Reappropriations shall be limited to the unexpended balances remaining on June 30, 1999, from the 1997-99 biennial appropriations for each project.

NEW SECTION. Sec. 909. To carry out the provisions of this act, the governor may assign responsibility for predesign, design, construction, and other related activities to any appropriate agency.

NEW SECTION. Sec. 910. If any federal moneys appropriated by this act for capital projects are not received by the state, the department or agency to which the moneys were appropriated may replace the federal moneys with funds available from private or local sources. No replacement may occur under this section without the prior approval of the director of financial management in consultation with the senate committee on ways and means and the house of representatives capital budget committee.

Any capital improvements or capital projects involving construction or major expansion of a state office facility, including, but not limited to, district headquarters, detachment offices, and off-campus faculty offices, shall be reviewed by the department of general administration for possible consolidation, colocation, and compliance with state office standards before allotment of funds. The governor, through the office of financial management, may authorize a transfer of appropriation authority provided for a capital project that is in excess of the amount required for the completion of such project to another capital project for which the appropriation is insufficient. No such transfer may be used to expand the capacity of any facility beyond that intended by the legislature in making the appropriation. Such transfers may be effected only between capital appropriations to a specific department, commission, agency, or institution of higher education and only between capital projects that are funded from the same fund or account. No transfers may occur between projects to local government agencies except where the grants are provided within a single omnibus appropriation and where such transfers are specifically authorized by the implementing statutes which govern the grants.

For purposes of this section, the governor may find that an amount is in excess of the amount required for the completion of a project only if: (1) The project as defined in the notes to the budget document is substantially complete and there are funds remaining; or (2) bids have been let on a project and it appears to a substantial certainty that the project as defined in the notes to the budget document can be completed within the biennium for less than the amount appropriated in this act.

For the purposes of this section, the legislature intends that each project be defined as proposed to the legislature in the governor’s budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.
A report of any transfer effected under this section except emergency projects or any transfer under $250,000 shall be filed with the legislative fiscal committees of the senate and house of representatives by the office of financial management at least thirty days before the date the transfer is effected. Best practices, changes in technology and materials, new approaches to resolving facility and construction problems, and any other useful information will be shared among all agencies and the public through use of the Internet.

NEW SECTION. Sec. 916. By May 1, 2000, the institutions of higher education and the state board for community and technical colleges shall review course scheduling and weekly room use standards and determine if additional student capacity can be reasonably obtained by changes in practices. Further, this review shall include an assessment of options to increase distance learning programs as a means to further increase student full-time equivalent capacity. The findings of this review and the delineation of the course scheduling and weekly room use assumptions shall be submitted to the higher education coordinating board and the office of financial management for review and approval.

Institutions of higher education receiving appropriations for predesign, design, or construction of branch campus facilities in this act shall work with the higher education coordinating board and the office of financial management to identify options and prepare plans to increase the full-time equivalent capacity of these projects and all future construction phases for these campuses. The goal of these plans is to substantially increase full-time equivalent delivery capacity above the level identified in the appropriation section. The plans shall identify alternative program delivery strategies, options to increase use of distance learning and technology, plans to improve space utilization, and other recommendations to meet this goal. Branch campuses to be analyzed in these plans include Vancouver,
Tacoma, Bothell, Tri-Cities, and Spokane. The development of these plans shall include consultation with every institution that is planned to offer services at each site. Proposals for changes in the facilities to be constructed in future phases shall clearly identify costs and schedule alternatives, and currently designed construction projects shall proceed on schedule.

SENATE AMENDMENTS TO HOUSE BILL
Mr. Speaker:

The Senate has passed HOUSE BILL NO. 2201 with the following amendment(s):

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 46.16.160 and 1996 c 184 s 2 are each amended to read as follows:

(1) The owner of a vehicle which under reciprocal relations with another jurisdiction would be required to obtain a license registration in this state or an unlicensed vehicle which would be required to obtain a license registration for operation on public highways of this state may, as an alternative to such license registration, secure and operate such vehicle under authority of a trip permit issued by this state in lieu of a Washington certificate of license registration, and licensed gross weight if applicable. The licensed gross weight may not exceed eighty thousand pounds for a combination of vehicles nor forty thousand pounds for a single unit vehicle with three or more axles. Trip permits may also be issued for movement of mobile homes pursuant to RCW 46.44.170. For the purpose of this section, a vehicle is considered unlicensed if the licensed gross weight currently in effect for the vehicle or combination of vehicles is not adequate for the load being carried. Vehicles registered under RCW 46.16.135 shall not be operated under authority of trip permits in lieu of further registration within the same registration year.

(2) Each trip permit shall authorize the operation of a single vehicle at the maximum legal weight limit for such vehicle for a period of three consecutive days commencing with the day of first use. No more than three such permits may be used for any one vehicle in any period of thirty consecutive days, except that in the case of a recreational vehicle as defined in RCW 43.22.335, no more than two trip permits may be used for any one vehicle in a one-year period. Every permit shall identify, as the department may require, the vehicle for which it is issued and shall be completed in its entirety and signed by the operator before operation of the vehicle on the public highways of this state. Correction of data on the permit such as dates, license number, or vehicle identification number invalidates the permit. The trip permit shall be displayed on the vehicle to which it is issued as prescribed by the department.

(3) Vehicles operating under authority of trip permits are subject to all laws, rules, and regulations affecting the operation of like vehicles in this state.

(4) Prorate operators operating commercial vehicles on trip permits in Washington shall retain the customer copy of such permit for four years.

(5) Trip permits may be obtained from field offices of the department of transportation, Washington state patrol, department of licensing, or other agents appointed by the department. For each permit issued, there shall be collected a filing fee as provided by RCW 46.01.140, an administrative fee of eight dollars, and an excise tax of one dollar. If the filing fee amount of one dollar prescribed by RCW 46.01.140 is increased or decreased after January 1, 1981, the administrative fee shall be adjusted to compensate for such change to insure that the total amount collected for the filing fee, administrative fee, and excise tax remain at ten dollars. These fees and taxes are in lieu of all other vehicle license fees and taxes. No exchange, credits, or refunds may be given for trip permits after they have been purchased.

(6) The department may appoint county auditors or businesses as agents for the purpose of selling trip permits to the public. County auditors or businesses so appointed may retain the filing fee collected for each trip permit to defray expenses incurred in handling and selling the permits.

(7) A violation of or a failure to comply with any provision of this section is a gross misdemeanor.

(8) The department of licensing may adopt rules as it deems necessary to administer this section.

(9) A surcharge of five dollars is imposed on the issuance of trip permits. The portion of the surcharge paid by motor carriers must be deposited in the motor vehicle fund for the purpose of supporting vehicle weigh stations, weigh-in-motion programs, and the commercial vehicle information systems and networks program. The remaining portion of the surcharge must be deposited in the
motor vehicle fund for the purpose of supporting congestion relief programs. All other administrative fees and excise taxes collected under the provisions of this chapter shall be forwarded by the department with proper identifying detailed report to the state treasurer who shall deposit the administrative fees to the credit of the motor vehicle fund and the excise taxes to the credit of the general fund. Filing fees will be forwarded and reported to the state treasurer by the department as prescribed in RCW 46.01.140.

Sec. 2. RCW 82.38.100 and 1998 c 176 s 62 are each amended to read as follows:

(1) Any special fuel user operating a motor vehicle into this state for commercial purposes may make application for a trip permit that shall be good for a period of three consecutive days beginning and ending on the dates specified on the face of the permit issued, and only for the vehicle for which it is issued.

(2) Every permit shall identify, as the department may require, the vehicle for which it is issued and shall be completed in its entirety, signed, and dated by the operator before operation of the vehicle on the public highways of this state. Correction of data on the permit such as dates, vehicle license number, or vehicle identification number invalidates the permit. A violation of, or a failure to comply with, this subsection is a gross misdemeanor.

(3) For each permit issued, there shall be collected a filing fee of one dollar, an administrative fee of ten dollars, and an excise tax of nine dollars. Such fees and tax shall be in lieu of the special fuel tax otherwise assessable against the permit holder for importing and using special fuel in a motor vehicle on the public highways of this state and no report of mileage shall be required with respect to such vehicle. Trip permits will not be issued if the applicant has outstanding fuel taxes, penalties, or interest owing to the state or has had a special fuel license revoked for cause and the cause has not been removed.

(4) Blank permits may be obtained from field offices of the department of transportation, Washington state patrol, department of licensing, or other agents appointed by the department. The department may appoint county auditors or businesses as agents for the purpose of selling trip permits to the public. County auditors or businesses so appointed may retain the filing fee collected for each trip permit to defray expenses incurred in handling and selling the permits.

(5) A surcharge of five dollars is imposed on the issuance of trip permits. The portion of the surcharge paid by motor carriers must be deposited in the motor vehicle fund for the purpose of supporting vehicle weigh stations, weigh-in-motion programs, and the commercial vehicle information systems and networks program. The remaining portion of the surcharge must be deposited in the motor vehicle fund for the purpose of supporting congestion relief programs. All other fees and excise taxes collected by the department for trip permits shall be credited and deposited in the same manner as the special fuel tax collected under this chapter and shall not be subject to exchange, refund, or credit.

In line 1 of the title, after "surcharges;" strike the remainder of the title and insert "and amending RCW 46.16.160 and 82.38.100."

and the same are herewith transmitted.

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 9A.44.130 and 1998 c 220 s 1 and 1998 c 139 s 1 are each reenacted and amended to read as follows:

(1) Any adult or juvenile residing, or who is a student, is employed, or carries on a vocation in this state who has been found to have committed or has been convicted of any sex offense or kidnapping offense, or who has been found not guilty by reason of insanity under chapter 10.77 RCW of committing any sex offense or kidnapping offense, shall register with the county sheriff for the county of the person’s residence, or if the person is not a resident of Washington, the county of the person’s school, or place of employment or vocation. Where a person required to register under this section is in custody of the state department of corrections, the state department of social and health services, a local division of youth services, or a local jail or juvenile detention facility as a result of a sex offense or kidnapping offense, the person shall also register at the time of release from custody with an official designated by the agency that has jurisdiction over the person. In addition, any such adult or juvenile who is admitted to a public or private institution of higher education shall, within ten days of enrolling or by the first business day after arriving at the institution, whichever is earlier, notify the sheriff for the county of the person’s residence of the person’s intent to attend the institution. Persons required to register under this section who are enrolled in a public or private institution of higher education on June 11, 1998, must notify the county sheriff immediately. The
sheriff shall notify the institution’s department of public safety and shall provide that department with the same information provided to a county sheriff under subsections (3) and (4) of this section.

(2) This section may not be construed to confer any powers pursuant to RCW 4.24.500 upon the public safety department of any public or private institution of higher education.

(3) The person shall provide the following information when registering: (a) Name; (b) address; (c) date and place of birth; (d) place of employment; (e) crime for which convicted; (f) date and place of conviction; (g) aliases used; (h) social security number; (i) photograph; and (j) fingerprints.

(4) Any person who lacks a fixed residence shall be deemed to reside in any county where the person is physically present. Such person shall report in person to the county sheriff’s office within twenty-four hours after entering the county. Thereafter, the person shall report in person monthly, if he or she has been classified as a risk level I sex offender, or weekly, if the person has been classified as a risk level II or III sex offender. When reporting, the person shall provide the information set out in subsection (3) of this section and shall additionally state where he or she plans to stay. The lack of a fixed residence is a factor to be considered in determining a sex offender’s risk level.

(5)(a) Offenders shall register with the county sheriff within the following deadlines. For purposes of this section the term "conviction" refers to adult convictions and juvenile adjudications for sex offenses or kidnapping offenses:

(i) OFFENDERS IN CUSTODY. (A) Sex offenders who committed a sex offense on, before, or after February 28, 1990, and who, on or after July 28, 1991, are in custody, as a result of that offense, of the state department of corrections, the state department of social and health services, a local division of youth services, or a local jail or juvenile detention facility, and (B) kidnapping offenders who on or after July 27, 1997, are in custody of the state department of corrections, the state department of social and health services, a local division of youth services, or a local jail or juvenile detention facility, must register at the time of release from custody with an official designated by the agency that has jurisdiction over the offender. The agency shall within three days forward the registration information to the county sheriff for the county of the offender’s anticipated residence. The offender must also register within twenty-four hours from the time of release with the county sheriff for the county of the person’s residence, or if the person is not a resident of Washington, the county of the person’s school, or place of employment or vocation. The agency that has jurisdiction over the offender shall provide notice to the offender of the duty to register. Failure to register at the time of release and within twenty-four hours of release constitutes a violation of this section and is punishable as provided in subsection (((4))) (10) of this section.

When the agency with jurisdiction intends to release an offender with a duty to register under this section, and the agency has knowledge that the offender is eligible for developmental disability services from the department of social and health services, the agency shall notify the department of developmental disabilities of the release. Notice shall occur not more than thirty days before the offender is to be released. The agency and the division shall assist the offender in meeting the initial registration requirement under this section. Failure to provide such assistance shall not constitute a defense for any violation of this section.

(ii) OFFENDERS NOT IN CUSTODY BUT UNDER STATE OR LOCAL JURISDICTION. Sex offenders who, on July 28, 1991, are not in custody but are under the jurisdiction of the indeterminate sentence review board or under the department of correction’s active supervision, as defined by the department of corrections, the state department of social and health services, or a local division of youth services, for sex offenses committed before, on, or after February 28, 1990, must register within ten days of July 28, 1991. Kidnapping offenders who, on July 27, 1997, are not in custody but are under the jurisdiction of the indeterminate sentence review board or under the department of correction’s active supervision, as defined by the department of corrections, the state department of social and health services, or a local division of youth services, for kidnapping offenses committed before, on, or after July 27, 1997, must register within ten days of July 27, 1997. A change in supervision status of a sex offender who was required to register under this subsection (((4))) (5)(a)(ii) as of July 28, 1991, or a kidnapping offender required to register as of July 27, 1997, shall not relieve the offender of the duty to register or to reregister following a change in residence. The obligation to register shall only cease pursuant to RCW 9A.44.140.
(iii) OFFENDERS UNDER FEDERAL JURISDICTION. Sex offenders who, on or after July 23, 1995, and kidnapping offenders who, on or after July 27, 1997, are a result of that offense in the custody of the United States bureau of prisons or other federal or military correctional agency for sex offenses committed before, on, or after February 28, 1990, or kidnapping offenses committed on, before, or after July 27, 1997, must register within twenty-four hours from the time of release with the county sheriff for the county of the person’s residence, or if the person is not a resident of Washington, the county of the person’s school, or place of employment or vocation. Sex offenders who, on July 23, 1995, are not in custody but are under the jurisdiction of the United States bureau of prisons, United States courts, United States parole commission, or military parole board for sex offenses committed before, on, or after February 28, 1990, must register within ten days of July 23, 1995. Kidnapping offenders who, on July 27, 1997, are not in custody but are under the jurisdiction of the United States bureau of prisons, United States courts, United States parole commission, or military parole board for kidnapping offenses committed before, on, or after July 27, 1997, must register within ten days of July 27, 1997. A change in supervision status of a sex offender who was required to register under this subsection ((4)(a)(i)) as of July 23, 1995, or a kidnapping offender required to register as of July 27, 1997 shall not relieve the offender of the duty to register or to reregister following a change in residence, or if the person is not a resident of Washington, the county of the person’s school, or place of employment or vocation. The obligation to register shall only cease pursuant to RCW 9A.44.140.

(iv) OFFENDERS WHO ARE CONVICTED BUT NOT CONFINED. Sex offenders who are convicted of a sex offense on or after July 28, 1991, for a sex offense that was committed on or after February 28, 1990, and kidnapping offenders who are convicted on or after July 27, 1997, for a kidnapping offense that was committed on or after July 27, 1997, but who are not sentenced to serve a term of confinement immediately upon sentencing, shall report to the county sheriff to register immediately upon completion of being sentenced.

(v) OFFENDERS WHO ARE NEW RESIDENTS OR RETURNING WASHINGTON RESIDENTS. Sex offenders and kidnapping offenders who move to Washington state from another state or a foreign country that are not under the jurisdiction of the state department of corrections, the indeterminate sentence review board, or the state department of social and health services at the time of moving to Washington, must register within thirty days of establishing residence or reestablishing residence if the person is a former Washington resident. The duty to register under this subsection applies to sex offenders convicted under the laws of another state or a foreign country, federal or military statutes, or Washington state for offenses committed on or after February 28, 1990, and to kidnapping offenders convicted under the laws of another state or a foreign country, federal or military statutes, or Washington state for offenses committed on or after July 27, 1997. Sex offenders and kidnapping offenders from other states or a foreign country who, when they move to Washington, are under the jurisdiction of the department of corrections, the indeterminate sentence review board, or the department of social and health services must register within twenty-four hours of moving to Washington. The agency that has jurisdiction over the offender shall notify the offender of the registration requirements before the offender moves to Washington.

(vi) OFFENDERS FOUND NOT GUILTY BY REASON OF INSANITY. Any adult or juvenile who has been found not guilty by reason of insanity under chapter 10.77 RCW of (A) committing a sex offense on, before, or after February 28, 1990, and who, on or after July 23, 1995, is in custody, as a result of that finding, of the state department of social and health services, or (B) committing a kidnapping offense on, before, or after July 27, 1997, and who on or after July 27, 1997, is in custody, as a result of that finding, of the state department of social and health services, must register within twenty-four hours from the time of release with the county sheriff for the county of the person’s residence. The state department of social and health services shall provide notice to the adult or juvenile in its custody of the duty to register. Any adult or juvenile who has been found not guilty by reason of insanity of committing a sex offense on, before, or after February 28, 1990, but who was released before July 23, 1995, or any adult or juvenile who has been found not guilty by reason of insanity of committing a kidnapping offense but who was released before July 27, 1997, shall be required to register within twenty-four hours of receiving notice of this registration requirement. The state department of social and health services shall make reasonable attempts within available resources to notify sex offenders who were released before July 23, 1995, and kidnapping offenders who were
Failure to register within twenty-four hours of release, or of receiving notice, constitutes a violation of this section and is punishable as provided in subsection (((4))) (10) of this section.

(b) Failure to register within the time required under this section constitutes a per se violation of this section and is punishable as provided in subsection (((4))) (10) of this section. The county sheriff shall not be required to determine whether the person is living within the county.

(c) An arrest on charges of failure to register, service of an information, or a complaint for a violation of this section, or arraignment on charges for a violation of this section, constitutes actual notice of the duty to register. Any person charged with the crime of failure to register under this section who asserts a defense the lack of notice of the duty to register shall register immediately following actual notice of the duty through arrest, service, or arraignment. Failure to register as required under this subsection (((4))) (5)(c) constitutes grounds for filing another charge of failing to register. Registering following arrest, service, or arraignment on charges shall not relieve the offender from criminal liability for failure to register prior to the filing of the original charge.

(d) The deadlines for the duty to register under this section do not relieve any sex offender of the duty to register under this section as it existed prior to July 28, 1991.

(6) If any person required to register pursuant to this section changes his or her residence address within the same county, the person must send written notice of the change of address to the county sheriff within seventy-two hours of moving. If any person required to register pursuant to this section moves to a new county, the person must send written notice of the change of address at least fourteen days before moving to the county sheriff in the new county of residence and must register with that county sheriff within twenty-four hours of moving. The person must also send written notice within ten days of the change of address in the new county to the county sheriff with whom the person last registered. The county sheriff with whom the person last registered shall promptly forward the information concerning the change of address to the county sheriff for the county of the person’s new residence. If any person required to register pursuant to this section moves out of Washington state, the person must also send written notice within ten days of moving to the new state or foreign country to the county sheriff with whom the person last registered in Washington state. Upon receipt of notice of change of address to a new state, the county sheriff shall promptly forward the information regarding the change of address to the agency designated by the new state as the state’s offender registration agency.

(b) If any person required to register pursuant to this section ceases to have a fixed residence, he or she shall provide written notice to the sheriff of the county where he or she last registered within fourteen days after ceasing to have a fixed residence. The notice shall include the information required by subsection (3) of this section. The sheriff shall forward this information to the sheriff of the county in which the offender intends to be physically present.

(c) It is an affirmative defense to a charge that the person failed to send a notice at least fourteen days in advance of moving as required under (a) of this subsection that the person did not know the location of his or her new residence at least fourteen days before moving. The defendant must establish the defense by a preponderance of the evidence and, to prevail on the defense, must also prove by a preponderance that the defendant sent the required notice within twenty-four hours of determining the new address or that the defendant reported the lack of a fixed residence to the sheriff of the county where the defendant was found within fourteen days of ceasing to have a fixed residence.

(7) A sex offender subject to registration requirements under this section who applies to change his or her name under RCW 4.24.130 or any other law shall submit a copy of the application to the county sheriff of the county of the person’s residence and to the state patrol not fewer than five days before the entry of an order granting the name change. No sex offender under the requirement to register under this section at the time of application shall be granted an order changing his or her name if the court finds that doing so will interfere with legitimate law enforcement interests, except that no order shall be denied when the name change is requested for religious or legitimate cultural reasons or in recognition of marriage or dissolution of marriage. A sex offender under the requirement to register under this section who receives an order changing his or her name shall submit a copy of the order to the county sheriff of the county of the person’s residence and to the state patrol within five days of the entry of the order.
The county sheriff shall obtain a photograph of the individual and shall obtain a copy of the individual’s fingerprints.

(d) "Student" means a person who is enrolled, on a full-time or part-time basis, in any public or private educational institution. An educational institution includes any secondary school, trade or professional institution, or institution of higher education.

A person who knowingly fails to register with the county sheriff or notify the county sheriff, or who changes his or her name without notifying the county sheriff and the state patrol, as required by this section is guilty of a class C felony if the crime for which the individual was convicted was a felony or a federal or out-of-state conviction for an offense that under the laws of this state would be a felony. If the crime was other than a felony or a federal or out-of-state conviction for an offense that under the laws of this state would be other than a felony, violation of this section is a gross misdemeanor."

(d) The department may waive the traffic safety education requirement if the applicant was licensed to drive a motor vehicle or motorcycle outside this state and provides proof that he or she has had education equivalent to that required under this subsection.

(3) **Rescission.** Until the minor turns eighteen years of age, the parent or guardian who signed the application may rescind his or her signature and terminate the driving privilege upon payment of a five-dollar fee.

**NEW SECTION.** Sec. 2. A new section is added to chapter 28A.220 RCW to read as follows:

The superintendent of public instruction, in consultation with the department of licensing, shall adopt rules that establish a supervised driving practice requirement that a minor under the age of eighteen must satisfy in order to qualify for a driver’s license. This requirement is in addition to the behind-the-wheel training required under RCW 28A.220.030 or 46.82.290.

1. The rules must prescribe a required number of hours of practice in operating a motor vehicle. The required number of hours must be no less than fifteen hours and no more than fifty. The rules may require that the required hours include nighttime driving.

2. In order for practice hours to count towards the requirement, the minor must hold a valid Washington learner’s permit and must be accompanied by a licensed driver who has at least five years of driving experience and is occupying a seat beside the driver.

**Sec. 3.** RCW 28A.220.030 and 1979 c 158 s 196 are each amended to read as follows:

1. The superintendent of public instruction (is authorized to) shall establish a section of traffic safety education, and through such section shall: Define a "realistic level of effort" required to provide an effective traffic safety education course, establish a level of driving competency required of each student to successfully complete the course, and ensure that an effective state-wide program is implemented and sustained, administer, supervise, and develop the traffic safety education program and shall assist local school districts in the conduct of their traffic safety education programs. The superintendent shall adopt necessary rules and regulations governing the operation and scope of the traffic safety education program; and each school district shall submit a report to the superintendent on the condition of its traffic safety education program (PROVIDED, That). The superintendent shall monitor the quality of the program and carry out the purposes of this chapter.

2. Effective September 1, 1999, the traffic safety education curriculum established by the superintendent under subsection (1) of this section must include a mandatory minimum of five hours of behind-the-wheel training for each student. The training must include a comprehensive driving skills test and individual knowledge test that a student must pass in order to receive a passing grade from a traffic safety education class.

3. Effective September 1, 2000, the required curriculum must include a mandatory minimum of six hours of behind-the-wheel training for each student. In addition to the requirements of subsection (2) of this section, the training must include one training session for each student where the student drives a vehicle equipped with a device that simulates the loss of vehicular control that can occur when a vehicle skids from loss of traction. If a school is unable to provide training with the device, the six-hour training requirement is reduced to five and one-half hours. The superintendent
may authorize the use of another training device in lieu of the device described in this section if the superintendent concludes that the alternative device is as effective.

(4) The superintendent’s curriculum must include a provision that the additional two hours of behind-the-wheel training required under subsections (2) and (3) of this section are not required of students who demonstrate to the instructor of the traffic safety education course that the student possesses the driving skills necessary to safely operate a motor vehicle upon a highway and:

(a) Have held a juvenile agricultural driving permit under RCW 46.20.070 before enrolling in a traffic safety education course; or
(b) Previously held a driver’s license in another state.

(5) The superintendent shall establish a required minimum number of hours of continuing traffic safety education for traffic safety education instructors. The superintendent may phase in the requirement over not more than five years.

(6) The board of directors of any school district maintaining a secondary school which includes any of the grades 10 to 12, inclusive, may establish and maintain a traffic safety education course. If a school district elects to offer a traffic safety education course and has within its boundaries a private accredited secondary school which includes any of the grades 10 to 12, inclusive, at least one class in traffic safety education shall be given at times other than regular school hours if there is sufficient demand therefor.

(7) The board of directors of a school district, or combination of school districts, may contract with any drivers’ school licensed under the provisions of chapter 46.82 RCW to teach the laboratory phase of the traffic safety education course. Instructors provided by any such contracting drivers’ school must be properly qualified teachers of traffic safety education under the joint qualification requirements adopted by the superintendent of public instruction and the director of licensing.

Sec. 4. RCW 46.82.290 and 1979 ex.s. c 51 s 2 are each amended to read as follows:

(1) The director (shall be) is responsible for the administration and enforcement of the law pertaining to driver training schools as set forth in this chapter.

(2) The director (is authorized to) may adopt and enforce such reasonable rules as may be consistent with and necessary to carry out this chapter.

(3) The director shall adopt a driver training curriculum established by the superintendent of public instruction. The curriculum must include a mandatory minimum of six hours of behind-the-wheel training and an individual knowledge test for each student. The six hours of training must include a comprehensive driving skills test that a student must pass in order to receive a certificate of completion from a driver training school.

Sec. 5. RCW 28A.220.040 and 1984 c 258 s 331 are each amended to read as follows:

(1) Each school district shall be reimbursed from funds appropriated for traffic safety education (provided, that).

(a) The state superintendent shall determine the per-pupil reimbursement amount for the traffic safety education course to be funded by the state. Each school district offering an approved standard traffic safety education course shall be reimbursed or granted an amount up to the level established by the superintendent of public instruction as may be appropriated.

(b) The state superintendent shall only provide per-pupil reimbursements to school districts where all the traffic educators have satisfied the continuing education requirement of RCW 28A.220.030(5).

(c) If a school district is unable to provide the training required by RCW 28A.220.030(3), the district reimbursement is reduced by the amount necessary to fund one-half hour of behind-the-wheel training.

(2) The board of directors of any school district or combination of school districts may establish a traffic safety education fee, which fee when imposed shall be required to be paid by any duly enrolled student in any such school district prior to or while enrolled in a traffic safety education course. Traffic safety education fees collected by a school district shall be deposited with the county
treasurer to the credit of such school district, to be used to pay costs of the traffic safety education course.

Sec. 6. RCW 46.20.091 and 1999 c 6 s 14 are each amended to read as follows:

The information provided on the form must be sworn to and signed by the applicant before a person authorized to administer oaths. An applicant who makes a false statement on an application for a driver’s license or instruction permit is guilty of false swearing, a gross misdemeanor, under RCW 9A.72.040.

(3) Driving records from other jurisdictions. If a person previously licensed in another jurisdiction applies for a Washington driver’s license, the department shall request a copy of the applicant’s driver’s record from the other jurisdiction. The driving record from the other jurisdiction becomes a part of the driver’s record in this state.

(4) Driving records to other jurisdictions. If another jurisdiction requests a copy of a person’s Washington driver’s record, the department shall provide a copy of the record. The department shall forward the record without charge if the other jurisdiction extends the same privilege to the state of Washington. Otherwise the department shall charge a reasonable fee for transmittal of the record.

Sec. 7. RCW 46.20.120 and 1999 c . . . (HB 2259) s 1, 1999 c 199 s 3, and 1999 c 6 s 19 are each reenacted and amended to read as follows:

An applicant for a new or renewed driver’s license must successfully pass a driver licensing examination to qualify for a driver's license. The department shall give examinations at places and times reasonably available to the people of this state.

(1) Waiver. The department may waive:

(2) Fee. Each applicant for a new license must pay an examination fee of seven dollars.
   (a) The examination fee is in addition to the fee charged for issuance of the license.
(b) "New license" means a license issued to a driver:
   (i) Who has not been previously licensed in this state; or
   (ii) Whose last previous Washington license has been expired for more than five years.
(3) A person whose license expired or will expire on or after January 1, 1998, while he or she was or is living outside the state may:
   (a) Apply to the department to extend the validity of his or her license for no more than twelve months. If the person establishes to the department’s satisfaction that he or she is unable to return to Washington before the date his or her license expires, the department shall extend the person’s license. The department may grant consecutive extensions, but in no event may the cumulative total of extensions exceed twelve months. An extension granted under this section does not change the expiration date of the license for purposes of RCW 46.20.181. The department shall charge a fee of five dollars for each license extension;
   (b) Apply to the department to renew his or her license by mail. If the person establishes to the department’s satisfaction that he or she is unable to return to Washington within twelve months of the date that his or her license expires, the department shall renew the person’s license by mail. If a person qualifies for a mail-in renewal he or she is not required to pass an examination nor provide an updated photograph. He or she must, however, pay the fee required by RCW 46.20.181 plus an additional five-dollar mail-in renewal fee. A license renewed by mail that does not include a photograph of the licensee must be labeled "not valid for identification purposes."
(4) If a person’s driver’s license is extended or renewed under subsection (3) of this section while he or she is outside the state, he or she must return to Washington before the date the license expires, or within thirty days after returning to Washington if he or she was living outside the state on the expiration date of the license. The department will not assess a penalty or examination fee for the examination.

(1) The legislature finds that the forests and fish report as defined in RCW 76.09.020 was developed through extensive negotiations with the federal agencies responsible for administering the endangered species act and the clean water act. The legislature further finds that the forestry industry, small landowners, tribal governments, state and federal agencies, and counties have worked diligently for nearly two years to reach agreement on scientifically based changes to the forest practices rules, set forth in the forests and fish report as defined in RCW 76.09.020. The legislature further finds that if existing forest practices rules are amended as proposed in the forests and fish report as defined in RCW 76.09.020, the resulting changes in forest practices (a) will lead to: (i) Salmon habitat that meets riparian functions vital to the long-term recovery of salmon on more than sixty thousand miles of streams in this state; (ii) identification of forest roads contributing to habitat degradation and corrective action to remedy those problems to protect salmon habitat; (iii) increased protection of steep and unstable slopes; and (iv) the implementation of scientifically based adaptive management and monitoring processes for evaluating the impacts of forest practices on aquatic resources, as defined in RCW 76.09.020, and a process for amending the forest practices rules to incorporate new information
as it becomes available; (b) will lead to the protection of aquatic resources to the maximum extent practicable consistent with maintaining commercial forest management as an economically viable use of lands suitable for that purpose; and (c) will provide a regulatory climate and structure more likely to keep landowners from converting forest lands to other uses that would be less desirable for salmon recovery.

(2) The legislature further finds that the changes in laws and rules contemplated by chapter . . . , Laws of 1999 (this act), taken as a whole, constitute a comprehensive and coordinated program to provide substantial and sufficient contributions to salmon recovery and water quality enhancement in areas impacted by forest practices and are intended to fully satisfy the requirements of the endangered species act (16 U.S.C. Sec. 1531 et seq.) with respect to incidental take of salmon and other aquatic resources and the clean water act (33 U.S.C. Sec. 1251 et seq.) with respect to nonpoint source pollution attributable to forest practices.

(3) The legislature finds that coordination is needed between the laws relating to forestry in chapter 76.09 RCW and the state salmon recovery strategy being developed under this chapter. The coordination should ensure that nonfederal forest lands are managed in ways that make appropriate contributions to the recovery of salmonid fish, water quality, and related environmental amenities while encouraging continued investments in those lands for commercial forestry purposes. Specifically, the legislature finds that forest practices rules relating to water quality, salmon, certain other species of fish, certain species of stream-associated amphibians, and their respective habitats should be coordinated with the rules and policies relating to other land uses through the state-wide salmon recovery planning process. The legislature further finds that this subchapter is but one part of a comprehensive salmon strategy as required in this chapter, and this investment in salmon habitat will be of little value if a comprehensive state plan is not completed and fully implemented.

(4) The legislature recognizes that the adoption of forest practices rules consistent with the forests and fish report as defined in RCW 76.09.020 will impose substantial financial burdens on forest landowners which, if not partially offset through other changes in the laws and rules governing forestry, could lead to significantly reduced silvicultural investments on nonfederal lands, deterioration in the quality, condition, and amounts of forests on those lands, and long-term adverse effects on fish and wildlife habitat and other environmental amenities associated with well managed forests. Moreover, as the benefits of the proposed revisions to the forest practices rules will benefit the general public, chapter . . . , Laws of 1999 (this act) suggests that some of these costs be shared with the general public.

(5) As an integral part of implementing the salmon recovery strategy, chapter . . . , Laws of 1999 (this act) (a) provides direction to the forest practices board, the department of natural resources, and the department of ecology with respect to the adoption, implementation, and enforcement of rules relating to forest practices and the protection of aquatic resources; (b) provides additional enforcement tools to the department of natural resources to enforce the forest practices rules; (c) anticipates the need for adequate and consistent funding for the various programmatic elements necessary to fully implement the strategy over time and derive the long-term benefits; (d) provides for the acquisition by the state of forest lands within certain stream channel migration zones where timber harvest will not be allowed; (e) provides for small landowners to have costs shared for a portion of any extraordinary economic losses attributable to the revisions to the forest practices rules required by chapter . . . , Laws of 1999 (this act); and (f) amends other existing laws to aid in the implementation of the recommendations set forth in the forests and fish report as defined in RCW 76.09.020.

PART II
RULE MAKING

NEW SECTION. Sec. 201. A new section is added to chapter 76.09 RCW to read as follows: (1) The legislature finds that the declines of fish stocks throughout much of the state requires immediate action to be taken to help restore these fish runs where possible. The legislature also recognizes that federal and state agencies, tribes, county representatives, and private timberland owners have spent considerable effort and time to develop the forests and fish report. Given the agreement of the parties, the legislature believes that the immediate adoption of emergency rules is appropriate in
This particular instance. These rules can implement many provisions of the forests and fish report to protect the economic well-being of the state, and to minimize the risk to the state and landowners to legal challenges. This authority is not designed to set any precedents for the forest practices board in future rule making or set any precedents for other rule-making bodies of the state.

(2) The forest practices board is authorized to adopt emergency rules amending the forest practices rules with respect to the protection of aquatic resources, in accordance with RCW 34.05.350, except: (a) That the rules adopted under this section may remain in effect until permanent rules are adopted, or until June 30, 2001, whichever is sooner; (b) notice of the proposed rules must be published in the Washington State Register as provided in RCW 34.05.320; (c) at least one public hearing must be conducted with an opportunity to provide oral and written comments; and (d) a rule-making file must be maintained as required by RCW 34.05.370. In adopting the emergency rules, the board is not required to prepare a small business economic impact statement under chapter 19.85 RCW, prepare a statement indicating whether the rules constitute a significant legislative rule under RCW 34.05.328, prepare a significant legislative rule analysis under RCW 34.05.328, or follow the procedural requirements of the state environmental policy act, chapter 43.21C RCW. The forest practices board may only adopt recommendations contained in the forests and fish report as emergency rules under this section.

**NEW SECTION.** Sec. 202. A new section is added to chapter 34.05 RCW to read as follows:

Emergency rules adopted by the forest practices board pertaining to forest practices and the protection of aquatic resources are subject to this chapter to the extent provided in section 201 of this act.

**NEW SECTION.** Sec. 203. A new section is added to chapter 43.21C RCW to read as follows:

The duration and process for adopting emergency rules by the forest practices board pertaining to forest practices and the protection of aquatic resources as provided in section 201 of this act are exempt from the procedural requirements of this chapter.

**NEW SECTION.** Sec. 204. A new section is added to chapter 76.09 RCW to read as follows:

(1) The legislature finds that the process that produced the forests and fish report was instigated by the forest practices board, the report is the product of considerable negotiations between several diverse interest groups, and the report has the support of key federal agencies. When adopting permanent rules under this section, the forest practices board is strongly encouraged to follow the recommendations of the forests and fish report, but may include other alternatives for protection of aquatic resources. If the forest practices board chooses to adopt rules under this section that are not consistent with the recommendations contained in the forests and fish report, the board must notify the appropriate legislative committees of the proposed deviations, the reasons for the proposed deviations, and whether the parties to the forests and fish report still support the agreement. The board shall defer final adoption of such rules for sixty days of the legislative session to allow for the opportunity for additional public involvement and legislative oversight.

(2) The forest practices board shall follow the regular rules adoption process contained in the administrative procedure act, chapter 34.05 RCW, when adopting permanent rules pertaining to forest practices and the protection of aquatic resources except as limited by subsection (1) of this section. The permanent rules must accomplish the policies stated in RCW 76.09.010 without jeopardizing the economic viability of the forest products industry.

(3) The rules adopted under this section should be as specific as reasonably possible while also allowing an applicant to propose alternate plans in response to site-specific physical features. Alternate plans should provide protection to public resources at least equal in overall effectiveness by alternate means.

(4) Rule making under subsection (2) of this section shall be completed by June 30, 2001.

(5) The board should consider coordinating any environmental review process under chapter 43.21C RCW relating to the adoption of rules under subsection (2) of this section with any review of a related proposal under the national environmental policy act (42 U.S.C. Sec. 4321, et seq.).
(6) After the board has adopted permanent rules under subsection (2) of this section, changes to those rules and any new rules covering aquatic resources may be adopted by the board but only if the changes or new rules are consistent with recommendations resulting from the scientifically based adaptive management process established by a rule of the board. Any new rules or changes under this subsection need not be based upon the recommendations of the adaptive management process if: (a) The board is required to adopt or modify rules by the final order of any court having jurisdiction thereof; or (b) future state legislation directs the board to adopt or modify the rules.

(7) In adopting permanent rules, the board shall incorporate the scientific-based adaptive management process described in the forests and fish report which will be used to determine the effectiveness of the new forest practices rules in aiding the state’s salmon recovery effort. The purpose of an adaptive management process is to make adjustments as quickly as possible to forest practices that are not achieving the resource objectives. The adaptive management process shall incorporate the best available science and information, include protocols and standards, regular monitoring, a scientific and peer review process, and provide recommendations to the board on proposed changes to forest practices rules to meet timber industry viability and salmon recovery.

NEW SECTION. Sec. 205. A new section is added to chapter 76.09 RCW to read as follows:
Prior to the adoption of permanent rules as required by chapter . . . ., Laws of 1999 (this act) and no later than January 1, 2000, the board shall report to the appropriate legislative committees regarding the substance of emergency rules that have been adopted under chapter . . . ., Laws of 1999 (this act). In addition, the report shall include information on changes made to the forests and fish report after February 22, 1999, and an update on the status of the adoption of permanent rules, including the anticipated substance of the rules and the anticipated date of final adoption. The board shall additionally provide a report to the appropriate legislative committees by January 1, 2001.

On January 1, 2006, the board shall provide a summary to the appropriate legislative committees regarding modifications made to the forests and fish report made after January 1, 2000, and to the permanent rules according to the adaptive management process as set forth in the forests and fish report.

"Unconfined avulsing channel migration zone" means the area within which the active channel of an unconfined avulsing stream is prone to move and where the movement would result in a potential near-term loss of riparian forest adjacent to the stream. Sizeable islands with productive timber may exist within the zone.

"Unconfined avulsing stream" means generally fifth order or larger waters that experience abrupt shifts in channel location, creating a complex flood plain characterized by extensive gravel bars, disturbance species of vegetation of variable age, numerous side channels, wall-based channels, oxbow lakes, and wetland complexes. Many of these streams have dikes and levees that may temporarily or permanently restrict channel movement.

PART IV
TIMBER EXCISE TAX CREDIT

NEW SECTION. Sec. 401. A new section is added to chapter 84.33 RCW to read as follows:
(1) A taxpayer is allowed a credit against the tax imposed under RCW 84.33.041 for timber harvested under a forest practices notification filed or application approved under RCW 76.09.050 and subject to enhanced aquatic resources requirements.

(2)(a) For a person other than a small harvester who elects to calculate tax under RCW 84.33.074, the credit is equal to the stumpage value of timber harvested for sale or for commercial or industrial use multiplied by eight-tenths of one percent.

(b) For a small harvester who elects to calculate tax under RCW 84.33.074, the credit is equal to sixteen percent of the tax imposed under this chapter.

(c) The amount of credit claimed by a taxpayer under this section shall be reduced by the amount of any compensation received from the federal government for reduced timber harvest due to enhanced aquatic resource requirements. If the amount of compensation from the federal government exceeds the amount of credit available to a taxpayer in any reporting period, the excess shall be carried forward and applied against credits in future reporting periods. This subsection does not apply to small harvesters as defined in RCW 84.33.073.

(d) Refunds may not be given in place of credits. Credit may not be claimed in excess of tax owed. The department of revenue shall disallow any credits, used or unused, upon written notification from the department of natural resources of a final decision that timber for which credit was claimed was not harvested under a forest practices notification filed or application approved under RCW 76.09.050 and subject to enhanced aquatic resources requirements.

(3) As used in this section, a forest practice notification or application is subject to enhanced aquatic resource requirements if it includes, in whole or in part, riparian area, wetland, or steep or unstable slope from which the operator is limited, by rule adopted under sections 201 through 204 of this act, or any federally approved habitat conservation plan or department of natural resources approved watershed analysis, from harvesting timber, or if a road is included within or adjacent to the area covered by such notification or application and the road is covered by a road maintenance plan approved by the department of natural resources under rules adopted under chapter 76.09 RCW, the forest practices act, or a federally approved habitat conservation plan.

(4) For forest practices notification or applications submitted after January 1, 2000, the department of natural resources shall indicate whether the notification or application is subject to enhanced aquatic resource requirements and, unless notified of a contrary determination by the forest practices appeals board, the department of revenue shall use such indication in determining the credit to be allowed against the tax assessed under RCW 84.33.041. The department of natural resources shall develop revisions to the form of the forest practices notifications and applications to provide a space for the applicant to indicate and the department of natural resources to confirm or not confirm, whether the notification or application is subject to enhanced aquatic resource requirements. For forest practices notifications or applications submitted before January 1, 2000, the applicant may submit the approved notification or application to the department of natural resources for confirmation that the notification or application is subject to enhanced aquatic resource requirements. Upon any such submission, the department of natural resources will within thirty days confirm or deny that the notification or application is subject to enhanced aquatic resource requirements and will forward separate evidence of each confirmation to the department of revenue. Unless notified of a contrary ruling by the forest practices appeals board, the department of revenue shall use the separate confirmations in determining the credit to be allowed against the tax assessed under RCW 84.33.041.

(5) A refusal by the department of natural resources to confirm that a notification or application is subject to enhanced aquatic resources requirements may be appealed to the forest practices appeals board under RCW 76.09.220.

(6) A person receiving approval of credit must keep records necessary for the department of revenue to verify eligibility under this section.

NEW SECTION.  Sec. 402. The department of revenue and the department of natural resources shall conduct a joint study of the tax credits under section 401 of this act. The study shall examine the relationship between the amount of tax credit received by each taxpayer and the extent that the taxpayer’s timber harvests have been limited as a result of complying with enhanced aquatic
resource requirements. The departments shall submit the study to the legislature by November 1, 2002.

PART V
SMALL FOREST LANDOWNERS

NEW SECTION. Sec. 501. A new section is added to chapter 76.13 RCW to read as follows:
(1) The legislature finds that increasing regulatory requirements continue to diminish the economic viability of small forest landowners. The concerns set forth in section 101 of this act about the importance of sustaining forestry as a viable land use are particularly applicable to small landowners because of the location of their holdings, the expected complexity of the regulatory requirements, and the need for significant technical expertise not readily available to small landowners. The further reduction in harvestable timber owned by small forest landowners as a result of the rules to be adopted under section 201 of this act will further erode small landowners' economic viability and willingness or ability to keep the lands in forestry use and, therefore, reduce the amount of habitat available for salmon recovery and conservation of other aquatic resources, as defined in RCW 76.09.020.

(2) The legislature finds that the concerns identified in subsection (1) of this section should be addressed by establishing within the department of natural resources a small forest landowner office that shall be a resource and focal point for small forest landowner concerns and policies. The legislature further finds that a forestry riparian easement program shall be established to acquire easements from small landowners along riparian and other areas of value to the state for protection of aquatic resources. The legislature further finds that small forest landowners should have the option of alternate management plans or alternate harvest restrictions on smaller harvest units that may have a relatively low impact on aquatic resources. The small forest landowner office should be responsible for assisting small landowners in the development and implementation of these plans or restrictions.

Sec. 502. RCW 76.13.010 and 1991 c 27 s 3 are each amended to read as follows:
Unless the context clearly requires otherwise, the definitions in this section apply (throughout this chapter) to RCW 76.13.005, 76.13.007, 76.13.020, and 76.13.030.

(1) "Department" means the department of natural resources.

(2) "Landowner" means an individual, partnership, private, public or municipal corporation, Indian tribe, state agency, county, or local government entity, educational institution, or association of individuals of whatever nature that own nonindustrial forests and woodlands.

(3) "Nonindustrial forests and woodlands" are those suburban acreages and rural lands supporting or capable of supporting trees and other flora and fauna associated with a forest ecosystem, comprised of total individual land ownerships of less than five thousand acres and not directly associated with wood processing or handling facilities.

(4) "Stewardship" means managing by caring for, promoting, protecting, renewing, or reestablishing or both, forests and associated resources for the benefit of the landowner, the natural resources and the citizens of Washington state, in accordance with each landowner’s objectives, best management practices, and legal requirements.

(5) "Cooperating organization" means federal, state, and local agencies, colleges and universities, landowner assistance organizations, consultants, forest resource-related industries, and environmental organizations which promote and maintain programs designed to provide information and technical assistance services to nonindustrial forest and woodland owners.

NEW SECTION. Sec. 503. A new section is added to chapter 76.13 RCW to read as follows:
(1) The department of natural resources shall establish and maintain a small forest landowner office. The small forest landowner office shall be a resource and focal point for small forest landowner concerns and policies, and shall have significant expertise regarding the management of small forest holdings, governmental programs applicable to such holdings, and the forestry riparian easement program.
(2) The small forest landowner office shall administer the provisions of the forestry riparian easement program created under section 504 of this act. With respect to that program, the office shall have the authority to contract with private consultants that the office finds qualified to perform timber cruises of forestry riparian easements.

(3) The small forest landowner office shall assist in the development of small landowner options through alternate management plans or alternate harvest restrictions appropriate to small landowners. The small forest landowner office shall develop criteria to be adopted by the forest practices board in a manual for alternate management plans or alternate harvest restrictions. These alternate plans or alternate harvest restrictions shall meet riparian functions while requiring less costly regulatory prescriptions. At the landowner’s option, alternate plans or alternate harvest restrictions may be used to further meet riparian functions.

The small landowner office shall evaluate the cumulative impact of such alternate management plans or alternate harvest restrictions on essential riparian functions at the subbasin or watershed level. The small forest landowner office shall adjust future alternate management plans or alternate harvest restrictions in a manner that will minimize the negative impacts on essential riparian functions within a subbasin or watershed.

(4) An advisory committee is established to assist the small forest landowner office in developing policy and recommending rules to the forest practices board. The advisory committee shall consist of seven members, including a representative from the department of ecology, the department of fish and wildlife, and a tribal representative. Four additional committee members shall be small forest landowners who shall be appointed by the commissioner of public lands from a list of candidates submitted by the board of directors of the Washington farm forestry association or its successor organization. The association shall submit more than one candidate for each position. Appointees shall serve for a term of four years. The small forest landowner office shall review draft rules or rule concepts with the committee prior to recommending such rules to the forest practices board. The office shall reimburse nongovernmental committee members for reasonable expenses associated with attending committee meetings as provided in RCW 43.03.050 and 43.03.060.

(5) By December 1, 2000, the small forest landowner office shall provide a report to the board and the legislature containing:

(a) Estimates of the amounts of nonindustrial forests and woodlands in holdings of twenty acres or less, twenty-one to one hundred acres, one hundred to one thousand acres, and one thousand to five thousand acres, in western Washington and eastern Washington, and the number of persons having total nonindustrial forest and woodland holdings in those size ranges;

(b) Estimates of the number of parcels of nonindustrial forests and woodlands held in contiguous ownerships of twenty acres or less, and the percentages of those parcels containing improvements used: (i) As primary residences for half or more of most years; (ii) as vacation homes or other temporary residences for less than half of most years; and (iii) for other uses;

(c) The watershed administrative units in which significant portions of the riparian areas or total land area are nonindustrial forests and woodlands;

(d) Estimates of the number of forest practices applications and notifications filed per year for forest road construction, silvicultural activities to enhance timber growth, timber harvest not associated with conversion to nonforest land uses, with estimates of the number of acres of nonindustrial forests and woodlands on which forest practices are conducted under those applications and notifications; and

(e) Recommendations on ways the board and the legislature could provide more effective incentives to encourage continued management of nonindustrial forests and woodlands for forestry uses in ways that better protect salmon, other fish and wildlife, water quality, and other environmental values.

(6) By December 1, 2002, and every four years thereafter, the small forest landowner office shall provide to the board and the legislature an update of the report described in subsection (5) of this section, containing more recent information and describing:

(a) Trends in the items estimated under subsection (5)(a) through (d) of this section;

(b) Whether, how, and to what extent the forest practices act and rules contributed to those trends; and
(c) Whether, how, and to what extent: (i) The board and legislature implemented recommendations made in the previous report; and (ii) implementation of or failure to implement those recommendations affected those trends.

NEW SECTION.  Sec. 504. A new section is added to chapter 76.13 RCW to read as follows:

(1) The legislature finds that the state should acquire easements along riparian and other sensitive aquatic areas from small forest landowners willing to sell or donate such easements to the state provided that the state will not be required to acquire such easements if they are subject to unacceptable liabilities. The legislature therefore establishes a forestry riparian easement program.

(2) The definitions in this subsection apply throughout this section and sections 501 and 503 of this act unless the context clearly requires otherwise.

(a) "Forestry riparian easement" means an easement covering qualifying timber granted voluntarily to the state by a small forest landowner.

(b) "Qualifying timber" means those trees covered by a forest practices application that the small forest landowner is required to leave unharvested under the rules adopted under sections 201 and 204 of this act or that is made uneconomic to harvest by those rules, and for which the small landowner is willing to grant the state a forestry riparian easement. "Qualifying timber" is timber within or bordering a commercially reasonable harvest unit as determined under rules adopted by the forest practices board.

(c) "Small forest landowner" means a landowner meeting all of the following characteristics:

(i) A forest landowner as defined in RCW 76.09.020 whose interest in the land and timber is in fee or who has rights to the timber to be included in the forestry riparian easement that extend at least fifty years from the date the forest practices application associated with the easement is submitted; (ii) an entity that has harvested from its own lands in this state during the three years prior to the year of application an average timber volume that would qualify the owner as a small timber harvester under RCW 84.33.073(1); and (iii) an entity that certifies at the time of application that it does not expect to harvest from its own lands more than the volume allowed by RCW 84.33.073(1) during the ten years following application. If a landowner’s prior three-year average harvest exceeds the limit of RCW 84.33.073(1), or the landowner expects to exceed this limit during the ten years following application, and that landowner establishes to the department of natural resources’ reasonable satisfaction that the harvest limits were or will be exceeded to raise funds to pay estate taxes or equally compelling and unexpected obligations such as court-ordered judgments or extraordinary medical expenses, the landowner shall be deemed to be a small forest landowner.

For purposes of determining whether a person qualifies as a small forest landowner, the small forest landowner office, created in section 503 of this act, shall evaluate the landowner under this definition as of the date that the forest practices application is submitted with which the forestry riparian easement is associated. A small forest landowner can include an individual, partnership, corporate, or other nongovernmental legal entity. If a landowner grants timber rights to another entity for less than five years, the landowner may still qualify as a small forest landowner under this section.

(d) "Completion of harvest" means that the trees have been harvested from an area and that further entry into that area by mechanized logging or slash treating equipment is not expected.

(3) The department of natural resources is authorized and directed to accept and hold in the name of the state of Washington forestry riparian easements granted by small forest landowners covering qualifying timber and to pay compensation to such landowners in accordance with subsections (6) and (7) of this section. The department of natural resources may not transfer the easements to any entity other than another state agency.

(4) Forestry riparian easements shall be effective for fifty years from the date the forest practices application associated with the qualifying timber is submitted to the department of natural resources, unless the easement is terminated earlier by the department of natural resources voluntarily, based on a determination that termination is in the best interest of the state, or under the terms of a termination clause in the easement.

(5) Forestry riparian easements shall be restrictive only, and shall preserve all lawful uses of the easement premises by the landowner that are consistent with the terms of the easement and the requirement to protect riparian functions during the term of the easement, subject to the restriction that
the leave trees required by the rules to be left on the easement premises may not be cut during the term of the easement. No right of public access to or across, or any public use of the easement premises is created by this statute or by the easement. Forestry riparian easements shall not be deemed to trigger the compensating tax of or otherwise disqualify land from being taxed under chapter 84.33 or 84.34 RCW.

(6) Upon application of a small forest landowner for a riparian easement that is associated with a forest practices application and the landowner’s marking of the qualifying timber on the qualifying lands, the small forest landowner office shall determine the compensation to be offered to the small landowner as provided for in this section. The legislature recognizes that there is not readily available market transaction evidence of value for easements of this nature, and thus establishes the following methodology to ascertain the value for forestry riparian easements. Values so determined shall not be considered competent evidence of value for any other purpose.

The small forest landowner office shall establish the volume of the qualifying timber. Based on that volume and using data obtained or maintained by the department of revenue under RCW 84.33.074 and 84.33.091, the small forest landowner office shall attempt to determine the fair market value of the qualifying timber as of the date the forest practices application associated with the qualifying timber was submitted. If, under the forest practices rules adopted under chapter 19.85, Laws of 1999 (this act), some qualifying timber may be removed prior to the expiration of the fifty-year term of the easement, the small forest landowner office shall apply a reduced compensation factor to ascertain the value of those trees based on the proportional economic value, considering income and growth, lost to the landowner.

(7) Except as provided in subsection (8) of this section, the small forest landowner office shall, subject to available funding, offer compensation to the small forest landowner in the amount of fifty percent of the value determined in subsection (6) of this section. If the landowner accepts the offer, the department of natural resources shall pay the compensation promptly upon (a) completion of harvest in the area covered by the forestry riparian easement; (b) verification that there has been compliance with the rules requiring leave trees in the easement area; and (c) execution and delivery of the easement to the department of natural resources. Upon donation or payment of compensation, the department of natural resources may record the easement.

(8) For approved forest practice applications where the regulatory impact is greater than the average percentage impact for all small landowners as determined by the department of natural resources analysis under the regulatory fairness act, chapter 19.85 RCW, the compensation offered will be increased to one hundred percent for that portion of the regulatory impact that is in excess of the average. Regulatory impact includes trees left in buffers, special management zones, and those rendered uneconomic to harvest by these rules. A separate average or high impact regulatory threshold shall be established for western and eastern Washington. Criteria for these measurements and payments shall be established by the small forest landowner office.

(9) The forest practices board shall adopt rules under the administrative procedure act, chapter 34.05 RCW, to implement the forestry riparian easement program, including the following:

(a) A standard version or versions of all documents necessary or advisable to create the forestry riparian easements as provided for in this section;

(b) Standards for descriptions of the easement premises with a degree of precision that is reasonable in relation to the values involved;

(c) Methods and standards for cruises and valuation of forestry riparian easements for purposes of establishing the compensation. The department of natural resources shall perform the timber cruises of forestry riparian easements required under this chapter and chapter 76.09 RCW. Any rules concerning the methods and standards for valuations of forestry riparian easements shall apply only to the department of natural resources, small forest landowners, and the small forest landowner office;

(d) A method to determine that a forest practice application involves a commercially reasonable harvest;

(e) A method to address blowdown of qualified timber falling outside the easement premises;

(f) A formula for sharing of proceeds in relation to the acquisition of qualified timber covered by an easement through the exercise or threats of eminent domain by a federal or state agency with
eminent domain authority, based on the present value of the department of natural resources' and the landowner’s relative interests in the qualified timber;

(g) High impact regulatory thresholds;

(h) A method to determine timber that is qualifying timber because it is rendered uneconomic to harvest by the rules adopted under sections 201 and 204 of this act; and

(i) A method for internal department of natural resources review of small landowner office compensation decisions under subsection (7) of this section.

NEW SECTION. Sec. 505. A new section is added to chapter 76.13 RCW to read as follows:

On parcels of twenty contiguous acres or less, landowners with a total parcel ownership of less than eighty acres shall not be required to leave riparian buffers adjacent to streams according to forest practices rules adopted under the forests and fish report as defined in RCW 76.09.020. These landowners shall be subject to the current forest practices rules in effect as of January 1, 1999, but may additionally be required to leave timber adjacent to streams that is equivalent to no greater than fifteen percent of a volume of timber contained in a stand of well managed fifty-year old commercial timber covering the harvest area. The additional fifteen percent leave tree level shall be computed as a rotating stand volume and shall be regulated through flexible forest practices as the stream buffer is managed over time to meet riparian functions.

On parcels of twenty contiguous acres or less the small forest landowner office shall work with landowners with a total parcel ownership of less than eighty acres to develop alternative management plans for riparian buffers. Such alternative plans shall provide for the removal of leave trees as other new trees grow in order to ensure the most effective protection of critical riparian function. The office may recommend reasonable modifications in alternative management plans of such landowners to further reduce risks to public resources and endangered species so long as the anticipated operating costs are not unreasonably increased and the landowner is not required to leave a greater volume than the threshold level. To qualify for the provisions of this section, parcels must be twenty acres or less in contiguous ownership, and owners cannot have ownership interests in a total of more than eighty acres of forest lands within the state.

PART VI
LARGE WOODY DEBRIS

Sec. 601. RCW 76.42.060 and 1973 c 136 s 7 are each amended to read as follows:

It shall be unlawful to dispose of wood debris by depositing such material into any of the navigable waters of this state, except as authorized by law including any discharge or deposit allowed to be made under and in compliance with chapter 90.48 RCW and any rules ((or regulations)) duly ((promulgated)) adopted thereunder or any deposit allowed to be made under and in compliance with chapter 76.09 or 75.46 RCW and any rules duly adopted under those chapters. Violation of this section shall be a misdemeanor.

Sec. 602. RCW 76.09.330 and 1992 c 52 s 5 are each amended to read as follows:

The legislature hereby finds and declares that riparian ecosystems on forest lands in addition to containing valuable timber resources, provide benefits for wildlife, fish, and water quality. The legislature further finds and declares that leaving riparian areas unharvested and leaving snags and green trees for large woody debris recruitment for streams and rivers provides public benefits including but not limited to benefits for threatened and endangered salmonids, other fish, amphibians, wildlife, and water quality enhancement. The legislature further finds and declares that leaving upland areas unharvested for wildlife and leaving snags and green trees for future snag recruitment provides benefits for wildlife. Forest landowners may be required to leave trees standing in riparian and upland areas to benefit public resources. It is recognized that these trees may blow down or fall into streams and that organic debris may be allowed to remain in streams. This is beneficial to riparian dependent and other wildlife species. Further, it is recognized that trees may blow down, fall onto, or otherwise cause damage or injury to public improvements, private property, and persons. Notwithstanding any statutory provision, rule, or common law doctrine to the contrary, the landowner, the department, and
the state of Washington shall not be held liable for any injury or damages resulting from these actions, including but not limited to wildfire, erosion, flooding, personal injury, property damage, damage to public improvements, and other injury or damages of any kind or character resulting from the trees being left.

PART VII
RIPARIAN OPEN SPACE

Sec. 701. RCW 76.09.040 and 1997 c 173 s 1 are each amended to read as follows:
(1) Where necessary to accomplish the purposes and policies stated in RCW 76.09.010, and to implement the provisions of this chapter, the board shall (promulgate) adopt forest practices ((regulations)) rules pursuant to chapter 34.05 RCW and in accordance with the procedures enumerated in this section that:
(a) Establish minimum standards for forest practices;
(b) Provide procedures for the voluntary development of resource management plans which may be adopted as an alternative to the minimum standards in (a) of this subsection if the plan is consistent with the purposes and policies stated in RCW 76.09.010 and the plan meets or exceeds the objectives of the minimum standards;
(c) Set forth necessary administrative provisions; ((and))
(d) Establish procedures for the collection and administration of forest practice fees as set forth by this chapter; and
(e) Allow for the development of watershed analyses.

Forest practices ((regulations)) rules pertaining to water quality protection shall be (promulgated individually) adopted by the board ((and by the department of ecology)) after ((they have reached)) reaching agreement with the director of the department of ecology or the director’s designee on the board with respect thereto. All other forest practices ((regulations)) rules shall be (promulgated) adopted by the board.

Forest practices ((regulations)) rules shall be administered and enforced by either the department or the local governmental entity as provided in this chapter. Such ((regulations)) rules shall be (promulgated)) adopted and administered so as to give consideration to all purposes and policies set forth in RCW 76.09.010.

(2) The board shall prepare proposed forest practices ((regulations)) rules. In addition to any forest practices ((regulations)) rules relating to water quality protection proposed by the board, the department of ecology ((shall prepare)) may submit to the board proposed forest practices ((regulations)) rules relating to water quality protection.

Prior to initiating the rule making process, the proposed ((regulations)) rules shall be submitted for review and comments to the department of fish and wildlife and to the counties of the state. After receipt of the proposed forest practices ((regulations)) rules, the department of fish and wildlife and the counties of the state shall have thirty days in which to review and submit comments to the board, and to the department of ecology with respect to its proposed ((regulations)) rules relating to water quality protection. After the expiration of such thirty day period the board and the department of ecology shall jointly hold one or more hearings on the proposed ((regulations)) rules pursuant to chapter 34.05 RCW. At such hearing(s) any county may propose specific forest practices ((regulations)) rules relating to problems existing within such county. The board may adopt and the department of ecology may ((adopt)) approve such proposals if they find the proposals are consistent with the purposes and policies of this chapter.

(3) The board shall establish by rule a riparian open space program that includes acquisition of a fee interest in, or at the landowner’s option, a conservation easement on lands within unconfined avulsing channel migration zones. Once acquired, these lands may be held and managed by the department, transferred to another state agency, transferred to an appropriate local government agency, or transferred to a private nonprofit nature conservation corporation, as defined in RCW 64.04.130, in fee or transfer of management obligation. The board shall adopt rules governing the acquisition by the state or donation to the state of such interest in lands including the right of refusal if the lands are subject to unacceptable liabilities. The rules shall include definitions of qualifying lands, priorities for
acquisition, and provide for the opportunity to transfer such lands with limited warranties and with a description of boundaries that does not require full surveys where the cost of securing the surveys would be unreasonable in relation to the value of the lands conveyed. The rules shall provide for the management of the lands for ecological protection or fisheries enhancement. Because there are few, if any, comparable sales of forest land within unconfined avulsing channel migration zones, separate from the other lands or assets, these lands are likely to be extraordinarily difficult to appraise and the cost of a conventional appraisal often would be unreasonable in relation to the value of the land involved. Therefore, for the purposes of voluntary sales under this section, the legislature declares that these lands are presumed to have a value equal to: (a) The acreage in the sale multiplied by the average value of commercial forest land in the region under the land value tables used for property tax purposes under RCW 84.33.120; plus (b) the cruised volume of any timber located within the channel migration multiplied by the appropriate quality code stumpage value for timber of the same species shown on the appropriate table used for timber harvest excise tax purposes under RCW 84.33.091. For purposes of this section, there shall be an eastside region and a westside region as defined in the forests and fish report as defined in RCW 76.09.020.

(4) Instead of offering to sell interests in qualifying lands, owners may elect to donate the interests to the state.

(6) Any acquired interest in qualifying lands by the state under this section shall be managed as riparian open space.

Sec. 702. RCW 84.33.120 and 1999 c 233 s 20 are each amended to read as follows:

(1) In preparing the assessment rolls as of January 1, 1982, for taxes payable in 1983 and each January 1st thereafter, the assessor shall list each parcel of forest land at a value with respect to the grade and class provided in this subsection and adjusted as provided in subsection (2) of this section and shall compute the assessed value of the land by using the same assessment ratio he or she applies generally in computing the assessed value of other property in his or her county. Values for the several grades of bare forest land shall be as follows.

(2) On or before December 31, 1981, the department shall adjust, by rule under chapter 34.05 RCW, the forest land values contained in subsection (1) of this section in accordance with this subsection, and shall certify these adjusted values to the county assessor for his or her use in preparing the assessment rolls as of January 1, 1982. For the adjustment to be made on or before December 31, 1981, for use in the 1982 assessment year, the department shall:

(a) Divide the aggregate value of all timber harvested within the state between July 1, 1976, and June 30, 1981, by the aggregate harvest volume for the same period, as determined from the harvester excise tax returns filed with the department under RCW 82.04.291 and 84.33.071; and

(b) Divide the aggregate value of all timber harvested within the state between July 1, 1975, and June 30, 1980, by the aggregate harvest volume for the same period, as determined from the harvester excise tax returns filed with the department under RCW 82.04.291 and 84.33.071; and

(c) Adjust the forest land values contained in subsection (1) of this section by a percentage equal to one-half of the percentage change in the average values of harvested timber reflected by comparing the resultant values calculated under (a) and (b) of this subsection.

For the adjustments to be made on or before December 31, 1982, and each succeeding year thereafter, the same procedure shall be followed as described in this subsection utilizing harvester excise tax returns filed under RCW 82.04.291 and this chapter except that this adjustment shall be made to the prior year’s adjusted value, and the five-year periods for calculating average harvested timber values shall be successively one year more recent.

(3) In preparing the assessment roll for 1972 and each year thereafter, the assessor shall enter as the true and fair value of each parcel of forest land the appropriate grade value certified to him or her by the department of revenue, and he or she shall compute the assessed value of such land by using the same assessment ratio he or she applies generally in computing the assessed value of other property in his or her county. In preparing the assessment roll for 1975 and each year thereafter, the assessor shall assess and value as classified forest land all forest land that is not then designated pursuant to RCW 84.33.120(4) or 84.33.130 and shall make a notation of such classification upon the assessment and tax rolls. On or before January 15 of the first year in which such notation is made, the assessor shall mail notice by certified mail to the owner that such land has been classified as forest land and is subject to the compensating tax imposed by this section. If the owner desires not to have such land assessed and valued as classified forest land, he or she shall give the assessor written notice thereof on or before March 31 of such year and the assessor shall remove from the assessment and tax rolls the classification notation entered pursuant to this subsection, and shall thereafter assess and value such land in the manner provided by law other than this chapter 84.33 RCW.

(4) In any year commencing with 1972, an owner of land which is assessed and valued by the assessor other than pursuant to the procedures set forth in RCW 84.33.110 and this section, and which has, in the immediately preceding year, been assessed and valued by the assessor as forest land, may appeal to the county board of equalization by filing an application with the board in the manner prescribed in subsection (2) of RCW 84.33.130. The county board shall afford the applicant an opportunity to be heard if the application so requests and shall act upon the application in the manner prescribed in subsection (3) of RCW 84.33.130.

(5) Land that has been assessed and valued as classified forest land as of any year commencing with 1975 assessment year or earlier shall continue to be so assessed and valued until removal of classification by the assessor only upon the occurrence of one of the following events:

(a) Receipt of notice from the owner to remove such land from classification as forest land;

(b) Sale or transfer to an ownership making such land exempt from ad valorem taxation;

(c) Determination by the assessor, after giving the owner written notice and an opportunity to be heard, that, because of actions taken by the owner, such land is no longer primarily devoted to and used for growing and harvesting timber. However, land shall not be removed from classification if a governmental agency, organization, or other recipient identified in subsection (9) or (10) of this section
as exempt from the payment of compensating tax has manifested its intent in writing or by other official action to acquire a property interest in classified forest land by means of a transaction that qualifies for an exemption under subsection (9) or (10) of this section. The governmental agency, organization, or recipient shall annually provide the assessor of the county in which the land is located reasonable evidence in writing of the intent to acquire the classified land as long as the intent continues or within sixty days of a request by the assessor. The assessor may not request this evidence more than once in a calendar year;

(d) Determination that a higher and better use exists for such land than growing and harvesting timber after giving the owner written notice and an opportunity to be heard;

(e) Sale or transfer of all or a portion of such land to a new owner, unless the new owner has signed a notice of forest land classification continuance, except transfer to an owner who is an heir or devisee of a deceased owner, shall not, by itself, result in removal of classification. The signed notice of continuance shall be attached to the real estate excise tax affidavit provided for in RCW 82.45.150. The notice of continuance shall be on a form prepared by the department of revenue. If the notice of continuance is not signed by the new owner and attached to the real estate excise tax affidavit, all compensating taxes calculated pursuant to subsection (7) of this section shall become due and payable by the seller or transferor at time of sale. The county auditor shall not accept an instrument of conveyance of classified forest land for filing or recording unless the new owner has signed the notice of continuance or the compensating tax has been paid, as evidenced by the real estate excise tax stamp affixed thereto by the treasurer. The seller, transferor, or new owner may appeal the new assessed valuation calculated under subsection (7) of this section to the county board of equalization. Jurisdiction is hereby conferred on the county board of equalization to hear these appeals.

The assessor shall remove classification pursuant to (c) or (d) of this subsection prior to September 30 of the year prior to the assessment year for which termination of classification is to be effective. Removal of classification as forest land upon occurrence of (a), (b), (d), or (e) of this subsection shall apply only to the land affected, and upon occurrence of (c) of this subsection shall apply only to the actual area of land no longer primarily devoted to and used for growing and harvesting timber: PROVIDED, That any remaining classified forest land meets necessary definitions of forest land pursuant to RCW 84.33.100.

(6) Within thirty days after such removal of classification as forest land, the assessor shall notify the owner in writing setting forth the reasons for such removal. The owner of such land shall thereupon have the right to apply for designation of such land as forest land pursuant to subsection (4) of this section or RCW 84.33.130. The seller, transferor, or owner may appeal such removal to the county board of equalization.

(7) Unless the owner successfully applies for designation of such land or unless the removal is reversed on appeal, notation of removal from classification shall immediately be made upon the assessment and tax rolls, and commencing on January 1 of the year following the year in which the assessor made such notation, such land shall be assessed on the same basis as real property is assessed generally in that county. Except as provided in subsection (5)(e), (9), or (10) of this section and unless the assessor shall not have mailed notice of classification pursuant to subsection (3) of this section, a compensating tax shall be imposed which shall be due and payable to the county treasurer thirty days after the owner is notified of the amount of the compensating tax. As soon as possible, the assessor shall compute the amount of such compensating tax and mail notice to the owner of the amount thereof and the date on which payment is due. The amount of such compensating tax shall be equal to the difference, if any, between the amount of tax last levied on such land as forest land and an amount equal to the new assessed valuation of such land multiplied by the dollar rate of the last levy extended against such land, multiplied by a number, in no event greater than ten, equal to the number of years, commencing with assessment year 1975, for which such land was assessed and valued as forest land.

(8) Compensating tax, together with applicable interest thereon, shall become a lien on such land which shall attach at the time such land is removed from classification as forest land and shall have priority to and shall be fully paid and satisfied before any recognizance, mortgage, judgment, debt, obligation or responsibility to or with which such land may become charged or liable. Such lien may be foreclosed upon expiration of the same period after delinquency and in the same manner provided by law for foreclosure of liens for delinquent real property taxes as provided in RCW
Any compensating tax unpaid on its due date shall thereupon become delinquent. From the date of delinquency until paid, interest shall be charged at the same rate applied by law to delinquent ad valorem property taxes.

(9) The compensating tax specified in subsection (7) of this section shall not be imposed if the removal of classification as forest land pursuant to subsection (5) of this section resulted solely from:
   (a) Transfer to a government entity in exchange for other forest land located within the state of Washington;
   (b) A taking through the exercise of the power of eminent domain, or sale or transfer to an entity having the power of eminent domain in anticipation of the exercise of such power;
   (c) A donation of fee title, development rights, or the right to harvest timber, to a government agency or organization qualified under RCW 84.34.210 and 64.04.130 for the purposes enumerated in those sections, or the sale or transfer of fee title to a governmental entity or a nonprofit nature conservancy corporation, as defined in RCW 64.04.130, exclusively for the protection and conservation of lands recommended for state natural area preserve purposes by the natural heritage council and natural heritage plan as defined in chapter 79.70 RCW: PROVIDED, That at such time as the land is not used for the purposes enumerated, the compensating tax specified in subsection (7) of this section shall be imposed upon the current owner;
   (d) The sale or transfer of fee title to the parks and recreation commission for park and recreation purposes; 
   (e) Official action by an agency of the state of Washington or by the county or city within which the land is located that disallows the present use of such land;
   (f) The creation, sale, or transfer of forestry riparian easements under section 504 of this act; or
   (g) The creation, sale, or transfer of a fee interest or a conservation easement for the riparian open space program under RCW 76.09.040.

(10) In a county with a population of more than one million inhabitants, the compensating tax specified in subsection (7) of this section shall not be imposed if the removal of classification as forest land pursuant to subsection (5) of this section resulted solely from:
   (a) An action described in subsection (9) of this section; or
   (b) A transfer of a property interest to a government entity, or to a nonprofit historic preservation corporation or nonprofit nature conservancy corporation, as defined in RCW 64.04.130, to protect or enhance public resources, or to preserve, maintain, improve, restore, limit the future use of, or otherwise to conserve for public use or enjoyment, the property interest being transferred. At such time as the property interest is not used for the purposes enumerated, the compensating tax shall be imposed upon the current owner.

(11) With respect to any land that has been designated prior to May 6, 1974, pursuant to RCW 84.33.120(4) or 84.33.130, the assessor may, prior to January 1, 1975, on his or her own motion or pursuant to petition by the owner, change, without imposition of the compensating tax provided under RCW 84.33.140, the status of such designated land to classified forest land.

Sec. 703. RCW 84.33.140 and 1999 c 233 s 21 are each amended to read as follows:

(1) When land has been designated as forest land pursuant to RCW 84.33.120(4) or 84.33.130, a notation of such designation shall be made each year upon the assessment and tax rolls, a copy of the notice of approval together with the legal description or assessor's tax lot numbers for such land shall, at the expense of the applicant, be filed by the assessor in the same manner as deeds are recorded, and such land shall be graded and valued pursuant to RCW 84.33.110 and 84.33.120 until removal of such designation by the assessor upon occurrence of any of the following:
   (a) Receipt of notice from the owner to remove such designation;
   (b) Sale or transfer to an ownership making such land exempt from ad valorem taxation;
   (c) Sale or transfer of all or a portion of such land to a new owner, unless the new owner has signed a notice of forest land designation continuance, except transfer to an owner who is an heir or devisee of a deceased owner, shall not, by itself, result in removal of classification. The signed notice of continuance shall be attached to the real estate excise tax affidavit provided for in RCW 82.45.150. The notice of continuance shall be on a form prepared by the department of revenue. If the notice of
continuance is not signed by the new owner and attached to the real estate excise tax affidavit, all compensating taxes calculated pursuant to subsection (3) of this section shall become due and payable by the seller or transferor at time of sale. The county auditor shall not accept an instrument of conveyance of designated forest land for filing or recording unless the new owner has signed the notice of continuance or the compensating tax has been paid, as evidenced by the real estate excise tax stamp affixed thereto by the treasurer. The seller, transferor, or new owner may appeal the new assessed valuation calculated under subsection (3) of this section to the county board of equalization. Jurisdiction is hereby conferred on the county board of equalization to hear these appeals;

(d) Determination by the assessor, after giving the owner written notice and an opportunity to be heard, that:

(i) Such land is no longer primarily devoted to and used for growing and harvesting timber. However, land shall not be removed from designation if a governmental agency, organization, or other recipient identified in subsection (5) or (6) of this section as exempt from the payment of compensating tax has manifested its intent in writing or by other official action to acquire a property interest in designated forest land by means of a transaction that qualifies for an exemption under subsection (5) or (6) of this section. The governmental agency, organization, or recipient shall annually provide the assessor of the county in which the land is located reasonable evidence in writing of the intent to acquire the designated land as long as the intent continues or within sixty days of a request by the assessor. The assessor may not request this evidence more than once in a calendar year;

(ii) The owner has failed to comply with a final administrative or judicial order with respect to a violation of the restocking, forest management, fire protection, insect and disease control and forest debris provisions of Title 76 RCW or any applicable regulations thereunder; or

(iii) Restocking has not occurred to the extent or within the time specified in the application for designation of such land.

Removal of designation upon occurrence of any of (a) through (c) of this subsection shall apply only to the land affected, and upon occurrence of (d) of this subsection shall apply only to the actual area of land no longer primarily devoted to and used for growing and harvesting timber, without regard to other land that may have been included in the same application and approval for designation: PROVIDED, That any remaining designated forest land meets necessary definitions of forest land pursuant to RCW 84.33.100.

(2) Within thirty days after such removal of designation of forest land, the assessor shall notify the owner in writing, setting forth the reasons for such removal. The seller, transferor, or owner may appeal such removal to the county board of equalization.

(3) Unless the removal is reversed on appeal a copy of the notice of removal with notation of the action, if any, upon appeal, together with the legal description or assessor’s tax lot numbers for the land removed from designation shall, at the expense of the applicant, be filed by the assessor in the same manner as deeds are recorded, and commencing on January 1 of the year following the year in which the assessor mailed such notice, such land shall be assessed on the same basis as real property is assessed generally in that county. Except as provided in subsection (1)(c), (5), or (6) of this section, a compensating tax shall be imposed which shall be due and payable to the county treasurer thirty days after the owner is notified of the amount of the compensating tax. As soon as possible, the assessor shall compute the amount of such compensating tax and mail notice to the owner of the amount thereof and the date on which payment is due. The amount of such compensating tax shall be equal to the difference between the amount of tax last levied on such land as forest land and an amount equal to the new assessed valuation of such land multiplied by the dollar rate of the last levy extended against such land, multiplied by a number, in no event greater than ten, equal to the number of years for which such land was designated as forest land.

(4) Compensating tax, together with applicable interest thereon, shall become a lien on such land which shall attach at the time such land is removed from designation as forest land and shall have priority to and shall be fully paid and satisfied before any recognizance, mortgage, judgment, debt, obligation or responsibility to or with which such land may become charged or liable. Such lien may be foreclosed upon expiration of the same period after delinquency and in the same manner provided by law for foreclosure of liens for delinquent real property taxes as provided in RCW 84.64.050. Any compensating tax unpaid on its due date shall thereupon become delinquent. From the date of
delinquency until paid, interest shall be charged at the same rate applied by law to delinquent ad
valorem property taxes.

(5) The compensating tax specified in subsection (3) of this section shall not be imposed if the
removal of designation pursuant to subsection (1) of this section resulted solely from:

(a) Transfer to a government entity in exchange for other forest land located within the state of
Washington;

(b) A taking through the exercise of the power of eminent domain, or sale or transfer to an
entity having the power of eminent domain in anticipation of the exercise of such power;

(c) A donation of fee title, development rights, or the right to harvest timber, to a government
agency or organization qualified under RCW 84.34.210 and 64.04.130 for the purposes enumerated
in those sections, or the sale or transfer of fee title to a governmental entity or a nonprofit nature
conservancy corporation, as defined in RCW 64.04.130, exclusively for the protection and
conservation of lands recommended for state natural area preserve purposes by the natural heritage
council and natural heritage plan as defined in chapter 79.70 RCW: PROVIDED, That at such time as
the land is not used for the purposes enumerated, the compensating tax specified in subsection (3)
of this section shall be imposed upon the current owner;

(d) The sale or transfer of fee title to the parks and recreation commission for park and
recreation purposes; ((or))

(e) Official action by an agency of the state of Washington or by the county or city within
which the land is located that disallows the present use of such land;

(f) The creation, sale, or transfer of forestry riparian easements under section 504 of this act;
or

(g) The creation, sale, or transfer of a fee interest or a conservation easement for the riparian
open space program under RCW 76.09.040.

(6) In a county with a population of more than one million inhabitants, the compensating tax
specified in subsection (3) of this section shall not be imposed if the removal of classification as forest
land pursuant to subsection (1) of this section resulted solely from:

(a) An action described in subsection (5) of this section; or

(b) A transfer of a property interest to a government entity, or to a nonprofit historic
preservation corporation or nonprofit nature conservancy corporation, as defined in RCW 64.04.130,
to protect or enhance public resources, or to preserve, maintain, improve, restore, limit the future use
of, or otherwise to conserve for public use or enjoyment, the property interest being transferred. At
such time as the property interest is not used for the purposes enumerated, the compensating tax shall
be imposed upon the current owner.

Sec. 704. RCW 84.33.145 and 1997 c 299 s 3 are each amended to read as follows:

(1) If no later than thirty days after removal of classification or designation the owner applies
for classification under RCW 84.34.020 (1), (2), or (3), then the classified or designated forest land
shall not be considered removed from classification or designation for purposes of the compensating tax
under RCW 84.33.120 or 84.33.140 until the application for current use classification under RCW
84.34.030 is denied or the property is removed from designation under RCW 84.34.108. Upon
removal from designation under RCW 84.34.108, the amount of compensating tax due under this
chapter shall be equal to:

(a) The difference, if any, between the amount of tax last levied on such land as forest land and
an amount equal to the new assessed valuation of such land when removed from designation under
RCW 84.34.108 multiplied by the dollar rate of the last levy extended against such land, multiplied by

(b) A number equal to:

(i) The number of years the land was classified or designated under this chapter, if the total
number of years the land was classified or designated under this chapter and classified under chapter
84.34 RCW is less than ten; or

(ii) Ten minus the number of years the land was classified under chapter 84.34 RCW, if the
total number of years the land was classified or designated under this chapter and classified under
chapter 84.34 RCW is at least ten.
(2) Nothing in this section authorizes the continued classification or designation under this chapter or defers or reduces the compensating tax imposed upon forest land not transferred to classification under subsection (1) of this section which does not meet the necessary definitions of forest land under RCW 84.33.100. Nothing in this section affects the additional tax imposed under RCW 84.34.108.

(3) In a county with a population of more than one million inhabitants, no amount of compensating tax is due under this section if the removal from classification under RCW 84.34.108 results from a transfer of property described in RCW 84.34.108((5)) (6).

**Sec. 705.** RCW 84.34.080 and 1992 c 69 s 11 are each amended to read as follows:

When land which has been classified under this chapter as open space land, farm and agricultural land, or timber land is applied to some other use, except through compliance with RCW 84.34.070, or except as a result solely from any one of the conditions listed in RCW 84.34.108((5)) (6), the owner shall within sixty days notify the county assessor of such change in use and additional real property tax shall be imposed upon such land in an amount equal to the sum of the following:

1. The total amount of the additional tax and applicable interest due under RCW 84.34.108;

2. A penalty amounting to twenty percent of the amount determined in subsection (1) of this section.

**Sec. 706.** RCW 84.34.108 and 1999 c 139 s 2 are each amended to read as follows:

1. When land has once been classified under this chapter, a notation of such classification shall be made each year upon the assessment and tax rolls and such land shall be valued pursuant to RCW 84.34.060 or 84.34.065 until removal of all or a portion of such classification by the assessor upon occurrence of any of the following:
   (a) Receipt of notice from the owner to remove all or a portion of such classification;
   (b) Sale or transfer to an ownership, except a transfer that resulted from a default in loan payments made to or secured by a governmental agency that intends to or is required by law or regulation to resell the property for the same use as before, making all or a portion of such land exempt from ad valorem taxation;
   (c) Sale or transfer of all or a portion of such land to a new owner, unless the new owner has signed a notice of classification continuance, except transfer to an owner who is an heir or devisee of a deceased owner shall not, by itself, result in removal of classification. ((The signed notice of continuance shall be attached to the real estate excise tax affidavit provided for in RCW 82.45.150.)) The notice of continuance shall be on a form prepared by the department of revenue. If the notice of continuance is not signed by the new owner and attached to the real estate excise tax affidavit, all additional taxes calculated pursuant to subsection ((4)) (4) of this section shall become due and payable by the seller or transferor at time of sale. The county auditor shall not accept an instrument of conveyance of classified land for filing or recording unless the new owner has signed the notice of continuance or the additional tax has been paid. The seller, transferor, or new owner may appeal the new assessed valuation calculated under subsection ((4)) (4) of this section to the county board of equalization. Jurisdiction is hereby conferred on the county board of equalization to hear these appeals;
   (d) Determination by the assessor, after giving the owner written notice and an opportunity to be heard, that all or a portion of such land no longer meets the criteria for classification under this chapter. The criteria for classification pursuant to this chapter continue to apply after classification has been granted.

The granting authority, upon request of an assessor, shall provide reasonable assistance to the assessor in making a determination whether such land continues to meet the qualifications of RCW 84.34.020 (1) or (3). The assistance shall be provided within thirty days of receipt of the request.

2. Land may not be removed from classification because of:
   (a) The creation, sale, or transfer of forestry riparian easements under section 504 of this act; or
(b) The creation, sale, or transfer of a fee interest or a conservation easement for the riparian open space program under RCW 76.09.040.

(3) Within thirty days after such removal of all or a portion of such land from current use classification, the assessor shall notify the owner in writing, setting forth the reasons for such removal. The seller, transferor, or owner may appeal such removal to the county board of equalization.

(((3))) (4) Unless the removal is reversed on appeal, the assessor shall revalue the affected land with reference to full market value on the date of removal from classification. Both the assessed valuation before and after the removal of classification shall be listed and taxes shall be allocated according to that part of the year to which each assessed valuation applies. Except as provided in subsection (((3))) (6) of this section, an additional tax, applicable interest, and penalty shall be imposed which shall be due and payable to the county treasurer thirty days after the owner is notified of the amount of the additional tax. As soon as possible, the assessor shall compute the amount of such an additional tax, applicable interest, and penalty and the treasurer shall mail notice to the owner of the amount thereof and the date on which payment is due. The amount of such additional tax, applicable interest, and penalty shall be determined as follows:

(a) The amount of additional tax shall be equal to the difference between the property tax paid as "open space land", "farm and agricultural land", or "timber land" and the amount of property tax otherwise due and payable for the seven years last past had the land not been so classified;

(b) The amount of applicable interest shall be equal to the interest upon the amounts of such additional tax paid at the same statutory rate charged on delinquent property taxes from the dates on which such additional tax could have been paid without penalty if the land had been assessed at a value without regard to this chapter;

(c) The amount of the penalty shall be as provided in RCW 84.34.080. The penalty shall not be imposed if the removal satisfies the conditions of RCW 84.34.070.

(((4))) (5) Additional tax, applicable interest, and penalty, shall become a lien on such land which shall attach at the time such land is removed from classification under this chapter and shall have priority to and shall be fully paid and satisfied before any recognizance, mortgage, judgment, debt, obligation or responsibility to or with which such land may become charged or liable. Such lien may be foreclosed upon expiration of the same period after delinquency and in the same manner provided by law for foreclosure of liens for delinquent real property taxes as provided in RCW 84.64.050 now or as hereafter amended. Any additional tax unpaid on its due date shall thereupon become delinquent. From the date of delinquency until paid, interest shall be charged at the same rate applied by law to delinquent ad valorem property taxes.

(((5))) (6) The additional tax, applicable interest, and penalty specified in subsection (((4))) (4) of this section shall not be imposed if the removal of classification pursuant to subsection (1) of this section resulted solely from:

(a) Transfer to a government entity in exchange for other land located within the state of Washington;

(b)(i) A taking through the exercise of the power of eminent domain, or (ii) sale or transfer to an entity having the power of eminent domain in anticipation of the exercise of such power, said entity having manifested its intent in writing or by other official action;

(c) A natural disaster such as a flood, windstorm, earthquake, or other such calamity rather than by virtue of the act of the landowner changing the use of such property;

(d) Official action by an agency of the state of Washington or by the county or city within which the land is located which disallows the present use of such land;

(e) Transfer of land to a church when such land would qualify for exemption pursuant to RCW 84.36.020;

(f) Acquisition of property interests by state agencies or agencies or organizations qualified under RCW 84.34.210 and 64.04.130 for the purposes enumerated in those sections: PROVIDED, That at such time as these property interests are not used for the purposes enumerated in RCW 84.34.210 and 64.04.130 the additional tax specified in subsection (((3))) (4) of this section shall be imposed;

(g) Removal of land classified as farm and agricultural land under RCW 84.34.020(2)(d); (((6)))
(h) Removal of land from classification after enactment of a statutory exemption that qualifies the land for exemption and receipt of notice from the owner to remove the land from classification;

(i) The creation, sale, or transfer of forestry riparian easements under section 504 of this act; or

(j) The creation, sale, or transfer of a fee interest or a conservation easement for the riparian open space program under RCW 76.09.040.

NEW SECTION. Sec. 707. A new section is added to chapter 76.09 RCW to read as follows:

Prior to the sale or transfer of land or perpetual timber rights subject to continuing forest land obligations under the forest practices rules adopted under section 204 of this act, as specifically identified in the forests and fish report the seller shall notify the buyer of the existence and nature of such a continuing obligation and the buyer shall sign a notice of continuing forest land obligation indicating the buyer’s knowledge thereof. The notice shall be on a form prepared by the department and shall be sent to the department by the seller at the time of sale or transfer of the land or perpetual timber rights and retained by the department. If the seller fails to notify the buyer about the continuing forest land obligation, the seller shall pay the buyer’s costs related to such continuing forest land obligation, including all legal costs and reasonable attorneys’ fees, incurred by the buyer in enforcing the continuing forest land obligation against the seller. Failure by the seller to send the required notice to the department at the time of sale shall be prima facie evidence, in an action by the buyer against the seller for costs related to the continuing forest land obligation, that the seller did not notify the buyer of the continuing forest land obligation prior to sale.

PART VIII
ENFORCEMENT

Sec. 801. RCW 76.09.140 and 1993 c 482 s 1 are each amended to read as follows:

(1) The department of natural resources may take any necessary action to enforce any final order or final decision, and may disapprove ((for up to one year)) any forest practices application or notification submitted by any person who has failed to comply with a final order or final decision or has failed to pay any civil penalties as provided in RCW 76.09.170, for up to one year from the issuance of a notice of intent to disapprove notifications and applications under this section or until the violator pays all outstanding civil penalties and complies with all validly issued and outstanding notices to comply and stop work orders, whichever is longer. For purposes of chapter 482, Laws of 1993, the terms "final order" and "final decision" shall mean the same as set forth in RCW 76.09.080, 76.09.090, and 76.09.110. The department shall provide written notice of its intent to disapprove an application or notification under this subsection. The department shall forward copies of its notice of intent to disapprove to any affected landowner. The disapproval period shall run from thirty days following the date of actual notice or when all administrative and judicial appellate processes, if any, have been exhausted. Any person provided the notice may seek review from the appeals board by filing a request for review within thirty days of the date of the notice of intent. While the notice of intent to disapprove is in effect, the violator may not serve as a person in charge of, be employed by, manage, or otherwise participate to any degree in forest practices.

(2) On request of the department, the attorney general may take action necessary to enforce this chapter, including, but not limited to((s)) seeking penalties, interest, costs, and attorneys' fees; enforcing final orders or decisions; and seeking civil injunctions, show cause orders, or contempt orders.

(3) A county may bring injunctive, declaratory, or other actions for enforcement for forest practice activities within its jurisdiction in the superior court as provided by law against the department, the forest landowner, timber owner or operator to enforce the forest practice rules or any final order of the department, or the appeals board. No civil or criminal penalties shall be imposed for past actions or omissions if such actions or omissions were conducted pursuant to an approval or directive of the department. Injunctions, declaratory actions, or other actions for enforcement under this subsection may not be commenced unless the department fails to
take appropriate action after ten days written notice to the department by the county of a violation of
the forest practices rules or final orders of the department or the appeals board.

(4)(a) The department may require financial assurance prior to the conduct of any further forest
practices from an operator or landowner who within the preceding three-year period has:

(i) Operated without an approved forest practices application, other than an unintentional
operation in connection with an approved application outside the approved boundary of such an
application;

(ii) Continued to operate in breach of, or failed to comply with, the terms of an effective stop
work order or notice to comply; or

(iii) Failed to pay any civil or criminal penalty.

(b) The department may deny any application for failure to submit financial assurances as
required.

Sec. 802. RCW 76.09.150 and 1974 ex.s. c 137 s 15 are each amended to read as follows:

(1) The department shall make inspections of forest lands, before, during and after the
conducting of forest practices as necessary for the purpose of ensuring compliance with this
chapter and the forest practices rules and to ensure that no material damage occurs to the natural
resources of this state as a result of such practices.

(2) Any duly authorized representative of the department shall have the right to enter upon
forest land at any reasonable time to enforce the provisions of this chapter and the forest practices
rules.

(3) The department or the department of ecology may apply for an administrative inspection
warrant to either Thurston county superior court, or the superior court in the county in which the
property is located. An administrative inspection warrant may be issued where:

(a) The department has attempted an inspection of forest lands under this chapter to ensure
compliance with this chapter and the forest practice rules or to ensure that no potential or actual
material damage occurs to the natural resources of this state, and access to all or part of the forest lands
has been actually or constructively denied; or

(b) The department has reasonable cause to believe that a violation of this chapter or of rules
adopted under this chapter is occurring or has occurred.

(4) In connection with any watershed analysis, any review of a pending application by an
identification team appointed by the department, any compliance studies, any effectiveness monitoring,
or other research that has been agreed to by a landowner, the department may invite representatives of
other agencies, tribes, and interest groups to accompany a department representative and, at the
landowner’s election, the landowner, on any such inspections. Reasonable efforts shall be made by the
department to notify the landowner of the persons being invited onto the property and the purposes for
which they are being invited.

Sec. 803. RCW 76.09.170 and 1993 c 482 s 2 are each amended to read as follows:

(1) Every person who violates any provision of RCW 76.09.010 through 76.09.280 or of the
forest practices rules, or who converts forest land to a use other than commercial timber operation
within three years after completion of the forest practice without the consent of the county, city, or
town, shall be subject to a penalty in an amount of not more than ten thousand dollars for every such
violation. Each and every such violation shall be a separate and distinct offense. In case of a failure to
comply with a stop work order, every day’s continuance shall be a separate and distinct violation.
Every person who through an act of commission or omission procures, aids or abets in the violation
shall be considered to have violated the provisions of this section and shall be subject to the penalty in
this section. No penalty shall be imposed under this section upon any governmental official, an
employee of any governmental department, agency, or entity, or a member of any board or advisory
committee created by this chapter for any act or omission in his or her duties in the administration of
this chapter or of any rule adopted under this chapter.

(2) The department shall develop and recommend to the board a penalty schedule to determine
the amount to be imposed under this section. The board shall adopt by rule, pursuant to chapter 34.05
RCW, such penalty schedule to be effective no later than January 1, 1994. The schedule shall be
developed in consideration of the following:

(a) Previous violation history;
(b) Severity of the impact on public resources;
(c) Whether the violation of this chapter or its rules was intentional;
(d) Cooperation with the department;
(e) Repairability of the adverse effect from the violation; and
(f) The extent to which a penalty to be imposed on a forest landowner for a forest practice
violation committed by another should be reduced because the owner was unaware of the violation and
has not received substantial economic benefits from the violation.

(3) The penalty in this section shall be imposed by a notice in writing, either by certified mail
with return receipt requested or by personal service, to the person incurring the same from the
department describing the violation with reasonable particularity. Within fifteen days after the notice is
received, the person incurring the penalty may apply in writing to the department for the remission or
mitigation of such penalty. Upon receipt of the application, that department may remit or mitigate the
penalty upon whatever terms that department in its discretion deems proper, provided the department
deems such remission or mitigation to be in the best interests of carrying out the purposes of this
chapter. The department shall have authority to ascertain the facts regarding all such applications in
such reasonable manner and under such rule as it may deem proper.

(4) Any person incurring a penalty under this section may appeal the penalty to the forest
practices appeals board. Such appeals shall be filed within thirty days of receipt of notice imposing any
penalty unless an application for remission or mitigation is made to the department. When such an
application for remission or mitigation is made, such appeals shall be filed within thirty days of receipt
of notice from the department setting forth the disposition of the application for remission or
mitigation.

(5) The penalty imposed under this section shall become due and payable thirty days after
receipt of a notice imposing the same unless application for remission or mitigation is made or an
appeal is filed. When such an application for remission or mitigation is made, any penalty incurred
under this section shall become due and payable thirty days after receipt of notice setting forth the
disposition of such application unless an appeal is filed from such disposition. Whenever an appeal of
the penalty incurred is filed, the penalty shall become due and payable only upon completion of all
administrative and judicial review proceedings and the issuance of a final decision confirming the
penalty in whole or in part.

(6) If the amount of any penalty is not paid to the department within thirty days after it
becomes due and payable, the attorney general, upon the request of the department, shall bring an
action in the name of the state of Washington in the superior court of Thurston county or of any county
in which such violator may do business, to recover such penalty, interest, costs, and attorneys’ fees. In
all such actions the procedure and rules of evidence shall be the same as an ordinary civil action except
as otherwise in this chapter provided. In addition to or as an alternative to seeking enforcement of
penalties in superior court, the department may bring an action in district court as provided in Title 3
RCW, to collect penalties, interest, costs, and attorneys’ fees.

(7) Penalties imposed under this section for violations associated with a conversion to a use
other than commercial timber operation shall be a lien upon the real property of the person assessed the
penalty and the department may collect such amount in the same manner provided in chapter 60.04
RCW for mechanics’ liens.

(8) Any person incurring a penalty imposed under this section is also responsible for the
payment of all costs and attorneys’ fees incurred in connection with the penalty and interest accruing on
the unpaid penalty amount.

**PART IX**

**WATERSHED ANALYSIS**

Sec. 901. RCW 76.09.010 and 1993 c 443 s 1 are each amended to read as follows:
(1) The legislature hereby finds and declares that the forest land resources are among the most valuable of all resources in the state; that a viable forest products industry is of prime importance to the state’s economy; that it is in the public interest for public and private commercial forest lands to be managed consistent with sound policies of natural resource protection; that coincident with maintenance of a viable forest products industry, it is important to afford protection to forest soils, fisheries, wildlife, water quantity and quality, air quality, recreation, and scenic beauty.

(2) The legislature further finds and declares it to be in the public interest of this state to create and maintain through the adoption of this chapter a comprehensive state-wide system of laws and forest practices ((regulations)) rules which will achieve the following purposes and policies:
   (a) Afford protection to, promote, foster and encourage timber growth, and require such minimum reforestation of commercial tree species on forest lands as will reasonably utilize the timber growing capacity of the soil following current timber harvest;
   (b) Afford protection to forest soils and public resources by utilizing all reasonable methods of technology in conducting forest practices;
   (c) Recognize both the public and private interest in the profitable growing and harvesting of timber;
   (d) Promote efficiency by permitting maximum operating freedom consistent with the other purposes and policies stated herein;
   (e) Provide for regulation of forest practices so as to avoid unnecessary duplication in such ((regulation)) rules;
   (f) Provide for interagency input and intergovernmental and tribal coordination and cooperation;
   (g) Achieve compliance with all applicable requirements of federal and state law with respect to nonpoint sources of water pollution from forest practices;
   (h) To consider reasonable land use planning goals and concepts contained in local comprehensive plans and zoning regulations; ((and))
      (i) Foster cooperation among managers of public resources, forest landowners, Indian tribes and the citizens of the state; and
   (j) Develop a watershed analysis system that addresses the cumulative effect of forest practices on, at a minimum, the public resources of fish, water, and public capital improvements of the state and its political subdivisions.

(3) The legislature further finds and declares that it is also in the public interest of the state to encourage forest landowners to undertake corrective and remedial action to reduce the impact of mass earth movements and fluvial processes.

(4) The legislature further finds and declares that it is in the public interest that the applicants for state forest practices permits should assist in paying for the cost of review and permitting necessary for the environmental protection of these resources.

Sec. 902. RCW 76.09.220 and 1999 c 90 s 1 are each amended to read as follows:

(1) The appeals board shall operate on either a part-time or a full-time basis, as determined by the governor. If it is determined that the appeals board shall operate on a full-time basis, each member shall receive an annual salary to be determined by the governor. If it is determined that the appeals board shall operate on a part-time basis, each member shall be compensated in accordance with RCW 43.03.250. The director of the environmental hearings office shall make the determination, required under RCW 43.03.250, as to what statutorily prescribed duties, in addition to attendance at a hearing or meeting of the board, shall merit compensation. This compensation shall not exceed ten thousand dollars in a fiscal year. Each member shall receive reimbursement for travel expenses incurred in the discharge of his or her duties in accordance with the provisions of RCW 43.03.050 and 43.03.060.

(2) The appeals board shall as soon as practicable after the initial appointment of the members thereof, meet and elect from among its members a chair, and shall at least biennially thereafter meet and elect or reelect a chair.

(3) The principal office of the appeals board shall be at the state capital, but it may sit or hold hearings at any other place in the state. A majority of the appeals board shall constitute a quorum for making orders or decisions, ((promulgating)) adopting rules ((and regulations)) necessary for the
conduct of its powers and duties, or transacting other official business, and may act though one position on the board be vacant. One or more members may hold hearings and take testimony to be reported for action by the board when authorized by rule or order of the board. The appeals board shall perform all the powers and duties granted to it in this chapter or as otherwise provided by law.

(4) The appeals board shall make findings of fact and prepare a written decision in each case decided by it, and such findings and decision shall be effective upon being signed by two or more members and upon being filed at the appeals board's principal office, and shall be open to public inspection at all reasonable times.

(5) The appeals board shall either publish at its expense or make arrangements with a publishing firm for the publication of those of its findings and decisions which are of general public interest, in such form as to assure reasonable distribution thereof.

(6) The appeals board shall maintain at its principal office a journal which shall contain all official actions of the appeals board, with the exception of findings and decisions, together with the vote of each member on such actions. The journal shall be available for public inspection at the principal office of the appeals board at all reasonable times.

(7) The forest practices appeals board shall have exclusive jurisdiction to hear appeals arising from an action or determination by the department, and the department of fish and wildlife, and the department of ecology with respect to management plans provided for under RCW 76.09.350.

(8)(a) Any person aggrieved by the approval or disapproval of an application to conduct a forest practice or the approval or disapproval of any landscape plan or permit or watershed analysis may seek review from the appeals board by filing a request for the same within thirty days of the approval or disapproval. Concurrently with the filing of any request for review with the board as provided in this section, the requestor shall file a copy of his or her request with the department and the attorney general. The attorney general may intervene to protect the public interest and ensure that the provisions of this chapter are complied with.

(b) The review proceedings authorized in (a) of this subsection are subject to the provisions of chapter 34.05 RCW pertaining to procedures in adjudicative proceedings.

PART X
FOREST PRACTICES BOARD COMPOSITION

Sec. 1001. RCW 76.09.030 and 1995 c 399 s 207 are each amended to read as follows:

(1) There is hereby created the forest practices board of the state of Washington as an agency of state government consisting of members as follows:

(a) The commissioner of public lands or the commissioner's designee;
(b) The director of the department of community, trade, and economic development or the director's designee;
(c) The director of the department of agriculture or the director's designee;
(d) The director of the department of ecology or the director's designee;
(e) The director of the department of fish and wildlife or the director's designee;
(f) An elected member of a county legislative authority appointed by the governor:

PROVIDED, That such member's service on the board shall be conditioned on the member's continued service as an elected county official; and

((4)) (g) Six members of the general public appointed by the governor, one of whom shall be an owner of not more than five hundred acres of forest land, and one of whom shall be an independent logging contractor.

(2) The director of the department of fish and wildlife's service on the board may be terminated two years after the effective date of this section if the legislature finds that after two years the department has not made substantial progress toward integrating the laws, rules, and programs governing forest practices, chapter 76.09 RCW, and the laws, rules, and programs governing hydraulic projects, chapter 75.20 RCW. Such a finding shall be based solely on whether the department of fish and wildlife makes substantial progress as defined in this subsection, and will not be based on other actions taken as a member of the board. Substantial progress shall include recommendations to the legislature for closer integration of the existing rule-making authorities of the board and the department
of fish and wildlife, and closer integration of the forest practices and hydraulics permitting processes, including exploring the potential for a consolidated permitting process. These recommendations shall be designed to resolve problems currently associated with the existing dual regulatory and permitting processes.

(3) The members of the initial board appointed by the governor shall be appointed so that the term of one member shall expire December 31, 1975, the term of one member shall expire December 31, 1976, the term of one member shall expire December 31, 1977, the terms of two members shall expire December 31, 1978, and the terms of two members shall expire December 31, 1979. Thereafter, each member shall be appointed for a term of four years. Vacancies on the board shall be filled in the same manner as the original appointments. Each member of the board shall continue in office until his or her successor is appointed and qualified. The commissioner of public lands or the commissioner’s designee shall be the chairman of the board.

((4)) (4) The board shall meet at such times and places as shall be designated by the chairman or upon the written request of the majority of the board. The principal office of the board shall be at the state capital.

((5)) (5) Members of the board, except public employees and elected officials, shall be compensated in accordance with RCW 43.03.250. Each member shall be entitled to reimbursement for travel expenses incurred in the performance of their duties as provided in RCW 43.03.050 and 43.03.060.

((6)) (6) The board may employ such clerical help and staff pursuant to chapter 41.06 RCW as is necessary to carry out its duties.

PART XI
WATER QUALITY COORDINATION

Sec. 1101. RCW 90.48.420 and 1975 1st ex.s. c 200 s 13 are each amended to read as follows:

(1) The department of ecology, pursuant to powers vested in it previously by chapter 90.48 RCW and consistent with the policies of said chapter and RCW 90.54.020(3), shall be solely responsible for establishing water quality standards for waters of the state. On or before January 1, 1975, the department of ecology shall examine existing ((regulations)) rules containing water quality standards and other applicable rules ((and regulations)) of said department pertaining to waters of the state affected by nonpoint sources of pollution arising from forest practices and, when it appears appropriate to the department of ecology, modify said ((regulations)) rules. In any such examination or modification the department of ecology shall consider such factors, among others, as uses of the receiving waters, diffusion, down-stream cooling, and reasonable transient and short-term effects resulting from forest practices.

((Promulgation)) Adoption of forest practices ((regulations)) rules pertaining to water quality by ((the department of ecology and)) the forest practices board((, and)) shall be accomplished after reaching agreement with the director of the department or the director’s designee on the board. Adoption shall be accomplished so that compliance with such forest practice ((regulations)) rules will achieve compliance with water pollution control laws.

(2) The department of ecology shall monitor water quality to determine whether revisions in such water quality standards or revisions in such forest practices ((regulations)) rules are necessary to accomplish the foregoing result, and either ((promulgate)) adopt appropriate revisions to such water quality standards or propose appropriate revisions to such forest practices ((regulations)) rules or both.

(3) Notwithstanding any other provisions of chapter 90.48 RCW or of the rules ((and regulations)) adopted thereunder, no permit system pertaining to nonpoint sources of pollution arising from forest practices shall be authorized, and no civil or criminal penalties shall be imposed with respect to any forest practices conducted in full compliance with the applicable provisions of RCW 76.09.010 through 76.09.280, forest practices ((regulations)) rules, and any approvals or directives of the department of natural resources thereunder.
(4) Prior to the department of ecology taking action under statutes or ((regulations)) rules relating to water quality, regarding violations of water quality standards arising from forest practices, the department of ecology shall notify the department of natural resources.

PART XII
STATE ENVIRONMENTAL POLICY ACT

NEW SECTION. Sec. 1201. A new section is added to chapter 43.21C RCW to read as follows:

(1) Decisions pertaining to the following kinds of actions under chapter . . . , Laws of 1999 (this act) are not subject to any procedural requirements implementing RCW 43.21C.030(2)(c): (a) Approval of forest road maintenance and abandonment plans under chapter 76.09 RCW and RCW 75.20.100; (b) approval by the department of natural resources of future timber harvest schedules involving east-side clear cuts under rules implementing chapter 76.09 RCW; (c) acquisitions of forest lands in stream channel migration zones under RCW 76.09.040; and (d) acquisitions of conservation easements pertaining to forest lands in riparian zones under section 504 of this act.

(2) For purposes of the department’s threshold determination on a watershed analysis, the department shall not make a determination of significance unless the prescriptions themselves, compared to rules or prescriptions in place prior to the analysis, will cause probable significant adverse impact on elements of the environment other than those addressed in the watershed analysis process.

PART XIII
FEDERAL ASSURANCES

NEW SECTION. Sec. 1301. A new section is added to chapter 75.46 RCW under the subchapter heading "federal assurances related to forest practices conducted under the state salmon recovery strategy" to read as follows:

(1) Chapter . . . , Laws of 1999 (this act) has been enacted on the assumption that the federal assurances described in the forests and fish report as defined in RCW 76.09.020 will be obtained and that forest practices conducted in accordance with chapter . . . , Laws of 1999 (this act) and the rules adopted under chapter . . . , Laws of 1999 (this act) will not be subject to additional regulations or restrictions for aquatic resources except as provided in the forests and fish report.

(2) The occurrence of any of the following events shall constitute a failure of assurances:

(a) Either (i) the national marine fisheries service or the United States fish and wildlife service fails to promulgate an effective rule under 16 U.S.C. Sec. 1533(d) covering each aquatic resource that is listed as threatened under the endangered species act within two years after the date on which the aquatic resource is so listed or, in the case of bull trout, within two years after the effective date of this section; or (ii) any such rule fails to permit any incidental take that would occur from the conduct of forest practices in compliance with the rules adopted under chapter . . . , Laws of 1999 (this act) or fails to confirm that such forest practices would not otherwise be in violation of the endangered species act and the regulations promulgated under that act. However, this subsection (2)(a) is not applicable to any aquatic resource covered by an incidental take permit described in (c) of this subsection;

(b) Either the national marine fisheries service or the United States fish and wildlife service shall promulgate an effective rule under 16 U.S.C. Sec. 1533(d) covering any aquatic resource that would preclude the conduct of forest practices consistent with the prescriptions outlined in the forests and fish report. However, this subsection (2)(b) is not applicable to any aquatic resource covered by an incidental take permit described in (c) of this subsection;

(c) Either the secretary of the interior or the secretary of commerce fails to issue an acceptable incidental take permit under 16 U.S.C. Sec. 1539(a) covering all fish and wildlife species included within aquatic resources on or before June 30, 2003. An acceptable incidental take permit will (i) permit the incidental take, if any, of all fish and wildlife species included within aquatic resources resulting from the conduct of forest practices in compliance with the prescriptions outlined in the forests and fish report; (ii) provide protection to the state of Washington and its subdivisions and to landowners and operators; (iii) not require the commitment of additional resources beyond those
required to be committed under the forests and fish report; and (iv) provide "no-surprises" protection as described in 50 C.F.R. Parts 17 and 222 (1998);
  (d) The environmental protection agency or department of ecology fails to provide the clean water act assurances described in appendix M to the forests and fish report; or
  (e) The assurances described in (a) through (d) of this subsection are reversed or otherwise rendered ineffective by subsequent federal legislation or rulemaking or by final decision of any court of competent jurisdiction.

Upon the occurrence of a failure of assurances, any agency, tribe, or other interested person including, without limitation, any forest landowner, may provide written notice of the occurrence of such failure of assurances to the legislature and to the office of the governor. Promptly upon receipt of such a notice, the governor shall review relevant information and if he or she determines that a failure of assurances has occurred, the governor shall make such a finding in a written report with recommendations and deliver such report to the legislature. Upon notice of the occurrence of a failure of assurances, the legislature shall review chapter . . . , Laws of 1999 (this act), all rules adopted by the forest practices board, the department of ecology, or the department of fish and wildlife at any time after January 1, 1999, that were adopted primarily for the protection of one or more aquatic resources and affect forest practices and the terms of the forests and fish report, and shall take such action, including the termination of funding or the modification of other statutes, as it deems appropriate.

(3) The governor may negotiate with federal officials, directly or through designated representatives, on behalf of the state and its agencies and subdivisions, to obtain assurances from federal agencies to the effect that compliance with the forest practices rules as amended under chapter . . . , Laws of 1999 (this act) and implementation of the recommendations in the forests and fish report will satisfy federal requirements under the endangered species act and the clean water act and related regulations, including the negotiation of a rule adopted under section 4(d) of the endangered species act, entering into implementation agreements and receiving incidental take permits under section 10 of the endangered species act or entering into other intergovernmental agreements.

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 82.23B.020 and 1997 c 449 s 2 are each amended to read as follows:

(1) An oil spill response tax is imposed on the privilege of receiving crude oil or petroleum products at a marine terminal within this state from a waterborne vessel or barge operating on the navigable waters of this state. The tax imposed in this section is levied upon the owner of the crude oil or petroleum products immediately after receipt of the same into the storage tanks of a marine terminal from a waterborne vessel or barge at the rate of one cent per barrel of crude oil or petroleum product received.

(2) In addition to the tax imposed in subsection (1) of this section, an oil spill administration tax is imposed on the privilege of receiving crude oil or petroleum products at a marine terminal within this state from a waterborne vessel or barge operating on the navigable waters of this state. The tax imposed in this section is levied upon the owner of the crude oil or petroleum products immediately after receipt of the same into the storage tanks of a marine terminal from a waterborne vessel or barge at the rate of four cents per barrel of crude oil or petroleum product received.

(3) The taxes imposed by this chapter shall be collected by the marine terminal operator from the taxpayer. If any person charged with collecting the taxes fails to bill the taxpayer for the taxes, or in the alternative has not notified the taxpayer in writing of the imposition of the taxes, or having collected the taxes, fails to pay them to the department in the manner prescribed by this chapter, whether such failure is the result of the person's own acts or the result of acts or conditions beyond the person's control, he or she shall, nevertheless, be personally liable to the state for the amount of the taxes. Payment of the taxes by the owner to a marine terminal operator shall relieve the owner from further liability for the taxes.

(4) Taxes collected under this chapter shall be held in trust until paid to the department. Any person collecting the taxes who appropriates or converts the taxes collected shall be guilty of a gross misdemeanor if the money required to be collected is not available for payment on the date payment is due. The taxes required by this chapter to be collected shall be stated separately from other charges made by the marine terminal operator in any invoice or other statement of account provided to the taxpayer."
(5) If a taxpayer fails to pay the taxes imposed by this chapter to the person charged with collection of the taxes and the person charged with collection fails to pay the taxes to the department, the department may, in its discretion, proceed directly against the taxpayer for collection of the taxes.

(6) The taxes shall be due from the marine terminal operator, along with reports and returns on forms prescribed by the department, within twenty-five days after the end of the month in which the taxable activity occurs.

(7) The amount of taxes, until paid by the taxpayer to the marine terminal operator or to the department, shall constitute a debt from the taxpayer to the marine terminal operator. Any person required to collect the taxes under this chapter who, with intent to violate the provisions of this chapter, fails or refuses to do so as required and any taxpayer who refuses to pay any taxes due under this chapter, shall be guilty of a misdemeanor as provided in chapter 9A.20 RCW.

(8) Upon prior approval of the department, the taxpayer may pay the taxes imposed by this chapter directly to the department. The department shall give its approval for direct payment under this section whenever it appears, in the department’s judgment, that direct payment will enhance the administration of the taxes imposed under this chapter. The department shall provide by rule for the issuance of a direct payment certificate to any taxpayer qualifying for direct payment of the taxes. Good faith acceptance of a direct payment certificate by a terminal operator shall relieve the marine terminal operator from any liability for the collection or payment of the taxes imposed under this chapter.

(9) All receipts from the tax imposed in subsection (1) of this section shall be deposited into the state oil spill response account. All receipts from the tax imposed in subsection (2) of this section shall be deposited into the oil spill administration account.

(10) Within forty-five days after the end of each calendar quarter, the office of financial management shall determine the balance of the oil spill response account as of the last day of that calendar quarter. Balance determinations by the office of financial management under this section are final and shall not be used to challenge the validity of any tax imposed under this chapter. The office of financial management shall promptly notify the departments of revenue and ecology of the account balance once a determination is made. For each subsequent calendar quarter, the tax imposed by subsection (1) of this section shall be imposed during the entire calendar quarter unless:

(a) Tax was imposed under subsection (1) of this section during the immediately preceding calendar quarter, and the most recent quarterly balance is more than ((ten)) nine million dollars; or

(b) Tax was not imposed under subsection (1) of this section during the immediately preceding calendar quarter, and the most recent quarterly balance is more than ((nine)) eight million dollars.

Sec. 2. RCW 90.56.510 and 1997 c 449 s 3 are each amended to read as follows:

(1) The oil spill administration account is created in the state treasury. All receipts from RCW 82.23B.020(2) shall be deposited in the account. Moneys from the account may be spent only after appropriation. The account is subject to allotment procedures under chapter 43.88 RCW. If, on the first day of any calendar month, the balance of the oil spill response account is greater than ((ten)) nine million dollars and the balance of the oil spill administration account exceeds the unexpended appropriation for the current biennium, then the tax under RCW 82.23B.020(2) shall be suspended on the first day of the next calendar month until the beginning of the following biennium, provided that the tax shall not be suspended during the last six months of the biennium. If the tax imposed under RCW 82.23B.020(2) is suspended during two consecutive biennia, the department shall by November 1st after the end of the second biennium, recommend to the appropriate standing committees an adjustment in the tax rate. For the biennium ending June 30, ((1997)) 1999, and the biennium ending June 30, 2001, the state treasurer may transfer a total of up to ((1,718,000)) one million dollars from the oil spill response account to the oil spill administration account to support appropriations made from the oil spill administration account in the omnibus (and transportation) appropriations act(s) adopted not later than June 30, ((1997)) 1999.

(2) Expenditures from the oil spill administration account shall be used exclusively for the administrative costs related to the purposes of this chapter, and chapters 90.48, 88.40, and 88.46 RCW. Starting with the 1995-1997 biennium, the legislature shall give activities of state agencies
related to prevention of oil spills priority in funding from the oil spill administration account. Costs of administration include the costs of:
(a) Routine responses not covered under RCW 90.56.500;
(b) Management and staff development activities;
(c) Development of rules and policies and the state-wide plan provided for in RCW 90.56.060;
(d) Facility and vessel plan review and approval, drills, inspections, investigations, enforcement, and litigation;
(e) Interagency coordination and public outreach and education;
(f) Collection and administration of the tax provided for in chapter 82.23B RCW; and
(g) Appropriate travel, goods and services, contracts, and equipment.

NEW SECTION. Sec. 3. The house of representatives, jointly with the senate, shall convene the Washington waters oil spill risk reduction work group. The work group shall develop recommendations for an oil spill risk management plan and maintaining maritime commerce for all Washington shipping corridors.

The work group shall: (1) Identify risk reduction measures already in place and build upon this work and the work of the scoping risk assessment; (2) identify new safety measures and determine if they are needed; (3) make an evaluation of the international tug of opportunity system; (4) evaluate current state, federal, and Canadian studies pertaining to marine safety, environmental protection, and the viability of maritime commerce in Washington state and the adjoining waters of the province of British Columbia; (5) evaluate the United States coast guard cost-benefit analysis of extending escorts or establishing a dedicated rescue tug; and (6) evaluate the port access route study, and other studies concerning marine safety and maritime commerce issues.

The work group will discuss and develop a recommended risk management plan for Washington state marine corridors after taking into consideration input from existing information and studies, ongoing initiatives, the reports of various stakeholders and experts, potential impact to the state’s economy, and the cost-benefit analysis being conducted by the United States coast guard to be submitted to the legislature by December 1, 1999. The work group shall report to the legislature by January 10, 2000.

NEW SECTION. Sec. 524. A new section is added to 1997 c 457 (uncodified) to read as follows:

INFORMATION SYSTEMS PROJECTS. Agencies shall comply with the following requirements regarding information systems projects when specifically directed to do so by this act.

(1) Agency planning and decisions concerning information technology shall be made in the context of its information technology portfolio. "Information technology portfolio" means a strategic management approach in which the relationships between agency missions and information technology investments can be seen and understood, such that: Technology efforts are linked to agency objectives and business plans; the impact of new investments on existing infrastructure and business functions are assessed and understood before implementation; and agency activities are consistent with the development of an integrated, nonduplicative state-wide infrastructure.

(2) Agencies shall use their information technology portfolios in making decisions on matters related to the following:
   (a) System refurbishment, acquisitions, and development efforts;
   (b) Setting goals and objectives for using information technology in meeting legislatively-mandated missions and business needs;
   (c) Assessment of overall information processing performance, resources, and capabilities;
   (d) Ensuring appropriate transfer of technological expertise for the operation of any new systems developed using external resources; and
   (e) Progress toward enabling electronic access to public information.

(3) The agency shall produce a feasibility study for information technology projects at the direction of the information services board and in accordance with published department of information services policies and guidelines. At a minimum, such studies shall include a statement of: (a) The purpose or impetus for change; (b) the business value to the agency, including an examination and evaluation of benefits, advantages, and cost; (c) a comprehensive risk assessment based on the proposed project’s impact on both citizens and state operations, its visibility, and the consequences of doing nothing; (d) the impact on agency and state-wide information infrastructure; and (e) the impact of the proposed enhancements to an agency's information technology capabilities on meeting service delivery demands.

(4) The agency shall produce a comprehensive management plan for each project. The plan or plans shall address all factors critical to successful completion of each project. The plan(s) shall include, but is not limited to, the following elements: A description of the problem or opportunity that the information technology project is intended to address; a statement of project objectives and assumptions; a definition and schedule of phases, tasks, and activities to be accomplished; and the estimated cost of each phase. The planning for the phased approach shall be such that the business case justification for a project needs to demonstrate how the project recovers cost or adds measurable value or positive cost benefit to the agency’s business functions within each development cycle.

(5) The agency shall produce quality assurance plans for information technology projects. Consistent with the direction of the information services board and the published policies and guidelines of the department of information services, the quality assurance plan shall address all factors critical to successful completion of the project and successful integration with the agency and state information technology infrastructure. At a minimum, quality assurance plans shall provide time and budget benchmarks against which project progress can be measured, a specification of quality assurance responsibilities, and a statement of reporting requirements. The quality assurance plans shall set out the functionality requirements for each phase of a project.

(6) A copy of each feasibility study, project management plan, and quality assurance plan shall be provided to the department of information services, the office of financial management, and legislative fiscal committees. The plans and studies shall demonstrate a sound business case that justifies the investment of taxpayer funds on any new project, an assessment of the impact of the proposed system on the existing information technology infrastructure, the disciplined use of preventative measures to mitigate risk, and the leveraging of private-sector expertise as needed. Authority to expend any funds for individual information systems projects is conditioned on the
approval of the relevant feasibility study, project management plan, and quality assurance plan by the
department of information services and the office of financial management.

(7) Quality assurance status reports shall be submitted to the department of information
services, the office of financial management, and legislative fiscal committees at intervals specified in
the project’s quality assurance plan.

authorization are required to submit a report by June 30, 2001, to the legislature and the office of
financial management on the outcome of their approved retirement incentive program. The report

(3)(a) The agencies shall input monthly their financial information and quarterly program performance measurements into the transportation executive information system and will utilize the transportation executive information system investment system in the development of their agency policy request budgets.

(b) The department of licensing and the Washington state patrol shall submit budgets to the legislature at the subprogram level.

Each review will have a plan with timelines, deliverables, and milestones to ensure it is completed on time with anticipated deliverables. NEW SECTION. Sec. 605. (1) Forty percent of the funds available for surface transportation flexible funds available under Sections 105(c)(2) and 133(d)(3)(A)(ii) of Title 23, United States Code are made available for the Washington state department of transportation.

(2) Twenty-two percent of the funds available for surface transportation flexible funds available under Sections 105(c)(2) and 133(d)(3)(A)(ii) of Title 23, United States Code are made available for rural economic development projects in rural counties with population densities of less than one hundred persons per square mile pro rata based on population and community empowerment zones as defined in RCW 43.63A.700. These funds shall be used for the transportation component of identified,
emerging, nonspeculative economic development projects that create new employment or revitalize existing business. As required under federal law, these funds shall be administered by the Washington state department of transportation. The community economic revitalization board within the department of community, trade, and economic development shall work with local project proponents and the Washington state department of transportation to identify economic development projects with essential transportation components. The board shall make recommendations regarding funding for a project's transportation component to the Washington state transportation commission. Beginning in the fiscal year 2000, any economic development funds that are not obligated from the prior federal fiscal year by June first of each year shall be available for economic development projects state-wide in accordance with the same administration and selection process established in this subsection for rural economic development projects.

(3) Thirty-eight percent of the funds available for surface transportation flexible funds available under Sections 105(c)(2) and 133(d)(3)(A)(ii) of Title 23, United States Code are made available for the state-wide competitive program for regionally significant projects. The transportation improvement board shall be responsible for selecting projects under this program. For federal fiscal years 2000 and 2001, to be eligible, projects shall: (a) Meet the criteria established by the transportation improvement board for selecting regionally significant projects; (b) be included in a metropolitan planning organization's transportation improvement plan; (c) meet the goal of targeting funds for coordinated projects within corridors that are regionally significant; and (d) support the functioning of corridors for their full length rather than in individual spot improvements.

NEW SECTION. Sec. 606. (1) Notwithstanding RCW 79.91.100, between July 1, 1999, and June 30, 2001, the department of natural resources shall grant easements to cities, towns, and counties for roadway purposes, including the right to make necessary fills, on, over, or across the beds of navigable waters if those easements are necessary to facilitate the construction of projects funded in this act.

(a) For purposes of this section, a project is funded in this act if it is specifically identified for full or partial funding in this act or is referenced for funding in whole or in part in the budget notes or projects lists produced as supporting documentation for this act.

(b) The department of natural resources shall not charge the city, town, or county for the easement except as necessary to recover reasonable administrative costs.

(2) If a city, town, or county requests an easement under this section, the department of natural resources shall execute and deliver an instrument granting the easement to the requesting city, town, or county.

Sec. 607. RCW 43.19.1906 and 1995 c 269 s 1404 are each amended to read as follows:

Insofar as practicable, all purchases and sales shall be based on competitive bids, and a formal sealed bid procedure shall be used as standard procedure for all purchases and contracts for purchases and sales executed by the state purchasing and material control director and under the powers granted by RCW 43.19.190 through 43.19.1939. This requirement also applies to purchases and contracts for purchases and sales executed by agencies, including educational institutions, under delegated authority granted in accordance with provisions of RCW 43.19.190 or under RCW 28B.10.029. However, formal sealed bidding is not necessary for:

(1) Emergency purchases made pursuant to RCW 43.19.200 if the sealed bidding procedure would prevent or hinder the emergency from being met appropriately;

(2) Purchases not exceeding thirty-five thousand dollars, or subsequent limits as calculated by the office of financial management: PROVIDED. That the state director of general administration shall establish procedures to assure that purchases made by or on behalf of the various state agencies shall not be made so as to avoid the thirty-five thousand dollar bid limitation, or subsequent bid limitations as calculated by the office of financial management: PROVIDED FURTHER, That the state purchasing and material control director is authorized to reduce the formal sealed bid limits of thirty-five thousand dollars, or subsequent limits as calculated by the office of financial management, to a lower dollar amount for purchases by individual state agencies if considered necessary to maintain full disclosure of competitive procurement or otherwise to achieve overall state efficiency and economy in
purchasing and material control. Quotations from four hundred dollars to thirty-five thousand dollars, or subsequent limits as calculated by the office of financial management, shall be secured from at least three vendors to assure establishment of a competitive price and may be obtained by telephone or written quotations, or both. The agency shall invite at least one quotation each from a certified minority and a certified women-owned vendor who shall otherwise qualify to perform such work. Immediately after the award is made, the bid quotations obtained shall be recorded and open to public inspection and shall be available by telephone inquiry. A record of competition for all such purchases from four hundred dollars to thirty-five thousand dollars, or subsequent limits as calculated by the office of financial management, shall be documented for audit purposes. Purchases up to four hundred dollars may be made without competitive bids based on buyer experience and knowledge of the market in achieving maximum quality at minimum cost: PROVIDED, That this four hundred dollar direct buy limit without competitive bids may be increased incrementally as required to a maximum of eight hundred dollars, if warranted by increases in purchasing costs due to inflationary trends;

3) Purchases which are clearly and legitimately limited to a single source of supply and purchases involving special facilities, services, or market conditions, in which instances the purchase price may be best established by direct negotiation;

4) Purchases of insurance and bonds by the risk management office under RCW 43.19.1935;

5) Purchases and contracts for vocational rehabilitation clients of the department of social and health services: PROVIDED, That this exemption is effective only when the state purchasing and material control director, after consultation with the director of the division of vocational rehabilitation and appropriate department of social and health services procurement personnel, declares that such purchases may be best executed through direct negotiation with one or more suppliers in order to expeditiously meet the special needs of the state’s vocational rehabilitation clients;

6) Purchases by universities for hospital operation or biomedical teaching or research purposes and by the state purchasing and material control director, as the agent for state hospitals as defined in RCW 72.23.010, and for health care programs provided in state correctional institutions as defined in RCW 72.65.010(3) and veterans’ institutions as defined in RCW 72.36.010 and 72.36.070, made by participating in contracts for materials, supplies, and equipment entered into by nonprofit cooperative hospital group purchasing organizations;

7) Purchases by institutions of higher education not exceeding thirty-five thousand dollars: PROVIDED, That for purchases between two thousand five hundred dollars and thirty-five thousand dollars quotations shall be secured from at least three vendors to assure establishment of a competitive price and may be obtained by telephone or written quotations, or both. For purchases between two thousand five hundred dollars and thirty-five thousand dollars, each institution of higher education shall invite at least one quotation each from a certified minority and a certified women-owned vendor who shall otherwise qualify to perform such work. A record of competition for all such purchases made from two thousand five hundred to thirty-five thousand dollars shall be documented for audit purposes; and

8) Negotiation of a contract by the department of transportation, valid until June 30, 2001, with registered tow truck operators to provide roving service patrols in one or more Washington state patrol tow zones whereby those registered tow truck operators wishing to participate would cooperatively, with the department of transportation, develop a demonstration project upon terms and conditions negotiated by the parties.

Beginning on July 1, 1995, and on July 1 of each succeeding odd-numbered year, the dollar limits specified in this section shall be adjusted as follows: The office of financial management shall calculate such limits by adjusting the previous biennium's limits by the appropriate federal inflationary index reflecting the rate of inflation for the previous biennium. Such amounts shall be rounded to the nearest one hundred dollars.

**Sec. 608.** RCW 88.16.090 and 1995 c 175 s 1 are each amended to read as follows:

1) A person may pilot any vessel subject to the provisions of this chapter on waters covered by this chapter only if appointed and licensed to pilot such vessels on said waters under and pursuant to the provisions of this chapter.
(2) A person is eligible to be appointed a pilot if the person is a citizen of the United States, over the age of twenty-five years and under the age of seventy years, a resident of the state of Washington at the time of appointment and only if the pilot applicant holds as a minimum, a United States government license as a master of ocean or near coastal steam or motor vessels of not more than one thousand six hundred gross tons or as a master of inland steam or motor vessels of not more than one thousand six hundred gross tons, such license to have been held by the applicant for a period of at least two years prior to taking the Washington state pilotage examination and a first class United States endorsement without restrictions on that license to pilot in the pilotage districts for which the pilot applicant desires to be licensed, and if the pilot applicant meets such other qualifications as may be required by the board. A person applying for a license under this section shall not have been convicted of an offense involving drugs or the personal consumption of alcohol in the twelve months prior to the date of application. This restriction does not apply to license renewals under this section.

(3) Pilots shall be licensed hereunder for a term of five years from and after the date of the issuance of their respective state licenses. Such licenses shall thereafter be renewed as of course, unless the board shall withhold same for good cause. Each pilot shall pay to the state treasurer an annual license fee as follows: For the period beginning July 1, 1995, through June 30, 2001, the fee shall be two thousand five hundred dollars; and for the period beginning July 1, 2001, the fee shall be three thousand dollars. The fees shall be deposited in the state treasury to the credit of the pilotage account. The board may assess partially active or inactive pilots a reduced fee.

(4) Pilot applicants shall be required to pass a written and oral examination administered and graded by the board which shall test such applicants on this chapter, the rules of the board, local harbor ordinances, and such other matters as may be required to compliment the United States examinations and qualifications. The board shall hold examinations at such times as will, in the judgment of the board, ensure the maintenance of an efficient and competent pilotage service. An examination shall be scheduled for the Puget Sound pilotage district if there are three or fewer successful candidates from the previous examination who are waiting to become pilots in that district.

(5) The board shall develop an examination and grading sheet for each pilotage district, for the testing and grading of pilot applicants. The examinations shall be administered to pilot applicants and shall be updated as required to reflect changes in law, rules, policies, or procedures. The board may appoint a special independent examination committee or may contract with a firm knowledgeable and experienced in the development of professional tests for development of said examinations. Active licensed state pilots may be consulted for the general development of examinations but shall have no knowledge of the specific questions. The pilot members of the board may participate in the grading of examinations. If the board does appoint a special examination development committee it is authorized to pay the members of said committee the same compensation and travel expenses as received by members of the board. When grading examinations the board shall carefully follow the grading sheet prepared for that examination. The board shall develop a "sample examination" which would tend to indicate to an applicant the general types of questions on pilot examinations, but such sample questions shall not appear on any actual examinations. Any person who willfully gives advance knowledge of information contained on a pilot examination is guilty of a gross misdemeanor.

(6) All pilots and applicants are subject to an annual physical examination by a physician chosen by the board. The physician shall examine the applicant's heart, blood pressure, circulatory system, lungs and respiratory system, eyesight, hearing, and such other items as may be prescribed by the board. After consultation with a physician and the United States coast guard, the board shall establish minimum health standards to ensure that pilots licensed by the state are able to perform their duties. Within ninety days of the date of each annual physical examination, and after review of the physician's report, the board shall make a determination of whether the pilot or candidate is fully able to carry out the duties of a pilot under this chapter. The board may in its discretion check with the appropriate authority for any convictions of offenses involving drugs or the personal consumption of alcohol in the prior twelve months.

(7) The board shall prescribe, pursuant to chapter 34.05 RCW, a number of familiarization trips, between a minimum number of twenty-five and a maximum of one hundred, which pilot applicants must make in the pilotage district for which they desire to be licensed. Familiarization trips any particular applicant must make are to be based upon the applicant's vessel handling experience.
(8) The board may require vessel simulator training for a pilot applicant and shall require vessel simulator training for a pilot subject to RCW 88.16.105. The board shall also require vessel simulator training in the first year of active duty for a new pilot and at least once every five years for all active pilots.

(9) The board shall prescribe, pursuant to chapter 34.05 RCW, such reporting requirements and review procedures as may be necessary to assure the accuracy and validity of license and service claims, and records of familiarization trips of pilot candidates. Willful misrepresentation of such required information by a pilot candidate shall result in disqualification of the candidate.

(10) The board shall adopt rules to establish time periods and procedures for additional training trips and retesting as necessary for pilots who at the time of their licensing are unable to become active pilots.

NEW SECTION. Sec. 609. The following bills, as enacted in the form passed by the legislature, are necessary to implement portions of this act: House Bill Nos. 1053, 1147, 1304, 1466, 1588, 2201, 2245, and 2259 and Senate Bill Nos. 5060, 5283, 5360, 5605, 5615, 5955, 6030, and 6068.

Sec. 611. RCW 47.26.4252 and 1999 c 94 s 22 and 1999 c . . . (SHB 1053) s 7 are each reenacted to read as follows:

Any funds required to repay the authorization of series II bonds authorized by RCW 47.26.420, as reenacted by section 3, chapter 5, Laws of 1979, or the interest thereon when due, shall first be taken from that portion of the motor vehicle fund which results from the imposition of excise taxes on motor vehicle and special fuels imposed by chapters 82.36 and 82.38 RCW and which is distributed to the urban arterial trust account in the motor vehicle fund pursuant to RCW 46.68.090(1)(g), subject, however, to the prior lien of the first authorization of bonds authorized by RCW 47.26.420, as reenacted by section 3, chapter 5, Laws of 1979. If the moneys distributed to the urban arterial trust account shall ever be insufficient to repay the first authorization bonds together with interest thereon, and the series II bonds or the interest thereon when due, the amount required to make such payments on such bonds or interest thereon shall next be taken from that portion of the motor vehicle fund which results from the imposition of excise taxes on motor vehicle and special fuels and which is distributed to the state, counties, cities, and towns pursuant to RCW 46.68.090. Any payments on such bonds or interest thereon taken from motor vehicle or special fuel tax revenues which are distributable to the state, counties, cities, and towns, shall be repaid from the first moneys distributed to the urban arterial trust account not required for redemption of the first authorization bonds or series II and series III bonds or interest on those bond issues.

Sec. 612. RCW 47.26.4254 and 1999 c 94 s 23 and 1999 c . . . (SHB 1053) s 8 are each reenacted and amended to read as follows:

(1) Any funds required to repay series III bonds authorized by RCW 47.26.420, or the interest thereon, when due shall first be taken from that portion of the motor vehicle fund that results from the imposition of excise taxes on motor vehicle and special fuels imposed by chapters 82.36 and 82.38 RCW and that is distributed to the urban arterial trust account in the motor vehicle fund pursuant to
RCW 46.68.090(1)((g)) (j), subject, however, to the prior lien of the first authorization of bonds authorized by RCW 47.26.420. If the moneys so distributed to the urban arterial trust account, after first being applied to administrative expenses of the transportation improvement board and to the requirements of bond retirement and payment of interest on first authorization bonds and series II bonds as provided in RCW 47.26.425 and 47.26.4252, are insufficient to meet the requirements for bond retirement or interest on any series III bonds, the amount required to make such payments on series III bonds or interest thereon shall next be taken from that portion of the motor vehicle fund that results from the imposition of excise taxes on motor vehicle and special fuels and that is distributed to the state, counties, cities, and towns pursuant to RCW 46.68.090, subject, however, to subsection (2) of this section.

(2) To the extent that moneys so distributed to the urban arterial trust account are insufficient to meet the requirements for bond retirement or interest on any series III bonds, sixty percent of the amount required to make such payments when due shall first be taken from that portion of the motor vehicle fund that results from the imposition of excise taxes on motor vehicle and special fuels and that is distributed to the state. The remaining forty percent shall first be taken from that portion of the motor vehicle fund that results from the imposition of excise taxes on motor vehicle and special fuels and that is distributed to the cities and towns pursuant to RCW 46.68.090(1)(i) and to the counties pursuant to RCW 46.68.090(1)(j). Of the counties', cities', and towns' share of any additional amounts required in each fiscal year, the percentage thereof to be taken from the counties' distributive share and from the cities' and towns' distributive share shall correspond to the percentage of funds authorized for specific county projects and for specific city and town projects, respectively, from the proceeds of series III bonds, for the period through the first eleven months of the prior fiscal year as determined by the chairman of the transportation improvement board and reported to the state finance committee and the state treasurer not later than the first working day of June.

(3) Any payments on such bonds or interest thereon taken from motor vehicle or special fuel tax revenues that are distributable to the state, counties, cities, and towns shall be repaid from the first moneys distributed to the urban arterial trust account not required for redemption of the first authorization bonds, series II bonds, or series III bonds or interest on these bonds.

Sec. 613. RCW 47.26.505 and 1999 c 94 s 24 and 1999 c . . . (SHB 1053) s 9 are each reenacted and amended to read as follows:

Any funds required to repay such bonds, or the interest thereon when due, shall be taken from that portion of the motor vehicle fund which results from the imposition of excise taxes on motor vehicle and special fuels and which is distributed to the transportation improvement account in the motor vehicle fund under RCW 46.68.090(1)(h), and shall never constitute a charge against any allocations of any other such funds in the motor vehicle fund to the state, counties, cities, and towns unless and until the amount of the motor vehicle fund arising from the excise tax on motor vehicle and special fuels and distributed to the transportation improvement account proves insufficient to meet the requirements for bond retirement or interest on any such bonds.

"NEW SECTION. Sec. 615. The legislature finds and declares that it is essential for the economic, social, and environmental well-being of the state and the maintenance of a high quality of life that the people of the state have an efficient and effective transportation system. The legislature, public officials, and citizens need to know the extent to which state agencies, programs, and activities that impact the state’s transportation system are achieving the purposes for which they were created.

The legislature recognizes that if it is to adequately fulfill its responsibility to provide for a balanced, efficient state-wide transportation system, it is essential to establish a joint legislative transportation committee that will provide an opportunity for members of the house of representatives and the Senate to examine, develop, and oversee critical transportation policy and fiscal issues and make recommendations on such issues to the house of representatives and Senate standing committees on transportation.

In order to accomplish the mission and goals of the joint legislative transportation committee and to effectively serve the house of representatives and Senate standing committees on transportation, the legislature acknowledges the need to provide for a level of staffing that will adequately address the exclusive needs of the house of representatives and Senate standing committees and the administration and staffing of the joint legislative transportation committee.

Sec. 616. RCW 44.40.010 and 1980 c 87 s 39 are each amended to read as follows:
The joint fact-finding committee on highways, streets, and bridges originally created by chapter 111, Laws of 1947, recreated and renamed the joint committee on highways by chapter 3, Laws of 1963 extraordinary session, is hereby recreated and renamed the legislative transportation committee. The renaming of said committee shall not affect any powers invested in it or its duties imposed upon it by any other statute. All appropriations made to the committee under its former name shall continue to be available to said committee as renamed, the legislative transportation committee. The committee shall consist of ((eleven)) twelve senators to be appointed by the president of the senate and twelve members of the house of representatives to be appointed by the speaker thereof. Not more than six members from each house may be from the same political party. A list of appointees shall be submitted before the close of each regular legislative session during an odd-numbered year or any successive special session convened by the governor or the legislature prior to the close of such regular session or successive special session(s) for confirmation of senate members, by the senate, and house members, by the house. Vacancies occurring shall be filled by the appointing authority. All vacancies must be filled from the same political party and from the same house as the member whose seat was vacated.

The chair shall be elected biennially by the membership of the committee. The vice-chair must be from the opposite house.

On the effective date of this act, the president of the senate shall appoint an additional senate member as provided by the 1999 amendment of this section. With the appointment of the additional member, the terms of officers elected before the effective date of this act are terminated, and the committee shall hold an election of officers.

The committee shall adopt rules and procedures for its orderly operation.

NEW SECTION. Sec. 617. A new section is added to chapter 44.40 RCW to read as follows:

The members of the legislative transportation committee shall form an executive committee consisting of two members from each of the four major political caucuses, which will include the chair and vice-chair of the legislative transportation committee. There will be four alternates to the executive committee, one from each of the four major political caucuses. Each alternate may represent a member from the same political caucus from which they were chosen when that member is absent, and have voting privileges during that absence.

The executive committee is responsible for performing all general administrative and personnel duties assigned to it in the rules and procedures adopted by the committee, as well as other duties delegated to it by the committee. Except when those responsibilities are assumed by the legislative transportation committee, the executive committee is responsible for adopting interim work plans and meeting schedules, approving all contracts signed on behalf of the committee, approving policies for travel of members and staff, and setting policies for staff utilization.

"NEW SECTION.  Sec. 3. The legislature recognizes that families and educators alike want schools to be institutions where learning can occur. The legislature also recognizes that learning cannot take place without a certain level of physical and emotional safety and that parents want and need to be able to send their children to school without concern over the physical and emotional safety of their children. The legislature finds that policies to ensure students’ freedom from sexual and malicious harassment and even the existence of such policies vary from one Washington state public school district to the next. Whereas sexual and other malicious harassment are particularly pernicious threats to school safety, the legislature intends to require that public school districts establish, publicize and enforce policies prohibiting and punishing such behavior. It is also the intent of the legislature to ensure that all school personnel and students understand the importance of and the procedures for maintaining a safe learning environment and for enforcing their school districts' sexual and malicious harassment policies.

Sec. 4.  RCW 28A.640.020 and 1994 c 213 s 1 are each amended to read as follows:
(1) The superintendent of public instruction shall develop regulations and guidelines to eliminate sex discrimination as it applies to public school employment, counseling and guidance services to students, recreational and athletic activities for students, access to course offerings, and in textbooks and instructional materials used by students.
   (a) Specifically with respect to public school employment, all schools shall be required to:
      (i) Maintain credential requirements for all personnel without regard to sex;
      (ii) Make no differentiation in pay scale on the basis of sex;
      (iii) Assign school duties without regard to sex except where such assignment would involve duty in areas or situations, such as but not limited to a shower room, where persons might be disrobed;
      (iv) Provide the same opportunities for advancement to males and females; and
      (v) Make no difference in conditions of employment including, but not limited to, hiring practices, leaves of absence, hours of employment, and assignment of, or pay for, instructional and noninstructional duties, on the basis of sex.
   (b) Specifically with respect to counseling and guidance services for students, they shall be made available to all students equally. All certificated personnel shall be required to stress access to all career and vocational opportunities to students without regard to sex.
   (c) Specifically with respect to recreational and athletic activities, they shall be offered to all students without regard to sex. Schools may provide separate teams for each sex. Schools which provide the following shall do so with no disparities based on sex: Equipment and supplies; medical care; services and insurance; transportation and per diem allowances; opportunities to receive coaching and instruction; laundry services; assignment of game officials; opportunities for competition, publicity and awards; scheduling of games and practice times including use of courts, gyms, and pools:
PROVIDED, That such scheduling of games and practice times shall be determined by local administrative authorities after consideration of the public and student interest in attending and participating in various recreational and athletic activities. Each school which provides showers, toilets, or training room facilities for athletic purposes shall provide comparable facilities for both sexes. Such facilities may be provided either as separate facilities or shall be scheduled and used separately by each sex.

The superintendent of public instruction shall also be required to develop a student survey to distribute every three years to each local school district in the state to determine student interest for male/female participation in specific sports.

(d) Specifically with respect to course offerings, all classes shall be required to be available to all students without regard to sex: PROVIDED, That separation is permitted within any class during sessions on sex education or gym classes.

(e) Specifically with respect to textbooks and instructional materials, which shall also include, but not be limited to, reference books and audio-visual materials, they shall be required to adhere to the guidelines developed by the superintendent of public instruction to implement the intent of this chapter: PROVIDED, That this subsection shall not be construed to prohibit the introduction of material deemed appropriate by the instructor for educational purposes.

(2)(a) (By December 31, 1994.) The superintendent of public instruction shall develop criteria for use by school districts in developing sexual harassment and malicious harassment policies as required under (b) of this subsection. The criteria shall address the subjects of grievance procedures, remedies to victims of sexual harassment and malicious harassment, disciplinary actions against violators of the policy, and other subjects at the discretion of the superintendent of public instruction. Disciplinary actions must conform with collective bargaining agreements and state and federal laws. The superintendent of public instruction also shall supply sample policies to school districts upon request.

(b) (By June 30, 1995.) Every school district shall adopt and implement (a) written policies concerning sexual harassment and malicious harassment. The policies shall apply to all school district employees, volunteers, parents, and students, including, but not limited to, conduct between students.

(c) School district policies on sexual harassment and malicious harassment shall be reviewed by the superintendent of public instruction considering the criteria established under (a) of this subsection as part of the monitoring process established in RCW 28A.640.030.

(d) The school district’s sexual harassment and malicious harassment policies shall be conspicuously posted throughout each school building, and provided to each employee. A copy of the policies shall appear in any publication of the school or school district setting forth the rules, regulations, procedures, and standards of conduct for the school or school district.

(e)(i) Each school shall develop a process for discussing the district’s sexual harassment and malicious harassment policies with students. The process shall ensure the discussion addresses the definition of sexual harassment and malicious harassment and issues covered in the sexual harassment and malicious harassment policies.

(ii) Each school district shall provide to employees and volunteers who have significant contact with students training on the school district’s sexual harassment and malicious harassment policies in accordance with the guidelines adopted by the superintendent of public instruction under section 5(2) of this act.

(f) "Sexual harassment" as used in this section means unwelcome sexual advances, requests for sexual favors, sexually motivated physical contact, or other verbal or physical conduct or communication of a sexual nature if:

(i) Submission to that conduct or communication is made a term or condition, either explicitly or implicitly, of obtaining an education or employment;

(iii) That conduct or communication has the purpose or effect of substantially interfering with an individual’s educational or work performance, or of creating an intimidating, hostile, or offensive educational or work environment.
(g) "Malicious harassment" as used in this section means malicious harassment as defined in RCW 9A.36.080.

NEW SECTION. Sec. 5. (1) The superintendent of public instruction shall develop the criteria for use by school districts in developing malicious harassment policies, as required under RCW 28A.640.020(2)(a), by December 31, 1999. All school districts shall adopt and implement a written policy concerning malicious harassment, as required under RCW 28A.640.020(2)(b) by July 1, 2000.

(2)(a) The superintendent of public instruction shall adopt guidelines for use by school districts on training school district employees and volunteers about school district policies regarding sexual harassment and malicious harassment. The superintendent of public instruction shall establish training program guidelines that, to the extent possible, can be implemented within existing training programs for employees and volunteers and with minimal additional expenditure of time and resources.

(b) The superintendent of public instruction shall adopt training guidelines under this subsection (2) by July 1, 2000. Each school district shall institute training programs in accordance with the guidelines adopted by the superintendent of public instruction and as required under RCW 28A.640.020(2)(e). To the extent possible, such programs shall be instituted by the beginning of the 2000 school year."

NEW SECTION.  Sec. 524. A new section is added to 1997 c 457 (uncodified) to read as follows:

INFORMATION SYSTEMS PROJECTS. Agencies shall comply with the following requirements regarding information systems projects when specifically directed to do so by this act.

(1) Agency planning and decisions concerning information technology shall be made in the context of its information technology portfolio. "Information technology portfolio" means a strategic management approach in which the relationships between agency missions and information technology investments can be seen and understood, such that: Technology efforts are linked to agency objectives and business plans; the impact of new investments on existing infrastructure and business functions are assessed and understood before implementation; and agency activities are consistent with the development of an integrated, nonduplicative state-wide infrastructure.

(2) Agencies shall use their information technology portfolios in making decisions on matters related to the following:
   (a) System refurbishment, acquisitions, and development efforts;
   (b) Setting goals and objectives for using information technology in meeting legislatively-mandated missions and business needs;
   (c) Assessment of overall information processing performance, resources, and capabilities;
   (d) Ensuring appropriate transfer of technological expertise for the operation of any new systems developed using external resources; and
   (e) Progress toward enabling electronic access to public information.

(3) The agency shall produce a feasibility study for information technology projects at the direction of the information services board and in accordance with published department of information services policies and guidelines. At a minimum, such studies shall include a statement of: (a) The purpose or impetus for change; (b) the business value to the agency, including an examination and evaluation of benefits, advantages, and cost; (c) a comprehensive risk assessment based on the proposed project's impact on both citizens and state operations, its visibility, and the consequences of doing nothing; (d) the impact on agency and state-wide information infrastructure; and (e) the impact of the proposed enhancements to an agency's information technology capabilities on meeting service delivery demands.

(4) The agency shall produce a comprehensive management plan for each project. The plan or plans shall address all factors critical to successful completion of each project. The plan(s) shall include, but is not limited to, the following elements: A description of the problem or opportunity that the information technology project is intended to address; a statement of project objectives and assumptions; a definition and schedule of phases, tasks, and activities to be accomplished; and the estimated cost of each phase. The planning for the phased approach shall be such that the business case justification for a project needs to demonstrate how the project recovers cost or adds measurable value or positive cost benefit to the agency's business functions within each development cycle.

(5) The agency shall produce quality assurance plans for information technology projects. Consistent with the direction of the information services board and the published policies and guidelines of the department of information services, the quality assurance plan shall address all factors critical to successful completion of the project and successful integration with the agency and state information technology infrastructure. At a minimum, quality assurance plans shall provide time and budget benchmarks against which project progress can be measured, a specification of quality assurance responsibilities, and a statement of reporting requirements. The quality assurance plans shall set out the functionality requirements for each phase of a project.

(6) A copy of each feasibility study, project management plan, and quality assurance plan shall be provided to the department of information services, the office of financial management, and legislative fiscal committees. The plans and studies shall demonstrate a sound business case that justifies the investment of taxpayer funds on any new project, an assessment of the impact of the proposed system on the existing information technology infrastructure, the disciplined use of preventative measures to mitigate risk, and the leveraging of private-sector expertise as needed. Authority to expend any funds for individual information systems projects is conditioned on the approval of the relevant feasibility study, project management plan, and quality assurance plan by the department of information services and the office of financial management.
Quality assurance status reports shall be submitted to the department of information services, the office of financial management, and legislative fiscal committees at intervals specified in the project’s quality assurance plan.

NEW SECTION. Sec. 605. (1) Forty percent of the funds available for surface transportation flexible funds available under Sections 105(c)(2) and 133(d)(3)(A)(ii) of Title 23, United States Code are made available for the Washington state department of transportation.

(2) Twenty-two percent of the funds available for surface transportation flexible funds available under Sections 105(c)(2) and 133(d)(3)(A)(ii) of Title 23, United States Code are made available for rural economic development projects in rural counties with population densities of less than one hundred persons per square mile pro rata based on population and community empowerment zones as defined in RCW 43.63A.700. These funds shall be used for the transportation component of identified, emerging, non speculative economic development projects that create new employment or revitalize existing business. As required under federal law, these funds shall be administered by the Washington state department of transportation. The community economic revitalization board within the
department of community, trade, and economic development shall work with local project proponents and the Washington state department of transportation to identify economic development projects with essential transportation components. Sec. 606. RCW 43.19.1906 and 1995 c 269 s 1404 are each amended to read as follows:

Insofar as practicable, all purchases and sales shall be based on competitive bids, and a formal sealed bid procedure shall be used as standard procedure for all purchases and contracts for purchases and sales executed by the state purchasing and material control director and under the powers granted by RCW 43.19.190 through 43.19.1939. This requirement also applies to purchases and contracts for purchases and sales executed by agencies, including educational institutions, under delegated authority granted in accordance with provisions of RCW 43.19.190 or under RCW 28B.10.029. However, formal sealed bidding is not necessary for:

(1) Emergency purchases made pursuant to RCW 43.19.200 if the sealed bidding procedure would prevent or hinder the emergency from being met appropriately;

(2) Purchases not exceeding thirty-five thousand dollars, or subsequent limits as calculated by the office of financial management: PROVIDED, That the state director of general administration shall establish procedures to assure that purchases made by or on behalf of the various state agencies shall not be made so as to avoid the thirty-five thousand dollar bid limitation, or subsequent bid limitations as calculated by the office of financial management: PROVIDED FURTHER, That the state purchasing and material control director is authorized to reduce the formal sealed bid limits of thirty-five thousand dollars, or subsequent limits as calculated by the office of financial management, to a lower dollar amount for purchases by individual state agencies if considered necessary to maintain full disclosure of competitive procurement or otherwise to achieve overall state efficiency and economy in purchasing and material control. Quotations from four hundred dollars to thirty-five thousand dollars, or subsequent limits as calculated by the office of financial management, shall be secured from at least three vendors to assure establishment of a competitive price and may be obtained by telephone or written quotations, or both. The agency shall invite at least one quotation each from a certified minority and a certified women-owned vendor who shall otherwise qualify to perform such work. Immediately after the award is made, the bid quotations obtained shall be recorded and open to public inspection and shall be available by telephone inquiry. A record of competition for all such purchases from four hundred dollars to thirty-five thousand dollars, or subsequent limits as calculated by the office of financial management, shall be documented for audit purposes. Purchases up to four hundred dollars may be made without competitive bids based on buyer experience and knowledge of the market in achieving maximum quality at minimum cost: PROVIDED, That this four hundred dollar direct buy limit without competitive bids may be increased incrementally as required to a maximum of eight hundred dollars, if warranted by increases in purchasing costs due to inflationary trends;

(3) Purchases which are clearly and legitimately limited to a single source of supply and purchases involving special facilities, services, or market conditions, in which instances the purchase price may be best established by direct negotiation;

(4) Purchases of insurance and bonds by the risk management office under RCW 43.19.1935;
(5) Purchases and contracts for vocational rehabilitation clients of the department of social and health services: PROVIDED, That this exemption is effective only when the state purchasing and material control director, after consultation with the director of the division of vocational rehabilitation and appropriate department of social and health services procurement personnel, declares that such purchases may be best executed through direct negotiation with one or more suppliers in order to expeditiously meet the special needs of the state's vocational rehabilitation clients;

(6) Purchases by universities for hospital operation or biomedical teaching or research purposes and by the state purchasing and material control director, as the agent for state hospitals as defined in RCW 72.23.010, and for health care programs provided in state correctional institutions as defined in RCW 72.65.010(3) and veterans' institutions as defined in RCW 72.36.010 and 72.36.070, made by participating in contracts for materials, supplies, and equipment entered into by nonprofit cooperative hospital group purchasing organizations;

(7) Purchases by institutions of higher education not exceeding thirty-five thousand dollars: PROVIDED, That for purchases between two thousand five hundred dollars and thirty-five thousand dollars quotations shall be secured from at least three vendors to assure establishment of a competitive price and may be obtained by telephone or written quotations, or both. For purchases between two thousand five hundred dollars and thirty-five thousand dollars, each institution of higher education shall invite at least one quotation each from a certified minority and a certified women-owned vendor who shall otherwise qualify to perform such work. A record of competition for all such purchases made from two thousand five hundred to thirty-five thousand dollars shall be documented for audit purposes; and

(8) Negotiation of a contract by the department of transportation, valid until June 30, 2001, with registered tow truck operators to provide roving service patrols in one or more Washington state patrol tow zones whereby those registered tow truck operators wishing to participate would cooperatively, with the department of transportation, develop a demonstration project upon terms and conditions negotiated by the parties.

Beginning on July 1, 1995, and on July 1 of each succeeding odd-numbered year, the dollar limits specified in this section shall be adjusted as follows: The office of financial management shall calculate such limits by adjusting the previous biennium's limits by the appropriate federal inflationary index reflecting the rate of inflation for the previous biennium. Such amounts shall be rounded to the nearest one hundred dollars.

Sec. 607. RCW 88.16.090 and 1995 c 175 s 1 are each amended to read as follows:

(1) A person may pilot any vessel subject to the provisions of this chapter on waters covered by this chapter only if appointed and licensed to pilot such vessels on said waters under and pursuant to the provisions of this chapter.

(2) A person is eligible to be appointed a pilot if the person is a citizen of the United States, over the age of twenty-five years and under the age of seventy years, a resident of the state of Washington at the time of appointment and only if the pilot applicant holds as a minimum, a United States government license as a master of ocean or near coastal steam or motor vessels of not more than one thousand six hundred gross tons or as a master of inland steam or motor vessels of not more than one thousand six hundred gross tons, such license to have been held by the applicant for a period of at least two years prior to taking the Washington state pilotage examination and a first class United States endorsement without restrictions on that license to pilot in the pilotage districts for which the pilot applicant desires to be licensed, and if the pilot applicant meets such other qualifications as may be required by the board. A person applying for a license under this section shall not have been convicted of an offense involving drugs or the personal consumption of alcohol in the twelve months prior to the date of application. This restriction does not apply to license renewals under this section.

(3) Pilots shall be licensed hereunder for a term of five years from and after the date of the issuance of their respective state licenses. Such licenses shall thereafter be renewed as of course, unless the board shall withhold same for good cause. Each pilot shall pay to the state treasurer an annual license fee as follows: For the period beginning July 1, 1995, through June 30, (1999) 2001, the fee shall be two thousand five hundred dollars; and for the period beginning July 1, (1999) 2001,
the fee shall be three thousand dollars. The fees shall be deposited in the state treasury to the credit of the pilotage account. The board may assess partially active or inactive pilots a reduced fee.

(4) Pilot applicants shall be required to pass a written and oral examination administered and graded by the board which shall test such applicants on this chapter, the rules of the board, local harbor ordinances, and such other matters as may be required to compliment the United States examinations and qualifications. The board shall hold examinations at such times as will, in the judgment of the board, ensure the maintenance of an efficient and competent pilotage service. An examination shall be scheduled for the Puget Sound pilotage district if there are three or fewer successful candidates from the previous examination who are waiting to become pilots in that district.

(5) The board shall develop an examination and grading sheet for each pilotage district, for the testing and grading of pilot applicants. The examinations shall be administered to pilot applicants and shall be updated as required to reflect changes in law, rules, policies, or procedures. The board may appoint a special independent examination committee or may contract with a firm knowledgeable and experienced in the development of professional tests for development of said examinations. Active licensed state pilots may be consulted for the general development of examinations but shall have no knowledge of the specific questions. The pilot members of the board may participate in the grading of examinations. If the board does appoint a special examination development committee it is authorized to pay the members of said committee the same compensation and travel expenses as received by members of the board. When grading examinations the board shall carefully follow the grading sheet prepared for that examination. The board shall develop a "sample examination" which would tend to indicate to an applicant the general types of questions on pilot examinations, but such sample questions shall not appear on any actual examinations. Any person who willfully gives advance knowledge of information contained on a pilot examination is guilty of a gross misdemeanor.

(6) All pilots and applicants are subject to an annual physical examination by a physician chosen by the board. The physician shall examine the applicant’s heart, blood pressure, circulatory system, lungs and respiratory system, eyesight, hearing, and such other items as may be prescribed by the board. After consultation with a physician and the United States coast guard, the board shall establish minimum health standards to ensure that pilots licensed by the state are able to perform their duties. Within ninety days of the date of each annual physical examination, and after review of the physician’s report, the board shall make a determination of whether the pilot or candidate is fully able to carry out the duties of a pilot under this chapter. The board may in its discretion check with the appropriate authority for any convictions of offenses involving drugs or the personal consumption of alcohol in the prior twelve months.

(7) The board shall prescribe, pursuant to chapter 34.05 RCW, a number of familiarization trips, between a minimum number of twenty-five and a maximum of one hundred, which pilot applicants must make in the pilotage district for which they desire to be licensed. Familiarization trips any particular applicant must make are to be based upon the applicant’s vessel handling experience.

(8) The board may require vessel simulator training for a pilot applicant and shall require vessel simulator training for a pilot subject to RCW 88.16.105. The board shall also require vessel simulator training in the first year of active duty for a new pilot and at least once every five years for all active pilots.

(9) The board shall prescribe, pursuant to chapter 34.05 RCW, such reporting requirements and review procedures as may be necessary to assure the accuracy and validity of license and service claims, and records of familiarization trips of pilot candidates. Willful misrepresentation of such required information by a pilot candidate shall result in disqualification of the candidate.

(10) The board shall adopt rules to establish time periods and procedures for additional training trips and retesting as necessary for pilots who at the time of their licensing are unable to become active pilots.

NEW SECTION. Sec. 608. The following bills, as enacted in the form passed by the legislature, are necessary to implement portions of this act: House Bill Nos. 1053, 1147, 1304, 1466, 1588, 2201, 2245, and 2259 and Senate Bill Nos. 5060, 5283, 5360, 5605, 5615, 5955, 6030, and 6068.

Sec. 610. RCW 47.26.4252 and 1999 c 94 s 22 and 1999 c . . . (SHB 1053) s 7 are each reenacted to read as follows:

The remaining forty percent shall first be taken from that portion of the motor vehicle fund that results from the imposition of excise taxes on motor vehicle and special fuels and that is distributed to the cities and towns pursuant to RCW 46.68.090(1)(i) and to the counties

The legislature, public officials, and citizens need to know the extent to which state agencies, programs, and activities that impact the state’s transportation system are achieving the purposes for which they were created.

The legislature recognizes that if it is to adequately fulfill its responsibility to provide for a balanced, efficient state-wide transportation system, it is essential to establish a joint legislative transportation committee that will provide an opportunity for members of the house of representatives
and the senate to examine, develop, and oversee critical transportation policy and fiscal issues and make recommendations on such issues to the house of representatives and senate standing committees on transportation.

**Sec. 616.** RCW 44.40.010 and 1980 c 87 s 39 are each amended to read as follows:

On the effective date of this act, the president of the senate shall appoint an additional senate member as provided by the 1999 amendment of this section. With the appointment of the additional member, the terms of officers elected before the effective date of this act are terminated, and the committee shall hold a new election of officers.

The committee shall adopt rules and procedures for its orderly operation.

**NEW SECTION. Sec. 617.** A new section is added to chapter 44.40 RCW to read as follows:

The members of the legislative transportation committee shall form an executive committee consisting of two members from each of the four major political caucuses, which will include the chair and vice-chair of the legislative transportation committee. There will be four alternates to the executive committee, one from each of the four major political caucuses. Each alternate may represent a member from the same political caucus from which they were chosen when that member is absent, and have voting privileges during that absence.

The executive committee is responsible for performing all general administrative and personnel duties assigned to it in the rules and procedures adopted by the committee, as well as other duties delegated to it by the committee. Except when those responsibilities are assumed by the legislative transportation committee, the executive committee is responsible for adopting interim work plans and meeting schedules and approving all contracts signed on behalf of the committee.

MOTION

Representative Kessler moved that the House insist on its position on Engrossed Substitute House Bill No. 1125 and ask the Senate to recede therefrom.

POINT OF PERSONAL PRIVILEGE

Representative Lisk: "Thank you, Mr. Speaker. I don't think it is any secret among those of you who are on this floor in the House, that one of the most important things to me is how we conduct ourselves in this institution. We all come here with high hopes and a lot of eagerness to do the right thing. We all start out as new members; we all have to go through the learning process of how to conduct ourselves while we are here. It is no small task, as both of our Co-Speakers will admit, to run the business of the House with 96 members on this floor, all with passionate ideas and passionate principles and passionate positions on the issues. Issues will come and go while we are here. It's sometimes surprising how we can come together on the issues and hammer out policy for this State. Oh, it is not always a pretty process. It’s not always a civil process. But there is a process and it is an institution where we must have a set of rules by which we conduct ourselves to make the process work. I’m still fascinated by how well it can work.

I used to sit, when we had a lot more members, over there next to the former Minority Leader from the 46th District. It never ceased to amaze me how a farm girl from a homestead in Zillah could sit next to a Seattle attorney and work together to make the process work. I deeply believe that the reason the process works is because of the respect we have for each other.

When I first came here as a new member there were women in this body whom I instantly recognized as being leaders, not only in their fields but in this institution. I feared them at first, I have to tell you. One time when I was a freshmen Representative Fisher was in the Ladies Lounge next to the window as I was coming through the door. As freshman sometimes do, I guess I must have been fairly vocal on the floor. She made a big impression on me that day with just one very short sentence. She looked at me up and down and she said, "You sure talk a lot." I stopped and I thought about that the rest of the session. I learned from her comments, and I learned from how she conducted herself. I also learned from the lady from the 23rd District. I think a good way to describe the representative from the 23rd District is she is brilliant and high strung.
I believe that between our two co-chairmen, there will never be more knowledge about the transportation system in Washington State here in this body than we have amassed between these two women. They have done a tremendous amount of work through the years. And they have conducted themselves in this 49-49 tie with honor and with integrity. They have certainly given us an example that we can all follow and be proud of. I would like to conclude my remarks, with one of my favorite sayings — "The true test of a leader is that he/she leaves in those behind them the will and the conviction to continue on".

Mr. Speaker, I would like to go on record as recognizing this House and this Institution as not having two more honorable and competent leaders, not only on our Transportation Committee, but in this body than Representative Ruth Fisher and Representative Karen Schmidt.

Thank you.”

POINT OF PERSONAL PRIVILEGE

Representative Kessler: "Thank you, Mr. Speaker. And thank you to the Representative from Zillah Washington for your great remarks tonight.

Tonight the Institution did take a blow but this Institution does work. I think all of us in the House of Representatives have proven that this Institution works. We have taken a 49-49 split, we have taken our different philosophies, our burning desires, our burning issues and we have dealt with them with dignity. We have dealt with them with civility, and we have almost every time tried to cooperate.

Two of our Representatives we chose in our respective caucuses to chair one of the most important committees in this House, the Transportation Committee. We chose Representative Fisher and Representative Schmidt because they are not only the most competent people we could have chosen but because they truly care about the transportation issues of this State. It isn’t a game to them. It isn’t about power. It is about the transportation needs of this State. And these two co-chairs have worked so well together, and given their personalities, you have to admit that is no easy task, but because they respect each other very much for their abilities, and because they are women of integrity, because they have given and given and given to this Institution on behalf of their respected committee, the Transportation Committee. When most of us left the regular Session and had a three week break, Representative Schmidt and Representative Fisher negotiated earnestly and diligently to try to put together a budget that we could all agree on here and obviously they did a fabulous job; it left here unanimously which is not usually the case. They did try very, very hard to deal with a budget that they felt they had some agreement upon across the Rotunda. Now we can have disagreements, that’s what this place is about, but we always, always have to remember to have the kind of integrity and respect for this Institution that both Representative Schmidt and Representative Fisher have shown to all of us as they dealt with the issue of transportation. I am very proud to be a member of this Washington State House of Representatives. I am very proud that all of us have dealt as well as we have with the varying issues that we have had to deal with this session. I think we owe a debt of gratitude to these women. I think that the public out there need to know we don’t need to defend these women; look at their records. They are absolutely dedicated servants of this State and we should be very proud of them, and we are, and we showed that with our unanimous support of the budget they negotiated so well. Thank you to both of you and thank you to everyone on this floor for maintaining the dignity of this Institution. We will continue to do so because we believe in it.

Thank you.”

On motion of Speaker Ballard, the remarks by Representatives Lisk and Kessler were spread upon the Journal.

INFORMATION SYSTEMS PROJECTS. Agencies shall comply with the following requirements regarding information systems projects when specifically directed to do so by this act. (1) Agency planning and decisions concerning information technology shall be made in the context of its information technology portfolio. "Information technology portfolio" means a strategic management approach in which the relationships between agency missions and information technology investments can be seen and understood, such that: Technology efforts are linked to agency objectives and business plans; the impact of new investments on existing infrastructure and business functions are assessed and understood before implementation; and agency activities are consistent with the development of an integrated, nonduplicative state-wide infrastructure.

(2) Agencies shall use their information technology portfolios in making decisions on matters related to the following:

(a) System refurbishment, acquisitions, and development efforts;
(b) Setting goals and objectives for using information technology in meeting legislatively-mandated missions and business needs;
(c) Assessment of overall information processing performance, resources, and capabilities;
(d) Ensuring appropriate transfer of technological expertise for the operation of any new systems developed using external resources; and
(e) Progress toward enabling electronic access to public information.

(3) The agency shall produce a feasibility study for information technology projects at the direction of the information services board and in accordance with published department of information services policies and guidelines. At a minimum, such studies shall include a statement of: (a) The purpose or impetus for change; (b) the business value to the agency, including an examination and evaluation of benefits, advantages, and cost; (c) a comprehensive risk assessment based on the proposed project’s impact on both citizens and state operations, its visibility, and the consequences of doing nothing; (d) the impact on agency and state-wide information infrastructure; and (e) the impact of the proposed enhancements to an agency’s information technology capabilities on meeting service delivery demands.

(4) The agency shall produce a comprehensive management plan for each project. The plan or plans shall address all factors critical to successful completion of each project. The plan(s) shall include, but is not limited to, the following elements: A description of the problem or opportunity that the information technology project is intended to address; a statement of project objectives and assumptions; a definition and schedule of phases, tasks, and activities to be accomplished; and the estimated cost of each phase. The planning for the phased approach shall be such that the business case justification for a project needs to demonstrate how the project recovers cost or adds measurable value or positive cost benefit to the agency’s business functions within each development cycle.
(5) The agency shall produce quality assurance plans for information technology projects. Consistent with the direction of the information services board and the published policies and guidelines of the department of information services, the quality assurance plan shall address all factors critical to successful completion of the project and successful integration with the agency and state information technology infrastructure. At a minimum, quality assurance plans shall provide time and budget benchmarks against which project progress can be measured, a specification of quality assurance responsibilities, and a statement of reporting requirements. The quality assurance plans shall set out the functionality requirements for each phase of a project.

(6) A copy of each feasibility study, project management plan, and quality assurance plan shall be provided to the department of information services, the office of financial management, and legislative fiscal committees. The plans and studies shall demonstrate a sound business case that justifies the investment of taxpayer funds on any new project, an assessment of the impact of the proposed system on the existing information technology infrastructure, the disciplined use of preventative measures to mitigate risk, and the leveraging of private-sector expertise as needed. Authority to expend any funds for individual information systems projects is conditioned on the approval of the relevant feasibility study, project management plan, and quality assurance plan by the department of information services and the office of financial management.

(7) Quality assurance status reports shall be submitted to the department of information services, the office of financial management, and legislative fiscal committees at intervals specified in the project’s quality assurance plan.

NEW SECTION. Sec. 605. (1) Forty percent of the funds available for surface transportation flexible funds available under Sections 105(c)(2) and 133(d)(3)(A)(ii) of Title 23, United States Code are made available for the Washington state department of transportation.

(2) Twenty-two percent of the funds available for surface transportation flexible funds available under Sections 105(c)(2) and 133(d)(3)(A)(ii) of Title 23, United States Code are made available for rural economic development projects in rural counties with population densities of less than one hundred persons per square mile pro rata based on population and community empowerment zones as defined in RCW 43.63A.700. These funds shall be used for the transportation component of identified, emerging, nonspeculative economic development projects that create new employment or revitalize existing business. As required under federal law, these funds shall be administered by the Washington state department of transportation. The community economic revitalization board within the department of community, trade, and economic development shall work with local project proponents and the Washington state department of transportation to identify economic development projects with essential transportation components. The board shall make recommendations regarding funding for a project’s transportation component to the Washington state transportation commission. Beginning in the fiscal year 2000, any economic development funds that are not obligated from the prior federal fiscal year by June first of each year shall be available for economic development projects state-wide in accordance with the same administration and selection process established in this subsection for rural economic development projects.

(3) Thirty-eight percent of the funds available for surface transportation flexible funds available under Sections 105(c)(2) and 133(d)(3)(A)(ii) of Title 23, United States Code are made available for the state-wide competitive program for regionally significant projects. The transportation improvement board shall be responsible for selecting projects under this program. For federal fiscal years 2000 and 2001, to be eligible, projects shall: (a) Meet the criteria established by the transportation improvement board for selecting regionally significant projects; (b) be included in a metropolitan planning organization’s transportation improvement plan; (c) meet the goal of targeting funds for coordinated projects within corridors that are regionally significant; and (d) support the functioning of corridors for their full length rather than in individual spot improvements.

Sec. 606. RCW 43.19.1906 and 1995 c 269 s 1404 are each amended to read as follows:

Insofar as practicable, all purchases and sales shall be based on competitive bids, and a formal sealed bid procedure shall be used as standard procedure for all purchases and contracts for purchases and sales executed by the state purchasing and material control director and under the powers granted by RCW 43.19.190 through 43.19.1939. This requirement also applies to purchases and contracts for purchases and sales executed by agencies, including educational institutions, under delegated authority granted in accordance with provisions of RCW 43.19.190 or under RCW 28B.10.029. However, formal sealed bidding is not necessary for:

(1) Emergency purchases made pursuant to RCW 43.19.200 if the sealed bidding procedure would prevent or hinder the emergency from being met appropriately;

(2) Purchases not exceeding thirty-five thousand dollars, or subsequent limits as calculated by the office of financial management: PROVIDED, That the state director of general administration shall establish procedures to assure that purchases made by or on behalf of the various state agencies shall not be made so as to avoid the thirty-five thousand dollar bid limitation, or subsequent bid limitations as calculated by the office of financial management: PROVIDED FURTHER, That the state purchasing and material control director is authorized to reduce the formal sealed bid limits of thirty-five thousand dollars, or subsequent limits as calculated by the office of financial management, to a lower dollar amount for purchases by individual state agencies if considered necessary to maintain full disclosure of competitive procurement or otherwise to achieve overall state efficiency and economy in
purchasing and material control. Quotations from four hundred dollars to thirty-five thousand dollars, or subsequent limits as calculated by the office of financial management, shall be secured from at least three vendors to assure establishment of a competitive price and may be obtained by telephone or written quotations, or both. The agency shall invite at least one quotation each from a certified minority and a certified women-owned vendor who shall otherwise qualify to perform such work. Immediately after the award is made, the bid quotations obtained shall be recorded and open to public inspection and shall be available by telephone inquiry. A record of competition for all such purchases from four hundred dollars to thirty-five thousand dollars, or subsequent limits as calculated by the office of financial management, shall be documented for audit purposes. Purchases up to four hundred dollars may be made without competitive bids based on buyer experience and knowledge of the market in achieving maximum quality at minimum cost: PROVIDED, That this four hundred dollar direct buy limit without competitive bids may be increased incrementally as required to a maximum of eight hundred dollars, if warranted by increases in purchasing costs due to inflationary trends;

(3) Purchases which are clearly and legitimately limited to a single source of supply and purchases involving special facilities, services, or market conditions, in which instances the purchase price may be best established by direct negotiation;

(4) Purchases of insurance and bonds by the risk management office under RCW 43.19.1935;

(5) Purchases and contracts for vocational rehabilitation clients of the department of social and health services: PROVIDED, That this exemption is effective only when the state purchasing and material control director, after consultation with the director of the division of vocational rehabilitation and appropriate department of social and health services procurement personnel, declares that such purchases may be best executed through direct negotiation with one or more suppliers in order to expeditiously meet the special needs of the state's vocational rehabilitation clients;

(6) Purchases by universities for hospital operation or biomedical teaching or research purposes and by the state purchasing and material control director, as the agent for state hospitals as defined in RCW 72.23.010, and for health care programs provided in state correctional institutions as defined in RCW 72.65.010(3) and veterans' institutions as defined in RCW 72.36.010 and 72.36.070, made by participating in contracts for materials, supplies, and equipment entered into by nonprofit cooperative hospital group purchasing organizations;

(7) Purchases by institutions of higher education not exceeding thirty-five thousand dollars: PROVIDED, That for purchases between two thousand five hundred dollars and thirty-five thousand dollars quotations shall be secured from at least three vendors to assure establishment of a competitive price and may be obtained by telephone or written quotations, or both. For purchases between two thousand five hundred dollars and thirty-five thousand dollars, each institution of higher education shall invite at least one quotation each from a certified minority and a certified women-owned vendor who shall otherwise qualify to perform such work. A record of competition for all such purchases made from two thousand five hundred to thirty-five thousand dollars shall be documented for audit purposes; and

(8) Negotiation of a contract by the department of transportation, valid until June 30, 2001, with registered tow truck operators to provide roving service patrols in one or more Washington state patrol tow zones whereby those registered tow truck operators wishing to participate would cooperatively, with the department of transportation, develop a demonstration project upon terms and conditions negotiated by the parties.

Beginning on July 1, 1995, and on July 1 of each succeeding odd-numbered year, the dollar limits specified in this section shall be adjusted as follows: The office of financial management shall calculate such limits by adjusting the previous biennium's limits by the appropriate federal inflationary index reflecting the rate of inflation for the previous biennium. Such amounts shall be rounded to the nearest one hundred dollars.

Sec. 607. RCW 88.16.090 and 1995 c 175 s 1 are each amended to read as follows:

(1) A person may pilot any vessel subject to the provisions of this chapter on waters covered by this chapter only if appointed and licensed to pilot such vessels on said waters under and pursuant to the provisions of this chapter.
(2) A person is eligible to be appointed a pilot if the person is a citizen of the United States, over the age of twenty-five years and under the age of seventy years, a resident of the state of Washington at the time of appointment and only if the pilot applicant holds as a minimum, a United States government license as a master of ocean or near coastal steam or motor vessels of not more than one thousand six hundred gross tons or as a master of inland steam or motor vessels of not more than one thousand six hundred gross tons, such license to have been held by the applicant for a period of at least two years prior to taking the Washington state pilotage examination and a first class United States endorsement without restrictions on that license to pilot in the pilotage districts for which the pilot applicant desires to be licensed, and if the pilot applicant meets such other qualifications as may be required by the board. A person applying for a license under this section shall not have been convicted of an offense involving drugs or the personal consumption of alcohol in the twelve months prior to the date of application. This restriction does not apply to license renewals under this section.

(3) Pilots shall be licensed hereunder for a term of five years from and after the date of the issuance of their respective state licenses. Such licenses shall thereafter be renewed as of course, unless the board shall withhold same for good cause. Each pilot shall pay to the state treasurer an annual license fee as follows: For the period beginning July 1, 1995, through June 30, 1999, the fee shall be two thousand five hundred dollars; and for the period beginning July 1, 2000, the fee shall be three thousand dollars. The fees shall be deposited in the state treasury to the credit of the pilotage account. The board may assess partially active or inactive pilots a reduced fee.

(4) Pilot applicants shall be required to pass a written and oral examination administered and graded by the board which shall test such applicants on this chapter, the rules of the board, local harbor ordinances, and such other matters as may be required to compliment the United States examinations and qualifications. The board shall hold examinations at such times as will, in the judgment of the board, ensure the maintenance of an efficient and competent pilotage service. An examination shall be scheduled for the Puget Sound pilotage district if there are three or fewer successful candidates from the previous examination who are waiting to become pilots in that district.

(5) The board shall develop an examination and grading sheet for each pilotage district, for the testing and grading of pilot applicants. The examinations shall be administered to pilot applicants and shall be updated as required to reflect changes in law, rules, policies, or procedures. The board may appoint a special independent examination committee or may contract with a firm knowledgeable and experienced in the development of professional tests for development of said examinations. Active licensed state pilots may be consulted for the general development of examinations but shall have no knowledge of the specific questions. The pilot members of the board may participate in the grading of examinations. If the board does appoint a special examination development committee it is authorized to pay the members of said committee the same compensation and travel expenses as received by members of the board. When grading examinations the board shall carefully follow the grading sheet prepared for that examination. The board shall develop a "sample examination" which would tend to indicate to an applicant the general types of questions on pilot examinations, but such sample questions shall not appear on any actual examinations. Any person who willfully gives advance knowledge of information contained on a pilot examination is guilty of a gross misdemeanor.

(6) All pilots and applicants are subject to an annual physical examination by a physician chosen by the board. The physician shall examine the applicant's heart, blood pressure, circulatory system, lungs and respiratory system, eyesight, hearing, and such other items as may be prescribed by the board. After consultation with a physician and the United States coast guard, the board shall establish minimum health standards to ensure that pilots licensed by the state are able to perform their duties. Within ninety days of the date of each annual physical examination, and after review of the physician's report, the board shall make a determination of whether the pilot or candidate is fully able to carry out the duties of a pilot under this chapter. The board may in its discretion check with the appropriate authority for any convictions of offenses involving drugs or the personal consumption of alcohol in the prior twelve months.

(7) The board shall prescribe, pursuant to chapter 34.05 RCW, a number of familiarization trips, between a minimum number of twenty-five and a maximum of one hundred, which pilot applicants must make in the pilotage district for which they desire to be licensed. Familiarization trips any particular applicant must make are to be based upon the applicant's vessel handling experience.
The board may require vessel simulator training for a pilot applicant and shall require vessel simulator training for a pilot subject to RCW 88.16.105. The board shall also require vessel simulator training in the first year of active duty for a new pilot and at least once every five years for all active pilots.

The board shall prescribe, pursuant to chapter 34.05 RCW, such reporting requirements and review procedures as may be necessary to assure the accuracy and validity of license and service claims, and records of familiarization trips of pilot candidates. Willful misrepresentation of such required information by a pilot candidate shall result in disqualification of the candidate.

The board shall adopt rules to establish time periods and procedures for additional training trips and retesting as necessary for pilots who at the time of their licensing are unable to become active pilots.

NEW SECTION. Sec. 608. The following bills, as enacted in the form passed by the legislature, are necessary to implement portions of this act: House Bill Nos. 1053, 1147, 1304, 1466, 1588, 2201, 2245, and 2259 and Senate Bill Nos. 5060, 5283, 5360, 5605, 5615, 5955, 6030, and 6068.

Sec. 609. RCW 47.26.425 and 1999 c 94 s 21 and 1999 c . . . (SHB 1053) s 6 are each reenacted to read as follows:

Any funds required to repay the first authorization of two hundred million dollars of bonds authorized by RCW 47.26.420, as amended by section 18, chapter 317, Laws of 1977 ex. sess. or the interest thereon when due, shall be taken from that portion of the motor vehicle fund which results from the imposition of excise taxes on motor vehicle and special fuels and which is distributed to the urban arterial trust account in the motor vehicle fund pursuant to RCW 46.68.090(1)(g), and shall never constitute a charge against any allocations of any other such funds in the motor vehicle fund to the state, counties, cities, and towns unless and until the amount of the motor vehicle fund arising from the excise tax on motor vehicle and special fuels and distributed to the urban arterial trust account proves insufficient to meet the requirements for bond retirement or interest on any such bonds.

Sec. 610. RCW 47.26.4252 and 1999 c 94 s 22 and 1999 c . . . (SHB 1053) s 7 are each reenacted to read as follows:

Any funds required to repay the authorization of series II bonds authorized by RCW 47.26.420, as reenacted by section 3, chapter 5, Laws of 1979, or the interest thereon when due, shall first be taken from that portion of the motor vehicle fund which results from the imposition of excise taxes on motor vehicle and special fuels imposed by chapters 82.36 and 82.38 RCW and which is distributed to the urban arterial trust account in the motor vehicle fund pursuant to RCW 46.68.090(1)(g), subject, however, to the prior lien of the first authorization of bonds authorized by RCW 47.26.420, as reenacted by section 3, chapter 5, Laws of 1979. If the moneys distributed to the urban arterial trust account shall ever be insufficient to repay the first authorization bonds together with interest thereon, and the series II bonds or the interest thereon when due, the amount required to make such payments on such bonds or interest thereon shall next be taken from that portion of the motor vehicle fund which results from the imposition of excise taxes on motor vehicle and special fuels and which is distributed to the state, counties, cities, and towns pursuant to RCW 46.68.090. Any payments on such bonds or interest thereon taken from motor vehicle or special fuel tax revenues which are distributable to the state, counties, cities, and towns, shall be repaid from the first moneys distributed to the urban arterial trust account not required for redemption of the first authorization bonds or series II and series III bonds or interest on those bond issues.

Sec. 611. RCW 47.26.4254 and 1999 c 94 s 23 and 1999 c . . . (SHB 1053) s 8 are each reenacted and amended to read as follows:

(1) Any funds required to repay series III bonds authorized by RCW 47.26.420, or the interest thereon, when due shall first be taken from that portion of the motor vehicle fund that results from the imposition of excise taxes on motor vehicle and special fuels imposed by chapters 82.36 and 82.38 RCW and that is distributed to the urban arterial trust account in the motor vehicle fund pursuant to
RCW 46.68.090(1)(g), subject, however, to the prior lien of the first authorization of bonds authorized by RCW 47.26.420. If the moneys so distributed to the urban arterial trust account, after first being applied to administrative expenses of the transportation improvement board and to the requirements of bond retirement and payment of interest on first authorization bonds and series II bonds as provided in RCW 47.26.425 and 47.26.4252, are insufficient to meet the requirements for bond retirement or interest on any series III bonds, the amount required to make such payments on series III bonds or interest thereon shall next be taken from that portion of the motor vehicle fund that results from the imposition of excise taxes on motor vehicle and special fuels and that is distributed to the state, counties, cities, and towns pursuant to RCW 46.68.090, subject, however, to subsection (2) of this section.

(2) To the extent that moneys so distributed to the urban arterial trust account are insufficient to meet the requirements for bond retirement or interest on any series III bonds, sixty percent of the amount required to make such payments when due shall first be taken from that portion of the motor vehicle fund that results from the imposition of excise taxes on motor vehicle and special fuels and that is distributed to the state. The remaining forty percent shall first be taken from that portion of the motor vehicle fund that results from the imposition of excise taxes on motor vehicle and special fuels and that is distributed to the cities and towns pursuant to RCW 46.68.090(1)(i) and to the counties pursuant to RCW 46.68.090(1)(j). Of the counties’, cities’, and towns’ share of any additional amounts required in each fiscal year, the percentage thereof to be taken from the counties’ distributive share and from the cities’ and towns’ distributive share shall correspond to the percentage of funds authorized for specific county projects and for specific city and town projects, respectively, from the proceeds of series III bonds, for the period through the first eleven months of the prior fiscal year as determined by the chairman of the transportation improvement board and reported to the state finance committee and the state treasurer not later than the first working day of June.

(3) Any payments on such bonds or interest thereon taken from motor vehicle or special fuel tax revenues that are distributable to the state, counties, cities, and towns shall be repaid from the first moneys distributed to the urban arterial trust account not required for redemption of the first authorization bonds, series II bonds, or series III bonds or interest on these bonds.

Sec. 612. RCW 47.26.505 and 1999 c 94 s 24 and 1999 c . . . (SHB 1053) s 9 are each reenacted and amended to read as follows:

Any funds required to repay such bonds, or the interest thereon when due, shall be taken from that portion of the motor vehicle fund that results from the imposition of excise taxes on motor vehicle and special fuels and which is distributed to the transportation improvement account in the motor vehicle fund under RCW 46.68.090(1)(h), and shall never constitute a charge against any allocations of any other such funds in the motor vehicle fund to the state, counties, cities, and towns unless and until the amount of the motor vehicle fund arising from the excise tax on motor vehicle and special fuels and distributed to the transportation improvement account proves insufficient to meet the requirements for bond retirement or interest on any such bonds.

Sec. 613. RCW 43.43.300 and 1965 c 8 s 43.43.300 are each amended to read as follows:

Beginning on July 1, 1963, every Washington state patrol employee who is a member of the retirement fund shall contribute seven percent of his or her monthly salary. For the biennium beginning July 1, 1999, and ending June 30, 2001, the employee contribution rate for every member of a retirement system created under this chapter and: (1) Covering employees whose activities constitute a highway purpose under the eighteenth amendment (Article II, section 40) of the state Constitution; where (2) the majority of both the employer and employee contributions are funded from moneys appropriated from the state patrol highway account of the motor vehicle fund; shall be set so that the contribution rates required to fund the costs of the retirement system shall be equal for members and employers; except that in no event shall the member contribution rate exceed seven percent. If the pension funding council determines that contribution rates must exceed seven percent in order to fund the costs of the retirement system, any cost over seven percent shall be borne by the employer. The member contribution rate determined under this section shall be deducted from the compensation of each member on each and every payroll.
In the event a member severs his or her connection with the Washington state patrol or is dismissed, the amount paid by the state of Washington shall remain in the retirement fund.

NEW SECTION. Sec. 614. The joint committee on pension policy shall study the method for setting employer and employee contribution rates for the Washington state patrol retirement system. The study shall include options for implementing a method or methods that allow both the employer and members to share the benefits from investment gains that exceed the long-term investment return assumptions adopted by the pension funding council.

NEW SECTION. Sec. 615. The legislature finds and declares that it is essential for the economic, social, and environmental well-being of the state and the maintenance of a high quality of life that the people of the state have an efficient and effective transportation system. The legislature, public officials, and citizens need to know the extent to which state agencies, programs, and activities that impact the state’s transportation system are achieving the purposes for which they were created.

The legislature recognizes that if it is to adequately fulfill its responsibility to provide for a balanced, efficient state-wide transportation system, it is essential to establish a joint legislative transportation committee that will provide an opportunity for members of the house of representatives and the senate to examine, develop, and oversee critical transportation policy and fiscal issues and make recommendations on such issues to the house of representatives and senate standing committees on transportation.

Sec. 616. RCW 44.40.010 and 1980 c 87 s 39 are each amended to read as follows:

The joint fact-finding committee on highways, streets, and bridges originally created by chapter 111, Laws of 1947, recreated and renamed the joint committee on highways by chapter 3, Laws of 1963 extraordinary session, is hereby recreated and renamed the legislative transportation committee. The renaming of said committee shall not affect any powers invested in it or its duties imposed upon it by any other statute. All appropriations made to the committee under its former name shall continue to be available to said committee as renamed, the legislative transportation committee. The committee shall consist of ((eleven)) twelve senators to be appointed by the president of the senate and twelve members of the house of representatives to be appointed by the speaker thereof. Not more than six members from each house may be from the same political party. A list of appointees shall be submitted before the close of each regular legislative session during an odd-numbered year or any successive special session convened by the governor or the legislature prior to the close of such regular session or successive special session(s) for confirmation of senate members, by the senate, and house members, by the house. Vacancies occurring shall be filled by the appointing authority. All vacancies must be filled from the same political party and from the same house as the member whose seat was vacated.

The chair will be elected biennially by the membership of the committee. After January 1, 2001, each succeeding chair must be from the opposite house of the current chair, and be from the majority party. The vice-chair must be from the opposite house.

On the effective date of this act, the president of the senate shall appoint an additional senate member as provided by the 1999 amendment of this section. With the appointment of the additional member, the terms of officers elected before the effective date of this act are terminated, and the committee shall hold a new election of officers.

The committee shall adopt rules and procedures for its orderly operation.

NEW SECTION. Sec. 617. A new section is added to chapter 44.40 RCW to read as follows:

The members of the legislative transportation committee shall form an executive committee consisting of two members from each of the four major political caucuses, which will include the chair and vice-chair of the legislative transportation committee. There will be four alternates to the executive committee, one from each of the four major political caucuses. Each alternate may represent a member from the same political caucus from which they were chosen when that member is absent, and have voting privileges during that absence.
The executive committee is responsible for performing all general administrative and personnel duties assigned to it in the rules and procedures adopted by the committee, as well as other duties delegated to it by the committee. Except when those responsibilities are assumed by the legislative transportation committee, the executive committee is responsible for adopting interim work plans and meeting schedules and approving all contracts signed on behalf of the committee.

SIGNED BY THE SPEAKERS

The Speakers have signed:
Mr. Speaker:

The Senate has passed ENGROSSED SUBSTITUTE HOUSE BILL NO. 1004 with the following amendment(s):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. It is the intent of this act to revise the law on registration of sex and kidnapping offenders in response to the case of State v. Pickett, Docket number 41562-0-I. The legislature intends that all sex and kidnapping offenders whose history requires them to register shall do so regardless of whether the person has a fixed residence. The lack of a residential address is not to be construed to preclude registration as a sex or kidnapping offender. The legislature intends that persons who lack a residential address shall have an affirmative duty to report to the appropriate county sheriff, based on the level of risk of offending.

Sec. 2. RCW 9A.44.130 and 1998 c 220 s 1 and 1998 c 139 s 1 are each reenacted and amended to read as follows:

(1) Any adult or juvenile residing whether or not the person has a fixed residence, or who is a student, is employed, or carries on a vocation in this state who has been found to have committed or has been convicted of any sex offense or kidnapping offense, or who has been found not guilty by reason of insanity under chapter 10.77 RCW of committing any sex offense or kidnapping offense, shall register with the county sheriff for the county of the person's residence, or if the person is not a resident of Washington, the county of the person's school, or place of employment or vocation, or as otherwise specified in this section. Where a person required to register under this section is in custody of the state department of corrections, the state department of social and health services, a local division of youth services, or a local jail or juvenile detention facility as a result of a sex offense or kidnapping offense, the person shall also register at the time of release from custody with an official designated by the agency that has jurisdiction over the person. In addition, any such adult or juvenile who is admitted to a public or private institution of higher education shall, within ten days of enrolling or by the first business day after arriving at the institution, whichever is earlier, notify the sheriff for the county of the person's residence of the person's intent to attend the institution. Persons required to register under this section who are enrolled in a public or private institution of higher education on June 11, 1998, must notify the county sheriff immediately. The sheriff shall notify the institution's department of public safety and shall provide that department with the same information provided to a county sheriff under subsection (3) of this section.

(2) This section may not be construed to confer any powers pursuant to RCW 4.24.500 upon the public safety department of any public or private institution of higher education.

(3)(a) The person shall provide the following information when registering: (i) Name; (ii) address; (iii) date and place of birth; (iv) place of employment; (v) crime for which convicted; (vi) date and place of conviction; (vii) aliases used; (viii) social security number; (ix) photograph; and (x) fingerprints.

(b) Any person who lacks a fixed residence shall provide the following information when registering: (i) Name; (ii) date and place of birth; (iii) place of employment; (iv) crime for which convicted; (v) date and place of conviction; (vi) aliases used; (vii) social security number; (viii) photograph; (ix) fingerprints; and (x) where he or she plans to stay.
(4)(a) Offenders shall register with the county sheriff within the following deadlines. For purposes of this section the term "conviction" refers to adult convictions and juvenile adjudications for sex offenses or kidnapping offenses:

(i) OFFENDERS IN CUSTODY. (A) Sex offenders who committed a sex offense on, before, or after February 28, 1990, and who, on or after July 28, 1991, are in custody, as a result of that offense, of the state department of corrections, the state department of social and health services, a local division of youth services, or a local jail or juvenile detention facility, and (B) kidnapping offenders who on or after July 27, 1997, are in custody of the state department of corrections, the state department of social and health services, a local division of youth services, or a local jail or juvenile detention facility, must register at the time of release from custody with an official designated by the agency that has jurisdiction over the offender. The agency shall within three days forward the registration information to the county sheriff for the county of the offender’s anticipated residence. The offender must also register within twenty-four hours from the time of release with the county sheriff for the county of the person’s residence, or if the person is not a resident of Washington, the county of the person’s school, or place of employment or vocation. The agency that has jurisdiction over the offender shall provide notice to the offender of the duty to register. Failure to register at the time of release and within twenty-four hours of release constitutes a violation of this section and is punishable as provided in subsection (((9))) (10) of this section.

When the agency with jurisdiction intends to release an offender with a duty to register under this section, and the agency has knowledge that the offender is eligible for developmental disability services from the department of social and health services, the agency shall notify the division of developmental disabilities of the release. Notice shall occur not more than thirty days before the offender is to be released. The agency and the division shall assist the offender in meeting the initial registration requirement under this section. Failure to provide such assistance shall not constitute a defense for any violation of this section.

(ii) OFFENDERS NOT IN CUSTODY BUT UNDER STATE OR LOCAL JURISDICTION. Sex offenders who, on July 28, 1991, are not in custody but are under the jurisdiction of the indeterminate sentence review board or under the department of correction’s active supervision, as defined by the department of corrections, the state department of social and health services, or a local division of youth services, for sex offenses committed before, on, or after February 28, 1990, must register within ten days of July 28, 1991. Kidnapping offenders who, on July 27, 1997, are not in custody but are under the jurisdiction of the indeterminate sentence review board or under the department of correction’s active supervision, as defined by the department of corrections, the state department of social and health services, or a local division of youth services, for kidnapping offenses committed before, on, or after July 27, 1997, must register within ten days of July 27, 1997. A change in supervision status of a sex offender who was required to register under this subsection (4)(a)(ii) as of July 28, 1991, or a kidnapping offender required to register as of July 27, 1997, shall not relieve the offender of the duty to register or to reregister following a change in residence. The obligation to register shall only cease pursuant to RCW 9A.44.140.

(iii) OFFENDERS UNDER FEDERAL JURISDICTION. Sex offenders who, on or after July 23, 1995, and kidnapping offenders who, on or after July 27, 1997, as a result of that offense are in the custody of the United States bureau of prisons or other federal or military correctional agency for sex offenses committed before, on, or after February 28, 1990, or kidnapping offenses committed on, before, or after July 27, 1997, must register within twenty-four hours from the time of release with the county sheriff for the county of the person’s residence, or if the person is not a resident of Washington, the county of the person’s school, or place of employment or vocation. Sex offenders who, on July 23, 1995, are not in custody but are under the jurisdiction of the United States bureau of prisons, United States courts, United States parole commission, or military parole board for sex offenses committed before, on, or after February 28, 1990, must register within ten days of July 23, 1995. Kidnapping offenders who, on July 27, 1997, are not in custody but are under the jurisdiction of the United States bureau of prisons, United States courts, United States parole commission, or military parole board for kidnapping offenses committed before, on, or after July 27, 1997, must register within ten days of July 27, 1997. A change in supervision status of a sex offender who was required to register under this subsection (4)(a)(iii) as of July 23, 1995, or a kidnapping offender required to register as of July 27,
1997 shall not relieve the offender of the duty to register or to reregister following a change in
residence, or if the person is not a resident of Washington, the county of the person’s school, or place
of employment or vocation. The obligation to register shall only cease pursuant to RCW 9A.44.140.

(iv) OFFENDERS WHO ARE CONVICTED BUT NOT CONFINED. Sex offenders who are
convicted of a sex offense on or after July 28, 1991, for a sex offense that was committed on or after
February 28, 1990, and kidnapping offenders who are convicted on or after July 27, 1997, for a
kidnapping offense that was committed on or after July 27, 1997, but who are not sentenced to serve a
term of confinement immediately upon sentencing, shall report to the county sheriff to register
immediately upon completion of being sentenced.

(v) OFFENDERS WHO ARE NEW RESIDENTS OR RETURNING WASHINGTON
RESIDENTS. Sex offenders and kidnapping offenders who move to Washington state from another
state or a foreign country that are not under the jurisdiction of the state department of corrections, the
indeterminate sentence review board, or the state department of social and health services at the time of
moving to Washington, must register within thirty days of establishing residence or reestablishing
residence if the person is a former Washington resident. The duty to register under this subsection
applies to sex offenders convicted under the laws of another state or a foreign country, federal or
military statutes, or Washington state for offenses committed on or after February 28, 1990, and to
kidnapping offenders convicted under the laws of another state or a foreign country, federal or military
statutes, or Washington state for offenses committed on or after July 27, 1997. Sex offenders and
kidnapping offenders from other states or a foreign country who, when they move to Washington, are
under the jurisdiction of the department of corrections, the indeterminate sentence review board, or the
department of social and health services must register within twenty-four hours of moving to
Washington. The agency that has jurisdiction over the offender shall notify the offender of the
registration requirements before the offender moves to Washington.

(vi) OFFENDERS FOUND NOT GUILTY BY REASON OF INSANITY. Any adult or
juvenile who has been found not guilty by reason of insanity under chapter 10.77 RCW of (A)
committing a sex offense on, before, or after February 28, 1990, and who, on or after July 23, 1995,
is in custody, as a result of that finding, of the state department of social and health services, or (B)
committing a kidnapping offense on, before, or after July 27, 1997, and who on or after July 27, 1997,
is in custody, as a result of that finding, of the state department of social and health services, must
register within twenty-four hours from the time of release with the county sheriff for the county of the
person’s residence. The state department of social and health services shall provide notice to the adult
or juvenile in its custody of the duty to register. Any adult or juvenile who has been found not guilty
by reason of insanity of committing a sex offense on, before, or after February 28, 1990, but who was
released before July 23, 1995, or any adult or juvenile who has been found not guilty by reason of
insanity of committing a kidnapping offense but who was released before July 27, 1997, shall be
required to register within twenty-four hours of receiving notice of this registration requirement. The
state department of social and health services shall make reasonable attempts within available resources
to notify sex offenders who were released before July 23, 1995, and kidnapping offenders who were
released before July 27, 1997. Failure to register within twenty-four hours of release, or of receiving
notice, constitutes a violation of this section and is punishable as provided in subsection (((9))) (10) of
this section.

(vii) OFFENDERS WHO LACK A FIXED RESIDENCE. Any person who lacks a fixed
residence and leaves the county in which he or she is registered and enters and remains within a new
county for twenty-four hours is required to register with the county sheriff not more than twenty-four
hours after entering the county and provide the information required in subsection (3)(b) of this section.

(viii) OFFENDERS WHO LACK A FIXED RESIDENCE AND WHO ARE UNDER
SUPERVISION. Offenders who lack a fixed residence and who are under the supervision of the
department shall register in the county of their supervision.

(b) Failure to register within the time required under this section constitutes a per se violation
of this section and is punishable as provided in subsection (((9))) (10) of this section. The county
sheriff shall not be required to determine whether the person is living within the county.

(c) An arrest on charges of failure to register, service of an information, or a complaint for a
violation of this section, or arraignment on charges for a violation of this section, constitutes actual
notice of the duty to register. Any person charged with the crime of failure to register under this section who asserts as a defense the lack of notice of the duty to register shall register immediately following actual notice of the duty through arrest, service, or arraignment. Failure to register as required under this subsection (4)(c) constitutes grounds for filing another charge of failing to register. Registering following arrest, service, or arraignment on charges shall not relieve the offender from criminal liability for failure to register prior to the filing of the original charge.

(d) The deadlines for the duty to register under this section do not relieve any sex offender of the duty to register under this section as it existed prior to July 28, 1991.

(5)(a) If any person required to register pursuant to this section changes his or her residence address within the same county, the person must send written notice of the change of address to the county sheriff within seventy-two hours of moving. If any person required to register pursuant to this section moves to a new county, the person must send written notice of the change of address at least fourteen days before moving to the county sheriff in the new county of residence and must register with that county sheriff within twenty-four hours of moving. The person must also send written notice within ten days of the change of address in the new county to the county sheriff with whom the person last registered. The county sheriff with whom the person last registered shall promptly forward the information concerning the change of address to the county sheriff for the county of the person’s new residence. If any person required to register pursuant to this section moves out of Washington state, the person must also send written notice within ten days of moving to the new state or a foreign country to the county sheriff with whom the person last registered in Washington state. Upon receipt of notice of change of address to a new state, the county sheriff shall promptly forward the information regarding the change of address to the agency designated by the new state as the state’s offender registration agency.

(b) It is an affirmative defense to a charge that the person failed to send a notice at least fourteen days in advance of moving as required under (a) of this subsection that the person did not know the location of his or her new residence at least fourteen days before moving. The defendant must establish the defense by a preponderance of the evidence and, to prevail on the defense, must also prove by a preponderance that the defendant sent the required notice within twenty-four hours of determining the new address.

(6)(a) Any person required to register under this section who lacks a fixed residence shall provide written notice to the sheriff of the county where he or she last registered within fourteen days after ceasing to have a fixed residence. The notice shall include the information required by subsection (3)(b) of this section, except the photograph and fingerprints. The county sheriff may, for reasonable cause, require the offender to provide a photograph and fingerprints. The sheriff shall forward this information to the sheriff of the county in which the person intends to reside, if the person intends to reside in another county.

(b) A person who lacks a fixed residence must report in person to the sheriff of the county where he or she is registered. If he or she has been classified as a risk level I sex or kidnapping offender, he or she must report monthly. If he or she has been classified as a risk level II or III sex or kidnapping offender, he or she must report weekly. The lack of a fixed residence is a factor that may be considered in determining a sex offender’s risk level.

(c) If any person required to register pursuant to this section does not have a fixed residence, it is an affirmative defense to the charge of failure to register, that he or she provided written notice to the sheriff of the county where he or she last registered within fourteen days after ceasing to have a fixed residence and has subsequently complied with the requirements of subsections (4)(a)(vii) or (viii) and (6) of this section. To prevail, the person must prove the defense by a preponderance of the evidence.

(7) A sex offender subject to registration requirements under this section who applies to change his or her name under RCW 4.24.130 or any other law shall submit a copy of the application to the county sheriff of the county of the person’s residence and to the state patrol not fewer than five days before the entry of an order granting the name change. No sex offender under the requirement to register under this section at the time of application shall be granted an order changing his or her name if the court finds that doing so will interfere with legitimate law enforcement interests, except that no order shall be denied when the name change is requested for religious or legitimate cultural reasons or
in recognition of marriage or dissolution of marriage. A sex offender under the requirement to register under this section who receives an order changing his or her name shall submit a copy of the order to the county sheriff of the county of the person’s residence and to the state patrol within five days of the entry of the order.

((44)) (8) The county sheriff shall obtain a photograph of the individual and shall obtain a copy of the individual's fingerprints.

((48)) (9) For the purpose of RCW 9A.44.130, 10.01.200, 43.43.540, 70.48.470, and 72.09.330:

(a) "Sex offense" means any offense defined as a sex offense by RCW 9.94A.030 and any violation of RCW 9.68A.040 (sexual exploitation of a minor), 9.68A.050 (dealing in depictions of minor engaged in sexually explicit conduct), 9.68A.060 (sending, bringing into state depictions of minor engaged in sexually explicit conduct), 9.68A.090 (communication with minor for immoral purposes), 9.68A.100 (patronizing juvenile prostitute), or 9A.44.096 (sexual misconduct with a minor in the second degree), as well as any gross misdemeanor that is, under chapter 9A.28 RCW, a criminal attempt, criminal solicitation, or criminal conspiracy to commit an offense that is classified as a sex offense under RCW 9.94A.030.

(b) "Kidnapping offense" means the crimes of kidnapping in the first degree, kidnapping in the second degree, and unlawful imprisonment as defined in chapter 9A.40 RCW, where the victim is a minor and the offender is not the minor's parent.

(c) "Employed" or "carries on a vocation" means employment that is full-time or part-time for a period of time exceeding fourteen days, or for an aggregate period of time exceeding thirty days during any calendar year. A person is employed or carries on a vocation whether the person’s employment is financially compensated, volunteered, or for the purpose of government or educational benefit.

(d) "Student" means a person who is enrolled, on a full-time or part-time basis, in any public or private educational institution. An educational institution includes any secondary school, trade or professional institution, or institution of higher education.

((64)) (10) A person who knowingly fails to register with the county sheriff or notify the county sheriff, or who changes his or her name without notifying the county sheriff and the state patrol, as required by this section is guilty of a class C felony if the crime for which the individual was convicted was a felony or a federal or out-of-state conviction for an offense that under the laws of this state would be a felony. If the crime was other than a felony or a federal or out-of-state conviction for an offense that under the laws of this state would be other than a felony, violation of this section is a gross misdemeanor.

NEW SECTION. Sec. 3. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

On page 1, line 1 of the title, after "offenders;" strike the remainder of the title and insert "reenacting and amending RCW 9A.44.130; creating a new section; and declaring an emergency."

and the same is herewith transmitted.

**ELECTION OF CO-CHIEF CLERK**

**MOTION**
Representative Kessler moved that with the resignation of Dean R. Foster as Co-Chief Clerk of the House of Representatives effective May 31, 1999 having been received, that nominations be open for the office of Co-Chief of the House of Representatives to be effective June 1, 1999. The motion was adopted.

Representative Kessler: "I am pleased and honored to nominate Cindy Zehnder to succeed Dean Foster as Co-Chief for the House of Representatives. Cindy quietly entered our Chamber a few weeks ago assuming the role of Assistant Chief Clerk. She took on her duties with enthusiasm utilizing her impressive list of skills and experience.

Her background in both public and private sectors as well as her involvement in civic activities is incredible. She received her Bachelor of Arts and Masters degrees from the University of Washington, a very good school in my opinion. She is a skilled administrator serving most recently as Deputy Commissioner for the Washington State Employment Security Department responsible for information systems, strategic planning, budget, legislation, and labor and management in state holder relations. She has a proven ability to unite diverse interests around a common program with extensive negotiation experience in both the public and private sectors. Cindy is currently a member of the University of Washington Board of Regents where she served as President of that board in 1998-99. In addition to her many other civic and community activities, Cindy served as a chair of the Personnel Committee and a member of the Executive Committee for the Fred Hutchinson Cancer Research Center Board of Trustees.

And finally her most impressive of all accomplishments, Cindy was a truck driver and dock worker for more than four years. Just by looking at her, you might find it difficult to visualize her punching those big boxes and containers and so forth down on the docks along with the fairly closed 'good ole boys' dock workers of the 1970s. I'm impressed. She gained the respect and admiration of those workers. I've heard her stories — this was not an easy accomplishment. Remember this was not in the 1990s, this was in the seventies.

I am absolute convinced that Cindy is more than up for the task of filling Dean's shoes which are rather large shoes as our Co-Chief Clerk. Please join me in voting for Cindy Zehnder for Co-Chief."

Representative Kessler moved that the nomination for Co-Chief Clerk be closed and by an unanimous voice vote, Cindy Zehnder be elected Co-Chief Clerk of the House of Representatives.

Cindy Zehnder was elected Co-Chief Clerk of the House of Representatives.

Speaker Ballard requested Representatives Kessler and Lisk escort newly elected Co-Chief Clerk Cindy Zehnder to the Rostrum. Speaker Ballard administered the Oath of Office to Co-Chief Clerk Cindy Zehnder.

ACCEPTANCE SPEECH OF CO-CHIEF CLERK ZEHNDER

Co-Chief Clerk Zehnder: "Thank you, Speaker Ballard, Speaker Chopp and members of the House of Representatives. At this late time my speech will be very brief. I am very honored to be part of you and to be part of this wonderful Institution. I will do all I can to support you in your very important work. Thank you."

RESOLUTION

WHEREAS, It is the goal of most working people to retire at a relatively young age and enjoy
family and friends, travel, garden, read, and otherwise take life easy without the need to report to work
daily; and

WHEREAS, Dean Foster, co-chief clerk of the House of Representatives, having committed
his working life to serving the people of the state of Washington, retired from a long and distinguished
career in state service in 1996, promising his loving wife Sharon that they would at last travel, and do
things together; and

WHEREAS, To honor the occasion of his retirement, hundreds of friends did gather for dinner
and speeches and to share "Dean Foster stories," and reminisce about his work, from humble
beginnings as bill room clerk in the state House of Representatives, to serving as chief clerk of the
House, co-chief clerk of the House, staff director for the Senate, and chief of staff for governor Booth
Gardner; and

WHEREAS, With over five hundred witnesses to his retirement, his wife Sharon was prompted
to think, "Wow, he really did it!": and

WHEREAS, In November 1998, the state House of Representatives, for only the second time
in the state’s history, was tied, 49-49, and needing a co-chief clerk — someone who could help
legislators navigate the choppy waters of shared power; and

WHEREAS, It was widely whispered that Dean Foster had served as co-chief clerk during the
first tie, but was retired and serving as Sharon’s secretary, which might mean he was available — or
not; and

WHEREAS, Dean, forsaking friends and family and freedom, agreed to return to the House to
help, but only for a short while, during which time his gracious manner, wise counsel, help, and
guidance have been invaluable to members of both parties; and

WHEREAS, Dean Foster now once again forswears 80-hour work weeks and public service,
returning home to reading, gardening, fishing, travel, and Sharon, who once again is relieved that he
really did it;

NOW, THEREFORE, BE IT RESOLVED, That the members and staff of the House of
Representatives publicly thank Dean Foster for his service as co-chief clerk during the 1999 Legislative
Session, for his long and distinguished career as a public servant, and for the sacrifice of leaving
retirement to come and serve as our mentor, friend, and colleague, and thank his wife, Sharon, for
sharing him with us.

Representative Kessler moved adoption of the resolution.

Representatives Kessler and Pennington spoke in favor of the adoption of the resolution.

SPEAKER'S PRIVILEGE

Speaker Ballard: "You should look at him with a jacket and tie on for the last time for a long
time because tomorrow I guarantee you when you run into him, he’ll have his birkenstocks on and he
will be in a casual manner. Dean, we have worked together a long. I used to stand in front there
many times and ask you personal questions. You were always helpful, you were always straight with
me and I want to say on behalf of this Institution, thank you very much."

House Resolution No. 99-4705 was adopted.

REMARKS OF CO-CHIEF CLERK DEAN FOSTER
Co-Chief Clerk Foster: "Thank you very much. I didn't know my wife had gone to work for the Code Reviser's Office writing floor resolutions. Last night about 10:30 I was waiting for Frank to take me home; he forgot me and I was here reading through the computer. I saw this floor resolution had been put in the computer with my name -- I didn't read it. Had I read it, I might not have come to work today.

The pleasure is mine in being able to serve and to be reminded what it is like to bring ninety eight people together from all corners of the State to go through the sacrifices -- the sacrifices your family give and that you give during these long days in a difficult situation. Thank you for the honor of serving again. I'll probably be back in twenty years in the next tie but not until then.

Thanks again. Let's get on with business."

RESOLUTION

HOUSE RESOLUTION NO. 99-4708, by Representatives Santos, Tokuda, Veloria, Murray, Kenney, H. Sommers, Lovick, Cody, Poulsen, McIntire, Constantine, Dickerson, Dunshee and Chopp

WHEREAS, The Washington State House of Representatives recognizes and values the role and the contributions of the church to the development of our citizens and our communities; and

WHEREAS, The church has historically encompassed roles beyond a religious dimension by providing critical social and economic support for immigrant populations to survive and prosper in our state and across our nation; and

WHEREAS, May 23, 1999, marks the centennial anniversary of the founding of the Japanese Baptist Church in Seattle, Washington; and

WHEREAS, Since its inception at the turn of the nineteenth century, the Japanese Baptist Church welcomed newly arrived Japanese immigrants in the Seattle area, facilitated their acculturation to their new surroundings, and laid the foundation for a strong and vibrant ethnic community of second-generation and third-generation Japanese Americans to flourish in the Pacific Northwest; and

WHEREAS, Forward-thinking congregants of the Japanese Baptist Church played a pivotal role in helping early Japanese immigrant women, many of whom came as picture brides to the United States, in their transition to a new land and to a new life by first providing safety and shelter through such group homes as the "Fujin Home" and by later providing guidance and fellowship for newly married couples; and

WHEREAS, Community organizations and affiliations, such as the Boys' Club and the Girls' Club, athletic interests, such as basketball and baseball leagues, choirs and musical groups, and critical educational needs, such as the Japanese Baptist Church Kindergarten (later renamed the Broadway Nursery School) were facilitated by the Church’s active leadership; and

WHEREAS, The Japanese Baptist Church persevered through the war years despite profound prejudice and discrimination with help from remarkable individuals, like the Reverend Emery Andrews, and continued to worship together in the Minidoka Relocation Center, thereby sowing the seeds for the remarkable renewal and growth of the church in the postwar years; and

WHEREAS, The Japanese Baptist Church's centennial anniversary this year brings this organization into a small and select group of local churches to have achieved this level of longevity in our region;

NOW, THEREFORE, BE IT RESOLVED, That the House of Representatives of this 56th Washington Legislature proudly honor this milestone in the remarkable one hundred year history of the Japanese Baptist Church, and in the history of the Japanese-American community in our state, both of which have contributed immeasurably to the rich heritage and culture of the Pacific Northwest; and
BE IT FURTHER RESOLVED, That copies of this resolution be immediately transmitted by the Co-Chief Clerks of the House of Representatives to the Governor and to the congregation of the Japanese Baptist Church.
