(ii) Facilitate the child's visitation with siblings, if such visitation is part of the supervising agency's plan or is ordered by the court; and

(iii) Cooperate with the department in providing necessary background checks and home studies.

(c) If the child was not initially placed with a relative, and the court does not release the child to his or her parent, guardian, or legal custodian, the supervising agency shall make reasonable efforts to locate a relative pursuant to RCW 13.34.060(1).

(d) If a relative is not available, the court shall order continued shelter care or order placement with another suitable person, and the court shall set forth its reasons for the order. If the court orders placement of the child with a person not related to the child and not licensed to provide foster care, the placement is subject to all terms and conditions of this section that apply to relative placements.

(e) Any placement with a relative, or other person approved by the court pursuant to this section, shall be contingent upon cooperation with the agency case plan and compliance with court orders related to the care and supervision of the child including, but not limited to, court orders regarding parent-child contacts, sibling contacts, and any other conditions imposed by the court. Noncompliance with the case plan or court order is grounds for removal of the child from the home of the relative or other person, subject to review by the court.

(f) Uncertainty by a parent, guardian, legal custodian, relative, or other suitable person that the alleged abuser has in fact abused the child shall not, alone, be the basis upon which a child is removed from the care of a parent, guardian, or legal custodian under (a) of this subsection, nor shall it be a basis, alone, to preclude placement with a relative under (b) of this subsection or with another suitable person under (d) of this subsection.

(6)(a) A shelter care order issued pursuant to this section shall include the requirement for a case conference as provided in RCW...
13.34.067. However, if the parent is not present at the shelter care hearing, or does not agree to the case conference, the court shall not include the requirement for the case conference in the shelter care order.

(b) If the court orders a case conference, the shelter care order shall include notice to all parties and establish the date, time, and location of the case conference which shall be no later than thirty days before the fact-finding hearing.

(c) The court may order another conference, case staffing, or hearing as an alternative to the case conference required under RCW 13.34.067 so long as the conference, case staffing, or hearing ordered by the court meets all requirements under RCW 13.34.067, including the requirement of a written agreement specifying the services to be provided to the parent.

(7)(a) A shelter care order issued pursuant to this section may be amended at any time with notice and hearing thereon. The shelter care decision of placement shall be modified only upon a showing of change in circumstances. No child may be placed in shelter care for longer than thirty days without an order, signed by the judge, authorizing continued shelter care.

(b)(i) An order releasing the child on any conditions specified in this section may at any time be amended, with notice and hearing thereon, so as to return the child to shelter care for failure of the parties to conform to the conditions originally imposed.

(ii) The court shall consider whether noncompliance with any conditions resulted from circumstances beyond the control of the parent, guardian, or legal custodian and give weight to that fact before ordering return of the child to shelter care.

(8)(a) If a child is returned home from shelter care a second time in the case, or if the supervisor of the caseworker deems it necessary, the multidisciplinary team may be reconvened.

(b) If a child is returned home from shelter care a second time in the case a law enforcement officer must be present and file a report to the department.

Sec. 3. RCW 13.34.136 and 2007 c 413 s 7 are each amended to read as follows:

(1) Whenever a child is ordered removed from the home, a permanency plan shall be developed no later than sixty days from the time the supervising agency assumes responsibility for providing services, including placing the child, or at the time of a hearing under RCW 13.34.130, whichever occurs first. The permanency planning process continues until a permanency planning goal is achieved or dependency is dismissed. The planning process shall include reasonable efforts to return the child to the parent's home.

(2) The supervising agency shall submit a written permanency plan to all parties and the court not less than fourteen days prior to the scheduled hearing. Responsive reports of parties not in agreement with the supervising agency's proposed permanency plan must be provided to the supervising agency, all other parties, and the court at least seven days prior to the hearing.

The permanency plan shall include:

(a) A permanency plan of care that shall identify one of the following outcomes as a primary goal and may identify additional outcomes as alternative goals: Return of the child to the home of the child's parent, guardian, or legal custodian; adoption; guardianship; permanent legal custody; long-term relative or foster care, until the child is age eighteen, with a written agreement between the parties and the court under; successful completion of a responsible living skills program; or independent living, if appropriate and if the child is age sixteen or older. The department shall not discharge a child to an independent living situation before the child is eighteen years of age unless the child becomes emancipated pursuant to chapter 13.64 RCW.

(b) Unless the court has ordered, pursuant to RCW 13.34.130(4)(4)) (5), that a termination petition be filed, a specific plan as to where the child will be placed, what steps will be taken to return the child home, what steps the agency will take to promote existing appropriate sibling relationships and/or facilitate placement together or contact in accordance with the best interests of each child, and what actions the agency will take to maintain parent-child ties. All aspects of the plan shall include the goal of achieving permanency for the child.

(i) The agency plan shall specify what services the parents will be offered to enable them to resume custody, what requirements the parents must meet to resume custody, and a time limit for each service plan and parental requirement.

(ii) Visitation is the right of the family, including the child and the parent, in cases in which visitation is in the best interest of the child. Early, consistent, and frequent visitation is crucial for maintaining parent-child relationships and making it possible for parents and children to safely reunify. The agency shall encourage the maximum parent and child and sibling contact possible, when it is in the best interest of the child, including regular visitation and participation by the parents in the care of the child while the child is in placement. Visitation shall not be limited as a sanction for a parent's failure to comply with court orders or services where the health, safety, or welfare of the child is not at risk as a result of the visitation. Visitation may be limited or denied only if the court determines that such limitation or denial is necessary to protect the child's health, safety, or welfare. The court and the agency should rely upon community resources, relatives, foster parents, and other appropriate persons to provide transportation and supervision for visitation to the extent that such resources are available, and appropriate, and the child's safety would not be compromised.

(iii) A child shall be placed as close to the child's home as possible, preferably in the child's own neighborhood, unless the court finds that placement at a greater distance is necessary to promote the child's or parents' well-being.

(iv) The plan shall state whether both in-state and, where appropriate, out-of-state placement options have been considered by the department.

(v) Unless it is not in the best interests of the child, whenever practical, the plan shall ensure the child remains enrolled in the school the child was attending at the time the child entered foster care.

(vi) The agency charged with supervising a child in placement shall provide all reasonable services that are available within the agency, or within the community, or those services which the department has existing contracts to purchase. It shall report to the court if it is unable to provide such services; and

(c) If the court has ordered, pursuant to RCW 13.34.130(4)) (5), that a termination petition be filed, a specific plan as to where the child will be placed, what steps will be taken to achieve permanency for the child, services to be offered or provided to the child, and, if visitation would be in the best interests of the child, a recommendation to the court regarding visitation between parent and child pending a fact-finding hearing on the termination petition. The agency shall not be required to develop a plan of services for the parents or provide services to the parents if the court orders a termination petition be filed. However, reasonable efforts to ensure visitation and contact between siblings shall be made unless there is reasonable cause to believe the best interests of the child or siblings would be jeopardized.

(3) Permanency planning goals should be achieved at the earliest possible date(i.e., preferably before). If the child has been in out-of-home care for fifteen of the most recent twenty-two months, the court shall require the department to file a petition seeking termination of parental rights in accordance with RCW 13.34.145(3)(b)(vi). In cases where parental rights have been terminated, the child is legally free for adoption, and adoption has been identified as the primary permanency planning goal, it shall be a goal to complete the adoption within six months following entry of the termination order.

(4) If the court determines that the continuation of reasonable efforts to prevent or eliminate the need to remove the child from his or her home or to safely return the child home should not be part of the permanency plan of care for the child, reasonable efforts shall be made to place the child in a timely manner and to complete whatever steps are necessary to finalize the permanent placement of the child.

(5) The identified outcomes and goals of the permanency plan may change over time based upon the circumstances of the particular case.

(6) The court shall consider the child's relationships with the child's siblings in accordance with RCW 13.34.130(3).

(7) For purposes related to permanency planning:
(a) "Guardianship" means a dependency guardianship or a legal guardianship pursuant to chapter 11.88 RCW or equivalent laws of another state or a federally recognized Indian tribe.

(b) " Permanent custody order" means a custody order entered pursuant to chapter 26.10 RCW.

(c) "Permanent legal custody" means legal custody pursuant to chapter 26.10 RCW or equivalent laws of another state or a federally recognized Indian tribe.

Sec. 4. RCW 26.44.063 and 2000 c 119 s 12 are each amended to read as follows:

(1) It is the intent of the legislature to minimize trauma to a child involved in an allegation of sexual or physical abuse. The legislature declares that removing the child from the home or the care of a parent, guardian, or legal custodian often has the effect of further traumatizing the child. It is, therefore, the legislature's intent that the alleged ((offender)) abuser, rather than the child, shall be removed or restrained from the ((home)) child's residence and that this should be done at the earliest possible point of intervention in accordance with RCW 10.31.100, (13.34.130) chapter 13.34 RCW, this section, and RCW 26.44.130.

(2) In any judicial proceeding in which it is alleged that a child has been subjected to sexual or physical abuse, if the court finds reasonable grounds to believe that an incident of sexual or physical abuse has occurred, the court may, on its own motion, or the motion of the guardian ad litem or other parties, issue a temporary restraining order or preliminary injunction restraining or enjoining the person accused of committing the abuse from:

(a) Molesting or disturbing the peace of the alleged victim;

(b) Entering the family home of the alleged victim except as specifically authorized by the court;

(c) Having any contact with the alleged victim, except as specifically authorized by the court;

(d) Knowingly coming within, or knowingly remaining within, a specified distance of a specified location.

(3) If the caretaker is willing, and does comply with the duties prescribed in subsection (8) of this section, uncertainty by the caretaker that the alleged abuser has in fact abused the alleged victim shall not, alone, be a basis to remove the alleged victim from the caretaker, nor shall it be considered neglect.

(4) In issuing a temporary restraining order or preliminary injunction, the court may impose any additional restrictions that the court in its discretion determines are necessary to protect the child from further abuse or emotional trauma pending final resolution of the abuse allegations.

(5) The court shall issue a temporary restraining order prohibiting a person from entering the family home if the court finds that the order would eliminate the need for an out-of-home placement to protect the child's right to nurture, health, and safety and is sufficient to protect the child from further sexual or physical abuse or coercion.

(6) The court may issue a temporary restraining order without requiring notice to the party to be restrained or other parties only if it finds on the basis of the moving affidavit or other evidence that irreparable injury could result if an order is not issued until the time for responding has elapsed.

(7) A temporary restraining order or preliminary injunction:

(a) Does not prejudice the rights of a party or any child which are to be adjudicated at subsequent hearings in the proceeding; and

(b) May be revoked or modified.

(8) The person having physical custody of the child shall have an affirmative duty to assist in the enforcement of the restraining order including but not limited to a duty to notify the court as soon as practicable of any violation of the order, a duty to request the assistance of law enforcement officers to enforce the order, and a duty to notify the department of social and health services of any violation of the order as soon as practicable if the department is a party to the action. Failure by the custodial party to discharge these affirmative duties shall be subject to contempt proceedings.

(9) Willful violation of a court order entered under this section is a misdemeanor. A written order shall contain the court's directive and shall bear the legend: "Violation of this order with actual notice of its terms is a criminal offense under chapter 26.44 RCW, is also subject to contempt proceedings, and will subject a violator to arrest."

Sec. 5. RCW 71.24.035 and 2007 c 414 s 2, 2007 c 410 s 8, and 2007 c 375 s 12 are each reenacted and amended to read as follows:

The information system shall not include individual patient's case history files. The policy for monitoring placements under this section shall require that children in out-of-home care and in-home dependencies and their caregivers receive a private and individual face-to-face visit each month.

Cases involving individuals age eighteen through twenty shall not be referred to the division of child support unless required by federal law.

(2) The department may provide the statement and the photograph via any of the following methods, whichever is most efficient or convenient:

(a) Delivered via first-class mail or electronically to the headquarters office of the department of licensing; or
(b) Hand-delivered to a local office of the department of licensing by a department case worker.

(3) A copy of the statement shall be provided to the youth who shall provide the copy to the department of licensing when making an in-person application for a Washington state identicard.

(4) To the extent other identifying information is readily available, the department shall include the additional information with the submission of information required under subsection (1) of this section.

Sec. 8. RCW 46.20.035 and 2004 c 249 s 2 are each amended to read as follows:

The department may not issue an identicard or a Washington state driver's license that is valid for identification purposes unless the applicant meets the identification requirements of subsection (1), (2), or (3) of this section.

(1) A driver's license or identicard applicant must provide the department with at least one of the following pieces of valid identifying documentation that contains the signature and a photograph of the applicant:

(a) A valid or recently expired driver's license or instruction permit that includes the date of birth of the applicant;
(b) A Washington state identicard or an identification card issued by another state;

(e) An identification card issued by the United States, a state, or an agency of either the United States or a state, of a kind commonly used to identify the members or employees of the government agency;

(d) A military identification card;

(e) A United States passport; or

(f) An Immigration and Naturalization Service form.

(2) An applicant who is a minor may establish identity by providing an affidavit of the applicant's parent or guardian. The parent or guardian must accompany the minor and display or provide:

(a) At least one piece of documentation in subsection (1) of this section establishing the identity of the parent or guardian; and

(b) Additional documentation establishing the relationship between the parent or guardian and the applicant.

(3) A person unable to provide identifying documentation as specified in subsection (1) or (2) of this section may request that the department review other available documentation in order to ascertain identity. The department may waive the requirement if it finds that other documentation clearly establishes the identity of the applicant. Notwithstanding the requirements in subsection (2) of this section, the department shall issue an identicard to an applicant for whom it receives documentation pursuant to section 7 of this act.

(4) An identicard or a driver's license that includes a photograph that has been renewed by mail or by electronic commerce is valid for identification purposes if the applicant met the identification requirements of subsection (1), (2), or (3) of this section at the time of previous issuance.

(5) The form of an applicant's name, as established under this section, is the person's name of record for the purposes of this chapter.

(6) If the applicant is unable to prove his or her identity under this section, the department shall plainly label the license "not valid for identification purposes."

Sec. 9. RCW 41.06.142 and 2002 c 354 s 208 are each amended to read as follows:

(1) Any department, agency, or institution of higher education may purchase services, including services that have been customarily and historically provided by employees in the classified service under this chapter, by contracting with individuals, nonprofit organizations, businesses, employee business units, or other entities if the following criteria are met:

(a) The invitation for bid or request for proposal contains measurable standards for the performance of the contract;

(b) Employees in the classified service whose positions or work would be displaced by the contract are provided an opportunity to offer alternatives to purchasing services by contract and, if these alternatives are not accepted, compete for the contract under competitive contract procedures in subsection (4) of this section;

(c) The contract with an entity other than an employee business unit includes a provision requiring the entity to consider employment of state employees who may be displaced by the contract;

(d) The department, agency, or institution of higher education has established a contract monitoring process to measure contract performance, costs, service delivery quality, and other contract standards, and to cancel contracts that do not meet those standards; and

(e) The department, agency, or institution of higher education has determined that the contract results in savings or efficiency improvements. The contracting agency must consider the consequences and potential mitigation of improper or failed performance by the contractor.

(2) Any provision contrary to or in conflict with this section in any collective bargaining agreement in effect on July 1, 2005, is not effective beyond the expiration date of the agreement.

(3) Contracting for services that is expressly mandated by the legislature or was authorized by law prior to July 1, 2005, including contracts and agreements between public entities, shall not be subject to the processes set forth in subsections (1) (and), (4) (through (6)), and (5) of this section.

(4) Competitive contracting shall be implemented as follows:

(a) At least ninety days prior to the date the contracting agency requests bids from private entities for a contract for services
providing for classified employees, the contracting agency shall notify the classified employees whose positions or work would be displaced by the contract. The employees shall have sixty days from the date of notification to offer alternatives to purchasing services by contract, and the agency shall consider the alternatives before requesting bids.

(b) If the employees decide to compete for the contract, they shall notify the contracting agency of their decision. Employees must form one or more employee business units for the purpose of submitting a bid or bids to perform the services.

(c) The director of personnel with the advice and assistance of the department of general administration, shall develop and make available to employee business units training in the bidding process and general bid preparation.

(d) The director of general administration with the advice and assistance of the department of personnel, shall, by rule, establish procedures to ensure that bids are submitted and evaluated in a fair and objective manner and that there exists a competitive market for the service. Such rules shall include, but not be limited to: (i) Prohibitions against participation in the bid evaluation process by employees who prepared the business unit's bid or who had any responsibility for any of the services to be contracted; (ii) provisions to ensure no bidder receives an advantage over other bidders and that bid requirements are applied equitably to all parties; and (iii) procedures that require the contracting agency to receive complaints regarding the bidding process and to consider them before awarding the contract. Appeal of an agency's actions under this subsection is an adjudicative proceeding subject to the applicable provisions of chapter 34.05 RCW, the administrative procedure act with the final decision to be rendered by an administrative law judge assigned under chapter 34.12 RCW.

(e) An employee business unit's bid must include the fully allocated costs of the service, including the cost of the employees' salaries and benefits, space, equipment, materials, and other costs necessary to perform the function. An employee business unit's cost shall not include the state's indirect overhead costs unless those costs can be attributed directly to the function in question and would not exist if that function were not performed in state service.

(f) A department, agency, or institution of higher education may contract with the department of general administration to conduct the bidding process.

(5) As used in this section:

(a) "Employee business unit" means a group of employees who perform services to be contracted under this section and who submit a bid for the performance of those services under subsection (4) of this section.

(b) "Indirect overhead costs" means the prorata share of existing agency administrative salaries and benefits, and rent, equipment costs, utilities, and materials associated with those administrative functions.

(c) "Competitive contracting" means the process by which classified employees of a department, agency, or institution of higher education compete with businesses, individuals, nonprofit organizations, or other entities for contracts authorized by subsection (1) of this section.

(6) ((The joint legislative audit and review committee shall conduct a performance audit of the implementation of this section, including the adequacy of the appeals process in subsection (4)(d) of this section, and report to the legislature by January 1, 2007, on the results of the audit.)) The requirements of this section do not apply to RCW 74.13.031(5).

NEW SECTION. Sec. 10. A new section is added to chapter 74.15 RCW to read as follows:

To be eligible for placement in a HOPE center, a minor must be either a street youth, as that term is defined in this chapter, or a youth who, without placement in a HOPE center, will continue to participate in increasingly risky behavior. Youth may also self-refer to a HOPE center. Payment for a HOPE center bed is not contingent upon prior approval by the department.

Sec. 11. RCW 74.15.240 and 1999 c 267 s 14 are each amended to read as follows:

To be eligible for placement in a responsible living skills program, the minor must be dependent under chapter 13.34 RCW and must have lived in a HOPE center or in a secure Crisis Residential Center. However, if the minor's caseworker determines that placement in a responsible living skills program would be the most appropriate placement given the minor's current circumstances, prior residence in a HOPE center or secure crisis residential center before placement in a responsible living program is not required. Responsible living skills centers are intended as a placement alternative for dependent youth that the department chooses for the youth because no other services or alternative placements have been successful. Responsible living skills centers are not for dependent youth whose permanency plan includes return to home or family reunification.

NEW SECTION. Sec. 12. (1) The department of social and health services, in collaboration with the administrative office of the courts, shall implement a pilot program in the Thurston, Spokane, King, and Benton-Franklin counties as follows:

(a) A child who is age twelve years or older and who is the subject of a dependency proceeding under chapter 13.34 RCW shall have the following rights with respect to all hearings conducted in the pilot county on his or her behalf:

(i) The right to receive notice of the proceedings and hearings;

(ii) The right to be present at hearings; and

(iii) The right to be heard personally.

(b) At the request of the child, the child's guardian ad litem or attorney, or upon the court's own motion, the court may conduct an interview with the child in chambers to determine the child's wishes regarding the issues pending before the court. The court may permit counsel to be present at the interview. The court shall cause a record of the interview to be made and to be made part of the record in the case.

(c) A child's right to attend a hearing conducted on his or her behalf and to be heard by the court cannot be denied or limited by the court, unless the court makes a specific written finding that such denial or limitation is in the best interests of the child and necessary for the health, safety, and welfare of the child.

(d) Prior to each hearing, the child's guardian ad litem or attorney shall determine if the child wishes to be present and to be heard at the hearing. If the child wishes to attend the hearing, the guardian ad litem or attorney shall coordinate with the child's caregiver and the department or supervising agency to make arrangements for the child to attend the hearing. Nothing in this subsection shall be construed to create a duty on the department or supervising agency to transport the child.

(2) The pilot shall operate until June 30, 2010. The department of social and health services and the administrative office of the courts shall brief the legislature regarding the pilot by January 31, 2009, and shall provide a final report regarding the effectiveness of the program by December 1, 2010. To the extent funding is available, the department and the administrative office of the courts shall collaborate with other appropriate entities to compile pertinent information regarding the pilot program, including the comments of youth, court personnel, attorneys, and guardians ad litem in the pilot counties.

Sec. 13. RCW 13.34.105 and 2000 c 124 s 4 are each amended to read as follows:

(1) Unless otherwise directed by the court, the duties of the guardian ad litem for a child subject to a proceeding under this chapter, including an attorney specifically appointed by the court to serve as a guardian ad litem, include but are not limited to the following:

(a) To investigate, collect relevant information about the child's situation, and report to the court factual information regarding the best interests of the child;

(b) To meet with, interview, or observe the child, depending on the child's age and developmental status, and report to the court any views or positions expressed by the child on issues pending before the court;

(c) To monitor all court orders for compliance and to bring to the court's attention any change in circumstances that may require a modification of the court's order;

MESSAGE FROM THE SENATE

March 12, 2008

Mr. Speaker:

The Senate reeded from its amendment to ENGROSSED SECOND SUBSTITUTE HOUSE BILL NO. 3145. Under suspension of the rules, the bill was returned to second reading for purpose of amendment. The Senate adopted the following amendment and passed the bill as amended by the Senate:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 74.13 RCW to read as follows:

The legislature finds that out-of-home care providers are an essential partner in the child welfare system, with responsibility for the care of vulnerable children whose families are unable to meet their needs. Because children who enter the out-of-home care system have experienced varying degrees of stress and trauma before placement, providers sometimes are called upon to provide care for children with significant behavioral challenges and intensive developmental needs. Other children who enter out-of-home care may require extraordinary care due to health care needs or medical fragility. The legislature also finds that providers with specialized skills and experience, or professional training and expertise, can contribute significantly to a child's well-being by promoting placement stability and supporting the child's developmental growth while in out-of-home care. The legislature intends to implement an intensive resource home pilot to enhance the continuum of care options and to promote permanency and positive outcomes for children served in the child welfare system by authorizing the department to contract for intensive resource home services on a pilot basis.

NEW SECTION. Sec. 2. A new section is added to chapter 74.13 RCW to read as follows:
(1) The department shall select two geographic areas with high concentrations of children with significant needs in out-of-home care for implementing an intensive resource home pilot. In choosing the pilot sites, the department shall:
(a) Examine areas where there are concentrations of children with significant behavioral challenges and intensive developmental or medical needs who are being served in family foster homes; (b) consider sites of appropriate size that will
allow for careful analysis of the impact of the intensive resource home pilot on the array of out-of-home care providers, including providers of behavioral rehabilitation services; and (e) determine the number of children to be served in these selected sites. Implementation of the program at the pilot sites also shall be structured to support the long-term goal of eventual expansion of the pilot statewide.

(2) Based on the information gathered by the work group convened under chapter 413, Laws of 2007, and the additional information gathered pursuant to this section, the department shall work collaboratively in:

(a) Seeking recommendations from foster parents and other out-of-home service providers, including child placing agencies, regarding the qualifications and requirements of intensive resource home providers, the needs of the children to be served, and the desired outcomes to be measured or monitored at the respective pilot sites; and

(b) Consulting with experts in child welfare, children's mental health, and children's health care to identify the evidence-based or promising practice models to be employed in the pilot and the appropriate supports to ensure program fidelity, including, but not limited to, the necessary training and clinical consultation and oversight to be provided to intensive resource homes.

(3) Using the recommendations from foster parents, the consultations with professionals as required in subsection (2)(a) and (b) of this section, and the information provided in the report to the legislature under chapter 413, Laws of 2007, including the information provided to the work group convened to prepare and present the report, the department shall implement the pilot by entering into contracts with no more than seventy-five providers who are determined by the department to meet the eligibility criteria for the intensive resource home pilot. The department shall:

(a) Define the criteria for intensive resource home providers, which shall include a requirement that the provider be licensed by the department as a foster parent, as well as meet additional requirements relating to relevant experience, education, training, and professional expertise necessary to meet the high needs of children identified as eligible for this pilot;

(b) Define criteria for identifying children with high needs who may be eligible for placement with an intensive resource home provider. Such criteria shall be based on the best interests of the child and include an assessment of the child's past and current level of functioning as well as a determination that the child's treatment plan and developmental needs are consistent with the placement plan;

(c) Establish a policy for placement of children with high needs in intensive resource homes, including a process for matching the child's needs with the provider's skills and expertise;

(d) Establish a limit on the number and ages of children with high needs that may be placed in an intensive resource home pursuant to the pilot contract. Such limitation shall recognize that children with externalizing behaviors are most likely to experience long-term improvements in their behavior when care is provided in settings that minimize exposure to peers with challenging behaviors;

(e) Identify one or more approved models of skill building for use by intensive resource home providers, with the assistance of other child welfare experts;

(f) Specify the training and consultation requirements that support the provider's service;

(g) Establish a system of supports, including clinical consultation and oversight for intensive resource homes;

(h) Develop a tiered payment system, by September 30, 2008, which may include a stipend to the provider, which takes into account the additional responsibilities intensive resource home providers have with regard to the children placed in their care. Until such time as the department has developed the tiered payment system, money for exceptional cost plans shall be used only for special services or supplies provided to the child and shall not be used to reimburse the provider for services he or she provides to the child. A stipend of not more than five hundred dollars per month may be used to reimburse the provider for services he or she provides directly to the child;

(i) Establish clearly defined responsibilities of intensive resource home providers, who have an intensive resource home contract including responsibilities to promote permanency and connections with birth parents; and

(j) Develop a process for annual performance reviews of intensive resource home providers.

(4) Contracts between the department and an intensive resource home provider shall include a statement of work focusing on achieving stability in placement and measuring improved permanency outcomes and shall specify at least the following elements:

(a) The model of treatment and care to be provided;

(b) The training and ongoing professional consultation to be provided;

(c) The method for determining any additional supports to be provided to an eligible child or the intensive resource home provider;

(d) The desired outcomes to be measured;

(e) A reasonable and efficient process for seeking a modification of the contract;

(f) The rate and terms of payment under the contract; and

(g) The term of the contract and the processes for an annual performance review of the intensive resource home provider and an annual assessment of the child.

(5) Beginning on or before October 1, 2008, the department shall begin the selection of, and negotiation of contracts with, intensive resource home providers in the selected pilot sites.

(6) Nothing in this act gives a provider eligible under this section the right to a contract under the intensive resource home pilot, and nothing in this act gives a provider that has a contract under the pilot a right to have a child or children placed in the home pursuant to the contract.

(7) "Intensive resource home provider" means a provider who meets the eligibility criteria developed by the department under this section and who has an intensive resource home pilot contract with the department.

(8) The department shall report to the governor and the legislature by January 30, 2009, on the implementation of the pilot, including how the pilot fits within the continuum of out-of-home care options. Based on the experiences and lessons learned from implementation of the pilot, the department shall recommend a process and timeline for expanding the pilot and implementing it statewide. The department shall report to the governor and the appropriate members of the legislature by September 1, 2009, on the expansion, and shall identify the essential elements of the intensive resource home pilot that should be addressed or replicated if the pilot is expanded.

(9) The department shall operate this pilot using only funds appropriated specifically for the operation of this pilot. The term "specifically for the operation of this pilot" includes only those costs associated with the following: The administration of the pilot, the stipend to eligible intensive resource home providers, training for the providers, consultation for the providers, and program review consultation.

NEW SECTION. Sec. 3. If any part of this act is found to be in conflict with federal requirements that are a prescribed condition of federal funds which support the operations and services provided by the department of social and health services, the conflicting part of this act is inoperative solely to the extent of the conflict and with respect to the agencies directly affected, and this finding does not affect the operation of the remainder of this act in its application to the agencies concerned. Rules adopted under this act must meet federal requirements that are a necessary condition to the receipt of federal funds by the state.

NEW SECTION. Sec. 4. Of the amounts appropriated in the omnibus appropriations act of 2008 for implementation of this act, referencing this act by bill or chapter number, the department shall allocate two hundred thousand dollars to contract with an agency which is working in partnership with, and has been evaluated by, the University of Washington school of social work to implement promising practice constellation hub models of foster care support in areas of the state not currently served by this model, unless otherwise specified in the omnibus appropriations act of 2008.
On page 1, line 2 of the title, after "licensing;" strike the remainder of the title and insert "adding new sections to chapter 74.13 RCW, and creating new sections."

and the same is herewith transmitted.

Thomas Hoemann, Secretary

Mr. Speaker:

Brad Hendrickson, Deputy Secretary

REPORT OF CONFERENCE COMMITTEE

Mr. Speaker:

We of your Conference Committee, to whom was referred ENGROSSED SECOND SUBSTITUTE HOUSE BILL NO. 3139, providing for stays of industrial insurance orders on appeal, have had the same under consideration and we recommend that:

All previous amendments not adopted and that the attached striking amendment (S-6138.3/08) be adopted

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 51.52.050 and 2004 c 243 s 8 are each amended to read as follows:

(1) Whenever the department has made any order, decision, or award, it shall promptly serve the worker, beneficiary, employer, or other person affected thereby, with a copy thereof by mail, which shall be addressed to such person at his or her last known address as shown by the records of the department. The copy, in case the same is a final order, decision, or award, shall bear on the same side of the same page on which is found the amount of the award, a statement, set in black faced type of at least ten point body or size, that such final order, decision, or award shall become final within sixty days from the date the order is communicated to the parties unless a written request for reconsideration is filed with the department of labor and industries, Olympia, or an appeal is filed with the board of industrial insurance appeals, Olympia. (Provided, That)

However, a department order or decision making a finding, whether with or without penalty, for repayment of sums paid to a provider of medical, dental, vocational, or other health services rendered to an industrially injured worker, shall state that such order or decision shall become final within twenty days from the date the order or decision is communicated to the parties unless a written request for reconsideration is filed with the department of labor and industries, Olympia, or an appeal is filed with the board of industrial insurance appeals, Olympia.

(2a) Whenever the department has taken any action or made any decision relating to any phase of the administration of this title the worker, beneficiary, employer, or other person aggrieved thereby may request reconsideration of the department, or may appeal to the board. In an appeal before the board, the appellant shall have the burden of proving with the evidence to establish a prima facie case for the relief sought in such appeal. (Provided, That)

(b) An order by the department awarding benefits shall become effective and benefits due on the date issued. Subject to (b)(i) and (ii) of this subsection, if the department order is appealed the order shall not be stayed pending a final decision on the merits unless ordered by the board. Upon issuance of the order granting the appeal, the board will provide the worker with notice concerning the projected increase of an overpayment of benefits paid pending the outcome of the appeal and the requirements for interest on unpaid benefits pursuant to RCW 51.52.135. A worker may request that benefits cease pending appeal at any time following the employer’s motion for stay or the board’s order granting appeal. The request must be submitted in writing to the employer, the board, and the department. Any employer may move for a stay of the order on appeal whole or in part. The motion must be filed within fifteen days of the order granting appeal. The board shall conduct an expedited review of the claim file provided by the department as it existed on the date of the department order. The board shall issue a final decision within twenty-five days of the filing of the motion for stay or the order granting appeal, whichever is later. The board’s final decision may be appealed to superior court in accordance with RCW 51.52.110. The board shall grant a motion to stay if the moving party demonstrates that it is more likely than not to prevail on the facts as they existed at the time of the order on appeal. The board shall not consider the likelihood of recoupment of benefits as a basis to grant or deny a motion to stay. If a self-insured employer prevails on the merits, any benefits paid may be recouped pursuant to RCW 51.32.240.

(ii) If any party appeals an order establishing a worker's wages or the compensation rate at which a worker will be paid temporary or permanent total disability or loss of earning power benefits, the worker shall receive payment pending a final decision on the merits based on the following:

(A) When the employer is self-insured, the wage calculation or compensation rate the employer most recently submitted to the department; or

(B) When the employer is insured through the state fund, the highest wage amount or compensation rate uncontested by the party.

Payment of benefits or consideration of wages at a rate that is higher than that specified in (b)(i)(A) or (B) of this subsection is stayed without further action by the board pending a final decision on the merits.

(c) In an appeal from an order of the department that alleges willful misrepresentation, the department or self-insured employer shall initially introduce all evidence in its case in chief. Any such person aggrieved by the decision and order of the department may thereafter appeal to the superior court, as prescribed in this chapter.

Sec. 2. RCW 51.32.240 and 2004 c 243 s 7 are each amended to read as follows:

(1) Whenever any payment of benefits under this title is made because of clerical error, mistake of identity, innocent misrepresentation by or on behalf of the recipient thereof mistakenly
acted upon, or any other circumstance of a similar nature, all not induced by willful misrepresentation, the recipient thereof shall repay it and recoupment may be made from any future payments due to the recipient on any claim with the state fund or self-insurer, as the case may be. The department or self-insurer, as the case may be, must make claim for such repayment or recoupment within one year of the making of any such payment or it will be deemed any claim therefor has been waived.

(b) Except as provided in subsections (3), (4), and (5) of this section, the department may only assess an overpayment of benefits because of adjudicator error when the order upon which the overpayment is based is not yet final as provided in RCW 51.52.050 and 51.52.060. “Adjudicator error” includes the failure to consider information in the claim file, failure to secure adequate information, or an error in judgment.

(c) The director, pursuant to rules adopted in accordance with the procedures provided in the administrative procedure act, chapter 34.05 RCW, may exercise his or her discretion to waive, in whole or in part, the amount of any such timely claim where the recovery would be against equity and good conscience.

(2) Whenever the department fails to pay benefits because of clerical error, mistake of identity, or innocent misrepresentation, all not induced by recipient willful misrepresentation, the recipient may request an adjustment of benefits to be paid from the state fund or by the self-insurer, as the case may be, subject to the following:

(a) The recipient must request an adjustment in benefits within one year of the incorrect payment or it will be deemed any claim therefore has been waived.

(b) The recipient may not seek an adjustment of benefits because of adjudicator error. Adjustments due to adjudicator error are addressed by the filing of a written request for reconsideration with the department of labor and industries or an appeal with the board of industrial insurance appeals within sixty days from the date the order is communicated as provided in RCW 51.52.050. “Adjudicator error” includes the failure to consider information in the claim file, failure to secure adequate information, or an error in judgment.

(3) Whenever the department issues an order rejecting a claim for benefits paid pursuant to RCW 51.32.190 or 51.32.210, after payment for temporary disability benefits has been paid by a self-insurer pursuant to RCW 51.32.190(3) or by the department pursuant to RCW 51.32.210, the recipient thereof shall repay such benefits and recoupment may be made from any future payments due to the recipient on any claim with the state fund or self-insurer, as the case may be. The director, under rules adopted in accordance with the procedures provided in the administrative procedure act, chapter 34.05 RCW, may exercise discretion to waive, in whole or in part, the amount of any such payments where the recovery would be against equity and good conscience.

(4) Whenever any payment of benefits under this title has been made pursuant to an adjudication by the department or by order of the board or any court and timely appeal therefrom has been made where the final decision is that any such payment was made pursuant to an erroneous adjudication, the recipient thereof shall repay it and recoupment may be made from any future payments due to the recipient on any claim (with the state fund or self-insurer, as the case may be) whether state fund or self-insurer.

(a) The department, pursuant to rules adopted in accordance with the procedures provided in the administrative procedure act, chapter 34.05 RCW, may exercise (h) discretion to waive, in whole or in part, the amount of any such payments where the recovery would be against equity and good conscience. However, if the director waives in whole or in part any such payments due a self-insurer, the self-insurer shall be reimbursed the amount waived from the self-insured employer overpayment reimbursement fund.

(b) The department shall collect information regarding self-insured claim overpayments resulting from final decisions of the board and the courts, and recoup such overpayments on behalf of the self-insurer from any open, new, or reopened state fund or self-insured claims. The department shall forward the amounts collected to the self-insurer to whom the payment is owed. The department may provide information as needed to any self-insurers from whom payments may be collected on behalf of the department or another self-insurer. Notwithstanding RCW 51.32.040, any self-insurer requested by the department to forward payments to the department pursuant to this subsection shall pay the department directly. The department shall credit the amounts recovered to the appropriate fund, or forward amounts collected to the appropriate self-insurer, as the case may be.

(c) If a self-insurer is not fully reimbursed within twenty-four months of the first attempt at recovery through the collection process pursuant to this subsection and by means of processes pursuant to subsection (6) of this section, the self-insurer shall be reimbursed for the remainder of the amount due from the self-insured employer overpayment reimbursement fund.

(d) For purposes of this subsection, “recipient” does not include health service providers whose treatment or services were authorized by the department or self-insurer.

(e) The department or self-insurer shall first attempt recovery of overpayments for health services from any entity that provided health insurance to the worker to the extent that the health insurance entity would have provided health insurance benefits but for workers’ compensation coverage.

(f) The department or self-insurer shall first attempt recovery of overpayments for health services from any entity that provided health insurance to the worker to the extent that the health insurance entity would have provided health insurance benefits but for workers’ compensation coverage.

The director waives the amount of any such payment together with a penalty of fifty percent of the total of all such payments and the amount of such total sum may be recouped from any future payments due to the recipient on any claim with the state fund or self-insurer against whom the willful misrepresentation was committed, as the case may be, and the amount of such penalty shall be placed in the supplemental pension fund. Such repayment or recoupment must be demanded or ordered within three years of the discovery of the willful misrepresentation.

(b) For purposes of this subsection (5), it is willful misrepresentation for a person to obtain payments or other benefits under this title in an amount greater than that to which the person otherwise would be entitled. Willful misrepresentation includes:

(i) Willful false statement; or

(ii) Willful misrepresentation, omission, or concealment of any material fact.

(c) For purposes of this subsection (5), “willful” means a conscious or deliberate false statement, misrepresentation, omission, or concealment of a material fact with the specific intent of obtaining, continuing, or increasing benefits under this title.

(d) For purposes of this subsection (5), failure to disclose a work-type activity must be willful in order for a misrepresentation to have occurred.

(e) For purposes of this subsection (5), a material fact is one which, if known, would result in additional, increased, or continuation of benefits, including but not limited to facts about physical restrictions, or work-type activities which either result in wages or income or would be reasonably expected to do so. Wages or income include the receipt of any goods or services. For a work-type activity to be reasonably expected to result in wages or income, a pattern of repeated activity must exist. For those activities that would reasonably be expected to result in wages or produce income, but for which actual wage or income information cannot be reasonably determined, the department shall impute wages pursuant to RCW 51.08.178(4).

(f) The worker, beneficiary, or other person affected thereby shall have the right to contest an order assessing an overpayment pursuant to this section in the same manner and to the same extent as provided under RCW 51.52.050 and 51.52.060. In the event such an order becomes final under chapter 51.52 RCW and notwithstanding the provisions of subsections (1) through (5) of this section, the director, director’s designee, or self-insurer may file with the clerk in any county within the state a warrant in the amount of the sum representing the unpaid overpayment and/or penalty plus interest accruing from the date the order became final. The clerk of the county in which the warrant is filed shall immediately direct a superior court cause number for such warrant and the clerk shall cause to be entered in the judgment docket under the superior court cause number assigned to the warrant, the name of the worker, beneficiary, or other person mentioned in the warrant, the amount of the unpaid overpayment and/or penalty plus interest accrued, and the date the warrant was filed. The amount of the warrant as docketed shall become a lien upon the title to and interest in all real and personal property of the worker, beneficiary, or other person against
whom the warrant is issued, the same as a judgment in a civil case docketed in the office of such clerk. The sheriff shall then proceed in the same manner and with like effect as prescribed by law with respect to execution or other process issued against rights or property upon judgment in the superior court. Such warrant so docketed shall be sufficient to support the issuance of writs of garnishment in favor of the department or self-insurer in the manner provided by law in the case of judgment, wholly or partially unsatisfied. The clerk of the court shall be entitled to a filing fee under RCW 36.18.012(10), which shall be added to the amount of the warrant. A copy of such warrant shall be mailed to the worker, beneficiary, or other person within three days of filing with the clerk.

The director, director's designee, or self-insurer may issue to any person, firm, corporation, municipal corporation, political subdivision of the state, public corporation, or agency of the state, a notice to withhold and deliver property of any kind if there is reason to believe that there is in the possession of such person, firm, corporation, municipal corporation, political subdivision of the state, public corporation, or agency of the state, property that is due, owing, or belonging to any worker, beneficiary, or other person upon whom a warrant has been served for payments due the department or self-insurer. The notice and order to withhold and deliver shall be served by certified mail accompanied by an affidavit of service by mailing or served by the sheriff of the county, or by the sheriff's deputy, or by any authorized representative of the director, director's designee, or self-insurer. Any person, firm, corporation, municipal corporation, political subdivision of the state, public corporation, or agency of the state upon whom service has been made, shall answer the notice within twenty days exclusive of the day of service, under oath and in writing, and shall make true answers to the matters inquired or in the notice and order to withhold and deliver. In the event there is in the possession of the party named and served with such notice and order, any property that may be subject to the claim of the department or self-insurer, such property shall be delivered forthwith to the director, the director's authorized representative, or self-insurer upon demand. If the party served and named in the notice and order fails to answer the notice and order within the time prescribed in this section, the court may, after the time to answer such order has expired, render judgment by default against the party named in the notice for the full amount, plus costs, claimed by the director, director's designee, or self-insurer in the notice. In the event that a notice to withhold and deliver is served upon an employer and the property found to be subject thereto is wages, the employer may assert in the answer all exceptions provided for by chapter 6.27 RCW to which the wage earner may be entitled.

This subsection shall only apply to orders assessing an overpayment which are issued on or after July 28, 1991; PROVIDED, That this subsection shall apply retroactively to all orders assessing an overpayment resulting from fraud, civil or criminal.

(7) Orders assessing an overpayment which are issued on or after July 28, 1991, shall include a conspicuous notice of the collection methods available to the department or self-insurer.

NEW SECTION. Sec. 3. A new section is added to chapter 51.32 RCW to read as follows:

(1) Except as provided in subsection (2) of this section, each self-insured employer shall retain from the earnings of each of its workers that amount as shall be fixed from time to time by the director, the basis for measuring said amount to be determined by the director. These moneys shall only be retained from employees and remitted to the department in such manner and at such intervals as the department directs and shall be placed in the self-insured employer overpayment reimbursement fund. The moneys so collected shall be used exclusively for reimbursement to the reserve fund and to self-insured employers for benefits overpaid during the pendency of board or court appeals in which the self-insured employer prevails and has not recovered, and shall be no more than necessary to make such payments on a current basis.

(2) None of the amount assessed for the employer overpayment reimbursement fund under this section may be retained from the earnings of workers covered under RCW 51.16.210.

NEW SECTION. Sec. 4. A new section is added to chapter 51.44 RCW to read as follows:

The self-insured employer overpayment reimbursement fund is created in the custody of the state treasurer. Expenditures from the account may be used only for reimbursing the reserve fund and self-insured employers for benefits overpaid during the pendency of board or court appeals in which the self-insured employer prevails and has not recovered. Only the director or the director's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

NEW SECTION. Sec. 5. A new section is added to chapter 51.52 RCW to read as follows:

(1) The department shall study appeals of workers' compensation cases and collect information on the impacts of this act on state fund and self-insured workers and employers. The study shall consider the types of benefits that may be paid pending an appeal, and shall include, but not be limited to:
(a) The frequency and outcomes of appeals;
(b) The duration of appeals and any procedural or process changes made by the board to implement this act and expedite the process;
(c) The number of and amount of overpayments resulting from decisions of the board or court; and
(d) The processes used and efforts made to recoup overpayments and the results of those efforts.
(2) State fund and self-insured employers shall provide the information requested by the department to conduct the study.
(3) The department shall report to the workers' compensation advisory committee by July 1, 2009, on the preliminary results of the study. By December 1, 2009, and annually thereafter, with the final report due by December 1, 2011, the department shall report to the workers' compensation advisory committee and the appropriate committees of the legislature on the results of the study. The workers' compensation advisory committee shall provide its recommendations for addressing overpayments resulting from this act, including the need for and ability to fund a permanent method to reimburse employer and state fund overpayment costs.

NEW SECTION. Sec. 6. Section 2 of this act takes effect January 1, 2009.

NEW SECTION. Sec. 7. This act applies to orders issued on or after the effective date of this section."

On page 9, line 18 of the title amendment, after "insert" strike the remainder of the title amendment and insert "amending RCW 51.52.050 and 51.32.240; adding a new section to chapter 51.32 RCW; adding a new section to chapter 51.44 RCW; adding a new section to chapter 51.52 RCW; creating a new section; and providing an effective date." and that the bill do pass as recommended by the Conference Committee.

THIRD READING

ENGROSSED SECOND SUBSTITUTE HOUSE BILL NO. 3139, by House Appropriations (originally sponsored by Representatives Conway, Wood, Green, Moeller, Simpson, and Ormsby)

Providing for stays of industrial insurance orders on appeal.

SPEAKER'S RULING

Mr. Speaker (Representative Morris presiding): "Representative Newhouse raised a point of parliamentary inquiry as to the number of votes required for final passage of Engrossed Second Substitute House Bill No. 3139. The inquiry requires the Speaker to determine whether the amounts assessed constitute a "tax", and therefore require a two third (2/3) vote for passage under the provisions of RCW 43.135.035, as amended by Initiative 960."
The bill establishes a self-insured employer overpayment reimbursement fund as part of the state's workers' compensation program. The fund is financed by amounts self-insured employers retain from the earnings of workers, with the amount of and the basis for measuring the amount determined by the Director of Labor and Industries. The fund is used to reimburse self-insured employers for industrial insurance benefits paid, but found as a result of an adjudication to be erroneous.

The Speaker notes that taxes are collected for the general for the general support of government, and that courts have specifically distinguished industrial insurance payments from taxes. In this instance, the amounts assessed are part of the industrial insurance system, they are placed into a segregated account, and they may be used only for specified purposes.

The Speaker therefore finds that the amounts assessed do not constitute a tax, and that the bill may be enacted by a constitutional majority of 50 affirmative votes."

The Speaker (Representative Morris presiding) stated the question before the House to be the final passage of Engrossed Second Substitute House Bill No. 3139 as recommended by the Conference Committee.

It is the intent of the legislature to build on the experience of the community and technical college capital facility assessment and inventory process, which includes an independent condition assessment of facilities, to establish a baseline of basic public school facility building data and information. It is also the intent of the legislature that once developed, a facility condition and inventory system must be housed and operated by the office of the superintendent of public instruction for school districts statewide.
(2) The joint legislative audit and review committee shall select up to ten public school districts to participate in the pilot. The school districts must represent a cross-section of large and small districts, urban and rural districts, districts with facilities of varying age and condition, districts with varying fiscal capacity, and at least one district that serves as the host for a skills center.
(3) The facility condition and inventory system must include facility and site information necessary for facility assessment and maintenance. The facility condition and inventory system must also inform statewide policy options related to: (a) Class size; (b) all-day kindergarten; (c) specialized educational spaces, including math and science classrooms and labs, as well as other specialized spaces; (d) environmental health and safety improvements; (e) joint use of school facilities beyond the traditional school day; (f) high performance buildings; (g) use of portables; and (h) other policy options as identified by the joint legislative audit and review committee.
(4) Data elements in the facility condition and inventory system may include, but are not limited to, facility location, facility condition including health and safety considerations, type, size, current use, enrollment and space by grade level, information on specialized educational spaces, functionality of space, energy efficiency information, date and cost of original construction, date and cost of any major remodeling or renovation, operations and maintenance information and expenditures, and other data elements as determined by the joint legislative audit and review committee.
(5) By January 1, 2009, the joint legislative audit and review committee shall provide a report to the appropriate legislative fiscal committees on the following: (a) A proposed scope of work for the facility condition and inventory system pilot project; (b) identification of current sources of school district facility information and where the data resides; (c) recommended criteria for evaluating school facilities; (d) potential school district participants; (e) an implementation plan for the pilot group of school districts; and (f) a review of other states' scope and use of public school facility condition and inventory information.
(6) By January 1, 2010, the joint legislative audit and review committee shall submit findings and recommendations on the pilot program to the appropriate legislative fiscal committees. At a minimum, the final report must include the following: (a) A summary of data collected and analyzed for each participating school district; (b) an analysis of study and survey data for several participating school districts compared to an independent facility assessment; (c) a cost/benefit analysis of expanding the pilot to school districts statewide, including potential timelines; (d) possible methods and frequency for collecting, inventorying, updating, and sharing facility information by the office of the superintendent of public instruction; (e) possible interaction of a facility condition and inventory system with the statewide first responder building mapping system and other data collection efforts that are ongoing, including student educational data managed by the office of the superintendent of public instruction; (f) methods that allow for the efficient transfer of information between school districts and the facility condition and inventory system; and (g) other recommendations as determined by the joint legislative audit and review committee.

NEW SECTION. Sec. 1022. A new section is added to 2007 c 520 (uncodified) to read as follows:
FOR THE OFFICE OF FINANCIAL MANAGEMENT
Infrastructure Investment System (08-2-839)

The appropriation in this section is subject to the following conditions and limitations: The legislature intends to begin a process of reevaluating the policy goals and priorities for the allocation of infrastructure assistance program funds through the use of information that is available and reviewed each biennium by the infrastructure programs.

1. The appropriation in this section is provided solely for the office of financial management, in cooperation with the department of community, trade, and economic development, the department of ecology, the department of health, the transportation improvement board, and the office of the state treasurer to develop an implementation plan. The implementation plan will also be developed in consultation with existing and potential state infrastructure program grant and loan recipients, other stakeholders, and the legislature. The implementation plan must identify options for the organization and coordination of appropriate state infrastructure assistance programs into an improved infrastructure investment system. The implementation plan must identify opportunities for the improved infrastructure investment system to achieve the following:

(a) Ease of access to program information and applications;
(b) Access to technical assistance;
(c) Coordination of program investment to ensure that all budget and tax support from all state sources is disclosed and considered as a total package of assistance. This includes the identification of taxes paid by taxing districts and regions and the benefits received from those same districts and regions;
(d) The promotion of strategic investments of state resources that are aligned with state policy goals, which includes laws, administrative rules, and program policies;
(e) The reduction of the cost of private market borrowing for jurisdictions with higher costs;
(f) The identification of additional revenue for local infrastructure; and
(g) Effective and efficient program administration.

2. The development of an implementation plan must build upon prior studies and inventories of infrastructure programs and a further analysis of the major local infrastructure assistance programs. The implementation plan must be based on analysis, including the following:

(a) Identification of the benefits from state grants and interest rate subsidies to rate payers and local tax payers;
(b) A comparison of state policy goals, which are primary considerations in determining project funding decisions, with the actual funding decisions, the criteria used to rank proposals, and the performance measures used to monitor the success of the programs;
(c) The compilation of the total amount of assistance received by jurisdictions over the past five biennia;
(d) A comparison of the terms of a sample of low-interest loans provided to public infrastructure projects with the terms of private market borrowing that the jurisdictions would have been able to obtain. The sample of loans must include different types and sizes of projects and jurisdictions; and
(e) An identification of funds leveraged with state infrastructure resources.

3. The legislature also intends to use information from the multiple infrastructure assistance programs to provide direction for future funding priorities. The legislature will base those priorities on information from infrastructure assistance programs, including the programs' recommendations for the following:

(a) Needed investment for the different types of infrastructure projects over the next six years;
(b) Funding allocation of the projected existing state infrastructure assistance resources to those types of projects;
(c) Reallocation of existing state resources for infrastructure projects; and
(d) New and existing local and state revenue sources to address unfunded local infrastructure needs. In estimating the needed investment for different types of infrastructure projects, infrastructure assistance programs may include in their recommendations new types of projects that are not authorized in statute.
(4) The implementation plan and analysis must be completed by December 1, 2008.

Top priorities for the campus include expansion of upper division capacity for transfer students and graduate students in high demand programs, with a particular focus on science, technology, and engineering. The campus may offer lower division courses linked to specific majors in fields not addressed at local community colleges. The campus may also directly admit freshmen and sophomores gradually and deliberately in accordance with a campus plan to be submitted to the higher education coordinating board. All student admissions will be carried out in accordance with coadmissions and proportionality agreements emphasizing access for transfer students codeveloped by the University of Washington and the state board for community and technical colleges.

(2) The office of financial management and the University of Washington are directed to assess options and make recommendations on the siting of the branch campus in the Snohomish/Island/Skagit county region and shall develop operational and management plans needed to establish the institution. The plans shall include but not be limited to a master business plan for design and implementation, and programs to be offered to address demographic pressures and workforce needs. Planning and analysis shall be done in coordination with the local community and existing higher education institutions. Site selection criteria shall include, but not be limited to: Meeting the objectives of the master business plan; meeting the unmet baccalaureate needs in the region, including high demand program needs; compliance with provisions of the state's growth management act; and accessibility from existing and planned transportation infrastructure.

(3) Five years from the time the first class of students enters the new institution, the higher education coordinating board will work with the new institution and a local advisory board: (a) Review the extent to which the new institution is meeting the baccalaureate degree needs of the citizens and businesses of the region and state; (b) assess any additional steps needed to accomplish the goals set forth in subsection (1) of this section, and; (c) assess the relationship between the new institution and other higher education institutions in the region and the state.

(4) The state board for community and technical colleges and the University of Washington shall plan for transition of appropriate programs from the university center to upper division programs at the branch campus.

(5) The office of financial management and the University of Washington shall report to the governor and the appropriate committees of the senate and house of representatives by November 15, 2007, on campus sitting recommendations and a preliminary design and implementation plan. (The final design and implementation plan shall be delivered to the governor and the appropriate committees of the senate and house of representatives by June 1, 2008.)

(6) The office of financial management may contract with outside sources to carry out the provisions of this section.

**FOR THE DEPARTMENT OF INFORMATION SERVICES**

Wheeler Block Development--Department of Information Services, State Patrol, and General Office (08-2-950)

The appropriation in this section is subject to the following conditions and limitations: Planning funds are provided solely to lease/develop state office buildings and facilities for the department of information services on the "Wheeler block" of the east capitol campus. The office buildings shall be constructed and financed so that agencies' occupancy costs per gross square foot or per employee will not exceed 110 percent of comparable private market rental rates per gross square foot or per employee. The comparable general office space rate shall be calculated based on recent Thurston county leases of new space of at least 100,000 rentable square feet adjusted for known escalation clauses, expected inflation, and differences in the level of service provided by the comparable leases as determined by the department in consultation with the department of general administration. In addition to the department of information services, state agency tenants shall include the state patrol and general office facilities for small agencies and offices. The department shall design and operate the general office facilities for small agencies and offices as a demonstration of the efficiencies gained from the integration of office space and telecommunications and computer technology. The demonstration project shall provide office space, furniture, and telecommunications and computer technology as a single package. The facility shall be designed so that small agencies and offices can move in and out of the facility without the typical moving expenses that result from individual agency ownership of furniture and technology. The facility for small agencies and offices shall also provide for staffing and space efficiencies resulting from central reception, and support services and spaces. The department of general administration shall coordinate with state agency tenants of the existing general administration building that will not be relocated to the new facilities of the "Wheeler block" for occupancy of state-owned or existing leased facilities (leased by the state patrol or the department of information services)). The department shall consider alternatives for backfilling vacated state patrol or department of information services leased facilities when possible.

NEW SECTION. Sec. 3012. A new section is added to 2007 c 520 (uncodified) to read as follows:

FOR THE DEPARTMENT OF ECOLOGY
Flood Protection Study (08-2-855)

The appropriation in this section is subject to the following conditions and limitations:
The legislature finds that levees across the state provide protection to hundreds of communities from flooding. Many of these levee systems are old, built with substandard materials, and were not designed to provide the level of protection that the communities behind them need. Recent decertification of levees in King and Pierce counties by the United States army corps of engineers indicates a growing problem with levee maintenance. As more levees are decertified, land behind those levees is considered to be located in the regulated floodplain. Because of this, many homeowners and businesses must obtain flood insurance, and new construction projects must meet strict new building codes.

Therefore, the appropriation in this section is provided solely for the department to conduct a study to determine the number of decertified levees in the state and to identify strategies for recertifying the levees so that they provide optimum protection for the communities protected by the levees. The department must prioritize areas to include in the study based on population and the economic impact of potential flood damage.

The study shall include the following components:
(1) A working group of levee managers to advise and inform the study;
(2) A technical review of the structural integrity of levee systems;
(3) An inventory, map, and rate the effectiveness of existing levee systems; and
(4) The development of strategies and actions needed to improve the existing levee system and to ensure certification by the United States army corps of engineers for one-hundred year flood protection.

The study must be completed and a report provided to the appropriate legislative committees by July 1, 2009.

Trust Land Transfer (08-2-005)

The appropriations in this section are subject to the following conditions and limitations:
(1) The total appropriation is provided to the department solely to transfer from trust status, or enter into fifty year leases for, certain trust lands of statewide significance deemed appropriate for state park, fish and wildlife habitat, natural area preserve, natural resources conservation area, open space, housing and essential government services, or recreation purposes. The approved list of projects is identified in the LEAP capital document 2007-5, developed [March-20] April 19, 2007.

((5)) Prior to or concurrent with conveyance of these properties, the department, with full cooperation of the receiving agencies, shall execute and record a real property instrument that dedicates the transferred properties to the purposes identified in subsection (1) of this section. Transfer and lease agreements for properties identified in subsection (1) of this section must include terms that restrict the use of the property to the intended purpose. Transfer and lease agreements may include provisions for receiving agencies to request alternative uses of the property, provided the alternative uses are compatible with the original intended public purpose and the department and legislature approves such uses.

((7)) When choosing between common school and other trust lands of equal value may occur if the exchange is in the interest of each trust, as determined by the board of natural resources.

((8)) On June 30, 2009, the state treasurer shall transfer all remaining uncommitted funds from this appropriation to the common school construction account and the appropriations in this section shall be reduced by an equivalent amount.

Sec. 3043. 2007 c 520 s 3214 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF NATURAL RESOURCES

Conversion Land Acquisition (08-1-950)

The appropriations in this section are subject to the following conditions and limitations: The appropriations are provided solely for acquisition of working forest lands at risk of conversion to nonforest uses. The legislature finds that the chronic loss of working forest lands threatens the long-term prospects of the timber products industry, which in turn threatens the long-term economic return for the beneficiaries of state trust lands. Acquisition of these conversion lands is intended to help stabilize the primary source of revenue to trust land beneficiaries. The department shall submit a report to the appropriate committees of the legislature by October 1, 2008, indicating the lands purchased under this section, showing the locations, acres, purchase price, and within that purchase price, the value of the property attributed to the future value of timber harvests at an expected rate of return for timber lands, and the value of the property attributed to future development of the property. It is the intention of the legislature to lease or otherwise acquire the development rights of these conversion lands and retain them as long-term working forest lands under the sustainable harvest plan. Working forest lands acquired under this section shall be managed at a level equal to or greater than seventy-five percent of the expected harvest under the sustainable harvest plan. The appropriation provided in this section shall lapse unless chapter 504, Laws of 2007, or similar provisions contained in other legislation, is enacted prior to June 30, 2007. No amounts appropriated in this section shall be expended on the central cascade land exchange unless one of the two following conditions are met: (1) The four Stemilt parcels in T21R20E are excluded from the exchange; or (2) the four Stemilt parcels in T21R20E are included in the exchange and the department and Chelan county, as chair of the Stemilt partnership, agree on a plan for eventual ownership, disposition, and management of the four Stemilt parcels. The department shall manage cash balances in the natural resources real property replacement account such that cash balances are sufficient for the treasurer transfers required in section 6030 of this act. The department may also transfer funds from the land bank subaccount of the resource management cost account to the natural resources real property replacement account to ensure sufficient cash balances.

Potential School Sites-State Trust Land Study (08-2-854)

The appropriation in this section is subject to the following conditions and limitations:
(1) The joint legislative committee on school construction funding finds that high growth school districts are often unable to acquire lands best suited for siting new schools. Current funding capacity is devoted to current needs and land development in rapidly growing areas of the state competes with the present and future need for undeveloped sites to build new schools.

(2) The appropriation in this section is provided solely for the superintendent of public instruction and the commissioner of public lands to establish a work group to analyze the feasibility of and develop options for using existing state lands in high growth areas of the state for potential future school sites. The work group shall: (a) Prepare an inventory of existing state trust lands suitable for use as school sites; (b) prepare a projection of the needs for school sites in high growth school districts; and (c) develop options for holding and valuing the land for future school district use that are consistent with legal requirements and management objectives for state trust lands and any other state lands.

(3) The work group shall report to the legislature by December 1, 2008.

The office of financial management shall certify to the state treasurer: (A) The project description and dollar amount; and (B) that all requirements of this subsection (8) have been met. Should the department of information services choose to use a financing contract that does not provide for the issuance of certificates of participation, the financing contract shall be subject to approval by the state finance committee as required by RCW 39.94.010. In approving a financing contract not providing for the use of certificates of participation, the state finance committee should be reasonably certain that the contract is excluded from the computation of indebtedness, particularly that the contract is not backed by the full faith and credit of the state and the legislature is expressly not obligated to appropriate funds to make payments. For purposes of this section, "financing contract" includes but is not limited to a certificate of participation and tax exempt financing similar to that authorized by RCW 47.79.140.

(9) Office of the secretary of state: Enter into a financing contract for up to ($112,942,000) $134,935,000 plus financing expenses and required reserves pursuant to chapter 39.94 RCW to construct the heritage center. The heritage center is one part of a combined facility of
the heritage center and executive office building, authorized in subsection (10) of this section. The authorization for financing under this subsection (9) shall lapse unless chapter 523, Laws of 2007 is enacted by June 30, 2007.

(10) Department of general administration:
(a) Enter into a financing contract for up to ($75,863,000) $79,981,000 plus financing expenses and required reserves pursuant to chapter 39.94 RCW to construct the executive office building. The executive office building is one part of a combined facility of the executive office building and the heritage center authorized in subsection (9) of this section. The authorization for financing under this subsection (10) shall lapse unless chapter 523, Laws of 2007 is enacted by June 30, 2007.
(b) Enter into a financing contract for up to $17,144,000 plus financing expenses and required reserves pursuant to chapter 39.94 RCW for the rehabilitation of the John L. O'Brien building, subject to approval of the project scope by the speaker of the house of representatives and the chief clerk of the house of representatives.
(c) Enter into a financing contract for up to $2,000,000 plus financing expenses and required reserves pursuant to chapter 39.94 RCW for the "Perry street child care site" renovations and purchase.
(d) Enter into a financing contract for up to $2,685,000 plus financing expenses and required reserves pursuant to chapter 39.94 RCW for land acquisition in Olympia, Washington.

(1) The public works assistance account is hereby established in the state treasury. Money may be placed in the public works assistance account from the proceeds of bonds when authorized by the legislature or from any other lawful source. Money in the public works assistance account shall be used to make loans and to give financial assistance to local governments for public works projects. Moneys in the account may also be appropriated to provide for state match requirements under federal law for projects and activities conducted and financed by the board under the drinking water assistance account. Not more than fifteen percent of the biennial capital budget appropriation to the public works board from this account may be expended or obligated for preconstruction loans, emergency loans, or loans for capital facility planning under this chapter; of this amount, not more than ten percent of the biennial capital budget appropriation may be expended for emergency loans and not more than one percent of the biennial capital budget appropriation may be expended for capital facility planning loans. For the 2007-2009 biennium, moneys in the account may be used for grants for projects identified in section 138, chapter 488, Laws of 2005, for the infrastructure investment system implementation plan identified in section 1022 of this act; for the interest rate buy-down pilot program identified in section 1004 of this act; and for the housing assistance, weatherization, and affordable housing program identified in section 1005 of this act.

(2) The job development fund is hereby established in the state treasury. Up to fifty million dollars each biennium from the public works assistance account may be transferred into the job development fund. Money in the job development fund may be used solely for job development fund program grants, administrative expenses related to the administration of the job development fund program created in RCW 43.160.230, and for the report prepared by the joint legislative audit and review committee pursuant to RCW 44.28.801(2). The board may provide an additional alternate job development fund project list up to ten million dollars. The legislature may remove projects from the list recommended by the board. The legislature may not change the prioritization of projects recommended for funding by the board, but may add projects from the alternate list in order of priority, as long as the total funding does not exceed fifty million dollars.

Sec. 6003. RCW 48.02.190 and 2007 c 153 s 3 and 2007 c 468 s 1 are each reenacted and amended to read as follows:

(1) As used in this section:
(a) "Organization" means every insurer, as defined in RCW 48.01.050, having a certificate of authority to do business in this state, every health care service contractor, as defined in RCW 48.44.010, every health maintenance organization, as defined in RCW 48.46.020, or self-funded multiple employer welfare arrangement, as defined in RCW 48.125.010, registered to do business in this state. "Class one" organizations as defined in RCW 48.01.050. "Class two" organizations shall consist of all organizations registered under provisions of chapters 48.44 and 48.46 RCW. "Class three" organizations shall consist of self-funded multiple employer welfare arrangements as defined in RCW 48.125.010.
(b)(i) "Receipts" means (A) net direct premiums consisting of direct gross premiums, as defined in RCW 48.18.170, paid for insurance written or renewed upon risks or property resident, situated, or to be performed in this state, less return premiums and premiums on policies not taken, dividends paid or credited to policyholders on direct business, and premiums received from policies or contracts issued in connection with qualified plans as defined in RCW 48.14.021, and (B) prepayments to health care service contractors, as defined in RCW 48.44.010, health maintenance organizations, as defined in RCW 48.46.020, or participant contributions to self-funded multiple employer welfare arrangements, as defined in RCW 48.125.010, less experience rating credits, dividends, prepayments returned to subscribers, and payments for contracts not taken.
(ii) Participant contributions, under chapter 48.125 RCW, used to determine the receipts in this state under this section shall be determined in the same manner as premiums taxable in this state, as determined under RCW 48.14.090.
(c) "Regulatory surcharge" means the fees imposed by this section.

(2) The job development fund shall consist of all insurers as defined in RCW 48.01.050, and the job development fund may be expended or obligated for preconstruction loans, emergency loans, or loans for capital facility planning under this chapter; of this amount, not more than ten percent of the biennial capital budget appropriation may be expended for emergency loans and not more than one percent of the biennial capital budget appropriation may be expended for capital facility planning loans. For the 2007-2009 biennium, moneys in the account may be used for grants for projects identified in section 138, chapter 488, Laws of 2005, for the infrastructure investment system implementation plan identified in section 1022 of this act; for the interest rate buy-down pilot program identified in section 1004 of this act; and for the housing assistance, weatherization, and affordable housing program identified in section 1005 of this act.

(3) The regulatory surcharge shall be calculated separately for each class of organization. The regulatory surcharge collected from each organization shall be that portion of the cost of operating the insurance commissioner's office, for that class of organization, for the ensuing fiscal year that is represented by the organization's portion of the receipts collected or received by all organizations within that class on business in this state during the previous calendar year. However, the regulatory surcharge must not exceed one-eighth of one percent of receipts and the minimum regulatory surcharge shall be one thousand dollars.

(4) The commissioner shall annually, on or before June 1st, calculate and bill each organization for the amount of the regulatory surcharge. The regulatory surcharge shall be due and payable no later than June 15th of each year. However, if the necessary financial records are not available or if the amount of the legislative appropriation is not determined in time to carry out such calculations and bill such regulatory surcharge within the time specified, the commissioner may use the regulatory surcharge factors for the prior year as the basis for the regulatory surcharge and, if necessary, the commissioner may impose supplemental fees to fully and properly charge the organizations. Any organization failing to pay the regulatory surcharges by June 30th shall pay the same penalties as the penalties for failure to pay taxes when due under RCW...
The regulatory surcharge required by this section is in addition to all other taxes and fees now imposed or that may be subsequently imposed.

(5) All moneys collected shall be deposited in the insurance commissioner's regulatory account in the state treasury which is hereby created.

(6) Unexpended funds in the insurance commissioner's regulatory account at the close of a fiscal year shall be carried forward in the insurance commissioner's regulatory account to the succeeding fiscal year and shall be used to reduce future regulatory surcharges. During the 2007-2009 fiscal biennium, the legislature may transfer from the insurance commissioner's regulatory account to the Washington state heritage center account such amounts as reflect excess fund balance in the account.

(b) If an insurer fails to collect the entire amount of the recoupment in the first year under this section, it may repeat the recoupment procedure provided for in this subsection (7) in succeeding years until the regulatory surcharge is collected or a de minimis amount remains uncollected. Any such de minimis amount may be collected as provided in (d) of this subsection.

(c) The amount and nature of any recoupment shall be separately stated on either a policyholder billing or tax warrant surcharge receipt. The amount of the recoupment must not be considered a premium for any purpose, including the premium tax or agents' commissions.

(d) An insurer may elect not to collect the regulatory surcharge from its insured. In such a case, the insurer may recoup the regulatory surcharge through its rates, if the following requirements are met:

(i) The insurer remits the amount of surcharge not collected by election under this subsection; and

(ii) The surcharge is not considered a premium for any purpose, including the premium tax or agents' commission.

Sec. 6004. RCW 79.64.020 and 2004 c 199 s 226 are each amended to read as follows:

Appropriations from the resource management cost account to the department shall be expended for no other purposes. Funds in the resource management cost account may be appropriated or transferred by the legislature for the benefit of all of the trusts from which the funds were derived. For the 2007-2009 biennium, moneys in the account may be used for the purposes identified in section 3044 of this act.

Sec. 6005. RCW 40.14.024 and 2003 c 163 s 3 are each amended to read as follows:

During the 2007-2009 biennium, the legislature may transfer from the local government archives account to the Washington state heritage center account such amounts as reflect the excess fund balance in the account.

(b) To the extent the facilities are used for the storage and retrieval of state agency records and digital data, that portion of the construction of such facilities used for state government records and data shall be supported by other charges and fees paid by state agencies and shall not be supported by the surcharge authorized in this subsection, except that to the extent there is an excess fund balance in the account and fees generated under RCW 36.18.010 and 43.07.128 are insufficient to meet debt service payments, the Washington state heritage center, the local government archives account under RCW 40.14.024 may be used for the Washington state heritage center.

The state treasurer shall be custodian of the account. All moneys received by the state auditor or by any officer or employee thereof shall be deposited with the state treasurer and credited to the municipal revolving account. Only the state auditor or the auditor's designee may authorize expenditures from the account. No appropriation is required for expenditures. The evaluation will also recommend other areas of capital project risk for assessment in future evaluations. The joint legislative audit and review committee shall submit a report to the relevant fiscal committees of the legislature by August 2009.

Only the director of the office of financial management or the director’s designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW. (2) Until bonds are issued under RCW 43.99N.020, up to five million dollars per year beginning January 1, 1999, shall be used for the purposes of subsection (3)(b) of this section, all remaining moneys in the account shall be transferred to the public stadium authority, created under RCW 36.102.020, to be used for public stadium authority operations and development of the stadium and exhibition center.

(3) After bonds are issued under RCW 43.99N.020, all moneys in the stadium and exhibition center account shall be used exclusively for the following purposes in the following priority:

Cities, counties, and qualified nonprofit organizations must meet eligibility criteria as established by the director of the recreation and conservation office. The grants and loans shall be awarded on a competitive application process and the amount of the grant or loan shall be in proportion to the population of the city or county for where the community outdoor athletic facility is located. Grants or loans awarded in any one year need not be distributed in that year. In the 2007/2009 biennium, if there are not enough project applications submitted in a category within the account to meet the requirement of equal distribution of funds to each category, the director of the recreation and conservation office may distribute any remaining funds to other categories within the account. The director of the recreation and conservation office may expend up to one and one-half percent of the moneys deposited in the account created in this subsection for administrative purposes.

MESSAGE FROM THE SENATE

March 13, 2008

Mr. Speaker:

The Senate receded from its amendment to SUBSTITUTE HOUSE BILL NO. 2279. Under suspension of the rules the bill was returned to second reading for purpose of amendment. The Senate adopted the following amendment and passed the bill as amended by the Senate:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. It is the public policy of the state to assist in making affordable housing available throughout the state. The legislature recognizes that despite ongoing efforts there is still a lack of affordable housing in many areas. The legislature also recognizes that some local governments have imposed development requirements on affordable housing developments that are not generally imposed on other housing developments. The intent of this legislature is to prohibit discrimination against affordable housing developments."
NEW SECTION. Sec. 2. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Affordable housing development" means a housing development in which at least twenty-five percent of the dwelling units within the development are set aside for or are occupied by low-income households at a sales price or rent amount that is considered affordable by a federal, state, or local government housing program.

(2) "Dwelling unit" means that part of a housing development that is used as a home, residence, or place to sleep by one person or two or more persons maintaining a common household.

(3) "Housing development" means a proposed or existing structure that is used as a home, residence, or place to sleep by one or more persons including, but not limited to, single-family residences, manufactured housing, group homes, and foster care facilities.

(4) "Low-income household" means a single person, family, or unrelated persons living together whose adjusted income is less than eighty percent of the median family income, adjusted for household size, for the county where the affordable housing development is located.

NEW SECTION. Sec. 3. (1) A city, county, or other local governmental entity or agency may not adopt, impose, or enforce requirements on an affordable housing development that are different than the requirements imposed on housing developments generally.

(2) This section does not prohibit any city, county, or other local governmental entity or agency from extending preferential treatment to affordable housing developments intended for including, but not limited to, occupancy by homeless persons, farmworkers, persons with disabilities, senior citizens, or low-income households. Preferential treatment may include, but is not limited to: A reduction or waiver of fees or changes in applicable requirements including, without limitation, architectural requirements, site development requirements, property line requirements, building setback requirements, or vehicle parking requirements; or other treatment that reduces or is likely to reduce the development or operating costs of an affordable housing development.

(3) A city, county, or other local governmental entity or agency may impose and enforce requirements on affordable housing developments as conditions of loans, grants, financial support, tax benefits, subsidy funds, or sale or lease of public property, or as conditions to eligibility for any affordable housing incentive program under RCW 36.70A.540 or any other program involving bonus density, transfer of development rights, waiver of development regulations or fees, or other development incentives.

NEW SECTION. Sec. 4. Sections 2 and 3 of this act constitute a new chapter in Title 43 RCW.

On page 1, line 2 of the title, after "developments," strike the remainder of the title and insert "adding a new chapter to Title 43 RCW; and creating a new section."

and the same is herewith transmitted.

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES.  (1) Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.
(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services...
authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall laps. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act.

(4) The department is authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage medicaid expenditures for the aged and disabled population. Under this Washington medicaid integration partnership (WMIP), the department may combine and transfer such medicaid funds appropriated under sections 204, 206, 208, and 209 of this act as may be necessary to finance a unified health care plan for the WMIP program enrollment. The WMIP pilot projects shall not exceed a daily enrollment of ((12,000)) 6,000 persons, or expand beyond one county, during the 2007-2009 biennium. The amount of funding assigned to the pilot projects from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled in the pilot project, times the number of clients enrolled in the pilot project. In implementing the WMIP pilot projects, the department may: (a) Withhold from calculations of "available resources" as set forth in RCW 71.24.025 a sum equal to the capitated rate for individuals enrolled in the pilot; and (b) employ capitation financing and risk-sharing arrangements in collaboration with health care service contractors licensed by the office of the insurance commissioner and qualified to participate in both the medicaid and medicare programs. The department shall conduct an evaluation of the WMIP, measuring changes in participant health outcomes, changes in patterns of service utilization, participant satisfaction, participant access to services, and the state fiscal impact.

(5)(a) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. However, after May 1, 2008, unless specifically prohibited by this act, the department may transfer general fund--state appropriations for fiscal year 2008 among programs after approval by the director of financial management. However, the department shall not transfer state moneys that are provided solely for a specified purpose except as expressly provided in (b) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year 2008 caseload forecasts and utilization assumptions in the medical assistance, long-term care, foster care, adoption support, and child support programs, the department may transfer state moneys that are provided solely for a specified purpose. The department shall not transfer funds, and the director of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

The federal portion of these rate increases is contingent upon federal approval. (i) The legislature intends and expects that regional support networks and community mental health agencies will use at least 67 percent of the amounts provided in this subsection (1)(o) to increase compensation for direct care personnel above and beyond usual and customary wage increases. To this end, regional support networks shall report to the department by October 15, 2007, on planned uses of the rate increases within their network area. The report shall describe the direct care job classifications to which increases are to be provided; the number of full-time equivalent personnel employed in each classification; the annualized dollar and percentage increases to be provided each classification; the annualized dollar value of the direct care compensation increases provided, in total and as a percentage of the total capitation rate paid for each job classification covered by a collective bargaining agreement. The department shall ensure that the average cost per day for all program services other than start-up costs shall not exceed $349 in fiscal year 2008 and $356 in fiscal year 2009. In order to maximize the number of clients served and ensure the cost-effectiveness of the waiver programs, the department will strive to limit new client placement expenditures to 90 percent of the budgeted daily rate. If this can be accomplished, additional clients may be served with excess funds, provided the total projected carry-forward expenditures do not exceed the amounts estimated. The department shall electronically report to the appropriate committees of the legislature, within 45 days following each fiscal year quarter, the number of persons served with these additional community services, where they were residing, what kinds of services they were receiving prior to placement, and the actual expenditures for all community services to support these clients.

Services shall be provided for both waiver and nonwaiver clients. The legislature finds that some waiver clients are not receiving employment services that are authorized under their waivers. Within the amounts appropriated in this section, waiver clients must receive services as authorized by their waiver, such as pathway to employment, while waiting for paid employment to be developed. The department shall work with the counties to establish a consistent proposed policy for minimum direct service hours for clients, minimum hours of support, time frames for seeking paid employment, and services provided under pathway to employment while paid employment is sought. The department shall report to the office of financial management and the appropriate committees of the legislature on this proposal by November 1, 2008, including estimated fiscal impacts and an option for making the policy budget neutral for the current level of clients served. (a) A continuum of residential care settings should be available to Medicaid-eligible vulnerable adults so as to honor consumer choice;

(b) Payment methodologies for care provided in adult family homes, boarding homes, and nursing homes should be based upon resident acuity, with payment rates that recognize the impact of differing state and federal regulatory requirements upon facility costs, but also address community preferences for higher wages and/or benefits for dietary aides, housekeeping aides, laundry aides, housekeepers, and/or other workers whose statewide average dollars-per-hour wage is less than $15 in calendar year 2006, according to cost report data.

(c) Payment methodologies should be designed to support retention of quality health care staff through training, wages, and benefits offered to direct care staff, with special consideration given to offering home care, boarding home, and adult family home care for a disproportionate number of Medicaid-eligible residents relative to their peer facilities.

Effective July 1, 2008, the department shall be authorized to provide adult family homes that specialize in caring for such conditions with exceptional care rates for up to 50 beds. TOTAL APPROPRIATION ............................................................................. ($8,312,063,000)
The appropriations in this section are subject to the following conditions and limitations:

(1) Based on quarterly expenditure reports and caseload forecasts, if the department estimates that expenditures for the medical assistance program will exceed the appropriations, the department shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(2) In determining financial eligibility for medicaid-funded services, the department is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.03.104 (3).

(3) Sufficient amounts are appropriated in this section for the department to continue podiatry services for medicaid-eligible adults.

(4) Sufficient amounts are appropriated in this section for the department to provide an adult dental benefit that is at least equivalent to the benefit provided in the 2003-05 biennium.

(5) In accordance with RCW 74.46.625, $6,000,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for grants to rural hospitals. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the department's discretion. During either the interim cost settlement or the final cost settlement, the department shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The department shall apply federal rules for identifying the eligible incurred medicare costs and the medicare upper payment limit.

(6) $1,111,000 of the health services account appropriation for fiscal year 2008, $1,110,000 of the health services account appropriation for fiscal year 2009, $5,402,000 of the general fund--federal appropriation, $1,590,000 of the general fund--state appropriation for fiscal year 2008, and $1,591,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for grants to rural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(7) $10,546,000 of the health services account appropriation for fiscal year 2008, $10,546,000 of the health services account--state appropriation for fiscal year 2009, and $19,725,000 of the general fund--federal appropriation are provided solely for grants to nonrural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicare program.

(8) The department shall continue the inpatient hospital certified public expenditures program for the 2007-2009 biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The department shall submit ((a)) reports to the governor and legislature by November 1, 2007, and by November 1, 2008, that evaluate((b)) whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the department shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2008 and fiscal year 2009, hospitals in the program shall be paid and shall retain (a) one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance; and (b) one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount ((that is the total of (a) the total payment for claims for services rendered during the fiscal year calculated according to the methodology employed by the legislature in the omnibus appropriations act for implementation in fiscal year 2008)). The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program, and (b) disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 that pertain to fiscal year 2005. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and ((((state grant payments are subject to an interim (cees))))) settlement within eleven months after the end of the fiscal year. A final (cees) settlement shall be performed within two years after the end of the related fiscal year. To the extent that ((a final cost)) either settlement determines that a hospital has received funds in excess of what it would have received ((under the methodology in place in fiscal year 2008)) as described in this subsection, the hospital must repay ((these)) the excess amounts to the state when requested. ($(741,466,000)$) $61,728,000 of the general fund--state appropriation for fiscal year 2008, of which $6,570,000 is appropriated in section 204(1) of this act and the balance in this section, and ($(599,726,000)$) $57,894,000 of the general fund--state appropriation for fiscal year 2009, of which $6,570,000 is appropriated in section 204(1) of this act and the balance in this section, are provided solely for state grants for the participating hospitals.

(b) Undertake, directly or by contract, a study to determine the cost-effectiveness of paying premiums for enrollment of full benefit dual eligible beneficiaries in medicare advantage plans in lieu of paying full benefit dual eligible beneficiaries' medicare cost-sharing. The study shall compare the cost and health outcomes experience, including rates of nursing home placement and costs for groups of full benefit dual eligible beneficiaries who are enrolled in medicare advantage plans, in medicare special needs plan or in medicare fee-for-service. The study shall compare the health status and utilization of health and long-term care services for the three groups, and the impact of access to a medical home and specialty care, over a period of two years to determine any differences in health status, health outcomes, and state expenditures that result. The department shall submit the results of the study to the governor and the legislature by June 30, 2009. The department is authorized to accept private cash and in-kind donations and grants to support the study and evaluation.

$9,265,714,000
(C) Any district maintaining a ratio in grades K-4 equal to or greater than 53.2 certificated instructional staff per thousand full-time equivalent students may use allocations generated under this subsection (2)(a)(iv) in excess of that required to maintain the minimum ratio established under RCW 28A.150.260(2)(b) to employ additional basic education certificated instructional staff or classified instructional assistants in grades 5-6. Funds allocated under this subsection (2)(a)(iv) shall only be expended to reduce class size in grades K-6. No more than 1.3 of the certificated instructional funding ratio amount may be expended for provision of classified instructional assistants;

(b) For school districts with a minimum enrollment of 250 full-time equivalent students whose full-time equivalent student enrollment count in a given month exceeds the first of the month full-time equivalent enrollment count by 5 percent, an additional state allocation of $110 percent of the share that such increased enrollment would have generated had such additional full-time equivalent students been included in the normal enrollment count for that particular month;

(c)(i) On the basis of full-time equivalent enrollment in:

(A) Vocational education programs approved by the superintendent of public instruction, a maximum of 0.92 certificated instructional staff units and 0.08 certificated administrative staff units for each 19.5 full-time equivalent vocational students; and

(B) Skills center programs meeting the standards for skills center funding established in January 1999 by the superintendent of public instruction with a waiver allowed for skills centers in current operation that are not meeting this standard until the 2008-09 school year, 0.92 certificated instructional staff units and 0.08 certificated administrative units for each 16.67 full-time equivalent vocational students;

(ii) Vocational full-time equivalent enrollment shall be reported on the same monthly basis as the enrollment for students eligible for basic support, and payments shall be adjusted for reported vocational enrollments on the same monthly basis as those adjustments for enrollment for students eligible for basic support; and

(iii) Indirect cost charges by a school district to vocational-secondary programs shall not exceed 15 percent of the combined basic education and vocational enhancement allocations of state funds;

(d) For districts enrolling not more than twenty-five average annual full-time equivalent students in grades K-8, and for small school plants within any school district which have been judged to be remote and necessary by the state board of education and enroll not more than twenty-five average annual full-time equivalent students in grades K-8:

(i) For those enrolling no students in grades 7 and 8, 1.76 certificated instructional staff units and 0.24 certificated administrative staff units for enrollment of not more than five students, plus one-twentieth of a certificated instructional staff unit for each additional student enrolled; and

(ii) For those enrolling students in grades 7 or 8, 1.68 certificated instructional staff units and 0.32 certificated administrative staff units for enrollment of not more than five students, plus one-tenth of a certificated instructional staff unit for each additional student enrolled;

(e) For specified enrollments in districts enrolling more than twenty-five but not more than one hundred average annual full-time equivalent students in grades K-8, and for small school plants within any school district which enroll more than twenty-five average annual full-time equivalent students in grades K-8 and have been judged to be remote and necessary by the state board of education:

(i) For enrollment of up to sixty average annual full-time equivalent students in grades K-6, 2.76 certificated instructional staff units and 0.24 certificated administrative staff units; and

(f) For districts enrolling not more than two high schools with enrollments of less than three hundred average annual full-time equivalent students, for enrollment in grades 9-12 in each such school, other than alternative schools:

(i) For remote and necessary schools enrolling students in any grades 9-12 but no more than twenty-five average annual full-time equivalent students in grades K-12, four and one-half certificated instructional staff units and one-quarter of a certificated administrative staff unit;

(ii) For all other small high schools under this subsection, nine certificated instructional staff units and one-half of a certificated administrative staff unit for the first sixty average annual full time equivalent students, and additional staff units based on a ratio of 0.8732 certificated instructional staff units and 0.1268 certificated administrative staff units per each additional forty-three and one-half average annual full time equivalent students.

Units calculated under (g)(ii) of this subsection shall be reduced by certificated staff units at the rate of forty-six certificated instructional staff units and four certificated administrative staff units per thousand vocational full-time equivalent students;

(g) For each nonhigh school district having an enrollment of more than seventy annual average full-time equivalent students and less than one hundred eighty students, operating a grades K-8 program or a grades 1-8 program, an additional one-half of a certificated instructional staff unit; and

(6) Fringe benefit allocations shall be calculated at the maintenance rate specified in section 504(2) of this act, based on the number of benefit units determined as follows:

(a) The number of certificated staff units determined in subsection (2) of this section; and

(b) The number of classified staff units determined in subsection (3) of this section multiplied by 1.152. This factor is intended to adjust allocations so that, for the purposes of distributing insurance benefits, full-time equivalent classified employees may be calculated on the basis of 1440 hours of work per year, with no individual employee counted as more than one full-time equivalent.

(c) For nonemployee-related costs associated with each certificated staff unit allocated under subsection (2)(a), (b), and (d) through (f) of this section, there shall be provided a maximum of $50,703 per certificated staff unit in the 2007-08 school year and a maximum of ($50,703) $10,178 per certificated staff unit in the 2008-09 school year.
For nonemployee-related costs associated with each vocational certificated staff unit allocated under subsection (2)(c)(ii)(A) of this section, there shall be provided a maximum of $23,831 per certificated staff unit in the 2007-08 school year and a maximum of $24,999 per certificated staff unit in the 2008-09 school year.

(c) For nonemployee-related costs associated with each vocational certificated staff unit allocated under subsection (2)(c)(ii)(B) of this section, there shall be provided a maximum of $18,489 per certificated staff unit in the 2007-08 school year and a maximum of $19,395 per certificated staff unit in the 2008-09 school year.

(7) Allocations for substitute costs for classroom teachers shall be distributed at a maintenance rate of $555.20 for the 2007-08 and 2008-09 school years per allocated classroom teachers exclusive of salary increase amounts provided in section 504 of this act. Solely for the purposes of this subsection, allocated classroom teachers shall be equal to the number of certificated instructional staff units allocated under subsection (2) of this section, multiplied by the ratio between the number of actual basic education certificated teachers and the number of actual basic education certificated instructional staff reported statewide for the prior school year.

(8) Any school district board of directors may petition the superintendent of public instruction by submission of a resolution adopted in a public meeting to reduce or delay any portion of its basic education allocation for any school year. The superintendent of public instruction shall approve such reduction or delay if it does not impair the district's financial condition. Any delay shall not be for more than two school years. Any reduction or delay shall have no impact on levy authority pursuant to RCW 84.52.0531 and local effort assistance pursuant to chapter 28A.500 RCW.

(9) $1,870,000 of the general fund--state appropriation for fiscal year 2008 and $2,421,000 of the general fund--state appropriation for fiscal year 2009 are provided solely to implement Engrossed Second Substitute House Bill No. 1432 (granting service credit to educational staff associates for nonschool employment). (10) The superintendent may distribute a maximum of $16,620,000 outside the basic education formula during fiscal years 2008 and 2009 as follows:

(a) For fire protection for school districts located in a fire protection district as now or hereafter established pursuant to chapter 52.04 RCW, a maximum of $547,000 may be expended in fiscal year 2008 and a maximum of $567,000 may be expended in fiscal year 2009;

(b) For summer vocational programs at skills centers, a maximum of $2,385,000 may be expended for the 2008 fiscal year and a maximum of $2,385,000 for the 2009 fiscal year. 20 percent of each fiscal year amount may carry over from one year to the next;

(c) A maximum of $485,000 each fiscal year may be expended for programs providing skills training for secondary students who are enrolled in extended day school-to-work programs, as approved by the superintendent of public instruction. The funds shall be allocated at a rate not to exceed $500 per full-time equivalent student enrolled in those programs;

(d) A maximum of $567,000 may be expended for the 2008 fiscal year and a maximum of $539,000 may be expended for school district emergencies;

(e) A maximum of $1,300,000 may be expended for the 2008 fiscal year and a maximum of $2,450,000 for the 2009 fiscal year, of which $1,870,000 may be expended for equipment programs for the 2008 fiscal year and a maximum of $2,200,000 may be expended for the 2009 fiscal year for special education services; and

(f) $2,991,000 of the general fund--state appropriation for fiscal year 2008 and $4,403,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for the implementation of Second Substitute Senate Bill No. 5790 (regarding skills centers). If the bill is not enacted by June 30, 2007, the amounts provided in this subsection shall lapse.

(11) For purposes of RCW 84.52.0531, the increase per full-time equivalent student is 5.7 percent from the 2006-07 school year to the 2007-08 school year and (5.1) 6.0 percent from the 2007-08 school year to the 2008-09 school year.

(12) If two or more school districts consolidate and each district was receiving additional basic education formula staff units pursuant to subsection (2)(b) through (h) of this section, the following shall apply:

(a) For three school years following consolidation, the number of basic education formula staff units shall not be less than the number of basic education formula staff units received by the districts in the school year prior to the consolidation; and

(b) For the fourth through eighth school years following consolidation, the difference between the basic education formula staff units received by the districts for the school year prior to consolidation and the basic education formula staff units after consolidation pursuant to subsection (2)(a) through (h) of this section shall be reduced in increments of twenty percent per year.

(13) The appropriation levels in part V of this act assume implementation of the reimbursement provisions of Senate Bill No. 6450 (school district reimbursement of performance audits).

Sec. 503. 2007 c 522 s 503 (uncodified) is amended to read as follows:

(b) Salary allocations for certificated administrative staff units and classified staff units for each district shall be based on the district's certificated administrative and classified salary allocation amounts shown on LEAP Document 2.

(2) For the purposes of this section:

(a) LEAP Document 1 means the staff mix factors for certificated instructional staff according to education and years of experience, as developed by the legislative evaluation and accountability program committee on ((March 24, 2007, at 07:29)) March 9, 2008, at 15:09 hours; and

(b) LEAP Document 2 means the school year salary allocations for certificated administrative staff and classified staff and derived and total base salaries for certificated instructional staff as developed by the legislative evaluation and accountability program committee on ((April 19, 2007, at 06:03)) March 9, 2008, at 15:09 hours.

(3) Incremental fringe benefit factors shall be applied to salary adjustments at a rate of ((14.13)) 14.11 percent for school year 2007-08 and ((16.69)) 16.75 percent for school year 2008-09 for certificated staff and for classified staff ((17.04)) 17.04 percent for school year 2007-08 and ((18.74)) 18.72 percent for the 2008-09 school year.

(4)(a) Pursuant to RCW 28A.150.410, the following state-wide salary allocation schedules for certificated instructional staff are established for basic education salary allocations:

(i) Credits earned since receiving the masters degree; and
(ii) Any credits in excess of forty-five credits that were earned after the baccalaureate degree but before the masters degree.
(5) For the purposes of this section:
(a) "BA" means a baccalaureate degree.
(b) "MA" means a masters degree.
(c) "PHD" means a doctorate degree.
(d) "Years of service" shall be calculated under the same rules adopted by the superintendent of public instruction.
(e) "Credits" means college quarter hour credits and equivalent in-service credits computed in accordance with RCW 28A.415.020 and 28A.415.023.
(6) No more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and LEAP documents referenced in this act, or any replacement schedules and documents, unless:

A school district is eligible for the learning improvement day funds only if the learning improvement days have been added to the 180-day contract year. If fewer days are added, the additional learning improvement allocation shall be adjusted accordingly. The additional days shall be limited to specific activities identified in the state required school improvement plan related to improving student learning that are consistent with education reform implementation, and shall not be considered part of basic education. The principal in each school shall assure that the days are used to provide the necessary school-wide, staff professional development that is tied directly to the school improvement plan. The school principal and the district superintendent shall maintain documentation as to their approval of these activities. The length of a learning improvement day shall not be less than the length of a full day under the base contract. The superintendent of public instruction shall ensure that school districts adhere to the intent and purposes of this subsection.

| Education Legacy Trust Account--State Appropriation | $25,000,000 | $35,000,000 |
| TOTAL APPROPRIATION | $552,428,000 | $574,919,000 |

The appropriations in this section are subject to the following conditions and limitations:

(1) Each general fund fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(2) A maximum of $848,000 of this fiscal year 2008 appropriation and a maximum of ((866,000)) $878,000 of the fiscal year 2009 appropriation may be expended for regional transportation coordinators and related activities. The transportation coordinators shall ensure
that data submitted by school districts for state transportation funding shall, to the greatest extent practical, reflect the actual transportation activity of each district.

3) $5,000 of the fiscal year 2008 appropriation and $5,000 of the fiscal year 2009 appropriation are provided solely for the transportation of students enrolled in "choice" programs. Transportation shall be limited to low-income students who are transferring to "choice" programs solely for educational reasons.

4) Allocations for transportation of students shall be based on reimbursement rates of $44.84 per weighted mile in the 2007-08 school year and (($44.84 + $45.68) per weighted mile in the 2008-09 school year exclusive of salary and benefit adjustments provided in section 504 of this act. Allocations for transportation of students transported more than one radius mile shall be based on weighted miles as determined by superintendent of public instruction multiplied by the per mile reimbursement rates for the school year pursuant to the formulas adopted by the superintendent of public instruction. Allocations for transportation of students living within one radius mile shall be based on the number of enrolled students in grades kindergarten through five living within one radius mile of their assigned school multiplied by the per mile reimbursement rate for the school year multiplied by 1.29.

5) $25,000,000 of the education legacy trust account--state appropriation is provided solely for temporary assistance to school districts for pupil transportation programs. The office of the superintendent of public instruction, in consultation with the joint legislative audit and review committee, will develop a method of allocating these funds to school districts. The allocation method shall be based primarily on the findings and analysis from the joint legislative and audit review committee's K-12 pupil transportation study completed in December 2006.

6) The office of the superintendent of public instruction shall provide reimbursement funding to a school district only after the superintendent of public instruction determines that the school bus was purchased from the list established pursuant to RCW 28A.160.195(2) or a comparable competitive bid process based on the lowest price cost quote based on similar bus categories to those used to establish the list pursuant to RCW 28A.160.195.

7) The superintendent of public instruction shall base depreciation payments for school district buses on the five-year average of lowest bids in the appropriate category of bus. In the fiscal year on the depreciation schedule, the depreciation payment shall be based on the lowest bid in the appropriate bus category for that school year.

Sec. 506. 2007 c 522 s 507 (uncodified) is amended to read as follows:

FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SPECIAL EDUCATION PROGRAMS

General Fund--State Appropriation (FY 2008) .......................................................... ($522,192,000)
General Fund--State Appropriation (FY 2009) .......................................................... ($566,174,000)
General Fund--Federal Appropriation ........................................................................ ($115,735,000)
Education Legacy Trust Account--State Appropriation ................................................. $31,561,000

TOTAL APPROPRIATION ......................................................................................... ($744,662,000)

$1,575,647,000

The appropriations in this section are subject to the following conditions and limitations:

1) Funding for special education programs is provided on an excess cost basis, pursuant to RCW 28A.150.390. School districts shall ensure that special education students as a class receive their full share of the general apportionment allocation accruing through sections 502 and 504 of this act. To the extent a school district cannot provide an appropriate education for special education students under chapter 28A.155 RCW through the general apportionment allocation, it shall provide services through the special education excess cost allocation funded in this section.

2)(a) The superintendent of public instruction shall ensure that:
(i) Special education students are basic education students first;
(ii) As a class, special education students are entitled to the full basic education allocation; and
(iii) Special education students are basic education students for the entire school day.
(b) The superintendent of public instruction shall adopt the full cost method of excess cost accounting, as designed by the committee and recommended by the superintendent, pursuant to section 501(1)(k), chapter 372, Laws of 2006, and ensure that all school districts adopt the method beginning in the 2007-08 school year.

3) Each fiscal year appropriation includes funds as necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

4) The superintendent of public instruction shall distribute state funds to school districts based on two categories: (a) The first category includes (i) children birth through age two who are eligible for the optional program for special education eligible developmentally delayed infants and toddlers, and (ii) students eligible for the mandatory special education program and who are age three or four, or five and not yet enrolled in kindergarten; and (b) the second category includes students who are eligible for the mandatory special education program and who are age five and enrolled in kindergarten and students age six through 21.

5)(a) For the 2007-08 and 2008-09 school years, the superintendent shall make allocations to each district based on the sum of:
(i) A district's annual average headcount enrollment of students ages birth through four and those five year olds not yet enrolled in kindergarten, as defined in subsection (4) of this section, multiplied by the district's average basic education allocation per full-time equivalent student, multiplied by 1.15; and
(ii) A district's annual average full-time equivalent basic education enrollment multiplied by the funded enrollment percent determined pursuant to subsection (6)(b) of this section, multiplied by the district's average basic education allocation per full-time equivalent student multiplied by 0.9309.
(b) For purposes of this subsection, "average basic education allocation per full-time equivalent student" for a district shall be based on the staffing ratios required by RCW 28A.150.260 and shall not include enhancements, secondary vocational education, or small schools.

6) The definitions in this subsection apply throughout this section.

(a) "Annual average full-time equivalent basic education enrollment" means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW 28A.225.250).
(b) "Enrollment percent" means the district's resident special education annual average enrollment, excluding the birth through age four enrollment and those five year olds not yet enrolled in kindergarten, as a percent of the district's annual average full-time equivalent basic education enrollment.
Each district's general fund--state funded special education enrollment shall be the lesser of the district's actual enrollment percent or 12.7 percent.  

(7) At the request of any interdistrict cooperative of at least 15 districts in which all excess cost services for special education students of the districts are provided by the cooperative, the maximum enrollment percent shall be calculated in accordance with subsection (6)(b) of this section, and shall be calculated in the aggregate rather than individual district units. For purposes of this subsection, the average basic education allocation per full-time equivalent student shall be calculated in the aggregate rather than individual district units.  

(8) To the extent necessary, ((53.926,000)) $53,926,000 of the general fund--state appropriation and $29,574,000 of the general fund--federal appropriation are provided for safety net awards for districts with demonstrated needs for special education funding beyond the amounts provided in subsection (5) of this section. If the federal safety net awards based on the federal eligibility threshold exceed the ((appropriated)) federal appropriation in this subsection (8) in any fiscal year, the superintendent shall expend all available federal discretionary funds necessary to meet this need.  

Safety net funds shall be awarded by the state safety net oversight committee subject to the following conditions and limitations:  

(a) The committee shall consider unmet needs for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding formulas. In the determination of need, the committee shall also consider additional available revenues from federal sources. Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards. In the determination of need, the committee shall require that districts demonstrate that they are maximizing their eligibility for all state and federal revenues related to services for special education-eligible students. Awards associated with (b) and (c) of this subsection shall not exceed the total of a district's specific determination of need.  

(b) The committee shall then consider the extraordinary high cost needs of one or more individual special education students. Differences in costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.  

(c) Using criteria developed by the committee, the committee shall then consider extraordinary costs associated with communities that draw a larger number of families with children in need of special education services. The safety net awards to school districts shall be adjusted to reflect amounts awarded under (b) of this subsection.  

(d) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.  

(e) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.  

(f) Safety net awards shall be adjusted based on the percent of potential Medicaid eligible students billed as calculated by the superintendent in accordance with chapter 318, Laws of 1999. The state safety net oversight committee shall ensure that safety net documentation and awards are based on current Medicaid revenue amounts.  

(9) The superintendent of public instruction may adopt such rules and procedures as are necessary to administer the special education funding and safety net award process. Prior to revising any standards, procedures, or rules, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature.  

(10) The safety net oversight committee appointed by the superintendent of public instruction shall consist of:  

(a) One staff from the office of superintendent of public instruction;  

(b) Staff of the office of the state auditor who shall be nonvoting members of the committee; and  

(c) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.  

(11) The office of the superintendent of public instruction shall review and streamline the application process to access safety net funds, provide technical assistance to school districts, and annually survey school districts regarding improvement to the process.  

(12) A maximum of $678,000 may be expended from the general fund--state appropriations to fund 5.43 full-time equivalent teachers and 2.1 full-time equivalent aides at children's orthopedic hospital and medical center. This amount is in lieu of money provided through the home and hospital allocation and the special education program.  

(13) A maximum of $1,000,000 of the general fund--federal appropriation is provided for projects to provide special education students with appropriate job and independent living skills, including work experience where possible, to facilitate their successful transition out of the public school system. The funds provided by this subsection shall be from federal discretionary grants.  

(14) The general fund--federal appropriation for fiscal year 2008 is $25,622,000 of the general fund--state appropriation for fiscal 2009, and $100,000 of the general fund--federal appropriation shall be expended to support a special education ombudsman program within the office of superintendent of public instruction. The purpose of the program is to provide support to parents, guardians, educators, and students with disabilities. The program will provide information to help families and educators understand state laws, rules, and regulations, and access training and support, technical information services, and mediation services. The ombudsman program will provide data, information, and appropriate recommendations to the office of superintendent of public instruction, school districts, educational service districts, state need projects, and the parent and teacher information center. Within the appropriations in this section there is sufficient funding provided to also provide at least a half-time support staff position for the special education ombudsman program.  

(15) The superintendent shall maintain the percentage of federal flow-through to school districts at 85 percent. In addition to other purposes, school districts may use increased federal funds for high-cost students, for purchasing regional special education services from educational service districts, and for staff development activities particularly relating to inclusion issues.  

(16) A maximum of $1,200,000 of the general fund--federal appropriation may be expended by the superintendent for projects related to use of inclusion strategies by school districts for provision of special education services.  

(17) The superintendent, consistent with the new federal IDEA reauthorization, shall continue to educate school districts on how to implement a birth-to-three program and review the cost effectiveness and learning benefits of early intervention.  

(18) A school district may carry over from one year to the next year up to 10 percent of the general fund--state funds allocated under this program; however, carryover funds shall be expended in the special education program.  

(19) $262,000 of the general fund--state appropriation for fiscal year 2008 and $251,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for districts with demonstrated needs for special education funding.

1. The general fund—state appropriations in this section are subject to the following conditions and limitations:
   (a) The appropriations include such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.
   (b) Funding for school district learning assistance programs shall be allocated at maximum rates of $(220.34) per fund for the 2007-08 school year and $(224.73) per fund for the 2008-09 school year exclusive of salary and benefit adjustments provided under section 504 of this act.
   (c) A school district's funded students for the learning assistance program shall be the sum of the following as appropriate:
      (i) The district's full-time equivalent enrollment in grades K-12 for the prior school year multiplied by the district's percentage of October headcount enrollment in grades K-12 eligible for free or reduced price lunch in the prior school year; and
      (ii) If, in the prior school year, the district's percentage of October headcount enrollment in grades K-12 eligible for free or reduced price lunch exceeded forty percent, subtract forty percent from the district's percentage and multiply the result by the district's K-12 annual average full-time equivalent enrollment for the prior school year.
   (d) In addition to amounts allocated in (b) and (c) of this subsection, an additional amount shall be allocated to a school district for each school year in which the district's allocation is less than the amount the district received for the general fund—state learning assistance program allocation in the 2004-05 school year. The amount of the allocation in this section shall be sufficient to maintain the 2004-05 school year allocation.
   (e) If Second Substitute Senate Bill No. 6673 (student learning opportunities) is enacted by June 30, 2008, in addition to the amounts allocated in (b), (c), and (d) of this subsection, an additional amount shall be allocated to school districts with high concentrations of poverty and English language learner students beginning in the 2008-2009 school year, subject to the following rules and conditions:
      (i) To qualify for additional funding under this subsection, a district's October headcount enrollment in grades kindergarten through grade twelve must have at least twenty percent enrolled in the transitional bilingual instruction program based on an average of the program headcount taken in October and May of the prior school year, and must also have at least forty percent eligible for free or reduced price lunch based on October headcount enrollment in grades kindergarten through twelve in the prior school year.
      (ii) Districts meeting the specifications in (e)(i) of this subsection shall receive additional funded students for the learning assistance program at the rates specified in subsection (1)(b) of this section. The number of additional funded student units shall be calculated by subtracting forty percent from the district's percent transitional bilingual instruction program enrollment as defined in (e)(i) of this subsection, and the resulting percent shall be multiplied by the district's kindergarten through twelve annual average full-time equivalent enrollment for the prior school year.
2. The general fund—federal appropriation in this section is provided for Title I Part A allocations of the no child left behind act of 2001.
3. Small school districts are encouraged to make the most efficient use of the funding provided by using regional educational service district cooperatives to hire staff, provide professional development activities, and implement reading and mathematics programs consistent with research-based guidelines provided by the office of the superintendent of public instruction.

5. School districts are encouraged to coordinate the use of these funds with other federal, state, and local sources to serve students who are below grade level and to make efficient use of resources in meeting the needs of students with the greatest academic deficits.

(a) Address all geographic areas of Puget Sound including upland areas and tributary rivers and streams that affect Puget Sound;

The council shall develop with the panel in developing these elements of the plan;

(d) Identify and prioritize the strategies and actions necessary to restore and protect Puget Sound and to achieve the goals and objectives described in RCW 90.71.300;

(c) Existing plans and agreements signed by the governor, the commissioner of public lands, other state officials, or by federal agencies;

(d) Appropriate portions of the Puget Sound water quality management plan existing on July 1, 2007.

(3) Until the action agenda is adopted, the existing Puget Sound management plan and the 2007-09 Puget Sound biennial plan shall remain in effect. (4) The council shall adopt the action agenda by (September) December 1, 2008. The council shall revise the action agenda as needed, and revise the implementation strategies every two years using an adaptive management process informed by tracking actions and monitoring results in Puget Sound. In revising the action agenda and the implementation strategies, the council shall consult the panel and the board and provide opportunity for public review and comment. Biennial updates shall:

SIGNED BY THE SPEAKER

RESOLUTION

WHEREAS, Representative Helen Sommers has honorably and distingusihably served the people of the 36th Legislative District for 36 years; and

WHEREAS, Representative Helen Sommers has led with wisdom, grace, and dignity, and taught lesser souls such as ourselves the way, we kneel in reverence and deep appreciation; and

WHEREAS, Helen's past is just as interesting as her present; as a very young woman, she had the courage to leave her home in New Jersey to go live and work in Venezuela; and

WHEREAS, Helen Sommers can just as easily contrast alternative state pension funding methodologies as she can different geological eras – in Spanish or English, no less; and

WHEREAS, Many generations of Washington students owe a debt of gratitude to Helen for her unwavering belief in the benefits of a good education; and

WHEREAS, Over her many years in the Legislature, various members have used many varying terms when describing their relationship with Helen including trepidation, intimidation, fear, love, but most often respect; and

WHEREAS, Helen has, when faced with being blamed for many things throughout her illustrious career, merely shrugged it off with the comment, "What's another stripe to a tiger?"; and

WHEREAS, Woe be to the staff person who handed Helen a document without the pages numbered; and

WHEREAS, Helen, pound for pound, packs more power than any other person on campus--yet she remains a font of common sense; and

WHEREAS, Although the intricacies of pension law confound many public policy experts, her persistent dedication to the sometimes obscure principles of pension funding has ensured a stable, well-funded pension system for the taxpayers and public employees of the state; and

JOURNAL OF THE HOUSE
WHEREAS, Helen saw to the nutritional needs of her fellow appropriations committee members by pulling endless bags and boxes of Trader Joe's snacks out of her bottom drawer, thereby theoretically eliminating our need for a real dinner break; and

WHEREAS, The greatest joy for some members of her committee was to see her smile and watch her laugh at some of the worst jokes from the minority party; and

WHEREAS, Helen Sommers is the inspirational compost-turning champion of the 36th District; and

WHEREAS, Helen Sommers would never approve of a resolution honoring Helen Sommers; and

WHEREAS, Helen Sommers would ask that this resolution briefly conclude its remarks as there are a lot more bills to get through on today's agenda; and

WHEREAS, Helen has decided that 36 years of legislating is quite enough, thank you; and

WHEREAS, The Washington State Legislature will not be the same without her;

NOW, THEREFORE, BE IT RESOLVED, That the House of Representatives celebrate and commemorate the distinguished legislative, professional, and, most of all, personal career of Washington State Representative Helen Sommers; and

BE IT FURTHER RESOLVED, That copies of this resolution be immediately transmitted by the Chief Clerk of the House of Representatives to Washington State Representative Helen Sommers.

Representative Kessler moved the adoption of the resolution.

Representatives Kessler, DeBolt, Dunshee, Alexander, Dickerson, Ross, Fromhold, Anderson, Hunt, Hinkle, Linville, McIntire and Hankins spoke in favor of the adoption of the resolution.

SPEAKER'S PRIVILEGE

Mr. Speaker: "On a personal level, I would like you to think about a couple of things. One is that about the time Helen started in the Legislature, I was a student at the University of Washington. Think about the numbers – 36 years of service, millions of our fellow Washingtonians have gone through higher education in this State. The greatest advocate higher education has had in this State has been Helen Sommers. I am a proud recipient of that great advocacy over the years having gone through the University of Washington myself. Thank you, Helen for all that great work. Millions owe you a debt of gratitude."

HOUSE RESOLUTION NO. 4717 was adopted.

POINT OF PERSONAL PRIVILEGE

Representative Kessler thanked the Speaker for his leadership. She explained that members traditionally take a collection for a Speaker's gift but this year opted to give a special gift to the gentlelady from the 36th District.

POINT OF PERSONAL PRIVILEGE

Representative DeBolt thanked the Speaker on behalf of the minority caucus.

SPEAKER'S PRIVILEGE

Mr. Speaker: "Thank you very much for your kind remarks, Richard and Lynn. I appreciate it.

There are a couple of people I would like to recognize in the Chief Clerk's Office. Let's really hear it for Barbara Baker and Bernard Dean who have done a great job for the entire House."

To the Honorable Speaker and Members,  
House of Representatives of the State of Washington  

Ladies and Gentlemen:  

I am returning, without my approval as to Section 40, Fourth Substitute House Bill 1103 entitled:  

"AN ACT Relating to health professions."

This bill ensures that all health care providers in Washington State are well-qualified by strengthening the state's standards for credentialing and disciplining providers.

Section 40 is an emergency clause. Fourth Substitute House Bill 1103 increases the authority of regulators to remove health care practitioners who pose a risk to the public but does not necessitate an emergency clause. An emergency clause is to be used where it is necessary for the immediate preservation of the public peace, health or safety or whenever it is essential for the support of state government. I do not believe that an emergency clause is needed.

For this reason, I have vetoed Section 40 of Fourth Substitute House Bill 1103.

With the exception of Section 40, Fourth Substitute House Bill 1103 is approved.

Respectfully submitted,  
Christine O. Gregoire

March 28, 2008

To the Honorable Speaker and Members,  
House of Representatives of the State of Washington  

Ladies and Gentlemen:  

I am returning, without my approval as to Section 16, Third Substitute House Bill 1741 entitled:

"AN ACT Relating to the oral history program."

Sections 1 through 15 of this bill transfer the legislative portion of the Oral History Program, now called the Legislative Oral History Project, from the Office of the Secretary of State to the Legislature. The Secretary of State will continue to conduct and record histories of the Washington state executive and judicial branches, the state's congressional delegation, and other citizens who have participated in the political history of the state under a new program called the Washington State Legacy Project.

Section 16 would declare this act null and void if funding were not provided specifically for this measure in the omnibus appropriations act. The bill provides for funding for legislative oral history projects to come from proceeds from the Legislative Gift Center. The scope of oral history projects conducted can vary depending upon the resources available.

In order to preserve the policy in the bill, I am vetoing Section 16 to permit the bill to become law even if the money is removed from the budget.

For this reason, I have vetoed Section 16 of Third Substitute House Bill 1741.

With the exception of Section 16, Third Substitute House Bill 1741 is approved.

Respectfully submitted,  
Christine O. Gregoire

To the Honorable Speaker and Members,  
House of Representatives of the State of Washington  

Ladies and Gentlemen:  

I am returning, without my approval, Substitute House Bill 2496 entitled:

"AN ACT Relating to enhancing the mobility of certified public accountants."

This bill is a duplicate of Substitute Senate Bill 6604, which I am signing today. Substitute House Bill 2496 is therefore redundant.

For these reasons, I have vetoed Substitute House Bill 2496 in its entirety.

Respectfully submitted,
To the Honorable Speaker and Members,
House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 1 and Section 8, Engrossed Second Substitute House Bill 2647 entitled:

"AN ACT Relating to the children's safe products act."

Section 1 is an intent section that affirms the importance of regulating toxic chemicals in children's products. However, this section could be read to create obligations that are beyond what state government can deliver.

Section 8 requires the Department of Ecology to adopt a rule that identifies chemicals of high concern for children by January 1, 2010. This section is premature and preempts the process identified in Section 4. Section 4 directs the Department of Ecology to identify these chemicals and report to the Legislature on policy options for addressing the chemicals by January 1, 2009. The Legislature should have the benefit of this report before the state proceeds to rulemaking to impose additional reporting and testing requirements.

For these reasons, I have vetoed Section 1 and Section 8 of Engrossed Second Substitute House Bill 2647.

Without careful implementation, this bill could adversely affect the availability of safe toys in our state, including important educational toys. To address this concern, I will establish an advisory group to work with the Departments of Ecology and Health to make sure we implement the bill with common sense, and to work on needed legislative fixes for next session. I will ask both large and small toymakers and children's products retailers, children's health experts, and public interest representatives to work together on these tasks, and I will invite state legislators to participate.

Section 2 applies the new standards in this bill to all components found in children's car seats, beginning in July 2009. Limited testing to date shows that children's car seats will meet the standards in the bill, and most seats are made with few metal components. Nonetheless, we must be absolutely certain this bill will not reduce the safety of car seats. I will ask the advisory group to take a close look at this issue and recommend rules and changes in law as needed.

I will ask the group to look at standards for both the outer surface of toys and the inside of toys, and to consider the timelines needed for the industry to implement these new standards. I will ask them to develop recommendations for legislation to ensure safe products in a manner that is practical and achievable for the industry.

Section 3 of the bill could be misinterpreted to prohibit toys with internal electronic components. I believe the bill does not prohibit these internal components, and was not intended to do so. Therefore, I direct the Department of Ecology, working with the advisory group, to conduct expedited rulemaking this year to clarify the effect of the bill accordingly.

Section 4 directs Ecology to develop a list of chemicals with potential adverse effects on children. The language in this section could result in a long list of chemicals, and future reporting requirements beyond those needed to ensure the safety of children's products. The department's fiscal analysis of the bill assumed no more than fifty chemicals would be identified, and the Legislature has funded their work accordingly. I ask the Department to focus on the highest priority chemicals, considering good science on the effects of chemicals on the health of children, and those chemicals likely to be found in children's products. The Department should rely on safety testing conducted in the European Union and California, to the extent they provide a reasonable assurance of safety, in order to help establish a degree of consistency for the industry.

Section 5 requires manufacturers to report on the chemicals found in their children's products. I have retained this portion of the bill, as a future tool for ensuring the safety of our children, as needed. By my veto of Section 8, as described above, I have removed the bill's 2010 deadline to begin mandatory reporting. This will give us time to review the extent of reporting, consider duplication with other testing currently done by the industry, and determine how to most efficiently implement these new requirements. It will also allow us to determine whether or not proprietary information should be reported and, if so, how we can ensure that protected trade secrets are not disclosed.

With the exception of Section 1 and Section 8, Engrossed Second Substitute House Bill 2647 is approved.

Respectfully submitted,
Christine O. Gregoire

To the Honorable Speaker and Members,
House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 6 and 9, Engrossed Second Substitute House Bill 2668 entitled:

"AN ACT Relating to long-term care."

This bill includes the policy recommendations from the Governor's Long-Term Care Task Force designed to meet increased demands for long-term care that supports autonomy and self-determination in people's homes and in community settings rather than institutions.

Sections 6 and 9 were not funded by the legislature in the budget, and are therefore null and void pursuant to Section 15 of this bill. For these reasons, I have vetoed Sections 6 and 9 of Engrossed Second Substitute House Bill 2668.

With the exception of Sections 6 and 9, Engrossed Second Substitute House Bill 2668 is approved.

Respectfully submitted,
Christine O. Gregoire

To the Honorable Speaker and Members,
Ladies and Gentlemen:

I am returning, without my approval as to Sections 1, 3, 4 and 6, Substitute House Bill 2679 entitled:

"AN ACT Relating to improving educational outcomes for students in foster care."

This bill relates to projects to improve educational outcomes for students in foster care.

Section 1 creates a foster care program supervisor at the Puget Sound Educational Service District.

Section 3 directs the Puget Sound Educational Service District to create a grant program for school districts to improve stability and educational outcomes for students in foster care.

Section 4 directs the Children's Administration to fund two school district-based foster care recruitment pilots.

While it is important to provide services to students in foster care, these services should be informed by effective practice and formulated in a coordinated manner. In 2007, the Legislature created the Building Bridges grant program (HB 1573) which funds partnerships of schools, families, and communities to build a comprehensive dropout prevention, intervention and retrieval system. These grants will serve at-risk middle and high school students; targeted student populations include youth in foster care. The Children's Administration, in the Department of Social and Health Services, currently has educational advocacy coordinators. In addition, the supplemental budget enhances funding for the Children's Administration to provide Child Health Education and Tracking (CHET) screenings for all children who are in out-of-home care for 30 days or longer. Before new pilot programs are initiated, we need to evaluate the effectiveness of current programs and consider the best approach to coordinating services.

Section 6 of Substitute House Bill 2679 makes the act null and void if specific funding for this act is not provided in the omnibus appropriations act. The funding in the budget was specifically for Sections 1, 3, and 4. To retain the policies in Sections 2 and 5, this null and void section must be vetoed.

For these reasons, I am vetoing Sections 1, 3, 4, and 6 of Substitute House Bill 2679.

With the exception of Sections 1, 3, 4, and 6, Substitute House Bill 2679 is approved.

Respectfully submitted,
Christine O. Gregoire

"AN ACT Relating to fiscal matters."

I am vetoing the following sections because I disagree with the overall policy or direction, or for technical reasons that include alignment with vetoed bills, or bills that did not pass, drafting errors, and conflicts with existing statutes.

Section 114(2), page 16, Office of the Governor, Implementation of SB 6313 (disability history)

Funds were added to implement Senate Bill 6313, but the bill does not add duties to the Office of the Governor.

Section 123(12), pages 26-27, Attorney General, SSB 6385 (real property)

This proviso funds implementation of Substitute Senate Bill 6385 pertaining to real property, and stipulates that the appropriation shall lapse if the bill is not enacted. The Legislature did not pass the bill.

Section 125(84), page 48, Department of Community, Trade and Economic Development, Implementation of ESSB 5959 (Transitional Housing)

The proviso provides funds to administer the Transitional Housing Operating and Rent program if certain sections of Engrossed Substitute Senate Bill 5959 are enacted. The referenced sections were not included in the final version of the bill.

Section 127(11), page 52, Office of Financial Management, Implementation of E2SB HB 2631 (Office of Regulatory Assistance)

This proviso funds the implementation of Engrossed Second Substitute House Bill 2631. The Legislature did not pass the bill.

Section 127(12), page 52, Office of Financial Management, Tracking I-960 Costs

The proviso requires the Office of Financial Management (OFM) to track all expenditures and FTE utilization in state government related to the responsibilities of Initiative 960, and to report to the fiscal committees of the Legislature by November 1, 2008. Although OFM is tracking its own expenditures, the majority of work in other agencies has already taken place so an additional expense of recreating records would be incurred throughout government.

Section 206(21), page 116, Department of Social and Health Services Aging and Adult Services, Long Term Care Worker Certification and Training

This proviso funds Engrossed Substitute House Bill 2693 relating to long-term care worker certification and training, and stipulates that the appropriation will lapse if the bill is not
enacted. The Legislature did not pass the bill.

Section 211, page 135, lines 30-35, Department of Social and Health Service Special Commitment Center Program, Commitment Center Calls

This proviso funds implementation of Substitute House Bill 2756, pertaining to commitment center calls, and stipulates that the appropriation will lapse if the bill is not enacted. The Legislature did not pass the bill.

Section 216, page 143, lines 20-27, Board of Industrial Insurance Appeals, E2SHB 3139 (industrial insurance benefits on appeal)

The proviso funds the Board of Industrial Insurance Appeals to implement Engrossed Second Substitute House Bill 3139. However, the proviso requires the funds be used solely for the payment of benefits. The Board of Industrial Insurance Appeals adjudicates appeals but does not pay benefits, so it will be unable to use these funds to implement the bill.

Section 218(19), page 151, Department of Labor and Industries, ESSB 5831 (HVAC and refrigeration)

The proviso funds the Department of Labor and Industries to implement Engrossed Substitute Senate Bill 5831. However, the final version of the bill requires no additional money.

Section 218(20), page 151, Department of Labor and Industries, E2SHB 3139 (industrial insurance benefits on appeal)

The proviso funds the Department of Labor and Industries to implement Engrossed Second Substitute House Bill 3139. However, the funds are from the appropriated accident and medical aid accounts and the proviso requires the funds be used solely for the payment of benefits. The appropriated accident and medical aid accounts are the administrative accounts the Department uses for its industrial insurance operations and not for the payment of benefits. Benefits are paid from the non-appropriated portion of the accident and medical aid funds, so the department will be unable to use the funds provided to implement the bill.

Section 222(53), pages 165-166, Department of Health, Long Term Care Worker Certification and Training

This proviso funds Engrossed Substitute House Bill 2693, relating to long-term care worker certification and training, and stipulates that the appropriation will lapse if the bill is not enacted. The Legislature did not pass the bill.

Section 224(1)(b), pages 168-169, Department of Corrections Administration and Support Services, Advisory Committee

This proviso requires the Department of Corrections to establish the offenders in families advisory committee. The Department currently has voluntary family committees at each institution, making this requirement unnecessary.

Section 224(1)(i), pages 169-170, Department of Corrections Administration and Support Services, McNeil Island Corrections Center Closure Evaluation

This proviso requires the Department of Corrections to study the costs and benefits of closing McNeil Island Corrections Complex, but no funding is provided.

Section 302(32), page 189, Department of Ecology, E2SHB 3186, Beach Management Districts

I have vetoed the portion of Engrossed Second Substitute House Bill 3186 that places new requirements on state agencies for technical assistance, coordination, monitoring and assessment. Therefore, the funds will not be needed.

Section 302(33), page 189, Department of Ecology, 2SHB 3227, Hood Canal Water Quality

This proviso funds implementation of Second Substitute House Bill 3227, pertaining to Hood Canal Water Quality. The Legislature did not pass this bill.

Section 302(37), page 190, Department of Ecology, E2SSB 6502, Release of Mercury

This proviso funds implementation of Engrossed Second Substitute Senate Bill 6502 pertaining to Release of Mercury, and stipulates that the appropriation will lapse if the bill is not enacted. The Legislature did not pass the bill.

Section 302(39), page 190, Department of Ecology, ESSB 6308, Climate Change Research, Preparation, and Adaptation

This proviso funds implementation of Engrossed Substitute Senate Bill 6308, pertaining to Climate Change Research, Preparation, and Adaptation, and stipulates that the appropriation will lapse if the bill is not enacted. The Legislature did not pass the bill.

Section 307(31), pages 204-205, Department of Fish and Wildlife, E2SHB 3186, Beach Management Districts

I have vetoed the portion of Engrossed Second Substitute House Bill 3186 that places new requirements on state agencies for technical assistance, coordination, monitoring and assessment. Therefore, the funding is not needed.

Section 307(32), page 205, Department of Fish and Wildlife, Damage to Livestock by Wildlife

This proviso requires the Department of Fish and Wildlife to compensate commercial livestock owners for damage caused by wildlife. While I appreciate the financial needs of livestock owners, the Department has no statutory authority to provide this type of compensation.

Section 307(44), pages 206-207, Department of Fish and Wildlife, SSB 6307, Puget Sound Marine Managed Areas

This proviso funds implementation of Substitute Senate Bill 6307 pertaining to Puget Sound Marine Managed Areas. It stipulates that the appropriation will lapse if the bill is not enacted. The Legislature did not pass the bill.

Section 308(27), page 213, Department of Natural Resources, E2SHB 3186, Beach Management Districts

I have vetoed the portion of Engrossed Second Substitute House Bill 3186 that places new requirements on state agencies for technical assistance, coordination, monitoring and assessment so the funding is not needed.

Section 311(5), page 218, Puget Sound Partnership, SSB 6307, Puget Sound Marine Managed Areas

This proviso funds implementation of Substitute Senate Bill 6307 pertaining to Puget Sound Marine Managed Areas. It stipulates that the appropriation will lapse if the bill is not enacted. The Legislature did not pass the bill.

Section 501(2)(a)(x), pages 235-236, Superintendent of Public Instruction, E2SHB 2712 (Criminal Street Gangs)

Engrossed Second Substitute House Bill 2712 pertaining to criminal street gangs does not include provisions requiring
the Office of the Superintendent of Public Instruction (OSPI) to create a brochure based on the recommendations of the task force on gangs. Therefore, OSPI does not need $180,000 for development, translation, and printing of brochures.

Section 501(2)(c)(xvii), pages 239-240, Superintendent of Public Instruction, PSAT

This appropriation provides reimbursement to school districts for costs associated with offering the Preliminary Scholastic Aptitude Test (PSAT) to tenth grade students. While this test may provide students some information about their readiness for the SAT and college preparedness, it is a new approach that has not been tested in Washington. There are other efforts already under way, such as the mathematics college readiness assessment, which has shown promising results in Washington schools to influence students' course-taking decisions and preparedness for college-level work.

Section 501(2)(c)(xviii), page 240, Superintendent of Public Instruction, Dual Credit Workgroup

This proviso adds funding for the Office of Superintendent of Public Instruction (OSPI) to convene a multi-agency workgroup regarding statewide coordination of dual credit programs, such as Running Start and Advanced Placement. Because this is a fundamental responsibility of all agencies involved in dual credit programming, they do not require additional funding to conduct this planning and analysis. I am asking that OSPI, the State Board for Community and Technical Colleges, representatives from public four-year institutions of higher education, the Workforce Training and Education Coordinating Board, the Council of Presidents, and the Higher Education Coordinating Board work together, with input from local programs, to develop a statewide coordinated plan for dual credit programs.

Section 507(4), page 264, Superintendent of Public Instruction--Educational Service Districts, Reading Improvement Specialist, pursuant to E2SSB 6673 (Student Learning Opportunities)

This proviso adds $876,000 for reading improvement specialists at the Educational Service Districts. Reading was an early focus for school improvement efforts. A number of programs and services continue to focus on improving reading achievement, such as Reading First federal grants; Reading Corps; and district-focused activities with federal Title I, state Learning Assistance Program, and other sources. The Office of the Superintendent of Public Instruction also has used federal Title II funds to provide targeted professional development in reading instruction for secondary schools.

Section 507(5), page 264, Superintendent of Public Instruction--Educational Service Districts, Outreach to Community-Based Organizations, pursuant to E2SSB 6673 (Student Learning Opportunities)

This proviso appropriates funds to Educational Service Districts to develop and provide a program of outreach to community-based programs and organizations that are serving non-English speaking segments of the population, as well as those programs that target groups of students that are struggling academically. This idea should be considered within the context of the studies, funded in other parts of this budget and due this December, that will analyze and make recommendations on how to close the achievement gap.

Section 511(46), page 285, Superintendent of Public Instruction--Education Reform, Career Opportunities pursuant to E2SSB 6673 (student learning opportunities)

This proviso appropriates funding for a grant program to school districts to provide summer school funding for middle and high school students to explore career opportunities in math, science, and technology. Similar programs are already offered by school districts, skills centers and private organizations. One exciting opportunity initiated in 2006 is the Washington Aerospace Scholars, a statewide partnership through the Washington Aerospace Scholars Foundation with The Museum of Flight, schools, and business partners. The program gives high school students the opportunity to participate in hands-on engineering activities, tour facilities at Boeing, the University of Washington, Microsoft, and Battelle, receive mentoring from astronauts, pilots, engineers and scientists, and conduct a project on Mars exploration.

Section 601(2), pages 296-297, Higher Education, Salary Increases at Institutions of Higher Education

There is a drafting error in this section, which could result in a policy change the Legislature did not consider.

Child Care for Students
Section 605(14), page 309, State Board for Community and Technical Colleges, and
Section 613(9), page 343, Higher Education Coordinating Board

Substitute House Bill 2582 takes the first step toward the goal of expanding child care by laying out a new matching grant procedure and allowing student governments at each college to raise funds through private donations. However, expanding the combined two- and four-year programs from $100,000 per year to $1.1 million per year should be evaluated in the biennial budget process when it can be reviewed in context with existing child care programs.

Section 605(23), page 311, State Board for Community and Technical Colleges, Adult Literacy Education

This proviso directs the State Board for Community and Technical Colleges to convene a one-day summit on adult literacy and to conduct a media campaign to inform citizens about the availability of adult literacy programs and services. The Board should consider making adult literacy a feature of its media campaigns and convening a summit to inform the public on the status of its adult literacy programs within existing appropriations.

Section 608(7), page 327, Eastern Washington University
Section 609(8), page 330, Central Washington University
Section 610(13), page 333, The Evergreen State College
Section 611(10), page 338, Western Washington University

Last year, I asked each higher education institution what campus safety issues were most important to them. We learned from national experts' recommendations following the Virginia Tech shooting. We learned more following the tragedy at Northern Illinois. My budget proposal funded critical equipment and technology to warn students at all campuses.

Instead, these provisos fund one mental health counselor for each institution, regardless of size. The community and technical colleges, home to the majority of our higher education enrollment, is excluded entirely. If an institution...
determines that a mental health counselor is the best investment for the institution, it can direct its own resources to this program. As part of their work pursuant to Second Substitute House Bill 2507 and Substitute Senate Bill 6328, I ask each four-year institution and the State Board for Community and Technical Colleges to develop prioritized lists of possible investments and any legislation required to make student safety a priority in the 2009 Session.

Section 606(24), page 319, University of Washington, Biota Impacts from Low Dissolved Oxygen in Hood Canal

Since 2003, Congressman Norm Dicks has sounded the alarm about the health of Hood Canal, securing federal funding to study the low dissolved oxygen content in Hood Canal. This allowed the University of Washington (UW) to create the Hood Canal Dissolved Oxygen program, which investigates the causes of the problem and, along with the Puget Sound Partnership, attempts to find a solution. Given the extensive work under way by the Partnership and the UW, we need to ensure that all funding for this problem works together, and that we do not duplicate efforts.

Section 610(18), page 334, The Evergreen State College, Examine Data Gathered Through Sex Offender Address Verification Activities

The Washington Association of Sheriffs and Police Chiefs (WASPC) is overseeing a program to verify the address and residency of all registered sex offenders and kidnapping offenders. As part of this program, WASPC will collect performance data from all participating jurisdictions to evaluate the efficiency and effectiveness of the address and residency verification program. In addition, the Institute for Public Policy at The Evergreen State College was tasked with assessing the prevalence of sex offenders who register as homeless as a means to avoid disclosing their residence. This analysis can be completed by WASPC in its administration of the program and assessment of its effectiveness.

Section 612(8), page 340, Higher Education Coordinating Board, E2SHB 2783 (Education Transfer Articulation)

Engrossed Second Substitute House Bill 2783 creates work groups and outlines tasks to improve student credit transferability among community and technical colleges and four-year institutions of higher education. While this focuses on the right problems, efforts already exist at the Higher Education Coordinating Board (HECB) and State Board for Community and Technical Colleges (SBCTC) in this area. I am asking the agencies to continue their work to develop ways to inform students, in clear language, about the transfer process and to address barriers to student transfers, especially for those transferring from technical programs or career schools. I also ask the HECB, SBCTC, and Washington Student Lobby to present proposals on transfer issues to the P-20 Council. Finally, I also want the HECB and SBCTC to refine and combine their plans for a web-based advising system.

Section 612(9), page 340, Higher Education Coordinating Board, Prior Learning Work Group

A barrier to the smooth transition from work to post-secondary education and training is how institutions evaluate and give credit for prior learning. The Higher Education Coordinating Board, State Board for Community and Technical Colleges, and Workforce Training and Education Coordinating Board have been working on this issue for years, and the State Board's prior learning assessment guidelines for colleges are an outgrowth of that work. I want these three agencies to continue working to ensure that prior learning is evaluated and utilized effectively at each campus, in each sector within existing resources.

Section 906, page 376, Washington State Gambling Commission, Gambling Revolving Fund

This section directs both the Gambling Commission and Office of Financial Management to address cash flow issues pursuant to RCW 43.88.050. However, the correct statutory reference is 43.88.260(2)(b).

Thoughtful choices and fiscal discipline are the keys to delivering what is most important to Washington's citizens. Saving money now will help Washington's students, families and seniors count on these investments being there for them in the future. A top priority for this budget must be maintaining a significant reserve. While the budget passed by the Legislature already left a notably high reserve of $835 million, I have identified a number of items that, although valuable, are not essential to do right now. These are instances where there are additions to existing programs or new programs that are started that we may not be able to sustain. Vetoing these items now will help build an even bigger reserve, and has an important impact on future budgets. That is why I am vetoing:

For these reasons, I have vetoed Sections 103(14); 113(2); 114(2); 123(6); 123(12); 125(41); 125(62); 125(76); 125(78); 125(84); 127(11); 127(12); 147(5); 202(26); 202(27); 202(33); 202(34); 202(36); 203(9); 204(1)(u); 204(3)(b); 204(4)(b); 206(21); 209(29); 211, page 135, lines 30-35; 212(10); 216, page 143, lines 20-27; 218(19); 218(20); 222(37); 222(46); 222(51); 222(53); 224(1)(h); 224(1)(i); 302(27); 302(32); 302(33); 302(37); 302(39); 303(18); 307(31); 307(32); 307(44); 308(27); 311(5); 501(2)(a)(vi); 501(2)(a)(x); 501(2)(c)(xv); 501(2)(c)(xvi); 501(2)(c)(xviii); 507(4); 507(5); 507(6); 511(46); 511(48); 601(2); 605(14); 605(23); 605(24); 606(23); 606(24); 606(26); 606(27); 607(19); 607(22); 607(23); 608(7); 609(8); 610(13); 610(18); 611(9); 611(10); 612(8); 612(9); 613(9); and 906 of Engrossed Substitute House Bill 2687.

Respectfully submitted, Christine O. Greigore April 1, 2008

To the Honorable Speaker and Members, House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 1019, line 22; 1027; 1030; 1032; 1037; 3028 (5); and 3040, Engrossed Substitute House Bill 2765 entitled:

"AN ACT Relating to the capital budget."

Section 1019, page 27, line 22, Department of Community, Trade and Economic Development, Burley Mountain Lodge

This item is one of two appropriations for the same project. Because the Burley Mountain Lodge and the Cispus Environmental Learning Center are the same, I am vetoing the one referred to as Burley Mountain Lodge.

Section 1027, pages 36-37, Department of General Administration, Statewide Infrastructure: Preservation Minor Works

Infrastructure preservation is important for maintaining state facilities in good working order. This section reduces funding for these activities by $100,000. This veto restores funding levels to the original amount in the underlying budget so that drainage, lighting, and benches can be repaired at Heritage Park.

Section 1030, page 38, Department of General Administration, Minor Works -- Infrastructure Preservation

This item reduces funding for infrastructure preservation by $204,000. I am vetoing this section to restore funding so that Capitol Campus water and sewer projects and Cascades Gateway Center Campus sewer, water, and storm water projects can proceed.

Section 1032, page 39, Department of General Administration, Minor Works -- Program

This item reduces funding for infrastructure preservation...
Section 1037, page 42, Department of Personnel, Thurston County Childcare Needs Assessment -- Predesign
This item directs the Department of Personnel and Department of General Administration to do a predesign to determine childcare needs of state employees in Thurston County; existing licensed childcare capacity; preferred and alternate locations based on that need and capacity; optimum size of childcare space; and project costs for these locations. This work is to be completed by September 15, 2008. I am vetoing this section because this comprehensive analysis cannot be completed within this time frame with the resources provided.

Section 3028(5), page 68, Recreation and Conservation Funding Board, High Speed Watercraft Report
This proviso directs the Recreation and Conservation Funding Board to research hazards to the public from personal high-speed watercraft, such as jet skis, and to prepare a report with recommendations for increasing public enjoyment and safety when personal high-speed watercraft and other forms of motorized and non-motorized water recreation take place together. However, because funding for this research was not provided, I am vetoing this requirement.

Section 3040, pages 75-76, Department of Natural Resources, Recreation Capital Renovations
This proviso would – with a number of exceptions – prohibit the Department of Natural Resources from constructing or expanding facilities or trails for off-road recreation vehicles on state land until after June 30, 2009. I am vetoing this proviso because the Department of Natural Resources' planning process includes public input and considers all users and uses for recreation on state-managed lands. In keeping with Substitute House Bill 2472 that I signed, the Department of Natural Resources will also convene a workgroup to improve recreation on state-managed lands and promote safe, sustainable recreation. I will appoint a representative from my office to participate in this collaborative effort and am confident that the group will examine funding mechanisms, liability, and site-specific planning issues.

For these reasons, I have vetoed Sections 1019, line 22; 1027; 1030; 1032; 1037; 3028 (5); and 3040 of Engrossed Substitute House Bill 2765.

With the exception of Sections 1019, line 22; 1027; 1030; 1032; 1037; 3028 (5); and 3040, Engrossed Substitute House Bill 2765 is approved.

Respectfully submitted,

To the Honorable Speaker and Members,
House of Representatives of the State of Washington

Ladies and Gentlemen:
I am returning, without my approval, Engrossed Second Substitute House Bill 2783 entitled:

"AN ACT Relating to transfer and articulation between institutions of higher education."

Engrossed Second Substitute House Bill 2783 creates work groups and outlines tasks to improve student credit transferability among community and technical colleges and four-year institutions of higher education. In addition, a list of student rights is to be developed. While this legislation focuses on the right problems, efforts already exist at the Higher Education Coordinating Board (HECB) and the State Board for Community and Technical Colleges (SBCTC) in this area. I am concerned that setting up another work group may actually distract us from the work already underway.

To assure that all interested parties are aware of current efforts, I am taking the following actions. First, I am directing the HECB and the SBCTC to continue working on transfer issues through the Joint Access Oversight Group. I request that these agencies develop ways to inform students, in clear language, about the transfer process and the information they need to continue their educational careers. I also ask that the remaining barriers, especially for students transferring from technical programs or career schools be addressed.

Second, I am also directing the HECB and the SBCTC to refine and combine their plans for a web-based advising system. A single, unified proposal should review and build upon the Joint Access Oversight Group's focus group work, the SBCTC program plan, and other work.

I am also directing that the solution, products, and recommendations from the above efforts be presented to the P-20 Council. I am looking forward to this report.

For these reasons, I have vetoed Engrossed Second Substitute House Bill No. 2783 in its entirety.

Respectfully submitted,
Christine O. Gregoire

To the Honorable Speaker and Members,
House of Representatives of the State of Washington

Ladies and Gentlemen:
I am returning, without my approval as to Section 4, House Bill 2835 entitled:

"AN ACT Relating to requiring federal name-based criminal history record checks when a child is placed in out-of-home care in an emergency situation."

Section 4 is an emergency clause providing the bill with an immediate effective date. The Federal Bureau of Investigation has notified the State that it will extend provisional access to its name/descriptor criminal background check database until this bill takes effect. An emergency clause is therefore unnecessary.

For this reason, I have vetoed Section 4 of House Bill 2835.

With the exception of Section 4, House Bill 2835 is
approved.

Respectfully submitted,
Christine O. Gregoire

April 1, 2008

To the Honorable Speaker and Members,
House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 1, Engrossed Second Substitute House Bill 2844 entitled:

"AN ACT Relating to preventing air and water pollution through urban forestry partnerships."

Section 1 is an unnecessarily prescriptive and detailed intent section. For this reason, I have vetoed Section 1 of Engrossed Second Substitute House Bill 2844

I must note that the legislative budget only partially funds this bill. The Department of Community Trade and Economic Development (CTED) received funds for developing the Evergreen Communities grant program, model ordinances and plans. The Department of Natural Resources (DNR) is partially funded to provide CTED with technical expertise, to develop an urban forest inventory implementation plan, and to conduct two pilot inventories.

The highest priorities for these limited dollars are for DNR to (1) provide technical expertise to CTED and local governments, (2) develop the urban forest inventory implementation plan – focusing on the use of existing data and current inventory technologies, and (3) then to begin the pilot projects.

Conducting the community and urban forest inventories statewide is premature until DNR develops and tests an efficient inventory process. Funding for subsequent inventories should be considered as a separate policy decision in the future.

With the exception of Section 1, Engrossed Second Substitute House Bill 2844 is approved.

Respectfully submitted,
Christine O. Gregoire

March 25, 2008

To the Honorable Speaker and Members,
House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 102(6), 206(6), 212(2), 224(12), 224(14), 306(16), 306(17), 407(12), and 602, Engrossed Substitute House Bill 2878 entitled:

"AN ACT Relating to transportation funding and appropriations."

Section 102(6), page 3, Office of Financial Management – Development of Future Budget Proposals

I share the Legislature's expectation that the Office of Financial Management will work with the Legislature so that future budget proposals reflect criteria for performance excellence, include measures of earned value, and are aligned with the state's transportation goals. Even though I am vetoing Section 102(6), I direct the Office of Financial Management to continue its work with the Legislature and the state's transportation agencies to align budget proposals with the state's transportation goals and performance measure.

Section 206(6), page 10, Transportation Commission – Cost Reductions for Toll Operations

I appreciate the need to carefully control the costs associated with tolling so we will have efficient and effective tolling operations. Accountability regarding the use of toll revenue is essential. This proviso requires the Transportation Commission -- not the Department of Transportation -- to develop benchmarks and recommendations to reduce and control tolling operation costs. The Transportation Commission's role is to establish toll rates while the Department of Transportation's role is to evaluate and direct operations.

Although I am vetoing Section 206(6), the Office of Financial Management will work with the Department of Transportation, the Transportation Commission and others to evaluate toll operating costs on the Tacoma Narrows Bridge and SR 167 in comparison to other tolled facilities across the country to develop toll operating cost benchmarks. In addition, tolling operations issues will be examined in future Government Management Accountability & Performance sessions.

Section 212(2), page 18, Washington State Department of Transportation – Cost Reductions for Toll Operations

The proviso requires the Department of Transportation to develop incentives to reduce and control tolling operations costs, and to provide a report to the Transportation Commission. As a cabinet agency, the department is accountable to the Governor and it is not the role of the Transportation Commission to evaluate and direct the department's operations.

Although I am vetoing Section 212(2), the Department of Transportation will provide a report on incentives to reduce toll operating costs to the Office of Financial Management and the Legislature by December 1, 2008.

Section 224(12), pages 38-39, Washington State Department of Transportation -- Ferries -- Pilot Car Sharing Program in San Juan Islands

The proviso states that Washington State Ferries may investigate implementation of a car-sharing program in the San Juan Islands but also provides that Washington State Ferries shall submit a report to the Legislature by November 15, 2008. Because no funding is provided for the research and report, I am vetoing Section 224(12) but want the Department of Transportation's Commute Trip Reduction program to examine how a car-sharing program could work in the San Juan Islands.

Section 224(14), page 39, Washington State Department of Transportation -- Ferries -- Summer Schedule on Port Townsend/Keystone Route

The proviso includes an appropriation of $357,000 for two additional sailings per day on the Port Townsend/Keystone route from May 19, 2008 to September 8, 2008. Unfortunately, these dates do not correspond with the
already established summer sailing schedule for the Washington State Ferries that runs from June 15 to September 20. As a result, this will add operating costs beyond the $357,000 that is appropriated.

Although I am vetoing Section 224(14), the Department of Transportation and the Office of Financial Management will work with House and Senate Transportation Committee chairs to find options that fit within the amount of money provided and that also can meet the intent of the Legislature to provide additional service during the summer on this route.

Section 306(16), page 50, Transportation Account 2003 bond proceed appropriation

The proviso includes appropriation authority to spend up to $825,000,000 in proceeds from the sale of 2003 nickel account bonds. Due to a technical error, this amount excluded the extra money the state gets from bond premiums which can limit the funds available to support important projects already underway. Therefore, I am vetoing this section so that the ending fund balance in the nickel account will not be adversely affected.

Section 306(17), page 50, Transportation Partnership Account 2003 bond proceed appropriation

Similar to section 306(16), this proviso includes appropriation authority to spend up to $740,000,000 in proceeds from the sale of transportation partnership account bonds but this amount also excluded the bond premiums. Because this can adversely impact the ending fund balance in the transportation partnership account, I am vetoing this section.

Section 407(12), page 72, Administrative Transfer of Federal Funds

An administrative transfer of million in federal funds is made from the multimodal account-federal to the transportation infrastructure account-federal. The State Treasurer does not transfer federal funds within the Department of Transportation programs. Transfers of this sort are done internally at the Department of Transportation, so I am vetoing this section.

Section 602, page 76, Government Accounting Standards Board Asset Valuation

The Department of Transportation is already in full compliance with Government Accounting Standards Board (GASB) Statement 34 as it pertains to asset valuation of the state's highway systems, including the maintenance of an infrastructure asset inventory and regular assessments of the condition of assets. This critical information is already used to support strategic long-term investment decision-making in transportation capital project management and to set appropriate levels of asset maintenance and preservation.

Section 602 requires the Department to exceed the requirements of GASB 34 but does not provide additional funding. I vetoed similar language in 2005 and in 2007, and am vetoing this section.

For these reasons, I have vetoed Sections 102(6), 206(6), 212(2), 224(12), 224(14), 306(16), 306(17), 407(12), and 602 of Engrossed Substitute House Bill 2878.

With the exception of Sections 102(6), 206(6), 212(2), 224(12), 224(14), 306(16), 306(17), 407(12) and 602, Engrossed Substitute House Bill 2878 is approved.

Respectfully submitted,
Christine O. Gregoire
April 1, 2008

To the Honorable Speaker and Members,
House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 29 and 30, Engrossed Second Substitute House Bill 3186 entitled:

"AN ACT Relating to beach management districts."

This bill allows cities and counties to create Beach Management Districts, in order to raise funds for the improvement and maintenance of beaches with their boundaries.

Notwithstanding the existing authority provided to Lake Management Districts, Section 29 directs the Department of Ecology to provide technical assistance to Beach Management Districts in consultation with the Puget Sound Partnership. Since the Puget Sound Partnership is developing its first action agenda, the activities contemplated in Section 29 should be considered in relation to all other priorities for the clean up of Puget Sound.

Section 30 is a null and void clause and is unneeded.

For these reasons, I have vetoed Sections 29 and 30 of Engrossed Second Substitute House Bill 3186.

With the exception of Sections 29 and 30, Engrossed Second Substitute House Bill 3186 is approved.

Respectfully submitted,
Christine O. Gregoire
March 31, 2008

To the Honorable Speaker and Members,
House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 18, Engrossed Second Substitute House Bill 3254 entitled:

"AN ACT Relating to accountability for persons driving under the influence of intoxicating liquor or drugs."

Prevention of driving under the influence (DUI) collisions is a priority of my administration. The Ignition Interlock Driver's License will further our state's efforts to prevent DUI related fatalities on our roadways. The use of ignition interlocks has been proven to reduce future incidents of DUI among individuals who have been required to have the devices installed in their cars. However, I am concerned about potential unintended consequences of Section 18.

Section 18 allows first time offenders to receive a deferred prosecution, even if they are found not to have a drug or alcohol addiction. Current law only allows for deferred prosecution if a person is assessed to have a drug or alcohol addiction and agrees to receive treatment for their addiction.
This section presents a change in public policy, which may well promote public safety, but I believe further review is necessary before making this change. Therefore, I am vetoing this section and encourage stakeholders to consider the merits of this change over the interim. I am also directing the Division of Alcohol and Substance Abuse to review the current treatment assessment process to make sure we are getting accurate assessments. I also want them to determine if alternatives to treatment such as the one proposed in Section 18 might be a more cost-effective approach to public safety in certain instances involving first time DUI offenders.

For these reasons, I have vetoed Section 18 of Engrossed Second Substitute House Bill 3254.

With the exception of Section 18 of Engrossed Second Substitute House Bill 3254 is approved.

Respectfully submitted,
Christine O. Gregoire
