SECOND SUBSTITUTE HOUSE BILL NO. 1303 was read the second time.

Representative Dickerson moved the adoption of amendment (225):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that excessive dependence on fossil fuels jeopardizes Washington's economic security, environmental integrity, and public health. Accelerated development and use of clean fuels and clean vehicle technologies will reduce the drain on Washington's economy from importing fossil fuels. As fossil fuel prices rise, clean fuels and vehicles can save money for consumers while promoting the development of a major, sustainable industry that provides good jobs and a new source of rural prosperity.

(2) Clean fuels and vehicles will protect public health by reducing toxic air pollution and reduce our largest source of global warming pollution. The state must better understand and prepare for the effects of global warming and the challenges and opportunities associated with evolving climate policies and carbon markets.

(3) To reduce fossil fuel dependence and build our clean energy economy, the state should develop policies and incentives that help businesses, consumers, and farmers gain greater access to affordable clean fuels and vehicles and to produce clean fuels in the state. These policies and incentives should include: Incentives for replacement of the most polluting diesel engines, especially in school buses; transitional incentives for development of the most promising in-state clean fuels and fuel feedstocks, including biodiesel crops, ethanol from plant waste, and liquid natural gas from landfill or wastewater treatment gases; reduced fossil fuel consumption by state fleets; development of promising new technologies for displacing petroleum with electricity, such as "plug-in hybrids"; and impact analysis and emission accounting procedures that prepare Washington to respond
and prosper as global warming impacts occur and as policies and markets to reduce global warming pollution are developed.

PART 1 INVESTING IN CLEAN AIR

NEW SECTION. Sec. 101. (1) The legislature finds that fine particle air pollution attributable to diesel fuel is a significant health hazard to school children and other residents in our state. Sources of diesel emissions include diesel-powered trucks, buses and cars, diesel-powered marine vessels, construction equipment, trains, aircraft support equipment, cargo handling equipment, and a variety of other on and off-road engines. Reducing fine particles and toxic emissions from diesel emissions and other sources of pollution reduces the adverse health impacts on children, reduces cancer risk, and reduces the incidence and severity of asthma attacks and chronic bronchitis. Reducing diesel emissions, in addition to strategies to reduce wood smoke, will also aid areas of the state facing potential nonattainment of new fine particle standards established by the United States environmental protection agency and help avoid the adverse health and economic impacts of nonattainment.

(2) Under the current Washington state clean school bus program, approximately seven thousand five hundred diesel school buses, over three-quarters of the existing fleet statewide, will be retired by 2009. Reduced diesel emissions from these retrofit school buses will provide cleaner air to breathe for the children riding the buses and the citizens in the communities served by the buses.

(3) The legislature finds that it is not cost-effective to retrofit much older buses because of their mechanical condition and very high emissions. Replacement with new, ultra-low emission buses, beginning with the model year 2007, is the most effective means to nearly eliminate the toxic emissions generated by the use of these older buses. In addition, newer buses are safer, more reliable, provide significantly higher fuel economy, and have lower overall operating costs. An incentive program to accelerate purchase of newer buses and replacement of older buses will more quickly achieve these gains and result in a lower health risk to children.

(4) Even with new federal diesel fuel and engine standards going into effect in 2006 and 2007, and due to the long life of diesel engines, diesel emissions will continue to be an air pollution concern for many years.

(5) Many public and private fleets continue to use diesel equipment that has not been retrofitted to reduce emissions. Therefore, the legislature finds that it is important to continue to take measures to reduce diesel emissions in our state so we protect the health of our citizens and create healthier communities. Reducing diesel emissions will also allow continued growth in major ports in the state by maintaining air quality within federal standards.

NEW SECTION. Sec. 102. A new section is added to chapter 28A.300 RCW to read as follows:

(1) The office of the superintendent of public instruction shall implement a school bus replacement incentive program. As part of the program, the office shall fund up to ten percent of the cost of a new 2007 or later model year school bus that meets the 2007 federal motor vehicle emission control standards and is purchased by a school district by no later than June 30, 2009, provided that the new bus is replacing a 1994 or older school bus in the school district’s fleet. Replacement of the oldest buses must be given highest priority.

(2) The office of the superintendent of public instruction shall ensure that buses being replaced through this program are surplused under RCW 28A.335.180. As part of the surplus process, school districts must provide written documentation to the office of the superintendent of public instruction demonstrating that buses being replaced are scrapped and not purchased for road use. The documentation must include bus make, model, year, vehicle identification number, engine make, engine serial number, and salvage yard receipts; and must demonstrate that the engine and body of the bus being replaced has been rendered unusable.

Sec. 103. RCW 70.94.017 and 2005 c 295 s 5 are each amended to read as follows:

(1) Money deposited in the segregated subaccount of the air pollution control account under RCW 46.68.020(2) shall be distributed as follows:

(a) Eighty-five percent shall be distributed to air pollution control authorities created under this chapter. The money must be distributed in direct proportion with the amount of fees imposed under RCW 46.12.080, 46.12.170, and 46.12.181 that are collected within the boundaries of each authority. However, an amount in direct proportion with those fees collected in counties for which no air pollution control authority exists must be distributed to the department.

(b) The remaining fifteen percent shall be distributed to the department.

(2) Money distributed to air pollution control authorities and the department under subsection (1) of this section must be used as follows:

(a) Eighty-five percent of the money received by an air pollution control authority or the department is available on a priority basis to retrofit school buses with exhaust emission control devices or to provide funding for fueling infrastructure necessary to allow school bus fleets to use alternative, cleaner fuels. In addition, the director of ecology or the air pollution control officer may direct funding under this section for other publicly or privately owned diesel equipment if the director or air pollution control officer finds that funding for other publicly or privately owned diesel equipment will provide public health benefits and further the purposes of this chapter.

(b) The remaining fifteen percent may be used by the air pollution control authority or department to reduce transportation-related air contaminant emissions and clean up air pollution, or reduce and monitor toxic air contaminants.

(3) Money in the air pollution control account may be spent by the department only after appropriation.

(4) This section expires July 1, 2020.

Sec. 104. RCW 53.08.040 and 1989 c 298 s 1 are each amended to read as follows:

(1) A district may improve its lands by dredging, filling, bulkheading, providing waterways or otherwise developing such lands for industrial and commercial purposes. A district may also acquire, construct, install, improve, and operate sewer and water utilities to serve its own property and other property owners under terms, conditions, and rates to be fixed and approved by the port commission. A district may also acquire, by purchase, construction, lease, or in any other manner, and may maintain and operate other facilities for the control or elimination of air, water, or other pollution, including, but not limited to, facilities for the treatment and/or disposal of industrial wastes, and may make such facilities available to others under terms, conditions and rates to be fixed and approved by the port commission. Such conditions and rates shall be sufficient to reimburse the port for all costs, including reasonable amortization of capital outlays caused by or incidental to providing such other pollution control facilities. However, no port of such costs of providing any pollution control facility to others shall be paid out of any tax revenues of the port and no port shall enter into an agreement or contract to provide sewer and/or water utilities or pollution control facilities if substantially similar utilities or facilities are available from another source (or sources) which is able and willing to provide such utilities or facilities on a reasonable and nondiscriminatory basis unless such other source (or sources) consents thereto.

(2) In the event that a port elects to make such other pollution control facilities available to others, it shall do so by lease, lease purchase agreement, or other agreement binding such user to pay for the use of said facilities for the full term of the revenue bonds issued by the port for the acquisition of said facilities, and said payments shall at least fully reimburse the port for all principal and interest paid by it on said bonds and for all operating or other costs, if any, incurred by the port in connection with said facilities. However, where there is more than one user of any such facilities, each user shall be responsible for its pro rata share of such costs and payment of principal and interest.
intending to provide pollution control facilities to others shall first survey the port district to ascertain the potential users of such facilities and the extent of their needs. The port shall conduct a public hearing upon the proposal and shall give each potential user an opportunity to participate in the use of such facilities upon equal terms and conditions.

(3) "Pollution control facility," as used in this section and RCW 53.08.041, does not include air quality improvement equipment that provides emission reductions for engines, vehicles, and vessels.

PART 2 PUBLIC SECTOR FUEL USE

NEW SECTION. Sec. 201. (1) The legislature finds that it is in the state's interest and to the benefit of the people of the state to encourage the use of electrical vehicle technology that will reduce fossil fuel dependence and toxic air pollution. Displacing petroleum with electricity will keep more energy expenditures and jobs in Washington's economy instead of being lost to fossil fuel imports.

(2) Motor vehicles produce more than half of the global warming pollution in the state of Washington. Reducing the use of fossil fuels through alternatives such as electrification is one of the most practical, beneficial climate solutions available to the state and its citizens.

(3) The legislature finds that cleaner fuels and vehicles, including vehicles that use electricity, can help the state achieve better public health, increased energy security, and substantial economic benefits.

(4) The legislature finds that there is a compelling public interest in reducing fossil fuel dependence and emissions of global warming pollution. It is important for the state of Washington to demonstrate leadership in this regard and achieve reductions in the use of fossil fuels by state fleets.

Sec. 202. RCW 43.19.642 and 2006 c 338 s 10 are each amended to read as follows:

(1) All state agencies are encouraged to use a fuel blend of twenty percent biodiesel and eighty percent petroleum diesel for use in diesel-powered vehicles and equipment.

(2) Effective June 1, 2006, for agencies complying with the ultra-low sulfur diesel mandate of the United States environmental protection agency for on-highway diesel fuel, agencies shall use biodiesel as an additive to ultra-low sulfur diesel for lubricity, provided that the use of a lubricity additive is warranted and that the use of biodiesel is comparable in performance and cost with other available lubricity additives. The amount of biodiesel added to the ultra-low sulfur diesel fuel shall be not less than two percent.

(3) Effective June 1, 2009, state agencies are required to use a minimum of twenty percent biodiesel as compared to total volume of all petroleum fuels purchased by the agencies for the operation of their diesel-powered vehicles, vehicles, and construction equipment.

(4)(a) Effective June 1, 2015, all state agencies and local government subdivisions of the state, to the extent determined practicable by the energy freedom coordinator created in section 303 of this act, are required to satisfy one hundred percent of their fuel needs for operating publicly owned vessels, vehicles, and construction equipment from electricity or biofuel certified by the energy freedom coordinator.

(b)(b) On or after June 1, 2015, the energy freedom coordinator finds that it is not practicable for all units of state and local government to satisfy their complete fuel needs from electricity or biofuel, the energy freedom coordinator may determine the minimum percentage of biofuel that must be included in a state or local agency's purchasing schedule, the date of compliance with the one hundred percent biofuel mandate, and any other conditions on an agency's fuel purchasing schedule deemed necessary by the energy freedom coordinator for the successful satisfaction of the one hundred percent biofuel mandate.

(5) All state agencies using biodiesel fuel shall, beginning on July 1, 2006, file quarterly reports with the department of general administration documenting the use of the fuel and a description of how any problems encountered were resolved.

NEW SECTION. Sec. 203. A new section is added to chapter 43.19 RCW to read as follows:

(1) By no later than January 1, 2020, the annual fossil fuel usage by the state must be at least twenty-five percent below the annual usage for the year 2000.

(2) Except for cars owned or operated by the Washington state patrol, when tires on vehicles in the state's motor vehicle fleet are replaced, they must be replaced with tires that have the same or better rolling resistance as the original tires.

(3) All state agencies shall report to the energy freedom coordinator created in section 303 of this act at the beginning of each biennium until January 1, 2020, on progress towards meeting the goals in this section and any barriers to achieving the goals.

NEW SECTION. Sec. 204. A new section is added to chapter 43.19 RCW to read as follows:

(1) In order to allow the motor vehicle fuel needs of state and local government to be satisfied by Washington-produced biofuels as provided in RCW 43.19.642, the department of general administration may contract in advance and execute contracts with public or private producers, suppliers, or other parties, for the purchase of biofuels, as that term is defined in RCW 15.110.010 (as recodified by this act). Contract provisions may address items included, but not limited, to fuel standards, price, and delivery date.

(2) The department of general administration may combine the needs of local government agencies, including ports, special districts, school districts, and municipal corporations, for the purposes of executing contracts for biofuels and to secure a sufficient and stable supply of alternative fuels.

NEW SECTION. Sec. 205. A new section is added to chapter 43.01 RCW to read as follows:

(1) It is in the state's interest and to the benefit of the people of the state to encourage the use of electrical vehicles in order to reduce emissions and provide the public with cleaner air. This section expressly authorizes the purchase of power at state expense to recharge privately and publicly owned plug-in electrical vehicles at state office locations where the vehicles are used for state business, are commute vehicles, or where the vehicles are at the state location for the purpose of conducting business with the state.

(2) The director of the department of general administration shall provide reports to the governor and the appropriate committees of the legislature, as deemed necessary by the director, on the estimated amount of state-purchased electricity consumed by plug-in electrical vehicles if the director of general administration determines that the use has a significant cost to the state, and on the number of plug-in electric vehicles using state office locations.

NEW SECTION. Sec. 206. A new section is added to chapter 89.08 RCW to read as follows:

In addition to any other authority provided by law, conservation districts are authorized to enter into crop purchase contracts for a dedicated energy crop for the purposes of producing, selling, and distributing biodiesel produced from Washington state feedstocks, cellulosic ethanol, and cellulosic ethanol blend fuels.

NEW SECTION. Sec. 207. A new section is added to chapter 35.21 RCW to read as follows:

In addition to any other authority provided by law, public development authorities are authorized to enter into crop purchase contracts for a dedicated energy crop for the purposes of producing, selling, and distributing biodiesel produced from Washington state feedstocks, cellulosic ethanol, and cellulosic ethanol blend fuels.

NEW SECTION. Sec. 208. A new section is added to chapter 35.92 RCW to read as follows:

In addition to any other authority provided by law, municipal utilities are authorized to produce and distribute biodiesel, ethanol, and ethanol blend fuels, including entering into crop purchase contracts for a dedicated energy crop for the purpose of generating electricity or producing biodiesel produced from Washington state feedstocks, cellulosic ethanol, and cellulosic ethanol blend fuels for
use in internal operations of the electric utility and for sale or distribution.

NEW SECTION. Sec. 209. A new section is added to chapter 54.04 RCW to read as follows:

In addition to any other authority provided by law, public utility districts are authorized to produce and distribute biodiesel, ethanol, and ethanol blend fuels, including entering into crop purchase contracts for a dedicated energy crop for the purpose of generating electricity or producing biodiesel produced from Washington feedstocks, cellulosic ethanol, and cellulosic ethanol blend fuels for use in internal operations of the electric utility and for sale or distribution.

PART 3 ENERGY FREEDOM AUTHORITY

NEW SECTION. Sec. 301. (1) The legislature finds that the development of a Washington-based feedstock agricultural and forest products market is highly desirable for producing biodiesel and ethanol. Research and incentive programs are needed to develop a market in Washington to produce cellulosic ethanol from wood waste and other organic materials. Cellulosic ethanol is a preferred biofuel because it provides much greater reductions in petroleum dependence and carbon emissions as compared to starch-based ethanol.

(2) The legislature further finds that the development of a market for renewable liquid natural gas fuel products made from Washington-based feedstock waste biogases is highly desirable to meet Washington’s clean fuel needs.

(3) It is important for the state of Washington to develop a complete supply chain infrastructure that allows the state government, including its local government subdivisions, to supply its complete fuel needs with biofuels produced from feedstocks completely produced in Washington. The goal of supplying one hundred percent of state and local government’s fuel needs with biofuels should be a reality by 2015.

Sec. 302. RCW 15.110.010 and 2006 c 171 s 2 are each amended to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(f) The number and quality of jobs and economic benefits created by the project.

(2) This section does not apply to assistance awarded for projects under RCW 15.110.020(3) (as recodified by this act).

Sec. 308. RCW 15.110.050 and 2006 c 371 s 223 are each amended to read as follows:

(1) The energy freedom account is created in the state treasury. All receipts from appropriations made to the account and any loan payments of principal and interest derived from loans made under this chapter must be deposited into the account. Moneys in the
account may be spent only after appropriation. Expenditures from the account may be used only for assistance for projects consistent with this chapter or otherwise authorized by the legislature.

(Administrative costs of the department may not exceed three percent of the total funds available for this program.)

(2) The following goals and criteria should be considered in evaluating potential biofuel incentives to be offered by the energy freedom account:

(a) To assist Washington farmers and businesses in the development of economically viable, sustained instate biofuel and biofuel feedstock production; to leverage and encourage private investment in biofuel and biofuel feedstock production; and to assist in the development of biofuel feedstocks and production techniques that deliver the greatest net reductions in petroleum dependence and carbon emissions.

(3) Any university, institute, or other entity that is not a state agency receiving funding from the energy freedom account is prohibited from retaining greater than fifteen percent of any funding provided from the energy freedom account for administrative overhead or other deductions not directly associated with conducting the research, projects, or other end products that the funding is designed to produce.

Sec. 309. RCW 15.110.060 and 2006 c 171 s 7 are each amended to read as follows:

The coordinator shall report to the legislature and governor on the status of the energy freedom program created under this chapter, on or before December 1, 2006, and annually thereafter. This report must include information on the projects that have been funded, the status of these projects, and their environmental, energy savings, and job creation benefits as well as an assessment of the availability of alternative fuels in the state.

PART 4 PLANNING FOR THE FUTURE

NEW SECTION. Sec. 401. (1) The legislature finds that climate change is expected to have significant impacts in the Pacific Northwest region in the near and long-term future. These impacts include, among other things, increased temperatures, declining snowpack, more frequent heavy rainfall and flooding, receding glaciers, rising sea levels, increased risks to public health due to insect and rodent-borne diseases, declining salmon populations, and increased drought and risk of forest fires.

(2) The legislature recognizes the need at this time to continue to gather and analyze information related to climate protection. This will allow prudent steps to be taken to avoid, mitigate, or respond to climate impacts and protect our communities.

(3) The analysis of the health impacts of climate protection is needed to help prepare the state for and avoid health impacts such as West Nile virus and respiratory disease. At the same time, this analysis will contribute to our strategic thinking and planning for the impacts of climate change.

(4) The legislature finds that it is important for the state of Washington to participate in emerging regional, national, and international markets to mitigate climate change. The state has a strong interest in ensuring that climate policies and emission markets are designed to appropriately recognize unique unilateral emissions. Further, the legislature recognizes that any market system related to climate protection must be based on credible and durable accounting principles and have equally applicable rules across sectors in order to promote economically and environmentally effective trading.

NEW SECTION. Sec. 402. (1) The vehicle electrification work group is established. Members of the group must be appointed by the governor or the governor's designee and must include representatives of state and local government agencies, ports, private and public electrical power utilities, automobile manufacturers, trucking industry interests, environmental interests, regional air quality agencies, and other stakeholder groups. Staff for the work group must be provided by the department of community, trade, and economic development, with additional staff to be provided by other state agencies, as may be required or requested.

(2) The vehicle electrification work group shall review, study, evaluate, and make recommendations on at least the following items:

(a) Use by the state of plug-in hybrid vehicles and developing plug-in availability at state locations;

(b) Incentives to encourage the use of plug-in truck auxiliary power units and truck stop electrification;

(c) Use of plug-in shore power for cargo and cruise ship terminals, shipside technology, and use of electric power alternatives for port-related operations and equipment such as switching locomotives, vessels and harborscraft, and cargo-handling equipment;

(d) Potential uses for and availability of plug-in hybrid school buses;

(e) Potential environmental and electrical grid impacts on electrical power consumption of the conversion of a meaningful portion of the state's private and public fleet to plug-in electrical power;

(f) Tax and fee incentives to encourage individual and fleet purchases of plug-in hybrid vehicles;

(g) State laws, rules, tariffs, and policies that impact transportation electrification and plug-in adoption, including pricing with incentives for off-peak charging;

(h) Measures to encourage the use of plug-in vehicles by public fleets, and resulting cost savings, and whether state and local fleets should be required to purchase plug-in hybrid vehicles if it is determined that plug-in hybrid vehicles are commercially available at a reasonably comparable life-cycle cost;

(i) Explore the potential for the use of electrification of fixed transit routes for magnetic levitation propulsion systems;

(j) Actions by the state to help industries located in the state participate in developing and manufacturing plug-in vehicles and vehicle-to-grid technologies;

(k) Additional ways the state can promote transportation electrification in the private and public sectors, including cars and light-duty vehicles, and truck stop and port electrification; and

(l) Potential partners for vehicle-to-grid pilot projects that test the use of parked plug-in vehicles for power grid energy storage and support.

(3) The vehicle electrification work group must complete its work by December 1, 2008. The work group must submit an interim report to the governor stating its findings, conclusions, and interim recommendations by December 1, 2007. The group must submit a final report to the governor stating its findings, conclusions, and final recommendations by December 1, 2008.

(4) The department of community, trade, and economic development shall supply staff support and research to the vehicle electrification work group.

(5) This section expires July 31, 2009.

NEW SECTION. Sec. 403. A new section is added to chapter 28B.30 RCW to read as follows:

Washington State University is directed to analyze and recommend models for possible implementation by the legislature or the executive office for at least the following potential biofuels incentive programs:

(1) Market incentives to encourage instate production of brassica-based biodiesel and cellulosic ethanol, including such market methods as direct grants, production tax credits, and the issuance by the state of advance guaranteed purchase contracts;

(2) Possible preferred research programs, grants, or other forms of assistance for accelerating the development of instate production of cellulosic ethanol and in-state biodiesel crops and their coproducts;

(3) Coordinate with the Western Washington University alternative automobile program for opportunities to support new Washington state technology for conversion of fossil fuel fleets to biofuel, hybrid, or alternative fuel propulsion;

(4) Coordinate with the University of Washington's college of forest management and the Olympic natural resources center for the identification of barriers to using the state's forest resources for fuel
production, including the economic and transportation barriers of physically bringing forest biomass to the market;

(5) Coordinate with the department of agriculture for the identification of other barriers for future biofuels development; and

(6) Strategies for furthering the penetration of the Washington state fossil fuel market with Washington produced biofuels, particularly among public entities.

NEW SECTION. Sec. 404. (1) The department of community, trade, and economic development shall develop and recommend, in consultation with the department of ecology, a framework for the state of Washington to participate in emerging regional, national, and global markets to mitigate climate change, on a multisector basis, including the forest sector. This framework must include, but not be limited to, credible, verifiable, replicable inventory and accounting methodologies for each sector involved, along with the completion of the stakeholder process identified in executive order number 07-02.

(2) The department of community, trade, and economic development shall work closely with the department of natural resources on any elements of this section's administration that studies or makes recommendations on the role and opportunities of the forest sector.

NEW SECTION. Sec. 405. (1) The climate impacts group at the University of Washington shall:

(a) Produce an analysis of the potential human health impacts of climate change on the state of Washington; and

(b) Produce a fifty-year comprehensive state climate change assessment.

(2)(a) The object of the analysis of potential human health impacts of climate change under this section is to assist state and local public health authorities in preparing for climate change.

(b) The analysis must:

(i) Evaluate the implications of climate change for human morbidity and mortality; and

(ii) Establish qualitative and, to the extent possible, quantitative links between climate and risks to human health in such areas as air quality, disease vectors, and heat stress.

(c) To ensure the appropriateness of this assessment for public health planning, the climate impacts groups shall consult with state and local public health agencies.

(d) If adequate funding is not made available for the completion of all requirements under this section, the climate impacts group shall prioritize which of the enumerated research projects have the greatest cost/benefit ratio in terms of providing information important for planning decisions. The prioritization process may include the addition of any new studies that may be appropriate in addition to, or in place of, studies listed in this section.

(3)(a) The fifty-year comprehensive state climate change assessment under this section will serve as the baseline for future analyses of climate change impacts and response strategies for critical economic and ecological sectors, including agriculture, forests, shorelines, fisheries, and urban centers.

(b) The assessment must:

(i) Develop scenarios and the range of associated uncertainty for the state's climate over the next century;

(ii) Determine how water resources in specific watersheds will respond to these climate change scenarios, including assessment of the risk of current and future extreme events, such as floods and droughts;

(iii) Develop climate change streamflow scenarios for use in water resources and salmon recovery planning;

(iv) Create scenarios of salmon and cold water ecosystem vulnerability to water temperature and low-flows associated with future climate scenarios;

(v) Assess sea level rise scenarios for infrastructure planning purposes. Identify locations and patterns of coastal vulnerability to sea level rise and hydrologic changes;

(vi) Evaluate current legal, regulatory, and institutional barriers to climate change adaptation or preparation; and

(vii) Identify information or data gaps that might preclude adequate state planning for climate change.

(c) If adequate funding is not made available for the completion of all research required under this section, the climate impacts group shall prioritize which of the enumerated research projects have the greatest cost/benefit ratio in terms of providing information important for planning decisions. The prioritization process may include the addition of any new studies that may be appropriate in addition to, or in place of, studies listed in this section.

(d) To ensure the appropriateness of this assessment for local and state decision making, the climate impacts group shall consult with state and local resource planning and management agencies.

(4) The climate impacts group shall report the assessments to the governor and the appropriate committees of the legislature by December 15, 2008.

SPEAKER'S RULING

The Speaker (Representative Lovick presiding) reminded the members not to walk in front of other members speaking.

POINT OF ORDER
SECOND SUBSTITUTE HOUSE BILL NO. 1401 was read the second time.

Representative Dunn moved the adoption of amendment (230):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that first-time home buyers in Washington state have been priced out of the housing market in many counties. The legislature finds that many organizations, including local governments, have recognized the affordable housing crisis for first-time home buyers. The legislature finds that, for example, as reported in King county's benchmark growth report, "buying a first home remains extremely difficult for those under one hundred twenty percent of median income." The legislature further finds that growth management regulations contribute to the high cost of housing in many Washington counties, and that loosening land use regulations will reduce housing prices. The legislature finds that numerous studies have determined that growth management restrictions increase the cost of housing.

The legislature intends to make housing more affordable for first-time home buyers in counties where housing is currently not affordable for first-time home buyers. The legislature intends to do this by allowing single-family detached residential development to be placed outside of urban growth boundaries at density levels currently prohibited under the prevailing interpretation of the growth management act. These single-family detached homes could be placed outside of urban growth boundaries in counties where the first-time buyer housing affordability index demonstrates that housing is not affordable for first-time home buyers.

NEW SECTION. Sec. 2. A new section is added to chapter 36.70A RCW to read as follows:

(1) As used in this chapter, "first-time buyer housing affordability index" means the index determined by the Washington center for real estate research that measures the ability of a typical renter household to afford the purchase of a typical starter home by assuming: (a) The household will purchase a home priced at eighty-five percent of area median household income with a ten percent down payment; (b) the home mortgage loan is for a term of thirty years at the prevailing average fixed rate of interest; (c) the potential first-time home buyer earns seventy percent of the area median household income and twenty-five percent of the area median household income can be used for principal and interest payments; and (d) the first-time buyer housing affordability index demonstrates that housing is not affordable for first-time home buyers.

NEW SECTION. Sec. 3. A new section is added to chapter 36.70A RCW to read as follows:

(1)(a) In any county planning under RCW 36.70A.040 in which the first-time buyer housing affordability index, as defined by section 2 of this act, and as determined by the Washington center for real estate research at Washington State University, is less than one hundred for three quarters in any given year, for the following two years the county may permit single-family detached residential development of any density outside the urban growth area designated according to RCW 36.70A.110. For purposes of this chapter, single-family detached residential development authorized according to this section shall not be considered urban growth located outside of an urban growth area. Services provided to single-family detached residential development permitted under this section shall not be considered urban services located outside of an urban growth area.
(b) Any county planning under RCW 36.70A.040 implementing (a) of this subsection may:

(i) Change its comprehensive plan and development regulations after the determination in (a) of this subsection has been made by the Washington center for real estate research to provide new locations for or increased density of single-family detached residential development as provided for in (a) of this subsection; or

(ii) Incorporate sections in its comprehensive plan and enact development regulations that provide new locations for or increased density of single-family detached residential development which are contingent upon a determination under (a) of this subsection that the first-time buyer housing affordability index was less than one hundred for three quarters in any given year. In the event that the county chooses to enact sections of its comprehensive plan and development regulations, the county may provide that these sections and regulations take effect January 1st of any year following the determination by the Washington center for real estate research.

"NEW SECTION. Sec. 1. A new section is added to chapter 36.70A RCW to read as follows:

(1)(a) A county planning under RCW 36.70A.040 may establish, in consultation with cities, a process for authorizing the siting of new mobile home parks and manufactured housing communities outside of urban growth areas designated under RCW 36.70A.110.

(b) For purposes of this section, "mobile home park" or "manufactured housing community" has the same meaning as defined in RCW 59.20.030.

(2) A county considering an application to site a new mobile home park or manufactured housing community outside of an urban growth area may approve the siting if the following criteria are met:

(a) The proposed site is adjacent to or in close proximity to an urban growth area;

(b) Affordable housing will be provided within the mobile home park or manufactured housing community for a range of income levels;

(c) Appropriate infrastructure and services for the site are available or have been provided for;

(d) Environmental protection issues for the site, including air and water quality issues, have been provided for;

(e) Development regulations have been established to ensure that urban growth will not occur in adjacent nonurban areas;

(f) Provisions to mitigate adverse impacts on designated agricultural lands, forest lands, and mineral resource lands have been made; and

(g) The siting of the mobile home park or manufactured housing community does not conflict with development regulations adopted by the county to protect critical areas.

(3) Final approval of an application to site a mobile home park or manufactured housing community as provided in this section does not constitute an adopted amendment to the comprehensive plan adopted under RCW 36.70A.070.

Sec. 2. RCW 82.02.090 and 1990 1st ex.s. c 17 s 48 are each amended to read as follows:

Unless the context clearly requires otherwise, the following definitions shall apply in RCW 82.02.050 through 82.02.090:

(1) "Development activity" means any construction or expansion of a building, structure, or use, any change in use of a building or structure, or any changes in the use of land, that creates additional demand and need for public facilities. "Development activity" does not include the authorized siting of a mobile home park or manufactured housing community under section 1 of this act.

(2) "Development approval" means any written authorization from a county, city, or town which authorizes the commencement of development activity.

(3) "Impact fee" means a payment of money imposed upon development as a condition of development approval to pay for public facilities needed to serve new growth and development, and that is reasonably related to the new development that creates additional demand and need for public facilities, that is a proportionate share of the cost of the public facilities, and that is used for facilities that reasonably benefit the new development. "Impact fee" does not include a reasonable permit or application fee.

(4) "Owner" means the owner of record of real property, although when real property is being purchased under a real estate contract, the purchaser shall be considered the owner of the real property if the contract is recorded.

(5) "Proportionate share" means that portion of the cost of public facility improvements that are reasonably related to the service demands and needs of new development.

(6) "Project improvements" means site improvements and facilities that are planned and designed to provide service for a particular development project and that are necessary for the use and convenience of the occupants or users of the project, and are not system improvements. No improvement or facility included in a capital facilities plan approved by the governing body of the county, city, or town shall be considered a project improvement.

(7) "Public facilities" means the following capital facilities owned or operated by government entities: (a) Public streets and roads; (b) publicly owned parks, open space, and recreation facilities; (c) school facilities; and (d) fire protection facilities in jurisdictions that are not part of a fire district.

(8) "Service area" means a geographic area defined by a county, city, town, or intergovernmental agreement in which a defined set of public facilities provide service to development within the area. Service areas shall be designated on the basis of sound planning or engineering principles.

(9) "System improvements" mean public facilities that are included in the capital facilities plan and are designed to provide service to service areas within the community at large, in contrast to project improvements.

NEW SECTION. Sec. 3. A new section is added to chapter 43.21C RCW to read as follows:

The authorized siting of a mobile home park or manufactured housing community under section 1 of this act is exempted from compliance with this chapter."

(1) An insurer offering any health benefit plan to a small employer, either directly or through an association or membership-governed group formed specifically for the purpose of purchasing health care, may offer and actively market to the small employer no more than one health benefit plan featuring a limited schedule of covered health care services.

(a) The plan offered under this subsection may be offered with a choice of cost-sharing arrangements, and may, but is not required to, comply with: RCW 48.21.130 through 48.21.240, 48.21.244 through 48.21.280, 48.21.300 through 48.21.320, 48.43.045(1) except as required in (b) of this subsection, 48.43.093, 48.43.115 through 48.43.185, 48.43.515(5), or 48.42.100.

(b) In offering the plan under this subsection, the insurer must offer the small employer the option of permitting every category of health care provider to provide health services or care for conditions covered by the plan pursuant to RCW 48.43.045(1).

(2) An insurer offering the plan under subsection (1) of this section must also offer and actively market to the small employer at least one additional health benefit plan.

(3) Nothing in this section shall prohibit an insurer from offering, or a purchaser from seeking, health benefit plans with benefits in excess of the health benefit plan offered under subsection (1) of this section. All forms, policies, and contracts shall be submitted for approval to the commissioner, and the rates of any plan offered under this section shall be reasonable in relation to the benefits thereto.

(4) Premium rates for health benefit plans for small employers as defined in this section shall be subject to the following provisions:
(a) The insurer shall develop its rates based on an adjusted community rate and may only vary the adjusted community rate for:
(i) Geographic area;
(ii) Family size;
(iii) Age; and
(iv) Wellness activities.
(b) The adjustment for age in (a)(iii) of this subsection may not use age brackets smaller than five-year increments, which shall begin with age twenty and end with age sixty-five. Employees under the age of twenty shall be treated as those age twenty.
(c) The insurer shall be permitted to develop separate rates for individuals age sixty-five or older for coverage for which medicare is the primary payer and coverage for which medicare is not the primary payer. Both rates shall be subject to the requirements of this subsection (4).
(d) The permitted rates for any age group shall be no more than four hundred twenty-five percent of the lowest rate for all age groups on January 1, 1996, four hundred percent on January 1, 1997, and three hundred seventy-five percent on January 1, 2000, and thereafter.
(e) A discount for wellness activities shall be permitted to reflect actuarially justified differences in utilization or cost attributed to such programs.
(f) The rate charged for a health benefit plan offered under this section may not be adjusted more frequently than annually except that the premium may be changed to reflect:
(i) Changes to the enrollment of the small employer;
(ii) Changes to the family composition of the employee;
(iii) Changes to the health benefit plan requested by the small employer; or
(iv) Changes in government requirements affecting the health benefit plan.
(g) Rating factors shall produce premiums for identical groups that differ only by the amounts attributable to plan design, with the exception of discounts for health improvement programs.
(h) For the purposes of this section, a health benefit plan that contains a restricted network provision shall not be considered similar coverage to a health benefit plan that does not contain such a provision, provided that the restrictions of benefits to network providers result in substantial differences in claims costs. A carrier may develop its rates based on claims costs for a plan. This subsection does not restrict or enhance the portability of benefits as provided in RCW 48.43.015.
(i) Except for small group health benefit plans that qualify as insurance coverage combined with a health savings account as defined by the United States internal revenue service, adjusted community rates established under this section shall pool the medical experience of all small groups purchasing coverage. However, annual rate adjustments for each small group health benefit plan may vary by up to plus or minus eight percentage points from the overall adjustment of a carrier's entire small group pool. A variation that is not denied within thirty days shall be deemed approved. The commissioner must provide to the carrier a detailed actuarial justification for any denial at the time of the denial.
(5) Nothing in this section shall restrict the right of employees to collectively bargain for insurance providing benefits in excess of those provided herein.
(6)(a) Except as provided in this subsection, requirements used by an insurer in determining whether to provide coverage to a small employer shall be applied uniformly among all small employers applying for coverage or receiving coverage from the carrier.
(b) An insurer shall not require a minimum participation level greater than:
(i) One hundred percent of eligible employees working for groups with three or less employees; and
(ii) Seventy-five percent of eligible employees working for groups with more than three employees.
(c) In applying minimum participation requirements with respect to a small employer, a small employer shall not consider employees eligible for deduction under this subsection.
or dependents who have similar existing coverage in determining whether the applicable percentage of participation is met. 

(d) An insurer may not increase any requirement for minimum employee participation or modify any requirement for minimum employer contribution applicable to a small employer at any time after the small employer has been accepted for coverage.

(7) An insurer must offer coverage to all eligible employees of a small employer and their dependents. An insurer may not offer coverage to only certain individuals or dependents in a small employer group or to only part of the group. An insurer may not modify a health plan with respect to a small employer or any eligible employee or dependent, through riders, endorsements or otherwise, to restrict or exclude coverage or benefits for specific diseases, medical conditions, or services otherwise covered by the plan.

(8) As used in this section, "health benefit plan," "small employer," "adjusted community rate," and "wellness activities" mean the same as defined in RCW 48.43.005."

Representative Springer moved the adoption of amendment (191):
Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 36.70A.070 and 2005 c 360 s 2 are each amended to read as follows:

The comprehensive plan of a county or city that is required or chooses to plan under RCW 36.70A.040 shall consist of a map or maps, and descriptive text covering objectives, principles, and standards used to develop the comprehensive plan. The plan shall be an internally consistent document and all elements shall be consistent with the future land use map. A comprehensive plan shall be adopted and amended with public participation as provided in RCW 36.70A.140.

Each comprehensive plan shall include a plan, scheme, or design for each of the following:

(1) A land use element designating the proposed general distribution and general location and extent of the uses of land, where appropriate, for agriculture, timber production, housing, commerce, industry, recreation, open spaces, general aviation airports, public utilities, public facilities, and other land uses. The land use element shall include population densities, building intensities, and estimates of future population growth. The land use element shall designate, as appropriate, a sufficient quantity of land needed for residential, commercial, and industrial uses. The land use element shall provide for protection of the quality and quantity of ground water used for public water supplies. Wherever possible, the land use element should consider utilizing urban planning approaches that promote physical activity. Where applicable, the land use element shall review drainage, flooding, and storm water run-off in the area and nearby jurisdictions and provide guidance for corrective actions to mitigate or cleanse those discharges that pollute waters of the state, including Puget Sound or waters entering Puget Sound.

(2) A housing element ensuring the vitality and character of established residential neighborhoods that: (a) Includes an inventory and analysis of existing and projected housing needs that identifies the number of housing units necessary to (remove) accommodate projected growth; (b) includes a statement of goals, policies, objectives, and mandatory provisions for the preservation, improvement, and development of housing, including single-family residences; (c) identifies a sufficient quantity of land suitable for meeting the existing and projected housing needs identified in (a) of this subsection, including, but not limited to, government-assisted housing, housing for low-income families, manufactured housing, multifamily housing, and group homes and foster care facilities; and (d) makes adequate provisions for existing and projected needs of all economic segments of the community.

(3) A capital facilities plan element consisting of: (a) An inventory of existing capital facilities owned by public entities, utility services and public facilities shall be limited to those necessary to serve the recreation or tourist use and shall not be subject to the requirements of (d)(iv) of this subsection, but shall not be subject to the requirements of (c)(ii) and (iii) of this subsection.

(B) Any development or redevelopment other than an industrial area or an industrial use within a mixed-use area or an industrial area under this subsection (5)(d)(i) must be principally designed to serve the existing and projected rural population. Public services and public facilities shall be limited to those necessary to serve the recreation or tourist use and shall be provided in a manner that does not permit low-density sprawl;

(iii) The intensification of development on lots containing isolated nonresidential uses or new development of isolated cottage industries and isolated small-scale businesses that are not principally designed to serve the existing and projected rural population and nonresidential uses, but do provide job opportunities for rural residents. Rural counties may allow the expansion of small-scale businesses as long as those small-scale businesses conform with the rural character of the area as defined by the local government according to RCW 36.70A.030(15). Rural counties may also allow small-scale businesses to utilize a site previously occupied by an existing business as long as the new small-scale business conforms to the rural character of the area as defined by the local government according to RCW 36.70A.030(15). Public services and public facilities shall be limited to those necessary to
serve the isolated nonresidential use and shall be provided in a manner that does not permit low-density sprawl;

(iv) A county shall adopt measures to minimize and contain the existing areas or uses of more intensive rural development, as appropriate, authorized under this subsection. Lands included in such existing areas or uses shall not extend beyond the logical outer boundary of the existing area or use, thereby allowing a new pattern of low-density sprawl. Existing areas are those that are clearly identifiable and contained and where there is a logical boundary delineated predominately by the built environment, but that may also include undeveloped lands if limited as provided in this subsection.

The county shall establish the logical outer boundary of an area of more intensive rural development. In establishing the logical outer boundary the county shall address (A) the need to preserve the character of existing natural neighborhoods and communities, (B) physical boundaries such as bodies of water, streets and highways, and land forms and contours, (C) the prevention of abnormally irregular boundaries, and (D) the ability to provide public facilities and public services in a manner that does not permit low-density sprawl;

(v) For purposes of (d) of this subsection, an existing area or existing use is one that was in existence on July 1, 1990, in a county that was initially required to plan under all of the provisions of this chapter.

(b) On the date the county adopted a resolution under RCW 36.70A.040(2), in a county that is planning under all of the provisions of this chapter under RCW 36.70A.040(2); or

(c) On the date the office of financial management certifies the county's population as provided in RCW 36.70A.040(5), in a county that is planning under all of the provisions of this chapter pursuant to RCW 36.70A.040(5).

(e) Exception. This subsection shall not be interpreted to permit in the rural area a major industrial development or a master planned resort unless otherwise specifically permitted under RCW 36.70A.360 and 36.70A.365.

(6) A transportation element that implements, and is consistent with, the land use element.

(a) The transportation element shall include the following subelements:

(i) Land use assumptions used in estimating travel;

(ii) Estimated traffic impacts to state-owned transportation facilities resulting from land use assumptions to assist the department of transportation in monitoring the performance of state facilities, to plan improvements for the facilities, and to assess the impact of land-use decisions on state-owned transportation facilities;

(iii) Facilities and services needs, including:

(A) An inventory of air, water, and ground transportation facilities and services, including transit alignments and general aviation airports, to define existing capital facilities and travel levels as a basis for future planning. This inventory must include state-owned transportation facilities within the city or county's jurisdictional boundaries;

(B) Level of service standards for all locally owned arterials and transit routes to serve as a gauge to judge performance of the system. These standards should be regionally coordinated;

(C) For state-owned transportation facilities, level of service standards for highways, as prescribed in chapters 47.06 and 47.80 RCW, to gauge the performance of the system. The purposes of reflecting level of service standards for state highways in the local comprehensive plan are to monitor the performance of the system, to evaluate improvement strategies, and to facilitate coordination between the county's or city's six-year street, road, or transit plan and the department of transportation's six-year investment program.

The concurrency requirements of (b) of this subsection do not apply to transportation facilities and services of statewide significance except for counties consisting of islands whose only connection to the mainland are state highways or ferry routes. In these island counties, state highways and ferry route capacity must be a factor in meeting the concurrency requirements in (b) of this subsection;

(D) Specific actions and requirements for bringing into compliance locally owned transportation facilities or services that are below an established level of service standard;

(E) Forecasts of traffic for at least ten years based on the adopted land use plan to provide information on the location, timing, and capacity needs of future growth;

(F) Identification of state and local system needs to meet current and future needs. Identified needs on state-owned transportation facilities must be consistent with the statewide multimodal transportation plan required under chapter 47.06 RCW;

(iv) Finance, including:

(A) An analysis of funding capability to judge needs against probable funding resources;

(B) Multiyear financing plan based on the needs identified in the comprehensive plan, the appropriate parts of which shall serve as the basis for the six-year street, road, or transit plan required by RCW 35.77.010 for cities, RCW 36.81.121 for counties, and RCW 35.58.2795 for public transportation systems. The multiyear financing plan should be coordinated with the ((five-year)) ten-year improvement programs developed by the department of transportation as required by RCW 47.05.030;

(C) If probable funding falls short of meeting identified needs, a discussion of how additional funding will be raised, or how land use assumptions will be reassessed to ensure that level of service standards will be met;

(v) Intergovernmental coordination efforts, including an assessment of the impacts of the transportation plan and land use assumptions on the transportation systems of adjacent jurisdictions;

(vi) Demand-management strategies;

(vii) Pedestrian and bicycle component to include collaborative efforts to identify and designate planned improvements for pedestrian and bicycle facilities and corridors that address and encourage enhanced community access and promote healthy lifestyles.

(b) After adoption of the comprehensive plan by jurisdictions required to plan or who choose to plan under RCW 36.70A.040, local jurisdictions must adopt and enforce ordinances which prohibit development causes the level of service on a locally owned transportation facility to decline below the standards adopted in the transportation element of the comprehensive plan, unless transportation improvements or strategies to accommodate the impacts of development are made concurrent with the development. These strategies may include increased public transportation service, ride sharing programs, demand management, and other transportation systems management strategies. For purposes of this subsection (6) "concurrent with the development" shall mean that improvements or strategies are in place at the time of development, or that a financial commitment is in place to complete the improvements or strategies within six years.

(c) The transportation element described in this subsection (6), and the six-year plans required by RCW 35.77.010 for cities, RCW 36.81.121 for counties, and RCW 35.58.2795 for public transportation systems, must be consistent with the state comprehensive plan and the six-year plans required by RCW 47.05.030 for the state, must be consistent.

(7) An economic development element establishing local goals, policies, objectives, and provisions for economic growth and vitality and a high quality of life. The element shall include: (a) A summary of the local economy such as population, employment, payroll, sectors, businesses, sales, and other information as appropriate; (b) a summary of the strengths and weaknesses of the local economy defined as the commercial and industrial sectors and supporting factors such as land use, transportation, utilities, education, work force, housing, and natural/cultural resources; and (c) an identification of policies, programs, and projects to foster economic growth and development and to address future needs. A city that has chosen to be a residential community is exempt from the economic development element requirement of this subsection.

(8) A park and recreation element that implements, and is consistent with, the capital facilities plan element as it relates to park and recreation facilities. The element shall include: (a) Estimates of park and recreation demand for at least a ten-year period; (b) an evaluation of facilities and service needs; and (c) an evaluation of intergovernmental coordination opportunities to provide regional approaches for meeting park and recreational demand.

(9) It is the intent that new or amended elements required after January 1, 2002, be adopted concurrent with the scheduled update provided in RCW 36.70A.130. Requirements to incorporate any
such new or amended elements shall be null and void until funds sufficient to cover applicable local government costs are appropriated and distributed by the state at least two years before local government must update comprehensive plans as required in RCW 36.70A.130.

Sec. 2. RCW 36.70A.090 and 1990 1st ex.s. c 17 s 9 are each amended to read as follows:

A comprehensive plan should provide for innovative land use management techniques, including, but not limited to, density bonuses, cluster housing, planned unit developments, mixed-use development, accessory dwelling units, and the transfer of development rights.

NEW SECTION  Sec. 3. A new section is added to chapter 36.70A RCW to read as follows:

(1) A county and one or more of its cities, or two or more counties sharing a common border and their cities, may adopt countywide planning policies or multicounty planning policies establishing subregions in order to address housing and employment markets that cross jurisdictional boundaries. Policies adopted under this section may include, but are not limited to:

(a) Policies that reallocate among the counties and cities in the subregion the population growth established for each local government under RCW 36.70A.110;

(b) Policies that provide for a sufficient number of housing units to accommodate the existing housing needs and projected population growth in the subregion; and

(c) Policies that provide for sufficient land suitable for development to meet the needs for commercial and industrial growth in the subregion.

(2) The local governments within the subregion may use the countywide planning policies or multicounty planning policies, interlocal agreements under chapter 39.34 RCW, or any other appropriate mechanism to implement the policies established under subsection (1) of this section.

Correct the title.

Representative Springer moved the adoption of amendment (256) to amendment (191):

On page 9, after line 26 of the amendment, insert the following:

"Sec. 4. RCW 36.70A.110 and 2004 c 206 s 1 are each amended to read as follows:

(1) In accordance with the requirements of this section, each county that is required or chooses to plan under RCW 36.70A.040 shall designate an urban growth area or areas within which urban growth shall be encouraged and outside of which growth can occur only if it is not urban in nature. Each city that is located in such a county shall be included within an urban growth area. An urban growth area may include more than a single city. An urban growth area may include territory that is located outside of a city only if such territory already is characterized by urban growth whether or not the urban growth area includes a city, or is adjacent to territory already characterized by urban growth, or is a designated new fully contained community as defined by RCW 36.70A.350.

(2) Based upon the growth management population projection made for the county by the office of financial management, the county and each city within the county shall include areas and densities sufficient to permit the urban growth that is projected to occur in the county or city for the succeeding twenty-year period, except for those urban growth areas contained totally within a national historical reserve.

Each urban growth area shall permit urban densities and shall include greenbelt and open space areas. In the case of urban growth areas contained totally within a national historical reserve, the city may restrict densities, intensities, and forms of urban growth as determined to be necessary and appropriate to protect the physical, cultural, or historic integrity of the reserve. An urban growth area determination may include a reasonable land market supply factor and shall permit a range of urban densities and uses. In determining this market factor, cities and counties may consider local circumstances. Cities and counties have discretion in their comprehensive plans to make many choices about accommodating growth.

Within one year of July 1, 1990, each county that as of June 1, 1991, was required or chose to plan under RCW 36.70A.040, shall begin consulting with each city located within its boundaries and each city shall propose the location of an urban growth area. Within sixty days of the date the county legislative authority of a county adopts its resolution of intention or of certification by the office of financial management, all other counties that are required or choose to plan under RCW 36.70A.040 shall begin this consultation with each city located within its boundaries. The county shall attempt to reach agreement with each city on the location of an urban growth area within which the city is located. If such an agreement is not reached with each city located within the urban growth area, the county shall justify in writing why it so designated the area an urban growth area. A city may object formally with the department over the designation of the urban growth area within which it is located. Where appropriate, the department shall attempt to resolve the conflicts, including the use of mediation services.

(3) Counties planning under RCW 36.70A.040 with populations of at least one hundred seventy-five thousand must:

(a) Consult and cooperate with each city within an urban growth area proposed for modification prior to and concurrent with actions to modify the urban growth area within which the city or cities are located;

(b) Consult and cooperate with each city within each urban growth area to adopt development regulations for unincorporated territory within urban growth areas that are consistent with each applicable city;

(c) Adopt development regulations for new development in unincorporated territory within an urban growth area that is, as of the effective date of this act, entirely surrounded by incorporated territory. Development regulations adopted under this subsection (c) must be consistent with the city or cities surrounding the unincorporated territory; and

(d) Report to the appropriate committees of the house of representatives and the senate by December 1, 2007, on the implementation of, and any impediments related to, the requirements of (a) and (b) of this subsection (3).

(4) Urban growth should be located first in areas already characterized by urban growth that have adequate existing public facility and service capacities to serve such development, second in areas already characterized by urban growth that will be served adequately by a combination of both existing public facilities and services and any additional needed public facilities and services that are provided by either public or private sources, and third in the remaining portions of the urban growth areas. Urban growth may also be located in designated new fully contained communities as defined by RCW 36.70A.350. 

(5) In general, cities are the units of local government most appropriate to provide urban governmental services. In general, it is not appropriate that urban governmental services be extended to or expanded in rural areas except in those limited circumstances shown to be necessary to protect basic public health and safety and the environment and when such services are financially supportable at rural densities and do not permit urban development.

(6) On or before October 1, 1993, each county that was initially required to plan under RCW 36.70A.040(1) shall adopt development regulations designating interim urban growth areas under this chapter. Within three years and three months of the date the county legislative authority of a county adopts its resolution of intention or of certification by the office of financial management, all other counties that are required or choose to plan under RCW 36.70A.040 shall adopt development regulations designating interim urban growth areas under this chapter. Adoption of the interim urban growth areas may only occur after public notice; public hearing; and compliance with the state environmental policy act, chapter 43.21C RCW, and RCW 36.70A.110. Such action may be appealed to the appropriate growth management hearings board under RCW 36.70A.280. Final urban growth areas shall be adopted at the time of comprehensive plan adoption under this chapter.
Each county shall include designations of urban growth areas in its comprehensive plan. An urban growth area designated in accordance with this section may include within its boundaries urban service areas or potential annexation areas designated for specific cities or towns within the county."

(1) The legislature recognizes that counties are regional governments within their boundaries, and cities are primary providers of urban governmental services within urban growth areas. For the purposes of this section, a "countywide planning policy" is a written policy statement or statements used solely for establishing a countywide framework from which county and city comprehensive plans are developed and adopted pursuant to this chapter. This framework shall ensure that city and county comprehensive plans are consistent as required in RCW 36.70A.100. Nothing in this section shall be construed to alter the land-use powers of cities.

(2) The legislative authority of a county that plans under RCW 36.70A.040 shall adopt a countywide planning policy in cooperation with the cities located in whole or in part within the county as follows:

(a) No later than sixty calendar days from July 16, 1991, the legislative authority of each county that as of June 1, 1991, was required or chose to plan under RCW 36.70A.040 shall convene a meeting with representatives of each city located within the county for the purpose of establishing a collaborative process that will provide a framework for the adoption of a countywide planning policy. In other counties that are required or choose to plan under RCW 36.70A.040, this meeting shall be convened no later than sixty days after the date the county adopts its resolution of intention or was certified by the office of financial management.

(b) The process and framework for adoption of a countywide planning policy specified in (a) of this subsection shall determine the manner in which the county and the cities agree to all procedures and provisions including but not limited to desired planning policies, deadlines, ratification of final agreements and demonstration thereof, and financing. (d) If there is no agreement by October 1, 1991, in a county that was required or chose to plan under RCW 36.70A.040 as of June 1, 1991, or if there is no agreement within one hundred twenty days of the date the county adopted its resolution of intention or was certified by the office of financial management in any other county that is required or chooses to plan under RCW 36.70A.040, the governor shall first inquire of the jurisdictions as to the reason or reasons for failure to reach an agreement. If the governor deems it appropriate, the governor may immediately request the assistance of the department of community, trade, and economic development to mediate any disputes that preclude agreement. If mediation is unsuccessful in resolving all disputes that will lead to agreement, the governor may impose appropriate sanctions from those specified under RCW 36.70A.340 on the county, city, or cities for failure to reach an agreement as provided in this section. The governor shall specify the reason or reasons for the imposition of any sanction.

(e) No later than July 1, 1992, the legislative authority of each county that was required or chose to plan under RCW 36.70A.040 as of June 1, 1991, or no later than fourteen months after the date the county adopted its resolution of intention or was certified by the office of financial management the county legislative authority of any other county that is required or chooses to plan under RCW 36.70A.040 shall adopt a countywide planning policy according to the process provided under this section and that is consistent with the agreement pursuant to (b) of this subsection, and after holding a public hearing or hearings on the proposed countywide planning policy.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that first-time home buyers in Washington state have been priced out of the housing market in many counties. The legislature finds that many organizations, including local governments, have recognized the affordable housing crisis for first-time home buyers. The legislature finds that, for example, as reported in King county's benchmark growth report, "buying a first home remains extremely difficult for those under one hundred twenty percent of median income." The legislature further finds that impact fees contribute to the high cost of housing in many Washington counties, and that eliminating these fees will reduce housing prices. The legislature intends to make housing more affordable for first-time home buyers in counties where housing is currently not affordable for first-time home buyers. The legislature intends to do this by eliminating impact fees in counties where the first-time buyer housing affordability index demonstrates that housing is not affordable for first-time home buyers.

NEW SECTION. Sec. 2. A new section is added to chapter 82.02 RCW to read as follows:

(1) As used in this chapter, "first-time buyer housing affordability index" means the index determined by the Washington center for real estate research that measures the ability of a typical renter household to afford the purchase of a typical starter home by assuming: (a) The household will purchase a home priced at eighty-five percent of area median with a ten percent down payment; (b) the home mortgage loan is for a term of thirty years at the prevailing average fixed rate of interest; and (c) the potential first-time home buyer earns seventy percent of the area median household income and twenty-five percent of household income can be used for principal and interest payments.

(2) For purposes of this chapter, a first-time buyer housing affordability index of: (a) One hundred indicates that a household of the defined income can afford a home of the defined price; (b) less than one hundred indicates that a household of the defined income cannot afford a home of the defined price without spending more than twenty-five percent of their income on mortgage payments; and (c) greater than one hundred indicates that a household of the defined income can afford a home of the defined price while spending less than twenty-five percent of their income on mortgage payments.

NEW SECTION. Sec. 3. A new section is added to chapter 82.02 RCW to read as follows:

(1) In any county in which the first-time buyer housing affordability index, as defined in section 2 of this act and as determined by the Washington center for real estate research at Washington State University, is less than one hundred for three quarters in any given year, the county and cities located within the county shall not collect impact fees under this chapter for the following two years.

(2) The year-long period measured by the Washington center for real estate research under subsection (1) of this section begins January 1st of the year following the determination by the Washington center for real estate research.

Sec. 4. RCW 82.02.100 and 1992 c 219 s 2 are each amended to read as follows:

(1) A person required to pay a fee pursuant to RCW 43.21C.060 for system improvements shall not be required to pay an impact fee under RCW 82.02.050 through 82.02.090 for those same system improvements.

(2) A county prohibited from imposing a fee for system improvements under section 3 of this act may not impose a fee under RCW 43.21C.060 for those same system improvements.

(3) A county prohibited from imposing a fee for system improvements under section 3 of this act may not require a dedication of land under RCW 58.17.110 for those same system improvements.

Representative Pettigrew moved the adoption of amendment (242):

Strike everything after the enacting clause and insert the following:
"NEW SECTION. Sec. 1. (1) The legislature finds that there is a large, unmet need for affordable housing in the state of Washington. The legislature declares that a decent, appropriate, and affordable home in a healthy, safe environment for every household should be a state goal. Furthermore, this goal includes increasing the percentage of low-income households who are able to obtain and retain housing without government subsidies or other public support.

(2) The legislature finds that there are many root causes of the affordable housing shortage and declares that it is critical that such causes be analyzed, effective solutions be developed, implemented, monitored, and that adequate data be compiled and documented. The legislature also finds that there is a taxpayer and societal cost associated with a lack of jobs that pay self-sufficiency standard wages and a shortage of affordable housing, and that the state must identify and quantify that cost.

(3) The legislature finds that the support and commitment of all sectors of the statewide community is critical to accomplishing the state's affordable housing for all goal. The legislature finds that the provision of housing and housing-related services should be administered at the local level. However, the state should play a primary role in: Providing financial resources to achieve the goal at all levels of government; researching, evaluating, benchmarking, and implementing best practices; continually updating and evaluating statewide housing data; developing a state plan that integrates the strategies, goals, objectives, and performance measures of all other state housing plans and programs; coordinating and supporting county government plans and activities; and directing quality management practices by monitoring both state and county government performance towards achieving interim and ultimate goals.

(4) The legislature declares that the systematic and comprehensive performance measurement and evaluation of progress toward interim goals and the immediate state affordable housing goal of a decent, appropriate, and affordable home in a healthy, safe environment for every household in the state by 2020 is a necessary component of the statewide effort to end the affordable housing crisis.

NEW SECTION. Sec. 7. Each county shall convene a county affordable housing task force. The task force must be a committee, made up of volunteers, created to prepare and recommend to the county legislative authority a county affordable housing for all plan and also to recommend appropriate expenditures of the affordable housing for all program funds provided in RCW 36.22.178 (as recodified by this act) and any other sources directed to the county program. The county affordable housing task force must include a representative of the county representative from the city with the highest population in the county, a representative from all other cities in the county with a population greater than fifty thousand, a member representing beneficiaries of affordable housing programs, other members as may be required to maintain eligibility for federal funding related to housing programs and services, and a representative from both a private nonprofit organization and a private for-profit organization with experience in very low-income housing. The task force may be the same as the homelessness housing task force created in RCW 43.185C.160 or the same as another existing task force or other formal committee that meets the requirements of this section.

NEW SECTION. Sec. 8. (1) Each county shall direct its affordable housing task force to prepare and recommend to its county legislative authority a county affordable housing for all plan for its jurisdictional area. Each county shall adopt a county plan by June 30, 2008, and update the plan annually by June 30th thereafter. All plans must be forwarded to the department by the date of adoption. County affordable housing for all plans may be combined with the local homeless housing plans required under RCW 43.185C.040 or any other existing plan addressing housing within a county as long as the requirements of all of the plans to be merged are met. For counties required or choosing to plan under RCW 36.70A.070(2), county affordable housing for all plans must be consistent with the housing elements of comprehensive plans described in RCW 36.70A.070(2). County plans must also be consistent with any existing local homeless planning required in RCW 43.185C.050.

(2) County affordable housing for all plans must be primarily focused on (a) ensuring that every very low-income household in the county jurisdictional area has a decent, appropriate, and affordable home in a healthy, safe environment by 2020 and (b) increasing the percentage of very low-income households that access affordable housing without government assistance. County plans must include information and performance measurement data where available on all city and county housing programs, including local housing-related levy initiatives, housing-related tax exemption programs, and federally funded programs operated or coordinated by the state or local governments. County plans must be substantially consistent with the goals, performance measures, and program recommendations of the state affordable housing for all plan and must include, at a minimum, the same information, analysis, and performance measures as described in RCW 43.185B.040 (as recodified by this act) and section 6 of this act. In addition to these performance measures, counties must report one common performance measure, to be determined by the department, measuring the health and safety of tenants of affordable rental housing. All towns, cities, and counties must report information related to this performance measure to the county task force to the greatest extent practicable using available funds. Counties shall
report on achievements according to stated performance measures to the department annually by December 1st, beginning in 2008.

(3) In addition to fulfilling the requirements of subsections (1) and (2) of this section, county affordable housing for all plans must include:

(a) Timelines for the accomplishment of interim goals and targets, and for the acquisition of projected financing that is appropriate for outlined goals and targets;

(b) An identification of challenges to reaching the affordable housing for all goal;

(c) A total estimated amount of funds needed to reach the local affordable housing for all goal and an identification of potential funding sources; and

(d) State legislative recommendations to enable the county to achieve its affordable housing for all goals. Legislative recommendations must be specific and, if necessary, include an estimated amount of funding required and suggestions of an appropriate funding source.

(4) Each year, the department shall:

(a) Summarize key information from county plans, including a summary of local city and county housing program activities and a summary of legislative recommendations;

(b) Conduct annual performance evaluations of county plans; and

(c) Conduct annual performance evaluations of all counties according to their performance in achieving stated affordable housing goals in their plans.

(5) The department shall present the summary of county affordable housing for all plans and the results of performance evaluations to the appropriate committees of the legislature annually on or before December 31st.

NEW SECTION. Sec. 9. (1) Any county may decline to participate in the affordable housing for all program authorized in this chapter by forwarding to the department a resolution adopted by the county legislative authority stating the intention not to participate. A copy of the resolution must also be transmitted to the county auditor and treasurer. Counties that decline to participate shall not be required to establish an affordable housing task force or to create a county affordable housing for all plan. Counties declining to participate in the affordable housing for all program shall continue to collect and utilize the affordable housing for all surcharge for the purposes described in RCW 36.22.178; however, such counties shall not be allocated any additional affordable housing for all program funding. Counties may opt back into the affordable housing for all program authorized by this chapter at a later date through a process and timeline to be determined by the department.

(2) If a county declines to participate in the affordable housing for all program authorized in this chapter, a city or formally organized collaborative of cities within that county may forward a resolution to the department stating its intention and willingness to operate an affordable housing for all program within its jurisdictional limits. The department must establish procedures to choose amongst cities or collaboratives of cities express an interest in participating in the program. Participating cities or collaboratives of cities must fulfill the same requirements as counties participating in the affordable housing for all program.

NEW SECTION. Sec. 10. A county may subcontract with any other county, city, town, housing authority, community action agency, or other nonprofit organization for the execution of programs contributing to the affordable housing for all goal. All subcontracts must be: Consistent with the county affordable housing for all plan adopted by the legislative authority of the county; time limited; and filed with the department, and must have specific performance terms as specified by the county. County governments must strongly encourage subcontractors under the affordable housing for all program to apply to the full examination Washington state quality award program. This authority to subcontract with other entities does not affect participating counties' ultimate responsibility for meeting the requirements of the affordable housing for all program.

Sec. 11. RCW 36.22.178 and 2005 c 484 s 18 are each amended to read as follows:

Sec. 19. RCW 43.185C.005 and 2005 c 484 s 1 are each amended to read as follows:

Despite laudable efforts by all levels of government, private individuals, nonprofit organizations, and charitable foundations to end evaluating the operation of homeless services in Washington is unacceptably high. The state’s homeless population, furthermore, includes a large number of families with children, youth, and employed persons. The legislature finds that the fiscal and societal costs of homelessness are high for both the public and private sectors, and that ending homelessness (should) must be a goal for state and local government.

The legislature finds that there are many causes of homelessness, including a shortage of affordable housing; a shortage of public and family-wage jobs; a lack of an accessible and affordable health care system available to all who suffer from physical and mental illnesses and chemical and alcohol dependency; domestic violence; a lack of education and job skills necessary to acquire adequate wage jobs in the economy of the twenty-first century; inadequate availability of services for citizens with mental illness and developmental disabilities living in the community; and the difficulties faced by formerly institutionalized persons in reintegrating to society and finding stable employment and housing.

The support and commitment of all sectors of the statewide community is critical to the chances of success in ending homelessness in Washington. While the provision of housing and housing-related services to the homeless should be administered at the local level to best address specific community needs, the legislature also recognizes the need for the state to play a primary coordinating, supporting, monitoring, and evaluating role. There must be a clear assignment of responsibilities and a clear statement of achievable and quantifiable goals. Systematic statewide data collection on homelessness is critical to the state’s ability to monitor the progress of progress toward interim goals and the ultimate goal of ending homelessness are all necessary components of a statewide effort to end homelessness in Washington by July 1, 2015.

Sec. 20. RCW 43.185C.040 and 2005 c 484 s 7 are each amended to read as follows:

(1) ((Six months after the first Washington homeless census,)) The department shall, in consultation with the interagency council on Homelessness, the state advisory council on homelessness, and the affordable housing advisory board, prepare and ((publish a ten-year homeless housing plan)) annually update a state homeless housing strategic plan which (shall)) must outline statewide goals and performance measures ((and shall be coordinated with the plan for affordable housing)) and shall be coordinated with the plan for ((homelessness)) homelessness (shall not)) must include all of the performance measures included in the state homeless housing strategic plan and must be substantially (( inconsistent)) consistent with the goals and program recommendations of ((the temporary guidelines and, when amended after 2005)) the state homeless housing strategic plan.

(2)(a) Program outcomes and performance measures and goals (shall)) must be created by the department ((and reflected)) in consultation with the interagency council on homelessness and a task force established by the department consisting of the committee chairs of the appropriate committees of the legislature, representatives appointed by the director from a minimum of five local ending homelessness task forces representing both urban and rural areas and communities east and west of the Cascade mountains, and a representative from a statewide membership organization that advocates for ending homelessness. The task force must also produce guidelines for local governments regarding methods, techniques, and data suggested to measure each performance measure. Performance measures, yearly targets, and corresponding
measurement guidelines must be established by December 31, 2007, and must be reviewed annually by the department and the interagency council on homelessness after soliciting feedback from all local homeless housing task forces. Performance measures must be published in the department’s ((homeless housing)) state homeless housing strategic plan ((as well as)) and all local homeless housing plans.

(b) The department may determine a timeline for implementation and measurement of each performance measure for the state and local homeless housing plans, except that the state and all local governments must implement and respond to all performance measures by December 31, 2009, unless the department finds that a performance measure is not applicable to a specific local area according to parameters and thresholds established by the department.

(c) Performance measures must be created, at a minimum, to gauge the success of the state and each local government in the following areas:

(i) The societal cost of homelessness;

(ii) The cost of ending homelessness in comparison with available and committed resources;

(iii) The self-sufficiency of persons in Washington;

(iv) The achievement of an appropriate level of self-sufficiency for homeless individuals;

(v) The quality and completeness of the Washington homeless client management information system database;

(vi) The quality of the performance management systems of state agencies, local governments, and local government subcontractors executing programs, as authorized by RCW 43.185C.040(2), that contribute to the overall goal of ending homelessness; and

(vii) The quality of local homeless housing plans.

Performance measurements are reported upon by city and county geography, including demographics with yearly or more frequent targets.

(d) Interim goals against which state and local governments’ performance may be measured must also be described and reported upon in the state homeless housing strategic plan, including:

(a) (By the end of year one, completion of the first census as described in RCW 43.185C.030).

(b) By the end of each subsequent year, goals common to all state and local programs which are measurable and the achievement of which would move that community toward housing its homeless population; and

((c)) By July 1, 2015, reduction of the homeless population statewide and in each county by fifty percent.

((d)) The department shall develop a consistent statewide data gathering instrument to monitor the performance of cities and counties in implementing their homeless housing plans and must include corresponding action plans to ensure compliance with the terms and conditions set forth in the homeless housing grant application or required by the department.

(f) The department shall, in consultation with the interagency council on homelessness, the state advisory council on homelessness, and the affordable housing advisory board, report annually to the governor and the appropriate committees of the legislature ((on assessment of)) the fiscal and societal costs of the homeless crisis, including identifying, to the extent practical, savings in state and local program costs that could be obtained through the achievement of stable housing for the clients served by those programs.

(b) The department shall also deliver a summary annual report, including information about:

(a) All state programs addressing homeless housing and services;

(b) The state’s performance in furthering the goals of the state ((ten-year)) homeless housing strategic plan; and

(c) The performance of each participating local government in creating and executing a local homeless housing plan ((which)) that meets the requirements of this chapter. ((The annual report may include performance measures such as:

(a) The reduction in the number of homeless individuals and families from the initial count of homeless persons;

(b) The number of new units available and affordable for homeless families by housing type;

(c) The number of homeless individuals identified who are not offered suitable housing within thirty days of their request or identification as homeless;

(d) The number of households at risk of losing housing who remain housed due to a preventive intervention;

(e) The transition time from homelessness to permanent housing;

(f) The cost per person housed at each level of the housing continuum;

(g) The ability to successfully collect data and report performance;

(h) The extent of collaboration and coordination among public bodies, as well as community stakeholders, and the level of community support and participation;

(i) The quality and safety of housing provided; and

(j) The effectiveness of outreach to homeless persons, and their satisfaction with the program.

((d)(2)) The state homeless housing plan must also include a response to each recommendation included in the local homeless housing plans for policy changes to assist in ending homelessness and a summary of the recommendations to the legislature to streamline and simplify all housing planning and reporting requirements, as required in section 17 of this act. (Based on the recommendation of the local homeless housing programs in meeting their interim goals, on general population changes and on changes in the homeless population recorded in the ((annual)) census, the department may revise the performance measures and goals of the state homeless housing strategic plans, set goals for years following the initial ten-year period, and recommend changes in local governments’ homeless housing plans.

Sec. 21. RCW 43.185C.050 and 2005 c 484 s 8 are each amended to read as follows:

(1)(a)(i) Each local homeless housing task force shall prepare and recommend to its local government legislative authority a ((ten-year)) local homeless housing plan for its jurisdictional area ((which shall be not inconsistent)) that is consistent with the department’s ((statewide temporary guidelines, for the December 31, 2005, plan, and thereafter the department’s ten-year homeless housing)) state homeless housing strategic plan and ((which shall be)) is aimed at eliminating homelessness, with a minimum goal of reducing homelessness by fifty percent by July 1, 2015. Any city may assert responsibility for homeless housing within its borders if it so chooses, by forwarding a resolution to the legislative authority of the county stating its intention and its commitment to operate a separate homeless housing program. The city shall then receive a percentage of the surcharge assessed under RCW 36.22.179 equal to the percentage of the city's local portion of the real estate excise tax collected by the county. "NEW SECTION. Sec. 1 A new section is added to chapter 13.34 RCW to read as follows:

(1) A child may petition the juvenile court to reinstate the previously terminated parental rights of his or her parent under the following circumstances:

(a) The child must have been found to be a dependent child under this chapter;
(b) The child must be at least twelve years of age at the time the petition to reinstate parental rights is filed;
(c) At least three years have passed from the date of entry of an order for the termination of parental rights;
(d) The child's permanent plan is adoption and the child has not been adopted;
(e) The petition is signed by the child, unless the court finds good cause not to require the child's signature; and
(f) The petition alleges facts demonstrating the parent is fit and that reinstatement of parental rights is in the best interest of the child.

(2) Upon the filing of a petition to reinstate parental rights, the juvenile court shall order that a hearing be held. The court shall give prior notice, or cause prior notice to be given, to the department, the child's attorney, the child's foster parent, and the child's tribe, if applicable. The court shall also order the department to give prior notice of the hearing to the child's former parent or parents whose parental rights were terminated and to any parent of the child whose parental rights were not terminated.

(3) The juvenile court shall conditionally grant the petition if it finds the following by clear and convincing evidence:

(a) The parental deficiencies which led to the termination of parental rights have been addressed to a degree that assures the court that the reinstatement of parental rights will not present a risk to the child's health, welfare, or safety;
(b) The parent is currently able to care for the child such that placement of the child with the parent will not present a risk to the child's health, welfare, or safety;
(c) The child is no longer likely to be adopted; and
(d) That reinstatement of parental rights is in the child's best interest.

(4)(a) If the court conditionally grants the petition under subsection (3) of this section, the case will be continued for one year. During this period, the child shall be placed in the custody of the parent. The department shall develop a permanency plan for the child reflecting the plan to be reunification. The department shall provide transition services to the family as appropriate. The court shall conduct a minimum of two review hearings to determine the status of the case and the well-being of the child.
(b) If the child must be removed from the parent due to abuse or neglect allegations, the court shall dismiss the petition for reinstatement of parental rights if the court finds the allegations have been proven by a preponderance of the evidence.
(c) If the child has been successfully placed with the parent for one year, the court order reinstating parental rights remains in effect and the court shall dismiss the dependency if the court finds that dismissal of the dependency is in the best interests of the child and will not present a risk to the child's health, welfare, or safety.

(5) A child seeking to petition under this section shall be provided counsel prior to the filing of the petition.

(6) The child's former parent or parents have the right to be represented by counsel, and if indigent, to have counsel appointed for him or her by the court after the petition for reinstatement of parental rights has been filed. Unless waived in court, counsel shall be provided to the child's parent if such person (a) has appeared in the proceeding or requested the court to appoint counsel and (b) is financially unable to obtain counsel because of indigency.

(7) A proceeding to reinstate parental rights is a separate action from the termination of parental rights proceeding and does not vacate the original termination of parental rights. An order granted under this section reinstates the parental rights to the child. This reinstatement is a recognition that the situation of the parent and child have changed since the time of the termination of parental rights and reunification is now appropriate.

NEW SECTION. Sec. 2 Sections 1 through 5 of this act are retroactive and apply to any child who is under the jurisdiction of the juvenile court at the time of the hearing regardless of the date parental rights were terminated.

Sec. 3 RCW 13.34.200 and 2003 c 227 s 7 are each amended to read as follows:
(1) Upon the termination of parental rights pursuant to RCW 13.34.180, all rights, powers, privileges, immunities, duties, and obligations, including any rights to custody, control, visitation, or support existing between the child and parent shall be severed and terminated. A child shall have no standing to appear at any further legal proceedings concerning the child, except as provided in section 1 of this act: PROVIDED, That any support obligation existing prior to the effective date of the order terminating parental rights shall not be severed or terminated. The rights of one parent may be terminated without affecting the rights of the other parent and the order shall so state.

(2) An order terminating the parent and child relationship shall not disentitle a child to any benefit due the child from any third person, agency, state, or the United States, nor shall any action under this chapter be deemed to affect any rights and benefits that an Indian child derives from the child’s descent from a member of a federally recognized Indian tribe.

(3) An order terminating the parent-child relationship shall include a statement addressing the status of the child’s sibling relationships and the nature and extent of sibling placement, contact, or visits.

NEW SECTION. Sec. 4 A new section is added to chapter 43.210A RCW to read as follows:

The state or a person, individually or in a representative capacity for the state, who is involved in the delivery of child welfare services or child protective services through the children's administration of the department of social and health services, is not liable for selecting one of two or more alternative courses of action even though the course of action chosen results in a poor outcome if the person exercised reasonable care and skill in arriving at the judgment to follow the particular course of action.

NEW SECTION. Sec. 5 Nothing in sections 1 through 5 of this act may be construed to limit the application of other statutes specifying a liability standard for the state's employees and agents.

NEW SECTION. Sec. 6 The legislature recognizes that the 2005 Washington state court improvement project re-assessment found that Washington statutes fail to consistently address the health and safety of children in care. Statutory language does not stress the safety and welfare of the child as the paramount concern. Additionally, the lack of clarity in the statutes undermines the effectiveness of the hearings and, ultimately, the safety and welfare of the child. The legislature intends to clarify the purpose of the court hearings and the roles and responsibilities of the parties.

The legislature finds that an investment of time into quality court hearings results in better decisions for children and their families and preserves the resources of the court and the child welfare system. The legislature intends to clearly state that court hearings should always strive to be independent, thorough, and timely inquiries into the status of the case to ensure the department of social and health services is responding to the needs of the family and child in a prompt manner and that the case is progressing appropriately. The legislature encourages the courts to develop clearer, stronger oversight and leadership roles within the courts to achieve safe, timely permanency for children. The court is encouraged to engage all parties to question whether the case is progressing and, if not, to assist in problem-solving to ensure progress is made towards permanency for the child.

Sec. 7. RCW 13.34.060 and 2002 c 147 s 4 are each amended to read as follows:

(b) All parties have the right to present testimony to the court regarding the need or lack of need for shelter care.

(c) Hearsay evidence before the court regarding the need or lack of need for shelter care must be supported by sworn affidavit, affidavit, or declaration of the person offering such evidence.

(d) At the shelter care hearing the court shall examine the need for shelter care and inquire into the status of the case. The paramount consideration for the court shall be the health, welfare, and safety of the child. At a minimum, the court shall inquire into the following:

(a) Whether the notice required under RCW 13.34.062 was given to all known parents, guardians, or legal custodians of the child. The court shall make an express finding as to whether the notice required under RCW 13.34.062 was given to the parent, guardian, or legal custodian. If actual notice was not given to the parent, guardian, or legal custodian and the whereabouts of such person is known or can be ascertained, the court shall order the supervising agency or the department of social and health services to make reasonable efforts to advise the parent, guardian, or legal custodian of the status of the case, including the date and time of any subsequent hearings, and their rights under RCW 13.34.090;
(b) Whether the child can be safely returned home while the adjudication of the dependency is pending;
(c) What efforts have been made to place the child with a relative;
(d) What services were provided to the family to prevent or eliminate the need for removal of the child from the child’s home;

(d) If a relative is not available, the court shall order continued shelter care or order placement with another suitable person, and the court shall set forth its reasons for the order. (The court shall enter a finding as to whether RCW 13.34.060(2) and subsections (1) and (2) of this section have been complied with. If actual notice was not given to the parent, guardian, or legal custodian and the whereabouts of such person is known or can be ascertained, the court shall order the supervising agency or the department of social and health services to make reasonable efforts to advise the parent, guardian, or legal custodian of the status of the case, including the date and time of any subsequent hearings, and their rights under RCW 13.34.090.

(9)) If the court orders placement of the child with a person not related to the child and not licensed to provide foster care, the placement is subject to all terms and conditions of this section that apply to relative placements.

(e) Any placement with a relative, or other person approved by the court pursuant to this section, shall be contingent upon cooperation with the agency case plan and compliance with court orders related to the care and supervision of the child including, but not limited to, court orders regarding parent-child contacts, sibling contacts, and any other conditions imposed by the court. Noncompliance with the case plan or court order is grounds for removal of the child from the home of the relative or other person, subject to review by the court.

(6)(a) A shelter care order issued pursuant to this section shall include the requirement for a case conference as provided in RCW 13.34.067. However, if the parent is not present at the shelter care hearing, or does not agree to the case conference, the court shall not include the requirement for the case conference in the shelter care order.

(b) If the court orders a case conference, the shelter care order shall include notice to all parties and establish the date, time, and location of the case conference which shall be no later than thirty days after the fact-finding hearing.

(7)(a) A shelter care order issued pursuant to this section may be amended at any time with notice and hearing thereon. The shelter care decision of placement shall be modified only upon a showing of change in circumstances. No child may be placed in shelter care for longer than thirty days without an order, signed by the judge, authorizing continued shelter care.

(b)(1) An order releasing the child on any conditions specified in this section may at any time be amended, with notice and hearing thereon, so as to return the child to shelter care for failure of the parties to conform to the conditions originally imposed.

(ii) The court shall consider whether noncompliance with any conditions resulted from circumstances beyond the control of the parent, guardian, or legal custodian and give weight to that fact before ordering return of the child to shelter care.

(8)(a) If a child is returned home from shelter care a second time in the case, or if the supervisor of the caseworker deems it necessary, the multidisciplinary team may make a case staffing.

(b)(5) (a) If a child is returned home from shelter care a second time in the case a law enforcement officer must be present and file a report to the department.
Sec. 10. RCW 13.34.136 and 2004 c 146 s 1 are each amended to read as follows:

(1) Whenever a child is ordered removed from the child's home, a permanency plan shall be developed no later than sixty days from the time the supervising agency assumes responsibility for providing services, including placing the child, or at the time of a hearing under RCW 13.34.130, whichever occurs first. The permanency planning process continues until a permanency planning goal is achieved or dependency is dismissed. The planning process shall include reasonable efforts to return the child to the parent's home.

(a) The agency charged with (temporary) care of the child shall provide the court with a written permanency plan of care directed towards securing a safe, stable, and permanent home for the child as soon as possible. The permanency plan shall include:

(i) A permanency plan of care that shall identify one of the following outcomes as a primary goal and may identify additional outcomes as alternative goals: Return of the child to the home of the child's parent, guardian, or legal custodian; adoption; guardianship; permanent legal custody; long-term relative or foster care, until the child is age eighteen, with a written agreement between the parties and the care provider; successful completion of a responsible living skills program; or independent living, if appropriate and if the child is age sixteen or older. The department shall not discharge a child to an independent living situation before the child is eighteen years of age unless the child becomes emancipated pursuant to chapter 13.64 RCW;

(ii) Visitation is the right of the family, including the child and the parent, in cases in which visitation is in the best interest of the child. Early, consistent, and frequent visitation is crucial for maintaining parent-child relationships and making it possible for parents and children to safely reunify. The agency shall encourage the maximum parent and child and sibling contact possible, when it is in the best interest of the child, including regular visitation and participation by the parents in the care of the child while the child is in placement. Visitation shall not be limited as a sanction for a parent's failure to comply with court orders or services where the health, safety, or welfare of the child is not at risk as a result of the visitation. Visitation may be limited or denied only if the court determines that such limitation or denial is necessary to protect the child's health, safety, or welfare. The court and the agency should rely upon community resources, relatives, foster parents, and other appropriate persons to provide transportation and supervision for visitation to the extent that such resources are available, and appropriate, and the child's safety would not be compromised.

(iii) A child shall be placed as close to the child's home as possible, preferably in the child's own neighborhood, unless the court finds that placement at a greater distance is necessary to promote the child's or parents' well-being.

(iv) The plan should ensure the child remains enrolled in the school the child was attending at the time the child entered foster care whenever it is practical and in the best interest of the child.

(v) The agency charged with supervising a child in placement shall provide all reasonable services that are available within the agency, or within the community, or those services which the department has existing contracts to purchase. It shall report to the court if it is unable to provide such services; and

(c) If the court has ordered, pursuant to RCW 13.34.130(4), that a termination petition be filed, a specific plan as to where the child will be placed, what steps will be taken to achieve permanency for the child, services to be offered or provided to the child, and, if visitation would be in the best interests of the child, a recommendation to the court regarding visitation between parent and child pending a fact-finding hearing on the termination petition. The agency shall not be required to develop a plan of services for the parents or provide services to the parents if the court orders a termination petition be filed. However, reasonable efforts to ensure visitation and contact between siblings shall be made unless there is reasonable cause to believe the best interests of the child or siblings would be jeopardized.

(iv) The plan should ensure the child's relationships with the child's siblings in accordance with RCW 13.34.130(3).

Sec. 11. RCW 13.34.138 and 2005 c 512 s 3 are each amended to read as follows:

(1) Except for children whose cases are reviewed by a citizen review board under chapter 13.70 RCW, the status of all children found to be dependent shall be reviewed by the court at least every six months from the beginning date of the placement episode or the date dependency is established, whichever is first at ((in a)). The purpose of the hearing (in which it shall be determined) to review the progress of the parties and determine whether supervision should continue.

(a) The initial review hearing shall be an in-court review and shall be set six months from the beginning date of the placement episode or no more than ninety days from the entry of the disposition order, whichever comes first. The requirements for the initial review hearing, including the in-court review requirement, shall be accompanied within existing resources.

(b) The supervising agency shall provide a foster parent, preadoptive parent, or relative with notice of, and his or her right to an opportunity to be heard in, a review hearing pertaining to the child, but only if that person is currently providing care to the child at the time of the hearing. This section shall not be construed to grant party status to any person who has been provided an opportunity to be heard.

(c) The initial review hearing may be a permanency planning hearing when necessary to meet the time frames set forth in RCW 13.34.145((f)) (1)(a) or 13.34.134. (The review shall include findings regarding the agency and parental compliance of disposition plan requirements, and if necessary, revised permanency time limits. The requirements for the initial review hearing, including the in-court requirement, shall be accomplished within existing resources. The supervising agency shall provide a foster parent, preadoptive parent, or relative with notice of, and their
right to an opportunity to be heard in, a review hearing pertaining to the child, but only if that person is currently providing care to the child at the time of the hearing. This section shall not be construed to grant party status to any person who has been provided an opportunity to be heard.

(2)(a) A child shall not be returned home at the review hearing unless the court finds that a reason for removal as set forth in RCW 13.34.130 no longer exists. The parents, guardian, or legal custodian shall report to the court the efforts they have made to correct the conditions which led to removal. If a child is returned, casework supervision shall continue for a period of six months, at which time there shall be a hearing on the need for continued intervention.

(b) If the child is not returned home, the court shall establish in writing:

(i) Whether reasonable services have been provided or offered to the parties to facilitate reunion, specifying the services provided or offered.

Whether the agency is making reasonable efforts to provide services to the family and eliminate the need for placement of the child. If additional services, including housing assistance, are needed to facilitate the return of the child to the child's parents, the court shall order that reasonable services be offered specifying such services.

Whether there has been compliance with the case plan by the child, the child's parents, and the agency supervising the placement.

Whether progress has been made toward correcting the problems that necessitated the child's placement in out-of-home care.

Whether the services set forth in the case plan and the responsibilities of the parties need to be clarified or modified due to the availability of additional information or changed circumstances.

Whether there is a continuing need for placement.

Whether the child is in an appropriate placement which adequately meets all physical, emotional, and educational needs.

Whether the child has been placed in the least restrictive setting appropriate to the child's needs, including whether consideration has been given to placement with the child's relatives.

Whether there has been compliance with the case plan by the child, the child's parents, and the agency supervising the placement.

Whether progress has been made toward correcting the problems that necessitated the child's placement in out-of-home care.

Whether the parents have visited the child and any reasons why visitation has not occurred or has been infrequent.

Whether additional services, including housing assistance, are needed to facilitate the return of the child to the child's parents, if so, the court shall order that reasonable services be offered specifying such services.

Whether terms of visitation need to be modified.

Whether the court-approved long-term permanent plan for the child remains the best plan for the child.

Whether any additional court orders need to be made to move the case toward permanency, and

The projected date by which the child will be returned home or other permanent plan of care will be implemented.

(c) The court at the review hearing may order that a petition seeking termination of the parent and child relationship be filed.

(3)(a) In any case in which the court orders that a dependent child may be returned to or remain in the child's home, the in-home placement shall be contingent upon the following:

(i) The compliance of the parents with court orders related to the care and supervision of the child, including compliance with an agency case plan; and

(ii) The continued participation of the parents, if applicable, in available substance abuse or mental health treatment if substance abuse or mental illness was a contributing factor to the removal of the child.

(b) The following may be grounds for removal of the child from the home, subject to review by the court:

(i) Noncompliance by the parents with the agency case plan or court order;

(ii) The parent's inability, unwillingness, or failure to participate in available services or treatment for themselves or the child, including substance abuse treatment if a parent's substance abuse was a contributing factor to the abuse or neglect; or

(iii) The failure of the parents to successfully and substantially complete available services or treatment for themselves or the child, including substance abuse treatment if a parent's substance abuse was a contributing factor to the abuse or neglect.

(4) The court's ability to order housing assistance under RCW 13.34.130 and this section is: (a) Limited to cases in which homelessness or the lack of adequate and safe housing is the primary reason for an out-of-home placement; and (b) Subject to the availability of funds appropriated for this specific purpose.

(5) The court shall consider the child's relationship with siblings in accordance with RCW 13.34.130(3).

Sec. 12. RCW 13.34.145 and 2003 c 227 s 6 are each amended to read as follows:

(1) (A permanency plan shall be developed no later than sixty days from the time the supervising agency assumes responsibility for providing services, including placing the child, or at the time of a hearing under RCW 13.34.130, whichever occurs first. The permanency planning process continues until a permanency planning plan is approved or a joint plan is adopted. The permanency planning plan shall include reasonable efforts to return the child to the parent's home.

(a) Whenever a child is placed in out-of-home care pursuant to RCW 13.34.130, the agency that has custody of the child shall provide the court with a written permanency plan of care directed towards securing a safe, stable, and permanent home for the child as soon as possible. The plan shall identify one of the following outcomes as the primary goal and may also identify additional outcomes as alternative goals: Return of the child to the home of the child's parent, guardian, or legal custodian; adoption; guardianship; permanent legal custody, long-term relative or foster care, until the child is age eighteen, with a written agreement between the parties and the care provider; a responsible living skills program, and independent living, if appropriate and if the child is age sixteen or older and the provisions of subsection (2) of this section are met;

(b) The identified outcomes and goals of the permanency plan may change over time based upon the circumstances of the particular case;

(c) Permanency planning goals should be achieved at the earliest possible date, preferably before the child has been in out-of-home care for fifteen months. In cases where parental rights have been terminated, the child is legally free for adoption, and adoption has been identified as the primary permanency planning goal, it shall be a goal to complete the adoption within six months following entry of the termination order;

(d) For purposes related to permanency planning:

(i) "Guardianship" means a dependency guardianship, a legal guardianship pursuant to chapter 11.88 RCW, or equivalent laws of another state or a federally recognized Indian tribe;

(ii) "Permanent custody order" means a custody order entered pursuant to chapter 26.10 RCW;

(iii) "Permanent legal custody" means legal custody pursuant to chapter 26.10 RCW or equivalent laws of another state or of a federally recognized Indian tribe;

(2) Whenever a permanency plan identifies independent living as a goal, the plan shall also specifically identify the services that will be provided to assist the child in making a successful transition from foster care to independent living. Before the court approves independent living as a permanency plan of care, the court shall make a finding that the provision of services to assist the child in making a transition from foster care to independent living will allow the child to manage his or her financial, personal, social, educational, and nonfinancial affairs. The department shall not discharge a child to independent living until the child is age eighteen, unless the child becomes emancipated pursuant to chapter 13.64 RCW;

(3)) The purpose of a permanency planning hearing is to review the permanency plan for the child, inquire into the welfare of the
child and progress of the case, and reach decisions regarding the permanent placement of the child;

(a) A permanency planning hearing shall be held in all cases where the child has remained in out-of-home care for at least nine months and an adoption decree, guardianship order, or permanent custody order has not previously been entered. The hearing shall take place no later than twelve months following commencement of the current placement episode.

(((4))) (b) Whenever a child is removed from the home of a dependency guardian or long-term relative or foster care provider, and the child is not returned to the home of the parent, guardian, or legal custodian but is placed in out-of-home care, a permanency planning hearing shall take place no later than twelve months, as provided in (((subsection (3) of))) this section, following the date of removal unless, prior to the hearing, the child returns to the home of the dependency guardian or long-term care provider, the child is placed in the home of the parent, guardian, or legal custodian, an adoption decree, guardianship order, or a permanent custody order is entered, or the dependency is dismissed.

(((5))) (c) Permanency planning goals should be achieved at the earliest possible date, preferably before the child has been in out-of-home care for fifteen months. In cases where parental rights have been terminated, the child is legally free for adoption, and adoption has been decreed, the court may determine that the primary permanency planning goal, if it shall be a goal to complete the adoption within six months following entry of the termination order.

(2) No later than ten working days prior to the permanency planning hearing, the agency having custody of the child shall submit a written permanency plan to the court and shall mail a copy of the plan to all parties and their legal counsel, if any.

(((6))) (3) At the permanency planning hearing, the court shall ((enter findings as required in RCW 13.34.128 and shall review the permanency plan prepared by the agency)) conduct the following inquiry:

(a) If a goal of long-term foster or relative care has been achieved prior to the permanency planning hearing, the court shall review the child's status to determine whether the placement and the plan for the child's care remain appropriate.

(b) In cases where the primary permanency planning goal has not been achieved, the court shall inquire regarding the reasons why the primary goal has not been achieved and determine what needs to be done to make it possible to achieve the primary goal. The court shall review the permanency plan prepared by the agency and make explicit findings regarding each of the following:

(i) The continuing necessity for, and the safety and appropriateness of, the placement;

(ii) The extent of compliance with the permanency plan by the agency and any other service providers, the child's parents, the child, and the child's guardian, if any;

(iii) The extent of any efforts to involve appropriate service providers in addition to agency staff in planning to meet the special needs of the child and the child's parents;

(iv) The progress toward eliminating the causes for the child's placement outside of his or her home and toward returning the child safely to his or her home or obtaining a permanent placement for the child;

(v) The date by which it is likely that the child will be returned to his or her home or placed for adoption, with a guardian or in some other alternative permanent placement; and

(vi) If the child has been placed outside of his or her home for fifteen of the most recent twenty-two months, not including any period during which the child was a runaway from the out-of-home placement or the first six months of any period during which the child was returned to his or her home for a trial home visit, the appropriateness of the permanency plan, whether reasonable efforts were made by the agency to achieve the goal of the permanency plan, and the circumstances which prevent the child from any of the following:

(A) Being returned safely to his or her home;

(B) Having a petition for the involuntary termination of parental rights filed on behalf of the child;

(C) Being placed for adoption;

(D) Being placed with a guardian;

(E) Being placed in the home of a fit and willing relative of the child;

(F) Being placed in some other alternative permanent placement, including independent living or long-term foster care.

(c)(4) If the permanency plan identifies independent living as a goal, the court shall make a finding that the provision of services to assist the child in making a transition from foster care to independent living will allow the child to manage his or her financial, personal, social, educational, and nonfinancial affairs prior to approving independent living as a permanency plan of care.

(4) The permanency plan may specifically identify the services that will be provided to assist the child to make a successful transition from foster care to independent living.

(iii) The department shall not discharge a child to an independent living situation before the child is eighteen years of age unless the child becomes emancipated pursuant to chapter 13.64 RCW.

(d) If the child has resided in the home of a foster parent or relative for more than six months prior to the permanency planning hearing, the court shall also enter a finding regarding whether the foster parent or relative was informed of the hearing as required in RCW 74.13.280 and 13.34.138. ((If a goal of long-term foster or relative care has been achieved prior to the permanency planning hearing, the court shall review the child's status to determine whether the placement and the plan for the child's care remain appropriate. In cases where the primary permanency planning goal has not been achieved, the court shall inquire regarding the reasons why the primary goal has not been achieved and determine what needs to be done to make it possible to achieve the primary goal))

(3) In all cases, at the permanency planning hearing, the court shall:

(a)(i) Order the permanency plan prepared by the agency to be implemented; or

(ii) Modify the permanency plan, and order implementation of the modified plan; and

(b)(i) Order the child returned home only if the court finds that a reason for removal as set forth in RCW 13.34.130 no longer exists; or

(ii) Order the child to remain in out-of-home care for a limited specified time period while efforts are made to implement the permanency plan.

(((7))) (5) Following the first permanency planning hearing, the court shall hold a further permanency planning hearing in accordance with this section at least once every twelve months until a permanency planning goal is achieved or the dependency is dismissed, whichever occurs first.

(6) Prior to the second permanency planning hearing, the agency that has custody of the child shall consider whether to file a petition for termination of parental rights.

(7) If a child is removed from home due to allegations of abuse or neglect, returned home, and subsequently removed and placed in out-of-home care, the court shall hold a permanency hearing no later than thirty days from the date of the removal to determine the appropriate action, including a change in the permanency plan or the filing of a termination petition. The best interests of the child shall be the primary consideration in determining the appropriate action.

(8) If the court orders the child returned home, casework supervision shall continue for at least six months, at which time a review hearing shall be held pursuant to RCW 13.34.138, and the court shall determine the need for continued intervention.

(((8))) (9) The juvenile court may hear a petition for permanent legal custody when: (a) The court has ordered implementation of a permanency plan that includes permanent legal custody; and (b) the party pursuing the permanent legal custody is the party identified in the permanency plan as the prospective legal custodian. During the pendency of such proceeding, the court shall conduct review hearings and further permanency planning hearings as provided in this chapter. At the conclusion of the legal guardianship or permanent legal custody proceeding, a juvenile court hearing shall be held for the purpose of determining whether dependency should be dismissed. If a guardianship or permanent custody order has been entered, the dependency shall be dismissed.
SIXTY FOURTH DAY, MARCH 12, 2007

(10) Continued juvenile court jurisdiction under this chapter shall not be a barrier to the entry of an order establishing a legal guardianship or permanent legal custody when the requirements of subsection (9) of this section are met.

(11) Except as provided in RCW 13.34.225, the status of all dependent children shall continue to be reviewed by the court at least once every twelve months until a permanency planning goal is achieved or the dependency is dismissed, whichever occurs first.

(12) The approval of a permanency plan that does not contemplate return of the child to the parent does not relieve the supervising agency of its obligation to provide reasonable services, under this chapter, intended to effectuate the return of the child to the parent, including but not limited to, visitation rights. The court shall consider the child's relationships with siblings in accordance with RCW 13.34.130.

(13) Nothing in this chapter may be construed to limit the procedural due process rights of any party in a termination or guardianship proceeding filed under this chapter.

(11) Refer cases to the division of child support whenever state or federal funds are expended for the care and maintenance of a child, including a child with a developmental disability who is placed as a result of an action under chapter 13.34 RCW, unless the department finds that there is good cause not to pursue collection of child support against the parent or parents of the child. Cases involving individuals age eighteen through twenty shall not be referred to the division of child support unless required by federal law.

(12) Have authority within funds appropriated for foster care services to purchase care for Indian children who are in the custody of a federally recognized Indian tribe or tribally licensed child-placing agency pursuant to parental consent, tribal court order, or

and the same are herewith transmitted.

Brad Hendrickson, Deputy Secretary

POINT OF PERSONAL PRIVILEGE

Representative DeBolt: "Today is a sad day for me because I lose someone who is near and dear to my heart. David Castillo is leaving my caucus organization as Chief of Staff. David is heading back to Washington, D.C. to work for Homeland Security so he can tap all of our phones and do all those things that we hate so much. I want to take this opportunity to thank him because not only was he my Chief of Staff, but he was my first legislative assistant when I was first elected. Legislative Assistants are probably the most important thing that we have as relationships in Olympia. To give all that they give to us and they ask so little in return. And then to have him become my Chief of Staff I really appreciate all your hard work, David. You've been a friend but also you've been a great advisor. I am going to miss you dearly. I wish you all the best."

POINT OF PERSONAL PRIVILEGE

Representative Santos: "As we have heard on this House floor many times, especially this week, our participation here in this experiment in democracy in the legislative process often comes at a price -- the price of the heavy duties that are borne by those we love at home, our family members. But also by our larger legislative family. I would like to take this moment to welcome back a member of our legislative family, your
attorney, Cathy Maynard, who we have missed terribly throughout this session but who has spent this time caring for her loved one leaving us to struggle on our own. But she was always a phone call away. We are delighted to have her steady hand and wise counsel because she is a member of our legislative family and I urge us to welcome her back home this day."

(1) By reason of their employment, firefighters are required to work in the midst of, and are subject to, smoke, fumes, infectious diseases, and toxic and hazardous substances;
(2) Firefighters enter uncontrolled environments to save lives, provide emergency medical services, and reduce property damage and are frequently not aware of the potential toxic and carcinogenic substances, and infectious diseases that they may be exposed to;
(3) Harmful effects caused by firefighters' exposure to hazardous substances, whether cancer, infectious disease, heart or respiratory disease, may develop very slowly, manifesting themselves years after exposure;
(4) Firefighters frequently and at unpredictable intervals perform job duties under strenuous physical conditions unique to their employment when engaged in firefighting activities; and
(5) Cardiovascular disease is exacerbated by firefighting duties and firefighting increases the incidence of cardiovascular disease and heart injuries in firefighters.

Sec. 2. RCW 51.32.185 and 2002 c 337 s 2 are each amended to read as follows:
(1) In the case of firefighters as defined in RCW 41.26.030(4)(a), (b), and (c) who are covered under Title 51 RCW and firefighters, including supervisors, employed on a full-time, fully compensated basis as a firefighter of a private sector employer's fire department that includes over fifty such firefighters, there shall exist a prima facie presumption that: (a) Respiratory disease; (b) ((heart problems that are experienced within seventy-two hours of exposure to smoke, fumes, or toxic substances)) any heart problems, experienced within seventy-two hours of exposure to smoke, fumes, or toxic substances, or experienced within twenty-four hours of strenuous physical exertion due to firefighting activities; (c) cancer; and (d) infectious diseases are occupational diseases under RCW 51.08.140. This presumption of occupational disease may be rebutted by a preponderance of the evidence. Such evidence may include, but is not limited to, use of tobacco products, physical fitness and weight, lifestyle, hereditary factors, and exposure from other employment or nonemployment activities.

(2) The presumptions established in subsection (1) of this section shall be extended to an applicable member following termination of service for a period of three calendar months for each year of requisite service, but may not extend more than sixty months following the last date of employment.

(3) The presumption established in subsection (1)(c) of this section shall only apply to any active or former firefighter who has cancer that develops or manifests itself after the firefighter has served for at least ten years and who was given a qualifying medical examination upon becoming a firefighter that showed no evidence of cancer. The presumption within subsection (1)(c) of this section shall only apply to prostate cancer diagnosed prior to the age of fifty, primary brain cancer, malignant melanoma, leukemia, non-Hodgkin's lymphoma, bladder cancer, ureter cancer, colorectal cancer, multiple myeloma, testicular cancer, and kidney cancer.

(4) The presumption established in subsection (1)(d) of this section shall be extended to any firefighter who has contracted any of the following infectious diseases: Human immunodeficiency virus/acquired immunodeficiency syndrome, all strains of hepatitis, meningococcal meningitis, or mycobacterium tuberculosis.

(5) Beginning July 1, 2003, this section does not apply to a firefighter who develops a heart or lung condition and who is a regular user of tobacco products or who has a history of tobacco use. The department, using existing medical research, shall define in rule the extent of tobacco use that shall exclude a firefighter from the provisions of this section.

(6) For purposes of this section, "firefighting activities" means fire suppression, fire prevention, emergency medical services, rescue operations, hazardous materials response, aircraft rescue, and training and other assigned duties related to emergency response.

(7)(a) When a determination involving the presumption established in this section is appealed to the board of industrial insurance appeals and the final decision allows the claim for benefits, the board of industrial insurance appeals shall order that all reasonable costs of the appeal, including attorney fees and witness fees, be paid to the firefighter or his or her beneficiary by the opposing party.

(b) When a determination involving the presumption established in this section is appealed to any court and the final decision allows the claim for benefits, the court shall order that all reasonable costs of the appeal, including attorney fees and witness fees, be paid to the firefighter or his or her beneficiary by the opposing party.

(c) When reasonable costs of the appeal must be paid by the department under this section in a state fund case, the costs shall be paid from the resident fund and charged to the costs of the claim.

(8) (a) If an employer requests reconsideration of a department order allowing benefits under this section and the firefighter's
medical provider has made a determination that the firefighter is terminally ill, temporary total disability compensation or medical aid benefits granted to the firefighter by the order under reconsideration must continue while the reconsideration is pending, subject to the requirements of RCW 51.32.240(4).

Sec. 3. RCW 51.52.120 and 2003 c 53 s 285 are each amended to read as follows:

(1) It shall be unlawful for an attorney engaged in the representation of any worker or beneficiary to charge for services in the department any fee in excess of a reasonable fee, of not more than thirty percent of the increase in the award secured by the attorney's services. Such reasonable fee shall be fixed by the director or the director's designee for services performed by an attorney for a worker or beneficiary, if written application therefor is made by the attorney, worker, or beneficiary within one year from the date of the final decision and order of the department is communicated to the party making the application.

(2) If, on appeal to the board, the order, decision, or award of the department is reversed or modified and additional relief is granted to a worker or beneficiary, or in cases where a party other than the worker or beneficiary is the appealing party and the worker's or beneficiary's right to relief is sustained by the board, the board shall fix a reasonable fee for the services of his or her attorney in proceedings before the board if written application therefor is made by the attorney, worker, or beneficiary within one year from the date of the final decision and order of the board is communicated to the party making the application. In fixing the amount of such attorney's fee, the board shall take into consideration the fee allowed, if any, by the director, for services before the department, and the board may review the fee fixed by the director. Any attorney's fee set by the department or the board may be reviewed by the superior court upon application of such attorney, worker, or beneficiary. The department or self-insured employer, as the case may be, shall be served a copy of the application and shall be entitled to appear and take part in the proceedings. Where the board, pursuant to this section, fixes the attorney's fee, it shall be unlawful for an attorney to charge or receive any fee for services before the board in excess of that fee fixed by the board.

(3) In an appeal to the board involving the presumption established under RCW 51.32.185, the attorney's fee shall be payable as set forth under RCW 51.32.185.

(4) Any person who violates this section is guilty of a misdemeanor.

Sec. 4. RCW 51.52.130 and 1993 c 122 s 1 are each amended to read as follows:

(1) If, on appeal to the superior or appellate court from the decision and order of the board, said decision and order is reversed or modified and additional relief is granted to a worker or beneficiary, or in cases where a party other than the worker or beneficiary is the appealing party and the worker's or beneficiary's right to relief is sustained, a reasonable fee for the services of the worker's or beneficiary's attorney shall be fixed by the court. In fixing the fee the court shall take into consideration the fee or fees, if any, fixed by the director and the board for such attorney's services before the department or the board. If the court finds that the fee fixed by the director or by the board is inadequate for services performed before the department or board, or if the director or the board has fixed no fee for such services, then the court shall fix a fee for the attorney's services before the department, or the board, as the case may be, in addition to the fee fixed for the services in the court. If in a worker or beneficiary appeal the decision and order of the board is reversed or modified and if the accident fund or medical aid fund is affected by the litigation, or if in an appeal by the department or employer the worker or beneficiary's right to relief is sustained, or

in an appeal by a worker involving a state fund employer with twenty-five employees or less, in which the department does not appear and defend, and the board order in favor of the employer is sustained, the attorney's fee fixed by the court, for services before the court only, and the fees of medical and other witnesses and the costs shall be payable out of the administrative fund of the department. In the case of self-insured employers, the attorney fees fixed by the court, for services before the court only, and the fees of medical and other witnesses and the costs shall be payable directly by the self-insured employer.

(2) In an appeal to the superior or appellate court involving the presumption established under RCW 51.32.185, the attorney's fee shall be payable as set forth under RCW 51.32.185.

"NEW SECTION. Sec. 1. (1) The legislature finds that:
(a) Research demonstrates the critical role that registered nurses play in improving patient safety and quality of care;
(b) Greater numbers of registered nurses available to care for hospitalized patients are key to reducing errors, complications, and adverse patient events;
(c) Higher nurse staffing levels result in improved staff safety and satisfaction and reduced incidences of workplace injuries;
(d) Health care professional, technical, and support staff comprise vital components of the patient care team, bringing their particular skills and services to ensuring quality patient care; and
(e) Addressing nurse staffing issues to meet patient care needs is an urgent public policy priority.
(2) Therefore, in order to protect patients and to support greater retention of registered nurses, to promote evidence-based nurse staffing, and to increase transparency of health care data and decision making, the legislature intends to establish a program for the development of evidence-based hospital staffing plans.

NEW SECTION. Sec. 2. A new section is added to chapter 70.41 RCW to read as follows:
(1) DEFINITIONS. The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.
(a) "Central nursing resource center" means the center established in RCW 18.79.202;
(b) "Hospital" has the same meaning as defined in RCW 70.41.020, except that "hospital" also includes the state hospitals as defined in RCW 72.23.010 and the psychiatric hospitals licensed under chapter 71.12 RCW.
(c) "Intensity" means the level of patient needs in terms of nursing care as determined by a registered nurse providing direct patient care, taking into account at least the following factors:

(ii) Complexity of either planning or providing, or both, the care required by the patient;
(iii) Scheduled or anticipated procedures or events, including those that necessitate increased frequency of assessment or intervention;

(v) Availability of patient social supports including institutional, family, or community support;
(vi) Level of patient adherence or ability to comply with patient care;
(vii) Patient and family educational needs, including assessment of learning capabilities of patient and family;

(ix) Communications skills of the patient; and
(x) Other needs identified by the patient and by the registered nurse.
(d) "Nursing personnel" means registered nurses, licensed practical nurses, and unlicensed assistive nursing personnel providing direct patient care.

(2) HOSPITAL STAFFING COMMITTEES. (a) By January 1, 2008, each hospital shall establish a staffing committee. At least one-half of the staffing committee members must be registered nurses currently providing direct patient care, unless another ratio of registered nurse members is required to be consistent with an applicable provision of a collective bargaining agreement between the hospital and its nursing staff. If registered nurses are represented by a collective bargaining representative, the committee's direct patient care registered nurse members must be selected by that collective bargaining representative.
(b) Participation in the staffing committee by a hospital employee shall be considered a part of the employee's regularly scheduled workweek.

(3) PATIENT ASSIGNMENT STANDARDS RECOMMENDATION. (a) By June 1, 2008, the central nursing resource center must forward recommendations to the department as required in this subsection. The recommendations must be evidence-based and must be developed by a task force convened by the central nursing resource center. Among its members, the task force must include representatives of organizations that represent hospitals, including rural hospitals. The recommendations must address:
(i) Patient assignment standards in hospitals; and
(ii) The development and implementation of hospital staffing plans, as the secretary may request.
(b) In developing its recommendations, the task force must consider:
(i) Current research findings regarding patient safety, outcomes of care, nurse staffing, and related areas;
(ii) Reports and recommendations issued by authoritative national and state bodies and agencies, including but not limited to the institute of medicine, the joint commission, the national quality forum, and the agency for healthcare research and quality;
(iii) Guidelines adopted or published by national nursing professional associations, specialty nursing organizations, and other health professional organizations;
(iv) Relevant information regarding legislation or rules on nurse staffing considered or adopted in other states;
(v) Different levels of intensity, complexity, or need presented by patients in different types of patient care units; and
(vi) Availability of health care professional, technical, and support staff whose skills and services are essential to delivering quality patient care.
(c) The department must post the recommendations forwarded by the central nursing resource center on its web site and allow at least a thirty-day public comment period. By July 15, 2008, the department must publish final recommendations, to be posted on the department's web site and provided to the hospitals.
(d) On a biennial basis, a task force convened by the central nursing resource center pursuant to (a) of this subsection must review the considerations listed in (b) of this subsection and determine whether the final recommendations published under this subsection should be updated. New recommendations, if any, developed by the task force and forwarded to the department by the central nursing resource center must be posted for public comment as provided in (c) of this subsection, and the department must publish final recommendations within forty-five days of posting the central nursing resource center's recommendations.
(4) HOSPITAL STAFFING PLANS. (a)(i) By January 1, 2009, each hospital's staffing committee must develop, and the hospital implement, a staffing plan that sets the minimum number and skill mix of nursing personnel required on each shift in each patient care unit.
(ii) In establishing staffing levels for the staffing plan, the staffing committee must consider the patient assignment standards
recommended in the final recommendations published under subsection (3) of this section. If the staffing plan adopts staffing levels that provide lower staffing than the final recommendations published under subsection (3) of this section, the staffing plan must include an explanation of the reasons for the deviation.

(iii) Staffing plans must be based on at least the following additional criteria for each patient care unit:
(A) Census, including total numbers of patients on each shift at any one time and activity such as patient discharges, admissions, and transfers;
(B) Level of intensity of all patients and nature of the care to be delivered on each shift;
(C) Skill mix;
(D) Level of experience and specialty certification or training of nursing personnel providing care;
(E) The need for specialized or intensive equipment;
(F) The architecture and geography of the patient care unit, including but not limited to placement of patient rooms, treatment areas, nursing station, medication preparation areas, and equipment; and
(G) Staffing guidelines adopted or published by national nursing professional associations, specialty nursing organizations, and other health professional organizations.

(iv) Staffing plans must at a minimum:
(A) Include appropriate limits on the use of agency and traveling nurses;
(B) Be consistent with the scopes of practice for registered nurses and licensed practical nurses and the scope of legally permissible duties of unlicensed assistive personnel;
(C) Include adequate staffing to allow for staff time off, illnesses, meal and break time, and educational, health, and other leave;
(D) Include a process for review by the staffing committee that ensures compliance with the staffing plan, provides for the committee's review of incidents and staff concerns, and tracks staffing patterns, the number of patients and the patients' conditions, and the intensity of the patients' nursing care needs. These reviews must be performed at least semiannually; and
(E) Be updated at least annually.

(v) The staffing plan must not diminish other standards contained in law, rules, or the terms of an applicable collective bargaining agreement, if any, between the hospital and its nursing staff, and must be consistent with any such agreement.

(b) In implementing the staffing plan, each hospital shall:
(i) Assign nursing personnel to each patient care unit in accordance with its staffing plan. Shift-to-shift adjustments in staffing levels required by the plan may be made only if based upon assessment by a registered nurse providing direct patient care on the patient care unit, utilizing procedures specified by the staffing committee;
(ii) Make readily available the staffing plan and staffing levels to patients and visitors upon request; and
(iii) Make accessible to staff a process for reporting inadequate staffing or staffing at variance with the staffing plan. Any reports made under this subsection must be provided to the staffing committee and the hospital and be retained by the hospital for department review under subsection (5) of this section.

(5) HOSPITAL STAFFING PLAN REVIEW AND PUBLICATION. (a) Each hospital shall submit its staffing plan and any reports made under subsection (4)(b)(iii) for review by the department at least every eighteen months, which review may be in conjunction with any on-site licensing survey or inspection conducted by the department. The hospital may also submit any additional information related to staffing, including explanations of any staffing at variance with the adopted staffing plan and actions taken to resolve staffing issues.

(b) In collaboration with Washington state quality forum established in section 5, chapter . . . (House Bill No. 2098), Laws of 2007, the department must develop standards for comparing hospital staffing plans, and each hospital's adherence to its staffing plan in practice, with the final recommendations published under subsection (3) of this section. The department must rate the staffing plans according to the standards and provide the ratings to the Washington state quality forum to be disseminated, at a minimum, on its web site as part of its research regarding health care quality, evidence-based medicine, and patient safety. If the Washington state quality forum is not established, the department shall perform the duties required under this section and post the staffing plan information on its web site.

(6) HOSPITAL STAFFING REPORTS. (a) Semiannually, hospitals shall collect and submit to the department information regarding nurse staffing. In addition to the skill mix of registered nurses, licensed practical nurses, unlicensed assistive nursing personnel, nurses supplied by temporary staffing agencies including traveling nurses, and nursing care hours per patient per day, such information must also include:
(i) Death among surgical inpatients with treatable serious complications (failure to rescue);
(ii) Prevalence of urinary tract infections;
(iii) Hospital-acquired pneumonia;
(iv) Incidence of patient falls; and

(7) RETALIATION PROHIBITED. A hospital may not retaliate against or engage in any form of intimidation of:
(a) An employee for performing any duties or responsibilities in connection with participation on the staffing committee; or
(b) An employee, patient, or other individual who notifies the staffing committee, the hospital administration, or the department that any schedule or nursing personnel assignment fails to comply with the staffing plan, or that the hospital has failed to develop or implement a staffing plan.

(8) COMPLAINTS. (a) The department must investigate complaints from hospital staff that a hospital has failed to comply with a staffing plan, has failed to develop or implement a staffing plan, or has violated subsection (7) of this section. If there is reasonable cause to believe that a violation has been or is occurring, the department must immediately endeavor to eliminate the violation by conference with the interested parties. If a resolution is not reached, the department must make a finding to that effect. Such findings must be posted along with the ratings of staffing plans as provided in subsection (5)(b) of this section.

(b) The department must maintain a toll-free telephone number for patients to use to report the violations listed in (a) of this subsection. The department is not required to investigate such patient reports, but must disclose the report to the hospital and the hospital's staffing committee. In disclosing the report, the department shall not reveal identifying information about the patient.

c) Information about complaints or reports under this subsection that does not warrant an investigation may not be disclosed except that the department must notify the hospital and the complainant when a complaint did not warrant an investigation.

Sec. 3. RCW 70.56.020 and 2006 c 8 s 106 are each amended to read as follows:
(1) The legislature intends to establish an adverse health events and incident reporting system that is designed to facilitate quality improvement in the health care system, improve patient safety and decrease medical errors in a nonpunitive manner. The reporting system shall not be designed to punish errors by health care practitioners or health care facility employees.

(2) Each medical facility shall notify the department of health regarding the occurrence of any adverse event and file a subsequent report as provided in this section. Notification must be submitted to the department within forty-eight hours of confirmation by the medical facility that an adverse event has occurred. A subsequent report must be submitted to the department within forty-five days after confirmation by the medical facility that an adverse event has occurred. The notification and report shall be submitted to the department using the internet-based system established under RCW 70.56.040(2).

(3) The notification and report shall be filed in a format specified by the department after consultation with medical facilities and the independent entity. The format shall identify the facility, but shall not include any identifying information for any of the health
care professionals, facility employees, or patients involved. This provision does not modify the duty of a hospital to make a report to the department of health or a disciplinary authority if a licensed practitioner has committed unprofessional conduct as defined in RCW 18.130.180. As soon as possible, but no later than July 1, 2008, hospitals shall revise their incident reporting procedures to include an evaluation of staffing as part of the incident review process. Hospitals shall also modify their incident form to include an area for the documentation of staffing considerations.

(4)(a) As part of the report filed under this section, the medical facility must:

(C) The number of nursing personnel, if any, on the patient care unit working beyond their regularly scheduled number of hours or shifts at the time of the event and the number of consecutive hours worked by each such nursing personnel at the time of the adverse event; and

(ii) Conduct a root cause analysis of the event, describe the corrective action plan that will be implemented consistent with the findings of the analysis, or provide an explanation of any reasons for not taking corrective action. Hospitals shall consider staffing as a possible factor contributing to reportable incidents. Staffing considerations may include such factors as fatigue, training, communication, and adequacy.

(b) The department shall adopt rules, in consultation with medical facilities and the independent entity, related to the form and content of the root cause analysis and corrective action plan adopted by the joint commission on accreditation of health facilities and other national or governmental entities.

(c) For purposes of this subsection (4), "nursing personnel" and "patient care unit" have the same meaning as defined in section 2 of this act.

(5) If, in the course of investigating a complaint received from an employee of a medical facility, the department determines that the facility has not reported an adverse event or undertaken efforts to investigate the occurrence of an adverse event, the department shall direct the facility to report or to undertake an investigation of the event.

(6) The protections of RCW 43.70.075 apply to reports of adverse events that are submitted in good faith by employees of medical facilities.

Sec. 4. RCW 18.79.202 and 2005 c 268 s 4 are each amended to read as follows:

(1) In addition to the licensing fee for registered nurses and licensed practical nurses licensed under this chapter, the department shall impose an additional surcharge of five dollars per year on all initial licenses and renewal licenses for registered nurses and licensed practical nurses issued under this chapter. Advanced registered nurse practitioners are only required to pay the surcharge on their registered nurse license.

(2) The department, in consultation with the commission and the workforce training and education coordinating board, shall use the proceeds from the surcharge imposed under subsection (1) of this section to provide grants to a central nursing resource center. The grants may be awarded only to a not-for-profit central nursing resource center that is comprised of and led by nurses. The central nursing resource center will demonstrate coordination with relevant nursing constituents including professional nursing organizations, groups representing nursing educators, staff nurses, nurse managers or executives, and labor organizations representing nurses. The central nursing resource center shall have as its mission to contribute to the health and wellness of Washington state residents by ensuring that there is an adequate nursing workforce to meet the current and future health care needs of the citizens of the state of Washington.

The grants may be used to fund the following activities of the central nursing resource center:

(a) Maintain information on the current and projected supply and demand of nurses through the collection and analysis of data regarding the nursing workforce, including but not limited to education level, race and ethnicity, employment settings, nursing positions, reasons for leaving the nursing profession, and those leaving Washington state to practice elsewhere. This data collection and analysis must complement other state activities to produce data on the nursing workforce and the central nursing resource center shall work collaboratively with other entities in the data collection to ensure coordination and avoid duplication of efforts.

(b) Monitor and validate trends in the applicant pool for programs in nursing. The central nursing resource center must work with nursing leaders to identify approaches to address issues arising related to the trends identified, and collect information on other states’ approaches to addressing these issues.

(c) Facilitate partnerships between the nursing community and other health care providers, licensing authority, business and industry, consumers, legislators, and educators to achieve policy consensus, promote diversity within the profession, and enhance nursing career mobility and nursing leadership development.

(d) Evaluate the effectiveness of nursing education and articulation among programs to increase access to nursing education and enhance career mobility, especially for populations that are underrepresented in the nursing profession.

(e) Provide consultation, technical assistance, data, and information related to Washington state and national nursing resources.

(f) Promote strategies to enhance patient safety and quality patient care, including encouraging a safe and healthy workplace environment for nurses and making recommendations pursuant to section 2 of this act; and

(g) Educate the public including students in K-12 about opportunities and careers in nursing.

(3) The nursing resource center account is created in the custody of the state treasurer. All receipts from the surcharge in subsection (1) of this section must be deposited in the account. Expenditures from the account may be used only for grants to an organization to conduct the specific activities listed in subsection (2) of this section and to compensate the department for the reasonable costs associated with the collection and distribution of the surcharge and the administration of the grant provided for in subsection (2) of this section. No money from this account may be used by the recipient towards administrative costs of the central nursing resource center and must be spent on the specific activities listed in subsection (2) of this section. No money from this account may be used by the recipient toward lobbying. Only the secretary or the secretary's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures. Grants will be awarded on an annual basis and funds will be distributed quarterly. The first distribution after awarding the first grant shall be made no later than six months after July 24, 2005. The central nursing resource center shall report to the department on meeting the grant objectives annually.

(4) The central nursing resource center shall submit a report of all progress, collaboration with other organizations and government entities, and activities conducted by the center to the relevant committees of the legislature by November 30, 2011. The department shall conduct a review of the program to collect funds to support the activities of a nursing resource center and make recommendations on the effectiveness of the program and whether it should continue. The review shall be paid for with funds from the nursing resource center account. The review must be completed by June 30, 2012.

(5) The department may adopt rules as necessary to implement chapter 268, Laws of 2005.

Representative Williams moved the adoption of amendment (396):

Strike everything after the enacting clause and insert the following:

*Sec. 1. RCW 66.24.010 and 2006 c 359 s 1 are each amended to read as follows:

(1) Every license shall be issued in the name of the applicant, and the holder thereof shall not allow any other person to use the license.

(2) For the purpose of considering any application for a license, or the renewal of a license, the board may cause an inspection of the premises to be made, and may inquire into all matters in connection with the construction and operation of the premises. For the purpose of reviewing any application for a license and for considering the denial, suspension ((or)), revocation, or renewal of denial thereof of any license, the liquor control board may consider any prior criminal conduct of the applicant including an administrative violation history record with the board and a criminal history record information check. The board may submit the criminal history record information check to the Washington state patrol and to the identification division of the federal bureau of investigation in order that these agencies may search their records for prior arrests and convictions of the individual
or individuals who filled out the forms. The board shall require fingerprinting of any applicant whose criminal history record information check is submitted to the federal bureau of investigation. The provisions of RCW 9.95.240 and of chapter 9.96A RCW shall not apply to such cases. Subject to the provisions of this section, the board may, in its discretion, grant or ((refuse)) deny the renewal or license applied for. Denial may be based on, without limitation, the existence of chronic illegal activity documented in objections submitted pursuant to subsections (8)(d) and (12) of this section. Authority to approve an uncontested or unopposed license may be granted by the board to any staff member the board designates in writing. Conditions for granting such authority shall be adopted by rule. No retail license of any kind may be issued to:

(a) A person doing business as a sole proprietor who has not resided in the state for at least one month prior to receiving a license, except in cases of licenses issued to dining places on railroads, boats, or aircraft;
(b) A copartnership, unless all of the members thereof are qualified to obtain a license, as provided in this section;
(c) A person whose place of business is conducted by a manager or agent, unless such manager or agent possesses the same qualifications required of the licensee;
(d) A corporation or a limited liability company, unless it was created under the laws of the state of Washington or holds a certificate of authority to transact business in the state of Washington;
(e) The board may, in its discretion, subject to the provisions of RCW 66.08.150, suspend or cancel any license; and all rights of the licensee to keep or sell liquor thereunder shall be suspended or terminated, as the case may be.

(b) Unless sooner canceled, every license issued by the board shall expire at midnight of the thirtieth day of June of the fiscal year for which it was issued. However, if the board deems it feasible and desirable to do so, it may establish, by rule pursuant to chapter 34.05 RCW, a system for staggering the annual renewal dates for any and all licenses authorized by this chapter. If such a system of staggered annual renewal dates is established by the board, the license fees provided by this chapter shall be appropriately prorated during the first year that the system is in effect.

(6) Every license issued under this section shall be subject to all conditions and restrictions imposed by this title or by rules adopted by the board. All conditions and restrictions imposed by the board in the issuance of an individual license shall be listed on the face of the individual license along with the trade name, address, and expiration date.

(7) Every licensee shall post and keep posted its license, or licenses, in a conspicuous place on the premises.

(8)(a) Unless (b) of this subsection applies, before the board issues a new or renewal license to an applicant it shall give notice of such application to the chief executive officer of the incorporated city or town. If the application is for a license within an incorporated city or town, or to the county legislative authority, if the application is for a license outside the boundaries of incorporated cities or towns.
(b) If the application for a special occasion license is for an event held during a county, district, or area fair as defined by RCW 15.76.120, and the county, district, or area fair is located on property owned by the county but located within an incorporated city or town, the county legislative authority shall be the entity notified by the board under (a) of this subsection. The board shall send a duplicate notice to the incorporated city or town within which the fair is located.
(c) The incorporated city or town through the official or employee selected by it, or the county legislative authority or the official or employee selected by it, shall have the right to file with the board within twenty days after date of transmittal of such notice, written objections against the applicant or against the premises for which the new or renewal license is asked. The board may extend the time period for submitting written objections.
(d) The written objections shall include a statement of all facts upon which such objections are based, and in case written objections are filed, the city or town or county legislative authority may request and the liquor control board may in its discretion hold a hearing subject to the applicable provisions of Title 34 RCW. If the board makes an initial decision to deny a license or renewal based on the written objections of an incorporated city or town or county legislative authority, the board may adopt the decision.
(e) In case of disobedience of any person to comply with the order of the board or a subpoena issued by the board, or any of its members, or administrative law judges, or on the refusal of a witness to testify to any matter regarding which he or she may be lawfully interrogated, the judge of the superior court of the county in which the person resides, on application of any member of the board or administrative law judge, shall compel obedience by contempt proceedings. If the disobedience of the court of a subpoena issued from said court or a refusal to testify therein.

Where the license has been suspended only, the board shall return the license to the licensee at the expiration or termination of the period of suspension. The board shall notify all vendors in the city or place where the licensee has its premises of the suspension or cancellation of the license; and no employee may allow or cause any liquor to be delivered to or for any person at the premises of that license.

(5)(a) At the time of the original issuance of a spirits, beer, and wine restaurant license, the board shall prorate the license fee charged to the new licensee according to the number of calendar quarters, or portion thereof, remaining until the first renewal of that license is required.

(b) The board may, in its discretion, subject to the provisions of RCW 66.08.150, suspend or cancel any license; and all rights of the licensee to keep or sell liquor thereunder shall be suspended or terminated, as the case may be.

(c) The board may request the appointment of administrative law judges under chapter 34.12 RCW who shall have power to administer oaths, issue subpoenas for the attendance of witnesses and the production of papers, books, accounts, documents, and testimony, examine witnesses, and to receive testimony in any inquiry, investigation, hearing, or proceeding in any part of the state, under such rules as the board may adopt.
(d) Witnesses shall be allowed fees and mileage each way to and from any such inquiry, investigation, hearing, or proceeding at the rate authorized by RCW 34.05.446, as now or hereafter amended. Fees need not be paid in advance of appearance of witnesses to testify or to produce books, records, or other legal evidence.
(e) In case of disobedience of any person to comply with the order of the board or a subpoena issued by the board, or any of its members, or administrative law judges, or on the refusal of a witness to testify to any matter regarding which he or she may be lawfully interrogated, the judge of the superior court of the county in which the person resides, on application of any member of the board or administrative law judge, shall compel obedience by contempt proceedings. If the disobedience of the court of a subpoena issued from said court or a refusal to testify therein.
(4) Upon receipt of notice of the suspension or cancellation of a license, the licensee shall forthwith deliver up the license to the board. Where the license has been suspended only, the board shall return the license to the licensee at the expiration or termination of the period of suspension. The board shall notify all vendors in the city or place where the licensee has its premises of the suspension or cancellation of the license; and no employee may allow or cause any liquor to be delivered to or for any person at the premises of that license.

(5)(a) At the time of the original issuance of a spirits, beer, and wine restaurant license, the board shall prorate the license fee charged to the new licensee according to the number of calendar quarters, or portion thereof, remaining until the first renewal of that license is required.
over or across established public walks, streets, or other public passageways from the main entrance of the school to the nearest public entrance of the premises proposed for license, and if, after receipt by the school of the notice as provided in this subsection, the board receives written objection, within twenty days after receiving such notice, from an official representative or representatives of the school within five hundred feet of said proposed licensed premises, indicating to the board that there is an objection to the issuance of such license on account of proximity to a school. The board may extend the time period for submitting objections. For the purpose of this section, church shall mean a building erected for and used exclusively for religious worship and schooling or other activity in connection therewith. For the purpose of this section, public institution shall mean institutions of higher education, parks, community centers, libraries, and transit centers. (b) No liquor license may be issued or reissued by the board to any motor sports facility or licensee operating within the motor sports facility unless the motor sports facility enforces a program reasonably calculated to prevent alcohol or alcoholic beverages not purchased within the facility from entering the facility and such program is approved by local law enforcement agencies. (c) It is the intent under this subsection (9) that a retail license shall not be issued by the board where doing so would, in the judgment of the board, adversely affect a private school meeting the requirements for private schools under Title 28A RCW, which school is within five hundred feet of the proposed licensed premises. The board shall fully consider and give substantial weight to objections filed by a private school. If a license is issued despite the proximity of a private school, the board shall state in a letter addressed to the private school the board's reasons for issuing the license. (10) The restrictions set forth in subsection (9) of this section shall not prohibit the board from authorizing the assumption of existing licenses now located within the restricted area by other persons or licenses or relocations of existing licensed premises within the restricted area. In no case may the licensed premises be moved closer to a church or school than it was before the assumption or relocation. (11)(a) Nothing in this section prohibits the board, in its discretion, from issuing a temporary retail or distributor license to an applicant to operate the retail or distributor premises during the period the application for the license is pending. The board may establish a fee for a temporary license by rule. (b) A temporary license issued by the board under this section shall be for a period not to exceed sixty days. A temporary license may be extended at the discretion of the board for additional periods of sixty days upon payment of an additional fee and upon compliance with all conditions required in this section. (c) Refusal by the board to issue or extend a temporary license shall not entitle the applicant to request a hearing. A temporary license may be canceled or suspended summarily at any time if the board determines that good cause for cancellation or suspension exists. RCW 66.08.130 applies to temporary licenses. (d) Application for a temporary license shall be on such form as the board shall prescribe. If an application for a temporary license is withdrawn before issuance or is refused by the board, the fee which accompanied such application shall be refunded in full. (12) In determining whether to grant or deny a license or renewal of any license, the board shall give substantial weight to objections from an incorporated city or town or county legislative authority based upon chronic illegal activity associated with the applicant's operations of the premises proposed to be licensed or the applicant's operation of any other licensed premises, or the conduct of the applicant's patrons inside or outside the licensed premises. "Chronic illegal activity" means (a) a pervasive pattern of activity that threatens the public health, safety, and welfare of the city, town, county including, but not limited to, open container violations, assaults, disturbances, disorderly conduct, or other criminal law violations, or as documented in crime statistics, police reports, emergency medical response data, calls for service, field data, or similar records of a law enforcement agency for the city, town, county, or any other municipal corporation or any state agency; or (b) an unreasonably high number of citations for violations of RCW 46.61.502 associated with the applicant's or licensee's operation of any licensed premises as indicated by the reported statements of patrons to the Washington state patrol.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that the goal of preserving Washington's agricultural lands is shared by citizens throughout the state. The legislature recognizes that efforts to achieve a balance between the productive use of these resource lands and associated regulatory requirements have proven difficult, but that good faith efforts to seek solutions have yielded successes. The legislature believes that this willingness to find and pursue common ground will enable Washingtonians to enjoy the benefits of a successful agricultural economy and a healthy environment, while also preventing the unnecessary conversion of valuable agricultural lands.

(2) The legislature, therefore, intends this act, the temporary delays it establishes for amending or adopting provisions of certain critical area ordinances and implementing regulations, and the duties and requirements it prescribes for the William D. Ruckelshaus Center, to be expressions of progress in resolving, harmonizing, and advancing commonly held environmental protection and agricultural viability goals.

(3) The legislature fully expects the duties and requirements it is prescribing for the Ruckelshaus Center to be successful. If, however, the efforts of the center do not result in a consensus of how to best address the conflicts between agricultural activities and certain regulatory requirements as they apply to agricultural activities, the legislature intends, upon the expiration of the delay, to require jurisdictions that have delayed amending or adopting certain regulatory measures to promptly complete all regulatory amendments or adoptions necessary to comply with the growth management act.

(4) The legislature does not intend this act to reduce or otherwise diminish existing critical area ordinances and implementing regulations that protect critical areas that apply to agricultural activities during the deferral period established in section 2 of this act.

NEW SECTION. Sec. 2. A new section is added to chapter 36.70A RCW to read as follows:

(1) Until July 1, 2009, counties and cities must defer amending or adopting critical area ordinances and implementing regulations under RCW 36.70A.060(2) as they specifically apply to agricultural activities. Nothing in this section:

(a) Nullifies critical area ordinances and implementing regulations adopted by a county or city prior to January 1, 2007, to comply with RCW 36.70A.060(2);

(b) Limits or otherwise modifies the obligations of a county or city to comply with the requirements of this chapter pertaining to critical areas not associated with agricultural activities;

(c) Limits the ability of a county or city to employ voluntary measures or programs to protect or enhance critical areas associated with agricultural activities.

(2) Counties and cities that defer amending or adopting critical area ordinances and implementing regulations under subsection (1) of this section must review and revise these ordinances and regulations as they specifically apply to agriculture activities to comply with the requirements of this chapter by July 1, 2010.

(3) For purposes of this section and sections 3, 4, and 6 of this act, "agricultural activities" means agricultural uses and practices currently existing or legally allowed, including, but not limited to: Producing, breeding, or increasing agricultural products; rotating and changing agricultural crops; allowing land used for agricultural activities to lie fallow in which it is plowed and tilled but left unseeded; allowing land used for agricultural activities to lie dormant as a result of adverse agricultural market conditions; allowing land used for agricultural activities to lie dormant because the land is enrolled in a local, state, or federal conservation program, or the land is subject to a conservation easement; conducting agricultural operations; maintaining, repairing, and replacing agricultural equipment; maintaining, repairing, and replacing agricultural facilities, when the replacement facility is no closer to a critical area than the original facility; and maintaining agricultural lands under production or cultivation.

NEW SECTION. Sec. 3. A new section is added to chapter 36.70A RCW to read as follows:

(1) Nothing in this act limits or otherwise modifies the authority of a county or city to:

(a) Comply with an order from a growth management hearings board or a court;

(b) Implement a settlement in compliance with the requirements of this chapter;

(2) In fulfilling the requirements of this section, the center must:

(a) Work and consult with willing participants, including, but not limited to, agricultural, environmental, tribal, and local government interests; and (b) involve and apprise legislators and legislative staff of its efforts.

(3) The examination conducted by the center must be completed in two distinct phases in accordance with the following:

(a) In the first phase, the center must conduct fact-finding and stakeholder discussions with stakeholders identified in subsection (2) of this section. These discussions must identify stakeholder concerns, desired outcomes, opportunities, and barriers. The fact-finding must identify existing regulatory, management, and scientific information related to agricultural activities and critical areas, including, but not limited to: (i) Critical area ordinances and implementing regulations adopted under chapter 36.70A RCW to protect critical areas; (ii) acreage enrolled in the conservation reserve enhancement program; (iii) acreage protected by conservation easements; (iv) buffer widths; (v) requirements of federally approved salmon recovery plans; (vi) the impacts of agricultural activities on Puget Sound recovery efforts; and (vii) compliance with water quality requirements. The center must issue a report of its fact-finding
efforts and stakeholder discussions to the governor and the appropriate committees of the house of representatives and the senate by December 1, 2007; and

(b) In the second phase, the center must facilitate discussions between the stakeholders identified in subsection (2) of this section to identify policy and financial options or opportunities to address the issues identified by stakeholders in the first phase of the center's examination efforts. In particular, the center must examine innovative solutions, including, but not limited to, outcome based approaches that incorporate, to the maximum extent practicable, voluntary programs or approaches. The center must work to achieve consensus among participating stakeholders on identified issues and to develop a coalition of diverse stakeholders that can be used to support agreed upon changes or new approaches to protecting critical areas during the 2009 legislative session.

(4) The center must issue a final report of findings and legislative recommendations to the governor and the appropriate committees of the house of representatives and the senate by September 1, 2008.

NEW SECTION. Sec. 5. If specific funding for the purposes of section 4 of this act, referencing this act and section 4 of this act by bill or chapter number and section number, is not provided by June 30, 2007, in the omnibus appropriations act, this act is null and void.

NEW SECTION. Sec. 6. This act applies retroactively to any critical area ordinances and implementing regulations under RCW 36.70A.060(2) as they specifically apply to agricultural activities amended or adopted by a county or city on or after January 1, 2007.

NEW SECTION. Sec. 7. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately.

(1) The department shall prepare a projected list of counties and rural multicounty geographic areas in which community facilities need to be sited during the fiscal year beginning July 1, 2007, and every biennium thereafter starting with the biennium beginning July 1, 2008, and transmit the list to the office of financial management and the counties on the list. The list may be updated as needed. In preparing the list, the department shall make substantial efforts to provide for the equitable distribution of community facilities among counties. The department shall give great weight to the following factors in determining equitable distribution:

(a) The locations of existing community facilities owned or operated by, or operated under contract with, the department in each county;

(b) The number and proportion of juvenile offenders committed to the department residing in the county or rural multicounty geographic area; and

(c) The number of juvenile registered sex offenders classified as level II or III and juvenile sex offenders registered as homeless per thousand persons residing in the county.

(2) The department shall submit, along with the list required under subsection (1) of this section, the operational requirements for the facilities on the list to the office of financial management and the counties on the list.

Equitable distribution is a policy goal, not a basis for any legal challenge to the siting, construction, occupancy, or operation of any facility anywhere in the state.

(3) "Prisoner" means a person either male or female, convicted of a felony and sentenced by the superior court to a term of confinement and treatment in a state correctional institution under the jurisdiction of the department.

The office of financial management may at any time add facilities to the list.

(6) No local comprehensive plan or development regulation may preclude the siting of essential public facilities.

(7) The failure of a county or city to act by the deadlines established in subsections (2) and (3) of this section is not:

(2) The department of corrections or department of social and health services determinations under subsection (1) of this section are final and are not subject to appeal under chapter 34.05 RCW or this chapter.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 4.24 RCW to read as follows:

(1) Subject to the other provisions of this section, any clause in a construction contract that purports to waive, release, or extinguish the claim rights of a contractor, subcontractor, or supplier to damages or an equitable adjustment based on failure to submit claim notice or claim-related documentation in a specified time frame or form is enforceable if the clause includes the following provisions:

(a) Initial notice of an event giving rise to a claim is required to be submitted:
   (i) Within seven calendar days following the occurrence of the event;
   (ii) In writing; and
   (iii) To the party, as specified in the contract, to whom the claim is being made.

(b) Documentation of the claim, as specified in subsection (1)(c) below, is required to be provided:
   (i) Within thirty calendar days following the occurrence of the event giving rise to the claim;
   (ii) In writing; and
   (iii) To the party, as specified in the contract, to whom the claim is being made.

(c) Documentation of the claim is required to be submitted by the claiming party that provides the following information, in sufficient detail and in a format to allow the party to whom the claim is being made to understand the claim and respond:
   (i) A detailed factual description of the claim and the bases for the claim, providing all necessary dates, locations, and items of work affected by the claim;
   (ii) A description of the specific provisions of the contract that support the claim;
   (iii) Identification and copies of any documents that support the claim and a description of any oral communications that support the claim;
   (iv) An estimated dollar cost, if any, of the claim and how that estimate was determined; and
   (v) An analysis of the progress schedule showing the schedule change or disruption if the party submitting the claim is asserting a schedule change or disruption.

(d) If the claim is continuing, the party to whom the claim is being made may request the information identified above be supplemented.

(2) If a contractor, subcontractor, or supplier fails to meet the notice and documentation requirements of subsection (1), the contractor shall nonetheless be deemed to have complied with those requirements if:

(a) The required initial notice and documentation are given and provided within fifteen days and forty-five days, respectively, following the occurrence of the event giving rise to the claim; and

(b) The party pursuing the claim proves by a preponderance of the evidence that the party receiving the notice or documentation was not prejudiced by the later receipt of the notice or documentation.

(3) Any clause in a construction contract that purports to waive, release, or extinguish the claim rights of a contractor, subcontractor,
or supplier to damages or an equitable adjustment based on failure to submit claim notice or claim-related documentation pursuant to provisions that obligate the party pursuing the claim to provide more information than described in subsection (1) above, or provide such information earlier than the time specified in subsection (1) of this section, is enforceable against a contractor, subcontractor, or supplier only if the party to whom the claim is being made is prejudiced as a result of the failure. The party failing to provide such timely notice or documentation has the burden to prove, by a preponderance of the evidence, that the party failing to receive such timely notice or documentation was not prejudiced by such failure. For the purpose of this subsection, "prejudiced" means being deprived of the opportunity to mitigate cost, time, or both cost and time impacts caused by the event or combination of events giving rise to the claim.

(4) Notwithstanding the provisions of subsections (1), (2) and (3) of this section, all claims for damages or an equitable adjustment must be submitted within thirty calendar days of a project's substantial completion, as defined in the construction contract.

(5) Subsections (3) and (4) of this section do not apply to any contractual requirement that a formal claim be submitted within a certain time frame or contain specified documentation following the completion or termination of a contract as a condition precedent to seeking mediation, arbitration, or judicial relief.

(6) For purposes of this section, "construction contract" has the same meaning as the term is defined in RCW 4.24.370.

Sec. 2. RCW 4.24.370 and 1979 ex.s. c 264 s 2 are each amended to read as follows:

"Construction contract" for purposes of RCW 4.24.360 and section 1 of this act means any contract or agreement for the construction, alteration, repair, addition to, subtraction from, improvement to, or maintenance of, any building, highway, road, railroad, excavation, or other structure, project, development, or improvement attached to real estate, including moving and demolition in connection therewith.

In every such action the jury may ((give such)) award economic and noneconomic damages as((() under all circumstances of the case(())) as to them seem just.

(3) The liability of property of a husband and wife held by them as community property and subject to execution in satisfaction of a claim enforceable against such property so held shall not be affected by the death of either or both spouses; and a cause of action shall remain an asset as though both claiming spouses continued to live despite the death of either or both claiming spouses.

(3) In addition to recovering economic losses, the persons identified in subsection (2) of this section are entitled to recover any noneconomic damages personal to the decedent including, but not limited to, damages for the decedent's pain and suffering, anxiety, emotional distress, loss of enjoyment of life, shortened life expectancy, or humiliation, in such amounts as determined by a jury to be just under all the circumstances of the case.

Representative Strow: "Mr. Speaker, yesterday in the early afternoon, my friend and former boss – I think we all know that when you say friend and boss in the same sentence it is not always the case – Jack Metcalf, former Congressman, former State Senator and former State Representative passed away.

I would like to share just a moment about why I am here and how he was related to that and then a little bit about his career. I am here because as a student at The Evergreen State College in 1990 I was selected for the State Senate Intern Program. At least according to the Senate Intern Coordinator at the time I was the first Evergreen student who checked the Republican only box for whom they wanted to work for. Apparently none of the Senators particularly wanted an Evergreen student at that time except for my home district Senator and it was their policy at the time not to place people with their home district Senators in case they had to get rid of them. Jack Metcalf wanted an Evergreen student and that was how I first got to know him.

A public school teacher for thirty years, a state Representative for four years, a state Senator for twenty years and by the way all three of those were in contiguous districts, the 38th District and the only member of his party since the Great Depression to serve in the House from that district. The 21st District, he was a state Senator for eight years and for twelve years, he was state Senator from the 10th District – the district I represent today. He served in Congress from 1994 until 2000. He was a champion of fiscal conservatism, environmental stewardship and conservation but probably more than anything he was known as 'Gentleman Jack' for his decency and civility in the way he treated people inside the legislative process. And that is something I have always tried very hard to keep to that lesson. I watched him when he was in Congress in the House Banking Committee, rise and go sit with his two best friends on that committee, Bernie Sanders and Maxine Waters and cook up amendments to banking bills that made all the majority party nervous. I watched him author legislation with Dennis Kucinich – one of his great friends in Congress which again made many people very nervous. The ability to poke institutions and power and yet maintain his conservative principles at the time were things that I thought were great because at times everyone needs to be held accountable to understand that we are merely equals in this institution in the way we represent our constituents. I also found him to be forward looking – many said he was "the nineteenth century politician" and yet the issues he championed often did not come to fruition until ten or fifteen years later.

So with that I would like to say thank you for listening today about my dear friend. I will close with one last story because in someway it captures the humanity of the man more than any other. In his first or second year as a public school teacher in the Everett School District, Jack and Norma did not have quite enough money to make ends meet and Jack said he...
was going to take on a second job selling pots and pans door to door. After two days, Norma made him quit. Well, that's what he said. The reason was he had given away three sets to needy families but had sold absolutely none. That was who Jack was — he would proverbially give you the shirt off his back, he was that decent a human being. I hope we remember him for his humanity. I hope we remember him for all the issues he championed and with that thank you.

POINT OF PERSONAL PRIVILEGE

Representative Sells: "Thank you, Mr. Speaker. I do not think I can do as nice a job as the gentleman from the 10th District has done but I can tell you after thirty years of working with Congressman Metcalf — my politics and his politics were obviously very different — I always felt treated with civility and respect by the Congressman. In fact, Congressman Metcalf or whether he was a state Senator or Representative, always went out of his way when I was working the labor movement to call and say 'I would like to come talk to you' even though he might have voted against you the day before or been against you on a particular issue, he went out of his way to come and talk. He was unafraid to do that kind of thing. During election time, he would call up and say 'Mike, when are you guys having interviews down at the Labor Movement; I want to come and talk to you.' Jack never sought out just the comfort of those that might have been like-minded. He challenged himself and he challenged those around him on a variety of issues and it made him a true maverick in so many different ways. I don't know how many of you know he pushed an initiative to cap interest rates in this State much to the chagrin I think of probably of his own party caucus at that time. Jack stood up in Congress for unions' right for payroll deductions. Jack practiced a form of populism we know simply as 'looking out for the little guy.' He once said to me 'I'm concerned about the amount of power of corporations in this country and we need something to balance that out.' It was Jack's prime directive to stand up for the little person.

I would like to leave you with just one little note. I keep thinking of a line from a movie — I don't often use movies as anecdotes — 1776 in which Dickinson had been arguing long and hard against John Adams around the issue of independence. Dickinson being the conservative, Adams being the radical in this case. In the end, he walks out of the Continental Congress because he wouldn't sign the Declaration but he made extremely powerful arguments. Adams immediately stands up and says 'gentlemen of the Continental Congress, I give you John Dickinson' and everyone stood up and said 'here, here'.

I don't know if I can get the 'here, here' but ladies and gentlemen of this House, I give you Jack Metcalf."

The Chamber: "Here, here."

POINT OF PERSONAL PRIVILEGE

Representative Pearson: "Mr. Speaker, for six years I had the privilege and honor — I was very blessed — to work for Congressman Jack Metcalf. In my position, I was Jack's Special Assistant which meant I worked the District for Jack. When he came home, I'd pick him up at the airport and we would go to meetings all throughout the State. I will never forget a lot of the times Jack shared with me his vision and he shared with me stories that happened here in the Capitol — a lot of institutional memories. But what I was most impressed with about Jack and especially watching him with people, was how civil Jack was. Being a congressman, never went to Jack's head, he just liked being called Jack. He was a common man but he was much more. He was a great man. He had a very tender heart towards people. He was a man who grew up during the Great Depression and he told me a story about one time his father, at the dinner table, pulled up a nickel and said 'this is our last nickel, kids.' This was in the depths of the depression. But what Jack learned from that was that the family pulled together through such a difficult time.

Jack was a school teacher for many years. He served in the Everett School District for about thirty one years. I used to get a kick out of town hall meetings when these people would come up to Jack — people who looked really a lot older than Jack — and say 'Mr. Metcalf, remember me — I was in your Junior High class at North Middle School.' We would take off and Jack would say to me 'Boy, I feel old looking at those folks.' He had a true heart for the people. I've never heard him say anything nasty about anyone. So all I can say is that people like Jack are last of a generation of great people who served here in the Capitol, very civil, great statesman and I know someday I'll be seeing him.

So God bless you, Jack."

POINT OF PERSONAL PRIVILEGE

Representative B. Sullivan: "Mr. Speaker, of course I go actually way back with the Metcalf family. The family had settled in Mukilteo in the early sixties. I was raised and went to school with Bev Metcalf, Jack's daughter. Norma, Jack's wife was the school secretary in my junior high school. I was one of the geeks who were always going to the Principal's Office to talk about volunteering or doing some recycling program. Norma and I chatted every day so I've known Jack Metcalf and the family all my life. Jack had actually been in and out of my life for many years, of course, when I was very young in grade school, junior and high schools.

When I went to work for Senator Vogild in the early eighties I sat in the gallery and watched Jack Metcalf give one of the best floor speeches opposed to gambling. It happened to be the Washington State Lottery. He spoke very eloquently about his beliefs and family, friends and his belief in God and the evils of gambling. It was quite a moving speech. Of course, he lost that vote unfortunately for him. Nonetheless, a great representative.

Then I was elected the mayor of Mukilteo. We had many federal issues related to Mukilteo — federal tank farm properties, some of you are familiar with — and I couldn't get my city council to give me an airline ticket so I paid my own way to Washington DC and spent many days in Jack Metcalf's office where I received an incredible amount of help in moving the Federal Government. It was a service plus organization — that the best I can say. Jack hired the best people. That where I formed a very strong bond and relationship with the gentleman from the 10th and the gentleman from the 39th who I have known for many years. I can honestly say Jack was a great man who served his community well. In Congress, Jack voted his conscience and he voted his district, and then maybe he voted his party. But a great man. A great loss to not only our State but to our nation.

Thank you, Mr. Speaker for allowing me to speak."

SPEAKER'S PRIVILEGE
Mr. Speaker (Representative Lovick presiding): "The Speaker would like to thank the members for their kind remarks."

There being no objection, the House advanced to the sixth order of business.

The members of such commission shall serve without compensation. No person shall be appointed a member of such commission who is not a citizen of the United States, a resident of such city for at least three years immediately preceding such appointment, and an elector of the county wherein he or she resides. The term of office of such commissioners shall be for six years, except that the first three members of such commission shall be appointed for different terms, as follows: One to serve for a period of two years, one to serve for a period of four years, and one to serve for a period of six years. Any member of such commission may be removed from office for incompetence, incompatibility or dereliction of duty, or malfeasance in office, or other good cause: PROVIDED, HOWEVER, That no member of the commission shall be removed until charges have been preferred, in writing, due notice and a full hearing had. The members of such commission shall devote due time and attention to the performance of the duties hereinafter specified and imposed upon them by this chapter. Two members of such commission shall constitute a quorum and the votes of any two members of such commission concurring shall be sufficient for the decision of all matters and the transaction of all business to be decided or transacted by the commission under or by virtue of the provisions of this chapter. Confirmation of said appointment or appointments of commissioners by any legislative body shall not be required. At the time of any appointment not more than two commissioners shall be adherents of the same political party.

Sec. 4. RCW 41.08.075 and 1972 ex.s. c 37 s 4 are each amended to read as follows:

Sec. 5. RCW 41.08.080 and 1935 c 31 s 8 are each amended to read as follows:

The tenure of every one holding an office, place, position or employment under the provisions of this chapter shall be only during good behavior, and any such person may be removed or discharged, suspended without pay, demoted, or reduced in rank, or deprived of vacation privileges or other special privileges for any of the following reasons:

(1) Competency, inefficiency or intonation or dereliction of duty;
(2) Dishonesty, intemperance, immoral conduct, insubordination, discourteous treatment of the public, or a fellow employee, or any other act of omission or commission tending to injure the public service; or any other willful failure on the part of the employee to properly conduct himself or herself; or any willful violation of the provisions of this chapter or the rules and regulations to be adopted hereunder;
(3) Mental or physical unfitness for the position which the employee holds;
(4) Dishonest, disgraceful, immoral or prejudicial conduct;
(5) Drunkenness or use of intoxicating liquors, narcotics, or any other habit forming drug, liquid or preparation to such extent that the use thereof interferes with the efficiency or mental or physical fitness of the employee, or which precludes the employee from properly performing the functions and duties of any position under civil service;
(6) Conviction of a felony, or a misdemeanor, involving moral turpitude;
(7) Any other act or failure to act which in the judgment of the civil service commissioners is sufficient to show the offender to be an unsuitable and unfit person to be employed in the public service.

Sec. 6. RCW 41.08.090 and 1935 c 31 s 9 are each amended to read as follows:

No person in the classified civil service who shall have been permanently appointed or inducted into civil service under provisions of this chapter, shall be removed, suspended, demoted or discharged except for cause, and only upon the written accusation of the appointing power, or any citizen or taxpayer, a written statement of which accusation, in general terms, shall be served upon the accused, and a duplicate filed with the commission. Any person so removed, suspended, demoted or discharged may within ten days from the time of his or her removal, suspension, demotion or discharge, file with the commission a written demand for an investigation, whereupon the commission shall conduct such investigation. The investigation shall be confined to the determination of the question of whether such removal, suspension, demotion or discharge was or was not made for political or religious reasons and was or was not made in good faith (Hlpr) for cause. After such investigation the commission may affirm the removal, or if it shall find that the removal, suspension, or demotion was made for political or religious reasons, or was not made in good faith for cause, shall order the immediate reinstatement or reemployment of such person in the office, place, position or employment from which such person was removed, suspended, demoted or discharged, which reinstatement shall, if the commission so provides in its discretion, be retroactive, and entitle such person to pay or compensation from the time of such removal, suspension, demotion or discharge. The commission upon such investigation, in lieu of affirming the removal, suspension, demotion or discharge may modify the order of removal, suspension, demotion or discharge by directing a suspension, without pay, for a given period, and subsequent restoration to duty, or demotion in classification, grade, or pay; the findings of the commission shall be certified, in writing to the appointing power, and shall be forthwith enforced by such officer.

All investigations made by the commission pursuant to the provisions of this section shall be by public hearing, after reasonable notice to the accused of the time and place of such hearing, at which hearing the accused shall be afforded an opportunity of appearing in person and by counsel, and presenting his or her defense. If such judgment or order be concurred in by the commission or a majority thereof, the accused may appeal therefrom to the court of original and unlimited jurisdiction in civil suits of the county wherein he or she resides. Such appeal shall be taken by serving the commission, within thirty days after the entry of such judgment or order, a written notice of appeal, stating the grounds thereof, and demanding that a certified transcript of the record and of all papers on file in the office of the commission affecting or relating to such judgment or order, be filed by the commission with such court. The commission shall, within ten days after the filing of such notice, make, certify and file such transcript with such court. The court of original and unlimited jurisdiction in civil suits shall thereupon proceed to hear and determine such appeal in a summary manner: PROVIDED, HOWEVER, That such hearing shall be confined to the determination of whether the judgment or order of removal, suspension, demotion or suspension made by the commission, was or was not made in good faith for cause, and no appeal to such court shall be taken except upon such ground or grounds.
Sec. 7. RCW 41.08.100 and 1935 c 31 s 11 are each amended to read as follows:

If there is no eligible list for the class, the commission shall certify the name of the person standing highest on said list held appropriate for such class. If more than one vacancy is to be filled an additional name shall be certified for each additional vacancy. The appointing power shall forthwith appoint such person to such vacant position.

Whenever requisition is to be made, or whenever a position is held by a temporary appointee and an eligible list for the class of such position exists, the commission shall forthwith certify the name of the person eligible for appointment to the appointing power, and said appointing power shall forthwith appoint the person so certified to said position. No person so certified shall be laid off, suspended, or given leave of absence from duty, transferred or reduced in pay or grade, except for reasons which will promote the good of the service, specified in writing, and after an opportunity to be heard by the commission and then only with its consent and approval.

To enable the appointing power to exercise a choice in the filling of positions, no appointment, employment or promotion in any position in the classified service shall be deemed complete until after the expiration of a period of three to six months' probationary service and as may be provided in the rules of the civil service commission during which the appointing power may terminate the employment of the person certified to him or her, or it, if during the performance test thus afforded, upon observation or consideration of the performance of duty, the appointing power deems him or her unfit or unsatisfactory for service in the department. Whereupon the appointing power shall designate the person certified as standing next highest on any such list and such person shall likewise enter upon said duties until some person is found who is deemed fit for appointment, employment or promotion for the probationary period provided therefor, whereupon the appointment, employment or promotion shall be deemed to be complete.

Rule 5. Transformers, either single or in bank, that exceed a total capacity of over ten K.W. shall be supported by a double cross-arm, or some fixture equally as strong. No transformer shall be placed, erected, maintained or used on any cross-arm or other appliance on a pole upon which is placed a series electric arc lamp or arc light: PROVIDED, This shall not apply to a span wire supporting a lamp only. All aerial and underground transformers used for low potential distribution shall be subjected to an insulation test in accordance with the standardized rules of the American Institute of Electrical Engineers. In addition to this each transformer shall be tested at rated line voltage prior to each installation and shall have attached to it a tag showing the date on which the test was made, and the name of the person making the test.

Rule 6. No wire or cable, other than ground wires, used to conduct or carry electricity, shall be placed, run, erected, maintained or used vertically on any pole without causing such wire or cable to be at all times sufficiently insulated the full length thereof to insure the protection of anyone coming in contact with said wire or cable.

Rule 7. The neutral point or wire of all transformer secondaries strung or erected for use in low potential distributing systems shall be grounded in all cases where the normal maximum difference of potential between the ground and any point in the secondary circuit will not exceed one hundred and fifty volts. When no neutral point or wire is accessible one side of the secondary circuit shall be grounded in the case of single phase transformers, and any one common point in the case of interconnected polyphase bank or banks of transformers. Where the maximum difference of potential between the ground and any point in the secondary circuit will, when grounded, exceed one hundred fifty volts, grounding shall be permitted. Such grounding shall be done in the manner provided in Rule 30.

Rule 8. In all cases where a wire or cable larger than No. 14 B.W.G. originates or terminates on insulators attached to any pin or other appliance, said wire or cable shall be attached to at least two insulators: PROVIDED HOWEVER, That this section shall not apply to service wires to buildings; nor to wires run vertically on a pole; nor to wires originating or terminating on strain insulators or circuit breakers; nor to telephone, telegraph or signal wires outside the limits of any incorporated city or town.

Rule 9. Fixtures placed or erected for the support of wires on the roofs of buildings shall be of sufficient strength to withstand all strains to which they may be subjected, due to the breaking of all wires on one side thereof, and except where insulated wires or cables are held close to fire walls by straps or rings, shall be of such height and so placed that all of the wires supported by such fixtures shall be at least seven feet above any point of roofs less than one-quarter pitch over which they pass or may be attached, and no roof fixtures or wire shall be so placed that they will interfere with the free passage of persons upon, over, or from the roofs.

Rule 10. No guy wire or cable shall be placed, run, erected, maintained or used within the corporate limits of any city or town on any pole or appliance to which is attached any wire or cable used to conduct electricity without causing said guy wire or cable to be efficiently insulated with circuit breakers at all times at a distance of not less than eight feet nor more than ten feet measured along the line of said guy wire or cable from each end thereof: PROVIDED, No
Rule 11. In all span wires used for the purpose of supporting trolley wires or series arc lamps there shall be at least two circuit breakers, one of which shall at all times be maintained no less than four feet nor more than six feet distant from the trolley wire or series arc lamps, and in cases where the same is supported by a building or metallic pole, the other circuit breaker shall be maintained at the building or at the pole: PROVIDED, That in span wires which support two or more trolley wires no circuit breaker shall be required in the span wire between any two of the trolley wires: PROVIDED FURTHER, That in span wires supporting trolley wires attached to wooden poles only the circuit breaker adjacent to the trolley wire shall be required.

Rule 12. At all points where in case of a breakdown of trolley span wires, the trolley wire would be liable to drop within seven feet of the ground, there shall be double span wires and hangers placed at such points.

Rule 13. All energized wires or appliances installed inside of any building or vault, for the distribution of electrical energy, shall be sufficiently insulated, or so guarded, located, or arranged as to protect any person from injury.

Rule 14. The secondary circuit of current transformers, the casings of all potential regulators and arc light transformers, all metal frames of all switch boards, metal oil tanks used on oil switches except where the tank is part of the conducting system, all motor and generator frames, the entire frame of the crane and the tracks of all traveling cranes and hoisting devices, shall be thoroughly grounded, as provided in Rule 30.

Rule 15. All generators and motors having a potential of more than three hundred volts shall be provided with a suitable insulated platform or mat so arranged as to permit the attendant to stand upon such platform or mat when working upon the live parts of such generators or motors.

Rule 16. Suitable insulated platforms or mats shall be provided for the use of all persons while working on any live part of switchboards on which any wire or appliance carries a potential in excess of three hundred volts.

Rule 17. Every generator, motor, transformer, switch or other similar piece of apparatus and device used in the generation, transmission or distribution of electrical energy in stations or substations, shall be either provided with a name plate giving the capacity in volts and amperes, or have this information stamped thereon in such a manner as to be clearly legible.

Rule 18. All lines of seven hundred fifty volts or over are cut out at the station or substation to allow employees to work upon them, they shall be short-circuited and grounded at the station, and shall in addition, if the line wires are bare, be short-circuited, and where possible grounded at the place where the work is being done.

Rule 19. All switches installed with overload protection devices, and all automatic overload circuit breakers must have the trip coils so adjusted as to afford complete protection against overloads and short circuits, and the same must be so arranged that no pole can be opened manually without opening all the poles, and the trip coils shall be instantly operative upon closing.

Rule 20. All feeders for electric railways must, before leaving the plant or substation, be protected by an approved circuit breaker which will cut off the circuit in case of an accidental ground or short circuit.

Rule 21. There shall be provided in all distributing stations a ground detecting device.

Rule 22. There shall be provided in all stations, plants, and buildings herein specified warning cards printed on red cardboard not less than two and one-quarter by four and one-half inches in size, which shall be attached to all switches opened for the purpose of ((linemen)) lineworkers or other employees working on the wires. The person opening any line switch shall enter upon said card the name of the person ordering the switch opened, the time opened, the time line was reported clear and by whom, and shall sign his own name.

Rule 23. No manhole containing any wire carrying a current of over three hundred volts shall be less than six feet from floor to Covey roof; if circuit in shape shall not be less than six feet in diameter; if square it shall be six feet from wall to wall: PROVIDED HOWEVER, That this paragraph shall not apply to any manhole in which it shall not be required that any person enter to perform work: PROVIDED FURTHER, That the foregoing provisions of this paragraph shall not apply where satisfactory proof shall be submitted to the proper authorities that it is impracticable or physically impossible to comply with this law within the space or location designated by the proper authorities.

Rule 24. All manholes containing any wires or appliances carrying electrical current shall be kept in a sanitary condition, free from stagnant water or seepage or other drainage which is offensive or dangerous to health, either by sewer connection or otherwise, while any person is working in the same.

Rule 25. No manhole shall have an opening to the outer air of less than twenty-six inches in diameter, and the cover of same shall be provided with vent hole or holes equivalent to three square inches in area.

Rule 26. No manhole shall have an opening which is, at the surface of the ground, within a distance of three feet at any point from any rail of any railway or street car track: PROVIDED, That this shall not apply where satisfactory proof shall be submitted to the proper authorities that it is impracticable or physically impossible to comply with the provisions of this paragraph: PROVIDED, That in complying with the provisions of this rule only the construction last in point of time performed, placed or erected shall be held to be in violation thereof.

Rule 27. Whenever persons are working in any manhole whose opening to the outer air is less than three feet from the rail of any railway or street car track, a (((watchmen))) watchperson or attendant shall be stationed on the surface at the entrance of such manhole at all times while work is being performed therein.

Rule 28. All persons employed in manholes shall be furnished with insulated platforms so as to protect the workers while at work in the manholes: PROVIDED, That this paragraph shall not apply to manholes containing only telephone, telegraph or signal wires or cables.

Rule 29. No work shall be permitted to be done on any live wire, cable or appliance carrying more than seven hundred fifty volts of electricity by less than two competent and experienced persons, who, at all times while performing such work shall be in the same room, chamber, manhole or other place in which, or on the same pole on which, such work is being done: PROVIDED, That in districts where only one competent and experienced person is regularly employed, and a second person is not required, work shall be performed without delay at prevailing rate of pay in said district, such work shall be permitted to be done by one competent and experienced person and a helper who need not be on the same pole on which said work is being done.

No work shall be permitted to be done in any manhole or subway on any live wire, cable or appliance carrying more than three hundred volts of electricity by less than two competent and experienced persons, who at all times while performing such work shall be in the same manhole or subway in which such work is being done.

Rule 30. The grounding provided for in these rules shall be done in the following manner. By connecting a wire or wires not less than No. 6 B.&S. gauge to a water pipe of a metallic system outside of the meter, if there is one, or to a copper plate one-sixteenth inch thick and not less than three feet by six feet area buried in coke below the permanent moisture level, or to other device equally as efficient. The ground wire or wires of a direct current system of three or more wires shall not be smaller than the neutral wire at the central station, and not smaller than a No. 6 B.&S. gauge elsewhere: PROVIDED, That the maximum cross section area of any ground wire or wires at the central station need not exceed one million circular mils. The ground wires shall be carried in as nearly a straight line as possible, and kinks, coils and short bends shall be avoided: PROVIDED, That the provisions of this rule shall not apply as to size to ground wires run from instrument transformers or meters.

**Sec. 83.** RCW 19.28.261 and 2003 c 399 s 302 are each amended to read as follows:

1. Nothing in RCW 19.28.161 through 19.28.271 shall be construed to require that a person obtain a license or a certified electrician in order to do electrical work at his or her residence or farm or place of business or on other property owned by him or her unless the electrical work is on the construction of a new building intended for rent, sale, or lease. However, if the construction is of a new residential building with up to four units intended for rent, sale, or lease, the owner may receive an exemption from the requirement to obtain a license or use a certified electrician if he or she provides a signed affidavit to the department stating that he or she will be performing the work and will occupy one of the units as his or her principal residence. The owner shall apply to the department for this exemption and may only receive an exemption once every twenty-four months. It is intended that the owner receiving this exemption shall occupy the unit as his or her principal residence for twenty-four months after completion of the unit.

2. Nothing in RCW 19.28.161 through 19.28.271 shall be intended to derogate from or dispense with the requirements of any valid electrical code enacted by a city or town pursuant to RCW 19.28.010(3), except that no code shall require the holder of a certificate of competency to demonstrate any additional proof of competency or obtain any other license or pay any fee in order to engage in the electrical construction trade.

3. RCW 19.28.161 through 19.28.271 shall not apply to common carriers subject to Part I of the Interstate Commerce Act, nor to their officers and employees.

4. 5. The licensing provisions of RCW 19.28.161 through 19.28.271 shall not apply to:
   a. Persons making electrical installations on their own property or to regularly employed employees working on the premises of their employer, unless the electrical work is on the construction of a new building intended for rent, sale, or lease;
   b. Employees of an employer while the employer is performing utility type work of the nature described in RCW 19.28.091 so long as such employees have registered in the state of Washington with or graduated from a state-approved outside ((journeyman)) journeyperson lineworker apprenticeship course that is recognized by the department and that qualifies a person to perform such work;
   c. Any work exempted under RCW 19.28.091(6); and
   d. Certified plumbers, certified residential plumbers, or plumber trainees meeting the requirements of chapter 18.106 RCW and performing exempt work under RCW 19.28.091(8).

6. Nothing in RCW 19.28.161 through 19.28.271 shall be construed to restrict the right of any household to assist or receive assistance from a friend, neighbor, relative or other person when none of the individuals doing the electrical installation hold themselves out as engaged in the trade or business of electrical installation.

7. Nothing precludes any person who is exempt from the licensing requirements of this chapter under this section from obtaining a journeyman or specialty certificate of competency if they otherwise meet the requirements of this chapter.

**Sec. 84.** RCW 19.28.321 and 2001 c 211 s 21 are each amended to read as follows:

The director of labor and industries of the state of Washington and the officials of all incorporated cities and towns where electrical inspections are required by local ordinances shall have power and it shall be their duty to enforce the provisions of this chapter in their respective jurisdictions. The director of labor and industries shall appoint a chief electrical inspector and may appoint other electrical inspectors as the director deems necessary to assist the director in the performance of the director’s duties. The chief electrical inspector, subject to the review of the director, shall provide the final interpretation of adopted state electrical standards, rules, and policies for the department and its inspectors, assistant inspectors, electrical plan examiners, and other individuals supervising electrical program personnel. If a dispute arises within the department regarding the interpretation of adopted state electrical standards, rules, or policies, the chief electrical inspector, subject to the review of the director, shall be responsible for providing the final interpretation of adopted state electrical standards, rules, and policies for the department and its inspectors, assistant inspectors, electrical plan examiners, and other individuals supervising electrical program personnel. If a dispute arises within the department regarding the interpretation of adopted state electrical standards, rules, or policies, the chief electrical inspector, subject to the review of the director, shall provide the final interpretation of the disputed standard, rule, or policy. All electrical inspectors appointed by the director of labor and industries shall have not less than: Four years experience as ((journeyman)) journeyperson electricians in the electrical construction trade installing and maintaining electrical wiring and equipment, or two years electrical training in a college of electrical engineering of recognized standing and four years continuous practical electrical experience in installation work, or four years of electrical training in a college of electrical engineering of recognized standing and two years continuous practical electrical experience in electrical installation work; or four years experience as a ((journeyman)) journeyperson electrician performing the duties of an electrical inspector employed by the department or a city or town with an approved inspection program under RCW 19.28.141, except that for work performed in accordance with the national electrical safety code and covered by this chapter, such inspections may be performed by a person certified as an outside ((journeyman)) journeyperson lineworker, under RCW 19.28.261((((2))) (5)(b), with four years experience of a person with four years experience as an electrical inspector employed by the department or a city or town with an approved inspection program under RCW 19.28.141, except that for work performed in accordance with the national electrical safety code and covered by this chapter, such inspections may be performed by a person certified as an outside ((journeyman)) journeyperson lineworker performing the duties of an electrical inspector employed by an electrical utility. Such state inspectors shall be paid such salary as the director of labor and industries shall determine, together with their travel expenses in accordance with RCW 43.03.050 and 43.03.060 as now existing or hereafter amended. As a condition of employment, inspectors hired exclusively to perform inspections in accordance with the national electrical safety code must possess and maintain certification as an outside ((journeyman)) journeyperson lineworker. The expenses of the director of labor and industries and the salaries and expenses of state inspectors incurred in carrying out the provisions of this chapter shall be paid entirely out of the electrical license fund, upon vouchers approved by the director of labor and industries.

**Sec. 85.** RCW 50.04.240 and 1945 c 35 s 25 are each amended to read as follows:

The term "employment" shall not include service as a (newspaper) newspaper delivery person selling or distributing newspapers on the street or from house to house.

**Sec. 86.** RCW 28B.07.020 and 1985 c 370 s 47 are each amended to read as follows:

As used in this chapter, the following words and terms shall have the following meanings, unless the context otherwise requires:

1. "Authority" means the Washington higher education facilities authority created under RCW 28B.07.030 or any board, body, commission, department or officer succeeding to the principal functions of the authority or to whom the powers conferred upon the authority shall be given by law.

2. "Bonds" means bonds, notes, commercial paper, certificates of indebtedness, or other evidences of indebtedness of the authority issued under this chapter.

3. "Bond resolution" means any resolution of the authority, adopted under this chapter, authorizing the issuance and sale of bonds.

4. "Higher education institution" means a private, nonprofit educational institution, the main campus of which is permanently situated in the state, which is open to residents of the state, which

(5) "Participant" means a higher education institution which, under this chapter, undertakes the financing of a project or projects or undertakes the refunding or refinancing of obligations, mortgages, or advances previously incurred for a project or projects.

(6) "Project" means any land or any improvement, including, but not limited to, buildings, structures, fixtures, utilities, machinery, excavations, paving, and landscaping, and any interest in such land or improvements, and any personal property pertaining or useful to such land and improvements, which are necessary, useful, or convenient for the operation of a higher education institution, including but not limited to, the following: Dormitories or other multi-unit housing facilities for students, faculty, officers, or employees; dining halls; student unions; administration buildings; academic buildings; libraries; laboratories; research facilities; computer facilities; classrooms; athletic facilities; health care facilities; maintenance, storage, or utility facilities; parking facilities; or any combination thereof, or any other structures, facilities, or equipment so related.

Except as specifically set forth in this definition, the term "project cost" does not include books, fuel, supplies, and similar items which are required to be treated as a current expense under generally accepted accounting principles.

(8) "Trust indenture" means any agreement, trust indenture, or other similar instrument by and between the authority and one or more corporate trustees.

Sec. 87. RCW 39.04.155 and 2001 c 284 s 1 are each amended to read as follows:

(1) This section provides uniform small works roster provisions to award contracts for construction, building, renovation, remodeling, alteration, repair, or improvement of real property that may be used by state agencies and by any local government that is expressly authorized to use these provisions. These provisions may be used in lieu of other procedures to award contracts for such work with an estimated cost of two hundred thousand dollars or less. The small works roster process includes the limited public works process authorized under subsection (3) of this section and any local government authorized to award contracts using the small works roster process under this section may award contracts using the limited public works process under subsection (3) of this section.

(2)(a) A state agency or authorized local government may create a single general small works roster, or may create a small works roster for different specialties or categories of anticipated work. Where applicable, small works rosters may make distinctions between contractors based upon different geographic areas served by the contractor. The small works roster or rosters shall consist of all responsible contractors who have requested to be on the list, and where required by law are properly licensed or registered to perform such work in this state. A state agency or local government administering a small works roster or rosters may require eligible contractors desiring to be placed on a roster or rosters to keep current records of any applicable licenses, certifications, registrations, bonding, insurance, or other appropriate matters on file with the state agency or local government as a condition of being placed on a roster or rosters. At least once a year, the state agency or local government shall publish in a newspaper of general circulation within the jurisdiction a notice of the existence of the roster or rosters and solicit the names of contractors for such roster or rosters. In addition, responsible contractors shall be added to an appropriate roster or rosters at any time they submit a written request and necessary records. Master contracts may be required to be some effective when a specific award is made using a small works roster.

(b) A state agency establishing a small works roster or rosters shall adopt rules implementing this subsection. A local government establishing a small works roster or rosters shall adopt an ordinance or resolution implementing this subsection. Procedures included in rules adopted by the department of general administration in implementing this subsection must be included in any rules providing for a small works roster or rosters that is adopted by another state agency, if the authority for that state agency to engage in these activities has been delegated to it by the department of general administration under chapter 43.19 RCW. An interlocal contract or agreement between two or more state agencies or local governments establishing a small works roster or rosters to be used by the parties to the agreement or contract must clearly identify the lead entity that is responsible for implementing the provisions of this subsection.

(c) Procedures shall be established for securing telephone, written, or electronic quotations from contractors on the appropriate small works roster to assure that a competitive price is established and to avoid contempt of the lowest responsible bidder, as defined in RCW 43.19.111. Invitations for quotations shall include an estimate of the scope and nature of the work to be performed as well as materials and equipment to be furnished. However, detailed plans and specifications need not be included in the invitation. This subsection does not eliminate other requirements for architectural or engineering approvals as to quality and compliance with building codes. Quotations may be invited from all appropriate contractors on the appropriate small works roster. As an alternative, quotations may be invited from at least five contractors on the appropriate small works roster who have indicated the capability of performing the kind of work being contracted, in a manner that will equitably distribute the opportunity among the contractors on the appropriate roster. However, if the estimated cost of the work is from one hundred thousand dollars to two hundred thousand dollars, a state agency or local government, other than a port district, that chooses to solicit bids from less than all the appropriate contractors on the appropriate small works roster must also notify the remaining contractors on the appropriate small works roster that quotations on the kind of work are being sought. The government has the sole option of determining whether this notice to the remaining contractors is made by: (i) Publishing notice in a legal newspaper in general circulation in the area where the work is to be done; (ii) mailing a notice to these contractors; or (iii) sending a notice to these contractors by facsimile or other electronic means. For purposes of this subsection (2)(c), "equitably distribute" means that a state agency or local government soliciting bids may not favor certain contractors on the appropriate small works roster over other contractors on the appropriate small works roster who perform similar services.

(d) A contract awarded from a small works roster under this section need not be advertised.

(e) Immediately after an award is made, the bid quotations obtained shall be recorded, open to public inspection, and available by telephone inquiry.

(3) In lieu of awarding contracts under subsection (2) of this section, a state agency or authorized local government may award a contract for work, construction, alteration, repair, or improvement (project projects) estimated to cost less than thirty-five thousand dollars to the lowest responsible bidder, as defined in this subsection. Public works projects awarded under this subsection are exempt from the other requirements of the small works roster process provided under subsection (2) of this section and are exempt from the requirement that contracts be awarded after advertisement as provided under RCW 39.04.010.

For limited public works projects, a state agency or authorized local government shall solicit electronic or written quotations from
Section 89. RCW 39.08.030 and 2003 c 301 s 4 are each amended to read as follows:

(1) The bond mentioned in RCW 39.08.010 shall be in an amount equal to the full contract price agreed to be paid for such work or improvement, except under subsection (2) of this section, and shall be to the state of Washington, except as otherwise provided in RCW 39.08.100, and except in cases of cities and towns, in which cases such municipalities may by general ordinance fix and determine the amount of such bond and to whom such bond shall run: PROVIDED, the same shall not be for a less amount than twenty-five percent of the contract price of any such improvement, and may designate that the same shall be payable to such city, and not to the state of Washington, and all such persons mentioned in RCW 39.08.010 shall have a right of action in his, her, or their own name or names on such bond for work done by such laborers or mechanics, and for materials furnished or provisions and goods supplied and furnished in the prosecution of such work, or the making of such improvements: PROVIDED, That such persons shall not have any right of action on such bond for any sum whatever, unless within thirty days from and after the completion of the contract with an acceptance of the work by the affirmative action of the board, commission, trustees, or body acting for the state, county or municipality, or other public body, city, town or district, the laborer, mechanic or subcontractor, or (materialmen) material supplier, or person claiming to have supplied materials, provisions or goods for the prosecution of such work, or the making of such improvement, shall present to and file with such board, commission, trustees or body acting for the state, county or municipality, or other public body, city, town or district, a notice in writing in substance as follows:

To (here insert the name of the state, county or municipality or other public body, city, town or district):

Notice is hereby given that the undersigned (here insert the name of the laborer, mechanic or subcontractor, or material supplier, or person claiming to have furnished labor, materials or provisions for or upon such contract or work) has a claim in the sum of . . . . . dollars (here insert the amount) against the bond taken from . . . . . . (here insert the name of the principal and surety or sureties upon such bond) for the work of . . . . . . (here insert a brief mention or description of the work concerning which said bond was taken).

(here to be signed) . . . . . . . . . . . . .

Such notice shall be signed by the person or corporation making the claim or giving the notice, and said notice, after being presented and filed, shall be a public record open to inspection by any person, and in any suit or action brought against such surety or sureties by any such person or corporation to recover for any of the items hereinbefore specified, the claimant shall be entitled to recover in addition to all other costs, attorney's fees in such sum as the court shall adjudge reasonable: PROVIDED, HOWEVER, That no attorney's fees shall be allowed in any suit or action brought or instituted before the expiration of thirty days following the date of filing of the notice herebefore mentioned: PROVIDED FURTHER, That any city may avail itself of the provisions of RCW 39.08.010 through 39.08.030, notwithstanding any charter provisions in conflict herewith: AND PROVIDED FURTHER, That any city or town may impose any other or further conditions and obligations in such bond as may be deemed necessary for its proper protection in the fulfillment of the terms of the contract secured thereby, and not in conflict herewith.

(2) Under the law and job order contracting procedure described in RCW 39.10.130, bonds will be in an amount not less than the dollar value of all open work orders.

Section 90. RCW 47.28.030 and 1999 c 15 s 1 are each amended to read as follows:

A state highway shall be constructed, altered, repaired, or improved, and improvements located on property acquired for right
of way purposes may be repaired or renovated pending the use of such right of way for highway purposes, by contract or state forces. The work or portions thereof may be done by state forces when the estimated costs thereof (including all or any portion of the amount of funds retained during the performance of the work) are less than twenty five thousand dollars and effective July 1, 2005, sixty thousand dollars: PROVIDED, That when delay of performance of such work would jeopardize a state highway or constitute a danger to the traveling public, the work may be done by state forces when the estimated cost thereof is less than eight thousand dollars and effective July 1, 2005, one hundred thousand dollars. When the department of transportation determines to do the work by state forces, it shall enter a statement upon its records to that effect, stating the reasons therefor. To enable a larger number of small businesses, and minority, and women contractors to effectively compete for department of transportation contracts, the department may adopt rules providing for bids and award of contracts for the performance of work, or furnishing equipment, materials, supplies, or operating services whenever any work is to be performed and the engineer's estimate indicates the cost of the work would not exceed eighty thousand dollars and effective July 1, 2005, one hundred thousand dollars. The rules adopted under this section:  

(1) Shall provide for competitive bids to the extent that competitive sources are available except when delay of performance would jeopardize life or property or inconvenience the traveling public; and  

(2) Need not require the furnishing of a bid deposit nor a performance bond, but if a performance bond is not required then progress payments to the contractor may be required to be made based on submittal of paid invoices to substantiate proof that disbursements have been made to laborers, materials suppliers, mechanics, and subcontractors from the previous partial payment; and  

(3) May establish prequalification standards and procedures as an alternative to those set forth in RCW 47.28.070, but the prequalification standards and procedures under RCW 47.28.070 shall always be sufficient.  

The department of transportation shall comply with such goals and rules as may be adopted by the office of minority and women's business enterprises to implement chapter 39.19 RCW with respect to contracts entered into under this chapter. The department may adopt such rules as may be necessary to comply with the rules adopted by the office of minority and women's business enterprises under chapter 39.19 RCW.

Sec. 91. RCW 60.28.010 and 1986 c 181 s 6 are each amended to read as follows:  

(1) Contracts for public improvements or work, other than for professional services, by the state, any county, city, town, district, board, or other public body, herein referred to as "public body", shall provide, and there shall be reserved by the public body from the moneys earned by the contractor on estimates during the progress of the improvement or work, a sum not to exceed five percent, said sum to be retained by the state, county, city, town, district, board, or other public body, as a trust fund for the protection and payment of any person or persons, mechanic, subcontractor or (materialmen) material supplier who shall perform any labor upon such contract or the doing of said work, and all persons who shall supply such person or persons or subcontractors with provisions and supplies for the carrying on of such work, and the state with respect to taxes imposed pursuant to Title 82 RCW which may be due from such contractor. Every person performing labor or furnishing supplies toward the completion of said improvement or work shall have a lien upon said moneys so reserved: PROVIDED, That such notice of the lien of such claimant shall be given in the manner and within the time provided in RCW 39.08.030 as now existing and in accordance with any amendments that may hereafter be made thereto: PROVIDED FURTHER, That the board, council, trustees, officer or body acting for the state, county or municipality or other public body:  

(a) At any time after fifty percent of the original contract work has been completed, if it finds that satisfactory progress is being made, may make any of the partial payments which would otherwise be subsequently made in full; but in no event shall the amount to be retained be reduced to less than five percent of the amount of the moneys earned by the contractor: PROVIDED, That the contractor may request that retainage be reduced to one hundred percent of the value of the work remaining on the project; and (b) thirty days after completion of all acceptance of all contract work other than landscaping, may release and pay in full the amounts retained during the performance of the contract (other than continuing retention of five percent of the moneys earned for landscaping) subject to the provisions of RCW 60.28.020.  

(2) The moneys reserved under the provisions of subsection (1) of this section, at the option of the contractor, shall be:  

(a) Retained in a fund by the public body until thirty days following the final acceptance of said improvement or work as completed;  

(b) Deposited by the public body in an interest bearing account in a bank, mutual savings bank, or savings and loan association, not subject to withdrawal until after the final acceptance of said improvement or work as completed, or until agreed to by both parties: PROVIDED, That interest on such account shall be paid to the contractor;  

(c) Placed in escrow with a bank or trust company by the public body until thirty days following the final acceptance of said improvement or work as completed. When the moneys reserved are to be placed in escrow, the public body shall issue a check representing the sum of the moneys reserved payable to the bank or trust company and the contractor jointly. Such check shall be converted into bonds and securities chosen by the contractor and approved by the public body and such bonds and securities shall be held in escrow. Interest on such bonds and securities shall be paid to the contractor as the said interest accrues.  

(3) The contractor or subcontractor may withhold payment of not more than five percent from the moneys earned by any subcontractor or sub-subcontractor or supplier contracted with by the contractor to provide labor, materials, or equipment to the public body. Whenever the contractor or subcontractor reserves funds earned by a subcontractor or sub-subcontractor or supplier, the contractor or subcontractor shall pay interest to the subcontractor or sub-subcontractor or supplier at a rate equal to that received by the contractor or subcontractor from reserved funds.  

(4) With the consent of the public body the contractor may submit a bond for all or any portion of the amount of funds retained by the public body in a form acceptable to the public body. Such bond and any proceeds therefrom shall be made subject to all claims and liens and in the same manner and priority as set forth for retained percentages in this chapter. The public body shall release the bonded portion of the retained funds to the contractor within thirty days of accepting the bond from the contractor. Whenever a public body accepts a bond in lieu of retained funds from a contractor, the contractor shall accept a bond, in lieu of retained funds from any subcontractor or supplier from which the contractor has retained funds. The contractor shall then release the funds retained from the subcontractor or supplier to the subcontractor or supplier within thirty days of accepting the bond from the subcontractor or supplier.  

(5) If the public body administering a contract, after a substantial portion of the work has been completed, finds that an unreasonable delay will occur in the completion of the remaining portion of the contract for any reason not the result of a breach thereof, it may, if the contractor agrees, delete from the contract the remaining work and accept as final the improvement at the stage of completion then attained and make payment in proportion to the amount of the work accomplished and in such case any amounts retained and accumulated under this section shall be held for a period of thirty days following such acceptance. In the event that the work shall have been terminated before final completion as provided in this section, the public body may thereafter enter into a new contract with the same contractor to perform the remaining work or improvement for an amount equal to or less than the cost of the remaining work as was provided for in the original contract without advertisement or bid. The provisions of this chapter 60.28 RCW shall be deemed exclusive and shall supersede all provisions and regulations in conflict herewith.  

(6) Whenever the department of transportation has contracted for the construction of two or more ferry vessels, thirty days after completion and final acceptance of each ferry vessel, the department may release and pay in full the amounts retained in connection with
the construction of such vessel subject to the provisions of RCW 60.28.020: PROVIDED, That the department of transportation may at its discretion condition the release of funds retained in connection with the completed ferry upon the contractor delivering a good and sufficient bond with two or more sureties, or with a surety company, in the amount of the retained funds to be released to the contractor, conditioned that no taxes shall be certified or claims filed for work on such ferry after a period of thirty days following final acceptance of such ferry if and if such taxes are certified or claims filed, recovery may be had on such bond by the department of revenue and the (materialmen) material suppliers and laborers filing claims.

(7) Contracts on projects funded in whole or in part by farmers home administration and subject to farmers home administration regulations shall not be subject to subsections (1) through (6) of this section.

Sec. 92. RCW 60.28.011 and 2003 c 301 s 7 are each amended to read as follows:

(1) Public improvement contracts shall provide, and public bodies shall reserve, a contract retainage not to exceed five percent of the moneys earned by the contractor as a trust fund for the protection and payment of: (a) The claims of any person arising under the contract; and (b) the state with respect to taxes imposed pursuant to Title 82 RCW which may be due from such contractor.

(2) Every person performing labor or furnishing supplies toward the completion of a public improvement contract shall have a lien upon moneys reserved by a public body under the provisions of a public improvement contract. However, the notice of the lien of the claimant shall be given within forty-five days of completion of the contract work, and in the manner provided in RCW 39.08.030.

(3) The contractor at any time may request the contract retainage be reduced to one hundred percent of the value of the work remaining on the project.

(a) After completion of all contract work other than landscaping, the contractor may request that the public body release and pay in full the amounts retained during the performance of the contract, and sixty days thereafter the public body must release and pay in full the amounts retained (other than continuing retention of five percent of the moneys earned for landscaping) subject to the provisions of chapters 39.12 and 60.28 RCW.

(b) Sixty days after completion of all contract work the public body must release and pay in full the amounts retained during the performance of the contract subject to the provisions of chapters 39.12 and 60.28 RCW.

(4) The moneys reserved by a public body under the provisions of a public improvement contract, at the option of the contractor, shall be:

(a) Retained in a fund by the public body;

(b) Deposited by the public body in an interest bearing account in a bank, mutual savings bank, or savings and loan association. Interest on moneys reserved by a public body under the provision of a public improvement contract shall be paid to the contractor;

(c) Placed in escrow with a bank or trust company by the public body. When the moneys reserved are placed in escrow, the public body shall issue a check representing the sum of the moneys reserved payable to the bank or trust company and the contractor jointly. This check shall be converted into bonds and securities chosen by the contractor and approved by the public body and the bonds and securities shall be held in escrow. Interest on the bonds and securities shall be paid to the contractor as the interest accrues.

(5) The contractor or subcontractor may withhold payment of not more than five percent from the moneys earned by any subcontractor or sub-subcontractor or supplier contracted with by the contractor to provide labor, materials, or equipment to the public project. Whenever the contractor or subcontractor reserves funds earned by a subcontractor or sub-subcontractor or supplier, the contractor or subcontractor shall pay interest to the subcontractor or sub-subcontractor or supplier at a rate equal to that received by the contractor or subcontractor from reserved funds.

(6) A contractor may submit a bond for all or any portion of the contract retainage in a form acceptable to the public body and from a bonding company meeting standards established by the public body. The public body shall accept a bond meeting these requirements unless the public body can demonstrate good cause for refusing to accept it. This bond and any proceeds therefrom are subject to all claims and liens and in the same manner and priority as set forth for retained percentages in this chapter. The public body shall release the bonded portion of the retained funds to the contractor within thirty days of accepting the bond from the contractor. Whenever a public body accepts a bond in lieu of retained funds from a contractor, the contractor shall accept like bonds from any subcontractors or suppliers from which the contractor has retained funds. The contractor shall then release the funds retained from the subcontractor or supplier to the subcontractor or supplier within thirty days of accepting the bond from the subcontractor or supplier.

(7) If the public body administering a contract, after a substantial portion of the work has been completed, finds that an unreasonable delay will occur in the completion of the remaining portion of the contract for any reason not the result of a breach thereof, it may, if the contractor agrees, delete from the contract the remaining work and accept as final the improvement at the stage of completion then attained and make payment in proportion to the amount of the work accomplished and in this case any amounts retained and accumulated under this section shall be held for a period of sixty days following the completion. In the event that the work is terminated before final completion as provided in this section, the public body may thereafter enter into a new contract with the same contractor to perform the remaining work or improvement for an amount equal to or less than the cost of the remaining work as was provided for in the original contract without advertisement or bid. The provisions of this chapter are exclusive and shall supersede all provisions and regulations in conflict herewith.

(8) Whenever the department of transportation has contracted for the construction of two or more ferry vessels, sixty days after completion of all contract work on the first ferry vessel, the department shall release and pay in full the amounts retained in connection with the construction of the vessel subject to the provisions of RCW 60.28.020 and chapter 39.12 RCW. However, the department of transportation may at its discretion condition the release of funds retained in connection with the completed ferry upon the contractor delivering a good and sufficient bond with two or more sureties, or with a surety company, in the amount of the retained funds to be released to the contractor, conditioned that no taxes shall be certified or claims filed for work on the ferry after a period of sixty days following completion of the ferry; and if taxes are certified or claims filed, recovery may be had on the bond by the department of revenue and the (materialmen) material suppliers and laborers filing claims.

(9) Except as provided in subsection (1) of this section, retained from any purpose from the moneys earned by a contractor by fulfilling its responsibilities under public improvement contracts is prohibited.

(10) Contracts on projects funded in whole or in part by farmers home administration and subject to farmers home administration regulations are not subject to subsections (1) through (9) of this section.

(11) This subsection applies only to a public body that has contracted for the construction of a facility using the general contractor/construction manager procedure, as defined under RCW 39.10.061. If the work performed by a subcontractor on the project has been completed within the first half of the time provided in the general contractor/construction manager contract for completing the work, the public body may accept the completion of the subcontract. The public body must give public notice of this acceptance. After a forty-five day period for giving notice of liens, and compliance with the retainage release procedures in RCW 60.28.021, the public body may release that portion of the retained funds associated with the subcontract. Claims against the retained funds after the forty-five day period are not valid.

(a) Eighteen months for offenses committed under RCW 69.50.401(2) (a) or (b) or 69.50.410;
(b) Fifteen months for offenses committed under RCW 69.50.401(2) (c), (d), or (e);
(c) Twelve months for offenses committed under RCW 69.50.4013.

For the purposes of this subsection, all of the real property of a state correctional facility or county jail shall be deemed to be part of that facility or county jail.

(6) An additional twenty-four months shall be added to the standard sentence range for any ranked offense involving a violation of chapter 69.50 RCW if the offense was also a violation of RCW 69.50.435 or 9.94A.605. All enhancements under this subsection shall run consecutively to all other sentencing provisions, for all offenses sentenced under this chapter.

(7) An additional two years shall be added to the standard sentence range for vehicular homicide committed while under the influence of intoxicating liquor or any drug as defined by RCW 46.61.502 for each prior offense as defined in RCW 46.61.505.

(8) (a) The following additional times shall be added to the standard sentence range for felony crimes committed on or after July 1, 2006, if the offense was committed with sexual motivation, as that term is defined in RCW 9.94A.030. If the offender is being sentenced for more than one offense, the sexual motivation enhancement must be added to the total period of total confinement for all offenses, regardless of which underlying offense is subject to a sexual motivation enhancement. If the offender committed the offense with sexual motivation and the offender is being sentenced for an anticipatory offense under chapter 9A.28 RCW, the following additional times shall be added to the standard sentence range determined under subsection (2) of this section based on the felony crime of conviction as classified under RCW 9A.28.020:

(i) Two years for any felony defined under the law as a class A felony or with a statutory maximum sentence of at least twenty years, or both;
(ii) Eighteen months for any felony defined under any law as a class B felony or with a statutory maximum sentence of at least five years, or both;
(iii) One year for any felony defined under any law as a class C felony or with a statutory maximum sentence of five years, or both;
(iv) If the offender is being sentenced for any sexual motivation enhancements under (i), (ii), and/or (iii) of this subsection and the offender has previously been sentenced for any sexual motivation enhancements or on or after July 1, 2006, under (i), (ii), and/or (iii) of this subsection, all sexual motivation enhancements under this subsection shall be twice the amount of the enhancement listed;
(b) Notwithstanding any other provision of law, all sexual motivation enhancements under subsection (a) shall be served in total confinement, and shall run consecutively to all other sentencing provisions, including other sexual motivation enhancements, for all offenses sentenced under this chapter. However, whether or not a mandatory minimum term has expired, an offender serving a sentence under this subsection may be granted an extraordinary medical placement when authorized under RCW 9.94A.728(4);
(c) The sexual motivation enhancements in this subsection apply to all felony crimes;
(d) If the standard sentence range under this subsection exceeds the statutory maximum sentence for the offense, the statutory maximum sentence shall be the presumptive sentence unless the offender is a persistent offender. If the addition of a sexual motivation enhancement increases the sentence so that it would exceed the statutory maximum for the offense, the portion of the sentence representing the enhancement may not be reduced;
(e) The portion of the total confinement sentence which the offender must serve under this subsection shall be calculated before any earned early release time is credited to the offender;
(f) Nothing in this subsection prevents a sentencing court from imposing a sentence outside the standard sentence range pursuant to RCW 9.94A.535.

(9) An additional one-year enhancement shall be added to the standard sentence range for the felony crimes of RCW 9A.44.073, 9A.44.076, 9A.44.079, 9A.44.083, 9A.44.086, or 9A.44.089 committed on or after the effective date of this act, if the offender engaged, agreed, or offered to engage in the victim in the sexual conduct in return for a fee. If the offender is sentenced for more than one offense, the one-year enhancement must be added to
the total period of total confinement for all offenses, regardless of which underlying offense is subject to the enhancement. If the offender is being sentenced for an anticipatory offense for the felony crimes of RCW 9A.44.073, 9A.44.076, 9A.44.079, 9A.44.083, 9A.44.086, or 9A.44.089, and the offender attempted, solicited another, or conspired to engage, agree, or offer to engage the victim in sexual conduct in return for a fee, an additional one-year enhancement shall be added to the standard sentence range determined under subsection (a) of this section. For purposes of this subsection, "sexual conduct" means sexual intercourse or sexual contact, both as defined in chapter 9A.44 RCW.

NEW SECTION Sec. 10. A new section is added to chapter 9.94A RCW to read as follows:

(1) In a prosecution for a violation of RCW 9A.44.073, 9A.44.076, 9A.44.079, 9A.44.083, 9A.44.086, or 9A.44.089, or an anticipatory offense for a violation of RCW 9A.44.073, 9A.44.076, 9A.44.079, 9A.44.083, 9A.44.086, or 9A.44.089, committed on or after the effective date of this act, the prosecuting attorney may file a special allegation that the defendant engaged, agreed, offered, attempted, solicited another, or conspired to engage or to cause the victim in the sexual conduct in return for a fee, when sufficient admissible evidence exists, which, when considered with the most plausible, reasonably foreseeable defense that could be raised under the evidence, would justify a finding by a reasonable and objective fact-finder that the defendant engaged, agreed, offered, attempted, solicited another, or conspired to engage the victim in the sexual conduct in exchange for a fee. If a jury is had, the jury shall, if it finds the defendant guilty, also find a special verdict as to whether the defendant engaged, agreed, offered, attempted, solicited another, or conspired to engage the victim in the sexual conduct in exchange for a fee. If no jury is had, the court shall make a finding of fact as to whether the defendant engaged, agreed, offered, attempted, solicited another, or conspired to engage the victim in the sexual conduct in exchange for a fee.

(2) Once a special allegation has been made under this section, the state has the burden to prove beyond a reasonable doubt that the defendant engaged, agreed, offered, attempted, solicited another, or conspired to engage the victim in the sexual conduct in return for a fee.

(3) For purposes of this section, "sexual conduct" means sexual intercourse or sexual contact as defined in chapter 9A.44 RCW.

Sec. 11. RCW 9.68A.105 and 1995 c 353 s 12 are each amended to read as follows:

(1)(a) In addition to penalties set forth in RCW 9.68A.100, a person who is either convicted or given a deferred sentence or a deferred prosecution or who has entered into a statutory or nonstatutory diversion agreement as a result of an arrest for violating RCW 9A.44.100 or a comparable county or municipal ordinance shall be assessed a ((two)) five hundred fifty dollar fee.

(b) The court may not suspend payment of all or part of the fee unless it finds that the person does not have the ability to pay.

(2) Once a special allegation has been made under this section, the court shall assess the fee specified under subsection (1) of this section. If the court finds that the minor does not have the ability to pay the fee. If a jury is had, the jury shall, if it finds the defendant guilty, also find a special verdict as to whether the defendant engaged, agreed, offered, attempted, solicited another, or conspired to engage the victim in the sexual conduct in exchange for a fee.

(3) For purposes of this section, "sexual conduct" means sexual intercourse or sexual contact as defined in chapter 9A.44 RCW.

Sec. 12. RCW 9A.88.120 and 1995 c 353 s 13 are each amended to read as follows:

(1)(a) In addition to penalties set forth in RCW 9A.88.010, 9A.88.030, and 9A.88.090, a person who is either convicted or given a deferred sentence or a deferred prosecution or who has entered into a statutory or nonstatutory diversion agreement as a result of an arrest for violating RCW 9A.88.010, 9A.88.030, 9A.88.090, or comparable county or municipal ordinances shall be assessed a fifty dollar fee.

(b) In addition to penalties set forth in RCW 9A.88.110, a person who is either convicted or given a deferred sentence or a deferred prosecution or who has entered into a statutory or nonstatutory diversion agreement as a result of an arrest for violating RCW 9A.88.110 or a comparable county or municipal ordinance shall be assessed a one hundred fifty dollar fee.

(c) In addition to penalties set forth in RCW 9A.88.070 and 9A.88.080, a person who is either convicted or given a deferred sentence or a deferred prosecution or who has entered into a statutory or nonstatutory diversion agreement as a result of an arrest for violating RCW 9A.88.070, 9A.88.080, or comparable county or municipal ordinances shall be assessed a three hundred dollar fee.

(2) If the court finds that the minor does not have the ability to pay the fee.

(3) When a minor has been adjudicated a juvenile offender or has entered into a statutory or nonstatutory diversion agreement as a result of an arrest for violating RCW 9A.88.110 or a comparable county or municipal ordinance, the court shall assess the fee specified under subsection (1) of this section. The court may not suspend payment of all or part of the fee unless it finds that the minor does not have the ability to pay the fee.

(4) Any fee assessed under this section shall be collected by the clerk of the court and distributed each month to the state treasurer for funding prostitution prevention and intervention activities.

(5) For the purposes of this section:

(a) "Statutory or nonstatutory diversion agreement" means an agreement under RCW 13.40.080 or any written agreement between a person accused of an offense listed in subsection (1) of this section and a court, county, or city prosecutor, or designee thereof, whereby the person agrees to fulfill certain conditions in lieu of prosecution.

(b) "Deferred sentence" means a sentence that will not be carried out if the defendant meets certain requirements, such as complying with the conditions of probation.

Sec. 13. RCW 9A.88.070 and 1975 1st ex.s. c 260 s 9A.88.070 are each amended to read as follows:

(1) A person is guilty of promoting prostitution in the first degree if he or she knowingly((e)) advances prostitution by compelling a person by threat or force to engage in prostitution or profits from prostitution which results from such threat or force((e)) advances or profits from prostitution of a person less than eighteen years old).

(2) Promoting prostitution in the first degree is a class B felony.

Sec. 14. RCW 9.94A.515 and 2006 c 277 s 6, 2006 c 228 s 9, 2006 c 191 s 2, 2006 c 139 s 2, 2006 c 128 s 3, and 2006 c 73 s 12 are each reenacted and amended to read as follows:

NEW SECTION. Sec. 6. DURATION OF BENEFITS. (1) The maximum number of weeks during which family and medical leave insurance benefits are payable in an application year is five weeks. However, benefits are not payable during a waiting period consisting of the first seven calendar days of family and medical leave taken in an application year with respect to a particular type of family and medical leave, whether the first seven calendar days of family and medical leave are employer paid or unpaid.

(2)(a) The first payment of benefits must be made to an individual within two weeks after the claim is filed or the family and medical leave began, whichever is later, and subsequent payments must be made every month thereafter.

The acceptance of compensation by the individual shall likewise not be considered a binding determination of his or her rights under this chapter. Whenever any payment of benefits under this chapter has been made and timely appeal therefrom has been made where the final decision is that the payment was improper, the individual shall repay it and recoupment may be made from any future payment due to the individual on any claim under this chapter. The director may exercise his or her discretion to waive, in whole or in part, the amount of any such payment where the recovery would be against equity and good conscience.

(1) For weeks of family and medical leave beginning before July 1, 2010, the weekly benefit shall be two hundred fifty dollars per week for an individual who at the time of beginning family and medical leave was regularly working thirty-five hours or more per week. By June 30, 2010, and by each subsequent June 30th, the department shall calculate to the nearest dollar an adjusted maximum weekly benefit to account for inflation using the consumer price index for urban wage earners and clerical workers, CPI-W, or a successor index, for the twelve completed calendar months before each June 30th as calculated by the United States department of
labor. The adjusted maximum weekly benefit takes effect for weeks of family and medical leave beginning after the relevant June 30th.

(2) If an individual who at the time of beginning family and medical leave was regularly working thirty-five hours or more per week is on family and medical leave for less than thirty-five hours but at least eight hours in a week, the individual's weekly benefit shall be 0.25 times the maximum weekly benefit times the number of hours of family and medical leave taken in the week. Benefits are not payable for less than eight hours of family and medical leave taken in a week.

(3) For an individual who at the time of beginning family and medical leave was regularly working less than thirty-five hours per week, the department shall calculate a prorated schedule for a weekly benefit amount and a minimum number of hours of family and medical leave that must be taken in a week for benefits to be payable, with the prorated schedule based on the amounts and the calculations or specifications under subsections (1) and (2) of this section.

(4) If an individual discloses that he or she owes child support obligations under section 4 of this act and the department determines that the individual is eligible for benefits, the department shall notify the applicable state or local child support enforcement agency and deduct and withhold an amount from benefits in a manner consistent with RCW 50.40.050.

(5) If the internal revenue service determines that family and medical leave insurance benefits under this chapter are subject to federal income tax and an individual elects to have federal income tax deducted and withheld from benefits, the department shall deduct and withhold the amount specified in the federal internal revenue code in a manner consistent with section 8 of this act.

NEW SECTION. Sec. 8. FEDERAL INCOME TAX. (1) If the internal revenue service determines that family and medical leave insurance benefits under this chapter are subject to federal income tax, the department must advise an individual filing a new claim for family and medical leave insurance benefits, at the time of filing such claim, that:
(a) The internal revenue service has determined that benefits are subject to federal income tax;
(b) Requirements exist pertaining to estimated tax payments;
(c) The individual may elect to have federal income tax deducted and withheld from the individual's payment of benefits at the amount specified in the federal internal revenue code; and
(d) The individual is permitted to change a previously elected withholding status.

(2) Amounts deducted and withheld from benefits must remain in the family and medical leave insurance account until transferred to the federal taxing authority as a payment of income tax.

(3) The director shall follow all procedures specified by the federal internal revenue service pertaining to the deducting and withholding of income tax.

NEW SECTION. Sec. 9. ADJUSTMENT TO BENEFITS. If family and medical leave insurance benefits are paid erroneously or as a result of willful misrepresentation, or if a claim for family and medical leave benefits is rejected after benefits are paid, RCW 51.32.240 shall apply, except that appeals are governed by section 15 of this act, penalties are paid into the family and medical leave insurance account, and the department shall seek repayment of benefits from the recipient.

NEW SECTION. Sec. 10. LEAVE AND EMPLOYMENT PROTECTION. (1) During a period in which an individual receives family and medical leave insurance benefits or earns waiting period credits under this chapter, the individual is entitled to family and medical leave and, at the established ending date of leave, to be restored to a position of employment with the employer from whom leave was taken.

(2) The individual entitled to leave under this section shall be restored to a position of employment in the same manner as an employee entitled to leave under chapter 49.78 RCW is restored to a position of employment, as specified in RCW 49.78.280.

(3) This section applies only to an individual if:
(a) The employer from whom the individual takes family and medical leave employs more than twenty-five employees; and
(b) The individual has been employed for at least twelve months by that employer, and for at least one thousand two hundred fifty hours of service with that employer during the previous twelve-month period.

(4) This section shall be enforced as provided in chapter 49.78 RCW.

NEW SECTION. Sec. 11. EMPLOYMENT BY SAME EMPLOYER. If spouses or people involved in a legal relationship governed by Title 26 RCW entitled to leave under this chapter are employed by the same employer, the employer may require that spouses or people involved in a legal relationship governed by Title 26 RCW not take such leave concurrently, if such leave is taken:
(1) For the birth or placement of a child; or
(2) For a parent's serious health condition.

NEW SECTION. Sec. 12. ELECTIVE COVERAGE. (1) An employer of individuals not covered by this chapter or a self-employed person, including a sole proprietor, partner, or joint venturer, may elect coverage under this chapter for all individuals in its employ for an initial period of not less than three years or a subsequent period of not less than one year immediately following another period of coverage. The employer or self-employed person must file a notice of election with the director, as required by the department. The election becomes effective on the date of filing the notice.

(2) An employer or self-employed person who has elected coverage may withdraw from coverage within thirty days after the end of the three-year period of coverage, or at such other times as the director may prescribe by rule, by filing written notice with the director, such withdrawal to take effect not sooner than thirty days after filing the notice. Within five days of filing written notice of the withdrawal with the director, an employer must provide written notice of the withdrawal to all individuals in the employer's employ.

(3) The department may cancel elective coverage if the employer or self-employed person fails to make required payments or reports. The department may collect due and unpaid premiums and may levy an additional premium for the remainder of the period of coverage. The cancellation shall be effective no later than thirty days from the date of the notice in writing advising the employer or self-employed person of the cancellation. Within five days of receiving written notice of the cancellation from the director, an employer must provide written notice of the cancellation to all individuals in the employer's employ.

NEW SECTION. Sec. 13. AMOUNT OF PREMIUMS. (1) Beginning January 1, 2009, for each individual, each employer shall pay a premium of two cents per hour worked, up to a maximum of forty hours per week, to the department. Each employer shall deduct from the pay of each individual the full amount that the employer is required to pay for the individual.

(2) Payments shall be made in the manner and at such intervals as the department directs for deposit in the family and medical leave insurance account. In the payment of premiums, a fractional part of a cent shall be disregarded unless it amounts to one-half cent or more, in which case it shall be increased to one cent.

(3) By December 1, 2009, and by each subsequent December 1st, the director shall adjust the amount of the premium to ensure that the amount is the lowest rate necessary to pay family and medical leave insurance benefits and administrative costs, and maintain actuarial solvency in accordance with recognized insurance principles, of the family and medical leave insurance program on a current basis, and to repay loaned funds from the supplemental pension fund, if any, as required in section 23 of this act. The adjusted amount of the premium takes effect for the calendar year beginning after the relevant December 1st.

NEW SECTION. Sec. 14. REPORTING AND RECORDKEEPING. (1) In the form and at the times specified by the director, an employer shall make reports, furnish information, and remit premiums as required by section 13 of this act to the
department. If the employer is a temporary help company that provides employees on a temporary basis to its customers, the temporary help company is considered the employer for purposes of this section. However, if the temporary help company fails to remit the required premiums, the customer to whom the employees were provided is liable for paying the premiums.

(2)(a) An employer must keep at his or her place of business a record of employment from which the information needed by the department pursuant to this chapter may be obtained. This record shall at all times be open to the inspection of the director or department employees designated by the director.

(b) Information obtained from employer records under this chapter is confidential and not open to public inspection, other than to public employees in the performance of their official duties. However, an interested party shall be supplied with information from employer records to the extent necessary for the proper presentation of the case in question. An employer may authorize inspection of its records by written consent.

(3) The requirements relating to the assessment and collection of family and medical leave insurance premiums are the same as the requirements relating to the assessment and collection of industrial insurance premiums under Title 51 RCW, including but not limited to penalties, interest, and department lien rights and collection remedies. These requirements apply to:

(a) An employer that fails under this chapter to make the required reports, or fails to remit the full amount of the premiums when due;

(b) An employer that willfully makes a false statement or misrepresentation regarding a material fact, or willfully fails to report a material fact, to avoid making the required reports or remitting the full amount of the premiums when due under this chapter;

**NEW SECTION. Sec. 15. Appeals.** (1) A person aggrieved by a decision of the department under this chapter must file a notice of appeal with the director, by mail or personally, within fourteen days after the date upon which a copy of the department's decision was communicated to the person. Upon receipt of the notice of appeal, the director shall request the assignment of an administrative law judge in accordance with chapter 34.05 RCW to conduct a hearing and issue a proposed decision and order. The hearing shall be conducted in accordance with chapter 34.05 RCW.

(2) The administrative law judge's proposed decision and order shall be final and not subject to further appeal unless, within thirty days after the decision is communicated to the interested parties, a party petitions for review by the director. If the director's review is timely requested, the director may order additional evidence by the administrative law judge. On the basis of the evidence before the administrative law judge and such additional evidence as the director may order to be taken, the director shall render a decision affirming, modifying, or setting aside the administrative law judge's decision. The director's decision becomes final and not subject to further appeal unless, within thirty days after the decision is communicated to the interested parties, a party files a petition for judicial review as provided in chapter 34.05 RCW. The director is a party to any judicial action involving the director's decision and shall be represented in the action by the attorney general.

(3) If, upon administrative or judicial review, the final decision of the department is reversed or modified, the administrative law judge or the court in its discretion may award reasonable attorneys' fees and costs to the prevailing party. Attorneys' fees and costs owed by the department, if any, are payable from the family and medical leave insurance account.

**NEW SECTION. Sec. 16. Prohibited Acts.** An employer, temporary help company, employment agency, employee organization, or other person may not discharge, expel, or otherwise discriminate against a person because he or she has filed or communicated to the employer an intent to file a claim, a complaint, or an appeal, or has testified or is about to testify or has assisted in any proceeding, under this chapter, at any time, including during the waiting period described in section 6 of this act and the period in which the person receives family and medical leave insurance benefits under this chapter. This section shall be enforced as provided in RCW 51.48.025.

**NEW SECTION. Sec. 17. Coordination With Other Laws, Agreements, And Policies.** (1) Employment protection under other laws. If an individual is entitled to employment protection under this chapter and under the federal family and medical leave act, chapter 49.78 RCW, or other applicable federal, state, or local law, the individual is entitled to employment protection under the other applicable law most favorable to the individual.

(2) Leave from employment under other laws. Except as provided in this subsection, if an individual is entitled to family and medical leave under this chapter and under the federal family and medical leave act, chapter 49.78 RCW, or other applicable federal, state, or local law, the employer may require that leave under this chapter be taken concurrently with leave under other applicable laws. The employer must give individuals in its employ written notice of this requirement. An individual may not increase the duration of his or her leave from employment by tacking on leave under this chapter to leave under other applicable laws. Leave from employment under this chapter is in addition to leave from employment during which benefits are paid or are payable under Title 51 RCW or other applicable federal or state industrial insurance laws.

(3) Wage replacement benefits under other laws. In any week in which an individual is earning waiting period credits or receiving benefits under chapter 7.68 RCW, Title 50 RCW, or Title 51 RCW, or other applicable federal or state crime victims' compensation, unemployment compensation, industrial insurance, or disability insurance laws, the individual is disqualified from receiving family leave insurance benefits under this chapter.

(4) Collective bargaining agreements and employer policies. (a) Except as provided in this section, this chapter does not prohibit an employer from negotiating a collective bargaining agreement or changing employer policies, as applicable, to coordinate existing benefits with leave from employment and wage replacement benefits required under this chapter.

(b) This chapter does not diminish an employer's obligation to comply with a collective bargaining agreement or employer policy, as applicable, that provides greater employment protection, leave from employment, or wage replacement benefits than under this chapter.

(c) An individual's rights to employment protection, leave from employment, and wage replacement benefits under this chapter may not be diminished by a collective bargaining agreement entered into or renewed or an employer policy adopted or retained after the effective date of this section. Any agreement by an individual to waive his or her rights under this chapter is void as against public policy.

(d) If an employer provides wage replacement benefits to an individual while on family and medical leave through disability insurance or any other means, the individual may elect whether first to receive such benefits or receive family and medical leave insurance benefits under this chapter. An individual may not be required to receive the individual's wage replacement benefits, if any, before receiving family and medical leave insurance benefits under this chapter. In no case shall the individual's weekly benefit exceed the individual's average weekly wage.

**NEW SECTION. Sec. 18. No Continuing Entitlement or Contractual Right.** This chapter does
not create a continuing entitlement or contractual right. The legislature reserves the right to amend or repeal all or part of this chapter at any time, and a benefit or other right granted under this chapter exists subject to the legislature's power to amend or repeal this chapter. There is no vested private right of any kind against such amendment or repeal.

NEW SECTION. Sec. 19. RULES. The director may adopt rules as necessary to implement this chapter. In adopting rules, the director shall maintain consistency with the rules adopted to implement the federal family and medical leave act, and chapter 49.78 RCW, to the extent such rules are not in conflict with this chapter.

All receipts from the premium imposed under section 13 of this act or the penalties imposed under section 14 of this act must be deposited in the account. Expenditures from the account may be used only for the purposes of the family and medical leave insurance program. Only the director or the director's designee may authorize expenditures from the account. The account is subject to the allotment procedures under chapter 43.88 RCW. An appropriation is required for administrative expenses, but not for benefit payments.

Whenever, in the judgment of the state investment board, there shall be in the family and medical leave insurance account funds in excess of that amount deemed by the state investment board to be sufficient to meet the current expenditures properly payable therefrom, the state investment board shall have full power to invest, reinvest, manage, contract, or sell or exchange investments acquired with such excess funds in the manner prescribed by RCW 43.84.150, and not otherwise.

Sec. 22. RCW 43.79A.040 and 2006 c 311 s 21 and 2006 c 120 s 2 are each reenacted and amended to read as follows:

SB 5118 Prime Sponsor, Senate Committee On Agriculture & Rural Economic Development: Creating the office of farmland preservation. Reported by Committee on Agriculture & Natural Resources

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. FINDINGS AND PURPOSE. The legislature finds that maintaining the capacity to provide adequate food and fiber resources is essential to the long-term sustainability of the state's citizens and economy. The nation's population has reached three hundred million and will continue to increase for the foreseeable future. Further, the world population is now over six billion and is projected to reach nine billion by the year 2050.
In Washington state, the population is growing by over one million people every decade with much of this growth occurring in urban Washington. This growth is increasing the competition for land not only for housing, but also associated retail, commercial, industrial, and leisure industries. The legislature finds that many once-productive agricultural areas in western Washington have been overtaken and irreversibly converted to nonagricultural uses. Other agricultural areas in the state have diminished to the point that they are dangerously close to losing the land mass necessary to be economically viable. Further, only a limited number of areas in western Washington still retain a sufficient agricultural land base and the necessary agricultural infrastructure to continue to be economically viable both in the short term and the long term. The legislature recognizes that because this significant decline has largely occurred in less than a half century, it is imperative that mechanisms be established at the state level to focus attention, take the action needed to retain agricultural land, and ensure the opportunity for future generations to farm these lands.

The legislature finds that history shows that previous advanced civilizations in the world were founded on highly productive agricultural lands and food production systems but when the land or its productivity was lost, the civilizations declined. In contrast, other civilizations have existed for millennia because they maintained their agricultural land base, its productivity, and economic conditions sufficient to maintain stewardship of their land.

The legislature finds that there is a finite quantity of high quality agricultural land and that often this agricultural land is mistakenly viewed as an expendable resource. The legislature finds that the retention of agricultural land is desirable, not only to produce food, livestock, and other agricultural products, but also to maintain our state economy and preferable environmental conditions. For these reasons, and because it is essential that agricultural production be sufficient to meet the needs of our growing population, commitment to the retention of agricultural land should be reflected at the state policy level by the creation of an office of farmland preservation to support the retention of farmland and the viability of farming for future generations.

NEW SECTION. Sec. 2. OFFICE OF FARMLAND PRESERVATION—POWERS AND DUTIES. (1) The office of farmland preservation is created and shall be located within the state conservation commission.

(2) Staff support for the office shall be provided by the state conservation commission.

(3) The office of farmland preservation may:

(a) Provide advice and assist the state conservation commission in implementing the provisions of RCW 89.08.530 and 89.08.540, including the merits of leasing or purchasing easements for fixed terms in addition to purchasing easements in perpetuity;

(b) Develop recommendations for the funding level and for the use of the agricultural conservation easements account established in RCW 89.08.540 with the guidance of the farmland preservation task force established under section 3 of this act;

(c) With input from the task force created in section 3 of this act, provide an analysis of the major factors that have led to past declines in the amount and use of agricultural lands in Washington and of the factors that will likely affect retention and economic viability of these lands into the future including, but not limited to, pressures to convert land to nonagricultural uses, loss of processing plants and markets, loss of profitability, productivity, and competitive advantage, urban sprawl, water availability and quality, restrictions on agricultural land use, and conversion to recreational or other uses;

(d) Develop model programs and tools, including innovative economic incentives for landowners, to retain agricultural land for agricultural production, with the guidance from the farmland preservation task force created under section 3 of this act;

(e) Provide technical assistance to localities as they develop and implement programs, mechanisms, and tools to encourage the retention of agricultural lands;

(f) Develop a grant process and an eligibility certification process for localities to receive grants for local programs and tools to retain agricultural lands for agricultural production;

(g) Provide analysis and recommendations as to the continued development and implementation of the farm transition program including, but not limited to, recommending:

(i) Assistance in the preparation of business plans for the transition of business interests;

(ii) Assistance in the facilitation of transfers of existing properties and agricultural operations to interested buyers; and

(iii) Research assistance on agricultural, financial, marketing, and other related transition matters;

(b) Begin the development of a farm transition program to assist in the transition of farmland and related businesses from one generation to the next, aligning the farm transition program closely with the farmland preservation effort to assure complementary functions; and

(i) Serve as a clearinghouse for incentive programs that would consolidate and disseminate information relating to conservation programs that are accessible to landowners and assist owners of agricultural lands to secure financial assistance to implement conservation easements and other projects.

NEW SECTION. Sec. 3. FARMLAND PRESERVATION TASK FORCE. (1) The farmland preservation task force is established with the following voting members:

(a) Six farmer representatives, one from each of six regions delineated by the state conservation commission at least one of whom is a commercial livestock producer, of which at least two representatives shall be under the age of forty-five, appointed by the governor from persons nominated by recognized agricultural organizations;

(b) A representative of the state conservation commission, appointed by the chair of the state conservation commission;

(c) A representative of the department of agriculture, appointed by the director;

"Sec. 1. RCW 35.61.210 and 1997 c 3 s 205 are each amended to read as follows:
The board of park commissioners may levy or cause to be levied a general tax on all the property located in said park district each year not to exceed fifty cents per thousand dollars of assessed value of the property in such park district. In addition, the board of park commissioners may levy or cause to be levied a general tax on all property located in said park district each year not to exceed twenty-five cents per thousand dollars of assessed valuation. Although park districts are authorized to impose two separate regular property tax levies, the levies shall be considered to be a single levy for purposes of the limitation provided for in chapter 4.55 RCW.
The board is hereby authorized to levy a general tax in excess of its regular property tax levy or levies when authorized to do so at a special election conducted in accordance with and subject to all the requirements of the Constitution and laws of the state now in force or hereafter enacted governing the limitation of tax levies. The board is hereby authorized to call a special election for the purpose of submitting to the qualified voters of the park district a proposition to levy a tax in excess of the seventy-five cents per thousand dollars of assessed value herein specifically authorized. The manner of submitting any such proposition, of certifying the same, and of giving or publishing notice thereof, shall be as provided by law for the submission of propositions by cities or towns.
The board shall include in its general tax levy for each year a sufficient sum to pay the interest on all outstanding bonds and may include a sufficient amount to create a sinking fund for the redemption of all outstanding bonds. The levy shall be certified to the proper county officials for collection the same as other general taxes, and when collected, the general tax shall be placed in a separate fund in the office of the county treasurer to be known as the "metropolitan park district fund" and the payment on warrants therefrom shall be made into the "metropolitan park district fund" and paid out on warrants disburser with the proceeds derived from the levy in accordance with chapter 36.29 RCW.

Sec. 2. RCW 36.35.020 and 1972 ex.s. c 150 s 2 are each amended to read as follows:
The term "tax title lands" as used in this chapter shall mean any tract of land acquired by the county for lack of other bidders at a tax foreclosure sale. Tax title lands are held in trust for the taxing districts.

Sec. 3. RCW 36.35.100 and 1998 c 106 s 13 are each amended to read as follows:
The term "tax title lands" as used in this chapter shall mean any tract of land acquired by the county for lack of other bidders at a tax foreclosure sale. Tax title lands are held in trust for the taxing districts.

Sec. 4. RCW 36.35.100 and 1998 c 106 s 13 are each amended to read as follows:
The term "tax title lands" as used in this chapter shall mean any tract of land acquired by the county for lack of other bidders at a tax foreclosure sale. Tax title lands are held in trust for the taxing districts.

1. The property shall be;
(a) Stricken from the tax rolls as county property;
(b) Exempt from taxation;
(c) Exempt from special assessments except as provided in chapter 35.49 RCW and RCW 35.44.140 and 79.44.190; and
(d) Exempt from property owner association dues or fees.
The sale, management, and leasing of tax title property shall be handled as under chapter 36.35 RCW.

Sec. 4. RCW 36.89.090 and 1991 c 36 s 1 are each amended to read as follows:

The county shall have a lien for delinquent (service) charges, including interest, penalties, and costs of foreclosure thereon, against any property against which they were levied for (stormwater control features) the purposes authorized by this chapter, which lien shall be superior to all other liens and encumbrances except general taxes and local and special assessments. Such lien shall be effective upon the charges becoming delinquent and shall be enforced and foreclosed in the same manner as provided for sewerage liens of cities and towns by RCW 35.67.200 through 35.67.290((provided, That)). However, a county may, by resolution or ordinance, adopt all or any part of the alternative interest rate, lien, and foreclosure procedures as set forth in RCW 36.89.092 through 36.89.094 or ((by RCW)) 36.94.150, or chapters 84.56, 84.60, and 84.64 RCW.

Sec. 5. RCW 84.56.070 and 1991 c 245 s 19 are each amended to read as follows:

On the fifteenth day of February succeeding the levy of taxes, the county treasurer shall proceed to collect all personal property taxes. The treasurer shall give notice by mail to all persons charged with personal property taxes, and if such taxes are not paid before they become delinquent, the treasurer shall forthwith proceed to collect the same. In the event that he or she is unable to collect the same when due, the treasurer shall prepare papers in distraint, which shall contain a description of the personal property, the amount of taxes, the amount of the accrued interest at the rate provided by law from the date of delinquency, and the name of the owner or reputed owner. The treasurer shall without demand or notice distraint sufficient goods and chattels belonging to the person charged with such taxes to pay the same with interest at the rate provided by law from the date of delinquency, together with all accruing costs, and shall proceed to advertise the same by posting written notices in three public places in the county in which such property has been distraint, one of which places shall be at the county court house, such notice to state the time when and place where such property will be sold. The county treasurer, or the treasurer’s deputy, shall tax the same fees for making the distraint and sale of goods and chattels for the payment of taxes as are allowed by law to sheriffs for making levy and sale of property on execution; traveling fees to be computed from the county seat of the county to the place of making distraint. If the taxes for which such property is distraint, and the interest and costs accruing thereon, are not paid before the date appointed for such sale, which shall be not less than ten days after the taking of such property, such treasurer or treasurer’s designee shall proceed to sell such property at public auction, or so much thereof as shall be sufficient to pay such taxes, with interest and costs, and if there be any excess of money arising from the sale of any personal property, the treasurer shall pay such excess less any cost of the auction to the owner of the property so sold or to his or her legal representative:

Provided, That whenever it shall become necessary to distraint any standing timber owned separately from the ownership of the land upon which the same may stand, or any fish trap, pound net, reef net, set net or drag seine fishing location, or any other personal property as the treasurer shall determine to be incapable or reasonably impracticable of manual delivery, it shall be deemed to have been distraint and taken into possession when the treasurer shall have, at least thirty days before the date fixed for the sale thereof, filed with the auditor of the county wherein such property is located a notice in writing reciting that the treasurer has distraint such property, describing it, giving the name of the owner or reputed owner, the amount of the tax due, with interest, and the time and place of sale; a copy of the notice shall also be sent to the owner or reputed owner at his last known address, by registered letter at least thirty days prior to the date of sale: AND PROVIDED FURTHER, That if the county treasurer has reasonable grounds to believe that any personal property, including mobile homes, manufactured homes, or park model trailers, upon which taxes have been levied, but not paid, is about to be removed from the county where the same has been assessed, or is about to be destroyed, sold or disposed of, the county treasurer may demand such taxes, without the notice provided for in this section, and if necessary may forthwith distraint sufficient goods and chattels to pay the same.

Sec. 6. RCW 84.56.090 and 1985 c 83 s 1 are each amended to read as follows:

Whenever in the judgment of the assessor or the county treasurer personal property is being removed or is about to be removed without the limits of the state, or is being dissipated or about to be dissipated, or is being or about to be sold, disposed of, or removed from the county so as to jeopardize collection of taxes, the treasurer shall immediately prepare papers in distraint, which shall contain a description of the personal property, including mobile homes, manufactured homes, or park model trailers, being or about to be removed, dissipated, sold, disposed of, or removed from the county so as to jeopardize collection of taxes, the amount of the tax, the amount of accrued interest at the rate provided by law from the date of delinquency, and the name of the owner or reputed owner, and he shall without demand or notice distraint sufficient goods and chattels belonging to the person charged with such taxes to pay the same with interest at the rate provided by law from the date of delinquency, together with all accruing costs, and shall advertise and sell said property as provided in RCW 84.56.070.

If said personal property is being removed or is about to be removed from the limits of the state, is being dissipated or about to be dissipated, or is being or about to be sold, disposed of, or removed from the county so as to jeopardize collection of taxes, at any time subsequent to the first day of January in any year, and prior to the levy of taxes thereon, the taxes upon such property so distraint shall be computed upon the rate of levy for state, county and local purposes for the preceding year; and all taxes collected in advance of levy under this section and RCW 84.56.120, together with the name of the owner and a brief description of the property assessed shall be entered forthwith by the county treasurer upon the personal property tax rolls of such preceding year, and all collections thereon shall be considered and treated in all respects, and without recourse by either the owner or any taxing unit, as collections for such preceding year. Property on which taxes are thus collected shall thereupon become discharged from the lien of any taxes that may thereafter be levied in the year in which payment or collection is made.

Whenever property has been removed from the county wherein it has been assessed, on which the taxes have not been paid, then the county treasurer, or his deputy, shall have the same power to distraint and sell said property for the satisfaction of said taxes as he would have if said property were situated in the county in which the property was assessed and distrainted, and his deputy, in the distraint and sale of property for the payment of taxes, shall have the same powers as are now by law given to the sheriff in making levy and sale of property on execution.

Sec. 7. RCW 84.64.200 and 1981 c 322 s 6 are each amended to read as follows:

All lots, tracts and parcels of land upon which taxes levied prior to January 9, 1926 remain due and unpaid at the date when such taxes would have become delinquent as provided in the act under which they were levied shall be deemed to be delinquent under the provisions of this title, and the same proceedings may be had to enforce the payment of such unpaid taxes, with interest and costs, and payment enforced and liens foreclosed under and by virtue of the provisions of this chapter. For the purposes of foreclosure under this chapter, the date of delinquency shall be construed to mean the date when the taxes first became delinquent. At all sales of property for which certificates of delinquency are held by the county, if no other bids are received, the county shall be considered a bidder for the full area of each tract or lot to the amount of all taxes, interest and costs due thereon, and where no bidder appears, acquire title ((thereof)) in trust for the taxing districts as absolutely as if purchased by an individual under the provisions of this chapter; all bidders except the county at sales of property for which certificates of delinquency are held by the county shall pay the full amount of taxes, interest and costs for which judgment is rendered, together with all taxes, interest and foreclosure procedures as set forth in RCW 36.89.090 through 36.89.094. (provided, That)).
and costs which are delinquent at the time of sale, regardless of whether the taxes, interest, or costs are included in the judgment."

SSB 5243 Prime Sponsor, Senate Committee On Human Services & Corrections: Increasing the length of confinement for a parole violation committed by certain juvenile sex offenders. Reported by Committee on Human Services

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 13.40.210 and 2002 c 175 s 27 are each amended to read as follows:

(1) The secretary shall set a release date for each juvenile committed to its custody. The release date shall be within the prescribed range to which a juvenile has been committed under RCW 13.40.0357 or 13.40.030 except as provided in RCW 13.40.320 concerning offenders the department determines are eligible for the juvenile offender basic training camp program. Such dates shall be determined prior to the expiration of sixty percent of a juvenile's minimum term of confinement included within the prescribed range to which the juvenile has been committed. The secretary shall release any juvenile committed to the custody of the department within four calendar days prior to the juvenile's release date or on the release date set under this chapter. Days spent in the custody of the department shall be tolled by any period of time during which a juvenile has absented himself or herself from the department's supervision without the prior approval of the secretary or the secretary's designee.

(2) The secretary shall monitor the average daily population of the state's juvenile residential facilities. When the secretary concludes that in-residence population of residential facilities exceeds one hundred five percent of the rated bed capacity specified in statute, or in absence of such specification, as specified by the department in rule, the secretary may recommend reductions to the governor. On certification by the governor that the recommended reductions are necessary, the secretary has authority to administratively release a sufficient number of offenders to reduce in-residence population to one hundred percent of rated bed capacity. The secretary shall release offenders who have served the greatest proportion of their sentence. However, the secretary may deny release in a particular case at the request of an offender, or if the secretary finds that there is no responsible custodian, as determined by the department, to whom to release the offender, or if the release of the offender would pose a clear danger to society. The department shall notify the committing court of the release at the time of release if any such early releases have occurred as a result of excessive in-residence population. In no event shall an offender adjudicated of a violent offense be granted release under the provisions of this subsection.

(3)(a) Following the release of any juvenile under subsection (1) of this section, the secretary may require the juvenile to comply with a program of parole to be administered by the department in his or her community which shall last no longer than eighteen months, except that in the case of a juvenile sentenced for rape in the first or second degree, rape of a child in the first or second degree, child molestation in the first degree, or indecent liberties with forcible compulsion, the period of parole shall be twenty-four months and, in addition, the decision of the secretary may be up to thirty-six months when the secretary finds that an additional period of parole is necessary and appropriate in the interests of public safety or to meet the ongoing needs of the juvenile. A parole program is mandatory for offenders released under subsection (2) of this section. The decision to place an offender on parole shall be based on an assessment by the department of the offender's risk for reoffending upon release. The department shall prioritize available parole resources to provide supervision and services to offenders at moderate to high risk for reoffending.

(b) The secretary shall, for the period of parole, facilitate the juvenile's reintegration into his or her community and to further this goal shall require the juvenile to refrain from possessing a firearm or using a deadly weapon and refrain from committing new offenses and may require the juvenile to: (i) Undergo available medical, psychiatric, drug and alcohol, sex offender, mental health, and other offense-related treatment services; (ii) report as directed to a parole officer and/or designee; (iii) pursue a course of study, vocational training, or employment; (iv) notify the parole officer of the current address where he or she resides; (v) be present at a parole officer during specified hours; (vi) remain within prescribed geographical boundaries; (vii) submit to electronic monitoring; (viii) refrain from using illegal drugs and alcohol, and submit to random urinalysis when requested by the assigned parole officer; (ix) refrain from contact with specific individuals or a specified class of individuals; and (x) meet other conditions determined by the parole officer to further enhance the juvenile's reintegration into the community; (xi) pay any court-ordered fines or restitution; and (xii) perform community restitution. Community restitution for the purpose of this section means compulsory service, without compensation, performed for the benefit of the community by the offender. Community restitution may be performed through public or private organizations or through work releases.

(c) The secretary may further require up to twenty-five percent of the highest risk juvenile offenders who are placed on parole to participate in an intensive supervision program. Offenders participating in an intensive supervision program shall be required to comply with all terms and conditions listed in (b) of this subsection and shall also be required to comply with the following additional terms and conditions: (i) Obey all laws and refrain from any conduct that threatens public safety; (ii) report at least once a week to an assigned community case manager; and (iii) meet all other requirements imposed by the community case manager related to participating in the intensive supervision program. As a part of the intensive supervision program, the secretary may require day reporting.
(d) After termination of the parole period, the juvenile shall be discharged from the department's supervision.

(4) The department may also modify parole for violation thereof. If, after affording a juvenile all of the due process rights to which he or she would be entitled if the juvenile were an adult, the secretary finds that a juvenile has violated a condition of his or her parole, the secretary shall order one of the following which is reasonably likely to effectuate the purpose of the parole and to protect the public: (i) Continued supervision under the same conditions previously imposed; (ii) intensified supervision with increased reporting requirements; (iii) additional conditions of supervision authorized by this chapter; (iv) except as provided in (a)(v) and (vi) of this subsection, imposition of a period of confinement not to exceed thirty days in a facility operated by or pursuant to a contract with the state of Washington or any city or county for a portion of each day or for a certain number of days each week with the balance of the days or weeks spent under supervision; (v) the secretary may order any of the conditions or may return the offender to confinement for the remainder of the sentence range if the offense for which the offender was sentenced is rape in the first or second degree, rape of a child in the first or second degree, child molestation in the first degree, indecent liberties with forcible compulsion, or a sex offense that is also a serious violent offense as defined by RCW 9.94A.030; and (vi) the secretary may order any of the conditions or may return the offender to confinement for the remainder of the sentence range if the youth has completed the basic training camp program as described in RCW 13.40.320.

(b) The secretary may modify parole and order any of the conditions or may return the offender to confinement for up to twenty-four weeks if the offender was sentenced for a sex offense as defined under RCW 9A.44.130 and is known to have violated the terms of parole. Confinement beyond thirty days is intended to only be used for a small and limited number of sex offenders. It shall only be used when other graduated sanctions or interventions have not been effective or the behavior is so egregious it warrants the use of the higher level intervention and the violation: (i) Is a known pattern of behavior consistent with a previous sex offense that puts the youth at high risk for reoffending sexually; (ii) consists of sexual behavior that is determined to be predatory as defined in RCW 71.09.020; or (iii) requires a review under chapter 71.09 RCW, due to a recent overt act. The total number of days of confinement for violations of parole conditions during the parole period shall not exceed the number of days provided by the maximum sentence imposed by the disposition for the underlying offense pursuant to RCW 13.40.0357. The department shall not aggregate multiple parole violations that occur prior to the parole revocation hearing and impose consecutive twenty-four week periods of confinement for each parole violation. The department is authorized to engage in rule making pursuant to chapter 34.05 RCW, to implement this subsection, including narrowly defining the behaviors that could lead to this higher level intervention.

(c) If the department finds that any juvenile in a program of parole has possessed a firearm or used a deadly weapon during the program of parole, the department shall modify the parole under (a) of this subsection and confine the juvenile for at least thirty days. Confinement shall be in a facility operated by or pursuant to a contract with the state or any county.

(5) A parole officer of the department of social and health services shall have the power to arrest a juvenile under his or her supervision on the same grounds as a law enforcement officer would be authorized to arrest the person.

(6) If so requested and approved under chapter 13.06 RCW, the secretary shall permit a county or group of counties to perform functions under subsections (3) through (5) of this section.

NEW SECTION. Sec. 2. This act applies prospectively only and not retroactively. It applies only to juvenile offenders who have been adjudicated for an offense that occurred on or after the effective date of this act.

NEW SECTION. Sec. 3. This act takes effect October 1, 2007.

A parole program is mandatory for offenders released under subsection (2) of this section. The decision to place an offender on parole shall be based on an assessment by the department of the offender's risk for reoffending upon release. Community restitution for the purpose of this section means compulsory service, without compensation, performed for the benefit of the community by the offender. Community restitution may be performed through public or private organizations or through work crews.

(c) The secretary may further require up to twenty-five percent of the highest risk juvenile offenders who are placed on parole to participate in an intensive supervision program. Offenders participating in an intensive supervision program shall be required to comply with all terms and conditions listed in (b) of this subsection and shall also be required to comply with the following additional terms and conditions: (i) Obey all laws and refrain from any conduct that threatens public safety; (ii) report at least once a week to an assigned community case manager; and (iii) meet all other requirements imposed by the community case manager related to participating in the intensive supervision program. As a part of the intensive supervision program, the secretary may require day reporting.

(d) After termination of the parole period, the juvenile shall be discharged from the department's supervision. The department may also modify parole for violation thereof. If, after affording a juvenile all of the due process rights to which he or she would be entitled if the juvenile were an adult, the secretary finds that a juvenile has violated a condition of his or her parole, the secretary shall order one of the following which is reasonably likely to effectuate the purpose of the parole and to protect the public: (i) Continued supervision under the same conditions previously imposed; (ii) intensified supervision with increased reporting requirements; (iii) additional conditions of supervision authorized by this chapter; (iv) except as provided in (a)(v) and (vi) of this subsection, imposition of a period of confinement not to exceed thirty days in a facility operated by or pursuant to a contract with the state of Washington or any county for a portion of each day or for a certain number of days each week with the balance of the days or weeks spent under supervision; (v) the secretary may order any of the conditions or may return the offender to confinement for the remainder of the sentence range if the offense for which the offender was sentenced was rape in the first or second degree, rape of a child in the first or second degree, child molestation in the first degree, indecent liberties with forcible compulsion, or a sex offense that is also a serious violent offense as defined by RCW 9.94A.030; and (vi) the secretary may order any of the conditions or may return the offender to confinement for the remainder of the sentence range if the youth has completed the basic training camp program as described in RCW 13.40.320.

(b) The secretary may modify parole and order any of the conditions or may return the offender to confinement for up to twenty-four weeks if the offender was sentenced for a sex offense as defined under RCW 9A.44.130 and is known to have violated the terms of parole. E2SSB 5627 Prime Sponsor, Senate Committee On Ways & Means: Requiring a review and development of basic education funding. Reported by Committee on Education

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The state's definition of basic education and the corresponding funding formulas must be regularly updated in order to keep pace with evolving educational practices and increasing state and federal requirements and to ensure that all schools have the resources they need to help all students the opportunity to be fully prepared to compete in a global economy. The work of the Washington learns steering committee and the K-12 advisory committee provides a valuable starting point from which to evaluate the current educational system and develop a unique, transparent, and stable educational funding system for Washington that supports the goals and the vision of a world-class learner-focused K-12 educational system that were established in the final Washington learns report.

This act establishes a joint select committee of the legislature to address the details necessary to develop new comprehensive K-12 finance formulas that will provide Washington schools with stable and adequate funding as the expectations for the K-12 system continue to evolve.

NEW SECTION. Sec. 2. A new section is added to chapter 28A.150 RCW to read as follows:

(1) The joint select committee on basic education finance is established, with members as provided in this subsection.
(a) The president of the senate shall appoint four members from each of the two largest caucuses of the senate and shall designate one member to serve as cochair.
(b) The speaker of the house of representatives shall appoint four members from each of the two largest caucuses of the house of representatives and shall designate one member to serve as cochair.

(2) To address specific tasks in the committee work plan, the joint select committee may convene ad hoc work groups that include representatives of state education agencies and organizations, school district staff, business and community members, and others. The ad hoc work groups shall report to the joint select committee.

(3) Staff support for the joint select committee shall be provided by the senate committee services and the house office of program research, with assistance as requested from the legislative evaluation and accountability program, the office of financial management, the office of the superintendent of public instruction, and the Washington state institute for public policy.

(4) Members of the joint select committee shall be reimbursed for travel expenses in accordance with RCW 44.04.120. Members of ad hoc work groups are not entitled to expense reimbursement.

(5) The joint select committee shall expire on January 1, 2009.

NEW SECTION. Sec. 3. A new section is added to chapter 28A.150 RCW to read as follows:

(1) The purpose of the joint select committee established under section 2 of this act is to review the definition of basic education and all current basic education funding formulas and recommend for consideration by the full legislature, options for a new funding structure and all necessary formulas, along with a new definition of basic education, that is realigned with the new expectations of the state's education system as established in the November 2006 final report of the Washington learns steering committee and the basic education provisions established in this chapter.

(2) The joint select committee shall first develop a work plan that identifies, in an ordered sequence, the aspects of the funding structure and funding formulas to be addressed by the committee and includes reporting timelines. At a minimum, the committee shall present a progress report by December 1, 2007, and a final report by December 1, 2008, to the education and fiscal committees of the senate and the house of representatives. The reports shall contain the joint select committee's recommended options for the funding structure and funding formulas addressed under the work plan during the previous year. The joint select committee may revise the work plan as necessary.

(3) For each funding formula addressed, at least one of the options recommended by the joint select committee must be a redirection and prioritization within existing resources based on research-proven education programs. The options must also include projections of the expected effect of the investment made under any new funding structure.

(4) In developing its recommendations, the joint select committee shall review and build upon the following:
(a) Reports related to K-12 finance produced at the request of or as a result of the Washington learns study, including reports completed for or by the K-12 advisory committee;
(b) High-quality studies that are available; and
(c) Research and evaluation of the cost benefits of various K-12 programs and services developed by the Washington state institute for public policy as directed by the legislature in section 607(15), chapter 372, Laws of 2006.

NEW SECTION. Sec. 4. A new section is added to chapter 28A.150 RCW to read as follows:

(1) The options developed by the joint select committee under section 3 of this act shall take into consideration the legislative priorities in this section, to the maximum extent possible and as appropriate to each formula.

(2) Funding structures should reflect the most effective instructional strategies and service delivery models and be based on research-proven education programs and activities with demonstrated cost benefits. In reviewing possible strategies and models the joint select committee shall, at a minimum, consider the following issues:
(a) Professional development for all staff;
(b) Whether the compensation system for instructional staff shall include pay for performance, knowledge, and skills elements; regional cost-of-living factors; elements to recognize assignments that are difficult; recognition for the professional teaching level certificate in the salary allocation model; and a plan to implement the pay structure;
(c) Voluntary all-day kindergarten;
(d) Optimum class size, including different class sizes based on grade level and ways to reduce class size;
(e) Focused instructional support for students and schools;
(f) Extended school day and school year options; and
(g) Health and safety requirements.

(3) The recommendations should provide maximum transparency of the state's educational funding system to assist
parents, citizens, and school personnel in Washington in understanding how their school system is funded.

(4) Funding structures should be linked to accountability for student outcomes and performance.

(5) The joint select committee shall also consider:
   (a) The role of the K-12 education system in building a world-class, seamless P-20 education system for Washington;
   (b) Providing students with an opportunity to acquire mathematics and science skills to meet international standards;
   (c) Creating personalized learning opportunities for students; and
   (d) Emphasizing student outcomes.

(a) Establish and provide for the comprehensive regulation of large on-site sewage systems including, but not limited to, system siting, design, construction, installation, operation, maintenance, and repair; (b) Control and prevent pollution of streams, lakes, rivers, ponds, inland waters, salt waters, water courses, and other surface and underground waters of the state of Washington, except to the extent authorized by permits issued under this chapter; (c) Issue annual operating permits for large on-site sewage systems based on the system's ability to function properly in compliance with the applicable comprehensive regulatory requirements; and (d) Enforce the large on-site sewage system requirements.

NEW SECTION. Sec. 4. ANNUAL OPERATING PERMITS REQUIRED―APPLICATION. (1) A person may not install or operate a large on-site sewage system without an operating permit as provided in this chapter after July 1, 2009. The owner of the system is responsible for obtaining a permit. (2) The department shall issue operating permits in accordance with the rules adopted under section 5 of this act.
(3) The department shall ensure the system meets all applicable siting, design, construction, and installation requirements prior to issuing an initial operating permit. Prior to renewing an operating permit, the department may review the performance of the system to determine compliance with rules and any permit conditions.

(4) At the time of initial permit application or at the time of permit renewal the department shall impose those permit conditions, requirements for system improvements, and compliance schedules as it determines and that the system will be operated and maintained properly. Each application must be accompanied by a fee as established in rules adopted by the department.

(5) Operating permits shall be issued for a term of one year, and shall be renewed annually, unless the operator fails to apply for a new permit or the department finds good cause to deny the application for renewal.

(6) Each permit may be issued only for the site and owner named in the application. Permits are not transferable or assignable except with the written approval of the department.

(7) The department may deny an application for a permit or modify, suspend, or revoke a permit in any case in which it finds that the permit was obtained by fraud or there is or has been a failure, refusal, or inability to comply with the requirements of this chapter or the standards or rules adopted under this chapter. RCW 43.70.115 governs notice of denial, revocation, suspension, or modification and provides the right to an adjudicative proceeding to the permit applicant or permittee.

(8) For systems with design flows of more than fourteen thousand five hundred gallons per day, the department shall adopt rules to ensure adequate public notice and opportunity for review and comment on initial large on-site sewage system permit applications and subsequent permit applications to increase the volume of waste disposal or change effluent characteristics. The rules must include provisions for notice of final decisions. Methods for providing notice may include electronic mail, posting on the department's internet site, publication in a local newspaper, press releases, mailings, or other means of notification the department determines appropriate.

(9) A person aggrieved by the issuance of an initial permit, or by the issuance of a subsequent permit to increase the volume of waste disposal or to change effluent characteristics, for systems with design flows of more than fourteen thousand five hundred gallons per day, has the right to an adjudicative proceeding. The application for an adjudicative proceeding must be in writing, state the basis for contesting the action, include a copy of the decision, be served on and received by the department within twenty-eight days of receipt of notice of the final decision, and be served in a manner that shows proof of receipt. An adjudicative proceeding conducted under this subsection is governed by chapter 34.05 RCW.

(10) Any permit issued by the department of ecology for a large on-site sewage system under chapter 90.48 RCW is valid until it first expires after the effective date of this section. The system owner shall apply for an operating permit at least one hundred twenty days prior to expiration of the department of ecology permit.

(11) Systems required to meet operator certification requirements under chapter 70.95B RCW must continue to meet those requirements as a condition of the department operating permit.

NEW SECTION. Sec. 5. RULE MAKING. (1) For the protection of human health and the environment, the secretary shall adopt rules for the comprehensive regulation of large on-site sewage systems, which includes, but is not limited to, the siting, design, construction, installation, maintenance, repair, and permitting of the systems.

(2) In adopting the rules, the secretary shall, in consultation with the department of ecology, require that large on-site sewage systems comply with all applicable sections of chapter 90.48 RCW regarding control and prevention of pollution of waters of the state, including but not limited to:

(a) Surface and ground water standards established under RCW 90.48.035; and

(b) Those provisions requiring all known, available, and reasonable methods of treatment.

(3) In adopting the rules, the secretary shall ensure that requirements for large on-site sewage systems are consistent with the requirements of any comprehensive plans or development regulations adopted under chapter 36.70A RCW or any other applicable comprehensive plan, land use plan, or development regulation adopted by a city, town, or county.

NEW SECTION. Sec. 6. CIVIL PENALTIES. (1) A person who violates a law or rule regulating on-site sewage systems administered by the department is subject to a penalty of not more than ten thousand dollars per day for every violation. Every violation is a separate and distinct offense. In case of a continuing violation, each day's continuing violation is a separate and distinct violation. The penalty assessed must reflect the significance of the violation and the previous record of compliance on the part of the person responsible for compliance with on-site sewage system requirements.

(2) Every person who, through an act of commission or omission, procures, aids, or abets a violation is considered to have violated the provisions of this section and is subject to the penalty provided in this section.

(3) The penalty provided for in this section must be imposed by a notice in writing to the person against whom the civil penalty is assessed and must describe the violation. The notice must be personally served in the manner of service of a summons in a civil action or in a manner that shows proof of receipt. A penalty imposed by this section is due twenty-eight days after receipt of notice unless application for an adjudicative proceeding is filed as provided in subsection (4) of this section.

(4) Within twenty-eight days after notice is received, the person incurring the penalty may file an application for an adjudicative proceeding and may pursue subsequent review as provided in chapter 34.05 RCW and applicable rules.

(5) A penalty imposed by a final administrative order is due upon service of the final administrative order. A person who fails to pay a penalty assessed by a final administrative order within thirty days of service of the final administrative order shall pay, in addition to the amount of the penalty, interest at the rate of one percent of the unpaid balance of the assessed penalty for each month or part of a month that the penalty remains unpaid, commencing with the month in which the notice of penalty was served, and reasonable attorneys' fees as are incurred if civil enforcement of the final administrative order is required to collect the penalty.

(6) A person who institutes proceedings for judicial review of a final administrative order assessing a civil penalty under this chapter shall place the full amount of the penalty in an interest-bearing account in the registry of the reviewing court. At the conclusion of the proceeding the court shall, as appropriate, enter a judgment on behalf of the department and order that the judgment be satisfied to the extent possible from moneys paid into the registry of the court or shall enter a judgment in favor of the person appealing the penalty assessment and order return of the moneys paid into the registry of the court together with accrued interest to the person appealing. The judgment may award reasonable attorneys' fees for the cost of the attorney general's office in representing the department.

(7) If no appeal is taken from a final administrative order assessing a civil penalty under this chapter, the department may file a certified copy of the final administrative order with the clerk of the superior court in which the on-site sewage system is located or in Thurston county, and the clerk shall enter judgment in the name of the department and in the amount of the penalty assessed in the final administrative order.

(8) A judgment entered under subsection (6) or (7) of this section has the same force and effect as, and is subject to all of the provisions of law relating to, a judgment in a civil action, and may be enforced in the same manner as any other judgment of the court in which it is entered.

(9) The large on-site sewage systems account is created in the custody of the state treasurer. All receipts from penalties imposed under this section shall be deposited into the account. Expenditures from the account shall be used by the department to provide training and technical assistance to on-site sewage system owners and operators. Only the secretary or the secretary's designee may
authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

NEW SECTION, Sec. 7. INJUNCTIONS. Notwithstanding the existence or use of any other remedy, the department may bring an action to enjoin a violation or threatened violation of this chapter or rules adopted under this chapter. The department may bring the action in the superior court of the county in which the large on-site sewage system is located or in the superior court of Thurston county.

NEW SECTION, Sec. 8. The authority and duties created in this chapter are in addition to any authority and duties already provided in law. Nothing in this chapter limits the powers of the state or any political subdivision to exercise such authority.

Sec. 12. RCW 90.48.162 and 1972 ex.s. c 140 s 1 are each amended to read as follows:

Any county or any municipal or public corporation operating or proposing to operate a sewerage system, including any system which collects only domestic sewerage, which results in the disposal of waste material into the waters of the state shall procure a permit from the department of ecology before so disposing of such materials. This section is intended to extend the permit system of RCW 90.48.160 to counties and municipal or public corporations and the provisions of RCW 90.48.170 through ((90.48.210)) 90.48.200 and 90.52.040 shall be applicable to the permit requirement imposed under this section. A permit under this chapter is not required for large on-site sewage systems permitted by the department of health under chapter 70.-- RCW (sections 1 through 8 of this act) or for on-site sewage systems permitted by local health jurisdictions under rules of the state board of health.

Sec. 13. RCW 90.48.110 and 2002 c 161 s 5 are each amended to read as follows:

(1) Except under subsection (2) of this section, all engineering reports, plans, and specifications for the construction of new sewerage systems, sewage treatment or disposal plants or systems, or for improvements or extensions to existing sewerage systems or sewage treatment or disposal plants, and the proposed method of future operation and maintenance of said facility or facilities, shall be submitted to and be approved by the department, before construction thereof may begin. No approval shall be given until the department is satisfied that said plans and specifications and the methods of operation and maintenance submitted are adequate to protect the quality of the state's waters as provided for in this chapter. Approval under this chapter is not required for large on-site sewage systems permitted by the department of health under chapter 70.-- RCW (sections 1 through 8 of this act) or for on-site sewage systems regulated by local health jurisdictions under rules of the state board of health.

(2) To promote efficiency in service delivery and interstate governmental cooperation in protecting the quality of the state's waters, the department may delegate the authority for review and approval of engineering reports, plans, and specifications for the construction of new sewerage systems, sewage treatment or disposal plants or systems, or for improvements or extensions to existing sewerage system or sewage treatment or disposal plants, and the proposed method of future operations and maintenance of said facility or facilities and industrial pretreatment systems, to local units of government requesting such delegation and meeting criteria established by the department.

NEW SECTION. Sec. 1. (1) The health care authority and the department of social and health services shall, by September 1, 2007, develop a five-year plan to change reimbursement within their health care programs to:
(a) Reward quality health outcomes rather than simply paying for the receipt of particular services or procedures;
(b) Pay for care that reflects patient preference and is of proven value;
(c) Require the use of evidence-based standards of care where available;
(d) Tie provider rate increases to measurable improvements in access to quality care;
(e) Direct enrollees to quality care systems;
(f) Better support primary care and provide a medical home to all enrollees through reimbursement policies that create incentives for providers to enter and remain in primary care practice and that address disparities in payment between specialty procedures and primary care services; and
(g) Pay for e-mail consultations, telemedicine, and telehealth where doing so reduces the overall cost of care.
(2) In developing any component of the plan that links payment to health care provider performance, the authority and the department shall work in collaboration with the department of health, health carriers, local public health jurisdictions, physicians and other health care providers, the Puget Sound health alliance, and other purchasers.
(3) The plan shall (a) identify any existing barriers and opportunities to support implementation, including needed changes to state or federal law; (b) identify the goals the plan is intended to achieve and how progress toward those goals will be measured; and
NEW SECTION. Sec. 2. A new section is added to chapter 41.05 RCW to read as follows:

(1) The legislature finds that there is growing evidence that, for preference-sensitive care involving elective surgery, patient-practitioner communication is improved through the use of high-quality decision aids that detail the benefits, harms, and uncertainty of available treatment options. Improved communication leads to more fully informed patient decisions. The legislature intends to increase the extent to which patients make genuinely informed, preference-based treatment decisions, by promoting public/private collaborative efforts to broaden the development, certification, use, and evaluation of effective decision aids and by recognition of shared decision making and patient decision aids in the state's laws on informed consent.

(2) The health care authority shall:
   (a) Work in collaboration with the health professions, contracting health carriers, nonproprietary public interest or university-based research groups, and quality improvement organizations to increase awareness of appropriate, high-quality decision aids, and to train physicians and other practitioners in their use.
   (b) In consultation with the national committee for quality assurance, identify a certification process for patient decision aids.
   (c) Implement a shared decision-making demonstration project. The demonstration project shall be conducted at one or more multispecialty group practice sites providing state purchased health care in the state of Washington, and may include other practice sites providing state purchased health care. The demonstration project shall include the following elements:
      (i) Incorporation into clinical practice of one or more decision aids for one or more identified preference-sensitive care areas combined with ongoing training and support of involved practitioners and practice teams, preferably at sites with necessary supportive health information technology; and
      (ii) An evaluation of the impact of the use of shared decision making with decision aids, including the use of preference-sensitive health care services selected for the demonstration project and expenditures for those services, the impact on patients, including patient understanding of the treatment options presented and concordance between patient values and the care received, and patient and practitioner satisfaction with the shared decision-making process.
   (3) The health care authority may solicit and accept funding to support the demonstration and evaluation.

Sec. 3. RCW 7.70.060 and 1975-'76 2nd ex.s. c 56 s 11 are each amended to read as follows:

(a) A description, in language the patient could reasonably be expected to understand, of:
   (i) The nature and character of the proposed treatment;
   (ii) The anticipated results of the proposed treatment;
   (iii) The recognized possible alternative forms of treatment; and
   (b) Or as an alternative, a statement that the patient elects not to be informed of the elements set forth in (a) of this subsection ((1) of this section).

(b) If a patient while legally competent, or his or her representative if he or she is not competent, signs an acknowledgement of shared decision making as described in this section, such acknowledgement shall constitute prima facie evidence that the patient gave his or her informed consent to the treatment administered and the patient has the burden of rebutting this by clear and convincing evidence. An acknowledgement of shared decision making shall include:
   (1) A statement that the patient, or his or her representative, and the health care provider have engaged in shared decision making as an alternative means of meeting the informed consent requirements set forth by laws, accreditation standards, and other mandates;
   (2) A brief description of the services that the patient and provider jointly have agreed will be furnished;
   (3) A brief description of the patient decision aid or aids that have been used by the patient and provider to address the needs for (i) high-quality, up-to-date information about the condition, including risk and benefits of available options and, if appropriate, a discussion of the limits of scientific knowledge about outcomes; (ii) values clarification to help patients sort out their values and preferences; and (iii) guidance or coaching in deliberation, designed to improve the patient's involvement in the decision process;
   (4) A statement that the patient or his or her representative understands: The risk or seriousness of the disease or condition to be prevented or treated; the available treatment alternatives, including non-treatment; and the risks, benefits, and uncertainties of the treatment alternatives, including non-treatment; and
   (5) A statement certifying that the patient or his or her representative has had the opportunity to ask the provider questions, and to have any questions answered to the patient's satisfaction, and indicating the patient's intent to receive the identified services.

(3) As used in this section, "shared decision making" means a process in which the physician or other health care practitioner discusses with the patient or his or her representative the information specified in subsection (2) of this section with the use of a patient decision aid and the patient shares with the provider such relevant personal information as might make one treatment or side effect more or less tolerable than others.

(4) As used in this section, "patient decision aid" means a written, audio-visual, or online tool that provides a balanced presentation of the condition and treatment options, benefits, and harms, including, if appropriate, a discussion of the limits of scientific knowledge about outcomes, and that is certified by one or more national certifying organizations approved by the health care authority under section 2 of this act.

(3) Failure to use a form or to engage in shared decision making with or without the use of patient decision aid, shall not be admissible as evidence of failure to obtain informed consent. There shall be no liability, civil or otherwise, resulting from a health care provider choosing either the signed consent form set forth in subsection (1)(a) of this section or the signed acknowledgement of shared decision making as set forth in subsection (2) of this section.
management model using predictive modeling through claims or other health risk information; and

(2) Evaluate the effectiveness of current chronic care management efforts in the health and recovery services administration and the aging and disability services administration, comparison to best practices, and recommendations for future efforts and organizational structure to improve chronic care management.

For purposes of this section:

(a) "Medical home" means a site of care that provides comprehensive preventive and coordinated care centered on the patient needs and assures high quality, accessible, and efficient care.

(b) "Chronic care management" means the department's program that provides care management and coordination activities for medical assistance clients determined to be at risk for high medical costs. "Chronic care management" provides education and training and/or coordination that assist program participants in improving self-management skills to improve health outcomes and reduce medical costs by educating clients to better utilize services.

NEW SECTION. Sec. 5. A new section is added to chapter 43.70 RCW to read as follows:

(1) The department shall conduct a program of training and technical assistance regarding care of people with chronic conditions for providers of primary care. The program shall emphasize evidence-based high quality preventive and chronic disease care. The department may designate one or more chronic conditions to be the subject of the program.

(2) The training and technical assistance program shall include the following elements:

(a) Clinical information systems and sharing and organization of patient data;
(b) Decision support to promote evidence-based care;

(b) "Chronic care management" means the authority's program that provides care management and coordination activities for health plan enrollees determined to be at risk for high medical costs. "Chronic care management" provides education and training and/or coordination that assist program participants in improving self-management skills to improve health outcomes and reduce medical costs by educating clients to better utilize services.

The report shall be completed in collaboration with health care providers, carriers, state health purchasing agencies, the Washington healthcare forum, and other interested parties.

Any employee choosing under subsection (1) of this section to cover a dependent with disabilities, developmental disabilities, mental illness, or mental retardation, who is incapable of self-support, may continue covering that dependent under the same premium and payment structure as for dependents under the age of twenty, irrespective of age.

NEW SECTION, Sec. 19. A new section is added to chapter 48.20 RCW to read as follows:

Any disability insurance contract that provides coverage for a subscriber's dependent must offer the option of covering any unmarried dependent under the age of twenty-five.

SUSTAINABILITY AND ACCESS TO PUBLIC PROGRAMS

NEW SECTION, Sec. 23. (1) The department of social and health services shall develop a series of options that require federal waivers and state plan amendments to expand coverage and leverage federal and state resources for the state's basic health program, for the medical assistance program, as codified at Title XIX of the federal social security act, and the state's children's health insurance program, as codified at Title XXI of the federal social security act.

The department shall propose options including but not limited to:

(a) Offering alternative benefit designs to promote high quality care, improve health outcomes, and encourage cost-effective treatment options and redirect savings to finance additional coverage;

(b) Creation of a health opportunity account demonstration program for individuals eligible for transitional medical benefits. When a participant in the health opportunity account demonstration program satisfies his or her deductible, the benefits provided shall be those included in the medicaid benefit package in effect during the period of the demonstration program; and

(c) Promoting private health insurance plans and premium subsidies to purchase employer-sponsored insurance wherever possible, including federal approval to expand the department's employer-sponsored insurance premium assistance program to enrollees covered through the state's children's health insurance program.

(2) Prior to submitting requests for federal waivers or state plan amendments, the department shall consult with and seek input from stakeholders and other interested parties.

(3) The department of social and health services, in collaboration with the Washington state health care authority, shall ensure that enrollees are not simultaneously enrolled in the state's basic health program and the medical assistance program or the state's children's health insurance program to ensure coverage for the maximum number of people within available funds. Priority enrollment in the basic health program shall be given to those who disenrolled from the program in order to enroll in medicaid, and subsequently became ineligible for medicaid coverage.

NEW SECTION, Sec. 24. A new section is added to chapter 48.45 RCW to read as follows:

When the department of social and health services determines that it is cost-effective to enroll a person eligible for medical assistance under chapter 74.09 RCW in an employer-sponsored health plan, a carrier shall permit the enrollment of the person in the health plan for which he or she is otherwise eligible without regard to any open enrollment period restrictions.

REINSURANCE

NEW SECTION, Sec. 25. (1) The office of financial management, in collaboration with the office of the insurance commissioner, shall evaluate options and design a state-supported reinsurance program to address the impact of high cost enrollees in the individual and small group health insurance markets, and submit implementing legislation and supporting information, including financing options, to the governor and the legislature by December 1, 2007. In designing the program, the office of financial management shall:

(a) Estimate the quantitative impact on premium savings, premium stability over time and across groups of enrollees, individual and employer take-up, number of uninsured, and government costs associated with a government-funded stop-loss insurance program, including distinguishing between one-time premium savings and savings in subsequent years. In evaluating the various reinsurance models, evaluate and consider (i) the reduction in total health care costs to the state and private sector, and (ii) the reduction in individual premiums paid by employers, employees, and individuals;

(b) Identify all relevant design issues and alternative options for each issue. At a minimum, the evaluation shall examine (i) a reinsurance corridor of ten thousand dollars to ninety thousand dollars, and a reimbursement of ninety percent; (ii) the impacts of providing reinsurance for all small group products or a subset of products; and (iii) the applicability of a chronic care program such as the approach used by the department of labor and industries with the centers of occupational health and education. Where quantitative impacts cannot be estimated, the office of financial management shall assess qualitative impacts of design issues and their options, including potential disincentives for reducing premiums, achieving
Sec. 26. RCW 48.41.110 and 2001 c 196 s 4 are each amended to read as follows:

(1) The pool shall offer one or more care management plans of coverage. Such plans may, but are not required to, include point of service features that permit participants to receive in-network benefits or out-of-network benefits subject to differential cost shares. ([Covered persons enrolled in the pool on January 1, 2001, may continue coverage under the pool plan in which they are enrolled on that date. However]) The pool may incorporate managed care features and encourage enrollees to participate in chronic care and disease management and evidence-based protocols into ((such)) existing plans.

(2) The administrator shall prepare a brochure outlining the benefits and exclusions of ((the)) pool ((policy)) policies in plain language. After approval by the board, such brochure shall be made readily available to participants or potential participants.

(3) The health insurance ((policy)) policies issued by the pool shall pay only reasonable amounts for medically necessary eligible health care services rendered or furnished for the diagnosis or treatment of covered illnesses, injuries, and conditions ((which are not otherwise limited or excluded)). Eligible expenses are the reasonable amounts for the health care services and items for which benefits are extended under ((the)) a pool policy. ((Such benefits shall at minimum include, but not be limited to, the following services or related items:))

(4) The pool shall offer at least one policy which at a minimum includes, but is not limited to, the following services or related items:

(a) Hospital services, including charges for the most common semiprivate room, for the most common private room if semiprivate rooms do not exist in the health care facility, or for the private room if medically necessary, but limited to a total of one hundred eighty inpatient days in a calendar year, and limited to thirty days inpatient care for mental and nervous conditions, or alcohol, drug, or chemical dependency or abuse rendered during a calendar year by one or more physicians, psychologists, or community mental health professionals, or, at the direction of a physician, by other qualified health care practitioners, in the case of mental or nervous conditions, and rendered by a state certified chemical dependency program approved under chapter 70.96A RCW, in the case of alcohol, drug, or chemical dependency or abuse;

(j) Diagnostic x-rays and laboratory tests;

(k) Oral surgery limited to the following: Fractures of facial bones; excisions of mandibular joints, lesions of the mouth, lip, or tongue, tumors, or cysts excluding treatment for temporomandibular joints; incision of accessory sinuses, mouth salivary glands or ducts; dislocations of the jaw; plastic reconstruction or repair of traumatic injuries occurring while covered under the pool; and excision of impacted wisdom teeth;

(l) Maternity care services;

(m) Services of a physical therapist and services of a speech therapist;

(n) Hospice services;

(o) Professional ambulance service to the nearest health care facility qualified to treat the illness or injury; and

(p) Other medical equipment, services, or supplies required by physician's orders and medically necessary and consistent with the diagnosis, treatment, and condition. ((The pool benefit policy cost shares and limitations must be consistent with those that are generally included in health plans approved by the insurance commissioner; however)) No limitation, exception, or reduction may be used that would exclude coverage for any disease, illness, or injury.

(5) The pool may not reject an individual for health plan coverage based upon preexisting conditions of the individual or deny, exclude, or otherwise limit coverage for an individual's preexisting health conditions; except that it shall impose a six-month benefit waiting period for preexisting conditions for which medical advice was given, for which a health care provider recommended or provided treatment, or for which a prudent layperson would have sought advice or treatment, within six months before the effective date of coverage. The preexisting condition waiting period shall not apply to prenatal care services. The pool may not avoid the requirements of this section through the creation of a new rate classification or the modification of an existing rate classification.

Credit against the waiting period shall be as provided in subsection (((f))))(9) of this section.

(6) The board shall design and employ cost containment measures and requirements such as, but not limited to, care coordination, provider network limitations, preadmission certification, and concurrent inpatient review which may make the pool more cost-effective.
previously enrolled in an individual health benefit plan other than a catastrophic health plan, the pool must credit the period of coverage the person was continuously covered under the immediately preceding health plan toward the waiting period of the new health plan. For the purposes of this subsection, a preceding health plan includes an employer-provided self-funded health plan.

(2) The pool shall waive any preexisting condition waiting period for a person who is an eligible individual as defined in section 2741(b) of the federal health insurance portability and accountability act of 1996 (42 U.S.C. 300gg-41(b)).

(3) If an application is made for the pool policy as a result of rejection by a carrier, then the date of application to the carrier, rather than to the pool, should govern for purposes of determining preexisting condition credit.

(4)(a) The guarantee of continuity of coverage provided by this chapter shall contain provisions under which the pool is obligated to renew the policy until the day on which the individual in whose name the policy is issued first becomes eligible for medicare coverage. At that time, coverage of the policy shall terminate, if the individual elects, within a period specified in the policy, to continue coverage pursuant to RCW 48.41.110.

From: EIGHTY FIRST DAY, MARCH 29, 2007

RCW 48.41.160 and 1987 c 431 s 16 are each amended to read as follows:

(1) (A) A pool policy offered under this chapter shall contain provisions under which the pool is obligated to renew the policy until the day on which the individual in whose name the policy is issued first becomes eligible for medicare coverage. At that time, coverage of the policy shall terminate, if the individual elects, within a period specified in the policy, to continue coverage pursuant to RCW 48.41.110.

On or before December 31, 2007, the pool shall cancel all existing pool policies and replace them with policies that are identical to the existing policies except for the inclusion of a provision providing for a guarantee of the continuity of coverage consistent with this section.

(2) A pool policy shall contain a guarantee of the individual’s right to continued coverage, subject to the provisions of subsections (4) and (5) of this section.

(3) The guarantee of continuity of coverage required by this section shall not prevent the pool from canceling or nonrenewing a policy for:

(a) Nonpayment of premium;

(b) Violation of published policies of the pool;

(c) Failure of a covered person who becomes eligible for medicare benefits by reason of age to apply for a pool medical supplement plan, or a medicare supplement plan or other similar plan offered pursuant to federal laws and regulations;

(d) Failure of a covered person to pay any deductible or copayment amount owed to the pool and not the provider of health care services;

(e) Covered persons committing fraudulent acts as to the pool;

(f) Covered persons materially breaching the pool policy; or

(g) Changes adopted to federal or state laws when such changes no longer permit the continued offering of such coverage.

(4)(a) The guarantee of continuity of coverage provided by this section requires that if the pool replaces a plan, it must make the replacement plan available to all individuals in the plan being replaced. The replacement plan must include all of the services covered under the replaced plan, through unreasonable cost-sharing requirements or otherwise. The pool may also allow individuals who are covered by a plan that is being replaced an unrestricted right to transfer to a fully comparable plan.

(b) The guarantee of continuity of coverage provided by this section requires that if the pool discontinues offering a plan:

(i) The pool must provide notice to each individual of the discontinuation at least ninety days prior to the date of the discontinuation;

(ii) The pool must offer to each individual provided coverage under the discontinued plan the option to enroll in any other plan currently offered by the pool for which the individual is otherwise eligible; and

(iii) in exercising the option to discontinue a plan and in offering the option of coverage under (b)(ii) of this subsection, the pool must act uniformly without regard to any health status-related factor of enrolled individuals or individuals who may become eligible for this coverage.

(c) The pool cannot replace a plan under this subsection until it has completed an evaluation of the impact of replacing the plan upon:

(i) The cost and quality of care to pool enrollees;

(ii) Pool financing and enrollment;

(iii) The board’s ability to offer comprehensive and other plans to its enrollees;

(iv) Other items identified by the board.

(d) In its evaluation, the board must request input from the constituents represented by the board members.

(e) The guarantee of continuity of coverage provided by this section does not apply if the pool has zero enrollment in a plan.

(f) The pool may not change the rates for pool policies except on a class basis, with a clear disclosure in the policy of the pool’s right to do so.

Sec. 27. RCW 48.41.200 and 2000 c 79 s 17 are each amended to read as follows:

(1) The pool shall determine the standard risk rate by calculating the average individual standard rate charged for coverage comparable to pool coverage by the five largest members, measured in terms of individual market enrollment, offering such coverages in the state. In the event five members do not offer comparable coverage, the standard risk rate shall be established using reasonable actuarial techniques and shall reflect anticipated experience and expenses for such coverage in the individual market.

(2) Subject to subsection (3) of this section, maximum rates for pool coverage shall be as follows:

(a) Maximum rates for a pool indemnity health plan shall be one hundred fifty percent of the rate calculated under subsection (1) of this section;

(b) Maximum rates for a pool care management plan shall be one hundred twenty-five percent of the rate calculated under subsection (1) of this section; and

(c) Maximum rates for a person eligible for pool coverage pursuant to RCW 48.41.100(1)(a) who was enrolled at any time during the sixty-three day period immediately prior to the date of application for pool coverage in a group health benefit plan or an individual health benefit plan other than a catastrophic health plan as defined in RCW 48.43.005, where such coverage was continuous for at least eighteen months, shall be:

(i) For a pool indemnity health plan, one hundred twenty-five percent of the rate calculated under subsection (1) of this section; and

(ii) For a pool care management plan, one hundred ten percent of the rate calculated under subsection (1) of this section.

Sec. 28. RCW 48.41.037 and 2000 c 79 s 36 are each amended to read as follows:

(3)(a) Subject to (b) and (c) of this subsection:

(i) The rate for any person ((aged fifty to sixty-four)) whose current gross family income is less than two hundred fifty-one percent of the federal poverty level shall be reduced by thirty percent from what it would otherwise be;

(ii) The rate for any person ((aged fifty to sixty-four)) whose current gross family income is more than two hundred fifty but less than three hundred one percent of the federal poverty level shall be reduced by fifteen percent from what it would otherwise be;

(iii) The rate for any person who has been enrolled in the pool for more than thirty-six months shall be reduced by five percent from what it would otherwise be.

(b) In no event shall the rate for any person be less than one hundred ten percent of the rate calculated under subsection (1) of this section.

(c) Rate reductions under (a)(i) and (ii) of this subsection shall be available only to the extent that funds are specifically appropriated for this purpose in the omnibus appropriations act.
The Washington state health insurance pool account is created in the custody of the state treasurer. All receipts from moneys specifically appropriated to the account must be deposited in the account. Expenditures from this account shall be used to cover deficits incurred by the Washington state health insurance pool under this chapter in excess of the threshold established in this section. To the extent funds are available in the account, funds shall be expended from the account to offset that portion of the deficit that would otherwise be recovered by imposing an assessment on members in excess of a threshold of seventy cents per insured person per month. The commissioner shall authorize expenditures from the account, to the extent that funds are available in the account, upon certification by the pool board that assessments will exceed the threshold level established in this section. The account is subject to the allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

Whether the assessment has reached the threshold of seventy cents per insured person per month shall be determined by dividing the total aggregate amount of assessment by the proportion of total assessed members. Thus, stop loss members shall be counted as one-tenth of a whole member in the denominator given that is the amount they are assessed proportionately relative to a fully insured medical member.

Sec. 30. RCW 48.41.100 and 2001 c 196 s 3 are each amended to read as follows:

(1) The following persons who are residents of this state are eligible for pool coverage:

(a) Any person who provides evidence of a carrier's decision not to accept him or her for enrollment in an individual health benefit plan as defined in RCW 48.43.005 based upon, and within ninety days of the receipt of, the results of the standard health questionnaire designated by the board and administered by health carriers under RCW 48.43.018;  
(b) Any person who continues to be eligible for pool coverage based upon the results of the standard health questionnaire designated by the board and administered by the pool administrator pursuant to subsection (3) of this section; 
(c) Any person who resides in a county of the state where no carrier or insurer eligible under chapter 48.15 RCW offers to the public an individual health benefit plan other than a catastrophic health plan as defined in RCW 48.43.005 at the time of application to the pool, and who makes direct application to the pool; and 
(d) Any medicare eligible person upon providing evidence of rejection for medical reasons, a requirement of restrictive riders, an up-rated premium, or a preexisting conditions limitation on a medicare supplemental insurance policy under chapter 48.66 RCW, the effect of which is to substantially reduce coverage from that received by a person considered a standard risk by at least one member within six months of the date of application.

(2) The following persons are not eligible for coverage by the pool:

(a) Any person having terminated coverage in the pool unless (i) twelve months have lapsed since termination, or (ii) that person can show continuous other coverage which has been involuntarily terminated for any reason other than nonpayment of premiums. However, these exclusions do not apply to eligible individuals as defined in section 2741(b) of the federal health insurance portability and accountability act of 1996 (42 U.S.C. Sec. 300gg-41(b));

(b) Any person on whose behalf the pool has paid out ((one)) two million dollars in benefits;

The schedule of services shall also include the following separate schedule of basic health care services for children, eighteen years of age and younger, for those subsidized or nonsubsidized enrollees who choose to secure basic coverage through the plan only for their dependent children:

(2) (a) To design and implement a structure of periodic premiums due the administrator from subsidized enrollees that is based upon gross family income, giving appropriate consideration to family size and the ages of all family members. The enrollment of children shall not require the enrollment of their parent or parents who are eligible for the plan. The administrator shall establish a mechanism for receiving premium payments from the United States internal revenue service for health coverage tax credit eligible enrollees.

The administrator may require all or the substantial majority of the eligible employees of such businesses to enroll in the plan and establish those procedures necessary to facilitate the orderly enrollment of groups in the plan and into a managed health care system. The administrator may require that a business owner pay at least an amount equal to what the employee pays after the state pays its portion of the subsidized premium cost of the plan on behalf of each employee enrolled in the plan. Enrollment is limited to those not eligible for Medicare who wish to enroll in the plan and choose to obtain the basic health care services and services from a managed care system participating in the plan. The administrator shall adjust the amount determined to be due on behalf of or from all such enrollees whenever the amount negotiated by the administrator with the participating managed health care system is modified or the administrative cost of providing the plan to such enrollees changes.

A health carrier or the health care authority as administrator of basic health plan nonsubsidized coverage shall accept an application without a standard health questionnaire from a person currently covered by such continuation coverage if application is made within ninety days prior to the date the continuation coverage would be exhausted and the effective date of the individual coverage applied for is the date the continuation coverage would be exhausted, or within ninety days thereafter.

(d) If a person is seeking an individual health benefit plan or enrollment in the basic health plan as a nonsubsidized enrollee due to his or her receiving notice that his or her coverage under a conversion contract is discontinued, completion of the standard health questionnaire shall not be a condition of coverage if application for coverage is made within ninety days of discontinuation of eligibility under the conversion contract. A health carrier or the health care authority as administrator of basic health plan nonsubsidized coverage shall accept an application without a standard health questionnaire from a person currently covered by such conversion contract if application is made within ninety days prior to the date eligibility under the conversion contract would be discontinued and the effective date of the individual coverage applied for is the date eligibility under the conversion contract would be discontinued, or within ninety days thereafter.

(a) If a person is seeking an individual health benefit plan or enrollment in the basic health plan as a nonsubsidized enrollee due to his or her change of residence from one geographic area in Washington state to another geographic area in Washington state, the health carrier may require any person applying for an individual health benefit plan as a nonsubsidized enrollee to complete the standard health questionnaire if application for coverage is made within ninety days of relocation.

(2) If, based upon the results of the standard health questionnaire, the person qualifies for coverage under the Washington state health insurance pool, the following apply:

(a) The carrier may decide not to accept the person's application for enrollment in its individual health benefit plan and the health care authority, as administrator of basic health plan nonsubsidized coverage, shall not accept the person's application for enrollment as a nonsubsidized enrollee; and

(b) Within fifteen business days of receipt of a completed application, the carrier or the health care authority as administrator of basic health plan nonsubsidized coverage shall provide written notice of the decision not to accept the person's application for enrollment to both the person and the administrator of the Washington state health insurance pool. The notice to the person shall state that the person is eligible for health insurance provided by the Washington state health insurance pool, and shall include information about the Washington state health insurance pool and an application for such coverage. or (b) of this section, the carrier or the health care authority as administrator of basic health plan nonsubsidized coverage, whichever entity administered the standard health questionnaire, shall accept the person for enrollment if he or she resides within the carrier's or the basic health plan's service area and provide or assure the provision of all covered services regardless of age, sex, family structure, ethnicity, race, health condition, geographic location, employment status, socioeconomic status, other condition or situation, or the provisions of law. The commissioner may grant a temporary exemption from this subsection if, upon application by a health carrier, the commissioner finds that the clinical, financial, or administrative capacity to serve existing enrollees will be impaired if a health carrier is required to continue enrollment of additional eligible individuals.

**PRESCRIPTION MONITORING PROGRAM**

**NEW SECTION. Sec. 43.** The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

1. "Controlled substance" has the meaning provided in RCW 69.50.101.
2. "Authority" means the Washington state health care authority.
3. "Patient" means the person or animal who is the ultimate user of a drug for whom a prescription is issued or for whom a drug is dispensed.
4. "Dispenser" means a practitioner or pharmacy that delivers a Schedule II, III, IV, or V controlled substance to the ultimate user, but does not include:
   (a) A practitioner or other authorized person who administers, as defined in RCW 69.41.010, a controlled substance; or
   (b) A licensed wholesale distributor or manufacturer, as defined in chapter 18.64 RCW, of a controlled substance.

**NEW SECTION. Sec. 44.** (1) To the extent that funding is available through federal or private grants, or is appropriated by the legislature, the authority shall establish and maintain a web-based interactive prescription monitoring program to monitor the prescribing and dispensing of all Schedules II, III, IV, and V controlled substances and any additional drugs identified by the board of pharmacy as demonstrating a potential for abuse by all professionals licensed to prescribe or dispense such substances in this state. The program shall be designed to improve health care quality and effectiveness by reducing abuse of controlled substances, reducing duplicative prescribing and over-prescribing of controlled substances, and improving controlled substance prescribing practices. As much as possible, the authority should establish a common database with other states.

   (2) Except as provided in subsection (5) of this section, each dispenser shall submit to the authority by electronic means information regarding each prescription dispensed for a drug included under subsection (1) of this section. Drug prescriptions for more than immediate one day use should be immediately reported. The information submitted for each prescription shall include, but not be limited to:

   (a) Patient identifier;
   (b) Drug dispensed;
   (c) Date of dispensing;
   (d) Quantity dispensed;
   (e) Prescriber; and
   (f) Dispenser.

   (3) Each dispenser shall immediately submit the information in accordance with transmission methods established by the authority.

   (4) The authority may issue a waiver to a dispenser that is unable to submit prescription information by electronic means; however, all dispensers shall be required to submit prescription information by electronic means within one year from the effective date of this section. The waiver may permit the dispenser to submit prescription information by paper form or other means, provided all information required in subsection (2) of this section is submitted in this alternative format.

   (5) The data submission requirements of this section do not apply to:

   (a) Medications provided to patients receiving inpatient services provided at hospitals licensed under chapter 70.41 RCW; or patients of such hospitals receiving services at the clinics, day surgery areas, or other settings within the hospital's license where the medications are administered in single doses; or
   (b) Medications provided by the department of corrections for the purpose of providing medications to offenders in prison or in a work release program that is receiving pharmaceutical services from a department of corrections pharmacy.

   (6) The authority shall seek federal grants to support the activities described in this act. As state and federal funds are available, the authority shall develop and implement the prescription monitoring program. The authority may not require a practitioner or a pharmacist to pay a fee or tax specifically dedicated to the operation of the system.

   (7) To the extent that funding is available through federal or private grants, or is appropriated by the legislature, the authority shall submit an implementation plan to the legislature within six months of receipt of funding under this subsection that builds upon the web-based interactive prescription monitoring program established in this chapter. The plan shall expand the information included in the prescription drug monitoring program to include information related to all legend drugs, as defined in RCW 69.41.010(12), dispensed or paid for through fee-for-service or managed care contracting, on behalf of persons receiving health care services through state-purchased health care programs administered by the authority, the department of social and health services, the department of labor and industries, and the department of corrections. The implementation plan shall be designed to improve the quality of state-purchased health services by reducing legend drug abuse, reducing duplicative prescribing and over-prescribing of legend drugs, and improving legend drug prescribing practices. The implementation plan shall include mechanisms that will allow persons authorized to prescribe or dispense controlled substances to query the web-based interactive prescription monitoring program and obtain timely information regarding legend drug utilization history of persons for whom they are providing medical or pharmaceutical care when such persons are receiving health services through the programs included in this subsection.

**NEW SECTION. Sec. 45.** (1) Prescription information submitted to the authority shall be confidential, in compliance with chapter 70.02 RCW and federal health care information privacy requirements and not subject to disclosure, except as provided in subsections (3), (4), and (5) of this section.

   (2) The authority shall maintain procedures to ensure that the privacy and confidentiality of patients and patient information collected, recorded, transmitted, and maintained is not disclosed to persons except as in subsections (3), (4), and (5) of this section.

   (3) The authority shall review the prescription information. The authority shall notify the practitioner and allow explanation or correction of any problem. If there is reasonable cause to believe a violation of law or breach of professional standards may have occurred, the authority shall notify the appropriate law enforcement or professional licensing, certification, or regulatory agency or entity, and provide prescription information required for an investigation.

   (4) The authority may provide data in the prescription monitoring program to the following persons:

   (a) Persons authorized to prescribe or dispense controlled substances, for the purpose of providing medical or pharmaceutical care for their patients;
   (b) An individual who requests the individual's own prescription monitoring information;

   (g) Other entities under grand jury subpoena or court order; and
   (h) Personnel of the department of health for purposes of administration and enforcement of this chapter or chapter 69.50 RCW.

   (5) The authority may provide data to public or private entities for statistical, research, or educational purposes after removing information that could be used to identify individual patients, dispensers, prescribers, and persons who received prescriptions from dispensers.

   (6) A dispenser or practitioner acting in good faith is immune from any civil, criminal, or administrative liability that might otherwise be incurred or imposed for requesting, receiving, or using information from the program.
NEW SECTION. Sec. 46. The authority may contract with another agency of this state or with a private vendor, as necessary, to ensure the effective operation of the prescription monitoring program. Any contractor is bound to comply with the provisions regarding confidentiality of prescription information in section 45 of this act and is subject to the penalties specified in section 48 of this act for unlawful acts.

NEW SECTION. Sec. 47. The authority shall adopt rules to implement this chapter.

NEW SECTION. Sec. 48. (1) A dispenser who knowingly fails to submit prescription monitoring information to the authority as required by this chapter or knowingly submits incorrect prescription information is subject to disciplinary action under chapter 18.130 RCW.

(2) A person authorized to have prescription monitoring information under this chapter who knowingly discloses such information in violation of this chapter is subject to civil penalty.

(3) A person authorized to have prescription monitoring information under this chapter who uses such information in a manner or for a purpose in violation of this chapter is subject to civil penalty.

(4) In accordance with chapter 70.02 RCW and federal health care information privacy requirements, any physician or pharmacist authorized to access a patient's prescription monitoring may discuss or release that information to other health care providers involved with the patient in order to provide safe and appropriate care coordination.

NEW SECTION. Sec. 51. (1) The office shall serve as a coordinating body for public and private efforts to improve quality in health care, promote cost-effectiveness in health care, and plan health facility and health service availability. In addition, the office shall facilitate access to health care data collected by public and private organizations as needed to conduct its planning responsibilities.

(2) The office shall:

(a) Conduct strategic health planning activities related to the preparation of the strategy, as specified in this chapter;

(b) Develop a computerized system for accessing, analyzing, and disseminating data relevant to strategic health planning responsibilities. The office may contract with an organization to create the computerized system capable of meeting the needs of the office;

(c) Maintain access to deidentified data collected and stored by any public and private organizations as to support its planning responsibilities, including state-purchased health care program data, hospital discharge data, and private efforts to collect utilization and claims-related data. The office is authorized to enter into any data sharing agreements and contractual arrangements necessary to obtain data or to distribute data. Among the sources of deidentified data that the office may access are any databases established pursuant to the recommendations of the health information infrastructure advisory board established by chapter 261, Laws of 2005. The strategy shall establish statewide health planning policies and goals related to the availability of health care facilities and services, quality of care, and cost of care. The strategy shall identify needs according to geographic regions suitable for comprehensive health planning as designated by the office.

(2) The development of the strategy shall consider the following general goals and principles:

(a) That excess capacity of health services and facilities place considerable economic burden on the public who pay for the construction and operation of these facilities as patients, health insurance purchasers, carriers, and taxpayers; and

(b) That the development and ongoing maintenance of current and accurate health care information and statistics related to cost and quality of health care, as well as projections of need for health facilities and services, are essential to effective strategic health planning.

(3) The strategy, with public input by health service areas, shall include:

(a) A health system assessment and objectives component that:

(i) Describes state and regional population demographics, health status indicators, and trends in health status and health care needs; and

(ii) Identifies key policy objectives for the state health system related to access to care, health outcomes, quality, and cost-effectiveness;

(b) A health care facilities and services plan that shall assess the demand for health care facilities and services to inform state health planning efforts and direct certificate of need determinations, for those facilities and services subject to certificate of need as provided in chapter 70.38 RCW. The plan shall include:

(ii) Projections of need for each category of health care facility and service, including those subject to certificate of need;

(c) A provider assessment component that:

(i) Guides the addition of new or expanded health care facilities and services to promote the use of quality, evidence-based, cost-effective health care delivery options, including any recommendations for criteria, standards, and methods relevant to the certificate of need review process; and

(iv) An assessment of the availability of health care providers, public health resources, transportation infrastructure, and other considerations necessary to support the needed health care facilities and services in each region;

(c) A health care data resource plan that identifies data elements necessary to properly conduct planning activities and to review certificate of need applications, including data related to inpatient and outpatient utilization and outcomes information, and financial and utilization information related to charity care, quality, and cost.

The plan shall inventory existing data resources, both public and private, that store and disclose information relevant to the health planning process, including information necessary to conduct certificate of need activities pursuant to chapter 70.38 RCW. The plan shall identify any deficiencies in the inventory of existing data resources and the data necessary to conduct comprehensive health planning activities. The plan may recommend that the office be authorized to access existing data sources and conduct appropriate analyses of such data or that other agencies expand their data collection activities as statutory authority permits. The plan may identify any computing infrastructure deficiencies that impede the proper storage, transmission, and analysis of health planning data. The plan shall provide recommendations for increasing the availability of data related to health planning to provide greater community involvement in the health planning process and consistency in data used for certificate of need applications and determinations;

(d) An assessment of emerging trends in health care delivery and technology as they relate to access to health care facilities and services, quality of care, and costs of care. The assessment shall recommend any changes to the scope of health care facilities and services covered by the certificate of need program that may be warranted by these emerging trends. In addition, the assessment may recommend any changes to criteria used by the department to review certificate of need applications, as necessary;

(e) A rural health resource plan to assess the availability of health resources in rural areas of the state, assess the unmet needs of these communities, and evaluate how federal and state reimbursement policies can be modified, if necessary, to more efficiently and effectively meet the health care needs of rural communities. The plan shall consider the unique health care needs of rural communities, the adequacy of the rural health workforce, and transportation needs for accessing appropriate care.

(4) The office shall submit the initial strategy to the governor by January 1, 2010. Every two years the office shall submit an updated strategy. The health care facilities and services plan as it pertains to a distinct geographic planning region may be updated by individual categories on a rotating, biannual schedule.

(5) The office shall hold at least one public hearing and allow opportunity to submit written comments prior to the issuance of the initial strategy or an updated strategy. A public hearing shall be held prior to issuing a draft of an updated health care facilities and services plan, and another public hearing shall be held before final adoption of an updated health care facilities and services plan. Any hearing related to updating a health care facilities and services plan for a specific planning region shall be held in that region with sufficient notice to the public and an opportunity to comment.

NEW SECTION. Sec. 53. The office shall submit the strategy to the department of health to direct its activities related to the certificate of need review program under chapter 70.38 RCW. As the health care facilities and services plan is updated for any specific geographic planning region, the office shall submit that plan to the department of health to direct its activities related to the certificate of need review program under chapter 70.38 RCW. The office shall not issue determinations of the merits of specific project proposals submitted by applicants for certificates of need.

NEW SECTION. Sec. 54. (1) The office may respond to requests for data and other information from its computerized system for special studies and analysis consistent with requirements for confidentiality of patient, provider, and facility-specific records. The office may require requestors to pay any or all of the reasonable costs associated with such requests that might be approved.

(2) Data elements related to the identification of individual patient’s, provider’s, and facility’s care outcomes are confidential, are exempt from RCW 42.56.030 through 42.56.570 and 42.17.350 through 42.17.450, and are not subject to discovery by subpoena or admissible as evidence. 

Sec. 55. RCW 70.38.015 and 1989 1st ex.s. c 9 s 601 are each amended to read as follows:

(1) That strategic health planning ((to)) efforts must be supported by appropriately tailored regulatory activities that can effectuate the goals and principles of the statewide health resources strategy developed pursuant to chapter 43.35 RCW (sections 50 through 54 of this act). The implementation of the strategy can promote, maintain, and assure the health of all citizens in the state, ((to)) provide accessible health services, health manpower, health facilities, and other resources while controlling ((excessive)) increases in costs, and ((to)) recognize prevention as a high priority in health programs ((to)) is essential to the health, safety, and welfare of the people of the state. Health planning should be responsive to changing health and social needs and conditions). Involvement in
health planning from both consumers and providers throughout the
state should be encouraged;
(2) (That the development of health services and resources,
including the construction, modernization, and conversion of health
facilities, should be accomplished in a planned, orderly fashion;
consistent with identified priorities and without unnecessary
duplication or fragmentation) That the certificate of need program
is a component of a health planning regulatory process that is
consistent with the statewide health resources strategy and public
policy goals that are clearly articulated and regularly updated;
(3) That the development and maintenance of adequate health
care information, statistics and projections of need for health
facilities and services is essential to effective health planning and
resources development;
(4) That the development of nonregulatory approaches to health
care cost containment should be considered, including the
strengthening of price competition; and
(5) That health planning should be concerned with public health
and health care financing, access, and quality, recognizing their close
interrelationship and emphasizing cost control of health services,
including cost-effectiveness and cost-benefit analysis.

NEW SECTION. Sec. 56. (1) For the purposes of this section and
RCW 70.38.015 and 70.38.135, "statewide health resource
strategy" or "strategy" means the statewide health resource strategy
developed by the office of financial management pursuant to chapter

"NEW SECTION. Sec. 1. The legislature finds that the people of Washington state face a crisis brought upon by increased gang crime and violence, which is threatening public safety in communities across the state. Those who live in communities where gang membership is on the rise find themselves living with the daily threat of intimidation and harassment. Ordinary citizens are increasingly vulnerable to gang-related crimes such as drug dealing, damage to real property, theft of personal property and automobiles, or even assault, rape, and murder. Even those not directly affected by gang-related crime, share in the indirect costs such as lower property values, higher insurance premiums, and the endangerment of our youth. Moreover, our first responders find themselves increasingly vulnerable to personal injury or death when responding to gang-related crimes such as drug dealing, assault, driving without a license, or attempting to elude a police vehicle.

It is the intent of the legislature to establish a work group to evaluate and make legislative recommendations regarding the problem of gang-related crime in Washington state.

NEW SECTION. Sec. 2. The Washington association of sheriffs and police chiefs is directed to convene a work group to evaluate the problem of gang-related crime in Washington state. Members shall include one member from each of the two largest caucuses in the house of representatives, appointed by the speaker of the house of representatives, one member from each of the two largest caucuses in the senate, appointed by the president of the senate, and representatives of the following, appointed jointly by the president of the senate and the speaker of the house of representatives: The office of the attorney general, local law enforcement, prosecutors and municipal attorneys, criminal defense attorneys, court administrators, prison or detention administrators and probation officers, and experts in gang or delinquency prevention including the governor's juvenile justice advisory committee. The work group shall evaluate and make recommendations regarding additional legislative measures to combat gang-related crime, the creation of a statewide gang information database, possible reforms to the juvenile justice system for gang-related juvenile offenses, best practices for prevention and intervention of youth gang membership, and the adoption of legislation authorizing a civil antigang injunction. The Washington association of sheriffs and police chiefs shall report back to the legislature on its findings and the recommendations of the work group or groups on or before January 1, 2008."

(1) The governor may request the Washington academy of sciences, the American fisheries society, or a comparable institution to screen candidates to serve as members on the independent science panel, when organized pursuant to chapter 305, Laws of 2005, to impanel an independent science panel on salmon recovery to respond to requests for review pursuant to subsection (2) of this section.

(2) The independent science panel shall be governed by generally accepted guidelines and practices governing the activities of independent science panels such as the ((national)) Washington academy of sciences. The purpose of the independent science panel is to help ensure that sound science is used in salmon recovery efforts. The governor's salmon recovery office may contract for services ((with members)) of the independent science panel for compensation under chapter 39.29 RCW.

(3) The members of the independent science panel shall serve four-year terms. Vacant positions on the panel shall be filled in the same manner as the original appointments. Members shall serve no more than two full terms. The independent science panel members shall elect the chair of the panel among themselves every two years.

(4) Based upon available funding, the governor's salmon recovery office may contract for services ((with members)) of the independent science panel for compensation under chapter 39.29 RCW.

Sec. 5. RCW 77.85.090 and 2005 c 309 s 7 are each amended to read as follows:

(1) The ((candidates)) panel shall elect the chair of the panel among themselves every two years.

(2) The independent science panel members shall serve more than two full terms. The independent science panel members shall elect the chair of the panel among themselves every two years.

(3) Based upon available funding, the governor's salmon recovery office may contract for services ((with members)) of the independent science panel for compensation under chapter 39.29 RCW.

(4) The independent science panel shall be governed by generally accepted guidelines and practices governing the activities of independent science panels such as the Washington academy of sciences. The purpose of the independent science panel is to help ensure that sound science is used in salmon recovery efforts. The science panel does not have the authority to review individual projects or habitat project lists developed under RCW 77.85.050 or 77.85.060 or to make policy decisions. The panel shall periodically submit its findings and recommendations under this subsection to the legislature and the governor.
The southwest Washington salmon recovery region, whose boundaries are provided in chapter 60, Laws of 1998, is created.

Sec. 6. RCW 77.85.150 and 2005 c 309 s 9 are each amended to read as follows:

(1) The governor, with the assistance of the governor's salmon recovery office and the governor's salmon recovery funding board, shall maintain and revise, as appropriate, a statewide salmon recovery strategy.

(2) The governor and the salmon recovery office shall be guided by the following considerations in maintaining and revising the strategy:

(a) The strategy should identify statewide initiatives and responsibilities with regional recovery plans and local watershed initiatives as the principal means for implementing the strategy;

(b) The strategy should emphasize collaborative, incentive-based approaches;

(c) The strategy should address all factors limiting the recovery of Washington's listed salmon stocks, including habitat and water quality degradation, harvest and hatchery management, inadequate streamflows, and other barriers to fish passage. Where other limiting factors are beyond the state's jurisdictional authorities to respond to, such as some natural predators and high seas fishing, the strategy shall include the state's requests for federal action to effectively address these factors;

(d) The strategy should identify immediate actions necessary to prevent extinction of a listed salmon stock, establish performance measures to determine if restoration efforts are working, recommend effective monitoring and data management, and recommend to the legislature clear and certain measures to be implemented if performance goals are not met;

(e) The strategy shall rely on the best scientific information available and provide for incorporation of new information as it is obtained;

(f) The strategy should seek a fair allocation of the burdens and costs upon economic and social sectors of the state whose activities may contribute to limiting the recovery of salmon; and

(g) The strategy should seek clear measures and procedures from the appropriate federal agencies for removing Washington's salmon stocks from listing under the federal act.

(3) (Beginning on September 1, 2006) If the strategy (shall be) is updated (through), an active and thorough public involvement process, including early and meaningful opportunity for public comment, must be utilized. In obtaining public comment, the governor's salmon recovery office shall (hold public meetings) work with regional salmon recovery organizations throughout the state and shall encourage regional and local recovery planning efforts to (similarly) ensure an active public involvement process.

(4) This section shall apply prospectively only and not retroactively. Nothing in this section shall be construed to invalidate actions taken in recovery planning at the local, regional, or state level prior to July 1, 1999.

Sec. 7. RCW 43.41.270 and 2001 c 227 s 2 are each amended to read as follows:

(1) The office of financial management shall assist natural resource-related agencies in developing outcome-focused performance measures for administering natural resource-related and environmentally based grant and loan programs. These performance measures are to be used in determining grant eligibility, for program management and performance assessment.

(2) The office of financial management and the governor's salmon recovery office shall assist natural resource-related agencies in developing recommendations for a monitoring program to measure outcome-focused performance measures required by this section. The recommendations must be consistent with the framework and coordinated monitoring strategy developed by the monitoring oversight committee established in RCW 77.85.210.

(3) Natural resource agencies shall consult with grant or loan recipients including local governments, tribes, nongovernmental organizations, and other interested parties, and report to the office of financial management on the implementation of this section. The office of financial management shall report to the appropriate legislative committees of the legislature on the agencies' implementation of this section, including any necessary changes in current law, and funding requirements by July 31, 2002. Natural resource agencies shall assist the office of financial management in preparing the report, including complying with time frames for submitting information established by the office of financial management.

(4) For purposes of this section, "natural resource-related agencies" include the department of ecology, the department of natural resources, the department of fish and wildlife, the state conservation commission, the interagency committee for outdoor recreation, the salmon recovery funding board, and the public works board within the department of community, trade, and economic development.

(5) For purposes of this section, "natural resource-related environmentally based grant and loan programs" includes the conservation reserve enhancement program; dairy nutrient management grants under chapter 90.64 RCW; state conservation commission water quality grants under chapter 89.08 RCW; coordinated prevention grants, public participation grants, and remedial action grants under RCW 70.105D.070; water pollution control facilities financing under chapter 70.146 RCW; aquatic lands enhancement grants under RCW 70.24.550; 79.105.150; habitat grants under the Washington wildlife and recreation program under RCW 79A.15.040; salmon recovery grants under chapter 77.85 RCW; and the public works trust funds established under RCW 43.155. The term also includes programs administered by the department of fish and wildlife related to protection or recovery of fish stocks which are funded with moneys from the capital budget.

NEW SECTION. Sec. 8. A new section is added to chapter 77.85 RCW to read as follows:

(1) The legislature finds that pursuant to chapter 298, Laws of 2001, and acting upon recommendations of the state's independent science panel, the monitoring oversight committee developed recommendations for a comprehensive statewide strategy for monitoring watershed health, with a focus upon salmon recovery, entitled The Washington Comprehensive Monitoring Strategy and Action Plan for Watershed Health and Salmon Recovery. The legislature further finds that funding to begin implementing the strategy and action plan was provided in the 2003-2005 biennial budget, and that executive order 04-03 was issued to coordinate state agency implementation activities. It is therefore the purpose of this section to adopt the strategy and action plan and to provide guidance to ensure that the coordination activities directed by executive order 04-03 are effectively carried out.

(2) The forum on monitoring salmon recovery and watershed health is created. The governor shall appoint a person with experience and expertise in natural resources and environmental quality monitoring to chair the forum. The chair shall serve four-year terms and may serve successive terms. The forum shall include representatives of the following state agencies and regional entities that have responsibilities related to monitoring of salmon recovery and watershed health:

(a) Department of ecology;

(b) Salmon recovery funding board;

(c) Salmon recovery office;

(d) Department of fish and wildlife;

(e) Department of natural resources;

(f) Puget Sound action team, or a successor state agency;

(g) Conservation commission;

(h) Department of agriculture;

(i) Department of transportation; and
(j) Each of the regional salmon recovery organizations.

(5) The forum on monitoring salmon recovery and watershed health shall recommend a set of measures for use by the governor's salmon recovery office in the state of the salmon report to convey results and progress on salmon recovery and watershed health in ways that are easily understood by the general public.

(6) The forum on monitoring salmon recovery and watershed health shall invite the participation of federal, tribal, regional, and local agencies and entities that carry out salmon recovery and watershed health monitoring, and work toward coordination and standardization of measures used.

(7) The forum shall review pilot monitoring programs including those that integrate (a) data collection, management, and access; and (b) information regarding habitat projects and project management.

(8) The forum on monitoring salmon recovery and watershed health shall review and make recommendations to the office of financial management and the appropriate legislative committees on agency budget requests related to monitoring salmon recovery and watershed health. These recommendations must be made no later than September 15th of each year. The goal of this review is to prioritize and integrate budget requests across agencies.

SSB 5245 Prime Sponsor, Senate Committee On Agriculture & Rural Economic Development: Preserving the viability of agricultural lands. Reported by Committee on Local Government

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that the goal of preserving Washington's agricultural lands is shared by citizens throughout the state. The legislature recognizes that efforts to achieve a balance between the productive use of these resource lands and associated regulatory requirements have proven difficult, but that good faith efforts to seek solutions have yielded successes. The legislature believes that this willingness to find and pursue common ground will enable Washingtonians to enjoy the benefits of a successful agricultural economy and a healthy environment, while also preventing the unnecessary conversion of valuable agricultural lands.

(2) The legislature, therefore, intends this act, the temporary delays it establishes for amending or adopting provisions of certain critical area ordinances, and the duties and requirements it prescribes for the William D. Ruckelshaus Center, to be expressions of progress in resolving, harmonizing, and advancing commonly held environmental protection and agricultural viability goals.

(3) The legislature fully expects the duties and requirements it is prescribing for the Ruckelshaus Center to be successful. If, however, the efforts of the center do not result in a consensus of how to best address the conflicts between agricultural activities and certain regulatory requirements as they apply to agricultural activities, the legislature intends, upon the expiration of the delay, to require jurisdictions that have delayed amending or adopting certain regulatory measures to promptly complete all regulatory amendments or adoptions necessary to comply with the growth management act.

(4) The legislature does not intend this act to reduce or otherwise diminish existing critical area ordinances that apply to agricultural activities during the deferral period established in section 2 of this act.

NEW SECTION. Sec. 2. A new section is added to chapter 36.70A RCW to read as follows:

(1) For the period beginning May 1, 2007, and concluding July 1, 2009, counties and cities must defer amending or adopting critical area ordinances under RCW 36.70A.060(2) as they specifically apply to agricultural activities. Nothing in this section:

(a) Nullifies critical area ordinances adopted by a county or city prior to May 1, 2007, to comply with RCW 36.70A.060(2);

(b) Limits or otherwise modifies the obligations of a county or city to comply with the requirements of this chapter pertaining to critical areas not associated with agricultural activities; or

(c) Limits the ability of a county or city to adopt or employ voluntary measures or programs to protect or enhance critical areas associated with agricultural activities.

(2) Counties and cities that defer amending or adopting critical area ordinances under subsection (1) of this section must review and revise these ordinances and regulations as they specifically apply to
agricultural activities to comply with the requirements of this chapter by July 1, 2010.

(5) For purposes of this section and section 3 of this act, "agricultural activities" means agricultural uses and practices currently existing or legally allowed on rural land or agricultural land designated under RCW 36.70A.170, including, but not limited to: Producing, breeding, or increasing agricultural products; rotating and changing agricultural crops; allowing land used for agricultural activities to lie fallow in which it is plowed and tilled but left unseeded; allowing land used for agricultural activities to lie dormant as a result of adverse agricultural market conditions; allowing land used for agricultural activities to lie dormant because the land is enrolled in a local, state, or federal conservation program; or, the land is subject to a conservation easement; conducting agricultural operations; maintaining, repairing, and replacing agricultural equipment; maintaining, repairing, and replacing agricultural facilities, when the replacement facility is no closer to a critical area than the original facility; and maintaining agricultural lands under production or cultivation.

NEW SECTION. Sec. 3. (1) Subject to the availability of amounts appropriated for this specific purpose, the William D. Ruckelshaus Center must conduct an examination of the conflicts between agricultural activities and critical area ordinances adopted under chapter 36.70A RCW. The examination required by this section must commence by July 1, 2007.

(2) In fulfilling the requirements of this section, the center must: (a) Work and consult with local participants including, but not limited to, agricultural, environmental, tribal, and local government interests; and (b) involve and apprise legislators and legislative staff of its efforts.

(3) The examination conducted by the center must be completed in two distinct phases in accordance with the following:
   (a) In the first phase, the center must conduct fact-finding and stakeholder discussions with stakeholders identified in subsection (2) of this section. These discussions must identify stakeholder concerns, desired outcomes, opportunities, and barriers. The fact-finding must identify existing regulatory, management, and scientific information related to agricultural activities and critical areas including, but not limited to: (i) Critical area ordinances adopted under chapter 36.70A RCW; (ii) acreage enrolled in the conservation reserve enhancement program; (iii) acreage protected by conservation easements; (iv) buffer widths; (v) requirements of federally approved salmon recovery plans; (vi) the impacts of agricultural activities on Puget Sound recovery efforts; and (vii) compliance with water quality requirements. The center must issue a report of its fact-finding efforts and stakeholder discussions with stakeholders identified in subsection (2) of this section.
   (b)(i) In the second phase, the center must facilitate discussions between the stakeholders identified in subsection (2) of this section to identify policy and financial options or opportunities to address the issues and desired outcomes identified by stakeholders in the first phase of the center's examination efforts.
   (ii) In particular, the stakeholders must examine innovative solutions including, but not limited to, outcome-based approaches that incorporate, to the maximum extent practicable, voluntary programs or approaches. Additionally, stakeholders must examine ways to modify statutory provisions to ensure that regulatory constraints on agricultural activities are used as a last resort if desired outcomes are not achieved through voluntary programs or approaches.
   (iii) The center must work to achieve agreement among participating stakeholders and to develop a coalition that can be used to support agreed upon changes or new approaches to protecting critical area during the 2009 legislative session.
   (4) The center must issue a final report of findings and legislative recommendations to the governor and the appropriate committees of the house of representatives and the senate by September 1, 2008.

NEW SECTION. Sec. 4. If specific funding for the purposes of section 3 of this act, referencing this act and section 3 of this act by bill or chapter number and section number, is not provided by June 30, 2007, in the omnibus appropriations act, this act is null and void.

NEW SECTION. Sec. 5. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately.

NEW SECTION. Sec. 6. This act expires July 1, 2010.

"Sec. 1. RCW 28A.300.285 and 2002 c 207 s 2 are each amended to read as follows:

(1) By August 1, 2003, each school district shall adopt or amend if necessary a policy, within the scope of its authority, that prohibits the harassment, intimidation, or bullying of any student. It is the responsibility of each school district to share this policy with parents or guardians, students, volunteers, and school employees.

(2) "Harassment, intimidation, or bullying" means any intentional electronic, written, verbal, or physical act, including but not limited to one shown to be motivated by any characteristic in RCW 36.70A.170(3), or other distinguishing characteristics, when the intentional electronic, written, verbal, or physical act:
   (a) Physically harms a student or damages the student's property;
   (b) Has the effect of substantially interfering with a student's education;
   (c) Is so severe, persistent, or pervasive that it creates an intimidating or threatening educational environment; or
   (d) Has the effect of substantially disrupting the orderly operation of the school.

Nothing in this section requires the affected student to actually possess a characteristic that is a basis for the harassment, intimidation, or bullying.

(3) The policy should be adopted or amended through a process that includes representation of parents or guardians, school employees, volunteers, students, administrators, and community representatives. It is recommended that each such policy emphasize positive character traits and values, including the importance of civil and respectful speech and conduct, and the responsibility of students to comply with the district's policy prohibiting harassment, intimidation, or bullying.

(4) By August 1, 2002, the superintendent of public instruction, in consultation with representatives of parents, school personnel, and other interested parties, shall provide to school districts and educational service districts a model harassment, intimidation, and bullying prevention policy and training materials on the components that should be included in any district policy. Training materials..."
shall be disseminated in a variety of ways, including workshops and other staff developmental activities, and through the office of the superintendent of public instruction's web site, with a link to the safety center web page. On the web site:

(a) The office of the superintendent of public instruction shall post its model policy, recommended training materials, and instructional materials;

(b) The office of the superintendent of public instruction has the authority to update with new technologies access to this information in the safety center, to the extent resources are made available; and

(c) Individual school districts shall have direct access to the safety center web site to post a brief summary of their policies, programs, partnerships, vendors, and instructional and training materials, and to provide a link to the school district's web site for further information.

(5) The Washington state school directors association, with the assistance of the office of the superintendent of public instruction, shall convene an advisory committee to develop a model policy prohibiting acts of harassment, intimidation, or bullying that are conducted via electronic means by a student while on school grounds and during the school day. The policy shall include a requirement that materials meant to educate parents and students about the seriousness of cyberbullying be disseminated to parents or made available on the school district's web site. The school directors association and the advisory committee shall develop sample materials for school districts to disseminate, which shall also include information on responsible and safe internet use as well as what options are available if a student is being bullied via electronic means, including but not limited to, reporting threats to local police and when to involve school officials, the internet service provider, or phone service provider. The school directors association shall submit the model policy and sample materials, along with a recommendation for local adoption, to the governor and the legislature and shall post the model policy and sample materials on its web site by January 1, 2008. Each school district board of directors shall establish its own policy by August 1, 2008.

(6) As used in this section, "electronic" or "electronic means" means any communication where there is the transmission of information by wire, radio, optical cable, electromagnetic, or other similar means.

NEW SECTION. Sec. 2. A new section is added to chapter 28A.300 RCW to read as follows:

The office of the superintendent of public instruction shall collect and retain a copy of each school district's policy regarding harassment, intimidation, or bullying, including that conducted via electronic means. By December 1, 2008, the superintendent of public instruction shall report to the education committees of the legislature regarding the status of school districts' policies regarding harassment, intimidation, or bullying. The report may also include, but is not limited to, issues of concern at the district or state level regarding the implementation and application of such policies.

SB 5383 Prime Sponsor, Senator Hargrove: Modifying provisions of the energy freedom program. Reported by Committee on Technology, Energy & Communications

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 15.110.005 and 2006 c 171 s 1 are each amended to read as follows:

The legislature finds that:

(1) Washington's dependence on energy supplied from outside the state and volatile global energy markets makes its economy and citizens vulnerable to unpredictable and high energy prices;

(2) Washington's dependence on petroleum-based fuels increases energy costs for citizens and businesses;

(3) Diesel soot from diesel engines ranks as the highest toxic air pollutant in Washington, leading to hundreds of premature deaths and increasing rates of asthma and other lung diseases;

(4) The use of biodiesel results in significantly less air pollution than traditional diesel fuels;

(5) Improper disposal and treatment of organic waste from farms and livestock operations can have a significant negative impact on water quality;

(6) Washington has abundant supplies of organic waste from farms that can be used for energy production and abundant farmland where crops could be grown to supplement or supplant petroleum-based fuels;

(7) The use of energy and fuel derived from these sources can help citizens and businesses conserve energy and reduce the use of petroleum-based fuels, would improve air and water quality in Washington, reduce environmental risks from farm wastes, create new markets for farm products, and provide new industries and jobs for Washington citizens;

(8) The bioenergy industry is a new and developing industry that is, in part, limited by the availability of capital for the construction of facilities for converting farm and forest products into energy and fuels;

(9) Wind-generated electricity provides a pollution-free source of electricity, the utilization of which would be a valuable step toward improving the health of the regional environment;

(10) Instead of leaving our economy at the mercy of global events, and the policies of foreign nations, Washington state should adopt a policy of energy independence; and
The energy freedom program is meant to lead Washington state towards energy independence.

Therefore, the legislature finds that it is in the public interest to encourage the rapid adoption and use of wind power and bioenergy to develop a viable wind and bioenergy industry within Washington state, to promote public research and development in wind and bioenergy sources and markets, and to support wind power production and a viable agriculture industry to grow bioenergy crops. To accomplish this, the energy freedom program is established to promote public research and development in wind power and bioenergy, and to stimulate the construction of facilities in Washington to generate energy from wind and farm sources, or to convert organic matter into fuels.

Sec. 2. RCW 15.110.010 and 2006 c 171 s 2 are each amended to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) “Applicant” means any political subdivision of the state, including port districts, counties, cities, towns, special purpose districts, and other municipal corporations or quasi-municipal corporations. “Applicant” may also include federally recognized tribes, state institutions of higher education with appropriate research capabilities, and not for profit or nonprofit corporations as defined in RCW 24.03.005.

(2) “Assistance” includes loans, leases, product purchases, or other forms of financial or technical assistance.

(3) “Department” means the department of ((agriculture)) community, trade, and economic development.

(4) “Director” means the director of ((agriculture)) community, trade, and economic development.

(5) “Peer review committee” means a board, appointed by the director, that includes wind or bioenergy specialists, energy conservation specialists, scientists, and individuals with specific recognized expertise.

(6) “Project” means the construction of facilities, including the purchase of equipment, to convert farm products or wastes into electricity or gaseous or liquid fuels or other coproducts associated with such conversion. These specifically include fixed or mobile facilities to generate electricity or methane from the anaerobic digestion of organic matter, and fixed or mobile facilities for extracting oils from canola, rape, mustard, and other oilseeds. “Project” may also include the construction of facilities associated with such conversion for the distribution and storage of such feedstocks and fuels, or wind power up to five megawatts.

(7) “Research and development project” means research and development, by an institution of higher education as defined in subsection (1) of this section, relating to:

(a) Wind power;

(b) Bioenergy sources including but not limited to biomass and associated gases; or

((11)) (c) The development of markets for bioenergy coproducts.

Sec. 3. RCW 15.110.020 and 2006 c 171 s 3 are each amended to read as follows:

(1) The energy freedom program is established within the department. The director may establish policies and procedures necessary for processing, reviewing, and approval applications made under this chapter.

(2) When reviewing applications submitted under this program, the director shall consult with those agencies having expertise and knowledge to assess the technical and business feasibility of the project and probability of success. These agencies may include, but are not limited to, Washington State University, the University of Washington, the department of ecology, the department of community, trade, and economic development, and the Washington state conservation commission.

(3) The director, in cooperation with the department of community, trade, and economic development, may approve an application only if the director finds:

(a) The project will convert farm products, wind, or wastes directly into electricity or into gaseous or liquid fuels or other coproducts associated with such conversion;

(b) The project demonstrates technical feasibility and directly assists in moving a commercially viable project into the marketplace for use by Washington state citizens;

(c) The facility will produce long-term economic benefits to the state, a region of the state, or a particular community in the state;

(d) The project does not require continuing state support;

(e) The assistance will result in new jobs, job retention, or higher incomes for citizens of the state;

(f) The state is provided an option under the assistance agreement to purchase a portion of the fuel or feedstock to be produced by the project, exercisable by the department of general administration, if applicable;

(g) The project will increase energy independence or diversity for the state;

(h) The project will use feedstocks produced in the state, if feasible, except this criterion does not apply to the construction of facilities used to distribute and store fuels that are produced from farm products or wastes, nor does it apply to wind projects;

(i) Any product produced by the project will be suitable for its intended use, will meet accepted national or state standards, and will be stored and distributed in a safe and environmentally sound manner;

(j) The application provides for adequate reporting or disclosure of financial and employment data to the director, and permits the director to require an annual or other periodic audit of the project books; and

(k) For research and development projects, the application has been independently reviewed by a peer review committee as defined in RCW 15.110.010 and the findings delivered to the director.

(4) The director may approve an application for assistance up to five million dollars. In no circumstances shall this assistance constitute more than fifty percent of the total project cost.

(5) The director shall enter into agreements with approved applicants to fix the terms and rates of the assistance to minimize the costs to the applicants, and to encourage establishment of a viable bioenergy industry. The agreement shall include provisions to protect the state’s investment, including a requirement that a successful applicant enter into contracts with any partners that may be involved in the use of any assistance provided under this program, including services, facilities, infrastructure, or equipment. Contracts with any partners shall become part of the application record.

(6) The director may defer any payments for up to twenty-four months or until the project starts to receive revenue from operations, whichever is sooner.

(c) A vessel in innocent passage, merely traversing the internal waters of Washington in the Strait of Juan de Fuca, bound for a port in Canada (t)erritorial sea of the United States and not entering or departing a United States port, (or a vessel in innocent passage, which is a vessel merely traversing the internal waters of the United States and not entering or departing a United States port) (or not navigating the internal waters of the United States); and

(d) A crude oil tanker that does not exchange or discharge ballast water into the waters of the state, and that does not discharge ballast water into the waters of the state.

(2) This chapter does not authorize the discharge of oil or noxious liquid substances in a manner prohibited by state, federal, or international laws or regulations. Ballast water containing oil, noxious liquid substances, or any other pollutant shall be discharged in accordance with the applicable requirements.

(3) The master or operator in charge of a vessel is responsible for the safety of the vessel, its crew, and its passengers. Nothing in this chapter relieves the master or operator in charge of a vessel of the responsibility for ensuring the safety and stability of the vessel or the safety of the crew and passengers.

Sec. 11. RCW 77.120.030 and 2004 c 227 s 3 are each amended to read as follows:

(1) The master or operator in charge of any vessel covered by this chapter is required to ensure that the vessel under their ownership or control does not discharge ballast water into the waters of the state except as authorized by this section.

((If Discharge into waters of the state is authorized if the vessel has conducted an open sea exchange of ballast water. A vessel is exempt from this requirement in the territorial sea of the United States if the master or operator determines that such a ballast water exchange operation will threaten the safety of the vessel or the vessel's crew, or is not feasible due to vessel design limitations or equipment failure. If a vessel relies on this exemption, then it may discharge ballast water into waters of the state, subject to any requirements of treatment under subsection (2) of this section and need not comply with this subsection.

(3) Masters, owners, operators, or persons in charge shall submit to the department an interim ballast water management report by July 1, 2006, in the form and manner prescribed by the department. The report shall describe actions needed to implement the ballast water requirements in subsection (2) of this section, including treatment methods applicable to the class of the vessel.

Reports may include a statement that there are no treatment methods applicable to the vessel for which the report is being submitted.

(4) The ballast water work group created in section 1, chapter 282, Laws of 2002 shall develop recommendations for the interim ballast water management report. The recommendations must include, but are not limited to:

(a) Actions that the vessel owner or operator will take to implement the ballast water requirements in subsection (2) of this section, including treatment methods applicable to the class of the vessel;

(b) Necessary plan elements when there are no treatment methods applicable to the vessel for which the report is being submitted, or which would meet the requirements of this chapter, and

(c) The method, form, and content of reporting to be used for such reports);

(5) The department, in consultation with the ballast water work group, or similar collaborative forum, shall adopt by rule standards for the discharge of ballast water into the waters of the state and their implementation timelines. The standards are intended to ensure that the discharge of ballast water poses minimal risk of introducing nonindigenous species. In developing these standards, the department shall consider the extent to which the requirement is technologically and practically feasible. Where practical and appropriate, the standards must be compatible with standards set by the United States coast guard, the federal clean water act (33 U.S.C. Sec. 1251-1387), or the international maritime organization.

(4) The master, operator, or person in charge of a vessel is not required to conduct an open sea exchange or treatment of ballast water if the master, operator, or person in charge of a vessel determines that the operation would threaten the safety of the vessel, its crew, or its passengers, because of adverse weather, vessel design limitations, equipment failure, or any other extraordinary conditions.

A master, operator, or person in charge of a vessel who relies on this exemption must file documentation defined by the department, subject to: (a) Payment of a fee not to exceed five thousand dollars; (b) discharging only the minimal amount of ballast water operationally necessary; (c) ensuring that ballast water records accurately reflect any reasons for not complying with the mandatory requirements; and (d) any other requirements identified by the department by rule as provided in subsections (3) and (6) of this section.

(5) For treatment technologies requiring shipyard modification (that cannot reasonably be performed prior to July 1, 2007, the department shall provide the vessel owner or operator with an extension to the first scheduled drydock or shipyard period following July 1, 2007), the department may enter into a compliance plan with the vessel owner. The compliance plan must include a timeline consistent with drydock and shipyard schedules for completion of the modification. The department shall adopt rules for compliance plans under this subsection.

(6) For an exemption claimed in subsection (4) of this section, the department shall adopt rules for defining exemption conditions, requirements, compliance plans, or alternative ballast water management strategies to meet the intent of this section.

(6)) (7) The department shall make every effort to align ballast water standards with adopted international and federal standards while ensuring that the goals of this chapter are met.

((7)) (8) The requirements of this section do not apply to a vessel discharging ballast water or sediments that originated solely within the waters of Washington state, the Columbia river system, or the internal waters of British Columbia south of latitude fifty degrees north, including the waters of the Straits of Georgia and Juan de Fuca.

(8)) (9) Open sea exchange is an exchange that occurs fifty or more nautical miles offshore. If the United States coast guard requires a vessel to conduct an exchange further offshore, then that distance is the required distance for purposes of compliance with this chapter.

ESSB 6032 Prime Sponsor, Senate Committee On Health &Long-Term Care: Concerning the medical use of marijuana. Reported by Committee on Health Care & Wellness

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature intends to clarify the law on medical marijuana so that the lawful use of this substance is not impaired and medical practitioners are able to exercise their best professional judgment in the delivery of medical treatment, qualifying patients may fully participate in the medical use of marijuana, and designated providers may assist patients in the manner provided by this act without fear of state criminal prosecution. This act is also intended to provide clarification to law enforcement and to all participants in the judicial system.

Sec. 2. RCW 69.51A.005 and 1999 c 2 s 2 are each amended to read as follows:

The people of Washington state find that some patients with terminal or debilitating illnesses, under their physician's care, may benefit from the medical use of marijuana. Some of the illnesses for which marijuana appears to be beneficial include chemotherapy-related nausea and vomiting in cancer patients; AIDS wasting syndrome; severe muscle spasms associated with multiple sclerosis and other spasticity disorders; epilepsy; acute or chronic glaucoma; and some forms of intractable pain.

The people find that humanitarian compassion necessitates that the decision to authorize the medical use of marijuana by patients with terminal or debilitating illnesses is a personal, individual decision, based upon their physician's professional medical judgment and discretion.

Therefore, the people of the state of Washington intend that:

Qualifying patients with terminal or debilitating illnesses, in the judgment of their physicians, ((would)) may benefit from the medical use of marijuana, shall not be found guilty of a crime under state law for their possession and limited use of marijuana;

Persons who act as (primary caregivers) designated providers to such patients shall also not be found guilty of a crime under state law for assisting with the medical use of marijuana; and

Physicians also be excepted from liability and prosecution for the authorization of marijuana use to qualifying patients for whom, in the physician's professional judgment, medical marijuana may prove beneficial.

Sec. 3. RCW 69.51A.010 and 1999 c 2 s 6 are each amended to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Designated provider" means a person who:

"NEW SECTION. Sec. 1. The people of the state of Washington expect to live in safe communities in which the threat of crime is minimized. Attempting to keep communities safe by
building more prisons and paying the costs of incarceration has proven to be expensive to taxpayers. Incarceration is a necessary consequence for some offenders, however, the vast majority of those offenders will eventually return to their communities. Many of these former offenders will not have had the opportunity to address the deficiencies that may have contributed to their criminal behavior. Persons who do not have basic literacy and job skills, or who are ill-equipped to make the behavioral changes necessary to successfully function in the community, have a high risk of reoffense. Recidivism represents serious costs to victims, both financial and nonmonetary in nature, and also burdens state and local governments with those offenders who recycle through the criminal justice system.

The legislature believes that recidivism can be reduced and a substantial cost savings can be realized by utilizing evidence-based, research-based, and promising programs to address offender deficits, developing and better coordinating the reentry efforts of state and local governments and local communities. Research shows that if quality assurances are adhered to, implementing an optimal portfolio of evidence-based programming options for offenders who are willing to take advantage of such programs can have a notable impact on recidivism.

While the legislature recognizes that recidivism cannot be eliminated and that a significant number of offenders are unwilling or unable to work to develop the tools necessary to successfully reintegrate into society, the interests of the public overall are better served by better preparing offenders while incarcerated, and continuing those efforts for those recently released from prison or jail for successful, productive, and healthy transition to their communities. Educational, employment, and treatment opportunities should be designed to address individual deficits and ideally give offenders the ability to function in society. In order to foster reintegration, this act recognizes the importance of a strong partnership between the department of corrections, local governments, law enforcement, social service providers, and interested members of communities across our state.

The legislature also recognizes the need to ensure the safety of the public while offenders are reintegrating into communities. To further the goal of ensuring public safety, the legislature intends to improve the monitoring of offenders on supervision and hold those who violate the conditions of supervision accountable for their actions. The legislature intends to increase the effectiveness of supervision of offenders on community custody through methods such as increased flexibility in searches of offenders on community custody with the goal of preventing future offenses and supervision violations.

(2) When a court sentences an offender to a term of community custody under RCW 9.94A.505(2)(b), 9.94A.545, 9.94A.650, or 9.94A.715, for a crime committed on or after the effective date of this act, the court shall require the offender, as a condition of community custody, to submit to random, unannounced inspections of his or her person, residence, automobile, or other personal property.

NEW SECTION. Sec. 409. A new section is added to chapter 9.94A RCW to read as follows: The department of corrections must provide reasonably adequate personnel and resources and make reasonably diligent efforts to actively pursue and reacquire offenders who have escaped or absconded.

PART V - EDUCATION

Sec. 501. RCW 72.09.460 and 2004 c 167 s 5 are each amended to read as follows:
The legislature intends that all inmates be required to participate in department-approved education programs, work programs, or both, unless exempted as specifically provided in this section. Eligible inmates who refuse to participate in available education or work programs available at no charge to the inmates shall lose privileges according to the system established under RCW 72.09.130. Eligible inmates who are required to contribute financially to an education or work program and refuse to contribute shall be placed in another work program. Refusal to contribute shall not result in a loss of privileges.

The legislature recognizes more inmates may agree to participate in education and work programs than are available. The department must make every effort to achieve maximum public benefit by placing inmates in available and appropriate education and work programs.

(1) The department shall provide access to a program of education to all offenders who are under the age of eighteen and who have not met high school graduation or general equivalency diploma requirements in accordance with chapter 28A.193 RCW. The program of education established by the department and education provider under RCW 28A.193.020 for offenders under the age of eighteen must provide the offender a choice of curriculum that will assist the inmate in achieving a high school diploma or general equivalency diploma. The program of education may include but not be limited to basic education, vocational training, work ethic skills, conflict resolution counseling, substance abuse intervention, and anger management counseling. The curriculum may balance these and other rehabilitation, work, and vocational (optional) components.

(a) The department shall, to the extent possible and considering all available funds, prioritize its resources to meet the following goals for inmates in the order listed:

(i) Achievement of basic academic skills through obtaining a high school diploma or its equivalent (ii) Achievement of vocational skills necessary for purposes of work programs and for an inmate to qualify for work upon release.

(b) The department shall establish, by rule, objective medical standards to determine when an inmate is physically or mentally unable to participate in any available education or work program due to a medical condition, the inmate is exempt from the requirement under subsection (1) of this section. When the department determines an inmate is permanently unable to participate in any available education or work program due to a medical condition, the inmate is exempt from the requirement under subsection (1) of this section. When the department determines an inmate is temporarily unable to participate in an education or work program due to a medical condition, the inmate is exempt from the requirement under subsection (1) of this section.

(c) The department shall be required to place the costs of medical assistance programs necessary for compliance with an offender's individual reentry plan under section 302 of this act with the exception of postsecondary education degree programs as provided in section 502 of this act.

(2) The legislature recognizes more inmates may agree to participate in department-approved education programs, work programs, or both, unless exempted as specified in subsection (1) of this section. Inmates who have not met high school graduation or general equivalency diploma requirements shall not comprise more than ten percent of inmates participating in educational and vocational programs.

(3) The department shall, to the extent possible, establish, by rule, standards for the education and work programs that the department shall pay the cost of. The standards shall be evaluated every two years. The department shall pay the cost of such programs to a third party unless otherwise required by the department as provided in this chapter.
program goals for all education and work programs. Inmates shall be notified of applicable behavior standards and program goals prior to placement in an education or work program and shall be removed from the education or work program if they consistently fail to meet the standards or goals:

(d) Financial responsibility. (i) The department shall establish a formula by which inmates, based on their ability to pay, shall pay all or a portion of the costs or tuition of certain programs. Inmates shall, based on the formula, pay a portion of the costs or tuition of programming:

(A) Second and subsequent vocational programs associated with an inmate’s work programs; and

(B) An associate of arts or baccalaureate degree program when placement in a degree program is the result of a placement made under this subsection:

(1) Any postsecondary academic degree program which is entered independently of a placement decision made under this subsection; and

(2) Second and subsequent vocational programs not associated with an inmate’s work program:

Enrollment in any program specified in (d)(1) of this subsection shall only be allowed by correspondence or if there is an opening in an education or work program at the institution where an inmate is incarcerated and no other inmate who is placed in a program under this subsection will be displaced:

(c) Notwithstanding any other provision in this section, an inmate may receive a baccalaureate degree degree program.

(1) Shall not be required to participate in education programming; and

(ii) May receive not more than one postsecondary academic degree in a program offered by the department or its contracted providers.

If an inmate sentenced to life without the possibility of release requires additional or vocational training for a work program, he or she may participate in the training subject to this section.

(6) The department shall coordinate education and work programs among its institutions, to the greatest extent possible, to facilitate continuity of programming among inmates transferred between institutions. Before transferring an inmate enrolled in a program, the department shall consider the effect the transfer will have on the inmate’s ability to continue or complete a program. This subsection shall not be used to delay or prohibit a transfer necessary for legitimate safety or security concerns.

(7) Before construction of a new correctional institution or expansion of an existing correctional institution, the department shall adopt a plan specifying how television will be used for education and training purposes in the institution. The plan shall specify how the use of television in the education and training programs will improve inmates’ preparedness for available work programs and job opportunities for which inmates may qualify upon release.

(8) The department shall adopt a plan to reduce the per pupil cost of instruction by, among other methods, increasing the use of volunteer instructors and implementing technological efficiencies. The plan shall be adopted by December 1996 and shall be submitted to the legislature upon adoption. The department shall, in adoption of the plan, consider distance learning, satellite instruction, video tape usage, computer-aided instruction, and flexible scheduling of offender instruction.

(9) Following completion of the review required by section 27(3), chapter 19, Laws of 1995 1st sp. sess. the department shall take all necessary steps to assure the vocation and education programs are relevant to work programs and skills necessary to enhance the employability of inmates upon release).

(6) Eligible inmates who refuse to participate in available education or work programs available at no charge to the inmates shall lose privileges according to the system established under RCW 72.09.130. Eligible inmates who are required to contribute financially to an education or work program and refuse to contribute shall be placed in another work program. Refusal to contribute shall not result in a loss of privileges.

(7) The department shall establish, by rule, objective medical standards to determine when an inmate is physically or mentally unable to participate in available education or work programs. When the department determines an inmate is permanently unable to participate in any available education or work program due to a medical condition, the inmate is exempt from the requirement under subsection (1) of this section. When the department determines an inmate is temporarily unable to participate in an education or work program due to a medical condition, the inmate is exempt from the requirement of subsection (1) of this section for the period of time he or she is temporarily disabled. The department shall periodically review the medical condition of all inmates with temporary disabilities to ensure the earliest possible entry or reentry by inmates into available programming.

(8) The department shall establish policies requiring an offender to pay all or a portion of the costs and tuition for any vocational training or postsecondary education program if the offender completed more than two hundred hours in the program and then withdrew from participation without approval from the department. Department policies shall include a formula for determining how much an offender shall be required to pay. The formula shall include steps which correlate to an offender’s average monthly income or average available balance in a personal inmate savings account and which are correlated to a prorated portion or percent of the per credit fee for tuition, books, or other ancillary costs. The formula shall be reviewed every two years. A third party may pay directly to the department all or a portion of costs and tuition for any program on behalf of an inmate under this subsection. Such payments shall not be subject to any of the deductions as provided in this chapter.

(9) Notwithstanding any other provision in this section, an inmate sentenced to life without the possibility of release or subject to the provisions of 8 U.S.C. Sec. 1227:

(a) Shall not be required to participate in education programming except as may be necessary for the maintenance of discipline and security;

(b) May receive not more than one postsecondary academic degree in a program offered by the department or its contracted providers;

(c) May participate in prevocational or vocational training that may be necessary to participate in a work program;

(d) Shall be subject to the applicable provisions of this chapter relating to inmate financial responsibility for programming.

NEW SECTION, Sec. 502. A new section is added to chapter 72.09 RCW to read as follows:

(1) The department shall, if funds are appropriated for the specific purpose, implement postsecondary education degree programs within state correctional institutions, including the state correctional institution with the largest population of female inmates. The department shall consider for inclusion in any postsecondary education degree program, any postsecondary education degree program from an accredited community college, college, or university that is part of an associate arts, baccalaureate, masters of arts, or other graduate degree program.

(2) Inmates shall be required to pay the costs for participation in any postsecondary education degree programs established under this subsection, including books, fees, tuition, or any other appropriate ancillary costs, by one or more of the following means:

An inmate may, prior to the completion of the fee-based education or vocational program authorized under this subsection, apply to a person designated by the secretary, for permission to make a change in his or her program. The secretary, or his or her designee, may approve the application based on the following criteria:

(2) Any person sentenced to life imprisonment without possibility of release or parole under chapter 10.95 RCW or sentenced to death shall be exempt from the requirement under subsection (1)(a)(i), (b)(ii), or (c)(i).
(3)(a) The department personal inmate savings account, together with any accrued interest, shall only be available to an inmate at the following time:
   (i) The time of his or her release from confinement [unlike];
   (ii) Prior to his or her release from confinement in order to secure approved housing; or
   (iii) When the secretary determines that an emergency exists for the inmate [at which time the funds can be].
(b) If funds are made available pursuant to (a)(ii) or (iii) of this subsection, the funds shall be made available to the inmate in an amount determined by the secretary.

This incentive shall be paid separately from the hourly wage/gratuity rate and shall not be subject to the specified deduction for cost of incarceration.

All funds deducted from inmate wages under subsection (1) of this section for the purpose of contributions to the cost of incarceration shall be deposited in a dedicated fund with the department and shall be used only for the purpose of enhancing and maintaining correctional industries work programs.
(8) It shall be in the discretion of the secretary to apportion the inmates between class I and class II depending on available contracts and resources.
(9) Nothing in this section shall limit the authority of the department of social and health services division of child support from taking collection action against an inmate's moneys, assets, or property pursuant to chapter 26.23, 74.20, or 74.20A RCW.

PART VIII - RESTORATION OF CIVIL RIGHTS

Sec. 801. RCW 29A.04.079 and 2003 c 111 s 114 are each amended to read as follows:
An "infamous crime" is a crime punishable by death in the state penitentiary or imprisonment in a state correctional facility. The definition of "infamous crime" does not include juvenile adjudications pursuant to chapter 13.40 RCW or adult convictions for misdemeanors and gross misdemeanors.

Sec. 802. RCW 29A.08.520 and 2005 c 246 s 15 are each amended to read as follows:
(1) ((Upon receiving official notice of a person's conviction of a felony in either state or federal court, the convicting court shall notify the county auditor the names of all persons whose rights, the revocation shall remain in effect until, upon motion by the person whose voting rights have been revoked, the person shows that he or she has made a good faith effort to pay as defined in RCW 9.90.020.)) A person who has been convicted of a felony and who is under the jurisdiction of the department of corrections as a result of that felony conviction is ineligible to vote. Following conviction of a felony, the right to vote is provisionally restored as long as the person is not under the jurisdiction of the department of corrections.
(2)(a) Once the right to vote has been provisionally restored, the sentencing court may revoke the provisional restoration of voting rights if the sentencing court determines that a person has willfully failed to comply with the terms of his or her order to pay legal financial obligations.
(b) If the person has failed to make three payments in a twelve-month period and the county clerk or restitution recipient requests, the prosecutor shall seek revocation of the provisional restoration of voting rights from the court.
(c) To the extent practicable, the prosecutor and county clerk shall inform a restitution recipient of the recipient's right to ask for the revocation of the provisional restoration of voting rights.
(3) If the court revokes the provisional restoration of voting rights, the revocation shall remain in effect until, upon motion by the person whose provisional voting rights have been revoked, the person shows that he or she has made a good faith effort to pay as defined in RCW 10.82.090.
(4) The county clerk shall enter into a database maintained by the administrator for the courts the names of all persons whose
provisional voting rights have been revoked, and update the database for any person whose voting rights have subsequently been restored pursuant to (6) of this section.

(5) At least twice a year, the secretary of state shall compare the list of registered voters to a list of felons who are not eligible to vote as provided in subsections (1) and (3) of this section. If (i) a person is found on a felon list and the statewide voter registration list) registered voter is not eligible to vote as provided in this section, the secretary of state or county auditor shall confirm the match through a date of birth comparison and suspend the voter registration from the official state voter registration list. The canceling authority shall send to the person at his or her last known voter registration address a notice of the proposed cancellation and an explanation of the requirements for provisionally and permanently restoring the right to vote ((once all terms of sentence have been completed)) and re-registering. If the person does not respond within thirty days, the registration must be canceled. To the extent possible, the secretary of state shall time the comparison required by this subsection to allow notice and cancellation of voting rights for ineligible voters prior to a primary or general election.

(6) The right to vote may be permanently restored by: (for felony conviction) one of the following for each felony conviction:

(a) A certificate of discharge issued by the sentencing court, as provided in RCW 9.94A.637;
(b) A court order restoring the right, as provided in RCW 9.92.066;
(c) A final order of discharge issued by the indeterminate sentence review board, as provided in RCW 9.96.050; or
(d) A certificate of restoration issued by the governor, as provided in RCW 9.96.020.

Sec. 803. RCW 9.92.066 and 2003 c 66 s 2 are each amended to read as follows:

(1) Upon termination of any suspended sentence under RCW 9.92.060 or 9.95.210, such person may apply to the court for restoration of his or her civil rights not already restored by RCW 29A.08.520. Thereupon the court may in its discretion enter an order directing that such defendant shall thereafter be released from all penalties and disabilities resulting from the offense or crime of which he or she has been convicted.

(2)(a) Upon termination of a suspended sentence under RCW 9.92.060 or 9.95.210, the person may apply to the sentencing court for a vacation of the person's record of conviction under RCW 9.94A.640. The court may, in its discretion, clear the record of conviction if it finds the person has met the equivalent of the tests in RCW 9.94A.640 and those tests would be applied to a person convicted of a crime committed before July 1, 1984.

(b) The clerk of the court in which the vacation order is entered shall immediately transmit the order vacating the conviction to the Washington state patrol identification section and to the local police agency, if any, which holds criminal history information for the person who is the subject of the vacation. The Washington state patrol and any such local police agency shall immediately update their records to reflect the vacation of the conviction, and shall transmit the order vacating the conviction to the federal bureau of investigation. A conviction that has been vacated under this section may not be disseminated or disclosed by the state patrol or local law enforcement agency to any person, except other criminal justice enforcement agencies.

Sec. 804. RCW 9.94A.637 and 2004 c 121 s 2 are each amended to read as follows:

(1)(a) When an offender has completed all requirements of the sentence, including any and all legal financial obligations, and while under the custody and supervision of the department, the secretary or the secretary's designee shall notify the sentencing court, which shall discharge the offender and provide the offender with a certificate of discharge by issuing the certificate to the offender in person or by mailing the certificate to the offender's last known address.

(b) When an offender has reached the end of his or her supervision with the department and has completed all the requirements of the sentence except his or her legal financial obligations, the secretary's designee shall provide the county clerk with a notice that the offender has completed all nonfinancial requirements of the sentence.

(ii) When the department has provided the county clerk with notice that an offender has completed all the requirements of the sentence and the offender subsequently satisfies all legal financial obligations under the sentence, the county clerk shall notify the sentencing court, including the notice from the department, which shall discharge the sentence and provide the offender with a certificate of discharge by issuing the certificate to the offender in person or by mailing the certificate to the offender's last known address.

(c) When an offender who is subject to requirements of the sentence in addition to the payment of legal financial obligations either is not subject to supervision by the department or does not complete the requirements while under supervision of the department, it is the offender's responsibility to provide the court with verification of the completion of the sentence conditions other than the payment of legal financial obligations. When the offender satisfies all legal financial obligations under the sentence, the county clerk shall notify the sentencing court that the legal financial obligations have been satisfied. When the court has received both notification from the clerk and adequate verification from the offender that the sentence requirements have been completed, the court shall discharge the offender and provide the offender with a certificate of discharge by issuing the certificate to the offender in person or by mailing the certificate to the offender's last known address.

(2) The court shall send a copy of every signed certificate of discharge to the auditor for the county in which the court resides and to the department. The department shall create and maintain a database containing the names of all felons who have been issued certificates of discharge, the date of discharge, and the date of conviction and offense.

(3) An offender who is not convicted of a violent offense or a sex offense and is sentenced to a term involving community supervision may be considered for a discharge of sentence by the sentencing court prior to the completion of community supervision, provided that the offender has completed at least one-half of the term of community supervision and has met all other sentence requirements.

(4) Except as provided in subsection (5) of this section, the discharge shall have the effect of restoring all civil rights ((lost by operation of law upon conviction)) not already restored by RCW 29A.08.520, and the certificate of discharge shall so state. Nothing in this section prohibits the use of an offender's prior record for purposes of determining sentences for later offenses as provided in this chapter. Nothing in this section affects or prevents use of the offender's prior conviction in a later criminal prosecution either as an element of an offense or for impeachment purposes. A certificate of discharge is not based on a finding of rehabilitation.

(5) Unless otherwise ordered by the sentencing court, a certificate of discharge shall not terminate the offender's obligation to comply with an order issued under chapter 10.99 RCW that excludes or prohibits the offender from having contact with a specified person or coming within a set distance of any specified location that was contained in the judgment and sentence. An offender who violates such an order after a certificate of discharge has been issued shall be subject to prosecution according to the chapter under which the order was originally issued.

(6) Upon release from custody, the offender may apply to the department for counseling and help in adjusting to the community. This voluntary help may be provided for up to one year following the release from custody.

Sec. 805. RCW 9.96.050 and 2002 c 16 s 3 are each amended to read as follows:

When a prisoner on parole has performed all obligations of his or her release, including any and all legal financial obligations, for such time as shall satisfy the indeterminate sentence review board that his or her final release is not incompatible with the best interests of society and the welfare of the paroled individual, the board may make a final order of discharge and issue a certificate of discharge to
the prisoner. The certificate of discharge shall be issued to the offender in person or by mail to the prisoner's last known address.

The board shall send a copy of every signed certificate of discharge ((to the auditor for the county in which the offender was sentenced and)) to the department of corrections. The department shall create and maintain a database containing the names of all felons who have been issued certificates of discharge, the date of discharge, and the date of conviction and offense.

The board retains the jurisdiction to issue a certificate of discharge after the expiration of the prisoner's or parolee's maximum statutory sentence. If not earlier granted, the board shall make a final order of discharge three years from the date of parole unless the parolee is on suspended or revoked status at the expiration of the three years. Such discharge, regardless of when issued, shall have the effect of restoring all civil rights ((except by operation of law upon conviction)) not already restored by RCW 29A.08.520, and the certification of discharge shall so state. This restoration of civil rights shall not restore the right to receive, possess, own, or transport firearms.

The discharge provided for in this section shall be considered as a part of the sentence of the convicted person and shall not in any manner be construed as affecting the powers of the governor to pardon any such person.

Sec. 806. RCW 10.64.140 and 2005 c 246 s 1 are each amended to read as follows:

When a person is convicted of a felony, the court shall require the defendant to sign a statement acknowledging that:

(1) The defendant's right to vote has been lost due to the felony conviction;

(2) (If the defendant is registered to vote, the voter registration will be canceled) The right to vote is provisionally restored as long as the defendant is not under the jurisdiction of the department of corrections;

(3) The provisional right to vote may be revoked if the defendant fails to comply with all the terms of his or her legal financial obligations or an agreement for the payment of legal financial obligations;

(((4))) (4) The right to vote may be permanently restored by one of the following for each felony conviction:

(a) A certificate of discharge issued by the sentencing court, as provided in RCW 9.94A.637;

(b) A court order issued by the sentencing court restoring the right, as provided in RCW 9.92.066;

(c) A final order of discharge issued by the indeterminate sentence review board, as provided in RCW 9.96.050; or

(d) A certificate of restoration issued by the governor, as provided in RCW 9.96.020; and

(((5))) (5) Voting before the right is restored is a class C felony under RCW 29A.84.660.

NEW SECTION. Sec. 807. The following acts or parts of acts are each repealed:

(4) RCW 10.64.021 (Notice of conviction) and 1994 c 57 s 1; and

(5) RCW 29A.08.660 (Felony offender--Completion of sentence) and 2005 c 246 s 12.

PART X - MISCELLANEOUS

Sec. 1001. RCW 9.94A.660 and 2006 c 339 s 302 and 2006 c 73 s 10 are each reenacted and amended to read as follows:

(1) An offender is eligible for the special drug offender sentencing alternative if:

(a) The offender is convicted of a felony that is not a violent offense or sex offense and the violation does not involve a sentence enhancement under RCW 9.94A.533 (3) or (4);

(b) The offender is convicted of a felony that is not a felony driving while under the influence of intoxicating liquor or any drug under RCW 46.61.502(6) or felony physical control of a vehicle while under the influence of intoxicating liquor or any drug under RCW 46.61.504(6);

(c) The offender has no current or prior convictions for a sex offense at any time or violent offense within ten years before conviction of the current offense, in this state, another state, or the United States;

(d) For a violation of the Uniform Controlled Substances Act under chapter 69.50 RCW or a criminal solicitation to commit such a violation under chapter 9A.28 RCW, the offense involved only a small quantity of the controlled substance as determined by the judge upon consideration of such factors as the weight, purity, packaging, sale price, and street value of the controlled substance;

(e) The offender has not been found by the United States attorney general to be subject to a deportation detainer or order and does not become subject to a deportation order during the period of sentence;

(f) The standard sentence range for the current offense is greater than one year; and

(g) The offender has not received a drug offender sentencing alternative more than once in the prior ten years before the current offense.

(2) A motion for a sentence under this section may be made by the court, the offender, or the state. If the sentencing court determines that the offender is eligible for this alternative, the court may order an examination of the offender. The examination shall, at a minimum, address the following issues:

(a) Whether the offender suffers from drug addiction;

(b) Whether the addiction is such that there is a probability that criminal behavior will occur in the future;
(c) Whether effective treatment for the offender's addiction is available from a provider that has been licensed or certified by the division of alcohol and substance abuse of the department of social and health services; and
(d) Whether the offender and the community will benefit from the use of the alternative.

(3) The examination report must contain:
(a) Information on the issues required to be addressed in subsection (2) of this section; and
(b) A proposed treatment plan that must, at a minimum, contain:

(iv) A proposed monitoring plan, including any requirements regarding living conditions, lifestyle requirements, and monitoring by family members and others; and
((iv)) (v) Recommended crime-related prohibitions and affirmative conditions.

(4) After receipt of the examination report, if the court determines that a sentence under this section is appropriate, the court shall waive imposition of a sentence within the standard sentence range and impose a sentence consisting of either a prison-based alternative under subsection (5) of this section or a residential chemical dependency treatment-based alternative under subsection (6) of this section. The residential chemical dependency treatment-based alternative is only available if the midpoint of the standard range is twenty-four months or less.

(5) The prison-based alternative shall include:
(a) A period of total confinement in a state facility for one-half of the midpoint of the standard sentence range or twelve months, whichever is greater. During incarceration in the state facility, offenders sentenced under this subsection shall undergo a comprehensive substance abuse assessment and receive, within available resources, treatment services appropriate for the offender. The treatment services shall be designed by the division of alcohol and substance abuse of the department of social and health services, in cooperation with the department of corrections;
(b) The remainder of the midpoint of the standard range as a term of community custody which must include a readily available appropriate substance abuse treatment in a program that has been approved by the division of alcohol and substance abuse of the department of social and health services. In the event that an approved substance abuse treatment program is not readily available, the offender shall remain in confinement in a state facility until such treatment program becomes available. If the department finds that conditions have been willfully violated, the offender may be reclassified to serve the unexpired term of his or her sentence as ordered by the sentencing court;
(c) Crime-related prohibitions including a condition not to use illegal controlled substances;
(d) A requirement to submit to urinalysis or other testing to monitor that status; and

(6) The residential chemical dependency treatment-based alternative shall include:
(a) A term of community custody equal to one-half of the midpoint of the standard sentence range or two years, whichever is greater, provided that:
(i) An appropriate substance abuse treatment program is readily available; and
(ii) Conditioned on the offender entering and remaining in residential chemical dependency treatment certified under chapter 70.96A RCW for a period set by the court between three and six months. In the event that a residential chemical dependency treatment program is not readily available, the offender shall be transferred and confined in a state facility until such treatment program becomes available to the offender. If the court imposes a term of community custody, the department shall, within available resources, make chemical dependency assessment and treatment services available to the offender during the term of community custody. The court shall impose conditions of community custody, treatment and other conditions as proposed in the plan under subsection (3)(b) of this section. The department may impose conditions and sanctions as authorized in RCW 9.94A.715 (2), (3), (6), and (7), 9.94A.737, and 9.94A.740. The court shall schedule a progress hearing during the period of residential chemical dependency treatment, and schedule a treatment termination hearing for three months before the expiration of the term of community custody;
(b) Before the progress hearing and treatment termination hearing, the treatment provider and the department shall submit written reports to the court and parties regarding the offender's compliance with treatment and monitoring requirements, and recommendations regarding termination from treatment. At the hearing, the court may:
(i) Authorize the department to terminate the offender's community custody status on the expiration date determined under (a) of this subsection; or
(ii) Continue the hearing to a date before the expiration date of community custody, with or without modifying the conditions of community custody; or

(7) If the court imposes a sentence under this section, the court may prohibit the offender from using alcohol or controlled substances and may require that the monitoring for controlled substances be conducted by the department or by a treatment alternative to street crime program or a comparable court or agency-referred program. The offender may be required to pay thirty dollars per month while on community custody to offset the cost of monitoring. In addition, the court may impose any of the following conditions:
(a) Devote time to a specific employment or training;
(b) Remain within prescribed geographical boundaries and notify the court or the community corrections officer before any change in the offender's address or employment;
(c) Report as directed to a community corrections officer;
(d) Pay all court-ordered legal financial obligations;
(e) Perform community restitution work;
(f) Stay out of areas designated by the sentencing court;
(g) Such other conditions as the court may require such as affirmative conditions.

(8) (a) The court may bring any offender sentenced under this section back into court at any time on its own initiative to evaluate the offender's progress in treatment or to determine if any violations of the conditions of the sentence have occurred.

(b) If the offender is brought back to court, the court may modify the terms of the community custody or impose sanctions under (c) of this subsection.

(c) The court may order the offender to serve a term of total confinement within the standard range of the offender's current offense at any time during the period of community custody if the offender violates the conditions of the sentence or if the offender is failing to make satisfactory progress in treatment.

(d) An offender ordered to serve a term of total confinement under (c) of this subsection shall receive credit for any time previously served under this section.

(9) If an offender sentenced to the prison-based alternative under subsection (5) of this section is found by the United States attorney general to be subject to a deportation order, a hearing shall be held by the department unless waived by the offender, and, if the department
finds that the offender is subject to a valid deportation order, the department may administratively terminate the offender from the program and reclassify the offender to serve the remaining balance of the original sentence.

(10) An offender sentenced under this section shall be subject to all rules relating to earned release time with respect to any period served in total confinement.

(11) Costs of examinations and preparing treatment plans under subsections (2) and (3) of this section may be paid, at the option of the county, from funds provided to the county from the criminal justice treatment account under RCW 70.96A.350.

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature recognizes that public disclosure exemptions are enacted to meet objectives which are determined to be in the public interest. Given the changing nature of information technology and management, record keeping, and the increasing number of public disclosure exemptions, the legislature finds that periodic reviews of public disclosure exemptions are needed to determine if the exemption serves the public interest.

NEW SECTION. Sec. 2. (1) The public records exemptions accountability committee is created to review public disclosure exemptions.

(2) The committee has seven members as follows:

(a) One member is the attorney general, who is a nonvoting member;

(b) One member is the chair of the joint legislative audit and review committee, who is a nonvoting member;

(c) The chair of each of the two largest caucuses of the senate and the two largest caucuses of the house of representatives shall each appoint a member. None of these appointees may be members of the legislature; and

(d) The governor shall select the seventh member.

(3) Persons appointed by the caucus chairs should be individuals who represent a balance of perspectives and constituencies, and have a basic understanding of public records law, government operations, and information technology. These appointees should have knowledge and expertise in public records policy, public records access, public information, or closely related fields.

(4) The committee shall select a chair from among its voting or nonvoting members. Decisions of the committee shall be made using the sufficient consensus model. For the purposes of this subsection, "sufficient consensus" means the point at which the majority of the committee favors taking a particular action. If the committee determines that sufficient consensus cannot be reached, a vote must be taken. The committee must allow a minority report to be included with a decision of the committee, if requested by a member of the committee.

(5) Members serve for terms of four years, with the terms expiring on June 30th of the fourth year of the term. In the case of the initial terms, however, the members appointed by the chairs of the senate caucuses shall serve four-year terms, the members appointed by the house of representatives caucuses shall serve three-year terms, and the member appointed by the governor shall serve a two-year term, with each of the terms expiring on June 30th of the applicable year. Appointees may reappointed to serve more than one term.

(6) The joint legislative audit and review committee shall provide clerical, technical, and management personnel to the committee to serve as the committee's staff. In addition, the code reviser, the office of program research, the senate committee services, and the office of the attorney general shall provide support and information to the committee as the chair may request.

(7) The committee shall meet at least once a quarter and may hold additional meetings at the call of the chair or by a majority vote of the members of the committee. The members of the committee shall be compensated in accordance with RCW 43.03.220 and reimburs for travel expenses in accordance with RCW 43.03.050 and 43.03.060.
NEW SECTION. Sec. 3. (1) The public records exemptions accountability committee shall develop a schedule to accomplish an orderly review of all exemptions to public disclosure at least once every four years. The committee shall determine the order of review of public disclosure exemptions.

(2) The committee shall revise the schedule as needed each year, taking into account newly created or terminated public disclosure exemptions. The committee shall deliver the schedule to the joint legislative audit and review committee by July 1st of each year.

(3) The committee shall provide a process for effective citizen input during its deliberations.

NEW SECTION. Sec. 4. (1) The joint legislative audit and review committee shall review public disclosure exemptions according to the schedule developed under section 3 of this act. The committee shall consider, but not be limited to, the following factors in the review:

(a) Public policy objectives that might provide a justification for the public disclosure exemption, including but not limited to, the legislative history, any legislative intent, or the extent to which the public disclosure exemption is warranted;

(b) The individuals, organizations, or industries who are directly affected by the public disclosure exemption;

(c) The extent to which the continuation of the public disclosure exemption might contribute to the public policy objectives;

(d) The extent to which the public disclosure exemption may provide unintended benefits to an individual, organization, or industry other than those the legislature intended;

(e) The extent to which terminating the public disclosure exemption may have negative effects on the group that currently benefits from the public disclosure exemption;

(f) The feasibility of modifying the public disclosure exemption to provide for adjustment to continue the public policy of open government;

(g) Impacts of the public disclosure exemption, including past impacts and expected future impacts if it is continued;

(h) The extent to which termination of the public disclosure exemption would affect liability of the state; and

(i) Consideration of similar public disclosure exemptions adopted or repealed in other states or by the federal government and potential public policy benefits that might be gained by taking corresponding action in Washington.

(2) For each public disclosure exemption, the committee shall provide a recommendation as to whether the public disclosure exemption should be continued or modified, scheduled for sunset review at a future date, or terminated immediately. The committee may recommend accountability standards for the future review of public disclosure exemptions.

NEW SECTION. Sec. 5. (1) The joint legislative audit and review committee shall report its findings and recommendations for scheduled public disclosure exemptions to the public records exemptions accountability committee by October 30th of each year. The joint legislative audit and review committee may revise its report based on the comments, prepare a final report that includes the comments, and submit the final report to the house of representatives and the senate by November 30th.

(2) Following receipt of a report under this section, the appropriate committees of the house of representatives and the senate shall jointly hold a public hearing to consider the final report and any related data.

NEW SECTION. Sec. 6. By July 1, 2007, the code reviser shall provide the committee with a list of all exemptions from public disclosure in the revised code of Washington and those not codified in the order they have been enacted into law.

ESSB 5452 Prime Sponsor, Senate Committee On Human Services & Corrections: Providing for reunification after termination of parental rights. Reported by Committee on Early Learning & Children's Services

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 13.34 RCW to read as follows:

(1) A child may petition the juvenile court to reinstate the previously terminated parental rights of his or her parent under the following circumstances:

(a) The child must have been found to be a dependent child under this chapter;

(b) The child must be at least twelve years of age at the time the petition to reinstate parental rights is filed;

(c) At least three years have passed from the date of entry of an order for the termination of parental rights;

(d) The child's permanent plan is adoption and the child has not been adopted;

(e) The petition is signed by the child, unless the court finds good cause not to require the child's signature; and

(f) The petition alleges facts demonstrating the parent is fit and that reinstatement of parental rights is in the best interest of the child.

(2) Upon the filing of a petition to reinstate parental rights, the juvenile court shall order that a hearing be held. The court shall give prior notice, or cause prior notice to be given, to the department, the child's attorney, the child, the child's foster parent, and the child's tribe, if applicable. The court shall also order the department to give prior notice of the hearing to the child's former parent or parents whose parental rights were terminated and to any parent of the child whose parental rights were not terminated.

(3) The juvenile court shall conditionally grant the petition if it finds the following by clear and convincing evidence:

(a) The parental deficiencies which led to the termination of parental rights have been addressed to a degree that assures the court that the reinstatement of parental rights will not present a risk to the child's health, welfare, or safety;

(b) The child is currently able to care for the child such that placement of the child with the parent will not present a risk to the child's health, welfare, or safety;

(c) The child is no longer likely to be adopted; and

(d) That reinstatement of parental rights is in the child's best interest.

(4)(a) If the court conditionally grants the petition under subsection (3) of this section, the case will be continued for one year. During this period, the child shall be placed in the custody of the parent. The department shall develop a permanency plan for the child reflecting the plan to be reunification. The department shall provide transition services to the family as appropriate. The court shall conduct a minimum of two review hearings to determine the status of the case and the well-being of the child.

(b) If the child must be removed from the parent due to abuse or neglect allegations, the court shall dismiss the petition for reinstatement of parental rights if the court finds the allegations have been proven by a preponderance of the evidence.

(c) If the child has been successfully placed with the parent for one year, the court order reinstating parental rights remains in effect and the court shall dismiss the dependency if the court finds that
dismission of the dependency is in the best interests of the child and will not present a risk to the child's health, welfare, or safety.

(5) A child seeking to petition under this section shall be provided counsel prior to the filing of the petition.

(6) The child's former parent or parents have the right to be represented by counsel, and if indigent, have counsel appointed for him or her by the court after the petition for reinstatement of parental rights has been filed. Unless waived in court, counsel shall be provided to the child's parent if such person (a) has appeared in the proceeding or requested the court to appoint counsel and (b) is financially unable to obtain counsel because of indigency.

(7) A proceeding to reinstate parental rights is a separate action from the termination of parental rights proceeding and does not vacate the original termination of parental rights. An order granted under this section reinstates the parental rights to the child. This reinstatement is a recognition that the situation of the parent and child have changed since the time of the termination of parental rights and reunification is now appropriate.

NEW SECTION. Sec. 2. This act is retroactive and applies to any child who is under the jurisdiction of the juvenile court at the time of the hearing regardless of the date parental rights were terminated.

Sec. 3. RCW 13.34.200 and 2003 c 227 s 7 are each amended to read as follows:

(1) Upon the termination of parental rights pursuant to RCW 13.34.180, all rights, powers, privileges, immunities, duties, and obligations, including any rights to custody, control, visitation, or support existing between the child and parent shall be severed and terminated and the parent shall have no standing to appear at any further legal proceedings concerning the child, except as provided in section 1 of this act: PROVIDED, That any support obligation existing prior to the effective date of the order terminating parental rights shall not be severed or terminated. The rights of one parent may be terminated without affecting the rights of the other parent and the order shall so state.

(2) An order terminating the parent and child relationship shall not disentitle a child to any benefit due the child from any third person, agency, state, or the United States, nor shall any action under this chapter be deemed to affect any rights and benefits that an Indian child derives from the child's descent from a member of a federally recognized Indian tribe.

(3) An order terminating the parent-child relationship shall include a statement addressing the status of the child's sibling relationships and the nature and extent of sibling placement, contact, or visits.

NEW SECTION. Sec. 4. A new section is added to chapter 43.20A RCW to read as follows:

The state, the department, and its employees or agents are not liable for civil damages resulting from any act or omission in the provision of child welfare or child protective services through the children's administration of the department of social and health services, unless the act or omission constitutes gross negligence. This section does not create any duty and shall not be construed to create a duty where none exists. This section does not create a cause of action against the state, the department, or its employees concerning the original termination.

NEW SECTION. Sec. 5. Nothing in this act may be construed to limit the application of other statutes specifying a liability standard for the state's employees and agents.

In the development of this assessment, consideration shall be given to changes in professional certification program components such as the culminating seminar;

(ii) Summarize its work in the development of the assessment in (b)(i) of this subsection in the annual reports required by RCW 28A.410.240; and

(iii) Review and revise the standards for higher education teacher preparation programs to incorporate updated practices to enhance teacher success in a knowledge and skill-based performance system that emphasizes strong content, applied learning, and personal, meaningful connections with students; and

(c) By December 2009, review and revise as needed teacher preparation standards and requirements to focus on diversity in cultural knowledge and respect.

NEW SECTION. Sec. 3. Sections 3 through 7 of this act represent core components of a comprehensive initiative to improve mathematics, science, and targeted secondary reading education and achievement through educator professional development and support. The initiative focuses on:

(1) A regional delivery system to provide professional development and support to schools and school districts through the educational service districts;

(2) A tiered support system that provides resources, services, assistance, and intervention for schools and districts, depending on their levels of need;

(3) Leveraging existing public and private resources and district-initiated activities; and

(4) Accountability through outcome-oriented performance agreements, contracts, reporting, and data collection.

NEW SECTION. Sec. 4. (1) The mathematics, science, and targeted secondary reading improvement initiative shall provide the capacity and resources for the superintendent of public instruction, educational service districts, school districts, and schools to conduct a broad range of activities, depending on the level of need and priority of the school or district. The focus of the initiative is on building and enhancing the quality of mathematics and science instruction.

(2) Activities supported by the initiative include, but are not limited to:

(a) Targeted professional development in content knowledge, content-specific pedagogy, differentiated instruction, effective teaching strategies, learning modules, and mathematics and science standards and curriculum;

(b) Use and analysis of diagnostic assessments and other data on student achievement to improve instruction;

(c) Curriculum alignment and development or purchase of supplemental materials;

(d) Integration of technology; and

(e) Mentors and instructional coaches.

NEW SECTION. Sec. 5. In support of the mathematics, science, and targeted secondary reading improvement initiative, the office of the superintendent of public instruction shall:

(1) Create a partnership with the educational service districts to develop and deliver professional development learning opportunities for educators that fulfill the goals and address the specific targeted activities described in this section. The partnership shall:

(a) Support school districts by providing professional development leadership, courses, and consultation services to school districts in their implementation of the professional development activities described in sections 3 through 7 of this act; and

(b) Support one another in the delivery of state-level and regional-level professional development activities such as state conferences and regional accountability institutes;

(2) Enter into a performance agreement with each educational service district to clearly articulate partner responsibilities and assure fidelity for the delivery of professional development initiatives including job-embedded practices. Components of such performance agreements shall include:

(a) Participation in the development of various professional development workshops, programs, and activities;

(b) Characteristics and qualifications of professional development staff supported by the program;

(c) Methods to ensure consistent delivery of professional development services; and

(d) Reporting responsibilities related to services provided, program participation, outcomes, and recommendations for service improvement;

(3) In collaboration with the educational service districts, develop a methodology for distributing funds appropriated for activities under the tiered support system in section 6 of this act among the educational service districts and among the three tiers of support. The methodology shall take into account the anticipated demands and need for services by school districts in each tier and the size of those school districts. The methodology shall also reflect a higher priority and greater need for support and resources for schools and districts in tier three;

(4) Develop guidelines for educational service districts in administering grants, developing district improvement agreements, and implementing intensive intervention and support services. The guidelines shall not require all educational service districts to follow the same procedures in all circumstances, but shall ensure general equity for school districts across the state in how the districts may access resources under the initiative and the activities and services that are provided by the educational service districts;

(5) Identify the schools and school districts eligible for tier three intensive intervention and support, based on low student performance in mathematics and science. The superintendent shall consider whether the school has the capacity to feasibly integrate additional resources with any existing state or federal improvement funds. To the maximum extent possible, the identification of and the intensive intervention services provided to tier three schools and districts shall align with the accountability plan developed by the state board of education; and

(6) In collaboration with the educational service districts, develop guidelines and a common reporting format for collecting data and information about the activities and outcomes under the initiative and designate one or more common common diagnostic assessments for districts to use in reporting and monitoring student achievement.
NEW SECTION. Sec. 6. Resources for the mathematics, science, and targeted secondary reading improvement initiative shall be provided through the office of the superintendent of public instruction and educational service districts to schools and school districts based on a tiered support system. The legislature's intent is that resources from the mathematics, science, and targeted secondary reading improvement initiative are provided over a four-year period.

(1) Tier one: Initiative grants. School districts may apply on a competitive basis through their educational service district for grants to support activities to improve mathematics, science, and secondary reading instruction. A district may contract with the educational service district for services, use the grant for district-initiated activities, or both. Tier one districts must demonstrate how district resources and resources from public-private partnerships shall be used to leverage the grant funds. Tier one grant recipients must identify measurable outcomes from the activities supported by the grant and report results in a prescribed format, including student achievement data from designated diagnostic assessments.

(2) Tier two: Improvement agreements. School districts may work with the office of the superintendent of public instruction and educational service districts to plan, develop, and implement a mathematics, science, and targeted secondary reading improvement initiative tailored to the needs of the district. The office of the superintendent of public instruction, the educational service district, and the school district shall develop a joint agreement that identifies the services and support to be provided by the educational service district, the activities to be conducted by the district using improvement agreement funds, and the expected measurable outcomes from the activities. Recipients of funds under a tier two improvement agreement must report results of the activities supported by the agreement in a prescribed format, including student achievement data from designated diagnostic assessments.

(3) Tier three: Intensive intervention and support. School districts and schools with low student performance in mathematics, science, and/or secondary reading as identified by the superintendent of public instruction under section 5 of this act are eligible for intensive intervention and support coordinated by the office of the superintendent of public instruction and/or the educational service district. School districts or individual schools may receive tier three support. Recipients of funds under tier three support must:

(a) Participate in an audit of the mathematics, science, and secondary reading instructional delivery system, including policies and practices, curriculum alignment, teacher pedagogy and content knowledge, and assessment of overall climate and practice compared to best practices;

(b) Develop, with assistance from the educational service district or school district intervention plan that focuses on areas of highest need and provides intensive professional development in those areas;

(c) Participate in professional development using the services of a technical assistance team that includes a trained and experienced facilitator and mathematics, science, or reading instructional coaches to provide job-embedded professional development; and

(d) Identify measurable outcomes from the activities supported by the grant and report results in a prescribed format, including student achievement data from designated diagnostic assessments.

NEW SECTION. Sec. 7. (1) Educational service districts shall coordinate with the superintendent of public instruction to develop and maintain the capacity to provide administrative, professional development, technical assistance, and intervention services under the mathematics, science, and targeted secondary reading improvement initiative to support school districts as required under section 6 of this act, including:

(a) Administering, reviewing, and monitoring grants for tier one grant recipients and providing contracted services;

(b) Developing, administering, and monitoring tier two improvement agreements and providing support and services under the terms of the agreements; and

(c) Coordinating and providing the intensive intervention and support for tier three schools and districts, including the instructional audit, intervention plan, and intervention team.

(2) Educational service districts shall also:

(a) Develop public-private partnerships and seek external grants and funds to leverage the state resources provided to support the mathematics, science, and targeted secondary reading improvement initiative;

(b) Collect, compile, and disseminate data and information about the activities and outcomes under the initiative, including student achievement data from designated diagnostic assessments; and

(c) Develop appropriate reporting and monitoring procedures to ensure accountability for the use of funds distributed to school districts through the tiered support system and for the achievement of desired outcomes.

Sec. 8. RCW 28A.310.350 and 1977 ex.s. c 283 s 10 are each amended to read as follows:

The basic core services and cost upon which educational service districts are budgeted shall include, but not be limited to, the following:

(1) Educational service district administration and facilities such as office space, maintenance and utilities;

(2) Cooperative administrative services such as assistance in carrying out procedures to abolish sex and race bias in school programs, fiscal services, grants management services, special education services and transportation services;

(3) Personnel services such as certification/registration services;

(4) Learning resource services such as audio visual aids;

(5) Cooperative curriculum services such as health promotion and health education services, in-service training, workshops and assessment; and

(6) Professional development services identified by statute or the omnibus appropriations act; and

(7) Special needs of local education agencies.

NEW SECTION. Sec. 9. RCW 28A.300.350 (Excellence in mathematics training program) and 1999 c 347 s 2 are each repealed.

NEW SECTION. Sec. 10. Sections 3 through 7 of this act are each added to chapter 28A.415 RCW under the subchapter heading "Mathematics, science, and targeted secondary reading improvement initiative."

Sec. 11. RCW 28A.415.200 and 1989 c 146 s 1 are each amended to read as follows:

The legislature finds that it is important to have a teaching force that reflects the rich diversity of the students served in the public schools. A diverse and culturally competent teaching force provides a unique social, emotional, and academic learning environment for a diverse student body. The legislature further finds that certain groups, as characterized by ethnic background, are traditionally underrepresented in the teaching profession in the state of Washington and that the ethnic diversity of the student population in the state of Washington is increasing. (The legislature intends to increase the number of people from underrepresented groups entering our teaching force.) The legislature further finds that Washington lacks a systemic and strategic recruitment approach to increasing diversity among educators. Additional steps must be taken to increase the number of diverse high school students who seek to enter the teaching profession, especially in teacher shortage areas and among multilingual, multicultural students.

NEW SECTION. Sec. 12. A new section is added to chapter 28A.415 RCW to read as follows:

(1) The recruiting diverse Washington teachers program is established to recruit and provide training and support for diverse high school students to enter the teaching profession, especially in teacher shortage areas and among multilingual, multicultural students. The program shall be administered by the professional educator standards board.

(2) The program shall consist of the following components:

(a) Targeted recruitment of diverse students, especially multilingual, multicultural students in grades nine through twelve through outreach and communication strategies. The focus of recruitment efforts shall be on encouraging students to consider and
explore becoming future teachers in mathematics, science, bilingual education, special education, and English as a second language;
(b) A curriculum that provides future teachers with opportunities to observe classroom instruction at all grade levels; includes preteaching internships at all grade levels with a focus on shortage areas; and covers such topics as lesson planning, learning styles, student learning data and information, the achievement gap, cultural competency, and education policy;
(c) Academic and community support services for students to help them overcome possible barriers to becoming future teachers, such as supplemental tutoring; advising on college readiness, applications, and financial aid processes; and mentoring; and
(d) Future teacher camps held on college campuses where students can attend workshops and interact with college faculty and current teachers.
(3) As part of its administration of the program, the professional educator standards board shall:
(a) Develop the curriculum and program guidelines in consultation with an advisory group of teachers, representatives of teacher preparation programs, teacher candidates, students, and representatives of diverse communities;
(b) Subject to funds appropriated for this purpose, allocate grant funds through a competitive process to partnerships of high schools, teacher preparation programs, and community-based organizations to design and deliver programs that include the components under subsection (2) of this section; and
(c) Conduct an evaluation of the effectiveness of current strategies and programs for recruiting diverse teachers, especially multilingual, multicultural teachers, in Washington and in other states. The board shall use the findings from the evaluation to revise the recruiting diverse Washington teachers program as necessary and make other recommendations to teacher preparation programs or the legislature.

NEW SECTION. Sec. 13. RCW 28A.415.205 (Minority teacher recruitment program) and 2005 c 497 s 211, 1991 c 238 s 75, & 1989 c 146 s 2 are each repealed.

SSB 6011 Prime Sponsor, Senate Committee On Water, Energy & Telecommunications: Creating the Maury Island aquatic reserve. Reported by Committee on Select Committee on Puget Sound

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 79.105 RCW under the subchapter heading "other management provisions" to read as follows:
(1) There is created the Maury Island aquatic reserve. The reserve encompasses only state-owned tidelands and bedlands, except that the department may include tidelands or shorelands contiguous to state aquatic lands where the owner provides written permission for inclusion of such lands in the reserve and states in writing an intent to sell or donate the lands to the state in the future. The commissioner may expand the reserve by administrative order designating additional contiguous state-owned tidelands and bedlands, or by accepting written permission by the owner of contiguous aquatic lands, where the commissioner determines the lands in the designation or private owner permission meet one or more of the following characteristics:
(a) The lands have been identified as having high priority for conservation, natural systems, wildlife, and low-impact public use values;
(b) The lands have flora, fauna, geological, recreational, archaeological, cultural, scenic, or similar features of critical importance and have retained to some degree or reestablished its natural character;
(c) The lands provide significant examples of native ecological communities; and
(d) The lands have significant sites or features threatened with conversion to incompatible uses.
(2) The Maury Island aquatic reserve shall include the lands designated by administrative order under subsection (1) of this section, and the tidelands and bedlands surrounding Maury Island and including Quartermaster Harbor in King county, as described in this subsection:
The tidelands and bedlands of navigable waters, owned by the state of Washington, described as follows:
Those tidelands and bedlands surrounding Maury Island, which are fronting and abutting Sections 14, Sections 20-23, inclusively, and Sections 28-32, inclusively, Township 22 North, Range 3 East, W.M.;
Together with, those tidelands and bedlands lying westerly of said Maury Island, which are fronting and abutting only those portions of Sections 9 and 16, which are fronting on Quartermaster Harbor, Township 22 North, Range 3 East, W.M.;
Together with, those tidelands and bedlands lying southerly of said Maury Island, which are fronting and abutting Sections 5 and 6, Township 21 North, Range 3 East, W.M.; and said reserve extends waterward to a water depth of 70 feet below mean lower low water or one-half mile from the line of extreme low tide, whichever line is further waterward;
Those tidelands and bedlands lying southerly and easterly of Vashon Island, which are fronting and abutting Section 1, Township 21 North, Range 2 East, W.M.;
Together with, those tidelands and bedlands lying easterly of said Vashon Island, which are fronting and abutting Sections 24, 25, and 36, Township 22 North, Range 2 East, W.M.;
Together with, those tidelands and bedlands lying easterly of said Vashon Island, which are fronting and abutting Sections 17-20, inclusively, Township 22 North, Range 3 East, W.M.;
Together with, those tidelands and bedlands lying southerly and westerly of said Vashon Island, which are fronting and abutting only those portions of Section 8, which is fronting on Quartermaster Harbor, Township 22 North, Range 3 East, W.M.; and said reserve extends waterward to a water depth of 70 feet below mean lower low water or one-half mile from the line of extreme low tide, whichever line is further waterward.
(3) The department shall manage the Maury Island aquatic reserve primarily for the achievement of the following goals:
(a) To conserve native habitats and associated plant and wildlife species, with a special emphasis upon forage fish, salmonids, and migratory birds;
(b) To protect and restore the functions and natural processes of nearshore ecosystems in support of the natural resources of the reserve;
(c) To promote stewardship of riparian and aquatic habitats and species by providing education and outreach opportunities and promoting coordination with other resource managers; and
(d) To provide for low-impact public uses including recreation uses and improvements that do not adversely affect the resource values, are appropriate to the maintenance of the lands in a relatively unmodified natural setting, and do not detract from long-term ecological processes.
(4) The department shall develop a management plan for the aquatic reserve, and may incorporate an existing management plan and policies previously adopted for the lands where consistent with the management guidance of this section. The plan must identify the significant resources to be conserved consistent with the purposes of
this chapter and identify the areas with potential for low-impact public uses. The plan must specify what types of management activities and public uses are permitted, consistent with the conservation purposes of this chapter. The department shall make the plan available for review and comment by the public and other state, tribal, and local agencies, prior to final approval by the commissioner.

(5)(a) Until November 1, 2007, the department shall not authorize any portion of the Maury Island aquatic reserve for industrial uses or for transportation of materials from a surface mine or mining operation as defined under RCW 78.44.031 or other industrial activities, and may not authorize the construction of docks or other improvements associated with these uses.

(b) Nothing in this section shall preclude any landowner from initiating, continuing, or completing a land use permitting process for aquatic lands or uplands affected by this section either before or after November 1, 2007.

(c) After November 1, 2007, the department may authorize portions of the Maury Island aquatic reserve for industrial uses or for transportation of materials from a surface mine or mining operation and may authorize the construction of docks or other improvements associated with these uses only if the commissioner publishes formal findings in the Washington State Register that:

(i) The proposed uses are fully permitted under all applicable federal, state, and local laws;

(ii) There is an identified market demand for the mineral resources located on the uplands adjacent to the Maury Island aquatic reserve that cannot be reasonably accessed or transported in quantities necessary to satisfy the demand without the construction of a dock or other improvements;

(iii) There is not an existing portion of state-owned uplands containing a comparable mineral resource with a significantly equitable value to any mineral resources existing on upland parcels adjacent to the Maury Island aquatic reserve, that is located in an area that would allow for the extraction and waterborne transportation of the minerals in a manner that provides less risk to the health of the state's aquatic environment than extraction and transportation from the uplands adjacent to the Maury Island aquatic reserve would create; and

(iv) The commissioner conducts at least one hearing on either Vashon or Maury Island where the public can express concerns or make recommendations.

Sec. 2. RCW 79.105.210 and 2005 c 155 s 143 are each amended to read as follows:

(1) The management of state-owned aquatic lands shall preserve and enhance water-dependent uses. Water-dependent uses shall be favored over other uses in state-owned aquatic land planning and in resolving conflicts between competing lease applications. In cases of conflict between water-dependent uses, priority shall be given to uses which enhance renewable resources, water-borne commerce, and the navigational and biological capacity of the waters, and to statewide interests as distinguished from local interests.

(2) Nonwater-dependent use of state-owned aquatic lands is a low-priority use providing minimal public benefits and shall not be permitted to expand or be established in new areas except in exceptional circumstances where it is compatible with water-dependent uses occurring in or planned for the area.

(3) The department shall consider the natural values of state-owned aquatic lands as wildlife habitat, natural area preserve, representative ecosystem, or spawning area prior to issuing any initial use or authorizing any change in use. The department may withhold from leasing lands which it finds to have significant natural values, or may provide within any lease for the protection of such values.

(4) The power to lease state-owned aquatic lands is vested in the department, which has the authority to make leases upon terms, conditions, and length of time in conformance with the state Constitution and chapters 79.105 through 79.140 RCW. Leases, easements, licenses, permits, rights-of-way, and any other agreements allowing use of state-owned aquatic lands designated as an aquatic reserve under section 1 of this act must conform with the management criteria expressed in chapters 79.105 through 79.140 RCW and with section 1 of this act.

(5) State-owned aquatic lands shall not be leased to persons or organizations which discriminate on the basis of race, color, creed, religion, sex, age, or physical or mental handicap.

NEW SECTION. Sec. 3. (1) It is the intent of the legislature that the creation of the Maury Island aquatic reserve will not have a net impact on the available construction material resource or an economic impact on any private sector mineral operation. It is the intent of the legislature, expressed through the implementation of this section, for any existing mineral-extraction operations affected by the creation of the Maury Island aquatic reserve to be offered compensation in the form of an opportunity to transfer title of their land to the state in exchange for land elsewhere with an equal or greater extractable mineral resource.

(b) In order to gather the information necessary to implement this section, the department of natural resources shall work with the owner or owners of the mineral resources existing on upland parcels adjacent to the Maury Island aquatic reserve to allow the department of natural resources to conduct an estimate of the value of the mineral resources present.

(3) Within three months of the identification of a comparable mineral resource under this section, the department of natural resources shall, through any authorities, programs, or management options available to it, make a good faith offer to transfer the ownership of the identified parcel to the owner or owners of the mineral resources existing on upland parcels adjacent to the Maury Island aquatic reserve in exchange for the transfer to the state of ownership of the mineral resources existing on upland parcels adjacent to the Maury Island aquatic reserve.

(4) Any land transferred into state ownership under this section must be managed in accordance with the trust status originally applicable to the land for which ownership was transferred to the former owner or owners of the mineral resources existing on upland parcels adjacent to the Maury Island aquatic reserve. If this management status is not appropriate for holding the upland parcels adjacent to the Maury Island aquatic reserve in a comparable status, then the department of natural resources shall pursue and prioritize all available options to transfer the land into a state-owned landholding status appropriate for conservation management.

(5) When the transfer of the identified parcel to the owner or owners of the mineral resources existing on upland parcels adjacent to the Maury Island aquatic reserve has been completed, all state agencies and local subdivisions of the state shall provide a coordinated and expedited permitting process to assist the owners or owners of the transferred parcel in permitting a mineral extraction project on the transferred parcel. The office of regulatory assistance is responsible for overseeing and ensuring that the permitting process is coordinated and expedited.

(6) The department of natural resources shall report to the appropriate committees of the legislature by December 31, 2008, as to the details of the land transfer completed under this section.

NEW SECTION. Sec. 4. The department shall prioritize expenditures, within existing appropriations for the 2005-2007 and the 2007-2009 fiscal bienniums, from the resource management cost account to implement this act.

NEW SECTION. Sec. 5. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

"Sec. 1. RCW 90.82.060 and 2003 c 328 s 1 are each amended to read as follows:

(1) Planning conducted under this chapter must provide for a process to allow the local citizens within a WRIA or multi-WRIA area to join together in an effort to: (a) Assess the status of the water resources of their WRIA or multi-WRIA area; and (b) determine how best to manage the water resources of the WRIA or multi-WRIA area
to balance the competing resource demands for that area within the parameters under RCW 90.82.120.

(2) Watershed planning under this chapter may be initiated for a WRIA only with the concurrence of: ((()) (i) All counties within the WRIA; ((())) (ii) the largest city or town within the WRIA unless the WRIA does not contain a city or town; and ((())) (iii) the water supply utility obtaining the largest quantity of water from the WRIA or, for a WRIA with lands within the Columbia Basin project, the water supply utility obtaining from the Columbia Basin project the largest quantity of water for the WRIA. To apply for a grant for organizing the planning unit as provided for under RCW 90.82.040(2)(a), these entities shall designate the entity that will serve as the lead agency for the planning effort and indicate how the planning unit will be staffed.

(b) For purposes of this chapter, WRIA 40 shall be divided such that the portion of the WRIA located entirely within the Stenmilt and Squilchuck subbasins shall be considered WRIA 40a and the remaining portion shall be considered WRIA 40b. Planning may be conducted separately for WRIA 40a and 40b. WRIA 40a shall be eligible for one-fourth of the funding available for a single WRIA, and WRIA 40b shall be eligible for three-fourths of the funding available for a single WRIA.

(c) For purposes of this chapter, WRIA 29 shall be divided such that the portion of the WRIA located entirely within the White Salmon subbasin and the subbasins east thereof shall be considered WRIA 29b and the remaining portion shall be considered WRIA 29a. Planning may be conducted separately for WRIA 29a and 29b: WRIA 29a shall be eligible for one-half of the funding available for a single WRIA and WRIA 29b shall be eligible for one-half of the funding available for a single WRIA.

(3) Watershed planning under this chapter may be initiated for a multi-WRIA area only with the concurrence of: (a) All counties within the multi-WRIA area; (b) the largest city or town in each WRIA unless the WRIA does not contain a city or town; and (c) the water supply utility obtaining the largest quantity of water in each WRIA.

(4) If entities in subsection (2) or (3) of this section decide jointly and unanimously to proceed, they shall invite all tribes with reservation lands within the management area.

(5) The entities in subsection (2) or (3) of this section, including the tribes if they affirmatively accept the invitation, constitute the initiating governments for the purposes of this section.

(6) The organizing grant shall be used to organize the planning unit and to determine the scope of the planning to be conducted. In determining the scope of the planning activities, consideration shall be given to all existing plans and related planning activities. The scope of the planning shall include water quantity elements as provided in RCW 90.82.070, and may include water quality elements as contained in RCW 90.82.090, habitat elements as contained in RCW 90.82.100, and instream flow elements as contained in RCW 90.82.108. The initiating governments shall work with state government, other local governments within the management area, and affected tribal governments, in developing a planning process. The initiating governments may hold public meetings as deemed necessary to develop a proposed scope of work and a proposed composition of the planning unit. In developing a proposed composition of the planning unit, the initiating governments shall provide for representation of a wide range of water resource interests.

(7) Each state agency with regulatory or other interests in the WRIA or multi-WRIA area to be planned shall assist the local citizens in the planning effort to the greatest extent practicable, recognizing any fiscal limitations. In providing such technical assistance and to facilitate representation on the planning unit, state agencies may organize and agree upon their representation on the planning unit. Such technical assistance must only be at the request of and to the extent desired by the planning unit conducting such planning. The number of state agency representatives on the planning unit shall be determined by the initiating governments in consultation with the governor's office.

"NEW SECTION. Sec. 1. Washington is home to some of the world's most innovative companies, researchers, entrepreneurs, and workers. Talent and creativity exist in all areas of Washington, but economic experience around the world shows that economic impact can be particularly large where talent and resources are densely concentrated. All over the world, small, specific areas are becoming focal points for economic change and leadership. These areas have name recognition, attract some of the best talent, and provide a strong sense of community among the people who work there. Washington is home to some of these areas now and needs to have more of them in the future. It is the intent of the legislature that Washington support the identification and promotion of innovation partnership zones to advance Washington's position in the world economy. Washington is a national leader in economic strategy based on clusters of industries, promoting the connections among firms, suppliers, customers, and public resources. Washington's innovation partnership zone strategy is an extension of that policy to promote research-based firms and industries in specific areas that become globally recognized as hubs of innovation and expertise.

NEW SECTION. Sec. 2. A new section is added to chapter 43.330 RCW to read as follows:

(1) The director shall designate innovation partnership zones on the basis of the following criteria:

(a) Innovation partnership zones must have three types of institutions operating within their boundaries, or show evidence of planning and local partnerships that will lead to dense concentrations of these institutions:

(i) Research capacity in the form of a university or community college fostering commercially valuable research, nonprofit institutions creating commercially applicable innovations, or a national laboratory;

(ii) Dense proximity of globally competitive firms in a research-based industry or industries or of individual firms with innovation strategies linked to (a)(i) of this subsection. A globally competitive firm may be signified through international organization for standardization 9000 or 1400 certification, or other recognized evidence of international success; and

(iii) Training capacity either within the zone or readily accessible to the zone. The training capacity requirement may be met by the same institution as the research capacity requirement, to the extent both are associated with an educational institution in the proposed zone.

(b) The support of a local jurisdiction, a research institution, an educational institution, an industry or cluster association, a workforce development council, and an associate development organization, port, or chamber of commerce;

(c) Identifiable boundaries for the zone within which the applicant will concentrate efforts to connect innovative researchers, entrepreneurs, investors, industry associations or clusters, and training providers. The geographic area defined should lend itself to a distinct identity and have the capacity to accommodate firm growth;

(d) The innovation partnership zone administrator must be an economic development council, port, workforce development council, city, or county.

(2) On October 1st of each year, the director shall designate innovation partnership zones on the basis of applications that meet the legislative criteria, estimated economic impact of the zone, and evidence of forward planning for the zone. The director will designate an innovation partnership zone administrator in the local area.

(3) Innovation partnership zones are eligible for funds and other resources as provided by the legislature or at the discretion of the governor.

(4) If the innovation partnership zone meets the other requirements of the fund sources, then the zone is eligible for the following funds relating to:

(a) The local infrastructure financing tools program;

(b) The sales and use tax for public facilities in rural counties; and

(c) Job skills.

(5) An innovation partnership zone shall be designated as a zone for a four-year period. At the end of the four-year period, the zone must reapply for the designation through the department.

(6) The department shall convene annual information sharing events for innovation partnership zone administrators and other interested parties.

(7) An innovation partnership zone shall provide performance measures as required by the director, including but not limited to private investment measures, job creation measures, and measures of innovation such as licensing of ideas in research institutions, patents, or other recognized measures of innovation. The Washington state economic development commission may review annually the individual innovation partnership zone's performance measures.

NEW SECTION. Sec. 3. (1) The department of community, trade, and economic development, in conjunction with the Washington state economic development commission, shall conduct an innovation opportunity analysis to identify: (a) The strongest current intellectual assets and research teams in the state focused on emerging technologies and their commercialization, and (b) faculty and researchers that could increase their focus on commercialization of technology if provided the appropriate technical assistance and resources. The inventory must be completed by June 30, 2008.

(2) Based on its findings and analysis, and in conjunction with the higher education coordinating board and research institutions, the department of community, trade, and economic development must develop a plan to build on existing, and develop new, intellectual assets and innovation research teams in the state in research areas where there is a high potential to commercialize technologies. The department of community, trade, and economic development shall present the plan to the governor and legislature by September 1, 2008.

Sec. 4. RCW 39.102.070 and 2006 c 181 s 205 are each amended to read as follows:

The use of local infrastructure financing under this chapter is subject to the following conditions:

(1) No funds may be used to finance, design, acquire, construct, equip, operate, maintain, remodel, repair, or reequip public facilities funded with taxes collected under RCW 82.14.048;

(2)(a) Except as provided in (b) of this subsection no funds may be used for public improvements other than projects identified within
the capital facilities, utilities, housing, or transportation element of a comprehensive plan required under chapter 36.70A RCW;
(b) Funds may be used for public improvements that are historical preservation activities as defined in RCW 39.89.020;
(c) Funds may be used for innovation partnership zones, as provided under section 2 of this act;
(3) The public improvements proposed to be financed in whole or in part using local infrastructure financing are expected to encourage private development within the revenue development area and to increase the fair market value of real property within the revenue development area;
(4) A sponsoring local government, participating local government, or participating taxing district has entered or expects to enter into a contract with a private developer relating to the development of private improvements within the revenue development area, or has received a letter of intent from a private developer relating to the developer’s plans for the development of private improvements within the revenue development area;
(5) Private development that is anticipated to occur within the revenue development area, as a result of the public improvements, will be consistent with the county-wide planning policy adopted by the county under RCW 36.70A.210 and the local government’s comprehensive plan and development regulations adopted under chapter 36.70A RCW;
(6) The governing body of the sponsoring local government, and any cosponsoring local government, must make a finding that local infrastructure financing:
(a) Is not expected to be used for the purpose of relocating a business from outside the revenue development area, but within this state, into the revenue development area; and
(b) Will improve the viability of existing business entities within the revenue development area;
(7) The governing body of the sponsoring local government, and any cosponsoring local government, finds that the public improvements proposed to be financed in whole or in part using local infrastructure financing are reasonably likely to:
(a) Increase private residential and commercial investment within the revenue development area;
(b) Increase employment within the revenue development area;
(c) Improve the viability of any existing communities that are based on mixed-use development within the revenue development area; and
(d) Generate, over the period of time that the local option sales and use tax will be imposed under RCW 82.14.475, state excise tax allocation revenues and state property tax allocation revenues derived from the revenue development area that are equal to or greater than the contributions made under this chapter;
(8) The sponsoring local government may only use local infrastructure financing in areas deemed in need of economic development or redevelopment within boundaries of the sponsoring local government.

Sec. 5. RCW 82.14.370 and 2004 c 130 s 2 are each amended to read as follows:
(1) The legislative authority of a rural county may impose a sales and use tax in accordance with the terms of this chapter. The tax is in addition to other taxes authorized by law and shall be collected from those persons who are taxable by the state under chapters 82.08 and 82.12 RCW upon the occurrence of any taxable event within the county. The rate of tax shall not exceed 0.08 percent of the selling price in the case of a sales tax or value of the article used in the case of a use tax, except that for rural counties with population densities between sixty and one hundred persons per square mile, the rate shall not exceed 0.04 percent before January 1, 2000.
(2) The tax imposed under subsection (1) of this section shall be deducted from the amount of tax otherwise required to be collected or paid over to the department of revenue under chapter 82.08 or 82.12 RCW. The department of revenue shall perform the collection of such taxes on behalf of the county at no cost to the county.
(a) Moneys collected under this section shall only be used to finance public facilities serving economic development purposes in rural counties or for innovation partnership zones, as provided under section 2 of this act. The public facility must be listed as an item in the officially adopted county overall economic development plan, or the economic development section of the county’s comprehensive plan, or the comprehensive plan of a city or town located within the county for those counties planning under RCW 36.70A.040. For those counties that do not have an adopted overall economic development plan and do not plan under the growth management act, the public facility must be listed in the county’s capital facilities plan or the capital facilities plan of a city or town located within the county;
(b) In implementing this section, the county shall consult with cities, towns, and port districts located within the county and the associate development organization serving the county to ensure that the expenditure meets the goals of chapter 130, Laws of 2004 and the requirements of (a) of this subsection. Each county collecting money under this section shall report to the office of the state auditor, no later than October 1st of each year, a list of new projects from the prior fiscal year, showing that the county has used the funds for those projects consistent with the goals of chapter 130, Laws of 2004 and the requirements of (a) of this subsection. Any projects financed prior to June 10, 2004, from the proceeds of obligations to which the tax imposed under subsection (1) of this section has been pledged shall not be deemed to be new projects under this subsection;
(c) For the purposes of this section, (i) “public facilities” means bridges, roads, domestic and industrial water facilities, sanitary sewer facilities, earth stabilization, storm sewer facilities, railroad, electricity, natural gas, buildings, structures, telecommunications infrastructure, transportation infrastructure, or commercial infrastructure, and port facilities in the state of Washington; and (ii) “economic development purposes” means those purposes which facilitate the creation or retention of businesses and jobs in a county.
(4) No tax may be collected under this section before July 1, 1998. No tax may be collected under this section by a county more than twenty-five years after the date that a tax is first imposed under this section.
(5) For purposes of this section, “rural county” means a county with a population density of less than one hundred persons per square mile or a county smaller than two hundred twenty-five square miles as determined by the office of financial management and published each year by the department for the period July 1st to June 30th.

NEW SECTION. Sec. 6. A new section is added to chapter 43.370 RCW to read as follows:

The commission shall present the plan to the governor and legislature by December 31, 2007. The higher education coordinating board shall be responsible for implementing the plan in conjunction with the publicly funded research institutions in the state.
The plan shall address the following elements and such other elements as the commission deems important:

(A) Specific mechanisms to support, enhance, or develop innovation research teams and strengthen their research and commercialization capacity in areas identified as useful to strategic clusters and innovative firms in the state;

The department’s selection of contracting organizations or consortiums shall be based on the sufficiency of the organization’s or consortium’s proposal to examine key sectors of the local economy within its region adequately and its ability to coordinate the delivery of services required by businesses within the targeted sectors. Organizations contracting with the department shall work closely with the department to examine the local economy and to develop strategies to focus on developing key sectors that show potential for long-term sustainable growth. It is an unfair practice for any employment agency to fail or refuse to classify properly or refer for employment, or otherwise to discriminate against, an individual because of age, sex, marital status, sexual orientation, race, creed, color, national origin, honorably discharged veteran or military status, or the presence of any sensory, mental, or physical disability or the use of a trained dog guide or service animal by a ((disabled)) person with a disability, or to print or circulate, or cause to be printed or circulated any statement, advertisement, or publication, or to use any form of application for employment, or to make any inquiry in connection with prospective employment, which expresses any limitation, specification or discrimination as to age, sex, race, sexual orientation, creed, color, or national origin, honorably discharged veteran or military status, or the presence of any sensory, mental, or physical disability or the use of a trained dog guide or service animal by a ((disabled)) person with a disability, or any intent to make any such specification, or discrimination, unless based upon a bona fide occupational qualification: PROVIDED, Nothing contained herein shall prohibit advertising in a foreign language.

Sec. 13. RCW 49.60.215 and 2006 c 4 s 13 are each amended to read as follows:

It shall be an unfair practice for any person or the person's agent or employee to commit an act which directly or indirectly results in any distinction, restriction, or discrimination, or the requiring of any person to pay a larger sum than the uniform rates charged other persons, or the refusing or withholding from any person the admission, patronage, custom, presence, frequenting, dwelling, staying, or lodging in any place of public resort, accommodation, assembly, or amusement, except for conditions and limitations established by law and applicable to all persons, regardless of race, creed, color, national origin, sexual orientation, sex, honorably discharged veteran or military status, the presence of any sensory, mental, or physical disability, or the use of a trained dog guide or service animal by a ((disabled)) person with a disability: PROVIDED, That this section shall not be construed to require structural changes, modifications, or additions to make any place accessible to a ((disabled)) person with a disability except as otherwise required by law: PROVIDED, That behavior or actions constituting a risk to property or other persons can be grounds for refusal and shall not constitute an unfair practice.

Sec. 14. RCW 49.60.222 and 2006 c 4 s 14 are each amended to read as follows:

It is an unfair practice for any person, whether acting for himself, herself, or another, because of sex, marital status, sexual orientation, race, creed, color, national origin, families with children status, honorably discharged veteran or military status, the presence of any sensory, mental, or physical disability, or the use of a trained dog guide or service animal by a ((disabled)) person with a disability:
(a) To refuse to engage in a real estate transaction with a person;
(b) To discriminate against a person in the terms, conditions, or privileges of a real estate transaction or in the furnishing of facilities or services in connection therewith;
(c) To refuse to receive or to fail to transmit a bona fide offer to engage in a real estate transaction from a person;
(d) To refuse to negotiate for a real estate transaction with a person;
(e) To represent to a person that real property is not available for inspection, sale, rental, or lease when in fact it is so available, or to fail to bring a property listing to his or her attention, or to refuse to permit the person to inspect real property;
(f) To discriminate in the sale or rental, or to otherwise make unavailable or deny a dwelling to any person; or to a person residing in or intending to reside in that dwelling after it is sold, rented, or made available; or to any person associated with the person buying or renting;
(g) To make, print, circulate, post, or mail, or cause to be so made or published a statement, advertisement, or sign, or to use a form of application for a real estate transaction, or to make a record or inquiry in connection with a prospective real estate transaction, which indicates, directly or indirectly, an intent to make a limitation, specification or discrimination with respect thereto;

Nothing in this section shall limit the effect of RCW 49.60.176 relating to unfair practices in credit transactions; or
(k) To attempt to do any of the unfair practices defined in this section:

(2) For the purposes of this chapter discrimination based on the presence of any sensory, mental, or physical disability or the use of
a trained dog guide or service animal by a person who is blind, deaf, or physically disabled ("person") includes:

(a) A refusal to permit, at the expense of the ([disabled]) person with a disability, reasonable modifications of existing premises occupied or to be occupied by such person if such modifications may be necessary to afford such person full enjoyment of the dwelling, except that, in the case of a rental, the landlord may, where it is reasonable to do so, condition permission for a modification on the renter agreeing to restore the interior of the dwelling to the condition that existed before the modification, reasonable wear and tear excepted;

(b) To refuse to make reasonable accommodation in rules, policies, practices, or services when such accommodations may be necessary to afford a person with the presence of any sensory, mental, or physical disability and/or the use of a trained dog guide or service animal by a person who is blind, deaf, or physically disabled ("person") equal opportunity to use and enjoy a dwelling;

(c) To fail to design and construct covered multifamily dwellings and premises in conformance with the federal fair housing amendments act of 1988 (42 U.S.C. Sec. 3601 et seq.) and all other applicable laws or regulations pertaining to access by persons with any sensory, mental, or physical disability or use of a trained dog guide or service animal. Whenever the requirements of applicable laws or regulations differ, the requirements which require greater accessibility for persons with any sensory, mental, or physical disability shall govern.

Nothing in (a) or (b) of this subsection shall apply to: (i) A single-family house rented or leased by the owner if the owner does not own or have an interest in the proceeds of the rental or lease of more than three such single-family houses at one time, the rental or lease occurred without the use of a real estate broker or salesperson, as defined in RCW 18.85.010, and the rental or lease occurred without the publication, posting, or mailing of any advertisement, sign, or statement in violation of subsection (1)(g) of this section; or (ii) rooms or units in dwellings containing living quarters occupied or intended to be occupied by no more than four families living independently of each other if the owner maintains and occupies one of the rooms or units as his or her residence.

(3) Notwithstanding any other provision of this chapter, it shall not be an unfair practice or a denial of civil rights for any public or private educational institution to separate the sexes or give preference to or limit use of dormitories, residence halls, or other student housing to persons of one sex or to make distinctions on the basis of marital or families with children status.

(4) Except pursuant to subsection (2)(a) of this section, this section shall not be construed to require structural changes, more than minor additions to a public building, or to make the premises or services accessible to and usable by ([disabled]) person with a disability except as otherwise required by law. Nothing in this section affects the rights, responsibilities, and remedies of landlords and tenants pursuant to chapter 59.18 or 59.20 RCW, including the right to post and enforce reasonable rules of conduct and safety for all tenants and their guests, provided that chapters 59.18 and 59.20 RCW are only affected to the extent they are inconsistent with the nondiscrimination requirements of this chapter. Nothing in this section limits the applicability of any reasonable federal, state, or local restrictions regarding the maximum number of occupants permitted to occupy a dwelling.

(5) Notwithstanding any other provision of this chapter, it shall not be an unfair practice for any public establishment providing for accommodations offered for the full enjoyment of transient guests as defined by RCW 9.91.010(1)(c) to make distinctions on the basis of families with children status. Nothing in this section shall limit the effect of RCW 49.60.215 relating to unfair practices in places of public accommodation.

(6) Nothing in this chapter prohibiting discrimination based on families with children status applies to housing for older persons as defined by the federal fair housing amendments act of 1988, 42 U.S.C. Sec. 3607(b)(1) through (3), as amended by the housing for older persons act of 1995, P.L. 104-76, as enacted on December 28, 1995.

Nothing in this chapter authorizes requirements for housing for older persons different than the requirements in the federal fair housing amendments act of 1988, 42 U.S.C. Sec. 3607(b)(1) through (3), as amended by the housing for older persons act of 1995, P.L. 104-76, as enacted on December 28, 1995.

(7) Nothing in this chapter shall apply to real estate transactions involving the sharing of a dwelling unit, or rental or sublease of a portion of a dwelling unit, when the dwelling unit is to be occupied by the owner or sublessee. For purposes of this section, “dwelling unit” has the same meaning as in RCW 59.18.030.

Sec. 15. RCW 49.60.223 and 2006 c 4 s 15 are each amended to read as follows:

It is an unfair practice for any person, for profit, to induce or attempt to induce any person to sell or rent any real property by representations regarding the entry or prospective entry into the neighborhood of a person or persons of a particular race, creed, color, sex, national origin, sexual orientation, families with children status, honorably discharged veteran or military status, or with any sensory, mental, or physical disability and/or the use of a trained dog guide or service animal by a person who is blind, deaf, or physically disabled ("person").

Sec. 16. RCW 49.60.224 and 2006 c 4 s 16 are each amended to read as follows:

(1) Every provision in a written instrument relating to real property which purports to forbid or restrict the conveyance, encumbrance, occupancy, or lease thereof to individuals of a specified race, creed, color, sex, national origin, sexual orientation, families with children status, honorably discharged veteran or military status, or with any sensory, mental, or physical disability and/or the use of a trained dog guide or service animal by a person who is blind, deaf, or physically disabled ("person").

(2) It is an unfair practice to insert in a written instrument relating to real property a provision that is void under this section or to honor or attempt to honor such a provision in the chain of title.

Sec. 17. RCW 49.60.225 and 2006 c 4 s 17 are each amended to read as follows:

(1) When a reasonable cause determination has been made under RCW 49.60.240 that an unfair practice in a real estate transaction has been established and the person has engaged in any unfair practice under RCW 49.60.250, the administrative law judge shall promptly issue an order for such relief suffered by the aggrieved person as may be appropriate, which may include actual damages as provided by the federal fair housing amendments act of 1988 (42 U.S.C. Sec. 3601 et seq.), and injunctive or other equitable relief. Such order may, to further the public interest, assess a civil penalty against the respondent:

(a) In an amount up to ten thousand dollars if the respondent has not been determined to have committed any prior unfair practice in a real estate transaction;

(b) In an amount up to twenty-five thousand dollars if the respondent has been determined to have committed one or more unfair practices in a real estate transaction during the five-year period ending on the date of the filing of this charge; or

(c) In an amount up to fifty thousand dollars if the respondent has been determined to have committed two or more unfair practices in a real estate transaction during the seven-year period ending on the date of the filing of this charge, for loss of the right secured by RCW 49.60.200, the administrative law judge shall promptly issue an order for such relief suffered by the aggrieved person as may be appropriate, which may include actual damages as provided by the federal fair housing amendments act of 1988 (42 U.S.C. Sec. 3601 et seq.), and injunctive or other equitable relief. Such order may, to further the public interest, assess a civil penalty against the respondent:

(a) In an amount up to ten thousand dollars if the respondent has not been determined to have committed any prior unfair practice in a real estate transaction;

(b) In an amount up to twenty-five thousand dollars if the respondent has been determined to have committed one or more unfair practices in a real estate transaction during the five-year period ending on the date of the filing of this charge; or

(c) In an amount up to fifty thousand dollars if the respondent has been determined to have committed two or more unfair practices in a real estate transaction during the seven-year period ending on the date of the filing of this charge, for loss of the right secured by RCW 49.60.200, the administrative law judge shall promptly issue an order for such relief suffered by the aggrieved person as may be appropriate, which may include actual damages as provided by the federal fair housing amendments act of 1988 (42 U.S.C. Sec. 3601 et seq.), and injunctive or other equitable relief. Such order may, to further the public interest, assess a civil penalty against the respondent:

(a) In an amount up to ten thousand dollars if the respondent has not been determined to have committed any prior unfair practice in a real estate transaction;

(b) In an amount up to twenty-five thousand dollars if the respondent has been determined to have committed one or more unfair practices in a real estate transaction during the five-year period ending on the date of the filing of this charge; or

(c) In an amount up to fifty thousand dollars if the respondent has been determined to have committed two or more unfair practices in a real estate transaction during the seven-year period ending on the date of the filing of this charge, for loss of the right secured by RCW 49.60.200, the administrative law judge shall promptly issue an order for such relief suffered by the aggrieved person as may be appropriate, which may include actual damages as provided by the federal fair housing amendments act of 1988 (42 U.S.C. Sec. 3601 et seq.), and injunctive or other equitable relief. Such order may, to further the public interest, assess a civil penalty against the respondent:

(a) In an amount up to ten thousand dollars if the respondent has not been determined to have committed any prior unfair practice in a real estate transaction;
appeal therefrom by the complainant or respondent may be made as provided in RCW 49.60.260 and 49.60.270. If acts constituting the unfair practice in a real estate transaction that is the object of the charge are determined to have been committed by the same natural person who has been previously determined to have committed acts constituting an unfair practice in a real estate transaction, then the civil penalty of up to fifty thousand dollars may be imposed without regard to the period of time within which any subsequent unfair practice in a real estate transaction occurred. All civil penalties assessed under this section shall be paid into the state treasury and credited to the general fund.

(2) Such order shall not affect any contract, sale, conveyance, encumbrance, or lease consummated before the issuance of an order that involves a bona fide purchaser, encumbrancer, or tenant who does not have actual notice of the charge filed under this chapter.

(3) Notwithstanding any other provision of this chapter, persons awarded damages under this section may not receive additional damages pursuant to RCW 49.60.250."

SSB 5207  Prime Sponsor, Senate Committee On Transportation: Concerning a study to evaluate the imposition of a fee on the processing of shipping containers, port-related user fees, and other funding mechanisms to improve freight corridors; creating the freight congestion relief account. Reported by Committee on Transportation

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 46.68 RCW to read as follows:

The legislature finds that the freight sector provides thousands of high-quality, well-paid jobs in Washington state and contributes significantly to the economy of the state. The legislature further finds that these benefits result despite the fact that freight makes up a fraction of vehicle traffic on our roads and that the commercial benefits of freight movement are compromised by the same congestion that plagues general traffic.

The legislature also finds that as domestic and international freight volumes grow, and our state's economy becomes increasingly dependent on the one out of every three jobs supported by international trade, there is growing need for system-wide funding solutions to enhance a world class goods movement system that does not divert cargo and jobs to Canada, Mexico, Panama, Oregon, California, and the east coast of the United States. Accordingly, it is the intent of the legislature to study a broad array of mechanisms to fund freight congestion relief investments.

NEW SECTION. Sec. 2. (1) Subject to availability of amounts appropriated for this specific purpose, the joint transportation committee shall:

...
(a) Administer a consultant study of alternative funding mechanisms to fund freight congestion relief investments. At a minimum, the study must: (i) Evaluate potential funding sources for off-marine terminal infrastructure projects, including federal, state, incentives, and other project specific fees; (ii) analyze current taxes and fees paid by the freight industry and the projects the taxes and fees fund; (iii) assess other nonfreight related taxes and fees that could be used to pay for freight congestion relief investments; (iv) assess how other states and countries pay for freight congestion relief investments; and (v) discuss the various approaches and their impacts on Washington competitiveness in freight movement. The scope of the work for the study may be expanded to include analysis of other issues relevant to freight congestion relief funding; and

(b) Convene a stakeholder group composed of representatives to work on the consultant study that includes: Two representatives of container ports, one representative of trucking, one representative from railroads, one representative from international shipping, one representative from national shipping, two representatives of organized labor, two representatives of the import/export community, one representative from the department of transportation, one representative from the freight mobility strategic investment board, and other representatives as deemed necessary by the joint transportation committee. The stakeholder group shall work with the selected consultant in: (i) Identifying critical freight congestion relief investments; (ii) identifying alternatives for a dedicated funding source for freight congestion relief investments or user fees to fund specific freight congestion relief investments; and (iii) developing and reviewing a final consultant study.

(2) The consultant’s draft report must be submitted to the transportation committees of the legislature by December 15, 2007, with the final findings and recommendations of the report being due prior to the beginning of the 2008 legislative session.

ESSB 5269 Prime Sponsor, Senate Committee On Early Learning & K-12 Education: Establishing the first peoples’ language and culture teacher certification program. Reported by Committee on State Government & Tribal Affairs

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that:

(1) Teaching first peoples’ languages, cultures, and history is a critical factor in successful educational experiences and promoting cultural sensitivity for all students. Experience shows such teaching dramatically raises student achievement. The effect is particularly strong for Native American students;

(2) Native American students have the highest high school dropout rate among all groups of students. Less than one-fourth of Native American students in the class of 2008 are on track to graduate based on the results of the Washington assessment of student learning. Positive and supportive educational experiences are critical for Native American students’ success;

(EIGHTY SECOND DAY, MARCH 30, 2007 879)
The the expertise of sovereign tribal governments whose traditional lands and territories lie within the borders of the state of Washington, in the transmission of their indigenous languages, heritage, cultural knowledge, histories, customs, and traditions should be honored;

Government-to-government collaboration between the state and the sovereign tribal governments whose traditional lands and territories lie within the borders of the state of Washington serves to implement the spirit of the 1989 federal accord and other similar government-to-government agreements, including the 2004 accord between the federally recognized Indian tribes with treaty reserved rights in the state of Washington;

Establishing a first peoples’ language, culture, and history teacher certification program both achieves educational objectives and models effective government-to-government relationships;

Establishing a first peoples’ language, culture, and history teacher certification program implements the following policy objectives of P.L. 101-477, the federal Native American languages act of 1990, in a tangible way:

(a) To preserve, protect, and promote the rights and freedom of Native Americans to use, practice, and develop Native American languages;

(b) To allow exceptions to teacher certification requirements for federal programs and programs funded in whole or in part by the federal government, for instruction in Native American languages when such teacher certification requirements hinder the employment of qualified teachers who teach in Native American languages, and to encourage state and territorial governments to make similar exceptions;

(c) To encourage and support the use of Native American languages as a medium of instruction in order to encourage and support Native American language survival, educational opportunity, increased student success and performance, increased student awareness and knowledge of their culture and history, and increased student and community pride;

(d) To encourage and support the use of Native American languages as a medium of instruction in order to encourage and support Native American language survival, educational opportunity, increased student success and performance, increased student awareness and knowledge of their culture and history, and increased student and community pride;

(e) To encourage state and local education programs to work with Native American parents, educators, Indian tribes, and other Native American governing bodies in the implementation of programs to put this policy into effect; and

(f) To encourage all institutions of elementary, secondary, and higher education, where appropriate, to include Native American languages in the curriculum in the same manner as foreign languages and to grant proficiency in Native American languages the same full academic credit as proficiency in foreign languages;

Establishing a first peoples’ language, culture, and history teacher certification program is consistent with the intent of presidential executive order 13336 from sovereign tribal governments’ also known as American Indian and Alaska native education," to assist students in meeting the challenging student academic standards of P.L. 107-110, the no child left behind act of 2001, in a manner that is consistent with tribal traditions, languages, and cultures.

New Section. Sec. 2. A new section is added to chapter 28A.410 RCW to read as follows:

The Washington state first peoples’ language, culture, and history teacher certification program is established. The professional educator standards board shall adopt rules to implement the program in collaboration with the sovereign tribal governments whose traditional lands and territories lie within the borders of the state of Washington, including the tribal leader congress on education and the first peoples’ language and culture committee. The collaboration required under this section shall be defined by a protocol for cogovernance in first peoples’ language, culture, and history education developed by the professional educator standards board, the office of the superintendent of public instruction, and the sovereign tribal governments whose traditional lands and territories lie within the borders of the state of Washington.

Any sovereign tribal government whose traditional lands and territories lie within the borders of the state of Washington may participate individually on a government-to-government basis in the program.

Under the first peoples’ language, culture, and history teacher certification program:

(a) Only a participating sovereign tribal government may certify individuals who meet the tribe’s criteria for certification as a teacher in the Washington state first peoples’ language, culture, and history program. Before certification of the individual, the participating sovereign tribal government may conduct a background check through the tribal police departments within Washington state to determine, to the extent possible, whether the individual has been convicted of any crimes that may otherwise disqualify the person from being awarded a teacher certificate and provide this information to the office of the superintendent of public instruction. The office of the superintendent of public instruction shall not authorize or accept a certificate or endorsement in Washington state first peoples’ language, culture, and history without certification from a participating sovereign tribal government and without conducting a record check of an individual applying for certification as required under RCW 28A.410.010;

(b) For each teacher to be certified in the program, the participating sovereign tribal government shall submit information and documentation necessary for the issuance of a state certificate, as defined by rule, to the office of the superintendent of public instruction;

(c) A Washington state first peoples’ language, culture, and history teacher certificate serves as a subject area endorsement in first peoples’ language, culture, and history. The holder of a Washington state first peoples’ language, culture, and history teacher certificate who does not also hold an initial, residency, continuing, or professional teaching certificate authorized by the professional educator standards board may be assigned to teach only the languages, cultures, and histories designated on the certificate and no other subject;

(d) In order to teach first peoples’ language, culture, and history, teachers must hold certificates from both the office of the superintendent of public instruction and the sovereign tribal government; and

(e) The holder of a Washington state first peoples’ language, culture, and history teacher certificate meets Washington state’s definition of a highly qualified teacher under P.L. 107-110, the no child left behind act of 2001, for the purposes of teaching first peoples’ language, culture, and history, subject to approval by the United States department of education;

First peoples’ language/culture teacher certificates issued under rules approved by the state board of education or the professional educator standards board under a pilot program before the effective date of this section remain valid as certificates under this section, subject to the provisions of this chapter.

Schools and school districts on or near tribal reservations are encouraged to contract with tribal governments whose traditional lands and territories lie within the borders of the state of Washington and first peoples’ language, culture, and history teacher certification programs for in-service teacher training and continuing education in the culture and history appropriate for their geographic area, as well as suggested pedagogy and instructional strategies.

Sec. 3. RCW 28A.415.020 and 2006 c 263 s 808 are each amended to read as follows:

ESSB 5317 Prime Sponsor, Senate Committee On Human Services & Corrections: Creating additional safeguards for child care. Reported by Committee on Early Learning & Children's Services

MAJORITY recommendation: Do pass as amended. Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 43.215.005 and 2006 c 265 s 101 are each amended to read as follows:

(1) The legislature recognizes that:
(a) Parents are their children's first and most important teachers and decision makers;
(b) Research across disciplines now demonstrates that what happens in the earliest years makes a critical difference in children's readiness to succeed in school and life;
(c) Washington's competitiveness in the global economy requires a world-class education system that starts early and supports life-long learning;
(d) Washington state currently makes substantial investments in voluntary child care and early learning services and supports, but because services are fragmented across multiple state agencies, and early learning providers lack the supports and incentives needed to improve the quality of services they provide, many parents have difficulty accessing high quality early learning services;
(e) A more cohesive and integrated voluntary early learning system would result in greater efficiencies for the state, increased partnership between the state and the private sector, improved access to high quality early learning services, and better employment and early learning outcomes for families and all children.

(2) The legislature finds that the early years of a child's life are critical to the child's healthy brain development and that the quality of caregiving during the early years can significantly impact the child's intellectual, social, and emotional development.

(22) "Unfounded" means the determination following an investigation by the department that available information indicates that, more likely than not, child abuse or neglect did not occur, or that there is insufficient evidence for the department to determine whether the alleged child abuse did or did not occur.

Sec. 2. RCW 26.44.030 and 2005 c 417 s 1 are each amended to read as follows:

(1)(a) When any practitioner, county coroner or medical examiner, law enforcement officer, professional school personnel, registered or licensed nurse, social service counselor, psychologist, pharmacist, licensed or certified child care providers or their employees, employee of the department, juvenile probation officer, placement and liaison specialist, responsible living skills program staff, HOPE center staff, or state family and children's ombudsman or any volunteer in the ombudsman's office has reasonable cause to believe that a child has suffered abuse or neglect, he or she shall report such incident, or cause a report to be made, to the proper law enforcement agency or to the department as provided in RCW 26.44.040.

(b) When any person, in his or her official supervisory capacity with a nonprofit or for-profit organization, has reasonable cause to believe that a child has suffered abuse or neglect caused by a person over whom he or she regularly exercises supervisory authority, he or she shall report such incident, or cause a report to be made, to the proper law enforcement agency, provided that the person alleged to have caused the abuse or neglect is employed by, contracted by, or volunteers with the organization and coaches, trains, educates, or counsels a child or children or regularly has unsupervised access to a child or children as part of the employment, contract, or voluntary service. No one shall be required to report under this section when he or she obtains the information solely as a result of a privileged communication as provided in RCW 5.60.060.

Nothing in this subsection (1)(b) shall limit a person's duty to report under (a) of this subsection.

For the purposes of this subsection, the following definitions apply:

(i) "Official supervisory capacity" means a position, status, or role created, recognized, or designated by any nonprofit or for-profit organization, whose scope includes, but is not limited to, overseeing, directing, or managing another person who is employed by, contracted by, or volunteers with the nonprofit or for-profit organization.

(ii) "Regularly exercises supervisory authority" means to act in his or her official supervisory capacity on an ongoing or continuing basis, with regards to a particular person.

(c) The reporting requirement also applies to department of corrections personnel who, in the course of their employment, observe offenders or the children with whom the offenders are in contact. If, as a result of observations or information received in the course of his or her employment, any department of corrections personnel has reasonable cause to believe that a child has suffered abuse or neglect, he or she shall report the incident, or cause a report to be made, to the proper law enforcement agency or to the department as provided in RCW 26.44.040.

(2) The reporting requirement shall also apply to any adult who has reasonable cause to believe that a child who resides with them, has suffered severe abuse, and is able or capable of making a report. For the purposes of this subsection, "severe abuse" means any of the following: Any single act of abuse that causes physical trauma of sufficient severity that, if left untreated, could cause death; any single act of sexual abuse that causes significant bleeding, deep bruising, or significant external or internal swelling; or more than one act of physical abuse, each of which causes bleeding, deep bruising, significant external or internal swelling, bone fracture, or unconsciousness.

(e) The report must be made at the first opportunity, but in no case longer than forty-eight hours after there is reasonable cause to believe that the child has suffered abuse or neglect. The report must include the identity of the accused if known.

(2) The reporting requirement of subsection (1) of this section does not apply to the discovery of abuse or neglect that occurred during childhood if it is discovered after the child has become an adult. However, if there is reasonable cause to believe other children are or may be at risk of abuse or neglect by the accused, the reporting requirement of subsection (1) of this section does apply.

(3) Any other person who has reasonable cause to believe that a child has suffered abuse or neglect may report such incident to the proper law enforcement agency or to the department of social and health services as provided in RCW 26.44.040.

(4) The department, upon receiving a report of an incident of alleged abuse or neglect pursuant to this chapter, involving a child who has died or has had physical injury or injuries inflicted upon him or her other than by accidental means or who has been subjected to alleged sexual abuse, shall report such incident to the proper law enforcement agency. In emergency cases, where the child's welfare is endangered, the department shall notify the proper law enforcement agency within twenty-four hours after a report is received by the department. In all other cases, the department shall notify the law enforcement agency within seventy-two hours after a report is received by the department. If the department makes an oral report, a written report must also be made to the proper law enforcement agency within five days thereafter.

(5) Any law enforcement agency receiving a report of an incident of alleged abuse or neglect pursuant to this chapter, involving a child who has died or has had physical injury or injuries inflicted upon him or her other than by accidental means, or who has been subjected to alleged sexual abuse, shall report such incident in writing as provided in RCW 26.44.040 to the proper county prosecuting attorney or city attorney to which the law enforcement agency's investigation reveals that a crime may have been committed. The law enforcement agency shall also notify the department of all reports received and the law enforcement agency's disposition of them. In emergency cases, where the child's welfare is endangered, the law enforcement agency shall notify the department within twenty-four hours. In all other cases, the law enforcement agency shall notify the department within seventy-two hours after a report is received by the law enforcement agency.

(6) Any county prosecutor or city attorney receiving a report under subsection (5) of this section shall notify the victim, any persons the victim requests, and the local office of the department, of the decision to charge or decline to charge a crime, within five days of making the decision.

(7) The department may conduct ongoing case planning and consultation with those persons or agencies required to report under this section, with consultants designated by the department, and with designated representatives of Washington Indian tribes if the client information exchanged is pertinent to cases currently receiving child protective services. Upon request, the department shall conduct such planning and consultation with those persons required to report under this section if the department determines it is in the best interests of the child. Information considered privileged by statute and not directly related to reports required by this section must not be divulged without a valid written waiver of the privilege.

(8) Any case referred to the department by a physician licensed under chapter 18.57 or 18.71 RCW on the basis of an expert medical
opinion that child abuse, neglect, or sexual assault has occurred and that the child’s safety will be seriously endangered if returned home, the department shall file a dependency petition unless a second licensed physician of the parents’ choice believes that such expert medical opinion is incorrect. If the parents fail to designate a second physician, the department may make the selection. If a physician finds that a child has suffered abuse or neglect but that such abuse or neglect does not constitute imminent danger to the child’s health or safety, and the department agrees with the physician’s assessment, the child may be left in the parents’ home. If the department proceeds with reasonable efforts to remedy parenting deficiencies.

9) Persons or agencies exchanging information under subsection (7) of this section shall not further disseminate or release the information except as authorized by state or federal statute. Violation of this subsection is a misdemeanor.

10) Upon receiving a report(s) of alleged abuse or neglect, the department shall make reasonable efforts to learn the name, address, and telephone number of each person making a report of abuse or neglect under this section. The department shall provide assurances of appropriate confidentiality of the identification of persons reporting under this section. If the department is unable to learn the information required under this subsection, the department shall only investigate cases in which:

(a) The department believes there is a serious threat of substantial harm to the child;
(b) The report indicates conduct involving a criminal offense that has, or is about to occur, in which the child is the victim; or
(c) The department has a prior founded report of abuse or neglect with regard to a member of the household that is within three years of receipt of the referral.

11)(a) For reports of alleged abuse or neglect that are accepted for investigation by the department, the investigation shall be conducted within time frames established by the department in rule. In no case shall the investigation extend longer than ninety days from the date the report is received, unless the investigation is being conducted under a written protocol pursuant to RCW 26.44.180 and a law enforcement agency or prosecuting attorney has determined that a longer investigation period is necessary. At the completion of the investigation, the department shall make a finding that the report of child abuse or neglect is founded or unfounded.

(b) If a court in a civil or criminal proceeding, considering the same facts or circumstances as are contained in the report being investigated by the department, makes a judicial finding by a preponderance of the evidence or higher that the subject of the pending investigation has abused or neglected the child, the department shall adopt the finding in its investigation.

12)(a) In conducting an investigation of alleged abuse or neglect, the department or law enforcement agency:

(1) May interview children. The interviews may be conducted on school premises, at day-care facilities, at the child’s home, or at other suitable locations outside of the presence of parents. Parental notification of the interview must occur at the earliest possible point in the investigation that will not jeopardize the safety or protection of the child or the course of the investigation. Prior to commencing the interview the department or law enforcement agency shall determine whether the child wishes a third party to be present for the interview and, if so, shall make reasonable efforts to accommodate the child’s wishes. Unless the child objects, the department or law enforcement agency shall make reasonable efforts to include a third party in any interview so long as the presence of the third party will not jeopardize the course of the investigation;

(11) Upon receiving a report of alleged child abuse and neglect, the department or investigating law enforcement agency; and

(b) Shall have access to all relevant records of the child in the possession of mandated reporters and their employees.

13) The department shall maintain investigation records and conduct timely and periodic reviews of all founded cases ((constituting)) of abuse and neglect. The department shall maintain a log of screened-out nonabusive cases.

14) The department shall use a risk assessment process when investigating alleged child abuse and neglect referrals. The department shall present the risk factors at all hearings in which the placement of a dependent child is an issue. Substance abuse must be a risk factor. The department shall, within funds appropriated for this purpose, offer enhanced community-based services to persons who are determined not to require further state intervention. ((14)(15) Upon receipt of a report of alleged abuse or neglect the law enforcement agency may arrange to interview the person making the report and any collateral sources to determine if any malice is involved in the reporting.

15) The department shall make reasonable efforts to learn the name, address, and telephone number of each person making a report of abuse or neglect under this section. The department shall provide assurances of appropriate confidentiality of the identification of persons reporting under this section. If the department is unable to learn the information required under this subsection, the department shall only investigate cases in which:

(a) The department believes there is a serious threat of substantial harm to the child; (b) the report indicates conduct involving a criminal offense that has, or is about to occur, in which the child is the victim; or (c) the department has, after investigation, a report of abuse or neglect that has been founded with regard to a member of the household within three years of receipt of the referral.)

Sec. 3. RCW 26.44.031 and 1997 c 282 s 1 are each amended to read as follows:

(1) To protect the privacy in reporting and the maintenance of reports of nonaccidental injury, neglect, death, sexual abuse, and cruelty to children by their parents, and to safeguard against arbitrary, malicious, or erroneous information or actions, the department shall not disclose or maintain information related to ((unfounded referrals in files or reports of child abuse or neglect (for longer than six years)) except as provided in this section or as otherwise required by state and federal law.

((At the end of six years from receipt of the unfounded report, the information shall be purged unless an additional report has been received in the intervening period)).

(2) The department shall destroy all of its records concerning:

(a) A screened-out report, within three years from the receipt of the report; and

(b) An unfounded or inconclusive report, within six years from completion of the investigation, unless a prior or subsequent founded report has been received regarding the child who is the subject of the report, a sibling or half-sibling of the child, or a parent, guardian, or legal custodian of the child, before the records are destroyed.

(3) The department may keep records concerning founded reports of child abuse or neglect as the department determines by rule.

(4) An unfounded, screened-out, or inconclusive report may not be disclosed to a child-placing agency, private adoption agency, or any other provider licensed under chapter 74.15 RCW.

(5)(a) If the department fails to comply with this section, an individual who is the subject of a report may institute proceedings for injunctive or other appropriate relief for enforcement of the requirement to purge information. These proceedings may be instituted in the superior court for the county in which the person resides or, if the person is not then a resident of this state, in the superior court for Thurston county.

(b) If the department fails to comply with subsection (4) of this section and an individual who is the subject of the report is harmed by the disclosure of information, in addition to the relief provided in (a) of this subsection, the court may award a penalty of up to one thousand dollars and reasonable attorneys’ fees and court costs to the petitioner.

(c) A proceeding under this subsection does not preclude other methods of enforcement provided for by law.

(6) Nothing in this section shall prevent the department from retaining general, nonidentifying information which is required for state and federal reporting and management purposes.
