POINT OF PERSONAL PRIVILEGE

Representative McDermott: "Thank you, Mr. Speaker. In my youth, one of the most exciting things I did was spend time at a summer camp on the Icicle River outside of Leavenworth. Summer camp was a great experience through our youth. Actually it was the last day of summer camp that we did something really exciting every year. Mr. Speaker, you're wondering what I'm talking about? That was thanking the cafeteria staff at camp. I think that in our one hundred and fifth day of legislative session, we should also be thanking our cafeteria staff who has served us so well throughout the session. Mr. Speaker, could we invite the cafeteria staff to the floor to receive our appreciation? Before us we have Twila Asselstine, Gail Crow, Peggy Palm, Leslie Vessey and Marcel Dumont. Between them they have made sure we were well fed, fueled for our legislative efforts, served us more food than we ever wanted and we have cleaned our plates. We look forward to seeing you again next year. Thank you so much."

POINT OF PERSONAL PRIVILEGE

Representative Wallace: "Thank you, Mr. Speaker. I would like to thank some unsung heroes among us. Those people would be the Code Revisors. I would like to stand today and ask that the Code Revisors join us out on the floor so that we may thank them. When I arrived here in Olympia two years ago and began to draft bills, I would hear 'Well, the Code Revisor is looking at the bill; the Code Revisor is doing this or that'. I didn't know what a Code Revisor was or what they did. But in the last two years what I've come to realize is that these really are the unsung heroes among us. The people who really make our activities out here on the floor, our activities throughout the session and the year happen. We all have to thank these people for taking our bills that we work on and turning them into code. I am always amazed when you look at the set of books or you look on line at the code we have. It is these people that are doing all of the nuts and bolts work to make what we do effective here in the State of Washington as part of the code. People we don't often see but so important that we take the time to thank each and everyone of you for all of your work. And including the pup down at the end. Thank you very much. We appreciate your work."

There being no objection, the House advanced to the seventh order of business.

POINT OF PERSONAL PRIVILEGE

Representative Hunt: "Thank you, Mr. Speaker. Well, as we recognize various people who contribute greatly and daily to our operation, we would be remiss if we did not honor and recognize our page supervisors. This is real special because one of them has been a long time personal friend of mine and five or six years ago he said 'I've retired and I'd like to do something else to help the State. Is there anything I might do?' I said, 'Well, Mal, you seem to get along with kids – would you be interested in applying for a job as Page Supervisor or something like that in the Legislature?’ Mal applied and we've been more than lucky to have him serving as our Page Supervisor for the past five years. It looks like he may be retiring and doing more travel and spending time with his family. We are going to miss him. And this is also special because for a number of years my wife also served as Page Supervisor so it is a program that is near and dear to my heart. We have Mal Monahan – things that Mal has done, he has been instrumental in updating the Page Handbook and materials that go out to pages and their parents. He actually starts work in November to advertise for host families to help house the pages during the week they are here in Olympia because each of those pages which come to us from out of the Olympia area have to have places to stay. Mal and his partner Paula Rehwaldt do things like find housing for the pages, they work with them, they communicate with the potential pages, they select and go to each of the members and find out which pages that they would like to come serve. Each Sunday, Mal and Paula welcome 25 new bright eyed pages to Olympia and send them through an afternoon orientation program before they come in on Monday morning to serve as our pages and do all those wonderful jobs for us. They work on a rotating schedule so that the pages get to see the House floor, the O'Brien Building and the various other facilities. I understand that the prize job for pages is lunch room duty because the pages who work there get a free lunch. So they are trainers, they are mentors, they are surrogate parents, and they are friends for these 25 teenagers most of whom are away from home. Mal tells us that this is probably his last year and I am going to put a special provision in the budget that does not allow that – that we will allow him to come back. Mal and Paula, thank you for all that you do."

The Speaker assumed the chair.
POINT OF PERSONAL PRIVILEGE

Representative Wood: "Thank you, Mr. Speaker. One of the nice things about the last few days of session is when we take time out to congratulate and thank all the people behind the scenes who help us get through in one piece. We are not done yet. The House Video crew – a lot of these are privates but several work for us throughout the session. All those nice little clips we record down here on the floor – I did that for a living for twenty years so I'm pretty good at it but other people need a lot of help. Our House Video crew, Sarah Scott, Ryan Berg, Michael Hartz, Burke Long and Theresa Hoder, and the photographers – the still camera people, Lemoyne Coates, Melody Livingston, Duncan Green, Bridget Irish – a long list of people who are very good at putting our images either on video or digital films. If they could come out and if we could give them a big thanks for what they do through the session."

NEW SECTION.  Sec. 201. FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES.
(1) Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The department is authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage Medicaid expenditures for the aged and disabled population. Under this Washington medicaid integration partnership (WMIP) the department may combine and transfer such Medicaid funds appropriated under sections 204, 206, 208, and 209 of this act as may be necessary to finance a unified health care plan for the WMIP program enrollment. The amount of funding assigned to the pilot projects from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled in the pilot, times the number of clients enrolled in the pilot. In implementing the WMIP pilot projects, the department may: (a) Withhold from calculations of "available resources" as set forth in RCW 71.24.025 a sum equal to the capitated rate for individuals enrolled in the pilots; and (b) employ capitation financing and risk-sharing arrangements in collaboration with health care service contractors licensed by the office of the insurance commissioner and qualified to participate in both the medicaid and medicare programs.
The department shall conduct an evaluation of the WMIP, measuring changes in participant health outcomes, changes in patterns of service utilization, participant satisfaction, participant access to services, and the state fiscal impact.

(4) In accordance with RCW 74.39A.300, the appropriations to the department of social and health services in this act are sufficient to implement the compensation and fringe benefits of the collective bargaining agreement reached between the governor and the exclusive bargaining representative of individual providers of home care services.

In consultation with regional support networks and other interested groups, the department shall report to the joint legislative and
executive task force by September 2006 on options for modifying the allocation formula to assure equitable statewide access to
essential nonmedicaid services.
(c) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure

meeting the requirements of chapter 275-57 WAC. The department shall increase medicaid payments to the regional support

payment limit specified for the regional support network in the department's medicaid waiver agreement with the federal
government after meeting all other medicaid spending requirements assumed in this subsection. The regional support network

operation of the mentally ill offender pilot program.
(g) $2,146,000 of the general fund--state appropriation for fiscal year 2006, $4,408,000 of the general fund--state

If such amounts are not sufficient to ensure compliance, funds provided in this subsection (1)(g) shall first be applied to address any noncompliant rate category; remaining amounts shall be allocated among the regional support networks by applying a uniform percentage of increase across regional support networks.

(b) $5,000,000 of the general fund--state appropriation for fiscal year 2006 and $5,000,000 of the general fund--state appropriation for fiscal year 2007 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon mentally ill offenders' release from confinement. These amounts shall supplement, and not supplant, local or other funding or in-kind resources currently being used for these purposes. The department is authorized to transfer such amounts as are necessary, which are not to exceed $418,000 of the general fund--state appropriation for fiscal year 2006 and $418,000 of the general fund--state appropriation for fiscal year 2007, to the economic services program for the purposes of implementing section 12 of Engrossed Second Substitute House Bill No. 1290 (community mental health) related to reinstating and facilitating access to mental health services upon mentally ill offenders' release from confinement.

These amounts shall supplement, and not supplant, local or other funding currently being used for activities funded under the projects authorized in this subsection.

(j) The department is authorized to continue to expend federal block grant funds, and special purpose federal grants, through direct contracts, rather than through contracts with regional support networks; and to distribute such funds through a formula other than the one established pursuant to RCW 71.24.035(13).

These funds shall be used to serve individuals whose treatment needs constitute substantial barriers to community placement, who no longer require active psychiatric treatment at an inpatient hospital level of care, and who no longer meet the criteria for inpatient involuntary commitment. Coordination of these services will be done in partnership between the mental health program and the aging and disability services administration. The funds are not subject to the standard allocation formula applied in accordance with RCW 71.24.035(13(a).

(m) $750,000 of the general fund--state appropriation for fiscal year 2006 and $750,000 of the general fund--state appropriation for fiscal year 2007 are provided to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who have been discharged from the state hospitals. TOTAL APPROPRIATION $7,767,870,000

The appropriations in this section are subject to the following conditions and limitations:

1) Based on quarterly expenditure reports and caseload forecasts, if the department estimates that expenditures for the medical assistance program will exceed the appropriations, the department shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

2) The department shall continue to extend medicaid eligibility to children through age 18 residing in households with incomes below 200 percent of the federal poverty level.

3) In determining financial eligibility for medicaid-funded services, the department is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.
(4) Sufficient amounts are appropriated in this section for the department to continue podiatry services for medicaid-eligible adults.

(5) Sufficient amounts are appropriated in this section for the department to provide an adult dental benefit that is equivalent to the benefit provided in the 2003-05 biennium.

(6) In accordance with RCW 74.46.625, $6,000,000 of the general fund--federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments.

(7) $1,660,000 of the health services account appropriation, $4,361,000 of the general fund--federal appropriation, $1,351,000 of the general fund--state appropriation for fiscal year 2006, and $1,351,000 of the general fund--state appropriation for fiscal year 2007 are provided solely for grants to rural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(8) $22,081,000 of the health services account appropriation and $20,714,000 of the general fund--federal appropriation are provided solely for grants to nonrural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(9) In response to the federal directive to eliminate intergovernmental transfer transactions effective June 30, 2005, the department is directed to implement the inpatient hospital certified public expenditures program for the 2005-07 biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. Hospitals in the program shall be paid and shall retain (a) one hundred percent of the federal portion of each medicaid inpatient fee-for-service claim payable by the medical assistance administration; and (b) one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Medicaid fee-for-service claim amounts shall be established by applying the department's ratio of costs to charges payment methodology. The department shall provide participating hospitals with the information and instructions needed by the hospital to certify the public expenditures required to qualify for the federal portions of both the medicaid inpatient fee-for-service payments and the disproportionate share hospital payments. In the event that any part of the program including, but not limited to, allowable certified public expenditures, is disallowed by the federal government, the department shall not seek recoupment of payments from the hospitals, provided the hospitals have complied with the directions of the department for participation in the program. The legislature intends that hospitals in the program receive no less in combined state and federal payments than they would have received under the methodology that was in place during fiscal year 2005. The department shall therefore make additional grant payments, not to exceed the amounts provided in this subsection, to hospitals whose total payments under the program would otherwise be less than the total state and federal payments they would have received under the methodology in effect during fiscal year 2005. $37,034,000 of the general fund--state appropriation for fiscal year 2006, $37,552,000 of the general fund--state appropriation for fiscal year 2007, $8,300,000 of the emergency medical services and trauma care systems trust account--state appropriation, and $45,450,000 of the general fund--federal appropriation are provided solely for new state grant and upper payment limit programs for the participating hospitals.

(10) $4,372,000 of the general fund--state appropriation for fiscal year 2006, $4,014,000 of the general fund--state appropriation for fiscal year 2007, and $65,112,000 of the general fund--federal appropriation are provided solely for development and implementation of a replacement system for the existing medicaid management information system.

(11) $150,000 of the general fund--state appropriation for fiscal year 2006, $75,000 of the general fund--state appropriation for fiscal year 2007, and $225,000 of the general fund--federal appropriation are provided solely for the department to contract for an independent analysis of the medical assistance administration's current system for establishing hospital inpatient payment rates, and for recommendations on a new or updated system. The department shall submit an interim report of study findings by December 1, 2005, and a final report by November 15, 2006. The interim report shall include a comparison of the strengths and weaknesses of the current rate-setting system relative to those used by other state, federal, and private payers. The final report shall include recommendations on the design and implementation of a new or updated system that will promote equity among hospitals, access to quality care and improved health outcomes for patients, and cost-control and efficiency for taxpayers. The study should make use of complete and current cost data from a wide variety of hospitals, recognize unique
aspects of hospital service delivery structures and medicaid payment systems in Washington, recognize impacts on productivity and quality of care that may result from hospital compensation, recruitment, and retention policies, and provide opportunities for comment and participation by key interest groups in the identification and assessment of alternatives.

(12) Payment rates for hospital inpatient and outpatient services shall be increased by an average of 1.3 percent effective July 1, 2005, and by an average of an additional 1.3 percent effective July 1, 2006. The inpatient increases shall be provided only on the portion of a hospital's rate that excludes medical education and outlier costs, and shall be allocated so that hospitals with lower costs of care (excluding medical education and outlier costs) receive larger percentage increases than those with higher costs of care. The inpatient increases shall be allocated in three percentage increments, with the lowest-cost hospitals receiving the largest percentage rate increase, highest-cost hospitals receiving the smallest percentage increase, and medium-cost hospitals receiving the average of the highest and the lowest percentage rate increase. Increases shall not be provided to those hospitals that are certified as critical access. Sufficient funds are appropriated in this section for Healthy Options contractors to increase hospital payment rates commensurate with the increases in fee-for-service payment rates.

(13) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the department shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(14) The medical assistance administration is authorized to use funds appropriated in this section to purchase goods and supplies through direct contracting with vendors when the administration determines it is cost-effective to do so.

(15) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(16) By October 1, 2005, the department shall recommend to the governor and legislature at least two pilot project designs which seem likely to reduce avoidable emergency room utilization at no net cost to the state within the projects' first eighteen months of operation.

(17) Within funds appropriated in this section, the department shall participate in the health technology assessment program required in section 213(6) of this act.

(18) The department is also required to participate in the joint health purchasing project described in section 213(7) of this act.

(19) The department, within available resources, continue operation of the medical care services care management pilot project for clients receiving general assistance benefits in King and Pierce counties. The project may use a full or partial capitation model that includes a mechanism for shared savings. The department shall provide a report to the appropriate committees of the legislature by January 1, 2006, on costs, savings, and any outcomes or quality measures associated with the pilot programs during the first year of operation.

(20) By October 1, 2005, the department shall report to the appropriate committees of the legislature on the potential fiscal and programmatic costs and benefits associated with an expansion of managed care pilot programs to SSI and other eligible medicaid elderly and disabled persons.

(21) Within the funding provided in section 207(2) of this act, the medical assistance administration and the economic services administration may implement a time-limited transitional prescription drug benefit for general assistance unemployable recipients who obtain employment and who have no other source of health insurance coverage. The benefit shall be limited to coverage of prescription drugs and medication management. The benefit shall be limited to one year. The department shall implement a premium schedule for the benefits under this subsection that is related to the participant's income. The minimum premium shall be twenty dollars per month. Recipients of this transitional benefit shall not be considered part of the general assistance caseload unless eligibility is established under standard reapplication procedures.

(22) By November 15, 2006, the department of social and health services, in consultation with the department of revenue and the health care authority, shall report to the health care and fiscal committees of the legislature on options for providing financial incentives for private practice physicians to serve uninsured, medicare, and medicaid patients. The report shall include an assessment of the relative costs and effectiveness of strategies including, but not limited to, tax credits and payment rate increases. The report shall further suggest alternative mechanisms and thresholds for varying tax credits and payment enhancements according to the extent to which a provider serves uninsured, medicare, and medicaid patients.

Units calculated under (f)(ii) of this subsection shall be reduced by certificated staff units at the rate of forty-six certificated instructional staff units and four certificated administrative staff units per thousand vocational full-time equivalent students;

(g) For each nonhigh school district having an enrollment of more than seventy annual average full-time equivalent students and less than one hundred eighty students, operating a grades K-8 program or a grades 1-8 program, an additional one-half of a certificated instructional staff unit; and

(h) For each nonhigh school district having an enrollment of more than fifty annual average full-time equivalent students and less than one hundred eighty students, operating a grades K-6 program or a grades 1-6 program, an additional one-half of a certificated instructional staff unit.

(3) Allocations for classified salaries for the 2005-06 and 2006-07 school years shall be calculated using formula-generated classified staff units determined as follows:

(a) For enrollments generating certificated staff unit allocations under subsection (2)(d) through (h) of this section, one classified staff unit for each three certificated staff units allocated under such subsections;

(b) For all other enrollment in grades K-12, including vocational full-time equivalent enrollments, one classified staff unit for each sixty average annual full-time equivalent students; and

(4) Fringe benefit allocations shall be calculated at a rate of 10.90 percent in the 2005-06 school year and 11.90 percent in the 2006-07 school year for certificated salary allocations provided under subsection (2) of this section, and a rate of 14.57 percent in the 2005-06 school year and 15.82 percent in the 2006-07 school year for classified salary allocations provided under subsection (3) of this section.

(5) Insurance benefit allocations shall be calculated at the maintenance rate specified in section 504(2) of this act, based on the number of benefit units determined as follows:

(a) The number of certificated staff units determined in subsection (2) of this section; and

(b) The number of classified staff units determined in subsection (3) of this section multiplied by 1.152. This factor is intended to adjust allocations so that, for the purposes of distributing insurance benefits, full-time equivalent classified employees may be calculated on the basis of 1440 hours of work per year, with no individual employee counted as more than one full-time equivalent.

(6)(a) For nonemployee-related costs associated with each certificated staff unit allocated under subsection (2)(a), (b), and (d) through (h) of this section, there shall be provided a maximum of $9,112 per certificated staff unit in the 2005-06 school year and a maximum of $9,285 per certificated staff unit in the 2006-07 school year.

Solely for the purposes of this subsection, allocated classroom teachers shall be equal to the number of certificated instructional staff units allocated under subsection (2) of this section, multiplied by the ratio between the number of actual basic education certificated teachers and the number of actual basic education certificated instructional staff reported statewide for the prior school year.

(8) Any school district board of directors may petition the superintendent of public instruction by submission of a resolution adopted in a public meeting to reduce or delay any portion of its basic education allocation for any school year. The superintendent of public instruction shall approve such reduction or delay if it does not impair the district's financial condition. Any delay shall not be for more than two school years. Any reduction or delay shall have no impact on levy authority pursuant to RCW 84.52.0531 and local effort assistance pursuant to chapter 28A.500 RCW.

(b) As used in this subsection, the column headings "BA+(N)" refer to the number of credits earned since receiving the baccalaureate degree.

(c) For credits earned after the baccalaureate degree but before the masters degree, any credits in excess of forty-five credits may be counted after the masters degree. Thus, as used in this subsection, the column headings "MA+(N)" refer to the total of:

(i) Credits earned since receiving the masters degree; and

(ii) Any credits in excess of forty-five credits that were earned after the baccalaureate degree but before the masters degree.

(5) For the purposes of this section:
(a) "BA" means a baccalaureate degree.
(b) "MA" means a masters degree.
(c) "PHD" means a doctorate degree.
(d) "Years of service" shall be calculated under the same rules adopted by the superintendent of public instruction.
(e) "Credits" means college quarter hour credits and equivalent in-service credits computed in accordance with RCW 28A.415.020 and 28A.415.023.

(6) No more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and LEAP documents referenced in this act, or any replacement schedules and documents, unless:

(a) The employee has a masters degree; or

(b) The credits were used in generating state salary allocations before January 1, 1992.

(7) The certificated instructional staff base salary specified for each district in LEAP Document 12E and the salary schedules in subsection (4)(a) of this section include two learning improvement days. A school district is eligible for the learning improvement day funds only if the learning improvement days have been added to the 180-day contract year. If fewer days are added, the additional learning improvement allocation shall be adjusted accordingly. The additional days shall be limited to specific activities identified in the state required school improvement plan related to improving student learning that are consistent with education reform implementation, and shall not be considered part of basic education. The principal in each school shall assure that the days are used to provide the necessary school-wide, all staff professional development that is tied directly to the school improvement plan. The school principal and the district superintendent shall maintain documentation as to their approval of these activities. The length of a learning improvement day shall not be less than the length of a full day under the base contract. The superintendent of public instruction shall ensure that school districts adhere to the intent and purposes of this subsection.

(8) The salary allocation schedules established in this section are for allocation purposes only except as provided in RCW 28A.400.200(2) and subsection (7) of this section.

Transportation shall be limited to low-income students who are transferring to "choice" programs solely for educational reasons.

4. Allocations for transportation of students transported more than one radius mile shall be based on weighted miles as determined by superintendent of public instruction multiplied by the per mile reimbursement rates for the school year pursuant to the formulas adopted by the superintendent of public instruction. Allocations for transportation of students living within one radius mile shall be based on the number of enrolled students in grades kindergarten through five living within one radius mile of their assigned school multiplied by the per mile reimbursement rate for the school year multiplied by 1.29.

In the final year on the depreciation schedule, the depreciation payment shall be based on the current state price. The superintendent may include a weighting or other adjustment factor in the averaging formula to ease the transition from the current-price depreciation system to the average depreciation system. Prior to making any depreciation payment in the 2005-06 school year, the superintendent shall notify the office of financial management and the fiscal committees of the legislature of the specific depreciation formula to be used. The replacement cost shall be based on the lowest bid in the appropriate bus category for that school year. A maximum of $50,000 of the fiscal year 2006 appropriation may be expended for software programming costs associated with the implementation of this subsection.

NEW SECTION. Sec. 507. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SPECIAL EDUCATION PROGRAMS

General Fund--State Appropriation (FY 2006)  
$460,032,000

General Fund--State Appropriation (FY 2007)  
$471,961,000

General Fund--Federal Appropriation  
$435,464,000

TOTAL APPROPRIATION  
$1,367,457,000

The appropriations in this section are subject to the following conditions and limitations:

(1) Funding for special education programs is provided on an excess cost basis, pursuant to RCW 28A.150.390. School districts shall ensure that special education students as a class receive their full share of the general apportionment allocation accruing through sections 502 and 504 of this act. To the extent a school district cannot provide an appropriate education for special education students under chapter 28A.155 RCW through the general apportionment allocation, it shall provide services through the special education excess cost allocation funded in this section.

(2)(a) The superintendent of public instruction shall use the excess cost methodology developed and implemented for the 2001-02 school year using the S-275 personnel reporting system and all related accounting requirements to ensure that:

(i) Special education students are basic education students first;
(ii) As a class, special education students are entitled to the full basic education allocation; and
(iii) Special education students are basic education students for the entire school day.

(b) The S-275 and accounting changes in effect since the 2001-02 school year shall supercede any prior excess cost methodologies and shall be required of all school districts.

(3) Each fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(4) The superintendent of public instruction shall distribute state and federal funds to school districts based on two categories: The optional birth through age two program for special education eligible developmentally delayed infants and toddlers, and the mandatory special education program for special education eligible students ages three to twenty-one. A "special education eligible student" means a student receiving specially designed instruction in accordance with a properly formulated individualized education program.

(5)(a) For the 2005-06 and 2006-07 school years, the superintendent shall make allocations to each district based on the sum of:

(i) A district's annual average headcount enrollment of developmentally delayed infants and toddlers ages birth through two, multiplied by the district's average basic education allocation per full-time equivalent student, multiplied by 1.15; and
(ii) A district's annual average full-time equivalent basic education enrollment multiplied by the funded enrollment percent determined pursuant to subsection (6)(b) of this section, multiplied by the district's average basic education allocation per full-time equivalent student multiplied by 0.9309.

(b) For purposes of this subsection, "average basic education allocation per full-time equivalent student" for a district shall be based on the staffing ratios required by RCW 28A.150.260 and shall not include enhancements, secondary vocational education, or small schools.

(6) The definitions in this subsection apply throughout this section.

(a) "Annual average full-time equivalent basic education enrollment" means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW 28A.225.250).

(b) "Enrollment percent" means the district's resident special education annual average enrollment, excluding the birth through age two enrollment, as a percent of the district's annual average full-time equivalent basic education enrollment.

Each district's general fund--state funded special education enrollment shall be the lesser of the district's actual enrollment percent or 12.7 percent.
(7) At the request of any interdistrict cooperative of at least 15 districts in which all excess cost services for special education students of the districts are provided by the cooperative, the maximum enrollment percent shall be calculated in accordance with subsection (6)(b) of this section, and shall be calculated in the aggregate rather than individual district units. For purposes of this subsection, the average basic education allocation per full-time equivalent student shall be calculated in the aggregate rather than individual district units.

(8) To the extent necessary, $18,940,000 of the general fund—state appropriation and $28,698,000 of the general fund—federal appropriation are provided for safety net awards for districts with demonstrated needs for special education funding beyond the amounts provided in subsection (5) of this section. If safety net awards exceed the amount appropriated in this subsection (8), the superintendent shall expend all available federal discretionary funds necessary to meet this need. Safety net funds shall be awarded by the state safety net oversight committee subject to the following conditions and limitations:

(a) The committee shall consider unmet needs for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding formulas. In the determination of need, the committee shall also consider additional available revenues from federal sources. Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(b) The committee shall then consider the extraordinary high cost needs of one or more individual special education students. Differences in costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(c) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(d) Safety net awards shall be adjusted based on the percent of potential medicaid eligible students billed as calculated by the superintendent in accordance with chapter 318, Laws of 1999.

(e) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

(9) The superintendent of public instruction may adopt such rules and procedures as are necessary to administer the special education funding and safety net award process. Prior to revising any standards, procedures, or rules, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature.

(10) The safety net oversight committee appointed by the superintendent of public instruction shall consist of:

(a) One staff from the office of superintendent of public instruction;

(b) Staff of the office of the state auditor who shall be nonvoting members of the committee; and

(c) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.

(11) A maximum of $678,000 may be expended from the general fund—state appropriations to fund 5.43 full-time equivalent teachers and 2.1 full-time equivalent aides at children's orthopedic hospital and medical center. This amount is in lieu of money provided through the home and hospital allocation and the special education program.

(12) A maximum of $1,000,000 of the general fund—federal appropriation is provided for projects to provide special education students with appropriate job and independent living skills, including work experience where possible, to facilitate their successful transition out of the public school system. The funds provided by this subsection shall be from federal discretionary grants.

(13) A maximum of $100,000 of the general fund—federal appropriation shall be expended to create a special education ombudsman program within the office of superintendent of public instruction. The purpose of the program is to provide support to parents, guardians, educators, and students with disabilities. The program will provide information to help families and educators understand state laws, rules, and regulations, and access training and support, technical information services, and mediation services. The ombudsman program will provide data, information, and appropriate recommendations to the office of superintendent of public instruction, school districts, educational service districts, state need projects, and the parent and teacher information center.

(14) The superintendent shall maintain the percentage of federal flow-through to school districts at 85 percent. In addition to other purposes, school districts may use increased federal funds for high-cost students, for purchasing regional special education services from educational service districts, and for staff development activities particularly relating to inclusion issues.

(15) A maximum of $1,200,000 of the general fund—federal appropriation may be expended by the superintendent for projects related to use of inclusion strategies by school districts for provision of special education services.

(16) $1,400,000 of the general fund—federal appropriation shall be expended for one-time grants to school districts for the start-up costs of implementing web-based programs that assist schools in meeting state and federal requirements regarding individualized education plans.
(17) The superintendent, consistent with the new federal IDEA reauthorization, shall continue to educate school districts on how to implement a birth-to-three program and review the cost effectiveness and learning benefits of early intervention.

(18) A school district may carry over from one year to the next year up to 10 percent of the general fund--state funds allocated under this program; however, carry over funds shall be expended in the special education program.

The appropriations in this section are subject to the following conditions and limitations:

1. The technical colleges may increase tuition and fees in excess of the fiscal growth factor to conform with the percentage increase in community college operating fees.
2. $539,000 of the general fund--state appropriation for fiscal year 2006 and $540,000 of the general fund--state appropriation for fiscal year 2007 are provided solely for the displaced homemakers program.

Therefore, the management and leadership responsibility for consortium operations are assigned to Everett community college. Everett community college shall collaborate with community and business leaders, other local community colleges, the public four-year institutions of higher education, and the higher education coordinating board to develop an educational plan for the North Snohomish, Island, and Skagit county region based on the university center model.

This increase in total per student funding is in addition to the tuition revenues that will be generated and retained by the community and technical colleges as a result of the tuition increases that are authorized in section 601 of this act. Given these increases in core funding, the state board for community and technical colleges shall, by June 30, 2007, show demonstrable progress toward achieving the following six-year programmatic goals:

(a) Increase the number of academic students who are eligible to transfer to baccalaureate institutions;

(b) Increase the number of students prepared for work; and

(c) Increase the number of basic skills students who demonstrate substantive skill gain.

Specific six-year targets for the goals stated in this subsection shall be established by the state board and the office of financial management and shall be determined based on the per student funding level assumed in this act.

The state board for community and technical colleges shall provide a summary of the progress and ongoing efforts toward meeting the provisions of this section to the governor and the appropriate fiscal and policy committees of the legislature prior to November 1, 2006.

(9) $2,250,000 of the education legacy trust appropriation for fiscal year 2006 and $2,250,000 of the education legacy trust appropriation for fiscal year 2007 are provided solely to increase salaries and related benefits for part-time faculty. A college district may match the state funds with local revenue. The board shall report by January 30, 2006, to the office of financial management and the appropriate fiscal and policy committees of the legislature on (a) the distribution of state funds, and (b) wage adjustments for part-time faculty.

(10) $2,250,000 of the education legacy trust appropriation for fiscal year 2006 and $2,250,000 of the education legacy trust appropriation for fiscal year 2007 are provided solely for faculty salary increments and associated benefits and may be used in combination with salary and benefit savings from faculty turnover to provide salary increments and associated benefits for faculty who qualify through professional development and training. NEW SECTION. Sec. 901. EXPENDITURE AUTHORIZATIONS.
The appropriations contained in this act are maximum expenditure authorizations. Pursuant to RCW 43.88.037, moneys disbursed from the treasury on the basis of a formal loan agreement shall be recorded as loans receivable and not as expenditures for accounting purposes. To the extent that moneys are disbursed on a loan basis, the corresponding appropriation shall be reduced by the amount of loan moneys disbursed from the treasury during the 2003-05 biennium.

NEW SECTION. Sec. 902. INFORMATION SYSTEMS PROJECTS.
Agencies shall comply with the following requirements regarding information systems projects when specifically directed to do so by this act.

(1) Agency planning and decisions concerning information technology shall be made in the context of its information technology portfolio. "Information technology portfolio" means a strategic management approach in which the relationships between agency missions and information technology investments can be seen and understood, such that: Technology efforts are linked to agency objectives and business plans; the impact of new investments on existing infrastructure and business functions are assessed and understood before implementation; and agency activities are consistent with the development of an integrated, nonduplicative statewide infrastructure.

(2) Agencies shall use their information technology portfolios in making decisions on matters related to the following:
   (a) System refurbishment, acquisitions, and development efforts;
   (b) Setting goals and objectives for using information technology in meeting legislatively-mandated missions and business needs;
   (c) Assessment of overall information processing performance, resources, and capabilities;
   (d) Ensuring appropriate transfer of technological expertise for the operation of any new systems developed using external resources; and
   (e) Progress toward enabling electronic access to public information.

(3) Each project will be planned and designed to take optimal advantage of Internet technologies and protocols. Agencies shall ensure that the project is in compliance with the architecture, infrastructure, principles, policies, and standards of digital government as maintained by the information services board.

(4) The agency shall produce a feasibility study for information technology projects at the direction of the information services board and in accordance with published department of information services policies and guidelines. At a minimum, such studies shall include a statement of: (a) The purpose or impetus for change; (b) the business value to the agency, including an examination and evaluation of benefits, advantages, and cost; (c) a comprehensive risk assessment based on the proposed project's impact on both citizens and state operations, its visibility, and the consequences of doing nothing; (d) the impact on agency and statewide information infrastructure; and (e) the impact of the proposed enhancements to an agency's information technology capabilities on meeting service delivery demands.
(5) The agency shall produce a comprehensive management plan for each project. The plan or plans shall address all factors critical to successful completion of each project. The plan(s) shall include, but is not limited to, the following elements: A description of the problem or opportunity that the information technology project is intended to address; a statement of project objectives and assumptions; a definition and schedule of phases, tasks, and activities to be accomplished; and the estimated cost of each phase. The planning for the phased approach shall be such that the business case justification for a project needs to demonstrate how the project recovers cost or adds measurable value or positive cost benefit to the agency's business functions within each development cycle.

(6) The agency shall produce quality assurance plans for information technology projects. Consistent with the direction of the information services board and the published policies and guidelines of the department of information services, the quality assurance plan shall address all factors critical to successful completion of the project and successful integration with the agency and state information technology infrastructure. At a minimum, quality assurance plans shall provide time and budget benchmarks against which project progress can be measured, a specification of quality assurance responsibilities, and a statement of reporting requirements. The quality assurance plans shall set out the functionality requirements for each phase of a project.

(7) A copy of each feasibility study, project management plan, and quality assurance plan shall be provided to the department of information services, the office of financial management, and legislative fiscal committees. The plans and studies shall demonstrate a sound business case that justifies the investment of taxpayer funds on any new project, an assessment of the impact of the proposed system on the existing information technology infrastructure, the disciplined use of preventative measures to mitigate risk, and the leveraging of private-sector expertise as needed. Authority to expend any funds for individual information systems projects is conditioned on the approval of the relevant feasibility study, project management plan, and quality assurance plan by the department of information services and the office of financial management.

(8) Quality assurance status reports shall be submitted to the department of information services, the office of financial management, and legislative fiscal committees at intervals specified in the project's quality assurance plan.

NEW SECTION. Sec. 903. BUSINESS CONTINUITY AND DISASTER RECOVERY.
State agencies shall comply with the business continuity and disaster recovery policies, guidelines, and statements of direction developed by the department of information services and the information services board in consultation with state agencies. To ensure that agency business continuity and disaster recovery activities identify the primary risks across state agencies, account for dependencies between agencies, capitalize on economies of scale, and avoid unnecessary duplication of costs and efforts, state agencies shall receive the prior approval of the department of information services before implementing business continuity and disaster recovery strategies and expending funds for business continuity activities.

NEW SECTION. Sec. 904. VIDEO TELECOMMUNICATIONS.
The department of information services shall act as lead agency in coordinating video telecommunications services for state agencies. As lead agency, the department shall develop standards and common specifications for leased and purchased telecommunications equipment and assist state agencies in developing a video telecommunications expenditure plan. No agency may spend any portion of any appropriation in this act for new video telecommunication equipment, new video telecommunication transmission, or new video telecommunication programming, or for expanding current video telecommunication systems without first complying with chapter 43.105 RCW, including but not limited to, RCW 43.105.041(2), and without first submitting a video telecommunications expenditure plan, in accordance with the policies of the department of information services, for review and assessment by the department of information services under RCW 43.105.052. Prior to any such expenditure by a public school, a video telecommunications expenditure plan shall be approved by the superintendent of public instruction. The office of the superintendent of public instruction shall coordinate the use of video telecommunications in public schools by providing educational information to local school districts and shall assist local school districts and educational service districts in telecommunications planning and curriculum development. Prior to any such expenditure by a public institution of postsecondary education, a telecommunications expenditure plan shall be approved by the higher education coordinating board. NEW SECTION. Sec. 909. VOLUNTARY SEPARATION INCENTIVES.

The options may include, but are not limited to, financial incentives for: Voluntary resignation and retirement, voluntary leave-without-pay, voluntary workweek or work hour reduction, voluntary downward movement, or temporary separation for development purposes. No employee shall have a contractual right to a financial incentive offered pursuant to this section. Agencies shall report on the outcomes of their plans, and offers shall be reviewed and monitored jointly by the department of personnel and the department of retirement systems, for reporting to the office of financial management by December 1, 2006.

NEW SECTION. Sec. 910. VOLUNTARY RETIREMENT INCENTIVES.
It is the intent of the legislature that agencies may implement a voluntary retirement incentive program that is cost neutral or results in cost savings provided that such a program is approved by the director of retirement systems and the office of financial management. Agencies participating in this authorization are required to submit a report by June 30, 2007, to the legislature and the office of financial management on the outcome of their approved retirement incentive program. The report should include information on the details of the program including resulting service delivery changes, agency efficiencies, the cost of the retirement incentive per participant, the total cost to the state, and the projected or actual net dollar savings over the 2005-07 biennium.

NEW SECTION. Sec. 911. AGENCY EXPENDITURES FOR MOTOR VEHICLES.
The use of hybrid motor vehicles reduces air contaminants, greenhouse gas emissions and reliance on imported sources of petroleum. To foster the use of hybrid motor vehicles, beginning July 1, 2005, before the purchase or lease of a motor vehicle, state agencies should first consider the feasibility of hybrid motor vehicles. State agencies should strive to purchase or lease a hybrid motor vehicle when the use of such vehicle is consistent with and can accomplish the agency's mission and when the purchase is financially reasonable. The financial assessment should include savings accruing from reduced fuel purchases over the life of the vehicle. Agencies shall report on their purchases of hybrid vehicles in their biennial sustainability plans as required under executive order 02-03.

Sec. 912. RCW 28A.160.195 and 2004 c 276 s 904 are each amended to read as follows:

The superintendent, in consultation with the regional transportation coordinators of the educational service districts, shall establish competitive specifications for each category of school bus. The categories shall be developed to produce minimum long-range operating costs, including costs of equipment and all costs in operating the vehicles. The categories, for purposes of comparative studies, will be at a minimum the same as those in the
beginning of the 1994-95 school year. The competitive specifications shall meet federal motor vehicle safety standards, minimum state specifications as established by rule by the superintendent, and supported options as determined by the superintendent in consultation with the regional transportation coordinators of the educational service districts. In fiscal (year 2005) years 2006 and 2007, the superintendent may solicit and accept price quotes for a rear-engine category school bus that shall be reimbursed at the price of the corresponding front engine category. 

(2) After establishing school bus categories and competitive specifications, the superintendent of public instruction shall solicit competitive price quotes from school bus dealers to be in effect for one year and shall (a) except in fiscal (year 2005) years 2006 and 2007, establish a list of the lowest competitive price quotes obtained under this subsection, and (b) in fiscal (year 2005) years 2006 and 2007, establish a list of all accepted price quotes in each category obtained under this subsection.

(3) The superintendent shall base the level of reimbursement to school districts and educational service districts for school buses on the lowest quote in each category.

(4) Notwithstanding RCW 28A.335.190, school districts and educational service districts may purchase at the quoted price directly from the dealer who is providing the lowest competitive price quote on the list established under subsection (2) of this section and in fiscal (year 2005) years 2006 and 2007 from any dealer on the list established under subsection (2)(b) of this section. School districts and educational service districts may make their own selections for school buses, but shall be reimbursed at the rates determined under subsection (3) of this section and RCW 28A.160.200. District-selected options shall not be reimbursed by the state. For the (2005-07) 2005-2007 fiscal biennium, school districts and educational service districts shall be reimbursed for buses purchased only through a lowest-price competitive bid process conducted pursuant to RCW 28A.335.190 or through the state bid process established by this section.

(5) This section does not prohibit school districts or educational service districts from conducting their own competitive bid process.

(6) The superintendent of public instruction may adopt rules under chapter 34.05 RCW to implement this section.

Such authority to assist the state board of education shall be limited to the service function of information collection and dissemination and the attestment to the accuracy and completeness of submitted information.

2) During the (2003-05) 2005-2007 biennium, educational service districts may, at the request of the state board of education, receive and screen applications for school accreditation, conduct school accreditation site visits pursuant to state board of education rules, and submit to the state board of education postsite visit recommendations for school accreditation. The educational service districts may assess a cooperative service fee to recover actual plus reasonable indirect costs for the purposes of this subsection.

2. Maximize public awareness of the academic achievement, leadership ability, and community contribution of Washington state public and private high school seniors through appropriate recognition ceremonies and events at both the local and state level.

3. Provide a listing of the Washington scholars to all Washington state public and private colleges and universities to facilitate communication regarding academic programs and scholarship availability.

4. Make available a state level mechanism for utilization of private funds for scholarship awards to outstanding high school seniors.

5. Provide, on written request and with student permission, a listing of the Washington scholars to private scholarship selection committees for notification of scholarship availability.

6. Permit a waiver of tuition and services and activities fees as provided for in RCW 28B.15.543 and grants under RCW 28B.76.660.

Sec. 916. RCW 28A.600.150 and 1999 c 159 s 2 are each amended to read as follows:

Each year, three Washington scholars and one Washington scholars-alternate shall be selected from the students nominated under RCW 28A.600.140, except that during fiscal year 2007, no more than two scholars plus one alternate may be selected. The board, in conjunction with the governor's office, shall prepare appropriate certificates to be presented to the Washington scholars and the Washington scholars-alternates. An awards ceremony at an appropriate time and place shall be planned by the board in cooperation with the Washington association of secondary school principals, and with the approval of the governor.

Sec. 917. RCW 28B.76.660 and 2004 c 275 s 24 are each amended to read as follows:

1. Recipients of the Washington scholars award or the Washington scholars-alternate award under RCW 28A.600.100 through 28A.600.150 who choose to attend an independent college or university in this state, as defined in subsection (4) of this section, and recipients of the award named after June 30, 1994, who choose to attend a public college or university in the state may receive grants under this section if moneys are available. The higher education coordinating board shall distribute grants to eligible students under this section from moneys appropriated for this purpose. The individual grants shall not exceed, on a yearly basis, the yearly, full-time, resident, undergraduate tuition and service and activities fees in effect at the state-funded research universities. Grants to recipients attending an independent institution shall be contingent upon the institution matching on at least a dollar-for-dollar basis, either with actual money or by a waiver of fees, the amount of the grant received by the student from the state. The higher education coordinating board shall establish procedures, by rule, to disburse the awards as direct grants to the students.

2. The higher education coordinating board shall establish rules that provide for the annual awarding of grants, if moneys are available, to three Washington scholars per legislative district except for fiscal year 2007 when no more than two scholars per district shall be selected; and, if not used by an original recipient, to the Washington scholars-alternate from the same legislative district.

Beginning with scholars selected in the year 2000, if the recipients of grants fail to demonstrate in a timely manner that they will enroll in a Washington institution of higher education in the fall term of the academic year following the award of the grant or are deemed by the higher education coordinating board to have withdrawn from college during the first academic year following the award, then the grant shall be considered relinquished. The higher education coordinating board may then award any remaining grant amounts to the Washington scholars-alternate from the same legislative district if the grants are awarded within one calendar year of the recipient being named a Washington scholars-alternate. Washington scholars-alternates named as recipients of the grant must also demonstrate in a timely manner that they will enroll in a Washington institution of higher education during the next available term, as determined by the higher education coordinating board. The board may accept appeals and grant waivers to the enrollment requirements of this section based on exceptional mitigating circumstances of individual grant recipients.

To maintain eligibility for the grants, recipients must maintain a minimum grade point average at the college or university equivalent to 3.30. Students shall be eligible to receive a maximum of twelve quarters or eight semesters of grants for
undergraduate study and may transfer among in-state public and independent colleges and universities during that period and continue to receive the grant as provided under RCW 28B.76.665. If the student's cumulative grade point average falls below 3.30 during the first three quarters or two semesters, that student may petition the higher education coordinating board which shall have the authority to establish a probationary period until such time as the student's grade point average meets required standards.

(3) No grant shall be awarded to any student who is pursuing a degree in theology.

(4) As used in this section, "independent college or university" means a private, nonprofit educational institution, the main campus of which is permanently situated in the state, open to residents of the state, providing programs of education beyond the high school level leading at least to the baccalaureate degree, and accredited by the northwest association of schools and colleges as of June 9, 1988, and other institutions as may be developed that are approved by the higher education coordinating board as meeting equivalent standards as those institutions accredited under this section.

(5) As used in this section, "public college or university" means an institution of higher education as defined in RCW 28B.10.016.

Sec. 918. RCW 28B.102.040 and 2004 c 276 s 905, 2004 c 275 s 68, and 2004 c 58 s 4 are each reenacted and amended to read as follows:

(1) The board may select participants based on an application process conducted by the board or the board may utilize selection processes for similar students in cooperation with the professional educator standards board or the office of the superintendent of public instruction.

(2) If the board selects participants for the program, it shall establish a selection committee for screening and selecting recipients of the conditional scholarships. The criteria shall emphasize factors demonstrating excellence including but not limited to superior scholastic achievement, leadership ability, community contributions, bilingual ability, willingness to commit to providing teaching service in shortage areas, and an ability to act as a role model for students. Priority will be given to individuals seeking certification or an additional endorsement in math, science, technology, or special education.

(Subject to enactment of chapter 58, Laws of 2004.) For fiscal years (2005) 2006 and 2007, additional priority shall be given to such individuals who are also bilingual. It is the intent of the legislature to develop a pool of dual-language teachers in order to meet the challenge of educating students who are dominant in languages other than English.

Sec. 919. RCW 41.05.050 and 2003 c 158 s 1 are each amended to read as follows:

(1) Every department, division, or separate agency of state government, and such county, municipal, school district, educational service district, or other political subdivisions as are covered by this chapter, shall provide contributions to insurance and health care plans for its employees and their dependents, the content of such plans to be determined by the authority. Contributions, paid by the county, the municipality, or other political subdivision for their employees, shall include an amount determined by the authority to pay such administrative expenses of the authority as are necessary to administer the plans for employees of those groups, except as provided in subsection (4) of this section.

(2) If the authority at any time determines that the participation of a county, municipal, or other political subdivision covered under this chapter adversely impacts insurance rates for state employees, the authority shall implement limitations on the participation of additional county, municipal, or other political subdivisions.

(3) The contributions of any department, division, or separate agency of the state government, and such county, municipal, or other political subdivisions as are covered by this chapter, shall be set by the authority, subject to the approval of the governor for availability of funds as specifically appropriated by the legislature for that purpose. Insurance and health care contributions for ferry employees shall be governed by RCW 47.64.270.

(4)(a) Beginning September 1, 2003, the authority shall collect from each participating school district and educational service district an amount equal to the composite rate charged to state agencies, plus an amount equal to the employee premiums by plan and family size as would be charged to state employees, for groups of district employees enrolled in authority plans as of January 1, 2003. However, during the 2005-07 fiscal biennium, the authority shall collect from each participating school district and educational service district an amount equal to the insurance benefit allocations provided in section 504 of this act, plus any additional funding provided by the legislature for school employee health benefits, plus an amount equal to the employee premiums by plan and family size as would be charged to state employees, for groups of district employees enrolled in authority plans as of July 1, 2005.

(b) For all groups of district employees enrolling in authority plans for the first time after September 1, 2003, the authority shall collect from each participating school district an amount equal to the composite rate charged to state agencies, plus an amount equal to the employee premiums by plan and by family size as would be charged to state employees, only if the
authority determines that this method of billing the districts will not result in a material difference between revenues from districts and expenditures made by the authority on behalf of districts and their employees.

(c) If the authority determines at any time that the conditions in (b) of this subsection cannot be met, the authority shall offer enrollment to additional groups of district employees on a tiered rate structure until such time as the authority determines there would be no material difference between revenues and expenditures under a composite rate structure for all district employees enrolled in authority plans.

(d) The authority may charge districts a one-time set-up fee for employee groups enrolling in authority plans for the first time.

(e) For the purposes of this subsection:

(i) "District" means school district and educational service district; and

(ii) "Tiered rates" means the amounts the authority must pay to insuring entities by plan and by family size.

(f) Notwithstanding this subsection and RCW 41.05.065(3), the authority may allow districts enrolled on a tiered rate structure prior to September 1, 2002, to continue participation based on the same rate structure and under the same conditions and eligibility criteria.

(5) The authority shall transmit a recommendation for the amount of the employer contribution to the governor and the director of financial management for inclusion in the proposed budgets submitted to the legislature.

**Sec. 920.** RCW 41.05.065 and 2003 c 158 s 2 are each amended to read as follows:

(1) The board shall study all matters connected with the provision of health care coverage, life insurance, liability insurance, accidental death and dismemberment insurance, and disability income insurance or any of, or a combination of, the enumerated types of insurance for employees and their dependents on the best basis possible with relation both to the welfare of the employees and to the state. However, liability insurance shall not be made available to dependents.

(2) The board shall develop employee benefit plans that include comprehensive health care benefits for all employees. In developing these plans, the board shall consider the following elements:

(a) Methods of maximizing cost containment while ensuring access to quality health care;

(b) Development of provider arrangements that encourage cost containment and ensure access to quality care, including but not limited to prepaid delivery systems and prospective payment methods;

(c) Wellness incentives that focus on proven strategies, such as smoking cessation, injury and accident prevention, reduction of alcohol misuse, appropriate weight reduction, exercise, automobile and motorcycle safety, blood cholesterol reduction, and nutrition education;

(d) Utilization review procedures including, but not limited to a cost-efficient method for prior authorization of services, hospital inpatient length of stay review, requirements for use of outpatient surgeries and second opinions for surgeries, review of invoices or claims submitted by service providers, and performance audit of providers;

(e) Effective coordination of benefits;

(f) Minimum standards for insuring entities; and

(g) Minimum scope and content of public employee benefit plans to be offered to enrollees participating in the employee health benefit plans. To maintain the comprehensive nature of employee health care benefits, employee eligibility criteria related to the number of hours worked and the benefits provided to employees shall be substantially equivalent to the state employees' health benefits plan and eligibility criteria in effect on January 1, 1993. Nothing in this subsection (2)(g) shall prohibit changes or increases in employee point-of-service payments or employee premium payments for benefits.

(3) The board shall design benefits and determine the terms and conditions of employee participation and coverage, including establishment of eligibility criteria. The same terms and conditions of participation and coverage, including eligibility criteria, shall apply to state employees and to school district employees and educational service district employees.

(4) The board may authorize premium contributions for an employee and the employee's dependents in a manner that encourages the use of cost-efficient managed health care systems. During the 2005-2007 fiscal biennium, the board may only authorize premium contributions for an employee and the employee's dependents that are the same, regardless of an employee's status as represented or nonrepresented by a collective bargaining unit under the personnel system reform act of 2002. The board shall require participating school district and educational service district employees to pay at least the same employee premiums by plan and family size as state employees pay.

(5) Employees shall choose participation in one of the health care benefit plans developed by the board and may be permitted to waive coverage under terms and conditions established by the board.

(6) The board shall review plans proposed by insuring entities that desire to offer property insurance and/or accident and casualty insurance to state employees through payroll deduction. The board may approve any such plan for payroll deduction by insuring entities holding a valid certificate of authority in the state of Washington and which the board determines
to be in the best interests of employees and the state. The board shall promulgate rules setting forth criteria by which it shall evaluate the plans.

(7) Before January 1, 1998, the public employees' benefits board shall make available one or more fully insured long-term care insurance plans that comply with the requirements of chapter 48.84 RCW. Such programs shall be made available to eligible employees, retired employees, and retired school employees as well as eligible dependents which, for the purpose of this section, includes the parents of the employee or retiree and the parents of the spouse of the employee or retiree. Employees of local governments and employees of political subdivisions not otherwise enrolled in the public employees' benefits board sponsored medical programs may enroll under terms and conditions established by the administrator, if it does not jeopardize the financial viability of the public employees' benefits board's long-term care offering.

(a) Participation of eligible employees or retired employees and retired school employees in any long-term care insurance plan made available by the public employees' benefits board is voluntary and shall not be subject to binding arbitration under chapter 41.56 RCW. It shall then be the duty of all such employers to include in their budgets or otherwise provide the amounts so required.

(3) The department shall compute and bill each employer, as defined in RCW 41.26.030, 41.32.010, 41.35.010, 41.37.010, or 41.40.010, at the end of each month for the amount due for that month to the department of retirement systems expense fund and the same shall be paid as are its other obligations. (1) The emergency reserve fund is established in the state treasury. During each fiscal year, the state treasurer shall deposit in the emergency reserve fund all general fund--state revenues in excess of the state expenditure limit for that fiscal year. Deposits shall be made at the end of each fiscal quarter based on projections of state revenues and the state expenditure limit. The treasurer shall make transfers between these accounts as necessary to reconcile annual revenues and the expenditure limit for fiscal year 2000 and thereafter.

(2) The legislature may appropriate moneys from the emergency reserve fund only with approval of at least two-thirds of the members of each house of the legislature, and then only if the appropriation does not cause total expenditures to exceed the state expenditure limit under this chapter.

(3) The emergency reserve fund balance shall not exceed five percent of annual general fund--state revenues as projected by the official state revenue forecast. Any balance in excess of five percent shall be transferred on a quarterly basis by the state treasurer as follows: Seventy-five percent to the student achievement fund hereby created in the state treasury and twenty-five percent to the general fund balance. The treasurer shall make transfers between these accounts as necessary to reconcile actual annual revenues for fiscal year 2000 and thereafter. When per-student state funding for the maintenance and operation of K-12 education meets a level of no less than ninety percent of the national average of total funding from all sources per student as determined by the most recent published data from the national center for education statistics of the United States Department of Education, as calculated by the office of financial management, further deposits to the student achievement fund shall be required only to the extent necessary to maintain the ninety-percent level. Remaining funds are part of the general fund balance and these funds are subject to the expenditure limits of this chapter.

(4) The education construction fund is hereby created in the state treasury.

(a) Funds may be appropriated from the education construction fund exclusively for common school construction or higher education construction.

(b) Funds may be appropriated for any other purpose only if approved by a two-thirds vote of each house of the legislature and if approved by a vote of the people at the next general election. An appropriation approved by the people under this subsection shall result in an adjustment to the state expenditure limit only for the fiscal period for which the appropriation is made and shall not affect any subsequent fiscal period.

(5) Funds from the student achievement fund shall be appropriated to the superintendent of public instruction strictly for distribution to school districts to meet the provisions set out in the student achievement act. Allocations shall be made on an equal per full-time equivalent student basis to each school district.

(6) Earnings of the emergency reserve fund under RCW 43.84.092(4)(a) shall be transferred quarterly to the multimodal transportation account, except for those earnings that are in excess of thirty-five million dollars each fiscal year. Within thirty days following any fiscal year in which earnings transferred to the multimodal transportation account under this subsection did not total thirty-five million dollars, the state treasurer shall transfer from the emergency reserve fund an amount
necessary to bring the total deposited in the multimodal transportation account under this subsection to thirty-five million dollars. The revenues to the multimodal transportation account reflected in this subsection provide ongoing support for the transportation programs of the state. However, it is the intent of the legislature that any new long-term financial support that may be subsequently provided for transportation programs will be used to replace and supplant the revenues reflected in this subsection, thereby allowing those revenues to be returned to the purposes to which they were previously dedicated. No transfers from the emergency reserve fund to the multimodal fund shall be made during the 2003-2005 fiscal biennium.

During the 2005-2007 fiscal biennium, the legislature may transfer from the financial services regulation fund to the state general fund such amounts as reflect the excess fund balance of the fund.

The department shall issue an overpayment assessment setting forth the reasons for and the amount of the overpayment. The amount assessed, to the extent not collected, may be deducted from any future benefits payable to the individual: PROVIDED, That in the absence of a back pay award, a settlement affecting the allowance of benefits, fraud, misrepresentation, or willful nondisclosure, every determination of liability shall be mailed or personally served not later than two years after the close of or final payment made on the individual's applicable entitlement for the eligibility period containing the weeks to which the purported overpayment was made, whichever is later, unless the merits of the claim are subjected to administrative or judicial review in which event the period for serving the determination of liability shall be extended to allow service of the determination of liability during the six-month period following the final decision affecting the claim.

(2) The commissioner may waive an overpayment if the commissioner finds that the overpayment was not the result of fraud, misrepresentation, willful nondisclosure, or fault attributable to the individual and that the recovery thereof would be against equity and good conscience: PROVIDED, HOWEVER, That the overpayment so waived shall be charged against the individual's applicable entitlement for the eligibility period containing the weeks to which the overpayment was attributed as though such benefits had been properly paid.

(3) Any assessment herein provided shall constitute a determination of liability from which an appeal may be had in the same manner and to the same extent as provided for appeals relating to determinations in respect to claims for benefits: PROVIDED, That an appeal from any determination covering overpayment only shall be deemed to be an appeal from the determination which was the basis for establishing the overpayment unless the merits involved in the issue set forth in such determination have already been heard and passed upon by the appeal tribunal. If no such appeal is taken to the appeal tribunal by the individual within thirty days of the delivery of the notice of determination of liability, or within thirty days of the mailing of the notice of determination, whichever is the earlier, the determination of liability shall be deemed conclusive and final. Whenever any such notice of determination of liability becomes conclusive and final, the commissioner, upon giving at least twenty days notice by certified mail return receipt requested to the individual's last known address of the intended action, may file with the superior court clerk of any county within the state a warrant in the amount of the notice of determination of liability plus a filing fee under RCW 36.18.012(10). The clerk of the county where the warrant is filed shall immediately designate a superior court cause number for the warrant, and the clerk shall cause to be entered in the judgment docket under the superior court cause number assigned to the warrant, the name of the person(s) mentioned in the warrant, the amount of the notice of determination of liability, and the date when the warrant was filed. The amount of the warrant as docketed shall become a lien upon the title to, and any interest in, all real and personal property of the person(s) against whom the warrant is issued, the same as a judgment in a civil case duly docketed in the office of such clerk. A warrant so docketed shall be sufficient to support the issuance of writs of execution and writs of garnishment in favor of the state in the manner provided by law for a civil judgment. A copy of the warrant shall be mailed to the person(s) mentioned in the warrant by certified mail to the person's last known address within five days of its filing with the clerk.

(4) On request of any agency which administers an employment security law of another state, the United States, or a foreign government and which has found in accordance with the provisions of such law that a claimant is liable to repay benefits received under such law, the commissioner may collect the amount of such benefits from the claimant to be refunded to the agency. In any case in which under this section a claimant is liable to repay any amount to the agency of another state, the United States, or a foreign government, such amounts may be collected without interest by civil action in the name of the commissioner acting as agent for such agency if the other state, the United States, or the foreign government extends such
collection rights to the employment security department of the state of Washington, and provided that the court costs be paid by the governmental agency benefiting from such collection.

(5) Any employer who is a party to a back pay award or settlement due to loss of wages shall, within thirty days of the award or settlement, report to the department the amount of the award or settlement, the name and social security number of the recipient of the award or settlement, and the period for which it is awarded. When an individual has been awarded or receives back pay, for benefit purposes the amount of the back pay shall constitute wages paid in the period for which it was awarded. For contribution purposes, the back pay award or settlement shall constitute wages paid in the period in which it was actually paid. The following requirements shall also apply:

(a) The employer shall reduce the amount of the back pay award or settlement by an amount determined by the department based upon the amount of unemployment benefits received by the recipient of the award or settlement during the period for which the back pay award or settlement was awarded;

(b) The employer shall pay to the unemployment compensation fund, in a manner specified by the commissioner, an amount equal to the amount of such reduction;

(c) The employer shall also pay to the department any taxes due for unemployment insurance purposes on the entire amount of the back pay award or settlement notwithstanding any reduction made pursuant to (a) of this subsection;

(d) If the employer fails to reduce the amount of the back pay award or settlement as required in (a) of this subsection, the department shall issue an overpayment assessment against the recipient of the award or settlement in the amount that the back pay award or settlement should have been reduced; and

(e) If the employer fails to pay to the department an amount equal to the reduction as required in (b) of this subsection, the department shall issue an assessment of liability against the employer which shall be collected pursuant to the procedures for collection of assessments provided herein and in RCW 50.24.110.

(6) When an individual fails to repay an overpayment assessment that is due and fails to arrange for satisfactory repayment terms, the commissioner shall impose an interest penalty of one percent per month of the outstanding balance. Interest shall accrue immediately on overpayments assessed pursuant to RCW 50.20.070 and shall be imposed when the assessment becomes final. For any other overpayment, interest shall accrue when the individual has missed two or more of the individual's monthly payments either partially or in full. The interest penalty shall be used, first, to fully fund either social security number cross-match audits or other more effective activities that ensure that individuals are entitled to all amounts of benefits that they are paid (((and)), second, to fund other detection and recovery of overpayment and collection activities, and third, during the 2005-07 fiscal biennium, the cost of the job skills program at community and technical colleges as appropriated by the legislature.

Sec. 1101. 2004 c 276 s 201 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES.

(1) Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3)(a) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. However, after May 1, 2004, unless specifically prohibited by this act, the department may transfer general fund--state appropriations for fiscal year 2004 among programs after approval by the director of financial management; and after May 1, 2005, unless specifically prohibited by this act, the department may transfer general fund--state appropriations for fiscal year 2005 in this act and in chapter 278, Laws of 2004 among programs after approval by the director of
financial management. However, the department shall not transfer state moneys that are provided solely for a specified purpose except as expressly provided in subsection (3)(b) of this section.

(b) To the extent that transfers under subsection (3)(a) of this section are insufficient to fund actual expenditures in excess of fiscal year 2004 and fiscal year 2005 caseload forecasts and utilization assumptions in the medical assistance, long-term care, foster care, adoption support, and child support programs, the department may transfer state moneys that are provided solely for a specified purpose after approval by the director of financial management.

(c) The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing prior to approving any allotment modifications or transfers under this subsection.

(4) After consultation and coordination with local elected officials and community groups to assure there will be no degradation in existing services as a result of implementing the Washington medicaid integration project, the department shall report its progress to the appropriate committees of the legislature during the 2004 September committee assembly days and is authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage Medicaid expenditures for the aged and disabled population. Under this Washington medicaid integration partnership (WMIP) the department may combine and transfer such Medicaid funds appropriated under sections 204, 206, 208, and 209 of this act as may be necessary to finance a unified health care plan for the WMIP program enrollment. The WMIP pilot projects shall not exceed a daily enrollment of 6,000 persons during the 2003-05 biennium. The amount of funding assigned to the pilot projects from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled in the pilot, times the number of clients enrolled in the pilot. In implementing the WMIP pilot projects, the department may: (a) Withhold from calculations of "available resources" as set forth in RCW 71.24.025 a sum equal to the capitated rate for individuals enrolled in the pilots; and (b) employ capitation financing and risk-sharing arrangements in collaboration with health care service contractors licensed by the office of the insurance commissioner and qualified to participate in both the medicaid and medicare programs. The department shall conduct an evaluation of the WMIP, measuring changes in participant health outcomes, changes in patterns of service utilization, participant satisfaction, participant access to services, and the state fiscal impact.

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES--DEVELOPMENTAL DISABILITIES PROGRAM

(1) COMMUNITY SERVICES
General Fund--State Appropriation (FY 2004) $250,633,000
General Fund--State Appropriation (FY 2005) (($274,414,000))
General Fund--Federal Appropriation (($453,434,000))
Health Services Account--State Appropriation $971,000
TOTAL APPROPRIATION (($979,452,000)) $975,188,000

The appropriations in this subsection are subject to the following conditions and limitations:

(a) Any new funding for family support and high school transition along with a portion of existing funding for these programs shall be provided as supplemental security income (SSI) state supplemental payments for persons with developmental disabilities in families with taxable incomes at or below 150 percent of median family income. Individuals receiving family support or high school transition payments shall not become eligible for medical assistance under RCW 74.09.510 due solely to the receipt of SSI state supplemental payments.

(b) The health services account appropriation and $971,000 of the general fund--federal appropriation are provided solely for health care benefits for home care workers with family incomes below 200 percent of the federal poverty level who are employed through state contracts for twenty hours per week or more.

(i) Premium payments for individual provider home care workers shall be made only to the subsidized basic health plan.

(ii) Home care agencies may obtain coverage either through the basic health plan or through an alternative plan with substantially equivalent benefits. Premium payments made to home care agencies shall be limited to home care workers who are employed at least twenty hours per week to serve state-funded clients. It is the intent of the legislature to fund the purchase of health care benefits for agency home care providers in a more fiscally prudent manner. The legislature encourages agency providers to purchase more cost-effective health care benefits, including increasing participation in the basic health plan or purchasing substantially equivalent benefits with substantially equivalent costs.

(c) $562,000 of the general fund--state appropriation for fiscal year 2004, $1,767,000 of the general fund--state appropriation for fiscal year 2005, and $2,266,000 of the general fund--federal appropriation are provided solely for community residential and support services. Funding in this subsection shall be prioritized for (i) residents of residential habilitation centers who are able to be adequately cared for in community settings and who choose to live in those community settings; (ii) clients without residential services who are at immediate risk of institutionalization or in crisis; (iii) children who are aging out of other state services; and (iv) current home and community-based waiver program clients who have been assessed as having an immediate need for increased services. The department shall ensure that the average cost per day for all program services other than start-up costs shall not exceed $300. In order to maximize the number of clients served and ensure the cost-effectiveness of the waiver programs, the department will strive to limit new client placement expenditures to 90 percent of the budgeted daily rate. If this can be accomplished, additional clients may be served with excess funds provided the total projected carry-forward
expenditures do not exceed the amounts estimated. The department shall implement the four new waiver programs such that decisions about enrollment levels and the amount, duration, and scope of services maintain expenditures within appropriations. The department shall electronically report to the appropriate committees of the legislature, within 45 days following each fiscal year quarter, the number of residents moving into community settings and the actual expenditures for all community services to support those residents.

(d) $563,000 of the general fund--state appropriation for fiscal year 2004, $1,390,000 of the general fund--state appropriation for fiscal year 2005, and $1,905,000 of the general fund--federal appropriation are provided solely for expanded community services for persons with developmental disabilities who also have community protection issues. Funding in this subsection shall be prioritized for (i) clients being diverted or discharged from the state psychiatric hospitals; (ii) clients participating in the dangerous mentally ill offender program; (iii) clients participating in the community protection program; and (iv) mental health crisis diversion outplacements. The department shall ensure that the average cost per day for all program services other than start-up costs shall not exceed $300. In order to maximize the number of clients served and ensure the cost-effectiveness of the waiver programs, the department will strive to limit new client placement expenditures to 90 percent of the budgeted daily rate. If this can be accomplished, additional clients may be served with excess funds provided the total projected carry-forward expenditures do not exceed the amounts estimated. The department shall implement the four new waiver programs such that decisions about enrollment levels and the amount, duration, and scope of services maintain expenditures within appropriations. The department shall electronically report to the appropriate committees of the legislature, within 45 days following each fiscal year quarter, the number of persons served with these additional community services, where they were residing, what kinds of services they were receiving prior to placement, and the actual expenditures for all community services to support these clients.

(e) The department shall provide a status report on the transition, implementation, and operation of the four home and community-based waivers that will replace the community alternatives program waiver. The department shall electronically report to the appropriate committees of the legislature, within 45 days following each fiscal year quarter for the quarters through December 2004, the following information for each home and community-based waiver: Total projected state and federal fiscal year expenditures, year-to-date actual expenditures compared to projected expenditures, year-to-date unduplicated clients compared to projected clients, actual average per capita costs compared to projected per capita costs, number of transfers between waivers, amount of emergency funds spent to date compared to projected emergency costs, state and federal funds transferred from the medicaid personal care program to the four home and community-based waiver programs, and the year-to-date number of new clients added to a waiver program.

(f) The department may transfer funding provided in this subsection to meet the purposes of subsection (2) of this section to the extent that fewer residents of residential habilitation centers choose to move to community placements than was assumed in this appropriation.

The amounts in this subsection shall be used to increase compensation for direct care workers by 75 cents per hour. The amounts in this subsection also include the funds needed for the employer share of unemployment and social security taxes on the amount of the increase.

(i) $1,000,000 of the general fund--state appropriation for fiscal year 2005 and $300,000 of the general fund--federal appropriation are provided solely for employment and day services. Priority consideration for this new funding shall be young adults with developmental disabilities living with their family who need employment opportunities and assistance after high school graduation. Services shall be provided proportionately between waiver and nonwaiver clients. Federal funds may be used to enhance this funding only to the extent that a client is already on a home and community-based waiver. This funding shall not be used to add new clients to a home and community-based waiver.

(j) ($322,000) $347,000 of the general fund--state appropriation for fiscal year 2005 and ($290,000) $322,000 of the general fund--federal appropriation are provided solely to increase payments to agency home care providers from $14.27 per hour to $14.93 per hour, effective October 1, 2004. The appropriations in this section are subject to the following conditions and limitations:

1. Based on quarterly expenditure reports and caseload forecasts, if the department estimates that expenditures for the medical assistance program will exceed the appropriations, the department shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

2. The department shall continue to extend medicaid eligibility to children through age 18 residing in households with incomes below 200 percent of the federal poverty level.

It is the legislature’s intent that the payments provided in this subsection shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs to improve access to healthcare at nursing facilities otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. A ((hospital)) nursing home which does not participate in the supplemental payment intergovernmental transfer budgeted for fiscal year 2003 shall not be eligible to participate in the supplemental payments budgeted in this subsection for fiscal year 2004. In designing strategies, the primary strategy considered shall be selective or direct contracting with durable medical equipment and supplies vendors or manufacturers.

(14) The department shall, within available resources, design and implement a medical care services care management pilot project for clients receiving general assistance benefits. The pilot project shall be operated in at least two of the counties with the highest concentration of general assistance clients, and may use a full or partial capitation model. The pilot project shall begin enrollment on July 1, 2004.

Disease prevention among infants at the age of one year and among children entering the K-12 education system provides cost-effective ways to avoid higher health care spending later in life.

(19) The department shall secure a federal waiver, effective no later than September 1, 2003, which will enable it to charge (waive) premiums for medical and dental coverage of children whose family incomes exceed the federal poverty level.

These funds shall not be allocated to cover any portion of agency indirect and administrative expenses. The legislature finds that general fund and disaster response account support for emergency fire suppression is a significant and direct subsidy of the costs to administer and manage various trust lands. It would be an unintended additional subsidy if a portion of the general fund and disaster response account amounts provided in this subsection were used to fund agency indirect and administrative expenses. To avoid this unintended additional subsidy, agency indirect and administrative costs shall be allocated among the agency's remaining accounts and appropriations.

(4) $582,000 of the aquatic lands enhancement account appropriation is provided solely for spartina control.

(5) Fees approved by the board of natural resources in the 2003-05 biennium are authorized to exceed the fiscal growth factor under RCW 43.135.055.

The report shall be submitted to the director of financial management and the legislative fiscal committees by August 31, 2003.

(7) Authority to expend funding for acquisition of technology equipment and software associated with development of a new revenue management system is conditioned on compliance with section 902 of this act.

(9) The department of natural resources shall provide a report to the appropriate committees of the legislature, the office of financial management, and the board of natural resources concerning the costs and effectiveness of the contract harvesting program as authorized by Second Substitute Senate Bill No. 5074 (contract harvesting), chapter 313, Laws of 2003. The report shall be submitted by December 31, 2006, and shall include the following information:

(a) Number of sales conducted through contract harvesting;

(b) For each sale conducted, the (i) number of board feet sold; (ii) stumpage and pond prices; (iii) difference in revenues received compared to revenues that would have accrued through noncontract harvest sales, and the distribution of revenues to the contract harvesting revolving account, and to applicable management and trust accounts; and (iv) total cost to conduct the contract harvest, by fund and object of expenditure; and

(c) Other costs and benefits attributable to contract harvesting.

(10) $208,000 of the general fund--state appropriation of fiscal year 2004 and $70,000 of the general fund--state appropriation for fiscal year 2005 are provided solely to implement Second Substitute House Bill No. 1095 (small forest landowners), chapter 311, Laws of 2003.

(11) The department of natural resources shall not close Sahara Creek facility, campground, or trailhead. The appropriations in this section are deemed sufficient to provide service for these recreational opportunities.

Expenditure of the moneys provided in this subsection shall not be made until the SDS lumber company accepts the land and timber acquisition as full and complete settlement of the current litigation brought by the SDS lumber company against the state and the litigation is dismissed, with prejudice. The land and timber acquired with the funding in this subsection shall be managed for the benefit of the common schools. By June 30, 2004, if the department has not recovered through trust asset management the state's capital investment from the land acquisition provided in this subsection, the department shall seek reimbursement from the federal government.

(14) $265,000 of the aquatic lands enhancement account appropriation is provided solely for developing a pilot project to study the feasibility of geoduck aquaculture on both intertidal and subtidal lands in the state of Washington.

(17) $40,000 of the aquatic lands enhancement account appropriation is provided solely for the department to (a) calculate the rent for DNR-leased marinas based on a percentage of a marina's income and (b) recommend an appropriate formula to the 2005 legislature.

Burlington Northern Santa Fe Railroad, et al. In the event: (i) A final settlement agreement is not signed by the port of Seattle, Pacific Sound Resources, and the department of natural resources by March 25, 2004; or (ii) the U.S. environmental protection agency, or the department of justice if necessary, fail to settle with the state and the department and provide a covenant not to sue and contribution protection with no additional consideration required, then $550,000 of the general fund--state appropriation for fiscal year 2005 shall be available to use to fund the existing PSR litigation and the remainder of the amounts provided in this subsection (a) shall lapse.

Sec. 1403. 2004 c 276 s 503 (uncodified) is amended to read as follows:

(1) The following calculations determine the salaries used in the general fund allocations for certificated instructional, certificated administrative, and classified staff units under section 502 of this act:

(a) Salary allocations for certificated instructional staff units shall be determined for each district by multiplying the district's certificated instructional total base salary shown on LEAP Document 12E by the district's average staff mix factor for certificated instructional staff in that school year, computed using LEAP Document 1Sa for the 2003-04 school year and LEAP Document 1Sb for the 2004-05 school year; and

(b) Salary allocations for certificated administrative staff units and classified staff units for each district shall be based on the district's certificated administrative and classified salary allocation amounts shown on LEAP Document 12E.

(2) For the purposes of this section:
(a) "LEAP Document 1Sa" means the computerized tabulation establishing staff mix factors for certificated instructional staff for the 2003-04 school year according to education and years of experience, as developed by the legislative evaluation and accountability program committee on March 31, 2003, at 09:06 hours;

(b) "LEAP Document 1Sb" means the computerized tabulation establishing staff mix factors for certificated instructional staff for the 2004-05 school year according to education and years of experience, as developed by the legislative evaluation and accountability program committee on March 31, 2003, at 09:06 hours; and

(c) "LEAP Document 12E" means the computerized tabulation of 2003-04 and 2004-05 school year salary allocations for certificated administrative staff and classified staff and derived and total base salaries for certificated instructional staff as developed by the legislative evaluation and accountability program committee on March 31, 2003, at 09:06 hours.

(3) Incremental fringe benefit factors shall be applied to salary adjustments at a rate of 9.04 percent for school year 2003-04 and ((0.95) 9.02 percent for school year 2004-05 for certificated staff and for classified staff 8.75 percent for school year 2003-04 and ((8.75) 8.72 percent for the 2004-05 school year.

(4)(a) Pursuant to RCW 28A.150.410, the following state-wide salary allocation schedules for certificated instructional staff are established for basic education salary allocations:

(b) As used in this subsection, the column headings "BA+(N)" refer to the number of credits earned since receiving the baccalaureate degree.

(c) For credits earned after the baccalaureate degree but before the masters degree, any credits in excess of forty-five credits may be counted after the masters degree. Thus, as used in this subsection, the column headings "MA+(N)" refer to the total of:

(i) Credits earned since receiving the masters degree; and
(ii) Any credits in excess of forty-five credits that were earned after the baccalaureate degree but before the masters degree.

(5) For the purposes of this section:
(a) "BA" means a baccalaureate degree.
(b) "MA" means a masters degree.
(c) "PHD" means a doctorate degree.
(d) "Years of service" shall be calculated under the same rules adopted by the superintendent of public instruction.
(e) "Credits" means college quarter hour credits and equivalent in-service credits computed in accordance with RCW 28A.415.020 and 28A.415.023.

(6) No more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and LEAP documents referenced in this act, or any replacement schedules and documents, unless:
(a) The employee has a masters degree; or
(b) The credits were used in generating state salary allocations before January 1, 1992.

(7) The certificated instructional staff base salary specified for each district in LEAP Document 12E and the salary schedules in subsection (4)(a) of this section include two learning improvement days. A school district is eligible for the learning improvement day funds only if the learning improvement days have been added to the 180-day contract year. If fewer days are added, the additional learning improvement allocation shall be adjusted accordingly. The additional days shall be for activities related to improving student learning consistent with education reform implementation, and shall not be considered part of basic education. The length of a learning improvement day shall not be less than the length of a full day under the base contract. The superintendent of public instruction shall ensure that school districts adhere to the intent and purposes of this subsection.

(8) The salary allocation schedules established in this section are for allocation purposes only except as provided in RCW 28A.400.200(2), subsection (7) of this section, and section 504(1) of this act.
Sec. 1404. 2004 c 276 s 504 (uncodified) is amended to read as follows:

FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SCHOOL EMPLOYEE COMPENSATION
ADJUSTMENTS

General Fund--State Appropriation (FY 2004)
$28,604,000

General Fund--State Appropriation (FY 2005)
($132,202,000)

General Fund--Federal Appropriation
($663,000)

TOTAL APPROPRIATION
($161,469,000)

$161,491,000

The appropriations in this section are subject to the following conditions and limitations:

(1) $8,944,000 of the general fund--state appropriation for fiscal year 2004 and ($20,339,000) $20,366,000 of the general fund--state appropriation for fiscal year 2005 are provided solely to provide a salary adjustment for state formula certificated instructional staff units in their first seven years of service. Consistent with the statewide certificated instructional staff salary allocation schedule in section 503 of this act, sufficient funding is provided to increase the salary of certificated instructional staff units in the 2003-04 school year and the 2004-05 school year by the following percentages: Three percent for certificated instructional staff in their first and second years of service; two and one-half percent for certificated instructional staff in their third year of service; one and one-half percent for certificated instructional staff in their fourth year of service; one percent for certificated instructional staff in their fifth year of service; and one-half of a percent for certificated instructional staff in their sixth and seventh years of service. These increases will take effect September 1, 2003 and September 1, 2004.

(a) In order to receive funding provided in this subsection, school districts shall certify to the office of superintendent of public instruction that they will provide the percentage increases in the amounts specified in this subsection. In cases where a school district providing the increases in the amounts specified in this subsection would cause that school district to be out of compliance with RCW 28A.400.200, they may provide salary increases in different amounts but only to the extent necessary to come into compliance with RCW 28A.400.200. Funds provided in this subsection shall be used exclusively for providing the percentage increases specified in this subsection to the certificated staff units in their first seven years of service and shall not be used to supplant any other state or local funding for compensation for these staff.

(b) The appropriations include associated incremental fringe benefit allocations at rates of 9.04 percent for school year 2003-04 and (9.02) 9.02 percent for school year 2004-05 for certificated staff. Increases for general apportionment (basic education) are based on the salary allocation schedules and methodology in sections 502 and 503 of this act. Increases for special education result from increases in each district's basic education allocation per student. Increases for educational service districts and institutional education programs are determined by the superintendent of public instruction using the methodology for general apportionment salaries and benefits in sections 502 and 503 of this act.

(2) ($5,452,000) $5,443,000 of the general fund--state appropriation is provided solely to provide a salary adjustment for state formula classified units of one percent effective September 1, 2004, and ($126,598,000) $126,605,000 is provided solely for adjustments to insurance benefit allocations.

(a)(i) In order to receive funding provided in this subsection for salary adjustments for state formula classified units, school districts shall certify to the office of superintendent of public instruction that they will provide the percentage increases in the amounts specified in this subsection. Funds provided in this subsection for this purpose shall be used exclusively for providing the percentage increases specified in this subsection to classified staff units and shall not be used to supplant any other state or local funding for compensation for these staff.

(ii) The appropriations include associated incremental fringe benefit allocations at rates of (8.75) 8.72 percent for the 2004-05 school year for classified staff. The appropriations in this section include the increased portion of salaries and incremental fringe benefits for all relevant state-funded school programs in this part V of this act. Increases for general apportionment (basic education) are based on the salary allocation schedules and methodology in sections 502 and 503 of this act. Increases for special education result from increases in each district's basic education allocation per student. Increases for
educational service districts and institutional education programs are determined by the superintendent of public instruction using the methodology for general apportionment salaries and benefits in sections 502 and 503 of this act.

(b) The maintenance rate for insurance benefit allocations is $457.07 per month for the 2003-04 and 2004-05 school years. The appropriations in this section provide for a rate increase to $481.31 per month for the 2003-04 school year and $582.47 per month for the 2004-05 school year.

(3) The appropriations in this section provide salary adjustments and incremental fringe benefit allocations based on formula adjustments as follows:

General Fund--State Appropriation (FY 2004) $215,454,000

General Fund--State Appropriation (FY 2005) ($219,899,000)

TOTAL APPROPRIATION ($435,353,000) $447,749,000

The appropriations in this section are subject to the following conditions and limitations:

(1) Each general fund fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(2) A maximum of $768,000 of this fiscal year 2004 appropriation and a maximum of $774,000 of the fiscal year 2005 appropriation may be expended for regional transportation coordinators and related activities. The transportation coordinators shall ensure that data submitted by school districts for state transportation funding shall, to the greatest extent practical, reflect the actual transportation activity of each district.

(3) $5,000 of the fiscal year 2004 appropriation and $5,000 of the fiscal year 2005 appropriation are provided solely for the transportation of students enrolled in "choice" programs. Transportation shall be limited to low-income students who are transferring to "choice" programs solely for educational reasons.
(4) Allocations for transportation of students shall be based on reimbursement rates of $39.21 per weighted mile in the 2003-04 school year and $39.30 per weighted mile in the 2004-05 school year exclusive of salary and benefit adjustments provided in section 504 of this act. Allocations for transportation of students transported more than one radius mile shall be based on weighted miles as determined by superintendent of public instruction multiplied by the per mile reimbursement rates for the school year pursuant to the formulas adopted by the superintendent of public instruction. Allocations for transportation of students living within one radius mile shall be based on the number of enrolled students in grades kindergarten through five living within one radius mile of their assigned school multiplied by the per mile reimbursement rate for the school year multiplied by 1.29.

(5) For busses purchased between July 1, 2003, and June 30, 2004, the office of superintendent of public instruction shall provide reimbursement funding to a school district only after the superintendent of public instruction determines that the school bus was purchased from the list established pursuant to RCW 28A.160.195(2) or a comparable competitive bid process based on the lowest price quote based on similar bus categories to those used to establish the list pursuant to RCW 28A.160.195. The competitive specifications shall meet federal motor vehicle safety standards, minimum state specifications as established by rule by the superintendent, and supported options as determined by the superintendent in consultation with the regional transportation coordinators of the educational service districts.

General Fund--State Appropriation (FY 2005)  $(426,802,000)
General Fund--Federal Appropriation  $(426,450,000)
TOTAL APPROPRIATION  $(1,288,313,000)
$1,291,279,000
The appropriations in this section are subject to the following conditions and limitations:

(1) Funding for special education programs is provided on an excess cost basis, pursuant to RCW 28A.150.390. School districts shall ensure that special education students as a class receive their full share of the general apportionment allocation accruing through sections 502 and 504 of this act. To the extent a school district cannot provide an appropriate education for special education students under chapter 28A.155 RCW through the general apportionment allocation, it shall provide services through the special education excess cost allocation funded in this section.

(2)(a) The superintendent of public instruction shall use the excess cost methodology developed and implemented for the 2001-02 school year using the S-275 personnel reporting system and all related accounting requirements to ensure that:

(i) Special education students are basic education students first;

(ii) As a class, special education students are entitled to the full basic education allocation; and

(iii) Special education students are basic education students for the entire school day.

(b) The S-275 and accounting changes in effect since the 2001-02 school year shall supercede any prior excess cost methodologies and shall be required of all school districts.

(3) Each fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(4) The superintendent of public instruction shall distribute state and federal funds to school districts based on two categories: The optional birth through age two program for special education eligible developmentally delayed infants and toddlers, and the mandatory special education program for special education eligible students ages three to twenty-one. A "special education eligible student" means a student receiving specially designed instruction in accordance with a properly formulated individualized education program.

(5)(a) For the 2003-04 and 2004-05 school years, the superintendent shall make allocations to each district based on the sum of:

(i) A district's annual average headcount enrollment of developmentally delayed infants and toddlers ages birth through two, multiplied by the district's average basic education allocation per full-time equivalent student, multiplied by 1.15; and

(ii) A district's annual average full-time equivalent basic education enrollment multiplied by the funded enrollment percent determined pursuant to subsection (6)(b) of this section, multiplied by the district's average basic education allocation per full-time equivalent student multiplied by 0.9309.

(b) For purposes of this subsection, "average basic education allocation per full-time equivalent student" for a district shall be based on the staffing ratios required by RCW 28A.150.260 and shall not include enhancements, secondary vocational education, or small schools.

(6) The definitions in this subsection apply throughout this section.

(a) "Annual average full-time equivalent basic education enrollment" means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW 28A.225.250).

(b) "Enrollment percent" means the district's resident special education annual average enrollment, excluding the birth through age two enrollment, as a percent of the district's annual average full-time equivalent basic education enrollment.

Each district's general fund--state funded special education enrollment shall be the lesser of the district's actual enrollment percent or 12.7 percent. Increases in enrollment percent from 12.7 percent to 13.0 percent shall be funded from the general fund--federal appropriation.

(7) At the request of any interdistrict cooperative of at least 15 districts in which all excess cost services for special education students of the districts are provided by the cooperative, the maximum enrollment percent shall be calculated in accordance with subsection (6)(b) of this section, and shall be calculated in the aggregate rather than individual district units. For purposes of this subsection, the average basic education allocation per full-time equivalent student shall be calculated in the aggregate rather than individual district units.

(8) To the extent necessary, $25,746,000 of the general fund--federal appropriation is provided for safety net awards for districts with demonstrated needs for state special education funding beyond the amounts provided in subsection (5) of this section. If safety net awards exceed the amount appropriated in this subsection (8), the superintendent shall expend all available federal discretionary funds necessary to meet this need. Safety net funds shall be awarded by the state safety net oversight committee subject to the following conditions and limitations:

(a) The committee shall consider unmet needs for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding formulas. In the determination of need, the committee shall also consider additional available revenues from federal and local sources. Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.
(b) The committee shall then consider the extraordinary high cost needs of one or more individual special education students. Differences in costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(c) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(d) Safety net awards shall be adjusted based on the percent of potential medicaid eligible students billed as calculated by the superintendent in accordance with chapter 318, Laws of 1999.

(e) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

(9) The superintendent of public instruction may adopt such rules and procedures as are necessary to administer the special education funding and safety net award process. Prior to revising any standards, procedures, or rules, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature.

(10) The safety net oversight committee appointed by the superintendent of public instruction shall consist of:

(a) One staff from the office of superintendent of public instruction;

(b) Staff of the office of the state auditor; and

(c) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.

(11) A maximum of $678,000 may be expended from the general fund--state appropriations to fund 5.43 full-time equivalent teachers and 2.1 full-time equivalent aides at children's orthopedic hospital and medical center. This amount is in lieu of money provided through the home and hospital allocation and the special education program.

(12) $1,000,000 of the general fund--federal appropriation is provided for projects to provide special education students with appropriate job and independent living skills, including work experience where possible, to facilitate their successful transition out of the public school system. The funds provided by this subsection shall be from federal discretionary grants.

(13) The superintendent shall maintain the percentage of federal flow-through to school districts at 85 percent. In addition to other purposes, school districts may use increased federal funds for high-cost students, for purchasing regional special education services from educational service districts, and for staff development activities particularly relating to inclusion issues.

(14) A maximum of $1,200,000 of the general fund--federal appropriation may be expended by the superintendent for projects related to use of inclusion strategies by school districts for provision of special education services. The superintendent shall prepare an information database on laws, best practices, examples of programs, and recommended resources. The information may be disseminated in a variety of ways, including workshops and other staff development activities.

(15) A school district may carry over from one year to the next year up to 10 percent of the general fund--state funds allocated under this program; however, carry over funds shall be expended in the special education program.

As the 3rd grade test becomes available, it shall be phased into the 5-year average on a 1-year lag;

(ii) The district's full-time equivalent enrollment in grades 7-9, multiplied by the 5-year average 8th grade lowest quartile test results as adjusted for funding purposes in the school years prior to 1999-2000, multiplied by 0.82. (iv) If, in the prior school year, the district's percentage of October headcount enrollment in grades K-12 eligible for free and reduced price lunch exceeded the state average, subtract the state average percentage of students eligible for free and reduced price lunch from the district's percentage and multiply the result by the district's K-12 annual average full-time equivalent enrollment for the current school year multiplied by 22.3 percent; and

(v) In addition to amounts allocated under (d) of this subsection, for school districts in which the effective Title I Part A (basic program) increase is insufficient to cover the formula change in the multiplier from .92 to .82, a state allocation shall be provided that, when combined with the effective increase in federal Title I Part A (basic program) funds from the 2001-02 school year, is sufficient to cover this amount. The effective Title I Part A (basic program) increase is the current school year federal Title I Part A (basic program) allocation minus the 2001-02 school year federal Title I Part A (basic program) allocation, after the 2001-02 Title I Part A allocation has been inflated by three percent.

(2) The general fund--federal appropriation in this section is provided for Title I Part A allocations of the no child left behind act of 2001.

(3) A school district may carry over from one year to the next up to 10 percent of the general fund--state funds allocated under this program; however, carryover funds shall be expended for the learning assistance program.

IMPLEMENTING PROVISIONS

NEW SECTION. Sec. 601. INFORMATION SYSTEMS PROJECTS. Agencies shall comply with the following requirements regarding information systems projects when specifically directed to do so by sections 101 through 611 of this act.

1. Agency planning and decisions concerning information technology shall be made in the context of its information technology portfolio. "Information technology portfolio" means a strategic management approach in which the relationships between agency missions and information technology investments can be seen and understood, such that: Technology efforts are linked to agency objectives and business plans; the impact of new investments on existing infrastructure and business functions are assessed and understood before implementation; and agency activities are consistent with the development of an integrated, nonduplicative statewide infrastructure.

2. Agencies shall use their information technology portfolios in making decisions on matters related to the following:
   a. System refurbishment, acquisitions, and development efforts;
   b. Setting goals and objectives for using information technology in meeting legislatively-mandated missions and business needs;
   c. Assessment of overall information processing performance, resources, and capabilities;
   d. Ensuring appropriate transfer of technological expertise for the operation of any new systems developed using external resources; and
   e. Progress toward enabling electronic access to public information.

3. Each project will be planned and designed to take optimal advantage of Internet technologies and protocols. Agencies shall ensure that the project is in compliance with the architecture, infrastructure, principles, policies, and standards of digital government as maintained by the information services board.

4. The agency shall produce a feasibility study for information technology projects at the direction of the information services board and in accordance with published department of information services policies and guidelines. At a minimum, such studies shall include a statement of:
   a. The purpose or impetus for change;
   b. The business value to the agency, including an examination and evaluation of benefits, advantages, and cost;
   c. A comprehensive risk assessment based on the proposed project's impact on both citizens and state operations, its visibility, and the consequences of doing nothing;
   d. The impact on agency and statewide information infrastructure; and
   e. The impact of the proposed enhancements to an agency's information technology capabilities on meeting service delivery demands.

5. The agency shall produce a comprehensive management plan for each project. The plan or plans shall address all factors critical to successful completion of each project. The plan(s) shall include, but is not limited to, the following elements:
   a. A description of the problem or opportunity that the information technology project is intended to address;
   b. A statement of project objectives and assumptions;
   c. A definition and schedule of phases, tasks, and activities to be accomplished; and
   d. The estimated cost of each phase. The planning for the phased approach shall be such that the business case justification for a project needs to demonstrate how the project recovers cost or adds measurable value or positive cost benefit to the agency's business functions within each development cycle.

6. The agency shall produce quality assurance plans for information technology projects. Consistent with the direction of the information services board and the published policies and guidelines of the department of information services, the quality assurance plan shall address all factors critical to successful completion of the project and successful integration with the agency and state information technology infrastructure. At a minimum, quality assurance plans shall provide time and budget benchmarks against which project progress can be measured, a specification of quality assurance responsibilities, and a statement of reporting requirements. The quality assurance plans shall set out the functionality requirements for each phase of a project.
(7) A copy of each feasibility study, project management plan, and quality assurance plan shall be provided to the department of information services, the office of financial management, and legislative fiscal committees. The plans and studies shall demonstrate a sound business case that justifies the investment of taxpayer funds on any new project, an assessment of the impact of the proposed system on the existing information technology infrastructure, the disciplined use of preventative measures to mitigate risk, and the leveraging of private-sector expertise as needed. Authority to expend any funds for individual information systems projects is conditioned on the approval of the relevant feasibility study, project management plan, and quality assurance plan by the department of information services and the office of financial management.

(8) Quality assurance status reports shall be submitted to the department of information services, the office of financial management, and legislative fiscal committees at intervals specified in the project's quality assurance plan.

NEW SECTION. Sec. 602. The department of transportation may transfer federal funds for state funds within the preservation and improvement programs if funded projects are eligible to use additional federal funds and the scope of the project is not increased. The department shall not transfer funds as authorized under this subsection without approval of the director of financial management. A report of the transfers will be submitted on October 1st of each fiscal year to the senate and house of representatives transportation committees.

NEW SECTION. Sec. 603. (1) The transportation commission may authorize a transfer of spending allocation within the appropriation provided and between projects funded with transportation 2003 account (nickel account) appropriations or the transportation partnership account appropriations to manage project spending and efficiently deliver all projects in the respective program under the following conditions and limitations:
   (a) Transfers from a project may be made if the funds allocated to the project are in excess of the amount needed to complete the project;
   (b) Transfers from a project may be made if the project is experiencing unavoidable expenditure delays;
   (c) Transfers from a project may not be made as a result of the reduction of the scope of a project, nor shall a transfer be made to support increases in the scope of a project;
   (d) Each transfer between projects may only occur if the commission finds that any resulting change will not hinder the completion of the projects approved by the legislature; and
   (e) Transfers may not occur to projects not identified on the applicable project list.

(2) A report of the transfers shall be submitted on October 1st of each fiscal year to the senate and house of representatives transportation committees.

NEW SECTION. Sec. 604. If House Bill No. 1254 is enacted by July 1, 2005, then on June 30, 2007, the remaining unexpended fund balance in the bicycle and pedestrian safety account shall be deposited into the Share the Road account established in House Bill No. 1254.

NEW SECTION. Sec. 605. The department of transportation shall eliminate 131 middle management positions by June 30, 2007. The middle management reduction, however, shall not impact the work force required to manage and support the delivery of the 2003 nickel package and 2005 transportation partnership package.

NEW SECTION. Sec. 606. Based on the anticipated outcomes of the tolling study, to be conducted under section 206 of this act, the legislature intends that tolls be charged to offset or partially offset the costs for the Alaskan Way Viaduct, State Route 520 Bridge replacement, and widening of Interstate 405 including a managed lanes concept.

NEW SECTION. Sec. 607. The department of transportation, in conjunction with the office of financial management, must implement the governmental accounting standards board's (GASB) statement number 34. The financial reporting value of the state's highway system must be adjusted for any new additions to the system. The biennial reporting of the condition of the system must be related to the funding levels of maintaining the system. The department must maintain a current inventory of the state's highway system and estimate the actual cost to maintain and preserve the assets. In addition to the GASB statement 34, the department of transportation with the office of financial management's assistance must establish an asset replacement value for the state's highway system. A report must be submitted to the transportation committees of the senate and the house of representatives each April. During 2005, the speaker of the house of representatives and the president of the senate must select one member from each caucus to work with the office of financial management, the joint legislative audit and review committee, the department of transportation, and the department of general administration to identify areas in state government where the
GASB philosophy could be implemented. The purpose of this effort is to enhance decision making that will result in strategic long-term investment decisions in transportation capital project management.

**NEW SECTION. Sec. 608.** During the 2005-07 biennium, the director of general administration, through the office of state procurement, shall:

1. In consultation with the state investment board and the state treasurer's office, explore and implement strategies designed to reduce the overall cost of fuel and mitigate the impact of market fluctuations and pressure on both short-term and long-term fuel costs. The department of general administration shall contract for these services. These fuel cost mitigation strategies shall be made available to all state agencies, institutions of higher education, and political subdivisions that purchase fuel through the office of state procurement. These strategies may include but are not limited to futures contracts, swap transactions, option contracts, costless collars, and long-term storage.

2. Recommend a mechanism for funding these fuel cost mitigation strategies that recognizes that the benefit accrues across state and local governments. To pay for these services, the director may also explore negotiated incentives with contracted providers.

3. Report to the fiscal committees of the legislature each December 15th regarding the types of contracts established to mitigate fuel costs, the amounts of fuel covered by the contracts, and the cost mitigation results. The reports shall also include recommendations for improving or continuing the fuel cost mitigation program.

**Sec. 609.** RCW 81.84.020 and 2003 c 373 s 5 are each amended to read as follows:

2. Before issuing a certificate, the commission shall determine that the applicant has the financial resources to operate the proposed service for at least twelve months, based upon the submission by the applicant of a pro forma financial statement of operations. Issuance of a certificate shall be determined upon, but not limited to, the following factors: Ridership and revenue forecasts; the cost of service for the proposed operation; an estimate of the cost of the assets to be used in providing the service; a statement of the total assets on hand of the applicant that will be expended on the proposed operation; and a statement of pr

3. Subsection (2) of this section does not apply to an application for a certificate that is pending as of July 25, 1993.

4. In granting a certificate for passenger-only ferries and determining what conditions to place on the certificate, the commission shall consider and give substantial weight to the effect of its decisions on public agencies operating, or eligible to operate, passenger-only ferry service.

5. Sec. 700. 2004 c 229 s 101 (uncodified) is amended to read as follows:
FOR THE MARINE EMPLOYEES COMMISSION
Puget Sound Ferry Operations Account--State Appropriation

$375,000

TRANSPORTATION AGENCIES--OPERATING

Sec. 701. 2003 c 360 s 201 (uncodified) is amended to read as follows:
FOR THE WASHINGTON TRAFFIC SAFETY COMMISSION
Highway Safety Account--State Appropriation $2,017,000
Highway Safety Account--Federal Appropriation $15,744,000
School Zone Safety Account--State Appropriation $3,059,000
Bicycle and Pedestrian Safety Account--State Appropriation $15,000

TOTAL APPROPRIATION $20,835,000

The appropriations in this section are subject to the following conditions and limitations:
(1) The commission may oversee up to four pilot projects implementing the use of traffic safety cameras to detect failure to stop at railroad crossings, stoplights, and school zones.
   (a) In order to ensure adequate time in the 2003-05 biennium to evaluate the effectiveness of the pilot program, any projects authorized by the commission must be authorized by December 31, 2003.
   (b) If a county or city has established an authorized automated traffic safety camera program under this section, the compensation paid to the manufacturer or vendor of the equipment used must be based only upon the value of the equipment and services provided or rendered in support of the system, and may not be based upon a portion of the fine or civil penalty imposed or the revenue generated by the equipment.
   (c) The traffic safety commission shall use the following guidelines to administer the program:
      (i) Traffic safety cameras may take pictures of the vehicle and vehicle license plate only, and only while an infraction is occurring;
      (ii) The law enforcement agency of the city or county government shall plainly mark the locations where the automated traffic enforcement system is used by placing signs on street locations that clearly indicate to a driver that he or she is entering a zone where traffic laws are enforced by an automated traffic enforcement system;
      (iii) Cities and counties using traffic safety cameras must provide periodic notice by mail to its citizens indicating the zones in which the traffic safety cameras will be used;
      (iv) Notices of infractions must be mailed to the registered owner of a vehicle within fourteen days of the infraction occurring;
      (v) The owner of the vehicle is not responsible for the violation if the owner of the vehicle, within fourteen days of receiving notification of the violation, mails to the issuing law enforcement agency, a declaration under penalty of perjury, stating that the vehicle involved was, at the time, stolen or in the care, custody, or control of some person other than the registered owner, or any other extenuating circumstances;

      (vii) If a notice of infraction is sent to the registered owner and the registered owner is a rental car business, the infraction will be dismissed against the business if it mails to the issuing agency, within fourteen days of receiving the notice, a declaration under penalty of perjury of the name and known mailing address of the individual driving or renting the vehicle when
the infraction occurred. If the business is unable to determine who was driving or renting the vehicle at the time the infraction occurred, the business must sign a declaration under penalty of perjury to this effect. The declaration must be mailed to the issuing agency within fourteen days of receiving the notice of traffic infraction. Timely mailing of this declaration to the issuing agency relieves a rental car business of any liability under this section for the notice of infraction. A declaration form suitable for this purpose must be included with each automated traffic infraction notice issued, along with instructions for its completion and use:

(viii) For purposes of the 2003-05 biennium pilot projects, infractions generated by the use of traffic safety cameras are exempt from the provisions of RCW 3.46.120, 3.50.100, and 35.20.220, and must be processed in the same manner as parking violations; and

MESSAGE FROM THE SENATE

April 22, 2005

Mr. Speaker:

The Senate receded from its amendment to SECOND SUBSTITUTE HOUSE BILL NO. 1565. Under suspension of the rules the bill was returned to second reading for purpose of amendment. The Senate adopted the following amendment and passed the bill as amended by the Senate:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. A new section is added to chapter 36.70A RCW to read as follows:

(1) The transportation element required by RCW 36.70A.070 may include, in addition to improvements or strategies to accommodate the impacts of development authorized under RCW 36.70A.070(6)(b), multimodal transportation improvements or strategies that are made concurrent with the development. These transportation improvements or strategies may include, but are not limited to, measures implementing or evaluating:

(a) Multiple modes of transportation with peak and nonpeak hour capacity performance standards for locally owned transportation facilities; and

(b) Modal performance standards meeting the peak and nonpeak hour capacity performance standards.

(2) Nothing in this section or RCW 36.70A.070(6)(b) shall be construed as prohibiting a county or city planning under RCW 36.70A.040 from exercising existing authority to develop multimodal improvements or strategies to satisfy the concurrency requirements of this chapter.

(3) Nothing in this section is intended to affect or otherwise modify the authority of jurisdictions planning under RCW 36.70A.040.

Sec. 2. RCW 47.80.030 and 1998 c 171 s 9 are each amended to read as follows:

(1) Each regional transportation planning organization shall develop in cooperation with the department of transportation, providers of public transportation and high capacity transportation, ports, and local governments within the region, adopt, and periodically update a regional transportation plan that:

(a) Is based on a least cost planning methodology that identifies the most cost-effective facilities, services, and programs;

(b) Identifies existing or planned transportation facilities, services, and programs, including but not limited to major roadways including state highways and regional arterials, transit and nonmotorized services and facilities, multimodal and intermodal facilities, marine ports and airports, railroads, and noncapital programs including transportation demand management that should function as an integrated regional transportation system, giving emphasis to those facilities, services, and programs that exhibit one or more of the following characteristics:

(i) Crosses member county lines;
(ii) Is or will be used by a significant number of people who live or work outside the county in which the facility, service, or project is located;
(iii) Significant impacts are expected to be felt in more than one county;
(iv) Potentially adverse impacts of the facility, service, program, or project can be better avoided or mitigated through adherence to regional policies;
(v) Transportation needs addressed by a project have been identified by the regional transportation planning process and the remedy is deemed to have regional significance; and
(vi) Provides for system continuity;
(c) Establishes level of service standards for state highways and state ferry routes, with the exception of transportation facilities of statewide significance as defined in RCW 47.06.140. These regionally established level of service standards for state highways and state ferries shall be developed jointly with the department of transportation, to encourage consistency across jurisdictions. In establishing level of service standards for state highways and state ferries, consideration shall be given for the necessary balance between providing for the free interjurisdictional movement of people and goods and the needs of local commuters using state facilities;
(d) Includes a financial plan demonstrating how the regional transportation plan can be implemented, indicating resources from public and private sources that are reasonably expected to be made available to carry out the plan, and recommending any innovative financing techniques to finance needed facilities, services, and programs;
(e) Assesses regional development patterns, capital investment and other measures necessary to:
(i) Ensure the preservation of the existing regional transportation system, including requirements for operational improvements, resurfacing, restoration, and rehabilitation of existing and future major roadways, as well as operations, maintenance, modernization, and rehabilitation of existing and future transit, railroad systems and corridors, and nonmotorized facilities; and
(ii) Make the most efficient use of existing transportation facilities to relieve vehicular congestion and maximize the mobility of people and goods;
(f) Sets forth a proposed regional transportation approach, including capital investments, service improvements, programs, and transportation demand management measures to guide the development of the integrated, multimodal regional transportation system. For regional growth centers, the approach must address transportation concurrency strategies required under RCW 36.70A.070 and include a measurement of vehicle level of service for off-peak periods and total multimodal capacity for peak periods; and
(g) Where appropriate, sets forth the relationship of high capacity transportation providers and other public transit providers with regard to responsibility for, and the coordination between, services and facilities.

NEW SECTION. Sec. 3. (1)(a) The department of transportation shall administer a study to examine multimodal transportation improvements and strategies to comply with the concurrency requirements of RCW 36.70A.070(6), subject to the availability of amounts appropriated for this specific purpose. The study shall be completed by one or more regional transportation planning organizations established under chapter 47.80 RCW electing to participate in the study.
(b) The department of community, trade, and economic development shall provide technical assistance with the study to the department of transportation and participating regional transportation planning organizations.
(2) The department of transportation shall, in consultation with members from each of the two largest caucuses of the senate, appointed by the president of the senate, and members from each of the two largest caucuses of the house of representatives, appointed by the speaker of the house of representatives, approve the scope of the study established by this section.
(3) The study shall, at a minimum, include:
(a) An assessment and comprehensive summary of studies or reports examining concurrency requirements and practices in Washington;
(b) An examination of existing or proposed multimodal transportation improvements or strategies employed by a city in a county with a population of one million or more residents;
(c) An examination of transit services and how these services promote multimodal transportation improvements or strategies for jurisdictions planning under RCW 36.70A.070(6)(b);
(d) Recommendations for statutory and administrative rule changes that will further the promotion of effective multimodal transportation improvements and strategies that are consistent with the provisions of RCW 36.70A.070 and 36.70A.020(3);

(e) Recommendations for improving the coordination of concurrency practices in jurisdictions subject to RCW 36.70A.215;

(f) Recommendations on a methodology that jurisdictions may use to evaluate the effectiveness of multimodal concurrency strategies in jurisdictions subject to the provisions of RCW 36.70A.070 and 36.70A.020(3);

(g) An identification of effective multimodal transportation improvements and strategies employed by jurisdictions subject to RCW 36.70A.215;

(h) Recommendations for model multimodal transportation improvements and strategies that may be employed by counties and cities; and

(i) An examination of multimodal infrastructure needs, such as bus pull outs and pedestrian crosswalks and overpasses, and how these needs can be better identified in the plans required by RCW 36.70A.070(6).

(4) The department of transportation shall, in coordination with participating regional transportation planning organizations completing the study established by this section, submit a report of findings and recommendations to the appropriate committees of the legislature by December 31, 2006."

On page 1, line 1 of the title, after "strategies;" strike the remainder of the title and insert "amending RCW 47.80.030; adding a new section to chapter 36.70A RCW; and creating a new section."

POINT OF PERSONAL PRIVILEGE
Representative Haigh: "Thank you, Mr. Speaker. We would like to honor today Mary Ann Sigman. Mary Ann first worked in the Legislature in the 1971-72 session as a hostess and an elevator operator which many of you might remember was the exactly the same the great senator, Sid Snyder started. In 1972, she became a bill clerk on a permanent basis and her jobs since then have included being a waitress, a bus driver and then she lit on the job of being the House Bill Room Supervisor in which she has done a magnificent job. At some point, the House and Senate Bill Rooms came together and began the Legislative Information Center. Mary Ann was named the Staff Director and has done a marvelous job for us. I rise today because I have a special connection with Mary Ann – I have been her veterinarian for many years and I have to tell you just a little veterinary story. The first time I met Mary Ann, she had called me on the phone – it was a pretty panicky Sunday afternoon – to say her horse had just about drowned in the Skokomish River. I asked if it was alright and she replied that it wasn't do very well. I asked if she was sure he really drowned. Well, she said, it was rolling over like an alligator and there were bubbles coming from his nose like he was drowning. So as I drove out there, I had to say I'd never treated a horse that had drowned before but we did save the horse and she and her husband have been wonderful to work for all these years. I have so appreciated her service to us in the Legislature. So, Mary Ann will be retiring and leaving this area. They will be moving to Hawaii. Mary Ann, as a veterinarian I am going to miss you. As a legislator, it is has been honor to serve you in the 35th District, and most of all I want to thank you for all the work and effort you have given to the Legislature. To you and John both, the best of luck."
