Sec. 214. RCW 28A.205.050 and 1995 c 335 s 201 are each amended to read as follows:
In accordance with chapter 34.05 RCW, the administrative procedure act, the state board of education and Washington professional educator standards board with respect to the matter of certification, and the superintendent of public instruction with respect to all other matters, shall have the power and duty to make the necessary rules to carry out the purpose and intent of this chapter.

Sec. 215. RCW 28A.405.210 and 1996 c 201 s 1 are each amended to read as follows:
No teacher, principal, supervisor, superintendent, or other certificated employee, holding a position as such with a school district, hereinafter referred to as "employee", shall be employed except by written order of a majority of the directors of the district at a regular or special meeting thereof, nor unless he or she is the holder of an effective teacher's certificate or other certificate required by law or the state board of education or Washington professional educator standards board, as applicable, for the position for which the employee is employed.

The board shall make with each employee employed by it a written contract, which shall be in conformity with the laws of this state, and except as otherwise provided by law, limited to a term of not more than one year. Every such contract shall be made in duplicate, one copy to be retained by the school district superintendent or secretary and one copy to be delivered to the employee. No contract shall be offered by any board for the employment of any employee who has previously signed an employment contract for that same term in another school district of the state of Washington unless such employee shall have been released from his or her obligations under such previous contract by the board of directors of the school district to which he or she was obligated. Any contract signed in violation of this provision shall be void.

In the event it is determined that there is probable cause or causes that the employment contract of an employee should not be renewed by the district for the next ensuing term such employee shall be notified in writing on or before May 15th preceding the commencement of such term of that determination, or if the omnibus appropriations act has not passed the legislature by May 15th, then notification shall be no later than June 1st, which notification shall specify the cause or causes for nonrenewal of contract. Such determination of probable cause for certificated employees, other than the superintendent, shall be made by the superintendent. Such notice shall be served upon the employee personally, or by certified or registered mail, or by leaving a copy of the notice at the house of his or her usual abode with some person of suitable age and discretion then resident therein. Every such employee so notified, at his or her request made in writing and filed with the president, chair or secretary of the board of directors of the district within ten days after receiving such notice, shall be granted opportunity for hearing pursuant to RCW 28A.405.310 to determine whether there is sufficient cause or causes for nonrenewal of contract: PROVIDED, That any employee receiving notice of nonrenewal of contract due to an enrollment decline or loss of revenue may, in his or her request for a hearing, stipulate that initiation of the arrangements for a hearing officer as provided for by RCW 28A.405.310(4) shall occur within ten days following July 15 rather than the day that the employee submits the request for a hearing. If any such notification
or opportunity for hearing is not timely given, the employee entitled thereto shall be conclusively presumed to have been reemployed by the district for the next ensuing term upon contractual terms identical with those which would have prevailed if his or her employment had actually been renewed by the board of directors for such ensuing term.

This section shall not be applicable to "provisional employees" as so designated in RCW 28A.405.220; transfer to a subordinate certificated position as that procedure is set forth in RCW 28A.405.230 shall not be construed as a nonrenewal of contract for the purposes of this section.

Sec. 216. RCW 28B.10.140 and 2004 c 60 s 1 are each amended to read as follows:
The University of Washington, Washington State University, Central Washington University, Eastern Washington University, Western Washington University, and The Evergreen State College are each authorized to train teachers and other personnel for whom teaching certificates or special credentials prescribed by the state board of education and Washington professional educator standards board are required, for any grade, level, department, or position of the public schools of the state.

Sec. 217. RCW 18.118.010 and 1990 c 33 s 553 are each amended to read as follows:
(1) The purpose of this chapter is to establish guidelines for the regulation of the real estate profession and other business professions which may seek legislation to substantially increase their scope of practice or the level of regulation of the profession, and for the regulation of business professions not licensed or regulated on July 26, 1987: PROVIDED, That the provisions of this chapter are not intended and shall not be construed to: (a) Apply to any regulatory entity created prior to July 26, 1987, except as provided in this chapter; (b) affect the powers and responsibilities of the superintendent of public instruction or state board of education and Washington professional educator standards board under RCW ((28A.305.130) 28A.410.210 and 28A.410.010; (c) apply to or interfere in any way with the practice of religion or to any kind of treatment by prayer; (d) apply to any remedial or technical amendments to any statutes which licensed or regulated activity before July 26, 1987; and (e) apply to proposals relating solely to continuing education. The legislature believes that all individuals should be permitted to enter into a business profession unless there is an overwhelming need for the state to protect the interests of the public by restricting entry into the profession. Where such a need is identified, the regulation adopted by the state should be set at the least restrictive level consistent with the public interest to be protected.

(2) It is the intent of this chapter that no regulation shall be imposed upon any business profession except for the exclusive purpose of protecting the public interest. All bills introduced in the legislature to regulate a business profession for the first time should be reviewed according to the following criteria. A business profession should be regulated by the state only when:
(a) Unregulated practice can clearly harm or endanger the health, safety, or welfare of the public, and the potential for the harm is easily recognizable and not remote or dependent upon tenuous argument;
(b) The public needs and can reasonably be expected to benefit from an assurance of initial and continuing professional ability; and
(c) The public cannot be effectively protected by other means in a more cost-beneficial manner.

(3) After evaluating the criteria in subsection (2) of this section and considering governmental and societal costs and benefits, if the legislature finds that it is necessary to regulate a business profession not previously regulated by law, the least restrictive alternative method of regulation should be implemented, consistent with the public interest and this section:
(a) Where existing common law and statutory civil actions and criminal prohibitions are not sufficient to eradicate existing harm, the regulation should provide for stricter civil actions and criminal prosecutions;
(b) Where a service is being performed for individuals involving a hazard to the public health, safety, or welfare, the regulation should impose inspection requirements and enable an appropriate state agency to enforce violations by injunctive relief in court, including, but not limited to, regulation of the business activity providing the service rather than the employees of the business;
(c) Where the threat to the public health, safety, or economic well-being is relatively small as a result of the operation of the business profession, the regulation should implement a system of registration;
(d) Where the consumer may have a substantial basis for relying on the services of a practitioner, the regulation should implement a system of certification; or
(e) Where apparent that adequate regulation cannot be achieved by means other than licensing, the regulation should implement a system of licensing.

Sec. 218. RCW 18.120.010 and 1990 c 33 s 554 are each amended to read as follows:
(1) The purpose of this chapter is to establish guidelines for the regulation of health professions not licensed or regulated prior to July 24, 1983, and those licensed or regulated health professions which seek to substantially increase their
scope of practice: PROVIDED, That the provisions of this chapter are not intended and shall not be construed to: (a) Apply to any regulatory entity created prior to July 24, 1983, except as provided in this chapter; (b) affect the powers and responsibilities of the superintendent of public instruction or ([state board of education]) Washington professional educator standards board under RCW (28A.305.130) 28A.410.210 and 28A.410.010; (c) apply to or interfere in any way with the practice of religion or to any kind of treatment by prayer; and (d) apply to any remedial or technical amendments to any statutes which licensed or regulated activity before July 24, 1983. The legislature believes that all individuals should be permitted to enter into a health profession unless there is an overwhelming need for the state to protect the interests of the public by restricting entry into the profession. Where such a need is identified, the regulation adopted by the state should be set at the least restrictive level consistent with the public interest to be protected.

(2) It is the intent of this chapter that no regulation shall, after July 24, 1983, be imposed upon any health profession except for the exclusive purpose of protecting the public interest. All bills introduced in the legislature to regulate a health profession for the first time should be reviewed according to the following criteria. A health profession should be regulated by the state only when:

(a) Unregulated practice can clearly harm or endanger the health, safety, or welfare of the public, and the potential for the harm is easily recognizable and not remote or dependent upon tenuous argument;
(b) The public needs and can reasonably be expected to benefit from an assurance of initial and continuing professional ability; and
(c) The public cannot be effectively protected by other means in a more cost-beneficial manner.

(3) After evaluating the criteria in subsection (2) of this section and considering governmental and societal costs and benefits, if the legislature finds that it is necessary to regulate a health profession not previously regulated by law, the least restrictive alternative method of regulation should be implemented, consistent with the public interest and this section:

(a) Where existing common law and statutory civil actions and criminal prohibitions are not sufficient to eradicate existing harm, the regulation should provide for stricter civil actions and criminal prosecutions;
(b) Where a service is being performed for individuals involving a hazard to the public health, safety, or welfare, the regulation should impose inspection requirements and enable an appropriate state agency to enforce violations by injunctive relief in court, including, but not limited to, regulation of the business activity providing the service rather than the employees of the business;
(c) Where the threat to the public health, safety, or economic well-being is relatively small as a result of the operation of the health profession, the regulation should implement a system of registration;
(d) Where the consumer may have a substantial basis for relying on the services of a practitioner, the regulation should implement a system of certification; or
(e) Where apparent that adequate regulation cannot be achieved by means other than licensing, the regulation should implement a system of licensing.

(4) The transfer of the powers, duties, and functions of the academic achievement and accountability commission shall not affect the validity of any act performed before the effective date of this section.

(5) If apportionments of budgeted funds are required because of the transfers directed by this section, the director of financial management shall certify the apportionments to the agencies affected, the state auditor, and the state treasurer. Each of these shall make the appropriate transfer and adjustments in funds and appropriation accounts and equipment records in accordance with the certification.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 9.94A RCW to read as follows:
When a person is convicted of a felony, the court shall require the offender to sign a statement acknowledging that his or her right to vote has been lost, that the secretary of state and county auditors are being notified thereof, that his or her voter registration will be canceled in accordance with RCW 29A.08.520, and that voting before restoration of the right to vote under RCW 9.92.066, 9.94A.637, or chapter 9.96 RCW, is a felony under RCW 29A.84.660.

Sec. 2. RCW 29A.08.010 and 2004 c 267 s 102 are each amended to read as follows:
As used in this chapter: "Information required for voter registration" means the minimum information provided on a voter registration application that is required by the county auditor in order to place a voter registration applicant on the voter registration rolls. This information includes (the applicant's):
(1) Name,
(2) Residential address,
(3) Date of birth,
(4) Washington state driver's license number, Washington state identification card, or the last four digits of the applicant's Social Security number,
(5) A signature attesting to the truth of the information provided on the application,
(6) A check or indication in the box confirming the individual is a United States citizen.
If the individual does not have a driver's license, state identification card, or Social Security number, the registrant must be issued a unique voter registration number in order to be placed on the voter registration rolls. All other information supplied is ancillary and not to be used as grounds for not registering an applicant to vote. Modification of the language of the official Washington state voter registration form by the voter will not be accepted and will cause the rejection of the registrant's application.

Sec. 3. RCW 29A.08.030 and 2004 c 267 s 104 are each amended to read as follows:
The definitions set forth in this section apply throughout this chapter, unless the context clearly requires otherwise.
(1) "Verification notice" means a notice sent by the county auditor or secretary of state to a voter registration applicant and is used to verify or collect information about the applicant in order to complete the registration. The verification notice must be designed to include a postage prepaid, preaddressed return form by which the applicant may verify or send information.
(2) "Acknowledgement notice" means a notice sent by nonforwardable mail by the county auditor or secretary of state to a registered voter to acknowledge a voter registration transaction, which can include initial registration, transfer, or reactivation of an inactive registration. An acknowledgement notice may be a voter registration card.
(3) "Confirmation notice" means a notice sent to a registered voter by first class forwardable mail at the address indicated on the voter's permanent registration record and to any other address at which the county auditor or secretary of state could reasonably expect mail to be received by the voter in order to confirm the voter's residence address. The confirmation notice must be designed to include a postage prepaid, preaddressed return form by which the registrant may verify the address information.

NEW SECTION. Sec. 4. A new section is added to chapter 29A.08 RCW to read as follows:
When a former felon's voting rights have been restored, the county clerk shall immediately transmit this information to the secretary of state along with information about the county where the conviction occurred and the county that is the last known residence of the former felon. The secretary of state shall maintain such records as a part of the elections data base and shall transmit information about the restoration of the former felon's voting rights to the county auditor where the conviction took place and, if different, the county where the felon was last known to reside.

NEW SECTION. Sec. 5. A new section is added to chapter 29A.08 RCW to read as follows:
(1) The civil right to vote is automatically restored to persons convicted of a felony upon completion of all the requirements of all of their sentences as defined in RCW 9.94A.030.

(2) This section does not impair or alter an offender's ability to obtain a certificate of discharge if eligible under RCW 9.94A.637.

Sec. 6. RCW 29A.08.107 and 2004 c 267 s 106 are each amended to read as follows:

(1) The secretary of state must review the information provided by each voter registration applicant, other than an applicant issued a unique voter registration number under RCW 29A.08.010, to ensure that (((((either))) the driver's license number, state identification card number, or the last four digits of the Social Security number match the information maintained by the Washington department of licensing or the Social Security administration. If a match cannot be made, the secretary of state or county auditor must correspond with the applicant to resolve the discrepancy. If the verification notice is not returned by the applicant or is returned as undeliverable (((the auditor shall not place the application on inactive status pending a response from the voter to the confirmation notice.))) the voter's registration on inactive status pending a response from the voter to the confirmation notice.

(2) In order to prevent duplicate registration records, all complete voter registration applications must be screened against existing voter registration records in the official statewide voter registration list. If a match of an existing record is found in the official list the record must be updated with the new information provided on the application. If the new information indicates that the voter has changed his or her county of residence, the application must be forwarded to the voter's new county of residence for processing. If the new information indicates that the voter remains in the same county of residence or if the applicant is a new voter the application must be processed by the county of residence.

(3) If the information required in subsection (1) of this section is complete, the applicant is considered to be registered to vote as of the date of mailing of the original voter registration application. If it is not complete, the auditor shall promptly mail a verification notice of the deficiency to the applicant. This verification notice shall require the applicant to provide the missing information. If the verification notice is not returned by the applicant or is returned as undeliverable (((the auditor shall not place the application on inactive status pending a response from the voter to the confirmation notice.))) the name of the applicant shall not be placed on the county voter list. If the applicant provides the required verified information, the applicant shall be registered to vote as of the date of mailing of the original voter registration application. The auditor shall record the appropriate precinct identification, taxing district identification, and date of registration on the voter's record in the state voter registration list. Within forty-five days after the receipt of an application but no later than seven days before the next primary, special election, or general election, the auditor shall send to the applicant, by first class mail, an acknowledgement notice identifying the registrant's precinct and containing such other information as may be required by the secretary of state. The postal service shall be instructed not to forward a voter registration card to any other address and to return to the auditor any card which is not deliverable. If the registrant has indicated on the form that he or she is registered to vote within the county but has provided a new address within the county that is for voter registration purposes, the auditor shall transfer the voter's registration. If an acknowledgement notice card is properly mailed as required by this section to the address listed by the voter as being the voter's mailing address and the notice is subsequently returned to the auditor by the postal service as being undeliverable to the voter at that address, the auditor shall promptly send the voter a confirmation notice. The auditor shall place the voter's registration on inactive status pending a response from the voter to the confirmation notice.

(4) All records of applications are public records and must be disclosed upon request.

Sec. 7. RCW 29A.08.110 and 2004 c 267 s 107 are each amended to read as follows:

(1) On receipt of an application for voter registration, the county auditor shall review the application to determine whether the information supplied is complete. An application is considered complete only if it contains the applicant's name, complete valid residence address, date of birth, and signature attesting to the truth of the information provided and an indication (((the license information))) that the driver's license number, state identification card number, or Social Security number has been confirmed by the secretary of state. If the applicant does not have a driver's license, state identification card, or Social Security number, the indication that the driver's license number, state identification card number, or Social Security number has been confirmed is not required for the application to be complete. If it is not complete, the auditor shall promptly mail a verification notice of the deficiency to the applicant. This verification notice shall require the applicant to provide the missing information. If the verification notice is not returned by the applicant or is returned as undeliverable (((the auditor shall not place the application on inactive status pending a response from the voter to the confirmation notice.))) the name of the applicant shall not be placed on the county voter list. If the applicant provides the required verified information, the applicant shall be registered to vote as of the date of mailing of the original voter registration application.

(2) In order to prevent duplicate registration records, all complete voter registration applications must be screened against existing voter registration records in the official statewide voter registration list. If a match of an existing record is found in the official list the record must be updated with the new information provided on the application. If the new information indicates that the voter has changed his or her county of residence, the application must be forwarded to the voter's new county of residence for processing. If the new information indicates that the voter remains in the same county of residence or if the applicant is a new voter the application must be processed by the county of residence.

(3) If the information required in subsection (1) of this section is complete, the applicant is considered to be registered to vote as of the original date of mailing or date of delivery, whichever is applicable. The auditor shall record the appropriate precinct identification, taxing district identification, and date of registration on the voter's record in the state voter registration list. Within forty-five days after the receipt of an application but no later than seven days before the next primary, special election, or general election, the auditor shall send to the applicant, by first class mail, an acknowledgement notice identifying the registrant's precinct and containing such other information as may be required by the secretary of state. The postal service shall be instructed not to forward a voter registration card to any other address and to return to the auditor any card which is not deliverable. If the registrant has indicated on the form that he or she is registered to vote within the county but has provided a new address within the county that is for voter registration purposes, the auditor shall transfer the voter's registration. If an acknowledgement notice card is properly mailed as required by this section to the address listed by the voter as being the voter's mailing address and the notice is subsequently returned to the auditor by the postal service as being undeliverable to the voter at that address, the auditor shall promptly send the voter a confirmation notice. The auditor shall place the voter's registration on inactive status pending a response from the voter to the confirmation notice.

NEW SECTION Sec. 8. A new section is added to chapter 29A.08 RCW to read as follows:
No person registering to vote, who meets all the qualifications of a registered voter in the state of Washington, shall be disqualified because of a nontraditional address being used as a residence address. Voters using such an address will be registered and assigned to a precinct based on the location provided. Voters without a traditional address will be registered at the county courthouse, city hall, or other public building near the area that the voter considers his or her residence. Registering at a nontraditional address will not disqualify a voter from requesting ongoing absentee voter status if the voter designates a valid mailing address.

For the purposes of this section, "nontraditional address" includes shelters, parks, or other identifiable locations that the voter deems to be his or her residence.

Sec. 9. RCW 29A.08.115 and 2004 c 267 s 108 are each amended to read as follows:
A person or organization collecting voter registration application forms must transmit the forms to the secretary of state or a county auditor at least once weekly. The registration date on such forms will be the date they are received by the secretary of state or county auditor.

Sec. 10. RCW 29A.08.125 and 2004 c 267 s 110 are each amended to read as follows:
(1) Each county auditor shall maintain a computer file containing a copy of each record of all registered voters within the county contained on the official statewide voter registration list for that county.
(2) The secretary of state every quarter shall review and update the records of all registered voters on the official statewide voter registration data base to make additions and corrections.
(3) The computer file must include, but not be limited to, each voter's last name, first name, middle initial, date of birth, residence address, gender, date of registration, applicable taxing district and precinct codes, and the last date on which the individual voted.
(4) The county auditor shall subsequently record each consecutive date upon which the individual has voted and retain all such consecutive dates.

Sec. 11. RCW 29A.08.145 and 2004 c 267 s 113 are each amended to read as follows:
This section establishes a special procedure which an elector may use to register to vote or transfer a voter registration by changing his or her address during the period beginning after the closing of registration for voting at the polls under RCW 29A.08.140 and ending on the fifteenth day before a primary, special election, or general election. A qualified elector in the state may register to vote or change his or her registration address in person in the office of the county auditor of the county in which the applicant resides, or at a voter registration location specifically designated for this purpose by the county auditor of the county in which the applicant resides, or the secretary of state, and apply for an absentee ballot for that primary or election. The application for an absentee ballot executed by the newly registered or transferred voter for the primary or election that follows the execution of the registration shall be promptly transmitted to the auditor with the completed voter registration form.

Sec. 12. RCW 29A.08.210 and 2003 c 111 s 216 are each amended to read as follows:
An applicant for voter registration shall complete an application providing the following information concerning his or her qualifications as a voter in this state:
(1) The address of the last former registration of the applicant as a voter in the state;
(2) The applicant's full name;
(3) The applicant's date of birth;
(4) The address of the applicant's residence for voting purposes;
(5) The mailing address of the applicant if that address is not the same as the address in subsection (4) of this section;
(6) The sex of the applicant;
(7) The applicant's Washington state driver's license number, Washington state identification card number, or the last four digits of the applicant's Social Security number;
(8) A check box and declaration confirming that the applicant is a citizen of the United States;
(9) The applicant's signature; and
(10) Any other information that the secretary of state determines is necessary to establish the identity of the applicant and prevent duplicate or fraudulent voter registrations. Flawed applications are public records and must be disclosed upon request.

The application form must also provide a box the applicant may check to indicate that he or she is a member of the armed forces or if he or she will be an overseas voter.
This information shall be recorded on a single registration form to be prescribed by the secretary of state. If the applicant fails to provide the information required for voter registration, the auditor shall send the applicant a verification notice. The auditor shall not register the applicant until the required information is provided. If a verification notice is returned as undeliverable or the applicant fails to respond to the notice within forty-five days, the auditor shall not register the applicant to vote.

The following warning shall appear in a conspicuous place on the voter registration form:

"If you knowingly provide false information on this voter registration form or knowingly make a false declaration about your qualifications for voter registration you will have committed a class C felony that is punishable by imprisonment for up to five years, or by a fine of up to ten thousand dollars, or both imprisonment and fine."

Sec. 13. RCW 29A.08.330 and 2003 c 111 s 224 are each amended to read as follows:

(1) The secretary of state shall prescribe the method of voter registration for each designated agency. The agency shall use either the state voter registration by mail form with a separate declination form for the applicant to indicate that he or she declines to register at this time, or the agency may use a separate form approved for use by the secretary of state.

(2) The person providing service at the agency shall offer voter registration services to every client whenever he or she applies for service or assistance and with each renewal, recertification, or change of address. The person providing service shall give the applicant the same level of assistance with the voter registration application as is offered to fill out the agency's forms and documents, including information about age and citizenship requirements for voter registration.

(3) The person providing service at the agency shall determine if the prospective applicant wants to register to vote or transfer his or her voter registration by asking the following question:

"Do you want to register to vote or transfer your voter registration?"

If the applicant chooses to register or transfer a registration, the service agent shall ask the following:

(a) "Are you a United States citizen?"

(b) "Are you or will you be eighteen years of age on or before the next election?"

If the applicant answers in the affirmative to both questions, the agent shall then provide the applicant with a voter registration form and instructions and shall record that the applicant has requested to register to vote or transfer a voter registration.

If the applicant answers in the negative to either question, the agent shall not provide the applicant with a voter registration form and instructions.

(4) If an agency uses a computerized application process, it may, in consultation with the secretary of state, develop methods to capture simultaneously the information required for voter registration during a person's computerized application process.

(5) Each designated agency shall provide for the voter registration application forms to be collected from each agency office at least once each week. The agency shall then forward the application forms to the secretary of state each week. The secretary of state shall forward the forms to the county in which the applicant has registered to vote no later than ten days after the date on which the forms were received by the secretary of state.

Sec. 14. RCW 29A.08.520 and 2004 c 267 s 126 are each amended to read as follows:

(1) Upon receiving official notice of a person's conviction of a felony in either state or federal court, if the convicted person is a registered voter in the county, the county auditor shall cancel the defendant's voter registration. Additionally, the secretary of state in conjunction with the department of corrections, the Washington state patrol, the office of the administrator for the courts, and other appropriate state agencies shall arrange for a quarterly comparison of a list of known felons with the statewide voter registration list. If a person is found on the department of corrections' list of felons or on the statewide voter registration list, the secretary of state or county auditor shall confirm the match through a date of birth comparison and suspend the voter registration from the official state voter registration list. The canceling authority shall send a notice of the proposed cancellation and an explanation of the requirements for restoring the right to vote once all terms of sentencing have been completed. If the person does not respond within thirty days, the registration must be canceled.
(2) A certificate of discharge or an order restoring civil rights may be used as proof that a felon has completed all sentencing requirements resulting from the felony conviction for which the certificate was issued.

**Sec. 15.** RCW 29A.08.651 and 2004 c 267 s 101 are each amended to read as follows:

(1) The office of the secretary of state shall create and maintain a statewide voter registration data base. This data base must be a single, uniform, official, centralized, interactive computerized statewide voter registration list defined, maintained, and administered at the state level that contains the name and registration information of every legally registered voter in the state and assigns a unique identifier to each legally registered voter in the state.

(2) The computerized list must serve as the single system for storing and maintaining the official list of registered voters throughout the state.

(3) The computerized list must contain the name and registration information of every legally registered voter in the state.

(4) Under the computerized list, a unique identifier is assigned to each legally registered voter in the state.

(5) The computerized list must be coordinated with other agency data bases within the state, including but not limited to the department of corrections, the department of licensing, the department of health, the Washington state patrol, and the office of the administrator for the courts.

(6) Any election officer in the state, including any local election officer, may obtain immediate electronic access to the information contained in the computerized list.

(7) All voter registration information obtained by any local election officer in the state must be electronically entered into the computerized list on an expedited basis at the time the information is provided to the local officer.

(8) The chief state election officer shall provide support, as may be required, so that local election officers are able to enter information as described in subsection (3) of this section.

(9) The computerized list serves as the official voter registration list for the conduct of all elections.

(10) The secretary of state has data authority on all voter registration data.

(11) The voter registration data base must be designed to accomplish at a minimum, the following:

   (a) Comply with the Help America Vote Act of 2002 (P.L. 107-252);

   (b) Identify duplicate voter registrations;

   (c) Identify suspected duplicate voters;

   (d) Screen against the department of corrections, the Washington state patrol, and other appropriate state agency data bases to aid in the cancellation of voter registration of felons;

   (e) Provide up-to-date signatures of voters for the purposes of initiative signature checking;

   (f) Provide current and accurate voter registration information using information obtained under RCW 29A.08.125;

   (g) Provide for a comparison between the voter registration data base and the department of licensing change of address data base;

   (h) Provide online access for county auditors with the goal of real time duplicate checking and update capabilities; and

   (i) Provide for the cancellation of voter registration for persons who have moved to other states and surrendered their Washington state drivers' licenses.

**Sec. 16.** RCW 29A.08.710 and 2004 c 267 s 133 are each amended to read as follows:

(1) The county auditor shall have custody of the original voter registration records for each county. The original voter registration form must be filed without regard to precinct and is considered confidential and unavailable for public inspection and copying. An automated file of all registered voters must be maintained pursuant to RCW 29A.08.125. An auditor may maintain the automated file in lieu of filing or maintaining the original voter registration forms if the automated file includes all of the information from the original voter registration forms including, but not limited to, a retrievable facsimile of each voter's signature.

(2) The following information contained in voter registration records or files regarding a voter or a group of voters is available for public inspection and copying: The voter's name, gender, date of birth, voting record, date of registration, and registration number. The address and political jurisdiction of a registered voter are available for public inspection and copying except as provided by chapter 40.24 RCW. No other information from voter registration records or files is available for public inspection or copying.

**Sec. 17.** RCW 29A.08.775 and 2004 c 267 s 136 are each amended to read as follows:
Only voters who appear on the official statewide voter registration list are eligible to participate in elections. Each county shall maintain a copy of that county's portion of the state list. The county must ensure that data used for the production of poll lists and other lists and mailings done in the administration of each election are (drawn from) the same as the official statewide voter registration list.

Sec. 18. RCW 29A.40.091 and 2004 c 271 s 135 are each amended to read as follows:

The county auditor shall send each absentee voter a ballot, a security envelope in which to seal the ballot after voting, a larger envelope in which to return the security envelope, and instructions on how to mark the ballot and how to return it to the county auditor. The instructions that accompany an absentee ballot for a partisan primary must include instructions for voting the applicable ballot style, as provided in chapter 29A.36 RCW. The larger return envelope must contain a declaration by the absentee voter reciting his or her qualifications and stating that he or she has not voted in any other jurisdiction at this election, together with a summary of the penalties for any violation of any of the provisions of this chapter. The return envelope must provide a box the voter may check to indicate that he or she is a member of the armed forces or that he or she is an overseas voter. The return envelope must provide space for the voter to indicate the date on which the ballot was voted and for the voter to sign the oath. A summary of the applicable penalty provisions of this chapter must be printed on the return envelope immediately adjacent to the space for the voter's signature. The signature of the voter on the return envelope must affirm and attest to the statements regarding the qualifications of that voter and to the validity of the ballot. For out-of-state voters, overseas voters, and service voters, the signed declaration on the return envelope constitutes the equivalent of a voter registration for the election or primary for which the ballot has been issued. The voter must be instructed to either return the ballot to the county auditor by whom it was issued or attach sufficient first class postage, if applicable, and mail the ballot to the appropriate county auditor no later than the day of the election or primary for which the ballot was issued.

If the county auditor chooses to forward absentee ballots, he or she must include with the ballot a clear explanation of the qualifications necessary to vote in that election and must also advise a voter with questions about his or her eligibility to contact the county auditor. This explanation may be provided on the ballot envelope, on an enclosed insert, or printed directly on the ballot itself. If the information is not included, the envelope must clearly indicate that the ballot is not to be forwarded and that return postage is guaranteed.

Sec. 19. RCW 46.20.155 and 2004 c 249 s 7 are each amended to read as follows:

(1) Before issuing an original license or identicard or renewing a license or identicard under this chapter, the licensing agent shall determine if the applicant wants to register to vote or transfer his or her voter registration by asking the following question:

"Do you want to register to vote or transfer your voter registration?"

If the applicant chooses to register or transfer a registration, the agent shall (state) ask the following:

("I would like to remind you that you must be a United States citizen and at least eighteen years of age in order to vote.")

(1) "Are you a United States citizen?"
(2) "Are you or will you be eighteen years of age on or before the next election?"

If the applicant answers in the affirmative to both questions, the agent shall then provide the applicant with a voter registration form and instructions and shall record that the applicant has requested to register to vote or transfer a voter registration.

If the applicant answers in the negative to either question, the agent shall not provide the applicant with a voter registration form and instructions.

(2) The department shall establish a procedure that substantially meets the requirements of subsection (1) of this section when permitting an applicant to renew a license or identicard by mail or by electronic commerce.

NEW SECTION. Sec. 20. RCW 29A.08.155 (Payment for maintenance of electronic records) and 2004 c 267 s 114 & 2003 c 111 s 215 are each repealed.

E2SSB 5763 Prime Sponsor, Senate Committee on Ways & Means: Creating the omnibus treatment of mental and substance abuse disorders act of 2005. Reported by Committee on Health Care

MAJORITY recommendation: Do pass as amended:

Strike everything after the enacting clause and insert the following:

"PART I
GENERAL PROVISIONS"
NEW SECTION, Sec. 101. The legislature finds that persons with mental disorders, chemical dependency disorders, or co-occurring mental and substance abuse disorders are disproportionately more likely to be confined in a correctional institution, become homeless, become involved with child protective services or involved in a dependency proceeding, or lose those state and federal benefits to which they may be entitled as a result of their disorders. The legislature finds that prior state policy of addressing mental health and chemical dependency in isolation from each other has not been cost-effective and has often resulted in longer-term, more costly treatment that may be less effective over time. The legislature finds that a substantial number of persons have co-occurring mental and substance abuse disorders and that identification and integrated treatment of co-occurring disorders is critical to successful outcomes and recovery. Consequently, the legislature intends, within funds specifically appropriated for this purpose, to:

(1) Establish a process for determining which persons with mental disorders and substance abuse disorders have co-occurring disorders;
(2) Reduce the gap between available chemical dependency treatment and the documented need for treatment;
(3) Improve treatment outcomes by shifting treatment, where possible, to evidence-based, research-based, and consensus-based treatment practices and by removing barriers to the use of those practices;
(4) Expand the authority for and use of therapeutic courts including drug courts, mental health courts, and therapeutic courts for dependency proceedings;
(5) Improve access to treatment for persons who are not enrolled in medicaid by improving and creating consistency in the application processes, and by minimizing the numbers of eligible confined persons who leave confinement without medical assistance;
(6) Improve access to inpatient treatment by creating expanded services facilities for persons needing intensive treatment in a secure setting who do not need inpatient care, but are unable to access treatment under current licensing restrictions in other settings;
(7) Establish secure detoxification centers for persons involuntarily detained as gravely disabled or presenting a likelihood of serious harm due to chemical dependency and authorize combined crisis responders for both mental disorders and chemical dependency disorders on a pilot basis and study the outcomes;
(8) Slow or stop the loss of inpatient and intensive residential beds and children's long-term inpatient placements and refine the balance of state hospital and community inpatient and residential beds;
(9) Improve cross-system collaboration including collaboration with first responders and hospital emergency rooms, schools, primary care, developmental disabilities, law enforcement and corrections, and federally funded and licensed programs; and
(10) Amend existing state law to address organizational and structural barriers to effective use of state funds for treating persons with mental and substance abuse disorders, minimize internal inconsistencies, clarify policy and requirements, and maximize the opportunity for effective and cost-effective outcomes.

NEW SECTION, Sec. 102. (1) The department of social and health services shall explore and report to the appropriate committees of the legislature by December 1, 2005, on the feasibility, costs, benefits, and time frame to access federal medicaid funds for mental health and substance abuse treatment under the following provisions:
(a) The optional clinic provisions;
(b) Children's mental health treatment or co-occurring disorders treatment under the early periodic screening, diagnosis, and treatment provisions;
(c) Targeted case management, including a plan for coordination of various case management opportunities under medicaid.
(2) The department shall provide the appropriate committees of the legislature with a clear and concise explanation of the reasons for reducing state hospital capacity and the differences in costs and benefits of treatment in state and community hospital treatment.
(3) The department may not reduce the capacity of either state hospital until at least an equal number of skilled nursing, residential, expanded services facility, or supported housing placements are available in the community to the persons displaced by the capacity reduction.

Mental Health Treatment

NEW SECTION, Sec. 103. A new section is added to chapter 71.05 RCW to read as follows:
(1) Not later than January 1, 2007, all persons providing treatment under this chapter shall also implement the integrated comprehensive screening and assessment process for chemical dependency and mental disorders adopted pursuant to
section 701 of this act and shall document the numbers of clients with co-occurring mental and substance abuse disorders based on a quadrant system of low and high needs.

(1) A person (found to be) who is gravely disabled or presents a likelihood of serious harm as a result of a mental or chemical dependency disorder or co-occurring mental and chemical dependency disorders has a right to refuse antipsychotic medication unless it is determined that the failure to medicate may result in a likelihood of serious harm or substantial deterioration or substantially prolong the length of involuntary commitment and there is no less intrusive course of treatment than medication in the best interest of that person.

(2) The department shall adopt rules to carry out the purposes of this chapter. These rules shall include:
(a) An attempt to obtain the informed consent of the person prior to administration of antipsychotic medication;
(b) For short term treatment up to thirty days, the right to refuse antipsychotic medications unless there is an additional concurring medical opinion approving medication;

(d) Administration of antipsychotic medication in an emergency and review of this decision within twenty four hours. An emergency exists if the person presents an imminent likelihood of serious harm, and medically acceptable alternatives to administration of antipsychotic medications are not available or are unlikely to be successful, and in the opinion of the physician, the person's condition constitutes an emergency requiring the treatment be instituted prior to obtaining a second medical opinion;
(e) Documentation in the medical record of the physician's attempt to obtain informed consent and the reasons why antipsychotic medication is being administered over the person's objection or lack of consent. The physician must attempt to obtain the informed consent of an involuntary committed person prior to administration of antipsychotic medication and document the attempt to obtain consent in the person's medical record with the reasons that antipsychotic medication is necessary;

(3) If an involuntary committed person refuses antipsychotic medications, the medications may not be administered unless the person has first had a hearing by a panel composed of a psychologist, psychiatrist, and the medical director of the facility, none of whom may be involved in the person's treatment at the time of the hearing.

(4) If a majority of the panel determines that there is clear, cogent, and convincing evidence demonstrating that treatment with antipsychotic medications is medically appropriate, that failure to medicate may result in a likelihood of serious harm or substantial deterioration or substantially prolong the length of involuntary commitment, and that there is no less intrusive
course of treatment than medication in the best interest of that person, the person may be medicated, subject to the provisions of subsections (5) through (7) of this section.

(5) Medication ordered pursuant to a decision of the panel may only be continued on an involuntary basis if the panel conducts a second hearing on the written record and a majority of the panel determines that there continues to be clear, cogent, and convincing evidence demonstrating that treatment with antipsychotic medications continues to be medically appropriate, that failure to medicate may result in a likelihood of serious harm or substantial deterioration or substantially prolong the length of involuntary commitment, and that there is no less intrusive course of treatment than medication in the best interest of that person.

(a) Following the second hearing, involuntary medication with antipsychotic medication may be continued if the treating psychiatrist certifies, not less than every fourteen days, that the medication continues to be medically appropriate and failure to medicate may result in a likelihood of serious harm or substantial deterioration or substantially prolong the length of involuntary commitment, and that there is no less intrusive course of treatment than medication in the best interest of that person.

(b) No administrative order for involuntary medication may be continued beyond one hundred eighty days, or the next commitment proceeding in the superior court, whichever comes first.

(6) The committed person may appeal the panel's decision to the medical director within twenty-four hours and the medical director must decide the appeal within twenty-four hours of receipt.

(7) The committed person may seek judicial review of the medical director's decision at the next commitment proceeding or by means of an extraordinary writ.

(8) Minutes of the hearing shall be kept and a copy shall be provided to the committed person.

(9) With regard to the involuntary medication hearing, the committed person has the right:

(a) To notice at least twenty-four hours in advance of the hearing that includes the intent to convene the hearing, the tentative diagnosis and the factual basis for the diagnosis, and why the staff believes that medication is necessary;

(b) Not to be medicated between the delivery of the notice and the hearing;

(c) To attend the hearing;

(d) To present evidence, including witnesses, and to cross-examine witnesses, including staff;

(e) To the assistance of a lay assistant, who is not involved in the case and who understands psychiatric issues;

(f) To receive a copy of the minutes of the hearing; and

(g) To appeal the panel's decision to the medical director.

Sec. 109. RCW 71.05.370 and 1997 c 112 s 31 are each amended to read as follows:

involuntary commitment, and that there is no less intrusive course of treatment than medication or electroconvulsive therapy in the best interest of the person.

(b) The court shall make specific findings of fact concerning: (i) The existence of (one or more compelling state interests) the likelihood of serious harm or substantial deterioration or substantially prolonging the length of involuntary commitment; (ii) the necessity and effectiveness of the treatment; (iii) the person's desires regarding the proposed treatment; and (iv) the best interests of the person.

(3) Antipsychotic medication may be administered to a nonconsenting person detained or committed pursuant to this chapter without a court order:

(a) Pursuant to RCW 71.05.215(2); or
(b) Under the following circumstances:

(ii) Medically acceptable alternatives to administration of antipsychotic medications are not available, have not been successful, or are not likely to be effective; and
(iii) In the opinion of the physician with responsibility for treatment of the person, or his or her designee, the person's condition constitutes an emergency requiring the treatment be instituted before a judicial hearing as authorized pursuant to this section can be held.

If antipsychotic medications are administered over a person's lack of consent pursuant to (b) of this subsection, a petition for an order authorizing the administration of antipsychotic medications shall be filed on the next judicial day. The hearing shall be held within two judicial days. If deemed necessary by the physician with responsibility for the treatment of the person, administration of antipsychotic medications may continue until the hearing is held:

(4) No court has the authority to order psychosurgery performed on (him or her) any person involuntarily detained, treated in a less restrictive alternative course of treatment, or committed for treatment and evaluation pursuant to this chapter under any circumstances.

(5) A petition for involuntary medication may be joined with a petition for involuntary treatment.

NEW SECTION. Sec. 203. (1) The secretary, after consulting with the Washington state association of counties, shall select and contract with regional support networks or counties to provide two integrated crisis response and involuntary treatment pilot programs for adults and shall allocate resources for both integrated services and secure detoxification services in the pilot areas. In selecting the two regional support networks or counties, the secretary shall endeavor to site one in an urban and one in a rural regional support network or county; and to site them in counties other than those selected pursuant to section 220 of this act, to the extent necessary to facilitate evaluation of pilot project results.

(2) The regional support networks or counties shall implement the pilot programs by providing integrated crisis response and involuntary treatment to persons with a chemical dependency, a mental disorder, or both, consistent with this chapter. The pilot programs shall:

(a) Combine the crisis responder functions of a designated mental health professional under chapter 71.05 RCW and a designated chemical dependency specialist under chapter 70.96A RCW by establishing a new designated crisis responder who is authorized to conduct investigations and detain persons up to seventy-two hours to the proper facility;

(b) Provide training to the crisis responders as required by the department;

(c) Provide sufficient staff and resources to ensure availability of an adequate number of crisis responders twenty-four hours a day, seven days a week;

(d) Provide the administrative and court-related staff, resources, and processes necessary to facilitate the legal requirements of the initial detention and the commitment hearings for persons with a chemical dependency;

(e) Participate in the evaluation and report to assess the outcomes of the pilot programs including providing data and information as requested;

(f) Provide the other services necessary to the implementation of the pilot programs, consistent with this chapter as determined by the secretary in contract; and
(g) Collaborate with the department of corrections where persons detained or committed are also subject to supervision by the department of corrections.

(3) The pilot programs established by this section shall begin providing services by March 1, 2006.

NEW SECTION. Sec. 204. To qualify as a designated crisis responder, a person must have received chemical dependency training as determined by the department and be a:

(1) Psychiatrist, psychologist, psychiatric nurse, or social worker;
(2) Person with a master's degree or further advanced degree in counseling or one of the social sciences from an accredited college or university and who have, in addition, at least two years of experience in direct treatment of persons with mental illness or emotional disturbance, such experience gained under the direction of a mental health professional;
(3) Person who meets the waiver criteria of RCW 71.24.260, which waiver was granted before 1986;
(4) Person who had an approved waiver to perform the duties of a mental health professional that was requested by the regional support network and granted by the department before July 1, 2001; or
(5) Person who has been granted a time-limited exception of the minimum requirements of a mental health professional by the department consistent with rules adopted by the secretary.

NEW SECTION. Sec. 205. In addition to the provisions of this chapter, a designated crisis responder has all the powers and duties of a designated mental health professional as well as the powers and duties of a designated chemical dependency specialist under RCW 70.96A.120.

NEW SECTION. Sec. 206. (1)(a) When a designated crisis responder receives information alleging that a person, as a result of a mental disorder, chemical dependency disorder, or both, presents a likelihood of serious harm or is gravely disabled, the designated crisis responder may, after investigation and evaluation of the specific facts alleged and of the reliability and credibility of any person providing information to initiate detention, if satisfied that the allegations are true and that the person will not voluntarily seek appropriate treatment, file a petition for initial detention. Before filing the petition, the designated crisis responder must personally interview the person, unless the person refuses an interview, and determine whether the person will voluntarily receive appropriate evaluation and treatment at either an evaluation and treatment facility, detoxification facility, or other certified chemical dependency provider.

(b)(i)(A) Whenever it appears, by petition for initial detention, to the satisfaction of a judge of the superior court that a person presents as a result of a mental disorder, a likelihood of serious harm, or is gravely disabled, and that the person has refused or failed to accept appropriate evaluation and treatment voluntarily, the judge may issue an order requiring the person to appear within twenty-four hours after service of the order at a designated evaluation and treatment facility for not more than a seventy-two hour evaluation and treatment period; or

(B) Whenever it appears, by petition for initial detention, to the satisfaction of a judge of the superior court, district court, or other court permitted by court rule, that a person presents as a result of a chemical dependency, a likelihood of serious harm, or is gravely disabled, and that the person has refused or failed to accept appropriate evaluation and treatment voluntarily, the judge may issue an order requiring the person to appear within twenty-four hours after service of the order at a secure detoxification facility or other certified chemical dependency provider for not more than a seventy-two hour evaluation and treatment period.

(ii) The order issued under this subsection (1)(b) shall state the address of the evaluation and treatment facility, secure detoxification facility, or other certified chemical dependency provider to which the person is to report; whether the required seventy-two hour evaluation and treatment services may be delivered on an outpatient or inpatient basis; and that if the person named in the order fails to appear at the evaluation and treatment facility, secure detoxification facility, or other certified chemical dependency provider at or before the date and time stated in the order, the person may be involuntarily taken into custody for evaluation and treatment. The order shall also designate retained counsel or, if counsel is appointed from a list provided by the court, the name, business address, and telephone number of the attorney appointed to represent the person.

(c) The designated crisis responder shall then serve or cause to be served on such person, his or her guardian, and conservator, if any, a copy of the order to appear, together with a notice of rights and a petition for initial detention. After service on the person, the designated crisis responder shall file the return of service in court and provide copies of all papers in the court file to the evaluation and treatment facility or secure detoxification facility and the designated attorney. The designated crisis responder shall notify the court and the prosecuting attorney that a probable cause hearing will be held within seventy-two hours of the date and time of outpatient evaluation or admission to the evaluation and treatment facility, secure detoxification facility, or other certified chemical dependency provider. The person shall be permitted to remain in his or her home or other place of his or her choosing before the time of evaluation and shall be permitted to be accompanied by one or more of his or her relatives,
friends, an attorney, a personal physician, or other professional or religious advisor to the place of evaluation. An attorney accompanying the person to the place of evaluation shall be permitted to be present during the admission evaluation. Any other person accompanying the person may be present during the admission evaluation. The facility may exclude the person if his or her presence would present a safety risk, delay the proceedings, or otherwise interfere with the evaluation.

(d) If the person ordered to appear does appear on or before the date and time specified, the evaluation and treatment facility, secure detoxification facility, or other certified chemical dependency provider may admit the person as required by subsection (3) of this section or may provide treatment on an outpatient basis. If the person ordered to appear fails to appear on or before the date and time specified, the evaluation and treatment facility, secure detoxification facility, or other certified chemical dependency provider shall immediately notify the designated crisis responder who may notify a peace officer to take the person or cause the person to be taken into custody and placed in an evaluation and treatment facility, a secure detoxification facility, or other certified chemical dependency provider. Should the designated crisis responder notify a peace officer authorizing the officer to take a person into custody under this subsection, the designated crisis responder shall file with the court a copy of the authorization and a notice of detention. At the time the person is taken into custody there shall commence to be served on the person, his or her guardian, and conservator, if any, a copy of the original order together with a notice of detention, a notice of rights, and a petition for initial detention.

(2) If a designated crisis responder receives information alleging that a person, as the result of:

(a) A mental disorder, presents an imminent likelihood of serious harm, or is in imminent danger because of being gravely disabled, after investigation and evaluation of the specific facts alleged and of the reliability and credibility of the person or persons providing the information if any, the designated crisis responder may take the person, or cause by oral or written order the person to be taken into emergency custody in an evaluation and treatment facility for not more than seventy-two hours as described in this chapter; or

(b) Chemical dependency, presents an imminent likelihood of serious harm, or is in imminent danger because of being gravely disabled, after investigation and evaluation of the specific facts alleged and of the reliability and credibility of the person or persons providing the information if any, the designated crisis responder may take the person, or cause by oral or written order the person to be taken into emergency custody in a secure detoxification facility for not more than seventy-two hours as described in this chapter.

(3) If the designated crisis responder petitions for detention of a person whose actions constitute a likelihood of serious harm, or who is gravely disabled, the evaluation and treatment facility, the secure detoxification facility, or other certified chemical dependency provider providing seventy-two hour evaluation and treatment must immediately accept on a provisional basis the petition and the person. The evaluation and treatment facility, the secure detoxification facility, or other certified chemical dependency provider shall then evaluate the person's condition and admit, detain, transfer, or discharge such person in accordance with this chapter. The facility shall notify in writing the court and the designated crisis responder of the date and time of the initial detention of each person involuntarily detained so that a probable cause hearing will be held no later than seventy-two hours after detention.

(4) A peace officer may, without prior notice of the proceedings provided for in subsection (1) of this section, take or cause the person to be taken into custody and immediately delivered to an evaluation and treatment facility, secure detoxification facility, or other certified chemical dependency treatment provider only pursuant to subsections (1)(d) and (2) of this section.

(5) Nothing in this chapter limits the power of a peace officer to take a person into custody and immediately deliver the person to the emergency department of a local hospital or to a detoxification facility.

NEW SECTION. Sec. 207. (1) A person or public or private entity employing a person is not civilly or criminally liable for performing duties under this chapter if the duties were performed in good faith and without gross negligence.

(2) This section does not relieve a person from giving the required notices under RCW 71.05.330(2) or 71.05.340(1)(b), or the duty to warn or to take reasonable precautions to provide protection from violent behavior where the patient has communicated an actual threat of physical violence against a reasonably identifiable victim or victims. The duty to warn or to take reasonable precautions to provide protection from violent behavior is discharged if reasonable efforts are made to communicate the threat to the victim or victims and to law enforcement personnel.

NEW SECTION. Sec. 208. If the evaluation and treatment facility, secure detoxification facility, or other certified chemical dependency provider admits the person, it may detain the person for evaluation and treatment for a period not to exceed seventy-two hours from the time of acceptance. The computation of the seventy-two hour period excludes Saturdays, Sundays, and holidays.
NEW SECTION. Sec. 209. Whenever any person is detained for evaluation and treatment for a mental disorder under section 206 of this act, chapter 71.05 RCW applies.

NEW SECTION. Sec. 210. (1) A person detained for seventy-two hour evaluation and treatment under section 206 of this act or RCW 70.96A.120 may be detained for not more than fourteen additional days of involuntary chemical dependency treatment if there are beds available at the secure detoxification facility and the following conditions are met:
   (a) The professional person in charge of the agency or facility or the person's designee providing evaluation and treatment services in a secure detoxification facility has assessed the person's condition and finds that the condition is caused by chemical dependency and either results in a likelihood of serious harm or in the detained person being gravely disabled, and the professional person or his or her designee is prepared to testify those conditions are met;
   (b) The person has been advised of the need for voluntary treatment and the professional person in charge of the agency or facility or his or her designee has evidence that he or she has not in good faith volunteered for treatment; and
   (c) The professional person in charge of the agency or facility or the person's designee has filed a petition for fourteen-day involuntary detention with the superior court, district court, or other court permitted by court rule. The petition must be signed by the chemical dependency professional who has examined the person.

   (2) The petition under subsection (1)(c) of this section shall be accompanied by a certificate of a licensed physician who has examined the person, unless the person whose commitment is sought has refused to submit to a medical examination, in which case the fact of refusal shall be alleged in the petition. The certificate shall set forth the licensed physician's findings in support of the allegations of the petition. A physician employed by the petitioning program or the department is eligible to be the certifying physician.

   (3) The petition shall state facts that support the finding that the person, as a result of chemical dependency, presents a likelihood of serious harm or is gravely disabled, and that there are no less restrictive alternatives to detention in the best interest of the person or others. The petition shall state specifically that less restrictive alternative treatment was considered and specify why treatment less restrictive than detention is not appropriate.

   (4) A copy of the petition shall be served on the detained person, his or her attorney, and his or her guardian or conservator, if any, before the probable cause hearing.

   (5) (a) The court shall inform the person whose commitment is sought of his or her right to contest the petition, be represented by counsel at every stage of any proceedings relating to his or her commitment, and have counsel appointed by the court or provided by the court, if he or she wants the assistance of counsel and is unable to obtain counsel. If the court believes that the person needs the assistance of counsel, the court shall require, by appointment if necessary, counsel for him or her regardless of his or her wishes. The person shall, if he or she is financially able, bear the costs of such legal service; otherwise such legal service shall be at public expense. The person whose commitment is sought shall be informed of his or her right to be examined by a licensed physician of his or her choice. If the person is unable to obtain a licensed physician and requests examination by a physician, the court shall appoint a reasonably available licensed physician designated by the person.

   (b) At the conclusion of the probable cause hearing, if the court finds by a preponderance of the evidence that the person, as the result of chemical dependency, presents a likelihood of serious harm or is gravely disabled and, after considering less restrictive alternatives to involuntary detention and treatment, finds that no such alternatives are in the best interest of such person or others, the court shall order that the person be detained for involuntary chemical dependency treatment not to exceed fourteen days in a secure detoxification facility.

NEW SECTION. Sec. 211. If a person is detained for additional treatment beyond fourteen days under section 210 of this act, the professional staff of the agency or facility may petition for additional treatment under RCW 70.96A.140.

NEW SECTION. Sec. 212. The prosecuting attorney of the county in which an action under this chapter is taken must represent the petitioner in judicial proceedings under this chapter for the involuntary chemical dependency treatment of a person, including any judicial proceeding where the person sought to be treated for chemical dependency challenges the action.

NEW SECTION. Sec. 213. (1) Every person involuntarily detained or committed under this chapter as a result of a mental disorder is entitled to all the rights set forth in this chapter and in chapter 71.05 RCW, and retains all rights not denied him or her under this chapter or chapter 71.05 RCW.

   (2) Every person involuntarily detained or committed under this chapter as a result of a chemical dependency is entitled to all the rights set forth in this chapter and chapter 70.96A RCW, and retains all rights not denied him or her under this chapter or chapter 70.96A RCW.
NEW SECTION. Sec. 214. (1) When a designated crisis responder is notified by a jail that a defendant or offender who was subject to a discharge review under RCW 71.05.232 is to be released to the community, the designated crisis responder shall evaluate the person within seventy-two hours of release.

(2) When an offender is under court-ordered treatment in the community and the supervision of the department of corrections, and the treatment provider becomes aware that the person is in violation of the terms of the court order, the treatment provider shall notify the designated crisis responder of the violation and request an evaluation for purposes of revocation of the less restrictive alternative.

(3) When a designated crisis responder becomes aware that an offender who is under court-ordered treatment in the community and the supervision of the department of corrections is in violation of a treatment order or a condition of supervision that relates to public safety, or the designated crisis responder detains a person under this chapter, the designated crisis responder shall notify the person's treatment provider and the department of corrections.

(4) When an offender who is confined in a state correctional facility or is under supervision of the department of corrections in the community is subject to a petition for involuntary treatment under this chapter, the petitioner shall notify the department of corrections and the department of corrections shall provide documentation of its risk assessment or other concerns to the petitioner and the court if the department of corrections classified the offender as a high risk or high needs offender.

(5) Nothing in this section creates a duty on any treatment provider or designated crisis responder to provide offender supervision.

NEW SECTION. Sec. 215. The secretary may adopt rules to implement this chapter.

NEW SECTION. Sec. 216. The provisions of RCW 71.05.550 apply to this chapter.

(2) The evaluation of the pilot programs shall include:
   (a) Whether the designated crisis responder pilot program:
      (i) Has increased efficiency of evaluation and treatment of persons involuntarily detained for seventy-two hours;
      (ii) Is cost-effective;
      (iii) Results in better outcomes for persons involuntarily detained;
      (iv) Increased the effectiveness of the crisis response system in the pilot catchment areas;
   (b) The effectiveness of providing a single chapter in the Revised Code of Washington to address initial detention of persons with mental disorders or chemical dependency, in crisis response situations and the likelihood of effectiveness of providing a single, comprehensive involuntary treatment act.

(3) The reports shall consider the impact of the pilot programs on the existing mental health system and on the persons served by the system.

Sec. 218. RCW 71.05.550 and 1973 1st ex.s. c 142 s 60 are each amended to read as follows:

The department of social and health services, in planning and providing funding to counties pursuant to chapter 71.24 RCW, shall recognize the financial necessities imposed upon counties by implementation of this chapter and chapter 70.96A RCW (sections 202 through 216 of this act), and shall consider needs, if any, for additional community mental health services and facilities and reduction in commitments to state hospitals for the mentally ill accomplished by individual counties, in planning and providing such funding. The state shall provide financial assistance to the counties to enable the counties to meet all increased costs, if any, to the counties resulting from their administration of the provisions of chapter 142, Laws of 1973 1st ex. sess.

NEW SECTION. Sec. 219. Sections 202 through 216 of this act expire July 1, 2008.

NEW SECTION. Sec. 220. A new section is added to chapter 70.96A RCW to read as follows:

(1) The secretary shall select and contract with counties to provide intensive case management for chemically dependent persons with histories of high utilization of crisis services at two sites. In selecting the two sites, the secretary shall endeavor to site one in an urban county, and one in a rural county; and to site them in counties other than those selected pursuant to section 203 of this act, to the extent necessary to facilitate evaluation of pilot project results.
The contracted sites shall implement the pilot programs by providing intensive case management to persons with a primary chemical dependency diagnosis or dual primary chemical dependency and mental health diagnoses, through the employment of chemical dependency case managers. The chemical dependency case managers shall:

(a) Be trained in and use the integrated, comprehensive screening and assessment process adopted under section 701 of this act;

(b) Reduce the use of crisis medical, chemical dependency and mental health services, including but not limited to, emergency room admissions, hospitalizations, detoxification programs, inpatient psychiatric admissions, involuntary treatment petitions, emergency medical services, and ambulance services;

(c) Reduce the use of emergency first responder services including police, fire, emergency medical, and ambulance services;

(d) Reduce the number of criminal justice interventions including arrests, violations of conditions of supervision, bookings, jail days, prison sanction day for violations, court appearances, and prosecutor and defense costs;

(e) Where appropriate and available, work with therapeutic courts including drug courts and mental health courts to maximize the outcomes for the individual and reduce the likelihood of reoffense;

(f) Coordinate with local offices of the economic services administration to assist the person in accessing and remaining enrolled in those programs to which the person may be entitled;

(g) Where appropriate and available, coordinate with primary care and other programs operated through the federal government including federally qualified health centers, Indian health programs, and veterans' health programs for which the person is eligible to reduce duplication of services and conflicts in case approach;

(h) Where appropriate, advocate for the client's needs to assist the person in achieving and maintaining stability and progress toward recovery;

(i) Document the numbers of persons with co-occurring mental and substance abuse disorders and the point of determination of the co-occurring disorder by quadrant of intensity of need; and

(j) Where a program participant is under supervision by the department of corrections, collaborate with the department of corrections to maximize treatment outcomes and reduce the likelihood of reoffense.

The pilot programs established by this section shall begin providing services by March 1, 2006.

This section expires June 30, 2008.

PART III
MENTAL HEALTH SERVICES FOR MINORS

Sec. 301. RCW 71.34.042 and 1998 c 296 s 14 are each amended to read as follows:
(1) An evaluation and treatment facility may admit for evaluation, diagnosis, or treatment any minor under thirteen years of age for whom application is made by the minor's parent or guardian. The consent of the minor under the age of thirteen is not required.

(2) A minor thirteen years or older may admit himself or herself to an evaluation and treatment facility for inpatient mental treatment, without parental consent. The admission shall occur only if the professional person in charge of the facility concurs with the need for inpatient treatment.

(3) When, in the judgment of the professional person in charge of an evaluation and treatment facility, there is reason to believe that a minor is in need of inpatient treatment because of a mental disorder, and the facility provides the type of evaluation and treatment needed by the minor, and it is not feasible to treat the minor in any less restrictive setting or the minor's home, the minor may be admitted to an evaluation and treatment facility.

(4) Written renewal of voluntary consent must be obtained from the applicant no less than once every twelve months. The minor's need for continued inpatient treatments shall be reviewed and documented no less than every one hundred eighty days.

Sec. 302. RCW 71.34.052 and 1998 c 296 s 17 are each amended to read as follows:
(1) A parent may bring, or authorize the bringing of, his or her minor child, age thirteen or older, to an evaluation and treatment facility and request that the professional person examine the minor to determine whether the minor has a mental disorder and is in need of inpatient treatment.

(2) The consent of the minor is not required for admission, evaluation, and treatment if the parent brings the minor to the facility.

(3) An appropriately trained professional person may evaluate whether the minor has a mental disorder. The evaluation shall be completed within twenty-four hours of the time the minor was brought to the facility, unless the professional person
Sec. 303. RCW 71.34.054 and 1998 c 296 s 18 are each amended to read as follows:

(1) A parent may bring, or authorize the bringing of, his or her minor child, age thirteen or older, to a provider of outpatient mental health treatment and request that an appropriately trained professional person examine the minor to determine whether the minor has a mental disorder and is in need of outpatient treatment.

(2) The consent of the minor is not required for evaluation if the parent brings the minor to the provider.

(3) The professional person may evaluate whether the minor has a mental disorder and is in need of outpatient treatment.

(4) Any minor admitted to inpatient treatment under RCW 71.34.042 or 71.34.052 shall be discharged immediately from inpatient treatment upon written request of the parent.

Sec. 304. RCW 71.34.025 and 1998 c 296 s 9 are each amended to read as follows:

(1) The department shall assure that, for any minor admitted to inpatient treatment under RCW 71.34.052, a review is conducted by a physician or other mental health professional who is employed by the department, or an agency under contract with the department, and who neither has a financial interest in continued inpatient treatment of the minor nor is affiliated with the facility providing the treatment. The physician or other mental health professional shall conduct the review not less than ((seven)) three nor more than ((fourteen)) seven days following the date the minor was brought to the facility under RCW 71.34.052 to determine whether it is a medical necessity to continue the minor's treatment on an inpatient basis.

(2) In making a determination under subsection (1) of this section, the department shall consider the opinion of the treatment provider, the safety of the minor, and the likelihood the minor's mental health will deteriorate if released from inpatient treatment. The department shall consult with the parent in advance of making its determination.

(3) If, after any review conducted by the department under this section, the department determines it is no longer a medical necessity for a minor to receive inpatient treatment, the department shall immediately notify the parents and the facility. The facility shall release the minor to the parents within twenty-four hours of receiving notice. If the professional person in charge and the parent believe that it is a medical necessity for the minor to remain in inpatient treatment, the minor shall be released to the parent on the second judicial day following the department's determination (in order to allow the parent time to file an at-risk youth petition under chapter 13.32A RCW). If the department determines it is a medical necessity for the minor to receive outpatient treatment and the minor declines to obtain such treatment, such refusal shall be grounds for the parent to file an at-risk youth petition.

(4) If the evaluation conducted under RCW 71.34.052 is done by the department, the reviews required by subsection (1) of this section shall be done by contract with an independent agency.

(5) The department may, subject to available funds, contract with other governmental agencies to conduct the reviews under this section. The department may seek reimbursement from the parents, their insurance, or medicaid for the expense of any review conducted by an agency under contract.

(6) In addition to the review required under this section, the department may periodically determine and redetermine the medical necessity of treatment for purposes of payment with public funds.

Sec. 305. RCW 71.34.162 and 1998 c 296 s 19 are each amended to read as follows:
Following the review conducted under RCW 71.34.025, a minor child may petition the superior court for his or her release from the facility. (The petition may be filed not sooner than five days following the review.) The court shall release the minor unless it finds, upon a preponderance of the evidence, that it is a medical necessity for the minor to remain at the facility.

Sec. 306. RCW 71.34.270 and 1985 c 354 s 27 are each amended to read as follows:
No public or private agency or governmental entity, nor officer of a public or private agency, nor the superintendent, or professional person in charge, his or her professional designee or attending staff of any such agency, nor any public official performing functions necessary to the administration of this chapter, nor peace officer responsible for detaining a person under this chapter, nor any (county) designated mental health professional, nor professional person, nor evaluation and treatment facility, shall be civilly or criminally liable for performing his or her duties under this chapter with regard to the decision of whether to admit, release, or detain a person for evaluation and treatment: PROVIDED, That such duties were performed in good faith and without gross negligence.

PART V
RESOURCES

NEW SECTION. Sec. 501. Sections 502 through 525 of this act constitute a new chapter in Title 70 RCW.

NEW SECTION. Sec. 502. The legislature finds that there are persons with mental disorders, including organic or traumatic brain disorders, and combinations of mental disorders with other medical conditions or behavior histories that result in behavioral and security issues that make these persons ineligible for, or unsuccessful in, existing types of licensed facilities, including adult residential rehabilitation centers, boarding homes, adult family homes, group homes, and skilled nursing facilities. The legislature also finds that many of these persons have been treated on repeated occasions in inappropriate acute care facilities and released without an appropriate placement or have been treated or detained for extended periods in inappropriate settings including state hospitals and correctional facilities. The legislature further finds that some of these persons present complex safety and treatment issues that require security measures that cannot be instituted under most facility licenses or supported housing programs. These include the ability to detain persons under involuntary treatment orders or administer court ordered medications.

Consequently, the legislature intends, subject to funds appropriated specifically for this purpose, to establish a new type of facility licensed by the department of social and health services as an enhanced services facility with standards that will provide a safe, secure treatment environment for a limited population of persons who are not appropriately served in other facilities or programs. The legislature also finds that enhanced services facilities may need to specialize in order to effectively care for a particular segment of the identified population.

For the purposes of this chapter, an enhanced services facility is governed by the same provisions in chapter 71.05 RCW as an evaluation and treatment facility, provided that the enhanced services facility will serve only individuals for which it is certified.

All other facilities are required to meet all applicable state and local rules, regulations, permits, and code requirements.
NEW SECTION. Sec. 509. (2) The enhanced services facility shall develop an individualized treatment plan for each resident based on the comprehensive assessment and any other information in the person's record. The plan shall be updated as necessary and shall include a plan for appropriate transfer or discharge. Where the person is under the supervision of the department of corrections, the facility shall collaborate with the department of corrections to maximize treatment outcomes and reduce the likelihood of reoffense.

(3) The plan shall maximize the opportunities for independence, recovery, employment, the resident's participation in treatment decisions, and collaboration with peer-supported services, and provide for care and treatment in the least restrictive manner appropriate to the individual resident, and, where relevant, to any court orders with which the resident must comply.

NEW SECTION. Sec. 510. (1) An enhanced services facility must have sufficient numbers of staff with the appropriate credentials and training to provide residents with the appropriate care and treatment:

(2) Where an enhanced services facility specializes in medically or functionally fragile persons with mental disorders, the on-site staff must include at least one licensed nurse twenty-four hours per day. The nurse must be a registered nurse for at least sixteen hours per day. If the nurse is not a registered nurse, a registered nurse or a doctor must be on-call during the remaining eight hours.

NEW SECTION. Sec. 512. (1) The department shall establish licensing rules for enhanced services facilities to serve the populations defined in this chapter. In order for the identified populations to be more effectively served, licensing rules shall provide for the facility to specialize in a particular segment to be served including but not necessarily limited to persons with the following needs: (a) Mental health; (b) chemical dependency; (c) developmental disabilities; (d) long-term care medically and functionally fragile individuals with mental disorders; (e) traumatic brain injury; (f) neurological; or (g) any combination of (a) through (f) of this subsection as long as residents can be safely and adequately served.

NEW SECTION, Sec. 513. (1) In any case in which the department finds that a licensee of a facility, or any partner, officer, director, owner of five percent or more of the assets of the facility, or managing employee failed or refused to comply with the requirements of this chapter or the rules established under them, the department may take any or all of the following actions:

(a) Suspend, revoke, or refuse to issue or renew a license;
(b) Order stop placement; or
(c) Assess civil monetary penalties.

(2) The department may suspend, revoke, or refuse to renew a license, assess civil monetary penalties, or both, in any case in which it finds that the licensee of a facility, or any partner, officer, director, owner of five percent or more of the assets of the facility, or managing employee:

(a) Operated a facility without a license or under a revoked or suspended license;
(b) Knowingly or with reason to know made a false statement of a material fact in the license application or any data attached thereto, or in any matter under investigation by the department;
(c) Refused to allow representatives or agents of the department to inspect all books, records, and files required to be maintained or any portion of the premises of the facility;
(d) Willfully prevented, interfered with, or attempted to impede in any way the work of any duly authorized representative of the department and the lawful enforcement of any provision of this chapter;
(e) Willfully prevented or interfered with any representative of the department in the preservation of evidence of any violation of any of the provisions of this chapter or of the rules adopted under it; or
(f) Failed to pay any civil monetary penalty assessed by the department under this chapter within ten days after the assessment becomes final.

(3)(a) Civil penalties collected under this chapter shall be deposited into a special fund administered by the department.
(b) Civil monetary penalties, if imposed, may be assessed and collected, with interest, for each day the facility is or was out of compliance. Civil monetary penalties shall not exceed three thousand dollars per day. Each day upon which the same or a substantially similar action occurs is a separate violation subject to the assessment of a separate penalty.
(4) The department may use the civil penalty monetary fund for the protection of the health or property of residents of facilities found to be deficient including:

(a) Payment for the cost of relocation of residents to other facilities;
(b) Payment to maintain operation of a facility pending correction of deficiencies or closure; and
(c) Reimbursement of a resident for personal funds or property loss.

(5)(a) The department may issue a stop placement order on a facility, effective upon oral or written notice, when the department determines:

(i) The facility no longer substantially meets the requirements of this chapter; and
(ii) The deficiency or deficiencies in the facility:
(A) Jeopardizes the health and safety of the residents; or
(B) Seriously limits the facility's capacity to provide adequate care.
(b) When the department has ordered a stop placement, the department may approve a readmission to the facility from a hospital, residential treatment facility, or crisis intervention facility when the department determines the readmission would be in the best interest of the individual seeking readmission.

(6) If the department determines that an emergency exists and resident health and safety is immediately jeopardized as a result of a facility's failure or refusal to comply with this chapter, the department may summarily suspend the facility's license and order the immediate closure of the facility, or the immediate transfer of residents, or both.

(7) If the department determines that the health or safety of the residents is immediately jeopardized as a result of a facility's failure or refusal to comply with requirements of this chapter, the department may appoint temporary management to:

(a) Oversee the operation of the facility; and
(b) Ensure the health and safety of the facility's residents while:
(i) Orderly closure of the facility occurs; or
(ii) The deficiencies necessitating temporary management are corrected.

NEW SECTION, Sec. 514. (1) All orders of the department denying, suspending, or revoking the license or assessing a monetary penalty shall become final twenty days after the same has been served upon the applicant or licensee unless a hearing is requested.

(2) All orders of the department imposing stop placement, temporary management, emergency closure, emergency transfer, or summary license suspension shall be effective immediately upon notice, pending any hearing.
(3) Subject to the requirements of subsection (2) of this section, all hearings under this chapter and judicial review of such determinations shall be in accordance with the administrative procedure act, chapter 34.05 RCW.

NEW SECTION. Sec. 515. Operation of a facility without a license in violation of this chapter and discrimination against medicaid recipients is a matter vitally affecting the public interest for the purpose of applying the consumer protection act, chapter 19.86 RCW. Operation of an enhanced services facility without a license in violation of this chapter is not reasonable in relation to the development and preservation of business. Such a violation is an unfair or deceptive act in trade or commerce and an unfair method of competition for the purpose of applying the consumer protection act, chapter 19.86 RCW.

NEW SECTION. Sec. 516. A person operating or maintaining a facility without a license under this chapter is guilty of a misdemeanor and each day of a continuing violation after conviction shall be considered a separate offense.

NEW SECTION. Sec. 517. Notwithstanding the existence or use of any other remedy, the department may, in the manner provided by law, maintain an action in the name of the state for an injunction, civil penalty, or other process against a person to restrain or prevent the operation or maintenance of a facility without a license issued under this chapter.

NEW SECTION. Sec. 518. (1) The department shall make or cause to be made at least one inspection of each facility prior to licensure and an unannounced full inspection of facilities at least once every eighteen months. The statewide average interval between full facility inspections must be fifteen months.

(2) Any duly authorized officer, employee, or agent of the department may enter and inspect any facility at any time to determine that the facility is in compliance with this chapter and applicable rules, and to enforce any provision of this chapter. Complaint inspections shall be unannounced and conducted in such a manner as to ensure maximum effectiveness. No advance notice shall be given of any inspection unless authorized or required by federal law.

(3) During inspections, the facility must give the department access to areas, materials, and equipment used to provide care or support to residents, including resident and staff records, accounts, and the physical premises, including the buildings, grounds, and equipment. The department has the authority to privately interview the provider, staff, residents, and other individuals familiar with resident care and treatment.

(4) Any public employee giving advance notice of an inspection in violation of this section shall be suspended from all duties without pay for a period of not less than five nor more than fifteen days.

(5) The department shall prepare a written report describing the violations found during an inspection, and shall provide a copy of the inspection report to the facility.

(6) The facility shall develop a written plan of correction for any violations identified by the department and provide a plan of correction to the department within ten working days from the receipt of the inspection report.

NEW SECTION. Sec. 519. The facility shall only admit individuals:

(1) Who are over the age of eighteen;

(2) Who meet the resident eligibility requirements described in section 505 of this act; and

(3) Whose needs the facility can safely and appropriately meet through qualified and trained staff, services, equipment, security, and building design.

NEW SECTION. Sec. 520. If the facility does not employ a qualified professional able to furnish needed services, the facility must have a written contract with a qualified professional or agency outside the facility to furnish the needed services.

NEW SECTION. Sec. 521. At least sixty days before the effective date of any change of ownership, or change of management of a facility, the current operating entity must provide written notification about the proposed change separately and in writing, to the department, each resident of the facility, or the resident's guardian or representative.

NEW SECTION. Sec. 522. The facility shall:

(1) Maintain adequate resident records to enable the provision of necessary treatment, care, and services and to respond appropriately in emergency situations;

(2) Comply with all state and federal requirements related to documentation, confidentiality, and information sharing, including chapters 10.77, 70.02, 70.24, 70.96A, and 71.05 RCW; and

(3) Where possible, obtain signed releases of information designating the department, the facility, and the department of corrections where the person is under its supervision, as recipients of health care information.
NEW SECTION. Sec. 523. (1) Standards for fire protection and the enforcement thereof, with respect to all facilities licensed under this chapter, are the responsibility of the chief of the Washington state patrol, through the director of fire protection, who must adopt recognized standards as applicable to facilities for the protection of life against the cause and spread of fire and fire hazards. If the facility to be licensed meets with the approval of the chief of the Washington state patrol, through the director of fire protection, the director of fire protection must submit to the department a written report approving the facility with respect to fire protection before a full license can be issued. The chief of the Washington state patrol, through the director of fire protection, shall conduct an unannounced full inspection of facilities at least once every eighteen months. The statewide average interval between full facility inspections must be fifteen months.

(2) Inspections of facilities by local authorities must be consistent with the requirements adopted by the chief of the Washington state patrol, through the director of fire protection. Findings of a serious nature must be coordinated with the department and the chief of the Washington state patrol, through the director of fire protection, for determination of appropriate actions to ensure a safe environment for residents. The chief of the Washington state patrol, through the director of fire protection, has exclusive authority to determine appropriate corrective action under this section.

NEW SECTION. Sec. 524. No facility providing care and treatment for individuals placed in a facility, or agency licensing or placing residents in a facility, acting in the course of its duties, shall be civilly or criminally liable for performing its duties under this chapter, provided that such duties were performed in good faith and without gross negligence.

2. If an individual is placed in an evaluation and treatment facility under RCW 10.77.090(1)(d)(iii)(B), a professional person shall evaluate the individual for purposes of determining whether to file a ninety-day inpatient or outpatient petition under chapter 71.05 RCW. Before expiration of the seventy-two hour evaluation period authorized under RCW 10.77.090(1)(d)(iii)(B), the professional person shall file a petition or, if the recommendation of the professional person is to release the individual, present his or her recommendation to the superior court of the county in which the criminal charge was dismissed. The superior court shall review the recommendation not later than forty-eight hours, excluding Saturdays, Sundays, and holidays, after the recommendation is presented. If the court rejects the recommendation to unconditionally release the individual, the court may order the individual detained at a designated evaluation and treatment facility for not more than a seventy-two hour evaluation and treatment period and direct the individual to appear at a surety hearing before that court within seventy-two hours, or the court may release the individual but direct the individual to appear at a surety hearing set before that court within eleven days, at which time the prosecutor may file a petition under this chapter for ninety-day inpatient or outpatient treatment. If a petition is filed by the prosecutor, the court may order that the person named in the petition be detained at the evaluation and treatment facility that performed the evaluation under this subsection or order the respondent to be in outpatient treatment. If a petition is filed but the individual fails to appear in court for the surety hearing, the court shall order that a mental health professional or peace officer shall take such person or cause such person to be taken into custody and placed in an evaluation and treatment facility to be brought before the court the next judicial day after detention. Upon the individual's first appearance in court after a petition has been filed, proceedings under RCW 71.05.310 and 71.05.320 shall commence. For an individual subject to this subsection, the prosecutor or professional person may directly file a petition for ninety-day inpatient or outpatient treatment and no petition for initial detention or fourteen-day detention is required before such a petition may be filed.

The court shall conduct the hearing on the petition filed under this subsection within five judicial days of the date the petition is filed. The court may continue the hearing upon the written request of the person named in the petition or the person's attorney, for good cause shown, which continuance shall not exceed five additional judicial days. If the person named in the petition requests a jury trial, the trial shall commence within ten judicial days of the date of the filing of the petition. The burden of proof shall be by clear, cogent, and convincing evidence and shall be upon the petitioner. The person shall be present at such proceeding, which shall in all respects accord with the constitutional guarantees of due process of law and the rules of evidence pursuant to RCW ((21.05.250)) 71.05.360 (8) and (9).
During the proceeding the person named in the petition shall continue to be detained and treated until released by order of the court. If no order has been made within thirty days after the filing of the petition, not including any extensions of time requested by the detained person or his or her attorney, the detained person shall be released.

(3) If a (designated mental health professional or the professional person and prosecuting attorney for the county in which the criminal charge was dismissed or attorney general, as appropriate, stipulate that the individual does not present a likelihood of serious harm or is not gravely disabled, the hearing under this section is not required and the individual, if in custody, shall be released.

(4) The individual shall have the rights specified in RCW (71.05.280(3) or 71.05.320(2)(c) following dismissal of a sexual, violent, or felony harassment offense) (71.05.360(8) and (9).

Sec. 809. RCW 71.05.310 and 1987 c 439 s 9 are each amended to read as follows:

The court shall conduct a hearing on the petition for ninety day treatment within five judicial days of the first court appearance after the probable cause hearing. The court may continue the hearing upon the written request of the person named in the petition or the person's attorney, for good cause shown, which continuance shall not exceed five additional judicial days. If the person named in the petition requests a jury trial, the trial shall commence within ten judicial days of the first court appearance after the probable cause hearing. The burden of proof shall be by clear, cogent, and convincing evidence and shall be upon the petitioner. The person shall be present at such proceeding, which shall in all respects accord with the constitutional guarantees of due process of law and the rules of evidence pursuant to RCW (71.05.280(3) or 71.05.320(2)(c) following dismissal of a sexual, violent, or felony harassment offense) (71.05.360(8) and (9).

During the proceeding, the person named in the petition shall continue to be treated until released by order of the superior court. If no order has been made within thirty days after the filing of the petition, not including extensions of time requested by the detained person or his or her attorney, the detained person shall be released.

(1) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Information related to mental health services" means all information and records compiled, obtained, or maintained in the course of providing services to either voluntary or involuntary recipients of services by a mental health service provider. This may include documents of legal proceedings under this chapter or chapter 71.34 or 10.77 RCW, or somatic health care information.

(b) "Mental health service provider" means a public or private agency that provides services to persons with mental disorders as defined under RCW 71.05.020 and receives funding from public sources. (2)(a) Information related to mental health services delivered to a person subject to chapter 9.94A or 9.95 RCW shall be released, upon request, by a mental health service provider to department of corrections personnel for whom the information is necessary to carry out the responsibilities of their office. The information must be provided only for the purposes of completing presentence investigations or risk assessment reports, supervision of an incarcerated offender or offender under supervision in the community, planning for and provision of supervision of an offender, or assessment of an offender's risk to the community. The request shall be in writing and shall not require the consent of the subject of the records.

(b) If an offender subject to chapter 9.94A or 9.95 RCW has failed to report for department of corrections supervision or in the event of an emergent situation that poses a significant risk to the public or the offender, information related to mental health services delivered to the offender and, if known, information regarding where the offender is likely to be found shall be released by the mental health services provider to the department of corrections upon request. Information released in response to a written request may include information identified by rule as provided in subsections (4) and (5) of this section. For purposes of this subsection a written request includes requests made by e-mail or facsimile so long as the requesting person at the department of corrections is clearly identified. The request must specify the information being requested. Disclosure of the information requested does not require the consent of the subject of the records unless the offender has received relief from disclosure under RCW 9.94A.562, 70.96A.155, or 71.05.132.

(3)(a) When a mental health service provider conducts its initial assessment for a person receiving court-ordered treatment, the service provider shall inquire and shall be told by the offender whether he or she is subject to supervision by the department of corrections.

(b) When a person receiving court-ordered treatment or treatment ordered by the department of corrections discloses to his or her mental health service provider that he or she is subject to supervision by the department of corrections, the mental health services provider shall notify the department of corrections that he or she is treating the offender and shall notify the offender that his or her community corrections officer will be notified of the treatment, provided that if the offender has received relief from disclosure pursuant to RCW 9.94A.562, 70.96A.155, or 71.05.132 and the offender has provided the mental health services provider with a copy of the order granting relief from disclosure pursuant to RCW 9.94A.562, 70.96A.155, or 71.05.132, the mental health services provider is not required to notify the department of corrections that the mental health services provider is treating the offender. The notification may be written or oral and shall not require the consent of the offender. If an oral notification is made, it must be confirmed by a written notification. For purposes of this section, a written notification includes notification by e-mail or facsimile, so long as the notifying mental health service provider is clearly identified.

(4) The information to be released to the department of corrections shall include all relevant records and reports, as defined by rule, necessary for the department of corrections to carry out its duties, including those records and reports identified in subsection (2) of this section.
The department and the department of corrections, in consultation with regional support networks, mental health service providers as defined in subsection (1) of this section, mental health consumers, and advocates for persons with mental illness, shall adopt rules to implement the provisions of this section related to the type and scope of information to be released. (8) Whenever federal law or federal regulations restrict the release of information contained in the treatment records of any patient who receives treatment for alcoholism or drug dependency, the release of the information may be restricted as necessary to comply with federal law and regulations.

(9) This section does not modify the terms and conditions of disclosure of information related to sexually transmitted diseases under chapter 70.24 RCW.

(10) The department shall, subject to available resources, electronically, or by the most cost-effective means available, provide the department of corrections with the names, last dates of services, and addresses of specific regional support networks and mental health service providers that delivered mental health services to a person subject to chapter 9.94A or 9.95 RCW pursuant to an agreement between the departments.

The information system shall not include individual patient's case history files. Confidentiality of client information and records shall be maintained as provided in this chapter and in RCW 71.05.390, (71.05.400, 71.05.410) 71.05.420, (71.05.430) and 71.05.440. (8) The secretary may suspend, revoke, limit, or restrict a certification or license, or refuse to grant a certification or license for failure to conform to: (a) The law; (b) applicable rules and regulations; (c) applicable standards; or (d) state minimum standards.

(9) The superior court may restrain any regional support network or service provider from operating without certification or a license or any other violation of this section. (b) The formula shall also include a projection of the funding allocations that will result for each county, which specifies allocations according to priority populations, including the allocation for services to children and other underserved populations.

(c) After July 1, 2003, the department may allocate up to two percent of total funds to be distributed to the regional support networks for incentive payments to reward the achievement of superior outcomes, or significantly improved outcomes, as measured by a statewide performance measurement system consistent with the framework recommended in the joint legislative audit and review committee's performance audit of the mental health system. No contract shall be approved that does not include progress toward meeting the goals of this chapter by taking responsibility for: (i) Short-term commitments; (ii) residential care; and (iii) emergency response systems.

(c) Allocate one hundred percent of available resources to the regional support networks in accordance with subsection (13) of this section. Incentive payments authorized under subsection (13) of this section may be allocated separately from other available resources.
(d) Notify regional support networks of their allocation of available resources at least sixty days prior to the start of a new biennial contract period.
(e) Deny funding allocations to regional support networks based solely upon formal findings of noncompliance with the terms of the regional support network's contract with the department. Written notice and at least thirty days for corrective action must precede any such action. In such cases, regional support networks shall have full rights to appeal under chapter 34.05 RCW.

(16) The department, in cooperation with the state congressional delegation, shall actively seek waivers of federal requirements and such modifications of federal regulations as are necessary to allow federal medicaid reimbursement for services provided by free-standing evaluation and treatment facilities certified under chapter 71.05 RCW. E2SSB 5773 Prime Sponsor, Senate Committee on Ways & Means: Protecting homeowners who hire contractors to remodel or build their homes. Reported by Committee on Commerce & Labor

MAJORITY recommendation: Do pass as amended:

Strike everything after the enacting clause and insert the following:

“NEW SECTION. Sec. 1. FINDINGS. The legislature finds that the vast majority of contractors and subcontractors engaged in the business of constructing or remodeling owner-occupied single-family homes are both technically proficient in their trade and able to manage their business dealings in accordance with the highest standards. The legislature also finds, however, that in those relatively few, but all-too-frequent, instances where prime contractors on such construction or remodeling projects intentionally or unintentionally mismanage payments received from residential homeowners that are intended for subcontractors, suppliers, and others, existing provisions are inadequate to protect residential homeowners. Additionally, the toll on a residential homeowner's personal economic and emotional condition that such financial mismanagement by this small fraction of prime contractors is not adequately balanced against the responsibilities, obligations, and possible penalties that contractors bear for such mismanagement. Consequently, the legislature finds that it is necessary to clearly establish that prime residential contractors and residential subcontractors have a duty to properly manage funds received from or on behalf of residential homeowners that are intended for suppliers, subcontractors, and others, and to hold those who fail in this duty personally responsible for such financial mismanagement.

(4) A prime residential contractor shall be personally liable for the full amount of any lien claim that involves a violation of the prime residential contractor's duties under this section and that is recorded pursuant to RCW 60.04.091 if:

(a) The prime residential contractor fails to show, by clear and convincing evidence, that amounts paid to the prime residential contractor by or on behalf of a residential homeowner for application toward the contract price for labor, professional services, materials, or equipment supplied by a potential lien claimant other than the prime residential contractor were actually paid to a potential lien claimant;

(b) The prime residential contractor had or should have had knowledge of such use of amounts, unless the prime residential contractor shows, by a preponderance of the evidence in defending against the claimed lien, that he or she actually did not know and had no reasonable opportunity to know of such use of amounts; and

(3)(a) Except as provided in (b) of this subsection, all amounts paid by a prime residential contractor for the benefit of, or on behalf of, a residential homeowner to the residential subcontractor for application toward the contract price shall not be used by the residential subcontractor for any purpose until all amounts owed to potential lien claimants as of the date of the residential subcontractor’s request for payment have been paid to the extent owed.

(b) All amounts paid to a residential subcontractor for the benefit of, or on behalf of, a residential homeowner shall be presumed to be applied toward the contract price for labor, professional services, materials, or equipment supplied by potential lien claimants at the request of the residential subcontractor unless, at the time of requesting or applying for payment from a prime residential contractor, the residential subcontractor provides written notice to the prime residential contractor identifying:

(i) The potential lien claimants, if any, to which payment is owed as of the time of requesting or applying for payment, or to which the residential subcontractor intends to apply part or all of the prime residential contractor's payment; and

(ii) Which of such potential lien claimants, if any, the residential subcontractor does not intend to fully pay from the prime residential contractor's payment, and the reason for less than full payment.

(4) A residential subcontractor shall be personally liable for the full amount of any lien claim that involves a violation of the residential subcontractor's duties under this section and that is recorded pursuant to RCW 60.04.091 if:

(a) The residential subcontractor fails to show, by clear and convincing evidence, that amounts paid to the residential subcontractor by a prime residential contractor for application toward the contract price for labor, professional services, materials, or equipment supplied by a potential lien claimant other than the residential subcontractor were actually paid to a potential lien claimant;

(b) The residential subcontractor has or should have had knowledge of such use of amounts, unless the residential subcontractor shows, by a preponderance of the evidence in defending against the claimed lien, that he or she actually did not know and had no reasonable opportunity to know of such use of amounts; and

2) The notice of claim of lien shall be signed by the claimant or some person authorized to act on his or her behalf who shall affirmatively state (they have) that he or she has read or heard and understand the notice of claim of lien (they have) believe the contents to be true and correct, and the lien is not frivolous and is not clearly excessive, under penalty of perjury, and shall be acknowledged as set forth in the form below, or pursuant to chapter 64.08 RCW. If the lien has been assigned, the name of the assignee shall be stated. Where an action to foreclose the lien has been commenced such notice of
claim of lien may be amended as pleadings may be by order of the court insofar as the interests of third parties are not adversely affected by such amendment. A claim of lien substantially in the following form shall be sufficient:

CLAIM OF LIEN

. . . . . . claimant, vs . . . . . . , name of person indebted to claimant:

Subscribed and sworn to before me this . . . . day of . . . .
(3) The period provided for recording the claim of lien is a period of limitation and no action to foreclose a lien shall be maintained unless the claim of lien is filed for recording within the ninety-day period stated. The lien claimant shall give a copy of the claim of lien to the owner or reputed owner by mailing it by certified or registered mail or by personal service within fourteen days of the time the claim of lien is filed for recording. Failure to do so results in a forfeiture of any right the claimant may have to attorneys' fees and costs against the owner under RCW 60.04.181.

(4) A lien claimant that, for any reason, includes any interest, late fee, cost, attorneys' fees, or similar charges as part of the principal amount for which the lien is claimed shall be deemed to have waived any right under contract or otherwise to such charges, and shall also forfeit any right the claimant may have to attorneys' fees and costs against the owner under RCW 60.04.181.

Sec. 6. FORECLOSURE. RCW 60.04.171 and 1992 c 126 s 11 are each amended to read as follows:

(1) The lien provided by this chapter, for which claims of lien have been recorded, may be foreclosed and enforced by a civil action in the court having jurisdiction in the manner prescribed for the judicial foreclosure of a mortgage.

(a) Except as provided in (b) of this subsection, the court shall have the power to order the sale of the property.

(b) In an action involving an improvement to an owner-occupied single-family residence, the court may not order the sale of property or removal of the improvement to the residence unless the court finds that the lien claimant has made reasonable efforts to recover its claim from the prime residential contractor or residential subcontractor, and any sureties.

(2) In any action brought to foreclose a lien, the owner shall be joined as a party. The interest in the real property of any person who, prior to the commencement of the action, has a recorded interest in the property, or any part thereof, shall not be foreclosed or affected unless they are joined as a party.

(3) A person shall not begin an action to foreclose a lien upon any property while a prior action begun to foreclose another lien on the same property is pending, but if not made a party plaintiff or defendant to the prior action, he or she may apply to the court to be joined as a party thereto, and his or her lien may be foreclosed in the same action. The filing of such application shall toll the running of the period of limitation established by RCW 60.04.141 until disposition of the application or other time set by the court. The court shall grant the application for joinder unless to do so would create an undue delay or cause hardship which cannot be cured by the imposition of costs or other conditions as the court deems just. If a lien foreclosure action is filed during the pendency of another such action, the court may, on its own motion or the motion of any party, consolidate actions upon such terms and conditions as the court deems just, unless to do so would create an undue delay or cause hardship which cannot be cured by the imposition of costs or other conditions. If consolidation of actions is not permissible under this section, the lien foreclosure action filed during the pendency of another such action shall not be dismissed if the filing was the result of mistake, inadvertence, surprise, excusable neglect, or irregularity. An action to foreclose a lien shall not be dismissed at the instance of a plaintiff therein to the prejudice of another party to the suit who claims a lien.

Sec. 7. INFORMATIONAL MATERIALS ON CONSTRUCTION LIEN LAWS; COPIES; LIABILITY. RCW 60.04.255 and 1988 c 270 s 2 are each amended to read as follows:

(1) Every real property lender shall provide a copy of the informational material described in RCW 60.04.250 to all persons obtaining loans, the proceeds of which are to be used for residential construction or residential repair or remodeling.

(2) Every contractor shall provide a copy of the informational material described in RCW 60.04.250 to customers required to receive contractor disclosure notice under RCW 18.27.114.

(3) Before issuing building permits for improvements to single-family residences of residential homeowners, every permitting agency shall require residential homeowners to acknowledge personally and in writing that they received a copy of the informational material described in RCW 60.040.250. The permitting agency shall retain a copy of such acknowledgments in the permitting agency's files relating to the residential homeowners' permit applications.

(4) No cause of action may lie against the state, a real property lender, (a) a contractor, or (b) a permitting agency arising from the provisions of RCW 60.04.250 and this section.

((4a)) (5) For the purpose of this section, "real property lender" means a bank, savings bank, savings and loan association, credit union, mortgage company, or other corporation, association, partnership, or individual that makes loans secured by real property in this state.

NEW SECTION. Sec. 8. LEGISLATIVE TASK FORCE. (1) A joint legislative task force is created to review laws governing mechanics' and materialmen's liens, as set forth in chapter 60.04 RCW, and laws governing contractor registration, as set forth in chapter 18.27 RCW, and to consider how such laws can better protect residential homeowners involved in the construction or remodeling of their homes.

(3) The department shall cooperate with the task force and provide such technical expertise as the task force chair may reasonably require.

(4) The study shall review at least the following:
(a) Strategies for making residential homeowners more aware of the potential for liens against their homes if prime residential contractors fail to pay suppliers and residential subcontractors as promised;
(b) Opportunities for helping residential homeowners become better educated about ways to protect themselves from financial mismanagement by prime residential contractors who do not comply with industry standards for financial management; and
(c) Other proposals, including revisions to laws governing mechanics’ and materialmen’s liens, to protect the interests of residential homeowners and others involved in the construction or remodeling of homes.

(5) The task force shall use legislative facilities and staff from senate committee services and the office of program research. Legislative members of the task force shall be reimbursed for travel expenses in accordance with RCW 44.04.120. Nonlegislative members, except those representing an employer or organization, are entitled to be reimbursed for travel expenses in accordance with RCW 43.03.050 and 43.03.060, such reimbursement to be paid jointly by the senate and the house of representatives.

"NEW SECTION. Sec. 1. It is the intent of the legislature to improve recycling, eliminate illegal disposal of recyclable materials, protect consumers from sham recycling, and to further the purposes of RCW 70.95.020 and the goal of consistency in jurisdictional treatment of the statewide solid waste management plan adopted by the department of ecology.

Sec. 2. RCW 70.95.020 and 1998 c 156 s 1 and 1998 c 90 s 1 are each reenacted and amended to read as follows:
The purpose of this chapter is to establish a comprehensive statewide program for solid waste handling, and solid waste recovery and/or recycling which will prevent land, air, and water pollution and conserve the natural, economic, and energy resources of this state. To this end it is the purpose of this chapter:
(1) To assign primary responsibility for adequate solid waste handling to local government, reserving to the state, however, those functions necessary to assure effective programs throughout the state;
(2) To provide for adequate planning for solid waste handling by local government;
(3) To provide for the adoption and enforcement of basic minimum performance standards for solid waste handling, including that all sites where recyclable materials are generated and transported from shall provide a separate container for solid waste;"
(4) To encourage the development and operation of waste recycling facilities needed to accomplish the management priority of waste recycling, and to ensure that recyclable materials diverted from the waste stream for recycling are routed to facilities in which recycling occurs;

(5) To provide technical and financial assistance to local governments in the planning, development, and conduct of solid waste handling programs;

(6) To encourage storage, proper disposal, and recycling of discarded vehicle tires and to stimulate private recycling programs throughout the state; and

(7) To encourage the development and operation of waste recycling facilities and activities needed to accomplish the management priority of waste recycling and to promote consistency in the permitting requirements for such facilities and activities throughout the state.

It is the intent of the legislature that local governments be encouraged to use the expertise of private industry and to contract with private industry to the fullest extent possible to carry out solid waste recovery and/or recycling programs.

Sec. 3. RCW 70.95.305 and 1998 c 156 s 5 are each amended to read as follows:

(1) Notwithstanding any other provision of this chapter, the department may by rule exempt from the requirements to obtain a solid waste handling permit any category of solid waste handling facility that it determines to:

(a) Present little or no environmental risk; and

(b) Meet the environmental protection and performance requirements required for other similar solid waste facilities.

(2) This section does not apply to any facility or category of facilities that:

(a) Receives municipal solid waste destined for final disposal, including but not limited to transfer stations, landfills, and incinerators;

(b) Applies putrescible solid waste on land for final disposal purposes;

(c) Handles mixed solid wastes that have not been processed to segregate solid waste materials destined for disposal from other solid waste materials destined for a beneficial use or recycling;

(d) Receives or processes organic waste materials into compost in volumes that generally far exceed those handled by municipal park departments, master gardening programs, and households; or

(e) Receives solid waste destined for recycling or reuse, the operation of which is determined by the department to present risks to human health and the environment.

(3) Rules adopted under this section shall contain such terms and conditions as the department deems necessary to ensure compliance with applicable statutes and rules. If a facility does not operate in compliance with the terms and conditions established for an exemption under subsection (1) of this section, the facility is subject to the permitting requirements for solid waste handling under this chapter.

(4) This section shall not be deemed to invalidate the exemptions or determinations of nonapplicability in the department's solid waste rules as they exist on June 11, 1998, which exemptions and determinations are recognized and confirmed subject to the department's continuing authority to modify or revoke those exemptions or determinations by rule.

NEW SECTION. Sec. 4. A new section is added to chapter 70.95 RCW to read as follows:

(1) For the purposes of this section and section 5 of this act, "transporter" means any person or entity that transports recyclable materials from commercial or industrial generators over the public highways of the state of Washington for compensation, and who are required to possess a permit to operate from the Washington utilities and transportation commission under chapter 81.80 RCW. "Transporter" includes commercial recycling operations of certificated solid waste collection companies as provided in chapter 81.77 RCW. "Transporter" does not include:

(a) Carriers of commercial recyclable materials, when such materials are owned or being bought or sold by the entity or person, and being carried in their own vehicle, when such activity is incidental to the conduct of an entity or person's primary business;

(b) Entities or persons hauling their own recyclables or hauling recyclables they generated or purchased and transported in their own vehicles;

(c) Nonprofit or charitable organizations collecting and transporting recyclable materials from a buyback center, drop box, or from a commercial or industrial generator of recyclable materials;

(d) City municipal solid waste departments or city solid waste contractors; or

(e) Common carriers under chapter 81.80 RCW whose primary business is not the transportation of recyclable materials.

(2) All transporters shall register with the department prior to the transportation of recyclable materials. The department shall supply forms for registration.
(3) A transporter who transports recyclable materials within the state without a transporter registration required by this section is subject to a civil penalty in an amount up to one thousand dollars per violation.

**NEW SECTION. Sec. 5.** A new section is added to chapter 70.95 RCW to read as follows:

(1) A transporter may not deliver any recyclable materials for disposal to a transfer station or landfill. A transporter may deliver recyclable materials to an intermediate solid waste handling facility that maintains recyclable materials in a source separated state and further processes and markets the recyclable materials for recycling.

(2) A transporter shall keep records of locations and quantities specifically identified in relation to a generator's name, service date, address, and invoice, documenting where recyclables have been sold, delivered for processing, or otherwise marketed. These records must be retained for two years from the date of collection, and must be made accessible for inspection by the department and the local health department.

(3) A transporter who violates the provisions of this section is subject to a civil penalty of up to one thousand dollars per violation.

**NEW SECTION. Sec. 6.** A new section is added to chapter 70.95 RCW to read as follows:

Any person damaged by a violation of sections 4 through 8 of this act may bring a civil action for such a violation by seeking either injunctive relief or damages, or both, in the superior court of the county in which the violation took place or in Thurston county. The prevailing party in such an action is entitled to reasonable costs and attorneys' fees, including those on appeal.

**NEW SECTION. Sec. 7.** A new section is added to chapter 70.95 RCW to read as follows:

(1) All facilities that recycle solid waste, except for those facilities with a current solid waste handling permit issued under RCW 70.95.170, must notify the department in writing within thirty days prior to operation, or ninety days from the effective date of this section for existing recycling operations, of the intent to conduct recycling in accordance with this section. Notification must be in writing, and include:

- (a) Contact information for the person conducting the recycling activity;
- (b) A general description of the recycling activity;
- (c) A description of the types of solid waste being recycled; and
- (d) A general explanation of the recycling processes and methods.

(2) Each facility that recycles solid waste, except those facilities with a current solid waste handling permit issued under RCW 70.95.170, shall prepare and submit an annual report to the department by April 1st on forms supplied by the department. The annual report must detail recycling activities during the previous calendar year and include the following information:

- (a) The name and address of the recycling operation;
- (b) The calendar year covered by the report;
- (c) The annual quantities and types of waste received, recycled, and disposed, in tons, for purposes of determining progress towards achieving the goals of waste reduction, waste recycling, and treatment in accordance with RCW 70.95.010(4); and
- (d) Any additional information required by written notification of the department that is needed to determine progress towards achieving the goals of waste reduction, waste recycling, and treatment in accordance with RCW 70.95.010(4).

(3) Any facility, except for product take-back centers, that recycles solid waste materials within the state without first obtaining a solid waste handling permit under RCW 70.95.170 or completing a notification under this section is subject to a civil penalty of up to one thousand dollars per violation.

**NEW SECTION. Sec. 8.** A new section is added to chapter 70.95 RCW to read as follows:

(1) The department may adopt rules that establish financial assurance requirements for recycling facilities that do not already have financial assurance requirements under this chapter, or are not already specifically exempted from financial assurance requirements under this chapter. The financial assurance requirements must take into consideration the amounts and types of recyclable materials recycled at the facility, and the potential closure and postclosure costs associated with the recycling facility; which assurance may consist of posting of a surety bond in an amount sufficient to meet these requirements or other financial instrument, but in no case less than ten thousand dollars.

(2) A recycling facility is required to meet financial assurance requirements adopted by the department by rule, unless the facility is already required to provide financial assurance under other provisions of this chapter.
(3) Facilities that collect, recover, process, or otherwise recycle scrap metal, processed scrap metal, unprocessed home scrap metal, and unprocessed prompt scrap metal are exempt from the requirements of this section.

**NEW SECTION. Sec. 9.** If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected."

SSB 5828 Prime Sponsor, Senate Committee on Early Learning, K-12 & Higher Education: Regarding digital or online learning. Reported by Committee on Education

MAJORITY recommendation: Do pass as amended:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 28A.150 RCW to read as follows:

(1) The legislature finds that digital learning courses and programs can provide students with opportunities to study subjects that may not otherwise be available within the students' schools, school districts, or communities. These courses can also meet the instructional needs of students who have scheduling conflicts, students who learn best from technology-based instructional methods, and students who have a need to enroll in schools on a part-time basis. Digital learning courses can also meet the needs of students and families seeking nontraditional learning environments. The legislature further finds that the state rules used by school districts to support some digital learning courses were adopted before these types of courses were created, so the rules are not well-suited to the delivery of online instruction. As a result, at least one school district has received an audit exception for the way the district operated and accounted for its digital learning courses. It is the intent of the legislature to clarify the requirements for digital learning courses and to give school districts and the auditors a common set of guidelines for their delivery and funding.

(2) The board of directors of a school district may operate digital learning programs for eligible full-time students, or eligible part-time students who meet the provisions of RCW 28A.150.350. The board of directors may also provide such programs through contract to the extent permitted under RCW 28A.150.305. The board of directors of a school district claiming state funding for digital learning programs shall:

(a) Adopt and periodically review written policies for such programs;
(b) Formally approve programs that rely primarily on digital curriculum;
(c) Require that individual courses offered primarily through digital curriculum be approved by a designated school district official;"
Receive an annual report on its digital learning programs from its staff. The report should include, at a minimum, information included in guidelines provided by the superintendent of public instruction;

Institute reliable methods to verify a student is doing his or her own work. The methods may include proctored examinations or projects, including the use of web cams or other technologies. "Proctored" means directly monitored by an adult authorized by the school district;

Grant credit to a student who successfully demonstrates, through examination, project completion, or other performance-based methods instead of counting contact hours, that the student has successfully completed a course;

Complete any program evaluation requirement adopted by the superintendent of public instruction under subsection (5)(d) of this section;

Report annually to the superintendent of public instruction on the number of its digital learning programs and courses, the number of students enrolled in the programs or courses, and a documented report of the district of the students' physical residence;

Define a full-time equivalent student under RCW 28A.150.260 and a part-time student under RCW 28A.150.350 based upon the district's estimated average weekly hours; and

Periodically complete a self-evaluation component designed to objectively measure the effectiveness of the programs, including the impact of the courses on student learning and achievement.

Digital learning courses must provide each student with:

- Direct personal contact with certificated staff designated by either the school district or by the contractor with the approval of the school district. The direct personal contact shall occur each week until the student successfully completes the course requirements. Direct personal contact is for the purposes of instruction, assignment review, testing, evaluation of student progress, or other learning activities. Direct personal contact may include the use of telephone, e-mail, instant messaging, interactive computer, or interactive video communication;

- A description of course objectives monitored by certificated staff, including information on the requirements a student must meet to successfully complete the programs or courses;

- Information on the ways the courses or programs are aligned to the state's grade level expectations that are assessed on the Washington assessment of student learning and, for high school courses, whether and how the courses meet state and district graduation requirements; and

- An assessment of each student's progress at least annually using, for full-time students, the state assessment for the student's grade level and any other annual assessment required by the school district. Part-time students shall also be assessed at least annually. Part-time students who are either receiving home-based instruction under chapter 28A.200 RCW or who are enrolled in an approved private school under chapter 28A.195 RCW are not required to participate in the state assessments required under chapter 28A.655 RCW.

A school district that provides one or more digital courses to a student shall provide the parent or guardian of the student, prior to the student's enrollment, with a description of any difference between home-based education under chapter 28A.200 RCW and the enrollment option selected by the student. The parent or guardian shall sign documentation attesting to his or her understanding of the difference and the documentation shall be retained by the district and made available for audit.

The office of the superintendent of public instruction shall adopt rules for the implementation of this section, including program implementation standards and enrollment documentation and reporting as follows:

- Each school district shall receive apportionment generated in accordance with this chapter based upon the student full-time equivalent enrollment reported for this program but no student is counted in one year for more than one full-time equivalent in the aggregate;

- For funding purposes, enrollment shall be determined based upon the learning activities specified in the digital course objectives, including the estimated average weekly hours spent by each individual student participating in a digital program; and

- Enrollment of part-time students shall be subject to the provisions of RCW 28A.150.350, and shall generate the pro rata share of full-time funding.”

**SSB 5895** Prime Sponsor, Senate Committee on Water, Energy & Environment: Increasing coordination between the Puget Sound recovery partnership and other governmental entities. Reported by Committee on Natural Resources, Ecology & Parks

MAJORITY recommendation: Do pass as amended:

Strike everything after the enacting clause and insert the following:

"NEW SECTION, Sec. 1. (1) The legislature intends to improve the overall efforts to conserve and recover Puget Sound by enhancing coordination and integration of the planning, budgeting, and program activities of entities with responsibilities under the Puget Sound recovery management plan. The goals of this act are to:

(a) Foster and improve overall coordination and implementation of Puget Sound conservation and recovery efforts among all levels of government and the private sector, in part through developing and implementing the Puget Sound recovery management plan and biennial work plans;

(b) Improve the coordination among federal, state, local, and tribal agencies and initiatives in order to better set priorities, adopt and implement work plans for protecting and restoring Puget Sound, and improve allocation of resources for these purposes;

(c) Adopt performance measures and improve accountability for results and expenditures in plan implementation;

(d) Prepare a budget that is scaled to appropriate timelines for achieving Puget Sound conservation, recovery, and prevention of further degradation, and ensure that this budget is considered when adopting state biennial budgets;

(e) Revitalize a Sound-wide planning and implementation framework that integrates state agency activities with other Puget Sound protection and restoration activities;

(f) Increase citizen involvement and oversight; and

(g) Increase representation of nonstate agency interests and organized Puget Sound restoration programs on the Puget Sound council.

(2) The legislature also finds that the counties, cities, and special purpose units of local government have major responsibilities regarding the management, protection, and cleanup of surface waters draining to Puget Sound, and other land use planning, habitat protection, infrastructure, and public health and safety responsibilities that form the foundation for the comprehensive and coordinated strategy set forth in the 2000 Puget Sound water quality management plan. The Puget Sound water quality action team is presently composed of ten state agency representatives and only two local government representatives, and does not adequately reflect the major responsibilities for water quality and habitat protection carried out by local governments. Therefore it is the purpose of this act to strengthen the local government membership on the Puget Sound water quality action team, renamed the Puget Sound recovery partnership, and to improve the partnership with local governments carrying out elements of the Puget Sound plan.

Sec. 2. RCW 90.71.005 and 1998 c 246 s 13 are each amended to read as follows:

(1) The legislature finds that:
(a) Puget Sound and related inland marine waterways of Washington state represent a unique and unparalleled resource. A rich and varied range of marine organisms, comprising an interdependent, sensitive communal ecosystem reside in these sheltered waters. Residents of this region enjoy a way of life centered around the waters of Puget Sound, featuring accessible recreational opportunities, world-class port facilities and water transportation systems, harvest of marine food resources, shoreline-oriented life styles, water-dependent industries, tourism, irreplaceable aesthetics, and other activities, all of which to some degree depend upon a clean and healthy marine resource;

(b) The Puget Sound [(water quality authority)] action team has done an excellent job in developing a comprehensive plan to identify actions to restore and protect the biological health and diversity of Puget Sound;

(c) While much excellent work has been done around the Puget Sound to protect and restore its resources, the scale of the efforts is not yet commensurate with the scale of the challenges, and heightened and improved efforts are needed if the long-term viability of Puget Sound is to be ensured;

(d) The large number of federal, state, and local governmental entities that [(now)] have management, infrastructure, and regulatory programs and initiatives affecting the water quality of Puget Sound and its habitats have diverse interests and limited jurisdictions that [(cannot adequately)] require coordination to address the cumulative, wide-ranging impacts that contribute to the degradation of Puget Sound; and

((i)) (e) Coordination of [(the regulatory)] these programs and initiatives, at the state, federal, and local levels, is best accomplished through the development of an interagency mechanism[(s)], including representatives of local governments within the Puget Sound basin, that allow these entities to transcend their diverse interests and limited jurisdictions.

(2)(a) It is therefore the policy of the state of Washington to coordinate the activities of state, federal, and local agencies by establishing a partnership for Puget Sound with the following goals: To protect and restore Puget Sound’s water quality; to protect and restore habitat for all native species in Puget Sound; and to protect the biological resources of Puget Sound and recover species at risk. The partnership shall develop and update as necessary the Puget Sound recovery management plan, a comprehensive and inclusive plan for Puget Sound that describes the problems and priority areas for action and describes the roles and responsibilities of the various federal, state, and local agencies in undertaking the necessary actions as provided in section 4 of this act.

(b) To implement the plan, the partnership shall develop and implement a biennial work plan that clearly delineates state and [(local)] other actions at the level of effort necessary to protect and restore the biological health and diversity of Puget Sound. It is further the policy of the state to implement that work plan and the Puget Sound [(water quality)] recovery management plan to the maximum extent possible. To further the policy of the state, [(a recovery)] applicable sections of any water quality cleanup plan, fish or wildlife recovery plan, or other watershed health plan or plans developed under [(an endangered species act)] state, or local authority for a portion or all of the Puget Sound [(shall)] may be considered for inclusion into the Puget Sound [(water quality)] recovery management plan. Nothing in this section alters, affects, or replaces the approval and oversight processes related to the other plans considered for inclusion in the Puget Sound recovery management plan.

Sec. 22. RCW 79.90.550 and 1987 c 259 s 1 are each amended to read as follows:
The legislature finds that the department of natural resources provides, manages, and monitors aquatic land disposal sites on state-owned aquatic lands for materials dredged from rivers, harbors, and shipping lanes. These disposal sites are approved through a cooperative planning process by the departments of natural resources and ecology, the United States corps of engineers, and the United States environmental protection agency in cooperation with the Puget Sound (water quality authority) recovery partnership. These disposal sites are essential to the commerce and well being of the citizens of the state of Washington. Management and environmental monitoring of these sites are necessary to protect environmental quality and to
sec. 23. RCW 79A.60.510 and 1999 c 249 s 1506 are each amended to read as follows:

The legislature finds that the waters of Washington state provide a unique and valuable recreational resource to large and growing numbers of boaters. Proper stewardship of, and respect for, these waters requires that, while enjoying them for their scenic and recreational benefits, boaters must exercise care to assure that such activities do not contribute to the despoliation of these waters, and that watercraft be operated in a safe and responsible manner. The legislature has specifically addressed the topic of access to clean and safe waterways by requiring the 1987 boating safety study and by establishing the Puget Sound ((action team)) recovery partnership.

The legislature finds that there is a need to educate Washington's boating community about safe and responsible actions on our waters and to increase the level and visibility of the enforcement of boating laws. To address the incidence of fatalities and injuries due to recreational boating on our state's waters, local and state efforts directed towards safe boating must be stimulated. To provide for safe waterways and public enjoyment, portions of the watercraft excise tax and boat registration fees should be made available for boating safety and other boating recreation purposes.

In recognition of the need for clean waterways, and in keeping with the Puget Sound action team's water quality work plan, the legislature finds that adequate opportunities for responsible disposal of boat sewage must be made available. There is hereby established a five-year initiative to install sewage pumpout or sewage dump stations at appropriate marinas.

To assure the use of these sewage facilities, a boater environmental education program must accompany the five-year initiative and continue to educate boaters about boat wastes and aquatic resources.

The legislature also finds that, in light of the increasing numbers of boaters utilizing state waterways, a program to acquire and develop sufficient waterway access facilities for boaters must be undertaken.

To support boating safety, environmental protection and education, and public access to our waterways, the legislature declares that a portion of the income from boating-related activities, as specified in RCW 82.49.030 and 88.02.040, should support these efforts.

Sec. 24. RCW 79A.60.520 and 1999 c 249 s 1507 are each amended to read as follows:

The commission, in consultation with the departments of ecology, fish and wildlife, natural resources, social and health services, and the Puget Sound ((action team)) recovery partnership shall conduct a literature search and analyze pertinent studies to identify areas which are polluted or environmentally sensitive within the state's waters. Based on this review the commission shall designate appropriate areas as polluted or environmentally sensitive, for the purposes of chapter 393, Laws of 1989 only.

Sec. 25. RCW 90.48.260 and 2003 c 325 s 7 are each amended to read as follows:

The department of ecology is hereby designated as the State Water Pollution Control Agency for all purposes of the federal clean water act as it exists on February 4, 1987, and is hereby authorized to participate fully in the programs of the act as well as to take all action necessary to secure to the state the benefits and to meet the requirements of that act. With regard to the national estuary program established by section 320 of that act, the department shall exercise its responsibility jointly with the Puget Sound ((water quality authority)) recovery partnership. The department of ecology may delegate its authority under this chapter, including its national pollutant discharge elimination permit system authority and duties regarding animal feeding operations and concentrated animal feeding operations, to the department of agriculture through a memorandum of understanding. Until any such delegation receives federal approval, the department of agriculture's adoption or issuance of animal feeding operation and concentrated animal feeding operation rules, permits, programs, and directives pertaining to water quality shall be accomplished after reaching agreement with the director of the department of ecology. Adoption or issuance and implementation shall be accomplished so that compliance with such animal feeding operation and concentrated animal feeding operation rules, permits, programs, and directives will achieve compliance with all federal and state water pollution control laws.

The powers granted herein include, among others, and notwithstanding any other provisions of chapter 90.48 RCW or otherwise, the following:

(1) Complete authority to establish and administer a comprehensive state point source waste discharge or pollution discharge elimination permit program which will enable the department to qualify for full participation in any national waste discharge or pollution discharge elimination permit system and will allow the department to be the sole agency issuing permits required by such national system operating in the state of Washington subject to the provisions of RCW 90.48.262(2). Program elements authorized herein may include, but are not limited to: (a) Effluent treatment and limitation requirements together with timing requirements related thereto; (b) applicable receiving water quality standards requirements; (c) requirements of standards of performance for new sources; (d) pretreatment requirements; (e) termination and modification of permits for cause; (f)
requirements for public notices and opportunities for public hearings; (g) appropriate relationships with the secretary of the army in the administration of his responsibilities which relate to anchorage and navigation, with the administrator of the environmental protection agency in the performance of his duties, and with other governmental officials under the federal clean water act; (h) requirements for inspection, monitoring, entry, and reporting; (i) enforcement of the program through penalties, emergency powers, and criminal sanctions; (j) a continuing planning process; and (k) user charges.

(2) The power to establish and administer state programs in a manner which will insure the procurement of moneys, whether in the form of grants, loans, or otherwise; to assist in the construction, operation, and maintenance of various water pollution control facilities and works; and the administering of various state water pollution control management, regulatory, and enforcement programs.

(3) The power to develop and implement appropriate programs pertaining to continuing planning processes, area-wide waste treatment management plans, and basin planning.

The governor shall have authority to perform those actions required of him or her by the federal clean water act.

1. The legislature finds that businesses and organizations providing services to children, developmentally disabled persons, and vulnerable adults need adequate information to determine which employees or licensees to hire or engage. The legislature further finds that many developmentally disabled individuals and vulnerable adults desire to hire their own employees directly and also need adequate information to determine which employees or licensees to hire or engage. Therefore, the Washington state patrol criminal identification and criminal history section shall disclose, upon the request of a business or organization as defined in RCW 43.43.830, a developmentally disabled person, or a vulnerable adult as defined in RCW 43.43.832, if the victim was a vulnerable adult, adjudications of child abuse in a civil action, the issuance of a protection order against the respondent under chapter 74.34 RCW, and disciplinary board final decisions and any subsequent criminal charges associated with the conduct that is the subject of the disciplinary board final decision as defined in chapter 10.97 RCW.

2. The legislature also finds that the state board of education may request of the Washington state patrol criminal identification system information regarding a certificate applicant's record for convictions under subsection (1) of this section.

3. The legislature also finds that law enforcement agencies, the office of the attorney general, prosecuting authorities, and the department of social and health services may request this same information to aid in the investigation and prosecution of child, developmentally disabled person, and vulnerable adult abuse cases and to protect children and adults from further incidents of abuse.

4. The legislature further finds that the secretary of the department of social and health services must establish rules and set standards to require specific action when considering the information listed in subsection (1) of this section, and when considering additional information including but not limited to civil adjudication proceedings as defined in RCW 43.43.830 and any out-of-state equivalent, in the following circumstances:

(a) When considering persons for state employment in positions directly responsible for the supervision, care, or treatment of children, vulnerable adults, or individuals with mental illness or developmental disabilities;

volunteers or independent contractors on a conditional basis pending completion of the state background investigation.
Whenever a national criminal record check through the federal bureau of investigation is required by state law, a person may be
employed or engaged as a volunteer or independent contractor on a conditional basis pending completion of the national check.
The Washington personnel resources board shall adopt rules to accomplish the purposes of this subsection as it applies to state
employees.
(6)(a) For purposes of facilitating timely access to criminal background information and to reasonably minimize the
number of requests made under this section, recognizing that certain health care providers change employment frequently, health
care facilities may, upon request from another health care facility, share copies of completed criminal background inquiry
information.
(b) Completed criminal background inquiry information may be shared by a willing health care facility only if the
following conditions are satisfied: The licensed health care facility sharing the criminal background inquiry information is
reasonably known to be the person's most recent employer, no more than twelve months has elapsed from the date the person was
last employed at a licensed health care facility to the date of their current employment application, and the criminal background
information is no more than two years old.
(c) If criminal background inquiry information is shared, the health care facility employing the subject of the inquiry
must require the applicant to sign a disclosure statement indicating that there has been no conviction or finding as described in
RCW 43.43.842 since the completion date of the most recent criminal background inquiry.
(d) Any health care facility that knows or has reason to believe that an applicant has or may have a disqualifying
conviction or finding as described in RCW 43.43.842, subsequent to the completion date of their most recent criminal
background inquiry, shall be prohibited from relying on the applicant's previous employer's criminal background inquiry
information. A new criminal background inquiry shall be requested pursuant to RCW 43.43.830 through 43.43.842.

defamation, invasion of privacy, negligence, or any other claim in connection with any dissemination of this information in
accordance with this subsection.
(f) Health care facilities shall transmit and receive the criminal background inquiry information in a manner that
reasonably protects the subject's rights to privacy and confidentiality.
(g) For the purposes of this subsection, "health care facility" means a nursing home licensed under chapter 18.51 RCW,
a boarding home licensed under chapter 18.20 RCW, or an adult family home licensed under chapter 70.128 RCW.
(7) If a federal bureau of investigation check is required in addition to the state background check by the department of
social and health services, an applicant who is not disqualified based on the results of the state background check shall be eligible
for a one hundred twenty day provisional approval to hire, pending the outcome of the federal bureau of investigation check. The
department may extend the provisional approval until receipt of the federal bureau of investigation check. If the federal bureau
of investigation check disqualifies an applicant, the department shall notify the requestor that the provisional approval to hire is
withdrawn and the applicant may be terminated.

Sec. 3. RCW 43.43.834 and 1999 c 21 s 2 are each amended to read as follows:
(1) A business or organization shall not make an inquiry to the Washington state patrol under RCW 43.43.832 or an

The disclosure shall be made in writing and signed by the applicant and sworn under penalty of perjury. The disclosure sheet shall specify all crimes against children or other persons and all crimes relating to financial exploitation as defined in RCW 43.43.830 in which the victim was a vulnerable adult.

(3) The business or organization shall pay such reasonable fee for the records check as the state patrol may require under RCW 43.43.838.

(4) The business or organization shall notify the applicant of the state patrol's response within ten days after receipt by the business or organization. The employer shall provide a copy of the response to the applicant and shall notify the applicant of such availability.

(5) The business or organization shall use this record only in making the initial employment or engagement decision. Further dissemination or use of the record is prohibited, except as provided in RCW 28A.320.155. A business or organization violating this subsection is subject to a civil action for damages.

(6) An insurance company shall not require a business or organization to request background information on any employee before issuing a policy of insurance.

(7) The business and organization shall be immune from civil liability for failure to request background information on an applicant unless the failure to do so constitutes gross negligence.

Sec. 4. RCW 43.43.836 and 1987 c 486 s 4 are each amended to read as follows:

However, access to conviction records pursuant to this subsection (1)(e) does not limit or restrict the ability of the department to obtain additional information regarding conviction records and pending charges as set forth in RCW 74.15.030(2)(b).

(3) After processing the request, if the conviction record, disciplinary board final decision and any subsequent criminal charges associated with the conduct that is the subject of the disciplinary board final decision, or adjudication record shows no evidence of a crime against children or other persons or, in the case of vulnerable adults, no evidence of crimes relating to financial exploitation in which the victim was a vulnerable adult, an identification declaring the showing of no evidence shall be issued to the business or organization by the state patrol and shall be issued within fourteen working days of the request. In the case of record checks using fingerprints requested by school districts and educational service districts, the state patrol shall charge only for the incremental costs associated with checking fingerprints in addition to name and date of birth. Record checks requested by school districts and educational service districts using only name and date of birth shall continue to be provided free of charge.

(3) No employee of the state, employee of a business or organization, or the business or organization is liable for defamation, invasion of privacy, negligence, or any other claim in connection with any lawful dissemination of information under RCW 43.43.830 through 43.43.840 or 43.43.760.

SSB 5914 Prime Sponsor, Senate Committee on Natural Resources, Ocean & Recreation: Concerning the conditioning of grants and loans by the salmon recovery funding board. Reported by Committee on Natural Resources, Ecology & Parks

MAJORITY recommendation: Do pass as amended:

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 77.85.130 and 2000 c 107 s 102 and 2000 c 15 s 1 are each reenacted and amended to read as follows:
(1) The salmon recovery funding board shall develop procedures and criteria for allocation of funds for salmon habitat projects and salmon recovery activities on a statewide basis to address the highest priorities for salmon habitat protection and restoration. To the extent practicable the board shall adopt an annual allocation of funding. The allocation should address both protection and restoration of habitat, and should recognize the varying needs in each area of the state on an equitable basis. The board has the discretion to partially fund, or to fund in phases, salmon habitat projects. The board may annually establish a maximum amount of funding available for any individual project, subject to available funding. No projects required solely as a mitigation or a condition of permitting are eligible for funding.
(2)(a) In evaluating, ranking, and awarding funds for projects and activities the board shall give preference to projects that:
(i) Are based upon the limiting factors analysis identified under RCW 77.85.060;
(ii) Provide a greater benefit to salmon recovery based upon the stock status information contained in the department of fish and wildlife salmonid stock inventory (SASSI), the salmon and steelhead habitat inventory and assessment project (SSHIAP), and any comparable science-based assessment when available;
(iii) Will benefit listed species and other fish species; and
(iv) Will preserve high quality salmonid habitat.

(b) In evaluating, ranking, and awarding funds for projects and activities the board shall also give consideration to projects that:
(i) Are the most cost-effective;
(ii) Have the greatest matched or in-kind funding; and
(iii) Will be implemented by a sponsor with a successful record of project implementation.

(3) The board may reject, but not add, projects from a habitat project list submitted by a lead entity for funding.

(4) For fiscal year 2000, the board may authorize the interagency review team to evaluate, rank, and make funding decisions for categories of projects or activities or from funding sources provided for categories of projects or activities. In delegating such authority the board shall consider the review team's staff resources, procedures, and technical capacity to meet the purposes and objectives of this chapter. The board shall maintain general oversight of the team's exercise of such authority.

(5) The board shall seek the guidance of the technical review team to ensure that scientific principles and information are incorporated into the allocation standards and into proposed projects and activities. If the technical review team determines that a habitat project list complies with the critical pathways methodology under RCW 77.85.060, it shall provide substantial weight to the list's project priorities when making determinations among applications for funding of projects within the area covered by the list.

(6) The board shall establish criteria for determining when block grants may be made to a lead entity or other recognized regional recovery entity consistent with one or more habitat project lists developed for that region. Where a lead entity has been established pursuant to RCW 77.85.050, the board may provide grants to the lead entity to assist in carrying out lead entity functions under this chapter, subject to available funding. The board shall determine an equitable minimum amount of funds for each region, and shall distribute the remainder of funds on a competitive basis.

(7) The board may waive or modify portions of the allocation procedures and standards adopted under this section in the award of grants or loans to conform to legislative appropriations directing an alternative award procedure or when the funds to be awarded are from federal or other sources requiring other allocation procedures or standards as a condition of the board's receipt of the funds. The board shall develop an integrated process to manage the allocation of funding from federal and state sources to minimize delays in the award of funding while recognizing the differences in state and legislative appropriation timing.

(8) The board may award a grant or loan for a salmon recovery project on private or public land when the landowner has a legal obligation under local, state, or federal law to perform the project, when expedited action provides a clear benefit to salmon recovery, and there will be harm to salmon recovery if the project is delayed. For purposes of this subsection, a legal obligation does not include a project required solely as a mitigation or a condition of permitting.

(9) The board may condition a grant or loan to include the requirement that property may only be transferred to a federal agency if the agency that will acquire the property agrees to comply with all terms of the grant or loan to which the project sponsor was obligated.) Property acquired or improved by a project sponsor may be conveyed to a federal agency if: (a) The agency agrees to comply with all terms of the grant or loan to which the project sponsor was obligated; or (b) the board approves: (i) Changes in the terms of the grant or loan, and the revision or removal of binding deed of right instruments; and (ii) a memorandum of understanding or similar document ensuring that the facility or property will retain, to the extent feasible, adequate habitat protections; and (c) the appropriate legislative authority of the county or city with jurisdiction over the project area approves the transfer and provides notification to the board.

ESSB 5922 Prime Sponsor, Senate Committee on Human Services & Corrections: Changing procedures for investigations of child abuse or neglect. Reported by Committee on Children & Family Services

MAJORITY recommendation: Do pass as amended:

Strike everything after the enacting clause and insert the following:

* Sec. 1. RCW 26.44.100 and 1998 c 314 s 8 are each amended to read as follows:
(1) The legislature finds parents and children often are not aware of their due process rights when agencies are investigating allegations of child abuse and neglect. The legislature reaffirms that all citizens, including parents, shall be afforded due process, that protection of children remains the priority of the legislature, and that this protection includes protecting the family unit from unnecessary disruption. To facilitate this goal, the legislature wishes to ensure that parents and children be advised in writing and orally, if feasible, of their basic rights and other specific information as set forth in this chapter, provided that nothing contained in this chapter shall cause any delay in protective custody action.

(2) The department shall, at the initial point of contact, notify the alleged perpetrator of (the allegations of (child abuse (and) or) neglect ((at the earliest possible point in the investigation that will not jeopardize the safety and protection of the child or the investigation process)) of the complaints or allegations made against the individual, in a manner consistent with the laws protecting the rights of the persons making the complaints or allegations, unless such notice will jeopardize the safety or protection of the child or the course of the investigation.

Whenever the department completes an investigation of a child abuse or neglect report under chapter 26.44 RCW, the department shall notify the alleged perpetrator of the report and the department's investigative findings. The notice shall also advise the alleged perpetrator that:

(a) A written response to the report may be provided to the department and that such response will be filed in the record following receipt by the department;
(b) Information in the department's record may be considered in subsequent investigations or proceedings related to child protection or child custody;
(c) Founded reports of child abuse and neglect may be considered in determining whether the person is disqualified from being licensed to provide child care, employed by a licensed child care agency, or authorized by the department to care for children; and
(d) An alleged perpetrator named in a founded report of child abuse or neglect has the right to seek review of the finding as provided in this chapter.

(3) The notification required by this section shall be made by certified mail, return receipt requested, to the person's last known address.

(4) The duty of notification created by this section is subject to the ability of the department to ascertain the location of the person to be notified. The department shall exercise reasonable, good-faith efforts to ascertain the location of persons entitled to notification under this section.

(5) The department shall provide training to all persons who conduct investigations under this section that shall include, but is not limited to, training regarding the legal duties of the department from the initial time of contact during investigation through treatment in order to protect children and families.

NEW SECTION. Sec. 2. The legislature finds that whenever possible, children should remain in the home of their parents. It is only when the safety of the child is a concern that the child should be removed from the home.

The legislature finds that the safety of a child is put in jeopardy when a child is subject to chronic neglect. The legislature recognizes that chronic neglect may be more dangerous to a child than physical or sexual abuse, and must be treated as such by those charged with the protection of children in this state.

It is the intent of the legislature that the department of social and health services be permitted to intervene in cases of chronic neglect where the well-being of the child is at risk. One incident of neglect may not rise to the level requiring state intervention; however, a pattern of neglect has been shown to cause damage to the health and well-being of the child subject to the neglect.

It is the intent of the legislature that when chronic neglect has been found to exist in a family, the legal system reinforce the need for the parent to engage in services that will decrease the likelihood of future neglect. However, if the parents fail to comply with the necessary services, the state must intervene to protect the children who are at risk.

Sec. 3. RCW 13.34.138 and 2003 c 227 s 5 are each amended to read as follows:
(1) Except for children whose cases are reviewed by a citizen review board under chapter 13.70 RCW, the status of all children found to be dependent shall be reviewed by the court at least every six months from the beginning date of the placement episode or the date dependency is established, whichever is first, at a hearing in which it shall be determined whether court supervision should continue. The initial review hearing shall be an in-court review and shall be set six months from the beginning date of the placement episode or no more than ninety days from the entry of the disposition order, whichever comes first. The initial review hearing may be a permanency planning hearing when necessary to meet the time frames set forth in RCW 13.34.145(3) or 13.34.134. The review shall include findings regarding the agency and parental completion of disposition plan requirements, and if necessary, revised permanency time limits. This review shall consider both the agency's and parent's efforts that demonstrate consistent measurable progress over time in meeting the disposition plan requirements. The requirements for the initial review hearing, including the in-court requirement, shall be accomplished within existing resources. The supervising agency shall provide a foster parent, preadoptive parent, or relative with notice of, and their right to an opportunity to be heard in, a review hearing pertaining to the child, but only if that person is currently providing care to that child at the time of the hearing. This section shall not be construed to grant party status to any person who has been provided an opportunity to be heard.

(a) A child shall not be returned home at the review hearing unless the court finds that a reason for removal as set forth in RCW 13.34.130 no longer exists. The parents, guardian, or legal custodian shall report to the court the efforts they have made to correct the conditions which led to removal. If a child is returned, casework supervision shall continue for a period of six months, at which time there shall be a hearing on the need for continued intervention.

(b) If the child is not returned home, the court shall establish in writing:

(i) Whether reasonable services have been provided to or offered to the parties to facilitate reunion, specifying the services provided or offered;

(ii) Whether the child has been placed in the least-restrictive setting appropriate to the child's needs, including whether consideration and preference has been given to placement with the child's relatives;

(iii) Whether there is a continuing need for placement and whether the placement is appropriate;

(iv) Whether there has been compliance with the case plan by the child, the child's parents, and the agency supervising the placement;

(v) Whether progress has been made toward correcting the problems that necessitated the child's placement in out-of-home care;

(vi) Whether the parents have visited the child and any reasons why visitation has not occurred or has been infrequent;

(vii) Whether additional services, including housing assistance, are needed to facilitate the return of the child to the child's parents; if so, the court shall order that reasonable services be offered specifying such services; and

(viii) The projected date by which the child will be returned home or other permanent plan of care will be implemented.

(c) The court at the review hearing may order that a petition seeking termination of the parent and child relationship be filed.

(2)(a) In any case in which the court orders that a dependent child may be returned to or remain in the child's home, the in-home placement shall be contingent upon the following:

(i) The cooperation by the parents with the agency case plan;

(ii) The compliance of the parents with court orders related to the care and supervision of the child; and

(iii) The continued participation of the parents in remedial services.

(b) The following may be grounds for removal of the child from the home, subject to review by the court:

(i) Noncompliance by the parents with case plan or court order;

(ii) The parent's inability, unwillingness, or failure to participate in services or treatment for themselves or the child; or

(iii) The failure of the parents to successfully and substantially complete services or treatment for themselves or the child.

(3) The court's ability to order housing assistance under RCW 13.34.130 and this section is: (a) Limited to cases in which homelessness or the lack of adequate and safe housing is the primary reason for an out-of-home placement; and (b) subject to the availability of funds appropriated for this specific purpose.

Sec. 4. RCW 26.44.015 and 1999 c 176 s 28 are each amended to read as follows:

(1) This chapter shall not be construed to authorize interference with child-raising practices, including reasonable parental discipline, which are not injurious to the child's health, welfare, (and) or safety.

(2) Nothing in this chapter may be used to prohibit the reasonable use of corporal punishment as a means of discipline.
No parent or guardian may be deemed abusive or neglectful solely by reason of the parent's or child's blindness, deafness, developmental disability, or other handicap.

Sec. 5. RCW 26.44.020 and 2000 c 162 s 19 are each amended to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Court" means the superior court of the state of Washington, juvenile department.

(2) "Law enforcement agency" means the police department, the prosecuting attorney, the state patrol, the director of public safety, or the office of the sheriff.

(4) "Institution" means a private or public hospital or any other facility providing medical diagnosis, treatment or care.

(5) "Department" means the state department of social and health services.

(6) "Child" or "children" means any person under the age of eighteen years of age.

(12) "Abuse or neglect" means ((the injury)) sexual abuse, sexual exploitation, ((negligent treatment, or maltreatment)) or nonaccidental injury of a child by any person under circumstances which ((indicate that)) cause harm to the child's health, welfare, ((and)) or safety ((is harmed)), excluding conduct permitted under RCW 9A.16.100; or the negligent treatment or maltreatment of a child by a person responsible for or providing care to the child under circumstances which cause harm to or present a substantial threat of harm to the child's health, welfare, or safety. An abused child is a child who has been subjected to child abuse or neglect as defined in this section.

The fact that siblings share a bedroom is not, in and of itself, negligent treatment or maltreatment. (16) "Child protective services" means those services provided by the department designed to protect children from child abuse and neglect and safeguard such children from future abuse and neglect, and conduct investigations of child abuse and neglect reports. Investigations may be conducted regardless of the location of the alleged abuse or neglect. (17) "Malice" or "maliciously" means an evil intent, wish, or design to vex, annoy, or injure another person. Such malice may be inferred from an act done in willful disregard of the rights of another, or an act wrongfully done without just cause or excuse, or an act or omission of duty betraying a willful disregard of social duty.

NEW SECTION. Sec. 6. A new section is added to chapter 26.44 RCW to read as follows:

(1) If the department, upon investigation of a report that a child has been abused or neglected as defined in this chapter, determines that the child has been subject to or is at risk of negligent treatment or maltreatment, the department may offer services to the child's parents, guardians, or legal custodians (a) to ameliorate the conditions that endangered the welfare of the child or that place the child at risk of future abuse or neglect, or (b) to address or treat the effects of mistreatment or neglect upon the child. If the child's parents, guardians, or legal custodians are available and willing to participate on a voluntary basis in in-home services, and the department determines that in-home services on a voluntary basis are appropriate for the family, the department may offer such services.

(2) In cases where the department has offered appropriate and reasonable services under subsection (1) of this section, and the parents, guardians, or legal custodians refuse to accept or fail to obtain appropriate treatment or services, or are unable or unwilling to participate in or successfully and substantially complete the treatment or services identified by the department, the department may initiate a dependency proceeding under chapter 13.34 RCW on the basis that the negligent treatment or maltreatment by the parent, guardian, or legal custodian constitutes neglect.

(3) Nothing in this section precludes the department from filing a dependency petition as provided in chapter 13.34 RCW if it determines that such action is necessary to protect the child from abuse or neglect or safeguard the child from future abuse or neglect.

(4) Nothing in this section shall be construed to create in any person an entitlement to services or financial assistance in paying for services or to create judicial authority to order the provision of services to any person or family if the services are unavailable or unsuitable or if the child or family is not eligible for such services.

Sec. 7. RCW 74.13.031 and 2004 c 183 s 3 are each amended to read as follows:

The department shall have the duty to provide child welfare services and shall:

(1) Develop, administer, supervise, and monitor a coordinated and comprehensive plan that establishes, aids, and strengthens services for the protection and care of runaway, dependent, or neglected children.

(2) Within available resources, recruit an adequate number of prospective adoptive and foster homes, both regular and specialized, i.e. homes for children of ethnic minority, including Indian homes for Indian children, sibling groups, handicapped and emotionally disturbed, teens, pregnant and parenting teens, and annually report to the governor and the legislature concerning the department's success in: (a) Meeting the need for adoptive and foster home placements; (b) reducing the foster parent turnover rate; (c) completing home studies for legally free children; and (d) implementing and operating the passport program required by RCW 74.13.285. The report shall include a section entitled "Foster Home Turn-Over, Causes and Recommendations."

(3) Investigate ((complaints of any recent act or failure to act)) reports of child abuse or neglect as defined in chapter 26.44 RCW on the part of a parent, guardian, or legal custodian of the child, member of the household of such persons, agency as defined in chapter 74.15 RCW providing care to the child, or other caretaker ((that results in death, serious physical or emotional harm, or sexual abuse or exploitation, or that presents an imminent risk of serious harm)) of the child who is serving in place of the parent, and on the basis of the findings of such investigation, offer child welfare services in relation to the problem to such ((parents, legal custodians, or)) persons ((serving in loco parentis)), and/or bring the situation to the attention of an appropriate court, or another community agency: PROVIDED, That an investigation is not required of nonaccidental injuries which are clearly not the result of a lack of care or supervision by the child's parents, guardians, legal custodians, or persons serving in ((locus parentis)) place of a parent. If the investigation reveals that a crime against a child may have been committed, the department shall notify the appropriate law enforcement agency.

(4) Offer, on a voluntary basis, family reconciliation services to families who are in conflict.

(5) Monitor out-of-home placements, on a timely and routine basis, to assure the safety, well-being, and quality of care being provided is within the scope of the intent of the legislature as defined in RCW 74.13.010 and 74.15.010, and annually submit a report measuring the extent to which the department achieved the specified goals to the governor and the legislature.
(6) Have authority to accept custody of children from parents and to accept custody of children from juvenile courts, where authorized to do so under law, to provide child welfare services including placement for adoption, and to provide for the physical care of such children and make payment of maintenance costs if needed. Except where required by Public Law 95-608 (25 U.S.C. Sec. 1915), no private adoption agency which receives children for adoption from the department shall discriminate on the basis of race, creed, or color when considering applications in their placement for adoption.

(7) Have authority to provide temporary shelter to children who have run away from home and who are admitted to crisis residential centers.

(8) Have authority to purchase care for children; and shall follow in general the policy of using properly approved private agency services for the actual care and supervision of such children insofar as they are available, paying for care of such children as are accepted by the department as eligible for support at reasonable rates established by the department.

(9) Establish a children's services advisory committee which shall assist the secretary in the development of a partnership plan for utilizing resources of the public and private sectors, and advise on all matters pertaining to child welfare, licensing of child care agencies, adoption, and services related thereto. At least one member shall represent the adoption community.

(10) Have authority to provide continued foster care or group care for individuals from eighteen through twenty years of age to enable them to complete their high school or vocational school program.

(11) Refer cases to the division of child support whenever state or federal funds are expended for the care and maintenance of a child, including a child with a developmental disability who is placed as a result of an action under chapter 13.34 RCW, unless the department finds that there is good cause not to pursue collection of child support against the parent or parents of the child.

(12) Have authority within funds appropriated for foster care services to purchase care for Indian children who are in the custody of a federally recognized Indian tribe or tribally licensed child-placing agency pursuant to parental consent, tribal court order, or state juvenile court order; and the purchase of such care shall be subject to the same eligibility standards and rates of support applicable to other children for whom the department purchases care.

Notwithstanding any other provision of RCW 13.32A.170 through 13.32A.200 and 74.13.032 through 74.13.036, or of this section all services to be provided by the department of social and health services under subsections (4), (6), and (7) of this section, subject to the limitations of these subsections, may be provided by any program offering such services funded pursuant to Titles II and III of the federal juvenile justice and delinquency prevention act of 1974.

(13) Within amounts appropriated for this specific purpose, provide preventive services to families with children that prevent or shorten the duration of an out-of-home placement.

(14) Have authority to provide independent living services to youths, including individuals eighteen through twenty years of age, who are or have been in foster care.

NEW SECTION. Sec. 8. The legislature recognizes that the fiscal and workload impact of this act may not be fully determined until after it is implemented and that such impact may further be affected by the funding or availability of community-based prevention and remedial services. For that reason, the department of social and health services shall report on the implementation of this act to the appropriate legislative committees and the governor by December 1, 2006. The report shall include information regarding any change over previous years in the number and type of child abuse and neglect referrals received and investigations conducted, any change in in-home and out-of-home dependency placements and/or filings, any increased service costs, barriers to implementation, and an assessment of the fiscal and workload impact on the department. Such information shall be reviewed by the legislature for possible amendment of this act or additional allocation of resources to the department for implementation purposes.

NEW SECTION. Sec. 9. This act takes effect January 1, 2006.

NEW SECTION. Sec. 11. This act may be known and cited as the Justice and Raiden Act."

NEW SECTION. Sec. 1. The legislature recognizes the importance of ongoing professional development and growth for teachers with the goal of improving student achievement. It is the intent of the legislature to ensure that professional certification is administered in such a way as to ensure that the professional development and growth of individual teachers is directly aligned to their current and future teaching responsibilities as professional educators.

Sec. 2. RCW 28A.410.210 and 2000 c 39 s 103 are each amended to read as follows:

The Washington professional educator standards board shall:

(1) Serve as an advisory body to the superintendent of public instruction and as the sole advisory body to the state board of education on issues related to educator recruitment, hiring, preparation, certification including high quality alternative routes to certification, mentoring and support, professional growth, retention, governance, prospective teacher pedagogy assessment, prospective principal assessment, educator evaluation including but not limited to peer evaluation, and revocation and suspension of licensure;

(2) Adopt rules to provide for the approval and disapproval of programs leading to the professional certification of teachers. The rules shall be written to allow the maximum program choice for applicants, promote portability among programs, and promote maximum efficiency for applicants in attaining professional certification. All current and future programs must comply with these rules and must receive initial approval based on these rules. The rules shall:

(a) Not require professional certification for any certificated teacher before the 2008-09 school year, not require professional certification before the fifth year following the receipt of a continuing employment contract for any individual teacher, not require any teacher with national board certification to earn professional certification, and allow any teacher currently enrolled in or participating in a program leading to professional certification to continue the program under administrative rules in place when the teacher began the program;

(b) Provide criteria for the approval and disapproval of accredited institutions of higher education within the state, beginning no later than August 31, 2006, and for the approval and disapproval of educational service districts, beginning no later than August 31, 2007, to offer programs leading to professional certification. The rules shall be written to encourage institutions of higher education and educational service districts to partner with local school districts or consortia of school districts, as appropriate, to provide instruction for teachers seeking professional certification;

(c) Encourage institutions of higher education to offer professional certificate coursework as continuing education credit hours. This shall not prevent an institution of higher education from providing the option of including the professional certification requirements as part of a master's degree program;

(d) Provide criteria for a liaison relationship between approved programs and school districts in which applicants are employed;

(e) Identify a professional certification process for out-of-state certificated teachers not yet certificated in Washington who have graduated from regionally accredited institutions of higher education and who hold valid out-of-state certificates. The
rules shall award professional certification to out-of-state teachers who have five years or more of successful teaching experience
if the teachers have had that experience within the preceding three years and can show evidence of professional development
during their teaching careers. The rules may require these teachers, within one year of the time they begin to teach in the state's
public schools, to take a course in or show evidence that they can teach to the state's essential academic learning requirements;
and

  (f) Identify an evaluation process of approved programs that includes a review of the program coursework and
  applicant coursework load requirements, linkages of programs to individual teacher professional growth plans, linkages to school
district and school improvement plans, and, to the extent possible, linkages to school district professional enrichment and growth
programs for teachers, where such programs are in place in school districts. The board shall provide a preliminary report on the
evaluation process to the senate and house of representatives committees on education policy by November 1, 2005. The board
shall identify:

  (i) A process for awarding conditional approval of a program that shall include annual evaluations of the program until
the program is awarded full approval;

  (ii) A three-year evaluation cycle once a program receives full approval;

  (iii) A method for investigating programs that have received numerous complaints from students enrolled in the
program and from those recently completing the program;

  (iv) A method for investigating programs at the reasonable discretion of the board; and

  (v) A method for using program completer satisfaction responses in making the evaluation;

(3) Submit annual reports and recommendations, beginning December 1, 2000, to the governor, the education and fiscal
committees of the legislature, the state board of education, and the superintendent of public instruction concerning duties and
activities within the board’s advisory capacity. The Washington professional educator standards board shall submit a separate
report by December 1, 2000, to the governor, the education and fiscal committees of the legislature, the state board of education,
and the superintendent of public instruction providing recommendations for at least two high quality alternative routes to teacher
certification. In its deliberations, the board shall consider at least one route that permits persons with substantial subject matter
expertise to achieve residency certification through an on-the-job training program provided by a school district; and

((4)(a)) (4) Establish the prospective teacher assessment system for basic skills and subject knowledge that shall be
required to obtain residency certification pursuant to RCW 28A.410.220 through 28A.410.240.

Sec. 3. RCW 28A.305.130 and 2002 c 205 s 3 are each amended to read as follows:

findings and assure continued improvement of preparation programs for teachers, administrators, and educational staff associates.

  (3) Investigate the character of the work required to be performed as a condition of entrance to and graduation from any
institution of higher education in this state relative to such certification as provided for in subsection (1) of this section, and
prepare a list of accredited institutions of higher education of this and other states whose graduates may be awarded such
certificates.

(4)(a) The state board of education shall adopt rules to allow a teacher certification candidate to fulfill, in part, teacher
preparation program requirements through work experience as a classified teacher's aide in a public school or private school
meeting the requirements of RCW 28A.195.010. The rules shall include, but are not limited to, limitations based upon the
reency of the teacher preparation candidate's teacher aide work experience, and limitations based on the amount of work
experience that may apply toward teacher preparation program requirements under this chapter.

(b) The state board of education shall require that at the time of the individual's enrollment in a teacher preparation
program, the supervising teacher and the building principal shall jointly provide to the teacher preparation program of the higher
education institution at which the teacher candidate is enrolled, a written assessment of the performance of the teacher candidate.
The assessment shall contain such information as determined by the state board of education and shall include: Evidence that at
least fifty percent of the candidate's work as a classified teacher's aide was involved in instructional activities with children under
the supervision of a certificated teacher and that the candidate worked a minimum of six hundred thirty hours for one school year;
the type of work performed by the candidate; and a recommendation of whether the candidate's work experience as a classified
teacher's aide should be substituted for teacher preparation program requirements. In compliance with such rules as may be
established by the state board of education under this section, the teacher preparation programs of the higher education institution
where the candidate is enrolled shall make the final determination as to what teacher preparation program requirements may be fulfilled by teacher aide work experience.

(5) Supervise the issuance of such certificates, except professional certificates, as provided for in subsection (1) of this section and specify the types and kinds of certificates necessary for the several departments of the common schools by rule or regulation in accordance with RCW 28A.410.010.

(6) Accredit, subject to such accreditation standards and procedures as may be established by the state board of education, all schools that apply for accreditation, and approve, subject to the provisions of RCW 28A.195.010, private schools carrying out a program for any or all of the grades kindergarten through twelve: PROVIDED, That no private school may be approved that operates a kindergarten program only: PROVIDED FURTHER, That no public or private schools shall be placed upon the list of accredited schools so long as secret societies are knowingly allowed to exist among its students by school officials: PROVIDED FURTHER, That the state board may elect to require all or certain classifications of the public schools to conduct and participate in such preaccreditation examination and evaluation processes as may now or hereafter be established by the board.

(7) Make rules and regulations governing the establishment in any existing nonhigh school district of any secondary program or any new grades in grades nine through twelve. Before any such program or any new grades are established the district must obtain prior approval of the state board.

(8) Prepare such outline of study for the common schools as the board shall deem necessary, and prescribe such rules for the general government of the common schools, as shall seek to secure regularity of attendance, prevent truancy, secure efficiency, and promote the true interest of the common schools.

(9) Continuously reevaluate courses and adopt and enforce regulations within the common schools so as to meet the educational needs of students and articulate with the institutions of higher education and unify the work of the public school system.

(10) Carry out board powers and duties relating to the organization and reorganization of school districts under chapter 28A.315 RCW ((28A.315.010 through 28A.315.680 and 28A.315.900)).

SSB 5992 Prime Sponsor, Senate Committee on Labor, Commerce, Research & Development: Modifying self-insurer assessments under the second injury fund. Reported by Committee on Commerce & Labor

MAJORITY recommendation: Do pass as amended:

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 51.44.040 and 1982 c 63 s 14 are each amended to read as follows:

(1) There shall be in the office of the state treasurer, a fund to be known and designated as the "second injury fund", which shall be used only for the purpose of defraying charges against it as provided in RCW 51.16.120 and 51.32.250((as now or hereafter amended—Said)). The fund shall be administered by the director. The state treasurer shall be the custodian of the second injury fund and shall be authorized to disburse moneys from it only upon written order of the director.

(2) Payments to the second injury fund from the accident fund shall be made pursuant to rules ((and regulations promulgated)) adopted by the director.
Assessments for the second injury fund shall be imposed on self-insurers pursuant to rules (and regulations promulgated by the director to ensure that self-insurers shall pay to such fund) adopted by the director. Such rules shall provide for at least the following:

(i) Except as provided in (a)(ii) of this subsection, the amount assessed each self-insurer must be in the proportion that the payments made from (such) the fund on account of claims made against self-insurers bears to the total sum of payments from (such) the fund.

(ii) Beginning with assessments imposed on or after July 1, 2009, but before July 1, 2012, the department shall experience rate the amount assessed each self-insurer as long as the aggregate amount assessed is in the proportion that the payments made from the fund on account of claims made against self-insurers bears to the total sum of payments from the fund. The experience rating factor must provide equal weight to the ratio between expenditures made by the second injury fund for claims of the self-insurer to the total expenditures made by the second injury fund for claims of all self-insurers for the prior three fiscal years and the ratio of workers' compensation claim payments under this title made by the self-insurer to the total worker's compensation claim payments made by all self-insurers under this title for the prior three fiscal years. The weighted average of these two ratios must be divided by the latter ratio to arrive at the experience factor.

(b) For purposes of this subsection, "expenditures made by the second injury fund" mean the costs and charges described under RCW 51.32.250 and 51.16.120(3) and (4), and the amounts assessed to the second injury fund as described under RCW 51.16.120(1). Under no circumstances does "expenditures made by the second injury fund" include any subsequent payments, assessments, or adjustments for pensions, where the applicable second injury fund entitlement was established outside of the three fiscal years.

NEW SECTION. Sec. 2. The department of labor and industries must report to the appropriate committees of the legislature by December 1, 2011, on the outcomes of workers potentially impacted by the experience rating program established in RCW 51.44.040(3)(a)(ii). The report must include a comparison of outcomes for workers of self-insurers whose industrial insurance claims are closed between July 1, 2003, and June 30, 2005, and have thirty or more days of temporary total disability, with such workers of self-insurers whose industrial insurance claims are closed between July 1, 2009, and June 30, 2011. The outcomes to be compared include, but are not limited to, whether the workers potentially impacted by the experience rating program have improved return-to-work outcomes, whether the number of impacted workers found to be employable increases, whether there is a change in long-term disability outcomes among the impacted workers, and whether the number of permanent total disability pensions among impacted workers is affected and, if so, the nature of the impact. The department must develop a study methodology, including an assessment tool that must be provided to the workers' compensation advisory committee for review and comment. The study methodology will include appropriate controls to account for economic fluctuations and wage inflation.

The department of revenue and the state treasurer shall provide the committee with any data within their purview that the committee considers necessary to conduct the review. SECOND READING

HOUSE BILL NO. 2255, By Representatives Conway, Simpson and Wood

Making adjustments to improve benefit equity in the unemployment insurance system.

The bill was read the second time.

Representative Conway moved the adoption of amendment (385):

Strike everything after the enacting clause and insert the following:
Sec. 1. The legislature finds that the unemployment insurance system was created to set aside unemployment reserves to be used for the benefit of persons who are unemployed through no fault of their own and to maintain purchasing power and limit the social consequences of unemployment. The legislature further finds that the system is falling short of these goals by failing to recognize the importance of applying liberal construction for the purpose of reducing involuntary unemployment, and the suffering caused by it, to the minimum, and by failing to provide equitable benefits to unemployed workers. The legislature also recognizes the desirability of managing the system to take into account the goal of reducing costs to foster a competitive business climate. The legislature intends to adjust the balance between these goals by reinstating the requirement for liberal construction and making other adjustments in the system that will allow reasonable improvements in benefit equity, including reinstating a weekly benefit calculation based on the wages in the two quarters of the claimant's base year in which wages were the highest. The legislature finds that these adjustments are critical to the health and welfare of unemployed workers, and to the purchasing power essential to the economic health and welfare of communities and the state, and should be implemented as soon as feasible.

Sec. 2. RCW 50.01.010 and 2003 2nd sp.s. c 4 s 1 are each amended to read as follows:

Whereas, economic insecurity due to unemployment is a serious menace to the health, morals and welfare of the people of this state; involuntary unemployment is, therefore, a subject of general interest and concern which requires appropriate action by the legislature to prevent its spread and to lighten its burden which now so often falls with crushing force upon the unemployed worker and his family. Social security requires protection against this greatest hazard of our economic life. This can be provided only by application of the insurance principle of sharing the risks, and by the systematic accumulation of funds during periods of employment to provide benefits for periods of unemployment, thus maintaining purchasing powers and limiting the serious social consequences of relief assistance. The state of Washington, therefore, exercising herein its police and sovereign power endeavors by this title to remedy any widespread unemployment situation which may occur and to set up safeguards to prevent its recurrence in the years to come. The legislature, therefore, declares that in its considered judgment the public good, and the general welfare of the citizens of this state require the enactment of this measure, under the police powers of the state, for the compulsory setting aside of unemployment reserves to be used for the benefit of persons unemployed through no fault of their own, and that this title shall be liberally construed for the purpose of reducing involuntary unemployment and the suffering caused thereby to the minimum.

Sec. 3. RCW 50.20.120 and 2003 2nd sp.s. c 4 s 11 are each amended to read as follows:

(1)(a) Subject to the other provisions of this title, benefits shall be payable to any eligible individual during the individual's benefit year in a maximum amount equal to the lesser of thirty times the weekly benefit amount, as determined in subsection (2) of this section, or one-third of the individual's base year wages under this title: PROVIDED, That as to any week which falls in an extended benefit period as defined in RCW 50.22.010(1), an individual's eligibility for maximum benefits in excess of twenty-six times his or her weekly benefit amount will be subject to the terms and conditions set forth in RCW 50.22.020.

(b) With respect to claims that have an effective date on or after the first Sunday of the calendar month immediately following the month in which the commissioner finds that the state unemployment rate is six and eight-tenths percent or less, benefits shall be payable to any eligible individual during the individual's benefit year in a maximum amount equal to the lesser of twenty-six times the weekly benefit amount, as determined in subsection (2) of this section, or one-third of the individual's base year wages under this title.

(2)(a) For claims with an effective date before January 4, 2004, an individual's weekly benefit amount shall be an amount equal to one twenty-fifth of the average quarterly wages of the individual's total wages during the two quarters of the individual's base year in which such total wages were highest.

(b) With respect to claims with an effective date on or after January 4, 2004, and before January 2, 2005, an individual's weekly benefit amount shall be an amount equal to one twenty-fifth of the average quarterly wages of the individual's total wages during the three quarters of the individual's base year in which such total wages were highest.

(c)(i) With respect to claims with an effective date on or after January 2, 2005, except as provided in (c)(ii) of this subsection, an individual's weekly benefit amount shall be an amount equal to one percent of the total wages paid in the individual's base year.

(ii) With respect to claims with an effective date on or after the first Sunday following the day on which the governor signs this act, and before July 1, 2007, an individual's weekly benefit amount shall be an amount equal to three and eighty-five one-hundredths percent of the average quarterly wages of the individual's total wages during the two quarters of the individual's base year in which such total wages were highest.
(3) The maximum and minimum amounts payable weekly shall be determined as of each June 30th to apply to benefit years beginning in the twelve-month period immediately following such June 30th.

   a)(i) With respect to claims that have an effective date before January 4, 2004, the maximum amount payable weekly shall be seventy percent of the "average weekly wage" for the calendar year preceding such June 30th.

   (ii) With respect to claims that have an effective date on or after January 4, 2004, the maximum amount payable weekly shall be either four hundred ninety-six dollars or sixty-three percent of the "average weekly wage" for the calendar year preceding such June 30th, whichever is greater.

   b) The minimum amount payable weekly shall be fifteen percent of the "average weekly wage" for the calendar year preceding such June 30th.

(4) If any weekly benefit, maximum benefit, or minimum benefit amount computed herein is not a multiple of one dollar, it shall be reduced to the next lower multiple of one dollar.

Sec. 4. RCW 50.29.025 and 2003 2nd sp.s. c 4 s 14 are each amended to read as follows:

(1) Except as provided in subsection (2) of this section, the contribution rate for each employer subject to contributions under RCW 50.24.010 shall be determined under this subsection.

   a) A fund balance ratio shall be determined by dividing the balance in the unemployment compensation fund as of the September 30th immediately preceding the rate year by the total remuneration paid by all employers subject to contributions during the second calendar year preceding the rate year and reported to the department by the following March 31st. The division shall be carried to the fourth decimal place with the remaining fraction, if any, disregarded. The fund balance ratio shall be expressed as a percentage.

   b) The interval of the fund balance ratio, expressed as a percentage, shall determine which tax schedule in (e) of this subsection shall be in effect for assigning tax rates for the rate year. The intervals for determining the effective tax schedule shall be:

<table>

   c) An array shall be prepared, listing all qualified employers in ascending order of their benefit ratios. The array shall show for each qualified employer: (i) Identification number; (ii) benefit ratio; (iii) taxable payrolls for the four calendar quarters immediately preceding the computation date and reported to the department by the cut-off date; (iv) a cumulative total of taxable payrolls consisting of the employer's taxable payroll plus the taxable payrolls of all other employers preceding him or her in the array; and (v) the percentage equivalent of the cumulative total of taxable payrolls.

   d) Each employer in the array shall be assigned to one of twenty rate classes according to the percentage intervals of cumulative taxable payrolls set forth in (e) of this subsection: PROVIDED, That if an employer's taxable payroll falls within two or more rate classes, the employer and any other employer with the same benefit ratio shall be assigned to the lowest rate class which includes any portion of the employer's taxable payroll.

   e) Except as provided in RCW 50.29.026, the contribution rate for each employer in the array shall be the rate specified in the following tables for the rate class to which he or she has been assigned, as determined under (d) of this subsection, within the tax schedule which is to be in effect during the rate year:

<table>
<thead>
<tr>
<th>Percent of Cumulative Taxable Payrolls</th>
<th>Schedules of Contributions Rates for Effective Tax Schedule</th>

</thead>
<tbody>
<tr>
<td>From To Rate</td>
<td>AA A B C D E F</td>

</tbody>
</table>
(f) The contribution rate for each employer not qualified to be in the array shall be as follows:

(i) Employers who do not meet the definition of "qualified employer" by reason of failure to pay contributions when due shall be assigned a contribution rate two-tenths higher than that in rate class 20 for the applicable rate year, except employers who have an approved agency-deferred payment contract by September 30 of the previous rate year. If any employer with an approved agency-deferred payment contract fails to make any one of the succeeding deferred payments or fails to submit any succeeding tax report and payment in a timely manner, the employer's tax rate shall immediately revert to a contribution rate two-tenths higher than that in rate class 20 for the applicable rate year; and

(ii) For all other employers not qualified to be in the array, the contribution rate shall be a rate equal to the average industry rate as determined by the commissioner; however, the rate may not be less than one percent.

(2) Beginning with contributions assessed for rate year 2005, the contribution rate for each employer subject to contributions under RCW 50.24.010 shall be the sum of the array calculation factor rate and the graduated social cost factor rate determined under this subsection, and the solvency surcharge determined under RCW 50.29.041, if any.

(a) The array calculation factor rate shall be determined as follows:

(i) An array shall be prepared, listing all qualified employers in ascending order of their benefit ratios. The array shall show for each qualified employer: (A) Identification number; (B) benefit ratio; and (C) taxable payrolls for the four consecutive calendar quarters immediately preceding the computation date and reported to the employment security department by the cut-off date.

(ii) Each employer in the array shall be assigned to one of forty rate classes according to his or her benefit ratio as follows, and, except as provided in RCW 50.29.026, the array calculation factor rate for each employer in the array shall be the rate specified in the rate class to which the employer has been assigned:

<table>
<thead>
<tr>
<th>Benefit Ratio</th>
<th>Rate Class</th>
<th>Rate (percent)</th>
</tr>
</thead>
<tbody>
<tr>
<td>At least 0.000001</td>
<td>Less than 1</td>

</tbody>
</table>
(b) The graduated social cost factor rate shall be determined as follows:

(i)(A) Except as provided in (b)(i)(B) (() and (C), and (D) of this subsection, the commissioner shall calculate the flat social cost factor for a rate year by dividing the total social cost by the total taxable payroll. The division shall be carried to the
second decimal place with the remaining fraction disregarded unless it amounts to five hundredths or more, in which case the second decimal place shall be rounded to the next higher digit. The flat social cost factor shall be expressed as a percentage.

(B) If, on the cut-off date, the balance in the unemployment compensation fund is determined by the commissioner to be an amount that will provide more than ten months of unemployment benefits, the commissioner shall calculate the flat social cost factor for the rate year immediately following the cut-off date by reducing the total social cost by the dollar amount that represents the number of months for which the balance in the unemployment compensation fund on the cut-off date will provide benefits above ten months and dividing the result by the total taxable payroll. However, the calculation under this subsection (2)(b)(i)(B) for a rate year may not result in a flat social cost factor that is more than two-tenths lower than the calculation under (b)(i)(A) of this subsection for that rate year.

For the purposes of this subsection, the commissioner shall determine the number of months of unemployment benefits in the unemployment compensation fund using the benefit cost rate for the average of the three highest calendar benefit cost rates in the twenty consecutive completed calendar years immediately preceding the cut-off date or a period of consecutive calendar years immediately preceding the cut-off date that includes three recessions, if longer.

(C) The minimum flat social cost factor calculated under this subsection (2)(b) shall be six-tenths of one percent.

(D) With respect to rate year 2007, the flat social cost factor shall be the lesser of:

(I) The flat social cost factor determined under (b)(i)(A) through (C) of this subsection; or

(II) The flat social cost factor that would be determined under (b)(i)(A) through (C) of this subsection if RCW 50.20.120(2)(c) had been in effect during the immediately preceding rate year.

(ii)(A) Except as provided in (b)(ii)(B) of this subsection, the graduated social cost factor rate for each employer in the array is the flat social cost factor multiplied by the percentage specified as follows for the rate class to which the employer has been assigned in (a)(ii) of this subsection((, except that the sum of an employer's array calculation factor rate and the graduated social cost factor rate may not exceed six and five-tenths percent or, for employers whose standard industrial classification code is within major group "01," "02," "07," "091," "203," "209," or "5148," or the equivalent code in the North American industry classification system code, may not exceed six percent):)

((I(A)) (I) Rate class 1 - 78 percent;
((I(B)) (II) Rate class 2 - 82 percent;
((I(C)) (III) Rate class 3 - 86 percent;
((I(D)) (IV) Rate class 4 - 90 percent;
((I(E)) (V) Rate class 5 - 94 percent;
((I(F)) (VI) Rate class 6 - 98 percent;
((I(G)) (VII) Rate class 7 - 102 percent;
((I(H)) (VIII) Rate class 8 - 106 percent;
((I(I)) (IX) Rate class 9 - 110 percent;
((I(J)) (X) Rate class 10 - 114 percent;
((I(K)) (XI) Rate class 11 - 118 percent; and
((I(L)) (XII) Rate classes 12 through 40 - 120 percent.

(B) The sum of an employer's array calculation factor rate and the graduated social cost factor rate may not exceed six and five-tenths percent, except that:

(I) For contributions assessed beginning July 1, 2005, through June 30, 2007, for employers whose North American industry classification system code is "111," "112," "115," "3114," "3117," "42448," or "49312," the graduated social cost factor rate is zero; and

(II) The sum of an employer's array calculation factor rate and the graduated social cost factor rate may not exceed six percent for employers whose North American industry classification system code is "1141," and, for periods not covered by (b)(ii)(B) of this subsection, for employers whose North American industry classification system code is "111," "112," "115," "3114," "3117," or "42448."

(iii) For the purposes of this section:

(A) "Total social cost" means;

(I) Except as provided in (b)(iii)(A)(II) of this subsection, the amount calculated by subtracting the array calculation factor contributions paid by all employers with respect to the four consecutive calendar quarters immediately preceding the computation date and paid to the employment security department by the cut-off date from the total unemployment benefits paid to claimants in the same four consecutive calendar quarters. To calculate the flat social cost factor for rate year 2005, the commissioner shall calculate the total social cost using the array calculation factor contributions that would have been required to be paid by all employers in the calculation period if (a) of this subsection had been in effect for the relevant period.

(II) For rate year 2007, the amount calculated under (b)(iii)(A)(I) of this subsection reduced by the amount of benefits charged that exceed the contributions paid in the four consecutive calendar quarters immediately preceding the applicable
of this subsection, and/or because the social cost factor contributions are paid under (b)(ii)(D)(II) of this subsection.

(B) "Total taxable payroll" means the total amount of wages subject to tax, as determined under RCW 50.24.010, for all employers in the four consecutive calendar quarters immediately preceding the computation date and reported to the employment security department by the cut-off date.

(c) The array calculation factor rate for each employer not qualified to be in the array shall be as follows:

(i) Employers who do not meet the definition of "qualified employer" by reason of failure to pay contributions when due shall be assigned an array calculation factor rate two-tenths higher than that in rate class 40, except employers who have an approved agency-deferred payment contract by September 30th of the previous rate year. If any employer with an approved agency-deferred payment contract fails to make any one of the succeeding deferred payments or fails to submit any succeeding tax report and payment in a timely manner, the employer's tax rate shall immediately revert to an array calculation factor rate two-tenths higher than that in rate class 40; and

(ii) For all other employers not qualified to be in the array, the array calculation factor rate shall be a rate equal to the average industry array calculation factor rate as determined by the commissioner, plus fifteen percent of that amount; however, the rate may not be less than one percent or more than the array calculation factor rate in rate class 40.

(d) The graduated social cost factor rate for each employer not qualified to be in the array shall be as follows:

(i) For employers whose array calculation factor rate is determined under (c)(i) of this subsection, the social cost factor rate shall be the social cost factor rate assigned to rate class 40 under (b)(ii) of this subsection.

(ii) For employers whose array calculation factor rate is determined under (c)(ii) of this subsection, the social cost factor rate shall be a rate equal to the average industry social cost factor rate as determined by the commissioner, plus fifteen percent of that amount, but not more than the social cost factor rate assigned to rate class 40 under (b)(ii) of this subsection.

(3) Assignment of employers by the commissioner to industrial classification, for purposes of this section, shall be in accordance with established classification practices found in the "Standard Industrial Classification Manual" issued by the federal office of management and budget to the third digit provided in the standard industrial classification code, or in the North American industry classification system code.

Sec. 5. RCW 50.16.030 and 1999 c 36 s 1 are each amended to read as follows:

(1)(a) Except as provided in (b) and (c) of this subsection, moneys shall be requisitioned from this state's account in the unemployment trust fund solely for the payment of benefits and repayment of loans from the federal government to guarantee solvency of the unemployment compensation fund in accordance with regulations prescribed by the commissioner, except that money credited to this state's account pursuant to section 903 of the social security act, as amended, shall be used exclusively as provided in RCW 50.16.030(5). The commissioner shall from time to time requisition from the unemployment trust fund such amounts, not exceeding the amounts standing to its account therein, as he or she deems necessary for the payment of benefits for a reasonable future period. Upon receipt thereof the treasurer shall deposit such moneys in the benefit account and shall issue his or her warrants for the payment of benefits solely from such benefit account.

(b) During fiscal years 2006 and 2007, moneys for the payment of regular benefits as defined in RCW 50.22.010 shall be requisitioned in the following order:

(i) First, from the moneys credited to this state's account in the unemployment trust fund pursuant to section 903 of the social security act, as amended in section 209 of the temporary extended unemployment compensation act of 2002 (42 U.S.C. Sec. 1103(d)), the amount equal to the amount of benefits charged that exceed the contributions paid in the four consecutive calendar quarters ending on June 30, 2006, for the fiscal year 2006 calculation, and ending on June 30, 2007, for the fiscal year 2007 calculation, because the social cost factor contributions that employers are subject to under RCW 50.29.025(2)(b)(ii)(B)(I) are less than the social cost factor contributions that would have applied to these employers under RCW 50.29.025(2)(b)(ii)(D)(II); and

(ii) Second, after the requisitioning required under (b)(i) of this subsection in the respective fiscal year, from all other moneys credited to this state's account in the unemployment trust fund.

(c) After the requisitioning required under (b) of this subsection, if applicable, during calendar years 2006 and 2007, moneys for the payment of regular benefits as defined in RCW 50.22.010 shall be requisitioned in the following order:

(i) First, from the moneys credited to this state's account in the unemployment trust fund pursuant to section 903 of the social security act, as amended in section 209 of the temporary extended unemployment compensation act of 2002 (42 U.S.C. Sec. 1103(d)), the amount equal to the amount of benefits charged that exceed the contributions paid in the four consecutive calendar quarters immediately preceding the applicable computation date because the social cost factor contributions paid pursuant to RCW 50.29.025(2)(b)(ii)(D)(II) are less than the social cost factor contributions that would have been paid if RCW 50.29.025(2)(b)(ii)(D)(I) had been applicable; and
(ii) Second, after the requisitioning required under (c)(i) of this subsection in the respective calendar year, from all other moneys credited to this state's account in the unemployment trust fund.

(2) Expenditures of such moneys in the benefit account and refunds from the clearing account shall not be subject to any provisions of law requiring specific appropriations or other formal release by state officers of money in their custody, and RCW 43.01.050, as amended, shall not apply. All warrants issued by the treasurer for the payment of benefits and refunds shall bear the signature of the treasurer and the countersignature of the commissioner, or his or her duly authorized agent for that purpose.

(3) Any balance of moneys requisitioned from the unemployment trust fund which remains unclaimed or unpaid in the benefit account after the expiration of the period for which sums were requisitioned shall either be deducted from estimates for, and may be utilized for the payment of, benefits during succeeding periods, or in the discretion of the commissioner, shall be redeposited with the secretary of the treasury of the United States of America to the credit of this state's account in the unemployment trust fund.

(4) Money credited to the account of this state in the unemployment trust fund by the secretary of the treasury of the United States of America pursuant to section 903 of the social security act, as amended, may be requisitioned and used for the payment of expenses incurred for the administration of this title pursuant to a specific appropriation by the legislature, provided that the expenses are incurred and the money is requisitioned after the enactment of an appropriation law which:

(a) Specifies the purposes for which such money is appropriated and the amounts appropriated therefor;

(b) Limits the period within which such money may be obligated to a period ending not more than two years after the date of the enactment of the appropriation law; and

(c) Limits the amount which may be obligated during a twelve-month period beginning on July 1st and ending on the next June 30th to an amount which does not exceed the amount by which (i) the aggregate of the amounts credited to the account of this state pursuant to section 903 of the social security act, as amended, during the same twelve-month period and the thirty-four preceding twelve-month periods, exceeds (ii) the aggregate of the amounts obligated pursuant to RCW 50.16.030 (4), (5) and (6) and charged against the amounts credited to the account of this state during any of such thirty-five twelve-month periods. For the purposes of RCW 50.16.030 (4), (5) and (6), amounts obligated during any such twelve-month period shall be charged against equivalent amounts which were first credited and which are not already so charged; except that no amount obligated for administration during any such twelve-month period may be charged against any amount credited during such a twelve-month period earlier than the thirty-fourth twelve-month period preceding such period: PROVIDED, That any amount credited to this state's account under section 903 of the social security act, as amended, which has been appropriated for expenses of administration, whether or not withdrawn from the trust fund shall be excluded from the unemployment compensation fund balance for the purpose of experience rating credit determination.

(5) Money credited to the account of this state pursuant to section 903 of the social security act, as amended, may not be withdrawn or used except for the payment of benefits and for the payment of expenses of administration and of public employment offices pursuant to RCW 50.16.030 (4), (5) and (6). However, moneys credited because of excess amounts in federal accounts in federal fiscal years 1999, 2000, and 2001 shall be used solely for the administration of the unemployment compensation program and are not subject to appropriation by the legislature for any other purpose.

(6) Money requisitioned as provided in RCW 50.16.030 (4), (5) and (6) for the payment of expenses of administration shall be deposited in the unemployment compensation fund, but until expended, shall remain a part of the unemployment compensation fund. The commissioner shall maintain a separate record of the deposit, obligation, expenditure and return of funds so deposited. Any money so deposited which either will not be obligated within the period specified by the appropriation law or remains unobligated at the end of the period, and any money which has been obligated within the period but will not be expended, shall be returned promptly to the account of this state in the unemployment trust fund.

NEW SECTION. Sec. 6. A new section is added to chapter 50.29 RCW to read as follows:

(1) By October 1, 2006, and October 1, 2007, the employment security department must report to the appropriate committees of the legislature on the impact, or projected impact, of sections 2 and 3, chapter ..., Laws of 2005 (sections 2 and 3 of this act) on the unemployment trust fund in the three consecutive fiscal years beginning with the year before the report date.

(3)(a) The task force shall use legislative facilities, and staff support shall be provided by senate committee services and the house of representatives office of program research. The task force may hire additional staff with specific technical expertise if such expertise is necessary to carry out the mandates of this study.

NEW SECTION. Sec. 10. If any part of this act is found to be in conflict with federal requirements that are a prescribed condition to the allocation of federal funds to the state or the eligibility of employers in this state for federal unemployment tax credits, the conflicting part of this act is inoperative solely to the extent of the conflict, and the finding or determination does not affect the operation of the remainder of this act. Rules adopted under this act must meet federal requirements that are a necessary condition to the receipt of federal funds by the state or the granting of federal unemployment tax credits to employers in this state.

NEW SECTION. Sec. 11. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

SSB 5101 Prime Sponsor, Senate Committee on Water, Energy & Environment: Providing incentives to support renewable energy. Reported by Committee on Finance

MAJORITY recommendation: Do pass as amended by Committee on Finance and without the amendment by the Committee on Technology, Energy & Communications:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that the use of renewable energy resources generated from local sources such as solar and wind power benefit our state by reducing the load on the state's electric energy grid, by providing nonpolluting sources of electricity generation, and by the creation of jobs for local industries that develop and sell renewable energy products and technologies.

The legislature finds that Washington state has become a national and international leader in the technologies related to the solar electric markets. The state can support these industries by providing incentives for the purchase of locally made renewable energy products. Locally made renewable technologies benefit and protect the state's environment. The legislature also finds that the state's economy can be enhanced through the creation of incentives to develop additional renewable energy industries in the state.

The legislature intends to provide incentives for the greater use of locally created renewable energy technologies, support and retain existing local industries, and create new opportunities for renewable energy industries to develop in Washington state.

NEW SECTION. Sec. 2. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Customer-generated electricity" means the alternating current electricity that is generated from a renewable energy system located on an individual's, businesses', or local government's real property that is also provided electricity generated by a light and power business. A system located on a leasehold interest does not qualify under this definition. "Customer-generated electricity" does not include electricity generated by a light and power business with greater than one thousand megawatt hours of annual sales or a gas distribution business.

(2) "Economic development kilowatt-hour" means the actual kilowatt-hour measurement of customer-generated electricity multiplied by the appropriate economic development factor.

(3) "Photovoltaic cell" means a device that converts light directly into electricity without moving parts.

(4) "Renewable energy system" means a solar energy system, an anaerobic digester as defined in RCW 82.08.900, or a wind generator used for producing electricity.

(5) "Solar energy system" means any device or combination of devices or elements that rely upon direct sunlight as an energy source for use in the generation of electricity.

(6) "Solar inverter" means the device used to convert direct current to alternating current in a photovoltaic cell system.

(7) "Solar module" means the smallest nondivisible self-contained physical structure housing interconnected photovoltaic cells and providing a single direct current electrical output.

(8) "Standards for interconnection to the electric distribution system" means technical, engineering, operational, safety, and procedural requirements for interconnection to the electric distribution system of a light and power business.
NEW SECTION. Sec. 3. (1) Any individual, business, or local governmental entity, not in the light and power business or in the gas distribution business, may apply to the light and power business serving the situs of the system, each fiscal year beginning on July 1, 2005, for an investment cost recovery incentive for each kilowatt-hour from a customer-generated electricity renewable energy system installed on its property. No incentive may be paid for kilowatt-hours generated before July 1, 2005, or after June 30, 2012.

(2)(a) Before submitting the application for the incentive allowed under this section, the applicant shall submit to the department of revenue and to the climate and rural energy development center at the Washington State University, established under RCW 28B.30.642, a certification in a form and manner prescribed by the department that includes, but is not limited to, the following information:

(i) The name and address of the applicant and location of the renewable energy system;
(ii) The applicant's tax registration number;
(iii) That the electricity produced by the applicant meets the definition of "customer-generated electricity" and that the renewable energy system produces electricity with:
   (A) Any solar inverters and solar modules manufactured in Washington state;
   (B) A wind generator powered by blades manufactured in Washington state;
   (C) A solar inverter manufactured in Washington state;
   (D) A solar module manufactured in Washington state; or
   (E) Solar or wind equipment manufactured outside of Washington state;
   (iv) That the electricity can be transformed or transmitted for entry into or operation in parallel with electricity transmission and distribution systems;
   (v) The date that the renewable energy system received its final electrical permit from the applicable local jurisdiction.

(b) Within thirty days of receipt of the certification the department of revenue shall advise the applicant in writing whether the renewable energy system qualifies for an incentive under this section. The department may consult with the climate and rural energy development center to determine eligibility for the incentive. System certifications and the information contained therein are subject to disclosure under RCW 82.32.330(3)(m).

(3)(a) By August 1st of each year application for the incentive shall be made to the light and power business serving the situs of the system by certification in a form and manner prescribed by the department that includes, but is not limited to, the following information:

(i) The name and address of the applicant and location of the renewable energy system;
(ii) The applicant's tax registration number;
(iii) The date of the letter from the department of revenue stating that the renewable energy system is eligible for the incentives under this section;
   (iv) A statement of the amount of kilowatt-hours generated by the renewable energy system in the prior fiscal year.

(b) Within sixty days of receipt of the incentive certification the light and power business serving the situs of the system shall notify the applicant in writing whether the incentive payment will be authorized or denied. The business may consult with the climate and rural energy development center to determine eligibility for the incentive payment. Incentive certifications and the information contained therein are subject to disclosure under RCW 82.32.330(3)(m).

(c)(i) Persons receiving incentive payments shall keep and preserve, for a period of five years, suitable records as may be necessary to determine the amount of incentive applied for and received. Such records shall be open for examination at any time upon notice by the light and power business that made the payment or by the department. If upon examination of any records or from other information obtained by the business or department it appears that an incentive has been paid in an amount that exceeds the correct amount of incentive payable, the business may assess against the person for the amount found to have been paid in excess of the correct amount of incentive payable and shall add thereto interest on the amount.

(ii) If it appears that the amount of incentive paid is less than the correct amount of incentive payable the business may authorize additional payment.

(4) The investment cost recovery incentive may be paid fifteen cents per economic development kilowatt-hour unless requests exceed the amount authorized for credit to the participating light and power business. For the purposes of this section, the rate paid for the investment cost recovery incentive may be multiplied by the following factors:

(a) For customer-generated electricity produced using solar modules manufactured in Washington state, two and four-tenths;
(b) For customer-generated electricity produced using a solar or a wind generator equipped with an inverter manufactured in Washington state, one and two-tenths;
(c) For customer-generated electricity produced using an anaerobic digester, or by other solar equipment or using a wind generator equipped with blades manufactured in Washington state, one; and
(d) For all other customer-generated electricity produced by wind, eight-tenths.

(5) No individual, household, business, or local governmental entity is eligible for incentives for more than two thousand dollars per year.

(6) If requests for the investment cost recovery incentive exceed the amount of funds available for credit to the participating light and power business, the incentive payments shall be reduced proportionately.

(7) The climate and rural energy development center at Washington State University energy program may establish guidelines and standards for technologies that are identified as Washington manufactured and therefore most beneficial to the state's environment.

(8) The environmental attributes of the renewable energy system belong to the applicant, and do not transfer to the state or the light and power business upon receipt of the investment cost recovery incentive.

NEW SECTION. Sec. 4. (1) Except as otherwise provided under this section, the investment cost recovery incentive payment under section 3 of this act applies only to customer-generated electricity renewable energy systems that are not interconnected to an electric distribution system.

(2) When light and power businesses serving eighty percent of the total customer load in the state adopt uniform standards for interconnection to the electric distribution system, the investment cost recovery incentive payment under section 3 of this act shall apply to both customer-generated electricity renewable energy systems that are not interconnected to an electric distribution system and to customer-generated electricity renewable energy systems that are interconnected to an electric distribution system.

(3) For the purposes of this section, uniform standards for interconnection to the electric distribution system have ninety percent of total requirements the same.

NEW SECTION. Sec. 5. (1) A light and power business shall be allowed a credit against taxes due under this chapter in an amount equal to investment cost recovery incentive payments made in any fiscal year under section 3 of this act. The credit shall be taken in a form and manner as required by the department. The credit under this section shall not exceed twenty-five one-hundredths of one percent of the businesses' taxable power sales due under RCW 82.16.020(1)(b) or twenty-five thousand dollars, whichever is greater. The credit may not exceed the tax that would otherwise be due under this chapter. Refunds shall not be granted in the place of credits. Expenditures not used to earn a credit in one fiscal year may not be used to earn a credit in subsequent years.

(2) The right to earn tax credits under this section expires June 30, 2013. Credits may not be claimed after June 30, 2014.

NEW SECTION. Sec. 6. (1) Using existing sources of information, the department shall report to the house appropriations committee, the house committee dealing with energy issues, the senate committee on ways and means, and the senate committee dealing with energy issues by December 1, 2009. The report shall measure the impacts of this act, including the total number of solar energy system manufacturing companies in the state, any change in the number of solar energy system manufacturing companies in the state, and, where relevant, the effect on job creation, the number of jobs created for Washington residents, and such other factors as the department selects.

(2) The department shall not conduct any new surveys to provide the report in subsection (1) of this section.

NEW SECTION. Sec. 7. If specific funding for the purposes of this act, referencing this act by bill or chapter number, is not provided by June 30, 2005, in the omnibus appropriations act, this act is null and void.

NEW SECTION. Sec. 8. Sections 2 through 6 of this act are each added to chapter 82.16 RCW.

NEW SECTION. Sec. 9. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect July 1, 2005.”

Correct the title.

Signed by Representatives McIntire, Hunter, Orcutt, Roach, Ahern, Conway, Ericksen, Hasegawa and Santos.

Passed to Committee on Rules for second reading.
MAJORITY recommendation: Do pass as amended by Committee on Finance and without the amendment by Committee on Technology, Energy & Communications:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that the welfare of the people of the state of Washington is positively impacted through the encouragement and expansion of key growth industries in the state. The legislature further finds that targeting tax incentives to focus on key growth industries is an important strategy to enhance the state's business climate.

A recent report by the Washington State University energy program recognized the solar electric industry as one of the state's important growth industries. It is of great concern that businesses in this industry have been increasingly expanding and relocating their operations elsewhere. The report indicates that additional incentives for the solar electric industry are needed in recognition of the unique forces and issues involved in business decisions in this industry.

Therefore, the legislature intends to enact comprehensive tax incentives for the solar electric industry that address activities of the manufacture of these products and to encourage these industries to locate in Washington. Tax incentives for the solar electric industry are important in both retention and expansion of existing business and attraction of new businesses, all of which will strengthen this growth industry within our state, will create jobs, and will bring many indirect benefits to the state.

NEW SECTION. Sec. 2. A new section is added to chapter 82.04 RCW to read as follows:

(1) Beginning October 1, 2005, upon every person engaging within this state in the business of manufacturing solar energy systems using photovoltaic modules; as to such persons the amount of tax with respect to such business shall, in the case of manufacturers, be equal to the value of the product manufactured, or in the case of processors for hire, be equal to the gross income of the business, multiplied by the rate of 0.2904 percent.

(2) Beginning October 1, 2005, upon every person engaging within this state in the business of making sales at wholesale of solar energy systems using photovoltaic modules manufactured by that person; as to such persons the amount of tax with respect to such business shall be equal to the gross proceeds of sales of the solar energy systems using photovoltaic modules multiplied by the rate of 0.2904 percent.

(3) The definitions in this subsection apply throughout this section.

(a) "Module" means the smallest nondivisible self-contained physical structure housing interconnected photovoltaic cells and providing a single direct current electrical output.

(b) "Photovoltaic cell" means a device that converts light directly into electricity without moving parts.

(c) "Solar energy system" means any device or combination of devices or elements that rely upon direct sunlight as an energy source for use in the generation of electricity.

(4) This section expires June 30, 2010.

Sec. 3. RCW 82.04.440 and 2004 c 174 s 5 and 2004 c 24 s 7 are each reenacted and amended to read as follows:

(1) Every person engaged in activities which are within the purview of the provisions of two or more of sections RCW 82.04.230 to 82.04.298, inclusive, shall be taxable under each paragraph applicable to the activities engaged in.

(2) Persons taxable under RCW 82.04.2909(2), 82.04.250, 82.04.270, section 2(2) of this act, or 82.04.260 (4) or (13) with respect to selling products in this state shall be allowed a credit against those taxes for any (a) manufacturing taxes paid with respect to the manufacturing of products so sold in this state, and/or (b) extracting taxes paid with respect to the extracting of products so sold in this state or ingredients of products so sold in this state. Extracting taxes taken as credit under subsection (3) of this section may also be taken under this subsection, if otherwise allowable under this subsection. The amount of the credit shall not exceed the tax liability arising under this chapter with respect to the sale of those products.

(3) Persons taxable under RCW 82.04.240 or 82.04.260(1)(b) shall be allowed a credit against those taxes for any extracting taxes paid with respect to extracting the ingredients of the products so manufactured in this state. The amount of the credit shall not exceed the tax liability arising under this chapter with respect to the manufacturing of those products.
(4) Persons taxable under RCW 82.04.230, 82.04.240, 82.04.2909(1), section 2(1) of this act, or 82.04.260 (1), (2), (4), (6), or (13) with respect to extracting or manufacturing products in this state shall be allowed a credit against those taxes for any (i) gross receipts taxes paid to another state with respect to the sales of the products so extracted or manufactured in this state, (ii) manufacturing taxes paid with respect to the manufacturing of products using ingredients so extracted in this state, or (iii) manufacturing taxes paid with respect to manufacturing activities completed in another state for products so manufactured in this state. The amount of the credit shall not exceed the tax liability arising under this chapter with respect to the extraction or manufacturing of those products.

(5) For the purpose of this section:
   (a) "Gross receipts tax" means a tax:
      (i) Which is imposed on or measured by the gross volume of business, in terms of gross receipts or in other terms, and in the determination of which the deductions allowed would not constitute the tax an income tax or value added tax; and
      (ii) Which is also not, pursuant to law or custom, separately stated from the sales price.
   (b) "State" means (i) the state of Washington, (ii) a state of the United States other than Washington, or any political subdivision of such other state, (iii) the District of Columbia, and (iv) any foreign country or political subdivision thereof.
   (c) "Manufacturing tax" means a gross receipts tax imposed on the act or privilege of engaging in business as a manufacturer, and includes (i) the taxes imposed in RCW 82.04.240, 82.04.2909(1), (14, and section 2(1) of this act; and (ii) similar gross receipts taxes paid to other states.
   (d) "Extracting tax" means a gross receipts tax imposed on the act or privilege of engaging in business as an extractor, and includes the tax imposed in RCW 82.04.230 and similar gross receipts taxes paid to other states.
   (e) "Business", "manufacturer", "extractor", and other terms used in this section have the meanings given in RCW 82.04.020 through 82.04.212, notwithstanding the use of those terms in the context of describing taxes imposed by other states.

NEW SECTION. Sec. 4. A new section is added to chapter 82.32 RCW to read as follows:

(1) The legislature finds that accountability and effectiveness are important aspects of setting tax policy. In order to make policy choices regarding the best use of limited state resources the legislature needs information on how a tax incentive is used.

(2)(a) A person who reports taxes under section 2 of this act shall make an annual report to the department detailing employment, wages, and employer-provided health and retirement benefits per job at the manufacturing site. The report shall not include names of employees. The report shall also detail employment by the total number of full-time, part-time, and temporary positions. The first report filed under this subsection shall include employment, wage, and benefit information for the twelve-month period immediately before first use of a preferential tax rate under section 2 of this act. The report is due by March 31st following any year in which a preferential tax rate under section 2 of this act is used. This information is not subject to the confidentiality provisions of RCW 82.32.330.

(b) If a person fails to submit an annual report under (a) of this subsection, the department shall declare the amount of taxes reduced for the previous calendar year to be immediately due and payable. Excise taxes payable under this subsection are subject to interest, but not penalties, at the rate provided for delinquent taxes, as provided under this chapter. SSB 5177 Prime Sponsor, Senate Committee On Transportation: Modifying transportation benefit district provisions. Reported by Committee on Transportation

MAJORITY recommendation: Do pass as amended:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 36.73 RCW to read as follows:
The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.
(1) "District" means a transportation benefit district created under this chapter.
(2) "City" means a city or town.
(3) "Transportation improvement" means a project contained in the transportation plan of the state or a regional transportation planning organization that is of statewide or regional significance. A project may include investment in new or existing highways of statewide significance, principal arterials of regional significance, high-capacity transportation, public transportation, and other transportation projects and programs of regional or statewide significance including transportation demand management. Projects may also include the operation, preservation, and maintenance of these facilities or programs. Not more than forty percent of the revenues generated by a district may be expended on city streets, county roads, existing highways other than highways of statewide significance, and the creation of a new highway that intersects with a highway of statewide significance.

Sec. 2. RCW 36.73.010 and 1987 c 327 s 1 are each amended to read as follows:
The legislature finds that the citizens of the state can benefit by cooperation of the public and private sectors in addressing transportation needs. This cooperation can be fostered through enhanced capability for cities, towns, and counties to make and fund transportation improvements necessitated by economic development and to improve the performance of the transportation system.

It is the intent of the legislature to encourage joint efforts by the state, local governments, and the private sector to respond to the need for those transportation improvements on state highways, county roads, and city streets. This goal can be better achieved by allowing cities, towns, and counties to establish transportation benefit districts in order to respond to the special transportation needs and economic opportunities resulting from private sector development for the public good. The legislature also seeks to facilitate the equitable participation of private developers whose developments may generate the need for those improvements in the improvement costs.

Sec. 3. RCW 36.73.020 and 1989 c 53 s 1 are each amended to read as follows:
(1) The legislative authority of a county or city may establish ((one or more)) a transportation benefit district((s)) within the county or city area or within the area specified in subsection (2) of this section, for the purpose of acquiring, constructing, improving, providing, and funding ((any city street, county road, or state highway)) a transportation improvement within the district that is ((all)) consistent with any existing state, regional, and local transportation plans and (3) partially funded by local government or private developer contributions, or a combination of such contributions). ((Such)) The transportation improvements shall be owned by the county of jurisdiction if located in an unincorporated area, by the city of jurisdiction if located in an incorporated area, or by the state in cases where the transportation improvement is or becomes a state highway(, and all such)). However, if deemed appropriate by the governing body of the transportation benefit district, a transportation improvement may be owned by a participating port district or transit district, unless otherwise prohibited by law. Transportation improvements shall be administered and maintained as other public streets, roads, and transportation improvements. ((The district may not include any area within the corporate limits of a city unless the city legislative authority has agreed to the inclusion pursuant to chapter 39.34 RCW. The agreement shall specify the area and such powers as may be granted to the benefit district.) To the extent practicable, the district shall consider the following criteria when selecting transportation improvements:

(a) Reduced risk of transportation facility failure and improved safety;
(b) Improved travel time;
(c) Improved air quality;
(d) Increases in daily and peak period trip capacity;
(e) Improved modal connectivity;
(f) Improved freight mobility;
(g) Cost-effectiveness of the investment;
(h) Optimal performance of the system through time; and
(i) Other criteria, as adopted by the governing body.

(2) The district may include area within more than one county, city, port district, county transportation authority, or public transportation benefit area, if the legislative authority of each participating jurisdiction has agreed to the inclusion as provided in an interlocal agreement adopted pursuant to chapter 39.34 RCW. However, the boundaries of the district shall include all territory within the boundaries of the participating jurisdictions comprising the district.

(3) The members of the (county) legislative authority proposing to establish the district, acting ex officio and independently, shall (constitute) constitute the governing body of the district: PROVIDED, That where a (transportation benefit) district includes (any portion of an incorporated city, town, or another county, the district may be governed as provided in an interlocal agreement adopted pursuant to chapter 39.34 RCW) area within more than one jurisdiction under subsection (2) of this section, the district shall be governed under an interlocal agreement adopted pursuant to chapter 39.34 RCW. However, the governing body shall be composed of at least five members including at least one elected official from the legislative authority of each participating jurisdiction.

(4) The (county) treasurer of the jurisdiction proposing to establish the district shall act as the ex officio treasurer of the district, unless an interlocal agreement states otherwise.

(5) The electors of the district shall all be registered voters residing within the district. ((For purposes of this section, the term "city" means both cities and towns.))

Sec. 4. RCW 36.73.040 and 1989 c 53 s 3 are each amended to read as follows:

(1) A transportation benefit district is a quasi-municipal corporation, an independent taxing "authority" within the meaning of Article VII, section 1 of the state Constitution, and a "taxing district" within the meaning of Article VII, section 2 of the state Constitution.

(2) A transportation benefit district constitutes a body corporate and possesses all the usual powers of a corporation for public purposes as well as all other powers that may now or hereafter be specifically conferred by statute, including, but not limited to, the authority to hire employees, staff, and services, to enter into contracts, to acquire, hold, and dispose of real and personal property, and to sue and be sued. Public works contract limits applicable to the jurisdiction that established the district ((shall)) apply to the district.

(3) To carry out the purposes of this chapter, and subject to the provisions of section 17 of this act, a district is authorized to impose the following taxes, fees, charges, and tolls:

(a) A sales and use tax in accordance with section 15 of this act;
(b) A vehicle fee in accordance with section 16 of this act;
(c) A fee or charge in accordance with RCW 36.73.120. However, if a county or city within the district area is levying a fee or charge for a transportation improvement, the fee or charge shall be credited against the amount of the fee or charge imposed by the district. Developments consisting of less than twenty residences are exempt from the fee or charge under RCW 36.73.120; and

(d) Vehicle tolls on state routes or federal highways, city streets, or county roads, within the boundaries of the district, unless otherwise prohibited by law. The department of transportation shall administer the collection of vehicle tolls authorized on state routes or federal highways, unless otherwise specified in law or by contract, and the state transportation commission, or its successor, may approve, set, and impose the tolls in amounts sufficient to implement the district's transportation improvement finance plan. The district shall administer the collection of vehicle tolls authorized on city streets or county roads, and shall set and impose, only with approval of the transportation commission, or its successor, the tolls in amounts sufficient to implement the district's transportation improvement plan.

Sec. 5. RCW 36.73.050 and 1987 c 327 s 5 are each amended to read as follows:

(1) (A city or county) The legislative (authority) authorities proposing to establish a (transportation benefit) district, or to modify the boundaries of an existing district, or to dissolve an existing district((i)) shall conduct a hearing at the time and place specified in a notice published at least once, not less than ten days before the hearing, in a newspaper of general circulation within the proposed district. Subject to the provisions of section 19 of this act, the legislative (authority) authorities shall make provision for a district to be automatically dissolved when all indebtedness of the district has been retired and anticipated responsibilities have been satisfied. This notice shall be in addition to any other notice required by law to be published. The notice shall, where applicable, specify the functions or activities proposed to be provided or funded, or the additional functions or activities proposed to be provided or funded, by the district. Additional notice of the hearing may be given by mail, by posting within the proposed district, or in any manner the (city or county) legislative (authority of authorities) deem necessary to notify affected persons. All hearings shall be public and the (city or county) legislative (authority) authorities shall hear objections from any person affected by the formation, modification of the boundaries, or dissolution of the district.

(2) Following the hearing held pursuant to subsection (1) of this section, the (city or county) legislative (authority) may establish a (transportation benefit) district, modify the boundaries or functions of an existing district, or dissolve an existing district, if the (city or county) legislative (authority of authorities) find the action to be in the public interest and (adopts) adopt an ordinance providing for the action. The ordinance establishing a district shall specify the functions or activities to be exercised or funded and establish the boundaries of the district. (A district shall include only those areas which can reasonably be expected to benefit from improvements to be funded by the district.) Subject to the provisions of section 18 of this act, functions or activities proposed to be provided or funded by the district may not be expanded beyond those specified in the notice of hearing, unless additional notices are made, further hearings on the expansion are held, and further determinations are made that it is in the public interest to so expand the functions or activities proposed to be provided or funded.

(3) At any time before the city or county legislative authority establishes a transportation benefit district pursuant to this section, all further proceedings shall be terminated upon the filing of a verified declaration of termination signed by the owners of real property consisting of at least sixty percent of the assessed valuation in the proposed district.

A district may additionally issue general obligation bonds for capital purposes only, together with any outstanding general obligation indebtedness, not to exceed an amount equal to ((one and one fourth)) five percent of the value of the taxable property within the district, as the term "value of taxable property" is defined in RCW 39.36.015, when authorized by the voters of the district pursuant to Article VIII, section 6 of the state Constitution.

MAJORITY recommendation: Do pass as amended by Committee on Capital Budget and without amendment by Committee on Economic Development, Agriculture & Trade:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 43.330 RCW to read as follows:

(1) The economic development strategic reserve account is created in the state treasury to be used only for the purposes of this section."
(2) The governor, with the consent of the public works board, may authorize expenditures from the account, subject to appropriation by the legislature. For the purposes of this section, "consent of the public works board" means the public works board must either approve the expenditure or take no action approving or disapproving the expenditure after holding a meeting on the subject. If the public works board disapproves an expenditure, the governor may not fund a project using funds from the economic development strategic reserve account.

(3) Funding for a minimum of one full-time equivalent staff position for the economic development commission and to cover any other operational costs of the commission may be provided only through an operating appropriation to the account.

(4) Expenditures from the account may be made to prevent closure of a business or facility, to prevent relocation of a business or facility in the state to a location outside the state, or to recruit a business or facility to the state. Contingent on the funding of the account, expenditures may be authorized for:

(a) Work force development;
(b) Public infrastructure needed to support or sustain the operations of the business or facility; and
(c) Other lawfully provided assistance, including, but not limited to, technical assistance, environmental analysis, relocation assistance, and planning assistance. Funding may be provided for such assistance only when it is in the public interest and may be provided under a contractual arrangement ensuring that the state will receive appropriate consideration, such as an assurance of job creation or retention.

(5) The funds shall not be expended from the account unless:

(a) The circumstances are such that time does not permit the director of the department of community, trade, and economic development or the business or facility to secure funding from other state sources;
(b) The business or facility produces or will produce significant long-term economic benefits to the state, a region of the state, or a particular community in the state;
(c) The business or facility does not require continuing state support;
(d) The expenditure will result in new jobs, job retention, or higher incomes for citizens of the state;
(e) The expenditure will not supplant private investment; and
(f) The expenditure is accompanied by private investment.

**Sec. 2.** RCW 43.155.050 and 2001 c 131 s 2 are each amended to read as follows:

The public works assistance account is hereby established in the state treasury. Money may be placed in the public works assistance account from the proceeds of bonds when authorized by the legislature or from any other lawful source. Money in the public works assistance account shall be used to make loans and to give financial guarantees to local governments for public works projects. Moneys in the account may also be appropriated to provide for state match requirements under federal law for projects and activities conducted and financed by the board under the drinking water assistance account. Not more than fifteen percent of the biennial capital budget appropriation to the public works board from this account may be expended or obligated for preconstruction loans, emergency loans, or loans for capital facility planning under this chapter; of this amount, not more than ten percent of the biennial capital budget appropriation may be expended for emergency loans and not more than one percent of the biennial capital budget appropriation may be expended for capital facility planning loans. In addition to other appropriations, beginning July 1, 2007, and continuing until June 30, 2011, ten million dollars from the public works assistance account will be appropriated each biennium to the economic development strategic reserve account to be used for public infrastructure expenditures only.

**NEW SECTION. Sec. 3.** If this act and Engrossed Substitute House Bill No. 1903 both pass the legislature, no more than $50 million in total per biennium may be appropriated from the public works assistance account for the purposes of both this act and Engrossed Substitute House Bill No. 1903."

MAJORITY recommendation: Do pass as amended:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that:

(1) The early years mark the most extraordinary period of growth for young children. The state's role in providing access to early learning opportunities has never been consistently defined;
(2) More than a quarter of a century has passed since the current school finance system was first created, and the challenges facing our schools and students have grown and changed dramatically during that time. Policies have been established creating new expectations and goals for students under education reform;

(3) Demographic pressures and work force needs will continue to increase demand for access to postsecondary education and training. Public two-year and four-year institutions of higher education are also important avenues for programs such as adult basic education and English as a second language that are the foundation for employment and further education for an increasing number of people. Washington ranks thirty-third in the nation in the number of bachelor's degrees earned per one thousand residents ages twenty through twenty-nine years, and will graduate the largest high school class in its history in 2008. Washington citizens deserve access to baccalaureate degree opportunities. Washington's public universities and colleges engage in research that contributes to the economic and social well-being of the state. Students have paid an increasing cost of their education with tuition growing faster than personal income or inflation; and

(4) Through a comprehensive study, the legislature will have solid information to determine how best to use its resources to create a strong education system that will provide an educated citizenry and a thriving economy in this state.

NEW SECTION. Sec. 2. (1) The comprehensive education study steering committee is created.
(2) Members of the steering committee shall include: The governor who shall chair the steering committee; the director of the office of financial management; two members from the house of representatives with one appointed by each major caucus; two members from the senate with one appointed by each major caucus; four citizens appointed by the governor; and the chairs of each of the three advisory committees created under subsection (3) of this section. The chair of the advisory committee on K-12 shall be the superintendent of public instruction. The chair of the advisory committee on early learning shall be the nongovernmental cochair of the Washington early learning council, created in Engrossed Second Substitute House Bill No. 1152. The chair of the advisory committee on higher education shall be selected by the governor from a list of three or more names submitted by the state board for community and technical colleges, the higher education coordinating board, and the council of presidents.

(3) The steering committee shall appoint the members of the advisory committee on K-12 and the advisory committee on higher education. In addition, the two major caucuses in the senate and the two major caucuses in the house of representatives shall each appoint one member to serve on the K-12 advisory committee and one member to serve on the higher education advisory committee. The Washington early learning council, created in Engrossed Second Substitute House Bill No. 1152, shall serve as the advisory committee on early learning.

(4) The steering committee shall receive staff and logistical support from the office of financial management.

(5) Nonlegislative members of the steering committee shall be reimbursed for travel expenses under RCW 43.03.050 and 43.03.060.

NEW SECTION. Sec. 3. (1) The steering committee:
(a) Shall direct and coordinate the studies created in this section. In conducting the studies, consideration shall be given to recently completed, related finance studies, with particular attention to those initiated by or completed at the request of the legislature;
(b) May enter into contracts as needed to support the work of the study;
(c) Shall develop recommendations based on the work of the studies in this section; and
(d) Shall develop recommendations about how the state can best provide stable funding for student learning for young children, students in the public schools, and students in the public colleges and universities.

(2) A comprehensive K-12 finance study shall include, but not be limited to:
(a) The constitutional and legal requirements underlying the current finance system and how those requirements are affected by the goal under education reform to provide all students with the opportunity to achieve the state standards;
(b) The strengths and weaknesses of the current state and local finance formulas and how those formulas are used by local school districts to meet state requirements and student learning goals;
(c) Information regarding remediation particularly in the subject areas of mathematics, science, and language arts;
(d) Potential changes to the current finance system including the methods of allocating funds, levels of funding, and how student achievement is affected;
(e) Reviewing the funding systems in at least five other states;
(f) Specific issues facing schools: Assuring program accountability; improving effectiveness in state-level governance; identifying efficiencies in district spending practices; providing programs that assist students in meeting standards; helping students stay in school; impacts of the certification requirements for teachers; improving the effectiveness of English language learner instruction; and appropriate preparation requirements for paraeducators;
(g) Local and regional funding challenges faced by individual school districts throughout the state; and
(h) Potential changes to the current salary system that would be more closely related to professional development and enhancement of student performance.

(3) A comprehensive study of early learning shall include, but not be limited to:

(h) Identifying incentives to optimize research conducted by public universities and colleges that has the potential to stimulate the economy and address economic and social issues relevant to Washington citizens;
(i) Options for using existing capacity in independent colleges and universities;
(j) A review of higher education governance as it relates to fiscal policy for higher education; and
(k) Options for coordinating capital and operating appropriations.

(5) The steering committee shall provide interim reports to the appropriate fiscal and policy committees of the senate and the house of representatives by November 15, 2005, and June 16, 2006. These interim reports shall document ongoing work to-date, initial findings, and next steps. The November 15, 2005, interim report may recommend possible action items for consideration in the 2006 legislative session.

ESSB 5470
Prime Sponsor, Senate Committee on Health & Long-Term Care: Allowing the importation of certain prescription drugs from nondomestic wholesalers. Reported by Committee on Appropriations

MAJORITY recommendation: Do pass as amended:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that as consumers' prescription drug costs continue to rise, people across the state of Washington are seeking opportunities to purchase lower cost prescription drugs from Canada, the United Kingdom, Ireland, and other countries for their personal use. The state has a strong interest in promoting the safe use of prescription drugs by consumers in Washington state. To address this interest, the legislature intends to seek authorization from the federal government to license Canadian, United Kingdom, Irish, and other nondomestic prescription drug wholesalers, thereby providing licensed retail pharmacies the opportunity to purchase prescription drugs from approved wholesalers and pass those savings on to consumers, and providing consumers the opportunity to purchase prescription drugs from a trusted community pharmacist who is aware of all of their prescription drug needs.

NEW SECTION. Sec. 2. A new section is added to chapter 18.64 RCW to read as follows:

(1) By September 1, 2005, the board shall, in consultation with the department and the health care authority, submit a waiver request to the federal food and drug administration that will authorize the state of Washington to license Canadian, United Kingdom, Irish, and other nondomestic prescription drug wholesalers under RCW 18.64.046, thereby providing retail pharmacies licensed in Washington state the opportunity to purchase prescription drugs from approved wholesalers and pass those savings on to consumers. The waiver shall provide that:

(a) Canadian, United Kingdom, Irish, and other nondomestic prescription drug wholesalers meet the requirements of RCW 18.64.046 and any rules adopted by the board to implement those requirements;

(b) The board must ensure the integrity of the prescription drug products being distributed by:

(i) Requiring that prescription drugs purchased from Canadian, United Kingdom, Irish, and other nondomestic wholesalers originate only from approved manufacturing locations;

(ii) Routinely testing prescription drugs purchased from Canadian, United Kingdom, Irish, and other nondomestic wholesalers for safety;

(iii) Establishing safe labeling, tracking, and shipping procedures for prescription drugs purchased from Canadian, United Kingdom, Irish, and other nondomestic wholesalers; and

(iv) Closely monitoring compliance with RCW 18.64.046 and any rules adopted to implement the waiver;

(c) The prescription drugs purchased from Canadian, United Kingdom, Irish, and other nondomestic wholesalers must be limited to those for which potential savings to consumers can be demonstrated and those available through purchase by individuals only at licensed retail pharmacies;

(d) To ensure that the program benefits those consumers without insurance coverage for prescription drugs who are most in need of price relief, prescription drug purchases from pharmacies under the waiver will be limited to those not eligible for reimbursement by third party insurance coverage, whether public or private, for the particular drug being purchased; and

(e) Savings associated with purchasing prescription drugs from Canadian, United Kingdom, Irish, and other nondomestic wholesalers will be passed on to consumers.

(2) Upon approval of the federal waiver submitted in accordance with subsection (1) of this section, the board, in consultation with the department and the health care authority, shall submit a detailed implementation plan to the governor and appropriate committees of the legislature that details the mechanisms that the board will use to implement each component of the waiver under subsection (1) of this section.

(3) The board shall adopt rules as necessary to implement this act.

NEW SECTION. Sec. 3. If any part of this act is found to be in conflict with federal requirements that are a prescribed condition to the allocation of federal funds to the state, the conflicting part of this act is inoperative solely to the extent of the conflict and with respect to the agencies directly affected, and this finding does not affect the operation of the remainder of this
act in its application to the agencies concerned. Rules adopted under this act must meet federal requirements that are a necessary condition to the receipt of federal funds by the state."

ESB 5513 Prime Sponsor, Senator Haugen: Restructuring certain transportation agencies. Reported by Committee on Transportation

MAJORITY recommendation: Do pass as amended:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that it is in the interest of the state to restructure the roles and responsibilities of the state's transportation agencies in order to improve efficiency and accountability. The legislature also finds that continued citizen oversight of performance of the state's transportation system remains an important priority. To achieve these purposes, the legislature intends to provide direct accountability of the department of transportation to the governor, in his or her role as chief executive officer of state government, by making the secretary of transportation a cabinet-level official. Additionally, it is essential to clearly delineate between the separate and distinct roles and responsibilities of the executive and legislative branches of government. The role of executive is to oversee the implementation of transportation programs, while the
legislature reserves to itself the role of policy making. Finally, consolidating public outreach and auditing of the state's transportation agencies under a single citizen-governed entity, the transportation accountability commission, will provide the public with information about the performance of the transportation system and an avenue for direct participation in its oversight.

Service on the commission shall not be considered as service credit for the purposes of any public retirement system.

(4) Each member of the commission shall disclose any actual or potential conflict of interest, if applicable under the circumstance, regarding any commission business.

Wherever appropriate the policies shall provide for the use of integrated, intermodal transportation systems to implement the social, economic, and environmental policies, goals, and objectives of the people of the state, and especially to conserve nonrenewable natural resources including land and energy. To this end the commission shall:

(a) Develop transportation policies which are based on the policies, goals, and objectives expressed and inherent in existing state laws;

(b) Inventory the adopted policies, goals, and objectives of the local and area-wide governmental bodies of the state and define the role of the state, regional, and local governments in determining transportation policies, in transportation planning, and in implementing the state transportation plan;

(c) Propose a transportation policy for the state ((and after notice and public hearings, submit the proposal to the legislative transportation committee and the senate and house transportation committees by January 1, 1978, for consideration in the next legislative session));

(d) Establish a procedure for review and revision of the state transportation policy and for submission of proposed changes to the governor and the legislature;

(e) To integrate the statewide transportation plan with the needs of the elderly and handicapped, and to coordinate federal and state programs directed at assisting local governments to answer such needs;

(2) To establish the policy of the department to be followed by the secretary on each of the following items:

(a) To provide for the effective coordination of state transportation planning with national transportation policy, state and local land use policies, and local and regional transportation plans and programs;

(b) To provide for public involvement in transportation designed to elicit the public's views both with respect to adequate transportation services and appropriate means of minimizing adverse social, economic, environmental, and energy impact of transportation programs;

(c) To provide for the administration of grants in aid and other financial assistance to counties and municipal corporations for transportation purposes;

(d) To provide for the management, sale, and lease of property or property rights owned by the department which are not required for transportation purposes);

(3) To ((direct the secretary to) prepare (and submit to the commission)) a comprehensive and balanced statewide transportation plan which shall be based on the transportation policy adopted by the legislature and applicable state and federal laws. ((After public notice and hearings, the commission shall adopt the plan and submit it to the legislative transportation committee and to the house and senate standing committees on transportation before January 1, 1980, for consideration in the 1980 regular legislative session.)) The plan shall be reviewed and revised, and submitted to the governor and the house of representatives and senate standing committees on transportation, prior to each regular session of the legislature during an even-numbered year thereafter. ((A preliminary plan shall be submitted to such committees by January 1, 1979.))

The plan shall take into account federal law and regulations relating to the planning, construction, and operation of transportation facilities;

(4) To propose to the governor and the legislature prior to the convening of each regular session held in an odd-numbered year a recommended budget for the operations of the commission as required by RCW 47.01.061;
Sec. 7. RCW 47.01.101 and 1987 c 505 s 48 and 1987 c 179 s 1 are each reenacted and amended to read as follows:

The secretary shall have the authority and it shall be his or her duty, subject to policy guidance from the commission, to:

1. Serve as chief executive officer of the department with full administrative authority to direct all its activities;
2. Organize the department as he or she may deem necessary to carry out the work and responsibilities of the department effectively;
3. Designate and establish such transportation district or branch offices as may be necessary or convenient, and to appoint assistants and delegate any powers, duties, and functions to them or any officer or employee of the department as deemed necessary to administer the department efficiently;
4. Direct and coordinate the programs of the various divisions of the department to assure that they achieve the greatest possible mutual benefit, produce a balanced overall effort, and eliminate unnecessary duplication of activity;
5. Adopt all department rules that are subject to the adoption procedures contained in the state administrative procedure act, except rules subject to adoption by the commission pursuant to statute;
6. Maintain and safeguard the official records of the department, including the commission's recorded resolutions and orders;
7. Provide, under contract or interagency agreement, full staff support to the commission to assist it in carrying out its functions, powers, and duties; and execute the policy established by the commission pursuant to its legislative authority;
8. Execute and implement the biennial operating budget for the operation of the department in accordance with chapter 43.88 RCW and with legislative appropriation, and, in such manner as prescribed therein, to make and report to the commission and the chairs of the transportation committees of the senate and house of representatives, including one copy to the staff of each of the committees, deviations from the planned biennial category A and II highway construction programs necessary to adjust to unexpected delays or other unanticipated circumstances;
9. Approve the issuance and sale of all bonds authorized by the legislature for capital construction of state highways, toll facilities, Columbia Basin county roads (for which reimbursement to the motor vehicle fund has been provided), urban arterial projects, and aviation facilities;
10. Advise the governor and the legislature with respect to matters under the jurisdiction of the department; and
11. Exercise all other powers and perform all other duties as are now or hereafter provided by law.

Sec. 8. RCW 47.05.021 and 2002 c 56 s 301 are each amended to read as follows:

1. The department shall conduct periodic analyses of the entire state highway system, report to the commission and the chairs of the transportation committees of the senate and house of representatives, including one copy to the staff of each of the committees, biennially and based thereon, any subsequent recommendations to subdivide, classify, and subclassify (according to their function and importance) all designated state highways (and those added from time to time and periodically review and revise the classifications) into the following three functional classes:
   a. The "principal arterial system" shall consist of a connected network of rural arterial routes with appropriate extensions into and through urban areas, including all routes designated as part of the interstate system, which serve corridor movements having travel characteristics indicative of substantial statewide and interstate travel;
(b) The "minor arterial system" shall, in conjunction with the principal arterial system, form a rural network of arterial routes linking cities and other activity centers which generate long distance travel, and, with appropriate extensions into and through urban areas, form an integrated network providing interstate and interregional service; and

(c) The "collector system" shall consist of routes which primarily serve the more important intercounty, intracounty, and intraurban travel corridors, collect traffic from the system of local access roads and convey it to the arterial system, and on which, regardless of traffic volume, the predominant travel distances are shorter than on arterial routes.

(2) (In making the functional classification) The transportation commission shall adopt (and) a functional classification of highways. The commission shall consider the recommendations of the department and testimony from the public and local municipalities. The commission shall give consideration to criteria consistent with this section and federal regulations relating to the functional classification of highways, including but not limited to the following:

(a) Urban population centers within and without the state stratified and ranked according to size;

(b) Important traffic generating economic activities, including but not limited to recreation, agriculture, government, business, and industry;

(c) Feasibility of the route, including availability of alternate routes within and without the state;

(d) Directness of travel and distance between points of economic importance;

(e) Length of trips;

(f) Character and volume of traffic;

(g) Preferential consideration for multiple service which shall include public transportation;

(h) Reasonable spacing depending upon population density; and

(i) System continuity.

(3) The transportation commission or the legislature shall designate state highways of statewide significance under RCW 47.06.140. If the commission designates a state highway of statewide significance, it shall submit a list of such facilities for adoption by the legislature. This statewide system shall include at a minimum interstate highways and other statewide principal arterials that are needed to connect major communities across the state and support the state's economy.

(4) The transportation commission shall designate a freight and goods transportation system. This statewide system shall include state highways, county roads, and city streets. The commission, in cooperation with cities and counties, shall review and make recommendations to the legislature regarding policies governing weight restrictions and road closures which affect the transportation of freight and goods.

Sec. 9. RCW 47.05.030 and 2002 c 5 s 402 are each amended to read as follows:

The transportation commission shall adopt a comprehensive ((six-year)) ten-year investment program specifying program objectives and performance measures for the preservation and improvement programs defined in this section. The adopted ten-year investment program must be forwarded as a recommendation to the governor and legislature for final adoption. In the specification of investment program objectives and performance measures, the transportation commission, in consultation with the Washington state department of transportation, shall define and adopt standards for effective programming and prioritization practices including a needs analysis process. The analysis process must ensure the identification of problems and deficiencies, the evaluation of alternative solutions and trade-offs, and estimations of the costs and benefits of prospective projects. The investment program must be revised ((biennially, effective on July 1st of odd numbered years)) based on directions by the office of financial management. The investment program must be based upon the needs identified in the state-owned highway component of the statewide transportation plan as defined in RCW 47.01.071(3).

(1) The preservation program consists of those investments necessary to preserve the existing state highway system and to restore existing safety features, giving consideration to lowest life cycle costing. The preservation program must require use of the most cost-effective pavement surfaces, considering:

(a) Life-cycle cost analysis;

(b) Traffic volume;

(c) Subgrade soil conditions;

(d) Environmental and weather conditions;

(e) Materials available; and

(f) Construction factors.

The comprehensive ((six-year)) ten-year investment program for preservation must identify projects for two years and an investment plan for the remaining ((four)) eight years.

(2) The improvement program consists of investments needed to address identified deficiencies on the state highway system to increase mobility, address congestion, and improve safety, support for the economy, and protection of the environment. The ((six-year)) ten-year investment program for improvements must identify projects for two years and major
deficiencies proposed to be addressed in the ((six-year)) ten-year period giving consideration to relative benefits and life cycle costing. The transportation commission shall give higher priority for correcting identified deficiencies on those facilities classified as facilities of statewide significance as defined in RCW 47.06.140. Project prioritization must be based primarily upon cost-benefit analysis, where appropriate.

The transportation commission shall approve and present the comprehensive ((six-year)) ten-year investment program to the governor and the legislature ((in support of the biennial budget request under RCW 44.40.070 and 44.40.080)) as directed by the office of financial management.

Sec. 10. RCW 47.05.035 and 2002 c 5 s 403 are each amended to read as follows:

(1) The department ((and the commission)) shall use the transportation demand modeling tools developed under subsection (2) of this section to evaluate investments based on the best mode or improvement, or mix of modes and improvements, to meet current and future long-term demand within a corridor or system for the lowest cost. The end result of these demand modeling tools is to provide a cost-benefit analysis by which the department ((and the commission)) can determine the relative mobility improvement and congestion relief each mode or improvement under consideration will provide and the relative investment each mode or improvement under consideration will need to achieve that relief.

(2) The department will participate in the refinement, enhancement, and application of existing transportation demand modeling tools to be used to evaluate investments. This participation and use of transportation demand modeling tools will be phased in.

(3) In developing program objectives and performance measures, the ((transportation commission)) department shall evaluate investment trade-offs between the preservation and improvement programs. In making these investment trade-offs, the ((commission)) department shall evaluate, using cost-benefit techniques, roadway and bridge maintenance activities as compared to roadway and bridge preservation program activities and adjust those programs accordingly.

(4) The ((commission)) department shall allocate the estimated revenue between preservation and improvement programs giving primary consideration to the following factors:

(a) The relative needs in each of the programs and the system performance levels that can be achieved by meeting these needs;
(b) The need to provide adequate funding for preservation to protect the state's investment in its existing highway system;
(c) The continuity of future transportation development with those improvements previously programmed; and
(d) The availability of dedicated funds for a specific type of work.

(5) The commission shall review the results of the department's findings and shall consider those findings in the development of the ten-year program.

Sec. 11. RCW 47.05.051 and 2002 c 189 s 3 are each amended to read as follows:

(1) The comprehensive ((six-year)) ten-year investment program shall be based upon the needs identified in the state-owned highway component of the statewide multimodal transportation plan as defined in RCW 47.01.071(3) and priority selection systems that incorporate the following criteria:

(a) Priority programming for the preservation program shall take into account the following, not necessarily in order of importance:

(i) Extending the service life of the existing highway system, including using the most cost-effective pavement surfaces, considering:
(A) Life-cycle cost analysis;
(B) Traffic volume;
(C) Subgrade soil conditions;
(D) Environmental and weather conditions;
(E) Materials available; and
(F) Construction factors;
(ii) Ensuring the structural ability to carry loads imposed upon highways and bridges; and
(iii) Minimizing life cycle costs. The transportation commission in carrying out the provisions of this section may delegate to the department of transportation the authority to select preservation projects to be included in the ((six-year)) ten-year program.

(b) Priority programming for the improvement program must be based primarily upon the following, not necessarily in order of importance:

(i) Traffic congestion, delay, and accidents;
...
(ii) Location within a heavily traveled transportation corridor;
(iii) Except for projects in cities having a population of less than five thousand persons, synchronization with other potential transportation projects, including transit and multimodal projects, within the heavily traveled corridor; and
(iv) Use of benefit/cost analysis wherever feasible to determine the value of the proposed project.
(c) Priority programming for the improvement program may also take into account:
(i) Support for the state's economy, including job creation and job preservation;
(ii) The cost-effective movement of people and goods;
(iii) Accident and accident risk reduction;
(iv) Protection of the state's natural environment;
(v) Continuity and systematic development of the highway transportation network;
(vi) Consistency with local comprehensive plans developed under chapter 36.70A RCW including the following if they have been included in the comprehensive plan:
   (A) Support for development in and revitalization of existing downtowns;
   (B) Extent that development implements local comprehensive plans for rural and urban residential and nonresidential densities;
   (C) Extent of compact, transit-oriented development for rural and urban residential and nonresidential densities;
   (D) Opportunities for multimodal transportation; and
   (E) Extent to which the project accommodates planned growth and economic development;
   (vii) Consistency with regional transportation plans developed under chapter 47.80 RCW;
   (viii) Public views concerning proposed improvements;
   (ix) The conservation of energy resources;
   (x) Feasibility of financing the full proposed improvement;
   (xi) Commitments established in previous legislative sessions;
   (xii) Relative costs and benefits of candidate programs.
(d) Major projects addressing capacity deficiencies which prioritize allowing for preliminary engineering shall be reprioritized during the succeeding biennium, based upon updated project data. Reprioritized projects may be delayed or canceled by the transportation commission if higher priority projects are awaiting funding.
(e) Major project approvals which significantly increase a project's scope or cost from original prioritization estimates shall include a review of the project's estimated revised priority rank and the level of funding provided. Projects may be delayed or canceled by the transportation commission if higher priority projects are awaiting funding.
(2) After final adoption of the ten-year investment program by the legislature, the commission may depart from the priority programming established under subsection (1) of this section: (a) To the extent that otherwise funds cannot be utilized feasibly within the program; (b) as may be required by a court judgment, legally binding agreement, or state and federal laws and regulations; (c) as may be required to coordinate with federal, local, or other state agency construction projects; (d) to take advantage of some substantial financial benefit that may be available; (e) for continuity of route development; or (f) because of changed financial or physical conditions of an unforeseen or emergent nature. The commission or secretary of transportation shall maintain in its files information sufficient to show the extent to which the commission has departed from the established priority.
(3) The commission shall identify those projects that yield freight mobility benefits or that alleviate the impacts of freight mobility upon affected communities.

Joint Transportation Committee

NEW SECTION. Sec. 12. The joint transportation committee is created. The executive committee of the joint committee consists of the chairs and ranking members of the house and senate transportation committees. The chairs of the house and senate transportation committees shall serve as cochairs of the joint committee. All members of the house and senate standing committees on transportation are eligible for membership of the joint committee and shall serve when appointed by the executive committee.

The joint transportation committee shall review and research transportation programs and issues. All four members of the executive committee shall approve the annual work plan. Membership of the committee may vary depending on the subject matter of oversight and research projects. The committee may also make recommendations for functional or performance audits to the transportation accountability commission.

Staff support of the joint transportation committee will be provided by the staffs of the house and senate transportation committees.
NEW SECTION. Sec. 13. The members of the joint transportation committee and the house and senate transportation committees will receive allowances while attending meetings of the committees or subcommittees and while engaged in other authorized business of the committees as provided in RCW 44.04.120. Subject to RCW 44.04.260, all expenses incurred by the committee, and the house and senate transportation committees must be paid upon voucher forms as provided by the office of financial management and signed by the cochairs of the joint committee, or their authorized designees, and the authority of the chair or vice chair to sign vouchers continues until their successors are selected. Vouchers may be drawn upon funds appropriated for the expenses of the committee.

NEW SECTION. Sec. 14. The joint transportation committee shall conduct a review of state level governance of transportation, with a focus on the appropriate roles of the separate branches of government. The committee shall review the statutory duties, roles, and functions of the transportation commission and the department. In that review the committee shall determine which responsibilities may be transferred to the executive and which may be transferred to the legislature. By December 15, 2005, the joint transportation committee shall make its recommendations to the house and senate transportation committees. The joint transportation committee shall consult with affected agencies and other stakeholders in conducting its analysis. The committee may consult with and retain private professional and technical experts as necessary to ensure an independent review and analysis.

Transfers

NEW SECTION. Sec. 15. (1)(a) All reports, documents, surveys, books, records, files, papers, or written material relating to the conduct of performance reviews and audits in the possession of the legislative transportation committee must be delivered to the custody of the transportation accountability commission. Any remaining documents, books, records, files, papers, and written materials must be delivered to the custody of the joint transportation committee. All funds, credits, or other assets held by the legislative transportation committee for the purposes of staffing the transportation performance audit board are assigned to the transportation accountability commission. Any remaining funds, credits, or other assets held by the legislative transportation committee are assigned to the joint transportation committee.

(b) If any question arises as to the transfer of any funds, books, documents, records, papers, files, equipment, or other tangible property used or held in the exercise of the powers and the performance of the duties and functions transferred, the director of financial management shall make a determination as to the proper allocation and certify the same to the state agencies concerned.

(2) All employees of the legislative transportation committee are transferred to the jurisdiction of the transportation accountability commission.

(3) All existing contracts and obligations remain in full force and must be performed by the transportation accountability commission.

Transportation Accountability Commission

Sec. 16. RCW 44.75.010 and 2003 c 362 s 1 are each amended to read as follows:

It is essential that the legislature improve the accountability and efficiency of transportation-related agencies and measure transportation system performance against benchmarks established in chapter 5, Laws of 2002. Taxpayers must know that their tax dollars are being well spent to deliver critically needed transportation projects and services. To accomplish this, the transportation accountability commission is created and a system of transportation functional and performance audits is established to provide oversight and accountability of transportation-related agencies. Furthermore, the transportation accountability commission will provide a public forum for the citizens of the state to contribute to the formation of state transportation policy.

Sec. 17. RCW 44.75.020 and 2003 c 362 s 2 are each amended to read as follows:

The definitions in this section apply throughout this chapter.

(2) "Joint legislative audit and review committee" means the agency created in chapter 44.28 RCW, or its statutory successor.

(3) "Legislative auditor" has the meaning contained in chapter 44.28 RCW.

(4) "Legislative transportation committee" means the agency created in chapter 44.40 RCW, or its statutory successor.

(5) "Performance audit" has the meaning contained in chapter 44.28 RCW.

Sec. 18. RCW 44.75.030 and 2003 c 362 s 3 are each amended to read as follows:

(1) The transportation (performance audit board) accountability commission is created.

(2) The (board) commission will consist of four legislative members, three citizen members with transportation-related expertise, three citizen members with performance measurement expertise, and one ex officio nonvoting member, and one at large member. The legislative auditor is the ex officio nonvoting member. The majority and minority leaders of the house and senate transportation committees, or their designees, are the legislative members. The governor shall appoint the at large member to serve for a term of four years. The citizen members must be appointed by the governor for terms of four years, except that at least half the initial appointments will be for terms of two years. The citizen members may not be currently, or within one year, employed by the Washington state department of transportation. The (citizen members will consist of) governor, when appointing the citizen members with transportation-related expertise, may consult with appropriate professional associations and shall consider the following transportation-related experiences:

(a) Construction project planning, including permitting and assuring regulatory compliance;
(b) Construction means and methods and construction management, crafting and implementing environmental mitigation plans, and administration;

(e) Transportation planning and congestion management.

(3) The governor may not remove citizen members from the (board) commission before the expiration of their terms unless for cause based upon a determination of incapacity, incompetence, neglect of duty, or malfeasance in office by the Thurston county superior court, upon petition and show cause proceedings brought for that purpose in that court and directed to the (board member) commissioner in question.

(4) No member may be appointed for more than three consecutive terms.

Sec. 19. RCW 44.75.040 and 2003 c 362 s 4 are each amended to read as follows:

(1) The (board) commission shall meet periodically. It may adopt its own rules and may establish its own procedures. It shall act collectively in harmony with recorded resolutions or motions adopted by a majority vote of the members.

(2) Each member of the (transportation performance audit board) commission will be compensated (from the general appropriation for the legislative transportation committee) in accordance with RCW 43.03.250 and reimbursed for actual necessary traveling and other expenses in going to, attending, and returning from meetings of the (board) commission or that are incurred in the discharge of duties requested by the chair. The legislative evaluation and accountability program will provide data and information technology support consistent with the support currently supplied to existing legislative committees. The commission may appoint an administrative secretary and may from time to time retain consultants and other technical personnel to advise it in the performance of its duties.

(5) Each member of the commission shall disclose any actual or potential conflict of interest, if applicable under the circumstances, regarding all performance reviews and performance audits conducted under this chapter.

NEW SECTION. Sec. 20. A new section is added to chapter 47.-- RCW (new chapter created in section 149 of this act) to read as follows:

(1) The transportation accountability commission shall provide a public forum for the development of transportation policy in Washington state. It may recommend to the secretary of transportation, the governor, and the legislature means for obtaining appropriate citizen and professional involvement in transportation accountability policy formulation. It may further hold hearings and explore ways to enhance the accountability of transportation programs.

(2) Every two years, in coordination with the development of the state biennial budget, the commission shall prepare the statewide transportation accountability progress report that evaluates progress towards transportation performance goals and outlines the transportation priorities of the ensuing biennium. The report must:
   (a) Consider the citizen input gathered at the forums;
   (b) Consider the results of performance measure reviews and performance audits performed in the two-year period leading up to that review;
   (c) Be developed with the assistance of transportation-related agencies and organizations;
   (d) Be considered by the secretary of transportation and other state transportation-related agencies in preparing proposed agency budgets and executive request legislation;
   (e) Be submitted by the commission to the governor and the legislature by October 1st of each even-numbered year.

(3) In fulfilling its responsibilities under this section, the commission may create ad hoc committees or other such committees of limited duration as necessary.

Sec. 21. RCW 44.75.050 and 2003 c 362 s 5 are each amended to read as follows:

(1) The transportation accountability commission may review the performance and outcome measures of transportation-related agencies. The purpose of these reviews is to ensure that the governor and the legislature has the means to adequately and accurately assess the performance and outcomes of those agencies and departments. Where two or more agencies have shared responsibility for functions or priorities of government, these reviews can also determine whether effective interagency cooperation and collaboration occurs in areas such as program coordination, administrative structures, information systems, and administration of grants and loans.

(2) The commission shall, as soon as practicable, conduct a review of the comprehensive ten-year investment program process, including the required criteria, under RCW 47.05.030 and 47.05.051.

(3) In conducting these reviews, the transportation accountability commission may work in consultation with the (legislative transportation committee, the) joint legislative audit and review committee, the office of financial management, and other state agencies.

Sec. 22. RCW 44.75.060 and 2003 c 362 s 6 are each amended to read as follows:

The performance and outcome measures and benchmarks of each agency or department may be reviewed at the discretion of the transportation accountability commission. In setting the schedule and the extent of performance reviews, the commission shall consider the timing and results of other recent state, federal, and independent reviews and audits, the seriousness of past findings, any inadequate remedial action taken by an agency or department, whether an agency or department lacks performance and outcome measures, and the desirability to include a diverse range of agencies or programs each year.

Sec. 23. RCW 44.75.080 and 2003 c 362 s 8 are each amended to read as follows:

After reviewing the performance or outcome measures and benchmarks of an agency or department, or at any time it so determines, the transportation accountability audit board shall recommend to the executive committee of the legislative transportation committee whether a full performance or functional audit of the agency or department, or a specific program within the agency or department, is appropriate. Upon the request of the legislative transportation committee or its executive committee, the joint legislative audit and review committee shall add the full performance or functional audit to its biennial performance audit work plan. If the request duplicates or overlaps audits already in the work plan,
or was performed under the previous biennial work plan, the executive committees of the legislative transportation committee and the joint legislative audit and review committee shall meet to discuss and resolve the duplication or overlap).

Sec. 24. RCW 44.75.090 and 2003 c 362 s 9 are each amended to read as follows:
((44))) To the greatest extent possible, (or when requested by the executive committee of the legislative transportation committee) and to the extent funds are appropriated, the (legislative auditor) commission administrator shall, subject to commission approval, contract with and consult with private independent professional and technical experts to optimize the independence of the reviews and performance audits. In determining the need to contract with private experts, the (legislative auditor) commission administrator shall consider the degree of difficulty of the review or audit, the relative cost of contracting for expertise, and the need to maintain auditor independence from the subject agency or program. The commission administrator may, subject to commission approval, contract with the legislative auditor to serve as the contract manager of the reviews and performance audits.

((2)) After consultation with the executive committee of the legislative transportation committee on the appropriateness of costs, the legislative transportation committee shall reimburse the joint legislative audit and review committee or the legislative auditor for the costs of carrying out any requested performance audits, including the cost of contracts and consultant services.

(3) The executive committee of the legislative transportation committee must review and approve the methodology for performance audits recommended by the transportation performance audit board.

Sec. 25. RCW 44.75.100 and 2003 c 362 s 10 are each amended to read as follows:
(1) When the commission has completed a performance audit, the commission shall transmit the preliminary performance audit report to the affected state agency or local government and the office of financial management for comment. The agency or local government and the office of financial management shall provide any response to the commission within thirty days after receipt of the preliminary report unless a different time period is approved by the commission. The commission shall incorporate the response of the agency or local government and the office of financial management into the final performance audit report. The commission may also include an addendum with commission comments on the management of the audit.

(2) Before releasing the results of a performance audit originally requested by the joint transportation committee to the legislature or the public, the commission administrator shall submit the preliminary performance audit report to the joint committee for review and comments solely on the management of the audit. Any comments by the joint committee must be included as a separate addendum to the final performance audit report. However, the commission administrator is not required to submit the preliminary performance audit report if the legislative auditor submits it under RCW 44.28.088.

(3) Completed performance audits must be presented to the (transportation performance audit board and the legislative transportation committee) commission. Published performance audits must be made available to the public through the legislative transportation committee and the joint legislative audit and review committee's commission's web site and through customary public communications. Final reports must also be transmitted to the affected agency, the director of financial management, and the appropriate policy and fiscal standing committees of the legislature.

Sec. 26. RCW 44.75.110 and 2003 c 362 s 11 are each amended to read as follows:

The standards and policies shall:

(a) Establish criteria to identify projects which are subject to this section. Such criteria shall include, but not be limited to, significant anticipated cost, complexity, or statewide significance of the project; and

(b) Establish a model process and procedures which agencies shall follow in developing and implementing projects within their information technology portfolios. Agencies may propose, for approval by the department, a process and procedures unique to the agency. The department may accept or require modification of such agency proposals or the department may reject such agency proposals and require use of the model process and procedures established under this subsection. Any process and procedures developed under this subsection shall require (i) distinct and identifiable phases upon which funding may be based, (ii) user validation of products through system demonstrations and testing of prototypes and deliverables, and (iii) other elements identified by the board.

The director may terminate a major project if the director determines that the project is not meeting or is not expected to meet anticipated performance standards.

(a) Funding of a project under terms and conditions mutually agreed to by the director, the director of financial management, and the head of the agency proposing the project. However, the office of financial management may require incremental funding of a project on a phase-by-phase basis whereby funds for a given phase of a project may be released only when the office of financial management determines, with the advice of the department, that the previous phase is satisfactorily completed;

(b) Acceptance testing of products to assure that products perform satisfactorily before they are accepted and final payment is made; and

(c) Other elements deemed necessary by the office of financial management.

(3) The department shall evaluate projects based on the demonstrated business needs and benefits; cost; technology scope and feasibility; impact on the agency's information technology portfolio and on the statewide infrastructure; and final project implementation plan based upon available funding.

Copies of project evaluations conducted under this subsection shall be submitted to the office of financial management and the chairs, ranking minority members, and staff coordinators of the appropriations committees of the senate and house of representatives.

If there are projects that receive funding from a transportation fund or account, copies of those projects' evaluations conducted under this subsection must be submitted, during the legislative session, to the chairs and ranking minority members of the transportation committees of the senate and the house of representatives. (During the legislative interim, the project evaluations must be submitted to the legislative transportation committee.)

Sec. 124. RCW 47.04.210 and 2001 2nd sp.s c 14 s 601 are each amended to read as follows:

Federal funds that are administered by the department of transportation and are passed through to municipal corporations or political subdivisions of the state and moneys that are received as total reimbursement for goods, services, or projects constructed by the department of transportation are removed from the transportation budget. To process and account for these expenditures a new treasury trust account is created to be used for all department of transportation one hundred percent federal and local reimbursable transportation expenditures. This new account is nonbudgeted and nonappropriated. At the same time, federal and private local appropriations and full-time equivalents in subprograms R2, R3, T6, Y6, and Z2 processed through this new account are removed from the department of transportation's 1997-99 budget.

The department of transportation may make expenditures from the account before receiving federal and local reimbursements. However, at the end of each biennium, the account must maintain a zero or positive cash balance. In the twenty-fourth month of each biennium the department of transportation shall calculate and transfer sufficient cash from either the motor vehicle fund or the multimodal transportation account to cover any negative cash balances. The amount transferred is calculated based on expenditures from each fund. In addition, any interest charges accruing to the new account must be distributed to the motor vehicle fund and the multimodal transportation account.

The department of transportation shall provide an annual report to the senate and house transportation committees and the office of financial management on expenditures and full-time equivalents processed through the new account. The report must also include recommendations for process changes, if needed.

Sec. 125. RCW 47.04.220 and 2001 2nd sp.s c 14 s 602 are each amended to read as follows:

1. The miscellaneous transportation programs account is created in the custody of the state treasurer.

2. Moneys from the account may be used only for the costs of:
   a. Miscellaneous transportation services provided by the department that are reimbursed by other public and private entities;
   b. Local transportation projects for which the department is a conduit for federal reimbursement to a municipal corporation or political subdivision; or
   c. Other reimbursable activities as recommended by the senate and house transportation committees and approved by the office of financial management.

3. Moneys received as reimbursement for expenditures under subsection (2) of this section must be deposited into the account.

4. No appropriation is required for expenditures from this account. This fund is not subject to allotment procedures provided under chapter 43.88 RCW.

5. Only the secretary of transportation or the secretary's designee may authorize expenditures from the account.
(6) It is the intent of the legislature that this account maintain a zero or positive cash balance at the end of each biennium. Toward this purpose the department may make expenditures from the account before receiving reimbursements under subsection (2) of this section. Before the end of the biennium, the department shall transfer sufficient cash to cover any negative cash balances from the motor vehicle fund and the multimodal transportation account to the miscellaneous transportation programs account for unrecovered reimbursements. The department shall calculate the distribution of this transfer based on expenditures. In the ensuing biennium the department shall transfer the reimbursements received in the miscellaneous transportation programs account back to the motor vehicle fund and the multimodal transportation account to the extent of the cash transferred at biennium end. The department shall also distribute any interest charges accruing to the miscellaneous transportation programs account to the motor vehicle fund and the multimodal transportation account. Adjustments for any indirect cost recoveries may also be made at this time.

(7) The department shall provide an annual report to the ((legislative)) senate and house transportation committee and the office of financial management on the expenditures and full-time equivalents processed through the miscellaneous transportation programs account. The report must also include recommendations for changes to the process, if needed.

Sec. 126. RCW 47.06.110 and 1996 c 186 s 512 are each amended to read as follows:

The state-interest component of the statewide multimodal transportation plan shall include a state public transportation plan that:

2. Identifies the goals for public transit and the roles of federal, state, regional, and local entities in achieving those goals;
3. Recommends mechanisms for coordinating state, regional, and local planning for public transportation;
4. Recommends mechanisms for coordinating public transportation with other transportation services and modes;
5. Recommends criteria, consistent with the goals identified in subsection (2) of this section and with RCW 82.44.180 (2) and (3), for existing federal authorizations administered by the department to transit agencies; and
6. Recommends a statewide public transportation facilities and equipment management system as required by federal law.

In developing the state public transportation plan, the department shall involve local jurisdictions, public and private providers of transportation services, nonmotorized interests, and state agencies with an interest in public transportation, including but not limited to the departments of community, trade, and economic development, social and health services, and ecology, the office of the superintendent of public instruction, the office of the governor, and the office of financial management.

The department shall submit (an initial report) to the ((legislative)) senate and house transportation committee by December 1, 1993, and shall provide annual reports summarizing the plan's progress (each year thereafter).

Sec. 127. RCW 47.06A.020 and 1999 c 216 s 1 are each amended to read as follows:

1. The board shall:
   a. Adopt rules and procedures necessary to implement the freight mobility strategic investment program;
   b. Solicit from public entities proposed projects that meet eligibility criteria established in accordance with subsection (4) of this section; and
   c. Review and evaluate project applications based on criteria established under this section, and prioritize and select projects comprising a portfolio to be funded in part with grants from state funds appropriated for the freight mobility strategic investment program. In determining the appropriate level of state funding for a project, the board shall ensure that state funds are allocated to leverage the greatest amount of partnership funding possible. After selecting projects comprising the portfolio, the board shall submit them as part of its budget request to the office of financial management and the legislature. The board shall ensure that projects submitted as part of the portfolio are not more appropriately funded with other federal, state, or local government funding mechanisms or programs. The board shall reject those projects that appear to improve overall general mobility with limited enhancement for freight mobility.

   The board shall provide periodic progress reports on its activities to the office of financial management and the ((legislative)) senate and house transportation committee.

2. The board may:
   a. Accept from any state or federal agency, loans or grants for the financing of any transportation project and enter into agreements with any such agency concerning the loans or grants;
   b. Provide technical assistance to project applicants;
(c) Accept any gifts, grants, or loans of funds, property, or financial, or other aid in any form from any other source on any terms and conditions which are not in conflict with this chapter;
(d) Adopt rules under chapter 34.05 RCW as necessary to carry out the purposes of this chapter; and
(e) Do all things necessary or convenient to carry out the powers expressly granted or implied under this chapter.

(3) The board shall designate strategic freight corridors within the state. The board shall update the list of designated strategic corridors not less than every two years, and shall establish a method of collecting and verifying data, including information on city and county-owned roadways.

(4) (From June 11, 1998, through the biennium ending June 30, 2001.) The board shall utilize threshold project eligibility criteria that, at a minimum, includes the following:
(a) The project must be on a strategic freight corridor;
(b) The project must meet one of the following conditions:
(i) It is primarily aimed at reducing identified barriers to freight movement with only incidental benefits to general or personal mobility; or
(ii) It is primarily aimed at increasing capacity for the movement of freight with only incidental benefits to general or personal mobility; or
(iii) It is primarily aimed at mitigating the impact on communities of increasing freight movement, including roadway/railway conflicts; and
(c) The project must have a total public benefit/total public cost ratio of equal to or greater than one.

(5) From June 11, 1998, through the biennium ending June 30, 2001, the board shall use the multicriteria analysis and scoring framework for evaluating and ranking eligible freight mobility and freight mitigation projects developed by the freight mobility project prioritization committee and contained in the January 16, 1998, report entitled "Project Eligibility, Priority and Selection Process for a Strategic Freight Investment Program." The prioritization process shall measure the degree to which projects address important program objectives and shall generate a project score that reflects a project's priority compared to other projects. The board shall assign scoring points to each criterion that indicate the relative importance of the criterion in the overall determination of project priority. After June 30, 2001, the board may supplement and refine the initial project priority criteria and scoring framework developed by the freight mobility project prioritization committee as expertise and experience is gained in administering the freight mobility program.

(6) It is the intent of the legislature that each freight mobility project contained in the project portfolio submitted by the board utilize the greatest amount of nonstate funding possible. The board shall adopt rules that give preference to projects that contain the greatest levels of financial participation from nonprogram fund sources. The board shall consider twenty percent as the minimum partnership contribution, but shall also ensure that there are provisions allowing exceptions for projects that are located in areas where minimal local funding participation exists, or where the magnitude of the project makes the adopted partnership contribution financially unfeasible.

(7) The board shall develop and recommend policies that address operational improvements that primarily benefit and enhance freight movement, including, but not limited to, policies that reduce congestion in truck lanes at border crossings and weigh stations and provide for access to ports during nonpeak hours.

Upon request being made by the department of transportation ((commission)), the state finance committee shall supervise and provide for the issuance, sale, and retirement of the bonds authorized by RCW 47.10.801 in accordance with chapter 39.42 RCW. The amount of such bonds issued and sold under RCW 47.10.801 through 47.10.809 in any biennium may not exceed the amount of a specific appropriation therefor. Such bonds may be sold from time to time in such amounts as may be necessary for the orderly progress of the state highway improvements specified in RCW 47.10.801. The amount of bonds issued and sold under RCW 47.10.801(1)(a) in any biennium shall not, except as provided in that section, exceed the amount required to match federal-aid interstate funds available to the state of Washington. (The transportation commission shall give notice of its intent to sell bonds to the legislative transportation committee before requesting the state finance committee to issue and sell bonds authorized by RCW 47.10.801(1)(a)). The bonds shall be sold in such manner, at such time or times, in such amounts, and at such price or prices as the state finance committee shall determine. The state finance committee may obtain insurance, letters of credit, or other credit facility devices with respect to the bonds and may authorize the execution and delivery of agreements, promissory notes, and other obligations for the purpose of insuring the payment or enhancing the marketability of the bonds. Promissory notes or other obligations issued under this section shall not constitute a debt or the contracting of indebtedness under any constitutional or statutory indebtedness limitation if their payment is conditioned upon the failure of the state to pay the principal of or interest on the bonds with respect to which the promissory notes or other obligations relate. The
state finance committee may authorize the issuance of short-term obligations in lieu of long-term obligations for the purposes of more favorable interest rates, lower total interest costs, and increased marketability and for the purposes of retiring the bonds during the life of the project for which they were issued.

**Sec. 131.** RCW 47.10.843 and 1998 c 321 s 16 are each amended to read as follows:

In order to provide funds necessary for the location, design, right of way, and construction of state and local highway improvements, there shall be issued and sold upon the request of the department a maximum of one billion nine hundred million dollars of general obligation bonds of the state of Washington.

**Sec. 132.** RCW 47.10.844 and 1998 c 321 s 17 are each amended to read as follows:

Bonds authorized by RCW 47.10.843 through 47.10.848 shall be sold in such manner, at such time or times, in such amounts, and at such price as the state finance committee shall determine. No such bonds may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds.

The state finance committee shall consider the issuance of short-term obligations in lieu of long-term obligations for the purposes of more favorable interest rates, lower total interest costs, and increased marketability and for the purpose of retiring the bonds during the life of the project for which they were issued.

The department may enter into agreements with the state finance committee for financing the acquisition, by purchase or condemnation, of real property together with engineering costs that the department deems will be necessary for the improvement of the state highway system. Such agreements may provide for the acquisition of an individual parcel or for the acquisition of any number of parcels within the limits of a contemplated highway project.

**Sec. 134.** RCW 47.12.220 and 1977 ex.s. c 151 s 56 are each amended to read as follows:

Each such agreement shall include, but shall not be limited to the following:

2. A designation of the specific fund or funds to be used to carry out such agreement;

3. A provision that the department may redeem warrants purchased by the state finance committee at any time prior to the letting of a highway improvement contract utilizing the property; and further, during the effective period of each such agreement the department shall redeem such warrants whenever such a highway improvement contract is let, or upon the expiration of such agreement, whichever date is earlier;

4. A provision stating the rate of interest such warrants shall bear commencing at the time of purchase by the state finance committee;

5. Any additional provisions agreed upon by the department and the state finance committee which are necessary to carry out the purposes of such agreement as indicated by RCW 47.12.180 through 47.12.240, as now or hereafter amended.

**Sec. 135.** RCW 47.12.242 and 1991 c 291 s 1 are each amended to read as follows:

The term "advance right of way acquisition" means the acquisition of property and property rights, generally not more than ten years in advance of programmed highway construction projects, together with the engineering costs necessary for such advance right of way acquisition. Any property or property rights purchased must be in designated highway transportation corridors and be for projects approved as part of the state's ten-year plan or included in the state's route development planning effort.

**Sec. 136.** RCW 47.12.330 and 1998 c 181 s 2 are each amended to read as follows:

The term "advanced environmental mitigation" means mitigation of adverse impacts upon the environment from transportation projects before their design and construction. Advanced environmental mitigation consists of the acquisition of property; the acquisition of property, water, or air rights; the development of property for the purposes of improved environmental management; engineering costs...
necessary for such purchase and development; and the use of advanced environmental mitigation sites to fulfill project environmental permit requirements. Advanced environmental mitigation must be conducted in a manner that is consistent with the definition of mitigation found in the council of environmental quality regulations (40 C.F.R. Sec. 1508.20) and the governor's executive order on wetlands (EO 90-04). Advanced environmental mitigation is for projects approved by the transportation commission as part of the state's (six-year) ten-year plan or included in the state highway system plan. Advanced environmental mitigation must give consideration to activities related to fish passage, fish habitat, wetlands, and flood management. Advanced environmental mitigation may also be conducted in partnership with federal, state, or local government agencies, tribal governments, interest groups, or private parties. Partnership arrangements may include joint acquisition and development of mitigation sites, purchasing and selling mitigation bank credits among participants, and transfer of mitigation site title from one party to another. Specific conditions of partnership arrangements will be developed in written agreements for each applicable environmental mitigation site.

Sec. 137. RCW 47.17.850 and 1984 c 7 s 139 are each amended to read as follows:

A state highway to be known as state route number 906 is established as follows:

Beginning at a junction with state route number 90 at the West Summit interchange of Snoqualmie Pass, thence along the alignment of the state route number 90 as it existed on May 11, 1967, in a southeasterly direction to a junction with state route number 90 at the Hyak interchange.

(The legislative transportation committee, the house and senate transportation committees, and the department shall undertake appropriate studies to evaluate state route number 906 to determine whether or not it should permanently remain on the state system.)

Sec. 138. RCW 47.26.167 and 1991 c 342 s 62 are each amended to read as follows:

The legislature recognizes the need for a multijurisdictional body to review future requests for jurisdictional transfers. The board is hereby directed, beginning September 1, 1991, to receive petitions from cities, counties, or the state requesting any addition or deletion from the state highway system. The board is required to utilize the criteria established in RCW 47.17.001 in evaluating petitions and to adopt rules for implementation of this process. The board shall forward to the (legislative) senate and house transportation committees by November 15 each year any recommended jurisdictional transfers.

Sec. 139. RCW 47.26.170 and 1994 c 179 s 16 are each amended to read as follows:

Each county having within its boundaries an urban area and cities and towns shall prepare and submit to the transportation improvement board arterial inventory data required to determine the long-range arterial construction needs. The counties, cities, and towns shall revise the arterial inventory data every four years to show the current arterial construction needs through the advanced planning period, and as revised shall submit them to the transportation improvement board during the first week of January every four years beginning in 1996. The inventory data shall be prepared pursuant to guidelines established by the transportation improvement board. As information is updated, it shall be made available to the commission (and the legislative transportation committee).

Sec. 140. RCW 47.46.030 and 2002 c 114 s 3 are each amended to read as follows:

(1) The secretary or a designee shall solicit proposals from, and negotiate and enter into agreements with, private entities to undertake as appropriate, together with the department and other public entities, all or a portion of the study, planning, design, construction, operation, and maintenance of transportation systems and facilities, using in whole or in part public or private sources of financing.

The public-private initiatives program may develop up to six demonstration projects. Each proposal shall be weighed on its own merits, and each of the six agreements shall be negotiated individually, and as a stand-alone project.

(2) If project proposals selected prior to September 1, 1994, are terminated by the public or private sectors, the department shall not select any new projects, including project proposals submitted to the department prior to September 1, 1994, and designated by the transportation commission as placeholder projects, after June 16, 1995, until June 30, 1997.

The department, in consultation with the legislative transportation committee, shall conduct a program and fiscal audit of the public-private initiatives program for the biennium ending June 30, 1997. The department shall submit a progress report to the legislative transportation committee on the program and fiscal audit by June 30, 1996, with preliminary and final audit reports due December 1, 1996, and June 30, 1997, respectively.

The department shall develop and submit a proposed public involvement plan to the 1997 legislature to identify the process for selecting new potential projects and the associated costs of implementing the plan. The legislature must adopt the public involvement plan before the department may proceed with any activity related to project identification and selection.
Following legislative adoption of the public involvement plan, the department is authorized to implement the plan and to identify potential new projects.

The public involvement plan for projects selected after June 30, 1997, shall, at a minimum, identify projects that: (a) Have the potential of achieving overall public support among users of the projects, residents of communities in the vicinity of the projects, and residents of communities impacted by the projects; (b) meet a state transportation need; (c) provide a significant state benefit; and (d) provide competition among proposers and maximum cost benefits to users. Prospective projects may include projects identified by the department or submitted by the private sector.

Projects that meet the minimum criteria established under this section and the requirements of the public involvement plan developed by the department and approved by the legislature shall be submitted to the Washington state transportation commission for its review. (The commission, in turn, shall submit a list of eligible projects to the legislative transportation committee for its consideration.) Forty-five days after the submission to the legislative transportation committee of the list of eligible projects, the secretary is authorized to solicit proposals for the eligible project.

3 Prior to entering into agreements with private entities under the requirements of RCW 47.46.040 for any project proposal selected before September 1, 1994, or after June 30, 1997, except as provided for in subsections (a) and (b) of this section, the department shall require an advisory vote as provided under subsections (5) through (9) of this section.

4 The advisory vote shall apply to project proposals selected prior to September 1, 1994, or after June 30, 1997, that receive public opposition as demonstrated by the submission to the department of original petitions bearing at least five thousand signatures of individuals opposing the project collected and submitted in accordance with the dates established in subsections (a) and (b) of this section. The advisory vote shall be on the preferred alternative identified under the requirements of chapter 43.21C RCW and, if applicable, the national environmental policy act, 42 U.S.C. 4321 et seq. The execution by the department of the advisory vote process established in this section is subject to the prior appropriation of funds by the legislature for the purpose of conducting environmental impact studies, a public involvement program, local involvement committee activities, traffic and economic impact analyses, engineering and technical studies, and the advisory vote.

5 In preparing for the advisory vote, the department shall conduct a comprehensive analysis of traffic patterns and economic impact to define the geographical boundary of the project area that is affected by the imposition of tolls or user fees authorized under this chapter. The area so defined is referred to in this section as the affected project area. In defining the affected project area, the department shall, at a minimum, undertake: (a) A comparison of the estimated percentage of residents of communities in the vicinity of the project and in other communities impacted by the project who could be subject to tolls or user fees and the estimated percentage of other users and traffic that could be subject to tolls or user fees; (b) an analysis of the anticipated traffic diversion patterns; (c) an analysis of the potential economic impact resulting from proposed toll rates or user fee rates imposed on residents, commercial traffic, and commercial entities in communities in the vicinity of and impacted by the project; (d) an analysis of the economic impact of tolls or user fees on the price of goods and services generally; and (e) an analysis of the relationship of the project to state transportation needs and benefits.

6(a) After determining the definition of the affected project area, the department shall establish a committee comprised of individuals who represent cities and counties in the affected project area; organizations formed to support or oppose the project; and users of the project. The committee shall be named the public-private local involvement committee, and be known as the local involvement committee.

(b) The members of the local involvement committee shall be: (i) An elected official from each city within the affected project area; (ii) an elected official from each county within the affected project area; (iii) two persons from each county within the affected project area who represent an organization formed in support of the project, if the organization exists; (iv) two persons from each county within the affected project area who represent an organization formed to oppose the project, if the organization exists; and (v) four public members active in a statewide transportation organization. If the committee makeup results in an even number of committee members, there shall be an additional appointment of an elected official from the county in which all, or the greatest portion of the project is located.

(c) City and county elected officials shall be appointed by a majority of the members of the city or county legislative authorities of each city or county within the affected project area, respectively. The county legislative authority of each county within the affected project area shall identify and validate organizations officially formed in support of or in opposition to the project and shall make the appointments required under this section from a list submitted by the chair of the organizations. Public members shall be appointed by the governor. All appointments to the local involvement committee shall be made and submitted to the department of transportation no later than January 1, 1996, for projects selected prior to September 1, 1994, and no later than thirty days after the affected project area is defined for projects selected after June 30, 1997. Vacancies in the membership of the local involvement committee shall be filled by the appointing authority under (b)(i) through (v) of this subsection for each position on the committee.
(d) The local involvement committee shall serve in an advisory capacity to the department on all matters related to the execution of the advisory vote.

(e) Members of the local involvement committee serve without compensation and may not receive subsistence, lodging expenses, or travel expenses.

(7) The department shall conduct a minimum thirty-day public comment period on the definition of the geographical boundary of the project area. The department, in consultation with the local involvement committee, shall make adjustments, if required, to the definition of the geographical boundary of the affected project area, based on comments received from the public. Within fourteen calendar days after the public comment period, the department shall set the boundaries of the affected project area in units no smaller than a precinct as defined in RCW 29A.04.121.

(8) The department, in consultation with the local involvement committee, shall develop a description for selected project proposals. After developing the description of the project proposal, the department shall publish the project proposal description in newspapers of general circulation for seven calendar days in the affected project area. Within fourteen calendar days after the last day of the publication of the project proposal description, the department shall transmit a copy of the map depicting the affected project area and the description of the project proposal to the county auditor of the county in which any portion of the affected project area is located.

(9) The department shall provide the legislative transportation committee with progress reports on the status of the definition of the affected project area and the description of the project proposal.

(10) Upon receipt of the map and the description of the project proposal, the county auditor shall, within thirty days, verify the precincts that are located within the affected project area. The county auditor shall prepare the text identifying and describing the affected project area and the project proposal using the definition of the geographical boundary of the affected project area and the project description submitted by the department and shall set an election date for the submission of a ballot proposition authorizing the imposition of tolls or user fees to implement the proposed project within the affected project area, which date may be the next succeeding general election to be held in the state, or at a special election, if requested by the department. The text of the project proposal must appear in a voter's pamphlet for the affected project area. The department shall pay the costs of publication and distribution. The special election date must be the next date for a special election provided under RCW 29A.04.330, that is at least sixty days but, if authorized under RCW 29A.04.330, no more than ninety days after the receipt of the final map and project description by the auditor. The department shall pay the cost of an election held under this section.

(10) Notwithstanding any other provision of law, the department may contract with a private developer of a selected project proposal to conduct environmental impact studies, a public involvement program, and engineering and technical studies funded by the legislature. For projects subject to this subsection, the department shall not enter into an agreement under RCW 47.46.040 prior to the advisory vote on the preferred alternative.

(11) Subsections (5) through (10) of this section shall not apply to project proposals selected prior to September 1, 1994, that have no organized public opposition as demonstrated by the submission to the department of original petitions bearing at least five thousand signatures of individuals opposing the project, collected and submitted after September 1, 1994, and by thirty calendar days after June 16, 1995.

(11) Subsections (5) through (10) of this section shall not apply to project proposals selected after June 30, 1997, that have no organized public opposition as demonstrated by the submission to the department of original petitions bearing at least five thousand signatures of individuals opposing the project, collected and submitted by ninety calendar days after project selection.

Sec. 141. RCW 47.46.040 and 2002 c 114 s 16 are each amended to read as follows:

(1) The secretary or a designee shall consult with legal, financial, and other experts within and outside state government in the negotiation and development of the agreements.

(2) Agreements may provide for private ownership of the projects during the construction period. After completion and final acceptance of each project or discrete segment thereof, the agreement may provide for state ownership of the transportation systems and facilities and lease to the private entity unless the state elects to provide for ownership of the facility by the private entity during the term of the agreement.

The state may lease each of the demonstration projects, or applicable project segments, to the private entities for operating purposes for up to fifty years.

(3) The department may exercise any power possessed by it to facilitate the development, construction, financing operation, and maintenance of transportation projects under this section. Agreements for maintenance services entered into under this section shall provide for full reimbursement for services rendered by the department or other state agencies. Agreements for police services for projects, involving state highway routes, developed under agreements shall be entered into with the
The agreement for police services shall provide that the state patrol will be reimbursed for costs on a comparable basis with the costs incurred for comparable service on other state highway routes. The department may provide services for which it is reimbursed, including but not limited to preliminary planning, environmental certification, and preliminary design of the demonstration projects.

(4) The plans and specifications for each project constructed under this section shall comply with the department's standards for state projects. A facility constructed by and leased to a private entity is deemed to be a part of the state highway system for purposes of identification, maintenance, and enforcement of traffic laws and for the purposes of applicable sections of this title. Upon reversion of the facility to the state, the project must meet all applicable state standards. Agreements shall address responsibility for reconstruction or renovations that are required in order for a facility to meet all applicable state standards upon reversion of the facility to the state.

(5) For the purpose of facilitating these projects and to assist the private entity in the financing, development, construction, and operation of the transportation systems and facilities, the agreements may include provisions for the department to exercise its authority, including the lease of facilities, rights of way, and airspace, exercise of the power of eminent domain, granting of development rights and opportunities, granting of necessary easements and rights of access, issuance of permits and other authorizations, protection from competition, remedies in the event of default of either of the parties, granting of contractual and real property rights, liability during construction and the term of the lease, authority to negotiate acquisition of rights of way in excess of appraised value, and any other provision deemed necessary by the secretary.

(6) The agreements entered into under this section may include provisions authorizing the state to grant necessary easements and lease to a private entity existing rights of way or rights of way subsequently acquired with public or private financing. The agreements may also include provisions to lease to the entity airspace above or below the right of way associated or to be associated with the private entity's transportation facility. In consideration for the reversion rights in these privately constructed facilities, the department may negotiate a charge for the lease of airspace rights during the term of the agreement for a period not to exceed fifty years. If, after the expiration of this period, the department continues to lease these airspace rights to the private entity, it shall do so only at fair market value. The agreement may also provide the private entity the right of first refusal to undertake projects utilizing airspace owned by the state in the vicinity of the public-private project.

(7) Agreements under this section may include any contractual provision that is necessary to protect the project revenues required to repay the costs incurred to study, plan, design, finance, acquire, build, install, operate, enforce laws, and maintain toll highways, bridges, and tunnels and which will not unreasonably inhibit or prohibit the development of additional public transportation systems and facilities. Agreements under this section must secure and maintain liability insurance coverage in amounts appropriate to protect the project's viability and may address state indemnification of the private entity for design and construction liability where the state has approved relevant design and construction plans.

(8) Agreements entered into under this section shall include a process that provides for public involvement in decision making with respect to the development of the projects.

(9)(a) In carrying out the public involvement process required in subsection (8) of this section, the private entity shall proactively seek public participation through a process appropriate to the characteristics of the project that assesses and demonstrates public support among: Users of the project, residents of communities in the vicinity of the project, and residents of communities impacted by the project.

(b) The private entity shall conduct a comprehensive public involvement process that provides, periodically throughout the development and implementation of the project, users and residents of communities in the affected project area an opportunity to comment upon key issues regarding the project including, but not limited to: (i) Alternative sizes and scopes; (ii) design; (iii) environmental assessment; (iv) right of way and access plans; (v) traffic impacts; (vi) tolling or user fee strategies and tolling or user fee ranges; (vii) project cost; (viii) construction impacts; (ix) facility operation; and (x) any other salient characteristics.

(c) If the affected project area has not been defined, the private entity shall define the affected project area by conducting, at a minimum: (i) A comparison of the estimated percentage of residents of communities in the vicinity of the project and in other communities impacted by the project who could be subject to tolls or user fees and the estimated percentage of other users and transient traffic that could be subject to tolls or user fees; (ii) an analysis of the anticipated traffic diversion patterns; (iii) an analysis of the potential economic impact resulting from proposed toll rates or user fee rates imposed on residents, commercial traffic, and commercial entities in communities in the vicinity of and impacted by the project; (iv) an analysis of the economic impact of tolls or user fees on the price of goods and services generally; and (v) an analysis of the relationship of the project to state transportation needs and benefits.

The agreement may require an advisory vote by users of and residents in the affected project area.

(d) In seeking public participation, the private entity shall establish a local involvement committee or committees comprised of residents of the affected project area, individuals who represent cities and counties in the affected project area,
organizations formed to support or oppose the project, if such organizations exist, and users of the project. The private entity shall, at a minimum, establish a committee as required under the specifications of RCW 47.46.030(6)(b) (ii) and (iii) and appointments to such committee shall be made no later than thirty days after the project area is defined.

(e) Local involvement committees shall act in an advisory capacity to the department and the private entity on all issues related to the development and implementation of the public involvement process established under this section.

(f) The department and the private entity shall provide the local involvement committees with progress reports on the status of the public involvement process including the results of an advisory vote, if any occurs.

(10) Nothing in this chapter limits the right of the secretary and his or her agents to render such advice and to make such recommendations as they deem to be in the best interests of the state and the public.

Sec. 142. RCW 79A.05.125 and 1999 c 301 s 3 are each amended to read as follows:

(1) The department of transportation shall negotiate a franchise with a rail carrier to establish and maintain a rail line over portions of the Milwaukee Road corridor owned by the state between Ellensburg and Lind. The department of transportation may negotiate such a franchise with any qualified rail carrier. Criteria for negotiating the franchise and establishing the right of way include:

(a) Assurances that resources from the franchise will be sufficient to compensate the state for use of the property, including completion of a cross-state trail between Easton and the Idaho border;

(b) Types of payment for use of the franchise, including payment for the use of federally granted trust lands in the transportation corridor;

(c) Standards for maintenance of the line;

(d) Provisions ensuring that both the conventional and intermodal rail service needs of local shippers are met. Such accommodations may comprise agreements with the franchisee to offer or maintain adequate service or to provide service by other carriers at commercially reasonable rates;

(e) Provisions requiring the franchisee, upon reasonable request of any other rail operator, to provide rail service and interchange freight over what is commonly known as the Stampede Pass rail line from Cle Elum to Auburn at commercially reasonable rates;

(f) If any part of the franchise agreement is invalidated by actions or rulings of the federal surface transportation board or a court of competent jurisdiction, the remaining portions of the franchise agreement are not affected;

(g) Compliance with environmental standards; and

(h) Provisions for insurance and the coverage of liability.

(2) The franchise may provide for periodic review of financial arrangements under the franchise.

(3) The department of transportation, in consultation with the parks and recreation commission and the senate and house transportation committees, shall negotiate the terms of the franchise, and shall present the agreement to the parks and recreation commission for approval of as to terms and provisions affecting the cross-state trail or affecting the commission.

(4) This section expires July 1, 2006, if the department of transportation does not enter into a franchise agreement for a rail line over portions of the Milwaukee Road corridor by July 1, 2006.

Sec. 143. RCW 81.80.395 and 1988 c 138 s 1 are each amended to read as follows:

The Washington utilities and transportation commission may enter into an agreement or arrangement with a duly authorized representative of the state of Idaho, for the purpose of granting to operators of commercial vehicles that are properly registered in the state of Idaho, the privilege of operating their vehicles in this state within a designated area near the border of their state without the need for registration as required by chapter 81.80 RCW if the state of Idaho grants a similar privilege to operators of commercial vehicles from this state. The initial designated area shall be limited to state route 195 from the Idaho border to Lewiston, and SR 12 from Lewiston to Clarkston. The utilities and transportation commission shall submit other proposed reciprocal agreements in designated border areas to the legislative transportation committee for approval.

Sec. 144. RCW 81.104.110 and 1998 c 245 s 165 are each amended to read as follows:

The legislature recognizes that the planning processes described in RCW 81.104.100 provide a recognized framework for guiding high capacity transportation studies. However, the process cannot guarantee appropriate decisions unless key study assumptions are reasonable.
To assure appropriate system plan assumptions and to provide for review of system plan results, an expert review panel shall be appointed to provide independent technical review for development of any system plan which is to be funded in whole or in part by the imposition of any voter-approved local option funding sources enumerated in RCW 81.104.140.

(1) The expert review panel shall consist of five to ten members who are recognized experts in relevant fields, such as transit operations, planning, emerging transportation technologies, engineering, finance, law, the environment, geography, economics, and political science.

(2) The expert review panel shall be selected cooperatively by the chairs of the [legislative] senate and house transportation committees, the secretary of the department of transportation, and the governor to assure a balance of disciplines. In the case of counties adjoining another state or Canadian province the expert review panel membership shall be selected cooperatively with representatives of the adjoining state or Canadian province.

(3) The chair of the expert review panel shall be designated by the appointing authorities.

(4) The expert review panel shall serve without compensation but shall be reimbursed for expenses according to ((chapter 43.03)) RCW 43.03.050 and 43.03.060. Reimbursement shall be paid from within the existing resources of the local authority planning under this chapter.

(5) The panel shall carry out the duties set forth in subsections (6) and (7) of this section until the date on which an election is held to consider the high capacity transportation system and financing plans. ((Funds appropriated for expenses of the expert panel shall be administered by the department of transportation.))

(6) The expert panel shall review all reports required in RCW 81.104.100(2) and shall concentrate on service modes and concepts, costs, patronage and financing evaluations.

(7) The expert panel shall provide timely reviews and comments on individual reports and study conclusions to the department of transportation, the regional transportation planning organization, the joint regional policy committee, and the submitting lead transit agency. In the case of counties adjoining another state or Canadian province, the expert review panel shall provide its reviews, comments, and conclusions to the representatives of the adjoining state or Canadian province.

(8) The [legislative transportation committee] local authority planning under this chapter shall contract for consulting services for expert review panels. The amount of consultant support shall be negotiated with each expert review panel by the [legislative transportation committee] local authority and shall be paid from [appropriations for that purpose from the high capacity transportation account] within the local authority’s existing resources.

Sec. 145. RCW 82.33.020 and 1992 c 231 s 34 are each amended to read as follows:

(c) An unofficial state economic and revenue forecast based on pessimistic economic and revenue projections.

(2) The supervisor shall submit forecasts prepared under this section, along with any unofficial forecasts provided under RCW 82.33.010, to the governor and the members of the committees on ways and means and the chair of the committees on transportation of the senate and house of representatives (and the chair of the legislative transportation committee), including one copy to the staff of each of the committees, on or before November 20th, February 20th in the even-numbered years, March 20th in the odd-numbered years, June 20th, and September 20th. All forecasts shall include both estimated receipts and estimated revenues in conformance with generally accepted accounting principles as provided by RCW 43.88.037.

(3) All agencies of state government shall provide to the supervisor immediate access to all information relating to economic and revenue forecasts. Revenue collection information shall be available to the supervisor the first business day following the conclusion of each collection period.

(4) The economic and revenue forecast supervisor and staff shall co-locate and share information, data, and files with the tax research section of the department of revenue but shall not duplicate the duties and functions of one another.

(5) As part of its forecasts under subsection (1) of this section, the supervisor shall provide estimated revenue from tuition fees as defined in RCW 28B.15.020.

Sec. 146. RCW 82.70.060 and 2003 c 364 s 6 are each amended to read as follows:

The commute trip reduction task force shall determine the effectiveness of the tax credit under RCW 82.70.020, the grant program in RCW 70.94.996, and the relative effectiveness of the tax credit and the grant program as part of its ongoing evaluation of the commute trip reduction law and report to the [legislative] senate and house transportation committees and to the fiscal committees of the house of representatives and the senate. The report must include information on the amount of tax...
Sec. 147. RCW 82.80.070 and 2002 c 56 s 413 are each amended to read as follows:

(1) The proceeds collected pursuant to the exercise of the local option authority of RCW 82.80.010, ((82.80.010,)) 82.80.030, and 82.80.050 (hereafter called "local option transportation revenues") shall be used for transportation purposes only, including but not limited to the following: The operation and preservation of roads, streets, and other transportation improvements; new construction, reconstruction, and expansion of city streets, county roads, and state highways and other transportation improvements; development and implementation of public transportation and high-capacity transit improvements and programs; and planning, design, and acquisition of right of way and sites for such transportation purposes. The proceeds collected from excise taxes on the sale, distribution, or use of motor vehicle fuel and special fuel under RCW 82.80.010 shall be used exclusively for "highway purposes" as that term is construed in Article II, section 40 of the state Constitution.

(2) The local option transportation revenues shall be expended for transportation uses consistent with the adopted transportation and land use plans of the jurisdiction expending the funds and consistent with any applicable and adopted regional transportation plan for metropolitan planning areas.

(3) Each local government with a population greater than eight thousand that levies or expends local option transportation funds, is also required to develop and adopt a specific transportation program that contains the following elements:
   (a) The program shall identify the geographic boundaries of the entire area or areas within which local option transportation revenues will be levied and expended.
   (b) The program shall be based on an adopted transportation plan for the geographic areas covered and shall identify the proposed operation and construction of transportation improvements and services in the designated plan area intended to be funded in whole or in part by local option transportation revenues and shall identify the annual costs applicable to the program.
   (c) The program shall indicate how the local transportation plan is coordinated with applicable transportation plans for the region and for adjacent jurisdictions.
   (d) The program shall include at least a six-year funding plan, updated annually, identifying the specific public and private sources and amounts of revenue necessary to fund the program. The program shall include a proposed schedule for construction of projects and expenditure of revenues. The funding plan shall consider the additional local tax revenue estimated to be generated by new development within the plan area if all or a portion of the additional revenue is proposed to be earmarked as future appropriations for transportation improvements in the program.

(4) Local governments with a population greater than eight thousand exercising the authority for local option transportation funds shall periodically review and update their transportation program to ensure that it is consistent with applicable local and regional transportation and land use plans and within the means of estimated public and private revenue available.

(5) In the case of expenditure for new or expanded transportation facilities, improvements, and services, priorities in the use of local option transportation revenues shall be identified in the transportation program and expenditures shall be made based upon the following criteria, which are stated in descending order of weight to be attributed:
   (a) First, the project serves a multijurisdictional function;
   (b) Second, it is necessitated by existing or reasonably foreseeable congestion;
   (c) Third, it has the greatest person-carrying capacity;
   (d) Fourth, it is partially funded by other government funds, such as from the state transportation improvement board, or by private sector contributions, such as those from the local transportation act, chapter 39.92 RCW; and
   (e) Fifth, it meets such other criteria as the local government determines is appropriate.

(6) It is the intent of the legislature that as a condition of levying, receiving, and expending local option transportation revenues, no local government agency use the revenues to replace, divert, or loan any revenues currently being used for transportation purposes to nontransportation purposes. ((The association of Washington cities and the Washington state association of counties, in consultation with the legislative transportation committee, shall study the issue of nondiversion and make recommendations to the legislative transportation committee for language implementing the intent of this section by December 1, 1990.))

(7) Local governments are encouraged to enter into interlocal agreements to jointly develop and adopt with other local governments the transportation programs required by this section for the purpose of accomplishing regional transportation planning and development.

(8) Local governments may use all or a part of the local option transportation revenues for the amortization of local government general obligation and revenue bonds issued for transportation purposes consistent with the requirements of this section.
(9) Subsections (1) through (8) of this section do not apply to a regional transportation investment district imposing a tax or fee under the local option authority of this chapter. Proceeds collected under the exercise of local option authority under this chapter by a district must be used in accordance with chapter 36.120 RCW.

Sec. 148. RCW 90.03.525 and 1996 c 285 s 1 and 1996 c 230 s 1617 are each reenacted and amended to read as follows:

(1) The rate charged by a local government utility to the department of transportation with respect to state highway right of way or any section of state highway right of way for the construction, operation, and maintenance of storm water control facilities under chapters 35.67, 35.92, 36.89, 36.94, 57.08, and 86.15 RCW, shall be thirty percent of the rate for comparable real property, except as otherwise provided in this section. The rate charged to the department with respect to state highway right of way or any section of state highway right of way within a local government utility's jurisdiction shall not, however, exceed the rate charged for comparable city street or county road right of way within the same jurisdiction. The legislature finds that the aforesaid rates are presumptively fair and equitable because of the traditional and continuing expenditures of the department of transportation for the construction, operation, and maintenance of storm water control facilities designed to control surface water or storm water runoff from state highway rights of way.

(2) Charges paid under subsection (1) of this section by the department of transportation must be used solely for storm water control facilities that directly reduce state highway runoff impacts or implementation of best management practices that will reduce the need for such facilities. By January 1st of each year, beginning with calendar year 1997, the local government utility, in coordination with the department, shall develop a plan for the expenditure of the charges for that calendar year. The plan must be consistent with the objectives identified in RCW 90.78.010. In addition, beginning with the submittal for 1998, the utility shall provide a progress report on the use of charges assessed for the prior year. No charges may be paid until the plan and report have been submitted to the department.

(3) The utility imposing the charge and the department of transportation may, however, agree to either higher or lower rates with respect to the construction, operation, or maintenance of any specific storm water control facilities based upon the annual plan prescribed in subsection (2) of this section. (If a different rate is agreed to, a report so stating shall be submitted to the legislative transportation committee.) If, after mediation, the local government utility and the department of transportation cannot agree upon the proper rate, (and after a report has been submitted to the legislative transportation committee and after ninety days from submission of such report) either may commence an action in the superior court for the county in which the state highway right of way is located to establish the proper rate. The court in establishing the proper rate shall take into account the extent and adequacy of storm water control facilities constructed by the department and the actual benefits to the sections of state highway right of way from storm water control facilities constructed, operated, and maintained by the local government utility. Control of surface water runoff and storm water runoff from state highway rights of way shall be deemed an actual benefit to the state highway rights of way. The rate for sections of state highway right of way as determined by the court shall be set forth in terms of the percentage of the rate for comparable real property, but shall in no event exceed the rate charged for comparable city street or county road right of way within the same jurisdiction.

(4) The legislature finds that the federal clean water act (national ((pollution pollutant)) pollutant) discharge elimination system, 40 C.F.R. parts 122-124, the state water pollution control act, chapter 90.48 RCW, and the highway runoff program under chapter ((90.70)) 90.71 RCW, mandate the treatment and control of storm water runoff from state highway rights of way owned by the department of transportation. Appropriations made by the legislature to the department of transportation for the construction, operation, and maintenance of storm water control facilities are intended to address applicable federal and state mandates related to storm water control and treatment. This section is not intended to limit opportunities for sharing the costs of storm water improvements between cities, counties, and the state.

MAJORITY recommendation: Do pass as amended by Committee on Appropriations and without amendment by Committee on Natural Resources, Ecology & Parks:

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 77.85.005 and 1999 sp.s. c 13 s 1 are each amended to read as follows:

The legislature finds that repeated attempts to improve salmonid fish runs throughout the state of Washington have failed to avert listings of salmon and steelhead runs as threatened or endangered under the federal endangered species act (16 U.S.C. Sec. 1531 et seq.). These listings threaten the sport, commercial, and tribal fishing industries as well as the economic well-being and vitality of vast areas of the state. It is the intent of the legislature to begin activities required for the recovery of salmon stocks as soon as possible, although the legislature understands that successful recovery efforts may not be realized for many years because of the life cycle of salmon and the complex array of natural and human-caused problems they face.

The legislature finds that it is in the interest of the citizens of the state of Washington for the state to retain primary responsibility for managing the natural resources of the state, rather than abdicate those responsibilities to the federal government, and that the state may best accomplish this objective by integrating local and regional recovery activities into a
statewide (plan) strategy that can make the most effective use of provisions of federal laws allowing for a state lead in salmon recovery, delivered through implementation activities consistent with regional and watershed recovery plans. The legislature also finds that a statewide salmon recovery (plan) strategy must be developed and implemented through an active public involvement process in order to ensure public participation in, and support for, salmon recovery. The legislature also finds that there is a substantial link between the provisions of the federal endangered species act and the federal clean water act (33 U.S.C. Sec. 1251 et seq.). The legislature further finds that habitat restoration is a vital component of salmon recovery efforts. Therefore, it is the intent of the legislature to specifically address salmon habitat restoration in a coordinated manner and to develop a structure that allows for the coordinated delivery of federal, state, and local assistance to communities for habitat projects that will assist in the recovery and enhancement of salmon stocks. A strong watershed-based locally implemented plan is essential for local, regional, and statewide salmon recovery.

The legislature also finds that credible scientific review and oversight is essential for any salmon recovery effort to be successful.

The legislature further finds that it is important to monitor the overall health of the salmon resource to determine if recovery efforts are providing expected returns. It is important to monitor salmon habitat projects and salmon recovery activities to determine their effectiveness in order to secure federal acceptance of the state's approach to salmon recovery. Adaptive management cannot exist without monitoring. For these reasons, the legislature believes that a coordinated and integrated monitoring (process) system should be developed and implemented.

The legislature therefore finds that a coordinated framework for responding to the salmon crisis is needed immediately. To that end, the salmon recovery office should be created within the governor's office to provide overall coordination of the state's response; an independent science panel is needed to provide scientific review and oversight; a coordinated state funding process should be established through a salmon recovery funding board; the appropriate local or tribal government should provide local leadership in identifying and sequencing habitat projects to be funded by state agencies; habitat projects should be implemented without delay; and a strong locally based effort to restore salmon habitat should be established by providing a framework to allow citizen volunteers to work effectively.

Sec. 2. RCW 77.85.010 and 2002 c 210 s 1 are each amended to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Adaptive management" means reliance on scientific methods to test the results of actions taken so that the management and related policy can be changed promptly and appropriately.

(2) "Critical pathways methodology" means a project scheduling and management process for examining interactions between habitat projects and salmonid species, prioritizing habitat projects, and assuring positive benefits from habitat projects.

(3) "Habitat project list" is the list of projects resulting from the critical pathways methodology under RCW 77.85.060(2). Each project on the list must have a written agreement from the landowner on whose land the project will be implemented. Projects include habitat restoration projects, habitat protection projects, habitat projects that improve water quality, habitat projects that protect water quality, habitat-related mitigation projects, and habitat project maintenance and monitoring activities.

(4) "Habitat work schedule" means those projects from the habitat project list that will be implemented during the current funding cycle. The schedule shall also include a list of the entities and individuals implementing projects, the start date, duration, estimated date of completion, estimated cost, and funding sources for the projects.

(5) "Limiting factors" means conditions that limit the ability of habitat to fully sustain populations of salmon. These factors are primarily fish passage barriers and degraded estuarine areas, riparian corridors, stream channels, and wetlands.

(6) "Project sponsor" is a county, city, special district, tribal government, state agency, a combination of such governments through interlocal or interagency agreements, a nonprofit organization, regional fisheries enhancement group, or one or more private citizens. A project sponsored by a state agency may be funded by the board only if it is included on the habitat project list submitted by the lead entity for that area and the state agency has a local partner that would otherwise qualify as a project sponsor.

(7) "Regional recovery organization" or "regional salmon recovery organization" means an entity formed for the purpose of recovering salmon, which is recognized in statute or by the salmon recovery office.

(8) "Salmon" includes all species of the family Salmonidae which are capable of self-sustaining, natural production.

(9) "Salmon recovery plan" means a state or regional plan developed in response to a proposed or actual listing under the federal endangered species act that addresses limiting factors including, but not limited to harvest, hatchery, hydropower, habitat, and other factors of decline.

(10) "Salmon recovery region" means geographic areas of the state identified in RCW 77.85.090 that encompass groups of watersheds in the state with common stocks of salmon identified for recovery activities, and that generally are
consistent with the geographic areas within the state identified by the national oceanic and atmospheric administration or the United States fish and wildlife service for activities under the federal endangered species act. The salmon recovery regions designated under RCW 77.85.090 are salmon recovery regions for all purposes of this chapter.

(11) "Tribe" or "tribes" means federally recognized Indian tribes.

(12) "WRIA" means a water resource inventory area established in chapter 173-500 WAC as it existed on January 1, 1997.

(13) "Owner" means the person holding title to the land or the person under contract with the owner to lease or manage the legal owner's property.

Sec. 3. RCW 77.85.020 and 1998 c 246 s 4 are each amended to read as follows:

Sec. 4. RCW 77.85.030 and 2000 c 107 s 93 are each amended to read as follows:

(1) The salmon recovery office is created within the office of the governor to coordinate state strategy to allow for salmon recovery to healthy sustainable population levels with productive commercial and recreational fisheries. The primary purpose of the office is to coordinate and assist in the development of regional salmon recovery plans (for evolutionarily significant units, and submit those plans to the appropriate tribal governments and federal agencies) as an integral part of a statewide strategy developed consistent with the guiding principles and procedures under RCW 77.85.150. The governor's salmon recovery office (may also:

((1))) (1) shall assist regional recovery organizations in submitting plans to the federal fish services for adoption as federal recovery plans. The governor's salmon recovery office may also:

(a) Assist state agencies, local governments, landowners, and other interested parties in obtaining federal assurances that plans, programs, or activities are consistent with fish recovery under the federal endangered species act;
(b) Act as liaison to local governments, the state congressional delegation, the United States congress, federally recognized tribes, and the federal executive branch agencies for issues related to the state’s ((endangered species act)) salmon recovery plans; and

(((b))) (c) Provide ((the biennial state of the salmon report to the legislature)) periodic reports pursuant to RCW 77.85.020.

(2) This section expires June 30, ((2006)) 2007.

Sec. 5. RCW 77.85.040 and 2000 c 107 s 94 are each amended to read as follows:

(1) The governor shall request the national academy of sciences, the American fisheries society, or a comparable institution to screen candidates to serve as members on the independent science panel. The institution that conducts the screening of the candidates shall submit a list of the nine most qualified candidates to the governor, the speaker of the house of representatives, and the majority leader of the senate. The candidates shall reflect expertise in habitat requirements of salmon, protection and restoration of salmon populations, artificial propagation of salmon, hydrology, or geomorphology.

(2) The speaker of the house of representatives and the majority leader in the senate may each remove one name from the nomination list. The governor shall consult with tribal representatives and the governor shall appoint five scientists from the remaining names on the nomination list.

(3) The members of the independent science panel shall serve four-year terms. Vacant positions on the panel shall be filled in the same manner as the original appointments. Members shall serve no more than two full terms. The independent science panel members shall elect the chair of the panel among themselves every two years. Based upon available funding, the governor's salmon recovery office may contract for services with members of the independent science panel for compensation under chapter 39.29 RCW.

(4) The independent science panel shall be governed by generally accepted guidelines and practices governing the activities of independent science boards such as the national academy of sciences. The purpose of the independent science panel is to help ensure that sound science is used in salmon recovery efforts. The governor's salmon recovery office ((shall)) may request review of regional salmon recovery plans by the science review panel. The science panel does not have the authority to review individual projects or habitat project lists developed under RCW 77.85.050((1)) or 77.85.060((c) and 75.46.080)) or to make policy decisions. The panel shall periodically submit its findings and recommendations under this subsection to the legislature and the governor.

((5)) The independent science panel, in conjunction with the technical review team, shall recommend standardized monitoring indicators and data quality guidelines for use by entities involved in habitat projects and salmon recovery activities across the state.

(6) The independent science panel, in conjunction with the technical review team, shall also recommend criteria for the systematic and periodic evaluation of monitoring data in order for the state to be able to answer critical questions about the effectiveness of the state's salmon recovery efforts.

(7) The recommendations on monitoring as required in this section shall be provided in a report to the governor and to the legislature by the independent science panel, in conjunction with the salmon recovery office, no later than December 31, 2000. The report shall also include recommendations on the level of effort needed to sustain monitoring of salmon projects and other recovery efforts, and any other recommendations on monitoring deemed important by the independent science panel and the technical review team. The report may be included in the biennial state of the salmon report required under RCW 77.85.020.

Sec. 6. RCW 77.85.050 and 1999 sp.s. c 13 s 11 are each amended to read as follows:

(1)(a) Counties, cities, and tribal governments must jointly designate, by resolution or by letters of support, the area for which a habitat project list is to be developed and the lead entity that is to be responsible for submitting the habitat project list. No project included on a habitat project list shall be considered mandatory in nature and no private landowner may be forced or coerced into participation in any respect. The lead entity may be a county, city, conservation district, special district, tribal government, regional recovery organization, or other entity.

(b) The lead entity shall establish a committee that consists of representative interests of counties, cities, conservation districts, tribes, environmental groups, business interests, landowners, citizens, volunteer groups, regional fish enhancement groups, and other habitat interests. The purpose of the committee is to provide a citizen-based evaluation of the projects proposed to promote salmon habitat. ((The technical review team may provide the lead entity with organizational models that may be used in establishing the committees.))
(c) The committee shall compile a list of habitat projects, establish priorities for individual projects, define the sequence for project implementation, and submit these activities as the habitat project list. The committee shall also identify potential federal, state, local, and private funding sources.

(2) The area covered by the habitat project list must be based, at a minimum, on a WRIA, combination of WRIs, or any other area as agreed to by the counties, cities, and tribes in resolutions or in letters of support meeting the requirements of this subsection. Preference will be given to projects in an area that contain a salmon species that is listed or proposed for listing under the federal endangered species act.

(3) The lead entity shall submit the habitat project list to the [technical review team] board in accordance with procedures adopted by the board.

Sec. 7. RCW 77.85.090 and 2000 c 107 s 99 are each amended to read as follows:

(1) The southwest Washington salmon recovery region, whose boundaries are provided in chapter 60, Laws of 1998, is created.

(2) The Puget Sound salmon recovery region is created.

(3) The Yakima basin salmon recovery region is created.

(4) The upper Columbia salmon recovery region is created.

(5) The Snake river salmon recovery region is created.

(6) The legislature, with the assistance of the salmon recovery office, may designate additional salmon recovery regions that are generally consistent with the areas within the state designated by the national oceanic and atmospheric administration or the United States fish and wildlife service for federal recovery planning.

Sec. 8. RCW 77.85.130 and 2000 c 107 s 102 and 2000 c 15 s 1 are each reenacted and amended to read as follows:

(1) The salmon recovery funding board shall develop procedures and criteria for allocation of funds for salmon habitat projects and salmon recovery activities on a statewide basis to address the highest priorities for salmon habitat protection and restoration. To the extent practicable the board shall adopt an annual allocation of funding. The allocation should address both protection and restoration of habitat, and should recognize the varying needs in each area of the state on an equitable basis. The board has the discretion to partially fund, or to fund in phases, salmon habitat projects. The board may annually establish a maximum amount of funding available for any individual project, subject to available funding. No projects required solely as a mitigation or a condition of permitting are eligible for funding.

(2) In evaluating, ranking, and awarding funds for projects and activities the board shall give preference to projects that:

(i) Are based upon the limiting factors analysis identified under RCW 77.85.060;

(ii) Provide a greater benefit to salmon recovery based upon the stock status information contained in the department of fish and wildlife salmonid stock inventory (SASSI), the salmon and steelhead habitat inventory and assessment project (SSHIAP), and any comparable science-based assessment when available;

(iii) Will benefit listed species and other fish species; and

(iv) Will preserve high quality salmonid habitat;

(v) Are included in a regional or watershed-based salmon recovery plan that accords the project, action, or area a high priority for funding.

(b) In evaluating, ranking, and awarding funds for projects and activities the board shall also give consideration to projects that:

(i) Are the most cost-effective;

(ii) Have the greatest matched or in-kind funding;

(iii) Will be implemented by a sponsor with a successful record of project implementation;

(iv) Are part of a regionwide list developed by lead entities.

(3) The board may reject, but not add, projects from a habitat project list submitted by a lead entity for funding.

(4) For fiscal year 2000, the board may authorize the interagency review team to evaluate, rank, and make funding decisions for categories of projects or activities or from funding sources provided for categories of projects or activities. In delegating such authority the board shall consider the review team's staff resources, procedures, and technical capacity to meet the purposes and objectives of this chapter. The board shall maintain general oversight of the team's exercise of such authority.

(5) The board shall seek the guidance of the technical review team to ensure that scientific principles and information are incorporated into the allocation standards and into proposed projects and activities. If the technical review team determines that a habitat project list complies with the critical pathways methodology under RCW 77.85.060, it shall provide substantial
weight to the list's project priorities when making determinations among applications for funding of projects within the area covered by the list.

(6)) The board shall establish criteria for determining when block grants may be made to a lead entity (or other recognized regional recovery entity) consistent with one or more habitat project lists developed for that region. Where a lead entity has been established pursuant to RCW 77.85.050, the board may provide block grants to the lead entity to assist in carrying out lead entity functions under this chapter, subject to available funding. The board shall determine an equitable minimum amount of project implementation funds for each recovery region, and shall distribute the remainder of funds on a competitive basis. The board may also provide grants to the lead entity or regional recovery organization to assist in carrying out functions described under this chapter.

(((((4))) (5)) The board may waive or modify portions of the allocation procedures and standards adopted under this section in the award of grants or loans to conform to legislative appropriations directing an alternative award procedure or when the funds to be awarded are from federal or other sources requiring other allocation procedures or standards as a condition of the board's receipt of the funds. The board shall develop an integrated process to manage the allocation of funding from federal and state sources to minimize delays in the award of funding while recognizing the differences in state and legislative appropriation timing.

(((((5))) (6)) The board may award a grant or loan for a salmon recovery project on private or public land when the landowner has a legal obligation under local, state, or federal law to perform the project, when expedited action provides a clear benefit to salmon recovery, and there will be harm to salmon recovery if the project is delayed. For purposes of this subsection, a legal obligation does not include a project required solely as a mitigation or a condition of permitting.

(((4))) (7) The board may condition a grant or loan to include the requirement that property may only be transferred to a federal agency if the agency that will acquire the property agrees to comply with all terms of the grant or loan to which the project sponsor was obligated. Property acquired or improved by a project sponsor may be conveyed to a federal agency, but only if the agency agrees to comply with all terms of the grant or loan to which the project sponsor was obligated.

Sec. 9. RCW 77.85.150 and 1999 sp.s.c 13 s 9 are each amended to read as follows:

(1) (By September 1, 1999) The governor, with the assistance of the salmon recovery office, shall (submit a statewide salmon recovery strategy to the appropriate federal agencies administering the federal endangered species act) maintain and revise a statewide salmon recovery strategy.

(2) The governor and the salmon recovery office shall be guided by the following considerations in developing maintaining and revising the strategy:

(a) The strategy should identify statewide initiatives and responsibilities with regional recovery plans and local watershed initiatives as the principal means for implementing the strategy;
(b) The strategy should emphasize collaborative, incentive-based approaches;
(c) The strategy should address all factors limiting the recovery of Washington's listed salmon stocks, including habitat and water quality degradation, harvest and hatchery management, inadequate streamflows, and other barriers to fish passage. Where other limiting factors are beyond the state's jurisdictional authorities to respond to, such as some natural predators and high seas fishing, the strategy shall include the state's requests for federal action to effectively address these factors;
(d) The strategy should identify immediate actions necessary to prevent extinction of a listed salmon stock, establish performance measures to determine if restoration efforts are working, recommend effective monitoring and data management, and recommend to the legislature clear and certain measures to be implemented if performance goals are not met;
(e) The strategy shall rely on the best scientific information available and provide for incorporation of new information as it is obtained;
(f) The strategy should seek a fair allocation of the burdens and costs upon economic and social sectors of the state whose activities may contribute to limiting the recovery of salmon; and
(g) The strategy should seek clear measures and procedures from the appropriate federal agencies for removing Washington's salmon stocks from listing under the federal act.

(3) Beginning on September 1, 2000, the strategy shall be updated through an active public involvement process, including early and meaningful opportunity for public comment. In obtaining public comment, the salmon recovery office shall hold public meetings throughout the state and shall encourage regional and local recovery planning efforts to similarly ensure an active public involvement process.

(4) This section shall apply prospectively only and not retroactively. Nothing in this section shall be construed to invalidate actions taken in recovery planning at the local, regional, or state level prior to July 1, 1999.
(20) RCW 77.85.070 (Technical advisory groups) and 2000 c 107 s 97 & 1998 c 246 s 10; and
(21) RCW 77.85.210 (Monitoring activities--Monitoring oversight committee--Legislative steering committee--Report

SSB 5902 Prime Sponsor, Senate Committee on International Trade & Economic Development: Establishing a small business innovation research program proposal review process. Reported by Committee on Appropriations

MAJORITY recommendation: Do pass as amended:

Strike everything after the enacting clause and insert the following:
"NEW SECTION. Sec. 1. (1) The legislature finds that small technology-based firms are the source of approximately one-half of the economy's major innovations and that it is in the interest of the state to increase participation by Washington state small businesses in the federal small business innovation research program by assisting them in becoming small business innovation research program grant recipients.

The legislature further finds that many small business innovators lack the grant-writing skills necessary to prepare a successful small business innovation research program proposal, and the federal program that funded grant-writing assistance has stopped operations. Nearly fifty percent of small businesses trained under the federal program won grants compared to less than ten percent of those that did not receive training.

(2) As used in this section:
   (a) "Small business innovation research program" means the program, enacted pursuant to the small business innovation development act of 1982, P.L. 97-219, that provided funds to small businesses to conduct innovative research having commercial application.
   (b) "Small business" means a corporation, partnership, sole proprietorship, or individual, operating a business for profit, with two hundred fifty employees or fewer, including employees employed in a subsidiary or affiliated corporation, that otherwise meets the requirements of the federal small business innovation research program.

(3) The Washington technology center shall establish a small business innovation research assistance program, including a proposal review process, to train and assist Washington small businesses to win phase I small business innovation research program awards.
   (a) The Washington technology center shall give priority to first-time small business innovation research program applicants, new businesses, and firms with fewer than ten employees.
   (b) The Washington technology center may charge a fee for this service."

Controlling state expenditures. Reported by Committee on Appropriations

MAJORITY recommendation: Do pass as amended:

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 43.135.035 and 2001 c 3 s 8 and 2000 2nd sp.s. c 2 s 2 are each reenacted and amended to read as follows:

(1) After July 1, 1995, any action or combination of actions by the legislature that raises state revenue or requires revenue-neutral tax shifts may be taken only if approved by a two-thirds vote of each house, and then only if state expenditures in any fiscal year, including the new revenue, will not exceed the state expenditure limits established under this chapter. However, for legislation enacted between the effective date of this act and June 30, 2007, any action or combination of actions by the legislature that raises state revenue or requires revenue-neutral tax shifts may be taken with the approval of a majority of members elected to each house, so long as state expenditures in any fiscal year, including the new revenue, will not exceed the state expenditure limits established under this chapter.

(2)(a) If the legislative action under subsection (1) of this section will result in expenditures in excess of the state expenditure limit, then the action of the legislature shall not take effect until approved by a vote of the people at a November general election. The office of financial management shall adjust the state expenditure limit by the amount of additional revenue approved by the voters under this section. This adjustment shall not exceed the amount of revenue generated by the legislative action during the first full fiscal year in which it is in effect. The state expenditure limit shall be adjusted downward upon expiration or repeal of the legislative action.

(b) The ballot title for any vote of the people required under this section shall be substantially as follows:

"Shall taxes be imposed on . . . . . . in order to allow a spending increase above last year's authorized spending adjusted for inflation and population increases?"

(3)(a) The state expenditure limit may be exceeded upon declaration of an emergency for a period not to exceed twenty-four months by a law approved by a two-thirds vote of each house of the legislature and signed by the governor. The law shall set forth the nature of the emergency, which is limited to natural disasters that require immediate government action to alleviate human suffering and provide humanitarian assistance. The state expenditure limit may be exceeded for no more than twenty-four months following the declaration of the emergency and only for the purposes contained in the emergency declaration.

(b) Additional taxes required for an emergency under this section may be imposed only until thirty days following the next general election, unless an extension is approved at that general election. The additional taxes shall expire upon expiration of the declaration of emergency. The legislature shall not impose additional taxes for emergency purposes under this subsection unless funds in the education construction fund have been exhausted.

(c) The state or any political subdivision of the state shall not impose any tax on intangible property listed in RCW 84.36.070 as that statute exists on January 1, 1993.

(4) If the cost of any state program or function is shifted from the state general fund on or after January 1, 1993, to another source of funding, or if moneys are transferred from the state general fund to another fund or account, the state expenditure limit committee, acting pursuant to RCW 43.135.025(5), shall lower the state expenditure limit to reflect the shift. For the purposes of this section, a transfer of money from the state general fund to another fund or account includes any state
legislative action taken after July 1, 2000, that has the effect of reducing revenues from a particular source, where such revenues would otherwise be deposited into the state general fund, while increasing the revenues from that particular source to another state or local government account. This subsection does not apply to the dedication or use of lottery revenues under RCW 67.70.240(3) or property taxes under RCW 84.52.068, in support of education or education expenditures.

(5) If the cost of any state program or function is shifted to the state general fund on or after January 1, 2000, from another source of funding, or if moneys are transferred to the state general fund from another fund or account, the state expenditure limit committee, acting pursuant to RCW 43.135.025(5), shall increase the state expenditure limit to reflect the shift.

NEW SECTION. Sec. 2. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

WHEREAS, Karol Józef Wojtyla, known as John Paul II since his October 1978 election to the papacy, was born in Wadowice, a small city 50 kilometers from Cracow, on May 18, 1920. He was the second of two sons born to Karol Wojtyla and Emilia Kaczorowska. His mother died in 1929. His eldest brother Edmund, a doctor, died in 1932 and his father, a noncommissioned army officer died in 1941; and

WHEREAS, He made his First Holy Communion at age 9 and was confirmed at 18. Upon graduation from Marcin Wadowita high school in Wadowice, he enrolled in Cracow's Jagiellonian University in 1938 and in a school for drama; and

WHEREAS, The Nazi occupation forces closed the university in 1939 and young Karol had to work in a quarry (1940-1944) and then in the Solvay chemical factory to earn his living and to avoid being deported to Germany; and

WHEREAS, In 1942, aware of his call to the priesthood, he began courses in the clandestine seminary of Cracow, run by Cardinal Adam Stefan Sapieha, Archbishop of Cracow. At the same time, Karol Wojtyla was one of the pioneers of the "Rhapsodic Theatre," also clandestine; and

WHEREAS, After the Second World War, he continued his studies in the major seminary of Cracow, once it had reopened, and in the faculty of theology of the Jagiellonian University, until his priestly ordination in Cracow on November 1, 1946; and

WHEREAS, Soon after, Cardinal Sapieha sent him to Rome where he worked under the guidance of the French Dominican, Garrigou-Lagrange. He finished his doctorate in theology in 1948 with a thesis on the topic of faith in the works of St. John of the Cross. At that time, during his vacations, he exercised his pastoral ministry among the Polish immigrants of France, Belgium, and Holland; and

WHEREAS, In 1948 he returned to Poland and was vicar of various parishes in Cracow as well as chaplain for the university students until 1951, when he took up again his studies on philosophy and theology. In 1953 he defended a thesis on "evaluation of the possibility of founding a Catholic ethic on the ethical system of Max Scheler" at Lublin Catholic University. Later he became professor of moral theology and social ethics in the major seminary of Cracow and in the Faculty of Theology of Lublin; and

WHEREAS, On July 4, 1958, he was appointed Auxiliary Bishop of Cracow by Pope Pius XII, and was consecrated September 28, 1958, in Wawel Cathedral, Cracow, by Archbishop Baziak; and

WHEREAS, Since the start of his Pontificate on October 16, 1978, Pope John Paul II has completed 104 pastoral visits outside of Italy and 146 within Italy. As Bishop of Rome he has visited 317 of the 333 parishes; and

WHEREAS, No other Pope has encountered so many individuals as has John Paul II: More than 17,600,000 people have participated in more than 1,160 General Audiences held on Wednesdays. Such figure is without counting all other special audiences and services held, including more than 8 million people during the Great Jubilee of the Year 2000 alone and the millions of faithful met during pastoral visits made in Italy and throughout the world. It must also be remembered the numerous government personalities encountered during 38 official visits and in the 738 audiences and meetings held with Heads of State, and 246 audiences and meetings with Prime Ministers; and

As an alternative to a separate plan, two or more local governments may work in concert to develop and execute a joint homeless housing plan, or to contract with another entity to do so according to the requirements of this chapter. While a local government has the authority to subcontract with other entities, the local government continues to maintain the ultimate responsibility for the homeless housing program within its borders.

   A county may decline to participate in the program authorized in this chapter by forwarding to the department a resolution adopted by the county legislative authority stating the intention not to participate. A copy of the resolution shall also be transmitted to the county auditor and treasurer. If a county declines to participate, the department shall create and execute a local homeless housing plan for the county meeting the requirements of this chapter.

(2) In addition to developing a ten-year homeless housing plan, each task force shall establish guidelines consistent with the statewide homeless housing strategic plan, as needed, for the following:

   (a) Emergency shelters;
   (b) Short-term housing needs;
   (c) Temporary encampments;
   (d) Supportive housing for chronically homeless persons; and
   (e) Long-term housing.

   Guidelines must include, when appropriate, standards for health and safety and notifying the public of proposed facilities to house the homeless.

(3) Each county, including counties exempted from creating a new task force under subsection (1) of this section, shall report to the department of community, trade, and economic development such information as may be needed to ensure compliance with this chapter."

SECOND READING

ENGROSSED SENATE BILL NO. 5355, By Senators Doumit, Zarelli and Jacobsen

Modifying provisions for salmon and steelhead recovery in the lower Columbia region.

The bill was read the second time.

Representative Buck moved the adoption of the following amendment (419):

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 77.85.200 and 2001 c 135 s 1 are each amended to read as follows:

(1) A program for salmon and steelhead recovery is established in Clark, Cowlitz, Lewis, Skamania, and Wahkiakum counties within the habitat areas classified as the lower Columbia evolutionarily significant ((unit 4)) units by the federal national marine fisheries service. The management board created under subsection (2) of this section is responsible for developing and overseeing the implementation of the habitat portion of the salmon and steelhead recovery ((initiative)) plan and is empowered to receive and disburse funds for the ((approved)) salmon and steelhead recovery initiatives. The management board created pursuant to this section shall constitute the lead entity and the committee established under RCW 77.85.050 responsible for fulfilling the requirements and exercising powers under this chapter.

(2) A management board consisting of fifteen voting members is created within the lower Columbia evolutionarily significant ((unit 4)) units. The members shall consist of one county commissioner or designee from each of the five participating counties selected by each county legislative authority; one member representing the cities contained within the lower Columbia evolutionarily significant ((unit 4)) units as a voting member selected by the cities in the lower Columbia evolutionarily significant ((unit 4)) units; a representative of the Cowlitz Tribe appointed by the tribe; one state legislator elected from one of the legislative districts contained within the lower Columbia evolutionarily significant ((unit 4)) units selected by that group of state legislators representing the area; five representatives to include at least one member who represents private property interests appointed by the five county commissioners or designees; one hydro utility representative nominated by hydro utilities and appointed by the five county commissioners or designees; and one representative nominated from the environmental community who resides in the lower Columbia evolutionarily significant ((unit 4)) units appointed by the five county commissioners or designees. The board shall appoint and consult a technical advisory committee, which shall include four representatives of state agencies one each appointed by the directors of the departments of ecology, fish and wildlife, and transportation, and the commissioner of public lands. The board may also appoint additional persons to the technical advisory committee as needed. The chair of the board shall be selected from among the members of the management board by the five county commissioners or designees and the legislator on the board. In making appointments under this subsection, the county commissioners shall consider recommendations of interested parties. Vacancies shall be filled in the same manner as the original appointments were selected. No action may be brought or maintained against any management board member, the management board, or any of its agents, officers, or employees for any noncontractual acts or omissions in carrying out the purposes of this section.

(3) The management board shall participate in the development of a habitat recovery plan to implement its responsibilities under (b) of this subsection. The management board shall consider local watershed efforts and activities as well as habitat conservation plans in the development and implementation of the recovery plan. Any of the participating counties may
continue its own efforts for restoring steelhead habitat. Nothing in this section limits the authority of units of local government to enter into interlocal agreements under chapter 39.34 RCW or any other provision of law.

(b) The management board is responsible for implementing the habitat portions of the lower Columbia steelhead conservation initiative approved by the state and the National Marine Fisheries Service, the development of a lower Columbia salmon and steelhead habitat recovery plan and for coordinating and monitoring the implementation of the plan. The management board will submit all future plans and amendments to plans to the governor's salmon recovery office for the incorporation of hatchery, harvest, and hydropower components of the statewide salmon recovery strategy for all submissions to the National Marine Fisheries Service. In developing and implementing the habitat recovery plan, the management board will work with appropriate federal and state agencies, tribal governments, local governments, and the public to make sure hatchery, harvest, and hydropower components receive consideration in context with the habitat component. The management board may work in cooperation with the state and the National Marine Fisheries Service to modify the plan, or to address habitat for other aquatic species that may be subsequently listed under the federal endangered species act. The management board may not exercise authority over land or water within the individual counties or otherwise preempt the authority of any units of local government.

(c) The management board shall prioritize as appropriate and approve projects and programs related to the recovery of lower Columbia river salmon and steelhead runs, including the funding of those projects and programs, and coordinate local government efforts as prescribed in the recovery plan. The management board shall establish criteria for funding projects and programs based upon their likely value in salmon and steelhead recovery. The management board may consider local economic impact among the criteria, but jurisdictional boundaries and factors related to jurisdictional population may not be considered as part of the criteria.

(d) The management board shall assess the factors for decline along each tributary basin in the lower Columbia steelhead conservation initiative. The management board is encouraged to take a stream-by-stream approach in conducting the assessment which utilizes state and local expertise, including volunteer groups, interest groups, and affected units of local government.

(4) The management board has the authority to hire and fire staff, including an executive director, enter into contracts, accept grants and other moneys, disburse funds, make recommendations to cities and counties about potential code changes and the development of programs and incentives upon request, pay all necessary expenses, and may choose a fiduciary agent. The management board shall report on its progress on a quarterly basis to the legislative bodies of the five participating counties and the state Natural Resource-related agencies. The management board shall prepare a final report at the conclusion of the program describing its efforts and successes in developing and implementing the lower Columbia salmon and steelhead conservation initiative recovery plan. The final report shall be transmitted to the appropriate committees of the legislature, the legislative bodies of the participating counties, and the state natural resource-related agencies.

(5) The program terminates on July 1, 2010.

(6) For purposes of this section, "evolutionarily significant unit" means the habitat area identified for an evolutionarily significant unit of an aquatic species listed or proposed for listing as a threatened or endangered species under the federal endangered species act (16 U.S.C. Sec. 1531 et seq.)."

**NEW SECTION. Sec. 1. LEGISLATIVE DECLARATION.** The legislature declares that promoting the health of state residents is a fundamental purpose of state government. The legislature declares it to be a clear public purpose and governmental function to promote life sciences research to foster a preventive and predictive vision of the next generation of health-related innovations, to enhance the competitive position of Washington state in this vital sector of the economy, and to improve the quality and delivery of health care for the people of Washington. The legislature finds that public support for and promotion of life sciences research will benefit the state and its residents through improved health status and health outcomes, economic development, and contributions to scientific knowledge, and such research will lead to breakthroughs and improvements that might not otherwise be discovered due to lack of existing market incentives, especially in the area of regenerative medicine. The legislature finds that public support for and promotion of life sciences research has the potential to provide cures or new treatments for many debilitating diseases that cost the state millions of dollars each year. It is appropriate and consistent with the intent of the master settlement agreement between the state and tobacco product manufacturers to invest a portion of the revenues derived therefrom by the state in life sciences research, to leverage the revenues with other funds, and to encourage cooperation and innovation among public and private institutions involved in life sciences research. HUMAN SERVICES

NEW SECTION. Sec. 201. FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES.

(1) Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, “unrestricted federal moneys” includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The department is authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage Medicaid expenditures for the aged and disabled population. Under this Washington Medicaid integration partnership (WMIP) the department may combine and transfer such Medicaid funds appropriated under sections 204, 206, 208, and 209 of this act as may be necessary to finance a unified health care plan for the WMIP program enrollment. The WMIP pilot projects shall not exceed a daily enrollment of 6,000 persons during the 2005-2007 biennium. The amount of funding assigned to the pilot projects from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled in the pilot, times the number of clients enrolled in the pilot. In implementing the WMIP pilot projects, the department may: (a) Withhold from calculations of “available resources” as set forth in RCW 71.24.025 a sum equal to the capitated rate for individuals enrolled in the pilots; and (b) employ capitation financing and risk-sharing arrangements in collaboration with health care service contractors licensed by the office of the insurance commissioner and qualified to participate in both the Medicaid and Medicare programs. The department shall conduct an evaluation of the WMIP, measuring changes in participant health outcomes, changes in patterns of service utilization, participant satisfaction, participant access to services, and the state fiscal impact.

(4) In accordance with RCW 74.39A.300, the appropriations to the department of social and health services in this act are sufficient to implement the compensation and fringe benefits of the collective bargaining agreement reached between the governor and the exclusive bargaining representative of individual providers of home care services.

The final report shall include recommendations on the design and implementation of a new or updated system that will promote equity among hospitals, access to quality care and improved health outcomes for patients, and cost-control and efficiency for taxpayers. $69,000 of the general fund--state appropriation for fiscal year 2006, $137,000 of the general fund--state appropriation for fiscal year 2007, and $207,000 of the general fund--federal appropriation are provided solely for participation in the health technology assessment program required in section 214(6) of this act.

The department shall, within available resources, continue operation of the medical care services care management pilot project for clients receiving general assistance benefits in King and Pierce counties. The project may use a full or partial capitation model that includes a mechanism for shared savings. To the extent that experience with the pilot project indicates progress toward the goals of maximizing care coordination, high-risk medical management, and chronic care management to achieve better health outcomes, the department may expand the pilot project to additional counties.

The department will begin voluntary enrollment of SSI and other eligible medicaid elderly and disabled persons into managed care pilots by March 2006.

The department shall implement a premium schedule for the benefits under this subsection that is related to the participant's income. The minimum premium shall be twenty dollars per month. Recipients of this transitional benefit shall not be considered part of the general assistance caseload unless eligibility is established under standard reapplication procedures.

(b) As used in this subsection, the column headings "BA+(N)" refer to the number of credits earned since receiving the baccalaureate degree.

(c) For credits earned after the baccalaureate degree but before the masters degree, any credits in excess of forty-five credits may be counted after the masters degree. Thus, as used in this subsection, the column headings "MA+(N)" refer to the total of:

(i) Credits earned since receiving the masters degree; and

(ii) Any credits in excess of forty-five credits that were earned after the baccalaureate degree but before the masters degree.

(5) For the purposes of this section:

(a) "BA" means a baccalaureate degree.

(b) "MA" means a masters degree.

(c) "PHD" means a doctorate degree.

(d) "Years of service" shall be calculated under the same rules adopted by the superintendent of public instruction.

(e) "Credits" means college quarter hour credits and equivalent in-service credits computed in accordance with RCW 28A.415.020 and 28A.415.023.

(6) No more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and LEAP documents referenced in this act, or any replacement schedules and documents, unless:

(a) The employee has a masters degree; or

(b) The credits were used in generating state salary allocations before January 1, 1992.

(7) The certificated instructional staff base salary specified for each district in LEAP Document 12E and the salary schedules in subsection (4)(a) of this section include two learning improvement days. A school district is eligible for the learning improvement day funds only if the learning improvement days have been added to the 180-day contract year. If fewer days are added, the additional learning improvement allocation shall be adjusted accordingly. The additional days shall be limited to specific activities identified in the state required school improvement plan related to improving student learning that are consistent with education reform implementation, and shall not be considered part of basic education. The principal in each school shall assure that the days are used to provide the necessary school-wide, all staff professional development that is tied directly to the school improvement plan. The school principal and the district superintendent shall maintain documentation as to their approval of these activities. The length of a learning improvement day shall not be less than the length of a full day under the base contract. The superintendent of public instruction shall ensure that school districts adhere to the intent and purposes of this subsection.

(8) The salary allocation schedules established in this section are for allocation purposes only except as provided in RCW 28A.400.200(2) and subsection (7) of this section.

General Fund--State Appropriation (FY 2007)
The appropriations in this section are subject to the following conditions and limitations:

1. Each general fund fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

2. A maximum of $796,000 of this fiscal year 2006 appropriation and a maximum of $812,000 of the fiscal year 2007 appropriation may be expended for regional transportation coordinators and related activities. The transportation coordinators shall ensure that data submitted by school districts for state transportation funding shall, to the greatest extent practical, reflect the actual transportation activity of each district.

3. $5,000 of the fiscal year 2006 appropriation and $5,000 of the fiscal year 2007 appropriation are provided solely for the transportation of students enrolled in "choice" programs. Transportation shall be limited to low-income students who are transferring to "choice" programs solely for educational reasons.

4. Allocations for transportation of students shall be based on reimbursement rates of $41.40 per weighted mile in the 2005-06 school year and $41.85 per weighted mile in the 2006-07 school year exclusive of salary and benefit adjustments provided in section 504 of this act. Allocations for transportation of students transported more than one radius mile shall be based on weighted miles as determined by superintendent of public instruction multiplied by the per mile reimbursement rates for the school year pursuant to the formulas adopted by the superintendent of public instruction. Allocations for transportation of students living within one radius mile shall be based on the number of enrolled students in grades kindergarten through five living within one radius mile of their assigned school multiplied by the per mile reimbursement rate for the school year multiplied by 1.29.

5. For buses purchased between July 1, 2005, and June 30, 2007, the office of superintendent of public instruction shall provide reimbursement funding to a school district only after the superintendent of public instruction determines that the school bus was purchased from the list established pursuant to RCW 28A.160.195(2) or a comparable competitive bid process based on the lowest price quote based on similar bus categories to those used to establish the list pursuant to RCW 28A.160.195. The competitive specifications shall meet federal motor vehicle safety standards, minimum state specifications as established by rule by the superintendent, and supported options as determined by the superintendent in consultation with the regional transportation coordinators of the educational service districts.

6. Beginning with the 2005-06 school year, the superintendent of public instruction shall base depreciation payments for school district buses on the five-year average of lowest bids in the appropriate category of bus. In the final year on the depreciation schedule, the depreciation payment shall be based on the current state price. The superintendent may include a weighting or other adjustment factor in the averaging formula to ease the transition from the current-price depreciation system to the average depreciation system. Prior to making any depreciation payment in the 2005-06 school year, the superintendent shall notify the office of financial management and the fiscal committees of the legislature of the specific depreciation formula to be used. The replacement cost shall be based on the lowest bid in the appropriate bus category for that school year. A maximum of $50,000 of the fiscal year 2006 appropriation may be expended for software programming costs associated with the implementation of this subsection.

TOTAL APPROPRIATION $1,392,593,000

The appropriations in this section are subject to the following conditions and limitations:

(1) Funding for special education programs is provided on an excess cost basis, pursuant to RCW 28A.150.390. School districts shall ensure that special education students as a class receive their full share of the general apportionment allocation accruing through sections 502 and 504 of this act. To the extent a school district cannot provide an appropriate education for special education students under chapter 28A.155 RCW through the general apportionment allocation, it shall provide services through the special education excess cost allocation funded in this section.

(2)(a) The superintendent of public instruction shall use the excess cost methodology developed and implemented for the 2001-02 school year using the S-275 personnel reporting system and all related accounting requirements to ensure that:

(i) Special education students are basic education students first;
(ii) As a class, special education students are entitled to the full basic education allocation; and
(iii) Special education students are basic education students for the entire school day.

(b) The S-275 and accounting changes in effect since the 2001-02 school year shall superecede any prior excess cost methodologies and shall be required of all school districts.

(3) Each fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(4) The superintendent of public instruction shall distribute state and federal funds to school districts based on two categories: The optional birth through age two program for special education eligible developmentally delayed infants and toddlers, and the mandatory special education program for special education eligible students ages three to twenty-one. A "special education eligible student" means a student receiving specially designed instruction in accordance with a properly formulated individualized education program.

(5)(a) For the 2005-06 and 2006-07 school years, the superintendent shall make allocations to each district based on the sum of:

(i) A district's annual average headcount enrollment of developmentally delayed infants and toddlers ages birth through two, multiplied by the district's average basic education allocation per full-time equivalent student, multiplied by 1.15; and
(ii) A district's annual average full-time equivalent basic education enrollment multiplied by the funded enrollment percent determined pursuant to subsection (6)(b) of this section, multiplied by the district's average basic education allocation per full-time equivalent student multiplied by 0.9309.

(b) For purposes of this subsection, “average basic education allocation per full-time equivalent student” for a district shall be based on the staffing ratios required by RCW 28A.150.260 and shall not include enhancements, secondary vocational education, or small schools.

(6) The definitions in this subsection apply throughout this section.

(a) "Annual average full-time equivalent basic education enrollment" means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW 28A.225.250).

(b) "Enrollment percent" means the district's resident special education annual average enrollment, excluding the birth through age two enrollment, as a percent of the district's annual average full-time equivalent basic education enrollment.
Each district's general fund--state funded special education enrollment shall be the lesser of the district's actual enrollment percent or 12.7 percent.

(7) At the request of any interdistrict cooperative of at least 15 districts in which all excess cost services for special education students of the districts are provided by the cooperative, the maximum enrollment percent shall be calculated in accordance with subsection (6)(b) of this section, and shall be calculated in the aggregate rather than individual district units. For purposes of this subsection, the average basic education allocation per full-time equivalent student shall be calculated in the aggregate rather than individual district units.

(8) To the extent necessary, $54,400,000 of the general fund--state appropriation and $28,698,000 of the general fund--federal appropriation are provided for safety net awards for districts with demonstrated needs for special education funding beyond the amounts provided in subsection (5) of this section. If safety net awards exceed the amount appropriated in this subsection (8), the superintendent shall expend all available federal discretionary funds necessary to meet this need. Safety net funds shall be awarded by the state safety net oversight committee subject to the following conditions and limitations:

(a) The committee shall consider unmet needs for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding formulas. In the determination of need, the committee shall also consider additional available revenues from federal sources. Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(b) The committee shall then consider the extraordinary high cost needs of one or more individual special education students. Differences in costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(c) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(d) Safety net awards shall be adjusted based on the percent of potential medicaid eligible students billed as calculated by the superintendent in accordance with chapter 318, Laws of 1999.

(e) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

(9) The superintendent of public instruction may adopt such rules and procedures as are necessary to administer the special education funding and safety net award process. Prior to revising any standards, procedures, or rules, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature.

(10) The safety net oversight committee appointed by the superintendent of public instruction shall consist of:

(a) One staff from the office of superintendent of public instruction;

(b) Staff of the office of the state auditor who shall be nonvoting members of the committee; and

(c) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.

(11) A maximum of $678,000 may be expended from the general fund--state appropriations to fund 5.43 full-time equivalent teachers and 2.1 full-time equivalent aides at children's orthopedic hospital and medical center. This amount is in lieu of money provided through the home and hospital allocation and the special education program.

(12) A maximum of $1,000,000 of the general fund--federal appropriation is provided for projects to provide special education services with appropriate job and independent living skills, including work experience where possible, to facilitate their successful transition out of the public school system. The funds provided by this subsection shall be from federal discretionary grants.

(13) The superintendent shall maintain the percentage of federal flow-through to school districts at 85 percent. In addition to other purposes, school districts may use increased federal funds for high-cost students, for purchasing regional special education services from educational service districts, and for staff development activities particularly relating to inclusion issues.

(14) A maximum of $1,200,000 of the general fund--federal appropriation may be expended by the superintendent for projects related to use of inclusion strategies by school districts for provision of special education services.

(15) $1,400,000 of the general fund--federal appropriation shall be expended for one-time grants to school districts for the start-up costs of implementing web-based programs that assist schools in meeting state and federal requirements regarding individualized education plans.

(16) The superintendent, consistent with the new federal IDEA reauthorization, shall continue to educate school districts on how to implement a birth-to-three program and review the cost effectiveness and learning benefits of early intervention.

(17) A school district may carry over from one year to the next year up to 10 percent of the general fund--state funds allocated under this program; however, carry over funds shall be expended in the special education program.

"Information technology portfolio" means a strategic management approach in which the relationships between agency missions and information technology investments can be seen and understood, such that: Technology efforts are linked to agency objectives and business plans; the impact of new investments on existing infrastructure and business functions are assessed and understood before implementation; and agency activities are consistent with the development of an integrated, nonduplicative statewide infrastructure.

(2) Agencies shall use their information technology portfolios in making decisions on matters related to the following:
   (a) System refurbishment, acquisitions, and development efforts;
   (b) Setting goals and objectives for using information technology in meeting legislatively-mandated missions and business needs;

(6) The agency shall produce quality assurance plans for information technology projects. Consistent with the direction of the information services board and the published policies and guidelines of the department of information services, the quality assurance plan shall address all factors critical to successful completion of the project and successful integration with the agency and state information technology infrastructure. School districts and educational service districts may make their own selections for school buses, but shall be reimbursed at the rates determined under subsection (3) of this section and RCW 28A.160.200. District-selected options shall not be reimbursed by the state. For the ((2005-07)) 2005-2007 fiscal biennium, school districts and educational service districts shall be reimbursed for buses purchased only through a lowest-price competitive bid process conducted pursuant to RCW 28A.335.190 or through the state bid process established by this section.
(5) This section does not prohibit school districts or educational service districts from conducting their own competitive bid process.

(6) The superintendent of public instruction may adopt rules under chapter 34.05 RCW to implement this section.

2. Promise scholarships are not intended to supplant any grant, scholarship, or tax program related to postsecondary education. 3. Within available funds, each qualifying student shall receive two consecutive annual awards, the value of each not to exceed the full-time annual resident tuition rates charged by Washington's community colleges. (a) Participation of eligible employees or retired employees and retired school employees in any long-term care insurance plan made available by the public employees' benefits board is voluntary and shall not be subject to binding arbitration under chapter 41.56 RCW. Participation is subject to reasonable underwriting guidelines and eligibility rules established by the public employees' benefits board and the health care authority.

(b) The employee, retired employee, and retired school employee are solely responsible for the payment of the premium rates developed by the health care authority. The health care authority is authorized to charge a reasonable administrative fee in addition to the premium charged by the long-term care insurer, which shall include the health care authority's cost of administration, marketing, and consumer education materials prepared by the health care authority and the office of the insurance commissioner.

(f) In developing the long-term care insurance benefit designs, the public employees' benefits board shall include an alternative plan of care benefit, including adult day services, as approved by the office of the insurance commissioner.

(g) The health care authority, with the cooperation of the office of the insurance commissioner, shall develop a consumer education program for the eligible employees, retired employees, and retired school employees designed to educate on the potential need for long-term care, methods of financing long-term care, and the availability of long-term care insurance products including the products offered by the board.

(2) Moneys in the account may be appropriated only for fire service training. During the (2003-2005) 2005-2007 fiscal biennium, the legislature may appropriate funds from this account for school fire prevention activities within the Washington state patrol.

Sec. 929. RCW 43.72.900 and 2003 c 259 s 1 are each amended to read as follows:
(1) The health services account is created in the state treasury. Moneys in the account may be spent only after appropriation. Subject to the transfers described in subsection (3) of this section, moneys in the account may be expended only for maintaining and expanding health services access for low-income residents, maintaining and expanding the public health system, maintaining and improving the capacity of the health care system, containing health care costs, and the regulation, planning, and administering of the health care system.

(2) Funds deposited into the health services account under RCW 82.24.028 and 82.26.028 shall be used solely as follows:
(a) Five million dollars for the state fiscal year beginning July 1, 2002, and five million dollars for the state fiscal year beginning July 1, 2003, shall be appropriated by the legislature for programs that effectively improve the health of low-income persons, including efforts to reduce diseases and illnesses that harm low-income persons. The department of health shall submit a report to the legislature on March 1, 2002, evaluating the cost-effectiveness of programs that improve the health of low-income persons and address diseases and illnesses that disproportionately affect low-income persons, and making recommendations to the legislature on which of these programs could most effectively utilize the funds appropriated under this subsection.

(b) Ten percent of the funds deposited into the health services account under RCW 82.24.028 and 82.26.028 remaining after the appropriation under (a) of this subsection shall be transferred no less frequently than annually by the treasurer to the tobacco prevention and control account established by RCW 43.79.480. The funds transferred shall be used exclusively for implementation of the Washington state tobacco prevention and control plan and shall be used only to supplement, and not supplant, funds in the tobacco prevention and control account as of January 1, 2001, however, these funds may be used to replace funds appropriated by the legislature for further implementation of the Washington state tobacco prevention and control plan for the biennium beginning July 1, 2001. For each state fiscal year beginning on and after July 1, 2002, the legislature shall appropriate no less than twenty-six million two hundred forty thousand dollars from the tobacco prevention and control account for implementation of the Washington state tobacco prevention and control plan.

(c) Because of its demonstrated effectiveness in improving the health of low-income persons and addressing illnesses and diseases that harm low-income persons, the remainder of the funds deposited into the health services account under RCW 82.24.028 and 82.26.028 shall be appropriated solely for Washington basic health plan enrollment as provided in chapter 70.47 RCW. Funds appropriated under this subsection may be used to support outreach and enrollment activities only to the extent necessary to achieve the enrollment goals described in this section.

(3) Prior to expenditure for the purposes described in subsection (2) of this section, funds deposited into the health services account under RCW 82.24.028 and 82.26.028 shall first be transferred to the following accounts to ensure the continued availability of previously dedicated revenues for certain existing programs:
(a) To the violence reduction and drug enforcement account under RCW 69.50.520, two million two hundred forty-nine thousand five hundred dollars for the state fiscal year beginning July 1, 2001, four million two hundred forty-eight thousand dollars for the state fiscal year beginning July 1, 2002, seven million seven hundred eighty-nine thousand dollars for the biennium beginning July 1, 2003, six million nine hundred thirty-two thousand dollars for the biennium beginning July 1, 2005, and six million nine hundred thirty-two thousand dollars for each biennium thereafter, as required by RCW 82.24.020(2);

(c) To the water quality account under RCW 70.146.030, two million two hundred three thousand five hundred dollars for the state fiscal year beginning July 1, 2001, four million two hundred forty-four thousand dollars for the state fiscal year beginning July 1, 2002, eight million one hundred eighty-two thousand dollars for the biennium beginning July 1, 2003, seven million eight hundred eighty-five thousand dollars for the biennium beginning July 1, 2005, and seven million eight hundred eighty-five thousand dollars for each biennium thereafter, as required by RCW 82.24.027(2)(a).

During the ((2001-2003)) 2005-2007 fiscal biennium, the legislature may transfer from the health services account such amounts as reflect the excess fund balance of the account to the state general fund.

Sec. 930. RCW 43.135.045 and 2003 1st sp.s. c 25 s 920 are each amended to read as follows:

(1) The emergency reserve fund is established in the state treasury. During each fiscal year, the state treasurer shall deposit in the emergency reserve fund all general fund--state revenues in excess of the state expenditure limit for that fiscal year. Deposits shall be made at the end of each fiscal quarter based on projections of state revenues and the state expenditure limit. The treasurer shall make transfers between these accounts as necessary to reconcile actual annual revenues and the expenditure limit for fiscal year 2000 and thereafter.

(2) The legislature may appropriate moneys from the emergency reserve fund only with approval of at least two-thirds of the members of each house of the legislature, and then only if the appropriation does not cause total expenditures to exceed the state expenditure limit under this chapter.

(3) The emergency reserve fund balance shall not exceed five percent of annual general fund--state revenues as projected by the official state revenue forecast. Any balance in excess of five percent shall be transferred on a quarterly basis by the state treasurer as follows: Seventy-five percent to the student achievement fund hereby created in the state treasury and twenty-five percent to the general fund balance. The treasurer shall make transfers between these accounts as necessary to reconcile actual annual revenues for fiscal year 2000 and thereafter. When per-student state funding for the maintenance and operation of K-12 education meets a level of no less than ninety percent of the national average of total funding from all sources per student as determined by the most recent published data from the national center for education statistics of the United States department of education, as calculated by the office of financial management, further deposits to the student achievement fund shall be required only to the extent necessary to maintain the ninety-percent level. Remaining funds are part of the general fund balance and these funds are subject to the expenditure limits of this chapter.

(4) The education construction fund is hereby created in the state treasury.

(a) Funds may be appropriated from the education construction fund exclusively for common school construction or higher education construction.

(b) Funds may be appropriated for any other purpose only if approved by a two-thirds vote of each house of the legislature and if approved by a vote of the people at the next general election. An appropriation approved by the people under this subsection shall result in an adjustment to the state expenditure limit only for the fiscal period for which the appropriation is made and shall not affect any subsequent fiscal period.

(5) Funds from the student achievement fund shall be appropriated to the superintendent of public instruction strictly for distribution to school districts to meet the provisions set out in the student achievement act. Allocations shall be made on an equal per full-time equivalent student basis to each school district.

(6) Earnings of the emergency reserve fund under RCW 43.84.092(4)(a) shall be transferred quarterly to the multimodal transportation account, except for those earnings that are in excess of thirty-five million dollars each fiscal year. Within thirty days following any fiscal year in which earnings transferred to the multimodal transportation account under this subsection did not total thirty-five million dollars, the state treasurer shall transfer from the emergency reserve fund an amount necessary to bring the total deposited in the multimodal transportation account under this subsection to thirty-five million dollars. The revenues to the multimodal transportation account reflected in this subsection provide ongoing support for the transportation programs of the state. However, it is the intent of the legislature that any new long-term financial support that may
be subsequently provided for transportation programs will be used to replace and supplant the revenues reflected in this
subsection, thereby allowing those revenues to be returned to the purposes to which they were previously dedicated. No transfers
from the emergency reserve fund to the multimodal fund shall be made during the (2003–05) 2005-2007 fiscal biennium.

Sec. 931. RCW 43.320.110 and 2003 1st sp.s. c 25 s 921 and 2003 c 288 s 1 are each reenacted and amended to read as

received by the divisions of the department of financial institutions, except for the division of securities which shall deposit

supplies and necessary equipment; the payment of salaries, wages, and utilities; the establishment of reserves; and other
incidental costs required for the proper regulation of individuals and entities subject to regulation by the department. The state

institutions or the director's designee. In order to maintain an effective expenditure and revenue control, the fund shall be subject
in all respects to chapter 43.88 RCW, but no appropriation is required to permit expenditures and payment of obligations from the
fund.

During the 2005-2007 fiscal biennium, the legislature may transfer from the financial services regulation fund to the
state general fund such amounts as reflect the excess fund balance of the fund.

(4) During the 2005-2007 fiscal biennium, the legislature may transfer from the waste reduction, recycling, and litter control account to the state general fund such amounts as reflect the excess fund balance of the account.

(xii) Development and demonstration of alternative management technologies designed to carry out the top two hazardous waste management priorities of RCW 70.105.150.

(3) The following moneys shall be deposited into the local toxics control account: Those revenues which are raised by the tax imposed under RCW 82.21.030 and which are attributable to that portion of the rate equal to thirty-seven one-hundredths of one percent.

(5) One percent of the moneys deposited into the state and local toxics control accounts shall be allocated only for public participation grants to persons who may be adversely affected by a release or threatened release of a hazardous substance and to not-for-profit public interest organizations. The primary purpose of these grants is to facilitate the participation by persons and organizations in the investigation and remedying of releases or threatened releases of hazardous substances and to implement the state's solid and hazardous waste management priorities. However, during the 1999-2001 fiscal biennium, funding may not be granted to entities engaged in lobbying activities, and applicants may not be awarded grants if their cumulative grant awards under this section exceed two hundred thousand dollars. (7) The department shall adopt rules for grant or loan issuance and performance.

(8) During the 2005-2007 fiscal biennium, the legislature may transfer from the state toxics control account to the state general fund such amounts as reflect the excess fund balance of the fund.

During the 2005 interim, the select committee on pension policy shall study the options available to the legislature for addressing the liability associated with future gain-sharing benefits. These options may include, but shall not be limited to, repealing, delaying, or suspending the gain-sharing provisions in law; making gain-sharing discretionary; or replacing gain-sharing benefits with other benefits such as plan choice, employer defined contributions, retirement eligibility enhancements, and post-retirement adjustments. The select committee on pension policy shall report the findings and recommendations of its study to the legislative fiscal committees by no later December 15, 2005.

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 26.44.100 and 1998 c 314 s 8 are each amended to read as follows:

(1) The legislature finds parents and children often are not aware of their due process rights when agencies are investigating allegations of child abuse and neglect. The legislature reaffirms that all citizens, including parents, shall be afforded due process, that protection of children remains the priority of the legislature, and that this protection includes protecting the family unit from unnecessary disruption. To facilitate this goal, the legislature wishes to ensure that parents and children be advised in writing and orally, if feasible, of their basic rights and other specific information as set forth in this chapter, provided that nothing contained in this chapter shall cause any delay in protective custody action.

(2) The department shall notify the alleged perpetrator of (the allegations of child abuse (and) or neglect (at the earliest possible point in the investigation that will not jeopardize the safety and protection of the child or the investigation process) at the initial point of contact with the alleged perpetrator, in a manner consistent with the laws maintaining the confidentiality of the persons making the complaints or allegations. Investigations of child abuse and neglect should be conducted so that relevant evidence of offenses is not concealed or destroyed, child victims are not subjected to undue influence, and actions are not taken that would jeopardize the safety or protection of the child.

Whenever the department completes an investigation of a child abuse or neglect report under chapter 26.44 RCW, the department shall notify the alleged perpetrator of the report and the department's investigative findings. The notice shall also advise the alleged perpetrator that:

(a) A written response to the report may be provided to the department and that such response will be filed in the record following receipt by the department;

(b) Information in the department's record may be considered in subsequent investigations or proceedings related to child protection or child custody;

(c) Founded reports of child abuse and neglect may be considered in determining whether the person is disqualified from being licensed to provide child care, employed by a licensed child care agency, or authorized by the department to care for children; and

(d) An alleged perpetrator named in a founded report of child abuse or neglect has the right to seek review of the finding as provided in this chapter.

(3) The notification required by this section shall be made by certified mail, return receipt requested, to the person's last known address.
(4) The duty of notification created by this section is subject to the ability of the department to ascertain the location of the person to be notified. The department shall exercise reasonable, good-faith efforts to ascertain the location of persons entitled to notification under this section.

(5) The department shall provide training to all persons who conduct investigations under this section that shall include, but is not limited to, training regarding the legal duties of the department from the initial time of contact during investigation through treatment in order to protect children and families.

NEW SECTION. Sec. 2. The legislature finds that whenever possible, children should remain in the home of their parents. It is only when the safety of the child is a concern that the child should be removed from the home.

The legislature finds that the safety of a child is put in jeopardy when a child is subject to chronic neglect. The legislature recognizes that chronic neglect may be more dangerous to a child than physical or sexual abuse, and must be treated as such by those charged with the protection of children in this state.

It is the intent of the legislature that the department of social and health services be permitted to intervene in cases of chronic neglect where the well-being of the child is at risk. One incident of neglect may not rise to the level requiring state intervention; however, a pattern of neglect has been shown to cause damage to the health and well-being of the child subject to the neglect.

It is the intent of the legislature that when chronic neglect has been found to exist in a family, the legal system reinforce the need for the parent to engage in services that will decrease the likelihood of future neglect. However, if the parents fail to comply with the necessary services, the state must intervene to protect the children who are at risk.

Sec. 3. RCW 13.34.138 and 2003 c 227 s 5 are each amended to read as follows:

(1) Except for children whose cases are reviewed by a citizen review board under chapter 13.70 RCW, the status of all children found to be dependent shall be reviewed by the court at least every six months from the beginning date of the placement episode or the date dependency is established, whichever is first, at a hearing in which it shall be determined whether court supervision should continue. The initial review hearing shall be an in-court review and shall be set six months from the beginning date of the placement episode or no more than ninety days from the entry of the disposition order, whichever comes first. The initial review hearing may be a permanency planning hearing when necessary to meet the time frames set forth in RCW 13.34.145(3) or 13.34.134. The review shall include findings regarding the agency and parental completion of disposition plan requirements, and if necessary, revised permanency time limits. This review shall consider both the agency's and parent's efforts that demonstrate consistent measurable progress over time in meeting the disposition plan requirements. The requirements for the initial review hearing, including the in-court requirement, shall be accomplished within existing resources. The supervising agency shall provide a foster parent, preadoptive parent, or relative with notice of, and their right to an opportunity to be heard in, a review hearing pertaining to the child, but only if that person is currently providing care to that child at the time of the hearing. This section shall not be construed to grant party status to any person who has been provided an opportunity to be heard.

(a) A child shall not be returned home at the review hearing unless the court finds that a reason for removal as set forth in RCW 13.34.130 no longer exists. The parents, guardian, or legal custodian shall report to the court the efforts they have made to correct the conditions which led to removal. If a child is returned, casework supervision shall continue for a period of six months, at which time there shall be a hearing on the need for continued intervention.

(b) If the child is not returned home, the court shall establish in writing:

(i) Whether reasonable services have been provided to or offered to the parties to facilitate reunion, specifying the services provided or offered;

(ii) Whether the child has been placed in the least-restrictive setting appropriate to the child's needs, including whether consideration and preference has been given to placement with the child's relatives;

(iii) Whether there is a continuing need for placement and whether the placement is appropriate;

(iv) Whether there has been compliance with the case plan by the child, the child's parents, and the agency supervising the placement;

(v) Whether progress has been made toward correcting the problems that necessitated the child's placement in out-of-home care;

(vi) Whether the parents have visited the child and any reasons why visitation has not occurred or has been infrequent;

(vii) Whether additional services, including housing assistance, are needed to facilitate the return of the child to the child's parents; if so, the court shall order that reasonable services be offered specifying such services; and

(viii) The projected date by which the child will be returned home or other permanent plan of care will be implemented.

(1) If the department, upon investigation of a report that a child has been abused or neglected as defined in this chapter, determines that the child has been subject to or is at risk of negligent treatment or maltreatment, the department may offer services to the child's parents, guardians, or legal custodians (a) to ameliorate the conditions that endangered the welfare of the child or that place the child at risk of future abuse or neglect, or (b) to address or treat the effects of mistreatment or neglect upon the child. If the child's parents, guardians, or legal custodians are available and willing to participate on a voluntary basis in in-home services, and the department determines that in-home services on a voluntary basis are appropriate for the family, the department may offer such services.

(2) In cases where the department has offered appropriate and reasonable services under subsection (1) of this section, and the parents, guardians, or legal custodians refuse to accept or fail to obtain appropriate treatment or services, or are unable or unwilling to participate in or successfully and substantially complete the treatment or services identified by the department, the department may initiate a dependency proceeding under chapter 13.34 RCW on the basis that the negligent treatment or maltreatment by the parent, guardian, or legal custodian constitutes neglect.

(3) Nothing in this section precludes the department from filing a dependency petition as provided in chapter 13.34 RCW if it determines that such action is necessary to protect the child from abuse or neglect or safeguard the child from future abuse or neglect.

(4) Nothing in this section shall be construed to create in any person an entitlement to services or financial assistance in paying for services or to create judicial authority to order the provision of services to any person or family if the services are unavailable or unsuitable or if the child or family is not eligible for such services.

Sec. 7. RCW 74.13.031 and 2004 c 183 s 3 are each amended to read as follows:

The department shall have the duty to provide child welfare services and shall:

If the investigation reveals that a crime against a child may have been committed, the department shall notify the appropriate law enforcement agency.

(4) Offer, on a voluntary basis, family reconciliation services to families who are in conflict.

(5) Monitor out-of-home placements, on a timely and routine basis, to assure the safety, well-being, and quality of care being provided is within the scope of the intent of the legislature as defined in RCW 74.13.010 and 74.15.010, and annually submit a report measuring the extent to which the department achieved the specified goals to the governor and the legislature.

(6) Have authority to accept custody of children from parents and to accept custody of children from juvenile courts, where authorized to do so under law, to provide child welfare services including placement for adoption, and to provide for the physical care of such children and make payment of maintenance costs if needed. Sec. 1915), no private adoption agency which receives children for adoption from the department shall discriminate on the basis of race, creed, or color when considering applications in their placement for adoption.

(7) Have authority to provide temporary shelter to children who have run away from home and who are admitted to crisis residential centers.

(8) Have authority to purchase care for children; and shall follow in general the policy of using properly approved private agency services for the actual care and supervision of such children insofar as they are available, paying for care of such children as are accepted by the department as eligible for support at reasonable rates established by the department.

(9) Establish a children's services advisory committee which shall assist the secretary in the development of a partnership plan for utilizing resources of the public and private sectors, and advise on all matters pertaining to child welfare, licensing of child care agencies, adoption, and services related thereto. At least one member shall represent the adoption community.

(10) Have authority to provide continued foster care or group care for individuals from eighteen through twenty years of age to enable them to complete their high school or vocational school program.

(11) Refer cases to the division of child support whenever state or federal funds are expended for the care and maintenance of a child, including a child with a developmental disability who is placed as a result of an action under chapter 13.34 RCW, unless the department finds that there is good cause not to pursue collection of child support against the parent or parents of the child.

(12) Have authority within funds appropriated for foster care services to purchase care for Indian children who are in the custody of a federally recognized Indian tribe or tribally licensed child-placing agency pursuant to parental consent, tribal court order, or state juvenile court order; and the purchase of such care shall be subject to the same eligibility standards and rates of support applicable to other children for whom the department purchases care. Notwithstanding any other provision of RCW 13.32A.170 through 13.32A.200 and 74.13.032 through 74.13.036, or of this section all services to be provided by the department of social and health services under subsections (4), (6), and (7) of this section, subject to the limitations of these subsections, may be provided by any program offering such services funded pursuant to Titles II and III of the federal juvenile justice and delinquency prevention act of 1974.

(13) Within amounts appropriated for this specific purpose, provide preventive services to families with children that prevent or shorten the duration of an out-of-home placement.

(14) Have authority to provide independent living services to youths, including individuals eighteen through twenty years of age, who are or have been in foster care.
NEW SECTION. Sec. 8. The legislature recognizes that the fiscal and workload impact of this act may not be fully determined until after it is implemented and that such impact may further be affected by the funding or availability of community-based prevention and remedial services. For that reason, the department of social and health services shall report on the implementation of this act to the appropriate legislative committees and the governor by December 1, 2006. The report shall include information regarding any change over previous years in the number and type of child abuse and neglect referrals received and investigations conducted, any change in in-home and out-of-home dependency placements and/or filings, any increased service costs, barriers to implementation, and an assessment of the fiscal and workload impact on the department. Such information shall be reviewed by the legislature for possible amendment of this act or additional allocation of resources to the department for implementation purposes.

Requiring a study of public employee health plans and health savings account options.

Representative Condotta moved the adoption of the following amendment (431):

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 41.05.006 and 1988 c 107 s 2 are each amended to read as follows:

(1) The legislature recognizes that (a) the state is a major purchaser of health care services, (b) the increasing costs of such health care services are posing and will continue to pose a great financial burden on the state, (c) it is the state's policy, consistent with the best interests of the state, to provide comprehensive health care as an employer, to state employees and officials and their dependents and to those who are dependent on the state for necessary medical care, and (d) it is imperative that the state begin to develop effective and efficient health care delivery systems and strategies for procuring health care services in order for the state to continue to purchase the most comprehensive health care possible.

(2) It is therefore the purpose of this chapter to establish the Washington state health care authority whose purpose shall be to (a) develop health care benefit programs that provide access to at least one comprehensive benefit plan funded to the fullest extent possible by the employer, and a health savings account/high deductible health plan option as defined in section 1201 of the medicare prescription drug improvement and modernization act of 2003, as amended, for eligible state employees, officials, and their dependents, and (b) study all state-purchased health care, alternative health care delivery systems, and strategies for the procurement of health care services and make recommendations aimed at minimizing the financial burden which health care poses on the state, its employees, and its charges, while at the same time allowing the state to provide the most comprehensive health care options possible.

Sec. 2. RCW 41.05.065 and 2003 c 158 s 2 are each amended to read as follows:

(1) The board shall study all matters connected with the provision of health care coverage, life insurance, liability insurance, accidental death and dismemberment insurance, and disability income insurance or any of, or a combination of, the enumerated types of insurance for employees and their dependents on the best basis possible with relation both to the welfare of the employees and to the state. However, liability insurance shall not be made available to dependents.

(2) The board shall develop employee benefit plans that include comprehensive health care benefits for all employees. In developing these plans, the board shall consider the following elements:

(a) Methods of maximizing cost containment while ensuring access to quality health care;

(b) Development of provider arrangements that encourage cost containment and ensure access to quality care, including but not limited to prepaid delivery systems and prospective payment methods;

(c) Wellness incentives that focus on proven strategies, such as smoking cessation, injury and accident prevention, reduction of alcohol misuse, appropriate weight reduction, exercise, automobile and motorcycle safety, blood cholesterol reduction, and nutrition education;

(d) Utilization review procedures including, but not limited to a cost-efficient method for prior authorization of services, hospital inpatient length of stay review, requirements for use of outpatient surgeries and second opinions for surgeries, review of invoices or claims submitted by service providers, and performance audit of providers;

(e) Effective coordination of benefits;

(f) Minimum standards for insuring entities; and

(g) Minimum scope and content of public employee benefit plans to be offered to enrollees participating in the employee health benefit plans. To maintain the comprehensive nature of employee health care benefits, employee eligibility criteria related to the number of hours worked and the benefits provided to employees shall be substantially equivalent to the state employees' health benefits plan and eligibility criteria in effect on January 1, 1993. Nothing in this subsection (2)(g) shall
prohibit changes or increases in employee point-of-service payments or employee premium payments for benefits or the administration of a high deductible health plan in conjunction with a health savings account.

(3) The board shall design benefits and determine the terms and conditions of employee participation and coverage, including establishment of eligibility criteria. The same terms and conditions of participation and coverage, including eligibility criteria, shall apply to state employees and to school district employees and educational service district employees.

(4) The board may authorize premium contributions for an employee and the employee’s dependents in a manner that encourages the use of cost-efficient managed health care systems. The board shall require participating school district and educational service district employees to pay at least the same employee premiums by plan and family size as state employees pay.

(5) The board shall develop a health savings account option for employees that conforms to section 223, Part VII of subchapter B of chapter 1 of the internal revenue code of 1986. The board shall comply with all applicable federal standards related to the establishment of health savings accounts.

(6) Notwithstanding any other provision of this chapter, the board shall develop a high deductible health plan to be offered in conjunction with a health savings account developed under subsection (5) of this section.

(7) Employees shall choose participation in one of the health care benefit plans developed by the board and may be permitted to waive coverage under terms and conditions established by the board.

(8) The board shall review plans proposed by insuring entities that desire to offer property insurance and/or accident and casualty insurance to state employees through payroll deduction. The board may approve any such plan for payroll deduction by insuring entities holding a valid certificate of authority in the state of Washington and which the board determines to be in the best interests of employees and the state. The board shall promulgate rules setting forth criteria by which it shall evaluate the plans.

(9) Before January 1, 1998, the public employees’ benefits board shall make available one or more fully insured long-term care insurance plans that comply with the requirements of chapter 48.84 RCW. Such programs shall be made available to eligible employees, retired employees, and retired school employees as well as eligible dependents which, for the purpose of this section, includes the parents of the employee or retiree and the parents of the spouse of the employee or retiree. Employees of local governments and employees of political subdivisions not otherwise enrolled in the public employees’ benefits board sponsored medical programs may enroll under terms and conditions established by the administrator, if it does not jeopardize the financial viability of the public employees’ benefits board’s long-term care offering.

(a) Participation of eligible employees or retired employees and retired school employees in any long-term care insurance plan made available by the public employees’ benefits board is voluntary and shall not be subject to binding arbitration under chapter 41.56 RCW. Participation is subject to reasonable underwriting guidelines and eligibility rules established by the public employees’ benefits board and the health care authority.

(b) The employee, retired employee, and retired school employee are solely responsible for the payment of the premium rates developed by the health care authority. The health care authority is authorized to charge a reasonable administrative fee in addition to the premium charged by the long-term care insurer, which shall include the health care authority’s cost of administration, marketing, and consumer education materials prepared by the health care authority and the office of the insurance commissioner.

(c) To the extent administratively possible, the state shall establish an automatic payroll or pension deduction system for the payment of the long-term care insurance premiums.

(d) The public employees’ benefits board and the health care authority shall establish a technical advisory committee to provide advice in the development of the benefit design and establishment of underwriting guidelines and eligibility rules. The committee shall also advise the board and authority on effective and cost-effective ways to market and distribute the long-term care product. The technical advisory committee shall be comprised, at a minimum, of representatives of the office of the insurance commissioner, providers of long-term care services, licensed insurance agents with expertise in long-term care insurance, employees, retired employees, retired school employees, and other interested parties determined to be appropriate by the board.

(e) The health care authority shall offer employees, retired employees, and retired school employees the option of purchasing long-term care insurance through licensed agents or brokers appointed by the long-term care insurer. The authority, in consultation with the public employees’ benefits board, shall establish marketing procedures and may consider all premium components as a part of the contract negotiations with the long-term care insurer.

(f) In developing the long-term care insurance benefit designs, the public employees’ benefits board shall include an alternative plan of care benefit, including adult day services, as approved by the office of the insurance commissioner.

(g) The health care authority, with the cooperation of the office of the insurance commissioner, shall develop a consumer education program for the eligible employees, retired employees, and retired school employees designed to provide
education on the potential need for long-term care, methods of financing long-term care, and the availability of long-term care insurance products including the products offered by the board.

(h) By December 1998, the health care authority, in consultation with the public employees' benefits board, shall submit a report to the appropriate committees of the legislature, including an analysis of the marketing and distribution of the long-term care insurance provided under this section."

On motion of Representative Quall, the committee amendment by the Committee on Education was before the House for purpose of amendments. (For committee amendment, see Journal, 82\textsuperscript{nd} Day, April 1, 2005.)

Representative Talcott moved the adoption of amendment (463) to the committee amendment:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 28A.150 RCW to read as follows:
The legislature finds that digital learning courses and programs can provide students with opportunities to study subjects that may not otherwise be available within the students' schools, school districts, or communities. These courses can also meet the instructional needs of students who have scheduling conflicts, students who learn best from technology-based instructional methods, and students who have a need to enroll in schools on a part-time basis. Digital learning courses can also meet the needs of students and families seeking nontraditional learning environments. The legislature further finds that the state rules used by school districts to support some digital learning courses were adopted before these types of courses were created, so the rules are not well-suited to the funding and delivery of digital instruction. It is the intent of the legislature to clarify the funding and delivery requirements for digital learning courses.

NEW SECTION. Sec. 2. A new section is added to chapter 28A.150 RCW to read as follows:
Under RCW 28A.150.260, the superintendent of public instruction shall revise the definition of a full-time equivalent student to include students who receive instruction through digital programs. "Digital programs" means electronically delivered learning that occurs primarily away from the classroom. The superintendent of public instruction has the authority to adopt rules to implement the revised definition beginning with the 2005-2007 biennium for school districts claiming state funding for the programs. The rules shall include but not be limited to the following:

(1) Defining a full-time equivalent student under RCW 28A.150.260 or part-time student under RCW 28A.150.350 based upon the district's estimated average weekly hours of learning activity as identified in the student's learning plan, as long as the student is found, through monthly evaluation, to be making satisfactory progress; the rules shall require districts providing programs under this section to nonresident students to establish procedures that address, at a minimum, the coordination of student counting for state funding so that no student is counted for more than one full-time equivalent in the aggregate;

(2) Requiring the board of directors of a school district offering, or contracting under RCW 28A.150.305 to offer, a digital program to adopt and annually review written policies for each program and program provider and to receive an annual report on its digital learning programs from its staff;

(3) Requiring each school district offering or contracting to offer a digital program to report annually to the superintendent of public instruction on the types of programs and course offerings, and number of students participating;

(4) Requiring completion of a program self-evaluation;

(5) Requiring documentation of the district of the student's physical residence;

(6) Requiring that supervision, monitoring, assessment, and evaluation of the digital program be provided by certificated instructional staff;

(7) Requiring each school district offering courses or programs to identify the ratio of certificated instructional staff to full-time equivalent students enrolled in such courses or programs, and to include a description of their ratio as part of the reports required under subsections (2) and (3) of this section;

(8) Requiring reliable methods to verify a student is doing his or her own work; the methods may include proctored examinations or projects, including the use of web cams or other technologies. "Proctored" means directly monitored by an adult authorized by the school district;

(9) Requiring, for each student receiving instruction in a digital program, a learning plan that includes a description of course objectives and information on the requirements a student must meet to successfully complete the program or courses. The rules shall allow course syllabi and other additional information to be used to meet the requirement for a learning plan;

(10) Requiring that the district assess the educational progress of enrolled students at least annually, using, for full-time students, the state assessment for the student's grade level and using any other annual assessments required by the school district. Part-time students shall also be assessed at least annually. However, part-time students who are either receiving home-based instruction under chapter 28A.200 RCW or who are enrolled in an approved private school under chapter 28A.195 RCW are not
required to participate in the assessments required under chapter 28A.655 RCW. The rules shall address how students who reside outside the geographic service area of the school district are to be assessed;

(11) Requiring that each student enrolled in the program have direct personal contact with certificated instructional staff at least weekly until the student completes the course objectives or the requirements in the learning plan. Direct personal contact is for the purposes of instruction, review of assignments, testing, evaluation of student progress, or other learning activities. Direct personal contact may include the use of telephone, e-mail, instant messaging, interactive video communication, or other means of digital communication;

(12) Requiring state-funded public schools or public school programs whose primary purpose is to provide digital learning programs to receive accreditation through the state accreditation program or through the regional accreditation program;

(13) Requiring state-funded public schools or public school programs whose primary purpose is to provide digital learning to provide information to students and parents on whether or not the courses or programs: Cover one or more of the school district's learning goals or of the state's essential academic learning requirements or whether they permit the student to meet one or more of the state's or district's graduation requirements; and

(14) Requiring that a school district that provides one or more digital courses to a student provide the parent or guardian of the student, prior to the student's enrollment, with a description of any difference between home-based education as described in chapter 28A.200 RCW and the enrollment option selected by the student. The parent or guardian shall sign documentation attesting to his or her understanding of the difference and the documentation shall be retained by the district and made available for audit."

Sec. 11. RCW 46.16.775 and 2003 c 196 s 304 are each amended to read as follows:

(1) A special license plate series created by the legislature after January 1, 2004, that has not been reviewed and approved by the special license plate review board or the department is subject to the following requirements:

   (a) The organization sponsoring the license plate series shall, within thirty days of enactment of the legislation creating the plate series, submit prepayment of all start-up costs associated with the creation and implementation of the special license plate in an amount determined by the department. The prepayment will be credited to the motor vehicle fund. The creation and implementation of the plate series may not commence until payment is received by the department.

   (b) If the sponsoring organization is not able to meet the prepayment requirements in (a) of this subsection and can demonstrate this fact to the satisfaction of the department, the revenues generated from the sale of the special license plates must be deposited in the motor vehicle account until the department determines that the state's portion of the implementation costs have been fully reimbursed. When it is determined that the state has been fully reimbursed the department must notify the treasurer to commence distribution of the revenue according to statutory provisions.

   (c) The sponsoring organization must provide a proposed license plate design to the department within thirty days of enactment of the legislation creating the plate series.

(2) The state must be reimbursed for its portion of the implementation costs within two years from the date the new plate series goes on sale to the public. If the reimbursement does not occur within the two-year time frame, the special license plate series must be placed in probationary status for a period of one year from that date. If the state is still not fully reimbursed for its implementation costs after the one-year probation, the plate series must be discontinued immediately. Those plates issued before discontinuation are valid until replaced under RCW 46.16.233.

(3) If the sponsoring organization ceases to exist or the purpose of the special plate series ceases to exist, revenues generated from the sale of the special license plates must be deposited into the motor vehicle account.

(4) A sponsoring organization may not seek to redesign their plate series until all of the existing inventory is sold or purchased by the organization itself. All cost for redesign of a plate series must be paid by the sponsoring organization.

(2) The department shall rule on the application within sixty days of the deadline provided in subsection (1) of this section.
(3) The department shall disapprove any application not received by the deadline provided in subsection (1) of this section regardless of the reason that the application was received after the deadline.
(4) After an application is approved and tax credit granted, no increase in the credit shall be allowed.

Sec. 3. RCW 82.70.020 and 2003 c 364 s 2 are each amended to read as follows:

(1) Employers in this state who are taxable under chapter 82.04 or 82.16 RCW and provide financial incentives to their own or other employees for ride sharing, for using public transportation, for using car sharing, or for using nonmotorized commuting before July 1, 2013, are allowed a credit against taxes payable under chapters 82.04 and 82.16 RCW for amounts paid to or on behalf of employees for ride sharing in vehicles carrying two or more persons, for using public transportation, for using car sharing, or for using nonmotorized commuting, not to exceed sixty dollars per employee per fiscal year.

(2) Property managers who are taxable under chapter 82.04 or 82.16 RCW and provide financial incentives to persons employed at a worksite in this state managed by the property manager for ride sharing, for using public transportation, for using car sharing, or for using nonmotorized commuting before July 1, 2013, are allowed a credit against taxes payable under chapters 82.04 and 82.16 RCW for amounts paid to or on behalf of these persons for ride sharing in vehicles carrying two or more persons, for using public transportation, for using car sharing, or for using nonmotorized commuting, not to exceed sixty dollars per person per fiscal year.

(3) The credit under this section is equal to the amount paid to or on behalf of each employee multiplied by fifty percent, but may not exceed sixty dollars per employee per fiscal year. (The credit may not exceed the amount of tax that would otherwise be due under chapters 82.04 and 82.16 RCW.)

(4) A person may not receive credit under this section for amounts paid to or on behalf of the same employee under both chapters 82.04 and 82.16 RCW.

(5) A person may not take a credit under this section for amounts claimed for credit by other persons.

Sec. 4. RCW 82.70.030 and 2003 c 364 s 3 are each amended to read as follows:

((4)) Application for tax credit under RCW 82.70.020 may only be made in the form and manner prescribed in rules adopted by the department.

(2) The credit under this section must be taken or deferred under RCW 82.70.040 against taxes due for the same fiscal year in which the amounts for which credit is claimed were paid to or on behalf of employees for ride sharing, for using public transportation, for using car sharing, or for using nonmotorized commuting and must be claimed by the due date of the last tax return for the fiscal year in which the payment is made.

(3) Any person who knowingly makes a false statement of a material fact in the application required under section 2 of this act for a credit under RCW 82.70.020 is guilty of a gross misdemeanor.

Sec. 5. RCW 82.70.040 and 2003 c 364 s 4 are each amended to read as follows:

(1) The department shall keep a running total of all credits allowed under RCW 82.70.020 during each fiscal year. (No person is eligible for tax credits under RCW 82.70.020 if the credits would cause the tabulation for the total amount of credits taken in any fiscal year) The department shall not allow any credits that would cause the total amount allowed to exceed two million seven hundred fifty thousand dollars in any fiscal year. This limitation includes any deferred credits carried forward under subsection (2)(b)(i) of this section from prior years.

(b) If the total amount of credit applied for by all applicants in any year exceeds the limit in this subsection, the department shall ratably reduce the amount of credit allowed for all applicants so that the limit in this subsection is not exceeded. If a credit is reduced under this subsection, the amount of the reduction may not be carried forward and claimed in subsequent fiscal years.

(2)(a) (No person is eligible for) Tax credits under RCW 82.70.020 may not be claimed in excess of the amount of tax otherwise (be) due under chapter 82.04 or 82.16 RCW.

(b) Through June 30, 2005, a person with taxes equal to or in excess of the credit under RCW 82.70.020, and therefore not subject to the limitation in (a) of this subsection, may elect to defer tax credits for a period of not more than three years after the year in which the credits accrue. No credits deferred under this subsection (2)(b)(i) may be used after June 30, 2008. A person deferring tax credits under this subsection (2)(b)(i) must submit an application as provided in section 2 of this act in the year in which the deferred tax credits will be (applied) used. This application is subject to (eligibility under) the provisions of subsection (1) of this section for the (fiscal) year in which the tax credits will be applied. If a deferred credit is reduced under subsection (1)(b) of this section, the amount of deferred credit disallowed because of the reduction may be carried forward as long as the period of deferral does not exceed three years after the year in which the credit was earned.

(ii) For credits approved by the department after June 30, 2005, the approved credit may be carried forward to subsequent years until used. Credits carried forward as authorized by this subsection are subject to the limitation in subsection (1)(a) of this section for the fiscal year for which the credits were originally approved.
(3) No person shall be approved for tax credits under RCW 82.70.020 in excess of two hundred thousand dollars in any fiscal year. This limitation does not apply to credits carried forward from prior years under subsection (2)(b) of this section.

(4) No person may claim tax credits, including deferred credits authorized under subsection (2)(b) of this section, after June 30, 2013.

(5) Credits may not be carried forward other than as authorized in subsection (2)(b) of this section.

(6) No person is eligible for tax credits under RCW 82.70.020 if the additional revenues for the multimodal transportation account created by Engrossed Substitute House Bill No. 2231 are terminated.

State Drought Preparedness (05-4-009)

The reappropriation in this section is subject to the following conditions and limitations:

1. The reappropriation in this section is provided solely for response to the statewide drought that was declared pursuant to chapter 43.83B RCW. The department of ecology may provide funding or compensation for purchase or lease of water rights and to public bodies as defined in RCW 43.83B.050 in connection with projects and measures designed to alleviate drought conditions which may affect: Public health and safety; drinking water supplies; agricultural activities; or fish and wildlife survival.

2. Projects or measures for which funding or compensation will be provided must be connected with a water system, water source, or water body which is receiving, or has been projected to receive, less than seventy-five percent of normal water supply, as the result of natural drought conditions. This reduction in water supply must be such that it is causing, or will cause, undue hardship for the entities or fish or wildlife depending on the water supply. General criteria for guidelines to be established by the department of ecology for distribution of funds must include: A balanced and equitable distribution of the funds among the different sectors affected by drought; a funding process that ensures funds are available for drought impacts that arise both early and later during the course of the drought; and preference for projects that leverage other federal and local funds.
