contain, and the applicant does not promptly furnish sufficient information on which to base such findings, the department may issue a preliminary permit, for a period of not to exceed three years, requiring the applicant to make such surveys, investigations, studies, and progress reports, as in the opinion of the department may be necessary. If the applicant fails to comply with the conditions of the preliminary permit, it and the application or applications on which it is based shall be automatically canceled and the applicant so notified. If the holder of a preliminary permit shall, before its expiration, file with the department a verified report of expenditures made and work done under the preliminary permit, which, in the opinion of the department, establishes the good faith, intent and ability of the applicant to carry on the proposed development, the preliminary permit may, with the approval of the governor, be extended, but not to exceed a maximum period of five years from the date of the issuance of the preliminary permit. The department shall make and file as part of the record in the matter, written findings of fact concerning all things investigated, and if it shall find that there is water available for appropriation for a beneficial use, and the appropriation thereof as proposed in the application will not impair existing rights or be detrimental to the public welfare, it shall issue a permit stating the amount of water to which the applicant shall be entitled and the beneficial use or uses to which it may be applied: PROVIDED, That where the water applied for is to be used for irrigation purposes, it shall become appurtenant only to such land as may be reclaimed thereby to the full extent of the soil for agricultural purposes. But where there is no unappropriated water in the proposed source of supply, or where the proposed use conflicts with existing rights, or threatens to prove detrimental to the public interest, having due regard to the highest feasible development of the use of the waters belonging to the public, it shall be duty of the department to reject such application and to refuse to issue the permit asked for. If the permit is refused because of conflict with existing rights and such applicant shall acquire same by purchase or condemnation under RCW 90.03.040, the department may thereupon grant such permit. Any application may be approved for a less amount of water than that applied for, if there exists substantial reason therefor, and in any event shall not be approved for...
more water than can be applied to beneficial use for the purposes named in the application. In determining whether or not a permit shall issue upon any application, it shall be the duty of the department to investigate all facts relevant and material to the application. After the department approves said application in whole or in part and before any permit shall be issued thereon to the applicant, such applicant shall pay the fee provided in RCW 90.03.470. PROVIDED FURTHER, That in the event a permit is issued by the department upon any application, it shall be its duty to notify the director of fish and wildlife of such issuance.

This section does not apply to changes made under section 13 of this act or to changes made under RCW 90.03.380(4) or 90.44.100(2).

Sec. 16. RCW 90.44.445 and 1993 c 99 s 1 are each amended to read as follows:
In any acreage expansion program adopted by the department as an element of a ground water management program, the authorization for a water right certificate holder to participate in the program shall be on an annual basis for the first two years. After the two-year period, the department may authorize participation for ten-year periods. The department may authorize participation for ten-year periods for certificate holders who have already participated in an acreage expansion program for two years. The department may require annual certification that the certificate holder has complied with all requirements of the program. The department may require annual certification that the certificate holder has complied with all requirements of the program. The department may require annual certification that the certificate holder has complied with all requirements of the program.

This section applies only in an area with a ground water area or subarea management program in effect on the effective date of this section. The provisions of section 13 of this act, RCW 90.03.380, and 90.44.100 apply to transfers, changes, amendments to permits or rights for the beneficial use of ground water in any other area.

Renumber the remaining section consecutively, correct internal references accordingly, and correct the title.

POINT OF ORDER

Representative Rust: Thank you Mr. Speaker. I would request a ruling on the scope and object of the amendment.

SPEAKER'S RULING

"Representative Rust, the Speaker is prepared to Rule on your Point of Order which challenges amendment 880 to Substitute Senate Bill No. 5606 as being beyond the Scope and Object of the bill.
"The title of Substitute Senate Bill No. 5606 is "AN ACT Relating to water conservation and the reclamation and direct beneficial use of wastewater.
"The title is somewhat narrow. The bill amends RCW 90.46.005, 90.46.010, and 90.46.050, adds new sections to chapter 90.46 RCW, and creates a new section.
"The bill promotes water conservation through the reclamation and beneficial use of wastewater resulting in water made surplus through the implementation of practices or technologies that are more water use efficient.
"The house just adopted amendment 876 which added language regarding salvaged water which includes reclaimed and surplus water, and directing the advisory committee to examine various application of the state's abandonment and relinquishment statutes to permits or rights to use such water.
"Amendment 877 to Substitute Senate Bill No. 5087 would amend various RCW's and add a new section to chapter 90.03 RCW. The amendment would enhance the ability of state and local entities to ensure more surplus water is available and that reclaimed and salvaged water is applied for beneficial use.
"The Speaker finds that the amendment is not beyond the scope and object of the bill.

(1) "Minor" means any person under the age of eighteen years.

(a) That the average adult person, applying contemporary community standards, would find,
when considered as a whole, appeals to the prurient interest of minors; and
(b) That explicitly depicts or describes, by prevailing standards in the adult community with
respect to what is suitable for minors, patently offensive representations or descriptions of:
(i) Ultimate sexual acts, normal or perverted, actual or simulated; or

genitals or genital area, sexually explicit conduct, sexual excitement, or sexually explicit nudity; or
(iii) Sexual acts that are violent or destructive, including but not limited to human or animal
mutilation, dismemberment, rape, or torture; and
(c) That, when considered as a whole, and in the context in which it is used, lacks serious
literary, artistic, political, or scientific value for minors.

entity.
(9) "Knowledge of its character" means that the person has knowledge that the matter or
performance contains, depicts, or describes activity or conduct that may be found to be patently
offensive under subsection (2)(b) of this section. Such knowledge may be proved by direct or
circumstantial evidence, or both.
(10) "Knowledge" means knowledge as defined in RCW 9A.08.010(1)(b).

NEW SECTION.  Sec. 2. No person shall with knowledge of its character:
(1) Display matter that is harmful to minors, as defined in section 1(2) of this act, in such a
way that minors, as part of the invited general public, will be exposed to view such matter; however, a
person shall be deemed not to have displayed matter harmful to minors if the matter is kept behind
devices commonly known as blinder racks so that the lower two-thirds of the matter is not exposed to
view. In the case of on-line accessibility to information stored in an electronic form, a person shall be
deemed not to have displayed matter harmful to minors if:

in section 3(3) of this act and who have obtained a password or other authorization necessary for access
to the matter; or
(b) Where it is not reasonably possible to restrict access in the manner described in (a) of this
subsection, the matter is stored in an area labelled "adults only";

NINETY-NINTH DAY

AFTERNOON SESSION

The House was called to order at 1:00 p.m. by the Speaker (Representative Horn presiding). The Clerk called the roll and a quorum was present.

The flag was escorted to the rostrum by a Sergeant at Arms Color Guard, Pages Kelly Smith and Annalisa Woods. Prayer was offered by Wes Johnson, of the Bethel Baptist Church of Everett.

Reading of the Journal of the previous day was dispensed with and it was ordered to stand approved.

POINT OF PERSONAL PRIVILEGE

Representative Campbell: Thank you Mr. Speaker. Mr. Speaker, over the weekend since we adjourned I have to report that a good friend and comrade died in a very tragic car accident and I just wanted to point out his passing today. Dr. David Cantwell who’s up on Canyon Rd. when some irresponsible drunken mad man ran into him, killed him. A wonderful man, a good friend 36 yrs old, left his wife and three children. They live in an adjoining district, the 25th, but they’re good friends of ours. And I have to tell you this is a grievous loss and we’re certainly going to be saddened for it.

He wasn’t alone, another gentleman was killed in the wreck and two young ladies are tragically in the hospital and probably crippled for life. I hate to start this session this week on this note but I wanted to thank the body for the outstanding work we did on the drunk driving legislation and I hope and pray that these types of injuries and incidents will be reduced in the years to come. I just wanted to mention David, because the world certainly is going to be a lesser place without him, he was a wonderful person and my heart goes out to his family and all the family members from the other families that are going to miss their uncle and that gentleman who was killed also from people that were good samaritans, just to try to help move a car off the road. I thank you Mr. Speaker for indulging me and thank the body once again for really acting and, I think in very positive way, this very tragic menace that we’re dealing with.

RESOLUTIONS

HOUSE RESOLUTION NO. 95-4667, by Representatives Cairnes, Cooke, Campbell, Kremen, Dyer, D. Schmidt, Koster and Hatfield

WHEREAS, It is the policy of the Washington State Legislature to recognize excellence in service and contribution to the great state of Washington and these United States; and

WHEREAS, A great many citizens of the great state of Washington served in the American Merchant Marine during the years surrounding World War II, and many other Washington state citizens continue to serve today; and

WHEREAS, During World War II the United States depended heavily upon the Merchant Marine for the war effort, to man the "Liberty Ships," that carried forty-one Merchant Seaman and twenty-six United States Navy Armed Guard gunners, bringing much needed cargo, foodstuffs, munitions, supplies, and other raw material to our Allies and vital war theaters, by way of large ship convoys crossing the treacherous Atlantic and Pacific Oceans; and

WHEREAS, These convoys faced untold dangers and perils, including being methodically hunted by U-boats in "wolf-packs," which, for example, in the first twenty days of March 1943 sank ninety-seven Allied merchant ships. The convoys also faced the hazards of mines, enemy aircraft, surface warships, armed raiders, and not least of all the North Atlantic gales and Pacific typhoons; and

WHEREAS, The Merchant Marines surmounted and conquered these perils and served the United States readily and reliably, unselfishly and unwaveringly, valiantly and proudly, courageously and patriotically; and

WHEREAS, The fight for freedom in World War II would have been immeasurably affected without the selfless and determined contributions by the Merchant Marines to vanquish and defeat the Axis powers, heretofore the greatest enemies of freedom the world had known; and

WHEREAS, During times of peace, the Merchant Marines faithfully ensure strong, robust seaborne commerce, bolstering and fostering international trade and continued prosperity for the great state of Washington and these United States;

NOW, THEREFORE, BE IT RESOLVED, That the House of Representatives of the State of Washington, honor the excellence in service and contribution to the great state of Washington and these United States by those who serve in the Merchant Marines, helping to assure continued economic prosperity through trade, and especially those who have served during the years surrounding World War II, who, by their courage, patriotism, and selfless and unwavering sacrifices have contributed to ensuring that the forces of tyranny will never triumph over the bright light of freedom.

WHEREAS, Home schools and private schools provide families the opportunity for their children to receive a sound academic education integrated with high ethical standards taught within a safe and secure environment; and
WHEREAS, Home schools and private schools allow parents to ensure that the positive character traits and moral values instilled in their children at home are reinforced by the educational process; and
WHEREAS, It is a fundamental principle that precedes both the federal and state constitutions that parents have the ultimate authority and responsibility for the care and upbringing of their children; and
WHEREAS, Parents have the paramount right to direct the education of their children and to oversee what their children learn and how they are taught; and
WHEREAS, The Washington State Legislature has appropriately and statutorily recognized home education and private schooling as legitimate and viable education alternatives; and
WHEREAS, The Washington State Legislature has also recognized the rights of parents to teach and train their children according to the dictates of their sincerely held religious beliefs; and
WHEREAS, Home education and private school education were the predominant if not singular forms of education for much of the early years of America’s past; and
WHEREAS, Many notable Americans, including George Washington, Patrick Henry, John Marshall, Abraham Lincoln, Booker T. Washington, and Woodrow Wilson were primarily educated at home; and
WHEREAS, Washington now has more children being educated at home schools and private schools than ever before in the history of our state; and
WHEREAS, Parents of students in home schools and private schools must not only pay for the education of their own children but as taxpayers they also pay for the education of their neighbors' children saving the state millions of dollars each year; and
WHEREAS, Contemporary studies continue to confirm that children who are educated at home or in private schools score exceptionally well on nationally normed achievement tests, exhibit confidence, conviction, poise, and purpose, and are fully prepared to meet the challenges of today's society; and
WHEREAS, It is appropriate that home and private school educators throughout Washington be recognized for their sacrificial contributions to the diversity and quality of education in this great state;

SENATE AMENDMENTS TO HOUSE BILL

April 14, 1995

Mr. Speaker:

The Senate has passed ENGROSSED SUBSTITUTE HOUSE BILL NO. 1046 with the following amendments:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 70.47 RCW to read as follows: BASIC HEALTH PLAN--EXPANDED ENROLLMENT. (1) The legislature finds that the basic health plan has been an effective program in providing health coverage for uninsured residents.
Further, since 1993, substantial amounts of public funds have been allocated for subsidized basic health plan enrollment.

(2) It is the intent of the legislature that the basic health plan enrollment be expanded expeditiously, consistent with funds available in the health services account, with the goal of two hundred thousand adult subsidized basic health plan enrollees and one hundred thirty thousand children covered through expanded medical assistance services by June 30, 1997, with the priority of providing needed health services to children in conjunction with other public programs.

(3) Effective January 1, 1996, basic health plan enrollees whose income is less than one hundred twenty-five percent of the federal poverty level shall pay at least a ten-dollar premium share.

(4) No later than July 1, 1996, the administrator shall implement procedures whereby hospitals licensed under chapters 70.41 and 71.12 RCW, health carrier, rural health care facilities regulated under chapter 70.175 RCW, and community and migrant health centers funded under RCW 41.05.220, may expeditiously assist patients and their families in applying for basic health plan or medical assistance coverage, and in submitting such applications directly to the health care authority or the department of social and health services. The health care authority and the department of social and health services shall make every effort to simplify and expedite the application and enrollment process.

(5) No later than July 1, 1996, the administrator shall implement procedures whereby health insurance agents and brokers, licensed under chapter 48.17 RCW, may expeditiously assist patients and their families in applying for basic health plan or medical assistance coverage, and in submitting such applications directly to the health care authority or the department of social and health services. Brokers and agents shall be entitled to receive a commission for each individual sale of the basic health plan to anyone not at anytime previously signed up and a commission for each group sale of the basic health plan. No commission shall be provided upon a renewal. Commissions shall be determined based on the estimated annual cost of the basic health plan, however, commissions shall not result in a reduction in the premium amount paid to health carriers. For purposes of this section "health carrier" is as defined in section 4 of this act. The health care authority and the department of social and health services shall make every effort to simplify and expedite the application and enrollment process.

NEW SECTION. Sec. 2. HEALTH CARE SAVINGS ACCOUNTS. (1) This chapter shall be known as the health care savings account act.

(2) The legislature recognizes that the costs of health care are increasing rapidly and most individuals are removed from participating in the purchase of their health care.

As a result, it becomes critical to encourage and support solutions to alleviate the demand for diminishing state resources. In response to these increasing costs in health care spending, the legislature intends to clarify that health care savings accounts may be offered as health benefit options to all residents as incentives to reduce unnecessary health services utilization, administration, and paperwork, and to encourage individuals to be in charge of and participate directly in their use of service and health care spending. To alleviate the possible impoverishment of residents requiring long-term care, health care savings accounts may promote savings for long-term care and provide incentives for individuals to protect themselves from financial hardship due to a long-term health care need.

(3) Health care savings accounts are authorized in Washington state as options to employers and residents.

NEW SECTION. Sec. 3. HEALTH CARE SAVINGS ACCOUNTS--REQUEST FOR TAX EXEMPTION. The governor and responsible agencies shall:

(1) Request that the United States congress amend the internal revenue code to treat premiums and contributions to health benefit plans, such as health care savings account programs, basic health plans, conventional and standard health plans offered through a health carrier, by employers, self-employed persons, and individuals, as fully excluded employer expenses and deductible from individual adjusted gross income for federal tax purposes.

(2) Request that the United States congress amend the internal revenue code to exempt from federal income tax interest that accrues in health care savings accounts until such money is withdrawn for expenditures other than eligible health expenses as defined in law.

(3) If all federal statute or regulatory waivers necessary to fully implement this chapter have not been obtained by the effective date of this section, this chapter shall remain in effect.
NEW SECTION.  Sec.  4. DEFINITIONS.  Unless otherwise specifically provided, the definitions in this section apply throughout this chapter.

(1) "Adjusted community rate" means the rating method used to establish the premium for health plans adjusted to reflect actuarially demonstrated differences in utilization or cost attributable to geographic region, age, family size, and use of wellness activities.

(2) "Covered person" or "enrollee" means a person covered by a health plan including an enrollee, subscriber, policyholder, beneficiary of a group plan, or individual covered by any other health plan.

(3) "Eligible employee" means an employee who works on a full-time basis with a normal work week of thirty or more hours. The term includes a self-employed individual, including a sole proprietor, a partner of a partnership, and may include an independent contractor, if the self-employed individual, sole proprietor, partner, or independent contractor is included as an employee under a health benefit plan of a small employer, but does not work less than thirty hours per week and derives at least seventy-five percent of his or her income from a trade or business through which he or she has attempted to earn taxable income and for which he or she has filed the appropriate internal revenue service form. Persons covered under a health benefit plan pursuant to the consolidated omnibus budget reconciliation act of 1986 shall not be considered eligible employees for purposes of minimum participation requirements of this act.

(4) "Enrollee point-of-service cost-sharing" means amounts paid to health carriers directly providing services, health care providers, or health care facilities by enrollees and may include copayments, coinsurance, or deductibles.

(5) "Health care facility" or "facility" means hospices licensed under chapter 70.127 RCW, hospitals licensed under chapter 70.41 RCW, rural health care facilities as defined in RCW 70.175.020, psychiatric hospitals licensed under chapter 71.12 RCW, nursing homes licensed under chapter 18.51 RCW, community mental health centers licensed under chapter 71.05 or 71.24 RCW, kidney disease treatment centers licensed under chapter 70.41 RCW, ambulatory diagnostic, treatment, or surgical facilities licensed under chapter 70.41 RCW, drug and alcohol treatment facilities licensed under chapter 70.96A RCW, and home health agencies licensed under chapter 70.127 RCW, and includes such facilities if owned and operated by a political subdivision or instrumentality of the state and such other facilities as required by federal law and implementing regulations.

(6) "Health care provider" or "provider" means:

In determining the number of eligible employees, companies that are affiliated companies, or that are eligible to file a combined tax return for purposes of taxation by this state, shall be considered an employer. Subsequent to the issuance of a health plan to a small employer and for the purpose of determining eligibility, the size of a small employer shall be determined annually. NEW SECTION. Sec. 5. INSURANCE REFORM--PORTABILITY. (1) Every health carrier shall waive any preexisting condition exclusion or limitation for persons or groups who had similar health coverage under a different health plan at any time during the three-month period immediately preceding the date of application for the new health plan if such person was continuously covered under the immediately preceding health plan. If the person was continuously covered for at least three months under the immediately preceding health plan, the carrier may not impose a waiting period for coverage of preexisting conditions. If the person was continuously covered for less than three months under the immediately preceding health plan, the carrier must credit any waiting period toward the new health plan. For the purposes of this subsection, a preceding health plan includes an employer provided self-funded health plan.

(2) Subject to the provisions of subsection (1) of this section, nothing contained in this section requires a health carrier to amend a health plan to provide new benefits in its existing health plans. In addition, nothing in this section requires a carrier to waive benefit limitations not related to an individual or group’s preexisting conditions or health history.

NEW SECTION. Sec. 6. INSURANCE REFORM--PREEXISTING CONDITIONS. (1) No carrier may reject an individual for health plan coverage based upon preexisting conditions of the individual and no carrier may deny, exclude, or otherwise limit coverage for an individual’s preexisting health conditions; except that a carrier may impose a three-month benefit waiting period for preexisting conditions for which medical advice was given, or for which a health care provider recommended or provided treatment within three months before the effective date of coverage.
(2) No carrier may avoid the requirements of this section through the creation of a new rate classification or the modification of an existing rate classification. A new or changed rate classification will be deemed an attempt to avoid the provisions of this section if the new or changed classification would substantially discourage applications for coverage from individuals or groups who are higher than average health risks. These provisions apply only to individuals who are Washington residents.

NEW SECTION. Sec. 7. INSURANCE REFORM--GUARANTEED ISSUE. (1) All health carriers shall accept for enrollment any state resident within the carrier’s service area and provide or assure the provision of all covered services regardless of age, sex, family structure, ethnicity, race, health condition, geographic location, employment status, socioeconomic status, other condition or situation, or the provisions of RCW 49.60.174(2). The insurance commissioner may grant a temporary exemption from this subsection, if, upon application by a health carrier the commissioner finds that the clinical, financial, or administrative capacity to serve existing enrollees will be impaired if a health carrier is required to continue enrollment of additional eligible individuals.

(2) Except as provided in subsection (5) of this section, all health plans shall contain or incorporate by endorsement a guarantee of the continuity of coverage of the plan. For the purposes of this section, a plan is "renewed" when it is continued beyond the earliest date upon which, at the carrier’s sole option, the plan could have been terminated for other than nonpayment of premium. In the case of group plans, the carrier may consider the group’s anniversary date as the renewal date for purposes of complying with the provisions of this section.

(3) The guarantee of continuity of coverage required in health plans shall not prevent a carrier from canceling or nonrenewing a health plan for:
   (a) Nonpayment of premium;
   (b) Violation of published policies of the carrier approved by the insurance commissioner;
   (c) Covered persons entitled to become eligible for medicare benefits by reason of age who fail to apply for a medicare supplement plan or medicare cost, risk, or other plan offered by the carrier pursuant to federal laws and regulations;
   (d) Covered persons who fail to pay any deductible or copayment amount owed to the carrier and not the provider of health care services;
   (e) Covered persons committing fraudulent acts as to the carrier;
   (f) Covered persons who materially breach the health plan; or
   (g) Change or implementation of federal or state laws that no longer permit the continued offering of such coverage.

(4) The provisions of this section do not apply in the following cases:
   (a) A carrier has zero enrollment on a product; or
   (b) A carrier replaces a product and the replacement product is provided to all covered persons within that class or line of business, includes all of the services covered under the replaced product, and does not significantly limit access to the kind of services covered under the replaced product. The health plan may also allow unrestricted conversion to a fully comparable product; or
   (c) A carrier is withdrawing from a service area or from a segment of its service area because the carrier has demonstrated to the insurance commissioner that the carrier’s clinical, financial, or administrative capacity to serve enrollees would be exceeded.

(5) The provisions of this section do not apply to health plans deemed by the insurance commissioner to be unique or limited or have a short-term purpose, after a written request for such classification by the carrier and subsequent written approval by the insurance commissioner.

NEW SECTION. Sec. 8. A new section is added to chapter 48.43 RCW to read as follows:
Every health plan delivered, issued for delivery, or renewed by a health carrier on and after January 1, 1996, shall:
   (1) Permit every category of health care provider to provide health services or care for conditions included in the basic health plan services to the extent that:
      (a) The provision of such health services or care is within the health care providers’ permitted scope of practice; and
      (b) The providers agree to abide by standards related to:
         (i) Provision, utilization review, and cost containment of health services;
         (ii) Management and administrative procedures; and
         (iii) Provision of cost-effective and clinically efficacious health services.
Annually report the names and addresses of all officers, directors, or trustees of the health carrier during the preceding year, and the amount of wages, expense reimbursements, or other payments to such individuals.

(2) Of the members appointed by the governor, two shall be appointed to two-year terms and two shall be appointed to three-year terms. Thereafter, members shall be appointed to three-year terms. The chair shall serve at the pleasure of the governor. Vacancies shall be filled by appointment for the remainder of the unexpired term of the position being vacated. A majority of the voting members shall constitute a quorum.

   (f) The status of medical education and make recommendations regarding steps possible to encourage adequate availability of health care professionals to meet the needs of the state’s populations with particular attention to rural areas;
   (g) The implementation of community rating and its impacts on the marketplace including costs and access;
   (h) The status of quality improvement programs in both the public and private sectors;

(4) Conduct a comparative analysis of individual and group insurance markets addressing: Relative costs; utilization rates; adverse selection; and specific impacts upon small businesses and individuals. The analysis shall address, also, the necessity and feasibility of establishing explicit related policies, to include, but not be limited to, establishing the maximum allowable individual premium rate as a percentage of the small group premium rate. The board shall submit an interim report on its findings to the governor and appropriate committees of the legislature by December 15, 1995, and a final report on December 15, 1996;

(5) Develop sample enrollee satisfaction surveys that may be used by health carriers.

NEW SECTION. Sec. 12. STUDY. In January 1999 the legislative budget committee shall commence a study of the necessity of the existence of the board and report its recommendations to the appropriate committees of the legislature by December 1, 1999.

NEW SECTION. Sec. 13. A new section is added to chapter 48.20 RCW to read as follows: (1)(a) An insurer offering any health benefit plan to any individual shall offer and actively market to all individuals a health benefit plan providing benefits identical to the schedule of covered health services that are required to be delivered to an individual enrolled in the basic health plan. Nothing in this subsection shall preclude an insurer from offering, or an individual from purchasing, other health benefit plans that may have more or less comprehensive benefits than the basic health plan, provided such plans are in accordance with this chapter. An insurer offering a health benefit plan that does not include benefits provided in the basic health plan shall clearly disclose these differences to the individual in a brochure approved by the commissioner.

(b) A health benefit plan shall provide coverage for hospital expenses and services rendered by a physician licensed under chapter 18.57 or 18.71 RCW but is not subject to the requirements of RCW 48.20.390, 48.20.393, 48.20.395, 48.20.397, 48.20.410, 48.20.411, 48.20.412, 48.20.416, and 48.20.420 if the health benefit plan is the mandatory offering under (a) of this subsection that provides benefits identical to the basic health plan, to the extent these requirements differ from the basic health plan.

(2) Premiums for health benefit plans for individuals shall be calculated using the adjusted community rating method that spreads financial risk across the carrier's entire individual product population. All such rates shall conform to the following:

(a) The insurer shall develop its rates based on an adjusted community rate and may only vary the adjusted community rate for:

(i) Geographic area;

(ii) Family size;

(iii) Age; and

(iv) Wellness activities.

(b) The adjustment for age in (a)(iii) of this subsection may not use age brackets smaller than five-year increments which shall begin with age twenty and end with age sixty-five. Individuals under the age of twenty shall be treated as those age twenty.

(c) The insurer shall be permitted to develop separate rates for individuals age sixty-five or older for coverage for which medicare is the primary payer and coverage for which medicare is not the primary payer. Both rates shall be subject to the requirements of this subsection.

(d) The permitted rates for any age group shall be no more than four hundred twenty-five percent of the lowest rate for all age groups on January 1, 1996, four hundred percent on January 1, 1997, and three hundred seventy-five percent on January 1, 2000, and thereafter.

(e) A discount for wellness activities shall be permitted to reflect actuarially justified differences in utilization or cost attributed to such programs not to exceed twenty percent.

(f) The rate charged for a health benefit plan offered under this section may not be adjusted more frequently than annually except that the premium may be changed to reflect:

(i) Changes to the family composition;

(ii) Changes to the health benefit plan requested by the individual; or
(iii) Changes in government requirements affecting the health benefit plan.

(g) For the purposes of this section, a health benefit plan that contains a restricted network provision shall not be considered similar coverage to a health benefit plan that does not contain such a provision, provided that the restrictions of benefits to network providers result in substantial differences in claims costs. This subsection does not restrict or enhance the portability of benefits as provided in section 5 of this act.

(3) Adjusted community rates established under this section shall pool the medical experience of all individuals purchasing coverage, and shall not be required to be pooled with the medical experience of health benefit plans offered to small employers under RCW 48.21.045.

(4) As used in this section, “health benefit plan,” “basic health plan,” “adjusted community rate,” and “wellness activities” mean the same as defined in section 4 of this act.

(2) Nothing in this section shall prohibit an insurer from offering, or a purchaser from seeking, benefits in excess of the basic (coverage authorized herein) health plan services. All forms, policies, and contracts shall be submitted for approval to the commissioner, and the rates of any plan offered under this section shall be reasonable in relation to the benefits thereto.

(3) Premium rates for health benefit plans for small employers as defined in this section shall be subject to the following provisions:

(iii) Changes to the health benefit plan requested by the small employer; or
(iv) Changes in government requirements affecting the health benefit plan.

(g) Rating factors shall produce premiums for identical groups that differ only by the amounts attributable to plan design, with the exception of discounts for health improvement programs.

(h) For the purposes of this section, a health benefit plan that contains a restricted network provision shall not be considered similar coverage to a health benefit plan that does not contain such a provision, provided that the restrictions of benefits to network providers result in substantial differences in claims costs. This subsection does not restrict or enhance the portability of benefits as provided in section 5 of this act.

(i) Adjusted community rates established under this section shall pool the medical experience of all small groups purchasing coverage.

(4) The health benefit plans authorized by this section that are lower than the required offering shall not supplant or supersede any existing policy for the benefit of employees in this state. Nothing in this section shall restrict the right of employees to collectively bargain for insurance providing benefits in excess of those provided herein.

(5)(a) Except as provided in this subsection, requirements used by an insurer in determining whether to provide coverage to a small employer shall be applied uniformly among all small employers applying for coverage or receiving coverage from the carrier.

(b) An insurer shall not require a minimum participation level greater than:

(i) One hundred percent of eligible employees working for groups with three or less employees; and

(ii) Seventy-five percent of eligible employees working for groups with more than three employees.

(d) An insurer may not increase any requirement for minimum employee participation or modify any requirement for minimum employer contribution applicable to a small employer at any time after the small employer has been accepted for coverage.

(6) An insurer must offer coverage to all eligible employees of a small employer and their dependents. An insurer may not offer coverage to only certain individuals or dependents in a small employer group or to only part of the group. An insurer may not modify a health plan with respect to a small employer or any eligible employee or dependent, through riders, endorsements or otherwise, to restrict or exclude coverage or benefits for specific diseases, medical conditions, or services otherwise covered by the plan.

(7) As used in this section, "health benefit plan," "small employer," "basic health plan," "adjusted community rate," and "wellness activities" mean the same as defined in section 4 of this act.

NEW SECTION. Sec. 15. A new section is added to chapter 48.44 RCW to read as follows:

(g) Rating factors shall produce premiums for identical groups that differ only by the amounts attributable to plan design, with the exception of discounts for health improvement programs.
(h) For the purposes of this section, a health benefit plan that contains a restricted network provision shall not be considered similar coverage to a health benefit plan that does not contain such a provision, provided that the restrictions of benefits to network providers result in substantial differences in claims costs. This subsection does not restrict or enhance the portability of benefits as provided in section 5 of this act.
(i) Adjusted community rates established under this section shall pool the medical experience of all groups purchasing coverage.

(4) The health benefit plans authorized by this section that are lower than the required offering shall not supplant or supersede any existing policy for the benefit of employees in this state. (d) A contractor may not increase any requirement for minimum employee participation or modify any requirement for minimum employer contribution applicable to a small employer at any time after the small employer has been accepted for coverage.

(6) A contractor must offer coverage to all eligible employees of a small employer and their dependents. A contractor may not offer coverage to only certain individuals or dependents in a small employer group or to only part of the group. A contractor may not modify a health plan with respect...

NEW SECTION. Sec. 19. A new section is added to chapter 43.70 RCW to read as follows:

(1) The identity of a whistleblower who complains, in good faith, to the department of health about the improper quality of care by a health care provider, or in a health care facility, as defined in RCW 43.72.010, shall remain confidential. The provisions of RCW 4.24.500 through 4.24.520, providing certain protections to persons who communicate to government agencies, shall apply to complaints filed under this section. The identity of the whistleblower shall remain confidential unless the department determines that the complaint was not made in good faith. An employee who is a whistleblower, as defined in this section, and who as a result of being a whistleblower has been subjected to workplace reprisal or retaliatory action has the remedies provided under chapter 49.60 RCW.

(2)(a) "Improper quality of care" means any practice, procedure, action, or failure to act that violates any state law or rule of the applicable state health licensing authority under Title 18 or chapters 70.41, 70.96A, 70.127, 70.175, 71.05, 71.12, and 71.24 RCW, and enforced by the department of health. Each health carrier as defined under section 4 of this act shall file with the commissioner its procedures for review and adjudication of complaints initiated by covered persons or health care providers. Procedures filed under this section shall provide a fair review for consideration of complaints. Every health carrier shall provide reasonable means whereby any person aggrieved by actions of the health carrier may be heard in person or by their authorized representative on their written request for review. If the health carrier fails to grant or reject such request within thirty days after it is made, the complaining person may proceed as if the complaint had been rejected. A complaint that has been rejected by the health carrier may be submitted to nonbinding mediation. Mediation shall be conducted pursuant to mediation rules similar to those of the American arbitration association, the center for public resources, the judicial arbitration and mediation service, RCW 7.70.100, or any other rules of mediation agreed to by the parties.

NEW SECTION. Sec. 21. The office of financial management shall adjust the funding levels by interagency reimbursement of funds between the basic health plan and medicaid and adjust the funding levels between the health care authority and the medical assistance administration of the department of social and health services to maximize combined enrollment.

NEW SECTION. Sec. 22. A new section is added to chapter 48.21 RCW to read as follows:
(1) No insurer shall offer any health benefit plan to any small employer without complying with the provisions of RCW 48.21.045(5).

NEW SECTION. Sec. 25. (1) The legislature recognizes that every individual possesses a fundamental right to exercise their religious beliefs and conscience. The legislature further recognizes that in developing public policy, conflicting religious and moral beliefs must be respected. Therefore, while recognizing the right of conscientious objection to participating in specific health services, the
state shall also recognize the right of individuals enrolled with plans containing the basic health plan
services to receive the full range of services covered under the plan.

(2)(a) No individual health care provider, religiously sponsored health carrier, or health care
facility may be required by law or contract in any circumstances to participate in the provision of or
payment for a specific service if they object to so doing for reason of conscience or religion. No
person may be discriminated against in employment or professional privileges because of such
objection.

(b) The provisions of this section are not intended to result in an enrollee being denied timely
access to any service included in the basic health plan services. Each health carrier shall:

(i) Provide written notice to enrollees, upon enrollment with the plan, listing services that the
carrier refuses to cover for reason of conscience or religion;
(ii) Provide written information describing how an enrollee may directly access services in an
expeditious manner; and
(iii) Ensure that enrollees refused services under this section have prompt access to the
information developed pursuant to (b)(ii) of this subsection.

(c) The insurance commissioner shall establish by rule a mechanism or mechanisms to
recognize the right to exercise conscience while ensuring enrollees timely access to services and to
assure prompt payment to service providers.

(3)(a) No individual or organization with a religious or moral tenet opposed to a specific
service may be required to purchase coverage for that service or services if they object to doing so for
reason of conscience or religion.

(b) The provisions of this section shall not result in an enrollee being denied coverage of, and
timely access to, any service or services excluded from their benefits package as a result of their
employer’s or another individual’s exercise of the conscience clause in (a) of this subsection.

(c) The insurance commissioner shall define by rule the process through which health carriers
may offer the basic health plan services to individuals and organizations identified in (a) and (b) of this
subsection in accordance with the provisions of subsection (2)(c) of this section.

(4) Nothing in this section requires a health carrier, health care facility, or health care provider
to provide any health care services without appropriate payment of premium or fee.

NEW SECTION. Sec. 26. The department of social and health services, in consultation with
the health care authority, the office of financial management, and other appropriate state agencies, shall
seek necessary federal waivers and state law changes to the medical assistance program of the
department to achieve greater coordination in financing, purchasing, and delivering health services to
low-income residents of Washington state in a cost-effective manner, and to expand access to care for
these low-income residents. Such waivers shall include any waiver needed to require that point-of-
service cost-sharing, based on recipient household income, be applied to medical assistance recipients.
In negotiating the waiver, consideration shall be given to the degree to which benefits in addition to the
minimum list of services should be offered to medical assistance recipients.

NEW SECTION. Sec. 27. REPEALERS. The following acts or parts of acts are each

Marty Brown, Secretary
MOTION
Representative Dyer moved that the House concur in the Senate amendments to Engrossed
Substitute House Bill No. 1046 and pass the bill as amended by the Senate. The motion was carried.
MOTION
On motion of Representative Brown, Representatives Dellwo and Ebersole were excused.
FINAL PASSAGE OF HOUSE BILL AS SENATE AMENDED
The Speaker stated the question before the House to be final passage of Engrossed Substitute
House Bill No. 1046 as amended by the Senate.
Representatives Dyer, Kessler, Backlund, Sheldon, Mielke, Hymes, Horn, Chopp and
Hargrove spoke in favor of passage of the bill.
Representatives Cody, Thibaudeau, Conway and Veloria spoke against passage of the bill.


POINT OF INQUIRY

Representative Dyer yielded to a question by Representative Mielke.

Representative Mielke: I am concerned about section 7 of the bill concerning Guarantee Issue. I understand that some companies write only individual plans and others write only group plans. I also understand that service to policyholders might suffer if a company were to issue individual plans where their expertise is in group and visa versa. Does this section require this?

Representative Dyer: No. Section 7 does not require plans to issue policies to those beyond their expertise. This section is nothing more than that this is not the case. In addition, a company can only issue a policy approved by the Commissioner and if it does not have a policy form and a rate approved for a group or an individual it cannot issue the policy.

ROLL CALL

The Clerk called the roll on the final passage of Engrossed Substitute House Bill No. 1046 as amended by the Senate, and the bill passed the House by the following vote: Y eas - 77, Nays - 19, Absent - 0, Excused - 2.

Excused: Representatives Delwo and Ebersole - 2.

Engrossed Substitute House Bill No. 1046, as amended by the Senate, having received the constitutional majority, was declared passed.

POINT OF PERSONAL PRIVILEGE

Representative Costa: Thank you Mr. Speaker. I would like to let members know that today is the kick off of Sexual Assault Awareness week. There was a press conference held this morning at 9 a.m. I was a little disappointed that I was the only Legislator there. However, I would like to draw your attention to the fact that every single minute in America there are 1.3 forcible rapes of adult women. A study conducted by the National Victim Center in 1992, found that more than 6 out of 10 rape cases, a full 61% occurred before the victims reached the age of 18.

The Bureau of Justice statistics also reports that there were approximately 20,000 of males ages 12 and over in the United States in 1991.

This is a problem of incredible magnitude and I would encourage all of you to read the brochures that have been placed on your desk to kick off Sexual Assault Awareness week. Thank you.

The Speaker declared the House to be at ease.

The Speaker called the House to order.

Mr. Speaker:

The Senate has passed ENGROSSED SECOND SUBSTITUTE HOUSE BILL NO. 1009 with the following amendments:

Strike everything after the enacting clause and insert the following:

*NEW SECTION. Sec. 1. A new section is added to chapter 15.92 RCW to read as follows:
(1) A commission on pesticide registration is established. The commission shall be composed of twelve voting members appointed by the governor as follows:
(a) Eight members from the following segments of the state’s agricultural industry as nominated by a state-wide private agricultural association or agricultural commodity commission formed under Title 15 RCW: (i) The tree fruit industry; (ii) hop growers; (iii) potato growers; (iv) wheat growers; (v) vegetable and seed growers; (vi) berry growers; (vii) wine grape growers; and (viii) the nursery and landscape industry. Although members are appointed from various segments of the agriculture industry, they are appointed to represent and advance the interests of the industry as a whole.
(b) One member from each of the following: (i) Forest protection industry; (ii) food processors; (iii) agricultural chemical industry; and (iv) professional pesticide applicators. One member shall be appointed for each such segment of the industry and shall be nominated by a state-wide, private association of that segment of the industry. The representative of the agricultural chemical industry shall be involved in the manufacture of agricultural crop protection products.

The following shall be ex officio, nonvoting members of the commission: The coordinator of the interregional project number four at Washington State University; the director of the department of ecology or the director’s designee; the director of the department of agriculture or the director’s designee; the director of the department of labor and industries or the director’s designee, and the secretary of the department of health or the secretary’s designee.

(2) Each voting member of the commission shall serve a term of three years. However, the first appointments in the first year shall be made by the governor for one, two, and three-year terms so that, in subsequent years, approximately one-third of the voting members shall be appointed each year. The governor shall assign the initial one, two, and three-year terms to members by lot. A vacancy shall be filled by appointment for the unexpired term in the same manner provided for an appointment to the full term. No member of the commission may be removed by the governor during his or her term of office unless for cause of incapacity, incompetence, neglect of duty, or malfeasance in office. Each member of the commission shall receive travel expenses in accordance with RCW 43.03.050 and 43.03.060 for attending meetings of the commission and for performing special duties, in the way of official commission business, specifically assigned to the person by the commission. The voting members of the commission serve without compensation from the state other than such travel expenses.

(3) Nominations for the initial appointments to the commission under subsection (1) of this section shall be submitted by September 1, 1995. The governor shall make initial appointments to the commission by October 15, 1995.

(4) The commission shall elect a chair from among its voting members each calendar year. After its original organizational meeting, the commission shall meet at the call of the chair. A majority of the voting members of the commission constitutes a quorum and an official action of the commission may be taken by a majority vote of the voting members.

NEW SECTION. Sec. 2. A new section is added to chapter 15.92 RCW to read as follows:
(1) The following apply to the use of state moneys appropriated to Washington State University specifically and expressly for studies or activities regarding the registration of pesticides:

(a) The moneys may not be expended without the express approval of the commission on pesticide registration;

(b) The moneys may be used for: (i) Evaluations, studies, or investigations approved by the commission on pesticide registration regarding the registration or reregistration of pesticides for minor crops or minor uses or regarding the availability of pesticides for emergency uses. These evaluations, studies, or investigations may be conducted by the food and environmental quality laboratory or may be secured by the commission from other qualified laboratories, researchers, or contractors by contract, which contracts may include, but are not limited to, those purchasing the use of proprietary information; (ii) the tracking system described in RCW 15.92.060; and (iii) the support of the commission on pesticide registration and its activities; and

(c) Not less than twenty-five percent of such moneys shall be dedicated to studies or investigations concerning the registration or use of pesticides for crops that are not among the top twenty agricultural commodities in production value produced in the state, as determined annually by the Washington agricultural statistics service.

(2) The commission on pesticide registration shall establish priorities to guide it in approving the use of moneys for evaluations, studies, and investigations under this section. Each biennium, the commission shall prepare a contingency plan for providing funding for laboratory studies or investigations that are necessary to pesticide registrations or related processes that will address emergency conditions for agricultural crops that are not generally predicted at the beginning of the biennium.

NEW SECTION. Sec. 3. A new section is added to chapter 15.92 RCW to read as follows:
The commission on pesticide registration shall:
(1) Provide guidance to the food and environmental quality laboratory established in RCW 15.92.050 regarding the laboratory’s studies, investigations, and evaluations concerning the registration of pesticides for use in this state for minor crops and minor uses and concerning the availability of pesticides for emergency uses;
(2) Encourage agricultural organizations to assist in providing funding, in-kind services, or materials for laboratory studies and investigations concerning the registration of pesticides for minor crops and minor uses that would benefit the organizations;
(3) Provide guidance to the laboratory regarding a program for: Tracking the availability of effective pesticides for minor crops, minor uses, and emergency uses; providing this information to organizations of agricultural producers; and maintaining close contact between the laboratory, the department of agriculture, and organizations of agricultural producers regarding the need for research to support the registration of pesticides for minor crops and minor uses and the availability of pesticides for emergency uses;
(4) Ensure that the activities of the commission and the laboratory are coordinated with the activities of other laboratories in the Pacific Northwest, the United States department of agriculture, and the United States environmental protection agency to maximize the effectiveness of regional efforts to assist in the registration of pesticides for minor crops and minor uses and in providing for the availability of pesticides for emergency uses for the region and the state; and
(5) Ensure that prior to approving any residue study that there is written confirmation of registrant support and willingness or ability to add the given minor crop to its label including any restrictions or guidelines the registrant intends to impose.

SENATE AMENDMENTS TO HOUSE BILL

April 7, 1995

Mr. Speaker:

The Senate has passed SUBSTITUTE HOUSE BILL NO. 1047 with the following amendments:

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 9.94A.140 and 1994 c 271 s 601 are each amended to read as follows:

(1) If restitution is ordered, the court shall determine the amount of restitution due at the sentencing hearing or within ((sixty)) one hundred eighty days. The court may continue the hearing beyond the one hundred eighty days for good cause. The court shall then set a minimum monthly payment that the offender is required to make towards the restitution that is ordered. The court should take into consideration the total amount of the restitution owed, the offender’s present, past, and future ability to pay, as well as any assets that the offender may have. During the period of supervision, the community corrections officer may examine the offender to determine if there has been a change in circumstances that warrants an amendment of the monthly payment schedule. The community corrections officer may recommend a change to the schedule of payment and shall inform the court of the recommended change and the reasons for the change. The sentencing court may then reset the monthly minimum payments based on the report from the community corrections officer of the change in circumstances. Restitution ordered by a court pursuant to a criminal conviction shall be based on easily ascertainable damages for injury to or loss of property, actual expenses incurred for treatment for injury to persons, and lost wages resulting from injury. Restitution shall not include reimbursement for damages for mental anguish, pain and suffering, or other intangible losses, but may include the costs of counseling reasonably related to the offense. The amount of restitution shall not exceed double the amount of the offender’s gain or the victim’s loss from the commission of the crime. For the purposes of this section, the offender shall remain under the court’s jurisdiction for a maximum term of ten years following the offender’s release from total confinement or ten years subsequent to the entry of the judgment and sentence, whichever period is longer. The portion of the sentence concerning restitution may be modified as to amount, terms and conditions during the ten-year period, regardless of the expiration of the offender’s term of community supervision and regardless of the statutory maximum for the crime. The court may not reduce the total amount of restitution ordered because the offender may lack the ability to pay the total amount. The offender’s compliance with the restitution shall be supervised by the department.

(2) Restitution may be ordered whenever the offender is convicted of an offense which results in injury to any person or damage to or loss of property. In addition, restitution may be ordered to pay for an injury, loss, or damage if the offender pleads guilty to a lesser offense or fewer offenses and agrees with the prosecutor’s recommendation that the offender be required to pay restitution to a victim of an offense or offenses which are not prosecuted pursuant to a plea agreement.

(3) In addition to any sentence that may be imposed, a defendant who has been found guilty of an offense involving fraud or other deceptive practice or an organization which has been found guilty of any such offense may be ordered by the sentencing court to give notice of the conviction to the class
of persons or to the sector of the public affected by the conviction or financially interested in the subject matter of the offense by mail, by advertising in designated areas or through designated media, or by other appropriate means.

(4) This section does not limit civil remedies or defenses available to the victim or defendant. The court shall identify in the judgment and sentence the victim or victims entitled to restitution and what amount is due each victim. The state or victim may enforce the court-ordered restitution in the same manner as a judgment in a civil action. Restitution collected through civil enforcement must be paid through the registry of the court and must be distributed proportionately according to each victim’s loss when there is more than one victim.

Sec. 2. RCW 9.94A.142 and 1994 c 271 s 602 are each amended to read as follows:

(1) When restitution is ordered, the court shall determine the amount of restitution due at the sentencing hearing or within ((sixty)) one hundred eighty days. The court may continue the hearing beyond the one hundred eighty days for good cause. The court shall then set a minimum monthly payment that the offender is required to make towards the restitution that is ordered. The court should take into consideration the total amount of the restitution owed, the offender’s present, past, and future ability to pay, as well as any assets that the offender may have. During the period of supervision, the community corrections officer may examine the offender to determine if there has been a change in circumstances that warrants an amendment of the monthly payment schedule. The community corrections officer may recommend a change to the schedule of payment and shall inform the court of the recommended change and the reasons for the change. The sentencing court may then reset the monthly minimum payments based on the report from the community corrections officer of the change in circumstances. Restitution ordered by a court pursuant to a criminal conviction shall be based on easily ascertainable damages for injury to or loss of property, actual expenses incurred for treatment for injury to persons, and lost wages resulting from injury. Restitution shall not include reimbursement for damages for mental anguish, pain and suffering, or other intangible losses, but may include the costs of counseling reasonably related to the offense. The amount of restitution shall not exceed double the amount of the offender’s gain or the victim’s loss from the commission of the crime. For the purposes of this section, the offender shall remain under the court’s jurisdiction for a maximum term of ten years following the offender’s release from total confinement or ten years subsequent to the entry of the judgment and sentence, whichever period is longer. The portion of the sentence concerning restitution may be modified as to amount, terms and conditions during the ten-year period, regardless of the expiration of the offender’s term of community supervision and regardless of the statutory maximum for the crime. The court may not reduce the total amount of restitution ordered because the offender may lack the ability to pay the total amount. The offender’s compliance with the restitution shall be supervised by the department.

(2) Restitution shall be ordered whenever the offender is convicted of an offense which results in injury to any person or damage to or loss of property unless extraordinary circumstances exist which make restitution inappropriate in the court’s judgment and the court sets forth such circumstances in the record. In addition, restitution shall be ordered to pay for an injury, loss, or damage if the offender pleads guilty to a lesser offense or fewer offenses and agrees with the prosecutor’s recommendation that the offender be required to pay restitution to a victim of an offense or offenses which are not prosecuted pursuant to a plea agreement.

(3) In addition to any sentence that may be imposed, a defendant who has been found guilty of an offense involving fraud or other deceptive practice or an organization which has been found guilty of any such offense may be ordered by the sentencing court to give notice of the conviction to the class of persons or to the sector of the public affected by the conviction or financially interested in the subject matter of the offense by mail, by advertising in designated areas or through designated media, or by other appropriate means.

(4) This section does not limit civil remedies or defenses available to the victim, survivors of the victim, or defendant. The court shall identify in the judgment and sentence the victim or victims entitled to restitution and what amount is due each victim. The state or victim may enforce the court-ordered restitution in the same manner as a judgment in a civil action. Restitution collected through
civil enforcement must be paid through the registry of the court and must be distributed proportionately according to each victim's loss when there is more than one victim.

(5) This section shall apply to offenses committed after July 1, 1985.

Sec. 3. RCW 9.94A.145 and 1991 c 93 s 2 are each amended to read as follows:

(1) Whenever a person is convicted of a felony, the court may order the payment of a legal financial obligation as part of the sentence. The court must on either the judgment and sentence or on a subsequent order to pay, designate the total amount of a legal financial obligation and segregate this amount among the separate assessments made for restitution, costs, fines, and other assessments required by law. On the same order, the court is also to set a sum that the offender is required to pay on a monthly basis towards satisfying the legal financial obligation. If the court fails to set the offender monthly payment amount, the department shall set the amount. Upon receipt of an offender’s monthly payment, after restitution is satisfied, the county clerk shall distribute the payment proportionally among all other fines, costs, and assessments imposed, unless otherwise ordered by the court.

(2) If the court determines that the offender, at the time of sentencing, has the means to pay for the cost of incarceration, the court may require the offender to pay for the cost of incarceration at a rate of fifty dollars per day of incarceration. Payment of other court-ordered financial obligations, including all legal financial obligations and costs of supervision shall take precedence over the payment of the cost of incarceration ordered by the court. All funds recovered from offenders for the cost of incarceration in the county jail shall be remitted to the county and the costs of incarceration in a prison shall be remitted to the department of corrections.

(3) The court may add to the judgment and sentence or subsequent order to pay a statement that a notice of payroll deduction is to be immediately issued. If the court chooses not to order the immediate issuance of a notice of payroll deduction at sentencing, the court shall add to the judgment and sentence or subsequent order to pay a statement that a notice of payroll deduction may be issued or other income-withholding action may be taken, without further notice to the offender if a monthly court-ordered legal financial obligation payment is not paid when due, and an amount equal to or greater than the amount payable for one month is owed.

If a judgment and sentence or subsequent order to pay does not include the statement that a notice of payroll deduction may be issued or other income-withholding action may be taken if a monthly legal financial obligation payment is past due, the department may serve a notice on the offender stating such requirements and authorizations. Service shall be by personal service or any form of mail requiring a return receipt.

(4) All legal financial obligations that are ordered as a result of a conviction for a felony, may also be enforced in the same manner as a judgment in a civil action by the party or entity to whom the legal financial obligation is owed. Restitution collected through civil enforcement must be paid through the registry of the court and must be distributed proportionately according to each victim’s loss when there is more than one victim. The judgment and sentence shall identify the party or entity to whom restitution is owed so that the state, party, or entity may enforce the judgment. These obligations may be enforced at any time during the ten-year period following the offender’s release from total confinement or within ten years of entry of the judgment and sentence, whichever period is longer. Independent of the department, the party or entity to whom the legal financial obligation is owed shall have the authority to utilize any other remedies available to the party or entity to collect the legal financial obligation.

(5) In order to assist the court in setting a monthly sum that the offender must pay during the period of supervision, the offender is required to report to the department for purposes of preparing a recommendation to the court. When reporting, the offender is required, under oath, to truthfully and honestly respond to all questions concerning present, past, and future earning capabilities and the location and nature of all property or financial assets. The offender is further required to bring any and all documents as requested by the department.

(6) After completing the investigation, the department shall make a report to the court on the amount of the monthly payment that the offender should be required to make towards a satisfied legal financial obligation.
(7) During the period of supervision, the department may make a recommendation to the court that the offender's monthly payment schedule be modified so as to reflect a change in financial circumstances. If the department sets the monthly payment amount, the department may modify the monthly payment amount without the matter being returned to the court. Also, during the period of supervision, the offender may be required at the request of the department to report to the department for the purposes of reviewing the appropriateness of the collection schedule for the legal financial obligation. During this reporting, the offender is required under oath to truthfully and honestly respond to all questions concerning earning capabilities and the location and nature of all property or financial assets. Also, the offender is required to bring any and all documents as requested by the department in order to prepare the collection schedule.

(8) After the judgment and sentence or payment order is entered, the department shall for any period of supervision be authorized to collect the legal financial obligation from the offender. Any amount collected by the department shall be remitted daily to the county clerk for the purposes of disbursements. The department is authorized to accept credit cards as payment for a legal financial obligation, and any costs incurred related to accepting credit card payments shall be the responsibility of the offender.

(9) The department or any obligee of the legal financial obligation may seek a mandatory wage assignment for the purposes of obtaining satisfaction for the legal financial obligation pursuant to RCW 9.94A.2001.

(10) The requirement that the offender pay a monthly sum towards a legal financial obligation constitutes a condition or requirement of a sentence and the offender is subject to the penalties as provided in RCW 9.94A.200 for noncompliance.

(11) The county clerk shall provide the department with individualized monthly billings for each offender with an unsatisfied legal financial obligation and shall provide the department with notice of payments by such offenders no less frequently than weekly.

Sec. 4. RCW 6.17.020 and 1994 c 189 s 1 are each amended to read as follows:

SENATE AMENDMENTS TO HOUSE BILL

April 4, 1995

Mr. Speaker:

The Senate has passed SUBSTITUTE HOUSE BILL NO. 1053, with the following amendments:

On page 4, after line 2, insert the following:
Sec. 3. RCW 70.94.457 and 1991 c 199 s 501 are each amended to read as follows:

The department of ecology shall establish by rule under chapter 34.05 RCW:

(1) State-wide emission performance standards for new solid fuel burning devices. Notwithstanding any other provision of this chapter which allows an authority to adopt more stringent emission standards, no authority shall adopt any emission standard for new solid fuel burning devices other than the state-wide standard adopted by the department under this section.

(a) After January 1, 1995, no solid fuel burning device shall be offered for sale in this state to residents of this state that does not meet the following particulate air contaminant emission standards under the test methodology of the United States environmental protection agency in effect on January 1, 1991, or an equivalent standard under any test methodology adopted by the United States environmental protection agency subsequent to such date: (i) Two and one-half grams per hour for catalytic wood stoves; and (ii) four and one-half grams per hour for all other solid fuel burning devices. For purposes of this subsection, "equivalent" shall mean the emissions limits specified in this subsection multiplied by a statistically reliable conversion factor determined by the department that compares the difference between the emission test methodology established by the United States environmental protection agency prior to May 15, 1991, with the test methodology adopted subsequently by the agency. Subsection (a) of this subsection does not apply to fireplaces.

(b) After January 1, 1997, no fireplace, except masonry fireplaces, shall be offered for sale unless such fireplace meets the 1990 United States environmental protection agency standards for wood stoves or equivalent standard that may be established by the state building code council by rule. Prior to January 1, 1997, the state building code council shall establish by rule a methodology for the testing of factory-built fireplaces. The methodology shall be designed to achieve a particulate air emission standard equivalent to the 1990 United States environmental protection agency standard for wood stoves. In developing the rules, the council shall include on the technical advisory committee at least one representative from the masonry fireplace builders and at least one representative of the factory-built fireplace manufacturers.

(c) Prior to January 1, 1997, the state building code council shall establish by rule design standards for the construction of new masonry fireplaces in Washington state. In developing the rules, the council shall include on the technical advisory committee at least one representative from the masonry fireplace builders and at least one representative of the factory-built fireplace manufacturers. It shall be the goal of the council to develop design standards that generally achieve reductions in particulate air contaminant emissions commensurate with the reductions being achieved by factory-built fireplaces at the time the standard is established.

(d) Actions of the department and local air pollution control authorities under this section shall preempt actions of other state agencies and local governments for the purposes of controlling air pollution from solid fuel burning devices, except where authorized by this act.

(e) Subsection (1)(a) of this section shall not apply to fireplaces.

(f) Notwithstanding (a) of this subsection, the department is authorized to adopt, by rule, emission standards adopted by the United States environmental protection agency for new wood stoves sold at retail. For solid fuel burning devices for which the United States environmental protection agency has not established emission standards, the department may exempt or establish, by rule, state-wide standards including emission levels and test procedures for such devices and such emission levels and test procedures shall be equivalent to emission levels per pound per hour burned for other new wood stoves and fireplaces regulated under this subsection.

(2) A program to:

(a) Determine whether a new solid fuel burning device complies with the state-wide emission performance standards established in subsection (1) of this section; and

(b) Approve the sale of devices that comply with the state-wide emission performance standards.

Sec. 4. RCW 70.94.460 and 1987 c 405 s 7 are each amended to read as follows:

After July 1, 1988, no person shall sell, offer to sell, or knowingly advertise to sell a new wood stove in this state to a resident of this state unless the wood stove has been approved by the department under the program established under RCW 70.94.457."
On page 1, beginning on line 1 of the title, after "RCW" strike the remainder of the title and insert "70.94.473, 70.94.477, 70.94.457, and 70.94.460."

and the same are herewith transmitted.
